October 29, 2009 meeting, Board of Trustees

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND FIFTIETH
MEETING OF THE BOARD OF TRUSTEES

Columbus, Ohio, February 4 and 5, 2010

The Board of Trustees met Thursday, February 4 and Friday, February 5, 2010, at Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** *

Minutes of the last meeting were approved.

** ** *

February 5, 2010 meeting, Board of Trustees

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Thursday, February 4, 2010, at 9:00 am. He requested the Secretary to call the roll.

Present: Leslie H. Wexner, Chairman, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Ronald A. Ratner, Algenon L. Marbley, Linda S. Kass, William G. Jurgensen, Janet B. Reid, G. Gilbert Cloyd, Jason W. Marion, and Alexis L. Swain.

Mr. Wexner:

Good morning. Before we take the roll call vote to go into Executive Session, I want to announce that the full Board will reconvene tomorrow morning at 8:30 am.

I hereby move that the Board recess into Executive Session for consultation with University Legal Counsel and to discuss matters required to be kept confidential by State Statute.

Upon motion of Mr. Wexner, seconded by Mr. Schottenstein, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Leslie H. Wexner, Chairman, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Ronald A. Ratner, Algenon L. Marbley, Linda S. Kass, William G. Jurgensen, and Janet B. Reid.

-0-

The Chairman, Mr. Wexner, reconvened the meeting of the Board of Trustees to order on Friday, February 5, 2010, at 8:30 am. He requested the Secretary to call the roll.

Present: Leslie H. Wexner, Chairman, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, Robert H. Schottenstein, Alan W. Brass, Algenon L. Marbley, Linda S. Kass, William G. Jurgensen, Janet B. Reid, Gilbert G. Cloyd, Jason W. Marion, and Alexis L. Swain.

Mr. Wexner:

Good morning. I would like to reconvene the meeting of the Board of Trustees. Before we go into Executive Session, I want to announce that the full Board will reconvene this afternoon at 12:30 pm.

I hereby move that the Board recess into Executive Session to consider personnel matters regarding employment and compensation, for consultation with University legal counsel, and matters required to be kept confidential by State Statute.

Upon motion of Mr. Wexner, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Leslie H. Wexner, Chairman, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, Robert H. Schottenstein, Alan W. Brass, Algenon L. Marbley, Linda S. Kass, William G. Jurgensen, and Janet B. Reid.

-0-

The Chairman, Mr. Wexner, reconvened the meeting of the Board of Trustees to order on Friday, February 5, 2010, at 12:40 pm. He requested the Secretary to call the roll.

Present: Leslie H. Wexner, Chairman, Jo Ann Davidson, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, Robert H. Schottenstein, Algenon L. Marbley,

February 5, 2010 meeting, Board of Trustees

Linda S. Kass, William G. Jurgensen, Janet B. Reid, G. Gilbert Cloyd, Jason W. Marion, and Alexis L. Swain.

[ROSE BOWL VIDEO PRESENTATION]

Mr. Wexner:

Not that what we do revolves around football, but it is a part of our life and I thought it would be fun just to reminisce for a few seconds and watch the football team, think about the Big Ten Championship, the Rose Bowl, and of course our good fortune of having the best football teacher in America, Jim Tressel. Jim, thank you for joining us.

Mr. Tressel:

I got a call from Mr. Wexner in the middle of December and he told me to put this time and date on my calendar and he said if you win the Rose Bowl it will be one thing, and if you lose it, it might be a different thing. So I have had this date for some time and I am excited to say we won, and it makes it nicer. I just mentioned to President Gee that there is about 1,800 high school coaches over at the Hilton at Easton that we have been having a chance to interact with this weekend and I had a chance to address them this morning and talk about our young people and our University. We have a banquet tonight, so it is a fun weekend for us. We just finished a good recruiting year and now we are anxious to be home for a little bit, back on campus. I can tell you this, as we travel all over the country, everyone knows what Ohio State is all about, and it is very easy to walk into any high school and talk to any family in any living room because they know what is going on here and they know it is getting better and better. They know it is world renowned in many, many things, and it is just an honor to represent Ohio State, and I am happy to be here and happy to make this short because you are going to get stuck in the snow if you stay too long. Thank you so much, it is an honor to be here.

President Gee:

Let me just say a couple things. First of all, congratulations on the Rose Bowl, congratulations on a great season and congratulations on a continuing great season. When I take a look at our faculty colleagues over here, I think the thing that Jim Tressel is admired the most for within this University is the fact that he is as consummate of a University citizen as I have ever seen in my life. He loves the University. Ellen and Jim were instrumental in helping to build the William Oxley Thompson Library through their leadership, but Jim is a consummate teacher, and Jim has always said that in the end, what it is all about is teaching. He loves the University, loves every value that we have and represents it so well. I do not care if you could not coach at all, Jim, we love you so much for the values that you have. Fortunately you can also coach and so that makes it very special, anyway we are very proud. Will you tell Ellen how proud we are of her also, I would appreciate it.

Mr. Tressel:

Can I tell them the story about the development dinner? Some of you were at the development dinner before the Rose Bowl and I gave my passionate speech about how proud I was, that of the ten BCS teams, we had the highest academic progress rate (APR), and thought that was extra special and so forth. Our president took the podium and said that is really wonderful that you have the highest APR, but you better win that damn game. True story.

February 5, 2010 meeting, Board of Trustees

Mr. Wexner:

I am certainly happy that everybody has their priorities right. Will the Secretary please take the attendance?

Dr. Frantz:

A quorum is present Mr. Chairman.

Mr. Wexner:

I ask everybody to mute their cell phones or other communication devices so that we can go through the meeting without interruption.

In addition to the Rose Bowl, of course in January we had another celebration - February 2, was President Gee's birthday - a national holiday. Well it should be, come on President's day in Ohio. Proceeding on with more serious things, Alex, could I ask you to help us with the Student Recognition Awards, please.

-0-

STUDENT RECOGNITION AWARDS

Ms. Swain:

Thank you Mr. Wexner. I would like to call Pat and Rachel forward, and I am going to tell you a little about them.

Patrick Burns is a fourth year student pursuing a Bachelor of Science in Geological Sciences from the College of Mathematical and Physical Sciences. He is from Dayton, Ohio and is a graduate of Chaminade-Julienne Catholic High School.

Since December 2008, Pat has been a student researcher at the Byrd Polar Research Center where he is attempting to match changes in stream geochemistry to variations in land use and land type in a high elevation watershed in Peru. He won First Place in the Math and Physical Sciences category at the 2009 Denman Undergraduate Research Forum for his poster entitled "*Calculating Volume and Area Change in the Tropical Qori Kalis Glacier, Peru.*" The research presented will serve as the basis for his honors thesis and along with his field work that he conducted in Peru in the summer of 2009.

Patrick is a member of Sigma Gamma Epsilon Earth Sciences Honorary Society and Phi Kappa Phi. He has also served as an intern at the Ohio Department of Natural Resources Geological Survey and has volunteered with Habitat for Humanity. Pat will graduate with honors and distinction in the spring and is applying for graduate programs related to earth sciences and hydrology and is also submitting an application to Teach for America.

Rachel O'Connor is a fourth year student, pursuing a Bachelor of Arts in Psychology and Criminology from the College of Social and Behavioral Sciences with a minor in sexuality studies. Rachel is from Painesville, Ohio and is a graduate of Riverside High School.

During her junior year, Rachel completed her honors thesis titled "*Motivational Effects of Need to Belong on Intergroup Memory in Minimal Groups.*" She was awarded 2nd place at the 2009 Denman Research Forum and was recognized with the best undergraduate research poster at the Ohio Psychological Association's annual convention this fall. She was also able to present her research at the annual

February 5, 2010 meeting, Board of Trustees

meeting of the Society of Personality and Social Psychology in Las Vegas in January.

Rachel has applied her passion for social issue to her extracurricular activities, volunteering for Girls Circle and the Social Issues Immersion Project. She has also worked as an intern for the Community Shelter Board and the Kirwan Institute for the Study of Race and Ethnicity. She is also a member of the Psi Chi National Honorary in Psychology. She will graduate in March with honors and distinction and is planning to attend graduate school to pursue a PhD in social psychology focusing on stereotyping, prejudice, and intergroup relations.

I will present them with a certificate and a medallion and let's give them a round of applause.

Ms. O'Connor:

I want to start by thanking the Board of Trustees for this tremendous honor. When I came to Ohio State my only goal was to work hard and take advantage of all the opportunities Ohio State had to offer, of which there have been many. Never did I expect to be recognized for these efforts, but it is truly appreciated.

A special thank you to Dean Weary for nominating me. I also need to thank the many people who have helped me along the way. First and foremost are my parents, Mathew and Teresa O'Connor who, have always managed to find a balance between unconditional love and support, and encouraging me to work harder and be a better version of myself.

I would also like to thank my research advisors and mentors, Dr. William Cunningham and Dr. Jay Van Bavel. I owe many of my accomplishments to the guidance, advice and support they have given me. With them I have been able to explore the cognitive underpinnings of prejudice and an effort to combat harmful biases and make the world a more harmonious place. They have motivated me to further pursue this line of work in graduate school, and I thank them for exposing me to the topic I have become so passionate about.

I would also like to thank my friend and advisor Vicki Pitt-Stick. She has shown me the meaning of truly living in service. I admire her dedication to helping others and she has inspired me to incorporate volunteering and service as an essential part of my life.

One of the reasons I chose Ohio State was the school spirit that was obvious the moment you set foot on campus. After four years here, I fully understand why. From football games to intellectually stimulating classes and the wide range of cultural activities available, it is easy to be proud of this school. I am grateful to have been part of such an exciting and supportive community. Thank you.

Mr. Burns:

Good afternoon ladies and gentlemen of the Board. First of all I would like to say that I am truly honored to receive this award and be in your company today. I would also like to thank you for hosting my parents and myself.

There are a few people who I need to single out and thank for helping me to be where I am today. I need to thank my parents, Brian and Sharon, sitting right back there, for their love and guidance and support throughout my entire life. Next I would like to thank Dr. Anne Carey, professor from the School of Earth Sciences, and Dr. W. Berry Lyons, director of the School of Earth Sciences. Dr. Carey is my academic advisor and she is the one who first nominated me for this award, and Dr. Platz, the

February 5, 2010 meeting, Board of Trustees

dean of the College of Mathematical and Physical Sciences further nominated me. Dr. Lyons is one of my research advisors.

While I have a tremendous amount of respect for these people and the research they do, I have even more respect for their character. Whether it is writing a letter of recommendation, answering a question about geochemistry or just talking about my future, Dr. Lyons and Dr. Carey are two people who are always willing to help, regardless of how busy they are. So I thank them for their support and encouragement to do research that I have a passion for.

The person who I need to thank the most is my research advisor, Dr. Bryan Mark, a professor of geography. Dr. Mark does fascinating interdisciplinary research concerning climate change and the resulting impact on glaciers and water resources. He studies the connection between melting glaciers and water supplies in Peru and other South American countries. I have a great deal of admiration for what he does because his research has environmental implications which connect directly to the well-being of people in these water-poor countries. I thank Dr. Mark for helping me take my education out of the classroom. I have worked with him at the Byrd Polar Research Center and I have had invaluable experiences with him in the western U.S. and in the Andes of Peru. My field and research experiences have taught me information which cannot always be learned in classrooms or books.

I am honored and honestly still somewhat surprised to be the recipient of the Student Recognition Award. I say surprised not because I am questioning my accomplishments, but because I feel I know so many students who are doing extraordinary things in the classrooms and community of Ohio State. I think this really speaks to the character of the University and I commend all of you for helping to create an environment where students get a great education in the classroom, get involved in the community and have the chance to do research. I want to thank the Board of Trustees for making The Ohio State University a place of opportunity. Coming in as an undecided freshman, I knew I would have the opportunity to study just about any scientific discipline I could think of. I do not think I realized even a small portion of all the other opportunities that I might have both in and out of the classroom. A few of my favorite opportunities include being part of the tremendous Buckeye fan base at each home football game, going to Costa Rica to study ecology, taking the Big Lots Big Shot at a men's basketball game at halftime and narrowly missing, learning in Utah for my field geology summer courses, teaching elementary school students about science and math, playing intramural sports with my fellow students and friends, and researching glacier and hydrologic change in Peru.

So once again, I thank you for making the University the place where one student can have such a wide variety of opportunities to learn, discover and succeed.

Mr. Wexner:

Thank you very much. Now, President Gee would you like to inform us.

-0-

PRESIDENT'S REPORT

President Gee:

Thank you very much, welcome and congratulations to our two students. I think it is wonderful that we have an opportunity, our 63,000 students, all of whom are worthy of recognition, but the fact that we have such marvelous representatives of this student body, I really do want to congratulate you. I am going to be very fast today, it

is snowing. One of the reasons we turned the snow on was so no one would be here to protest our ticket price rise, just kidding you.

Several official things to accomplish leaves a little time to get myself in trouble, I already just did. I do want to note two significant student events this week. First of all this past Monday, we had a benefit dinner for Haiti relief. A wonderful effort organized by our student body officers, Ben Anthony and Jordan Davis, 1,800 students participated. They raised \$23,000 for Red Cross services, but it was just fun, it was an Ohio State moment. Today's conference, Alleviating Poverty through Entrepreneurship is sponsored by the Fisher College of Business, and our Fisher College students are reaching out, reaching up and reaching beyond the boundaries. We are very grateful for that.

These are both strong signals to the world that our students combine their head and their heart. They embrace in so many ways the land-grant ideals of this great University and are exceptionally well prepared to lead into the future.

Today also we have the pleasure of awarding a Medical Center Board Emeritus designation. The chairman and I would like to call forward George Harding. George we see you right there, would you please come forward and sit right here for a second, or just stand. Dr. Harding is legendary, as we all know, for his passion and effective advocacy for mental health care. He founded the Franklin County Mental Health Board, which is the first in Ohio. A decade ago, he oversaw the merger of Harding Hospital and our Medical Center, resulting in a better integration and enhanced services and obviously in this case a great hospital for which we are most appreciative. Along with his wife Joan, who is here, George has carried forward the remarkable family legacy of helping others in need. Please accept the congratulations and gratitude of this University for your years and years of service. Mr. Wexner and I will come forward and present you with a plaque, George.

Dr. Harding:

I certainly appreciate this great honor. It was 105 years ago that George T. Harding Sr. was appointed to the faculty of The Ohio State University College of Medicine. For 105 years there has been a George T. Harding on the faculty of the department of psychiatry. So it is a great honor to be here today with President Gee and Chairman Wexner. I certainly appreciate very much this honor.

Growing up my father taught regularly and going out to dinner was going to the Faculty Club. When my father and his friends gathered together they talked about teaching and the future and the growth. I remember when Charles Doan was appointed dean, and what a distinguished addition that was to the faculty along with Richard Meiling and so many others who have given leadership. So through the years my father always said, I think we can operate the Harding Hospital in the most effective way. If the time ever comes that we cannot do that, then we should look to find the next best group to operate the Harding Hospital. When the time came, we were very appreciative when Manuel Tzagournis and Reed Fraley came and talked with us about joining forces to make the strongest mental health facility that we could have in this University. We have been very proud of the work done by Dr. Gabbe and the rest of the faculty. We really look forward to even stronger things in the future. So thank you very much.

President Gee:

I will now continue my report. It is one of those days, isn't it. We are so grateful to have so many friends of the University here with us. This is probably one of the most pleasant responsibilities/ opportunities I have had since I have been President of this University either in my first or second term, to announce the strategic realignment for

February 5, 2010 meeting, Board of Trustees

the long-term benefit of the University. After years of conversations and then after a year of study, the University and the Alumni Association have agreed to align themselves, to strengthen their partnership in a very formal way. Under this agreement, Archie, I know I only said Archie but there is only one Archie in the world, will become a member of my leadership team. He will become the senior vice president for Alumni Relations as well as remain as president of our Alumni Association.

Now the purpose of this new alignment is to better serve our students and our alumni and better spread the gospel of Ohio State. The alumni tell us that they want to be even more involved in the life of the University, so this new centrally different strategy and alignment will facilitate that engagement. The move, by the way, was undertaken on recommendations of a joint task force led by Tami Longaberger and Bill Lhota. I want to acknowledge the members of that alignment task force for their great work. This alignment was recently approved, unanimously I might note, for which I am grateful, by the Alumni Association Board of Directors.

So I now turn to Trustee Alex Shumate who served as a representative of the University on the task force board for a resolution.

Mr. Shumate:

Thank you President Gee. Again let me echo your sentiments that this is truly a coming of age moment for the University and our vast network of alumni and friends. We are very fortunate to have an outstanding alumni association and by working at an even closer partnership, we are taking another step to the path towards eminence. It is in that spirit that I would offer the resolution which would authorize the implementation of measures to strengthen and align the relationship and partnership between the University and the OSU Alumni Association, and this will be added to our consent agenda.

President Gee:

Thank you very much Mr. Shumate. Archie, will you come up here, and sit right there for a second. This is your place, so you can do whatever you damn well please, but I just want to say this about Archie. We are glad to have his leadership, we are glad to have his clear voice and now I am glad to have the opportunity to serve with you on behalf of this University. As you know Archie is iconic, he is a much beloved figure. There are some people that are iconic and much beloved who do not deserve that, in this instance Archie is iconic and much beloved because he works very hard to deserve that recognition every day from the people from Ohio and Ohio State. He is uncommonly effective in his work. He leads through example, he leads with honor and certainly his dignity is hard work and his love for the University is un-parallel. Archie, welcome to this new capacity and most importantly we are grateful for your leadership which allowed all of this, and facilitated all this to take place. If you would not mind, say a few words.

Mr. Griffin:

Thanks President Gee, Chairman Wexner, members of the Board of Trustees, and all guests here today. I want you all to know that the Alumni Association staff and our Board of Directors welcome this new alignment. A couple years ago President Gee, when you came to the University for your second tour of duty, you talked about One University. You talked about helping the Alumni Association double their membership. Because of that, this is one of the reasons that we are doing this, because I think it will allow us to achieve those goals. It certainly will allow us to achieve those goals that our Alumni Association really embraced the ideas wholeheartedly. This new alignment will help us obtain our goals and at the same time

February 5, 2010 meeting, Board of Trustees

maximize the alumni engagement for the benefit of the entire University and our Alumni as well.

Being here as long as I have been here, I know the value of teamwork. I have seen it played out at this University time and time again. Working together as one Ohio State, we will reach out to nearly half a million alumni across the globe. We see this as an absolutely wonderful opportunity to keep our alumni, friends and fans linked to our great University in some very, very special ways. So in the spirit of one Ohio State, we really want you to know that we look forward to an even brighter future connecting our alumni to our University and to each other. Thank you all very much for the hard work that you put in to make this happen. I certainly want to thank the task force because a lot of hard work really went into making it happen, and I can tell you right now, we are going to do everything we can to make sure that this thing just takes off. Thank you all so very, very much.

President Gee:

Archie, I look forward to working with you, and thank you for assuming this leadership role, which we really appreciate. It is going to be a wonderful time. Archie and I are going together; we are flying the flag together in California. Someone had to do it Archie.

Mr. Griffin:

It would not be bad if we were doing it today.

President Gee:

Now I would also like to express my gratitude to Governor Strickland, Speaker Budish, Senate President Harris and to bipartisan support from our state elected officials, for their ongoing support for higher education. The budget compromise which was reached in December, further distinguishes Ohio as home of well-reasoned leaders on both sides of the isle. Particularly thankful for the construction reform authority granted to the Board of Regents which promises to substantially pave the way for better results in terms of our construction in this state and certainly with our major project, ProjectONE.

The Third Frontier agreement that was just reached this week, will be on the ballot in May, is \$700 million in funding over four years, and I believe that is one of the surest investments in the future of this state. It will represent an economic opportunity and great job growth. The advancement of healthcare and science, so it is literally a no-lose proposition. I want to particularly acknowledge two of the Board's members who worked tirelessly on this: Jo Ann Davidson and Brian Hicks. They made an enormous effort and made a real difference, and Brian I am grateful. Jo Ann sits next to me and has to put up with me, but Jo Ann now will take a leadership role in leading us forward in terms of this effort. So later on in our agenda, the Board will consider a statement of support for the Third Frontier ballot issue.

This is also a pointed meeting for me because this is the last Board meeting for Bill Shkurti in his official capacity as senior vice president and chief financial officer. I do not know quite what to say because I appointed Bill in 1991. He has been everything that any university president would want. He has been a statesman in every way. He has superb wisdom, he has extraordinary judgment, but Bill is so fiscally prudent, we are holding a retirement party after he is off the payroll, otherwise he would not let us have one or we would have to serve canned soup and crackers or something like that. Bill, you know we are going to have a chance to celebrate you in so many different ways, but I just want you to know from a very personal level that it has been an honor to work with you. Bill is the ultimate good guy because he picks up after me

February 5, 2010 meeting, Board of Trustees

all the time, which is something that very few people should have to do, so Bill we congratulate you and I know that the Board will do that also, but we are going to have other opportunities for all of us to celebrate Bill.

Finally, it is my great opportunity today to introduce the University's new chief financial officer (CFO). Geoffrey Chatas joins us from JP Morgan, where he was a senior officer and was the managing director of the Infrastructure Investment Fund. He has served as CFO for both Progress Energy and American Electric Power. He is a graduate of Georgetown University, obtained a master's degree in history from Oxford and an MBA from INSEAD. He has a great spirit and a great vitality for teaching. He has consistently been involved in the academic enterprise both teaching at the Fisher College of Business and at the UNC Kenan-Flagler Business School at the University of North Carolina. We believe that in these tumultuous times with the challenging agenda we have in front of us that he is exactly the right person to lead the University's financial operation. So Geoff, this is your first official welcome to the University so please stand and be recognized.

So, go over there immediately and get the printing press geared up, would you please. He will join us on February 15, and in the best of the world of transition will benefit from Bill's continued council through this transition period.

We have had a lot to announce, we have a lot of good news to celebrate. The University is in an extremely strong position and the opportunities for us to move forward could not be greater.

Mr. Chairman, that is my report.

Mr. Wexner:

Are there any questions? Thank you.

Joe Alutto, Bill Shkurti, Jeff Kaplan, I think you are going to come together and make a presentation on Capital Recommendations.

Dr. Alutto:

We decided this should be Bill's last presentation.

Mr. Wexner:

Bill, they just gave you the short end of the stick.

-0-

CAPITAL PLAN PPT PRESENTATION [POWERPOINT]

Mr. Shkurti:

Mr. Chairman, as it may be obvious, I am neither Joe Alutto, nor Jeff Kaplan, and that is probably something for which Carol Alutto and Darcy Kaplan are extremely thankful. What my distinguished colleagues decided is that given the weather and everything, it would be important to move expeditiously and it would be easier for one person to do this rather than three. So they volunteered me to do this, which I am happy to do. I think some of you who know me, know my ability to skim over important things very quickly, and that is sometimes helpful. This in fact is a very important issue - the University's capital recommendations for the next six years. What I will do is go through those and highlight the important points, and we will

leave time for questions, and I am sure should I get stuck my two distinguished colleagues will help me as well.

So we are going to look at three different things. First of all the strategic goals of the University and how the capital recommendations support those, the physical planning context in which a lot of work has been done this year, and then the funding strategy of how we pay for it, then I will summarize at the end.

The strategic goals are based on the six outcomes that President Gee has articulated in the two years he has been here. I will highlight each one and how they tie into the capital recommendations. The first one of course is "One University," and so this is a comprehensive capital plan that includes all campuses, affiliated entities and all projects regardless of funding source. That is an important point as the University diversifies its revenue sources and increases its relationships across the community and have a central overall strategy that all ties together.

"Students First" is the first substantive initiative and the program we have highlighted here is the modernization and upgrade of student living spaces, especially on south campus as a high priority. We think that will go a long way into making the campus even more attractive to our students, and for them to receive a lot of benefits as a result. We also want to make sure we attract and retain the best faculty and staff talent where state of the art classrooms and research space is important to that. Here we have highlighted the north academic core, which includes the chemical engineering and chemistry building and of course the medical center and ProjectONE in a way that they will assist in the improvement and retention of best talent.

Research prominence is part of what makes us different and in these capital recommendations you will see a major investment in facility modernization and expansion, particularly in interdisciplinary work which would allow the new research frontiers. Particularly in chemical engineering and health sciences are two of the sets of the facilities that further this goal.

Outreach and collaboration is an important part of what we do. Although ProjectONE will do a lot for research and a lot for teaching, it also will expand the high level of quality medical care that is available in our medical center and nowhere else for the region, in fact internationally and will provide a strong economic benefit as well to the central Ohio community and to the state of Ohio.

Finally, financial soundness is a principle and so the funding sources as you will see in a minute are identified for all the projects. The buildings are designed to make efficient use of space, and I might also add efficient use of energy.

I will turn now to the planning context, and that is another term for the way we link the academic, strategic, physical and financial planning goals under one framework, and Jeff has led that effort, and we have had a lot of discussions about that. Again you see the importance of the one University concept. The sustainable living learning communities and looking at our campus as a 24/7 experience, the stewardship of existing facilities and of open space, the investments and civic structure and creating a framework that will last for the next 50 to 100 years, and partnerships with the surrounding community. Those are all reflected in the recommendations that you will see.

In addition, we have incorporated the changes in state law regarding construction reform that President Gee referred to. That is the specific language there. The specific project that in fact Jeff and I just signed the letter yesterday requesting that the Board of Regents designate ProjectONE as the pilot project, or a pilot project under the construction reform provisions. We think there are a number of

tremendous advantages that come from this. More timely completion of needed facilities, potential cost savings and also a greater participation by small businesses and minority contractors, and there is a special management team already working under the leadership of Senior Vice Presidents Gabbe and Kaplan to oversee the project. One of the points that all of us want to make here in the public session, because the references that ProjectONE is a \$1 billion project, which it is, but part of the project has already been completed, therefore construction reform would not benefit it, but of the amounts of the project that are still to be done are quite significant and amount to about \$825 million worth of construction. We know how important this project is, and there will be progress reports presented to the Board on a quarterly basis to follow this up.

I guess the way I would summarize the capital recommendations, and they include both this year because there are a lot of different things going on through 2015, is that it supports the strategic goals as I just outlined, it is consistent with the emerging framework principles, that is the one framework recommendations, and those are going to be finalized this spring, but we have a pretty good idea where that is going, and it is aligned with our financial planning efforts, which I will talk about in a minute. I am not going to go through all that because it is pretty small print there, but what that does is list the recommended capital projects by total project cost. As you will see there is some previous commitments in there just to keep track of things, but you will also see what the major priorities are, which is the north academic core, which is ProjectONE and which is the student housing projects, renovation projects, and also the associated infrastructure, and that is consistent with what we presented to the Board at the October 28 meeting. The total for all that adds up to \$1.958 billion.

Included in that are some projects that are of high priority but that we also need to prepare to be either scaled back or stretched out, if necessary, to align with the availability of funding. These add up to about \$100 million out of that total that you saw. These are things that all need to be done, so it will just be a question of timing. It includes business continuity, access and way finding, routine repairs and renovations, transportation and parking, improving communications of our public safety efforts, the regional campuses and also the river corridor and pedestrian priority. These will all get done at some point; the speed by which they get done will depend in part on when financial resources are available.

Which then takes me to the issue of funding strategies; our goals here are to continue to advance academically but to exhibit financial prudence and also transparency in what we do. What you have here is simply a summary of what was agreed at the October 28, Fiscal Affairs meeting just for review, and again the confirmation of the capital priorities that I just mentioned. Those were identified on October 28, then some of the other activities, circuit breakers, and I will talk about those in a minute, the next bond sale, and I will point out that says approximately \$400 million. What we are recommending specifically this time is \$450 million, which to me is in the range, and we think that is a result of a couple things that I mentioned earlier, that will allow us to do that. We have also continued a modified freeze on all the projects through 2010 until we get this nailed down and are comfortable, and we can move ahead. We will be requesting your approval through a vote at the end of this meeting.

What this next chart shows is where the money is coming from for all the projects, so if you go down to the total, the total there adds up to the total of the projects. You will see the new debt includes \$1.6 billion, which includes \$190 million in previous commitments, you may wonder what those are. That would include the Ohio Union, which had already been approved by the Board, and also, what used to be the Holiday Inn, which is now student housing. In many cases we sell the bonds after we actually complete construction. You also see we are counting on state funds, it is a modest amount, but we think it is important, on what the units kick in, and also on

development efforts for ProjectONE. We also have some ProjectONE portions that were previously bonded, and again that adds up to the total that is recommended.

As I mentioned earlier, we have a total of \$1.6 billion in bonds. There is a preliminary schedule before you. The \$450 million recommendation we are comfortable making because there are a number of steps we have taken that have improved the University's balance sheets since we met in October, primarily in terms of refinancing our existing debt, and I will get back to that in a minute. What I want to make clear is that this schedule is preliminary, particularly when you get out to 2012 and 2014 to give my successor Geoff Chatas a chance to go through this and make sure he is comfortable with what he is going to be committed to, make sure it gets funded on his watch.

There were a number of steps we have taken that mitigate any financial risk, because we recognize we are still in somewhat of an uncertain financial time. The Board does have a requirement that all projects over \$4 million require a separate vote when it comes time to go to both design and construction. We have circuit breakers for the key large projects, including ProjectONE. We just refinanced some debt as I mentioned earlier, which is reducing our interest cost and our exposure to variable rate debt, so that reduces risk considerably, and I want to compliment Tom Johnson and his staff in the office of financial services for their work on that. We are continuing the modified freeze as I mentioned. We expect due to the current economic climate some bid favorability and we are requiring all that to be recaptured centrally instead of just going where individual projects want, and then making a strategic University decision on where that bid favorability goes.

The University's financial pictures reported yesterday remain stable and that is a good thing, and we are continuing plans to strengthen the University's balance sheet even further. I mentioned some things that will assist in maintaining a strong balance sheet. The president mentioned the passage of the state budget corrective bill, which will help a lot, some of you may have read in the paper today that income tax revenues appear to be down about \$100 million for the month of January. It is important we not react to one month as a trend. Usually when something like that happens it can often times turn out to be just a statistical aberration. We always look for collateral information that tells us, does this relate with everything else we are seeing. Remember we had a fairly, compared to what expectations were, decent Christmas sale season, and although the economy is not great, it is stable. So we are thinking and hoping that the one month drop is just a blip, and that is what the governor talked about this morning. I think it underlines the necessity of continuing to remain vigilant and careful, and we are going to have to monitor state finances over the next couple of months and take corrective action if necessary.

I talked about ProjectONE as a construction reform pilot project, which will substantially reduce our risk in terms of how that project is managed. I talked about the refinancing of the debt and the converting of the variable rate debt and there are also some proposed changes in debt policy I talked about with the Fiscal Affairs Committee yesterday, which will give the University greater flexibility to manage its cash flow and will also allow the University to manage its risk in a better way as well.

So in conclusion I would say the recommendations we are making are: we approve the preceding with recommended projects, that any state or bond funds gained from favorable bidding climate revert back to the center to the University for redistribution, the Board will receive quarterly updates, you will approve individually projects of \$4 million and over, and we will continue the hold on other projects through June 30, until Geoff Chatas can have a chance to reevaluate where we are for the long run.

So the next step would be the approval of the attached resolution which should be in your Board books, and then when individual projects come forward, and there are

February 5, 2010 meeting, Board of Trustees

actually some already approved at this meeting, as needed, we will ask for that approval. In the interim we will submit a capital request to the Ohio Board of Regents in mid-February that is consistent with these recommendations and then Geoff Chatas will give you a mid-year update on where we are on all these at the June Board Meeting. Mr. Chairman that completes my presentation, my colleagues and I will be glad to answer any questions you or the Board may have.

(See Appendix XXIV for background information, page 488.)

Mr. Wexner:

Bill, thank you very much. Are there any questions to Bill and his colleagues?

Then thank you very much.

Mr. Shkurti:

You are welcome Mr. Chairman.

Mr. Wexner:

The resolution has been distributed to everyone and I would like to postpone that vote till later in the agenda. Now we can move to committee reports, and let's begin with Trusteeship with Alex Shumate.

-0-

COMMITTEE REPORTS

Mr. Shumate:

Thank you Mr. Chairman. During our meeting yesterday we had a very excellent and very thoughtful discussion on our committee structure, and we will be reviewing our committees, in particular to reflect the new partnership and alignment with the Alumni Association, and as you have directed, Mr. Chairman, to make sure there is alignment between our strategies and our priorities in our committee structure.

We also heard an excellent report from Student Trustee Jason Marion about the process for selection of the next Student Trustee, and that process is moving forward and will be finalized shortly.

Third, Mr. Chairman as you know, the Committee on Trusteeship has been meeting with our Academic Affairs Committee to select a faculty member to serve a two year term on the Academic Affairs and Student Life Committee of the Board. I just want to take a moment to personally thank Dr. Gerber and your colleagues for forwarding to us five truly outstanding names of individuals to review for this very important committee assignment. A subcommittee comprised of Ambassador Ong, Brian Hicks as well as Linda Kass met for almost a day with the five faculty members. Very excellent conversation and it reminded all of us of the dedicated, engaged faculty that we have at this University that are so central to the success that we enjoy. If I might take a moment, Mr. Chairman, just to review the criteria that we are utilizing as we consider the five candidates. They include, first, a faculty member with broad knowledge of the University including an appreciation for trans-institutional interdisciplinary work, secondly a faculty member with experience in University governance and/or administrative positions, whether that is chair of a major University committee or chair of a department, third a faculty member who can represent the broadest academic thinking and not see his or her role as one of simply representation of a single group. As Ambassador Ong described we are

February 5, 2010 meeting, Board of Trustees

looking for a colleague to join us in our important deliberations on academic strategy. Also a faculty member with awareness of the place of the University within the state of Ohio and within the context of higher education both nationally and internationally, and a faculty member with strong interpersonal skills, and we will be bringing to the Board at our May meeting, a selection to join us in our Academic Affairs Committees deliberations.

ELECTION OF OFFICERS

Resolution No. 2010-43

Mr. Chairman, on behalf of the Board and the Trusteeship Committee, I would like to place a nomination of the officers for the upcoming academic year. Unanimously we are recommending:

Leslie H. Wexner, Chair
Douglas G. Borrer, Vice Chair
David O. Frantz, Secretary

I should ask, are there any other nominations from the floor? If not, I move to close the nominations.

All those in favor of this slate of officers nominated to serve through the April 2011 Board Meeting, please raise your hands. All opposed.

Upon motion of Mr. Shumate, the Board of Trustees adopted the foregoing motion by a unanimous show of hands.

Thank you, and congratulations to our new officers.

Mr. Wexner:

Bob Schottenstein, Audit and Compliance please.

Mr. Schottenstein:

Thank you Mr. Chairman. Since our last Board meeting the Audit and Compliance Committee has met twice. The first of those meetings was on January 15, and at that meeting we basically considered two items. The first of which was the 2009 Financial Review, which was a detailed review of the operations of the University for the fiscal year ending June 30, 2009. The good news is as you heard Bill Shkurti elude to just a few minutes ago, the University's overall financial health remains relatively sound. It should be noted that the total net assets, which is another way of referring to our income, did show a loss of \$340 million, which is by no means insignificant but the fact is that \$436 million of that was due to a decline in our net investment fund. As you will hear in a few minutes, I believe from the Investment Committee report is through the first half of this year, through the good work of Jonathan Hook and his people, we have had somewhat of a recovery. I think the long-term pool is at about \$1.9 billion now, so as I said, the condition was sound last year, and has improved since then.

We also had at the January 15, meeting, a very comprehensive review from our external auditor, Deloitte & Touche concerning the University's affairs for the year ending June 30, 2009. The University received a clean audit. Deloitte was very complimentary that in their report, there were several, what they would qualify as significant deficiencies. I will talk about those in a few minutes because we dealt with

those at the meeting that we had yesterday. So that is what we did at the January 15 meeting.

We met yesterday and considered a number of items, the first of which was a mid-year report. This being the middle of the 2010 fiscal year, and overall as I said a few minutes ago, the University's finances are stable, but given macroeconomic conditions that we are all well aware of, the environment looking ahead continues to be uncertain. But as you look at the primary metrics, those being enrollment, the operation of the Medical Center, state support, the investment returns, the terms of the green/yellow scorecard that we use, everything shows up green right now. We also heard from Mr. Shkurti yesterday concerning responses to the Deloitte audit, particularly the items that were noted to be significant deficiencies. Progress and or correction have been made with respect to each. None of those were considered major at this time.

We also had a compliance report from the Medical Center. It was a very good report given the volume of Medical Center patient encounters, which is quite staggering: approximately 80,000 in-patient and 800,000 out-patient encounters annually. Needless to say there is a wide variety of issues, very important ones, related to federal healthcare compliance. We have a very robust and a very effective compliance program, and since the compliance office's last report, I am very pleased to share with all of you that there have been no significant issues that would merit any kind of voluntary disclosure at this time.

In addition we received a report from the University's internal auditor setting forth his annual scorecard, which also is based on a green/yellow/red scoring system for all of the internal audits performed during the last year.

Finally we had a fairly extensive discussion, it is just a discussion at this point, the matter will continue to be reviewed by both the Audit Committee, and also the Medical Affairs Committee, concerning the need for a separate stand-alone audit for the Medical Center. Just to provide some context for this, I think it is important for everyone to know that the Medical Center has for many, many years been audited as part of the University's total audit. The issue here is not whether the Medical Center should be audited, because it currently is, it is whether the Medical Center should receive a separate audit. We had a very good discussion concerning the pros and cons. That discussion will continue, and I will have more to report on that later. That concludes my report.

Mr. Wexner:

Thank you. All the committees have, I think, been working very hard and thoughtfully, not just on the work of the work, but in terms of externally benchmarking and making sure that we are doing the best that we can, based on best and good practices. I know particularly in Audit, Bob and the Audit Committee have been looking at best practices, in form by Sarbanes-Oxley, SEC Practices, and have spent some time just looking at audit practices and procedures for institutions like ours. I think that is a very good thing to do, so we are inward and outward focused. I just know this is happening. I know the same thing is happening in Medical Affairs and Development and Investment. Because of the weather we have two committee chairs who are trying to get home safely, and Judge Marbley is going to report both for Medical Affairs and Academic Affairs and Student Life, so Monte, it is yours.

Judge Marbley:

Thank you Mr. Chairman. First with respect to Medical Affairs, we had a good meeting yesterday and I am happy to report that the Medical Center, Mr. Chairman and Mr. President, is in fine shape. We use a scorecard which indicates that our

overall performance is green, and I would like to take a moment to digress from the script that was prepared in part by Mr. Brass and thank Dr. Gabbe for his outstanding work in making sure that even in these troubled times we are showing green. I am not going to go through the entire scorecard, but with respect to the more significant metrics by which we measure our performance, I will give all of those assembled a highlight of what we have done against our budget. Our operating margin is 5.4 versus 4.5 budgeted. Our day's cash on hand is 60 as opposed to the 56 for which we budgeted. Our outpatient visits are up 510,000 versus a budgeted number of 492,000. So overall we are in the green, we are only in the red by a couple of points on total occupancy, but we would like to attribute that to our efficiency as opposed to anything else.

ProjectONE, the construction arm of our new hospital. If possible I would like to bring up the rendering of what the new addition would look like. While we get to that I will tell you that we heard a report from Lynn Readey on our plans to request approval from the Board of Regents to use the construction manager at risk delivery system on this project. We are hoping that we will get that approval and are preparing accordingly. I will also note that Paul Sherwood has been brought in as co-director of construction. He will be working with Jay Kasey and Dan Beardsley has been brought in as business manager, he was brought in from the William Beaumont Hospital in Detroit.

Unrelated to ProjectONE I would like to announce that we have seven new board members on our various hospital systems. On the University Hospital Board we have Kevin Reeves of AEP, he is manager and director at AEP, and Shirley Rogers Reece as an executive at McDonalds. On the James Cancer Board we have the Honorable R. Guy Cole, Jr., who is a Judge on the United States Court of Appeals for the Sixth Circuit, Sander A. Flaum, and Jordan Miller Jr., as most of you know are with Fifth Third here in Columbus. On University Hospital East Board we have Superintendent Gene T. Harris and Miss Sue E. Zazon.

One additional matter that we have Mr. Chairman is an amendment to the long-term lease, I believe that is going to be on the consent agenda, and that is an authorization to amend the long-term lease agreement with Gowdy Partners to provide for the construction of a building addition containing approximately 11,400 square feet of medical office space to provide for a radiation oncology center to be located at 739 West Third Avenue in Columbus.

I am going to ask Dr. Gabbe to walk us through what you are seeing in terms of the rendering of the tower once it comes up.

Dr. Gabbe:

What you will see is that the upper part of the tower has been changed to break up the face of the building into four, what we are calling individual neighborhoods. In doing that we are going to be able to create much better functional units for patient care. Each of the neighborhoods has 12 beds, and there you are, so that the biggest change is the recess and core placement of the towers. The North side, this is the south side looking from Tenth Avenue, the North side will be the opposite, but what you have here is, each of these four units, as I said is now a functional neighborhood. These three are twelve bedded patient units with a nursing station centrally, six beds on each side so that the nurse and the physicians centrally can see all the patients at the same time. In designing this, this is one of the emphases we heard from our providers, they want to be able to see all the patients all the time. By creating these smaller functional units we get away from what we find in a lot of other hospitals, a long corridor and patient rooms coming off the corridors, here by dividing these units and creating centralization of key patient needs so that each neighborhood will care for different types of patients, we think we will really be able

February 5, 2010 meeting, Board of Trustees

to focus on personalized healthcare for our cancer patients in the upper floors of the new tower. The other advantages are that by placing these towers forward, there is glass on each side that will allow more light to enter the building and this second tower from the left is a tower where we will have space for education and clinical and translational research. We call this ProjectONE not only because it is one University and one Medical Center, but because it combines not only patient care but education and research. The podium remains, and you know that is where we will have our ambulatory cancer space, our operating rooms, our laboratories and diagnostics and then our critical care units above, and at the top of the critical care units will be rooftop gardens that will be available to the patients and their families so that they can access that green space which we know encourages healing and a more rapid recovery. So we are very excited about this design. Going forward we will develop the plans to build the building, but we wanted to share this with you, and I thank Judge Marbley for allowing me the opportunity to present this to you.

Judge Marbley:

Thank you very much Dr. Gabbe. Mr. Chairman, that concludes the Medical Affairs report.

Mr. Wexner:

Thank you, any questions?

Monte, do you want to proceed with the Academic report?

Judge Marbley:

Mr. Chairman at our meeting yesterday, the Academic Affairs and Student Life Committee discussed University responses to the Ohio Board of Regents draft report on the condition of higher education in Ohio. We then heard presentations on faculty leadership development, Ohio State's China Gateway project and emeritus status for holders of endowed chairs, followed by amendments to the classified civil service rules.

First Dr. Alutto led a discussion of the Regents draft report entitled "Meeting the State's Future Needs through a Student-Centered University System of Ohio." That report examines the state's potential for educating increasing numbers of students by focusing on program management, affordability, college and career readiness, and academic and administrative efficiency. The committee discussed a draft of the university's response, which was generally supportive of the report's findings, though it also made a number of suggestions for the report's final iteration. These covered such areas as state support to students, the impact of beyond-the-classroom experiences, reform in construction practices, and the importance of preparing students for success in a global economy.

The Vice Provost for Academic Policy and Faculty Resources, Susan Williams, then briefed the committee on the programs available to faculty who wish to develop their leadership skills consistent with what our President has emphasized upon his return. These programs address two fundamental needs: one, developing a pipeline of future leaders and enhancing the leadership skills and institutional knowledge of current leaders. Ohio State has a number of its own faculty leadership initiatives, and it encourages participation in external programs. Vice Provost Williams pointed out that succession planning and recruitment of department chairs can be especially taxing. Accordingly, the university is placing a strategic emphasis on skills development for chairs. She concluded by discussing what we are doing to coordinate better our various leadership training efforts.

February 5, 2010 meeting, Board of Trustees

Provost Alutto then turned the committee's attention to the OSU China Gateway, on which the committee had been briefed previously by Vice Provost for Global Strategies and International Affairs, William Brustein. Provost Alutto explained that we will proceed with the China Gateway in two phases. Phase one, which is an exploratory phase, calls for setting up a Foreign Representative Office in Beijing to serve as a base for developing long-term revenue-generating programs. Pending assessment from phase one, phase two calls for establishing the fully operational gateway as a Wholly Foreign Owned Enterprise. For technical legal reasons, we have established a holding company in Ohio to serve as the parent company of both the Foreign Representative Office and the Wholly Foreign Owned Enterprise.

Original plans called for establishing the Wholly Foreign Owned Enterprise from the start. Moving ahead in two phases, Mr. Chairman, will allow the University to invest a more modest sum at the outset, while assessing future developments.

Provost Alutto next discussed a proposed policy that will allow those holding endowed chairs and professorships to continue to use the endowed position name upon their retirement. Among the key provisions of the new policy are: the requirement that the emeritus designation precede the name and the requirement that the emeritus designation be awarded only to those retiring from the university who concurrently hold the endowed chair or professorship.

We next heard from Vice President for Human Resources Larry Lewellen who discussed revisions to the university's classified civil service rules. I will not bore you with all the details of that very thorough report, but the key changes include: requiring coaching and feedback during the probationary period; requiring a written performance review; requiring annual performance reviews; and requiring supervisors to manage deficient performance using the university performance improvement process.

The committee was asked to endorse a resolution to adopt these amendments.

Next we heard resolutions for the following, Mr. Chairman: the re-naming of the Veterinary Teaching Hospital as the Veterinary Medical Center; the changing of the name of the Department of Radiation Medicine to the Department of Radiation Oncology; the transfer of academic programs in welding engineering from the Department of Integrated Systems Engineering to the Department of Materials Science and Engineering; the reorganization of the Department of Entomology; the naming of the lobby in the new Student Academic Services Building to reflect our beloved Martha Garland which we all endorse with great enthusiasm; the naming of the dairy parlor at the Agricultural Technical Institute; and the naming of internal spaces in the Ohio Union.

Mr. Chairman, this was a compelling meeting, I want you to know that, and finally we concluded with the committee's endorsement of a number of routine personnel items.

Thank you very much, Mr. Chairman.

Mr. Wexner:

I appreciate the emotional content. Thank you Monte. Any questions?

Dr. Cloyd:

Chairman Wexner. I wonder if we could have the opportunity to have Dr. Garland stand so we really can recognize her for the naming today, but more importantly the outstanding service she has provided.

February 5, 2010 meeting, Board of Trustees

President Gee:

I might just note that Martha now has assumed, she was retired for exactly ten days and then because of the fact that Dr. J has had an illness, she was asked to come back in and help in that role, so she is back. Martha I must say that you know you have been doing this for a long time, you got something named after you, the only thing that has ever been named after me was a trailer park at Brown. Good work.

Mr. Wexner:

Investment.

Mr. O'Dell:

Thank you Mr. Chairman. The Development and Investment Committee met yesterday afternoon. First Mr. Peter Weiler reported on fiscal year 2010 fundraising outcomes. Funding through December 31 is \$133 million, which is only 44% of the goal, with 50% time elapsed. Typically we would be at 50-55% of goal at this point. This reflects the difficult fundraising environment we face. Peter shared that the national economy is a significant factor right now. A chronicle of philanthropy poll of charities last month found that year end giving is lagging behind in all causes except religion. Through December 31, \$46.5 million has been raised for the Students First, Student Now initiative, 46% of the goal, with 40% time elapse. This effort is going extremely well.

Major campaign planning continues to progress. Over the next five months development will work with colleges and units on campaign plans and recruitment of key volunteers. Also the Foundation Board's audit committee received a clean audit report. Peter and his team have welcomed Mr. Floyd Akins who started this week as the University's new Senior Associate Vice President for Development and Vice President of the Foundation. Peter also shared the sad news that since our last meeting three members of the Foundation Board has passed away. John Sandefur, Frank Wobst and Joe Engle.

Finally the Committee approved the establishment of 31 new funds, and nine revisions, totaling \$2.6 million.

Following Mr. Weiler's report, Mr. Hook was called on to give his report on the university's investment portfolio. I am happy to say that calendar 2009 finished with an investment return of 20.1% which beat the portfolio benchmark for the same period of 18.9%. The first half of fiscal 2010 also showed strong investment returns of 14.8%, which compared to the first half benchmark at 13.2%. Returns have been good while the portfolio has been managed to hold extra liquidity for safety. Given the returns, the long-term investment pool has risen back to a total of \$1.86 billion. The total for the long-term investment pool is approximately 67% endowment, that is both University and Foundation, and 33% from long-term operating funds. The committee reviewed the asset allocation, its composition and the returns for its component parts. The effort to realign the manager roster of the portfolio are slowing down, and the investment team is seeing the hopeful results from their work. The portfolio continues to hold ample liquidity which has provided safety but also has allowed the office to be opportunistic. Opportunities from several asset classes have arisen as a result of last year's capital market collapse. The office is being very judicious with locking up that liquidity for long term investments and will only do so if the right situation presents itself.

Lastly the committee engaged in a discussion to talk about potential ways certain risk management tools might be used on the portfolio. The ability to hedge against certain issues like a major or rapid rise in interest rates are against the precipitous

February 5, 2010 meeting, Board of Trustees

fall in equity markets is being studied. Mr. Hook asked for feedback and received feedback from the committee as the investment office studies what options might be applicable for portfolio protection. Mr. Chairman, that concludes my report.

Mr. Wexner:

Thank you, are there any questions?

Ms. Davidson:

Yesterday at the Fiscal Affairs Committee meeting we had a number of our financial reports that are a part of our accountability, and being sure we are tracking what is happening on campus, the mid-year financial report has already been mentioned by Mr. Schottenstein in his report, stable condition, good enrollment, good results knowing the state has resolved its budget problems certainly for the short term, and the fact that we were able with refinancing our debt, actually to save ourselves almost \$5 million. We also go back and look at the budget for 2009 versus the actual expenditures just to be sure that we are in line with our budgeting expectations, and we probably had the best of all worlds in the fact that our resources came in above our estimates for our budget because of increase in private grants, and our expenditures came in below our estimates based upon the kind of steps that have been taken to control expenditures in these uncertain economic times.

We had the first reading on the revision of the debt policy. Again we deferred doing anything with that hoping to give our new CFO an opportunity to review it, but it would be something that would be very advantageous to the University and certainly to our various colleges when they need to come in for a line of credit and knowing exactly what their obligation is going to be.

Capital recommendations, we mentioned briefly, but knowing that that was going to come to the committee of a whole today, we did not go into that in any depth in finance.

Facilities Operations and Development annual report would be for calendar year 2009. I just want to mention a couple of statistics because it gives you an idea of what is going on in this campus. During the year there were 1,186 construction projects going on, on campus, and at the close of the year there were 520 of those projects that were still active. The total budget for those projects was just a little bit over two billion dollars. A significant amount of those, 62% come in at the \$50,000 or less, another 25% come in to that gap between \$50,000 and one million dollars, so a lot of these projects are small, they do not take care of a huge amount of the funding available, but they do take time and resources and actually tracking them to be sure we are getting the value for the dollar.

The on time and on budget report of our projects, shows only one project to not be on budget. Just a caution looking ahead at the renovations of the Jones Graduate Tower, that it might be a little more difficult than anticipated and because of some change orders, may go a little bit over budget, everything else is on time and on budget.

There was a report of two interim approvals that were asked of me during the interim from our last meeting. Just to make sure that you are aware of it, as you know you gave the chair of the Fiscal Affairs Committee the ability to make some interim decisions when we were not in session with consultation with other members of the Committee, we moved on two of those. One was to be sure that we would move ahead with the Woody Hayes practice fields and be sure that they will be in order for our team to be using. We had a very generous contribution to cover the cost of that. The other one was really dealing with the establishment and construction of our third

electrical substation on campus which we needed to move ahead with because we have growing demand for power with expansion on campus.

We have eight resolutions that we are recommending on the consent agenda today. The first is the necessary updating of our authorization to issue commercial paper in lieu of when we are ready to sell bonds. That is simply a requirement that we must go through from I believe the IRS, to increase our professional service contracts for the east regional chilled water plant, and for the renovation of Hopkins and Hayes Halls, and also for construction authority for the College of Medicine renovation. For the renovations of Hopkins and Hayes Halls, for Kennedy Commons, which is being renovated to expand it to be able to provide additional food service for the students as we move into our south high-rise renovation and addition, and to complete the work on Woodruff and Tuttle which was part of the construction that some of you have seen coming down through campus. So we have a little finite piece of that work to do. Extend a three year lease that we currently have on space that will be occupied by our IT staff of about 200, extend that to five years to give us an opportunity to then bring them back on campus and locate space that will work out for them. The JamesCare Women's Ambulatory Oncology Center addition, which I think also is mentioned in the report of the Medical Affairs Committee, so I will not go into that. The amendment and restatement of our University Alternative Retirement Plan, and a restatement of our Harding Hospital retirement plan which again is just meeting IRS regulations that we must do a restatement of both of those plans. Approval of a Paid Disaster Leave Benefit Program that we discussed real briefly; we gave the president the authority to take some action until we could have a plan that we brought back to the Board, so the plan actually that Larry Lewellen presented to us would provide guidelines in case there is a disaster that we need to be sure that we can properly and appropriately and legally take care of our staff in that time. Then the Athletic Department recommendations on increases in the football and basketball ticket price and also for golf club membership. I would like, with the concurrence of the Board, to add that resolution to the consent agenda as number 25 because although you received a copy of that in your supplemental board material, it is not on the consent agenda.

Finally I want to speak to the issue of tuition. We are meeting today and we generally do our tuition increase considerations, if we are going to do that, at our April meeting. Since the Board will not be coming back together until May, and since we have a strong policy at the University to let our students know as soon as possible if there is going to be any change in tuition, the committee is recommending that you give the chair of the Fiscal Affairs Committee, the chair of the Academic and Student Life Committee, and the chair of the Board, the ability upon consultation with the administration when their recommendations are finalized, then to set the tuition for summer and fall quarters and then have you confirm that action at our May meeting. Mr. Chairman, I would ask for a motion to give that authority on the tuition issue.

Mr. Wexner:

All in favor. Any opposed?

Motion carries.

Ms. Davidson:

Mr. Chairman, that concludes my report.

Mr. Wexner:

Jo Ann, thank you very much. President Gee, would you recite the consent agenda?

CONSENT AGENDA

President Gee:

I will thank you Mr. Chairman. We have a total of 24 resolutions on the consent agenda. I would like to add to the consent agenda the athletic ticket prices and fees brought forward by Jo Ann Davidson, therefore we are seeking approval for the following.

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 2010-44

Synopsis: Approval of the following amendments to the *Rules of the University Faculty* is recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the *Rules of the University Faculty* as approved by the University Senate; and

WHEREAS the proposed changes in the *Rules of the University Faculty* were approved by the University Senate on November 19, 2009:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments to the *Rules of the University Faculty* be adopted as recommended by the University Senate.

(See Appendix XXV for background information, page 500.)

REGIONAL CAMPUS BOARD APPOINTMENT

Resolution No. 2010-45

Synopsis: Approval of appointment to The Ohio State University Newark Regional Campus Board is proposed.

WHEREAS the Board of Trustees in 1994 approved the establishment of The Ohio State University Regional Campus Boards; and

WHEREAS it has been previously stipulated that “the board shall be composed of ten members appointed by The Ohio State University Board of Trustees in consultation with the president of the university;” nine members shall be private citizens; and one member shall be a student; and

WHEREAS the following named person has been nominated and selected for appointment to the OSU Newark Regional Campus Board for the term specified:

Newark Regional Campus Board Appointment

Marcus A. Yoder (student) – effective 7/1/2009 through 6/30/2010

NOW THEREFORE

February 5, 2010 meeting, Board of Trustees

BE IT RESOLVED, That the foregoing nominee be approved as a member of the OSU Newark Regional Campus Board.

**RATIFICATION OF APPOINTMENTS TO MEDICAL
CENTER BOARDS**

Resolution No. 2010-46

Synopsis: Ratification of appointments to Medical Center boards is proposed.

WHEREAS in June 2009, the Board of Trustees authorized the President of the University to take actions necessary and appropriate to appoint members to the Medical Center Board, the University Hospital Board, the University Hospital East Board, the OSU Harding Hospital Board, the James Cancer Hospital Board, and the Ross Heart Hospital Board; and

WHEREAS all members of these boards shall be appointed in accordance with Board of Trustees Bylaws 3335-93-01 and 3335-104-01, and in consultation with the President of the University:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby ratifies the following appointments, as designated by board and terms of appointment, made by the president pursuant to the resolution adopted by this Board in June 2009:

University Hospital Board

Kevin R. Reeves – effective July 1, 2009, through June 30, 2010
Shirley Rogers-Reece – effective July 1, 2009, through June 30, 2010

James Cancer Hospital Board

R. Guy Cole, Jr. – effective July 1, 2009, through June 30, 2010
Sander A. Flaum – effective July 1, 2009, through June 30, 2010
Jordan A. Miller, Jr. – effective July 1, 2009, through June 30, 2012

University Hospital East Board

Gene T. Harris – effective July 1, 2009 through June 30, 2010
Sue E. Zazon – effective July 1, 2009 through June 30, 2010

AMENDMENTS TO THE CLASSIFIED CIVIL SERVICE RULES

Resolution No. 2010-47

SYNOPSIS: Amendments to Chapters 3335-49, 3335-67, 3335-75, and 3335-89 of the Ohio Administrative Code governing the University's Classified Civil Service related to probationary periods, performance management, removals, suspensions, and demotions are proposed.

WHEREAS in accordance with Section 124.14(F) of the Ohio Revised Code, the Board of Trustees shall carry out all matters of governance involving the officers and employees of the University, including employees in the Classified Civil Service; and

WHEREAS Resolution 2008-47, adopted by the Board of Trustees in November 2007 authorizes the Office of Human Resources, which is the University's Appointing Authority, in consultation with the Office of Legal Affairs, to make periodic

February 5, 2010 meeting, Board of Trustees

recommendations to the Board regarding the enactment and revision of Classified Civil Service Rules; and

WHEREAS the most recent revision of the University's Classified Civil Service Rules was in October 2009, and the Office of Human Resources now has recommended a number of needed changes in these Rules with respect to probationary periods, performance management, removals, suspensions, and demotions of Classified Civil Service staff; and

WHEREAS these revisions in the Classified Civil Service Rules, as shown on the attached documents, will enable the University to streamline processes, enhance our efficiency and effectiveness, and provide more effective performance management of and corrective action with Classified Civil Service employees; and

WHEREAS the University has complied with Ohio Revised Code Section 111.15 in promulgating these amendments to the Classified Civil Service Rules, and the University additionally has provided reasonable notice to all affected University employees and interested groups and a period of time during which such employees or interested groups could submit comments about the proposed Classified Civil Service Rules:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby adopts the attached amendments to the Classified Civil Service Rules, effective April 1, 2010.

(See Appendix XXVI for background information, page 503.)

**DEPARTMENT NAME CHANGE FROM DEPARTMENT OF RADIATION MEDICINE
TO DEPARTMENT OF RADIATION ONCOLOGY**

Resolution No. 2010-48

WHEREAS the name radiation oncology is used nationally and all departments in the Top 10 cancer centers use that name; and

WHEREAS there is no board-certified field called radiation medicine and the American Board of Radiology only offers board certification in radiation oncology; and

WHEREAS the term radiation oncology better delineates the patients who are served, and reflects the Department's integration with The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute; and

WHEREAS the proposal has the support of the Department's faculty, the College of Medicine's Council of Chairs, and Faculty Council; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on November 19, 2009:

NOW THEREFORE

BE IT RESOLVED, That the name of the Department of Radiation Medicine be changed to the Department of Radiation Oncology, effective immediately.

TRANSFER OF ACADEMIC PROGRAMS

Resolution No. 2010-49

Synopsis: Transfer of academic programs in welding engineering from the department of Integrated Systems Engineering to the department of Materials Science and Engineering.

WHEREAS the welding engineering program aligns more closely with the program in Materials Science Engineering than with the program in Integrated Systems Engineering and thus students and faculty will be better served; and

WHEREAS no changes to degree programs in either of the units is being proposed at this time, and any changes that might occur will need to adhere to a separate proposal and approval process; and

WHEREAS a detailed Memorandum of Understanding (MOU) between the College of Engineering and the Department of Materials Science and Engineering to address resource issues has been produced; and

WHEREAS the proposal was reviewed and has the support of the faculty of all affected programs, was endorsed by the College Committee on Academic Affairs, and has the support of the College of Engineering; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on November 19, 2009:

NOW THEREFORE

BE IT RESOLVED, That the transfer of academic programs in welding engineering from the department of Integrated Systems Engineering to the department of Materials Science and Engineering, be effective immediately.

REORGANIZATION OF THE DEPARTMENT OF ENTOMOLOGY

Resolution No. 2010-50

WHEREAS for the past 40 years the Department of Entomology has reported to two colleges: Food, Agricultural, and Environmental Sciences, and Biological Sciences. In recent years this alignment has become increasingly problematic, notably since the current institutional budget model was adopted; and

WHEREAS today the mission of the Department of Entomology is seen to be better served by a location fully within the College of Food, Agricultural, and Environmental Sciences, in alignment with that College's mission; and

WHEREAS all faculty have been satisfactorily accommodated and will have as their tenure initiating unit, either the Department of Entomology (within FAES) and/or the Department of Evolution, Ecology, and Organismal Biology (within the College of Biological Sciences); and

WHEREAS a detailed Memorandum of Understanding (MOU), addressing all major personnel, academic program, and resource issues, has been developed between the Colleges of Biological Sciences; and the College of Food, Agricultural, and Environmental Sciences; and the two departments involved, with substantial input and support from the Office of Academic Affairs; and

February 5, 2010 meeting, Board of Trustees

WHEREAS the proposal has the support of the faculty in the Department of Entomology, and of both colleges; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and University Senate at its meeting on November 19, 2009:

NOW THEREFORE

BE IT RESOLVED, That the reorganization of the Department of Entomology between the College of Food, Agricultural, and Environmental Sciences, and the College of Biological Sciences, be effective immediately.

**DEGREES AND CERTIFICATES
WINTER QUARTER COMMENCEMENT**

Resolution No. 2010-51

Synopsis: Approval of Degrees and Certificates for winter quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on March 21, 2010, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

DISTINGUISHED SERVICE AWARDS

Resolution No. 2010-52

Synopsis: Approval of the University's Distinguished Service Awards is proposed.

WHEREAS the President's Cabinet, upon the recommendation of the Committee on Distinguished Service Awards, nominated and recommended the following list of names for approval by the Board of Trustees to receive the Distinguished Service Award at a time convenient to the University and the recipient:

- John J. "Jack" Chester, Sr.
- John E. "Jack" Lucks, Jr.
- John O. Riedl
- Chris Spielman
- Stefanie B. Spielman (posthumously)
- Ellen J. Tressel
- William D. Wells
- Virginia I. Zirkle (posthumously)

WHEREAS these awards are given in recognition of distinguished service to The Ohio State University and the awards are in accordance with action taken by the Board of Trustees in 1952:

February 5, 2010 meeting, Board of Trustees

NOW THEREFORE

BE IT RESOLVED, That the Distinguished Service Awards be approved for awarding as designated above.

RENAMING OF THE VETERINARY TEACHING HOSPITAL

Resolution No. 2010-53

Synopsis: The renaming of the Veterinary Teaching Hospital as the Veterinary Medical Center is proposed. It is further proposed that within the Veterinary Medical Center there be the Hospital for Companion Animals, the Hospital for Farm Animals, and the Galbreath Equine Center.

WHEREAS veterinary teaching hospitals face an ever-expanding and increasing competition from private specialty practices; and

WHEREAS veterinary teaching hospitals face a constant public relations challenge regarding the public's perception as a place where students practice on client-owned animals and where experiments or other research is performed on such animals; and

WHEREAS it is essential that veterinary teaching hospitals maintain a robust and diverse caseload to ensure appropriate clinical student teaching, resident training, clinical discovery, and advancement of veterinary medicine; and

WHEREAS these vitally important missions will be more effectively discharged if the public understands the scope of services and the comprehensive approach to animal care provided by The Ohio State University's veterinary specialists; and

WHEREAS the use of the term "medical center" will better communicate the dynamic, leading-edge nature of veterinary care available at The Ohio State University:

NOW THEREFORE

BE IT RESOLVED, That the Veterinary Teaching Hospital be renamed the Veterinary Medical Center comprised of three subcomponents: the Hospital for Companion Animals, the Hospital for Farm Animals, and the Galbreath Equine Center, effective immediately.

NAMING OF THE LOBBY IN THE STUDENT ACADEMIC SERVICES BUILDING

Resolution No. 2010-54

Synopsis: The naming of the lobby of the new Student Academic Services Building is proposed.

WHEREAS: the Student Academic Services Building will offer students a variety of academic support services at one accessible location on campus; and

WHEREAS Martha M. Garland retired December 31, 2009, from The Ohio State University after a 38-year career dedicated to, and strongly involved in, improving academic programs and academic support functions for the University's students – particularly undergraduate students; and

February 5, 2010 meeting, Board of Trustees

WHEREAS she worked diligently on the steady advancement of the academic profile of the undergraduate student body; and

WHEREAS Dr. Garland has been actively involved with the development of, and provided support for, a variety of University initiatives, including academic advising, direct enrollment, the First Year Experience Program, honors programs, the campus-wide service learning collaborative, the Office of Undergraduate Research, regional campus activities, and the new student information system; and

WHEREAS on and off campus, she assisted individual students and their families, celebrated student achievements, and participated on numerous committees and task forces related to the undergraduate experience, showing total commitment to "putting students first"; and

WHEREAS: Dr. Garland was also actively involved in the planning of the Student Academic Services Building;

NOW THEREFORE

BE IT RESOLVED That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the lobby of the Student Academic Services Building be named The Martha M. Garland Student Services Lobby, effective immediately.

**NAMING OF THE DAIRY PARLOR
AT THE AGRICULTURAL TECHNICAL INSTITUTE**

Resolution No. 2010-55

Synopsis: The naming of the dairy parlor at The Ohio State University Agricultural Technical Institute, located at the Grace L. Drake Agricultural Research, Educational, and Extension Laboratory, also known as the Apple Creek Farm, Apple Creek, Ohio is proposed.

WHEREAS Dairymaster USA Inc. is one of the world's leading dairy farm equipment manufacturers and has world-wide success in their commitment to ongoing research and development, superior product quality and excellent customer service and support; and

WHEREAS Dairymaster USA Inc. has provided the gift-in-kind including consulting, dairy equipment design, layout and specification for new equipment for the dairy parlor, and installation of parlor (\$260,452) that is located at 2653 South Apple Creek Road, Apple Creek, Ohio 44606; and

WHEREAS the gift from Dairymaster USA Inc. will deem the dairy parlor at the Grace L. Drake Agricultural Research, Educational, and Extension Laboratory, also known as the Apple Creek Farm, one of the area's state of the art facilities:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned dairy parlor at the Agricultural Technical Institute in Wooster, Ohio be named the Dairymaster USA Inc. Dairy Parlor, effective immediately.

NAMING OF INTERNAL SPACES IN THE OHIO UNION

Resolution No. 2010-56

Synopsis: The naming of spaces in the Ohio Union, located at 1739 North High Street, on the Columbus campus of The Ohio State University. The Ohio Union, built in 1909, has a long history at the University. The original building, Enarson Hall, was the country's first student union built at a public university.

WHEREAS this historical campus building has been reconstructed to meet the modern-day needs of campus and community; and

WHEREAS the Ohio Union serves as a central gathering place for students of all majors and all backgrounds, fostering a sense of community and a lifelong connection to the institution; and

WHEREAS the reconstructed Ohio Union will strengthen Ohio State's outreach and engagement efforts, enhance the university's ability to develop future leaders and responsible citizens, and help attract top quality faculty and students; and

WHEREAS the donors listed below have provided significant contributions to the reconstruction of the Ohio Union:

- Rosa M. Ailabouni
- Alumni of The Ohio State University Fraternity & Sorority Community
- Alumni and active members of Ohio Staters, Inc.
- Alumni and active members of Student-Alumni Council
- Hays Cape
- Bruce A. & Cynthia A. Cassidy
- John R. & Margrite Davis Foundation
- Gregg & Lori Gottsegen
- Hobart Corporation
- Kenneth D. & Lisa M. Roth
- Ohio Gamma Foundation of Sigma Phi Epsilon Fraternity
- Tanya R. Rutner
- Sara Lee Foodservice
- Suzanne M. Scharer
- Robert H. Schmahl
- Tried Links of the Sphinx Senior Honorary
- U.S. Bank National Association

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the following spaces be named:

- 3148 Rosa M. Ailabouni Room
- 3156 Barbie Tootle Room
- 2120 Ohio Staters, Inc. Traditions Room
- 2144 Ohio Staters, Inc. Founders Room
- 2154 Student-Alumni Council Room
- 3152 Hays Cape Room
- 2131/2133 Archie M. Griffin Grand Ballroom
- 3020C Davis Foundation Interfaith Prayer and Reflection Room
- 3030 Stanley D. Gottsegen Lounge
- 0165 Hobart Corporation Student Station in the Instructional Kitchen

February 5, 2010 meeting, Board of Trustees

- 1130 Ben and Arlene Roth Lounge
- 3000 Sigma Phi Epsilon Lounge
- 3150 Tanya R. Rutner Room
- 0165 Sara Lee Foodservice Student Station in the Instructional Kitchen
- 3146 Suzanne M. Scharer Room
- 1044 Joe-Ann Schmahl Memorial Suite
- 2150 (including balcony) Sphinx Centennial Leadership Suite
- 1070 U.S. Bank Conference Theater

PERSONNEL ACTIONS

Resolution No. 2010-57

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the October 29, 2009, meeting of the Board, including the following Appointments,

Reappointments, Appointments/Reappointments of Chairpersons/Director, Professional Improvement Leaves, Professional Improvement Leaves – Cancellations, Professional Improvement Leaves - Change in Dates, Emeritus Titles, and Promotion and Reappointment, be approved.

Appointments

Name: FLOYD AKINS
Title: Associate Vice President
Office: Development
Effective: February 1, 2010

Name: MARTHA M. GARLAND
Title: Acting Vice President
Office: Student Life
Term: January 18, 2010 – for up to a total of 6 months from appointment date

Name: KATHY R. MATNEY
Title: Associate Vice President and Executive Director, Medical Center
Effective: November 1, 2009

Name: HAZEL A. MORROW-JONES
Title: Associate Provost
Office: Academic Affairs
Title: Director
Office: The Women's Place
Effective: January 1, 2010

Name: BETH A. NECAMP
Title: Associate Vice President and Chief Communications Officer, Medical Center
Effective: November 1, 2009

Name: RANDY J. NELSON
Title: Professor (The Doctor John D. and E. Olive Brumbaugh Chair in Brain Research and Teaching)
College: Medicine
Term: September 1, 2009, through August 31, 2013

February 5, 2010 meeting, Board of Trustees

Name: TATIANA M. OBERYSZYN
Title: Associate Professor (The Jack C. Geer M.D. Professorship in Pathology)
College: Medicine
Term: October 1, 2009, through September 30, 2014

Name: MATTHEW J. O'ROURKE
Title: Associate Vice President of Strategic Planning
Office: Academic Affairs
Effective: January 4, 2010

Name: CHRISTINE POON
Title: Professor (The John W. Berry, Sr. Chair in Business)
College: Fisher College of Business
Effective: April 1, 2009

Reappointments

Name: UMIT A. OZGUNER
Title: Professor (The Transportation Research Center, Inc. Chair in Intelligent Transportation Systems)
College: Engineering
Term: July 1, 2009, through June 30, 2011

Name: EVELYN B. FREEMAN
Title: Executive Dean, Regional Campuses
Effective: July 1, 2009, through June 30, 2012

Appointments/Reappointments of Chairpersons/Director

SUSAN W. FISHER*, Chair, Department of Entomology, effective October 1, 2009, through September 30, 2013.

JULIA L. HIGLE*, Chair, Department of Integrated Systems Engineering, effective July 1, 2010, through June 30, 2011.

RUSTIN M. MOORE, Interim Director, Veterinary Teaching Hospital, effective September 1, 2009, through August 31, 2010.

W. JERRY MYSIW, Interim Chair, Department of Physical Medicine and Rehabilitation, effective January 1, 2010, through June 30, 2010.

MICHAEL J. OGLESBEE, Interim Chair, Department of Veterinary Biosciences, effective February 1, 2010, through January 31, 2011.

INGRID M. WERNER, Chair, Department of Finance, effective January 1, 2010, through June 30, 2014.

WALTER ZINN, Chair, Department of Marketing and Logistics, effective January 1, 2010, through June 30, 2014.

*reappointment

Professional Improvement Leaves

J. CRAIG JENKINS, Professor, Department of Sociology, effective Winter Quarter and Spring Quarter 2011.

February 5, 2010 meeting, Board of Trustees

ROBERT M. DE JONG, Professor, Department of Economics, effective Autumn Quarter 2010 and Winter Quarter 2011.

ZHENCHAO QIAN, Professor, Department of Sociology, effective Winter Quarter and Spring Quarter 2011.

VINCENT J. ROSCIGNO, Professor, Department of Sociology, effective Winter Quarter and Spring Quarter 2011.

JAMES T. TODD, Professor, Department of Psychology, effective Autumn Quarter 2010 and Winter Quarter 2011.

CRAIG M. VOLDEN, Professor, Department of Political Sciences, effective Winter Quarter and Spring Quarter 2011.

JASON E. BOX, Associate Professor, Department of Geography, effective Winter Quarter and Spring Quarter 2011.

SARAH M. BROOKS, Associate Professor, Department of Political Science, effective Autumn Quarter 2010 and Winter Quarter 2011.

MARCUS J. KURTZ, Associate Professor, Department of Political Science, effective Autumn Quarter 2010 and Winter Quarter 2011.

KENDRA MCSWEENEY, Associate Professor, Department of Geography, effective Winter Quarter and Spring Quarter 2011.

THOMAS E. NELSON, Associate Professor, Department of Political Science, effective Winter Quarter and Spring Quarter 2011.

LIXIN YE, Associate Professor, Department of Economics, effective Winter Quarter and Spring Quarter 2011.

TREVON D. LOGAN, Assistant Professor, Department of Economics, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011.

Professional Improvement Leaves – Cancellations

LEONARD J. BRILLSON, Professor, Department of Electrical and Computer Engineering, effective Winter Quarter and Spring Quarter 2010.

WILLIAM A. T. CLARK, Professor, Department of Materials Science and Engineering, effective Winter Quarter 2010.

W. S. WINSTON HO, Professor, Department of Chemical and Biomolecular Engineering, effective Winter Quarter and Spring Quarter 2010.

ANDREA SERRANI, Associate Professor, Department of Electrical and Computer Engineering, effective Winter Quarter and Spring Quarter 2010.

Professional Improvement Leaves – Change in dates

NORMAND R. ST. PIERRE, Professor, Department of Animal Sciences, change effective dates from August 1, 2009, through July 31, 2010 to August 1, 2009, through December 31, 2009 and March 1, 2010, through September 30, 2010.

February 5, 2010 meeting, Board of Trustees

Emeritus Titles

JAMES E. BEUERLEIN, Department of Horticulture and Crop Science with the title Professor Emeritus, effective February 1, 2010.

JERRY M. BIGHAM, School of Environment and Natural Resources with the title Professor Emeritus, effective February 1, 2010.

FRANK G. CALHOUN, School of Environment and Natural Resources with the title Professor Emeritus, effective March 1, 2010.

DAVID L. COPLIN, Department of Plant Pathology, with the title Professor Emeritus, effective February 1, 2010.

DONALD J. ECKERT, School of Environment and Natural Resources with the title Professor Emeritus, effective February 1, 2010.

GERALD A. EDGAR, Department of Mathematics with the title Professor Emeritus, effective July 1, 2010.

CHARLES E. GRIBBLE, Department of Slavic and East European Languages and Literatures with the title Professor Emeritus, effective July 1, 2010.

RICHARD G. LEMBACH, Department of Ophthalmology with the title Professor Emeritus, effective February 1, 2010.

MICHAEL J. MORAN, Department of Mechanical Engineering with the title Professor Emeritus, effective January 1, 2010.

KOTTIL W. RAMMOHAN, Department of Neurology with the title Professor Emeritus, effective February 1, 2010.

ALLAN J. SAMANSKY, Michael E. Moritz College of Law with the title Professor Emeritus, effective January 1, 2010.

DEBORAH L. ANGELL, Ohio State University Extension with the title Associate Professor Emeritus, effective February 1, 2010.

ROGER L. BAUR, Agricultural and Technical Institute with the title Associate Professor Emeritus, effective July 1, 2010.

DONALD R. LARSON, Department of Spanish and Portuguese with the title Associate Professor Emeritus, effective July 1, 2010.

TIMOTHY J. LONG, Department of Computer Science and Engineering with the title Associate Professor Emeritus, effective January 1, 2010.

LANDON H. RHODES, Department of Plant Pathology with the title Associate Professor Emeritus, effective February 1, 2010.

SALLY A. ROGERS, University Libraries with the title Assistant Professor Emeritus, effective March 1, 2010.

SARAH J. LINDSEY, Ohio State University Extension with the title Assistant Professor Emeritus, effective February 1, 2010.

February 5, 2010 meeting, Board of Trustees

CYNTHIA S. OLIVERI, Ohio State University Extension with the title Assistant Professor Emeritus, effective February 1, 2010.

STEPHEN W. ROGERS, University Libraries with the title Assistant Professor Emeritus, effective February 1, 2010.

CAROLYN C. WILSON, Ohio State University Extension with the title Assistant Professor Emeritus, effective February 1, 2010.

Promotion and Reappointment

COLLEGE OF OPTOMETRY-CORRECTION

PROMOTION TO RESEARCH ASSOCIATE PROFESSOR AND REAPPOINTMENT

Jones, Lisa Ann, effective October 1, 2009 and October 1, 2010

RESOLUTIONS IN MEMORIAM

Resolution No. 2010-58

Synopsis: Approval of Resolutions in Memoriam is proposed.

BE IT RESOLVED, That the Board of Trustees approves the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Ivan Boh

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 11, 2009, of Ivan Boh, Professor Emeritus in the Department of Philosophy.

Professor Boh held a bachelor degree from Ohio University in Athens, Ohio; an M.A. degree in philosophy from Fordham University; and a Ph.D. degree in philosophy from the University of Ottawa. He was born in Dolenji Lazi, Solvenia, and taught in a number of universities before coming to Ohio State in 1969. His first position was at Clarke College in 1957; from there he held positions at the University of Iowa (1962-63), Clarke College (1964-66), Michigan State University (1966-69), finally coming to Ohio State as a full professor, where he taught from 1969-95. His teaching and research interests focused on medieval logic, although he taught a variety of courses, including existentialism, history of philosophy, and history of logic.

Professor Boh received many prestigious grants and awards throughout his career. These included a Fulbright Research Fellowship to study at the University of Munich (1964-65), a sabbatical research year at the University of Barcelona (1972-73), a Fulbright Research Fellowship to study at the University of Ljubljana in Slovenia (1986-87), and an IREX and Fulbright Fellowship to do research at the University of Halle-Wittenberg, Halle, and Jagiellonian University in Krakow, Poland (1986-87). In addition, he was a MUCIA Exchange Professor at Moscow State University (1979-80).

Among his many publications, his major volume *Epistemic Logic in the Later Middle Ages* (1993) provided the first comprehensive study of epistemic logic in the Middle Ages, a field that was neglected for many centuries and rediscovered in the twentieth century. In this work, Boh explored the contrast between epistemic and alethic conceptions of consequence, the general epistemic rules of consequence, the search for conditions of knowing contingent propositions, and a comparison between medieval

February 5, 2010 meeting, Board of Trustees

endeavors and the epistemic logic of our times. Other noteworthy recent publications include: "Four Phases of Medieval Epistemic Logic," *Theoria* (2000); "Walter Burley" in *Individuation in Scholasticism* (1994); "Propositional Attitudes in the Logic of Walter Burley and William Ockham," *Franciscan Studies* (1984); and "Epistemic and Alethic Iteration in Later Medieval Logic," *Philosophia Naturalis* (1984).

Professor Boh served his profession at the highest level. He was a member of the American Philosophical Association, the American Catholic Philosophical Association, the Society for Medieval and Renaissance Philosophy, and the International Society for the Study of Medieval Philosophy. He regularly attended national and international meetings, and shared his research on a continual basis; he was considered one of the world's leading authorities in medieval logic, and was esteemed by his colleagues in these many associations.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Ivan Boh its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Alan K. Brown

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 17, 2009, of Alan K. Brown, Associate Professor Emeritus in the Department of English.

Professor Brown received his Ph.D. degree from Stanford University in 1969 with a concentration in Old English language and literature. After teaching briefly at the University of Arizona, he joined the faculty at Ohio State in 1970 to teach classes in Old English, Middle English, medieval literature, and the history of the English language.

In his years at Ohio State, Professor Brown always had a circle of devoted students who were attracted not only by his deep philological expertise but also by the inimitable joy with which he expressed it. During his career he taught Old English to hundreds of students, making the subject come alive by his ability to perform the ancient poetry in the classroom. In his annual appearances at the Ohio State Medieval and Renaissance Fair, he brought *Beowulf* to life; dressed in robes and with lyre in hand, he performed the poem from memory to audiences entranced both by the music and by the costumed figure giving it voice.

Professor Brown's scholarship was characterized by great philological learning as well as an appreciation for medieval material culture. He published numerous essays on Old English language, literature, and culture. He was also an expert on the Latin-Old English glossaries of the Pre-Conquest period. With a mastery of Latin, Old French, Old Spanish, Old and Middle High German, the medieval Scandinavian languages, the Celtic tongues, and the medieval English vernaculars, Professor Brown's linguistic acumen informed all of his scholarly work.

He was also a world-renowned contributor to the field of California history. His studies of California place-names, his publications on the aboriginal peoples of the American West, and his award-winning translation of the journals of Juan Crespi and Pedro Font (two early Franciscan missionaries in California) gained him an international reputation among historians of Spanish-American relations.

Professor Brown was an active member of the University community, serving on numerous departmental, college, and University committees. He was especially active

February 5, 2010 meeting, Board of Trustees

in helping the Department of English integrate emerging technologies into its research and instruction.

On behalf of the University community, the Board of Trustees expresses to the family of Associate Professor Emeritus Alan K. Brown its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Seifrid P. Bruny

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 22, 2009, of Seifrid P. "Fred" Bruny, Professor Emeritus in the Ohio State University Extension.

Professor Bruny was born in 1926 in Martins Ferry, Ohio, and was a World War II Army veteran with overseas duty in Okinawa. He received his Bachelor of Science in Agriculture degree in 1950, his Master of Arts degree in agricultural education in 1957, and his Ph.D. in education in 1970, all from The Ohio State University.

Fred began his Extension career in Ohio in April of 1952 as the associate county extension agent in Coshocton County, teaching vocational agriculture. In March of 1953, he became the county agricultural agent in Jackson County. In January of the next year, he became an assistant state leader in 4-H and held this appointment until his retirement in 1982.

During his Extension career he gave leadership to 4-H volunteer programs, the State 4-H Leadership Camp, and 4-H Animal Science Programs. He was recognized throughout the state for these outstanding contributions and for making 4-H a better program for boys and girls all over the state. Dr. Bruny received the Distinguished Service Award from the National Association of Extension 4-H Agents. He also served and gave leadership on many state committees.

Professor Bruny loved the outdoors and was an avid hunter and fisherman.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Seifrid P. "Fred" Bruny its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Leonard K. Ebel

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 8, 2009, of Leonard K. Ebel, Clinical Associate Professor Emeritus in the College of Dentistry, Section of Periodontology.

Dr. Ebel was born in 1940 and grew up in Lorain, Ohio. He received his Bachelor of Science in Education degree from The Ohio State University in 1963, with a major in comprehensive sciences. He then attended the OSU College of Dentistry, receiving his D.D.S. degree in 1967. Following graduation from dental school, he served for two years as a captain in the United States Army at Fort Hamilton in Brooklyn, New York. He began the Advanced Education Program in Periodontics at OSU in 1971, completing the Certificate Program and a master's degree in 1973. Upon completion of his specialty training, Dr. Ebel began full-time teaching with the rank of clinical assistant professor in the Section of Periodontology, where he quickly rose to the rank of clinical

February 5, 2010 meeting, Board of Trustees

associate professor. He served as the chair of the Section of Periodontology from 1977-80.

Dr. Ebel had strong interpersonal and organizational skills. One of his first actions was to appoint a program director for the Advanced Education Program. He dramatically restructured the didactic and clinical pre-doctoral periodontal program. Dr. Ebel was very supportive of his faculty and endeavored to bring together a diverse group of individuals. He established excellent relationships with the chairs of other College Sections. His leadership and initiative was the start of a new era of periodontics at Ohio State. While on faculty, Dr. Ebel directed several continuing education programs, was actively involved in dental research, and was the author of several chapters and publications in refereed journals. He was an active member of the Ohio Academy of Periodontists and the American Academy of Periodontology.

In 1980, Dr. Ebel began his private practice and, after leaving full-time teaching, continued as a part-time faculty in the Section of Periodontology. In 1999, Dr. Ebel retired from private practice. After retirement he focused intensely on his love of cultural activities including opera, topiaries, and English gardens.

On behalf of the University community, the Board of Trustees expresses to the family of Clinical Associate Professor Leonard K. Ebel its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Walter J. Frajola

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 17, 2009, of Walter J. Frajola, Professor Emeritus in the Department of Molecular and Cellular Biochemistry.

He was born in 1916 and was among the few who graduated from college before World War II, served in the army during the war, and benefited from the G.I. Bill for his graduate education after the war ended. He had a rich and varied career that was centered in the College of Medicine at The Ohio State University.

Walter was raised in Gilbert, Minnesota, graduating from Gilbert High School in 1933 and from Virginia Junior College in 1935. He graduated cum laude from Hamline University with a double major in chemistry and education in 1938. Professor Frajola taught biology and chemistry at Elk Point, South Dakota, but was recruited to the Chicago Ordinance District's Twin Cities Division, then sent to Officer's Candidate School and assigned to ammunition and bomb disposal in Manila. He returned to America and took a Ph.D. degree in chemistry and biochemistry at the University of Illinois in 1950.

He was recruited to Ohio State to explore the then new concept of one-gene-one-enzyme and to explore the role of genes in cellular structure through the new tool of electron microscopy.

Walter Frajola was a scholar curious about biology and its application to clinical medicine. He became the director of the Herman A. Hoster Research Laboratory related to Hodgkin's Disease. He studied nutritional aspects of this disease, examined cells in the electron microscope, and searched for a possible virus by ultracentrifugation of DNA preparations. He had very broad interests that were excited by his curiosity.

February 5, 2010 meeting, Board of Trustees

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Walter J. Frajola its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Pauline H. Hetz

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 29, 2009, of Pauline H. Hetz, Instructor Emeritus in the Ohio State University Extension.

Mrs. Hetz was born in 1924 in Marietta, Ohio. She received her Bachelor of Education degree in home economics from Ohio University in 1946.

Pauline began her Extension career in Ohio in July of 1949 as the home demonstration agent in Lawrence County. In July of 1956, she became the county home economics agent in Paulding County. In 1958 she transferred to Wyandot County as the home economics agent and then moved to Defiance County as the county extension agent - home economics in 1960. She retired with emeritus status from this position in 1982.

Pauline's contributions in providing Extension educational programs included teaching to low income homemakers, head-start cooks, and senior citizens as well as conducting "Decisions for Living" classes with young adults. She established homemaker groups for young women. Pauline also conducted weekly radio programs, and prepared timely news releases and program announcements for the Extension clientele.

She received the Distinguished Service Award from the National Association of Extension Home Economists. She served on many committees and boards professionally as well as with local community organizations during her career.

On behalf of the University community, the Board of Trustees expresses to the family of Instructor Emeritus Pauline H. Hetz its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

Lloyd E. Lutz

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 12, 2009, of Lloyd E. Lutz, Instructor Emeritus in the Ohio State University Extension Service.

Mr. Lutz was born on a farm in 1917 in Crawford County, Ohio. After attending Ashland College, he received his Bachelor of Science degree in Agriculture from The Ohio State University in 1941. He then enlisted in the U.S. Marine Corps and served as a drill instructor at Parris Island, South Carolina, during World War II. After serving his country, he taught vocational agriculture at the high school level.

Lloyd began his Extension career in Ohio in November of 1946, as the associate county extension agent in Marion County. In March of 1952, he became the county agricultural agent in Shelby County, a position that he held until he retired with emeritus status in 1979.

Mr. Lutz's contributions in providing Extension educational programs included a primary

February 5, 2010 meeting, Board of Trustees

focus on dairy and agronomy programs to the citizens in Shelby County. He also conducted educational programs for the farmers of swine and sheep. In addition, he provided educational programs on insect and disease control for crops as well as on the changes in storage and marketing of crops.

He received the Distinguished Service Award from the National Association of County Agriculture Agents. He served on many committees and boards professionally, as well as with local community organizations during his career.

On behalf of the University community, the Board of Trustees expresses to the family of Instructor Emeritus Lloyd E. Lutz its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

William A. McWorter

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 22, 2009, of William A. McWorter, Associate Professor Emeritus in the Department of Mathematics.

Professor McWorter received both his Bachelor of Science degree and Doctor of Philosophy degree in mathematics from The Ohio State University. He taught at the University of British Columbia, Canada, for two years before returning to The Ohio State University in 1966. His interest in mathematics was mainly focused in group theory and combinatorics.

Willie loved mathematics and he also devoted a lot of his time in improving mathematics education. He was a very creative, enthusiastic, and demanding educator, and he was always trying to find novel ways of presenting abstract mathematical concepts to a broad undergraduate audience.

Willie McWorter was an active member of the Department and played a major role in preparing the examination problems for the Rasor-Bareis Competition, which is an endowed mathematical competition for the best mathematics undergraduates in the University.

Due to his kind and friendly personality, he was a great mentor to new faculty and he devoted his time and energy in seeing that they succeeded.

On behalf of the University community, the Board of Trustees expresses to the family of Associate Professor Emeritus William A. McWorter its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Keith E. Mixter

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 23, 2009, of Keith E. Mixter, Professor Emeritus in the School of Music.

Professor Mixter held a Bachelor of Music degree from Michigan State University, a Master of Arts degree in music from the University of Chicago, and a Doctor of Philosophy degree in music from the University of North Carolina, Chapel Hill. He also took graduate work in musicology at the University of Basel, Switzerland. While

February 5, 2010 meeting, Board of Trustees

completing his doctorate, he served as music librarian at the University of North Carolina. He came to The Ohio State University in 1961 and served as a professor of music history in the School of Music for 30 years, retiring in 1991. He taught at all levels and directed many theses and dissertations.

Professor Mixer's *General Bibliography for Music Research*, published in 1962, enjoyed a third edition in 1996. His critical edition of the complete works of the fifteenth-century composer Johannes Brassart was published in the prestigious series *Corpus Mensurabilis Musicae*. He published numerous journal and encyclopedia articles on topics such as lute tablature, isorhythmic motets, early music manuscripts, and European music libraries. Particularly important to the University was his discovery of music manuscript leaves used in the binding of a fifteenth-century book in the University Libraries ("A Newly Discovered Medieval Polyphonic Sequence," *Musica disciplina*, vol. 44, 1990).

Professor Mixer was active in several professional societies, holding committee, board, and council memberships in the American Musicological Society, the International Association of Music Libraries, and the Music Library Association. At the University he worked closely with the founders of the Center for Medieval and Renaissance Studies, helping to shape that Center's interdisciplinary programs. He chaired the School of Music Library Committee for many years, and he served as chair of Graduate Studies for the School of Music. He had a profound influence on the development and cataloguing of the University's Music and Dance Library collection, both as a librarian and as a specialist in medieval manuscripts.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Keith E. Mixer its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Fairfax E. Watkins

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 25, 2009, of Fairfax E. Watkins, Professor Emeritus in the Department of Civil and Environmental Engineering and Geodetic Science.

In 1930 Fairfax Watkins rode his horse some 200 miles westward to the mountain town of Blacksburg, Virginia, where he began his studies of mechanical engineering at Virginia Polytechnic Institute. After graduating with a M.S. degree in mechanical engineering in 1937, he received an offer from Professor Thomas French for a faculty position at The Ohio State University. Professor Watkins taught at Ohio State from 1937-42.

In 1942 Professor Watkins took leave from OSU to serve in the United States Army during World War II. While serving in the military, he managed engineering operations of the barrage balloon protection of the Panama Canal, for which he was decorated with the Legion of Merit Medal of Honor.

Professor Watkins was transferred to the Massachusetts Institute of Technology in 1943, where he served as a professor of military science. A year later, while still in the U.S. Army, he served his country by investigating the background of scientists working on the Manhattan Project.

When WW II ended, Professor Watkins took a civilian job with the Pennsylvania Department of Transportation where he designed traffic interchanges for the Pennsylvania Turnpike. These interchanges, then called clover leaves, were among the

February 5, 2010 meeting, Board of Trustees

first to be built in the world.

Professor Watkins returned to Ohio State in 1946, joining the former Department of Engineering Graphics where he taught courses in engineering graphics and engineering mechanics. He retired from OSU in 1974.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Fairfax E. Watkins its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Benjamin H. Williams

The Board of Trustees of the Ohio State University expresses its sorrow upon the death on August 27, 2009, of Benjamin H. Williams, Professor Emeritus in the College of Dentistry, Section of Orthodontics.

Dr. Williams received his dental degree (1946) and a Master of Science degree (1949) from The Ohio State University. He also held a masters degree in anatomy and a Master of Science degree in orthodontics from the University of Illinois (1951). He was the chair of the Section of Orthodontics at Ohio State from 1960-78, and was co-chair from 1981-84.

He retired from the College as Professor Emeritus in 1985 after 35 years of association with OSU Orthodontics, during which time he supervised over 100 graduate theses (many of which were published in various professional journals). He also developed the Graduate Residency Program in Orthodontics at OSU. In conjunction with being a faculty member at Ohio State, he was also on staff at Columbus Children's Hospital and Dayton's V.A. Hospital. He maintained a private orthodontic practice in Worthington, Ohio.

Dr. Williams was very well-known for his dedication to teaching residents and students. In 2008, an endowed chair fund was named for the Vig/Williams Endowed Chair in Orthodontics. Dr. Williams was also a life member and past president of the OSU Orthodontics Alumni Association, which he helped establish.

He was a WWII Veteran, having served as a captain in the Army Dental Corps. Dr. Williams was also a member of many professional societies and associations, such as the International Association of Dental Research, the American Association of Orthodontists, the Great Lakes Association of Orthodontics, European Orthodontic Society, and the World Federation of Orthodontists serving in various capacities. His hobbies were photography and world travel.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Benjamin H. Williams its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2010-59

Synopsis: The University Development Report as of December 31, 2009, is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the revision of The Hubert Schmidt Chair in Landscape Architecture, the establishment of thirty-one (31) new named endowed funds, and the revision of eight (8) named endowed funds.

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation for September 2009 be approved.

(See Appendix XXVII for background information, page 515.)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

	<u>Total Gifts</u>
<u>Establishment of Named Endowed Funds</u>	
The OARDC Outlying Agricultural Research Stations Endowment Fund (Established with funds from the sale of property at the OARDC Pomerene Forest Laboratory and with additional funds from OARDC; used for operating expenses, infrastructure, equipment, and personnel at OARDC's Outlying Agricultural Research Stations)	\$50,841.00
The Sphinx Centennial Leadership Suite Endowment Fund [Established with gifts from Tried Links (alumni) and friends of Sphinx Senior Honorary; used for the maintenance of the Sphinx Centennial Leadership Suite in the Ohio Union]	\$50,000.00
The Dental Class of 1971 Memorial Scholarship Fund (Established with gifts from the Dental Class of 1971; used to provide need-based scholarships to students enrolled in the College of Dentistry with preference for students who are married and have children) (grandfathered)	\$28,125.00
The Ohio State University Alumni Club – Hawaii Scholarship Fund (Established with gifts from the OSU Alumni Club of Hawaii; used to provide scholarships for incoming undergraduate students from the state of Hawaii) (grandfathered)	\$27,650.00

February 5, 2010 meeting, Board of Trustees

Gordon E. Gatherum Memorial Fund \$25,223.73
(Established with gifts from Dr. John Vimmerstedt, and other friends and relatives of the late Gordon E. Gatherum; used for undergraduate forest biology research at OARDC) (grandfathered)

Change in Description of Named Endowed Fund

The Nicholas D. and Evangeline Jonson Memorial Scholarship Fund

Change in Name and Description of Named Endowed Funds

From: The Marcy and Richard Horvitz Veterinary Scholarship Fund
To: The Richard Horvitz Veterinary Scholarship Fund

From: The Donald Schuerman Scholarship Fund
To: The Don Schuerman Family Memorial Scholarship Fund

Change in Description of Named Endowed Chair

The Hubert Schmidt Chair in Landscape Architecture

Total
Gifts

Establishment of Named Endowed Funds

Schoenbaum Scholars Program Fund in The Max M. Fisher College of Business \$500,962.50
(Established with funds transferred from the Schoenbaum Scholars Program Fund which was established with gifts from Alex and Betty Schoenbaum; used to provide scholarship support for students enrolled in or intending to enroll in the Fisher College of Business)

Chester J. Rockey Endowment Fund \$377,087.80
(Established with gifts from the estate of Anna Rebecca Rockey Katz in memory of her grandfather; used to provide scholarship support for students in the College of Dentistry)

The Anne and Ray Groves Rare Book Fund \$162,000.00
(Established with a gift from Anne and Ray Groves; used for the purchase, restoration, and/or preservation of items in the Rare Books and Manuscripts division in the University Libraries)

The Critical Difference for Women Endowed Scholarship Fund \$114,588.70
(Established with gifts from the estate of Rachel Elizabeth Richards and friends and supporters of Critical Difference for Women; used to provide scholarships for students who have interrupted their education but are now re-entering the University to complete their degrees)

The Bill and Gwen Buschman Athletic Scholarship Fund \$112,500.00
(Established with gifts from the estate of William and Gwen Buschman; used to supplement the grant-in-aid scholarship costs for intercollegiate student-athletes who are members of Olympic sport teams)

February 5, 2010 meeting, Board of Trustees

The Edgar J. Grand Horticulture Scholarship Fund (Established with a gift from Judi and Tom Phares in memory of her father; used to provide scholarships for undergraduate students majoring in horticulture in the College of Food, Agricultural, and Environmental Sciences)	\$100,000.00
Ross Family Scholars Fund (Established with gifts from Carolyn and Elliot Ross; used to equally support three Ross Family Scholars in the Engineering Honors and Scholars Program majoring in welding engineering)	\$100,000.00
The Alva L. Jones and Hester Murray Jones Scholarship Fund (Established with gifts from Hester Murray Jones; used to equally support The Alva L. Jones and Hester Murray Jones CDW Re-Entry Scholarship for women and The Alva L. Jones and Hester Murray Jones Scholarship for undergraduate students)	\$77,239.94
The Gary L. Sharpe Scholarship Fund in Geography (Established with gifts from Gary L. Sharpe; used to provide scholarship support to undergraduate students majoring in geography)	\$75,000.00
Large Binocular Telescope Operating Endowment Fund (Established with gifts from alumni and friends of the Department of Astronomy; used to promote student use of the Large Binocular Telescope or similar use of a future successor world-class astronomical facility to which Ohio State has guaranteed access)	\$72,702.92
Major Ray Mendoza Endowed Scholarship Fund (Established with gifts from friends, family, and colleagues in memory of Major Ray Mendoza; used to provide scholarship support for a student enrolled in or planning to enroll in the master's program at the John Glenn School of Public Affairs)	\$71,240.00
The Wilbur V. and Frances L. Moore Memorial Scholarship Fund (Established with gifts from the estate of Wilbur V. Moore; used to provide support for undergraduate students in the College of Food, Agricultural, and Environmental Sciences who are majoring in Food Science and Technology)	\$66,000.00
The Kenneth E. and Lynette O. Hoehn Endowed Scholarship Fund (Established with gifts from Jacquelyn Meshelemiah and James Stahler in recognition of Dr. Meshelemiah's high school teachers; used to provide scholarships within the College of Social Work)	\$60,515.00
Keith and Jane Smith Engineering Excellence Fund (Established with gifts from Dr. Keith and Jane Smith; used for developing student excellence through the Engineering Education Innovation Center as determined by the dean of the College)	\$60,000.00
The Roy Wallace Memorial Fund for Beef Center Student Herdsmen (Established with gifts from family and friends of Roy Wallace; used to support the wages of undergraduate students employed as student herdsman at the OSU Beef Center in the Department of Animal Sciences)	\$53,365.00

February 5, 2010 meeting, Board of Trustees

The Margaret and Charles Evers Endowed Scholarship Fund for Education and Human Ecology (Established with gifts in memory of Margaret and Charles from their children Brian Evers, Bruce Evers, and Judith Flinn; used to provide scholarships within the College of Education and Human Ecology)	\$51,000.00
The Robert W. Adams Memorial Scholarship Fund in Chemical and Biomolecular Engineering (Established with gifts from his son and daughter-in-law, Jeffrey D. and Lori Adams; used to provide scholarships to students majoring in Chemical and Biomolecular Engineering)	\$50,178.64
The Dr. George D. Boston Endowed Diversity Scholarship Fund in Dentistry (Established with gifts from the George D. Boston Trust and Dr. Boston's grandchildren: Tamaul Boston, Johanna Boston, and Tia B. Boston; used to provide scholarships in the College of Dentistry)	\$50,000.00
Major Ray Mendoza Endowed Scholarship Fund III (Established with gifts from Alex Porter in memory of Major Ray Mendoza; used to provide scholarship support for a student enrolled in or planning to enroll in the master's program at the John Glenn School of Public Affairs)	\$50,000.00
Robert and Stephany Ruffolo Endowed Scholarship Fund (Established with a gift from Robert and Stephany Ruffolo; used to provide scholarships in the Doctor of Pharmacy program)	\$50,000.00
Bruce and Jane Walsh Endowed Fund (Established with gifts from Bruce and Jane Walsh; used to purchase library volumes focusing on issues in higher education for the American Association of University Professors library in the Thompson Libraries) (grandfathered)	\$37,000.00
The Judith Fountain Critical Difference for Women Scholarship Fund (Established with gifts from friends and colleagues of Judith Fountain; used to provide scholarships for students who have interrupted their education but are now re-entering the University to complete their degrees) (grandfathered)	\$33,493.00
The Pat R. and Melena S. Whittington Undergraduate Teacher Education Scholarship Fund (Established with gifts from Dr. Pat R. and Dr. Melena S. Whittington; used for scholarships for undergraduate students majoring in the Teacher Education preparation option in Agricultural and Extension Education in the College of Food, Agricultural, and Environmental Sciences) (grandfathered)	\$28,026.28
Cindy Coykendale Fund (Established with gifts from Cindy Coykendale and her family, friends, and colleagues; used at the discretion of the dean of the Fisher College of Business to support faculty, student, and staff activities in accordance with the College's strategic plans) (unrestricted)	\$27,076.94

February 5, 2010 meeting, Board of Trustees

The Ream Family Endowed Scholarship Fund \$26,000.00
(Established with gifts from Greg and Patricia Ream and Lou Ream;
used to provide scholarships for students enrolled in the College of
Pharmacy) (grandfathered)

Shelby County 4-H Endowment Fund \$25,541.22
(Established with gifts from friends of Shelby County 4-H; used to
provide program funding for the 4-H youth and volunteers of the
Shelby County 4-H Youth Development Program) (grandfathered)

Change in Name of Named Endowed Fund

Education and Human Ecology

Total \$2,613,357.67

Establishment of Named Endowed Funds

The OARDC Outlying Agricultural Research Stations Endowment Fund

The OARDC Outlying Agricultural Research Stations Endowment Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University with funds from the sale of property at the OARDC Pomerene Forest Laboratory and with additional funds from OARDC.

The annual distribution from this fund shall provide support for operating expenses, infrastructure, equipment, and personnel at OARDC's Outlying Agricultural Research Stations. The fund may also be used to provide seed monies to support specific research or outreach projects to address agricultural production issues of concern to farmers and stakeholders. Expenditures from this fund shall be recommended by the director of the OARDC and the Outlying Research Stations department head and approved by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

February 5, 2010 meeting, Board of Trustees

The endowment established herein is intended to benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the director of the OARDC.

Amount Establishing Endowment: \$50,841.00

The Sphinx Centennial Leadership Suite Endowment Fund

The Sphinx Centennial Leadership Suite Endowment Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University with gifts from Tried Links (alumni) and friends of Sphinx Senior Honorary.

Sphinx Senior Honorary is the oldest class honorary at The Ohio State University. As part of the celebration of its 100th anniversary in May 2007, Sphinx Senior Honorary named and furnished the Sphinx Centennial Leadership Suite at the Ohio Union, with an adjoining outdoor balcony/terrace. The Sphinx Centennial Leadership Suite is intended to honor and perpetuate Sphinx Senior Honorary's long and special relationship with the Ohio Union, as well as advance the ideals of student service and leadership.

The annual distribution from this fund shall be used for the maintenance of the Sphinx Centennial Leadership Suite in the Ohio Union. Expenditures may include, but are not limited to, replacement or repair of Sphinx Centennial Leadership Suite furnishings, and equipment and/or supplies directly related to the maintenance and upkeep of the Suite. All expenditures from this fund shall be jointly approved in advance by the director of the Ohio Union and by the affirmative vote of a majority of the members of the Sphinx Alumni Council. The Sphinx Alumni Council was established as a result of the creation of The Sphinx Endowment Fund (606868) on November 5, 1982, in connection with the 75th anniversary of Sphinx Senior Honorary. While Sphinx's involvement in the decisions regarding the décor of the Sphinx Centennial Leadership Suite is encouraged and welcomed, the final determination regarding the décor in the suite rests with The Ohio State University and the director of the Ohio Union.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be reinvested in the endowment principal or it may be held in a distribution account to be used in subsequent years and only for the purposes of the endowment at the discretion of the Sphinx Alumni Council and the director of the Ohio Union.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the Sphinx Alumni Council and from the director of the Ohio Union.

February 5, 2010 meeting, Board of Trustees

Amount Establishing Endowment: \$50,000.00

The Dental Class of 1971 Memorial Scholarship Fund

The Dental Class of 1971 Memorial Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University with gifts from the Dental Class of 1971.

The annual distribution from this fund shall provide need-based scholarship support to students enrolled in the College of Dentistry with preference for students who are married and have children. Scholarship recipients shall be selected by the dean of the College of Dentistry in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Dentistry.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the dean of the College of Dentistry.

Amount Establishing Endowment: \$28,125.00 (grandfathered)

The Ohio State University Alumni Club - Hawaii Scholarship Fund

The Ohio State University Alumni Club - Hawaii Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University, with gifts from the OSU Alumni Club of Hawaii.

The annual distribution from this fund shall provide scholarships for incoming undergraduate students from the state of Hawaii who are in the top 50% of their high school class. Scholarship recipients will be selected by the Office of Student Financial Aid in consultation with the OSU Alumni Club of Hawaii.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donors, should one be available, and from the director of the Office of Student Financial Aid.

Amount Establishing Endowment: \$27,650.00 (grandfathered)

Gordon E. Gatherum Memorial Fund

The Gordon E. Gatherum Memorial Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University with gifts from Dr. John Vimmerstedt of Wooster, Ohio, and other friends and relatives of the late Gordon E. Gatherum. Dr. Gatherum was an emeritus professor and director in the University's School of Environment and Natural Resources.

The annual distribution from this fund shall provide support for undergraduate forest biology research at the Ohio Agricultural Research and Development Center (OARDC). Recipients shall be selected by a committee of OARDC faculty and research expenditures shall be approved by the director of OARDC and the director of the School of Environment and Natural Resources (SENR) in accordance with guidelines approved by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the OARDC and the director of the SENR.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

The endowment established herein is intended to benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contributions as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the director of the OARDC and the director of the SENR.

Amount Establishing Endowment: \$25,223.73 (grandfathered)

Change in Description of Named Endowed Fund

The Nicholas D. and Evangeline Jonson Memorial Scholarship Fund

The Nicholas D. and Evangeline Jonson Memorial Scholarship Fund was established June 7, 1985, by the Board of Trustees of The Ohio State University with memorial gifts from friends and family at the death of Evangeline Jonson and with a major gift from

February 5, 2010 meeting, Board of Trustees

their son George N. Jonson (B.A. 1997) of Hamilton, Ohio. The description was revised October 2, 1987, and September 18, 2009, and was revised again February 5, 2010.

The annual distribution from this fund shall provide renewable scholarships for incoming full-time students enrolled at or planning to enroll at The Ohio State University. Qualified candidates must have graduated from Hamilton High School in Hamilton, Ohio, with a minimum 3.0 grade point average and must have demonstrated good citizenship and leadership abilities while attending high school. Consideration may be given to activities engaged in while attending high school; however, consideration shall not be given to financial need. First preference will be given to candidates who are humanities majors. If there are no candidates who are humanities majors, the scholarship may be awarded to candidates majoring in any arts and sciences major. If no candidates meet either of these preferences, the scholarship may be awarded to candidates in any major.

Scholarship recipients shall be recommended by a committee appointed by the guidance counselor of Hamilton High School; George N. Jonson or his designee shall be given the opportunity to participate on this committee. In the event Mr. Jonson has not selected a designee to serve on the committee on his behalf and is unable to participate himself, his wife (Sophia) or daughters (Lynne Schutter, Marjorie Schaeffer) shall be given the opportunity to serve in his place. The assistant dean of Undergraduate Studies in the College of Humanities shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid. Scholarships are renewable as long as the recipients maintain a minimum 3.0 grade point average and continue to demonstrate good citizenship and leadership abilities.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from George N. Jonson or his wife (Sophia) or daughters (Lynne Schutter, Marjorie Schaeffer) or a named designee, should they be alive, and from the dean of the College of Humanities.

Change in Name and Description of Named Endowed Fund

The Richard Horvitz Veterinary Scholarship Fund

The Morgan Horvitz Fund in Veterinary Medicine was established February 7, 1992, by the Board of Trustees of The Ohio State University with a gift from Marcy and Richard Horvitz of Cleveland, Ohio. The name of the fund was revised to The Marcy and Richard Horvitz Veterinary Scholarship Fund on February 2, 2001. The name and description were revised February 5, 2010.

February 5, 2010 meeting, Board of Trustees

The annual distribution from this fund shall be used to provide scholarship funds to a student who, having completed at least one academic quarter or semester in the College of Veterinary Medicine and having indicated a likelihood of practicing canine veterinary medicine, demonstrates (1) true compassion toward and love of animals, and (2) a high level of scholarship and academic proficiency as determined by the College of Veterinary Medicine Scholarship Committee or a successor faculty committee with similar function. Scholarship recipients shall be selected by the College of Veterinary Medicine Scholarship Committee, or its successor, in consultation with the University's Office of Student Financial Aid. In the event that the Scholarship Committee determines that there are two or more equally deserving candidates, the Scholarship Committee may consider the financial need of the candidates. The scholarship is renewable provided the recipient continues to meet the criteria set forth above.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Veterinary Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, should they be alive, and from the dean of the College of Veterinary Medicine.

The Don Schuerman Family Memorial Scholarship Fund

The Donald Schuerman Scholarship Fund was established September 18, 2009, by the Board of Trustees of The Ohio State University with gifts from Donna L. Schuerman of Pemberville, Ohio. The name and description were revised February 5, 2010.

The annual distribution from this endowed fund shall be used to support one or more scholarships to be awarded annually to undergraduate students in the College of Food, Agricultural, and Environmental Sciences. First preference shall be given to students from Wood County, Ohio, who are majoring in Agricultural Economics, Animal Sciences, or Crop Science who have outstanding achievements and who continue to lead and serve in the University community. If there are no eligible students from Wood County, then second preference is for students from the contiguous counties in northwest Ohio whose majors and leadership are consistent with the first preference standards. Scholarship recipients will be selected by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences or his designee in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the

February 5, 2010 meeting, Board of Trustees

endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor, should she be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

Change in Description of Named Endowed Chair

The Hubert Schmidt Chair in Landscape Architecture

The Hubert Schmidt Chair in Landscape Architecture was established September 18, 2009, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Mrs. Virginia Grama Schmidt (B.A. *with Distinction in French* 1936, M.A. 1937, B.S.Ed. 1938) in memory of her husband Mr. Hubert Conrad Schmidt (B.Land.Arch. 1938). The description was revised February 5, 2010.

Hubert made substantial contributions to the study of Pacific flora, the design of the Golden Gate Park, as well as serving as a tireless volunteer for the San Francisco Botanical Garden at the Strybing Arboretum.

The annual distribution from this fund shall support a chair position in the Landscape Architecture program. Qualified candidates must be internationally acclaimed. Candidates will be recommended by the dean of the College of Engineering in consultation with the director of the Knowlton School of Architecture and approved by the University's Board of Trustees.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Engineering in consultation with the director of the Knowlton School of Architecture.

Establishment of Named Endowed Funds

February 5, 2010 meeting, Board of Trustees

Schoenbaum Scholars Program Fund in The Max M. Fisher
College of Business

The Schoenbaum Scholars Program Fund in The Max M. Fisher College of Business was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with one half of the principal balance from the Schoenbaum Scholars Program Fund which was established with gifts from Alex (B.S.Bus.Adm. 1939) and Betty (Attended 1939, Honorary Doctor of Business 2001) Schoenbaum.

The annual distribution designated to The Max M. Fisher College of Business shall support students entering or intending to enter, or enrolled in the College. The following criteria shall be in effect for Schoenbaum Scholars in The Max M. Fisher College of Business:

1. Students should show a demonstrated financial need
2. The scholarship will provide tuition, room and books
3. One scholar at the freshman, sophomore, junior, and senior levels will be supported
4. Recipients will be selected through a formula based on test scores and/or high school rank
5. Selected students entering as freshmen will be eligible for renewal of the scholarships provided they maintain a grade point average of 3.0 or with appeal to the financial aid committee
6. Selected students should show a potential for success as measured by academic record, extracurricular activities, work experience and other experiences
7. Selection of the recipients will be made by the Fisher College of Business in consultation with the Office of Student Financial Aid

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the Fisher College of Business.

Amount Establishing Endowment: \$500,962.50

Chester J. Rockey Endowment Fund

The Chester J. Rockey Endowment Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Anna Rebecca Rockey Katz (M.A. 1979) in memory of her grandfather, Chester J. Rockey (D.D.S. 1911).

The annual distribution from this fund shall provide scholarship support for students in the College of Dentistry. The specific terms of the scholarship shall be at the discretion of the College's dean to allow flexibility to meet the needs of the day. Scholarships shall be awarded in consultation with the Office of Student Financial Aid.

February 5, 2010 meeting, Board of Trustees

Should the program no longer be in existence at any point in time, the scholarship shall be awarded to students in a program which is as closely aligned with the donor's original intent as practicable.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Dentistry.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Dentistry and the Office of Student Financial Aid.

Amount Establishing Endowment: \$377,087.80

The Anne and Ray Groves Rare Book Fund

The Anne and Ray Groves Rare Book Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Anne and Ray (B.S.Bus.Adm. 1957) Groves.

The annual distribution from this fund shall be used for the purchase, restoration, and/or preservation of items in the Rare Books and Manuscripts division in the University Library as recommended by the division's director and approved by the director of University Libraries.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the University Libraries.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of University Libraries.

Amount Establishing Endowment: \$162,000.00

February 5, 2010 meeting, Board of Trustees

The Critical Difference for Women Endowed Scholarship Fund

The Critical Difference for Women Endowed Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Rachel Elizabeth Richards (B.S.Ed. 1936, M.A. 1937) of Columbus, Ohio, and additional gifts from friends and supporters of Critical Difference for Women.

This fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy.

The annual distribution from this fund shall provide scholarships for students who have interrupted their education but are now re-entering the university to complete their undergraduate, graduate, or professional degrees. It is the donors' desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, female students who have been accepted for admissions at the University. Scholarships may be used for expenses such as the cost of tuition, room and board, books and supplies, and miscellaneous educational expenses. Recipients shall be selected by the Office of Student Financial Aid in consultation with the Critical Difference for Women Scholarship Committee.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's

Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Office of Student Financial Aid.

Amount Establishing Endowment: \$114,588.70

The Bill and Gwen Buschman Athletic Scholarship Fund

The Bill and Gwen Buschman Athletic Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of William (B.S. 1948) and Gwen Buschman of Columbus, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of one male and one female intercollegiate student-athlete who are members of Olympic sport teams and who are pursuing undergraduate degrees at The Ohio State University. Scholarship recipients shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

February 5, 2010 meeting, Board of Trustees

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from Gwen Buschman, should she be alive, and from the director of Athletics.

Amount Establishing Endowment: \$112,500.00

The Edgar J. Grand Horticulture Scholarship Fund

The Edgar J. Grand Horticulture Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Judi and Tom Phares of Dallas, Texas, in memory of her father.

Edgar James Grand was born May 23, 1905, in Lowell, Massachusetts. He loved flowers and plants from an early age. After World War I, Edgar's family moved to Akron, Ohio, where the Grand family's flowers thrived in the moderate temperatures and moisture from Lake Erie. Edgar became friends with the growers at local nurseries and greenhouses and met Elizabeth Hartwick, whose father owned Hartwick Nursery. Edgar and Elizabeth were married for 70 years and had four children, Jim, Gene, JoAnn, and Judi. Edgar's success as a salesman made it possible to further his interest in botany and horticulture. He decided to follow his muse and took on the gardener's job at a large estate in South Akron. He continued to learn and educate and was a permanent member of the American Rose Society. Edgar encouraged his children to pursue a college education even though he could not afford to pay for them to attend. He also passed his "giving spirit" on to his children as he gave freely of himself, of the little money he had, and of his plants and flowers.

The annual distribution from this fund shall be used to support one scholarship for an undergraduate student majoring in horticulture in the College of Food, Agricultural, and Environmental Sciences. Eligible students must be enrolled at the University, in good academic standing, progressing toward their degrees, and have demonstrated financial need. The scholarship may be awarded to the same student in successive years, not to exceed two years, provided the recipient continues to meet the scholarship's criteria. Recipients shall be selected by the Horticulture and Crop Science scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, or his/her designee, in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

February 5, 2010 meeting, Board of Trustees

In any given year that the endowment distribution is not fully expended, the unused portion may be reinvested in the endowment principal or held in the distribution account to be used in subsequent years and only for the purposes of the endowment at the direction of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from donors, should they be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: \$100,000.00

Ross Family Scholars Fund

The Ross Family Scholars Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Carolyn and Elliot Ross.

The annual distribution from this endowed fund shall be used to equally support three Ross Family Scholars; each scholarship shall be at least \$3,333. To qualify students must be Ohio residents enrolled full-time, be admitted in the Engineering Honors and Scholars Program majoring in Welding Engineering; and demonstrate strong growth potential, leadership skills, and evidence of breadth of capabilities beyond the classroom.

Scholarships will be awarded to one (1) incoming sophomore, one (1) incoming junior, and one (1) incoming senior student each fall quarter/fall semester students. If there are no qualified candidates majoring in Welding Engineering, the scholarship(s) may be awarded to candidates majoring in other programs who meet the remaining selection criteria. Recipients shall be selected by the dean of the College of Engineering in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be

February 5, 2010 meeting, Board of Trustees

designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Engineering.

Amount Establishing Endowment:	\$100,000.00
Total Commitment:	\$250,000.00

The Alva L. Jones and Hester Murray Jones Scholarship Fund

The Alva L. Jones and Hester Murray Jones Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Hester Murray Jones (B.A. 1939, B.S.Ed. 1939, M.A. 1941) of Clearwater, Florida.

The annual distribution from this fund shall support two named scholarships. Fifty percent of the annual distribution shall be used to support The Alva L. Jones and Hester Murray Jones CDW Re-Entry Scholarship for women at the undergraduate, graduate, or professional level who have interrupted their education to meet other responsibilities and are in need of financial support to re-enter the educational process. The remaining fifty percent of the annual distribution shall be used to support The Alva L. Jones and Hester Murray Jones Scholarship for undergraduate students with financial need.

The Office of Student Financial Aid will administer this scholarship fund in consultation with the Critical Difference for Women Scholarship committee.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and from the director of the Office of Student Financial Aid.

Amount Establishing Endowment: \$77,239.94

The Gary L. Sharpe Scholarship Fund in Geography

The Gary L. Sharpe Scholarship Fund in Geography was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Gary L. Sharpe (B.A. 1970).

The annual distribution from this fund shall provide need-based scholarship support to undergraduate students majoring in geography with preference given to students from the state of Ohio. Scholarship recipients shall be selected by the dean of the College of

February 5, 2010 meeting, Board of Trustees

Social and Behavioral Sciences in consultation with the chairperson of the Department of Geography and the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Social and Behavioral Sciences in consultation with the chairperson of the Department of Geography.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the College of Social and Behavioral Sciences in consultation with the chairperson of the Department of Geography.

Amount Establishing Endowment: \$75,000.00

Large Binocular Telescope Operating Endowment Fund

The Large Binocular Telescope Operating Endowment Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from alumni and friends of the Department of Astronomy.

The annual distribution from this fund shall be used to promote student use of the Large Binocular Telescope or similar use of any future successor world-class astronomical facility to which Ohio State has guaranteed access. Expenses may include, but are not limited to, travel to and from the facility, cost of specialized equipment (e.g., filters and gratings), computer/communication services related to student observing projects, publication charges, and telescope operating expenses. Expenditures shall be approved by the chairperson of the Department of Astronomy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chairperson of the Department of Astronomy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the

February 5, 2010 meeting, Board of Trustees

original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the chairperson of the Department of Astronomy.

Amount Establishing Endowment: \$72,702.92

Major Ray Mendoza Endowed Scholarship Fund

The Major Ray Mendoza Endowed Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends, family, and colleagues in memory of Major Ray Mendoza (B.A. 1995), a former Buckeye and member of the U.S. Marine Corps, who was killed in the line of duty while serving in Iraq.

The annual distribution from this fund shall provide scholarship support for a student enrolled in or planning to enroll in the master's program at the John Glenn School of Public Affairs who has demonstrated leadership skills and abilities. Scholarship recipients shall be selected by the school's director in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Glenn School of Public Affairs.

Amount Establishing Endowment: \$71,240.00

The Wilbur V. and Frances L. Moore Memorial Scholarship Fund

The Wilbur V. and Frances L. Moore Memorial Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Wilbur V. Moore (B.S.Dairy Tech. 1950).

The annual distribution from this fund shall be used to provide support for undergraduate students in the College of Food, Agricultural, and Environmental Sciences who are majoring in Food Sciences and Technology. Undergraduate students who are selected to receive support from this fund must be in good academic standing and progressing toward their degrees. Recipients shall be selected by the Department of Food Science and Technology's scholarship selection committee in accordance with guidelines established by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, and in consultation

February 5, 2010 meeting, Board of Trustees

with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be reinvested into the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Food Science and Technology.

Amount Establishing Endowment: \$66,000.00

The Kenneth E. and Lynette O. Hoehn Endowed Scholarship Fund

The Kenneth E. and Lynette O. Hoehn Endowed Scholarship Fund in the College of Social Work was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Jacquelyn Meshelemiah and James Stahler in recognition of teachers from Dr. Meshelemiah's high school who made a profound impact on her and her sister by believing in them and guiding them through adolescence while providing them with love and support.

The annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donor's desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, African Americans or other underrepresented groups, who have been accepted for admissions at The Ohio State University College of Social Work. Scholarship recipients will be selected by the dean of the College of Social Work in consultation with the program directors for the B.S.S.W. and M.S.W. Programs and the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Social Work.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

February 5, 2010 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Social Work.

Amount Establishing Endowment: \$60,515.00

Keith and Jane Smith Engineering Excellence Fund

The Keith and Jane Smith Engineering Excellence Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Keith (B.S.Phys. 1960, M.B.A. 1961) and Jane Smith of West Lafayette, Indiana.

The annual distribution from this fund shall be used for developing student excellence through the Engineering Education Innovation Center. The dean of the College of Engineering will determine the best use of the distribution each year. Initiatives may include, but are not limited to:

- 1) cross-discipline activities within the Innovation Center;
- 2) support for external experts who will lecture on "breaking" technologies, "real world" experiences, etc.;
- 3) laboratory support for special entrepreneur projects; and
- 4) support of student interaction with corporations on commercial venture projects.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Engineering.

Amount Establishing Endowment: \$60,000.00

The Roy Wallace Memorial Fund for Beef Center Student Herdsmen

The Roy Wallace Memorial Fund for Beef Center Student Herdsmen was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from family and friends of Roy Wallace.

February 5, 2010 meeting, Board of Trustees

The annual distribution from this fund shall be used to support the wages of an undergraduate student employed as the student herdsman at the OSU Beef Center in the Department of Animal Sciences at the College of Food, Agricultural, and Environmental Sciences. To qualify for appointment to the Roy Wallace Student Herdsman position, students must have demonstrated leadership either as a previous student employee at the OSU Beef Center and/or in other facets of the beef cattle industry. The Roy Wallace Student Herdsman will be expected to reside at the OSU Beef Center and serve in a leadership role with other student employees. The appointment may be awarded to the same student in successive years, not to exceed two years, provided the student remains in good employment and academic standing and progressing toward his/her degree. Appointment shall be made by the faculty supervisor and managers of the OSU Beef and Sheep Center in accordance with all appropriate University employment guidelines and laws that govern employment in the state of Ohio.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the total University endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: \$53,365.00

The Margaret and Charles Evers Endowed Scholarship Fund
for Education and Human Ecology

The Margaret and Charles Evers Endowed Scholarship Fund for Education and Human Ecology was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts in memory of Margaret and Charles from their children Brian Evers (B.A. 1969), Bruce Evers (B.S. 1968 - *Kent State University*), and Judith Flinn.

Margaret Evers (1917-2009) was born in Fairfield County near Carroll, Ohio. She was reared on the farm until she attended The Ohio State University. After receiving her degree, she spent her working life as a junior high school teacher.

