

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND TWENTY-THIRD MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, July 7, 2006

The Board of Trustees met at its regular monthly meeting on Friday, July 7, 2006, at The Ohio State University Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **

July 7, 2006 meeting, Board of Trustees

The Chairman, Judge Duncan, called the meeting of the Board of Trustees to order on July 7, 2006, at 11:05 a.m. He requested the Secretary to call the roll.

Present: Robert M. Duncan, Chairman, G. Gil Cloyd, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, Robert H. Schottenstein, Yoonhee P. Ha, and Christopher Alvarez-Breckenridge.

--0--

INTRODUCTION OF NEW STUDENT TRUSTEE

Judge Duncan:

Good morning. We'd like to welcome this morning our new student trustee, Christopher Alvarez-Breckenridge. Christopher was just appointed by Governor Taft as the graduate/professional student member of the Board for a two-year term, replacing Chad Endsley. Christopher is from Blacklick, Ohio, and received his undergraduate degree – summa cum laude – from Ohio State in biology and classics. Christopher, we look forward to working with you and congratulations.

--0--

PRESIDENT'S REPORT

President Karen A. Holbrook:

I have a few announcements and then I will offer my report. I, too, Chris, want to welcome you. I have had the privilege of knowing Christopher for a long time during his undergraduate years and can absolutely assert that we are extraordinarily lucky that you are joining the Board. Thank you very much; you will be a terrific addition.

I have a couple of other announcements to make. It is my pleasure to introduce to you this morning the new dean of the College of Medicine, Dr. Wiley Souba -- better known as "Chip" Souba. Dr. Souba, would you stand so we can recognize you?

Dr. Souba comes to us from Penn State where he serves as the chairman of the Department of Surgery, surgeon-in-chief at the Milton S. Hershey Medical Center, director of the Penn State Hershey Center for Leadership Development, and is the Waldhausen Professor of Surgery. Dr. Souba is a surgical oncologist who is the author of more than 300 articles, 60 book chapters, and the editor of two textbooks. He is currently serving as the editor of *The Journal of Surgical Research*. In addition to his scientific scholarship, he is known for his work in leadership development in academic medicine.

Dr. Souba earned his bachelor of science degree in chemistry from Muskingum College in New Concord, Ohio. You may recognize this school as a source of wonderful people -- Senator John Glenn and William Oxley Thompson, who received his degree in 1878. So you are in good company and we are delighted to have you at Ohio State. Dr. Souba also earned his M.D. degree from the University of Texas Medical School in Houston, a doctor of science degree in nutritional biochemistry from the Harvard School of Public Health, and his MBA from Boston University School of Management.

After residency at the University of Texas, and fellowships at the Dana-Farber Cancer Institute in Boston and the M.D. Anderson Hospital in Houston, he joined the faculty at the University of Florida, College of Medicine. In 1993 he moved to Harvard Medical School as professor of Surgery and Nutrition, and chief of the Division of Surgical Oncology and director of Surgical Oncology Research Labs at Mass General.

July 7, 2006 meeting, Board of Trustees

Dr. Souba will report to Dr. Sanfilippo for administrative and fiscal matters and to Provost Snyder for academic matters. Later in today's meeting, with your approval, Dr. Souba will join us officially on August 14. Dr. Souba, I am delighted to welcome you to The Ohio State University. I know Fred would like to add a few comments of his own and then we will all warmly welcome you.

Dr. Alfred P. Sanfilippo:

Chip is the true triple threat. In the academic medicine world, we are always looking for a triple threat -- someone who is great in research, education, and patient care. As you have heard from President Holbrook, Chip fits the bill in all three areas. He is a well-known surgical oncologist, having been chief of surgical oncology at Harvard; a well-known investigator with ten years of continuous funding from the NIH; a tremendous amount of publications; great notoriety; a Ph.D. in his own right; and a great educator.

His education has been in the area of leadership. He has written some seminal papers on leadership and academic medicine, has an MBA degree, and his focus is on leadership. As President Holbrook said, he leads the Leadership Development Institute at Penn State. It is pretty rare to have somebody with this type of impact and achievement in these three areas.

Personally, I am absolutely delighted for the Medical Center and the University to have Chip coming on board as dean of the College of Medicine.

President Holbrook:

Chip, welcome.

Dr. Wiley Souba:

Thank you very much. My family and I are truly excited about coming to Columbus. My son will be going to the University of Pittsburgh, so he will only be about 4 hours away by car and my 13-year-old daughter just found out yesterday that she will be going to the Columbus School for Girls beginning in August. We have found a place to rent and my wife is very excited.

My main interest in this position is the incredible track record and history of Ohio State in conjunction with the Medical Center, which is now on a trajectory to greatness. Fred has a great leadership team in place and this is a very elite group to work with. I am excited to join you and help work with you to take the University and the Health Sciences to the next level. I really believe that we can achieve this.

Let me conclude by saying how deeply I appreciate this chance to work with all of you. People, and the relationships that we create, are what has helped me so much. If you will excuse me, Fred has more work for me to do. Thank you very much.

President Karen A. Holbrook:

Thank you, Chip, and welcome.

I would also like to announce the new faculty leadership for this year. Dr. Alan Silverman, the new chair of Faculty Council, is not here today, but we do have with us Dr. Harald Vassein, from biological sciences, who is the new chair of Senate Steering. Dr. Vassein, would you stand so we can congratulate and welcome you?

We also have with us Mr. Jay Young, the incoming president of the University Staff Advisory Committee. Jay, would you please stand? Jay Young is replacing Joanne

July 7, 2006 meeting, Board of Trustees

Weston who we said goodbye to at the last meeting. Welcome, we are very glad to have you.

I chose my remarks today based on what is going on in the state, what is going on nationally, and to correlate with Bill's presentation of the budget today and a number of things you have been hearing about. I have entitled my remarks "Accountability." This is not a new topic, it has been around in higher education for many years, but it has arisen, again, in a different form. Typically when we talk about accountability, we talk about fiscal accountability. The new way to look at accountability in higher education is more focused on student learning.

I thought I would mention a few things that are going on and, particularly, spend my time talking about the report of the Spellings Commission. This is a new report that was put together at the federal-level and has just come out with its findings. I think you will find them somewhat disturbing and relevant. You can also see where Ohio State fits into what the nation, under the Secretary of Education, thinks of higher education.

In the middle of June, the Ohio Board of Regents held a conference on higher learning accountability and performance in higher education. This was a day long conference that looked at what are the methods for learning assessments and how do you measure value-added? You are going to hear the word "value-added" a great deal and it is something that people are focusing on. What is the value-added when a student comes to college and then leaves? What is that value-added in between? We believe public education is doing a great deal for value-added in comparison with private organizations where very bright students come in and leave as very bright students. How much value-added do they get out of the experience versus students who come in -- who are also very bright -- but take away a very strong experience in our public institutions? This is what the Board of Regents talked about. Another question was "Should legislators become concerned with learning outcomes and should they legislate approaches?" That was asked at the state-level, but it is an important question because it is also asked at the federal-level.

The next report I want to mention is the NASULGC Report – the National Association of State Universities and Land-Grant Colleges, the major organization for our land-grant schools. They have defined a new agenda under new leadership. One is the challenge of improving student learning, which they believe is at the very core of the value system in the academy. They have published a paper that is entitled, "Toward the Value Standard for Public University Accountability" and have outlined a number of goals.

First they believe that public education has to be committed to strengthening learning. Fulfilling that commitment will involve a number of changes in the Academy that will need to be done at the state and federal levels, and with accrediting bodies. They are recommending that there be put in place a voluntary system of defining outcomes.

One of the suggestions from the Spellings Commission is that there be a university-wide, nation-wide test of graduating seniors. Most people believe that is not a good thing to do because our institutions are so very different in terms of mission that it doesn't make sense. But could we put in place a voluntary system of defining outcomes for universities based on the differentiation of our different university systems. NASULGC also said that the different assessment tools that we already have available should be taken into account.

NASULGC also recommends something that the Spellings Commission came up with that, I think, is very important -- a national unit records system for tracking students' success. What that means is that every student when he or she enters college will have a unit tracking system that will follow that individual all across

July 7, 2006 meeting, Board of Trustees

whatever schools he or she may attend. Whether these students are in four, five or six schools; or whether they step out for a period of time and come back. This means we will have real data on graduation success rates and data that are important. The data we use now looks at first time students that go into college and follows them through school. It doesn't take into account late learners, step out students, or part-time students. I think this is a very important recommendation.

I am going to read a quote which is very important and then go on to talk a little more about the Spellings Report. According to the NASULGC Report, "The goal is to break this dysfunctional cycle of public expectations and greater demands for accountability and replace it with thoughtful, voluntary accountability processes that provide the necessary performance indicators to government entities and the information that is desired by the public. So the appropriate feedback to faculty who design the curriculum can be made available and so that undergraduate learning can truly be improved; students can graduate with the skills and knowledge necessary to succeed." I think our students do graduate with skills and knowledge, but the Spellings Commission does not come up with that same conclusion.

Within the last year, there have been many different reports on: value-added modeling; value-added assessment; accountability for better results; national imperative; and American higher education does not measure up in the 21st century claiming the common ground that state policy making for college readiness and success. All of these are looking at a variety of things: Are young people getting what they should get out of college? and Is there a good transition between high school and college? These are all very important topics.

Let me tell you how the Spellings Commission starts out and its report on accountability and higher education. They state that there are troubling signs of peril in America's education market becoming reduced and services characterized by obsolescence. The Organization of Economic Cooperation and Development -- OECD -- now ranks the United States 7th in the world, where we used to be 1st in terms of some adults with post-secondary education. They prompted the statement that "the successes in higher education of the past have led the United States to unseemly complacency about the future in a time when higher education is the principal means to personal and societal advancements." They go on with things they believe are unfavorable.

Let me tell you what the goals are of the Spellings Commission: 1) to assure that we have a world-class education system that prepares citizens and creates new knowledge accessible to all qualified students in all stages of life regardless of their financial situation; 2) that colleges and universities are productive and efficient so they can be affordable to students, taxpayers, and donors that support them; and 3) that they have a system that gives Americans the skills needed to adapt to a rapidly changing economy and can contribute to the innovation of global competitiveness.

According to this Commission, America's education has become increasingly risk-averse, frequently self-satisfied, and unduly expensive. They say, "We have not confronted the fundamental issues of transforming to serve, changing educational needs, confronting the impact of globalization, accepting rapidly evolving technologies, accommodating a diverse and aging population, and meeting the new needs and paradigms of an evolving marketplace." They believe we need reforms in colleges and universities, accrediting bodies, governing boards, the business communities, and parents and students themselves. I am not sure what has been omitted from that, but a large number of people in the Spellings Commission need to take a look at that.

They came up with four specific goals and the topics are what we always talk about in accountability, are very important, and do give some recommendations that are useful. Their first goal -- a very important goal -- is: access to higher education. They say right now that students are limited to higher education access because

July 7, 2006 meeting, Board of Trustees

they are not well-prepared, there are financial barriers, and our colleges and universities are not well-aligned. They talk about alignment in terms of what professors and high school teachers think of the preparedness of students. There is a major discrepancy with professors saying that students are not prepared and high school teachers saying yes they are quite well prepared.

It has been demonstrated that 40% of students in four-year institutions take remedial classes; and 67% of students in two-year schools take remedial classes. This is at a cost of \$1 billion each year and a cost of \$16 billion in not having students ready to go on to college or into the workplace and needing to be re-prepared for either place they go.

Recommendations on this and access are that K-12, post-secondary systems, and state policymakers must all work together to improve college preparation, its growing success, and we need data on persistence. We know that the governor's Ohio Plan for changing the curriculum is one of those things that align the curriculum of high school with the curriculum in college with a sense that all students coming out of high school would be college and work ready. High schools need to be accountable for preparing the students and the state should provide, according to the Spellings Commission, incentives to higher education to work with K-12. K-12 teacher-preparation needs to be overhauled and the transfer of credit needs to be much easier for the students that, again, either step out or transfer from one college to another as it is wasteful for them to retake courses. They need to reduce financial and non-academic barriers, such as students not being aware of college activities and not having role models and career expectations.

The second topic that the Spellings Commission took up was affordability. They pointed out that over the last twenty years, tuition has increased 200%. It has outstripped every other rate of inflation per capita income, consumer prices and even health insurance over that period of time. We must be more cost effective.

Their feeling is that there is little incentive in institutions to control costs and find innovative ways to teach students. As I said, this is a negative report, but, I think, our University can come back with a rebuttal on many of these things. Nonetheless, it is a report that stands and is being looked at by Congress. American higher education leads the world in cost -- almost two times as much -- of any other industrialized nation according to the OECD.

They point out that: we under utilize our physical facilities -- many times they are not utilized on weekends or evenings; our doctoral programs under enroll and duplicate. We can feel good about what we are doing here for doctoral education to be more efficient and cost effective. They also claim that we fail to use technology to lower instructional costs. One of the other things you will appreciate is that there are seventeen different federal programs that provide financial aid that are not coordinated and are very inefficient. I think their recommendations here are very good.

What they are encouraging under this category is that there is a more focused program of cost cutting and productivity improvements, and that tuition should not rise more than family income. Technology should be used to reduce costs. College experiences that students have at advanced placement, early college enrollment, dual enrollment, and early college programs should be cost saving mechanisms. Students should focus on two-year schools early on and less expensive alternatives that transfer easily.

A complete overhaul of the federal financial aid system is recommended and that it should be consolidated, streamlined, and the FAFSA eliminated, so students don't have to fill out these overwhelming application forms for financial aid. They suggest -- and this is their exact suggestion -- that a post card-size application would do. Most of the data needed on the FAFSA comes straight off of income tax forms and

July 7, 2006 meeting, Board of Trustees

these long application forms do not need to be filled out. They are looking at a complete restructuring of the financial aid system to allow students greater access. I think this is a wonderful idea.

The third topic is quality innovation. They are saying quality is inadequate and declining in some colleges and universities, and they describe a campus culture that seems to promote under-achievement, anti-intellectualism, and excessive socializing. Employers report that our graduates are not prepared. They have to be re-prepared with new critical thinking skills and we do not have the skills to keep students at any age in the work force throughout their lives. Data from the National Assessment of Adult Literacy demonstrate that our students are not as prepared as they should be and our standards for teaching are not up to speed.

Talk about general education has become a lost art in many colleges in that a liberal education is being phased out in favor of more professional and technical education. Grade inflation is a problem for some universities. They say that faculty are not taking advantage of information that is real research on how people learn and using those data and applying it to their teaching. They say that universities have failed to seize opportunities for innovation. They cite us as being some of the most innovative organizations in terms of what we do in research, but we don't necessarily apply that to our own rules or activities within the university.

They point out -- and, I think, you all will agree with this -- that there are more than 200 federal laws that the institutes for higher education need to comply with. Many of these are real regulatory burdens that are very costly. We saw that today in the budget looking at a lot of scarce resources being applied to comply with more than 200 laws.

Again, credit transformation transfer is important. What they recommend is that a federal fund be established to provide incentives for effective teaching that is research-based. We would embrace new pedagogies and curricular technologies to improve student learning especially in science and math.

Also proposed is that the Secretary of Education would develop a national strategy for our citizens to continually update their knowledge throughout a lifetime. A nation-wide pilot would be put in place where accounts would be set aside -- very much like the Earn to Learn in Ohio -- for individuals to finance education throughout their lifetime from tax incentives and through individuals and employers. Also proposed was a national innovation partnership offering federal matching funds be put aside for a program formatting in the use of technology. The Secretary of Education would also design programs that would bring together higher education with adult education and vocational education and meet work force needs.

Finally, the last goal of the Spellings Commission relates to accountability and providing real reliable information to students. Students could go on the web -- not just look at the *U.S. News and World Report*, which says very little, if nothing, about student learning -- and compare student learning across institutions. This would give students the right tools to make the right decisions about what is going on in universities. The goal is that universities are transparent about cost/price, student success outcomes, and what is the value-added.

Again, they recommend developing better measures of student learning and talk about the ones that are already in place. A federal database would be put in place that would provide statistics for students and establish the tracking system. Also, they would develop a consumer-friendly database on higher education with very reliable information as well as searchable and cost/price college completion.

Finally, they recommend that there be a national accreditation standard. This is very interesting. They talked about national accreditation standards that would

July 7, 2006 meeting, Board of Trustees

come out of the Higher Education Reauthorization bill, but, if not there, would at least be a framework for accreditation. Right now when we accredit programs it is not transparent and it is not revealed. It is all very quietly sent to the administrators of the program and the university, but it isn't online for students to see. So it is talking about moving toward world-class standards and best practices overall.

What they believe is that the Spellings Commission has these four categories to offer a comprehensive and useful framework for diagnosing the problems, as well as promising a prescription for fixing the shortcomings. If you read the entire report it makes you a bit angry because you think about how well we do in so many of these categories, and that these are criticisms that can possibly be leveled at all of higher education. I think we also do not need to put our head in the sand and say that some of these don't apply to us. It is a good report and is one that has been put together by very thoughtful people. I think it is a report that Congress is going to look at very seriously. I think it is open now and ready for debate nationally. Thank you.

--0--

COMMITTEE REPORTS

Judge Duncan:

I would like to call on Mr. Schottenstein for the Audit Committee report.

Mr. Schottenstein:

Mr. Chairman, the Audit Committee met yesterday afternoon for about two hours and all members were present. First we received a comprehensive report from the University internal auditors reviewing the Audit Work Plan. No unusual or extraordinary matters need to be reported at this time.

Next, the external auditors for the University, Deloitte and Touche LLP, made their report. Again, it was a good report and it does not require any further elaboration here today.

Finally, Mr. Shkurti gave a comprehensive report on a number of financial issues and an overview of some of the key goals for the University from a budgetary standpoint. That summarizes what we did yesterday. Thank you.

Judge Duncan:

Thank you, Bob. Next we will have a report from Wally O'Dell on the Agricultural Affairs Committee and the Investments Committee meetings.

Mr. O'Dell:

Thank you, Mr. Chairman. The Agricultural Affairs Committee met this morning and had a presentation from Drs. Bob Moser and Stephen Myers on the progress of the Ohio BioProducts Innovation Center. This is a Wright Center of Innovation (Third Frontier) award, with \$11.5 million in funding and with corporate matches a \$30 million project. This is a project to develop industrial products from corn and soybeans, and it is going very well. As the world runs down its petroleum reserves, this will become more and more important and Ohio is very well positioned to fill this market need.

Then we had an Investment Committee meeting this morning. We had a Development report from Dr. Jim Schroeder. For the first time this year, after eleven months, the gift receipts are above the prior year level and \$28.6 million has

July 7, 2006 meeting, Board of Trustees

been received. Our donor levels are up about 4%. This has been good fundraising in a difficult environment.

Next, we had an endowment report from Mr. Jim Nichols. May was not a very good month in the market; our returns were -2.9%, leaving us ahead about 11% for the eleven months. June was about a break-even month on a preliminary basis. So the year return will be about 11%, with the endowment sitting at approximately \$2 billion.

We then had a routine resolution on the Appointment and Reappointment of Investment Managers. That concludes my report.

Judge Duncan:

Thank you, Wally. Any questions or discussion? If not, I will call upon Mr. Borrer to report on the Academic and Student Affairs Committee meeting.

Mr. Borrer:

Thank you, Mr. Chairman. First we heard a report from Rich Hollingsworth and Jackie Lipscomb on Partnering with Parents for the Success of Students. We learned about the Ohio State Parents Association -- with over 2,400 members -- which performs a very vital function of encouraging interaction between students, parents, and the University. The goal is to ensure that our students and their families have a successful experience while the students attend Ohio State. This is well done and coordinated.

Next, we heard from Dr. Randy Smith and Dean Andrews about the Academic Program Review. It is a strategic review of the goals and objectives of individual departments, how they relate to the Academic Plan, and align with the Freeman and McHale Reports. This review will take place in all departments over the next six years.

Finally, Provost Barbara Snyder introduced the resolutions on today's consent agenda including: the Merger of the Colleges of Education and Human Ecology; the Establishment of the School of Earth Sciences; Amendments to the *Rules of the University Faculty*, Amendments to the *Code of Student Conduct*, and routine personnel actions. That concludes my report.

Judge Duncan:

Thank you, Doug. Any questions or discussion? Next I will call on Jo Ann Davidson for the Fiscal Affairs Committee report.

Mrs. Davidson:

Thank you, Mr. Chairman. The Fiscal Affairs Committee is bringing resolutions to you -- #17-26 on the consent agenda -- with a recommendation for approval by the Board. I am going to briefly speak a little bit to several of the resolutions and certainly the one resolution on the Fiscal Year 2007 budget for the University.

It was pointed out that this budget does support key initiatives of the University and a pay pool at a 3% level. While there is nothing standard across that, it at least provides that wherewithal for most of our units to be able to meet their commitments. Provost Snyder is going to speak to us a little later on Targeted Investments in Excellence that deal with a small number of programs targeting in on public health, biological sciences, global warming and environmental issues, and quality graduate programs in science, technology, and engineering. And because we have targeted some money for recruitment, we are going to reach our 2008 enrollment plan goal one year early. We have also targeted money for financial aid

July 7, 2006 meeting, Board of Trustees

and we are working towards the ACT score of our incoming class at 27. As you know, the Enterprise System is continuing to work on the Student Information System, which we have made a huge investment in.

The budget being proposed is a little over \$1 billion. It is a growth of 5.4% in expenditures and that is being driven by a couple of things. A huge issue is the cost of utilities and the increase in financial aid, so we have the capability to reach out to the students we want on campus.

Enrollment is projected to be fairly flat, although we have had a higher than expected acceptance for our incoming freshman class. So rather than the 5,800 we anticipated, we will be at 6,000 for the incoming freshman class. We have a 2.9% increase in state aid, some of that coming from the \$30 million the Controlling Board determined they would allocate to the funding formula.

We are going to delay, for a year, the phase down of the percentage of dollars that came out of the Foundation earnings that we used for development. This will provide Development with some additional resources.

We looked at the Medical Center budget, which will actually show an income above expenses of about \$76 million this year. Also we had some discussion on growing our cash reserves in the Medical Center and would expect that report to come back to us at our September meeting. I would just like to point out that when we came up with the plan of increasing those cash reserves and looking where we are going in 2007, we are very much ahead of schedule than we thought we would be. I think there is a general understanding of concern by Board members, so they will come back and show us a plan in September on that particular issue.

We would anticipate cost savings for our budget coming from the opportunities that we have in our wellness program. You may recall that we adopted this program at our last Board meeting and this is where we have an outreach to our employees to encourage them and to give them incentive to come up with individual wellness programs, getting some of our injured workers back to work more quickly, and also managing our energy conservation. That really gives you a total budget.

I am pleased to say that we are within our estimated resources of this sound budget. Frankly, I want to compliment the financial management of the University, Dr. Holbrook, and Bill Shkurti for bringing us a budget that we can feel comfortable with and that we are within our means.

The second resolution deals with undergraduate tuition for the regional campuses. As you know, we have not acted upon that and it is recommended that we increase it at the same level we did for central campus at 6%. It may cause a little bit higher rate for some students, simply because of the way the access challenge works at our regional campuses. This is where students get a reduction in their tuition, based upon the amount of access challenge money they qualify for.

The third item is the approval of the feasibility studies, design, and construction manager contracts and to move ahead with construction. The biggest issue with that group of projects is to move ahead with the construction of the Ohio Union. Last month, we had some discussion about the location and how we go about building the Union. I hope you all have had an opportunity to review the letter that Bill Shkurti sent to you indicating that they have gone back and looked at those particular issues. They feel comfortable in moving ahead with the recommendation to proceed with the construction contract for the Ohio Union and that is part of that resolution.

We have a traditional interim authority resolution on the agenda today. This interim authority would be given to the chair of the Fiscal Affairs Committee with the approval of the chairman of the Board, in consultation with the Committee, if there

July 7, 2006 meeting, Board of Trustees

is any action needed between now and the time we meet in September to move ahead with some of the projects. In holding them back, we would lose some of our timetables and, quite frankly, we have been very much cautioned by the fact that the cost of our materials for many of these construction projects are taking a sharp increase. Subsequently, it would give that flexibility for that authority to be given in lieu of a Board meeting.

We have the recommendation to purchase a piece of property on south campus. The Highland Street property is currently used for campus student housing and would continue for that use until such time that it is needed for another purpose by the University. There are authorizations for three easements, one on the Lima campus and two for our new student housing that is being proposed at the corner of Kenny and Lane Avenues.

We have a recommendation to approve the parking plan for the Medical Center. With the expansion of the Medical Center, we will be losing a number of parking spaces. So this is a significant parking plan, which would include the renovation of a garage, building of garages, and providing a surface lot. The approval today would be Phase I of the parking plan and any moving ahead with any construction would obviously be handled under our normal processes.

The last resolution is the extension of the Non-Smoking Policy that was earlier established for the Medical Center and is now being broadened to the Health Sciences Colleges -- the broad area that surrounds what we consider to be the entire medical complex. This policy has been run through all of the appropriate bodies and they are recommending that we extend that Non-Smoking Policy.

Mr. Chairman, that is a quick review of the items that are coming to you for approval today.

Judge Duncan:

Thank you very much. You had a busy day.

--0--

CONSENT AGENDA

President Karen A. Holbrook:

We currently have twenty-six resolutions on the Consent Agenda today and we would like to conduct separate votes for #14 -- the Report of Research Contracts and Grants -- and #16 -- Appointment/Reappointment of Investment Managers. We are seeking your approval for:

AMENDMENTS TO COMMITTEE APPOINTMENTS FOR 2006-2007

Resolution No. 2007-1

BE IT RESOLVED, That the appointments to committees and representatives to various Boards for 2006-2007 be amended as follows:

Academic and Student Affairs Committee:

Douglas G. Borrer, Chair
John D. Ong, Vice Chair
Robert H. Schottenstein
G. Gilbert Cloyd
THEKLA R. SHACKELFORD
ALEX SHUMATE
New Trustee
Yoonhee P. Ha

Fiscal Affairs Committee:

Jo Ann Davidson, Chair
Karen L. Hendricks, Vice Chair
Dimon R. McFerson
Leslie H. Wexner
Brian K. Hicks
Walden W. O'Dell
New Trustee
Christopher A. Alvarez-Breckenridge

July 7, 2006 meeting, Board of Trustees

Investments Committee:

Dimon R. McFerson, Chair
Walden W. O'Dell, Vice Chair
Jo Ann Davidson
Robert H. Schottenstein
John D. Ong
New Trustee
Ex Officio:
John Gerlach, Jr. (Foundation Bd)
David A. Rismiller (Foundation Bd)

Audit Committee:

Robert H. Schottenstein, Chair
~~Dimon R. McFerson, Vice Chair~~
Robert M. Duncan, VICE CHAIR
New Trustee
NEW TRUSTEE
James Gilmour (3/1/05 – 2/29/08)

Agricultural Affairs Committee:

Walden W. O'Dell, Chair
Fred L. Dailey, Vice Chair, Ex Officio
Robert M. Duncan
John D. Ong
New Trustee
Yoonhee P. Ha
Christopher A. Alvarez-Breckenridge

Medical Center Affairs Committee:

Dimon R. McFerson, Chair
Brian K. Hicks, Vice Chair
Jo Ann Davidson
G. Gilbert Cloyd
Robert H. Schottenstein
Ellen Hardyman
David Lauer
Donald Shackelford

Governance Committee:

Robert M. Duncan, Chair
Karen L. Hendricks, Vice Chair
Dimon R. McFerson
Jo Ann Davidson

Government Relations Advisory Council:

Robert M. Duncan, Chair
Douglas G. Borrer, Vice Chair
Jo Ann Davidson
Brian K. Hicks
David L. Brennan
Thomas Hoaglin

Rich Hillis
Stephen C. Landerman

**The Arthur G. James Cancer
Hospital & Richard J. Solove
Research Inst. Bd:**

Karen L. Hendricks, Chair
Robert H. Schottenstein

University Hospitals Board:

REGIONAL CAMPUS BOARDS APPOINTMENTS/REAPPOINTMENTS

Resolution No. 2007-2

Synopsis: Approval of appointments/reappointments to The Ohio State University Regional Campus Boards is proposed.

July 7, 2006 meeting, Board of Trustees

WHEREAS the Board of Trustees in 1994 approved the establishment of The Ohio State University Regional Campus Boards; and

WHEREAS it has been previously stipulated that “the board shall be composed of ten members appointed by The Ohio State University Board of Trustees in consultation with the president of the university;” nine members shall be private citizens; and one member shall be a student); and

WHEREAS the following named persons have been nominated and selected for appointments/reappointments to the following Regional Campus Boards for the terms as specified:

Lima Board Appointment

Geoff Doute (student), July 1, 2006 – June 30, 2007

Lima Board Reappointments

Keith H. Deters, July 1, 2006 – June 30, 2009, 2nd term
Robert C. Young, July 1, 2006 – June 30, 2009, 2nd term

Marion Board Appointment

Anthony J. Iacobucci (student), July 1, 2006 – June 30, 2007

NOW THEREFORE

BE IT RESOLVED, That the foregoing nominees be approved as members of the respective Regional Campus Boards.

APPOINTMENTS TO THE UNIVERSITY HOSPITALS BOARD

Resolution No. 2007-3

Synopsis: Approval of appointments to the University Hospitals Board is proposed.

WHEREAS the Board of Trustees on November 30, 1979, approved the establishment of a University Hospitals Board; and

WHEREAS the membership of the Hospitals Board was approved on April 4, 1980, and has been subsequently amended:

NOW THEREFORE

BE IT RESOLVED, That Anthony C. White be appointed as a citizen member of the University Hospitals Board for the term July 1, 2006 through June 30, 2009 (1st term), and that David P. Lauer be appointed as chairperson of The Ohio State University Hospitals Board for the term July 7, 2006, through June 30, 2007.

REAPPOINTMENT TO THE OSU HARDING HOSPITAL BOARD

Resolution No. 2007-4

Synopsis: Approval of a reappointment to the OSU Harding Hospital Board is proposed.

WHEREAS the Board of Trustees on December 6, 2001, approved the establishment of an OSU & Harding Hospital Board; and

July 7, 2006 meeting, Board of Trustees

WHEREAS all members of a specialized board shall be appointed by The Ohio State University Board of Trustees in consultation with the Vice President for Health Services, the Senior Vice President for Health Sciences, and the President of the University:

NOW THEREFORE

BE IT RESOLVED, That the following individual be reappointed as a citizen member of the OSU Harding Hospital Board for the following term:

Lee S. Szykowny, effective May 1, 2006, through May 30, 2009 (2nd term)

**AMENDMENTS TO THE *MEDICAL STAFF BYLAWS*
OF THE OHIO STATE UNIVERSITY HOSPITALS EAST**

Resolution No. 2007-5

Synopsis: The amendments to the *Bylaws of the Medical Staff* of The Ohio State University Hospitals East are recommended for approval.

WHEREAS The Ohio State University Hospitals Board pursuant to bylaw 3335-101-04 of the Hospitals Board Bylaws is authorized to recommend to the Board of Trustees the adoption of amendments to the *Medical Staff Bylaws* of The Ohio State University Hospitals East; and

WHEREAS the proposed amendments to the *Medical Staff Bylaws* of The Ohio State University Hospitals East were approved by the University Hospitals Board on May 25, 2006, as follows:

Amended Medical Staff Bylaws

3335-45-08 Peer review and corrective action.

(F) Automatic suspension or termination.

(1) through (14) unchanged.

(15) If a medical staff member pleads guilty to or is found guilty of a felony which involves:

(a) Violence or abuse upon a person, conversion, embezzlement, or misappropriation of property;

(b) Fraud, bribery, evidence tampering, or perjury; or

(c) A drug offense, the medical staff member's appointment and privileges shall be immediately and automatically terminated.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the *Bylaws of the Medical Staff* of The Ohio State University Hospitals East be adopted.

AMENDMENTS TO THE *BYLAWS OF THE MEDICAL STAFF AND RULES AND REGULATIONS OF THE MEDICAL STAFF* OF THE ARTHUR G. JAMES CANCER HOSPITAL AND RICHARD J. SOLOVE RESEARCH INSTITUTE

Resolution No. 2007-6

Synopsis: The amendments to the *Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff* of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute are recommended for approval.

WHEREAS The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board, pursuant to bylaw 3335-109-02 of the *James Cancer Hospital Board Bylaws*, is authorized to recommend to the Board of Trustees the adoption of amendments to the *Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff* of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute; and

WHEREAS the proposed amendments to the *Bylaws and Rules and Regulations of the Medical Staff* of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute were previously endorsed and ratified by The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board on May 23, 2006:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments be hereby adopted.

(See Appendix I with background information, page 105.)

MERGER OF THE COLLEGES OF EDUCATION AND HUMAN ECOLOGY

Resolution No. 2007-7

Synopsis: Approval to merge the College of Education with the College of Human Ecology is proposed.

WHEREAS the faculty in each college embraces a shared vision and mission that reflect the holistic approach necessary to have an impact on the well-being of individuals, families, schools, and communities; and

WHEREAS national trends show that colleges of this type have merged to develop new and innovative programs, and faculty in these colleges have already explored cross-cutting opportunities made available by the merger; and

WHEREAS faculty from both colleges voted overwhelmingly in favor of the merger; and

WHEREAS the proposal adheres to the guidelines for the alteration or abolition of units, and was reviewed and approved by the full Council on Academic Affairs and approved by the University Senate at its June 1, 2006 meeting:

NOW THEREFORE

BE IT RESOLVED, That the proposal to merge the College of Education and the College of Human Ecology together to become the College of Education and Human Ecology is approved effective July 1, 2006.

**ESTABLISHMENT OF THE SCHOOL OF
EARTH SCIENCES**

Resolution No. 2007-8

Synopsis: Approval to establish the School of Earth Sciences is proposed.

WHEREAS the creation of a school in the academic core of this University is the first step in the enhancement and redevelopment of the present degree programs in Geological Sciences; and

WHEREAS the school is designed to increase interdisciplinary research in earth and environmental sciences, to enhance teaching and service missions, and to create a flexible structure that can better adapt to the rapidly changing research and educational opportunities; and

WHEREAS school structure, with divisions, enables the unit to better manage the broad diversity in faculty/student specializations and better organizes existing strengths; and

WHEREAS school structure will enable it to better compete for faculty and students with peer institutions, the most successful of which also are reorganizing through the creation of new schools; and

WHEREAS faculty within the current Department of Geological Sciences, the College of Mathematical and Physical Sciences, and the college dean strongly support this action; and

WHEREAS the proposal adheres to the guidelines for the alteration or abolition of units, and was reviewed and approved by the full Council on Academic Affairs and approved by the University Senate at its June 1, 2006 meeting:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish the School of Earth Sciences is approved effective July 1, 2006.

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 2007-9

Synopsis: Approval of the following amendments to the *Rules of the University Faculty* are recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the *Rules of the University Faculty* as approved by the University Senate; and

WHEREAS the proposed changes in the *Rules of the University Faculty* were approved by the University Senate on June 1, 2006:

3335-5-48.13 Government affairs committee.

(A) Membership.

The government affairs committee shall consist of twelve members.

(1) through (3) unchanged.

(4) ~~Three~~ Two administrators, non-voting.

July 7, 2006 meeting, Board of Trustees

- (a) The assistant vice president for state relations.
- (b) The associate vice president for ~~federal~~ federal government relations or designee.
- ~~(c) The senior vice president for university relations or designee.~~

(B) and (C) unchanged.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the *Rules of the University Faculty* be adopted as recommended by the University Senate.

AMENDMENTS TO THE CODE OF STUDENT CONDUCT

Resolution No. 2007-10

Synopsis: Approval of the following amendments to the *Code of Student Conduct* are recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the *Code of Student Conduct* as approved by the University Senate; and

WHEREAS the Council on Student Affairs has reviewed and approved said revisions to the *Code of Student Conduct*; and

WHEREAS the proposed changes in the *Code of Student Conduct* were approved by the University Senate at its June 1, 2006 meeting as follows:

Amended Rules

3335-23-04 Prohibited conduct.

Any student found to have engaged in the following conduct while within the university's jurisdiction, as set forth in rule 3335-23-02 of the Administrative Code, will be subject to disciplinary action by the university.

(A) Academic misconduct.

Any activity that tends to compromise the academic integrity of the university, or subvert the educational process. Examples of academic misconduct include, but are not limited to:

- (1) and (2) unchanged.
- (3) Knowingly providing or using assistance in the laboratory, on field work, in scholarship or on a course assignment ~~unless such assistance has specifically been authorized;~~
- (4) Unchanged.
- (5) Submitting substantially the same work to satisfy requirements for one course or academic requirement that has been submitted in satisfaction of requirements for another course or academic requirement, without permission

July 7, 2006 meeting, Board of Trustees

of the instructor of the course for which the work is being submitted or supervising authority for the academic requirement;

(6) Falsification, fabrication, or dishonesty in creating or reporting laboratory and/or results, research results, and/or any other assignment;

(7) and (8) unchanged.

(9) Alteration of academically-related university forms or records, or unauthorized use of those forms or records; and

(10) Unchanged.

(B) through (P) unchanged.

3335-23-08 Administrative decision.

In all cases, a student charged with one or more violations of the student code has the right to a hearing. However, in a case where a charged student admits such violations in writing, the student may request in writing to have a decision as to appropriate action made administratively by a hearing officer rather than have the charges referred to a hearing officer, panel or commission for a hearing. In such situations, the student waives the right to a hearing and the related procedural guarantees provided by a hearing officer, panel or commission hearing. Administrative decisions involving graduate students are to be made in consultation with the graduate school. Following an administrative decision, the student retains the right to request an appeal of the original decision, but may do so only upon the ground that the sanction is grossly disproportionate to the offense committed.

3335-23-14 Committee on academic misconduct.

(A) The coordinator for the committee shall investigate or establish procedures for investigation of all reported cases of student academic misconduct that fall under the committee's jurisdiction. ~~However, the~~ The committee does not hear cases involving academic misconduct in professional colleges having a published honor code. These colleges shall follow their own codes and procedures which can be obtained in their respective central offices. Some allegations against graduate students that fall under the committee's jurisdiction may also implicate the university's interim policy and procedures concerning misconduct in research or scholarly activities and/or the graduate school's "Guidelines for the Review and Investigation of Allegations of Scholarly Misconduct by Graduate Students." Upon receipt of such an allegation, the coordinator shall meet with the dean of the graduate school or designee, and/or the senior vice president for research or designee, and these parties shall mutually agree on the appropriate procedure for adjudicating the case. Notice of this decision and a description of the procedure to be used shall promptly be given to the student who has been charged. The coordinator or committee may refer complaints to the office of student judicial affairs if it is determined that the academic misconduct allegation is incidental to some other misconduct.

(B) The committee on academic misconduct is constituted according to rule 3335-5-48.7 of the Administrative Code.

~~(B)~~

(C) All complaints of academic misconduct shall be reported to the coordinator of the committee.

(D) Students have an obligation to report suspected misconduct. ~~The committee consists of:~~

July 7, 2006 meeting, Board of Trustees

- (1) ~~Eighteen regular faculty members selected by the faculty council for three-year terms; beginning with the autumn quarter. The selection is to be held annually so that six members will retire each year. No university faculty member shall serve more than two consecutive terms;~~
 - (2) ~~Seven graduate student members appointed by the end of the summer quarter by the president of the council of graduate students, with the approval of the council of graduate students and committee coordinator, for a one-year term beginning with the autumn quarter;~~
 - (3) ~~Seven undergraduate student members appointed by the end of the summer quarter by the vice president of the undergraduate student government, with the approval of the undergraduate student government, the undergraduate student senate, and committee coordinator, for a one-year term beginning with the autumn quarter;~~
 - (4) ~~A coordinator, appointed by the executive vice president and provost, ex-officio without vote; and~~
 - (5)
- (E) A quorum for a hearing shall be no ~~less~~ fewer than four voting members of the ~~panel committee~~ which shall include no ~~less~~ fewer than one student member and two faculty members.

For cases involving graduate students, reasonable efforts will be made to have graduate students serve as the student members of the hearing committee.

3335-23-17 General guidelines for sanctions.

Sanctions should be commensurate with the violation(s) found to have occurred. In determining the sanction(s) to be imposed, the hearing officer or panel should take into account any mitigating circumstances and any aggravating factors including, but not limited to, any provocation by the subject of the conduct that constituted the violation, any past misconduct by the student, any failure of the student to comply fully with previous sanctions, the actual and potential harm caused by the violation, the degree of intent and motivation of the student in committing the violation, and the severity and pervasiveness of the conduct that constituted the violation. Impairment resulting from voluntary use of alcohol or drugs (i.e., other than medically necessary) will be considered an aggravating, and not a mitigating, factor. In determining the sanctions to be imposed on graduate students who have violated the code, the hearing officer or panel should be guided by the "Graduate Student Code of Research and Scholarly Conduct." One or more of the following courses of action may be taken when a student has been found to have violated the code of student conduct.

(A) through (E) unchanged.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the *Code of Student Conduct* be adopted as recommended by the University Senate.

DEGREES AND CERTIFICATES – SUMMER QUARTER COMMENCEMENT

Resolution No. 2007-11

Synopsis: Approval of Degrees and Certificates for Summer Quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

July 7, 2006 meeting, Board of Trustees

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on August 27, 2006, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

PERSONNEL ACTIONS

Resolution No. 2007-12

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the June 2, 2006 meeting of the Board, including the following Appointments/Reappointments, Appointments/Reappointments of Chairpersons/Director, Leaves of Absence Without Salary, Professional Improvement Leaves, Emeritus Titles, and salary rolls with promotion and tenure, as detailed in the University Budget, be approved; and

BE IT FURTHER RESOLVED, That the Medical Staff Appointments and Reappointments approved on March 28, 2006, by The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board, be ratified.

Appointments

Name: DAVID W. ANDREWS
Title: Dean
College: Education and Human Ecology
Term: July 1, 2006, through June 30, 2011
Present Title: Dean, College of Human Ecology and Interim Dean, College of Education

Name: CHING-SHIH CHEN
Title: Professor (Lucius A. Wing Chair of Cancer Research and Therapy)
College: Medicine
Term: July 1, 2006, through June 30, 2010

Name: PHILIP T.K. DANIEL
Title: Professor (The William Ray and Marie Adamson Flesher Professorship in Educational Administration)
College: Education and Human Ecology
Term: July 1, 2006, through June 30, 2011

Name: LEA M. MCGEE
Title: Professor (The Marie Clay Endowed Chair in Reading Recovery and Early Literacy)
College: Education and Human Ecology
Term: October 1, 2006, through September 30, 2011
Present Title: Professor, Literacy Education, College of Education, University of Alabama, Tuscaloosa, AL

July 7, 2006 meeting, Board of Trustees

Name: ROBERT MCMAHON
Title: Professor (Ralph D. Mershon Professorship)
Department/Center: History/Mershon Center
Term: September 16, 2005, through September 15, 2010

Name: MARIO J. MIRANDA
Title: Professor (Andersons Professorship of Agricultural Risk Management)
College: Food, Agricultural, and Environmental Sciences
Term: July 1, 2006, through June 30, 2011

Name: IAN M. SHELDON
Title: Professor (Andersons Professorship of International Trade)
College: Food, Agricultural, and Environmental Sciences
Term: July 1, 2006, through June 30, 2011

Name: KEITH L. SMITH
Title: Professor (The George R. and Genevieve B. Gist Endowed Chair in Ohio State University Extension)
Unit: Ohio State University Extension
Term: July 1, 2006, through June 30, 2011

Name: WILEY W. SOUBA, JR.
Title: Dean
College: Medicine
Term: September 1, 2006, through August 31, 2011
Present Title: Chair, Department of Surgery, College of Medicine, Surgeon-in-Chief, Milton S. Hershey Medical Center, and the John A. and Marian T. Waldhausen Professorship, Penn State University

Name: ALEXANDER WENDT
Title: Professor (Ralph D. Mershon Professorship in National Security Studies)
Department/Center: Political Science/Mershon Center
Term: August 1, 2004, through July 31, 2009

Reappointments

Name: MICHAEL S. BEATTIE
Title: Professor (The Doctor John D. and E. Olive Brumbaugh Chair in Brain Research and Teaching)
College: Medicine
Term: July 1, 2006, through June 30, 2010

Name: ALBERT DE LA CHAPELLE
Title: Professor (The Leonard J. Immke, Jr. and Charlotte L. Immke Chair in Cancer Research)
Hospital/Institute: The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute
Term: July 1, 2005, through June 30, 2009

Name: MICHAEL V. KNOPP
Title: Professor (The Novartis Pharmaceuticals Corporation Chair for Clinical Research)
College: Medicine
Term: July 1, 2006, through June 30, 2010

July 7, 2006 meeting, Board of Trustees

Name: JERRY R. LADMAN
Title: Associate Provost for International Affairs
Office: Academic Affairs
Term: September 1, 2006, through December 31, 2006

Appointment of Chairpersons

SUSAN VANPELT PETRY,* Dance, effective July 1, 2006, through June 30, 2007

WILLIAM J. SAVILLE,* Veterinary Preventive Medicine, effective June 10, 2006, through June 30, 2007

ANDREW C. SHELTON, History of Art, effective July 7, 2006, through June 30, 2010

Reappointment of Chairpersons/Director

MICHAEL T. BRADY,* Pediatrics, effective July 1, 2006, through June 30, 2007

ROBERT E. BURNKRANT, Marketing and Logistics, effective October 1, 2006, through September 30, 2008

CHRISTOPHER C. KAEDING,* Orthopaedics, effective July 1, 2006, through June 30, 2007

JOHN A. POWELL, Kirwan Institute for the Study of Race and Ethnicity, effective July 1, 2006, through June 30, 2009

DOUGLAS A. RUND, Emergency Medicine, effective July 1, 2006, through June 30, 2010

WOLFGANG SADEE, Pharmacology, effective April 1, 2006, through June 30, 2010

DANIEL D. SEDMAK,* Anesthesiology, effective September 1, 2006, through December 31, 2006

*Interim

Leave of Absence Without Salary

ARA A. WILSON, Associate Professor, Department of Women's Studies, effective Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007, to accept a visiting professorship in the Program in Women's Studies at Duke University, Durham, NC.

Leave of Absence Without Salary—Cancellation

KIM L. BOYER, Professor, Department of Electrical and Computer Engineering, effective August 15, 2006, through August 14, 2007.

Professional Improvement Leaves

ROBERT A. DISILVESTRO, Professor, Department of Human Nutrition, effective Autumn Quarter 2006.

BURKHARD A. SCHAFFRIN, Associate Professor, Department of Geological Sciences, effective Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007.

Professional Improvement Leaves—Cancellations

VINCENT J. ROSCIGNO, Professor, Department of Sociology, effective Autumn Quarter 2006.

July 7, 2006 meeting, Board of Trustees

ANDREW C. SHELTON, Associate Professor, Department of History of Art, effective Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007.

Professional Improvement Leaves—Change in Dates

STANISLAV I. ROKHLIN, Professor, Department of Industrial, Welding and Systems Engineering, change leave from Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007, to Winter Quarter and Spring Quarter 2007.

KAZIMIERZ M. SLOMCZYNSKI, Professor, Department of Sociology, change leave from Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007, to Winter Quarter, Spring Quarter, and Autumn Quarter 2007.

CATHY A. RAKOWSKI, Associate Professor, Departments of Human and Community Resource Development and Women's Studies, change leave from Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007, to Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

JEFF S. SHARP, Associate Professor, Department of Human and Community Resource Development, change leave from Summer Quarter and Autumn Quarter 2006, and Winter Quarter and Spring Quarter 2007, to Winter Quarter and Spring Quarter 2007.

Emeritus Titles

ROBERT B. BROWN, Department of Mathematics, with the title Professor Emeritus, effective July 1, 2006.

KOICHIRO HARADA, Department of Mathematics, with the title Professor Emeritus, effective July 1, 2006.

THOMAS G. HAYES, Department of Biomedical Informatics (Anatomy), with the title Professor Emeritus, effective August 1, 2006.

SALLY L. KITCH, Department of Women's Studies, with the title Professor Emeritus, effective July 1, 2006.

RICHARD L. MCCREERY, Department of Chemistry, with the title Professor Emeritus, effective July 1, 2006.

RICHARD F. MORTENSEN, Department of Microbiology, with the title Professor Emeritus, effective July 1, 2006.

FRED D. SACK, Department of Plant Cellular and Molecular Biology, with the title Professor Emeritus, effective July 1, 2006.

CHERYLE J. SYRACUSE, Ohio State University Extension, with the title Professor Emeritus, effective August 1, 2006.

STACY WEISLOGEL, Department of Aviation, with the title Professor Emeritus, effective July 1, 2006.

JOHN T. DAVIS, Department of Surgery, with the title Professor-Clinical Emeritus, effective July 1, 2006.

ALBERT J. DAVIS, Department of Human Development and Family Science, with the title Associate Professor Emeritus, effective July 1, 2006.

CHARLES J. NOEL, Department of Consumer Sciences, with the title Associate Professor Emeritus, effective July 1, 2006.

July 7, 2006 meeting, Board of Trustees

CHARLES O. ROSS, College of Social Work, with the title Associate Professor Emeritus, effective July 1, 2006.

MARTHA S. ALT, University Libraries, with the title Assistant Professor Emeritus, effective July 1, 2006.

NANCY K. NORDSTROM, College of Dentistry (Dental Hygiene), with the title Assistant Professor Emeritus, effective July 1, 2006.

Promotions, Tenure, and Reappointments

COLLEGE OF THE ARTS

PROMOTION TO PROFESSOR

Boone, Graeme M., School of Music, effective October 1, 2006

Nini, Paul J., Industrial, Interior and Visual Communication Design, effective October 1, 2006

Stout, Candace, Art Education, effective October 1, 2006

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Haase, Jeffrey L., Industrial, Interior and Visual Communication Design, effective October 1, 2006

Powell, Susan K., School of Music, effective October 1, 2006

COLLEGE OF BIOLOGICAL SCIENCES

PROMOTION TO PROFESSOR

Gibbs, H. Lisle, Evolution, Ecology and Organismal Biology, effective October 1, 2006

Grotewold, Erich, Plant, Cellular and Molecular Biology, effective October 1, 2006

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Artsmovitch, Irina, Microbiology, effective October 1, 2006

Ibba, Michael, Microbiology, effective October 1, 2006

Satoskar, Abhay R., Microbiology, effective October 1, 2006

THE MAX M. FISHER COLLEGE OF BUSINESS

PROMOTION TO PROFESSOR

Teoh, Siew Hong, Accounting and Management Information Systems, effective October 1, 2006

COLLEGE OF DENTISTRY

PROMOTION TO PROFESSOR

Denry, Isabelle L., effective October 1, 2006

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Chacon, Guillermo E., effective October 1, 2006

Nusstein, John M., effective October 1, 2006

COLLEGE OF DENTISTRY

REGULAR CLINICAL

PROMOTION TO PROFESSOR-CLINICAL AND REAPPOINTMENT

Rashid, Robert G., effective October 1, 2006 & October 1, 2007

PROMOTION TO ASSOCIATE PROFESSOR-CLINICAL AND REAPPOINTMENT

Bauchmoyer, Susan M., effective October 1, 2006 & October 1, 2007

Kuntupis, Constance R., effective October 1, 2006 & October 1, 2007

Moore, Wendy J., effective October 1, 2006 & October 1, 2007

July 7, 2006 meeting, Board of Trustees

Soller, Hilary A., effective October 1, 2006 & October 1, 2007

REAPPOINTMENT

El-Gendy, Tamer, effective October 1, 2007

Fischbach, Henry, effective October 1, 2007

Mendel, Deborah, effective October 1, 2007

Mohammad, Abdel, effective October 1, 2007

COLLEGE OF EDUCATION AND HUMAN ECOLOGY

PROMOTION TO PROFESSOR

Bartle-Haring, Suzanne E., Human Development and Family Science, effective October 1, 2006

Neef, Nancy A., School of Physical Activity and Educational Services, effective October 1, 2006

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Blackburn, Mollie, School of Teaching and Learning, effective October 1, 2006

Moore, James L., School of Physical Activity and Educational Services, effective October 1, 2006

Rodgers, Emily M., School of Teaching and Learning, effective October 1, 2006

Stoel, Leslie D., Consumer Sciences, effective October 1, 2006

Warner, Christine D., School of Teaching and Learning (Newark), effective October 1, 2006

COLLEGE OF ENGINEERING

PROMOTION TO PROFESSOR

Kahraman, Ahmet, Mechanical Engineering, effective October 1, 2006

Parker, Robert G., Mechanical Engineering, effective October 1, 2006

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Teixeira, Fernando L., Electrical and Computer Engineering, effective October 1, 2006

TENURE [at rank of Associate Professor]

Adamovich, Igor V., Mechanical Engineering, effective October 1, 2006

Yu, Asheng-Tao J., Mechanical Engineering, effective October 1, 2006

COLLEGE OF FOOD, AGRICULTURAL, AND ENVIRONMENTAL SCIENCES

PROMOTION TO PROFESSOR

Alvaez, Valente B., Food Science and Technology, effective October 1, 2006

Basta, Nicholas T., School of Environment and Natural Resources, effective October 1, 2006

Grewal, Parwinder S., OSU Extension, effective October 1, 2006

Haab, Timothy C., Agricultural, Environmental & Developmental Economics, effective October 1, 2006

James, Randall E., effective October 1, 2006

Kamoun, Sophien, Plant Pathology, effective October 1, 2006

Pratt, Richard C., Horticulture & Crop Science, effective October 1, 2006

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Apsley, David K., OSU Extension, effective October 1, 2006

Balasubramaniam, V.M., Food Science and Technology, effective October 1, 2006

Connor, James J., Human and Community Resource Development, effective October 1, 2006

Delwiche, Jeannine F., Food Science and Technology, effective October 1, 2006

Ferrari, Theresa M., OSU Extension, effective October 1, 2006

Gardner, David S., Horticulture and Crop Science, effective October 1, 2006

July 7, 2006 meeting, Board of Trustees

Hooker, Neal H., Agricultural, Environmental, and Development Economics, effective October 1, 2006

Jones, Michelle L., Horticulture and Crop Science, effective October 1, 2006

Martin, Jay F., Food, Agricultural, and Biological Engineering, effective October 1, 2006

McSpadden Gardener, Brian B., Plant Pathology, effective October 1, 2006

Rodewald, Amanda D., School of Environment and Natural Resources, effective October 1, 2006

Stockinger, Eric J., Horticulture and Crop Science, effective October 1, 2006

Vodovotz, Yael, Food Science and Technology, effective October 1, 2006

PROMOTION TO ASSOCIATE PROFESSOR

Kelbaugh, Beverly, OSU Extension, effective October 1, 2006

Mader, Sharon L., OSU Extension, effective October 1, 2006

COLLEGE OF HUMANITIES

PROMOTION TO PROFESSOR

Crouser, Elliott D., Internal Medicine, effective October 1, 2006
Liu, Yusen, Pediatrics, effective October 1, 2006
Merrick, Mark A., School of Allied Medical Professions, effective October 1, 2006
Porcu, Pierluigi, Internal Medicine, effective October 1, 2006
Rafael-Fortney, Jill A., Molecular and Cellular Biochemistry, effective October 1, 2006
Tridandapani, Susheela, Internal Medicine, effective October 1, 2006

PROMOTION TO ASSOCIATE PROFESSOR WITHOUT TENURE

Gerhardt, Mark A., Anesthesiology, effective October 1, 2006

COLLEGE OF MEDICINE
REGULAR CLINICAL

PROMOTION TO PROFESSOR-CLINICAL

Batisky, Donald L., Pediatrics, effective October 1, 2006
Dietrich, Ann M., Pediatrics, effective October 1, 2006

PROMOTION TO PROFESSOR-CLINICAL AND REAPPOINTMENT

Orsinelli, David A., Internal Medicine, effective October 1, 2006 & October 1, 2007
Westman, Judith A., Internal Medicine, effective October 1, 2006 & October 1, 2007

PROMOTION TO ASSOCIATE PROFESSOR-CLINICAL

Crandall, Wallace V., Pediatrics, effective October 1, 2006
Cronau, Holly, Family Medicine, effective October 1, 2006
Dull, Pamela, Family Medicine, effective October 1, 2006
Hoffman, Timothy M., Pediatrics, effective October 1, 2006
Holland-Hall, Cynthia M., Pediatrics, effective October 1, 2006
Mihalov, Leslie K., Pediatrics, effective October 1, 2006
Mousa, Hayat, Pediatrics, effective October 1, 2006
Nankervis, Craig A., Pediatrics, effective October 1, 2006
Nash, Steve M., Neurology, effective October 1, 2006

July 7, 2006 meeting, Board of Trustees

Pesavento, Todd E., Internal Medicine, effective October 1, 2006

REAPPOINTMENT

Agarwal, Anil, Internal Medicine, effective October 1, 2007
Cataland, Spero, Internal Medicine, effective October 1, 2007
Cohen, Daniel, Pediatrics, effective October 1, 2007
Cook, Stephanie, Emergency Medicine, effective October 1, 2007
Eaton, Lynne, Obstetrics and Gynecology, effective October 1, 2007
Evans, Cynthia, Obstetrics and Gynecology, effective October 1, 2007
Freimer, Miriam, Neurology, effective October 1, 2007
Gest, Alfred, Pediatrics, effective October 1, 2007
Hicks, William, Internal Medicine, effective October 1, 2007
Kloos, Robert, Surgery, effective October 1, 2007
Larry, John, Internal Medicine, effective October 1, 2007
Lucey, Catherine, Internal Medicine, effective October 1, 2007
Lynn, Deborah, Neurology, effective October 1, 2007
Maher, William, Internal Medicine, effective October 1, 2007
McConaghy, John, Family Medicine, effective October 1, 2007
McIlroy, Mary, Pediatrics, effective October 1, 2007
McLaughlin, William, Ophthalmology, effective October 1, 2007
Murden, Robert, Internal Medicine, effective October 1, 2007
Ofathaigh, Ruaidhri, Internal Medicine, effective October 1, 2007
Olshefski, Randal, Pediatrics, effective October 1, 2007
Pakalnis, Ann, Pediatrics, effective October 1, 2007
Pfeil, Sheryl, Internal Medicine, effective October 1, 2007
Rowland, Daniel, Pediatrics, effective October 1, 2007
Shidham, Ganesh, Internal Medicine, effective October 1, 2007
Slone, Hasel, Radiology, effective October 1, 2007
Spetie, Dan, Internal Medicine, effective October 1, 2007
Trout, Wayne, Obstetrics and Gynecology, effective October 1, 2007
Werman, Howard, Emergency Medicine, effective October 1, 2007

TENURE [at rank of Associate Professor]

Kirshner, Lawrence S., Internal Medicine, effective October 1, 2006
Sayre, Michael R., Emergency Medicine, effective October 1, 2006

COLLEGE OF NURSING

PROMOTION TO PROFESSOR

Ahijevych, Karen L., effective October 1, 2006

COLLEGE OF NURSING
REGULAR CLINICAL

REAPPOINTMENT

Atkins, Marsha, effective October 1, 2007

COLLEGE OF OPTOMETRY

PROMOTION TO PROFESSOR

Bullimore, Mark A., effective October 1, 2006
Mutti, Donald O., effective October 1, 2006

COLLEGE OF OPTOMETRY
REGULAR CLINICAL

PROMOTION TO PROFESSOR-CLINICAL

Earley, Michael J., effective October 1, 2006

July 7, 2006 meeting, Board of Trustees

REAPPOINTMENT

Newcomb, Robert D., effective October 1, 2007

COLLEGE OF PHARMACY
REGULAR CLINICAL

PROMOTION TO PROFESSOR-CLINICAL AND REAPPOINTMENT

Bennet, Marialice S., effective October 1, 2006 & October 1, 2007

REAPPOINTMENT

Brackett, Carolyn C., effective October 1, 2007

TENURE [at rank of Associate Professor]

Schmittgen, Thomas D., effective October 1, 2006

SCHOOL OF PUBLIC HEALTH

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

McAlearney, Ann S., effective October 1, 2006

COLLEGE OF SOCIAL AND BEHAVIORAL SCIENCES

PROMOTION TO PROFESSOR

Joseph S. Yu, M.D., Associate Attending, Radiology, 5/23/2006-3/31/2008

Medical Staff—Requests for Additional Privileges (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Meleana J. Burt, C.N.P., Surgery, Write discharge instructions, Allied Health, 4/14/2006
Rebecca Coffey, C.N.P., Surgery, Prescriptive authority, Allied Health, 5/23/2006
Charles J. Hardebeck, M.D., Internal Medicine, Basic echocardiography, stress echo, transthoracic echo, & nuclear procedures, Associate Attending, 4/14/2006
Tasos Manokas, D.O., Internal Medicine, Moderate Sedation, Associate Attending, 4/14/2006
Sheryl A. Pfeil, M.D., Internal Medicine, Moderate Sedation, Associate Attending, 4/14/2006
Stephen F. Schaal, M.D., Internal Medicine, Moderate & Deep sedation, Associate Attending, 5/23/2006
Jonathan A. Schaffir, M.D., OB/GYN, CO₂ laser, Associate Attending, 4/14/2006
David E. Schuller, M.D., Otolaryngology, CO₂ laser, Attending, 5/23/2006
Dimitrios G. Spigos, M.D., Radiology, Diagnostic angiograms and peripheral interventions, Associate Attending, 4/14/2006
Steven M. Steinberg, M.D., Surgery, Advanced laparoscopy*, Associate Attending, 5/23/2006
Teresa M. Swank, P.A., Surgery, Chest tube removal, Allied Health, 4/14/2006
Jeffrey T. Thorne, C.N.P., Internal Medicine, Prescriptive authority and Bone marrow aspiration/biopsy, Allied Health, 5/23/2006
Evan Tobin, M.D., Otolaryngology, CO₂ laser, Associate Attending, 5/23/2006
Patrick S. Vaccaro, M.D., Surgery, Moderate Sedation, Associate Attending, 4/14/2006
Paul A. Weber, M.D., Ophthalmology, Ophthalmic and Frequency and Doubled Yag and Diode lasers, Associate Attending, 4/14/2006
D. Bradley Welling, M.D., Ph.D., Otolaryngology, Argon laser, Associate Attending, 5/23/2006
Gregory J. Wiet, M.D., Otolaryngology, CO₂, Surgical Yag and Tunable, and Dye lasers, Associate Attending, 5/23/2006

*Intestinal resections and mobilizations; gastric and abdominal esophageal procedures to include: vagotomy, antireflux procedures, pyloroplasty and therapeutics of the distal esophagus; solid organ therapeutics: splenectomy, adrenalectomy, nephrectomy, and distal partial pancreatectomy.

RESOLUTIONS IN MEMORIAM

Resolution No. 2007-13

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

July 7, 2006 meeting, Board of Trustees

Robert J. Atwell

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 11, 2006, of Robert J. Atwell, Professor Emeritus in the School of Allied Medical Professions.

Dr. Atwell received both his A.B. and M.D. degrees from Duke University in Durham, North Carolina, in 1941 and 1944, respectively. This was followed by a fellowship from 1948-50 at Duke and residencies at Bellevue Hospital in New York City and at Duke Hospital in Durham, specializing in pulmonary diseases.

He began his tenure at The Ohio State University in 1951 as an assistant professor in the College of Medicine and continued his service to the University until 1983, when he retired. During that time, he progressed through the ranks and was promoted to professor in 1966. He also served as acting dean from 1972-73 and as the chief of Medical Service at the Ohio Tuberculosis Hospital in Columbus from 1950-66. In 1966, he led the way for the establishment of the School of Allied Medical Professions and served as the first director from its opening until his retirement in 1983.

Throughout his years as director of the School, he was a spokesman for the allied medical programs, providing extensive service to the organizations representing these professions and publishing and presenting on topics relevant to issues in allied health. To commemorate his contributions to the School and the professions, the building that houses the School was named "Robert J. Atwell Hall," in 2000.

On behalf of the University community, the Board of Trustees expresses to the family of Dr. Robert J. Atwell its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Mojmir Drvota

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 27, 2006, of Mojmir Drvota, Professor Emeritus in the former Department of Photography and Cinema.

Dr. Drvota was born in 1923 in Prague, Czechoslovakia, and attended Charles University there, earning his Ph.D. degree in aesthetics, art history, and philosophy from Palacky University in Olomouc, Czechoslovakia. Professor Drvota immigrated to the United States in 1957 after the communistic regime took over his beloved city of Prague.

Remembered for his gentle manner, engaging smile, and quick wit, Dr. Drvota was a professor of film and cinematography at Columbia University in New York City and later at Ohio State, retiring in 1992. At OSU, he taught a variety of courses, but is best remembered by former students for classes in film history, theory, genres, and directing.

Professor Drvota wrote short stories, poems, plays and novels, including *Solitaire*, *Triptych*, *Boarding House for Artists* and *Vacation in Pajamas*. A screenwriter and director of film and stage, his works include the films *A Distant Journey (Daleká cesta)*, *A Matter of Seeing* and *Film Theory Part I*, as well as the play *The Magic Lantern*.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Mojmir Drvota its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

July 7, 2006 meeting, Board of Trustees

Mary Eloise Green

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 16, 2005, of Mary Eloise Green, Professor Emeritus in the Department of Human Nutrition. She was 102 years old.

Mary Green grew up on a farm about 15 miles from East Liberty, Ohio, near Columbus. She received a Bachelor of Science degree in home economics education (1928) and a Master of Science degree in nutrition and food management (1933), both from The Ohio State University. It took Professor Green eight years to finish her undergraduate studies. She supported herself financially by teaching at the Perry Township School in East Liberty from 1923-26, and then by working as a waitress at the Faculty Club and a cataloger at the library for 15 cents per hour. While working on her master's degree and after, she taught home economics and related science courses at Monroe Township School in West Liberty.

In 1939, Professor Green was hired by the Department of Home Economics to teach foods and nutrition. During her tenure, the department evolved into a school. She took a two-year leave of absence during which she completed her Ph.D. degree in human nutrition at Iowa State University. Professor Green returned to Ohio State and taught both nutrition and food courses for a total of 33 years. Her tenure took place during the period when discoveries were made of the amino acids that make up protein and the discovery of vitamins and their recommended daily allowances. Dr. Green and her colleagues assimilated this new knowledge and taught it to the students in their classes. She loved teaching, saying in a June 8, 2005, interview, "I knew from the time I was old enough to read that I wanted to be a teacher."

Mary Green held memberships with the American Dietetic Association, the American Association of Family and Consumer Sciences, the American Association of University Women, and Kappa Omicron Nu, the Home Economics Honor Society. She was especially proud of her invited membership in Iota Sigma Pi (the National Honor Society for Women in Chemistry), of being a member of the Institute of Food Technologists (IFT), and of her designation as a fellow of the Association for the Advancement of Science in 1967. She also served on the advisory committee of the Columbus Milk Council.

Professor Green was a true Buckeye and a valued and dedicated teacher, mentor, and colleague throughout her career. In 1970, she received Ohio State's Alfred S. Wright Award for service to student organizations. In 1972, Dr. Green retired, becoming professor emeritus. At her retirement party, she thanked The Ohio State University for allowing her to pursue her first love of teaching.

In 1979, the Home Economics Alumni Association awarded Dr. Green its Distinguished Service to Home Economics Award in acknowledgement of her expertise in laws regulating food preparation and packaging and the incorporation of that new knowledge into classes.

On behalf of the University community, the Board of Trustees expresses to the family and friends of Mary Eloise Green its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the Department of Human Nutrition as an expression of the Board's heartfelt sympathy.

Suzanne E. Schroeder

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 12, 2006, of Suzanne E. Schroeder, Associate Professor Emeritus in the School of Physical Activity and Educational Services.

July 7, 2006 meeting, Board of Trustees

Professor Schroeder held a Bachelor of Arts degree from the University of Toledo and a Master of Arts degree from the University of Wisconsin - Madison. She did further graduate study at Colorado State, New York University, and The Ohio State University. Before joining the faculty at Ohio State, she taught in Maumee and Prairie Township, Ohio, and was director of Women's Physical Education at Beloit College in Beloit, Wisconsin. During World War II, she served in the American Red Cross in Guam and the Tinian Islands.

Professor Schroeder came to Ohio State in 1953 where she taught in the Department of Physical Education. In 1957, she became area supervisor of Student Teaching. She was deeply respected by school administrators, cooperating teachers, and students alike, as she guided and supervised hundreds of young student teachers. She was the first physical educator to use a video recorder in the analysis of teaching and developed a program of follow-up for graduates teaching in Ohio.

Professor Schroeder served the University and her profession with membership and committee service in campus, state, and national organizations. She was in considerable demand as a speaker to teacher groups, often focusing on skill analysis and supervision. Upon her retirement in 1981, she was named Associate Professor Emeritus.

Suzanne Schroeder was greatly respected as an advocate of teaching excellence and brought a calm, graceful energy to all her work.

On behalf of the University community, the Board of Trustees expresses to the family of friends of Professor Suzanne E. Schroeder its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

Harold Shechter

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 19, 2006, of Harold Shechter, Professor Emeritus in the Department of Chemistry.

Professor Shechter grew up in Swansea, South Carolina, where he completed his public school education and received his undergraduate degree in 1941 from the University of South Carolina. From 1941-45 he was a graduate assistant and research fellow in the Chemistry Department at Purdue University, receiving his Ph.D. degree in 1945.

After a year as a Westinghouse postdoctoral fellow at Purdue, he joined the faculty of The Ohio State University in 1946 as an assistant professor and rose through the ranks to full professor. From 1977-83 he served as faculty representative for athletics, in addition to serving on many University committees through the years. In 1987, he was named the first Newman Professor of Chemistry. He was a superb undergraduate and graduate instructor and a champion of excellent teaching throughout the department. He won the Alumni Award for Distinguished Teaching in 1965 and the College of Arts and Sciences' Outstanding Teacher Award in 1986. One of his favorite courses was the introductory organic chemistry lecture, and he loved his interaction with premedical students.

He was an avid fan of Ohio State sports, missing only one home football game during his years at Ohio State, and regularly attending basketball and baseball games. Even though he reached mandatory retirement age in 1992, he was active in the department until his death.

Professor Shechter developed a world-renowned research program during his years at Ohio State. He was advisor to 126 Ph.D. students, 35 M.S. students, and had 80 postdoctoral fellows who conducted research with him. Sponsors of this research were:

July 7, 2006 meeting, Board of Trustees

The National Science Foundation, The National Institutes of Health, The Petroleum Research Fund, Research Corporation, The Office of Ordnance Research (U.S. Army), The Office of Naval Research, Geo-Centers Inc., The Ohio State University Development Fund, Arthur D. Little Corp., Commercial Solvents Corp., Aerojet Engineering Corp., General Tire Company, Thiokol Corp., Alliant Tech Systems, and a number of other agencies.

He was a consultant to many government agencies and companies: EPA Advisory Board, Office of Naval Research, U.S. Ordnance Offices, U.S. Navy Space Program, U.S. Army, U.S. Air Force, National Institutes of Health, Professional Consulting, W.R. Grace, American Can Company, Thiokol Corp., Allied Chemical Corp., Chemical Samples Co., Petroleum Chemicals Inc., Battelle Laboratories, Pennsylvania Railroad Co., Arco Co., Lubrizol Co., Exxon Co., Great Lakes Chemical Co., American Cyanamid Co., and G. F. Smith Chemical Co.

Professor Shechter's research resulted in more than 240 scientific articles. He presented over 350 lectures at universities, colleges, industrial and government research laboratories, and scientific societies. From 1958-60 he served as associate editor of the *Journal of Organic Chemistry* and from 1970-74 was associate editor of *Chemical Reviews*.

Professor Shechter had a broad range of research interests, including generation and reactions of carbene and nitrene intermediates, the synthesis and reactions of the oxides of nitrogen and aliphatic nitro compounds, the mechanism of hydrazoic acid reactions with organic compounds, rocketry chemistry, pentacoordinate silicon chemistry, the synthesis and chemistry of highly-strained compounds, and highly-delocalized mono and dianions. He was one of the first investigators to be involved in the chemistry of divalent carbon and this was a major research interest over the years. He was a world authority on the chemistry of aliphatic nitro compounds, and over 21% of the rocket propellants used in the Polaris submarine missiles (U.S. Navy) were manufactured by chemistry developed at Ohio State. He was awarded the Meritorious Public Service Citation in 1962 from the Office of Naval Research. In 1994 he received the Columbus Section Award from the American Chemical Society for his research contributions.

His colleagues and former students will miss Professor Shechter's vast knowledge of organic chemistry, his insight into organic chemistry and the teaching of organic chemistry, and his thoughtful questions and suggestions for further research opined at chemistry seminars.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Harold Shechter its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

REPORT ON UNIVERSITY DEVELOPMENT

Resolution No. 2007-14

Synopsis: The report on the receipt of gifts and the summary for May 2006 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

July 7, 2006 meeting, Board of Trustees

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The Ambassador Milton A. and Roslyn Z. Wolf Chair and The Major General Raymond E. Mason Jr. Chair of Military History; and

WHEREAS this report includes the establishment of fifty-two (52) new named endowed funds and the revision of fifteen (15) endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of May 2006 be approved.

July 7, 2006 meeting, Board of Trustees

	<u>Total Gifts</u>
<u>Establishment of Named Endowed Funds</u>	
Richard John and Mary Ann Campbell Memorial Scholarship Fund in Welding Engineering (Used provide a scholarship to welding engineering students; provided by gifts from the estates of Mary Ann Hinders Campbell and Richard J. Campbell)	\$168,619.00
College of Dentistry Endowed Chair Fund in Periodontology (Used to provide salary and program support to a distinguished faculty member in the Section of Periodontology in the College of Dentistry; provided by gifts from alumni and friends)	\$100,108.00
College of Pharmacy Faculty Research and Development Fund (Used at the discretion of the dean of the College of Pharmacy to support faculty research and development activities; provided by gifts from numerous donors)	\$92,500.00
The College of Pharmacy Alumni Society Scholarship Fund (Used to provide a scholarship for an incoming second-, third-, or fourth-year Pharm.D. student in good academic standing who participates in one or more of the College's student organizations; provided by gifts from The College of Pharmacy Alumni Society)	\$35,238.24
The John Lyman Jr. Award Fund for Clinical Teaching Excellence (Used to supplement the implementation of the clinical teaching excellence award in the College of Veterinary Medicine; provided by a gift from Ronald Lyman in memory of his father, John Lyman, Jr.)	\$33,325.00
Optometry Scholarship Dinner Endowment Fund (Used to provide scholarships for students studying optometry; provided by gifts from numerous donors)	\$28,473.00
The Charles W. Kettlewell Professional Responsibility Award Fund (Used to provide an award to a law student for demonstrating excellence in understanding the laws of professional responsibility; provided by gifts from the Association of Responsibility Lawyers and Reginald S. Jackson, Jr. in memory of Charles W. Kettlewell)	\$28,250.00
Moritz College of Law Dean's Innovation Fund (Used at the discretion of the dean of the Moritz College of Law to support scholarships and/or awards for faculty and students; provided by gifts from friends and alumni of the Moritz College of Law)	\$27,064.00
Dr. Joe and Esther Ponzani Dental Missionary Scholarship Fund (Used to provide annual scholarship awards for dental students or Post-doctoral students who have served in the past 12 months as a dental missionary; provided by gifts from Esther Ponzani, friends, and family in celebration of the life of Dr. Joe Ponzani)	\$25,500.00
The Waste Management Athletic Scholarship Fund (Used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at OSU and is a member of the varsity football team; provided by gifts from Waste Management of Canal Winchester, Ohio)	\$25,000.00

Gifts

Establishment of Named Endowed Chairs

The Ambassador Milton A. and Roslyn Z. Wolf Chair \$1,383,977.00
(Used to support a chair position in the John Glenn School of Public Affairs; provided by a gift from Ambassador Milton A. Wolf and Roslyn Z. Wolf) (grandfathered)

The Major General Raymond E. Mason Jr. Chair of Military History \$1,151,642.00
(Used to support the Mason Chair of Military History; provided by gifts from Major General Raymond E. Mason, Jr.) (grandfathered)

Establishment of Named Endowed Funds

The Jerome Lawrence and Robert E. Lee Theatre Research Institute Endowed Fund \$1,145,877.83
(Used at the discretion of the director and the curator of The Jerome Lawrence and Robert E. Lee Theatre Research Institute; provided by a gift from the estate of Jerome Lawrence)

Bill and Blossom Hunt Athletic Scholarship Fund \$192,072.00
(Used to supplement athletic scholarship grant-in-aid scholarship costs for student athletes who are members of the OSU men's basketball team and pursuing undergraduate degrees at OSU; provided by an estate gift from Bill and Blossom Hunt)

Gail T. Dennison ATI Equine Endowment Fund \$150,000.00
(Used to purchase equipment and for special projects as outlined by the chairperson and the technology coordinator of horse production and management technology at the Agricultural Technical Institute; provided by a gift from the estate of Gail T. Dennison)

Michael H. and Jo Ann Carpenter Scholarship Fund \$100,500.00
(Used to provide a full in-state tuition scholarship for that admitted first-year student at the Moritz College of Law possessing the highest LSAT score of the entering class and a minimum GPA of 3.25 who is not otherwise receiving full-tuition scholarship; provided by gifts from Michael H. and Jo Ann Carpenter)

The Bunny and Thomas Clark Scholarship Endowment Fund \$100,460.50
(Used to support educational diversity at the University, consistent with the University's mission and admissions policy, by awarding scholarships in furtherance of the diversity mission with particular attention to, but not limited to, female students who have been accepted for admissions at the University and are enrolled in the College of Mathematical and Physical Sciences, Department of Physics; provided by gifts from Bunny and Thomas Clark)

July 7, 2006 meeting, Board of Trustees

The Mike and Diane Zieg Athletic Scholarship Fund for Men's Lacrosse (Used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at the OSU and is a member of the varsity men's lacrosse team; provided by gifts from Michael B. and Diane H. Zieg)	\$67,162.45
The A.D. Farrow Company Athletic Scholarship Fund (Used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at OSU and is a member of a varsity athletics team; provided by gifts from A.D. Farrow Company of Columbus, Ohio)	\$53,250.00
Don and Betty Spoelker Family Athletic Scholarship Fund (Used to provide a scholarship to an undergraduate student-athlete who is a member of the men's varsity football team; provided by gifts from Don and Betty Spoelker)	\$50,502.00
Evelyn Ackers Glore Scholarship Fund (Used to provide scholarships for students in the School of Music; provided by gifts from the estate of Evelyn Ackers Glore)	\$50,000.00
Mary Eloise Green Innovation Fund (Used for professional use and development of the Department of Human Nutrition; provided by a gift from the estate of Mary Eloise Green)	\$40,000.00
Mendezoff Internship Fund (Used to provide incentives and financial support to students from the Ohio Agricultural Research and Development Center seeking internships in the Secrest Arboretum; provided by a gift from Paul Mendezoff in memory of his grandmother, Julia Skwarski, an avid gardener)	\$38,000.00
The Larry and Linda Waller Athletic Scholarship Fund (Used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at the OSU and is a member of the varsity football team; provided by gifts from Larry and Linda Waller)	\$36,506.00
The Visci Family Scholarship Fund (Used to provide need-based scholarships to students in the College of Education and Human Ecology in his/her final two years of study who have a cumulative GPA of 3.0 or higher; provided by gifts from Joseph M. Visci and Martha A. Claus in honor of Leonard Visci and Alice Visci)	\$35,103.28
The America Lung Association Endowment Fund in Pulmonary Medicine (Used to support the advancement of medical knowledge related to research, prevention and treatment, education, or training on pulmonary diseases; provided by gifts from the America Lung Association of Ohio)	\$35,000.00
The Ohio State University at Lima Trustees Scholarship Fund (Used to provide scholarships to students at the OSU-Lima campus who exhibit leadership skills; provided by gifts from the OSU-Lima Board of Trustees)	\$34,850.00

July 7, 2006 meeting, Board of Trustees

Rosalind Pierson Scholarship Fund (Used to provide merit-based scholarships for undergraduate or graduate students majoring in dance; provided by gifts from an anonymous donor in memory of Professor M. Rosalind Pierson)	\$30,250.00
James R. Baroffio Fellowship Fund in Geological Sciences (Used to support a graduate fellowship in the Department of Geological Sciences for a student performing fieldwork as part of thesis or dissertation research; provided by gifts from Dr. James R. Baroffio)	\$27,915.63
The Dr. Milton S. Rosner Scholarship Fund for Academic Excellence in Social Work (Used to provide an award to a master's degree candidate in the College of Social Work who demonstrates academic excellence with preference given to a student focusing his/her studies on social policy and planning; provided by gifts from Lynne Gutches Snowden)	\$27,515.00
The Robert D. Hays Fund for Law Faculty Excellence (Used at the discretion of the dean of the Moritz College of Law to enhance, improve, and advance teaching excellence of the faculty of the College; provided by gifts from Robert D. and Eloise E. Hays)	\$26,500.00
The George Booth Family Athletic Scholarship Fund (Used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at OSU and is a member of a varsity athletics team; provided by gifts from George H. Booth, Jr.)	\$26,477.00
The Jessica C. Beck Memorial Scholarship Fund (Used to supplement the grant-in-aid scholarship costs of an upper-class intercollegiate student-athlete who is pursuing an undergraduate degree at OSU and participating in the sport of synchronized swimming; provided by gifts from friends and family of Jessica C. Beck)	\$25,842.00
Atsushi Onoe Memorial Fund (Used to support academic activities for students who wish to pursue the study of Japanese language and culture; provided by gifts from Toshioki and Keiko Onoe)	\$25,646.00
The Melanie and Philippe Radley Endowed Scholarship Fund (Used to support undergraduate students majoring in Russian in the Department of Slavic and East European Languages and Literatures; provided by gifts from Melanie and Philippe Radley)	\$25,500.00
The van Bakeren Endowed Scholarship Fund (Used to supplement tuition and room and board for one outstanding third- or fourth-year veterinary student with an interest in pursuing a career in research or laboratory animal medicine; provided by gifts from an anonymous donor)	\$25,039.00
The Big Lots Athletic Scholarship Fund (Used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at OSU and is a member of the varsity men's basketball team; provided by a gift from Big Lots of Columbus, Ohio)	\$25,000.00

July 7, 2006 meeting, Board of Trustees

The Rodica C. Botoman Award for Distinguished Undergraduate Teaching and Mentoring Fund (Used to provide an award to a member of the College of Humanities faculty who best exemplifies excellence as a teacher of undergraduates; provided by gifts from Mr. Ben M. Jones and Dr. V. Alin Botoman)	\$25,000.00
The Color World Housepainting, Inc. Athletic Scholarship Fund (Used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at OSU and is a member of the varsity football team; provided by gifts from Color World Housepainting, Inc.)	\$25,000.00
The Mary Jo and Robert Cropper Dean's Innovation Fund (Used to promote initiatives by the faculty and staff designed to increase the quality of teaching, research, and involvement with the business community; provided by gifts from Mary Jo and Robert Cropper)	\$25,000.00
Emerson Climate Technologies/Copeland Scholarship Endowment Fund (Used to provide non-renewable scholarships to entering first-year students from Shelby County, Ohio, who rank in the top 10% of their high school class; provided by a gift from Emerson Climate Technologies)	\$25,000.00
Dr. Daniel S. German and Dr. Stephen P. Burke Athletic Scholarship Fund (Used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at OSU and is a member of a varsity team, with preference given to those interested in pursuing careers in medicine or dentistry; provided by gifts from Dr. Daniel S. German and Dr. Stephen P. Burke)	\$25,000.00
Grogan Family Endowed Athletic Scholarship Fund (Used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at OSU and is a member of a varsity basketball team; provided by a gift from Robert J. Grogan)	\$25,000.00
The George W. and Lois L. Hoddy Student Leadership, Innovation and Entrepreneurship Fund (Used to provide discretionary funds to support programs and activities that develop and advance the knowledge and skills of students in areas of leadership, innovation, entrepreneurship, and global awareness; provided by gifts from George W. Hoddy to honor his wife, Lois)	\$25,000.00
The Gail Norris Dean's Innovation Fund (Used to promote initiatives by the faculty and staff of the Fisher College of Business designed to increase the quality of teaching, research, and involvement with the business community; provided by gifts from Gail Norris)	\$25,000.00
The OSU Medical Center Adult Congenital Heart Disease Clinic Fund (Used for programs of the Adult Congenital Heart Disease Clinic located at the OSU Medical Center; provided by gifts from the Schooler Family Foundation)	\$25,000.00
The Peart Conservatory Fund at Ohio State ATI (Used to maintain the conservatory at Ohio State ATI; provided by a gift from an anonymous donor)	\$25,000.00

July 7, 2006 meeting, Board of Trustees

The P. Noah Sherba Scholarship Fund (Used to provide one need-based, non-renewable scholarship to a first-year student who graduated from Canfield High School in Ohio in the top 50% of his/her class; provided by a gift from Paul and Juanita Sherba)	\$25,000.00
The John D. Skinner and Clifford E. Herrington Endowment Fund for Lung Cancer Research (Used to support lung cancer research; provided by a gift from James and Patsy Skinner in memory of James' father, John, and Patsy's grandfather, Clifford)	\$25,000.00
Straub Family Endowed Athletic Scholarship Fund (Used to provide a grant-in-aid scholarship for a student-athlete who is pursuing an undergraduate degree at OSU and is a member of the varsity football team; provided by a gift from David Straub)	\$25,000.00
Robert D. Touse and William F. Cowen Jr. Scholarship Fund (Used to provide need-based scholarships to full-time junior or senior students majoring in forestry in the School of Environment and Natural Resources with preference given to students who are employed; provided by gifts from the Richard and Rita Porterfield Charitable Trust in honor of Robert D. Touse and William F. Cowen Jr.)	\$25,000.00

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Endowed Funds

Richard John and Mary Ann Campbell Memorial Scholarship Fund in Welding Engineering

The Richard John and Mary Ann Campbell Memorial Scholarship Fund in Welding Engineering was established July 7, 2006, by the Board of Trustees of The Ohio State University with gifts from the estates of Mary Ann Hinders Campbell and Richard J. Campbell (B.W.E., 1955).

The annual distribution from this fund shall help recruit welding engineering students by providing a renewable scholarship, not to exceed 25% of the year's tuition and fee total, to academically strong students who are deserving of financial assistance. Preference will be given to residents of Ohio, New York, and Wisconsin. Qualified candidates must have a minimum grade point average of 3.0 and maintain that average in order to renew the scholarship while making adequate progress towards a degree in welding engineering. Scholarship recipients will be selected by the chairperson of the Department of Industrial, Welding, and Systems Engineering in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the chairperson of the Department of Industrial, Welding, and Systems Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$168,619.00

College of Dentistry Endowed Chair Fund in Periodontology

The College of Dentistry Endowed Chair Fund in Periodontology was established July 7, 2006, by the Board of Trustees of The Ohio State University with gifts from alumni and friends.

Until the principal reaches the funding level required to establish a chair position (\$1.5 million) the annual distribution will be reinvested into the endowment principal. When the principal reaches full funding level, the annual distribution shall be used to provide salary and program support to a distinguished faculty

July 7, 2006 meeting, Board of Trustees

member in the Section of Periodontology in the College of Dentistry. Selection of the named chair holder shall be made by the dean of the College of Dentistry with recommendation from the head of the Section of Periodontology and approved by the Board of Trustees.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Dentistry and the head of the Section of Periodontology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$100,108.00

Total Commitment: \$1,500,000.00

College of Pharmacy Faculty Research and Development Fund

The College of Pharmacy Faculty Research and Development Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University with gifts from numerous donors.

The annual distribution from this fund shall be used at the discretion of the dean of the College of Pharmacy to support faculty research and development activities.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Pharmacy. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$92,500.00

The College of Pharmacy Alumni Society Scholarship Fund

The College of Pharmacy Alumni Society Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University with gifts from The College of Pharmacy Alumni Society.

The annual distribution from this fund shall provide a scholarship for an incoming second-, third-, or fourth-year Pharm.D. student in good academic standing who participates in one or more of the College's student organizations. The

July 7, 2006 meeting, Board of Trustees

scholarship will be awarded to a different student each year who exhibits potential for success and demonstrates a difficulty meeting tuition and fees.

Scholarship recipients will be selected by the dean of the College of Pharmacy and the assistant dean of the College of Pharmacy Student Affairs in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Pharmacy and the assistant dean of the College of Pharmacy Student Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$35,238.24

The John Lyman Jr. Award Fund for Clinical Teaching Excellence

The John Lyman Jr. Award Fund for Clinical Teaching Excellence was established July 7, 2006, by the Board of Trustees of The Ohio State University with a gift from Ronald Lyman (D.V.M., 1977) in memory of his father, John Lyman Jr. (D.V.M., 1950).

The annual distribution from this fund shall support the implementation of a clinical teaching excellence award in the College of Veterinary Medicine. The criteria will include superior ratings derived from course evaluation forms (submitted by students during their clinical clerkship) as well as prompt submission of student grades to the College office. The recipient shall be selected by a committee composed of previous awardees or distinguished teaching award winners from within the College as well as appropriate teaching excellence experts from outside the College but employed by The Ohio State University.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Veterinary Medicine, for any use benefiting the clinical teaching faculty of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$33,325.00

July 7, 2006 meeting, Board of Trustees

Optometry Scholarship Dinner Endowment Fund

The Optometry Scholarship Dinner Endowment Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University with gifts from numerous donors.

The annual distribution from this fund shall provide scholarships for students studying optometry at The Ohio State University College of Optometry. Scholarship recipients will be selected by the dean of the College of Optometry in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Optometry. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$28,473.00

The Charles W. Kettlewell Professional Responsibility Award Fund

The Charles W. Kettlewell Professional Responsibility Award Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University with gifts from the Association of Professional Responsibility Lawyers (APRL) and Reginald S. Jackson Jr. (J.D., 1971) in memory of Charles W. Kettlewell (B.S.Ed., 1964; J.D., 1971) a distinguished member of the professional responsibility bar, valued member of The Michael E. Moritz College of Law adjunct faculty, and kindly mentor of colleagues.

The annual distribution from this fund shall provide an award to a law student for demonstrated excellence in understanding the law of professional responsibility and the obligations of professionalism that guide attorneys in the practice of law. Award recipients shall be selected by the dean of the Moritz College of Law.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly

July 7, 2006 meeting, Board of Trustees

aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$28,250.00

Moritz College of Law Dean's Innovation Fund

The Moritz College of Law Dean's Innovation Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University with gifts from friends and alumni of The Michael E. Moritz College of Law.

The annual distribution from this fund shall be used at the discretion of the dean of the Moritz College of Law to support scholarships and/or awards for faculty and students. Scholarships will be awarded in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$27,064.00

Dr. Joe and Esther Ponzani Dental Missionary Scholarship Fund

The Dr. Joe and Esther Ponzani Dental Missionary Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University with gifts from Esther Ponzani, friends, and family in memory of Dr. Joe Ponzani (B.S., 1952; D.D.S., 1956).

The annual distribution from this fund shall be used to provide one or more annual scholarship awards for dental student(s) or post-doctoral student(s) who have served in the past 12 months as a dental missionary. Scholarship recipients will be selected by the dean of the College of Dentistry in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Dentistry. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,500.00

July 7, 2006 meeting, Board of Trustees

The Waste Management Athletic Scholarship Fund

The Waste Management Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University with a gift from Waste Management of Canal Winchester, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the varsity football team. The recipient will be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Total Commitment: \$125,000.00

Change in Description of Named Endowed Funds

W. M. Kiplinger '12 Program in Public Affairs Journalism Fund

The Willard M. Kiplinger Professorship in Public Affairs in the School of Journalism was established on February 3, 1971, by the Board of Trustees of The Ohio State University with gifts from the Kiplinger Foundation Incorporated. The fund was changed to the Willard M. Kiplinger Chair in Public Affairs Reporting on June 2, 1972. The name and description were revised September 22, 2004. The description was further revised July 7, 2006.

The annual distribution from this fund shall be used to enable six to eight mid-career journalists, each with at least five years of professional experience in journalism, to participate annually in an on-campus program designed to enhance the journalists' skills in public affairs reporting. The program, housed in The John Glenn School of Public Affairs, will draw upon the University's public affairs expertise in all fields. Program participants shall be known as Kiplinger Fellows. The fund will cover program costs and administration, including stipends for the participating fellows.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of the John Glenn School of Public Affairs in consultation with the Kiplinger Foundation. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

July 7, 2006 meeting, Board of Trustees

Master of Arts in Public Policy and Management Scholarship Fund

The Master of Arts in Public Policy and Management Scholarship Fund was established August 30, 1995, by the Board of Trustees of The Ohio State University with a transfer of funds from the Public Management Programs. The description was revised July 7, 2006.

The annual distribution from this fund shall be used for a scholarship for a Master of Arts student enrolled in the Public Policy and Management Master's Program. Recipients shall be selected by the director of The John Glenn School of Public Affairs in consultation with the faculty of the Public Policy and Management Master's Program and the Office of Student Financial Aid. Criteria for the award shall include financial need, professional development potential, and commitment to public service.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

This fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of The John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original as good conscience and need dictate.

William and Rose Papier Fund

The William and Rose Papier Fund was established May 4, 1984, by the Board of Trustees of The Ohio State University with gifts from William Bernard (M.A., 1933) and Rose Locum (M.A., 1942) Papier and their friends. The description was revised July 7, 2006.

Three-fourths (3/4) of the annual distribution from this fund shall be used to provide grants for graduate research in public administration for graduate students enrolled in The John Glenn School of Public Affairs at The Ohio State University. Selection of the recipients of the grants shall be made by the director of the School based solely on merit. The remaining one-fourth (1/4) of the annual distribution shall be returned to the principal of the endowed fund.

In any given year that the endowment distribution is not fully expended, the unused portion should be accumulated and awarded in subsequent years, or returned to the endowment principal at the discretion of the director of the School.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of The John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

July 7, 2006 meeting, Board of Trustees

The Alvin Karl and Dorothea Ford Peterjohn Scholarship Fund

The Alvin Karl and Dorothea Ford Peterjohn Scholarship Fund was established July 9, 1993, by the Board of Trustees of The Ohio State University with gifts from the family and friends of the Peterjohn family. The description was revised July 7, 2006.

The annual distribution from this fund shall be used to provide financial support to a second-year master's student in The John Glenn School of Public Affairs. Consideration of scholarship and financial need shall be given when determining the recipient of the Peterjohn Scholarship. Recipients shall be selected by the director of The John Glenn School of Public Affairs in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of The John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Pharmaceutical Administration Excellence Fund

The Pharmaceutical Administration Excellence Fund was established May 3, 1985, by the Board of Trustees of The Ohio State University with an initial gift to the Office of University Development from Merrell Dow Pharmaceuticals, Inc., Cincinnati, Ohio, in honor of Dr. Dev S. Pathak, Professor Emeritus in The Ohio State University School of Public Health. The description was revised July 7, 2006.

The annual distribution from this fund will be used to support the activities undertaken by the Merrell Dow Professor and in support of the advancement of research, teaching, and public service in the Division of Pharmaceutical Administration at The Ohio State University College of Pharmacy. The director of the Division of Pharmaceutical Administration will have sole authority to authorize expenditures from the fund, under the supervision of the dean of the College of Pharmacy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Pharmacy. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

July 7, 2006 meeting, Board of Trustees

The Jack D. Sparks Endowed Scholarship Fund

The Jack D. Sparks Endowed Scholarship Fund was established May 30, 2003, by the Board of Trustees of The Ohio State University with a gift from The Jack D. and Fredda S. Sparks Foundation. The description was revised July 7, 2006.

The annual distribution from this fund shall be used to provide scholarship support for one "John Glenn Fellow" participating in the Washington Academic Internship Program of the John Glenn School of Public Affairs. It is the desire of the donor that the scholarship shall be awarded with preference to, but not limited to, students interested in public service. The scholarship shall be awarded by the director of the Washington Academic Internship Program in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of the John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

THE OHIO STATE UNIVERSITY FOUNDATION

Establishment of Named Endowed Chairs

The Ambassador Milton A. and Roslyn Z. Wolf Chair

The Ambassador Milton A. and Roslyn Z. Wolf Chair Fund was established February 2, 1996, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Ambassador Milton A. Wolf (B.A. Biological Sciences, 1948) and Roslyn Z. Wolf. The required funding level has been reached and the chair was established July 7, 2006.

The annual distribution from this fund shall be used to support a chair position in the John Glenn School of Public Affairs. The distribution shall be used to retain a professor who is nationally recognized as a leading and prominent expert in international and public policy, has a distinguished record of scholarship, maintains an active and productive research program, and is an effective educator-teacher. To ensure the outstanding caliber of the chair recipient, the University will contribute any additional funds which may be required from time to time.

The chair holder will be a tenured member of the John Glenn School of Public Affairs, with the rank of full professor, providing knowledge and guidance for the graduate and undergraduate communities, among other responsibilities.

Ambassador Milton A. and Roslyn Z. Wolf's lineal descendants will be advised as to the University's progress in selecting the chair recipient, and are encouraged to meet finalists for the position and to provide their advice and insight to the president of the University and director of the School. The University, in consultation with the Wolf family, will determine appropriate publicity of the chair.

July 7, 2006 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

This fund shall benefit the University in perpetuity so that only the annual distribution from this fund shall be used. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the John Glenn School of Public Affairs with the approval of the Wolfs' lineal descendents, if available. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$1,383,977.00 (grandfathered)

The Major General Raymond E. Mason Jr. Chair of Military History

The Major General Raymond E. Mason, Jr. Professorship of Military History was established July 11, 1997, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Major General Raymond E. Mason, Jr. (B.S.Bus.Adm., 1941). The funding level has been reached and a chair was established July 7, 2006.

The annual distribution from this fund shall be used to support The Major General Raymond E. Mason Jr. Chair of Military History. The Mason Chair will be a recognized, published expert on all or some of the following subjects: the history of American military policy and military institutions, the conduct of war by the United States to include the operations of the wartime armed forces, civil-military relations, and the history of the military profession in the United States.

It is preferred but not required by the donor that the chair holder will be a veteran of military service, honorably completed by expiration of enlistment or fulfillment of the contractual conditions of officership in the standing or reserve forces. Service in the American armed forces is preferred. The donor believes that military experience is essential to understanding military history. Military services should not be viewed as a substitute for the highest academic, professional attainments in the fields of scholarship, teaching, and public service.

The chair may be appointed from among the existing faculty of the Department of History or appointed as the result of an international search under the same practices and procedures that would govern any University search. However, since the chair will also have an affiliation with the Mershon Center, the Center director or his/her representative will sit as a member of the search committee and must approve a positive recommendation for appointment before it goes to the Department of History faculty. The Mershon Center support for the chair will be consistent with the Dean's Oversight Committee principles and be negotiated among the Mershon director, the Mason Chair candidate, and the chairperson of the tenuring home academic department, presumably in the Department of History in the College of Humanities.

When there is not a person holding the chair, the annual distribution shall be returned to the principal to enhance the annual distribution available to the next person named to the chair.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be

July 7, 2006 meeting, Board of Trustees

assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then the Board of Trustees and Foundation Board, in consultation with the donor or his designee, will designate the distribution of this fund to another purpose at The Ohio State University which support programs which are of interest to the donor.

Amount Establishing Endowment: \$1,151,642.00 (grandfathered)

Establishment of Named Endowed Funds

The Jerome Lawrence and Robert E. Lee Theatre Research Institute Endowed Fund

The Jerome Lawrence and Robert E. Lee Theatre Research Institute Endowed Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the estate of Jerome Lawrence (B.A. cum laude 1937).

The annual distribution from this fund shall be used at the discretion of the director and the curator of The Jerome Lawrence and Robert E. Lee Theatre Research Institute as approved by the director of University Libraries.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of University Libraries in consultation with the director and the curator of The Jerome Lawrence and Robert E. Lee Theatre Research Institute. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$1,145,877.83

Bill and Blossom Hunt Athletic Scholarship Fund

The Bill and Blossom Hunt Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an estate gift from Bill (B.S.Bus.Ad., 1927) and Blossom Hunt.

The annual distribution from this fund shall be used to supplement athletic scholarship grant-in-aid scholarship costs for the student athletes who are members of The Ohio State University men's basketball team pursuing undergraduate degrees at The Ohio State University. Scholarship recipients will be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

July 7, 2006 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$192,072.00

Gail T. Dennison ATI Equine Endowment Fund

The Gail T. Dennison ATI Equine Endowment Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the estate of Gail T. Dennison.

The annual distribution from this fund shall be used to purchase equipment and for special projects as outlined by the head and the technology coordinator of the horse production and management technology at the Agricultural Technical Institute. Expenditures shall be approved by the director of the Agricultural and Engineering Technologies Division and the technology coordinator of the horse production and management technology at the Agricultural Technical Institute.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Agricultural Technical Institute and the head of the horse production and management technology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$150,000.00

Michael H. and Jo Ann Carpenter Scholarship Fund

The Michael H. and Jo Ann Carpenter Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Michael H. (B.A., 1974; J.D., 1977) and Jo Ann Carpenter (B.S.H.E., 1974; B.S Ed., 1978).

The annual distribution from this fund shall provide a full, in-state tuition scholarship for that admitted first-year student at The Michael E. Moritz College of Law with superior academic credentials as demonstrated by possessing the highest LSAT score of the entering class and a minimum grade point average of 3.25 who is not otherwise receiving full-tuition scholarship. The scholarship is

July 7, 2006 meeting, Board of Trustees

renewable for the subsequent years of law school so long as the student maintains a 3.0 or higher GPA. Scholarship recipients will be selected by the dean of the Moritz College of Law in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$100,500.00

Total Commitment: \$387,500.00

The Bunny and Thomas Clark Scholarship Endowment Fund

The Bunny and Thomas Clark Scholarship Endowment Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Bunny and Thomas Clark.

The annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donors' desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, female students, who have been accepted for admissions at the University and are enrolled in the College of Mathematical and Physical Sciences, Department of Physics. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. The annual distribution shall support three (3) renewable awards annually to be used for educational and research expenses. Fifty percent (50%) of the distribution shall be awarded to a graduate-level student and the remaining fifty percent (50%) shall be split between two (2) undergraduate students. Scholarship recipients shall be selected by the chairperson of the Department of Physics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Mathematical and Physical Sciences in consultation with the chairperson of the Department of Physics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$100,460.50

Total Commitment: \$125,000.00

July 7, 2006 meeting, Board of Trustees

The Mike and Diane Zieg Athletic Scholarship Fund for Men's Lacrosse

The Mike and Diane Zieg Athletic Scholarship Fund for Men's Lacrosse was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Michael B. (M.B.A., 1992) and Diane H. Zieg, Columbus, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the men's lacrosse team. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$67,162.45

The A.D. Farrow Company Athletic Scholarship Fund

The A.D. Farrow Company Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the A.D. Farrow Company of Columbus, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of a varsity athletics team. The recipient will be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$53,250.00

July 7, 2006 meeting, Board of Trustees

Don and Betty Spoelker Family Athletic Scholarship Fund

The Don and Betty Spoelker Family Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Don and Betty Spoelker.

The annual distribution from this fund shall provide a scholarship to an undergraduate student-athlete who is a member of the men's varsity football team. Scholarship recipients shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,502.00

Evelyn Ackers Glore Scholarship Fund

The Evelyn Ackers Glore Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Evelyn Ackers Glore (B.S., 1936).

The annual distribution from this fund shall be used to provide scholarships for students in the School of Music. Scholarship recipients will be selected by the director of the School of Music in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the School of Music. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

July 7, 2006 meeting, Board of Trustees

Mary Eloise Green Innovation Fund

The Mary Eloise Green Innovation Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the estate of Mary Eloise Green.

The annual distribution from this fund shall be used for professional use and development of the Department of Human Nutrition as approved by the dean of the College of Education and Human Ecology in consultation with the chairperson of the Department of Human Nutrition (formerly known as the Department of Human Nutrition and Food Management).

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Education and Human Ecology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$40,000.00

Mendezoff Internship Fund

The Mendezoff Internship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Paul Mendezoff (B.S.Agr., 1977) in memory of his grandmother, Julia Skwarski, an avid gardener.

Julia and her husband planted numerous trees, shrubs, and flowers on their three-acre property in Independence, Ohio, where Paul spent much of his time as a child helping his grandmother tend to her gardens. Although she had no formal education or training in horticulture, Julia had a natural gift when it came to plants. Her interest and love of plants was reflected in her gardens, which closely resembled the Secret Arboretum.

The annual distribution from this fund shall be used to provide incentives and financial support to students from the Ohio Agricultural Research and Development Center (OARDC) seeking internships in the Secret Arboretum. Recipients shall be selected by the curator of the Secret Arboretum in consultation with the director of OARDC.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

July 7, 2006 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the curator of the Secrest Arboretum in consultation with the director of OARDC. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$38,000.00

The Larry and Linda Waller Athletic Scholarship Fund

The Larry and Linda Waller Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Larry (B.S.Bus.Ad., 1967) and Linda Waller.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the varsity football team. The recipients will be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$36,506.00

Total Commitment: \$100,000.00

The Visci Family Scholarship Fund

The Visci Family Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Joseph M. Visci (M.A., 1977) and his wife, Martha A. Claus, in honor of Leonard Visci (M.A., 1955) and Alice Visci.

Leonard and Alice spent their nearly 60 years of married life in commitment to public education, much of it in the East Cleveland City Schools. In addition to raising four children and seeing all four complete their college degrees, Leonard enjoyed a successful career in K-12 public education that spanned four decades as a coach, classroom teacher, principal, and district superintendent. In "retirement," he worked for General Electric to develop training programs and later worked with student teachers at Hiram College. Supporting Leonard every step of the way was Alice, his typist, editor, and counselor as he pursued his various degrees. Alice also mastered the role of mother, homemaker, and school booster, and performed amazing feats of financial wizardry to ensure that the household budget could support all of the children's tuitions.

July 7, 2006 meeting, Board of Trustees

The annual distribution from this fund shall be used to provide a need-based scholarship(s) to a student(s) in the College of Education and Human Ecology in his/her final two (2) years of study whom have a cumulative grade point average of 3.0 or above. Qualified candidates shall be preparing for teacher licensure at either the primary or secondary level and be planning on pursuing a career in teaching K-12. Scholarship recipients will be selected by the College's scholarship committee, appointed by the dean of the College, in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Education and Human Ecology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$35,103.28

The American Lung Association Endowment Fund in Pulmonary Medicine

The American Lung Association Endowment Fund in Pulmonary Medicine was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from the American Lung Association of Ohio – Central Region of Columbus, Ohio.

The annual distribution from this fund shall be used to support the advancement of medical knowledge related to research, prevention and treatment, education, or training on pulmonary diseases; and shall be directed whenever possible towards the activities undertaken by faculty member(s) who holds a chair or professorship position in pulmonary medicine. Allocation of funds shall be approved by the director of the Division of Pulmonary Medicine and Critical Care in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Division of Pulmonary Medicine and Critical Care in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$35,000.00

July 7, 2006 meeting, Board of Trustees

The Ohio State University at Lima Trustees Scholarship Fund

The Ohio State University at Lima Trustees Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The Ohio State University at Lima Board of Trustees in honor of the vision and leadership that has guided the campus enabling the campus to grow both physically and programmatically.

The annual distribution from this fund shall provide scholarships to students at The Ohio State University at Lima campus who exhibit leadership skills. Scholarship recipients will be selected by the dean and director of The Ohio State University at Lima in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean and director of The Ohio State University at Lima. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$34,850.00

Rosalind Pierson Scholarship Fund

The Rosalind Pierson Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from an anonymous donor in memory of Professor M. Rosalind Pierson, a gifted dancer, teacher, and mentor. Rosalind taught classical ballet, modern dance, performance technique, improvisation, and choreography in The Ohio State University Department of Dance from 1975 until her untimely death in 2005.

The annual distribution from this fund shall provide merit-based scholarships for undergraduate or graduate students majoring in dance. Scholarship recipients will be selected by the Department of Dance Scholarship Committee in consultation with the Office of Student Financial Aid with approval from the chairperson of the Department of Dance.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chair-

July 7, 2006 meeting, Board of Trustees

person of the Department of Dance. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$30,250.00

James R. Baroffio Fellowship Fund in Geological Sciences

The James R. Baroffio Fellowship Fund in Geological Sciences was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. James R. Baroffio, (M.S., 1958) of Moraga, California.

The annual distribution from this fund shall be used to support a graduate fellowship in the Department of Geological Sciences for a student performing fieldwork as part of thesis or dissertation research. If this is not possible, then the distribution shall be used to support a graduate fellowship in the Department of Geological Sciences to a student who exhibits exceptional ability and promise. Awards shall be made at the discretion of the Department's chairperson.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by dean of the College of Mathematical and Physical Sciences in consultation with the chairperson of the Department of Geological Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$27,915.63

The Dr. Milton S. Rosner Scholarship Fund for Academic Excellence in Social Work

The Dr. Milton S. Rosner Scholarship Fund for Academic Excellence in Social Work was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Lynn Gutches Snowden (M.S.W., 1979) in honor of Dr. Milton S. Rosner, Professor Emeritus in the College of Social Work.

The annual distribution from this fund shall be used as an award for a master's degree candidate in the College of Social Work who demonstrates academic excellence, with preference given to a student focusing his or her studies on social policy and planning. Award recipients shall be selected by the dean of the College of Social Work in consultation with the director of the Master of Social Work Program and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be

July 7, 2006 meeting, Board of Trustees

assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Social Work in consultation with the director of the Master of Social Work Program. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$27,515.00

The Robert D. Hays Fund for Law Faculty Excellence

The Robert D. Hays Fund for Law Faculty Excellence was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Robert D. (B.S.Bus.Adm., 1950; J.D., 1952) and Eloise E. Hays.