Charles Evers (1909-1998) was born in Cleveland, Ohio. Because of the Depression, he was unable to attend college but strongly supported higher education all of his life. He was a self-taught electrical engineer and designed steel mills. He was also a self-taught zoologist, botanist, geologist, and biologist.

February 5, 2010 meeting, Board of Trustees

The intent of this fund is to support educational diversity at the University, consistent with the University's mission and admissions policy. The annual distribution from this fund shall provide scholarship support for students admitted into the College of Education and Human Ecology. As Margaret was the first woman in her family to be permitted to attend college, and was a strong supporter of the farming lifestyle, preference for this scholarship will be given to but not limited to female candidates who have been accepted for admissions at the University and whose family actively farms in Fairfield County Ohio. Further, preference will be given to students with a ranking of sophomore or higher. Scholarship recipients will be selected by the dean of the College of Education and Human Ecology in consultation with the Office of Student Financial Aid. The College will inform the donors of the selection process.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Education and Human Ecology.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, should they be alive, and from the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: \$51,000.000

The Robert W. Adams Memorial Scholarship Fund
in Chemical and Biomolecular Engineering

The Robert W. Adams Memorial Scholarship Fund in Chemical and Biomolecular Engineering was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from his son Jeffrey D. Adams (B.S.Ch.E. 1987) and daughter-in-law, Lori Adams, both of San Mateo, California.

The annual distribution from this fund shall provide one or more need-based scholarships to students majoring in Chemical and Biomolecular Engineering who have completed their first year in the major. First consideration will be given to candidates who are employed or are involved in extracurricular activities. Additional consideration will be given to candidates who are graduates from high schools in Ohio's Hamilton County and to those from high schools in Kentucky. Scholarship recipients will be selected by the chairperson of the Lowrie Department of Chemical and Biomolecular Engineering with assistance from the College of Engineering Scholarship Committee and in consultation with the Office of Student Financial Aid. The chairperson will confer with the donors after each year's selections are made.

February 5, 2010 meeting, Board of Trustees

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chairperson of the Lowrie Department of Chemical and Biomolecular Engineering in consultation with the dean of the College of Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the chairperson of the Lowrie Department of Chemical and Biomolecular Engineering in consultation with the dean of the College of Engineering.

Amount Establishing Endowment: \$50,178.64

The Dr. George D. Boston Endowed Diversity Scholarship
Fund in Dentistry

The Dr. George D. Boston Endowed Diversity Scholarship Fund in Dentistry was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the George D. Boston Trust and Dr. Boston's (B.A. 1949, D.D.S. 1952) grandchildren: Tamaul Boston, Johanna Boston, and Tia B. Boston.

The annual distribution from this fund shall be used to support educational diversity at the College of Dentistry, consistent with the University's mission and admissions policy. It is the donors' desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, African Americans or other underrepresented students, who have been accepted for admissions at the University. Scholarship recipients shall be selected by the dean of the College of Dentistry in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

February 5, 2010 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Dentistry.

Amount Establishing Endowment: \$50,000.00

Major Ray Mendoza Endowed Scholarship Fund III

The Major Ray Mendoza Endowed Scholarship Fund III be established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Alex Porter in memory of Major Ray Mendoza (B.A. 1995), a Buckeye and member of the U.S. Marine Corps, who was killed in the line of duty while serving in Iraq.

The annual distribution from this fund shall provide scholarship support for a student enrolled in or planning to enroll in the master's program at the John Glenn School of Public Affairs who has demonstrated leadership skills and abilities. Scholarship recipients shall be selected by the school's director in consultation with the university's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the director of the Glenn School of Public Affairs.

Amount Establishing Endowment: \$50,000.00

Robert and Stephany Ruffolo Endowed Scholarship Fund

The Robert and Stephany Ruffolo Endowed Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Robert (B.S.Pharm. 1973, Ph.D. 1976) and Stephany Ruffolo of Spring City, Pennsylvania.

The annual distribution from this fund shall be used to support a scholarship for a student in the College of Pharmacy Doctor of Pharmacy program. Recipients shall be selected by the dean of the College of Pharmacy in consultation with the Office of Student Financial Aid.

February 5, 2010 meeting, Board of Trustees

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Pharmacy.

Amount Establishing Endowment: \$50,000.00

Bruce and Jane Walsh Endowed Fund

The Bruce and Jane Walsh Endowed Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Bruce and Jane Walsh.

The annual distribution from this fund shall be used to purchase library volumes focusing on issues in higher education for the American Association of University Professors library in the Thompson Libraries. Expenditures shall be approved by the director of the University Libraries.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the University Libraries.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of the University Libraries.

Amount Establishing Endowment: \$37,000.00 (grandfathered)

The Judith Fountain Critical Difference for Women Scholarship Fund

The Judith Fountain Critical Difference for Women Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University

February 5, 2010 meeting, Board of Trustees

Foundation, with gifts from friends and colleagues of Judith Fountain (B.S.H.E. 1964, M.S. 1974).

This fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy.

The annual distribution from this fund shall provide scholarships for students who have interrupted their education and are re-entering the University to complete their undergraduate, graduate or professional degrees. It is the donors' desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, female students who have been accepted for admissions at the University. Scholarships may be used for expenses such as the cost of tuition, room and board, books and supplies, and miscellaneous educational expenses. Recipients shall be selected by the Office of Student Financial Aid in consultation with the Critical Difference for Women Scholarship Committee.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall reinvested in the endowment principal.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the Director of the Office of Student Financial Aid.

Amount Establishing Endowment: \$33,493.00 (grandfathered)

The Pat R. and Melena S. Whittington Undergraduate Teacher
Education Scholarship Fund

The Pat R. and Melena S. Whittington Undergraduate Teacher Education Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Pat R. (B.S.Agr. 1982) and Dr. Melena S. (B.S.Agr. 1982, M.S. 1988, Ph.D. 1991) Whittington of Delaware, Ohio.

The annual distribution from this fund shall be used to support at least one scholarship for an undergraduate student majoring in the Teacher Education preparation option in Agricultural and Extension Education in the College of Food, Agricultural, and Environmental Sciences. The non-renewable scholarship will be awarded to the student(s) for the term that the selected recipient(s) will be participating in their student teaching experience. The scholarship may be used for, but not limited to, transportation, books, fees, and tuition. Scholarship recipient(s) will be selected by the teacher preparation faculty in Agricultural and Extension Education. The scholarship shall be awarded in accordance with guidelines and procedures established by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences or his/her designee, and in consultation with the Office of Student Financial Aid.

February 5, 2010 meeting, Board of Trustees

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: \$28,026.28 (grandfathered)

Cindy Coykendale Fund

The Cindy Coykendale Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Cindy Coykendale (B.S. 1979, M.L.H.R. 1989) and her family, friends, and colleagues.

The annual distribution from this fund shall be used at the discretion of the dean of The Max M. Fisher College of Business to support faculty, student, and staff activities in accordance with the College's strategic plans.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from Cindy Coykendale, should she be alive, and from the dean of the Fisher College of Business.

Amount Establishing Endowment: \$27,076.94 (unrestricted)

The Ream Family Endowed Scholarship Fund

The Ream Family Endowed Scholarship Fund in the College of Pharmacy was established February 5, 2010, by the Board of Trustees of The Ohio State University in

February 5, 2010 meeting, Board of Trustees

accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Greg and Patricia Ream and Lou Ream.

The annual distribution from this fund shall be used to support a scholarship for a student enrolled in the College of Pharmacy with preference given to students from Licking County, Ohio. If no candidates are identified from Licking County, then the scholarship may be awarded to any deserving student enrolled in the College of Pharmacy. Scholarship recipients will be selected by the College's dean in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Pharmacy.

Amount Establishing Endowment: \$26,000.00 (grandfathered)

Shelby County 4-H Endowment Fund

The Shelby County 4-H Endowment Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends of Shelby County 4-H.

The annual distribution from this fund shall be used to provide program funding for the 4-H youth and volunteers of the Shelby County 4-H Youth Development Program. The OSU Extension professional in charge of the Shelby County 4-H Program, in consultation with the Shelby County 4-H Advisory Committee, shall approve all expenditures from this fund.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration, and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the

original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the assistant director of OSU Extension- 4-H Youth Development.

Amount Establishing Endowment: \$25,541.22 (grandfathered)

Change in Name of Named Endowed Fund

The Dr. James R. Karpac Athletic Scholarship Fund

The Dr. James R. Karpac Family Athletic Scholarship Fund was established September 18, 2009, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from James R. Karpac (B.A. 1978, D.D.S. 1981, M.A. 1989, M.S. 1989), from Dublin, Ohio. The name was revised February 5, 2010.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of a varsity team. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the director of Athletics.

Change in Description of Named Endowed Funds

The Ague/Haushalter Scholarship Fund

The Ague/Haushalter Scholarship Fund was established May 4, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Charles W. "Bill" Ague, (B.S.Pharm. 1950) and Elma Haushalter Ague (B.A. 1949) of Girard, Ohio. The description was revised February 5, 2010.

In memory of William Hunter Ague (B.S.Ed. 1981, M.A. 1989) who died an untimely death in 1997, his dedication to mathematics education as a teacher in the public schools, and his deep commitment to young people in difficult urban settings; a portion of this fund is directed to the College of Education and Human Ecology.

February 5, 2010 meeting, Board of Trustees

The annual distribution from this fund shall provide two need-based scholarships. One scholarship shall support a pharmacy student from an under-represented group who demonstrates good character; recipients shall be selected by the dean of the College of Pharmacy in consultation with the Office of Student Financial Aid. The second scholarship shall support an education student who is preparing to be a mathematics or science teacher with preference given to candidates who are graduates of urban public schools; recipients shall be selected by the dean of the College of Education and Human Ecology in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Pharmacy and the dean of the College of Education and Human Ecology.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, from the dean of the College of Pharmacy, and from the dean of the College of Education and Human Ecology.

The Service – Jerome Scholarship Fund

The Service-Jerome Scholarship Fund was established February 3, 1995, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Harry W. and Ruth Mary (B.S.Ed. 1952) Service of Andover, Ohio. The description was revised February 5, 2010.

The annual distribution from this fund shall be used provide one or more scholarships to undergraduate or graduate students from Ashtabula County with preference given to students from Southern Ashtabula County. To qualify candidates must be enrolled in one of the following colleges/programs in the following order of preference: the College of Food, Agricultural, and Environmental Science, the Agricultural Technical Institute (ATI), the College of Veterinary Medicine (or undergraduates who have expressed an interest in veterinary medicine), the College of Education and Human Ecology. Scholarship recipients shall be selected by the Ashtabula County Agricultural Scholarship Committee in consultation with the University's Office of Student Financial Aid. If the Ashtabula County Office of The Ohio State University Extension ceases to exist, the state office of the Ohio State University Extension shall act on behalf of the county.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

February 5, 2010 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of the Office of Student Financial Aid.

Hrusovsky Family / GroundWork Group Internship Fund

The Hrusovsky Family Excellence Award Fund at The Max M. Fisher College of Business was established October 29, 2009, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from John J. Hrusovsky II (B.S.Bus.Adm. 1986). The name and description were revised February 5, 2010.

The annual distribution from this fund will support interns working with the GroundWork Group, its member organizations, or other non-profit organizations based in and serving central Ohio. Recipients will be determined based on the mutual interest of the host organizations and student applicants. Placements will be coordinated through the Center for Entrepreneurship, approved by the College's dean and coordinated with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the Fisher College of Business.

February 5, 2010 meeting, Board of Trustees

Schoenbaum Scholars Program Fund
in the College of Education and Human Ecology

The Schoenbaum Scholars Program Fund was established April 7, 1989, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Alex (B.S.Bus.Adm. 1939) and Betty (Attended 1939, Honorary Doctor of Business 2001) Schoenbaum. The description was revised July 12, 1996, and September 18, 2009. The fund equally supported The Max M. Fisher College of Business and the College of Education and Human Ecology. At the request of the colleges and with donor approval, one half of the fund's principal was moved and used to create The Schoenbaum Scholars Program Fund in The Max M. Fisher College of Business. The Schoenbaum Scholars Program Fund description and name were revised February 5, 2010.

The annual distribution designated to the College of Education and Human Ecology shall used to fund one scholarship and four internships. The intent is to serve undergraduate students with the greatest financial need and the Weinland Park community by providing support to students who demonstrate a determination to succeed but lack economic resources.

To qualify for the scholarship, candidates must be a junior or senior undergraduate student majoring in early childhood or elementary education with preference given to students who graduated from Columbus City Schools and/or transfers from Columbus State Community College. The scholarship, in an amount up to the cost of in-state tuition annually, may be awarded for a two-year period and may be used toward tuition, room, books and supplies, and educational expenses. The Scholarship Committee in the College of Education and Human Ecology and the College's dean shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid.

To qualify for an internship position candidates must work at the Schoenbaum Family Center; preference shall be given to students who graduated from Columbus City Schools and/or transfers from Columbus State Community College. The interns will serve as assistant teachers in classrooms while maintaining progress toward their degree and will engage with children more closely in the teaching and learning environment at Schoenbaum Family Center. Awardees will be selected by the director of the Schoenbaum Family Center in consultation with the Office of Student Financial Aid and may be awarded an amount up to half the cost of in-state tuition annually.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Education and Human Ecology.

**AUTHORIZATION, ISSUANCE AND SALE OF GENERAL RECEIPTS COMMERCIAL
PAPER NOTES SERIES J OF THE OHIO STATE UNIVERSITY**

Resolution No. 2010-60

Synopsis: Providing for the authorization, issuance and sale of General Receipts Commercial Paper Notes, Series J (the "Series J Notes"), in a principal amount determined as provided herein, for the purpose of (i) financing the Series J Project, as defined herein, (ii) refunding the University's General Receipts Notes Series 2010 B, and (iii) paying costs and expenses associated with the issuance of the Series J Notes, authorizing a Series J Supplement to Amended and Restated Trust Indenture to secure the payment of Debt Service Charges on the Series J Notes.

WHEREAS pursuant to Sections 3345.11 and 3345.12 of the Ohio Revised Code (the "Act"), as enacted under authority of the Constitution of Ohio, particularly Section 2i of Article VIII thereof, The Ohio State University (the "University") a state university of the State of Ohio (the "State"), created and existing under Chapter 3335 of the Ohio Revised Code, is authorized and empowered, among other things, (a) to issue its obligations to pay the costs of certain capital "facilities," as defined in the Act and to refund, fund or retire bonds and other obligations previously issued for such purpose; (b) to pledge to the payment of its obligations all or a specified part of its "available receipts," as defined in the Act (the "General Receipts") in priority to all other expenses, claims or payments; (c) to covenant that the University will make, fix, adjust and collect the fees, rates, rentals, charges and other items comprising General Receipts to produce General Receipts sufficient at all times to meet Debt Service Charges (as defined in the Restated Trust Indenture described below) on the obligations, to establish and to maintain the required reserves and meet other requirements herein provided; and (d) to provide for a trust indenture and make further provisions for securing the payment of the Debt Service Charges; and

WHEREAS the University, by resolution adopted by its Board of Trustees (the "Board") on November 1, 1985, by resolution adopted by the Board on December 5, 1997, and by a Trust Indenture dated as of November 15, 1985 (the "Original Indenture") as amended by the Seventh Supplement to Trust Indenture, dated as of December 1, 1997, each between the University and The Huntington National Bank, as Trustee (the "Trustee"), authorized the issuance of its \$79,540,000 The Ohio State University Variable Rate Demand General Receipts Bonds, Series 1997; and

WHEREAS the University, pursuant to the terms of a resolution adopted by the Board on October 1, 1999 (the "General Bond Resolution"), amended and restated the Original Indenture, as supplemented, in accordance with the terms thereof, by entering into the Amended and Restated Trust Indenture dated as of December 1, 1999 (the "Restated Trust Indenture") with the Trustee; and

WHEREAS the Restated Trust Indenture provides that Obligations, as defined therein, may be issued pursuant to the terms thereof, with each such issue to be authorized by a Series Resolution, as defined therein, adopted by the Board and secured pursuant to the terms of a Supplemental Indenture, as defined in the Restated Trust Indenture with respect to such issue (the Restated Trust Indenture and all Supplemental Indentures thereto being collectively referred to herein as the "Indenture"); and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the resolution adopted by the Board on November 5, 1999, the Restated Trust Indenture and the First Supplement to Amended and Restated Trust Indenture, dated as of December 1, 1999 between the University and the Trustee, \$83,585,000 The Ohio State University General Receipts Bonds, Series 1999 A; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the resolution adopted by the Board on November 5, 1999, Amended and

February 5, 2010 meeting, Board of Trustees

Restated Trust Indenture, dated as of December 1, 1999 between the University and the Trustee, \$108,000,000 The Ohio State University Variable Rate Demand General Receipts Bonds, Series 1999 B; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on November 2, 2001, the Indenture and the Series 2001 Supplement to Amended and Restated Trust Indenture, dated as of November 1, 2001 between the University and the Trustee, \$76,950,000 The Ohio State University Variable Rate Demand General Receipts Bonds, Series 2001; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on November 2, 2001, the Indenture and the Series 2002 A Supplement to Amended and Restated Trust Indenture, dated as of January 1, 2002 between the University and the Trustee, \$150,515,000 The Ohio State University General Receipts Bonds, Series 2002 A; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 11, 2003, the Indenture and the Series 2003 B Supplement to Amended and Restated Trust Indenture dated as of September 1, 2003, between the University and the Trustee, \$233,780,000 The Ohio State University General Receipts Bonds, Series 2003 B; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 11, 2003, the Indenture and the Series 2003 C Supplement to Amended and Restated Trust Indenture dated as of September 1, 2003 between the University and the Trustee, \$121,295,000 The Ohio State University Variable Rate General Receipts Bonds, Series 2003 C; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 8, 2005, the Indenture and the Series 2005 A Supplement to Amended and Restated Trust Indenture dated as of August 1, 2005 between the University and the Trustee, \$279,050,000 The Ohio State University General Receipts Bonds, Series 2005; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 8, 2005, the Indenture and the Series 2005 B Supplement to Amended and Restated Trust Indenture dated as of August 1, 2005 between the University and the Trustee, \$129,990,000 The Ohio State University Variable Rate General Receipts Bonds, Series 2005; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 11, 2008, the Indenture and the Series 2008 A Supplement to Amended and Restated Trust Indenture dated as of January 1, 2009 between the University and the Trustee, \$217,595,000 The Ohio State University General Receipts Bonds, Series 2008 A; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 11, 2008, the Indenture and the Series 2008 B Supplement to Amended and Restated Trust Indenture dated as of September 1, 2008 between the University and the Trustee, \$127,770,000 The Ohio State University Variable Rate General

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 11, 2008, the Indenture and the Series I Supplement to Amended and Restated Trust Indenture, dated as of December 1, 2008 (the "Series I Supplement") between the University and the Trustee, of up to \$227,000,000 in principal amount of The Ohio State University General Receipts Commercial Paper Notes, Series I (the "Series I Notes"); and

February 5, 2010 meeting, Board of Trustees

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on October 29, 2009, the Indenture and the Series 2010 A and B Supplement to Amended and Restated Trust Indenture dated as of January 1, 2010 (the "Series 2010 A and B Supplement") between the University and the Trustee, \$241,170,000 The Ohio State University General Receipts Bonds, Series 2010 A which refunded certain prior Obligations and \$121,000,000 The Ohio State University General Receipts Notes, Series 2010 B (the "Series 2010 B Notes") which refunded the Series I Notes; and

WHEREAS the Board has determined that it is in the best interests of the University to authorize the issuance of The Ohio State University General Receipts Commercial Paper Notes, Series J (the "Series J Notes") in the principal amount not to exceed \$227,000,000 for the purposes of currently refunding all of the Series 2010 B Notes, paying or reimbursing a portion of the costs of the Series J Project, and paying costs and expenses associated with the issuance of the Series J Notes; and

WHEREAS the University desires to make provisions for the issuance of the Series J Notes and for the payment of the Debt Service Charges thereon and the securing thereof by this Resolution and a Series J Supplement to Amended and Restated Trust Indenture (the "Series J Supplement") herein authorized;

NOW THEREFORE

BE IT RESOLVED,

Section 1. Definitions and Interpretations. All words and terms defined in the Indenture and all interpretations therein provided shall have in this Resolution the same definitions and interpretations as therein provided or used, unless the context or use clearly indicates another or different meaning or intent. Terms not appearing in the Indenture but used herein and not previously defined herein are defined as follows:

"Authorized Officer" means the Senior Vice President for Business and Finance of the University, the Secretary of the Board or the Treasurer, or any one or more of them, in each case in such person's official capacity.

"Book Entry System" means a system under which (i) a physical Series J Note certificate in fully registered form is issued for each maturity of Series J Notes only to a Depository or its nominee as registered owner, with the Series J Notes held by and immobilized in the custody of the Depository; and (ii) a book entry record maintained by and the responsibility of the Depository and not maintained by or the responsibility of the University or the Trustee, is the record that identifies, and records the transfer of the interests of, the owners of book entry interests in such Series J Notes.

"Costs of Issuance Account" means the Costs of Issuance Account in the Note Program Fund created pursuant to Section 5 hereof.

"Dealer" or "Dealers" means Merrill Lynch, Pierce, Fenner & Smith Incorporated, any affiliate thereof or any successor or assigns permitted under the Dealer Agreement, and any other dealer or dealers for the Series J Notes which is appointed by the University and has entered into a Dealer Agreement.

"Dealer Agreement" or "Dealer Agreements" means respectively, the Dealer Agreement, by and between the University and Merrill Lynch, Pierce, Fenner & Smith Incorporated or any affiliate thereof, and any and all modifications, alterations, amendments and supplements thereto, and such agreement and any other Dealer Agreement entered into by the University and a Dealer or Dealers with respect to the Series J Notes.

February 5, 2010 meeting, Board of Trustees

"Depository" means any securities depository that is a clearing agency under federal law operating and maintaining, with its participants or otherwise, a Book Entry System to record ownership of book entry interests in obligations, and includes and means initially as to the Series J Notes, The Depository Trust Company (a limited purpose trust company), New York, New York.

"Note Proceedings" means the General Bond Resolution, the Restated Trust Indenture, any applicable Series Resolution, any applicable Supplemental Indenture and any other resolutions and agreements and amendments of and supplements to the foregoing, or any combination thereof, authorizing or providing for the terms and conditions applicable to, or providing for the security or sale of Notes, and the terms contained in such Notes.

"Note Program Fund" means the Note Program Fund held by the University and created in Section 5 hereof to be funded with the proceeds of the Series J Notes.

"Offering Memorandum" means, as to the Series J Notes, the Offering Memorandum relating to the original issuance of the Series J Notes, authorized pursuant to Section 3 hereof.

"Project Account" means the Project Account in the Note Program Fund created pursuant to Section 5 hereof.

"Series J Commercial Paper Resolution" or "this Resolution" as used herein means this Resolution, as the same may be amended from time to time.

"Series J Project" means the Series J Project as described on Attachment I to the Series J Supplement and on Exhibit A attached hereto, which attachment and exhibit are incorporated by reference herein with the same force and effect as if fully set forth herein.

"Treasurer" means the Assistant Vice President of Financial Services of the University and any person duly authorized by the Board to exercise the powers and duties of such officer.

"Trustee" means The Huntington National Bank, and any successor Trustee as determined or designated under or pursuant to the Indenture.

Any reference herein to the University, the Board, or to any members or officers thereof or to other public boards, commissions, departments, institutions, agencies, bodies, entities or officers, shall include those which succeed to their functions, duties or responsibilities pursuant to or by operation of law or who are lawfully performing their functions. Any reference to a section or provision of the Ohio Revised Code or to the laws of Ohio shall include such section or provision and such laws as from time to time amended, modified, revised, supplemented, or superseded, provided that no such amendment, modification, revision, supplementation, or supersession shall alter the obligation to pay the Debt Service Charges in the amount and manner, at the times, and from the sources provided in the General Bond Resolution, this Resolution, the Restated Trust Indenture and the Series J Supplement, except as otherwise herein permitted.

Unless the context shall otherwise indicate, words importing the singular number shall include the plural number, and vice versa, and the terms "hereof," "herein," "hereby," "hereto," "hereunder," and similar terms, mean this Resolution.

Section 2. Authorization; Terms; Pledge; and Covenant.

February 5, 2010 meeting, Board of Trustees

(a) Authorization. The Bonds, to be designated and known as The Ohio State University General Receipts Commercial Paper Notes, Series J, shall be issued pursuant to and as authorized by the Act, Section 2i of Article VIII of the Ohio Constitution, the General Bond Resolution, this Resolution, the Restated Trust Indenture and the Series J Supplement for the purposes of refunding the Series 2010 B Notes, financing a portion of the costs of the University Facilities comprising the Series J Project, and paying expenses incidental to the issuance of the Series J Notes (the "Series J Note Purpose"). The Series J Notes shall be issued from time to time as provided in the Series J Supplement to finance and refinance the Series J Note Purpose. Proceeds of the Series J Notes may also be used to pay maturing Series J Notes.

(b) Form and Numbering. The Series J Notes shall be issued only as fully registered Bonds. The Series J Notes shall be numbered as determined by the Trustee.

(c) Denominations and Dates. The Notes shall be dated the date of their respective authentication and issuance; shall be issued in registered form, registered to bearer (subject to Section 2.06 of the Series J Supplement) unless otherwise designated by a Dealer; and shall be issued in denominations of \$100,000 and in integral multiples of \$1,000 in excess thereof.

(d) Principal Amount. The Series J Notes shall be issued in the principal amount specified in the Series J Supplement, which amount shall not exceed \$227,000,000.

(e) Delivery and Execution. The Treasurer is hereby authorized to make the necessary arrangements with the Dealer to establish the date, location, procedures and conditions for the delivery of the Series J Notes to the Dealer and to take all steps as necessary to effect due execution, authentication and delivery of the Series J Notes to the Dealer or to the persons whom the Dealer directs under the terms of this Resolution. The Series J Notes shall be signed by an Authorized Officer in his official capacity (provided that such signature may be a facsimile) and may bear the corporate seal of the University or a facsimile thereof.

(f) Interest. The Series J Notes shall bear interest from their respective dates, payable at maturity, at a rate not to exceed 12% per annum (calculated on the basis of a year consisting of 365 or 366 days, as applicable, and the actual number of days elapsed).

(g) Maturities. The Series J Notes (i) shall mature not more than 270 days after their respective dates, but in no event later than July 29, 2011, and (ii) shall mature on a Business Day. The stated interest rate, maturity date and other terms of each Note, as long as not inconsistent with the terms of the Series J Supplement, shall be as set forth in the Instructions delivered to the Trustee pursuant to Section 2.07 of the Series J Supplement.

(h) Redemption. The Series J Notes shall not be subject to redemption prior to their stated maturities.

(i) Appointment of Dealer. The Board hereby appoints Merrill Lynch, Pierce, Fenner & Smith Incorporated, or an affiliate thereof, as the initial Dealer for the Series J Notes.

(j) Security. As provided in the Indenture, there is hereby pledged to the security of the Series J Notes, (i) the gross amount of General Receipts of the University (subject to the provisions for the partial release of a pledge of General Receipts contained in Section 4.10 of the Restated Trust Indenture) and (ii) the moneys contained in the Special Funds. Anything else to the contrary in the Indenture, the General Bond Resolution, the Series J Supplement or this Resolution notwithstanding, the Series J Notes shall not have access to, any claim upon or be secured by, the Bond Reserve Fund or the Note Program Fund. This pledge of General Receipts shall be on parity

with expenses, claims and payments relating to other Parity Obligations (as defined in the Indenture) and in priority to all other expenses, claims and payments of the University. In accordance with the Act, all the General Receipts or portions thereof are immediately subject to the lien of the pledge upon receipt thereof by the University; provided, however, the lien of such pledge shall not attach to any Series J Notes the proceeds of which are to be used to provide the Series J Project until the Board of Regents of the State shall have approved such pledge.

For the further security of the Series J Notes, and any Obligations, the University hereby covenants with the Holders, including the Noteholders, and the Trustee that so long as any Series J Notes or other Obligations are outstanding, the University shall fix, make, adjust and collect fees, rates, rentals, charges, and other items of General Receipts, as will produce at all times General Receipts sufficient (i) to pay Debt Service Charges when due, (ii) together with other moneys lawfully available therefor, to pay all costs and expenses required to be paid under the Note Proceedings, and (iii) together with other moneys lawfully available therefor, to pay all other costs and expenses necessary for the proper maintenance and successful and continuous operation of the University.

(k) Payment, Places of Payment, and Paying Agents. The principal of and interest on the Series J Notes shall be paid in federal or other immediately available funds in such coin or currency of the United States of America as, at the respective times of payment, is legal tender for the payment of public and private debts. The principal of and interest on the Series J Notes shall be payable at the designated office of the Trustee on or before the close of business on any Business Day upon which such Series J Notes have become due and payable, provided that such Series J Notes are presented and surrendered on a timely basis. Upon presentation of such a Series J Note to the Trustee no later than 3:00 p.m. (Columbus, Ohio time) on a Business Day, payment for such Series J Note shall be made by the Trustee in immediately available funds on such Business Day. If a Series J Note is presented for payment after 3:00 p.m. (Columbus, Ohio time) on a Business Day, payment therefore shall be made by the Trustee on the next succeeding Business Day, without the accrual of additional interest thereon.

(1) Book Entry. Subject to the provisions of the immediately following paragraph, the Series J Notes shall be issued only to a Depository for holding in a Book Entry System in accordance with the provisions of Section 2.06 of the Series J Supplement. Those Series J Notes shall be registered in the name of the Depository or its nominee, as registered owner, and immobilized in the custody of the Depository; and shall not be transferable or exchangeable, except for transfer to another Depository or to another nominee of a Depository, without further action by the University. Each maturity of the Series J Notes shall be evidenced by a single certificate in the aggregate principal amount of the Series J Notes maturing on such maturity date.

If any Depository determines not to continue to act as a Depository for the Series J Notes for holding in a Book Entry System, the University may attempt to have established a securities depository and Book Entry System relationship with another qualified Depository. If the University does not or is unable to do so, the University, after making provision for notification of the owners of book entry interests by appropriate notice to the then Depository and any other arrangements it deems necessary, shall permit the withdrawal of the Series J Notes from the Depository, and authenticate and deliver the Series J Note certificates, in fully registered form to the assigns of the Depository or its nominee (if such Series J Note was held by a nominee), all at the cost and expense (including costs of printing or otherwise preparing and delivering replacement Series J Notes) of the Noteholders.

Section 3. Offering Memorandum. It is determined hereby that the manner of sale and the terms of the Series J Notes, as provided in this Resolution and the Series J

February 5, 2010 meeting, Board of Trustees

Supplement, are consistent with all legal requirements and will carry out the public purposes of the Act.

The use and distribution of the Offering Memorandum relating to the Series J Notes is hereby approved and authorized. Such Offering Memorandum shall be in substantially the form of the offering memorandum for the Series I Notes, the form of which is hereby approved. The Board has not confirmed, and assumes no responsibility for, the accuracy, sufficiency or fairness of any statements in the Offering Memorandum contained in the Appendices thereto.

Section 4. Allocation of Proceeds. The proceeds from the sale of the Series J Notes, including any accrued interest, shall be allocated, deposited and applied as follows:

To the Bond Fund, accrued interest, if any, received on the sale of the Series J Notes;

To the Bond Fund, such amount as is necessary to retire or redeem the Series 2010 B Notes in accordance with their terms; and

To the Note Program Fund, created pursuant to Section 5 of this Resolution, the entire remaining amount of the proceeds of the Series J Notes, to be applied to the purposes of that Fund, including transfers from that Fund authorized by the Act and to pay costs and expenses associated with the issuance of the Series J Notes.

Section 5. Note Program Fund. There is hereby created a fund to be maintained in the custody of the Treasurer and designated the "Note Program Fund." The Note Program Fund shall be funded from the proceeds of the sale of the Series J Notes. Such proceeds shall be used for the payment or reimbursement of a portion of the costs and expenses relating to the Series J Project and costs and expenses associated with the issuance of the Series J Notes. The Note Program Fund shall not constitute a Special Fund and shall not be pledged to the payment of Debt Service Charges.

Moneys held in the Note Program Fund, including all investment earnings thereon, pending disbursement from the Note Program Fund shall be invested in Authorized Investments specified in Section V of the Operating and Agency Funds Investments Policy of the University, as the same may be amended from time to time. The University may establish such accounts in the Note Program Fund as are necessary or desirable to carry out the requirements of the Series J Supplement.

The Treasurer shall maintain such books and records with respect to disbursements from the Note Program Fund so as to enable the Treasurer to determine the name of any payee of any such disbursement, the date on which such disbursement occurred, the amount of such disbursement and the purpose for which such disbursement was made. Investment earnings on the funds on deposit in the Note Program Fund may, at the discretion of the University, be paid to the Trustee for deposit in the Bond Service Account in the Bond Fund to be used to pay Debt Service Charges on the Series J Notes.

There shall be established in the Note Program Fund the following accounts:

(i) The Costs of Issuance Account, from which shall be paid the costs of issuance of the Series J Notes; and

(ii) The Project Account, from which shall be disbursed such portion of the proceeds of the Series J Notes necessary to pay costs of the Series J Project and paying costs and expenses associated with the issuance of the Series J Notes to the extent not paid from the Costs of Issuance Account. The Treasurer shall designate in writing, either in the Series J Supplement or otherwise, the allocation of the proceeds of the Series J Notes to each of the foregoing accounts.

Upon the determination by the Treasurer that the costs incurred in connection with any item listed on Exhibit A hereto within the description of the Series J Project (each a "Component") to be paid from the Note Program Fund have been paid in full or provision for such payment has been made, the University may use any remaining moneys on deposit in the Note Program Fund -with respect to such Component to fund the costs of other Components or to fund the costs of additional projects constituting University Facilities (each, an "Additional Project"). Moneys remaining on deposit in the Note Program Fund after the completion of the Series J Project and any Additional Projects shall be used by the University in any manner which, in the opinion of Bond Counsel, shall be permissible under the Act and the Code.

Section 6. Tax Matters. The University covenants that the use of the proceeds of the Series J Notes will be restricted in such manner and to such extent, if any, as may be necessary, after taking into account reasonable expectations at the time of delivery of and payment for the Series J Notes, so that the Series J Notes will not constitute "arbitrage bonds" under Sections 103(c) and 148 of the Code. The Treasurer, or any other officer having responsibility with respect to the issuance of the Series J Notes, alone or in conjunction with any other officer or employee of or consultant to the University, will give an appropriate certificate of the University for inclusion in the transcript of proceedings for the Series J Notes setting forth the reasonable expectations of the University regarding the amount and use of those proceeds and the facts and estimates on which they are based, all as of the date of original delivery of and payment for the Series J Notes.

The University further covenants that it will take all actions required to maintain the exclusion from gross income for purposes of federal income taxation of interest on the Series J Notes and will not take or permit to be taken, any actions which would adversely affect such exclusion under the provisions of the Code that apply to the Series J Notes; and an Authorized Officer and other appropriate officers are hereby authorized to take such actions and give such certifications as may be appropriate to assure such exclusion from gross income of interest on the Series J Notes.

Section 7. Series J Supplement and Other Documents. In order to better secure the payment of the Debt Service Charges as the same shall become due and payable, each Authorized Officer, or any one or more of them, are authorized and directed to execute, acknowledge and deliver to the Trustee and the Dealer, in the name and on behalf of the University and pursuant to the Indenture, the Series J Supplement and the Dealer Agreement, respectively, each in substantially the form of the Series J Supplement and the Dealer Agreement related thereto, or to such officers on behalf of this Board and the University, and such documents are hereby approved, with such changes therein as are not substantially adverse to the University and as may be permitted by the Act and approved by the officers executing the same on behalf of the University. The Series J Supplement shall also include the form of the Series J Notes (the "Form of Note"), attached thereto as Exhibit A. The execution of such documents by any of the officers shall conclusively evidence that the officers and the Board approve such changes and that such changes are not substantially adverse to the University.

Each of such officers is further authorized to execute and deliver on behalf of the University such other certificates, documents and instruments as are necessary in connection with the acts authorized by this Resolution.

Section 8. Call for Redemption of Series 2010 B Notes. The University hereby determines that the Series 2010 B Notes shall be called for optional redemption at the earliest date on which each of them may be redeemed pursuant to the Original Indenture or the Indenture, as applicable, and that the execution and delivery by the University of the Series J Supplement shall constitute the irrevocable direction to the

February 5, 2010 meeting, Board of Trustees

Trustee to send such notices as are required by such indenture to effect such call for redemption. The execution of the Series J Supplement and the acceptance of the estate conveyed thereby by the Trustee shall constitute the receipt by the Trustee of such direction and the agreement by the Trustee to give the aforementioned notices.

Section 9. Authorization of Bond Insurance, Bond Ratings, Credit Support Instruments and Rate Management Agreements; Prior Actions Approved. The Treasurer is authorized to submit applications to recognized providers of municipal bond insurance or any other Credit Support Instruments requesting the issuance of municipal bond insurance policies or other Credit Support Instruments, as the case may be, to insure the University's obligation to make payments of principal of and interest on the Series J Notes. The Treasurer is hereby authorized to accept one or more commitments for insurance or other Credit Support Instrument from such providers if, in his reasonable judgment, it is in the best interests of the University to do so and the Treasurer is authorized to executed and deliver, and the University is authorized to perform, any documents, certificates or instruments reasonably necessary to obtain the benefits of such policy of bond insurance or other Credit Support Instrument. There is hereby authorized to be paid from the moneys deposited in the Project Account such amount as is required to pay the premium and expenses for such insurance policies.

The Treasurer is hereby authorized to apply for a rating from one or more national rating services with respect to the Series J Notes. The payment of the fees and expenses relating to any such ratings from the proceeds of the Series J Notes is hereby authorized.

All actions hereto taken by officers and employees of the Board and the University in connection with the approval, authorization, sale, execution, delivery and issuance of the Obligations or the security therefor, or any Credit Support Instrument or bond rating related thereto, or the Series J Notes, are hereby approved, ratified and confirmed.

Section 10. Open Meeting Determination. It is found and determined that all formal actions of the Board concerning and relating to the adoption of this Resolution were adopted in an open meeting of the Board, and that all deliberations of the Board and of any of its committees that resulted in such formal action were in meetings open to the public, in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 11. Effective Date. This Resolution shall take effect and be in force immediately upon its adoption.

**AUTHORIZATION TO ENTER INTO/INCREASE
PROFESSIONAL SERVICES CONTRACTS
AND CONSTRUCTION CONTRACTS**

Resolution No. 2010-61

**APPROVAL TO ENTER INTO/INCREASE PROFESSIONAL SERVICES
CONTRACTS**

EAST REGIONAL CHILLED WATER PLANT
HOPKINS AND HAYES HALLS RENOVATIONS

APPROVAL TO ENTER INTO CONSTRUCTION CONTRACTS

COLLEGE OF MEDICINE RENOVATION/ADDITION
HOPKINS AND HAYES HALLS RENOVATIONS
KENNEDY COMMONS RENOVATION

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Administration and Planning and Special Assistant to the President be authorized to enter into/increase professional services contracts and enter into construction contracts for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix XXVIII for background information, page 521.)

AMENDMENT TO LEASE

Resolution No. 2010-62

**THE OHIO STATE UNIVERSITY--OFFICE OF INFORMATION TECHNOLOGY
OFFICE RELOCATION
2740 AIRPORT DRIVE
COLUMBUS, OHIO 43219**

February 5, 2010 meeting, Board of Trustees

Synopsis: Authorization is requested for extending a three-year lease of approximately 25,000 square feet of office space located on the first and second floors of a three-story office building located at 2740 Airport Drive, Columbus, Ohio, 43219 to be occupied by The Ohio State University, Office of Information Technology to a five-year term.

WHEREAS the Board of Trustees of The Ohio State University and the State of Ohio is presented with the opportunity to extend a three-year lease to a five-year lease of improved real property at 2740 Airport Drive owned by The Forty-One Corporation; and

WHEREAS this extension of the lease of this property will satisfy the office relocation requirements of the Office of Information Technology, and it has been determined that the lease extension is in the best interest of the University; and

WHEREAS the funds for the lease extension will be provided by the Office of Information Technology:

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Administration and Planning and Special Assistant to the President be authorized to take any action required to effect the execution of an amendment to extend the three-year lease to a five-year lease of 25,000 square feet in the improved real property at 2740 Airport Drive for use by The Ohio State University, Office of Information Technology. The lease amendment will be negotiated to contain rental terms and lease conditions determined to be in the best interest of the State of Ohio and the University.

(See Appendix XXIX for background information and map, page 528.)

AMENDMENT TO LONG-TERM LEASE

Resolution No. 2010-63

JAMESCARE WOMEN'S AMBULATORY ONCOLOGY CENTER
739 WEST THIRD AVENUE
COLUMBUS, OHIO 43212

Synopsis: Authorization to amend the long-term lease agreement with Gowdy Partners III LLC to provide for the construction of a building addition, containing approximately 11,400 square feet of medical office space, to provide for a Radiation Oncology Center to be located at 739 West Third Avenue in Columbus, Ohio, is requested.

WHEREAS the Board of Trustees of The Ohio State University previously authorized the University to enter into a 20-year lease of a 103,500 square feet medical office building to be constructed at 739 West Third Avenue, Columbus, Ohio, and is presented with the opportunity to amend the lease to provide for the construction of approximately 11,400 square feet of additional leasable square feet for equipment to be installed for the treatment of cancer patients; and

WHEREAS the building addition to provide for patient treatment is important in meeting the objectives and requirements of the James Cancer Hospital's Strategic Plan, and it has been determined by the appropriate University offices that the addition of this space is in the best interest of the University; and

WHEREAS the funds for the increased lease expenses will be provided by the James Cancer Hospital and Fiscal Year 2010 approved funds are being reallocated and carried forward to 2011 to purchase (or lease, using available University lease/financing mechanisms) the equipment:

February 5, 2010 meeting, Board of Trustees

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Administration and Planning be authorized to take any action required to effect the execution of an amendment of the 20-year lease agreement with Gowdy Partners III LLC, to provide for approximately 11, 400 square feet of additional medical office space to be constructed as an addition to the leased medical office building at 739 West Third Avenue for use by the James Cancer Hospital, on such terms and conditions as are deemed to be in the best interests of the University.

(See Appendix XXX for background information and map, page 530.)

**APPROVAL TO AMEND AND RESTATE THE OHIO STATE UNIVERSITY
ALTERNATIVE RETIREMENT PLAN**

Resolution No. 2010-64

Synopsis: Authorization to amend and restate The Ohio State University Alternative Retirement Plan ("Plan") to conform to the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA"), and other applicable laws, regulations, and administrative authority is proposed.

WHEREAS the Board of Trustees originally adopted the Plan, effective February 5, 1999; and

WHEREAS the University has the ability to amend and restate the Plan from time to time; and

WHEREAS the University desires to amend and restate the Plan to comply with the Code, EGTRRA and other applicable laws, regulations, and administrative authority; and

WHEREAS the University desires to submit the amended and restated Plan to the Internal Revenue Service (the "IRS") for a favorable determination letter that the Plan continues to meet the qualification requirements of Section 401 et seq. of the Code:

NOW THEREFORE

BE IT RESOLVED, That an amendment and restatement of the Plan, in substantially the form attached hereto as Exhibit A and incorporated herein by reference, is hereby adopted effective as of January 1, 2002; and

BE IT FURTHER RESOLVED, That the Vice President for Human Resources, or any successor officer, in consultation with the Office of Legal Affairs, is authorized to perform such acts as deemed necessary or advisable to effectuate or carry out the purpose and intent of this resolution and to submit the Plan to the IRS; and

BE IT FURTHER RESOLVED, That the Senior Vice President for Business and Finance is hereby authorized to execute the amended and restated Plan and any other instruments, documents or conveyances necessary to effectuate the amendment and restatement and to submit the Plan to the IRS.

(See Appendix XXXI for background information, page 532.)

February 5, 2010 meeting, Board of Trustees

**RATIFICATION AND APPROVAL OF AMENDMENT AND RESTATEMENT OF THE
HARDING HOSPITAL EMPLOYEES' RETIREMENT PLAN AGREEMENT**

Resolution No. 2010-65

Synopsis: Ratification and approval of amendment and restatement of the Harding Hospital Employees' Retirement Plan Agreement ("Plan") is proposed.

WHEREAS on July 23, 2007, the Internal Revenue Service issued final regulations under Section 403(b) of the Internal Revenue Code of 1986, as amended ("Code"), affecting tax-sheltered annuity plans subject to Section 403(b) of the Code; and

WHEREAS these regulations generally became effective January 1, 2009, and provide for detailed requirements that must be included in each plan by December 31, 2009; and

WHEREAS the University maintains the Plan, which is a tax-sheltered annuity plan subject to Section 403(b) of the Code; and

WHEREAS the Board of Trustees has reviewed and considered the actions of the Office of Legal Affairs, the Office of Human Resources and the Senior Vice President for Business and Finance to fully amend and restate the Plan, effective as of January 1, 2009, in the form attached as Exhibit A and incorporated herein by reference; and

WHEREAS the Board of Trustees has determined that the actions of the Office of Legal Affairs, the Office of Human Resources and the Senior Vice President for Business and Finance to amend and restate and execute the Plan on behalf of the University prior to the date of this resolution were proper and in the best interests of the University:

NOW THEREFORE

BE IT RESOLVED, That the amended and restated Plan, in the form attached as Exhibit A be, and hereby is, approved, ratified and adopted effective as of January 1, 2009; and

BE IT FURTHER RESOLVED, That the adoption and implementation of the Plan and any actions relating thereto by the Office of Legal Affairs, the Office of Human Resources and the Senior Vice President for Business and Finance that have been taken or made prior to the date of this resolution are hereby ratified, affirmed and approved.

(See Appendix XXXII for background information, page 575.)

IMPLEMENTATION OF PAID DISASTER LEAVE BENEFIT

Resolution No. 2010-66

Synopsis: Authorization to Implement a Paid Disaster Leave Benefit.

WHEREAS pursuant to Section 3335.09 of the Revised Code, the Board of Trustees of The Ohio State University is vested with authority to fix the compensation for employees of The Ohio State University; and

WHEREAS pursuant to House Bill 187 amending Chapter 124 of the Revised Code, the Board of Trustees is vested with authority to adopt rules and regulations governing employment of University employees; and

February 5, 2010 meeting, Board of Trustees

WHEREAS at their October 29, 2009 meeting, the Board of Trustees authorized the President of the University to implement, on an interim basis, a Paid Disaster Leave Benefit;

WHEREAS the University's Office of Human Resources will soon promulgate a policy to institute paid disaster leave for the University, which will provide for a short-term paid leave benefit for those faculty, staff, and graduate associates who are prevented from any and all assignable work due to a declared University disaster; and

WHEREAS the Office of Human Resources will secure approval by all appropriate management committees of the University prior to implementation of the Paid Disaster Leave Policy:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby adopts this Paid Disaster Leave Benefit, as described in the Supplemental Information, effective immediately, and will be more fully described in the Paid Disaster Leave Policy.

(See Appendix XXXIII for background information, page 584.)

ACCEPTANCE OF THE REPORT OF AUDIT FOR 2008-2009

Resolution No. 2010-67

Synopsis: The report of the audit of the financial statements for The Ohio State University for 2008-2009 conducted by Deloitte & Touche is recommended for acceptance.

WHEREAS with the approval of the Auditor of State, The Ohio State University entered into a five-year agreement with Deloitte & Touche in 2006 for an annual audit of the University for fiscal years 2005-2006 through 2009-10; and

WHEREAS the Deloitte & Touche audit of the University for 2008-2009, meeting the requirements of the Auditor of State, has been received and the accounts, records, files, and reports of the University have been found to be in satisfactory condition, and certain constructive service comments have been discussed with the Audit Committee; and appropriate procedures and responses are being developed as a result of these comments:

NOW THEREFORE

BE IT RESOLVED, That the report of the Deloitte & Touche audit for The Ohio State University for 2008-2009, including the report on the audit of the University's financial statements and the summary of constructive service comments to management, be accepted.

AUTHORIZATION TO APPROVE ATHLETIC TICKET PRICES AND FEES

Resolution No. 2010-68

Synopsis: Approval of Athletic ticket prices for Fiscal Year 2011 and golf course membership fees for Calendar Year 2010 at the recommended levels is requested.

February 5, 2010 meeting, Board of Trustees

WHEREAS each year the Athletic Council reviews projections for the coming year's budget and recommends ticket prices and golf course membership fees; and

WHEREAS the Athletic Council has approved increases for football and men's basketball tickets, and for golf course membership fees shown on the attached tables; and

WHEREAS the Athletic Council's recommendations have been reviewed and are recommended by the appropriate University administration:

NOW THEREFORE

BE IT RESOLVED, That the recommended increases for football and men's basketball tickets for Fiscal Year 2011, and for golf course membership dues and fees for Calendar Year 2010, be approved.

(See Appendix XXXIV for background information, page 586.)

Upon motion of Judge Marbley, seconded by Mr. Hicks, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Wexner, Davidson, Borror, O'Dell, Shumate, Hicks, Schottenstein, Marbley, Kass, Jurgensen and Reid.

Mr. Wexner:

There were also three other resolutions that were mentioned earlier as follows.

SUPPORT OF STATE ISSUE 1

Resolution No. 2010-69

WHEREAS The Third Frontier initiative was created to promote job creation, enhance educational opportunities, and improve the quality of life and general well-being of people and businesses throughout Ohio by expanding Ohio's research capabilities to promote product innovation, development and commercialization; and

WHEREAS The Third Frontier program has laid the foundation for the retention, creation and growth of technology-based jobs and businesses, increased early stage capital investments, improved the environment for technology entrepreneurs, increased collaboration in research and development, and enhanced our economic competitiveness and diversity; and

WHEREAS The most up-to-date figures estimate the program's job creation results at greater than 48,000, and more is expected of this program in the next few years as the research translates into market solutions, companies and additional jobs; and

WHEREAS The State of Ohio's Third Frontier initiative has delivered measurable results by investing \$681 million since 2002 which has yielded \$6.6 billion in economic activity; and

WHEREAS The Ohio State University, as a result of its participation in the Third Frontier program, has teamed statewide with more than 200 business and industry partners and a number of Ohio universities to undertake 60 separate projects, and has helped launch or attract 26 companies and secure or file 125 patents; and

WHEREAS The Ohio State University has generated more than \$325 million in additional federal and industry funding from the Third Frontier program, which has been

February 5, 2010 meeting, Board of Trustees

a contributing factor in the university's rise to being in the top ten nationally in terms of research expenditures made by universities; and

WHEREAS The proposed state constitutional amendment will authorize the State of Ohio to issue up to \$700 million in bonds for the Third Frontier initiative in order to provide financial assistance for research, product innovation, and commercialization in support of Ohio industries and businesses in such areas as advanced materials, agbiosciences, alternative energy and fuel development, biomedical imaging, and improved diagnostics, treatments and cures for cancer, heart and other diseases; and

WHEREAS Issue 1 will continue to foster job creation through the advancement of new products and services based on science and technology research and development, thus ensuring Ohio's ability to create and compete for jobs, today and in the future; and

WHEREAS The Ohio State University, a top ten public research university, is an integral partner in the effort to advance scientific knowledge and to develop new products and applications that will enhance our state's economy; and

WHEREAS The Ohio General Assembly deserves much appreciation for its strong bipartisan support of the Third Frontier program and its placement of the constitutional amendment on the ballot.

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees of The Ohio State University hereby expresses its strong support and endorsement of the passage of State Issue 1 to improve the lives of all Ohioans and directs that a copy of this resolution be tendered to the Governor, the Ohio General Assembly and other interested constituencies.

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
PARTNERSHIP WITH THE OHIO STATE UNIVERSITY ALUMNI ASSOCIATION**

Resolution No. 2010-70

Synopsis: Authorization to implement measures to strengthen the alignment and partnership of the University and the OSU Alumni Association is proposed.

WHEREAS The Ohio State University Alumni Association, established in 1879, is now one of the largest alumni associations in the world, and its purpose is to support The Ohio State University and its alumni by fostering a spirit of loyalty toward the University and to achieve a unity of purpose and action in promoting the best interests of the University; and

WHEREAS over the last 130 years, the Alumni Association has been a steadfast friend of the University, and the Board of Trustees and the Board of Directors of the Alumni Association each desires to create a framework under which the University and the Association can be more closely aligned to better fulfill the goal of One University and strengthen their relationship to the benefit of the entire University family; and

WHEREAS toward that purpose, the University and the Alumni Association established a joint task force co-chaired by Tami Longaberger, former Chair of this Board, and William Lhota, former Chair of the Alumni Association Board, to study best practices in university alumni engagement and recommend an advancement model to achieve closer coordination of efforts in support of mutual goals to align alumni relations, engage alumni, and promote the University; and

February 5, 2010 meeting, Board of Trustees

WHEREAS based on the recommendations of this task force, the University and the Alumni Association have developed a memorandum of understanding to guide and enhance their future collaboration:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees gratefully acknowledges and expresses its appreciation for the dedication, hard work, and thoughtful conclusions and recommendations of the task force; and

BE IT FURTHER RESOLVED, That this Board hereby approves and endorses the principles and actions identified in the memorandum of understanding; and

BE IT FURTHER RESOLVED, That to ensure the continuing alignment and close collaboration of the University and the Alumni Association, this Board hereby charges the Committee on Trusteeship to move forward as expeditiously as possible to recommend to this Board appropriate changes in the Board's committee structure to fully support this enhanced partnership; and

BE IT FURTHER RESOLVED, That the Board of Trustees hereby authorizes and directs the President to take all actions necessary and proper to implement the memorandum of understanding with the Alumni Association and to periodically report to this Board on those efforts.

**FY 2010 - FY 2015 CAPITAL PLAN
INCLUDING FY 11 – FY 12 STATE CAPITAL REQUEST**

Resolution No. 2010-71

Synopsis: Authorization and acceptance of the FY2010 – FY2015 Capital Plan, including FY2011 – FY 2012 State Capital Request is proposed.

WHEREAS the University has presented the recommended capital plan for FY 2010 through FY 2015 and the recommendations regarding the capital project funding request for State and non-State funds for the FY 2011 and FY 2012 biennium; and

WHEREAS these recommendations have been reviewed through the University's governance structure; and

WHEREAS the University needs to maintain continuity in long term planning while addressing a transition in leadership; and

WHEREAS only those projects outlined in these recommendations will be eligible for funding for the FY 2010 - FY 2015:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby adopts the proposed FY 2010 – FY 2015 capital plan, subject to further modifications in the coming years and adopts the proposed recommendations for State funds for FY 2011 – FY 2012, and directs that the State capital funding requests be submitted to the Ohio Board of Regents; and

BE IT FURTHER RESOLVED, That the Board of Trustees adopts the non-State capital funds recommendations for FY 2010 through FY 2015 and approve the cap of no more than \$450 million in additional debt in FY 2011; and

February 5, 2010 meeting, Board of Trustees

BE IT FURTHER RESOLVED, That any request for authorization to proceed with any project contained in these recommendations or for University funds for any such project must be submitted individually by the University for approval by the Board of Trustees as provided for by Board policy.

Upon motion of Mr. O'Dell, seconded by Mr. Borrer, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Wexner, Davidson, Borrer, O'Dell, Shumate, Hicks, Schottenstein, Marbley, Kass, Jurgensen and Reid.

-0-

Mr. Wexner:

Jo Ann could I ask you to help us with something now?

Ms. Davidson:

Thank you very much Mr. Chairman. I would like to offer a resolution in expression of appreciation to Bill Shkurti. They made Bill do a solo here this afternoon on his report sort of as an acknowledgement that they are going to get the last little bit of work out him.

Seriously, when Gordon brought Bill into the position in the Office of Finance in 1990, I think, 1991, he was supervising 200 employees, we had a budget of just a little bit over \$1 billion, and now as he prepares to retire, in his current role as Senior Vice President of Business and Finance, he has 1,700 employees, he supervises and manages, and our budget is now as you know about \$4.4 billion. So there has been a lot of growth in those years. As was mentioned, I believe Gordon in his remarks, in his President's Report, the great respect that Bill Shkurti has at the state level, is one of the longest serving and best of budget directors in the state of Ohio, so I have had an opportunity through the years to work with Bill, with many of his various hats on, and in the years in which I have been on this Board, and had a chance to chair the Fiscal Affairs Committee. We have been able to work very closely together. I think I can honestly say he is one of the unsung heroes of Ohio State University. We have talked about what a diverse University we are, Gordon talks about what a huge responsibility it is, and quietly behind the scenes through the years, in tough economic times, with an awful lot of challenges, he has managed to get us through them in a very stable condition. Sometimes we take for granted that in the economic problems we have been experiencing, but somehow or other we have managed to come through this without a lot of bumps on the road. We have, but a lot of that is the credit to Bill and how he has managed through the years, and how we have carefully handled our resources in making sure we take everything into consideration. So Bill, on behalf of the Board of Trustees and on behalf of myself personally, I just want to say thank you. We are going to miss you, and I am glad to know that you are going to be around and in some position in advising this University for hopefully some time to come. So thanks for everything.

EXPRESSION OF APPRECIATION

WHEREAS Bill Shkurti took leadership of the Office of Finance in 1990 when the office had about 200 employees and the University had a an overall budget of about \$1 billion; and

WHEREAS the University's budget has grown to more than \$4.4 billion today and has stayed on solid footing despite challenges stemming from a weakened economy; and

WHEREAS Bill's personnel and financial oversight responsibilities increased tremendously in 1998 when he became Senior Vice President for Business Operations,

February 5, 2010 meeting, Board of Trustees

and today as Senior Vice President for Business and Finance, he has oversight of more than 1,700 employees; and

WHEREAS he is serving a three-year term as Chair of the State of Ohio Audit Committee to assist the Governor and Director of the Office of Budget and Management in fulfilling their oversight responsibilities; and

WHEREAS Bill developed and still maintains superb relations with faculty, students, and staff and is highly regarded by the entire university community; and

WHEREAS his keen interest in the history of the Vietnam War led him to become an inspired teacher as an adjunct professor in the John Glenn School of Public Policy, teaching for Professor Guilmartin; and

WHEREAS the Board of Trustees is aware that despite that keen awareness of history, he also is passionate about the Cleveland Indians, and since the Board is unable to improve their standings, it has allowed him to display his frustration publicly; and

WHEREAS the Board of Trustees also is aware that Bill is passionate about running, so has tried its best to support this passion by running him between Audit, Medical Affairs and Fiscal Affairs committee meetings for years; and

WHEREAS the frugality that has served him so well in his positions of financial responsibility also allowed him to, without regret, let other departments subscribe to Business First and then borrow their copies every Friday; and

WHEREAS there is bipartisan agreement that Bill is one of the most respected budget directors ever to hold this state title; and

WHEREAS after 21 years guiding The Ohio State University's fiscal and budgetary operations, Bill will retire effective March 31:

NOW THEREFORE

BE IT RESOLVED, The entirety of The Ohio State University is tremendously indebted to Bill Shkurti for his outstanding leadership, prudent fiscal management, steadfast civic service, and indefatigable integrity.

Mr. Shkurti:

Well I face this moment with mixed feelings. I am looking forward to retirement because I think the time is right, but I have really enjoyed the time I have been with the University. It is a wonderful place. I think many of you know I was a student here many, many years ago, and was captured by the place then and it has stayed the same. I want to thank Gordon who hired me the first time and has been a wonderful inspirational leader in both Gee One and Gee Two, and the Board and for its support through all these years. I was thinking about it the other day, I think in the 20 years I have been here, churned through 33 or 34 Board Members, some of whom are back for a second time. The Board has always held the University in the appropriate way and provided the appropriate governance and has helped as well.

Also to my colleagues, the vice presidents, the faculty, the students, the alumni they were all part of making this a great place. I feel double the honor to be sitting in a chair that was sat in by Archie Griffin. That is an added thing as well. I know there is going to be time for more celebration and speech making later, so I will not go on. Please accept my heartfelt thanks. It has been an honor to serve this great institution. Thank you all very much.

Mr. Wexner:

Bill, thank you so very much. Having survived some of us on the Board for a couple of rounds, and G-One and G-Two, I am so appreciative of your thoughtful guidance and support. I guess I differ a little bit with Jo Ann because I do not think it is unsung, I think it is really quiet noticed and much appreciated when an institution expands and grows and goes through decades of just its life and is never an extremist financially. That internal judgment of not only the presidents of the University, that the staff, in particularly the CFO, it just has to be there. This is a difficult group, both faculty, staff and Board, to guide through the financial seas. It is very, very much appreciated.

Before we adjourn, what I would like to do is just go around the room and see if anybody has any comments that they would like to make. We have had a very full two days of meetings, and it is the wrap-up of one year and the beginning of another. So let's start over here with you, Jason.

-0-

Mr. Marion:

Is school open tomorrow, President Gee? I think it was an excellent meeting and I think it has been impressive to see how this Board has been operating with all the planning. All the pieces are coming together to make this University one of the, if not the most, top public research university's in the country. Kudos. Bill, Martha, we cannot sing your praises enough, there is not enough time today.

Dr. Cloyd:

I would just echo that and say that this University is on such a high plane at a very challenging time. The opportunities before us against the mission are just outstanding. I just could not be happier as an individual or feel better as someone associated with this University about where we are headed and how we plan to get there. It is terrific leadership here at the University, we are blessed.

Dr. Reid:

I would just say ditto to the prior comments. I am also particularly happy about the structures that we are putting in place with the planning and all the rest that is happening. Go Bucks.

Judge Marbley:

Mr. Chairman there is an aphorism which goes, "if you are not leading a meaningful life on the edge, you are taking up too much space." I think that the work we have put in over the last year and the trajectory that we are on now is proof positive that we are taking up the appropriate amount of space.

Ms. Swain:

I definitely want to echo how student friendly Bill and Martha have been. Bill explaining some of these financial things I am excited to learn, and it has been great to work with you Bill.

Mr. Jurgensen:

Again to echo some things that have been said. I think everyone in the state of Ohio over the next 24 to 36 months are going to have a firsthand opportunity to realize the importance of Ohio State in terms of the contribution the University is going to make

February 5, 2010 meeting, Board of Trustees

to the economic redevelopment of our state. This really will be the epicenter of that redevelopment in my view, and therefore puts a special emphasis on a lot of the things we are working on in the area of technology transfer and commercialization. Those are really precursor efforts to the rebuilding of a new economy for Ohio. Even though I know we have both national and international aspects of what we do too, what is really going to show up I think, first and foremost is what our efforts mean to our state.

Ms. Kass:

I would like to echo something I think one of our students who were recognized this afternoon talked about, the character of the University. I think this is reflected in its leadership, its staff, its faculty and the Board and the work we are all doing together.

Mr. Schottenstein:

I agree with what everyone said, and I also want to throw in the expression of appreciation again to you Bill for making my brief chairmanship of the Audit Committee look so good. You have been a great partner. I also want to say, I neglected to say this in my comments, the Medical Center, which is I know only one very large part of this University, but it is still only one part of this University, certainly had a lot of things on their plate for the last 12 to 18 months. Both the Audit Committee and the Medical Affairs Committee, and I think this entire Board is extremely impressed with their efforts, not just with respect to ProjectONE but certainly in the area of compliance. One thing I thought was really compelling yesterday during the Medical Affairs Committee was how the patient satisfaction scores have soared. I know we are not where we want to be, but I do not think we will ever be where we really want to be because that is just the spirit of this place, but our patient satisfaction scores have soared in the face of what might otherwise be a time when we might be distracted. But we have not been distracted from really what is at the heart of what we do, which is taking care of patients. I just wanted to say that, I neglected to say that in my committee report, but it is an honor to serve on this Board and I just thank you all and everyone in this room for what you do for our University.

Mr. Hicks:

I think it was very fitting to have Coach Tressel here because so far 2010 has stepped off pretty strongly for this University, and he led it obviously on January 1 at the Rose Bowl and I think the momentum has continued. I would agree with Jerry and echo what Jerry said. There is a great deal of responsibility that we have as Trustees and this University has to really help our citizens and state nationally and internationally. I think one of the values that we have showed consistently is that we accept that responsibility and we are trying to make this place a better place. I do think that we are off to a very, very strong start in 2010, so congratulations on the leadership being shown.

Mr. O'Dell:

I would just like to say it is a great honor to serve this University. It is a thrill and Bill, good luck to you. I really appreciate all you've done.

Ms. Davidson:

Mr. Chairman I think this meeting sort of culminates the year of achievement, a year of leadership and thank you for your willingness to accepting another year of that responsibility. It is not an easy thing to do. I think we have celebrated together, we have had a very productive meeting and I thank you for that.

February 5, 2010 meeting, Board of Trustees

President Gee:

Well, first of all I want to thank the Board for its leadership, I really do; and Les for your leadership and continuing leadership. I think that the issue of continuity is extremely important, particularly because of the fact that we are moving at a very fast level and a high plane. So congratulations to you. Bill, you know I have already said it but you can tell the affection and respect you have from everyone. So I think that we should all acknowledge that you have made an enormous difference. In good times and bad, Bill is like a steady rock, so we do acknowledge that. I just want to say this, you know you take a look around the room, and we are blessed with an extraordinary cadre of leaders at this institution who are working very, very hard and very ably on behalf of the institution. Good work on the Board, good work with the University, we have a great partnership, so we now have a wonderful 2010 to look forward to Mr. Chairman.

Mr. Wexner:

I am with Brian, as we reflect on the year, and I think about the way the world looked about a year ago on a whole bunch of fronts, and I never would have anticipated that a year later things could be in such a positive plane for the University. Bill's leadership and guidance financially, the deans, the president, the trustees, we faced a very difficult year and a year when we had to be very careful, very cautious for the obvious reasons. I think it is a good thing Coach Tressel was here. I find myself particularly in the last year, in my family and other places quoting him. Win or lose he always says the same things, well we have got to get better, we just got to get better. You think if Ohio State loses, so how was the game, he says we did not do very well, we got to get better. For the Rose Bowl the first thing out of his mouth, we were laughing as we were watching, I said he is going to say we have got to get better. That is a bit of really good teaching from him for all of us. I think last year we clearly got better and for obvious reasons this year we have our work cut out, we have got to continue to get better.

Everybody has to drive safely and carefully today to get home. If there is no other business, we can stand adjourned.

-0-

Thereupon the Board adjourned to meet Friday, May 14, 2010, at The Ohio State University, Longaberger Alumni House, Columbus, OH.

Attest:

Leslie H. Wexner
Chairman

David O. Frantz
Secretary

The Ohio State University Board of Trustees

February 5, 2010

Capital Recommendations – FY 2011 and Beyond

- I. Strategic Goals
- II. Physical Planning Context
- III. Funding Strategy
- IV. Conclusions

Joe Alutto, Executive Vice President and Provost

Jeff Kaplan, Senior Vice President for Administration and Planning

Bill Shkurti, Senior Vice President for Business and Finance

I. Strategic Goals

One University

Student First

Faculty and Staff Talent

Research Prominence

Outreach and Collaboration

Financial Soundness

I. Strategic Goals

One University

Comprehensive plan. Includes all campuses, affiliated entities and all projects, regardless of funding source

I. Strategic Goals

Students First

Modernization and upgrade of student living spaces, especially on South Campus, is a high priority

Concepts for South High Rises Renovation and Addition

I. Strategic Goals

Faculty and Staff Talent

State of the art classroom and research space in North Academic Core (Chemical Engineering and Chemistry) and the OSU Medical Center will assist in recruitment and retention of best talent

ProjectONE Cancer and Critical Care Tower

I. Strategic Goals

Research Prominence

Major investment in facility modernization and expansion in interdisciplinary work in Chemical Engineering and Health Sciences

Prior Health Sciences Library Renovation for simulation and clinical skills labs

I. Strategic Goals

Outreach and Collaboration

Project One will expand tertiary medical care availability to the surrounding area and beyond to provide a strong economic benefit

I. Strategic Goals

Financial Soundness

Funding sources are identified. Buildings are designed to make efficient use of space.

II. Planning Context

Link academic/strategic, physical, and financial planning

One Framework

- “One University” projects that meet multiple goals
- Sustainable living-learning communities and 24/7 campus experiences
- Stewardship of existing facilities and open space
- Civic structure investments to create framework for next 50+ years
- Partnerships with surrounding community

II. Planning Context

Construction Reform

The Ohio Board of Regents “...shall designate one construction project at each of three different state institutions of higher education as a Construction Reform Demonstration Project...”

II. Planning Context

Project One and Construction Reform

The University will request Project One be a pilot project under the Construction Reform provisions of HB 318. This will allow the following:

- More timely completion
- Potential cost savings
- Greater participation by small businesses and minority contractors

A special management team under the leadership of Sr. VPs Steve Gabbe and Jeff Kaplan has been established to oversee this project.

Since a portion of this project has already been completed, the construction reform portions will apply to about \$825M worth of construction.

Progress reports will be presented to the Board on a quarterly basis.

II. Planning Context

Capital recommendations for FY2010 – FY2015...

- ✓ support strategic goals
- ✓ are consistent with emerging Framework principles*
- ✓ are aligned with financial planning

*Formal One Framework recommendations in Spring 2010

II. Planning Context

Prioritized List of Recommended Capital Projects FY 2010 – FY 2015	
Previous Commitments	\$190M
North Academic Core	
Chemical & Biomolecular Eng. & Chemistry	\$138M
Sullivant, Smith, Cunz Renovation	\$ 34M
Sub Total	\$172M
Project One	
Hospital Tower/Associated Projects	\$1,000M
Student Housing	
South Campus High Rise Renovation	\$172M
Hall Complex & Enabling	\$ 62M
Sub Total	\$234M
Associated Infrastructure & Enabling Projects	
Project One & South Campus High Rise	\$173M
Academic Core North Support	\$ 70M
Sub Total	\$243M
Additional	\$119M
Grand Total	\$1,958M

II. Planning Context

Additional Projects (FY 2010 – FY 2015)

NOTE: *These projects are high priority but could be scaled back or stretched out if necessary to align with availability of funding.*

- Business Continuity and Infrastructure
- Access and Way Finding
- Student Life Repair and Renovations
- Transportation and Parking
- Public Safety Communications
- Regional Campuses
- Emerging future projects include River Corridor and Pedestrian Priority plans from One Framework

III. Funding Strategy

Continue to Advance Academically
Exhibit Financial Prudence
Transparency

III. Funding Strategy

Summary of October 28 Fiscal Affairs Committee

Confirmation of the following capital priorities:

- North Academic Core
- Project One
- Student Housing
- Supporting Infrastructure

III. Funding Strategy

Summary of October 28 Fiscal Affairs Committee

- Circuit breakers have been identified
- Cap the next bond sale (CY 2010) at approximately \$400M
- Place a modified freeze on all other projects through FY 2010
- Proceed with plan to add \$0.15 per ASF to POM charges for preventative and planned maintenance needs every year for five years beginning in 2011
- Need to continue to strengthen the balance sheet
- Request formal Board of Trustees approval on February 5, 2010

III. Funding Strategy

Project Funding Sources

(FY 2010 – FY 2015)

Source	Amount
New Debt *	\$1,616M
State Funds	\$144M
Unit Funds	\$28M
Project One Development	\$75M
Project One Previously Bonded	<u>\$95M</u>
Total	\$1,958M

* Includes \$190M in previous commitments

III. Funding Strategy

Bond issuance schedule is in alignment with what has been previously shared with the rating agencies

Total New debt required:		\$1,616M
Preliminary bond schedule:	CY 2010 up to	\$450M
	CY 2012 up to	\$700M
	CY 2014 up to	<u>\$450M</u>
		\$1,600M

NOTE: This schedule is preliminary and will be revisited in six months

III. Funding Strategy

Financial Risk Mitigated

- All projects over \$4M will require a separate vote
- Circuit breakers have been established for key large projects, including Project One
- December 2009 debt refinancing reduced interest costs and exposure to variable rate debt
- Modified freeze on additional projects remains in effect through 6/30/10
- Bid favorability will be recaptured centrally
- University's financial picture for FY 2010 remains stable
- Plans are underway to strengthen the University's balance sheet even further

III. Funding Strategy

Recent Developments That Will Assist In Maintaining Strong Balance Sheet

- Passage of state budget corrective bill.
- Project One as a construction reform pilot project.
- Refinancing \$84 M of fixed rate debt (\$4.6M interest rate savings over 11 years).
- Converting \$173M variable rate debt to fixed at 2.6% (limits upside risk).
- Proposed changes in debt policies will give the university greater flexibility to manage cash flow.

IV. Conclusions

Recommendations

- Approve preceeding with recommended projects
- Any state or bond funds gained from favorable bidding climate revert to the center for redistribution
- Provide quarterly updates
- Projects \$4M and over will require additional approval
- Continue the hold on other projects through 6/30/10

IV. Conclusions

Next Steps

1. Recommend approval of attached resolution.
2. Board approval of individual projects over \$4M – as needed
3. Submission of capital request to the Ohio Board of Regents – Mid February 2010
4. Mid-Year Update – June 17-18, 2010

IV. Conclusions

Summary

Recommendations presented:

- Align with strategic priorities
- Reflect the One University framework
- Are financially prudent

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

3335-5-48.6 Council on enrollment and student progress.

(A) Membership.

The council on enrollment and student progress shall consist of ~~sixteen~~ seventeen members.

(1) Nine regular tenure-track faculty.

(a) Three regular tenure-track faculty appointed by the president. Appointed members are eligible for reappointment.

(b) Six regular tenure-track faculty selected by the faculty council.

(2) Six students.

(a) Two graduate students.

(b) Two professional students.

(c) Two undergraduate students.

(3) ~~One administrator~~ Two administrators. ~~Non-voting, appointed by the~~ The executive vice president and provost, ~~or designee~~, non-voting, to serve as administrative liaison for the council.

Balance unchanged.

3335-5-48.18 Graduate associate compensation and benefits committee.

(A) Membership.

The graduate associate compensation and benefits committee shall consist of eleven voting members.

(1) Six funded graduate students, ~~at least one of whom must preferably will be a member of the council on research and graduate studies~~ graduate council and one of whom must be a member of the university senate. ~~Two shall have a term of service of two years, staggered so that one term expires at the end of each year. The remaining four~~ Each shall have a term of service of one year with reappointment to consecutive terms encouraged.

(a) There shall be at least one current or former graduate teaching associate.

(b) There shall be at least one current or former graduate research associate.

(c) There shall be at least one current or former graduate administrative associate.

(d) There shall be at least one current or former fellowship recipient.

(2) Two faculty.

February 5, 2010 meeting, Board of Trustees

- (a) One faculty member from⁷ and selected by, the ~~council on research and graduate studies~~ graduate council.
 - (b) One faculty member, who is also a senator, selected by the executive committee of faculty council.
 - (3) Three administrators.
 - (a) The dean of the graduate school, or designee.
 - (b) The ~~associate~~ vice president for human resources, or designee.
 - (c) The ~~senior~~ vice president for research, or designee.
 - (4) One department, school, center or college-level staff member with extensive fiscal and budgetary experience and expertise, selected by the executive deans in consultation with the senior fiscal officers, non-voting.
 - (5) Additional non-voting members and consultants from the university, serving at the discretion of the voting members of the committee.
- (B) Duties and responsibilities.
- (1) Study the adequacy and other attributes of the university's policies and provisions including stipends, outside professional services, and supplemental compensation.
 - (2) Conduct research and provide advice on economic support of graduate associates, professional development, quality and design of benefit programs, and appointment terms.
 - (3) Make recommendations to the university senate, the ~~council on research and graduate studies~~ graduate council, the graduate school, and the office of academic affairs as appropriate.

3335-6-01 General considerations.

- (A) Peer review provides the foundation for decisions regarding faculty appointment, reappointment, and promotion and tenure (except when the provisions of paragraph (H) of rule 3335-6-03 of the Administrative Code are invoked.) Peers are those faculty who can be expected to be most knowledgeable regarding an individual's qualifications and performance--normally tenure initiating unit colleagues. Because of the centrality of peer review to these review processes, faculty vested with responsibility for providing peer review have an obligation to participate fully and knowledgeably in review processes, to exercise the standards established in faculty rule 3335-6-02 of the Administrative Code and other standards specific to the academic unit and discipline, and to make negative recommendations when these are warranted to maintain and improve the quality of the faculty. Recommendations by the faculty vested with the responsibility for providing peer review will be accepted unless they are not supported by the evidence presented regarding how the candidate meets the standards established in faculty rule 3335-6-02 of the Administrative Code and other standards specific to the academic unit and discipline. When, for the reasons just stated, a decision regarding faculty appointment, reappointment, or promotion and tenure differs from the recommendation of the faculty, the administrator or body making that decision will communicate in writing to the faculty body that made the recommendation the reasons that the recommendation was judged not to be supported by the evidence.

February 5, 2010 meeting, Board of Trustees

- (B) In accordance with a policy of equality of opportunity, decisions concerning appointment, reappointment, and promotion and tenure shall be free of discrimination as to ~~race, creed, religion, national origin, age, sex, disability, veteran status, or sexual orientation~~ age, ancestry, color, disability, gender identity or expression, genetic information, military status, national origin, race, religion, sex, sexual orientation, or veteran status, and other categories covered in the university nondiscrimination policy.
- (C) Organization.
- (1) The committee shall annually elect a chair from its regular student membership.
 - (2) As a standing committee of the senate, this committee is also governed by the provisions of rules 3335-5-46 and 3335-5-48 of the Administrative Code. (B/T 5/6/2005, B/T 4/6/2007)

**The Ohio State University
Office of Human Resources**

**Summary of Proposed Revisions of
The Classified Civil Service Rules**

The Ohio State University Office of Human Resources has prepared proposed amendments, deletions, and additions to the rules that govern classified civil service (CCS) employment at the university. The CCS rules were last revised in total in 2001; with recruitment, selection, and appointment related rules revised in June 2009; and reduction in work force rules revised in October 2009. Since 2001, various statutory changes have occurred that necessitate further revision of these rules.

Revisions

The language and content throughout the rules have been revised in the following manner:

- The language is clarified and made grammatically correct;
- The rules are updated to be consistent with university policies and practices;
- The rules are updated to streamline processes, enhance our efficiency and effectiveness, and provide more effective performance management of and corrective action with Classified Civil Service employees.

Key changes include:

- During the probationary period, coaching and feedback will be required; a written performance review will also be required unless the employee has been terminated prior to the end of the probationary period.
- Annual performance reviews will be required.
- Supervisors are required to manage deficient performance using the university performance improvement process.

Following is a summary that provides a brief explanation of all changes made to the rules, chapter by chapter.

Summary of Proposed Revisions of
The Classified Civil Service Rules
Chapters 49, 67, 75, and 89

Chapter 49: Procedure for adoption, amendment or rescission of rules affecting persons in the classified civil service at the Ohio State university and opting out of provisions of the Ohio Revised Code.

Revised

3335-49-03 The Ohio state university opts out of the following provisions of the Ohio Revised Code:

Key revisions: 3335-49-03 The Ohio state university opts out of the following provisions of the Ohio Revised Code:

- Opted out of Section 124.27 of the Revised Code, appointments from eligibility list – probation.

Chapter 67: Probationary Periods

Revised

3335-67-01 Nature of the probationary period.

3335-67-02 Length of the probationary period.

Key revisions: 3335-67-01 Nature of the probationary period.

- Coaching and feedback are required during the probationary period.
- Performance reviews are required during the probationary period unless the employee is terminated before the end of the period.
- References to eligible lists are removed.

Key revisions: 3335-67-02 Length of the probationary period.

- The probationary period is changed from 180 to 179 calendar days.

Chapter 75: Performance Management, Removals, Suspensions, or Demotions

Rescinded (and revised)

- 3335-75-01 Performance management and review.

Revised

- 3335-75-02 General procedure for terminations, suspensions, or demotions *renamed to* General procedure for addressing deficient performance and terminations.

Key revisions: 3335-75-01 Performance management and review.

- Performance management includes setting expectations and goals, coaching, feedback, training and development, and performance review.
- Employees must be given a written performance review once a year.
- Performance reviews are required during the probationary period unless the employee is terminated before the end of the period.
- The performance review may serve as a step in the performance improvement (corrective action) process.

Key revisions: 3335-75-02 General procedure for terminations, suspensions, or demotions. Renamed General procedure for addressing deficient performance and terminations.

February 5, 2010 meeting, Board of Trustees

- Supervisors are required to manage deficient performance using the performance improvement process defined by the Office of Human Resources.
- Steps may be skipped in the performance improvement process and the university can move directly to termination in cases that warrant immediate termination.
- Suspensions will no longer be used in the performance improvement process.
- Fines will no longer be used in the performance improvement process.
- Employees must be notified in writing at each step of the performance improvement process of their level in the process, the nature of their deficient performance, expectations, consequences of continued deficient performance, and effective date of the action.
- Employees who are absent from duty habitually or for 3 or more successive days, without leave and without notice to the employing unit of the reasons for such absence, may be subject to removal for neglect of duty.

Chapter 89: Definitions of Terms

- Definitions are re-lettered due to additions and deletions.
- The following definition is added: notice level.
- The following definitions are revised: displace or displacement, for cause, jurisdiction, leave of absence, major corrective action, medical center.
- The following definitions are deleted: suspension, working suspension.

Classified Civil Service (CCS)
And the Rules Changes Process
The Ohio State University

Classified Civil Service Staff at Ohio State

According to OHR's Employee Statistical Summary for autumn 2009, Ohio State had 40,744 employees; 5,455 were in the classified civil service. All CCS positions are listed on the Office of Human Resources Job Classifications web site at <http://hr.osu.edu/statistics/titledck/index.aspx>.

CCS employees who are certified in their positions (successfully completed probationary period) are entitled to certain job-related property rights. These property rights require that appropriate due process measures are in place, with an adequate appeals process, before an employee can be demoted, subjected to job abolishment or layoff, placed on leave for disciplinary purposes, suspended for a number of days, or discharged for appropriate cause.

Classified Civil Service Rules

CCS Rules provide the framework for classified civil service employment at Ohio State; further detail is provided through Office of Human Resources policies. Rules are subject to adoption by the Board of Trustees and become a part of the Ohio Administrative Code (section 3335).

CCS Rules can be found at <http://hr.osu.edu/Policy/CCS/index.aspx>

Human Resources Policies can be found at <http://hr.osu.edu/policy/>

CCS Rules Amendment Process

In December 2006, the Ohio General Assembly passed Substitute House Bill 187, an effort to reform Ohio's laws governing civil service employment. This Act gives our Board of Trustees the authority to amend provisions of CCS rules governing Ohio State employees. All CCS Rules are promulgated in accordance with section 111.15 of the Ohio Revised Code.

The Office of Human Resources (OHR) has a strong commitment to an inclusive and transparent rules change process. The amendment process for CCS rule changes takes at least 90 days to develop and refine; after the rules are finalized, university policies and practice documents must be updated to reflect the changes in the rules. The process OHR is following for these rules amendments is as follows:

1. Solicit input and advice from CCS staff through the CCS Modernization Advisory Group, and from all CCS staff through e-mail updates.
2. Solicit input and advice from the Human Resource Policy Committee, campus senior HR professionals, and content experts in the Office of Human Resources.
3. Draft rules with input and process goals in mind.
4. Solicit feedback and advice from CCS Modernization Advisory Group, Human Resource Policy Committee, and senior HR professionals.
5. Refine rules and review with Office of Legal Affairs.
6. Share rules with Communications Workers of America (required by contract 75 days in advance of public comment period).
7. Publish rules on OHR website for 30 days, soliciting feedback from CCS staff, managers of CCS staff, campus HR professionals, and the general campus community. Conduct four open forums during the 30 day period to review key changes and listen to feedback.

February 5, 2010 meeting, Board of Trustees

8. Refine the proposed rules as appropriate, based on input received during the public comment period. Solicit additional feedback and advice from various populations as needed.
9. Review final rules with the Office of Legal Affairs.
10. Submit to the Board of Trustees for approval; after approval, the Board Office submits to the Legislative Services Commission of Ohio.
11. Update policies and practices as appropriate.
12. Implement rules, policies, and practice changes on the effective date.
13. Provide training and education on new rules, policies, and practices.

Goals in CCS Rules Amendment Process

Our goals in the CCS Rules Amendment Process are to:

- Support Ohio State's move to a **high performance culture**,
- Support Ohio State's **six strategic goals**, with special attention to goal of streamlining and efficiency,
- Ensure consistency with our **institutional values**, and
- **Streamline** CCS processes.

Planned Sequence in CCS Rules Amendment Process

FY09 – Recruitment, Selection and Appointments (effective date July 10, 2009)

FY10 – Layoff and Reduction in Force Processes (effective date January 1, 2010)

FY10 – Performance, Discipline and Disciplinary Processes (effective date April 1, 2010)

FY10/11 – Classification and Compensation Plans (target effective date to be determined)

FY11/12 – Leaves (target effective date to be determined)

Definitions and opt out provisions will be updated with each set of rules

February 5, 2010 meeting, Board of Trustees

Amendments to the *Classified Civil Service Rules*

3335-49-03 The Ohio state university opts out of the following provisions of the Ohio Revised Code:

- (A) Section 124.22 of the Revised Code, educational and citizenship requirements for civil service examinations.
- (B) Section 124.231 of the Revised Code, special examinations for legally blind or legally deaf persons.
- (C) Section 124.25 of the Revised Code, formal application for examination.
- (D) Section 124.26 of the Revised Code, eligibility lists – veteran's preference – provisional employees.
- (E) Section 124.27 of the revised Code, appointments from eligibility list – probation.
- (E)(F) Section 124.271 of the Revised Code, provisional employees.
- (F)(G) Section 124.31 of the Revised Code, promotions.
- (G)(H) Section 124.33 of the Revised Code, transfers – appeal – reimbursement of expenses.

3335-67-01 Nature of the probationary period.

- (A) Employees serve a probationary period following:
 - (1) An original classified appointment (either by appointment from an eligible list, or provisionally);
 - (2) A promotion; or
 - (3) A lateral change from one classification to another outside of the classification series.
- (B) Employees whose titles are changed through the reclassification process do not serve a new probationary period.
- (C) An employee shall be provided with coaching and feedback during the probationary period.
- (D) An employee shall be provided with a performance review prior to the end of the probationary period, unless terminated before the end of the period.
- (C)(E) If an employee's job performance does not meet the expectations of the position following an original appointment, lateral change outside of the employee's classification series, or promotion, then:
 - (1) Following an original appointment, an employee may be terminated at any time during the probationary period; or
 - (2) Following a promotion or a lateral change outside of the employee's classification series, an employee may be

returned to the former classification at any time during the probationary period.

- (D)(E) When an employee is terminated or returned to the former classification during the probation probationary period, the university shall send a written notice to the employee. This termination or return to the former classification is not subject to appeal.
- (E)(G) Any employee terminated from employment during a probationary period, except when terminated for cause, may be restored to the eligible list eligible for rehire at the discretion of the office of human resources.
- (F)(H) An employee terminated from employment during a probationary period, except when terminated for cause, is not eligible to reapply for the same or higher classification for a period of one year from the termination date unless restored to the eligible list an exception is granted at the discretion of the office of human resources.
- (G)(I) Any employee terminated for cause from university employment is permanently ineligible for re-employment with the university.

3335-67-02 Length of the probationary period.

The probationary period for regularly and provisionally appointed full time and part time classified civil service employees is one hundred eighty seventy nine calendar days. Longer probationary periods, not to exceed one year, may be specified by the university. Time spent on unpaid leaves of absence or layoff are not credited as part of the probationary period.

3335-75-01 Performance management and review. (RESCIND)

Performance management is an ongoing process where the supervisor and employee discuss the performance expectations of the position and how the employee is fulfilling those expectations. Classified civil service employees should have their performance reviewed once during the probationary period and annually thereafter. This performance review is a tool of performance management for the purposes of evaluating appropriate job duties, training, and corrective measures.

3335-75-01 Performance management and review.

- (A) Performance management is an ongoing process between the employee and supervisor that includes setting expectations and goals, coaching, feedback, training and development, and performance review.
- (B) Employees shall have a written performance review on an annual basis. An employee shall be provided with a performance review prior to the end of the probationary period, unless terminated before the end of the period. The performance review is a summary of the employee's performance for the review period, and may serve as a step in the performance improvement process.

3335-75-02 General procedure for terminations, suspensions, or demotions addressing deficient performance and terminations.

- (A) Supervisors shall manage deficient performance through the process defined by the office of human resources. The university at its

discretion may move directly to termination in cases that warrant immediate termination.

- (A)(B) The termination, suspension, or demotion of a classified civil service employee, except as otherwise provided in these rules, shall be made performance improvement process may be initiated for, but not limited to the following reasons: incompetency, inefficiency, dishonesty, drunkenness use or being under the influence of alcohol or illegal drugs at work or inappropriate use of prescription drugs, immoral conduct, insubordination, discourteous treatment of the public, neglect of duty, a violation of university rules or policy, failure to return from a leave of absence, other failure of good behavior, misfeasance in office, malfeasance in office, nonfeasance in office, other unsatisfactory job performance, conviction of a felony, or by voluntary written agreement by an employee; this is not an exhaustive list.
- (B) The university may impose working suspensions with pay as part of a corrective action plan. For the purpose of progressive action, working suspensions are equivalent to suspensions which require the interruption of an employee's service and compensation for a fixed period of time.
- (C) The university may impose a fine of not more than five days pay as part of a corrective action plan.
- (D)(C) The At each step in the performance improvement process the employee shall be notified in writing of the reasons for the action their level in the process, the nature of their deficient performance, the expectations for performance, the consequences of continued deficient performance, and the effective date of the action. The employee shall be notified in writing when being terminated. This notification shall advise the employee of the right to appeal to the state personnel board of review, if applicable. Any such appeal shall be made in accordance with the rules of the state personnel board of review.
- (D) Any employee who is absent for three or more successive days, without approved leave and/or without notice to the employing unit of the reasons for such absence, may be subject to termination for neglect of duty.
- (E) The following conditions apply to any employee who is convicted of a felony:
- (1) Conviction of a felony is a separate basis for reducing in pay or position, suspending, or terminating an employee, even if the employee has already been reduced in pay or position, suspended, or terminated for the same conduct that is the basis of the felony. An employee may not appeal to the state personnel board of review any disciplinary action taken by an appointing authority as a result of the employee's conviction of a felony.
 - (2) A person convicted of a felony immediately forfeits the person's status as a classified employee at the university on and after the date of conviction for the felony. The university, upon the person's request, may investigate the

circumstances of the felony and may, at its discretion, allow the person to apply or re-apply for university employment.

- (3) Any person terminated for a conviction of a felony is entitled to a cash payment for any accrued but unused vacation leave.

3335-89-01 Definition of terms.

For the purposes of Chapters 3335-49 to 3335-89 of the Administrative Code, the following terms are defined as follows:

- (A) "Abolishment" - the elimination of a position due to lack of funds, lack of work, reasons of economy, or a reorganization for efficiency.
- (B) "Appointing authority" - the board of trustees for the university has delegated its authority regarding civil service employment matters to the vice president for human resources.
- (C) "Appointment" - the administrative process of placing a university employee on the payroll.
- (D) "Base rate of pay" - the actual salary or wage an employee receives for services rendered within the pay range of the classification.
- (E) "Broadbanding" - one of the university's classification and compensation systems characterized by broader classifications, pay ranges, simplified classification administration, and market based compensation administration.
- (F) "Certified status" - a classified civil service status obtained for a specific classification upon satisfactory completion of the applicable probationary period or, when there is no probationary period, upon completion of 180 days in the specific classification with satisfactory performance.
- (G) "Classification" - common name for a group of positions sufficiently related with respect to duties, responsibilities, authority and qualifications so that the same descriptive classification title and same pay range may be used for each.
- (H) "Classification plan" - a system of classifications or series of jobs, with a specification and pay range assignment for each classification.
- (I) "Classified civil service" – all positions with a title under the Ohio state university's classified civil service title group, found on the office of human resources web site. Any position not included in this group is not classified civil service.
- (J) "Day" - unless otherwise specified, "day" means one calendar day.
- (K) "Demotion" - placement of an employee in a classification that has a lower pay range than that previously held.
- (L) "Displace" or "displacement" - the exercise of the procedures outlined in Chapter 3335-81 of the Administrative Code that results in the substitution of one employee by another employee with higher retention points who can perform the required duties, have has met

expectations in the last three annual performance reviews, and are is not on major corrective action.

- (M) "Emergency appointment" - an appointment to a position to meet an emergency situation, an exception from civil service rules, not to exceed a maximum of 179 days.
- (N) "For cause" – a type of termination from employment for one or more of the following reasons: incompetency, inefficiency, dishonesty, drunkenness use or being under the influence of alcohol or illegal drugs at work or inappropriate use of prescription drugs, immoral conduct, insubordination, discourteous treatment of the public, neglect of duty, violation of this chapter or the rules of the director of administrative services or the commission violation of university rules or policies, any other failure of good behavior, any other acts of misfeasance, malfeasance, or nonfeasance in office, or conviction of a felony.
- (O) "Full-time employment" - employment where the work schedule is normally forty hours per week.
- (P) "Intermittent employment" - an appointment which serves at the discretion of the appointing authority and where the employee works irregular hours or days on an as-needed basis.
- (Q) "Jurisdiction" - the limited location in which procedures for layoff, displacement, and reinstatement may be exercised. The Columbus campus, excluding the medical system center; the medical center; each regional campus; and the agricultural technical institute and Ohio agricultural research and development center are each separate and distinct jurisdictions. Units located outside of Columbus in a county where a regional campus is located are part of that jurisdiction, otherwise, the jurisdiction is limited to that county only. Units located outside of Ohio are each their own jurisdictions jurisdiction.
- (R) "Lack of funds" – a current or projected deficiency of funding to maintain current, or to sustain projected, levels of staffing and operations. A lack of funds shall be presumed for a position assigned to an employee who works under a grant if it is reduced or withdrawn.
- (S) "Lack of work" – current or projected decrease in workload that requires a reduction of current or projected staffing levels in the organization or its structure.
- (T) "Leave of absence" - a temporary separation from active pay status with the employee generally retaining employment status and seniority.
- (U) "Licensed practitioner" - a physician, psychiatrist, or psychologist who is licensed to perform medical or psychological examinations.
- (V) "Major corrective action" – any corrective action at the third level notice or above or in accordance with collective bargaining agreements.
- (W) "Medical center" – includes the James cancer hospital and Solove research institute, office of health sciences and college of medicine, OSU Harding hospital, OSU primary care network, OSU rehabilitation

services at Dodd hall, Ross heart hospital, shared services, specialty care network, university hospital east, and university hospital and university hospital east.

- (X) “Notice level” – a step in the performance improvement process.
- (X)(Y) “Original appointment” - an individual’s first classified civil service appointment with the university.
- (Y)(Z) “Parenthetical sub-title” - a group of positions logically falling within a single classification, but distinguished from other positions within that classification by the performance of specific functions or duties requiring specialized skill, knowledge or training.
- (Z)(AA) “Part-time employment” - employment where the work schedule is normally less than forty hours per week.
- (AA)(BB) “Pay range” - a division of a pay plan to which classifications are assigned.
- (BB)(CC) “Position” - a specific job requiring the performance of certain duties and responsibilities by an employee.
- (CC)(DD) “Pre-employment screening” – process of collecting information about individuals to assess job qualifications or fitness for duty. Specific examples include background checks, drug tests, and declaration of material assistance, among others.
- (DD)(EE) “Probationary period” - a period of time at the beginning of an original appointment, a promotion, or a lateral change from one classification to another that constitutes a trial or testing period for the employee, during which the employee may be terminated or returned to the former classification.
- (EE)(FF) “Promotion” - placement of an employee in a vacant position in a classification less than that previously held.
- (FF)(GG) “Reassignment” - an involuntary temporary or permanent move of employment within the same or similar classification and/or work location within the same jurisdiction of the university.
- (GG)(HH) “Reclassification” - the act of changing the classification of an existing occupied position.
- (HH)(II) “Reduction in force” - a decrease in the number of positions at the university’s initiative due to a lack of funds, lack of work, reasons of economy, or reorganization for efficiency.
- (II)(JJ) “Regular employment” - employment which customarily requires the services of an employee on a regularly scheduled and continuing basis.
- (JJ)(KK) “Reinstatement” - the act of returning a former employee to the same or similar position within the university classified civil service, following a period of not more than one year of separation.
- (KK)(LL) “Reorganization for efficiency” – current or projected decrease in workload that requires a reduction of current or projected staffing

levels in an organizational structure; change in the nature of the work or direction or purpose of the unit; or elimination of a unit.

- (LL)(MM) "Seasonal employment" - regular employment where the service reoccurs for a specified period of time during a particular time of the year.
- (MM)(NN) "Specification" - a composite of the duties and requirements of a classification.
- (NN) "Suspension" - the interruption of an individual's employment and compensation for a fixed period of time for reasons of discipline.
- (OO) "Target hiring range" - is established prior to posting a position based upon budgeted funds for the position, identified skills and/or experience, salaries paid within the college or vice president unit for similar positions, organizational scope and an assessment of the relevant competitive market. The target hiring range should normally have a spread of \$3,000 to \$8,000; the range may vary based on the circumstances at the time of posting.
- (PP) "Temporary employment" - an appointment that serves at the discretion of the appointing authority and:
- (1) Is for a limited duration;
 - (2) Is for a specific project;
 - (3) Augments regular staff due to increased work loads or staff shortages; or
 - (4) Replaces a regular employee during an absence due to illness, leave of absence or vacation.
- (QQ) "Termination" - the involuntary ending of an employee's employment with the university.
- (RR) "Transfer" - a voluntary move of employment as a result of an application for a different position.
- (SS) "Working suspension" - a suspension where the individual's employment and compensation are not interrupted, but for the purposes of progressive corrective action, is equal in weight to a regular suspension.

**The Ohio State University
Endowment Reporting Project 2009
Status Report**

The first-ever individualized endowment reports were mailed with the OSU Foundation annual report in October 2009 (sample attached)

- 3,426 individual reports were mailed to
- 2,755 households representing
- 2,472 funds

A feedback card was included with the reports to gauge donor response to the new reports.

129 donors responded

- 88% found the reports useful
- 87% found the reports easy to understand.
- 43% would like to receive the information online.
- 6% expressed frustration with economy and investment performance and said we need to tell the good with the bad.

Some donor comments

- "Clear acknowledgement and accountability."
- "Financial summary indicates that fund is being helpful for causes it was intended. "
- "It is rewarding to see the account balances and the names of the students who received scholarships. It is reassuring to know that the endowment funding is being put to a good use."

Many donors requested more information be included in the report, such as

- award recipient information (names, majors)
- award amount (current, historic)

Future improvements, dates TBD

- In partnership with college/units, provide more detailed expenditure information
- Eventually provide reports for current-use as well as endowment funds (multi-year plan)
- Provide reports online through a secure website

(APPENDIX XXVIII)

East Regional Chilled Water Plant

5062-PF07357

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): See Project Information

ASF/O GSF Age:

Description/Scope:

This project will develop and construct a regional chilled water plant to connect buildings in the Academic Core North area that are not currently served by the McCracken Chiller Plant. The regional plant will provide reliable year-round chilled water and will conserve energy compared to individual building chillers. The proposed facility will include chillers, pumps, cooling towers, electrical switch gear and transformers. Chilled water will be distributed to various buildings through new and existing tunnels, existing buildings and new trenches.

The East Regional Chilled Water Plant and chilled water distribution system will eventually serve existing and future buildings in the North Academic Core of the Columbus Campus, including existing student housing facilities. This first phase of the project will connect the Chemical and Biomolecular and Chemistry Building (CBEC) and three other buildings. Future phases will connect the remaining buildings in the Academic Core North, reaching a planned total of 28 buildings.

The use of regional chilled water plants has been studied at length, most recently in November 2009 by AEI Engineering, which shows an estimated 40% savings in annual operating costs. With the ongoing growth of the University, coupled with the need to replace aging building cooling systems and the desire to improve energy efficiency and reliability, a central chilled water plant is proposed to be constructed in companion with CBEC to optimize savings. A central plant will allow for redundancy and reliability and will provide for future growth with minimal economic outlay. Additional economic advantages include lower electrical distribution capital costs in a central plant versus individual chillers in multiple buildings and less capital is required for central plant equipment versus individual buildings as there is less equipment to be maintained.

Approval is requested to enter into professional services contracts up to \$10,000,000 to continue design and prepare for bidding.

Hopkins and Hayes Halls Renovations

OSU-090523

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): Hopkins Hall, James R.

67,526 ASF / 108,554 GSF Age: 1959

Description/Scope:

This project will renovate Hopkins and Hayes Halls to accommodate the occupants and functions from Haskett Hall, which will be demolished as part of an enabling project for the Chemical and Biomolecular Engineering and Chemistry Building. Space will be renovated for photography, print-making, graduate studios, computer labs, faculty and staff offices, lighting studios, design studios and pool classrooms.

In addition, the project will install new exterior windows and glazing for the second through fourth floors of Hopkins Hall. A new exterior store front at the ground and first floor levels of Hopkins will be installed, including new door frames and hardware.

A sculpture studio addition will be constructed at the Sherman Studio Arts Center on west campus and ADA accessibility will be addressed at Hopkins Hall.

The consolidation of the functions of Haskett Hall into Hopkins and Hayes Halls will align the Arts and Humanities functions and create adjacencies within the Academic Core North.

Approval is requested to increase the project and professional services contracts, to advertise for construction bids, and enter into construction contracts.

College of Medicine Renovation/Addition

OSU-080338

Requesting Agency(s): MEDICINE AND PUBLIC HEALTH ADMIN

Location(s): Prior Health Sciences Library

73,555 ASF/106,543 GSF Age: 1973

Description/Scope:

This project will construct a two-story addition to the Prior Health Sciences Library. The addition will be approximately 37,000 GSF and will house simulation and clinical skills labs for the Clinical Skills department in the College of Medicine. One floor of the addition will be finished and the other will be shelled space. In addition, the existing spaces will be renovated to provide fire suppression code compliance.

Approval is requested to advertise for construction bids and enter into construction contracts.

Kennedy Commons Renovation

OSU-090219

Requesting Agency(s): STUDENT LIFE FACILITIES

Location(s): Kennedy Commons, June L

24,034 ASF / 37,233 GSF Age: 1939

Description/Scope:

This project will renovate Kennedy Commons to replace infrastructure, reconfigure the food service area to create dining stations, create a new public entrance to the building, improve the kitchen and "back of house" space, and renew interior finishes. Student Life will be pursuing LEED Silver certification for this project.

This project is the first phase of the Food Service Master Plan to renovate traditional dining commons to better accommodate the demands of students. The new program for Kennedy Commons will incorporate the "marketplace" concept with several stations having freshly prepared food-to-order.

Approval is requested to advertise for construction bids and enter into construction contracts.

Location(s): Steeb Hall, Carl E	59,987 ASF/102,213 GSF	Age: 1960

Description/Scope:

This project will renovate five student housing facilities in the south campus area and construct two additions. The project will renovate Park, Smith, Steeb, Siebert and Stradley Halls and construct additions between Stradley and Park and between Smith and Steeb. The project will be developed in three phases.

Renovations include providing air conditioning through new individual building units; conversion of community bathrooms to private bathrooms; public area and student room aesthetic improvements. The building additions will include approximately 360 new beds and allows for the redesign of lobby, public, program, and study space to support program and learning objectives.

These improvements and additions support the University conversion to semesters by increasing the percentage of air-conditioned facilities, increasing bed capacity and making progress toward the initiative for student living space for sophomores. The project will seek LEED Silver certification.

Approval is requested to advertise for construction bids and enter into construction contracts. Phase I work is estimated at \$10 million and includes utility relocations, new electric feeder/duct bank, site preparation, asbestos abatement and MEP chiller work. A report will be made to the Board at each phase.

Woodruff Avenue and Tuttle Park Place Rebuilds

OSU-081051

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): Unidentified Street-Col.

ASF/0 GSF Age:

Description/Scope:

This project will provide full depth replacement of deteriorated roadways, curbs, and sidewalks. Construction traffic and buses have adversely impacted the roadways and they now need full structural replacement.

Work on Woodruff/Woody Hayes will be from Tuttle Park Place to High Street. Tuttle Park Place will be replaced from Lane Avenue to 17th.

The streetscapes will be improved as a part of the project. In addition, the sidewalks will be upgraded from asphalt to concrete and will meet ADA requirements at all crossings.

Construction will be completed in two separate phases. The first phase (North Tuttle) will be constructed in the summer of 2010. The North Tuttle phase consists of Tuttle Park Place between Neil Ave and Lane Ave. The remainder of the project is scheduled for construction throughout 2011.

February 5, 2010

(APPENDIX XXIX)

AMENDMENT TO LEASE

**THE OHIO STATE UNIVERSITY—OFFICE OF INFORMATION TECHNOLOGY
OFFICE RELOCATION
2740 AIRPORT DRIVE
COLUMBUS, OHIO 43219**

Description

A building assessment was commissioned for the OSU Kinnear Road Computer complex located at 1121 Kinnear Road and significant roofing and mechanical issues were observed. A review of alternative OSU space confirmed that no suitable accommodations were available. Therefore, several lease proposals were solicited through a competitive process, and a three-year lease of space was negotiated and executed. This lease satisfies the Integrated Physical Planning Liaison Group's direction to re-locate 170 employees from the Kinnear Road Computer complex to suitable office space. The leased facility also aligns with the University's strategic facilities framework by providing significant flexibility, attractive economics and near-ready conditions. Through the proposed amendment, the University can improve its strategic and economic position through an extension of the lease from a three-year term to a five-year term, and the landlord is willing to provide such term extension.

Location

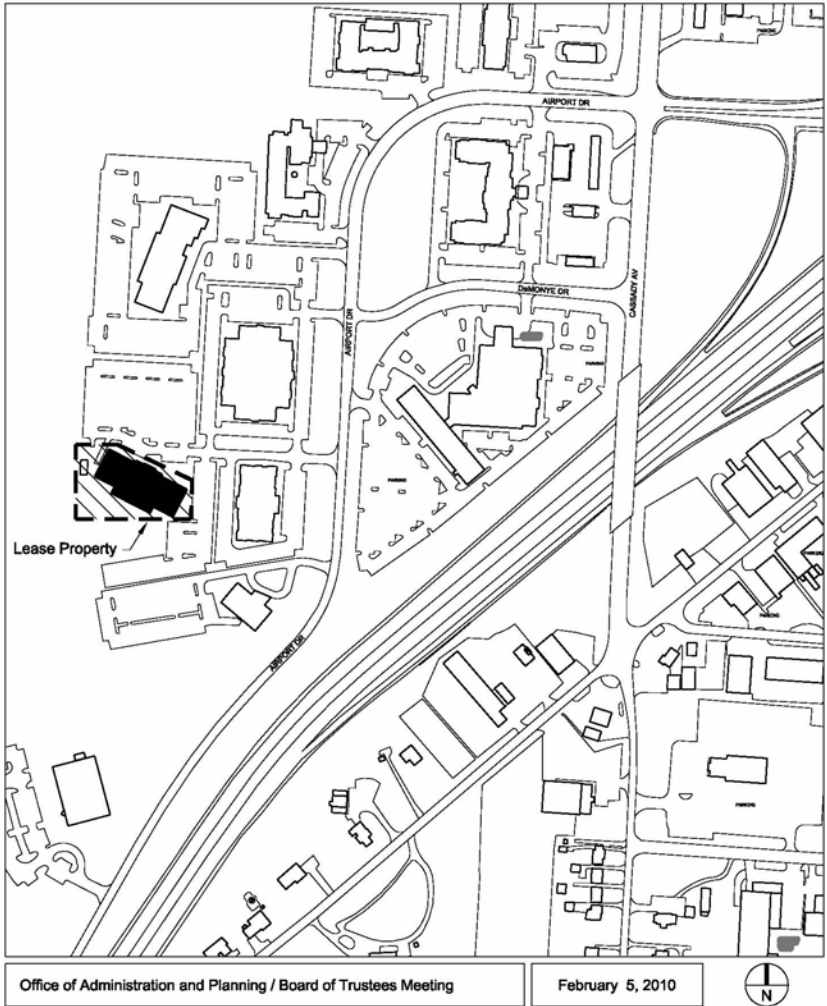

The leased office space is 25,000 square feet and is located on the first and second floors of an office building at 2740 Airport Drive, Columbus Ohio, near the Columbus International Airport.

Terms

When extended, the lease term shall be for a period of five (5) years with one (1) successive five (5) year renewal option. For the first three years, base rent will be \$27,000/month or \$324,000/year. For lease years four and five, base rent will be \$28,000/month or \$336,000/year. Base rent includes operating expenses and taxes associated with the property. The aggregate rental costs for the five-year lease term are approximately \$1.65 million, all of which will be funded by the Office of Information Technology (OIT). Terms and conditions of the lease extension will be negotiated in the best interest of the State of Ohio and the University.

Office Lease Amendment - 2740 Airport Drive, Columbus, OH 43219

- Office of Information Technology Office Lease Amendment
- 2740 Airport Drive - 1st & 2nd Floors

Office of Administration and Planning / Board of Trustees Meeting

February 5, 2010

AMENDMENT TO LONG-TERM LEASE

**JAMESCARE WOMEN'S AMBULATORY ONCOLOGY CENTER
739 WEST THIRD AVENUE COLUMBUS, OHIO 43212**

Location and Description

The 20-year lease/purchase agreement is for the 103,500 square feet building housing the JamesCare Women's Ambulatory Oncology Center which is located at the intersection of Olentangy River Road and W. Third Avenue. This lease was approved at the November 7, 2008

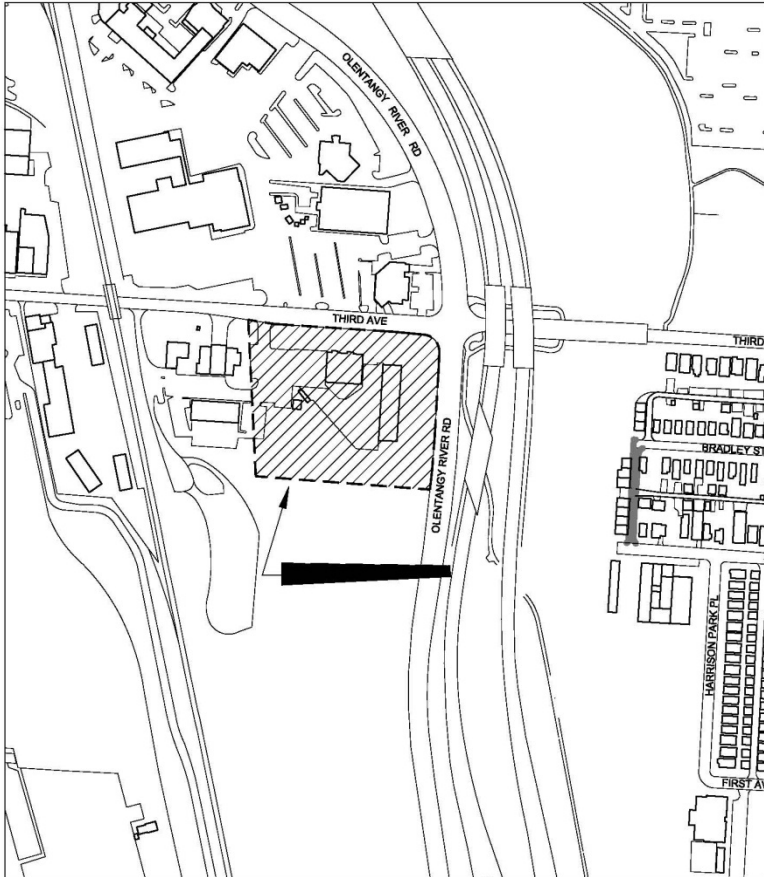

Board of Trustees meeting. The amendment to the lease proposes that an addition be made to the building to provide for a Radiation Oncology Center for the treatment of women's cancers using the latest radiation related therapeutic modalities. This location will satisfy the growing demand for ambulatory oncology care and performance of clinical trials in central Ohio. Patients also will benefit by having access to therapeutic clinical trials, a high-risk breast cancer clinic, leading-edge research of the James, and access to specialized oncology services. The updated business plan identifies the need for additional space at this location to accommodate radiation oncology therapeutic services at this cancer center and demonstrates a positive contribution that will be self-sustaining.

The site is visible from the SR 315 Expressway, has excellent access from SR 315 and Olentangy River Road, and is in close proximity to the James Cancer Hospital. The proposed addition will add approximately 11,400 square feet to the building and it is intended that construction of the addition will take place at the same time as the construction of the initial building. The simultaneous construction will minimize, if not eliminate, any interruption to the use and occupancy of the original 103,500 square feet Center upon completion. All costs including the additional lease payments and operating costs will be the responsibility of the James Cancer Hospital and will be paid over the term of the prior approved lease from operating revenue generated at the location. Fiscal Year 2010 approved funds are being reallocated and carried forward to 2011 to purchase (or lease, using available University lease/financing mechanisms) the first linear accelerator and CT simulator. A second linear accelerator will be purchased in approximately two years, when the patient volume and business plan support it.

Terms of the Lease Amendment

The term of the amendment is the same as the initial lease term, which is a period of 20-years with two five-year lease renewal options, and options to purchase the property at the end of ten years or at the end of the lease term. The proposed increase to the annual base rent, including estimated amortized tenant improvement costs and operating expenses, over the term of the 20-year lease, are estimated to be \$16.5 million. The business plan shows that the facility will generate income that will cover the increase in rent payment and operating expenses over the term of the lease. Final terms and conditions of the lease, as amended, will be negotiated in the best interest of the James, the OSU Medical Center, and the University.

AMENDMENT OF LONG TERM LEASE, 739 WEST THIRD AVENUE

Office of Administration and Planning / Board of Trustees Meeting

February 5, 2010

**APPROVAL OF THE AMENDMENT AND RESTATEMENT OF THE OHIO STATE
UNIVERSITY ALTERNATIVE RETIREMENT PLAN**

Background:

The University's Alternative Retirement Plan (the "ARP") was originally adopted effective February 5, 1999. The ARP is an alternative to participating in OPERS (for staff) or STRS (for faculty). Faculty and staff contribute 10% of their eligible compensation each pay period to the ARP on a pre-tax basis. The University also contributes an amount equal to 14% of the employee's eligible compensation, although OPERS and STRS are permitted to withhold a portion of the University's contribution to offset any negative financial impact on those retirement systems.

The ARP is a "tax-qualified" retirement plan – i.e., participants do not pay taxes on their account balances (including earnings) until those balances are distributed. In order to remain tax-qualified, the ARP must meet certain requirements under the Internal Revenue Code. The ARP must be restated every six years to incorporate IRS rules and guidance issued since the last restatement. As such, the University must update the ARP and submit it to the IRS for a letter of determination by April 30, 2010.

Purpose:

The resolution would approve the amendment and restatement of the ARP and its submission to the IRS. The amended and restated ARP has been approved by the Office of Legal Affairs, the Office of Human Resources and outside counsel. Approval is recommended.

February 5, 2010 meeting, Board of Trustees

**THE OHIO STATE UNIVERSITY
ALTERNATIVE RETIREMENT PLAN**
(Amended and Restated on February 4, 2010 and Effective as of January 1, 2002)

ARTICLE I. OPTIONS

Section 1.1. Exclusive Benefit

This Plan has been executed for the exclusive benefit of the Participants hereunder and their Beneficiaries. This Plan shall be interpreted in a manner consistent with this intent and with the intention of the Employer that this Plan satisfy the pertinent provisions of IRC Section 401(a). Additionally, this Plan shall satisfy the pertinent provisions identified on Appendix A, attached hereto and incorporated herein. Under no circumstances shall funds ever revert to or be used or enjoyed by the Employer, except as provided in Section 9.4.

Section 1.2. No Rights of Employment Granted

The establishment of this Plan shall not be considered as giving any employee the right to be retained in the service of the Employer.

Section 1.3. Effective Date

Option 1

_____ If this is a new Plan, then this Plan may not be effective any earlier than the first day of the Plan Year in which the Plan is adopted.

Option 2

 X This amendment and restatement shall be effective January 1, 2002. (Any amendment and restatement cannot be effective earlier than January 1, 2002.)

Section 1.4. Employer

The "Employer" shall mean The Ohio State University. To adopt this Plan, Employer must be: (1) a state university as defined in the attached Appendix A at Item 1, (ii) the Medical College of Ohio at Toledo, (iii) the Northeastern Ohio Universities College of Medicine, or (iv) a university branch, technical college, state community college, community college or a municipal university (see Item 1 of Appendix A).

Section 1.5. Full-time Employee

Option 1

 X "Full-time Employee" shall mean employees with appointments of seventy-five percent 75%) or greater.

Option 2

_____ "Full-time Employee" shall mean an individual with an appointment to the faculty (instructional staff) or unclassified Administrative Staff of ___% of a full-time employee or greater of at least ___ months duration (with a full-time percentage defined as a minimum of ___ hours worked or appointments of ___ days or ___ months duration).

Option 3

_____ "Full-time Employee" shall mean _____.

February 5, 2010 meeting, Board of Trustees

Section 1.6. Plan Name

The "Plan Name" is The Ohio State University Alternative Retirement Plan.

Section 1.7. Plan Year

A "Plan Year" is the 12-consecutive month period beginning January 1 and ending December 31.

Section 1.8. Provider

Option 1

_____ "Provider" shall mean the Companies listed below selected to provide the Annuity Contract pursuant to Section 5.1 (see Appendix A, Item 2).

_____	_____
_____	_____
_____	_____
_____	_____

Option 2

X "Provider" shall mean, with respect to an individual Participant, the company selected by the Participant to provide the Participant's Annuity Contract pursuant to Section 5.1. Participants may choose among those companies designated by the Ohio Department of Insurance that have entered into a provider agreement with the Employer (see Appendix A, Item 2). A Provider's responsibilities under the Plan, as to any Participant, shall be limited to the Accounts of those Participants investing in Annuity Contracts offered by the respective Provider.

Section 1.9. Year of Service for Vesting (Note: only one option of options one through three may be chosen.)

Option 1

_____ An employee shall be credited with a "Year of Service for Vesting" for each Plan Year during which the employee remains continuously employed by the Employer and which begins after the employee has attained the age of 18.

Option 2

X An employee shall be credited with a "Year of Service for Vesting" on the first anniversary of the 12 consecutive month period beginning on the date the employee first performs an Hour of Service after the employee has attained the age of 18 (employment commencement date), and each anniversary thereof.

Option 3

_____ Not applicable, Participants vest immediately.

Option 4 (may be combined with Option 2)

X Administrative Employees with 9 month contracts and Academic Employees shall be credited with a "Year of Service for Vesting" upon the earlier of: (a) the first

February 5, 2010 meeting, Board of Trustees

anniversary of the 12 consecutive month period beginning on the date the employee first performs an Hour of Service after the employee has attained the age of 18 (employment commencement date) and each anniversary thereof; or (b) the completion of each 9 month academic year or 9 month contract.

Section 1.10. Employer Contributions

Option 1

_____ Employer discretionary contributions shall be made at a rate equal to a uniform percentage of the Compensation of each Participant who is eligible for Employer Contributions. The Board of Trustees of the Employer shall have discretion to vary the contribution rate from Plan Year to Plan Year.

Option 2

X Employer discretionary contributions shall be made at a rate equal to a percentage of the Compensation of each Participant who is eligible for Employer Contributions. A different contribution rate may be set for Academic Employees and Administrative Employees. The Board of Trustees of the Employer shall have discretion to vary the contribution rate from Plan Year to Plan Year.

Option 3

_____ Employer discretionary contributions shall be made at a rate of _____% of the Compensation of each Participant who is eligible for Employer Contributions and who is an Academic Employee, and at a rate of _____% of the Compensation of each Participant who is eligible for Employer Contributions and who is an Administrative Employee. The Board of Trustees of the Employer shall have discretion to vary the contribution rate from Plan Year to Plan Year.

Notwithstanding the above options, effective as of August 1, 2005, Employer contributions shall be made at a rate equal to the percentage of Compensation of each Participant that the Employer would otherwise contribute on behalf of such Participant (had the Participant not made an election as described in Appendix A, Item 3, to participate in the Plan) to the respective plan in ORC Chapter 145, 3307, or 3309, less the mitigating percentage contributed by the Employer to such plan pursuant to ORC Section 3305.06(D).

Section 1.11. Loans to Participants

X The Plan shall not permit loans.

_____ Plan loan provisions are set forth in Section 5.5. The minimum loan amount shall be set forth in the Annuity Contract.

_____ No loan to any borrower can be made to the extent that such loan when added to the outstanding balance of all other loans to the borrower would exceed the lesser of (a) \$50,000 reduced by the excess (if any), of the highest outstanding balance of loans during the one (1) year period ending on the day before the loan is made over the outstanding balance of loans from the Plan on the date the loan is made, or (b) one-half (1/2) the present value of the nonforfeitable accrued benefit of the borrower or, (c) ** _____ (if checked) the total accrued benefit up to \$10,000. **

Section 1.12. Spousal Consent

In the event of the death of a married Participant, the surviving spouse must be the sole Beneficiary unless the surviving spouse has consented in writing to a different election, has acknowledged the effect of such election, and the consent and acknowledgement are witnessed by a duly authorized Provider representative or notary public. Spousal consent shall not be necessary if it is established to the satisfaction of the Provider that there is no spouse, the spouse cannot reasonably be located, or for such other reasons as the Treasury Regulations may prescribe. If the spouse of a Participant is located or if a Participant remarries, it shall be the duty of the Participant to bring that fact to the attention of the Provider. If the Participant so notifies the Provider, the Provider shall then, if applicable, proceed to make available to such spouse the spousal consent procedures described in this Section.

Section 1.13. Employer Account Vesting on Termination

Option 1

A Participant's Employer Account shall be 100% vested at all times.

If a Participant's employment is terminated prior to attaining Normal Retirement Age except for death or Disability, the vested portion of his Employer Account shall be determined in accordance with the following:

Option 2

(5 year cliff)-

<u>Total Service for Vesting</u>	<u>Vested Percentage of Employer Account</u>
Less than 5 years	0%
5 years or more	100%

Option 3

<u>Total Service for Vesting</u>	<u>Vested Percentage of Employer Account</u>
Less than 3 years	0%
3 years	20%
4 years	40%
5 years	60%
6 years	80%
7 years or more	100%

Option 4

(other)

<u>Total Service for Vesting</u>	<u>Vested Percentage of Employer Account</u>
Less than 1 year	0%
1 year	100%

Notwithstanding the above-referenced vesting schedule, vesting shall be at least as rapid as the slowest vesting schedule which is permitted by law in accordance with IRC Section 411(a).

February 5, 2010 meeting, Board of Trustees

Section 1.14. Reserved

Section 1.15. Method of Distribution of Accounts

The Participant shall elect to receive distribution of his or her vested Account in any of the following forms (check all that apply):

X An annuity as permitted by the Annuity Contract:

_____ with a default option of a
Joint and Survivor Annuity or
Pre-Retirement Survivor Annuity as provided in Section 7.3, or

X without a default option of a
Joint and Survivor Annuity or
Pre-Retirement Survivor Annuity.

X a lump-sum distribution,

X an installment distribution to the extent permitted under the Annuity Contract (subject to the limitations of Section 7.2).

ARTICLE II. DEFINITIONS

Section 2.1. Academic Employee

“Academic Employee” shall mean any Full-time Employee who is a member of the faculty of the Employer and is not receiving any benefit, allowance or other payment from the Public Employees Retirement System (see Item 4 of Appendix A), the State Teachers Retirement System (see Item 4 of Appendix A), or the School Employees Retirement System (see Item 4 of Appendix A). In all cases of doubt, the Employer’s Board of Trustees shall make a final determination as to whether an employee is an Academic Employee.

Section 2.2. Account

“Account” shall mean the amount credited to the Employer Account, the Participant Account and, if applicable, the Rollover Account of a Participant or Beneficiary.

Section 2.3. Administrative Employee

“Administrative Employee” shall mean any Full-time Employee who is a member of the administrative staff of the Employer serving in a position in the unclassified civil service (see Item 5 of Appendix A), serving in a position comparable to a position in the unclassified civil service, or, effective as of August 1, 2005, serving in a position in the classified civil service, and is not receiving any benefit, allowance or other payment from the Public Employees Retirement System (see Item 5 of Appendix A), the State Teachers Retirement System (see Item 5 of Appendix A), or the School Employees Retirement System (see Item 5 of Appendix A). In all cases of doubt, the Employer’s Board of Trustees shall make a final determination as to whether an employee is an Administrative Employee.

Section 2.4. Annuity Contract

“Annuity Contract” shall mean any annuity contract or custodial account that satisfies the provisions of IRC Section 401(f), and that is offered by the Provider.

The terms of any Annuity Contract purchased and distributed by the Plan to a Participant or spouse shall comply with the requirements of this Plan.

Section 2.5. Beneficiary

A "Beneficiary" is any person, estate or trust who by operation of law, or under the terms of the Plan, or otherwise, is entitled to receive the Account of a Participant under the Plan. A "designated Beneficiary" is any individual designated or determined in accordance with Section 5.4, excluding any person who becomes a beneficiary by virtue of the laws of inheritance or intestate succession.

Section 2.6. Compensation

"Compensation" shall mean:

(a) If the Participant would be subject to the Public Employees Retirement System had the Participant not made an election to participate in this Plan (see Item 6 of Appendix A), all salary, wages, and other earnings paid to the Participant. The salary, wages, and other earnings shall be determined prior to determination of the amount required to be contributed by the Participant under Section 4.1 and without regard to whether any of the salary, wages, or other earnings are treated as deferred income for federal income tax purposes.

(1) Compensation includes the following:

(i) Payments made by the Employer in lieu of salary, wages, or other earnings for sick leave, personal leave, or vacation used by the Participant;

(ii) Payments made by the Employer for sick leave, personal leave, and vacation leave accrued, but not used if the payment is made during the year in which the leave is accrued, except that payments made pursuant to ORC Section 124.383 or ORC Section 124.386 are not Compensation;

(iii) Allowances paid by the Employer for full maintenance, consisting of housing, laundry, and meals, as certified to the public employees retirement board by the Employer or the head of the department that employs the Participant;

(iv) Fees and commissions paid under ORC Section 507.09;

(v) Payments that are made under a disability leave program sponsored by the Employer and for which the Employer is required by ORC Section 145.296 to make periodic Employer and employee contributions; and

(vi) Amounts included pursuant to Divisions (K)(3) and (Y) of ORC Section 145.01.

(2) Compensation does not include any of the following:

(i) Fees and commissions, other than those paid under ORC Section 507.09, paid as sole compensation for personal services and fees and commissions for special services over and above services for which the Participant receives a salary;

(ii) Amounts paid by the Employer to provide life insurance, sickness, accident, endowment, health, medical, hospital, dental, or surgical coverage, or other insurance for the Participant or the Participant's family, or amounts paid by the Employer to the Participant in lieu of providing the insurance;

(iii) Incidental benefits, including lodging, food, laundry, parking, or services furnished by the Employer, or use of the Employer's property or equipment, or amounts paid by the Employer to the Participant in lieu of providing the incidental benefits;

(iv) Reimbursement for job-related expenses authorized by the Employer, including moving and travel expenses and expenses related to professional development;

(v) Payments for accrued, but unused sick leave, personal leave, or vacation that are made at any time other than the year in which the sick leave, personal leave, or vacation was accrued;

(vi) Payments made to or on behalf of the Participant that are in excess of the annual compensation that may be taken into account by the Plan under IRC Section 401(a)(17);

(vii) (A) Effective as of January 1, 2002 through January 31, 2002 and effective as of October 1, 2002, payments made to the Participant under Division (B), (C) or (E) of ORC Section 5923.05, Section 4 of Substitute Senate Bill No.3 of the 119th Ohio General Assembly, Section 3 of Amended Substitute Senate Bill No. 164 of the 124th Ohio General Assembly, or Amended Substitute House Bill No. 405 of the 124th Ohio General Assembly; and (B) effective as of February 1, 2002 through September 30, 2002, payments made to the Participant under Division (B) or (D) of ORC Section 5923.05 or Section 4 of Substitute Senate Bill No.3 of the 119th Ohio General Assembly; and

(viii) Anything of value received by the Participant that is based on or attributable to retirement or an agreement to retire.

(b) If the Participant would be subject to the State Teachers Retirement System had the Participant not made an election to participate in this Plan (see Item 6 of Appendix A), all salary, wages, and other earnings paid to the Participant by reason of the Participant's employment, including compensation paid pursuant to a supplemental contract. The salary, wages, and other earnings shall be determined prior to determination of the amount required to be contributed by the Participant under Section 4.1 and without regard to whether any of the salary, wages, or other earnings are treated as deferred income for federal income tax purposes

(1) Compensation does not include any of the following:

(i) Payments for accrued but unused sick leave or personal leave, including payments made under a plan established pursuant to ORC Section 124.39 or any other similar plan established by the Employer;

(ii) Payments made for accrued but unused vacation leave, including payments made pursuant to ORC Section 124.13 or a similar plan established by the Employer;

(iii) Payments made for vacation pay covering concurrent periods for which other salary, compensation, or benefits under ORC Chapter 3307 are paid;

(iv) Amounts paid by the Employer to provide life insurance, sickness, accident, endowment, health, medical, hospital, dental, or surgical coverage, or other insurance for the Participant, or the Participant's family, or amounts paid by the Employer to the Participant in lieu of providing the insurance;

(v) Incidental benefits, including lodging, food, laundry, parking, or services furnished by the Employer, use of the Employer's property or equipment, and reimbursement for job-related expenses authorized by the Employer, including moving and travel expenses and expenses related to professional development;

(vi) Payments made by the Employer in exchange for a Participant's waiver of a right to receive any payment, amount, or benefit described in Division (L)(2) of ORC Section 3307.01;

(vii) Payments by the Employer for services not actually rendered;

(viii) Any amount paid by the Employer as a retroactive increase in salary, wages, or other earnings that meets the requirements of ORC Section 3307.01(L)(2)(h)(i), (ii), (iii), or (iv);

(ix) Payments made to or on behalf of the Participant that are in excess of the annual compensation that may be taken into account by the Plan under IRC Section 401(a)(17);

(x) Payments made to the Participant under Division (B), (C) or (E) of ORC Section 5923.05, Section 4 of Substitute Senate Bill No. 3 of the 119th Ohio General Assembly, Section 3 of Amended Substitute Bill No. 164 of the 124th Ohio General Assembly or Amended Substitute House Bill No. 405 of the 124th Ohio General Assembly; and

(xi) Anything of value received by the Participant that is based on or attributable to retirement or an agreement to retire.

(c) If the Participant would be subject to the School Employees Retirement System had the Participant not made an election (see Item 6 of Appendix A), all salary, wages, and other earnings paid to a Participant by reason of employment. The salary, wages, and other earnings shall be determined prior to determination of the amount required to be contributed by the Participant under Section 4.1 and without regard to whether any of the salary, wages, or other earnings are treated as deferred income for federal income tax purposes.

(1) Compensation does not include any of the following:

(i) Payments for accrued but unused sick leave or personal leave, including payments made under a Plan established pursuant to ORC Section 124.39 or any other similar plan established by the Employer;

(ii) Payments made for accrued but unused vacation leave, including payments made pursuant to ORC §124.13 or a similar plan established by the Employer;

(iii) Payments made for vacation pay covering concurrent periods for which other salary or compensation is also paid;

(iv) Amounts paid by the Employer to provide life insurance, sickness, accident, endowment, health, medical, hospital, dental, or surgical coverage, or other insurance for the Participant or the Participant's family, or amounts paid by the Employer to the Participant in lieu of providing the insurance;

(v) Incidental benefits, including lodging, food laundry, parking, or services furnished by the Employer, use of the Employer's property or equipment, and reimbursement for job-related expenses authorized by the Employer, including moving and travel expenses and expenses related to professional development;

(vi) Payments made to or on behalf of the Participant that are in excess of the annual compensation that may be taken into account by the Plan under IRC Section 401(a)(17);

(vii) Payments made to the Participant while on leave for military duty under Division (B), (C) or (E) of ORC Section 5923.05, Section 4 of Substitute Senate Bill No. 3 of the 119th Ohio General Assembly, Section 3 of Amended Substitute Senate Bill No. 164 of the 124th Ohio General Assembly, or Amended Substitute House Bill No. 405 of the 124th Ohio General Assembly; and

(viii) Anything of value received by the Participant that is based on or attributable to retirement or an agreement to retire.

Notwithstanding the foregoing, Compensation shall not be reduced by the amount of exclusions that are not currently includable in the Participant's gross income by reason of the application of IRC Sections 125, 402(e)(3), 403(b), and 457, or by reason of the application of IRC Section 414(h)(2).

An employee who has satisfied the eligibility requirements for Employer Contributions during a Plan Year shall be entitled to such contributions only with respect to Compensation earned on or after the date he becomes a Participant.

For Plan Years beginning before January 1, 2002, the annual Compensation of each Participant taken into account for determining all benefits provided under the Plan for that Plan Year shall not exceed \$150,000, as adjusted for increases in the cost-of-living in accordance with IRC Section 401(a)(17)(B). The cost-of-living adjustment in effect for a calendar year applies to any determination period beginning in such calendar year.

For any Plan Year beginning after December 31, 2001, the annual Compensation of each Participant taken into account in determining allocations shall not exceed \$200,000, as adjusted for cost-of-living increases in accordance with IRC Section 401(a)(17)(B). Annual Compensation means Compensation during the Plan Year or such other consecutive 12-month period over which compensation is otherwise determined under the Plan (the determination period). The cost-of-living adjustment in effect for a calendar year applies to annual Compensation for the determination period that begins with or within such calendar year. If Compensation for any prior determination period is taken into account in determining a Participant's allocations for the current Plan Year, the Compensation for such prior determination period is subject to the applicable annual Compensation limit in effect for that prior period.

If a determination period consists of fewer than 12 months, the annual compensation limit is an amount equal to the otherwise applicable annual compensation limit multiplied by a fraction, the numerator of which is the number of months in the short determination period, and the denominator of which is 12.

Section 2.7. Disabled or Disability

"Disabled or Disability" shall mean the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment that can be expected to result in death or to be of long continued and indefinite duration, provided that such Disability occurs while the Participant is an Eligible Employee of the Employer. A Participant shall be considered Disabled only if the permanence and degree of such impairment is supported by medical evidence. Such determinations shall be made by each Provider.

Section 2.8. Eligible Employee

"Eligible Employee" shall mean (a) any Academic or Administrative Employee whose employment as an Academic or Administrative Employee commences on or after the Effective Date, (b) any Administrative Employee who has less than five years total service credit in the Public Employees Retirement System or School Employees Retirement System on March 31, 1998, and (c) any Academic Employee who has less than five years total service credit in the State Teachers Retirement System on the 30th day of June preceding the Effective Date; provided however, an Academic or Administrative Employee previously employed by a Public Institution of Higher Education (including the Employer) (see Item 7 of Appendix A), will not be an Eligible Employee unless: 1) such employee has had a One Year Break in Service with respect to such previous employer; 2) such employee participated in an alternative retirement plan (see Item 7 of Appendix A) while employed by such previous employer; or 3) such employee was employed by such previous employer for less than ninety (90) days.

Effective April 1, 2001, "Eligible Employee" shall mean (a) any Academic or Administrative Employee whose employment as an Academic or Administrative Employee commences or recommences (after such Employee has had a One Year Break in Service with respect to such Employee's most recent previous employment with the Employer) on or after the initial date on which this Plan is adopted, (b) any Administrative Employee who has less than five years total service credit in the Public Employees Retirement System or School Employees Retirement System on March 31, 1998, and (c) any Academic Employee who has less than five years of total service credit in the State Teachers Retirement System on the 30th day of June preceding the initial date on which the Plan is adopted. Notwithstanding the foregoing, "Eligible Employee" automatically shall include (1) any employee who participated in an alternative retirement plan under the employee's last employment position with the Employer (and who has not incurred a One Year Break in Service) and who transfers, or is transferred, to an employment position with the Employer for which an alternative

retirement plan is not available from that Employer or (2) any employee whose employment with the Employer terminated before the employee had completed one hundred twenty (120) days of service with the Employer and such Employee had not, or had not been deemed to have, elected to participate in the Public Employees Retirement System, School Employees Retirement System or State Teachers Retirement System (collectively, "State Retirement System") as applicable, within such Employee's previous employment with the Employer.

Effective as of August 1, 2005, "Eligible Employee" shall mean (a) any Full-time Employee whose employment commences on or after August 1, 2005, or (b) any Full-time Employee who, as of August 1, 2005, has less than five years of total service credit in the State Teachers Retirement System, the Public Employees Retirement System, or the School Employees Retirement System, unless such person had an opportunity to make an election as an Academic Employee or an Administrative Employee to participate in an alternative retirement plan sponsored by the Employer. Notwithstanding the foregoing, "Eligible Employee" automatically shall include (1) any employee who participated in an alternative retirement plan in the employee's last employment position with the Employer (and who has not incurred a One Year Break in Service) and who transfers, or is transferred, to an employment position with the Employer for which an alternative retirement plan is not available from that employer or (2) any employee whose employment with the Employer terminates while the employee is participating in an alternative retirement plan and the employee recommences employment with the Employer before the employee has had a One Year Break in Service regardless of the employee's employment position with the Employer upon the employee's return or (3) any Full-time Employee whose previous employment with the Employer terminated before the employee had completed one hundred twenty (120) days of service with the Employer and such Employee had not, or had not been deemed to have, elected to participate in the Public Employees Retirement System, School Employees Retirement System or State Teachers Retirement System (collectively, "State Retirement System") as applicable, within such Employee's previous employment with the Employer.

Section 2.9. Employer Account

The "Employer Account" is the separate account maintained for each Participant to which all Employer Contributions (including Forfeitures, if applicable) shall be allocated.

Section 2.10. Forfeiture

"Forfeiture" refers to the amount of the non-vested portion of a Participant's Employer Account following a Participant's termination of employment with the Employer.

Section 2.11. Hour of Service

"Hour of Service" means each hour for which an employee is paid or entitled to payment for the performance of duties for the Employer.

For purposes of determining an employee's initial or continued eligibility to participate in the Plan or the nonforfeitable interest in the Participant's account balance derived from Employer Contributions, an employee will receive credit for the aggregate of all time period(s) commencing with the employee's first day of employment or reemployment and ending on the date a One Year Break in Service begins. The first day of employment or reemployment is the first day the employee performs an Hour of Service.

February 5, 2010 meeting, Board of Trustees

Section 2.12. IRC

“IRC” refers to the Internal Revenue Code of 1986, as amended.

Section 2.13. Joint and Survivor Annuity

A “Joint and Survivor Annuity” is an immediate annuity for the life of the Participant with a survivor annuity for the life of the Participant’s Beneficiary which is not less than 50% and not more than 100% of the amount of the annuity which is payable during the joint lives of the Participant and the Participant’s Beneficiary and which is the actuarial equivalent of the Participant’s vested Account. The percentage of the survivor annuity under the Plan shall be elected by the Participant subject to the annuity options available under the Annuity Contract.

Section 2.14. Leave of Absence

A “Leave of Absence” shall refer to that period during which the Participant is absent without Compensation and for which the Employer, in its sole discretion has determined the Participant to be on a “Leave of Absence” instead of having terminated his or her employment. However, such discretion of the Employer shall be exercised in a nondiscriminatory manner. In all events, a Leave of Absence by reason of service in the armed forces of the United States shall end no later than the time at which a Participant’s reemployment rights as a member of the armed forces cease to be protected by law, except that if the Participant resumes employment with the Employer prior thereto, the Leave of Absence shall end on such date of resumption of employment. The date that the Leave of Absence ends shall be deemed the Termination Date if the Participant does not resume employment with the Employer. In determining a Year of Service for Vesting, all such Leaves of Absence shall be considered to be periods of continuous employment with the Employer.

Section 2.15. Limitation Year

The “Limitation Year” for purposes of IRC Section 415 shall mean the Plan Year.

Section 2.16. Nonelective Contributions

“Nonelective Contributions” shall be those contributions made by the Participant pursuant to Section 4.1.

Section 2.17. Normal Retirement Age

The “Normal Retirement Age” shall be the time at which the Participant attains 65 years of age.

Section 2.18. One Year Break in Service

A “One Year Break in Service” or “Break in Service” is a Period of Severance of at least 365 consecutive days.

Section 2.19. Participant

A “Participant” shall refer to every employee or former employee who has met the applicable participation requirements of Article III.

Section 2.20. Participant Account

The "Participant Account" is the account to which all Nonelective and Voluntary Contributions, by the Participant shall be allocated, if applicable. Separate accounts within the Participant Account will be maintained for the Nonelective Contributions and the Voluntary Contributions of each Participant.

Section 2.21. Period of Severance

A "Period of Severance" is a continuous period of time during which the employee is not employed by the Employer. Such period begins on the date the employee retires, resigns or is discharged. In the case of an individual who is absent from work for maternity or paternity reasons, the 12-consecutive month period ending on the first anniversary of the first date of such absence shall not constitute a Break in Service. For purposes of this paragraph, an absence from work for maternity or paternity reasons means an absence: (1) by reason of the pregnancy of the individual, (2) by reason of the birth of a child of the individual, (3) by reason of the placement of a child with the individual in connection with the adoption of such child by such individual, or (4) for purposes of caring for such child for a period beginning immediately following such birth or placement.

Section 2.22. Plan

"Plan" refers to this Plan; and for purposes of the IRC this Plan shall be considered and administered as a "profit-sharing plan."

Section 2.23. Pre-Retirement Survivor Annuity

A "Pre-Retirement Survivor Annuity" is a survivor annuity for the life of the surviving Beneficiary of the Participant which is the actuarial equivalent of the Participant's vested Account.

Section 2.24. Retirement

"Retirement" refers to the termination of employment of a Participant who has attained at least the Normal Retirement Age. The Participant may work beyond Normal Retirement Age, in which case Employer Contributions, Nonelective Contributions, and Voluntary Contributions shall continue to be allocated to the Participant's Account.

Section 2.25. ORC

"ORC" refers to the Ohio Revised Code, as amended. The Sections of the ORC may be further set out on Appendix A.

Section 2.26. Rollover Contribution

"Rollover Contribution" means those amounts transferred to this Plan as are described in Sections 4.5 and 7.9.

Section 2.27. Termination Date

The "Termination Date" shall be the date on which the earliest of the following events occurs: (a) a Participant's Retirement, (b) a Participant's termination of employment as a result of Disability, (c) a Participant's death, or (d) a Participant's termination of employment for any other reason.

February 5, 2010 meeting, Board of Trustees

Section 2.28. Total Service for Vesting

“Total Service for Vesting” shall mean the sum of each separate Year of Service for Vesting credited to the Participant. In the case of a Participant who has a One Year Break in Service, all Years of Service for Vesting after such Break in Service will be disregarded for the purpose of vesting the Employer Account that accrued before such breaks, and all pre-break service will be disregarded for the purposes of vesting the Employer Account that accrues after such breaks.

Section 2.29. Voluntary Contribution

“Voluntary Contribution” shall mean those contributions made by a Participant pursuant to Section 4.3.

ARTICLE III. ELIGIBILITY TO PARTICIPATE

Section 3.1. Initial Entry

All Eligible Employees as of the date the Board of Trustees of the Employer establishes the Plan (the “Establishment Date”) shall have a period of 120 days from such date in which to elect to participate in the Plan. Academic or Administrative Employees making such election on forms prescribed by the Employer shall participate in the Plan as of the Establishment Date. An Eligible Employee whose employment commences after the Establishment Date (or an existing employee who becomes an Eligible Employee after the Establishment Date) shall have a period of 90 days (120 days, effective April 1, 2001) from the date upon which the employee first is credited with an Hour of Service in which to elect participation in the Plan. Such election shall be effective on the Eligible Employee’s employment commencement date and shall be irrevocable at the end of the 90-day period for Eligible Employees commencing employment prior to April 1, 2001 and shall be irrevocable when made for Eligible Employees commencing employment on or after April 1, 2001. Participants shall remain in the Plan as long as they are Eligible Employees. Effective April 1, 2001, Participants shall remain in the Plan as long as they are employees. Eligible Employees failing to elect participation in the Plan may not subsequently elect participation unless they have had a One Year Break in Service and are reemployed as Eligible Employees. For existing employees who became Eligible Employees due to a change in position, references in this section to employment commencement date and to the date upon which the employee is first credited with an Hour of Service shall mean the date upon which the employee became an Eligible Employee.

Section 3.2. Reclassification of Eligible Employee

If a Participant is reclassified into a position in which the Participant is no longer an Academic Employee or an Administrative Employee, such Participant’s participation in the Plan shall terminate. Such termination shall be effective upon the date of reclassification. Effective April 1, 2001, a Participant will continue to participate in the Plan as long as the Participant remains an employee of the Employer.

Section 3.3. Resumption of Participation

In the event a Participant is re-employed prior to incurring a One-Year Break in Service or an employee whose participation was previously terminated pursuant to Section 3.2 is reclassified as an Academic or Administrative Employee prior to incurring a One-Year Break in Service, such employee will participate in the Plan immediately upon becoming an Academic or Administrative Employee of the Employer.

Effective as of August 1, 2005, in the event a Participant is re-employed prior to incurring a One-Year Break in Service or an employee whose participation was previously terminated pursuant to Section 3.2 is reclassified as an Eligible Employee prior to incurring a One-Year Break in Service, such employee will participate in the Plan immediately upon becoming an Eligible Employee of the Employer.

Section 3.4. Eligibility Determinations and Employer Powers

The Employer shall have full power (a) to interpret and construe this Plan in a manner consistent with its terms and provisions and with IRC Section 401 and other applicable qualified plan provisions of the IRC, and to establish rules and procedures conforming to those provisions; (b) to determine all questions of eligibility and of the status and rights of Participants; (c) to determine the amounts to be contributed to each Participant's Account; and (d) to employ such agents, attorneys, actuaries, accountants, auditors, investment counsel, and clerical assistants as it may deem necessary. In all such cases the Employer's determination shall be final and conclusive upon all persons. It is recognized that unusual circumstances may occur and questions may arise that are not specifically covered by any provision of this Plan, and the Employer shall have the right to resolve all such questions.

Notwithstanding the above, the Employer's power and responsibility under this Plan shall not extend to, nor have any control over, those responsibilities and duties of the Provider.

ARTICLE IV. CONTRIBUTIONS

Section 4.1. Nonelective Contributions

An Eligible Employee who becomes a Participant under this Plan in accordance with the provisions of Article III shall be deemed to have authorized the Employer to deduct from such Participant's Compensation, prior to its payment, a certain percentage of such Participant's Compensation, as a Nonelective Contribution to the Plan. Such contributions shall be credited to the Participant Account.

The Nonelective Contribution percentage shall equal the percentage of the Participant's Compensation which, but for the election to participate in this Plan, would have otherwise been contributed to the State Retirement System that applies to the Participant's position; provided that the Nonelective Contribution percentage shall not be less than three percent.

The amount of the Nonelective Contribution shall be picked up by the Participant's Employer as provided for in IRC Section 414(h)(2). The Employer may choose to apply for approval from the National Office of the Internal Revenue Service concerning the applicability of IRC Section 414(h)(2). The Participant shall not have the option to receive this picked up contribution directly and such contributions shall be paid by the Employer directly to the respective Provider selected by the Participant.

Section 4.2. Employer Contributions

Employer Contributions shall be made as set forth in Section 1.10. Such contributions shall be credited to the Employer Account.

Notwithstanding Section 4.1 and the preceding paragraph of this Section 4.2, in no event shall the amount contributed under Sections 4.1 and 4.2 be less than the amount necessary to qualify the Plan as a state retirement system pursuant to IRC Section 3121(b)(7) and the Treasury Regulations adopted thereunder.

Each Participant will share in Employer Contributions for the period beginning on the date the Participant commences participation under the Plan and ending on the date on which such Participant severs employment with the Employer or is no longer a member of an eligible class of employees.

Section 4.3. Voluntary Contributions

Participants shall be permitted to make voluntary non-deductible employee contributions to the Plan. Such contributions shall be credited to the Participant Account. Effective April 1, 2001, except as required by Ohio law, voluntary non-deductible employee contributions shall no longer be permitted. Voluntary non-deductible employee contributions made prior to April 1, 2001 shall be held and administered in accordance with the terms of the Plan.

Section 4.4. Corrective Distributions

If the limits under IRC Section 415 are exceeded for any taxable year, and such excess is a result of a reasonable error in estimating a Participant's annual Compensation or from such other facts and circumstances that are permitted under any regulation or other ruling of the U.S. Department of the Treasury, then the Account of the Participant will be adjusted by the amount of the Employer Contributions for the next Limitation Year in accordance with Section 5.3(a)(4).

Section 4.5. Rollover Contributions

(a) Any Participant may make a Rollover Contribution to this Plan; provided, however, that the plan from which the funds are to be transferred must permit the transfer to be made, and provided, further, the Provider is reasonably satisfied that such transfer will not jeopardize the tax exempt status of this Plan or create adverse tax consequences for the Employer. Rollover Contributions shall be made by delivery of such amount to the respective Provider. All Rollover Contributions must be in cash or property satisfactory to the Provider, whose decision in this regard shall be final.

(b) If the Provider accepts such transfer of funds, it shall allocate them to the appropriate Participant Account of the transferring Participant, or to a separate or segregated Account established for such purpose ("Rollover Account"). If the funds are allocated to a Rollover Account, they shall be invested separately, and any appreciation, depreciation, gain, or loss with respect to the Rollover Account, and any related expenses, shall be allocated to such Rollover Account. For all other purposes such funds shall be treated as if they had been allocated to the Participant's Account.

(c) Rollover Contributions shall not be considered to be Participant contributions for the purpose of calculating the limitations under Section 5.3.

(d) Any amount that is credited to a Participant's Account pursuant to a Rollover Contribution or transfer under Section 4.6 of this Plan shall be one hundred percent (100%) vested and nonforfeitable at all times. In all other respects, the portion of a Participant's Account attributable to such a Rollover Contribution or transfer shall be subject to the terms of this Plan.

Section 4.6. Transfers from a Plan of the Employer

Any Participant who has participated in a plan under IRC Section 401(a) or 403(a) attributable to such employee's current employment with the Employer may elect to transfer all or a portion of the amount accumulated under such other plan to this Plan provided such transfer may be effected in a manner consistent with the terms of such other plan(s) as well as the terms of this Plan. Such transfer shall only be permitted if such transfer qualifies as a tax-free transfer under generally accepted interpretations of the IRC. The portion of a Participant's Account attributable to such a transfer shall be subject to the terms of this Plan as if the contributions from which the transferred amount are derived were made under this Plan.

ARTICLE V. ADMINISTRATION OF ACCOUNTS

Section 5.1. Investments

The amounts allocated to the Employer and Participant Accounts shall be invested in Annuity Contracts for Participants provided by the respective Provider. The terms and conditions of such Annuity Contracts shall be considered part of, and shall be construed as having been incorporated into the Plan. Participants will invest their Accounts based upon the investment options available under the Annuity Contracts and may make their investment selections pursuant to the terms and conditions contained in the respective Annuity Contracts. If any provision of an Annuity Contract conflicts with the Plan, the terms of the Plan shall control.

Section 5.2. Intra-Plan Transfers

Subject to the Provider's rules for transfers and the ORC, a Participant may specify that a part or all of such Participant's Account may be transferred among different investment options offered under such Annuity Contract or may be transferred to the Annuity Contract of another authorized Provider. Transfers between Providers are subject to each Provider's rules for such transfers and shall be permitted only once per year, effective the first day of the Plan Year.

Effective as of August 1, 2005, if a Participant makes an election to change to a new Provider, a Participant may specify that a part or all of such Participant's account be transferred to the new Provider. Provided however, a Provider is not required to immediately transfer any part of the Participant's account invested at the Participant's election in a fixed annuity account if the contract under which the investment was made permits the Provider to make such a transfer over a period of time not exceeding ten years and the contract was filed with and approved by the Ohio Department of Insurance (see Item 8 of Appendix A).

Section 5.3. Limitations on Allocations to each Participant

(a)

(1) If the Participant does not participate in, and has never participated in, another qualified plan maintained by the Employer or a welfare benefit fund, as defined in IRC Section 419(e) maintained by the Employer, or an individual medical account, as defined in IRC Section 415(1)(2), maintained by the Employer, which provides an annual addition as defined in Paragraph (c)(1) of this Section 5.3, the amount of annual additions which may be credited to the Participant's account for any Limitation Year will not exceed the lesser of the maximum permissible amount or any other limitations contained in this Plan. If the Employer Contribution that would otherwise be contributed or allocated to the Account of the Participant would cause the annual additions for the Limitation Year to

exceed the maximum permissible amount, the amount contributed or allocated will be reduced so that the annual additions for the Limitation Year will equal the maximum permissible amount, and such reduction shall be contributed, if possible, in a future Limitation Year.

(2) Prior to determining the Participant's actual Compensation for the Limitation Year, the Employer may determine the maximum permissible amount for a Participant on the basis of a reasonable estimation of the Participant's Compensation for the Limitation Year, uniformly determined for all Participants similarly situated.

(3) As soon as administratively feasible after the end of the Limitation Year, the maximum permissible amount for the Limitation Year will be determined on the basis of the Participant's actual Compensation for the Limitation Year.

(4) If, pursuant to Paragraph (a)(3) of this Section 5.3 or as a result of an allocation of Forfeitures, there is an excess amount, the excess will be disposed of as follows:

(i) Any Voluntary Contributions (plus attributable earnings), to the extent they would reduce the excess amount, will be returned to the Participant.

(ii) If after the application of Subparagraph (i) an excess amount still exists, and the Participant is covered by the Plan at the end of the Limitation Year, the excess amount in the Participant's Account will be used to reduce Employer Contributions (including any allocation of Forfeitures) for such Participant in the next Limitation Year, and each succeeding Limitation Year if necessary.

(iii) If after the application of Subparagraph (i) an excess amount still exists, and the Participant is not covered by the Plan at the end of a Limitation Year, the excess amount will be held unallocated in a suspense account. The suspense account will be applied to reduce Employer Contributions for all remaining Participants in the next Limitation Year, and each succeeding Limitation Year if necessary.

(iv) If a suspense account is in existence at any time during a Limitation Year pursuant to this Section, it will be administered in accordance with the Provider's investment policies. If a suspense account is in existence at any time during a particular Limitation Year, all amounts in the suspense account must be allocated and reallocated to Accounts of Participants before any Employer or Participant contributions may be made to the Plan for that Limitation Year. Excess amounts may not be distributed to Participants or former Participants.

(b)

(1) This Subsection (b) applies if, in addition to this Plan, the Participant is covered under another qualified defined contribution plan maintained by the Employer, a welfare benefit fund, as defined in IRC Section 419(e), maintained by the Employer, or an individual medical account, as defined in IRC Section 415(1)(2), maintained by the Employer, which provides an annual addition as defined in paragraph (c)(i) of this Section 5.3, during any Limitation Year. The annual additions which may be

credited to the Account of a Participant under the other plans and welfare benefit funds for the same Limitation Year will not exceed the maximum permissible amount reduced by the annual additions credited to the Account of a Participant under this Plan for any such Limitation Year. If the annual additions with respect to the Participant under this Plan are equal to or greater than the maximum permissible amount, no amount will be contributed or allocated to the account of the Participant under such other defined contribution plans and welfare benefit funds for the Limitation Year.

(2) Prior to determining the Participant's actual Compensation for the Limitation Year, the Employer may determine the maximum permissible amount for a Participant in the manner described in Paragraph (a)(2).

(3) As soon as administratively feasible after the end of the Limitation Year, the maximum permissible amount for the Limitation Year will be determined on the basis of the Participant's actual Compensation for the Limitation Year.

(4) If, pursuant to Paragraph (b)(3) or as a result of the allocation of Forfeitures, a Participant's annual additions under this Plan and such other plans would result in an excess amount for a Limitation Year, the excess amount will be deemed to consist of the annual additions last allocated, except that annual additions attributable to a welfare fund or individual medical account will be deemed to have been allocated first regardless of the actual allocation date.

(5) If an excess amount was allocated to a Participant on an allocation date of this Plan which coincides with an allocation date of another plan, the excess amount attributed to this Plan will be the product of:

(i) The total excess amount allocated as of such date, times

(ii) The ratio of (a) the annual additions allocated to the Participant for the Limitation Year as of such date under this Plan to (b) the total annual additions allocated to the Participant for the Limitation Year as of such date under this and all other qualified defined contribution plans.

(6) Any excess amount attributed to this Plan will be disposed in the manner described in paragraph (a)(4) of this Section 5.3.

(c) For purposes of this Section 5.3, the following words and terms shall have the meanings indicated:

(1) "Annual additions." Annual additions means the sum of the following credited to the Account of a Participant for the Limitation Year:

(i) Employer Contributions,

(ii) Participant contributions (Nonelective and Voluntary Contributions),

(iii) Forfeitures, and

(iv) amounts allocated, after March 31, 1984, to an individual medical account, as defined in IRC section 415(1)(2), which is part of a pension or annuity plan maintained by the

Employer are treated as annual additions to a defined contribution plan. Also amounts derived from contributions paid or accrued after December 31, 1985, in taxable years ending after such date, which are attributable to post-retirement medical benefits, allocated to the separate account of a key employee, as defined in IRC Section 419A(d)(3), under a welfare benefit fund, as defined in IRC Section 419(e), maintained by the Employer are treated as annual additions to a defined contribution plan.

For this purpose, any excess amount applied under paragraphs (a)(4) or (b)(6) of this Section 5.3 in the Limitation Year to reduce Employer Contributions will be considered annual additions for such Limitation Year.

(2) "Compensation." Compensation means wages as defined in IRC Section 3401(a) and all other payments of Compensation to an employee by the Employer (in the course of the Employer's trade or business) for which the Employer is required to furnish the employee a written statement under IRC Sections 6041(d) and 6051(a)(3) and 6052. Compensation must be determined without regard to any rules under IRC Section 3401(a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in IRC Section 3401(a)(2)).

For Limitation Years beginning after December 31, 1997, for purposes of applying the limitations of this section, Compensation paid or made available during such Limitation Year shall include any elective deferral (as defined in IRC Section 402(g)(3)), and any amount which is contributed or deferred by the Employer at the election of the employee and which is not includable in the gross income of the employee by reason of IRC Section 125 or 457.

For Limitation Years beginning on and after January 1, 2001, for purposes of applying the limitations described in Section 5.3 of the Plan, Compensation paid or made available during such Limitation Years shall include elective amounts that are not includable in gross income of the employee by reason of Section 132(f)(4).

For Limitation Years beginning after December 31, 1991, for purposes of applying the limitations of this Section 5.3, Compensation for a Limitation Year is the Compensation actually paid or made available during such Limitation Year.

Notwithstanding the preceding sentence, Compensation for a Participant in a defined contribution plan who is permanently and totally disabled (as defined in IRC Section 22(e)(3)) is the Compensation such Participant would have received for the Limitation Year before becoming permanently and totally disabled; for Limitation Years beginning before January 1, 1997, but not for Limitation Years beginning after December 31, 1996, such imputed Compensation for the disabled Participant may be taken into account only if the Participant is not a Highly Compensated Employee (as defined in IRC Section 414(q)) and contributions made on behalf of such Participant are nonforfeitable when made.

(3) "Defined contribution dollar limitation." The defined contribution dollar limitation is \$40,000, as adjusted under IRC Section 415(d).

(4) "Maximum Permissible Amount." For Limitation Years beginning on or after January 1, 2002, maximum permissible amount means

the lesser of (a) 100 percent of the Participant's Compensation, within the meaning of IRC Section 415(c)(3), for the Limitation Year, or (b) \$40,000 as adjusted for increases in the cost-of-living under IRC Section 415(d).

Section 5.4. Designation of Beneficiary

Each Participant may, pursuant to the forms provided by the Provider, designate from time to time in writing one or more Beneficiaries, who will receive the Participant's vested Account balance in the event of the Participant's death. Designation of one or more Beneficiaries shall become effective upon receipt of the fully completed forms by the Provider and shall supersede all prior designations made by the Participant. If the Participant dies without having made a Beneficiary designation, the Provider shall distribute such benefits in the order provided in the Annuity Contract.

Spousal rights to benefits are set forth in Section 1.12.

Section 5.5. Loans to Participants

If the Plan permits loans under Section 1.11, the following shall apply:

(a) Loans shall be made available to all Participants on a reasonably equivalent basis.

(b) Loans shall not be made available to highly compensated employees in an amount greater than the amount made available to other employees.

(c) Loans must be adequately secured and bear a reasonable interest rate.

(d) The repayment of the loan shall be made with payments that provide for a substantially level amortization of principal and interest over the term of the loan. Such payments shall be required to be made not less frequently than quarterly.

(e) In the event of default, foreclosure on the note and attachment of security will not occur until a distributable event occurs in the Plan.

(f) If the spousal consent option in Section 1.12 applies, a Participant must obtain the consent of his or her spouse, if any, to use the Account as security for the loan. Spousal consent shall be obtained no earlier than the beginning of the 90-day period that ends on the date on which the loan is to be so secured. The consent must be in writing, must acknowledge the effect of the loan, and must be witnessed by the Provider or notary public. Such consent shall thereafter be binding with respect to the consenting spouse or any subsequent spouse with respect to that loan. A new consent shall be required if the Account is used for renegotiation, extension, renewal, or other revision of the loan.

(g) Loan repayments may be suspended under this Plan as permitted under IRC Section 414(u)(4).

(h) The foregoing provisions shall be the standard loan provisions of the Plan. However, different loan terms may be permitted provided that the final determination shall be made by the Provider on a uniform and nondiscriminatory basis. Accordingly, the provisions of this Section 5.5 may be supplemented and/or replaced by more specific or different written provisions adopted by the Provider as part of the Plan's loan policy.

ARTICLE VI. VESTING

Vested Section 6.1. Participant Account and Rollover Account 100 Percent

Participant Accounts and Rollover Accounts shall be 100% vested at all times.

Disability Section 6.2. Employer Account Vesting on Death, Retirement, or

If a Participant's employment is terminated due to his or her death, for Disability, or on or after a Participant's attaining Normal Retirement Age, 100% of the Participant's Employer Account shall vest in the Participant (or in his or her Beneficiary, as the case may be) and shall be distributed in accordance with the provisions of Article VII.

Section 6.3. Employer Account Vesting on Termination

Except as provided in Section 6.2, a Participant's Employer Account shall be vested in accordance with Section 1.13. Upon a One Year Break in Service, forfeited Employer Accounts shall be used to reduce future Employer Contributions.

ARTICLE VII. DISTRIBUTION OF BENEFITS

Section 7.1. Method of Distribution of Accounts

(a) The Participant may elect to receive distribution of his or her vested Account in one of the forms selected by the Employer in Section 1.15. If the Participant fails to make an election, and the Employer has not elected the Joint and Survivor Annuity Option in Section 1.15, the Participant's vested account shall be distributed by the Provider in the form of a lump sum. Notwithstanding the preceding, if a Participant terminates service, the entire amount of such vested Account shall be either distributed to the Participant by the Provider or rolled over by the Participant within the time specified in Section 7.2. The Provider shall be responsible for distributing a Participant's Account and for making such distributions pursuant to the provisions of the Plan.

(b) If the spousal consent option in Section 1.12 applies, the Participant and the Participant's spouse (or where either the Participant or the spouse has died, the survivor) must consent to any distribution of such vested Account. The consent of the Participant and the Participant's spouse shall be obtained by the Provider in writing within the 90-day period ending on the annuity starting date. The annuity starting date is the first day of the first period for which an amount is paid as an annuity or any other form.

Notwithstanding the foregoing, only the Participant need consent to the commencement of a distribution in the form of a Joint and Survivor Annuity. Neither the consent of the Participant nor the Participant's spouse shall be required to the extent that a distribution is required to satisfy IRC Section 401(a)(9) or IRC Section 415. In addition, upon termination of this Plan if the Plan does not offer an annuity option (purchased from a commercial provider) and if neither the Employer nor any affiliated employer maintains another defined contribution plan (other than an employee stock ownership plan as defined in IRC Section 4975(e)(7)), the Participant's

vested Account will, without the Participant's consent, be distributed to the Participant.

(c) If distributions are made in installments the amount of the installment to be distributed each year must be at least an amount equal to the quotient obtained by dividing the Participant's entire interest by the life expectancy of the Participant or the joint and last survivor expectancy of the Participant and his designated Beneficiary. Life expectancy and joint and last survivor expectancy are computed by the use of the return multiples contained in Treasury Regulations Section 1.72-9, Table V and VI or, in the case of payments under a contract issued by an insurance company, by use of the life expectancy tables of the insurance company. For purposes of this computation, a Participant's life expectancy may be recalculated no more frequently than annually, but the life expectancy of a nonspouse Beneficiary may not be recalculated.

Section 7.2. Time of Distribution

(a) Subject to Section 7.3, Joint and Survivor Annuity or Pre-Retirement Survivor Annuity, the requirements of this Section 7.2 shall apply to any distribution of a Participant's vested Account and will take precedence over any inconsistent provisions of this Plan. All distributions required under this Section 7.2 shall be determined and made in accordance with the Treasury Regulations under IRC Section 401(a)(9), including the minimum distribution incidental benefit requirement. Unless required by the IRC, no distribution shall commence before the one-year anniversary of a Participant's Termination Date. Effective April 1, 2001 distributions may commence as soon as administratively feasible following a Participant's Termination Date or Disability.

With respect to distributions under the Plan made for calendar years beginning on or after January 1, 2001, the Plan will apply the minimum distribution requirements of IRC Section 401(a)(9) in accordance with the Treasury Regulations under Section 401(a)(9) that were proposed on January 17, 2001, notwithstanding any provision of the Plan to the contrary. This amendment shall continue in effect until the end of the last calendar year beginning before the effective date of the final Treasury Regulations under Section 401(a)(9) or such other date specified in guidance published by the Internal Revenue Service. With respect to the minimum distribution requirements under the final Section 401(a)(9) Treasury Regulations, the requirements of the final Treasury Regulations are set forth in Article X.

(b) The Participant's vested Account must be distributed or begin to be distributed no later than the Participant's required beginning date.

(c) If the Participant's vested Account is to be distributed in other than a single sum, the following minimum distribution rules shall apply on or after the required beginning date:

(1) Individual Account.

(i) If a Participant's benefit is to be distributed over (A) a period not extending beyond the life expectancy of the Participant or the joint life and last survivor expectancy of the Participant and the Participant's designated Beneficiary or (B) a period not extending beyond the life expectancy of the designated Beneficiary, the amount required to be distributed for

each calendar year, beginning with distributions for the first distribution calendar year, must at least equal the quotient obtained by dividing the Participant's benefit by the applicable life expectancy.

(ii) The amount to be distributed each year, beginning with distributions for the first distribution calendar year shall not be less than the quotient obtained by dividing the Participant's benefit by the lesser of (A) the applicable life expectancy or (B) if the Participant's spouse is not the designated Beneficiary, the applicable divisor determined from the table set forth in Q&A-4 of Section 1.401(a)(9)-2 of the Proposed Regulations. Distributions after the death of the Participant shall be distributed using the applicable life expectancy in Subparagraph (d)(i)(I) above as the relevant divisor without regard to Proposed Regulations Section 1.401(a)(9)-2.

(iii) The minimum distribution required for the Participant's first distribution calendar year must be made on or before the Participant's required beginning date. The minimum distribution for other calendar years, including the minimum distribution for the distribution calendar year in which the employee's required beginning date occurs, must be made on or before December 31 of that distribution calendar year.

(2) If the Participant's benefit is distributed in the form of an annuity purchased from an insurance company, distributions thereunder shall be made in accordance with the requirements of IRC Section 401(a)(9) and the Proposed Regulations thereunder.

(d) If the Participant dies after distributions to him have begun but before his entire vested Account has been distributed to him, the remaining portion of his vested Account shall be distributed by the Provider from the Plan at least as rapidly as under the method of distribution previously established for him, if such method was irrevocable at the time of his death.

(e) If the Participant dies before distribution of his interest commences, then distributions of the Participant's remaining vested Account must be completed by the end of the fifth calendar year following the year of his death. However, installment distributions to a designated Beneficiary which begin not later than the end of the calendar year following the death of the Participant shall be treated as complying with this 5-year distribution requirement (even though the installment payments are not completed within 5 years of the Participant's death) if the distributions are made at a rate which is not longer than that calculated (in the manner described in Subparagraph (c)(i)(3) of this Section 7.2) to provide payment of all the Participant's vested Account during the anticipated life expectancy of the designated Beneficiary. Provided that if the designated Beneficiary is the surviving spouse of the deceased Participant, the distributions can begin as long after the Participant's death as the date on which the deceased Participant would have attained the age of 70-1/2. If the surviving spouse dies after the Participant, but before payments to such spouse begin, the provisions of this Subsection (e) shall be applied as if the surviving spouse were the Participant.

If the Participant has not made an election pursuant to this Subsection (e) by the time of his or her death, the Participant's designated Beneficiary must elect the method of distribution no later than the earlier of (1) December 31 of the calendar year in which distributions would be required to begin under this Subsection, or (2) December 31 of the calendar year which contains the fifth anniversary of the date of death of the Participant. If the Participant has no designated Beneficiary, or if the designated Beneficiary does not elect a method of distribution, distribution of the Participant's entire interest must be completed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(f) For purposes of this Section 7.2, any amount paid to a minor child of a Participant will be treated as if it had been paid to the surviving spouse of the Participant if such remaining amount becomes payable to the surviving spouse when the child reaches the age of majority.

(g) For the purposes of this Section 7.2, distribution of a Participant's benefit is considered to begin on the Participant's required beginning date (or, if Subsection 7.2(f) above is applicable, the date distribution is required to begin to the surviving spouse pursuant to Subsection 7.2(f)). If distribution in the form of an annuity irrevocably commences to the Participant before the required beginning date, the date distribution is considered to begin is the date distribution actually commences.

(h) For purposes of this Section 7.2, the following words and terms shall have the meanings indicated:

(1) "Applicable life expectancy." The life expectancy (or joint and last survivor expectancy) calculated using the attained age of the Participant (or designated Beneficiary) as of the Participant's (or designated Beneficiary's) birthday in the applicable calendar year reduced by one for each calendar year which has elapsed since the date life expectancy was first calculated. If life expectancy is being recalculated, the applicable life expectancy shall be the life expectancy as so recalculated. The applicable calendar year shall be the first distribution calendar year, and if life expectancy is being recalculated such succeeding calendar year.

(2) "Designated Beneficiary." The individual who is designated as the Beneficiary under the Plan in accordance with IRC Section 401(a)(9) and the Proposed Regulations thereunder.

(3) "Distribution calendar year." A calendar year for which a minimum distribution is required. For distributions beginning before the Participant's death, the first distribution calendar year is the calendar year immediately preceding the calendar year which contains the Participant's required beginning date. For distributions beginning after the Participant's death, the first distribution calendar year is the calendar year in which distributions are required to begin pursuant to Subsection 7.2(c) above.

(4) "Life expectancy." Life expectancy and joint and last survivor expectancy are computed by use of the expected return multiples in Tables V and VI of Treasury Regulations Section 1.72-9, or, in the case of payments under a contract issued

by an insurance company, by use of the life expectancy tables of the insurance company.

Unless otherwise elected by the Participant (or Participant's spouse, in the case of distributions described in Subsection 7.2(e)) by the time distributions are required to begin, life expectancies shall be recalculated annually. Such election shall be irrevocable as to the Participant (or spouse) and shall apply to all subsequent years. The life expectancy of a nonspouse Beneficiary may not be recalculated.

(5) "Participant's benefit."

(i) The vested Account as of the last valuation date in the calendar year immediately preceding the distribution calendar year (valuation calendar year) increased by the amount of any contributions or forfeitures allocated to the vested Account as of dates in the valuation calendar year after the valuation date and decreased by distributions made in the valuation calendar year after the valuation date.

(ii) For purposes of Subparagraph (i) above, if any portion of the minimum distribution for the first distribution calendar year is made in the second distribution calendar year on or before the required beginning date, the amount of the minimum distribution made in the second distribution calendar year shall be treated as if it had been made in the immediately preceding distribution calendar year.

(6) "Required beginning date." The required beginning date of a Participant is the first day of April of the calendar year following the calendar year in which the later of retirement or attainment of age 70-1/2 occurs.

(i) With respect to distributions under the Plan made for calendar years beginning with the 2003 calendar year, the Plan will apply the minimum distribution requirements of IRC Section 401(a)(9) in accordance with the final Treasury Regulations as set forth in Article X.

Section 7.3. Joint and Survivor Annuity or Pre-Retirement Survivor

Annuity

(a) The provisions of this Section 7.3 shall apply if the Employer has elected the Joint and Survivor Annuity option in Section 1.15.

(b) Unless an optional form of benefit is selected, a married Participant's vested Account will be paid in the form of a Joint and Survivor Annuity with the Participant's Spouse and an unmarried Participant's Vested Account will be paid in the form of a Life Annuity. The Participant may elect to have such annuity distributed upon attainment of the earliest retirement age under the Plan. An unmarried Participant may select a Joint and Survivor Annuity with a designated Beneficiary.

(c) Unless an optional form of benefit is selected, if a Participant dies before the annuity starting date, then the Participant's Vested Account shall be applied toward the purchase of an annuity for the life of the surviving Beneficiary. The

February 5, 2010 meeting, Board of Trustees

surviving Beneficiary may elect to have such annuity distributed within a reasonable period after the Participant' death.

(d) For purposes of this Section 7.3, the following words and terms shall have the meanings indicated:

(1) "Spouse (surviving spouse)." The spouse or surviving spouse of the Participant, provided that a former spouse will be treated as the spouse or surviving spouse and a current spouse will not be treated as the spouse or surviving spouse to the extent provided under a qualified domestic relations order as described in IRC Section 414(p).

(2) "Annuity starting date." The first day of the first period for which an amount is paid as an annuity or any other form.

(3) "Vested Account." The aggregate value of the Participant's vested Account whether before or upon death, including the proceeds of insurance contracts, if any, on the Participant's life.

(4) "Life Annuity." An annuity payable in equal installments for the life of the Participant that terminates upon the Participant's death.

(e) Notice Requirements.

(1) In the case of a Joint and Survivor Annuity, the Provider shall, no less than 30 days and no more than 90 days prior to the annuity starting date, provide each Participant a written explanation of: (i) the terms and conditions of a Joint and Survivor Annuity; (ii) the Participant's right to make and the effect of an election to waive the Joint and Survivor Annuity form of benefit; (iii) the rights of a Participant's spouse; and (iv) the right to make, and the effect of, a revocation of a previous election to waive the Joint and Survivor Annuity.

(2) In the case of a Pre-Retirement Survivor Annuity as described in Subsection 7.3(c), the Provider shall provide each Participant within the applicable period for such Participant a written explanation of the Pre-Retirement Survivor Annuity in such terms and in such manner as would be comparable to the explanation provided for meeting the requirements of Paragraph (e)(i) applicable to a Joint and Survivor Annuity.

The applicable period for a Participant is a reasonable period ending after the individual becomes a Participant.

Section 7.4. Distribution After Death of Participant

In the event of the death of a Participant after distribution of the Participant's vested Account has begun, but prior to completion of such payments, the full amount of such unpaid vested Account shall continue to be paid in the form of the previously established installments except that the Beneficiary may request that the remaining account be paid in a lump sum.

In the event of the death of the Participant prior to the start of any payment of his Account, distributions shall be made in the form and at the time or times selected by the Beneficiary pursuant to Sections 7.1 and 7.2 and Article X, as applicable.

Section 7.5. Distribution After Death of Beneficiary

In the event of the death of a Beneficiary (or a contingent Beneficiary, if applicable) prior to the completion of payment of benefits due the Beneficiary from the

February 5, 2010 meeting, Board of Trustees

Plan, the full amount of such unpaid vested Account shall at once vest in and become the property of the estate of said Beneficiary.

Section 7.6. Rollover from Plan

The Participant may direct the Provider to transfer part or all of the Participant's vested Account to a retirement plan, as described in IRC Section 401(a) or Section 403(a).

Section 7.7. Inability to Locate Participant or Beneficiary

If the Provider cannot locate the Participant or Beneficiary to whom the vested Account is to be distributed, and reasonable efforts have been made to find such a person, including the sending of notification by certified or registered mail to his or her last known address, the Participant's vested Account may be forfeited, subject to state law, and used to reduce Employer Contributions; provided that, if the Participant is subsequently located, such Forfeiture shall be restored and the restoration shall be made first out of Forfeitures, if any, and then by additional Employer Contributions.

Section 7.8. Qualified Domestic Relations Orders

Notwithstanding any other provisions of Article VII, any Account of a Participant may be apportioned between the Participant and the alternate payee, either through separate Accounts or by providing the alternate payee a percentage of the Account of the Participant. The Provider may direct distributions to an alternate payee pursuant to a qualified domestic relations order in accordance with IRC Section 414(p)(1) as modified by IRC Section 414(p)(11) prior to the date on which the Participant attains the earliest retirement age, provided that the Provider has properly notified the affected Participant and each alternate payee of the order and has determined that the order is a qualified domestic relations order as defined in IRC Section 414(p)(1), as modified by IRC Section 414(p)(11). The alternate payee shall be paid his or her separate Account or his or her percentage of the Account of the Participant, computed as of the Limitation Year, or if the Plan is valued on a daily basis, as provided in the order, in a lump-sum payment notwithstanding the value of such lump-sum payment unless the domestic relations order specifies a different manner of payment permitted by the Plan; and the alternate payee shall not be required to consent to such lump-sum payment. The Provider shall adopt reasonable procedures to determine the qualified status of domestic relations orders and to administer the distributions thereunder and, for distributions on and after January 1, 2002, shall comply with the provisions of the ORC pertinent to Qualified Domestic Relations Orders.

Section 7.9. Direct Rollover

Notwithstanding any other provision of the Plan, the Provider shall advise any distributee entitled to receive an eligible rollover distribution, at the same time as the notice required to be given pursuant to the IRC (or such other time as is permitted by law) of his or her right to elect a direct rollover to an eligible retirement plan, pursuant to the provisions of this Section. To elect a direct rollover the distributee must request in writing to the Provider that all or a specified portion of the eligible rollover distribution be transferred directly to one or more eligible retirement plans. If more than one direct rollover distribution will be made, the notice specified in the first sentence of this Section must state that the distributee's initial election to make or not to make a direct rollover will remain in effect unless he gives the Provider written instructions, on the forms provided by the Provider, to change the election, in which case the new election will remain in effect until changed.

The distributee shall not be entitled to elect a direct rollover pursuant to this Section unless he or she has obtained a waiver of any applicable Joint and Survivor Annuity, as required pursuant to Section 7.3.

For purposes of this Section, the following definitions shall apply:

(a) A "direct rollover" is a payment by the Plan to the eligible retirement plan specified by the distributee. The effective date for direct rollovers is applicable to rollovers made on or after January 1, 2002.

(b) A "distributee" includes an employee or former employee. In addition, the employee's or former employee's surviving spouse and the employee's (or former employee's) spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in IRC Section 414(p), are distributees with regard to the interest of the spouse or former spouse.

(c) An "eligible retirement plan" is an eligible plan under IRC Section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan, an individual retirement account described in IRC Section 408(a), an individual retirement annuity described in IRC Section 408(b), an annuity plan described in IRC Section 403(a), an annuity contract described in IRC Section 403(b), or a qualified plan described in IRC Section 401(a), that accepts the distributee's eligible rollover distribution. The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relation order, as defined in IRC Section 414(p).

(d) An "eligible rollover distribution" is any distribution from this Plan after December 31, 2001 of all or any portion of the balance to the credit of the distributee, except for distributions (or portions thereof) which are -

(1) Part of a series of substantially equal periodic payments (not less frequently than annually) made over the life of the employee (or the joint lives of the employee and the employee's designated beneficiary), the life expectancy of the employee (or the joint life and last survivor expectancy of the employee and the employee's designated beneficiary), or a specified period often years or more;

(2) Required under IRC Section 401(a)(9) (relating to the minimum distribution requirements);

(3) The portion of any distribution that is not includable in gross income (determined without regard to the exclusion for net unrealized appreciation in employer securities described in IRC Section 402(e)(4)); or

(4) Any hardship distributions described in IRC Section 401(k)(2)(B)(i)(IV) and U.S. Treas. Reg. Section 1.401(k)-1(d)(2)(ii).

A portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includable in gross income. However, such portion may be transferred only to an

February 5, 2010 meeting, Board of Trustees

individual retirement account or annuity described in IRC Section 408(a) or (b), or to a qualified defined contribution plan described in IRC Section 401(a) or 403(a) that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible.

In addition to, and subject to, the foregoing terms and conditions (with the exception of those provisions regarding the acceptance of rollover contributions from conduit individual retirement accounts), effective January 1, 2002, the Plan will accept Participant rollover contributions and/or direct rollovers of distributions made after December 31, 2001, from the types of plans specified below.

Direct Rollovers:

The Plan will accept a direct rollover of an eligible rollover distribution from:

a qualified plan described in IRC Section 401(a) or 403(a).

an annuity contract described in IRC Section 403(b).

an eligible plan under IRC Section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state.

Participant Rollover Contributions from Other Plans:

The Plan will accept a Participant contribution of an Eligible Rollover Distribution from:

a qualified plan described in IRC Section 401(a) or 403(a).

an annuity contract described in IRC Section 403(b).

an eligible plan under IRC Section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state.

Participant Rollover Contributions from IRAs:

The Plan will accept a Participant rollover contribution of the portion of a distribution from an individual retirement account or annuity described in IRC Section 408(a) or 408(b) that is eligible to be rolled over and would otherwise be includible in gross income.

Notwithstanding any of the foregoing, the Plan will not accept any portion of a rollover contribution or a direct rollover that includes after-tax employee contributions.

The amount transferred to the Plan must be transferred within sixty (60) days of the date such individual received the eligible rollover distribution, provided, however, that for distributions made after December 31, 2001, the Secretary of the Treasury may waive the 60-day rollover period if the failure to waive such requirement would be against equity or good conscience, including cases of casualty, disaster, or other events beyond the reasonable control of the individual as provided under IRC Sections 402(c)(3) and 408(d)(3).

Section 7.10. Withholding Orders

(a) Withholding Orders Upon Theft in Office or Sex Offenses

In accordance with ORC §3305.09, any payment that is to be made to the Participant or his or her Beneficiary(ies) under this Plan shall be subject to any withholding order issued pursuant to Division (C)(2)(b) of ORC §2921.41. Payments made on or after April 1, 2001 shall also be subject to ORC §2907.15.

Upon notice pursuant to division (D) of ORC §2921.41 that a Participant is charged with a violation of ORC §2921.41, no payment shall be made to the Participant or his or her Beneficiary(ies) prior to whichever of the following is applicable:

(1) If the Participant is convicted of or pleads guilty to the charge and no motion for a withholding order for purposes of restitution has been filed, thirty (30) days after the date on which final disposition of the charge is made;

(2) If the Participant is convicted of or pleads guilty to the charge and a motion for a withholding order is made, the date on which the court decides the motion;

(3) If the charge is dismissed or the Participant is found not guilty of the charge or not guilty of the charge by reason of insanity, the date on which final disposition of the charge is made.

(b) Withholding Orders for Support

Any payment that is to be made to the Participant or his or her Beneficiary(ies) under this Plan shall, to the extent required by Ohio law, be subject to any withholding order for spousal or child support issued pursuant to ORC §3113.21. Payments made on and after April 1, 2001 shall, to the extent required by law, also be subject to ORC §3111.23 and ORC §3115.32.

(c) Provider Responsibility

The Provider shall be solely responsible for compliance with any withholding orders issued under (a) or (b) above.

ARTICLE VIII. AMENDMENT AND TERMINATION

Section 8.1. Rights to Suspend or Terminate Plan

It is the present intention of the Employer to maintain this Plan throughout its existence. Nevertheless, the Employer reserves the right, at any time, to the extent permitted by the ORC, to discontinue or terminate the Plan, to terminate the Employer's liability to make further contributions to this Plan, and/or to suspend contributions for a fixed or indeterminate period of time. In any event, the liability of the Employer to make contributions to this Plan shall automatically terminate upon its legal dissolution or termination, upon its adjudication as bankrupt, upon the making of a general assignment for the benefit of creditors, or upon its merger or consolidation with any other entity. If there is more than one Provider selected in Section 1.7, the Employer's liability to make contributions as to any Provider shall terminate upon the Provider ceasing to be a designated provider under the ORC.

February 5, 2010 meeting, Board of Trustees

Section 8.2. Successor Organizations

In the event of the termination of the liability of the Employer to make further contributions to this Plan, the Employer's liability may be assumed by any other organization which employs a substantial number of the Participants of this Plan. Such assumption of liability shall be expressed in an agreement between such other organization and the Employer under which such other organization assumes the liabilities of the Plan with respect to the Participants employed by it.

Section 8.3. Amendment

To provide for contingencies which may require the clarification, modification, or amendment of this Plan, the Employer reserves the right to amend this Plan at any time.

Effective February 17, 2005, The Ohio State University (hereinafter referred to as the "Volume Submitter Practitioner" or "Practitioner" in this Section 8.3) shall have the authority to amend the Plan on behalf of all adopting employers, including those employers who have adopted the Plan prior to this amendment, for changes in the IRC, Regulations, Revenue Rulings, other statements published by the Internal Revenue Service, including model, sample or other required good faith amendments, but only if their adoption shall not cause such Plan to be individually designed, and for corrections of prior approved plans. These amendments shall be applied to all employers who have adopted a volume submitter plan of the Practitioner.

The Practitioner shall no longer have the authority to amend the Plan on behalf of any adopting Employer as of either: (1) the date the Internal Revenue Service requires the employer to file Form 5300 as an individually designed plan as a result of an employer amendment to the Plan to incorporate a type of plan not allowable in the volume submitter program, as described in Revenue Procedure 2005-16, or (2) as of the date the Plan is otherwise considered an individually designed plan due to the nature and extent of the amendments. If an employer is required to obtain a determination letter for any reason in order to maintain reliance on the advisory letter, the Practitioner's authority to amend the Plan on behalf of the adopting employer is conditioned on the Plan receiving a favorable determination letter.

The Volume Submitter Practitioner shall maintain, or have maintained on its behalf, a record of the employers that have adopted the Plan, and the Volume Submitter Practitioner shall make reasonable and diligent efforts to ensure that adopting employers have actually received and are aware of all Plan amendments and that such employers adopt new documents when necessary. This paragraph supersedes other provisions of the Plan to the extent those other provisions are inconsistent with this paragraph.

Employer notice and signature requirements have been met for all adopting employers before the effective date of February 17, 2005.

Section 8.4. Vesting on Termination of Plan

Upon termination or partial termination of the Plan by formal action of the Employer or for any other reason, or if Employer Contributions to the Plan are permanently discontinued for any reason, there shall be vested 100% in each Participant directly affected by such action the amount allocated to the Accounts of each such Participant, and payment to such Participant shall be made in cash or in kind.

February 5, 2010 meeting, Board of Trustees

Section 8.5. Plan Merger or Consolidation

In the case of any merger or consolidation with, or transfer of any assets or liabilities to, any other plan, each Participant in this Plan must be entitled to receive (if the surviving plan is then terminated) a benefit immediately after the merger, consolidation, or transfer which is equal to or greater than the benefit he would have been entitled to receive immediately before the merger, consolidation, or transfer (if this Plan had terminated).

ARTICLE IX. MISCELLANEOUS

Section 9.1. Laws of Ohio to Apply

This Plan shall be construed according to the laws of Ohio, to the extent Federal laws do not control.

Section 9.2. Credit for Qualified Military Service

Notwithstanding any provision of this Plan to the contrary, contributions, benefits and service credit with respect to qualified military service will be provided in accordance with IRC Section 414(u).

Section 9.3. Participant Cannot Transfer or Assign Benefits

Except as provided in Section 7.10, none of the benefits, payments, proceeds, claims, or rights of any Participant hereunder shall be subject to any claim of any creditor of the Participant, nor shall any Participant have any right to transfer, assign, encumber, or otherwise alienate, any of the benefits or proceeds which he may expect to receive, contingently or otherwise under this Plan.

Notwithstanding any restrictions on the time of distribution which would otherwise apply under this Plan, distributions with respect to a Qualified Domestic Relations Order may be made at any time required by the Order.

Section 9.4. Reversion of Contributions Under Certain Circumstances

In the event that the Commissioner of Internal Revenue determines that the Plan is not initially qualified under the IRC, any contribution made incident to that initial qualification must be returned to the Employer within one year after the date the initial qualification is denied, but only if the application for the qualification is made by the time prescribed by law for filing the Employer's return for the taxable year in which the Plan is adopted, or such later date as the Secretary of the Treasury may prescribe.

If a contribution is made by the Employer by a mistake of fact, the contribution may be returned to the Employer within one year after the payment of the contribution.

Notwithstanding the above, earnings attributable to amounts described in paragraphs one and two of this Section 9.4 shall not be returned to the Employer; losses attributable to such amounts shall reduce the amount returned.

Section 9.5. Filing Tax Returns and Reports

The Provider shall prepare, or cause to have prepared, all tax returns, reports, and related documents, except as otherwise specifically provided in this Plan.

February 5, 2010 meeting, Board of Trustees

Section 9.6. No Discrimination

Neither the Employer nor any Provider shall take any action that would result in benefiting one Participant or group of Participants at the expense of another, or discriminating between Participants similarly situated, or applying different rules to substantially similar sets of facts.

Section 9.7. Number and Gender

When appropriate the singular as used in this Plan shall include the plural and vice versa; and the masculine shall include the feminine.

Section 9.8. Records and Information

Each Provider shall keep a complete record of all its proceedings and all data necessary for the determination of Account balances.

Section 9.9. Information to Participants

Each Provider shall maintain separate Accounts for the Participants. It shall give each Participant, at least once every year, information as to the balance of his Employer Account and Participant Account, if applicable.

Section 9.10. Powers

The Employer shall have the power to determine all questions that may arise hereunder as to the eligibility of employees to participate in the Plan and as to the vesting of Participants.

ARTICLE X. MINIMUM DISTRIBUTION REQUIREMENTS - FINAL REGULATIONS

Section 10.1. General Rules

(a) Effective Date. Unless an earlier effective date is specified in the Optional Provisions below, the provisions of this Article will apply for purposes of determining required minimum distributions for calendar years beginning with the 2003 calendar year.

(b) Coordination with Minimum Distribution Requirements Previously in Effect. If the Optional Provisions specify an effective date of this Article that is earlier than calendar years beginning with the 2003 calendar year, required minimum distributions for 2002 under this Article will be determined as follows. If the total amount of the 2002 required minimum distributions under the Plan made to the distributee prior to the effective date of this Article equals or exceeds the required minimum distributions determined under this Article, then no additional distributions will be required to be made for 2002 on or after such date to the distributee. If the total amount of 2002 required minimum distributions under the Plan made to the distributee prior to the effective date of this Article is less than the amount determined under this Article, then required minimum distributions for 2002 on and after such date will be determined so that the total amount of required minimum distributions for 2002 made to the distributee will be the amount determined under this Article.

(c) Precedence. The requirements of this Article will take precedence over any inconsistent provisions of the Plan.

(d) Requirements of Treasury Regulations Incorporated. All distributions required under this Article will be determined and made in accordance with the Treasury Regulations under IRC Section 401(a)(9) and the minimum distribution incidental benefit requirement of IRC Section 401(a)(9)(G).

(e) TEFRA Section 242(b)(2) Elections. Notwithstanding the other provisions of this Article, distributions may be made under a designation made before January 1, 1984, in accordance with Section 242(b)(2) of the Tax Equity and Fiscal Responsibility Act (TEFRA) and the provisions of the Plan that relate to Section 242(b)(2) of TEFRA.

Section 10.2. Time and Manner of Distribution

(a) Required Beginning Date. The Participant's entire interest will be distributed, or begin to be distributed, to the Participant no later than the Participant's required beginning date.

(b) Death of Participant Before Distributions Begin. If the Participant dies before distributions begin, the Participant's entire interest will be distributed, or begin to be distributed, no later than as follows:

(1) If the Participant's surviving spouse is the Participant's sole designated beneficiary, then, except as provided in the Optional Provisions, distributions to the surviving spouse will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died, or by December 31 of the calendar year in which the Participant would have attained age 70-1/2, if later.

(2) If the Participant's surviving spouse is not the Participant's sole designated beneficiary, then, except as provided in the Optional Provisions, distributions to the designated beneficiary will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died.

(3) If there is no designated beneficiary as of September 30 of the year following the year of the Participant's death, the Participant's entire interest will be distributed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(4) If the Participant's surviving spouse is the Participant's sole designated beneficiary and the surviving spouse dies after the Participant but before distributions to the surviving spouse begin, this subsection (b) (other than subsection (b)(1)), will apply as if the surviving spouse were the Participant.

For purposes of this subsection (b) and Section 10.4, unless Section 10.2(b)(4) applies, distributions are considered to begin on the Participant's required beginning date. If Section 10.2(b)(4) applies, distributions are considered to begin on the date distributions are required to begin to the surviving spouse under Section 10.2(b)(1). If distributions under an annuity purchased from an insurance company irrevocably commence to the

Participant before the Participant's required beginning date (or to the Participant's surviving spouse before the date distributions are required to begin to the surviving spouse under Section 10.2(b)(1), the date distributions are considered to begin is the date distributions actually commence.

(c) Form of Distribution. Unless the Participant's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the Required Beginning Date, as of the first distribution calendar year distributions will be made in accordance with Sections 10.3 and 10.4 of this Plan. If the Participant's interest is distributed in the form of an annuity purchased from an insurance company, distributions thereunder will be made in accordance with the requirements of IRC Section 401(a)(9) and the Treasury Regulations.

Lifetime Section 10.3. Required Minimum Distributions During Participant's

(a) Amount of Required Minimum Distribution for Each Distribution Calendar Year. During the Participant's lifetime, the minimum amount that will be distributed for each distribution calendar year is the lesser of:

(1) the quotient obtained by dividing the Participant's Account balance by the distribution period in the Uniform Lifetime Table set forth in Section 1.401(a)(9)-9 Q&A-2 of the Treasury Regulations, using the Participant's age as of the Participant's birthday in the distribution calendar year; or

(2) if the Participant's sole designated beneficiary for the distribution calendar year is the Participant's spouse, the quotient obtained by dividing the Participant's Account balance by the number in the Joint and Last Survivor Table set forth in Section 1.401(a)(9)-9 Q&A-3 of the Treasury Regulations, using the Participant's and spouse's attained ages as of the Participant's and spouse's birthdays in the distribution calendar year.

(b) Lifetime Required Minimum Distributions Continue Through Year of Participant's Death. Required minimum distributions will be determined under this Section 10.3 beginning with the first distribution calendar year and up to and including the distribution calendar year that includes the Participant's date of death.

Death Section 10.4. Required Minimum Distributions After Participant's

(a) Death On or After Date Distributions Begin.

(1) Participant Survived by Designated Beneficiary. If the Participant dies on or after the date distributions begin and there is a designated beneficiary, the minimum amount that will be distributed for each distribution calendar year after the year of the Participant's death is the quotient obtained by dividing the Participant's Account balance by the longer of the remaining life expectancy of the Participant or the remaining life expectancy of the Participant's designated beneficiary, determined as follows:

(i) The Participant's remaining life expectancy is calculated using the age of the Participant

in the year of death, reduced by one for each subsequent year.

(ii) If the Participant's surviving spouse is the Participant's sole designated beneficiary, the remaining life expectancy of the surviving spouse is calculated for each distribution calendar year after the year of the Participant's death using the surviving spouse's age as of the spouse's birthday in that year. For distribution calendar years after the year of the surviving spouse's death, the remaining life expectancy of the surviving spouse is calculated using the age of the surviving spouse as of the spouse's birthday in the calendar year of the spouse's death, reduced by one for each subsequent calendar year.

(iii) If the Participant's surviving spouse is not the Participant's sole designated beneficiary, the designated beneficiary's remaining life expectancy is calculated using the age of the beneficiary in the year following the year of the Participant's death, reduced by one for each subsequent year.

(2) No Designated Beneficiary. If the Participant dies on or after the date distributions begin and there is no designated beneficiary as of September 30 of the year after the year of the Participant's death, the minimum amount that will be distributed for each distribution calendar year after the year of the Participant's death is the quotient obtained by dividing the Participant's Account balance by the Participant's remaining life expectancy calculated using the age of the Participant in the year of death, reduced by one for each subsequent year.

(b) Death Before Date Distributions Begin.

(1) Participant Survived by Designated Beneficiary. Except as provided in the Optional Provisions, if the Participant dies before the date distributions begin and there is a designated beneficiary, the minimum amount that will be distributed for each distribution calendar year after the year of the Participant's death is the quotient obtained by dividing the Participant's Account balance by the remaining life expectancy of the Participant's designated beneficiary, determined as provided in Section 10.4(a).

(2) No Designated Beneficiary. If the Participant dies before the date distributions begin and there is no designated beneficiary as of September 30 of the year following the year of the Participant's death, distributions of the Participant's entire interest will be completed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(3) Death of Surviving Spouse Before Distributions to Surviving Spouse Are Required to Begin. If the Participant dies before the date distributions begin, the Participant's surviving spouse is the Participant's sole designated beneficiary, and the surviving spouse dies before distributions are required to begin to the surviving spouse under Section 10.2(b)(1),

this Section 10.4(b) will apply as if the surviving spouse were the Participant.

Section 10.5. Definitions

For purposes of this Article X:

(a) Designated beneficiary. The individual who is designated as the beneficiary under Section 5.4 of the Plan and is the designated beneficiary under IRC Section 401(a)(9) and Section 1.401(a)(9)-4 of the Treasury Regulations.

(b) Distribution calendar year. A calendar year for which a minimum distribution is required. For distributions beginning before the Participant's death, the first distribution calendar year is the calendar year immediately preceding the calendar year which contains the Participant's Required Beginning Date. For distributions beginning after the Participant's death, the first distribution calendar year is the calendar year in which distributions are required to begin under Section 10.2(b). The required minimum distribution for the Participant's first distribution calendar year will be made on or before the Participant's Required Beginning Date.

The required minimum distribution for other distribution calendar years, including the required minimum distribution for the distribution calendar year in which the Participant's Required Beginning Date occurs, will be made on or before December 31 of that distribution calendar year.

(c) Life expectancy. Life expectancy as computed by use of the Single Life Table in Section 1.401(a)(9)-9 Q&A-I of the Treasury Regulations.

(d) Participant's Account balance. The Account balance as of the last Valuation Date in the calendar year immediately preceding the distribution calendar year (valuation calendar year) increased by the amount of any contributions made and allocated or Forfeitures allocated to the Account balance as of dates in the valuation calendar year after the Valuation Date and decreased by distributions made in the valuation calendar year after the Valuation Date. The Account balance for the valuation calendar year includes any amounts rolled over or transferred to the Plan either in the valuation calendar year or in the distribution calendar year if distributed or transferred in the valuation calendar year.

(e) Required Beginning Date. The date specified in Section 7.2 of the Plan.

Section 10.6. Optional Provisions

Any of the following Optional Provisions that are checked modify the preceding Sections as indicated:

(a) Effective Date of Plan Amendment for Section 401(a)(9) Final and Temporary Treasury Regulations.

_____ Article X, Minimum Distribution Requirements, applies for purposes of determining required minimum distributions for distribution calendar years beginning with the 2003 calendar year, as well as required minimum distributions for the 2002 distribution calendar year that are made on or after _____.

(b) Election to Apply 5-Year Rule to Distributions to Designated Beneficiaries.

_____ If the Participant dies before distributions begin and there is a designated beneficiary, distribution to the designated beneficiary is not required to begin by the date specified in Section 10.2(b) of the Plan, but the Participant's entire interest will be distributed to the designated beneficiary by December 31 of the calendar year containing the fifth anniversary of the Participant's death. If the Participant's surviving spouse is the Participant's sole designated beneficiary and the surviving spouse dies after the Participant but before distributions to either the Participant or the surviving spouse begin, this election will apply as if the surviving spouse were the Participant.

This election will apply to:

- _____ All distributions.
- _____ The following distributions: _____.

(c) Election to Allow Participants or Beneficiaries to Elect 5-Year Rule.

_____ Participants or beneficiaries may elect on an individual basis whether the 5-year rule or the life expectancy rule in Sections 10.2(b) and 10.4 of the Plan applies to distributions after the death of a Participant who has a designated beneficiary. The election must be made no later than the earlier of September 30 of the calendar year in which distribution would be required to begin under Section 10.2(b) of the Plan, or by September 30 of the calendar year which contains the fifth anniversary of the Participant's (or, if applicable, surviving spouse's) death. If neither the Participant nor beneficiary makes an election under this paragraph, distributions will be made in accordance with Sections 10.2(b) and 10.4 of the Plan and, if applicable, the elections in subsection (b) above.

(d) Election to Allow Designated Beneficiary Receiving Distributions Under 5- Year Rule to Elect Life Expectancy Distributions

_____ A designated beneficiary who is receiving payments under the 5-year rule may make a new election to receive payments under the life expectancy rule until December 31, 2003, provided that all amounts that would have been required to be distributed under the life expectancy rule for all distribution calendar years before 2004 are distributed by the earlier of December 31, 2003 or the end of the 5-year period.

THE OHIO STATE UNIVERSITY:

APPENDIX A

The Ohio State University (“Employer”) Alternative Retirement Plan

This Plan is intended to satisfy the pertinent provisions of IRC Section 401(a) as identified in Plan Section 1.1. Additionally, this Appendix A sets forth the provisions of the ORC as these sections’ pertinent provisions are relevant to this Plan, as set forth in ORC Section 3305.01, et seq. Capitalized terms used in this Appendix A shall have the respective meanings set forth in the Plan.

- 1) For Section 1.4, “Employer,” a state university is defined in ORC Section 3345.011.

For Section 1.4, “Employer,” a university branch, technical college, state community college, community college or a municipal university must be an entity as is established or operating under ORC Chapter 3345, 3349, 3354, 3355, 3357, or 3358.

- 2) For Section 1.8, “Provider,” Option 2, shall mean the company selected to provide the Annuity Contract under the Plan and in conformance with ORC Section 3305.03.

For Section 1.8, “Provider,” Option 2, is in reference to those companies designated by the Ohio Department of Insurance under ORC Section 3305.03.

- 3) For Section 1.10, the Participant election described in the final paragraph of Section 1.10 is made pursuant to ORC Section 3305.05, or ORC Section 3305.051, and the respective plans described by these ORC sections are further described in ORC Chapter 145, 3307, or 3309..

- 4) For Section 2.1, the section references (1) the Public Employees Retirement System, as such system was created under ORC Chapter 145; (2) the State Teachers Retirement System, as such system was created under ORC Chapter 3307; and (3) the School Employees Retirement System, as such system was created under ORC Chapter 3309.

- 5) For Section 2.3, the unclassified civil service is described in ORC Section 124.11 or if ORC Section 124.11 does not apply, then those employees serving in a position comparable to the unclassified civil service. The Public Employees Retirement System was created under ORC Chapter 145; the State Teachers Retirement System was created under ORC Chapter 3307; and the School Employees Retirement System was created under ORC Chapter 3309.

- 6) For Section 2.6(a), an election is made pursuant to ORC Section 3305.05.

For Section 2.6(b), an election is made pursuant to ORC Section 3305.05.

February 5, 2010 meeting, Board of Trustees

For Section 2.6(c), an election is made pursuant to ORC Section 3305.05.

- 7) Section 2.8 describes a "Public Institution of Higher Education" which is defined in ORC Section 3305.01(A). An alternative retirement plan is described in ORC Chapter 3305.
- 8) Section 5.2 describes the approval process for a provider under the Ohio Department of Insurance at ORC Section 3911.011.

**RATIFICATION OF AMENDMENT AND RESTATEMENT OF
HARDING HOSPITAL EMPLOYEES' RETIREMENT PLAN AGREEMENT**

Background:

The Harding Hospital Employees' Retirement Plan Agreement (the "Plan") was established by Harding Hospital, Inc. ("Harding"), effective March 1, 1987, to assist its employees in supplementing their retirement savings. In 1999, all contributions to the Plan ceased and the Plan was frozen to new participants. Harding was dissolved on January 17, 2003. As the sole member of Harding, the University became responsible for wrapping up Harding's affairs following its dissolution. As such, and because Harding's counsel previously had advised that the assets in the Plan could not be distributed until a participant's retirement or other termination of employment, the University continues to maintain the Plan.

Although the Plan is frozen, it remains subject to the rules described in Section 403(b) of the Internal Revenue Code. The Internal Revenue Service issued final regulations for 403(b) plans in July 2007 and issued subsequent guidance in 2008 and 2009. The regulations generally became effective January 1, 2009. However, a written plan was not required to be in place until December 31, 2009.

The written plan must include all material terms and conditions for eligibility, benefits, limitations, contracts available under the plan, time and form of distribution, and any optional provisions (such as loans and hardship distributions). Although the Plan was in writing, some modifications were necessary to comply with these final regulations. Therefore, the Plan was amended and restated in 2009. The amendment and restatement was prepared by the Office of Legal Affairs and the Office of Human Resources and is based on a model plan document issued by the Internal Revenue Service.

The modifications to the Plan do not change its status as a frozen Plan (e.g., the Plan will not allow new participants or permit contributions) or increase the University's financial obligations with respect to the Plan. Primarily, the Plan has been amended to follow model language issued by the IRS in 2007 and 2009.

Purpose:

This resolution ratifies and approves the amendment and restatement of the Plan, effective as of January 1, 2009, and ratifies the action of the Senior Vice President for Business and Finance in signing the amended and restated Plan.

**HARDING HOSPITAL
EMPLOYEES' RETIREMENT PLAN AGREEMENT
(As amended and restated, effective as of January 1, 2009)**

**Section 1
Background**

1.1 **Plan History.** Harding previously established the Plan, a retirement plan governed by Code Section 403(b), effective March 1, 1987. In 1999, (a) the Employer became the sole member of Harding, (b) Harding's then current employees became employees of the Employer and (c) all contributions to the Plan, including Elective Deferrals, ceased. On January 17, 2003, Harding was dissolved. As the sole member of Harding, the Employer became responsible for winding down Harding's affairs following its dissolution. Consequently, the Employer maintains the Plan on behalf of the Participants and their Beneficiaries.

1.2 **Plan Restatement.** The Plan is hereby amended and restated effective as of January 1, 2009 to comply with recently published Treasury Regulations under Code Section 403(b) and other guidance of general applicability promulgated under Code Section 403(b).

1.3 **Purpose of Plan.** The purpose of the Plan is to provide retirement income for Participants and their Beneficiaries who qualify for Plan benefits. The Plan is intended to continue to comply with the requirements of Code Section 403(b), and is not intended to qualify under Code Section 401(a). The Employer is a governmental entity as defined in Code Section 414(d) and, as such, is exempt from the provisions of the Employee Retirement Income Security Act of 1974, as amended.

**Section 2
Definition of Terms Used**

The following words and terms, when used in the Plan, have the meaning set forth below.

2.1 **"Account":** The account or accumulation maintained for the benefit of any Participant or Beneficiary under an Annuity Contract or a Custodial Account.

2.2 **"Account Balance":** The bookkeeping account maintained for each Participant which reflects the aggregate amount credited to the Participant's Account under all Accounts, including the Participant's Elective Deferrals, the earnings or loss of each Annuity Contract or a Custodial Account (net of expenses) allocable to the Participant, any transfers for the Participant's benefit, and any distribution made to the Participant or the Participant's Beneficiary. If a Participant has more than one Beneficiary at the time of the Participant's death, then a separate Account Balance shall be maintained for each Beneficiary. The Account Balance includes any account established under Section 6 for rollover contributions and plan-to-plan transfers made for a Participant, the account established for a Beneficiary after a Participant's death, and any account or accounts established for an alternate payee (as defined in Code Section 414(p)(8)).

2.3 **"Administrator":** The Employer or its designee.

2.4 **"Annuity Contract":** A nontransferable contract as defined in Code Section 403(b)(1), established for each Participant by the Employer, or by each Participant individually, that is issued by an insurance company qualified to issue annuities in a State and that includes payment in the form of an annuity.

2.5 **"Beneficiary"**: The designated person who is entitled to receive benefits under the Plan after the death of a Participant, subject to such additional rules as may be set forth in the Individual Agreements.

2.6 **"Custodial Account"**: The group or individual custodial account or accounts, as defined in Code Section 403(b)(7), established for each Participant by the Employer, or by each Participant individually, to hold assets of the Plan.

2.7 **"Code"**: The Internal Revenue Code of 1986, as now in effect or as hereafter amended. All citations to Sections of the Code are to such Sections as they may from time to time be amended or renumbered.

2.9 **"Disabled"**: The definition of disability provided in the applicable Individual Agreement.

2.10 **"Elective Deferral"**: The Employer contributions made to the Plan at the election of the Participant in lieu of receiving cash compensation.

2.11 **"Employee"**: Each individual, whether appointed or elected, who is a common law employee of the Employer performing services for a public school as an employee of the Employer. This definition is not applicable unless the employee's compensation for performing services for a public school is paid by the Employer. Further, a person occupying an elective or appointive public office is not an employee performing services for a public school unless such office is one to which an individual is elected or appointed only if the individual has received training, or is experienced, in the field of education. A public office includes any elective or appointive office of a State or local government.

2.12 **"Employer"**: The Ohio State University, which is a State-sponsored educational organization described in Code Section 170(b)(1)(A)(ii)

2.13 **"Funding Vehicles"**: The Annuity Contracts or Custodial Accounts issued for funding amounts held under the Plan and specifically approved by the Employer for use under the Plan.

2.14 **"Harding"**: Harding Hospital, Inc.

2.15 **"Individual Agreement"**: The agreements between a Vendor and the Employer or a Participant that constitutes or governs a Custodial Account or an Annuity Contract.

2.16 **"Participant"**: An individual for whom Elective Deferrals or other contributions have previously been made under the Plan and who has not received a distribution of his or her entire benefit under the Plan.

2.17 **"Plan"**: The Harding Hospital Employees' Retirement Plan Agreement, as amended from time to time.

2.18 **"Related Employer"**: The Employer and any other entity which is under common control with the Employer under Code Section 414(b) or (c). For this purpose, the Employer shall determine which entities are Related Employers based on a reasonable, good faith standard and taking into account the special rules applicable under Notice 89-23, 1989-1 C.B. 654.

2.19 **"Severance from Employment"**: For purpose of the Plan, Severance from Employment means Severance from Employment with the Employer and any Related Entity. However, a Severance from Employment also occurs on any date on which an Employee ceases to be an employee of a public school, even though the Employee may continue to be employed by a Related Employer that is another

unit of the State or local government that is not a public school or in a capacity that is not employment with a public school (e.g., ceasing to be an employee performing services for a public school but continuing to work for the same State or local government employer).

2.20 "Vendor": The provider of an Annuity Contract or Custodial Account.

Section 3 Participation and Contributions

3.1 **Eligibility.** Effective as of November 1, 1999, no new participants are permitted to participate in the Plan.

3.2 **Contributions to the Plan.** Effective as of November 1, 1999, no contributions (including Elective Deferrals) may be made to the Plan.

3.3 **Information Provided by the Employee.** Each Employee enrolled in the Plan shall provide to the Administrator at the time of initial enrollment, and later if there are any changes, any information necessary or advisable for the Administrator to administer the Plan, including any information required under the Individual Agreements.

3.4 **Change in Elective Deferrals Election.** Subject to the provisions of the applicable Individual Agreements, an Employee may at any time revise his or her investment direction and his or her designated Beneficiary. A change in the investment direction shall take effect as of the date provided by the Administrator on a uniform basis for all Employees. A change in the Beneficiary designation shall take effect when the election is accepted by the Vendor.

Section 4 Loans

4.1 **Loans.** Loans shall not be permitted under the Plan.

Section 5 Benefit Distributions

5.1 **Benefit Distributions.** Except as permitted under Section 5.4 (relating to withdrawals of amounts rolled over into the Plan) or Section 8.2 (relating to termination of the Plan), distributions from a Participant's Account may not be made earlier than the earliest of the date on which the Participant has a Severance from Employment, dies, becomes Disabled, or attains age 59½. Distributions shall otherwise be made in accordance with the terms of the Individual Agreements.

5.2 **Small Account Balances.** The terms of the Individual Agreement may permit distributions to be made in the form of a lump-sum payment, without the consent of the Participant or Beneficiary, but no such payment may be made without the consent of the Participant or Beneficiary unless the Account Balance does not exceed \$5,000 (determined without regard to any separate account that holds rollover contributions under Section 6.1) and any such distribution shall comply with the requirements of Code Section 401(a)(31)(B) (relating to automatic distribution as a direct rollover to an individual retirement plan for distributions in excess of \$1,000).

5.3 **Minimum Distributions.** Each Individual Agreement shall comply with the minimum distribution requirements of Code Section 401(a)(9) and the regulations thereunder. For purposes of applying the distribution rules of Code Section 401(a)(9), each Individual Agreement is treated as an individual retirement account (IRA) and distributions shall be made in accordance with the provisions of

§ 1.408-8 of the Income Tax Regulations, except as provided in § 1.403(b)-6(e) of the Income Tax Regulations.

5.4 In-Service Distributions From Rollover Account. If a Participant has a separate account attributable to rollover contributions to the Plan, to the extent permitted by the applicable Individual Agreement, the Participant may at any time elect to receive a distribution of all or any portion of the amount held in the rollover account.

5.5 Hardship Withdrawals. Hardship withdrawals shall not be permitted under the Plan.

5.6 Rollover Distributions.

(a) A Participant or the Beneficiary of a deceased Participant (or a Participant's spouse or former spouse who is an alternate payee under a domestic relations order, as defined in Code Section 414(p)) who is entitled to an eligible rollover distribution may elect to have any portion of an eligible rollover distribution (as defined in Code Section 402(c)(4)) from the Plan paid directly to an eligible retirement plan (as defined in Code Section 402(c)(8)(B)) specified by the Participant in a direct rollover. In the case of a distribution to a Beneficiary who at the time of the Participant's death was neither the spouse of the Participant nor the spouse or former spouse of the participant who is an alternate payee under a domestic relations order, a direct rollover is payable only to an individual retirement account or individual retirement annuity (IRA) that has been established on behalf of the Beneficiary as an inherited IRA (within the meaning of Code Section 408(d)(3)(C)).

(b) Each Vendor shall be separately responsible for providing, within a reasonable time period before making an initial eligible rollover distribution, an explanation to the Participant of his or her right to elect a direct rollover and the income tax withholding consequences of not electing a direct rollover.

Section 6 Rollovers to the Plan and Transfers

6.1 Eligible Rollover Contributions to the Plan. The Plan will not accept any rollover contributions.

6.2 Plan-to-Plan Transfers to the Plan. The Plan will not accept transfers from other plans.

6.3 Plan-to-Plan Transfers from the Plan.

(a) At the direction of the Employer, the Administrator may permit a class of Participants and Beneficiaries to elect to have all or any portion of their Account Balance transferred to another plan that satisfies Code Section 403(b) in accordance with § 1.403(b)-10(b)(3) of the Income Tax Regulations. A transfer is permitted under this Section 6.3(a) only if the Participants or Beneficiaries are employees or former employees of the employer (or the business of the employer) under the receiving plan and the other plan provides for the acceptance of plan-to-plan transfers with respect to the Participants and Beneficiaries and for each Participant and Beneficiary to have an amount deferred under the other plan immediately after the transfer at least equal to the amount transferred.

(b) The other plan must provide that, to the extent any amount transferred is subject to any distribution restrictions required under Code Section 403(b), the other plan shall impose restrictions on distributions to the Participant or Beneficiary whose assets are transferred that are

not less stringent than those imposed under the Plan. In addition, if the transfer does not constitute a complete transfer of the Participant's or Beneficiary's interest in the Plan, the other plan shall treat the amount transferred as a continuation of a pro rata portion of the Participant's or Beneficiary's interest in the transferor plan (e.g., a pro rata portion of the Participant's or Beneficiary's interest in any after-tax employee contributions).

(c) Upon the transfer of assets under this Section 6.3, the Plan's liability to pay benefits to the Participant or Beneficiary under this Plan shall be discharged to the extent of the amount so transferred for the Participant or Beneficiary. The Administrator may require such documentation from the receiving plan as it deems appropriate or necessary to comply with this Section 6.3 (for example, to confirm that the receiving plan satisfies Code Section 403(b) and to assure that the transfer is permitted under the receiving plan) or to effectuate the transfer pursuant to § 1.403(b)-10(b)(3) of the Income Tax Regulations.

6.4 Contract and Custodial Account Exchanges. A Participant or Beneficiary is not permitted to change the investment of his or her Account Balance among the Vendors under the Plan.

6.5 Permissive Service Credit Transfers.

(a) If a Participant is also a participant in a tax-qualified defined benefit governmental plan (as defined in Code Section 414(d)) that provides for the acceptance of plan-to-plan transfers with respect to the Participant, then the Participant may elect to have any portion of the Participant's Account Balance transferred to the defined benefit governmental plan. A transfer under this Section 6.5(a) may be made before the Participant has had a Severance from Employment.

(b) A transfer may be made under Section 6.5(a) only if the transfer is either for the purchase of permissive service credit (as defined in Code Section 415(n)(3)(A)) under the receiving defined benefit governmental plan or a repayment to which Code Section 415 does not apply by reason of Code Section 415(k)(3).

(c) In addition, if a plan-to-plan transfer does not constitute a complete transfer of the Participant's or Beneficiary's interest in the transferor plan, the Plan shall treat the amount transferred as a continuation of a pro rata portion of the Participant's or Beneficiary's interest in the transferor plan (e.g., a pro rata portion of the Participant's or Beneficiary's interest in any after-tax employee contributions).

Section 7
Investment of Contributions

7.1 Manner of Investment. All Elective Deferrals or other amounts contributed to the Plan, all property and rights purchased with such amounts under the Funding Vehicles, and all income attributable to such amounts, property, or rights shall be held and invested in one or more Annuity Contracts or Custodial Accounts. Each Custodial Account shall provide for it to be impossible, prior to the satisfaction of all liabilities with respect to Participants and their Beneficiaries, for any part of the assets and income of the Custodial Account to be used for, or diverted to, purposes other than for the exclusive benefit of Participants and their Beneficiaries.

7.2 Investment of Contributions. Each Participant or Beneficiary shall direct the investment of his or her Account among the investment options available under the Annuity Contract or Custodial Account in accordance with the terms of the Individual Agreements. Transfers among Annuity Contracts and Custodial Accounts may be made to the extent provided in the Individual Agreements and permitted under applicable Income Tax Regulations.

7.3 Current and Former Vendors. The Administrator shall maintain a list of all Vendors under the Plan. Such list is hereby incorporated as part of the Plan. Each Vendor and the Administrator shall exchange such information as may be necessary to satisfy Code Section 403(b) or other requirements of applicable law. To the extent required by applicable law, the Employer shall keep the Vendors informed of the name and contact information of the Administrator in order to coordinate information necessary to satisfy Code Section 403(b) or other requirements of applicable law.

**Section 8
Amendment and Plan Termination**

8.1 Amendment and Termination. The Employer reserves the authority to amend or terminate this Plan at any time.

8.2 Distribution upon Termination of the Plan. The Employer may provide that, in connection with a termination of the Plan and subject to any restrictions contained in the Individual Agreements, all Accounts will be distributed, provided that the Employer and any Related Employer on the date of termination do not make contributions to an alternative Section 403(b) contract that is not part of the Plan during the period beginning on the date of plan termination and ending 12 months after the distribution of all assets from the Plan, except as permitted by the Income Tax Regulations.

**Section 9
Miscellaneous**

9.1 Plan Administration.

(a) **Administrative Duties.** The Employer shall be responsible for administering the Plan according to its terms and for coordinating the provisions of the various documents consistent with the requirements of Code Section 403(b). These provisions and requirements include but are not limited to: (i) maintaining a list of all Vendors under the Plan; and (ii) determining that the requirements of the Plan and Code Section 403(b) are properly applied.

(b) **Allocation of Duties.** The Employer shall have the power to delegate specific duties and responsibilities under the Plan. Such delegations may be to officers or other employees of the Employer, the Administrator, the Vendors or other individuals or entities. Any delegation by the Employer may, if specifically stated, allow further delegations by the individual or entity to whom the delegation has been made. Any delegation may be rescinded by the Employer at any time. Each person or entity to whom a duty or responsibility has been delegated shall be responsible for the exercise of such duties or responsibilities. The Employer assumes no obligation or responsibility to any of its Employees, Participants or Beneficiaries for any act of, or failure to act, on the part of the Vendors. Notwithstanding any provision hereof to the contrary or the terms of any Funding Vehicle, in no case shall administrative duties be allocated to Participants (other than, if applicable, permitting Participants to designate a Funding Vehicle, make investment elections or vote shares of any investment fund selected by the Participants).

9.2 Non-Assignability. Except as provided in Section 9.3 and 9.4, the interests of each Participant or Beneficiary under the Plan are not subject to the claims of the Participant's or Beneficiary's creditors; and neither the Participant nor any Beneficiary shall have any right to sell, assign, transfer, or otherwise convey the right to receive any payments hereunder or any interest under the Plan, which payments and interest are expressly declared to be non-assignable and non-transferable.

9.3 Domestic Relation Orders. Notwithstanding Section 9.2, if a judgment, decree or order (including approval of a property settlement agreement) that relates to the provision of child support, alimony payments, or the marital property rights of a spouse or former spouse, child, or other dependent of a Participant is made pursuant to the domestic relations law of any State ("domestic relations order"), then the amount of the Participant's Account Balance shall be paid in the manner and to the person or persons so directed in the domestic relations order. Such payment shall be made without regard to whether the Participant is eligible for a distribution of benefits under the Plan. Each Vendor shall establish reasonable procedures for determining the status of any such decree or order and for effectuating distribution pursuant to the domestic relations order.

9.4 IRS Levy. Notwithstanding Section 9.2, the Vendor may pay from a Participant's or Beneficiary's Account Balance the amount that the Administrator finds is lawfully demanded under a levy issued by the Internal Revenue Service with respect to that Participant or Beneficiary or is sought to be collected by the United States Government under a judgment resulting from an unpaid tax assessment against the Participant or Beneficiary.

9.5 Tax Withholding. Contributions to the Plan are subject to applicable employment taxes (including, if applicable, Federal Insurance Contributions Act (FICA) taxes with respect to Elective Deferrals, which constitute wages under Code Section 3121). Any benefit payment made under the Plan is subject to applicable income tax withholding requirements (including Code Section 3401 and the Income Tax Regulations thereunder). A payee shall provide such information as the Administrator may need to satisfy income tax withholding obligations, and any other information that may be required by guidance issued under the Code.

9.6 Payments to Minors and Incompetents. If a Participant or Beneficiary entitled to receive any benefits hereunder is a minor or is adjudged to be legally incapable of giving valid receipt and discharge for such benefits, or is deemed so by the Vendor, benefits will be paid to such person as the Vendor may designate for the benefit of such Participant or Beneficiary. Such payments shall be considered a payment to such Participant or Beneficiary and shall, to the extent made, be deemed a complete discharge of any liability for such payments under the Plan.

9.7 Mistaken Contributions. If any contribution (or any portion of a contribution) is made to the Plan by a good faith mistake of fact, then within one year after the payment of the contribution, and upon receipt in good order of a proper request approved by the Employer, the amount of the mistaken contribution (adjusted for any income or loss in value, if any, allocable thereto) shall be returned directly to the Participant or, to the extent required or permitted by the Employer, to the Employer.

9.8 Procedure When Distributee Cannot Be Located. The applicable Vendor shall make all reasonable attempts to determine the identity and address of a Participant or a Participant's Beneficiary entitled to benefits under the Plan. For this purpose, a reasonable attempt means (a) the mailing by certified mail of a notice to the last known address shown on the Vendor's records, (b) notification sent to the Social Security Administration or the Pension Benefit Guaranty Corporation (under their program to identify payees under retirement plans), and (c) the payee has not responded within 6 months. If the Vendor is unable to locate such a person entitled to benefits hereunder, or if there has been no claim made for such benefits, the Funding Vehicle shall continue to hold the benefits due such person.

9.9 Incorporation of Individual Agreements. The Plan, together with the Individual Agreements, is intended to satisfy the requirements of Code Section 403(b) and the Income Tax Regulations thereunder. Terms and conditions of the Individual Agreements are hereby incorporated by reference into the Plan, excluding those terms that are inconsistent with the Plan or Code Section 403(b). In the case of any conflict between the provisions of the Plan and any Individual Agreement or Funding Vehicle, the provisions of the Plan shall govern.

February 5, 2010 meeting, Board of Trustees

9.10 **Governing Law.** The Plan will be construed, administered and enforced according to the Code and the laws of the State of Ohio.

9.11 **Headings.** Headings of the Plan have been inserted for convenience of reference only and are to be ignored in any construction of the provisions hereof.

9.12 **Gender.** Pronouns used in the Plan in the masculine or feminine gender include both genders unless the context clearly indicates otherwise.

IN WITNESS WHEREOF, the Employer has caused this Plan to be executed this ___ day of December, 2009.

Paid Disaster Leave Benefit – Supplemental Information

Rationale and Background

Paid disaster leave is intended to provide a balance between protecting faculty and staff income (to preserve our talent base) and protecting Ohio State's financial viability. Our institutional strategy and values support a leading-edge position to support and maintain engagement of faculty, staff, and graduate associates.

The Ohio State University Office of Human Resources is preparing a Paid Disaster Leave Benefit Program to be available when a pandemic or other major disaster has been declared and the *Disaster Preparedness and University State of Emergency Policy* has been activated. This includes natural, pandemic, terrorist and related disasters, not budget reductions.

Other large universities have experienced floods, hurricanes and other disasters, and the potential of a widespread pandemic is also present. The first priority is to retain essential personnel at work, and to determine all possible methods to maintain productivity of other faculty and staff (alternate locations, telecommuting, and different job responsibilities, as examples).

For those who cannot work after any and all work is assigned, and for a disaster that may last a period of a few weeks or longer, a program of maintaining some level of compensation and benefits support is preferable to widespread layoffs, loss of talent to other employers, and payment of unemployment benefits.

The University will only be able to provide compensation support for a defined period of time. For disasters of extended duration, unpaid short-term furloughs and reductions-in-force could be implemented as required. These actions will vary by unit and occupation according to institutional needs and financial resources.

Eligibility

- Regular faculty, staff, and graduate associates, as well as temporary employees who are engaged in teaching and research.
- Individuals who are funded by grants and contracts may or may not be eligible, to be determined in final program details.

Program Assumptions

- Paid Disaster Leave applies only to a true and declared disaster; short term weather closings (e.g. snow emergencies) would not be included.
- The University will emphasize identifying other means to work as the top priority, through such means as telecommuting, alternate locations, etc; compensation support is not an entitlement.
- For individuals who are prevented from any and all assignable work due to the declared university disaster; assigned work may be completely different than normal responsibilities.

February 5, 2010 meeting, Board of Trustees

- Individuals who are unable to work due to reasons unrelated to the disaster may be required to retroactively charge their time to the appropriate accrued leave bank (compensatory, vacation, sick) if relevant and approved.
- Individuals who are able to work and refuse to work if asked will not be paid.

Program Design Overview

Eligible employees will be paid 100% of their base compensation for the first week. This will provide opportunity for the University president, in consultation with Senior Management Council and the Vice President for Human Resources to determine how to proceed on a week by week basis, with these options on the table among others which could be identified at the time of the disaster:

- Compensation based on a % of base pay, adjusted to FTE.

Allow use of accrued paid leave banks and compensatory time; University may issue paid leave to continue pay with the provision that an individual can retroactively cancel and pay back. Accrued paid leave or compensatory time to be used in this order, unless otherwise determined by leadership in light of the disaster: compensatory time, vacation time, sick time (if appropriate). As individuals exhaust paid leave, they will be placed on unpaid leave with continued benefits coverage.

FISCAL AFFAIRS COMMITTEE**

February 4, 2010

TOPICS: Football and Men's Basketball Ticket Prices
Golf Course Membership and Daily Green Fees

CONTEXT:

The Ohio State University's Department of Athletics is fully self-supporting and does not receive state or University funding, student tuition, or student activity fees. The Department is facing increases in operating costs for next fiscal year, including additional debt service, utilities, financial aid (athletic grants-in-aid) and travel. With the lifting of the in-state tuition cap, the Department anticipates a significant increase in its annual expense for athletic grants-in-aid that must be reimbursed back to the University. A ticket price increase is necessary to meet these increased costs and remain financially stable. These proposed rates have been reviewed by the Athletic Council and the University.

RECOMMENDATION:

- For football tickets (2010 football season) – an increase of \$7 per game for all reserve price tickets, \$4 per game for faculty/staff and \$1 for student tickets. The per game increase for all ticket groups will be an increase between 3.2% and 11.1%. (Attachment 1).
- For Men's Basketball Tickets (2010/2011 basketball season) – an increase of \$1 per game for all ticket groups and \$0.50 for faculty/staff and student tickets. As initiated in 2009, the upper level endzone ticket price will remain affordable at \$10 and sold only day-of-game at the Schottenstein Ticket Office. The ticket price increases for Fiscal Year 2011 will be between 2.2% and 4.5%. (Attachment 1).
- For 2010 Golf Course Membership Dues and Green Fees (Fiscal Year 2011) – a 3.0% increase is proposed for faculty/staff membership dues and membership dues for Alumni/Affiliates. Members' children, 13 and over, will also increase 3.0%. OSU student memberships and dues for children of members under 13 will increase by 2.7%. Daily green fees for all groups remain unchanged. The food and beverage minimum is unchanged at \$20 per month for six months of the year. An annual tournament fee of \$40 per member is proposed to fund membership tournament events during the year. (Attachment 2).

CONSIDERATIONS:

Football Tickets:

- The proposed \$70 single game ticket price is near the top of the Big Ten Conference, however, it remains below the premium game prices charged by other conference institutions and comparable high-profile athletic programs, such as Texas. (Attachment 3)
- The student ticket price increases \$1 for the 2010 season, but will not increase in the 2011 season. The \$32 student ticket price is 45.7% of the public ticket price.

Men's Basketball Tickets:

- The proposed \$1 single game ticket price increase for public tickets to \$28 keeps our price in line with the top basketball programs at benchmark universities. (Attachment 4)
- The faculty/staff and student ticket price will increase only \$0.50 per ticket, representing a 2.2% - 3.4% increase.

Golf Course Fees:

- Alumni/affiliate and faculty/staff membership fees will increase 3% for 2010, but the new dues will continue to be less than 50% of the average 2009 membership for similar public

February 5, 2010 meeting, Board of Trustees

courses in this area. Daily green fees will be unchanged for the fourth consecutive year.

APPENDIX XXXV

Degrees Conferred at

THE OHIO STATE UNIVERSITY
COMMENCEMENT CONVOCATION

March 21, 2010

COMMENCEMENT ADDRESS

Curtis J. Moody

Curtis J. Moody is president, CEO, and principal-in-charge of design of the Columbus-based Moody-Nolan architecture firm, the largest minority-owned architectural firm in the nation.

Mr. Moody began his architecture practice in 1982 and since then has been involved in the design of projects exceeding several billion dollars in construction. A 1973 graduate of what is now The Ohio State University Knowlton School of Architecture, he has served as principal architect for a number of campus buildings, including the new Ohio Union, the Jerome Schottenstein Center, the Recreational and Physical Activities Center, and the Jesse Owens Memorial Stadium.

His many projects in Columbus include the Ohio Statehouse renovations, the Port

Columbus Airport expansion, Gowdy Field North, the Center for Science and Industry (COSI), the East High School renovation, and the Smith Brothers Hardware renovation. Farther afield, his projects include the Cincinnati Public Schools' School for Creative and Performing Arts, the Ithaca (N.Y.) College Athletics and Events Center, Purdue University's Recreational Sports Center expansion and renovation, and Morehouse College's Forbes Arena in Atlanta.

A strong supporter of his alma mater, Mr. Moody used his design fees for Ohio State's Frank W. Hale Jr. Black Cultural Center to establish an endowed scholarship for an outstanding minority student studying architecture. He is currently a member of The Ohio State University

Alumni Association Board of Directors and has served on the Knowlton School's Alumni Board of Governors, the Athletic Council, and the National Major Gift Committee for Columbus.

He is the recipient of the university's 2002 Distinguished Service Award and the 1994 Distinguished Alumni Award. His many other honors include the President's Exemplary Service Award from the National Organization of Minority Architects (NOMA) and the 2007 Gold Medal Award from the Ohio Chapter of the American Institute of Architects (AIA). Mr. Moody is a winner of the AIA's prestigious Whitney M. Young Jr. Award, and his designs have won more than 147 design citations—more than any other minority architectural firm in the nation.

RECIPIENTS OF HONORS

Richard D. Rosen

DISTINGUISHED SERVICE AWARD

Richard Rosen is corporate vice president and executive director of Battelle's education and philanthropy partnerships that are intended to measure student achievement, assist with professional development for teachers, and promote inquiry-based teaching, especially in the science, technology, engineering, and math (STEM) disciplines. He also serves as executive director of the Ohio STEM Learning Network, a public/private initiative with the State of Ohio and the Bill & Melinda Gates Foundation.

During his 29-year career at Battelle, Mr. Rosen has held corporate and senior management positions across the organization, including general management of product development and medical device technical groups. In his current role, he has

played a leading role in building the increasing partnership between Battelle and The Ohio State University, where he received his master's degree in biomedical engineering. Working closely with the university's College of Education and Human Ecology, he helped create Metro High School, a Columbus public school that stimulates student interest in the STEM disciplines.

Mr. Rosen was instrumental in the establishment of the Battelle Center in Math and Science Education Policy at the John Glenn School of Public Affairs and has collaborated with the University Medical Center in winning Ohio's Third Frontier Program grants for cardiology, cancer, informatics, nanotechnology, and imaging proposals. He has served on Ohio State's

Biomedical Advisory Council and was a key player in the creation of TechColumbus, receiving the BioOhio Leadership Award for his work in bioscience industry advancement in Ohio.

Mr. Rosen also was a leader in the creation of The Ohio State University Urban Arts Space at the renovated Lazarus Building in downtown Columbus, as well as the WOSU@COSI Battelle Studio, which is now linked to Metro High School and other statewide emerging STEM programs.

In 2007, Ohio State's College of Engineering honored him with a Distinguished Alumni Award, and, in 2009, he received an award from the National Society of Black Engineers for his dedication to furthering STEM education.

Carl D. Smallwood

DISTINGUISHED SERVICE AWARD

Carl D. Smallwood is a partner in the Columbus office of Vorys, Sater, Seymour and Pease, LLP, a 385-person law firm.

After earning his BS in business administration and international business at The Ohio State University and his JD from the university's Moritz College of Law, Mr. Smallwood joined Vorys in 1980, becoming a partner in 1987. As a member of the firm's litigation group, he represents clients in litigation, arbitration, and mediation of employment-related injury, wrongful termination, professional negligence, and toxic exposure disputes.

In 2002, as the first African American president in the history of the 4,800-member Columbus Bar Association, Mr. Smallwood developed and led the Managing Partners' Diversity Initiative

(MPDI), a commitment by 22 local law firms to make a concerted effort to recruit, hire, retain, and promote minority lawyers. Since 2000, the number of minority attorneys at the represented firms has grown by 102 percent. He currently serves as the president of the Law and Leadership Institute, a statewide diversity pipeline program for promising high school students.

Mr. Smallwood continues his active involvement with his alma mater, where he has served as president of the Law Alumni Society and the Black Law Alumni Society. He was a member of the Moritz College of Law National Council from 1998 to the present and served as an adjunct professor in trial advocacy in 1998-99. In addition, he co-chaired a solicitation effort at Vorys that established a designated professorship in honor of John C. Elam, the firm's former managing partner.

In 2001, Mr. Smallwood was named a "Lawyer of the Year" by *Ohio Lawyers Weekly*, and he has been elected to Ohio Super Lawyers for the past six consecutive years. The Ohio State University Alumni Association recognized him with the Josephine Failer Award in 1994 and the Heinlen Award in 2001. He is also the recipient of the Columbus Urban League's 2001 Award of Excellence. Earlier this year, Mr. Smallwood was honored by the Columbus Bar Association for his contributions to diversity in the Columbus legal community.

He is the second Smallwood to serve Ohio State. His father, Dr. Osborn Smallwood, served as director and vice president for international affairs at the university in the 1970s.

February 5, 2010 meeting, Board of Trustees

The Graduate School

Dean: Patrick S. Osmer

Doctor of Musical Arts

Seon Ok Kim, Gimpo-Si,

Colleges of the Arts and Sciences

Executive Dean: Joseph E. Steinmetz

The Arts and Sciences include the University's programs in the arts and humanities, the biological and mathematical/physical sciences, and the social and behavioral sciences, as well as interdisciplinary programs across the arts and sciences.

Associate of Arts

Iris Esther Allen, Marion Campus
Guled Sulub Al-Nur, Marion Campus
Alycia Renee Baker, Marion Campus
Samual James Bantner, Newark Campus
Casey Belli, Newark Campus
Lacey Renae Birchfield, Marion Campus
Krista D. Blair, Mansfield Campus
Nicholas James Bloom, Marion Campus
Tiffany Esther Eline Bogantz, Newark Campus
Keela Sharon Bowers, Mansfield Campus
Anthony Branham, Newark Campus
Jeremy Patrick Brown, Marion Campus
Edwin R. Buchwalter, Marion Campus
Halley Erin Buchwalter, Marion Campus
Derek Richard Budde, Newark Campus
Joseph Kemper Buechel, Marion Campus
Rick A. Burkholder, Lima Campus
Jessica Carson, Newark Campus
Della Avalee Carver, Newark Campus
Wendy Chang, Lima Campus
Ashley Ann Clark, Newark Campus
Brandie Ann Clay, Lima Campus
Cara Elizabeth Cunningham, Newark Campus
Qiana Terrell Davis, Newark Campus
Brittiany Nickole Deland, Lima Campus

Lindsay Ann Dernberger, Newark Campus
David Matthew Devine, Marion Campus
Maliha Anwar Din, Newark Campus
Ryan Dingfelder, Mansfield Campus
Janice M. Durr, Marion Campus
Daniel M. Earley, Marion Campus
Sherelle L. Eaton, Newark Campus
Jason Aaron Edler, Marion Campus
Rachel Nicole Foulk, Newark Campus
Amanda Jolynn Fruth, Mansfield Campus
Stephen Mark Gabor, Mansfield Campus
Matthew Gaughenbaugh, Newark Campus
Amy Catherine Gerritsen, Marion Campus
Kristen Gibson, Newark Campus
Victoria Elaine Gleeson, Newark Campus
Jennifer Lynn Gompf, Marion Campus
Hollie Nicole Greashaber, Marion Campus
Sharon Marie Griffith, Newark Campus
Amanda Nicole Hibar, Marion Campus
Jessica Jean Hinkle, Newark Campus
Julisa D. Holmes, Mansfield Campus
Aaron Douglas Hope, Newark Campus
Jessie Marie Ickler, Marion Campus
Kaitlyn Nicole Jackson, Newark Campus
Brandon Joseph Jones, Marion Campus
Samantha Nichole Jungling, Newark Campus
Ashley Lynn Keener, Mansfield Campus
Ashley Marie Keith, Newark Campus
Miranda Jo Kennedy, Lima Campus
Daniel Lee Kenner, Lima Campus
Alexander Paul Kerney, Newark Campus
Jared Robert Kettlewell, Newark Campus
Rachel Ann Krugh, Newark Campus
Rebecca Carolyn Laughery, Mansfield Campus

Ashley Morgan Lotozo, Newark Campus
Calvin Fletcher Lowe III, Mansfield Campus
Martha Jane Lowers, Newark Campus
Gregory Keith Mann, Newark Campus
Chelsea Leigh Marquis, Mansfield Campus
Jeffrey Michael McClain, Marion Campus
Abigail Christine Miller, Mansfield Campus
Ashley Paige Miller, Newark Campus
Ryan C. Miller, Newark Campus
Naima Abdi Mohamed, Newark Campus
Amber Marlene Mohler, Newark Campus
Derek Alan Moore, Newark Campus
Ashley Danielle Mullins, Marion Campus
Kelley Lyn Palombaro, Newark Campus
Chirag Vijaykumar Patel, Newark Campus
Matthew Lee Peyton, Mansfield Campus
Todd A. Rickenberg, Newark Campus
Nicole Lynn Roland, Mansfield Campus
Christopher Herbert Rose, Newark Campus
Timothy M. Rucker, Newark Campus
Kyle Christopher Ruddy, Marion Campus
Brittney Nicole Sabatini, Newark Campus
Bart C. Secor, Mansfield Campus
Justin Allen Smith, Newark Campus
Nicholas Paul Smith, Newark Campus
Ryan Christian Soucek, Newark Campus
Chad Eugene Spencer, Lima Campus
Jeffrey Dale Strahler, Newark Campus
Ryan Lee Stump, Newark Campus
Joshua S. Tennar, Marion Campus
Ronald Matthew Terwilliger II, Lima Campus
Eric Michael Tipton, Newark Campus
Janette Marie Trapp, Newark Campus

February 5, 2010 meeting, Board of Trustees

Julie Annette Ulery, Newark Campus
Elizabeth Lynn Van Fossen, Newark Campus
Robert George Von Haase, Jr., Mansfield Campus
Samantha Marie Walker, Marion Campus
Edward Thomas Warner, Newark Campus
Grant Michael Webb, Newark Campus
Lisa Renae Webb, Newark Campus
Kimberly Renee Williams, Mansfield Campus
Stephanie Marie Winters, Newark Campus
Peter Franklin Witt, Newark Campus
Jeremy Michael Woerlein, Marion Campus
Jacob Ryan Wollenberg, Newark Campus
Erica Marie Woodrum, Newark Campus
Mitchell Thomas Wyer, Newark Campus
David Timothy Yoder, Jr., Mansfield Campus
Leah Dawn Zeisler, Mansfield Campus
David E. Zeller II, Newark Campus

Arts and Sciences Interdisciplinary Programs

Bachelor of Arts

Tiffany H. Bair, Carrollton
Katelyn Mary Bey, Dublin
Lindsey Kay Bolles, Strongsville
Magna Cum Laude
Joseph William Boshinski, Harrisburg
Kaley Marie Bostdorff, Bowling Green
Herbert Lee Brown, Columbus
Ashtin Marie Carpenter, Heath
Kaleigh Marie Chatfield, Columbus
Napadanai Chatraphuti, Bangkok, Thailand
Melanie Miu Kin Cheng, Columbus
Magna Cum Laude
Alyse Nicole Costa, Hampton, VA

Shawn Michael Cottrill, St. Marys, WV
Matthew Knox Elliott, Jackson
Cum Laude
Joel C. Erman, Defiance
Frances Louise Ferri, Farmersville
Magna Cum Laude
Amanda A. Fiorelli, Cleveland
Hanna Gebremedhin, Columbus
Shelby Jo Ann Hanas, Beavercreek
Matthew Thomas Hemphill, Boulder, CO
Anne Elizabeth Hutzelman, West Chester
Summa Cum Laude
Anna Igor Isupova, Westerville
Magna Cum Laude
Jessica Anne Kania, Port Clinton
with Honors in the Arts and Sciences
Kristin Marie Kelley, Findlay
Cum Laude
Margaret Lee Kirby, Upper Arlington
Magna Cum Laude
Eriny Ehab Kostandy, Egypt
Eshvar Kotahwala, Forest Hills
Kelley Jay Krams, Dublin
Carrie Anne Lancaster, Pittsboro
Joshua Philip Levey, Cincinnati
Tiffany Michelle Luckhaupt, Westerville
Belinda Reyes Martinez, Colorado Springs, CO
Rosemarie Mayersky, Maineville
Matthew Ryan McDaniel, Dublin
Alyse Marie Monachino, Lakewood
Andrew Robert Moskal, Brecksville
Nana Esi Gyaaba Nyen, Columbus
Melissa May Oney, Amanda
Samuel Christopher Orndorff, Circleville
Matthew J. Peck, Westerville
Gabriela Prieto, Columbus
Kelsey Marie Rankin, Dayton
Cum Laude
Jonathon David Reeb, Columbus
Laura Ann Schaefer, Niles
Magna Cum Laude
with Honors in the Arts and Sciences
Colin McClain Scianamblo, Indianapolis, IN
Cum Laude

Kristopher Allen Scott, Columbus
Marcus Bryan Seas, Westerville
Han-Kyu Sung, Seoul, Korea
James Philip Talbert, Worthington
Cum Laude
with Honors in the Arts and Sciences
Matthew Kenneth Tobias, Urbana
Cum Laude
Aaron Trevor Vaughan, Columbus
Zachary Tyler Velasquez, Marion
Inessa Marion Wagner, Columbus
Sheena Marie Williams, Perrysburg
Frank David Zuccala, Cincinnati
Cum Laude

College of the Arts

Dean: John W. Roberts

Bachelor of Arts

Claire Elizabeth Bing, Canton
Hilary L. Bray, Minford
Sherma L. Brown, Detroit, MI
Ashley R. Cooper, Johnstown
Cum Laude
Megan Elizabeth Corbin, Lancaster
Cum Laude
Ashley Marie Dillen, Elida
Summa Cum Laude
Julia K. Harrington, Chardon
Shannon E. James, Brunswick
Rachel Quinn Levy, Rochester, NY
Cum Laude
Andrew L. Martin, Columbus
Daniel J. Mayer, Medina
Alexis Rebecca McPeck, Newark
Matthew Aaron Moon, Columbus
Chris N. Olson, Cincinnati
Courtney Elizabeth Ruffalo, Columbus
Magna Cum Laude
Ashley Nichole Schalk, New Riegel
Magna Cum Laude
Katherine Emily Shea, Columbus
David Quinn Thurston, Columbus
Summa Cum Laude

February 5, 2010 meeting, Board of Trustees

Jessica Dawn Watkins,
Parkersburg, WV

**Bachelor of Art
Education**

Rebekah Sue Cole, Hilliard

Bachelor of Fine Arts

Jennifer Ashley Bey,
Gahanna
Brianna Lynn Dance, West
Chester
Cum Laude
with Distinction in Art
Glenn Douglas Davis,
Columbus
Cum Laude
Marco Dane Fuhrman, Lorain
Kenneth William Greer,
Dayton
Kaylie C. Irvin, Lancaster
Chitpol Jarupan, Columbus
Caitlin Rose McCafferty,
Macedonia
Kalli L. McCorkle, McArthur

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND FIFTY-FIRST
MEETING OF THE BOARD OF TRUSTEES

Columbus, Ohio, May 13 and 14, 2010

The Board of Trustees met Thursday, May 13 and Friday, May 14, 2010, at Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **

May 14, 2010 meeting, Board of Trustees

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Thursday, May 13, 2010, at 9:05 am.

Present: Leslie H. Wexner, Chairman, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Ronald A. Ratner, Algenon L. Marbley, Linda S. Kass, Janet B. Reid, G. Gilbert Cloyd, Jason W. Marion, and Alexis L. Swain.

Mr. Wexner:

Good morning. I hereby move that the Board recess into Executive Session for consultation with University Legal Counsel and to discuss matters required to be kept confidential by State Statute.

Upon motion of Mr. Wexner, seconded by Judge Marbley, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Leslie H. Wexner, Chairman, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Ronald A. Ratner, Algenon L. Marbley, Linda S. Kass, and Janet B. Reid.

-0-

The Chairman, Mr. Wexner, reconvened the meeting of the Board of Trustees to order on Friday, May 14, 2010, at 8:33 am. He requested the Secretary to call the roll.

Present: Leslie H. Wexner, Chairman, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Ronald A. Ratner, Linda S. Kass, William G. Jurgensen, Janet B. Reid, G. Gilbert Cloyd, Jason W. Marion, and Alexis L. Swain.

Before we take roll call vote to go into Executive Session, I want to announce that the full Board will reconvene today at 12:30 pm.

I hereby move that the Board recess into Executive Session to consider personnel matter regarding employment and compensation, for consultation with University Legal Counsel and to discuss matters required to be kept confidential by State Statute.

Upon motion of Mr. Wexner, seconded by Mr. Ratner, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Leslie H. Wexner, Chairman, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Ronald A. Ratner, Linda S. Kass, William G. Jurgensen, and Janet B. Reid.

-0-

The Chairman, Mr. Wexner, reconvened the meeting of the Board of Trustees to order on Friday, May 14, 2010, at 12:37 pm. He requested the Secretary to call the roll.

Present: Leslie H. Wexner, Chairman, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Ronald A. Ratner, Linda S. Kass, William G. Jurgensen, Janet B. Reid, G. Gilbert Cloyd, Jason W. Marion, and Alexis L. Swain.

Mr. Wexner:

So we are able to conduct our business in an orderly fashion, please shut off your cell phones or quiet them down.

May 14, 2010 meeting, Board of Trustees

Mr. Bradley Hammer:

SPHINX Links, Leslie H. Wexner, the founder and Chairman, President and CEO of the Limited Brands, which operates 3,014 stores including Victoria's Secret, Bath and Body Works, White Barn Candle Co., and Henri Bendel. Today, Limited Brands is one of the most prolific consumer retail companies nationwide, though the company and Mr. Wexner remain deeply rooted in Ohio. After graduating from The Ohio State University with a B.S. in Business Administration in 1959, Mr. Wexner attended Law School at Ohio State for some time before committing himself to his new business in 1963. His areas of community interest include the Wexner Center for the Arts at Ohio State, The Wexner Institute for Pediatric Research at Children's Hospital in Columbus, the Martin Luther King Center for Performing Arts, Columbus, and the Wexner Heritage Village.

Mr. Wexner was a recipient of the Alexis Tocqueville Society award of the United Way of America, Woodrow Wilson award for Citizenship and the American Jewish Committee Herbert H. Lehman Centennial Leadership award. He was the founding member and the first chairperson of The Ohio State University Foundation. Mr. Wexner currently serves as Chair of the Ohio State University Board of Trustees, having previously served on the Board from 1988-1997.

Mr. Wexner's commitment to Ohio State and the Columbus community is unprecedented and his exemplary leadership and contributions make him an invaluable honorary link into the 104th class of SPHINX. Congratulations.

President Gee:

Well, let me say something for him it is rare for you to be speechless. As you know SPHINX is one of the longest and most traditional organizations at this institution recognizing the good work of our students and every once in a while they designate a honorary member, and I must say, none of us had any idea this was going to happen. I thought these were some terrorists in black hoods or something like that, I had no idea. But Les, in case you do not know, this is a student run, student organized, no one knows what they are going to do, they do it in secret and so congratulations to you, that's a wonderful recognition from our students. Give him a round of applause.

Mr. Wexner:

I am astonished. I have to tell you, I do not know if Gordon knows this story. I assume there is still a great student organization in this University called Ohio Staters, and I tried to get in that organization. I volunteered to be a member to work, but they voted. Beanie Drake was the advisor to this group, and they kept saying, we really appreciate your interest but we do not think you really care. I thought I did, but who knew. Then I thought they would have to burn down the school for me to get my diploma, so I am quite appreciative of this recognition and very proud of the University and my affiliation, so I thank you. Someone carry on the meeting, that would help me a lot.

President Gee:

Well I tell you what, next Alex Swain is going to do our student recognition, Alex are you ready to do that, would you please. Thank you.

-0-

STUDENT RECOGNITION AWARDS

Ms. Swain:

Would you please come forward and I will tell you a little about them.

Phil Horn is a fourth year student, pursuing a Bachelor of Science in Social Work from the College of Social Work. He is from Dublin, Ohio and is a graduate of Dublin Scioto High School.

Phil is currently writing a thesis to fulfill requirements of the Social Work Honors program. His thesis topic explores identity development and is titled: "Recollections of gay men: Retrospectively exploring how school-based supports lessen the effects of victimization for gay high school students." He was also a co-presenter at the Council on Social Work Education's Annual Program in San Antonio where he discussed the use of several novels on Human Behavior in the Social Environment curriculum. He and his co-presenter were the only undergraduate presenters at the conference.