The annual distribution from this fund shall be used at the discretion of the dean of The Michael E. Moritz College of Law to enhance, improve, and advance teaching excellence of the faculty at the College. Specifically, the fund may be used to retain and attract outstanding law faculty to the College through salaries, research, and professional development.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$26,500.00

The George Booth Family Athletic Scholarship Fund

The George Booth Family Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from George H. Booth Jr. of Perrysburg, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of a varsity athletics team. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

July 7, 2006 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$26,477.00

Total Commitment: \$100,000.00

The Jessica C. Beck Memorial Scholarship Fund

The Jessica C. Beck Memorial Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends and family of Jessica C. Beck from Richmond, Virginia.

Jessica, age 21, was a senior at The Ohio State University, where she was a member of the synchronized swimming team. Jessica was acknowledged as an exceptional scholar-athlete as exemplified in her attainment of Academic All Big Ten, National Scholarship, and the Dean's List. She was a sister to each of her teammates on Ohio State's renowned synchronized swimming team, and an integral part of two collegiate national championship teams. She was an inspiration to all who had the honor and privilege of knowing her. This scholarship has been established in her loving memory and in admiration for the many ways she touched the lives of her Ohio State family.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an upper-class intercollegiate student-athlete who is pursuing an undergraduate degree at The Ohio State University and participating in the sport of synchronized swimming. Preference will be given to an out-of-state student-athlete. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,842.00

July 7, 2006 meeting, Board of Trustees

Atsushi Onoe Memorial Fund

The Atsushi Onoe Memorial Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Toshioki and Keiko Onoe and many friends in memory of Atsushi Onoe (M.A. East Asian Languages and Literatures, 1997) who was tragically killed in an accident in 1999.

The annual distribution from this fund shall be used to support academic activities of Ohio State University students who wish to pursue the study of the Japanese language and culture, including but not limited to, scholarships, travel, and educational support materials. Award recipients will be selected by the chairperson of the Department of East Asian Languages and Literatures as recommended by the Department's committee. Scholarships will be awarded in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Humanities in consultation with the chairperson of the Department of East Asian Languages and Literatures. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,646.00

The Melanie and Philippe Radley Endowed Scholarship Fund

The Melanie and Philippe Radley Endowed Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Melanie (B.A., 1964) and Philippe Radley.

The annual distribution from this fund shall be used to support undergraduate students majoring in Russian in the Department of Slavic and East European Languages and Literatures. The areas of support will include study abroad projects, student research project support, partial tuition support, and internships in Russia or in the field. Recipients will be selected by the dean of the College of Humanities in consultation with the chairperson of the Department of Slavic and East European Languages and Literatures. Scholarships will be awarded in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated

July 7, 2006 meeting, Board of Trustees

by the Board of Trustees and Foundation Board as recommended by the dean of the College of Humanities in consultation with the chairperson of the Department of Slavic and East European Languages and Literatures. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,500.00

The van Bakeren Endowed Scholarship Fund

The van Bakeren Endowed Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from an anonymous donor, a graduate of both the master's program in molecular genetics and a D.V.M.

The annual distribution from this fund shall be used to supplement tuition and room and board for one (1) outstanding third- or fourth-year veterinary student with an interest in pursuing a career in research or laboratory animal medicine. If such a candidate cannot be found, then an outstanding post-D.V.M. graduate student or a post-D.V.M., Ph.D. post-graduate appointee pursuing a career in research or laboratory animal medicine can receive this award. Recipients shall be selected by the dean of the College of Veterinary Medicine in consultation with the associate dean for research. Scholarships will be awarded in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,039.00

The Big Lots Athletic Scholarship Fund

The Big Lots Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Big Lots of Columbus, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the varsity men's basketball team. The recipient will be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

July 7, 2006 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Total Commitment: \$100,000.00

The Rodica C. Botoman Award for Distinguished Undergraduate Teaching and Mentoring Fund

The Rodica C. Botoman Award for Distinguished Undergraduate Teaching and Mentoring Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mr. Ben M. Jones III, a former Columbus businessman, and Dr. V. Alin Botoman (B.S., 1975), son of George and Rodica Botoman.

The annual distribution from this fund shall provide an award at the College of Humanities' annual spring baccalaureate to a member of the Humanities faculty who best exemplifies excellence as a teacher of undergraduates. Students, colleagues, alumni, and parents may nominate candidates for the award. Nominees must be members of the regular Humanities faculty (assistant, associate, or full professor) who have a sustained record of outstanding teaching in a range of undergraduate courses. Award recipients shall be selected by a committee composed of the dean of the College of Humanities, two department chairpersons, two members of the University's Academy of Teaching, and two undergraduate students. While the emphasis will be on outstanding performance in the classroom, the selection committee will also consider the nominee's performance as mentor or advisor and his/her use of innovative teaching strategies for the advancement of learning.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Humanities. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The Color World Housepainting, Inc. Athletic Scholarship Fund

The Color World Housepainting, Inc. Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Color World Housepainting, Inc. and Tom Hodgson, president and founder of Color World, of Gahanna, Ohio.

July 7, 2006 meeting, Board of Trustees

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the varsity football team. The recipients will be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The Mary Jo and Robert Cropper Dean's Innovation Fund

The Mary Jo and Robert Cropper Dean's Innovation Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mary Jo (B.S.Ed., 1963) and Robert Cropper of Maineville, Ohio.

The annual distribution from this fund shall be used by the dean of The Max M. Fisher College of Business to promote initiatives by the faculty and staff designed to increase the quality of teaching, research, and involvement with the business community.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation

Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Emerson Climate Technologies/Copeland Scholarship Endowment Fund

The Emerson Climate Technologies/Copeland Scholarship Endowment Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Emerson Climate Technologies.

July 7, 2006 meeting, Board of Trustees

The annual distribution from this fund shall provide non-renewable scholarships to entering first-year students from Shelby County, Ohio, who rank in the top 10 percent (10%) of their high school class. Scholarship recipients shall be selected by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Dr. Daniel S. German and Dr. Stephen P. Burke Athletic Scholarship Fund

The Dr. Daniel S. German and Dr. Stephen P. Burke Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Daniel S. German and Dr. Stephen P. Burke (D.D.S., 1992).

The annual distribution from this fund shall be used to supplement the grant-in-aid costs of a scholarship to an undergraduate student-athlete who is a member of a varsity team with preference given to those interested in pursuing careers in medicine or dentistry. Scholarship recipients shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Total Commitment: \$100,000.00

Grogan Family Endowed Athletic Scholarship Fund

The Grogan Family Endowed Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Robert J. Grogan (B.A., 1988).

July 7, 2006 meeting, Board of Trustees

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of a varsity basketball team. Scholarship recipients will be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Total Commitment: \$100,000.00

The George W. and Lois L. Hoddy Student Leadership, Innovation and Entrepreneurship Fund

The George W. and Lois L. Hoddy Student Leadership, Innovation and Entrepreneurship Fund in the College of Engineering was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from George W. Hoddy (B.E.E., 1926; E.E., 1932) to honor his and his wife Lois' desire to advance the quality of teaching and research in the College of Engineering.

The annual distribution from this fund shall provide discretionary funds to support programs and activities that develop and advance the knowledge and skills of students in areas of leadership, innovation, entrepreneurship, and global awareness, thereby promoting their success as the technology leaders of tomorrow. Expenditures shall be approved by the dean of the College of Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

July 7, 2006 meeting, Board of Trustees

The Gail Norris Dean's Innovation Fund

The Gail Norris Dean's Innovation Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Gail Norris (B.F.A., 1959) of Dayton, Ohio.

The annual distribution from this fund shall be used as approved by the dean of The Max M. Fisher College of Business to promote initiatives by the faculty and staff of the College designed to increase the quality of teaching, research, and involvement with the business community.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The OSU Medical Center Adult Congenital Heart Disease Clinic Fund

The OSU Medical Center Adult Congenital Heart Disease Clinic Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from the Schooler Family Foundation.

The annual distribution from this fund shall be used for programs of the Adult Congenital Heart Disease Clinic located at the OSU Medical Center. The Clinic benefits adolescent and adult patients with congenital heart disease. Funds may be used for personnel, supplies, equipment, research, publications, conferences, or other activities of the Clinic. Funds allocated for research may not be used for any research, direct or indirect, involving animals other than humans. Allocation of funds shall be approved by the director of the Clinic in consultation with the director of the Division of Cardiology and with the senior vice president for Health Sciences and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Division of Cardiology in consultation with the senior vice present for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

July 7, 2006 meeting, Board of Trustees

The Peart Conservatory Fund at Ohio State ATI

The Peart Conservatory Fund at Ohio State ATI was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from an anonymous donor.

The annual distribution from this fund shall be used to maintain the Conservatory at Ohio State ATI. Distribution may be used for, but not limited to, repairs, improvements, and the purchase of plant material. Spending shall be under the direction of the director of Ohio State ATI and the director of the Horticultural Technologies Division of Ohio State ATI.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Ohio State ATI in consultation with the director of the Horticultural Technologies Division of Ohio State ATI. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The P. Noah Sherba Scholarship Fund

The P. Noah Sherba Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Paul and Juanita Sherba in memory of their son, P. Noah Sherba.

The annual distribution from this fund shall provide a need-based, non-renewable scholarship to a first-year student who graduated from Canfield High School (Ohio) in the top 50% of his/her class. The scholarship shall be distributed equally over the three quarters of the academic school year. Scholarship recipients will be selected by the Office of Student Financial Aid and reported to the donors or their designee.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

July 7, 2006 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid in consultation with the donors or their designee. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The John D. Skinner and Clifford E. Herrington Endowment Fund for Lung Cancer Research

The John D. Skinner and Clifford E. Herrington Endowment Fund for Lung Cancer Research at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from James and Patsy Skinner in memory of James' father John and Patsy's grandfather Clifford.

The annual distribution from this fund shall be used to support lung cancer research at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute at The Ohio State University as approved by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Straub Family Endowed Athletic Scholarship Fund

The Straub Family Endowed Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the David Straub (B.S.Bus.Adm., 1990) family of Lewis Center, Ohio.

The annual distribution from this fund shall provide a grant-in-aid scholarship to a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the varsity football team. Scholarship recipients will be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

July 7, 2006 meeting, Board of Trustees

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Robert D. Touse and William F. Cowen Jr. Scholarship Fund

The Robert D. Touse and William F. Cowen Jr. Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Richard (B.S.Agr., 1968) and Rita Porterfield Charitable Trust in honor of Robert D. Touse and William F. Cowen Jr., whose leadership was instrumental in shaping the forestry major at The Ohio State University.

The annual distribution from this fund shall provide need-based scholarships to full-time junior or senior students majoring in forestry in the School of Environment and Natural Resources with preference given to students who are employed. Recipients must have a 3.0 (or higher) grade point average. The annual distribution shall support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donor's desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, United States citizens, who have been accepted for admissions at the University. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. Scholarship recipients will be selected by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the director of the School of Environment and Natural Resources and the Office of Student Financial Aid.

If the need for the scholarship should cease to exist, another use within the School of Environment and Natural Resources shall be designated by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the trustees for the Richard and Rita Porterfield Charitable Trust.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

July 7, 2006 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The Tri-State Expedited Services Athletic Scholarship Fund

The Tri-State Expedited Services Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Tri-State Expedited Services.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the varsity football team. The recipient will be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Total Commitment: \$100,000.00

The Emmerich von Haam Sr. M.D. Endowment Fund in Pathology

The Emmerich von Haam Sr. M.D. Endowment Fund in Pathology was established July 7, 2006, in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from OSU Pathology Services, LLC, of Columbus, Ohio, and others; and given in honor of the career and leadership of the late Dr. Emmerich von Haam Sr. (Professor Emeritus and past chairperson of the Department of Pathology, from 1937-67).

The annual distribution from this fund shall be used to support research, education, faculty development, training projects or ongoing programs in the Department of Pathology that foster innovation and excellence or those otherwise determined as priority areas. For research, the income may support but is not limited to: scientific supplies, equipment, salaries for research personnel, and activities required for quality medical research. Allocation of funds shall be approved by the chairperson of the Department of Pathology in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine.

July 7, 2006 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of Pathology in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Norma Ruoff Pitts Endowment Fund

The Norma Ruoff Pitts Endowment Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends, family and colleagues of Norma Ruoff Pitts.

The annual distribution from this fund shall be used to support scholarships for students in the Textiles and Clothing program or a related major. First preference is to be given to an individual with a background in 4-H and youth development. Scholarship recipients shall be selected by the dean of the College of Education and Human Ecology in consultation with the Office of Student Financial Aid.

If the College of Education and Human Ecology no longer offers a professional program specific to textiles and apparel/clothing, it is the donors' wish that the annual distribution be used to support the Ohio 4-H Foundation for scholarship programs.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Education and Human Ecology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$15,471.00 (grandfathered)

July 7, 2006 meeting, Board of Trustees

Change in Description of Named Endowed Funds

L. Michael Howard Fund in Public Policy and Management

The L. Michael Howard Fund in Public Policy and Management was established April 2, 2004, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from L. Michael Howard (B.S.Bus.Adm., cum laude, 1972; M.A., 1983). The description was revised July 7, 2006.

The annual distribution from this fund shall be used to support programs within the John Glenn School of Public Affairs that are deemed the highest priority by the director of the School. The director will report to the donor or the donor's designee annually on the use of the income and the impact of the fund.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

The Stephen J. Kovacik Jr. and Mary B. Kovacik Endowed Scholarship Fund

The Stephen J. Kovacik Jr. and Mary B. Kovacik Endowed Scholarship Fund was established July 11, 2003, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the family and friends and in memory of the late Stephen Kovacik and his mother, Mary Kovacik. The description was revised July 7, 2006.

The annual distribution from this fund shall be used to provide scholarship support for one "John Glenn Fellow" participating in the Washington Academic Internship Program of the John Glenn School of Public Affairs. The scholarship shall be awarded in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the John Glenn School of Public Affairs and the donors. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

July 7, 2006 meeting, Board of Trustees

The Arthur D. Lynn Jr. and Pauline Wardlow Lynn Fund

The Arthur D. Lynn, Jr. and Pauline Wardlow Lynn Fund was established February 6, 1998, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Arthur D. Lynn, Jr. (B.A. Arts and Sciences, 1941; M.A. Economics, 1943; J.D., 1948; Ph.D. Economics, 1951) and Pauline Wardlow Lynn (B.A. Arts and Sciences, summa cum laude, 1942; J.D., 1948) of Columbus, Ohio. The description was revised July 7, 2006.

The annual distribution from this fund shall be used as follows: 1) ten percent (10%) of net distributable income will be added to the principal annually; and 2) the remainder will be used for master's degree-level scholarships in the John Glenn School of Public Affairs, with the selection of recipients to be made annually by the director and faculty of the School in consultation with the Office of Student Financial Aid. In the event that no award is made in a particular year, that year's distribution will be added to the principal.

If the John Glenn School of Public Affairs (or, if the School should be renamed at some future date, its successor academic unit) should cease to exist, then the annual distribution from this fund shall be used for scholarships for undergraduate honor students, as determined by the director of the University's Honors Program, with ten percent (10%) of the distribution being added to the principal annually.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The Major General Raymond E. Mason Jr. Scholarship Fund

The Major General Raymond E. Mason, Jr. Scholarship Fund was established July 11, 2003, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Raymond E. Mason, Jr. (B.S.Bus.Adm., 1941), of Columbus, Ohio. The description was revised July 7, 2006.

The annual distribution from this fund shall be used to provide scholarship support for three "John Glenn Fellows" participating in the Washington Academic Internship Program through the John Glenn School of Public Affairs. It is the desire of the donor that the scholarships shall be awarded with preference to, but not limited to, ROTC students. The recipients shall be selected by the director of the Washington Academic Internship Program in consultation with the Office of Student Financial Aid and the ROTC Tri-Service Coordinator.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

July 7, 2006 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

The Henry M. and Ruth W. Pausch Endowed Fellowship Fund

The Henry M. and Ruth W. Pausch Endowed Fellowship Fund was established May 30, 2003, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Jerry (B.Ch.E., 1961) and Lenora (B.S., 1963) Pausch, Leesburg, Ohio. The description was revised July 7, 2006.

The annual distribution from this fund shall be used to provide scholarship support for one "John Glenn Fellow" participating in the Washington Academic Internship Program through the John Glenn School of Public Affairs. It is the desire of the donors that the scholarship shall be awarded with preference to, but not limited to, students from Highland County. The recipient will be selected by the director of the Washington Academic Internship Program in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The James F. and Barbara Young Sipp Endowed Scholarship Fund

The James F. and Barbara Young Sipp Endowed Scholarship Fund was established April 1, 2005, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from James F. Sipp (B.S.Bus.Adm., 1959) and Barbara Young Sipp (B.S.Nurs., 1959) of Columbus, Ohio. The description was revised July 7, 2006.

The annual distribution from this fund shall be used to provide scholarship support and help underwrite enrichment programming for one "John Glenn Fellow" participating in the Washington Academic Internship Program through the John Glenn School of Public Affairs. The recipient shall be selected by the director of the Washington Academic Internship Program in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be

July 7, 2006 meeting, Board of Trustees

assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The Chalmers P. Wylie Scholarship Fund for Public Service

The Chalmers P. Wylie Scholarship Fund for Public Service was established June 4, 1993, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Congressman Chalmers P. Wylie and friends in the name of his grandchildren Bryan Wylie, Pamela Poston, and Tamara Poston. The description was revised July 7, 2006.

The annual distribution from this fund shall be distributed to the director of the John Glenn School of Public Affairs to fund scholarships for students in the school. The director, in consultation with the donor and the Office of Student Financial Aid, shall select the recipient(s) of the scholarship(s). Criteria for awards include not only academic achievement but also leadership and commitment to public service.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Change in Name of Named Endowed Fund

The Claddagh Development Group Athletic Scholarship Fund

The Kevin and Stacey Blair Family Athletic Scholarship Fund was established September 22, 2004, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Kevin Blair of Chagrin Falls, Ohio. The name was revised July 7, 2006.

The annual distribution from this fund shall be used to supplement the student grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of a varsity team. First preference will be given to a member of the men's ice hockey team from the greater Cleveland, Ohio, area. Second preference will be given to a member of the men's ice hockey team from the State of Ohio, and a third preference will be given to any student-athlete on the men's hockey team. The recipient will be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

July 7, 2006 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Change in Name and Description of Named Endowed Fund

The John Glenn School of Public Affairs Endowment Fund

The John Glenn Institute Endowment Fund was established February 5, 1999, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends and admirers of Senator John Glenn. The name and description were revised July 7, 2006.

The annual distribution from this fund shall be used to support the programs and activities of the John Glenn School of Public Affairs.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Kennedy Commons HVAC Installation (07-08 capital request)	\$2.28M	2007 bond proceeds
Marion Campus – Morrill Hall 1 st Floor Rehabilitation (03-04 capital request)	\$2.04M	State and Marion operating funds

*Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project; renovation projects funded by internal office or departmental funds that are noted as “N/A” have not had separate capital project authorization because of their smaller size or because they arose unexpectedly between capital planning cycles.

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into feasibility study, design, construction management, and construction contracts, and to increase contracts as indicated, for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix II for background information and maps, page 143.)

**INTERIM AUTHORIZATION
TO ENTER INTO DESIGN, CONSTRUCTION MANAGEMENT,
AND CONSTRUCTION CONTRACTS**

Resolution No. 2007-16

Synopsis: Authorization to enter into design, construction management, and construction contracts for University capital projects as necessary prior to the September 22, 2006 Board of Trustees meeting is requested.

WHEREAS to support the Academic Plan, ensure timely design and construction of University facilities and improvements, and make the most effective use of limited financial resources, the University desires to move forward expeditiously with needed capital projects, subject to approval by the Board of Trustees; and

WHEREAS the next scheduled meeting of the Board of Trustees is on September 22, 2006; and

WHEREAS during the intervening period, the Board desires to facilitate such approvals, subject to appropriate review and oversight:

NOW THEREFORE

BE IT RESOLVED, That in the intervening period before the next regularly scheduled meeting of the Board of Trustees on September 22, 2006, the Chair of the Fiscal Affairs Committee, in consultation with the Committee and with the Chair of the Board of Trustees as appropriate, shall have the authority, on behalf of the Board of Trustees, to authorize design, construction management, and construction contracts, and approve other related actions for University capital projects; and

BE IT FURTHER RESOLVED, That during this period, as approved by the President, the Senior Vice President for Business and Finance shall present any needed actions to authorize design, construction management, and/or construction contracts or take any related actions for capital projects to the Chair of the Fiscal Affairs Committee, as she may direct, for review and approval; and

BE IT FURTHER RESOLVED, That, in accordance with the process outlined above and subject to the written approval of the Chair of the Fiscal Affairs Committee, the President and/or Senior Vice President for Business and Finance shall be authorized to enter into design, construction management, and construction contracts, if satisfactory bids are received, and take any other related actions on capital projects, in accordance with established University and State of Ohio procedures, with these actions to be reported to the Board at the September 22, 2006 meeting; and

BE IT FURTHER RESOLVED, That the authority granted by this resolution shall expire as of the September 22, 2006 meeting.

PURCHASE OF REAL PROPERTY

Resolution No. 2007-17

1615 HIGHLAND STREET
COLUMBUS, OHIO 43201

Synopsis: Authorization to purchase the improved real property located at 1615 Highland Street, Columbus, Ohio, is proposed.

July 7, 2006 meeting, Board of Trustees

WHEREAS this property has an average appraised value of \$380,000.00 and the owner, C&A Properties and Renovations LLC, has entered into a real estate purchase contract to sell the property to the University at that price; and

WHEREAS this property is located within the University's South Campus Acquisition Area and the appropriate University offices have determined that purchase of this property is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to purchase the improved real property at 1615 Highland Street in the name of the State of Ohio for the use and benefit of The Ohio State University, upon such terms and conditions deemed to be in the best interest of the University.

(See Appendix III for background information and map, page 173.)

EASEMENT

Resolution No. 2007-18

CITY OF LIMA, OHIO
SEWER LINE ALONG RESERVOIR ROAD
LIMA, OHIO

Synopsis: Authorization to grant the City of Lima an easement to install and maintain a sewer line to provide service to the area surrounding the Lima Campus is proposed.

WHEREAS the City of Lima has requested a 30-foot wide easement along Reservoir Road at the edge of the Lima Campus for a term of 25 years to permit installation and maintenance of a sewer line; and

WHEREAS this easement will serve and benefit the economic development of the Lima Campus and the neighborhood surrounding the Campus and the appropriate University offices have determined that the grant of this easement is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve, and the Ohio Department of Administrative Services be authorized to process, appropriate documents and grant this easement to the City of Lima upon such terms and conditions as are in the best interest of the University.

(See Appendix IV for map, page 175.)

TEMPORARY CONSTRUCTION EASEMENT

Resolution No. 2007-19

LANE KENNY RESIDENCES LLC
WATER LINE INSTALLATION
INTERSECTION OF LANE AVENUE AND KENNY ROAD
COLUMBUS, OHIO

Synopsis: Authorization to grant the Lane Kenny Residences LLC an easement to install a water line to extend service to University property leased for a residential development project is proposed.

WHEREAS the Lane Kenny Residences LLC has requested a 50 foot by 50 foot easement at the southwest corner of the intersection of Kenny Road and Lane Avenue, for a term beginning upon execution of the easement and continuing until completion of all required improvements, to permit installation of a water line; and

WHEREAS upon completion of the improvements and their approval by the University, the improvements will be accepted and maintained by the University; and

WHEREAS this easement will serve and benefit University property and the residential development project, and the appropriate University offices have determined that the grant of this easement is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve, and the Ohio Department of Administrative Services be authorized to process, appropriate documents and grant this easement to the Lane Kenny Residences LLC upon such terms and conditions as are in the best interest of the University.

TEMPORARY CONSTRUCTION EASEMENT

Resolution No. 2007-20

LANE KENNY RESIDENCES LLC
SANITARY SEWER LINE INSTALLATION
KENNY ROAD
COLUMBUS, OHIO

Synopsis: Authorization to grant the Lane Kenny Residences LLC an easement to install a sanitary sewer line to extend service to University property leased for a residential development project is proposed.

WHEREAS the Lane Kenny Residences LLC has requested a 30-foot wide easement along Kenny Road, from Lane Avenue to Woody Hayes Drive, for a term beginning upon execution of the easement and continuing until completion of all required improvements, to permit installation of a sanitary sewer line; and

WHEREAS upon completion of the improvements and their approval by the University, the improvements will be accepted and maintained by the University; and

July 7, 2006 meeting, Board of Trustees

WHEREAS this easement will serve and benefit University property and the residential development project, and the appropriate University offices have determined that the grant of this easement is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve, and the Ohio Department of Administrative Services be authorized to process, appropriate documents and grant this easement to the Lane Kenny Residences LLC upon such terms and conditions as are in the best interest of the University.

(See Appendix V for map, page 177.)

ADOPTION OF THE UNIVERSITY MEDICAL CENTER PARKING PLAN

Resolution No. 2007-21

Synopsis: Adoption of the proposed University Medical Center Parking Plan is proposed.

WHEREAS in November 2005, the Board of Trustees adopted the 2005 Medical Center Facilities Plan and Project Cancer Expansion; and

WHEREAS the implementation of that plan will result in the loss of existing parking and increased demand for additional spaces for a total need of approximately 2,800 new and replacement spaces to support the programs and initiatives of the University Medical Center; and

WHEREAS to meet these needs, the Medical Center, in collaboration with Facilities Operations and Development and Transportation and Parking Services, has proposed a Medical Center Parking Plan which recommends new parking garages and use of an existing remote surface parking lot, as detailed in the attached materials; and

WHEREAS this Medical Center Parking Plan is consistent with the Medical Center Facilities Plan and the University Master Plan and relevant district plans, and the appropriate University offices recommend its adoption:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby adopts the proposed Medical Center Parking Plan and directs the appropriate University offices under the leadership of the Senior Vice President for Health Sciences and the Senior Vice President for Business and Finance to implement the Plan, consistent with established University decision-making procedures, including required Board of Trustees approval for the capital projects included within the Plan; and

BE IT FURTHER RESOLVED, That this approval is expressly contingent upon resolution of outstanding issues outlined in the accompanying materials, as determined by the Senior Vice President for Business and Finance and the Senior Vice President for Health Sciences, in consultation with the Chair of the Board of Trustees' Fiscal Affairs Committee, and that the University shall report on resolution of these issues at the September meeting of the Committee.

(See Appendix VI for background material and map, page 179.)

REVISION OF THE NONSMOKING POLICY

Resolution No. 2007-22

WHEREAS the University recognizes the need to create and maintain an environmental quality that sustains and enhances the general health of its faculty, staff, students, and visitors; and

WHEREAS in furtherance of this commitment, the University recognizes the need to modify its present Nonsmoking Policy 7.20 in an effort to reduce the risks associated with tobacco usage in and around the Health Sciences and Biological Sciences buildings; and

WHEREAS pursuant to Resolution 2006-135 adopted by this Board at the May 5, 2006 meeting, the Medical Center has gone tobacco-free effective July 1, 2006; and

WHEREAS including the grounds of Aronoff Laboratory, Biological Sciences Building, Biological Sciences Greenhouse, Fry Hall, General Biology Annex, Jennings Hall, Newton Hall, Parks Hall, Postle Hall, Riffe Building, and Starling Loving Hall will create clearer and more easily enforceable geographical boundaries for the tobacco-free zone; and

WHEREAS the faculty, staff, and leadership of the Colleges of Biological Sciences, Dentistry, Nursing, Optometry, and Pharmacy have voted to support going tobacco-free:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby adopts the attached Nonsmoking Policy and Procedure, to be effective July 7, 2006; and

BE IT FURTHER RESOLVED, That as a part of the general health promotion programs of the University, voluntary smoking cessation services for faculty, staff, and students will continue to be made available.

(See Appendix VII for background material and map, page 193.)

**UNDERGRADUATE TUITION FOR REGIONAL CAMPUSES AND
THE AGRICULTURAL TECHNICAL INSTITUTE FOR FISCAL YEAR 2007**

Resolution No. 2007-23

Synopsis: Instructional and general fees for undergraduate students enrolled at ATI and the Regional Campuses for Fiscal Year 2007, effective Autumn Quarter 2006, are proposed.

WHEREAS consultations have taken place at the Agricultural Technical Institute and the Regional Campuses to determine the appropriate instructional and general fee increases for those students for Fiscal Year 2007; and

WHEREAS undergraduate instructional and general fees are subject to a State mandated 6% fee cap before adjustments for the Access Challenge offset; and

WHEREAS the Regional Campus Boards of Trustees have approved a 6% increase in undergraduate instructional and general fees, before adjustments for Access Challenge offsets, at those boards' respective June meetings; and

July 7, 2006 meeting, Board of Trustees

WHEREAS the Executive Dean for the College of Food, Agricultural, and Environmental Sciences has recommended a 6% increase in resident undergraduate tuition and a 6% increase in the non-resident surcharge for students attending ATI:

NOW THEREFORE

BE IT RESOLVED, That instructional and general fees and the non-resident surcharge for both upper and lower division undergraduates enrolled at ATI and the Regional Campuses be increased 6%; and

BE IT FURTHER RESOLVED, That all of these increases shall be effective Autumn Quarter 2006.

(See Appendix VIII for background material, page 197.)

FISCAL YEAR 2007 OPERATING BUDGET

Resolution No. 2007-24

Synopsis: Approval of the Operating Budget for Fiscal Year 2007 is proposed.

WHEREAS the State budget for Fiscal Year 2007, including funding levels for State institutions of higher education, is set; and

WHEREAS fee increases for the Columbus and Regional Campuses for Fiscal Year 2007 have been approved by the Board of Trustees and other levels of general funds and earnings resources have been estimated and restricted fund resources have been projected based on historical trends; and

WHEREAS expenditures, including compensation, have been estimated for Fiscal Year 2007; and

WHEREAS appropriate planning and consultation within the University has been accomplished with regard to the Columbus Campus, Regional Campuses and ATI budgets, and the President now recommends approval of the Fiscal Year 2007 Operating Budgets with a final Total University Current Funds Budget to be submitted at the September meeting of the Board of Trustees; and

WHEREAS this Fiscal Year 2007 budget includes the following one-time funds for Campus Partners: 1) \$650,000 for support of Campus Partners operations during Fiscal Year 2007 to carry out its initiatives, subject to the provisions of the 1997 memorandum of understanding, as amended from time to time, and 2) \$600,000 to address timing issues related to the renting of Gateway commercial/retail spaces:

NOW THEREFORE

BE IT RESOLVED, That the Operating Budget for the Columbus, ATI, Lima, Mansfield, Marion, and Newark Campuses for Fiscal Year 2007, as described in the accompanying text and tables, be approved, with authorization for the President to make general fund and earnings fund expenditures within the estimated income levels and to authorize the expenditure of all restricted funds earned with quarterly revenue updates to the Board.

(See Appendix IX for background information, page 199.)

July 7, 2006 meeting, Board of Trustees

Upon motion of Mr. Shumate, seconded by Mrs. Davidson, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Duncan, Cloyd, Davidson, Ong, Borrer, O'Dell, Shumate, Hicks, and Schottenstein.

--0--

REPORT OF RESEARCH CONTRACTS AND GRANTS

Resolution No. 2007-25

Synopsis: The report on research and other sponsored program contracts and grants and the summary for May 2006 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, and other agencies in support of research, instructional activities, and service; and

WHEREAS such monies are received through The Ohio State University Research Foundation:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein during the month of May 2006 be approved.

Upon motion of Mr. O'Dell, seconded by Mr. Borrer, the Board of Trustees adopted the foregoing resolution with eight affirmative votes, cast by Trustees Duncan, Davidson, Ong, Borrer, O'Dell, Shumate, Hicks, and Schottenstein, and one abstention cast by Trustee Cloyd.

--0--

APPOINTMENT AND REAPPOINTMENT OF INVESTMENT MANAGERS

Resolution No. 2007-26

Synopsis: Approval of the Appointment and Reappointment of Investment Managers is proposed.

WHEREAS it is the policy of The Ohio State University to utilize the service of external Investment Managers to assist in the management of the University's Endowment Fund; and

WHEREAS the Investments Committee of the Board of Trustees periodically reviews the results obtained by the external Investment Managers and the amount of funds assigned to each of them; and

WHEREAS it is prudent investment policy to adjust the mix and amounts of money assigned to external Investment Managers as economic conditions and performance change; and

WHEREAS the number of external Investment Managers and the amount of funds assigned to them shall be determined by the Board of Trustees:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Investments Committee of the Board of Trustees the following named external Investment Managers and the Office of the Treasurer shall be approved to manage Endowment Funds as follows:

TARGETED INVESTMENTS IN EXCELLENCE INITIATIVE

Provost Barbara R. Snyder: [PowerPoint Presentation]

Good morning it is an honor to be here. Thank you so much for allowing me time on the agenda to update you on our Targeted Investments in Excellence Initiative.

This program is our institution's ambitious strategy for fostering excellence across our colleges, for advancing the goals of the Academic Plan, and for moving up the ladder of the world's top public research universities. Through our targeted investments initiatives, Ohio State researchers will be tackling some of today's most crucial issues: from the soil to the stars, from human malignancy to human creativity, from our needs for energy to the needs of our environment.

As you may remember from my presentation to you in March, the Targeted Investments in Excellence Initiative emerged from last summer's Leadership Retreat, where we did a review of the progress-to-date on Ohio State's Academic Plan. As part of that review, we compared ourselves to every public research university with a *U.S. News & World Report* peer assessment score higher than Ohio State's. In the course of this examination, we realized that the stature of an institution is directly tied to the reputations of its colleges, departments, and academic programs. We concluded that, in order to get to the next level, Ohio State needed a way to promote its own programs that were capable of achieving world-wide recognition. With that upward trajectory in mind, the Targeted Investments in Excellence Initiative was born.

Thanks to the great planning of Senior Vice President for Business and Finance Bill Shkurti and financial support from President Holbrook, Senior Vice President for Research Bob McGrath, and the Office of Academic Affairs, we identified \$50 million in funds earmarked for this general purpose and committed it over the next five years to our targeted investments initiative. This money was to be matched by the targeted units' colleges, for a total investment of \$100 million in those programs that could move to the top of their fields and have a significant impact on the University's academic stature.

In January, 46 high-potential, high-impact programs were identified by the college deans, who also provided plans for funding the changes needed to move these programs to the top of the national rankings. We emphasized that the colleges were to move ahead and implement their proposals whether they received central funding or not. This stipulation assured that all the proposals were sound, important, and, of course, fully funded. The boost from central funding was intended to permit the winning colleges to implement their plans faster at a higher level or on a broader scale.

We built further accountability into the program by requiring that each targeted investment proposal specify the metrics to be used to measure its success over the next five years. As you might imagine, those metrics were as varied as the projects, but included such measures as enhanced rankings by *U.S. News* or other appropriate organizations, the acquisition of competitive external funding, expansion of the undergraduate and graduate curriculum, greater numbers of research publications, more and stronger graduate applications, and more visible post-Ohio State placement of our graduates. In addition, the progress being made on all 46 targeted investment proposals will be a part of each dean's annual performance review.

July 7, 2006 meeting, Board of Trustees

With those strictures in place, the Targeted Investments in Excellence proposals were reviewed by the Council of Deans, the President's Cabinet, the President's and Provost's Advisory Committee, the Steering Committee of the University Senate, and the University Research Committee. The proposals were judged by two primary criteria, excellence and impact. Programs had to be of such excellence that they could achieve world-wide recognition and they had to have an important impact on the University's academic stature. With the input I received, decisions were made to provide central funding to ten programs. I want to tell you something about each of them.

I'll start with the top-ranked proposal -- Climate, Water, and Carbon Program. This is a collaborative project involving experts from the Colleges of Mathematical and Physical Sciences, Food, Agricultural, and Environmental Sciences, and Social and Behavioral Sciences, as well as the Byrd Polar Research Center and the John Glenn Institute. The work of these scientists will lead to scientific and policy answers to critically important questions: What is causing abrupt climate change? Do we have enough fresh water to sustain the world's population? What can we do to offset the impact of fossil fuel combustion on climate change and water resources? How can we address future challenges and opportunities most effectively?

As it brings forth answers to questions like these — questions that literally bear on the future of human survival — the Climate, Water, and Carbon Program will situate Ohio State as the world's go-to institution for expertise on climate change, water resources, and carbon cycling. The Climate, Water, and Carbon Program was born and is being led by an interdisciplinary team of some of Ohio State's top scientists — like geologist Lonnie Thompson, recipient of the Tyler Prize for Environmental Achievement; wetlands specialist Bill Mitsch, winner of the Stockholm Water Prize; and soil scientist Rattan Lal, who received the Norman Borlaug Award for his research in soil management practices.

One profound lesson we learned from the targeted investments process is that Ohio State's researchers have their fingers on the pulse of today's preeminent scientific, social, and cultural issues and they are defining and driving the solutions to them. Our targeted investments initiative is meant to spur that process.

Next we have the Mathematical Biosciences Institute. Established at Ohio State in 2002, with a \$10 million grant from the National Science Foundation, the Institute is directed by Distinguished Professor of Mathematical and Physical Sciences Avner Friedman, a member of the National Academy of Sciences. Our targeted investment in this initiative of the Colleges of Biological Sciences and Mathematical and Physical Sciences will attract exceptional new faculty who work across the boundaries of several areas of biology, mathematics, statistics and computational modeling.

It will reinforce the Institute's work by expanding opportunities for collaborations between biologically-oriented mathematical scientists and mathematically-oriented biologists. It will allow us to develop a world-class program in mathematical biosciences and quantitative biology. Thanks to this initiative, Ohio State will be poised to become the nation's leading institution in mathematical biosciences and the permanent site of the Mathematical Biosciences Institute.

Let me turn now to a program with the potential to improve — if not save — lives throughout Ohio and well beyond. The Public Health Preparedness Program is spearheaded by Professors Tim Buckley, Kent Hoblet, and Larry

July 7, 2006 meeting, Board of Trustees

Schlesinger, who are internationally respected scholars in the School of Public Health, the Colleges of Veterinary Medicine, and Medicine, respectively. Their efforts will be complemented by those of outstanding researchers in the Colleges of Biological Sciences, Pharmacy, and Food, Agricultural, and Environmental Sciences. Together, they will accelerate and expand the work that's being done in avian flu, anthrax, tuberculosis, and other infectious diseases important in biodefense and public health preparedness.

Their work can also be expected to lead to improved detection and monitoring mechanisms as well as new diagnostic tools, therapies, and vaccines for infectious diseases, including those resulting from bioterrorism. With the implementation of this ambitious program, Ohio State will become nothing less than the international leader in public health preparedness.

Our targeted investment in the Center for Cosmology and Astro-Particle Physics will capitalize on the opportunity to pursue research at the interface of cosmology, astrophysics, and high energy physics. This collaboration of the Departments of Astronomy and Physics will allow faculty experts to address fundamental, high-profile questions about the nature and evolution of the universe, as well as the physics of black holes and the highest energy cosmic particles.

Critical to understanding the evolution of the cosmos is an understanding of the so-called "dark universe" that is invisible and composed of something radically different from the atomic building blocks of our everyday lives. For this reason, "dark universe" science is a major research activity at some other top universities. With the establishment of the Center for Cosmology and Astro-Particle Physics, Ohio State is set to become a leader in those research efforts.

We're also targeted investment in the College of Engineering's Center for Clean, Sustainable Energy, which is designed to address both the national and the global need for energy — now and throughout the next century. Center affiliates will engage in research on clean coal and nuclear power, fuel cells, and breakthrough technologies, such as photovoltaics and thermoelectrics, that will allow us to use renewable energy sources to meet some of our energy needs. Center affiliates will also examine the impact of these technologies on society, the environment, and the economy as well as the constraints on their development and deployment. This research will inform energy policy and the development of codes and standards to regulate the new technologies. By establishing this Center now, we are positioning Ohio State at the leading edge of energy research and education programs.

The aim of our next targeted investment, the Advanced Materials Initiative, is to establish and sustain The Ohio State University as an international leader in materials research. To achieve that leadership status, we are supporting the creation of the Institute for Materials Research, a collaborative project of the Colleges of Engineering and Mathematical and Physical Sciences to be directed by Professor Steven Ringel, who holds appointments in the Departments of Physics, Materials Science, and Electrical Engineering. This new center will coordinate existing and planned materials activities, facilities, and investments across the University.

Materials research has already generated countless advances in areas such as electronics, information technologies, automotive and aerospace transportation, biomaterials, and nanotechnology. This field is a vital area for University research and education, one with economic and entrepreneurial impact that spans the sciences, engineering, and more

July 7, 2006 meeting, Board of Trustees

recently medicine and agriculture. Because materials research intersects so many business sectors within the State of Ohio, achieving international distinction in materials research will have a direct and real impact on the state's economy.

Next is our initiative on Population and Health, a project of the College of Social and Behavioral Sciences and its partners in the School of Public Health, the Colleges of Education and Human Ecology, and Nursing. Given the aging of the industrialized world's population, today's advances in medicine, the spiraling costs of health care, and the specter of differential access to effective health care, the issues of population and health have become increasingly crucial areas for university research.

The Population and Health initiative will build on Ohio State's critical mass of scientists who study population and health. It will also capitalize on our NIH-funded Initiative in Population Research with its distinctive programmatic focus on both the macro-level study of health across populations and the micro-level study of individual health behaviors. As a recipient of a targeted investment, the Population and Health initiative promises to make Ohio State a national and international leader in research in this vital area.

Similarly, our targeted investment in Translational Plant Sciences will augment Ohio State's reputation as a leader in the molecular plant sciences. The Colleges of Biological Sciences and Food, Agricultural, and Environmental Sciences developed this winning proposal to add exceptional faculty who can be expected to build substantial externally funded research programs.

As Ohio State researchers collaborate with such external partners as the Department of Energy National Laboratories, Battelle, and the Ohio BioProducts Innovation Center, this institution will lead the way in the translation and application of basic research in the plant sciences. Moreover, our state's economic growth will be fueled by enhanced applications in agriculture, medicine, pharmacy, and engineering that will emerge as part of the Translational Plant Sciences Program. And because food, energy, and health challenges require increasingly global solutions, the program will also expand Ohio State's international presence.

A targeted investment is supporting an initiative in the creative arts that likewise has the potential to enhance this institution's reputation nationally and internationally and improve the quality of preparation of our students. The Music Industry Program, a new focus area in the School of Music, will offer students both a music business curriculum, which will include legal aspects of the music industry, music production, and merchandising, and an applied technology curriculum that concentrates on media and multimedia.

These opportunities will qualify School of Music graduates for a wider range of career options in the music world from recording engineer to music publisher, instrument designer, music company executive, and more. With help from a targeted investment, this program will keep the School of Music at the cutting-edge of the field and it can be expected to propel the School already ranked 24th into the top ten.

The Colleges of Medicine, Veterinary Medicine, and Pharmacy, the Department of Chemistry, and the Comprehensive Cancer Center came together to focus on a project that promises to situate Ohio State as a leader in yet another area. The goals of the ambitious Micro-RNA project are to develop, validate, and commercialize both tests and Micro-RNA drugs

July 7, 2006 meeting, Board of Trustees

for the diagnosis, monitoring, prognosis, and treatment of human malignancies.

Micro-RNAs are a newly discovered family of genetic material that plays a key role in controlling gene expression. Ohio State's focus on Micro-RNAs will lead to the creation of a diagnostic platform and new strategies for cancer therapy. It is important to realize that our University already boasts the world's finest critical mass of talent to transform this field. That critical mass includes, National Academy of Science member Dr. Carlo Croce, the principal investigator on this project. With our targeted investment in it, Ohio State can expect to become the international leader in the delivery of Micro-RNA diagnostics and therapeutics for cancer prevention, diagnosis, prognosis, and treatment.

That is a broad overview of the ten programs that will receive central targeted investment funding. I'd also like to mention that the Fisher College of Business has a proposal for Logistics Management, which will be funded through a line of credit as a part of this process. That program, already ranked 4th in the country by *U.S. News & World Report*, has the potential to become the premier think-tank anywhere for the study and application of advanced logistics management and the targeted investment will help it get there.

We still have other line of credit funds remaining and available for proposals that were not among those chosen to receive central funding. We have told the colleges that they can apply for a line of credit to assist in carrying out their proposals. As you remember, every single one of the 46 proposals will be implemented even without central funds.

Let me now say something about the specifics of distributing the central funds beginning with a special thanks. Everyone in the Office of Academic Affairs has been intensely engaged in this process, but one person took the lead working through the budgets for all the proposals and working through the allocation of funds and that person is Dr. Michael Sherman, vice provost for Academic Administration. We could not have done it without his hard work.

The first thing we did in thinking about how to distribute the funds was to make every effort to distribute them at a level commensurate with each colleges' own fiscal commitment to each proposal. For the ten winning proposals, the colleges pledged a total of \$68 million over five years from college resources. These funds will be topped off by central investment of \$45 million in cash and \$5 million in continuing funds over the next five years for a total University-wide investment of \$118 million.

Most of the central funds will be concentrated in the top five programs. That means that: the Climate, Water, and Carbon; Mathematical Biosciences; Public Health Preparedness; Cosmology and Astro-Particle Physics; and Clean, Sustainable Energy projects will receive about 70% of the total available continuing funds and about 50% of all the available cash.

You remember my comments about the striking number of research foci that were shared by our targeted investment proposals. For that reason, we have set aside \$2 million in central cash to stimulate additional interactions between the Center for Climate, Water, and Carbon and the closely related Clean, Sustainable Energy program. The first-year central commitment of central funds was released on July 3. If you would like a fuller account of these initiatives, all of the proposals are posted on the Academic Affairs' website and I brought the ten winning proposals with me if anyone would like to see them in more detail.

July 7, 2006 meeting, Board of Trustees

As I said earlier, the Targeted Investments in Excellence Program is an ambitious strategy for promoting the academic strengths and values of this University. Let us not forget that nothing ever built rose to touch the skies unless someone dreamed it should, someone dreamed it could, and someone willed that it would. That is what our faculty did in developing the targeted investments proposals, that is what the colleges did in making the strategic and difficult decisions about funding their highest priority programs, and that is what the Office of Academic Affairs has done by investing in those initiatives that we think will make our institution soar.

As it helps us rise to the top tier of public research universities, our investment in these initiatives will do even more. With faculty experts and student learners working side-by-side to implement the targeted investment plans, the quality and value of both the faculty and student experience will be enhanced. The targeted investments initiative is thus built on hard work, staying the course, insisting on results, and always pushing for excellence. It will enable additional cutting-edge research — from the soil to the stars. The research done here at The Ohio State University will demonstrably elevate the human condition.

Thank you for your attention. I would be happy to answer any questions.

Judge Duncan:

Are there any questions from Board members?

Mr. Schottenstein:

Congratulations to you, President Holbrook, Provost Snyder, and everyone involved in this. It is extraordinary and overwhelming in a positive way to hear this just in terms of how bold it is. My comment is to what extent will we be publicizing some or all of what we are about to undertake? I think it is tremendous. I know everybody is not expecting immediate results, but it is the kind of thing about Ohio State University that would make any current, past or future supporter proud. I feel like it cries out for some form of publicity beyond that of posting it on our website or being discussed here at this meeting today. I just wondered what the plan or thoughts that others may have on that are.

Provost Snyder:

The Office of University Relations is actively engaging in publicizing these plans. As you pointed out, it is important to say that the telling will be the best with the outcomes later.

Mr. Schottenstein:

No question about that.

Provost Snyder:

I agree we do want to get this out and they are helping us engage with media in various places to talk about what we are doing here.

President Karen A. Holbrook:

Bob, I think that your question is absolutely right. I would like to see this be a big article in *The Chronicle*. I remember many years back when I was at the University of Florida reading about the Selective Investments Program at Ohio State. This University has done a number of very innovative pro-

July 7, 2006 meeting, Board of Trustees

grams that other people wouldn't dare to do in terms of investing significant money in themselves. I couldn't believe that any university did that and it got terrific attention. It is one of those things that put the University on the map as being a strong positive place. So I would hope *The Chronicle* would bite on this one, and I would think they would because it is novel.

Judge Duncan:

Again, Barbara, on behalf of the Board, thanks so much for what has been a lot of hard work and energy, and certainly thanks to all of those who worked long hard hours to present their proposals. We are well aware that making selections is not easy, and going through the process is even helpful, but the results are entirely relevant and compatible with our mission. They are exciting and challenging, and we are much stronger for these efforts. Thanks very much.

Provost Snyder:

Thank you.

(See Appendix X for background material, page 213.)

--0--

Judge Duncan:

In a moment we will be taking a roll call vote to go into Executive Session; that vote will conclude all formal Board action for the day beyond adjourning the Board meeting. For those who may not wish to stay until the Board adjourns the meeting, I remind you that the next meeting of the Board will take place on Friday, September 22, 2006.

I hereby move that the Board recess into Executive Session for the purpose of considering personnel matters regarding employment and compensation, and to discuss matters required to be kept confidential by State Statute.

Upon motion of Judge Duncan, seconded by Dr. Cloyd, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Duncan, Cloyd, Davidson, Ong, Borrer, O'Dell, Shumate, Hicks, and Schottenstein.

--0--

Thereupon the Board adjourned to meet Friday, September 22, 2006, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

--0--

Robert M. Duncan
Chairman

David O. Frantz
Secretary

JAMES CANCER HOSPITAL MEDICAL STAFF BYLAWS

TO BE RESCINDED

~~3335-111-07 Divisions of the medical staff.~~

~~The medical staff of the CHRI shall be divided into honorary, attending, associate attending, clinical, community oncologist attending, community associate, and limited designations. All medical staff members with admitting privileges may admit patients in accordance with state law and criteria for standards of care established by the medical staff.~~

~~(A) Honorary staff.~~

~~The honorary staff will be composed of those individuals recognized for outstanding reputation, notable scientific and professional contributions, and high professional stature in an oncologic field of interest. They shall enjoy all privileges and responsibilities of attending staff appointments except patient care privileges and the right to vote and hold elected office in the medical staff organization. The honorary staff designation is awarded by the CHRI board on the recommendation of the senior executive director of the CHRI, senior vice president for health sciences, section chief, or the credentials committee after approval by the medical staff administrative committee. This is a life-time appointment.~~

~~(B) Attending staff.~~

~~(1) Qualifications:~~

~~The attending staff shall consist of the senior executive director, and these regular faculty members of the colleges of medicine and public health and dentistry who are licensed in the state of Ohio with a proven career commitment to oncology as demonstrated by:~~

~~Training.~~

~~Current American board of medical specialties certification, if applicable.~~

~~Publications.~~

~~Grant funding.~~

~~Other funding and experience (as deemed appropriate by the senior executive director and the section chief);~~

~~And, whose clinical and teaching responsibilities are assigned by their respective academic chairpersons to one hundred per cent time in the CHRI and who satisfy the requirements and qualifications set forth in rule 3335-111-04 of the Administrative Code.~~

~~(2) Prerogatives:~~

~~Attending staff members may:~~

~~(a) Admit patients consistent with the balanced teaching and patient care responsibilities of the institution. When, in the judgment of the director of medical affairs, a balanced teaching program is jeopardized, following consultation with the senior executive director and chairperson of the appropriate academic department, and with the concurrence of a majority of the medical staff administrative committee, the director of medical affairs may~~

~~restrict admissions. Imposition of such restrictions shall not entitle the attending staff member to the procedures of paragraph (F) of rule 3335-111-05 of the Administrative Code and rule 3335-111-06 of the Administrative Code.~~

- ~~(b) Be free to exercise such clinical privileges as are granted.~~
- ~~(c) Vote on all matters presented at general and special meetings of the medical staff and committees of which they are a member unless otherwise provided by resolution of the medical staff or committee and approved by the medical staff administrative committee.~~
- ~~(d) Hold office in the staff organization and committees of which they are a member, unless otherwise provided by resolution of the medical staff or committee and approved by the medical staff administrative committee.~~

~~(3) Responsibilities:~~

~~An attending staff member shall:~~

- ~~(a) Meet the basic responsibilities set forth in rules 3335-111-02 and 3335-111-03 of the Administrative Code.~~
- ~~(b) Retain responsibility within their area of professional competence for the continuous care and supervision of each patient in the CHRI for whom he or she is providing care, or arrange a suitable alternative for such care and supervision whenever the patient requires care that is beyond the scope of the attending staff member's capabilities or delineated clinical privileges. This provision includes the supervision of interns, residents and fellows assigned to his/her service. The training of limited staff shall include oversight by the attending physician of clinical care provided to the patient, didactic instruction and observation of diagnostic and therapeutic procedures in accordance with the essentials of the ACGME accredited program in which the limited staff member is enrolled. The attending physician shall participate in the evaluation of limited staff's clinical performance as determined by the appropriate limited staff member's residency program director.~~
- ~~(c) Actively participate in such quality evaluation and monitoring activities as required by the medical staff, and discharge such staff functions as may be required from time to time.~~
- ~~(d) Satisfy the requirements set forth in rule 3335-111-13 of the Administrative Code for attendance at medical staff meetings and meetings of those committees of which they are a member.~~
- ~~(e) Should actively encourage all their patients treated at the CHRI to cooperate in, and whenever applicable, participate in an approved protocol and knowingly participate in the teaching program. Failure to do so may constitute grounds for losing attending staff privileges.~~

(C) Associate-attending staff.

(1) Qualifications:

~~The associate attending staff shall consist of those regular faculty members of the colleges of medicine and public health and dentistry who do not qualify for attending staff appointment.~~

(2) Prerogatives:

~~The associate attending staff may:~~

~~(a) Admit patients consistent with the balanced teaching and patient care responsibilities of the institution. When, in the judgment of the director of medical affairs, a balanced teaching program is jeopardized, following consultation with the director and chairperson of the appropriate academic department, and with the concurrence of a majority of the medical staff administrative committee, the director of medical affairs may restrict admissions. Imposition of such restrictions shall not entitle the associate attending staff member to the procedures of paragraph (F) of rule 3335-111-05 of the Administrative Code and rule 3335-111-06 of the Administrative Code.~~

~~(b) Be free to exercise such clinical privileges as are granted.~~

~~(c) Vote on all matters presented at general and special meetings of the medical staff and committees of which they are a member unless otherwise provided by resolution of the staff or committee and approved by the medical staff administrative committee.~~

~~(d) The associate attending staff member may not vote on amendments to the bylaws.~~

(3) Responsibilities:

~~Associate attending staff members shall:~~

~~(a) Meet the basic responsibilities set forth in rules 3335-111-02 and 3335-111-03 of the Administrative Code.~~

~~(b) Retain responsibility within their care area of professional competence for the continuous care and supervision of each patient in the CHRI for whom the member is providing care, or arrange a suitable alternative for such care and supervision including the supervision of interns, residents and fellows assigned to their service.~~

~~(c) Actively participate in such quality evaluation and monitoring activities as required by the staff and discharge such staff functions as may be required from time to time.~~

~~(d) Satisfy the requirements set forth in rule 3335-111-13 of the Administrative Code for attendance at medical staff meetings and meetings of those committees of which they are a member.~~

~~(e) Should actively encourage all of their patients treated at the CHRI to cooperate in, and, whenever applicable, participate in an approved protocol and knowingly participate in the teaching program. Failure to do so may constitute grounds for losing associate attending staff privileges.~~

(D) Clinical staff.

(1) Qualifications:

~~The clinical attending staff shall consist of those clinical faculty members of the colleges of medicine and public health and dentistry who have training, expertise, and experience in oncology, as determined by the director in consultation with the section chief.~~

(2) Prerogatives:

~~The clinical attending staff may:~~

~~(a) Admit patients which complement the research and clinical teaching program. At times when hospital beds or other resources are in short supply, patient admissions of clinical staff shall be subordinate to those of attending or associate attending staff.~~

~~(b) Be free to exercise such clinical privileges as are granted.~~

~~(c) Attend meetings as nonvoting members of the medical staff and any medical staff or hospital education programs. The clinical attending staff may not hold elected office in the medical staff organization.~~

(3) Responsibilities:

~~Each member of the clinical staff shall be required to discharge the basic responsibilities specified in paragraph (B)(3) of this rule, and, further, shall retain responsibility within that area of professional competence for the care and supervision of each patient in the CHRI for whom the member is providing services, or arrange a suitable alternative for such care and supervision including the supervision of interns, residents and fellows assigned to their service. The clinical attending staff shall be required to fully support and participate in the research and teaching programs of the CHRI. Failure to do so may constitute grounds for losing clinical staff privileges.~~

(E) Community oncologist attending staff.

(1) Qualifications:

~~The community oncologist attending (COA) staff shall consist of medical staff members who do not have faculty appointments in any of the academic units of the Ohio state university, are licensed in the state of Ohio with a proven career commitment to oncology as demonstrated by:~~

~~Training:~~

~~Current American board of medical specialties certification, if applicable.~~

~~Practice profile.~~

~~Membership - professional oncology societies.~~

~~Publications.~~

~~Grant funding.~~

~~Other funding and experience (as approved by the CHRI senior executive director);~~

~~Individual COA staff utilization expectations shall be determined by the CHRI senior executive director with the advice of the CHRI~~

~~director of medical affairs and shall be intended to provide optimal access for patients to the CHRI that does not interfere with the service, research, or educational activities and priorities of the university faculty who constitute the CHRI attending, associate attending, or clinical attending staff. The CHRI senior executive director and the staff member applying for COA privileges will mutually identify the applicant's CHRI clinical and/or non-clinical involvement, including the categories of diagnosis, extent of anticipated patient activity, and the service areas to be utilized each year. A statement of this participation will be made a part of the application for appointment.~~

~~All applications for appointment and reappointment as a member of the COA staff shall be made to the CHRI senior executive director for initial evaluation. The CHRI senior executive director may, when appropriate, refer each application for completion of the appointment procedure in accordance with paragraph (E) or (F) of rule 3335-111-04 of the Administrative Code. However, the approval of an academic department chairperson and section chief shall not be required for the appointment or reappointment relative to any application for COA staff privileges. The staff member's ability to cooperate and support the goals identified by the CHRI senior executive director will be considered in the decision for appointment and reappointment. Adequate levels of clinical activity may be required to permit proper evaluation under CHRI quality assurance and utilization guidelines.~~

(2) Prerogatives:

~~Community oncologist attending staff members may:~~

- ~~(a) Admit patients consistent with the balanced teaching and patient care responsibilities of the institution. When, in the judgment of the director of medical affairs, a balanced teaching program is jeopardized, following consultation with the senior executive director and chairperson of the appropriate academic department, and with the concurrence of a majority of the medical staff administrative committee, the director of medical affairs may restrict admissions. Imposition of such restrictions shall not entitle the COA staff member to the procedures of paragraph (F) of rule 3335-111-04 of the Administrative Code and rule 3335-111-05 of the Administrative Code.~~
- ~~(b) Exercise such clinical privileges as are granted.~~
- ~~(c) Utilize all ambulatory and inpatient facilities of the CHRI consistent with their granted privileges. COA staff will be subject to the same credentials review as all other CHRI staff.~~
- ~~(d) Attend meetings of the medical staff as non-voting member and attend any medical staff or hospital education program. The COA staff member may not hold elected office in the medical staff organization. However, such member may serve as non-voting ex-officio member of medical staff committees if appointed pursuant to these rules.~~

(3) Responsibilities:

~~A community oncology attending staff member shall:~~

- (a) ~~Meet the basic responsibilities set forth in rules 3335-111-02 and 3335-111-03 of the Administrative Code.~~
- (b) ~~Retain responsibility within his or her area of professional competence for the continuous care and supervision of each patient in the CHRI for whom he or she is providing care, or arrange a suitable alternative for such care and supervision.~~
- (c) ~~Actively participate in such quality evaluation and monitoring activities as required by the medical staff, and discharge such staff functions as may be required from time to time including, but not limited to, adherence to all applicable quality assurance and monitoring activities in the division related to the COA's practice including attendance at peer review, mortality and morbidity conferences.~~
- (d) ~~Satisfy the requirements set forth in rule 3335-111-13 of the Administrative Code for attendance at CHRI meetings.~~
- (e) ~~Actively encourage all their patients treated at the CHRI to cooperate in, and whenever applicable, participate in an approved protocol and knowingly participate in the teaching program. Failure to do so may constitute grounds for losing COA staff privileges.~~
- (f) ~~Become a member and active participant of at least one CCC disease specific committee.~~
- (g) ~~Be subject to payment of medical staff dues or assessments as approved by the CHRI medical staff.~~

(F) ~~Community associate staff.~~

(1) ~~Qualifications:~~

~~The community associate medical staff shall consist of those applicants who do not have faculty appointments in any of the academic units of the Ohio state university and who are licensed in the state of Ohio. All applications for appointment and reappointment to the community associate staff shall be made to the senior executive director for initial evaluation. The senior executive director shall consult with the chairperson of the appropriate academic department and when appropriate may refer each application for completion of the appointment procedure in accordance with pertinent requirements of paragraph (E) or (F) of rule 3335-111-04 of the Administrative Code. The approval of the academic department chairperson or section chief shall not be required.~~

(2) ~~Prerogatives:~~

~~The community associate staff members may:~~

- (a) ~~Provide consulting services to James patients.~~
- (b) ~~Admit patients when the primary diagnosis is cancer or cancer-related.~~
- (c) ~~Be free to exercise such clinical privileges as are granted.~~
- (d) ~~Attend all meetings of the medical staff as non-voting members and attend any and all medical staff or hospital education~~

programs. The community associate staff member may not hold elected office in the medical staff organization except to serve as a non-voting, ex-officio member of medical staff committees if appointed pursuant to these rules.

(3) Responsibilities:

The community associate attending staff members shall:

- (a) Meet the basic responsibilities set forth in rules 3335-111-02 and 3335-111-03 of the Administrative Code.
- (b) Retain responsibility within their care area of professional competence for the continuous care and supervision of each patient for whom the member is providing care, or arrange a suitable alternative for such care and supervision.
- (c) Actively participate in such quality evaluation and monitoring activities as required by the staff and discharge such staff functions as may be required from time to time.
- (d) Satisfy the requirements set forth in rule 3335-111-13 of the Administrative Code for attendance at staff meetings and meetings of those committees of which they are a member.
- (e) Should actively encourage all of their patients to cooperate in, and whenever applicable, participate in an approved protocol. Failure to do so may constitute grounds for losing community associate attending staff privileges.

(G) Limited staff.

Limited staff are not considered members of the medical staff, do not have delineated clinical privileges, and do not have the right to vote in general medical staff elections. Except where expressly stated, limited staff are bound by the terms of these bylaws, rules and regulations of the medical staff and the limited staff agreement.

(1) Qualifications:

The limited staff shall consist of allopathic and osteopathic physicians, and dental surgeons who are accepted in good standing by a program director into a postdoctoral graduate medical education program approved by the institutional post graduate medical education committee.

(2) Responsibilities:

The limited staff shall:

- (a) Participate fully in the teaching programs of the service in which they are appointed.
- (b) Not admit patients but participate under supervision, in the care of all patients to whom they are assigned. They shall follow all rules and regulations of the service to which they are assigned, as well as the general rules of the CHRI pertaining to limited staff, including, but not limited to this requirement. Consultation shall be obtained with the attending, associate attending, clinical member of the medical staff responsible for the care of that patient before undertaking a procedure or treatment that carries a

~~significant material risk to the patient unless this consultation would cause a delay that would jeopardize the life or health of the patient.~~

- ~~(c) Serve as full members of the various committees to which they are assigned. They are not eligible to vote or hold elected office in the medical staff organization.~~
- ~~(d) Make regular satisfactory professional progress and satisfy the expectations of the program director of the graduate medical education program to which they are appointed.~~

(H) Associates to the medical staff.

(1) Qualifications:

~~Licensed allied health professionals are those professionals who possess a license, certificate or other legal credential required by Ohio law to provide direct patient care in a hospital setting, but who are not acting as licensed independent practitioners.~~

~~They are not members of the medical staff and have no authority to admit or co-admit patients to the hospital and are not eligible to hold office, to vote on medical staff affairs or to serve on standing committees of the medical staff unless specifically authorized by the medical staff administrative committee.~~

~~Clinical privileges as a licensed allied health professional shall only be granted to professionally competent individuals who meet the qualifications, standards and requirements of their respective licensure, certification or other legal authorization.~~

~~These individuals may be granted clinical privileges to provide specified patient care services as an adjunct to treatment rendered by physicians under the supervision or direction of a physician member of the medical staff.~~

(2) Application for privileges:

~~Only individuals who can document the following shall be granted clinical privileges in the CHR:~~

- ~~(a) Current license, certification or other legal credential required by Ohio law.~~
- ~~(b) Current certificate of authority, standard care agreement or utilization plan, if required by state law.~~
- ~~(c) Education, training, professional experience and competence.~~
- ~~(d) Adherence to the ethics of the profession for which an individual holds a license, certification or other legal credential required by Ohio law.~~
- ~~(e) Immunization requirements.~~
- ~~(f) Peer recommendations establishing a good personal and professional reputation.~~
- ~~(g) Satisfactory physical and mental health to perform requested privileges.~~

- (h) Ability to work with members of the medical staff and hospital employees.

This document must be presented with sufficient adequacy to assure the medical staff and the hospital that any patient cared for by the person seeking privileges as a licensed allied health professional will be given quality care and that the efficient operation of the hospital will not be disrupted by such person's care of patients in the hospital. The physician will be responsible for all patient care activities performed on his or her behalf.

(3) Conditions of privileges granted:

An individual who is granted clinical privileges as a licensed allied health professional agrees to the following terms and conditions:

- (a) The individual has read the bylaws and rules and regulations of the medical staff and agrees to abide by all applicable terms of such bylaws and rules and regulations, including any subsequent amendments thereto and any applicable hospital policies the CHRI may from time to time put into effect.
- (b) All licensed allied health professionals granted privileges must be assigned to a clinical service appropriate to their professional training and have a supervising/coordinating physician who has agreed to direct or supervise care provided.

(4) Due process:

Licensed allied health professionals are subject to corrective action for violation of these rules, their certificate of authority, standard care agreement, utilization plan or the provisions of their licensure, including professional ethics. Corrective action may be requested by any member of the medical staff, the chairperson of an academic department, the section chief or the director of medical affairs. All requests shall be in writing and be submitted to the director of medical affairs.

The director of medical affairs shall appoint a three-person committee to review the situation and recommend appropriate corrective action, including termination or suspension of clinical privileges. The committee shall consist of at least one licensed allied health professional licensed in the same field as the individual being reviewed, if available, and one medical staff member. The committee shall make a written recommendation to the director of medical affairs, who may accept, reject or modify the recommendation. The decision of the director of medical affairs shall be final.

(4) Clinical privileges.

(1) Delineation of clinical privileges:

- (a) The process of delineating privileges shall be the responsibility of the director of medical affairs with the approval of the senior executive director, and shall be on file with the senior executive director. A medical staff member may contest the specific privileges granted under rule 3335-111-04 of the Administrative Code.
- (b) Each clinical department and CHRI section will develop clinical criteria and standards for the evaluation of privileges with emphasis on invasive or therapeutic procedures or treatment

which represent significant risk to the patient or for which specific professional training or experience is required. The evaluation of every initial application for clinical privileges shall be based upon the applicant's education, training, experience, demonstrated competence and adherence to quality assurance standards, references and other relevant information, including an appraisal by the section chief in which such privileges are sought. The applicant shall have the burden of establishing qualifications and competence in the clinical privileges requested and the recommendation for increase or reduction of same shall be the responsibility of the credentials committee.

- (c) ~~A leave of absence from clinical privileges for voluntary or involuntary medical reasons, for greater than thirty days, must be requested by each medical staff member in writing and be referred to the director of medical affairs office, whenever the medical reason for the leave relates to the medical staff member's possession of the necessary health status to exercise the clinical privileges granted to him or her, or to fulfill the essential functions of his or her appointment to the medical staff, with or without reasonable accommodation. The director of medical affairs may notify the committee for physician health. This section does not mean that members of the medical staff may not have a duty to self report absences of less than thirty days to the section chief when the absence is based upon the ability to exercise and fulfill essential functions of his or her clinical privileges or medical staff appointment.~~

~~After a leave for medical reasons of greater than thirty days, a written request for reinstatement must be reviewed and approved by the director of medical affairs in consultation with the committee for physician health, if necessary. Upon return from a leave of absence for medical reasons, the medical staff member must demonstrate his/her ability to exercise his/her clinical privileges upon return to clinical activity. The credentials committee, the director of medical affairs, the section chief or the medical staff administrative committee shall have the authority to require any documentation, including advice and consultation from the committee on physician health that might have a bearing on the medical staff member's ability to carry out the clinical and educational responsibilities for which the medical staff member is seeking privileges. The committee for physician health will have the responsibility to consider and recommend reasonable accommodations that will enable the medical staff member to practice in a safe and acceptable manner. Any accommodation must be arranged and implemented prior to the exercise of clinical privileges.~~

(2) ~~Temporary and special privileges:~~

- (a) ~~Temporary privileges — with the written request and approval of the chairperson of the academic department in which the privileges will be exercised and the section chief, the director of medical affairs may act on behalf of the senior executive director and the CHRI board and grant temporary privileges when an application for full appointment is pending and there are specific patient care needs that mandate an immediate authorization to practice. An appropriately licensed professional may be granted temporary privileges for an initial period of thirty days, with subsequent renewals approved by the director of medical affairs not to exceed the pendency of the application.~~

~~Such privileges shall be exercised in accordance with the conditions specified in rule 3335-111-04 of the Administrative Code.~~

- ~~(b) Special privileges -- upon receipt of a written request for specific temporary privileges and the approval of the chairperson of the academic department, the section chief and the director of medical affairs, an appropriately licensed practitioner of documented competence, who is not an applicant for medical staff membership, may be granted special privileges for the care of one or more specific patients. Such privileges shall be exercised in accordance with the conditions specified in rule 3335-111-04 of the Administrative Code.~~
- ~~(c) A physician may employ or utilize the services of a non-licensed professional assistant in the administration of patient care if this assistant has a defined job description, has received credentials review and approval by the appropriate CHRI reviewing body, and is operating within existing CHRI standards, policies, and procedures. The physician will be responsible for all patient care activities performed on his or her behalf.~~
- ~~(d) The temporary and special privileges must also be in conformity with the joint commission on accreditation of health care organizations' standards and the rules and regulations of professional boards of Ohio.~~

~~(3) Emergency privileges.~~

~~Emergency privileges may be granted by the director of medical affairs or designee to fully licensed, qualified individuals who, at the time of the emergency, are not members of the medical staff in order to provide voluntary services during a local, state or national emergency in accordance with CHRI and medical staff policies.~~

~~(4) Telemedicine.~~

~~A member of the medical staff who wishes to utilize electronic technologies (telemedicine) to render care must so indicate on the application for clinical privileges form. (B/T 9/1/93, B/T 3/3/95, B/T 4/3/96, B/T 12/6/96, B/T 9/1/99, B/T 12/3/99, B/T 6/2/2000, B/T 4/5/2002, B/T 9/6/2002, B/T 2/6/2004, B/T 11/4/2005)~~

NEW RULE

3335-111-07 Categories of the medical staff.

The medical staff of the CHRI shall be divided into honorary, attending, associate attending, clinical, community oncologist attending, community associate, and limited designations. All medical staff members with admitting privileges may admit patients in accordance with state law and criteria for standards of care established by the medical staff.

(A) Honorary staff.

The honorary staff will be composed of those individuals who are recognized for outstanding reputation, notable scientific and professional contributions, and high professional stature in an oncology field of interest. The honorary staff designation is awarded by the CHRI board on the recommendation of the senior executive director of the CHRI, senior vice

president for health sciences, section chief, or the credentials committee after approval by the medical staff administrative committee. This is a lifetime appointment. Honorary staff are not entitled to patient care privileges.

(B) Attending medical staff.

(1) Qualifications:

The attending staff shall consist of those regular faculty members of the colleges of medicine and dentistry who are licensed in the state of Ohio with a proven career commitment to oncology as demonstrated by:

Training,
Current board certification,
Publications,
Grant funding,

Other funding and experience (as deemed appropriate by the senior executive director and the section chief);

and who satisfy the requirements and qualifications for membership set forth in rule 3335-111-04 of the Administrative Code, and whose clinical and teaching responsibilities are assigned by their respective academic and/or clinical chairpersons to one hundred per cent time in the CHRI and who satisfy the requirements and qualifications set forth in rule 3335-111-04 of the Administrative Code.

(2) Prerogatives:

Attending staff members may:

- (a) Admit patients consistent with the balanced teaching and patient care responsibilities of the CHRI. When, in the judgment of the director of medical affairs, a balanced teaching program is jeopardized, following consultation with the senior executive director and chairperson of the appropriate academic department and with the concurrence of a majority of the medical staff administrative committee, the director of medical affairs may restrict admissions. Imposition of such restrictions shall not entitle the attending staff member to a hearing or appeal pursuant to rule 3335-111-06 of the Administrative Code.
- (b) Be free to exercise such clinical privileges as are granted pursuant to these bylaws.
- (c) Vote on all matters presented at general and special meetings of the medical staff and committees of which he or she is a member unless otherwise provided by resolution of the medical staff, clinical department or committee and approved by the medical staff administrative committee.
- (d) Hold office in the medical staff organization, clinical departments and committees of which they are a member, unless otherwise provided by resolution of the medical staff, clinical department or committee and approved by the medical staff administrative committee.

(3) Responsibilities:

An attending staff member shall:

- (a) Meet the basic responsibilities set forth in rules 3335-111-02 and 3335-111-03 of the Administrative Code.
- (b) Retain responsibility within the member's area of professional competence for the continuous care and supervision of each patient in the CHRI for whom he or she is providing care, or arrange a suitable alternative for such care and supervision.
- (c) Actively participate in such quality evaluation and monitoring activities as required by the medical staff, and discharge such staff functions as may be required from time to time.
- (d) Satisfy the requirements set forth in rule 3335-111-13 of the Administrative Code for attendance at medical staff meetings and meetings of those committees of which they are a member.
- (e) Supervise members of the limited staff in the provision of patient care in accordance with accreditation standards and policies and procedures of approved clinical training programs. It is the responsibility of the attending physician to authorize each member of the limited staff to perform only those services that the limited staff member is competent to perform under supervision.
- (f) Supervise other licensed allied health professionals as necessary in accordance with accreditation standards and state law. It is the responsibility of the attending physician to authorize each licensed allied health professional to perform only those services which the licensed allied health professional is privileged to perform.

(C) Associate attending staff.

(1) Qualifications:

The associate attending staff shall consist of those regular faculty members of the colleges of medicine and dentistry who do not qualify for attending staff appointment.

(2) Prerogatives:

The associate attending staff may:

- (a) Admit patients consistent with the balanced teaching and patient care responsibilities of the institution. When, in the judgment of the director of medical affairs, a balanced teaching program is jeopardized, following consultation with the director and chairperson of the appropriate academic department and with the concurrence of a majority of the medical staff administrative committee, the director of medical affairs may restrict admissions. Imposition of such restrictions shall not entitle the associate attending staff member to a hearing or appeal pursuant to rule 3335-111-06 of the Administrative Code.
- (b) Be free to exercise such clinical privileges as are granted pursuant to the bylaws.

(c) Vote on all matters presented at general and special meetings of the medical staff and committees of which he or she is a member unless otherwise provided by resolution of the staff, clinical department or committee and approved by the medical staff administrative committee.

(d) The associate attending staff member may not vote on amendments to the bylaws.

(3) Responsibilities:

Associate attending staff members shall:

(a) Meet the basic responsibilities set forth in rules 3335-111-02 and 3335-111-03 of the Administrative Code.

(b) Retain responsibility within the member's care area of professional competence for the continuous care and supervision of each patient in the CHRI for whom the member is providing care, or arrange a suitable alternative for such care and supervision including the supervision of interns, residents and fellows assigned to their service.

(c) Actively participate in such quality evaluation and monitoring activities as required by the staff and discharge such staff functions as may be required from time to time.

(d) Satisfy the requirements set forth in rule 3335-111-13 of the Administrative Code for attendance at medical staff meetings and meetings of those committees of which they are a member.

(D) Clinical attending staff.

(1) Qualifications:

The clinical attending staff shall consist of those clinical faculty members of the colleges of medicine and dentistry who have training, expertise, and experience in oncology, as determined by the senior executive director in consultation with the section chief and who satisfy the requirements and qualifications for membership set forth in rule 3335-111-04 of the Administrative Code.

(2) Prerogatives:

The clinical attending staff may:

(a) Admit patients which complement the research and clinical teaching program. At times when hospital beds or other resources are in short supply, patient admissions of clinical staff shall be subordinate to those of attending or associate attending staff.

(b) Be free to exercise such clinical privileges as are granted pursuant to these bylaws.

(c) Attend meetings as non-voting members of the medical staff and any medical staff or hospital education programs. The clinical attending staff may not hold elected office in the medical staff organization.

(3) Responsibilities:

- (a) Meet the basic responsibilities set forth in rules 3335-111-02 and 3335-111-03 of the Administrative Code.
- (b) Retain responsibility within the member's area of professional competence for the continuous care and supervision of each patient in the CHRI for whom the member is providing care, or arrange a suitable alternative for such care and supervision including the supervision of interns, residents and fellows assigned to their service.
- (c) Actively participate in such quality evaluation and monitoring activities as required by the staff and discharge such staff functions as may be required from time to time.
- (d) Satisfy the requirements set forth in rule 3335-111-13 of the Administrative Code for attendance at medical staff meetings and meetings of those committees of which they are a member.
- (e) Supervise members of the limited staff in the provision of patient care in accordance with accreditation standards and policies and procedures of approved clinical training programs. It is the responsibility of the attending physician to authorize each member of the limited staff to perform only those services which the limited staff member is competent to perform under supervision.
- (f) Supervise other licensed allied health professionals as necessary in accordance with accreditation standards and state law. It is the responsibility of the attending physician to authorize each licensed allied health professional to perform only those services which the licensed allied health professional is privileged to perform.

(E) Community oncologist attending staff.

(1) Qualifications:

- (a) The community oncologist attending (COA) staff shall consist of medical staff members who do not have faculty appointments in any of the academic units of the Ohio state university, are licensed in the state of Ohio with a proven career commitment to oncology as demonstrated by:

- Training.
- Current board certification.
- Practice profile.
- Membership - professional oncology societies.
- Publications.
- Grant funding.
- Other funding and experience (as approved by the CHRI senior executive director);

and who satisfy the requirements and qualifications for membership set forth in rule 3335-111-04 of the Administrative Code.

- (b) Individual COA staff utilization expectations shall be determined by the CHRI senior executive director with the advice of the CHRI director of medical affairs and shall be intended to provide

optimal access for patients to the CHRI that does not interfere with the service, research, or educational activities and priorities of the university faculty who constitute the CHRI attending, associate attending, or clinical attending staff. The CHRI senior executive director and the staff member applying for COA privileges will mutually identify the applicant's CHRI clinical and/or non-clinical involvement, including the categories of diagnosis, extent of anticipated patient activity, and the service areas to be utilized each year. A statement of this participation will be made a part of the application for appointment.

- (c) All applications for appointment and reappointment as a member of the COA staff shall be made to the CHRI senior executive director for initial evaluation. The CHRI senior executive director may, when appropriate, refer each application for completion of the appointment procedure in accordance with paragraph (E) or (F) of rule 3335-111-04 of the Administrative Code. However, the approval of an academic department chairperson and section chief shall not be required for the appointment or reappointment relative to any application for COA staff privileges. The staff member's ability to cooperate and support the goals identified by the CHRI senior executive director will be considered in the decision for appointment and reappointment. Adequate levels of clinical activity may be required to permit proper evaluation under CHRI quality assurance and utilization guidelines.

(2) Prerogatives:

Community oncologist attending staff members may:

- (a) Admit patients consistent with the balanced teaching and patient care responsibilities of the institution. When, in the judgment of the director of medical affairs, a balanced teaching program is jeopardized, following consultation with the senior executive director and chairperson of the appropriate academic department and with the concurrence of a majority of the medical staff administrative committee, the director of medical affairs may restrict admissions. Imposition of such restrictions shall not entitle the COA staff member to the procedures of paragraph (F) of rule 3335-111-04 and rule 3335-111-05 of the Administrative Code.
- (b) Exercise such clinical privileges as are granted pursuant to these bylaws.
- (c) Utilize all ambulatory and inpatient facilities of the CHRI consistent with their granted privileges. COA staff will be subject to the same credentials review as all other CHRI staff.
- (d) Attend meetings of the medical staff as a non-voting member and attend any medical staff or hospital education program. The COA staff member may not hold elected office in the medical staff organization. However, such member may serve as non-voting ex-officio member of medical staff committees if appointed pursuant to these rules.

(3) Responsibilities:

A community oncology attending staff member shall:

- (a) Meet the basic responsibilities set forth in rules 3335-111-02 and 3335-111-03 of the Administrative Code.
- (b) Retain responsibility within his or her area of professional competence for the continuous care and supervision of each patient in the CHRI for whom he or she is providing care, or arrange a suitable alternative for such care and supervision.
- (c) Actively participate in such quality evaluation and monitoring activities as required by the medical staff, and discharge such staff functions as may be required from time to time including, but not limited to, adherence to all applicable quality assurance and monitoring activities in the division related to the community oncology attending's practice including attendance at peer review, mortality and morbidity conferences.
- (d) Satisfy the requirements set forth in rule 3335-111-13 of the Administrative Code for attendance at CHRI meetings.
- (e) Become a member and active participant of at least one CCC disease specific committee.
- (f) Be subject to payment of medical staff dues or assessments as approved by the CHRI medical staff.

(F) Community associate attending staff.

(1) Qualifications:

The community associate attending staff shall consist of those applicants who do not have faculty appointments in any of the academic units of the Ohio state university and who are licensed in the state of Ohio and who satisfy the requirements and qualifications for membership set forth in rule 3335-111-04 of the Administrative Code. All applications for appointment and reappointment to the community associate attending staff shall be made to the senior executive director for initial evaluation. The senior executive director shall consult with the chairperson of the appropriate academic department and when appropriate may refer each application for completion of the appointment procedure in accordance with pertinent requirements of paragraph (E) or (F) of rule 3335-111-04 of the Administrative Code. The approval of the academic department chairperson or section chief shall not be required.

(2) Prerogatives:

The community associate attending staff members may:

- (a) Provide consulting services to James patients.
- (b) Admit patients when the primary diagnosis is cancer or cancer-related.
- (c) Be free to exercise such clinical privileges as are granted pursuant to these bylaws.
- (d) Attend all meetings of the medical staff as non-voting members and attend any and all medical staff or hospital education programs. The community associate attending staff member may not hold elected office in the medical staff organization except to serve as a non-voting, ex-officio member of medical staff committees if appointed pursuant to these rules.

(3) Responsibilities:

The community associate attending staff members shall:

- (a) Meet the basic responsibilities set forth in rules 3335-111-02 and 3335-111-03 of the Administrative Code.
- (b) Retain responsibility within their care area of professional competence for the continuous care and supervision of each patient for whom the member is providing care, or arrange a suitable alternative for such care and supervision.
- (c) Actively participate in such quality evaluation and monitoring activities as required by the staff and discharge such staff functions as may be required from time to time.
- (d) Satisfy the requirements set forth in rule 3335-111-13 of the Administrative Code for attendance at staff meetings and meetings of those committees of which they are a member.

(G) Limited staff.

Limited staff are not considered members of the medical staff, do not have delineated clinical privileges, and do not have the right to vote in general medical staff elections. Except where expressly stated, limited staff are bound by the terms of these bylaws, rules and regulations of the medical staff and the limited staff agreement.

(1) Qualifications:

The limited staff shall consist of allopathic and osteopathic physicians, dentists and practitioners of podiatry or psychology who are accepted in good standing by a program director into a postdoctoral graduate medical education program and appointed to the limited staff in accordance with these bylaws. The limited staff shall maintain compliance with the requirements of state law, including regulations adopted by the Ohio state medical board, or the limited staff member's respective licensing board.

Members of the limited staff shall possess a valid training certificate or an unrestricted Ohio license from the applicable state board based on eligibility criteria defined by that state board. All members of the limited staff shall be required to successfully obtain an Ohio training certificate prior to beginning training within a program.

(2) Responsibilities:

The limited staff shall:

- (a) Be responsible to respond to all questions and complete all forms as may be required by the credentials committee.
- (b) Participate fully in the teaching programs, conferences, and seminars of the clinical department in which he or she is appointed in accordance with accreditation standards and policies and procedures of the graduate medical education committee and approved clinical training programs.
- (c) Participate in the care of all patients assigned to the limited staff member under the appropriate supervision of a designated member of the attending medical staff in accordance with

accreditation standards and policies and procedures of the clinical training programs. The clinical activities of the limited staff shall be determined by the program director appropriate for the level of education and training. Limited staff shall be permitted to perform only those services that they are authorized to perform by the member of the attending medical staff based on the competence of the limited staff to perform such services. The limited staff may admit or discharge patients only when acting on behalf of the attending, associate attending, community oncologist attending, or community associate attending medical staff. The limited staff member shall follow all rules and regulations of the service to which he or she is assigned, as well as the general rules of the CHRI pertaining to limited staff.

- (d) Serve as full members of the various medical staff committees in accordance with established committee composition as described in these bylaws and/or rules and regulations of the medical staff. The limited staff member shall not be eligible to vote or hold elected office in the medical staff organization, but may vote on committees to which the limited staff member is assigned.
- (e) Be expected to make regular satisfactory professional progress including anticipated certification by the respective specialty or subspecialty program of post-doctoral training in which the limited staff member is enrolled. Evaluation of professional growth and appropriate humanistic qualities shall be made on a regular schedule by the clinical department chief, program director, teaching faculty or evaluation committee in accordance with accreditation standards and policies and procedures of the approved training programs.
- (f) Appeal by a member of the limited staff of probation, lack of reappointment, suspension or termination for failure to meet expectations for professional growth or failure to display appropriate humanistic qualities or failure to successfully complete any other competency as required by the accreditation standards of an approved training program will be conducted and limited in accordance with written guidelines established by the respective department or training program and approved by the medical director and the Ohio state university health system's graduate medical education committee as delineated in the limited staff agreement. Alleged misconduct by a member of the limited staff, for reasons other than failure to meet expectations of professional growth as outlined above, shall be handled in accordance with rules 3335-111-05 and 3335-111-06 of the Administrative Code.

(3) Failure to meet reasonable expectations:

Failure to meet reasonable expectations may result in sanctions including but not limited to probation, lack of reappointment, suspension or termination. Termination of limited staff member status shall result in automatic termination of the limited staff member's residency or fellowship appointment pursuant to these bylaws.

(4) Temporary appointments:

- (a) Limited staff members who are Ohio state university faculty may be granted an early commencement or an extension of appointment upon the recommendation of the chief of the clinical department, with prior concurrence of the medical director of the

health system, when it is necessary for the limited staff member to begin his or her training program prior to or extend his or her training program beyond a regular appointment period. The appointment shall not exceed sixty days.

- (b) Temporary appointments may be granted upon the recommendation of the chief of the clinical department, with prior concurrence of the medical director of the health system, for limited staff members who are not Ohio state university faculty but who, pursuant to education affiliate agreements approved by the university, need to satisfy approved graduate medical education clinical rotation requirements. These appointments shall not exceed a total of one hundred twenty days in any given post-graduate year. In such cases, the mandatory requirement for a faculty appointment may be waived. All other requirements for limited staff member appointment must be satisfied.

(5) Supervision:

Limited staff members shall be under the supervision of an attending, associate attending, community oncologist attending or community associate attending medical staff member. Limited staff members shall have no privileges as such but shall be able to care for patients under the supervision and responsibility of their attending, associate attending, community oncologist attending or community associate attending medical staff member. The care they extend will be governed by these bylaws and the general rules and regulations of each clinical department. The practice of care shall be limited by the scope of privileges of their attending, associate attending, community oncologist attending or community associate attending medical staff member. Any concerns or problems that arise in the limited staff member's performance should be directed to the attending, associate attending, community oncologist attending or community associate attending medical staff member or the director of the training program.

- (a) Limited staff members may write orders for the care of patients under the supervision of the attending, associate attending, community oncologist attending or community associate attending medical staff member.
- (b) All records of limited staff member cases must document involvement of the attending, associate attending, community oncologist attending or community associate attending medical staff member in the supervision of the patient's care to include co-signature of the history and physical, operative report, and discharge summary.

(H) Associates to the medical staff.

(1) Qualifications:

Licensed health care professionals are those professionals who possess a license, certificate or other legal credential required by Ohio law to provide direct patient care in a hospital setting, but who are not acting as licensed independent practitioners.

(2) Due process:

Licensed health care professionals are subject to corrective action for violation of these rules, their certificate of authority, standard care agreement, utilization plan or the provisions of their licensure, including

professional ethics. Corrective action may be requested by any member of the medical staff, the chairperson of an academic department, the section chief or the director of medical affairs. All requests shall be in writing and be submitted to the director of medical affairs.

The director of medical affairs shall appoint a three-person committee to review the situation and recommend appropriate corrective action, including termination or suspension of clinical privileges. The committee shall consist of at least one licensed health care professional licensed in the same field as the individual being reviewed, if available, and one medical staff member. The committee shall make a written recommendation to the director of medical affairs, who may accept, reject or modify the recommendation. The decision of the director of medical affairs shall be final.

(I) Clinical privileges.

(1) Delineation of clinical privileges:

(a) Every person practicing at the CHRI by virtue of medical staff membership, faculty appointment, contract or under authority granted in these bylaws shall, in connection with such practice, be entitled to exercise only those clinical privileges specifically applied for and granted to the staff member or other licensed allied health professional by the CHRI board after recommendation from the medical staff administrative committee.

(b) Each clinical department and CHRI section shall develop specific clinical criteria and standards for the evaluation of privileges with emphasis on invasive or therapeutic procedures or treatment which represent significant risk to the patient or for which specific professional training or experience is required.

(c) Requests for the exercise and delineation of clinical privileges must be made as part of each application for appointment or reappointment to the medical staff on the forms prescribed by the medical staff administrative committee. Every person in an administrative position who desires clinical privileges shall be subject to the same procedure as all other applicants. Requests for clinical privileges must be submitted to the chief of the clinical department in which the clinical privileges will be exercised. Clinical privileges requested other than during appointment or reappointment to the medical staff shall be submitted to the chief of the clinical department and such request must include documentation of relevant training or experience supportive of the request.

(d) The chief of the clinical department shall review each applicant's request for clinical privileges and shall make a recommendation regarding clinical privileges to the director of medical affairs. Requests for clinical privileges shall be evaluated based upon the applicant's education, training, experience, demonstrated competence, references, and other relevant information including the direct observation and review of records of the applicant's performance by the clinical department in which the clinical privileges are exercised. Whenever possible, the review should be of primary source information. The applicant shall have the burden of establishing qualifications and competence in the clinical privileges requested and shall have the burden of production of adequate information for the proper evaluation of qualifications.

- (e) The applicant's request for clinical privileges and the recommendation of the clinical department chief shall be forwarded to the credentials committee and shall be processed in the same manner as applications for appointment and reappointment pursuant to rule 3335-111-04 of the Administrative Code.
- (f) A leave of absence from clinical privileges for voluntary or involuntary medical reasons, for greater than thirty days, must be requested by each medical staff member in writing and be referred to the director of medical affairs office, whenever the medical reason for the leave relates to the medical staff member's possession of the necessary health status to exercise the clinical privileges granted to him or her, or to fulfill the essential functions of his or her appointment to the medical staff, with or without reasonable accommodation. The director of medical affairs may notify the committee for licensed independent practitioner health. This section does not mean that members of the medical staff may not have a duty to self report absences of less than thirty days to the section chief when the absence is based upon the ability to exercise and fulfill essential functions of his or her clinical privileges or medical staff appointment.
- (g) After a leave for medical reasons of greater than thirty days, a written request for reinstatement must be reviewed and approved by the director of medical affairs in consultation with the committee for licensed independent practitioner health, if necessary. Upon return from a leave of absence for medical reasons, the medical staff member must demonstrate his/her ability to exercise his/her clinical privileges upon return to clinical activity. The credentials committee, the director of medical affairs, the section chief or the medical staff administrative committee shall have the authority to require any documentation, including advice and consultation from the committee on physician health that might have a bearing on the medical staff member's ability to carry out the clinical and educational responsibilities for which the medical staff member is seeking privileges. The committee for licensed independent practitioner health will have the responsibility to consider and recommend reasonable accommodations that will enable the medical staff member to practice in a safe and acceptable manner. Any accommodation must be arranged and implemented prior to the exercise of clinical privileges.

(2) Temporary and special privileges:

- (a) Temporary privileges may be extended to a doctor of medicine, osteopathic medicine, dental surgery, psychologist, podiatry or to a licensed allied health professional upon completion of an application prescribed by the medical staff administrative committee, upon recommendation of the chief of the clinical department, and approval by the director of medical affairs. The director of medical affairs, acting as a member and on behalf of the CHRI board, has been delegated responsibility by the CHRI board to grant approval of temporary privileges. The temporary privileges granted shall be consistent with the applicant's training and experience and with clinical department guidelines. Prior to granting temporary privileges, primary source verification of licensure and current competence shall be required. Temporary

privileges shall be limited to situations which fulfill an important patient care need and shall not be granted for a period of more than ninety days.

- (b) Temporary privileges may be extended to visiting medical faculty or for special activity as provided by the Ohio state medical or dental boards.
- (c) Special privileges -- upon receipt of a written request for specific temporary privileges and the approval of the chairperson of the academic department and the director of medical affairs, an appropriately licensed practitioner of documented competence, who is not an applicant for medical staff membership, may be granted special privileges for the care of one or more specific patients. Such privileges shall be exercised in accordance with the conditions specified in rule 3335-111-04 of the Administrative Code.
- (d) A physician may employ or utilize the services of a non-licensed professional assistant in the administration of patient care if this assistant has a defined job description, has received credentials review and approval by the appropriate CHRI reviewing body, and is operating within existing CHRI standards, policies, and procedures. The physician will be responsible for all patient care activities performed on his or her behalf.
- (e) The temporary and special privileges must also be in conformity with the joint commission on accreditation of health care organizations' standards and the rules and regulations of professional boards of Ohio.

(3) Expedited privileges:

If the CHRI board is not scheduled to convene in a timeframe that permits the timely consideration of the recommendation of a complete application by the medical staff administrative committee, applicants may be granted expedited privileges by a subcommittee of the board consisting of at least two members of the CHRI board, pursuant to hospital/medical staff policy and the CHRI hospital board resolution.

(4) Podiatric privileges:

- (a) Practitioners of podiatry may admit patients to the CHRI if such patients are being admitted solely to receive care that a podiatrist may provide without medical assistance, pursuant to the scope of the professional license of the podiatrist. Practitioners of podiatry must, in all other circumstances co-admit patients with a member of the medical staff who is a doctor of medicine or osteopathic medicine. A member of the medical staff who is a doctor of medicine or osteopathy shall:
 - (i) Be responsible for any medical problems that the patient has while an inpatient of the CHRI; and
 - (ii) Shall confirm the findings, conclusions and assessment of risk prior to high-risk diagnosis or therapeutic interventions defined by the medical staff.
- (b) Practitioners of podiatry shall be responsible for the podiatric care of the patient including the podiatric history and physical examination and all appropriate elements of the patient's record.

(c) The podiatrist shall be responsible to the chief of the department of orthopaedics.

(5) Psychology privileges:

(a) Psychologists shall be granted clinical privileges based upon their training, experience and demonstrated competence and judgment consistent with their license to practice. Psychologists shall not prescribe drugs, or perform surgical procedures, or in any other way practice outside the area of their approved clinical privileges or expertise unless otherwise authorized by law.

(b) Psychologists may not admit patients to the CHRI, but may diagnose and treat a patient's psychological illness as part of the patient's comprehensive care while hospitalized. All patients admitted for psychological care shall receive the same medical appraisal as all other hospitalized patients. A member of the medical staff who is a doctor of medicine or osteopathic medicine shall admit the patient and shall be responsible for the history and physical and any medical care that may be required during the hospitalization, and shall determine the appropriateness of any psychological therapy based on the total health status of the patient. Psychologists may provide consultation within their area of expertise on the care of patients within the CHRI. In ambulatory settings, psychologists shall diagnose and treat their patient's psychological illness. Psychologists shall ensure that their patients receive referral for appropriate medical care.

(c) Psychologists shall be responsible to the chief of the clinical department in which they are appointed.

(6) Dental privileges:

(a) Practitioners of dentistry, who have not been granted clinical privileges as oral and maxillofacial surgeons, may admit patients to the CHRI if such patients are being admitted solely to receive care which a dentist may provide without medical assistance, pursuant to the scope of the professional license of the dentist. Practitioners of dentistry must, in all other circumstances, co-admit patients with a member of the medical staff who is a doctor of medicine or osteopathic medicine.

(b) A member of the medical staff who is a doctor of medicine or osteopathy:

(i) Shall be responsible for any medical problems that the patient has while an inpatient of the CHRI; and

(ii) Shall confirm the findings, conclusions and assessment of risk prior to high-risk diagnoses or therapeutic interventions defined by the medical staff.

(c) Practitioners of dentistry shall be responsible for the dental care of the patient including the dental history and physical examination and all appropriate elements of the patient's record.

(7) Oral and maxillofacial surgical privileges:

All patients admitted to the CHRI for oral and maxillofacial surgical care shall receive the same medical appraisal as all other hospitalized patients. Qualified oral and maxillofacial surgeons shall admit patients,

shall be responsible for the plan of care for the patients, shall perform the medical history and physical examination, if they have such privileges, in order to assess the medical, surgical, and anesthetic risks of the proposed operative and other procedure(s), and shall be responsible for the medical care that may be required at the time of admission or that may arise during hospitalization.

(8) Licensed allied health professionals:

- (a) Clinical privileges may be exercised by licensed allied health professionals who are duly licensed in the state of Ohio and who are either:
 - (i) Members of the faculty of the Ohio state university, or
 - (ii) Employees of the Ohio state university whose employment involves the exercise of clinical privileges, or
 - (iii) Employees of members of the medical staff.
- (b) A licensed allied health professional as used herein, shall not be eligible for medical staff membership but shall be eligible to exercise those clinical privileges granted pursuant to these bylaws and in accordance with applicable Ohio state law. If granted such privileges under this rule and in accordance with applicable Ohio state law, other licensed allied health professionals may perform all or part of the medical history and physical examination of the patient.
- (c) Licensed allied health professionals shall apply and re-apply for clinical privileges on forms prescribed by the medical staff administrative committee and shall be processed in the same manner as provided in rule 3335-111-04 of the Administrative Code.
- (d) Licensed allied health professionals are not members of the medical staff, shall have no authority to admit or co-admit patients to the CHRI, and shall not be eligible to hold office, to vote on medical staff affairs, or to serve on standing committees of the medical staff unless specifically authorized by the medical staff administrative committee.
- (e) Each licensed allied health professional shall be individually assigned to a clinical department and to one or more members of the medical staff.
- (f) Licensed allied health professionals must comply with all limitations and restrictions imposed by their respective licenses, certifications, or legal credentials as required by Ohio law, and may only exercise those clinical privileges granted in accordance with provisions relating to their respective professions.
- (g) Only applicants who can document the following shall be qualified for clinical privileges as a licensed allied health professional:
 - (i) Current license, certification, or other legal credential required by Ohio law;
 - (ii) Certificate of authority, standard care agreement, or utilization plan;

- (iii) Education, training, professional background and experience, and professional competence;
 - (iv) Patient care quality indicators definition for initial appointment. This data will be in a format determined by the licensed allied health professional subcommittee and the quality management department of the Ohio state university medical center;
 - (v) Adherence to the ethics of the profession for which an individual holds a license, certification, or other legal credential required by Ohio law;
 - (vi) Evidence of required immunization;
 - (vii) Evidence of good personal and professional reputation as established by peer recommendations;
 - (viii) Satisfactory physical and mental health to perform requested clinical privileges; and
 - (ix) Ability to work with members of the medical staff and the CHRI employees.
- (h) The applicant shall have the burden to produce documentation with sufficient adequacy to assure the medical staff and the CHRI that any patient cared for by the licensed allied health professional seeking clinical privileges shall be given quality care, and that the efficient operation of the CHRI will not be disrupted by the applicant's care of patients in the CHRI.
- (i) By applying for clinical privileges as a licensed allied health professional, the applicant agrees to the following terms and conditions:
- (i) The applicant has read the bylaws and rules and regulations of the medical staff of the CHRI and agrees to abide by all applicable terms of such bylaws and any applicable rules and regulations, including any subsequent amendments thereto, and any applicable CHRI policies that the CHRI may from time to time put into effect;
 - (ii) The applicant releases from liability all individuals and organizations who provide information to the CHRI regarding the applicant and all members of the medical staff, the CHRI staff and the CHRI board and the Ohio state university board of trustees for all acts in connection with investigating and evaluating the applicant;
 - (iii) The applicant shall not deceive a patient as to the identity of any practitioner providing treatment or service in the CHRI;
 - (iv) The applicant shall not make any statement or take any action that might cause a patient to believe that the licensed allied health professional is a member of the medical staff; and
 - (v) The applicant shall obtain and continue to maintain professional liability insurance in such amounts required by the medical staff.

(j) A medical staff member may employ or utilize the services on a non-licensed allied health professional, professional assistant in the administration of patient care if this assistant has a defined job description, has received credentials review and approval by the appropriate hospital reviewing body and is operating within existing standards, policies and procedures of the CHRI. The medical staff member shall be responsible for all patient care activities performed on the medical staff member's behalf.

(9) Emergency privileges:

In the case of an emergency, any member of the medical staff to the degree permitted by the member's license and regardless of department or medical staff status shall be permitted to do everything possible to save the life of a patient using every facility of the CHRI necessary, including the calling for any consultation necessary or desirable. After the emergency situation resolves, the patient shall be assigned to an appropriate member of the medical staff. For the purposes of this paragraph, an "emergency" is defined as a condition that would result in serious permanent harm to a patient or in which the life of a patient is in immediate danger and any delay in administering treatment would add to that danger.

(10) Disaster privileges:

Disaster privileges may be granted by the medical director or his or her designee to fully licensed, qualified individuals who at the time of the disaster are not members of the medical staff in order to provide voluntary services during a local, state, or national disaster in accordance with hospital/medical staff policy. The director of medical affairs may seek the recommendation of the chief of the clinical department or the section chief. These privileges will be limited in scope and will terminate once the disaster situation subsides or at the discretion of the director of medical affairs.

(11) Telemedicine:

Telemedicine involves the use of electronic communication or other communication technologies to provide or support clinical care at a distance. Diagnosis and treatment of a patient may now be performed via telemedicine link.

(a) A member of the medical staff who wishes to utilize electronic technologies (telemedicine) to render care must so indicate on the application for clinical privileges form.

(b) Generally, a member of the medical staff will be entitled to the same clinical privileges via telemedicine for which he has been granted privileges. The credentials committee, the chief of the clinical service, the director of medical affairs or the medical staff administrative committee shall have the prerogative of requiring documentation or making a determination of the appropriateness of the exercise of a particular specialty/subspecialty via telemedicine.

TO BE RESCINDED

3335-111-08 Organization of the CHRI.

(A) ~~The senior executive director.~~

(1) ~~Method of appointment:~~

~~The senior executive director shall be appointed by the board of trustees of the Ohio state university upon recommendation of the president, senior vice president for health sciences, and the vice president for health services following consultation with the CHRI board in accordance with university bylaws, rules and regulations. The senior executive director shall also be the chief executive and operating officer of the CHRI and shall be a member of the attending medical staff of the CHRI.~~

(2) ~~Responsibilities:~~

~~The senior executive director shall be responsible for the conduct of teaching, research, and CHRI service activities of the facility, including continuing compliance with all appropriate quality assurance standards, ethical codes, or other monitoring or regulatory requirements. The senior executive director shall be the chairperson of the medical staff administrative committee and shall be a member of all committees of the CHRI.~~

(B) ~~The director of medical affairs.~~

(1) ~~Method of appointment:~~

~~The director of medical affairs shall be appointed by the senior vice president for health sciences upon recommendation by the senior executive director. The director of medical affairs shall be the chief medical officer of the CHRI and shall be a member of the attending medical staff of the CHRI.~~

(2) ~~Responsibilities:~~

~~The director of medical affairs shall be responsible to the senior executive director, the medical director of the Ohio state university health system, and the CHRI board for the quality of patient care provided in the CHRI. The director of medical affairs shall assist the senior executive director in the administration of medical affairs including quality assurance and credentialing.~~

(C) ~~The sections.~~

~~Each member of the attending, associate attending, clinical, limited, and honorary staff shall be assigned to a CHRI section by the senior executive director upon the recommendation of the appropriate academic department chairperson and the credentials committee.~~

~~There are four clinical sections: medical oncology, surgical oncology, radiation oncology and pathology. Appointment to a specific section is based on the clinical specialty of the applicant for medical staff membership. Each section is headed by a section chief who has the responsibility to oversee all research and clinical activities conducted by members of the section. Specifically, the section chief shall be responsible for the following: the development and implementation of policies and procedures that guide and support the provision of service; recommendations re: staffing needs and clinical privileges for all members~~

~~appointed to the section; the orientation and continuing surveillance of the professional performance of all section members; recommendation for space and other resources needed. The section chief is appointed by the senior executive director.~~

~~(D) Chairs of the departments.~~

~~Departmental chairpersons are appointed by the dean of the college of medicine and public health and participate in the processing of applications for appointment and reappointment to the medical staff pursuant to these rules, including the development of criteria for granting of clinical privileges. The academic department chairperson participates in the evaluation of the professional growth and appropriate humanistic qualities of members of the limited staff and reviews the clinical performance, including the physical and mental health of all medical staff members and other licensed health care professionals. (B/T 9/1/93, B/T 3/3/96, B/T 12/6/96, B/T 12/3/99, B/T 4/5/2002, B/T 9/6/2002, B/T 2/6/2004, B/T 11/4/2005)~~

NEW RULE

3335-111-08 Organization of the CHRI medical staff.

(A) The senior executive director.

(1) Method of appointment:

The senior executive director shall be appointed by the board of trustees of the Ohio state university upon recommendation of the president, senior vice president for health sciences, and the vice president for health services following consultation with the CHRI board in accordance with university bylaws, rules and regulations. The senior executive director shall also be the chief executive and operating officer of the CHRI and shall be a member of the attending medical staff of the CHRI.

(2) Responsibilities:

The senior executive director shall be responsible for the conduct of teaching, research, and CHRI service activities of the facility, including continuing compliance with all appropriate quality assurance standards, ethical codes, or other monitoring or regulatory requirements. The senior executive director shall be the chairperson of the medical staff administrative committee and shall be a member of all committees of the CHRI.

(B) The director of medical affairs.

(1) Method of appointment:

The director of medical affairs shall be appointed by the senior vice president for health sciences upon recommendation by the senior executive director. The director of medical affairs shall be the chief medical officer of the CHRI and shall be a member of the attending medical staff of the CHRI.

(2) Responsibilities:

The director of medical affairs shall be responsible to the senior executive director, the medical director of the Ohio state university health system, and the CHRI board for the quality of patient care

provided in the CHRI. The director of medical affairs shall assist the senior executive director in the administration of medical affairs including quality assurance and credentialing.

(C) The sections.

Each member of the attending, associate attending, clinical, limited, and honorary staff shall be assigned to a CHRI section by the senior executive director upon the recommendation of the appropriate academic department chairperson and the credentials committee.

There are four clinical sections: medical oncology, surgical oncology, radiation oncology and pathology. Appointment to a specific section is based on the clinical specialty of the applicant for medical staff membership. Each section is headed by a section chief who has the responsibility to oversee all research and clinical activities conducted by members of the section. Specifically, the section chief shall be responsible for the following: the development and implementation of policies and procedures that guide and support the provision of service; recommendations re: staffing needs and clinical privileges for all members appointed to the section; the orientation and continuing surveillance of the professional performance of all section members; recommendation for space and other resources needed. The section chief is appointed by the senior executive director.

(D) Clinical department chair.

(1) Qualifications and responsibilities of the chief of the clinical department. The academic department chair shall ordinarily serve also as the chief of the clinical department. Each clinical department chief shall be qualified by education and experience appropriate to the discharge of the responsibilities of the position. Each clinical department chief must be board certified by an appropriate specialty board or must establish comparable competence. Such qualifications shall be judged by the respective dean of the colleges of medicine or dentistry. Qualifications for chief of the clinical department generally shall include recognized clinical competence, sound judgment and well-developed administrative skills.

(2) Procedure for appointment. Appointment or reappointment of chief of the clinical department shall be made by the dean of the respective colleges of medicine or dentistry in consultation with elected representatives of the medical staff and the medical director of the Ohio state university health system.

(3) Term of appointment of the chief of the clinical department. The term of the appointment of the chief of the clinical department shall be concurrent with the chief's academic appointment but shall be no longer than four years. Prior to the end of said four-year term, a review shall be conducted by the dean of the college of medicine and such review shall serve as the basis for the recommendation for reappointment pursuant to paragraph (D)(2) of this rule.

(4) Duties of the chief of the clinical department:

Each department chief shall:

(a) Be accountable for all clinical professional and administrative activities within the clinical department.