Phil has been active as an HIV Test Counselor at the Student Wellness Center where he administers tests and develops plans for at-risk individuals. He was also a presenter at the Bacchus/Gamma Conference in 2008 for the Wellness Center. At the Conference, he gave a presentation on the effectiveness of Peer HIV Test Counseling at OSU and gave suggestions for how to begin programs on other college campuses. Phil has also been a suicide hotline volunteer with the North Central Mental Health Services and is currently completing a social work internship at Southeast, Incorporated, a Columbus Mental Health Center.

Phil will graduate in June with Honors in Research Distinction. He will be moving to Chicago, IL in August to work for City Year, an AmeriCorps program, as a Corps Member. He will be doing literacy tutoring in elementary schools and running after-school programs that focus on community empowerment. He then plans on attending the University of Illinois-Chicago for a Masters in Social Work.

He is joined today by Dean Gregoire and his parents.

Our second student is Joseph Mess. Joseph is a senior in the Doctor of Dental Surgery program in the College of Dentistry. He also received his bachelor's degree in Microbiology from OSU and is originally from Columbus. Joseph is in the top 10% of his class and has been the recipient of the Columbus Dental Society Academic Scholarship and the Johnson and Johnson Preventative Dentistry Scholarship.

As an undergraduate, he was a Dental Assistant on an International Service Learning Mission in Costa Rica and Nicaragua. He also served as President of the OSU Pre-Dental Club, was a member of the Men's Rowing Team, and worked as a teaching assistant in the Department of Chemistry. Joseph also worked as an assistant at the Bethel Grove Dentistry for over three years and completed an externship with Virginia Commonwealth University Department of Orthodontics last summer.

As a part of the College of Dentistry Student Research Program, Joseph has studied the comparison of strains for splinted and non-splinted screw retained implant prostheses using CAD/CAM technology. This year, he presented his research at the American Association for Dental Research annual meeting. Joseph also founded the student organization *Smiles for Schools* in 2008 and still serves as its president. The club coordinates dental student visits to local underprivileged elementary schools providing oral health education and promoting proper oral hygiene and nutrition.

May 14, 2010 meeting, Board of Trustees

Following graduation in June, he will be entering a dental specialty program in orthodontics at St. Louis University- a 30 month program that culminates in a Master of Science degree. Afterward, he anticipates returning to Ohio in private practice.

He is also joined by his parents and Dean Anderson.

Let's give these students a round of applause.

Mr. Mess:

Good afternoon. Ladies and gentlemen of the Board, President Gee, thank you very much for this honor to be here today. I especially want to thank Dean Anderson and my parents, Jane and Steve Mess.

Alex suggested that I come up with a few experiences at Ohio State that I could share with you today. I have been here since 2001 and I have had an amazing time, and I am looking forward to the future in St. Louis. I started as a senior in high school, I took a Latin class in 2001 and it was at 7:30 in the morning. For me to be a senior in high school starting off at 7:30 in the morning then coming back to high school, it was an eye-opening experience of what college was going to be like. As a freshman I did not really know what I wanted to do with my life, with my career, and I am really fortunate to have chosen to go to Ohio State because I feel like there are a lot of resources here that showed me what I wanted to do.

I got involved in a lot of organizations, met a lot of interesting people, had a lot of experiences with a lot of good faculty and that led me to the College of Dentistry. Now I am getting ready to move in a month to St. Louis where I am going to go ahead and enter a Master's program in orthodontics, so if any of you have children, or grandchildren or maybe you yourself are interested in getting some nice shiny metal brackets on your teeth, feel free to contact me, because I look forward to coming back to Ohio.

This was a real big honor, my family is a big Ohio State family from Columbus, Ohio, just about five miles down the road, my entire family went to Ohio State, so it is a real honor to be graduating in a month, and receiving this award, so thank you very much.

Mr. Horn:

I would just like to start by thanking the Board of Trustees for presenting me with an award, and I am truly honored to be here today. I would also like to thank you all for inviting my parents, because my parents are here today. First of all I would like to thank my parents, David and Becky Horn for their unconditional love and support throughout my whole life. Without them, I would not have been able to accomplish half the things I have here at this prestigious university. I would like to thank Dean Tom Gregoire as well, in the College of Social Work for nominating me for the award. I am really humbled and very appreciative of their recognition and was very surprised when I got the email, and very happy. I am glad they recognized some of the work I have put into the last four years I have had here.

I owe a huge debt of gratitude to several people within the college. My thesis advisor and mentor, Dr. Susan Saltzburg. She has been a tremendous help over the past two years and she has really instilled in me a love of quality research and the skills needed to make my abstract ideas a concrete reality. I have been able, in the past year, with her support to delve into the lives of several gay men, and to explore the victimization of social support that they experience in their high school environments. I feel really touched to be able to do that.

May 14, 2010 meeting, Board of Trustees

Other individuals within the college I would like to thank are, Meghan Good, Andréa Severson, Dr. Alvin Mares, Dr. Keith Warren, Dr. Keith Anderson, Dr. Shantha Balaswamy, and Dr. Cynthia Fontanella. They have all instilled in me a love for social work and really a passion to go out and help people.

This award comes at an important time for me, and I am in my final quarter at Ohio State in my undergraduate year, and I have really just loved the past four years I have had here. It has really been a thriving experience for me. I enjoy the student culture and you know jumping in mirror lake, hanging out on the oval, going to football games in the Shoe, just I have enjoyed every moment I have had here. They are memories that will last a lifetime.

Professionally I have enjoyed attending conferences, like the Council on Social Work Education annual program, and I leave Ohio State knowing that it has really made a profound impact on me, and really, I could not have picked a better school to go to, so thank you.

WEXNER CENTER PRESENTATION [POWERPOINT]

Mr. Schottenstein:

I have had the privilege to serve on the Board of the Wexner Center for the Arts for a number of years now. While the center for many of us who have lived in Columbus for a long time, feels like it is relatively new to our Campus, and I still consider it new, it has been here for a number of years. In what is a relatively short period of time, the Wexner Center has not only developed itself into one of the finest facilities of its type, not just in the state of Ohio, but it has earned an international reputation for the work that it does. As a Board member, not long ago, I had the opportunity to witness a presentation that was done for the Wexner Center as part of a strategic planning process and internal assessment as to how they are doing, how they stack up, not just state wide, but nationally if not internationally as a premier arts organization. After seeing the presentation, I was absolutely overwhelmed with what an extraordinary facility we have here right on our campus. I mentioned to President Gee at that time that we use these Board meetings periodically to share some of our very special jewels here at Ohio State, and that is clearly one of the, if not the finest jewel that we have here, the Wexner Center. I said to him, I thought it would be a great idea if at some Board meeting we had an opportunity, all of us, to learn a little bit more about the great work that is done there every single day. I know Sherri Geldin who is the Director, is sitting here, and I am sure she is going to be part of the presentation, but Sherri if you and whoever else is going to make this presentation would like to come up and present, we would love to hear all the great work that you are doing.

Ms. Geldin:

Thank you very much Bobby. Mr. Chairman, members of the OSU Board of Trustees. I have with me this afternoon, David Galligan who for roughly 20 years served as the COO of the Walker Arts Center, which as arts institutions go in this country, is probably the best model for the Wexner Center by virtue of its being truly multidisciplinary. David went on from his role at the Walker to become the head of the Ordway Center in Minneapolis and has since been doing consulting work for arts organizations around the country. His presentation will, as Bobby mentioned, kind of set the Wexner Center into the context of our national and international peers, but I thought before we did that, we would barrage you with a set of statistics, it might be useful since some of you are way too busy to get over to the Wex as often as we might like to have you there, to just give you a set of introductory images for life at the Wex. Which as you all know is located really at the threshold of town and gown, at 15th and High. A precinct that I understand is going to become one of the focal

points among several here at Ohio State during the course of the master planning. So with that, if we could have the first image, and maybe some lights down, I think would be helpful.

So, the Wexner Center for the Arts. We tend to think of it as The Ohio State University's international, multidisciplinary creative laboratory for the contemporary arts, but what does that mean? Well I can tell you it means more than being the building that looks like it crash landed on the prairies, however of course it does not hurt that our location again, right at the threshold of where town meets gown, can help to symbolize the ways in which the center both contributes to the academic life of the University and also to the vibrancy of the Columbus community. In terms of artistic excellence, the center ranges from artists who are emerging on the scene to legends such as Roy Lichtenstein, I am sure many of you know that Roy was not only an alumnus of Ohio State, but a faculty member here until he launched his pop-art career in New York. This is a show from many years ago now. To artists like Julie Taymor who is multidisciplinary in her own right, known best as the director and designer of "The Lion King" on Broadway, but of course has also overseen operas and theatre. This was an installation from the Wexner Center's retrospective of Julie Taymor on the occasion of our 10th anniversary.

Exhibitions that might be considered more traditional contemporary art. This one looking at about 35 American and European artists and curated by three Ohio State professors. Mood River, an exhibition celebrating design in every possible guise from automotive to aerospace to interior to fashion, and what could be more beautifully designed than an operational skate bowl sitting in the middle of our galleries. I will tell you, it is the only time I have ever shown up at the Wexner Center with kids lining up outside the door before we opened them. It was great fun. But the fact is that we are multidisciplinary and so in addition to our exhibition program in the galleries, we have a whole host of dance and theatre and music as well as film programs. This of course, tap dancing legends Avian Liver the recent performance of Merce Cunningham on the legacy tour for that company. You will hear more about Merce in just a few moments, but the Wexner Center was proud to be the premier venue on what is the final two year legacy tour for this artistic genius. Grupo Corpo really emphasizing the fact that we bring artists from around the world to the Wex and we are constantly looking for ways to engage the youth audience. So this is an artist named Feist, here we have a sold out crowd at Mershon for Wilco.

We love having the young and the restless around. Our theatre program ranges from, the Trustees may recognize this room, it is where you had your dinner last night, but most of the time we are using it for performances like this, or for jazz or international and world music. This is the Saratoga International Theatre Institute, they have been artists and residents very often at the Wex, and I will get back to our residency program in a moment. Young Jean Lee, this piece was created at the Wex, again as part of a residency, and went on to great acclaim in New York City. The Builders Association, another theatre company which has done tremendous work at the center that goes on to national and international prominence.

In addition, what is great about being a contemporary art center is that you are able to bring the artist to the public. Here this is renown film director Miloš Forman one of the famous scenes from his film *One Flew Over the Cuckoo's Nest*. Often times we are showing documentaries, independent films, fresh off the circuit of Cannes or Sundance or Toronto, Peter Bogdanovich, a recent visitor to the center to introduce one of his films, Julianne Moore unfortunately has not yet been to the center, but we have not given up on that. The director that she works with so often has in fact been an artist in residence at the Center. Steve McQueen, not the late actor, but a young director who created a film that went on to really international acclaim, and Steve was at the center about a year ago to introduce his film.

The Center is also a laboratory, so much of what we do is about catalyzing new work to be created in all of the different disciplines, this is one of our editors working with a film maker, but the idea of having a kind of laboratory where work is constantly being researched and made. This is an example of one of those fantastic partnerships that occurs across the campus. Josiah McElheny a very well-known artist who was in residence at the Wexner Center in the year prior to our re-opening, following the renovation, we paired Josiah at his request with an astronomer on campus. That began what is now going on a seven year relationship to create a whole series of works. This one called *An End to Modernity* which was installed in our galleries. Similarly artists like Kerry James Marshall, who is most known as a painter, but who used his residency to develop a theatre production in the galleries with area teens. So this was an example of an artist working with the community in a very, very sustained ways over a year's time to get these kids ready for their production. Jeff Smith, another Ohio State legend cartoonist that has gone on to international fame and is now working on his first feature film for Warner Brothers.

That brings us to our family programs. The fact is while the Wexner Center is located here on the University campus, we really see ourselves as a community asset, so whether it is a family film festival or a children's international performance festival, we really seek to be one of those places where Ohio State and the Columbus community can come together. This is one of our favorite occasions, during the summer we do outdoor film screenings. One of the few times when I think that we can say that plaza is really utilized to its full extent and of course someday as the master planning proceeds, we hope that will be an even more welcoming environment.

The Wexner Prize, I think many of you are aware of the fact that roughly once a year the Wexner Center, through its International Artists Advisory Council, recommends to our Board of Trustees a prize recipient who is illustrious in his or her own field and who has also been profoundly influential across the fields of artistic enterprise. The first prize awarded many years ago, before I was at the Wexner Center, to theatre impresario Peter Brook. The second prize, awarded jointly actually to composer John Cage who you see here and his longtime collaborator Merce Cunningham, who unfortunately did just pass away last year. Bruce Nauman a stellar figure on the international visual arts scene, Yvonne Rainer who began her career as a choreographer and then became an independent film maker. Martin Schooresese, I think many of you will remember his visit to campus which was quite extraordinary. There is Marty accepting the prize, or wielding the hammer as it were. Gerhard Richter now among the leading painters in the world today, based in Germany. Louise Bourgeois, at 98 years old still working, still making art, and that was quite an extraordinary moment. Bob Rauschenberg, of course, a lion of the abstract expressionist movement moving into pop, and unfortunately passed away just last year as well. Renzo Piano, one of the illustrious architects working in the world today. William Forsythe, a choreographer, American born based in Europe for the past many years, and I will come back to a project that he subsequently engaged in with Ohio State students across multiple disciplines. Issey Miyake, design as I mentioned is a part of the Wexner Center's portfolio, and Issey is certainly much more than a fashion designer. Bill T. Jones, I know that many of you have had occasion to see Bill T. in performance at the Wex over the years, the fact is, he has been in residence on a few occasions working with students in the dance department and of course has gone on to his own illustrious career, both off Broadway and on. And our most recent recipient, Spike Lee who's films of course has really chronicled the African American experience in the United States over the past thirty or so years. These are always wonderful occasions in which we can bring the best and brightest talents to this community.

Speaking of best and brightest talents, that is Bill Wegman on the right. Some of you have probably seen this poster previously. Bill Wegman is of course the artist who is

most well-known for putting his beloved Weimaraner in all manner of crazy guises, costumes, what have you. And this was at the opening of his exhibition here with Frances Strickland and a host of others. I should say, for each of the Trustees, as you leave today, I hope it is not considered illegal that we are going to send you home with your own personal poster of the Ohio State, kind of insouciant Weimeraners in hoodies.

About a year and a half ago, we were very, very pleased to be able to bring an internationally regarded exhibition to the Wexner Center. Some of you, I hope, had a chance to visit during that time. I do not think the Center has ever been so vibrant. It certainly has never been so radically transformed, but as you can see it took a look at every aspect of Andy Warhol's career. From painting to drawing to film to photography to ephemera of all kinds, and was really the occasion for an extraordinary array of public events during the course of the exhibitions run. We were the only venue in the United States to have that show, and of course we really exploited the opportunity. That is John Waters on the right, irreverent film maker and kind of Warhol aficionado protégé and on the left, a member of what was Warhol's factory many years ago. We turned our gala into a kind of "Andy-Land" celebration, and of course that brings to mind the fact that our efforts like so many efforts across this campus require tremendous patronage from community leaders, as well as from national and international sponsors of our work. Here are just a few of those during the course of the Andy celebrations.

We love to remind the city that the Wexner Center is here and is an asset in their own backyard. From time to time unfurl banners like this one, or commandeer the local bus stop. The fact is, we do not want to be the best kept secret. That was my claim to fame, my only moment to have a Warhol portrait. And we have gone on since then to organize or co-organize major exhibitions like this one, the work of Luc Tuymans, that is Luc in the front, and this was a co-organization with San Francisco MOMA, it is now on view there and will go on to three other venues. This was just an example of some of the work in that show. We brought preeminent art historian T.J. Clark here to have a conversation with Luc. About 1,000 people attended that event. It was quite extraordinary, one among many examples of bringing again, renowned illustrious artists and thinkers and writers to the Wexner Center. In the case of Bill Forsythe I wanted to mention that not only was he a Wexner Prize recipient, but that visit really paved the way for an ongoing collaboration with OSU faculty members. On the left, Maria Palazzi from ACCAD and also Nora Zuniga-Shaw from the Dance Department, this is an ongoing collaboration which also manifested itself into a gallery presentation at the Wex. Bill is a natural born teacher and we hope to get him back often.

Speaking of teachers, the fact is we love the programs we engage with, with the Columbus Public Schools and with families, so this just gives you an idea of some of the array of activities that go on. When it comes to teens, we merge arts with sciences. This is from our art and environment experience, and the fact is, it is a way to sort of celebrate and introduce these kinds to the kind of larger ideas in the world. This is a recent art and environment talk, climate and culture under the auspices of our director's dialogue, and the fact is that it is a way of celebrating other aspects of the University. So you probably recognize Lonnie Thompson among the participants in that event. This was the dialogue.

Just in conclusion to encourage all of you to come and visit the Mark Bradford show, which we just opened last week. Mark is a Los Angeles based artist. That is him on the right. Just two weeks ago, we had Mark here, he was installing his exhibition and we asked him if he would do a public conversation with Columbus' own artistic legend, Aminah Robinson and it was a packed house in Mershon for that event as well. Again a way to introduce the local community to an artist with whom they might not be so familiar by virtue of pairing them with someone who is truly revered in

these parts. Alex I hope you do not mind that we thought we would show you reveling at the exhibition opening and I wanted to end with this slide. That is Mark, of course in the center, surrounded on either side by Nancy Kramer, Kelly Mooney on the left, the Chairman and President, respectively of resource interactive. A fantastic company here in Columbus. Nancy is one of our board members as well at the Wexner Center, and most importantly on this occasion, she and her colleagues at Resource made an extraordinary gift to allow us to create what is a pioneering website celebrating the artistry of Mark Bradford.

So with that, it is my pleasure now, to introduce you to David Galligan. David came to us because in anticipation of the Wexner Center's 20th Anniversary and recognizing that Ohio State was launching its own master planning exercise as well as the strategic planning that is going on, on campus, and the campaign planning, that it would be the perfect opportunity for the Wexner Center to take a pretty rigorous look at itself. See where we have been, where we are, and where we should be setting our sights. So I am now delighted to turn over the microphone to David Galligan.

Mr. Galligan:

Thank you very much Sherri. It is my pleasure to be here, Sherri mentioned at the beginning of her presentation that I was, for many years, for 17 years in fact, the Chief Operating Officer of Walker Arts Center in Minneapolis, and in fact, at the time when the Wexner was just launching, I sat in my chair at the Walker, and watched several of our key employees, you know leave, abandon the Walker, and make the trip to Columbus, Ohio to help start this incredible institution. I have got to say it was with a lot of skepticism that I watched these two gentleman still on the staff at the Wexner Center, Chuck Helm and Bill Horrigan come here, but since both of them have distinguished themselves, nationally and internationally and been part of the team that Sherri has kept and built here and the reputation you will hear about in a moment that has been formed over these years was astounding to me 20 years later to have the pleasure and the privilege to come back and take a look at what has happened at the Wexner using scientific methodology, using the statistics that are available to us in the museum world, which I will expose you to. Then I did a confidential survey of 16 or 18 museum directors, contemporary art museum directors around the country and the world, asking them in half hour conversations, quite on the QT, quite on the down-low what they really think of the Wexner Center and I thought that was an amazing commission to have from the staff and the Board of the Wexner. In fact to look antiseptically at the numbers and to look antiseptically at the peer evaluations. So that is what you have in store for you here, focusing first on the quantitative, the numbers, the ways in which the Wexner Center compares to a peer universe that we selected as being most relevant. There are two of these universes that we were concerned with. One is the Wexner scene against other university based museums or art centers, and the other against contemporary museums that are free standing institutions not affiliated with the University, such as for example, the Walker Arts Center.

These statistics all come from the association of art museum directors, they are gathered annually, they are a certain kind of bible in the field. Those numbers have become very refined and very good benchmarks these days. I was addicted to them years ago at the Walker. So for example, just to focus on these two universes, at the top of these slides, you will always see the university museum and gallery comparisons and at the bottom you will always see the free standing contemporary museums. The Wexner always appears in purple, and you will see these are not just any institutions with which we are comparing the Wexner, these are the most close analogs, in terms of program, footnote on that in a minute, but it is Harvard and Yale and Princeton, and it is the Walker, it's the Whitney in New York, it's the San Francisco Museum of Modern Art, these are no slouches in the art museum world.

May 14, 2010 meeting, Board of Trustees

The one footnote here is there is no real comparable institution. There is no real peer of the Wexner Center. I will explain why, but just to note that, that distinction, the fact that there is no other like the Wexner is an incredible opportunity for the institution, greatly exploited by the institution to date, and something to move forward with in the future.

The reason there is no comparable institution is because there is no other fully multidisciplinary arts center, especially in the university affiliated institutions, but even when you look at the other universe and you think of the Walker Arts Center, Sherri mentioned while the Walker is a close analog, it is, but the Walker has a permanent collection, which the Wexner does not. The Walker for that reason and others is more heavily weighted toward the visual arts. The Wexner is fully integrated, meaning that there is no priority, there is no pecking order amongst the disciplines, whether it be film, performing arts, new media, visual art. It is a distinguishing feature that makes all these comparisons somewhat difficult but also makes the Wexner Center a standout.

So you see that the Wexner Center, amongst the university affiliated institution is middle to top in terms of its size and in fact if you were to add the couple of million dollars that come to the Wexner in indirect support from OSU, it would grow up even further in the rankings. So this is in a short period of time, 20 years, one of the most important in terms of size of institution, amongst the university galleries, it is in the lower half when you look at free standing institutions.

The other comparison that you will see here, right under the Wexner for example in the lower part of the slide, you will see the Columbus Museum of Art. The Columbus Museum of Art is not programmatically anything like the Wexner or these other institutions, but we wanted to include it as a local benchmark for you so you understand the relative size of Columbus, of this encyclopedic museum, much more broadly focused in its program than the Wexner, and how that institution compares in these various ways we will discuss.

This is an astounding slide. Amongst university museums by a long shot, the Wexner has the greatest attendance. Now again, the fact that it is sui generis, there is no other museum like it that is university affiliated is important here because this counts film, performing arts, new media, it is not just exhibitions, and of course those are tremendous draws, programmatically.

Ms. Geldin:

Of course I can't help but from time to time count those 100,000 people streaming across campus on their way to the football stadium. No I am just kidding, but some of them do in fact visit the Wexner Center on their way to the game.

Mr. Galligan:

Well she would if she could, but there are substantial controls on her ability to do that.

The other thing I will point out, when you looked at the lower box, you will see major, major metropolitan areas here, Los Angeles, Houston, San Diego, San Francisco. These are very good numbers given the population of Columbus.

Another way in which the Wexner is on the top end is in its square footage. A footnote here is that 75,000 of that 175,000 gross square feet is attributable or allocated to the Wexner, by OSU related to Mershon, but you can also see, even if you take away the 75,000 it still is a bigger museum in square footage, although it

falls quite a bit in relation to contemporary free standing museums, it still is one of the bigger museums that is university affiliated.

This is a very important statistic for all those fantastic slides that Sherri was showing you about Warhol and the Mark Bradford show and you know the many, many high profile exhibitions that the Wexner has brought here, it does so out of a shoebox. This is a very small allocation, the building has two exhibitions, 12,000 square feet is really hardly anything. It certainly does not compare favorably with the other institutions in terms of square footage that are university affiliated then of course when you go into the broader marketplace, it is really a low number. However, you will see even though the square footage is low, you will see the Wexner Center making a larger relative investment monetarily in those exhibitions, one of the reasons, of course, is that every exhibition at the Wexner is a temporary exhibition. There is no permanent collection, and that skews this comparison because other institutions are using their permanent collection and therefore spending less relatively on temporary exhibitions, but none the less, it is fair to say that the Wexner's ambition in programmatic terms into visual arts, has been great. You do not put on a Warhol show for pennies, it is a very expensive proposition and it pays off in community attachment and involvement and also reputation as you will see in a moment.

This also is an extraordinarily telling slide. The priority that the institution places on education and of course this is related to education of undergraduates and graduate students on campus, but it also is reflective of the institutions outreach into the community and the importance of the Wexner to the community. Ranking number one amongst all these fantastic university affiliated museums and with a respectable kind of showing in the middle related to the free standing institutions.

Turning now to sources of support. One of the amazing things is that the Wexner has been able to pull all this off, with a very small endowment. You know you see these other much older institutions, that is a theme we will come back to in a moment, with huge endowments that are throwing off huge annual support to the institutions, and the Wexner's endowment I think is in the \$10 million range, so it figures in the lower part of these comparison universes in both of these categories. However one of the reasons why the Wexner is pulling off this amazing feat is its private support. To find yourself at almost the top of the heat, just a few hundred thousand dollars out of the Harvard striking distance on this measure is truly remarkable. An element of this is The Limited campaign which is a very unusual device used over many years to help fund the Wexner Center through The Limited vendor relationships. That is a component of the success, but for example to turn just to that number itself, corporate contributions, so here you are seeing the Wexner Center ranking number one. The Limited campaign contributions to the Wexner Center in this year were about \$2 million. If you subtract \$2 million from \$2.4 million, you still have \$400,000 which is still in the number one position amongst university museums and galleries. That is an incredible accomplishment. And still even in relation to the larger free standing museums, the numbers are very good in terms of the private support that the Wexner has been able to attract over the years.

This is just one slide I wanted to give you as a benchmark. If you look at the expense side and look at operating expenses and administrative expenses, where does the Wexner Center fall, and I would say it falls in the middle of the pack. It is amazing what the Wexner Center is able to pull off with the resources available.

This is one of the more astounding slides in the whole packet. Just letting you know when was it these institutions were founded against which we are comparing ourselves after only 20 years. Well hundreds of years ago is the answer to that question, or decades ago. It just is a miracle, it's a miraculous thing that the institution has the profile it does today, given it has been around for 20 years only.

So now what I am going to do is turn to these interviews with 16 directors. These are the head honchos of these institutions, and you will see, again that these are not institutions of no import. This is Harvard and it is Yale, and in the middle there you will see the international institutions that I talked on the phone with. I am asking, you know I had a half an hour with each of these individuals. It was in complete confidence; Sherri does not know the names of the individuals who made various comments, or the board of directors, because I was sworn to protect those confidences. I found it amazing, we asked 18 people to participate, 18 institutions, 16 did gladly, and the conversations were extremely candid. It would be like the dean of the law school at Ohio State, commissioning a study to ask 20 other law school deans around the country, privately in all confidence against several benchmarks, how do we compare. So this was a great adventure and risk frankly to take. These interviews were fascinating. So you are going to see these quotes, and I have got to tell you, I was the person who was listening to all these people talk, my job was to fairly report. There were comments made about challenges that the institution faces, etc., but the reviews from this peer group were simply outstanding. So these are some of the themes, you know when you say Wexner Center, what do people say? Well it is one of the foremost interdisciplinary contemporary arts museums in the US, a bright spot in the mid-US, this distinctive feature that there is no hierarchy that disciplines are presented on equal footing, very much admired. Also, the connection with Ohio State not all these people you would imagine would understand necessarily that the Wexner Center is part of Ohio State, they did in fact understand that full well, they admired it, they felt it was a key ingredient for the Wexner's success because its affiliation with an academic institution that permits risk taking and experiment was part of its DNA.

Two things the Wexner Center did out of the box that was incredibly smart: 1.) commission Peter Eisenman to build the building. This is signature architecture; it puts central Ohio on the international map in an instant, 2.) Sherri mentioned the Prize winners, those names she read are of national and international importance. The fact that they have this affiliation with the Wexner, have been here, all those hundreds of people who come every year to those awards ceremonies has meant a lot to the reputational capital of the Wexner Center and to Ohio State.

The exhibitions, I am going to go through the various programs now and the reviews that came back for exhibitions and film and performing arts, you will see a lot of comment about how things happening at the Wexner Center are happening here first and better than they happen in New York and elsewhere. This last quote, I always smile when I read it because this director, this quote went on, it had to be pared here, but he was so jealous, he was just oozing admiration on the one hand, but just if I could have had that show, I would have done anything to get that show. It came only to the Wexner Center; it went nowhere else in the United States.

Performing arts and media arts similarly well understood and reputationally at the top of their game, you know comparisons with MOMA and Sundance and Berkeley you know being less than what happens at the Wexner Center. Sherri mentioned the commissioning of artists at the Wexner Center. People know that the Center is engaged in the making of art, the commissioning of art, that began as very distinctive and again artists who come here, come here first and you later hear about them elsewhere.

It is an institution that partners with museums around the country and the world. Those partnerships are a direct result of the profile that its director and its senior curators like Chuck Helm and Bill Horrigan who I mentioned just a moment ago. The profile of the Wexner Center is distinct, these are institutions that are all wonderful, but the fact that there is parity amongst the disciplines is widely known and respected and the association with the University also very important. Here I asked them if you had to grade the overall quality, what would that be, and here is an

instance where there was one person amongst the 16 who said “well, I would give them a B+,” that was the lowest grade the Wexner Center received. These are qualities admired as being the highest quality in national and international circles by those standards.

As to the peers, the only peers that I would consistently hear about would be the Museum of Modern Art. Well the Museum of Modern Art is a peer of a type but it is an institution with a \$75 million operating budget. The Whitney, also in New York, a huge institution, San Francisco MOMA, a much bigger institution, LA MoCA, the Walker. You will notice here that the Museum of Contemporary Art in Chicago is not mentioned. This group of people do not feel that the program at MCA Chicago is as good as what you have here.

Constant reference to the fact that this is all happening in central Ohio, which is off the beaten track. Some comments on what is the strength of the institution, the last one I think will resonate in this room particularly, this gentleman making a comment about so many of these museums have so much more money than the Wexner Center, and they do not do things with it that are as interesting, things that the Wexner Center is going on much less money. Bang for the buck, often commented on. The lab environment and the way the Wex is able to leverage the other departments and resources on campus. This one of course, you know, is fly over land, and gosh we are not going to think quickly of going to Columbus with our exhibitions, we are going to think bi-coastally or we will even think about Chicago. Tremendous competition for talent. This is an international marketplace for talent not only in the not for profit sector from other museums, but from the gallery world. The people Sherri has here and has had over the years are making a big decision and a commitment to come to Columbus.

So in conclusion, this extraordinary story that after just 20 years and in spite of this geography, the Wexner Center is clearly in the first rank of US university affiliated museums and widely perceived as being on the short list of leading US contemporary art institutions. The Wexner Center is a distinctive brand, an outside reputation, mind share way beyond its years and impact way beyond its years in the contemporary arts. The reason this happened is because of the nexus, the partnership that has existed here for 20 years between a great public university, the corporate and private sector, the artistic program, the leadership of the founder and the president of the university at that time and still today. The fact that that team of years ago is still in place today is remarkable and really says everything about why this has come to be. There has been a steady hand that the rudder here, and this is the thing that most portends a wonderful future. This kind of thing does not happen elsewhere where there is often a revolving door, there are other institutions out there like my alma mater, Stanford, that is not known for its arts and humanities, it is a techie place, they let me in on some sort of affirmative action program, but today just by way of contrary example, Stanford is trying to go from ground zero, from scratch and build an arts profile and program. They are allocating \$200 million of their current campaign to do so but they do not have a Wexner Center for the Arts on campus to leverage in the way you do.

So I think, in just my final thoughts, the Wexner Center is distinguishing, it is a distinguishing aspect of Ohio State and Central Ohio and Columbus. It is levergerable; it is brandable in an association with other of the areas attractions. A way to think of it as being equally important to investments that you make in medicine and law and football. So I think it is an excellent institution, preeminence is a reasonable stretch goal in this field and it has been my pleasure to work with the staff and the board of the institution to discover these facts and bring them to light, so thank you.

(See Appendix XXXVI for background information, page 738.)

May 14, 2010 meeting, Board of Trustees

Mr. Wexner:

This was a long presentation and we have had a long day or so. Are there any questions or comments before we move on?

Sincerely appreciated, thank you.

President Gee:

Thank both of you, we really do appreciate it.

PRESIDENT'S REPORT

President Gee:

Well it is my turn. First of all let me start by sharing some exciting news, the University as you all know, is the American home to the Royal Shakespeare Company and as you now well know, they also are going to be bringing their performances to the Lincoln Center Festival in 2011, and they have just named their new theatre, the Thrust Theatre of which they will be doing all of their work, and I am going to hold it, can you read what this says? It says the Scarlet and Gray Theatre.

This is a great partnership, we just had the company here, their artistic director, their President, Lady Sainsbury, it has been a fabulous opportunity for us, and we are taking full advantage of it.

I want to take a moment to thank a couple people. First I want to sing the praises of Jo Ann Davidson. She is unable to be with us, but I hope she can hear me, I will sing fortissimo. Jo Ann is a member of our Board who will be leaving the Board at the end of her term which is this year, and in this instance though, she really provided fabulous leadership for the overwhelming passage of State Issue 1 – The Third Frontier. With that the renewal of Third Frontier, it really tells the world that Ohio is determined to lead in this country's knowledge economy. So I am grateful to her but I am grateful to every member of this Board for their good work and for everyone out there. I see my faculty, colleagues and others because we all work very hard. So she is leaving on a high note.

We have two other Trustees leaving, first of all, right next to me is John Ong, Ambassador Ong as you all know, has given unprecedented service to this University from the very beginning of his tenure as a student. He has an unparalleled dedication to the academic mission. John as a corporate leader in this country, one would think of him in that vein, but John is by inclination a true academic, so we are honored that he has served on our Board, and he has provided unmatched professional experience to all of us.

I am very sorry to be losing Jason Marion. Jason you are down there on the other end. Jason will graduate soon with my name on his diploma and I will cherish that. Jason has been a unique member of our Board because he has a quality of going to the core and to it in a way that I think provides us all insight into the value of students and students in their views of the world. So I really do appreciate Jason being here.

I want to note a few other highlights from the past few months. I was honored to testify before Congress with Jeff Wadsworth, who is the president of Battelle, about the Metro School. Many of you may or may not know, but the Metro School has been designated by the Gates Foundation as the finest school of its kind in this country.

May 14, 2010 meeting, Board of Trustees

That is the reason we were there, to make that presentation. Its first class will graduate next month and I am looking forward to speaking at the ceremony.

We have strengthened our relationship with our Alumni Association who is housed in this building and that is being finalized as we speak. Linda Kass, our Board member chairs our implementation committee and is doing a terrific job.

I want to note David Horn, David will you raise your hand there. David, stand up, come on David stand up. David has joined our Board's Academic Affairs and Student Life Committee, Professor Horn, by the way is a very distinguished scholar on this campus. He lives in the comparative studies department and in addition he has exceptional record of leadership with faculty governance. David we are really appreciative of your take on that chore.

In academic life, spring awards are abounding and I love to do this one thing. I go out secretly and find faculty in their rooms, sort of like your visit from the SPHINX folks, and we will walk in and give them an apple and tell them that they have been designated as one of our exceptional scholars or teachers or leaders. We have 19 of them this year and so their work is being truly recognized. I hope the Board will have the chance to see some of their profiles.

In the past couple of months the *New York Times* has featured the Wexner Center as we have just heard, Short North and Gallery Hop. Also featured were the work of several of our faculty stars, Janice Kiecolt-Glaser and Ron Glaser, who are doing this research on couples and the benefits of strong personal relationships and their affect on the immune response, and that has been widely recognized.

Campus Partners received a national award from the American Planning Association for collaboration to revitalizing our Weiland Park neighborhood. Our stock continues to rise in rankings by U.S. News and World Report, I do not believe in them, but I increasingly believe in them as I always say. The magazine released the assessments of our graduate program as we continue to spring forward. The University has 11 programs now ranked in the top 10 nationally. That is quite extraordinary.

Earlier this week, participated in the 15th annual Denman Undergraduate Research Forum. This is now, I think, the largest research forum for undergraduates in the country and it is one of my favorite events. Five hundred and fifty students, 350 judges, research on everything from the depth of magma chambers in Hawaiian volcanoes to athleticism in European dance training.

By the way, I just have a news flash, the Buckeyes won the spring game, I want you to know that. With some 65,223 fans, it seems like September is just too far to wait. I will just have to make this as aside, I have seen all the polls and our football team is a consensus #2 team coming in, so that is a little frightening, but nonetheless we are there. I think that we will look forward to a great season.

Finally I want to note that we have opened two new facilities on campus; our new Student Academic Services Building which streamlines much of our students' contact for financial aid, registration and support services. One stop shopping, finally.

A month ago 1,200 students, faculty, staff, alumni and friends joined all of us in the Archie Griffin Ballroom to officially christen the new Ohio Union. It is a great facility recognizing the fact that we were the nation's first public university to offer a student union more than a century ago. It is the newest, it's the biggest, it's the best. It is a fabulous facility. Since opening, the Union has hosted everything from a memorial service to the United States Supreme Court Chief Justice in the 6th Circuit, who were

May 14, 2010 meeting, Board of Trustees

here last week to fashions shows. So to celebrate the new building, our students devised one of the cleverest public displays I have ever witnessed. For any cave-dwellers in ear-shot, the students created a flash mob in the Ohio Union. Now this was terrific planning and execution, it is the hottest video on YouTube. Our communications staff by the way ran with the ball and the story has been picked up by more than 375 media outlets. Our students' creativity and spirit brought the best press money cannot buy. We cannot buy what that meant to us. I, by the way, cannot get enough of the video so I wanted to take this opportunity to show it again. Here we go everyone, could we show this thing.

OSU FLASH MOB [VIDEO]

Okay, other than that doofus on the end, everything that I am talking about, of course, Brutus. Come here, would the three of you stand up. I want to introduce these three young people here. On the left is Tracy Stuck, who is our Assistant Vice President and Director of the Union. Has done a fabulous job. That Union represents every bit of her life blood for the last 4-5 years. Next is Jordan Davis. Jordan was the instigator of the flash mob, and she also did a little bit of the choreography, and next to her is Luc Nutter, who is going to be a very famous film director because he was the one who did all the filming. So, would you give them a round of applause?

Anyway, thank you guys. Do you want to say anything? Just say thanks.

That ends my report Mr. Chairman.

Mr. Wexner:

I think this has a future, and it might be like Script Ohio.

Dr. Cloyd:

An editorial comment related to the STEM School. To me this is another example of what a great University this is in stepping forward to meet an important societal need, and it is easy, I think, to move quickly past it. A few years ago there was a very sobering report issued by the National Academy of Sciences, *Rising Above the Gathering Storm*. It was a very sobering report because it outlined how far behind the United States was falling in science, technology, engineering and math, and when you think of a globally competitive marketplace and the importance of innovation, really highlighted for many of us the fact that the economic leadership in the wonderful country we have had is not an entitlement, it is something we have got to continue to earn. In that regard, when you see statistics that show the United States way behind others in these fields, and falling further behind in the education, it just created a crying need for schools that could interest young people in science, technology, engineering and math, and not only interest them, properly prepare them. The fact that Ohio State and Battelle and I think we have to give great kudos to our friends at Battelle for what they have done in this area, but what this University has done, the administration and the faculty of this University not only creating a wonderful school, but also doing the pioneering work, which will be a journey on how do you continually prepare teachers, so that they can create the environment for students to excel in science and technology, and math. I think this is a real landmark accomplishment for Ohio State and I just really compliment and thank everyone on the administration and faculty here who have brought this leadership and also again our friends at Battelle who have been key leaders on this.

Mr. Wexner:

I am really glad you highlighted that Gil. That is deserving and it is appropriate that we recognize that kind of excellence and contribution.

May 14, 2010 meeting, Board of Trustees

Any other good and welfare remarks? They seem to be flowing today.

Let's now switch to Committee reports and begin with the Committee on Trusteeship, then Audit, Medicine, Development, Academic Affairs, Fiscal Affairs and Agricultural Affairs; so we will start with Trusteeship, Alex.

-0-

COMMITTEE REPORTS

Mr. Shumate:

Thank you Mr. Chairman. We met as a Committee yesterday afternoon and as always a very robust and thoughtful discussion on important issues of governance. First we looked at the Trustee profile. As you know we constantly update our profile because it is a document that we use as a base document when we are recommending possible appointments to our Committees as well as positions such as Charter Trustees. And it is an inventory of the expertise, the skills, and the experiences of our Board members. As President Gee outlined, two of our Board members terms will be ending, three actually with Jason's term ending as well, and the Governor will be appointing new Trustees, so we will update the skills analysis because we want to use that as the foundation for our evaluation and recommendations of our Charter Trustees, to make sure that we have the skill sets, the experiences in place to help us with our strategic goals and objectives on behalf of the University.

Secondly, we looked at our Committee and work group structure. We have just passed out to each of our Trustees two documents. Again in the spirit of the strategic and the policy focus of the Board, we are constantly evaluating our Committees and work groups to make sure that they are aligned with the present needs of our Board, based on the strategies, goals and objectives. This afternoon we have two recommendations that in fact reflect recent developments in the strategic focus of the University. First is the recommendation of the creation of an Advancement Committee. As President Gee pointed out, Linda Kass has done an excellent job working with a work group in Steering Committee in furthering the recent combination of the Alumni Association with the University, and at this point in time as we look at our Committee structure, we are recommending that to further the integration as well as to move to the level of governance that's appropriate for this important issue, that we create an Advancement Committee. Again a Board level Committee that will be focused as the document in front of you reflects on, policy and strategy relating not only to alumni relations but to development, communications and marketing. This is a very important Committee and the Committee would recommend wholeheartedly that you adopt this language to establish and create the Advancement Committee along with the membership, which would be five members of the Board of Trustees, two members of the Alumni Association governing board, and two members of the University Foundation Board. Let me pause there to see if there are any questions or comments from other members.

In addition, Mr. Chairman, we would like to recommend in the spirit of reorganizing our Committees, the creation of the Investment Advisory Group. Since the Development and the Investment Committee will be merged into the Advancement Committee, we believe in the area of investments, and we have consulted with our vice president and chief investment officer, that it is important to create a work group which would be an advisory group, to the vice president and chief investment officer of the University and the Office of Investments, and there is a detailing in the document before you of the focus of that advisory group. The group will be advisory and the membership that is recommended is two members of the Board of Trustees,

May 14, 2010 meeting, Board of Trustees

and non-trustee members with expertise in the field. This Committee and the advisory group would serve with three year renewable terms, and we are actually bringing this back for a vote in June. This is for informational purposes and discussion. As I indicated we had a very robust discussion of these two recommendations, but the sense of the Committee is to recommend adoption by the Board. Any questions?

And finally, we are continuing to work on the document and instrument for our Board self-evaluation. Again in the spirit of good governance, principles and practices, we will be engaging in a Board self-evaluation process and bringing that document back to the Board for analysis review in June.

That completes my report, thank you.

Mr. Wexner:

Thank you. Bob, Audit please.

Mr. Schottenstein:

The Audit Committee met twice since our last meeting. First on April 15, and unlike our regular meetings, the April 15 meeting was devoted exclusively to our Affiliated Entities Policy. Review and oversight of select affiliated entities. By way of background some of you will recall that a number of years ago we had a separate standing Board Committee on affiliated entities and the sole purpose of that Committee was to review and monitor the activities of the Universities various affiliated entities. For a number of governance related reasons, that separate affiliated entities committee was eliminated and all of the review monitoring and oversight responsibilities were delegated to the Audit and Compliance Committee. At that time, the University, through the Office of the General Counsel adopted policies and guidelines for affiliated entity review and those policies were approved by this Board. During our meeting on the 15th, we reviewed and discussed those policies again, making certain we remain comfortable with the what and the why regarding the policies themselves, and the need for the benefit of, and the manner of monitoring affiliates. At the April 15 meeting several other things that we did do, involved approving proposed amendments to the documents governing the Pelotonia affiliated entity. Campus Partners provided a financial report detailing their current operating condition along with their five year business plan. We also discussed the possible establishment of three new affiliates. In connection with that discussion, and let me mention first also that the affiliates that we discussed at the April 15 meeting, which we will be bringing to the Board today, were the BioOhio Research Park, the P4 Medicine Institute and China Gateway LLC. At the April 15 meeting in discussing these new affiliates, we reminded ourselves of the various guidelines which I will just take a moment to review with all of you. One, that the proposed affiliate must demonstrate a mission that promotes, sponsors or compliments the mission of the University, they must submit a five year business plan that demonstrates proper stewardship, there must be a senior university official designated by the President to coordinate the operations of the affiliate, there must be a detailed plan for governance of the affiliate. One of the most significant items is a memorandum of agreement, which is really sort of the roadmap or rules that govern why the affiliate is being created, what the business purpose of the affiliate is and detailing the relationship between the business of the affiliate and the University. In each case we reviewed those items as it relates to the three proposed affiliates.

Then yesterday the Audit and Compliance Committee also met and at that meeting we had a compliance report on athletics, and also a compliance report on research, both of which were very favorably received. Deloitte and Touche are the external auditors for the University, reviewed their audit plan for fiscal year 2010. We

reviewed the results of the peer review of our internal audit department. Every five years as part of the operation of our internal audit function, our own internal audit department is reviewed by outsiders. In this case the chief internal auditors from Michigan State University, University of Cincinnati and the University of Michigan, came to campus, spent some time here, interviewed a number of people, reviewed the processes, procedures, guidelines and methodology by which we undertake this function and I am happy to report, and I think all the members of the Committee would endorse strongly, the results of the peer review and that is that they were very much commended of the operation of that department, which is led by Kevin Patton. I think Kevin is here today, and we appreciate the good work that the internal audit department does.

Yesterday we also talked about the selection process for choosing, either choosing or re-choosing a new external auditor. By state statute, every five years we must go about the process of having Request for Proposal (RFP) submitted for selecting a new external auditor. Deloitte has been the external auditor of the University for the past five years and we will over the next several months, be starting the RFP process as we select, either re-select Deloitte or select a new external auditor beginning with fiscal year 2011. As part of that process we had a very good discussion. Mr. Brass who chairs the Medical Affairs Committee participated in the discussion where we revisited the issue of whether the Medical Center should seek a separate standalone audit. Right now the Medical Center is audited as part of the roll-up of the University but if it were to receive a separate audit, the materiality thresholds would be significantly lower, recognizing ten years ago the University's budget was probably smaller than what the Medical Center's budget is alone today. We had a discussion concerning whether this represented a practice that we would want to pursue. Everyone should understand it is not because we believe that there are things going on at the Medical Center that require an audit, other than, this is just something that is good oversight. Particularly with ProjectONE and the tremendous growth and certainly the importance of the work of the Medical Center, the recommendation coming out of the Committee, which was endorsed by our Chief Financial Officer Geoff Chatas, is that, as part of the RFP process, we also seek a separate RFP on a separate audit, or include that there would be a separate audit of the Medical Center. And that is being recommended today, and there is no formal action, I believe required on that, but that is just for the Board to know that that will be happening.

Finally, as part of the consent agenda, we did approve the establishment of the three new affiliates that we reviewed at the April 15 meeting, those being BioOhio Research Park, the P4 Medicine Institute and China Gateway, we believe they met the standards that I talked about a few minutes ago and we recommend that this Board approve the establishment of those affiliated entities. That concludes my report.

Mr. Wexner:

Thank you. Questions?

Bob, do those recommendations require a vote, or just a consent?

Mr. Schottenstein:

The approval for the establishment of the affiliated entities requires approval of this Board, and that is in the consent agenda. The matters concerning the separate audit of the Medical Center, do not, at least that is my understanding.

May 14, 2010 meeting, Board of Trustees

Mr. Wexner:

No other questions. Alan Brass.

Mr. Brass:

Yesterday the Medical Affairs Committee did meet and we had a very bold agenda to get through, but we did. In summary, first the scorecards continue to be very strong, rather to get into them because of timing, I will just tell you that both the financial scorecards, ProjectONE scorecards are meeting all of our expectations and in many cases exceeding expectations, so we are looking very good there. We had a little discussion yesterday as part of the fund development program which we will be focusing our attention on. Basically it is the \$75 million, which is part of ProjectONE. The project is moving forward, we plan on it continuing to move forward and we plan on making sure that we are monitoring the fund development part of that program very carefully.

The next thing I would like to mention to you, and something that in fact is very important. It has been a year in the making, it is not here for approval today, but that is the integration of the Ohio State University's Physician Practice Plans, into our University, and into the health system in its totality. This is a very complex project; it has been worked on very diligently by many, many people. I think we are down to the final couple of issues I expect this to be brought forward at the next Board meeting. I believe this will be something under healthcare reform that will allow us to excel as an academic medical center that also has a medical system as part of that university. When you think of global billing, when you think of quality and safety, when you think of retention, and I could go on and on. This is a great move for the University. I have to compliment the faculty; they have been absolutely wonderful trying to work through this. We are down to one issue and that is the pension integration. Of course that is important to each of them and their families, but I think we have just about worked that through as well. So compliments to all that have been part of that.

ProjectONE, in summary, to date, we have authorized \$277 million of construction against the \$988 million project. The largest project this University has ever undertaken and one of the largest medical projects in the country taking place today. In June we will be requesting approval for another \$297 million that will take us into technology acquisition, steel acquisition and the foundations. That is an important thing coming up at us.

I have asked Dr. Gabbe to do two things today, one is to share with you a thirty second clip, it does pale in comparison to our dancing, but if in fact this little 30 second presentation is true, we will be on time and on budget with this project, which is our goal set. In fact maybe even under budget. In addition to P4 that Bobby Schottenstein just mentioned to you. It is here for approval today, the Medical Affairs Committee also approved this yesterday. The importance of P4 as a change element is going to be unbelievable as it relates to the future of medicine. So I asked Steve to just say a few words about that. So Steve, could we dim the lights.

[VIDEO PRESENTATION]

Dr. Gabbe:

This animation has been prepared by Turner Bovis our construction manager firm, and what is orange is new. On the orange you can see the electrophysiology labs and building on top of Prior, you can see that the Means Hall sight is now gone, and the building is going to start. We are going to begin by constructing the elevator cores and the steel going up, you see the two construction cranes as the floors are

May 14, 2010 meeting, Board of Trustees

built out. First the pavilion and then the critical care floors and then the James Cancer and Solove Research Institute floors, topping off about March of 2012 you see the green roofs, we are looking of course north to south, these will be actual green roofs on the north side of the hospital, there will be some on the south side as well. The yellow designates the completion of the interior floors. With the completion date being October 2013. That is accelerated six to eight months as a result, thank goodness of the construction reform legislation.

I also want to invite everyone here to the groundbreaking for ProjectONE which is going to be at 3:00 pm on Friday, June 18, at the time of the next Board meeting, so we look forward to having you there.

Just a brief comment about P4 Medicine Institute, the Board of Trustees approved, the Center for Personalized Healthcare in 2005, so we have been working hard in this area for a number of years. It is part of our mission statement to improve people's lives through personalized healthcare, which emphasizes prevention and wellness around an individual's lifestyle, environment and genetic composition. Clay Marsh is our vice dean for research and the director of the Center for Personalized Healthcare at this time, and we have a unique opportunity to partner with the Institute for Systems Biology in Seattle, led by Dr. Lee Hood, one of the most prominent scientists in this field worldwide with their unique development of technologies that can be applied to medicine that is predictive, preventive, participatory and personalized. We are the only academic and clinical partner for the new P4 Medicine Institute and that places us in a very unique position to transform healthcare not only on our own campus but throughout Ohio, and we hope the nation. This is a very special opportunity for us.

President Gee:

Because of the fact that I asked Dr. Hood, I know his reputation, he is a Lasker Award winner, one of the leading scientists in this country. I said not with any agenda, I just said, how in the world did you finally settle on Ohio State in terms of this partnership and he noted, and I had not realized that he had been a department chair at the University of Washington with Dr. Gabbe, he said he felt that the quality of our leadership here and the commitment of this University to this new facility made us almost uniquely positioned for this P4. This did not just happen, this was out of good work on a lot of peoples parts, and thanks to Dr. Gabbe and his leadership in that regard.

Mr. Brass:

I will tell you the academic medical centers across this country that wanted this program, including the university just north of us. Everybody rolled out everything to try and get this. Lee Hood is funded at \$100 million to get this up off the ground already. I do think it will be transformational, using a word we used this morning, as it relates to the future of medicine, and here we are one of the founding members, academically with that program, and Dr. Gabbe and Dr. Marsh will be two of the four board members on that new program. So congratulations to all, it is an important program here.

The next thing I would like to highlight quickly is the fact that we saw the latest draft of the ambulatory care program, the outpatient care program for the medical center. Normally I would not highlight that other than the fact that the magnitude of this program is getting very large. Right now we are currently seeing an excess of 100,000 patients a month, and it is scheduled to go to 200,000. That is in satellite programs, which is on the main campus, it is part of ProjectONE, and we are putting a lot of emphasis working with McKinsey on that very carefully to make sure we have the strategies and the priorities set correctly.

May 14, 2010 meeting, Board of Trustees

I would like to highlight that on the consent agenda today we have two bylaw changes. Those are cleaning up all the bylaws as it relates to the introduction of a Medical Center, changing chairman titles to chief titles, making sure that in fact it requires Board, in the case of the James Cancer Center, requiring board certified physicians as members of the staff and so on. You will see that on your consent agenda. The last thing I had was something Bobby highlighted already and that was we are going to do a separate audit and especially with healthcare reform and ProjectONE and the growth of the Medical Center, this is the right thing to do. We do not have a problem, this is to improve and I think we are making the right decision. That completes my report Mr. Chairman.

Mr. Wexner:

Thank you very much. Questions?

Wally.

Mr. O'Dell:

Thank you Mr. Chairman. The Development and Investment Committee met yesterday afternoon. First, Mr. Peter Weiler reported to the Committee on fiscal year 2010 fundraising activity. Through March total activity was \$185.4 million, down about 15% compared to the prior year. Cash and security gifts are up slightly by 2% at \$55.2 million. Due to the environment this year, new pledges are well below last year. Conversely planned giving, where we focus much attention and effort, is up 6% and we expect even more success in this area going forward. The fundraising team is having success in several significant areas. Total donors are up, which shows growth in our base. Through March, 106,796 individuals or organizations have donated to Ohio State, roughly 20,000 donors over this time last year. We are successfully closing gifts of \$5 million and up. Through March, we closed four at that level and we have at least four additional ones we hope to close by June 30. We are doing well with gifts of \$1 million and up. Through March we closed 15 and momentum is building as we continue to plan for the campaign.

Our fundraisers are seeing more people and soliciting more people, feeding the pipeline, which will drive our numbers for next year and beyond. The focus now is pushing to close significant gifts this year. Currently there are 433 proposals open, totaling \$227 million, some of which will close this year. We are seeing great momentum with Students First Students Now. Through March, \$62.3 million has been raised for student support, which is 62% of the \$100 million goal with only 50% of the time elapsed. Since the Students First initiative started in January 2009, we have created 316 new scholarships, fellowships and student support funds at this University, including 22 new endowed scholarships being established at this Board Meeting.

Peter also reported on ProjectONE fundraising progress. With the Board's approval of the project, new collateral material has been developed, naming opportunities identified, and the fundraising staff is very active with almost \$30 million in new proposals outstanding. They remain very confident. Also Mr. Bill Mountcastle starts next week as the new associate vice president for Medical Center Development, and we look forward to his arrival.

In summary, the strategic focus of development is the building of our base of donors, targeting principle gifts and developing our resources where we will get the highest return. The Development report was accepted, and is item number 19 on the consent agenda.

May 14, 2010 meeting, Board of Trustees

Following Mr. Weiler's report, Mr. Jonathan Hook was asked to provide an update on the progress of the long-term investment portfolio. The last 12 months to March 30, 2010 have been strong. Diversified investment returns of nearly 30% off the bottom of the markets early in the previous year. Good performance has been seen across many asset classes and equities to debt the hedge funds. The economy is now expanding and some job growth finally is occurring. Housing markets look to be following suit with some minor strengthening as well. Even with these positive signs, there are more negatives to address with the global debt problems including in the Euro zone, changing tax policy, and easy year over year comparables ending for corporations. Fiscal year 2010 results are up 18.5% through March with results from April expected to continue the positive trend. Performance against the portfolio benchmark is up nearly 300 basis points through the nine month, showing great improvement over the prior year. As a result of the returns, the long term investment portfolio totals have moved back in excess of \$1.9 billion. The balance of 2010, the plans are to reduce our portfolio's equity exposure a bit more to prepare for an increasingly volatile environment. Those dollars will be redeployed in the areas that are lower risk and are into more inflation protecting investments such as commodities and energy. Following the update on the portfolio, discussion ensued over a review of the investment policy, and the first reading of two perspective changes to be voted on at the next Board meeting.

The first perspective change discussed was to adjust two benchmarks to provide a better more appropriate fit for portfolio evaluation. If they are approved, they will become effective July 1, with the new fiscal year. The second perspective change related to making the language across several sections of the policy consistent. In certain places the policy allows the CIO and the CFO to take actions, and in other places it allows one or the other to take action. The request would be to make all sections consistent, where either could take the necessary actions. Lastly one small section, applicable to fiscal year 2009 only, would be removed from the policy due to the passage of time.

We ended with a question and answer session, then we adjourned.

That completes my report, Mr. Chairman.

Mr. Wexner:

Thank you, any questions?

Ambassador Ong:

Thank you Mr. Chairman. At our meeting yesterday of the Academic Affairs and Student Life Committee we first heard a presentation on campus safety from Dr. Martha Garland, acting vice president for student affairs. Dr. Garland explained to us that the University is prepared to deal with many kinds of emergencies but in her presentation she focused on situations involving disruptive or distressed individuals who could pose a danger either to themselves or indeed to others. She informed us that the University has numerous resources for dealing with such situations. Principles among these resources are the faculty and staff assistance program, which is administered by the Office of Human Resources. The counseling and consultation service, which is part of the Office of Student Life and of course the University Police.

Specially constituted teams can be assembled from among these groups to recommend solutions involving a faculty and staff member or indeed a student. Dr. Garland noted that Ohio State's structure for assisting troubled students is considered to be a national model. She then gave each of us a copy of a folder that has been distributed by the administration to all teaching staff on campus. Printed on

May 14, 2010 meeting, Board of Trustees

the folder is information for dealing with student safety. Dr. Garland also told us that the Offices of Academic Affairs and Student Life are working to raise awareness of the role that faculty and staff play in first recognizing and then referring troubled individuals to people who can give them assistance. The Committee was favorably impressed by everything that we learned from Dr. Garland on this subject, but during Committee discussion, it was suggested that in addition to these things, the administration might want to take a look at their practices regarding background investigations for perspective staff employees.

Following that Dr. Garland turned to a discussion of the creation of a student legal services program which would provide certain limited legal services to students as they relate to student welfare or the advancement or completion of their education. The Committee had previously heard about this proposal on two occasions from Dr. Javaune Adams-Gaston and we were asked to endorse a resolution approving its establishment. We did so, and that approval is on the consent agenda.

Vice President for University Development Peter Weiler then briefed the Committee on proposed amendments to the procedures for submitting and processing requests to name physical spaces at the University and programs, and other things which have naming rights. These amendments pertain to commemorative, honorific, and administrative naming requests. The Committee voted to recommend that the Board approve these changes. Once again, that is a consent agenda item today.

Vice Provost William Brustein for Global Strategies and International Affairs next discussed the establishment of the Ohio State University China Gateway. A new affiliate in the people's Republic of China, designed to promote collaboration between Ohio State and institutions and organizations in the people's republic. Dr. Brustein had discussed the creation of the gateway at the Committee's meeting in October and Executive Vice President and Provost Joseph Alutto provided additional information on that subject in the February meeting of the Committee. The Committee in this case voted to recommend the approval of the creation of the gateway and as I have said, it as well is on the consent agenda.

Finally, the Committee received a motion to approve 9 additional items that are on the consent agenda. This was moved by the provost and the committee has reviewed those and voted to recommend the approval of all nine by the Board.

That represents my report.

Mr. Wexner:

Thank you. Any questions? Thank you then.

Bob, do you want to try to fill in for Jo Ann Davidson.

Mr. Schottenstein:

Anyone that attended yesterday's Fiscal Affairs Committee meeting knows that cannot be done, but I will try. We actually spent quite a bit of time at yesterday's meeting talking about Jo Ann and what an extraordinary leader she has been on this Board, and how much she has meant not just to the entire Board, but in particularly the Fiscal Affairs Committee. We had a fairly brief agenda, but we managed to fill up all the time. The first item was the financial update from Mr. Chatas, is Geoff back there? I thought I might ask him, our performance is sound thus far through the current fiscal year, but I thought I might ask Geoff if he would to take a minute to sort of highlight where we are.

Mr. Chatas:

Thank you Mr. Schottenstein. I reported to the Fiscal Committee yesterday that overall the financial condition of the University remains strong. We discussed enrollment, and enrollment year to date at both the Columbus and the regional campuses exceeds budget. The enrollment for the fall 2010 quarter looks strong as well. We then turned to the Health System where we discussed that financially for the first nine months of fiscal year 2010, the systems actual volumes, revenues and expenses track close to budget and cash and debt service indicators were above target at the end of March. We then discussed the state revenues and we continue to monitor state revenues for the fiscal year. In April 2010, the state tax receipts related to income tax for 2009 were down, however I did have a discussion with the manager of the state budget and the state remains optimistic that they will be able to fulfill their commitments for the remainder of the biennium. Then finally we discussed liquidity and short term investment earnings. Liquidity continues to remain strong at the University through the end of the third quarter of fiscal year 2010. Actual income from short and intermediate term investments was approximately \$6.3 million, and income for the year is projected to be \$15.4 million. That concludes my report.

Mr. Schottenstein:

Thank you Mr. Chatas. Just to conclude the items from Fiscal Affairs. The second agenda item was an update on ProjectONE from Dr. Gabbe and Jay Kasey. As Mr. Brass mentioned a few moments ago, all metrics are pointing in the right direction. We had a quarterly report on those major items against which we waive competitive bidding. That report was provided by Mr. Chatas. The Committee was satisfied that in each case it made sense. We also heard from Lynn Readey, her report on the status of major quarterly construction projects. Whether they are on time and on budget and the projects were the Ohio Union replacement, which was \$118 million project, completed on time, on budget. The project is pursuing LEED certification at this time. The Student Academic Services Building, which President Gee referred to in his report, a \$32 million project, completed on time and on budget, also striving for Silver LEED certification. The Lane Avenue Parking Garage, a \$31 million project, complete and open on time and on budget, adding approximately 1,400 new parking spaces. The renovation of Cunz Hall, which is a \$24.3 million project, it is just recently begun, and it will be the first full building renovation at Ohio State to be undertaken, pursuing a LEED Silver certification. And the OARDC, Animal and Plant Biology project, a \$22.3 million project, construction began several months ago and is expected to be completed in the fall of 2011. As with all the other projects I just mentioned, at this point it is on time and on budget, so that was a very good report.

Then there are five items that will be on the consent agenda. One involving amendment of University debt policy, a correction to item #22 on the Consent Agenda of the authorization to enter into and increase professional service contracts and construction contracts, the approval of a lease agreement and the purchase of a small strip of property, and then perhaps the most significant of which, the action to increase tuition and user fees for fiscal year 2010 and fiscal year 2011. I will remind everyone that since our last Board meeting, a small sub-committee of the Board, in public session, made a recommendation to increase the tuition and user fees from between 1-3%, depending upon the classification, and that action was approved by the Fiscal Affairs Committee unanimously and will be on the consent agenda as well.

That concludes my report.

Mr. Wexner:

Thank you Bob/Jo Ann.

May 14, 2010 meeting, Board of Trustees

I like when Jo Ann says it better, frankly, but I appreciate it.

Jack, do you want to talk about Agricultural Affairs.

Mr. Fisher:

Good afternoon Mr. Chairman. The Agricultural Affairs Committee took to the road and I want to thank Dean Moser and Dr. Slack for hosting us at OARDC for both a site visit and our Committee meeting. Our visits included the BioOhio Research Park that we have been talking about today and I will come to that at the end. We had the opportunity to visit the Agricultural Technical Institute, reviewed housing, engaged in some conversation and lunch with students there, did eat at the student cafeteria and visited one of the major programs there in the floral shop. Very impressive!

We also went to the quasar bio-digester which is part of the research park and a great opportunity for Ohio State to be a leader in the bio-refinery industry, converting a multi-waste stream waste, both of animal waste, food processing, all types of waste converted there on campus to electricity. Other byproducts that can be used for heat generation all the way to compressed natural gas, which can actually contribute to gas distribution in the area. A very exciting research project there at the research park.

We also visited the plant and animal agro-security facility, the PAAR facility that we have talked about on this Board for several years, and actually we did see the construction site, there is a hole in the ground, and we are on the way there with that facility.

There is a lot of interest today in local food production and the ability to take this both in the inner city, urban setting, and in rural communities. We visited those research plots dealing with fruit and vegetable production in small areas using hoop housing, high tunnel production practices. Very impressive and something that can be adapted to our customers across the state.

Also visited the bioproducts and bioenergy research labs, and had a chance to review and learn about a couple of the Third Frontier projects that we have been talking about.

During part of our Committee meeting we had an update from the College of Food, Agricultural, and Environmental Sciences and I am happy to report that 2009 enrollment showed a modest increase, including an increase in our minority student enrollment. Our study abroad programs continue to grow, and we are up to 21 now, and maybe most importantly again last year, 90% of our graduates at the time of receiving their degree, or shortly after, did have employment, and 82% of those graduates take their first job in the state of Ohio, so we are pleased about that.

Relative to the BioOhio Research Park, the Committee did do a program review and does endorse the creation of the Research Park, and asked to be kept regularly apprised of its development and operation.

That completes my report.

Mr. Wexner:

Thank you. Any questions.

Before President Gee presents the consent agenda, it just strikes me that the personal appreciation and the world should know how hard the Board is working, and the Committees are working to get the work done, but also in a cross

collaboration way and there are many working groups that almost go unnoticed that are outside the Board Committees. I was thinking about the work that Gil has done with commercialization, tech transfer, innovation on the development committee, Ron Ratner had to leave early, but he has put, I think, two solid years of effort into the master planning and has had support from many of the faculty, staff and other Board members, so the work of the Committees and cross committees, the communication I think is quite healthy. I also think the point that Gil made about the outreach and the engagement of the University in the STEM school caused to remind me of the importance of Gordon's leadership and the University's support for Third Frontier because of how important that is to the state. Obviously helps the state grow and develop. Jerry and I were talking about the University's cooperation with Nationwide and help managing the Arena but largely helping the community solve and work towards a better solution of community problems. I think it just pauses me to reflect on, if you would, a high engagement model that we as the University have across the constituents of the University. And last but not least when I hear state officials talk about Ohio as being the engine for economic development, Ohio State being the engine for economic development in the state, it does make my heart pound. All these things are just litmus tests of the vitality of our institution and its transformer or transponder, trans-sender.

-0-

CONSENT AGENDA

President Gee:

Thank you Chairman Wexner. As we begin I want to make special note of the significance of the University's establishment of three new affiliated entities. We do not enter into these arrangements lightly or with haste. What is particularly important with these new affiliations to my mind is that they are visible evidence of our public purposes, our forward momentum and certainly our aggressive approach to partnerships, as our chairman just noted, all for the benefit of the University's future, but equally so for the state's future. Those are BioOhio Research Park in Wooster, P4 Medicine Institute, and the China Gateway. These new affiliated entities capture the breadth of the University's existing excellence and its promise for the future and very significant efforts indeed.

Today we have a total of 27 resolutions on the consent agenda with changes in items number 22 as stated by Mr. Schottenstein as reported and we are asking that a separate vote be held for item 17 due to a conflict of interest, therefore we are seeking approval for the following:

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 2010-72

Synopsis: Approval of the following amendments to the *Rules of the University Faculty* is recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the *Rules of the University Faculty* as approved by the University Senate; and

WHEREAS the proposed changes in the *Rules of the University Faculty* were approved by the University Senate on February 11, March 11, and April 15, 2010:

NOW THEREFORE

May 14, 2010 meeting, Board of Trustees

BE IT RESOLVED, That the attached amendments to the *Rules of the University Faculty* be adopted as recommended by the University Senate.

(See Appendix XXXVII for background information, page 752.)

**AMENDMENTS TO THE BYLAWS AND THE RULES AND REGULATIONS OF THE
MEDICAL STAFF OF THE OHIO STATE UNIVERSITY HOSPITALS**

Resolution No. 2010-73

Synopsis: The amendments to the *Bylaws and the Rules and Regulations of the Medical Staff of The Ohio State University Hospitals* are recommended for approval.

WHEREAS The Ohio State University Hospitals Board pursuant to bylaw 3335-101-04 of the *Hospitals Board Bylaws* is authorized to recommend to the Board of Trustees the adoption of amendments to the *Bylaws of the Medical Staff of The Ohio State University Hospitals*; and

WHEREAS these amendments were approved by the University Hospitals Board on January 28, 2010, and the Medical Center Board on February 3, 2010:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments are hereby adopted, effective immediately.

(See Appendix XXXVIII for background information, page 771.)

**AMENDMENTS TO THE BYLAWS OF THE MEDICAL STAFF AND RULES AND
REGULATIONS OF THE MEDICAL STAFF OF THE ARTHUR G. JAMES CANCER
HOSPITAL AND RICHARD J. SOLOVE RESEARCH INSTITUTE**

Resolution No. 2010-74

Synopsis: The amendments to the *Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute* are recommended for approval.

WHEREAS The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board, pursuant to Bylaw 3335-111-11 of the *James Cancer Hospital Board Bylaws*, is authorized to recommend to the Board of Trustees the adoption of amendments to the *Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute*; and

WHEREAS the proposed amendments to the *Bylaws and Rules and Regulations of the Medical Staff of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute* were approved by The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board on January 27, 2010, and the Medical Center Board on February 3, 2010:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments to the *Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff of The Arthur G. James Cancer*

May 14, 2010 meeting, Board of Trustees

Hospital and Richard J. Solove Research Institute are hereby adopted effective immediately.

(See Appendix XXXIX for background information, page 786.)

REGIONAL CAMPUS BOARD APPOINTMENTS/REAPPOINTMENT

Resolution No. 2010-75

Synopsis: Approval of appointment to The Ohio State University Mansfield Regional Campus Board is proposed.

WHEREAS the Board of Trustees in 1994 approved the establishment of The Ohio State University Regional Campus Boards; and

WHEREAS it has been previously stipulated that "the board shall be composed of ten members appointed by The Ohio State University Board of Trustees in consultation with the president of the university;" nine members shall be private citizens; and one member shall be a student; and

WHEREAS the following named person has been nominated and selected for appointment to the OSU Mansfield Regional Campus Board for the term specified:

Mansfield Regional Campus Board Appointments/Reappointment

Patrick A. Heydinger (1st term) – effective 7/1/10 through 6/30/13
Pamela H. Siegenthaler (1st term) – effective 7/1/10 through 6/30/13
Sarah K. Galat (2nd term - student) – effective 7/1/10 through 6/30/11

NOW THEREFORE

BE IT RESOLVED, That the foregoing nominees be approved as members of the OSU Mansfield Regional Campus Board.

APPOINTMENT/REAPPOINTMENTS TO THE SELF-INSURANCE BOARD

Resolution No. 2010-76

Synopsis: Appointment and reappointments of members to the Self-Insurance Board are proposed.

WHEREAS the Board of Trustees directed that a Self-Insurance Board be established to oversee the University Self-Insurance Program; and

WHEREAS the Board of Trustees on December 6, 2002, approved the expansion of the University Self-Insurance Program to include the faculty physicians and their clinical staff who are employees of Ohio State University Physicians, Inc.; and

WHEREAS all members of the Self-Insurance Board shall be appointed by The Ohio State University Board of Trustees upon recommendation of the President; and

WHEREAS the terms of members Galen Barnes, Christopher Ellison, and Thomas Johnson expired on April 30, 2010, and Dr. Wilburn Weddington, who was appointed to a term expiring on April 30, 2011, has retired from the Self-Insurance Board:

May 14, 2010 meeting, Board of Trustees

NOW THEREFORE

BE IT RESOLVED, That the following individuals be reappointed/appointed as members of the Self-Insurance Board effective May 1, 2010, for the term specified below:

Galen Barnes, term ending April 30, 2012 (reappt)
E. Christopher Ellison, M.D., term ending April 30, 2012 (reappt)
Thomas W. Johnson, term ending April 30, 2012 (reappt)
Gary Katz, M.D., unexpired portion of the term ending
April 30, 2011 (appt)

BE IT FURTHER RESOLVED, That this appointment entitles the members to any immunity, insurance or indemnity protection to which officers and employees of the University are, or hereafter may become, entitled.

HONORARY DEGREES

Resolution No. 2010-77

Synopsis: The awarding of honorary degrees is recommended for approval.

WHEREAS pursuant to paragraph (B)(4) of rule 3335-1-03 of the Administrative Code, the President, after consultation with the Steering Committee of the University Senate, recommends to the Board of Trustees the awarding of an honorary degree as listed below:

David R. Gergen	Doctor of Public Service
Carl J. Schramm	Doctor of Business

NOW THEREFORE

BE IT RESOLVED, That the above honorary degrees be awarded in accordance with the recommendation at a time convenient to the University and the recipient.

DEGREES AND CERTIFICATES SPRING QUARTER COMMENCEMENT

Resolution No. 2010-78

Synopsis: Approval of Degrees and Certificates for spring quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on June 13, 2010, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

ESTABLISHMENT OF STUDENT LEGAL SERVICES PROGRAM

Resolution No. 2010-79

WHEREAS Section 3345.022 of the Ohio Revised Code authorizes the Board of Trustees to enter into a contract for the provision of legal services to University students through a prepaid legal services plan established by attorneys admitted to the practice of law in this State; and

WHEREAS such section of the Code requires that the Board approve the fees or charges to students who participate in the plan and that such fees or charges be sufficient to defray the University's cost of administering the plan; and

WHEREAS a student's participation in the plan must be voluntary and the legal services provided must be reasonably related to student welfare, to the advancement or successful completion of student education, or must otherwise serve a public purpose within the powers of the University; and

WHEREAS the Board has determined that it is in the best interests of the University, its students, and the greater community to establish a Student Legal Services Program to provide legal services to University students:

NOW THEREFORE

BE IT RESOLVED, That pursuant to its authorities and guideline set forth under Section 3345.022 of the Ohio Revised Code, the Board hereby approves the establishment of a Student Legal Services Program and hereby authorizes the President and/or Senior Vice President for Business and Finance to execute a contract for the provision of a Student Legal Services Program on behalf of the University with a prepaid legal services plan established by attorneys admitted to the practice of law in this State and to do all things necessary and appropriate to carry out the terms and conditions of the contract.

(See Appendix XL for background information, page 804.)

**AMENDMENTS TO THE PROCEDURES FOR COMMEMORATIVE, HONORIFIC,
AND ADMINISTRATIVE NAMING REQUESTS**

Resolution No. 2010-80

Synopsis: Revisions to the procedures for submitting and processing commemorative, honorific, and administrative naming requests are presented for Board acceptance.

WHEREAS in accordance with University bylaw 3335-1-08 (F) physical spaces such as outdoor spaces and architectural elements, buildings and facilities, large interior spaces such as classrooms, auditoriums, foyers, lobbies, gymnasiums, hallways and lounges shall be named by the Board of Trustees following recommendations submitted by the President and/or the appropriate faculty or other group; and

WHEREAS in accordance with University bylaw 3335-1-08 (F) entities such as colleges, schools, departments, institutes, academic centers and programs shall be named by the Board of Trustees following recommendations submitted by the President and the appropriate faculty or other group; and

WHEREAS in accordance with University bylaw 3335-1-08 (F) endowed Funds which provide a permanent funding source to support a specific purpose such as

May 14, 2010 meeting, Board of Trustees

scholarships, programs, professorship/chair positions, etc. shall be named by the Board of Trustees following recommendations submitted through appropriate offices; and

WHEREAS it is desirable to establish minimum gift levels and to specify the procedures and process by which naming requests are submitted for consideration; and

WHEREAS the naming procedures will be systematic and inclusive of the views of the University community; and

WHEREAS the Senior Management Council and Campaign Steering Committee have reviewed and approved the attached revisions to the naming requests procedures:

NOW THEREFORE

BE IT RESOLVED, That the revised procedures for submitting and processing commemorative, honorific, and administrative naming requests, as described in the attached document, be approved and become effective May 13, 2010.

(See Appendix XLI for background information, page 806.)

NAMING OF THE WATER TREATMENT BUILDING

Resolution No. 2010-81

Synopsis: The naming of the Water Treatment Building, located between the McCracken Power Plant and the Ohio Stadium on the main campus; previously known as the Coal Storage Building.

WHEREAS this building is no longer used to hold coal for the coal boilers at the McCracken Power Plant; and

WHEREAS the building will be used for water treatment upon the completion of the Central Power Plant Water Treatment (Fall 2011);

WHEREAS the Central Power Plant Water Treatment project is in the design stage and the new building name is needed on the detailed construction plans:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned building be named the Water Treatment Building.

MERGER OF CURRENT GRADUATE PROGRAMS TO ESTABLISH A NEW DEGREE PROGRAM – COMPARATIVE AND VETERINARY MEDICINE

Resolution No. 2010-82

WHEREAS currently the College of Veterinary Medicine has three inter-related graduate programs – veterinary biosciences, veterinary clinical sciences and veterinary preventative medicine – each linked directly to one of the three academic departments; and

WHEREAS the new college-wide program will address a nationally-recognized need to provide comprehensive training to DVM and non-DVM scientists. It will emphasize

May 14, 2010 meeting, Board of Trustees

cross-disciplinary research contributing to improvement of animal and human health, and will prepare research scientists for careers in academia, government, and industry through didactic course offerings and research in field and/or laboratory settings; and

WHEREAS the University is uniquely positioned to expand its program in comparative, translational, and population medicine in a way that few other universities are able to do; and

WHEREAS the new graduate program will be structured into areas of emphasis. The program will be administered by the Office of Research and Graduate Studies and overseen by the Council for Graduate Studies within the College of Veterinary Medicine; and

WHEREAS the proposal has the support of the faculty and the administration in the College of Veterinary Medicine; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on February 11, 2010:

NOW THEREFORE

BE IT RESOLVED, That the merger of the three current graduate programs in the College of Veterinary Medicine into a single program, comparative and veterinary medicine, be effective immediately.

**ESTABLISHMENT OF A BACHELOR OF SCIENCE IN GEOGRAPHIC
INFORMATION SCIENCE DEGREE PROGRAM**

Resolution No. 2010-83

WHEREAS there is growing demand for geographic information science (GIS) skills including managing, analyzing and communicating geospatial information, and the highly-ranked Department of Geography has internationally recognized and respected expertise in the field; and

WHEREAS a common set of skills and expertise for being a GIS professional are crystallizing and require more breadth and depth than can be achieved through a "track" in an undergraduate geography major program; and

WHEREAS students seeking a degree program that has such skills and expertise currently have difficulty identifying programs that produce them. This new degree program will do so and help employers seeking individuals with GIS training to clearly identify them through this degree designation; and

WHEREAS the proposal was reviewed and has the support of the Colleges of the Arts and Sciences' Committee on Curriculum and Instruction; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on February 11, 2010:

NOW THEREFORE

BE IT RESOLVED, That the establishment of a Bachelor of Science in Geographic Information Science degree program be effective immediately.

May 14, 2010 meeting, Board of Trustees

**ESTABLISHMENT OF A BACHELOR OF SCIENCE IN
ATMOSPHERIC SCIENCES DEGREE PROGRAM**

Resolution No. 2010-84

WHEREAS the highly-ranked Department of Geography is the location for the University's strong graduate program in atmospheric sciences, with the required faculty expertise and facilities to offer a full set of degrees in this field; and

WHEREAS undergraduate students have indicated a desire to have a degree program that accurately identifies their interests, and this degree designation helps employers identify qualified candidates; and

WHEREAS a standalone degree program can be strongly aligned with the standards of the American Meteorological Society's policy statement on Bachelor's Degree in Atmospheric Sciences; and

WHEREAS several peer institutions with strong graduate programs in atmospheric sciences offer a bachelor of science in atmospheric sciences, and no other university in Ohio does; and

WHEREAS the proposal was reviewed and has the support of the Colleges of the Arts and Sciences' Committee on Curriculum and Instruction; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on February 11, 2010:

NOW THEREFORE

BE IT RESOLVED, That the establishment of a Bachelor of Science in Atmospheric Sciences degree program be effective immediately.

**MERGER OF THE DEPARTMENT OF AEROSPACE ENGINEERING AND THE
DEPARTMENT OF MECHANICAL ENGINEERING INTO THE DEPARTMENT OF
MECHANICAL AND AEROSPACE ENGINEERING**

Resolution No. 2010-85

WHEREAS the Report of the College of Engineering Performance Planning Acceleration Task Force, January 2009, recommended the merger of the Department of Aerospace Engineering and the Department of Mechanical Engineering to strengthen aerospace engineering research at the University; and

WHEREAS there are clear academic synergies in research and teaching between the two departments, and a number of highly ranked departments house these disciplines together; and

WHEREAS given the financial resources of the College, and the overlap of disciplines evident, the merger will provide greater flexibility in placing resources where they are most needed; and

WHEREAS Mechanical Engineering and Aerospace Engineering will maintain separate undergraduate and graduate degree programs, and the undergraduate programs will be separately accredited; and

WHEREAS the proposal was reviewed and has the support of the faculty of the two departments, and a Memorandum of Understanding between the two departments and the College of Engineering has been developed; and

May 14, 2010 meeting, Board of Trustees

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting on April 15, 2010:

NOW THEREFORE

BE IT RESOLVED, That the merger of the Department of Aerospace Engineering and the Department of Mechanical Engineering into the Department of Mechanical and Aerospace Engineering be effective immediately.

**DEPARTMENT NAME CHANGE FROM THE DEPARTMENT OF
INDUSTRIAL, INTERIOR, AND VISUAL COMMUNICATION DESIGN,
TO THE DEPARTMENT OF DESIGN**

Resolution No. 2010-86

WHEREAS the current name of the department emphasizes traditional discipline boundaries and causes confusion in communication with current and potential students, as well as with international partner institutions; and

WHEREAS the proposed name is a better reflection of the interdisciplinary nature of the field, the current breadth of undergraduate and graduate programs, as well as linkages with other units within the University; and

WHEREAS the proposed simple and more direct name is used by peer institutions; and

WHEREAS the proposal has the support of the department's faculty, the Arts and Humanities Curriculum Committee, and the College; and

WHEREAS the proposal to change the department name and change the name of the graduate programs was approved by the Council on Academic Affairs, and the University Senate at its meeting on April 15, 2010:

NOW THEREFORE

BE IT RESOLVED, That the name change of the Department of Industrial, Interior, and Visual Communication Design, to the Department of Design, with a similar change to the name of its graduate programs be effective immediately.

AMENDMENT TO THE SEMESTER CALENDAR

Resolution No. 2010-87

Synopsis: Approval to amend the conversion from quarters to semesters is requested.

WHEREAS the Board of Trustees approved the Conversion to the Semester Calendar at its April 3, 2009 meeting (Resolution No. 2009-65); and

WHEREAS on March 12, 2009, the University Senate approved a resolution to adopt a semester calendar with no fewer than 65 days and, with the exception of professional colleges or academic disciplines whose accreditation standards require a longer term, no more than 70 days of instruction in each semester to take effect no earlier than Autumn 2012: and

WHEREAS on February 4, 2010 the Faculty Council of the University Senate supported a proposal by the Council on Enrollment and Student Progress to change the start date of the conversion to semesters one term earlier than the Autumn 2012

May 14, 2010 meeting, Board of Trustees

date to eliminate the scheduling conflicts presented by the overlap of a Summer 2012 quarter, which would end with summer commencement on August 26, and an Autumn 2012 semester, with classes beginning on August 22; and

WHEREAS on March 11, 2010 the University Senate voted to change the start date of the conversion to semesters to commence in Summer 2012; and

WHEREAS Summer Session 2012 would provide a more friendly work environment for faculty, staff and graduate students during a time of institutional transition by providing larger breaks between institutional terms:

NOW THEREFORE

BE IT RESOLVED, That the recommended change in start date for the conversion to a semester calendar from Autumn 2012 to Summer 2012, be approved.

RESOLUTIONS IN MEMORIAM

Resolution No. 2010-88

Synopsis: Approval of Resolutions in Memoriam is proposed.

BE IT RESOLVED, That the Board of Trustees approves the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Fred Beekman

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 26, 2010, of Frederic "Fred" Beekman, Director Emeritus in the Office of Recreational Sports.

Fred Beekman, who matriculated in 1938 from Bath, New York, received his bachelors and masters degrees from The Ohio State University. As a student he was a member of Sigma Alpha Epsilon Fraternity and was a student leader in intramural sports programs. Between earning his two degrees at Ohio State he served proudly in the U.S. Army for five years as an officer in artillery training command located at Fort Sill, Oklahoma. Upon the conclusion of World War II Fred returned to Columbus and completed his masters degree. After graduation from this program he served as the assistant director of Intramural Sports for 17 years and then for 32 years as the director of Recreational Sports at OSU, retiring in March 1994.

Fred worked tirelessly for the University community that he loved so well. He was instrumental in working with others to develop the women's intercollegiate athletic programs at The Ohio State University. His long and distinguished career at Ohio State included serving as a professor as well as an administrator. He completed his 60th consecutive year of service in 2008 on the timing crew for OSU football games, with 35 years as the official timer. He also served for more than 35 years as the official timer for OSU men's basketball games. He was a member of Varsity O, SPHINX Senior Class Honorary, and the Ohio Staters, Inc.

He was honored by his alma mater in 1999, when he received OSU's Distinguished Service Award for his many accomplishments at the University and for passionately serving its students from his first days as a Buckeye. Because of his dedication to sports and recreation he was honored by the naming of Fred Beekman Park, a 40-plus-acre complex on OSU's West Campus that serves the University community daily. He

May 14, 2010 meeting, Board of Trustees

encouraged his students and staff to serve their families, friends, and communities through their own careers and interests.

In the larger community Fred was a leader in bringing the Ohio Special Olympic State Games as well as the Ohio Wheelchair Games to The Ohio State University campus nearly 40 years ago. He managed the Ohio High School Athletic Association track and field championships for 40 years, and was a long-time high school and small college football and basketball official, serving as the president of the Central Ohio Basketball and Football Officials Associations. He was also active at the First Community Church, where he was an usher for more than 50 years. His life was one of making a difference in others' lives whenever and wherever it was possible.

On behalf of the University community, the Board of Trustees expresses to the family of Director Emeritus Frederic Beekman its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

John C. Belland

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 26, 2009, of John C. Belland, Professor Emeritus in the School of Educational Policy and Leadership. During his tenure, Professor Belland also held joint appointments in the Department of Art Education and the Advanced Computing Center for the Arts and Design.

Professor Belland received his B.A. degree in mathematics from Northwestern University, his M.S. degree in education from Northern Illinois University, and his Ph.D. degree from Syracuse University. He taught briefly at the University of North Carolina at Chapel Hill before joining the College of Education at OSU in 1970. John quickly became a part of an elite group of curriculum and instructional design faculty in his department, contributing his unique expertise in educational technology and the fast-evolving field of computer-assisted instruction. John's courses were uniquely taught using computerized feedback within student assignments and he expected his students to respond interactively with him, thereby introducing an advanced instructional technique well before its time. Professor Belland became an ardent user of Apple technology as it developed in the early 1980s. He was the chief consultant for the national Physician Assistant Self-Assessment Project which developed learning modules based on diagnosed competency needs of these professionals.

John's students became instructional experts who utilized computers to render their teaching both artistic and educationally effective. Professor Belland's skills were much sought after in the University's Advanced Computing Center for the Arts and Design, making his OSU graduates competitive and at the forefront of this fast-developing technology. It was this special set of skills that took him to the University of Nanchang as a World Bank consultant to the People's Republic of China. During the several weeks that he was there, the Chinese government utilized his expertise to train some 200 of its university faculty in the use of computers in educational testing. The Chinese faculty got more than educational technology from John. He provided American music and helped his Chinese colleagues learn some of our ways, including barn dancing.

Needless to say, John was a "people person" on the OSU campus and in his Worthington home community, winning love and admiration with his warm smile and many talents. He played the grand organ in his church with gusto at many a local wedding, and was a regular member of the Worthington community band playing the clarinet. Here again, John was the perennial educator, imparting his music skills to the

May 14, 2010 meeting, Board of Trustees

young people in his community. During his leisure time, John practiced his woodturning skills and enjoyed making pens to send to the members of the U.S. Armed Forces.

Among his colleagues at OSU, Professor Belland will be remembered for having served his profession well, having risen to become a national leader in his field of educational technology. He founded the National Center on Educational Media and Materials for the Handicapped. He coordinated the College of Education's program in instructional design and technology. He served on several University committees and was responsible for articulating across several departments involving artistic design with computer technology and educational theory. He retired from OSU in 1995.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus John C. Belland its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Byron L. Bondurant

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 24, 2010, of Byron L. Bondurant, Professor Emeritus in the Department of Food, Agricultural, and Biological Engineering.

Byron Bondurant came to Ohio State as a student in agricultural engineering after serving in the Navy during World War II. He graduated in 1949, then went on to receive his M.S. degree from the University of Connecticut and a Ph.D. degree from Purdue University, each in agricultural engineering.

In the 1950s and early 1960s Dr. Bondurant served as a professor at the Universities of Connecticut, Delaware, and Maine. At Maine he was also Department Head of Agricultural Engineering.

He returned to OSU as a professor in 1964, but for most of the next 10 years he was on international assignments in India, Somalia, and Sierra Leone for the Ford Foundation and the U.S. Agency for International Development. He helped build a new university in Punjab, India.

He was a member of the American Society of Agricultural Engineers (now American Society of Agricultural and Biological Engineers) for 59 years, from 1950 to 2009.

After retiring in 1987, Professor Bondurant returned to India for a two-year assignment. Then, at his retirement home near Soldotna, Alaska, he was influential in organizing a local fire department and ambulance service for the Funny River community. He maintained close contact with Ohio State, establishing an endowment that funds international study trips for U.S. students in the Department of Food, Agricultural, and Biological Engineering.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Byron L. Bondurant its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

May 14, 2010 meeting, Board of Trustees

Timothy C. Brock

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 20, 2009, of Timothy C. Brock, Professor Emeritus in the Department of Psychology.

Professor Brock held a Bachelor of Arts degree from Fordham University, and a master's and doctorate degrees in social psychology from Yale University. Additionally, he studied at the Sorbonne in Paris and the Free University in Berlin.

Before joining Ohio State in 1964, Dr. Brock taught at the University of Pittsburgh and Iowa State University. While at OSU he developed a doctoral training program in social psychology which since 1968 has been internationally acclaimed. His research interests included persuasion and social influence as well as evaluation research.

Professor Brock served his profession at the highest level. During his 46-year career, he had many notable accomplishments, including being named a fellow of the American Psychological Association, the American Psychological Society, and the American Association for the Advancement of Science. He was elected president of the Society for Consumer Psychology in 1990, and was a recipient of the Distinguished Scientist Award from that organization.

Over his long and illustrious career, he edited or authored 10 books and over 100 scholarly papers. He served on four journal editorial boards, including a flagship journal of his discipline, the *Journal of Experimental Social Psychology*. Professor Brock was an excellent scholar and educator, and he was a wonderful mentor to many students.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Timothy C. Brock its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Warren W. Eason

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 22, 2010, of Warren W. Eason, Professor Emeritus in the Department of Economics.

Professor Eason received a Bachelor of Arts, Master of Arts, and Doctor of Philosophy degrees from Columbia University. He was a professor at Ohio State from 1968 to 2003, and also taught at Syracuse University, Princeton University, and Johns Hopkins University.

Warren Eason's scholarly and teaching focus was on Soviet economics, spanning the time from the pre-war period to the end of the Soviet Union. He frequently visited the U.S.S.R., including a year-long stay in Moscow. Dr. Eason's many studies of the Soviet Union included demographic analysis, studies of the Soviet labor force, the composition of farm population, the rising infant mortality rate in the 1970s, and Soviet unemployment. One of his research papers was described by a member of the Council of Foreign Relations as "a careful, scholarly study of high quality, rich in empirical research." Dr. Eason was internationally known as an expert in data about the Soviet Union.

Professor Eason was an enthusiastic and dedicated teacher who was very devoted to conveying his knowledge to his students. His many graduate students frequently acknowledged his contributions to their work.

May 14, 2010 meeting, Board of Trustees

Dr. Eason also was a skilled musician, focusing on the French horn. He studied at Julliard and played with the Columbia University Band at the age of 15. In 1940 he was chosen for the All American Youth Orchestra, consisting of the top 109 young musicians in the country. This orchestra performed in Brazil and Argentina, and they were received by Eleanor Roosevelt and recognized as ambassadors for their country.

One of the legacies of Warren Eason is the Eason House, which is a private residence that is home to five individuals with the need for assisted care because of memory loss. This home in Clintonville was named in honor of Dr. Eason.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Warren W. Eason its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Robert H. Essman

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 2, 2010, of Robert H. Essman, Assistant Professor Emeritus in the Department of Molecular Genetics.

Professor Essman received a Bachelor of Science degree in 1956 and an M.S. degree in 1960, both from The Ohio State University. Beginning in 1962 Dr. Essman served as an instructor in the Department of Botany and Plant Pathology and, in 1968, he was an instructor in the Department of Genetics. He was promoted in 1973 to an assistant professor with tenure, and was one of the founding members of the Department of Molecular Genetics. Dr. Essman retired from the faculty in 1988 but continued to be active at Ohio State as manager of publications for the Botanical Society of America.

Dr. Essman's research throughout his career focused on cytogenetics and dosage effect. He was an accomplished and devoted teacher of introductory genetics, receiving multiple nominations for the Colleges of the Arts and Sciences Student Council's Good Teaching Award. He served on numerous departmental, college, and University committees. The duties that were closest to his heart were people-related: undergraduate education and teaching.

All who knew Professor Essman were affected by him. In addition to his skill in the classroom, he will be remembered for his concern for others, his considerate and kindly nature, his unassuming modesty, and his positive and upbeat outlook in the face of adversity. He will be greatly missed.

On behalf of the University community, the Board of Trustees expresses to the family of Assistant Professor Emeritus Robert H. Essman its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Erwin F. Hebner, Jr.

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 9, 2010, of Erwin F. Hebner, Jr., Professor Emeritus in the Department of Art.

Professor Hebner, born in 1926, received a B.F.A. degree from Washington University in St. Louis, and an M.F.A. from Indiana University, Bloomington. He was profoundly

May 14, 2010 meeting, Board of Trustees

influenced by his studies with the acclaimed German expressionist, Max Beckham. Hebner first presented his works to the public in 1947, going on to participate in over 170 exhibitions across the country. His paintings, drawings, prints, and collages are held in numerous public and private collections. His performance and installation works, many created with long-time collaborator and life-partner, Vera "Vickie" Blaine (former chairperson and Professor Emeritus in the Department of Dance), were presented in venues throughout the midwest and New York. Additionally, his works were shown at the Urban Arts Space in a solo exhibition *Excerpts...2009* and most recently in *Gesture (inclusive)* at the Hopkins Hall Gallery on the Columbus campus and the Kuhn Gallery at OSU Marion.

He joined the faculty of the Department of Art at The Ohio State University in 1956. In the sixties, he spearheaded the founding of "Expanded Arts," an experimental cross-media and multidisciplinary program that brought sound, light, time, sculpture, painting, film, photography, dance, theater, and visual arts together into a learning laboratory in Hayes Hall. One of the most innovative degree granting programs in arts academia, it remained in the forefront of avant-garde concepts in art and studio practice for many decades. "Hebe" retired in 1992.

Professor Hebner received grants and funding, continuously over a 25-year period, from the College of Education Research and the College of Arts Research, but most notable were his grants from the Ford Foundation in 1977 and the Ohio Arts Council in 1988.

Professor Hebner served his profession at the highest level of artistic practice and innovation. He was an active member of The Experimental Intermedia Foundation, Inc., New York, New York. He served on numerous school, college, and University committees, including the search committees for Expanded Arts, the Painting and Drawing and Foundation programs, and was the chairperson of the Promotion and Tenure Committee for the department.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Erwin F. Hebner, Jr. its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Richard H. Keates

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 26, 2010, of Richard H. Keates, Professor Emeritus in the Department of Ophthalmology.

Dr. Keates earned his bachelor's degree from the University of Pennsylvania and graduated from Jefferson Medical College. He completed an internship at Albert Einstein Medical Center and his residency at the Manhattan Eye and Ear Hospital. He was awarded a Heed Fellowship in cornea and anterior segment.

Dr. Keates began his career at The Ohio State University Medical Center in 1964 where he practiced for 24 years. During his tenure there, he was the director of the Corneal Service and began the first corneal fellowship program at OSU. Dr. Keates was one of the early pioneers of intraocular microsurgery and the development of the YAG laser for treatment of secondary cataracts. He developed the first eye bank in Central Ohio and was the surgeon director of the Central Ohio Lions Eye Banks for 16 years.

In 1990, Dr. Keates became professor and chairperson of the Department of Ophthalmology at the University of California-Irvine. He continued his research

May 14, 2010 meeting, Board of Trustees

interests and conducted studies in LASIK refractive surgery. He returned to Ohio State in 2007 and resumed his research, obtaining an Investigational New Drug from the FDA to begin collagen corneal crosslinking clinical trials. Due to his innovative research, he was an invited lecturer all over the world and published numerous influential peer review articles including several medical text books and chapters.

Dr. Keates was an active member of the Contact Lens Association of Ophthalmologists where he served as president. He was also president of the New York Keratorefractive Society and the New York Intraocular Lens Society.

Dr. Keates was an innovator of technology who long will be remembered by colleagues, students, staff, and patients for his influential teachings and his boundless energy.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Richard H. Keates its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Mary P. Key

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 4, 2010, of Mary P. Key, Assistant Professor Emeritus in the University Libraries.

Born in Dayton in 1929, Professor Key graduated from East High School and enrolled at The Ohio State University, where she earned a B.A. degree in 1950. Librarianship appealed to her and she worked as assistant and circulation librarian first at Dillard University in New Orleans from 1951-52 and then as reference librarian at North Carolina College in Durham from 1952-54. In 1955 she achieved a Master of Library Science degree at Atlanta University.

In 1954 Professor Key joined OSU Libraries in the Gift and Exchange Division. Her lengthy career at The Ohio State University Libraries would include different responsibilities. After working in the Gifts and Exchange Division, much of her teaching and service was in the Acquisition Department until 1971, when she became head of the copy cataloging unit for all incoming monographic materials. Beginning in 1974, she led the Cataloging Services unit. Her final responsibility was to lead the Agriculture Library, which she did from 1982 until her retirement in 1998.

A capable and conscientious librarian, Professor Key was a respected faculty member of the University Libraries. She was involved in the application of computers to cataloging and acquisition of library materials and served on important committees and task forces of the OSU Libraries and of such professional organizations as the Ohio Library Association, the Northern Ohio Technical Services Librarians, and the Online College Libraries Center (OCLC). Particularly noteworthy was her service and contributions on the Minority Librarian Intern Committee, which she chaired for a decade. Consequently, the Libraries named the Mary P. Key Diversity Residency Program in her honor.

As a member of the faculty, Professor Key had a record of scholarship that included book reviews, *A Catalog of the Exhibition of Selected Private Presses* that she co-edited with Mary D. Walters, and a chapter "Teaming up with Classroom Faculty" in *Defining and Applying Effective Teaching Strategies for Library Instruction: Papers Presented at the Fourteenth Library Instruction Conference held at Ohio State University* (1987).

May 14, 2010 meeting, Board of Trustees

On behalf of the University community, the Board of Trustees expresses to the family of Assistant Professor Emeritus Mary P. Key its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

P. John Kozyris

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 10, 2010, of P. John Kozyris, Professor Emeritus in The Michael E. Moritz College of Law.

Professor Kozyris earned a law degree at the University of Thessalonica, Greece, and a Juris Doctor degree at Cornell University. He went on to earn an LL.M. degree at the University of Chicago and a Doctor of Juridical Science degree from the University of Pennsylvania. He practiced law for nine years in New York City and Paris, France.

He joined the faculty of the College of Law at The Ohio State University in 1969 and taught there for 25 years until his retirement in 1994. After his retirement Professor Kozyris continued to teach law at his alma mater, the University of Thessalonica.

A well-known international law scholar, Professor Kozyris was a pioneer advocate for the formation of the European Economic Community. He helped found and for many years taught in summer law programs in Greece. He was also a founder of the Modern Greek studies program at Ohio State.

Professor Kozyris was known to his colleagues as witty and urbane, a brilliant conversationalist with a wide range of knowledge. His perspective on international affairs, especially European affairs, was often sought out by his colleagues in related fields.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus P. John Kozyris its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Thomas W. Milburn

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 21, 2009, of Thomas W. Milburn, Professor Emeritus in the Mershon Center for International Security Studies.

Professor Milburn was born in Oklahoma in 1923, and moved to California, at an early age. He served in the U.S. Navy Submarine Service during World War II, and worked as a civilian psychologist at the Navy Ordnance Test Station at China Lake, California, from 1957-65.

Professor Milburn held bachelor's, master's, and doctoral degrees, all from Stanford University. He taught at Northwestern and DePaul Universities before he began teaching at The Ohio State University in 1971 with appointments in psychology, political science, and education, and retired in 1995.

Professor Milburn's primary interests were peace psychology, conflict resolution, and mediation. He published many articles for professional journals and co-authored a book, *On the Nature of Threat: A Social Psychological Analysis* (Praeger Publishers,

May 14, 2010 meeting, Board of Trustees

1981). He received Fulbright grants in 1989 and 1995 to teach and conduct research in New Zealand and Australia.

He was a fellow in the American Psychological Association, the American Psychological Society, and the American Academy for the Advancement of Science. He was also active in the International Society for Political Psychology, the International Studies Association, the Society for the Psychology Study of Social Issues, and the APA Division of Peace Psychology.

During his years in Columbus, Professor Milburn was active in the Columbus International Program, the United Nations Association, the Central Ohio Psychological Association, and Trinity Episcopal Church.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Thomas W. Milburn its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Hongor D. Oulanoff

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 3, 2010, of Hongor D. Oulanoff, Professor Emeritus in the Department of Slavic and East European Languages and Literatures.

Born in 1929 in Prague, Czechoslovakia, Professor Oulanoff led an active and peripatetic life. After spending his teen and college years in Paris, France, where he obtained a Diplome de Licencie et Lettres in Arabic languages and literature from the University of Paris, he enrolled for two post-graduate years at the College of Europe in Bruges, Belgium. Though accepted into the doctoral program at the Sorbonne, he chose instead to pursue graduate studies at Harvard University, where in 1960 he received his doctoral degree in Russian literature. Brief teaching stints at Harvard (1960-61) and Vanderbilt University (1961-63) preceded his hire at The Ohio State University, where he taught from 1963 until his retirement in 1991.

As a scholar Professor Oulanoff will best be remembered for his contribution to Kalmyk culture and to twentieth-century Russian literature, particularly that of the 1920s. His best-known publications in Slavic include the two monographs *The Serapion Brothers: Theory and Practice* (1966) and *The Prose Fiction of Veniamin A. Kaverin* (1976), both widely read among specialists in the field.

As a spokesman for Kalmyk culture, Professor Oulanoff distinguished himself in the 1950s through his success in co-petitioning the Eisenhower administration to accept the Kalmyk refugees residing in western Europe as a consequence of Stalinist policies, and through his groundbreaking study of the Kalmyk language, for which the Kalmykia Republic honored him in 1990.

Professor Oulanoff died after a lengthy struggle with Parkinson's disease, but not before passing down a legacy of commitment to his family: the older son who bears his father's name has worked since 1990 as the student recruitment officer for the Ohio State Alumni Club of Washington, DC. In 2009 his achievements earned him the 2009 Dan L. Heinlen Award for outstanding advocacy on behalf of OSU. This year, Professor Oulanoff's widow Constance, established an endowment at OSU to underwrite an annual series of speakers who continue her husband's passionate dedication to twentieth-century Russian literature. In other words, the Oulanoff legacy is embodied in Professor Oulanoff's surviving family members. That legacy also lives on in those colleagues and students who had the privilege of teaching with and learning from him.

May 14, 2010 meeting, Board of Trustees

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Hongor D. Oulanoff its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Milton S. Rosner

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 20, 2009, of Milton S. Rosner, Professor Emeritus in the College of Social Work.

Professor Rosner held bachelor's, master's, and doctoral degrees from New York University and a master's degree from Fordham University. During World War II he was assigned to the counterintelligence division of the U.S. Army because of his skill in learning to speak fluent German. After the war, he aided in the search for German war criminals and stayed on to serve as high commissioner of a region in Germany working with the new German government in the reconstruction project.

Returning to the United States, Dr. Rosner taught at Goddard College in Vermont for two years. He then became a senior advisor for the United Nations to the governments of Bangladesh and Zambia, serving in that position for 10 years.

He was a member of the College of Social Work faculty from 1969-85 and served as its associate dean of academic programs from 1975-84. Dr. Rosner's considerable experience in post-war reconstruction informed his teaching and scholarship on community development and planning at the College of Social Work. He was instrumental in the creation and implementation of a joint graduate degree in social work and city and regional planning.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Milton S. Rosner its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Joanne Sabol Stevenson

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 19, 2010, of Joanne Sabol Stevenson, Professor Emeritus in the College of Nursing.

Professor Stevenson earned a bachelor's degree in nursing in 1963, a master's degree in medical-surgical nursing with a minor in counseling in 1964, and a doctoral degree in gerontology/adult education and biostatistics in 1970, all from The Ohio State University.

Professor Stevenson began her work at Ohio State as an instructor in the School of Nursing in 1964. She was promoted to assistant professor in 1971, to associate professor in 1974, and to professor in 1979. Professor Stevenson also served as assistant dean for research and director of the Center for Nursing Research at the School of Nursing from 1972-84. In addition, she was co-director at the Health Clinic for Older Adults in Gahanna, Ohio, from 1977-93.

In 1995, Professor Stevenson retired from The Ohio State University College of Nursing and was awarded the title of professor emeritus. Following her retirement from

May 14, 2010 meeting, Board of Trustees

Ohio State, she became associate dean for academic affairs and research at Rutgers University in Newark, New Jersey, from 1997-2002. She returned to the College of Nursing at Ohio State as a research consultant in 2006.

Professor Stevenson, a nationally recognized nurse leader, was the recipient of numerous awards and honors for the advancement of research in nursing. Among her many honors, she was elected as a fellow in the American Academy of Nursing in 1978. She was named a Fulbright Senior Scholar to Florianopolis, Brazil, from 1995-96. In addition, she authored six books, almost 100 nursing articles, and received four *American Journal of Nursing* Book of the Year Awards.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Joanne Sabol Stevenson its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

Walter W. Wada

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 7, 2010, of Walter W. Wada, Professor Emeritus in the Department of Physics.

Professor Wada was an American citizen born in Loomis, California, in 1919, of Japanese parents. As an undergraduate physics major at the California Institute of Technology in February 1942, he was forced to accept U.S. government-provided housing in Utah; he earned the B.A. degree in June 1943 at the University of Utah. His M.A. and Ph.D. degrees in theoretical physics were earned at the University of Michigan in 1946 and 1951.

His life after 1950 has been an amazing history of research and teaching, incredible when related to the events of 1942. From 1951-62, Walter worked as a research physicist at the U.S. Naval Research Laboratory while intermittently teaching quantum mechanics, relativistic quantum mechanics, and theoretical physics at the Naval Research Laboratory in the College Program of the University of Maryland. From 1962-64, Walter taught high energy physics at Northwestern University and served as a consultant at nearby government labs.

He became a professor in the Department of Physics at The Ohio State University in September 1964, serving in that role until being awarded the title of Professor Emeritus in 1989.

Professor Wada's research was carried out under different titles such as consultant, visiting associate, visiting physicist, visiting scholar, and visiting scientist at sites such as Argonne National Laboratory; Brookhaven National Laboratory; European Organization for Nuclear Research in Geneva, Switzerland; International Center for Theoretical Physics at Trieste, Italy; U.S. Naval Research Laboratory; Stanford Linear Accelerator; KEK-Tsukuba; Research Institute for Fundamental Physics, Kyoto University; and others.

The world has lost a giant in the death of Walter Wada, a modern Renaissance man: scientist, artist, and lover of great literature and music. He credits his mother with having encouraged him at age five to devote one hour per day to painting. This has resulted in a legacy of more than 100 truly fine paintings as well as Walter's gift of assisting others in improving their painting skills. His serene view of trees along the Po River is magnificent, and visitors to the new Ohio Union at The Ohio State University certainly can admire his "Hayden Run Field" now on the third floor wall near the

May 14, 2010 meeting, Board of Trustees

Gottesegen Lounge. He relaxed with good literature: Dostoyevski, Tolstoy and, oh yes, the Bard. Evidence of his intense interest there lay on his office desktop, his dog-eared volume "The Complete Shakespeare."

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Walter W. Wada its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Virginia I. Zirkle

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 18, 2010, of Virginia I. Zirkle, Professor Emeritus in the Ohio State University Extension.

Miss Zirkle was born in September 1923 in Lafayette, Indiana. She received her Bachelor of Science in Home Economics degree in 1945 from The Ohio State University and her Master of Arts degree in 1959 in home and family life from Columbia University Teacher's College.

Virginia began her Extension career in Ohio in 1947 as the county extension agent – home economics in Putnam County. She held this appointment until her retirement as Professor Emeritus on December 31, 1988.

During her Extension career she provided leadership to many, many programs during her distinguished career. Her service to thousands of migrant farm workers and their families was outstanding. She received both local and national recognition for her success in communicating useful information to these temporary residents of Putnam County. She annually taught nutrition and sanitation practice classes and general health programs at migrant centers and schools.

Professor Zirkle also worked with young homemakers, teens, senior citizens, and families involving general nutrition and how to have better health. She was instrumental in developing a film for teens entitled "Fitness – Choice or Chance." She organized the first health council in Putnam County. She had a weekly newspaper column and a regular television program over a Toledo station for over 18 years. Virginia was recognized throughout the state and nation for these outstanding contributions.

She received the Superior Service Award from the United States Department of Agriculture for her concerned and imaginative service to the people of Putnam County and especially for her tireless efforts and leadership in raising the living standards of migrant workers and their families. She also received the Distinguished Service Award from the National Association of Extension Home Economics Agents. She served and gave tireless leadership to many local, state, and national committees.

At their meeting on February 5, 2010, the OSU Board of Trustees approved the recommendation that Virginia I. Zirkle receive The Ohio State University's Distinguished Service Award posthumously, an honor that was in process before her death in January.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Virginia I. Zirkle its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2010-89

Synopsis: The University Development Report as of March 31, 2010, is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of the Ray W. Poppleton Research Designated Chair, revision of The Stephen F. Loeb Professorship in Health Services Management and Policy, the establishment of thirty (30) new named endowed funds, and the revision of twenty-one (21) named endowed funds.

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation as of March 31, 2010, be approved.

(See Appendix XLII for background information, page 809.)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

	<u>Total Gifts</u>
<u>Establishment of Named Designated Chair</u>	
Ray W. Poppleton Research Designated Chair (Established from the annual distribution from the Ray W. Poppleton per year for 4 years Memorial Fund; used to provide a chair position supporting a nationally eminent faculty member in the areas of orthopedics and/or diseases of the spinal cord)	\$80,000.00
<u>Change from Named Endowed Chair to Named Endowed Fund</u>	
From: The Ray W. Poppleton Research Chair To: Ray W. Poppleton Memorial Fund	
<u>Change from Named Endowed Professorship to Named Endowed Fund</u>	
From: The Paissiy Endowed Professorship in Bulgarian Civilization and Culture To: The Paissiy Endowed Fund in Bulgarian Language, Literature, and Culture	
<u>Establishment of Named Endowed Funds</u>	
U.S. Bank Student Organization Endowment Fund (Established with gifts from the U.S. Bank National Association; used to enhance student organization officer training, systems controls, and accounting support as well as to enhance service to student groups)	\$550,000.00

May 14, 2010 meeting, Board of Trustees

Welding Engineering Alumni Scholarship Fund \$52,320.82
(Established with gifts from alumni and friends including gifts in memory of J. R. Stitt; used to provide scholarships for sophomores enrolled in the College of Engineering majoring in welding engineering)

Change in Description of Named Endowed Funds

The Dr. Edward E. Eddowes Memorial Aviation Psychology Fund

The Family and Consumer Science Extension Fund

The Greater Cleveland Alumni Scholars Endowment Fund

The Maria A. Melnyk Franks Memorial Scholarship Fund

The Ohio State University Alumni Association, Inc. Scholarship Endowment Fund

Glendine Huggins Wadlington Memorial Fund

Change in Name and Description of Named Endowed Funds

From: Department of Food Science and Technology Endowed Fund for Equipment

To: The Kenneth L. Beck Department of Food Science and Technology Endowed Fund for Equipment

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Designated Chair

Ray W. Poppleton Research Designated Chair

The Ray W. Poppleton Research Designated Chair was established May14, 2010, by the Board of Trustees of The Ohio State University with the annual distribution (or a portion of) from the endowed Ray W. Poppleton Memorial Fund which was established with gifts from the estate of Ethel V. Poppleton (B.A. 1918) of Columbus, Ohio, in memory of her husband.

This fund provides a chair position supporting a nationally eminent faculty member in the areas of orthopedics and/or diseases of the spinal cord.

The chair holder shall be appointed for a four-year term by the Board of Trustees of The Ohio State University as approved by the senior vice president for Health Sciences and by the dean of the College of Medicine. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

Ongoing support and the allocated amount for this designated chair position shall be reviewed by the dean at the end of each four-year commitment period or upon an appointment vacancy. Upon the dean's approval, the designated chair position shall be renewed. The chair holder may be reappointed to another term following favorable assessment of the holder's academic and research performance and accomplishments during an appointment.

Amount Establishing Designated Chair: \$80,000.00 minimum per year for four years

May 14, 2010 meeting, Board of Trustees

Change from Named Endowed Chair to Named Endowed Fund

Ray W. Poppleton Memorial Fund

The Ray W. Poppleton Memorial Fund was established October 1, 1982, by the Board of Trustees of The Ohio State University with gifts from the estate of Ethel V. Poppleton (B.A. 1918) of Columbus, Ohio, in memory of her husband. The Ray W. Poppleton Research Chair was established March 5, 1999. The name and description were revised May 14, 2010.

The annual distribution from this fund shall be used by the College of Medicine to provide grants for research and the advancement of medical knowledge in the areas of orthopedics and diseases of the spinal cord. The selection of the recipients of the annual grant shall be made upon the recommendation of the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. If in the future the fields of orthopedics and spinal cord diseases cease to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the dean of the College of Medicine and from the senior vice president for Health Sciences.

Change from Named Endowed Professorship to Named Endowed Fund

The Paissiy Endowed Fund in Bulgarian Language, Literature, and Culture

The Paissiy Endowed Professorship in Bulgarian Civilization and Culture was established September 3, 1982, by the Board of Trustees of The Ohio State University with a gift from the Ministry of Education of the People's Republic of Bulgaria in honor of Paissiy Hilendarski/Paissiy of Hilander, an outstanding scholar of the Bulgarian Renaissance. Per section five of the gift agreement, the name and description were revised May 14, 2010.

The annual distribution from this fund shall be used at the discretion of the chairperson of the Department of Slavic and East European Languages and Literatures in consultation with the executive dean of the Colleges of the Arts and Sciences to support courses and research in Bulgarian language, literature, and culture.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chairperson of the Department of Slavic and East European Languages and Literatures in consultation with the executive dean of the Colleges of the Arts and Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

May 14, 2010 meeting, Board of Trustees

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the chairperson of the Department of Slavic and East European Languages and Literatures in consultation with the executive dean of the Colleges of the Arts and Sciences.

Establishment of Named Endowed Funds

U.S. Bank Student Organization Endowment Fund

The U.S. Bank Student Organization Endowment Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University with a gift from U.S. Bank National Association.

The annual distribution from this fund shall be used to enhance student organization officer training, system controls, and accounting support as well as to enhance service to student groups at The Ohio State University. Expenditures shall be approved by the director of the Ohio Union.

In any given year that the endowment distribution is not fully used for its intended purpose, the director of the Ohio Union shall be responsible for determining if the unused portion shall be held in the distribution account to be used in subsequent years or reinvested in the endowment principal and communicating this decision with the donor.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donor, should one be available, and from the director of the Ohio Union.

Amount Establishing Endowment: \$550,000.00

Welding Engineering Alumni Scholarship Fund

The Welding Engineering Alumni Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University with gifts from alumni and friends including gifts made in memory of Professor J. R. Stitt from his daughter, Ethel Stitt Ekland of Tacoma, Washington, and Jeffrey W. Post (B.W.E. 1966) of San Antonio, Texas.

J. Ray Stitt was a very early instructor in the University's welding engineering program before it became a department. He later went on to prominence as an expert in the flame straightening field.

The annual distribution from this fund shall provide merit-based undergraduate scholarships for students in their sophomore year who are enrolled in the College of Engineering majoring in welding engineering. A portion of this financial aid will be

May 14, 2010 meeting, Board of Trustees

awarded in the name of J. R. Stitt. Scholarship recipients shall be selected by the dean of the College of Engineering in consultation with the professors who teach welding engineering and the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, should they be alive, and from the dean of the College of Engineering.

Amount Establishing Endowment: \$52,320.82

Change in Description of Named Endowed Funds

The Dr. Edward E. Eddowes Memorial Aviation Psychology Fund

The Dr. Edward E. Eddowes Memorial Aviation Psychology Fund was established June 4, 1993, by the Board of Trustees of The Ohio State University with gifts in memory of Dr. Edward E. Eddowes of Birmingham, Alabama, from his widow, Dr. Anne E. Eddowes (B.S.Bus.Adm. 1953), his family, and his friends to recognize Dr. Edward E. Eddowes' lifelong interest in psychology and its application to aviation. The description was revised November 1, 2002, and was revised again May 14, 2010.

The intent of this fund is to advance the study of and research in human factors. The annual distribution from this fund shall be used to provide scholarship support to graduate and undergraduate students enrolled in the College of Engineering who are studying human factors with preference given to research in, or students involved with, aviation psychology. Scholarship recipients shall be selected by the dean of the College of Engineering in consultation with the University's Office of Student Financial Aid. Any annual distribution remaining after the scholarships have been awarded may be used for research projects and travel expenses for students who meet the selection criteria above; such expenditures shall be approved by the dean of the College of Engineering and coordinated with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of

May 14, 2010 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from Dr. Anne E. Eddowes, should she be alive, and from the dean of the College of Engineering.

The Family and Consumer Science Extension Fund

The Home Economics Cooperative Extension Fund was established March 1, 1985, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from faculty, friends, and associates of the Cooperative Extension Service. The name and description were revised July 7, 1995. The description was revised May 14, 2010.

The annual distribution from this endowed fund shall be used to provide support for activities and projects of Ohio State University Extension's program in Family and Consumer Sciences. Funds will be allocated upon the recommendation of the assistant director for Family and Consumer Sciences Extension and upon approval of the director of Ohio State University Extension.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or it may be reinvested in the endowment principal at the discretion of the assistant director for Family and Consumer Sciences Extension and the director of Ohio State University Extension.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the total University endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the director of Ohio State University Extension.

The Greater Cleveland Alumni Scholars Endowment Fund

The Greater Cleveland Alumni Scholars Endowment Fund was established June 6, 1997, by the Board of Trustees of The Ohio State University with gifts from The Greater Cleveland Alumni Club, individual alumni, and friends. The description was revised May 14, 2010.

Until the principal balance reaches \$100,000, the annual distribution from this fund shall be held in the distribution account. After the principal balance reaches \$100,000, the annual distribution and the accumulated balance in the distribution account shall be used to provide scholarship support under the guidelines of the Alumni Scholars Program for one or more qualified graduates of Cuyahoga County High Schools. The

May 14, 2010 meeting, Board of Trustees

Greater Cleveland Alumni Club will recommend recipients; the University's Office of Student Financial Aid will select scholarship recipients.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the president of the Greater Cleveland Alumni Club, should she/he be alive, and from the director of the Office of Student Financial Aid.

The Maria A. Melnyk Franks Memorial Scholarship Fund

The Maria A. Melnyk Franks Memorial Scholarship Fund was established August 30, 1995, by the Board of Trustees of The Ohio State University with gifts from Richard L. Franks (B.A. Humanities 1977) and friends in memory of Maria A. Melnyk Franks. The description was revised August 30, 2000, and was revised again May 14, 2010.

The annual distribution shall provide three \$250 scholarships for students actively involved in music and music study: one for an outstanding undergraduate or graduate piano major, one for an outstanding undergraduate or graduate music major who is an active member of The Ohio State University Men's Glee Club, and one for an outstanding undergraduate or graduate student who is an active member of The Ohio State University Marching Band from any school or department on campus. If there are no candidates majoring in piano, it is the desire of the donor that the award is given to a student majoring in French horn. Scholarship recipients must maintain a minimum grade point average as stipulated by School of Music and University policies; scholarships may be renewed up to four years as long as the recipients maintain eligibility. Scholarship recipients shall be selected by the director of the School of Music with recommendations from the directors of The Ohio State University Marching Band and The Ohio State University Men's Glee Club and in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

May 14, 2010 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from members of the Franks family (Richard L., Charles R., and Virginia L. Franks, and Connie A. Sanders or their heirs) and the director of the School of Music with recommendations from the directors of The Ohio State University Marching Band and The Ohio State University Men's Glee Club.

The Ohio State University Alumni Association, Inc.
Scholarship Endowment Fund

The Ohio State University Alumni Association, Inc. Scholarship Endowment Fund was established July 8, 2005, by the Board of Trustees of The Ohio State University with gifts from the Alumni Association's affinity fund. The description was revised May 14, 2010.

The annual distribution from this fund shall provide undergraduate scholarships to currently enrolled students at any of The Ohio State University campuses not receiving freshman recruiting scholarships (i.e. Maximus and Morrill Programs) with preference given based on academic performance and financial need. The scholarship may be renewed based upon continued superior academic performance and financial need. One or more of the scholarships shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donor's desire that this scholarship be awarded in furtherance of the diversity mission with particular attention to, but not limited to, African Americans or other underrepresented groups.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. Scholarships will be awarded by the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

The endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the director of Student Financial Aid.

Glendine Huggins Wadlington Memorial Fund

The Glendine Huggins Wadlington Memorial Fund was established June 6, 1996, by the Board of Trustees of The Ohio State University with gifts from family, friends, and co-workers in memory of Glendine Huggins Wadlington. The description was revised May 14, 2010.

May 14, 2010 meeting, Board of Trustees

The annual distribution from this fund shall be divided, with 50% going to the Ohio 4-H Support Fund for service to developmentally disabled youth; and 50% going to the College of Education and Human Ecology to provide scholarships or financial aid to one or more students from Preble County, Ohio, with financial need who are preparing for teacher certification in special education of, but not limited to, developmentally challenged or gifted youth. Scholarship recipients should have demonstrated strong character and outstanding service to school and community. Recipients will be administered by the College of Education and Human Ecology in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the dean of the College of Education and Human Ecology and from the director of Ohio 4-H.

Change in Name and Description of Named Endowed Funds

The Kenneth L. Beck Department of Food Science and Technology Endowed Fund for Equipment

The Department of Food Science and Technology Endowed Fund for Equipment was established September 22, 2006, by the Board of Trustees of The Ohio State University with gifts from friends and alumni of the College of Food, Agricultural, and Environmental Sciences. Additions to the fund have been made by David B. Dudley (B.S. 1952 Dairy Technology) and Kenneth L. Beck (B.S. 1973 Food Science and Technology, M.S. 1974 Horticulture). The name and description were revised May 14, 2010.

The annual distribution from this fund shall be used for the purchase, upgrade, maintenance, and/or repair of equipment including analytical instruments, prototype processing equipment, and packaging equipment for the Department of Food Science and Technology's laboratory and the Food Industries Center. Expenditures shall be recommended by the chairperson of the Department of Food Science and Technology and approved by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

In any given year that the endowment distribution is not fully expended, the unused portion shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

May 14, 2010 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, should they be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

The David R. Lipphardt 1959 Endowment Fund in Integrated Systems Engineering

The David R. Lipphardt Scholarship in Manufacturing was established February 3, 1995, by the Board of Trustees of The Ohio State University with gifts from the Resinoid Engineering Corporation and its Co-Chairman of the Board, Clarence A. Herbst, in honor of fellow Board Co-Chairman David R. Lipphardt (B.I.E. 1959). The name and description were revised May 14, 2010.

The David R. Lipphardt 1959 Endowment Fund in Integrated Systems Engineering (ISE) honors Mr. Lipphardt for his distinguished career while encouraging others to follow in his footsteps.

The annual distribution from this fund will be used to provide scholarships and program support for undergraduate and graduate students who have demonstrated an intent to pursue a career in manufacturing. Preference will be given to candidates who have expressed an interest in the production and manufacturing of plastic products and materials. Scholarships will be awarded in the amount of \$2500 or no less than 20% of the in-state tuition and are renewable as long as the recipients meet the criteria of the fund. Scholarship recipients shall be selected by the chairperson of the Department of Integrated Systems Engineering in consultation with the dean of the College of Engineering and the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

If funds are used for program support, the purpose and amount of support will be determined by the chairperson of the Department of Integrated Systems Engineering in consultation with the appropriate faculty.

In the spirit of this scholarship, if manufacturing ceases to be offered in the Department of Integrated Systems Engineering, this scholarship will be moved to the Engineering College Administration for scholarship and program support selection.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering in consultation with the chair of the Department of Integrated Systems Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be

May 14, 2010 meeting, Board of Trustees

designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the dean of the College of Engineering.

The Trumbull and Mahoning Counties Alumni Club Scholarship Endowment Fund

The Mahoning County Alumni Scholarship Endowment Fund was established September 6, 1991, by the Board of Trustees of The Ohio State University with gifts from the members and friends of the Mahoning County/OSU Alumni Club. The name and description were revised May 14, 2010.

The annual distribution from this fund shall provide scholarship support for one or more qualified scholars from Trumbull and/or Mahoning Counties who are enrolled at The Ohio State University. Candidates shall be recommended by the Trumbull and Mahoning Counties Alumni Club and selected by The Ohio State University Alumni Association in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of The Ohio State University Alumni Association upon recommendation from the Trumbull and Mahoning Counties Alumni Club and in consultation with the director of the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the director of The Ohio State University Alumni Association in consultation with the director of the Office of Student Financial Aid.