(b) Maintain continuing review of the professional performance of all medical staff members and other licensed allied health

professionals with clinical privileges within the clinical department. Determine the qualifications and competence of all personnel who are not independent practitioners who provide patient care within the clinical department. Provide for the orientation and continuing education of all persons in the clinical department.

- (c) Conduct a periodic review, at least every four years, of the clinical performance of each clinical division director.
- (d) Make recommendations to the credentials committee regarding the criteria for membership on the medical staff and for the delineation of clinical privileges in the clinical department and continuously review at least biennially, the clinical privilege delineation form for adjustments to services.
- (e) Review the clinical performance including the physical and mental health of all medical staff members and other licensed allied health professionals of the clinical department in accordance with these bylaws and make recommendations for appointment and reappointment to the medical staff and for clinical privileges for each medical staff member of the clinical department.
- (f) Be responsible for the enforcement within the clinical department of these bylaws, rules and regulations of the CHRI.
- (g) Be responsible for the maintenance of quality control programs and assure that the quality and the appropriateness of patient care within the clinical department is continually monitored and evaluated according to the clinical department's and the CHRI's quality criteria.
- (h) Hold monthly clinical department meetings. The agenda for the meetings shall include, but not be limited to, a discussion of the clinical activities of the department. Minutes of the departmental meetings, including a record of attendance, shall be kept in the clinical department and the medical director of the Ohio state university health system's office.
 - (i) Develop and implement policies that guide and support the provision of department services and make recommendations on the proper number of qualified and competent persons needed to provide care within the service needs of the clinical department.
 - (j) Provide for the integration of the clinical department and its services into the primary functions of the CHRI and coordinate interdepartmental and intradepartmental services.

AMENDED RULES

3335-111-10 Administration of the medical staff of the CHRI.

Medical staff committees.

- (A) Unchanged.
- (B) Medical staff administrative committee:
 - (1) Unchanged.

(2) Duties:

(a) through (d) unchanged.

(e) To fulfill the medical staff's accountability to the CHRI board for medical care rendered to patients in the CHRI, and for professional conduct and activities of the medical staff, including recommendations concerning;

(i) through (iv) unchanged.

(v) Corrective action and hearing procedures applicable to medical staff members and other licensed allied health ~~care~~ professionals granted clinical privileges.

(f) through (m) unchanged.

(3) and (4) unchanged.

(C) ~~Credentials~~ Health system credentialing committee:

(1) Composition:

The credentialing responsibilities of the medical staff are delegated to the Ohio state university health system credentialing committee, the composition of which shall include representation from the medical staff of each health system hospital.

The chief medical officer of the health system shall appoint the health system credentialing committee. The chief of staff and director of medical affairs or medical director of each health system hospital shall make recommendation to the chief medical officer for representation on the health system credentialing committee.

The health system credentialing committee shall meet at the call of its chair, whom shall be appointed by the chief medical officer of the health system.

(2) Duties:

(a) To review all applications for medical staff and licensed allied health ~~care~~ professional appointment and reappointment, as well as all requests for delineation, renewal, or amendment of clinical privileges in the manner provided in these medical staff bylaws, including applicable time limits.

During its evaluation, the health system credentialing committee will take into consideration the appropriateness of the setting where the requested privileges are to be conducted;

(b) through (d) unchanged.

(e) To make recommendations to the medical staff administrative committee through the director of medical affairs regarding appointment applications and initial requests for clinical privileges. Such recommendations shall include the name, status, department (division/section), medical school and year of graduation, residency and fellowships, medical-related employment since graduation, board certification and recertification, licensure status as well as all other relevant information concerning the applicant's current competence, experience, qualifications, and ability to perform the clinical privileges requested;

(f) through (h) unchanged.

(i) To review requests made for clinical privileges by other licensed ~~care~~ allied health professionals as set forth in this chapter.

(3) Licensed allied health professionals subcommittee:

(a) This subcommittee shall consist of licensed allied health professionals who have been appointed in accordance with paragraph (A)(3) of rule 3335-111-09 of the Administrative Code and shall also include the director of nursing who shall serve as chair of the subcommittee. The subcommittee shall include a certified nurse midwife, a certified registered nurse anesthetist, a certified nurse practitioner, a clinical nurse specialist, and other appropriate licensed allied health professionals.

(b) Duties:

(i) To review, within thirty days of receipt, all completed applications as may be referred by the health system credentialing committee;

(ii) To review and investigate the character, qualifications and professional competence of the applicant;

(iii) To review the applicant's patient care quality indicator definitions on initial granting of clinical privileges and the performance based profile at the time of renewal;

(iv) To verify the accuracy of the information contained in the application; and

(v) To forward, following review of the application, a written recommendation for clinical privileges to the health system credentialing committee for review at its next regularly scheduled meeting.

(D) Bylaws committee:

(1) Composition.

The committee shall be composed of at least four members of the attending or associate attending staff pursuant to paragraph (A)(3) of rule 3335-111-09 of the Administrative Code. The chairperson shall always be the chief of staff-elect.

(2) Unchanged.

(E) Committee for ~~physician~~ licensed independent practitioner health.

(1) Composition:

The committee shall consist of seven medical staff members appointed pursuant to these rules in accordance with paragraph (A)(3) of rule 3335-111-09 of the Administrative Code.

(2) Duties:

~~(a) To report to the medical staff leadership instances of unsafe treatment.~~

- ~~(b)~~(a) To consider issues of physician licensed independent practitioner health or impairment ~~when~~ whenever a self-referral or referral is requested to do so by the physician an affected member or another member or committee of the medical staff, CHRI hospital staff, or any other individual.
- ~~(e)~~(b) To provide appropriate ~~internal and external~~ counsel, ~~and referral for,~~ and monitoring until the rehabilitation or disciplinary process is complete and periodically thereafter, if required, to enable the medical staff member to obtain appropriate diagnosis and treatment, and to provide appropriate standards of care.
- ~~(e)~~(c) To consult regularly with the chief of staff and director of medical affairs of the CHRI ~~in monitoring the affected physician and the safety of patients until rehabilitation or any disciplinary process is complete.~~
- ~~(e)~~(d) To advise credentials and/or other appropriate medical staff committees on ~~any issues affecting the quality of patient care. To evaluate~~ the credibility of a complaint, allegation or concern, including those affecting the quality and safety of patient care.
- ~~(f)~~(e) It will be the responsibility of the chairperson of the committee to assure that all proceedings and records, including the identity of the person referring the case, are handled and ~~kept with utmost confidentiality~~ maintained in the strictest of confidence in accordance with the laws of the state of Ohio.
- ~~(g)~~(f) To educate CHRI hospital and the medical ~~staffs~~ staff about illness/ ~~and~~ impairment recognition issues, including at risk criteria specific to ~~physicians licensed independent practitioners.~~

(F) and (G) unchanged.

3335-111-14 Rules of construction.

(A) "Shall" as used herein is to be construed as mandatory.

(B) These bylaws should be construed to be gender neutral.

**MEDICAL STAFF RULES AND REGULATIONS OF THE ARTHUR G. JAMES
CANCER HOSPITAL AND RICHARD J. SOLOVE RESEARCH INSTITUTE**

AMENDED RULES AND REGULATIONS

01 ETHICAL PLEDGE.

- (A) Each member of the medical staff shall pledge adherence to standard medical ethics, including:

(1) and (2) unchanged.

(3) Refraining from delegating the responsibility for diagnosis or care of hospitalized patients to a medical or dental practitioner or other licensed healthcare professional who is not qualified to undertake this responsibility ~~and or~~ who is not adequately supervised;

(4) and (5) unchanged.

04 CONSULTATIONS.

- (A) Consultation requirements.

~~When a medical staff member identifies, in the course of treating the patient, a patient care problem~~ is identified that requires intervention during the hospital stay that is outside the medical staff member's area of training and experience, it is the responsibility of the medical staff member or his or her designee to obtain consultation by the appropriate specialist. The consultation may be ordered by the responsible medical practitioner, a member of the limited staff, or another licensed healthcare professional with appropriate clinical privileges as designated in these rules and regulations.

(B) and (C) unchanged.

05 ORDER WRITING PRIVILEGES.

- (A) Definition of "Patient Orders".

(1) A patient order(s) is a prescription for care or treatment of patients. An order can be given verbally, electronically or in writing to qualified personnel identified by category in paragraph (C) of this rule and shall be authenticated by the licensed medical practitioner, a member of the limited staff, or another licensed healthcare professional with appropriate clinical privileges. Patient orders may be given initially, renewed, discontinued or cancelled. Throughout these rules and regulations, the word "written" and its grammatical derivatives, as used to describe a non verbal order, refer to both written and electronically entered orders.

(2) Unchanged.

- (B) Responsible medical practitioner.

All patient care is the responsibility of the attending, associate attending, clinical attending, community oncologist or community associate staff. Coverage may be provided by the limited staff or another licensed healthcare professional with appropriate clinical privileges under supervision. The licensed physician, dentist, podiatrist, or psychologist or pediatrician (under medical doctor supervision) ~~member of the staff~~ with appropriate clinical privileges responsible for the hospitalization or outpatient care, and treatment of the patient is responsible for all

orders for the patient. Attending, associate attending and clinical medical staff may designate members of the limited staff, or other licensed healthcare professionals with appropriate clinical privileges to write or electronically enter orders under their direction. The attending staff member may also designate members of the pre-M.D. medical student group to write orders, but in all cases ~~the~~ these orders shall be signed by the physician, dentist, psychologist, podiatrist, or designated limited staff member who has the right to practice medicine, dentistry, psychology, or podiatry and who is responsible for that patient's care prior to the execution of the order. Supervising physicians may delegate to members of their qualified personnel the ability to relay, enter, transcribe or write orders for routine laboratory, radiologic and diagnostic studies under their direction, but, in all cases, the order shall be co-signed by the supervising physician within 24 hours of the order being written. Community oncologist attending or community associate staff coverage may be provided by the limited staff under supervision.

Patient orders written by "off-service" house officers or consultant staff must be countersigned by the responsible practitioner or his designee. Exception may be made in the event of preoperative orders or in the instance of acknowledged co-management: e.g. the intensive care unit or recovery room.

- (C) Telephone and verbal orders may be given by the responsible attending physician, dentist, podiatrist, psychologist, ~~or~~ member of the limited medical staff, or other licensed healthcare professionals with appropriate clinical privileges only to health care providers who have been approved in writing by title or category by the director of medical affairs, the director of the CHRI, and each chief of the clinical service where they will exercise clinical privileges, and only where said health care provider is exercising clinical privileges which have been approved and delineated by job description for employees of the hospital, or by the customary medical staff credentialing process when the provider is not an employee of the hospital. Lists of the approved titles or categories of providers shall be maintained by the director of medical affairs. The job description or delineated privileges for each provider must indicate each provider's authority to receive telephone or verbal orders, including but not limited to the authority to receive orders for medications. ~~the order is to be written and signed by approved health care provider to whom it is dictated or given as "verbal order by Dr. _____," or "V.O. or T.O. by Dr. _____," giving the medical licensed healthcare practitioner's name and hour~~ the time of the order, followed by the approved health care provider's signature and date, and read back in its entirety to the ordering physician, dentist, psychologist, podiatrist, or designated limited staff member, or other licensed healthcare professionals with appropriate clinical privileges. All telephone and verbal orders for DEA schedule II controlled substances, ~~patient seclusion, or patient restraint~~ must be authenticated within one (1) day by signature of a licensed physician, dentist, podiatrist, psychologist, or designated limited staff member. All telephone and verbal orders for patient seclusion and patient restraint must be authenticated within one (1) day by signature of a licensed physician, dentist, podiatrist, psychologist, designated limited staff member or other licensed healthcare professionals with appropriate clinical privileges. All other ~~inpatient~~ verbal and telephone orders must be authenticated within twenty-one (21) days of discharge or ambulatory visit by signature by a licensed physician, dentist, podiatrist, psychologist, ~~or~~ limited staff member, or other licensed healthcare professionals with appropriate clinical privileges. All ~~outpatient~~ verbal and telephone orders must be authenticated prior to or at the time of the next outpatient visit by signature of a licensed physician, dentist, psychologist, podiatrist, or limited staff member.

(D) Unchanged.

(E) Preprinted orders.

Preprinted order forms for patients must be reviewed, dated and signed by a responsible medical practitioner, a limited staff member, or other licensed healthcare professionals with appropriate clinical privileges before becoming effective.

(F) and (G) unchanged.

(H) "Transfer of clinical service" means transfer of full patient responsibility from one attending physician, dentist, psychologist or podiatrist to another; the patient may remain on the same unit or a change in patient care area may also occur. Admission of a patient from an emergency service to the hospital as an inpatient involves "transfer of clinical service."

For the purposes of order writing, two essentials of "transfer of clinical service" are necessary:

- (1) The initial transfer order must indicate the release of responsibility and control of the patient, pending acceptance by the receiving service. The order may read--"transfer (or admit) to Dr _____, Head and Neck Service."
- (2) Transfer of service may be completed only by the receiving service writing an order to the effect--"accept in transfer (or admission) to Dr _____, Head and Neck Service."

Orders effective before the transfer must be renewed or rewritten upon transfer by signature of a responsible medical practitioner, a limited staff member, or other licensed healthcare professionals with appropriate clinical privileges. The new or renewed orders may be written before or at the time of transfer, and may become effective immediately. It is the responsibility of the receiving nurse to establish the availability of new or renewed orders. If new orders are unavailable, then the nurse may continue previous orders and immediately notify the responsible medical practitioner, a limited staff member, or other licensed healthcare professionals with appropriate clinical privileges.

(I) through (L) unchanged.

10 COMMITTEES.

In addition to the medical staff committees, the medical staff shall participate in the following hospital and monitoring functions: infection control, clinical quality management, safety, and disaster planning and in other leadership council for clinical value enhancement advisory policy groups.

Medical Information Committee

(A) Unchanged.

(B) Each member of the medical staff shall conform to the policies established by the medical records committee, including the following:

- (1) Unchanged.
- (2) Deadlines and sanctions.
 - (a) through (c) unchanged.

(d) When the history and physical examination signed by the responsible medical staff member, including the results of indicated laboratory studies and x-rays, is not recorded in the chart before the time stated for a procedure, the procedure cannot proceed until the history and physical signed by the responsible medical staff member, and indicated test results are entered into the chart. In cases where such delay would likely cause harm to the patient, this condition shall be entered into the chart by the attending medical staff member or designee, and the procedure may begin. When there is a disagreement concerning the urgency of the procedure, it shall be adjudicated by the director of medical director affairs or the director of medical director's affair's designee.

(e) through (i) unchanged.

(3) Discharges.

(a) Patients shall be discharged only on written order of the responsible medical staff member, limited staff member or other licensed healthcare professional with appropriate clinical privileges. At the time of ordering the patient's discharge or at the time of next visit to the hospital, if the attending medical staff member has authorized a member of the limited medical staff to sign the order of discharge, the attending medical staff member is responsible for certifying the principal diagnosis, secondary diagnosis, principal procedure, and other significant invasive procedures in the medical record by the time of discharge. If a principal diagnosis cannot be determined in the absence of outstanding test results, the attending medical staff member must record a "provisional" principal diagnosis by the time of discharge.

(b) through (d) unchanged.

(4) through (11) unchanged.

Leadership Council for Clinical Value Enhancement (LCCVE)

The LCCVE shall consist of members appointed pursuant to the university hospital's medical staff bylaws, and shall include the senior vice president for health sciences as an exofficio member without a vote, and the director of medical affairs and chief of staff as voting members. The medical director of university hospitals shall be the chairperson of the LCCVE. The LCCVE shall authorize policy groups to be formed to accomplish necessary hospital and medical staff functions on behalf of the CHRI and university hospitals.

CHRI representatives on the LCCVE shall be appointed as provided in the CHRI ~~rule 3335-411-10 of the Administrative Code~~ bylaws.

(A) through (D) unchanged.

12 ADOPTION OF THE RULES AND REGULATIONS.

These rules and regulations shall be adopted by the Medical Staff Administrative Committee and forwarded for approval to the ~~Hospital~~ CHRI Board and The Ohio State University Board of Trustees.

Cartoon Research Library Feasibility Study

315-2006-926

Requesting Agency(s): UNIVERSITY LIBRARIES

Location(s): Wexner Center For The Arts

Gross Sq. Ft. 129,047 **Age:** 1989

Description:

The Cartoon Research Library, located in the Lower Level of the Wexner Center, is an existing 6,300 square foot library within the University Library system. The Cartoon Library is unique, as it is the largest research oriented, academic library concentrating on printed cartoon art in the United States. The library's primary mission is to develop a comprehensive research collection of materials documenting American printed cartoon art (editorial cartoons, comic strips, comic books, graphic novels, sports cartoons, and magazine cartoons) and to provide access to these collections.

This feasibility study will involve the analysis of potential sites for a new facility. This process may involve the potential for sharing new facility space with other academic units. It will be imperative to provide the associated cost estimates and timelines for the above noted options. In anticipation of the library's future growth, an outline of anticipated space needs and the creation of a general program of spaces will be required.

Project Information:

Issues:

How does this project advance the Academic Plan? This project will enhance the quality of learning and researching opportunities. Creating a designated facility will allow the Cartoon Research Library to expand its research opportunities and learning opportunities through various interdisciplinary activities. Second, this project will increase the Library's visibility on both a campus and national level. Third, the increase in space will allow the Library opportunities to store and showcase additional collections, thus providing staff, researchers and students with hands-on learning opportunities.

Veterinary Hospital Feasibility Study - Phase III

315-2004-903-2

Requesting Agency(s): VETERINARY MEDICINE ADMINISTRATION

Location(s): Veterinary Hospital

Gross Sq. Ft. 222,496 **Age:** 1973

Description:

This project, Phase III of a study, will be a continuation of Phases I and II that created the framework for the expansion of the College of Veterinary Medicine over the next 20 years. Phase I evaluated the needs for the clinical programs and the teaching hospital. Phase II expanded the analysis to add a review of teaching and research facilities. Phase III will include the completion of a strategic plan for the renovation and expansion of the existing Veterinary Hospital Building to create much needed outpatient space.

Project Information:

Initial phases of the study were not brought to the Board of Trustees because of the guidelines that were previously in place for feasibility study approvals. Phase I was originally budgeted at approximately \$174,000. An additional \$47,500 was budgeted for Phase II and Phase III is budgeted at \$60,000. Total cost for all phases is \$281,500.

Issues:

How does this project advance the Academic Plan? Updating and enlarging the Veterinary Medicine Teaching Hospital will be the first step in expanding the size and role of the College of Veterinary Medicine to meet the 21st Century needs of the State of Ohio.

9th Avenue Parking Garage Addition

315-2006-925

Requesting Agency(s): TRANSPORTATION & PARKING SERVICES

Location(s): See Project Information

Gross Sq. Ft.0 Age:

Description:

This project will construct a 1,000 car parking structure east of the existing 9th Avenue garage.

Project Information:

This project is part of the approved Medical Center Facilities Master Plan - South Campus Implementation, originally approved on November 4, 2005 by the Board of Trustees as Medical Center Facility Master Plan - Clinical Expansion Projects.

Issues:

How does this project advance the Academic Plan? Enables the Medical Center Facilities Master Plan, which will support continued clinical, teaching and research missions at Ohio State.

Outstanding Funding Issues: Transportation and Parking is responsible for the 9th Avenue parking structure and their funding is available in 2011. In order to maintain the Medical Center Master Plan Implementation schedule, the Medical Center will fund this project until Transportation and Parking's funding is received.

Timing Issues: Short construction time, fast track schedule and potential coordination with construction of other infrastructure projects that are a part of the Medical Center Facilities Plan.

"Ripple effects" of the project: The short term loss of surface parking will be made up by the Medical Center Express Bus Service in conjunction with the renovation of the existing 9th Avenue parking garage and paving the surface lot west of Cannon Drive.

Special limitations/risks: None.

ATI - Equine Storage Facility

315-2006-923

Requesting Agency(s): ATI - HORSE

Location(s): See Project Information

Gross Sq. Ft.0 Age:

Description:

This project will involve the addition of a new pole barn for the storage of equipment used in the maintenance of the equine program, specifically for the handling of feed, sawdust and manure. The structure is estimated to add approximately 2,900 square feet.

Project Information:

The new pole barn will be located north of the Equine Center.

Issues:

How does this project advance the Academic Plan? The Horse Technology program is the third largest degree-granting program at ATI. This project will provide for separate equipment storage in the vicinity of the existing equine facilities.

Outstanding Funding Issues: None

Larkins Hall - Condensate Piping Replacement

315-2005-937

Requesting Agency(s): PHYSICAL FACILITIES

Location(s): Unidentified Utility, Col.

Gross Sq. Ft.0 Age:

Description:

This project will replace the steam condensate line between Larkins Hall (RPAC) and Neil Avenue Parking Garage. This project includes asbestos abatement, removal of existing steel piping from the Utility tunnel and approximately 670 linear feet of new piping.

Project Information:

Issues:

How does this project advance the Academic Plan? The project will provide increased reliability and maintenance access to the steam condensate line between Larkins Hall and Neil Avenue Parking Garage.

Outstanding Funding Issues: None

Timing Issues: Construction work needs to be done during the summer cooling season.

"Ripple effects" of the project: None

Stillman Hall Third Floor Renovation

315-2006-922

Requesting Agency(s): SOCIAL WORK

Location(s): Stillman Hall, Charles C.

Gross Sq. Ft. 67,287 **Age:** 1937

Description:

This project will renovate 3,700 sq ft on the third floor of Stillman Hall for the College of Social Work. The faculty offices in this area support student appointments, recruiting and development opportunities. The renovation will include abatement of hazardous materials; installation of new walls, acoustical ceiling, lighting, window treatments and flooring; painting; update of electrical and data/communication systems; and reconfiguration of a reception area.

Project Information:

Formerly Project #50700-R050085.

Issues:

How does this project advance the Academic Plan? This project will help to better serve and support the student body and to improve the work environment.

Outstanding Funding Issues: None

Timing Issues: This project will be completed over the summer months in order to minimize impact to the students and their families.

"Ripple effects" of the project: None

Special limitations/risks: None

West of Cannon Drive Chiller Plant (MCFP)

315-2005-993-5

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): See Project Information

Gross Sq. Ft.0 Age:

Description:

This project will construct a chilled water plant to support the Medical Center Facilities Plan, South Campus Implementation.

Project Information:

This project is part of the approved Medical Center Facilities Plan - South Campus Implementation, originally approved on November 4, 2005 by the Board of Trustees as Medical Center Facility Master Plan - Clinical Expansion Projects. This project will be sited in the transitional zone, with approximate borders of the Olentangy River on the west; Neil Ave. on the east; 12th Avenue on the north and 10th Ave. on the south.

Issues:

How does this project advance the Academic Plan? Enables the Medical Center Facilities Plan, which will support continued clinical, teaching and research missions at Ohio State.

Outstanding Funding Issues: None

Timing Issues: Short construction time, fast track schedule and coordination with construction of other projects in the Medical Center Facilities Plan.

"Ripple effects" of the project: None

Special limitations/risks: None

West of Cannon Drive Parking Garage (MCFP)

315-2005-993-4

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): See Project Information

Gross Sq. Ft.0 Age:

Description:

This project will provide a 600 car parking garage west of Cannon Drive.

Project Information:

This project is part of the approved Medical Center Facilities Plan, originally approved on November 4, 2005 by the Board of Trustees as Medical Center Facility Master Plan - Clinical Expansion Projects. This project will be sited in the transitional zone, with approximate borders of the Olentangy River on the west; Neil Ave. on the east; 12th Avenue on the north and 10th Ave. on the south.

Issues:

How does this project advance the Academic Plan? As part of the Medical Center Facilities Plan the parking garage will provide the needed accessibility for increased staff to support the continued clinical teaching and research missions at Ohio State.

Outstanding Funding Issues: None

Timing Issues: Short construction time, fast track schedule and coordination with construction of other projects in the Medical Center Facilities Plan.

"Ripple effects" of the project: None

Special limitations/risks: None

9th Avenue Parking Garage Renovation

315-2005-995

Requesting Agency(s): TRANSPORTATION & PARKING SERVICES

Location(s): Parking Garage F (9th Ave)

Gross Sq. Ft. 369,421 **Age:** 1980

Description:

This project will include structural concrete renovation and repairs, and upgrades to electrical and lighting systems for the parking garage.

Project Information:

Preliminary project budget was \$2,000,000 - \$4,000,000.

Formerly Project #50700-R040037

Issues:

How does this project advance the Academic Plan? Renovation and repairs to the 9th Avenue Parking Garage will keep the structure operable for the foreseeable future. The garage will provide additional parking for faculty and staff.

Outstanding Funding Issues: None

Timing Issues: Major renovation needs to start by early September, 2006 in order to re-open garage by January, 2007. Work is temperature dependent and final traffic coating will be applied in Summer 2007.

"Ripple effects" of the project: None

Special limitations/risks: None

DESMAN ASSOCIATES - Design

930 Kinnear Road - Heavy Duty Dynamometer Control

315-2005-1000

Requesting Agency(s): CENTER FOR AUTOMOTIVE RESEARCH

Location(s): Kinnear Road, 930

Gross Sq. Ft. 38,172 **Age:** 1961

Description:

This project will provide electrical power connection to a dynamometer control, which is used for measuring force or power on automotive equipment, and an indoor fence enclosure of related research equipment for the Center for Automotive Research.

Project Information:

BOR Action Funds are no longer available for this project. The project will be funded entirely with Engineering Department funds.

During the design process the budget increased by 3% due to the escalation in cost for wire and copper. The Department has agreed to fund the increase to the budget.

Formerly Project #50700-R050100

Issues:

How does this project advance the Academic Plan? These infrastructure upgrades will enable the College to continue its standing as a leader in automotive research.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Special limitations/risks: None

ATI - Apple Creek Farm Water Distribution System

315-2005-913

Requesting Agency(s): ATI-ADMINISTRATIVE SUPPORT

Location(s): See Project Information

Gross Sq. Ft.0 Age:

Description:

This project will establish a new water source for ATI farms and new distribution piping. The new system will provide water to the Horticulture Department Nursery, the Cow Calf Barn, and the Swine Isolation Barn.

Project Information:

This project was previously approved for bidding, however it was placed on hold by ATI while the University considered if it would accept the Apple Creek Developmental Center (ACDC) from the State of Ohio. The delay gave us time to develop a more comprehensive water plan which resulted in a budget increase. The additional funds have come from HB 16 ATI Basic Renovation.

Issues:

How does this project advance the Academic Plan? The project will provide water for the animals on the teaching farms.

Outstanding Funding Issues: None

Timing Issues: It is important to have the distribution piping in the ground prior to winter freeze.

"Ripple effects" of the project: None

Special limitations/risks: None

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion

WE MONKS & CO - Design

Biological Sciences Building 6th Floor Renovation

315-2003-942

Requesting Agency(s): BIOLOGICAL SCIENCES ADMINISTRATION

Location(s): Biological Sciences Building

Gross Sq. Ft. 182,129 **Age:** 1970

Description:

This project will involve the renovation of laboratory space on the 6th floor of the Biological Sciences Building. Work includes: new lab equipment to include peninsula lab benches with sinks, fume hoods, plumbing, electrical upgrades, communication wiring, painting, asbestos removal and new lay-in ceiling with fluorescent lighting.

Project Information:

Preliminary project estimate was \$1,070,000 - \$1,080,000. Revised project estimate is \$2,726,318.00. Project budget increase due to increase of square footage from 9,200 to 14,000 square feet, and to include classroom pool. This project will also include abatement; demolition; and mechanical for the entire floor, including a complete fit out of the shell spaces with lab equipment and furnishings.

Issues:

How does this project advance the Academic Plan? The renovation will allow the College of Biological Sciences to recruit, develop and offer quality research laboratory space for research and instruction advancement.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: The construction of this project cannot commence until completion of the Biomedical Research Tower (BRT) occurs because the current occupants will relocate out of Biological Sciences building and into the BRT. The classrooms for the College and Classroom pool will be back on-line for Fall Quarter, 2007.

Special limitations/risks: None

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion

Clinical Space Reorganization - Rhodes/Doan Endovascular-Suite 4

315-2001-911-25

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): Doan Hall, Charles Austin

Gross Sq. Ft. 669,869 **Age:** 1951

Location(s): Rhodes Hall-University Hospital

Gross Sq. Ft. 510,587 **Age:** 1979

Description:

The project will provide a new Endovascular Operating Room and satisfy the Hospital's need for a large multi-purpose procedure space by renovating the existing operating room on the fourth floor of Doan/Rhodes Hall.

Project Information:

Issues:

How does this project advance the Academic Plan? This project will advance the Academic Plan by providing the needed support for the continued clinical, teaching and research missions at The Ohio State University.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Special limitations/risks: Utility outages related to the project and downtime of existing operating room.

COLLINS GORDON BOSTWICK ARCHITECTS - Design

Mansfield Campus - Ovalwood Hall Renovation

315-2004-922

Requesting Agency(s): MANSFIELD CAMPUS

Location(s): Twelfth Avenue

Gross Sq. Ft. 96,592 **Age:** 1966

Description:

This project will reconfigure and restore the interior of Ovalwood Hall on the Mansfield Campus. The project will include updated classrooms with technologically advanced capabilities, art rooms with improved lighting and equipment, a writing center with new computers and teaching areas, a multi-media lab, dark room, computer labs, psychology testing rooms, larger faculty offices, staff offices and lounge space. The project includes replacement of the HVAC and plumbing systems and upgrades to meet current codes and standards.

Project Information:

The budget increase is due to additional scope requested by the users, which includes a student commons area and abatement of hazardous materials, as well as escalation of material costs since the time of the original budget estimate in 2002. OSU Mansfield will fund these additional costs.

Issues:

How does this project advance the Academic Plan? The Mansfield Ovalwood Hall project advances the academic plan by enhancing the learning and teaching environments for the students and faculty at the regional campus. The total building renovation will include updated classrooms with technologically advanced capabilities, art rooms with improved lighting and equipment, a writing center with new computers and teaching areas, a multi-media lab, dark room, computer labs, psychology testing rooms, larger faculty offices, staff offices and lounge space.

The cyber cafe is a multi-purpose space that will be available for everyone to use. It will house a small coffee/food vendor and will have flexible seating areas for studying, meetings, or special functions. Since the Mansfield student body is composed primarily of commuter students, the cyber cafe will provide a much needed space for students to study, get a snack, or just hang out between classes.

Martha Morehouse Medical Plaza - Second Floor Clinic in Pavilion

315-2004-905-8

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): Morehouse Medical Plaza-Pavilion

Gross Sq. Ft. 162,352 **Age:** 1983

Description:

This project will renovate the General Internal Medicine Department and Residence program. It involves the demolition and new tenant fit-out of an existing space located on the second floor of the Morehouse Pavilion Building. Requirements include waiting, reception, business, office, patient records, staff conference, faculty offices and patient care support.

Project Information:

This is a component of the \$13M Outpatient Services - 2050 Kenny Road project previously approved by the Board of Trustees on March 5, 2004.

Issues:

How does this project advance the Academic Plan? The project will bring multiple medical specialists together at one location where complex medical treatment options and research can be developed.

Outstanding Funding Issues: None

Timing Issues: The existing locker rooms will be relocated as an enabling project to make room for the General Internal Medicine Department. This enabling project will begin in June of 2006.

"Ripple effects" of the project: None

Special limitations/risks: None

Gross Sq. Ft. 80,879 **Age:** 1968

Description:

This project will replace the existing mailroom and renovate the existing graduate teaching associates work area. It will create three new offices and a smaller, more efficient mailroom.

Project Information:

During the planning stages the scope was modified to include a new HVAC system due to the age and configuration of the old system, resulting in a project budget increase. The College of Nursing has agreed to fund the increase to the budget.

Issues:

How does this project advance the Academic Plan? This renovation will provide new office space for additional faculty and staff necessary for the continued growth of the College of Nursing.

Outstanding Funding Issues: None

Timing Issues: Project must be completed by September 13, 2006.

"Ripple effects" of the project: None

Special limitations/risks: None

Project Manager: Ruth Miller (miller.2495@osu.edu)

Project Coordinator: Faye Bodyke (bodyke.3@osu.edu)

Requesting Agency(s): STUDENT AFFAIRS, OFFICE OF

Location(s): Twelfth Avenue

Description:

The existing Ohio Union will be completely demolished and replaced with a new facility on the existing Union site. Project includes approximately 285,705 gsf of new construction, 220,782 gsf demolition of existing building, resulting in 66,503 gsf added to the university inventory

Project Information:

The Ohio Union project has increased by \$15 million as a result of 4 major components. (1) Escalation: The original project budget assumed a midpoint of construction in 2007; that date has now been pushed back to 2008 adding another year of inflation. Additionally, the construction industry has experienced an exceptionally high rate of inflation in the past year due to spikes in fuel costs, material availability and what is being termed the "Katrina factor." (2) Extraordinary Site Utility Relocations: After the project design commenced, it was discovered that major city sewer lines would be required to be relocated as part of this project. This cost was not previously anticipated. (3) LEED Certification - The project is seeking LEED Certification for sustainable design and is currently registered with the U.S. Green Building Council. This will have additional upfront project costs, but will decrease the life cycle costs for the facility. (4) Building Grossing Factor: The original feasibility study identified a grossing factor that proved to be insufficient to achieve the desired program objectives and design elements for the new facility. The larger grossing factor added square footage to the overall building footprint, but it was required to achieve the desired level of quality.

To address these cost factors, the project team has worked extensively to mitigate the budget increase by reducing or eliminating programmed space, revising material selections and simplifying design features. The reductions to the project scope are continually being considered to manage the costs.

June 23, 2006

Ms. Jo Ann Davidson
JAD and Associates, LLC
37 West Broad Street, Ste. 970
Columbus, OH 43215

Dear Jo Ann:

The purpose of this letter is to follow up the discussion we had at the June 2 Fiscal Affairs meeting regarding an appropriate site for the Ohio Union. We appreciate the Committee's suggestions regarding the use of private developers and alternative sites, and we did re-examine our plans with that in mind. Although there could be some benefits to the High Street revitalization effort if the Ohio Union were moved to the east side of High Street, there are several significant disadvantages which would make such a change inadvisable. After weighing both options, we feel that it is in the University's best interest to proceed with the project at the current site. Our principal reasons are as follows:

1. The Union site requires about 5.4 acres. The largest site now owned by the University or Campus Partners is 0.8 acres. Acquiring additional land of the needed size would involve the assemblage of several blocks of High Street and would most likely require the use of eminent domain because of the highly fragmented nature of the ownership. Such a land assemblage could also dislocate many local business, present community relations issues, and require a significant investment of time and money (Gateway assemblage consumed 4 years and approximately \$20 million for the 7.5-acre site). Further, based upon the urban design work undertaken to date, a building of the scale of the proposed Union would be very difficult to integrate into the urban fabric east of High Street
2. Although private developers have a great deal of experience with the development of housing and office facilities, college student unions are specialized facilities designed to support a wide array of programs, events, services, and involvement opportunities complementing the academic experience. Such specialized types of design and construction projects are far less common in the market place and would attract fewer bidders and involve a greater risk to the University.
3. Our legal counsel has advised us that the funding sources, uses, and land ownership of the proposed Union will trigger applicable statutory construction procurement processes, which means the use of multiple prime contractors and the provision of prevailing wage requirements. Such requirements consume a significant portion of the cost advantages offered by a more privatized construction model.
4. The current site is located on major pedestrian and campus bus routes and has unique affinities regarding proximity to residence halls, classrooms, parking, and outdoor programming space (e.g., Mirror Lake Hollow), that likely are not available elsewhere.

It should be noted that the proposed location of the new Union does front onto High Street, and it is expected to draw significant student traffic to the High Street area and to Gateway.

Design efforts have been made to ensure that the new Union will better engage High Street and will help activate pedestrian activity in the area. Programmatic components have been coordinated with Campus Partners.

5. The Ohio Union accounts for 8% of the University's facilities deferred maintenance problem. Delays in moving forward with this project will necessitate additional spending on short term repairs that do not have lasting value for the University.

For these reasons we recommend the project be approved to proceed to construction at the July Board meeting

We believe exploration of developer-built facilities has merit in other situations (for example, we have just completed a very successful office building for University Development), and we will be prepared to discuss those with the Committee at your convenience. We are also working on modifying our site selection process for office, retail and housing projects to incorporate a review of off campus and developer options at the earliest stage in the process.

I hope this is helpful to you. If we can provide any additional information, please let me know.

Sincerely,

William J. Shkurti

Kennedy Commons HVAC Installation

315-2005-902

Requesting Agency(s): STUDENT AFFAIRS, OFFICE OF

Location(s): Kennedy Commons, June L

Gross Sq. Ft. 37,233 **Age:** 1939

Description:

This project will provide for the installation of a complete air conditioning system to serve the four main dining areas, kitchen areas, offices, dry storage and staff areas.

Project Information:

Project budget was initially increased to include cost for full extent of program requirements. Bids received were over the budget estimate, due to material escalation and the current bidding climate. The revised construction estimate includes alternates to extend replacement of the chilled water system that Student Affairs has agreed to fund that were not included in the original estimate.

Student Affairs will fund all additional costs.

Issues:

How does this project advance the Academic Plan? Installation of a comprehensive HVAC system for a commons area will provide building wide cooling and will enhance the quality of the space for faculty, students and staff.

Outstanding Funding Issues: None

Timing Issues: Construction work causing minimal impact to building occupants will take place between October 2006 and May 2007. Construction that will cause major impact to the building occupants will be completed during summer quarter 2007 when sections of the building will be shut down.

"Ripple effects" of the project: None

Special limitations/risks: None

Marion Campus - Morrill Hall 1st Floor Rehabilitation

315-2004-920

Requesting Agency(s): MARION CAMPUS

Location(s): Morrill Hall, James Lewis

Gross Sq. Ft. 73,528 **Age:** 1968

Description:

This project will renovate approximately 8,043 assignable square feet from administrative offices and office support spaces into faculty offices, office support space, classrooms and a new student lounge. The project will also upgrade current restrooms and elevator to meet ADA requirements.

Project Information:

The project budget increased during design to include a new student lounge and to make significant upgrades to the MEP systems. Marion Campus has provided additional funding for all budget increases.

Issues:

How does this project advance the Academic Plan? This project will add needed learning space, provide enhanced student interaction space and improve the environmental quality of the building for faculty and students.

Outstanding Funding Issues: None

PURCHASE OF REAL PROPERTY

1615 HIGHLAND STREET
COLUMBUS, OHIO 43201

Background

Location and Description

The University has been presented the opportunity to purchase improved real estate located at 1615 Highland Street, Columbus, Ohio 43201. The property, owned by C&A Properties and Renovations LLC, is located on the west side of Highland Street between 10th and 11th Avenues, is in the South Campus Acquisition Area, and is adjacent to other properties owned by the University. The subject property contains approximately 0.164 acres, improved with a three-story apartment building, containing nine one-bedroom units, and 12 off-street parking spaces. Because of the close proximity to campus buildings and classrooms, the property has experienced minimal vacancy.

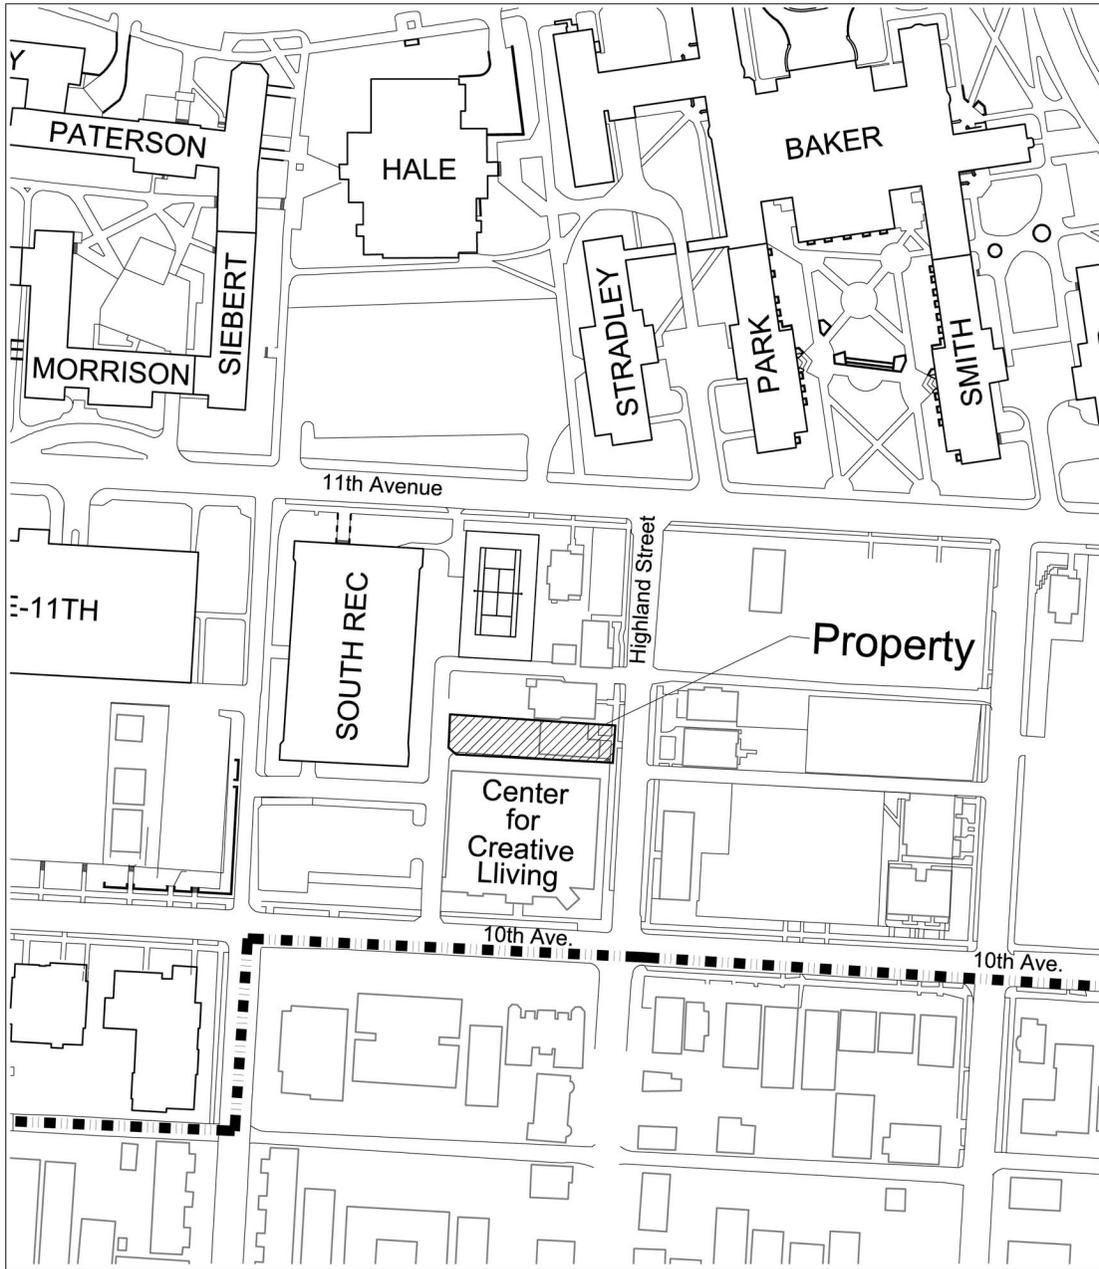

Appraisals and Purchase Price

MAI appraisals conducted in May and June 2006 by Ralph Berger & Associates and Arnold & Associates value the property at \$375,000.00 - \$385,000.00. The negotiated purchase price for the property is \$380,000.00.

Use of the Property

In the near term, the property would continue to be operated as student housing while a thorough assessment of University needs can be completed.

Office of Business and Finance / Board of Trustees Meeting

July 7, 2006

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
FISCAL AFFAIRS COMMITTEE**

JULY 7, 2006

Topic:

Parking Plan for the Medical Center

Context:

As part of the Medical Center master planning process, a plan has been developed to meet parking needs in the Medical Center, consistent with the University's overall parking and facilities master plan.

This plan needs to move expeditiously in order to address growing capacity problems in the Medical Center.

Recommendations:

The parking plan is attached (Attachment A). It includes three new garages and use of an existing remote surface lot.

Business and Finance recommends approval of the sites indicated (Attachment B), contingent on the resolution of a series of issues (Attachment C).

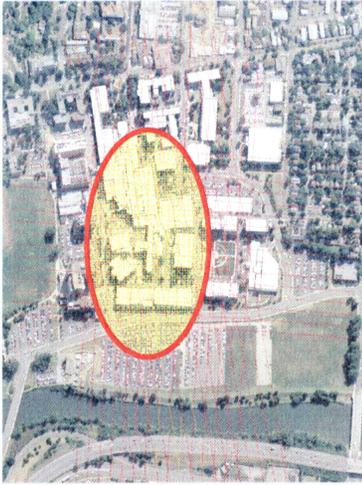

Considerations:

- Is this consistent with University and Medical Center facility plans?
- Have the appropriate issues been raised? How can these issues best be addressed?
- Are the siting recommendations appropriate?
- What is the financial impact on the Medical Center and the University?
- Who else should be consulted?

Requested of the Fiscal Affairs Committee:

Recommend approval of the Plan, including the siting of the facilities noted, to the Board of Trustees. Approval would be contingent on the resolution of outstanding issues outlined in Attachment C of this document, as determined by the Senior Vice President for Business and Finance and the Senior Vice President for Health Sciences, in consultation with the Chair of the Fiscal Affairs Committee and that they report on resolution of these issues at the September meeting of the Committee.

Memo

Date: June 9, 2006
To: Bill Shkurti
From: Laura Shinn
Subject: Medical Center Master Plan Phase I Implementation
Parking Plan Garage Site Recommendations

Facilities To Be Sited

The implementation of phase I of the Medical Center Master Plan will create an additional parking demand of 1689 spaces. The phase I parking plan proposes to provide these spaces in three garages and a remote surface lot with a shuttle. In addition, a total of 1089 spaces will be lost through replacement of parking with other structures, and the replacement of surface lots with parking structures. The chart below summarizes the increased demand, projected loss of parking and the proposed new spaces:

	Patient/visitor	Faculty/staff/student	Total
Increased Demand	544	1145	1689
Parking Lost	0	1089	1089
Total Need	544	2234	2778
Added Parking	600	2200	2800

Significant Criteria

The Medical Center Facilities Master Plan, approved by the Board of Trustees in September of 2005, identified seven possible sites for parking garages, and one site for surface parking (see attached map). These sites were identified through a collaborative planning process, which began with a review of parking garage sites recommended in other master plans, and were evaluated based on two primary criteria:

- Provide patient/visitor parking in central locations, proximate to clinical facilities, and faculty/staff/student parking in peripheral or remote shuttle locations.
- Site additional parking supply, especially patient/visitor parking, where it can be constructed before construction of the facilities begin, in order to minimize disruption of patient/visitor access during construction.

Thus, the primary criteria for siting the phase I garages include:

1. Proximity to inpatient and outpatient facilities for patient/visitor parking

Sites 1, 5, and 8 meet this criteria. Site 8 is located the most proximate to the new center of clinical activity and will be used for patient/visitor parking. Sites 1 and 5 are more peripheral and will be used for staff parking, freeing up more proximate existing garages, including the North Cannon and 12th Avenue garages for patient/visitor use. Additional faculty/staff/student parking will be provided at the remote Buckeye lots with a shuttle.

2. Availability of site for immediate use

Sites 1 and 5 are the most immediately available. These sites do not require demolition of existing structures and their current use is parking which can be offset in the new garages.

The main availability issue with site 8 is identifying a replacement location for the Spirit of Women Park. The planning team has identified four potential sites which are all consistent with and have the potential to enhance the Medical Center Master Plan urban design strategy. These four sites will be discussed with the donors, and a replacement site will be selected.

The remote Buckeye shuttle lot is immediately available and has excess capacity.

Additional criteria include:

1. Conformance with various master plans, including the South Campus District Plan (SCDP), the 1998 Transportation and Parking Master Plan (T&P Plan), and the Medical Center Facilities Master Plan (MCFMP).
 - Site #1 is identified as a potential parking structure/deck site in the SCDP, the T&P plan, and the MCFMP.
 - Site #5 is identified in the SCDP and the MCFMP.
 - Site #8 is identified in the SCDP and the MCFMP.
 - The only other sites identified in the SCDP were #2, and #6.
 - The only other site identified in the T&P Plan was site #2
 - All 8 sites were identified in the MCFMP
2. Lack of competing uses for the sites

A competing use for site 8 is discussed above under availability, and is being addressed.

Potential competing uses for site 1 include its possible use for a utility plant and faculty and medical office buildings. Site 1 has capacity for a Utility plant and two office buildings located above or adjacent to a parking deck.

Sites 2 and 6 do not have significant competing uses, but are remote from Phase 1 development. Competing uses for other sites include: an existing building for site 3, and a recently landscaped green space and entry to the current hospital entrance for site 4.

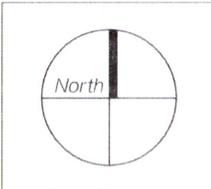

Recommendation

Because sites 1, 5, and 8 best meet the primary criteria for locating phase I garages, and because availability can be managed, Approval of garages on the following sites:

- 1000 car faculty/staff/student garage on Site 5 (9th Avenue garage expansion)
- 600 car faculty/staff/student garage on Site 1 (West of Cannon North)
- 600 car patient/visitor garage (phase I) on Site 8 (Spirit of Women Park)

Because it provides a potentially expedient solution, approval of 600 faculty/staff/student spaces at the remote Buckeye Lot with a shuttle.

Medical Center Master Plan - Potential Garage/Parking Sites

CAMPUS

Dear Fred:

The purpose of this memo is to follow-up our previous conversations regarding OSUMC's proposal to bring forward a parking strategy for the Medical Center. I received the parking plan from Eric Kunz on Friday, May 26, and Kathy Dillow and I met with Eric and John Stone on May 30. Eric and John promised to get me the financial back-up materials for the overall financing information before the discussion at the June 14th President's Cabinet.

Based on the assumption that my office receives that material as planned, we have agreed on the following process:

1. The Plan will be presented to President's Cabinet for approval on June 14. Eric's group should work with Laura Shinn to make sure the materials for the meeting are ready by June 9th.
2. Assuming no major issues arise from President's Cabinet, we would take the Parking Plan to the OSU Board on July 7.

My staff and I understand the need to move expeditiously. We also understand the need to have an appropriate level of due diligence so that we aren't surprised later and suffer unneeded delays.

Consequently, it is very important to get all the issues out on the table early and share a commitment to resolving them as part of this process. Listed below are the issues we think are significant and need resolution for Phase 1 of the parking plan. Phase 2 will need to be evaluated as details become available from OSUMC.

1. Siting – the plan identified three new garages, plus additional surface parking. Comments relative to these recommended locations follow.
 - a. One of the recommended garage sites is the Spirit of Women Park. It is our understanding your staff will take the lead in working with the donors and other interested stakeholders in finding an acceptable alternative location for the park and that OSUMC will bear the costs of that relocation.
 - b. Another garage site is on the flood plain. This will likely entail additional costs for construction and utilities. It is my understanding OSUMC will bear these costs.

- c. The proposed surface lot is currently a playing field for intramural sports. It is our understanding OSUMC will either reimburse Student Affairs to relocate this field, or if an acceptable agreement can not be reached, OSUMC will reimburse Transportation and Parking Services to bus employees from remote parking.
2. Financing – the Phase I plan call for three new garages and a surface lot. It is my understanding that Transportation and Parking will fund the 9th Avenue Garage. The Medical Center will finance the west of Cannon garage, the Spirit of Women Park garage and the surface lot on the intramural fields. Funding source needs to be identified. It is also my understanding the Medical Center will assume the debt service payments for the 9th Avenue Garage prior to FY 2011 in order to accelerate the construction time line. This financial agreement needs to be confirmed in writing in the form of a signed MOU between the Medical Center and the University.
3. Alternative Means of Construction – it is my understanding the Medical Center would like to pursue alternative means of construction, such as design build and private developer. While I agree that current requirements of Ohio law are unnecessarily restrictive and time consuming, they are the requirements of the law. This issue has been reviewed numerous times by OSU legal counsel, as well as outside legal counsel and alternative means of construction cannot be supported at this time. For clarification, a meeting is being arranged by my office with Legal Affairs and Eric so Legal Affairs can clarify their position on developer/design builds on University land.
4. Congestion and Traffic Plan – we share your concerns about making sure this unprecedented level of construction does not adversely affect patient volume and the daily operations of the Medical Center and the Columbus Campus. Since your time line calls for much of the construction to occur simultaneously, mitigating the impact will be a challenge. Consequently, we will need agreement on a traffic mitigation plan before going to construction. We also need written agreement that all mitigation costs for the construction, funding for traffic control personnel for peak hours and shift changes in the medical center area, as well as handling new traffic volume for planned growth will be paid by OSUMC.
5. Parking System – for access and parking to run efficiently on a crowded campus, there needs to be one centralized system. Consequently, all parking garages/structures/lots and shuttle services from remote parking locations need to be under the management of Transportation and Parking, regardless of the funding source.
6. Strategic Alignment – we need to make sure the Facilities Master Plan, Parking Plan and Infrastructure Plan are all in alignment. For example, we cannot afford to tear up streets to install utility lines after we have built garages. We also need to better understand how these commitments fit within the Medical Center’s five-year financial plan and overall debt ceiling approved by the OSU Board of Trustees in September 2005. We need this confirmed in writing, after which time we can agree to support the final and approved target schedule for the master plan. In order to do this effectively we also need reconfirmation of the Phase 1 and Phase 2 projects. Alignment with the infrastructure master plan cannot be completed until a revised and final schedule with listed projects and anticipated schedules is validated.

As I indicated in my original letter to you dated November 1, 2005, it is my understanding the OSUMC Master Plan has allocated approximately \$65 million dollars to meet its chilled water, steam, electric, water/sewer and general utility requirements. Alignment of the Medical Center expansion needs and that of the central campus will need to be reconciled prior to moving forward. Alterations to the infrastructure that do not match the general university plan or funding schedule, but are necessary to support the Medical Center's aggressive schedule, will be the financial responsibility of the Medical Center. All utility infrastructures will be managed by the University's Facilities Operations and Development (FOD) organization. FOD will work with the Medical Center to develop service level agreements outlining responsibilities related to infrastructure components.

I hope that articulating these issues is useful in addressing our needs for moving this project forward. It would be most helpful to us if we could have a written response by no later than June 14, in order to allow us enough time to make sure these issues are addressed prior to asking Board approval in July. If this information is in order, we will recommend approval, including moving forward with design. If most of it is in order, with a handful of issues still to be resolved, we will recommend conditional approval.

If you have any questions or would like additional information, please feel free to contact me. My staff and I look forward to working with you and your staff to make this a successful project.

Sincerely,

William J. Shkurti
Senior Vice President for Business and Finance

CAMPUS

Dear Fred:

The purpose of this memo is to formalize approval of the Medical Center Master Plan and to define next steps. My staff and I have reviewed the plan and related materials and support its adoption. This includes moving the center of gravity of the Medical Center westward and identifying the zones indicated on the attached map.

I want to compliment you and your staff on having both the foresight and energy to integrate program and facility needs in a strategic way for the first time in the history of the Medical Center. Having said that, it is important to identify remaining issues that need to be addressed before the plan can be considered complete. These are:

1. Utilities – it is my understanding that the plan allocates approximately \$65 million to meet utility infrastructure needs such as chilled water, steam, electric substation and distribution and water/sewer upgrades. While this should go a long way in meeting these needs, there are still some unresolved issues. For example, electrical use is currently at capacity; therefore, over the short run, sufficient power exists only to support replacement space, not additional space. Additional capacity can be added, but this is a lengthy process that can take from 5-10 years. This will need to be addressed in establishing a construction schedule.

Moving west means more key facilities will be in the flood plain. The experience with Hurricane Katrina demonstrates how important it is to provide uninterrupted utility service. While water, power and communications lines can be hardened to protect against flooding and other threats, this can add significant costs in form of time and money. These costs will need to be determined as part of the planning process.

Facilities operations and Development has hired the consulting firm of Woolpert, LLC to assist in determining utility needs and costs. A preliminary report should be ready by this month and will provide additional information regarding actual costs that will need to be incorporated into our plans. The final report is due around February/March 2006.

2. Parking - the master plan calls for substantial additional parking on South Campus to support the growth in patients, faculty and staff projected by 2014. The current inventory of 7,150 spaces is expected to increase to 9,600 in phase I and to 11,400 in phase II. The master plan also assumes that 1400 existing permit holders will be moved to remote parking. Funding for bus service to/from this Park 'n Ride will need to be identified. The proposed budget allocates \$29.2 million to replace the existing South Cannon Garage which will need to be demolished as part of the plan. However, I have not seen a parking plan or budget to address any current deficits or additional demands. During the next six months, our staff will need to work together to finalize the Medical Center's parking plan, mitigation measures and supporting

financial structure and incorporate it into the project implementation schedule. Assumptions relating to traffic must be tested against the University's traffic model. If the model shows failing traffic flow, alternatives must be developed to reach an acceptable level.

3. Public Safety – The project planning team will be required to work closely with the University's Public Safety and Environmental Health and Safety offices to ensure that all projects are in compliance with safety standards both during and post construction. Project budgets must include the appropriate allocations to support compliance funding. Continued cooperation between University Public Safety and Hospital Security will be important in being successful in this mission.
4. Financial Plan – one of the benefits of a comprehensive planning process is to make sure aspirations and resources are in alignment. It is my understanding that John Stone has completed the six-year financial plan for the Health System. This was a formidable undertaking, and the plan will need to be updated periodically, but making sure the financial plan is in line with the master plan will be important as we move forward in this process.

I have previously shared with John my projections on available debt capacity. Once I have had a chance to review the financial plan, John and I will confirm the debt projections and business plan are in alignment. In addition, it is important to remember the debt service allocations approved by the Board of Trustees as part of the capital plan assume particle therapy and other UMC Partners projects will not be counted by the rating agencies against OSU's debt capacity. If for any reason this should turn out not to be the case and these projects do count, all or in part, then the approved projects will have to be reduced or delayed to accommodate these debt capacity limits.

5. Academic Facilities - although the plan does a fairly good job of laying out clinical needs over the next 10-15 years, the Medical Center's goals regarding teaching and research facilities is less clear, as well as the facilities related to the other health sciences.

I understand that your staff has been working with the Colleges on a preliminary draft of a plan for the Academic/Health Sciences and research. This plan will also need to be incorporated into the infrastructure plan before it can be completed. Funding of the academic initiatives will need to be addressed through the University's Capital Process.

6. Approval of Individual Projects – although approval of the plan indicates university support for the overall plan, individual projects must still go to the University and the Board of Trustees for approval to begin individual, project level design and again to begin construction. Before individual projects can proceed to design information needs to be presented in a general form as to how related infrastructure and finance issues will be addressed. Before a project is approved to proceed to construction, all major infrastructure and financial issues need to be fully addressed. The master plan will help guide answers to these questions, but is not a substitute for the detailed follow-up planning.
7. Changes and Modifications – I recognize that the Medical Center operates in a highly competitive and very dynamic environment. Therefore, it will be necessary to modify these plans as conditions require, especially in the out years. The subdivision of the plan and the related projects into phases was designed to provide flexibility.

I also understand the nature of competitive markets requires a response time that is less than the norm for large comprehensive research institutions. My staff and I are willing to assist you and your staff in moving expeditiously. However, our ability to assist you is, in part, dependent on a clear and consistent set of expectations from the Medical Center, especially regarding the first two years of the approved plan.

Now that the University's 2007-2012 capital plan has been formally approved by the Board of Trustees, projects identified in that plan for FY 2006 and FY 2007 should move relatively quickly. Projects not on that list, or projects that are significantly modified, will require additional time to process and most likely will require two readings before Board approval will be granted.

I am pleased that our offices were able to work together in bringing this phase of the Master Planning process to a successful conclusion. I look forward to working with you to continue to advance the aspirations of the OSU Medical Center that will mean so much to the University and the citizens of Ohio.

Sincerely,

William J. Shkurti
Senior Vice President for Business and Finance

BOARD OF TRUSTEES

JULY 7, 2006

NONSMOKING POLICY AND PROCEDURE

ITEM:

Revision of the University Nonsmoking Policy and Procedure. The policy was last revised and adopted by the Board of Trustees on May 5, 2006.

APPLIES TO:

University faculty, staff, students, and visitors.

CONTEXT:

As a result of the Medical Center's decision to go tobacco-free, other contiguous Health Sciences colleges and Biological Sciences are requesting to go tobacco-free. The change would expand the geographic boundaries of the policy change to include the grounds of Aronoff Laboratory, Biological Sciences Building, Biological Sciences Greenhouse, Fry Hall, General Biology Annex, Jennings Hall, Newton Hall, Parks Hall, Postle Hall, Riffe Building, and Starling Loving Hall. The policy establishes a tobacco-free zone within the University and as such is defined geographically rather than organizationally. The colleges may have facilities located elsewhere on campus or in the state, which will not be affected by this policy change. Faculty, staff, students, patients, customers, visitors, etc., are all subject to the policy within the tobacco-free areas, regardless of affiliation or status. Other University colleges or departments may have personnel or operations located within the tobacco-free areas, and as such are subject to the policy. The desire is that the change be effective upon approval by the Board on July 7, 2006.

OVERVIEW OF THE REVIEW AND REVISION PROCESS:

Faculty and staff in each college have voted to go tobacco free. President's Cabinet approved the change.

NEXT STEPS:

Distribute Policy and Procedure widely to faculty, staff, and students. Make tobacco cessation programs available for all University employees.

FOR MORE INFORMATION CONTACT:

Larry M. Lewellen, Associate Vice President for Human Resources

Lewellen.1@osu.edu
292-4164

Eunice Hornsby, Project Manager & HR Policy Coordinator, Office of Human Resources

Hornsby.1@osu.edu
292-2800

Applies to: Faculty, staff, student, and visitors

Policy

Issued: 07/01/1987

Revised: 07/07/2006

The University recognizes the need to create and maintain an environmental quality that sustains and enhances the general health and well-being of its faculty, staff, students, and visitors. To meet this commitment, smoking and the use of tobacco products is limited, and no smoking is permitted in any indoor area as designated in the guidelines. Consistent with the spirit and intent of this policy, should irreconcilable conflicts arise between individuals who choose to smoke and those who do not, the rights of nonsmokers will prevail.

POLICY GUIDELINES

I. Smoking Restrictions

Smoking is not permitted in any indoor area.

II. Tobacco-Free Zone

Smoking or the use of other tobacco products is prohibited anywhere in the OSU Medical Center, Aronoff Laboratory, Biological Sciences Building, Biological Sciences Greenhouse, Fry Hall, General Biology Annex, Jennings Hall, Newton Hall, Parks Hall, Postle Hall, Riffe Building, and Starling Loving Hall. This includes inside and outside of buildings and in parking areas, except where specifically designated as smoking areas. For specific geographical boundaries, see the Tobacco-Free Zone Map ([include hot link](#)).

To protect the health and safety of our patients, faculty, staff, students, and visitors, all OSU Medical Center locations are tobacco-free. In addition to the main Medical Center campus, the Medical Center includes locations such as University Hospital East, primary care sites, the OSU Martha Morehouse Plaza, Ackerman Road Facility, Polaris Research Facility, and all others.

III. Exceptions

The only exception to this policy is specifically designated private residential space within University residence halls, apartments, hotels, and University-leased residential facilities. Any interior areas authorized for smoking must be so designated. Areas that are designated as smoking areas will be clearly marked with "Smoking Permitted" signs.

IV. Smoking Areas

Smoking is permitted outdoors, except in outdoor facilities such as the stadium, concession areas, amphitheatres, and other locations of fixed seating and in the outdoor areas of the Tobacco-Free Zone as

Applies to: Faculty, staff, student, and visitors

referenced in Section II above. Where smoking is allowed, smokers who choose to smoke outside are requested not to smoke near building entrances and to ensure the proper disposal of smoking materials.

V. Designating a Smoking or Nonsmoking Function

University groups that schedule outdoor spaces for approved functions, other than facilities covered in this policy, have the authority to designate such functions nonsmoking or smoking as they may desire, consistent with the intent of this policy.

VI. Implementation

This policy is to be implemented by units/departments and colleges in the same manner as other University policies. All buildings, vehicles, and specified outdoor facilities and areas that are owned or leased by the University, with the exception of private residence spaces, will be entirely smoke-free. Restrictions on other tobacco products apply at the Tobacco-Free Zone locations referenced in Section II above.

VII. Sale of Cigarettes in University Buildings

The sale of cigarettes or other tobacco products in campus buildings/facilities is prohibited.

VIII. Supplement to University Health Benefits

Smoking cessation services may be available through university-sponsored health plans.

PROCEDURE

Issued: 07/01/1987

Office of Business and Finance / Board of Trustees Meeting

July 7, 2006

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
FISCAL AFFAIRS COMMITTEE
JULY 7, 2006**

Topic:

Undergraduate Tuition at Regional Campuses and ATI for Fiscal Year 2007

Context:

In June, the Board of Trustees approved FY 2007 tuition and fees for students on the Columbus Campus effective Autumn Quarter. Since then, the Regional Campus Boards of Trustees have met and recommended a 6% tuition increase for undergraduate students and a 6% increase in the non-resident surcharge. The Executive Dean of the College of Food, Agricultural, and Environmental Sciences also is recommending a 6% tuition increase for resident undergraduate students attending the Agricultural Technical Institute and a 6% increase in the non-resident surcharge for ATI. All of these increases would be effective Autumn Quarter 2006.

These tuition recommendations reflect the following:

- Regional Campuses follow the same compensation increase policies and are responsible for funding the same employee benefit increases as the Columbus Campus.
- Regional Campuses state support, including Access Challenge funding, is relatively flat from FY 2006 to FY 2007 for three of the regional campuses and decreasing for Lima and ATI.
- The state has limited tuition increases for undergraduates to 6%.

The attached table shows implications of the recommended tuition increases and Access Challenge credits on the resident student share. The increase in student share for lower-division students at the Regional Campuses and students at ATI is slightly higher than 6% due to flat or declining Access Challenge funds.

Recommendation:

Increase resident undergraduate instructional and general fees at the Regional Campuses and ATI 6% (before Access Challenge credits) for full-time undergraduate resident students and increase the non-resident surcharge for the Regional Campuses and ATI 6%, all effective Autumn Quarter 2006. The resident fees will be reduced by the Access Challenge funds as shown in the attached table.

Requested of the Fiscal Affairs Committee:

Approval of the recommended Regional Campus and ATI fees for FY 2007.

**RESIDENT UNDERGRADUATE TUITION PER ACADEMIC YEAR
REGIONAL CAMPUSES AND ATI**

	Fiscal Year 2006			Fiscal Year 2007			Dollar Difference	*Percent Difference
	Tuition	Access Credit	Student Share	Tuition	Access Credit	Student Share		
Regional Lower Division	\$5,886	(\$576)	\$5,310	\$6,240	(\$576)	\$5,664	\$354	6.7%
Regional Upper Division	\$5,886	\$0	\$5,886	\$6,240	\$0	\$6,240	\$354	6.0%
ATI	\$5,865	(\$387)	\$5,478	\$6,216	(\$357)	\$5,859	\$381	7.0%

* The increase in student share for lower division regional campus students and students at ATI is slightly higher than 6% due to flat or declining Access Challenge funds.

(APPENDIX IX)

FY 2007 OPERATING BUDGET

- I. Strategic Overview
- II. Columbus Campus General Funds Budget Recommendations
- III. Regional Campuses
- IV. All Funds Budget Recommendations
- V. Financial Stewardship
- VI. Conclusions

Office of Business and Finance
6/27/06

I. Strategic Overview

The FY 2007 budget is structured to support key University-wide initiatives, consistent with the Academic Plan:

- Competitive Compensation
- Targeted Investments in Excellence
- Reform of the Undergraduate Curriculum
- Quality Graduate Programs
- 2008 Enrollment Plan
- Enterprise-Wide Systems

Funding for these initiatives is described below:

- A. Competitive Compensation – will be funded from college and support unit operating budgets. Most units are able to fund a raise pool of 3.0% for faculty, staff and student employees without a reallocation. Further discussions are on going regarding reallocations required to reach a more competitive increase. The Provost will selectively support high quality academic units that lag behind their benchmark faculty salary levels.
- B. Targeted Investments in Excellence – \$9 million one-time, \$1 million continuing funds are provided to strengthen high impact academic programs, including Climate, Water and Carbon, Public Health Preparedness and Mathematical Bioscience.
- C. Reform of the Undergraduate Curriculum – analysis of financial impact is continuing. Some funds to support this initiative are reserved in the Provost's base budget.
- D. Quality Graduate Programs - these funds will come from a \$3.6 million pool set aside from state Innovation Incentive funds and University funds to be distributed by the Graduate School. Funds will be targeted to Science, Technology and Engineering programs as provided for in the Economic Growth Challenge.
- E. 2008 Enrollment Plan - will be successfully completed one year early, in FY 2007. \$1.4 million for additional financial aid and \$500,000 to support recruiting are funded through the student services assessment in FY 2007 to raise academic qualifications of the incoming freshman class to targeted levels. This includes an average ACT score of 27.
- F. Enterprise-wide Systems – are funded through multi-year cash assessments. Funded in FY 2007: \$9.4M for the Student Information System (SIS) (Phase II of V) and \$2.5M for the Grants Management System (Phase III of IV). Total cost of the Grants Management System is \$13 million. Expected cost of the SIS installation approved last Spring is between \$40 and \$50 million.

II. Columbus Campus General Fund Budget Recommendations

- A. FY 2007 Budget Assumptions
- B. FY 2007 Sources and Uses
- C. Additional Budget Highlights
- D. Increased Support by Area of Focus

A. FY 2007 General Fund Budget Assumptions Columbus Campus

Total Revenue Increase Net of Financial Aid = + 5.5%

Enrollments	+ 0.5%
Tuition Package	+ 6.0%
State Support	+ 2.9%
All Other	+ 9.9%

Total Expenditures Increase Net of Financial Aid = + 5.4%

Salary Pool	+ 3.2%
Benefits	- 0.3%
Utility Costs	+ 47.4%
Student Financial Aid (Undergraduate)	+ 8.2%

Planned Central Reserves

Operating Margin, Utility & Enrollment Reserve	\$5.0M
Rainy Day Fund	\$12.5M

**B. General Funds Sources and Uses Summary FY 2007
Columbus Campus, Continuing Funds**

<u>FTE Enrollments</u>	2005-06	2006-07	<u>Change</u>
	<u>Actual</u>	<u>Projected</u>	
UG Resident	99,109	100,153	1.1%
UG Non-Resident	12,785	12,616	-1.3%
Grad Resident	15,883	15,670	-1.3%
Grad Non-Resident	14,420	13,992	-3.0%
Professional	9,651	9,619	-0.3%
	151,848	152,050	0.1%

<u>Sources and Uses</u>	2005-06	2006-07	<u>Change</u>
	<u>Current</u>	<u>Original</u>	
Sources			
State (1)	\$ 324.5	\$ 333.9	2.9%
Fees (2)	\$ 570.6	\$ 611.1	7.1%
Research Cost Recoveries	\$ 70.4	\$ 72.0	2.2%
Other Cost Recoveries(3)	\$ 51.4	\$ 57.7	12.2%
Interest Income/Other	\$ 11.9	\$ 12.9	8.4%
Total Sources	\$ 1,028.8	\$ 1,087.6	5.7%
Uses			
Departmental (4)	\$ 800.1	\$ 824.7	3.1%
Financial Aid			
Undergraduate	\$ 63.7	\$ 69.0	8.2%
Graduate	\$ 66.7	\$ 70.7	6.0%
Facilities (5)	\$ 68.6	\$ 84.2	22.7%
Strategic Investment (6)	\$ 29.0	\$ 38.2	31.9%
Total Uses	\$ 1,028.1	\$ 1,086.8	5.7%
Sources less Uses	\$0.7	\$0.7	

- (1) Includes additional \$30M allocation from General Assembly approved by Controlling Board June 26, 2006. OSU share is approximately \$6M.
- (2) FY 2007 fees assume 6% base increase and include approximately \$2.1M in differential fee income.
- (3) Includes Earnings and Regional Campus Overhead and Cost Containment.
- (4) Assumes 3.0% salary increase pool for support units, 3.1% for colleges and 0.3% benefit rate reduction.
- (5) Reflects 42% increase in utility bills.
- (6) Was originally budgeted at \$36M in FY 2006. \$7M has been transferred to fund strategic investments in college departmental budgets. This category includes the Provost's and President's Strategic Investments funds and University Reserves.

C. Additional Budget Highlights

- A. This budget includes \$9 million in one-time funds and \$1 million in continuing funds to support Phase I of V of Targeted Investments in Excellence. The total commitment is \$50 million over the next five years.
- B. Because of the higher than projected acceptance rates, the entering freshman class will be 6,000 instead of 5,800. This is factored into the enrollment and revenue estimates.
- C. OSU Facilities and Administrative Recovery Rate on most federal research grants has been approved to increase from 49.5 to 50.0% effective July 1, 2006 for the next three years. By FY 2009 this will generate an additional \$1 million in cost recoveries annually.

- D. In order to help stabilize the funding base for Development, this budget includes a recommendation that the phase down of the endowment assessment from 1.1% to 1.0% be delayed two years until FY 2009.
- E. Included in these recommendations is \$650,000 to continue the previous seven-year funding level of University operating support to Campus Partners for another year while Campus Partners' updated five-year business plan is reviewed and finalized. An additional \$600,000 in one-time funds is recommended for rental payments for OSU office space at Gateway which were originally anticipated to be funded, in part, from the sharing of excess revenues from Gateway's first year of operations. The excess revenues were originally projected on Gateway's pre-construction pro forma, but have not occurred in Gateway's first year of operations due to longer-than-projected time frames to achieve stabilized occupancy.

D. General Funds Increased Support by Area of Focus

Central discretionary funds of \$4.6 million in continuing funds and \$21.1 million in one-time funds are recommended to seed University-wide initiatives that cross college boundaries and strengthen core support services. Does not include over \$10.6 million which will be reallocated from current uses to fund priority initiatives.

New Continuing Funds	
Facilities Support	\$1,274,000
Development Support ¹	900,000
Research Support	900,000
Services to Students	589,500
All Other	393,000
Safety and Security	275,000
Library Support	250,000
Total	\$4,581,500
One-Time Funds (cash support)	
Academic Programs	\$6,200,000
Research Support	4,400,000
Reserves	2,000,000
Safety and Security	1,805,000
Outreach and Engagement	1,800,000
Facilities Support	1,750,000
Services to Students	1,562,000
Development Support	1,000,000
All Other	590,000
Total	\$21,107,000

III. Regional Campuses

Recommended resident undergraduate tuition increases for the regional campuses are consistent with the legislatively mandated 6% fee increase cap; however, actual amounts paid by some students may be slightly higher due to loss of funds from the Access Challenge.

¹ In addition \$1M in continuing funds will be reallocated from the President's Strategic Endowment funds and \$1 million in one time cash by delaying the phase down of the Development draw on the University Endowment income.

Budgets for ATI and Lima are projected to be in balance for FY 2007; however, additional information regarding long term financial plans for both of these campuses will be presented at the September meeting.

Budgeted Revenue and Allocations

EXPENSE			
Salaries	\$430,487	\$482,519	12.1
Benefits	117,538	135,838	15.6
Hospital Physician Fees	17,320	18,192	5.0
Physician/Faculty Services	4,309	4,126	-4.2
Supplies	161,645	173,626	7.4
Cost of Drugs	75,682	83,186	9.9
Services	134,383	148,652	10.6
Resident Salaries and Benefits	30,252	32,468	7.3
Med Staff & Academic Faculty	-	-	-
Support			
Depreciation	47,867	54,337	13.5
Interest	9,279	9,312	.36
Provision for Bad Debt	70,248	84,264	19.9
University Overhead	<u>23,629</u>	<u>27,991</u>	<u>18.5</u>
Total Expense	\$1,122,642	\$1,254,516	11.7%
Gain (Loss) from Operations	\$69,897	\$76,035	8.8%
Operating Margin	5.9%	5.7%	
NON-OPERATING GAIN (LOSS)			
Income from Investments	\$5,262	\$5,545	5.4
Gain/Loss on Sale of Assets	<u>168</u>	<u>0</u>	<u>-100.0</u>
Excess of Revenue over Expense	\$75,328	\$81,580	8.3%
Total Margin	6.3%	6.1%	

D. Consolidated Statement of Changes in Net Assets

The Health System projects continued growth in FY 2007. Total operating revenue is expected to grow 11.6%, while expenses grow 11.7%. Total margin is projected to be 6.1% or an excess of \$81.6 million in revenues over expenses.

FY 2006 year-end Net Assets are projected to be \$25M better than budget while the FY 2007 budget reflects a year-end Net asset increase of \$11.5M

**The Ohio State University Health System
Years Ending June 30, 2006 and 2007
(in thousands)**

	FY 2006 Forecast	FY 2007 Budget	Budget % Var
Net Assets Beginning of Period	\$381,795	\$399,481	4.6%
Excess of Revenue over Expenditures	75,328	81,581	8.3%
Less Total Medical Center Investments	(58,000)	(70,000)	20.7%
Contributions for Property Acquisitions	358	0	-100.0%
Increase (Decrease) in Net Assets	\$17,686	\$11,581	
Net Assets End of Period	\$399,481	\$411,062	2.9%

NOTE: Medical Center Investments total is still under review as part of the long-term financial plan, which includes cash reserve targets.

V. Resource Allocations Should Advance Effective Financial Stewardship

- A. Compliance with State and Federal Mandates
- B. New Cost Savings Initiatives
- C. Financial Goals

A. FY 07 Funds Allocated to Assure Compliance with State and Federal Mandates, Columbus Campus

	Continuing	One-Time
Human Subject and Animal Research Compliance	\$1,500,000	
Student Services	152,000	
Public Safety	178,000	55,000
Disability Services	96,000	62,000
Other		40,000
Total	\$1,926,000	\$157,000

NOTE: Funding sources for research compliance include \$500,000 central General Funds, \$500,000 reallocation from Office of Research and \$500,000 assessment to colleges.

B. New Cost Savings Initiatives

This budget funds three new or enhanced cost reduction initiatives summarized below:

Plan for Health (OHR) – an investment of \$2.0 million in wellness programs and coordinated care management. This is expected to save \$3 to \$6 million each year in years one to three, and \$5 to \$8 million each year thereafter, by improving the health of University faculty and staff and improving the effectiveness of care of chronic conditions.

Transition to Work (OHR) – this plan is modeled after successful efforts elsewhere that demonstrate savings to employers in Worker's Compensation costs and significant benefits to employees by returning employees with temporary medical or psychological restrictions to work sooner. An up front investment of \$289,000 is expected to save at least \$2.8 million annually.

Energy Management and Sustainability (FOD) – the rising cost of energy has made it cost effective to enhance conservation efforts and explore alternative energy sources across campus. This request includes \$236,000 in continuing funds and \$200,000 in one-time funds to improve metering and building designs. Additional internal funds will be used to fund building energy audits as part of this program. Based on current energy costs, long-term savings are expected to be over \$2.0 million annually.

Before funds are released, the sponsoring unit will be expected to complete a detailed work plan that includes deliverables and measures of success. Outcomes will be reported to the University community and the Board of Trustees on a regular basis.

C. Financial Goals For FY 2007

	FY 2006	FY 2007	Long-Term Target
Operating Margin ¹²	0.5%	0.46%	0.5 – 1.0%
Rainy Day Fund	\$11.5M	12.5M	\$25M
Other Reserves	Varies	Varies	Varies
Operating Cash	30 days +	30 days +	30 days+
All Funds Debt Service as a % of Total	2.33%	2.13%	Less than 5.0%
Bond Rating	AA	AA	AA
Future Commitments of Continuing Funds	\$13.4M	\$11.9M	No more than 1%

VI. Conclusions

- A. Chronology – What Happens Next
- B. Financial Issues for FY 2007
- C. Summary

A. What Happens Next

September

Current Funds Budget Books
Purchasing Update
Capital Plan Review I

B. Financial Issues for FY 2007

1. Preparing for FY 2008-FY 2009 State of Ohio Biennial Budget process.
2. Funding graduate education based on program quality.
3. Funding the next development campaign.
4. Development of an enterprise-wide risk management structure.
5. Completion of five-year financial plan.
6. Capital funding including additional funding for deferred maintenance.
7. Implementation and tracking of key cost reduction initiatives.
8. Evaluation of sources, uses and cost allocation processes regarding support of research.
9. Financial implications of proposals to restructure the undergraduate curriculum.
10. Follow-up on internal controls.
11. Financial performance of affiliated entities.
12. Oversight of SIS installation.

C. Summary

1. This budget supports the priorities of the Academic Plan/Leadership Agenda.
2. Revenue assumptions are reasonable and in compliance with state law.
3. Expenses are fully funded and within available revenues.
4. Financial Stewardship is strengthened.
5. Next steps and strategic issues for the next budget cycle have been identified.

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND TWENTY-FOURTH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, September 22, 2006

The Board of Trustees met at its regular monthly meeting on Friday, September 22, 2006, at The Ohio State University Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **

September 22, 2006 meeting, Board of Trustees

The Chairman, Judge Duncan, called the meeting of the Board of Trustees to order on September 22, 2006, at 11:30 a.m. He requested the Secretary to call the roll.

Present: Robert M. Duncan, Chairman, Karen L. Hendricks, G. Gil Cloyd, Jo Ann Davidson, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Thekla R. Shackelford, Yoonhee P. Ha, and Christopher Alvarez-Breckenridge.

--0--

INTRODUCTION OF NEW TRUSTEES

Judge Duncan:

Good morning. I would like to call the meeting of the Board of Trustees to order. We are extremely delighted to be joined this morning by our newest Board members.

First, let me introduce Alan Brass, from Toledo, OH. His career spans over three decades in healthcare and he has predominantly been associated with large multi-hospital systems and with major academic centers. He previously held administrative positions with Children's Hospital here in Columbus, and is now chief executive officer for ProMedica Health System in Toledo. ProMedica is one of the largest and fastest growing healthcare systems in the Midwest. Mr. Brass received his undergraduate degree from Youngstown University and his master's degree in hospital and health services administration and finance from The Ohio State University, and is an adjunct faculty member in our School of Public Health.

Next, I would like to introduce Jack Fisher of Columbus. Jack serves as executive vice president of The Ohio Farm Bureau Federation, Inc., a 229,000-member state organization representing agriculture at local, state and national levels. Jack holds bachelor's and master's degrees in agriculture from The Ohio State University and a master's degree in counseling from Ball State University. He is a member of the OSU Department of Animal Science Hall of Fame, and has been awarded the OSU College of Food, Agricultural and Environmental Sciences' Distinguished Service Award.

Teckie Shackelford, of Gahanna, is an educational consultant and founder of School Selection Consulting. She is currently serving as chairperson of the I KNOW I CAN scholarship board in Columbus, the president of Project GRAD-Columbus, and the secretary-treasurer of Project GRAD-Ohio. She is also a member of the board of directors of Project GRAD-USA. She currently is on the board of The Ohio State University Foundation, where she served as chair. Teckie is a former school teacher whose major focus for her activities has been all levels of education. She received her Bachelor of Arts degree from Denison University and her master's degree from OSU. She has been inducted into the Ohio Foundation of Independent Colleges' Hall of Excellence, the Central Ohio Business Hall of Fame, and the Ohio Women's Hall of Fame.

Ladies and gentlemen, please join me in a warm welcome to our three new members of the Board of Trustees.

--0--

Judge Duncan:

On the agenda you will note that we are proposing a resolution establishing and appointing the Presidential Search Committee. This committee had its first introductory meeting last week and they will begin their work shortly. Periodically, we will update the Board as to their progress. Also, as a result of the addition of our

September 22, 2006 meeting, Board of Trustees

new Board members, we are amending our committee appointments. Therefore we have two resolutions that we have proposed and ask your action on: 1) Establishment and Appointment of a Presidential Search Committee; and 2) the amended Committee Appointments.

**ESTABLISHMENT AND APPOINTMENT OF
PRESIDENTIAL SEARCH COMMITTEE**

Resolution No. 2007-27

Synopsis: Establishment and appointment of Presidential Search Committee is proposed.

WHEREAS Dr. Karen A. Holbrook has announced her decision to retire from the presidency of The Ohio State University in June 2007; and

WHEREAS it is the responsibility of the Board of Trustees, pursuant to section 3335.09 of the Ohio Revised Code, to select the President of the University; and

WHEREAS the Board of Trustees has determined that it is appropriate to establish and appoint a Search Committee with broad representation of University constituencies and charge it with responsibility for recommending to the Board one or more candidates to be the next President of the University; and

WHEREAS in order to proceed expeditiously with the commencement of the search it is appropriate to constitute and give an initial charge to the Search Committee:

NOW THEREFORE

BE IT RESOLVED, That the Search Committee for the President of The Ohio State University will have the following membership:

Trustees

Douglas G. Borrer
G. Gilbert Cloyd
Jo Ann Davidson
Karen L. Hendricks
Robert H. Schottenstein
Alex Shumate
Leslie H. Wexner

Members of the Faculty

Kevin G. Boyle, Professor of History
Marilynn Brewer, Professor of Psychology
L. S. Fan, Distinguished University Professor, Chemical and Biomolecular Engineering
Susan E. Metros, Professor, Industrial, Interior, and Visual Communication Design and Deputy Chief Information Officer
Terry A. Miller, Ohio Eminent Scholar in Experimental Physical Chemistry
Linda J. Saif, Distinguished University Professor, Food Animal Health--OARDC; Veterinary Preventive Medicine
Harald E. Vaessin, Professor of Molecular Genetics

Deans

Joseph A. Alutto, Dean, Fisher College of Business and Executive Dean for Professional Colleges; and
Jacqueline J. Royster, Executive Dean for Arts and Sciences and Senior Vice Provost

Students

Una M. Chung, Inter-Professional Student

September 22, 2006 meeting, Board of Trustees

Ryan M. Fournier, President, Undergraduate Student Government
Waverly L. Gordon, President, Council of Graduate Students

Administrators

Fred Sanfilippo, Senior Vice President for Health Sciences and Executive Dean
of the Health Sciences Colleges Cluster
Mac A. Stewart, Vice Provost for Minority Affairs and Chief Diversity Officer

Alumni Association representative

Archie Griffin, President and CEO, Alumni Association

Foundation Board representative

Jack Lucks, Jr., Chair of the Foundation Board

Non-Teaching Staff representative

Jay S. Young, Chair, University Staff Advisory Council

BE IT FURTHER RESOLVED, That Alex Shumate shall serve as Chair of the Search Committee and that the following people will serve the Board and Committee as follows: David O. Frantz, liaison; Christopher M. Culley, general counsel; and Maureen T. Sharkey, administrative coordinator; and

BE IT FURTHER RESOLVED, That each member of the Search Committee shall commit herself or himself to representing the best interests of the University in planning and directing all aspects of a comprehensive and expeditious search for a new President including, but not limited to, developing a profile of characteristics, skills and qualities desired in the next president; developing a list of candidates and verifying their qualifications, availability and interest in the position; and making a recommendation of one or more candidates to the Board in a timely fashion; and

BE IT FURTHER RESOLVED, That the Chair of the Search Committee shall provide periodic updates to the Board of Trustees at its regularly scheduled meetings until the search is concluded; and

BE IT FURTHER RESOLVED, That the Search Committee shall serve until discharged by the Board of Trustees or upon the appointment of a new President; and

BE IT FURTHER RESOLVED, That any actions taken by the Search Committee or the Chair in furtherance of this Resolution prior to its effective date are hereby ratified and approved.

AMENDMENTS TO COMMITTEE APPOINTMENTS FOR 2006-2007

Resolution No. 2007-28

BE IT RESOLVED, That the appointments to committees and representatives to various Boards for 2006-2007 be amended as follows:

Academic and Student Affairs Committee:

Douglas G. Borrer, Chair
John D. Ong, Vice Chair
Robert H. Schottenstein
G. Gilbert Cloyd
Thekla R. Shackelford
Alex Shumate
JOHN C. FISHER
Yoonhee P. Ha

Fiscal Affairs Committee:

Jo Ann Davidson, Chair
Karen L. Hendricks, Vice Chair
Dimon R. McFerson

PRESIDENT'S REPORT

President Karen A. Holbrook:

Good morning to all of you, and let me also add my welcome to Teckie, Jack, and Alan. It is delightful to have you with us and I will enjoy working with you this year.

We begin another school year that promises to be an outstanding year. I want to spend most of my time talking about the students and about the faculty who will lead us through this coming year. Before doing that, I will make a couple of

September 22, 2006 meeting, Board of Trustees

announcements that I hope are already familiar to you that have come about since we were last together at the July Board meeting.

I think that you know that in late August we learned that we now rank #19 in the *U.S. News and World Report* for our undergraduate program in the "America's Best Colleges." Since 2002, OSU has moved up from #24 to #22, and up now to #19; moving four spots is really quite commendable for the University in a rather short period of time.

We also announced in August the results of an economic impact study that we did with our other two research university partners in the state, Case Western and the University of Cincinnati. This study showed that collectively our three institutions brought in about \$6.2 billion annually of income that impacts the state in a very positive way and that we account for approximately 68,000 jobs. If you have an opportunity to look at the study it gives you a number of measures of economic impact that show us what higher education is doing in such a relevant and important way for the state of Ohio. Among the three of us, we also bring in 80% of the imported research dollars to the state among our academic institutions, so that is a very positive stat.

You have heard that the Metro School opened on August 28. Not only were the 97 ninth graders welcomed at their own school, they were welcomed on our campus by attending the Freshman Convocation. They were resoundingly cheered by our freshmen, so we were very proud of that. It's a very exciting opportunity for these students.

Last week we announced the Department of Athletics' gift of \$5 million to the Library Renovation Project, something very important to this University. It now brings us to \$20 million of the \$30 million that we need to capture as we go forward with the project. So we are working on that last \$10 million very diligently, but we are grateful to Athletics for what they have done.

I am also delighted to introduce our new vice provost for Graduate Studies and dean of the Graduate School, subject to your approval today, Dr. Pat Osmer, former chairperson of the Department of Astronomy. His leadership over astronomy in the last thirteen years has included building research and graduate programs in the department, as well as his significant role in Ohio State's position with a large binocular telescope in Arizona, something we can be extremely proud of. All the successes that Pat has brought to his department and to the University overall, gives us great confidence that he is going to be an extraordinary leader to continue to advance the quality of our graduate program to a high level of excellence.

Pat, would you stand so we can welcome you to our rank? Thank you very much for joining us. It is a very important role for the University.

You have all heard about the incoming class, but it never hurts to say, again, that this is the 12th best class we have ever brought into The Ohio State University. We are very grateful to *The Columbus Dispatch* for having a front-page story about the "new elite" University in the state of Ohio. Comparing us with Miami of Ohio is a very different comparison, because we are very different institutions. Nonetheless, it showed what the statistics were for the quality of the incoming class.

While we won't know the final numbers of the incoming class until the first fifteen days of school have been concluded, we do know that 43% of those students were in the top 10% of their high school graduating class and 80% of those students were in the top 25%. Both of those numbers were up from last year. Their ACT average score was 26.4; again, that keeps rising every single year. The percentage of students of color is now 16%; up nearly 6%. We are very proud of that figure as diversity is one of the six goals of the Academic Plan and something that this institution is very committed to.

September 22, 2006 meeting, Board of Trustees

This is a bigger class than ever. We have 6,150 incoming freshmen, but it could be 6,200 students by the time we have the final count. The incoming students come from all 88 counties in Ohio, and from 46 of the 50 states. The incoming freshmen also have these statistics: 64% of the students worked while they were in high school; 59% of them earned a varsity letter, so we are bringing in great athletes; 30% of them were participants in state music concerts or contests; and 25% of them received some kind of recognition for doing community service during their high school years.

Nine out of ten of our freshmen have returned as sophomores. That means we officially have a 91% retention rate, which is very high considering that it was 79% in 1995. So we have moved up rather dramatically and that is part of bringing in stronger students at the front end. The second statistic -- I'm reporting today for the first time publicly -- is our graduation rate is now up to 71%. That is very significant. We were at 55% for the class entering in 1994. That is a great rise and we want to see that continue to grow as well.

We have made great strides in the quality of our students, and we think it's based on a strong academic reputation, the quality and the breadth of our programs, and the outstanding faculty who are committed to teaching and to their research. In the research realm, they've also brought in a record number in terms of research funding for the year. We closed the books at about \$589 million this year, which is very substantial for the University.

We welcomed about 200 new faculty this year. I want to give you the profiles of five new faculty, because it illustrates the diversity of people, where they come from, what they're doing, and what their backgrounds are. I'm going to say something about a full professor, a chairperson, an eminent scholar, and someone who is very unique in the arts, as well as an associate professor and assistant professor. This will give you a range of what our faculty is going to look like.

Dr. Anita Hopper is the new chairperson of Molecular Genetics. She is a very highly-regarded geneticist, who came from Penn State University, where she was a distinguished professor in biochemistry and molecular biology. She is a fellow of the American Academy of Microbiology. She is part of our interdisciplinary RNA program, which is a very renowned program for this University that spreads across many colleges and departments, and has outstanding research. We're actually getting some other new faculty coming here simply because of this program. Her reason for coming to Ohio State was because of the strong interdisciplinary program in her own discipline.

We are also bringing in Dr. Julian Thayer, who joins the Department of Psychology from the National Institutes of Health, where he has been a senior researcher since 2000. He is The Ohio Eminent Scholar in Health Psychology and his research focuses on how people adapt to stress, something very useful in the academic environment. He also talks about how the coping strategies for stress can actually cause psychological problems and illness. He has been a Fulbright fellow, had an early career award in behavioral medicine, and has been elected to the Academy of Behavioral Medicine. He is also an accomplished jazz bassist and uses music to confirm his research, and finds a psychological link between music and emotion.

Peter Kozma has been named the opera director for the School of Music. He was a stage director, originally from Hungary, but most recently comes from the Minnesota Opera. He has worked with the Miskolk Summer Festival, Wolf Trap Opera, and the Des Moines Metro Opera. He plans to stage a main-stage opera this spring with full orchestra, costumes, and set. He earned his master's degree in opera directing at the University of Texas, where he is currently working on a doctoral degree. Peter completed his undergraduate degree in voice performance at the Frantz Liszt Academy of Music in Budapest, where he formed a chamber opera group. So he will be a unique addition to our faculty.

September 22, 2006 meeting, Board of Trustees

Dr. Wandasen Gubrayus has joined the faculty in the Department of Veterinary Preventive Medicine in the College of Veterinary Medicine as an associate professor. He received his Doctor of Veterinary Medicine degree from Addis Ababa University in Ethiopia, and then completed a comparative biomedicine degree at North Carolina State University. He is a Diplomat of the American College of Veterinary Medicine, and his research tracks bacterial and viral foodborne pathogens, particularly in swine populations. He joins a growing interdisciplinary program in emergency preparedness for emerging infectious diseases, which is one of the Target Investment in Excellence proposals in the College of Veterinary Medicine and the School of Public Health.

Dr. B. Scott Gaudi is a new assistant professor of Astronomy. He earned his Ph.D. degree at The Ohio State University in 2000, then received two post-doctoral fellowships -- at Princeton and Harvard. He is what is known as a "planet-hunter"; he finds planets around faraway stars. Even before he graduated from Ohio State, he was already becoming prominent in the international "planet-hunting" community, developing techniques of finding planets like our own and other stars. In 2000, *Discovery Magazine* named him as one of the top 20 scientists to watch in the next 20 years. Ultimately, his work could answer the question of whether we are alone in the universe.

These are five very unique faculty members. In meeting all of them the other night, I can tell you they come from outstanding universities all across the country, including many from Colorado, Texas, Berkley, and Virginia. You name a quality university and our faculty represents those universities and that's not just the new faculty. Those faculty members join an already very distinguished and very accomplished faculty that's here, and those are the people that are preparing the students for the future.

I think the year's off to a very good start. I'm confident that we're going to have much more good news as the year goes on and I look forward to sharing it with all of you. Thank you very much.

Judge Duncan:

Dr. Osmer, this Board is well aware of your outstanding scholarship and distinguished teaching, and you have served the University admirably. Good luck in your new position where you will continue to serve the University.

Dr. Osmer:

Thank you very much. I am very excited about the opportunity to work with the graduate program and we would like to build on everything President Holbrook has just described. We are going to take the graduate program to the next notch, which is a key step to advancing the University. I am grateful for the chance to work with the Graduate School.

--0--

STUDENT RECOGNITION AWARD

Mr. Alvarez-Breckenridge:

The Student Recognition Award is presented each month by the Board of Trustees to a student in honor of their achievement in his or her area of study, service to the University and/or community, and research achievements that have been a credit to the college and the University.

This month's recipient is Erica Johnson, who was nominated by Dean Mel Shipp from the College of Optometry. Erica is a fourth-year student, pursuing a

September 22, 2006 meeting, Board of Trustees

Doctorate in Optometry degree and a Master of Science degree in vision science.

Erica's achievements prior to entering the College of Optometry are numerous and served as a segue for many of her accomplishments at Ohio State. After graduating from Central Michigan, where she served as the student body president and graduated with a degree in biology and a minor in chemistry, she spent a year as a Traveling Leadership Consultant for her sorority, Alpha Chi Omega. She followed this experience with a fruitful summer spent at Ohio State as a T-35 Summer Research Trainee. Her research project, which was funded by the NIH and the National Eye Institute, produced an abstract that was accepted by the American Academy of Optometry.

Erica's leadership qualities continued to blossom during her studies as an optometry student. She has made a significant service contribution to the community by serving as a student volunteer for Optometric Services for Humanity while also representing her classmates as the Class of 2007 president of the College of Optometry Student Council.

Erica's ability to balance her schoolwork, leadership responsibilities, and service prompted Dean Shipp to praise Erica as an "exceptional scholar, gifted clinician, and exemplary leader in the College of Optometry." Beyond these qualities, Erica excels in her inter-personal skills, being described as "uncommonly mature...a consensus builder...well respected by her peers and universally praised by our faculty."

Erica is certainly one of the most recognizable faces in the College of Optometry due to the time she served as president for the Optometry Student Council where she was the spokesperson for all optometry students. Additionally, Erica has been coordinating Welcome Week events for all first-year students while serving as the president of the Ohio State Chapter for the American Optometric Student Association.

In short, Erica is making great strides as a scholar, clinician, and leader within the field of optometry. Additionally, she has done a remarkable job of balancing her academic obligations with her numerous co-curricular activities. She has truly made an indelible mark on the College of Optometry and the University at large.

Erica, on behalf of the Board of Trustees, I am very pleased to present you with this award today. Your achievements are truly remarkable and you are indeed an outstanding student. Congratulations and best of luck in your future endeavors.

Ms. Erica D. Johnson:

I would like to thank the Board for this wonderful honor. It is truly a privilege to represent the College of Optometry and Ohio State. I would also like to especially thank Dr. Shipp for his guidance and leadership. He has been a wonderful addition to the College of Optometry and we are lucky to have him as a role model in both optometry and his leadership in life overall.

I've had so many great opportunities that Ohio State has afforded me -- from research of children and vision and learning, to going to the State House in Ohio and Washington, DC, to lobby for our profession -- it's been quite an honor.

While I have the chance, I would like to publicly thank all of our faculty members who have been a wonderful support to us, to encourage us and just lift us up, and role model what it is to be a serving community member and, especially, in the

September 22, 2006 meeting, Board of Trustees

optometry profession. I would also like to thank my fiancé, who's been there for the celebrations and more of the successes and challenges that have happened.

Thank you so much for this honor. It has really been a privilege to represent Ohio State and the College of Optometry. I look forward to many more connections with Ohio State in the future. Thank you.

--0--

COMMITTEE REPORTS

Judge Duncan:

The Affiliated Entities Committee met yesterday morning and all members were present. There are no action items to report out. I will mail you a written report and attach a chart which identifies and further sets forth relevant information about each of the entities. Also, there will be some more detailed information regarding the Metro High School that Dr. Holbrook mentioned and I'll try to get that done next week.

Mr. Schottenstein will now report on the Audit Committee meeting.

Mr. Schottenstein:

Thank you, Mr. Chairman. The Audit Committee met yesterday afternoon and all members were present. We received a brief update from the internal auditors concerning the status of the Fiscal Year 2007 Audit Plan and we also received a brief update from our external auditors, Deloitte and Touche, with regard to the status of the Fiscal Year 2006 Audit Plan. There are no items to report at this time. That concludes my report.

Judge Duncan:

Mr. Hicks, would you please give the Medical Center Affairs Committee report?

Mr. Hicks:

Thank you, Mr. Chairman. While we had no action items to report, we did have several updates this morning. We had a pretty robust agenda.

Our first update was on the Master Plan, which is a \$700 million, 10-year plan, with two phases. We heard an update on a best buy stacking proposal that will allow us to go forward on the new cancer hospital and critical care bed tower.

We have a couple of issues that are coming in front of us on the consent agenda today that came from the Fiscal Affairs Committee. We expect a number of other projects to come before us next month, but a lot of progress is happening very rapidly on the Master Plan.

We then heard an update from Keith Todd on our Capital Campaign, the "Power to Change Lives." As you'll recall, this is a \$500 million campaign that was publicly kicked off in November. Thus far, we have obtained about 57% of the goal -- \$288 million -- but we've got about \$212 million to go. We are making good progress and the campaign proceeds at pace. Mr. Todd talked to us about some of the performance metrics that he has instituted with regard to the development officer, which we think would be very helpful down the road to complete this project and other initiatives from a capital campaign standpoint.

September 22, 2006 meeting, Board of Trustees

Next, Mr. Stone gave us a financial overview. The Medical Center closed out Fiscal Year 2006, which was a very good year. All patient activity and financial indicators were up, including the fact that we had a 6.5% operating margin, which is very important to what we have going on down the road. We had a very interesting discussion about the first two months of this year -- our numbers were even better for the first two months -- and we hope that they will continue to be as good and robust for the rest of the year.

We did have a good discussion about establishing fixed financial targets for the Medical Center to protect our debt rating from a University standpoint, but also to make sure that the Medical Center has enough cash flow. As we go through this rapid growth, we need to make sure we have financial stability and discipline. So we're going to look critically on the operating margin as a metric on days, cash on hand from a reserve standpoint, and then debt service. This is a work in progress, but it is very important that we have these metrics and we measure the Medical Center operations as a result of these metrics.

Dean Souba talked to us about the Clinical and Transactional Science Awards, which is a new program from the Department of the National Institutes of Health. We will be going after a \$30 million, five-year NIH grant and will be seeking and making that application in January. We have a committee that is working on this to put together both the program and the grant. We will have a very strong pediatric component for this, and next month we will be asked to consider the creation of a center that will handle this STSA-CPSA grant from an organizational standpoint for the Medical Center.

Finally, Mr. Chairman, we had a very brief report from Dr. Sanfilippo on the status of the Institute for Personalized Health Care, and a brief discussion about the Biomedical Research Tower, which is coming to a conclusion. The BRT will have a grand opening in November, with move-in in December. So we're pleased with that, and I'll be happy to answer any questions.

Judge Duncan:

Are there any questions for discussion? Thank you. Mr. O'Dell, Investments Committee --

Mr. O'Dell:

Dr. Jim Schroeder presented the Development Report in which he focused on the full year, ending in June. Cash receipts for the year were up 3% to \$207 million. Total fundraising activities during the period of time, which includes the quests and trusts, increased 12% to \$284 million; a very fine performance in a very difficult year.

Next, Mr. Nichols presented the Endowment Report. The endowment had a 10.9% return in the year ending June 30, and now stands at \$2.17 billion as of August 31. This year the endowment fund will distribute \$88 million to the colleges, up from \$84 million last year.

We then reviewed the Investment Policy Benchmarking and Asset Allocations, which included recommendations from outside consultants. It is clear that work is still needed to shift our endowment portfolio to the mixed group two years ago, and that an additional movement is still required to shift to what can be considered best practice. There will be a recommendation to the full Board on this matter at the November meeting. We also approved the routine Appointment and Reappointment of Investment Managers.

September 22, 2006 meeting, Board of Trustees

Finally, Mr. Shkurti made a presentation regarding the endowment assessment for development activities, which was set at 1.1% on a portion of the fund for Fiscal Year 2007. That concludes my report.

Judge Duncan:

Any questions for Mr. O'Dell? We will now have the Academic and Student Affairs Committee report. Mr. Borrer --

Mr. Borrer:

Today we first heard from Dr. Mike Sherman on the health and safety of Ohio State University students studying abroad, and what we as an institution are doing. I will tell you we have a very comprehensive plan to deal with student safety. We received a detailed report concerning the recent events in the Middle East, and our students that were there were handled very efficiently and effectively, and removed as they requested from any harmful situation. Our administration is on top of this and other issues, and, I believe, is fully prepared to react quickly to situations as they arrive with our overseas students.

Next we heard from Interim Vice President Hollingsworth on campus area safety. He reported that they are redoubling their efforts to prevent unruly behavior -- post-game and off-campus -- and working with student groups, as well as the City of Columbus Safety Department to ensure future good behavior.

On Ohio State's front, we heard from two student leaders who are in charge of the Good Sportsmanship Campaign. They are leading a campus-wide effort to show students what good sportsmanship is, and will be promoting good sportsmanship at Ohio State sporting events in the future.

We also have a campus-wide group that is being supported by Athletics Director Gene Smith and Coach Jim Tressel. You can see in today's *Lantern*, a full-page ad, talking about what it is to be a good fan. I would like to commend our students, our Athletics Department, and our administration for their good work in this effort and for making plans that are going to help us in the future.

We also had a discussion about the distinction between the vast majority of Ohio State fans, and individuals that use Ohio State sporting events as an excuse to participate in unruly and illegal behavior. Our Committee fully supports all efforts to prevent that behavior in the future.

Finally, Provost Snyder presented for the consent agenda today approval of Non-Academic Center Status, renaming the Center for Informational Technology, and routine Personnel Actions. That concludes my report.

Judge Duncan:

Thank you. Any questions for discussion? I'll now call on Mrs. Davidson for the Fiscal Affairs Committee report.

Mrs. Davidson:

The Fiscal Affairs Committee had a full agenda this morning and are pleased to welcome our new member, Alan Brass, to the Committee.

We had a review of what has been going on here for the past two or three years, and one of our core processes that we've examined to see where we could make some significant savings. We were updated today on what we are doing in the area of purchasing, and using the purchasing power of the University on an aggregate basis and negotiating some University-wide contracts. We're pleased to support

September 22, 2006 meeting, Board of Trustees

the report that there has been a \$67 million savings from the beginning of looking at this program, primarily coming from purchasing contracts for computers and printing. We also are being very sensitive to the issue of the diversity of our supplier-base, and not wanting to exclude some of our minority firms simply because of this process. We are taking special steps and actually have been able to increase their participation from 8% to 13%.

We had our review of the Fiscal Year 2007-2012 Capital Plan, which we approved as a Board last September. We have been given an interesting opportunity from the Board of Regents. They have asked the University if there was additional money in the capital budget -- which is still to be acted upon, hopefully, before the end of the year -- what would we do with that additional money. How could we use that additional money to actually impact our deferred maintenance issues?

We've gotten back to the Board of Regents and have given them a recommendation totaling \$27.5 million. Clearly one of the things that we would do would be to allocate some of that additional money to the Thompson Library Renovation Project, as well as some other key projects on campus. We will not know until later whether this additional money will actually materialize.

We also looked at the fact that we had some important non-state related projects that we wanted to continue to review: the Cancer Project, which is included in the Medical Center Plan, the Ohio Union Replacement, and the Student Academic Services Building. We will be moving ahead on some of the projects related to the Cancer Program Expansion and one of those is on our agenda today in our contracts. We have already given the authority to move ahead with the construction of the Ohio Union and the Student Academic Services Building is still in the design phase, and will come back to the Board in Autumn 2007.

It was a good report in the fact that we've impacted our deferred maintenance to the tune of \$132 million. The other side of that is the fact that as our buildings age, we still look at having another \$600 million come online as deferred maintenance of concerns because of the aging of our buildings and that will happen over the next five or six years. In the 2005 Bond Issue, \$40 million was not allocated in that. We have the ability to do some things that we hadn't planned to do, and that \$40 million is intended to be allocated again; \$10 million for the Ohio Union Project, \$10 million for the Student Academic Services Building; \$10 million to the Medical Center for their very extensive plans, and then \$10 million to be held in reserve for unexpected challenges or opportunities that we might have.

We had our first discussion on the target for the 2009 Bond Issue, which they are recommending at \$500 million. We need to actually give them that target soon so they can begin to plan ahead for these projects, and that will probably be back before the Board for your approval at our next meeting.

We talked a few minutes about emerging issues, particularly about our infrastructure needs. I think that both Mr. Brass and Mr. Wexner had some very good comments about that, but you can never overestimate what those infrastructure concerns are going to be. We have some significant ones out there because of what's happening on campus, and particularly what's happening in the Medical Center.

We talked about the St. Rt. 315 corridor that the city of Columbus is working to develop, and we are a part of the technology corridor. The operating cost of our research facilities is going to be higher than operating costs of other facilities. We have to take that into consideration as our Medical Research Tower comes online. There are always ongoing questions about state support, as we look ahead to the next state biennial budget, and also the study for the North Academic Core Urban Design study, how we take that area that is bounded -- south on 17th Avenue, north

September 22, 2006 meeting, Board of Trustees

on Woodruff, east on High Street, and then west on Tuttle -- and looking at that and what that need is going to be to actually update that academic corridor.