The Medco Health Solutions, Inc. Scholarship Fund

The Medco Containment Services, Inc. Scholarship Fund was established May 7, 1993, by the Board of Trustees of The Ohio State University with a gift from Medco Health Solutions, Inc. (formerly Medco Containment Services, Inc.) of Franklin Lakes, New Jersey. The name of the fund was changed to The Merck-Medco Managed Care LLC Scholarship Fund September 5, 1997. In 2003, Medco spun off from Merck and formed the public company Medco Health Solutions. The name and description were revised May 14, 2010.

The annual distribution from this fund shall provide one or more scholarships to doctor of pharmacy students in the College of Pharmacy who excel academically but need financial assistance. Scholarship recipients will be selected by the dean of the College of Pharmacy or his/her designee in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

May 14, 2010 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Pharmacy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donor, should one be available, and from the dean of the College of Pharmacy.

Change in Description of Named Endowed Professorship

The Stephen F. Loeb Professorship in Health Services Management and Policy

The Health Services Management and Policy (HSMP) Professorship Fund was established December 6, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from alumni and friends of the HSMP program. The name and description of the fund were revised September 22, 2004, to The Stephen F. Loeb Professorship Fund in Health Services Management and Policy. The required funding level was reached and the professorship was established September 22, 2006. The description was revised May 14, 2010.

The annual distribution shall be used to provide salary and program support for the work of a distinguished teacher and scholar in the area of health services management and policy.

Distribution will be made at the recommendation of the chairperson of the Health Services Management and Policy Division in consultation with the dean of the College of Public Health.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chairperson of the Health Services Management and Policy Division and the dean of the College of Public Health.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the

May 14, 2010 meeting, Board of Trustees

chairperson of the Health Services Management and Policy Division and from the dean of the College of Public Health.

Establishment of Named Endowed Funds

Anna Rebecca and Robert H. Katz Endowment Fund

The Anna Rebecca (M.A. 1979) and Robert H. Katz (J.D. 1975) Endowment Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Anna Rebecca Rockey Katz.

The annual distribution from this fund shall provide scholarship support in equal amounts for students in the following areas: the College of Nursing, the School of Music for members of The Ohio State University Marching Band, and the Department of Athletics for members of the varsity hockey teams. The specific terms of the scholarships shall be at the discretion of the dean or directors so as to allow those leaders the flexibility to meet the needs of the day. Scholarships shall be awarded in consultation with the Office of Student Financial Aid.

Should these programs no longer be in existence at any point in time, the scholarships shall be awarded to students in programs which are as closely aligned with the donor's original intent as practicable.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only

for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the appropriate dean or director.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the appropriate dean or director and the Office of Student Financial Aid.

Amount Establishing Endowment: \$1,131,938.40

Charles and Myrna Fazio Athletic Scholarship Fund

The Charles and Myrna Fazio Athletic Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an unrestricted estate gift from Charles (B.S.Ed. 1949) and Myrna (B.S.Ed. 1948) Fazio.

May 14, 2010 meeting, Board of Trustees

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete. Scholarship recipients shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of Athletics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of Athletics.

Amount Establishing Endowment: \$284,455.24

The Robert P. Caren Family Endowment Fund

The Robert P. Caren Family Endowment Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Dr. Robert Caren (B.S. 1953, M.S. 1954, Ph.D. 1961) and Dr. Linda Caren (B.S. 1962).

The annual distribution from this fund shall provide stipends for undergraduate students who are conducting research supervised by members of the Department of Physics faculty. The dean of the College of Mathematical and Physical Sciences shall be responsible for approving expenditures in consultation with Department of Physics faculty members and for coordinating these expenditures with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be

May 14, 2010 meeting, Board of Trustees

designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Mathematical and Physical Sciences.

Amount Establishing Endowment: \$250,000.00

The Austin E. Knowlton Memorial Scholarship Fund

The Austin E. Knowlton Memorial Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from The Austin E. Knowlton Foundation.

The annual distribution from this fund shall provide scholarship support for undergraduate and graduate level students who are enrolled in the Austin E. Knowlton School of Architecture. No more than one scholarship shall be granted in each academic year for each \$100,000 of endowment principal. At least one scholarship shall be reserved for an incoming freshman. Preference shall be given to candidates from Logan County, Ohio. If there are no candidates from Logan County, the scholarship may be awarded to any candidate who is a resident of the state of Ohio. Scholarship recipients shall be selected by the director of the Knowlton School of Architecture in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Knowlton School of Architecture.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, should one be available, and from the director of the Knowlton School of Architecture.

Amount Establishing Endowment: \$200,000.00

The Phyllis and Richard Leet Endowed Chair Fund in Chemistry

The Phyllis and Richard Leet Endowed Chair Fund in Chemistry was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Phyllis and Richard (Ph.D. 1952) Leet.

Until the principal balance reaches \$2,000,000, the annual distribution from this fund shall be reinvested in the endowment principal. After the principal balance reaches

May 14, 2010 meeting, Board of Trustees

\$2,000,000, the annual distribution shall support a chair position in the Department of Chemistry in the College of Mathematical and Physical Sciences. Appointment of the recruited or retained candidate will be recommended by the dean of the College of Mathematical and Physical Sciences to the executive vice president and provost and approved by the Board of Trustees.

In any given year that the endowment distribution is not fully expended, the unused portion shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Mathematical and Physical Sciences.

Amount Establishing Endowment: \$200,000.00

Amount Needed to Establish Chair: \$2,000,000.00

The Wendy Zuckerwise Ritter Endometrial Cancer Research Fund

The Wendy Zuckerwise Ritter Endometrial Cancer Research Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts made in memory of Wendy Zuckerwise Ritter of Dayton, Ohio, from her husband, Nathaniel Ritter, D.D.S., and other family members, friends, and colleagues.

The annual distribution from this fund shall support medical research on endometrial cancer in the Division of Gynecological Oncology in the Department of Obstetrics and Gynecology. Allocation of distribution shall be made at the recommendation of the Division director in consultation with the Department chairperson, the dean of the College of Medicine, and the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Division of Gynecological Oncology.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a

May 14, 2010 meeting, Board of Trustees

representative of the donors and as recommended by the director of the Division of Gynecological

Oncology in consultation with the chairperson of the Department of Obstetrics and Gynecology, the dean of the College of Medicine, and the senior vice president for Health Sciences.

Amount Establishing Endowment: \$62,835.76

The STJ – EISi Athletic Scholarship Fund

The STJ – EISi Athletic Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts South Stands, LLC of Columbus, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity men's tennis team and is pursuing an undergraduate degree at The Ohio State University. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, should one be available, and from the director of Athletics.

Amount Establishing Endowment: \$61,060.14

The Lynn Allen Wallace Scholarship Fund in Sports Physical Therapy

The Lynn Allen Wallace Scholarship Fund in Sports Physical Therapy was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts made from Diane Tuuri, family, and friends in honor and memory of Lynn Allen Wallace (B.S.Ed. 1971, Cert.PostBacc.Phys.Ther. 1972).

The annual distribution from this fund shall be used to support scholarships for graduate students enrolled in the Division of Physical Therapy in the School of Allied Medical Professions. Selection of the recipients shall be made based on academic merit and demonstration of career interest in the field of sports physical therapy. It is the donors' intent that preference be given to students who exemplify leadership ability and a high level of commitment to sports rehabilitation, and who are engaged in regional and national physical therapy professional organizations. It is the donors'

May 14, 2010 meeting, Board of Trustees

intent that the financial awards may be renewable for recipients who maintain good academic and professional standing. Scholarship recipients will be selected at the recommendation of the director of the Division of Physical Therapy and as approved by the director of the School of Allied Medical Professions in consultation with the University's Office of Student Financial Aid, the dean of the College of Medicine, and the College's Student Financial Services.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean or director.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors and as recommended by the director of the School of Allied Medical Professions and the dean of the College of Medicine.

Amount Establishing Endowment: \$61,007.88

The Daniel W. and Janet Schleppe Harmon Scholarship Fund

The Daniel W. and Janet Schleppe Harmon Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mark and Lisa Harmon Krosse and Dan and Paula Harmon.

The intent of the fund is to support educational diversity at the University, consistent with the University's mission and admissions policy.

The annual distribution from this fund shall be used to provide scholarship support to undergraduate students enrolled or planning to enroll in the College of Engineering who have a demonstrated financial need as determined by the guidelines of the University's Office of Student Financial Aid. First preference shall be given to, but not limited to, female candidates; second preference shall be given to candidates who are residents of Ohio. If no student meets the preference criteria, the scholarships may be awarded to any student in the College of Engineering. Recipients shall be selected by the College's dean in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of

May 14, 2010 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Engineering.

Amount Establishing Endowment: \$60,681.25

The Dayton Freight Athletic Scholarship Fund

The Dayton Freight Athletic Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Dayton Freight of Dayton, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of a varsity team. First preference will be given to a student-athlete majoring in transportation logistics, marketing, business, or accounting. Second preference will be given to any student-athlete participating in a varsity sport. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should the company exist, and from the director of Athletics.

Amount Establishing Endowment: \$60,000.00

Total Commitment: \$150,000.00

Dale E. and Bernice E. Mansperger Endowment Fund for the College of Education and Human Ecology

The Dale E. and Bernice E. Mansperger Endowment Fund for the College of Education and Human Ecology was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Dale E. Mansperger Trust, the Bernice E. Mansperger Trust, and the Dale E. and Bernice E. Mansperger Foundation, Inc. in memory of Dale E. Mansperger (M.A. 1933).

May 14, 2010 meeting, Board of Trustees

The annual distribution from this fund shall be used to provide scholarships for undergraduate students ranked as juniors or seniors who are enrolled in the College of Education and Human Ecology who are pursuing majors in education. Scholarship recipients shall be selected by the College's dean in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the trustees of both Mansperger trusts and the treasurer/trustee of the Mansperger Foundation, should they be available, and from the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: \$55,323.80

The Anita and Michael Goldberg, Rite Rug Company and its Founder, Duke Goldberg, Endowment Fund for Wexner Center Children and Family Programs

The Anita and Michael Goldberg, Rite Rug Company and its Founder, Duke Goldberg, Endowment Fund for Wexner Center Children and Family Programs was established May 14, 2010 by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Anita and Michael Goldberg and Rite Rug.

The annual distribution from this fund shall be used to support the Wexner Center's children and family education programs fostering an environment of inquiry, discovery, and learning for audiences of all ages, interests, and backgrounds. Uses of the fund shall include the broad support of education programs for children and families. Expenditures shall be approved by the director of the Wexner Center in consultation with the director of Education for the Wexner Center or their designees.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Wexner Center.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the

original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should he/she be alive, and from the director of the Wexner Center and the director of Education for the Wexner Center.

Amount Establishing Endowment: \$55,110.00

The Medical Class of 1969 Scholarship Fund in Medicine

The Medical Class of 1969 Scholarship Fund in Medicine was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from the medical alumni of the College of Medicine class of 1969.

The annual distribution from this fund shall be used to provide one or more scholarships to medical students in the College of Medicine based on academic merit or financial need. The selection shall be made at the recommendation of the College of Medicine Scholarship Committee, including the associate dean of Student Affairs and the vice dean for Education, in consultation with the University's Office of Student Financial Aid; and as approved by the dean of the College of Medicine.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Medicine and the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors and as recommended by the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: \$51,652.18

The Brahms Fund

The Brahms Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Professor Tony Pasquarello.

Tony Pasquarello, an emeritus philosophy professor of The Ohio State University, Mansfield campus, established this fund in honor of the great composer, Johannes Brahms, and in memory of his son, A. Joseph "Joe" Pasquarello, violinist and Ohio State graduate (B.Mus. 1980). Its purpose is to promote and perpetuate the music of

May 14, 2010 meeting, Board of Trustees

the Romantic through modern eras, 1830 – 1960, and encourage the study and performance of that music by endowing an annual “Brahms Award” as well as “Small Cash Grants” to assist music students.

Fifty percent (50%) of the annual distribution from this fund, but no less than \$1,000, shall provide an annual award known as The Brahms Award to an undergraduate student or chamber ensemble in the School of Music. Recipients shall be selected for exceptional achievement in scholarship or performance relating to the music of Brahms or virtually any other composer writing in the period 1830 through 1960 including but not limited to the donor's favorites: Brahms, Mahler, Elgar, Ravel, and Rachmaninoff; as well as: Walton, Gershwin, Scriabin, Barber, Berg, and Bartok. The winner of this award shall be selected by the faculty of the School of Music and reported to the University's Office of Student Financial Aid.

Forty percent (40%) of the annual distribution of the fund shall be used as Small Cash Grants for distribution upon application to deserving and needy students for the purchase of supplies, scores, instrument repair, and other expenses related to the study of music. No single student shall receive more than \$100 of the allocation in any single year. Recipients shall be selected by the faculty of the School of Music and reported to the University's Office of Student Financial Aid.

As the fund's annual distribution increases in the future, those administering the fund may decide to increase the Small Cash Grants or to present more than one Brahms Award.

Ten percent (10%) of the annual distribution and any unused distribution should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the College of the Arts in consultation with the director of the School of Music.

Amount Establishing Endowment: \$50,325.56

The Lauterjung Family Athletic Scholarship Fund

The Lauterjung Family Athletic Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Sally and Kevin Lauterjung of Akron, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity men's football team and is pursuing an undergraduate degree at The Ohio State University. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

May 14, 2010 meeting, Board of Trustees

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of Athletics.

Amount Establishing Endowment: \$50,196.15
Total Commitment: \$100,000.00

The Stairway to Heaven Scholarship Fund

The Stairway to Heaven Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Denny Lynch (B.A. 1975).

The annual distribution from this fund shall provide scholarships to undergraduate students enrolled in the School of Communication studying multimedia public affairs or strategic communication; candidates must demonstrate financial need and proven academic success. Scholarship recipients shall be selected by the School's director in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the director of the School of Communication.

Amount Establishing Endowment: \$50,065.73

May 14, 2010 meeting, Board of Trustees

The John and Bebe Finn MBA Scholarship Fund

The John and Bebe Finn MBA Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from John Finn (B.A. 1970) and Bebe Finn (B.A. 1969) of Columbus, Ohio.

The annual distribution from this fund shall be used for scholarships to recruit and retain students who are enrolled in the MBA program at The Max M. Fisher College of Business majoring in operations and logistics management. Recipients shall be selected by the director of the graduate program office in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the Fisher College of Business.

Amount Establishing Endowment: \$50,000.00

Total Commitment: \$100,000.00

The Barton and Regina Holl Scholarship Fund

The Barton and Regina Holl Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mr. Barton Holl (B.C.E. 1948, M.S. 1949) and Mrs. Regina Holl of Logan, Ohio.

The annual distribution from this fund shall be used to provide one need based-scholarship for an undergraduate student from Hocking County, Ohio. First preference will be given to math, physical science, or engineering majors. The scholarship is renewable for up to 12 quarters (or eight semesters) or until the student receives his or her baccalaureate degree, whichever comes first. The scholarship shall be used for expenses such as the cost of tuition, room and board, books and supplies, and miscellaneous educational expenses. The recipient shall be selected by the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

May 14, 2010 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of the Office of Student Financial Aid.

Amount Establishing Endowment: \$50,000.00

The Lowe Family Scholarship Fund

The Lowe Family Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Art and Ann Lowe of Marion, Ohio.

The annual distribution from this endowment shall provide renewable scholarships to incoming undergraduate students attending or planning to attend The Ohio State University at Marion and may follow recipients to any other Ohio State campus or Ohio State program at the discretion of the Ohio State Marion admissions and financial aid staff. Preference shall be given to candidates intending to or majoring in business or the STEM (science, technology, engineering, and math) disciplines. (STEM is defined more specifically as biological or biomedical sciences, computer and information sciences, engineering and engineering technologies, mathematics and statistics, or physical sciences and science technologies.) To qualify, candidates must have maintained at least a 2.7 (B-) grade point average (GPA) during their senior year in high school. Scholarships are renewable; students must reapply annually and have a minimum cumulative 2.7 GPA when they apply. Scholarship recipients shall be selected by the Ohio State Marion admissions and financial aid staff in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

Per the request of the donors, the University agrees that any unused distribution from this endowed fund shall be held in the distribution account to be used in subsequent years and only for the purposes of the endowment. The University will use its best efforts to make all distributions.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the

May 14, 2010 meeting, Board of Trustees

donors, should they be alive, and from the dean and director of the Ohio State Marion campus.

Amount Establishing Endowment: \$50,000.00

The Jim and Suzanne McNulty Athletic Scholarship Fund

The Jim and Suzanne McNulty Athletic Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from James J. (B.S.Bus.Adm. 1988) and Suzanne P. McNulty of Greenville, South Carolina.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is pursuing an undergraduate degree. Scholarship recipients shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of Athletics.

Amount Establishing Endowment: \$50,000.00

Total Commitment: \$150,000.00

The David and Donna Shreiner Endowed Fund
for Family and Consumer Sciences Education Scholarship

The David and Donna Shreiner Endowed Fund for Family and Consumer Sciences Education Scholarship was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from David E. (B.S. Agriculture 1969) and Donna C. (B.S. Home Economics 1969) Shreiner.

The annual distribution from this fund shall be used to support a scholarship(s) for a student preparing for or continuing a career in family and consumer sciences education (home economics education) with preference for undergraduate students with a minimum cumulative grade point average of 3.0 with additional preference given to students from Auglaize or Holmes Counties of Ohio. Expenditures will be approved by the dean of the College of Education and Human Ecology in consultation with the director of the Family and Consumer Sciences Education program.

May 14, 2010 meeting, Board of Trustees

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then the remaining funds will be allocated to support programs for preparing teacher educators. If, in the future, the need for teacher educator preparation programs ceases to exist, then another use shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and the from the dean of the College of Education and Human Ecology in consultation with the director of the Family and Consumer Sciences Education program.

Amount Establishing Endowment: 35,301.46 (grandfathered)

The Arley Duff Blankenship Memorial Fund at Stone Laboratory

The Arley Duff Blankenship Memorial Fund at Stone Laboratory was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Lydia R. Bailey (B.S.Bus.Adm. Real Estate 2000, M.A. Public Policy and Management 2006) of Mechanicsburg, Ohio, and other friends of Stone Laboratory, in memory of her father, Arley Duff Blankenship.

The annual distribution from this endowed fund shall primarily be used to support scholarships for students taking introductory courses at Stone Laboratory with preference given to students from Appalachia. Scholarships shall be awarded in accordance with guidelines and procedures established by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, or his/her designee, and in consultation with the University's Office of Student Financial Aid.

If, in any given year, the director of Stone Laboratory and the Ohio Sea Grant College Program identifies needs that are greater than scholarship in serving the research, education, and outreach mission of Stone Laboratory, then use of the fund shall be at his/her discretion in meeting such needs.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, in consultation with the director of Stone Laboratory and the Ohio Sea Grant College Program.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the total University endowment portfolio for the University's costs of development and fund management.

May 14, 2010 meeting, Board of Trustees

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contributions as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences and the director of Stone Laboratory and the Ohio Sea Grant College Program.

Amount Establishing Endowment: \$32,755.00 (grandfathered)

The Ohio State University Men's Glee Club Alumni Society Fund

The Ohio State University Men's Glee Club Alumni Society Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The Ohio State University Men's Glee Club Alumni Society, alumni, and friends of The Ohio State University Men's Glee Club.

The annual distribution from this fund shall be used to provide at least one scholarship annually, with a maximum disbursement of \$1,200 within a given calendar year, to students ranked as a sophomore or higher with a minimum 3.0 cumulative grade point average who are current active members of The Ohio State University Men's Glee Club with intentions of continuing to participate in the Club for the upcoming academic year. The Ohio State University Men's Glee Club Alumni Society Board of Governors shall periodically review the amount of disbursement stated above and shall adjust the disbursement as needed in relationship to the market value and disbursement within a given year, as provided in annual statements from The Ohio State University finance office. Any such fiscal adjustments to the disbursement voted on by the Board of Governors shall be submitted to The Ohio State University Board of Trustees for final approval. Potential recipients must demonstrate academic achievement, and proven musical and leadership ability. Recipients can be from any college or school within the University. Recipients shall be recommended by the director of the Club and selected by the director of the School of Music in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The intent of this fund is to support The Ohio State University Men's Glee Club. The donors' first preference is to provide scholarship support; if the fund is not needed for this purpose, The Ohio State University Alumni Men's Glee Club Board of Governors may select another purpose.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of

May 14, 2010 meeting, Board of Trustees

Trustees. In making this alternate designation, the Boards shall seek advice from The Ohio State University Men's Glee Club Alumni Society Board of Governors with recommendations from the director of The Ohio State University Men's Glee Club and the dean of the College of the Arts.

Amount Establishing Endowment: \$26,454.24 (grandfathered)

The Birkenholz Leadership Award Fund

The Birkenholz Leadership Award Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Pamela S. and Robert J. Birkenholz of Dublin, Ohio. Dr. Bob Birkenholz is a professor of agricultural education in the College of Food, Agricultural, and Environmental Sciences.

The annual distribution from this fund shall be used to award a scholarship to an undergraduate student of senior status majoring in agricultural education in the College of Food, Agricultural, and Environmental Sciences. First preference shall be given to a student in the leadership option of the major; second preference shall be given to a student in the teaching option. Overall, preference shall be given to students who have demonstrated outstanding leadership qualities and have expressed a career interest in agriculture. Financial need and cumulative grade point average may be secondary considerations. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. Recipients shall be selected by the Agricultural Education Scholarship Selection Committee in the Department of Human and Community Resource Development in accordance with guidelines established by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, or his/her designee, in consultation with the University's Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion may be reinvested in the endowment principal or held in the distribution account to be used in subsequent years and only for the purposes of the endowment at the direction of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences, in consultation with the chairperson of The Department of Human and Community Resource Development.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Human and Community Resource Development.

Amount Establishing Endowment: \$25,005.00 (grandfathered)

May 14, 2010 meeting, Board of Trustees

The H. Keith Allen Family Unrestricted Endowed Fund

The H. Keith Allen Family Unrestricted Endowed Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from H. Keith Allen (B.S.Bus.Adm. 1963) and L. Ann Allen of Powell, Ohio.

Keith graduated from The Ohio State University College of Commerce and Administration (now known as The Max M. Fisher College of Business) in 1963, with a bachelor of science in accounting. He joined Peat, Marwick, Mitchell & Co. in Columbus, Ohio, upon graduation where he became a certified public accountant. Four years later, Keith joined The Ohio Company as assistant treasurer, working his way to becoming COO until the sale of the company to Fifth Third Bank. Keith was the recipient of an accounting scholarship and a member of Beta Alpha Psi. He served on many community boards, as well as on the board of the Chicago Stock Exchange and served on committees affiliated with the New York Stock Exchange. Keith also served on the Fisher College of Business Dean's Advisory Council.

Until the principal of the fund reaches \$50,000, the annual distribution from shall be used at the discretion of the dean of the Fisher College of Business to support activities of the faculty, students, and staff in accordance with the College's strategic plans.

When the principal of the fund reaches \$50,000, the University agrees to revise The H. Keith Allen Family Unrestricted Endowed Fund to a restricted endowed scholarship fund at the Fisher College of Business. The annual distribution from this fund shall be used to provide scholarship support for an undergraduate student(s) enrolled at the Fisher College of Business. Selection of the recipient(s) shall be made by the director of the undergraduate programs office at the Fisher College of Business in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion will be reinvested into the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the Fisher College of Business.

Amount Establishing Unrestricted Endowment: \$25,000.00
Amount Needed to Establish Restricted Endowment: \$50,000.00
Total Commitment: \$275,000.00

The American Electric Power Foundation Endowment
for the WOSU Digital Media Center Fund

The American Electric Power Foundation Endowment for the WOSU Digital Media Center Fund was established May 14, 2010, by the Board of Trustees of The Ohio

May 14, 2010 meeting, Board of Trustees

State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the American Electric Power Foundation.

The annual distribution from this fund shall be used to support the operation and maintenance of the WOSU Digital Media Center with preference given to direct support of the American Electric Power Foundation Suite. In any given year that the endowment distribution is not fully expended, the unused portion may be used for outreach and education programs originating from the Center. Expenditures from this fund shall be approved by the general manager of WOSU Public Media.

In any given year that the endowment distribution is not fully expended, the unused portion may be reinvested in the endowment principal or held in the distribution account to be used in subsequent years and only for the purposes of the endowment at the direction of the senior vice president for University Communications and the general manager of WOSU Public Media.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, should one be available, and from the senior vice president for University Communications and the general manager of WOSU Public Media.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

Thomas E. Workman Endowed Scholarship Fund

The Thomas E. Workman Endowed Scholarship Fund was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Thomas E. (B.S.Bus.Adm. 1966, JD 1969) and Pamela (B.S.Ed. 1967) Workman.

The annual distribution from this fund shall provide a need-based scholarship in The Michael E. Moritz College of Law for first year students who are active, reserve, or National Guard members, or honorably discharged veterans of the United States Army, the United States Navy, the United States Marine Corps, the United States Air Force, or the United States Coast Guard. The dean of the College and the College's Office of Student Financial Aid shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid. The donors shall be kept apprised of the status of the selection process by the College.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of

May 14, 2010 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the Moritz College of Law.

Amount Establishing Endowment: \$25,000.00 (grand fathered)

Lloyd M. Parks and Irene M. Parks Professorship Fund

The Lloyd M. Parks and Irene M. Parks Professorship Fund in the College of Pharmacy was established May 14, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift and deferred gifts from Dr. Lloyd M. Parks and continuing gifts in his honor from alumni, colleagues, friends, and family.

Dean Emeritus Lloyd McClain Parks came from the University of Wisconsin to The Ohio State University in 1956 as dean and professor in the College of Pharmacy. His 22 years of leadership of Ohio State's College of Pharmacy were distinguished by marked growth in students, faculty, research, and facilities. The overall excellence of its programs merited the College distinguished ranking as a top college of pharmacy in the nation. Throughout his 39-year academic career Dr. Parks was widely recognized and honored for his leadership in pharmaceutical education and pharmaceutical research.

The intent of this fund is to benefit education and research at The Ohio State University. Until the principal balance of the fund reaches \$500,000, the annual distribution shall be reinvested in the endowment principal. After the principal balance of the fund reaches \$500,000, the annual distribution from this fund shall support a professorship position in the College of Pharmacy. Appointees shall be recommended to the executive vice president and provost by the College's dean and approved by the University's Board of Trustees.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Pharmacy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Pharmacy.

Amount Establishing Endowment: \$21,535.00
(grandfathered - 2/17/1989)

May 14, 2010 meeting, Board of Trustees

Change in Description of Named Endowed Funds

The Carole A. Anderson Graduate Fellowship Endowment Fund

The Carole A. Anderson Graduate Fellowship Endowment Fund was established August 29, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from her family and friends, and faculty and alumni of the College of Nursing. The description was revised May 14, 2010.

The annual distribution from this fund shall be used to provide a fellowship award. Candidates for the award will be students who have completed their undergraduate degree from the College of Nursing and immediately upon graduation, without first entering the workforce to practice nursing, will enter a graduate nursing program at The Ohio State University. It is the intention of the donors through this award to help students who want to go directly from undergraduate to graduate study without interruption. Fellowship recipients shall be selected by the dean of the College of Nursing in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Nursing.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Nursing.

Richard Clarke Arnold and M. Ruth Jones Endowed Fund

The Richard Clarke Arnold and M. Ruth Jones Endowed Fund was established February 4, 2000, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from family and friends. The description was revised May 13, 2010.

The annual distribution from this fund shall be used to benefit The Ohio State University's collection of photographs housed in the Rare Books and Manuscripts collection. Expenditures may include, but are not limited to: maintenance, preservation, supplies and equipment, cataloging, and promotion and exhibition of these works and shall be recommended by the head of Rare Books and Manuscripts and approved by the director of the University Libraries.

If the fund cannot be used as outlined above, the distribution may be used for other purposes to support the Rare Books and Manuscripts collection as recommended by

May 14, 2010 meeting, Board of Trustees

the head of Rare Books and Manuscripts and approved by the director of the University Libraries. If possible, the library shall inform of the donor of any such alternate uses.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal as recommended by the head of Rare Books and Manuscripts and approved by the director of the University Libraries.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the head of Rare Books and Manuscripts and from the director of the University Libraries.

The John H. Dunlap, Jr. Fund for Education, Outreach, and
Development at Stone Laboratory

The John H. Dunlap, Jr. Fund for Education, Outreach, and Development at Stone Laboratory was established February 6, 2004, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Shirley Dunlap Bowser (B.S.Ed. 1956) and Cliff Bowser of Williamsport, Ohio, the W.K. Kellogg Foundation, and friends of Stone Laboratory. The description was revised May 14, 2010.

Born on May 9, 1905, in Williamsport, Ohio, John (Jack) H. Dunlap, Jr. (B.A. English 1928) was a farmer, conservationist, educator, and an ardent supporter of The Ohio State University as a student leader and an active volunteer. He served as director of the University's Research Foundation, as a Board of Trustee member from 1968-77, and as chairman of the Board during 1975-76. Mr. Dunlap was a seventh generation farmer and nationally recognized agricultural leader. As president of The Dunlap Company, a contracting company that specialized in soil conservation, he built over 100 lakes, ponds, levees, and terraces that supported his view of utilizing farming techniques that were beneficial to the land.

The annual distribution shall be used primarily to support education, outreach, and development programs at Stone Laboratory that will ultimately improve the Lake Erie ecosystem and enhance economic development. Secondly, no more than 25% of the annual distribution may be used for special facility improvement projects that enhance Stone Lab's ability to conduct education, outreach, and development activities. Use of the funds will be at the discretion of the director of Stone Laboratory and the Ohio Sea Grant College Program.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of Stone Laboratory and the Ohio Sea Grant College Program.

If the fund can no longer be used as outlined above, it should be renamed the The John H. Dunlap, Jr. Scholarship for Agriculture and the Environment and should be

May 14, 2010 meeting, Board of Trustees

used to support scholarships in the College of Food, Agricultural, and Environmental Sciences with preference given to students in the School of Environment and Natural Resources. The scholarship shall be awarded in accordance with guidelines and procedures established by the dean of the College or his/her designee and in consultation with the University's Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the total University endowment portfolio for the University's costs of development and fund management.

Should unforeseen circumstances arise in the future so that the need for the successor endowment ceases to exist, then another use as nearly aligned with the original intent of the contributions as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be living, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the director of the School of Environment and Natural Resources, and the director of Stone Laboratory and the Ohio Sea Grant College Program.

Gary G. Marconi Scholarship Fund in Chemistry

The Gary G. Marconi Scholarship Fund in Chemistry was established February 4, 2000, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Gary G. Marconi of Indianapolis, Indiana. The description was revised May 14, 2010.

The annual distribution from this fund shall be used to provide a scholarship to a junior or senior undergraduate student engaged in research while pursuing a Bachelor of Science degree in chemistry and who exhibits socioeconomic need. The chairperson of the Department of Chemistry shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the chairperson of the Department of Chemistry.

May 14, 2010 meeting, Board of Trustees

Albert O. and Anne K. Myers Surveying Scholarship Fund

The Albert O. and Anne K. Myers Surveying Scholarship Fund was established July 8, 2005, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Albert J. Myers in memory of Albert O. and Anne K. Myers. The description was revised May 14, 2010.

Albert O. Myers switched majors from pre-med to surveying after seeing, from the confines of chemistry class, surveying students on the Oval; and in 1942 became a professional surveyor in the state of Ohio. He and wife, Anne, started Myers Surveying Company in Columbus in 1947 and made significant contributions to the land surveying profession in Ohio during their lifetimes.

The annual distribution from this fund shall provide one or more scholarships to undergraduate students enrolled in the College of Engineering who are majoring in civil engineering and have a minor in surveying who are entering their junior or senior year and have a grade point average of 2.5 or above. Preference shall be given to candidates who display a strong interest in becoming a practicing land surveyor. The chairperson of the Department of Civil and Environmental Engineering and Geodetic Science, in consultation with the appropriate faculty, shall be responsible for recommending scholarship recipient(s) to the dean of the College of Engineering for approval and coordinating these scholarships with the University's Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the College of Engineering.

The George and Betty Richards Endowed Fund in the College of Pharmacy

The George and Betty Richards Endowed Fund in the College of Pharmacy was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from George (B.S.Pharm. 1943) and Betty Richards. The required funding level for a restricted endowed fund was reached and the description was revised May 14, 2010.

The annual distribution from this fund shall be used to provide graduate stipend support for Pharm.D. or Ph.D. students enrolled in the Translational Sciences graduate program in the College of Pharmacy. Recipients shall be selected by the College's dean in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

May 14, 2010 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Pharmacy.

The van Bakeren Endowed Scholarship Fund

The van Bakeren Endowed Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Anna M. van Heeckeren (M.S. Biological Sciences 1989, D.V.M. 1993) and Mr. Edward B. Baker. The description was revised May 14, 2010.

The annual distribution from this fund shall be used to supplement tuition and room and board for one (1) outstanding third- or fourth-year veterinary student with an interest in pursuing a career in research or laboratory animal medicine. If such a candidate cannot be found, then an outstanding post-D.V.M. graduate student or a post-D.V.M., Ph.D. post-graduate appointee pursuing a career in research or laboratory animal medicine may receive this award. Recipients shall be selected by the dean of the College of Veterinary Medicine in consultation with the associate dean for Research and Graduate Studies. Scholarships will be awarded in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Change in Name and Description of Named Endowed Funds

The Dr. Popat N. Patil Endowed Scholarship Fund

The Robert and Stephany Ruffolo Endowed Scholarship Fund was established February 5, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Robert (B.S.Pharm. 1973, Ph.D. 1976) and Stephany Ruffolo of Spring City, Pennsylvania. The name and description were revised May 14, 2010.

May 14, 2010 meeting, Board of Trustees

The annual distribution from this fund shall be used to support a scholarship for a student in the College of Pharmacy Doctor of Pharmacy program. Recipients shall be selected by the dean of the College of Pharmacy in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Pharmacy.

The Úprka-Laga-Schweitzer Fund in Czech Studies

The Upraka-Laga-Schweitzer Fund in Czech Studies was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Sharon Marie Schweitzer-Robinson (B.A. 1984). The description was revised September 21, 2007. The name and description were revised May 14, 2010.

The fund is named after relatives of the donor: Jozef Úprka, artist; his brothers Frantisek Úprka, sculptor, and Jan Úprka, artist; the Laga family; and the donor's mother, Evelyn Mary Laga Schweitzer and her parents, Mary Antonia Nekarda-Laga and Frank Martin Laga.

The annual distribution from this fund shall be used to defray the cost of tuition or other program costs for undergraduate or graduate students studying Czech language and culture at The Ohio State University in the College of Humanities. Preference shall be given to students in a Czech study abroad program, specifically in the Moravian regions of the Czech Republic. Scholarship recipients will be selected by the dean of the College of Humanities in consultation with the chairperson of the Department of Slavic and East European Languages and Literatures and the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of

May 14, 2010 meeting, Board of Trustees

Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and from the dean of the College of Humanities in consultation with the chairperson of the Department of Slavic and East European Languages and Literatures.

TUITION AND USER FEES/CHARGES FOR FY 2010 AND FY 2011

Resolution No. 2010-90

Synopsis: Confirmation of instructional, non-resident, and graduate tuition increases at all campuses of The Ohio State University for Summer Quarter 2010 and at the Columbus Campus for the 2011 academic year and approval of instructional, non-resident, and graduate tuition increases at the regional campuses and ATI are proposed.

WHEREAS the Board of Trustees of The Ohio State University supports the University's continued implementation of the Academic Plan and its initiatives to meet the needs of Ohio State students; and

WHEREAS resident undergraduate instructional and general fees are subject to a 3.5% instructional and general fee cap for Fiscal Year 2010 and 3.5% for Fiscal Year 2011, as required by the recently adopted State of Ohio biennial budget bill; and

WHEREAS the student activity fee, part of the general fee subject to the cap, was increased for Winter Quarter 2010; and

WHEREAS consultations have taken place within the University to determine the appropriate instructional fee increase for all campuses for Ohio State undergraduate and graduate programs and the nonresident surcharge for Summer Quarter 2010 and for the 2011 academic year; and

WHEREAS at the February Board of Trustees meeting, the Board authorized the Chair of the Board, the Chair of the Academic Affairs and Student Life Committee, and the Chair of the Fiscal Affairs Committee, in consultation with the administration once the administration's recommendations were finalized, to approve tuition for Summer Quarter 2010 and for the 2011 academic year, subject to confirmation of that action at the next Board meeting; and

WHEREAS at a meeting on March 30, of the designated Trustees, the administration presented the attached tuition recommendations and tuition increases for all campuses for Summer Quarter 2010 and for the Columbus Campus for the 2011 academic year were approved; and

WHEREAS the administration now has presented tuition recommendations for the Lima, Mansfield, Marion, and Newark Campuses and for the Agricultural Technical Institute at Wooster for the 2011 academic year:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby confirms the recommendations of the administration and the actions approved by the designated Trustees at their meeting on March 30 and hereby approves tuition increases as follows:

- That instructional fees for undergraduates enrolled at the Columbus Campus will increase 3.1% and instructional fees for all undergraduates enrolled at the regional and ATI campuses will increase 3.5% for Summer Quarter 2010;

May 14, 2010 meeting, Board of Trustees

- That instructional fees for most graduate students will increase 1.0% for Summer Quarter 2010;
- That the nonresident surcharge for undergraduates and most graduate students be increased by 1.0% for Summer Quarter 2010;
- That instructional fees for undergraduates enrolled at the Columbus Campus, and at the regional and ATI campuses will increase 3.5% for the 2011 academic year, effective for Autumn Quarter 2010;
- That instructional fees for most graduate students will increase 3.5% for the 2011 academic year, effective Autumn Quarter 2010;
- That the nonresident surcharge for undergraduates and most graduate students be increased by 3.5% for the 2011 academic year, effective Autumn Quarter 2010.

(See Appendix XLIII for background information, page 814.)

AMENDMENT OF THE UNIVERSITY DEBT POLICY

Resolution No. 2010-91

Synopsis: Amendment of the University's Debt Policy is proposed.

WHEREAS the Board of Trustees, from time to time, has adopted specific policies governing various aspects of the management and use of use of university debt in the form of bonds, internal loans, lines of credit, and leases; and

WHEREAS there is a need for comprehensive policies to provide for the overall management University debt; and

WHEREAS there is need to modify the comprehensive policies on occasion:

NOW THEREFORE

BE IT RESOLVED, That the following University Debt Policy be adopted by the Board of Trustees; and

BE IT FURTHER RESOLVED, That the Assistant Vice President of Financial Services and/or Senior Vice President for Business and Finance be, and hereby are, directed and authorized to implement and administer this policy and to manage the use of University debt in the forms of bonds, internal loans, lines of credit and leases in accordance with this policy.

(See Appendix XLIV for background information, page 815.)

**AUTHORIZATION TO ENTER INTO/INCREASE PROFESSIONAL SERVICES
CONTRACTS AND CONSTRUCTION CONTRACTS**

Resolution No. 2010-92

**APPROVAL TO ENTER INTO/INCREASE PROFESSIONAL SERVICES
CONTRACTS**

STEAM AND CONDENSATE DISTRIBUTION SYSTEM UPGRADE PHASE 2
WILLIAM H. HALL COMPLEX EXPANSION – PHASE II

APPROVAL TO ENTER INTO/INCREASE CONSTRUCTION CONTRACTS

MCCRACKEN POWER PLANT CHILLER EXPANSION
SOUTH CAMPUS CENTRAL CHILLER PLANT
WILLIAM H. HALL COMPLEX EXPANSION – PHASE II

Synopsis: Authorization to enter into/increase professional services contracts and enter into construction contracts, as detailed in the attached materials, is requested.

WHEREAS in accordance with the attached materials, the University desires to undertake and enter into/increase professional services contracts for the following projects:

	Prof Svc Amount	Total Project	
Steam and Condensate Distribution System Upgrade Phase II	\$2.3M	\$17.1M	University Bond Proceeds
William H. Hall Complex Expansion - Phase II	\$6.7M	\$51.1M	University Bond Proceeds Auxiliary Funds

WHEREAS in accordance with the attached materials, the University desires to undertake and enter into/increase construction contracts for the following projects:

	Constr Amount	Total Project	
McCracken Power Plant Chiller Expansion	\$12.6M	\$13.35M	University Bond Proceeds
South Campus Central Chiller Plant	\$55.5M	\$72.5M	University Bond Proceeds
William H. Hall Complex Expansion - Phase II	\$44.4M	\$51.1M	University Bond Proceeds Auxiliary Funds

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Administration and Planning and Special Assistant to the President be authorized to enter into/increase professional services contracts and enter into/increase construction contracts for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix XLV for background information, page 819.)

LEASE

Resolution No. 2010-93

**THE OHIO STATE UNIVERSITY – OFFICE OF UNIVERSITY COMMUNICATIONS
OFFICE RELOCATION
SOUTH CAMPUS GATEWAY
21 EAST ELEVENTH AVENUE
COLUMBUS, OHIO 43201**

Synopsis: Authorization is requested to enter into a lease agreement for a ten year term for approximately 8,000 SF of office space located on the first floor of a retail/office building at South Campus Gateway at 21 East Eleventh Avenue, Columbus, Ohio to be occupied by the Office of University Communications.

WHEREAS the Board of Trustees of The Ohio State University is presented with the opportunity to enter into a ten year lease of real property at 21 East Eleventh Avenue owned by Campus Partners for Community Urban Redevelopment; and

WHEREAS the property contains approximately 8,000 SF on the first floor near the corner of High Street and Eleventh Avenue; and

WHEREAS this property adequately satisfies the space requirements for the Office of University Communications, and it has been determined that this lease is in the best interest of the University; and

WHEREAS funding for the lease payments, all operating expenses, and tenant improvements will be provided through central funds and University Communications:

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Administration and Planning be authorized to take any action required to effect the execution of the ten year lease of improved real property at 21 East Eleventh Avenue upon such terms and conditions as are in the best interest of the University.

(See Appendix XLVI for background information, page 824.)

PURCHASE OF REAL PROPERTY

Resolution No. 2010-94

**EAST/WEST ALLEY SOUTH OF 11TH AVENUE GARAGE
COLUMBUS, OHIO 43201**

Synopsis: Authorization is requested to purchase property containing the City of Columbus East/West alley between Worthington Street and the North/South alley east of Neil Avenue, and immediately south of and adjacent to the 11th Avenue parking garage.

WHEREAS at the request of the University, the City of Columbus has offered to vacate and sell the alley adjacent to the proposed William Hall Complex Phase 2, new student residence hall to the University for \$56,750, subject to approval of the sale by the Columbus City Council and subject to a general utility easement for City utilities located in the alley, and an appraisal of this property supports the purchase price that is being offered by the City to sell the property to the University; and

May 14, 2010 meeting, Board of Trustees

WHEREAS the purchase of this property supports the construction of the new residence hall and the property is located within the University's South Campus acquisition area and the appropriate University offices have determined that the purchase of this property would be in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Administration and Planning be authorized to take any action required to affect the purchase of the East/West alley, south of and adjacent to the 11th Avenue parking garage, and to acquire title to this property upon such terms and conditions deemed to be in the best interest of the University.

(See Appendix XLVII for background information, page 826.)

AUTHORIZATION FOR ESTABLISHMENT OF A NEW UNIVERSITY AFFILIATE

Resolution No. 2010-95

BIOHIO RESEARCH PARK

Synopsis: Authorization to establish a new affiliate to facilitate collaboration to promote market application of scientific research and further economic development in Ohio is recommended.

WHEREAS the Board of Trustees adopted the Policy on Affiliated Entities in June 2008 to provide a uniform framework for the establishment and operation of separate entities that are closely affiliated with The Ohio State University, ensure that such entities serve the best interests of the University, and provide for continuing appropriate oversight by the University and the Board; and

WHEREAS the President has recommended that a new affiliate, BioHio Research Park, be established to facilitate collaboration between the Ohio Agricultural Research and Development Center to promote the market application of scientific research and further economic development for the citizens of Ohio by creating a means to commercialize discoveries, transfer technology, increase sponsored research funding, and provide students with opportunities for internships and employment:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby authorizes the University to participate in the establishment and operation of the BioHio Research Park and its designation as a University affiliate, and authorizes and directs the President and/or Senior Vice President for Business and Finance, in consultation with other University officials as appropriate, to perform such actions and execute such documents as may be necessary or desirable to effect the establishment of this entity; and

BE IT FURTHER RESOLVED, That in accordance with the Policy on Affiliated Entities, the Vice President for Agricultural Administration and Dean of the College of Food, Agricultural, and Environmental Sciences is hereby designated as the senior University official charged with oversight of this entity and that the BioHio Research Park shall report periodically to the University and the Board of Trustees through the designated senior oversight official; and

BE IT FURTHER RESOLVED, That the relationship between the University and the BioHio Research Park shall be memorialized through a memorandum of agreement

May 14, 2010 meeting, Board of Trustees

and that the entity shall operate in accordance with the Policy on Affiliated Entities, the memorandum of agreement, and the entity's approved business plan; and

BE IT FURTHER RESOLVED, That as appropriate and as directed, Trustees, officers, and employees of The Ohio State University are hereby authorized, designated, and directed to serve as directors, managers, officers, employees, and agents of the BioHio Research Park, representing the University in such capacities as part of their official duties and responsibilities to the University and entitling them to any immunity, insurance, indemnity, and representation to which Trustees, officers, and employees of the University now are, or hereafter may become, entitled.

(See Appendix XLVIII for background information, page 828.)

AUTHORIZATION FOR ESTABLISHMENT OF A NEW UNIVERSITY AFFILIATE
Resolution No. 2010-96

P4 MEDICINE INSTITUTE

Synopsis: Authorization to establish a new affiliate to promote and accelerate the emergence and adoption of personalized medicine is recommended.

WHEREAS the Board of Trustees adopted the Policy on Affiliated Entities in June 2008 to provide a uniform framework for the establishment and operation of separate entities that are closely affiliated with The Ohio State University, ensure that such entities serve the best interests of the University, and provide for continuing appropriate oversight by the University and the Board; and

WHEREAS the President has recommended that a new affiliate, P4 Medicine Institute, be established to promote and accelerate the emergence and adoption of health care that is predictive, preventive, personalized, and participatory:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby authorizes the University to participate as a founding member in the establishment and operation of the P4 Medicine Institute and its designation as a University affiliate, and authorizes and directs the President and/or Senior Vice President for Business and Finance, in consultation with other University officials as appropriate, to perform such actions and execute such documents as may be necessary or desirable to effect the establishment of this entity; and

BE IT FURTHER RESOLVED, That in accordance with the Policy on Affiliated Entities, the Senior Vice President for Health Sciences is hereby designated as the senior University official charged with oversight of this entity and that the P4 Medicine Institute shall report periodically to the University and the Board of Trustees through the designated senior oversight official; and

BE IT FURTHER RESOLVED, That the relationship between the University and the P4 Medicine Institute shall be memorialized through a memorandum of agreement and that the entity shall operate in accordance with the Policy on Affiliated Entities, the memorandum of agreement, and the entity's approved business plan; and

BE IT FURTHER RESOLVED, That as appropriate and as directed, Trustees, officers, and employees of The Ohio State University are hereby authorized, designated, and directed to serve as directors, managers, officers, employees, and agents of the P4 Medicine Institute, representing the University in such capacities as part of their official

May 14, 2010 meeting, Board of Trustees

duties and responsibilities to the University and entitling them to any immunity, insurance, indemnity, and representation to which Trustees, officers, and employees of the University now are, or hereafter may become, entitled.

(See Appendix XLIX for background information, page 831.)

AUTHORIZATION FOR ESTABLISHMENT OF A NEW UNIVERSITY AFFILIATE

Resolution No. 2010-97

OSU CHINA GATEWAY, LLC

Synopsis: Authorization to establish a new affiliate to facilitate collaboration with institutions and organizations in the People's Republic of China is recommended.

WHEREAS the Board of Trustees adopted the Policy on Affiliated Entities in June 2008 to provide a uniform framework for the establishment and operation of separate entities that are closely affiliated with The Ohio State University, ensure that such entities serve the best interests of the University, and provide for continuing appropriate oversight by the University and the Board; and

WHEREAS the President has recommended that a new affiliate, OSU China Gateway, LLC, be established to: 1) facilitate collaboration between the University and institutions and organizations in the People's Republic of China; 2) assist in student, faculty, and alumni liaison in China; 3) provide opportunities for faculty and student exchanges; 4) explore opportunities for executive training and teaching activities in China; and 5) facilitate University advancement in China:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby authorizes the establishment of the affiliated entity OSU China Gateway, LLC, and authorizes and directs the President and/or Senior Vice President for Business and Finance, in consultation with other University officials as appropriate, to perform such actions and execute such documents as may be necessary or desirable to effect the establishment of this entity; and

BE IT FURTHER RESOLVED, That in accordance with the Policy on Affiliated Entities, the Executive Vice President and Provost is hereby designated as the senior University official charged with oversight of this entity and that OSU China Gateway shall report periodically to the University and the Board of Trustees through the designated senior oversight official; and

BE IT FURTHER RESOLVED, That the relationship between the University and OSU China Gateway shall be memorialized through a memorandum of agreement and that the entity shall operate in accordance with the Policy on Affiliated Entities, the memorandum of agreement, and the entity's approved business plan; and

BE IT FURTHER RESOLVED, That as appropriate and as directed, Trustees, officers, and employees of The Ohio State University are hereby authorized, designated, and directed to serve as directors, managers, officers, employees, and agents of OSU China Gateway, LLC, representing the University in such capacities as part of their official duties and responsibilities to the University and entitling them to any immunity, insurance, indemnity, and representation to which Trustees, officers, and employees of the University now are, or hereafter may become, entitled.

(See Appendix L for background information, page 844.)

May 14, 2010 meeting, Board of Trustees

Upon motion of Mr. O'Dell, seconded by Ambassador Ong, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Wexner, Ong, Borrer, O'Dell, Fisher, Schottenstein, Brass, Ratner, Jurgensen and Reid.

President Gee:

In addition we are seeking your approval for personnel actions. Let me just note Mr. Chairman that we have several significant appointments here: Michael J. Boehm will become our vice provost for Academic Planning replacing Mike Sherman who is becoming the new provost at the University of Akron, I am not certain if Mike is here, but wanted to just acknowledge him. Geoff Chatas, start the printing please in the press down in the basement, we appreciate that. Jack Rall our new faculty ombudsman person and then the continuing appointment/reappointment of Jim Tressel as our head football coach, but there is a new addendum, and that is that Gordon Gee as offensive coordinator, so thank you very much.

Mr. Wexner:

I am pausing on that one. You say offensive, do we have a motion?

PERSONNEL ACTIONS

Resolution No. 2010-98

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the February 5, 2010, meeting of the Board, including the following Appointments, Reappointments, Appointments/Reappointments of Chairpersons/Directors, Leaves of Absence Without Salary – Continuation, Professional Improvement Leaves – Change to Leave of Absence Without Salary, Leaves of Absence Without Salary, Professional Improvement Leaves, Emeritus Title – Change in Department, Emeritus Title – Change in Title, and Emeritus Titles, be approved.

Appointments

Name: MICHAEL J. BOEHM
Title: Vice Provost for Academic Planning
Office: Academic Affairs
Term: May 10, 2010, through April 30, 2015

Name: GEOFFREY S. CHATAS
Title: Senior Vice President
Chief Financial Officer
Office: Business and Finance
Term: February 15, 2010, through February 14, 2015

Name: JOHN J. LAHEY
Title: Associate Vice President for Health Sciences
College: Medicine
Effective: May 1, 2010

May 14, 2010 meeting, Board of Trustees

Name: VALERIE B. LEE
Title: Interim Vice Provost
Office: Minority Affairs
Term: April 1, 2010, through March 31, 2011

Name: PHILLIP G. POPOVICH
Title: Professor (Ray W. Poppleton Research Designated Chair)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: JACK A. RALL
Title: Faculty Ombudsman
Office: Academic Affairs
Term: October 1, 2010, through June 30, 2011

Name: MIGUEL VILLALONA-CALERO
Title: Professor (The Dorothy M. Davis Chair in Cancer Research)
College: Medicine
Term: May 1, 2010, through June 30, 2015
Title: Director, Division of Medical Oncology
College: Medicine
Effective: May 1, 2010

Reappointments

Name: GREG M. ALLENBY
Title: Professor (The Helen C. Kurtz Chair in Marketing)
College: The Max M. Fisher College of Business
Term: October 1, 2009, through September 30, 2014

Name: ANNETTE L. BEATTY
Title: Professor (The Deloitte & Touche Chair in Accounting)
College: The Max M. Fisher College of Business
Term: October 1, 2009, through September 30, 2014

Name: STEVEN G. GABBE
Title: Senior Vice President
Office: Health Sciences
Term: July 1, 2010, through June 30, 2015

Name: ANIL K. MAKHIJA
Title: Professor (David A. Rismiller Professorship in Finance)
College: The Max M. Fisher College of Business
Term: February 1, 2010, through January 31, 2011

Name: RAYMOND A. NOE
Title: Professor (Robert and Anne Hoyt Designated Professorship in Management)
College: The Max M. Fisher College of Business
Term: October 1, 2009, through September 30, 2014

Name: ODED SHENKAR
Title: Professor (The Ford Motor Company Chair in Global Business Management)
College: The Max M. Fisher College of Business
Term: May 1, 2009, through April 30, 2014

May 14, 2010 meeting, Board of Trustees

Name: INGRID M. WERNER
Title: Professor (The Martin and Andrew Murrer Professorship in Finance)
College: The Max M. Fisher College of Business
Term: March 1, 2010, through February 28, 2015

Appointments/Reappointments of Chairpersons/Directors

ERIC M. ANDERMAN*, Interim Director, School of Educational Policy and Leadership, effective October 1, 2010, through September 30, 2011.

YANA HASHAMOVA, Acting Chair, Department of Slavic and East European Languages and Literatures, effective October 1, 2010, through December 31, 2010.

HORACE E. NEWSUM, Chair, Department of African American and African Studies, effective March 1, 2010, through February 29, 2012.

MARI NODA*, Chair, Department of East Asian Languages and Literatures, effective October 1, 2009, through June 30, 2013.

john a. powell*, Director, Kirwan Institute for the Study of Race and Ethnicity in the Americas, effective October 1, 2009, through June 30, 2013.

ALLISON A. SNOW*, Director, Office of Undergraduate Research, effective January 1, 2010, through December 31, 2013.

*reappointment

Reappointment of Men's Head Football Coach

JAMES P. TRESSEL, addendum to employment agreement. Term of the contract: February 1, 2006, through January 31, 2015.

Leave of Absence Without Salary – Continuation

KOBINAH ABDUL-SALIM, Assistant Professor, Department of Evolution, Ecology and Organismal Biology, effective from Autumn Quarter 2009, Winter Quarter and Spring Quarter 2010, to include Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011, for personal reasons.

Professional Improvement Leave change to Leave of Absence without Salary

TREVON D. LOGAN, Assistant Professor, Department of Economics, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011, change from Professional Improvement Leave to Leave of Absence without salary.

Leaves of Absence Without Salary

HELENA I. GOSCILO, Professor, Department of Slavic and East European Languages and Literatures, effective Autumn Quarter 2010, to serve as visiting Leverhulme Professor in Russian Studies at the University of Leeds in the UK.

TANYA ERZEN, Associate Professor, Department of Comparative Studies, effective Autumn Quarter 2010, Winter Quarter, Spring Quarter and Summer Quarter 2011, to serve as a member of the Institute for Advanced Study at Princeton.

TOWNSAND PRICE-SPRATLEN, Associate Professor, Department of Sociology, effective Spring Quarter 2010, for professional development purposes.

May 14, 2010 meeting, Board of Trustees

RUBY C. TAPIA, Associate Professor, Department of Comparative Studies, effective Winter Quarter 2011, to be a Visiting Professor in the Departments of English and Women's Studies at the University of Michigan.

KRISTI A. COSTABILE, Assistant Professor, Department of Psychology (Marion), effective Autumn Quarter 2010, Winter Quarter, Spring Quarter and Summer Quarter 2011, to be an Adjunct Assistant Professor at Iowa State University.

Professional Improvement Leaves

IGOR V. ADAMOVIICH, Professor, Department of Mechanical Engineering, effective Autumn Quarter 2010 and Winter Quarter 2011.

HEATHER C. ALLEN, Professor, Department of Chemistry, effective Winter Quarter and Spring Quarter 2011.

WILLIAM W. BATSTONE, Professor, Department of Greek and Latin, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011.

MARY E. BECKMAN, Professor, Department of Linguistics, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011.

MARTHA A. BELURY, Professor, Department of Human Nutrition, effective Winter Quarter and Spring Quarter 2011.

DAVID M. BLOOME, Professor, School of Teaching and Learning, effective Winter Quarter and Spring Quarter 2011.

JOHN D. BONAGURA, Professor, Department of Veterinary Clinical Sciences, effective Autumn Quarter 2010, Winter Quarter, Spring Quarter and Summer Quarter 2011.

LEONARD J. BRILLSON, Professor, Department of Electrical and Computer Engineering, effective Winter Quarter and Spring Quarter 2011.

TIMOTHY J. CARLSON, Professor, Department of Mathematics, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011.

WILLIAM R. CHILDS, Professor, Department of History, effective Winter Quarter and Spring Quarter 2011.

YU-PING CHIN, Professor, School of Earth Sciences, effective Winter Quarter and Spring Quarter 2011.

WILLIAM A.T. CLARK, Professor, Department of Materials Science and Engineering, effective Autumn Quarter 2010 and Winter Quarter 2011.

RICHARD DAVIS, Professor, Department of Near Eastern Languages and Cultures, effective Autumn Quarter 2010 and Winter Quarter 2011.

CYNTHIA B. DILLARD, Professor, School of Teaching and Learning, effective Autumn Quarter 2010 and Spring Quarter 2011.

LIANG-SHIH FAN, Professor, Lowrie Department of Chemical and Biomolecular Engineering, effective Autumn Quarter 2010 and Winter Quarter 2011.

TIMOTHY A. GERBER, Professor, School of Music, effective Autumn Quarter 2010 and Winter Quarter 2011.

May 14, 2010 meeting, Board of Trustees

RICHARD F. GREEN, Professor, Department of English, effective Winter Quarter and Spring Quarter 2011.

CHRISTOPHER F. HIGHLEY, Professor, Department of English, effective Winter Quarter and Spring Quarter 2011.

JOHN C. HUNTINGTON, Professor, Department of History of Art, effective Winter Quarter and Spring Quarter 2011.

GREGORY JUSDANIS, Professor, Department of Greek and Latin, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011.

AHMET KAHRAMAN, Professor, Department of Mechanical Engineering, effective Autumn Quarter 2010 and Winter Quarter 2011.

JEFFREY M. KIPNIS, Professor, Knowlton School of Architecture, effective Winter Quarter and Spring Quarter 2011.

CHRISTOPHER S. KOCHANEK, Professor, Department of Astronomy, effective Autumn Quarter 2010 and Winter Quarter 2011.

SMITA MATHUR, Professor, Department of Astronomy, effective Autumn Quarter 2010 and Winter Quarter 2011.

ANNE B. MCCOY, Professor, Department of Chemistry, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011.

WILLIAM T. MCDANIEL, JR., Professor, Department of African American and African Studies, effective Autumn Quarter 2010 and Winter Quarter 2011.

BRIAN MCHALE, Professor, Department of English, effective Winter Quarter and Spring Quarter 2011.

TERESA M. MENSING, Professor, School of Earth Sciences, effective Autumn Quarter 2010 and Winter Quarter 2011.

MARGARET A. MILLS, Professor, Department of Near Eastern Languages and Cultures, effective Winter Quarter and Spring Quarter 2011.

CHRISTINE B. MORRIS, Professor, Department of Art Education, effective Winter Quarter and Spring Quarter 2011.

DONNA L. PASTORE, Professor, School of Physical Activity and Educational Services, effective Winter Quarter 2011.

SYED M. TARIQ RIZVI, Professor, Department of Mathematics (Lima), effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011.

PATRICIA L. SCHARER, Professor, School of Teaching and Learning, effective Winter Quarter and Spring Quarter 2011.

RAJENDRA SINGH, Professor, Department of Mechanical Engineering, effective Winter Quarter and Spring Quarter 2011.

TODD W. SLAUGHTER, Professor, Department of Art, effective Winter Quarter and Spring Quarter 2011.

ABRIL J. TRIGO, Professor, Department of Spanish and Portuguese, effective Winter Quarter and Spring Quarter 2011.

May 14, 2010 meeting, Board of Trustees

BRUCE W. WEIDE, Professor, Department of Computer Science and Engineering, effective Autumn Quarter 2010 and Winter Quarter 2011.

UDO WILL, Professor, School of Music, effective Autumn Quarter 2010 and Winter Quarter 2011.

BARBARA E. WYSLOUZIL, Professor, Lowrie Department of Chemical and Biomolecular Engineering, effective Autumn Quarter 2010 and Spring Quarter 2011.

PHILIP A. ARMSTRONG, Associate Professor, Department of Comparative Studies, effective Autumn Quarter 2010 and Winter Quarter 2011.

JAN H. EDWARDS, Associate Professor, School of Music, effective Winter Quarter and Spring Quarter 2011.

EYLEM EKICI, Associate Professor, Department of Electrical and Computer Engineering, effective Autumn Quarter 2010 and Winter Quarter 2011.

JON E. ERICKSON, Associate Professor, Department of English, effective Winter Quarter and Spring Quarter 2011.

M. CANDACE FECK, Associate Professor, Department of Dance, effective Winter Quarter and Spring Quarter 2011.

AMANPAL S. GARCHA, Associate Professor, Department of English, effective Autumn Quarter 2010 and Winter Quarter 2011.

DEREK J. HANSFORD, Associate Professor, Department of Biomedical Engineering, effective Autumn Quarter 2010 and Winter Quarter 2011.

GREGOR W. HENS, Associate Professor, Department of Germanic Languages and Literatures, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011.

MICHAEL IBBA, Associate Professor, Department of Microbiology, effective Winter Quarter and Spring Quarter 2011.

LAURIE J. KATZ, Associate Professor, School of Teaching and Learning, effective Winter Quarter and Spring Quarter 2011.

ISAMU KUSAKA, Associate Professor, Lowrie Department of Chemical and Biomolecular Engineering, effective Winter Quarter and Spring Quarter 2011.

SUKJAE LEE, Associate Professor, Department of Philosophy, effective Autumn Quarter 2010 and Winter Quarter 2011.

YOONKYUNG LEE, Associate Professor, Department of Statistics, effective Winter Quarter and Spring Quarter 2011.

ANTHONY F. LUSCHER, Associate Professor, Department of Mechanical Engineering, effective Autumn Quarter 2010 and Winter Quarter 2011.

FERNANDO MARTINEZ-GIL, Associate Professor, Department of Spanish and Portuguese, effective Winter Quarter and Spring Quarter 2011.

JOHN E. OPFER, Associate Professor, Department of Psychology, effective Autumn Quarter 2010 and Winter Quarter 2011.

May 14, 2010 meeting, Board of Trustees

HAY-OAK PARK, Associate Professor, Department of Molecular Genetics, effective Autumn Quarter 2010 and Winter Quarter 2011.

WALTER C. RUCKER, Associate Professor, Department of African American and African Studies, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011.

ANDREA SERRANI, Associate Professor, Department of Electrical and Computer Engineering, effective Winter Quarter and Spring Quarter 2011.

HALIL SEZEN, Associate Professor, Department of Civil and Environmental Engineering and Geodetic Science, effective Autumn Quarter 2010 and Winter Quarter 2011.

JENNIFER SIEGEL, Associate Professor, Department of History, effective Autumn Quarter 2010 and Spring Quarter 2011.

PRASUN SINHA, Associate Professor, Department of Computer Science and Engineering, effective Autumn Quarter 2010 and Winter Quarter 2011.

STEPHANIE J. SMITH, Associate Professor, Department of History, effective Winter Quarter and Spring Quarter 2011.

ZUCAI SUO, Associate Professor, Department of Biochemistry, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011.

ARON VINEGAR, Associate Professor, Department of History of Art, effective Autumn Quarter 2010, Winter Quarter and Spring Quarter 2011.

JOE E. WHEATON, Associate Professor, School of Physical Activity and Educational Services, effective Autumn Quarter 2010 and Winter Quarter 2011.

SHENG-TAO JOHN YU, Associate Professor, Department of Mechanical Engineering, effective Autumn Quarter 2010 and Winter Quarter 2011.

CHRISTOPHER J. ZIRKLE, Associate Professor, School of Physical Activity and Educational Services, effective Winter Quarter 2011.

JOSEPH T. ZEIDAN, Associate Professor, Department of Near Eastern Languages and Cultures, effective Autumn Quarter 2010 and Winter Quarter 2011.

JOHN E. FOSLER-LUSSIER, Assistant Professor, Department of Computer Science and Engineering, effective Winter Quarter and Spring Quarter 2011.

FENGYUAN YANG, Assistant Professor, Department of Physics, effective Autumn Quarter 2010 and Winter Quarter 2011.

Emeritus Title – Change in Department

CLAYTON K. LOWE, change from College of the Arts – Administration to the Department of Theatre with the title Associate Professor Emeritus, effective May 1, 2010.

Emeritus Title – Change in Title

BARBARA A. HANAWALT, Department of History from the title Professor Emeritus to the title King George III Professor of British History Emeritus, effective January 1, 2010.

May 14, 2010 meeting, Board of Trustees

Emeritus Titles

JOHN N. KING, Department of English with the title Distinguished University Professor Emeritus, effective July 1, 2010.

EDWARD H. ADELSON, School of Music with the title Professor Emeritus, effective July 1, 2010.

RALPH E.J. BOERNER, Department of Evolution, Ecology, and Organismal Biology with the title Professor Emeritus, effective January 1, 2010.

HOWARD G. CRANE, JR., Department of History of Art with the title Professor Emeritus, effective July 1, 2010.

JOSÉ B. CRUZ, JR., Department of Electrical and Computer Engineering with the title Professor Emeritus, effective April 1, 2010.

BERNARD MULLIGAN, Department of Physics with the title Professor Emeritus, effective April 1, 2010.

JOHN W. ROBERTS, Department of English with the title Professor Emeritus, effective July 1, 2010.

JACQUELINE JONES ROYSTER, Department of English with the title Professor Emeritus, effective September 1, 2010.

ANTON F. SCHENK, Department of Civil and Environmental Engineering and Geodetic Science with the title Professor Emeritus, effective April 1, 2010.

HALINA STEPHAN, Department of Slavic and East European Languages and Literatures with the title Professor Emeritus, effective October 1, 2010.

JAMES C. KINARD, Department of Accounting and Management Information Systems with the title Associate Professor Emeritus, effective April 1, 2010.

CHRISTIANE LAEUFER, Department of French and Italian with the title Associate Professor Emeritus, effective July 1, 2010.

PAUL PONOMAREV, Department of Mathematics with the title Associate Professor Emeritus, effective April 1, 2010.

WAYNE J. REDENBARGER, Department of Spanish and Portuguese with the title Associate Professor Emeritus, effective July 1, 2010.

MAC A. STEWART, Department of Human Development and Family Science with the title Associate Professor Emeritus, effective April 1, 2010.

Upon motion of Ambassador Ong, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution with twelve affirmative votes, cast by Trustees, Ong, Borrer, O'Dell, Shumate, Fisher, Schottenstein, Brass, Kass, Jurgensen, and Reid, and one abstention cast by Trustee Wexner.

-0-

Mr. Wexner:

Thank you very much.

May 14, 2010 meeting, Board of Trustees

I think we have something else to do, and could I call Tim Gerber to come forward please.

Dr. Timothy Gerber:

When *Time Magazine* recognized President Gee as the Best University President in the United States of America, all of us were justifiably proud. On the November day the magazine hit the newsstands, we conducted a regularly scheduled University Senate Meeting, in November where the President presides. Our students had a very cleverly photo shopped photo of the President onto the cover of *Time Magazine* and surprised the President with a joyous upbeat acknowledgement. They love to brag about him. Not to be outdone, the faculty prepared a formal resolution which the full University Senate then passed to honor President Gee. In our honorific tradition, the resolution includes eight whereas statements, leading to the resolution. I would direct your attention to the document, a copy of which is at your desks and in the interest of time, permit me to read only an abbreviated version of the resolution which states:

Be it resolved that The Ohio State University Senate, honor E. Gordon Gee for his steadfast commitment to the betterment of higher education for all students and that in gratitude for his substantive contributions to higher education, to The Ohio State University. The University Senate and its 137 members honor President E. Gordon Gee as professor, colleague and friend.

President Gee:

Thank you, that comes as a surprise, and I will speak at great length. Thank you very much Tim, and I want to note something, Tim Gerber whom we know, we are going to have a chance to say both about Tim and Amy, who will be leaving, but Tim has been an extraordinary leader of our faculty and I had an opportunity yesterday to speak to our faculty leadership. We have been blessed at this institution with a great partnership between the faculty and the University administration, resulting in fact as heavy a momentum in terms of change of any university in this country, and Tim, particularly I will note, was the architect of our moving from quarters to semesters, something in kin to planning the Normandy Invasion, and you are doing it very well, General Gerber. Would you pass along to my colleagues, my appreciation for that resolution?

Mr. Wexner:

Before we adjourn, I want to just take a moment to appreciate the progress of the University, to appreciate the leadership of the President and the energy and the time and the just doing of the doing that the Board contributes to the University. And should probably thank the students and the faculty and the staff because we are doing better. Part of that doing better is kind of a commencement and that is the leaving, in a formal way, of three people from the University Board. Jason, I spoke about you last night and I have a plaque that we will give you after we adjourn and take a picture. The plaque says "In appreciation to Jason Marion, for his dedication, commitment and praiseworthy service to The Ohio State University." Clearly you are and will be appreciated, thank you.

Jo Ann Davidson is not here, but I will speak of that great lady in her presence sometime soon, hopefully at a Board Meeting. But another plaque to present to Ambassador Ong, and it likewise expresses deep appreciation and gratitude for exceptional service as a Trustee, and that is sincere, John. We do appreciate you and will appreciate your continued engagement. When we adjourn, I think it would be nice if we took a picture.

May 14, 2010 meeting, Board of Trustees

If there is no other business to come before the Board, I would recommend that we be adjourned.

Thank you.

Thereupon the Board adjourned to meet Thursday, June 14, 2010, at The Ohio State University, Ohio Union, Columbus, OH.

Wexner Center for the Arts: *Qualitative Institutional Profiling Survey*

Survey Participants -- 16 responses among 18 contacted

National & University-based with Some Degree of Multidisciplinarity

- Harvard Art Museums
- UC Berkeley, University Art Museum and Pacific Film Archive
- UCLA Hammer Museum
- University of Illinois, Krannert Center for the Performing Arts
- University of Pennsylvania, Institute of Contemporary Art, Philadelphia
- Yale University Gallery

International with Some Degree of Multidisciplinarity

- Moderna Museet, Stockholm
- Pompidou, Paris
- Tate Modern, London
- Whitechapel Art Gallery, London

National & Non-University with Some Degree of Multidisciplinarity

- Institute of Contemporary Art, Boston
- Museum of Contemporary Art Chicago
- Sundance Institute
- San Francisco Museum of Modern Art
- Walker Art Center
- Whitney Museum of American Art

Wexner Center for the Arts: Qualitative Institutional Profiling Survey

When asked what thoughts, words or *impressions first come to mind* about the Wexner the following themes emerged:

- "One of the foremost interdisciplinary contemporary arts museums in the U.S. A bright spot in the mid U.S."
- Egalitarian/holistic approach to the contemporary arts, "presenting high caliber works in different disciplines not as adjuncts but on equal footing."
- "Great public university, international, edgy, out of the box, experimental, risk taking, dynamic, lively, vibrant, ambitious, nimble, do a lot with a little, lean and mean."

Wexner Center for the Arts: Qualitative Institutional Profiling Survey

- Awareness of the Wexner is strongly related to two *early* decisions:
 - Peter Eisenman Building
 - Wexner Prize

- Awareness of center strongly related to *artistic program*

Exhibitions

"Cutting edge exhibitions, more conceptually advanced than a typical New York museum"

"I was so jealous about Warhol I could barely speak. I really wish I had that show! That show required so much effort and was so fantastic. I mean really awesome, great, perfect."

Performing Arts

"Every time I read their literature I'm surprised at how vital and alive their performing arts programs are. They get good, big people through there."

"They are known for their boundary pushing contemporary programs - across the board - films, performances and exhibitions. It may be that they are even better known for their commissioned dance and performance programs than for their exhibitions."

Film and Media Arts

"The film program is the greatest in America. It is much better than MOMA; it's much more risk taking. Equal or better than Berkeley. They are so far ahead of Sundance, and so far ahead of everybody else."

"The video program is completely ahead of its time."

Wexner Center for the Arts: Qualitative Institutional Profiling Survey

Awareness of Wexner is strongly related to its focus on *artist residencies and commissions:*

- "It's a very artist friendly place with a star reputation for commissioning great work from the very beginning, from Maya Lin to dancers like Meredith Monk and Tricia Brown."
- "Artists are given a great free reign, access to all departments on campus, access to expertise that otherwise would not be available to them."
- "When you see that they have been involved in the work of art, you really do regard that work of art more seriously. It's like an endorsement."

Wexner Center for the Arts: Qualitative Institutional Profiling Survey

- Awareness of Wexner is strongly related to:

Collaborations with partnering institutions

"It's the kind of institution that shares a mission and goals with us. It is a

major university museum with a strong emphasis on contemporary work and a great reputation."

High profile of its Director and Senior Curators

"Brilliant director, one of the top directors in the country."

Wexner benefits from the fact that it's senior staff past and present

enjoys a high profile in the art world.

Wexner Center for the Arts: Qualitative Institutional Profiling Survey

- Most respondents feel Wexner has a *distinctive profile* among contemporary institutions:

- "The Wexner's unique sales proposition is presenting high caliber works in different disciplines not as adjuncts, but on equal footing. Who else would be able to have that claim?"

- "The Wexner is distinctive because it's a place where things are made and serious attention and money and time is given to that, where there is a very serious commitment to contemporary practice."

- "As with any great university museum, I associate them with experimental performance and exhibitions, very contemporary, up to the minute cutting edge work."

Wexner Center for the Arts: Qualitative Institutional Profiling Survey

- Respondents rated the *overall quality* of Wexner programs and reputation as:
 - “High” to “very high” to “absolutely outstanding . . . unsurpassed in quality and distinctiveness, even in relation to MOMA and the other big ones.”
 - “Highest quality, by international standards, not afraid of being popular, underrated, deserving of more recognition than they’ve received for the sustained quality of programming and the fact that they are ahead of the curve. A lot of the work they do has not yet been seen in New York or Los Angeles, and it will never be seen in Denver.”

Wexner Center for the Arts: Qualitative Institutional Profiling Survey

- Respondents gave wide-ranging responses when asked to name Wexner’s *peer institutions*:
 - “The Wexner very clearly belongs to an elite, very distinct group in this country when it comes to contemporary things: MOMA, the Whitney, the Wexner, SFMOMA, LA MoCA, Walker. There are a lot of wannabe’s that think they are part of that group.
 - “The Wexner is the most prominent contemporary art museum that is not located in a major urban area in the United States. The Wexner has overcome a big geographic challenge.”

Wexner Center for the Arts: Qualitative Institutional Profiling Survey

□ Wexner Center *Strengths*:

- "There is a history of innovative thinking in terms of programming. Being able to pull things off that attract large audiences, the average person on the street."
- "Finding the sweet spot between popular culture and serious culture."
- "A lot of places have more money than they deserve and the programs that they produce aren't interesting. The Wexner is the opposite."

Wexner Center for the Arts: Qualitative Institutional Profiling Survey

□ Wexner Center *Strengths*:

- "For the size of their staff and budget, the bang for the buck is enormous."
- "To have access to and be able to leverage all the research and intellectual resources of a very powerful state university is a great thing."
- "University museums encourage a laboratory like environment that allows for experimentation and risk taking."

Wexner Center for the Arts: Qualitative Institutional Profiling Survey

□ Wexner Center Challenges:

- "If we are organizing a show and we want to go to the Midwest, we look at places like Chicago or the Walker or some place in Texas. We would not think quickly of Columbus."
- "The really good curators have other options, and while the Wexner Center is a wonderful place, it's in Columbus, not a great city, and that's the biggest problem."
- "The fact the Wexner bears a philanthropist's name. True or not, there is a perception that "Les Wexner foots the bill for whatever doesn't get fundraised."
- "Will the Wexner simply be swallowed up and thrown into the category of an appendage of the university or is it a stand-alone platform that is viewed as such by the university and used as a resource in that way."

Wexner Center for the Arts: Qualitative Institutional Profiling Survey

Conclusions:

Wexner Center has catapulted into the first rank of U.S. university museums and is widely perceived as being on the short list of leading U.S. contemporary art museums and art centers

- *In 20 short years*
- *In spite of a challenging geographical location*

Both by statistical measure and in terms of industry "mindshare," the Wexner has a distinctive brand, outsized reputation, and powerful impact in the field of the contemporary arts

Its success is the result of very generous support from a "great public university" and the corporate and private sectors, together with its strong artistic program

Since the visionary founding initiative of 20 years ago, the continuing investment of key stakeholders has paid a

Wexner Center for the Arts
A Qualitative Institutional Profiling Survey

What's at risk. . .

Competition in field

Staying apace of industry progress

Fit inside OSU priorities

Inadequate physical capacity

Brand identity if too closely "boxed in" by others

#####

Thank you. . .

(APPENDIX XXXVII)

RULES OF THE UNIVERSITY FACULTY

3335-3-37 Alteration or abolition of units.

(A) No change.

(B) Procedure for alteration or abolition of departments and schools.

(1) through (6) no changes.

(7) The president shall review the proposal. If in favor, the president will forward it to the board of trustees. If the board of trustees approves the proposal, then the executive vice president and provost will appoint an oversight committee to monitor the implementation of the process. The chair of faculty council or designee; the secretary of the faculty university senate; one member of the committee on academic freedom and responsibility; and three members of faculty council shall be appointed to the oversight committee, the purpose of which is to safeguard the interests of affected faculty, students, and staff. Through the chair of faculty council, the oversight committee will periodically report to the university senate, review and assess outcomes, suggest changes where targets are not being met, and assure that the memorandum of understanding is upheld. The oversight committee will present a final report to the senate.

(C) Procedure for alteration or abolition of colleges.

(1) through (8) no changes.

(9) The president shall review the proposal. If in favor, the president shall forward it to the board of trustees. If the board of trustees approves the proposal, then the executive vice president and provost will appoint an oversight committee to monitor the implementation of the process. The chair of faculty council or designee; the secretary of the faculty university senate; one member of the committee on academic freedom and responsibility; and three members of faculty council shall be appointed to the oversight committee, the purpose of which is to safeguard the interests of affected faculty, students, and staff. Through the chair of faculty council, the oversight committee will periodically report to the university senate, review and assess outcomes, suggest changes where targets are not being met, and assure that the memorandum of understanding is upheld. The oversight committee will present a final report to the senate.

~~3335-5-21 Secretary of the university faculty.~~ **RESCIND**

~~(A) The secretary of the university faculty shall be a tenured member of the regular faculty, appointed by the president from three nominees submitted by the executive committee of faculty council. The term of office shall be for three years. Prior service as secretary shall not preclude nomination to this office. During the term of office the secretary shall be reassigned for a minimum of fifty per cent time to the office of the faculty council during autumn, winter, spring and summer quarters. The secretary of the university faculty will be evaluated annually by the executive vice president and provost, the chair of the senate steering committee, and the chair of faculty council.~~

~~(B) The responsibilities of the secretary of the university faculty shall be to:~~

May 14, 2010 meeting, Board of Trustees

- ~~(1) Serve as an advocate of the collective interests of the university faculty on issues of campus-wide importance. In this capacity the secretary shall:~~
- ~~(a) Serve as a representative of the faculty at the faculty cabinet of the faculty council.~~
 - ~~(b) Serve as a non-voting member of the senate.~~
 - ~~(c) Serve as a non-voting member of faculty council.~~
 - ~~(d) Work to increase faculty awareness of and participation in the university senate and other university-wide governance bodies.~~
 - ~~(e) Keep the records of the meetings of the university faculty and furnish to the president for report to the board of trustees all matters passed by the university faculty requiring approval or action.~~
 - ~~(f) The secretary of the faculty shall report annually to the faculty council and the university senate.~~
- ~~(2) Counsel and advise members of the faculty seeking information and clarification of university-wide policies that affect faculty, e.g., promotion and tenure, academic freedom, sexual harassment, paid external consulting, conflict of interest, workplace violence, and scholarly misconduct. The secretary of the faculty will not, however, serve as a mediator for individual faculty member complaints.~~
- ~~(a) Refer faculty to appropriate senate committees, offices, or dispute resolution mechanisms.~~
 - ~~(b) Consult regularly with the office of academic affairs and the committee on academic freedom and responsibility and advise the office of academic affairs and the committee on academic freedom and responsibility on the adequacy of and needed improvements in the dispute resolution mechanisms available to faculty.~~

3335-5-37 Membership.

There shall be a university senate, a unicameral body constituted as follows:

- (A) No change.
- (B) Non-voting members: senate members not entitled to vote on the floor of the senate, but otherwise to participate in all senate deliberations, shall include the chair of faculty council (if not a member of the senate), the president of the alumni association, the secretary of the university senate, the ~~secretary of the faculty~~, the president of the freshman senate, the president of the undergraduate student government, the president of the council of graduate students, and the president of the inter-professional council, and the chair of the university staff advisory committee.

3335-5-44 Constituent bodies of the senate.

Subject only to the provisions listed below in this paragraph, the representatives to the senate of the administration, of the faculty, and the students shall have the right to meet separately and to organize themselves in whatever manner they shall deem appropriate. As far as the senate is concerned, these bodies represent separate memberships. They may initiate proposals and submit them to the university senate for

May 14, 2010 meeting, Board of Trustees

consideration. The senate, however, shall be independent of these bodies, and its actions shall not need their concurrence nor be subject to their review.

- (A) The members of the administration shall designate to the ~~program committee~~ university senate office one person or officer responsible for submitting to the senate those proposals and recommendations which come in the name of the administration.
- (B) The elected faculty representatives to the senate shall constitute the faculty council. The faculty council shall designate to the ~~program committee~~ university senate office one person or officer responsible for submitting to the senate those proposals and recommendations which come in the name of the faculty council.
- (C) The student representatives to the senate shall designate to the ~~program committee~~ university senate office one person or officer from the undergraduate student government, the council of graduate students, and the inter-professional council, to be responsible for submitting to the senate those proposals and recommendations which come from those respective groups.
- (D) Nothing in the above shall be construed as restricting the right of a principal standing committee or of individual members speaking for themselves to submit proposals for senate action to the ~~program~~ steering committee, or directly to the senate.

3335-5-45.2 Secretary of the university senate.

- (A) no change.
- (B) The responsibilities of the secretary of the university senate will be to:
 - (1) through (3) no changes.
 - (4) Serve as a voting member of ~~the program committee~~ and the rules committee and a non-voting member of the steering committee of the university senate.

Balance unchanged.

3335-5-47 Organizing committees of the senate.

- (A) The senate shall have ~~three~~ two organizing committees (see rules 3335-5-47.1 to 3335-5-47.3 of the Administrative Code):
 - (1) Steering committee;
 - ~~(2) Program committee;~~
 - ~~(3) (2) Rules committee.~~

Balance unchanged.

RESCIND

~~3335-5-47.2 Program Committee.~~

- ~~(A) Membership.~~

~~The program committee shall consist of nine members.~~

May 14, 2010 meeting, Board of Trustees

- ~~(1) Four faculty.~~
- ~~(2) Three students.~~
 - ~~(a) One graduate student.~~
 - ~~(b) One professional student.~~
 - ~~(c) One undergraduate student.~~
- ~~(3) Two administrators.~~
 - ~~(a) The secretary of the university senate.~~
 - ~~(b) A dean.~~

~~(B) Duties and responsibilities.~~

- ~~(1) Receive proposals for senate action and set the senate's agenda. The agenda shall be mailed to members of the senate at least seven calendar days prior to the senate meeting.~~
- ~~(2) Serve as continuing liaison between the senate and the three constituent bodies as well as the university at large.~~
- ~~(3) Schedule for senate consideration items referred by committees of the senate, by the faculty council, by the administration, by the student governments, and by individual senate members. To keep the agenda manageable, however, the program committee may assign priority to such items and schedule those it deems less urgent for a subsequent senate meeting. Proposals not originating within the senate, its committees, or the constituent bodies may also be placed on the agenda. The program committee is empowered to refer all items to an appropriate committee or body for further study before presentation to the senate.~~
- ~~(4) Send to senate members, along with the call for each meeting, a brief report outlining proposals brought before the program committee but not yet appearing on the senate's agenda.~~
- ~~(5) Schedule reports of senate committees.~~
- ~~(6) Identify matters of potential concern to the senate and work with the principal standing committees and with other bodies in the coordination and planning of the senate's continuing agenda.~~

~~(C) Organization.~~

~~As an organizing committee of the senate, this committee is also governed by the provisions of rules 3335-5-46 and 3335-5-47 of the Administrative Code.~~

3335-5-47.3 Rules committee.

- (A) no change.
- (B) Duties and responsibilities.
 - (1) through (4) no changes.

May 14, 2010 meeting, Board of Trustees

- (5) Initiate rules or changes in existing rules and recommend them to the ~~program committee~~ steering committee for scheduling for senate action.

Balance unchanged.

3335-5-48.4 Council on student affairs.

(A) Membership.

The council on student affairs shall consist of twenty-two members.

(1) and (2) no changes.

- (3) Three staff members, appointed by the vice president for student ~~affairs~~ life. The term of service begins in summer quarter.

(a) through (c) no changes.

(4) Three administrators, non-voting.

(a) The vice president for student ~~affairs~~ life or designee.

(b) The associate vice president for student ~~affairs~~ life for planning and student development.

(c) The director of student activities or designee.

(5) No change.

(B) Duties and responsibilities.

(1) and (2) no changes.

- (3) Advise the vice president for student ~~affairs~~ life regarding the programs, services, and activities of the division.

(4) Establish study groups, committees, and other mechanisms as needed to explore issues affecting the quality of student life and make recommendations regarding these issues to the vice president for student ~~affairs~~ life, the senate, and other appropriate groups.

Balance unchanged.

3335-5-48.7 Committee on academic misconduct.

(A) Membership.

The committee on academic misconduct shall consist of thirty-four members.

(1) and (2) no changes.

(3) Two administrators.

(a) The vice president for student ~~affairs~~ life or designee, non-voting.

May 14, 2010 meeting, Board of Trustees

Balance unchanged.

3335-5-48.16 Diversity committee.

(A) No change.

(B) Duties and responsibilities.

The committee shall study issues that relate to the implementation of the university nondiscriminatory policy. It shall recommend policies that foster an environment of civility, tolerance, and mutual respect. It shall perform the following functions with appropriate administrative support from the office of academic affairs and the office of human resources.

(1) and (2) no changes.

Balance unchanged.

3335-9-08 Medical examination and enrollment denial for medical reasons.

(A) through (C) no changes.

(D) If a student has been placed on a hold from enrollment, or otherwise experienced modification of enrollment status by reason of health conditions enumerated in paragraph (B) of this rule, the student may petition for revision of that status through the office of the vice president for student ~~affairs~~ life.

(1) Such request must be accompanied by supporting documentation that the conditions for revision of enrollment status have been fulfilled, and/or that the health condition has changed sufficiently to make revision appropriate. Upon receipt of such request, the vice president for student ~~affairs~~ life will evaluate the evidence, or convene the case consultation committee (composed of representatives of counseling and consultation service, university health service, the student's academic unit, and other academic/administrative units as appropriate) for that purpose, and decide to:

Balance unchanged.

3335-11-01 General discipline.

(A) The president shall have the final responsibility and authority for the discipline of all students of the university. This responsibility and authority may be delegated by the president to the vice president for student ~~affairs~~ life (see paragraph (H) of rule 3335-1-03 of the Administrative Code).

Balance unchanged.

3335-11-02.1 Hearing officers and panels.

(A) The council on student affairs shall recommend to the president, subject to the approval of the board of trustees, a list of attorneys, unaffiliated with the university, who shall be authorized to act as hearing officers to preside over disciplinary proceedings under rule 3335-11-02 of the Administrative Code. One such attorney shall be designated by the president as chief hearing officer, whose duties shall include:

May 14, 2010 meeting, Board of Trustees

(1) through (3) No changes.

- (4) Forwarding completed cases to the vice president for student ~~affairs~~ life for administrative implementation in accordance with their final determination by the chief hearing officer;

Balance unchanged.

Activities

3335-11-03 Organized activities.

- (A) The vice president for student ~~affairs~~ life shall promulgate regulations governing all organized activities which are university connected and in which students or the spouses of students participate.

Balance unchanged.

3335-11-04 Eligibility of students.

- (A) The vice president for student ~~affairs~~ life shall promulgate regulations governing the eligibility of students for participation in all organized activities. (See rule 3335-11-03 of the Administrative Code.)

Balance unchanged.

3335-11-05 Promulgation of regulations.

Before promulgating the regulations authorized under rules 3335-11-03 and 3335-11-04 of the Administrative Code and before amending such regulations after they have been promulgated, the vice president for student ~~affairs~~ life shall obtain the recommendation of the council on student affairs. (See rule 3335-5-48.4 of the Administrative Code.)

The Ohio Union

3335-11-08 Director.

The director shall be the chief administrator of the Ohio union. The director shall have the general administrative responsibility for the programs and financial affairs of the union. The director shall be responsible to an assistant vice president for student ~~affairs~~ life and report annually to the council on student affairs.

3335-11-10 University recreational sports committee.

- (A) Membership.

The university recreational sports committee shall consist of twenty-one members:

(1) through (3) no changes.

(4) Seven administrators or their designees, non-voting:

- (a) The vice president for student ~~affairs~~ life.

Balance unchanged.

May 14, 2010 meeting, Board of Trustees

3335-19-02 Meetings.

- (A) Regular meetings of the senate shall be held during the autumn, winter, and spring quarters. In the spring quarter each year the ~~program committee~~ steering committee shall recommend and the senate shall adopt and publish the schedule of regular meetings for the following academic year. This schedule shall include at least seven meetings spread over the academic year. Scheduled meetings may be cancelled by the program committee when deemed appropriate.

Balance unchanged.

3335-19-03 Agenda.

- (A) Every meeting of the senate shall have an agenda. The agenda shall include the time and place of the meeting, order of business, and copies of any substantive proposals.
- (B) The ~~program committee~~ steering committee shall establish the agenda for all regular meetings. For this purpose, the ~~program committee~~ steering committee:
- (1) Shall receive through the university senate office proposals for senate action or other presentations to the senate from any committee of the senate, or university committee or council, or member of the senate, or any member of the university community.
 - (2) through (5) no changes.
 - (6) May advise the senate ~~or steering committee~~ of the apparent need for a special meeting.

In special meetings, the specific purpose set by the initiators of the special meetings shall take precedence over all others. Additional agenda items established by the ~~program committee~~ steering committee may follow if time permits.

Balance unchanged.

3335-19-07 Proposals for senate action.

(A) and (B) no changes.

- (C) Substantive proposals are those that establish or alter an academic program of study, or rules or bylaws within the senate's purview. Substantive proposals shall be:
- (1) Submitted to the ~~program committee~~ university senate office in the complete and exact form intended for senate debate and adoption, and shall be processed by the ~~program committee~~ steering committee following rule 3335-19-03 of the Administrative Code, except that proposals for presentation at a special meeting need not be submitted to the ~~program committee~~ steering committee. If a substantive proposal is referred to a committee by the ~~program committee~~ steering committee or by the senate, and any subsequent suggested changes are not acceptable to the originators of the proposal, then the ~~program committee~~ steering committee shall place the original proposal and the suggested changes in the same agenda.
 - (2) No change.

- (3) Moved and seconded by members of the senate and then opened for floor debate. The proposal may then be amended, referred to committee in whole or in part, tabled, postponed, divided, and/or adopted or rejected.

(a) No change.

(b) If a motion from the floor is passed and is declared to be substantive, it cannot become effective until the next meeting of the senate. At that time it must be reconsidered, unless the committee which submitted the original proposal has requested a continuation from the ~~program~~ steering committee. In case of a continuation, the ~~program~~ steering committee shall, as soon as practicable, place the amendment on the agenda for reconsideration. The committee which submitted the original proposal shall be afforded the opportunity to present arguments against the amendment or to move substitute language for the amendment at the time of reconsideration. If substitute language is approved by the senate, the amendment as modified will become effective at that time. If substitute language is defeated or is not presented, the senate shall vote on reaffirmation of the amendment in the form originally passed except for possible changes of a purely editorial nature. The amendment may be reaffirmed and become effective at that time or it may be defeated. (This section may be set aside by a successful motion to suspend the bylaws of the senate as prescribed in paragraph (C) of rule 3335-19-13 of the Administrative Code.)

(D) No change.

(E) Substitute statements or suggested amendments proposed by any senate or university committee or by any member of the senate, shall be received by the ~~program~~ steering committee and shall be scheduled in the same agenda as the original proposal.

Balance unchanged.

3335-19-08 Reports.

(A) Any member(s) of any committee of the senate may report on any matter before the committee. A report by a minority of one may be denied a hearing by vote of two-thirds of the members of the senate present. A majority of the members of the senate present and voting may require a standing committee to report at the next regular meeting of the senate.

(B) Written notification of intent to present a report shall be submitted to the ~~program committee~~ university senate office at least twelve days preceding the senate meeting. The ~~program~~ steering committee shall decide whether a written report is required to be included with the senate agenda mailing.

(C) No change.

(D) Reports for which written versions are not required by the ~~program~~ steering committee may be included on the senate agenda. The secretary of the university senate shall be provided with a written synopsis when the report is presented.

UNIVERSITY SANCTIONS

3335-23-17 General guidelines for sanctions.

Sanctions should be commensurate with the violation(s) found to have occurred. In determining the sanction(s) to be imposed, the hearing officer or panel should take into account any mitigating circumstances and any aggravating factors including, but not limited to, any provocation by the subject of the conduct that constituted the violation, any past misconduct by the student, any failure of the student to comply fully with previous sanctions, the actual and potential harm caused by the violation, the degree of intent and motivation of the student in committing the violation, and the severity and pervasiveness of the conduct that constituted the violation. Misconduct, other than constitutionally protected expression, motivated by bias based on age, color, disability, gender identity or expression, national origin, race, religion, sex, sexual orientation, or veteran status may be considered an aggravating factor for sanctioning. Impairment resulting from voluntary use of alcohol or drugs (i.e., other than medically necessary) will also be considered an aggravating, and not a mitigating, factor. In determining the sanctions to be imposed on graduate students who have violated the code, the hearing officer or panel should be guided by the "Graduate Student Code of Research and Scholarly Conduct." One or more of the following courses of action may be taken when a student has been found to have violated the code of student conduct.

(A) and (B) no changes.

(C) Conditions of suspension and dismissal.

A student who has been dismissed or suspended from the university shall be denied all privileges afforded a student and shall be required to vacate campus at a time determined by the hearing officer or panel. In addition, after vacating campus property, a suspended or dismissed student may not enter upon campus and/or other university property at any time, for any purpose, in the absence of express written permission from the vice president for student ~~affairs~~ life or designee. To seek such permission, a suspended or dismissed student must file a written petition to the vice president for student ~~affairs~~ life for entrance to the campus for a limited, specified purpose or to have the terms of this condition modified or reduced.

Balance unchanged.

APPEAL PROCESS

3335-23-18 Appellate process.

(A) and (B) no changes.

(C) Appropriate appeal officers.

(1) Appeals from residence hall hearings:

(a) All appeals from residence hall hearings other than contract terminations, shall be submitted to the director of residence life or designee.

(b) All appeals where the sanction imposed by the residence hall hearing is contract termination shall be submitted to the director of student judicial affairs or designee.

(2) Appeals from a judicial affairs hearing officer's decision or from the

university judicial panel's decision will be submitted for decision to the vice president for student affairs life or designee.

Balance unchanged.

3335-23-20 Interim suspension.

When the vice president for student affairs life or designee has reasonable cause to believe that the student's presence on university premises or at a university-related or registered student organization activity poses a significant risk of substantial harm to the health or safety of others or to property, the student may be immediately suspended from all or any portion of university premises, university-related activities or registered student organization activities, and is not permitted to participate in, or complete academic coursework. This temporary suspension will be confirmed by a written statement and shall remain in effect until the conclusion of a full hearing or administrative decision, without undue delay, in accordance with the rules of the Ohio state university. The student may, within three working days of the imposition of the suspension, petition the vice president for student affairs life for reinstatement. The petition must be in writing, and must include supporting documentation or evidence that the student does not pose, or no longer poses, a significant risk of substantial harm to the health or safety of others or to property. A hearing on such petition will be conducted without undue delay by the vice president for student affairs life or designee.

3335-23-21 Administrative disenrollment and other restrictions.

- (A) A student may be disenrolled from the university; prohibited from all or any portion of university premises, university-related activities or registered student organization activities; and/or permitted to remain only under specified conditions when the vice president for student affairs life or designee finds that there is clear and convincing evidence that:
- (1) No change.
 - (2) The student, as a direct result of an apparent health condition, is engaged in substantial, continuing disruption of teaching, learning, research, administration or other university-related activities.

Before making such a determination, the vice president for student affairs life or designee shall notify the student in writing of the reasons that disenrollment or other action is being considered, provide the student with an opportunity to respond, and consult with appropriate university personnel. The vice president for student affairs life or designee may also consult with any other persons whom the vice president for student affairs life or designee deems appropriate under the circumstances.

- (B) In those cases under paragraph (A)(1) of this rule in which it appears that the risk posed by the student is a result of a health condition or a disability as defined by the Americans with Disabilities Act, and in all cases under paragraph (A)(2) of this rule, the vice president for student affairs life or designee shall also determine whether the risk or disruption can be eliminated or sufficiently reduced through reasonable accommodation and, if so, shall take appropriate steps to ensure that accommodation is made. The vice president for student affairs life or designee may request the student to undergo an appropriate examination, as specified by the vice president for student affairs life or designee, to determine whether any such condition exists and whether any such accommodation is possible. If the student fails to undergo such an examination, and if the other available evidence supports a finding under either paragraph (A)(1) or (A)(2) of this rule, the vice president for student affairs life or designee shall, to the extent reasonably possible, take the least restrictive

measure or combination of measures necessary to resolve the risk or disruption.

- (C) A student who has been disenrolled; prohibited from university premises, university-related activities or registered student organization activities; or permitted to remain only under specified conditions may petition the vice president for student ~~affairs~~ life for revision of that status. The petition must include supporting documentation or evidence that:

- (1) The conditions found to have existed under paragraph (A)(1) or (A)(2) of this rule no longer exist and will not recur, and
- (2) The student meets all normal and appropriate standards for admission and enrollment in any academic unit in which the student seeks to re-enroll.

Upon receipt of such a petition, the vice president for student ~~affairs~~ life or designee shall evaluate the evidence and may consult with the student, any appropriate university personnel, and any other persons whom the vice president for student ~~affairs~~ life or designee deems appropriate. The vice president for student ~~affairs~~ life or designee may deny the petition, grant the petition in whole or in part under specified conditions, or grant the petition in whole or in part without condition. In the event of a negative determination by the vice president of student ~~affairs~~ life, the student may request to have the decision reviewed by the executive vice president and provost.

3335-23-22 Authority section.

The bylaws of the university board of trustees and rules of the university faculty provide that the university president shall have the final responsibility and authority for the discipline of all students of the university (see paragraph (A) of rule 3335-11-01 of the Administrative Code). This responsibility and authority has been delegated by the president to the vice president for student ~~affairs~~ life, whose office is also charged with responsibility for promulgation of rules governing student conduct (see paragraph (H) of rule 3335-1-03 of the Administrative Code).

The deans of colleges and of the graduate school, the directors of schools, and the chairpersons of departments, respectively, are responsible to the president through regular disciplinary channels for the discipline of all students in the activities of their respective colleges, schools, and departments (see paragraph (B) of rule 3335-11-01 of the Administrative Code). Likewise, the deans and directors of the regional campuses are responsible to the president through the executive vice president and provost for the discipline of all students in the activities of their respective campuses.

The Ohio state university code of student conduct is an official publication of the university board of trustees. All petitions for revision and amendment of this code of student conduct should be submitted through the office of the vice president for student ~~affairs~~ life. Proposed revisions to the code shall be reviewed, in draft form, by the office of the president, the office of academic affairs, and the steering committee of the university senate before being presented for approval to the university senate by the council on student affairs. No revision shall become effective unless approved by the university board of trustees and until printed notice of such revisions is made available to students.

RULES OF THE UNIVERSITY FACULTY
Effective Summer 2012

3335-3-19 University registrar.

Subject to the direction of the executive vice president and provost, the principal duties of the university registrar shall be the supervision of the details of registration, records, and scheduling which shall include: distribution of registration forms; distribution of approved schedules; fee assessments and adjustments; record of fee payments; maintenance of current ~~quarter~~, semester, or session schedules; maintenance of home or permanent addresses, name and address of person(s) to be notified in case of emergency, local addresses and the respective telephone numbers of all currently enrolled students; the posting of ~~quarters~~, semesters, and sessions of attendance; the posting of all courses and respective marks; recording of all probations and dismissals; recording of withdrawals; recording of all degrees earned and dates; recording of all past names and other demographic data; the distribution of the official student records to include the proper confidentiality safeguards; scheduling of classroom space, classes, and final examinations; offering placement testing, admission testing, test scoring services, a mechanism for student evaluation of teaching, and coordination of the credit by examination programs; other routine duties associated with the registration, records and scheduling of students; and special projects and duties that may be assigned from time to time by the executive vice president and provost.

3335-3-35 Chairs of departments, directors of schools.

(A) and (B) no changes.

(C) The duties of the chair of a department or the director of a school shall be as follows:

- (1) No change.
- (2) To develop in consultation with the faculty a pattern of administration. This pattern of administration shall be made available to all present and prospective members of the faculty of the department or school, and a copy shall be deposited in the office of the dean of the college and in the office of the executive vice president and provost.

For purposes of defining minimum content, the following shall be included in the pattern of administration:

- (a) A statement requiring the chair to provide a schedule of all regular faculty meetings (see rule 3335-5-18 of the Administrative Code) to all faculty members before the start of each ~~quarter~~, semester, or session.

Balance unchanged.

3335-5-15 Executive committee.

Each college shall have the power to designate an executive committee to which it may delegate authority to transact the business of the college as provided by the rules or by the established precedents of the college. Unless otherwise provided by the college faculty, this committee shall receive and act upon student petitions relative to courses of study and reinstatement; shall certify to the college faculty at the end of each quarter, semester, or session; lists of students who have fulfilled the requirements for a degree, or for whom special recommendation is made; and shall bring before the

May 14, 2010 meeting, Board of Trustees

college faculty any matter coming within its knowledge that needs the consideration or action of the college. The dean of the college shall act as chair of the committee.

3335-5-46 Senate committee operating procedures.

The university senate shall have committees designated as organizing, standing, or special.

(A) Membership.

(1) through (4) no changes.

(5) Terms of service.

Unless otherwise specified by the rules, terms of service of senate committee members shall begin and end on the first day of autumn ~~quarter~~ semester; incoming members may attend meetings as non-voting members as soon as they are appointed.

Balance unchanged.

3335-5-45.2 Secretary of the university senate.

(A) The secretary of the university senate shall be a tenured member of the regular faculty, appointed by the president from three nominees submitted by the steering committee. The term of office shall be for three years. Prior service as secretary need not preclude nomination to this office. During the term of office the secretary shall be reassigned for a minimum of fifty per cent of time to the office of the university senate during autumn, ~~winter, and spring~~ semesters, and ~~summer quarters~~ May and summer sessions. The secretary of the senate will be evaluated annually by the executive vice president and provost, the chair of the senate steering committee, and the chair of faculty council.

Balance unchanged.

3335-5-47.1 Steering committee.

(A) and (B) no changes.

(C) Organization.

(1) For the period of time beginning with the selection of its members in spring quarter and ending with the start of the autumn ~~quarter~~ semester, the steering committee shall consist of the newly selected and continuing members. During this period, the outgoing members shall serve as alternates.

Balance unchanged.

3335-5-48.4 Council on student affairs.

(A) Membership.

The council on student affairs shall consist of twenty-two members.

(1) Six regular tenure-track faculty, at least two of whom are members of the senate. The term of service begins in summer ~~quarter~~ session.

(2) Ten students. The term of service begins in summer ~~quarter~~ session.

May 14, 2010 meeting, Board of Trustees

(a) through (d) no changes.

- (3) Three staff members, appointed by the vice president for student ~~affairs~~ life. The term of service begins in summer ~~quarter session~~.

(a) through (c) no changes.

(4) No changes.

(B) No changes.

(C) Organization.

- (1) The chair shall be elected from among the incoming and continuing student members of the committee during the last meeting of spring ~~quarter~~ semester. For purposes of this election, all incoming and continuing members shall be eligible to vote; incoming and continuing members may choose alternates if necessary.

Balance unchanged.

3335-5-48.5 Athletic council.

(A) No changes.

(B) Duties and responsibilities.

(1) No change.

- (2) Participate with the president in the process of selecting one or two university faculty representatives to the intercollegiate conference of faculty representatives (big ten conference).

(a) and (b) no changes.

(c) Final approval of each list of names submitted to the president shall be made by the full membership of the athletic council. The list for each faculty representative position shall be presented to the president during the autumn ~~quarter~~ semester preceding the start of the next term of office in order to allow for a smooth transition between outgoing and incoming faculty representatives. The new faculty representative will be appointed January first to take office July first of the same year.

Balance unchanged.

3335-5-48.6 Council on enrollment and student progress.

(A) No change.

(B) Duties and responsibilities.

(1) and (2) no change.

- (3) Initiate recommendations and review proposals with regard to policies and procedures pertinent to students' passage through the institution, including, but not limited to, the university calendar, student records, approval of transfer credit, and ~~quarter~~ semester-and session-end validation procedures.

May 14, 2010 meeting, Board of Trustees

Balance unchanged.

3335-5-48.7 Committee on academic misconduct.

(A) Membership.

The committee on academic misconduct shall consist of thirty-four members.

- (1) Eighteen regular tenure-track faculty. Faculty members are eligible for reappointment, but may not serve more than two consecutive terms.
- (2) Fourteen students.
 - (a) Seven graduate students.
 - (b) Seven undergraduate students. The term of service shall begin with the summer ~~quarter~~ session.
- (3) and (4) no changes.

(B) No change.

(C) Organization.

- (1) No change.
- (2) If the caseload of the committee should from time to time become such that cases cannot be set for hearing within four weeks (excluding periods of examinations or between ~~quarters~~ semesters or sessions), the chair shall be empowered to ask alternate members to serve voluntarily and temporarily as members of hearing panels.

Balance unchanged.

3335-5-48.14 University research committee.

(A) and (B) no changes.

(C) Organization.

- (1) The committee shall annually elect a chair from its regular faculty membership in the spring ~~quarter~~ semester preceding the academic year of service for no more than three consecutive one-year terms.
- (2) As a standing committee of the senate, this committee is also governed by the provisions of rules 3335-5-46 and 3335-5-48 of the Administrative Code.

3335-5-48.17 Committee for evaluation of central administrators.

(A) No change.

(B) Duties and responsibilities.

- (1) During autumn ~~quarter~~ semester, the executive committee of faculty council shall meet with the president and provost to identify two central administrators for review. All vice provosts, senior vice provosts, vice presidents, and senior vice presidents are eligible to be reviewed.

May 14, 2010 meeting, Board of Trustees

- (2) The review panels shall be responsible for evaluating the effectiveness of the central administrator and the office in carrying out the responsibilities of the office. The review may begin immediately after the review panel is appointed but no later than autumn ~~quarter~~ semester of the following academic year.

Balance unchanged.

3335-8-12 Interval between classes.

The interval between the close of one class period and the beginning of the next shall be ~~twelve~~ fifteen minutes.

3335-8-37 Convocations.

A ~~convocation~~ commencement for the conferring of degrees and certificates shall be held ~~at the close of each quarter after the autumn and spring semester and the summer session.~~

3335-9-01 Classification of students for admission.

Students shall be classified as:

(A) through (C) unchanged.

- (D) Transient students. This shall include regular enrollees of other institutions who with the recommendation of their college authorities enter this university for a brief residence (usually one ~~quarter, semester, or session, or term~~) without transfer of credits.

Balance unchanged.

3335-9-02 Time of admission.

- (A) Admission as an undergraduate student. Undergraduate students who are residents of the state of Ohio and who meet all admission requirements shall be admitted ~~to any one of the four quarters in the autumn or spring semester, or the summer session.~~
- (B) Admission as a graduate student. Graduate students meeting all admission requirements may be admitted ~~in any one of the four quarters~~ the autumn or spring semester, or the summer session.

Balance unchanged.

3335-9-04 Specific admission requirements.

- (A) Undergraduate student. For admission as a regular undergraduate student, an applicant must be a graduate of a high school (or equivalent preparatory school), or must have passed equivalent entrance examinations. For unconditional admission the applicant must present a minimum of fifteen high school units distributed in accordance with a preparatory curriculum approved by the university faculty and must meet the special requirements of the college or school the applicant desires to enter, subject to such deficiencies (or conditions) as that college or school may permit (see also rule 3335-9-24 of the Administrative Code). The preparatory curriculum is not required for the unconditional admission of regular undergraduate students with high school graduation five or more years prior to the first ~~quarter~~ semester or session of enrollment.

May 14, 2010 meeting, Board of Trustees

Balance unchanged.

3335-9-12 Enrollment conditional upon payment of fees.

All bills, fees, and deposits required from students for a ~~quarter~~, semester, or session, must be paid at the office of fees and deposits no later than the fee payment deadline for that quarter, semester, or session set by the office of the university registrar and approved by the council on enrollment and student progress.

3335-9-14 Time of registration and payment of fees; penalties.

- (A) Payment of fees is required of all students each ~~quarter~~, semester, or session, by the close of business on the date established by the executive vice president and provost in cooperation with the appropriate offices, and published by the office of the university registrar. ~~This fee payment deadline will apply to the postmark date for fees paid by mail and to the date of receipt for fees paid in person.~~ Failure to meet this requirement will result in a penalty assessment, unless excused by the university registrar or designee.

Balance unchanged.

3335-9-16 Administrative holds.

- (A) With the approval of the executive vice president and provost, an administrative hold may be placed on the records or accounts of any person who fails to comply in a reasonable period of time with an obligation imposed under university rules or who has an overdue debt or fine. An administrative hold will cause certain services to be withheld, including, but not limited to: obtaining current ~~quarter~~ grades, registering or enrolling, being certified as eligible to obtain a degree or certificate, receiving a transcript, borrowing books or equipment, or participating in discount plans available to faculty, staff, or alumni.

Balance unchanged.

3335-9-26 Academic dismissal.

If the student's college or school considers a student's progress as unsatisfactory in meeting the conditions placed on his or her probation, the college or school shall be empowered to dismiss the student from the university. An exception to this authority for undergraduate professional students shall be in accordance with paragraph (A) of rule 3335-9-23 of the Administrative Code. Notice of the dismissal shall be sent to the student by the dean of the college or the director of the school in which the student was registered for the ~~quarter~~ semester or session, except as provided in rule 3335-9-27 of the Administrative Code. No student shall be subject to academic dismissal unless he or she is currently on probation.

3335-9-32 Requirements for a professional degree.

(A) No change.

- (B) Waiver of minimum requirements may be made by the faculty of the college or school recommending the degree or by a committee approved by that faculty. Requests for such waiver may be initiated by student petition or by the dean or director. The council on academic affairs shall be notified ~~at least quarterly of~~ each semester or session of such ~~action~~ actions.

May 14, 2010 meeting, Board of Trustees

3335-17-02 Elections.

The faculty, professional student, graduate student, and undergraduate student members and alternates of the university senate shall be chosen in the manner prescribed by the appropriate constituency as defined in rule 3335-17-03 of the Administrative Code. All terms of service shall begin in the autumn ~~quarter~~ semester following election.

3335-17-08 Qualifications for membership.

(A) To be eligible for service as members of the university senate:

- (1) Faculty members shall be on the roster of the regular tenure-track faculty, or on the roster of a college or unit's regular clinical track faculty who are authorized for senate service pursuant to rule 3335-7-11 of the Administrative Code, and available for senate service autumn, winter and spring ~~quarters~~ semesters during their elected terms..
- (2) Graduate, professional and undergraduate student members shall be in good standing and enrolled each ~~quarter (except summer quarter) or~~ semester.

Balance unchanged.

**BYLAWS OF THE MEDICAL STAFF
THE OHIO STATE UNIVERSITY HOSPITALS**

3335-43-01 Medical staff name.

The board of trustees of the Ohio state university, by official action on September 13, 1963, established "the Ohio state university hospitals." In accordance with Chapters 3335-93-01 to 3335-93-03 and 3335-101-04 of the Administrative Code, the Ohio state ~~university hospitals~~ medical center board (herein called "medical center board") has delegated to the medical staff of the Ohio state university hospitals the responsibility to prepare and recommend adoption of these bylaws. "The medical staff of the Ohio state university hospitals" shall be the name of the hospitals' medical staff organization.

3335-43-04 Membership.

(A) Qualifications.

- (1) Membership on the medical staff of the Ohio state university hospitals is a privilege extended to doctors of medicine, osteopathic medicine, dentistry, and to practitioners of psychology and podiatry who consistently meet the qualifications, standards, and requirements set forth in the bylaws, rules and regulations of the medical staff, the ~~university hospitals~~ medical center board and the board of trustees of the Ohio state university. Membership on the medical staff is available on an equal opportunity basis without regard to race, color, creed, religion, sexual orientation, national origin, sex, age, handicap, or Vietnam-era veteran status. Doctors of medicine, osteopathic medicine, dentistry, and practitioners of psychology and podiatry in faculty and administrative positions who desire medical staff membership shall be subject to the same procedures as all other applicants for the medical staff.
- (2) All members of the medical staff of the Ohio state university hospitals shall, except as specifically provided in these bylaws, be members of the faculty of the Ohio state university college of medicine, or in the case of dentists, of the Ohio state university college of dentistry, and shall, except for members of the limited staff, be duly licensed to practice in the state of Ohio. Members of the limited staff shall possess a valid training certificate, or an unrestricted license from the applicable state board based on the eligibility criteria defined by that board. All members of the medical staff and limited staff shall comply with provisions of state law and the regulations of the state medical board. Only those physicians, dentists, and practitioners of psychology and podiatry who can document their education, training, experience, competence, adherence to the ethics of their profession, dedication to educational and research-goals, and ability to work with others with sufficient adequacy to assure the ~~university hospitals~~ medical center board and the board of trustees of the Ohio state university that any patient treated by them at university hospitals will be given the high quality of medical care provided at university hospitals, shall be qualified for membership on the medical staff of the Ohio state university hospitals.

All members of the medical staff will comply with medical staff and the Ohio state university policies regarding employee and medical staff health and safety; uncompensated care; and will comply with

appropriate administrative directives and policies to avoid disrupting those operations of the Ohio state university hospitals which adversely impact overall patient care or which adversely impact the ability of the Ohio state university hospitals employees or staff to effectively and efficiently fulfill their responsibilities. All members of the medical staff will comply with policies adopted by the medical staff administrative committee, including but not limited to policies on professionalism, disruptive behavior, conflict of interest, and access and communication guidelines. Medical staff members much also comply with the university integrity program requirements including but not limited to billing, self referral, ethical conduct and annual education.

(3) no change.

(4) An applicant for membership shall at the time of appointment or reappointment, be and remain board certified in his or her primary are of practice at the Ohio state university hospitals. This Board certification must be approved by at least one of the American board of medical specialties, or other applicable certifying boards, including certifying boards if applicable for doctors of osteopathy, podiatry, psychology, and dentistry. All applicants must be and remain certified within the specific areas for which they have requested clinical privileges. Applicants who are not board certified at the time of application but who have completed their residency or fellowship training within the last five years will be eligible for medical staff appointment. However, in order to remain eligible, those applicants must achieve board certification in their primary area of practice within five years from the date of completion of their residency or fellowship training. Applicants must maintain board certification and, to the extent required by the applicable specialty/subspecialty board, satisfy recertification requirements. Recertification will be assessed at reappointment. Failure to meet or maintain board certification shall result in immediate termination of membership on the medical staff of the Ohio state university hospitals. Waiver of this threshold eligibility criteria is as follows:

(a) and (b) no changes.

(c) The medical staff administrative committee will review the recommendation of the credentialing committee and make a recommendation to the professional affairs committee of the Ohio state university hospitals medical center and the medical center board regarding whether to grant or deny the request for a waiver and the basis for its recommendation.

(d) The Ohio state ~~university hospitals~~ medical center board's determination regarding whether to grant a waiver is final. A determination not to grant a waiver is not a "denial" of appointment or clinical privileges and the prospective applicant who requested the waiver in a particular case is not intended to set a precedent for any other applicant. A determination to grant a waiver does not mean that an appointment will be granted. Waivers of threshold eligibility criteria will not be granted routinely. No applicant is entitled to a waiver.

May 14, 2010 meeting, Board of Trustees

(5) through (7) no changes.

(B) Application for membership.

Initial application for medical staff membership for all categories of the medical staff shall be made by the applicant to the chief of the clinical department on forms prescribed by the medical staff administrative committee stating the qualifications and references of the applicant and giving an account of the applicant's current licensure, relevant professional training and experience, current competence and ability to perform the clinical privileges requested. All applications for appointment must specify the clinical privileges requested. Applications may be made only if the applicant meets the qualifications outlined in paragraph (A) of this rule. The application shall include written statements of the applicant to abide by the bylaws, rules and regulations of the medical staff, the ~~university hospitals~~ medical center board, and the board of trustees of the Ohio state university. The applicant shall produce a government-issued photo identification to verify his/her identity pursuant to hospital/medical staff policy. The applicant shall agree that membership on the medical staff requires participation in the peer review process of evaluating credentials, medical staff membership and clinical privileges, and that a condition for membership requires mutual covenants between all members of the medical staff to release one another from civil liability in this review process as long as the peer review was taken in the reasonable belief that it was in furtherment of quality health care based upon a reasonable review and appropriate procedural due process. In addition for community affiliate medical staff in order to optimize the clinical organization resource utilization and planning of the Ohio state university hospitals, the chief of the clinical department may require that the community affiliate medical staff member identify categories of diagnosis, extent of anticipated patient activity, and service areas to be utilized and may prepare a statement of participation for the applicant, which shall be made a part of the application for appointment. A separate record shall be maintained for each applicant requesting appointment to the medical staff.

(C) and (D) no changes.

(E) Procedure for appointment.

(1) The written and signed application for membership on the medical staff shall be presented to the applicable chief of the clinical department. The applicant shall include in the application a signed statement indicating the following:

(a) If the applicant should be accepted to membership on the medical staff, the applicant agrees to be governed by the bylaws, rules and regulations of the medical staff, the ~~university hospitals~~ medical center board and the board of trustees of the Ohio state university.

(b) through (d) no changes.

(e) The applicant releases from any liability:

(i) no change.

(ii) All third parties who provide information, including otherwise privileged and confidential information, to members of the medical staff, the Ohio state university hospitals staff, Ohio

state ~~university hospitals~~ medical center board members and members of the Ohio state university board of trustees concerning the applicant's credentials performed in good faith.

(f) through (h) no changes.

- (2) The purpose of the health assessment shall be to ensure that the member of the medical staff is able to fully perform and discharge the clinical, educational, administrative and research responsibilities which the member is permitted to exercise by reason of medical staff membership. At the time of the initial request for a health assessment, and at any time a medical staff member refuses to participate as needed in a health assessment, including but not limited to a drug or alcohol screening, the chief of the clinical department or the medical director may impose a summary suspension per paragraph (D) of rule 3335-43-05 of the Administrative Code. Upon request of the medical staff administrative committee or ~~university hospitals~~ medical center board, the applicant will document the applicant's physical and mental status with sufficient adequacy to demonstrate that any patient treated by the applicant will receive care of a generally professionally recognized level of quality and efficiency. The conditions of this paragraph shall be deemed continuing and may be applicable to issues of continued good standing as a member of the medical staff.

(3) through (5) no changes.

- (6) Completed applications shall be acted upon as follows:

(a) and (b) no changes.

- (c) By the ~~university hospitals~~ board professional affairs committee through the expedited credentialing process or medical center board within sixty days after receipt of a completed application and the report and recommendation of the medical staff administrative committee.

All applications shall be acted upon by the Ohio state ~~university hospitals~~ medical center board within one hundred twenty days of receipt of a completed application. These time periods are deemed guidelines only and do not create any right to have an application processed within these precise periods. These periods may be stayed or altered pending receipt and verification of further information requested from the applicant, or if the application is deemed incomplete at any time. If the procedural rights specified in rule 3335-43-06 of the Administrative Code are activated, the time requirements provided therein govern the continued processing of the application.

- (7) The credentials committee shall review the application, evaluate and verify the supporting documentation, references, licensure, the chief of the clinical department's report and recommendation, and other relevant information. The credentials committee shall examine the character, professional competence, qualifications and ethical standing of the applicant and shall determine, through information contained in personal references and from other

sources available to the credentials committee, including an appraisal from the chief of the clinical department in which clinical privileges are sought, whether the applicant has established and meets all of the necessary qualifications for the category of medical staff membership and clinical privileges requested.

The credentials committee shall, within thirty days from receipt of a complete application, make a recommendation to the medical director that the application be accepted, rejected, or modified. The medical director shall forward the recommendation of the credentials committee to the medical staff administrative committee. The credentials committee or the medical director may recommend to the medical staff administrative committee that certain applications for appointment be reviewed in executive session. The recommendation of the medical staff administrative committee regarding an appointment decision shall be made within thirty days of receipt of the credentials committee recommendation and shall be communicated by the medical director, along with the recommendation of the medical director to the professional affairs committee of the ~~university hospitals~~ medical center board, and thereafter to the ~~university hospitals~~ medical center board. When the Ohio state ~~university hospitals~~ medical center board has acted, the chairperson of the board shall instruct the medical director to transmit the final decision to the chief of the clinical department and applicant and, if appropriate, to the director of the applicable clinical division.

- (8) At any time the medical staff administrative committee first recommends non-appointment of an initial applicant for medical staff membership or recommends denial of any clinical privileges requested by the applicant, the medical staff administrative committee shall require the medical director to notify the applicant by certified return receipt mail that the applicant may request an evidentiary hearing as provided in paragraph (D) of rule 3335-43-06 of the Administrative Code. The applicant shall be notified of the requirement to request a hearing as provided by paragraph (B) of rule 3335-43-06 of the Administrative Code. If a hearing is properly requested, the applicant shall be subject to the rights and responsibilities of rule 3335-43-06 of the Administrative Code. If an applicant fails to properly request a hearing, the medical staff administrative committee shall accept, reject, or modify the application for appointment to membership and clinical privileges.

The final recommendation of the medical staff administrative committee shall be directly communicated to the ~~university hospitals~~ medical center board by the medical director, who shall make a separate recommendation to the university hospitals board.

When the Ohio state university hospitals board has acted, the chairperson of the board shall instruct the medical director to transmit the final decision to the chief of the clinical department and applicant and, if appropriate, to the director of the applicable clinical division. The chairperson of the board shall also notify the dean of the college of medicine and the chief executive officer of the Ohio state university hospitals of the decision of the board.

(F) Procedure for reappointment.

(1) no change.

(2) The member for reappointment shall be required to submit any reasonable evidence of current ability to perform the clinical privileges requested. The chief of the clinical department shall review and evaluate the reappointment application and the supporting documentation. The chief of the clinical department shall evaluate all matters relevant to recommendation, including the member's professional competence; clinical judgment; clinical or technical skills; ethical conduct; participation in medical staff affairs; compliance with the bylaws, rules and regulations of the medical staff, the ~~university hospitals~~ medical center board, and the board of trustees of the Ohio state university; cooperation with the Ohio state university hospitals' personnel and the use of the Ohio state university hospitals' facilities for patients; relations with other physicians, other health professionals or other staff, and maintenance of a professional attitude toward patients; and the responsibility to the Ohio state university hospitals and the public.

(3) no change.

(4) The medical staff administrative committee shall review each request for reappointment in the same manner and with the same authority as an original application for medical staff membership. The medical staff administrative committee shall accept, reject, or modify the request for reappointment in the same manner and with the same authority as an original application for medical staff membership. The recommendation of the medical staff administrative committee regarding reappointment of a member shall be communicated by the medical director, along with the recommendation of the medical director, to the professional affairs committee of the ~~university hospitals~~ medical center board, and thereafter to the ~~university hospitals~~ medical center board. When the Ohio state ~~university hospitals~~ medical center board has acted, the chairperson of the board shall instruct the medical director to transmit the final decision to the chief of the clinical department and applicant and, if appropriate, to the director of the applicable clinical division.

Balance unchanged.

3335-43-05 Peer review and corrective action.

(A) no change.

(B) Formal peer review.

(1) Formal peer review may be initiated when a member of the medical staff of the Ohio state university hospitals:

(a) and (b) no changes.

(c) Violates the bylaws, rules and regulations of the medical staff, the Ohio state ~~university hospitals~~ medical center board, or the board of trustees of the Ohio state university;

May 14, 2010 meeting, Board of Trustees

Balance unchanged.

3335-43-06 Hearing and appeal process.

(A) no change.

(B) Request for hearing.

- (1) The request for a hearing shall be submitted in writing by the affected medical staff member to the medical director within thirty-one days of notification by the medical director of the intended action. The medical director shall forward the request to the medical staff administrative committee along with instructions to convene a hearing.
- (2) The failure of a medical staff member to request a hearing, to which the member is entitled by these bylaws within the time and in the manner herein provided, shall be deemed a waiver of the right to any review by the medical staff administrative committee. The medical director shall then implement the decision and that action shall become and remain effective against the medical staff member in the same manner as a final decision of the Ohio state ~~university hospitals~~ medical center board as provided for in paragraph (F) of rule 3335-43-05 of the Administrative Code. The medical director shall promptly inform the affected medical staff member that the proposed decision, which had entitled the medical staff member to a hearing, has now become final.