We had a quick review of our capital projects. Just to give you an idea, we currently have 892 projects going on on this campus and 524 of those would be catalogued as capital projects. We take a look at the key capital projects to be sure we're on time, and on budget, and if we're not, what are the problems relating to that. I'm pleased to tell you that in the Research Tower, we are on time and on budget, and I think that occupancy will happen as that building will be prepared to open in late November or early December.

We had the first reading on the Management of Facilities Improvement Projects and Real Estate Transactions Policy. We find a lot of things that come to the Board for approval, come back to us for repeat actions. There are some good recommendations in the policy and I would encourage you to take a look at it. We think we can keep some things from coming to the agenda repeatedly, like the renewal of easements that you are seeing today. When they have already been agreed to one time and are just a renewal, perhaps we can let staff take care of them without bringing them to us. Also for some of the projects that are actually not major capital projects coming to us once for design and construction authority, so that we don't hold them up and those can move ahead.

We had on the agenda a briefing of a proposed sale of property on the Marion Campus. This is a 1.1 acre property, valued at about \$350,000, which the Marion Regional Campus would like to put up for sale. It is going to be separated from the campus by a roadway improvement and it makes a lot of sense to sell this property. This item will come back to the Board for approval at the appropriate time.

We also have our regular feasibility, design, and construction projects on the agenda today for your approval. Two of the key projects would be the design for the Ohio Union Garage, and the construction of the Thompson Library, which has been on everybody's mind and how we are now prepared to move ahead for that construction.

There are numerous renewal easements for 25-year terms on the agenda this morning. There is also a long-term lease for real property in Dublin, which is currently occupied by our James Care Facility, and it would be a renewal and extension of that lease.

The final item that we will have coming to you is the final steps on our Fiscal Year 2007 Current Funds Budget. This budget proposal takes about nine months as it goes through the Board at various stages. We have already approved tuition for both the regional campuses and central campus, so this is our final action on that 2007 budget today. In that budget, we are reviewing the Health Systems budget, where there will be \$64 million committed for the Medical Center investments, and \$16 million committed for the short-term cash reserves.

As part of this, a recommendation will be to reduce what we have been doing to slow down the reduction of the assessment to the endowment fund, to fund development. It was to go down from 1.11% to 1%, but, frankly, knowing that we are getting ready to go into a capital planning process, the recommendation is that we slow that down for one year and take it from 1.11% to 1.10%. That is part of our recommendations to you. I would like to remind you that our emerging issues get wrapped around what happens in the next state budget that will begin to be discussed probably in March of next year.

Mr. Chairman, that is my report.

September 22, 2006 meeting, Board of Trustees

Judge Duncan:

Wow. Thanks a lot; it reflects a lot of hard work and consideration on all the committees. When I think of all of the hard work and time spent on the committees, I think about Dimon McFerson, and all the excellent participation and leadership he has rendered to this Board and University. As we all know, Dimon has been ill and I'm pleased to report that at our last conversation, he is doing much better and hopes to be back with us for the November meeting. So we'll all pray for Dimon.

--0--

CONSENT AGENDA

President Karen A. Holbrook:

We currently have fourteen resolutions on the Consent Agenda today -- numbers 3-16 -- and we would like to conduct separate votes for numbers 8, 10 and 13. We are seeking your approval for:

APPOINTMENTS TO THE RICHARD M. ROSS HOSPITAL BOARD

Resolution No. 2007-29

Synopsis: Approval of appointments to The Richard M. Ross Heart Hospital Board is proposed.

WHEREAS the Board of Trustees on October 3, 2003, approved the establishment of The Richard M. Ross Heart Hospital Board; and

WHEREAS all members of a specialized board shall be appointed by the Ohio state university board of trustees, in accordance with University Hospitals Board bylaw 3335-104-01, and in consultation with the vice president for health services, the senior vice president for health sciences, and the president of the university:

NOW THEREFORE

BE IT RESOLVED, That Jennette B. Bradley be appointed as a citizen member of The Richard M. Ross Heart Hospital Board for the term September 1, 2006 through August 31, 2009 (1st term) and that John B. Gerlach, Jr. be appointed as chairperson of The Richard M. Ross Heart Hospital Board for the term September 1, 2006, through August 31, 2007.

APPROVAL OF NON-ACADEMIC "CENTER" STATUS

Resolution No. 2007-30

Synopsis: Approval of non-academic "center" status is proposed.

WHEREAS faculty rule 3335-3-36 (A) specifies that: "Use of "center" or "institute" in the names of proposed units of the university shall be limited to academic centers, unless approved by the Council on Academic Affairs"; and

WHEREAS a request has been received for use of this term from the College of Medicine for the "Center for IT Innovations in Healthcare"; and

WHEREAS subsequent use of the term "academic" center will require that a formal proposal for academic center status will need to be submitted to the Council on Academic Affairs for full review; and

September 22, 2006 meeting, Board of Trustees

WHEREAS the Council on Academic Affairs reviewed this formal request on July 20, 2006, and had no objections:

NOW THEREFORE

BE IT RESOLVED, That the use of the term "center" for the "Center for IT Innovations in Healthcare" be approved, effective immediately.

RENAMING THE CENTER FOR INFORMATION TECHNOLOGIES

Resolution No. 2007-31

Synopsis: Approval to change the name of the "Center for Information Technologies" to the "Center for Business Performance Management" is proposed.

WHEREAS the Fisher College of Business has requested that the name of the "Center for Information Technologies" be changed to better reflect the changing nature of the activities being undertaken; and

WHEREAS the proposal has the support of the leadership of the Center and the support of the College; and

WHEREAS the change in name was reviewed and approved by the Council on Academic Affairs at its meeting on August 23, 2006:

NOW THEREFORE

BE IT RESOLVED, That the "Center for Information Technologies" be renamed the "Center for Business Performance Management," effective immediately.

PERSONNEL ACTIONS

Resolution No. 2007-32

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the July 7, 2006 meeting of the Board, including the following Appointments/Reappointments, Appointments/Reappointments of Chairpersons/Director, Leaves of Absence Without Salary, Professional Improvement Leaves, Emeritus Titles, and Promotion and Tenure, as detailed in the University Budget, be approved; and

BE IT FURTHER RESOLVED, That the Medical Staff Appointments and Reappointments approved on July 25, 2006, by The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board, be ratified.

Appointments

Name: THOMAS M. BEST
Title: Professor (The Warner M. and Lora Kays Pomerene Chair in Medicine)
College: Medicine
Term: July 1, 2005, through June 30, 2009

Name: ROBERT B. CHAMBERS
Title: Associate Professor (William H. Havener, M.D. Chair in Ophthalmology Research)
College: Medicine
Term: October 1, 2006, through June 30, 2010

September 22, 2006 meeting, Board of Trustees

Name: PAUL S. DENTON
Title: Chief of Police
Department/Division: Public Safety/Police
Effective: November 6, 2006
Present Position: Commander, City of Columbus, Division of Police

Name: RICHARD T. HART
Title: Professor (The Edgar C. Hendrickson Designated Chair in Biomedical Engineering)
College: Engineering
Term: July 1, 2006, through June 30, 2011
Present Position: Alden J. Laborde Professor and Chair, Department of Biomedical Engineering, Tulane University, New Orleans, LA

Name: MARY G. NASH
Titles: Chief Nursing Executive for OSU Health System/Clinical Professor
Office/College: Health Services/Nursing
Effective: September 5, 2006
Present Position: Chief Quality Officer and Chief Nursing Officer, Baptist Health System, Birmingham, AL

Name: PATRICK S. OSMER
Titles: Vice Provost for Graduate Studies and Dean
Office/School: Academic Affairs/Graduate School
Term: September 18, 2006, through June 30, 2011
Concurrent Appoint: Professor, Department of Astronomy and Distinguished Professor, College of Mathematical and Physical Sciences

Name: NESS B. SHROFF
Title: Professor (The Ohio Eminent Scholar in Computer Networking and Communication Research)
College: Engineering
Effective: October 1, 2007
Present Position: Professor, School of Electrical and Computer Engineering, and Director, Center for Wireless Systems and Applications, Purdue University, West Lafayette, IN

Name: DIETER WANNER
Title: Interim Associate Provost for International Affairs
Office: Academic Affairs
Term: January 1, 2007, through December 31, 2007

Reappointments

Name: VERNON L. BAISDEN
Title: Acting Chief of Police
Division: Police
Term: October 1, 2006, through November 5, 2006
Concurrent Position: Assistant Vice President, Department of Public Safety

Name: MARVIN T. BATTE
Title: Professor (The Fred N. VanBuren Professorship in Farm Management)
College: Food, Agricultural, and Environmental Sciences
Term: July 1, 2006, through June 30, 2011

September 22, 2006 meeting, Board of Trustees

Name: JOHN MUELLER
Title: Professor (The Wayne Woodrow Hayes Chair in National Securities Studies)
Center: Mershon Center
Term: October 1, 2005, through June 30, 2010

Name: UMIT A. OZGUNER
Title: Professor (The Transportation Research Center, Inc. Chair in Intelligent Transportation Systems)
College: Engineering
Term: July 1, 2004, through June 30, 2009

Name: JOHN F. SHERIDAN
Title: Professor (The George C. Paffenbarger – Alumni Chair in Dental Research)
College: Dentistry
Term: January 1, 2006, through December 31, 2010

Appointment of Chairpersons/Director

DAVID M. GOSS, Mathematics, effective October 1, 2006, through September 30, 2010

RICHARD T. HART, Biomedical Engineering, effective July 1, 2006, through June 30, 2010

JAMES S. KING,* Neuroscience, effective October 1, 2006, through June 30, 2007

WILLIAM M. RANDLE, Horticulture and Crop Science, effective November 1, 2006, through June 30, 2010

FRANKLIN W. SCHWARTZ, School of Earth Sciences, effective July 1, 2006, through September 30, 2009

Reappointment of Chairpersons

MICHAEL S. BEATTIE, Neuroscience, effective July 1, 2006, through September 30, 2006

MARK A. BENNETT,* Horticulture and Crop Science, effective August 1, 2006, through October 31, 2006

ANIL K. MAKHIJA, Finance, effective October 1, 2006, through September 30, 2010

*Interim

Leaves of Absence Without Salary

R. BRIAN STONE, Associate Professor, Department of Industrial, Interior and Visual Communication Design, effective September 17, 2006, through September 16, 2007, to accept the position as director of Usability and Design at Nationwide Insurance.

JANET S. DE MOOR, Assistant Professor, School of Public Health, effective August 15, 2006, through November 15, 2006, for personal reasons.

Professional Improvement Leaves

TIN-LUN HO, Distinguished Professor of Mathematical and Physical Sciences, Department of Physics, effective Autumn 2006, Winter Quarter and Spring Quarter 2007.

September 22, 2006 meeting, Board of Trustees

RALPH R.B. VON FRESE, Professor, School of Earth Sciences, effective Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007.

NANCY ETTLINGER, Associate Professor, Department of Geography, effective Winter Quarter 2007.

DAVID M. FRANCIS, Associate Professor, Department of Horticulture and Crop Science, effective January 1, 2007, through June 10, 2007.

JOY MCCORRISTON, Associate Professor, Department of Anthropology, effective Winter Quarter and Spring Quarter 2007.

Professional Improvement Leaves—Change in Dates

SUSAN M. HARTMANN, Professor, Department of History, change leave from Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007, to Winter Quarter and Spring Quarter 2007.

BOSTWICK F. WYMAN, Professor, Department of Mathematics, change leave from Spring Quarter 2007, to Winter Quarter 2007.

ARVED M. ASHBY, Associate Professor, School of Music, change leave from Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007, to Autumn Quarter 2006 and Winter Quarter 2007.

PHILIP C. BROWN, Associate Professor, Department of History, change leave from Autumn Quarter 2006 and Winter Quarter 2007, to Winter Quarter and Spring Quarter 2007.

BRENDA J. BRUEGGEMANN, Associate Professor, Department of English, change leave from Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007, to Spring Quarter 2007.

ALLISON B. GILMORE, Associate Professor, Department of History (Lima Campus), change leave from Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007, to Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

CHRISTOPHER A. REED, Associate Professor, Department of History, change leave from Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007, to Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

Emeritus Titles

KEITH W. BEDFORD, Department of Civil and Environmental Engineering and Geodetic Science, with the title Professor Emeritus, effective September 1, 2006.

RICHARD N. BOYD, Department of Physics, with the title Professor Emeritus, effective October 1, 2006.

CHARLES R. CURTIS, Department of Plant Pathology, with the title Professor Emeritus, effective October 1, 2006.

JERRY F. DOWNHOWER, Department of Evolution, Ecology and Organismal Biology, with the title Professor Emeritus, effective September 1, 2006.

DAVID H. ELLIOT, School of Earth Sciences, with the title Professor Emeritus, effective September 1, 2006.

MICHAEL R. FOSTER, Department of Aerospace Engineering, with the title Professor Emeritus, effective September 1, 2006.

September 22, 2006 meeting, Board of Trustees

ELIZABETH L. GROSS, Department of Biochemistry, with the title Professor Emeritus, effective September 1, 2006.

STEPHEN F. SCHAAL, Department of Internal Medicine, with the title Professor Emeritus, effective September 1, 2006.

DEANNA L. TRIBE, Ohio State University Extension, with the title Associate Professor Emeritus, effective October 1, 2006.

SUSAN E. WYNGAARD, University Libraries, with the title Assistant Professor Emeritus, effective September 1, 2006.

ROBERT L. ROMIG, School of Environment and Natural Resources, with the title Assistant Professor Emeritus, effective September 1, 2006.

Promotion and Tenure

COLLEGE OF BIOLOGICAL SCIENCES

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Ahmer, Brian, Microbiology, effective October 1, 2006

COLLEGE OF FOOD, AGRICULTURAL, AND ENVIRONMENTAL SCIENCES

PROMOTION TO PROFESSOR

Sohngen, Brent, Agricultural, Environmental and Developmental Economics, effective October 1, 2006

MAX FISHER COLLEGE OF BUSINESS

PROMOTION TO PROFESSOR--RESCIND

Teoh, Siew Hong, Accounting and Management Information Systems, effective October 1, 2006

Medical Staff—Initial Appointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Michelle A. Angelis, P.A., Allied Health, Internal Medicine, Hematology/Oncology, 6/9/2006

Don M. Benson, M.D., Attending, Internal Medicine, Hematology/Oncology, 7/1/2006

Paul M. Bloomston, M.D., Attending, Surgery, Surgical Oncology, 7/1/2006

Timothy D. Brennan, M.D., Associate Attending, Internal Medicine, General Medicine, 7/1/2006

Ryan F. Deasy, M.D., Associate Attending, Ophthalmology, 7/1/2006

Charles A. Elmaraghy, M.D., Associate Attending, Otolaryngology, 7/1/2006

Leroy W. Essig II, M.D., Associate Attending, Internal Medicine, Pulmonary, 7/1/2006

Matthew C. Exline, M.D., Associate Attending, Internal Medicine, Pulmonary, 7/1/2006

D. Reynell Harder Smith, D.O., Associate Attending, Ophthalmology, 7/1/2006

Ayesha K. Hasan, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 8/1/2006

Grace Hercl, D.O., Community Associate, Internal Medicine, General Medicine, 6/9/2006

Todd C. Hobgood, M.D., Associate Attending, Otolaryngology, 6/9/2006

Abraham Jacob, M.D., Associate Attending, Otolaryngology, 7/1/2006

Mark T. Kearns, M.D., Associate Attending, Internal Medicine, General Medicine, 7/1/2006

Simon S. Lo, M.B, ChB., Attending, Radiation Medicine, 7/1/2006

Scott A. Maffett, M.D., Associate Attending, Internal Medicine, General Medicine, 7/1/2006

Ernest L. Mazzaferri, Jr., M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 7/1/2006

September 22, 2006 meeting, Board of Trustees

Jennifer A. Meddings, M.D., Associate Attending, Internal Medicine, General Medicine, 7/1/2006

James Neuenschwander II, M.D., Associate Attending, Emergency Medicine, 7/25/2006

Enver Ozer, M.D., Associate Attending, Otolaryngology, 6/9/2006

Jonathan P. Parsons, M.D., Associate Attending, Internal Medicine, Pulmonary, 7/1/2006

Min Pu, M.D., Ph.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 7/1/2006

Lee M. Sulkin, C.N.P., Allied Health, Surgery, Thoracic/Cardiovascular, 6/9/2006

John P. Tzougournis, M.D., Associate Attending, Internal Medicine, Digestive Disease, 7/1/2006

Larry D. VanFossen, D.O., Associate Attending, Anesthesiology, 6/9/2006

Aaron S. Wenger, M.D., Associate Attending, Internal Medicine, General Medicine, 7/1/2006

Scott B. Armen, M.D., Surgery, General Surgery, Associate Attending, 8/1/2006

Matthew D. Ashmun, M.D., Associate Attending, Internal Medicine, General Medicine, 7/25/2006

Alberto C. Benedicto, M.D., Associate Attending, Radiology, 7/25/2006

Christopher G. Brown, M.D., Associate Attending, Internal Medicine, Nephrology, 7/25/2006

Amit K. Chatterjee, M.D., Associate Attending, Internal Medicine, General Medicine, 7/25/2006

Stephen C. Cook, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 8/1/2006

Steven M. Dean, D.O., Associate Attending, Internal Medicine, Cardiovascular Medicine, 8/1/2006

Jonathan R. deHart, M.D., Associate Attending, Pathology, 7/25/2006

Solomon Z. Darrow, M.D., Associate Attending, Radiology, 7/25/2006

Craig C. Hofmeister, M.D., Attending, Internal Medicine, Hematology/Oncology, 8/1/2006

Mahmoud Houmsse, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 7/25/2006

Jeffrey L. Hunter, D.O., Associate Attending, Family Medicine, 8/1/2006

Justin F. Klamerus, M.D., Associate Attending, Internal Medicine, General Medicine, 7/25/2006

Jeffrey R. Kneile, M.D., Associate Attending, Pathology, 7/25/2006

Amy M. Kopp, M.S., Associate Attending, Ophthalmology, 7/25/2006

Kavitha V. Kosuri, D.O., Attending, Internal Medicine, Hematology/Oncology, 7/25/2006

Brett D. Kucej, M.D., Associate Attending, Radiology, 7/25/2006

Mahamadu Maida, M.D., Community Associate, Internal Medicine, General Medicine, 7/25/2006

Stanley I. Martin, M.D., Associate Attending, Internal Medicine, Infectious Disease, 7/25/2006

Susan D. Moffatt-Bruce, M.D., Ph.D., Associate Attending, Surgery, Thoracic/Cardiovascular, 7/25/2006

Lisa S. Parks, C.N.P., Surgery, Surgical Oncology, Allied Health, 7/25/2006

Bhuvanewari Ramaswamy, M.D., Attending, Internal Medicine, Hematology/Oncology, 7/25/2006

Kevin M. Reavis, M.D., Associate Attending, Surgery, General Surgery, 7/25/2006

David B. Renton, M.D., Associate Attending, Surgery, General Surgery, 7/25/2006

Joel M. Rice, C.N.P., Internal Medicine, Hematology/Oncology, Allied Health, 7/25/2006

Anjali A. Satoskar, M.D., Associate Attending, Pathology, 7/25/2006

Stephen W. Seward, M.D., Community Associate, Internal Medicine, General Medicine, 7/25/2006

Suresh K. Yadav, M.B.B.S., Community Associate, Internal Medicine, General Medicine, 7/25/2006

Martha M. Yearsley, M.D., Associate Attending, Pathology, 7/25/2006

Jeremy D. Young, M.D., Associate Attending, Internal Medicine, Infectious Disease, 7/25/2006

Matthew Zirwas, M.D., Associate Attending, Internal Medicine, Dermatology, 8/14/2006

September 22, 2006 meeting, Board of Trustees

Medical Staff—Provisional to Full Appointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Michael D. Adolph, M.D., Associate Attending, Surgery, Pain and Palliative Medicine, 6/9/2006
Mario Ammirati, M.D., Associate Attending, Neurological Surgery, 6/9/2006
Thomas M. Best, M.D., Ph.D., Associate Attending, Family Medicine, Family Med/Sports Medicine, 6/9/2006
Kathleen Cadmus, C.N.S., C.N.P., Internal Medicine, Hematology/Oncology, Allied Health, 6/9/2006
Osama El-Sayed, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 6/9/2006
David C. Flanigan, M.D., Associate Attending, Orthopaedics, 6/9/2006
Rajaram Karne, M.B.B.S., Associate Attending, Internal Medicine, Endocrinology, 6/9/2006
Barbara Olcott, C.R.N.A., Anesthesiology, Allied Health, 6/9/2006
Trupti V. Patel, M.D., Associate Attending, Psychiatry, 6/9/2006
Elizabeth H. Paul, C.R.N.A., Anesthesiology, Allied Health, 6/9/2006
Joan Simon, Ph.D., Associate Attending, Family Medicine, 6/9/2006
Michael J. Sullivan, M.D., Associate Attending, Otolaryngology, 6/9/2006
Shu-Hua Wang, M.D., Associate Attending, Internal Medicine, Infectious Disease, 6/9/2006
Steven M. Devine, M.D., Attending, Internal Medicine, Hematology/Oncology, 7/25/2006
Nandkishore Gurram, M.B.B.S., Associate Attending, Internal Medicine, Cardiovascular Medicine, 7/25/2006
Steven W. Ing, M.D., Associate Attending, Internal Medicine, Endocrinology, 7/25/2006
Donald O. Mauger, P.A.-C, Surgery, Cardiothoracic Surgery, Allied Health, 7/25/2006
Melissa K. Radaker, P.A.-C, Surgery, Cardiothoracic Surgery, Allied Health, 7/25/2006
Gretchen Whitby, C.N.P., Internal Medicine, Pulmonary, Allied Health, 7/25/2006

Medical Staff—Reappointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Randy L. Mills, D.O., Community Associate, Internal Medicine, General Medicine, 6/9/2006 - 10/31/2007
Mollie E. Moran, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 2/10/2006 - 10/31/2007
Stephen F. Pariser, M.D., Associate Attending, Psychiatry, 6/9/2006 - 10/31/2007
Jeffrey G. Poulos, M.D., Community Associate, Internal Medicine, General Medicine, 6/9/2006 - 10/31/2007
Lisa R. Rader, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 6/9/2006 - 10/31/2007
Robert D. Rupert, Jr., M.D., Clinical Attending, Internal Medicine, Hematology/Oncology, 6/9/2006 - 10/31/2007
Christine M. Saas, C.R.N.A., Allied Health, Anesthesiology, 6/9/2006 - 3/31/2008
Chittoor B. Sai-Sudhakar, M.D., Associate Attending, Surgery, Thoracic/Cardiovascular, 6/9/2006 - 3/31/2008
Philip Samuels, M.D., Associate Attending, Obstetrics and Gynecology, 6/9/2006 - 3/31/2008
Linbee V. Sayat, M.D., Associate Attending, Obstetrics and Gynecology, 6/9/2006 - 3/31/2008
Michael R. Sayre, M.D., Associate Attending, Emergency Medicine, 6/9/2006 - 3/31/2008
Dwight A. Scarborough, M.D., Clinical Attending, Internal Medicine, Dermatology, 6/9/2006 - 3/31/2008
Niranjan T. Shah, M.D., Associate Attending, Pathology, 6/9/2006 - 3/31/2008
Arwa Y. Shanaah, M.D., Associate Attending, Pathology, 6/9/2006 - 3/31/2008
Rulong Z. Shen, M.D., Associate Attending, Pathology, 6/9/2006 - 3/31/2008
Phillip J. Shubert, M.D., Associate Attending, Obstetrics and Gynecology, 6/9/2006 - 3/31/2008

September 22, 2006 meeting, Board of Trustees

Ronald J. Siegle, M.D., Clinical Attending, Otolaryngology, 6/9/2006 - 3/31/2008
Kelly A. Slavens, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 6/9/2006 - 3/31/2008
Gaylynn J. Speas, M.D., Associate Attending, Anesthesiology, 6/9/2006 - 3/31/2008
Adam C. Spiess, M.D., Associate Attending, Otolaryngology, 6/9/2006 - 3/31/2008
Michael J. Stanek, D.O., Attending, Internal Medicine, Hematology/Oncology, 6/9/2006 - 3/31/2008
Jean E. Starr, M.D., Associate Attending, Surgery, Vascular, 6/9/2006 - 3/31/2008
Nancy L. Stasik, P.A.-C, Allied Health, Surgery, Thoracic/Cardiovascular, 6/9/2006 - 3/31/2008
Annette L. Staub, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 6/9/2006 - 3/31/2008
Deanna J. Stevens, M.D., Associate Attending, Ophthalmology, 6/9/2006 - 3/31/2008
H. Craig Stevens, M.D., Community Associate, Internal Medicine, General Medicine, 6/9/2006 - 3/31/2008
Steven Teich, M.D., Clinical Attending, Surgery, Pediatric Surgery, 6/9/2006 - 3/31/2008
Andrew M. Thomas, M.D., Associate Attending, Internal Medicine, General Medicine, 6/9/2006 - 3/31/2008
Karen M. Thomas, D.O., Associate Attending, Neurology, 6/9/2006 - 3/31/2008
Adam C. Tzagournis, M.D., Associate Attending, Internal Medicine, Digestive Disease, 6/9/2006 - 3/31/2008
Michael A. Tzagournis, M.D., Associate Attending, Internal Medicine, Digestive Disease, 6/9/2006 - 3/31/2008
Meade C. Van Putten, D.D.S., Associate Attending, Dental, 6/9/2006 - 3/31/2008
Geoffrey C. Vaughan, M.D., Associate Attending, Internal Medicine, General Medicine, 6/9/2006 - 3/31/2008
Umar Waheed, M.D., Community Associate, Internal Medicine, General Medicine, 6/9/2006 - 3/31/2008
Michael J. Walker, M.D., Attending, Surgery, Surgical Oncology, 6/9/2006 - 3/31/2008
Jeffrey E. Weiland, M.D., Associate Attending, Internal Medicine, Pulmonary, 6/9/2006 - 3/31/2008
Karen M. Weiland, C.N.P, Allied Health, Internal Medicine, Endocrinology, 6/9/2006 - 3/31/2008
Lisa M. Werner, D.O., Associate Attending, Psychiatry, 6/9/2006 - 3/31/2008
Craig E. Williams, M.D., Associate Attending, Psychiatry, 6/9/2006 - 3/31/2008
JoAnna D. Williams, M.D., Associate Attending, Pathology, 6/9/2006 - 3/31/2008
Karen S. Williams, P.A.-C, Allied Health, Radiation Medicine, 6/9/2006 - 3/31/2008
Jill S. Woolard, P.A.-C, Allied Health, Surgery, Urological Surgery, 6/9/2006 - 3/31/2008
William T.C. Yuh, M.D., Associate Attending, Radiology, 6/9/2006 - 3/31/2008
Kelley J. Zyniewicz, M.D., Clinical Attending, Internal Medicine, Dermatology, 6/9/2006 - 3/31/2008

Medical Staff—Requests for Additional Privileges (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Laura Adams, C.N.P., Internal Medicine, Prescriptive authority, Chemotherapy administration, Skin punch biopsy & suturing, Allied Health, 6/9/06
Mario Ammirati, M.D., Neurological Surgery, Gamma Knife, Associate Attending, 6/9/06
Carol L. Amore, C.N.P., Internal Medicine, Bone marrow aspiration and biopsy, Admin chemo via Omayo reservoir, Intrathecal chemo administration, Allied Health, 6/9/06
Tammy Bennett, C.N.P., Internal Medicine, Prescriptive authority, Bone marrow aspiration and biopsy, LP with intrathecal chemo, Intrathecal chemo administration, Allied Health, 6/9/06
Don M. Benson, M.D., Internal Medicine, Moderate Sedation, Attending, 6/9/06
Timothy D. Brennan, M.D., Internal Medicine, Moderate Sedation, Associate Attending, 6/9/06
Charles A. Elmaraghy, M.D., Otolaryngology, Laser, Associate Attending, 6/9/06
Theodore D. Fraker, M.D., Internal Medicine, Nuclear Cardiology, Associate Attending, 6/9/06
Christine Hall, C.N.P., Internal Medicine, Discharge writing, Allied Health, 6/9/06

September 22, 2006 meeting, Board of Trustees

Ayesha K. Hasan, M.D., Internal Medicine, Moderate and Deep Sedation, Associate Attending, 6/9/06

Megan Hendershot, P.A., Surgery, Chest tube removal, Allied Health, 6/9/06

Todd C. Hobgood, M.D., Otolaryngology, Laser, Associate Attending, 6/9/06

Abraham Jacob, M.D., Otolaryngology, Laser, Associate Attending, 6/9/06

Mandy Krouse, C.N.P., Internal Medicine, Prescriptive authority, Intrathecal chemo administration, Allied Health, 6/9/06

Tom E. Rodgers, P.A.-C, Surgery, CVC insertion, Allied Health, 7/25/2006

Dwight A. Scarborough, M.D., Internal Medicine, Moderate Sedation, Clinical Attending, 7/25/2006

Nancy J. Williams, P.A.-C, Surgery, Chest tube removal, Allied Health, 7/25/2006

RESOLUTIONS IN MEMORIAM

Resolution No. 2007-33

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Frederick G. Kilgour

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on July 31, 2006, of Frederick G. Kilgour, Professor Emeritus in University Libraries.

Born on January 6, 1914, in Springfield, Massachusetts, Frederick Gridley Kilgour earned a bachelor's degree in chemistry from Harvard in 1935 and continued to work at the Harvard library. During World War II, he worked in the Office of Strategic Services and had responsibility for amassing and managing a collection of publications from enemy countries and occupied areas. After the war and until 1948, he was deputy director of the Office of Intelligence Collection and Dissemination at the State Department. Upon leaving government service, Professor Kilgour became librarian of the Yale Medical Library and continued his interest in managing and disseminating information. In 1961 he and medical librarians at Columbia and Harvard developed a prototype of a computerized library catalog for the three universities.

In 1967, the Ohio College Association brought Professor Kilgour to Ohio to develop a common catalog for its 54 members. College librarians and Frederick Kilgour believed they could achieve great efficiencies and economies by creating cataloging information with computers and using digital communication to share catalog records. OSU provided him an office in the Thompson Library and an appointment as professor. The Ohio College Library Center (OCLC) opened in 1971 and six years later expanded its services to other states and countries. As it grew, OCLC moved from OSU to its own campus in Dublin, Ohio.

Fred Kilgour served as first president of OCLC from 1967-80. He and OCLC transformed librarianship as a profession and brought library services into the digital era. OCLC became an international network for bibliographic information and services. Today, it links 55,000 institutions in 110 countries. Kilgour and OCLC developed WorldCat, the world's largest database of cataloging records, as well as an online interlibrary loan system and other digitally based services. The Ohio State University Libraries has continued to be a leading member of OCLC since its founding.

In 1981, Professor Kilgour left the presidency of OCLC but remained active as a trustee and as a distinguished scholar and speaker. In 1984 he retired from The Ohio State University and was named Professor Emeritus. In 1990 he became Distinguished Research Professor for the School of Information and Library Science at the University of North Carolina at Chapel Hill, from which he retired in 2004. He wrote more than 200 scholarly papers and founded the journal *Information Technology and Libraries*. His books include *Evolution of the Book* and *Engineering in History*.

In 1980, The Ohio State University awarded Frederick Kilgour an honorary Doctor of Humane Letters degree, and he received honorary degrees from four other universities also. Professional associations, including the American Society for Information Science and Technology and the American Library Association, also honored Professor Kilgour for his leadership and contributions to librarianship.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Frederick G. Kilgour its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

September 22, 2006 meeting, Board of Trustees

Adalbert Koestner

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 2, 2006, of Adalbert Koestner, Professor Emeritus and previous chairperson of the Department of Veterinary Pathobiology (now the Department of Veterinary Biosciences).

Professor Koestner received his professional education in veterinary medicine from the University of Munich and his Master of Science and Ph.D. degrees from The Ohio State University. He was a member of The Ohio State University faculty for 26 years, attaining the rank of professor in 1964, and served as chairperson of the Department of Veterinary Pathobiology for ten years. Upon retirement in 1981, he was named Professor Emeritus and moved to Michigan to become chairperson of the Department of Pathology at the University of Michigan for eight years.

Dr. Koestner was an internationally recognized authority in comparative neuropathology, neurotoxicology, and experimental neurocarcinogenesis.

During his professional career, he received numerous awards, including the Weil Award of the American Association of Neuropathologists, the Gaines Award from the American Veterinary Medical Association, recognition as Distinguished Member of the American College of Veterinary Pathologists, the Distinguished Alumnus Award from the OSU College of Veterinary Medicine, and an Honorary Doctorate from the University of Temesvar, Romania.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Adalbert Koestner its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Earl F. Murphy

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on July 23, 2006, of Earl Finbar Murphy, Professor Emeritus in The Michael E. Moritz College of Law.

Professor Murphy earned his A.B. and M.A. degrees at Butler University. Graduating first in his law school class at Indiana University, Professor Murphy became a graduate law fellow at Yale University where he earned both his Master of Law and Doctor of Judicial Science degrees. After practicing law for two years in Indianapolis, he joined the faculty of Temple University Law School and, in 1969, joined the faculty at The Ohio State University College of Law. In 1981, he was named The C. William O'Neill Professor in Law and Judicial Administration, a title that he held until his retirement in 2000. In 1991, he was named "Outstanding Professor of the Year" by that year's graduating class.

A pioneer in his field, Professor Murphy was instrumental in helping to expand the field of environmental law. His authored books included *Water Purity; Governing Nature; Man and His Environment: Law, Nature, Bureaucracy and the Rules of Property; Regulating the Renewing Environment; Energy and Environmental Balance; and Quantitative Groundwater Law*. He published numerous book chapters and periodical articles and regularly taught Environmental Law, Natural Resources Law, Land Use Planning, and Property.

His scholarship was valued by many for both its breadth and depth. He held a courtesy appointment as professor of natural resources for The Ohio State University College of Food, Agricultural, and Environmental Sciences and served as an adjunct professor for the College of Engineering because of his expertise in urban planning.

September 22, 2006 meeting, Board of Trustees

Professor Murphy married Joanne Wharton Murphy (OSU Law '58) in 1972; she taught at the College and served as assistant dean for alumni relations for 14 years. Following her death in 1997, Professor Murphy established The Joanne Wharton Murphy/Classes of 1965 and 1973 Professorship of Law. He was a vibrant member of the University community, serving on numerous college and University committees. He was an active member of the First Unitarian Universalist Church in Columbus, Ohio.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Earl Finbar Murphy its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Herbert S. Parnes

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 5, 2006, of Herbert S. Parnes, Professor Emeritus in the Department of Economics.

Professor Parnes was a professor of Economics at The Ohio State University from 1951-80 and chairperson of the Faculty of Labor and Human Resources from 1975-80. He was a national leader on research issues associated with the aging of the population in the United States.

At the request of Daniel Patrick Moynihan, then an Assistant Secretary of Labor, Professor Parnes and Howard Rosen, Director of the Manpower Administration in the U.S. Department of Labor, began the National Longitudinal Surveys of Work Experience (the NLS) in 1965, a longitudinal survey project that continues to this day. The NLS has provided a wealth of information about the dynamics of the U.S. population by tracking the lives of tens of thousands of Americans over many decades. The NLS project continues as the University's longest running research project and one of its most successful – an effort that has involved many faculty, graduate students, and undergraduates for over 40 years. The surveys Professor Parnes began are used around the world and in virtually every major university in the U.S. and have accumulated over 5,000 citations in books, scholarly articles, dissertations, and working papers. The NLS has been the intellectual model behind numerous longitudinal surveys in the U.S. and worldwide over the last 40 years and stands as a living testimony to the leadership of Professor Parnes.

Professor Parnes received his Ph.D. degree in economics from The Ohio State University in 1950, following four years of service in the U.S. Army between 1942-46. During leaves of absence from Ohio State he was a visiting professor of Economics at Princeton University from 1954-55; a visiting professor of Business Administration at the University of Minnesota during the summer of 1959; and a consultant for the Organization for Economic Cooperation and Development in Paris, France, during 1961-62.

Throughout his career, he served in a variety of consulting and advisory capacities, including the National Security Resources Board (1952); the President's Committee on Engineers and Scientists (1959); the Organization for Economic Cooperation and Development (1961-65); the Review Panel on Aging, National Institute on Aging; and the U.S. Department of Health and Social Services (1980-82). Following his retirement from Ohio State in 1980, he became a professor of Industrial Relations and Human Resources at Rutgers University, Institute of Management and Labor Relations (1980-83). He returned to Columbus and served as principal investigator of one segment of the NLS from 1988-92 through a grant from the National Institutes on Aging.

Professor Parnes published more than 25 books and monographs, including *Peoplepower: Elements of Human Resource Policy* (1984) and the self-published memoir, *A Prof's Life*. He authored numerous journal articles on labor market topics, with particular emphasis on issues related to aging and retirement in the years preceding

September 22, 2006 meeting, Board of Trustees

his retirement. His legacy includes the professional development of hundreds of students and colleagues, who took with them out into the world not only the professional wisdom that Professor Parnes could so effectively impart but also the unique interpersonal skills and visible concern for others that were the essence of his outlook on individuals and society.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Herbert S. Parnes its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Evelyn E. Pintz

The Board of Trustees of the Ohio State University expresses its sorrow upon the death on June 15, 2006, of Evelyn E. Pintz, M.D., Associate Professor of Clinical Medicine in the Department of Internal Medicine.

Dr. Pintz graduated from the Ohio Dominican College, and received her M.D. degree from the Medical College of Ohio in Toledo. She completed her training in internal medicine at The Ohio State University, and since 1984 had been a faculty member in the Division of General Internal Medicine, Department of Internal Medicine, at The Ohio State University College of Medicine. She rose through the faculty ranks to attain the position of director of the Internal Medicine residency training program, a position which she held for 10 years. She also served as assistant vice chairman in the Department of Internal Medicine during that time. Later Dr. Pintz was appointed as the medical director for General Internal Medicine in The Ohio State University Primary Care Network of The Ohio State University Hospitals.

Dr. Pintz was a very respected physician who was well-loved by her many patients. She also had a passion for teaching and was extremely proud of the many young men and women physicians who completed their residencies under her directorship, and who went on to outstanding careers in clinical practice, teaching, and research.

Professor Pintz was an active member of the academic community, serving on and chairing numerous committees in the College of Medicine and the Department of Internal Medicine. She also performed research and published in the area of education in ambulatory house staff teaching clinics.

Evelyn was also a very active volunteer in the Boy Scouts of America program. She served the Simon Kenton Boy Scout Council in many capacities, and was highly active in the scouting program of a great many young boys, including her two children. She was very proud of the accomplishments of the many boys she worked with in this capacity.

On behalf of the University community, the Board of Trustees expresses to the family of Dr. Evelyn E. Pintz its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

Maurice L. Zox

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on July 16, 2006, of Maurice L. Zox, M.D., Assistant Professor Emeritus in the Department of Surgery.

Dr. Zox received his undergraduate degree at the University of Wisconsin and his medical degree at Rush Medical College in Chicago. He served as a junior intern at Elgin State Hospital in Elgin, Illinois, and as a senior intern at Los Angeles General Hospital. He was a surgical resident at Graduate Hospital of the University of

September 22, 2006 meeting, Board of Trustees

Pennsylvania Graduate School of Medicine and Jewish Hospital in Philadelphia. During World War II, he served as a medical officer in the U.S. Army and achieved the rank of major.

Dr. Zox was a member of the clinical faculty of the Department of Surgery for more than 25 years, during which time he participated in the Department's teaching activities and conferences. Dr. Zox had a distinguished career as an active general surgeon in the community and was associated with Riverside Methodist Hospital, Mt. Carmel Hospital, Children's Hospital, and The Ohio State University Hospitals. In addition to his private practice and serving as medical director of the Shoe Corporation of America (SCOA Industries), he was appointed Assistant Professor Emeritus in 1979 and became a long-time guest lecturer in the College of Medicine.

He was a fellow of the American College of Surgeons, a diplomate of the American Board of Surgery, and a member of other national, state, and local professional organizations.

On behalf of the University community, the Board of Trustees expresses to the family of Dr Maurice L. Zox its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

REPORT ON UNIVERSITY DEVELOPMENT

Resolution No. 2007-34

Synopsis: The report on the receipt of gifts and the summary for June 2006 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of the William H. Havener, M.D. Chair in Ophthalmology Research, The John W. Wolfe Chair in Human Cancer Genetics, and The Stephen F. Loeb's Professorship in Health Services Management and Policy; and

WHEREAS this report includes the establishment of thirty-seven (37) new named endowed funds and the revision of eight (8) endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of June 2006 be approved.

September 22, 2006 meeting, Board of Trustees

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Endowed Chair

William H. Havener, M.D. Chair in Ophthalmology Research

The William H. Havener, M.D., Chair in Ophthalmology Research Fund was established June 2, 1989 by the Board of Trustees of The Ohio State University with gifts from friends and colleagues in honor of William H. Havener, M.D. The description was revised on December 1, 1989. The funding level has been reached and the chair was established September 22, 2006.

The annual distribution from this fund shall be used to provide support for a chair position to a faculty member in the Department of Ophthalmology who is an outstanding teacher of residents and medical students in clinical ophthalmology and who provides excellent patient care. The recipient will be recommended by the chairperson of the Department of Ophthalmology to the senior vice president for Health Sciences and the dean of the College of Medicine and approved by the Board of Trustees.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$1,285,548.00 (grandfathered)

Establishment of Named Endowed Funds

Stephen Strasser, Ph.D. Award in Cardiovascular Research Fund

The Stephen Strasser, Ph.D. Award in Cardiovascular Research Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in honor of Charles A. Bush, M.D., with support from Stephen Strasser, Ph.D. (retired associate professor of Health Services Management and Policy) of Dublin, Ohio.

The annual distribution from this fund shall be used to provide annual research awards in cardiovascular research in the Division of Cardiology to fellows who have either distinguished themselves in the field or who have demonstrated such capability. Selection shall be based on merit and made at the recommendation of the director of the Division of Cardiology in consultation with the chairperson of the Department of Internal Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

September 22, 2006 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees as recommended by the director of the Division of Cardiology in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$61,900.00

OSU Medical Center Autism Endowment Fund in Neurology

The OSU Medical Center Autism Endowment Fund in Neurology was established September 22, 2006, by the Board of Trustees of The Ohio State University in honor of David Beversdorf, M.D., with support from Stephen Strasser, Ph.D. (retired associate professor of Health Services Management and Policy) of Dublin, Ohio.

The annual distribution from this fund shall support research and professional education and training programs on the diagnosis, treatment and cure of autism and/or related conditions or diseases. Income allocation shall be made at the recommendation of the chairperson of the Department of Neurology. Support may be provided for, but is not limited to: lectures by visiting faculty; supplies or equipment; conference, travel, or publishing costs for research or educational purposes; implementation of new instructional technology or teaching models; or for fellowships or scholarships.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees as recommended by the chairperson of the Department of Neurology in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$60,527.00

Barry Friedman, M.D. Scholarship Fund in General Internal Medicine

The Barry Friedman, M.D. Scholarship Fund in General Internal Medicine was established September 22, 2006, by the Board of Trustees of The Ohio State University in honor of Barry Friedman, M.D., with support from Stephen Strasser, Ph.D. (retired associate professor of Health Services Management and Policy) of Dublin, Ohio.

The annual distribution from this fund shall be used to provide annual scholarships in the Division of General Internal Medicine to medical students with an interest in this specialty. Selection shall be based on merit or on financial need and made at the recommendation of the director of the Division of General Internal Medicine in consultation with the College of Medicine's Committee for Scholarship Awards and with the Office of Student Financial Aid.

September 22, 2006 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees as recommended by the director of the Division of General Internal Medicine in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$60,400.00

OSU Medical Center Child/Youth Psychiatry Education Fund

The OSU Medical Center Child/Youth Psychiatry Education Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in honor of Kitty Soldano, Ph.D., with support from Stephen Strasser, Ph.D. (retired associate professor of Health Services Management and Policy) of Dublin, Ohio.

The annual distribution from this fund shall be used to provide child and adolescent psychiatry education and training experiences for health care professionals and trainees. Educational and training opportunities will be identified by a multidisciplinary education and training committee of the Division of Child and Adolescent Psychiatry in the College of Medicine and recommended to the chairperson of the Department of Psychiatry for approval. Educational opportunities for professionals working with children and adolescents in the broader community will be given special consideration.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees as recommended by the chairperson of the Department of Psychiatry in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$60,400.00

OSU Medical Center Critical Care Education Fund

The OSU Medical Center Critical Care Education Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in honor of James Allen, M.D., with support from Stephen Strasser, Ph.D. (retired associate professor of Health Services Management and Policy) of Dublin, Ohio.

September 22, 2006 meeting, Board of Trustees

The annual distribution from this fund shall support programs and special initiatives that enhance the education of medical professionals and improve the dissemination of medical knowledge in the field of critical care. Selection shall be made at the recommendation of the director of the Division of Pulmonary and Critical Care Medicine in consultation with the chairperson of the Department of Internal Medicine. Distribution may support, but is not limited to: lectures by visiting faculty; supplies or equipment; conference, travel, or publishing costs for educational purposes; or incorporation of instructional technology or new teaching models.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees as recommended by the director of the Division of Pulmonary and Critical Care Medicine in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$60,400.00

The Hirzel Family Research Endowment Fund

The Hirzel Family Research Endowment Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University with gifts from the Hirzel family and friends.

The annual distribution from this fund shall be used to support research and education in functional foods related to inhibition and prevention of disease. Preference will be given to advancing team efforts between food scientists and medical scientists, such as collaborations between the food science faculty or endowed chairs and The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute. These efforts must advance our knowledge of how food improves health or functions in a physiologically significant way.

Expenditures shall be directed by the chairperson of the Department of Food Science and Technology or a successor in consultation with the faculty of the department or other academic programs that actively engage in the study of functional foods for the maintenance of health including research and education. The fund should inspire scholars to enter this field of discovery by directly supporting faculty and student work in investigating functional foods related to health issues. The ultimate beneficiaries should be consumers who achieve better health from the outcomes of this endowed program.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated

September 22, 2006 meeting, Board of Trustees

by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$30,365.00

The David E. Hahn Endowment Fund to Enhance the Student Experience

The David E. Hahn Endowment Fund to Enhance the Student Experience was established September 22, 2006, by the Board of Trustees of The Ohio State University with gifts from the Department of Agricultural, Environmental, and Development Economics in honor of Dr. David E. Hahn (Ph.D., Cornell University; M.S., Pennsylvania State University; B.S., The Ohio State University).

The annual distribution from this fund shall be used to support undergraduate and graduate student activities, and co-curricular activities including, but not limited to, the National Agricultural Marketing Association (NAMA). The distribution shall support student activities, including educational facilities, equipment, and materials, travel, and awards. Uses shall not include scholarship or fellowship support. Expenditures shall be approved by the chairperson of the Department of Agricultural, Environmental, and Development Economics or their successor in consultation with the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Agricultural, Environmental, and Development Economics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$26,025.00

Extension Community Development Fund

The Extension Community Development Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University with gifts from employee contributions and transfers of funds from existing accounts within OSU Extension.

The annual distribution from this fund shall be used for program support for community development work with OSU Extension. Expenditures shall be approved by the assistant director of the OSU Extension Community Development Program in consultation with the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

September 22, 2006 meeting, Board of Trustees

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the assistant director of OSU Extension Community Development Program in consultation with the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The Alfred L. Nicely, M.D. Resident Education Fund in Ophthalmology

The Alfred L. Nicely, M.D. Resident Education Fund in Ophthalmology was established September 22, 2006, by the Board of Trustees of The Ohio State University with gifts from Dr. Alfred L. Nicely (B.S., 1957; M.D., 1961; M.M.S., 1965) of Akron, Ohio.

The annual distribution from this fund shall be used to support the education and training of medical residents in the Department of Ophthalmology. Allocation of funds shall be approved by the chairperson of the Department of Ophthalmology and with the senior vice president for Health Sciences and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the chairperson of the Department of Ophthalmology in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Department of Food Science and Technology Endowed Fund for Equipment

The Department of Food Science and Technology Endowed Fund for Equipment was established September 22, 2006, by the Board of Trustees of The Ohio State University with gifts from friends and alumni of the College of Food, Agricultural, and Environmental Sciences.

September 22, 2006 meeting, Board of Trustees

The annual distribution from this fund shall be used for the purchase, upgrade, maintenance and/or repair of equipment including analytical instruments, prototype processing equipment, and packaging equipment for the Department of Food Science and Technology's laboratory and the Food Industries Center. Expenditures shall be recommended by the chairperson of the Department of Food Science and Technology and approved by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Food Science and Technology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$16,364.00 (Grandfathered)

The Sheatzley/Resnik Endowed Fund

The Sheatzley/Resnik Endowed Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University with gifts from alumni and friends of the College of Optometry. The fund is in memory of Brian Sheatzley (O.D., 1973) and Astronaut Judith Resnik, daughter of Marvin Resnik (B.S., 1946).

The annual distribution from this fund shall be used to support a scholarship in the College of Optometry. Scholarship recipients shall be selected by the dean of the College of Optometry in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Optometry. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$15,000.00 (grandfathered)

September 22, 2006 meeting, Board of Trustees

Change in Description of Named Endowed Fund

The Henry J. Barre Award for Graduate Study in Agricultural Engineering

The Henry J. Barre Award for Graduate Study in Agricultural Engineering was established April 6, 1990, by the Board of Trustees of The Ohio State University with gifts from Gertrude A. Barre, James F. Barre (B.I.E., 1962), Jeanne Barre Sather (B.F.A., 1967), and friends in memory of Dr. Barre, Professor Emeritus in the Department of Agricultural Engineering (now the Department of Food, Agricultural, and Biological Engineering). The description was revised September 22, 2006.

The annual distribution from this fund shall be used to stimulate graduate study in the farming side of agricultural engineering with first priority given to a student in grain drying, storage, and materials handling. Expenditures from the fund shall be authorized by the chairperson of the Department of Food, Agricultural, and Biological Engineering or his/her designee.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the chairperson of the Department of Food, Agricultural, and Biological Engineering or his/her designee. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Change in Name and Description of Named Endowed Funds

The Dairy Farmers of America, Inc., Don H. Schriver Agriculture and Human Ecology Fund

The Milk Marketing Inc. Agriculture and Human Ecology Fund was established December 3, 1993, by the Board of Trustees of The Ohio State University with gifts from Milk Marketing Inc., Strongsville, Ohio. The name and description were revised to reflect the new name of the company July 10, 1998, to The Dairy Farmers of America, Inc. Agriculture and Human Ecology Fund. The name and description were further revised September 22, 2006.

The annual distribution from this fund shall be used to support programs and scholarships within the College of Food, Agricultural, and Environmental Sciences and the College of Education and Human Ecology. Support shall include at least one scholarship in each of these areas: dairy science, agricultural economics, and ATI dairy in the College of Food, Agricultural, and Environmental Sciences and in either human nutrition or home economics education in the College of Education and Human Ecology. Support shall also include ATI and OARDC programs, LEAD, and other priority programs identified by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences and the CEO and/or executive vice president of Dairy Farmers of America, Inc., or their designee or its successor organization.

September 22, 2006 meeting, Board of Trustees

Annual awards will be directed by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences or their designee in consultation with the CEO and/or executive vice president of Dairy Farmers of America, Inc. or their designee or its successor organization. Scholarship and award recipients shall be selected annually by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences or their designee, the dean of the College of Education and Human Ecology or their designee, the director of ATI or their designee, and the CEO and/or executive vice president of Dairy Farmers of America, Inc. or their designee, in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

The Dairy Farmers of America, Inc., Don H. Schriver 4-H Fund

The Milk Marketing Inc. 4-H Fund was established December 3, 1993, by the Board of Trustees of The Ohio State University with gifts from Milk Marketing Inc., Strongsville, Ohio. The name and description were revised to reflect the new name of the company July 10, 1998, to The Dairy Farmers of America, Inc. 4-H Fund. The name and description were further revised September 22, 2006.

The annual distribution from this fund shall be used to support programs within the Ohio State University Extension state 4-H program including, but not exclusively, the 4-H Dairy Award, the 4-H Congress, the National 4-H Center and programs, the Dairy Conference, and annual needs. Annual distribution shall be directed by the state 4-H leader, in conjunction with the Ohio 4-H Foundation Board of Trustees, with final approval by the director of Ohio State University Extension or his/her designee in consultation with the CEO and/or executive vice president of Dairy Farmers of America, Inc. or its successor organization and/or designee.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

September 22, 2006 meeting, Board of Trustees

The Ralph and Anne E. Newman Endowed Scholarship Fund in Forestry

The Newman Endowed Scholarship in Forestry was established November 30, 1979, by the Board of Trustees of The Ohio State University with gifts from Ralph and Anne (B.S., 1976; M.S., 1982; Ph.D., 1990) Newman. The name and description were revised September 22, 2006.

The annual distribution from this fund shall be used to provide scholarships for sophomore, junior, or senior students majoring in programs leading to a forestry degree in the School of Environment and Natural Resources in the College of Food, Agricultural, and Environmental Sciences. Preference will be given to those students interested in land reclamation through reforestation and will be based on the applicant's ability, character, and financial need. Selection of the recipients will be made by the scholarship committee of the School of Environment and Natural Resources in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of the School of Environment and Natural Resources. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The Ohio State University Military Dependents Merit Scholarship Fund

The Ohio State University Military Dependents Merit Scholarship Fund in Social and Behavioral Sciences was established June 29, 2001, by the Board of Trustees of The Ohio State University with gifts from friends, relatives, and corporate friends of military men and women of the United States Armed Forces. The name and description were revised September 22, 2006.

The annual distribution from this fund shall provide annual scholarships to undergraduate students enrolled in one of the colleges of the Arts and Sciences, who qualify as dependents of career service members with at least ten (10) years of active duty military service. Students with interdisciplinary majors in the Arts and Sciences are also eligible. Scholarships are renewable as long as the students maintain a cumulative grade point average of 3.0 or better and are enrolled as full-time students. In selecting the recipients of this scholarship, strong consideration will be given to high school rank. The scholarships will be administered by the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

September 22, 2006 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

THE OHIO STATE UNIVERSITY FOUNDATION

Establishment of Named Endowed Chair

The John W. Wolfe Chair in Human Cancer Genetics

The John W. Wolfe Human Cancer Genetics Research Endowment Fund was established June 2, 2000, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from The Robert F. Wolfe and Edgar T. Wolfe Foundation. The funding level has been reached and the chair was established September 22, 2006.

The annual distribution from this fund shall be used to support the salary and cancer research conducted by the scientist appointed to The John W. Wolfe Chair in Human Cancer Genetics at the Comprehensive Cancer Center – The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute at The Ohio State University as approved by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute, the director of the Comprehensive Cancer Center, the senior vice president for Health Sciences, and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute, the director of the Comprehensive Cancer Center, and the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$1,510,018.00

Establishment of Named Endowed Professorship

The Stephen F. Loeb's Professorship in Health Services Management and Policy

The Health Services Management and Policy Professorship Fund was established December 6, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from alumni and friends of the Health Services Management and Policy Program. The name and description of the fund were revised on September 22, 2004, to The Stephen F. Loeb's Professorship Fund in Health Services Management and Policy. The funding level has been reached and the professorship was established September 22, 2006.

September 22, 2006 meeting, Board of Trustees

The annual distribution shall be used to provide salary and program support for the work of a distinguished teacher and scholar in the Health Services Management and Policy Program. Distribution will be made at the recommendation of the director of the Health Services Management and Policy Program in consultation with the dean for Public Health in the School of Public Health, and the senior vice president for Health Sciences and dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Health Services Management and Policy Program, the dean for Public Health in the School of Public Health, and the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$753,006.00

Establishment of Named Endowed Funds

The Gilbert Moody Fund for Excellence in Business Administration

The Gilbert Moody Fund for Excellence in Business Administration was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Gilbert Moody (B.S.Bus.Adm., 1934).

The annual distribution from this fund shall be used by the dean of The Max M. Fisher College of Business to promote excellence in business education by faculty and students, including the areas of insurance and related financial services. The fund's spending authority shall reside with the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$3,032,939.00

September 22, 2006 meeting, Board of Trustees

The Battelle/Bertram D. Thomas Scholarship Fund

The Battelle/Bertram D. Thomas Scholarship Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from The Battelle Memorial Institute.

The annual distribution shall be used to fund full tuition scholarships for junior or senior honors undergraduate chemistry majors who have financial need. In addition, the annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donor's desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, African-Americans or other underrepresented groups, who have been accepted for admissions at the University.

These scholarships are for three quarters in the given academic year and are renewable as long as financial need exists. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. The chairperson of the Department of Chemistry shall administer this fund in collaboration with the associate provost for Honors and Scholars and the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully funded, the unused portion should be reinvested in the principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of Chemistry and the associate provost for Honors and Scholars. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$1,000,000.00

The Howard Seeds Family Football Scholarship Fund

The Howard Seeds Family Football Scholarship Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Howard and Sally Seeds of North Lima, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the football team. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be

September 22, 2006 meeting, Board of Trustees

assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Foundation Board of Directors or Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscious and need dictate.

Amount Establishing Endowment: \$150,000.00

The Lawrence D. Funderburke Scholarship Fund

The Lawrence D. Funderburke Scholarship Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Lawrence D. Funderburke (B.S.Bus.Adm., 1994).

The annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donor's desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, minority or other underrepresented students, who have been accepted for admissions at the University. First preference shall be given to students who have participated in the Lawrence Funderburke Youth Organization, Inc.; second preference to participants of the Boys and Girls Club of Columbus, Ohio, the Salesian Boys and Girls Club of Columbus, Ohio, and/or the J. Ashburn, Jr. Youth Center of Columbus, Ohio; third preference to student athletes no longer on grant-in-aid who are completing their undergraduate degrees and are of good standing as students; and fourth preference to financially disadvantaged students.

A Scholarship Recommendation Committee consisting of representatives from the Lawrence Funderburke Youth Organization; the Boys and Girls Club of Columbus, Ohio; the Salesian Boys and Girls Club of Columbus, Ohio; and the J. Ashburn, Jr. Youth Center of Columbus, Ohio, will make recommendations for candidates qualifying for first or second preferences. Such recommendations shall be made to the University by April 1. The University will only make awards for candidates qualifying for third and fourth preferences after consultation with the donor or donor's designee. If the scholarships are awarded to students qualifying for preferences one or two, it shall be renewable for a total of 12 quarters, provided that students maintain a 2.5 grade point average. If in any given year the scholarships are awarded to students qualifying for preferences three or four, then that award shall be capped at \$1,500 and shall not be renewable. Scholarships shall be awarded by the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

September 22, 2006 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$75,000.00

The Connor Senn Memorial Scholarship Fund

The Connor Senn Memorial Scholarship Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends and family in memory of Connor Senn.

Connor was a freshman at OSU, where he was a member of the men's soccer team. Connor's effort, determination, and desire were an inspiration to his teammates, and still are to this day. This effort and achievement were such an inspiration, his teammates established the mantra "play like Connor today" as the way everyone could live their lives.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the men's soccer team. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$65,691.00

Raul A. Hernandez Sr., M.D. Endowed Athletic Scholarship Fund

The Raul A. Hernandez Sr., M.D. Endowed Athletic Scholarship Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Dr. Raul A. Hernandez, Jr. (B.S.Bus.Adm., 1983; M.D., 1989) of Zanesville, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the varsity baseball team. Scholarship recipients shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

September 22, 2006 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment:	\$56,000.00
Total Commitment:	\$112,000.00

The Raduege Scholarship Fund

The Raduege Scholarship Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends and family of Raymond C. Raduege, Jr. (B.S., 1972).

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student manager in the sport of football who is pursuing an undergraduate degree at The Ohio State University. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment:	\$33,180.00
--------------------------------	-------------

The H.A.J. Hoitink Graduate Education Endowment Fund

The H.A.J. Hoitink Graduate Education Endowment Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from colleagues, friends, the compost technology industry, and the green industry in honor of Professor Harry (Henricus) A.J. Hoitink, professor emeritus in the Department of Plant Pathology. During his career, he established himself as one of the world's leading scientists in the area of waste recycling with emphasis on biological control of diseases of ornamental plants.

The annual distribution from this fund shall be used for scholarships to support the graduate education of outstanding nationally and internationally recruited Masters and Ph.D.-level graduate students who are enrolled in the Department of

September 22, 2006 meeting, Board of Trustees

Plant Pathology. The selected students should have interest in doing thesis research in the area of biological control of diseases of woody plants (both in the nursery and the landscape) or in the study of compost technology. Expenditures from the fund shall be directed by the graduate studies committee of the Department of Plant Pathology in consultation with the Office of Student Financial Aid and the Graduate School.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Plant Pathology or their successors. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$32,420.00

Bettina and James B. Emden Innovation Projects Fund

The Bettina and James B. Emden Innovation Projects Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Bettina Emden and James B. Emden (B.A., 1969).

The annual distribution from this fund shall be used at the discretion of the dean of The Max M. Fisher College of Business for innovative projects within the College.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$30,000.00

September 22, 2006 meeting, Board of Trustees

Veterinary Medicine Class of 1954 Endowed Scholarship Fund

The Veterinary Medicine Class of 1954 Endowed Scholarship Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from members of the College of Veterinary Medicine Class of 1954.

The annual distribution from this fund shall be used to fund one (1) annual scholarship for a currently enrolled veterinary student who graduated from an Ohio high school. Scholarship recipients shall be selected by the dean of the College of Veterinary Medicine in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$28,250.00

The Ohio State University Alumni Club of Chicago Endowment Fund

The Ohio State University Alumni Club of Chicago Endowment Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The Ohio State University Alumni Club of Chicago.

The annual distribution from this fund shall provide non-renewable scholarships to first-year students from Illinois who are ranked in the top 25% of their high school class. Preference shall be given to students with outstanding school and community leadership accomplishments. Scholarship candidates will be ranked and recommended by The Ohio State University Alumni Club of Chicago and recipients will be selected by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$28,000.00

September 22, 2006 meeting, Board of Trustees

The Paul L. Wright Chair Fund in Agricultural Law

The Paul L. Wright Chair Fund in Agricultural Law was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Paul L. Wright and others.

Until the principal of this fund reaches a minimum of \$1.5 million the annual distribution shall be used to support the current Agricultural Law Program in the College of Food, Agricultural, and Environmental Sciences. Expenditures may include visits from a "Distinguished Visitor" or a specialist in the area of agricultural law for continuing education and seminars/workshops for current students in The Michael E. Moritz College of Law, students in the College of Food, Agricultural, and Environmental Sciences, and Extension Educators.

When the principal of the fund reaches \$1.5 million, the fund name will be changed to "The Paul L. Wright Chair in Agricultural Law" and the annual distribution shall be used to support a tenure track faculty position in the Ohio State University Extension. In addition to supplementing the salary of the chair position, the annual distribution may continue to be used for the purpose listed above. Appointment to the chair shall be recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences, associate vice president for Agricultural Administration, and director of Ohio State University Extension or their designees, and the Extension Administrative Cabinet in consultation with the dean of the Moritz College of Law to the provost and approved by the Board of Trustees.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences, associate vice president for Agricultural Administration, and director of Ohio State University Extension or their designees, and the Extension Administrative Cabinet in consultation with the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment:	\$27,063.38
Total Commitment:	\$1,500,000.00

The Robert J. Fass Memorial Fund In Infectious Diseases

The Robert J. Fass Memorial Fund in Infectious Diseases was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from family, friends, and colleagues made in memory of Robert J. Fass, M.D. (residency training, Internal Medicine, 1968-69; fellowship, Infectious Diseases, 1969-71; clinical instructor to professor,

September 22, 2006 meeting, Board of Trustees

Internal Medicine, 1970-2002) of Columbus, Ohio; and given in honor of his career and leadership in Infectious Diseases.

The annual distribution from this fund shall be used to support the advancement of medical knowledge through medical education and research on infectious diseases, with emphasis on but not limited to, AIDS and antimicrobials. Funds may be used for personnel, supplies, equipment, publications, conferences, and other activities for quality medical research or training and education. As funding permits, preference shall be given to the creation of the Robert J. Fass M.D. Memorial Lectureship in Infectious Diseases presented by a visiting professor, renowned educator/researcher, or a faculty member who is recognized in the field or a related specialty. Funds may be used for an honorarium; travel, meals and lodging expenses; brochures, mailing and other publicity costs; and other associated expenses.

Allocation of funds shall be approved by the director of the Division of Infectious Diseases in consultation with the chairperson of the Department of Internal Medicine and with the senior vice president for Health Sciences and the dean of the College of Medicine.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Division of Infectious Diseases in consultation with the chairperson of the Department of Internal Medicine and with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$26,601.00

Governor James A. Rhodes Scholarship Endowment Fund

The Governor James A. Rhodes Scholarship Endowment Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Ohio Expositions Commission, 4-H Youth Development, Ohio FFA, and friends of the late Governor James A. Rhodes.

The annual distribution from this fund shall provide one or more scholarships to incoming freshmen or undergraduate students at The Ohio State University College of Food, Agricultural and Environmental Sciences, or OSU-ATI, Wooster. Scholarship recipients will have a history of active participation in Junior Fair activities at the Ohio State Fair. Scholarship recipients shall be chosen by the Ohio 4-H Youth Development state awards selection committee, in consultation with the scholarship coordinator of the College of Food, Agricultural and Environmental Sciences, the Office of Student Financial Aid, the Ohio Expo Commission, Ohio FFA, and the late Governor Rhodes' family.

September 22, 2006 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences and a committee representing the Ohio Expositions Commission, Rhodes' family members, and 4-H and FFA representatives. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$26,359.00

The Brian M. Wollett Memorial Scholarship Fund

The Brian M. Wollett Memorial Scholarship Fund in the College of Pharmacy was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Marilyn K. Wollett (B.S., 1965) in memory of Brian M. Wollett.

The annual distribution from this fund shall be used to support a scholarship in the College of Pharmacy for a PharmD student who demonstrates financial need and could not otherwise attend the program. Criteria include a one-page essay describing how this scholarship will enable the student to attend The Ohio State University and obtain his/her degree in the College of Pharmacy. This fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donor's desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, underrepresented groups in the pharmacy profession who have been accepted for admissions at the University. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. Scholarship recipients will be selected by the dean of the College of Pharmacy in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Pharmacy. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,650.00

September 22, 2006 meeting, Board of Trustees

The Fortner Teacher Enhancement Scholarship Fund at Stone Laboratory

The Fortner Teacher Enhancement Scholarship Fund at Stone Laboratory was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Fortner family and friends of the Stone Laboratory in honor of Dr. Rosanne W. Fortner.

Dr. Fortner, professor emeritus in the School of Environment and Natural Resources, developed Ohio Sea Grant workshops into Stone Lab courses for teachers and taught at the lab from 1984- 2005, serving several years as associate director. She devoted her career to enhancing science literacy through teacher education about the Earth system and especially the Great Lakes.

The annual distribution from this fund shall be used to perpetuate the work of Stone Lab in providing environmental science education by providing scholarships for teachers at Stone Lab and enhancing teaching based on Great Lake studies. Scholarship recipients will be selected based on financial need and a demonstrated desire to enhance their qualifications for teaching interdisciplinary Great Lake studies. Expenditures will be approved by the director of Stone Laboratory and the Ohio Sea Grant College Program. Scholarships will be awarded in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the director of the School of Environment and Natural Resources and the director of Stone Laboratory and Ohio Sea Grant. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,175.00

The Lawrence D. Funderburke Fisher College of Business Scholarship Fund

The Lawrence D. Funderburke Fisher College of Business Scholarship Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Lawrence D. Funderburke (B.S.Bus.Adm., 1994).

The annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donor's desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, minority or other underrepresented students who have been accepted for admissions at the University attending The Max M. Fisher College of Business. First preference shall be given to students who have participated in the Lawrence Funderburke Youth Organization, Inc.; second preference to participants of the Boys and Girls Club of Columbus, Ohio; the Salesian Boys and Girls Club of

Columbus, Ohio; and/or the J. Ashburn, Jr. Youth Center of Columbus, Ohio. Third preference shall be given to student athletes no longer on grant-in-aid who are completing their undergraduate degrees and are of good standing as students; and fourth preference to financially disadvantaged students.

A Scholarship Recommendation Committee consisting of representatives from the Lawrence Funderburke Youth Organization; the Boys and Girls Club of Columbus, Ohio; the Salesian Boys and Girls Club of Columbus, Ohio; and the J. Ashburn, Jr. Youth Center of Columbus, Ohio, will make recommendations for candidates qualifying for first or second preferences. Such recommendations shall be made to the University by April 1. The Fisher College of Business will only make awards for candidates qualifying for third and fourth preferences after consultation with the donor or donor's designee. If the scholarships are awarded to students qualifying for preferences one or two, it shall be renewable for a total of 12 quarters, provided that students maintain a 2.5 grade point average. If in any given year, the scholarships are awarded to students qualifying for preferences three or four, then that award shall be capped at \$1,500 and shall not be renewable. Scholarships shall be awarded by the Fisher College of Business in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,150.00

Hocking County Youth Board Endowment Fund

The Hocking County Youth Board Endowment Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from numerous friends of the Hocking County Youth Board and Hocking County 4-H Program.

The annual distribution from this fund shall be used to support the Hocking County Youth Board program. Potential uses for the distribution include, but are not limited to, funding grants to youth serving organizations in Hocking County, and purchasing supplies, equipment, and services that will supplement programming or increase visibility and public support for the Hocking County Youth Board. The Hocking County Youth Board and the Ohio State University Extension professional responsible for the Hocking County Youth Board program shall approve all expenditures from this fund.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

September 22, 2006 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Ohio State University Extension and a committee representing the Hocking County Youth Board Endowment Fund donors. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,129.00

Judith Meezan Bayha Scholarship Fund

The Judith Meezan Bayha Scholarship Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Beatrice and Joseph Meezan.

The annual distribution from this fund shall be used to support an MSW student in the College of Social Work. Preference will be given to a clinical student with an interest and intention to practice with young children (under age 12) with emotional problems. This interest will be determined by agency placement (preference for an outpatient setting). Further preference will be given to a student working with children who have a history of neglect, or physical, emotional or sexual abuse. Scholarship recipients will be selected by the dean of the College of Social Work in consultation with the director of the Master of Social Work Program. Scholarships will be awarded in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Social Work in consultation with the director of the Master of Social Work Program. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,100.00

Siu K. Yee Memorial Endowment Fund in Transplant Surgery

The Siu K. Yee Memorial Endowment Fund in Transplant Surgery was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts made in memory of the late Siu K. Yee from her family through the Wings Charitable Foundation of Columbus, Ohio.

The annual distribution from this fund shall be used for interdisciplinary medical research and education in the OSU Medical Center's Comprehensive Transplant Center as recommended and approved by the executive director of the Comprehensive Transplant Center and the director of the Division of Transplantation Surgery in consultation with the chairperson of the Department of

September 22, 2006 meeting, Board of Trustees

Surgery and with the senior vice president for Health Sciences and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior vice president for Health Sciences and the dean of the College of Medicine in consultation with the chairperson of the Department of Surgery. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,005.00

The Eloise B. Harper Scholarship Fund in Food Science and Technology

The Eloise B. Harper Scholarship Fund in Food Science and Technology was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. James Harper, family, and friends in memory of Eloise B. Harper.

The annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donor's desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, female students who have been accepted for admissions at the University and are majoring in food science and technology. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. Scholarship recipients will be selected by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,004.00

September 22, 2006 meeting, Board of Trustees

Virgil L. and Adnelle Harvey Heskett and Gene Harvey and Kathleen B. Heskett Scholarship Endowment Fund

The Virgil L. and Adnelle Harvey Heskett and Gene Harvey and Kathleen B. Heskett Scholarship Endowment Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Adnelle Harvey Heskett (B.S., 1938) in honor of Gene H. Heskett (B.S., 1973; MBA, 1974) and Kathleen B. Heskett and in memory of Virgil L. Heskett (B.S., 1935; M.S., 1938).

The annual distribution from this fund shall provide one or more scholarships for worthy residents or past residents of the Alumnae Scholarship House Program (ASH) or its successor program. First preference is for current ASH program residents. Second preference is for previous ASH residents who are enrolled in professional or graduate programs on the Columbus campus. Scholarship recipients shall be selected by the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid in consultation with the ASH Advisory Board. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The Margaret Noell Kindberg Memorial Fund

The Margaret Noell Kindberg Memorial Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Jon L. Kindberg (B.A., 1971) in memory of Margaret Noell Kindberg (B.S., 1957; M.A., 1960; Ph.D., 1970).

The annual distribution from this fund shall be used primarily to support travel opportunities for students in the College of the Arts. Funds may also be used to provide assistance to a College of the Arts student experiencing a financial hardship. Expenditures from this fund shall be determined by the dean and associate deans of the College of the Arts.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

September 22, 2006 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean and associate deans of the College of the Arts. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The Cristi and John Ludwig Endowed Scholarship Fund

The Cristi and John Ludwig Endowed Scholarship Fund for students from Marion County, Ohio, was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Cristi and John Ludwig (B.S.Bus.Adm., 1982; B.S.E.E., 1982), respectively, of Bellevue, Washington.

The annual distribution from this fund shall be used to provide scholarships for Ohio State students from Marion County, Ohio, attending any of The Ohio State University campuses, who have demonstrated financial need. The Office of Financial Aid will determine the recipients and the amount of each award. The scholarships may be renewed.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Office of Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The Master's Endowed Scholarship Fund in Social Policy and Program Development

The Master's Endowed Scholarship Fund in Social Policy and Program Development in the College of Social Work was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Wayne Moore (M.S.W., 1975) and Laura Kaufman (M.S.W., 1975).

This endowment is established in honor of Dr. Milton Rosner, professor emeritus in the College of Social Work. Dr. Rosner was a popular professor from 1969-85, when he taught social policy and program development in the public and private sectors.

The annual distribution from this fund shall provide a scholarship to a Master of Social Work (MSW) student with an interest in social policy and program development and administration in the College of Social Work. Scholarship recipients shall be selected by the dean of the College of Social Work and the

September 22, 2006 meeting, Board of Trustees

director of the MSW program in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Social Work and the director of the MSW program. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Rosalie E. Palius Endowment Fund for WOSU Public Media

The Rosalie E. Palius Endowment Fund for WOSU Public Media was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the estate of Rosalie E. Palius (M.A., 1953).

The annual distribution from this fund shall provide general operation support for WOSU Public Media at the discretion of the general manager of WOSU Public Media.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior vice president for University Relations and the general manager of WOSU Public Media. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Change in Description of Named Endowed Funds

The Donny R. and G. Jeanne Baker Memorial Scholarship Fund

The Donny R. and G. Jeanne Baker Memorial Scholarship Fund was established May 4, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio

September 22, 2006 meeting, Board of Trustees

State University Foundation, with gifts from Trent R. Baker (B.A., 1983) and Todd L. Baker (B.S.Bus.Adm., 1991), in honor of their parents, Donny R. Baker (B.S.Ed., 1963) and G. Jeanne Baker. The description was revised September 22, 2006.

The annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donor's desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, minority students from low-income neighborhoods who are graduates of Columbus City Schools, have displayed leadership and integrity, are active in community service, have participated in the Urban Concern programs, and who have been accepted for admissions at the University. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. Scholarships will be awarded by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The Henry C. Gelbke Endowed Scholarship Fund

The Henry C. Gelbke Endowed Scholarship Fund was established June 29, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Herman R. Gelbke wishing to honor his brother, Henry C. Gelbke. The description was revised on December 5, 2003, and was further revised September 22, 2006.

The annual distribution from this fund shall be used to support an Agricultural Technical Institute student studying dairy cattle production and management or dairy science. This scholarship will be restricted to a qualified student who has maintained at least a 2.5 GPA. Preference shall be given, but not limited to, a student from the northeastern part of Ohio who intends to return to the farm and who demonstrates financial need.

Scholarships shall be awarded in consultation with the ATI Financial Aid Coordinator and appropriate faculty members at the Agricultural Technical Institute. A letter of notification naming the scholarship recipient shall be sent annually to the donor and the Trumbull County Extension office.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

September 22, 2006 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Agricultural Technical Institute in consultation with the director of the dairy cattle production and management program. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

The Kenneth and Paula Zeisler Real Estate Scholarship Fund

The Kenneth A. Zeisler Scholarship Fund in the College of Law was established August 30, 2000, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Kenneth A. Zeisler (B.S.Bus.Adm., 1961; J.D., 1961) and Paula D. Zeisler. The name was revised on October 3, 2003. The description was revised September 22, 2006.

The annual distribution from this fund shall be used to fund a scholarship for one student in The Michael E. Moritz College of Law with a preference given to an entering student who demonstrates financial need and an interest in pursuing a career in real estate law. Selection shall be made by the Moritz College of Law with formal approval by the dean of the Moritz College of Law in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

WAIVERS OF COMPETITIVE BIDDING REQUIREMENTS

Resolution No. 2007-35

April – June 2006

Synopsis: Acceptance of the quarterly report on waivers of competitive bidding requirements is proposed.

WHEREAS the Purchasing Policy of The Ohio State University adopted by the Board of Trustees on September 7, 1984, and revised on February 7, 1992, July 8, 1994, November 7, 1997, and March 1, 2002 provides that the President and/or the Senior Vice President for Business and Finance, or for the Hospitals of the University and their related facilities, the Vice President for Health Services, may grant a waiver from competitive bidding in the event of an emergency, when a sufficient economic reason exists or when the goods or services can be purchased from only a single source, with a report on such waivers to be made quarterly to this Board; and

September 22, 2006 meeting, Board of Trustees

WHEREAS the Senior Vice President for Business and Finance has submitted a report on waivers of competitive bidding requirements granted for the period of April – June 2006; and

WHEREAS during the period covered, the Senior Vice President for Business and Finance, at the requests of the departments making the purchases and upon the recommendation of the Purchasing Department, granted 86 waivers of competitive bidding requirements for annual purchases totaling approximately \$38,144,929 as shown on the enclosed exhibit; and

WHEREAS during the period covered, the Vice President for Health Services, at the requests of the Hospitals of the University and their related facilities making purchases, granted 29 waivers of competitive bidding requirements for annual purchases totaling approximately \$12,085,023 as shown on the enclosed exhibit:

NOW THEREFORE

BE IT RESOLVED, That the report on waivers of competitive bidding requirements for the period of April – June 2006 is hereby accepted.

(See Appendix XII for background information, page 337.)

**APPROVAL TO ENTER INTO FEASIBILITY STUDY, DESIGN, AND

DOAN HALL – OPERATING ROOMS 9 AND 10
OHIO UNION GARAGE – RENOVATION AND EXPANSION
OSU GOLF COURSE – KEPLER CLUB HOUSE
BAG ROOM RENOVATION
VETERINARY MEDICINE – BASEMENT SHELL SPACE

APPROVAL TO ENTER INTO CONSTRUCTION CONTRACTS

AIRPORT PAVEMENT – TAXIWAY A-EAST REHABILITATION AND
B REMOVAL
AIRPORT REHABILITATION – SECURITY FENCE
MCCAMPBELL HALL CHILLER REPLACEMENT
MRI RELOCATION (MCFP)
NORTH COMMONS FRESH EXPRESS
NORTH LOW RISE DORMS – FIRE ALARM UPGRADE
OARDC – MUCK CROPS BRANCH OFFICE AND
SHOP BUILDING REPLACEMENT
THOMPSON LIBRARY RENOVATION
VETERINARY HOSPITAL AIR HANDLING UNIT REPLACEMENT

Synopsis: Authorization to enter into feasibility study, design, and construction contracts for the projects listed, as detailed in the attached materials, is requested.

September 22, 2006 meeting, Board of Trustees

WHEREAS in accordance with the attached materials, the University desires to undertake, and enter into feasibility study contracts for, the following projects:

Mershon Auditorium – Feasibility Study (N/A)	\$0.08M	College operating, OAA development, and Central funds
New Electrical Substation – Engineering Study (05-06 capital request)	\$0.50M	Facilities Operations operating funds

WHEREAS in accordance with the attached materials, the University desires to undertake, and enter into design contracts for, the following projects:

Airport Pavement – Taxiway A-East Renovation and B Removal (05-06 capital request)	\$2.80M	Development funds - Engineering FAA grant funds
Airport Rehabilitation – Security Fence (05-06 capital request)	\$0.23M	Development funds - Engineering FAA grant funds
Doan Hall – 9 West Burn Unit Renovation (N/A)	\$0.24M	Hospital operating funds
Doan Hall – Operating Rooms 9 and 10 (N/A)	\$0.54M	Hospital operating funds
Ohio Union Garage - Renovation and Expansion (05-06 capital request)	\$20.90M	2007 bond proceeds T&P operating funds
OSU Golf Course – Kepler Club House Bag Room Renovation (05-06 capital request)	\$0.18M	Athletics operating funds
Veterinary Medicine – Basement Shell Space (05-06 capital request)	\$2.97M	College operating funds

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following projects:

Airport Pavement – Taxiway A-East Rehabilitation and B Removal (05-06 capital request)	\$2.80M	Development funds - Engineering FAA grant funds
Airport Rehabilitation – Security Fence (05-06 capital request)	\$0.23M	Development funds - Engineering FAA grant funds
McC Campbell Hall Chiller Replacement (05-06 capital request)	\$0.34M	State funds
MRI Relocation (MCFP) (05-06 capital request)	\$7.00M	2007 bond proceeds
North Commons Fresh Express (N/A)	\$0.36M	Student Affairs operating funds
North Low Rise Dorms – Fire Alarm Upgrade (05-06 capital request)	\$2.99M	2007 bond proceeds
OARDC – Muck Crops Branch Office and Shop Building Replacement (03-04 capital request)	\$0.83M	State funds
Thompson Library Renovation (03-04 capital request)	\$108.36M	State, Development, and University Libraries operating funds
Veterinary Hospital Air Handling Unit Replacement (05-06 capital request)	\$1.96M	State funds

*Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project; renovation projects funded by internal office or departmental funds that are noted as "N/A" have not had separate capital project authorization because of their smaller size or because they arose unexpectedly between capital planning cycles.

September 22, 2006 meeting, Board of Trustees

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into feasibility study, design, and construction contracts as indicated for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix XIII for background information and maps, page 339.)

LONG-TERM LEASE OF REAL PROPERTY

Resolution No. 2007-37

JAMESCARE COMPREHENSIVE BREAST HEALTH CENTER
4019 WEST DUBLIN-GRANVILLE ROAD
DUBLIN, OHIO

Synopsis: Authorization for the University to enter into a long-term lease of the property at 4019 West Dublin-Granville Road, Dublin, Ohio, from Phele Investment Properties for The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute is requested.

WHEREAS The Ohio State University has been presented an opportunity to renew, consolidate, and extend the lease of 30,903 square feet in Dublin, Ohio from Phele Investment Properties; and

WHEREAS the University is negotiating a lease agreement with Phele Investment Properties for a term ending in April 2015; and

WHEREAS the leased premises are in a strategic location that fulfills the necessary space requirements for the needs of the JamesCare Comprehensive Breast Health Center:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to negotiate and enter into the proposed long-term lease of space from Phele Investment Properties upon such terms and conditions as are in the best interest of the University.

(See Appendix XIV for background information, page 361.)

**ASSESSMENT ON THE
ENDOWMENT TO SUPPORT DEVELOPMENT**

Resolution No. 2007-38

Synopsis: Approval of the FY 2007 proposed delay of phase-down in endowment support of Development is proposed.

WHEREAS the assessment on the Endowment to support Development has been phased down from 1.33% in FY 2004 to 1.11% in FY 2006 and was scheduled to be further reduced to 1% in FY 2007; and

September 22, 2006 meeting, Board of Trustees

WHEREAS the planned phase-down in Endowment support of Development to 1% would not generate sufficient support for Development to maintain current levels of service; and

WHEREAS corrective actions are needed to ensure Development has the resources to continue to operate at current levels of service and grow the endowment overtime:

NOW THEREFORE

BE IT RESOLVED, That the assessment on the Endowment to support Development be decreased from the FY 2006 level of 1.11% to a FY 2007 level of 1.10% rather than the planned reduction to 1.0% in FY 2007; and

BE IT FURTHER RESOLVED, That the University report back, by no later than March 1, 2007, to the Board with recommendations as to the future funding of Development including a plan to achieve, by FY 2008, the 1.0% level of Endowment support of Development; and

BE IT FURTHER RESOLVED, That the University request The Ohio State University Foundation to assist in raising additional private funds to help offset the programmatic impact of delaying the phase-down of the support of Development assessment.

**FISCAL YEAR 2007 TOTAL
UNIVERSITY CURRENT FUNDS BUDGET**

Resolution No. 2007-39

Synopsis: Approval of the total University Current Funds Budget for FY 2007 is proposed.

WHEREAS the State budget for FY 2006 and FY 2007, including funding levels for State institutions of higher education, has been enacted; and

WHEREAS fee increases for the Columbus and Regional Campuses for FY 2007 have been approved at previous meetings of the Board of Trustees; and

WHEREAS other levels of resources and expenditures for the Columbus Campus and the Regional Campuses and ATI have been approved at previous meetings of the Board; and

WHEREAS adjustments have been made to eliminate double counting of transfers among the various University units; and

WHEREAS the President now recommends approval of the Current Funds Budget for the total University for FY 2007:

NOW THEREFORE

BE IT RESOLVED, That the University's Current Funds Budget for FY 2007, as described in the accompanying FY 2007 Current Funds Budget Book, be approved, with authorization for the President to make expenditures within the projected income.

(See Appendix XV for background information, page 363.)

September 22, 2006 meeting, Board of Trustees

Upon motion of Mrs. Davidson, seconded by Mr. Borrer, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Duncan, Hendricks, Cloyd, Davidson, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Shackelford.

REPORT OF RESEARCH CONTRACTS AND GRANTS

Resolution No. 2007-40

Synopsis: The report on research and other sponsored program contracts and grants and the summaries for June and July 2006 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, and other agencies in support of research, instructional activities, and service; and

WHEREAS such monies are received through The Ohio State University Research Foundation:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein during the months of June and July 2006 be approved.

Upon motion of Ms. Hendricks, seconded by Mr. Hicks, the Board of Trustees adopted the foregoing resolution with twelve affirmative votes, cast by Trustees Duncan, Hendricks, Davidson, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Shackelford, and one abstention cast by Trustee Cloyd.

EASEMENT RENEWALS

Resolution No. 2007-41

COLUMBIA GAS OF OHIO, INC.
OHIO BELL TELEPHONE COMPANY
COLUMBUS SOUTHERN POWER COMPANY

VARIOUS LOCATIONS
THE OHIO STATE UNIVERSITY, COLUMBUS, OHIO

Synopsis: Authorization to grant the following renewal easements for existing natural gas, electric and telecommunication lines to The Ohio State University, Columbus, Ohio, is proposed.

WHEREAS Columbia Gas has requested the renewal of a 15-foot wide by 760-foot long easement across West Ninth Avenue to provide natural gas utility service to Dodd Hall; and

WHEREAS Columbia Gas has requested the renewal of a 10-foot wide by 400-foot long easement east of North Star Road to provide natural gas service to the Turfgrass Foundation Research and Education Building, 2710 North Star Road; and

September 22, 2006 meeting, Board of Trustees

WHEREAS Columbia Gas has requested the renewal of a 10-foot wide by 1,385.80-foot easement on the west side of Kenny Road to provide natural gas service to the Kenny Road service center; and

WHEREAS Columbia Gas has requested the renewal of a 15-foot wide by 4,732-foot long easement on the north side of Case Road to provide natural gas utility service to The Ohio State University Airport; and

WHEREAS Columbia Gas has requested the renewal of a 10-foot wide by 166.17-foot long easement to provide natural gas utility service to 1224 Kinnear Road; and

WHEREAS Columbia Gas has requested the renewal of a 15-foot wide by 500.56-foot long easement to provide natural gas service to The Ohio State University Airport; and

WHEREAS Columbia Gas has requested the renewal of a 20-foot wide by 264-foot long easement between Worthington Street and West Tenth Avenue; and

WHEREAS Ohio Bell has requested the renewal of a 20-foot wide by 281-foot long easement across land owned by The Ohio State University for existing telephone communication lines providing service to the Jesse Owens South Recreational Center; and

WHEREAS Ohio Bell has requested the renewal of a 2 ½- feet wide by 5-foot long easement at the Eleventh Avenue Basketball Courts for an existing utility pole and anchor wire on land owned by The Ohio State University; and

WHEREAS Ohio Bell has requested the renewal of a 10-foot wide by 3,598.39-foot long easement along Kenny Road and Lane Avenue for existing telephone communication lines through land owned by The Ohio State University; and

WHEREAS Ohio Bell has requested the renewal of a 5-foot wide by 280-foot long easement on Argyll Street to continue existing telephone communication lines across land owned by The Ohio State University to provide telephone service to the Fawcett Center; and

WHEREAS Ohio Bell has requested the renewal of a 15-foot wide by 1160-foot easement from North Star Road parallel to and on the north side of Lane Avenue to allow telephone communication lines across land owned by The Ohio State University; and

WHEREAS Columbus Southern has requested the renewal of a 10-foot wide by 2,470-foot long easement along the east side of the Olentangy River from King Avenue north to the electric substation for an existing electric power line to provide electric utility service to The Ohio State University; and

WHEREAS Columbus Southern has requested the renewal of a 10-foot wide by 2,395.58-foot long easement along Kinnear Road from North Star Road to provide electric utility service to 1275 Kinnear Road; and

WHEREAS Columbus Southern has requested the renewal of an easement on Kenny Road between Ackerman Road and West Lane Avenue for 5 utility poles, guy wires and anchors for overhead electric transmission lines to provide electric utility service to The Ohio State University; and

WHEREAS Columbus Southern has requested the renewal of an easement for an existing electric power utility pole and guy wires along Olentangy River Road, to provide electric utility service to The Ohio State University; and

September 22, 2006 meeting, Board of Trustees

WHEREAS Columbus Southern has requested the renewal of a 5-foot wide by 725-foot long easement for an existing electric power line to provide electric service to the Agronomy Station, 2623 Kenny Road; and

WHEREAS Columbus Southern has requested the renewal of a 10-foot wide by 600-foot long easement from North Star Road for an existing electric distribution line to provide electric utility service to the Turfgrass Foundation Research and Education Building, 2710 North Star Road; and

WHEREAS Columbus Southern has requested the renewal of a 10-foot wide by 155-foot long easement from King Avenue for an existing electric power line to provide electric utility service to Evans Hall, 520 King Avenue; and

WHEREAS Columbus Southern has requested the renewal of a 10-foot wide by 422-foot long easement for an existing electric power line running to a pad mounted transformer to provide electric utility service to the WOSU Antenna Site, 350 West Dodridge Street; and

WHEREAS Columbus Southern has requested the renewal of a 10-foot wide by 1,673.7-foot long easement for an existing electric power line and underground cables to provide electric utility service to The Ohio State University Golf Course; and

WHEREAS Columbus Southern has requested the renewal of a 10-foot wide by 30-foot long easement for a utility pole as part of an existing electric power line providing service to 1314 Kinnear Road; and

WHEREAS Columbus Southern has requested a 10-foot wide by 1,082-foot long easement across lands owned by The Ohio State University for an existing electric power line to provide electric utility service to 250 West Dodridge Street; and

WHEREAS each renewal is for a term of 25 years; and

WHEREAS the appropriate University offices have determined that the grant of these easements are in the best interest of the University;

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve and the Ohio Department of Administrative Services be authorized to process appropriate documents and grant the above easements upon such terms and conditions as are in the best interest of the University.

Upon motion of Ms. Hendricks, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution with eleven affirmative votes, cast by Trustees Duncan, Hendricks, Cloyd, Davidson, Wexner, O'Dell, Shumate, Fisher, Schottenstein, Brass, and Shackelford, and two abstentions cast by Trustees Borrer and Hicks.

APPOINTMENT AND REAPPOINTMENT OF INVESTMENT MANAGERS

Resolution No. 2007-42

Synopsis: Approval of the Appointment and Reappointment of Investment Managers is proposed.

September 22, 2006 meeting, Board of Trustees

WHEREAS it is the policy of The Ohio State University to utilize the service of external Investment Managers to assist in the management of the University's Endowment Fund; and

WHEREAS the Investments Committee of the Board of Trustees periodically reviews the results obtained by the external Investment Managers and the amount of funds assigned to each of them; and

WHEREAS it is prudent investment policy to adjust the mix and amounts of money assigned to external Investment Managers as economic conditions and performance change; and

WHEREAS the number of external Investment Managers and the amount of funds assigned to them shall be determined by the Board of Trustees:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Investments Committee of the Board of Trustees the following named external Investment Managers and the Office of the Treasurer shall be approved to manage Endowment Funds as follows:

	<u>Market Value</u> <u>As of 8/31/06</u>	<u>Changes</u>	<u>Revised</u> <u>Allocation</u>

TIME AND CHANGE: THE YEAR'S KEY ACADEMIC PRIORITIES

Provost Barbara R. Snyder: [PowerPoint Presentation]

Good morning. I'm pleased to have the opportunity to talk to you about our Key Academic Priorities for the 2006-2007 academic year. Two of these -- graduate education and undergraduate education -- will sound familiar to you since they are a continuation of ongoing efforts. The third, on economic access, is a new initiative that I'm pleased to tell you is generating considerable enthusiasm and support.

Today, I'm going to discuss only briefly our focus on graduate education and economic access, because I want to spend most of my time talking about the next steps in the reform of Ohio State's undergraduate curriculum. I promise to come back for a more in-depth report on the other two initiatives later this year.

Let me start with a quick update on last year's review of graduate education. As you will remember, two committees had been appointed to study the state of graduate education at Ohio State. One of them focused on the alignment of funding with quality, and the other looked specifically at the structure and functions of the Graduate School. The work of these two groups leads to a number of important recommendations. The Committee on Graduate Education, chaired by Rick Freeman, dean of the College of Mathematical and Physical Sciences, urged that we substantially overhaul our fiscal model for supporting doctoral education. It recommended that we devise a new internal funding formula based on quality rather than solely on credit hours. The Freeman Committee also recommended that our doctoral programs be assessed on a regular cycle.

Meanwhile, the Committee to Review the Graduate School was also at work and found no reason to alter our present structural arrangement, whereby the dean of the Graduate School oversees graduate studies and reports to the provost. Under the leadership of Dean Paul Beck, from the College of Social and Behavioral Sciences, this committee did, however, propose changes to the way in which Graduate School support is awarded. It also called for new processes for the oversight of graduate education and

recommended revisions to the Graduate School's recruitment, admissions, and career development practices.

The implementation of the Freeman and Beck Committees' recommendations will be the first priority for the new dean of the Graduate School, who was appointed last month. You've just heard President Holbrook introduce Pat Osmer, formerly chairperson of the Department of Astronomy, and we are delighted to welcome him to the Graduate School and to the Office of Academic Affairs. We are very fortunate to be able to tap into his talents as a scholar, teacher, and administrator.

Based on the extraordinary success he had in taking astronomy from not anywhere near where it is today to really the top of the charts, I'm confident that under Pat's leadership the Graduate School is going to be reinvigorated and will contribute a great deal to our reputation and academic stature, nationally and internationally. Of course the job won't be done quickly or be easy, but we will provide you with regular updates on our progress in that regard. I know Pat and I will be back sometime later this year to tell you how things are proceeding.

Another process I'd like to bring to your attention this morning is the second of our academic priorities for the year. It's as ambitious as the others, but brand new. This priority focuses on Ohio State becoming the national leader in enabling financial access to higher education. To achieve that goal, we created a position of senior advisor for Economic Access and have invited Tally Hart, formerly our director of Student Financial Aid, to fill that slot. Because of her incredible expertise in financial aid and access, Tally has been described as nothing less than a national treasure. Even the U.S. Congress recognizes that and calls on her frequently to testify about financial aid issues in higher education. It is my great pleasure to introduce her to you this morning. Tally, would you please stand?

Under Tally's leadership, Ohio State will be able to accelerate its efforts to educate students and their families about financial resources available for low-income students who want to go to college. One such resource -- and this is Tally's creation -- is the Land-Grant Opportunity Scholarship program. Launched last year, this program offers a full scholarship, worth \$18,900, to at least one low-income, high-ability student from each of Ohio's 88 counties. Tally is going to be working to develop programs, not just for undergraduate students, but also to encourage college juniors, who are economically needy, to think about continuing their studies in graduate and professional school. Again, of course, this won't happen overnight, but I fully expect to come back to you in the foreseeable future and report to you that Ohio State has indeed become the nation's leader in providing economic access to higher education.

Let me now turn to the real topic for today which is our efforts with the undergraduate curriculum, and update you on the progress that we've made. In an era when much of life operates at warp speed, two years might seem like a long time to devote to this initiative -- proof that academic progress really does happen at a glacial pace. If you've wondered about that, Ohio State's glaciologist, Lonnie Thompson, told me that glaciers move inches every day. Though with recent warming, he says, they are moving faster all the time. It's probably safe to say that during our two-year look at the undergraduate curriculum, a glacier travels about 1,500 feet or so. What is certain is that in that same period, Ohio State has made miles of progress. The proposed curriculum that emerged from our self-study is a giant step toward the goal of the Academic Plan that we enhance and better serve our student body.

One of the most important ways it does so is to make it possible for our students, without an overload in any quarter, to complete a top-quality undergraduate degree within four years. The first person to walk around the world took four years – and 22 pairs of shoes – to make the journey. It took Michelangelo four years to complete the Sistine Chapel. We think you can complete an undergraduate degree in four years as well without taking too many credits in any one quarter. Students at our benchmark institutions and throughout the Big Ten do exactly that. Given the quality of our faculty and our academic programs, there is no reason this can't happen at Ohio State.

Last year I gave the Board regular updates on the curricular review that we launched in 2004. Before telling you where we are today, I thought I'd give you a couple of reminders of where we've been.

Two years ago we launched a University-wide review of undergraduate education, because Ohio State's landscape was in profound transformation. For more than a decade, now twelve years in a row, our incoming freshmen have been increasingly better prepared for a high-quality undergraduate education. The freshmen retention rate was up remarkably and our six-year graduate rate was at an all-time high. We knew that if Ohio State were to provide these students with the distinctive experiences and opportunities they were going to expect, we had to challenge them as never before.

The structure of our General Education Curriculum was proving an impediment to doing all that we could for these very talented students, and they were not shy about telling us so. They were especially dissatisfied with the complexity of the GEC and the perceived lack of connection between general education and their majors. Add into that mix, that nearly half of all the faculty at Ohio State had been hired in just the last ten years. While that glacier was inching forward, our faculty was moving quickly into new and evermore exciting directions, pushing disciplinary boundaries, and setting the pace of research nationally and internationally. Not surprisingly, some of our faculty, like the new population of students they teach, were eager to take our curriculum to the next level.

The last comprehensive review of undergraduate education had taken place in 1988, about 16 years ago. Clearly, the time had come to re-examine this defining element of an Ohio State undergraduate education. With the full support of President Holbrook in December 2004, I appointed a Committee on the University-Wide Review of Undergraduate Education. And you might be interested to know that its ten members included a number of our faculty who've joined us within the last decade.

As you will see from the charge I gave the committee, I asked it to take a look at all aspects of undergraduate education in light of the remarkably improved population of undergraduate students and the students that we knew we would be recruiting in the future. I asked the committee to respond to the two overarching questions you see on the screen.

Under the leadership of Distinguished Humanities Professor Brian McHale, from the Department of English, the committee looked at the GEC, the number of credit hours required for graduation, the appropriate role of freshmen seminars, how we teach and who is teaching our students, and the fit between our undergraduate curriculum and our commitments to some University initiatives like diversity, interdisciplinary, research, and outreach. In the report that it released in November, the committee said that our GEC was out of step with our better prepared students, and that it didn't always lead to a sufficiently integrated and coherent educational experience.

In response to the two overarching questions that I posed, the committee made a number of suggestions for strengthening undergraduate education at Ohio State. In designing its recommendations, it was guided by the four principles you see on the screen.

To enhance coherence, the committee proposed, for example, that we encourage double majors and minors. It also recommended instituting a program of interdisciplinary multi-quarter core sequences, called Freshmen Clusters, each on a unifying theme of broad interest, such as citizenship and ethnicity in the U.S. or the mathematical order of the natural world. Strategies like these would eliminate the random choices encouraged by the existing GEC, and build coherence across an intellectually, interlocking spectrum of courses.

The cluster concept would also provide students with more flexibility in choosing the elements of their curricular packages. Flexibility would also be enhanced, of course, by allowing minors, double majors, and other alternatives to satisfy certain non-major or certain GEC requirements.

In addition, the McHale Committee recommended a decrease in the number of credit hours in the GEC by providing our undergraduates with broader opportunities to take electives in areas of interest to them, and making it easier for students to complete minors or double majors. This would build more flexibility into the GEC.

To maintain the quality of general education, the committee recommended the establishment of a University-wide oversight committee that would report directly to the Council on Academic Affairs. Measures like the redesign of the GEC web site and the reorganization of the current category structure will ensure that the goals and structure of general education are as transparent as possible.

Among still other recommendations, the committee proposed that we reduce the minimum number of credit hours for our core Bachelor of Arts degree from 191 to 181. This will bring us more in line with institutions throughout the country and, of course, pave the way for graduation within four years.

Because responsibility for curricular decisions is vested in the faculty, last November I asked the members of the University community to review the McHale report, and provide their reactions last spring. We requested formal statements this summer from the 14 of our 17 colleges teaching undergraduate students. In addition to the five Arts and Sciences colleges, these are the Colleges of Business; Dentistry; Education and Human Ecology; Engineering; Food, Agricultural, and Environmental Sciences; Medicine; Nursing; Pharmacy; and Social Work.

All of these units applauded the move to restructure the undergraduate curriculum, though, as you may imagine, they all had plenty of constructive advice about how to do it, and about the recommendations of the McHale Committee. The Arts and Sciences colleges provided the most in-depth responses. The Colleges of the Arts, Biological Sciences, Humanities, Mathematical and Physical Sciences, and Social and Behavioral Sciences, currently provide 90% of the courses in the current GEC. As a result, the oversight of basic education for all undergraduates has historically rested with the Arts and Sciences. Given their centrality to the GEC, the feed-back from these five colleges has had special resonance. The Council on Academic Affairs is now refining the McHale Committee's

recommendations, in light of their suggestions and those of the other undergraduate colleges.

Although there is not uniform support for the proposal to reduce the credit hours for graduation from 191 to 181, this recommendation was supported last spring by the Arts and Sciences' Committee on Curriculum and Instruction. Randy Smith and I met with the Committee on Curriculum and Instruction in the spring, and went back last week to thank them for their support and leadership in this process. We go in two weeks to the Arts and Sciences' Faculty Senate, to try to persuade those senators to support the 181 proposal for the basic Bachelor of Arts degree.

Moving from 191 to 181 credit hours will reduce the financial resources required for undergraduate students and their families to succeed in getting an undergraduate degree. It will also help our students advance more quickly into their chosen career paths and position Ohio State competitively among other major public universities throughout the nation.

As I noted earlier, our current credit hour requirement for graduation is heavy in comparison to our peers. Let me show you what that looks like. This slide shows the number of credits needed for graduation at benchmark institutions and other Big Ten universities.

You should know that 120 semester hours is the equivalent of 180 quarter hours. As you can see, Ohio State is somewhat out of step with those other institutions. Our students must either complete an extra quarter of academic work or take overloads throughout the course of their undergraduate educations, in order to get through in the same amount of time as students get through at our benchmarks.

Reducing our graduation requirement to 181 hours will mean that our students, too, can get through in four years, carrying 15 credit hours for 12 quarters. While some have worried that this reduction will work against academic excellence, I believe Ohio State can deliver a bachelor's degree of high quality in four years. Our benchmarks do it in that timeframe, and there is no reason that we can't do it, too. With the better-prepared students we are now enrolling, and our outstanding faculty members, and programs that locate Ohio State among the nation's best public universities, this is a change that we should make. Accordingly, I've asked the Council on Academic Affairs to forward to the University Senate by Autumn Quarter those recommendations that need its approval. This will mean that the new curricular requirements could begin with the class entering in the fall of 2007.

That is my overview of our two-year effort by many, many people to make this all work. Everyone was intent on inventing the best curriculum possible for today's and tomorrow's better-prepared students.

Many people from my office were involved in this effort, but two were especially instrumental to the outcome. Martha Garland, vice provost for Enrollment Services and dean of Undergraduate Education, and Randy Smith, vice provost for Academic Programs, have both been intensely involved in this effort to reform the undergraduate curriculum, beginning with their services as ex officio members on the committee.

Thanks to her work on the Enrollment Management Committee and her leadership of the Office of Enrollment Services and Undergraduate Education, Martha bears the ultimate responsibility for bringing us the increasingly well-prepared classes, for whom we had to rethink our

September 22, 2006 meeting, Board of Trustees

undergraduate curriculum. And it was because of Randy's brilliantly conceived and executed plan to move this through all of the appropriate groups that the administrative process so far has gone smoothly, steadily, and collegially. I am also grateful to the commitment of Allan Silverman, chair of Faculty Council, to help this move efficiently through the University Senate.

If that process hasn't gone at warp speed, I guess we can say, at least I hope, it's moved at the right speed to get the job done well for our University. What has emerged is an engaging, effective, and comprehensive liberal education program, one that we think will promote the academic excellence of our University. Our new curricular model may have seemed slow in coming – glacial even -- but if it's taken some time, I hope you think that the change that we are going to produce is worth waiting for.

Your support will be critical to its success. For as we all know, academic excellence is the surest route, indeed the only route, to the reputational goal articulated in the Academic Plan – “that Ohio State be nothing less than the finest public land-grant research university in the nation.”

I would now be happy to answer any questions you have. Randy and Martha are here in case you have questions about the process, and I'm delighted that Kate Christobek, vice president of USG, is here as well and would be happy to answer questions from the student perspective.

Mr. Borrer:

Provost Snyder, as chair of the Academic and Student Affairs Committee the last three years, I want to commend you on this process. We have had numerous presentations by Provost Snyder, and her team, and I want to tell you this has been a well thought out, detailed, and well done process. As a graduate of this University in four years -- 12 quarters, with 181 hours -- I fully and completely support -- and I know that the members of the Committee over time, including Mr. McFerson, support -- these efforts. I think that this is long overdue and we want to do whatever we can do to continue this process going forward to see its implementation. When would we expect to see implementation, Provost Snyder?

Provost Snyder:

We are hoping that we will have this ready to start for the students entering the fall of 2007.

Mr. Borrer:

Thank you. Keep up the good work.

Provost Snyder:

Thank you.

Mr. Wexner:

In looking at the benchmark slide, what struck me was that we are on the quarter system, and I hadn't thought about that in about a decade. Is that part of the thinking of the evolution, to get to the benchmarks and their system?

September 22, 2006 meeting, Board of Trustees

Provost Snyder:

As you can see from the slide, it is fair to say and is certainly true that nationally most four-year institutions are on semesters and that's the proportion you see represented. It is also fair to say that there is no compelling evidence that either quarters or semesters are pedagogically better. There are certain advantages of the semester system in terms of the calendar being comparable to other institutions for faculty who are visiting, or for students who are spending time at other institutions. So there are advantages to being in sync with everyone else.

On the other hand, I should tell you that there are some great schools that are still on quarters, including Northwestern, UCLA, the University of Washington, Stanford, and the University of Chicago. So it is clear that we have some good company, although the number of institutions in the quarter group has shrunk over the years and is now very small.

What I would say about the semester transition is that it still has to go through the governance process. We started that under President Kirwan and Provost Ray some years ago, and then dramatic budget cuts had them pull that. So this would have to go back through the governance process.

One of the things that we know is that our current Student Information System cannot support a transition to semesters. We are in the process of putting in a new Student Information System that will be able to do that. That will be fully operational in the fall of 2009, so the first opportunity to switch to semesters would not be until fall of 2010 because we would want that new system up and operating for a year before we made yet another move. That will be a process that we will think and talk about, and probably get going sometime in the future with the faculty in the governance process.

Ms. Hendricks:

Provost Snyder, I wanted to reinforce what Doug has said. When we focus on our students, there is really no rationale that says for some reason, Ohio State alone needs 191 hours, where all of these other very distinguished universities are doing it at 180 hours. To me, when you're looking at the cost of an education now and the debt that our students have, I just would not see the rationale for an added 10 hours. It seems to me that it doesn't pass the smell test, if you will, and that's more of a pragmatic issue. I feel like the goal is a right one. I can only speak for myself, but would really reinforce my support for pushing this through. I just think it seems to be the right thing to do for our students.

Mr. Alvarez- Breckenridge:

Provost Snyder, I would like to congratulate you as well on this. It is very exciting especially as a recent graduate of OSU. Drawing from my experiences, I was curious about implementation of this in terms of the academic advisors and the freshman survey course, because it sounds like there is going to be a lot of flexibility and interdisciplinary work, and things along those lines. I know that one of the common concerns that students raise is academic advising. I wonder if you could shed some light on how you're going to bring the advisors into the fold and publicize this to the students so they know what's going on.

September 22, 2006 meeting, Board of Trustees

Provost Snyder:

We had already brought the academic advisors into this discussion at an earlier stage. Randy and Martha met with them, and I'll ask them if they want to chime in and say anything about their work with the advisors.