(C) no change.

(D) Conduct of hearing.

(1) through (8) no changes.

- (9) The medical staff administrative committee shall submit a written report, including its recommendation to the chairperson of the ~~university hospitals~~ medical center board within fourteen days of the final vote by the medical staff administrative committee. An adverse action which must be reported to the state medical board or the federal government, including the national practitioner data bank, shall entitle an affected medical staff member to the procedures of this rule. The affected member of the medical staff shall be notified of the decision of the medical staff administrative committee by the medical director.
- (10) The decision and record of the medical staff administrative committee shall be transmitted to the professional affairs committee of the ~~university hospitals~~ medical center board, which shall, subject to the affected member's right to appeal and implementation of paragraph (E) of this rule, consider the matter at its next scheduled meeting, or at a special meeting to be held no less than thirty days following receipt of the transmittal. The professional affairs committee may accept, reject, or modify the decision of the medical staff administrative committee. The professional affairs committee may remand that matter back to the medical staff administrative committee for further action as directed.

- (11) The recommendation of the professional affairs committee shall be promptly considered by the ~~university hospitals~~ medical center board, ~~or the executive committee of the hospitals board~~, at its next scheduled meeting. The university ~~hospitals board~~ medical center, or the executive committee of the university hospitals board, may accept, reject, or modify the recommendation of the professional affairs committee. The ~~university hospitals~~ medical center board ~~or executive committee of the hospitals board~~ may remand the matter back to the medical staff administrative committee for further action as directed.
 - (12) A copy of the ~~university hospitals~~ medical center board decision shall be sent certified return receipt mail to the affected medical staff member at the member's last known address as determined by university records.
- (E) Appeal process.
- (1) Within thirty days after receipt of a notice by an affected medical staff member of the decision of the medical staff administrative committee, the member may, by written notice to the chairperson of the Ohio state ~~university hospitals~~ medical center board, request an appeal. The appeal shall only be held on the record before the medical staff administrative committee.
 - (2) no change.
 - (3) The appeal shall be conducted by the professional affairs committee of the ~~university hospitals~~ medical center board.
 - (4) and (5) no change.
 - (6) Within fourteen days following submission of the written statement by the affected medical staff member, the professional affairs committee shall recommend to the Ohio state ~~university hospitals~~ medical center board that the adverse decision be affirmed, modified or rejected, or to refer the matter back to the medical staff administrative committee for further review and recommendation. Such referral to the medical staff administrative committee may include a request for further investigation.
 - (7) Any final decision by the ~~university hospitals~~ medical center board shall be communicated by the medical director and by certified return receipt mail to the affected medical staff member at that member's last known address as determined by university records. The medical director shall also notify in writing the senior vice president for health sciences, the dean of the college of medicine, the chief executive officer of the Ohio state university hospitals and the vice president for health services, chief of staff, the chief of the clinical department, and the person(s) who initiated the request for formal peer review. The medical director shall take immediate steps to implement the final decision.

3335-43-07 Categories of the medical staff.

The medical staff of the Ohio state university hospitals shall be divided into six categories: physician scholar medical staff; attending medical staff; courtesy A medical staff; courtesy B medical staff; community affiliate medical staff; and limited staff. Medical staff members who do not wish to obtain any clinical privileges shall be exempt from the requirements of medical malpractice liability insurance, DEA registration and

May 14, 2010 meeting, Board of Trustees

demonstration of recent active clinical practice during the last two years, but are otherwise subject to the provisions of these bylaws.

(A) through (C) no changes.

(D) Courtesy B medical staff.

(1) Qualifications: The courtesy B medical staff shall consist of those faculty members of the colleges of medicine and dentistry who do not qualify for attending medical staff appointment. This category is comprised of referring physicians who desire to be associated with the Ohio state university hospitals to refer and follow patients. Courtesy B medical staff members shall not possess clinical privileges.

(2) Prerogatives:

Courtesy B medical staff members may:

(a) Have access to the Ohio state university hospitals and shall be given notice of all medical staff activities and meetings.

(b) Attend meetings as a member of the medical staff and the clinical departments of which he or she is a member and any medical staff or the Ohio state university hospitals education programs.

(3) The grant of courtesy B medical staff appointment to physicians is a courtesy only, and may be terminated by the ~~university hospitals~~ medical center board upon recommendation of the medical staff administrative committee ~~with no~~ without the right to a hearing or appeal.

(E) no change.

(F) Community affiliate medical staff.

(1) no change.

(2) Prerogatives:

A community affiliate medical staff member may:

(a) Admit patients consistent with the limitations of bed and service allocations established by the medical director and approved by the medical staff administrative committee, and the ~~university hospitals~~ medical center board. At times when inpatient beds or other resources are in short supply, patient admissions of community affiliate medical staff shall be subordinate to those of attending medical staff. If, in the judgment of the medical director, a balanced teaching program is jeopardized, following consultation with the chief of the clinical department, and with the concurrence of a majority of the medical staff administrative committee, the medical director may restrict admissions of members of the community affiliate medical staff. Patients admitted under the care of the community affiliate medical staff will not be required to participate in the educational mission of the Ohio

state university hospitals. Ordinarily, no coverage by the limited medical staff will be afforded, with the exception of emergency medical services.

(b) and (c) no changes.

(3) Responsibilities:

Each member of the community affiliate medical staff shall:

(a) through (d) no changes.

(G) Clinical privileges.

(1) Delineation of clinical privileges:

(a) Every person practicing at the Ohio state university hospitals by virtue of medical staff membership, faculty appointment, contract or under authority granted in these bylaws shall, in connection with such practice, be entitled to exercise only those clinical privileges specifically applied for and granted to the staff member or other licensed health care professional by the Ohio state ~~university hospitals~~ medical center board after recommendation from the medical staff administrative committee.

Each clinical department shall develop specific clinical criteria and standards for the evaluation of clinical privileges with emphasis on invasive or therapeutic procedures or treatment which present significant risk to the patient or for which specific professional training or experience is required.

(b) through (d) no changes.

(2) Temporary privileges:

(a) Temporary privileges may be extended to a doctor of medicine, osteopathic medicine, dental surgery, psychologist, podiatry or to a licensed health care professional upon completion of an application prescribed by the medical staff administrative committee, upon recommendation of the chief of the clinical department, and approval by the medical director. The medical director, acting as a member and on behalf of the ~~university hospitals~~ medical center board, has been delegated responsibility by the ~~university hospitals~~ medical center board to grant approval of temporary privileges. The temporary privileges granted shall be consistent with the applicant's training and experience and with clinical department guidelines. Prior to granting temporary privileges, primary source verification of licensure and current competence shall be required. Temporary privileges shall be limited to situations which fulfill an important patient-care need, and shall not be granted for a period of more than ninety days.

(b) no change.

(3) Expedited privileges.

If the ~~university hospitals~~ medical center board is not scheduled to convene in a timeframe that permits the timely consideration of the recommendation of a complete application by the medical staff administrative committee, applicants may be granted expedited privileges by a subcommittee of the board consisting of two voting members of board, the medical director and the chief of staff ~~or chief of staff elect~~ pursuant to ~~hospital~~ medical staff policy and the ~~university hospitals~~ medical center board resolution.

(4) through (7) no changes.

(8) Other licensed health care professionals.

(a) through (h) no changes.

(i) By applying for clinical privileges as a licensed health care professional, the applicant agrees to the following terms and conditions:

(i) The applicant has read the bylaws and rules and regulations of the medical staff of the Ohio state university hospitals and agrees to abide by all applicable terms of such bylaws and any applicable rules and regulations, including any subsequent amendments thereto, and any applicable Ohio state university hospitals policies that the Ohio state university hospitals may from time to time put into effect.

(ii) The applicant releases from liability all individuals and organizations who provide information to the Ohio state university hospitals regarding the applicant and all members of the medical staff, the Ohio state university hospitals staff, the Ohio state ~~university hospitals~~ medical center board and the Ohio state university board of trustees for all acts in connection with investigating and evaluating the applicant.

(iii) through (vi) no changes.

(j) no change.

(k) Appeal process.

(i) A licensed health care professional may submit a notice of appeal to the chairperson of the Ohio state ~~university hospitals~~ medical center board within fourteen days of receipt of written notice of any adverse corrective action pursuant to paragraph (E)(8)(j) of this rule.

(ii) If an appeal is not so requested within the fourteen-day period, the licensed health care professional shall be deemed to have waived

the right to appeal and to have conclusively accepted the decision of the medical director.

(iii) The appellate review shall be conducted on the record by the professional affairs committee of the Ohio state ~~university hospitals~~ medical center board.

(iv) and (v) no changes.

(vi) Within thirty days following submission of the written statement by the licensed health care professional, the professional affairs committee shall recommend to the Ohio state ~~university hospitals~~ medical center board executive committee that the adverse decision be affirmed, modified or rejected, or to refer the matter back to the medical director for further review and recommendation. Such referral to the medical director may include a request for further investigation.

(vii) Any final decision by the ~~university hospitals~~ medical center board ~~executive committee~~ shall be communicated by the medical director and by certified return receipt mail to the last known address of the licensed health care professional as determined by university records. The medical director shall also notify in writing the senior vice president for health sciences, the dean of the college of medicine, the chief executive officer of the Ohio state university hospitals and the vice president for health services and the chief of the applicable clinical department or departments. The medical director shall take immediate steps to implement the final decision.

Balance unchanged.

3335-43-09 Elected officers of the medical staff of the Ohio state university hospitals.

(A) Chief of staff.

The chief of staff shall:

(1) Serve on those committees of the Ohio state ~~university hospitals~~ medical center board as appointed by the chairperson of that board.

(2) Serve as vice chairperson of the medical staff administrative committee.

(3) Provide for communication between the medical staff and the Ohio state ~~university hospitals~~ medical center board in matters of quality of care, education, and research.

(4) and (5) no changes.

May 14, 2010 meeting, Board of Trustees

(6) Make medical staff committee appointments jointly with the medical director and chief of staff-elect in consultation with the chief executive officer of the Ohio state university hospitals and with the approval of the ~~university hospitals~~ medical center board, with the exception of the members of the medical staff administrative committee and nominating committee.

(7) through (9) no changes.

(B) Chief of staff-elect.

The chief of staff-elect shall:

(1) Serve on those committees of the Ohio state ~~university hospitals~~ medical center board as appointed by the chairperson of the ~~university hospitals~~ medical center board.

(2) through (4) no changes.

(C) Representatives of the medical staff elected at-large.

(1) There shall be three medical staff representatives elected at-large. Each representative shall be a member of the medical staff administrative committee and shall serve on those committees of the Ohio state ~~university hospitals~~ medical center board as appointed by the chairperson of the ~~university hospitals~~ medical center board.

Balance unchanged.

3335-43-10 Administration of the medical staff of the Ohio state university hospitals.

(A) Medical director.

The medical director shall be a physician and shall be a member of the attending medical staff at the Ohio state university hospitals.

The appointment, scope of authority, and responsibilities of the medical director shall be as outlined in the Ohio state ~~university hospitals~~ medical center board bylaws.

(B) no change.

(C) Medical staff administrative committee:

(1) no change.

(2) Duties.

(a) To represent and to act on behalf of the medical staff, subject to such limitations as may be imposed by these bylaws, by the bylaws of the Ohio state ~~university hospitals~~ medical center board, the bylaws or rules of the board of trustees of the Ohio state university.

(b) through (d) no changes.

May 14, 2010 meeting, Board of Trustees

(e) To provide a liaison between the medical staff, medical director, chief executive officer, and the ~~university hospitals~~ medical center board.

(f) no change.

(g) To fulfill the medical staff's accountability to the ~~university hospitals~~ medical center board and the board of trustees of the Ohio state university for medical care rendered to patients in the Ohio state university hospitals, and for the professional conduct and activities of the medical staff, including recommendations concerning:

(i) through (v) no changes.

(h) and (n) no changes.

(3) Meetings. The committee shall meet monthly and shall keep detailed minutes which shall be distributed to each committee member and to the ~~university hospitals~~ medical center board through the professional affairs committee.

(4) no change.

(D) through (H) no changes.

(I) Leadership council for clinical quality, safety and service.

(1) Composition:

The leadership council shall consist of members appointed in accordance with paragraph (A)(6) of rule 3335-43-09 of the Administrative Code, and shall include the senior vice president for health sciences and dean of the college of medicine and the chairperson of the professional affairs committee of the ~~university hospitals~~ medical center board as ex-officio members without a vote. The medical director shall be the chairperson of the leadership council.

Balance unchanged.

3335-43-13 Amendments.

The bylaws committee shall review the bylaws and rules and regulations as need arises but not less than every two years. This committee shall recommend changes to the medical staff administrative committee.

These bylaws may be amended after notice is given at a meeting of the medical staff administrative committee, and shall require two-thirds vote of the members of the medical staff administrative committee present for approval and submission to the medical staff for ratification. Ratification of an amendment shall be by a plurality of those medical staff members voting through written ballot. When an amendment is approved by the medical staff administrative committee and ratified by the medical staff it shall be forwarded in successive order to the following: the Ohio state ~~university hospitals~~ medical center board and the board of trustees of the Ohio state university. Each of the foregoing reviewers shall accept or reject the requested amendment. The amendment shall become effective when accepted by the board of trustees of the Ohio state university in the form ratified by the medical staff. Significant changes to these bylaws shall be reported in writing to the medical staff and other individuals who have clinical privileges. Neither the medical staff, nor the Ohio state ~~university hospitals~~

May 14, 2010 meeting, Board of Trustees

medical center board may unilaterally amend these medical staff bylaws. The medical staff bylaws, rules and regulations, and policies and the ~~university hospitals~~ medical center board bylaws shall not conflict. (B/T 10/29/2009)

3335-43-14 Adoption.

(A) no change.

(B) Upon adoption of these bylaws by the Ohio state ~~university hospitals~~ medical center board, these bylaws shall replace any previous bylaws, rules and regulations of the medical staff of the Ohio state university hospitals.

(C) From time to time certain administrative policies and procedures associated with processes described in these bylaws for corrective action, fair hearing and appeal, credentialing, privileging and appointment shall supplement the bylaws at the recommendation of the appropriate committee and the medical staff administrative committee and be forwarded to the Ohio state ~~university hospitals~~ medical center board for ratification. (B/T 10/29/2009)

**MEDICAL STAFF RULES AND REGULATIONS
THE OHIO STATE UNIVERSITY HOSPITALS**

84-13 Operating room committee.

(A) no change.

(1) through (6) no changes.

(7) The operating room committee shall be a hospital committee and be appointed in accordance with policies and procedures of the Ohio state ~~university hospitals~~ medical center board.

(B) no change.

84-16 Mechanism for changing rules and regulations.

(A) through (C) no changes.

(D) Amendments so accepted shall become effective when approved by the Ohio state ~~university hospitals~~ medical center board.

(E) no change.

(APPENDIX XXXIX)

**BYLAWS OF THE MEDICAL STAFF
THE ARTHUR G. JAMES CANCER HOSPITAL AND
RICHARD J. SOLOVE RESEARCH INSTITUTE**

3335-111-04 Membership.

(A) Qualifications.

(1) through (4) no changes.

(5) Board certification.

~~An applicant for membership shall at the time of appointment or reappointment, be and remain board certified in a medical specialty his or her specialty. This board certification must be approved by at least one of the American board of medical specialties, or other applicable certifying boards for doctors of osteopathy, podiatry, psychology, and dentistry. All applicants must be and remain certified within the specific areas for which they have requested clinical privileges. An applicant who is an active candidate for board certification at the time of initial appointment or reappointment shall have three years from the date eligibility was first attained to become board certified. Board certification is a continuing requirement. Whenever a subspecialty board approved herein requires recertification, applicants for appointment or reappointment shall meet the terms of recertification established by their respective subspecialty board or boards. Failure to meet or maintain board certification may result in immediate termination from the medical staff. This requirement may be waived by vote of the medical staff administrative committee, upon the recommendation of the credentials committee or the director of medical affairs. Applicants who are not board certified at the time of application but who have completed their residency or fellowship training with the last five years will be eligible for medical staff appointment. However, in order to remain eligible, those applicants must achieve board certification in their primary area of practice within five years from the date of completion of their residency or fellowship training. Applicants must maintain board certification and, to the extent required by the applicable specialty/subspecialty board, satisfy recertification requirement. Recertification will be assessed at reappointment. Failure to meet or maintain board certification shall result in termination of membership on the medical staff of the CHRl. Waiver of this eligibility criteria is as follows:~~

- (a) ~~A request for a waiver will only be considered if the applicant provides information sufficient to satisfy his or her burden to demonstrate that his or her qualifications are equivalent to or exceed the criterion in question and that there are exceptional circumstances that warrant a waiver.~~
- (b) ~~The credentialing committee may consider supporting documentation submitted by the prospective applicant, any relevant information from third parties, input from the relevant clinical department chiefs, and the best interests of the hospital and the communities it serves. The credentialing committee will forward its recommendation, including the basis for such, to the medical staff administrative committee.~~
- (c) ~~The medical staff administrative committee will review the recommendation of the credentialing committee and make a recommendation to the medical center board regarding whether to~~

grant or deny the request for a waiver and the basis for its recommendation.

(d) The medical center board determination regarding whether to grant a waiver is final. A determination not to grant a waiver is not a "denial" of appointment or clinical privileges and the prospective applicant who requested the waiver is not entitled to a hearing. A determination to grant a waiver in a particular case is not intended to set a precedent for any other applicant. A determination to grant a waiver does not mean that an appointment will be granted. Waivers of threshold eligibility criteria will not be granted routinely. No applicant is entitled to a waiver.

- (6) Applicants for community oncology attending or community associate medical staff categories, practicing in a CHRI unit at another hospital, must have and maintain clinical privileges and active medical staff membership at that hospital.
- (7) Resignation, termination or non-reappointment to the faculty of the Ohio state university shall result in immediate termination of membership on the medical staff of the CHRI for attending, associate attending and clinical attending staff members.
- (8) Any staff member whose membership has been terminated pursuant to paragraphs (A)(4), (A)(5) or (A)(7) of this rule shall not be entitled to request a hearing and appeal in accordance with rule 3335-111-06 of the Administrative Code. Any allied health professional whose clinical privileges have been terminated pursuant to paragraph (A)(4) of this rule may not request an appeal in accordance with paragraph (F)(6)(i) of rule 3335-111-07 of the Administrative Code.
- (9) No applicant shall be entitled to medical staff membership and or clinical privileges merely by the virtue of fulfilling the above qualifications or holding a previous appointment to the medical staff.

(B) Application for membership.

Initial application for all categories of medical staff membership shall be made by the applicant to the department chair or chief of the clinical service or designee on forms prescribed by the medical staff administrative committee, stating the qualifications and references of the applicant and giving an account of the applicant's current licensure, relevant professional training and experience, current competence and ability to perform the clinical privileges requested. All applications for appointment must specify the clinical privileges requested. Applications may be made only if the qualifications are fulfilled as outlined in paragraph (A) of this rule. See paragraph (E)(1) of rule 3335-111-07 of the Administrative Code for exceptions to signature requirements. The application shall include written statements by the applicant that commit the applicant to abide by the bylaws, rules and regulations of the medical staff, the CHRI hospital board, and the board of trustees of the Ohio state university. The applicant shall produce a government issued photo identification to verify his/her identity pursuant to hospital/medical staff policy. The applicant for medical staff membership shall agree that membership requires participation in and cooperation with the peer review processes of evaluating credentials, medical staff membership and clinical privileges, and that a condition for membership requires mutual covenants between all members of the medical staff to release one another from civil liability in these review processes as long as the peer review is not conducted in bad faith, with malice, or without reasonable effort to ascertain the accuracy of

information being disclosed or relied upon. A separate record shall be maintained for each applicant requesting appointment to the medical staff.

(C) Terms of appointment.

Initial appointment to the medical staff, except for the honorary category, shall be for a period not to exceed twenty-four months. An appointment or grant of privileges for a period of less than twenty-four months shall not be deemed an adverse action. Initial appointment, except appointment to the honorary medical staff category, shall be provisional for six months regardless of the date of the appointment. During the period of the provisional appointment, all applicants shall be subject to continuous review and reconsideration pursuant to these bylaws. Full appointment requires the evaluation of the ~~department chair~~ clinical department chief with a positive recommendation. In the case of community associate attendings, receipt of the positive evaluation provided by the ~~department chair or chief of the clinical service~~ clinical department chief in the primary hospital in which they hold privileges is required. The provisional appointee identifies the primary hospital. If, after the initial six month period, the ~~department chair~~ clinical department chief does not recommend the provisional appointee for full appointment, medical staff membership and clinical privileges may be terminated. The ~~department chair or chief of clinical service~~ clinical department chief may recommend that the initial provisional period may be extended up to an additional six months. Such extension of the provisional period is not considered an adverse action. In the event that an adverse action is taken against a provisional appointee, the provisional appointee shall be entitled to the provisions of due process as outlined in these bylaws.

(D) no change.

(E) Procedure for appointment.

(1) The completed and signed application for membership of all categories of the medical staff as defined in rule 3335-111-07 of the Administrative Code, shall be presented to the ~~department chair or chief of clinical service~~ clinical department chief or designee. The applicant shall include in the application a signed statement indicating the following:

(a) through (h) no changes.

(2) The purpose of the health assessment shall be to ensure that the applicant or appointee to the CHRI medical staff is able to fully perform and discharge the clinical, educational, administrative and research responsibilities which the applicant or appointee would or is permitted to exercise by reason of medical staff appointment. At the time of the initial request for a health assessment, and at any time an appointee refuses to participate as needed in a health assessment, including, but not limited to, a drug or alcohol screening, the clinical department chief, division or department directors, or the director of medical affairs may impose a summary suspension per paragraph (D) of rule 3335-111-05 of the Administrative Code. Upon request of the medical staff administrative committee or CHRI board, the applicant or appointee will document their physical/mental status with sufficient adequacy to demonstrate that any patient treated by the applicant or appointee will receive efficient and quality care at a professionally recognized level of quality and efficiency. The conditions of this paragraph shall be deemed continuing and may be applicable to issues of continued good standing as an appointee to the medical staff.

(3) no change.

- (4) The ~~department chair~~ clinical department shall be responsible for investigating and verifying the character, qualifications and professional standing of the applicants by making inquiry of the primary source of such information and shall within thirty days of receipt of the completed application, submit a report of those findings along with a recommendation on medical staff membership and clinical privileges to the applicant's respective CHRI section chief. Licensed allied health professional applicants will have their ~~department chair's~~ clinical department chief's report submitted to the subcommittee of the credentials committee charged with review of applications for associates to the medical staff.
 - (5) The section chiefs shall receive all initial signed and verified applications from the appropriate ~~department chairs~~ clinical department chief and shall make a recommendation to the director of medical affairs on each application. The director of medical affairs shall make an initial determination as to whether the application is complete. The director of medical affairs shall forward all completed applications to the credentials committee.
 - (6) no change.
 - (7) If the ~~department chair~~ clinical department chief does not submit a report and recommendation on a timely basis, the completed application shall be forwarded to the director of medical affairs for presentation to the credentials committee on the same basis as other applicants.
 - (8) and (9) no changes.
 - (10) The credentials committee shall review the application, evaluate and verify the supporting documentation, references, licensure, the ~~department chair's~~ clinical department chief's report and recommendation, and other relevant information. The credentials committee shall examine the character, professional competence, qualifications, and ethical standing of the applicant and shall determine, through information contained in the personal references and from other sources available, whether the applicant established and met all of the necessary qualifications for the category of the medical staff and clinical privileges requested.
 - (11) no change.
 - (12) The recommendation of the medical staff administrative committee regarding an appointment decision shall be made within thirty days of receipt of the credentials committee recommendation and shall be communicated by the director of medical affairs, along with the recommendation of the director of medical affairs, to the professional affairs committee of the CHRI board, and thereafter to the CHRI board. When the CHRI board has acted, the chair of the board shall instruct the director of medical affairs to transmit the final decision to the ~~department chair~~ clinical department chief, the applicant, and the respective section chief.
 - (13) no change.
 - (14) The director of medical affairs, who may make a separate recommendation to the CHRI board, shall directly communicate the final recommendation of the medical staff administrative committee to the CHRI board. When the CHRI board has acted, the director of medical affairs will transmit the final decision to the ~~department chair~~ clinical department chief, the applicant, the respective section chief, and the Ohio state university board of trustees.
- (F) Procedure for reappointment.

- (1) Reappointment for all categories of the medical staff shall be for a period not to exceed twenty-four months. An appointment or grant of privileges for a period of less than twenty-four months shall not be deemed an adverse action. At least ninety days prior to the end of the medical staff member's or licensed allied health professional's appointment period, the ~~department chair~~ clinical department chief shall provide each individual with an application for reappointment to the medical staff on forms prescribed by the medical staff administrative committee.
- (2) The reappointment application shall include all information necessary to update and evaluate the qualification of the applicant. The ~~department chair~~ clinical department chief shall review the information available on each applicant for reappointment and shall make recommendations regarding reappointment to the medical staff and for granting of privileges for the ensuing appointment period. The ~~department chair's~~ clinical department chief's recommendation shall be transmitted in writing along with the signed and completed reappointment forms to the appropriate section chief at least forty-five days prior to the end of the individual's appointment. The terms of paragraphs (A), (B), (C), (D), (E)(1), and (E)(2) of this rule shall apply to all applicants for reappointment. Only completed applications for reappointment shall be considered by the credentials committee.
- (3) no change.
- (4) The applicant for reappointment shall be required to submit any reasonable evidence of current ability to perform the clinical privileges requested. The ~~department chair~~ clinical department chief shall review and evaluate the reappointment application and the supporting documentation. The ~~department chair~~ clinical department chief shall evaluate all matters relevant to recommendation, including: the applicant's professional competence; clinical judgment; clinical or technical skills; ethical conduct; participation in medical staff affairs, if applicable; compliance with the bylaws, rules and regulations of the medical staff, the CHRI board, and the board of trustees of the Ohio state university; cooperation with the CHRI hospitals personnel and the use of the CHRI hospital's facilities for patients; relations with other physicians other health professionals or other staff; maintenance of a professional attitude toward patients; and the responsibility to the CHRI and the public.
- (5) The ~~department chair~~ clinical department chief shall submit a report of those findings along with a recommendation on reappointment to the applicant's respective CHRI section chief. Licensed allied health professional applicants will have their ~~department chair's~~ clinical department chief's report submitted to the subcommittee of the credentials committee charged with review of application for associates to the medical staff. The section chief shall review the reappointment application and forward to the director of medical affairs with a recommendation for reappointment. The director of medical affairs shall forward the reappointment forms and the recommendations of the ~~department chair~~ clinical department chief and section chief to the credentials committee. The credentials committee shall review the request for reappointment in the same manner, and with the same authority, as an original application for medical staff membership. The credentials committee shall review all aspects of the reappointment application including source verification of the member's quality assurance record for continuing membership qualifications and for continuing clinical privileges. The credentials committee shall review each member's performance-based profile to ensure that all medical staff members deliver the same level of quality of care with similar delineated clinical privileges across all clinical departments and across all categories of medical staff membership.

(6) and (7) no changes.

(8) Failure of the clinical department ~~chairperson~~ chief to act in a timely manner on an application for reappointment shall be the same as provided in paragraph (E)(7) of this rule.

(9) The medical staff administrative committee shall review each request for reappointment in the same manner and with the same authority as an original application for appointment to the medical staff and shall accept, reject, or modify the request for reappointment in the same manner and with the same authority as an original application. The recommendation of the medical staff administrative committee regarding reappointment shall be communicated by the director of medical affairs, along with the recommendation of the director of medical affairs, to the professional affairs committee of the CHRI board, and thereafter to the CHRI board. When the CHRI board has acted, the chair of the board shall instruct the director of medical affairs to transmit the final decision to the clinical department ~~chairperson~~ chief, the applicant, and the section chief.

(10) and (11) no changes.

(G) Resumption of clinical activities following a leave of absence:

(1) ~~a A member of the medical staff who takes a leave of absence for medical reasons has the duty to disclose to his or her department chairperson and the director for medical affairs any medical leave of absence that may potentially impact his or her ability to discharge his or her clinical and/or teaching responsibilities. Upon return from a leave of absence for medical reasons the medical staff member must demonstrate his or her ability to exercise his or her clinical privileges upon return to clinical activity. Shall request a leave of absence in writing for good cause shown such as medical reason, educational and research reasons or military service to the chief of clinical service and the director of medical affairs. Such leave of absence shall be granted at the discretion of the chief of the clinical service and the director medical affairs provided, however, such leave shall not extend beyond the term of the member's current appointment. A member of the medical staff who is experiencing health problems that may impair his or her ability to care for patients has the duty to disclose such impairment to his or her chief of clinical department and the director of medical affairs and the member shall be placed on immediate medical leave of absence until such time the member can demonstrate to the satisfaction of the director of medical affairs that the impairment has been sufficiently resolved and can request for reinstatement of clinical activities. During any leave of absence, the member shall not exercise his or her clinical privileges, and medical staff responsibilities and prerogatives shall be inactive.~~

(2) The member must submit a written request for the reinstatement of clinical privileges to the chief of the clinical service. The chief of the clinical service shall forward his recommendation to the credentialing committee which, after review and consideration of all relevant information, shall forward its recommendation to the medical staff administrative committee and medical center board. The credentials committee, the director of medical affairs, the chief of the clinical service or the medical staff administrative committee shall have the authority to require any documentation, including advice and consultation from the member's treating physician or the committee for licensed independent practitioner health that might have a bearing on the medical staff member's ability to carry out the clinical and educational responsibilities for which the medical staff is seeking privileges. Upon return from a leave of absence for medical reasons the medical staff member must

demonstrate his or her ability to exercise his or her clinical privileges upon return to clinical activity.

- (3) All members of the medical staff who take a leave of absence for medical or non-medical reasons must be in good standing on the medical staff upon resumption of clinical activities. No member shall be granted leave of absence in excess of his or her current appointment and The the usual procedures for appointment and reappointment, including deadlines for submission of application as set forth in paragraph (F) of this rule will apply irrespective of the nature of the leave. Absence extending beyond his or her current term or failure to request reinstatement of clinical privileges shall be deemed a voluntary resignation from the medical staff, and in such event, the member shall not be entitled to a hearing or appeal.

3335-111-05 Peer review and corrective action.

- (A) Informal peer review.

All medical staff members agree to cooperate in review activities that are solely intended to improve the quality of medical care provided to patients at the CHRI and by the individual medical staff member. Such activities may include the handling and informal review of complaints, including patient complaints, disagreements, questions of clinical competence, or conduct and variation in clinical practice identified by the clinical sections or divisions and medical staff committees. The resulting information from such activities shall be furnished to the clinical department chief and if applicable academic department chair and section chief. Upon review by the section chief, and with concurrence of the director of medical affairs, the review activity may result in consultation with the medical staff member, recommendations for educational actions or additional training, sharing of comparative data, monitoring, informal letters of reprimand or warning or other methods of guidance to the medical staff member to assist them in improving the quality of patient care outside of the mechanism for formal review in paragraph (B) of this rule. Such actions are not regarded as adverse, do not require reporting to any governmental or other agency, and do not invoke a right to any hearing. In each case under review, an initial written determination shall be made by the section chief and the director of medical affairs whether:

- (1) through (3) no changes.

- (B) Formal peer review.

- (1) no change.

- (2) Formal peer review may be initiated by ~~a department chair~~ the clinical department chief, the section chief, the director of medical affairs, any member of the medical staff, the director of the CHRI, the dean of the college of medicine, any member of the CHRI board, or the vice president for health services. All requests for formal peer review shall be in writing, shall be submitted to the director of medical affairs, and shall be supported by reference to the specific activities or conduct which constitute grounds for the requested action.

- (3) through (6) no changes.

Balance unchanged.

3335-111-06 Hearing and appellate review procedure.

- (A) through (D) no changes.

May 14, 2010 meeting, Board of Trustees

(E) Appeal process.

(1) through (6) no changes.

(7) Any final decision by the CHRI board shall be communicated by the chief executive officer by certified return receipt mail to the affected medical staff member at the member's last known address as determined by university records. The chief executive officer shall also notify in writing the senior vice president for health sciences, the dean of the college of medicine, the chief medical officer of OSU health system, the vice president for health services, the director of medical affairs, chief of staff, the section chief, clinical department chief and the academic department chairperson and the person(s) who initiated the request for formal peer review. The chief executive officer shall take immediate steps to implement the final decision.

3335-111-07 Categories of the medical staff.

The medical staff of the CHRI shall be divided into honorary, attending, associate attending, clinical attending, community associate attending, and limited designations. All medical staff members with admitting privileges may admit patients in accordance with state law and criteria for standards of care established by the medical staff. Medical staff members who do not wish to obtain any clinical privileges shall be exempt from the requirements of medical malpractice liability insurance, DEA registration and demonstration of recent active clinical practice during the last two years, but are otherwise subject to the provisions of these bylaws.

(A) no change.

(B) Attending medical staff.

(1) no change.

(2) Prerogatives:

Attending staff members may:

(a) Admit patients consistent with the balanced teaching and patient care responsibilities of the CHRI. When, in the judgment of the director of medical affairs, a balanced teaching program is jeopardized, following consultation with the chief executive officer, ~~and chairperson of the appropriate academic department~~ the clinical department chief and with the concurrence of a majority of the medical staff administrative committee, the director of medical affairs may restrict admissions. Imposition of such restrictions shall not entitle the attending staff member to a hearing or appeal pursuant to rule 3335-111-06 of the Administrative Code.

(b) through (d) no changes.

(3) no change.

(C) Associate attending staff.

(1) no change.

(2) Prerogatives:

The associate attending staff may:

(a) Admit patients consistent with the balanced teaching and patient care responsibilities of the institution. When, in the judgment of the director of medical affairs, a balanced teaching program is jeopardized, following consultation with the ~~director and chairperson of the appropriate academic department~~ chief executive officer, the clinical department chief and with the concurrence of a majority of the medical staff administrative committee, the director of medical affairs may restrict admissions. Imposition of such restrictions shall not entitle the associate attending staff member to a hearing or appeal pursuant to rule 3335-111-06 of the Administrative Code.

(b) through (d) no changes.

(3) no change.

(D) no change.

(E) Community associate attending staff.

(1) Qualifications:

The community associate attending staff shall consist of those applicants who do not have faculty appointments in any of the academic units of the Ohio state university and who are licensed in the state of Ohio and who satisfy the requirements and qualifications for membership set forth in rule 3335-111-04 of the Administrative Code. All applications for appointment and reappointment to the community associate attending staff shall be made to the chief executive officer for initial evaluation. The chief executive officer shall consult with the clinical department chief and the chairperson of the appropriate academic department and when appropriate may refer each application for completion of the appointment procedure in accordance with pertinent requirements of paragraph (E) or (F) of rule 3335-111-04 of the Administrative Code. The approval of the clinical department chief and the academic department chairperson or section chief shall not be required.

(2) and (3) no changes.

(F) Limited staff.

Limited staff are not considered members of the medical staff, do not have delineated clinical privileges, and do not have the right to vote in general medical staff elections. Except where expressly stated, limited staff are bound by the terms of these bylaws, rules and regulations of the medical staff and the limited staff agreement.

(1) no change.

(2) Responsibilities:

The limited staff shall:

(a) through (e) no changes.

(f) Appeal by a member of the limited staff of probation, lack of reappointment, suspension or termination for failure to meet expectations for professional growth or failure to display appropriate humanistic qualities or failure to successfully complete any other competency as required by the accreditation standards of an approved training program will be conducted and limited in accordance with

written guidelines established by the respective academic department or training program and approved by the director of medical affairs and the Ohio state university health system's graduate medical education committee as delineated in the limited staff agreement. Alleged misconduct by a member of the limited staff, for reasons other than failure to meet expectations of professional growth as outlined above, shall be handled in accordance with rules 3335-111-05 and 3335-111-06 of the Administrative Code.

(3) through (5) no changes.

(G) Associates to the medical staff.

(1) no change.

(2) Due process:

Licensed health care professionals are subject to corrective action for violation of these rules, their certificate of authority, standard care agreement, utilization plan or the provisions of their licensure, including professional ethics. Corrective action may be requested by any member of the medical staff, the clinical department chief, the chairperson of an academic department, the section chief or the director of medical affairs. All requests shall be in writing and be submitted to the director of medical affairs.

The director of medical affairs shall appoint a three-person committee to review the situation and recommend appropriate corrective action, including termination or suspension of clinical privileges. The committee shall consist of at least one licensed health care professional licensed in the same field as the individual being reviewed, if available, and one medical staff member. The committee shall make a written recommendation to the director of medical affairs, who may accept, reject or modify the recommendation. The decision of the director of medical affairs shall be final.

(H) Clinical privileges.

(1) Delineation of clinical privileges:

(a) through (g) no changes.

(2) Temporary and special privileges:

(a) and (b) no change.

(c) Special privileges -- upon receipt of a written request for specific temporary privileges and the approval of the clinical department chief, the chairperson of the academic department and the director of medical affairs, an appropriately licensed practitioner of documented competence, who is not an applicant for medical staff membership, may be granted special privileges for the care of one or more specific patients. Such privileges shall be exercised in accordance with the conditions specified in rule 3335-111-04 of the Administrative Code.

Balance unchanged.

3335-111-08 Organization of the CHRI medical staff.

(A) through (C) no changes.

May 14, 2010 meeting, Board of Trustees

(D) Clinical department ~~chair~~ chief.

(1) Qualifications and responsibilities of the chief of the clinical department. The academic department chair shall ordinarily serve also as the chief of the clinical department. Each clinical department chief shall be qualified by education and experience appropriate to the discharge of the responsibilities of the position. Each clinical department chief must be board certified by an appropriate specialty board or must establish comparable competence. The chief of the clinical department must be a medical staff member at the Ohio state university hospitals. Such qualifications shall be judged by the respective dean of the colleges of medicine or dentistry. Qualifications for chief of the clinical department generally shall include recognized clinical competence, sound judgment and well-developed administrative skills.

(2) and (3) no changes.

(4) Duties of the chief of the clinical department:

Each clinical department chief shall:

Balance unchanged.

3335-111-10 Administration of the medical staff of the CHRI.

Medical staff committees.

(A) no change.

(B) The medical staff as a whole and each committee provided for by these medical staff bylaws is hereby designated as a peer review committee in accordance with the laws of the state of Ohio. The medical staff through its committees shall be responsible for evaluating, maintaining and monitoring the quality and utilization of patient care services provided by CHRI.

~~(B)~~(C) Medical staff administrative committee:

(1) Composition:

(a) Voting membership includes: chief of staff (chairperson), chief of staff-elect, immediate past chief of staff, section chiefs of medical oncology, radiation oncology, surgical oncology and pathology; division chiefs of hematology, gynecologic oncology, plastic surgery, otolaryngology, surgical oncology, thoracic surgery and urology; clinical department chiefs of anesthesia and radiology; CHRI medical director of quality, CHRI chief executive officer, CHRI director of medical affairs, medical director of palliative medicine, two delegates at-large, chief executive officer medical staff appointments (up to two), CCC director for clinical research, and CCC director for cancer control. If a division or section head is a member by leadership position, he or she will also fulfill the role of division or section chief appointment.

(b) through (d) no changes.

(2) through (4) no changes.

~~(C)~~(D) Credentialing committee of the hospitals of the Ohio state university health system:

(1) through (3) no changes.

May 14, 2010 meeting, Board of Trustees

~~(D)~~(E) Bylaws committee:

(1) and (2) no changes.

~~(E)~~(F) Committee for licensed independent practitioner health.

(1) and (2) no changes.

~~(F)~~(G) Cancer subcommittee:

(1) through (3) no changes.

~~(G)~~(H) Ethics committee.

Balance unchanged.

3335-111-11 History and physical.

(A) History and physical examination

(1) A history and physical appropriate to the patient and/or the procedure to be completed shall be documented in the medical record of all patients either:

- (a) admitted to the hospital
- (b) undergoing outpatient/ambulatory procedures
- (c) undergoing outpatient/ambulatory surgery
- (d) in a hospital-based ambulatory clinic

(2) For patients admitted to the hospital, the history and physical examination shall include at a minimum:

- (a) date of admission
- (b) chief complaint and/or indication for procedure
- (c) history of present illness
- (d) past medical and surgical history
- (e) relevant past social and family history
- (f) medications and allergies
- (g) review of systems
- (h) physical examinations
- (i) test results
- (j) assessment or impression
- (k) plan of care

(3) For patients undergoing outpatient/ambulatory procedures or outpatients/ambulatory surgery, the history and physical examination shall include at a minimum:

- (a) indication for procedure/surgery
- (b) relevant medical or surgical history
- (c) medications and allergies or reference to current listing in the chart or electronic medical record
- (d) focused review of systems, as appropriate
- (e) pre-procedure assessment and physical examination
- (f) assessment/impression and treatment plan

(4) For patients seen in a hospital-based ambulatory clinic, the history and physical shall include at a minimum:

- (a) chief complaint

May 14, 2010 meeting, Board of Trustees

- (b) history of present illness
- (c) medications and allergies
- (d) problem-focused physical examination
- (e) assessment or impression
- (f) plan of care

(B) Deadlines and sanctions

- (1) A history and physical examination is performed on all patients, both inpatient and outpatient, regardless of whether the medical treatment or procedure is high or low risk. The history and physical examination must be performed by a member of the medical staff or his/her designee, who is appropriately credentialed by the hospital, and be signed, dated and timed. In the event the history and physical is performed by the medical staff member's designee who is appropriately credentialed by the hospital, it shall be countersigned, dated and timed by the responsible medical staff member.
- (2) The complete history and physical examination shall be dictated, written or updated no later than 24 hours after admission for all patients. A summary of pertinent findings must be recorded in the patient's chart at the time of dictation. In the event the history and physical examination is performed by an appropriately credentialed physician designee, it shall be countersigned by the responsible medical staff member.
- (3) The history and physical examination may be performed up to thirty (30) days prior to admission, surgery or the visit. If completed before admission, surgery or patient's initial visit, there must be a notation indicating the presence or absence of changes in the patient's condition since the history and physical was completed. This notation must be completed and documented in the patient's medical record within 24 hours after admission, or before surgery, whichever occurs first. The update must be performed by a member of the medical staff with appropriate credentials, and be signed, dated and timed. In the event the history and physical update is performed by the medical staff member's designee, it shall be countersigned, dated and timed by the responsible medical staff member.

~~3335-111-11~~ 3335-111-12 Amendments.

These medical staff bylaws may be amended after notice is given at one meeting of the medical staff administrative committee. Such notice shall be laid on the table until the next meeting and shall require two-thirds vote of the members of the medical staff administrative committee present for approval and submission to the medical staff for ratification. Ratification of an amendment shall be by a plurality of those medical staff members voting through written or electronic ballot. When an amendment is approved by the medical staff administrative committee and ratified by the medical staff it shall be forwarded to the CHRI professional affairs committee, the James cancer hospital board and the Ohio state university board of trustees. Each of the foregoing reviewers shall accept or reject the requested amendment. The amendment shall become effective when accepted by the board of trustees of the Ohio state university in the form ratified by the medical staff. Neither the medical staff, CHRI professional affairs committee, the James cancer hospital board nor the board of trustees may unilaterally amend the medical staff bylaws. (B/T 9/1/93, B/T 3/3/95, B/T 12/3/99, B/T 9/6/2002, B/T 2/6/2004, 9/18/2009)

~~3335-111-12~~ 3335-11-13 Adoption.

- (A) These bylaws shall be adopted by the medical staff administrative committee and forwarded for approval in the same fashion as provided in rule 3335-111-11 of the Administrative Code.

May 14, 2010 meeting, Board of Trustees

- (B) The bylaws shall replace any previous bylaws, rules and regulations of the medical staff of the CHRI. (B/T 9/1/93, B/T 9/1/99)

~~3335-111-13~~ 3335-111-14 Meetings and dues.

- (A) Meetings.

The medical staff of the CHRI shall conduct scheduled meetings semi-annually. Notice of the meetings will be sent to all medical staff at least two weeks prior to the meeting. Attendance is encouraged, but shall not be a requirement of continuing staff privileges. A special meeting may be called at the option of the medical staff administrative committee.

- (B) Dues.

The medical staff, by two-thirds vote of those in attendance at the fall semi-annual meeting, may establish dues. Payment of dues is a requirement for all staff membership except honorary, clinical, and limited staff.

~~3335-111-14~~ 3335-111-15 Rules of construction.

- (A) "Shall" as used herein is to be construed as mandatory.
- (B) These bylaws should be construed to be gender neutral.

**MEDICAL STAFF RULES AND REGULATIONS
ARTHUR G. JAMES CANCER HOSPITAL AND RICHARD J.
SOLOVE RESEARCH INSTITUTE**

10 MEDICAL RECORDS.

(A) Each member of the medical staff shall conform to the following medical information management department policies:

(1) Chart contents

(a) no change.

~~(b) History and physical examination-~~

~~(i) A complete history and physical examination shall be documented on all inpatient records. The history and physical shall include but not be limited to:~~

~~(a) Date of admission~~

~~(b) Chief complaint and/or indication for procedure~~

~~(c) History of present illness~~

~~(d) Past medical and surgical history~~

~~(e) Relevant past social and family history~~

~~(f) Medications and allergies~~

~~(g) Review of systems~~

~~(h) Physical examinations~~

~~(i) Test results~~

~~(j) Assessment or impression~~

~~(k) Plan of care~~

~~(ii) A history and physical appropriate to the patient and/or the procedure to be completed shall be documented in the medical record of all patients, who are one of the following:~~

~~(a) admitted to the hospital~~

~~(b) undergoing outpatient/ambulatory procedures~~

~~(c) undergoing outpatient/ambulatory surgery~~

~~(d) in a hospital-based ambulatory clinic~~

~~(iii) For patients undergoing outpatient/ambulatory procedures or outpatients/ambulatory surgery, the history and physical examination shall include at a minimum:~~

~~(a) Indications for procedure/surgery~~

~~(b) Relevant medical or surgical history~~

~~(c) Medications and allergies or reference to current listing in the chart or electronic medical record~~

~~(d) Focused review of systems, as appropriate~~

~~(e) Pre-procedure assessment and physical examination~~

~~(f) Assessment/impression and treatment plan~~

(2) Deadlines and sanctions

~~(a) A history and physical examination is performed on all patients, both inpatient and outpatient, regardless of whether the medical treatment or procedure is high or low risk. The history and physical examination must be performed by a member of the medical staff or his/her designee, who is appropriately credentialed by the hospital, and be signed, dated and timed. In the event the history and physical is~~

~~performed by the medical staff member's designee who is appropriately credentialed by the hospital, it shall be countersigned, dated and timed by the responsible medical staff member.~~

~~(b) The complete history and physical examination shall be dictated, written or updated no later than 24 hours after admission for all patients. A summary of pertinent findings must be recorded in the patient's chart at the time of dictation. In the event the history and physical examination is performed by an appropriately credentialed physician designee, it shall be countersigned by the responsible medical staff member.~~

~~(c) The history and physical examination may be performed up to thirty (30) days prior to admission, surgery or the visit. If completed before admission, surgery or patient's initial visit, there must be a notation indicating the presence or absence of changes in the patient's condition since the history and physical was completed. This notation must be completed and documented in the patient's medical record within twenty-four hours after admission, or before surgery, whichever occurs first. The update must be performed by a member of the medical staff with appropriate credentials, and be signed, dated and timed. In the event the history and physical update is performed by the medical staff member's designee, it shall be countersigned, dated and timed by the responsible medical staff member.~~

~~(d)(a) A procedure note shall be entered in the record by the responsible attending medical staff member or the medical staff member's designee (who is appropriately credentialed) immediately upon completion of an invasive procedure. Procedure notes must be written for any surgical or medical procedures, irrespective of their repetitive nature, which involve material risk to the patient. Notes for procedures performed in the operating rooms must be finalized in ORWeb by the attending surgeon. For any formal operative procedures, a note shall include pre-operative and post-operative diagnoses, procedure(s) performed and description of each procedure, surgeon(s), resident(s), anesthesiologist(s), surgical service, type of anesthesia (general or local), complications, invasive lines either added or deleted, estimated blood loss, any pertinent information not included on the O.R./anesthesia record, preliminary surgical findings, and specimens removed and disposition of each specimen. Where a formal operative procedure report is appropriate, the report must be dictated immediately following the procedure. The transcribed operative/procedure report must be signed by the attending medical staff member. Any operative/procedure report not dictated or any procedure note for procedures completed in the operating rooms not completed in ORWeb by 10:00 a.m. the day following the procedure shall be deemed delinquent and the attending medical staff member responsible shall lose operating/procedure room and medical staff privileges the following day. The operating rooms and procedure rooms will not cancel cases scheduled before the suspension occurred. Effective with the suspension, the attending medical staff member will lose all privileges to schedule elective cases. Affected medical staff members shall receive telephone calls from the medical information management department indicating the delinquent operative/procedure reports.~~

~~(e)(b) Progress notes must provide a pertinent chronological report of the patient's course in the hospital and reflect any change in condition or results of treatment. In the event that the patient's condition has not changed, and no diagnostic studies have been done, a progress note must be completed by the attending medical staff member at least every~~

May 14, 2010 meeting, Board of Trustees

three days. Each medical student progress note in the medical records must be signed or counter-signed by a member of the attending, courtesy, or limited staff.

~~(f)~~(c) Birth certificates must be signed by the medical staff member who delivers the baby within one week of completion of the certificate. Fetal death certificates and death certificates must be signed and the cause of death must be recorded by the medical staff member with a permanent Ohio license within 24 hours of death.

~~(g)~~(d) Outpatient visit notes and letters to referring physicians, when appropriate, shall be dictated within three days of the patient's visit.

~~(h)~~(e) Reports in the electronic signature system must be signed within ten (10) business days of availability.

~~(i)~~(f) Queries by clinical documentation specialists requesting clarification of a patient's diagnoses and procedures will be resolved within five business days of confirmed notification of request.

Balance unchanged.

11 COMMITTEES.

In addition to the medical staff committees, the medical staff shall participate in the following hospital and monitoring functions: infection control, clinical quality management, safety, and disaster planning and in other leadership council for clinical quality, safety and service advisor policy groups.

Operating Room Committee

(A) and (B) no changes.

Pharmacy and Therapeutics/Drug Utilization Evaluation Committee (P & T Committee)

The P & T committee shall be appointed in conformity with the medical staff bylaws and have representation from medical staff, nursing, pharmacy department, college of pharmacy, and the hospital administration. The majority of members shall be members of the medical staff. The committee shall meet at least quarterly and carry out the following duties:

(A) through (K) no changes.

Transfusion and Isoimmunization Committee

(A) and (B) no changes.

Infection Control Committee

(A) no change.

Leadership Council for Clinical Quality, Safety and Service

The Leadership Council for Clinical Quality, Safety and Service shall consist of members appointed pursuant to the university hospital's medical staff bylaws, and shall include the senior vice president for health sciences as an ex officio member without a vote, and the director of medical affairs and chief of staff as voting members. The medical director of university hospitals shall be the chairperson of the Leadership Council for Clinical Quality, Safety and Service. The Leadership Council for Clinical

May 14, 2010 meeting, Board of Trustees

Quality, Safety and Service shall authorize policy groups to be formed to accomplish necessary hospital and medical staff functions on behalf of the CHRI and university hospitals.

CHRI representatives on the Leadership Council for Clinical Quality, Safety and Service shall be appointed as provided in the CHRI bylaws.

(A) No change.

(B) Clinical quality ~~management policy group~~ and patient safety committee.

Balance unchanged.

(APPENDIX XL)

Student Legal Services

Proposed by The Ohio State University student governments
Undergraduate Student Government
Council of Graduate Students
Inter-Professional Council

Supported by University Senate
Council on Student Affairs
Fiscal Committee

Purpose

Assist students with legal problems so they can focus on their education

Provide Columbus campus students with:

- Legal advice and representation
- Informative materials, sample documents, etc.
- Education outreach programs

Areas covered

- Landlord/tenant disputes (currently provided by Student Housing Legal Clinic)
- Criminal misdemeanors
- Consumer transactions
- Uncontested domestic matters
- Conversion of property
- Simple document drafting
- Miscellaneous

Areas not covered

- Felonies
- Business or organization matters
- Contested domestic matters
- Cases that continue after students leaves university
- Student v. student matters
- Actions between students and OSU and affiliated organizations
- Actions between students and state officer, state agency or law enforcement officer
- Intellectual property
- Immigration and naturalization
- Representation in federal court, including bankruptcy
- Areas with conflict of interest
- Actions in which private counsel is available on a contingency fee basis
- Actions in which an attorney's involvement is likely to have little or no impact on the outcome and/or which students can handle on their own (e.g., parking tickets)
- Pre-existing legal problems
- Actions involving so much time and effort that they would unduly monopolize resources—for instance, Common Pleas civil cases

Need

Student Housing Legal Clinic currently sees 1,000-1,200 students annually. SHLC frequently gets requests for help with other issues. Surveys of students and parents show high (95%) levels of interest, as well as willingness to pay modest fees (\$5-12 per quarter).

May 14, 2010 meeting, Board of Trustees

Benchmarking

Arizona—Counsel and advice only, funded through student government fee
UCLA--\$30 per appointment, plus fees for services
Illinois—Funded through student organization fee
Michigan—Mandatory student fee and co-pay system, full representation
Minnesota—Mandatory fee and co-pays through litigation
Penn State—working to establish program with law school
Texas—Funded through student fee
Washington—Mandatory fee, one free consultation, then \$10 fee + \$15/hr.
Wisconsin—Legal information and referral service staffed by law students

Bowling Green – 20,000 enrollment, 2 ½ attorneys, \$7 semester fee,
Kent State —32,000 enrollment, 2 attorneys, \$7 semester fee, 88% participation
Wright State —17,000 enrollment, 2 attorneys, \$6 quarter fee, 77% participation

Funding, staffing, budget

Funded through an annual opt-out student fee of \$40
55% acceptance rate needed to meet budget
Annual budget of \$1 million to \$1.5 million

Staff

6+ attorneys, including director
1 education/outreach coordinator
1 assistant to the director
1 receptionist
10-15 part-time law clerks
3-6 part-time undergraduate assistants

Oversight and limitations

Oversight by a board composed of representatives of
USG, CGS and IPC
Student Life
Business and Finance
Moritz College of Law
Legal Affairs, ex officio

Adheres to Ohio Revised Code
Operates only in Franklin County
Fees cover attorney costs; students must pay court costs

Timeline

Board of Trustees approval
Preparation
Implementation

THE OHIO STATE UNIVERSITY FOUNDATION

Naming Guidelines

I. Overview

This document governs the naming of entities, physical spaces and endowed funds at The Ohio State University.

All naming must be approved by the University's Board of Trustees. If at any time following the approval of the naming, circumstances change substantially so that the continued use of the name may compromise the integrity or reputation of the University, the University may remove the name. The name will not be removed without the approval of the President and the Board of Trustees and notification of the donor.

II. Types of Naming

- A. Commemorative - Expresses appreciation for an individual or organization for substantial financial gift contributions to the University.
- B. Honorific - Recognizes distinguished alumni or an individual for outstanding service to the University or extraordinary service to the community (e.g. Bricker Hall). Individuals must be disassociated from employment by or service to the University for at least 3 years prior to an honorific naming. This rule may be waived by action of the Board of Trustees.
- C. Administrative – Relates to the function or location of the building; does not include the name of a person (e.g. Central Classroom Building).

III. Eligible Naming Opportunities

- A. Entities - colleges, schools, departments, institutes, academic centers and programs
- B. Physical Spaces - outdoor spaces and architectural elements, buildings and facilities, large interior spaces such as classrooms, auditoriums, foyers, lobbies, gymnasiums, hallways and lounges
- C. Endowed Funds - a permanent funding source to support a specific purpose such as scholarships, programs, professorship/chair positions, etc.

IV. Guidelines for Funding

- A. Entities - Discussions to determine an appropriate gift size for naming academic entities should include the Dean, Provost, and University Development with final approval from the Gift Acceptance Committee. Factors to consider include the size of the academic unit as defined by the operating budget, the unit's national ranking, and the "transformative" nature of the gift, meaning it should provide additional operating support that allows the academic unit to move forward in reputation in ways that it could not without the gift support. Gifts to name academic entities should be predominantly for

endowment to support new programs and faculty. Academic entities may not be named for corporations or organizations.

- B. Physical Spaces - Gifts to name a physical space should be at least 1/3rd of construction costs and should be outright gifts. In select cases (like when a facility is fully funded or no private fundraising is required for the facility), irrevocable deferred gifts may also be accepted. Exceptions to the 1/3rd rule may occur for projects of extraordinary size and will be based on the available donor pool. Generally, buildings will be named for individual donors and not corporations or organizations. Exceptions may be considered by the Gift Acceptance Committee.
- Names will generally remain in place for the life of the physical facility, but in some cases may be negotiated for a term of years. All signage and artwork must comply with the University's master space plan and maintain consistency with current signage and visual identity guidelines per the Office of Facilities Operations and Development and University Marketing Communications. Existing naming opportunities approved in writing prior to March 1, 2009 will be grandfathered in to these new guidelines.
- C. Endowed fund - The University invests the donor's(s') gifts in perpetuity and an annual distribution is used to fund the desired activities as requested by the donor(s) and approved by the Board of Trustees. Minimum funding levels are attached.
- D. Note that unrestricted gifts may be appropriately recognized with official naming in any of the preceding three categories with the approval of the Gift Acceptance Committee.

V. Approval Process

A. Commemorative

1. Naming of academic entities such as colleges, departments and programs must be approved by the Provost. All approvals must be received prior to any discussion with a prospective donor.
2. For new buildings and renovations discussions with donors may begin after a project has been approved by the University but specific spaces within the building will not be named until the project reaches the design and construction phase. A complete plan for all naming opportunities within the building will be submitted to the senior vice president for University Development, who will take the request to Integrated Financial Planning for review and comment. Once minimum gift levels are established, the development officer will confirm that any gift commitment meets the minimum funding levels. Any exceptions to these guidelines, or a naming in exchange for an unrestricted gift, will be taken to Integrated Financial Planning for approval and the Gift Acceptance Committee will be consulted as needed.
3. Upon execution of the gift agreement, the naming will go to the Board of Trustees for approval at the next meeting.
4. Donor Relations will communicate final approvals back to the originator of the request

B. Honorific Naming

1. Complete naming request form and a list of the honoree's accomplishments; submit to Donor Relations.
2. Approval by senior vice president for University Development is required and requests may be presented to the president and senior management council for comment and action.

May 14, 2010 meeting, Board of Trustees

3. Upon approval, University Development will forward the request to the University's Board of Trustees for approval at the next Board meeting.
4. Donor Relations will communicate final approvals back to the originator of the request.

C. **Administrative**

1. Complete naming request form or a letter of request with Dean or VP approval and submit to Donor Relations.
2. Approval by senior vice president for University Development is required.
3. The approved request will be forwarded to Integrated Financial Planning for appropriate action.

VI. **Gift Acceptance Committee**

The Gift Acceptance Committee is appointed by the Senior Vice President for Development in consultation with the President, Provost and Chair of the Board of Trustees. Members may include but will not be limited to:

Voting Members

President of The Ohio State University

Chair of the Board of Trustees

Chair of the Development & Investment Committee of the Board of Trustees

Chair of the Audit Committee of the Board of Trustees

Chair of The Ohio State University Foundation Board

Campaign Chair or Co-Chairs (during campaign periods)

Member-at-Large appointed by the Chair of the Board of Trustees

Ex-officio Members

Executive Vice President and Provost

Senior University Leadership as needed

May 14, 2010 meeting, Board of Trustees

(APPENDIX XLIII)

**The Ohio State University
Board of Trustees
May 14, 2010**

TOPIC:

Tuition and Fees for FY 2010 and FY 2011

CONTEXT:

At the February Board of Trustees meeting, the Board authorized the Chair of the Board, the Chair of the Academic Affairs and Student Life Committee, and the Chair of the Fiscal Affairs Committee, in consultation with the administration to approve tuition for Summer Quarter 2010 and for the 2011 academic year, subject to confirmation of that action at the next Board meeting.

At a meeting held March 30 of the Chair of the Board and the Chairs of the two designated Board committees, passed a motion to accept administration's recommendations for tuition for Summer Quarter 2010 and for the 2010-11 academic year, subject to confirmation by the Board of Trustees at their May 2010 meeting.

Summary:

- Instructional fees for undergraduates Columbus Campus will increase 3.1% Summer Qtr 2010
- Instructional fees for all undergraduates at the regional and ATI campuses will increase 3.5% for Summer Qtr 2010
- Instructional fees for most graduate students will increase 1.0% for Summer Qtr 2010
- The nonresident surcharge for undergraduates and most graduate students be increased by 1.0% for Summer Qtr 2010
- Instructional fees for undergraduates at the Columbus Campus, regional and ATI campuses will increase 3.5% for the 2011 academic year, effective for Autumn Qtr 2010;
- Instructional fees for most graduate students will increase 3.5% for the 2011 academic year, effective Autumn Qtr 2010
- The nonresident surcharge for undergraduates and most graduate students increased by 3.5% for the 2011 academic year, effective Autumn Qtr 2010

REQUESTED OF THIS COMMITTEE:

Approval of attached resolution

(APPENDIX XLIV)

**The Ohio State University Board of Trustees
Fiscal Affairs Committee
May 13, 2010**

TOPIC:

Revision of University Debt Policy

CONTEXT:

This proposal comes out of work done by the Offices of Financial Services, Controller and Resource Planning with the unit fiscal officers, assisted by Allen Proctor. Its purpose is to streamline University debt and loan policies and consolidate them all in one place. This proposal was submitted to the Board of Trustees for a first reading at the February 2010 meeting for a first Reading. We are now recommending approval of the attached policy.

RECOMMENDATIONS:

1. As part of the implementation of this policy, units will now receive a term sheet with every loan that fixes interest rates for the life of the loan.
2. The University will be able to charge a spread similar to what a bank would charge. The income generated would be used to fund central initiatives.
3. All loans will be tracked in the University's accounting system, allowing continual monitoring of each unit's net cash position.
4. The university will be able to improve monitoring and management of its net interest rate exposure.
5. Other changes include:
 - Guidelines on refinancing debt.
 - Limited exceptions for capitalized interest and balloon payments.
 - Raising the threshold of leases requiring Board approval from \$1.5 million to \$5.0 million.

The key changes flow from new paragraph G in the attached document, which establishes how interest will be charged.

Changes from current policy are highlighted.

REQUESTED OF FISCAL AFFAIRS COMMITTEE:

Approval of attached resolution

OBJECTIVE

Revision of policies regarding the use of university debt in the form of bonds, internal loans, lines of credit, and leases.

POLICY

Applies to: All university personnel responsible the management of university debt

Issued: 3/2005

Edited: 4/2010

I. Principles Regarding Use of University External Debt

- A. Access to university issued debt is not an entitlement. Debt will be granted only to those projects consistent with the Academic Plan and approved through the university's capital process.
- B. No debt should be issued without prior recommendation by the provost, senior vice president for business and finance, and assistant vice president of financial services to the president, and approval by the Board of Trustees.
- C. The university seeks to maintain a credit rating of at least AA or its equivalent.
- D. The university should seek to limit debt service payments to no more than 5% of annual operating expenditures.
- E. The university should utilize variable rate debt consistent with market Conditions.
- F. No debt repayment period shall exceed the useful life of the asset being financed. In most cases, this means a maximum of 20 years for construction and 10-15 years for renovation.
- G. Capitalization of interest is discouraged.
- H. All debt issued on behalf of a project sponsored by a unit shall include an approved business plan as part of a signed Memorandum of Understanding (MOU) that specifies how the debt service will be paid.
- I. The benefiting unit shall be responsible for the repayment of debt and associated costs.

- J. Refinancing of debt is permissible if the present value savings is at least three percent.
- K. No project will proceed to design unless 10% of total project budget is available to fund design costs. No project will proceed to construction until 75% of the written pledges, cash receipts, or other acceptable guarantees have been received in accordance with guidelines developed by the university.

II. Principles Regarding the Use of Internal Lines of Credit

- A. Internal loans or lines of credit may be granted to units for strategic purposes consistent with the Academic Plan.
- B. Requests for a university internal loan or line of credit are submitted to the office of the senior vice president for business and finance by the appropriate dean or vice president. Approval should not be assumed unless received in writing from the office of the senior vice president for business and finance.
- C. All agreements must be in writing.
- D. Recipients must identify source of repayment in advance and a business plan may be required when appropriate.
- E. Principal is expected to be paid down in annual installments consistent with an approved agreement. Balloon payments are not permitted.
- F. The repayment period is normally no more than five years from first draw in annual installments, although exceptions may be permitted.

For line of credit loans of three years or less, interest charged will be based on the rate of the short and intermediate term investment pool plus a spread as determined by the Office of Financial Services. Line of credit loans for longer periods will be charged interest based on the cost of capital on outstanding university debt plus a spread as determined by the Office of Financial Services.

- G. All agreements must be approved by the senior vice president for business and finance and the respective vice president or dean. All agreements of more than five years, or more than \$5 million, require prior approval by the Board of Trustees.
- H. Agreements for more than ten years, or more than \$10 million are not encouraged except for exceptional circumstances and require prior approval by both the Senior Management Council and Board of Trustees.

- I. Early repayment is encouraged with no penalty.
 - J. The University Medical Center also may issue internal lines of credit, but such credit to affiliated entities requires approval of the senior vice president for business and finance and the senior vice president for health sciences. Senior Management Council and the Board of Trustees must approve all agreements of more than \$5 million or more than five years.
 - K. Regardless of source, all internal loans and lines of credit to affiliated organizations require Senior Management Council and Board of Trustees approval.
 - L. The senior vice president for business and finance shall report annually to the Board of Trustees on all approved lines of credit and their disposition.
 - M. These guidelines affect new loans and lines of credit only. Written agreements currently in effect will be honored as written.
- III. Principles Regarding Leases
- A. All leases, over \$100,000, must be approved by the Senior Vice President for Business and Finance.
 - B. All leases of a present value of \$ 5 million or more must be approved by the Board of Trustees.
 - C. The decision as to whether a lease is a capital or operating lease shall be made at the discretion of the office of the controller, in consultation with the Offices of Legal Affairs and Office of Financial Services.

Steam and Condensate Distribution System Upgrades Phase 2

OSU-081060

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): Unidentified Utility, Col.

ASF/O GSF Age:

Description/Scope:

This project will provide steam system upgrades to deteriorated distribution lines and will increase capacity and distribution to provide for campus expansion. The replacement steam lines will support the midwest campus area from McCracken Power Plant to near the Drake Union.

The majority of the steam and condensate system upgrades are to replace failing direct buried piping. New piping will be installed in tunnel sections. The project may also include the replacement of steam vaults.

The upgrades of this project will improve energy consumption and reduce water use in support of campus sustainability goals. In addition, these upgrades will allow maintenance personnel safe access to perform maintenance and repair of the steam system.

William H. Hall Complex Expansion - Phase II

OSU-081230

Requesting Agency(s): STUDENT LIFE FACILITIES

Location(s): See Project Information

ASF/o GSF Age:

Description/Scope:

This project will construct a new housing facility as part of the William H. Hall housing complex. The new housing will be suite-style and will provide approximately 537 additional student beds.

During design, the original project scope and budget have been increased to include an additional wing with an additional 237 beds in order to maximize the number of beds on the site.

The facility will be located adjacent to the existing Hall Complex at the corner of 10th Avenue and Worthington Avenue.

Student Life will pursue LEED "Silver" certification for this project.

McCracken Power Plant Chiller Expansion

5062-PF07268

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): McCracken Power Plant, William C

29,764 ASF/107,910 GSF Age: 1918

Description/Scope:

This project will add approximately 10,000 tons of chiller capacity to the McCracken central chilled water plant. The addition will provide redundancy and additional capacity for existing and future building needs.

Through the course of construction, additional costs were encountered to enlarge the transformer room within the Power Plant as well as additional piping to improve plant efficiency.

The current increase is for the controls system. The controls system for the chiller is designed to allow the chillers to operate in an automated mode which will further enhance plant efficiency. The controls phase will complete the necessary engineering, installation, programming, start-up and calibration of new controls for the project equipment. The controls system will provide for remote and local process control, monitoring and alarm.

South Campus Central Chiller Plant

OSU-090344

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): Chiller Plant, South Campus Central

3,370 ASF/ 55,500 GSF Age: 2011

Description/Scope:

This project will construct a chilled water plant to support the projects and facilities included as part of the Medical Center Facilities Plan (MCFP). This project also includes plans for emergency generators for the chiller plant.

The project site has been selected with a proposed budget of \$72.5M. This will allow the project to incorporate shell ed areas for future chilled equipment, increasing the program area from 32,400 SF to 55,500 SF.

The project will have a total chilled water capacity of 15,000 tons of chilled water and provide for future equipment for an additional 15,000 tons. The facility will be controlled from the McCracken Power Plant.

The project will be bid in several bid packages. The first bid package, building demolition, will begin construction in August. Chilled water will be available in April of 2012.

(APPENDIX XLVI)

**TEN YEAR LEASE
THE OHIO STATE UNIVERSITY-OFFICE OF UNIVERSITY COMMUNICATIONS
OFFICE RELOCATION
SOUTH CAMPUS GATEWAY
21 EAST ELEVENTH AVENUE COLUMBUS, OHIO 43201**

Description of Project

The Office of University Communications is currently occupying first floor space at the Kinnear Road Center (KRC) Building A, which was assessed in The Kinnear Road Center Facilities Assessment (April 2009). Major and costly renovations were determined necessary for safety, security, workspace efficiency, environmental health, HVAC, and ADA requirements. A review of alternative Ohio State space confirmed that no suitable accommodations were available. The Office of University Communications (including University Communications administration, Research Communications, Marketing Communications, and Internal Communications) seeks to relocate staff to a location closer to central campus.

Location

The selected space is approximately 8,000 square feet of office space on the first floor of the South Campus Gateway complex located at 21 East Eleventh Avenue, near the intersection of High Street and Eleventh Avenue.

Terms of Lease

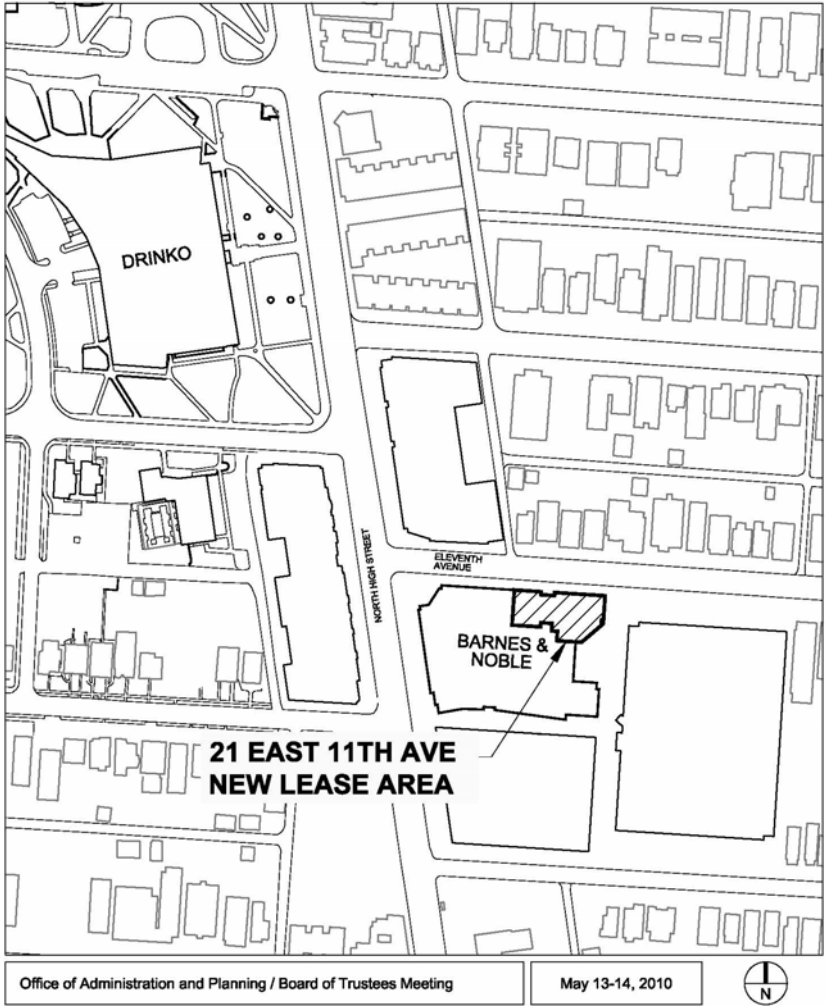

The lease term shall be for an initial period of ten (10) years. The landlord has proposed base rent for the leased premises for years 1-5 of \$11,100 per month or \$134,400 annually and for years 6-10 at \$12,880 per month or \$154,560 annually. In addition to base rent, tenant shall pay Common Area Maintenance (CAM) charges of .approximately \$7.50/SF, janitorial services at \$1.25.±/SF, and utilities of approximately \$1.80/SF. Tenant may negotiate renewal option(s) upon the same terms and conditions with rent to be negotiated. The aggregate rent over the ten year term will be approximately \$2,500,000: Costs including rent payments, CAM, janitorial and utilities will be funded through central funding and University Communications with central funding contributing approximately \$98,000 in continuing funds. Terms and conditions of the lease will be negotiated in the best interest of the State of Ohio and the University.

Tenant Improvements

The estimated cost to build out the space is approximately \$1,132,500. The landlord shall contribute \$55/SF toward tenant improvements totaling approximately \$440,000. Ohio State will contribute \$619,000 for tenant improvements paid through central funding. The remaining balance will be paid directly by University Communications to cover the cost for moving expenses, relocation of servers, furniture and wireless connection.

New Lease - 21 East 11th Avenue - University Communications at Gateway

- 21 East 11th Avenue - University Communications at Gateway

(APPENDIX XLVII)

**PURCHASE OF REAL PROPERTY
EAST/WEST ALLEY SOUTH OF 11TH AVENUE GARAGE
COLUMBUS, OHIO 43201**

Location and Description

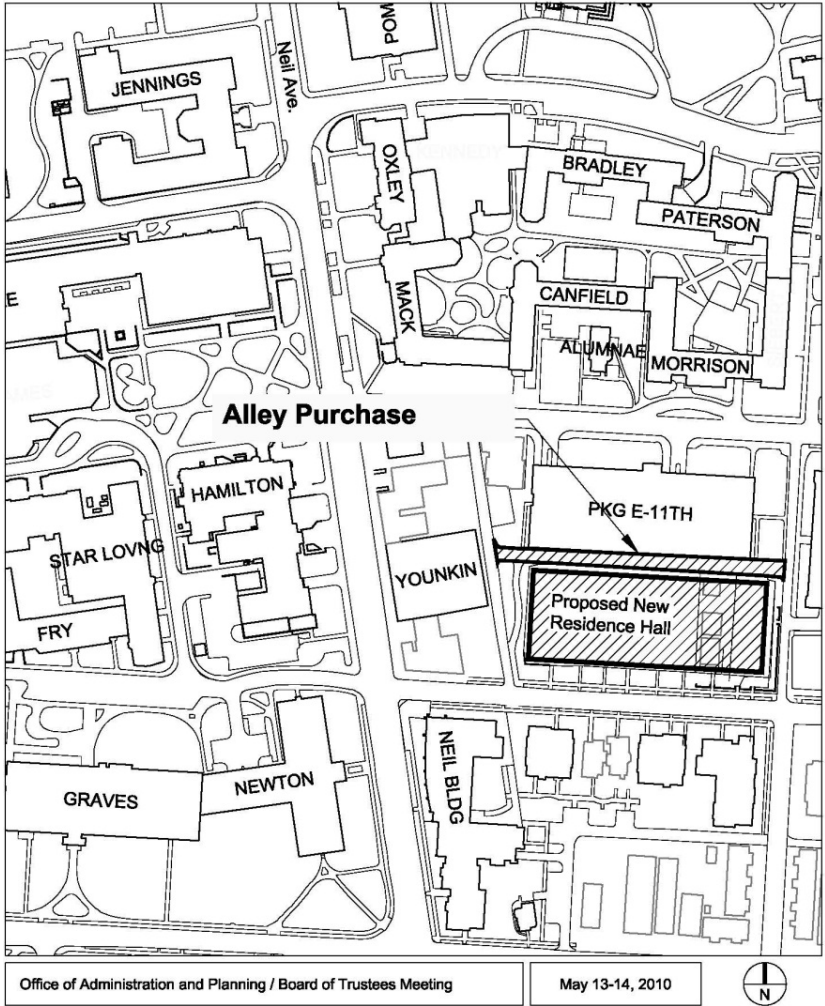

In support of the proposed William H. Hall Complex Phase II, new student housing project, the University requested the City of Columbus to consider vacating the East/West alley south of and adjacent to the 11th Avenue parking garage and allowing the University exclusive use of the property. After review, the City approved the request to vacate the alley and the sale of this public right-of-way to the University subject to approval of the sale by Columbus City Council and subject to the retention of a general utility easement for those utilities currently located within the alley. The granting of this utility easement does not impact the project and it is desirable that the utilities remain in the alley to support the new student housing project. The property is in the South Campus acquisition area and is contiguous to other properties owned by the University.

The subject property has a width of 25' and a length of 411'. The City has offered to transfer the property to the University for \$56,750. At the University's request, the property was recently appraised by a MAI appraiser and the appraisal supports the purchase price that has been offered by the City.

Use of the Property

It is the intention of the University to acquire the property and use the land as part of the site of the new student housing specifically using the land for pedestrian and vehicular access to the new building, including deliveries to the building, and the loading of furniture, materials and equipment. The land will also be improved with landscaping to complete the overall appearance of the project.

Purchase of Real Property – East/West Alley south of the 11th Ave. Parking Garage

(APPENDIX XLVIII)

PROPOSED AFFILIATE: BIOHIO RESEARCH PARK

**SYNOPSIS OF REQUIREMENTS FOR ESTABLISHMENT OF AFFILIATES
OF THE OHIO STATE UNIVERSITY**

The Policy on Affiliated Entities was adopted by the Board of Trustees of The Ohio State University in June 2008 to provide a consistent framework for the establishment and operation of separate entities that are closely affiliated with the University and provide services in support of the University's mission. To ensure that these entities serve the best interests of the University, adhere to high standards in their operations and activities, and provide for continuing appropriate oversight by the University and Board of Trustees, the Policy provides that the establishment of any affiliate (including a subsidiary or related entity) must meet the following requirements:

STATUS	ITEM
Pending	An affiliate of the University may be established only upon the recommendation of the President and the Board's Audit and Compliance Committee and the approval of the Board of Trustees.
YES	The proposed affiliate must demonstrate a mission that promotes, sponsors, or complements the mission of the University.
YES	The proposed affiliate must submit a five-year business plan that demonstrates its stewardship of University resources in accomplishing the affiliate's purpose.
YES	There must be a senior University official designated by the President to coordinate University oversight of the affiliate.
YES	There must be a detailed plan for the governance of the affiliate, including who will serve on the governing board and who will be in key staff positions. This includes permanently reserving one or more governing board seats with full voting power for University representatives selected by the Board of Trustees or the President.
YES	Proposed governing documents must contain recommended appropriate "reserve powers" that require University or University representative concurrence for major business or governance actions (e.g., new lines of business major loans or purchase of property, changing the number or powers of directors, merger or dissolution).
YES	There must be a proposed memorandum of agreement between the affiliate and the University that details the University's business and governance relationship with the affiliate.
YES	There must be provision in the proposed governing documents and memorandum of agreement for a continuing and regular reporting process for the affiliate.

All of these requirements are to be reviewed and evaluated by the University, the proposed affiliate, and the Audit and Compliance Committee in determining whether the establishment of the proposed affiliate will be recommended for approval by the Board of Trustees.

The BioHio Research Park

"Linking AgBioscience Discovery and Innovation with Ohio's Economy"

What is BioHio?

The Ohio State University's Ohio Agricultural Research and Development Center (OARDC) together with local, regional, and state partners propose to establish BioHio as an agbiosciences research park associated with the OARDC Wooster campus and request permission to move forward with this ambitious project. The nucleus of BioHio is a 90-acre site owned by OARDC/OSU. This site, together with the resources of the OSU, OARDC, City of Wooster, Wayne Co., Northeast Ohio, and the State form the BioHio concept. The vision for the BioHio Research Park is to facilitate collaboration between OSU/OARDC, the private sector, and others to promote the market application of scientific research and to further economic development for the citizens of the State of Ohio.

BioHio is a stimulating, creative, entrepreneurial environment that exploits the strengths of The Ohio State University, OARDC, the greater Wooster community, and northeast Ohio. BioHio captures value for OSU by creating a vehicle to commercialize discoveries, transfer technology, increase sponsored research funding, and provide students with opportunities for internships and employment. BioHio attracts businesses and organizations that create jobs and economic activity in and around the community and region. BioHio is an economic development tool that creates value for Ohio.

Why Develop BioHio?

The incentive to develop BioHio is a result of community and regional strategic planning that emphasizes what The Ohio State University via OARDC brings to the region and what the region can bring to the university forming synergistic collaborations with a common focus on the agbiosciences. Further, as a part of the College of Food, Agricultural, and Environmental Sciences (CFAES) strategic plan a primary initiative is to "*Accelerate discovery, innovation, and commercialization through targeted investments*" that include developing and implementing BioHio thus, linking the research park with University and College missions and goals, as well as, achieving acceptance of the concept through formal Ohio State University processes.

Efforts to develop BioHio began in 2006 with a feasibility study conducted by Beggs and Rutherford. Beggs and Rutherford are associated with the Innovation Place Research Park located in Saskatoon, Saskatchewan and is acknowledged as one of the premier research parks in North America. Key findings from this analysis were:

1. OARDC and OSU have, both singly and jointly, tremendous credibility and capability. Building on those strengths and facilitating the conversion of that capability into commercial opportunities through the development and operation of a research and development park is a reachable goal.
2. Overall conditions in Wooster and OARDC have many of the characteristics for an atmosphere conducive to successful execution of a research park.
3. OARDC is viewed as being a "hidden gem" with a great history, wonderful reputation, and a bright future.
4. The Wooster community, Wayne County, and the Northeast Ohio Region are strong supporters of the BioHio initiative.
5. Facilities should be in close proximity to the main OARDC campus to encourage and facilitate access between scientists, researchers, support services, and other technology related organizations and businesses.
6. OARDC and OSU must be committed to the concept of developing BioHio in every manner.
7. Ultimately, the real estate becomes the visible symbol of the concept and the concept is the creation of an environment of creativity.

How Will We Develop BioHio?

The BioHio Research Park Corporation (BRPC) - The BRPC will be established as a university affiliate, with the responsibility and authority to develop BioHio including:

- Achieving the vision and mission of BioHio.
- Developing the land via a long-term lease with OSU, subject to approval within accepted covenants and restrictions. Individual project (e.g., infrastructure or buildings) funding will be handled on a project-by-project basis, with no project permitted to move forward without an approved business plan including a long-range financial pro-forma.
- Developing a sustainable business plan (beyond the current Business Plan) to support the BRPC and associated BioHio development activities. This will likely include an initial phase of investment, but ultimately derive operating funds from Park revenue via services, rents, and development fees.
- Obtaining support for and hiring a BRPC Executive Director charged with planning, attracting clients, marketing, and day-to-day management.

The BRPC will be established because of the need to operate in the business environment while accomplishing the research, education, outreach, and economic development missions of the university; this is what has attracted local and regional support for BioHio and will encourage additional support going forward. Further, the

BioHio Advisory Council has encouraged a non-profit entity as a fundamental operating model and Council members have remained enthusiastic because of that expectation. They have emphasized the idea that research park clients will in fact, more likely be attracted by an affiliated entity and that BioHio will grow because of the need and ability to respond rapidly, efficiently, and effectively to client needs. Moreover, the BRPC will assume a degree of separation from the university and a commensurate measure of protection from liability.

Organization and Governance - Upon acceptance by The Ohio State University, the BioHio Research Park Corp. (BRPC) will be established as an OSU affiliate to implement the plan. A Board of Directors will be formed to assume the primary roles of developing strategy, oversight, and direction. This Board will consist of up to seven (7) members with three (3) Ohio State University employees. The Board will work closely with the Vice President for Agriculture Administration/College of Food, Agricultural, and Environmental Sciences, Dean, the OARDC Director, and will operate under a Code of Regulations and Bylaws. A three-quarter Board majority will be required related to issues associated with land, land use, Board by-law changes, and other issues of significance to the university. Governance and structure of BioHio and the BRPC will comport with the OSU Affiliated Entities Policy. Oversight will rest with OARDC and the OSU Office of Legal Affairs. The Board will be a non-profit, public benefit organization and not established for the private gain of any one person.

Development Phases - Year 1 (2010) activities focus on fund raising, governance, processes, marketing, and identifying prospective tenants. Year 2 activities add to the prospect list with a focus on companies that best fit the BioHio mission and that demonstrate the interest and ability to relocate. In Year 3 a contract will be developed with an anchor tenant(s) with the goal of 50% occupancy for a 40,000 sq. ft. facility. The anchor tenant will complete build-out and move into the first building in Year 4. Based on continuing contacts with quality prospects the remaining 50% of the building will be leased and built out in Year 5 thus completing the first round of BioHio facility development. Under this scenario BioHio will be financially solvent by Year 5 and have proceeded well into the Transition Phase of development described above.

No central OSU funds are being requested to initiate BioHio. The OARDC will provide \$1M (operational dollars) that will be used to cover initial costs and to leverage matching dollars from donors. Other resources contributed to BioHio are key facilities on the Wooster campus such as but not limited to: the Molecular and Cellular Imaging Center, the Plant and Animal Agrosecurity Research facility (under construction), the Shisler Center for Education and Economic Development, the Bioproducts and Bioenergy research laboratory, and

the newly renovated Pounden Hall incubator. OARDC and ATI will provide access to faculty, staff, and students. OARDC will also provide staff support to assist the BioHio Executive Director with basic operational activities.

Progress

We have already made significant progress with 10 well-documented impacts leading to successful implementation of the BioHio Research Park.

1. Conducted two feasibility and strategic planning analyses (Battelle Memorial Institute and Innovation Place).
2. Formed the BioHio Advisory Council from business, community, and Northeast Ohio region community, business, and economic development leaders.
3. Developed the BioHio business plan.
4. Secured \$6.4M (Ohio Dept. of Development and matching dollars) to bring access and infrastructure to the BioHio site. This project was completed in 2009.
5. Secured ~\$2M (Economic Development Administration and matching support) to renovate an OARDC building (Pounden Hall) to serve as the first phase of BioHio. The construction phase of this project is complete and three companies are already slated to reside in Pounden Hall.
6. Attracted a bioenergy company (quasar Energy Group) that has constructed a feedstock-testing laboratory located on the OARDC campus.
7. Collaborated with quasar to attract funding (ODOD, USDA, private funds) to build a pilot scale waste-to-energy biodigester that will provide electricity to the Wooster campus and BioHio. This partnership has already created close to 20 jobs and with OARDC scientists, won a \$2M Third Frontier grant to research the next generation of biodigesters.
8. Attracted the Natural Fiber Composites Corp. to the Wooster campus. This company has secured Third Frontier funding and has further developed a production facility in Wooster and created eight jobs.
9. Established the Northeast Ohio Regional EB-5 Center that will attract foreign investment with a primary focus on BioHio.
10. Attracted a first investor (an Ohio-based company) to support the development of BioHio.

**SYNOPSIS OF REQUIREMENTS FOR ESTABLISHMENT OF AFFILIATES
OF THE OHIO STATE UNIVERSITY**

The Policy on Affiliated Entities was adopted by the Board of Trustees of The Ohio State University in June 2008 to provide a consistent framework for the establishment and operation of separate entities that are closely affiliated with the University and provide services in support of the University's mission. To ensure that these entities serve the best interests of the University, adhere to high standards in their operations and activities, and provide for continuing appropriate oversight by the University and Board of Trustees, the Policy provides that the establishment of any affiliate (including a subsidiary or related entity) must meet the following requirements:

STATUS	ITEM
Pending	An affiliate of the University may be established only upon the recommendation of the President and the Board's Audit and Compliance Committee and the approval of the Board of Trustees.
YES	The proposed affiliate must demonstrate a mission that promotes, sponsors, or complements the mission of the University.
YES	The proposed affiliate must submit a five-year business plan that demonstrates its stewardship of University resources in accomplishing the affiliate's purpose.
YES	There must be a senior University official designated by the President to coordinate University oversight of the affiliate.
YES	There must be a detailed plan for the governance of the affiliate, including who will serve on the governing board and who will be in key staff positions. This includes permanently reserving one or more governing board seats with full voting power for University representatives selected by the Board of Trustees or the President.
YES	Proposed governing documents must contain recommended appropriate "reserve powers" that require University or University representative concurrence for major business or governance actions (e.g., new lines of business major loans or purchase of property, changing the number or powers of directors, merger or dissolution).
YES	There must be a proposed memorandum of agreement between the affiliate and the University that details the University's business and governance relationship with the affiliate.
YES	There must be provision in the proposed governing documents and memorandum of agreement for a continuing and regular reporting process for the affiliate.

All of these requirements are to be reviewed and evaluated by the University, the proposed affiliate, and the Audit and Compliance Committee in determining whether the establishment of the proposed affiliate will be recommended for approval by the Board of Trustees.

Executive Summary
OSU Medical Center - P4 Medicine Institute Affiliation

The Institute for Systems Biology (ISB) has invited The Ohio State University Medical Center ("OSUMC") to join it as a founding member of P4 Medicine Institute (P4MI), a nonprofit research organization that will be dedicated to accelerating the emergence of personalized health care. ISB is an internationally known research organization located in Seattle, Washington that received \$19.5 million in NIH grant awards in 2008. As envisioned both by Dr. Leroy Hood, founder and President of ISB, and by OSUMC, healthcare of the future will shift to a new care model that will be predictive, preventive, personalized, and participatory in nature (P4Medicine.)

The OSUMC-P4MI affiliation is a special arrangement that will bring together collaborative resources and capabilities from industry, academic, federal and public sector entities that are interested in being part of this exciting development. P4MI's consortium organizational model can accommodate different members' divergent interests under a broad umbrella. Affiliate members may invest at different levels and will be rewarded proportionately according to their contribution. As one of two founding member groups, OSU will initially have 2 seats on the 4-seat governing board, and ISB will hold the other two seats.

The emphasis of medicine is gradually shifting to prediction and prevention, health and wellness, and engagement and empowerment. P4MI intends to adopt game-changing strategies to transform healthcare so that it is less costly, provides higher quality of care, and yields better consumer satisfaction. The Ohio State University Medical Center aspires to become a leader in this emerging area.

Ohio State will serve as the clinical demonstration site to P4MI's pilot projects to test collaborative and innovative ideas and technologies that will transform the health care industry. Some of the concepts that will be tested at Ohio State under this affiliated entity include:

1. Develop the infrastructure and tools to facilitate the P4 Medicine vision in terms of shifting care focus from disease to health and wellness, facilitating agile translational bioresearch that leverages new molecular analytic modalities and aggregated clinical and research datasets.
2. Evaluate the use of personal clinical data for healthcare delivery and research. Develop and pilot test a health risk and behavior stratification model to identify patients with different health and wellness needs. Based on an individual's risk profile, employ differentiated health and wellness management strategies and solution sets to improve health outcomes.
3. Develop and implement program metrics into each project that allow the measurement of changes to cost, quality, and satisfaction in order to articulate the financial impact of the given intervention. The goal is to both increase quality and reduce cost.
4. Create and commercialize intellectual property.
5. Position OSUMC as the key entity in transforming health care delivery to build national and international recognition.

Being a founding member of P4MI will bring OSU significant benefits:

- Decision making power: initially, as noted above, OSU will have 2 seats on the 4-seat governing board, and ISB will hold the other two seats. This representation will help OSU secure new projects and make decisions on the strategic directions of P4MI;
- First access to innovations: new ideas, creative solutions, and derivative intellectual properties that emerge from the context of the P4MI projects and shared resources will be available to OSU;
- Reputation impact: OSUMC will enhance its credibility and reputation as a world leader in a visionary and pioneering domain. The scientific leadership of Dr. Leroy Hood and his team at ISB are integral to the credibility of P4MI and a strategic partnership with such an outstanding group will significantly improve Ohio State's national and international visibility and standing;
- Access to outstanding partners: resources and expertise from future P4MI members who represent different disciplines, industries, and regions with a shared interest in developing P4 medicine solutions;

May 14, 2010 meeting, Board of Trustees

- Increase in funding: OSUMC, in working with P4MI and, in the future, its other members, especially ISB, will be able to generate more research funding, commercialization and development.

OSUMC's commitment to P4MI is currently limited to \$500,000 annually for the first two years. ISB will contribute the same amount to this new entity. Table 1 shows how the monies from the principal co-founders will be allocated. Further investment from OSU will need to be carefully evaluated after the first two years. The risk exposure to OSU is limited to this commitment level.

Table 1: Proforma projections of Founding Membership Fees, Years 1-2

Domain	Item	Year 1		Year 2	
		OSUMC	ISB	OSUMC	ISB
Core Staff	Core Staff Salary (1.0 FTE Exec Dir, 1.0 FTE Analyst)	\$255,000	\$60,000	\$315,000	\$0
	Fringe Benefits (+40% base salary)	\$102,000	\$24,000	\$126,000	\$0
Marketing	Branding & Logo (NewMBC)	\$0	\$9,000	\$0	\$0
	Web Presence Development & Upkeep	\$0	\$17,000	\$0	\$5,000
	Video & Print Collateral Development	\$12,000	\$5,000	\$50,000	\$5,000
Operations	Office Lease	\$0	\$60,000	\$0	\$60,000
	Office Services & Supplies	\$1,000	\$5,000	\$1,500	\$5,000
Consulting	Fundraising Strategy (Price Waterhouse Coopers)	\$125,000	\$0	\$0	\$0
	Marketing Comms & PR	\$0	\$125,000	\$0	\$75,000
	Program Delivery (socioeconomics, policy, ethics, consumer behavior)	\$0	\$100,000	\$0	\$200,000
	General Counsel & Legal Services	\$0	\$75,000	\$0	\$125,000
Travel	Business Development, Program Delivery, Marketing	\$5,000	\$20,000	\$7,500	\$25,000
ANNUAL TOTALS		\$500,000	\$500,000	\$500,000	\$500,000

The return is projected to be highly positive. Through the P4 Medicine Institute's collaborative organizational model, OSU will have access to partners from different disciplines, industries, and regions with a shared interest in developing P4 medicine solutions. OSU will receive tangible financial returns when P4MI's business plan is successfully executed. As estimated, a P4MI member like OSU will receive \$2 million in new grant and competitive funding by Year 2 and \$15 million by Year 5. Other revenue streams include intellectual property development, charitable giving, and new product and service offerings. The total return by Year 5 from all sources is projected to be around \$56 million. This projection is in line with several other similar newly started research organizations such as the Ignite Institute in Virginia and the Translational Genomics Research Institute in Arizona (TGen).

According to published reports, over the last five years, TGen received over \$100 million from the State of Arizona, \$50 million from the country of Luxembourg, and \$25 million from Van Andel Research Institute in Michigan. With numerous smaller gifts, grants, and service contracts, TGen's FY2009 total revenue was \$72 million. Ignite Institute recently secured investments that totaled \$225 million, \$25 million from the State of Virginia, \$75 million from Inova Health System, and \$150 million from Fairfax County VA. P4MI is working with The Ohio State University to engage PriceWaterhouseCoopers to develop an effective fundraising strategy. When the fundraising efforts are successful, OSU is positioned to benefit from the resources generated by P4MI through OSU's board representation and as the destination clinical demonstration site.

P4 Medicine Institute and OSUMC's Founding Member Opportunity An Addendum to the P4MI Business Plan

Background

The Institute for Systems Biology (ISB) has invited The Ohio State University Medical Center ("OSUMC") to join it as a founding member of P4 Medicine Institute (P4MI), a nonprofit research organization that will be dedicated to accelerating the emergence of personalized health care. ISB is an internationally known research organization located in Seattle, Washington that received \$19.5 million in NIH grant awards in 2008. As envisioned both by Dr. Leroy Hood, founder and President of ISB, and by OSUMC, healthcare of the future will shift to a new care model that will be predictive, preventive, personalized, and participatory in nature (P4Medicine.)

Dr. Clay Marsh, Senior Associate VP for Health Sciences, Vice Dean for Research of the College of Medicine, and Executive Director of the Center for Personalized Health Care, represents Ohio State University in developing this exciting new opportunity.

Institute for Systems Biology

Founded in 2000, ISB has championed the application of *systems approaches* to research investigation in the biosciences. Systems biology espouses a *holistic* perspective over a *reductionist* perspective in the analysis of massive biological systems, and promotes an interdisciplinary approach, combining viewpoints from molecular biology, bioengineering, mathematics, modeling, computational and bioinformatics. In a short span of 10 years, ISB has become a world-leading pioneer in systems biology driven research, with significant research accomplishments in cancer, autoimmune disease, HIV and AIDS, and immunology, amongst others.

The SCImago Research Group, based in Spain, conducted an extensive evaluation of research-centered organizations world-wide in December 2009 and found that ISB's research papers have the highest scientific impact in the United States and the third highest in the world. The SCImago report analyzes the impact of scientific papers published by more than 2000 research institutes around the globe between 2003 and 2007. Reviewed institutions represent 84 countries and five continents. Other ranked US institutes include the likes of MIT, Harvard Medical School, the California Institute of Technology, the University of Washington, Pacific Northwest National Laboratories, the Fred Hutchinson Cancer Research Center and other elite research organizations.

The Institute for Systems Biology has 14 faculty leaders with 230 employees and an annual budget of over \$39 million in 2008. ISB has been the recipient of over \$33 million in NIH funding alone, with leading roles in The Cancer Genome Atlas project, the Human Proteome Project, and multiple other NIH research projects. In 2008, ISB was awarded a \$100 million investment from the Grand Duchy of Luxembourg to establish systems biology capabilities in that country.

May 14, 2010 meeting, Board of Trustees

As part of an effort to establish itself as the European leader in systems biology, Luxembourg has commissioned ISB with the following:

1. Development of the Institute for Systems Biology: Luxembourg, intended to be a world-class institute dedicated to systems biologic investigation and research.
2. Two separate ISB-led research projects: the first project focuses on complete genome sequencing of over 100 Luxembourg citizens and their families, while the second project will develop advanced informatics and methods to predict and treat disease.
3. Investment in commercialization and spin-off efforts derived from ISB & Luxembourg joint research efforts.

Dr. Leroy E. Hood serves as President and Director for the Institute for Systems Biology. He has been serving in these capacities since co-founding the institute in January 2000. From 1967 to 1992, Dr. Hood was a Professor of Biology at the California Institute of Technology, where he and his colleagues developed automated DNA sequencing technology and peptide sequencing technology, instruments that form the cornerstones of modern molecular biology and that paved the way for the Human Genome Project. From 1992 to 2000, Dr. Hood was the William Gates, III Professor of Biomedical Science at the University of Washington, where he created the interdisciplinary department of Molecular Biotechnology.

As a world-renowned scientist, Dr. Hood is a member of all three United States National Academies, (the National Academy of Engineering, the National Academy of Sciences, and the Institute of Medicine.) Dr. Hood was awarded the Lasker Prize in 1987 for his achievements in immunology, the 2002 Kyoto Prize in Advanced Technology, the 2003 Lemelson-MIT Prize for Innovation & Invention, and was inducted into the National Inventors Hall of Fame in 2007. Dr. Hood has played a key role in founding numerous biotechnology companies, including Amgen, Applied Biosystems, Systemix, Darwin, and Rosetta.

The Ohio State University Medical Center

The Ohio State University Medical Center leadership understands the importance of personalized health care and sees the future it represents. Together, they made personalized health care an explicit part of the formal vision statement of the OSU Medical Center, which was adopted in June, 2004 following input of hundreds of leaders across the Medical Center and the community:

Working as a team, we will shape the future of medicine by creating, disseminating and applying new knowledge, and by personalizing health care to meet the needs of each individual.

OSUMC was the first major public academic medical center to join the Personalized Medicine Coalition – a Washington, D. C.-based independent, non-profit group that works to advance the understanding and adoption of personalized medicine. To coordinate personalized health care efforts, The Ohio State University Board of Trustees approved the creation of the Center for Personalized Health Care (CPHC) in 2005. The vision of CPHC, as proposed in 2005, is to re-engineer health care to accommodate a fundamental transition from disease management to disease prediction and prevention and from reactive sick care to proactive health and wellness

care. Its mission is to propel translational and clinical research in personalized health care at The Ohio State University Medical Center, facilitate the incorporation of this research into patient care and educate and advocate for personalized health care locally, nationally and internationally.

The Ohio State University Medical Center has a number of unique capabilities that facilitate its developments in the personalized health care area. These core capabilities and resources include the following:

Human Tissue Collection and Biobank

The availability of human bio-specimens is critically important for personalized medicine research. OSUMC has multiple bio-repositories devoted to research, clinical trials and medical-decision making. These resources include solid and liquid tumor banks, human tissue and fluid repositories and libraries of RNA and DNA derivatives, largely administered through the Human Tissue Resource Network, a division within the department of pathology. The National Cancer Institute has also recognized OSUMC as a correlative sciences center, home to the central imaging core and tissue repository for the CaBIG research consortium. In addition, dozens of individual investigators at Ohio State have their own tissue repositories for focus area research. OSUMC investigators manage bio-specimen repositories in many types of cancer, including head and neck, breast, brain, colon, cervical and leukemia and lymphoma. Some of the Medical Center's newest initiatives include emerging repositories in muscular dystrophy, heart disease, sepsis, neuroscience and inflammatory bowel disease, among others.

The OSU Comprehensive Cancer Center, in collaboration with the Center for Personalized Health Care, recently completed a general informed consent protocol to prospectively collect human tissues and blood samples for translation research. The protocol has received IRB approval and the initial phase of implementation is currently under way. It is expected that this new consent process with corresponding investments in repository capacity, cataloging, and information management tools will propel OSU to become a national leader in bio-banking with the immediate impact of making OSUMC a much more attractive partner in sponsored clinical and translational research.

Biomedical Informatics and Information Warehouse

Informatics and IT are key components of personalized health care. A key strategy in the OSUMC IT plan is "to automate the patient's electronic medical record and the workflow surrounding patient care to enhance the quality, efficiency and personalization of patient care". This includes the migration of the inpatient electronic medical record (EMR) from 2nd generation to 3rd generation, including clinician-driven workflow and decision support. It also includes expansion of the EMR to the ambulatory environment and to the peri-operative and ICU environments. Also planned is extensive collaboration between various departments to integrate genomic and clinical data within the Information Warehouse and the online patient care systems.

Ohio State University Medical Center has a rich history of innovation and achievement in managing information systems and patient care. OSU Medical Center was among the first in the country to adopt and implement a paperless patient record system, and for the past eight years, the Medical Center has been named one of the country's "Most Wired" hospitals.

The OSUMC Information Warehouse is one the few nationwide that include billing, financial, and other non-clinical data into an enterprise-wide data warehouse. Additionally, it is one of the few IT centers that does not simply store data, but actively designs and promotes customized solutions to meet research, education, and clinical care needs. Some of the core services offered by OSUMC IW provide the critical support for personalized health care development:

- Honest Broker Protocol: This protocol addresses one of the most important aspects of handling personal patient data and permitting legitimate research to proceed without jeopardizing the patient's privacy.
- Translational Research Portal (TRP): Efficient data collection and handling will play an increasing role in shaping the direction of future clinical-translational research. The TRP is a portal dedicated to the rapid development of web-based applications for collecting, managing, and reporting data in medical research studies with tight integration into the IW clinical repository.
- Protein Electrophoresis (PEP) Tools: The developed system provides integrated tools for collecting and analyzing 1D urine, serum, and Immunofixation. PEP data from instrumentation in the laboratory and can be accessed from any prepared desktop system in the network.
- Microarray and Tissue Data Portal: This datamart includes an integrated suite of tools supporting tissue banking and tissue analysis. Recently, researchers assessing genetic variation in wound healing used caBIG tools such as caTissue, caWorkbench and caArray, to correlate gene expression analysis with clinical phenotypes.

The Ohio State University's "Your Plan for Health"

The OSU Your Plan for Health, launched in 2006 by the strategic partnership of the OSU Medical Center, Ohio State University's Office of Human Resources, and OSU Managed Health Care Systems, Inc., is an ideal pilot test site for personalized health care programs. The goals of "Your Plan for Health" (YP4H) are to improve overall health and increase productivity of faculty and staff through timely preventive care and wellness programs at the individual level; to provide an overall benefits package that will help make The Ohio State University an employer of choice; and to gain control over rapidly rising health care costs, while preserving quality, continuity, and affordability of health care for the university and its faculty and staff. The program and its enhanced benefits are developed under the principles personal empowerment, holistic health management, and personalized health care.

OSU Programs in Human Cancer Genetics

OSU's Human Cancer Genetics program is led by a group of distinguished scholars, such as Academy of Sciences and Institute of Medicine fellows Dr. Albert de la Chapelle and Dr. Carlo Croce. Dr. Croce has a long list of genetic discoveries to his credit and receives worldwide recognition for his pioneering work in microRNA. Dr. Croce's human cancer genetic program has placed significant focus on discovering the role of microRNA genes in cancer. Such discoveries will help revolutionize cancer classification, diagnosis, monitoring, prognosis and targeted therapy – the very promise of personalized medicine. Dr. de la Chapelle's research focuses on the mapping, cloning, and characterization of high-penetrance genes for cancer predisposition. Similar studies into low-penetrance genes, a relatively new concept, are also done. When new genes are identified, studies are directed to determine the pathophysiological role of the proteins they encode, and the mechanisms by which mutations in the genes contribute to the cancer phenotype.

OSU Center for Clinical and Translational Research (CCTS)

The Center for Clinical and Translational Science (CCTS) was established at The Ohio State University Medical Center through a Clinical and Translational Science Award from the National Institutes of Health grant for \$34 million. This is one of the largest grants ever received by Ohio State. The award provided support services to Ohio State researchers while fostering collaboration with other medical centers that are recipients of the grants. Faculty and staff from 16 colleges at Ohio State are involved in the project, creating a collaborative network focusing on science, education, research design and implementation. Training and developing the next generation of researchers is an integral part of the strategic focus.

P4 Medicine

Powerful forces are emerging that will remarkably transform medicine from the current reactive and illness-focused basis of care to the prospective and health focused basis that defines P4 Medicine. The "digitization" of biology has transformed the field from a discovery art into an information science, and will allow "killer app" molecular technologies to emerge in diagnostics and therapeutics. A similar phenomenon of digitization has arisen around medicine, as electronic health records, diagnostic technologies, personal health records, remote patient monitoring, and telehealth are combining to create data-rich "clouds" of medical information around each individual. The potential for predictive and preventive medicine is immense as these "clouds" become aggregated and mined for personalized cues to warn of deviations from health. Finally, the rise of consumerism allows the emergence of participatory modes of clinical engagement. Patients have traditionally acted as passive recipients of care delivered by physicians and health systems. Yet attitudes and beliefs around health and illness are changing to reflect the growing interest of patients in increasing their ownership share in care decision-making. As the biosciences elucidate the root causes of disease, care becomes commoditized, and as care becomes integrated into daily lives, the transformation of the passive patient into the engaged consumer becomes facilitated. Health and illness will become demystified through novel biomarkers identified via systems biology, mining of the health data 'clouds' for new

clinical insights and predictions, and novel therapeutics designed to prevent disease before it fully manifests.

Some of the tangible aspects of a P4 Medicine driven vision of healthcare include:

- Systems biology driven research that characterizes the molecular basis of illness and wellness. Comprehension of the perturbed pathways in disease will allow unambiguous diagnosis, preventive monitoring, and definitive treatments
- The emergence of data-rich health information clouds fed by clinical information technologies, whole genome sequencing, clinical use of RNA and proteomic analyses, and clinically integrated biobanking.
- Highly individualized health optimization and disease prevention regimens customized through analysis of an individual's health data cloud.
- Healthcare systems that extend the reach of their care beyond the walls of their clinics and hospitals. Use of biotelemetry, remote patient monitoring, telehealth, and focused medical home teams will extend and intercalate care into the consumer's daily life.
- Engaged and participatory consumers taking ownership of their health with tailored care regimens customized by lifestyle & preference. This new breed of consumer actively engages their peer & provider communities with use of healthcare specific social networking tools, self-reports regarding diet, activity, and other observations of daily living, and consumer-facing applications keyed from the emergent personalized clouds of health data.

OSU's Founding Membership of The P4 Medicine Institute

The vision of P4 Medicine is revolutionary, and requires the development of a vast array of new solutions, approaches to care, and shifts in stakeholder culture. Health-specific data will emerge from numerous sources, new information technologies will be needed that can aggregate and translate these information streams, providers and health systems will transform their care delivery models, and patients must become active and engaged consumers in their health and wellness. These solutions will require iteration and refinement due to their innovative nature.

The vision of P4 Medicine is also disruptive, as it has the promise of giving rise to new economic and business models that will radically differ from the established ecosystem that is modern healthcare. Volume-driven reimbursement for care will shift to reimbursement for true value as health and prevention of disease become dominant, providers will shift from treating disease to maintaining states of wellness, and new opportunity spaces will emerge as medicine becomes an information-driven science.

Innovations and discoveries in P4 Medicine will drive dynamic changes in technology, knowledge dissemination, and clinical delivery platforms profoundly. To make these changes happen, it is increasingly recognized by the science communities that large-scale and inter-institutional collaborations are the key. The US Department of Health and Human Services' definitive work, "Personalized Health Care: Opportunities, Pathways, Resources" indicates that "in any scientific endeavor today, collaboration is important. For personalized health care, it is at the heart of the project. Collaboration among different stakeholders, and across public and private sector lines, is not merely key to achieving the goal, it is the essence of the goal itself.

Personalizing health care means aligning resources across the health sector, from the researcher and the regulator to the clinic and the payer, so that their efforts converge and adjust for each patient. Patient-centric care depends on collaboration for the patient's benefit."

The P4 Medicine Institute is a collaboration vehicle. It will bring together partners from different disciplines, industries, and regions with shared interest to jointly develop solution sets that none of them alone is able to develop fully. The more common collaboration models such as collaborative agreement, joint venture, and partnership are not ideal. The complexity of the interactions and the creative aspects of the activities require a more versatile model. The business model that P4 Medicine Institute is developing is perhaps best described as a consortium. The consortium model can accommodate the partners' divergent interests under a broad umbrella. Players with different levels of interests and risk preferences invest at different levels and will be rewarded proportionately according to their contribution. In the business environment, the consortium model is designed to connect a federation of players with different strengths to create shared resources and technology platforms.

In the business of innovation, when people embark on game-changing technologies and product developments, they oftentimes do it outside the conventional organization channels. Examples such as Lockheed Martin's skunk works, Boeing's taskforce that built the Stealth Bomber, and NASA's moon landing project all demonstrate how non-traditional approaches can work. The P4MI organizational approach will try to replicate such innovative organizational models that are characterized by speed, comprehensiveness, and broadly integrated network of stakeholders.

As a nonprofit 501(c)(3) organization, the mission of the P4 Medicine Institute (P4MI) is to accelerate the emergence and adoption of healthcare of the future as embodied in the concept of P4 Medicine. To achieve the revolutionary and disruptive potential of P4 Medicine, proof-of-concept demonstration environments must be created in order to develop and refine the necessary solutions. As a consortium, P4MI will include full voting members in ISB and OSU and lesser invested, non-voting members with focused interest in aspects of the development. The P4MI currently projects a \$500,000 annual full voting founding membership fee for the first two years with subsequent annual fees to be determined thereafter for founding members. Currently, OSUMC represents academic medical centers as a founding member, and ISB represents the founding science and research technology member.

OSUMC will participate in P4MI as a founding member and will serve as the primary clinical test-bed for the P4MI projects. This relationship affords OSU a strategy to position itself as a global leader in transforming health care delivery through P4 medicine principles. OSUMC has created a Center for Personalized Health Care to meet its brand promise of creating the future of medicine to improve people's lives through personalized health care. A key element in the OSU component of the program is to build scalable and portable platforms that focus on defining the complex interactions between the person's environment and genes to understand phenotype. OSUMC will develop integrated programs in bio-nutrition, behavioral stress, exercise and physical performance, biological rhythms, and sleep to be coupled with molecular and genetic diagnostics, biomedical and computational informatics and biostatistics to simplify

digital data sets into clinical knowledge; outcomes measurement; and consumer evaluation form the foundation of the P4 health program.

OSUMC possesses a unique breadth of the clinical and research assets. As with the other health systems, OSUMC brings a large multi-hospital health system, a large community of providers from all specialties, and a diverse and large patient population base. The Ohio State University administers a health insurance plan, which represents a payer asset. However, as a premier academic medical center, OSUMC also brings extensive clinical and basic science research capabilities, as well as the resources and the infrastructure of one of the largest university systems in the world.

Founding members of P4MI will enjoy significant benefits:

- As one of two founding member groups, OSU will initially have 2 permanent seats on the 4-seat governing board, and ISB will hold the other two seats. It is proposed that the President of the University will designate the Senior Vice President for Health Sciences to coordinate oversight of P4MI on behalf of the University.
- OSU will participate in making P4MI governance decision such as:
 - Commissioning new projects and analyses aligned with the common strategic objectives of the founding members. For example, Ohio State as a founding member will be given the first priority in developing pilot projects to apply P4 Medicine to clinical care delivery.
 - Decisions on use of P4MI funds and operating capital
 - Establishing strategic directions and new business development strategy
 - Inclusion of new founding members
- As a founding member, OSUMC will benefit from P4MI associated intellectual property:
 - Benefits of first access to innovations, solutions and derivative intellectual properties that emerge from the context of the P4MI pilot projects
 - Founding members will share amongst themselves the knowledge and expertise generated from the research and development efforts of P4MI and ISB.
 - Ability to securely refine and develop OSUMC inventions in the demonstration environments for OSUMC led commercialization
- As a founding member, OSUMC will enhance its credibility and reputation as a world leader in a visionary and pioneering domain:
 - The scientific leadership of Dr. Leroy Hood and his team at ISB are integral to the credibility of P4MI and a strategic partnership with such an outstanding group will significantly improve Ohio State's national and international visibility and standing.
 - Potential to establish OSUMC as a leader in an Ohio statewide initiative around personalized healthcare. Ohio could be positioned as the "personalized healthcare" state, and enjoy not only the population benefits healthier residents, but the economic benefits of establishing and strengthening the "brand" of Ohio through personalized healthcare.

May 14, 2010 meeting, Board of Trustees

- o Potential to establish OSUMC as a global leader in the development and implementation of P4 Medicine and personalized healthcare.
- o Through the P4 Medicine Institute’s collaboration vehicle, OSU will have access to partners from different disciplines, industries, and regions with a shared interest in developing P4 medicine solutions. The consortium model can accommodate multiple players’ divergent interests under a broad umbrella. As a founding member, OSU will play a key role in deciding what partners to include in this consortium.

Quantifiable Benefits and Return of Investment

Expenses, Revenue Projection, and ROI from OSU’s Perspective

Line Item	Detail	Year 1	Year 2	Year 3	Year 4	Year 5
Expenses	Membership Fees	\$0.5	\$0.5	\$0.5	\$0.5	\$0.5
	In-kind Contribution	\$0.5	\$0.5	\$0.5	\$0.5	\$0.5
Annual Expenses (\$MM)		\$1	\$1	\$1	\$1	\$1
New Service Line	Assume \$1M / engagement Assume 1,2,4,6 engagements	\$0	\$1	\$2	\$4	\$6
Enhanced Product Solution	Assume \$10M base, 20% CAGR, 3% royalty to P4MI	\$0	\$0	\$10	\$12	\$14
New Product Solution	Assume \$20 M base, 20% CAGR, 10% royalty to P4MI	\$0	\$0	\$0	\$18	\$22
Grant /Competitive Funding Increase	Assume \$10M base Annual multiples: 1.2x, 1.5x, 2.0x, 2.5x	\$0	\$2	\$5	\$10	\$15
Annual Revenues (\$MM)		\$0	\$3	\$17	\$44	\$57
Annual Returns (\$MM)		-\$1	\$3	\$16	\$43	\$56

The return is projected to be highly positive. Through the P4 Medicine Institute’s collaborative organizational model, OSU will have access to partners from different disciplines, industries, and regions with a shared interest in developing P4 medicine solutions. OSU will receive tangible financial returns when P4MI’s business plan is successfully executed. As estimated, a P4MI member like OSU will receive \$2 million in new grant and competitive funding by Year 2 and \$15 million by Year 5. Other revenue streams include intellectual property development, charitable giving, and new product and service offerings. The total return by Year 5 from all sources is projected to be around \$56 million. This projection is in line with several other similar newly started research organizations such Ignite Institute in Virginia and Translational Genomics Research Institute in Arizona (TGen).

May 14, 2010 meeting, Board of Trustees

According to published reports, over the last five years, TGen received over \$100 million from State of Arizona, \$50 million from the country of Luxembourg, and \$25 million from the Van Andel Research Institute in Michigan. With numerous smaller gifts, grants, and service contracts, TGen's FY2009 total revenue was \$72 million. Ignite Institute, another new startup research organization, has recently secure investments that totaled \$225 million, \$25 million from State of Virginia, \$75 million from Inova Health System, and \$150 million from Fairfax County VA.

While the financial analysis as summarized in the table above provides the best estimates on the expenses vs. revenues for OSU in this affiliate partnership, there are other significant but not so quantifiable returns that also need to be considered:

- Improvement to OSUMC's national reputation may generate opportunity cost savings from our national marketing and communication expenses;
- Increased donations and gifts from friends of The Ohio State University and P4MI;
- Knowledge transfer from P4MI to The Ohio State University to enhance our systems biology and P4 Medicine capabilities;

In summary, the case for an OSU founding membership with P4MI is strong and supported by the following benefits:

Participating in an innovation consortium with a significant decision-making power, having two Board member positions. This enables OSU to direct new projects that align with OSU's strategic objectives and business development strategy.

As a founding member, OSUMC will benefit from P4MI associated intellectual property by having the first access to innovations, solutions & derivative intellectual properties that emerge from the context of the P4MI pilot projects.

As a founding member, OSUMC will enhance its credibility & reputation as a world leader in a visionary and pioneering domain. The scientific leadership of Dr. Leroy Hood and his team at ISB are integral to the credibility of P4MI and a strategic partnership with such an outstanding group will significantly improve Ohio State's national and international visibility and standing.

Through the P4 Medicine Institute's consortium of collaborators, OSU will have access to partners from different disciplines, industries, and regions with a shared interest in developing P4 medicine solutions. The consortium model can accommodate multiple players' divergent interests under an inclusive organizational framework. As a founding member, OSU will play a key role in deciding what partners to include in this consortium.

The return is projected to be highly positive. Through the P4 Medicine Institute's collaborative organizational model, OSU will have access to partners from different disciplines, industries, and regions with a shared interest in developing P4 medicine solutions. OSU will receive tangible financial returns when P4MI's business plan is successfully executed.

(APPENDIX L)

PROPOSED AFFILIATE: OSU CHINA GATEWAY, LLC

**SYNOPSIS OF REQUIREMENTS FOR ESTABLISHMENT OF AFFILIATES
OF THE OHIO STATE UNIVERSITY**

The Policy on Affiliated Entities was adopted by the Board of Trustees of The Ohio State University in June 2008 to provide a consistent framework for the establishment and operation of separate entities that are closely affiliated with the University and provide services in support of the University's mission. To ensure that these entities serve the best interests of the University, adhere to high standards in their operations and activities, and provide for continuing appropriate oversight by the University and Board of Trustees, the Policy provides that the establishment of any affiliate (including a subsidiary or related entity) must meet the following requirements:

STATUS	ITEM
Pending	An affiliate of the University may be established only upon the recommendation of the President and the Board's Audit and Compliance Committee and the approval of the Board of Trustees.
YES	The proposed affiliate must demonstrate a mission that promotes, sponsors, or complements the mission of the University.
Pending	The proposed affiliate must submit a five-year business plan that demonstrates its stewardship of University resources in accomplishing the affiliate's purpose.
YES	There must be a senior University official designated by the President to coordinate University oversight of the affiliate.
YES	There must be a detailed plan for the governance of the affiliate, including who will serve on the governing board and who will be in key staff positions. This includes permanently reserving one or more governing board seats with full voting power for University representatives selected by the Board of Trustees or the President.
YES	Proposed governing documents must contain recommended appropriate "reserve powers" that require University or University representative concurrence for major business or governance actions (e.g., new lines of business major loans or purchase of property, changing the number or powers of directors, merger or dissolution).
YES	There must be a proposed memorandum of agreement between the affiliate and the University that details the University's business and governance relationship with the affiliate.
YES	There must be provision in the proposed governing documents and memorandum of agreement for a continuing and regular reporting process for the affiliate.

All of these requirements are to be reviewed and evaluated by the University, the proposed affiliate, and the Audit and Compliance Committee in determining whether the establishment of the proposed affiliate will be recommended for approval by the Board of Trustees.

OSU China Gateway LLC

Overview

OSU China Gateway LLC is an Ohio limited liability company (the “LLC”). The Ohio State University (“OSU”) is the sole member of the LLC and has complete control over its operation. The LLC was formed as a necessary legal prerequisite to meet OSU’s institutional goal of establishing a physical presence in China by June of 2010. The LLC, in turn, has established a Foreign Representative Office (“FRO”)¹ in Shanghai, China. The establishment of the FRO was also a necessary legal prerequisite for the leasing of office space, opening of financial accounts, and hiring of staff. The project as a whole is referred to as the “China Gateway.”

Purpose

The primary purpose of the China Gateway is to further the establishment of OSU as a global university. To this end, the Gateway is engaged in the following activities:

- Alumni and student liaison.
- Facilitation of collaborations between OSU and Chinese institutions or organizations.
- Facilitation of OSU faculty teaching and research collaborations.
- Investigation of development of specialized executive education or training programs consistent with Chinese law.
- Donor contact with interested alumni, friends, and corporations in China.

The China Gateway project has already generated a highly enthusiastic response from OSU alumni in China and facilitated new agreements for programs between OSU units and Chinese institutions.

Legal Structure

OSU is the sole member of the LLC. This arrangement provides the Senior Vice-President for Business & Finance at OSU with the authority to appoint or remove officers, approve resolutions on behalf of the LLC, and make any necessary changes to the structure or operation of the LLC.

The LLC currently has two officers. These officers are: (1) the OSU Vice-Provost for Global Strategies in the Office of Academic Affairs (President); and (2) the Program Manager for International Programs Liaison in the OSU Office of International Affairs (Secretary/Treasurer). Thus, all officers of the LLC are OSU employees.

The LLC filed for permission from the Chinese State Administration for Industry and Commerce (“SAIC”) to create the FRO, which is one of the permissible vehicles for

¹ The full legal name of the FRO is: “OSU China Gateway LLC (Shanghai) Representative Office.”

foreign entities to legally conduct operations in China. The SAIC approved the formation of the FRO. The FRO in Shanghai has a “Chief Representative” appointed by the Vice-Provost for Global Strategies (President of the LLC) and approved pursuant to Chinese law by the SAIC. The Chief Representative is the actual manager of the China Gateway operations on the ground in China. Pursuant to the requirements of Chinese law, she is employed by the FRO through one of three Chinese employment agencies approved by the Chinese government for this purpose.

Financial Operations and Budget

The LLC currently has one bank account. The flow of funds into this account is controlled by the Provost and the Director of Business Operations of the OSU Office of International Affairs. The current signatories on this account are: (1) the Program Manager for International Programs Liaison in the OSU Office of International Affairs; and (2) the OSU Assistant Vice President in the Office of Financial Services, Business & Finance. These individuals are responsible for the flow of funds out of the account, usually in the form of wire transfers, to fund the operations of the FRO.

The FRO currently has one bank account in Shanghai, China. The Chief Representative is the only authorized signatory on this bank account. The Office of International Affairs has a detailed draft internal financial control document that specifies procedures for contracting, purchasing, and reporting by the FRO. This document is under review and will be finalized in the near future. The LLC has complete control over the amount of money transferred to the FRO, and the Office of International Affairs is receiving detailed reports of expenditures made by the FRO from the Chief Representative.

The Office of the Provost is providing funding for the activities of the China Gateway project. An initial 6-month start-up budget of \$241,000 has been approved to cover expenses through the end of FY 2010. After this initial phase, the China Gateway anticipates basic annual operating expenses of \$200,000 to \$250,000 per year (e.g., rent, salary, legal and accounting, office supplies, and Chief Representative travel within China). In addition, the China Gateway anticipates potential additional expenses of approximately \$250,000 per year, depending on faculty travel and expenses for programs and events. The authority for approval of the China Gateway budget rests with the Provost.

Fiscal Year 2011 is designated as an exploratory phase, during which the China Gateway will investigate the possibility of becoming self-sustaining through the operation of executive education or similar types of training programs. If these programs are operated directly by the China Gateway, additional structural changes may be necessary to comply with Chinese law, including the formation of new Chinese entity known as a Wholly Foreign Owned Enterprise (“WFOE”).

APPENDIX LI
Degrees Conferred at
THE OHIO STATE UNIVERSITY
COMMENCEMENT CONVOCATION
June 13, 2010

COMMENCEMENT ADDRESS

David R. Gergen

DOCTOR OF PUBLIC SERVICE

David Gergen is a senior political analyst for CNN and has served as an advisor to four U.S. presidents. He is a professor of public service at the Harvard Kennedy School and director of its Center for Public Leadership. In 2000, he published the best-selling book, *Eyewitness to Power: The Essence of Leadership, Nixon to Clinton*.