Dr. W. Randy Smith:

... (inaudible)

Provost Snyder:

Let me say that congratulations are premature because we still have some work to do. The Arts and Sciences' Faculty Senate coming up soon will be a very important meeting, and we are going to be working very hard to try to make the case for 181 credit hours in four years.

Mr. Alvarez-Breckenridge:

Thank you.

Mrs. Davidson:

I just wanted to say how important I think the appointment of Tally Hart is, and congratulate you on that. I think the economic access statewide will bring: 1) diversity; and 2) the ability to finish in four years certainly gives a heads up to those students that they can make it here in sure order.

Provost Snyder:

Thank you. We are lucky that Tally has agreed to move into this new role. I know that you are going to see great things out of our economic access initiative under her leadership. Thank you all very much for your support.

Judge Duncan:

Thank you, Provost Snyder, for your presentation and good luck with the 181 hours.

(See Appendix XVI for background material, page 445.)

--0--

Judge Duncan:

If there is no other old business, I'll call for new business. Any new business?

Mr. Alvarez-Breckenridge:

I was hoping to open up a discussion on the State Issue 3 legislation -- the "Learn and Earn" constitutional amendment -- and get the Board's and University's opinions on this amendment.

Judge Duncan:

Do we have anybody who can give us some information about that valid issue? Mr. Steiner --

September 22, 2006 meeting, Board of Trustees

Mr. W. Curt Steiner:

Thank you, Judge Duncan, Dr. Holbrook, and members of the Board, for the opportunity to put this issue into context.

The state of Ohio has an issue on the November 7 statewide ballot in the form of Issue 3. If it passes, that would be the first major change in the state gambling statutes or constitutional authorities since the early '70s. The last major change in the Constitution, as it relates to gambling in Ohio, was in 1974, when the first tickets were sold after a statewide vote in 1973 for what is now known as the state lottery. And today in Ohio we still have only two major forms of legalized gambling, which is betting at horse race tracks and the Ohio Lottery.

There have been numerous attempts over the years to approve in Ohio -- as there have been a growing number of facilities in neighboring states -- the providing of slot machine parlors or casino gambling parlors. In 1996, the statewide issue was on the ballot, which was widely defeated, to approve casino gambling in Ohio, and in 1990 a similar issue was also defeated.

This is the third attempt on the ballot since that time. There have been numerous attempts in the past few years in the General Assembly, for the Assembly to pass an issue that would be placed on the ballot. It has never received enough support in the House and Senate to be placed on the ballot in that way. So this year a group of proponents, made up principally of owners of race tracks and developers interested in making and developing casinos, have put together a statewide issue known as "Learn and Earn," a portion of which proceeds, if passed by the voters, will go to college scholarships.

I've asked Assistant Vice President Jack Hershey to walk through that proposal for you, at least in terms of its highlights, and we've also distributed to you an amendment that's going to be on the ballot.

Mr. John W. Hershey:

Thank you. I think when you look at this constitutional amendment, to many Ohioans this might actually seem to be two separate issues: 1) to legalize casino-style gambling in the state of Ohio; and 2) to fund a scholarship program for Ohio students. I think this perception will be heightened by the fact that proponents of the issue are expected to focus almost exclusively on the college scholarship portion of it, while opponents to it will focus predominately on the casino gambling side of it. So I thought I would start and run through quickly the gambling side, and then finish up with the scholarship side.

If approved, the amendment would allow legalized gambling in the state of Ohio. It would allow for the operation of slot machines at the seven commercial horse racing tracks in the state, and at two additional locations in the city of Cleveland. The amendment would prohibit the operation of other types of casino gambling, with the exception of those locations in Cuyahoga County. In those cases, four years after the passage of this amendment, if it is passed, a separate vote could be taken among the voters in Cuyahoga County, authorizing those facilities to expand into full-fledged casino gambling if the voters choose.

Next let me talk about the flow of money. The amendment lays out very clearly how the proceeds from the newly legalized gambling are to be distributed. Those gross slot machine revenues would be dispersed as

follows: 55% of the money would remain with the owners of the facilities themselves; 30% would go to the Ohio Board of Regents for the Ohio "Learn and Earn" Scholarship Program; 6% to be used by the owners of those facilities with race tracks as purse money for those races; 5% would go to counties, cities, and townships where the actual gaming facilities are located to be used for local economic development projects; 2.4% would be distributed to all the other counties in Ohio, that don't have a facility located in them, to be used for either capital improvement or local economic development projects; 1% would stay with the state of Ohio to be used for gambling addiction services; and finally 0.6% would be distributed directly to either the municipality or township where that facility is located to be used in whatever fashion they deem appropriate. That is the gambling side.

Let me move on and tell you about the scholarship side. The actual "Learn and Earn" scholarship idea first surfaced several years ago when the legislature tried unsuccessfully to place an issue very similar to the one we see before us this fall on the ballot. Between that legislation, which was Senate Bill 99, and the amendment that is on the ballot this fall, we can give you a fairly good idea of how we think the program might work.

The amendment requires the Board of Regents to award "Earn and Learn" scholarships to current and future Ohio high school graduates, beginning with the first high school class that graduates two years after the amendment is approved. So what that means for our current students is that none of them would be eligible to receive this scholarship. Students who are sophomores in high school today, would be the first eligible recipients of this award.

The scholarship program primarily is based upon a point system. Under this system, students would receive points for reaching achievements at various points along the way, from kindergarten through twelfth grade, in specified categories, including: academics, college preparedness, extracurricular activities, work experience, and community and volunteer service. Once those students would reach a certain level of points, they would then be guaranteed the scholarship award.

In addition to that program, there is another provision in the amendment that for the first twelve eligible high school graduating classes it would require the awarding of merit-based tuition grants to the top 5% of students at each public and non-public high school in the state. So that is the crux of it.

I'll say some important areas of the program are not known at this time and are left to the discretion of the Board of Regents. When we talk about that point system, what level you have to reach has yet to be decided. What you'll actually get points for is left to the Board of Regents' discretion. Perhaps, more importantly, the amount of the scholarship award is not known and is left to the discretion of the Board of Regents.

Perhaps this is a good time to switch to the idea of how much money this will actually bring in if passed. I will say it is difficult to tell you exactly how much money will be available to fund the scholarship program if this passes in November. The proponents of the amendment are saying that they expect to see nearly \$1 billion a year from the proceeds of the slot machines going toward the program. However, if you look back through history at the several times that the issue has been debated, either in the legislature or in the public policy arena, in general the revenue estimates have varied greatly depending on the sources.

Making any estimate in this area is fairly unreliable until operations are actually up and running, and we have some history to show for it. That is mainly because there are so many floating variables in this equation, including what the actions of our neighboring states are doing. There are some human behavior actions. For instance, if you're used to going to a riverboat in Indiana, and you live in Cincinnati, would you necessarily keep going to a place you've always gone to or would you come and stay in Cincinnati and go do this? In addition, some of those revenue actions in the past included up-front licensing fees that the owners would pay to obtain a gaming license. This amendment contains no such provision. So you can see there is a lot of ambiguity surrounding how much money will actually be given here.

I think the drafters of Senate Bill 99, which was the last effort by the legislature to do this, seemed to recognize that volatility. They had included a provision in their bill that would require the Regents to proportionally scale back the scholarship award amount for any year where the revenue from those slot machines were not sufficient to meet the number of scholarship awards.

Finally, I want to talk about a section of this that is perhaps the most important for us in higher education to concern ourselves with, and that is the "hold harmless" guarantee concerning higher education funding. The amendment contains this provision that prohibits the General Assembly from cutting or supplanting state support for higher education as a result of the influx of new monies derived from the proceeds of slot machines. The language presumably was inserted to negate what some have called the "lottery confusion effect" that has been in place in this state for many years, concerning how proceeds from the Ohio Lottery have actually been used in regards to primary and secondary education.

I've always talked about there being two tracks to that confusion. One is that there is a general perception that when the lottery was approved, it "fixed" primary and secondary education funding. While most people in primary and secondary education disagreed with that from the beginning day to this day, I think we would be at risk in higher education of facing a similar phenomenon in that at least the general populous of the state might consider that higher education funding is now fixed if this amendment were passed.

Secondly -- for lack of a more professional term -- the folks in primary and secondary education have always referred to it as "the shell game" effect. The Constitution requires that all net proceeds of the lottery be used specifically for primary and secondary education. However, the supporters over the years have argued that the General Assembly has always recognized that large influx of lottery dollars into the system and, as a result, have provided smaller increases in funding from the state general revenue fund than they otherwise would have if the state lottery did not exist.

The components of the "Learn and Earn" amendment say that the "hold harmless" language in their amendment prevents the same argument from being made about proceeds from slot machines, and its relation to state support of higher education. I will say that while it does seem true that the total amount of state GRF funding we are currently getting could not be cut below those levels if the amendment passed, I can't say for certain it provides the same protections for future funding.

For example, the amendment provides no benchmarks for future funding increases. Under the provisions of this amendment, the legislature could

freeze state funding at its current level, theoretically, and never provide additional funding through the state budget and still meet the requirements of this Constitutional amendment. This is possible because the amendment contains no provision requiring a minimum level of increase to higher education and their state support. In fact, the amendment doesn't even require inflationary adjustments for current dollars provided. Without such provisions, there really is little difference between the protections offered primary and secondary education regarding lottery proceeds, and the protections offered to higher education with proceeds of the slot machines.

That concludes the brief overview of the amendment.

Mr. Wexner:

When I heard about the "Earn and Learn," I was quite intrigued with it. I've come around in my thinking, and I think it is very clever. I'm critical of it, not because it relates to gambling, which is an issue in itself, but as I played this around in my mind I thought this is clever and bad public policy. For my own selfish interests, I'd like to see such an amendment that limits the purchase of lingerie only at Victoria's Secret shops in Ohio, and prohibits it at all other places. I'd be very happy to share the revenue on more generous terms with the students in Ohio.

I think that this is bad public policy because it is a Constitutional amendment that gives a monopoly to nine entities. I think it is appropriate for the Board and the University to express itself because if we are silent, it implies that we believe it is good public policy because we are the beneficiaries. Both Ohio senators, and, interestingly, Senator Voinovich, who is from Cleveland, oppose this, as does the governor and the Ohio Business Round Table. All on the basis that it is defective public policy.

Mrs. Davidson:

I would like to thank Mr. Hershey in giving us the explanation. This is probably going back to the days he spent in doing budgets in the Ohio General Assembly. It very correctly relates to one of my key concerns about the issue. That is we do establish -- out there in the minds of the citizens of Ohio -- that higher education needs are being taken care of because of additional revenue that would be coming in for scholarships and no other additional attention needs to be paid to it.

In the years in which I was a legislator, I never went out to speak on an education issue in which the first question that came from the people in the audience was: What ever happened to the lottery dollars? I think this has been an albatross around the neck of our primary and secondary schools for a long period of time in trying to explain that particular issue. People believed, rightfully or wrongfully, in the way the issue was sold that it was going solve all of our problems in funding primary and secondary education. I am concerned that if this passes, you're going to have the same problems in future years for higher education.

Mr. Schottenstein:

To reinforce what has been said, while I don't profess to be an expert on the legislation, I've had the opportunity to talk to both opponents and proponents. It sort of calls to mind the line "the deal is too good to be true," it generally isn't, and the ends don't always justify the means.

September 22, 2006 meeting, Board of Trustees

From my standpoint, even if so many of the ambiguities or funding irregularities or possibilities of confusion were all artfully and perfectly drafted, the fact that this is Constitutional is monopolistic. As Mr. Wexner pointed out, it is very bad for the state of Ohio. While it would be tempting and easy for any educational institution to go out and campaign on behalf of this, even if those ills were fixed, I think that without seeming holier than thou, it just doesn't smell right, feel right, or feel fair. For that reason, I think that being in an institution like Ohio State, I would hope that we would all feel that it is appropriate not to be silent, and thereby implicitly aqueous, but to be vocal and say we do not think this is good policy for the state of Ohio.

Again, my comments have nothing to do with gambling, which is an issue in itself, it is more about the way in which this Constitutional amendment seeks to provide funding.

Judge Duncan:

Very well, any further comments? Any suggested recommended action?

Mrs. Davidson:

If there is a consensus among the Board, we should make some statement on behalf of our interest as trustees of the Board. Perhaps you could appoint a subcommittee to draft some type of a statement that might express those sentiments on behalf of the Board, if there is consensus among the Board members to go in that particular direction.

Judge Duncan:

Does anybody object to doing that? Hearing none, I will do it. In the short term, I will appoint a committee and begin our job. Thank you for the discussion, it has been helpful.

(See Appendix XVII for background material, page 447.)

--0--

Judge Duncan:

In a moment I will be taking a roll call vote to go into Executive Session. For those who may not wish to stay until the Board completes its Executive Session, I remind you that the next meeting of the Board will be November 3, 2006. I now move that the Board recess into Executive Session, for the purpose of considering personnel matters regarding employment and compensation, and certain legal matters, all such matters being entitled to confidentiality according to the law. May I have a second?

Upon motion of Judge Duncan, seconded by Mr. Hicks, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Duncan, Hendricks, Cloyd, Davidson, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Shackelford.

--0--

Judge Duncan:

The Board of Trustees will now reconvene the Board meeting.

September 22, 2006 meeting, Board of Trustees

The Governance Committee of the Board has conducted its annual evaluation of the President in accordance with Resolution #2004-115. The Governance Committee met with the full Board this afternoon in Executive Session. As a result of that session, and in accordance with the terms outlined in President Holbrook's initial letter of offer, a 25% bonus will be paid to her, and at this time a recommendation of a salary increase of 3.5%, effective October 1, 2006, is hereby proposed.

Upon motion of Judge Duncan, seconded by Mr. Schottenstein, the Board of Trustees adopted the foregoing motion with nine affirmative votes, cast by Trustees Duncan, Hendricks, Davidson, O'Dell, Shumate, Hicks, Fisher, Schottenstein, and Shackelford.

--0--

Judge Duncan:

I now move that the Board recess into Executive Session, again, for the purpose of considering personnel matters regarding employment.

Upon motion of Judge Duncan, seconded by Mr. Schottenstein, the Board of Trustees adopted the foregoing motion with eight affirmative votes, cast by Trustees Duncan, Hendricks, Davidson, O'Dell, Hicks, Fisher, Schottenstein, and Shackelford.

--0--

Judge Duncan:

The Board will now reconvene the Board meeting.

--0--

Thereupon the Board adjourned to meet Friday, November 3, 2006, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

--0--

Attest:

Robert M. Duncan
Chairman

David O. Frantz
Secretary

Mershon Auditorium - Feasibility Study

315-2006-924

Requesting Agency(s): WEXNER CTR-ADMINISTRATION

Location(s): Mershon Auditorium, Col. Ralph D.

52,271 ASF/121,226 GSF Age: 1957

Description:

This project will conduct a feasibility study for improvements to Mershon Auditorium.

Project Information:

The study involves several elements - assessment of the building and its infrastructure; outline of items/systems that should be renovated or replaced; cost estimates for upgrade, renewal or replacement of the facility; options to improve the aesthetics of the building's interior and exterior.

Issues:

How does this project advance the Academic Plan? This project advances the Academic Plan by evaluating the feasibility and seeking options to enhance the teaching and learning experience in Mershon Auditorium through improved HVAC, lighting, accessibility and image.

Doan Hall - Operating Rooms 9 and 10

315-07-0079

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): Doan Hall, Charles Austin

363,616 ASF/669,869 GSF Age: 1951

Description:

This project will renovate two operating rooms in Doan Hall to bring them up to current code and add infrastructure for robotics.

Project Information:

Issues:

How does this project advance the Academic Plan? This project will support continued clinical, teaching and research missions at Ohio State.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: This project is the second of three operating room projects that need to occur. Only a limited number of operating rooms can be shut down at one time so this project needs to be completed before starting the last project.

Special limitations/risks: None

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion
Auxiliaries-University Hospitals	\$544,274.00					
Total:	\$544,274.00

Ohio Union Garage Renovation and Expansion

315-2005-997

Requesting Agency(s): TRANSPORTATION & PARKING SERVICES

Location(s): Parking Garage C (Union)

371,641 ASF/387,952 GSF Age: 1969

Description:

This project will demolish a portion of the parking garage and renovate the remaining spaces, including upgrades to the elevator, electrical and lighting systems. Additionally, the project will add three bays to accommodate additional parking on campus.

Project Information:

The original scope would have renovated 1,064 spaces to last only 15 more years and provided 400 new spaces. The revised scope will demolish the portion of the garage built in 1986 (400 spaces) and replace it with a new 3-bay garage adjacent to the Ohio Union that will provide 840 new spaces (440 net new spaces) that will last 60+ years.

Issues:

How does this project advance the Academic Plan? Renovation and repairs to the Ohio Union Garage will improve its condition and function. The garage provides access to various academic interests in the surrounding area.

Outstanding Funding Issues:

Timing Issues: The construction of this project will be coordinated with the Ohio Union Replacement project construction.

"Ripple effects" of the project: The garage will be out of service during construction, and therefore, parking will be displaced for this area of campus; a mitigation plan is in process.

Special limitations/risks: Space for the garage expansion is limited by the Ohio Union Replacement project and an existing city sewer below the existing garage will be relocated.

OSU Golf Course - Kepler Club House Bag Room Renovation

50700-R060048

Requesting Agency(s): ATHLETICS

Location(s): Kepler Club House, Robert H.

16,120 ASF/24,073 GSF Age: 1938

Description:

This project will renovate an existing storage room into office space.

Project Information:

Issues:

How does this project advance the Academic Plan? This renovation will provide much-needed office space for the Men's and Women's Head and Assistant Golf Coaches.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Veterinary Medicine - Basement Shell Space

315-07-0010

Requesting Agency(s): VETERINARY MEDICINE ADMINISTRATION

Location(s): Veterinary Medicine Academic Bldg

63,780 ASF/113,602 GSF Age: 2002

Description:

This project will finish approximately 10,400 square feet of shell space in the basement of the Veterinary Medicine Academic Building to create research labs and offices.

Project Information:

The goal is to provide lab and office spaces very similar to the existing 3rd and 4th floor design within the building to accommodate revised size and configuration needs. HVAC and drainage requirements have already been provided in the existing shell space.

Issues:

How does this project advance the Academic Plan? This project supports the Academic Plan by creating additional state of the art research facilities, allowing the college to recruit and retain high-quality faculty.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Special limitations/risks: None

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion

McC Campbell Hall Chiller Replacement

315-2005-941

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): McC Campbell Hall, Eugene F

Gross Sq. Ft. 107,587 **Age:** 1972

Description:

This project will replace the existing chiller and pumps with new equipment to increase the systems capacity.

Project Information:

Issues:

How does this project advance the Academic Plan? Proper chiller operation is essential for appropriate environmental conditions for learning and research.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: Access to the building may be temporarily closed for short periods of time for lifting and placement of equipment.

Special limitations/risks: None

MRI Relocation (MCFP)

315-2005-993-1

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): Rhodes Hall-University Hospital

234,178 ASF/480,976 GSF Age: 1979

Description:

This project will remove four magnet systems currently housed in the Magnetic Resonance Imaging (MRI) Facility. Three magnets will be moved to a new building and placed adjacent to the second floor of Rhodes Hall, where the Imaging Services Department is currently located. The fourth magnet, a research magnet, will be moved to a yet to be determined location.

Project Information:

This project is part of the Medical Center Facilities Plan approved on November 4, 2005 by the Board of Trustees as Medical Center Facility Master Plan - Clinical Expansion Projects.

Issues:

How does this project advance the Academic Plan? Enables the Medical Center Facilities Plan, which will support continued clinical, teaching and research missions at Ohio State.

Outstanding Funding Issues: None

Timing Issues: This project will be completed prior to the demolition of the existing Magnetic Resonance Imaging Facility and Means Hall in order to proceed according to the critical path schedule of the Medical Center Facilities Plan - South Campus Implementation.

"Ripple effects" of the project: None

Special limitations/risks: None

North Commons Fresh Express

315-07-0088

Requesting Agency(s): STUDENT AFFAIRS, OFFICE OF

Location(s): North Commons, William A.

23,491 ASF/36,915 GSF Age: 1966

Description:

This project will renovate the North Commons dining hall to the newly developed "Fresh Express" service concept.

Project Information:

Improvements include new interior and exterior signage; new lighting; and new kitchen layout and equipment. Project did not meet criteria for Board of Trustees approval at the time the A/E was selected but the project scope has since increased, requiring Board of Trustees approval.

Issues:

How does this project advance the Academic Plan? This renovation supports the Academic Plan by enhancing the quality of residence hall life by providing a healthy alternative dining option.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Special limitations/risks: None

Location(s): Nosker House, William C.	21,501 ASF / 38,715 GSF	Age: 1966

Description:

This project will upgrade existing fire alarm systems in residence halls Blackburn, Haverfield, Barrett, Halloran, Houck, Nosker, Norton and Scott House to meet or exceed current codes.

Project Information:

The existing fire alarm systems do not meet the NFPA decibel standards.

The wiring has been upgraded to provide additional reliability and reporting, resulting in a budget increase.

Issues:

How does this project advance the Academic Plan? Upgrade of the fire alarm system will improve the life safety in the residence halls to better serve faculty, staff, and students.

Thompson Library Renovation

315-2002-046

Requesting Agency(s): UNIVERSITY LIBRARIES

Location(s): Library, Wm Oxley Thompson Memorial

213,830 ASF/299,695 GSF Age: 1912

Description:

This project will renovate the Thompson Library, construct an addition to the facility, re-landscape a portion of the Oval, and provide swing space during construction. The swing space will include: Phase 1 - Sullivant Hall Learning Commons; Phase 2 - Sullivant Hall Interim Main Library Swing Space; Phase 3 - 650 Ackerman Road Library; lounge/reader spaces in the former Long's Bookstore.

Project Information:

Project budget was increased to \$99,762,500 due to users need for additional swing space. Subsequently, the project budget has increased to \$108,362,500 due to one year postponement of construction, maintenance enhancements to the building at the Ackerman Road facility, and construction cost escalation in copper, steel and petroleum-based products.

Issues:

How does this project advance the Academic Plan? This project advances the Academic Plan by enhancing the quality of the teaching and learning environment by providing state-of-the-art facilities.

Outstanding Funding Issues: University Libraries has raised 70% of their development funds.

Timing Issues: None

Veterinary Hospital Air Handling Unit Replacement

315-2005-925

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): Veterinary Hospital

140,213 ASF/222,496 GSF Age: 1973

Description:

The air handling equipment in the Veterinary Hospital is over 30 years old and is beyond its useful life. The air handling units will be replaced to meet the current building load.

Project Information:

Rather than the selective repair/replacement of the existing equipment, it has been determined that the replacement of the five existing units with two new, larger air handlers is the most cost effective over the long term.

Issues:

How does this project advance the Academic Plan? Proper air handling operation is essential for appropriate environmental conditions for learning and animal care.

Outstanding Funding Issues: None

Timing Issues:

"Ripple effects" of the project: These repairs could cause some areas of the building to be temporarily closed during renovation.

Special limitations/risks:

LONG-TERM LEASE OF REAL PROPERTY

JAMESCARE COMPREHENSIVE BREAST HEALTH CENTER
4019 WEST DUBLIN-GRANVILLE ROAD
DUBLIN, OHIO

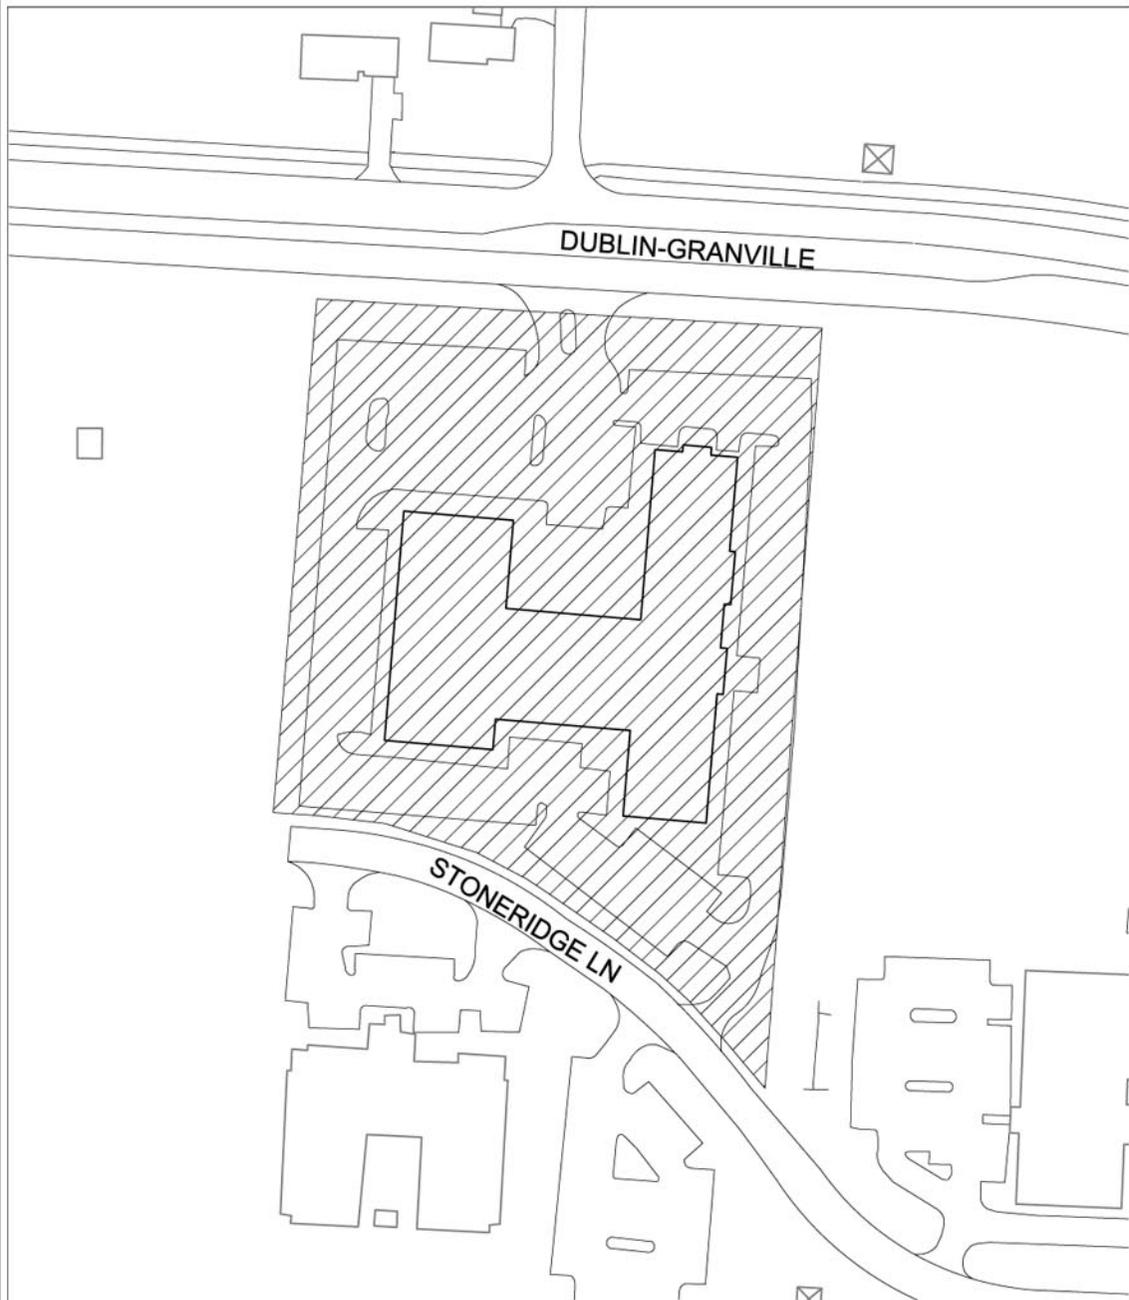

Background

The Arthur G. James Cancer Hospital and the Richard J. Solove Research Institute desires to renew a lease for the James Care Comprehensive Breast Health Center, approximately 30,903 square feet of medical office and clinical space located at 4019 West Dublin-Granville Road in Dublin, Ohio. The facility is owned by Phele Investment Properties. The JamesCare Center offers the following services: chemotherapy, imaging, exam rooms, physician offices and Hope's Boutique. These services will continue in this location until the completion of the new JamesCare facility at the Health and Innovation Park, located at the intersection of US Route 33 and Post Road in Dublin, Ohio.

The proposed lease renews, consolidates, and extends the current leasing arrangements for this space. The extended term commences June 1, 2006 and expires April 30, 2015. Base rent would be \$540,803 annually through April 2012 and \$610,334 annually thereafter. JamesCare also would be responsible for the cost of utilities, real estate taxes, insurance, janitorial and maintenance service. The lease contains provisions regarding subleasing and a lease termination payment with respect to the expected move of the JamesCare program to the Health and Innovation Park, located in Dublin, Ohio, in 2008.

Renewal of Existing Lease - JamesCare at Stoneridge Plaza

- Renewal of Existing Lease - JamesCare at Stoneridge Plaza, 4019 West Dublin-Granville Road

Office of Business and Finance / Board of Trustees Meeting

July 7, 2006

(APPENDIX XV)

The Ohio State University Board of Trustees
Fiscal Affairs Committee

September 22, 2006

TOPIC:

FY 2007 Current Funds Budget

CONTEXT:

This is the final step in approval of the FY 2007 operating budget. There are no major surprises, but there are loose ends to tie down.

SUMMARY:

Included are the following:

- A summary list of late breaking developments in the budget process (Attachment 1).
- A summary of what is included in the budget red book (Attachment 2).
- A work list of emerging issues for FY 2008 (Attachment 3).

CONSIDERATIONS:

- What happens next?
- What are the emerging issues for FY 2008?
- Is there any additional information the Fiscal Affairs Committee would like?

REQUESTED OF THE FISCAL AFFAIRS COMMITTEE:

Approval of the attached recommendations to approve the FY 2007 current funds budget and to delay the phase down of the endowment earnings support of University Development operations.

**FY 2007 Operating Budget
Summary of Final Adjustments**

- Final spending total for all campuses is \$3.7 billion. This is less than the sum of the individual fund groups due to inter-fund transfers.
- The single largest fund group is now self-supporting auxiliaries, which accounts for 50.8% of the total budget for all campuses. The Health System alone accounts for 36% of the total budget.
- This budget includes \$9 million in one-time funds and \$1 million in continuing funds to support Phase I of V of Targeted Investments in Excellence. The total commitment is \$50 million over the next five years. This means discretionary funds for other investments will be limited.
- State Share of Instruction (SSI) is scheduled to increase by 2.4% across all campuses. This is the second year in a row that SSI has increased, but the state share of revenues continues to decline, and still remains below FY 2001 levels.
- This budget requires an average reallocation of .5% for Academic Support units to accomplish their compensation goals. Colleges on average will reach compensation goals without reallocations. Actual reallocations will vary significantly by unit based on workload, reserves, and revenues generated.
- \$9.4 million in one-time funds is set aside to support detailed planning for a new Student Information System in FY 2007 and \$2.5 million in one-time funds is set aside as the third of four planned installments to pay off the costs of implementing the Grants Management System.
- Almost \$1.8 million of the Ph.D. level subsidy is set aside to match an equal amount of state funds as part of the State's Innovation Incentive to support quality Ph.D. programs in science, technology, engineering, mathematics and medicine. The Provost has asked the Graduate School to develop a plan to allocate the Innovation Incentive dollars to support students in quality doctoral programs.
- \$600,000 in one-time funds are set aside to support Gateway as a result of slower than anticipated growth in rental revenues. Rental revenue is anticipated to be on target by 2008. Funding to move Legal Affairs to Gateway is included in this budget.
- The Health System budget includes \$64 million in cash for Medical Center investments and \$16 million to increase short-term cash reserves.
- \$1 million is included to help pay additional operating costs for the Biomedical Research Tower in FY 2007. The increased operating cost for research facilities is an emerging issue that will be addressed over the coming year.
- The Board is requested to delay the phase down of University Development's support from endowment earnings. The support was to be reduced from 1.11% to 1% of the endowment earnings in 2007. The attached resolution would authorize the support of University Development's continued operations at the 1.10% level in 2007. Development has been requested to submit a plan, including funding sources and levels needed to support future development efforts so the phase down can be achieved.

Financial Issues for FY 2007

1. Preparing for FY 2008 – FY 2009 State of Ohio Biennial Budget process.
2. Funding graduate education based on program quality.
3. Funding the next development campaign.
4. Development of an enterprise-wide risk management structure.
5. Completion of the five-year financial plan.
6. Capital funding, including additional funding for deferred maintenance.
7. Implementation and tracking of key cost reduction initiatives.
8. Evaluation of sources, uses and cost allocation processes regarding support of research.
9. Financial implications of proposals to restructure the undergraduate curriculum.
10. Follow-up on internal controls.
11. Financial performance of affiliated entities.
12. Oversight of SIS installation.

FY 2007 COLUMBUS CAMPUS TUITION AND OTHER FEES AND CHARGES

Synopsis: Instructional, general and non-resident fees at the Columbus Campus and other fees and charges for Fiscal Year 2007 are proposed, effective Autumn Quarter 2006.

WHEREAS the Board of Trustees of The Ohio State University is committed to the University's continued implementation of the Academic Plan and its initiatives to meet the needs of Ohio State students; and

WHEREAS undergraduate instructional and general fees are subject to a State mandated 6% tuition cap; and

WHEREAS consultations have taken place within the University to determine the appropriate instructional fee increases for Columbus Campus undergraduate, graduate and professional programs; and

WHEREAS consultations continue to take place with regard to the regional campuses and the Agricultural Technical Institute, and those fees will be presented at the July meeting of the Board of Trustees:

NOW THEREFORE

BE IT RESOLVED, That instructional and general fees for all tiers of undergraduates enrolled at the Columbus Campus be increased by 6.0%; and

BE IT FURTHER RESOLVED, That instructional and general fees for most graduate students be increased by 6% and that the instructional fees for the professional colleges and selected graduate programs be increased by between 6% and 10%; and

BE IT FURTHER RESOLVED, That the nonresident surcharge for all programs be increased by 6%; and

BE IT FURTHER RESOLVED, That a \$50 undergraduate program fee be established for students admitted to the School of Allied Medical Professions and that the existing undergraduate program fees for declared majors in the School of Music and in the Fisher College of Business be increased from \$100 to \$150, and the undergraduate program fee for rank 3 and 4 students in the College of Biological Sciences be increases from \$50 to \$60

BE IT FURTHER RESOLVED, That the undergraduate learning technology fee in the College of the Arts be increased from \$50 to \$53 and the application fees for the Colleges of Dentistry and Business be increased by \$20 for both US and international applicants; and

BE IT FURTHER RESOLVED, That all of these increases, detailed in the accompanying materials shall be effective Autumn Quarter 2006, except that fees and charges for the Health System shall be effective July 1, 2006.

INTERIM BUDGET FOR FISCAL YEAR 2007

Synopsis: Authorization to make expenditures in FY 2007 is proposed.

WHEREAS the University has not yet finalized its operating budget for FY 2007; and

WHEREAS it is necessary to continue University expenditures, including payment of faculty and staff, prior to the time that the Current Funds Budget for FY 2007 is developed and adopted:

NOW THEREFORE

BE IT RESOLVED, That the University be authorized to make expenditures consistent with the level of resources approved for Fiscal Year 2006, pending the adoption of the University Budget for FY 2007.

**FY 2007 UNDERGRADUATE TUITION
REGIONAL CAMPUSES AND THE AGRICULTURAL TECHNICAL INSTITUTE**

Synopsis: Instructional and general fees for undergraduate students enrolled at ATI and the Regional Campuses for Fiscal Year 2007 are proposed, effective Autumn Quarter 2006.

WHEREAS consultations have taken place at the Agricultural Technical Institute and the Regional Campuses to determine the appropriate instructional and general fee increases for those students for Fiscal Year 2007; and

WHEREAS undergraduate instructional and general fees are subject to a State mandated 6% fee cap before adjustments for the Access Challenge offset; and

WHEREAS the Regional Campus Boards of Trustees have approved a 6% increase in undergraduate instructional and general fees, before adjustments for Access Challenge offsets, at those boards' respective June meetings; and

WHEREAS the Executive Dean of the College of Food, Agricultural, and Environmental Sciences has recommended a 6% increase in resident undergraduate tuition and a 6% increase in the non-resident surcharge for students attending ATI:

NOW THEREFORE

BE IT RESOLVED, That instructional and general fees and the non-resident surcharge for both upper and lower division undergraduates enrolled at ATI and the Regional Campuses be increased 6%; and

BE IT FURTHER RESOLVED, That all of these increases shall be effective Autumn Quarter 2006.

APPROVAL OF FISCAL YEAR 2007 OPERATING BUDGET

Synopsis: Approval of the Operating Budget for Fiscal Year 2007 is proposed.

WHEREAS the State budget for Fiscal Year 2007, including funding levels for State institutions of higher education, is set; and

WHEREAS fee increases for the Columbus and Regional Campuses for FY 2007 have been approved by the Board of Trustees and other levels of general funds and earnings resources have been estimated and restricted fund resources have been projected based on historical trends; and

WHEREAS expenditures, including compensation, have been estimated for FY 2007; and

WHEREAS appropriate planning and consultation within the University has been accomplished with regard to the Columbus Campus, Regional Campuses and ATI budgets, and the President now recommends approval of the FY 2007 Operating Budgets with a final Total University Current Funds Budget to be submitted at the September meeting of the Board of Trustees: and

WHEREAS this FY 2007 budget includes the following one-time funds for Campus Partners: 1) \$650,000 for support of Campus Partners operations during FY07 to carry out its initiatives, subject to the provisions of the 1997 memorandum of understanding, as amended from time to time, and 2) \$600,000 to address timing issues related to the renting of Gateway commercial/retail spaces:

NOW THEREFORE

BE IT RESOLVED, That the Operating Budget for the Columbus, ATI, Lima, Mansfield, Marion, and Newark Campuses for Fiscal Year 2007, as described in the accompanying text and tables, be approved, with authorization for the President to make general fund and earnings fund expenditures within the estimated income levels and to authorize the expenditure of all restricted funds earned with quarterly revenue updates to the Board.

APPROVAL OF FISCAL YEAR 2007 TOTAL UNIVERSITY CURRENT FUNDS BUDGET

Synopsis: Approval of the total University Current Funds Budget for FY 2007 is proposed.

WHEREAS the State budget for FY 2006 and 2007, including funding levels for State institutions of higher education, has been enacted; and

WHEREAS fee increases for the Columbus and Regional Campuses for FY 2007 have been approved at previous meetings of the Board of Trustees; and

WHEREAS other levels of resources and expenditures for the Columbus Campus and the Regional Campuses and ATI have been approved at previous meetings of the Board; and

WHEREAS adjustments have been made to eliminate double counting of transfers among the various University units; and

WHEREAS the President now recommends approval of the Current Funds Budget for the total University for FY 2007:

NOW THEREFORE

BE IT RESOLVED, That the University's Current Funds Budget for FY 2007, as described in the accompanying FY 2007 Current Funds Budget Book, be approved, with authorization for the President to make expenditures within the projected income.

I. Setting Budget Priorities

Academic Plan 2000-2007

In 2000 the Board of Trustees first approved the Academic Plan. This document defines six strategies and related initiatives that are necessary for The Ohio State University to become a truly great teaching and research university.

The Six Core Strategies

- Build a World-Class Faculty.
- Develop Academic Programs that Define Ohio State as the Nation's Leading Public Land-Grant University.
- Enhance the Quality of the Teaching and Learning Environment.
- Enhance and Better Serve the Student Body.
- Create a Diverse University Community.
- Help Build Ohio's Future.

These strategies and their related initiatives serve as a roadmap for the university. However, almost since its inception, the Academic Plan had to be adapted to fiscal constraints brought about by reductions in state funding.

Between spring 2001 and spring 2005, the university addressed a series of state budget cuts totaling over \$50 million. These cuts constrained progress on the Academic Plan and led the university to focus on only the most critical elements of the plan.

FY 2006 revenues were more stable and expenditures were focused on selected academic priorities. Faculty and staff compensation was increased on average by almost 3.5%. In addition, Ohio State made substantial progress in a number of targeted areas, including:

- 4-year graduation rates increased dramatically to nearly 40 percent, more than 10% over the past 5 years. Ohio State's freshman-sophomore retention rate has also risen to 89.7 percent, exceeding the national mean of 77.5 percent.
- Ohio State was ranked by the National Science Foundation among the Top 10 public research universities for sponsored research and was named among the Top 25 public research universities by U.S. News & World Report; ranking 19th in 2007 among all public universities.
- For the 11th consecutive year, the incoming first-year class was the best-prepared in history. The average ACT score was 25.8; 39 percent of freshmen were in the top 10 percent of their high school class, and 77 percent were in the top 25 percent, compared to 32 percent and 66 percent in Autumn 2001.

- Continued diversification of the student population. On the Columbus campus, enrollment of first-year African-American and Hispanic students was up from a year ago, 6 and nearly 7 percent respectively, and 16 percent of the incoming class were students of color.
- Six core administrative process reviews were undertaken: capital project approval, design, and construction; purchasing goods and services; energy cost management; health care benefits management; minimizing university borrowing costs; and maximizing the university's return on its investment in major systems projects. These reviews have resulted in an estimated \$37.2 million benefit to the University.

In June 2006, undergraduate student tuition increases, effective Autumn Quarter, were set at the state cap of 6.0% (excluding the \$78 mandatory recreation fee). However, over 55% of undergraduate resident students receive some form of university financial aid. For them, the effective increase is less, and in some cases zero, as financial aid will be increased to offset tuition increases. These increases will permit continued progress in meeting the goals of the Academic Plan, economic diversity will be maintained through offsetting increases in financial aid, and efforts will persist in order to reduce cost pressures on students.

In FY 2007, the University will continue to provide a lower tuition level for students who enrolled prior to summer 2002. It is anticipated that as most of these students graduate the lower tiers will be phased out in FYs 2008 and 2009.

Budget Context

At the beginning of the FY 2007 budget planning process, the university presented a financial benchmark report to its Board of Trustees. The report compares OSU's financial trends with eight benchmark institutions in a number of key areas.

The eight benchmark institutions include, in order of their relative rank: Michigan, UCLA, Wisconsin-Madison, Illinois-Urbana/Champaign, Washington, Texas-Austin, Minnesota-Twin Cities, and Arizona. This year, Penn State again was excluded from current and historical analysis due to vast differences in reporting on the Integrated Post Secondary Education Data System (IPEDS) as compared to the other benchmark institutions.

The eight institutions represent public higher education institutions of the highest quality that most closely resemble Ohio State in organization and missions. The institutions represent Ohio State's peers and aspirational peers. Using the most recent audited financial data available, FY 2004, the financial comparisons follow.

Current funds revenues per FTE student at Ohio State are significantly (17%) below the average of our benchmark institutions. However, this represents nearly a 9% improvement over FY 1996, when revenues were 25.9% below the average benchmark. This improvement is due to revenue sources, such as state support, tuition and fees, and government grants and contracts, growing at a faster pace for OSU when compared with the benchmark average during this same period. Thus, despite Ohio

State's revenue sources continuing to lag behind this average (except tuition and fees), the difference between OSU and the benchmark average has decreased dramatically since FY 1996.

State support per student FTE at Ohio State (\$8,684) continues to be lower than the benchmark average (11.1% less in FY 2004). State appropriations are the slowest growing revenue source: the average annual growth rate from 1994 to 2004 is 1.0% in 2004 constant dollars.

While instructional expenditures per student FTE at Ohio State are slightly below (-2.6%) the benchmark average, expenditures on academic support outside the classroom are 30% below the benchmark average.

The comparison of fees and tuition based on FY 2006 data shows:

- Because of reductions in state support and an increased reliance on tuition and fees, average resident undergraduate tuition and fees at Ohio State are 10.3% above the benchmark average in FY 2006.
- Ohio State is ranked higher than any other Ohio public university in academic reputation. The newest student fees are the second lowest among Ohio's six public 4-year universities with selective admissions. This makes Ohio State an excellent value for students and taxpayers, but it also means Ohio State does not have the resources to match our competition in key academic and support areas.

The university will continue its initiative to develop a five-year financial plan benchmarking key academic, demographic and administrative data to inform decisions on budget prioritization.

In FY 2007, total core state support (State Share of Instruction, Research Incentive, Innovation Incentive and Success Challenge) to the Columbus campus will grow by about 2.9%. In FY 2007 the state is providing the Columbus campus with \$334 million in total core state support.. Although this increase is the largest since FY 2001, total state support still remains 1.2% lower than FY 2001 levels. Adjusting for inflation, core state support to the Columbus campus is 14% below FY 2001 levels. In FY 2007, the university will continue to diversify its revenue sources through increased private fund raising and sponsored research.

As a result of the modest increase in state funding and the other cost pressures felt by the university, undergraduate tuition and fees were again increased by 6% for FY 2007, as they were in FY 2006. However, the increases for these two years are the smallest percentage increases since 2001. Need-based financial aid was once more increased proportionately to offset the tuition increase and maintain access for lower income students.

Revised Budget Process

Over the past decade the university has moved toward a decentralized budget process that more directly aligns financial incentives for the colleges with the academic goals of the university. The revised budget process aligns the allocation of new revenues with the Academic Plan and reconciles college base budgets with academic goals. Beginning in FY 2003, annual increases in revenues and expenditures were shared with the colleges based on the following principles of the new budget system:

- The allocation of resources should be mission driven.
- In a large, complex organization, decentralized decision-making works best.
- Any budget system, but particularly one that is decentralized, depends on the creation and maintenance of a timely and user-friendly information system.
- A significant portion of revenues should be explicitly linked to the generating units, specifically the colleges.
- A portion of all revenues should be dedicated to the support of university-wide goals.
- Costs should also be explicitly linked to the generating college or vice presidential area.
- Although the system should be mission driven, predictability and stability are also important characteristics.
- Appropriate oversight and accountability should be provided by the university's governance and administrative structure.
- A carefully thought out transition is essential to the ultimate success of any changes in the budget system.

In FY 2007, a comprehensive review of the shifts in resources among the colleges and academic support units since the inception of the revised budget process in FY 2003 will be undertaken to determine if the budget process is providing greater incentives for units to generate and use resources consistent with the goals of the Academic Plan.

FY 2007 Priorities

Increased revenue generated from the tuition and state funding increases is allocated according to the following strategic principles:

- Support the Academic Plan/Leadership Agenda.
- Support the flow of resources to the colleges to carry out their missions.
- Ensure continued operating efficiencies and high quality support services.
- Advance effective financial stewardship.

The colleges are the key focal points to advance the objectives of the Academic Plan. Consequently, the university's decentralized budget system is designed to ensure that at least 75% of increased annual revenues from tuition and fees and State Share of Instruction as well as that 100% of increased indirect cost recoveries are distributed back to the generating colleges.

Consistent with the Academic Plan, the FY 2007 budget is structured to support the following key University-wide initiatives:

- **Competitive Compensation**
- **Targeted Investments in Excellence**
- **Reform of the Undergraduate Curriculum**
- **Quality Graduate Programs**
- **2008 Enrollment Plan**
- **Enterprise-Wide Systems**

These initiatives are discussed in greater detail in Chapter III, FY 2007 Expenditure Summary.

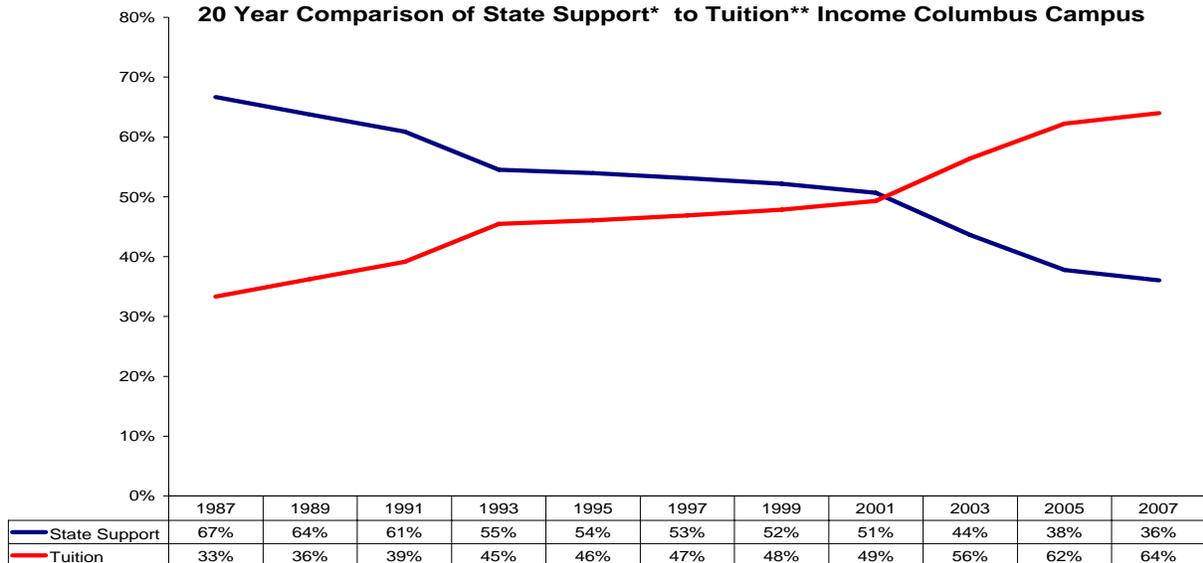

II. FY 2007 Revenue Summary

Overview

The university's total current funds revenues (including general funds, earnings and restricted revenue) are projected to increase by 8.1% from \$3.48 billion to \$3.76 billion between FY 2006 and FY 2007.

General fund revenues for the Columbus campus consist primarily of state support (State Share of Instruction, challenge funding and state line-item appropriations) and student tuition and fees. General fund revenues are projected to increase by \$58.8 million. Of that amount, \$5.3 million is earmarked for increased undergraduate financial aid. That equates to an 8.2% increase above FY 2006 in funds available for undergraduate financial aid and a 6% increase in graduate financial aid.

The FY 2002 current funds budget marked the first time revenue from student tuition exceeded state instructional support at the Columbus campus. Ohio has gone from a position nineteen years ago, when Ohio State's share of instructional support was nearly double its student fee income, to a position today where the state provides a minority share of the instructional funding for Ohio State. The forecast for the foreseeable future is that state support will continue to fall further behind student fee income, putting an even greater financial burden on students and the university.

* As used here, "State Support" includes State Share of Instruction, Success Challenge, Research Incentive (formerly known as Research Challenge), and Innovation Incentive funding.

** "Tuition Income" includes instructional, general, student activity, and recreation fees, and non-resident surcharge.

State Support

Core funding for the university includes State Share of Instruction and five other line-item appropriations, which are known as challenge funding. The amount of challenge funding received is dependent upon the university's performance in meeting the following statewide goals:

Success Challenge – rewards successful completion of baccalaureate programs by at-risk students (OIG-eligible undergraduates) and successful, timely completion of baccalaureate degrees by state residents. In FY 2007, OSU is projected to receive \$11,030,000 in Success Challenge funding.

Research Incentive – rewards success in securing sponsored research from external sources. (Formerly known as Research Challenge.) In FY 2007, OSU is projected to receive \$7,638,000 in Research Incentive funding.

Innovation Incentive – allows institutions to match a portion of their doctoral allocation from the State Share of Instruction allocation with state funds to improve doctoral programs and enhance research in strategic science and technology areas. In FY 2007, OSU is projected to receive \$1,897,000 in Innovation Incentive funding.

Access Challenge – reduces financial barriers to entry-level higher education (two-year campuses only). Reductions in Access Challenge make it more difficult for the regional campuses to keep their tuition low. OSU's regional campuses are projected to receive \$2,868,000 in Access Challenge funding in FY 2007.

Jobs Challenge – rewards successful efforts in meeting community needs for non-credit job training (two-year campuses only). OSU's regional campuses are projected to receive \$413,000 in Jobs Challenge funding in FY 2007.

Priorities in Graduate Education – supports improvements in graduate programs in computer science. In FY 2007 OSU is projected to receive \$572,000 in Priorities in Graduate Education funding.

Student Fees

Student Enrollments

Total undergraduate, graduate and professional Columbus campus enrollments for Autumn Quarter 2006 are projected to be 50,626, up 122 enrollments over Autumn 2005. Due to financial aid incentives and a growing interest in high caliber public education, Ohio State is expecting a slightly larger Autumn Quarter freshman class of 6000. With the expected larger freshmen class as well as continuing improvement in the number of students who stay enrolled (retention), both of which are anticipated to counteract decreasing enrollments due to an increasing number of students who graduate in four years, the estimated undergraduate enrollment level for FY 2007 is projected to increase by 0.4% or be 449 above FY 2006 enrollments.

Graduate enrollments decreased slightly in FY 2006 after several years of a general upswing and are projected to continue a small decline in FY 2007, due to fewer expected non-resident students. Professional student enrollments are projected to decrease slightly as well.

Undergraduate Instructional, General, Student Activity and Recreation Fees

In accord with the tuition caps established in the FY 2006 - 2007 biennial state budget, undergraduate general and instructional fees were increased by 6% for FY 2007.

The 6% increase translates into the following fee tier levels for full-time students. In addition to the undergraduate instructional fee and the general fee (consisting of the \$126 per quarter basic general fee plus the \$15 undergraduate student activity fee), the annual amounts shown include the \$9-per-quarter Central Ohio Transportation Authority (COTA) fee. Also included is the mandatory student recreation fee of \$78 per quarter paid by students enrolled for four or more credit hours.

- Tier 1 - \$7,860 annually (\$2,620 per quarter) for full-time continuing undergraduates who were first enrolled at Ohio State prior to Summer Quarter 2002. This tier will phase out in FY 2008.
- Tier 2 - \$8,559 annually (\$2,853 per quarter) for full-time continuing undergraduates who were first enrolled at Ohio State between Summer Quarter 2002 and Spring Quarter 2003. This tier is expected to phase out in FY 2009.
- Tier 3 - \$8,667 annually (\$2,889 per quarter) for full-time students who first enrolled at Ohio State for Summer Quarter 2003 or later.

These tuition increases will provide the university with resources to continue to make progress toward the goals of the Academic Plan and meet the needs of our students as well as continue to be a high value investment to the citizens of Ohio. In FY 2007, new students at the Columbus campus will pay less in tuition and fees than new students at four other Ohio public universities.

Ohio Public 4-Year Universities

Undergraduate Resident Tuition and Fees Rates (new students)

Universities	Credit Hours (Range)	Academic Year 2006-07 Fees ¹
Miami ^{2,3}	12+	\$10,042
Cincinnati ³	12-19	9,381
Bowling Green ³	12+	9,060
Ohio University ³	11-20	8,727
Ohio State-Columbus Campus³	12+	8,667
Kent State ³	11+	8,430
Akron	12-15	8,383
Cleveland State	12-16	7,970
Toledo	12-16	7,940
Wright State	12-18	7,278
Youngstown State	12-16	6,697
Shawnee State	12-18	5,832
Central State	12-18	5,294
Ohio Average		\$7,977

¹ Fees for full-time resident students entering in Autumn 2006. Data Source: Institutional campus representative.

² Miami's annualized fall tuition and fees rate is \$22,619. However, Ohio residents receive an Ohio Resident Scholarship ranging from \$4,705 to \$5,000 and an Ohio Leadership Scholarship ranging from \$6,080 to \$9,125 per year. These scholarships reduce Miami's resident undergraduate tuition to an average of \$10,042 per year.

³ Institutions with selective admissions.

Graduate and Professional Fees

Masters and PhD instructional, general, and student activity fees will increase \$498 per year (6%), or \$166 per quarter. The graduate student activity fee (\$15 per quarter for full-time students) supports graduate and professional student organizations and programs.

Some graduate and professional students pay a higher, or differential, fee. Revenue generated from FY 2007 differential fee increases is earmarked to support the graduate and professional programs that generate the fee income.

Eighteen graduate and professional programs will have differential fees in FY 2007. Twelve of these programs will have differential fee increases in excess of a base fee increase of 6.0%. The following table specifies the various graduate and professional programs' differential fee increases for full-time graduate and professional students effective in Autumn 2006.

FY 2007 Increase for Graduate and Professional Program Differential Fees

College	FY 2007			
	Instructional		Non-Resident Surcharge ⁴	
	Annual Fees	% Incr	Annual Fees	% Incr
Business EMBA	\$34,956	5.1%	N/A	N/A
Business MAcc	20,493	6.0%	\$13,353	6.0%
Business MBA	18,318	9.0%	13,353	6.0%
Business MBA-Part-time	18,282	9.0%	13,353	6.0%
Business MBLE	18,318	9.0%	13,353	6.0%
Business MLHR	9,093	6.0%	13,353	6.0%
Dentistry	22,002	9.5%	27,417	6.0%
Law (semester)	16,868	10.0%	14,418	6.0%
Medicine ⁵	24,609	7.8%	13,602	6.0%
Allied Med. Occ. Therapy	9,366	9.4%	13,353	6.0%
Allied Med. Phy. Therapy	9,585	6.0%	13,353	6.0%
Sch of Public Health MPH/PEP	9,270	6.0%	13,353	6.0%
Sch of Public Health MHA	10,461	6.0%	13,353	6.0%
Optometry	15,273	9.0%	27,417	6.0%
Pharmacy	12,693	9.5%	14,205	6.0%
SBS ⁶ Audiology	9,084	10.0%	13,353	6.0%
SBS ⁶ Masters in Speech and Language Pathology	9,084	10.0%	13,353	6.0%
Vet Medicine	\$18,945	9.0%	\$28,341	6.0%

⁴ Non-resident students pay the non-resident surcharge in addition to the instructional fee. All students pay a general fee, student activity fee and recreation fee not shown in this table.

⁵ Represents gross instructional fees for all ranks (1-4). Rank 4 students receive medicine tuition credits that lower their effective fee rates.

⁶ This is the first year of differential fees for two graduate professional programs (audiology and speech-language pathology) in the College of Social and Behavioral Sciences.

Non-Resident Surcharges

Effective Autumn Quarter 2006, the undergraduate non-resident surcharge at all campuses is to increase 6% to \$3,965 per quarter for a full-time student. The non-resident surcharge is also to increase by 6% for all graduate and professional programs at each campus.

Regional Campuses and ATI

The 2007 instructional and general fees for undergraduates attending the regional campuses and ATI, before applying Access Challenge credits, are increasing 6.0% above the 2006 academic year fees.

Resident Undergraduate Annual FY 2007 Tuition Regional Campuses and ATI			
	Tuition	Access Credit	Student Share
Regional Lower Division	\$6,240	(\$576)	\$5,664
Regional Upper Division	6,240	0	6,240
ATI	6,216	(357)	5,859

Undergraduate Program and Technology Fees

The following five programs will have undergraduate program fees in FY 2007:

College/Program	FY 2007 Annual Fees
School of Music	\$450
College of Business	450
College of Nursing	150
College of Biological Sciences	180
School of Allied Med	150

For the College of Business and the School of Music, the FY 2007 program fees represent a \$50 increase over the FY 2006 fees. The undergraduate program fee for the College of Biological Sciences, which is increasing by \$10 over last year's fee, is charged to students in ranks 3 and 4. The undergraduate program fee for the School of Allied Medical Professions is a new fee, to be implemented in Autumn 2006.

Several colleges and programs have established learning technology fees in prior years to fund enhanced technology needed to remain competitive within their fields. The technology fees in the Colleges of Business, Engineering, and Nursing and in the Schools of Music and Public Policy are not increasing this year. The technology fee for the College of the Arts is increasing by \$3 over the FY 2006 fee.

All technology and program fees are prorated by credit hours.

Residence Halls and Other Charges

Housing fees (the second highest expense after tuition) for a resident undergraduate student at Ohio State's Columbus campus are set to increase by 0.3%, or \$21, for FY 2007.

The total cost for a resident undergraduate student to attend Ohio State's Columbus campus and live in university housing will increase approximately 4.3% for a three quarter academic year for a new student. However, for resident undergraduate students who receive some form of university financial aid the increase will be less and in some cases, zero.

Fees and Charges (Annual)	2006 Annual Rate	2007 Annual Rate	Percent Increase Over FY 2006
Tuition ⁷	\$7,929	\$8,406	6.0%
Room & Board ⁸	7,215	7,236	0.3%
Health Insurance ⁹	1,260	1,365	8.3%
Parking ¹⁰	68.40	72	5.3%
COTA Bus Pass	27	27	0.0%
Football Tickets ¹¹	112	116	3.6%
Basketball Tickets ¹²	100	110	10.0%
Recreation Fee ¹³	126	234	85.7%
Total	\$16,837.40	\$17,566.00	4.3%

Sponsored Research

Indirect cost recoveries grow as a function of the level of external research grants awarded to the university. The negotiated indirect cost recovery reimbursement rate is a function of the university's actual expenditures (subject to certain established ceilings) for general administrative and library support services, and research facility and equipment costs. The OSU indirect costs recovery rate on most federal research grants has been approved to increase from 49.5 to 50.0% on grants awarded after July 1, 2006. This will remain the indirect cost recovery rate until July 2009. By FY 2009 it is estimated the additional .5% will generate an additional \$1 million in cost recoveries annually.

The university is currently projecting that growth in the external research grants awarded to the university will level off for FY 2007. This is following four years of unprecedented growth. Colleges and Research Centers are projecting indirect cost recoveries growing at only 2.2% and generating increased revenues of about \$1.6 million over FY 2006 levels.

⁷ Instructional and general (includes student activity) fee for students first enrolled after Spring Quarter 2003.

⁸ Weighted average undergraduate room rates plus the base meal plan.

⁹ Based on the single comprehensive rate.

¹⁰ Rates are for the Columbus west campus.

¹¹ Student package is 4 games.

¹² Season package is 10 games.

¹³ Increase in recreation fee reflects opening of the final phase of Recreation and Physical Activity Center.

Sponsored Research¹⁴	Actual FY 2004	Actual FY 2005	Actual FY 2006	Budget FY 2007¹⁵
Total Direct Costs	244.2	276.8	290.9	305.4
Percent Change		13.3%	5.1%	5.0%
Indirect Costs	63.9	67.8	72.4	72.0
Percent Change		6.2%	6.7%	-0.4%

Internal Overhead and Service Charges

The regional campus service charge is projected to increase by 7%, resulting in increased revenues of \$294,000 in FY 2007. University overhead paid by earnings units and auxiliaries is increasing by over \$6.1 million in FY 2007. \$4.3 million of the increase will be generated primarily as a result of the growth in hospital revenues and will be used to fund university commitments to the Medical Center and increased costs of supporting the Medical Center.

Internal Overhead	Actual FY 2004	Actual FY 2005	Actual FY 2006	Budget FY 2007
Cost Containment	4.8	4.6	4.6	4.5
Regional Campus Serv Chg	4.8	5.2	4.2	4.5
Earnings Overhead & PP	37.8	39.8	44.2	48.4
Total Internal Overhead	47.4	49.6	53.0	57.4
Percent Change		4.6%	6.9%	8.3%

Endowment Disbursements

In addition to their general funds support, colleges and academic support units receive revenues generated through the investment of endowment assets. In FY 06 approximately 49% of disbursements from endowments were used to support college activities. 95% of this amount is restricted by the donor.

	FY04	FY05	FY06	FY07 (est.)
Amount in Millions	\$63.5	\$77.6	\$84.1	\$89.0
% Change	-1.7%	+22.2%	+8.4%	+5.8%

Note: The figures above were provided by university Treasurer's Office and include all endowment income disbursements.

¹⁴ Figures for FY04 to FY06 provided by OSURF.

¹⁵ Total Direct Costs are estimated at 5% over FY06. Indirect Costs are per the General Funds Budget.

Other Income

Additional sources of general funds income include interest income and miscellaneous administrative fees and charges income. As a category, budgeted revenue from other income is projected to increase 8.2% over FY 2006 budgeted levels. Because of the volatility of the return on investments, the annual budget does not assume the actual increase earned in the prior year will be realized in its entirety. The interest earned above the budgeted annual rate is used to fund one time needs in the following year.

Other Income	Actual FY 2004	Actual FY 2005	Actual FY 2006	Budget FY 2007
Investment Income	10.1	14.1	24.8	12.6
Miscellaneous Income	1.4	1.0	1.0	0.6
Total	11.5	15.1	25.8	13.2

III. FY 2007 Expenditure Summary

Resource Allocation

FY 2007 is the fifth year of Ohio State's restructured budget process. This budget process aligns the allocation of resources with the Academic Plan and decentralizes much of the decision making about expenditure priorities to the college and vice-presidential level.

In FY 2007, Ohio State's current funds budgeted expenditures for all campuses total \$3.72 billion including \$1.12 billion in general funds, \$1.87 billion in funds generated from earnings and auxiliary operations and \$724 million in estimated restricted expenditures.

At the Columbus campus, general funds support of a continuing level of services for FY 2007 requires \$1.09 billion, including \$607 million to support existing faculty and staff levels and \$84.2 million to support existing facilities operations costs. The total FY 2007 financial aid budget including graduate fee authorizations is \$182 million or 16.2% of the university's general funds budget.

The FY 2007 budget is structured to support key University-wide initiatives, consistent with the Academic Plan:

- **Competitive Compensation**
- **Targeted Investments in Excellence**
- **Reform of the Undergraduate Curriculum**
- **Quality Graduate Programs**
- **2008 Enrollment Plan**
- **Enterprise-Wide Systems**

Funding for these initiatives is described below:

- A. **Competitive Compensation** – will be funded from college and support unit operating budgets. Most units are able to fund a raise pool of 3.0% for faculty, staff and student employees without a reallocation. The Provost is selectively supporting high quality academic units that lag behind their benchmark faculty salary levels with re-basing transfers.
- B. **Targeted Investments in Excellence** – 2007 is the first year of a planned five year funding cycle for 10 programs selected as Targeted Investments in Excellence. In total, over \$50 million will be invested in these initiatives over the next five years. In 2007, \$9 million one-time and \$1 million continuing

funds are provided to strengthen high quality, high impact research initiatives. Those initiatives chosen to receive funds include:

- Climate, Water and Carbon Program,
- Public Health Preparedness Program for Emerging Infectious Disease Threats,
- Mathematical Biosciences,
- Center for Cosmology and Astro-Particle Physics,
- Center for Clean and Sustainable Energy,
- Advanced Materials Initiative,
- Multidisciplinary Initiative in Population and Health,
- Translational Plant Sciences,
- Music Industry Program,
- MicroRNA Genes in Diagnosis, Prognosis, Prevention, and Therapy of Cancer.

In addition, the Logistics Management Program will be funded internally by the College of Business.

- C. **Reform of the Undergraduate Curriculum** – analysis of financial impact is continuing. Some funds to support this initiative are reserved in the Provost's base budget.
- D. **Quality Graduate Programs** - these funds will come from a \$3.6 million pool set aside from state Innovation Incentive funds and university funds to be distributed by the Graduate School. Funds will be targeted to Science, Technology and Engineering programs as provided for in the Economic Growth Challenge.
- E. **2008 Enrollment Plan** – the recruitment effort will be successfully completed one year early, in FY 2007. \$1.4 million for additional financial aid and \$500,000 to support recruiting are funded through the student services assessment in FY 2007 to raise academic qualifications of the FY 2008 incoming freshman class to targeted levels. This includes an average ACT score of 27. Financial aid funding for this initiative will carry through FY 2008.
- F. **Enterprise-wide Systems** – are funded through multi-year cash assessments. Funded in FY 2007 is \$9.4M cash for the Student Information System (SIS) (Phase II of V) and \$2.5M cash for the Grants Management System (Phase III of IV). Total cost of the Grants Management System is \$13 million. The expected cost of the SIS installation is between \$40 and \$50 million.

In addition, the FY 2007 budget continues to support the review of core academic support processes in order to reduce expenses and improve services. Three new or

enhanced cost reduction initiatives are being funded in 2007. They are summarized below:

Plan for Health – an investment of \$2.0 million in wellness programs and coordinated care management. This is expected to save \$3 to \$6 million each year in years one to three, and \$5 to \$8 million each year thereafter, by improving the health of University faculty and staff and improving the effectiveness of care of chronic conditions.

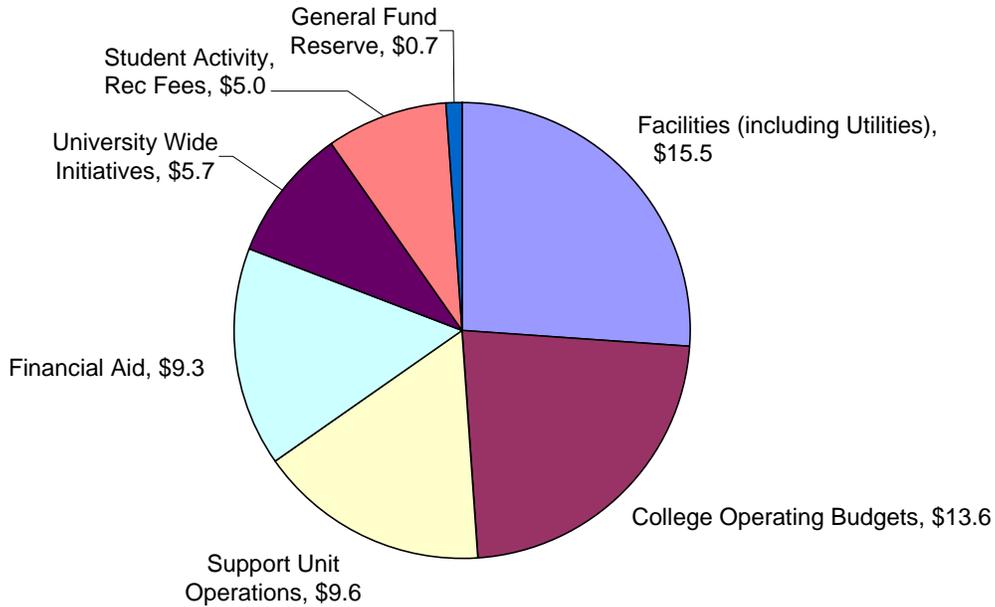

Transition to Work – this plan is modeled after successful efforts elsewhere that demonstrate savings to employers in Worker's Compensation costs and significant benefits to employees by returning employees with temporary medical or psychological restrictions to work sooner. An up front investment of \$289,000 is expected to save at least \$2.8 million annually.

Energy Management and Sustainability – the rising cost of energy has made it cost effective to enhance conservation efforts and explore alternative energy sources across campus. This request includes \$236,000 in continuing funds and \$200,000 in one-time funds to improve metering and building designs. Additional internal funds will be used to fund building energy audits as part of this program. Based on current energy costs, long term savings are expected to be over \$2.0 million annually.

Changes by Category

Expenditures and planned reserves for FY 2007 are increasing by \$59.4 million allocated as shown below; \$58.7 is from FY 2007 marginal increase in revenues and the general fund reserve remains at \$0.7.

Revised Total	\$964.7	\$1,017.8	\$53.4	5.5%

Areas of emphasis for FY 2007 include:

Support of Facilities – The major challenge in allocating limited growth in revenues to the university's areas of strategic emphasis was funding the huge increase in the cost of heating, lighting and cooling of buildings. In FY 2006, utility costs exceeded budget by almost \$9 million, primarily due to increased fuel oil and natural gas prices. A \$10 million cash utility reserve allowed the university to pay its bills without reallocating in the middle of FY 2006. Reflected in the \$15.5M growth in facilities cost is the 2006 utility rate increase, compounded by the additional 2007 utility rate increase, normal inflation in building operations and maintenance expense and a 3.8% expansion in assigned square footage due primarily to the scheduled opening of the Recreation and Physical Activity Center and the Psychology Building.

For the third year of the phased-in maintenance and renovation endowment, the university met its commitment and continued to grow the annual contributions to this important fund established to address long-term maintenance and renovation needs of general fund space added since FY 2000.

The major auxiliary operations, regional campuses, the Ohio Agricultural Research and Development Center, and the Agricultural Technical Institute are also funding maintenance and renewal endowments for their own facilities.

In FY 2007, \$1M was set aside to cover the anticipated initial support expenses for new and highly complex research facilities scheduled to open during the year.

¹⁶ Does not include \$2.4M increase in Graduate Fee Authorizations in College and Support Unit Operating budgets.

¹⁷ Was originally budgeted at \$36M in FY 06. \$7M has been transferred to fund strategic investments in college departmental budgets. This category includes the Provost's and President's Strategic Investment funds and the University Reserves.

¹⁸ Service Improvements and Mandates will be transferred into support unit budgets in FY 2007.

Competitive faculty and staff salaries – Salaries and benefits are budgeted for in the college and support unit operating budgets and comprise 76.6% of the college budgets and 71.4% of the support unit budgets.

In FY 2007, pay increases for faculty (effective October 2006) are projected to average nearly 4%. Pay increases for staff, also effective in October, will average 3.5%. The variance among colleges in the average faculty pay increase is a reflection of the competitiveness of the faculty salaries with each department's benchmark institutions. However, the primary criterion for an individual's compensation is performance. Pay increases in many units will be partially funded by a reallocation of existing budget. In some instances, this will be accomplished by not filling vacant positions; in other cases, by using internal funding sources or by reducing operating costs. Some rebasing funds were allocated by the provost to high performing departments with average salary levels below their benchmarks.

Student Financial Aid – Financial aid funds are increased at a rate that ensures students who are otherwise qualified will not be denied admission for financial reasons. For FY 2007, about 27% of the university's growth in tuition was allocated to student financial aid. This increases the amount budgeted for undergraduate student financial aid in FY 2007 by \$5.3 million over FY 2006 levels and includes the \$1.4 million for additional financial aid to support recruiting for the 2008 Enrollment Plan, the university's initiative to raise academic qualifications of the incoming freshman class to targeted levels, including an average ACT score of 27.

An additional \$4.0 million is budgeted to support the growth in graduate fee authorizations.

University-Wide Initiatives – The \$5.7M in annual rate set aside for university-wide initiatives is primarily made up of the President's and Provost's Strategic Investment funds and the \$700,000 in the University's general reserve.

There is \$19.5M in one-time cash targeted for university-wide initiatives in FY 2007, as shown on Table II.4 in the back of this book. These funds come from three primary sources: the President's Strategic Investment Fund, \$7.5M; the President's Strategic Endowment Fund, \$4M; cash carry-forward in the President's Operating Reserve, \$500,000; and cash in central university accounts targeted for university-wide initiatives, \$9.5M. In addition, \$1M has been set aside in the operating reserve, as well as \$1M in the rainy day fund.

Provost's Annual Rate to Invest in University-wide Initiatives – The Provost has \$4.8M to support university-wide initiatives. This includes the \$2M in the Provost's Strategic Investment Fund and an additional \$2M generated from the 5% of marginal increases in tuition and state support. Other funds available to the Provost to invest in areas of strategic importance as identified in the Academic Plan include the \$650,000 available for faculty market adjustments and the Success Challenge Funds received from the state.

Since 2002, the funds generated from the 5% set aside have been used to align colleges' base budgets with the goals of the Academic Plan. This includes moving funds into college base budgets as well as recovering funds from college base budgets. The table below documents the rebasing transfers to and from colleges over a five-year period beginning in FY 2002. As of FY 2006, six of the seven colleges entitled to rebasing transfers have access to funds equal to the five-year rebasing goal. The final part of the original rebasing transfer of \$1.4M to the College of Medicine will be made in FY 2007.

Additional FY 2007 rebasing funds have been allocated by the Provost to colleges on the basis of two considerations: 1) the colleges' need to achieve compensation increase pools competitive with their benchmark programs, and 2) to offset the unusually high increases in utility costs for those colleges whose programs require a significant investment in facilities.

**College Rebasing History

The Provost has committed \$1M of the \$2M Strategic Investment Fund for the next five years to support the Targeted Investments in Excellence Initiative.

Remaining Strategic Investment Funds are set aside to fund initiatives like the Reform of the Undergraduate Curriculum which are anticipated to need funding later this year or in future years.

President's Operating Reserve – Recognizing the importance of the University's compliance with federal mandates in the areas of human and animal research, the President has dedicated the \$500,000 in annual rate in FY 2007 to the Office of Research's compliance initiative.

In addition, \$100,000 in one-time funding has been set aside for the new College of the Arts facility in the Lazarus building and \$100,000 to support a competitive process to allow Regional Campuses to fund innovative research initiatives.

President's Strategic Investment – In October 2000, the University Board of Trustees approved the creation of the President's Strategic Investment Fund. The purpose of this fund is to allow the President to direct one-time resources into areas of strategic investment supportive of the Academic Plan.

The Board resolution prohibits use of these resources for continuing commitments. Use of these funds is reported annually to the Board of Trustees. Committed funds are identified in the following table.

**President's Strategic Investment Fund
Planned Resources and Commitments
(In Millions)**

Resources		FY 2006	FY 2007	FY 2008	Total

¹⁹ Represents 35.5% of Research Challenge budget.

²⁰ No interest loan pending Capital Bill.

²¹ New FY 2007 commitments total \$7.5M. School of Public Health and Math & Biosciences Institute are continuing commitments made in FY 2006.

President's Strategic Endowment – The President's Strategic Endowment income is derived from the investments made possible by a change in Ohio law that allows the University Treasurer to invest University revenues with the University's Endowment Fund to earn a higher rate of return. The FY 2007 allocation consists of \$3.95 million split among the seven commitments shown on the following table.

**The President's Strategic Investment Endowment
Planned Resources and Commitments (in millions)**

Central University Cash for University Wide Initiatives – this cash is generated from annual rate held centrally and not needed in its entirety in the prior fiscal years. This cash is reinvested in the following initiatives in FY 2007:

- \$2 million of this cash is being set aside in University reserves to deal with unanticipated needs or opportunities during the fiscal year;
- \$ 1.8 million to support various public safety and security mandates and service improvements;
- \$1 million is set aside to support the Targeted Investment in Excellence initiative;
- \$1 million to support the Medical Center's research initiatives²²;
- \$1 million to meet the University's commitment to fund the development of a new Student Information System;

²² This is a \$5M commitment. In addition to \$1M central university cash, \$2M is from the President's Strategic Investments and \$2M from the Provost.

- \$0.8 million for new software and data management tools including \$500,000 to support a continuing study to identify the best software to support the compliance of the University's researchers with federal reporting requirements;
- \$0.5 million to ensure the design for the new Ohio Union building is a model of energy efficiency (LEEDS compliant);
- \$1.5 million in various other service improvements and prior funding commitments. All University wide initiatives funded in FY 2007 are listed in Table II-4 in the back of this book.

Service Improvements and Mandates – An additional \$4M in continuing funds is allocated primarily for health and safety, research support, support of university development, library support and student services related initiatives.

University Enterprise System Initiatives Funded Through Reallocations – In addition to the university-wide initiatives funded with marginal increases in resources, over \$11.9M is reallocated from college, support unit and auxiliary unit budgets through multi-year cash assessments. Funded in FY 2007 is \$9.4M cash for the Student Information System (SIS) (Phase II of V) and \$2.5M cash for the Grants Management System (Phase III of IV). Total cost of the Grants Management System is \$13 million. The expected cost of the SIS installation is between \$40 and \$50 million.

Changes by College and Academic Support Unit

Another way to look at the allocation of University resources is by sorting the budget by unit responsible for administering the funds. The following tables show the relative size of the college and academic support unit budgets and the growth in their budgets of FY 2007 over 2006.

The budget allocation methodology directs 76% of state support and tuition and almost 100% of indirect cost recoveries to the colleges. This has, as anticipated, resulted in differential net marginal revenue growth among the colleges. The colleges teaching a growing number of credit hours or expanding their research are realizing more growth in general funds revenues than the colleges with flat or declining credit hours or research initiatives. In addition, some professional colleges and programs charge differential fees. Differential tuition revenues are earmarked for the support of the programs in which the students paying the tuition are enrolled.

It is important to recognize that some colleges rely more heavily on general fund revenue than others and therefore are more directly affected by the allocation methodologies. The following table shows fund proportions for FY 2005.

Sources of Funds by College - FY 2005
(In Order of Percent of General Funds)

College	Total Funds (in Millions)	General Funds % of Total ²³	Earnings % of Total ²⁴	Restricted % of Total ²⁵
Humanities	\$58.5	92.8%	0.2%	7.0%
Arts	\$25.9	89.8%	2.7%	7.5%

Optometry	\$15.3	33.3%	17.6%	49.0%
Medicine	\$221.2	28.5%	0.5%	71.0%
Food, Agric & Env Sci ²⁶	\$186.5	15.6%	5.4%	78.9%
Total	\$1,167.8	46.5%	6.1%	47.4%

Note: Due to Interfund transfers, sources may be slightly overstated in certain situations.

²³ General Funds are unrestricted resources available for allocation in support of core instruction, instructional support, and related general administrative and physical plant expenditures. Also include fee authorizations.

²⁴ Earnings Operations are also unrestricted with resources generated from the sales and services of the earnings units. While not a requirement, these resources are generally designated to the unit generating the revenue. Included are Veterinary Hospital, University Airport, Reading Recovery, Engineering Experiment Station, Dental Clinic, Optometry Clinic, University Press, The Lantern, etc.

²⁵ Restricted Funds are funds whose use has been designated by an external agency or individual and limited to support a specific purpose and/or unit. Sponsored Programs are included.

²⁶ Includes the College of Food, Agricultural & Environmental Science, as well as ATI, OSUE and OARDC.

In this chapter, the various categories of university expenditures were summarized. The next chapter examines the university's multi-year commitments and trends over time in expenditures.

³³ Program expansions are reviewed and selected for funding through a process which includes consultation with faculty, deans, and the president's cabinet.

³⁴ Initiatives, Service Improvements, and Mandated funding: \$3.9M funded centrally, \$0.5M Research Administration Assessment, \$1.9 M Student Services Assessment.

³⁵ In addition to this table, one time funds also include \$100,000 regional campuses incentives, \$500,000 for Urban Education to the College of Education, and \$200,000 for the Lazarus project to the College of the Arts.

³⁶ Includes OIT, Human Resources, Provost Office Administration, and Office of Minority Affairs.

³⁷ Does not include \$534,000 increased funding for graduate fellows.

³⁸ Does not include Student Financial Aid.

³⁹ Does not include transitional funding for Biomedical Research Tower, which will be included in FY 2008.

⁴⁰ This funding covers the portion of the Executive Dean's Office that advises non-Arts and Sciences students. The remainder of the office is shown on the preceding page under colleges.

⁴¹ \$1.0M service improvements earmarked for research: \$500,000 compliance to be matched by \$500,000 of reallocated funds from the current research budget.

IV. Multi-Year Commitments

The documentation of multi-year commitments has been part of the annual budget report every year since FY 1996. The purpose of this review is to share with the campus community the nature of these commitments and how they change from year to year. In order to plan effectively, the university needs to be able to make commitments across fiscal years, but do so in a way that does not jeopardize future financial flexibility and maximizes the opportunities for implementation of the Academic Plan.

Continuing General Funds

The following table lists the explicit multi-year commitments against continuing general funds. The Provost's Strategic Investment Fund is a continuation of existing commitments. GA benefits are contributions made by the university toward the costs of graduate assistant health care benefits in order to keep the student's cost at \$150 per quarter. Cancer Center Match is to fund 10% of the marginal increase in indirect cost recoveries on cancer research over a five year period. Enrollment Plan 2008 is to enhance the quality of undergraduate recruitment efforts. All amounts are additional funds required in that year.

**Multi-Year Continuing General Funds Commitments
(Columbus Campus General Funds Budget – In Millions)**

Commitment	FY07	FY08 Est.	FY09 Est.
Provost Strategic Investment Fund	\$2.0	\$2.0	\$2.0
GA Benefits	0.9	0.0	0.0
Cancer Center Match	0.4	0.4	0.4
Enrollment Plan 2008	1.4	1.5	0.0
Development Support	0.9	TBD	TBD
Total	\$5.6	\$3.9	\$2.4

The desired ceiling for multi-year commitments is that commitments in the succeeding three years not exceed 1% of the current year's budget. This guideline was established in the mid-1990s in order to preserve future financial flexibility. One percent of the FY 2007 Columbus campus general funds budget is \$10.6 million. The total of the succeeding three years multi-year commitments (FY 2007 thru FY 2009) equals \$11.9 million, slightly over the stated goal. Therefore, caution must be exercised in making additional future multi-year commitments.

In addition to the specific multi-year commitments listed above, the university will continue to need to fund increases in a number of areas of the general funds budget.

These include:

- Competitive annual compensation increases for faculty, staff and student employees
- Support of research
- Deferred maintenance and other capital needs
- Academic and administrative computing needs
- Student financial aid
- Unfunded legal mandates
- Diversity and outreach
- Other Academic Plan initiatives

One-Time General Funds

The table below identifies a number of multi-year operating budget cash commitments. The only new commitment made in 2008 is the University's commitment to reallocate resources to support the Targeted Investment in Excellence initiatives selected in a University wide competition in 2007.

The remaining commitments include financing plans for the Student Information System and the Grants Management System installations. Planning for the Student Information System began in 2006, with funding of \$5 million from central resources. Beginning in 2007 and continuing through 2012 a 0.5% cash assessment will be charged against all college, support unit and auxiliary unit operating budgets to help offset the costs of installing the new Student Information System. The additional costs up to an estimated \$50M total project cost will be covered with central resources. The targeted completion date of the Student Information System is September 2009.

The Grants Management System is entering the third of a four year financing plan which assesses colleges and research centers cash to cover the \$8M cost of bringing the Grants Management System on-line.

Multi-Year One-Time General Funds Commitments (Columbus Campus General Funds Budget – In Millions)

Commitment	Initial FY	FY 07	FY 08 (est)	FY 09 (est)	FY 10 (est)
Targeted Investments in Excellence (5 yrs) ⁴²	2007	\$9.00	\$9.00	\$9.00	\$9.00
Student Information System (5 yrs)	2006	9.40	10.00	10.00	10.00
Grants Management System (4 yrs)	2005	2.50	2.00	0.00	0.00
Campus Security System (5 yrs)	2004	1.30	2.10	2.10	0.00
Medical Center Support (5 yrs)	2005	5.00	5.00	5.00	0.00
Human Subjects Research System (TBD)	2006	0.50	TBD	0.00	0.00
OSU Pro (TBD)	2007	0.30	TBD	0.00	0.00

⁴² Also invested is \$1 million annual rate each year.

The figures in the Multi-Year Commitment table above do not include capital commitments, which are addressed as part of the biennial capital planning process.

Conclusions

Financial projections indicate that if present trends continue, the university will have sufficient funds to cover its commitments, but will not have discretionary funds available to embark on other significant new initiatives. Thus, if any new initiatives are desired or existing initiatives expanded, the university needs to reduce other commitments or secure additional funds.

Selected Definitions

Current Funds are those funds that are earned and expended in the current fiscal year. They include the General Fund, Earnings Operations and Restricted Funds. Excluded entirely from this report are Non-Current Funds such as Plant Funds, Loan Funds and Endowment Principal.

General Funds are unrestricted resources available for allocation in support of core instruction; instructional support and related general administrative and physical plant expenditures.

Earnings Operations are also unrestricted with resources generated from the sales and services of the earnings units. While not a requirement, these resources are generally designated to the unit generating the revenue. Included are the Hospitals & CHRI, Auxiliaries and departmental earnings units.

Auxiliaries are specifically identified by the State as the following earnings operations: Residence & Dining Halls, Intercollegiate Athletics, Student Unions, Bookstores, Transportation & Parking, Fawcett Center, University Airport and Property Management.

Unrestricted refers to the sum of general funds plus earnings operations.

Restricted Funds are funds whose use has been designated by an external agency or individual and limited to support a specific purpose and/or unit. Included is Sponsored Programs.

Instruction and Departmental Research includes all direct and applicable allocated expenditures for all activities that are part of the University's instructional program. It includes expenditures for departmental research and public service that are not separately budgeted.

Academic Support includes all funds expended for activities carried out primarily to provide support services that are an integral part of the operations of one of the three primary missions - instruction, research and public service. Included in this category are Academic Affairs Administration, Libraries, Museums & Galleries and the Deans' offices.

Student Services includes funds expended for those activities whose primary purpose is to contribute to students' emotional and physical well being, as well as their cultural and social development outside the context of the formal instructional program. Included in this category are Admissions and Registration, Counseling, Student Health Service, Recreation & Intramural Sports, Student Financial Aid and the Student unions.

Institutional Support contains expenditures for operations that provide support services to the total University. Included in this category are Executive Management, Business and Finance, Human Resources, University Relations and Development.

Plant, Operations and Maintenance includes all expenditures of current funds for the operation and maintenance of the physical plant, net of amounts charged to auxiliary operations and hospitals. Included in this category are utilities, repair and renovations, custodial services, grounds maintenance, space rental and property insurance.

Separately Budgeted Research includes all expenditures for activities specifically organized to produce research outcomes, whether commissioned by an external agency to the University (restricted) or the University (unrestricted) and includes matching funds applicable to the conditions set forth by the grant or contract. It does not include training grants or equipment grants.

Public Service includes all funds expended for activities that are established primarily to provide non-credit designated course offerings and services beneficial to individuals and groups external to the University. Included in this category are Continuing Education and Cooperative Extension Services.

Scholarships and Fellowships include expenditures in the form of outright grants and trainee stipends to individuals enrolled in formal coursework, either for credit or non-credit.

One-Time Funds are cash payments made to colleges and departments on a discretionary basis. The source of the funds is the cash balance carried forward from the previous year.

(1) Priorities in Graduate Education was inadvertently omitted from totals for Appropriations (Resources) and Instructional & Departmental Research (Expenditures) in the FY 2006 Current Funds Budget. Its inclusion here added \$572K to 2005-06 Appropriations and Instruction & Departmental Research.

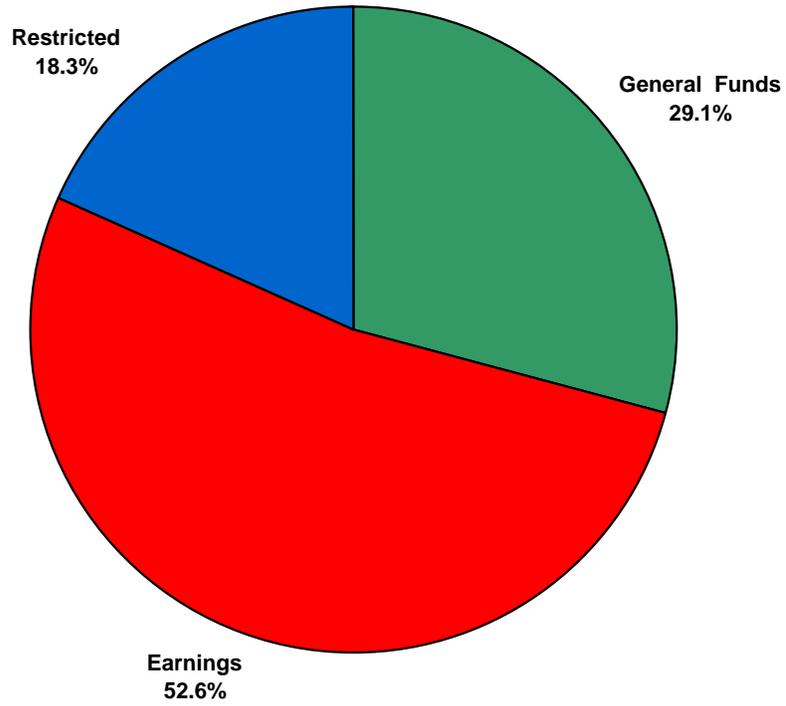

(2) Health Systems budget includes University Hospitals, James Cancer Hospital & Solove Research Institute, University Hospital East, Ross Heart Hospital, Harding Hospital, and Hospital Physician Network.

(3) Restricted Endowment reflects reclassification of some revenue to Private Grants & Contracts.

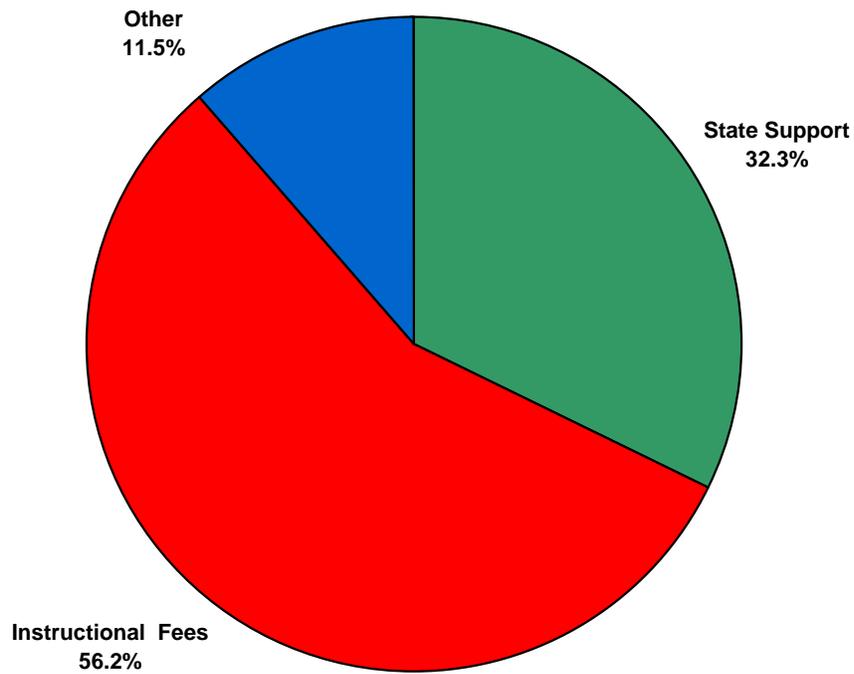

(4) General funds expenditures reflect a new budgeting methodology whereby the budget more closely tracks expenditures in accordance with the financial statements.

- (1) Full time fees for undergraduates are 12+ hours & for Graduates and Professional programs are 10+ hours. Fee numbers include only the instructional and general fees.
- (2) Tier 1 students were first enrolled before Summer 2002.
Tier 2 students were first enrolled between Summer 2002 and Spring 2003.
Tier 3 students were first enrolled after Spring 2003.
- (3) These degree granting programs have been created since 1997.
- (4) These are graduate programs that once charged the graduate fee but now have differential fees.
- (5) Medicine Level 1, 2, and 3 fees. Medicine will offer tuition credits to students in Level 4 bringing their effective instructional fee lower than Levels 1, 2, and 3 by 1.7%.

NET INCOME		1,955	869	(1,086)	-57.3%

- (1) Mainly attributable to increase in Meal Plan revenue, due to the RA meal plan policy change, along with the popularity and full year impact of new dining operations (Pizza at Drake, Courtside) and projected increases in Catering operation.
- (2) Fawcett's FY 2007 decrease reflects the full year absence of space rental from the Office of Development as well as reduced space availability for rentals, etc. during the construction/renovation period.
- (3) FY 2007 budget reflects only six months of revenue due to closure and pending demolition of the Ohio Union after Autumn Quarter.
- (4) Blackwell's FY 2007 decrease is due to reduced Banquet activity as well as the implementation of accounting changes allowing gratuities to post as a contra expense in the personnel budget pool versus Service Staff Fees and the FCOB transfer as a negative expense.
- (5) Schottenstein Center budget is net of \$8.0M in artist fees for both FY 2006 and FY 2007.
- (6) Larger operations included are Success Center, Buck ID, Summer Conferences, and Drake.
- (7) Personnel increase in FY 2007 is a result of the following major factors:
 - a) Approximately \$800K in new positions within Campus Dining and IT operations, as well as Business Office (for internal control expectations)
 - b) Increase in RA cash stipends as part of change in compensation structure
 - c) Additional students within various Campus Dining locations
- (8) Mainly attributable to expected increases in utility costs. Schottenstein Center artists fees are excluded.
- (9) FY 2007 budget includes full year debt service payments on 2005 bonds.

**TIME AND CHANGE:
THE YEAR'S KEY ACADEMIC PRIORITIES**

Time and Change:
The Year's Key Academic Priorities

Essentials of the McHale Committee Charge

Although curricula change over time, the guiding questions remain essentially the same.

- What body of knowledge should all of our undergraduate students be expected to master before graduation?
- How can Ohio State best prepare undergraduate students in all of our colleges for a lifetime of learning and citizenship?

Time and Change:
The Year's Key Academic Priorities

Essentials of the McHale Committee Charge (cont)

During the course of your review, I would like you to consider the following aspects of undergraduate education:

- the General Education Curriculum;
- the number of credit hours required for graduation;
- the appropriate role of freshman seminars;
- the staffing of undergraduate courses and faculty-student interaction; and
- the degree to which undergraduate education reflects university priorities such as diversity, interdisciplinarity, research, and outreach.

Time and Change:
The Year's Key Academic Priorities

McHale Committee Findings

- GEC is out of step with today's better prepared student body
- GEC doesn't lead to a coherent educational experience

Guiding Principles for GEC reform

- Coherence
- Flexibility
- Oversight
- Transparency

Time and Change:
The Year's Key Academic Priorities

Recommendations

- Coherence
 - Encourage minors and double majors
 - Institute Freshman Clusters
- Flexibility
 - Provide more scope for student choice
 - Allow minors, double majors, alternative experience to help satisfy non-major requirements
 - Decrease the number of credit hours in GEC

Time and Change:
The Year's Key Academic Priorities

- Oversight
 - Establish a university-wide committee to oversee the quality of general education courses
- Transparency
 - Redesign GEC website
 - Reorganize current category structure
- Additional recommendations
 - Reduce the minimum credit hours for graduation from 191 to 181

	Calendar	Minimum Credits to Graduate (BA)**
Michigan	Semester	120

** 120 semester hours = 180 quarter hours

NEXT STEPS

By October, 2006: Review/Action by the Council on Academic Affairs (CAA)

- Provost transmits campus-wide and college responses to CAA
- CAA develops its response/action

By October 30, 2006: Discussion of CAA Action

- CAA action shared/discussed with: Senate Steering Committee, Faculty Council, Arts and Sciences Senate, Council on Student Affairs, Undergraduate Student Government.

By November 2006

- Review of/action on CAA recommendations by the University Senate.

By Autumn 2007

- New curricular requirements take effect for incoming class. Schedule for transition of already-enrolled students to be determined

FULL TEXT OF AMENDMENT

Be it resolved by the people of the State of Ohio, that the Constitution of the State of Ohio be amended by adopting Section 12 of Article XV, to read as follows:

Section 12

"For the purpose of inspiring students to aspire to college at an early age, to improve students' academic preparation, and to make college affordable for students and their families, the Ohio Board of Regents shall award undergraduate higher education scholarships and tuition grants for United States citizens who are residents of this state commencing with the first high school class graduating two years following the approval of this amendment. Eligibility criteria for such scholarships and grants, and the amounts, shall be established solely by the Ohio Board of Regents. Such scholarships and grants shall include only the following:

(A) Individual learn and earn scholarship accounts for current and future students who, prior to enrolling in college, take core and advanced academic courses, participate in college readiness programs, assessment, and testing at any accredited public or non-public high school in this state, and contribute to public life through voluntary civic activity, and who attend any public or independent not-for-profit institution of higher education authorized by the Ohio Board of Regents and that has its principal office within this state.

(B) For the first twelve such high school graduating classes, uniform tuition grants, in an amount not to exceed the average undergraduate tuition charged by Ohio public universities, shall be awarded to the top five percent of students at each accredited public and non-public high school who attend any public or independent not-for-profit institution of higher education authorized by the Ohio Board of Regents and that has its principal office within this state. Such tuition grants shall be based solely on academic merit.

Notwithstanding any other provision of this Constitution, slot machines shall be permitted at the seven permitted commercial horse racing tracks, and at two locations each fronting on the existing main channel of the Cuyahoga River in the City of Cleveland, one on the west bank within the area generally known as the Nautica Entertainment Complex and with frontage of approximately 1,430 feet in length, extending 560 feet to the northwest and 870 feet to the southeast of the intersection of the center line of vacated Main Avenue and the Cuyahoga River, and one on the east bank within the area generally known as Tower City and starting at the northeast corner of West Third Street, where it meets the east bank of the Cuyahoga River and extending north and west along the east bank of the Cuyahoga River for not more than 1,700 feet and having a depth of not more than 460 feet from the east bank of the Cuyahoga River. The games authorized in this section shall be conducted only at the locations authorized herein, and, in the discretion of the facility owner, may be conducted twenty-four hours each day. No more than three thousand five hundred such devices may be operated at any one facility, except that facilities located within the same county may, by agreement, provide for the transfer of such devices between such facilities, provided that no more than four thousand such devices may be operated at a facility not located at a permitted commercial horse racing track. Nothing in this section shall be interpreted to authorize live games associated with casinos, including, but not limited to roulette, card games, and dice games, except that such games may be conducted at the non-track facilities and at the facilities located at a permitted commercial horse racing track situated wholly or partially within Cuyahoga County if the voters of Cuyahoga County approve the conduct of such additional games by a majority vote. No such vote may be conducted prior to the fourth general election following the approval of this amendment.

Thirty percent of gross slot machine revenue shall be paid to the state and shall be used, without necessity of appropriation by the General Assembly, notwithstanding section 22 of Article II of the Ohio Constitution, solely for the scholarships and grants provided for in this section and the related administrative costs for administering such scholarships and grants.

In addition to the forgoing amount, an additional one percent of gross slot machine revenue shall be paid to the state to pay for gambling addiction services; an additional six-tenths of one percent of gross slot machine revenue shall be paid to the municipality or township in which each facility is located; an additional three percent of gross slot machine revenue shall be divided equally and paid to the county in which each facility is located and the county seat of that county, which proceeds shall be expended for economic development projects; an additional eight-tenths of one percent of gross slot machine revenue shall be paid to the county in which the non-track facilities

are located, which proceeds shall be expended for economic development projects; an additional eight-tenths of one percent of gross slot machine revenue shall be paid to the city in which the non-track facilities are located, which proceeds shall be expended for economic development projects; an additional four tenths of one-percent of gross slot machine revenue shall be divided equally and paid to a county that has a population of at least seven hundred and fifty thousand persons and not more than one permitted commercial horse racing track, and the county seat of such county, which proceeds shall be expended for economic development projects; and an additional two and four-tenths percent of gross slot machine revenue shall be paid to the state for distribution to all other counties pursuant to the local government revenue assistance fund, which proceeds shall be expended for economic development or capital improvement projects. In addition to the foregoing amounts, an additional six percent of gross slot machine revenue at facilities located at each permitted commercial horse racing track shall be used by those tracks for purse money. In the event that devices are transferred between facilities located at permitted commercial horse racing tracks as provided in this section, the transferee facility shall distribute equally the amount of funds this section provides for purse money between the transferor and transferee tracks. An additional six percent of gross slot machine revenue at non-track facilities shall be deposited into the Ohio simulcast horse racing purse fund for distribution as provided by law. The proceeds of any additional games, if authorized by voters pursuant to this section, shall be distributed in the same manner as the proceeds from the operation of slot machines. No other fees or taxes may be applied to or levied against gross slot machine revenue or the amounts wagered or the proceeds of the other games authorized by this section.

The amounts paid to the state pursuant to this section do not diminish the General Assembly's constitutional obligations. The moneys expended hereunder on scholarships and grants shall supplement, not supplant, per-student state resources appropriated for post-secondary educational programs and purposes prior to or after the approval of this amendment. The monies distributed to counties, townships, and municipalities hereunder shall supplement, not supplant, monies appropriated for those counties, townships, and municipalities prior to or after the approval of this amendment. The amounts paid to the state or any county, township, or municipality pursuant to this section shall not be subject to any tax or expenditure limitation. With the exception of the foregoing six-tenths of one percent that is paid to the municipality or township in which a facility is located, and notwithstanding the requirements, limitations, or prohibitions of Article VIII, or of Sections 5, 6, and 11 of Article XII of the Ohio Constitution, all of the monies distributed to counties and municipalities in which a facility at which slot machines are permitted shall be, and any of the monies distributed to any other counties, townships, and municipalities may be, expended for or in support of, and be applied to any of the revitalization purposes under Section 2o of Article VIII, research and development purposes and development of sites and facilities in Ohio for and in support of industry, commerce, distribution, and research and development purposes under Section 2p of Article VIII, and any other economic development purposes authorized in Section 13 of Article VIII of the Ohio Constitution.

There is hereby created the Gaming Integrity Commission which shall regulate all gaming authorized by this section, which shall determine all voting issues by majority vote, and which shall consist of five members. Three members of the Gaming Integrity Commission shall be appointed by the governor, no more than two of whom shall be members of the same political party. One member of the Gaming Integrity Commission shall be appointed by the speaker of the house of representatives, and one member shall be appointed by the president of the senate, provided that the members appointed by the legislative leaders shall not be members of the same political party. The reasonably-estimated cost of operating the Gaming Integrity Commission shall be paid from the forgoing amounts to be paid to the counties, townships, and municipalities prior to the distribution to those counties, townships, and municipalities, provided that no more than one percent of gross slot machine revenue may be subtracted from the foregoing amounts to pay the reasonably-estimated cost of operating the Gaming Integrity Commission. Each facility authorized to conduct games pursuant to this section shall pay as a licensing fee an equal share of the reasonably-estimated cost of establishing the Gaming Integrity Commission. Each facility which may be authorized pursuant to this section to conduct live games associated with casinos shall pay an additional licensing fee in the amount of fifteen million dollars, which amount shall be divided equally and paid to the county in which each such facility is located and the county seat of that county, and which amount is payable upon the initial opening of the facility regardless of whether such additional games are eventually authorized, and which amount shall be expended for economic development or capital improvement projects. No other licensing fees shall be imposed upon any of the facilities authorized to conduct games pursuant to this section.

The General Assembly shall pass laws within six months of the effective date of this amendment to facilitate the operation of this amendment. If the General Assembly fails to pass such laws within six months of the

effective date of this amendment, or the members of the Gaming Integrity Commission have not been appointed as provided in this section, the games authorized in this section may be conducted on and after that date under the supervision of the Lottery Commission, which shall retain such supervisory authority until the General Assembly has passed laws to facilitate the operation of this amendment and the members of the Gaming Integrity Commission have been appointed as provided in this section.

For purposes of this section, "slot machines" shall include any mechanical, electrical, or other device or machine which, upon insertion of a coin, token, or similar object, or upon payment of any consideration, is available to play or operate, the play or operation of which, by reason of the application of the element of chance, makes individual prize determinations for individual participants in cash, premiums, merchandise, tokens, or any thing of value, whether the payoff is made automatically from the machine or in any other manner. The slot machines authorized by this section may be linked by their operators with other such devices located at the facilities authorized by this section for the purpose of providing prizes based in whole or in part upon the play of such connected devices at the same or other authorized facilities.

For purposes of this section "permitted commercial horse racing track" means any place, track, or enclosure where a permit holder conducted live horse racing for profit at a racing meeting during the two calendar years prior to the approval of this amendment, and which continues to conduct live horse racing for profit following the approval of this amendment, and includes facilities on premises contiguous to, or separated only by a roadway from, those places, tracks, or enclosures, provided that a permit holder that currently conducts racing meetings on public land may relocate the facility authorized in this section if that permit holder relocates its permitted commercial horse racing track within the same county as provided by law.

For purposes of this section, "gross slot machine revenue" means the total of wagers received by a slot machine minus the total of: (1) cash or cash equivalents paid out to patrons as a result of playing a slot machine which are paid to patrons either manually or paid out by the slot machine; (2) cash paid to purchase annuities to fund prizes payable to patrons over a period of time as a result of playing a slot machine; and (3) any personal property distributed to a patron as the result of playing a slot machine, excluding travel expenses, food, refreshments, lodging, or services."

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND TWENTY-FIFTH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, November 3, 2006

The Board of Trustees met at its regular monthly meeting on Friday, November 3, 2006, at The Ohio State University Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **

November 3, 2006 meeting, Board of Trustees

The Chairman, Judge Duncan, called the meeting of the Board of Trustees to order on November 3, 2006, at 7:45 a.m. He requested the Secretary to call the roll.

Present: Robert M. Duncan, Chairman, Karen L. Hendricks, Dimon R. McFerson, G. Gil Cloyd, Jo Ann Davidson, John D. Ong, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Thekla R. Shackelford, Yoonhee P. Ha, and Christopher Alvarez-Breckenridge.

Judge Duncan:

I hereby move that the Board recess into Executive Session for the purpose of considering a personnel matter regarding employment and compensation.

Upon motion of Judge Duncan, seconded by Amb. Ong, the Board adopted the foregoing motion by unanimous roll call vote, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Davidson, Ong, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Shackelford.

--0--

Judge Duncan reconvened the meeting at 11:30 am.

Present: Robert M. Duncan, Chairman, Karen L. Hendricks, Dimon R. McFerson, G. Gil Cloyd, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Thekla R. Shackelford, Yoonhee P. Ha, and Christopher Alvarez-Breckenridge.

PRESIDENTIAL SEARCH COMMITTEE UPDATE

Mr. Shumate:

On behalf of the members of the Presidential Search Committee, I am very pleased to report that the committee is organized, we identified a search firm, and we are committed and ready to undertake this important task on behalf of this Board. Before talking specifically about the agenda item on the consent agenda, I would like to offer a few general comments about the search.

First, thank you, Mr. Chairman, for appointing a group of outstanding individuals to serve on the Search Committee. The committee's membership reflects both the tremendous scope and the broad diversity that make The Ohio State University such a great institution. While the committee represents many different constituencies, and comes from widely varied backgrounds, we all share one common goal -- continued excellence at Ohio State.