Mr. Gergen was born in Durham, North Carolina, where his father taught mathematics at Duke University. He graduated with honors from both Yale College (1963) and Harvard Law School (1967), and served as an officer in the U.S. Navy for nearly three and a half years, posted to a ship in Japan.

Mr. Gergen joined the Nixon White House in 1971, as a staff assistant on the speech writing team, a group of heavyweights that included Pat Buchanan, Ben Stein, and Bill Safire. He went on to work in the administration of Gerald Ford and as an advisor to the 1980 George H.W. Bush presidential campaign. He served as director of communications for Ronald Reagan and as advisor to Bill Clinton and Secretary of State Warren Christopher on domestic and foreign affairs.

In his private life, Mr. Gergen works as a political journalist and analyst. From 1985–1986, he worked as an editor at *U.S.*

News & World Report, where he remains an editor-at-large. His career in television began in 1985, when he joined the MacNeil/Lehrer NewsHour for widely praised Friday night discussions of politics. Today, he appears frequently on CNN as an analyst for Anderson Cooper and Wolf Blitzer.

Mr. Gergen joined the Harvard faculty in 1999. He is active as a speaker on leadership and sits on many boards, including Teach for America, the Aspen Institute, and Duke University, where he taught from 1995–1999. He is a member of the Washington, D.C., Bar and the Council on Foreign Relations.

RECIPIENTS OF HONORS

Francisco J. Ayala

DOCTOR OF SCIENCE

Francisco Ayala is University Professor and Donald Bren Professor of Biological Sciences at the University of California, Irvine.

Born in Madrid, Spain, he came to the United States in 1961 for graduate study in genetics at Columbia University. From there he went to Rockefeller University, then to California. He became a U.S. citizen in 1971.

Considered one of the foremost evolutionary geneticists of our time, Professor Ayala has made significant and wide-ranging experimental and theoretical contributions to evolution theory. His

scientific research focuses on population genetics, the origin of malaria, the population structure of parasitic protozoa, and the molecular clock of evolution. He also writes about the interface between religion and science, and in 1981 served as a chief witness in the creationist trials in Arkansas that prevented religion from being taught as science in the classroom. He has published more than 1,000 articles and is the author or editor of 40 books.

In 2002 he was awarded the National Medal of Science by President George W. Bush in a White House ceremony, and last month he received the 2010 Templeton Prize

for exceptional contributions to affirming life's spiritual dimension from HRH Prince Philip, Duke of Edinburgh, at Buckingham Palace.

Professor Ayala was a member of President Bill Clinton's Committee of Advisors on Science and Technology and served as president and chair of the board of the American Association for the Advancement of Science from 1993 to 1996. He is a member of the U.S. National Academy of Sciences, the American Academy of Arts and Sciences, the American Philosophical Society, and numerous foreign academies.

John E. Lucks Jr.

DISTINGUISHED SERVICE AWARD

Jack Lucks is a founding partner in Columbus-based Continental Real Estate Companies (CREC), a nationally renowned developer of lifestyles and mixed-use centers. CREC has been awarded international honors for its work in urban renewal projects in Pittsburgh and for the I-670 Freeway Cap project in Columbus.

In addition, Mr. Lucks serves as director of Continental Realty, Continental Building Systems, Continental Office Furniture, and Continental Equities Companies.

A 1961 graduate of The Ohio State University in business administration and marketing, he has been actively involved in the university's fund-raising efforts for the past several decades. He served as chair of The Ohio State University Foundation Board of Directors from 2004 to 2009, during which time the university brought in more than \$1.2 billion in private support. He currently serves as a member of the Campaign Steering Committee as it plans for the largest fund-raising campaign in university history.

Along with his wife, Cherie, he has been a longtime supporter of the University Medical Center, especially the Heart and Vascular Center, with its pioneering Women's Cardiovascular Health Program, and the Comprehensive Cancer Center-Arthur G. James Cancer Hospital and Richard J. Solove Research Institute. In addition, he has dedicated his time and support to the Wexner Center for the Arts, Knowlton School of Architecture, Fisher College of Business, and College of Food, Agricultural, and Environmental Sciences.

RECIPIENTS OF HONORS

Charles Christopher Spielman

DISTINGUISHED SERVICE AWARD

Chris Spielman first inspired Ohio State football fans more than two decades ago with his skill as a Buckeye All-American linebacker and winner of the Lombardi Trophy. He now serves as a college football color analyst for ESPN and a sports news host for Sports Radio 97.1 The Fan in Columbus.

A highly recruited high school football player, the Canton, Ohio, native chose to come to Ohio State to play for Earle Bruce. During his college football career, he was a two-time All-American and a three-time All-Big Ten selection as best college football lineman. He still holds the Buckeyes' record as the career leader in tackles. In 1988, after

graduating from Ohio State with a degree in recreation education, he was drafted by the Detroit Lions, playing there for eight seasons. He subsequently played for the Buffalo Bills and the Cleveland Browns before retiring in 1999 with a serious neck injury. His broadcasting career started in 1999, as an NFL studio-show analyst for Fox Sports Net. He joined ESPN in 2001.

When his wife Stefanie's breast cancer was discovered in 1998, Chris chose to forego the Buffalo Bills' 1998 season to support his wife. Together, Stefanie and Chris launched The Stefanie Spielman Fund for Breast Cancer Research at Ohio State's

Comprehensive Cancer Center-Arthur G. James Cancer Hospital and Richard J. Solove Research Institute. Recognizing the importance of a strong caregiver to a patient battling cancer, the couple formed Stefanie's Champions to benefit The Stefanie Spielman Patient Assistance Fund, as well as the research fund.

Throughout his wife's illness, Chris never refused an opportunity to increase public awareness of cancer and to promote the critical importance of medical research. He continues to use his public persona unselfishly to continue the fight so important to his late wife.

Stefanie Belcher Spielman

DISTINGUISHED SERVICE AWARD

Stefanie Spielman is without peer in her courageous and selfless dedication to a cause. During her too-short lifetime, she touched countless lives throughout Ohio and beyond with her grace and compassion.

Stefanie and her high school sweetheart and football hero, Chris Spielman, both attended Ohio State where she majored in journalism with plans to pursue a career in broadcasting. The couple married in 1989.

In 1998, after being diagnosed with breast cancer, Stefanie and her husband decided to go public with her illness and use their prominence in the community to draw attention to the disease and the need

for medical research. The couple launched The Stefanie Spielman Fund for Breast Cancer Research in partnership with Big Bear grocery stores, hoping to raise \$250,000 for Ohio State's Comprehensive Cancer Center-Arthur G. James Cancer Hospital and Richard J. Solove Research Institute. Within a short time, the fund raised \$1 million and, over the next decade, the Spielmans raised more than \$6 million for cancer research.

Inspired by the devoted care she received from Chris, Stefanie formed Stefanie's Champions, a fund-raising event to honor other caregivers of cancer survivors. The event, now in its 10th year, has raised more

than \$1 million for The Stefanie Spielman Fund for Breast Cancer Research. She also created The Stefanie Spielman Patient Assistance Fund to help breast cancer patients and their families who are struggling financially. In 2002, she was inducted into the Ohio Women's Hall of Fame for her work.

Despite enduring five bouts of cancer recurrence, Stefanie continued to promote breast cancer awareness and support through personal public appearances, speaking engagements, media interviews, endorsements, and, along with Chris, personal financial support. She leaves a legacy of hope and caring.

May 14, 2010 meeting, Board of Trustees

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND FIFTY-SECOND
MEETING OF THE BOARD OF TRUSTEES

Columbus, Ohio, June 17 and 18, 2010

The Board of Trustees met Thursday, June 17 and Friday, June 18, 2010, at the Ohio Union, Columbus, Ohio, pursuant to adjournment.

** ** *

Minutes of the last meeting were approved.

** ** *

June 18, 2010 meeting, Board of Trustees

The Chairman, Mr. Wexner, called the meeting of the Board of Trustees to order on Thursday, June 17, 2010, at 9:00 am.

Present: Leslie H. Wexner, Chairman, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Ronald A. Ratner, Linda S. Kass, William G. Jurgensen, Janet B. Reid, G. Gilbert Cloyd, Jason W. Marion, and Alexis L. Swain.

-0-

Mr. Wexner:

Good morning. I hereby move that the Board recess into Executive Session to consider personnel matters regarding employment and to discuss matters required to be kept confidential by State Statute.

Upon motion of Mr. Brass, seconded by Mr. Hicks, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Leslie H. Wexner, Chairman, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Ronald A. Ratner, Linda S. Kass, William G. Jurgensen, and Janet B. Reid.

-0-

The Chairman, Mr. Wexner, reconvened the meeting of the Board of Trustees to order on Friday, June 18, 2010, at 9:02 am.

Present: Leslie H. Wexner, Chairman, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Ronald A. Ratner, Linda S. Kass, William G. Jurgensen, Janet B. Reid, Jeffrey Wadsworth, G. Gilbert Cloyd, Jason W. Marion, and Alexis L. Swain.

-0-

Mr. Wexner:

If you would either mute, silence or turn off your portable communications devices that would be helpful.

As we begin this meeting, I would like to extend a welcome on behalf of the University and the Board, as well as a personal welcome to, Jeff Wadsworth, who joins the Board of the University. Jeff is the Chief Executive Officer and President of Battelle and has been in that job since 2009. I have to note, since he has moved to the community and having him as a Trustee partner in this institution, close to and getting closer all the time to The Ohio State University is really quite significant. I hope you enjoy your work with us on the Board. I know that I will enjoy working with you, Jeff, thank you.

Dr. Wadsworth:

Thank you very much.

I now call on Alex Swain for the Student Recognition Awards, Alex.

STUDENT RECOGNITION AWARDS

Ms. Swain:

Thank you, Mr. Chairman. Members of the Board, today I have the wonderful privilege and opportunity to provide to you two of our University's best students, and if they would come forward; Valerie Vodrey Henderickson and Mr. Jason Marion. While they are coming forward, I would like to quickly remind you of the process for these awards. We have a cycle for all the colleges and each meeting, whichever two colleges come up on that cycle; I solicit a student's name from that dean. That dean has the discretion to solicit from department chairs and then they send those names to me. These are the two students that were selected from their college. I will tell you a little more about them.

Valerie is a fourth year student double majoring in Chinese Language and Literature and International Studies from the College of Humanities and is a graduate of Shady Side Academy in Pittsburgh, Pennsylvania. She is a member of the Honors Collegium and currently has a 3.89 G.P.A.

Valerie has received several prestigious scholarships that have enabled her to spend much of 2009 living and studying at Yunnan University in China. During that time, she took Chinese courses through OSU's Chinese Flagship Program, one of only three in the country. She was also a founding member of the first Toastmasters Club in Yunnan Province.

Due to her lifelong interest in law and social justice, Valerie volunteers as an advocate for survivors of sexual violence with the Sexual Assault Network of central Ohio and is an active member of Women and Allies Rising in Resistance, which organizes the Take Back the Night event held each spring. She has also worked with Ohio State Calling and is a research assistant in the Department of East Asian Languages and Literatures.

Jason Marion is a Ph.D. candidate in Public Health at The Ohio State University College of Public Health. He is a graduate of Amelia High School and Hocking College. He is also a two-time graduate of Morehead State University, where he received a B.S. in Environmental Science and a M.S. in Biology.

Jason has developed and conducted an ambitious dissertation project titled, "Protecting Public Health at Ohio Inland Beaches: Development of Recreational Water Quality Indicators Predictive of Microbial Exposure." While focusing on his dissertation, Jason has assisted faculty in identifying and pursuing a number of research opportunities related to water quality and public health. While at OSU he has co-authored three external grant proposals securing over \$600,000 in funding for such projects, while maintaining a 3.89 G.P.A.

Jason also serves on the Advisory Committee for Efficiency and Effectiveness for the University System of Ohio and recently completed his term as the Graduate/Professional Student Trustee. He has served as President of the Council of Graduate Students and has been recognized for his leadership with the Spirit of Ohio State and Outstanding Graduate Student Awards through Ohio Union Leadership Awards. He also continues to serve as a conservation worker with the Ohio Department of Natural Resources, where last year he received the state parks employee of the quarter award for his service and the Director's Achievement Award for his efforts at the Shawnee State Forest wildfire.

He is joined today by his mentor, Dr. Lee.

Give them a round of applause.

June 18, 2010 meeting, Board of Trustees

Ms. Henderickson:

I am glad I don't have to follow you, Jason. My brief life has thus far been one of inordinate privilege. My gracious family has let me grow up, taking for granted an ample supply of good books, live woods, easy access to the arts and unconditional love, which I am fortunate for. They have provided me with the best high school education anyone could wish for, and they continue to allow me to pursue a liberal arts education here. I am thankful for that.

The Humanities College at Ohio State has afforded me further privilege. I have supportive advisors; I have wonderful faculty; I have deans who take an interest in what I do which I am very happy about. My experience at Ohio State is not what I feared coming out of high school - I am not just one number among 53,000 other students. I have people who know my face, who I see every day and I am so fortunate for that. I have been lucky enough to be able to pursue a liberal arts curriculum here under some of the best minds in the world. I saw Dr. Phelan in the audience, I was in a book club with him, did not even know how cool he was. I was just like-what a nice professor. It has been a great experience.

I have done my fair share of rabble rousing. I am proud to work with organizations that helped us create, last year, the sexual violence assistance fund, a vital part of democracy, and I do not plan to stop rabble rousing, but you know it is change for the good. The fact that I get to participate in higher education at all is privilege enough and that I get to do it at Ohio State affords me a glut of opportunities. I have all the choices in the world here, and you know it is hard to think about the future. I am 20, figuring out what I want to do with myself is difficult, but to paraphrase Thomas Jefferson, I have the inconveniences of too much liberty. Having lived with people who have not enough, I am so grateful to be able to have that here. Thank you.

Mr. Marion:

Thank you, Valerie, thank you, Mr. Chairman, members of the Board, Mr. President and all the other distinguished guests. As I reflected on what I would say to this group today, because I know so many of you, there were two major themes that dominate my thought process. One, which may be surprising, guilt, then two, thanks. With regards to the first, by receiving this award today I feel like I am receiving something that is not mine to receive and I say this because I am merely the product of the people and environment that have surrounded me. For them I will humbly accept this honor. This leads me to my second major theme, which is thanks. As we sit here in the ballroom named after such a wonderful individual, not just as an athlete but as a person, Mr. Archie Griffin, and I think of this whole space, because these walls come down, it is 18,000 square feet in this place, you know, if you fill the space with the people that have impacted my life, my family, my church, the folks that I have had the chance to meet and work with in Southeast Ohio, Hocking College, the many professors and faculty at Morehead State, many of which were products of this fine institution including the President Wayne Andrews whose leadership is largely shaped by our very own President, Dr. E. Gordon Gee. For that I will accept the honor, for all of those folks.

There are so many people at this University I would like to thank. I think of the custodians who you can vent to at two in the morning, three in the morning, and are willing to listen and they are there for you, they are there in support of this research enterprise, the teaching mission - they are there for us. I think of all the people in Student Life, the people building the Ohio Union and how they are not just people that I work with, but they are also co-workers and friends and supporters. I think of the faculty members that go beyond their teaching disciplines. I think of folks like Dr. Tim Gerber, who is here with us today and his encouragement toward my direction

June 18, 2010 meeting, Board of Trustees

on completing my dissertation. There are just so any faculty members I could thank, but I definitely would like to thank the folks in my very own college.

The folks in the College of Public Health have a noble mission, and they want to prevent disease so that people can have better lives. My dean, who I have had communication with on my research and over the phone the past few weeks is in Cape Cod at the moment, my advisor, Dr. Tim Buckley, who we stole from Hopkins, and Dr. Jiyoung Lee, who has been a mentor, a co-author of all these grants with me and a good friend who we stole from the university up north of us. All of us work together and I am so appreciative of everything that we do in the College of Public Health and the other six colleges I had the opportunity to take coursework in - that is something that is unique at Ohio State.

I would like to thank the Board. You all were a big part of shaping me and who I am. Dr. Cloyd, with the research and development mission that I have in my personal life now is largely shaped by being around you. It is something I could never replace, this experience; I got so much from all of you. The Board office, I never had a chance to formally recognize you at the last meeting, and I was reflecting upon that. We have the best Board office in the country, you guys made my life so much easier just being there. This University gave me a new life in so many ways and I would remiss not to say that.

There are two more groups I would like to thank. One, the Public Health Preparedness for Infectious Diseases program, you never want to forget the people that help pay for you to get your education. It is a great group. Lastly, the students, being around folks like Valerie and other fellow students, they are the ones that give me energy, the ones that give me the will to keep going. It is a contagious energy that particularly our undergrads and our new freshmen and sophomores at the University make it so, and that is where Gordon gets his energy from. Lastly, I just want to say one thing and I appreciate all the honor and accolades I have received while I have been here, but I know one thing, I sure appreciate this. I can do better with my life and we can do better as a University and we have certainly got to, the world calls for us to do so, with that said, I accept this honor and thank you all for your time and listening to me and for providing this recognition.

Mr. Wexner:

Dr. Randy Smith.

-0-

DISTINGUISHED UNIVERSITY PROFESSORS PRESENTATION

Dr. Smith:

Thank you, Mr. Chairman. Because Provost Alutto is in China, I have the honor of recommending two world-class scientists for your conferment of the title *Distinguished University Professor*, the highest honor that the University bestows on faculty members.

So selective, to date, this title has been conferred on only 41 other faculty members. A rigorous, competitive process, colleges nominate faculty and members of the President's and Provost's Advisory Committee review nominations and make recommendations.

Distinguished University Professors are exemplars of research, teaching, and service and automatically become members of the President's and Provost's Advisory Committee. In addition, the Provost provides a \$30,000, one-time cash

June 18, 2010 meeting, Board of Trustees

award to each of our Distinguished University Professors to be used for their research.

Would Ellen Mosley-Thompson, professor in the Department of Geography and director of the Byrd Polar Research Center, please come forward?

Professor Mosley-Thompson is an internationally respected glaciologist, and I am proud to say a colleague of mine in the Department of Geography.

Among her many awards and honors, she is an elected member of the National Academy of Sciences and, in the past four years, she has won four university-wide awards: the Distinguished Scholar Award, the University Distinguished Lecturer Award, the Faculty Award for Distinguished University Service, and the Alumni Medalist Award, which she shared with her husband and research partner, Lonnie Thompson.

For more than 30 years she has worked in Antarctica and Greenland and was the first woman in the world to lead an Antarctic remote camp drilling project. Her breakthroughs in the analyses of ice core data have fundamentally altered understandings of human impact on climate.

External evaluators mentioned the transformational nature of her research and, as one reviewer wrote, "she has helped shape the direction of earth system science."

She also plays an important role in educating kindergarten through high school students, alumni, and community groups about climate and climate change.

She received her bachelor's degree in physics from Marshall University and her master's degree and doctorate in geography in the area of climatology and atmospheric science from Ohio State and began her career here in 1973.

We are proud to recommend Professor Ellen Mosley-Thompson for the Board's conferment of the title *Distinguished University Professor*.

Dr. Mosley-Thompson:

Thank you very much. I just wanted to say that this is a tremendous honor. I am pleased to accept it. It's quite a thrill. I have been at Ohio State for many, many years and of course there are many people to thank, but because I have been here so long, I have actually had four very supportive deans, and I would like to acknowledge my current dean, Giff Weary, and I have had three department chairs, and I would like to acknowledge Morton O'Kelly who is the current chair of our department.

You know that people rarely succeed in a vacuum and they rarely succeed by their own devices so over my entire career here I have also found so many supportive people what Valerie, I think has said, and I shared all the experiences that Valerie had during my masters and Ph.D. program here. You may or may not know that Lonnie Thompson and I have spent over three and a half decades here at Ohio State, building a research team consisting of scientists and engineers that have diverse backgrounds, but the backgrounds are complimentary and it is really this team. I would not be standing here if it were not for the entire ice-core paleoclimate research group that goes around the world with Lonnie and me. From the coldest places on the planet, Antarctica and Greenland, to the world's highest mountains and I will come back to that in just a second.

June 18, 2010 meeting, Board of Trustees

One other thing that you might find interesting, we have 7,000 meters of ice cores stored over in our freezers at west campus that represent cores from the world's highest mountains, but you may have heard that the ice fields on Kilimanjaro are disappearing and in fact we have lost eighty-six percent of the ice on Kilimanjaro just in the last century. What makes that more astounding is that the largest ice field on the Kilimanjaro, called the northern ice field has been in existence for 11,700 years, so how do we know that? We know that from the ice cores that our team drilled there in 2000 and yet they are disappearing.

So things on our planet are changing, we have in our 7,000 meters of cores the archive of the Earth's history. So just in closing, I would like to say this has been a wonderful 30+ year journey here at Ohio State, but the journey is not over, the journey is a journey and as we speak, Lonnie and about half of our research team are on Puncak Jaya, which is the highest mountain in New Guinea, and they are recovering ice cores from the last two remaining ice fields just above the Freeport Macmoran copper and gold mine.

Finally, in closing, I want to thank my daughter, who is here with us. She has been very patient and supportive of a mother who has traipsed from Antarctica to Greenland, who has missed Christmases and many special events, and I know that she understands. As parents we always want to be role models, so I hope I have been a good role model for her and for my students. I am just thrilled to be a part of OSU. Go Bucks.

Dr. Smith:

Would Prabir K. Dutta, The Robert K. Fox Professor in Chemistry, please come forward?

Professor Dutta is the former chair of the department of Chemistry and an internationally known scholar who also has had great success with interdisciplinary projects. Let me mention just a few examples:

He collaborates with life scientists to develop new ways of detecting viral particles and understanding how toxic micro-particles induce biological responses. He collaborates with engineers to develop sensors which can monitor events inside an operating automobile engine, conditions of temperature, pressure and oxidation that destroy most sensors, which will have an impact on safety and efficiency. His fundamental studies of crystal growth will lead to new computer chips and technologies and new catalysts for water oxidation.

He is a recipient of Ohio State's Distinguished Scholar Award and is an exemplary teacher who has "been the driving force behind a National Science Foundation grant called REEL, Research Experiences to Enhance Learning. Such research opportunities give students a better understanding of subject matter... and improved rates of retention." Professor Dutta has helped institute this program throughout Ohio.

He received his bachelor's degree from Calcutta University; one master's degree from the Indian Institute of Technology, and a second master's degree and doctorate from Princeton University. He conducted research with the Exxon Research and Engineering Company for four years before he joined our faculty in 1983.

We are proud to recommend that the Board of Trustees confers the title of *Distinguished University Professor* on Professor Dutta.

June 18, 2010 meeting, Board of Trustees

Dr. Dutta:

Provost Smith, thank you very much. You know all of these accolades that you spelled out, obviously it is not something that I did. I am really proud of the 90 plus graduate students and post doctorates that have gone through my labs. These are the people that actually did all the work and get all the credit. They are all out there in the world contributing their part to society.

Ohio State has been really great to our family. My wife Lakshmi received two of her graduate degrees from Ohio State and has been a staff member for a long time. My daughter was actually an undergraduate at Ohio State and my son took his first college courses at Ohio State before going east to Harvard.

I really belong to an extraordinary department. I want to tell you a little bit about the department and where we are heading. The Chemistry department at Ohio State was actually one of the ten original departments that were founded in 1870 when this University was conceived. Over the years as I look at the history of the department it has actually evolved and readjusted itself to meet the demands of students. The statistics are staggering. Last year we taught 18,000 students in the department of Chemistry. Some of these students were exposed to the cutting edge technology as the REEL program that Randy mentioned that I run for the state of Ohio, while these students were using equipment in the lab that Ph.D. students sometimes do not have access to. So it has been a tremendous transformation experience for these students. I could tell you that about 15,000 students in the state of Ohio have actually experienced the REEL program and it is a really exciting program to look at.

Another statistic that is staggering is two percent of the Ph.D.'s in the United States in the last century were Ohio State graduates. You know sometimes I figure if in some way we could calculate the impact that these people have had on the economy in the country the numbers would be staggering. Do you agree with me? However, as Ellen pointed out, the country and the world faces serious problems - energy, environment, health. I think the Chemistry department is restructuring itself to meet these, most recently under the leadership of our Chair Professor Malcolm Chisholm and our Dean Matt Platz. Chemistry and Biochemistry, across campus, have decided to merge into one department so that we can better address some of the health related issues that are facing us. Even probably more exciting and something that I think will have an impact for the next few decades, and this is something that I really give credit to President Gee and Provost Joe Alutto, is the creation of a new building on the northern part of campus that will actually house chemists and biochemists and chemical engineers. I think this is going to be revolutionary. Let me tell you why. First when you can see that this building, you know Chemistry was going to have a part in Chemical Engineering, but as we talked of the design of this building, we figured that there was sufficient interactions and research interests and that we really needed to integrate these two departments into the building, and that is our latest plan. We will focus on those interests. I do not know if any other building on campus is actually doing this, where researchers from various different disciplines are actually sharing the same facilities, and I think this is going to have a tremendous impact.

I would also like to point out that for the first 60 years or so of this University, Chemistry and Chemical Engineering were actually one discipline. So it is coming full circle, and I think we will be prepared to address some of these issues of energy, environment and medicine in ways that we have not been able to because of this new concept that we have of integrating people this way.

Finally, in conclusion I would like to thank the members of the committee for choosing me. I would like to thank you, Mr. Wexner, President Gee, and members of the Board of Trustees for conferring me this honor and I hope to work with President

June 18, 2010 meeting, Board of Trustees

Gee and Joe Alutto to fulfill the mission of making this the greatest University in the land. Thank you very much.

Mr. Wexner:

Thank you very much. Clearly the University does recognize its outstanding students and outstanding faculty. There is not a time when we visit campus or think about it that we are not reminded of the why we are here and the people, both students and faculty who make this such a great institution. We are also reminded that we have the leadership of a great President, so with that let me call on President Gee for another inspiring report.

-0-

PRESIDENT'S REPORT

President Gee:

Thank you very much. It will not be inspiring; it will be short which is inspirational in and of itself. Let me just say first of all to the students, to Jason and to Valerie, just remarkable young people. Jason, we have been honored to have you at this University, not only on our Board but at this University and I will say that. Valerie, who has left, she is already off to China or wherever, exploring what she is doing. To my two faculty colleagues, both of whom I know and both of whom I respect, but most importantly both of whom this University honors because they have honored this University. I just want to acknowledge that this is one of those bilateral moments which we really truly reflect on, and I am grateful for that. Randy, thank you for being here. Dr. Alutto is in China paving the way for my trip as we speak.

Dr. Wadsworth, welcome. I must say that it is such a privilege to have Jeff joining our Board. I tell the story that when I was here the first time we did not know how to spell Battelle. It was a wonderful neighborhood secret and far flung, and we had no idea what they were doing and I dare say that many of the folks at Battelle did not know how to spell Ohio State. Now we have this wonderful marriage consummated by you joining our Board, so we are delighted about that. I wanted to recognize Archie Griffin as our new Senior Vice President. Archie, welcome, and we are glad to have you here. I would note that an anonymous gift named this ballroom in Archie's honor. Quite a tribute to Archie who is of course an iconic citizen of this institution, but Archie earns that right every day. He is a fierce competitor for Ohio State and we appreciate that. I love to tell two stories. I introduce Archie as the two time winner of the Heisman Trophy, and Archie introduces me as the two time winner of the Ohio State Presidency. Archie, you know someone gave an anonymous gift to Brown to name a trailer park in my honor, so you can see the difference.

Now I am going to have to stop telling Nebraska jokes. They are now part of our team here. I was with a group the other day telling the story that when I was the president of the University of Colorado in 1989, Colorado and Nebraska were playing a great football game. Let me think, Colorado was ranked number two, and Nebraska was ranked number one and they were really playing for all the marbles at that time. I was speaking to a group of folks in Colorado Springs and it was gathered alumni and I got up and joked about the fact that I discovered what the "N" on the Nebraska helmet stood for, which of course was knowledge, and I had a couple of other comments, and I discovered some things about Nebraskans. One is the fact that because it was unfortunate, we put it in every newspaper in that part of the world. I discovered two things about Nebraskans, and one is they love their football team and two, they have no sense of humor. We are there.

Let me just do this, I am going to be very, very short today if I can, because this is a big day. This is a huge day - recognizing our faculty, recognizing our students,

recognizing the hard work of this Board. I want to say this to those of you outside of the circle here. We come to this day, which is a very special day, we are going to have a groundbreaking on one of the most significant projects ever undertaken by any university in this country. It is not simply about a hospital, it is not simply about medicine, it is about life sciences and it is about One University and I am grateful for that. We are going to talk today about our Ohio State framework. I love by the way, Ricardo Dumont's vision of it, when he talks about one Ohio State, one Mission, one Vision, I think it is a remarkable statement in one way about what we are. What we also do is we celebrate the fact that this Board, and we have just had two days of meetings, have done remarkable things. We would not be here without all of you, and I want those folks out there to understand this. This is not someone who works for you, this is someone who admires you, and I want to acknowledge, I want to say that. Both because of the privilege I have of working with you but also for the hard work that you do.

We also have other people who have engaged in hard work. I want to recognize Tim Gerber. Tim, where are you? Tim is the ongoing chair of our Faculty Council. Tim by the way is just one of the great University citizens. No other way to describe him other than the fact that if there was a picture of a University citizen that was in the dictionary, Tim Gerber would be that picture. He is there at all occasions, a fabulous faculty member in his calling, music, but also a fabulous citizen of this University. Tim chaired the committee that designed the movement from quarters to semesters and as I have said to this Board on several occasions, in the end, although we are celebrating buildings today, we are celebrating achievements, the real achievement in this institution will be the reconsolidations of our College of Arts and Sciences. Dr. Joseph Steinmetz is here, that will set the intellectual tone for this University for a century. Moving from quarters to semesters will allow us to rethink and reinvent this University like no other project you have ever undertaken. Tim, we congratulate you. Would you please stand and let us give you a round of applause?

Jim Rathman, who is not able to be with us, who is the chair of Steering, will become the vice chair and we are grateful for Jim's service to the institution. We have been blessed by the way, ladies and gentlemen, I say this inside the circle - we have been blessed with extraordinary faculty leadership. We have a great faculty; sometimes they are so busy that they do not take the time to be good citizens of the University as they should. We are blessed to have that citizenship of this institution. I am grateful.

Amy Erlich - Amy where are you? Please stand. As you know we have a world class faculty, we also have a world class staff. This institution would not be able to run and run as well as it does without the quality of the staff. Amy has been an excellent partner as chair of the University Staff Advisory Council. We have accomplished great things together. We have a goal to do even better things, so Amy, congratulations to you. Would you give her a round of applause?

Then I want to recognize the incomparable Martha Garland. Where are you Martha? Martha is like Cincinnatus, we just keep bringing her off the fields into battle. Martha was retired eight days and we called her up and said Martha we have a deal for you. Dr. Javaune Adams-Gaston, Dr. J, who is right here, and if you will raise your hand, I just want everyone to recognize you. Dr. J, shortly after joining us, was doing fabulous things, came down with a raging case of cancer. We wanted to be supportive of her and the best way we could be supportive of her was to find a great partner. Martha has been her partner. Dr. J was courageous in battle there is no doubt about it. Think of this, think of the story and the fact that she had. Her husband had a kidney transplant, while he was having the kidney transplant and in the hospital, she discovered she had cancer, so the two of them battled this together but have done wonderful things. She is back with full health and last Wednesday got a clean bill of health. Demitri, her husband, got a clean bill of health on Saturday - get here, get a big house with a big mortgage - that is what we want. Martha,

June 18, 2010 meeting, Board of Trustees

congratulations to you and Dr. J, congratulations to you, give them a round of applause.

This has been a fabulous fast couple of weeks. Last weekend was a powerful reminder of why we do what we do: largest graduating class ever in the history of this University, 8,657 new graduates and there were many moving stories among those graduates, first generation college students, fifth-generation buckeyes and everything in between. I must say that I was particularly proud of this commencement. I think that recognizing Dr. Ayala, who is a remarkable combination of world class scientists and world class humanists, was something that brought great pleasure to me personally. Chris Speilman moved us all. I think no doubt about it, and the valiant life that he carries on with Stefanie's memory. I must say that David Gergen gave one of the truly great commencement speeches. He did not come in talking as a commentator, as a politician, he came in talking common sense, at a time in which common sense is sort of needed. I just hope he knows how much we appreciated him. The ceremony really reaffirmed the University's role as an agent of change.

I had a chance, Jeff, to speak at the Metro Early High School, which is a project between Ohio State and Battelle. By the way, the Gates Foundation is the finest STEM school in the country. It is right here on our campus setting an enormous standard. Those kids, they came with nose rings and hair up in the air and straight suits. They were all over the place. They were selected not because of the fact that they are geeks, although I like that word, but they were selected by lottery and their achievements were quite remarkable. We have set a standard in terms of education that we are now taking to the world, and Battelle is doing that. We want to acknowledge that.

This afternoon, we celebrate another milestone. Today's groundbreaking for ProjectONE is significant not only in the life of the University but also in the economy of this state. We are creating 5,000 plus construction jobs, and we are creating 10,000 permanent jobs which will only grow, but most importantly we are creating a center of excellence that few will be able to match in this country. There is that time together to celebrate.

I will be traveling this summer to visit the people of this state, 11 million Ohioans who love this University - an opportunity to visit with them. I promise though that I am going to all these county fairs, we will be sampling delicacies ranging from fried Oreos to fried something-or-other in Nanjing, China. I promise that I will come back in full flourish. None the less I do look forward to the summer and the time to be able to reconnect with the people of the state and the people of the world.

By the way I want to note as we celebrate our faculty, that Bill Mitsch, who is one of the leading experts on wetlands in the world, will receive the Einstein Prize which is one of the most significant scientific prizes in the world, and we are going to be there when he receives that, so I look forward to that.

My final note is that we have had a remarkable year and I see nothing but great opportunities in front of us. So I am grateful for the year; I am grateful for the opportunity; I am grateful for the leadership that we have; and I am grateful for the fact that we are blessed with remarkable students, remarkable staff, remarkable faculty, and what are now 80,000 living alumni who support us all the way around the world.

Thank you, Mr. Chairman. That is my report.

-0-

June 18, 2010 meeting, Board of Trustees

Mr. Wexner:

Thank you very much, Gordon. Do you want to say anything about Vice President Biden today?

President Gee:

I told our Chairman - I whispered to him - I said if I were Vice President Biden I would say this is a big X deal today. This is a big deal today folks. We have a big day today and I am grateful that I am part of it, I can assure you.

Mr. Wexner:

I am sorry to ask, but today is a big deal in a lot of ways for the things that we have covered and the individuals we have recognized so far on the agenda and also the next item on our agenda, we are calling the Ohio State framework. I believe this is a report back of about three years of work in master planning for the campus. I will pass it to Jeff Kaplan and our work partner, Ricardo Dumont. Thank you.

-0-

ONE OHIO STATE FRAMEWORK PRESENTATION

Mr. Kaplan:

Thank you, Mr. Chairman. I think we might have some prefatory remarks by Mr. Ratner who was our lead Trustee in this effort, and really our partner on guiding us through what I think is a very, very significant process.

Mr. Ratner:

I am not going to take much time for lead in comments but at the end of this I want to take a chance to thank the entire team and the entire University who really engaged in this process as you will hear from Jeff. This really is a process, and the thing I wanted to both suggest at the very beginning, and which I will repeat at the end, is that as a process it is something that really works, that both invites and demands active engagement of the faculty, active engagement of the administration, active engagement of the Board, and in effect the entire community, all the stakeholders that we reach out to. We are going to have to continue to reach out to because this is not the kind of typical canned master plan. You are not going to see a set of fixed drawings of specifically identified buildings and locations. It is not going to have a bunch of - probably in the 60's it would have been pastel colors - they would be slightly changed today, but basically you are not going to see a bunch of colored blocks telling everybody where things should be, and then would go on a shelf and be ignored for the next 40 years until someone revised it. This is really an active document. It is a framework. You will hear from both Jeff and Ricardo as to what that really means, but as I said it is really a plan that is going to engage us and it is going to continue to engage us and is going to continue to challenge us. I hope what it is, is something that allows us to have a concept, an armature if you will, around which we can grow the University's physical development and with which we can interact as we get the financial plan and the strategic plan of the University worked out over the next 12 to 18 months, begin to then put these back together as a whole and look at a series of issues that are really going to challenge us.

The other comment would be that we were set up beautifully today. Whoever made the selection of Dr. Dutta as Distinguished Professor was wonderful; in the fact that, that was a perfect lead in. That building, which is a result of a tremendous amount of collaboration between two departments was also a building that grew directly out of the kind of work that we have done in this planning effort; the transinstitutional

demand that we have really instituted in the effort; the idea of rethinking the campus, in particular the idea, in effect, doing no harm. Making sure that every building, every location, even every small revision to an existing building, every modification in fact is one that is responsive to an overall transinstitutional need. Understanding who we are, understanding the core mission of the University, and making sure that the master planning work, the design work, the physical campus reflects that.

The last comment is that the other part of this plan that I am thrilled with is that we are really beginning to focus and pay attention, not just to the buildings on campus, but to the spaces between the buildings. As you will see weaved throughout this, there is a tremendous focus on that. Ricardo came up with a wonderful term; he called it the civic infrastructure of the campus. I have always been of the opinion that great campuses, great environments, are not so much the result of the individual buildings. If you think about the campuses, even our own campus by the way, and the most wonderful places in America and around the world, you do not actually necessarily think of individual buildings. While there are certainly wonderful and iconic buildings, you think about the spaces that are formed between them. You think of UVA, you think about Harvard, and you think about the great college campuses at The Ohio State University, you think about the great spaces and this is the plan that talks about those spaces and talks about them again in an integrated way.

With that introduction, I would like to ask Jeff and Ricardo to lead us through it. We do have a resolution for the Board to pass. We are asking you to endorse this framework and three components of that which these gentlemen will get into. I want to remind you all that the framework that we are asking the Board to endorse today is just that. It is a framework and it is a challenge and it is a demand that we really work very hard to maintain and continue the process that we have initiated with this. This really is in effect a commencement rather than a graduation. Ricardo, Jeff, do you want to proceed.

Mr. Kaplan:

Thank you. Very well said Ron, and absolutely right. The example that our Distinguished University Professor of Chemistry really spells out is what we hope to do with this framework plan. Most of you have heard this, so I am going to try to move through this very, very quickly, and then certainly we can leave time for questions. This whole process, as the chairman articulated, has been going on for almost three years. It has been an integrated and interactive process. We have had almost 24 groups meet dozens of times on this, and by way of that, I should thank some of the folks thanked earlier - Professor Gerber, Ms. Erlich, Chris Zacher, our faculty, and Julie Anstine who led it from the staff side. Everyone is very, very familiar with what we are trying to do here and what we have done is put together the leadership items in a set of framework principles and some foundational strategies that Mr. Ratner had alluded to and that is what we are seeking your endorsement of today. As Ron said, this is not a typical master plan. It is not predicted; it is not scripted; it is more if I can use some hyperbole, like the constitution. It is a living and breathing document, but it sets forth some very basic principles that we can go back to as there are questions on physical campus development and hopefully will keep us consistent and allow us to be the best stewards of our campus facility.

It is at this point concentrated on the Columbus campus, but we are continuing to move this to the regional campuses, so you will hear more about that in subsequent meetings. They have all sprung from this One University framework that the President mentioned before of being transinstitutional and making sure that the academic mission drives the physical environment, and that we integrate, as Ron said, the strategic and physical and financial planning, and that we concentrate our activity. We looked at a number of areas, they were not arbitrary, but we divided

them to cover what our consultants Sasaki tells us is the most comprehensive planning process that any University in the country has undertaken. Those are areas you are familiar with because you have been in meetings before; academics and research, the arts, athletics and recreation, the health sciences, residential life, the river, transportation and parking, sustainability, energy and infrastructure and the university area neighborhoods. The attempt is to integrate them in one comprehensive vision. We do that by looking at four buckets of principles. The first being campus life, these are in no priority order, but our attempt is to be a 24/7 campus where learning goes on not only in classrooms and not only from professors in articulated courses but whether you are in recreational facilities, walking across the campus or in neighborhoods. This goes hand in hand with our principle of concentrating activity. We want resident life that surrounds the core. You will hear from Ricardo that our existing districts already have successful living and learning communities, and we are suggesting capacity there for additional residence halls. You will also see that we want to enhance our off-campus neighborhoods. This is really important for us in terms of our students, in terms of a goal of having our faculty and staff, as many as possible, live closer to campus, which helps us in many, many ways. It is part of a strategy, frankly, for retaining and attracting the best faculty and staff.

In terms of space, a critical component here which again seems simple but is vital. This building of no new net academic space is something that we are asking you to endorse and is something that, as a Chronicle reporter told me on Tuesday when he called, is absolutely unique and somewhat daring because it seems to run counter to a principle of continuing to grow and flourish. But we did, and again as you know, and many folks who attended our sessions know, we did a very thorough analysis of all of our campus buildings and facilities. We have assessed them in terms of their quality, in terms of their cost to rehabilitate them or keep them functioning, and their locations. We believe unless we decide to increase enrollment substantially, that if we maintain our current buildings appropriately, and we demolish and rebuild those when their useful lives are over, we should not need any net new academic space. If we are successful in doing that, that will save your dollars and the states dollars and our donors dollars, and we will be allowed to use them and enable us to use them for growth, more specifically in academic areas and in other ways that will be vital to this University.

As I told the Chronicle reporter, this is not about no growth, and it is not about no academic growth, what it says is if we use our facilities in the way our professor described them, and if Chemistry and Biology can share a classroom when it is used on Tuesdays for Chemistry but not on Wednesdays, that will make a significant difference. That may sound very simple to some of the folks who do not work at universities, but those who do, know that universities generally are very parochial and if a particular department "owns" a classroom or facility, even if it is going unused now a days, and I am not just talking about Ohio State, I am talking about anywhere, it is protected parochially and wasted. So we are asking you to endorse a principle that will allow us to change those habits and to link our space allocations to utilization.

Ron talked a little bit about the civic infrastructure as the Sasaki put it, and basically this is going to suggest that we do a better job maintaining our buildings, that we pay more attention to deferred maintenance. We have developed some superb tools that again you have heard about and the audience has heard about in other meetings. We can talk about them later, but they will tell us specifically the conditions that our buildings are in, which ones are first priorities for rehabilitation, either because of their use or because of their condition in which we find them, and it will suggest that we work on our signage and way finding as well as deferred maintenance and our parking and transportation which all of you know to be a major issue at a place like Ohio State. We have some foundational strategies that we hope will enable us to change the mind set of parking and transportation at Ohio State.

June 18, 2010 meeting, Board of Trustees

We also have some practice principles and this is what I alluded to earlier in terms of our planning tools. We developed seven planning tools to document and are very easily accessible to all of the data that we need to make decisions on our physical facilities - to allow us to make more agile and efficient decisions but to have data so that there is not a question about what research space is being used to what capacity, or what condition a particular facility is in. We can pull up all 456 buildings on the campus almost instantaneously and look at anything from the conditions of their roofs, to the safety conditions, to how the research facilities are used. This will be very, very important again to use our money in the most appropriate fashion and to steward our resources. We have also addressed under this category our sustainability, and there are two studies ongoing that you are familiar with that are in parallel for the framework that really address in detail our options for reducing energy and using alternative sources and look at our broad sustainability goals related to the physical campus and how we operate this campus. Those are the framework principles that we would ask you to endorse. Again you are welcome to ask questions as we move forward on the foundational strategies and the first ideas that we are laying out for consideration so we can move this forward, and I will ask Ricardo to comment on those.

Mr. Dumont:

I am going to try to sit still and not wave my arms around in this forum. Before I go into the specific issues, the foundational strategies that Jeff says, why do we boldly go forth now in this critical very difficult time in our country and in higher education? I think there are three very quick reasons that are lead-ins to this. First the mission, the land grant mission, your mission, our mission to attract the best and brightest and to create a world class education for these great students and professors and support that endeavor. Second it is also our responsibility to deliver the best education for the least amount of dollars. The huge idea of no new net space - academic space is a very contagious idea in the fact that most of the great universities are facing tremendous strains on their systems, but yet, that has continued because they keep on thinking that growth is the only answer. There are better ways to get to where we need to go to be the best. So the idea that we would deliver in the most frugal manner possible, the highest possible education without sacrifice to quality or sacrifice to the President's mission of delivering the whole student endeavor that Dr. J has been championing. And lastly, the professor has now left, said it more clearly than anyone I have heard before and that is that the world's problems are before us in that we need to be the most nimble organization, academically and in our research endeavors to respond to those great problems the world faces. We need to be the innovator. We need to be the solution. That is the prelude that the president set forth in this mission.

So foundational strategies, there are several. I will go quickly through these. The first, concentrate academic activity and regenerate the academic core. That is of course on the heels of creating the best, most powerful adjacency among our academic units. The idea is that many of the great discoveries of the past, and in the future more so, will be between departments not only within the departments. We are trying to create the most compact campus which is also the most efficient campus, the most sustainable campus. So essentially the diagram is saying, where ever possible, we are going to move east of the river to aggregate our facilities in the most efficient dynamic way possible. Again, evidence by the Chemical Engineering building we are about to begin. We also talked about the core as Jeff said the stewardship idea of the core. Again the issue of our space, how we can dare say no new net academic space is because the issue is not the quantity of our space but the quality of our space. So without any major increases in enrollment, we think that we can move forward, really not increasing the net square footage of the academic units in the university, but improve the quality of the teaching facilities and the quality and direction in those facilities. So the idea of stewardship is also a strategy again.

So the sustainable is not a separate overlay as you have seen in other institutions but really an embedded strategy in all the ideas.

Next, invest in the civic infrastructure. So we have become a city. We are 80,000 people in the institution. That is by any means a city in the United States. To run this city efficiently we need a strong idea and systems about our infrastructure that involves reconnecting our streets and more clear handsome ways. The idea of a transit system that actually moves the 32,000 cars that park at this University every single day, 48,000 cars move through the University every day, so a better more efficient system for handling to free up tremendous real estate resources along the river.

We are about to go through major endeavors for our utilities underground, so where we make transitions underground - the goal is to put the services back in a way that is about the future, not just recovering those streets. The idea that streets, transit, parking, utilities and way finding, all are about the system, the fact that we are a city, and we need to start acting like a city, cohesive and efficient.

Third principle here, we call this transform the river and the green reserve. This river, as you can see from the diagram, is literally the geographic center of the campus. It is now housing almost 7,000 cars along its banks. If I were in Mr. Ratner's shoes, as one of the best real estate development companies in the world that would probably not be the way I would be using that real estate. The goal is to transform the river and the tributaries - essentially the next oval to the next 100 years. There are many things to do to clean that up. The idea of moving transportation or cars away from the river to a more efficient system; the idea that the river and storm water handling will be the most sufficient sustainable thing to do for the campus; but the river and achieving the idea that the river really is going to be the central focus of a lot of our activities for the next hundred years and sets up major growth areas for both medical and agricultural sciences and residential life; the river will be the heart and compliment the great stunning space of the oval.

Next strategy is four key connective ideas. Early on the Board asked us to concentrate on the north/south connection to the river, opening space. It would provide, but also of course on the great emblems of streets already run through the University the oval. First connective strategy to the oval and Neil Avenue is the academic main street of the campus. We will co-locate a lot of our academic and teaching facilities along that great avenue of Neil Avenue from the business school in the north, to the medical center in the south, with a great library at the hinge and high point of that street. That will become our key classroom focus area and basically the main street of the campus. That will also coincide with continuing to improve the oval as the heart of the campus historic. The second great connection will be High Street, and High Street we are calling the cultural corridor. That is where we co-locate a lot of our arts facilities now scattered through the campus, eventually over time to collate all of our arts facilities around the sort of core area of 15th and High. That will tie into three major, we call pulses, one at the gateway center, one at 15th and High, and eventually a new gateway at Lane and High as well. That will then be our front door connection to our great partner, to our sounds, is the city of Columbus, so that will connect downtown arts facilities with our own arts facilities and High Street.

Now two new ones are east/west in character. It is Lane Avenue on the north. Lane Avenue idea is to reutilize the parcel - St. John's parcel as our science and technology gateway into the campus when you cross the river. That will connect the farm research areas to the west to this notion of a new academic and science and technology area as the gateway parcel at St. Johns.

Lastly, the fourth major avenue, or connective strategy would be the east/west strategy along the extension of what is now Kinnear Road. So we show here the

idea that Kinnear, we can stem from the west, which is now the home of SciTech, expand our research capabilities in the west and tie them directly with a connective strategy over to Neil Avenue. That will then connect all our intense research at the Medical Center and the medical district here, we will continue medical facilities out along Kenny and Kinnear and connect that to research corridor to the west of SciTech. So the idea that we connect east/west strategies and north/south strategies both for our city partners and Battelle partners as well as to our western lands.

This one is a critical issue - enhance residential life, neighborhoods and recreation - again, under Dr. J's leadership, the goal here and in the president's idea of bringing more 24/7 life to the campus. So the idea of freshmen and sophomores being accommodated entirely on the campus property - one of the first great goals. To do that we would need to be building close to 6,000 beds on or near campus. That will be a tremendous endeavor, one of the largest in the United States history for residential life. To do that, and that is on the back of creating a better more well-rounded student. Academic achievements increase the more we can convince them of the academic interchange between civic life as well as their academic life on the campus. So we purposed a strategy of reinvestment again. Reinvestment here in the south, as you all know, the south high rise residential area will be increasing in the number of beds for three purposes; one to continue to add vitality to that district as the more popular on the University campus; two, to take advantage of the new student center we are now in today, approximately adding anything right next to the south high-rise district; and three, to also add continued life to the gateway district for its retail successfulness - the idea that we would add new beds and increase the quality of facilities in the south. We will add another major endeavor to the north that could add up to 2,000 beds to the north district, making it equal in size to the south. That will improve facilities there 24/7 and again ideas around housing and academic life more intertwined.

Lastly, we will reinvest in what is now called the towers on the river. Obviously the river location is a key issue. Now whether we keep the towers or not remains to be seen in the future, as we go through that financial analysis. But the key is that river location where the towers are today is a stunning location; stunning for its river location; stunning for its proximity next to RPAC, the recreation fields; stunning for its location and walk ability to the academic core. So we continue to be impressed with that location. The trilogy of the three will be the focus of getting freshmen and sophomore life on campus - now this is in conjunction and partnership with areas immediately along Lane, along High and between the blocks of 10th and 11th on the south. Those are properties which we see partnerships developing for increased interaction with private sector development. So the idea that Dr. J and her team would form an idea of what we want to be building and where, and that private sector would be our partner in that endeavor. That expands even more gently into the neighborhoods to the north, to the east, and to the south. Again, we have worked through the process of over 18 months with all the neighborhoods, 16 neighborhood groups and committees, to understand how we gently increase the quality of the neighborhoods. As the chairman once said last year, the goal is to have the best neighborhoods around the University, not some of the most complicated. The idea is that we would improve residential life for faculty and staff as well as students in those areas. Mr. Ratner has set forth the idea that we should strive to increase faculty and staff proximity to the University by trying to get 5,000 faculty and staff of 25,000 to live closer to the University in those neighborhoods. Again that is the idea of one continuous residential life, not just the undergraduate life. So this would be a huge endeavor and coincident with that would be the ideas that as the river becomes tremendous resources for recreation that supports that residential life and then the recreation within each district areas would also be key to that as well, recreation, the neighborhoods, and on campus residential life.

And lastly - the idea of promoting partnerships. The idea that a great University of this size moves forward only especially in these times with great partnerships, which

create win-win ideas for our private sector partners. So that would be in the areas of residential life that would be hopefully in the areas of research. We have actually noted here Battelle as being really striving to increase the research opportunities between the two institutions. We are showing the ability to handle tremendous growth in the western lands while maintaining the great farm resources in the tributaries - with tremendous research opportunities for private sector partnerships to be had by this University. Again, capitalizing on the asset of proximity to the great research scientists we have here.

Jeff mentioned the tools that have been part of this process and not just these big physical strategies. The tools were really a process to do three things. One, to answer the questions of the chairman last year - what do we have and what is the quality of the resources we have, both physical resources and academic resources? Two, once we understand the quality of those resources and what we have, how do we arrive at prioritizing future projects based on your own initiatives and needs? And three, how do we integrate, as Mr. Ratner said, the idea of capital availability, program needs and scheduling those projects so that we can achieve this endeavor and plan over a series of years? So these tools are part of this process and we will in fact facilitate the achievement of the goals.

Now lastly I just want to say, this process is already undergoing. We have worked with Dr. J for the last 18 months since she has come onboard. We have worked with Dr. Gabbe and the hospital committee and rethinking to some degree when the pause happened at the Medical Center, how do we create that great strategy but weave it into the greater University idea of streets, efficient streets and pushing utilities and open space along the river so great changes have been made there with their plans moving forward. The idea that the Chemistry and Chemical Engineering building, again I could not ask for a better introduction to the idea that by thinking of an integrated strategy we can reduce the amount of square footage of buildings and actually increase the amount of interaction in those buildings. Just as the Distinguished Professor said, if the Chemistry and Chemical Engineering building planned and now undergoing design, we took two buildings, programs and combined them into one, reduced square footage by 60,000 square feet and changed the location to be more conducive to the adjacent science and engineering interactions and more importantly achieved the adjacencies of professors who are going to be separate. So that is the goal of the future.

Now four and five strategies are shown here, moving forward beyond those three that are already underway would be the idea of the enhanced Cannon Drive and river corridor system. That would be the first great endeavor upon which the Medical Center, river high rises and the future science technology gateway at the St. John's parcel would be placed on. So just like the Oval was the place we centered our buildings around, the future, we seize the river and great academic facilities and residential facilities facing on that river corridor, and lastly the civic infrastructure, the improvement of those transit street parking systems and utility systems to deliver and support the academic endeavors of the institution.

So those are the major ideas and strategies marching forward.

Mr. Kaplan:

I am going to ask Ron for some closing comments, but let me just let you know, in anticipation of your questions, that when you get the formal resolution that we are passing out, you will also get a copy of this presentation with notes, and that will be available to the public, and we are also going to give you a copy of the onCampus that our Communications department published on Thursday, because it happens to have what I think is a terrific description of those three projects that actually have occurred in accordance with our framework principles. Again they were not formally adopted by you, but we have been operating under the assumption. It describes how

June 18, 2010 meeting, Board of Trustees

those three projects were changed significantly, and we think improved in terms of the ability of our people to operate under some new principles that had not been in existence before, should you be so kind as to adopt these, Mr. Chairman. We plan to have in about three weeks, a very, very detailed document that we are calling the glossy, which will be available to you and to the public, both a multi-paged documentation of the plan with more details and proposals and a searchable DVD so that people will be able to see in great detail just what we hope to accomplish by this plan.

Mr. Ratner:

Well I guess it has been obviously a very long journey and tremendous amount of work has gone into this. While we have really only presented in effect the principles and what Ricardo referred to and what is referred to in this document as the foundational strategies and move forward. This plan also relies on a tremendous amount of background work. If you drill down anywhere on campus, we understand the campus, we know the campus, and we know the areas around it in full detail. There is a tremendous background of work that has been established, which is really going to be the base on which we can grow as we move the plan forward. And again I would end with what I began with. This plan really demands a tremendous engagement. We are going to have to constantly remind ourselves that we have a framework; we have a set of principles; we have to constantly judge every single physical move we make on campus, whether it is a single stop sign, a crosswalk, or a major new building, as to whether it is added or subtracted to these principles and the goals that are in the plan. It all stems from President Gee's vision of One University. We have really begun to understand as we have worked on this plan what that mean; what it means in reality; what it means in physical reality. It will also be absolutely necessary for us to integrate all the thinking we have done, all the work we have done over the last years with the financial plan and the strategic plan. I cannot emphasize that enough, I stated it at the beginning, it is even more obvious as you go through the presentation that without those components, people are going to say to us, well you have this strong framework, these strong principles, how are you going to put them into place, what is it going to cost to do all of this, when is it going to happen. That is really part of the financial plan and strategic plan.

The other comment is some of these issues are ones where you know that in 15 years the change will have happened. It will have happened whether we guide the change, whether we just stand back and watch the change happen, or whether we are in fact taken for a ride by the change. How we get there is somewhat debatable, the exact path, and that as I said is part of this integrated planning process we need. There is no question in my mind that we will significantly reformat what it is actually like on campus. The neighborhoods around campus here are going to change substantially. The connective tissue between the campus and those neighborhoods and the greater Columbus area and the state for that matter is going to change very substantially. It is going to change in ways we have not even been anticipating when you look at how much of our learning would be distance learning, all of those other changes that happen. I think this plan gives us a framework. It gives us an attitude and it gives us a direction, which if we really spend the energy going forward. We will be very well served by the plan and it will in fact really serve the institution that we all have tremendous respect and admiration for. With that I invite any questions from the Board or the audience.

Mr. Jurgensen:

Ron, one thing, and I know that this is on everyone's radar screen, and it is really sort of embedded in the last principle under campus life, and it is tough for a former Nationwider to use this expression, but Ohio State really needs to be a good neighbor. Like a good neighbor....

June 18, 2010 meeting, Board of Trustees

Mr. Ratner:

Excuse me; I would like to hear you say that again.

Mr. Jurgensen:

I could not even get it out the first time. So there are things that we are doing that the original impetus was inward looking in the campus, and then as we got further and further into it, we realized that this campus has four natural borders, and there are a lot of things going on in each one of those borders - so a huge effort to the east and totally reinventing a neighborhood - Weiland Park, that is a major community initiative with lots of people involved in it. We have a huge infrastructure issue in a road sense to our south, 315 and Goodale, that interchange if not carefully thought through will choke us off to the south. In some ways, I and my former colleagues at Nationwide are guilty of this, we have a billion dollar investment going on in Grandview that was not informed, nor did it really inform what is happening here, it should have. The city has its own views of what happens in the north end of the area district and Neil Avenue, not informed by this, and neither does this inform that. So it is all happening independently, and I grew up in a campus environment in Omaha, Nebraska, Creighton University, where we went through a similar effort and paid spectacular attention to the campus proper, but inadequate attention, and what ended up happening was, we built a college island, and the city and everything that happened around it basically closed it off because challenged neighborhoods is in some ways a euphemism, but it is a real set of issues in there. I just continue to encourage that we bring those border communities and efforts into this because like you said, this is a 20, 30, 40 year deal, so mayors will come and go across that timeframe, city councils will come and go, civic leaders will come and go, but the plan needs to live on. So the more of that we get others to own what we are doing here, and we are not building redundant facilities with what is being built in other parts of the city by looking out not just in, will be good for all of us. I know I am not raising it as if it has been missed; I am raising it only to emphasize how critical this is going to be.

Mr. Kaplan:

We do not want to take a lot of time to respond, because I think you are right, we appreciate your underscoring it because it has been missed in other plans and Sasaki called that to our attention as did Ron, because he has firsthand experiences as a developer. So we indeed have tried to meet with the city every quarter, we have met with Battelle on at least two occasions and as Ricardo said we met with 16 neighborhood groups. In order to translate that into action and make sure that when we build, we build in conjunction with their plans is something that we cannot forget.

Mr. Jurgensen:

My last point would be, and again I want to just say this to everyone in this room that may not be aware of what you have done, but meeting with groups to tell them what we are doing is not meeting with groups.

Mr. Kaplan:

We have tried to listen as well, point well taken.

President Gee:

I think that your point is critical because in 1990 I inherited the bad business of the University. We were probably the worse neighbor in America. We sucked the oxygen out of our neighborhoods and did not give a damn, and we have paid a huge price for that. At least the experiences that we have learned from, and now I do applaud

June 18, 2010 meeting, Board of Trustees

both what you say, it is not us informing people what we are doing and it is actually trying to coordinate. We have got a number of those things going on but we need to be better. I think now that we have our own framework, we need to be aggressive in pursuing that. I just might note as an astric, I am glad that you said that mayors come and go and city council come and go, you did not say that university presidents come and go - I am grateful for that.

Mr. Jurgensen:

They do, they just come back.

Mr. Dumont:

Totally agree with everything, and I think the great challenge for this Board is to make that relationship happen. Like any relationship between two individuals or two great institutions like the city and the University, everyday counts; interaction every day, back and forth listening to achieve that idea.

Mr. Jurgensen:

What is hard about it and Les and I have worked on this a long time, Ohio State now has the framework for a really brilliant master plan, the city of Columbus has none. Eventually that needs to be fixed, or their lack of one will influence in a negative way ours.

Mr. Ratner:

The other time that does happen here, I think we can really set a new example. The work we have done and the work that Ricardo mentioned, these were not normal sessions, this was really a series of meetings in which we really began to try and create sort of a mutual vision of what could happen with groups that are on the ground and groups that care about everything from their neighborhoods to their facilities, whether it was the owner of 75 units of housing east of High. We have a coherent plan and we really reached out in that plan. We talked about connections and the not only physical connections but the people connections if you will. We have detailed ideas of strategies for how to interact with our neighbors to sort of move some of those ideas forward. We can change that relationship. We had a very poor one and I think we have a very good one now, but again, you go across the country, and Ohio State is not alone in having challenged neighborhoods surrounding a great university. It is remarkable to me, as you go across the country, how many great universities have challenged neighborhoods, so there is something in there that we need to understand better. I think we do understand it better, but the work it is going to take to go forward with that, if you think about just the different areas in which we need to exert great energy. Transportation planning at a very large scale, a bold idea that says we are going to move 5,000, twenty percent of our faculty and staff are going to live adjacent to campus, that changes a lot of the fundamental nature about transportation planning in the region as well as just in the city. There are a lot of those ideas, informative ideas, and we can also be a workshop for how this can transpire across America. It needs to. Some of the ideas that are embedded in this plan in concentration of activity are inherently sustainable. Those ideas, if we really can begin to work with the city, with the other stakeholders will also not only create better edges for ourselves, but I think those ideas can be transformed in terms of the city itself as it looks at its planning and thinks about what Columbus can be. I am thrilled by that, and your comment is supportive of a strong initiative and a plan.

June 18, 2010 meeting, Board of Trustees

Mr. Wexner:

I would like to do this as a significant issue and just go around the Board table, if anybody has any questions or comments. This will be reoccurring work, regularly at Board meetings, hopefully forever. If there is input, or comments, this is not the beginning of the end; this is the beginning of the beginning, so everything is appreciated.

Mr. Marion:

Thank you, Mr. Chairman, for this opportunity and thank you for presenting this. It really demonstrates also some of the actual commitments that our faculty make to their research and what they are doing. The idea of having roads over rivers right now, is what we got, is so counter to what we teach and what we share with people around the world. That really brings me to a concern, and it really is the transportation planning. So much of this project relies on connections that have to be made and those people connections that occur and in order to really create the walking campus which is really an attribute of the best campuses in America. We have got to get the cars out of the central campus area, and how do you do that without negatively impacting the quality of life of our faculty and staff and creating situations where they are spending an hour of their day getting to their office or their laboratory or even with our patients getting in and out of the hospital. Moving the cars and getting a transportation route that is able to move people quickly highly depends upon getting 315 straightened out. It really depends on getting our state partners, our regional planning commission and our city all coming together to correct that. Our green space corridor that runs right along the Olentangy River depends on getting 315 straightened out, the Kinnear Road interchange so much depends upon that particular main artery through our city. We really need to emphasize to the Ohio Department of Transportation and to our region and to our state leaders how important it is to get that issue resolved. I really believe that it is a key hinge point for this project to be really successful. It has to happen, with the leadership around this table, you all have relationships with some of these folks I hope, and it needs to happen, 315 has to be addressed significantly. That is my one diatribe.

Dr. Wadsworth:

I liked all the principles I heard, and we have been working on this and Battelle is very supportive, so great principles behind what I heard.

Ms. Kass:

I think it is a very purposeful plan and a very practical plan, and I encourage it to continue in that way. I think the neighborhood, not to be repetitive, but the neighborhood east of campus, it is an area to really focus on. It is real important that we are good neighbors and that is encompassed in this plan, so great work.

Mr. Schottenstein:

I appreciate that, Mr. Chairman. I think that this probably represents, and I do not know if I am right about this, but really the first attempt at master planning at this University since the Omstead Brothers designed the original campus one hundred and some years ago. I think what that underscores is how planning matters, because the concept of creating an oval around which key academic buildings, capped off by a library, would represent a great learning environment to this day. As you said, Ricardo, very eloquently, the oval is one of the more iconic places, not because of the buildings but because of just the intangible aesthetic of it all on this campus. From that time until today, everything in between, as many of us have said, meeting after meeting after meeting, for lack of a better word, has been spot zoning and spot

June 18, 2010 meeting, Board of Trustees

planning, but rather is a development. This is really planning. It is in some ways perhaps one of the most important things this Board has engaged in, in the five years since I have been on this Board, and perhaps one of the most important things that this Board will do over a period of time. Clearly this is a long process and it is going to take enormous discipline and stick to it by those that follow us. It is a complete embodiment of the notion of One University. You cannot have One University without a plan. I am so encouraged by how it was not a spot plan, if you will, just as one building can be spot zoning, this plan could have been a spot plan, but you have looked out and Jerry's comments underscore the importance of continuing to do that.

The inventory that we took of everything we owned and its condition, I have to believe, and I am hopeful that there are people out there right now updating it weekly, if not daily or else that document will gather dust. Right now it is probably one of the most useful planning tools we could have ever conceived, and I give great credit to Ron and you and everyone that has been involved in this for knowing and doing that. I just want to say the concept and I know I am repeating what has been said, but no net new space is extraordinary and I think that that is a great ah ha, and a great principle that we have to remind ourselves of constantly. The idea of emphasizing civic infrastructure, just again to capture what Ron said at the beginning, that it is what happens between the buildings, along the walkways and the pathways and the signage and the trees and the soft scape that give the campus a romantic and warm feel. I am just very, very supportive and excited about this, and I think it is a great powerful thing for Ohio State.

Mr. Hicks:

Very good presentation. We have seen a series of very good presentations on this now for a long time, so I am always struck every time we see the presentation, how beautifully blue that river is, and I look forward to seeing that beautiful blue river. I wanted to comment on one of the things that Bobby said because I know you sort of glossed over it very quickly, because it is not strategic, but it is more of a management tool. The database that you guys built and the knowledge tool that is available in terms of the mapping is really, really, really important. Since I have been on this Board we have been talking about deferred maintenance and nobody really has a good idea of what and how much deferred maintenance is out there. We kind of pick locations for buildings based on some instinct, but really not on a basic management tool database. I am just very impressed. When I saw it at the presentation, of course I was asking you to sort this for me, sort that for me, because I was really fascinated by the different ways that you could use the data, and it is critical as Bobby said that we keep that up to date, otherwise it will not be useful. Just congratulations on it. The other thing that I think as Ron really pointed out, I like that this is a framework. It is not a static plan, but it is a framework and it is a series of guideposts because this is obviously going to be very long term, so thank you for the presentation.

Mr. O'Dell:

Thank you, Mr. Chairman; I am thrilled with the work and the vision. When I think about this, coupled with the transition to semesters and moving the sophomores on campus, I think it is just a fabulous opportunity to really create a 24-hour living environment and I look forward to the day when the students have living space, no quads, no gang showers, high quality living space, all air conditioned into the future of this University with that great plan.

Mr. Borrer:

I too echo this plan as being very well done and very thoughtful. We are all very excited about this plan and look forward to its implementation, but I look back on the

June 18, 2010 meeting, Board of Trustees

perspective of time. When I was at this University in the mid-70's it is very interesting, there were some new buildings, there were some things that have sprouted up, but if you look at the general University, very little has changed. This plan is a transformative plan, and it will take us years and years to accomplish this, but when I come back here 25 years from now, after I am off this Board, hopefully I make it to 80; I expect to see a good portion of this plan, in some form or another, implemented. It is incumbent upon us to make sure we keep this plan alive, keep it fresh and keep it moving down through the Board as the Board changes and evolves over time. Again, I applaud your effort. Thank you.

Ms. Swain:

I want to start with saying thank you. A group that you did not mention that has been very involved is the students, and we thank you for that. Even without me prodding, you said as the processes goes on, we will continue to involve students in the process, and this has not been telling the focus groups and the committees what is going to happen, it has been a two-way street, and we thank you for that. There is a lot of excitement on campus amongst the students and the communities about what is going to happen in the next 25-50 years, but there is also excitement and then something, the slide with the five principles in action is something I think is really important. From ProjectONE, to the infrastructure changes, which I think are exciting, seeing One University, better signage, better way finding on campus, those principles and action I think are really important to the plan.

Dr. Cloyd:

I would just echo thanks, and really outstanding work. I think it is very impressive that we kept all of the work mission-driven and focused, as several have noted, to really coming up with a framework and focus to principles that will guide us in the future instead of just simply moving to a current space development plan. The only other point I would make is, particularly as we think about the west campus, we have had some really good commentary of what we are going to have to do as we think of being partners on the civic front and with neighbors. This is really going to require us to be able to take our partnering and consort ability to an entirely new level from where it is today. I would just simply say that we need to acknowledge that as a challenge. We have before us, and I am really very thankful that over the last year this partnership with Battelle has been built, and we really look forward to even some more help now in that process from Dr. Wadsworth, because we have done well today, but we have to move to a higher plane and that is the only way we will achieve the vision we got, with what we can do, particularly with the west campus area.

Mr. Jurgensen:

One last thing, I think it was a point Bobby made about net new space, is interesting. If you look at the picture, you do not just look at the green and red, you look at the higher altitude view that extends all the way through downtown. No net new space can apply to more things than just academic on a broader community way.

Mr. Kaplan:

Well taken, and even within the campus. I should point out that within the context of this study, what we really focused on first were academic buildings, but the concept and the plan will be to look at all of our other space and then beyond. But we are not there yet, but the principle I think is important, so thank you.

June 18, 2010 meeting, Board of Trustees

Dr. Reid:

I appreciate the elegance of this and certainly the intelligence, but also the heart and soul that you put into this in consideration of the people and interactions of human beings. Much of what I would want to say has already been said, the only thing I have is, great finding, and you know that's my worse demise. So make it clear and easy and simple.

Mr. Ratner:

There will be a hitching post right out here.

Mr. Kaplan:

Ron has been beating on us for that and rightfully so. We have a lot of work to do.

Mr. Brass:

Thank you, Mr. Chairman. Job well done. While this plan was being developed over the last couple years, we were paralleling ProjectONE. We intentionally took a stop, if you remember to look at financial feasibility, to look at facility design, to take a look at location of various buildings. Had we not stopped, we would have had buildings on the other side of the river, had we not stopped we may have had some of our research in a different location than what the plan calls for. We worked very closely with Ricardo and Jeff and Ron and we are living proof that the framework works, because we ended up with a much better project, and I think that is going to be tested with the breaking ground this afternoon, so I think framework will have short term implications, long term implications and I love the title of the slide "Knowledge City." I do not think there are very many other academic centers in this country that have developed the database to provide the knowledge to make good decisions on an ongoing basis and what this plan calls for. Thank you.

Mr. Fisher:

Thank you, Mr. Chairman. I think this footprint is a great opportunity for us to reinvent and redefine the land grant mission for this century. Let's talk about sustainability. This has components of food, water, environment, energy, our own carbon footprint. It is all about rural/urban relationships, our own city within a city and in fact what I really like is the great opportunity to utilize all the campus attributes; the oval, the river, the green space, and how we can both learn and enjoy what we have.

Mr. Shumate:

Mr. Chairman, two quick comments. Number one to thank you, as the other Trustees have said, for such an excellent effort, and I do want to also thank you because I know that you have been reaching out to the city and to the community and that the city is well intentioned in this area, and I encourage you to continue to lead the discussions with the city and the support and effort. Also, very pleased to hear you tie this physical plan to the overall value proposition of the University, pleased to hear you say our goal is to continue to deliver the best education for the least amount of dollars. I think that is a very important focus for us in all that we do as a University, so thank you very much, and I say amen to all the comments of my fellow Trustees.

President Gee:

Well, I will be very quick. As you know I am very invested in this plan. I think that in many ways it is something that I tried to get my arms around during my first tenure. I was just not wise enough to quite figure it out. There is a lot of wisdom that has

come out of this discussion over the last several years. I think today that Dr. Dutta said it best, when we talked about the fact that we turned this whole thing on its head, and I am looking at my academic colleagues over here, we have basically said we will never build another building at this institution. We are going to build great programs and we are going to create space in which those programs will be accommodated. A totally different way of thinking about it, which I think really repositions the University in a very powerful way. I think Jerry's point about connecting to all of our communities is actually essential. If we do not do that we will fail. We cannot become an island isolated in our grandeur; we have to really make the difference. In some ways, I think, because we now have a very robust plan, we can really drive our connections. It no longer is one of those things, well what are you doing and what are we doing, and we will talk. We really can drive that. And then, the final thing, we really do need to acknowledge that this was very centered on vision and leadership. Jeff Kaplan has done a remarkable job in terms of shouldering the responsibility for this from the University administration point of view, and I just want to acknowledge that. Ricardo, I joked with Ricardo today, when Ricardo started this, Ricardo is kind of the quintessential east coast New Englander guy, and came in as a consultant, but now he is really one of us. We think of him as one of us, and we want to continue that relationship, this is, as our chairman said, the beginning, we do not drop it, we pick up the pace. Ron, the extraordinary leadership you have provided for this. You know, Mr. Chairman, we have great expertise on this Board, when you think about Alan, today we are celebrating ProjectONE because we had someone who really understood the nature of the academic medical centers and we were able to drive that. We are celebrating what we are doing today in terms of this framework process because of the fact that we had someone, who as Ricardo said, happens to be part of a business that sets the standards for quality in this country doing precisely what we are doing. I think the partnerships that we have; we celebrate today too, so I just wanted to acknowledge that.

Mr. Wexner:

I will take a piggy-back on what Gordon said about Ron, in terms of leading this and doing the work. I think it is a reminder, a teaching moment for the Board. It does help to have somebody on the Board who is an architect and a planner and experienced. I am a civilian in ideas about planning, and Ron is a professional. He has seen things at this scale, looks at this scale, so having a subject matter expert on the Board, guiding a process and working with world class resources helps. And also the internal staffing, whether it is the support of President Gee, Jeff is working it for about three years and everybody working it, the process to date has been, I think, one that we should look to in pattern of committee responsibility, work done by the committee members of the Board working with the committee and contributing as the work stream went through. And as it continues to go through, so it was not a formal readout at a Board meeting, but ideas that were worked inside, outside, with communities and getting as much work done in the most effective manner as possible. It is kind of a sentimental moment for me just thinking about it. As my urban geography professor, Dr. Hunker, I'm sure is smiling down, cannot believe that I am part of this. I can remember him painfully sitting in Hagerty Hall, and Henry Hunker saying, I cannot believe that you would think about this because you are not an architect and you are not a planner, and then sadly he gave me a B+ because he did not think I did the work that I produced. It was plagiarized and having professional help. I feel somewhat redeemed.

To the serious part, I think it is important to take some time about this, not belittling Dr. Gabbe and people in the medical profession, but what an architecture says when doctors make mistakes, they bury them, and when architects and planners make mistakes we live with them for sometimes hundreds of years. The things that come from physical structure, how they integrate with society, whether it is a university society, a state society, are really reflections of thinking, almost always by well-

intended people, and almost always get it wrong. So I think we should not take the bait of being self-congratulatory for having done the world's best work, but be challenged by, that this is a work in process and this is very hard work and we have come a long way fast, but this is really the tough stuff. If I look back a decade, just a decade, not to the whole history of the University, we have probably spent in capital in excess of \$5 billion and will spend, in the next decade in excess of \$5 billion, maybe closer to \$10 billion. So from just a capital point of view, the financial resource that we allocate shows up in structures and roads and utilities and repairs and maintenance, and fixing johns and painting things is a significant responsibility and as always, probably from year one, the resources are meager compared to all the other things that people want to do. The interconnection and the view of our future, our financial present and future, our academic present and future, our development present and future, student life present and future, academic life present and future, the community that we are connecting with present and future, of the neighborhoods of the city, the state and how we think about it, we are making very big strategic decisions and by their nature they have to be iterative because no one predicts the future accurately. We can look around at well intended planners and Trustees that have proved to be what now would appear to be pretty silly parking lots and some really silly inefficient buildings. But they were well intended and they thought they matched the future. So I think where we are is at a great moment, but I think a daunting one and the progress that we are making in physical planning is I think very much to be recognized. It is in parallel with financial planning, academic planning, the strategic planning of the University, and it comes together in intangible ways, streets and roads and neighborhoods and buildings. This is a manifest station of integrated longer terms and hopefully we have a more accurate view.

I also believe, going through planning processes in different major streams of the University is that planning is reflective, it is patient, it has to be correct and I think one of the frustrating things for us, in particularly for me, very often is judged by what you do not do, perhaps more important than what you do. So the ability of boards to pause, to reflect, to stop and to think to make sure we have got it as close to right as we possibly can is a daunting challenge. The notion of coming back in 25 years and people wondering why we did this, and us being proud, or some of us being proud, is really a 30-50 year challenge where people will probably look back and hopefully say they got it right, or the alternative, what the hell were they thinking. I think that the iterative nature and the insightful nature of what we are doing, whether you measure it in dollars impact, and the looking back, understanding the present and hopefully having a reasonable view of the future. This is what boards should do, in financial planning, in strategic planning and academic planning. It is just squishier because you do not see it. It is more invisible and I think we are making progress and I think at least in this subject we are at the beginning of the beginning.

The last thing about planning, and it came up in the meetings we had the last several days, is that it is ongoing because none of us can predict the future. We cannot predict the technology that will obsolete fossil fuel precisely, or if and when all cars will be electric or hydrogen or if all people will want to walk to campus or fly to campus or parachute to campus or whatever it is. Or what subjects will be in adjacency and what subjects will be obsolete, but yet it is our job to make the best decisions we can and to this murky future. I am coming back to this particular stream of work, we are making progress, and we are getting better everywhere.

Again, thank you to Ron Ratner for the work that has been done and is continuing to be done on planning. Let's shift into Committee reports, and I would like to begin with the Committee on Trusteeship, Alex.

COMMITTEE REPORTS

Mr. Shumate:

Thank you, Mr. Chairman. Yesterday in our meeting we continued our discussion regarding the restructuring of our Board Committees. As you know we are on a mission of aligning the structure of the Board with the strategic priorities of the University. As a result of the discussion and the analysis coming from our meeting yesterday, I do have a motion that I would like to offer for the Board to approve. It is a motion to create an Advancement Committee. The Committee is described in the material under the tab, Committee on Trusteeship. It is bringing together the development, alumni relations, communications, and marketing functions into a Board level committee so that we can strategically focus on the policy and the strategy and planning necessary for this very important function of the University. So I would move for the creation of that Committee, and I would note, Mr. Chairman, consistent with your directive, we are also eliminating a committee, in that this committee will replace the Development and Investment Committee.

CREATION OF ADVANCEMENT COMMITTEE

Resolution No. 2010-99

The Advancement Committee shall consider and make recommendations to the board on matters of policy and strategy pertaining to University development, alumni relations, communications, marketing and related efforts to foster positive relationships with students, alumni, and other key audiences, provide multiple opportunities for engagement, and generate involvement with and support for the mission of the University. The Committee shall advise relevant University officers and monitor progress, performance, and the integration of development efforts, alumni relations, communications and marketing strategies.

Membership:

5 members of the Board of Trustees
2 members of the Alumni Association governing board
2 members of the University Foundation

Administrative liaisons:

Senior Vice President for Development
Senior Vice Preside for Alumni Affairs
Senior Vice President for University Communications

All members of the committee shall be appointed by the Chairman of the Board in consultation with the chair of the committee in accordance with Board procedures.

The Alumni Association will nominate their representatives for a 1-year appointment, renewable for up to 3 years, and forward those nominations to the Chairman of the Board.

The University Foundation Board will nominate their representatives for a 1-year appointment renewable for up to 3 years, and forward those nominations to the Chairman of the Board.

Additional non-trustee members may be appointed to ensure expertise in marketing/communications area.

Upon motion of Mr. Shumate, seconded by Mrs. Kass, the Board of Trustees adopted the foregoing motion by a unanimous show of hands.

Mr. Wexner:

A motion has been made and seconded, discussion, questions?

No discussion? Comments, cheap shots, something.

Mr. Schottenstein:

I like the no net new committee concept.

President Gee:

I will make a comment. This is again in the spirit of reinventing and reorganizing the University. This has been a long journey, 130 year journey, and it really culminates the fact that what we were saying was - unlike most public institutions which really have taken the notion that there are separate communications, development and alumni programs, that we are really going to align ourselves in a way that allows us to use the mass of the institution to power. Having it culminate in this Board committee is enormously important.

Dr. Cloyd:

Two quick comments I would make. First of all, I would really like to thank our fellow Trustee, Linda Kass, who has done such remarkable work to help bring all of this together and the constituents. I do not know how many hours you have put in on this Linda, but I know it has been a large amount and it really is some great work and we appreciate it. I guess the only other thing I would say, and some of us have had some conversations about this and it builds on what Gordon just referenced. This really is an important new opportunity for the University as it sees itself and it sees how it will engage with all of the various stakeholders of this University. While we have all known the Buckeye passion and are very pleased by that, we have had strong philanthropic support in the past and we try to get our message out about Ohio State. This new configuration both at the Board level that mirrors what is being done within the University, I think opens the opportunity to take us to an entirely new plane of engagement broadly about Ohio State. Gaining support for Ohio State including dollar support for Ohio State and enhancing the recognition of this University.

Mr. Wexner:

It causes me to think a second that we are eliminating a committee and creating a new stream of work, which is a vital sign that we are changing and adapting. I am just wondering from the 10,000 or 20,000 foot level, what kinds of benefits do you see in the future from this and the work we are doing as the Board and through the University.

Dr. Cloyd:

Well, for me I think, at least the vision I develop for it, is number one, people will actually become engaged with Ohio State, where today they may know about it, but they are not engaged. We have a tremendous diaspora that we can leverage, its alumni and also its people who feel this is their University. We have some engagement to date, but largely today. I think you can say a lot of the engagement is around football or basketball or the particular college if there is something going on within the College that they graduated from, but like the kinds of things we were talking about this morning, not really understanding where Ohio State is going, and they cannot engage if they do not really know, or the ability as they get engaged to

June 18, 2010 meeting, Board of Trustees

fully leverage the skill base of the diaspora. Even if we look in the community aspects, some of the things we talk about today if we want to create this knowledge city, we will be able to get the involvement and the participation of people to help us and where we want to go in our mission that we cannot today. The second broad thing is, the branding of Ohio State in a growing context is extraordinarily important, and I think the focus in what we will have with advancement, so that as we, and I will use the word, as we market this University on a broader and more effective base, we will be defining our vision where we want to go, and I think that is a very positive thing in two contexts. It keeps in front of everyone within the University that is helping support where it needs to go, have a clarity of the vision of what we really want to be, and then secondly in all of our actions our staffing efforts, our program efforts, making sure we are directed. It is a way to deliver the big promise of what this University can do, but then ensuring that we deliver on that promise. I think this Committee and the work within the University now allows us to do that.

Mr. Shumate:

I would be remiss if I did not thank Archie Griffin for both the vision and the leadership in terms of bringing, in a wholesome way, the Alumni Association forward to be an important part of our efforts going forward. And today, as you know, we are voting not only for him to be the President of the Alumni Association but a Senior Vice President of the University. It is very important in terms of advancing our efforts to acknowledge the very important leadership role that Archie and his staff played in this process.

Mr. Griffin:

Thank you, Alex, I really do appreciate that, and do want you all to know the Alumni Association's standpoint. We really look forward to the future because I think our future is really, really bright. Having the opportunity to engage the broader base of alumni, I think is going to be great for this University, so thank you all so very much for giving us the opportunity.

Mr. Wexner:

Thank you. Any other questions, comments. A motion has been made and seconded. All in favor say yes. Any opposed?

Done, thank you very much.

Bob, do you want to report for Audit and Compliance?

Mr. Schottenstein:

Sure, Mr. Chairman, thank you. About two years ago the Audit Committee, which at that time was a relatively new Committee of this Board, expanded its scope and took on compliance has been discussed at previous meetings, and yesterday's meeting was a very good example of that as almost all of our agenda consisted of compliance related matters. The first part of the meeting we received a very thorough update on business continuity, which is a very significant challenge, particularly in light of things like what was witnessed at Virginia Tech and the flooding at Iowa, and studying and using those as examples to test our readiness. I think the members of the Committee were very comforted by the work that is being done, not just within Ohio State, but it is a very collaborative model. This is probably one area where trade secrets are irrelevant, if one university has a better approach, or one institution has a better approach by all means, there is a great desire to share, and Ohio State is involved with a number of universities in sharing practices to promote readiness in all sorts of ways, not just the two that I mentioned that had occurred at the other universities.

June 18, 2010 meeting, Board of Trustees

We received an update which you can see in your Board books. The internal audit work plan which is a risk-based five year plan. There are those units or departments that are audited on an eternal basis annually, those that are audited every three years, those that are audited every five, and we received an update from our chief internal auditor, Mr. Patton, concerning that plan and the members of the Committee were very satisfied with it.

We also got a very through update from General Council, Mr. Culley, concerning a variety of affiliated entities. Several that I will note, one the Alumni Association, which is in the process of now becoming, following up the comments that we just heard from Mr. Shumate, a newly formed affiliated entity. Modifications to the governing documents relating to the affiliate, Pelotonia, which hopefully everyone has signed up to ride in, and if you have not we will be contacting you. I am wearing my Pelotonia hat, but seriously we talked about the modifications of the governing documents for Pelotonia that now reflect the new board structure which is in itself a reflection of the change in major donors and major supporters for Pelotonia. We also briefly discussed a number of other affiliate, one that I will mention since it was mentioned by President Gee earlier, Metro School, which is performing admirably and we discussed a number of matters relating to the funding, financing, and governance as well. That concludes my report.

Mr. Wexner:

Questions, comments?

There was some discussion just to emphasize that the audit part is important and the compliance part is important, and I think we referenced quickly the problems, whether it's the oil spill or the problem Duke University had or USC had, there is no compliance and the damage financially and the reputation when there is not compliance is how significant it is. I am underscoring that publically because the conscientiousness not only of the Committee but of the University and the sensitivity to these issues that go both about integrity and audit and integrity and compliance, playing the game by the rules. Do you want to speak at all Bob about the Trustee team for Pelotonia and how you are captaining it?

Mr. Schottenstein:

I have a great co-chair, the wife of our chairman, and I have no doubt that that team will be well staffed, but let's just see a show of hands, how many have signed up to ride in Pelotonia?

Truly, since you asked, as of this morning over 2,400 riders have signed up, which exceeds the total that rode last year. The goal is 5,000, all proceeds, due to the generosity of a number of major donors, Limited Brands, Huntington, Richard Santulli and his wife, there are several others, but those are the three main ones, once again all proceeds will go directly toward cancer research if in fact we are successful in getting 5,000 riders, and we will. As much as \$8 to \$10 million would be turned over to the James. I see Dr. Gabbe nodding his head. Last year he had the distinction of being the only tandem rider with his wife, and it is just a fantastic thing, anyway you asked it, so it is very worthy of our support for so many reasons, and it is also grassroots fundraising which is something that allows us to capture incremental dollars.

Mr. Wexner:

I surprised Bob with the question but I really wanted to advertise the notion because whether it is how we think about doing the community and physical planning or social planning or any engagement, we have with the broader community, not just Columbus but the state, Pelotonia is a way, and I really hope that 100% of us either

June 18, 2010 meeting, Board of Trustees

ride, volunteer, and give financial support to Pelotonia. The unusual commitment has come, and demonstration of an unusual commitment has come from Huntington, and they have guaranteed, as close as one can 1,000 riders, so that means not only are they as an organization wanting to come together for a fun event, and they are using the Pelotonia as a way of creating energy within the Huntington Bank organization, but in support of the University and support of the community, and I am really evangelizing off of their model in my own enterprise in New Albany and any constituent group. I think it is a wonderful way to market the University to build an engagement model between businesses and social organizations and suburbs and neighborhoods, and at the end of the day, we hope to raise \$8 or \$10 million a year for the James - at least \$8 million this year and maybe \$10 million next year.

Mr. Schottenstein:

I appreciate the chance to talk a little more about it if I may. For those that do not know, this is modeled after what is probably the single most successful one day, really two day fundraisers in the United States, called the Pan-Mass Challenge, which has been going on in excess of 25 years maybe even close to 30 now. The Pan-Mass Challenge last year turned over in net proceeds to the Dana-Farber Cancer Hospital in Boston, \$35 million from this one and a half day event. In our first year we raised \$4 million for the James. It took the Pan-Mass Challenge about 15 years to get to that point. It might have been a little longer, so we are off to an extraordinary start and this is something that I think can become almost a symbol of community and University and just city spread, it is just great.

Mr. Wexner:

Community challenge is the Michigan game.

Mr. Schottenstein:

Huntington, by the way, they have 1,000 as a challenge. I think as of today they have close to 400, and of course our own University is determined not to let Huntington out do us and hopefully Ohio State will end up with a minimum of 1,000 riders. Honestly, when you look, leave the students out for a moment, just take the faculty and staff, and if we just capture a small percentage of that.

President Gee:

We are up to about 500 right now; yeah we are about 500 right now. I say this to my colleagues, we as a University cannot expect to have support from the people of this community if we do not support ourselves and this is one of those things or events that we really do, and of course it is a fabulous event anyways. It will fast become one of the most significant events in this country and of its kind. I have two nephews who read about it and did not even know it was affiliated with their uncle, and they have signed up because they are great bike riders and so I think that is important.

I will say one thing, and if I just do this as a side note because I am sorry I am taking a little air time here, but this is important. This University has always shown significant support for itself as part of a larger community effort. We have done tremendous things in terms of the United Way and others we have been involved in, but a very significant supporter of that. The thing that I am most proud of, and Jonathan Hook is right there, he co-chaired our drive this year. We raised \$6.3 million internally. As a matter of fact, the staff had a 44% participation rate, largest amount of money ever raised by a University for its own internal campaign. So we can then turn to the people and say we support ourselves, and that is what Pelotonia is also about.

June 18, 2010 meeting, Board of Trustees

Mr. Wexner:

I am just haggling between strategy of the University, financial things, community, state support, Medical Center, marketing development and Pelotonia and just putting it into a bundle. This will get national publicity. It is much more than a bike race, it's the little kids riding, it's not just the Lance Armstrongs or the Lance Armstrong want to be, it is really a community, family fun day and there are lots of ways to participate even if you do not put your tail on a hard bicycle seat.

President Gee:

I had my ride already worked out. The Gabbes ride a tandem bike and I hook a side car onto it.

Mr. Wexner:

That provides a perfect segway to Alan Brass and Medical Affairs.

Mr. Brass:

Thank you, Mr. Chairman. I think I need to adjust the budget upward, in Pelotonia, as it relates to funds available. I think it is a great program. There is a lot of good news coming out of our Medical Center and our health sciences. Yesterday we had a robust agenda and on the consent agenda are four major items to be approved today, and I will sort of recap quickly where we are. As many of you had stated already the groundbreaking is this afternoon at 3:00 pm, ceremony is from 2:00 pm to 4:00 pm. At 3:00 pm is when we are actually going to cut the ribbon and say a few words. I would be remiss if I did not thank our faculty and executive staff who have done a yeoman job getting the project to this point. Someone mentioned graduation, I think it was our President, and at graduation we had 199 new doctors that graduated from the Medical School, and the good news is that 50% of those are staying in Ohio and the better news is 25% of those are staying at The Ohio State University which is really speaking well of our residency program, and that means 50% of those graduates are likely to stay in our state. So I think that is really good news coming out of our own school.

We always take a look at our scorecards as it relates to our finances and to our ProjectONE, since it is such a large project, and I am happy to tell you that the scorecard is looking very good. We will be focusing on development as we have discussed before. We have a benchmark of raising \$56 million by December 31, 2011. We have raised \$16 million already, we have another \$32 million of assets out there right now, but we have to stay very focused.

When we started ProjectONE because of the magnitude of this, and since it in fact is carried by bonds through our University, we brought in Deloitte twice to take a look at our long-range financial plan and feasibility work. In following that, we brought in Kaufman Hall and just recently we brought Kaufman Hall back again in light of healthcare reform. At the Medical Center Board and at the Medical Affairs Committee we basically heard report outs on the Kaufman Hall, and the bottom line is that this country is going to have revenue reduction impact as it relates to health delivery system, there is no doubt about it, whether you look at Medicare, Medicaid or whatever. The good news, in light of all the pieced parts of healthcare reform, Kaufman gave us a very good report. We are ready and dealing with a number of issues. They are not saying that we are done because the impact will never be done, but I think it is one of those things that make us all feel a lot better. The fourth report out, as it relates to the financial plan, feasibility work, and so on, is getting a good light.

June 18, 2010 meeting, Board of Trustees

Now, in light of that, one of the authorizations today is to take to the next stage, ProjectONE, and that is one of the authorizations today. It is a big one, \$294 million of additional construction. This is the biggest piece as it relates to acquisition of equipment, elevators, steel, additional foundation work and so on. The cash flow of this will take us out over the next 18 to 20 months. The good news is that of the \$82 million of contingency that we have on the project, we have virtually spent very, very little to date. All of the indicators on ProjectONE are looking very good. The next funding level will be in October. The way we set this up is every six months we will come back to the Board as cash was needed in order to continue the project, but this is the big one which is the \$294 million request.

I think the next item I wanted to highlight was that the 2011 budget is in the consent agenda today. The 2010 forecast looks very strong for the Medical Center and for the health system. I think we will finish June 30, meeting or exceeding every one of the budget parameters. In 2011 we will meet or exceed every one of our long range financial goals. And, very quickly, to put in the right perspective, we have added a few more beds to the current hospital, currently running 1,185 beds. I do not think there is room to add any more beds, so we will be seeing that probably as our bed count until we open up ProjectONE. We have in fact increased our days cash on hand again, and I remind you, just four to four and a half years ago we were sitting at 50 days cash on hand, which was low for a medical center. Today, where we are right now is we have increased our days cash on hand from \$50 million to \$250 million and we will add another \$20 million this next year as part of this budget cycle, that will get us very close to where our comfort zone should be. I think strategically we will take that to about \$300 million and then in fact I think we will have a good base upon which to run an operation.

Our debt service is running at 6.2 and our EBIDA will be 11.2. Now I highlight those only because those are a part of a master financial plan all the way through ProjectONE, so this entire budget is hitting or exceeding those critical benchmarks. All of our indicators are up in this budget from the standpoint of admissions, especially ambulatory, which brings me to the next item that is on the consent agenda.

We have a strategic ambulatory plan that was adopted a number of years ago. The Medical Center and the Medical Affairs Committee heard yesterday a request to acquire another building to continue to expand the ambulatory that is the VA building that is over on Taylor; it is actually about four blocks away from our OSU East Hospital. We are going to acquire that building upon our approval. We are going to renovate that building and we will be housing Dr. Calhoun, the orthopedic, the spine program, primary care, and dental for the neighborhood. It is part of our program that President Gee has talked about before as it relates to the community and reaching out and helping, but it is also going to be part of our ambulatory plan. I remind you that the ambulatory plan is growing another line percent this year which takes us to 1.1 million patients being seen in our ambulatory structure. That will continue to grow at about 100,000 to 125,000 patients a year - the way the plan is scheduled to go. That is why it is so important when we look at ProjectONE - to make sure the framework, the roads, the access parking and so on was done correctly.

I think we have a view of the building on the agenda; the ProjectONE expansion on the agenda; and the last item that we have is there are 15 new members being added to the Hospital Boards or the Medical Center Boards. They are under tab two in the consent agenda. They have been approved by the respective hospitals, the Medical Center Board and the Medical Affairs Committee. So there are four agenda items today for approval, Mr. Chairman. They have been reviewed and approved by all levels of the organization up to this point. That will conclude my report.

June 18, 2010 meeting, Board of Trustees

Mr. Wexner:

Thank you. Questions, comments about Medical Affairs?

Linda, anything? Ron?

I have a question, when you get to this \$300 million, what would that translate to with days cash as you projected into the future revenue.

Mr. Brass:

As the revenue goes up, of course we will be at \$1.8 billion of revenue this year, Les. So as we go up, we will probably be hitting close to \$120 - \$125, right in that range, and that is a good number for this academic center.

But as in raw numbers, going from \$50 million to \$250, and moving up again another \$15.

Mr. Wexner:

Obviously the financial structure of the University is intermingled with the financial structure of the Medical Center, so the days cash that the Medical Center has is days on cash that we have, paying attention to their reserve is our reserve, and we backstop them. We are kind of the Medical Center's fed if you would.

Mr. Brass:

You know I probably should mention one other item and it is really critical to just that very point. This day in age, medical centers, especially academic ones, are struggling. We in fact are moving the ball forward and I think that we are moving very effectively. The bottom line on operations last year was \$123 million, this coming year we will be up close to \$132 million. That is very important for our University, some of which will drop in the days cash; some will drop into additional programs and be available for our University as a whole. Good report I think coming from our stand.

Mr. Wexner:

The significance of the Medical Center, from a financial point of view, its' a lot of our capital, it's a lot of our business from the financial point of view, so we should all feel like we have an understanding and are comfortable with the report of the Medical Center. I like the long range shot, or master planning process. We are all encouraged to go to their meetings, no tickets are necessary.

Bob.

Mr. Schottenstein:

Mr. Chairman, I was going to mention the steering report in Fiscal Affairs but since we are talking about it now. First of all we also received a detailed report in Fiscal Affairs on the scorecard that Mr. Brass referred to and there is no question that the Medical Center performance is very strong, right now, particularly the operating gain this year as you suggested, which is budgeted to be around \$130 million, and there is tremendous emphasis on growing days on cash and there are a lot of things that could impact that, not the least of which is external fundraising, with the creation of the Advancement Committee and other things we have talked about, the importance of fundraising and really developing a robust fundraising model to enhance. The only point I wanted to make was the revenues of the Medical Center are budgeted over the next several years to go from around \$1.6 to \$1.7 billion today to close to \$2

billion. If you just think that there will be around on average \$2 billion a year for the next four years, the standard that we are holding ourselves in terms of our EBIDA which is really our profit margin, is a minimum of 10% and a maximum of 12.5%. A couple ways to look at it, that I think at least help me, by the way a margin of 10% is a very good margin, and no one should ever be distressed with making money at a 10% margin, on the other hand the difference between 10% and 12.5%, 2.5% on \$2 billion is \$50 million a year, or \$200 million over a four year period, or 20% of the cost of ProjectONE, just to give some context and perspective. That is one side of it, but the other side is equally true, if you go from 10% to 8%, the sensitivities, you know things move in \$10 million, and \$20 million and \$50 million increments, and we have excellence performance right now. And my point in making this is not to suggest that we don't, it's just to provide at least for me some dashboard kind of benchmarking, as to what these things really mean. If we are 10%, which is great, if we are at a 12.5% margin, we have covered 20% of the cost of ProjectONE in just the next four years in terms, if we go the other way, you can do that math too. That is the only thing I would add.

Mr. Brass:

Bobby, I think that is a very important point because I mentioned under healthcare reform, revenue is going down, it is not going up, so it means we have to do one of three things. We either have to control our expenses to maintain, or we have to enhance our revenue through new programs and expanded programs, or we have to enhance development. And the answer to the riddle is we have to do all three, otherwise we will have an impact on that, and otherwise it will impact that bottom line and it will not produce what is needed for the academic structure.

The last thing, with permission, Les, would be, John Stone, who is the Chief Financial Officer of the Medical Center, is retiring, and this was his last report out this time. We recognized him, and I would just like the Board to know that we are in the process of recruiting a new CFO. We did say thanks to John Stone, I do not know if he is here today, but Steve, maybe you can carry our thanks back to John Stone as he is finishing a distinguished career. That ends my report.

Mr. Wexner:

Thank you very much. Any other comments or questions?

Next I would like to call on Wally O'Dell.

Mr. O'Dell:

Thank you, Mr. Chairman. Yesterday afternoon the Development and Investment Committee met. First we received a report from Mr. Jonathan Hook. Mr. Hook presented an update on the long-term investment pool with official results through the first ten months of the fiscal year, through April, and unofficial results through May. Through April the investment returns of the pool were up 21.6% for the fiscal year, the month of April was up 2.6%, which continues the string of positive results for the pool. Unfortunately the month of May was a very negative month for the investment industry with most of the major indexes down at least 8%. Over the month the performance of our pool was down 4% which points to some of the diversification in risk management practices that we have been implementing in the portfolio.

Through May, 11 months of the fiscal year, our returns to date are a positive 16.8% which is nearly 600 basis points above our portfolio benchmarks. On May 31, funds in the long-term investment pool stood at \$1.87 billion. The portfolio has ample liquidity and is within the bounds of its target asset class ranges. The portfolio is well

June 18, 2010 meeting, Board of Trustees

positioned for the possibility of a volatile period of time with low return environment over the next year, and we continue to look at ways to manage the risk portfolio.

Following the update report Mr. Hook presented two revisions of the Long-Term Investment Policy. We had the first reading at the previous committee meeting. The two issues were discussed, which entailed two benchmark changes to be effective in Fiscal Year 2011, and two wording changes to several paragraphs to make each consistent with the other. Following discussions of the changes the Committee considered and approved the amendment of the Long-Term Investment Pool Policy, which is item number nine on the consent agenda, however I am tabling it and removing it from the consent agenda for today's meeting.

After Mr. Jonathan Hook, we received the University Development Report from Mr. Peter Weiler. Peter shared that April was quite an outstanding month for new fundraising commitments. In the last week of the month alone, our fundraisers signed three planned gift commitments with donors for \$12.2 million. However, through April, total gifts were \$220.4 million, down 7.8% from the same time last year, reflected a difficult external environment. Most outstanding in April numbers were planned gifts which were up 37.7%, that is a familiar trend when the economy goes down, planned gifts go up, which is why planned giving was a primary focus for this year for our fundraising team.

Annual giving dollars meanwhile are up through April by 4.6%. The momentum also continues for ProjectONE as well as for the Students First Students Now Campaign. The total raised for Students First, Students Now stands at \$70 million, or 70% of the \$100 million goal for the initiative with just a little over 50% of the time elapsed. Those numbers are including a generous \$5 million pledge from Gib and Lou Reese to create the next generation challenge for scholarships on the Newark Campus. They are doing a two to one match for new and increased gifts, and a one to one match for existing gifts. That challenge will run through June 30, 2012. Total philanthropic receipts through April were \$171.2 million, down 10.5% from the same time last year. As of June 15, we were at \$202.4 million in philanthropic receipts, and Peter estimates finishing the year around \$215 million.

Peter also recognized three significant commitments made since April 30. A \$5 million estate commitment to create endowed chairs in Law and Food, Agricultural, and Environmental Sciences, bringing the total number of \$5 million plus commitments this year to eight, a record number of gifts at that level. The \$2 million estate gift for the endowment of a Chair in Small Animal Surgery in the College of Veterinary Medicine, and a \$2 million planned gift to endow a position in the James Cancer Hospital and Solove Research Institute which brings the number of gifts of \$1 to \$4.9 million to 21 this year.

The Committee also approved the establishment of 11 endowed funds and two revisions which are the result of gifts totaling \$2.9 million. As several other people have already mentioned, Pelotonia season is in full swing, and we should all consider riding or supporting someone who is. It is in its second year and will be August 20 – August 22, and every dollar raised supports cancer research at the James Hospital and Solove Institute. Mr. Chairman, that concludes my report.

Mr. Wexner:

Thank you, Wally. Questions, comments?

Doug.

Mr. Borrer:

Thank you, Mr. Chairman. We had three reports before our Committee yesterday. We first heard a presentation from Vice President for Research, Carol Whitacre. She briefed the Committee on a number of interdisciplinary strategies that are advancing research and education.

These strategies include our ten Targeted Investments in Excellence, as we have heard before, it is a five-year \$110 million program begun in 2006 to promote research impact in crucial areas to our University. Other strategies include the more recently established Centers for Innovation and Innovation Groups which are meant to focus multidisciplinary approaches on issues of global dimension. Two Centers for Innovation have been created thus far, each with funding of \$750,000 a year for five years. Three Innovation Groups will receive \$20,000 a year for three years. Dr. Whitacre also discussed Ohio State's Centers of Excellence. To date, four of our five Centers of Excellence have been named statewide centers in focus areas identified by the Board of Regents. So far the Board of Regents has only named four areas and there are two left to go, and we have a great opportunity to be named in those also.

Next we talked about, that in response to the 2008 doctoral program review, the environmental and life sciences are being reconfigured to better support educational and research efforts. A primary goal in this is to increase external funding of graduate and research programs in these areas.

The Committee next heard from Chief Information Officer Kathleen Starkoff, who discussed the University's eLearning strategy. The term "eLearning" which was relatively new to me, applies to a learning environment that is supported by technology from the most basic, which are classes that feature supplemented online, to the most extensive, where a course is taught entirely through eLearning. Research has shown that students strongly prefer a combination of both face-to-face instruction as well as distance learning.

To date, Ohio State's technology services have not positioned us optimally against our peers. In response, two teams were created: one to find four strategic imperatives and twelve objectives that address eLearning leadership, educational excellence, faculty support, and technology. The other team prioritized eLearning investments. Next steps include promoting the teams' recommendations through the "Year of eLearning" launched last month to strengthen interest and expertise in teaching and learning with technology. In addition this committee has formed three other areas going forward. A standing eLearning steering committee will be established to oversee the implementation of recommendations. The Office of the CIO and University Libraries will work with the Office of Academic Affairs to ensure that implementation proceeds in a timely manner and improved coordination and collaboration will advance the adoption of our eLearning experience.

Dr. Joseph Steinmetz, Vice Provost for Arts and Sciences and Executive Dean of Arts and Sciences, next provided the Committee with an update on the consolidation of the five colleges of the arts and sciences into one college of arts and sciences. We are very pleased to announce that the process culminated in a vote on May 27, unanimously, which I think is practically unheard of by our University Senate formalizing the faculty's intent that all five colleges be united. This, as we have spoken about earlier, is a great step for our University and something that we should be very, very proud of. I especially thank our President for taking great leadership in this along with the rest of your team. I think it took a lot of courage and a lot of great leadership for us to get there.

Finally, Vice Provost Randy Smith presented us three resolutions for our consent agenda; the establishment of the Colleges of Arts and Sciences, amendments to the

June 18, 2010 meeting, Board of Trustees

Rules of the University Faculty, and the naming of the Nationwide and Ohio Farm Bureau 4-H Center. Additionally our meeting concluded with a pretty good sized list of routine personnel actions for chairmanships, professorships and chairs. Mr. Chairman, that concludes my report.

Mr. Wexner:

Doug, thank you. Questions, comments?

Dr. Reid:

This is just a comment on the eLearning part and being in the meeting yesterday. It was delightful for all of us to learn new terminology, but I think the more important thing is that this is a type of learning that students are increasingly demanding because this is how they have grown up, with this kind of technology. So I think it is a great thing that the institution as a whole is undertaking this and I think Provost Alutto said it is the year of eLearning, so I am looking forward to seeing what kind of technology comes forward considering how young people think, how their minds are wired and you know how this type of knowledge delivery can enhance their learning. I am really excited about it.

Mr. Wexner:

Bob, it is your turn again.

Mr. Schottenstein:

Thank you, Mr. Chairman. The Fiscal Affairs Committee met yesterday and there are eight items that were unanimously approved that would be on the consent agenda. Several have already been referenced by Mr. Brass that very significantly relate to our Medical Center.

The first item we approved concerns user fees and charges. This program, if you recall that back in May we recommended and approved tuition increases, and in concert with that, yesterday we also approved the increase of four user fees and charges. First, room and board fees being increased by 5.5%, we approved increases in selected existing program fees and new laboratory fees which are outlined in the Board books. Health System charges were increased by 3.3% and parking fees were increased by an average of 5%. A lot of time, meetings, discussions with student groups and so forth, benchmarking both vertically and horizontally went into the recommendation that was presented by Mr. Chatas for these fees and charges increases and as I said the Fiscal Affairs Committee unanimously approved it and it will be on the consent agenda.

Also, on the consent agenda was our approval of the interim budget for this current fiscal year. The final budget for Fiscal Year 2011 is not yet done. It will be completed between now and the September meeting and at our September meeting we will be asked to approve it on an interim basis. We have essentially extended the budget for Fiscal Year 2010 bringing the line items forward for the next 60 to 90 days to allow for approval of University wide operations.

A new item, which was presented by Mr. Chatas, involved the Fiscal Affairs Committee giving authority to our Office of Finance to buy, sell and sign and transfer securities. In the past this has always been done on an as needed-by-project basis. Given the interest rate environment we are in, and to provide for more flexibility and really agility, we gave authorization to our Office of Finance to act as necessary based upon the market, keeping in mind at all times that the amounts of bonds and or commercial paper, which may be issued, would have to be in line with the caps that have been previously approved and in all instances there would at least be

discussion with the Chair of Fiscal Affairs and or the Board. But, this flexibility is something that we think will make us a little more nimble and allow us to hopefully make better decisions, given that our Board does not meet on a monthly basis and decisions sometimes need to be made more frequently than every other month.

We also authorized the Entering into of Professional Service Contracts and Construction Contracts. One of them related to a lot of infrastructure work that is going to be done along 17th Avenue, the other related to the very significant and important ambulatory project which Mr. Brass mentioned, which is the former Chalmers Wylie VA Hospital on Taylor Avenue, which will now become a very significant ambulatory care center for Ohio State, anchored by orthopedics and other things. In addition to approving the Entering into of Professional Service Contracts for that work, we also authorized the Purchase of Real Property, the terms of which Mr. Brass talked about. It is slightly in excess of \$11 million, we will then be simultaneously terminating the long term lease for the VA and in order to terminate that lease, or to allow the VA to terminate that lease, they will be paying Ohio State \$2.5 million so that the net purchase price is slightly in excess of \$8 million. That acquisition of the Taylor Road site, which the members of the Committee are very excited about, will be on the consent agenda.

We also approved the granting of easements to the City of Columbus that will allow for handicap ramps between the streets and sidewalks to be placed at every curbed intersection from 12th Avenue to Woodruff. That construction will be taking place over the next coming months assuming that this Board approves the granting of that easement. The City of Columbus is doing that work. I believe it is the city.

Finally we approved the health system budget again that Medical Affairs had previously vetted and approved. We had a lot of discussion about that and we lastly ratified and approved the release of \$294 million for shovels and commencement of work. The only point I will make on that, other than I think it is a great day for Ohio State, is that the approval of ProjectONE several Board meetings ago was not a traditional approval, and so on a periodic basis, I think it is every six months, the Medical Center will be coming back, the status reports will be frequent, but they will be coming back as funds are needed to build the project – a very important thanks to the great work by President Gee and others in this room that allowed for construction reform. The very important construction management agreement with Turner that will provide for a guarantee maximum price which will be the first time ever probably that Ohio State has ever built a project that way because I do not think we ever could before - that is being signed within the next several days. It is essentially done and it is just a matter of the last “t’s” and “i’s” being crossed and dotted, but that is a very good thing in terms of knowing the legal structure for construction that the financial controls that protect Ohio State, and as Mr. Brass mentioned, the \$82 million contingency is essentially untouched at this point and so that authorization to release that \$294 million will also be on the consent agenda.

That concludes my report.

Mr. Wexner:

Question, comments for Bob.

Mr. Marion:

Mr. Chairman, thank you. I was thinking about the easement and its perpetuity and was just trying to think, with changes in leadership and different things are there temporary easements available. I have been thinking a little bit about that, and it is a very important piece of property along High Street and 20 feet is still a pretty substantial amount of land, and it was something I was thinking about after the committee meeting yesterday. It is a no-brainer they are going to be providing great

June 18, 2010 meeting, Board of Trustees

services to our students and our faculty and our staff. We need to be ADA compliant, but I did not know if there was such a thing as a temporary easement or what are some possible alternative land uses in that area. It was just a thought that crossed my mind yesterday evening.

Mr. Schottenstein:

My understanding of the documents is that the temporary part is for construction. It is a permanent easement and the ramps, once in, are intended to be permanent and required, in terms of Americans with Disabilities Act (ADA).

Mr. Wexner:

Thank you. Before we move to the consent agenda, what I thought I would do is see if there were any other working groups or other groups, or committee reports that would like to say something, then we will go to the consent agenda, and then we will have a chance to go around for further comment before we adjourn the meeting.

I do not know if there are any of those general interest things that might interest people.

Mr. Shumate:

Mr. Chairman, just very quickly, we did in the Trusteeship Committee authorize the formation of the Investment Advisory group, I forgot to mention that. But for informational purposes, for the Board, this group will move forward to establish itself to provide oversight and advise the Vice President and Chief Investment Officer of the University. Also I would like to invite all of the Board members to attend a special meeting of the Trusteeship Committee where we will be discussing and analyzing the Fiscal Affairs Committee's functions to see if we should establish a Finance Committee with sub committees. It is a very important discussion, and I ask the Board Secretary to get that notice out to all of the members, because we do want to move forward with updating and revitalizing our committees. These are very important functions and we want the input of as many people as possible.

Mr. Wexner:

Any other work in process?

I thought about asking that question, I asked myself, on the Board there are five members of the Columbus Partnership; Jeff Wadsworth; Bob Schottenstein; Gordon; Alex; and I am, and the partnership is very supportive of Central Ohio, the state, and of course the University, and we had a meeting last week in Washington with the Ohio delegation including both of our senators and our congressional leaders. We all take the opportunity when we are meeting with mayors and other people in government at a state and local level to remind them about the importance and the size and influence of The Ohio State University, and we say things like, do not forget we are the population center of North America, and we are a major city in and of ourselves, so when you think about political action, not only the people that live and work in this city, but in our suburbs which are the alumni and friends of the University around the state. That has particular significance when something like new frontier is proposed. That legislation is proposed in the state and the President of the University and support of the University comes out in full force in favor of that kind of legislation, which we believe is good for the state and benefits the University. We also talked about how we believe an increasingly number of new electives are beginning to say back to us that you are the economic engine, not just the universities are, but The Ohio State University is the economic engine and our focus on technology and research and technology and now tech-transfer innovation is kind of music to their ears because they see that connection to the economic

development and the love for the state. More vividly now than they did and this has a very broad reach. We talk about ourselves as a biomedical center, not just the hospitals of Ohio State University, but Nationwide Children's, the other hospitals in central Ohio, the medical research that Battelle does, and pretty regularly talk about the partnership with Battelle and The Ohio State University and the general area. How significant that is to economic development and attraction to new businesses and retention and growth of businesses. I am prompted to say that because it is not exactly a committee of us, but five of us who are on the Board, are members of a committee that evangelizes for us, and I think that it is important that periodically what we are saying and what we are doing maybe should be calendared because I think it is an important force for the benefit of the community and the whole state. That is what we are doing. We can talk offline if you want to get the details of it, but we are doing better in that in terms of evangelizing on behalf of the University and getting credit in marketing the University that should be known.

-0-

CONSENT AGENDA

President Gee:

Thank you, Mr. Chairman. Let me just add to that and say that we are very fortunate to have a very committed business community that is very much tied to this institution and vice versa. It may be worth some kind of conversation amongst all of us on the Board and with them. So we will just think about that, but I would like to follow through with that.

Today we have a total of 18 resolutions on the consent agenda. Item number 13, entitled Authorization to Buy, Sell, Sign and Transfer has been changed to the Authorization for the Issuance of Additional General Receipt Bonds and with the recommendation of Mr. O'Dell, we are removing item number nine, the Amendment to the Long-Term Investment Pool Policy. We are asking for a separate vote on the ONE Ohio State Framework resolution, therefore, we are seeking the approval for the following:

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 2010-100

Synopsis: Approval of the following amendments to the *Rules of the University Faculty* is recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the *Rules of the University Faculty* as approved by the University Senate; and

WHEREAS the proposed changes in the *Rules of the University Faculty* were approved by the University Senate on May 27, 2010:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments to the *Rules of the University Faculty* be adopted as recommended by the University Senate.

(See Appendix LII for background information, page 1073.)

June 18, 2010 meeting, Board of Trustees

RATIFICATION OF APPOINTMENTS TO MEDICAL CENTER BOARDS

Resolution No. 2010-101

Synopsis: Ratification of appointments to Medical Center boards is proposed.

WHEREAS in June 2009, the Board of Trustees authorized the president of the University to take actions necessary and appropriate to appoint members to the Medical Center Board, the University Hospital Board, the University Hospital East Board, the OSU Harding Hospital Board, the James Cancer Hospital Board, and the Ross Heart Hospital Board; and

WHEREAS all members of these boards shall be appointed in accordance with Board of Trustees Bylaws 3335-93-01 and 3335-104-01, and in consultation with the president of the University:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby ratifies the following appointments, as designated by board and terms of appointment, made by the president pursuant to the resolution adopted by this Board in June 2009:

Medical Center Board

Cheryl Krueger – effective July 1, 2010 through June 30, 2013

Stuart Sloan – effective July 1, 2010 through June 30, 2013

University Hospital Board

Kevin R. Reeves – effective July 1, 2010 through June 30, 2013

Shirley Rogers-Reece – effective July 1, 2010 through June 30, 2013

James Cancer Hospital Board

Richard Butera – effective July 1, 2010 through June 30, 2013

Sander A. Flaum – effective July 1, 2010 through June 30, 2013

R. Guy Cole, Jr. – effective July 1, 2010 through June 30, 2013

University Hospital East Board

Anne K. "Nancy" Jeffrey – effective July 1, 2010 through June 30, 2013

Sue E. Zazon – effective July 1, 2010 through June 30, 2013

Gene T. Harris – effective July 1, 2010 through June 30, 2013

OSU Harding Hospital Board

Eddie Harrell, Jr. – effective July 1, 2009 through June 30, 2011

Charles A. Schneider – effective July 1, 2010 through June 30, 2013

Ross Heart Hospital Board

Yaromir Steiner – effective July 1, 2010 through June 30, 2013

Daphne Bell – effective July 1, 2010 through June 30, 2013

REGIONAL CAMPUS BOARD APPOINTMENTS/REAPPOINTMENTS

Resolution No. 2010-102

Synopsis: Approval of appointments to The Ohio State University Regional Campus Boards is proposed.

WHEREAS the Board of Trustees in 1994 approved the establishment of The Ohio State University Regional Campus Boards; and

June 18, 2010 meeting, Board of Trustees

WHEREAS it has been previously stipulated that “the board shall be composed of ten members appointed by The Ohio State University Board of Trustees in consultation with the president of the university;” nine members shall be private citizens; and one member shall be a student; and

WHEREAS the following named individuals have been nominated and selected for appointments/reappointments to the following Regional Campus Boards for the terms as specified:

Marion Regional Campus Board Appointments/Reappointments

Ronald J. Scharer, (Chair) - effective 7/1/2010, through 6/30/2011
Stephen D. Keen (Vice Chair) - effective 7/1/2010, through 6/30/2011
Vaughn E. Sizemore (2nd term) – effective 7/1/2010, through 6/30/2013
Anne K. Spreng (1st term) – effective 7/1/2010, through 6/30/2013
Craig M. Wanner (1st term) – effective 7/1/2010, through 6/30/2013

Newark Regional Campus Board Appointments/Reappointment

Michael Cantlin (1st term) – effective 7/1/2010, through 6/30/2013
Diane S. DeLawder (1st term) – effective 7/1/2010, through 6/30/2013
Richard L. Gummer (3rd term) – effective 7/1/2010, through 6/30/2013
Laraine Tumblin (student) – effective 7/1/2010, through 6/30/2011

NOW THEREFORE

BE IT RESOLVED, That the foregoing nominees be approved as members of the respective Regional Campus Boards for the terms specified.

**DEGREES AND CERTIFICATES
SUMMER QUARTER COMMENCEMENT**

Resolution No. 2010-103

Synopsis: Approval of Degrees and Certificates for summer quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on August 29, 2010, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

June 18, 2010 meeting, Board of Trustees

**NAMING OF A BOARD ROOM
IN THE NATIONWIDE & OHIO FARM BUREAU 4-H CENTER**

Resolution No. 2010-104

Synopsis: The naming of the board room, room 150, in the Nationwide & Ohio Farm Bureau 4-H Center, located at 2201 Fred Taylor Drive, Columbus, OH.

WHEREAS the Nationwide & Ohio Farm Bureau 4-H Center is a facility for youth, adult volunteers, community organizations, and all other Ohio State University partners; and

WHEREAS Professor Emeritus Beatrice J. Cleveland served for 32 years as a dedicated faculty member of the Ohio State University Extension including many years in the State 4-H Office; and

WHEREAS Dr. Cleveland has been an outstanding volunteer and advocate for the 4-H program for over 65 years with tremendous accomplishments in programs, major fund-raising, and public relations; and she served 4-H at the national level by participating on the National 4-H Policy Committee, the National 4-H Foods and Nutrition Development Committee, and the National 4-H Foundation; and

WHEREAS Bea Cleveland's volunteer fundraising activities resulted in over \$1 million for the 4-H Foundation Endowment, and she has given generously to the 4-H Center and plans to make future gifts to the 4-H Center via her estate:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned board room in the Nationwide & Ohio Farm Bureau 4-H Center be named the Bea Cleveland Board Room.

ESTABLISHMENT OF THE COLLEGE OF ARTS AND SCIENCES

Resolution No. 2010-105

WHEREAS the Arts and Sciences are the intellectual and academic core of The Ohio State University, and of distinguished universities worldwide; and

WHEREAS the current structure of a federation of 5 colleges has not produced the results desired since its establishment in 2003; and

WHEREAS the new structure of one college with three divisions – arts and humanities; natural and mathematical sciences; and social and behavioral sciences – is expected to:

- ensure a unified, effective voice for the Arts and Sciences for stronger leadership within the University;
- strengthen academic programs, assuring and reinforcing the quality of graduate education, the undergraduate curriculum, and undergraduate advising;
- enhance interdisciplinary opportunities for faculty and students and promote collaborative relationships that strengthen both individual units and the whole;

June 18, 2010 meeting, Board of Trustees

- provide for an administrative structure that is efficient, effective, and less costly, and enable significant resources to be redirected to academic programs; and

WHEREAS in adherence to Faculty Rule 3335-3-37, the Council on Academic Affairs established an ad hoc committee to review the proposal, and that committee voted unanimously to endorse it; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and the University Senate at its meeting May 27, 2010:

NOW THEREFORE

BE IT RESOLVED, That the establishment of the College of Arts and Sciences be effective immediately.

(See Appendix LIII for background information, page 1080.)

PERSONNEL ACTIONS

Resolution No. 2010-106

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the May 14, 2010, meeting of the Board, including the following Appointments, Reappointments, Appointments/Reappointments of Chairpersons/Directors, Professional Improvement Leaves, Emeritus Titles and promotion, tenure and reappointments, be approved.

Appointments

Name: DAVID A. CRESSY
Title: Professor (The King George III Professorship in British History)
Department: History
Term: October 1, 2010, through September 30, 2015

Name: PRABIR K. DUTTA
Title: Distinguished University Professor
Department: Chemistry
Effective: July 1, 2010

Name: THOMAS K. GREGOIRE
Title: Dean
College: Social Work
Term: May 1, 2010, through June 30, 2015

Name: ARCHIE M. GRIFFIN
Title: Senior Vice President for Alumni Relations
Office: Alumni Association
Term: July 1, 2010, through June 30, 2015

Name: ELLEN MOSLEY-THOMPSON
Title: Distinguished University Professor
Department: Geography
Effective: July 1, 2010

June 18, 2010 meeting, Board of Trustees

Name: HOWARD H. SOKOLOV
Title: Professor – Clinical (The George T. Harding III, MD, Endowed Chair in Psychiatry)
College: Medicine
Term: January 5, 2009, through December 31, 2012

Reappointments

Name: ROBERT R. BAHNSON
Title: Professor (The Dave Longaberger Endowed Chair in Urology)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: THOMAS M. BEST
Title: Professor (The Warner M. and Lora Kays Pomerene Chair in Medicine)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: CLARA D. BLOOMFIELD
Title: Professor (The William Greenville Pace III Endowed Chair in Cancer Research)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: DONNA A. CANIANO
Title: Professor (H. William Clatworthy, Jr. Professorship in Pediatric Surgery)
College: Medicine
Term: July 1, 2010, through September 30, 2010

Name: CHING-SHIH CHEN
Title: Professor (Lucius A. Wing Chair of Cancer Research and Therapy)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: LARRY J. COPELAND
Title: Professor (The William Greenville Pace III and Joann Norris Collins-Pace Chair for Cancer Research)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: CARLO M. CROCE
Title: Professor (The John W. Wolfe Chair in Human Cancer Genetics)
Center/Hospital: Comprehensive Cancer Center/The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute
Term: July 1, 2010, through June 30, 2014

Name: ALBERT DE LA CHAPELLE
Title: Professor (The Leonard J. Immke, Jr. and Charlotte L. Immke Chair in Cancer Research)
Center/Hospital: Comprehensive Cancer Center/The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute
Term: July 1, 2010, through June 30, 2014

Name: E. CHRISTOPHER ELLISON
Title: Professor (The Robert M. Zollinger Chair in Surgery)
College: Medicine
Effective: July 1, 2010, through June 30, 2014

June 18, 2010 meeting, Board of Trustees

Name: WILLIAM B. FARRAR
Title: Professor (The Arthur G. and Mildred C. James-Richard J. Solove
Chair in Surgical Oncology)
Center/Hospital: Comprehensive Cancer Center – The Arthur G. James Cancer
Hospital and Richard J. Solove Research Institute
Term: July 1, 2010, through June 30, 2014

Name: JEFFREY M. FOWLER
Title: Professor (The John G. Boutselis, M.D. Chair in Gynecology)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: M. RONALD GLASER
Title: Professor (The Gilbert and Kathryn Mitchell Chair)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: CHRISTOPHER C. KAEDING
Title: Professor – Clinical (The Judson D. Wilson Professorship in
Orthopedic Surgery)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: MICHAEL V. KNOPP
Title: Professor (The Novartis Pharmaceuticals Corporation Chair for
Clinical Research)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: PERIANNAN KUPPUSAMY
Title: Professor (William D. and Jacqueline L. Wells Chair in Imaging
Research)
Institute: The Dorothy M. Davis Heart and Lung Research Institute
Term: July 1, 2010, through June 30, 2014

Name: HAGOP S. MEKHJIAN
Title: Senior Associate Vice President
Office: Health Sciences
Title: Chief Medical Officer
Center: OSU Medical Center
Effective: July 2, 2010

Name: KWAME OSEI
Title: Professor (The Ralph W. Kurtz Chair in Hormonology)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: JEFFREY D. PARVIN
Title: Professor (The Lois Levy Professorship in Cancer)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: MICHAEL K. RACKE
Title: Professor (The Helen C. Kurtz Chair in Neurology)
College: Medicine
Term: July 1, 2010, through June 30, 2014

June 18, 2010 meeting, Board of Trustees

Name: WOLFGANG SADEE
Title: Professor (The Dr. Samuel T. and Lois Felts Mercer Professorship of
Medicine and Pharmacology)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Name: HANUMANTHA R. UNNAVA
Title: Professor (The W. Arthur Cullman Professorship in Marketing)
College: The Max M. Fisher College of Business
Term: October 1, 2009, through September 30, 2014

Name: PAUL A. WEBER
Title: Professor (The Irene D. Hirsch Chair in Ophthalmology)
College: Medicine
Term: July 1, 2010, through June 30, 2014

Appointments/Reappointments of Chairpersons/Directors

RICHARD L. BLATTI, Interim Director, School of Music, effective July 1, 2010, through June 30, 2011.