Second, I would be remiss if I did not use this opportunity to thank our current president, Dr. Karen Holbrook, for her leadership of The Ohio State University. And to acknowledge that the timing of her announcement and her continued service to the University allow us to conduct the search in a thoughtful and deliberative manner, one that moves neither too slowly nor too quickly.

November 3, 2006 meeting, Board of Trustees

Third, Mr. Chairman and members of the Board, the committee is committed to conduct this search process in a manner that invites as much public input and involvement as possible without compromising the confidentiality or privacy of those involved. We commit to proceeding in a manner that balances public interest and personal privacy so that our actions reflect positively on the University in every possible way.

Accordingly, the committee commits to advertising the position widely seeking both applications and nominations. We will establish a web page with information about the position and the search, including a link in which the public can submit nominations and comments electronically. We will publicize a post office box and telephone number where public input and comments may be directed. We will hold open forums, both on campus and off campus, in which the University community, as well as the general public, will have the opportunity to provide input to the Search Committee. We will also, as we are doing this morning, provide reports on the progress of the search at meetings of the University's Board of Trustees until this search has been completed. Our committee welcomes suggestions of additional and alternative avenues for public participation and input.

Finally, Mr. Chairman, on the consent agenda this morning is the recommendation from the Search Committee to ask the Board to ratify the selection of our search firm that has been identified as Heidrick & Struggles. We started our process working with the University for the development and circulation of a request for proposals, a number of search firms inquired, seven firms submitted written responses to our RFP, and a work group of the Search Committee interviewed five of those firms.

As you know, this morning we are unanimously recommending Heidrick & Struggles as the firm we would like to recommend to work with the Search Committee. Heidrick & Struggles clearly demonstrated that it has the depth of experience, the national contacts, and the proven record of success necessary to help identify candidates to lead The Ohio State University. Heidrick & Struggles has maintained a regional office in Ohio for nearly forty years and they understand the unique leadership role that Ohio State plays in this state.

Again my thanks to you, Chairman Duncan, President Holbrook, and the members of the Search Committee for your leadership, support, and service to Ohio State. I am confident that we have the right committee, the right processes in place, and the right search firm necessary to attract the best individual to be the next president of The Ohio State University.

--0--

STUDENT RECOGNITION AWARD

Mr. Alvarez-Breckenridge:

The Student Recognition Award is presented each month by the Board of Trustees to a student in honor of their achievement in his or her area of study, service to the University and/or community, and research achievements that have been a credit to the college and the University.

This month's recipient is Joshua Lotz, who was nominated by Dean Joan Herbers from the College of Biological Sciences. Joshua is a third-year student from Newark, Delaware. He is pursuing a combined B.S./M.A. in Chinese and biochemistry. Today Joshua is accompanied by Dean Joan Herbers and Dana Vredevelde, a coordinator from the Honors Collegium.

November 3, 2006 meeting, Board of Trustees

Joshua's achievements prior to entering The Ohio State University are numerous and lay the groundwork for many of his future aspirations and accomplishments at Ohio State. After graduating from high school at the age of 16, he spent nearly two years in China and Tibet. After studying in Beijing for a year, he moved to Tibet for six months where he worked to establish a small community school and taught English and Tibetan art classes to local residents.

Following this hiatus between high school and college, Joshua enrolled at The Ohio State University and diligently pursued his studies in the disparate fields of biochemistry and Chinese. The unique educational experiences that he has undertaken is clearly reflected in his undergraduate activities and involvements. Joshua's campus activities range from being the president of the Ohio State Global Health Initiative and vice president of the Biochemistry Club, to a position on the Student Advisory Committee for the Honors Collegium. Joshua has also excelled at transforming his education into an international experience by spending a summer studying Chinese Medicine at the Beijing University and an additional summer as a volunteer managing a rural medical clinic in Tibet.

With such an interdisciplinary academic curriculum and experience, it is not surprising that Joshua's credentials have caught the attention of many. This includes several awards ranging from the Huntington International Fellowship, the "Jun Lu Award" for best undergraduate Chinese, and 2nd place in the "Chinese Bridge" College competition in New York.

While Joshua still has many unique opportunities ahead of him during his undergraduate years, he has certainly excelled in preparing himself for his next round of educational experiences. Joshua plans on attending medical school and pursuing a combined MD/MPH so that he will be able to focus his efforts in the realm of international health. With this background, his vision is to develop sustainable community health programs in resource-poor areas of Tibet. By doing this, he hopes to integrate the multitude of non-biological factors facing the people in this region into a single, comprehensive community health system.

In short, Joshua is making great strides as a scholar, leader, and humanitarian within the field of international medicine and public health. Additionally, he has done a remarkable job of balancing his academic obligations with his numerous co-curricular activities and experiences. He has truly made an indelible mark on the College of Biological Sciences and the University at large.

Joshua, on behalf of the Board of Trustees, I am very pleased to present this award to you today. Your achievements are truly remarkable and you are indeed an outstanding student. Congratulations and best of luck in your future endeavors!

Mr. Joshua R. Lotz:

I would like to thank the Board of Trustees for honoring me with this award. I am honored to be recognized with this. I would like to thank Chris for that wonderful introduction. I hope my remarks can live up to his. I would also like to thank Dean Herbers, from the College of Biological Sciences, for nominating me for this award. I would like to thank several other people who throughout my college career have been very helpful in making this a very meaningful and remarkable experience here at Ohio State. Dana Vredeveld and Rebecca Ward, from the Honors Collegium, have been very helpful the past three years in various aspects. Also, I would like to thank Professor Kay Meyer, associate provost and professor of Sociology, and

November 3, 2006 meeting, Board of Trustees

Provost Snyder. The people I am thanking today are just a few of the many from a long line of OSU faculty, staff, and community members that have helped to make these past three years very meaningful and a remarkable experience for me.

To be completely honest, before I came here I only knew three things about Ohio State: that it was really big, they did a lot of research, and they had a pretty good football team. As I started my freshman year, I really didn't know what kind of undergraduate educational experience I would have here at Ohio State. I was afraid that at a school this large, I wouldn't have contact with the professors. I wondered that at a school that focused on research, would I really have a chance to have a good intellectually, stimulating undergraduate education? I am happy to report that after three years and one more year to go, that Ohio State has not only met my expectations in this respect and given me a good education, but has exceeded my expectations and given me a great education. I would like to thank everyone at Ohio State who has made this a good educational experience.

During my freshman year, I was part of the International Affairs Scholars Program, a living/learning program. This program lets you live with other first year students who are interested in the same area, in my case international affairs. This was a key part of my introduction to The Ohio State University. At a school this large it is easy to get lost, but it made a small community within the University. I met friends and faculty members who were key players in the future of my education. Later I was admitted into the Honors Program. This allowed me to take upper-level honors classes and pursue an undergraduate thesis, which I am currently working on. I was then admitted into the Honors Collegium Program, which has contributed to my education both with academic and extra curricular activities, and has encouraged me to apply for various scholarships such as the Truman Scholarship.

As Chris mentioned, this year I started pursuing a combined degree program. Originally my undergraduate degree was in biochemistry, but I applied for the combined degree program in which I would receive a Bachelor of Science degree in biochemistry and a Master of Arts degree in Chinese all in four years. After four years at The Ohio State University, next year I will be graduating with an honors degree, bachelor's degree in the sciences, and a master's degree in the arts. I don't know of anywhere else in the world where I could have this kind of education or get that much done and have that good of a program in only four years. I think Ohio State is the only place where you could do that.

As I mentioned, the Honors Collegium has been helpful not only in academic aspects but also in extra curricular aspects. I and several other Honors Collegium students recently started a student organization called the Global Health Initiative. We will have a series of events that introduce students at Ohio State to the various global international health issues. We could not have made that possible without the help of the Honors Collegium and various other faculty members who have been very supportive of us in that endeavor.

I recall listening to President Holbrook's State of the University Address recently and she listed several characteristics of what a great university is. She said, "great universities enhance the undergraduate experience with innovative programs that emphasize contemporary themes, capitalize on the richness of the research environment, recognize student preparedness, and provide off-campus opportunities." I am happy to say that Ohio State has done all of these and more. She also said, "great universities foster

November 3, 2006 meeting, Board of Trustees

interdisciplinary programs, but they must be built upon already highly regarded disciplinary programs.” I can say that from my point of view, combining a degree in biochemistry and Chinese has made an interdisciplinary program based on two very strong disciplinary programs. The reason I came to Ohio State was because it was strong in both biochemistry and Chinese. The fact that I can combine these into one academic program is just another indicator of how great this University is and how great an education I have received here.

Also in President Holbrook’s speech, she mentioned something that I found very interesting. Please forgive me if I misquote you, you said you had been to many other universities that were good universities but thought they were great universities, but when you came to Ohio State you found a great university that thought it was a good university. Well I am here to tell you from the point of view of a student and undergraduate at Ohio State University, that there is no reason we should still be thinking we are just a good university because Ohio State is definitely a great university. There would be no other place I could imagine myself having this experience and doing my undergraduate education.

There is a saying that no matter where you go in the world, you could be in any corner of the world and if you yell out “OH,” somebody would reply with “IO.” I can actually confirm this experience. I was in Beijing last year walking down the street and from afar I saw what appeared to be a block “O” on somebody’s T-shirt. I yelled out at the top of my lungs among a sea of hundreds of Chinese people, “OH.” Sure enough a couple of seconds later there came the reply of “IO,” and I met another person who was actually in Beijing for the summer who I had not previously known from Ohio State. It is things like that that prove Ohio State is a global University and we are doing great things.

I would like to, once again, thank the Board for this recognition and everybody at Ohio State who has made this a great experience. I want everyone to know I am proud to be a Buckeye or as they say in Chinese..... Thank you.

Judge Duncan:

Congratulations and good luck.

Mr. McFerson:

First of all congratulations, that is truly remarkable. We get this great honor to hear from outstanding students all the time and this is as good as it gets. When and how did that interest in China develop inside of you that would cause you at the tender age of 16 to go over there and live for a year or two?

Mr. Lotz:

From the time I was little, I was always interested in what was going on outside of the United States, outside of my home state of Delaware. I wanted to go out and experience the world. I was given the opportunity to graduate high school early and I thought I could go to Europe and experience something or I could go to someplace challenging where people don’t go and that would test my limits linguistically and culturally. I decided to go to China, because the language and culture were completely different from the U.S. and I could learn a lot from the experience. I chose China more for the challenge than anything else.

November 3, 2006 meeting, Board of Trustees

Ms. Shackelford:

I would like to comment that I am from Newark, Ohio, and it is very nice to have someone from Newark, Delaware, show us up.

Mr. Lotz:

Actually, when I tell people that I am from Newark, they say, "I am from Newark, too." And I mean Newark, Delaware.

--0--

PRESIDENT'S REPORT

President Karen A. Holbrook:

Good morning. Before I start, Dimon, let me say what a pleasure it is to have you back at the table and welcome.

We are halfway through a very busy fall quarter with campus activities in full swing. Last weekend's homecoming was a terrific success. Our students are engaged in Tuesday's election in a major way and this past Tuesday our students participated in a very lively discussion at the Glenn School on the pivotal issues that are driving the college age vote. Later this morning, you will hear an updated report from vice provost and dean of Undergraduate Studies Martha Garland on the actual data that can now be used to compare the profile of our most recent incoming class to others over the past ten years. This class is now the strongest academically out of the past twelve years. The data is at your places and you will have a chance to see how good that class is.

Nevertheless, we can't talk about this incredible class without also being saddened with the recent loss of one of its members that has affected the entire University community and I would say even broader. Since the elevator accident that took the life of Andy Polokowski, the efforts of the University have been focused on providing comfort to Andy's family, friends, hallmates, and other students affected by the tragedy, in learning as much as possible about how the accident occurred and ensuring the continued safe operation of all of our elevators, the safety of our students in all areas remains one of our highest priorities. My remarks this morning will focus on our efforts to meet this responsibility.

Safety includes the physical environments in which our students, faculty and staff live and work, as well as physical personal safety and mental emotional well-being to our students to the extent possible that we can monitor and control these factors. We have literally hundreds of Ohio State employees who are responsible for safety on campus and many more for whom safety is at least a component of their jobs. There are obvious areas of concern like the comprehensive fire safety and prevention program, professional police operation, and building safety and security program.

Access to our residence halls is controlled by a student's Buck ID card 24/7 and if the card is lost or stolen it can be deactivated immediately through a 24-hour customer support line. The residence halls also have sophisticated smoke and fire detection systems, fire resistant construction, and professional on-site staff in the event of an emergency.

There are also routine things we often don't think of being primarily safety such as the preparation of food by dieticians for thousands of students in a healthy and sanitary environment, and groundskeepers who keep our

November 3, 2006 meeting, Board of Trustees

walkways and campus roadways free of damage and obstructions, and cleared of snow and ice in the winter to prevent accidents.

We also take great care of the health and well-being of our students. Our Student Wellness Center offers wellness assessments and health risk appraisals, self-defense classes, a sexual violence education and support program, programs and counseling staff on violence against women and knowledge about detrimental relationships, and education programs on alcohol, financial management, and sexual health. The Student Health Center is a fully accredited out-patient facility with specialty clinics, a nurse on call, and specialists trained in contagious disease prevention. Our Counseling and Consultation Services offer licensed psychiatrists and psychologists who provide treatment in group and individual settings. In crisis situations, professionals are called in to offer their service in addition to our professionals on site.

Our Student Advocacy Center is a full-time, 24-hour operation that coordinates services for students involved in a crisis such as a death in the family, a serious illness or an apartment fire. Safety features are built in to the equipment in our recreational facilities and while staff members are trained in first-aid, those involved in higher risk activities such as pool lifeguards, climbing wall operators, and personal trainers also receive specialized instruction and certification.

Our information technology group maintains University firewalls to minimize the spread of computer viruses and to protect the security of the Buck ID system.

While we don't have jurisdiction over law enforcement or infrastructure off campus, we do work very closely with the City of Columbus to facilitate students' safety such as ongoing community policing and night patrols with members of both police forces. We are also sharing in the construction cost of a new neighborhood policing center on the north side of East 11th between Summit Avenue and North 4th Street. Construction will begin in early 2007, with completion in 2008. The center will house a sub-station for the Columbus Division of the Police's Fourth Precinct, offices for community crime patrol, an office for the University Police Department, a neighborhood pride center, and community meeting space.

Street lighting in the off-campus areas have been improved, and bushes and trees have been trimmed to prevent hiding places for potential offenders. Code enforcement related to hazardous conditions in housing occurs, we provide a student escort service, and blue light emergency phones are located both on and off-campus.

More recently there has been a major campus-wide effort undertaken to assure that we can respond to a pandemic in the best possible manner. To support personal safety and maintain the community of continuity of operations and our academic programs should such a situation arise. While these precautions have been designed specifically for the Avian Flu situation, they are not just relevant to that situation but they are also in place should any other disaster affect the entire campus occur.

Working effectively to keep a campus of 50,000 students and many faculty and staff as safe as possible is truly a team effort. It takes a sophisticated and an integrated approach, and we do everything we can to reduce the risk whenever possible. We want to assure the University community and the public that these efforts will continue, and will be reviewed continually and diligently to ensure that our safety and security measures are as

November 3, 2006 meeting, Board of Trustees

effective as they can possibly be at The Ohio State University. Thank you very much.

--0--

COMMITTEE REPORTS

Judge Duncan:

We will now have the Academic and Student Affairs Committee report. Mr. Borrer --

Mr. Borrer:

In the Academic and Student Affairs Committee, we heard a presentation today about course redesign from Vice Provost Randy Smith and Deputy CIO Susan Metros. As part of a national initiative, Ohio State was one of 30 institutions to be invited to redesign a large introductory course to address such issues as learning outcomes and assessments. The course chosen for redesign was Statistics 135, which is often taken as part of the GED and is offered to over 2,500 students per year. The redesign included identifying clearly defined learning outcomes, reorganizing the course and the modules that students could complete on different paths, and adding a strong technology component. As a result of the redesign, costs were reduced and student learning was improved. The University is being awarded the Sloan Award for their efforts in this project. This process will be applied to other courses in 2008.

Next we heard from Barbara Rich, associate vice president of Student Affairs, and Willie Young, director of Off-Campus Student Services. Barbara updated us on the status of the task force on celebratory disturbances. We have not had a major disturbance in four years. They cite three major initiatives: 1) they have worked with a collaborative approach with students, property managers, city officials, and permanent residents; 2) they have also increased the presence of the Columbus Police Department and the City of Columbus enforcement divisions; and 3) they have numerous projects aimed to educate residents to party smart as well as other programs.

Mr. Young then talked about the presence of ground personnel of the University during these times. Their people work with residents and retailers to prevent issues occurring following major celebrations or events. A recent accomplishment that may seem small is where they worked with United Dairy Farmers to persuade them not to sell domestic beer in bottles at the two stores on campus. This is a major accomplishment. It promotes safety of people and promotes cleanliness, because broken bottles are a problem whereas aluminum cans are picked up and recycled. Little steps are making big changes.

We heard a good report on the extensive preparations for the expected post-Michigan celebration. I do think the University and the City of Columbus are working very well together to see that we have a good outcome following our good outcome.

Finally, Provost Snyder presented to us resolutions for the consent agenda: the establishment of the Department of Urology, approval of non-academic center status, establishment of a Ph.D. degree program in Dance Studies, establishment of a Master of Laws degree, naming of Remembrance Park, and personnel actions, including the promotion of Rich Hollingsworth, from

November 3, 2006 meeting, Board of Trustees

interim vice president for Student Affairs to vice president for Student Affairs.

That concludes my report.

Judge Duncan:

Thank you very much. Are there any questions or discussion? If not, I will call upon Mr. McFerson to give reports on the Medical Center Affairs Committee and the Investments Committee meetings.

Mr. McFerson:

Thank you, Mr. Chairman. I will begin with the Medical Center Affairs Committee. We met yesterday in the Huntington Board Room in the Ross Heart Hospital. We had a few matters in open session and then we spent the bulk of our time in Executive Session. The matters in open session were the establishment of the Department of Urology, the amendments to the *Bylaws of the James Board*, and Waivers of Competitive Bidding. All three of which will be on the consent agenda later in this meeting.

In Executive Session, we had a lengthy discussion on the financial plan from John Stone, CFO of the Medical Center, and a healthy discussion on the Medical Center Master Space Plan from Eric Kunz, which we talked about also in the Fiscal Affairs Committee today.

As a Committee, we passed by motion and recommended to the Fiscal Affairs Committee, two items on the consent agenda today, items #16 and #17 -- for the Employment of Executive Architect, Engineers, Programming, Design, Design Oversight, and Construction Management Services, and approval to enter into Feasibility Study, Design and Construction Contracts. We also heard a conceptual discussion on ambulatory care. The beginnings of a strategy in that no action was taken.

In regard to the Investments Committee meeting this morning, we began by hearing a Development Report from Dr. Schroeder. I would indicate that we had 1,000 additional donors in 2006 over 2005; 27,171 individuals, corporations, private foundations and associations of all types have given money of \$1 or more to the University. That is a lot of people. To date, we are 6% above last year's dollars of \$22,850,000. We also had a discussion from Dr. Schroeder on the amendments to the Minimum Endowed Funding Levels. Both of those items -- #12 and #13 -- will be on the consent agenda later in this meeting.

There wasn't enough time to have a report on the monthly endowment. Since that report was as of September 30, we just heard the quarterly endowment report. We would like to report that the endowment is at \$2.69 billion as of September 30, up \$72 million from June 30. This includes \$609 million of the University's long-term cash that is managed per endowment, principles and policies, but that excludes short-term cash that is held at the University-level that is not in the endowment. We did ask, "Is this consistent with other universities that report?" Associate Treasurer Al Rodack said that it is. We have asked him to come back and have more discussion with us on the counting in the endowment totals of University long-term cash; since we are now permitted by state statute of investing along with endowment dollars, rather than just letting it sit and earn short-term interest rates.

We heard a report on the revision of the Endowment Investment Policy. It was discussed at last month's meeting and it is item #14 on the consent agenda today. I would encourage everyone to look at that. It is significantly

November 3, 2006 meeting, Board of Trustees

reduced in terms of words by 8 pages, but still accomplished what we wanted to have accomplished without being too overly specific, so that we have enough latitude for the investment people to make the proper decisions. It also includes the distribution of how the assets will be invested by type of category and it is important that this Board carefully understand that.

That concludes my reports.

Judge Duncan:

Thanks very much for doing double duty. Are there any questions or discussion? If not, I will call upon Mrs. Davidson to report on the Fiscal Affairs Committee meeting.

Mrs. Davidson:

Thank you, Mr. Chairman. The Fiscal Affairs Committee had a full agenda this morning. We received an update and briefing on Campus Partners and the status of their leasing. Terry Foegler reported that he is busy working on a five-year business plan that will be brought back to the Board as they make their plans to move ahead.

We had the quarterly fiscal review by Bill Shkurti. He reported that at the end of our fiscal year that ended in June that the University was in a very good financial situation. He also gave us a colored chart that gives a quick review of our financial risks by various areas in the University. Our moderate risks deal with the expansion of the Medical Center and state support, which is always of concern. State revenues were down a little bit in September, and as we move into a new administration at the beginning of the New Year, there is always some uncertainty revolving around state support.

There is a little bit of concern on the research dollars at the federal-level and those dollars are being cut back. We are always concerned about the development and fundraising, particularly as it relates to the Biomedical Research Tower – the dedication is this afternoon -- and the Thompson Library, where we still have some gaps to fill with our private fundraising.

There is a little bit of higher risk on some of our affiliated entities particularly Campus Partners. As you know, if you have looked at that report there are some areas in which the leasing and the occupancy is not at the rate we thought it would be and also about Medical Center Partners which is something that we will be watching throughout the year. I will ask Maureen if she will share this chart with everyone. It is something that you can look at and see over the next 18-24 months where our risks are as far as financial management.

We carried over the in-depth report we were to have this morning on deferred maintenance and infrastructure, and we will have a presentation on that at the December meeting. We simply ran out of time and it was too important to just give it a quick broad brush.

We had the first reading of the request -- that is coming out of the Medical Center -- for \$59 million for fees to hire architects, construction managers and engineers to move ahead with phase one of the Medical Center Facility Master Plan. As Mr. McFerson reported, that was also before the Medical Center Affairs Committee yesterday. That will be carried over until our December meeting for any action. It would cover infrastructure and roadways, The Ohio State University Medical Center clinical expansion, The

November 3, 2006 meeting, Board of Trustees

James Cancer Hospital, and mechanical, electrical and plumbing renovation for Rhodes, Doan, James and Cramblett Halls.

We indicated -- and you need to hold us to this -- that before we come back to you in December, that there will be five different areas that we will try to address to be sure that everybody is comfortable in moving ahead. One certainly will be looking at the \$100 million that is necessary in philanthropy and the fundraising that would be behind part of the funding for moving ahead with this project. We need to be sure that we have the appropriate infrastructure and resources to manage the projects, and protect the Medicare exemption for The James, which has some requirements on it. We also need to be sure that we have in place what we are comfortable with as far as circuit breakers -- where you can not take steps to move ahead on portions of this expansion if there are signs that we are not going to be able to meet what is in the financial plan. We also need to meet, as far as success in the operation of the Medical Center, but also in the private fundraising efforts.

We have an additional item that relates to the Medical Center Facility Master Plan on the agenda for approval today. This is to move ahead with the second phase of hiring executive architects, construction managers, and design people. We knew that this was going to be a \$20 million request and had only authorized the first \$10 million. We have not spent all of that \$10 million, but are coming close to it. They have now asked for that second authorization, which we discussed at the time that we authorized the first \$10 million.

We have on the agenda for approval: two new easements for telephone communication equipment and fiber optic lines across some of Ohio State's property; the renewal for a number of easements; and the changes in the policy regarding what comes to the Board dealing with our capital projects -- what are the actions that come to the Board. We are trying to make it flow a little bit more efficiently so those projects that are under \$1 million will come to us one time for approval for the entire project moving into construction. Those projects over \$1 million will continue to come to us first to approve the feasibility study and design, and then come back to the Board before any construction would move forward. We think this will actually make our process a little bit more efficient, keep too many things from coming to the Board, and actually not hold up some of the projects that are being held up because they have to be staged based upon where we are going and some of these are very necessary projects.

The last item on the consent agenda from Fiscal Affairs is to agree to put a cap on our Fiscal Year 2009 bond proposal at \$500 million. This is something important for the bonding agencies as we begin to talk with them. We previously established the limit of \$450 million for the Fiscal Year 2007 bond proposal and this would place the cap of \$500 million for the Fiscal Year 2009. Mr. Chairman, that completes my report.

Judge Duncan:

Thank you. Any questions or discussion?

--0--

CONSENT AGENDA

President Karen A. Holbrook:

We currently have twenty-one resolutions on the Consent Agenda today and we would like to conduct separate votes for numbers 11 and 18. We are seeking your approval for:

CONTRACT TO RETAIN PRESIDENTIAL SEARCH FIRM

Resolution No. 2007-43

Synopsis: Contract to retain a national search consultant to assist the Presidential Search Committee is proposed.

WHEREAS the Board of Trustees has initiated a search process to identify qualified candidates for the Presidency of the University; and

WHEREAS a Search Committee has been appointed and charged with planning and directing all aspects of a comprehensive and expeditious search; and

WHEREAS it is established practice to select a professional search firm to serve as a consultant to the Search Committee and the Board of Trustees, providing advice, expertise and administrative support in the identification, screening and recruiting of the most highly qualified candidates for the Presidency; and

WHEREAS in order to identify professional search firms capable of providing the quality of services deemed desirable by the Search Committee and the Board of Trustees, a Request for Proposals was issued by the Purchasing Department of the University and sent to search consulting firms located in Ohio and throughout the country; and

NOW THEREFORE

BE IT RESOLVED, That based upon the recommendation of the Search Committee, the University will retain the firm of Heidrick & Struggles to consult with the Search Committee and the University to assist in the search for the next President of the University; and

BE IT FURTHER RESOLVED, That the Senior Vice President for Business and Finance be and hereby is authorized to enter into a contract of engagement with the selected national search consulting firm, on terms favorable to the University and consistent with the response to the Request for Proposals; and

BE IT FURTHER RESOLVED, That any actions taken by the Search Committee or the chair in furtherance of this Resolution prior to its effective date are hereby ratified and approved.

AMENDMENTS TO COMMITTEE APPOINTMENTS FOR 2006-2007

Resolution No. 2007-44

BE IT RESOLVED, That the appointments to the Audit Committee for 2006-2007 be amended as follows:

Investments Committee:

Dimon R. McFerson, Chair
Walden W. O'Dell, Vice Chair
Jo Ann Davidson
Robert H. Schottenstein

November 3, 2006 meeting, Board of Trustees

John D. Ong
~~Thekla R. Shackelford~~
Ex Officio:
John Gerlach, Jr. (Foundation Board)
David A. Rismiller (Foundation Board)

Audit Committee:

Robert H. Schottenstein, Chair
Robert M. Duncan, Vice Chair
Thekla R. Shackelford
G. GILBERT CLOYD
ALAN W. BRASS
James Gilmour (3/1/05 – 2/29/08)
JAMES B. BACHMANN (11/3/06 – 11/1/09)

Campus Partners Board:

~~Robert M. Duncan~~
BRIAN K. HICKS
ROBERT H. SCHOTTENSTEIN

**AMENDMENTS TO THE BYLAWS OF THE ARTHUR G. JAMES CANCER
HOSPITAL AND RICHARD J. SOLOVE RESEARCH INSTITUTE BOARD**
Resolution No. 2007-45

Synopsis: The amendments to the *Bylaws of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board* are recommended for approval.

WHEREAS The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board pursuant to bylaw 3335-109-02 of the *James Cancer Hospital Board Bylaws* is authorized to recommend to the Board of Trustees the adoption of amendments to their *Bylaws of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute*; and

WHEREAS the proposed amendments to the *James Board Bylaws* were previously endorsed and ratified by The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board on September 26, 2006, as followed:

3335-109-20 Professional affairs committee.

(A) Responsibilities. The professional affairs committee shall be responsible for the following specific duties:

- (1) Overseeing all patient care activity in facilities deemed by the university trustees to be the administrative responsibility of the CHRI including, but not limited to, the hospital, clinics and ambulatory care facilities.
- (2) Monitoring quality assurance performance in accordance with the standards set by the university medical center for all programs identified in paragraph (A)(1) of this rule.
- (3) Receiving reports from the medical staff administrative committee regarding credentialing and recommending action on these reports to the hospitals board.
- (4) Monitoring the achievement of accreditation and licensure requirements.

November 3, 2006 meeting, Board of Trustees

- (5) Reviewing and recommending medical staff bylaws changes and changes to medical staff rules and regulations.
- (6) Such other responsibilities as assigned by the chairperson of the board.
- (B) Composition. The committee shall consist of three board members, appointed annually by the chairperson of the board, one of whom shall be appointed as chairperson of the committee; and the chief medical officer of the health system, and the chief of the medical staff.
- (C) Meetings. The professional affairs committee shall meet at the call of the chairperson and shall advise the board of its activities.

~~3335-109-20~~ 3335-109-21 Amendments to the board bylaws.

Balance unchanged.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the Bylaws of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board be adopted as recommended.

ESTABLISHMENT OF THE DEPARTMENT OF UROLOGY

Resolution No. 2007-46

Synopsis: Proposal to change the Division of Urology to a Department of Urology in the College of Medicine.

WHEREAS the creation of the Department of Urology will be an important affirmation of the importance of the science of urology at the University; and the transition to a department from a division will improve the unit's visibility and dramatically increase its ability to attract academic urologists and physician scientists; and

WHEREAS over 75% of the Accreditation Council of Graduate Medical Education-accredited urological sciences training programs are departments; and

WHEREAS the department, when first established, will not have ten faculty members; however, an appropriate academic rationale and plan for development were provided; and

WHEREAS the proposal was reviewed and endorsed by the Faculty Council, the full Council on Academic Affairs, and approved by the University Senate at its October 12, 2006 meeting:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish the Department of Urology in the College of Medicine, noting that this is an exception to rule 3335-3-34 (C)(1), be hereby approved, effective immediately.

APPROVAL OF NON-ACADEMIC "CENTER" STATUS

Resolution No. 2007-47

Synopsis: Approval of non-academic "center" status is proposed.

WHEREAS faculty rule 3335-3-36 (A) specifies that: "Use of "center" or "institute" in the names of proposed units of the university shall be limited to academic centers, unless approved by the Council on Academic Affairs"; and

WHEREAS requests have been received for the use of this term from the John Glenn School of Public Affairs for the "Battelle Center for Mathematics and Science Education Policy"; and from the College of Medicine for the "Center for Clinical and Translational Research"; and

WHEREAS subsequent use of the term "academic" center will require that a formal proposal for academic center status will need to be submitted to the Council on Academic Affairs for full review; and

WHEREAS the Council on Academic Affairs reviewed these formal requests on August 23, 2006, and October 4, 2006, and had no objections:

NOW THEREFORE

BE IT RESOLVED, That the use of the term "center" for the "Battelle Center for Mathematics and Science Education Policy," and the Center for Clinical and Translational Research" be approved, effective immediately.

ESTABLISHMENT OF A PH.D. DEGREE IN DANCE STUDIES

Resolution No. 2007-48

Synopsis: Approval of the establishment of a Ph.D. degree in Dance Studies is proposed.

WHEREAS this program reflects a growth in dance scholarship, and builds on the foundation provided by the current M.A., M.F.A., and undergraduate curriculum, and also reflects a steady shift in our student interest and faculty research; and

WHEREAS this internationally-known and respected department will offer a program to be among a small set nationally, and will emphasize an awareness of the practice of dance that will include history and theory related to such activity; and

WHEREAS the program will train students in rigorous modes of dance analysis, criticism and documentation, using methodologies unique and inherent to the field; and

WHEREAS the proposal was reviewed and approved by the Council on Research and Graduate Studies, the full Council on Academic Affairs, and was approved by the University Senate at its October 12, 2006 meeting:

NOW THEREFORE

BE IT RESOLVED, That the establishment of a Ph.D. degree in Dance Studies is hereby approved, effective upon the approval of the Ohio Board of Regents.

ESTABLISHMENT OF A MASTER OF LAWS DEGREE

Resolution No. 2007-49

Synopsis: Approval of the establishment of a Master of Laws (LL.M) degree is proposed.

WHEREAS increased globalization means that universities and law schools need to become more international in their mission, as is increasingly seen in their curriculum; and

WHEREAS this will be a one-year professional degree program directed at educating foreign lawyers and graduates of law schools of foreign countries, and will provide them with a basic understanding of the U.S. legal system provided through a rigorous program of study; and

WHEREAS more than one-half of all law schools in the United States, including all others in the Big Ten, offer such a degree program; and

WHEREAS the Moritz College of Law faculty has expertise in international and comparative law and has voted unanimously to offer this program; and

WHEREAS the proposal was reviewed and approved by the Council on Research and Graduate Studies, the full Council on Academic Affairs, and was approved by the University Senate at its October 12, 2006 meeting:

NOW THEREFORE

BE IT RESOLVED, That the establishment of a Master of Laws (LL.M) degree is hereby approved, effective upon the approval of the Ohio Board of Regents.

NAMING OF REMEMBRANCE PARK

Resolution No. 2007-50

Synopsis: The naming of a portion of campus located at the Northwest corner of Tuttle Park Place and Woody Hayes Drive as "Remembrance Park" is proposed.

WHEREAS ROTC, the Department of Athletics, the Franklin County Alumni Club, and Ohio State University Alumni Association wish to honor the men and women of the University who have served their country; and

WHEREAS The Ohio State University wishes to honor all students and alumni who have served their country through their commitment to military service, especially those students and alumni who have given their lives for their country; and

WHEREAS these students and alumni will be memorialized in Remembrance Park on the Wall of Honor with over 1000 Ohio State University alumni who have died in the service and defense of the country while on active duty; and

WHEREAS the President's Cabinet has agreed that the green space located on the Northwest Corner of Woody Hayes and Tuttle Park Place and adjacent to Converse Hall, the Ice Rink and St. John Arena will serve as a green space for the Wall of Honor and the Remembrance Park will be located within this space:

NOW THEREFORE

November 3, 2006 meeting, Board of Trustees

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees establishes the above named green space south of Converse Hall as "Remembrance Park."

PERSONNEL ACTIONS

Resolution No. 2007-51

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the September 22, 2006 meeting of the Board, including the following Appointments/Reappointments, Appointments/Reappointment of Chair-persons/Directors, Leaves of Absence Without Salary, Professional Improvement Leave, Emeritus Titles, and Promotion and Tenure, as detailed in the University Budget, be approved.

Appointments

Name: W. C. BENTON, JR.
Title: Professor (The Edwin D. Dodd Professorship in Management)
College: The Max M. Fisher College of Business
Term: October 1, 2006 through September 30, 2011

Name: GREGORY A. CALDEIRA
Title: Distinguished University Professor (The Ann and Darrell Dreher Chair in Political Communication and Policy Thinking)
College: Social and Behavioral Sciences
Term: September 1, 2005 through August 31, 2010

Name: JOHN C. FELLINGHAM
Title: Professor (The H. P. Wolfe Chair in Accounting)
College: The Max M. Fisher College of Business
Term: October 1, 2006 through September 30, 2008

Name: RICHARD A. HOLLINGSWORTH
Title: Vice President for Student Affairs
Office: Student Affairs
Term: November 3, 2006 through December 31, 2007
Present Position: Interim Vice President for Student Affairs

Name: CHIA-HSIANG MENQ
Title: Professor (The Ralph W. Kurtz Chair in Mechanical Engineering)
College: Engineering
Term: October 1, 2006 through June 30, 2011

Name: CHRISTOPH PLASS
Title: Professor (Barbara J. Bonner Chair in Lung Cancer Research)
Center/Hospital: Comprehensive Cancer Center – The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute
Term: November 1, 2006 through June 30, 2010

November 3, 2006 meeting, Board of Trustees

Reappointment

Name: THOMAS L. SPORLEDER
Title: Professor (The Farm Income Enhancement Endowed Chair in Agricultural Policy, Trade and Marketing)
College: Food, Agricultural, and Environmental Sciences
Term: July 1, 2006 through June 30, 2007

Appointment of Chairpersons/Directors

REBECCA D. JACKSON, Center for Clinical and Translational Research, effective October 1, 2006 through September 30, 2010

RUSTIN M. MOORE, Veterinary Clinical Sciences, effective November 1, 2006 through October 31, 2010

BRADLEY M. PETERSON, Astronomy, effective November 1, 2006 through September 30, 2010

KATHRYN D. SULLIVAN, Battelle Center for Mathematics and Science Education Policy, effective November 1, 2006 through October 31, 2010

YUAN F. ZHENG,* Electrical and Computer Engineering, effective October 1, 2006 through December 31, 2006

*Interim

Reappointment of Chairpersons

WAYNE E. CARLSON, Industrial, Interior, and Visual Communication Design, effective July 1, 2006 through June 30, 2010

PATRICIA L. STUHR, Art Education, effective July 1, 2006 through June 30, 2010

Reappointment of Men's Head Basketball Coach

THAD M. MATTA, new 9 - year contract. Term of the contract: July 1, 2006 through June 30, 2015

Leaves of Absence Without Salary

IRENE MASING-DELIC, Professor, Department of Slavic and East European Languages and Literatures, effective Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007, to accept a Visiting Adjunct Professorship, Department of Slavic Languages, University of North Carolina at Chapel Hill.

ELIF UYSAL-BIYIKOGLU, Assistant Professor, Department of Electrical and Computer Engineering, effective Autumn Quarter 2006 and Winter Quarter 2007, for personal reasons.

Leave of Absence Without Salary—Change in Dates

OLIVER G. MCGEE III, Professor, Department of Civil and Environmental Engineering and Geodetic Science, change leave from January 3, 2006 through January 2, 2007, to January 3, 2006 through August 31, 2006.

November 3, 2006 meeting, Board of Trustees

Professional Improvement Leave

DAVE F. FARSON, Associate Professor, Department of Industrial, Welding and Systems Engineering, effective Winter Quarter and Spring Quarter 2007.

Emeritus Titles

MICHAEL S. BEATTIE, Department of Neuroscience, with the title Professor Emeritus, effective November 1, 2006.

JACQUELINE C. BRESNAHAN, Department of Neuroscience, with the title Professor Emeritus, effective November 1, 2006.

THOMAS A. DOWLING, Department of Mathematics, with the title Professor Emeritus, effective April 1, 2007.

LAWRENCE W. LIBBY, Department of Agricultural, Environmental and Development Economics, with the title Professor Emeritus, effective January 1, 2007.

FRED B. THOMAS, Department of Internal Medicine, with the title Professor Emeritus, effective January 1, 2007.

MICHAEL F. BRUGGER, Department of Food, Agricultural and Biological Engineering, with the title Associate Professor Emeritus, effective January 1, 2007.

ROBERT C. KLINE, Department of Animal Sciences, with the title Associate Professor Emeritus, effective January 1, 2007.

MELVON L. ANKENY, University Libraries, with the title Assistant Professor Emeritus, effective November 1, 2006.

Promotion and Tenure

COLLEGE OF FOOD, AGRICULTURAL, AND ENVIRONMENTAL SCIENCES

PROMOTION TO PROFESSOR

Grewal, Parwinder S., Entomology, effective October 1, 2006 (department correction)

James, Randall E., Extension, effective October 1, 2006 (department correction)

COLLEGE OF MEDICINE
REGULAR CLINICAL

PROMOTION TO ASSOCIATE PROFESSOR-CLINICAL

Feldman, David, Internal Medicine, effective November 1, 2006

RESOLUTIONS IN MEMORIAM

Resolution No. 2007-52

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

November 3, 2006 meeting, Board of Trustees

Dora E. Colver

The Board of Trustees of The Ohio State University expresses its deep sorrow upon the death on August 8, 2006, of Dora Elizabeth Colver, Assistant Professor Emeritus in the School of Nursing, now the College of Nursing.

Professor Colver received a bachelor degree in institution administration from Pennsylvania State University in 1943 and a master's degree in institution administration from the same university in 1951.

Ms. Colver began her work as an instructor in the School of Nursing and an instructor in the School of Home Economics in 1951. She was promoted to assistant professor with tenure in 1957 and served until her retirement in 1982. In addition, Professor Colver was the University Health Service dietician from 1970-82.

During her tenure at Ohio State, Professor Colver was a member of the American Dietetic Association, Ohio Dietetic Association, American Association of University Professors, Franklin County Home Economics Association, Central Ohio League for Nursing, Sigma Delta Epsilon, Women in Sciences, Metropolitan Club, and The Nutrition Today Society.

Professor Colver was an active member of the University community and served on numerous department, school, and University committees.

On behalf of the University community, the Board of Trustees expresses to the family and friends of Professor Dora E. Colver its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees as an expression of the Board's heartfelt sympathy.

Woodrow W. Hamilton

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on July 28, 2006, of Woodrow W. Hamilton, Assistant Professor Emeritus in the Ohio State University Extension.

Mr. Hamilton was born November 2, 1912, in Alma, West Virginia. In 1941 he received his Bachelor of Science degree in agricultural education from West Virginia University.

Professor Hamilton began his Extension career in Ohio in 1945 as the County Agent-Agriculture in Clermont County. He held this position until his retirement in December 1973.

Woody's contributions in providing Extension educational programs during his career proved that he was a truly dedicated teacher for Extension. He conducted numerous educational programs and workshops for Extension clientele. He was a member of the Ohio County Extension Agents' Association and served as president of this organization. He was awarded the National Distinguished Service Award from the USDA in 1971.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Woodrow W. Hamilton its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

November 3, 2006 meeting, Board of Trustees

William Moore, Jr.

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 14, 2006, of William Moore, Jr., Professor Emeritus in the School of Educational Policy and Leadership.

Professor Moore had a varied professional career as an educator. He was a public school teacher and principal in the St. Louis, Missouri, public schools. He was associate dean of Continuing Education at Forest Park Community College in St. Louis and later assumed the position of vice president for Academic Affairs at the University of the District of Columbia. His administrative service culminated with his appointment as president of Seattle Community College in Seattle, Washington.

He joined the faculty in the Department of Educational Policy and Leadership, College of Education, at Ohio State in 1971, specializing in community college administration. During his tenure at OSU, he was named to the position of The William Ray Flesher Professorship in Educational Administration.

He retired from OSU in 1992 so as to become a faculty member in the Department of Educational Administration, College of Education, at the University of Texas. At the time of his demise Professor Moore was the A.M. Aikin Regents Chair in Junior and Community College Education Leadership in the College of Education at the University of Texas, Austin.

The memorial obituary for Professor Moore reads, in part, as follows:

Bill Moore was the consummate educator. His educational career began 54 years ago as a kindergarten teacher, and he has since taught at every level of education—public schools, community college, and university. He had a way of inspiring and challenging students to reach higher and achieve more than they dreamed was possible. He taught his students to read broadly, think openly, to question, to analyze, and to continue to grow both personally and professionally. He was also the author of several important books on community college administration.

[He] was a renaissance man who loved life and lived it well. He could amaze you with his recitation of Shakespeare, impress you with his intellectual curiosity and rigor, inspire you with his teaching, or make you laugh with his spirited interpretation of Dunbar's "In The Morning," or Thayer's "Casey At The Bat." He loved to dance to big band music or could be content with his easy listening jazz. He was usually whistling or singing from his favorite spirituals or songs from the 40s. He was an amateur black and white photographer who could have been mistaken for a professional, and he was putting the finishing touches on his first novel.

Bill would also like to be remembered as a loyal friend. He loved his ... high school class reunions, and kept in touch with many of his classmates from high school and college. He knew how to keep little things little.

On behalf of the University community, the Board of Trustees expresses to the family of Professor William Moore its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon

November 3, 2006 meeting, Board of Trustees

the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2007-53

Synopsis: The report on the receipt of gifts and the summary for September 2006 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of the The Ann and Darrell Dreher Chair in Political Communication and Policy Thinking; and

WHEREAS this report includes the establishment of fourteen (14) new named endowed funds and the revision of three (3) endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of September 2006 be approved.

November 3, 2006 meeting, Board of Trustees

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Change in Description of Named Endowed Funds

The Alice Mary Arps Foundation Fund

The Alice Mary Arps Foundation Fund was established October 28, 1933, by the Board of Trustees of The Ohio State University with gifts from various individuals. The description was revised November 3, 2006.

Alice Mary Arps was the wife of George Arps, dean of the College of Education from 1921-37. She was a member of the Board of Education of the Columbus Public Schools and had a lifelong commitment to the education of children.

The annual distribution from this fund shall be used to purchase children's literature, juvenile periodicals, books pertaining to the welfare of children, or any related multi-media materials. Decisions regarding expenditures shall be made by the dean of the College of Education and Human Ecology or their designee.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Education and Human Ecology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The Robert R. Wieland Scholarship Fund

The Robert R. Wieland Scholarship Fund was established April 7, 1995, by the Board of Trustees of The Ohio State University with gifts to honor the memory of Robert R. Wieland (B.A., 1958; J.D., 1960) from family, friends, and colleagues. The description was revised November 3, 2006.

The annual distribution from this fund shall be used to provide a scholarship to a second-year law student who exhibits promise of academic achievement and evidence of financial need. Scholarship recipients shall be selected by the dean of The Michael E. Moritz College of Law, or his/her designee, in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the Moritz College of Law in consultation with the Office of Student Financial Aid. Any such

November 3, 2006 meeting, Board of Trustees

alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Change in Name and Description of Named Endowed Fund

The Doris Eckfeld Elliot Scholarship Fund in the College of Education and Human Ecology

The Doris Eckfeld Elliot Scholarship Fund in the College of Human Ecology was established February 4, 1993, by the Board of Trustees of The Ohio State University with gifts in memory of Doris Eckfeld Elliot (Fulton) (B.S.H.E., 1935; M.S., 1938) from her children. The name and description were revised November 3, 2006.

The annual distribution from this fund shall be used to provide a graduate or undergraduate scholarship (tuition and fees) with first priority given to a single parent who has custody of a dependent minor child(ren) and demonstrates financial need. If no applicant meets these criteria, the scholarship should be awarded to a non-traditional graduate or undergraduate student on the basis of financial need, merit, and a commitment to a career in human ecology. Scholarship recipients will be selected by the dean of the College of Education and Human Ecology in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Education and Human Ecology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

THE OHIO STATE UNIVERSITY FOUNDATION

Establishment of Named Endowed Chair

The Ann and Darrell Dreher Chair in Political Communication and Policy Thinking

The Ann and Darrell Dreher Chair Fund in Political Communication and Policy Thinking within the Department of Political Science was established March 5, 1999, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with donations made by Ann (attended 1969) and Darrell (B.A., 1966) Dreher of Powell, Ohio. The minimum funding level was reached December 31, 2002, and the chair was established November 3, 2006. The Dreheres reserve the right to make additional contributions to further augment activities in this area.

The annual distribution from this fund shall be used to support the activities and salary of the person who will be the holder of The Ann and Darrell Dreher Chair in Political Communication and Policy Thinking.

November 3, 2006 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Social and Behavioral Sciences and chairperson of the Department of Political Science in consultation with Ann and Darrell Dreher or, after their lifetime, with their heirs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$1,861,637.00

Establishment of Named Endowed Funds

The Joe R. and Elizabeth Engle Scholarship Fund

The Joe R. and Elizabeth Engle Scholarship Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Joe R. Engle (B.I.E., 1943) and Elizabeth Engle of New York City, New York.

The annual distribution from this fund shall provide multiple scholarships for incoming first-year undergraduate students with the highest academic ability (a combination of high school rank and national standardized test scores) and the highest financial need who are enrolled at the Columbus main campus of The Ohio State University. The recipients of this scholarship must have graduated from one of the following high schools in Coshocton County: Coshocton High School (Coshocton, Ohio), River View High School (Warsaw, Ohio), or Ridgewood High School (West Lafayette, Ohio). It is the donors' desire that the scholarships be awarded with first preference to students who are first generation college students.

The annual distribution is to be used to provide full scholarships to be used towards the cost of tuition, room and board, books, an educational stipend, and miscellaneous educational expenses above the recipient's federal, state, and additional grant and financial aid awards. In addition, the recipient must complete a nationally approved needs analysis document annually, such as the Free Application for Federal Student Aid (FAFSA), and must apply in time to be eligible for any federal or state aid for which they are eligible before being considered for an Engle Scholarship.

The scholarship shall be distributed equally over the three quarters of the academic school year. The scholarship is renewable up to twelve quarters (or eight semesters should the University ever change its system) or until completion of a baccalaureate degree, whichever comes first, as long as the recipient maintains financial need and a minimum of a 2.5 grade point average. It is the donors' desire that the student must be enrolled on a full-time basis (considered by the University to be a minimum of 12 quarter hours per term) to receive the full scholarship. During the final quarter (or semester), if the student is not enrolled full-time, the amount of award shall be scaled down to reflect the lower costs.

November 3, 2006 meeting, Board of Trustees

One-fourth of one percent of the annual income, as well as any unused distribution, should be reinvested to the endowment principal. This scholarship fund will be administered by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$1,005,277.50

Total Commitment: \$10,000,000.00

The Earl S. Simmonds Jr. and Florence G. Simmonds Undergraduate Leadership and Merit Endowment Fund

The Earl S. Simmonds Jr. and Florence G. Simmonds Undergraduate Leadership and Merit Endowment Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Earl S. Simmonds Jr. (B.S., 1961) and Florence G. Simmonds (B.S., 1940) in honor of Professor Joel Coffey.

The annual distribution from this fund shall be used to provide tuition support to undergraduate students exhibiting financial need, especially those participating in the University's Work-Study Program. Preference shall be given to (but not limited to) students who are enrolled in the Department of Animal Sciences who have a minimum grade point average of 3.0 and a strong desire to succeed in college. Scholarship recipients will be selected by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the Office of Student Financial Aid.

The annual distribution may also be used to support undergraduate leadership programs or activities that enhance the skills of the College's student leaders as approved by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate

November 3, 2006 meeting, Board of Trustees

distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$156,238.00

The William Case Kramer Endowed Fund in the Department of Theatre

The William Case Kramer Endowed Fund in the Department of Theatre was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with unrestricted gifts from the estate of Dr. William Case Kramer (Ph.D., 1974).

The annual distribution from this fund shall be used at the discretion of the chairperson of the Department of Theatre in consultation with the dean of the College of the Arts.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of Theatre in consultation with the dean of the College of the Arts. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$155,786.90

The H. Fred Krimendahl II Endowed Presidential Scholarship Fund

The H. Fred Krimendahl II Endowed Presidential Scholarship Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the H. Frederick Krimendahl II Foundation and West End Road Fund at New York Community Trust at the discretion of H. Frederick Krimendahl II (B.A., 1950) of New York City, New York.

In keeping with the provisions of the original endowed fund, the annual distribution from this fund shall be used to provide a presidential scholarship. Each recipient will be selected through the University's presidential scholarship competition and will continue through the senior year so long as he or she maintains eligibility as a presidential scholar. When a recipient graduates, a new first-year student will be named.

This scholarship fund shall be administered by the Office of Student Financial Aid in consultation with the University Honors and Scholars Center.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

November 3, 2006 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$60,000.00

Total Commitment: \$300,000.00

The Mildred and Harold Hart 4-H Endowment Fund

The Mildred and Harold Hart 4-H Endowment Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the estates of Mildred and Harold Hart.

The annual distribution from this fund shall be used for Ohio 4-H Programming. This support may include, but is not limited to, 4-H programs which promote livestock judging, evaluation, instruction, and related activities. All expenditures from this fund shall be approved by the assistant director of 4-H Youth Development in consultation with the representative from the Department of Animal Sciences overseeing the 4-H animal science program.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director for Ohio State University Extension in consultation with the State 4-H Leader and the Ohio 4-H Foundation Board. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

Jack Nicklaus/The Toro Company Turfgrass Legacy Endowment Fund

The Jack Nicklaus/The Toro Company Turfgrass Legacy Endowment Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The Toro Company.

The annual distribution from this fund shall be used to provide scholarships to freshmen or sophomores or international internships for students in the Turfgrass Management Program, Department of Horticulture and Crop Science, who have relatives involved in the profession of turfgrass management. Recipients will be selected by a committee comprised of individuals from the Nicklaus Companies, The Toro Company, the OSU turfgrass faculty, and College of Food, Agricultural, and Environmental Sciences representatives. Scholarships will be awarded in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

November 3, 2006 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$40,000.00

Total Commitment: \$100,000.00

The Michael W. Curran Research Fund

The Michael W. Curran Research Fund at the Comprehensive Cancer Center – The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Ann Salimbene (B.A., 1973; M.A., 1976), her family, friends, and associates in memory of her husband, Dr. Michael W. Curran of Columbus, Ohio.

The annual distribution from this fund shall be used to support prostate cancer research at the Comprehensive Cancer Center – The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute at The Ohio State University under the direction of the head of prostate and genitourinary oncology in the Division of Hematology and Oncology, or their successor as approved by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$27,995.49

November 3, 2006 meeting, Board of Trustees

The John T. and Betty J. Baird Vice President's Excellence Fund

The John T. and Betty J. Baird Vice President's Excellence Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from John T. Baird (B.S., 1958) and Betty J. Baird of Springfield, Ohio.

The annual distribution from this fund shall be used to support programs identified by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences as current and critical priorities in the College of Food, Agricultural, and Environmental Sciences. Uses of the fund shall include, but are not limited to the support of: positive, creative work environment for students, faculty, and staff; "outreach" to our external audiences; encouragement and promotion of student organizations; scholarships; professional development; college promotion and advancement; and other emerging college priorities. Expenditures shall be directed and approved by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Scholarships will be awarded in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,949.00

Robert S. Davis and Martha M. Garland Scholarship Fund

The Robert S. Davis and Martha M. Garland Scholarship Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Robert S. Davis (B.Arch., 1964) and Martha M. Garland (Ph.D., 1975).

The annual distribution from this fund shall be used to support a scholarship for a deserving architecture student. Scholarship recipients will be selected by the Architecture section head and the director of the Austin E. Knowlton School of Architecture in consultation with the architecture faculty and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

November 3, 2006 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Knowlton School of Architecture in consultation with the section head of Architecture. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,250.00

George O. and Martha Poole Davis Endowment Fund

The George O. and Martha Poole Davis Endowment Fund at the College of Medicine was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with unrestricted gifts from the estate of M. Nancy Davis (B.C.E., 1942) given in memory of Ms. Davis' mother and father.

The annual distribution from this fund shall be used at the discretion of the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Charles W. Hinson Scholarship Fund

The Charles W. Hinson Scholarship Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends, colleagues, and family in memory of Charles W. Hinson.

Mr. Hinson was an accomplished leader in retail design noted for his imaginative concepts, attention to design detail, and ability to turn ideas into exciting commercial environments. During his more than 30 years with Limited Brands, over 5,000 stores were built and/or remodeled across the nation. His division, Limited Store Planning, Inc., has been honored by the International Council of Shopping Centers, the National Association of Display Industries, and the publications *Design and Display Ideas*, *Women's Wear Daily*, and *Visual Merchandising and Store Design Magazine*.

The annual distribution from this fund shall be used to support a scholarship for an undergraduate architecture student who has financial need, strong academic performance, and a talent for interior and commercial design. Scholarship recipients will be selected by the Architecture section head and the director of the

November 3, 2006 meeting, Board of Trustees

Austin E. Knowlton School of Architecture in consultation with the architecture faculty and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Knowlton School of Architecture in consultation with the section head of Architecture. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The Alan and Carol Oatey Athletic Scholarship Fund

The Alan and Carol Oatey Athletic Scholarship Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Carol and Alan Oatey (B.S., 1947), Cleveland, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student athlete who is a member of a varsity team pursuing an undergraduate degree at The Ohio State University. Recipients shall be selected by the director of Athletics in consultation with the University Committee on Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The Franklin M. Rizer II M.D. M.B.A. Otolaryngology Education Fund

The Franklin M. Rizer II M.D. M.B.A. Otolaryngology Education Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Milisa K. Rizer M.D. (B.S., 1976) of Columbus, Ohio, in memory of her brother, Franklin M. Rizer (B.S., 1975).

November 3, 2006 meeting, Board of Trustees

The annual distribution from this fund shall be used to support education programs and advancement of medical knowledge towards early detection, diagnosis, prevention, and cure of otology-related disorders, particularly in children. Funds may be used for publications, conferences, lectureships, community outreach, and other educational activities with preference given to primary care physicians and healthcare workers, such as pediatricians, family physicians, general internists, audiologists, and nurse practitioners. When appropriate and in consultation with the chairperson of the Department of Family Medicine, the educational opportunities should include training of residents and faculty in the Department of Family Medicine at The Ohio State University. Allocation of funds shall be approved by the chairperson of the Department of Otolaryngology and with the senior vice president for Health Sciences and the dean in the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of Otolaryngology and in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Pierre Zoelly Travel Scholarship Fund

The Pierre Zoelly Travel Scholarship Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Barbara Josephine Zoelly, Bill Riat (B.S., 1973), Sheila Riat, and friends in memory of Pierre Zoelly.

Pierre, a Swiss architect, was probably the first Ohio State faculty member to think of the modern movement in terms of an entirely new approach to architectural education. His ideas and his personality brought a new dimension to the program, challenging many faculty members to think of architecture in ways different from that to which they were accustomed.

The annual distribution from this fund shall be used to support a scholarship for a student in the Austin E. Knowlton School of Architecture participating in one of the school's travel programs. Scholarship recipients will be selected by the Architecture section head and the director of the Knowlton School of Architecture in consultation with the architecture faculty and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

November 3, 2006 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Knowlton School of Architecture in consultation with the section head of Architecture. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

AMENDMENTS TO MINIMUM ENDOWED FUNDING LEVELS

Resolution No. 2007-54

Synopsis: Amendments to minimum endowed funding levels are proposed.

WHEREAS the minimum levels for University endowments and the Department of Athletics endowments have remained unchanged since June 30, 2001; and

WHEREAS the Programs of Excellence and Team Championship endowments are new and the minimum levels need to be established; and

WHEREAS beginning January 1, 2007, the Office of University Development can market University-wide merit-based fellowships, awards, and assistance for graduate students; and

WHEREAS The Ohio State University intends to conduct a new comprehensive capital campaign in the near future; and

WHEREAS the proposed new minimum levels have been endorsed by the President's Cabinet:

NOW THEREFORE

BE IT RESOLVED, The Ohio State University Board of Trustees hereby sets the following new minimum levels for these specific endowed funds, effective July 1, 2006:

Merit Scholarships:

Endowed Presidential Scholarship	\$750,000
Endowed Medalist Scholarship	\$375,000
Endowed Maximus Scholarship	\$125,000

Morrill Scholarships:

Endowed Distinction Scholarship	\$750,000
Endowed Prestige Scholarship	\$425,000
Endowed Excellence Scholarship	\$375,000

Access Scholarships:

Endowed Land Grant Opportunity Scholarship	\$500,000
--	-----------

Student-Athlete Scholarships

Endowed Scholarship	\$150,000
Endowed Tuition Scholarship	\$300,000
Endowed Full Scholarship	\$500,000

Program of Excellence Endowment	\$100,000
---------------------------------	-----------

November 3, 2006 meeting, Board of Trustees

Team Championship Endowment	\$100,000
Coaching and Staff Position Endowments	
Olympic Sports	\$500,000
Athletic Director	\$5,000,000
Head Football Coach	\$10,000,000

BE IT FURTHER RESOLVED, That The Ohio State University Board of Trustees hereby sets the following new minimum levels for these specific endowed funds, effective January 1, 2007:

Endowed Graduate Fellowship	\$1,000,000
Endowed Graduate Award	\$500,000
Designated Graduate Student Sponsorship	\$120,000
Graduate Student Assistance Fund	\$50,000 minimum

REVISION OF THE ENDOWMENT INVESTMENT POLICY

Resolution No. 2007-55

Synopsis: Revision of the University's Endowment Investment Policy is proposed.

WHEREAS the Board of Trustees, from time to time, has adopted specific policies governing various aspects of the management of the investment portfolios; and

WHEREAS there is a need for comprehensive policies to provide for the overall management of the investment portfolios; and

WHEREAS there is need to modify the comprehensive policies on occasion:

NOW THEREFORE

BE IT RESOLVED, That the following Endowment Investment Policy for The Ohio State University be adopted by the Board of Trustees; and

BE IT FURTHER RESOLVED, That the Treasurer and/or Senior Vice President for Business and Finance be, and hereby are, directed and authorized to implement and administer this policy and to manage the Endowment Investment Portfolio in accordance with this Policy.

(See Appendix XVIII for background information, page 505.)

WAIVERS OF COMPETITIVE BIDDING REQUIREMENTS

Resolution No. 2007-56

July - September 2006

Synopsis: Acceptance of the quarterly report on waivers of competitive bidding requirements is proposed.

WHEREAS the Purchasing Policy of The Ohio State University adopted by the Board of Trustees on September 7, 1984, and revised on February 7, 1992, July 8, 1994, November 7, 1997, and March 1, 2002 provides that the President and/or the Senior Vice President for Business and Finance, or for the Hospitals of the University and their related facilities, the Vice President for Health Services, may grant a waiver

November 3, 2006 meeting, Board of Trustees

from competitive bidding in the event of an emergency, when a sufficient economic reason exists or when the goods or services can be purchased from only a single source, with a report on such waivers to be made quarterly to this Board; and

WHEREAS the Senior Vice President for Business and Finance has submitted a report on waivers of competitive bidding requirements granted for the period of July – September; and

WHEREAS during the period covered, the Senior Vice President for Business and Finance, at the requests of the departments making the purchases and upon the recommendation of the Purchasing Department, granted 108 waivers of competitive bidding requirements for annual purchases totaling approximately \$21,840,787 as shown on the enclosed exhibit; and

WHEREAS during the period covered, the Vice President for Health Services, at the requests of the Hospitals of the University and their related facilities making purchases, granted 64 waivers of competitive bidding requirements for annual purchases totaling approximately \$27,317,870 as shown on the enclosed exhibit:

NOW THEREFORE

BE IT RESOLVED, That the report on waivers of competitive bidding requirements for the period of July – September 2006 is hereby accepted.

(See Appendix XIX for background information, page 511.)

**EMPLOYMENT OF EXECUTIVE ARCHITECT, ENGINEERS, PROGRAMMING,
DESIGN, DESIGN OVERSIGHT, AND CONSTRUCTION
MANAGEMENT SERVICES**

Resolution No. 2007-57

**MEDICAL CENTER FACILITY MASTER PLAN –
CLINICAL EXPANSION PROJECTS**

Synopsis: Authorization to contract for executive architect, engineering, programming, design, design oversight and construction management services for the Medical Center Facility Master Plan – Clinical Expansion is requested.

WHEREAS the Medical Center Facility Master Plan is a strategic initiative that will create a unique physical and intellectual environment that will enable the Medical Center to expand its services in meeting its research, clinical and education missions to achieve parity with top-quality academic medical centers nationwide; and

WHEREAS the Facility Master Plan proposes master plan projects envisioned to consist of the South Cannon Garage replacement, other parking facilities, Ross Heart Hospital Expansion, Digestive Health/North Doan Faculty Office Tower, MRI relocation, Diagnostic and Therapeutic Building, in-patient towers, ambulatory services, and various demolition, and renovation projects, site and civic infrastructure and faculty office projects, with an estimated project cost of \$780 million, with funding to be provided through University bond proceeds, with debt service to be paid by the Medical Center; and

WHEREAS to pursue this plan, the University desires to enter into contracts for programming, schematic design, design oversight, phasing, cost projections, scheduling and planning for further development of the clinical program, and the total costs is expected to be up to \$20 million, with funding to be provided

November 3, 2006 meeting, Board of Trustees

through University bond proceeds, with debt service to be paid by the Medical Center; and

WHEREAS the University desires to select schematic design, design oversight programming, and construction management professionals now to provide all of these services at a level not to exceed \$20 million; and

WHEREAS the University will work to finalize the business, parking, and infrastructure plans for these Clinical Expansion projects before seeking Board of Trustees authorization to enter into individual project design and/or construction contracts that require additional infrastructure support; and

WHEREAS at its June 2, 2006 meeting, the Board of Trustees authorized the University to begin the selection process for these professional services up to \$10 million, and that this amount has been utilized in planning to date:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to select qualified executive architectural, engineering, programming, design, design oversight, and construction management firms as necessary for these Medical Center Facility Master Plan – Clinical Expansion projects, provided that no more than approximately \$225 million in additional University debt capacity be used for these projects through FY 2007; and

BE IT FURTHER RESOLVED, That the University is authorized to spend up to \$20 million for these executive design and planning services and that any additional expenditure for these services shall require subsequent authorization from this Board; and

BE IT FURTHER RESOLVED, That design development and construction for specific projects within the Clinical Expansion projects shall require separate Board of Trustees authorization, provided that no authorization for construction contracts is to be submitted to the Board until a business plan is approved by the University.

**APPROVAL TO ENTER INTO FEASIBILITY STUDY, DESIGN, AND
CONSTRUCTION CONTRACTS AND TO INCREASE
CONSTRUCTION CONTRACTS**

Resolution No. 2007-58

**APPROVAL TO ENTER INTO FEASIBILITY STUDY CONTRACT
MARION CAMPUS – SCIENCE AND ART BUILDING FEASIBILITY STUDY**

**APPROVAL TO ENTER INTO DESIGN CONTRACTS
MORRILL TOWER – FRESH EXPRESS

JOB ORDER CONTRACT 2007 (JOC)**

**APPROVAL TO INCREASE CONSTRUCTION CONTRACTS
BRADLEY AND PATERSON HALLS - RESTROOM RENOVATION**

November 3, 2006 meeting, Board of Trustees

Synopsis: Authorization to enter into feasibility study, design, and construction contracts, and to increase construction contracts, for the projects listed above, as detailed in the attached materials, is requested.

WHEREAS in accordance with the attached materials, the University desires to undertake and enter into a feasibility study contract for the following project:

Marion Campus – Science and Art Building Feasibility Study (N/A)	\$0.14M	College operating funds
---	---------	-------------------------

WHEREAS in accordance with the attached materials, the University desires to undertake and enter into design contracts for the following projects:

Morrill Tower – Fresh Express (05-06 capital request)	\$0.43M	Student Affairs operating funds
OSU Golf Course – Restroom Renovation (05-06 capital request)	\$2.08M	Athletics operating funds

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following projects:

Dodd Hall – 3 rd and 4 th Floor Renovation (N/A)	\$0.39M	Hospitals operating funds
James Cancer Hospital – Elevator Upgrades (N/A)	\$1.27M	James Cancer Hospital operating funds
Lincoln Tower - Concrete Manhole Demolition (05-06 capital request)	\$0.20M	State funds
Put-In-Bay Water and Sewer Line Extension (03-04 capital request)	\$2.50M	2007 bond proceeds
Steel Manhole Replacements (03-04 capital request)	\$0.26M	State funds
Job Order Contract 2007 (N/A)	\$60.00M	Various sources

WHEREAS in accordance with the attached materials, the University desires to increase construction contracts for the following projects:

Bradley and Paterson Halls - Restroom Renovation (05-06 capital request)	\$4.27M	2007 bond proceeds
---	---------	--------------------

**Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project; renovation projects funded by internal office or departmental funds that are noted as "N/A" have not had separate capital project authorization because of their smaller size or because they arose unexpectedly between capital planning cycles.*

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into feasibility study, design, and construction contracts, and to increase construction contracts, for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix XX for background information and maps, page 513.)

EASEMENT RENEWALS

Resolution No. 2007-59

COLUMBUS SOUTHERN POWER COMPANY
CITY OF UPPER ARLINGTON
OHIO BELL TELEPHONE COMPANY

VARIOUS LOCATIONS
THE OHIO STATE UNIVERSITY
COLUMBUS, OHIO

Synopsis: Authorization to grant the following renewal easements for existing utility services to The Ohio State University at the Columbus Campus, is proposed.

WHEREAS Columbus Southern Power has requested the renewal of a 10-foot wide by 240-foot long easement south of Kinnear Road for an electric power line to 1315 Kinnear Road; and

WHEREAS Columbus Southern Power has requested the renewal of a 10-foot wide by 1,184.5-foot long easement for an electric power line to the DCISS State Computer Center on North Star Road; and

WHEREAS the City of Upper Arlington has requested the renewal of 2 easements containing 0.021 acres and 0.002 acres to continue a road way right-of-way at the intersection of Kenny and McCoy Roads, and south of Kenny Road and Millcreek Lane on The Ohio State University Golf Course; and

WHEREAS the City of Upper Arlington has requested the renewal of a 20-foot by 2,299.38-foot easement to continue to provide sanitary sewer services to The Ohio State University Golf Course; and

WHEREAS Ohio Bell has requested the renewal of a 10-foot by 2,735.62-foot easement for telephone communication lines across land at The Ohio State University Airport; and

WHEREAS each renewal is for a term of 25 years; and

WHEREAS the appropriate University offices have determined that the grant of these easements is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve and the Ohio Department of Administrative Services be authorized to process appropriate documents and grant the above easement renewals upon such terms and conditions as are in the best interest of the University.

(See Appendix XXI for maps, page 527.)

**POLICY REGARDING BOARD OF TRUSTEES' REVIEW AND APPROVAL
OF CAPITAL PROJECTS AND REAL ESTATE TRANSACTIONS**

Resolution No. 2007-60

Synopsis: Adoption of a codified policy regarding Board of Trustees' review and approval of capital projects and real estate transactions is proposed.

November 3, 2006 meeting, Board of Trustees

WHEREAS the Board of Trustees of The Ohio State University has a fiduciary responsibility with respect to the stewardship of University resources and the development of University property and facilities to meet the academic needs of the University; and

WHEREAS except as provided by the Board of Trustees, the Board retains sole authority with respect to University capital improvement projects and real estate transactions; and

WHEREAS the Board desires to provide for the flexibility needed to ensure the timely completion of capital projects while ensuring that the Board retains the authority and ability to exercise appropriate oversight regarding the capital improvement process, especially with respect to major projects; and

WHEREAS in 2003, management of capital improvement projects was identified as one of six core processes to be reviewed, and several actions since have been taken to streamline the processes involved during the planning, design, and construction phases of capital projects, resulting in gained efficiencies and cost savings; and

WHEREAS there now is a need to codify the policies and guidelines of the Board and the University regarding review and approval for capital projects, planning studies, and real estate transactions:

NOW THEREFORE

BE IT RESOLVED, That the attached policy regarding Board of Trustees review and approval of capital projects, planning studies, and real estate transactions be adopted, effective immediately, and that the Senior Vice President for Business and Finance, in consultation with the Office of the Board of Trustees, be responsible for coordination of the implementation of this policy; and

BE IT FURTHER RESOLVED, That under the direction of the Senior Vice President for Business and Finance, the Office of Facilities Operations and Development shall have the responsibility and requisite authority for contracting for the University for any capital improvement project of any kind (repair, maintenance, renovation, or new construction) estimated to cost less than \$200,000, in accordance with all applicable laws and regulations.

(See Appendix XXII for background information, page 533.)

FY 2009 BOND ISSUANCE

Resolution No. 2007-61

Synopsis: In accordance with the University's policies regarding use of University debt, including bonds, internal loans and lines of credit, and leases, a limitation on the amount of debt the University assumes as part of the FY 2009 Bond Issuance is recommended.

WHEREAS the strategic use of borrowing for capital projects is important to achieving the goals of the Academic Plan; and

WHEREAS maintenance of the University's credit rating is critical to the cost effective use of University resources; and

November 3, 2006 meeting, Board of Trustees

WHEREAS to achieve an appropriate balance between needed support for new initiatives and protection of the University's credit worthiness, the Board of Trustees adopted policies regarding the use of University debt in March 2005:

NOW THEREFORE

BE IT RESOLVED, That the Board hereby reaffirms that the University shall limit the size of the FY 2009 bond issue to be no more than \$500 million for capital projects; and

BE IT FURTHER RESOLVED, That no capital project other than those previously approved by this Board shall be eligible for debt service without prior approval of the President's Cabinet and the Board of Trustees.

(See Appendix XXIII for background information, page 537.)

Upon motion of Mr. O'Dell, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Davidson, Ong, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Shackelford.

--0--

REPORT OF RESEARCH CONTRACTS AND GRANTS

Resolution No. 2007-62

Synopsis: The report on research and other sponsored program contracts and grants and the summaries for August and September 2006 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, and other agencies in support of research, instructional activities, and service; and

WHEREAS such monies are received through The Ohio State University Research Foundation:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein during the months of August and September 2006 be approved.

Upon motion of Mrs. Davidson, seconded by Amb. Ong, the Board of Trustees adopted the foregoing resolution with twelve affirmative votes, cast by Trustees Duncan, Hendricks, McFerson, Davidson, Ong, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Shackelford, and two abstentions cast by Trustees Cloyd and Wexner.

--0--

EASEMENTS

Resolution No. 2007-63

TIME WARNER TELECOM OF OHIO, L.L.C.

NORTH STAR ROAD
BROOKDOWN DRIVE
COLUMBUS, OHIO

AT&T OHIO

MCCOY ROAD
UPPER ARLINGTON, OHIO

Synopsis: Authorization to grant various easements is proposed.

WHEREAS Time Warner has requested a 10-foot by 922.81-foot easement to allow fiber optic communication lines along North Star Road at the Columbus Campus for a term of 25 years. The easement is being granted for nominal consideration to provide service to Ohio Educational Broadcasting, a tenant of the University; and

WHEREAS Time Warner has requested a 10-foot by 280-foot easement for a term of 25 years to allow fiber optic communication lines along and across Brookdown Drive at The Ohio State University Airport. The easement is being granted for nominal consideration to provide service to MedFlight, a tenant, and an entity in which the University is a partner; and

WHEREAS AT&T has requested a 150-square foot easement south of McCoy Road at The Ohio State University Golf Course for a term of 25 years to locate telephone communication equipment; and

WHEREAS the appropriate University offices have determined that the granting of these easements is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve and the Ohio Department of Administrative Services shall be authorized to process appropriate documents and grant easements to Time Warner Telecom of Ohio, L.L.C. and AT&T Ohio upon such terms and conditions as are in the best interest of the University.

Upon motion of Mr. Wexner, seconded by Dr. Cloyd, the Board of Trustees adopted the foregoing resolution with thirteen affirmative votes, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Davidson, Ong, Wexner, O'Dell, Shumate, Fisher, Schottenstein, Brass, and Shackelford, and one abstention cast by Trustee Hicks.

(See Appendix XXIV for maps, page 547.)

--0--

NEW STUDENT PROFILE

Provost Barbara R. Snyder:

You have heard from President Holbrook that for the 12th year in a row, we welcomed the best prepared class in the University's history. My role this morning is simply to introduce Dr. Martha Garland, vice provost for Enroll-

ment Services and dean of Undergraduate Education. As you know, Martha oversees several of our critical areas including Admissions and First Year Experience. I wish I could tell you that I am the genius who recruited Martha to the Office of Academic Affairs from the College of Humanities, but I have to admit that that credit goes to one of my predecessors. Martha's leadership has been extraordinary in this area as you will see when she reports on the first-year class and tells you about the people on her team who work hard to help Ohio State achieve its goals.

Dr. Martha M. Garland:

Thank you very much, Provost Snyder. I am very pleased to be invited to update the Board on Ohio State's newest incoming class. Having an opportunity like this is one of the great things about my job. I think as members of the Board of Trustees, you never tire of hearing the success stories like the one I am about to relate.

I know it doesn't spoil the story to tell you what you have heard in a variety of other ways. The ending first -- for the 12th consecutive year, we have welcomed the best prepared freshman class in Ohio State's history. Among that class: 44% of the students, nearly half, graduated in the top 10% of their high school class and 80% graduated in the top quarter. Compare those statistics with last year, when we had 39% graduating in the top 10% and 77% finishing in the top quarter. It is even more telling to consider the figures from 1995, when 21% of the students graduated in the top 10% in their high school class and 46% graduated in the top quarter.

What these numbers tell us is that we are making progress and that our progress is accelerating. That acceleration is due in no small measure to The Ohio State University's 2008 Enrollment Management Plan, which was implemented three years ago to help realize the vision of our Academic Plan that Ohio State become the nation's premiere land-grant University.

One goal of the Ohio State 2008 Plan is that for the entering class of 2008, some 60% of the new first quarter freshman will come from the top 10%, but about 90% from the top quarter of their high school class. The plan also calls for an average ACT score, 2 years from now, to rise to 27. I am happy to tell you that the average ACT score for this year's class is 26.4. As you can see, we are very much on track to meet the goals of the Ohio State 2008 Plan.

The plan also proposes an enrollment target of 5,800 new first quarter freshmen. This autumn with our first year class at 6,162 students, we welcomed about 300 more than the target number. This happy dilemma resulted from the fact that more admitted students enrolled than we had predicted. The national ratio of enrollees to admitted students is about 44%, this year our ratio is nearly 50%. This higher yield underscored a point President Holbrook made in her State of the University Address -- "Ohio State has become a destination institution for the academically talented." As our students have become better prepared academically, more are staying in school and graduating. In 1995, 79% of our freshmen returned for their sophomore year. This year, a record 91.5% of our first year students did so. Nationally, the average for university freshmen returning after their sophomore year is approximately 77%.

I am especially gratified to tell you that the retention gap between minority and non-minority students has narrowed to less than 2%. Our improved retention is in part a characteristic of the better-prepared students I have

been describing, but it is also the result of our concerted efforts to take good care of students once they have come to Ohio State.

We have enriched the student experience by providing increased opportunities for research, study abroad, and the honors and scholars programs, including the Honors Collegium which you heard Josh talk about the benefits of a bit earlier. We have also allocated funds to open closed courses, we have provided better advising, and we inaugurated a number of student leadership opportunities.

Then there is our nationally acclaimed First Year Experience program, which provides freshman with the tools to make a successful transition to college under the effective and almost magical leadership of Assistant Vice President Mabel Freeman. The First Year Experience is among the most visible and vital reasons for Ohio State's improved retention.

Another crucial factor in our ability to retain students is the attention we have been paying to our physical landscape. There is a direct correlation between retention and the quality of the teaching and learning environment. In just the last year, we have increased our number of state-of-the-art classrooms, added new research space, inaugurated a centrally managed wireless network, and expanded accommodations for people with disabilities -- a thing that in the last week or so I have come to appreciate. You would be surprised how much you like curb cuts and ramps when you are on crutches. These enhancements are especially important in our ability to recruit and retain the very best and brightest.

This year the number of University Scholars rose by nearly 200. The 1,100 University Scholars are among the 2006 new first quarter freshmen who are students typically in the top 3% of their high school class and who have at least a 29 on the ACT.

Our diversity is also up. Students of color account for 16% of the 2006 freshman class. The number of Asian American freshman increased this year by 29%; the percentage of American Indian freshman, admittedly a small number, increased by 22%; and our Hispanic freshman, again a small number, increased by about 6%.

I have to admit a big disappointment was the decline among African American freshman on the Columbus campus. This autumn we had 40 fewer new first quarter African American students than last year when we had experienced a small gain. However, it is modestly encouraging that University-wide, including our regional campuses, the number of African American freshman is actually up by 14 students. As you can see in this area, we are making some progress but we still have much to do.

The Office of Minority Affairs, led by Vice Provost Mac Stewart, leads the charge in recruiting minority students for Ohio State. Through initiatives like the Morrill Scholars Program, we are working hard to deepen our pool of excellent minority college students. This year the freshman class was also increasingly international. Though the numbers remain small, we made a 40% gain this year, a testimony to the effectiveness of the international recruiting that we have been doing for the last two years.

Through the combined systematic strategic work of the Offices of Undergraduate Admissions, Minority Affairs, and Financial Aid, and our colleges, Ohio State's recruitment efforts have been marvelously successful. As a result, our recruitment programs have been noticed and copied throughout the nation. This means going forward that we will be

operating in an ever more rarified atmosphere for recruiting high-ability students, so we can't rest on our laurels, nor are we going to. Evidence of that includes the steps we are taking to ensure that Ohio State is financially accessible to every qualified student. As Provost Snyder reported when she spoke to the Board in September, one of this year's institutional priorities is eliminating financial barriers to college. In fact, Ohio State has set a goal of becoming the national leader in enabling financial access to higher education.

To achieve that goal, the University has appointed Tally Hart, formerly director of Student Financial Aid and a nationally recognized expert in financial aid and access, to the new position of senior advisor for Economic Access. Tally is helping departments and colleges be more strategic about getting their messages across. With her leadership, Ohio State is accelerating its efforts to tell a broader public, starting with students in grade 4, that college is possible. The message is clear -- if students are qualified and want to go to college, the financial resources will be in place to provide them with access. This is a cornerstone of our land-grant mission. Appropriately, Ohio State is defining and driving the national dialog on financial access. Thanks to Tally, we are leading a collaboration of the Big Ten so that all of our schools speak to the federal government with a unified voice on issues like Pell Grants and financial aid formalities.

In closing this story on the 2006 incoming class, let me end with what seems like a beginning, just as I started the story by telling you its ending. I reported a number of collective statistics all of which demonstrated this year's class is the most accomplished we have ever been privileged to welcome. The beginning of the story by contrast might be said about the individuals who allow us to produce that overall narrative. This autumn, our freshmen, some 3,100 men and 3,000 women, have come to Ohio State from all 88 counties in Ohio, 46 states, and more than 146 foreign countries. In their high schools: 290 of them were valedictorians; 1,479 were recipients of community service awards; 1,787 were participants in state music contests; and 3,636 were varsity athletes. Each of these students has a unique personal story which now includes Ohio State as their destination university. These freshmen and their families trust us to provide them with the undergraduate experience that is second to none. Every fiber of the University is bent toward that effort, even as we are also doing our utmost to be able to tell you next year that for the 13th consecutive year we have welcomed the best prepared freshman class in Ohio State's history. Thank you very much.

Judge Duncan:

Are there any questions or discussion?

Mr. Alvarez-Breckenridge:

Dr. Garland and Provost Snyder, it is exciting to hear the accomplishments especially having gone through school here. I made these decisions a few years ago. As I was thinking about that, I thought about my decision to come here and the recruitment process I went through and how the tides changed when I was recruited. The question I have is -- and I am curious as to how the Board can help with this -- what is the greatest challenge in recruiting these highly qualified students, because they are also interested in other prestigious institutions? What are the detractors and how can we help facilitate that?

November 3, 2006 meeting, Board of Trustees

Dr. Garland:

It is much less of a problem to overcome negative preconceptions these days, since we are in a different environment. As the President said, "we are the destination of choice." Under Dr. Freeman's leadership, we have developed wonderfully strategic processes of recruiting students which involve a lot of very personal attention. We focus our messages on students in terms of what they are specifically interested in and getting back to them with the information they need, and connecting them with the people they need to hear from.

We are also very strategic about our use of financial aid. We make certain we can meet the financial needs for students who have serious financial needs and that we can provide competitive scholarships for students who have other choices. We are doing all of that very well.

What we are getting, but needing to enhance, are the students who you imply are coming here and have other wonderful choices. Our best argument for coming here is the wonderful academic programs. The Office of Undergraduate Admissions has increasingly been working very closely with the colleges, departments, significant faculty members, and the deans to get across the messages about what kind of University this is. Those strong messages are about academic excellence, the existence of the Undergraduate Research Office, and the existence of the Denman Forum. The opportunity for so many of our undergraduate students to participate in research in the Health Sciences' complex is an incredibly powerful resource. So the strength of our academic programs is now the argument that is most powerful. We have moved beyond recruitment strategies to the message of the institution itself that is what is really important. Happily, our deans, chairs, and faculty members are very willing to help us with those messages. That is very critical.

Mr. Brass:

Dr. Garland, of the 6,100 incoming freshmen, do you have a feel for how many are going to stay on campus in dormitories throughout our system?

Dr. Garland:

Our requirement is that they stay on campus or they stay in their own family homes. Even students who live in Franklin County move into the residence halls. The residence halls house about 11,000 students.

Mr. Richard A. Hollingsworth:

Ninety-three percent of the freshman class lives in residence halls.

Mr. Brass:

Is that a limiter for us as we look forward to the next 3, 4, or 5 years?

Dr. Garland:

What is increasingly needed by the residence halls is for the quality and conditions of the residence halls to be competitive with other institutions' residence halls. The Office of Student Affairs is working very hard to decrease the density where we have a large number of students in a relatively small space.

November 3, 2006 meeting, Board of Trustees

This past year, we reopened Archer House as a residence hall. This building had long ago been a residence hall, but had been closed and used for office space. It wasn't ever good office space, but it is wonderful residence hall space and is available again. We are building the Student Academic Services Building, at the corner of Lane and Tuttle, precisely to get a large number of offices out of Lincoln Tower and return it fully to residence hall space. Those are partly to increase the number of spaces that we have, but partly to shrink the density and make them quality residence halls. We have a lot of evidence that living in residence halls for your first year is very tightly correlated with staying, succeeding, and graduating. That partnership with residence life is a very important part of our effort.

Mr. Brass:

I also want to congratulate you, Dr. Snyder, and the rest of your staff. I was extremely impressed with the statistic of 91.5% retention. I do think there is a correlation with the housing, as well as the academia. Congratulations, these statistics are just outstanding.

Dr. Garland:

Thank you very much.

Amb. Ong:

I think this twelve-year record of improvement is obviously very gratifying. It demonstrates that the move to have selected admissions years ago was the right move to make and has led to this improvement and, obviously, there is more improvement to be had. I would also like to point out that based on my contacts here, not only have these improvements made Ohio State at the undergraduate-level more attractive and more rewarding to students, but this improvement has also caused a pickup in faculty morale. Because so many faculty members -- particularly those in the bad old days before selective admissions -- recognize the great benefit of not having to devote so much of their resources, and time of themselves and their colleagues, to remedial education. I think it is probably a beneficial factor, in so far as the employment and retention of excellent faculty is concern.

Dr. Garland:

I agree completely with that. I am a member of the history faculty and occasionally I have lunch with my colleagues from my department. They are relatively a curmudgeonly bunch and they don't give compliments easily, but they frequently say what a joy it is to work with our undergraduate student body now and they are grateful for the decisions that have led to this situation. It is much more satisfying to teach good students.

Ms. Shackelford:

You can read it in the numbers, but you can see it on the faces of students when they are at freshman convocation. I had the opportunity to attend the convocation this year and there was not a student who was not being attentive to what was being said on stage. I congratulate all of you who make that a very special beginning because those students will stay. They are better academically and they are going to stay until graduation.

November 3, 2006 meeting, Board of Trustees

Mr. McFerson:

It is a great report and I didn't hear hardly anything negative except perhaps a decline in our minority students. Are we in a position yet to know how many of our students are taking remedial classes in English and math? As the quality goes up, I would suspect that number goes down.

Dr. Garland:

It has almost disappeared. At the beginning of this project in 1995, we had about 25% of our students taking either remedial English or math or both. This entering class, the percentage in remedial math is 3.5% and in English it is less than 1%.

Mr. McFerson:

Wow, that is great. That is another reason for faculty morale to improve.

Dr. Cloyd:

Dr. Garland, these are terrific results. The thing that I think is particularly impressive to me is the target and the progress on looking at three items together: the quality retention that you want of the students, the diversity of the students, and financial access. It is great progress to date. I would look forward, in perhaps another venue and point in time, of getting a better understanding of the financial access and diversity and what we are doing in those programs, and how the Board may be able to help more. You paint a little bit of a different picture of what we are seeing here versus what many universities are going through with decreases in financial aid available to students through Pell Grants. There is a very negative picture that occurs on a national front. It seems like you are doing some things that are leading to a more positive atmosphere at Ohio State, but maybe there are some other things we can do to help.

Provost Snyder:

As I promised earlier, we will be back to you next month with a presentation to the full Board on that very topic. We will talk more about that in December.

Judge Duncan:

Does anyone have any further discussion? Again, thanks very much for your hard work and thank you, Dr. Freeman.

--0--

Thereupon the Board adjourned to meet Friday, December 8, 2006, at The Ohio State University, Faculty Club, Columbus, Ohio.

--0--

Attest:

Robert M. Duncan
Chairman

David O. Frantz
Secretary

(APPENDIX XVIII)

**THE OHIO STATE UNIVERSITY
ENDOWMENT FUND INVESTMENT
POLICY**

October 2006

**THE OHIO STATE UNIVERSITY
ENDOWMENT FUND INVESTMENT POLICY**

I. PURPOSE

The purpose of this Endowment Fund Investment Policy (hereinafter referred to as the "Policy") is to establish the overall management, investment strategies and discipline of The Ohio State University (hereinafter referred to as "The University") for the Endowment Fund (hereinafter referred to as the "Fund"). This policy is intended to permit sufficient flexibility to capture investment opportunities, yet provide parameters that ensure prudence and care in the execution of the investment program.

This policy is issued for the guidance of fiduciaries, including the Board of Trustees, Investment Committee members, staff, investment managers, investment consultants and custodians for oversight of the Fund. It also states the standards and disciplines adopted so that the Board of Trustees and its Investment Committee can effectively evaluate the performance and operations of the Endowment Fund.

II. GOALS

The Fund was established to provide financial support for the long-term use and benefit of the University. The goal is to manage Fund assets with prudence and discipline to achieve that purpose. It shall also be the policy to manage the Fund in a manner that will preserve and maintain the real purchasing power of the principal while allowing for an annual distribution according to this policy.

III. FIDUCIARY STANDARDS

The Board of Trustees, Investment Committee members, staff, investment managers, consultants and custodians are fiduciaries. Accordingly, these individuals are required to:

- Act solely in the interest of the University, for the purpose of providing income and maintaining the real purchasing power of the principal.
- Act with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims.
- Diversify the investments of the Fund in order to minimize overall risk, and to provide investment returns to achieve the Fund's stated goals.

IV. DUTIES AND RESPONSIBILITIES

- A. Board of Trustees.** The University Board of Trustees has overall responsibility for Fund policy and approval of Investment Committee members. The Board of Trustees vote on items brought forth by the Investment Committee.
- B. Investment Committee.** The Investment Committee has strategic oversight responsibility for the investment program and operations of the Fund. The Committee shall work with the Senior Vice President for Business and Finance and the Treasurer to ensure the Fund is well managed, in accordance with this policy.

- C. Senior Vice President for Business and Finance.** The Senior Vice President for Business and Finance has oversight responsibility for the Fund's investment operations and reporting. The Senior Vice President for Business and Finance shall review operations and reporting within the Office of the Treasurer to ensure compliance with established policies and procedures.
- D. Treasurer.** The Treasurer is responsible for managing the Fund's investment operations and reporting. The Treasurer shall review and recommend policies and procedures that are consistent with the investment objectives of the Fund. The Treasurer shall report to the Senior Vice President for Business and Finance and the Investment Committee.
- E. Investment Managers.** The University utilizes external investment managers to provide portfolio management services. The investment managers may be given discretion, consistent with specified objectives and guidelines, to manage Fund assets. Investment managers operate under a formal contract that delineates responsibilities, risk parameters and performance expectations.
- F. Consultants.** The University may utilize the services of one or more investment consultants to assist the Treasurer in the areas of: policy development, asset allocation, investment structure analysis, investment manager selection, performance review and other specialized investment topics.
- G. Custodians.** The University retains one or more custodian banks or trust institutions to custody and report on the assets of the Fund.

V. DISTRIBUTION POLICY

Distributions from the fund will be made at the beginning of each fiscal year according to a formula approved by the Trustees as follows:

1. The distribution amount will be calculated on a five-year moving average of the market value of the portfolio.
2. The distribution rates are 4.5% for funds existing as of June 30, 2004, and 4% for all others.
3. A collar incorporating a maximum annual distribution increase of 3% and a maximum annual distribution decrease of 1% is effective beginning July 1, 2006.

VI. ASSET ALLOCATION AND GUIDELINES

- A. Time Horizon.** The Fund's investment horizon is long-term (10+ years), therefore interim performance fluctuations should be viewed with this perspective. Similarly, the underlying capital market assumptions of the University's asset allocation plan are based on this long-term perspective.

B. Risk Tolerance. The Board of Trustees, the Investment Committee, and staff recognize the challenge of achieving the Fund's investment objectives in light of the uncertainties and complexities of investment markets. They also recognize that prudent levels of investment risk are necessary to achieve long-term investment objectives.

C. Asset Allocation and Rebalancing. Asset allocation is the largest contributor to overall Fund return performance and risk characteristics. The Investment Committee and the Board of Trustees will periodically evaluate asset class strategies and opportunities, and establish a long term asset allocation plan. After a thorough study of the available asset class opportunities, return objectives and risk tolerance, the Board of Trustees and Investment Committee approved the following asset allocation:

Asset Class	Target	Benchmark
US Large Cap	15%	S&P 500
US Mid Cap	10%	Russell Mid Cap
US Small Cap	10%	Russell 2000
International Equity	25%	ACWI ex US
US Fixed Income	7%	Lehman Aggregate
High Yield	3%	Lehman US Corporate High Yield
International Fixed	3%	Citigroup WBGI ex US
Absolute Return	14%	90 Day T-Bill + 4%
Real Estate	8%	NCREIF Property Index
Private Equity	7%	Venture Economics
Natural Resources	3%	90 Day T-Bill + 5%
Cash	-5%	90 Day T-Bill

Market fluctuations, cash flows and liquidity issues will cause the actual asset allocation to diverge from the target allocation from time to time. The Treasurer will rebalance the portfolio to policy target weightings, periodically as needed.

D. Investment Manager Guidelines. The investment guidelines incorporated into each manager's contract documents the performance expectations and risk parameters of the manager's investment approach. The guidelines also specify the typical portfolio characteristics of the portfolio. These characteristics are used to monitor a manager's investment style adherence to insure that the manager is continuously fulfilling its investment role in the Fund.

VII. INVESTMENT MONITORING PROCESS

The Fund's investment managers will be monitored for consistency of investment philosophy, return relative to objectives, and investment risk. The Treasurer and the Senior Vice President for Business and Finance will monitor the overall fund results and investment portfolios, but results will be evaluated on a long term basis. The following manager issues will be considered by the Treasurer: (1) failure to comply with the applicable investment style, guidelines, performance objectives, and fees, (2) a material change in ownership or personnel, or (3) a violation or

potential violation of the terms of the investment manager agreement or other applicable laws and regulations.

VIII. EXERCISE OF SHAREHOLDER RIGHTS

The University recognizes that publicly traded securities and other assets of the Fund may include certain ancillary rights, such as the right to vote on shareholder resolutions at companies' shareholders' meetings, and the right to assert claims in securities class action lawsuits or other litigation. The University requires of itself and its external managers the prudent management of these assets of the Fund for the exclusive purpose of enhancing the value of the Fund. The Treasurer has the authority to vote proxies in accordance with the Proxy Policy.

IX. REVIEW AND MODIFICATION OF INVESTMENT POLICY STATEMENT

All policies of the Fund are in effect until modified by the Board of Trustees. While material changes are expected infrequently, the Treasurer will review the Investment Policy at least annually for continued appropriateness and recommend any changes to the Senior Vice President for Business and Finance, the Investment Committee, and the Board of Trustees.

X. EXCEPTIONS

Modifications and exceptions to this Policy shall be authorized by resolution of the Board of Trustees or as provided herein. The terms and conditions of this Policy as to the endowment portfolio may be waived if specified by the terms of a gift and approved by the Board of Trustees.

Marion Campus - Science and Art Building Feasibility Study

315-07-0136

Requesting Agency(s): MARION CAMPUS

Location(s): Morrill Hall, James Lewis

46,505 ASF/73,528 GSF Age: 1968

Description:

This project will study the feasibility of constructing a new building focusing on science and art.

Project Information:

The study will review potential sites; develop a space program; and explore sustainability options. The study will also include cost estimate, time lines and phasing options.

Issues:

How does this project advance the Academic Plan? This project will advance the Academic Plan by allowing the campus to explore options for providing improved teaching, research and office facilities and improving the science and art academic programs.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Special limitations/risks: None

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion
General Funds-Marion	\$140,000.00					
Total:	\$140,000.00

Morrill Tower - Fresh Express

315-07-0100

Requesting Agency(s): STUDENT AFFAIRS, OFFICE OF

Location(s): Morrill Tower, Justin S.

199,325 ASF/324,504 GSF Age: 1967

Description:

This project will renovate the Morrill Tower dining area to the newly developed "Fresh Express" service concept. The focus of the menu will be on items that are prepared fresh such as "tossed to order" salads, a deli station and a "grilled to order" station.

Project Information:

Improvements include new interior and exterior signage; new lighting; new kitchen layout and equipment.

Issues:

How does this project advance the Academic Plan? This renovation supports the Academic Plan by enhancing the quality of residence hall life by providing a healthful alternative dining option.

Outstanding Funding Issues: None

Dodd Hall - 3rd and 4th Floor Renovation

315-2006-918

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): Dodd Hall, Verne A.

43,256 ASF/84,673 GSF Age: 1961

Description:

This project will complete inpatient room upgrades and installation of patient lifts in six rooms.

Project Information:

Project did not meet criteria for Board of Trustees approval at the time the A/E was selected.

Issues:

How does this project advance the Academic Plan? Enables the Medical Center Facilities Plan, which will support continued clinical, teaching and research missions at The Ohio State University.

Outstanding Funding Issues: None

James Cancer Hospital - Elevator Upgrade

315-2006-909

Requesting Agency(s): CANCER HOSPITAL & RESEARCH INSTITUTE

Location(s): James Cancer Hosp & Solove Res Inst

116,384 ASF/265,423 GSF Age: 1990

Description:

This project will consist of a major elevator modernization in the James Cancer Hospital. The project will include the modernization and upgrade of three patient and staff elevators, and the elevator equipment room.

Project Information:

The project budget increased during design for identified code changes and escalation in material cost.

Issues:

How does this project advance the Academic Plan? Enables the Medical Center Facilities Plan, which will support continued clinical, teaching and research missions at The Ohio State University.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Special limitations/risks: Special attention to project safety and building function will be essential since this building will be fully operational during the elevator upgrades. Two elevator cars are required to be fully operational 24 hours per day, seven days per week for the duration of the project.

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion

Put-In-Bay Water and Sewer Line Extension

5062-PF6799

Requesting Agency(s): BUSINESS & FINANCE, OFFICE OF

Location(s): Peach Point, South Bass Island

1,556 ASF/2,013 GSF Age: 1926

Description:

This project provides centralized water and sewer service to all facilities owned by OSU on the Peach Point of South Bass Island and on Gibraltar Island. It will connect these facilities to the Village of Put-in-Bay's water and sewer systems. The work will install approximately 3,000 feet each of water and sewer pipeline from the Village of Put-in-Bay's limit to Peach Point and approximately 1,000 feet each of water and sewer pipeline, in the bed of Lake Erie, from Peach Point to Gibraltar Island.

Project Information:

EPA has mandated that all water lines on the islands must connect to the Village water system.

Issues:

How does this project advance the Academic Plan? This project advances the Academic Plan by meeting the University mission of teaching and learning.

Outstanding Funding Issues: None

Timing Issues: Special permits may be required to protect the wildlife.

"Ripple effects" of the project: None

Special limitations/risks: The Village of Put-In-Bay and Ottawa County must approve all plans prior to start of construction. An easement from private property owners for a lift station must be obtained.

PRATER ENGINEERING ASSOCIATES - Design

Job Order Contract 2007

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): Various Locations, Columbus

Description:

This project will competitively bid a firm fixed price indefinite quantity contract. The University has been utilizing the Job Order Contract method since January 1996.

Project Information:

Job Order Contract (JOC) is a firm, fixed price, competitively bid, indefinite quantity contract designed to accomplish multi-traded reconstruction, rehabilitation and minor new construction projects that face critical timelines in support of University business needs. Construction Services to be bid are two general, HVAC, electric and plumbing trades. Each contract award will be for a term of one year with options for three additional terms of one year each. Maximum amount of all contracts with option terms awarded is \$60,000,000.

Issues:

How does this project advance the Academic Plan? This project will allow the University to have increased responsiveness to time sensitive projects.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Fiscal Affairs Committee

November 3, 2006

Topic:

**MANAGEMENT OF FACILITIES IMPROVEMENT PROJECTS AND
REAL ESTATE TRANSACTIONS**

Context:

The management of capital projects has been identified as one of six core processes to be reviewed.

The attached resolution and accompanying materials are intended to update and document existing policies regarding oversight authority relating to capital projects. It is important to point out three changes that have been incorporated into the proposed policy. They are:

1. Projects of less than \$1 million would require one-time Board approval which would cover both design and construction. Currently these projects are brought to the Board as two separate approvals; once for design and once again for construction.
2. Guidelines for planning studies, leases, and real estate transactions are now included under the attached policy
3. Board approval would no longer be required for the replacements and/or renewals of existing previously approved easements.

The proposed changes will allow us to streamline processes and focus our energy and the Board's time on those issues of the greatest financial and strategic impact to the University.

Recommendation:

Adopt attached policy guidelines regarding the Board and the University review and approvals required for capital projects, planning studies, and real estate transactions.

Considerations:

In 2005, approximately 708 were projects in some phase of development within Facilities Operations and Development. Of these projects, 579 had a project budget of less than \$1 million.

These 579 projects were primarily repairs to building systems, roof replacements, minor classroom/lab renovations or other miscellaneous repairs or space upgrades.

Repair and renovation projects are often time sensitive, dependent on either the academic calendar or seasonal conditions. A four week delay to a project can result in a ¼% increase to the project costs.

Requested of the Fiscal Affairs Committee:

Approval of attached resolution

**POLICY FOR BOARD OF TRUSTEES' REVIEW AND APPROVAL
OF FACILITIES IMPROVEMENT PROJECTS, PLANNING STUDIES,
AND REAL ESTATE TRANSACTIONS**

Facilities Improvement Projects

For the purposes of this document, Facilities Improvement Projects are defined as any initiatives undertaken on behalf of the University that improve the physical environment in support of the academic mission. Projects covered under this policy would include, but may not be limited to activities that involve land acquisition, construction, reconstruction, renovation, demolition, landscaping, roads and grounds improvements/maintenance, building and systems repairs/replacements, client-specified projects, major emergency responses and any capital improvement project. This policy excludes items which would appropriately be directed through the procurement process and subject to the University's procurement policies and guidelines.

1. Any facilities improvement project estimated to cost at least \$200,000 but less than \$1 million shall require specific project authorization by the Board of Trustees. This approval constitutes complete authorization for the project, including site selection, design, construction, and any other services needed, except as specifically noted in the authorizing resolution.
2. For any project estimated to cost \$1 million or more, there shall be specific project authorization by the Board that may include site determination, design work, and construction management services, except as specifically noted in the authorizing resolution. For these projects, separate Board authorization shall be required for construction unless specifically included in the project approval resolution. Such Board approval also shall be required for any project originally estimated at under \$200,000 that subsequently increases to over \$200,000.
3. Once a project of \$200,000 or more has been approved by the Board, the University shall not increase the project costs (including costs for design, construction, construction management, or other services) presented to the Board at the time of authorization without specific Board approval except as follows:
 - a. For projects under \$1 million, with the prior written approval of the Senior Vice President for Business and Finance, the University may increase individual project contracts or the total project budget so long as the increased project budget does not exceed \$1 million, and funding for the increase is provided by the requesting department or other source and an appropriate report is made to the Board regarding the increase.
 - b. For projects of \$1 million or more, with the prior written approval of the Senior Vice President for Business and Finance, the University may increase individual project contracts or the total project budget cumulatively by no more than 10% or \$1 million, whichever is less, so long as funding for the increase is provided by the requesting department or other source and an appropriate report is made to the Board regarding the increase.

4. The University shall report annually to the Board, at the February meeting, on all projects estimated to cost \$200,000 or more that were completed during the previous year. The report will include determination as to whether the project was on time and on budget.
5. The University shall report quarterly to the Board on the status of each major facilities improvement project of \$20 million or more and on any other facilities project as required by the Board. The report will include determination as to whether the project is on time and on budget.

Planning Studies and Project Siting

6. Any planning study (including any feasibility, technical, siting, or other planning study) estimated to cost \$150,000 or more shall require Board of Trustees authorization (either separately or as part of the facilities project recommendations). Any planning study originally estimated at less than \$150,000 that goes over that amount shall be submitted to the Board for authorization.
7. Any proposed changes to the approved University Master Plan, Regional Plans, District Plans, and Sub-District Plans shall be subject to review and approval by the President's Cabinet and Board of Trustees.
8. Requests for use of a site for any facilities project or any change in activity or program shall be subject to review and approval by the President's Cabinet and Board of Trustees if not in compliance with the approved University Master and District Plans, as determined by the Department of Facilities Operations and Development.

Real Estate Transactions

9. Any easement, other than an easement for street, roadway or highway purposes, to be granted to another party for use of University property for a term of not more than 25 years shall be subject to review and approval by the Board of Trustees.
10. Approval of replacements (renewal) easements for existing agreements that benefit the University and that were previously approved by the Board of Trustees as outlined in item #11, may be granted for a like term by the University through the written approval of the Senior Vice President for Business and Finance.
11. Any sale or purchase of real property, or acceptance of the gift of real property, shall be subject to the review and approval of the Board of Trustees.
12. The lease of real property by the University for any total term of ten years or more or with a total lease value greater than \$1 million shall be subject to review and approval by the Board of Trustees.

Interpretation and Intent

13. This policy is intended to provide flexibility for the University to undertake projects in an expeditious manner, while preserving the authority and ability of the Board of Trustees to review and approve major projects as the Board determines. This policy is not intended to limit Board review of any project or action as the Board determines appropriate. In interpreting this policy, the University shall provide for Board review in any case in which the provisions of this policy are unclear or subject to varying interpretation.

The Ohio State University Board of Trustees
Fiscal Affairs Committee

November 3, 2006

TOPIC:

**FY 2007 – FY 2012 ANNUAL CAPITAL REVIEW AND FY 2009
BOND ISSUE GUIDELINES**

CONTEXT:

At the September 22, 2006 Board meeting, the Annual Review of the FY 2007 – FY 2012 Capital Plan was presented to the Board for a first reading (attached). Based on the outcome of that review, it is being proposed the preliminary ceiling for the University's FY 2009 bond issuance be set at \$500 million.

HIGHLIGHTS:

- Summary of updated FY 2007 – FY 2012 capital projects (attached)
- To date, requests for FY 2009 bonds has exceeded \$500 million
- Approximately \$260 million in FY 2009 bonds has been allocated to Support the Medical Center Master Facility Plan

CONSIDERATIONS:

- Are the updated recommendations outlined in the attached FY 2007 – FY 2012 Capital Plan appropriate?
- Are the update recommendations consistent with the Academic Plan?
- Have all the debt commitments been identified and is the \$500 million targeted FY 2009 bond ceiling appropriate?
- What impact would increasing the bond ceiling have on the University's credit rating?
- Have the key emerging issues been identified?

REQUESTED OF THE FISCAL AFFAIRS COMMITTEE:

Acceptance of the FY 2007 – FY 2012 Capital Plan Annual Review and approval of attached resolution regarding FY 2009 bond issuance.

Subject: FY 2007 – FY 2012 Capital Plan

Date: September 22, 2006

From: Barbara Snyder *Barbara*
William Shkurti *Bill*

To: Karen Holbrook

When the OSU Board of Trustees approved our FY 2007 – FY 2012 Capital Recommendations last Fall, we agreed to review and update them annually. The purpose of this memo is to summarize that review.

Our September 12, 2005 capital recommendations memo included the funding criteria for all projects (academic priority, physical need, financial feasibility, physical feasibility and other considerations). Our memo then laid out our priority recommendations for state capital funds and projects involving other funds (including University debt and affiliated entities). The final section addressed implications, including:

- Impact on the Academic Plan
- Impact on Deferred Maintenance
- Impact on Future State Funded Capital Requests
- Impact on Debt Capacity
- Impact on Students, Faculty and Staff
- Impact on Operating Costs
- Impact on Transportation and Parking
- Physical Feasibility
- Energy Conservation

For purposes of this review, we will focus on the following:

- The four projects identified as highest priority for state funds
- The three projects identified as highest priority for other funds
- Other projects meriting consideration
- Impact on deferred maintenance
- Impact on debt capacity
- Emerging issues

Recommendations for State Funds

The September 2005 recommendations included four projects for which state funds were requested for the FY 2007 – FY 2008 biennium. At that time we were working with a control number of \$58.5M. Subsequently, the Ohio Board of Regents (OBR) increased our planning control total to \$61.8M. The additional funding was requested for the Thompson Library Renovation project. The four projects from the September recommendation are:

Project	Amount BoT Approved in FY 2007-FY 2008 Capital Plan	Amount Requested of OBR for FY 2007-FY 2008	Total Project Cost
Thompson Library Renovation	\$47.5M	\$50.8M	\$102.8M
Brown Hall Renovation	3.5M	3.5M	50.0M
Hughes Hall Renovation	1.5M	1.5M	29.0M
Murray, Graves and Meiling Hall Renovations, Phase I	6.0M	6.0M	TBD
	\$58.5M	\$61.8M	

The state capital budget for FY 2007 – FY 2008 has not yet been approved. However, now that the TEL Initiative appears to be off the ballot, we do expect the capital bill to be approved in the legislative session after the November election. This will allow us to proceed with the Library renovation as planned, as well as the other high priority projects.

As part of the state's capital planning process, the Ohio Board of Regents asked us to tell them how we would allocate an additional \$27.5 million for deferred maintenance projects if the 2007-2008 capital bill includes the additional OBR-requested funding for these type projects. Our response to OBR was:

Project	Additional Amounts Requested for FY 2007-FY 2008
Thompson Library Renovation	\$8.70M
Lord Hall Demolition	.65M
Murray Hall Renovation	2.75M
Cunz Hall Interior Renovation	4.60M
Cunz Hall Exterior Upgrades and Elevator Replacement	3.60M
Brown Hall Renovation	7.20M
	\$27.50M

Recommendations Regarding Other Funds

Our September 2005 memo identified three high priority projects as significant commitments using non-state funds. These are

- Cancer Program Expansion Project
- Ohio Union Replacement
- Student Academic Services Building

The **Cancer Program Expansion** has been incorporated into the **Medical Center Master Facilities Plan**, which was approved by the OSU Board of Trustees on November 4, 2005. Projects already approved as part of Phase I of that plan include:

- Ross Heart Hospital – Two Floor Addition
- North Doan Hall – Non-Clinical Addition
- MRI Relocation
- Recreation Area Surface Parking
- Faculty Office Building
- West of Cannon Drive Parking Garage
- West of Cannon Drive Chiller Plant
- 9th Avenue Parking Garage Expansion

The following projects are expected to come forward for approval over the next 12 months:

- Renovation of Rhodes/Doan/James/Cramblett
- Means Hall Demolition
- Various Enabling Projects (infrastructure relocation)
- New Hospital (tower and diagnostic core)

The amount and sources of additional funding required to support infrastructure needs related to increased capacity and demand as a result of implementation of the Medical Center Facilities Master Plan are currently being identified.

As part of the planning process, the Medical Center will incorporate into the implementation time line a series of decision points or ‘circuit breakers’ to allow the project team to analyze progress and review financial status in order to assess future risks before proceeding to the next level of commitment. Each decision point will provide opportunity to minimize risks while maximizing benefits

In addition, a possible particle therapy facility for treatment of cancer has been proposed as a partnership with Med Center Partners. This is still under review.

The Arthur G. James Cancer Hospital and the Richard J. Solove Research Institute desire to lease a building containing approximately 102,000 square feet at a location off campus. This new facility would replace and expand the Comprehensive Breast Health Center located at State Route 161 and Sawmill Road and will offer the following services: chemotherapy, radiation oncology, imaging, physician exam rooms and Hope’s Boutique. This proposal is also under review at this time.

The **Ohio Union** was approved to move forward to construction at the Board of Trustees meeting on July 7, 2006.

The **Student Academic Services** building is still in the design stage and is expected to come to the Board for construction approval in Autumn 2007. Construction is projected to begin Spring 2008.

Other Projects Meriting Consideration

- Metro Schools

Though not mentioned in the September 2005 recommendations, Metro High School opened on time for the 101 member student body on August 28, 2006. This important joint collaboration between the University, Battelle and the Educational Council creates a new public high school that will serve as a hub of innovation for teaching, learning and research opportunities with an emphasis on science, math and technology. Phase 1 of the renovation to the facility was completed on schedule. Phase 2 of the facility renovation is scheduled to begin shortly.

- Legal Affairs Move to South Campus Gateway

Also not mentioned in the September 2005 recommendations is a project currently underway that will relocate the Office of Legal Affairs from various locations across campus to approximately 10,000 square feet of office space currently leased by the University in the South Campus Gateway complex. The project budget to fit out the space is anticipated to be \$1.1M. The project will be funded Centrally from funds already set aside for this purpose.

- Koffalt Lab Expansion/Renovation

A feasibility study is underway to evaluate current and future programmatic needs for the Department of Chemical and Biomolecular Engineering's Koffalt Laboratories and the ability of the existing facilities to fulfill long range goals and objectives. This study will also provide recommendations for a range of sites and alternatives for the development of new and/or renovated facilities. The final site selection, as well as the allocation of resources will be recommended in the 2009-2010 Capital Plan Process. Fund raising strategies are currently being explored, which include both State of Ohio and private donor sources.

- MBA Housing

The University entered into a land lease with a private developer for 4.5 acres of University land at the southeast corner of Lane Avenue and Kenny Road. Through this ground lease, the developer will construct, finance, and operate a 120 unit residential development which is expected to attract local area students. The developer submitted a proposal for construction of this project in response to an RFP issued by OSU. During the term of the lease, the developer will be solely responsible for ownership, operation, leasing, management and maintenance of the facility. No University funds are involved in this project. MBA students will be the developer's targeted market. The project complements the University Master Plan and is anticipated to be completed by August, 2007.

- Electro Science

The project would add an approximately 44,000 GSF addition to the ElectroScience Lab at 1320 Kinnear Road. The building would be occupied by College of Engineering researchers and private industry partners. This project is proposed as a collaborative effort between the ESL and their research partners, corporate sponsors, and spin-off companies. Estimated total project cost is \$6.2M with funding for construction divided between fund raising by

OSU College of Engineering (estimated at \$1.2M), and SciTech (\$5.0M). Once funding is secured, construction is tentatively scheduled to begin in 2008 and will take approximately 18 months to complete.

- Possible Airport Improvements

Approval of the University Airport Master Plan document has been placed on hold pending resolution of community issues. The University Airport is currently engaged in the following airport projects: roof replacement on three existing hangers, runway repaving; initiation of a Part 150 Noise Study, and installation of a new security fence along the perimeter.

- Joint Neighborhood Policing Center

The design phase of the City of Columbus/Ohio State University joint Neighborhood Policing Center continues to move forward. The planning team is working with various surrounding community groups and leaders to create a facility that will serve the University and our surrounding communities. The project is scheduled to break ground December 2006. The University has committed \$1.9M towards this project. Total project costs are currently estimated to be \$3.8M.

- Lazarus

The College of the Arts is in the process of submitting a space request for a 10 year lease of approximately 10,200 square feet in the historic downtown Lazarus building. The space will be used for exhibition, non-traditional performance and installation, as well as incubator space for arts entrepreneurship training. The City of Columbus is funding the renovation of the space.

- 1165 Kinnear Road (Columbus Wood Products)

The University entered into a long term lease of the 96,000 sq. ft. property effective February 2006. The University will use approximately 21,000 sq. ft. for University Surplus and Real Estate and Property Management is currently marketing another 57,000 sq. ft. to a local light manufacturing company. This will leave 17,000 sq. ft. of space that could be utilized by an OSU or Sci-Tech entity.

- Affiliated Entities

- SciTech

- see above for Electrical Engineering Research Lab

- 1275 Kinnear Road Complex – The project would build out a 135,000 GSF multi-tenant office, research facility, and parking for housing private small to medium size companies. The building shell at 1255/1275 Kinnear Road is completed and ready for build out. Future construction involves the build out of approximately 31,000 SF of shell space at 1255 Kinnear, and the reconfiguration and build out of

approximately 50,000 SF of warehouse and 6,200 SF of office at 1275 Kinnear, along with related parking improvements. Estimated total project cost is \$7.7M with funding provided by SciTech. Anticipated starting date for the project is January 2010 and the completion date is projected to be June 2011.

- Southwest Quadrant OSU Research Park Phase 1 – The project would build a 50,000 GSF multi-tenant office and research facility for housing private small to medium size companies. The building is planned as future speculative construction. Estimated total project cost at midpoint of construction in 2010 is \$5.9M, as provided by SciTech through bank financing. Estimated date of completion is June 2010.
- Campus Partners
 - Columbus Coated Fabrics – the option on this property expires in mid October and discussions continue regarding any future plans for this site.
 - Priorities continue to focus on the 15th and High and the residential redevelopment initiatives.
 - Long’s bookstore will be used as swing space for the University’s Library and Ohio Union projects.

Impact on Deferred Maintenance

A primary goal of the FY 2007 – FY 2012 Capital Plan is to address unmet deferred maintenance needs. The Ohio Union project alone will address approximately \$45M or almost 8% of the existing need. Other projects which will significantly reduce the current backlog include the demolition of Means Hall for the clinical expansion (\$26M), the Brown Hall renovation/replacement (\$14M), the Hughes Hall renovation (\$12M) and the Lord Hall demolition (\$12M). The total potential reduction in deferred maintenance for all projects listed in the 2007-2012 capital plan is \$130.2M, as shown on the chart below:

BLDG NAME	Potential reduction in Deferred Maintenance in 2005 dollars
LIBRARY	876,270
UNION	44,731,000
MEANS	25,747,000
BROWN HALL	14,307,000
HUGHES HALL	12,251,000
GRAVES HALL	727,200
MEILING HALL	1,666,779
KOFFOLT LABORATORIES	4,874,871
CUNZ HALL	1,411,975
LORD HALL	11,948,000
DOAN HALL ¹	3,684,280
RHODES ¹	9,705,372
TOTAL	\$131,930,747

¹ The level of renovation for Doan and Rhodes Halls will be determined as the design of the Medical Center Master Plan evolves. The figures in this chart assume a total building renovation for a less intense use.

Based on the continued aging of facilities, the total Deferred Maintenance backlog for the University will grow from a current total of almost \$600M to a total of \$1.24B in 2012. This represents an increase of \$611M.

A Master Plan for the University's infrastructure condition and future needs has been completed. The plan identified \$100M of deferred maintenance in aged infrastructure and a projected 2007-2012 need of \$200M. Deferred maintenance and renewal for infrastructure will be tracked separately from deferred maintenance for buildings. A funding source for the infrastructure requirements will be critical to ensuring the ongoing integrity and operation of OSU facilities.

A more detailed analysis of the infrastructure master plan findings, timing, and implications will be presented at the November Board meeting.

Impact on Debt Capacity

In order to preserve debt capacity for the highest priorities of the Academic Plan, the Board approved, in September 2005, our recommendation for a limit of no more than \$400M for the calendar year 2005 bond issue and \$450M for calendar year 2006.

We are pleased to report that the 2005 bond issue was only \$360M, allowing \$40M to be carried over as uncommitted capacity. We recommend this uncommitted capacity be used as follows:

- Ohio Union \$10M
- Student Academic Services Bldg. \$10M
- Medical Center \$10M
- Uncommitted Reserve \$10M

We now recommend a preliminary target of no more than \$500M be established for the calendar year 2009 bond issue, of which \$250M should be allocated to the Medical Center. More specific recommendations for this bond issue will be developed as part of the FY 2009 – FY 2014 capital plan, which will be presented to the Board of Trustees next summer.

Emerging Issues

- Infrastructure

The Infrastructure Master Plan has been completed and the following infrastructure was evaluated:

- Storm and sanitary sewers
- Domestic cold water
- Utility tunnels
- Chilled Water
- Steam and condensate return
- Heating hot water
- Natural gas
- Electric power
- Roadways

The plan identified immediate infrastructure deferred maintenance and renewal needs for 2007-2012 of over \$100M. An additional \$35M has been identified for infrastructure needs related to increased capacity needs due to University growth/demand, and \$65M+ for infrastructure needs related to the Medical Center Facilities Master Plan. Total need through 2012 is estimated at \$200M.

- 315 Corridor

The City of Columbus is presently engaged in development of a Research and Technology Master Plan in partnership with a number of institutions including Ohio State. The plan provides recommendations for two “nodes” that impact the Ohio State campus, Lane Avenue/Kenny Road and Kinnear Road.

- Operating Costs for Research Facilities

Operating costs for new research facilities (e.g., Biomedical Research Tower), as well as other specialized facilities (e.g., Larkins, Ohio Union) can be significantly higher than other buildings on campus. The University is evaluating options for covering these costs. One option currently being evaluated is a tiered POM structure based on building type. This is at a conceptual stage and will be presented to the Senate Fiscal Committee this Fall for review and consideration.

- Future State Support

- The University anticipates future biennial state capital funding to remain at current levels or possibly reduced slightly (approximately \$60M for the Columbus Campus and \$10M for the Regional Campuses, including ATI and OARDC for major capital projects; and \$17M for the Columbus Campus and \$3M for the Regional Campuses, including ATI and OARDC, for basic renovation projects).
- Recognizing the growing problem of block obsolescence and the trend of reduced or flat state capital funding, the Ohio Board of Regents has requested development of a statewide capital master plan for all public colleges and universities. The goal of the master plan is to address existing and future capital needs on Ohio’s public campuses. The Regents approved a supplemental capital request of \$10M to support development of this plan. The request is pending Office of Budget and Management and Legislative approval.
- In conjunction with the \$10M request, the Board has requested an additional \$140M in supplemental capital funds to address deferred maintenance at public colleges and universities. If these supplemental funds are approved, they will become available with the passage of the 2007-2008 Capital Bill, anticipated in late 2007.

- North Academic Core Urban Design/Siting Study

This study was undertaken to consider the capital plan priorities over the next three biennia in the context of optimizing the learning and research environments of the

colleges and programs in the North Academic Core. This is an area bounded by 17th Avenue to the South, High Street to the East, Woodruff to the North, and Tuttle Park to the West. Colleges have varied fund-raising capabilities. Achieving the capital plan priorities for an area such as the North Academic Core might ultimately be limited by the fund-raising capabilities of a college. This plan was undertaken to envision a long-term plan for the entire North Academic Core so that the fund-raising capabilities of the affected colleges might be leveraged to benefit all of the colleges over time but in a sequence that is aligned with our capital plan priorities. Should such a plan be adopted, the alumni and stakeholders of all of the colleges in the North Academic Core would be contributors to an institution-level capital plan. After consultation with the Secretary of the Board of Trustees and the Council of Deans, a method of introducing this concept to this Board of Trustees, to the Board of the Development Foundation, and to the Board of the Alumni Foundation will be developed so this approach might be considered for adoption as a strategy for the next university campaign.

Conclusions

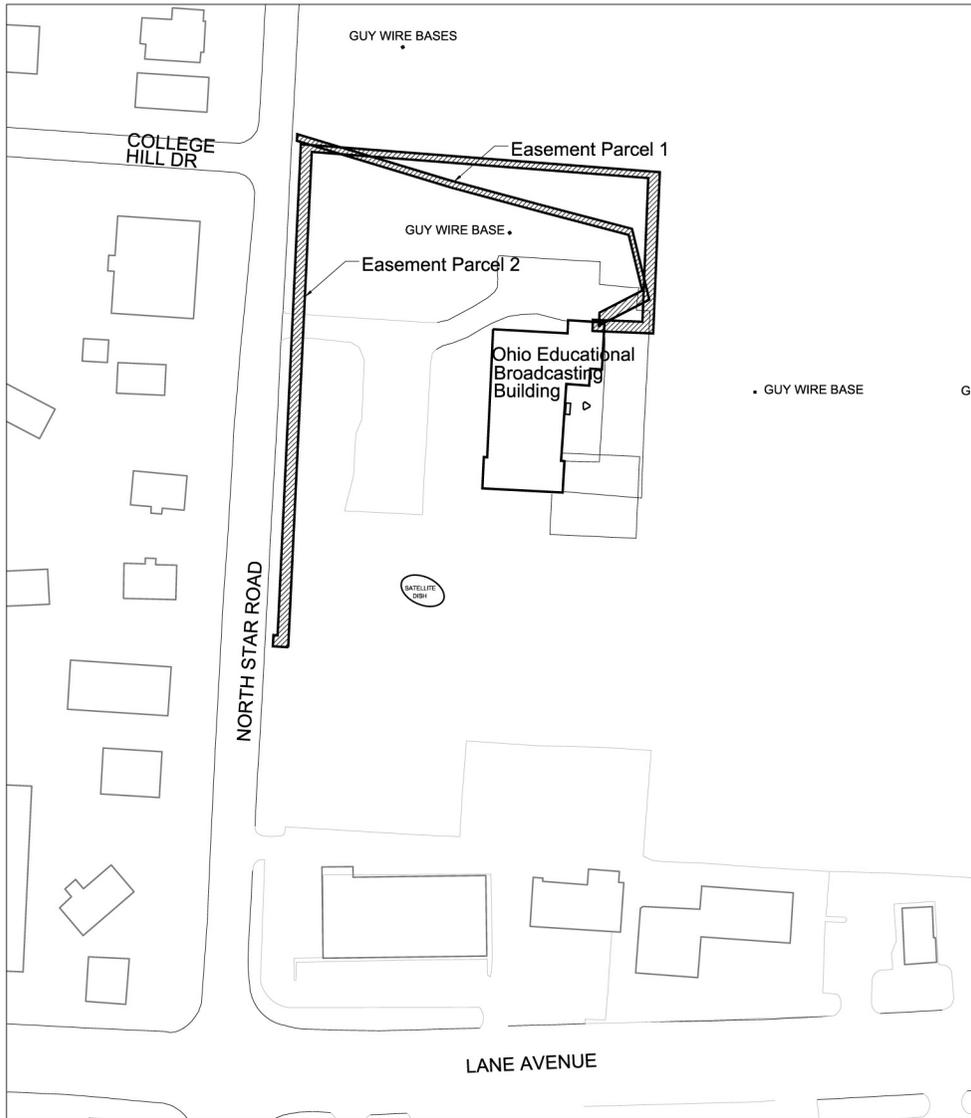

We feel we have made good progress in moving towards the capital goals established last September. The only action that requires Board approval at this point is to set the preliminary ceiling for the 2009 bond issue at \$500M.

We will provide an additional update on the State Capital Appropriation when it is approved and our preliminary recommendations for the FY 2009 – FY 2014 Capital Plan in July 2007.

If you would like any additional information, please let us know.

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND TWENTY-SIXTH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, December 8, 2006

The Board of Trustees met at its regular monthly meeting on Friday, December 8, 2006, at The Ohio State University Faculty Club, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **

December 8, 2006 meeting, Board of Trustees

The Chairman, Judge Duncan, called the meeting of the Board of Trustees to order on December 8, 2006, at 8:00 a.m. He requested the Secretary to call the roll.

Present: Robert M. Duncan, Chairman, Karen L. Hendricks, Dimon R. McFerson, G. Gil Cloyd, Jo Ann Davidson, Douglas G. Borrer, Walden W. O'Dell, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Thekla R. Shackelford, Yoonhee P. Ha, and Christopher Alvarez-Breckenridge.

Judge Duncan:

I hereby move that the Board recess into Executive Session for the purpose of considering personnel matters regarding employment and for the purpose of consulting with legal counsel regarding pending or imminent litigation.

Upon motion of Judge Duncan, seconded by Mr. McFerson, the Board adopted the foregoing motion by unanimous roll call vote, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Davidson, Borrer, O'Dell, Hicks, Fisher, Schottenstein, Brass, and Shackelford.

--0--

Judge Duncan reconvened the meeting at 10:45 am.

Present: Robert M. Duncan, Chairman, Karen L. Hendricks, Dimon R. McFerson, G. Gil Cloyd, Jo Ann Davidson, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Thekla R. Shackelford, Yoonhee P. Ha, and Christopher Alvarez-Breckenridge.

DISCUSSION ON BOARD GOVERNANCE

Judge Duncan:

Welcome again. Professor Richard Chait, thank you for coming to Columbus. I understand you will be leading and facilitating a discussion on Board Governance.

Dr. Richard Chait: [PowerPoint presentation]

Thank you very much and good morning members of the Board of Trustees. As you know, I was invited to advise The Ohio State University on how to strengthen the quality of governance at the level of the Board of Trustees. In that process, a colleague and I had an opportunity to interview, one-on-one, each member of the Board without exception. Everyone was candid, constructive, and also remarkably self-aware and self-critical. What I would like to do first is just provide a backdrop or context of ways to think about good governance and then provide a summary of some of the impressions that we gathered from the conversations that we had with you.

In my view, the first proposition in governance is that trustees add and derive value from meaningful participation in consequential discussions and decisions. There is simply no substitute for meaningful work to focus on substance issues of strategic importance. The reason the state and the University has assembled a brain trust of trustees is not to handle no-brainer issues; it is to handle issues of significance. Good governance and trustee fulfillment are one in the same; the more value trustees add to the University, the more trustees are fulfilled by that service and the more

December 8, 2006 meeting, Board of Trustees

engaged. The most effective boards are those that harness the talents of the individuals on this Board, a collective effort that advances the mission of The Ohio State University.

Board engagement at the end of the day depends on three factors: the significance of the issues that the Board addresses, the opportunities for the Board to assert collective influence, and the probability that those efforts will produce results. Good governance is when the best thinking of management interacts with the best thinking of the Board to discern the challenges and problems in priorities that matter most for the long-term future of the University, and then to formulate an appropriate and responsive strategy in return.

There are four hallmarks of effective boards. The first is that the Board offers a strategic asset that provides comparative advantage and pursuit of mission. I am sure you think of the University's name, reputation, location, faculty, facilities, endowment, and finances all as assets. The Board has to be a strategic asset as well. We want a high rate of return on the involvement of trustees. Trustees are not mattress money. Trustees should provide a return to the University and a return on involvement. That return usually comes in some combination of five forms of capital. Not every Board member brings every form of capital, but across-the-board all of those forms of capital are presented. The five forms of capital are: 1) the intellectual capital that enables the organization to learn; 2) a reputational capital that enhances the University's status; 3) a political capital -- and I mean that in a non-partisan sense -- that enables the University to have power; 4) the social capital to smooth the dynamics of the work of the Board and the Board's work with the executive team and the University community; and 5) either directly or indirectly to help the University garner the financial capital that is necessary to provide the organizational resources.

The other two forms of hallmark characteristics are that the best boards model the values and behaviors the trustees want the university to exhibit. If this Board wants the University to be at the forefront of performance accountability, then the Board should be at the forefront of performance accountability. The same could be said about diligence, civility, diversity, technology, innovation, self-reflection, self-improvement, and selflessness. When these characteristics are manifested by the Board, the rest of the community takes signal. When these very characteristics are disregarded by the Board, the rest of the community sees unacceptable hypocrisy.

Finally, though the Board's principle and historical role has always been in a not-for-profit-sector, to be a diligent steward of tangible assets, and to provide expertise to the University. Ultimately, the most important role of the Board is to serve as a source of leadership -- not the leader.

Boards do this generally through seven best practices, which we will discuss at length on other occasions. The first best practice is focus. Boards and management must agree on what matters most, what are the main things that are most critical to the University's long-term future. Boards are responsible for intergenerational equity. To make sure that The Ohio State University offers students 10, 20, 30 years from now an education at least of comparable quality and cost as we do today. If boards think in the short-term only, that is not the ultimate work of a board. It is to identify the most important decisions that need to be made and have those decisions drive the board's agenda, rather than issues that might arise in a somewhat haphazard fashion.

December 8, 2006 meeting, Board of Trustees

The second best practice is to structure the Board, so that strategy drives structure rather than vice versa. Really effective boards organize around institutional priorities not around organizational charts. We adapt the structure of the Board to pursue the most important strategic priorities.

The third best practice is for boards to be engaged. They are engaged at their meetings because their meetings are thematic and strategic. They have the architecture that enables efficiencies to dispatch with relatively unimportant but necessary issues quickly -- expedite the routine -- and trade up the value-added chain. They should not become immersed in management information, but focus intensely on governance information.

The fourth best practice is that the better boards learn. They tap the expertise of trustees. Trustees have expertise on strategy, change, reputation, and finances in many different realms. We close the trustees' knowledge gaps and we learn and leverage from the lessons we have learned.

The fifth best practice is that boards deliberate. They are interactive, they optimize participation, they have collegial discussions where disagreements can occur agreeably. They invite and insist upon a plurality of perspectives, and they are apt to be as much engaged in sense making as they are in decision making. The sign of a good board is not the number of resolutions passed per minute.

The sixth best practice is that the board coheres. The board works together as a team. If there is ever a university that should have some familiarity with the success of teams, I would think it would be The Ohio State University or I could say the same for where I work. You create, express, and enforce strong group norms, you systematically develop and cultivate leadership within the board, you promote transparency, and you establish and empower a governance committee to promote the health and welfare of the board as a group.

The seventh best practice is that you account. That is you have statements of mutual expectations -- what you ask and expect of each other. It's a systematic review of the board's performance -- whether that is fast feedback at the conclusion of each meeting, a periodic self-study, an annual governance by objectives review, or a so-called 360-review of all board members or even an external audit -- you focus on what is strategically and legally indispensable work.

That is the backdrop, the gold standard, and target for which ambitious boards should aim.

I am now going to share with you just some of the major conclusions that I derived from the conversations that we had with you. I just want to underscore, again, that these are conclusions drawn from the conversations that we had and that is the primary source.

This is a Board in transition. It is in transition in terms of size, it has basically doubled in size. It is also a Board in transition in a sense that you are on the cusp of a change in executive leadership. It is your view that the time is ripe for those very reasons to focus on Board development.

This is an opportune moment in your judgment to aspire to do still better as a Board. It is also your judgment that you under-perform. Relative to the talents of this Board and the importance and the enormity of the tasks, this Board could still do better. You have a winning record, but not a championship team at the moment.

December 8, 2006 meeting, Board of Trustees

Trustees are unquestionably dedicated, loyal, and committed individuals. In your judgment this dedication is not born in self-interest, but actually in disinterestedness -- that is the welfare of the University, not the welfare of the individual. Not surprisingly, because you have doubled in size, we have not yet developed a cohesive team. We have dedicated individuals, but not yet as orchestral as we might like.

There is an overwhelming, near unanimous view that we can intensify the strategic focus of the Board. That we can trade up the value-added chain of issues and spend more time on issues of truly monumental import and less time on otherwise seductive, but, ultimately, less important issues. The Board currently lacks a systematic self-evaluation, though we have made a start already to remedy that problem. Finally, there is a general agreement that the selection, the term, and the role of the chair needs review. These are your observations and conclusions. Lets unpack them just a little bit.

These are questions we asked you so they should be familiar to you. How do you know how well the Board is doing? The modal answer is, "We don't know." "There is not really a good set of measures other than the Board's broad University strategy," one trustee commented. Another said, "In terms of Board governance we have no measures." A third said, "It is hard to measure because we do not have specific goals." And a fourth said, "My sense is we don't know how well we are doing."

Five others said the way to judge the Board's performance is through the quality of decisions that you make and whether we reach consensus -- "The only way is if the Board can reach consensus." Still others had different views all together -- the Columbus rumor mill, a general feeling or ambience, and one even pays close attention to body language. So you all may want to sit erect and focused at the moment because at least one person is watching.

How well do you know how you are doing as a trustee rather than asking about individuals? Eight of you said, "Do I make a difference?" "Do I have an impact?" "Is it my own level of activism and influence?" "It is my contribution to the progress of the Board." "Am I self aware?" "Do I commit the time with a seriousness of purpose?" Seven do not know.

There were people who said, "There is a lot of innuendo and talk behind backs, but I don't know." "I suppose it is through osmosis, it is through side comments, I have never really thought about it." "It is difficult to tell." Another person said, "I have been on boards where we evaluate ourselves on a 360-type of evaluation, which helps individuals grow and it would help this Board collectively." Finally, one of you commented, "We don't have a thorough evaluation system where any feedback mechanism is in place where we could listen and learn. We have no guidance or scorecard like other boards I am on." So there is a bit of mystery about how well we do collectively and how well we do individually.

When is the Board particularly effective? I would invite you to let your eye glance down the first three lines: dedicated, loyal, passionate, well-meaning, and smart. What you will notice about these first twelve responses is that they are individual characteristics and traits and the question was "How do you know if the Board is effective?" The answer was organized around "traits" rather than activities, or discharge of roles or responsibilities, or quality of decisions. In other words, we are effective because we have good players not necessarily because we win games.

Absent from the list: quality of ideas, source of expertise, source of pertinent and even inconvenient questions, and the ability to assure accountability. It

December 8, 2006 meeting, Board of Trustees

is mostly about traits. Although one person said, "We are effective when we stop rubber stamping, when we put the brakes on stuff, when we dig and push to get at the financial issues."

How was the Board particularly ineffective? Notice that none of this is about individual traits. I shouldn't say none, but very little of it is. The big problem appears to be -- and it is to be expected for a board that has just doubled in size -- that we do not yet have the collegiality, cohesion, and trust. Quoting several of you, "there is zero cohesion among this new Board." "Lack of collegiality is the missing element, the quality of consensus is lacking, and so is the lack of focus." "We lack a sense of priorities about where to spend our time and what fits with strategy and why." "We have no screening mechanisms to decide what is important in a complicated organization, we are not focused on the right things, and we are too operational." Many colleagues agreed with that issue or that observation. "We are poor at asking questions, we are ineffective at setting priorities, we deal with squeaky wheels and problems that take us off focus, we are not strategic or goal-minded...it is almost strategy du jour." So when it comes to ineffectiveness, it is not yet a team that has a collective eye fastened on the center of the bull's-eye that has been collectively constructed.

What is the most important question to address with the new president? The reason we posed that question to you was to see if we could help you discover where the center of that bull's-eye is. Eight of the people with whom we spoke offered basically the same answer: "How do we and the president, and senior administration work together to prioritize critical issues?" "What is the decision agenda, what are the main things, where are we headed, and what are our top priorities?" When we asked what is the key question, your comments included: "What are the top five priorities?" "What are the key trade-offs?" "Do we share the same priorities?" "Where are we going in the next twenty-five years?"

You can imagine if any one of those questions -- whether it was a one or twenty-five year horizon -- were the animating question that drove your Board meetings, how differently constructed they would have to be. Four of you said the most important question to address with the new president revolves around funding. "How do we assure we have the funding that would enable The Ohio State University to become one of the top ten public universities?" "How do we get all the money we need to do all that we want to do?" Other nominees were performance metrics of the Capital Campaign and the Medical Center. These are the questions you might want to address with the new president. Then the issue arises how would you know whether you have succeeded or, more importantly, how would you know the new president has succeeded?

We took a four-year time frame and said by this time in 2011 what would be the most compelling evidence that the new president had succeeded. Eight of you cited, "financial measures" particularly "financial strength," "diversity of resources and revenues," and "a substantially increased endowment." You were not modest -- the range of the Capital Campaign went from \$2 - \$3 billion.

Progress on various rankings -- and you each had different nominees for those rankings, but essentially it can all be distilled, I believe -- to be recognized unquestionably and unassailably, as "one of the top ten public universities in the country," "one of the top ten public universities in research funding," and "one of the top five public universities in endowment." So in a sense, if you were going to talk with presidential candidates and say, "here are our aspirations from which a to do list could be derived or a set of

December 8, 2006 meeting, Board of Trustees

decisions can be extrapolated.” This is what you are asking the new president to help you achieve.

If you could change one thing that would make you more effective, what would it be? A significant plurality suggested that it is the focus on critical strategic issues and the good news is that is easily within your power to do. That doesn't require additional appropriations, legislative authorization or any other contingencies. That is an action that you can take single handedly.

Some quotes: “We need clarity and discipline on our agenda, my impression is that things get thrown out by individual Board members who see something that is bothering them, they bring it forward and it leads to a very inefficient Board discussion.” Another said, “We should insist on a monthly retreat until we know the top five priorities of the University and we stay focused on them.” That is the threat of having to be together on a monthly basis off-site, I suspect that is probably too steep of a price for anyone to pay; that is not a comment on this particular Board. Another person said, “The biggest problem is that we don't have much say about what comes before the Board, we need to help shape the agenda, and we need better ability to plan and set direction. Then we need to make sure, given the nature of the issue, that we leave time for dialogue and for discussion.” “We need a better atmosphere for better discussion,” commented one trustee. Another said, “Too much time in show and tell.” A third said, “We don't have enough healthy in-depth debate of the issues.” This is also a step you can take through relatively simple changes in the architecture of your Board meetings.

What changes should we make in respect to the Board chair? Twelve of the eighteen trustees favor that the chair serve for more than one year; seven of you explicitly proposed that the person be elected. In terms of serving more than one year people commented, “We need continuity.” Another said, “A one-year term weakens the chair and strengthens the chief executive in ways that are not healthy.” A third said, “What we are doing is a disaster, yearly rotation with no discussion.” With respect to the process, people asked for a “democratic process” where we “come together to select someone ... that we have a systematic succession plan so that we not find ourselves in a position each year where we ask how do we get this done. Perhaps we establish an executive committee both to manage the work of the Board and to provide a counter weight to the chair or a focal for the chair and the president.”

There were four people who were quite clear that a one-year term would be beneficial. In fact, two offered these comments: “despite some obvious defects, I would preserve the one-year term.” Another person said, “No one should serve two or three terms, it leads to dominating the Board.”

Looking at your sister institutions -- above the black line is your one absolute twin -- the University of Michigan. It is a system where people serve for one year and they cannot be reelected. Below the line are all the other public Big Ten's which allow the possibility for service beyond one year: at Wisconsin it is a one-year term, normally for two years; at Penn State a one-year term, typically for three years; at Illinois it is a one-year term with no limit -- and the current chair is in the sixth year; two years with no reelection possible at Michigan State and Indiana; and a two-year term with reelection possible at Purdue, Iowa, and Minnesota -- the last two are normally a one two-year term. You might note, for better or worse, the present chair of Purdue University has been in that office for ten years.

December 8, 2006 meeting, Board of Trustees

I would like to close with some next steps. It seems to me that in the very short-term you need to think about review and as you define as appropriate, either revise or reaffirm how you select the chair, the term of the chair, and the role. I think that needs to be done sooner than later, both because it is an issue that has festered within the Board, and it is an issue that will be salient as you go forward with the presidential search.

Over the course of the first quarter of 2007, I would hope, through Board workshops, retreats, meetings, and task forces, we could accomplish what is below the second line. We need to achieve consensus on what are the main things, what issues will drive your agenda, and what decisions will be most important. Have an annual decision agenda and work plan, and allocate time in advance to preempt parts of your Board meetings to ensure that those issues are addressed first and everything else accommodated to those preemptively important issues -- those issues of paramount significance. To create a dashboard of performance metrics or critical performance indicators that will assure you that all is well, the vital life signs of the institution are healthy, and if not they should be investigated. If they are healthy, there is no need to delve into operational areas, whether that is budget, finance, admissions, research or any other part of the University as long as we have data to indicate that the University operates within established parameters.

In light of the transition of executive leadership, it would be useful to establish the criteria and process for a CEO evaluation that would be inclusive of all Board members and that would allow Board members to participate in the development of the criteria, the sources of evidence, and have some feedback on the tenor of the conclusions. It is useful to cohere to develop a team to have a statement of mutual expectations and many boards do. This is what we ask of each other, this is what we expect of one another, and this is the code of conduct by which we will live -- with respect to issues of confidentiality, communication, interactions with management, and interactions with the public at large -- and a general agreement on how we will behave.

We might consider the development and enactment of some type of Board assessment and there are numerous ways to do this. It can be done meeting to meeting, it can be done through self-evaluation, and it can be done by setting annual goals for the Board and measuring how well we do that. Certainly some consideration should be given to altering the meeting format to increase dialog within the Board, to allow more opportunity for discussion and less time for one-way communication. Finally, to reexamine the committee structure of the Board and see if it is an impediment to do the work that is necessary or, in fact, facilitates that.

This is a snapshot of one moment in time; a snapshot that was basically taken in October and November of 2006. The movie should look even better than the snapshot, because it is quite clear that this Board has the determination, the will, and the desire to be still more effective and a better partner to the president and the University. The dedication and loyalty is unmistakably clear to an outsider and now it is a question, Mr. Chairman, of how we proceed to reach those admirable and lofty objectives. Thank you.

Judge Duncan:

Thank you very much. Does anyone have any discussion on the items that Dr. Chait has related to us?

December 8, 2006 meeting, Board of Trustees

Ms. Hendricks:

This last group of first quarter retreat items ... if any one of us had "a to do list" all the work that had to be done ... what we might go and do. A question that I would have is in terms of process, how to go about them? There are so many things, that my sense would be that if we all got into a room it would be a disaster. We would start down the list and there would be so many different views. Is this something you would tackle one at a time or divide up the groups to bring in a work product to have something to start with? Have you done this before and how do you do this? It is overwhelming. I think we would all agree that these are all things that need to be done.

Dr. Chait:

I can appreciate that. It surely seems to be overwhelming. You should be reassured to know that many boards have been able to tackle an agenda of that comparability within a three- to six-month period of time. It has both elements that you suggested. It has an element of collective discussion, where we gain the points of view that people have and an overall sense of priorities and values, and then have workgroups that develop work products. A lot of that can be accomplished off-site in small workgroups, some of that work can be done in advance of an off-site, and some of it can be done afterward. You do not start from scratch. There are templates of dashboards, there are templates of statements of mutual expectations, and there are templates of decision agendas. I don't want to say that it is plug-and-play; there are frameworks that are already available, so you don't have to invent the software.

Mr. McFerson:

Let me follow-up on that. So we continue dialoging however long this actually takes each month to get there?

Dr. Chait:

Yes. I am going to give you an answer that is probably very predictable from a faculty member in real life. One never really gets there, because there are always opportunities to do better. If you are asked, "How long does the booster rocket stage last?" Usually you can see discernable differences within three to six months, because, as I suggested to Ms. Hendricks, there is a lot of low hanging fruit. There are ways to create efficiencies in board meetings and free time for dialogue that do not take a rocket scientist, they just take a governance scientist and that is a much lower-level of intellectual order. You can see marked differences in a two- to three-year period of time. In other words, the difference I would say, Mr. McFerson, is that initially you can see change in the way in which we do business. Shortly after that, you can see the qualitative benefits of that and three years out no one can imagine that we ever did business the way we once did.

Mr. McFerson:

With regard to getting some of this out of the way or accomplished, do you organize some task forces of the Board? Do you have three or four Board members go off and come back with recommendations for the full Board to consider and deliberate, as opposed to having the entire Board do all of this together?

December 8, 2006 meeting, Board of Trustees

Dr. Chait:

As I said before, there is a mix and optimal circumstances. In my view, certain ground work can be done in terms of the production of templates by people not on the Board, but people who are outsiders -- consultants. Then, ideally, the Board would meet in some off-site or retreat from 24-36 hours where -- both in work groups and plenary session -- a lot of the ground work that has been done can be processed. Also some of the issues that are not appropriate for an outsider to determine -- for example, substance and content of a decision agenda or the issues that matter most -- can be done through a combination of plenary activity and break out, but over a sustained and contained period of time.

Whether you call it an advance, a retreat, or an off-site, every member of the Board commits to be there from start to finish. You can accomplish a great deal over a 36-48-hour time frame. If you think about how much time you actually spend together as a Board over the course of a year, to spend two full days together is in the neighborhood of 25-30% of the total amount of time that you are together during the course of the year.

Mr. McFerson:

That makes a lot of sense to me. With some work done by consultants and outsiders rather quickly and then with a retreat or this 36- to 48-hour meeting, we could get well down this road in a few months as I understand you.

Dr. Chait:

Yes. Advance work, sweat equity, and follow-through. Again, I am sure there will be, and should be, different points of view expressed. The collective appetite of this Board is so palpable and discernable, and you have an extraordinary impetus to do this because you are about to launch a search for a president. The more earnest the Board's efforts, the better and deeper the quality of the pool will be.

Judge Duncan:

Do we have a consensus that there should be such a meeting in the first quarter of calendar 2007? Does anyone disagree with that? We will go about the challenge of getting schedules to accommodate such a meeting.

Dr. Chait:

You are welcome to meet in Boston in February.

Judge Duncan:

Not in February! Why don't we ask the committee that has been appointed to liaison with you, to do the preliminary work or make the preliminary assignments in order to prepare for the meeting, which we hope to schedule? Is that fair with everyone?

Ms. Shackelford:

As you do your work, it is very easy to go from the least controversial issues to the most controversial, rather than the reverse order. How do you approach that? If you are coming in to work with us, would you go to what you think is the highest priority, but could be the most difficult issue?

December 8, 2006 meeting, Board of Trustees

Dr. Chait:

In terms of the Board's work?

Ms. Shackelford:

Pulling them together to work together.

Dr. Chait:

It is kind of you to ask. I do have a philosophical posture. It is not an immovable posture, but, I believe, nothing succeeds like success. First, we go after the low hanging fruit. It does not take a lot of work to develop and utilize a consent agenda, to develop a statement of mutual expectation that we all agree to, and to develop a dashboard for performance. If you thought about the other end of the spectrum, to change the entire committee structure of a board is a significant proposition and could lead to disagreement and there are issues in the middle. I think what we first want to do is get traction and let's have some small victories. Teams often gel best when they have some sense of momentum and we see that the changes are beneficial. I would tend to start where we can make the most progress the most quickly.

Dr. Cloyd:

Dr. Chait, in working with a number of public university boards, you started with the ideal and you provided our self-assessment and developed a list of actions. Did we miss anything important in the recommended actions and next steps? Are we missing anything that would be important to getting to that ideal state?

Dr. Chait:

No, because the list was generated by this group. I think not. I think you identified the most powerful levers to change the Board's behavior and improve its conduct. There may be a few issues that some of you did not raise -- and maybe because it is not problematic -- that have to do with the nature, the volume, and the content of the information on which you act. That is something that would really take examination. A scan of my eye suggests that, like many boards, you have these hernia-inducing notebooks that are very thick, and more and more boards are realizing that they don't need information, they need the meaning that is derived from information. That was one issue that was not mentioned. I am not in the position to say that it is not an issue, because it isn't a problem or, in fact, it was an oversight.

Judge Duncan:

Dr. Chait, one of the other challenges that this Board has is the oversight in governance of an extremely large medical center with five hospitals. I wonder if there is any different approach or other approach that we need to do in order to review our relationships and responsibilities regarding that. I am sure this isn't a problem exclusive to Ohio State.

Dr. Chait:

It is not exclusive to Ohio State. The two boards with which I have worked most intensely, and recently, both have medical schools. It takes a combination of attributes or elements. One is that there is a group on the board that invests as much time in the oversight of the medical center as the

December 8, 2006 meeting, Board of Trustees

rest of the board does to the rest of the university. That is not a surprise, because, in a sense, if you look at revenue streams, it is all 50-50.

Second, some boards do have more medical expertise on the board. There are boards that have three or four people on the board whom themselves are physicians, executives in pharmaceuticals, or executives in the hospital and health care arena. That is different than institutions that do not. There is an understandable and proper overweighting of people with that expertise.

The third is that it requires some systematic effort to make sure that if there are egregious-knowledge gaps on the board -- that there are members of the board that simply don't understand the business model of academic medicine -- that those people be provided with the opportunity to close that gap. I guess I would say in the same way that someone's prior walk of life never led them to financial literacy, they need to have that opportunity in order to be a fully effective board member. There has to be some basic level of medical literacy. I don't mean that as a physician, I mean understanding the economics and dynamics of academic health centers.

Judge Duncan:

I understand from the rest of our Board members that that subject will be a part of our discussion at our conference, which is yet to be scheduled and, hopefully, we will get to that.

I think the other part of your presentation had to do with the selection of leadership. Right now our officers are: chair, vice chair, secretary, and treasurer. You have put up a number of examples. I wonder if the Board has any thoughts to a process we could go through that would lead us to finding a way by which we could come to some conclusions about the matter of the leadership. I would entertain any thoughts that members of this Board would have about that.

Ms. Hendricks:

You talk specifically about the chair. In talking with several other universities, my sense was that we should take a look at the whole leadership structure. I don't know how the rest of the Big Ten is, I only talked to Penn State and they use the vice chair as the next in line, so that if anything happens to the chair they have continuity.

Then the question is an executive committee -- who is on it? In many cases, it is the past chair, the chair, and the vice chair. As our Board gets larger, it seems to me that we need to look at those three things together -- chair, vice chair, and a governance or executive committee, and who those players are. I think they go together as the leadership and that should be thought through as we do this rather than, "let's just pick a chair." Without that structure under it, it is almost assumptive then the chair goes in and makes all the decisions. I think that goes together. That would be my thought, as we talk about the topic of leadership.

Dr. Chait:

It goes back to a part embedded in Ms. Shackelford's question. It is difficult to feel yourself a team, if you have no idea how the leaders of the team are chosen or no systematic approach that is not dependent upon individuals, personalities, and moments in time. I don't mean to analogize glibly, but if we all thought the President of the United States was selected by someone,

December 8, 2006 meeting, Board of Trustees

but, we are not sure, every now and then it would be a chaotic set of circumstances.

Having some institutional succession plan, whatever the particulars, is probably the most important. Some succession plans naturally lead into the suggestion you made that there be an heir apparent, that there be a presumptive assumption that the person who is vice chair will be chair, and the person who is chair will be past chair. Often those three people, do make up part of an executive committee.

Executive committees are more common as boards grow larger and they have both pluses and minuses. Executive committees can become either intentionally or accidentally inner circles that are impenetrable by the rest of the board and can become preemptory. The very best executive committees actually enable and manage the work of the board, and guide the work of the board in ways that are very useful.

I carry no brief to determine exactly what you should do. The only comment that I would make -- and that is with an ear-to-ear smile -- is I couldn't help but notice that on that chart you were alone with the University of Michigan. That, in of itself, would probably be enough to frighten you into something else. You probably don't like being alone just with the Wolverines.

Mr. Brass:

Dick, actually I proposed this and it is related to a lot of things you had up there about effective boards. I know you said looking at committee structures is something that you would put off, but, in your experience, is it common practice these days to have a committee on trusteeship? It seems to me that a lot of those items fall into that category of the work of such a committee.

Dr. Chait:

That it is. Absolutely. It is not only more and more commonplace in a not-for-profit sector; now it is almost de rigueur in the private sector. Publicly-traded boards almost invariably have some governance committee.

If we are going to be a team, there has to be a committee whose charge is to cultivate the welfare of the group and make sure the group functions well. It also gives the committee the opportunity to maximize the contribution of the individual. In those rare instances where individuals under-perform -- or worse, are dysfunctional or counter-productive -- the governance committee is the group that is best situated to recon with that. It should never fall to the executive. It is difficult to assign that to just the chair of the board, because then it becomes a one-to-one conversation rather than a committee in a conversation with an individual to determine how that individual can be a more constructive member of the team.

Mr. Borrer:

Professor Chait, this is my fifth year on the Board, and one of the problems I've seen is the one-year chair and the ability of the one-year chair to, in effect, set their own agenda and work individually. It hasn't been particularly effective as we have seen. A fear is that if we go to a longer term or a term that allows even greater tenure and centralized even more power with a more disconnected Board, that we have just done the same thing but we have given it more legs. How do we prevent that from happening, so that we can have the inclusivity while we have better direction?

December 8, 2006 meeting, Board of Trustees

Dr. Chait:

That is a wonderful question. We go back to one of the earlier comments I made. One of the most important and consequential decisions boards make are what questions we should ask and what problems should we pursue. In my judgment, the best boards are boards that suggest problems for management to ponder, rather than just ponder solutions to problems to management to service. If the Board does that collectively, in the best sense, it mitigates the power of a chair. Because the collective board with the executive say, "These are the five most important issues that we as a group plan to address and that is not subject to preemption by an individual." The use of an executive committee is another way to soften the potential effect.

I suspect when you choose a new chief executive that that individual will not be without opinion about what issues should come before the Board or take precedence. It is not the work or role of a chair -- and I say that disrespectful of who emerges -- to determine what is most important for a board to do. The role of the chair is to make sure that the board does the work that the board determines to be most important.

If the chair does act in a preemptive way, then I would resort to "shame on you." You simply should not let that happen. It is not about one person's agenda for this University. From the vantage point of a president, what you are looking for is consensus within the Board that these are the issues we want to devote time and attention to, and arguably the most authoritative and important minds in the University community to wrap around these issues. In the corporate sector could you imagine if you had not just a new chair each year, but each year the new chair changed the rules and said, "I know last year was market share, but this year it is going to be a return on equity," and then the next chair says, "You know corporate social responsibility is to be at the top of the agenda." That is a tough way to dance.

Judge Duncan:

It seems to me this whole notion of the selection of the officers is a delicate matter, which reasonable persons can come to differing conclusions.

Dr. Chait:

Absolutely, you saw a myriad of models. The University of Michigan and Ohio State have one model, and they are both excellent universities. Other institutions have chosen a different model.

Judge Duncan:

I must candidly state my view -- which is one man's view -- that we should have an elected chair and that chair should serve multi-years. I know that may not be the opinion that carries the day, but it does seem to me that it is important to the search that we resolve this issue in the short-term. What I would suggest is that we present this matter to the Chait Liaison Committee. I will meet with them and they will be charged with the responsibility of bringing back a recommendation at the next meeting regarding a process and substance of how we resolve the issue of leadership and when. Board members can react to that. If that works, we can do that; if not, let's hear some other ideas?

December 8, 2006 meeting, Board of Trustees

Mr. Brass:

Judge, I would concur fully with you. When you think through the process over the next 120-days that we have to go through -- the partnership of the new CEO, whoever he or she may be, and that particular chairperson, whoever he or she may be -- it is going to be critical to the success over the next two or three years as we drive to new strategic developments. Dr. Chait, the question that I would have for you -- in light of that partnership and your earlier comments of let's "pick-off some of the low hanging fruit" on the recommendations -- is what would be those three or four items that we should stay exceptionally focused on over the next 120-days?

Dr. Chait:

There is one bucket of activity that is so easy to execute and those would be dashboards and consent agendas, and statements of mutual expectations.

Second, given the transitional moment in executive leadership, it is important that this issue about the chair be resolved. It will have a significant effect on the relative attractiveness of the position. I am sure you can appreciate when people come forward as candidates for the presidency of a large complex university, what they are trying to do in some fashion is minimize as many variables as possible. Who will be the chair, for how long, and who will be my first professional relationship is terribly important.

Third, it would be useful if we could manage an off-site meeting for the Board to have an approximation of the decision drivers, strategic issues, or strategic priorities that come to the top of the list. They may not remain that way after you have conversations with candidates and, ultimately, with the finalist whom you select, but to be able to say in our best collective judgment these are the four or five issues that are most likely to occupy the lion's share of this Board's time because they are the most significant issues. This also gives candidates some assurance that a single member of the Board will not be in a strong position to make a case that number six should be number one.

Finally, I would suggest that the Board demonstrate the willingness to be self-reflective. This is best demonstrated through an agreement on some process going forward that ensures systematic evaluation of the Board's performance and feedback, to and from the president, about that working relationship.

Mr. Fisher:

You have four critical line item focus points that you would recommend to us as a Board that we stay focused on for the next 120 days. Do you believe that all four of those are doable and deliverable within those 120-days?

Dr. Chait:

They are if this Board matches its rhetoric of urgency with action. It is not, if the Board disappears.

Mr. Shumate:

First of all, I would like to commend you on your report and thank you for your excellent presentation. As I think about developing into a very effective, high-performance Board, it is one thing to talk about structure and procedures as practices. Can you comment, based on your experience, about how a board develops a culture that leads to the success and high performance that we all want to achieve?

December 8, 2006 meeting, Board of Trustees

Dr. Chait:

Mr. Shumate, it actually turns out -- and I say this both on the basis of experience and research, not only research that I have conducted but research that was just done in a very sophisticated way in large hospitals and health care systems -- that the most powerful, predictive variable of organizational success related to a board is the quality of the board's culture, not the nature of the board's architecture. It comes from: 1) an explicit recognition of what you just said; 2) a willingness to experiment and not think that all actions are for all times; and 3) a heightened consciousness on everyone's part to support that culture.

It means that you would be saying to your colleagues -- whether you are chairing a committee or chairing the board or you are just a member of the committee or the board -- we have not heard from X, or does anyone have a different opinion on that issue? Dr. Cloyd earlier asked if this Board had a blind spot on this issue? Is there a better way to think about this question? Is this problem the right problem?

What happens is boards develop what I would call a "robotic culture," because they enter into conversations at points when the issues are on the table. By that point, sophisticated managers have already, and rightly so, determined that this is the best way to proceed. It is in the formulation of the issues and the problems to be addressed.

What I said earlier, what should management ponder so that you develop a culture of inquiry? That culture of inquiry comes from having less parochialism and trying to understand how other institutions and organizations have approached some of these problems. It is about looking backward, as well as forward and trying to learn lessons from the past. Be retrospective or forensic, not just futuristic in thinking what did we learn from that experience? What did we learn from the last strategic plan? What did we learn from the last executive tenure? What did we learn from the last budget cycle? How can we bring those lessons forward? It is being quite self-conscious about the culture of the board and being attentive to whether people participate. People participate through inquiry rather than insertion. The board should ensure that the collective mind and the collective voice of the board is what drives the culture, and not the power of a single person or personality.

Mr. Wexner:

If I had a unique product and that product was very successful, I could have a successful enterprise and a really bad board; or I might even have a very terrific board, a bad chief executive, and a very good product would carry this success. I'm of two minds. I think it is a tough question but a fair one. If we look at Michigan and they elect a chair every year, you are looking at a very different institution that has had different chief executives and the board is elected by public vote in the state. So my view is, in spite of the board, the university has probably been successful. That is my opinion. I know Michigan alums, I have known Michigan presidents, and I have known Michigan trustees, and they think they have the stupidest system in the world and it gets in their way. But you would say that they produce great results, in spite of it.

What I am trying to demonstrate is our situation -- that governors appoint our Board, we don't perpetuate ourselves -- the term is nine years. We are where we are reputationally with chief executives, in terms of product, and these other categories. It would be helpful to me, if you would say -- and I am not looking for an immediate answer -- "I think that the ones you should look at are Penn State" or "don't look at Penn State, they were successful in

December 8, 2006 meeting, Board of Trustees

spite of their system" or "you should really look at Cornell because they have 36 trustees, 18 are appointed and 18 are appointed by the board for skill sets."

I can't heal myself. This is your career and if you are constantly looking at this combination -- the institution, its CEO, and its board -- I could invent a wacky model. I think it would be helpful to me, because you spent time with us if you could say, "I think you should think about this or that." Maybe it is an "A or a B or maybe two A's and the B's look like this," just some fodder for us to play with. I think that would expedite my thinking.

Dr. Chait:

I think what we might consider is how to expand the inventory of options that are available that could grow in this culture, because there is a lot of tissue rejection in my experience of even terrific ideas that don't suite one culture or another culture. To export an entire model would be ill advised. To expose you to a number of elements that seem to work in certain environments and understand why, then you can see whether those practices can grow and be cultivated in the soil of The Ohio State University is the issue. It comes back to what Mr. Shumate said, the best boards are ones who have a distinctive culture and then they adapt their practices to that culture. At another time, I could explain what some of the variables are. But as you can imagine -- whether public or private, large or small, whether it is dominated by men or women, whether it is an affluent institution or not -- all of those issues matter immensely in determining what works in a particular organizational environment.

Mr. Wexner:

I just want to follow along. You have interviewed everyone here and spent time with this group, so you may not make a perfect tailor-made suit, but my hope is that you have some feeling for us and our institution.

Dr. Chait:

Absolutely.

Judge Duncan:

Very well, unless I hear something to the contrary, what we will do is ask the Chait Liaison Committee to consider and give us a status report and recommendation regarding the selection of officers at the next meeting. If anybody objects to this, now is the time to say so. On that Committee is Karen Hendricks, as chair, Wally O'Dell, Brian Hick, Les Wexner, John Ong, Teckie Shackelford, and Dimon McFerson.

Mr. Wexner:

One question on that, if work could be done sufficiently in time that would allow a two-day retreat before our February meeting, would you want to have any discussion of this at that retreat?

Judge Duncan:

It is a matter of scheduling and, sure, if we can do that, let's try it.

December 8, 2006 meeting, Board of Trustees

Dr. Chait:

Thank you, Mr. Chairman and members of the Board. I just want to reiterate that I would not be able to report this information to you had you not provided such valuable input to the conversation.

Judge Duncan:

Thank you for your candid discussion and thank you, Board members, for your participation on this very important topic.

--0--

Judge Duncan reconvened the meeting at 1:30 pm.

Present: Robert M. Duncan, Chairman, Karen L. Hendricks, Dimon R. McFerson, G. Gil Cloyd, Jo Ann Davidson, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Alan W. Brass, Thekla R. Shackelford, Yoonhee P. Ha, and Christopher Alvarez-Breckenridge.

--0--

PRESIDENT'S REPORT

President Karen A. Holbrook:

Let me start out by giving you some good news about the University. Seventeen of our faculty have been elected as fellows of the American Association for the Advancement of Science. This makes Ohio State among the four most universities having faculty recognized for their expertise in science, and also making Ohio State one of the largest contingents of AAAS fellows in the nation.

Dr. Evelyn Freeman, dean and director of the Mansfield campus, recently received the Distinguished Service Award from the National Council of Teachers of English, a group devoted to improving the teaching and learning of English and language arts at all levels of education. The award is given every year to someone who has performed valuable professional service, both within the Council and outside, including scholarly or academic distinction at any level, distinguished use of language, and excellence in teaching. Evie, congratulations.

Dr. Donna Berlin, professor of Mathematics, Science, and Technology Education, received the 2006 Mallinson Distinguished Service Award from the School Science and Mathematics Association, a professional organization for college and K-12 grade level teachers and educators around the world. This award recognizes Dr. Berlin's skills in developing teachers and teacher educators for leadership roles and for her pursuit of excellence in science and math teaching, learning and leadership.

The Student Family Community Center at Buckeye Village recently won a design award from the American Institute of Architects. This is a 28,000-square-foot facility that opened last January, to provide childcare to 100 children and a community center that serves 400 student residents and their families. The building was designed by Acock Associates Architects and managed by Ruth Miller, project manager from Facilities Design and Construction.

Finally, I am delighted to note that Yoonhee Ha, our Student Trustee, has received yet another honor. She has been selected as a 2007 Marshall

December 8, 2006 meeting, Board of Trustees

Scholar and is the first Ohio State student chosen for this prestigious scholarship since 1997. Yoonhee is also the only student to have ever received both the Marshall and the Truman Scholarships, which she received when she was a junior. In all, Yoonhee has received 26 merit scholarships, including the Walter Rudin Jr. Scholarship, presented by the Fisher College of Business, to the most outstanding junior.

Yoonhee is double majoring in microbiology and finance, with minors in Korean and political science. She intends to go to the University of London School of Hygiene and Tropical Medicine next fall to study public health.

Please join me in a round of applause for Yoonhee and for all of our faculty and award winners. I understand that Yoonhee would like to make some remarks and we would be delighted to hear from her.

Ms. Ha:

Thank you, President Holbrook. I think it is important for me to say that all I did was fill out the application and sit through the interviews. I had so many people that encouraged me -- everyone at the Collegium, all of my professors, and many of the administrators here today. They ran me through so many mock interviews, read over my application, and gave me lots of coaching advice and encouragement. I would have never made it through the process without them.

I think that it is also very important to say thank you to my parents who are here today. My parents are my biggest supporters and have been through every success and failure with me. They have always put their three children before anything else in their life, which they put on hold. Everyday that they see me and everyday that I talk to them on the phone, they tell me that they love me. They always help me to see the bigger picture and the important things in life. When I am up too late and I call them, they say "isn't it past your bedtime?" which happens a lot. I just want to say thank you so much to my parents. I love you and thank you very much.

President Holbrook:

Thank you, Yoonhee. We are very proud of you, not just for what you have accomplished, but for who you are as a person as well.

I want to remark about a wonderful experience I recently had. During International Education week, I was honored to be one of twelve presidents invited by the Secretary of Education Margaret Spellings, from the United States Department of Education, and her staff, as well as the Assistant Secretary for State of Educational Cultural Affairs Dina Powell, and her staff, to travel to Japan, Korea, and China, for the express purpose of promoting U.S. higher education overseas. Specifically, to invite more international students to study at our universities and to assure our colleagues in these three countries that we value the opportunities that they make available at their institutions to our students.

A group of presidents was selected from public/private research universities, private liberal arts colleges, and community colleges in order to represent the richness and the diversity of the educational opportunities that are available in our more than 4,000 universities in the United States. In Tokyo, Seoul, Kyoto, and Beijing, we met with ministers of education and other government officials, legislators, ambassadors, counsel generals, deputy chiefs of mission, American chambers of commerce, members who are business leaders in the community, university presidents, former Fulbright fellows, alumni of our institutions, students, and members of the press. We

December 8, 2006 meeting, Board of Trustees

met in official offices, hotels, ambassador residences, embassy education centers, and universities to provide formal presentations to take part in receptions, press conferences, roundtable discussions with leaders, and, at times, web chats.

Programs for administrators, faculty, and students were held at Waseda University in Tokyo, a school that has 54,000 students; Samsung-dong University in Seoul, which has 22,000 students; Beijing Normal, which has 15,000 students plus 10,000 adult and continuing education on-line students; and Tsinghua University in Beijing. Dinner one evening was held at the Tsinghua Science Center, which was a spectacular experience. We think of research parks in this nation as nice areas and flat buildings, but this Center is right in the heart of Beijing. It is nothing but a series of unbelievable skyscrapers that are part of this research park with a central conference center.

Each one of us on the team was assigned a specific presentation. My role was to be the lead university speaker at Samsung-dong University in Seoul. I was to be one of two or three presidents to participate with the secretaries at press conferences in Tokyo and Beijing, and to take part in other roundtable discussions.

Samsung-dong University is a private university and was founded in 1398. It is now 20% owned and managed by the Samsung Corporation, and subsidized by the government and related organizations for only 25% of its budget. Again, it is not funded much by the government. Tuition and fees support 40% of the budget.

The university describes itself as transforming for the global age, combining Korea's confutations tradition with the latest trends in higher education. In 2005, the Ministry of Education designated Samsung-dong University as one of the most innovative in terms of education reform. Its goal is the search for truth and the establishment of social justice. As part of their 20/10 plan, they are now promoting international student and faculty exchange, and they have a new international student dormitory.

There were 58,847 Koreans who studied in the United States last year. Korea is the third country of origin of international students, behind India and China. The total number of international students in the United States last year was 564,700, and Korea ranks among the top five countries sending students to The Ohio State University.

We had an interesting background briefing for the Tokyo press conference. We learned that Japan has a 100% literacy rate, they have the second largest educational system in the developed world, and they have 124 daily newspapers with a circulation of over 70 million copies. This is a country slightly smaller than the state of California. The reporters all attending the press conference represented the six largest newspapers in Japan, and all of them had bureaus in our major U.S. cities.

One evening following a reception, the twelve presidents had the opportunity to meet with Secretary Spellings to talk about the Spellings Commission Report. I thought it would be useful to say that she was entirely open to our criticisms and comments, and very much interested in the things we care about in higher education that may not have come out in the Report.

In each country, we delivered several key messages: 1) the United States welcomes foreign students; 2) education is an important part of our bilateral relationship with the countries that we visited; 3) the United States is a

December 8, 2006 meeting, Board of Trustees

premiere destination for educational opportunities; and 4) our universities welcome collaboration, partnerships, and exchanges with foreign universities. We also stressed that an international experience is essential in today's global environment and we must work together to prepare our students. We also emphasized that the total number of student and visa exchanges has reached an all-time high, up 15% over last year. Of the people who apply for visas to come to this country, 97% receive their visa within two days. That is something that is little known.

The biggest increases in the numbers of visas come from Korea, China, and India in that order. In 2004, the number of visas approved for students to come to The Ohio State University was 87% of those who applied and 13% were turned down. Last year and the year before, we were at 98% and 99%. Most of the students who want to come here have the opportunity to do so.

We also emphasized the number of funded programs for exchanges of international students through the Fulbright student, the Fulbright scholar, the Fulbright senior specialist, the Gilman students, the Gilman scholars, and the Fulbright Hayes. There are a number of mechanisms available, that people are not aware of that they probably should be, that will help students and scholars come to this country.

Foreign students also contribute \$14 billion annually to the economy of the United States. We also emphasize the problems that have yet to be resolved as we transfer students in both directions: 1) the transfer of credits from the United States' universities to home institutions -- it is still problematic in many countries; 2) the recognition of foreign universities as bona fide universities within certain countries, and bona fide from the standpoint that they receive a tax exemption to operate on foreign soil; and 3) the recognition that there are universities in this country that are not the big name universities. Everywhere we went students would ask how do they get into Stanford, Yale, and Harvard. Our response was, figure out what you want to do and find the right faculty and the universities that are going to make a difference for you and your careers, not simply the big name universities. Language proficiency is one of the biggest barriers of students going in both directions.

Let me conclude with just a few statistics about our own international programs. At the end of September, *Business First* published an article pointing out that there has been a major rebound in international student enrollment following 9/11. At Ohio State, we have 500 students from India and 3,200 more students from Turkey, China, Taiwan, Korea, and 70 other countries. We have 1,600 visiting scholars. In fact, we rank 9th in the nation in the number of international students coming to our University among public universities. The bulk of our students are in graduate programs and yet we have about 19.6% of our undergraduate students going abroad in international study programs and we are very proud of that.

We have more than 350 signed agreements between The Ohio State University and foreign institutions. Not all of those are functional, but at least we have signed agreements. We have more than 550 students majoring in international studies, more than two-thirds of our faculty either are or have been engaged in international research, we offer more than 30 languages with more than 600 language courses, and we are first in the nation in Chinese language programs.

We celebrated our success this year by having an International Scholar Expo. This was a first of its kind to recognize our international scholars and what they are doing on this campus, and the first ever reception to honor

December 8, 2006 meeting, Board of Trustees

our Fulbright and Fulbright Hayes recipients. We have had 76 Fulbright Fellows study at Ohio State, and 45 Fulbright Scholars have either taught or conducted research, and there is a difference between fellows and scholars. Forty-one of our faculty have been Fulbright Scholars and this year we have two new Fulbright awards to allow: 1) Kirk Denton, from East Asian Languages and Literatures, to go to Tsinghua University; and 2) Richard Sayre, from Plant Cellular and Molecular Biology, to go to the University of Sao Paulo, Brazil, for a few weeks to lecture.

Let me just close with one of my favorite quotes that summarizes what I think of international education. This comes from The Institute of International Education and is one that they use on their annual report each year. I quote, "Peace and prosperity around the world depend on increasing the capacity of people to think and work on a global and intercultural basis. As technology opens borders, educational and professional exchange opens minds." Thank you very much.

--0--

COMMITTEE REPORTS

Judge Duncan:

I would like to call for committee reports and will call on Mr. McFerson for the Medical Center Affairs Committee report.

Mr. McFerson:

Thank you, Mr. Chairman. Yesterday the Medical Center Affairs Committee met at 1:00 pm at the Longaberger Alumni House. First we began with a report from Dr. Sanfilippo with regard to people and programs. Those matters will be presented on the consent agenda today. We had a few renewals of chairs, approval of a center, and amendments to the *University Hospitals Board Bylaws* -- items #1, #2 and #5 on the consent agenda.

We heard a report from Mr. Pete Geier. He reported that particle therapy has been tabled and is no longer going to be pursued because of the inability to finance it outside the University and other priorities. We had some dialogue on that matter.

We had a presentation from the Chief Financial Officer of the Medical Center, John Stone, who discussed the revised Health System budget. We concluded with Eric Kunz, who gave us an update on the Master Space Plan and the issues surrounding that, as well as presenting routine capital projects that have been referred to the Fiscal Affairs Committee. These items will be discussed in just a few moments -- items #10 and #11 -- and are on the consent agenda.

We then went into Executive Session to discuss matters that need to be kept confidential under state statute. That concludes the report.

Judge Duncan:

Do we have any questions or discussion? If not, the Audit Committee report is next. Mr. Schottenstein, chair of the Audit Committee, was here earlier but had to leave, so I will give a brief report on that meeting. The Audit Committee met yesterday afternoon with all members present.

We had two important items of business. First, the Committee reviewed a financial audit presentation by Ms. Russell and representatives from our

December 8, 2006 meeting, Board of Trustees

independent auditors, Deloitte and Touche. It is a well-documented display of the financial accounting posture of the University. Next, the Committee heard from the independent auditors regarding the Report of Audit for 2005-2006. Later the Committee passed the resolution accepting the audit and recommends passage of the resolution to this Board, which is on the consent agenda.

Although this is a brief report, the Committee met for more than two hours and was very interactive with a lot of questions and a lot of good discussion regarding our financial controls here at the University.

--0--

COMMITTEES OF THE WHOLE

Judge Duncan:

I will now conduct the Investments, Fiscal Affairs, and Academic and Student Affairs Committees meetings as a committee of the whole. This is somewhat different, because of time and space problems and because we had Dr. Chait in talking with us this morning. So this is an atypical time allotment.

I will first begin with the Investments Committee and call upon Dr. Schroeder for the University Development Report.

INVESTMENTS COMMITTEE MEETING

Dr. James C. Schroeder:

Thank you, Mr. Chairman. I want to bring you up-to-date on the status of private gift support for the University. We are comparing July through October of the current year, with the July through October of 2005, which is in your notebook.

On the first page, you will see gift activity by Donor Type and highlights of that. We continue to show increases in donor counts with a 3% increase this month, compared to the same period last year. The largest dollar increase in this report is in the private foundations category, which reflects \$1.9 million actually received in August from the Kravinsky Foundation for the School of Public Health. Other significant net increases include: bequests from alumni is due primarily to a \$1.7 million unrestricted bequest from Peter and Pauline Chichilo; gifts from corporations are due to an overall gift activity at the \$50,000-level and above; and current giving from non-alumni is due to overall activity at the \$100,000 and above levels. The largest decrease is in our non-alumni bequest receipts, which are due to a decrease in activity at the \$100,000-plus level.

On the second page, you will see a summary of gifts and commitments. Our gift receipts increased by 13%, while overall activity decreased by 18% over the same period of time as last year. Last month, I reported we were up 6% in gift receipts and down 23% in overall activity. While our gift receipts continue to climb -- and Bill Shkurti always likes to hear that our cash is going up -- we also continue to close the gap on the acquisition of new pledges and new revocable deferred commitments. Last year during the same period of time, we were in the opposite position -- tracking 28% behind in gift receipts, but 13% ahead in total activity.

I would also like to share some information regarding progress toward our current FY 2007 goals. Our total private support goal for this current year is

December 8, 2006 meeting, Board of Trustees

\$296 million. As you may recall, last year we had an actual total activity of \$284 million. We estimate that \$60 - \$65 million of that total will be in private industry grants, leaving approximately \$230 - \$235 million as our goal for private gift support. Activity through October puts us at 26% of goal, leaving about 74% of goal in the remaining eight months or of goal of averaging approximately \$28 million per month going forward. I would be happy to answer any questions.

Mr. McFerson:

We are 26% behind after four months. Is that cause for concern?

Dr. Schroeder:

The months of August and early September generally tend to be down months. We are optimistic that December will be a good month for us as it has been in the past, and then historically we have been fortunate enough to be able to track ahead of pace for the remaining six months of the fiscal year.

Judge Duncan:

Any other questions? If not, thank you very much, Dr. Schroeder. Next, I would like to call on Mr. Al Rodack for the monthly endowment report and information regarding Appointment and Reappointment of Investment Managers.

Mr. Alvin C. Rodack:

Thank you, Mr. Chairman. Under the Investments Committee tab, we have the Monthly Endowment Report Executive Summary and I would like to call your attention to the first page. This presentation is a little different than we have had before and we have separated this page out to better delineate the source of the endowment pool. You will see at the top we have a table for the gifted portion of the endowment and at the bottom we have a table for the operating portion of the endowment.

You can see that the gifted portion represents a little over \$1.4 billion and the operating total is a little over \$700 million for a total of \$2.132 billion. This is an increase of \$65 million from the end of September -- this is an October 31 report. This also reflects an increase of \$136 million since the beginning of our fiscal year, July 1.

Going to the second page is a characterization of where the assets are invested. We have a total of 56% in domestic equities, an allocation of 10% in international equities, alternatives come out to 14%, and fixed income about 20%. You can see from June to October, the allocation percentages have not changed very much. This will begin to change with the new investment allocation that was approved by this Board at the November meeting, and the start of that will be reflected in the resolution that I will talk about in a moment.

Finally, page three shows the performance of the endowment over the most recent time. The endowment had a very good month in October with a 3.4% return, which about doubled the return we received in the first three months of the year. So you can see for the fiscal year-to-date, the endowment fund was at a 6.5%, which, as we normally expect in a diverse fund endowment, would come in between the other indexes we are using. For the last 12-month period, the endowment is up about 16%. We do have some preliminary numbers for November and it looks like our estimate for

December 8, 2006 meeting, Board of Trustees

the endowment was up about another 2.5%, based on the investment market.

The bottom table delineates the changes that I mentioned before, as far as the value of the endowment during October. We saw about \$3.6 million of additions to the endowment and a market value change of almost \$66 million, because of the good financial markets we had in October. You can see that year-to-date, we have had almost \$40 million of additions and \$117 million in market appreciation come to the endowment. I am not going to report on the remainder of this report, but I would take any questions at this point on this section.

Mr. McFerson:

I think you have answered this question before, but for the benefit of the full Board, you have broken down the categories as gifted and operating, and it is almost two-thirds to one-third. You indicated in the past, that this is the way that other universities do their tracking and our reporting is consistent with other universities as we benchmark performance?

Mr. Rodack:

Yes. Based on the question that was asked at the last meeting, we did a survey of public schools during this last month and found a mixed bag. We found quite a few universities that do include operating and we found several public universities that don't. Most of those who don't are prohibited by state law from doing it. We also found a few universities that don't put operating funds in here, but they put other funds in -- like gifted annuities and trust accounts -- which is something that Ohio State does not do. It was a bit of a mixed bag, but it was very common. In fact, many of the benchmark universities that we usually use as peers, in fact, do the same thing we do, as far as moving operating funds into their endowment fund.

Mr. Wexner:

If I remember the notion of the endowed funds -- the gifted funds from the operating funds -- I don't remember seeing that broken out that way before.

Mr. Rodack:

It was done in one big pie chart, as opposed to breaking it out this way. So we had one pie chart labeled, "University Endowment" and "Foundation Endowment," and one pie chart labeled, "Long-term Portfolio." We never used the word "gifted" and the word "operating" in the previous reports.

Mr. Wexner:

I haven't thought about it much, but I think we should report in the most conservative manner. This is something the Committee and staff should think about. I don't know what the standards are, but I would think about that.

Mr. Rodack:

Under Tab Two, we have a resolution before the Board -- Appointment and Reappointment of Investment Managers. The Office of the Treasurer is recommending to the Investments Committee and to the full Board, the hiring of nine new investment managers and the reallocation of monies between existing investment managers.

December 8, 2006 meeting, Board of Trustees

Of the new managers, five of the managers are under the absolute return category, three are in the venture/ private equity category, and one is in the natural resources category. Behind the resolution is a one-page summary per manager for each of the recommended managers. The absolute return and the private equity managers were recommended by our consultant CliffWater. The Office of the Treasurer did additional due diligence including reviewing the investment manager agreements and interviewing each of the firms. The natural resource manager was identified by the Office of the Treasurer. CliffWater was then asked to complete additional due diligence of the manager and they have concurred with the recommendation.

These hires move the portfolio closer to the new asset allocation targets that were approved by the Board in November. The reallocation of the monies of existing investment managers is the beginning of the process to reach the new asset allocation targets as approved by the Board. With the exception of the private equity/venture category, we plan to have all the new asset allocation targets met over the next six months.

One thing I would point out in the resolution itself, we have identified the new managers in the resolution. The one other change is under the domestic fixed income category where, because we changed the benchmark as part of the investment policy change, we are recommending moving money from the State Street Government Credit Index, which was the old benchmark, into the State Street Aggregate Index, which is a new benchmark. I would be glad to entertain any questions on the resolution.

Judge Duncan:

I do believe that concludes the business. Thank you very much. We will now turn to the Fiscal Affairs agenda and call on Mr. Shkurti and colleagues.

FISCAL AFFAIRS COMMITTEE MEETING

Mr. William J. Shkurti:

Thank you, Mr. Chairman. I have with me today, Melissa Bellini and Paul Sherwood, from Facilities Operation and Development. This particular report on deferred maintenance is a follow-up to a discussion we had with the Fiscal Affairs Committee in September when reviewing the University's overall capital plan, and we had promised to come back with a more detailed report. In the interest of time, I have asked Melissa to give a summary of what is in her report. But the entire report is in the Board books and I am sure that Melissa and Paul would be glad to respond to any questions on the entire program. I will now turn the microphone over to Melissa.

Ms. Melissa A. Bellini: [PowerPoint presentation]

As Bill indicated, this is a briefing of the full presentation that we were intending to do for the Fiscal Affairs Committee. Before I get started, I want to highlight some special thanks to a couple of Board members. As you can imagine, deferred maintenance and deferred renewal are not the sexiest topics, but there are a couple of Board members who have been especially helpful in developing this program and reestablishing it. Mr. Wexner and Ms. Hendricks, thank you for your support.

December 8, 2006 meeting, Board of Trustees

Today we are going to talk about what is the nature of the problem, what are we doing about it as a University, what are the remaining barriers that we face as we reestablish this program, and what are the next steps.

I am going to focus on the five-year scenario, since many of you have not seen this update on a regular basis. If you look at the first line, deferred maintenance has been reduced by \$23 million over the last five years. To put that into context, we have actually added 32 buildings to the University during that time, with an addition of over 4.9 million gross-square-footage – equivalent of 12 ½ BRT buildings. The deferred maintenance and renewal funding has remained consistent at \$19.5 million per year. Over the last five years, we have spent between \$36 - \$37 million. That has attributed to allowing us to reduce the deferred maintenance, but on a regular basis the facilities group can predict to spend \$19.5 million.

The deferred renewal has actually increased by \$193 million. This increase is caused by the increase in the number of buildings, the square footage, the complexity of the systems, and the renewal needs. What that means is that as systems age, or the routine maintenance is scheduled for those systems to be maintained, they are not adequately funded at this time so we continue to build that renewal backlog.

The next line is infrastructure and we are going to talk about it in a little more detail later on in the presentation. We have invested some money in infrastructure in the last five years, and have been able to reduce our deferred maintenance backlog by \$37 million. On average, given our facilities profile, if we were to only invest the \$19.5 million, we would be seeing an increase of \$69 million a year. You can see, we have made some strategic investments as a University and, while it has increased by \$100 million, it could have gone up by an additional \$245 million.

Mr. O'Dell:

What caused the deferred renewal to jump so much in 2006?

Ms. Bellini:

It is the addition of the buildings, the additional square footage, and the system requirements that it brought.

Mr. O'Dell

There was something dramatic this last year. It went from \$337 to \$462 million?

Ms. Bellini:

We did have a couple of significant buildings added to the inventory, including the BRT and RPAC, and there is actually a list of about twelve buildings that added to that backlog. As soon as they are put on line, there is an automatic system value that is added and a requirement for those systems to be maintained. We also had five buildings hit fifty years of age, which had an impact.

The good news, Ohio State is not alone. Block obsolescence has increased, the national backlog is estimated at \$36 billion, and the state-wide estimate is between \$3.9 - \$5 billion. Ohio State's share of that is estimated at \$772 million. None of those numbers include infrastructure, so those benchmarks are only on facilities alone. We have engaged a consultant, Sitelines, who is working with us to build an integrated facilities

December 8, 2006 meeting, Board of Trustees

plan and they have benchmarked some of our peers. There is a slide in the full presentation that shows the size of those institutions and who we benchmark. On average, our peer backlog is \$60.75 per square foot, and Ohio State is currently at \$32.28 per square foot. So while we are not in the best situation in relation to deferred maintenance and renewal, we are about 47% lower than our peers.

Our last report to the Fiscal Affairs Committee was in March and since that time we have concluded the restructuring of our facilities group. We have integrated four project delivery groups into one and moved the deferred maintenance planning -- it was about a tenth of a person FTE and now it is a full program -- into our planning and real estate group, so it is now integrated with space, capital, and master planning for the University. The infrastructure master plan and a five-year recommendation on capital planning were completed, along with five years worth of infrastructure recommendations. And we began actively participating with the Board of Regents on the statewide capital plan.

What is not up there is that in the last two years we have reestablished our preventive maintenance plan. While it is not fully funded, we are increasing the amount of plan maintenance by reallocating resources and the number of hours committed to planned maintenance has increased from 5,000 to 48,000 a year.

The major projects in the 2007-2012 capital plan are listed on this slide. There are four of these projects on this list that are on the University's top twenty buildings with the largest amount of deferred maintenance -- Means, Brown, Lord and Hughes Halls. There is one additional building that will be moving into construction soon, which is the Ohio Union. While it is not on this list, it is funded by Student Affairs and that project will also address \$45 million in deferred maintenance.

I am going to let Paul Sherwood talk about the infrastructure master plan in a minute. Paul is our senior director over the project delivery group and was recently promoted into that position. He currently manages what used to be the equivalent of the University Architect's Office, the Engineer's Office, the Renovation and Construction Office, and the Landscape Architect's Office. We had four different groups doing project delivery on campus and we now only have one group under the direction of one person. This group is fully integrated and Paul is responsible for that as well. He was the project manager on the infrastructure master plan, which took four years, and he has been with the University for eighteen years.

Mr. Paul E. Sherwood:

Thank you. I appreciate the time this afternoon to brief you on this. As Melissa mentioned, we have shortened what we were going to talk through, but there is quite a bit of information in your packets. I am more than happy to talk about any of the specifics as we go through this.

What I wanted to give you is a brief overview. As Melissa mentioned, we did complete the master plan in October 2006, it was a four-year process, and an investment of about \$1.6 million to complete. A few of the major drivers for this included taking a comprehensive approach to the infrastructure and the development across the campus. It was not individual projects that we were tagging onto the infrastructure, but, more or less, a larger approach to that. This also took into account the overall best interest of the University and, again, was not project specific.

December 8, 2006 meeting, Board of Trustees

We did include all stakeholders including the auxiliaries, so we did gain input from Athletics, Student Affairs, and others. Again, the impetus for this was integrated planning. We wanted to do this better and smarter for the University, so we can spend the money in a much more efficient manner and put the dollars where they need to be. As we move forward from this, some of the findings that we got in the report are being validated as we get closer to construction. We have engineering staff and we are literally pulling the best and brightest from our group. In the new structure of Facilities Operations and Development, this allows us to bring the right people into the room and make these decisions and recommendations to move forward.

The master plan itself was broken down into three distinct categories. Again, we established these to strategically recognize that we want to be able to track, monitor, and update these different projects. Those three categories specifically were: infrastructure, replacement, and renovation. Again this ties back into the deferred maintenance program, so that we could get a handle on capacity improvements. New development on campus was actually driving our need to add capacity to the campus in our utilities. Then the support of the Medical Center Master Plan implementation and making sure we had that covered.

The first five years breaks down into those three categories that I talked about. Right now the deferred maintenance and renewal issues are categorized at over \$100 million and include electrical distribution system improvements, roadways, as well as our tunnel system. Again, the second area was capacity needs for new construction that we see happening in the next five years. Again, we used an integrated approach with all of the facilities being proposed on the campus. That represents over \$35 million worth of improvements and includes: steam and condensate improvements, capacity increases, as well as supporting some of the west research and midwest development that we were looking at in terms of the capital plan.

Finally, the Medical Center infrastructure impact and making sure that we are fully coordinating that with our infrastructure planning across the campus so, again, the entire University is being served. This included the electrical capacity, chilled water, and steam. So overall, the infrastructure in the next five years totals over \$200 million that we are looking at.

Mr. Wexner:

How much has been spent the past five years on infrastructure?

Ms. Bellini:

I don't know if I have that number, Mr. Wexner.

Mr. Sherwood:

We can certainly get it for you.

Ms. Bellini:

Most of the projects are four years in length. The McCracken Boiler Project upgrade was about \$70 million, with a timeline of four years. Maybe \$50 million a year, for the last four years, is probably a good guess.

Mr. Sherwood:

The infrastructure master plan -- as we walked through it and developed it -- was always meant to be an evolving process. So, yes, we do have the final

December 8, 2006 meeting, Board of Trustees

deliverables in a book form that tell us, "here is the initial recommendations," but the whole process was literally meant to evolve along with the campus master plan. As priorities change, and different parts of the campus might see some growth that was not originally anticipated, we have the opportunity to take those projects, shift them around, and make sure we are able to meet those goals in those different areas and support the Academic Plan accordingly.

Before we move on to the next slide, I just want to make sure there were no remaining questions specific to the infrastructure master plan.

Ms. Hendricks:

That is \$200 million that is needed in the next five years. Are there plans and proposals coming forward to address that, so we don't run out of electricity and water? Are you following along to make sure these things are going to happen?

Ms. Bellini:

Yes. The \$65 million that is identified for the Medical Center is included in their master plan budget. For facilities we have put forward in 2007 a request for \$17 million, and in 2009 we have a request in for around \$69 million, and the balance in 2012. That actually takes that through year six. We prioritize them based on deferred maintenance and capacity, and then whatever remains is on the backlist.

Ms. Hendricks:

Do you believe that the timing in that process will give us the capacity we need from an infrastructure standpoint to keep the lights on?

Ms. Bellini:

Yes and no. There is one project that we would be required to do the development on in the North Academic Corridor.

Mr. Sherwood:

We have chilled water and steam expansion that needs to move into the North Academic Corridor, slightly to accommodate some of that, so that is obviously a high priority. We are starting some of the more serious preplanning on that to try to stay ahead of the curve.

From a bigger picture perspective, one of the things we have been going through in the last couple of months -- as the capital plan has been developed -- is to make sure we have all of that timing right. For instance, we understand that the desire is for the Student Academic Services Building to come on-line on this date. We start backing off to make sure we have enough time to get the infrastructure there, so that they can open their doors on that date.

Ms. Bellini:

There may be some future development that is contingent, based on some infrastructure funding, so we have noted that in the plan that we have put forth to the Provost and Mr. Shkurti.

December 8, 2006 meeting, Board of Trustees

Mr. Wexner:

It would help me personally to understand this, because I am so suspicious of the number and it is so big -- 32 million feet of buildings. You have all kinds of buildings and I can't get my mind around it. If I knew how many million feet of dormitories, how many feet of academic classrooms, and how many feet of research labs, buildings in feet, I could better test the maintenance. It is an area that I am interested in, but I don't know what I don't know. I don't know when you have 110,000-foot football stadium, how much per seat, per square foot, per whatever that kind of structure requires in maintenance a year to keep it to what standard? I don't know how much maintenance a biomedical research tower takes to keep it up to effective standards so you are in compliance with all the laws, but I don't know what dormitories are. So when you give it to me on average -- and I have pig tails, pig snouts, just all this stuff and it is so big -- what worries me is what I don't know because it is such a big number.

Ms. Bellini:

The way we have been looking at the deferred maintenance and the deferred renewal, we have been intentionally keeping that separate from the daily maintenance issue just so that we could get a handle on the overall picture. The industry average tells you to spend 3% of your total asset value on maintenance, and, currently, that would be about \$7.81 per square foot. We are funded at \$2.76 per square foot.

Mr. Wexner:

The industry averages -- again averaging football stadiums and dorms?

Ms. Bellini:

That is the University average.

Mr. Wexner:

I am saying to dig a little deeper. Look at the number of buildings' square feet and the industry average of maintenance by these categories would help me get my mind around it.

Ms. Bellini:

We actually have a report from Sitalines, so we would be happy to share that with you. Any other questions on infrastructure before we move forward?

Our first goal is controlling the rate of deferral. The consultant that we have utilized has targeted, based on our facility index today, that in order to stop the increase we would need \$107 million a year. That takes into consideration all of the University including the regional campuses and the auxiliaries.

Taking all of the funding sources into account, at the current funding rate -- assuming the last five years as a steady trend -- we will be adding deferred maintenance and renewal at \$69 million a year. If the funding levels and the building inventory remain the same -- which, of course, they are unlikely to do -- our year 2021 projection would be at \$2.4 billion. To reduce the deferral projected shortfalls -- meaning that we actually make an impact on the deferred maintenance -- we need an amount of \$197 million a year. Obviously, as the inventory of the facilities changes and the investments

December 8, 2006 meeting, Board of Trustees

change, that needs to be updated annually, so that is based on 2006 information. We do have plans in place to demolish some of the buildings that are carrying a lot of the deferred maintenance, so next year's portfolio will be very important as we move forward.

As the buildings continue to age, it continues to be a challenge. Right now we have 81% of our space that is over twenty-five-years-old and academic expectations continue to rise. We are currently funded at a level that does not meet the academic expectations of the University, but we are working on that. Additional funding has been granted to maintenance over the last several years. As you know, escalation of the replacement and renewal costs continue to rise and we see that in our construction as well. Strained resources, regular maintenance operations are underfunded, staffing and work are thus misaligned, reduced state support also stresses the University, and debt limits are a challenge on how much the University itself can invest.

We are currently examining the annual stewardship and asset reinvestment need. Our plan is to recommend a plan utilizing the consultant resources we have, to align the project spending strategies with an acceptable rate of deferral for the short-term and long-term. The short-term recommendations will be completed in 2007 and the long-term not until 2008. The second step is forecasting the implications of the current investment trends and future funding strategies on the facilities and establishing an integrated facility plan, and looking at everything that we do, including space planning and better utilization of the space that we have. The third step is an out-of-the-box step, which is looking at non-conventional options. For example, demolishing buildings on the top twenty list, looking at consolidating space, and looking at other investment strategies.

From an operational standpoint, we are planning to move forward with existing projects and initiatives, including those with preventative maintenance, enhancing our maintenance plan program, and improving our energy services program and sustainability. We are working on integrating both the deferred maintenance and energy programs together, so as we are putting up new facilities we are doing it smarter. We are working with the Medical Center to reconcile their facility master plan with the infrastructure plan, making sure the University's best interests are met.

We are supporting the passage of the FY 2007-2008 capital appropriations bill and are currently interviewing a deferred maintenance manager, but that is just a piece. We also need to integrate the next steps into the FY 2009 through FY 2014 capital plan, including alternative resource strategies. There are some things in our capital recommendations that talk to business continuity and right now the University does not have funding to support this, so we will be talking to Mr. Shkurti about some other options. And we need to secure other additional outside expertise to assist us, where appropriate, including the integrated facilities plan.

Dr. Cloyd:

What assumptions have been included vis-à-vis quality, adequacy of dorm facility space, and then getting to this type of projection?

Ms. Bellini:

I am going to let Mr. Schwartz answer this question, because I am not responsible for the dorms on campus.

December 8, 2006 meeting, Board of Trustees

Mr. William J. Schwartz:

They would have not included facilities; however, they would have included an upgrade on existing facilities such as adding air conditioning in the southwest dorms.

Dr. Cloyd:

I would like to make sure the group looks at this since we are looking out over this time period. Does our program include renewal upgrades that we are going to need to have the quality dorm space to fit with what we want to do in our overall program plan vis-à-vis the quality of students and the quality of the educational environment we want to provide them?

Ms. Bellini:

I would say that the numbers that you saw today probably don't fully cover that. These numbers are based on replacement value today, so by the time we make the investment in the other facilities the needs change. I asked that question of the consultant. "What percentage should we add to make sure that when we get to that point, we make the right investment?" The consultant said, "Potentially it could be 20-30%."

Mr. Brass:

Have we in the past, or do we currently, fund out depreciation on our books throughout the campus system?

Mr. Shkurti:

Mr. Brass, they do in the Medical Center, but we do not. We use the standard public accounting and we have not done that.

Mr. Brass:

We have not done that in the past either? We fund it as a budget item on an approval basis only.

Mr. Shkurti:

That is correct.

Mr. Hicks:

The Board of Regents made a significant request for some additional deferred maintenance money in this capital budget, which I don't believe got in there. Was there any additional pool of money in the capital budgets being considered right now for deferred maintenance?

Mr. Shkurti:

Mr. Hicks, we just received the capital budget and we are still analyzing it. It appears that we received between \$10 - \$20 million more in our share of the state-wide line item which deals with standard deferred maintenance. Apparently a portion of their request was funded and we are very appreciative of that.

December 8, 2006 meeting, Board of Trustees

Mr. Hicks:

Does it appear that there is any additional money for the Board of Regents to do anything on a broad scale, because they had asked for some planning money and other things like that?

Mr. Shkurti:

That I don't know, but I can find out and separately send to the Fiscal Affairs Committee what the outcome of the capital budget was. I would say compared to previous years, this has been a very good budget.

Mr. Hicks:

OK, thanks.

Mr. Alvarez-Breckenridge:

As I look at the capital plan and some of the academic buildings that are likely needing to be replaced or significantly refurbished, I wonder if there has been any thought given to obstacles that might be arising in terms of classroom space or faculty/staff offices or TA offices that may have to be reallocated someplace else?

Ms. Bellini:

I am not sure that I fully understand your question. The capital recommendations that were submitted, were submitted based on academic priority through the Provost's office. I believe that the immediate needs that could be prioritized were done.

Mr. Alvarez-Breckenridge:

If there is going to be a significant reduction in classroom space for some of these academic units, would that be a challenge?

Ms. Bellini:

No. If the building is renovated, swing space will be provided and there should be no academic impact other than the move.

Mr. Brass:

In the Medical Center we fund appreciation, but the others we do not. Is that correct?

Mr. Shkurti:

That is correct.

Mr. Brass:

The numbers that we are talking about here -- the total value needed for maintenance -- is inclusive or exclusive of the Medical Center?

Mr. Shkurti:

The bigger numbers do.

December 8, 2006 meeting, Board of Trustees

Ms. Bellini:

For the capital need, but not the ongoing daily maintenance need.

Mr. Brass:

OK, so there is a separation? Thank you.

Ms. Bellini:

Correct. Moving to the summary of the briefing, based on our current estimates, Ohio State faces a deferred maintenance or renewal backlog currently at \$1 billion. This does include all campuses, all funding sources, and supporting infrastructure. The problem is not unique to Ohio State. The University has moved to improve both day-to-day maintenance and deferred maintenance over the last three to five years. Obviously the buildings continue to age and with resource constraints, we need to think out-of-the-box and come up with some creative ways to address our needs in the future. If present trends do continue, the problem will double over the next fifteen years.

The next and most critical steps in aligning the needs and resources involves the 2008 operating budget and the Fiscal Year 2008-2012 capital planning process, as well as finishing our integrated facilities master plan which should be done by the end of 2007. Any other questions?

Ms. Hendricks:

It does look like the possibility for some creative thinking might be useful. I don't know whether that is wishful thinking or not, but is that a throw away or, in fact, are there some real ideas that are sort of out-of-the-box thinking that you might be bringing forward to attempt to address this enormous shortfall?

Ms. Bellini:

I think there are some real ideas that we need to delve into to see how open the University is to them. I had an initial meeting with our senior director of Real Estate and Mike Sherman, vice provost, who seemed very open to thinking out-of-the-box and working with the academic groups to come up with some solutions that, in the end, will benefit them. It is what we have to do in order to address these issues and support the academic mission, so they are real.

Ms. Hendricks:

I would highly encourage you to say, "OK, this is a big problem and we can keep our heads in the sand and in twenty years have twice the problem, but by bringing them forward, sometimes those are the best ideas." When you get behind the eight ball, some things that you might say, "I don't think we would ever do this," but the best minds bring them forward and say, "Let's look at what it would take." Maybe they wouldn't be good, but it would be well worth it to at least make a list and look at them.

Ms. Bellini:

We will do that and bring those back to the Fiscal Affairs Committee.

December 8, 2006 meeting, Board of Trustees

Mr. Shkurti:

Mr. Chairman, for sometime the University has used available cash balances to loan out to other University units as a way of advancing the academic mission, while minimizing the use of long-term debt and other things that may affect the credit rating. Since 2003, the Board of Trustees, with our support, has approved a set of guidelines on how these lines of credit are developed and how they are paid back, and we report on it every December.

You have the report in front of you under Tab Two. I won't go through it other than to say we have a total -- in terms of lines of credit -- in internal loans of \$127 million that has remained relatively stable over the last year. No one is in default, because we collect from them automatically and I always tell them, "we know where to find you," so it is not a problem. This has been a good thing for the University, but the demand does continue to grow and there is a consideration listed there should we put a limit on the amount of exposure created by these lines of credit. They are growing big enough that we probably need to evaluate that and we will come back next year to the Board with some recommendations. By and large, this has been a good program and you have listed in front of you what all of the lines of credit are.

Mr. McFerson:

What is the process someone has to go through to receive cash to solve a problem?

Mr. Shkurti:

Mr. McFerson, normally a request will come from somewhere in the system and will float its way up to me. I will ask the appropriate people on my staff to analyze it and see if the needs are something that fits with our academic priority -- does the unit have a plan to pay it off and is the timeline for the credit appropriate. If it is, they will make a recommendation back to me. If it is an academic unit, I will consult with the provost or if it is a support unit, I will consult with the appropriate vice president because I want him or her to approve it. Then we will establish a written memorandum of understanding that will set forth the terms and execute that. I am the last sign-off on that, so we have a pretty formal process.

Mr. McFerson:

What percentage is approved and rejected?

Mr. Shkurti:

I would say eventually 90% of them are approved, but a lot of them get modified -- either shortened or have some work done on them -- because generally people know how the process works. They aren't going to come forward unless they have a sense of how to complete a proposal. Sometimes when you get an academic unit that uses it occasionally, they sometimes have trouble getting their arms around the problem if they haven't done it before. On the other hand, if you have a unit that uses them a lot -- the Medical Center or Student Affairs -- they are familiar with the process and the proposals are in pretty good shape when we get them.

Judge Duncan:

Do we use the same criteria when we lend money to Affiliated Entities?

December 8, 2006 meeting, Board of Trustees

Mr. Shkurti:

Affiliated Entities are an interesting animal. On the one hand, we say they are part of us and on the other hand we don't. They get reviewed when I am aware of them and we generally try to keep track of them. Mr. Chairman, as you know from your reaction, figuring out exactly where Affiliated Entities fit in the big picture is something we are still working on.

Mr. Brass:

The cost of money you use on these internal notes, how do you set the internal cost of money?

Mr. Shkurti:

Mr. Brass, it depends on the nature of the loan. Normally they are short-term loans of 1-3 years and we will use our short-term interest rate. Our goal is not to make money off these, but not to lose money either. The change we made over the last couple of years -- because we have gotten into some longer lines of credit -- is we try to benchmark it against the rate of Treasury notes for the same period so that it pretty much follows that. That is generally our procedure.

Mr. Brass:

Have you had any problems with recovery?

Mr. Shkurti:

In general we have not. Again, it is because we automatically deduct and they are our own units and we know where to find them.

Ms. Bellini:

Moving to quarterly reports, if you go to the color chart in your books, I will walk through these quickly. As you know from the last meeting, the BRT is now open and people will start moving in on December 11, 2006. The project was delivered on time and on budget. We are doing a few shake down activities on the building to make it tenant ready, but it has been a very successful project.

The Jennings Hall renovation is a refurbishment project, which is currently in yellow. We have had some issues on this project. It was projected at a \$2.15 million deficit, but we believe that now the deficit is closer to \$1 million. We are progressively working with the contractors to bring that down and the building is scheduled to open summer 2007.

The Larkins Hall replacement is red from Phase I, but Phase II is on schedule and opening in January. Move-in will be in January, February, and March.

The McCracken Power Plant upgrade is on time and on budget. The most successful part about this project is that we had been replacing boilers at the same time as we have been maintaining a 99.9% reliability to services to the University. That is a major accomplishment.

The Medical Center Master Plan I will update separately. The North Doan Hall and the Ross Heart Hospital are both on time, on schedule, and on budget.

December 8, 2006 meeting, Board of Trustees

Skipping down to Ohio 4-H, it is yellow because we had some start-up issues. However, the project is back on track and we are hoping next quarter that will be completely green. The construction to-date is going well and we are very happy with the contractors and the project itself.

The Ohio Union replacement is in design and currently on schedule and on budget.

The update on the Physical Sciences is the same since last quarter. The deficit projection on Physical Sciences has not changed. It is currently projected at about \$7 million, with 3.8% of that assumed recoverable. As you remember, that project had four contractors go bankrupt, as well as two water incidences.

Scott Lab opened on time and on budget.

The Library has gone out to bid for construction and the bids came in at 4% over. Scott Conlin, project manager, and Joe Branin have worked very diligently and have now awarded the construction contracts on budget.

Judge Duncan:

Has the problem in RPAC been addressed? Is that finished?

Mr. Sherwood:

You are speaking specifically about the tile situation? Yes. We had an independent study done and are pursuing that, and are now looking at the best way to schedule that work. We will continue to pursue that, again, to minimize impact to the building occupants to the extent that we can.

Judge Duncan:

Any questions about this?

Ms. Bellini:

The next item is a first reading for a long-term lease of property located at 880 W. Henderson Road. The property contains 5.2 acres, improved with buildings containing over 81,000-square-feet, and proposed to be used for the varsity men's and women's indoor tennis. The proposed rent is \$20,000 per month for a ten-year term, plus operating expenses. There are also two five-year term renewals and a purchase option at the end of the lease or a purchase option in year nine. There will be a predetermined purchase amount as part of the final lease documentation. There will also be an initial tenant improvement cost of \$2.9 million, which will be paid by the landlord but be billed to Athletics as a lump sum tenant improvement. Again, this will be brought back for your approval and final reading at the February meeting. Are there any questions regarding this lease?

The third item is for interim authorization. We are asking today that in the intervening period before the next regularly scheduled meeting of the Board, that the chair of the Fiscal Affairs Committee, in consultation with the Committee, shall have the authority, on behalf of the Board, to authorize design, construction management, and construction contracts, and to approve other related actions for the University capital projects. During this period, as approved by the president, the senior vice president for Business and Finance shall present any needed actions to authorize these contracts or any related actions to the chair as she may direct for review and approval. All approvals would need to be granted in writing and any interim

December 8, 2006 meeting, Board of Trustees

authorizations given would be reported to the Board at the February meeting.

The next item is authorization to contract. We bring before you today a number of projects for your approval, specifically to enter into five design contracts, ten construction contracts, and two increases to construction contracts. The projects presented today will address over \$12 million in deferred maintenance. The two overtures, I will speak quickly to those.

The first one is for the Ambulatory Marrow Transplant unit, eleventh floor renovation. The reason for this increase is the initial design was to place this unit on the first floor and they have now moved this to the eleventh floor. The James decided they would gain additional patient beds and eliminate the disruption to the existing cancer clinics on the first floor. By moving it to the eleventh floor, it required additional design and will also require additional mechanical and electrical system upgrades.

The OARDC project has increased due to the escalation in material costs that is spread between copper, steel, fuel and cement.

Today we have one easement. As you remember last month, you approved that all easement renewals do not have to come to the Board and this month we have sixty-nine easement renewals. Today's easement is for a utility line for Columbus Southern Power. This is for a term of twenty-five years, which will provide electrical utility service to 960 Kinnear Road, which has been determined to be in the best interest of the University.

ACADEMIC AND STUDENT AFFAIRS COMMITTEE MEETING

Judge Duncan:

Let's turn to the agenda for the Academic and Student Affairs Committee. Provost Snyder, maybe you could lead the way for us.

Provost Barbara R. Snyder:

The first presentation today is going to be on Student Indebtedness and I am going to ask Vice President for Student Affairs Rich Hollingsworth, to set the stage for that.

PRESENTATION ON STUDENT INDEBTEDNESS

Mr. Richard A. Hollingsworth:

Good afternoon. Before I introduce our presenter today, I do want to thank the Board for its continuing interest in the quality of our residential facilities on campus. I think there has been a question at each of the last three or four Board meetings on the dorms. I want to assure you that we are working hard to update our strategic plan on housing, including addressing the question that Dr. Cloyd raised today. Not only what do we need to do to maintain these facilities, but what do we need to do to be sure that they remain as very attractive assets that will support the best and the brightest students at Ohio State.

Later today you are going to hear from Tally Hart about an exciting new program related to access to Ohio State and, of course, affordability and financial aid are certainly parts of the access equation. The other end of the spectrum are what are the expenses, and, particularly, what is the

December 8, 2006 meeting, Board of Trustees

indebtedness that students incur while they are in school and how that impacts them when they leave school. Over the years, we have been aware of the impact and the level of indebtedness of many professional students. It is now at a point that this is a major issue for undergraduate students and it is getting lots of national attention.

Our Undergraduate Student Government has taken up this issue and I am pleased to have Ryan Fournier, president of the Undergraduate Student Government, talk about the student perspective on student indebtedness, and some of the financial support and management services that are available to students and a different way of thinking about that possibly.

Mr. Ryan Fournier: [PowerPoint presentation]

Thank you, Rich, for that introduction. Good afternoon to all of you and thank you for allowing me to come and speak today on this important topic. I would also like to thank Barbara Wharton, Tally Hart, Kate Seguin, and Connie Boehm for their help with this presentation. They are here to help answer any questions you may have afterwards.

I come to you today to talk about an important topic for all undergraduates and that is providing accessible financial planning resources for our students. This conversation came on my radar screen when the Undergraduate Student Government hosted a legislative dinner at the John Glenn Institute last year. The event was a huge success. We had key administrators attend including Dr. Holbrook and Senator Glenn, state representatives, and City Council members. We paired them up with students who were able to talk about their collegiate experience and the conversations that came out of this event were just amazing. As I was going around to the different tables and listening to the conversations, I noticed that the main focus was on student financial wellness and what our University is doing to help students with their financial planning.

I think it is understandable that this would be the main focus of conversation when the facts on saving up, paying for, and paying off the cost of higher education continues to become more of a burden on our students. I thought I would break it down into a 30-year period, and in just thirty years there is a whole new landscape for students to manage as far as their finances are concerned.

Like every student today, students in the 1970s were paying for tuition, room and board, fees that were assessed, taking out loans, and purchasing books. For students today, computers, cell phones, credit cards, new fees, and increased tuition are added to make a list that really can rack up the amount of debt.

According to the *College Board*, in that 30-year period the average annual tuition at public four-year colleges and universities rose 268%. Revolving debt, including credit card debt -- and this is only for students who do have credit cards, which is around 67% of students -- is coming in at almost \$6,000 per student on a national average. Students have to find other ways to pay for their collegiate experience and they are turning more and more to loans and credit cards, which is making the situation on campus worse. Unfortunately, the current resources provided by Ohio State are only used when financial situations snowball into unthinkable conditions. To just give you an example, as we speak, Ohio State students -- soon to be Ohio State alumni -- are coming into these offices reporting weekly that they have over \$20,000, \$30,000, and \$40,000 in credit card debt.

December 8, 2006 meeting, Board of Trustees

Now one argument I heard at the legislative dinner from a public official was "I worked my way through college to pay it all off, so should you." After a little research on this statement, I found that while this was feasible for students thirty years ago this would be impossible for students today.

As you can see, in 1964 the minimum wage was \$1.25. There are two columns. There are student charges and those are the expenses students have to pay, and that was on the national average at that time period to attend that university. Mr. Wexner, I promise that we were conservative with that student budget. That is for food, living expenses, and things like that. In that period, students could work 19-hours a week and they could pay that off. When you drop down into 2002, the student budget increases to \$12,000 on a national average, not Ohio State. With the minimum wage at \$5.15, it would take students 50-hours a week to completely pay that off and that is working fifty-two weeks.

Ohio State is not on this list, because Ohio State is off the charts. When I went to the Office of Student Financial Aid and asked them what our average student budget looks like, they reported that the average student budget is \$21,000 a year. This would take students around 78-hours a week just to pay that off, if they wanted to work their way through college and pay it off. Obviously students are going to be graduating with debt.

To get information on how to manage that debt and take control of personal finances, our student body is going to many different areas of campus. Here is a map and I highlighted some of these areas. The Buck ID Office, located in Lincoln Tower, offers students the ability to deposit and spend money on a debit card. We also have the Center for Economic Success, located in Stillman Hall, which allows students and families to learn more about financial resources available to them. We have the College of Education and Human Ecology, located in Arps Hall, which offers formal courses on personal finance. We have the Student Wellness Center, located in RPAC, which offers one-on-one financial education and specialized programs.

We have a neat service on campus, an organization called the Scarlet and Gray Financial Group. This is a group of students who offer students peer-to-peer financial guidance and that is really unique to Ohio State. We have the Office of Student Financial Aid, located in Lincoln Tower, which helps students with loans and other financial matters related to their budget. Finally, we have the Younkin Success Center, which often gets students with financial questions who are then deferred to one of these other offices depending on what their problem is.

These programs are vital for students to learn how to manage their financial resources, but, as you can see from this map, they are not centralized which makes them very confusing to navigate and because of this they are under utilized. I believe we can enhance these resources by connecting them together in a central system to make them more effective for student use. That is why I am coming to you today, in my position as president of USG, to ask for your support to combine these various programs into the Center for Student Financial Life.

Ohio State is making strides in personal finance preparation for students with the current programs, but centralizing them will strengthen the resources we currently have on campus. This Center will take these services to the next step and revolutionize the way our University and students take part in their personal financial planning. It would unify the resources that already exist on campus and become a one-stop shop financial planning firm.

December 8, 2006 meeting, Board of Trustees

The Center for Student Financial Life will also open up new opportunities for our students to take part in. The Center can be used as a research tool and engage students. It can create other positive outcomes, such as being a service-learning experience for students who want to get involved in financial planning all while offering them real world experiences. Most importantly, the Center will send a new message of taking proactive control with your personal finances to our student body. With combined resources, the Center can send out one unified message that encourages students to take action with their finances in the beginning, rather than when it has become unmanageable like we are seeing right now.

The Center for Student Financial Life will encourage students to take part in life long financial practices and that is why the Undergraduate Student Government would like to move forward with the idea with the approval of the Board of Trustees. I firmly believe that graduating more financially-aware students will create more financially-aware alumni, and that will make Ohio State a much stronger University in the future. Thank you.

Ms. Ha:

Are our students made aware of the resources? You said that at one of the resources the students are deferred to other areas, but other than that, how are students made aware?

Mr. Fournier:

These offices are given their own budgets, and then they are doing their own marketing and programming. They are doing it all on their own and they are offering different services. For example, if you want to talk about credit cards and that has snowballed for you and you cannot manage it, you go to the Younkin Center because you think that is the place, but it is not. They will defer you to Student Wellness, in RPAC, and that is where you are supposed to be going. They are all trying to do their own thing on this campus, when the general idea is just to promote financial wellness for students.

Ms. Ha:

Do you find that in most cases that these students are being referred to these areas only after they encounter these financial problems?