RUDOLPH G. BUCHHEIT*, Chair, Department of Materials Science and Engineering, effective July 1, 2010, through August 31, 2014.

CARROLL J. GLYNN*, Director, School of Communications, effective July 1, 2010, through June 30, 2014.

DANIEL GRAY, Acting Chair, Department of Theatre, effective July 1, 2010, through June 30, 2011.

RICHARD T. HART*, Chair, Department of Biomedical Engineering, effective July 1, 2010, through August 31, 2014.

LINDSAY R. JONES, Director, Center for the Study of Religion, effective July 1, 2010, through June 30, 2014.

LAURENCE V. MADDEN, Interim Chair, Department of Plant Pathology, effective June 1, 2010, through June 30, 2011.

LAWRENCE H. NEWCOMB*, Interim Chair, Department of Human and Community Research Development, effective July 1, 2010, through June 30, 2011.

THOMAS E. NYGREN, Interim Chair, Department of Psychology, effective September 1, 2010, through July 31, 2011.

MARIA PALAZZI*, Director, Advanced Computing Center for the Arts and Design, effective July 1, 2010, through June 30, 2014.

RICHARD E. PETTY*, Chair, Department of Psychology, effective July 1, 2011, through June 30, 2015.

ZENCHAO QIAN, Chair, Department of Sociology, effective July 1, 2010, through June 30, 2014.

RESOLUTIONS IN MEMORIAM

Resolution No. 2010-107

Synopsis: Approval of Resolutions in Memoriam is proposed.

BE IT RESOLVED, That the Board of Trustees approves the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Alfred C. Clarke

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 27, 2010, of Alfred C. Clarke, Professor Emeritus in the Department of Sociology.

Born in Milford, Connecticut, Alfred Clarke obtained his M.A. and Ph.D. degrees from The Ohio State University. He served in the 759th Artillery, European Theater of Operations, U.S. Army, in World War II. He joined the Department of Sociology and Anthropology in 1951 and advanced through the ranks to full professor, retiring after 36 years at the University.

Professor Clarke was a fellow of the American Sociological Association, president of the Ohio Council on Family Relations, and president of the American Association of University Professors – Ohio State University Chapter. As a pioneering figure in the field of visual sociology, he wrote the first and leading textbook in the field (*Introducing Visual Sociology*). He co-directed the Visual Research Laboratory at Ohio State and produced the multi-media presentation *Portrait of an American Town*. He was also a charter member of the Leica Historical Society of America and a graduate of the Clarence H. White School of Photography, New York, New York. His textbooks on *Deviance* (Oxford University Press 1975) and *Social Problems* (Oxford University Press 1964) were classics. He was editor of the Appleton-Century-Crofts and Harper's sociology textbook series.

June 18, 2010 meeting, Board of Trustees

During his many years of service to the University, Professor Clarke could be counted on to provide assistance to undergraduate and graduate students, administrators, colleagues, and other members of the University community. He was known as someone who was willing – often on short notice – to serve on M.A. and Ph.D. committees. He was critical to building and maintaining a strong community within the Department of Sociology and the broader University.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Alfred C. Clarke its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

John L. Crites

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 9, 2010, of John L. Crites, Chairperson and Professor Emeritus in the Department of Zoology (now known as the Department of Evolution, Ecology, and Organismal Biology).

John Crites was a World War II veteran who served valiantly in the South Pacific as a noncommissioned officer with General MacArthur in New Guinea and the Philippines. He used the GI Bill to obtain his education including a Ph.D. degree at Ohio State where he studied many of the parasites and diseases he had contracted and worked with during and immediately after the war. He then served his entire career in the Department of Zoology, obtaining the rank of professor and serving many years as the Department chairperson.

Professor Crites taught both invertebrate zoology and parasitology on the main campus and every summer at Stone Laboratory for over 30 years. At Stone Laboratory on Gibraltar Island, he had a very active research program studying the bird and fish parasites of Lake Erie. He also served as the associate director for research at the Laboratory during the 1970s. His laboratory at Stone Lab was one of the most active ever on Lake Erie, producing numerous graduate students who have gone on to successful and influential careers. He was also a prolific author and continued to be published in the top journals in his field during his emeritus years long after retirement.

Professor Crites had a profound effect on the students in his courses as well as his graduate students. His natural curiosity was contagious and his influence on Stone Laboratory and Ohio State University's current Lake Erie research is still very evident. Current leaders in the Great Lakes scientific community refer to courses taken from Professor Crites as both the best and most difficult courses they have ever taken. They refer to Professor Crites as a "model scientist" and credit him for promoting their curiosity and their work ethic.

To create more opportunities for students of the future, Professor Crites and his wife, Phyllis, were instrumental in the formation of the Friends of Stone Laboratory in 1981 and served on the Friends' Board of Directors for many years. Professor Crites was also a talented artist in both pen and ink and watercolor. His former students created the John L. Crites Research Fellowship at Stone Laboratory Fund in 2002 through donations and the sale of his numbered prints of Stone Laboratory buildings. This endowment has supported many scientists and students working at the Laboratory, including over 60 students who have participated in the Laboratory's Research Experience for Undergraduates since 2005. This endowment continues to grow and is part of Professor Crites' lasting legacy and his impact on students, research, and The Ohio State University's influence on Lake Erie science and management.

June 18, 2010 meeting, Board of Trustees

On behalf of the University community, the Board of Trustees expresses to the family of Chairperson and Professor Emeritus John L. Crites its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Nathan Keyfitz

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 6, 2010, of Nathan Keyfitz, Professor Emeritus in the Department of Sociology.

Born in Montreal, Professor Keyfitz had an illustrious career beginning first as a statistician in the Canadian civil service. He then went on to have a distinguished academic career at the Universities of Toronto, Montreal, Chicago, Berkeley, Harvard, and The Ohio State University, where he was the Robert Lazarus Professor in Population Studies. He held a B.S. degree in mathematics from McGill University in Montreal and a Ph.D. degree in sociology from the University of Chicago.

His pioneering work developed the field of mathematical demography and addressed a wide range of topics including population theory, historical demography, mortality, urbanization, forecasting, social security and retirement, poverty, and the interaction of populations and their environment. His text, *Introduction to the Mathematics of Population* became a standard classic statement of the application of mathematics to the study of demography. He authored and coauthored several other widely-used books in the field as well, including *The Mathematics of Population* (with David Smith) and *Applied Mathematical Demography* (with Hal Casswell). His numerous articles appeared in the core journals in demography.

He was the recipient of many honorary awards and was a member of the National Academy of Sciences, the Royal Statistical Society, the American Statistical Association, and the American Academy of Arts and Sciences.

As a colleague Nathan was always willing to share his time in discussing issues, research problems, and analytical strategies with his associates. He was an excellent companion both professionally and socially. He was a genial host and excellent guest. He could stimulate intense heated discussions that engaged all parties in genuine dialogue. Nathan was also one of the first scholars to understand the connection between lifestyles and environmental problems. In doing what he felt was his part, he rode his bicycle between his home and campus office. That trip took nerves of steel and a lot of good luck to successfully cover those two miles which at that time traversed the highest accident area of the city.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Nathan Keyfitz its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Anita R. McCormick

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 8, 2010, of Anita R. McCormick, Professor Emeritus in the Ohio State University Extension.

Professor McCormick was born in 1921 in Otsego, Ohio. She earned both her Bachelor of Science in Home Economics degree in 1947 and her Master of Science degree in

June 18, 2010 meeting, Board of Trustees

agricultural business in 1956 from The Ohio State University. In 1969, she received her Ed.D. degree in adult education from North Carolina State University at Raleigh.

Anita began her Extension career in Ohio in 1951 as the home demonstration agent in Lake County. Six years later, she became the food marketing specialist on the OSU main campus, and in 1960 was named an extension supervisor for Home Economics. A stint as a district program leader – Home Economics followed. She retired in 1981 after spending 15 years in the position of an assistant state leader – Home Economics.

Dr. McCormick's work with the Expanded Food and Nutrition Educational Program demonstrated that she was a truly dedicated teacher for Extension clientele throughout the entire state. She wrote numerous guides and reports on food marketing informational needs and how to purchase and use fruits, vegetables, poultry, and beef. She was a member of and served on many committees of several professional organizations including the Ohio Home Economics Association, the American Home Economics Association, the American Farm Economics Association, and the Ohio Extension Professors Association.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Anita R. McCormick its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2010-108

Synopsis: The University Development Report as of April 30, 2010, is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of the John A. Russell Chair for Communication Excellence, the establishment of ten (10) new named endowed funds, and the revision of two (2) named endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation as of April 30, 2010, be approved.

(See Appendix LIV for background information, page 1092.)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

	<u>Total Gifts</u>
<u>Establishment of Named Endowed Fund</u>	
Bil-Jac Veterinary Nutrition Scholarship Fund (Established with gifts from Bil-Jac Foods Incorporated; used to provide scholarships for students pursuing a D.V.M. degree in the College of Veterinary Medicine) (grandfathered)	\$17,500.00
<u>Change in Description of Named Endowed Funds</u>	
The Wayne and Jane Dalton Scholarship Fund	
The Herman and Pearl Dolinsky Gross Scholarship Fund	
<u>Establishment of Named Endowed Chair</u>	
John A. Russell Chair for Communication Excellence (Established with an estate gift from John A. Russell; used to support a chair position in the Fisher College of Business) (grandfathered)	\$1,843,410.49
<u>Establishment of Named Endowed Funds</u>	
The Ethel Louise Armstrong Foundation Endowment Fund (Established with gifts from the Ethel Louise Armstrong Foundation; used to support and expand the Multiple Perspectives on Access, Inclusion, and Disability Annual Conference hosted by the University)	\$500,000.00
The Harry T. Mangurian, Jr. Foundation Professorship Fund in Business (Established with gifts from The Harry T. Mangurian, Jr. Foundation, Inc.; used to provide salary and research support for a professorship in business)	\$250,000.00
The Samuel L. and Nancy L. Faulkner Ponn Land Grant Opportunity Scholarship Fund (Established with gifts from Samuel and Nancy Ponn; used to provide land grant opportunity scholarships)	\$66,249.25
The Laurel K. Leffler Scholarship Fund (Established with an estate gift from Laurel K. Leffler and gifts from other donors; used to provide scholarship support for students attending the OSU Marion campus)	\$52,276.86
The Dr. Paul E. Panek Memorial Scholarship Fund (Established with gifts from Christine Franklin Panek in memory of her late husband Dr. Paul E. Panek; used to provide undergraduate scholarships to psychology students at the Newark campus who have completed psychological research resulting in publication or a poster presentation)	\$50,000.00
John A. Russell MBA Scholarship Fund (Established with estate gifts from John A. Russell; used to provide scholarship support for students enrolled in the Fisher College of Business)	\$50,000.00

June 18, 2010 meeting, Board of Trustees

The Thomas Family Basketball Fund (Established with gifts from Dr. Donald W. Thomas; used to supplement the coach's discretionary budget of the men's varsity basketball team in the Department of Athletics)	\$50,000.00
The Stone Laboratory Tuition Reduction Fund (Established with gifts from the Friends of Stone Laboratory and private donors; used to reduce the per credit hour cost of tuition for all students attending Stone Laboratory) (grandfathered)	\$28,664.81
The Leesa Hall and Donald M. Kurdziel Family Fund (Established with gifts from Donald M. Kurdziel and Leesa Hall Kurdziel; used to provide undergraduate scholarships to full-time students at the Columbus campus) (grandfathered)	<u>\$25,325.00</u>
Total	\$2,933,426.41

Establishment of Named Endowed Fund

Bil-Jac Veterinary Nutrition Scholarship Fund

It was proposed that the Bil-Jac Veterinary Nutrition Scholarship Fund be established June 18, 2010, by the Board of Trustees of The Ohio State University with gifts from Bil-Jac Foods Incorporated, Medina, Ohio.

The annual distribution of this fund shall provide a scholarship for one (1) student enrolled in the College of Veterinary Medicine pursuing a D.V.M. degree with preference given to a first- or second-year student demonstrating professional excellence in veterinary nutrition. The recipient shall be selected by the dean of the College in consultation with the associate dean of Student Affairs and the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donor, should one be available, and from the dean of the College of Veterinary Medicine.

Amount Establishing Endowment: \$17,500.00 (grandfathered)

Change in Description of Named Endowed Funds

The Wayne and Jane Dalton Scholarship Fund

The Wayne and Jane Dalton Scholarship Fund was established November 30, 1979, by the Board of Trustees of The Ohio State University with gifts to The Ohio State

June 18, 2010 meeting, Board of Trustees

University Development Fund from Mr. and Mrs. Wayne Dalton of Wakeman, Ohio. The description was revised June 18, 2010.

The annual distribution from this endowed fund shall be used to support one or more scholarships to be awarded annually to undergraduate students majoring in dairy science in the College of Food, Agricultural, and Environmental Sciences. Preference shall be given to students with stated intentions to pursue farm-related careers. Scholarship recipients shall be selected by the Department of Animal Sciences scholarship selection committee under guidelines approved by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences and in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purposes, the unused portion shall be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or it may be reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the total University endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, should they be alive, and from vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

The Herman and Pearl Dolinsky Gross Scholarship Fund

The Herman and Pearl Dolinsky Gross Scholarship Fund was established December 6, 1991, by the Board of Trustees of The Ohio State University with a gift from Ronald M. Gross (B.A. 1955) in honor of his parents. The description was revised March 5, 2004, and was revised again June 18, 2010.

This scholarship seeks to assist students who have demonstrated integrity, strength of character, financial need, a good academic record, a commitment to pursue a college education, and a desire to contribute to society.

The annual distribution from this fund shall be used to provide undergraduate scholarships to students who are pursuing degrees from the Colleges of the Arts and Sciences. Each scholarship shall be, at a minimum, equal to one-quarter of the in-state tuition. Applicants should be entering freshmen at the Columbus campus. It is the donor's preference that applicants have a Scholastic Aptitude Test (S.A.T.) score between 1110 and 1220 or an American College Testing (A.C.T.) composite score between 24 and 27.

Recipients will be selected by the Office of Student Financial Aid in consultation with the executive dean of the Arts and Sciences and vice provost. The scholarships shall be based on financial need and shall be renewable based on satisfactory performance. Recipients (1) shall not qualify for merit-based aid, but still exhibit potential for success;

June 18, 2010 meeting, Board of Trustees

and (2) shall not qualify for Pell Grants, but still have difficulty in meeting expenses to attend The Ohio State University. A preference should be given to Ohio residents. Each year the donor or his heirs will be sent a report of the scholarship recipients.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor or his heirs, and from the vice provost for Undergraduate Studies and dean for Undergraduate Education, with preference for scholarship in order to carry out the desire of the donor.

Establishment of Named Endowed Chair

John A. Russell Chair for Communication Excellence

It was proposed that the John A. Russell Chair for Communication Excellence be established June 18, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from John A. Russell (B.S.Bus.Adm. 1966, M.B.A. 1971).

The annual distribution from this fund shall be used to support a chair position focused on communication excellence in The Max M. Fisher College of Business. Appointment of the candidate will be recommended by the dean of the Fisher College of Business to the executive vice president and provost and approved by the Board of Trustees.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the Fisher College of Business.

June 18, 2010 meeting, Board of Trustees

Amount Establishing Endowment: \$1,843,410.49 (grandfathered)

Establishment of Named Endowed Funds

The Ethel Louise Armstrong Foundation Endowment Fund

It was proposed that The Ethel Louise Armstrong Foundation Endowment Fund be established June 18, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the Ethel Louise Armstrong Foundation, Inc. of Santa Barbara, California.

The annual distribution from this fund shall be used to support and expand the Multiple Perspectives on Access, Inclusion, and Disability Annual Conference hosted by the University.

A portion of the annual distribution, not to exceed 20%, shall create the Ethel Louise Armstrong Student Poster Competition, which will take place at the annual Multiple Perspectives conference. Funds will be used to provide for space costs, undergraduate and graduate prizes, the waiver of registration fees for student participants, and honoraria for judges selected from conference presenters.

A portion of the annual distribution, not to exceed 40%, shall create the Ethel Louise Armstrong Memorial Lecture. This plenary session will be free and open to the public, complementing the current Ken Campbell Memorial Lecture on Disability Policy by focusing on innovation and change in disability culture, climate or philosophy. Preference will be given to women with disabilities when selecting a speaker. The selection committee will consist of the faculty coordinator of the University's Disability Studies Program, the chairperson of the Department of Women's Studies, and the University ADA coordinator, or their designees, and a student with a disability selected by the director of the University's Office for Disability Services.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

A minimum of 40% of the annual distribution will be used to support the Conference and its expansion to a second simultaneous location annually by utilizing web-based technologies to share selected presentations and creating a web-based archive of presentations.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the University's Office for Disability Services.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as closely aligned with the original intent of the donor as possible and, as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternative designation, the Boards shall seek advice from the donor (if feasible) and from the ADA Coordinator's Office.

June 18, 2010 meeting, Board of Trustees

Amount Establishing Endowment: \$500,000.00

The Harry T. Mangurian, Jr. Foundation Professorship Fund in Business

It was proposed that The Harry T. Mangurian, Jr. Foundation Professorship Fund in Business be established June 18, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The Harry T. Mangurian, Jr. Foundation, Inc.

Until the principal balance reaches \$1,000,000, the annual distribution from this fund shall be reinvested in the endowment principal. After the principal balance reaches \$1,000,000, the annual distribution from this fund shall be used to provide salary and research support for a professorship in business at The Max M. Fisher College of Business. The Harry T. Mangurian, Jr. Foundation Professor will demonstrate achievement in the area of teaching excellence as well as across multiple dimensions in at least one of the following areas: high quality scholarly research, synthesization of the theoretical work of others, application of research to executive education, and interaction with the corporate community. The dean of the Fisher College of Business may use the position to recruit a new faculty member or to reward an outstanding faculty member in the academic department of the dean's choice. Appointment to the Harry T. Mangurian, Jr. Foundation Professorship in Business shall be recommended by the College's dean to the executive vice president and provost and approved by the University's Board of Trustees.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, should one be available, and from the dean of the Fisher College of Business.

Amount Establishing Endowment: \$250,000.00

Total Commitment: \$1,000,000.00

The Samuel L. and Nancy L. Faulkner Ponn Land Grant Opportunity Scholarship Fund

It was proposed that The Samuel L. and Nancy L. Faulkner Ponn Land Grant Opportunity Scholarship Fund be established June 18, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Samuel and Nancy Ponn of Palm Springs, California.

This fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy.

The annual distribution from this endowed fund shall be equally divided to support two land grant opportunity scholarships. For one scholarship, preference shall be given to candidates who are residents of Ashtabula County, Ohio. For the second scholarship,

June 18, 2010 meeting, Board of Trustees

preference shall be given to candidates in the following order: residents of Murray City, Ohio; the Buchtel School District; or the Rocky River (Ohio) School District.

The scholarship may be used towards the cost of tuition, room and board, books and supplies, and miscellaneous educational expenses for three quarters/two semesters in the given academic year. Scholarships may be renewed for up to 12 quarters/eight semesters or until completion of a bachelor's degree, provided the recipient maintains a 2.8 or higher grade point average. The Office of Student Financial Aid will administer this scholarship fund.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of the Office of Student Financial Aid.

Amount Establishing Endowment: \$66,249.25

The Laurel K. Leffler Scholarship Fund

It was proposed that The Laurel K. Leffler Scholarship Fund be established June 18, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Laurel K. Leffler and gifts from other donors.

Laurel K. Hanley was born on July 27, 1912, in Kent, Ohio. Upon her graduation from Kent State University, she began her teaching career at Central Junior High School in Marion in 1935. In 1942, she met and married Richard Leffler. He preceded her in death in 1944. In 1946, Mrs. Leffler moved to the Cleveland area to become the librarian for Shaker Heights Elementary School. She served that district for 31 years.

The intent of this fund is to support educational diversity at the University, consistent with the University's mission and admissions policy.

The annual distribution from this fund shall provide scholarship support for students attending the Marion campus of The Ohio State University with particular attention to, but not limited to, underrepresented groups who have been accepted for admissions at the University. Scholarship recipients shall be selected by the dean and director of The Ohio State University Marion in consultation with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

June 18, 2010 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean and director of The Ohio State University Marion.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean and director of The Ohio State University Marion.

Amount Establishing Endowment: \$52,276.86

The Dr. Paul E. Panek Memorial Scholarship Fund

It was proposed that The Dr. Paul E. Panek Memorial Scholarship Fund be established June 18, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Christine Franklin Panek in memory of her late husband, Dr. Paul E. Panek, former associate dean, academic dean, and professor of psychology at The Ohio State University Newark.

The annual distribution from this fund shall provide a scholarship(s) that will be awarded to an undergraduate student(s) ranked as a junior or senior who is majoring in psychology at the OSU Newark campus and has completed psychological research resulting in publication or a poster presentation. Scholarship recipients shall be selected by the Newark campus director of Financial Aid in consultation with the University's Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and from the dean and director of The Ohio State University at Newark.

Amount Establishing Endowment: \$50,000.00

John A. Russell MBA Scholarship Fund

It was proposed that the John A. Russell MBA Scholarship Fund be established June 18, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from John A. Russell (B.S.Bus.Adm. 1966, M.B.A. 1971).

June 18, 2010 meeting, Board of Trustees

The annual distribution from this fund shall be used to provide scholarship(s) for a student(s) enrolled in the MBA program at The Max M. Fisher College of Business. Scholarship recipients shall be selected by the College's dean in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the Fisher College of Business.

Amount Establishing Endowment: \$50,000.00

The Thomas Family Basketball Fund

It was proposed that The Thomas Family Basketball Fund be established June 18, 2010, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Dr. Donald W. Thomas (B.S.Agr. 1960, M.S. 1961), of Galena, Ohio.

The annual distribution from this fund shall be used to supplement the coach's discretionary budget of the men's varsity basketball team in the Department of Athletics at The Ohio State University.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the director of Athletics.

Amount Establishing Endowment: \$50,000.00

June 18, 2010 meeting, Board of Trustees

The Stone Laboratory Tuition Reduction Fund

It was proposed that The Stone Laboratory Tuition Reduction Fund be established June 18, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Friends of Stone Laboratory and private donors.

Stone Laboratory offers a program of summer courses every year. Taking courses at Stone Laboratory provides students with a unique experience not available at the University's main campus. Students retain the information longer because of the island location on Lake Erie and the combination of lecture, laboratory, and field experience used in every course. However, summer is also the time that most college students are trying to work and save money for college. This makes taking courses at the Laboratory difficult.

The annual distribution from this fund shall be used to reduce the per credit hour cost of tuition for all students attending Stone Laboratory and thereby ease the financial strain for all students. All expenditures must be approved by the director of the Ohio Sea Grant College Program and Stone Laboratory in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the University's Board of Trustees and the Foundation's Board of Directors as recommended by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the director of the Ohio Sea Grant College Program and Stone Laboratory. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$28,664.81 (grandfathered)

The Leesa Hall and Donald M. Kurdziel Family Fund

It was proposed that The Leesa Hall and Donald M. Kurdziel Family Fund be established June 18, 2010, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Donald M. Kurdziel (B.S.Bus.Adm. 1976, M.B.A. 1977) and Leesa Hall Kurdziel (B.S.Soc.Wel. 1978) of Hudson, Ohio.

The annual distribution from this fund shall provide an undergraduate scholarship to a full time student at the University's Columbus campus. The scholarship is renewable for 12 quarters/eight semesters, or until completion of a bachelor's degree provided the recipient maintains a 2.8 or higher grade point average. This fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donors' desire that a scholarship be awarded alternating between male and female students who have been accepted for admissions at the University. The Office of Student Financial Aid will administer this scholarship fund.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

June 18, 2010 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of the Office of Student Financial Aid.

Amount Establishing Endowment: \$25,325.00 (grandfathered)

FY 2011 USER FEES AND CHARGES

Resolution No. 2010-109

Synopsis: Tuition recommendations were approved at the May 2010 Board of Trustees meeting. FY 2011 user fees and charges at Ohio State Campuses for Fiscal Year 2011 are proposed effective Autumn Quarter 2010.

WHEREAS the Board of Trustees of The Ohio State University supports the University's continued implementation of the Academic Plan and its initiatives to meet the needs of Ohio State students; and

WHEREAS consultations have taken place within the University to determine the appropriate instructional and general fee increases for Ohio State graduate and professional programs, Ohio State room and board charges, Recreation and Physical Activity Center fees, and other user charges for self-supporting units as described in the accompanying text and tables have been reviewed and recommended:

NOW THEREFORE

BE IT RESOLVED, That the Room and Board fees increase approximately 5.5% and existing undergraduate program fees will be increased and new fees implemented as outlined in the attached as presented to the Fiscal Affairs Committee of the Board of Trustees; and

BE IT FURTHER RESOLVED, That the University Health System charges increase approximately 3.3%; and

BE IT FURTHER RESOLVED, That all of these increases described in the attached text and tables shall be effective Autumn Quarter 2010, except where otherwise indicated and charges for the Health System shall be effective July 1, 2010.

(See Appendix LV for background information, page 1097.)

June 18, 2010 meeting, Board of Trustees

INTERIM BUDGET FOR FISCAL YEAR 2011

Resolution No. 2010-110

Synopsis: Approval of Interim Budget for Fiscal Year 2011.

WHEREAS the Current Funds Budget includes the General Fund, Earnings Operations and Restricted Funds budgets for all campuses; and

WHEREAS the Current Funds Budget for FY 2011 continues to be developed; and

WHEREAS it is necessary to continue University operations prior to the time the Current Funds Budget for FY 2011 is finalized and adopted:

NOW THEREFORE

BE IT RESOLVED, That the University be authorized to make expenditures consistent with the level of resources approved for Fiscal Year 2010, until such time the Board of Trustees adopts the Current Funds Budget for FY 2011, no later than the September meeting of the Board.

(See Appendix LVI for background information, page 1104.)

**AUTHORIZATION FOR THE ISSUANCE OF ADDITIONAL GENERAL RECEIPTS
BONDS AND COMMERCIAL PAPER NOTES**

Resolution No. 2010-111

Synopsis: Authorization for the issuance and sale of general receipts bonds and notes in an aggregate principal amount not to exceed \$ 1,600,000,000, for the purposes of financing, on an interim and/or permanent basis, the costs of certain University capital improvement projects, refunding the outstanding principal amount of current obligations of the University, and paying costs and expenses associated with the issuance such debt, and authorization for amendments to the existing trust indenture and other documents as required is proposed.

WHEREAS pursuant to Sections 3345.11 and 3345.12 of the Ohio Revised Code (the "Act"), as enacted under authority of the Constitution of Ohio, particularly Section 2i of Article VIII thereof, The Ohio State University (the "University"), a state university of the State of Ohio (the "State"), created and existing under Chapter 3335 of the Ohio Revised Code, is authorized and empowered, among other things, (a) to issue its obligations to pay the costs of certain "facilities," as defined in the Act, and to refund, fund or retire bonds and other obligations previously issued for such purpose; (b) to pledge to the payment of its obligations all or a specified part of its "available receipts," as defined in the Act (the "General Receipts") in priority to all other expenses, claims or payments; (c) to covenant that the University will make, fix, adjust and collect the fees, rates, rentals, charges and other items comprising General Receipts to produce General Receipts sufficient at all times to meet Debt Service Charges (as defined in the Restated Trust Indenture described below) on the Obligations, to establish and to maintain the required reserves and meet other requirements herein provided; and (d) to provide for a trust indenture and make further provisions for securing the payment of the Debt Service Charges; and

WHEREAS the University, by resolution adopted by its Board of Trustees (the "Board") on November 1, 1985, by resolution adopted by the Board on December 5, 1997, and by a Trust Indenture dated as of November 15, 1985 (the "Original Indenture") as amended by the Seventh Supplement to Trust Indenture, dated as of December 1, 1997 (the "Seventh Supplement"), each between the University and The Huntington National Bank, as Trustee (the "Trustee"), authorized the issuance of its \$79,540,000

June 18, 2010 meeting, Board of Trustees

The Ohio State University Variable Rate Demand General Receipts Bonds, Series 1997 (the "Series 1997 Bonds"); and

WHEREAS the University, pursuant to the terms of a resolution adopted by the Board on October 1, 1999 (the "General Bond Resolution"), amended and restated the Original Indenture, as supplemented, in accordance with the terms thereof, by entering into the Amended and Restated Trust Indenture dated as of December 1, 1999 (the "Restated Trust Indenture") with the Trustee; and

WHEREAS the Restated Trust Indenture provides that Obligations, as defined therein, may be issued pursuant to the terms thereof, with each such issue to be authorized by a Series Resolution, as defined therein, adopted by the Board and secured pursuant to the terms of a Supplemental Indenture, as defined in the Restated Trust Indenture with respect to such issue (the Restated Trust Indenture and all Supplemental Indentures thereto being collectively referred to herein as the "Indenture"); and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the resolution adopted by the Board on November 5, 1999, the Restated Trust Indenture and the First Supplement to Amended and Restated Trust Indenture, dated as of December 1, 1999 between the University and the Trustee, of its \$83,585,000 The Ohio State University General Receipts Bonds, Series 1999 A; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the resolution adopted by the Board on November 5, 1999 (the "Series 1999 B General Receipts Bond Resolution"), the Indenture and the Second Supplement to Amended and Restated Trust Indenture, dated as of December 1, 1999 between the University and the Trustee, of its \$108,000,000 The Ohio State University Variable Rate Demand General Receipts Bonds, Series 1999 B; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on November 2, 2001, the Indenture and the Series 2001 Supplement to Amended and Restated Trust Indenture, dated as of November 1, 2001 between the University and the Trustee, of its \$76,950,000 The Ohio State University Variable Rate Demand General Receipts Bonds, Series 2001; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on November 2, 2001, the Indenture and the Series 2002 A Supplement to Amended and Restated Trust Indenture, dated as of January 1, 2002 between the University and the Trustee, of its \$150,515,000 The Ohio State University General Receipts Bonds, Series 2002 A; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 11, 2003, the Indenture and the Series 2003 B Supplement to Amended and Restated Trust Indenture dated as of September 1, 2003, between the University and the Trustee, of its \$233,780,000 The Ohio State University General Receipts Bonds, Series 2003 B; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 11, 2003, the Indenture and the Series 2003 C Supplement to Amended and Restated Trust Indenture dated as of September 1, 2003 between the University and the Trustee, of its \$121,295,000 The Ohio State University Variable Rate General Receipts Bonds, Series 2003 C; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 8, 2005, the Indenture and the Series 2005 A Supplement to Amended and Restated Trust Indenture dated as of August 1, 2005 between the University and the Trustee, of its \$279,050,000 The Ohio State University General Receipts Bonds, Series 2005 A; and

June 18, 2010 meeting, Board of Trustees

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 8, 2005, the Indenture and the Series 2005 B Supplement to Amended and Restated Trust Indenture dated as of August 1, 2005 between the University and the Trustee, of its \$129,990,000 The Ohio State University Variable Rate General Receipts Bonds, Series 2005 B; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 11, 2008, the Indenture and the Series 2008 A Supplement to Amended and Restated Trust Indenture dated as of January 1, 2009 between the University and the Trustee, of its \$217,595,000 The Ohio State University General Receipts Bonds, Series 2008 A (the "Series 2008 A Bonds"); and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 11, 2008 (the, the Indenture and the Series 2008 B Supplement to Amended and Restated Trust Indenture dated as of September 1, 2008 between the University and the Trustee, of its \$127,770,000 The Ohio State University Variable Rate General Receipts Bonds, Series 2008 B; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on July 11, 2008, the Indenture and the Series I Supplement to Amended and Restated Trust Indenture, dated as of December 1, 2008 between the University and the Trustee, of up to \$227,000,000 in principal amount of The Ohio State University General Receipts Commercial Paper Notes, Series I; and

WHEREAS the University has authorized the issuance pursuant to the General Bond Resolution, the Resolution adopted by the Board on October 29, 2009, the Indenture and the Series 2010A Supplement to Amended and Restated Trust Indenture, dated as of January 1, 2010 between the University and the Trustee, of its \$241,170,000 in principal amount of The Ohio State University General Receipts Commercial Bonds, Series 2010A; and

WHEREAS the Board has determined that it is in the best interests of the University to authorize the issuance of The Ohio State University General Receipts Bonds and Commercial Paper Notes (collectively the "2010 Obligations"), in one or more series, for the purposes of financing, on an interim and/or permanent basis, the costs of University Facilities, refunding, on a current or advance refunding basis, Outstanding Obligations of the University as determined herein; and paying costs and expenses associated with the issuance the 2010 Obligations, and desires to make provisions for the issuance of the 2010 Obligations and the payment of Debt Service Charges thereon and the securing thereof by this resolution and the supplement to the Restated Trust Indenture as provided by this Resolution:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees of The Ohio State University hereby authorize the issuance the 2010 Obligations in an aggregate amount not to exceed \$ \$1,600,000,000 for the purposes as set forth in the recitals to this resolution; and

BE IT FURTHER RESOLVED, That any debt authorized by this resolution shall not be issued after June 30, 2012; and

BE IT FURTHER RESOLVED, That the Board of Trustees hereby authorizes the President and/or Senior Vice President for Business and Finance, or either of them, upon consultation with the Chair of the Fiscal Affairs Committee of this Board and upon consultation with the Senior Vice President for Legal Affairs and General Counsel and any outside counsel retained for this purpose, to determine (a) the time or times that any of the 2010 Obligations shall be issued as provided in this resolution, (b) the

principal amount, subject to the limitations prescribed herein, and type of debt to be issued from time to time, (c) the rate or rates of interest to be borne by such 2010 Obligations, whether fixed or variable; provided, however, that in no event shall the interest rate on any series of 2010 Obligations exceed eight percent (8.00%) per annum, (d) whether any interest rates shall be fixed or variable, (e) whether any of the 2010 Obligations are to be issued as Build America Bonds under Section 54AA of the Internal Revenue Code of 1986, as amended (the "Code") and (f) the maturity or maturities of any of the 2010 Obligations; provided, however, the maximum maturity of any 2010 Obligations shall not exceed 35 years or such lesser term as may be required by law, any or all of which terms may be set forth in one or more Certificates of Award executed and delivered by the President and Senior Vice President for Business, or either of them, in connection with the issuance and sale of the 2010 Obligations; and

BE IT FURTHER RESOLVED, That the President or Senior Vice President for Business and Finance, or either of them, is hereby authorized and directed (a) to make or effect any election, selection, designation, choice, consent, approval or waiver on behalf of the University with respect to the 2010 Obligations as permitted or required to be made or given under the federal income tax laws, for the purpose of assuring, enhancing or protecting favorable tax treatment or the status of the 2010 Obligations or interest thereon or assisting compliance with requirements for that purpose, reducing the burden or expense of such compliance, reducing any rebate amount or any payment of penalties, or making any payments of special amounts in lieu of making computations to determine, or paying, any excess earnings as rebate, or obviating those amounts or payments on behalf of the University, or to apply for the payment to the University of any sums in respect of any credit provided for in Section 6431 of the United States Code ("U.S.C.") to the extent such credit is available; (b) to take any and all actions, make or obtain calculations, and make or give reports, covenants and certifications of and on behalf of the University, as may be appropriate to assure the status of the 2010 Obligations as Tax Exempt Bonds or Build America Bonds, as the case may be; and (c) to give an appropriate certificate on behalf of the University for inclusion in the transcript of proceedings setting forth the facts, estimates and circumstances, and reasonable expectations of the University pertaining to Section 148 and the Regulations, and the representations, warranties and covenants of the University regarding compliance by the University with Section 54AA Section 54F or Sections 141 through 150 of the Code and the Regulations, as applicable; and

BE IT FURTHER RESOLVED, That and the President and Senior Vice President for Business and Finance, or either of them, is authorized to negotiate and execute, on behalf of the University and this Board, such supplement or supplements to the Restated Trust Indenture, any bond purchase contract, any interest rate management or hedging contract, credit support or enhancement contract and any other agreement, receipt, certificate or document (collectively the "Transaction Documents") as the President or Senior Vice President for Business and Finance or either of them shall deem necessary or appropriate to carry out this resolution and to provide for the most beneficial commercial terms reasonably available to the University in substantially the form of similar agreements Transaction Documents previously executed by the University in connection with the issuance of other Obligations of the University and not materially adverse to the University, with the execution by the President or Senior Vice President for Business and Finance of any such Transaction Documents constituting the conclusive determination of such officer that the terms of such Transaction Document are not materially adverse to the University; and

BE IT FURTHER RESOLVED, That the Senior Vice President for Business and Finance shall report to the Board's Fiscal Affairs Committee on a regular basis the all actions taken in pursuant to this resolution; and

BE IT FURTHER RESOLVED, That it is found and determined that all formal actions of this Board concerning and relating to the adoption of this resolution were adopted in an open meeting of this Board, and that all deliberations of this Board and of any of its

June 18, 2010 meeting, Board of Trustees

committees that resulted in such formal action were in meetings open to the public, in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code; and

BE IT FURTHER RESOLVED, That this resolution shall take effect and be in force immediately upon its adoption.

**AUTHORIZATION TO ENTER INTO PROFESSIONAL SERVICES
CONTRACTS AND CONSTRUCTION CONTRACTS**

Resolution No. 2010-112

**APPROVAL TO ENTER INTO PROFESSIONAL SERVICE CONTRACTS
UNIVERSITY HOSPITALS EAST – AMBULATORY CARE CENTER**

**APPROVAL TO ENTER INTO CONSTRUCTION CONTRACTS
17TH AVENUE REBUILD
UNIVERSITY HOSPITALS EAST – AMBULATORY CARE CENTER**

Synopsis: Authorization to enter into professional services contracts and enter into construction contracts, as detailed in the attached materials, is requested.

WHEREAS in accordance with the attached materials, the University desires to undertake and enter into/increase professional services contracts for the following projects:

	Prof Svc Amount	Total Project	
University Hospitals East – Ambulatory Care Center	\$0.6M	4.5M	Auxiliary funds

WHEREAS in accordance with the attached materials, the University desires to undertake and enter into construction contracts for the following projects:

	Constr Amount	Total Project	
17 th Avenue Rebuild	\$9.7M	\$11.5M	University bond proceeds
University Hospitals East – Ambulatory Care Center	\$3.9M	\$4.5M	Auxiliary funds

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Administration and Planning and Special Assistant to the President be authorized to enter into construction contracts for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix LVII for background information, page 1105.)

EASEMENT

Resolution No. 2010-113

THE CITY OF COLUMBUS, OHIO
ALONG NORTH HIGH STREET FROM 12TH AVENUE TO WOODRUFF AVENUE

Synopsis: Authorization is requested to grant the city of Columbus, Ohio an easement for a right of way pursuant to Ohio Revised Code (ORC) Section 3345.18 to extend the existing right of way along North High Street between 12th Avenue and Woodruff Avenue, inclusive.

WHEREAS the city of Columbus has requested the grant of an extension of the existing right of way along North High Street from 12th Avenue on the south to Woodruff Avenue on the north. The extended right of way will be 20 feet beyond, or west of, the existing right of way. The easement will be granted under the statutory authority of the University pursuant to ORC Section 3345.18. The grant shall be in perpetuity consistent with the existing right of way along North High Street. The consideration for the easement will be for the nominal amount of \$1.00, as the project is in the best interest of the University for its students, faculty, staff and visitors; and

WHEREAS the specific purpose of the increased right of way is to provide the city with the necessary space to locate handicap access ramps at each of the intersections listed. The access ramps will vary from intersection to intersection as depicted in the accompanying drawing, but all will be within the extended right of way. The appropriate University offices have determined that the grant of this right of way is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Administration and Planning be authorized to take any action required to affect the grant of an extended right of way along North High Street from 12th Avenue to Woodruff Avenue, Columbus, Ohio, upon the terms outlined above and any additional terms and conditions deemed to be in the best interest of the University.

(See Appendix LVIII for background information, page 1109.)

PURCHASE OF REAL PROPERTY

Resolution No. 2010-114

543 TAYLOR AVENUE
(FORMER CHALMERS P. WYLIE VA CLINIC)
COLUMBUS, OHIO 43203

Synopsis: Authorization to purchase the property located at 543 Taylor Avenue, Columbus, Ohio is requested. The property consists of approximately 4.981 acres improved with a three-story medical clinic office building that contains approximately 136,000 gross square feet. This property is located less than one mile north of University Hospital East on the southwest corner of Taylor and Leonard Avenues and its acquisition is consistent with the Medical Center's strategic plans for providing convenient and accessible medical services.

WHEREAS the property is expected to appraise at a value between \$11M and \$12M; and

June 18, 2010 meeting, Board of Trustees

WHEREAS the University will purchase the property for \$11.5M from iStar and simultaneously receive \$2.8M from the VA to terminate their lease for a net purchase price of \$8.7M; and

WHEREAS acquisition of this property will support the strategic plans of the Medical Center to enhance its ambulatory care capabilities and to serve the area around University Hospital East and its community, and

WHEREAS acquisition of this property has been recommended by the Medical Center Board and the Medical Affairs Committee and would be in the best interest of the University and the Medical Center's patients; and

WHEREAS the acquisition, use, and any improvements to the property will be funded through a University line of credit with principal and interest to be paid by Medical Center funds; and

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Administration and Planning be authorized to take any action required to affect the purchase of the improved real property located at 543 Taylor Avenue from iStar HQ 1, L.P., and to acquire title to this property in the name of the State of Ohio for the use and benefit of The Ohio State University for \$11.5M plus fees and closing costs, upon such terms and conditions as are deemed to be in the best interest of the University; and

BE IT FURTHER RESOLVED, That the President and/or the Senior Vice President for Business and Finance be authorized to approve an internal loan for an amount up to \$13.9M for a term of 10 years for the acquisition, use, and any improvements needed to the property with principal and interest to be paid by the Medical Center.

(See Appendix LVIX for background information, page 1110.)

APPROVAL OF FISCAL YEAR 2011 OSU HEALTH SYSTEM BUDGET

Resolution No. 2010-115

Synopsis: Recommendation by the Fiscal Affairs Committee of the adoption of the proposed OSU Health System's Budget for FY 2011 is requested.

WHEREAS the Board of Trustees of The Ohio State University supports the University's continued implementation of the Academic Plan and President Gee's six strategic objectives to meet the needs of Ohio State; and

WHEREAS the continued success of the Ohio State University Medical Center plays a critical role in supporting these goals; and

WHEREAS the FY 2011 Health System's preliminary budget was set as part of their long range financial planning process and these levels have been determined to still be appropriate; and

WHEREAS all five Hospital Boards have approved their individual budgets; and

WHEREAS the proposed budget has been reviewed and approved by the Medical Center Board and the Medical Center Affairs Committee:

NOW THEREFORE

June 18, 2010 meeting, Board of Trustees

BE IT RESOLVED, Adoption of the Health System FY 2011 Budget as described in the accompanying text and tables is approved.

(See Appendix LX for background information, page 1112.)

AUTHORIZATION FOR RELEASE OF PROJECTONE FUNDS

Resolution No. 2010-116

Synopsis: Release of funds for ProjectONE is requested.

WHEREAS in September 2009 the Board of Trustees authorized ProjectONE at a cost not to exceed \$1 billion and authorized the President and/or Senior Vice President for Administration and Planning and Special Assistant to the President, in consultation with the Senior Vice President for Health Sciences, to enter into design, construction, construction management, and other contracts as necessary for the project in accordance with the established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time; and

WHEREAS ProjectONE is expected to be funded by \$925 million from University bond proceeds and \$75 million from development funds for a total authorized project amount not to exceed \$1 billion; and

WHEREAS the President and /or Senior Vice President for Administration and Planning and Special Assistant to the President in consultation with the Senior Vice President for Health Sciences shall only spend such funds as are released by the Board; and

WHEREAS the President and/or Senior Vice President for Administration and Planning and Special Assistant to the President, in consultation with the Senior Vice President for Health Sciences, shall report to the Board on the progress of ProjectONE every six months, or more frequently as appropriate, or as requested by the Board and, as a part of such reports, shall request release of such funds as needed; and

WHEREAS the following funds for construction commitments are requested for release:

- Construction contracts for major building systems, curtain wall, etc. and infrastructure enablers \$168.64M
- Early purchase major building equip \$49.77M
- Deep foundation and enablers
- Foundation and Cores \$18.03M
- Structural steel and frame \$57.72M

NOW THEREFORE

BE IT RESOLVED, That the total amount of \$294.16 million is hereby approved for release for construction and related services as requested.

(See Appendix LXI for background information, page 1126.)

Upon motion of Mr. Shumate, seconded by Mr. Borrer, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Wexner, Borrer, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Kass, Jurgensen, and Reid.

June 18, 2010 meeting, Board of Trustees

ADOPTION OF THE ONE OHIO STATE FRAMEWORK

Resolution No. 2010-117

Synopsis: Adoption of the One Ohio State Framework (the Framework) including physical planning principles and a long-term vision for the Columbus campus is proposed.

WHEREAS the university has adopted a model of integrated planning whereby strategic academic planning is supported by financial and physical planning, all aligned to meet strategic goals; and

WHEREAS the university recognizes the physical environment is a valuable resource for accomplishing the university's goals and enhancing the quality of life for students, faculty, staff, and visitors; and

WHEREAS the university completed a comprehensive, integrated planning process to develop a vision for the physical campus and engaged stakeholders representing academics and research, the arts, athletics and recreation, health sciences, residential life, the Olentangy River, transportation and parking, sustainability, energy and infrastructure, and university area neighborhoods; and

WHEREAS the Framework includes an integrated long-term vision for the Columbus campus, physical planning principles, and tools to help guide future investment in the physical environment, and the tools enable data-informed analysis and flexibility to revise or develop new physical scenarios as strategic academic priorities change over time; and

WHEREAS the Framework will replace the previous Columbus Campus Master Plan that the Board of Trustees adopted in 1995; and

WHEREAS the strategic academic plans and the Framework will serve as context for future capital planning and regular capital recommendations and updates will be presented to the Board in this context; and

WHEREAS the Framework planning process included stakeholders and university leaders who have reviewed and support the proposed Framework:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby adopts the One Ohio State Framework as the foundation and a framework for decision-making about the physical environment and directs the appropriate university offices to proceed with planning consistent with the Framework principles and long-term vision.

(See Appendix LXII for background information, page 1129.)

Upon motion of Mr. Schottenstein, seconded by Mr. Jurgensen, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote, cast by Trustees Wexner, Borrer, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Kass, Jurgensen, and Reid.

-0-

Mr. Wexner:

David, do you want to give us the agenda of activities this afternoon?

June 18, 2010 meeting, Board of Trustees

Dr. Frantz:

Lunch is being served up where it was yesterday, so those who are staying for lunch can go up there. We have a bus leaving here at 2:15 pm from the southeast entrance, down at the first floor, those who are taking the bus over. Those who are driving themselves, I guess I would say you want to leave plenty of time to get there. Parking will be extremely difficult. Steve, what time is the actual starting time of the program itself.

Dr. Gabbe:

There will be events at 2:00 pm; there is also valet parking that will be available for you.

Mr. Wexner:

Thank you. Let's go around the room, and let's start at your end Alex. We will give Jeff a chance to listen.

Ms. Swain:

It has been a great few days from diversity and inclusion to the framework. So may exciting topics and I thank Jeff Kaplan, and I also want to welcome Jeff Chatas, and I am excited to work with you and thank him for being supportive and involving students. Especially more heavily in the future in these tuition and fees questions we have, so welcome and I am excited to work with you.

Dr. Cloyd:

I won't even try to capture it. I will just say the vision - we just have so many opportunities, it is just very, very exciting and I think the ship is heading in the right direction.

Mr. Jurgensen:

Nothing new really, just very encouraging.

Dr. Reid:

Great days as well, especially looking at the trends which we did with regard to strategic planning. Also, Judge Marbley is not here, but the working group on diversity and inclusion has begun. It had its very first meeting, so a long way to go.

Mr. Brass:

I would just say, when it works it works, and it is working well.

Dr. Frantz:

One thing I would say, in the consent agenda, there were a lot of personnel actions, as was noted, and I know one of the things maybe that the Board takes for granted in doing, but this was the meeting at which promotion and tenure decisions were voted on by this Board, and there is nothing more meaningful than that for the faculty of this institution, so I just wanted to note that.

Mr. Wexner:

Thank you, David.

June 18, 2010 meeting, Board of Trustees

Mr. Marion:

Thank you for the opportunity. I think today's meeting demonstrated the culmination and the work of so many committees. I know you were trying to get some discussion out of us, but so much has been discussed on these issues, the diligence exercised by the Medical Affairs Committee, the Fiscal Affairs and Framework planning, and it is all coming together nicely and the University looks like it is in great shape. I was happy to get on the Board when I did and to leave and see this University in such great position.

Dr. Wadsworth:

First of all I would like to thank you for inviting me to join you. It is a real honor and privilege. Today's meeting demonstrated the responsibilities that come with it, because it is a great University with some great plans, and I really look forward to participating as fully as I can. I have been on the Medical Center Board with Alan as an ex officio member, so I have had a good start at understanding what is going on. Battelle has a long history with OSU; dating back to before Battelle opened its doors actually, in 1929. The recent past, with Gordon's help, we have really invigorated that and we intend to fully exercise the leverage on each other and have good things happen. So thank you.

Ms. Kass:

Just want to add that connecting the dots in our thinking and behaving, I think is probably my best description of the last three days but way beyond that. We are really beginning to connect them very well.

Mr. Schottenstein:

Once again, excellent meetings, Mr. Chairman, and all those who helped make them excellent. I just want to publically congratulate Jason for his honor earlier this morning and how well-spoken you were - just very well said and publically welcome Jeff.

Mr. Hicks:

We have a lot of Mojo going on right now. Let's break some ground.

Mr. O'Dell:

I would just like to say today is a great day for The Ohio State University.

Mr. Borrer:

We have had robust, stimulating important discussions, and we are making good headway, and we are doing good work.

President Gee:

Mr. Chairman, you know we have three strands that we have been working on for the last two to three years: financial planning, master planning and academic strategic planning. I think what we have seen today is the culmination of those three now coming together, using Linda's words of connecting the dots. I think that is the power of what happened today. The fact that we do not have three great projects, or two great projects, or four great projects, we have them and they are absolutely aligned and coordinated, which is going to be the power of the institution.

June 18, 2010 meeting, Board of Trustees

Mr. Wexner:

I think we have a lot of work ahead and I know there is a lot of work that is going to be done before the meeting in September, so I feel like we are not adjourning; we are going to summer school. I know a lot of committees have some heavy lifting to do and so we are probably on the semester systems and working through the summer semester. I feel that we are getting better. I think our thinking is improving and I think that the work and behavior and the results are coming together. This is obviously a very complex institution and complex by its size, scope and the nature of this time spans and the diversity of the institution in every possible way, so bringing it together so we are in agreement of understandings and even in agreements where we disagree. But, we can come to a better work product and then attempt to put things in a sequential order that hopefully make sense as it will be judged in the future. Again, I thank Coach Tressel, we are getting better and we have to continue to get better and hopefully we get better through the summer, and have a little celebration this afternoon. Thank you.

We are adjourned.

-0-

Thereupon the Board adjourned to meet Friday, September 17, 2010, at The Ohio State University, Longaberger Alumni House, Columbus, OH.

Attest:

Leslie H. Wexner
Chairman

David O. Frantz
Secretary

RULES OF THE UNIVERSITY FACULTY

~~3335-5-07 Term of duty. RESCIND~~

~~All members of the teaching staff on duty during a given quarter, semester, or session, are expected to report for duty and to be available for consultation and organization at least one day preceding the day designated in the calendar as the day for classes to begin. They are also expected to remain on duty through the convocation and examinations which conclude the work of the quarter, semester, or session.~~

3335-5-07 Definition of regular faculty duties and responsibilities.

Regular faculty members who are on duty are accountable for meeting the formal and informal obligations associated with research, service, and/or teaching or clinical practice. Duties and responsibilities are assigned annually in accordance with the workload policy laid out in the pattern of administration of each faculty member's tenure initiation unit and, as appropriate, regional campus.

Regular full-time faculty members are expected to be on duty for an average of 19 working days a month, with working days defined as weekdays that are not designated as university holidays. Faculty members on nine-month appointments are commonly on duty for 19 working days a month averaged over a 9-month period. The most common pattern for a 9-month on-duty period under quarters includes the autumn, winter and spring quarters. The most common pattern for a 9-month on-duty period under semesters includes the autumn and spring semesters.

Breaks within a given semester or session, as well as any days between the end of the exam period and the beginning of the next quarter, semester or session, will be considered off-duty days. Faculty on 12-month appointments are on duty on all working days except for the days they accrue and designate as vacation days. Terms of duty for full-time auxiliary faculty for 9- or 12-month faculty unless otherwise specified in their annual letter of appointment; terms for shorter-term auxiliary faculty are specified in their annual letter of appointment; terms for shorter-term auxiliary faculty are specified in their annual letters of appointment.

3335-5-27 Powers.

The faculty of the arts and sciences shall have jurisdiction over:

- (A) All programs for the "untagged" bachelor's degrees, subject only to approval by the council on academic affairs and the university senate. Such degrees shall be awarded only upon the recommendation of the faculty of the arts and sciences.
- (B) The ~~basic~~ general education requirements for all programs in the colleges of the arts and sciences, and joint responsibility for planning the ~~basic~~ general education requirements for colleges outside arts and sciences on a cooperative basis. Jurisdiction for the ~~basic~~ general education requirements for colleges outside arts and sciences shall lie with the university senate through the council on academic affairs, and not with the faculty of the arts and sciences.

3335-5-48.5 Athletic council.

- (A) The athletic council shall consist of fifteen members.
 - (1) Eight regular tenure-track faculty.

June 18, 2010 meeting, Board of Trustees

- (a) Four regular tenure-track faculty selected by the faculty council. The term of service is four years with service commencing the first of July following appointment or election.
 - (b) Four regular tenure-track faculty members appointed by the president. The term of service is four years with service commencing the first of July following appointment.
- (2) Four students.
- (a) One graduate student.
 - (b) One professional student.
 - (c) Two undergraduate students. The term of service is two years and one student is selected each year.
- (3) Two alumni designated by the Ohio state university alumni association using procedures adopted by that body. The term of service is four years and the terms are staggered so that one member retires every two years.
- (4) One staff member of the university selected by the university staff advisory committee. The term of service is two years.
- (B) Duties and responsibilities.
- (1) Develop, subject to the general authority of the president and the board of trustees, policies governing intercollegiate athletics, as the agent of the senate. The senate may hold these policies in review.
 - (a) These policies shall guide the administration of the program of intercollegiate athletics by the director of athletics, but the athletic council shall not serve in an administrative or executive capacity.
 - (b) It will consider and establish policy on such matters as the income and expenditures budget, the schedules for seasonal and post-seasonal play in relation to the effect upon the welfare of the athletes, grants and other financial aid to athletes, eligibility of athletes, student grievance procedures and sportsmanship policies related to athletics, awards to athletes, ticket distribution, and public and campus relations of the athletic program.
 - (c) Its recommendations and decisions on policy shall be made known to the senate and to the staff of the department of athletics.
 - (2) Participate with the president in the process of selecting ~~one or two a~~ university faculty athletics representatives representative to the intercollegiate conference of faculty representatives (big ten conference). The faculty athletics representative shall provide advice and oversight for the intercollegiate athletics program at the Ohio state university and represent the university and its faculty to the NCAA. The faculty athletics representative also shall participate in the assurance of academic integrity of the athletics program; monitor the student-athlete experience; participate in the assurance of the institutional compliance with NCAA and conference regulations; and serve as the senior faculty advisor to the president and the director of athletics concerning the administration of the collegiate athletics program.
 - (a) ~~For each~~ When selecting a new faculty athletics representative

~~position, the athletic council shall prepare a list of no fewer than two regular tenured faculty members from which the president shall select a faculty athletics representative. All regular tenured faculty members are eligible for inclusion on these lists.~~

- (b) ~~The Eighteen months prior to the end of the faculty athletics representative's final term, the~~ chair of the athletic council shall appoint a nominating committee which shall have the responsibility to inform the university community about the position of faculty athletics representative and to invite applications and/or recommendations for nominations. Brief recommendations in writing that state the candidate's qualifications for the position may be submitted to the nominating committee by any member of the university community. Applications and nominations shall be due in accordance with a reasonable schedule established by the nominating committee.
- (c) Final approval of ~~each the~~ list of names submitted to the president shall be made by the full membership of the athletic council. The list for ~~each the~~ faculty athletics representative position shall be presented to the president ~~during the autumn quarter in June of the year~~ preceding the start of the next term of office in order to allow for a smooth transition between outgoing and incoming faculty athletics representatives.
- (d) The new faculty athletics representative will be appointed ~~January first to take office July first of the same year~~ faculty athletics representative-elect on July 1 of the year before becoming faculty athletics representative. ~~The faculty athletics representative-elect shall attend all meetings in which the faculty athletics representative has access to, but the faculty athletics representative-elect shall have no right to vote until the faculty athletics representative-elect become the faculty representative.~~
- (d)(e) ~~If the president appoints two faculty representatives, the terms of the representatives shall be arranged so that the terms shall not begin or expire within the same year. The term of office for a faculty athletics representative is four years, beginning the first of July 1 of the year following appointment as faculty athletics representative-elect. Reappointment for no more than one two additional four-year term terms is permissible. If an incumbent faculty athletics representative is eligible to and desires to serve another term, then at least seven nine months prior to the expiration of the current term, the athletic council shall undertake complete a review of the incumbent's performance. If the council decides that the incumbent should serve a second another term and the president concurs, the faculty athletics representative's term shall be renewed. Otherwise, the athletic council shall move immediately to prepare a list to submit to the president following the procedures of paragraphs (B)(2)(a) to (B)(2)(c) of this rule, except for the time limitations.~~
- (e)(f) A ~~The~~ faculty athletics representative ~~who is not already~~ shall not serve simultaneously as a member of the athletic council, but shall attend meetings of the council. The chair of the athletic council, or the chair's designee from among the faculty members of the athletic council, shall serve as ~~an ex-officio alternate for either the interim~~ faculty athletics representative with full voting privileges at conference meetings whenever the faculty athletics representative is unavailable.

(g) In the event that the faculty athletics representative does not complete a full term, the faculty athletics representative-elect shall complete the remainder of the uncompleted term. The completion of a term does not constitute a four-year term for purposes of the three four-year term limitation in paragraph (B)(2)(e) of this rule. If there is no faculty athletics representative-elect at the time the faculty athletics representative vacates the position, the chair of the faculty council, or the chair's designee from among the faculty members of the athletic council, shall serve as the interim faculty athletics representative until the appointment of a new faculty athletics representative. Upon notice of a vacancy or an imminent vacancy in the faculty athletics representative position, the athletic council shall move immediately to prepare a list to submit to the president following the procedures of paragraphs (B)(2)(a) to (B)(2)(c) of this rule, except for the time limitations.

(C) Organization.

- (1) Reports by the council to the president, other than those made through the senate, shall be made through the director of athletics.
- (2) As a standing committee of the senate, this council is also governed by the provisions of rules 3335-5-46 and 3335-5-48 of the Administrative Code.

3335-6-03 Probationary service, and duration of appointments for tenure-track faculty.

(A) Probationary periods are established for regular tenure-track faculty members. During a probationary period a faculty member does not have tenure and is considered for reappointment annually.

(B) Length of probationary period.

- (1) An appointment as professor or associate professor will generally entail tenure. However, a probationary period not to exceed four years may be granted by the office of academic affairs upon petition of the tenure initiating unit and college. For the petition to be approved, a compelling rationale must be provided regarding why appointment at a senior rank is appropriate but tenure is not. All appointments to the rank of associate professor or professor require prior approval of the executive vice president and provost.

An appointment to the rank of instructor is always probationary and may not exceed three years. An instructor must be approved for promotion to assistant professor by the beginning of the third year of appointment or the appointment will not be renewed beyond the end of the third year. When an instructor is promoted to the rank of assistant professor, prior service credit ~~will~~ may be granted for time spent as an instructor ~~unless if~~ the faculty member ~~indicates requests such credit~~ indicates requests such credit in writing at the time of the promotion ~~that he or she does not wish such credit. This written request must be forwarded to the office of academic affairs through the dean of the college so that tenure records may be adjusted accordingly. This request must be approved by the tenure-initiating unit's eligible faculty, the tenure-initiating unit head, the dean of the college, and the office of academic affairs.~~

An appointment to the rank of assistant professor is always probationary and may not exceed six years, including prior service credit. An assistant professor is reviewed for promotion and tenure no later than the sixth year

June 18, 2010 meeting, Board of Trustees

of appointment as an assistant professor and informed by the end of the sixth year as to whether promotion and tenure will be granted at the beginning of the seventh year.

Balance unchanged.

3335-8-07 ~~Basic~~ General education.

~~Every~~ All undergraduate ~~student~~ students must complete ~~forty-five hours selected to ensure acquaintance with the three basic areas of academic study; the humanities, the social sciences, and the natural sciences. A minimum of fifteen hours is required in each of the three areas~~ a program of general education coursework enabling them to acquire and develop a breadth of knowledge, skills, and perspectives that cross disciplinary boundaries and extend to areas outside of majors, minors and other specialized study programs. The specific structure and requirements for general education shall be defined by the faculty in accordance with faculty rule 3335-5-27.

RULES OF THE UNIVERSITY FACULTY
Effective Summer 2012

3335-5-07 Definition of regular faculty duties and responsibilities.

Regular faculty members who are on duty are accountable for meeting the formal and informal obligations associated with research, service, and/or teaching or clinical practice. Duties and responsibilities are assigned annually in accordance with the workload policy laid out in the pattern of administration of each faculty member's tenure initiation unit and, as appropriate, regional campus.

Regular full-time faculty members are expected to be on duty for an average of 19 working days a month, with working days defined as weekdays that are not designated as university holidays. Faculty members on nine-month appointments are commonly on duty for 19 working days a month averaged over a 9-month period. ~~The most common pattern for a 9-month on-duty period under quarters includes the autumn, winter and spring quarters.~~ The most common pattern for a 9-month on-duty period under semesters includes the autumn and spring semesters and the May session.

Breaks within a given semester or session, as well as any days between the end of the exam period and the beginning of the next quarter, semester or session, will be considered off-duty days. Faculty on 12-month appointments are on duty on all working days except for the days they accrue and designate as vacation days. Terms of duty for full-time auxiliary faculty for 9- or 12-month faculty unless otherwise specified in their annual letter of appointment; terms for shorter-term auxiliary faculty are specified in their annual letter of appointment; terms for shorter-term auxiliary faculty are specified in their annual letters of appointment.

3335-8-05 University classification and course numbering system.

- (A) Courses numbered ~~000-099~~ 1000-1099 are undergraduate non-credit courses ~~(except certain seminars and colloquia)~~ for orientation, remedial, or other noncollege-level experiences. These ~~are~~ courses are in addition to a program's with credit added to graduation requirements.
- (B) Courses numbered ~~400-499~~ 1100-1999 are basic introductory level courses providing undergraduate credit, but shall not ~~to~~ be counted on a major or field of specialization in any department. Courses at this level are beginning courses, required or elective courses that may be prerequisite to other courses.
- (C) Courses numbered ~~200-299~~ 2000-2999 are basic intermediate level courses providing undergraduate credit and may be counted on a major or field of specialization.
- (D) Courses numbered ~~300-499~~ 3000-3999 are intermediate upper-level courses providing undergraduate ~~or basic professional~~ credit that may be counted on a major or field of specialization.
- (E) Courses numbered ~~500-599~~ 4000-4999 are intermediate advanced level undergraduate courses providing undergraduate ~~or professional~~ credit that may be counted on a major or field of specialization ~~and may provide graduate credit only in other departments.~~ Graduate students may enroll in and receive graduate credit for 4000-level courses outside their own graduate program.
- (F) Courses numbered ~~600-699~~ 5000-5999 are ~~courses providing undergraduate or professional credit that may be counted on a major or field of specialization, and may provide graduate credit (in all departments)~~ dual-level courses regularly offered for both graduate credit and undergraduate credit providing advanced level courses for undergraduate credit that may be counted toward a

June 18, 2010 meeting, Board of Trustees

major or field of specialization or are foundational coursework and research for graduate and professional credit.

- (G) Courses numbered ~~700-799~~ 6000-6999 are ~~advanced courses~~ foundational level graduate and professional courses and research providing ~~undergraduate,~~ graduate, or professional credit.
- (H) Courses numbered ~~800-999~~ 7000-7999 are intermediate level graduate and professional degree courses and research providing graduate or professional credit and are open to undergraduates only with the consent of the dean of the graduate school.
- (I) Courses numbered 8000-8999 are advanced level graduate and professional degree courses and research providing graduate or professional credit.
- (J) Courses for which graduate credit is anticipated must be taught by a member of the faculty approved by the graduate committee of the ~~department unit~~ offering the course. ~~Eight hundred and 000~~ Seven thousand and above level courses must be taught by members of the graduate faculty.

~~3335-8-35 Quarters, semesters, sessions, and terms.~~ RESCIND

- ~~(A) The university year shall be divided into four quarters of approximately twelve weeks each. For any college on a semester basis, the university year shall be divided into a summer session of approximately twelve weeks and two semesters of approximately eighteen weeks each. The summer quarter or session shall begin the university year and may be divided into two terms of approximately six weeks each.~~
- ~~(B) The university calendar, including the dates of the beginning and ending of each quarter, semester, session, and term and of the several vacations and recesses within the year, shall be published in the appropriate university bulletins.~~

3335-8-35 University Year

- (A) The university year shall include an autumn and spring semester, each of approximately sixteen weeks, a May session of approximately four weeks, and summer session of approximately eight weeks. Semesters and session are inclusive of instructional days, scheduled reading and exam days, and intra-semester breaks. The university year will begin in the autumn semester.
- (B) The academic calendar, including the dates of the beginning and ending of each semester and session, finals schedule, and breaks shall be published in the appropriate university formats/media.

June 18, 2010 meeting, Board of Trustees

(APPENDIX LIII)

**A Proposal to Establish the College of Arts and Sciences at
The Ohio State University**

Joseph E. Steinmetz, Ph.D.

Executive Dean of Arts and Sciences and Vice Provost

May 10, 2010

Pursuant to Faculty Rule 3335-3-37 on the alteration or abolition of units, the Executive Dean of Arts and Sciences and Vice Provost submits a proposal to alter the five Colleges within Arts and Sciences, to form a single College to be called the *College of Arts and Sciences*.

Background

Until 1968, the Arts and Sciences at The Ohio State University were organized as a single, centralized structure. In 1968, with the addition of some Departments and Schools that had previously been affiliated with other Colleges, the Arts and Sciences were divided into five Colleges: Arts, Biological Sciences, Humanities, Mathematical and Physical Sciences, and Social and Behavioral Sciences.

In February 2002, Provost Edward J. Ray appointed an ad hoc Committee on the Status of the Colleges in Arts and Sciences, with the following charge: "to implement effectively our Academic Plan, it is essential that we have a highly visible and nationally prominent Arts and Sciences, and that we have a coherent, collaborative and financially sound core of Arts and Sciences programs of the highest possible quality. Every top tier research university has a strong Arts and Sciences core." The Report (attached as Appendix A) recommended a federated structure for the Arts and Sciences. In May 2003, a report entitled "Federation of the Colleges of the Arts and Sciences" (attached as Appendix B) identified the formal structure of that Federation, and established the Office of the Executive Dean of the Colleges of the Arts and Sciences. Among the goals of the Federation were the following:

- enhance the reputation and quality of all Colleges by using the strengths of each to benefit others;
- enhance coherence, collaboration, and synergies;
- decrease wasteful College-centric competition and lower College boundaries.

In April 2008, a Review Committee co-chaired by Vice Provosts Martha M. Garland and W. Randy Smith submitted its Final Report (attached as Appendix C), recommending the creation of "a single, integrated College of the Arts and Sciences that brings together all the faculty, resources (budget, space), and academic programs that currently reside within the five colleges." The report further recommended that the College "would be led by a Dean with ultimate decision making authority for the college in all realms of college life, reporting directly to the Executive Vice President and Provost." Working with the Dean in the proposed model were "Divisional Deans," individuals with the relevant academic expertise to represent clusters of Departments/Schools.

In August 2008, Professor Joan R. Leitzel was appointed Interim Executive Dean of Arts and Sciences and Vice Provost. Three Interim Divisional Deans were appointed: Professor John W. Roberts (Arts and Humanities); Professor Matthew S. Platz (Mathematical and Physical Sciences and Biological Sciences); and Professor Gifford Weary (Social and Behavioral Sciences).

June 18, 2010 meeting, Board of Trustees

The Executive Dean was given responsibility for strategic planning, budget/resource allocation, and representation of the interests of the Arts and Sciences within and outside the University. In the role of Vice Provost, the Executive Dean was given additional responsibility to provide advice and counsel to the Provost on promotion and tenure recommendations and other academic matters. The Office of the Executive Dean also provides undergraduate advising, career services, interdisciplinary majors and minors. The three Divisional Deans were given responsibilities at the level of the Arts and Sciences as a whole, as well as responsibility for overseeing the units and programs in their academic areas.

Throughout the 2008-09 academic year, the restructuring of the Arts and Sciences was widely discussed on campus. For example, issues related to Arts and Sciences restructuring were on the agendas of the Arts and Sciences Executive Committee and the Arts and Sciences Faculty Senate, and a set of town meetings was held. A "rationale statement" for the restructuring was developed in response to these discussions. The rationale was circulated to all Arts and Sciences faculty and staff on May 13, 2009 and discussed at the Arts and Sciences town meeting on May 19, 2009. Only one suggestion for change to the document was received, and that change, correcting a statement describing Arts and Sciences history at Ohio State, was made.

On June 18, 2009, pursuant to Faculty Rule 3335-3-37 on the alteration or abolition of units, Interim Executive Dean Leitzel presented a proposal to the Council on Academic Affairs and the University Senate to alter the five colleges within Arts and Sciences by forming a single college to be called the College of Arts and Sciences.

On July 1, 2009, following a national search, Professor Joseph E. Steinmetz was appointed Executive Dean of Arts and Sciences and Vice Provost. To provide his input and outline possible directions for the restructuring, on September 15, 2009, he distributed a document entitled "Unifying the College of Arts and Sciences: Implementation Considerations," that identified several issues to be addressed during the reorganization process, and articulated some basic ideas and principles on which the reorganization would be based.

In adherence to Faculty Rule 3335-3-37, in October 2009, the Council on Academic Affairs appointed an ad hoc committee, chaired by Professor James F. Rathman, Chair, University Senate Steering Committee, to review the proposal and all related materials, and bring a recommendation to the Council. The ad hoc committee's report was received on May 3, 2010.

This proposal reflects the content of the initial proposal submitted by Interim Executive Dean Leitzel, supplemental information provided by Executive Dean Steinmetz, and suggestions from the ad hoc committee and the Council on Academic Affairs.

Since 2008, some basic decisions have been made about the structure of the proposed College. However, many more procedures and policies need to be explored and worked out as the concept of a unified arts and sciences college becomes reality. It is a work in progress and will remain so for at least a few years as new traditions, procedures and policies are created with input from faculty and the College administration.

**Responses to Proposal Requirements of
Faculty Rule 3335-3-37 on the Alteration of Units**

- (a) A rationale for alteration or abolition of the unit which includes a history of the formation, activities and evaluation of the performance of the unit.**

The basic components of the history of the unit are outlined in the background section of this document (above), and in the supplementary materials.

This formal rationale statement was produced and discussed during 2008-09:

“The Arts and Sciences are the intellectual and academic core of The Ohio State University and of distinguished universities worldwide. These areas are the University’s primary laboratory for inquiry into human expression; social and cultural systems; and physical, biological, and cognitive processes. Study in the Arts and Sciences helps develop the rigor of the mind—and openness of the mind—that provide the basis for quantitative as well as creative thought; computational, technological, and communicative skills; historical consciousness and ethical perspective; literary understanding and artistic appreciation; international literacy and curiosity; and regard for values unlike one’s own. Thus, the areas of study that comprise the Arts and Sciences are foundational to all university education and professional preparedness. Now, as complex ethical, environmental, cultural, economic, and political challenges lay claim to the world’s collective attention, it is to the Arts and Sciences that Ohio State—and communities beyond—looks for the skills, knowledge, and imagination to understand and bring solutions to these issues.

A unified College of Arts and Sciences offers students more opportunities to integrate what they learn in studying a range of fields, and it facilitates the combining of disciplines in faculty research and creative activity.”

Given the importance and centrality of the Arts and Sciences in research and teaching, there are many reasons for unifying the Arts and Sciences into a single administrative unit at this time in Ohio State’s history. Central among these reasons is that the implementation of the Federation structure in 2003 failed to produce the desired results. That is, lowering barriers between units and encouraging cooperation and collaboration between units in the five separate colleges has not occurred. An even more compelling reason for creating a unified College is that it addresses the current state of affairs in academia. Indeed, many of the exciting developments in research and teaching in higher education are at the intersections of our traditional disciplines in the arts, humanities, natural sciences, and social sciences. A unified College will make it easier to develop these new interdisciplinary areas, while at the same time providing the means to preserve the disciplinary-based areas of excellence that have made Ohio State a great institution. Unifying the College should encourage the exploration of creative new ideas, provide our undergraduate and graduate students with new experiences and new opportunities, and allow our faculty to develop interdisciplinary ties with other colleagues that can be career defining and enhancing. At great institutions like Ohio State, the Arts and Sciences should be the cornerstone on which all other academic experiences are built. The College should be more prominent and influential, both here at Ohio State and around the world. A unified College will make it easier to have the collective voice of Arts and Sciences heard both on and off campus.

Therefore, the new administrative structure offers opportunities for the Arts and Sciences to build on their centrality to *all* university education and become Ohio State’s most engaged and visible constituency.

Bringing together all the faculty, resources, and programs within the Arts and Sciences, the new structure is expected to:

June 18, 2010 meeting, Board of Trustees

- Ensure a unified, effective voice for the Arts and Sciences and, so, position the Arts and Sciences for stronger leadership within the University;
- Strengthen academic programs, assuring and reinforcing the quality of graduate education, the undergraduate curriculum, and undergraduate advising;
- Enhance interdisciplinary opportunities for faculty and students and promote collaborative relationships that strengthen both individual units and the whole;
- Provide for an administrative structure that is efficient, effective, and less costly and enable significant resources to be redirected to academic programs.

(b) An enumeration of all faculty affected by the alteration or abolition of the unit.

Tenure Initiating Unit (by Division)	# tenure track faculty (2009)
Arts & Humanities	
African American & African Studies	16
Art	23
Art Education	15
Comparative Studies	19
Dance	15

Speech & Hearing Science	11
Total, Social & Behavioral Sciences	267
Total Faculty, Arts and Sciences	1181

* Entomology is currently in the process of reorganization between Biological Sciences and Food, Agricultural and Environmental Sciences.

Faculty on the regional campuses are included in this list, although the day-to-day operations on campuses other than the Columbus campus will be unaffected by the proposed alteration.

- c) **A person-by-person analysis of the proposed reassignment or other accommodation of the faculty identified in paragraph (B)(2)(b) of this rule, including a statement of the impact on promotion and tenure. No tenured faculty member shall be involuntarily terminated as a result of this process. However, faculty may be transferred to another unit in accordance with paragraph (C)(2) of rule 3335-6-06 of the Administrative Code and with regard to the teaching, research, and service expertise of the individual.**

The proposed alteration will have no significant impact on the promotion and tenure (P&T) of any faculty member. The tenure initiating unit of faculty members will not change. Faculty are currently appointed in one of 41 Schools or Departments. These units will continue as the tenure initiating units for faculty. There will be slight changes to the composition of the Promotion and Tenure Committee at the College level (see below). The promotion and tenure documents at the Divisional level will be rewritten and will be subject to appropriate review.

While faculty appointments will not be altered, the total number of administrative appointments will be reduced (some already have, as listed in (g) below). Current administrators with faculty appointments who are not appointed to administrative positions within the new College will return to their faculty positions.

Tenure and Promotion Procedures

Second only to faculty recruitment, tenure and promotion are the most important decisions made concerning our faculty. The basic tenure and promotion process will be very similar to what is already in place; that is, a three-stage process will be used that involves reviews at the tenure initiating unit (TIU) level, the College level, and the Provost level. After the TIU-level reviews have been completed we believe the process will likely be as follows:

- Three College committees of 8-12 members will be selected by the Divisional Deans, one for each of the College's three divisions: Arts & Humanities, Natural & Mathematical Sciences, and Social & Behavioral Sciences. Faculty members who serve on the committee will be drawn from the departments that make up each division.

June 18, 2010 meeting, Board of Trustees

- Each committee will be chaired and convened by the Divisional Dean, who will serve as a non-voting member.
- The divisional P&T committees will examine the dossiers of tenure and promotion candidates and eventually vote on each P&T case. A 2/3 majority will be necessary for a positive recommendation on the P&T case.
- The Divisional Deans will also review the cases in their divisions and make recommendations to the Provost concerning tenure and promotion.
- The dossiers and accompanying recommendations from the divisional committees and deans will be sent to the university committee and Provost.
- The Executive Dean of Arts and Sciences will be available for consultation with the Provost if asked.

For a candidate with an appointment in two or more different divisions, a subcommittee made up of 4-6 members of the divisional committees will be appointed by the Executive

Dean to review the tenure and promotion dossier. One department will be designated as the lead department for the review (typically in a MOU created at the time of the hire) and the Divisional Dean of that department will make the recommendation to the university level committee.

Faculty Recruitment and Hiring

Arguably, the most important activity we engage in each year is the recruitment, hiring and retention of faculty. It is the quality of the faculty that ultimately determines the excellence of the institution. Hiring new faculty at the cutting edge of their disciplines helps assure that The Ohio State University remains a vibrant and exciting place for students and scholars. Hiring new faculty provides important opportunities to start and develop new programs, strengthen existing programs, and advance the general goals of the College and the University. To this end, the College will allocate resources for faculty hires in a way that reflects these goals and objectives. Sometime in the spring each year, department chairs and school directors will be asked to submit proposals for hiring new faculty. These proposals will provide a rationale for the hires being requested. The divisional deans and Executive Dean will then discuss the proposals that have been submitted and select those that will go forward in the following year. Several factors will be considered during this selection process, including whether or not the proposal addresses College and/or University priorities, addresses needs or wants identified during the departmental and individual college strategic planning processes that have been conducted, and/or strengthens one or more departments or programs while also keeping in mind our continuing desire to diversify the faculty. To this end, eventually an overall College strategic plan will be created that blends the individual college strategic plans that have been articulated to date.

Because diversity and faculty retention is important, the ongoing mentoring of faculty at all stages of their careers will be a priority for the unified College. The new Associate Dean for Diversity and Recruitment will be involved in retention and diversity efforts. Opportunities to share in hiring with other Ohio State colleges and schools will also be aggressively pursued. Overall, the goal in hiring new faculty will be to advance the department/school or program, the College, and the institution through solid disciplinary or interdisciplinary hiring decisions.

- (d) An analysis of the academic courses now taught by the unit and provisions for their reassignment to other units, if relevant.**

The only courses possibly affected will be some associated with interdisciplinary programs that currently report directly to the Executive Dean. As a result of the alteration some interdisciplinary programs, International Studies for example, will likely remain independent within a division, with a director reporting to the Divisional Dean. Other interdisciplinary programs, such as Latino/Latina Studies, will be moved into a department and thus report directly to the Chair. Given the range of possibilities, it is clear that details will need to be worked out.

(e) An analysis of the students affected by the proposal, including majors, non-majors, professional and graduate students.

Students will not be negatively affected by the alteration. However, the alteration is expected to stimulate interest in the three interdisciplinary majors currently administered by the Executive Office in Arts and Sciences (Film Studies, International Studies, Middle Childhood Education) and the twenty-one interdisciplinary minors similarly administered by the Executive Office in Arts and Sciences (Aging, American Indian Studies, American Sign Language, Asian American Studies, Cognitive Science, Critical and Cultural Theory, Disability Studies, Evolutionary Studies, Film Studies, Forensic Science, Globalization Studies, International Studies, Latino/a Studies, Legal Foundations of Society, Media

Production and Analysis, Neuroscience, Popular Culture Studies, Sexuality Studies, Societal Perspectives about Science and Technology, Survey Research, Work in a Changing Economy), as well as the special programs administered by the Executive Office in Arts and Sciences that cross department boundaries (Freshman Seminars, Professional Pathways). There is every expectation that these opportunities will continue to grow in the future, as well as the many other interdisciplinary offerings that currently flourish at the divisional and departmental level.

Graduate student fellowships, currently distributed by the Graduate School to the five colleges, will be distributed in the unified College. The Graduate School will distribute these fellowships to the Executive Dean, who in turn will distribute them to the divisions and departments at his discretion. The plan is to distribute them to the divisions in the same proportions as they currently go to the five colleges.

(f) Specific proposals regarding support for currently enrolled students until degree completion.

No negative impacts are anticipated. Presumably there will be a change in the college name listed on diplomas. The expectation is that unification will make it easier for students to pursue multiple majors, minors, and participate in interdisciplinary programs. College advising within Arts and Sciences is already centralized. The proposed alteration will not have a major impact on College advising, career services, and major advising at the department level.

(g) An analysis of the budgetary consequences to all relevant units as a consequence of the proposal.

The April 2008 Review of the Colleges of the Arts and Sciences recommended a new budget model for Arts and Sciences -one in which the "resources of the current five colleges could be combined, providing more flexibility to enhance quality and academic excellence across the College and to move resources to respond to challenges and opportunities." The Provost has given the Executive Dean and Vice Provost for Arts and Sciences budget

authority for all Arts and Sciences resources. A budget model has been developed to allocate resources in a manner that elevates the stature of our academic programs, promotes collaboration, attracts and retains the best talent and assures and reinforces the quality of undergraduate and graduate education.

In past years, budget allocations were made to the five Arts and Sciences colleges by the Provost using the current budget system. The colleges then made allocations to individual departments and programs using a variety of different methods. Beginning this year, the combined budgets of the five colleges of Arts and Sciences were distributed to the Executive Dean for subsequent allocation by the Executive Dean to the three college divisions. Starting in spring 2010, budgeting from the College will be more department/program based. That is, an annual budget call will be made to department chairs and program directors, who will submit budget requests to the College that include proposals and requests for instructional and non-instructional related funds. Funds will be allocated to departments and programs after funding requests are collectively evaluated by the Executive Dean and the Divisional Deans. A portion of the budget will be kept at the center of the College to encourage cooperation and collaboration across units in the College. A portion of the budget will also be set aside for distribution to each Divisional Dean for needs that crop up throughout the year in the individual divisions. Throughout the year, the Divisional Deans will oversee the management of the budgets for the departments and programs within their divisions. In this system, budget planning each year will be guided by strategic planning and from a college-wide perspective.

The reorganization of Arts and Sciences has presented a number of opportunities for efficiencies and cost savings. Arts and Sciences has been able to eliminate 13 College and Executive Dean's office administrative FTEs. In addition, during Autumn 2008, Arts and Sciences engaged Navigator consultants to conduct an analysis of business processes in Arts and Sciences and to make recommendations to improve services to units; to standardize and streamline processes related to human resources, payroll, financial management, and procurement; and to deliver an efficient model that can serve as a standard for the university.

The Navigator report projected that the creation of business service centers provides the opportunity for service improvements, process efficiencies and reduced personnel costs. Recommendations for technology improvements offer additional opportunities for cost savings. The following table represents the potential 5-year savings relative to the Navigator recommendations.

Category Estimated	5-year Cost Savings
Purchasing Improvements	\$6,100,000
FTE Reductions	\$3,750,000
Technology Solutions	\$1,200,000
Service Center Efficiencies	\$800,000
Implementation Costs	(\$1,040,000)

Planning and implementation of the new model for Arts and Sciences, which includes shared service centers, is now underway. The estimated annual savings of approximately \$2 million will be directed to academic programs in Arts and Sciences.

- (h) **An analysis of the services lost to the rest of the university as a consequence of the proposal.**

The result of the alteration will be a net gain in services within Arts and Sciences, and a strengthening of bridges to areas outside Arts and Sciences within the rest of the University. No service losses are expected. The restructuring is expected to facilitate and improve inter-college and interdisciplinary programming and research due to a more centralized administration of the budget.

(i) An analysis of impact on constituencies external to the university, including alumni.

The expectation is that a centralized Arts and Sciences will elevate the stature and visibility of programs within the College internally, nationally, and internationally, and will strengthen the presence of Arts and Sciences within organizations such as the Association of American Universities (AAU), the Association of Public and Land Grant Universities (APLU), and national consortiums such as Imagining America: Artists and Scholars in Public Life. A strong Arts and Sciences presence will have tangible benefits with the state, with business and industry, and with alumni. Arts and Sciences will assist the Capital Campaign by increasing fundraising opportunities, highlighting the work of faculty and students, and linking Deans and faculty more effectively to donors. Alumni and development activities will be more closely coordinated, and undergraduate students will be made more fully aware of their privileges and responsibilities as OSU Alumni. Arts and Sciences will work to establish a high visibility in the state, and will open lines of communication to bring the importance of its programs home to the citizens of Ohio.

Outreach is being increasingly recognized as an important component of research, and the means by which The Ohio State University can show itself to be a national leader in higher education. Arts and Sciences has a long and rich tradition of outreach and engagement, particularly in terms of K-12 education. Faculty and students in Arts and Sciences will work with organizations and communities in strengthening educational and research partnerships on behalf of the common good.

(j) An analysis of the impact on governance at all relevant levels as a consequence of the proposal.

The College of Arts and Sciences is led by an Executive Dean for Arts and Sciences and Vice Provost. The major duties of the Executive Dean include managing a unified College budget, representing the College in meetings and at functions both on and off campus, fund-raising for the many units in the College, and strategic planning. In the role of Vice Provost, the Executive Dean has been given additional responsibilities to provide advice and counsel to the Provost on promotion and tenure recommendations and other campus-wide academic matters.

In addition to the Executive Dean, three divisional deans will head three divisions that make up the College: Arts and Humanities, Natural and Mathematical Sciences, and Social and Behavioral Sciences. Retaining the divisions recognizes the history and traditions of arts and sciences and also provides a convenient means for administering the College given its large size and great diversity. The goal, however, is to make the College department-and program-oriented and not division-oriented. The divisional deans will report to the Executive Dean and serve as the primary contact for the many departments and programs that make up the unified Arts and Sciences. Their major duties include the following:

- Faculty Recruitment

June 18, 2010 meeting, Board of Trustees

- Department Chair Selection and Evaluation
- Representation of Departments in ASC Discussions
- Divisional Budget Management
- Faculty Evaluation
- Divisional Academic Staff Management
- Membership on Key University Committees
- Divisional Strategic Planning
- Divisional Development Activity

While the Divisional Deans will have division-related duties, it is important to note that the goals and objectives of the unified College will be at the forefront of their considerations when dealing with issues related to the operation of the College and its units. They will often represent the unified College in areas relevant to their individual areas of expertise. Each Divisional Dean will be assisted by two Associate Deans, who will have responsibilities defined by the divisional dean as well as College-wide duties assigned by the Executive Dean in areas like research, space and facilities, graduate studies, undergraduate studies, faculty affairs, and international programs. An Associate Dean for Diversity and Recruitment will also be part of the administrative team. The existing position of Executive Associate Dean will, for the next two years, concentrate on matters related to semester conversion and curriculum. This position will be discontinued in 2012.

As noted above, to facilitate cooperation and collaboration between units in the College, the interdisciplinary programs that have in the past reported directly to the Executive Dean will be moved into appropriate divisions, and one of the Divisional Deans will serve as the contact dean for the programs and their directors. Some of the programs will remain independent with the director reporting to one of the divisional deans while other programs will be moved into departments if it seems likely that they would be better served being located closer to our traditional discipline-based departments. For example, with regard to the latter, the Director of the Center for Life Sciences education will report to the Divisional Dean for Natural and Mathematical Sciences.

The administration of the Colleges of Arts and Sciences is committed to the idea of shared governance in the College. Early in 2010, two task forces to make recommendations about college committee structures and faculty /staff student input on College matters were established. They currently are meeting to explore possible structures and functions of faculty and staff advisory and policy committees. Those committee recommendations to the deans on policies and procedures will be incorporated into a single Pattern of Administration for a unified College of Arts and Sciences. A number of issues will require faculty input, including: methods of accounting for the student credit hours taught by faculty to encourage collaboration and cooperation between units; creation of team teaching policies that enhance student experiences; development of flexible policies for course load assignments that help faculty balance their teaching and research responsibilities; creation and management of interdisciplinary programs involving units inside and outside the College; the recruitment and development of jointly hired faculty; and studying the curriculum development and change procedure especially in light of the ongoing move to a semester calendar.

The recommendation of the task force that focused on faculty involvement was accepted by the Executive Dean, without modification, and distributed to all ASC faculty on April 25, 2010. The Faculty Advisory Council (FAC) will consist of 17 faculty members: 12 elected (4 from each division), 3 appointed by the Dean, and the Chair of the ASC Faculty Senate and the Executive Dean.

The recommendations from the task force that focused on staff involvement have been received and are currently under consideration. For continuing student input, the Executive Dean will use the current Arts and Sciences Student Council as the base for a student advisory committee.

The matter of University Senate representation will need to be resolved, since the proposed alteration may affect the current distribution of delegates to the University Senate. No change should be made in this area until the University Senate determines the appropriate proportion for the newly configured College. An ad hoc committee of the University Senate has already been appointed to address this issue – to explore options and ultimately propose rule changes to insure that representation of Arts and Sciences faculty on the University Senate is not negatively affected by the alteration.

The change from five smaller colleges to one unified College has necessitated a variety of procedure and rule changes at the level of the university and college senate bodies. Indeed, the multi-step procedure laid out in the University Faculty Rules for creating the unified College currently is being followed.

The current reorganization process also has provided an excellent opportunity to assess the ways we deliver important services to faculty and students in several areas. For the most part, these services have been distributed to the level of the departments and the five existing colleges. Over the last few months, the effectiveness of how we deliver basic services to our students and faculty with an eye toward improving services while realizing financial savings, which then can be redistributed to the College departments to meet important needs and program development, has been examined. The process of combining the service offices of the five existing colleges into more centralized college offices that will be responsible for providing services to the faculty, staff and students of the unified college, is underway. These offices include finance and human resources (including the new Business Service Center), information technology, communications and marketing, alumni outreach and engagement, academic student services, and development. The goal is not to centralize all services; local delivery models are sometimes better than centralized models. Rather, a hybrid model where general oversight of the services will take place at the College level with some delivery and organization of the staff largely along department or division lines, is being used.

(k) An analysis of the impact upon diversity.

The impact on faculty diversity is expected to be positive. Arts and Humanities currently supports diversity in a variety of ways including through the work of a standing Diversity Committee. It also has the Arts and Humanities Minority Enhancement Program designed to enhance the social and intellectual climate for junior faculty of color. In addition, it has established a program for undergraduate students from underrepresented groups – the Program for Arts and Humanities Development - to encourage them to apply to doctoral programs. An Arts and Humanities-wide conference on “The Future of Diversity” was held on June 5, 2009, with wide attendance from all ranks of the faculty from both Arts and Humanities.

Arts and Sciences programs in the Social and Behavioral Sciences are part of a seven university alliance funded by the National Science Foundation (NSF) to improve the recruitment, retention, and professional development of under-represented students in the social, behavioral, and economic sciences, one goal being to increase the overall pool of minority faculty in

these fields. SBS has also increased its number of postdoctoral fellowships for candidates from underrepresented groups.

Former Dean of Biological Sciences, Professor Joan Herbers, is directing the NSF funded Project to increase the representation and advancement of women in academic science, technology, engineering, and mathematics at Ohio State. Arts and Sciences programs in the Biological, Mathematical, and Physical Sciences are central participants in that project.

As best practices are shared, the climate changes. There is strong effort in Arts and Sciences to grow diversity from the ground up: a central focus is being placed on faculty recruitment and retention for persons of color, on teaching and mentoring, on the quality of life for faculty who bring diversity to the campus in terms of race, sexual preference, nationality or in any other aspect, recognizing that the more success Arts and Sciences programs have in building diversity, the better the College of Arts and Sciences will be.

Moreover, the merger will make it easier for the University to recruit faculty successfully in situations where spousal hires are desired.

(I) An analysis of the impact on the academic freedom and responsibility of all affected faculty.

Academic freedom is a fundamental right for all faculty, regardless of rank. There will be no change for faculty in Arts and Sciences in terms of academic freedom and responsibility as a result of the proposed alteration.

Concluding Comments

During the 2009-10 academic year the Executive Dean has: met individually with every chair and director from the departments and programs that will make up the new, unified College; attended at least one faculty meeting of every department and school in the College; and conferred for many hours with the deans of the existing arts and sciences colleges, with the associate deans of the colleges, with staff from the colleges and from the Executive Dean's office, as well as with faculty and staff groups, other College deans, vice provosts, as well as the Provost and the University President. From all of these discussions, as seen in this proposal, some concrete ideas have emerged concerning the basic operating principles and procedures for the unified College.

However, there are many details concerning the restructuring that need to be worked out. The Executive Dean will continue to consult closely with faculty, staff and student advisory groups while working on these procedures, policies and details and to plan vigorously and aggressively push forward in a thoughtful way that is mindful of the long-term future of the new College.

We want The Ohio State University to have a College of Arts and Sciences that is dynamic and able to react to important developments in our many disciplines that reflect important changes and developments in academia. We want a College that encourages collaboration and cooperation among faculty and the units in which they are affiliated. The overall long-term goal for the reorganization of the College is a lofty one: the College should serve to enhance the research and teaching experiences of its faculty and students. Simply put, the College at The Ohio State University should strive to be among the best colleges of arts and sciences in the world.

June 18, 2010 meeting, Board of Trustees

(APPENDIX LV)

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
FISCAL AFFAIRS COMMITTEE**

June 17, 2010

TOPIC:

User Fees and Charges

CONTEXT:

By establishing User fees and charges for FY 2011 now, our students and other stakeholders will have ample time to plan ahead.

SUMMARY:

- Approval of room and board fee increase of 5.5%
- Approval of increases in selected existing program fees and new laboratory fees as described in the attached
- Approval of University Health System charges increase of 3.3%
- Approval of the Parking fee increase by an average of 5%

CONSIDERATIONS:

- How are we addressing continued uncertainty regarding the state budget?

REQUESTED OF FISCAL AFFAIRS COMMITTEE:

Approval of the attached resolutions regarding FY 2011 User Fees and Charges

June 18, 2010 meeting, Board of Trustees

**The Ohio State University
Board of Trustees
Fiscal Affairs Committee
June 17, 2010**

Approval of FY 2011 User Fees and Charges

- I. Differential and Supplemental Instructional Fees
- II. Summary of Proposed Fee Increases
- III. Student Life Fees
- IV. Health System Charges
- V. Summary and Conclusions

I. Summary of Proposed Differential Fee Increases for FY 2011

Differential instructional fee increases for other students will range from 3.5% – 9.0%, effective Fall Quarter 2010

Professional Association Fee			
Optometry (Annual Fee)	New	\$55	N/A

¹ Second year of phase-in for Medicine technology fee; no fee increase - Tier 2 added.

² Biological Sciences wishes to eliminate this fee and replace with lab fee, consistent with other programs in college.

³ In addition to increase, Nursing is adding two clinical courses to existing assessment list: Nursing 834 and 835.

⁴ These fees are currently being collected locally; colleges wish to have approved for central/system collection.

⁵ Social Work is incorporating cost of liability insurance in Field Practicum Fee (no additional cost to student).

⁶ In addition to the increase in the application fee, FCOB would like to implement a two-tiered application fee for MBOE (identical to that of the EMBA) requiring the fee increase to \$200 for applications received after June 30th.

Football Tickets - previously approve at Feb Bot

Basketball Tickets- previously approve at Feb Bot

Golf Fees - - previously approve at Feb Bot

increase of \$1 per game for all ticket groups, \$50 for faculty/staff/students. Tickets prices increase between 2.2% and 4.5% increased for faculty/staff and alumni membership dues, 2.7% increase for student and children of members under 1113, daily green fees remain unchanged. Annual tournament fee of \$40 approved.
 increased for faculty/staff and alumni membership dues, 2.7% increase for student and children of members under 1113, daily green fees remain unchanged. Annual tournament fee of \$40 approved.

Notes

1. Flat fee for 4 credit hours and above
2. Based on "Single Comprehensive Rate"
3. Flat fee for all enrolled students. \$15 per quarter to \$25 per quarter fee increase effective Winter 2010 was approved by the BoT in 2009.
4. \$20 to \$55 (2008 dollars) quarterly fee was approved by the BoT in June 2004 to pay the capital expenses for the new Union. Student union facility fee was implemented Spring 2010 at \$27 per quarter. Pro-rated for part-time.
5. The difference in the Student union facility fee for undergraduate compared with graduate/professional is a function of SIS requirements associated with definition of fulltime status.
6. Undergraduate weighted average room rates plus basic meal plan, based on projected Autumn room configurations.
7. chart representative of some of the available permit options. Additional options and associated increases also apply

IV. Health System Charges

- a. The FY 2011 weighted price increase for the Health Systems is estimated to be 3.3%.

- b. The Health System budget will be presented in its entirety at the September Board of Trustees meeting.

V. Summary and Conclusions

- A. Instructional and general fees for Columbus and regional campuses were approved at the May 2010 Board of Trustees meeting
- B. The Current Funds Budget book will be presented at the September Board meeting.
- C. Approval of the Interim Operating Budget will be requested as a separate item of today's meeting.
- D. All fee increases will be effective Fall Quarter 2010, unless otherwise indicated.
- E. Hospital fee increases will be effective July 1, 2010.

June 18, 2010 meeting, Board of Trustees

(APPENDIX LVI)

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
FISCAL AFFAIRS COMMITTEE**

June 17, 2010

TOPIC:

FY 2011 Interim Budget

CONTEXT:

The finalization of the FY 2011 budget is pending notification of the state subsidy funding level from the Board of Regents.

Approval of the attached interim operating budget is requested authorizing the University to make expenditures consistent with the level of resources approved for FY 2010, pending the adoption of the Current Funds Budget for FY 2011 at the September Board of Trustees meeting.

CONSIDERATIONS:

- Will this allow the University adequate flexibility to continue to operate effectively while the budget is being finalized?
- Does this allow the University to accomplish its academic mission?
- How is the University preparing for other contingencies?
- How will we continue to keep the BOT informed of both internal and external budget impacts?
- What should the Board expect in September?
- What happens next?

REQUESTED OF FISCAL AFFAIRS COMMITTEE:

Approval.

University Hospitals East – Ambulatory Care Center

OSU-100255

Project Location: 543 Taylor Avenue

Approx. 136,000 GSF

- **approval requested and amount**

design	\$0.6M
construction	\$3.9M
- **project budget**

construction w/ contingency	\$3.9M
<u>other costs (design, commissioning)</u>	<u>\$0.6M</u>
total project budget	\$4.5M

- **funding sources**
Auxiliary funds – Health Systems
- **project schedule**

design	08/10 – 12/10
construction	02/11 – 05/11

- **project scope**
 - this is an enabling project for ProjectONE – Cramblett Hall Demolition
 - occupants currently in Morehouse will relocate to the Ambulatory Care Center, allowing the current occupants of Cramblett to move to Morehouse
 - renovate existing three-story building, approximately 136,000 SF
 - renovation includes finish upgrades and minor MEP upgrades
 - services and occupants include orthopedics, physical therapy, spine center, cardiac rehabilitation, departments of Family Medicine, and Internal Medicine, College of Dentistry and College of Optometry
- **project status and update**
 - OSUMC Real Estate is finalizing the purchase of the former Veterans Administration Clinic on Taylor Avenue
 - project design is anticipated to start in August

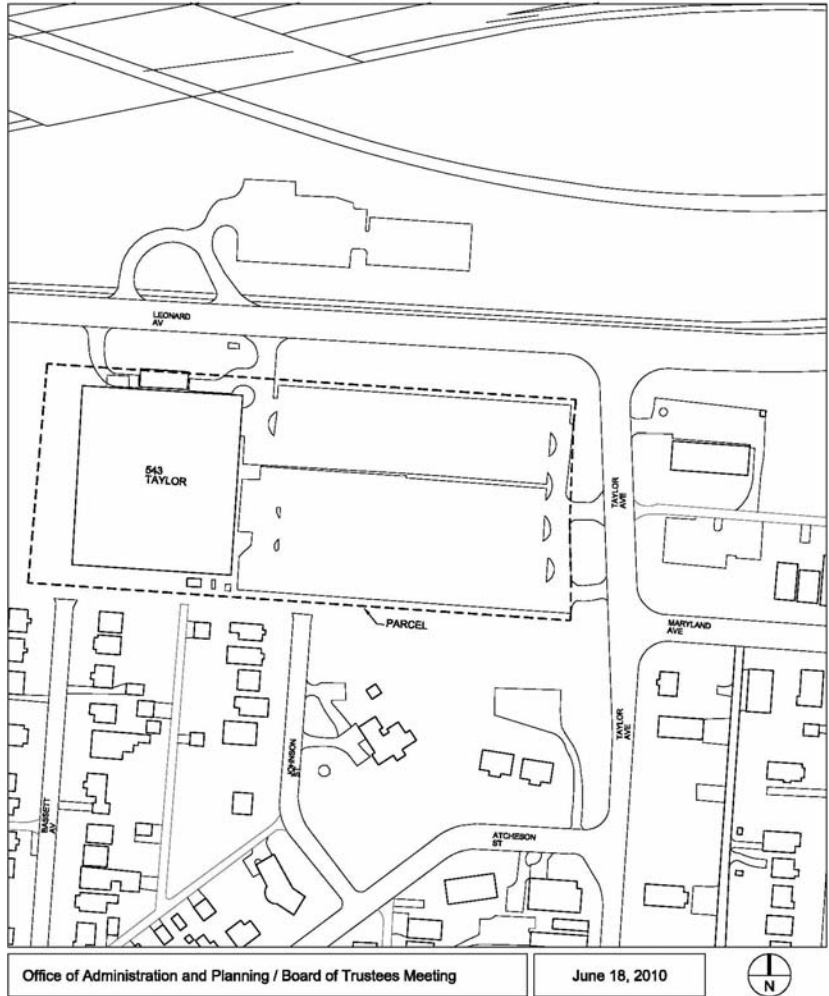

- **project team**

requesting agency:	University Hospitals East

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
FISCAL AFFAIRS COMMITTEE**

PURCHASE OF REAL PROPERTY

543 TAYLOR AVENUE
(FORMER CHALMERS P. WYLIE VA CLINIC)
COLUMBUS, OHIO 43203

Location and Description

The University is presented with the opportunity to purchase real estate located at 543 Taylor Avenue, Columbus, Ohio. The property is located at the intersection of Taylor and Leonard Avenues. The site is visible from the I-670 Expressway, has excellent access from I-670 and is in close proximity to University Hospital East. The property is being offered for purchase by iStar HQ 1, L.P., a Delaware limited partnership.

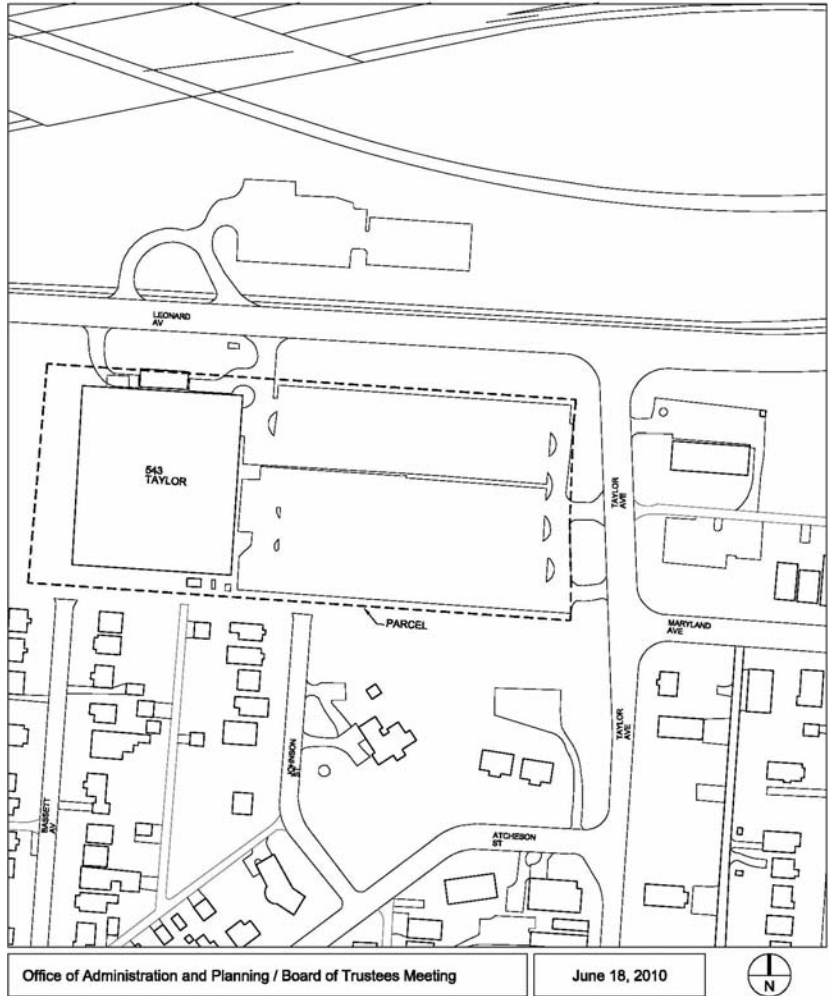

The property formerly known as the Chalmers P. Wylie VA Clinic has been owned by iStar HQ 1, L.P. ("iStar") since May, 2002. The Veterans Administration ("VA") is currently a tenant in the building. The property consists of approximately 4.981 acres, improved with a three-story medical clinic office building constructed in 1994 with approximately 136,000 gross square feet and surface parking. The property has been appraised by two MAI appraisers, Ohio Real Estate Consultants, Inc. and The Robert Weiler Company. It is expected that the appraised value of the property will be between \$11M and \$12M. The University has a commitment letter from the VA to pay the University a release and vacate fee which is based upon its current lease rate and the unexpired term of its lease with iStar. The University and the VA have agreed to terminate the lease upon the University becoming the owner of the property. The release and vacate fee will partially offset the purchase price of the property.

Use of the Property

It is the intention of the University to acquire this property to accommodate the need for Ambulatory Care Services consistent with the Medical Center's strategic plans for providing convenient and accessible medical services. The services offered at the facility will include Orthopaedics, Family Medicine, Internal Medicine, Occupational Medicine, Spine Center, Cardiac and Pulmonary Rehabilitation, Physical Therapy, Dentistry, Optometry and Imaging. The cost for acquisition of the property and alterations will be funded by Medical Center capital, loan from the University, and Medical Center operating revenues.

PURCHASE OF REAL PROPERTY, 543 TAYLOR AVENUE, COLUMBUS, OH 43203

**The Ohio State University Health System
The Need for a Strong Budget**

- **Invest into the 3 mission areas of OSUMC**
- **Protect the University's credit rating**
- **Provide sufficient cash flow to:**
 - **Service the debt**
 - **Invest in equipment and facilities**
 - **Invest in the three missions; clinical, education and research**
 - **Build cash reserves**

The Ohio State University Health System 2011 Budget – Key Tenets and Targets

- The Budget continues to build debt capacity needed to fund Project One.
- The Budget recognizes unprecedented uncertainty with Health Care Reform, reimbursements, and the employment outlook.
- The Budget produces financial results which meet Board approved targets.

Current Financial Targets

Operating EBIDA Margin	10.0 to 12.5%
Days Cash on Hand	Incr. 3 to 5 days/yr
Debt Service Coverage	> 4.0 Times

These targets are required to move forward with Project One and program investments

Pg 3

The Ohio State University Health System Establishment of FY11 Budget

- The 2011 preliminary budget was set in the long range financial planning (LRFP) process one year ago.
- The LRFP was presented to the Medical Affairs Committee in September, 2009. It covered the years FY10 to FY18.
- At the Health System level, targets were set during last year's plan and are still appropriate for FY11.
- Modifications have been made at the unit level to reflect expected activity levels, reimbursement rates, and salary and inflationary assumptions.

Pg 4

The Ohio State University Health System Significant Environmental Issues

- Impact of Health care reform on FY11 budget
 - Many of the significant provisions of reform do not take effect until 2014 and beyond. However, payment reductions effective in 2010 and 2011 have been factored into the budget.
 - April 2010 - .25% reduction in Medicare rates
 - October 2010 - .50% reduction in Medicare rates
- State budget issues
 - Ability of Governor and Legislature to close projected shortfalls without impacting Medicaid payment rates.

Pg 5

The Ohio State University Health System Significant Environmental Issues – cont'd

- RAC (program mandated by Congress to identify and recover Medicare overpayments) is rolling out in Ohio at this time. The impact of this program on revenue is still uncertain.
- Integration of physicians into an employment model at the Medical Center. There is no specific provision in this operating budget for any impact of integration.
- Project One is assumed to have minimal impact on the operating budget, apart from financing and interest rate impacts.

Pg 6

The Ohio State University Health System 2011 Budget Assumptions

- Developed based on internal and external assumptions
 - Volumes
 - Admissions – 2.8% Increase
 - Outpatient Visits – 9.0% Increase
 - Emergency Room Visits – 2.7% Increase
 - Surgeries – 3.8% Increase
 - Rates
 - Gross Price – 3.34% Increase
 - Government Payers - Medicare (-0.5%) and Medicaid (5.0%)
 - Managed Care (United, Anthem, Aetna, etc.) – 4.0% to 7.0%
 - Inflation
 - Wages and benefits – 2.8% Increase
 - Supplies and Drugs – 4.0% - 5.0% Increase
 - Other Services – 4.0% Increase
 - Payer Mix and Case Mix – No change

Primary drivers of our budget are volumes and rates

Total Liabilities & Net Assets	\$1,319,431	\$ 1,088,028	\$ 1,343,953

Pg 15

The Ohio State University Health System Consolidated Statement of Cash Flow (in thousands)

	FY 11 Budget	FY 11 LRFP Original
Cash Available from Operations	\$ 212,761	\$ 209,509
Uses of Cash		
Long-Term Debt Payment	\$ 24,576	\$ 23,719
Capitalized Interest	2,083	\$ 5,761
Growth In Cash	33,552	31,029
Routine Capital	70,900	* 69,000
Medical Center Investments	81,650	** 80,000
Total Uses of Cash	\$ 212,761	\$ 209,509

* \$99.4 million of new projects approved in 2011. Including the payments on both previous and current year commitments, anticipated leasing of \$17.9 million and use of other capital funds operating cash flow will provide \$70.9 million of routine capital in 2011.

** \$81.65 million of total Medical Center Investments will be funded from Health System operating cash flow.

Project ONE Funding Review

Funding Commitment Schedule by Month Thru October 2010

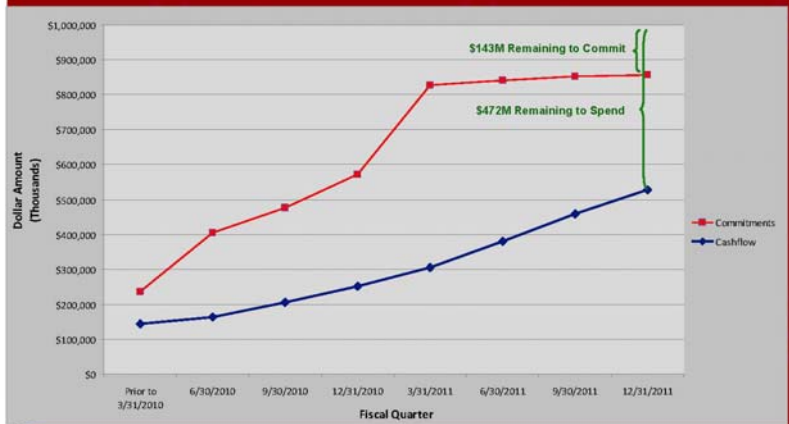

Funding Release Request

Award Date	Major Construction Packages	Commitment
June 2010	Construction Contracts for Major Building Systems, Curtain Wall, etc and Infrastructure Enablers	\$ 168.64 M
July 2010	Early Purchase Major Building Equip. Deep Foundations and Enablers	\$ 49.77 M
Sept 2010	Foundation & Cores	\$ 18.03 M
Oct 2010	Structural Steel and Frame	\$ 57.72 M
Total Funding Request		\$ 294.16 M

Contract Commitment Schedule thru CY2011 by Quarter

Circuit Breakers: Deductions

Potential Deductions

Decision Date

Reduce & Lock Contingency	\$ (6.90) M	May 2010
Additional BRT Reductions	\$ (21.50) M	May 2010
Fit-out of Ambulatory Care	\$ (18.10) M	Dec 2010
South Terrace	\$ (1.00) M	Jan 2012
Vegetative Roofs	\$ (0.50) M	Jan 2012
Equipment & FFE	\$ (12.00) M	Jan 2012
Acute Build-Out (36 - 216 Beds)	\$ (10.66) M – (63.96)M	Jan 2012
Total Potential Deductions	\$ (70.66) M – (123.96)M

The Framework planning process engaged stakeholders representing academics and research, the arts, athletics and recreation, health sciences, residential life, the Olentangy River, transportation and parking, sustainability, energy and infrastructure, and university area neighborhoods. University trustees, leaders, and members of the campus community also participated.

PRINCIPLES

FRAMEWORK PRINCIPLES

THE OHIO STATE UNIVERSITY

FRAMEWORK PRINCIPLES

ONE UNIVERSITY

- Be trans-institutional
- Ensure academic mission drives the physical environment
- Integrate strategic, physical and financial planning
- Concentrate activity

This slide features a red header with the Ohio State University logo and a black footer. The main content is a white box with a red border containing the title 'ONE UNIVERSITY' and a bulleted list of four principles. The entire slide is set against a background of red and black vertical bars.

THE OHIO STATE UNIVERSITY

FRAMEWORK PRINCIPLES

ONE UNIVERSITY

- Be trans-institutional
- Ensure academic mission drives the physical environment
- Integrate strategic, physical and financial planning
- Concentrate activity

CAMPUS LIFE

- Create a 24/7 campus
- Improve existing on-campus residential districts, do not create new ones
- Recognize the whole campus as part of the learning environment
- Enhance neighborhoods in support of live/work philosophy

This slide features a red header with the Ohio State University logo and a black footer. The main content is a white box with a red border containing two sections: 'ONE UNIVERSITY' with four bullet points and 'CAMPUS LIFE' with four bullet points. The entire slide is set against a background of red and black vertical bars.

FRAMEWORK PRINCIPLES

ONE UNIVERSITY

- Be trans-institutional
- Ensure academic mission drives the physical environment
- Integrate strategic, physical and financial planning
- Concentrate activity

CIVIC INFRASTRUCTURE

- Invest in infrastructure, transportation, transit, and openspace
- Develop a pedestrian core
- Make the campus navigable with a restored street network and dynamic wayfinding
- Park once (or not at all) using remote reservoirs

FOUNDATIONAL STRATEGIES

Concentrate Academic Activity

We must concentrate activity in the regenerated core campus. Compact development promotes the creation of knowledge; many of the best new ideas are trans-institutional. We will focus energy, not allow it to dissipate. Our entire campus is part of the learning environment. By making big small, we encourage community, interaction, synergy, and collaboration. A compact core is more efficient and sustainable, with a smaller carbon footprint and minimized infrastructure needs. It is a neighborhood with a vibrant, active, 24/7 pulse aimed at educating the whole student and promoting faculty and staff success.

Regenerate the Core

The challenges we face – a substantial deferred maintenance liability, sustainability commitments, and an increasing self-reliance for capital dollars – render a pure growth model obsolete. Stewardship is therefore an imperative. Our issue is not the quantity of our academic space; it is the quality of that space. Given our current enrollment assumptions, more is not better. We therefore propose: no net new academic space. This does not prohibit building new buildings, nor does it preclude appropriate growth of key support functions like the medical center or residential life. Instead, it focuses core mission investment in replacement, adaptive reuse, and renovation, ensuring the long-term health of the institution while reinforcing all academic programs.

Invest in Civic Infrastructure

People and programs make a university great, but that success is not possible without the support of the sometimes invisible systems that power our buildings, connect us to our community, and organize the spaces which form our experiences. We must invest in our civic infrastructure: transportation and parking, transit, open space, and infrastructure. The Ohio State University is in effect a city. No city can flourish without a navigable street network, a dynamic wayfinding system, convenient and sustainable transit, appropriate parking, working open spaces, reliable pipes, and functioning sewers. Civic infrastructure must also be thought of as an integrated system; what happens below ground affects our streets and buildings and vice versa. We envision a pedestrian core campus; to achieve this, we must park once (or not at all) in parking reservoirs around the campus edges, enable convenient, reliable transit, and promote alternative transportation options. If the Framework is about creating an agile and flexible university environment, then a commitment to, and investment in, civic infrastructure is the engine behind the idea.

Transform the River & Green Reserve

Green space is a critical component of our civic infrastructure. The Olentangy River is the geographic center of the Columbus campus, and as such represents a singular opportunity. A transformed river corridor performs many important functions: an active research and learning corridor; a pastoral recreation zone; and a highly functional infrastructure conduit enabling multi-modal transportation, stormwater management, a continuous regional open space network, and renewable energy through geothermal wells. The restored stream tributaries and associated open space elements comprise the green reserve and are critical contributors in this regard. The re-imagined river is the perfect symbol for One University; it could be our next Oval for the coming 100 years.

Strengthen Connections & Identity

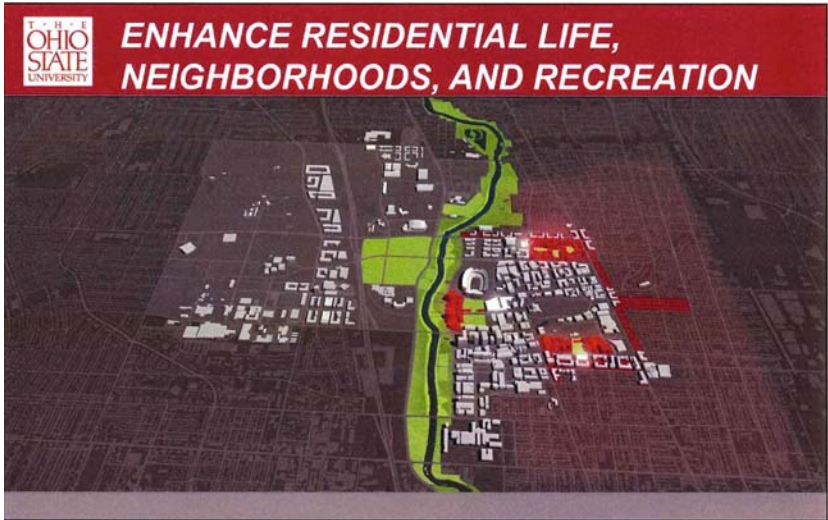

The Framework highlights four key corridors that, along with the river, connect us internally and to our broader community, and by so doing, shape our institutional identity. Neil Avenue is the *academic main street* of the campus. The Oval must be enhanced as the historic center of academic life. Like the Oval, Neil Avenue should draw people together and enable interaction and innovation. Neil Avenue should also become a major transit spine.

The *science and technology gateway* stretches down Lane Avenue. The parcel with strong adjacencies to the academic core should be reconstituted for science and technology, highlighting our land grant mission and strengthening academic connections.

Kinnear Road should extend across the river as the *research and health sciences gateway*. The corridor would provide critical frontage for research park opportunities and partnerships, and it should become a primary conduit for the Health Sciences district.

High Street, which connects the university to downtown Columbus, must become our *cultural corridor*. Three vital pulses along High Street are proposed: a consolidated arts district at 15th Avenue and High Street, a reinforced South Campus Gateway, and a residential and retail hub at the intersection of Lane Avenue and High Street.

These connections are further reinforced by the proposed long-term relocation of SR-315 into a single transit corridor including the existing rail line, timed to coincide with needed major renewal investment, in support of transit-oriented development and national green infrastructure initiatives.

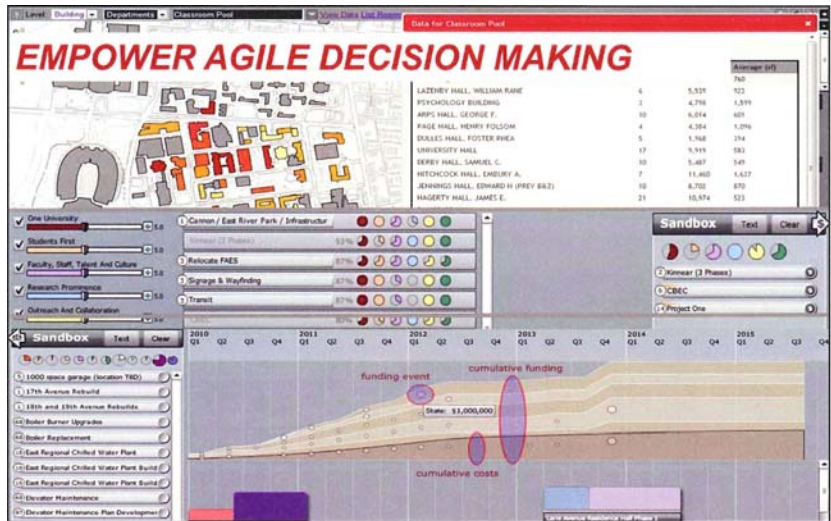

Enhance Residential Life, the Neighborhoods, & Recreation

We must provide an exceptional experience for all our students and promote a dynamic environment for faculty and staff. Residential students perform better academically, have higher retention and engagement rates, and often become more active alumni. What happens outside the classroom affects academic success. We therefore need a strong program-driven residential vision with supporting recreational amenities that creates a 24/7 campus and live/work/learn communities for all our populations. *On-campus housing* must be strengthened by investing in existing North, South, and River residential districts, transforming each into a vibrant neighborhood, primarily for undergraduates. Lane Avenue and High Street provide *campus adjacent* partnership opportunities for upper division, graduate, and professional students. The parcels between 10th and 11th Avenues are great locations for graduate and professional students, faculty, and staff, particularly those learning and working in the adjacent Health Sciences district. The university must partner with the city and the private sector in the *neighborhoods* surrounding the campus to develop housing options with strong living-learning components and to enhance our neighborhoods in support of our live/work philosophy as well as a multi-generational goal of bringing 5,000 additional faculty and staff living closer to campus.

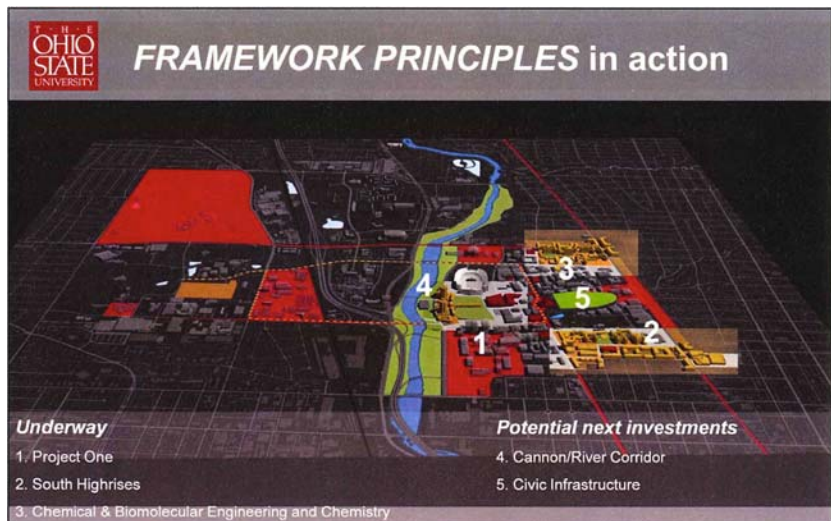

Promote Partnerships

The university can only achieve its goals by leveraging its size, intellectual capital, and people through partnerships. Partnerships with the public and private sectors must complement the concentration of our core campus. This is fundamental to our notions of fostering trans-institutional knowledge and vibrant communities.

Empower Agile Decision Making

Our academic mission drives how we shape our physical environment. Success depends on an integrated approach to planning, coordinating strategic/academic, physical, and financial issues into a process that can respond to changing circumstances. We will shape our organizational behavior around this integrated model, streamlining procedures, from planning through project delivery. We must become more agile in our decision-making. Wise decisions are evidence-based and transparent. For this, the Framework makes data accessible by providing interactive tools to visualize the use and condition of our space, prioritize potential projects by aligning them to achieve multiple goals, track regeneration goals for existing facilities, and sequence multi-sourced capital investments over time.

RESOLUTION

Adoption of the One Ohio State Framework including physical planning principles and a long-term vision for the Columbus campus as presented herein is proposed.