Mr. Fournier:

Yes. Actually most students don't know about these services that are offered on campus. These offices are spread out so thin they are trying to market themselves. So when you go to one of these offices, they will tell you about these other locations. It is almost like a surprise because it wasn't known that those services are here.

Mr. O'Dell:

Why are students borrowing against credit cards at very high interest rates when they could be borrowing against government loan programs?

Mr. Fournier:

I personally believe that some students coming to college -- and maybe Kate can comment on this, too -- don't have the knowledge of how to manage credit cards. They are coming right out of high school and have never been exposed to these different ways to manage finances. It is

December 8, 2006 meeting, Board of Trustees

creating this problem that we are hearing about with students then having \$20,000, \$30,000, and \$40,000 in credit card debt. Kate, would you like to add to that?

Ms. Kathryn A. Seguin:

To add to that, this is something that is not taught in most high schools and parents haven't spoken to them about this. Quite frankly, the people that I see that are in the most trouble are the ones who have never understood how a credit card works. They don't understand that if you are not paying on time, all of a sudden what you have bought has gotten way more expensive. I don't think they understand this can become 30% more and it is not a limit you should spend up to. I think it is just a lack of education.

Dr. Cloyd:

Do you have the ability to put the five locations into one location?

Mr. Fournier:

Maybe not location, but the programs that are offered in them. For example, maybe we could combine the programs offered in RPAC with the programs offered in the Scarlet and Gray Financial Group, or even the one-on-one financial education that is located in RPAC with the courses offered by the College of Education and Human Ecology. This could all be done in one central location. We could combine those resources and market them in one unified message. The student body would know to go to this one location to get the help that they need with anything that involves their personal finances.

Mr. Hollingsworth:

I would add two things. One is that the other player in this is the First Year Experience program, which has made financial education part of its program. I think there are other pieces to this, in terms of how you deal with this multitude of diversified services. We need to think not only about consolidation in a physical location, but also in this day and age about virtual centers that really coordinate the marketing and the information sharing that may or may not require physical consolidation.

Dr. Cloyd:

With consolidation do you feel then that you will have in place what you need to provide that kind of service?

Mr. Fournier:

Yes. I feel that by combining them we can get that unified message out to the student body that is missing right now.

Mr. Alvarez-Breckenridge:

I am just curious, are credit card reps and companies allowed to be on campus or near campus? Do we have a partnership with a particular company?

Mr. Fournier:

I don't think we have a partnership, but maybe Rich can help me with this.

December 8, 2006 meeting, Board of Trustees

Mr. Hollingsworth:

Yes, we do. A number of years ago, the Board approved us moving to an exclusive credit card agreement where one provider would be permitted on campus. We have no control over who sets up on the other side of High Street, but it is still possible for students to obtain multiple credit cards and many do for a T-shirt.

Mr. Alvarez-Breckenridge:

Do you think there is any correlation between this increase in credit card debt and the prevalence of the accessibility to get these credit cards through the reps on campus?

Mr. Hollingsworth:

I think the extreme marketing on credit cards to college students certainly accounts for people having access to that credit.

Mr. Borrer:

You presented a very understandable presentation today. Rich, maybe you should go back and make sure that we understand how we need to consolidate these programs and at a future meeting bring forward a plan for how this should operate so the Board can have a way to act. I am not even sure that it is necessary for the Board to act, if, under your authority, you can do the complete consolidation.

Mr. Hollingsworth:

We certainly will work with Ryan and USG on this. This was actually Ryan's brainstorm about a week ago after starting to look at this issue of what financial management education services are offered. We haven't had time to sit down and analyze this, but we certainly will pursue it and report back to the Committee.

Mr. Borrer:

If you could do that for our February meeting that would be great.

Mr. Fournier:

That would be great.

Mr. O'Dell:

Ryan, did you live in a dorm?

Mr. Fournier:

I did for two years, I now live off-campus.

Mr. O'Dell:

What is your view of our dorm situation these days, in terms of the standard of living and what we need to be doing there?

December 8, 2006 meeting, Board of Trustees

Mr. Fournier:

They are very old facilities. Looking at those First Year Experience towers over on south campus, these are the buildings that we are advertising to perspective students. Each year, more and more students are saying that living conditions and the community environment is becoming a big factor on how they choose the school they are going to go to. I think these facilities do need to be focused on and improved.

Mr. O'Dell:

Would you say these facilities are woefully inadequate?

Mr. Fournier:

They are offering the services for the students such as the living/learning programs and what they need to survive in there. I think they are so out-of-date, that it is not as good as it can be compared to our benchmarks.

Mr. Hollingsworth:

One of the interesting dimensions is that we regularly survey student satisfaction. Once students are here and they experience the program, the satisfaction is very high and I can get those numbers for you. It is the perception for perspective students and then the overall comparison to other schools that are building new facilities and have much more modern amenities.

Ms. Shackelford:

This is a national problem that is getting worse and I don't see any foreseeable future of it getting better. It certainly feeds into the access and retention issue. I think the Board should offer you as much support as we can. I applaud you for taking the initiative to come to the Board with this because we need to focus and pay attention to this issue for students and the quality of their lives here.

Mr. Fournier:

Thank you.

Judge Duncan:

Thank you very much.

PRESENTATION ON SUPPORTING STUDENT ACADEMIC ACHIEVEMENT

Provost Snyder:

Martha Garland is going to be giving our next presentation on supporting student academic achievement.

Dr. Martha M. Garland:

Last month, it was my privilege to report to the Board on the characteristics of this year's incoming class. From your comments at the end of the meeting, I know you were gratified as much as I am about our successes in such areas as student preparation, retention, graduation rates, diversity,

December 8, 2006 meeting, Board of Trustees

and access. As President Holbrook has said, "...today's Ohio State is a destination institution."

Once students have identified us as their destination, it is our solemn responsibility to take good care of them. We are doing that. At other times, I have reported to the Board on some of the initiatives that enrich this student experience, including our nationally hailed Honors and Scholars programs as well as new opportunities for research, study abroad, and student leadership. Enrichments like these all boil down to one thing, personalizing this big academic city. That starts with personalizing our recruitment messages and then continues with personalized programs that are tailored to students' individual interests, values, and needs. Not everything is appropriate for all students, but there is something appropriate for every student. Today, I want to tell you briefly about five of the personalized programs we have created.

The leaders of some of these programs are here with me today and at the end of the Board meeting, they would be willing to expand on my presentation or answer any questions that you might have about their programs.

Let me start by telling you how we are supporting the academic excellence of a group of students who have been very much in the news lately. Our win over Michigan three weeks ago focused national attention on Ohio State and following a certain repeat performance in Glendale come January, we can expect the coverage to be kicked up another notch. With that kind of visibility, it is essential that we help our athletes achieve their highest potential both on the field and in the classroom -- a goal we support in part through our Student Athletes Support Services -- SASSO -- and director David Graham is here today.

SASSO provides tutoring to supplement student-athlete classroom learning and provides the Fergus computer lab, which is designated for academic use by student-athletes only. Through the Champs Program, SASSO works to promote good decision making, health habits, and effective communication skills and leadership. SASSO also coordinates a variety of community programs with student-athletes volunteering in school tutoring, offering academic motivational speeches, and otherwise promoting academic achievement among area public school students.

A real gem for our minority students is the Office of Minority Affairs' program called Academic Advancement Services. Their director, Dr. Karen Alsbrooks, is ill today and regrets she is unable to be here, but program manager Yolonda Kelly is here. Academic Advancement uses tutoring programs to promote classroom success, emphasizing support for math, statistics, science, foreign language, and economics courses, as well as programs in social sciences and expository writing.

Their Minority Advising Program is designed to provide advising in an environment sensitive to the particular needs of African-American, Hispanic, Latino, Asian-American, Appalachian, and Native-American students, and ultimately enhanced retention and higher graduation rates within those groups. The OMA Bridge Program provides a pre-freshman, 3-week program focusing on helping students make a successful transition to college.

The Access Collaborative Program assists low income, white and minority single parent students. This program provides them with support services such as workshops on parenting skills and financial planning, employment, and housing assistance and childcare. Finally, the OMA Mentoring Program,

December 8, 2006 meeting, Board of Trustees

sponsored by Academic Advanced Services, assists in preparing students for appropriate post-baccalaureate options, whether it be professional or graduate school or direct entry into the workforce.

Though SASSO and OMA's Academic Achievement Services are aimed at specific populations of students, the Walter E. Dennis Learning Center, in the Younkin Center, provides students of all backgrounds with strategies for college success. The director of the Dennis Center, Dr. Bruce Tuckman, is unable to be with us today, but Associate Director Brent Mosser is here.

The main focus of the Dennis Center is its course in learning and motivation strategies. This five-credit course, officially known as Educational Policy and Leadership 259, teaches students study skills, time management, and other habits that can make them more effective learners. Courses taught using a hybrid of Web-based instructional models have a textbook and an instructor, but it also employs a number of computer-based strategies. Students who take the course -- and we have statistics on this -- tend to get better grades and are more likely to stay in school. The Dennis Center also offers free one-on-one appointments with a learning specialist trained in learning and motivation strategies. The learning specialists facilitate workshops for the Ohio State community that focus on student academic concerns such as procrastination, test anxiety, and note taking.

Finally, with the benefit of a federal grant, the Dennis Center's study skills course is now being taught at Columbus State Community College and in a number of Columbus public high schools and middle schools. This initiative should help students who come to Ohio State from these backgrounds to be better prepared than they have been in the past.

We also provide a number of programs to assist those students who want to improve their skills in targeted areas. One of those is the Mathematics and Statistics Learning Center. The MSLC is today sponsoring a conference for the equivalent offices at the four regional campuses, so they are unable to have a representative with us today.

The Math Stats Learning Center provides free tutoring, online resources, and workshops in mathematics and statistics. Their tutor rooms are strategically placed in readily accessible locations around campus and provide support for nearly forty math and statistics courses. Workshops focus on equipping students with study skills and problem solving strategies, and the program works. The Math Ways Workshop, largely offered in residence halls, focuses specifically on Math 104 -- Basic College Mathematics -- and Math 148 -- Algebra and Trigonometry. Students who participate in this workshop typically drop out less frequently and score better grades in comparison to students who don't participate.

The final, and very much appreciated, service of the MSLC is an extensive series of review sessions. Again, these review sessions are often offered in the dorms before exams and midterms, and in all of the introductory math classes serving very large numbers of students in rooms scattered across the campus.

Any member of the Ohio State community who would like advice about this last unit that I am talking about -- the Center for the Study and Teaching of Writing -- Dr. Beverly Moss, the director, is here with us. This office provides free help with writing at any stage of the writing process for any member of the University community, from lab reports to research reports, from dissertations to resumes, from proposals to application materials. The Center provides online tutorials and face-to-face tutorials, which take place in Mendenhall Lab and the Younkin Success Center. The goal is not only to

December 8, 2006 meeting, Board of Trustees

improve a specific piece of writing, but also to help writers improve their skills. This Center also oversees the undergraduate minor in professional writing, which includes placing students in writing internships, business industry, and non-profit organizations throughout the community.

As I reported to the Board last month, Ohio State students are more accomplished than ever and most of them are at the University because they would like to be better still. Some of them need a bit of extra support in math, statistics or writing, others want to learn better study habits, time and life management, motivation, and test taking strategies. The programs that I discussed today help students achieve these goals by providing them with free, accessible, personalized assistance outside the classroom.

During Michigan week, Gene Smith pointed out that Ohio State should take advantage of all the national attention to send a message about our University's excellence. Much of that excellence rests on the quality of the Ohio State academic experience. A large component of this quality is that we personalize the academic experience, tailoring opportunities for success so that students graduate convinced that they made the right decision when they chose this academic city as their college destination. Thank you.

Judge Duncan:

Dr. Garland, in this area of academic support services are we at or near the state-of-the-art as you look to benchmarks or do we have a way to go? What is the goal to get to a perfect world?

Dr. Garland:

It is a little hard to measure. What you do is you go to conferences and talk to other people and see if they have the things you have. I would say all of the programs that I mentioned today are comparable to what anybody has any place. Our Younkin Success Center is particularly a model, because we have athletes and other students all being served in the same environment. This is quite different from a lot of other places that have the athletes walled off into a different place. I think we should be proud of all of these things and of other services that we provide for students. As always, there is an opportunity to continue to improve.

Judge Duncan:

Good. Any further questions?

Ms. Hendricks:

How utilized are these programs? How well known are they? One way to look at it is of the percentage of students that you think have need, what percentage are coming forth to use them or is there any way to measure?

Dr. Garland:

All of these units have data on usage. I am sorry to say that I do not have command of that data myself. We do things that we think enhance the likelihood that people will use them.

For example, Math Ways is aimed at helping people with the very basic math courses. That support structure is offered in the freshman residence halls and the idea is to get students right from the beginning to think that they should be studying with help, with tutors, and with one another. I was at a meeting in the Union a week and a half ago, and it wasn't finals time,

December 8, 2006 meeting, Board of Trustees

but the lowest level of that building was filled with people doing math reviews. It was just absolutely packed with students. The campus has so many students that you can pack a large building and it is still a small percentage of the students. I think the sense is that these things are available and people share information about them. The academic programs involved like writing courses, and math and stats make very clear to people that these are available to them. Certainly all of the athletes take advantage of SASSO.

Judge Duncan:

Thank you. Thanks to all of those colleagues to whom you recognized. This is an extremely important part of what we do here and it seems to be working well.

Provost Snyder:

Chairman Duncan, I would like to recommend the approval of the establishment of the Center for Microbial Interface Biology, the establishment of the Newark Earthworks Center, and the monthly personnel actions including Carlo M. Croce to The John W. Wolfe Chair in Human Cancer Genetics; Karin Musier-Forsyth, as the Ohio Eminent Scholar in Macromolecular Structure Determination; Jeffrey Parvin to The Louis Levy Professorship in Cancer; and Peter T. Ward to The Richard M. Ross Chair in Management.

Judge Duncan:

Thank you very much.

Mr. McFerson:

I have a question, Provost Snyder, on the term "center." As we heard in Ryan's report, there may be a Center for Student Financial Life. I know we have specific guidelines for calling anything "center," not only for your academic responsibilities, but also your responsibilities in the Medical Center, and making sure we are consistent. Is that term consistent with the rest of the University's definition of "center?"

Provost Snyder:

We have two ways to get a center approved. We have very involved procedures for academic centers, but we also have non-academic centers. In fact, this Board approved a couple of non-academic centers at the meeting last month. The Center for Student Financial Life would be a non-academic center and the procedure is much less involved.

Mr. McFerson:

So you are comfortable with the use of the term "center" for the Center for Student Financial Life?

Provost Snyder:

Yes.

Judge Duncan:

Thank you all very much.

--0--

CONSENT AGENDA

President Karen A. Holbrook:

We currently have fourteen resolutions on the Consent Agenda today and we would like to conduct separate votes for #7 and #9. We are seeking your approval for:

AMENDMENTS TO THE UNIVERSITY HOSPITALS BOARD BYLAWS

Resolution No. 2007-64

Synopsis: The amendments to the *University Hospitals Board Bylaws* are recommended for approval.

WHEREAS pursuant to bylaw 3335-103-01, The Ohio State University Board of Trustees has the authority to amend the *University Hospitals Board Bylaw*; and

WHEREAS the amendments to the *University Hospitals Board Bylaws* have been endorsed and ratified by the University Hospitals Board on November 16, 2006, as attached:

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the *University Hospitals Board Bylaws* be adopted as recommended by the University Hospitals Board.

(See Appendix XXV for background information, page 647.)

**ESTABLISHMENT OF THE CENTER FOR
MICROBIAL INTERFACE BIOLOGY**

Resolution No. 2007-65

Synopsis: Proposal to establish the Center for Microbial Interface Biology in the College of Medicine is proposed.

WHEREAS the goals of the Center are to promote and coordinate interdisciplinary research in the fields of infectious diseases and microbial pathogenesis; to develop training opportunities (both bench and classroom) for individuals with an interest in these fields; and to discover new diagnostic tools, therapies, and vaccines for infectious diseases; and

WHEREAS these goals cannot be achieved within existing units; and

WHEREAS the Center will serve as the focal point to organize the efforts of many individual investigators across campus and provide the organizational structure to attract highly qualified faculty to the University, and in so doing enhance the national and international reputation of the University; and

WHEREAS the proposal adheres to the *Guidelines for the Establishment and Review of Academic Centers*; and

WHEREAS the proposal was reviewed by the University Research Committee and the Council on Research and Graduate Studies, approved by the full Council on Academic Affairs, and approved by the University Senate at its November 9, 2006 meeting:

NOW THEREFORE

December 8, 2006 meeting, Board of Trustees

BE IT RESOLVED, That the proposal to establish the Center for Microbial Interface Biology in the College of Medicine be hereby approved, effective immediately.

ESTABLISHMENT OF THE NEWARK EARTHWORKS CENTER

Resolution No. 2007-66

Synopsis: Establishment of the Newark Earthworks Center at The Ohio State University Newark Campus is proposed.

WHEREAS the Center will be the first at the University to focus on Native American histories from ancient to contemporary times; and

WHEREAS the Center will provide educators at all levels with needed resources and pedagogies, and will be involved in coordinating and publicizing research opportunities, activities and events relating to American Indian study; and

WHEREAS it is the first interdisciplinary Center to be based at a regional campus; will establish a unique identity for the OSU-Newark campus; will invigorate research, teaching, and service activities in this field of study at other regional campuses and the Columbus campus; and will link to other established interdisciplinary centers; and

WHEREAS the proposal adheres to the *Guidelines for the Establishment and Review of Academic Centers*; and

WHEREAS the proposal was reviewed by the University Research Committee and the Council on Research and Graduate Studies, approved by the full Council on Academic Affairs, and approved by the University Senate at its November 9, 2006 meeting:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish the Newark Earthworks Center at The Ohio State University Newark Campus be hereby approved, effective immediately.

DEGREES AND CERTIFICATES – AUTUMN QUARTER COMMENCEMENT

Resolution No. 2007-67

Synopsis: Approval of Degrees and Certificates for Autumn Quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on December 10, 2006, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and

December 8, 2006 meeting, Board of Trustees

schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

PERSONNEL ACTIONS

Resolution No. 2007-68

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the November 3, 2006 meeting of the Board, including the following Appointments/Reappointments, Appointments/Reappointments of Chairpersons, Professional Improvement Leaves, and Emeritus Titles, as detailed in the University Budget, be approved; and

BE IT FURTHER RESOLVED, That the Medical Staff Appointments and Reappointments approved on September 26, 2006 and November 30, 2006, by The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board, be ratified.

Appointments

Name: CARLO M. CROCE
Title: Professor (The John W. Wolfe Chair in Human Cancer Genetics)
Center/Hospital: Comprehensive Cancer Hospital/The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute
Term: December 1, 2006 through June 30, 2010

Name: KARIN MUSIER-FORSYTH
Title: Professor (Ohio Eminent Scholar in Macromolecular Structure Determination)
College/Department: Mathematical and Physical Sciences/Chemistry
Effective: January 1, 2007
Present Position: Professor of Chemistry, University of Minnesota

Name: JEFFREY PARVIN
Title: Professor (The Louis Levy Professorship in Cancer)
College/Department: Medicine/Biomedical Informatics
Term: November 1, 2006 through June 30, 2010
Present Position: Associate Professor, Department of Pathology, Harvard Medical School and Research Pathologist, Brigham and Women's Hospital

Name: PETER T. WARD
Title: Professor (The Richard M. Ross Chair in Management)
College: Fisher College of Business
Term: November 1, 2006 through October 31, 2011

Reappointments

Name: RAYMOND A. NOE
Title: Professor (Robert and Anne Hoyt Designated Professorship in Management)
College: Fisher College of Business
Term: October 1, 2004 through September 30, 2009

December 8, 2006 meeting, Board of Trustees

Name: ANTHONY B. SANDERS
Title: Professor (The John W. Galbreath Chair in Real Estate)
College: Fisher College of Business
Term: October 1, 2006 through September 30, 2011

Appointment of Chairpersons

MICHAEL T. BRADY, Pediatrics, effective December 1, 2006 through June 30, 2011

DAVID A. ZVARA, Anesthesiology, effective January 8, 2007 through June 30, 2011

Reappointment of Chairpersons

ROBERT A. FOX, Speech and Hearing Science, effective July 1, 2007 through June 30, 2011

MORTON E. O'KELLY, Geography, effective July 1, 2007 through June 30, 2011

Professional Improvement Leaves

DAWN ANDERSON-BUTCHER, Associate Professor, College of Social Work, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

SHARON B. SCHWEIKHART, Associate Professor, School of Public Health, effective Winter Quarter and Spring Quarter 2007.

MARLIN F. TROIANO, College of Dentistry, with the title Clinical Associate Professor Emeritus, effective December 1, 2006.

December 8, 2006 meeting, Board of Trustees

Medical Staff—Initial Appointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Karen M. Catignani, M.D., Associate Attending, Internal Medicine, General Medicine, 8/11/2006
Kathleen M. Dungan, M.D., Associate Attending, Internal Medicine, Endocrinology, 8/11/2006
Erik W. Evans, D.D.S., M.D., Associate Attending, Dental, 8/11/2006
Mary F. Feldman, P.A., Allied Health, Surgery, Thoracic/Cardiovascular, 8/11/2006
Jean E. LaPolla, L.M.T., Allied Health, Family Medicine, 8/11/2006
Renee L. Lewis, P.A., Allied Health, Surgery, Urological Surgery, 8/11/2006
Michael K. Racke, M.D., Associate Attending, Neurology, 8/11/2006
Leslie A. Andritsos, M.D., Attending, Internal Medicine, Hematology/Oncology, 10/13/2006
Michael J. Andritsos, M.D., Associate Attending, Anesthesiology, 10/13/2006
Ralph S. Augostini, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 10/13/2006
Sameer Bajaj, M.B.B.S., Community Assoc, Internal Medicine, General Medicine, 10/13/2006
Vinay Bangalore, M.B.B.S., Community Assoc, Internal Medicine, General Medicine, 10/13/2006
Samantha J. Barker, M.D., Associate Attending, Radiology, 11/13/2006
Udayan Y. Bhatt, M.D., Associate Attending, Internal Medicine, Nephrology, 10/13/2006
Shael Brachman, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 10/13/2006
Quinn Capers IV, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 11/13/2006
Kenneth O. Cayce IV, M.D., Associate Attending, Family Medicine, 10/13/2006
John B. Christoforidis, M.D., Associate Attending, Ophthalmology, 11/13/2006
Gretchen Cunningham, C.N.P., Allied Health, Surgery, Thoracic/Cardiovascular, 11/13/2006
Emile G. Daoud, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 10/13/2006
David N. Efries, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 10/13/2006
Ahmad Elsharydah, M.D., Associate Attending, Anesthesiology, 11/13/2006
Gholam R. Emami, C.R.N.A., Allied Health, Anesthesiology, 10/13/2006
Kyriakoyla Fisher, C.R.N.A., Allied Health, Anesthesiology, 10/13/2006
Ramiro Garzon, M.D., Attending, Internal Medicine, Hematology/Oncology, 10/13/2006
Richard H. Gilchrist, M.D., Associate Attending, Internal Medicine, Psychiatry, 10/13/2006
Hossam Guirgis, M.B.BCH, Associate Attending, Psychiatry, 10/13/2006
David L. Hall, D.D.S., Associate Attending, Dental, 11/13/2006
Nicole R. Hans, C.N.P., Allied Health, Neurology, 11/13/2006
David W. Hauswirth, M.D., Associate Attending, Internal Medicine, Immunology, 10/13/2006
Kathleen S. Hawker, M.D., Associate Attending, Neurology, 10/13/2006
Lisa M. Hoffman, C.N.S., Allied Health, Internal Medicine, Hematology/Oncology, 11/13/2006
Amy Hoisington-Stabile, M.D., Associate Attending, Psychiatry, 10/13/2006
John D. Hummel, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 10/13/2006
Jeffrey A. Jones, M.D., Attending, Internal Medicine, Hematology/Oncology, 10/13/2006
Steven J. Kalbfleisch, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 10/13/2006

December 8, 2006 meeting, Board of Trustees

Trisha A. Kall, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 10/13/2006
Ram C. Kalyanam, M.D., Associate Attending, Psychiatry, 10/13/2006
Susan M. Kirchner, C.R.N.A., Allied Health, Anesthesiology, 11/13/2006
Marino E. Leon, M.D., Associate Attending, Pathology, 11/13/2006
Beth W. Liston, M.D., Associate Attending, Internal Medicine, General Medicine, 10/13/2006
Joyce A. Marrs, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 11/13/2006
Ehud Mendel, M.D., Attending, Neurologic Surgery, 10/13/2006
Hans B. Miller, M.D., Associate Attending, Anesthesiology, 11/13/2006
Prashanth Mopala, M.B.B.S., Community Assoc, Internal Medicine, General Medicine, 10/13/2006
Erin E. Mowbray, M.D., Associate Attending, Internal Medicine, General Medicine, 11/13/2006
Khalil Murad, M.D., Community Assoc, Internal Medicine, General Medicine, 10/13/2006
Sushma Nagar, P.A., Allied Health, Surgery, Thoracic/Cardiovascular, 10/13/2006
S. Patrick Nana-Sinkam, M.D., Associate Attending, Internal Medicine, Pulmonary, critical care, 10/13/2006
Anterpret S. Neki, M.B.B.S., Attending, Internal Medicine, Hematology/Oncology, 10/13/2006
Sara B. Peters, M.D., Associate Attending, Pathology, 11/13/2006
Frederick Racke, M.D., Ph.D., Associate Attending, Pathology, 10/13/2006
Sanjay Rajagopalan, M.B.B.S., Associate Attending, Internal Medicine, Cardiovascular Medicine, 11/13/2006
Christopher Rosile, C.R.N.A., Allied Health, Anesthesiology, 11/13/2006
Renee M. Schnug, C.N.P., Allied Health, Surgery, Thoracic/Cardiovascular, 11/13/2006
William E. Shiels II, D.O., Associate Attending, Internal Medicine, Radiology, 10/13/2006
Katherine E. Strafford, M.D., Associate Attending, Obstetrics/Gynecology, 10/13/2006
Martha Z. Szabo, M.D., Associate Attending, Anesthesiology, 10/13/2006
Christina E. Taddeo, M.D., Associate Attending, Physical Medicine, 10/13/2006
Kathryn M. Todd, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 10/13/2006
Cornel C. Van Gorp, M.D., Associate Attending, Orthopaedic Surgery, Orthopaedics, 10/13/2006
Raul Weiss, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 10/13/2006
Jonathan H. Wynbrandt, M.D., Associate Attending, Internal Medicine, General Medicine, 11/13/2006

Medical Staff—Provisional to Full Appointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Jeanette M. Abell, M.D., Community Associate, Internal Medicine, Hospitalist, 10/13/2006
Peggy J. Barnum, C.R.N.A., Allied Health, Anesthesiology, 10/13/2006
Lori Boedigheimer, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 10/13/2006
Rhonda S. Crockett, L.M.T., Allied Health, Family Medicine, 10/13/2006
Hollie B. Devine, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 10/13/2006
Charles Hardebeck, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 10/13/2006
Jeffrey Marable, M.D., Associate Attending, Obstetrics/Gynecology, 11/13/2006

December 8, 2006 meeting, Board of Trustees

Helen M. McCarthy, C.N.P., Allied Health, Anesthesiology, Pain Service,
10/13/2006
Sidney F. Miller, M.D., Associate Attending, Surgery, General Surgery,
10/13/2006
Eunice Oppenheim-Knudsen, Associate Attending, Family Medicine, 10/13/2006
Robert V. O'Toole, M.D., Associate Attending, Pathology, 10/13/2006
Joseph J. Pinzone, M.D., Associate Attending, Internal Medicine, Endocrinology
Metabolism,
10/13/2006
Raymond M. Pongonis, D.O., Associate Attending, Family Medicine, 10/13/2006
Bahadar Said, M.B.B.S., Community Associate, Internal Medicine, Hospitalist,
10/13/2006
Atom Sarkar, M.D., Ph.D., Associate Attending, Neurological Surgery,
10/13/2006
Elenora Sikic-Klisovic, M.D., Associate Attending, Psychiatry, 10/13/2006
James P. Thomas, M.D., Attending, Internal Medicine, Hematology/Oncology,
10/13/2006
Hailing Zhang, R.Ac., Allied Health, Family Medicine, 10/13/2006

Medical Staff—Reappointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Abbas E. Abbas, M.D., Surgery, Cardiothoracic Surgery, Attending, 11/1/2006 -
10/31/2008
Jeanette M. Abell, M.D., Internal Medicine, Hospitalist, Community Assoc,
11/1/2006 – 10/31/2008
Scott K. Aberegg, M.D., Internal Medicine, Pulmonary, Associate Attending,
11/1/2006 - 10/31/2008
William T. Abraham, M.D., Internal Medicine, Cardiovascular Medicine, Associate
Attending, 11/1/2006 - 10/31/2008
Laura E. Adams, C.N.P., Internal Medicine, Hematology/Oncology, Allied Health,
11/1/2006 -10/31/2008
Michael D. Adolph, M.D., Anesthesiology, Associate Attending, 11/13/2006 -
10/31/2008
Anil K. Agarwal, M.D., Internal Medicine, Nephrology, Associate Attending,
11/1/2006 -10/31/2008
Doreen M. Agnese, M.D., Internal Medicine, Genetics, Associate Attending,
11/1/2006 – 10/31/2008
Doreen M. Agnese, M.D., Surgery, Surgical Oncology, Attending, 11/1/2006 -
10/31/2008
Amit Agrawal, M.D., Otolaryngology, Attending, 11/1/2006 - 10/31/2008
Bruce V. Alden, C.R.N.A., Anesthesiology, Allied Health, 11/1/2006 - 10/31/2008
Michael J. Alexander, M.D., Family Medicine, Associate Attending, 11/1/2006 -
10/31/2008
Carl M. Allen, D.D.S., Dentistry, Associate Attending, 11/1/2006 - 10/31/2008
James N. Allen, Jr., M.D., Internal Medicine, Pulmonary, Associate Attending,
11/1/2006 – 10/31/2008
Naem A. Ali, M.D., Internal Medicine, Pulmonary, Associate Attending,
11/1/2006 - 10/31/2008
Mario Ammirati, M.D., Neurological Surgery, Associate Attending, 11/1/2006 -
10/31/2008
Carol L. Amore, C.N.P., Internal Medicine, Hematology/Oncology, Allied Health,
11/1/2006 – 10/31/2008
Karl S. Amstutz, C.R.N.A., Anesthesiology, Allied Health, 11/1/2006 - 10/31/2008
Marjorie S. Anderson, C.N.S., Psychiatry, Allied Health, 11/1/2006 - 10/31/2008
Michelle A. Angelis, P.A., Internal Medicine, Hematology/Oncology, Allied Health,
11/1/2006 – 10/31/2008
Mark G. Angelos, M.D., Emergency Medicine, Associate Attending, 11/1/2006 -
10/31/2008

December 8, 2006 meeting, Board of Trustees

Daria G. Arbogast, C.N.P., Internal Medicine, Hematology/Oncology, Allied Health, 11/1/2006 – 10/31/2008

Fernando L. Arbona, M.D., Anesthesiology, Associate Attending, 11/1/2006 - 10/31/2008

Scott B. Armen, M.D., Surgery, General Surgery, Associate Attending, 11/1/2006 - 10/31/2008

Mark W. Arnold, M.D., Surgery, General Surgery, Associate Attending, 11/1/2006 - 10/31/2008

Cregg D. Ashcraft, M.D., Internal Medicine, General Medicine, Associate Attending, 11/1/2006 – 10/31/2008

Matthew D. Ashmun, M.D., Internal Medicine, Hospitalist, Associate Attending, 11/1/2006 – 10/31/2008

Glen F. Aukerman, M.D., Family Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Onsy Ayad, M.D., Pediatrics, Pediatric Critical Care, Associate Attending, 11/1/2006 - 10/31/2008

Leona B. Ayers, M.D., Pathology, Associate Attending, 11/1/2006 - 10/31/2008

Karl T. Bachman, Ph.D., Family Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Robert R. Bahnsen, M.D., Surgery, Urological Surgery, Attending, 11/1/2006 - 10/31/2008

Robert A. Baiocchi, Ph.D., M.D., Internal Medicine, Hematology/Oncology, Attending, 11/1/2006 – 10/31/2008

Michael A. Baird, M.D., Internal Medicine, Digestive Disease, Associate Attending, 11/1/2006 – 10/31/2008

Sameer Bajaj, M.B.B.S., Internal Medicine, Hospitalist, Community Assoc, 11/1/2006 -10/31/2008

Peter B. Baker, M.D., Pathology, Associate Attending, 11/13/2006 - 10/31/2008

Ragavendra R. Baliga, M.B.B.S., Internal Medicine, Cardiovascular Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Katherine T. Balturshot, M.D., Family Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Vinay G. Bangalore, M.B.B.S., Internal Medicine, Hospitalist, Community Assoc, 11/1/2006 – 10/31/2008

Gary E. Barnett, M.D., Pathology, Associate Attending, 11/1/2006 - 10/31/2008

Peggy J. Barnum, C.R.N.A., Anesthesiology, Allied Health, 11/1/2006 - 10/31/2008

Sanford H. Barsky, M.D., Pathology, Associate Attending, 11/1/2006 - 10/31/2008

Rolf F. Barth, M.D., Pathology, Associate Attending, 11/1/2006 - 10/31/2008

Deborah Bartholomew, M.D., OB/GYN, Associate Attending, 11/1/2006 - 10/31/2008

Dennis J. Bauman, M.D., Internal Medicine, Cardiovascular Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Mark A. Bechtel, M.D., Internal Medicine, Dermatology, Associate Attending, 11/1/2006 – 10/31/2008

William J. Becker, D.O., M.P.H., Pathology, Associate Attending, 11/1/2006 - 10/31/2008

Elaine Beed, M.D., Internal Medicine, Hematology/Oncology, Comm Onc Attn, 11/1/2006 – 10/31/2008

Tanios S. Bekaii-Saab, M.D., Internal Medicine, Hematology/Oncology, Attending, 11/1/2006 – 10/31/2008

David C. Bell, M.D., OB/GYN, Associate Attending, 11/1/2006 - 10/31/2008

Susan D. Bell, C.N.P., Neurological Surgery, Allied Health, 11/1/2006 - 10/31/2008

Costantino Benedetti, M.D., Anesthesiology, Attending, 11/1/2006 - 10/31/2008

Susan C. Benes, M.D., Ophthalmology, Associate Attending, 11/1/2006 - 10/31/2008

Adrienne L. Bennett, M.D., Internal Medicine, Hospitalist, Associate Attending, 11/1/2006 – 10/31/2008

December 8, 2006 meeting, Board of Trustees

Tammy Bennett, C.N.P., Internal Medicine, Hematology/Oncology, Allied Health, 11/1/2006 – 10/31/2008
William F. Bennett, M.D., Radiology, Associate Attending, 11/1/2006 - 10/31/2008
Cathy Benninger, C.N.P., Internal Medicine, Pulmonary, Allied Health, 11/1/2006 - 10/31/2008
Don M. Benson, M.D., Internal Medicine, Hematology/Oncology, Attending, 11/1/2006 – 10/31/2008
Ryo E. Benson, M.D., Radiology, Associate Attending, 11/1/2006 - 10/31/2008
Sergio D. Bergese, M.D., Anesthesiology, Associate Attending, 11/1/2006 - 10/31/2008
Gail E. Besner, M.D., Surgery, Pediatric Surgery, Associate Attending, 11/1/2006 - 10/31/2008
Thomas M. Best, M.D., Ph.D., Family Medicine, Associate Attending, 11/1/2006 - 10/31/2008
David Q. Beversdorf, M.D., Neurology, Associate Attending, 11/1/2006 - 10/31/2008
Nitin Y. Bhatt, M.D., Internal Medicine, Pulmonary, Associate Attending, 11/1/2006 - 10/31/2008
Brian P. Biernat, M.D., Internal Medicine, Dermatology, Associate Attending, 11/1/2006 - 10/31/2008
Philip F. Binkley, M.D., Internal Medicine, Cardiovascular Medicine, Associate Attending, 11/1/2006 - 10/31/2008
Michael G. Bissell, M.D., Ph.D., Pathology, Associate Attending, 11/1/2006 - 10/31/2008
Alan J. Block, D.P.M., Orthopaedic Surgery, Associate Attending, 11/1/2006 - 10/31/2008
Clara D. Bloomfield, M.D., Internal Medicine, Hematology/Oncology, Attending, 11/1/2006 – 10/31/2008
P. Mark Bloomston, M.D., Surgery, Surgical Oncology, Attending, 11/1/2006 - 10/31/2008
Lisha M. Blue, C.N.P., Internal Medicine, Hematology/Oncology, Allied Health, 11/1/2006 – 10/31/2008
Kristie A. Blum, M.D., Internal Medicine, Hematology/Oncology, Attending, 11/1/2006 – 10/31/2008
William G. Blum, M.D., Internal Medicine, Hematology/Oncology, Attending, 11/1/2006 – 10/31/2008
Michael Blumenfeld, M.D., OB/GYN, Associate Attending, 11/1/2006 - 10/31/2008
Lori E. Boedigheimer, C.N.P., Internal Medicine, Hematology/Oncology, Allied Health, 11/1/2006 – 10/31/2008
Carl P. Boesel, M.D., Pathology, Associate Attending, 11/1/2006 - 10/31/2008
James R. Borchers, M.D., Family Medicine, Associate Attending, 11/1/2006 - 10/31/2008
Eric C. Bourekas, M.D., Radiology, Associate Attending, 11/1/2006 - 10/31/2008
James G. Bova, D.O., Radiology, Associate Attending, 11/1/2006 - 10/31/2008
Brian L. Bowyer, M.D., PM&R, Associate Attending, 11/1/2006 - 10/31/2008
Timothy D. Brennan, M.D., Internal Medicine, Hospitalist, Associate Attending, 11/1/2006 – 10/31/2008
Michelle L. Brooker, C.N.P., Internal Medicine, Hematology/Oncology, Allied Health, 11/1/2006 – 10/31/2008
Christopher G. Brown, M.D., Internal Medicine, Nephrology, Associate Attending, 11/1/2006 – 10/31/2008
Jennifer L. Brown, P.A., Orthopaedic Surgery, Allied Health, 11/1/2006 - 10/31/2008
Kristine K. Browning, C.N.P., Internal Medicine, Hematology/Oncology, Allied Health, 11/1/2006 – 10/31/2008
Donald K. Bryan, M.D., OB/GYN, Associate Attending, 11/1/2006 - 10/31/2008
Ginny L. Bumgardner, M.D., Ph.D., Surgery, Transplant, Associate Attending, 11/1/2006 – 10/31/2008

December 8, 2006 meeting, Board of Trustees

Michael A. Burgin, M.D., Internal Medicine, General Medicine, Associate Attending, 11/1/2006 – 10/31/2008

Alan Burnette, P.A., Surgery, Thoracic Surgery, Allied Health, 11/1/2006 - 5/31/2007

John A. Burns, M.D., Ophthalmology, Associate Attending, 11/1/2006 - 10/31/2008

Meleana J. Burt, C.N.P., Surgery, Cardiothoracic Surgery, Allied Health, 11/1/2006 - 10/31/2008

Charles A. Bush, M.D., Internal Medicine, Cardiovascular Medicine, Associate Attending, 11/1/2006 - 10/31/2008

John C. Byrd, M.D., Internal Medicine, Hematology/Oncology, Attending, 11/1/2006 - 10/31/2008

Kathleen E. Cadmus, C.N.S., C.N.P., Internal Medicine, Hematology/Oncology, Allied Health, 11/1/2006 - 10/31/2008

Kenneth V. Cahill, M.D. Ophthalmology, Associate Attending, 11/1/2006 - 10/31/2008

James H. Caldwell, M.D., Internal Medicine, Digestive Disease, Associate Attending, 11/1/2006 – 10/31/2008

Patricia B. Caldwell, M.D., Internal Medicine, Cardiovascular Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Michael A. Caligiuri, M.D., Internal Medicine, Hematology/Oncology, Attending, 11/1/2006 – 10/31/2008

Donna A. Caniano, M.D., Surgery, Pediatric Surgery, Associate Attending, 11/1/2006 – 10/31/2008

Renee Caputo, M.D., OB/GYN, Associate Attending, 11/13/2006 - 10/31/2008

Louis P. Caragine, Jr., M.D., Neurological Surgery, Associate Attending, 11/13/2006 - 10/31/2008

John E. Carlson, M.D., Radiology, Associate Attending, 11/1/2006 - 10/31/2008

William E. Carson III, M.D., Surgery, Surgical Oncology, Attending, 11/1/2006 - 10/31/2008

Jennifer E. Carter, Ph.D., Family Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Samuel Cataland, M.D., Internal Medicine, Endocrinology, Associate Attending, 11/1/2006 – 10/31/2008

Spero R. Cataland, M.D., Internal Medicine, Hematology/Oncology, Attending, 11/1/2006 – 10/31/2008

Kimberly A. Catania, C.N.S., Internal Medicine, Hematology/Oncology, Allied Health, 11/1/2006 – 10/31/2008

Jeffrey M. Caterino, M.D., Emergency Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Jeffrey M. Caterino, M.D., Internal Medicine, General Medicine, Associate Attending, 11/1/2006 – 10/31/2008

Karen M. Catignani, M.D., Internal Medicine, Hospitalist, Associate Attending, 11/1/2006 – 10/31/2008

Robert Cavaliere, M.D., Neurology, Attending, 11/1/2006 - 10/31/2008

Guillermo Chacon, D.D.S., Dentistry, Associate Attending, 11/1/2006 - 10/31/2008

Donald W. Chakeres, M.D., Radiology, Associate Attending, 11/1/2006 - 10/31/2008

Robert B. Chambers, D.O., Ophthalmology, Associate Attending, 11/1/2006 - 10/31/2008

Yiu-Chung Chan, M.D., Psychiatry, Associate Attending, 11/13/2006 - 10/31/2008

Amit K. Chatterjee, M.D., Internal Medicine, General Medicine, Associate Attending, 11/1/2006 – 10/31/2008

Ellen H. Chen, M.D., Internal Medicine, Cardiovascular Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Ennio A. Chiocca, M.D., Ph.D., Neurological Surgery, Associate Attending, 11/1/2006 – 10/31/2008

December 8, 2006 meeting, Board of Trustees

Anthimos J. Christoforidis, M.D., Radiology, Associate Attending, 11/1/2006 - 10/31/2008

Greg A. Christoforidis, M.D., Radiology, Associate Attending, 11/1/2006 - 10/31/2008

Albert C. Clairmont, M.D., PM&R, Associate Attending, 11/1/2006 - 10/31/2008

Johannah Clarke, C.N.P., Internal Medicine, Hematology/Oncology, Allied Health, 11/1/2006 – 10/31/2008

Daniel M. Clinchot, M.D., PM&R, Associate Attending, 11/1/2006 - 10/31/2008

Steven Clinton, M.D., Ph.D., Internal Medicine, Hematology/Oncology, Attending, 11/1/2006 – 10/31/2008

Rebecca Coffey, C.N.P., Surgery, General Surgery, Allied Health, 11/1/2006 - 10/31/2008

David E. Cohn, M.D., OB/GYN, Gynecological Oncology, Attending, 11/1/2006 - 10/31/2008

Sam C. Colachis, M.D., PM&R, Associate Attending, 11/1/2006 - 10/31/2008

David F. Colombo, M.D., OB/GYN, Associate Attending, 11/1/2006 - 10/31/2008

Maria Riza B. Conroy, M.D., Family Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Charles H. Cook, M.D., Surgery, General Surgery, Associate Attending, 11/1/2006 - 10/31/2008

Stephen C. Cook, M.D., Internal Medicine, Cardiovascular Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Glen E. Cooke, M.D., Internal Medicine, Cardiovascular Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Edward A. Copelan, M.D., Internal Medicine, Hematology/Oncology, Attending, 11/1/2006 – 10/31/2008

Christopher M. Copeland, M.D., OB/GYN, Associate Attending, 11/1/2006 - 10/31/2008

Larry J. Copeland, M.D., OB/GYN, Gynecological Oncology, Attending, 11/1/2006 - 10/31/2008

Laurel J. Courtney, C.N.S., Internal Medicine, Hematology/Oncology, Allied Health, 11/1/2006 – 10/31/2008

Theresa L. Craig, C.R.N.A., Anesthesiology, Allied Health, 11/1/2006 - 10/31/2008

Robert S. Crane, M.D., Family Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Juan A. Crestanello, M.D., Surgery, Cardiothoracic Surgery, Associate Attending, 11/1/2006 – 10/31/2008

Marc R. Criden, M.D., Ophthalmology, Associate Attending, 11/1/2006 - 10/31/2008

Holly R. Cronau, M.D., Family Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Rhonda Crockett, L.M.T., Family Medicine, Allied Health, 11/13/2006 - 10/31/2008

Elliott D. Crouser, M.D., Internal Medicine, Pulmonary, Associate Attending, 11/1/2006 – 10/31/2008

Julio C. Cruz, M.D., Pathology, Associate Attending, 11/13/2006 - 10/31/2008

Joseph K. Culver, C.R.N.A., Anesthesiology, Allied Health, 11/1/2006 - 10/31/2008

Camilla Curren, M.D., Internal Medicine, General Medicine, Associate Attending, 11/1/2006 – 10/31/2008

Ryan E. Dalton, M.D., Anesthesiology, Associate Attending, 11/1/2006 - 10/31/2008

James M. Dando, C.R.N.A., Anesthesiology, Allied Health, 11/1/2006 - 10/31/2008

Matthew E. Dangel, M.D., Ophthalmology, Associate Attending, 11/1/2006 - 10/31/2008

Curt J. Daniels, M.D., Internal Medicine, Cardiovascular Medicine, Associate Attending, 11/1/2006 - 10/31/2008

Marcella Dardani, D.O., Radiology, Associate Attending, 11/1/2006 - 10/31/2008

December 8, 2006 meeting, Board of Trustees

Mohan Das, M.B.B.S., Surgery, Vascular Surgery, Associate Attending,
11/1/2006 - 10/31/2008

Jason R. Davenport, M.D., Family Medicine, Associate Attending, 11/1/2006 -
10/31/2008

Frederick H. Davidorf, M.D., Ophthalmology, Associate Attending, 11/1/2006 -
10/31/2008

Elizabeth A. Davies, M.D., Surgery, Transplant, Associate Attending, 11/1/2006 -
10/31/2008

Steven M. Dean, D.O., Internal Medicine, Cardiovascular Medicine, Associate
Attending, 11/1/2006 - 10/31/2008

Ryan F. Deasy, M.D., Ophthalmology, Associate Attending, 11/1/2006 -
10/31/2008

Jonathan R. deHart, M.D., Pathology, Associate Attending, 11/1/2006 -
10/31/2008

Raul Weiss, M.D., Internal Medicine, Moderate Sedation, Assoc Attending, 11/1/2006

RESOLUTIONS IN MEMORIAM

Resolution No. 2007-69

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Gerald P. Brierley

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 22, 2006, of Gerald P. Brierley, Chairperson and Professor Emeritus in the Department of Molecular and Cellular Biochemistry.

Professor Brierley earned B.S. and Ph.D. degrees in biochemistry from the University of Maryland. He served as an officer in the U.S. Air Force and retired as a reserve captain. He completed a post-doctoral fellowship at the University of Wisconsin's famed Enzyme Institute under the tutelage of Dr. David Green. He joined The Ohio State University in 1964 and served as chairperson of the department from 1980 until his retirement in 1995.

Throughout his career Professor Brierley maintained a high level of accomplishment in all three categories of the academic endeavor. As a teacher at the graduate level he offered an advanced course in bioenergetics. He directed and lectured in a course on integration of metabolism that was and remains one of the required courses in the campus-wide biochemistry graduate program. Fourteen students conducted their Ph.D. degree thesis research under his direction and 11 investigators worked with him as post-doctoral fellows.

Dr. Brierley began his research pursuing the mechanism of oxidative phosphorylation. His early work was the first American verification of Nobel Laureate Peter Mitchell's theory of oxidative phosphorylation. He produced over 240 research publications, book chapters, and review articles. He is best known for his research on ion transport reactions in mitochondria and the metabolism of

December 8, 2006 meeting, Board of Trustees

isolated heart cells. His laboratory developed analytical methods and the importance of Ca^{2+} in mechanisms of cell injury. These efforts produced the first successful attempts to maintain cardiac myocytes in culture. The approaches developed remain as a core method in studying the biology of the heart. This led to the literature that now exists on cell death, cell injury, and the repair of injured cells in the heart.

Gerald Brierley was an active member of the University community and served on numerous school, college, and University committees. He was active in national and international professional societies. He served on National Institute of Health study sections as well as grant reviews for the American Heart Association and Veterans Administration. He was an editorial board member for the journals *Archives of Biochemistry and Biophysics*, the *Journal of Bioenergetics and Biomembranes*, and *Molecular and Cellular Biochemistry*.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Gerald P. Brierley its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Christie J. Geankoplis

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 15, 2005, of Christie J. Geankoplis, Professor Emeritus in the Department of Chemical and Biomolecular Engineering (previously the Department of Chemical Engineering).

He was born June 18, 1921, in Minneapolis, and graduated from the University of Minnesota in 1943 with a Bachelor of Science degree in chemical engineering. He attended graduate school at the University of Pennsylvania, where he received a Master of Science degree in chemical engineering in 1946 and a Ph.D. degree in 1949.

From 1943-46, Professor Geankoplis was chief engineer for the Atlantic Richfield Corporation, where he was in charge of process research to produce aviation gasoline for the armed forces. He was a member of the chemical engineering faculty at The Ohio State University from 1949 until his retirement in 1985. As a senior faculty member in the Department of Chemical Engineering, Dr. Geankoplis had a great deal of influence on departmental policies and direction as well as on the curriculum. He also provided valuable guidance and advice to younger faculty members.

After his OSU retirement, Christie Geankoplis joined the faculty of the Department of Chemical Engineering and Materials Science at the University of Minnesota. He was also a consultant for 20 years for General Mills Chemicals and for Battelle Memorial Research Institute, Columbus, Ohio.

His research focused on transport processes in biochemical engineering and biochemical reactor engineering. He wrote the chemical engineering texts *Transport Processes and Separation Process Principles* and *Mass Transport Phenomena*, and published more than 50 research articles.

An outstanding athlete, Dr. Geankoplis was the Minnesota state high school singles tennis champion in 1939 and won the doubles title twice. He was the captain of the tennis team at the University of Minnesota in 1942 and 1943. He was awarded the Big Ten Western Conference Medal in 1943 for the outstanding scholar athlete at Minnesota, the first time ever for a young minor sport.

December 8, 2006 meeting, Board of Trustees

On behalf of the University community, the Board of Trustees expresses to the family of Professor Christie J. Geankoplis its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Richard I. Hang

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 2, 2006, of Richard I. Hang, Professor Emeritus in the Department of Civil and Environmental Engineering and Geodetic Science.

Professor Hang received his Bachelor of Science degree in chemical engineering in 1946 and his Master of Science degree in chemical engineering in 1952, both degrees from The Ohio State University. Dr. Hang was a professor of engineering graphics in the original Department of Engineering Graphics and taught in the department for over 35 years. Professor Charles Vierck (Department of Engineering Drawing), who took over the publication of the successful engineering graphics texts by Professor Thomas E. French, acknowledged the work of Professor Hang in preparing illustrations for the textbook and designing problems for the workbook. Professor Hang co-authored three workbooks with Professor Vierck: *Engineering Drawing Problems*, *Fundamental Engineering Drawing Problems*, and *Graphics Science Problems*.

The Department of Computer Science and Engineering (originally called CIS – Computer Information Science) was established in 1968. This was one of the earliest departments of computer science formed in academia. Because of its clear and growing importance, there was a large and rapidly increasing demand by students to study this new and exciting discipline. At the same time there was a dearth of qualified instructors available. Professor Hang volunteered to teach some of the beginning courses for the CIS Department, since he had developed several of the new computer applications for his work in engineering graphics. In 1969 Professor Hang was given a joint appointment with the CIS Department. He continued to teach in the department until his retirement in 1983.

Professor Hang also served in the U.S. Army Air Corps during World War II.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Richard I. Hang its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Yehiel Hayon

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 4, 2006, of Yehiel Hayon, Professor Emeritus in the Department of Near Eastern Languages and Cultures.

Professor Hayon received his B.A. degree with honors in Hebrew language and literature from Tel Aviv University, and received his M.A. and Ph.D. degrees in linguistics from the University of Texas in 1968 and 1969, respectively. He joined The Ohio State University faculty in 1969. In November 1973 he was appointed the first recipient to the designated Professorship of Hebrew in the College of Humanities. He served as the head of the Division of Hebrew Language and Literature at OSU from 1974-79 and was instrumental in creating the Department of Judaic and Near Eastern Languages and Literatures in 1979. In October 1981 he was appointed as director of the Melton Center for Jewish Studies.

December 8, 2006 meeting, Board of Trustees

Professor Hayon was the author of two books. One of the first Hebrew texts geared to college teaching, the three-volume college series, *Modern Hebrew*, has been used in numerous colleges and universities around the country. His other book was *Relativization in Hebrew*. Dr. Hayon became internationally recognized in the area of Hebraica through his editorship of the *Hebrew Annual Review*, the first academic journal of Hebrew studies in the United States.

Professor Hayon had served on the executive board of the National Association of Professors of Hebrew, and was a member of the Linguistics Society of America and the Association of Jewish Studies.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Yehiel Hayon its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Betty J. Meyer

The Board of Trustees of the Ohio State University expresses its sorrow upon the death on October 25, 2006, of Betty J. Meyer, Professor Emeritus in the University Libraries.

Professor Meyer graduated with a Bachelor of Arts degree from Ball State College in 1940 and a Bachelor of Science in Library Science degree from Western Reserve University in 1945. She worked in the Grandview Heights Public Library following her college graduation, and joined The Ohio State University Libraries staff following the receipt of her library degree. She began her career at the OSU Libraries as a cataloger and moved into progressively more responsible positions until she was appointed assistant director for Technical Services in 1971, and retained that position until her retirement in 1983. Following the resignation of Hugh Atkinson as director of Libraries in 1976, she also served as acting director of Libraries until William Studer was appointed as director in 1977.

Professor Meyer was active in librarianship at local, regional, and national levels. Her national participation was primarily with the Resources and Technical Services Division (RTSD) of the American Library Association. She served on the RTSD Cataloging and Classification Section Policy and Research Committee and on the RTSD Board of Directors. Previously she had served as chairperson of both the RTSD Piercy Award Jury and the RTSD Resources Section Library Materials Price Index Committee. While serving as chairperson of the RTSD Council of Regional Groups, she also served as editorial advisor for Regional Groups for *Library Resources and Technical Services*, the professional journal of RTSD.

Professor Meyer was a central figure in the automation of library processes. She was a member of several of the early advisory groups that helped develop OCLC's shared cataloging system, which began in Ohio and subsequently spread to the rest of the country and then the world. She was also instrumental in the development of Ohio State's own catalog/circulation system, which took advantage of data generated via the OCLC system, and she adapted the Libraries' technical services organization and procedures to make best use of OCLC.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Betty J. Meyer its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

December 8, 2006 meeting, Board of Trustees

Joan L. Sharp

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 22, 2006, of Joan L. Sharp, Assistant Professor Emeritus in the School of Allied Medical Professions.

Professor Sharp received her B.S. degree from the University of Nebraska in 1952, and completed a dietetic internship at the University of Michigan in 1953. She then earned an M.S. degree at The Ohio State University in 1959.

She served as the director of Nutrition and Dietetics at The Ohio State University Medical Center and as assistant professor in Medical Dietetics in the School of Allied Medical Professions until she retired in 1988. She contributed immensely toward establishing the relationship between the academic setting of Medical Dietetics and the practice setting of the hospital, creating a learning environment for all students.

Throughout her years as director of Nutrition and Dietetics, she provided extensive service to the profession. She presided as president of the Ohio Dietetic Association from 1960-61 and of the American Dietetic Association from 1977-78.

On behalf of the University community, the Board of Trustees expresses to the friends and family of Professor Joan L. Sharp its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees.

Betty J. Thomas

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 15, 2006, of Betty J. Thomas, Associate Professor Emeritus in the College of Nursing.

Professor Thomas received a diploma in nursing from the Mt. Carmel School of Nursing in 1946, a Bachelor of Science in Education degree from The Ohio State University in 1950, and a Master's degree in psychiatric nursing from The Catholic University of America in 1958.

Professor Thomas began her work at Ohio State as a program director and instructor in the School of Nursing, now known as the College of Nursing, in 1958. She was promoted to assistant professor in 1961, associate professor in 1966, and served until her retirement in 1985. Her specialty area was psychiatric-mental health nursing.

During her tenure at OSU, Professor Thomas was the long-term program director of the National Institute of Mental Health project focusing on the integration of human relations and interpersonal relations skills throughout the curriculum. She taught senior level psychiatric-mental health courses, and received numerous teaching awards. Professor Thomas was an active member of the University community and served on numerous department, school, and University committees. Betty Thomas also created and taught a groundbreaking course in counseling and interpersonal relations for seminary students at the Pontifical College Josephinum.

She was a member of the American Nursing Association, the American Association of University Professors, and Sigma Theta Tau.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Betty J. Thomas its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon

December 8, 2006 meeting, Board of Trustees

the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

Eldridge A. Whitehurst

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 4, 2005, of Eldridge A. Whitehurst, Professor Emeritus in the Department of Civil and Environmental Engineering and Geodetic Science.

Professor Whitehurst received his Bachelor of Science degree in civil engineering from the Virginia Military Institute in 1947 and his Master of Science degree in civil engineering from Purdue University in 1950. His education had been put on hold from 1943-46 when he served in the U.S. Marine Corps. From 1947-50 he was employed by the Portland Cement Association in Chicago. He was primarily involved with developing equipment for measuring impulse velocities through concrete for testing concrete uniformity and durability, mostly for bridges and dams throughout the United States. Whitehurst was a research engineer at Purdue University from 1950-52.

Eldridge Whitehurst moved to the University of Tennessee in Knoxville in 1952, where he held positions as research engineer, professor of civil engineering, associate director of the engineering research station, and director of the Tennessee Highway Research Program. His specialty was concrete and pavement slipperiness. He did extensive work in accident reconstruction. He became a TSK (Technical Society of Knoxville) member and was a director in 1960 and 1962, vice president in 1963, and president in 1964. He also served as a member of the Technical Advisory Committee for the Urban Transportation Study for the Knoxville-Knox County Area and as a member of the Advisory Committee for the Tennessee State Traffic Control Devices Study.

Professor Whitehurst moved to The Ohio State University in 1970, where he held positions as professor of civil engineering, director of Transplex/OSU, and director of the Field Test and Evaluation Center for Eastern United States. He continued his studies in skid research and supervised the development of the Eastern Field Test Center and Reference Ski Measurement Systems. Professor Whitehurst retired in 1988.

Mr. Whitehurst was a licensed professional engineer in Virginia, Ohio, and Tennessee. He was a member of the American Road and Transportation Builders Association, the American Society for Testing and Materials Standards (ASTM), the American Concrete Institute, and the American Society of Engineering Education, and was a fellow of the American Society of Engineers. He was the recipient of the ASTM Award of Merit and the ASTM Tilton E. Shelburne Award.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Eldridge A. Whitehurst its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2007-70

Synopsis: The report on the receipt of gifts and the summary for October 2006 are presented for Board acceptance.

December 8, 2006 meeting, Board of Trustees

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The Sarah Ross Soter Endowed Chair in Women's Cardiovascular Health at OSU Heart Center; and

WHEREAS this report includes the establishment of eight (8) new named endowed funds, the revision of one (1) endowed chair, and the revision of three (3) endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of October 2006 be approved.

Total \$4,128,863.75

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Change in Name of Named Endowed Chair

William H. Havener, M.D. Chair in Ophthalmology

The William H. Havener, M.D., Chair in Ophthalmology Research Fund was established June 2, 1989 by the Board of Trustees of The Ohio State University with gifts from friends and colleagues in honor of William H. Havener, M.D. The description was revised on December 1, 1989. The funding level has been reached and the chair was established as the William H. Havener, M.D. Chair in Ophthalmology Research September 22, 2006. The name was revised December 8, 2006.

The annual distribution from this fund shall be used to provide support for a chair position to a faculty member in the Department of Ophthalmology who is an outstanding teacher of residents and medical students in clinical ophthalmology and who provides excellent patient care. The recipient will be recommended by the chairperson of the Department of Ophthalmology to the senior vice president for Health Sciences and the dean of the College of Medicine and approved by the Board of Trustees.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the senior vice present for Health Sciences and the dean of the College of Medicine. Any such alternate

December 8, 2006 meeting, Board of Trustees

distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Establishment of Named Endowed Fund

James R. Miller Scholarship Fund

The James R. Miller Scholarship Fund was established December 8, 2006, by the Board of Trustees of The Ohio State University with gifts in memory of James Richard Miller (B.S.Bus.Adm., 1938) from the OSU Alumni Club of New Mexico and friends.

The annual distribution from this fund shall provide merit-based scholarships for students from New Mexico. Scholarship recipients will be recruited, interviewed, ranked, and recommended by the Scholarship Committee of OSU Alumni Club of New Mexico and selected by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$28,517.00

Change in Description of Named Endowed Fund

The John Arthur and Theodore H. Harley Family Scholarship Fund

The John Arthur and Theodore H. Harley Family Scholarship Fund was established February 2, 1979, by the Board of Trustees of The Ohio State University with a gift from Theodore H. Harley (B.C.E., 1943) of Pittsburgh, Pennsylvania. The description was revised December 8, 2006.

Twenty percent (20%) of the annual distribution from this fund shall be reinvested in the endowment principal. The remaining eighty percent (80%) shall provide scholarships for graduates of Grove City, Ohio, public high schools who are pursuing a degree in materials science and engineering with preference to those who are specializing in ceramics. Scholarship recipients will be selected by the dean of the College of Engineering and the chairperson of the Department of Materials Sciences and Engineering in consultation with the Office of Student Financial Aid.

If no scholarship is awarded for five consecutive years based on the criteria above, scholarships may be awarded to graduates of Grove City, Ohio, public high schools who are enrolled in the College of Food, Agricultural, and Environmental Sciences. Scholarship recipients will be selected by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the Office of Student Financial Aid.

December 8, 2006 meeting, Board of Trustees

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Engineering and the chairperson of the Department of Materials Sciences and Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

THE OHIO STATE UNIVERSITY FOUNDATION

Establishment of Named Endowed Chair

The Sarah Ross Soter Endowed Chair in Women's Cardiovascular Health at OSU Heart Center

The Sarah Ross Soter Endowed Chair Fund in Women's Cardiovascular Health at OSU Heart Center was established February 4, 2005, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Sarah Ross Soter. The description was revised July 8, 2005. The funding level has been reached and the chair was established December 8, 2006.

The annual distribution shall provide a chair position in the Division of Cardiovascular Medicine in the College of Medicine in order to advance the medical science related to women's cardiovascular health. The position shall be held by a nationally eminent physician/researcher specializing in women's cardiovascular health as recommended by the senior vice president for Health Sciences and the dean of the College of Medicine in consultation with the director of the Division of Cardiovascular Medicine and the donor. The activities of the endowed chair holder shall be reviewed no less than every five years by the senior vice president for Health Sciences and the dean of the College of Medicine to determine compliance with the intent of the donor as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by senior vice president for Health Sciences, the dean of the College of Medicine, and the director of the Division of Cardiovascular Medicine. Any such alternate

December 8, 2006 meeting, Board of Trustees

distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$2,022,670.41

The Peter Paul Chichilo and Pauline Worster Chichilo Endowed Fund

The Peter Paul Chichilo and Pauline Worster Chichilo Endowed Fund was established December 8, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with unrestricted gifts given in the names of Peter Paul (B.S., 1943; M.S., 1947) and Pauline Worster Chichilo from Mr. Chichilo's estate.

The annual distribution from this fund shall be used by the University for general purposes at the discretion of the president and the senior vice president for Business and Finance.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

Amount Establishing Endowment: \$1,713,260.58

Dr. Charles W. Fox Family Teaching Excellence Award Fund

The Dr. Charles W. Fox Family Teaching Excellence Award Fund was established December 8, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Dr. Charles W. Fox (D.V.M., 1939).

The annual distribution from this fund shall provide a teaching excellence award in the College of Veterinary Medicine. The criteria will include superior ratings derived from course evaluation forms as well as prompt submission of student grades to the college office. The recipient shall be selected by a committee composed of previous awardees or distinguished teaching award winners from within the College as well as appropriate teaching excellence experts from outside the College but employed by The Ohio State University.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use benefiting the teaching faculty of the College of Veterinary Medicine shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$177,365.76

December 8, 2006 meeting, Board of Trustees

The Barbara Lynn Fisher Bott Endowed Scholarship Fund in Medical Dietetics

The Barbara Lynn Fisher Bott Endowed Scholarship Fund in Medical Dietetics was established December 8, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Kevin Neal Bott (B.S., 1976; M.A., 1980; Ph.D., 1981) and family and friends in memory and honor of Barbara Lynn Fisher Bott (B.S., 1977; M.S., 1979).

The annual distribution of this fund shall be used to support scholarships for undergraduate and graduate students enrolled in the Medical Dietetics Division of the School of Allied Medical Professions. The selection of the recipients of the Barbara Bott Scholarships shall be made based on academic merit or financial need and at the recommendation of the director of the Division of Medical Dietetics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist, or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the School of Allied Medical Professions and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

Carl C. Tucker Scholarship Fund

The Carl C. Tucker Scholarship Fund at The Michael E. Moritz College of Law was established December 8, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Robert C. Tucker (J.D., 1976) in memory of his father, Carl C. Tucker (B.A., 1932; J.D., 1934).

The annual distribution from this fund shall provide merit-based scholarships for students in the Moritz College of Law. Scholarship recipients will be selected by the dean of the Moritz College of Law in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

December 8, 2006 meeting, Board of Trustees

Dr. Gary W. Johnson Memorial Scholarship Fund

The Dr. Gary W. Johnson Memorial Scholarship Fund was established December 8, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Steven G. Kashishian, friends, and colleagues to honor Dr. Gary W. Johnson (B.S., 1957; D.V.M., 1960).

The annual distribution from this fund shall be used to fund one (1) scholarship for a student enrolled in the College of Veterinary Medicine. The scholarship recipient shall be selected by the dean of the College of Veterinary Medicine in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$37,050.00

Alpha Zeta Omega Henry E. Agin Scholarship Fund

The Alpha Zeta Omega Henry E. Agin Scholarship Fund was established December 8, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Alpha Zeta Omega Fraternity, Theta Chapter in honor of Henry E. Agin.

The annual distribution from this fund shall provide a need-based scholarship for a full-time PharmD student in good standing at The Ohio State University College of Pharmacy with a 3.0 or higher grade point average based on a 4.0 grading system and who comes from the Northeast Ohio counties (east to Pennsylvania, south to Mansfield, and west to Sandusky). Scholarship recipients will be selected by the dean of the College of Pharmacy and the assistant dean of Student Affairs in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Pharmacy and the assistant dean of Student Affairs. Any such

December 8, 2006 meeting, Board of Trustees

alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

The George H. Lohrman, M.D. Athletic Scholarship Fund

The George H. Lohrman, M.D. Athletic Scholarship Fund was established December 8, 2006, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from John D. Lohrman (B.A., 1982) in memory of his father, George H. Lohrman, an associate professor in the College of Medicine from 1956-86.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing a degree at The Ohio State University and is a member of the football team. Candidates must be from the State of Ohio and maintain a minimum grade point average (GPA) of 3.0. Scholarship recipients shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to prove unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Change in Description of Named Endowed Fund

Governor James A. Rhodes Scholarship Endowment Fund

The Governor James A. Rhodes Scholarship Endowment Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Ohio Expositions Commission, and friends of 4-H Youth Development, of Ohio FFA, and of the late Governor James A. Rhodes. The description was revised December 8, 2006.

The annual distribution from this fund shall provide one or more scholarships to incoming freshmen or undergraduate students at The Ohio State University College of Food, Agricultural, and Environmental Sciences, or OSU-ATI in Wooster. Scholarship recipients will have a history of active participation in Junior Fair activities at the Ohio State Fair. Scholarship recipients shall be chosen by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences or his/her designee.

December 8, 2006 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences and a committee representing the Ohio Expositions Commission, and 4-H and FFA representatives. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Change in Name of Named Endowed Fund

The Paula and Fred Brothers Endowment Fund for Breast Cancer Research in Memory of Genevieve Monti-Brothers

The Gloria Brothers Endowed Scholarship Fund for Student Exchange between Ohio State and Université de Rennes 2, Rennes, France was established July 9, 2004, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Fred Brothers in honor of his sister, Gloria, who studied in Rennes. The name and description were revised on February 1, 2006, to The Paula and Fred Brothers Endowment Fund for Breast Cancer Research, to reflect gifts from Paula Brothers, and to honor the memory of Fred's mother, Genevieve Monti-Brothers. The name was revised again December 8, 2006.

The annual distribution from this fund shall be used to support breast cancer research at the Comprehensive Cancer Center – The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute at The Ohio State University as approved by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

December 8, 2006 meeting, Board of Trustees

**INTERIM AUTHORIZATION
TO ENTER INTO DESIGN, CONSTRUCTION MANAGEMENT, AND
CONSTRUCTION CONTRACTS**

Resolution No. 2007-71

Synopsis: Authorization to enter into design, construction management, and construction contracts for University capital projects as necessary prior to the February 2007 Board of Trustees meeting is requested.

WHEREAS to support the Academic Plan, ensure timely design and construction of University facilities and improvements, and make the most effective use of limited financial resources, the University desires to move forward expeditiously with needed capital projects, subject to approval by the Board of Trustees; and

WHEREAS the next scheduled meeting of the Board of Trustees is on February 2, 2007; and

WHEREAS during the intervening period, the Board desires to facilitate such approvals, subject to appropriate review and oversight:

NOW THEREFORE

BE IT RESOLVED, That in the intervening period before the next regularly scheduled meeting of the Board of Trustees on February 2, 2007, the Chair of the Fiscal Affairs Committee, in consultation with the Committee and with the Chair of the Board of Trustees as appropriate, shall have the authority, on behalf of the Board of Trustees, to authorize design, construction management, and construction contracts, and approve other related actions, for University capital projects; and

BE IT FURTHER RESOLVED, That, during this period, as approved by the President, the Senior Vice President for Business and Finance shall present any needed actions to authorize design, construction management, and/or construction contracts or take any related actions for capital projects to the Chair of the Fiscal Affairs Committee, as she may direct, for review and approval; and

BE IT FURTHER RESOLVED, That, in accordance with the process outlined above and subject to the written approval of the Chair of the Fiscal Affairs Committee, the President and/or Senior Vice President for Business and Finance shall be authorized to enter into design contracts and construction management contracts and enter into construction contracts, if satisfactory bids are received, and take any other related actions on capital projects, in accordance with established University and State of Ohio procedures, with these actions to be reported to the Board at the February 2007 meeting; and

BE IT FURTHER RESOLVED, That the authority granted by this resolution shall expire as of the February 2, 2007 meeting.

**APPROVAL TO ENTER INTO DESIGN AND CONSTRUCTION CONTRACTS,
AND TO INCREASE CONSTRUCTION CONTRACTS**

Resolution No. 2007-72

APPROVAL TO ENTER INTO DESIGN CONTRACTS
DOAN HALL – PET/CT SCANNER INSTALLATION
NEWARK – HOPEWELL AND FOUNDERS HALLS RENOVATIONS
OLENTANGY TRAIL IMPROVEMENTS – PHASE I

RESIDENCE HALL ELEVATOR UPGRADES
SMITH LABORATORY REHABILITATION

APPROVAL TO ENTER INTO CONSTRUCTION CONTRACTS

650 ACKERMAN ROAD – OSUMC BUILDING #4
BEVIS HALL – BIOMEDICAL ENGINEERING BASEMENT
LABORATORY SPACE
BEVIS HALL – BIOMEDICAL ENGINEERING LABORATORY RENOVATION
CENTRAL CLASSROOM BUILDING – CLASSROOM RENOVATIONS
CLINICAL SPACE REORGANIZATION – 10 WEST RHODES
INPATIENT ROOMS
INCREASE CAMPUS ELECTRIC CAPACITY PHASE I
(THIRD TRANSFORMER)
JOURNALISM BUILDING – MULTI-MEDIA CLASSROOM
OHIO UNION GARAGE RENOVATION AND EXPANSION
OLENTANGY TRAIL IMPROVEMENTS – PHASE I
RESIDENCE HALL ELEVATOR UPGRADES

APPROVAL TO INCREASE CONSTRUCTION CONTRACTS

AMBULATORY MARROW TRANSPLANT UNIT 11TH FLOOR RENOVATION
OARDC FEED MILL

Synopsis: Authorization to enter into design and construction contracts, and to increase construction contracts, as detailed in the attached materials, is requested.

WHEREAS in accordance with the attached materials, the University desires to undertake, and enter into design contracts for, the following projects:

Doan Hall – PET/CT Scanner Installation (N/A)	\$1.91M	Hospitals operating funds
Newark – Hopewell and Founders Halls Renovations (05-06 capital request)	\$7.11M	State, Newark development, and COTC State funds
Olentangy Trail Improvements – Phase I (07-08 capital request)	\$0.42M	State funds
Residence Hall Elevator Upgrades (N/A)	\$1.90M	Student Affairs operating funds
Smith Laboratory Rehabilitation (05-06 capital request)	\$2.80M	State funds

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following projects:

650 Ackerman Road – OSUMC Building #4 (N/A)	\$3.16M	Hospitals operating funds
Bevis Hall – Biomedical Engineering Base. Laboratory Space (N/A)	\$0.68M	College operating funds
Bevis Hall – Biomedical Engineering Laboratory Renovation (05-06 capital req)	\$0.49M	State funds
Central Classroom Building – Classroom Renovations (05-06 capital request)	\$0.95M	State funds
Clinical Space Reorganization – 10 West Rhodes Inpatient Rooms (N/A)	\$0.32M	Hospitals operating funds
Increase Campus Electric Capacity Phase I (Third Transformer) (07-8 capital request)	\$6.00M	2007 bond proceeds
Journalism Building – Multi-Media Classroom (N/A)	\$0.49M	College operating funds

December 8, 2006 meeting, Board of Trustees

Ohio Union Garage Renovation and (07-08 capital request)	\$20.90M	2007 bond proceeds and T&P operating funds
Olentangy Trail Improvements – Phase I (07-08 capital request)	\$0.42M	State funds
Residence Hall Elevator Upgrades (N/A)	\$1.90M	Student Affairs operating funds

WHEREAS in accordance with the attached materials, the University desires to increase construction contracts for the following projects:

Ambulatory Marrow Transplant Unit 11th Floor Renovation (N/A)	\$2.02M	Hospitals operating funds
OARDC Feed Mill (98-99 capital request)	\$6.61M	State and Grant funds

**Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project; renovation projects funded by internal office or departmental funds that are noted as "N/A" have not had separate capital project authorization because of their smaller size or because they arose unexpectedly between capital planning cycles.*

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into design and construction contracts, and to increase construction contracts, for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix XXVI for background information and maps, page 655.)

CONTRACTS -- AMENDMENT

Resolution No. 2007-73

EMPLOYMENT OF EXECUTIVE ARCHITECT, ENGINEERS, PROGRAMMING, DESIGN, DESIGN OVERSIGHT, AND CONSTRUCTION MANAGEMENT SERVICES

MEDICAL CENTER FACILITY MASTER PLAN – CLINICAL EXPANSION PROJECTS

Synopsis: Authorization to amend the resolution for contracts for executive architect, engineering, programming, design, design oversight and construction management services for the Medical Center Facility Master Plan – Clinical Expansion is requested.

WHEREAS the Medical Center Facility Master Plan is a strategic initiative that will create a unique physical and intellectual environment that will enable the Medical Center to expand its services in meeting its research, clinical and education missions to achieve parity with top-quality academic medical centers nationwide; and

WHEREAS the Facility Master Plan proposes master plan projects envisioned to consist of the South Cannon Garage replacement, other parking facilities, Ross Heart Hospital Expansion, Digestive Health/North Doan Faculty Office Tower,

December 8, 2006 meeting, Board of Trustees

MRI relocation, Diagnostic and Therapeutic Building, in-patient towers, ambulatory services, and various demolition, and renovation projects, site and civic infrastructure and faculty office projects, with an estimated project cost of \$780 million, with funding to be provided through University bond proceeds, with debt service to be paid by the Medical Center; and

WHEREAS to pursue this plan, the University desires to enter into contracts for programming, schematic design, design oversight, phasing, cost projections, scheduling and planning for further development of the clinical program, and the total costs is expected to be up to \$20 million, with funding to be provided through University bond proceeds, with debt service to be paid by the Medical Center; and

WHEREAS the University desires to select schematic design, design oversight programming, and construction management professionals now to provide all of these services at a level not to exceed \$20 million; and

WHEREAS the University will work to finalize the business, parking, and infrastructure plans for these Clinical Expansion projects before seeking Board of Trustees authorization to enter into individual project design and/or construction contracts that require additional infrastructure support; and

WHEREAS at its ~~June 2, 2006~~ November 4, 2005, meeting, the Board of Trustees authorized the University to begin the selection process for these professional services up to \$10 million, and that this amount has been utilized in planning to date:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to select qualified executive architectural, engineering, programming, design, design oversight, and construction management firms as necessary for these Medical Center Facility Master Plan – Clinical Expansion projects, provided that no more than approximately \$225 million in additional University debt capacity be used for these projects through FY 2007; and

BE IT FURTHER RESOLVED, That the University is authorized to spend up to \$20 million for these executive design and planning services and that any additional expenditure for these services shall require subsequent authorization from this Board; and

BE IT FURTHER RESOLVED, That design development and construction for specific projects within the Clinical Expansion projects shall require separate Board of Trustees authorization, provided that no authorization for construction contracts is to be submitted to the Board until a business plan is approved by the University.

EASEMENT

Resolution No. 2007-74

COLUMBUS SOUTHERN POWER COMPANY
960 KINNEAR ROAD
COLUMBUS, OHIO

December 8, 2006 meeting, Board of Trustees

Synopsis: Authorization to grant Columbus Southern Power Company an easement to provide electric utility service to The Ohio State University, Columbus, Ohio, is proposed.

WHEREAS Columbus Southern Power Company has requested a 133 square foot easement for a transformer pad and a 5-foot wide by 90-foot long easement for a utility line for a term of 25 years to provide electric utility service to 960 Kinnear Road; and

WHEREAS this easement will serve and benefit the Columbus campus and the appropriate University offices have determined that the grant of this easement is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve and the Ohio Department of Administrative Services be authorized to prepare appropriate documents and grant an easement to Columbus Southern Power Company upon such terms and conditions as are in the best interest of the University.

(See Appendix XXVII for map, page 675.)

ACCEPTANCE OF THE REPORT OF AUDIT FOR 2005-2006

Resolution No. 2007-75

Synopsis: The report of the audit of the financial statements for The Ohio State University for 2005-2006 conducted by Deloitte & Touche is recommended for acceptance.

WHEREAS, with the approval of the Auditor of State, The Ohio State University entered into a five-year agreement with Deloitte & Touche in 2006 for an annual audit of the University for fiscal years 2005-2006 through 2009-10; and

WHEREAS the Deloitte & Touche audit of the University for 2005-2006, meeting the requirements of the Auditor of State, has been received and the accounts, records, files, and reports of the University have been found to be in satisfactory condition, and certain constructive service comments have been discussed with the Audit Committee; and appropriate procedures and responses are being developed as a result of these comments:

NOW THEREFORE

BE IT RESOLVED, That the report of the Deloitte & Touche audit for The Ohio State University for 2005-2006, including the report on the audit of the University's financial statements and the summary of constructive service comments to management, be accepted.

Upon motion of Mr. Borrer, seconded by Mr. O'Dell, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Davidson, Borrer, O'Dell, Shumate, Hicks, Fisher, and Shackelford.

December 8, 2006 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS AND GRANTS

Resolution No. 2007-76

Synopsis: The report on research and other sponsored program contracts and grants and the summary for October 2006 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, and other agencies in support of research, instructional activities, and service; and

WHEREAS such monies are received through The Ohio State University Research Foundation:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein during the month of October 2006 be approved.

Upon motion of Ms. Hendricks, seconded by Mr. O'Dell, the Board of Trustees adopted the foregoing resolution with nine affirmative votes, cast by Trustees Duncan, Hendricks, McFerson, Davidson, Borrer, O'Dell, Shumate, Fisher, and Shackelford, and two abstentions cast by Trustees Cloyd and Hicks.

APPOINTMENT AND REAPPOINTMENT OF INVESTMENT MANAGERS

Resolution No. 2007-77

Synopsis: Approval of the Appointment and Reappointment of Investment Managers is proposed.

WHEREAS it is the policy of The Ohio State University to utilize the service of external Investment Managers to assist in the management of the University's Endowment Fund; and

WHEREAS the Investments Committee of the Board of Trustees periodically reviews the results obtained by the external Investment Managers and the amount of funds assigned to each of them; and

WHEREAS it is prudent investment policy to adjust the mix and amounts of money assigned to external Investment Managers as economic conditions and performance change; and

WHEREAS the number of external Investment Managers and the amount of funds assigned to them shall be determined by the Board of Trustees:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Investments Committee of the Board of Trustees the following named external Investment Managers and the Office of the Treasurer shall be approved to manage Endowment Funds as follows:

WHO GETS IN, WHO GETS THROUGH: FROM ACCESS TO SUCCESS

Provost Barbara R. Snyder:

Thank you very much for this opportunity to report on what we are doing at Ohio State to make it financially accessible for every qualified student. As I said when I appeared before you in September, economic access is one of our key priorities this year in the Office of Academic Affairs. In her state of the University Address, President Holbrook identified accessibility as a defining characteristic of a great university, welcoming all academically talented students as a cornerstone of our land-grant mission, and a resolve of our Academic Plan.

Let me start today's conversation with a couple of updates. I am going to call the first one a piece of interim good news. On Wednesday, the Arts and Sciences' Faculty Senate voted to approve a Bachelor of Arts degree at 181 total credit hours, which will allow more of our students to graduate in four years. The Bachelor of Science degree vote will follow in January, as will votes in our other colleges that teach undergraduate students on the GEC revisions. I expect to be able to take the package to the University Senate in March and to this Board in April.

Another update is that we have the -- hot off the presses -- Academic Plan Update for 2006. We are very proud of it. It contains considerable evidence of Ohio State's increasing stature, including snapshots of some of our latest efforts to assure that lower income students do have access to an Ohio State education. This year we have earmarked \$71 million of our budget for financial aid. To begin our discussion for today on economic access, I want you to preview an ad that will be part of the National Ad Council campaign that will be launched next month.

[Video]

Provost Snyder:

Aimed at 8th-10th graders, the KnowHow2Go Campaign has been created by the same people who brought you the AFLAC duck. As you have heard, it informs students about the first and most important step in getting into college -- finding someone who can help. We have that person right here at Ohio State and she has joined us for today's discussion, Tally Hart, senior advisor for Economic Access. This is a position that we have created to ensure that we are doing everything we can to make sure students "KnowHow2Go" as the ad says, and that we are doing our best to make sure that it is financially possible for them to do so.

The KnowHow2Go Campaign is a response to a disturbing wake-up call about educational preparedness in our country. Research recently released by the World Economic Forum is the latest indication that the United States is losing ground in readying new leaders for the global economy. According to the Forum Survey of Education in 125 countries, the educational system in the United States now ranks a dismal 15th, just one notch ahead of Barbados and well after the educational systems of Finland, Singapore, and Iceland, which were the top three. When it comes to math and science education the news is worse still, the United States came in at 42nd. Last winter's commencement speaker, Shirley Ann Jackson, is not surprised. On

her website this former president of the American Association for the Advancement of Science and current president for Rensselaer Polytechnic Institute, alerts us to the widening gap between our nation's need for scientists and our production of them. Dr. Jackson says that our nation's technological strength depends entirely on its ability to attract, educate, and retain the best science and engineering workers. She then issues this clarion call, "our government, universities, and industries must act now to develop the intellectual capital of the future." Ohio State expects to be a leader in developing that intellectual capital.

In order to do so, we have to rewrite today's higher education scenario in which students with the highest ability and lowest income are less likely to go to college than students with the lowest ability and highest income. In this scenario, some of our most academically-able citizens are not being college educated. The first step in halting today's intellectual waste and turning it into tomorrow's intellectual capital is to open the University's doors even wider to academically-talented students irrespective of their financial need.

We are making some progress in welcoming a more economically diverse student body. Just last month, in fact, a report was issued by the Education Trust, which is the higher education equivalent to the Children's Defense Fund. In that report, Ohio State was cited for its work in closing the access gap for low income and minority students. This report gives us kudos for our aggressive recruitment of low-income students, noting that 26% of our student body qualified for Pell Grants, considered the backbone of federal financial aid for the very neediest of students. I am happy to say that ratio has risen from 23% in the 2004-2005 academic year, which was the snapshot year used recently by *The Chronicle of Higher Education* in reporting on the proportion of the nation's undergraduates receiving Pell Grants. According to the data that appeared in *The Chronicle's* May 16 issue, Ohio State ranked 9th among public institutions. Though our sister universities are working just as hard in this area as we are, I wouldn't be surprised to learn that we have risen on this list especially since only 2.5% points separates the institutions ranked from 3-10. The University of Cincinnati and UCLA top the list by quite a considerable margin.

However let me be clear, despite these hopeful signs, we are not satisfied with where we are as an institution and that is why we created the Office of Economic Access. Under Tally's direction, Ohio State will accelerate its efforts to educate students and their families about the financial resources available for low-income students who want to go to college. She is here to tell you about how her office is working to make that happen.

Ms. Natalia K. Hart:

Thank you for this opportunity to be here today and also to have the chance to introduce some of the talented people who are joining our small, but mighty office in this important objective.

Provost Snyder has set the stage perfectly. Education of all Ohioans is crucial to the sound economic future for our state, our nation, and especially for all of our children. It is the right thing to do, but it is also the smart thing to do. Ohio State has worked to optimize access and success. You know the great data of a 91.5% freshman to sophomore retention rate and a 71% graduation rate. That also applies to our lowest income students on campus, as well as our higher income students. Even those great successes are not enough for Ohio's future.

December 8, 2006 meeting, Board of Trustees

According to estimates from the Lumina Foundation, if the United States is to regain the top position economically and internationally, Ohio alone needs 450,000 more college graduates on our base of 1.1 million. I am sure you find that as staggering as I do. Because Ohio has, by many standards, maximized college going among higher income families, the only resource that we have to capitalize on are students who fall into the lowest quartile of income throughout our state.

So what will the Office of Economic Access do to help solve the problem, not just for Ohio State but for the State of Ohio? First we will connect key players and work already underway. One of the biggest jobs we have is not replicating the many things that are already going on with faculty and other offices.

An example of our work is to combine with Extension, in both their urban and rural efforts, to deliver through our Extension Service Offices these key messages. I would like Deb Van Camp to recognize herself. She is a sterling example of a rural student like those we hope to reach in the future. She has been active in 4-H and FFA, is an Ohio State Land-Grant Scholar, and is on staff in our office as a student employee. She is coming up with her own ideas from a student perspective about how we can reach more students like her in Ohio's rural areas.

We are participating with the Office of Integrated Technologies. Connecting with rural Ohio, this project is our colleague's pilot delivery of technology to rural areas. They say they build the pipelines and we are building content to deliver through those pipelines so that more families have access to information about going on to college.

When I say "going on to college" I want to be clear it is not just coming to Columbus and Ohio State. We are working on the message of the importance of going on beyond high school whatever the right fit is for that student. We will showcase faculty and staff who are the first in their families to go to college. Our own students often feel that every faculty member in the classroom or staff member that they encounter is a person from multiple generations of college going. We know that is not true. We need to show them the models from our very own faculty and staff who were like them when they were in high school as a way to show it can be done and it has been done through Ohio State.

We know one of the ways that younger students want to learn about college is from college students. I am afraid they think that people like me were in college a long, long time ago; they want to hear from people who are here now. Research shows that they are the best voice to connect our students with those in grade schools and projects to determine how to make this effective model of linking students to younger students to encourage them to go onto college. We are going to provide a catalyst for academic research.

The Office of Economic Access will welcome interns such as Kristin Layous, who is a master's candidate in higher education policy and is doing a practicum with our office. We are supporting the social justice program at Honors and Scholars, which is an emerging program to work on access for low-income middle school students.

We are working with the College of Education and Human Ecology to assure that those who plan to teach leave Ohio State with a game plan to encourage college going among lowest income students. We are working with faculty and staff to develop tools that target young boys. We

discovered that they have a different learning pattern about this whole issue of access. Patty Cunningham, who is a Ph.D. candidate here at Ohio State, is working on an idea that we hope might be patented one day about a high-tech game that simulates the steps to go to college. We think it would be encouraging for both boys and girls, but especially encouraging for young men.

A third area that we are working on is to develop grants and pilot programs to serve as national models. This is going to be led by Laura Lembo Kraus, associate director of the office, who demonstrated her ability in program development as part of our wonderful First Year Experience series. We are working with Hilliard Schools tutoring students in our target audience on Saturdays as part of Adopt a School Program. We are also providing classes during those same sessions to their parents about the steps to go into college. With Laquore Meadows, a Ph.D. candidate, we are going to do that technologic connection between some of our honors students and students who are in area schools that are not served by wonderful groups like I Know I Can. So we are working very carefully to be sure that we don't overlap with existing solid programs in our state.

Finally, we are part of the University's strategic planning to assure that access can start not just at the Columbus campus, but from many points to achieve the right initial fit for students. Our efforts are aimed at low-income students going on to college and we will continue to work with Julia Benz, our wonderful new director of Financial Aid, and our colleges to assure that we are leveraging that substantial investment that Provost Snyder explained and college funds to support our needy students who do come to Columbus.

There is a poster in your packet that will be in high schools, along with the National Ad Council Campaign from the Lumina Foundation and ACE. It shows in the third pane the importance of the right fit. Our goal is to have any Ohioan start in the right place for them, but, hopefully, end up in the 'Shoe' at graduation, whether that path begins at a regional campus, a community college, or another undergraduate institution such as Central State. It is a big job, but we plan to do something great not just for Ohio State but for the State of Ohio.

I will turn it back over to Provost Snyder with thanks for her vision in leading us in this effort.

Provost Snyder:

Thank you, Tally. I think you can see why we believe Ohio State has an opportunity to set the standard for the nation in getting qualified low-income students into the college pipeline. Tally mentioned that we have given each of you a preview of the KnowHow2Go Campaign poster, because we want you to understand our serious commitment to achieving this goal. Clearly, our work is cut out for us. I want to close with a radio spot from the KnowHow2Go Campaign created especially for those students who really don't know how to go. For many of them, the only model for getting to college is waiting for the coach to call or ring the doorbell with an invitation.

[Radio Spot]

Provost Snyder:

With Tally's leadership and that of Julia Benz, director of Financial Aid, I fully expect to come back to you in the future and say that we have become

December 8, 2006 meeting, Board of Trustees

the nation's leader in enabling financial access to higher education. We would be happy to respond to any questions.

Dr. Cloyd:

Thanks for that great presentation. The Education Trust Report that you referenced titled "Engines of Inequality," the Ohio State reference was the only thing in that whole report that was positive. You have outlined well what I think the problems are.

First, I would like to applaud the leadership at the University for not accepting that you either have high-quality students to raise your ranking or you provide access and a means to support the success of minority and low-income family students in getting a post-secondary education. I think it is just terrific that you have taken it on. As you noted, there are a lot of challenges here and it is encouraging, at least to me, to see the breadth of the programs. I think it is one of the highest priorities we have as a University and, therefore, as a Board in supporting you to get that leadership status.

I think one of the things that could be good is if we could achieve the goals' metrics. What would really be the right things for us to be monitoring, so you could tell us if we are not making the success that we should be as you evaluate the plethora of wonderful programs that you have underway.

The last thing that I would mention is that I really like the idea of the way you are building networks. I applaud the students that are getting involved in this. I agree with you that there will be no stronger group that we can bring in than for young people to help other young people understand what they need to do. I hope we are being as supportive as we can to the students that are helping us in this effort.

Provost Snyder:

Thank you, Dr. Cloyd. I would also like to say something about the Education Trust Report. It was a report on the flagship universities of the fifty states and how they are failing in their mission to provide access to higher education for minority students and students from the lowest income brackets. They graded every flagship institution -- there were no A's; 4 institutions got B's; and The Ohio State University got a C. Obviously, one measure of our success will be future reports of the Education Trust.

Another thing that we have already been working on is increasing the number of Pell Grant recipients that we have as a percentage of our incoming student class. Another metric measures the percentage of students from the lowest income brackets. We are working hard on those measures as well as making sure that when we bring those students here, we support them through the kinds of programs that Martha talked about.

Ms. Shackelford:

If students who have gained access and have financial need don't get the support when they get to campus, they are likely to leave. I think that goes back to the report earlier. I think you should have for all students a required course -- and it may be in the First Year Experience -- on how to manage their finances, and a place where they can go if they get in financial trouble that is central and accessible. I can tell you from personal experience with I Know I Can, we have increased the retention numbers a lot here by simply having a place where they could go. You have a college access network in

December 8, 2006 meeting, Board of Trustees

Ohio that can help you with this if you get all their students together. I went twenty years ago and couldn't find my way into an office to get them to listen to the message of support once the students got here. It is just critical what you are doing and I know you will do it well.

Mr. Fisher:

I would like to broaden the base a little bit. Ms. Hart, is your program at work compatible with our policy on selective admissions?

Ms. Hart:

I believe it is, Mr. Fisher. That is why my closing thought was we have to think more broadly about where students begin and understand we really are encouraging students for whom the Columbus campus is the right fit and that means an ability to graduate and attend here. That is why efforts like our Land-Grant Opportunity Scholars that reaches, as a seed effort, a student in every county who has the highest need and highest ability. Part of the reason why that works is that our students don't do anything separate. They fill out their admissions application one time and their financial aid application one time. That means we are drawing in, and we believe we have evidence of it, more low-income students who don't get that scholarship, but find out what a phenomenal financial aid package we have once they do apply and are admitted.

It also means though that access has to be thought of differently. We are working very extensively under Provost Snyder's leadership with a model about better access through our regional campuses and through community colleges. That is why the picture of graduation at the 'Shoe' reflects a lot of different entrance points.

I happen to believe very firmly in our admission standards, because they do correlate with who graduates and who completes. It does cause our need to redouble our efforts to be sure that low-income students are well represented in that model. I am a proponent of it simply because a student from low-income who comes here, gets debt -- even at a small level -- and leaves is in worse condition, than if they hadn't gone to college at all. We are working interactively to be sure that we get the right students under our admissions' criteria, but also look for these other avenues of access because we also know they are formulas for success. Thank you.

Provost Snyder:

I would add that one of the most devastating failures of higher education is what I told you earlier -- that the highest income, lowest ability students go to college at a higher rate than the lowest income, highest ability students. There really is something terribly wrong with that. It's not just selective admissions that is causing that kind of failure. It really does have to do with our ability to draw the most talented students into higher education and make them realize that college is possible at a time in their lives when it is early enough for them to make the kinds of decisions that will allow them to be ready when they graduate from high school.

(See Appendix XXIX for background information, page 687.)

--0--

December 8, 2006 meeting, Board of Trustees

Judge Duncan:

We have one item of new business and I would like to call on Dr. Allan Silverman, chair of the Faculty Council.

Dr. Allan J. Silverman:

Thank you, Mr. Chairman. On behalf of the faculty, I want to take a moment to honor one of our own, one of the great ones who put down the chalk for the last time.

I met David Frantz when I was an undergraduate student at Ohio State. I heard about him for the first time when I was an honors student on the twelfth floor of Taylor Tower. I was trying to figure out what courses to take and everybody said, "You have to take this course on Shakespeare from this assistant professor of English." I never got to take that course; I was a major in other areas.

I came back in 1985 as a faculty member and he was no longer an assistant professor of English. He has done many things in his career, but one thing he always did most consistently was teach one of the best classes at this University. I spent a lot of time looking through honors files, especially for some of the highest ability students -- Marshall, Rhodes, Melons -- and there was one constant, almost all of them had been through David Frantz's Shakespeare course. The faculty of the University seldom agrees about any one thing, but it is fair to say, if you asked, "Who is in the pantheon of teachers at this University?," there is absolutely no doubt that David Frantz belongs there.

Besides my personal respect and admiration, David, I brought what every great teacher gets at the end of their career -- an apple!

Dr. David O. Frantz:

Thank you.

--0--

Thereupon the Board adjourned to meet Friday, February 2, 2007, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

Attest:

Robert M. Duncan
Chairman

David O. Frantz
Secretary

(APPENDIX XXV)

IMPACT STATEMENT
THE OHIO STATE UNIVERSITY HOSPITAL
BOARD BYLAWS

AMENDMENTS APPROVED BY
THE UNIVERSITY HOSPITAL BOARD
ON NOVEMBER 16, 2006

The proposed amendments to the Bylaws of The Ohio State University Hospital Board provide for the following revisions:

- A. To conform the bylaws to decisions made by the Board of Trustees in terms of the structure of the Board.
- B. To reconstitute the Professional Affairs Committee
- C. To add the dean of the College of Medicine to the Board

UNIVERSITY HOSPITALS BOARD BYLAWS

Amended Bylaws

3335-93-01 University hospitals board.

The body responsible to the Ohio state university board of trustees for oversight of patient care services, financial performance, and the university hospitals' support of the Ohio state university health sciences academic programs, shall be known as the university hospitals board (herein called hospitals board).

(A) The hospitals board will be composed of two members of the Ohio state university board of trustees (trustee members), twelve citizens from the general public (citizen members), and the chairperson of the ~~integrated college central~~ faculty practice group ~~or other senior faculty physician leader~~, all appointed by the Ohio state university board of trustees in consultation with the president of the university.

(B) The president of the Ohio state university, the executive director, medical director and chief of the medical staff of university hospitals, senior vice president for health sciences, ~~and~~ dean of the college of medicine ~~and public health~~, and vice president for health services shall be ex-officio members with vote of the hospitals board.

(C) and (D) unchanged.

~~(E) In addition to the hospitals board members, the following, at the hospitals board's request, will participate in deliberations, will receive agenda and minutes, and from time to time will be invited to attend hospitals board meetings and other activities, and to submit agenda items:~~

~~Deans of health sciences colleges~~

~~(F)~~(E) Unchanged.

~~(G)~~(F) Unchanged.

3335-93-02 Powers and duties.

Members of the hospitals board shall be responsible to the university board of trustees for the oversight of patient care services in and financial performance of university hospitals and for ensuring that the hospitals' activities support the health sciences programs of the university. Although it is understood that the university board of trustees cannot delegate its ultimate authority over and responsibility for the hospitals--including determination of policy for the fiscal health of the university hospitals, its personnel policies, or the definition of the hospitals' mission--the hospitals board will be delegated the authority and responsibility set forth herein, consistent with Ohio law. The university hospitals board will be responsible for, subject to the authority and periodic review of the university board of trustees, the following:

(A) through (G) unchanged.

(H) Review and ~~approval of~~ recommend operating and capital budgets prior to their submission to the Ohio state university board of trustees by the university president.

(I) and (J) unchanged.

(K) ~~Approval~~ Recommending and monitoring strategic plans consistent with the strategic plan for the university medical center.

(L) Unchanged.

3335-93-04 Meetings and notice.

(A) Regular meetings. Regular meetings of the hospitals board may be held each month, or on a schedule established by the board, at times which shall be set and publicly announced ~~by the chairperson of the board~~ and/or at such other time or place as may be announced by the chairperson.

(B) through (D) unchanged.

3335-93-10 Responsibilities of executive director of university hospitals.

The executive director shall have such authority as may be conferred by the senior vice president for health sciences ~~and dean of the college of medicine and public health~~, the vice president for health services, and the hospitals board. The executive director shall be responsible for the operation of university hospitals and shall serve as the chief executive ~~and operating~~ officer. The executive director will coordinate and prioritize matters of capital medical equipment, clinical space, and clinical programs with the medical director.

3335-95-02 Chairperson.

The chairperson of the board shall appoint all committee members; shall preside at all meetings of the board; and shall be responsible for approving the agenda for board meetings; ~~and shall make an annual report to the university board of trustees and such other reports as the Ohio state university board of trustees may require.~~ The chairperson shall have such other and further duties and authority as may be prescribed elsewhere in these bylaws, or from time to time by the hospitals board.

3335-97-01 Committee designations.

The board shall establish ~~an executive committee, a strategic planning committee, an administrative/operations committee, a professional affairs/education/research committee, a finance and audit committee,~~ and such special purpose committees as may be necessary. The chairperson of the board shall appoint the board's representatives to the committees; the president of the university may designate any officer of the university to attend meetings of the committees as ex-officio members without vote. ~~The senior vice president for health sciences and dean of the college of medicine and public health and the medical director, may attend meetings as ex-officio members.~~ The hospitals executive director shall attend all meetings and act as secretary.

~~3335-97-02 Executive committee.~~

~~(A) Responsibilities. The executive committee shall:~~

- (1) ~~Transact business of the hospitals board between regular meetings of the board.~~
 - (2) ~~Coordinate the board's education and self-evaluation activities, and interaction with the Ohio state university board of trustees. The summary of the annual self-evaluation will be shared with the full hospitals board and communicated to the university trustees in accordance with rule 3335-93-03 of the Administrative Code.~~
 - (3) ~~Coordinate board activities and committee representation.~~
 - (4) ~~Ensure review of the hospitals board bylaws every other year, and forward the report/recommendations to the full hospitals board. Modifications will be forwarded to the university trustees for review and approval as appropriate and in accordance with rule 3335-103-01 of the Administrative Code.~~
 - (5) ~~Receive and act on reports from the medical staff administrative committee and/or the professional affairs/education/research committee regarding credentialing.~~
- (B) ~~Composition. The executive committee of the hospitals board shall consist of: the chairperson of the hospitals board, who will serve as chairperson of the committee; the vice chairperson of the hospitals board; the immediate past chairperson of the hospitals board; the president of the university; the chairpersons of all standing committees of the hospitals board; and the two trustee members of the hospitals board. The senior vice president for health sciences and dean of the college of medicine and public health, or other officer designated by the president of the university, and the medical director, the hospitals executive director, the chief of the medical staff, and the chief of staff elect, shall serve as ex-officio members.~~
- (C) ~~Meetings. The executive committee shall meet at the call of the chairperson and shall advise the hospitals board of its activities.~~

~~3335-97-03 Strategic planning committee.~~

- (A) ~~Responsibilities. The strategic planning committee shall be responsible for the following specific duties:~~
- (1) ~~Developing, implementing and monitoring the impact of strategic plan.~~
 - (2) ~~Recommending/evaluating new programs, program elimination, or program alteration.~~
 - (3) ~~Updating the combined strategic plan of university hospitals and college of medicine and public health with appropriate consideration of other health-related colleges and including monitoring external factors affecting all of the preceding.~~
 - (4) ~~Monitoring strategic plan integration to plans of the university.~~
 - (5) ~~Such other responsibilities as assigned by the chairperson of the hospitals board.~~

- (B) ~~Composition. The committee shall consist of four board members, appointed annually by the chairperson of the hospitals board, one of whom shall be appointed as chairperson of the committee; and the two members of the medical staff nominated by the medical staff.~~
- (C) ~~Meetings. The strategic planning committee shall meet at the call of the chairperson and shall advise the hospitals board of its activities.~~

3335-97-04 Administrative/operations committee.

- (A) ~~Responsibilities. The administrative/operations committee shall be responsible for the following specific duties:~~
 - (1) ~~Development and maintenance of three year financial plan with continuous monitoring of the plan.~~
 - (2) ~~Evaluating safety/security and disaster planning performance.~~
 - (3) ~~Evaluating information systems development.~~
 - (4) ~~Monitoring development programs.~~
 - (5) ~~Monitoring capital and facilities programs.~~
 - (6) ~~Monitoring operational goals and performance.~~
 - (7) ~~Reviewing internal and external audit functions.~~
 - (8) ~~Such other responsibilities as assigned by the chairperson of the hospitals board.~~

- (B) ~~Composition. The committee shall consist of four board members, appointed annually by the chairperson of the hospitals board, one of whom shall be appointed as chairperson of the committee; and two members of the medical staff nominated by the medical staff.~~

- (C) ~~Meetings. The administrative/operations committee shall meet at the call of the chairperson and shall advise the hospitals board of its activities.~~

~~3335-97-05~~ 3335-97-02 Professional affairs/education/research committee.

- (A) Responsibilities. The professional affairs/education/research committee shall be responsible for the following specific duties:
 - (1) ~~Monitoring~~ Overseeing all patient care activity in facilities deemed by the university trustees to be the administrative responsibility of university hospitals including, but not limited to, the hospitals, clinics, ambulatory care facilities, and physicians office facilities.
 - (2) Monitoring quality assurance performance ~~under in~~ accordance with the standards set by the university medical center for all programs identified in paragraph (A)(1) of this rule.

- ~~(3) Monitoring medical and other educational activity and relationship to hospitals.~~
 - ~~(4) Monitoring research activity and relationship to hospitals.~~
 - ~~(5)~~
 - (3) Unchanged.
 - ~~(6)~~
 - (4) Reviewing ~~Monitoring the achievement of~~ accreditation and licensure agency requirements and response to such.
 - ~~(7)~~
 - (5) ~~Reviewing of~~ and recommending medical staff bylaws changes and changes to medical staff rules and regulations.
 - ~~(8) Reviewing human resources actions including management and professional development, compliance with EEO guidelines, wage and salary administration and productivity.~~
 - ~~(9)~~
 - (6) Such other responsibilities as assigned by the chairperson of the hospitals board.
- (B) Composition. The committee shall consist of ~~four~~ three board members, appointed annually by the chairperson of the hospitals board, one of whom shall be appointed as chairperson of the committee; and the chief medical director officer of the health system, and the chief of the medical staff ~~and the chief of staff-elect.~~
- (C) Meetings. The professional affairs/~~education/research~~ committee shall meet at the call of the chairperson and shall advise the hospitals board of its activities.

~~3335-07-06 Finance and audit committee.~~

- ~~(A) Responsibilities. The finance and audit committee shall be responsible for the following specific duties:~~
- ~~(1) Reviewing and recommending of the annual operating and capital budgets to the university hospitals board.~~
 - ~~(2) Receiving and reviewing the annual fiscal audit of the hospitals and maintaining relationships with outside auditors.~~
 - ~~(3) Making recommendations for the investment and management of resources.~~
 - ~~(4) Approving policies regarding fiscal planning.~~
- ~~(B) Composition. The committee shall include the vice president for health services, at least three other university hospitals board members, one of whom shall be appointed as the chairperson of the committee, a senior member of the medical staff, and such others as determined by the chairperson.~~
- ~~(C) Meetings. The finance and audit committee shall meet at the call of the chairperson and shall advise the hospitals board of its activities.~~

3335-99-01 Relationships of hospitals to health sciences, academic, and research programs.

The health sciences colleges of the university carry out a significant portion of their educational and research activity in university hospitals. Although the hospitals board has not been delegated specific responsibilities for academic programs, it shall lend its best efforts to assure that the programs of the health sciences colleges are effectively supported in collaboration with the hospitals patient care programs. The senior vice president for health sciences ~~and dean of the college of medicine and public health~~ and vice president for health services shall be charged with maintaining an effective liaison between the health sciences colleges and the hospitals board to assure excellence in both academic and patient care programs.

3335-101-03 Medical staff organization.

The hospitals board shall approve and authorize the organization of the medical staff to discharge those duties and responsibilities assigned to it by the hospitals board and specifically to accomplish the following purposes, among others:

- (A) Unchanged.
- (B) To recommend to the professional affairs/~~education/research~~ committee of the hospitals board the appointment or reappointment of an applicant to the medical staff of the hospitals, the clinical privileges such applicant shall enjoy in the hospitals, and appropriate action that may be necessary in connection with any member of the medical staff.
- (C) and (D) unchanged.

3335-101-06 Medical staff administrative committee.

- (A) and (B) unchanged.
- (C) Meetings. The medical staff administrative committee shall meet monthly. Minutes of the meetings shall be provided to all members of the professional affairs/~~education/research~~ committee, the senior vice president for health sciences, ~~and the dean of the college of medicine and public health~~, the dean of the college of dentistry, and the deans of other professional colleges whose faculty have appointment on the medical and dental staffs.

Doan Hall - PET/CT Scanner Installation

315-07-0166

Requesting Agency(s): UNIVERSITY HOSPITALS

Newark - Hopewell and Founders Halls Renovations

315-2005-961

Requesting Agency(s): NEWARK CAMPUS

Location(s): Founders Hall

61,054 ASF/90,255 GSF Age: 1968

Location(s): Hopewell Hall

56,556 ASF/84,288 GSF Age: 1976

Description:

This project will renovate various areas in Hopewell and Founders Halls to create classrooms, offices, and teaching/research labs.

Project Information:

Funding will be shared between OSU Newark and Central Ohio Technical College.

This project will address \$1.3M in deferred maintenance on Hopewell Hall and \$1.0M of deferred maintenance on Founders Hall.

Issues:

How does this project advance the Academic Plan? The additional spaces will allow the campus to broaden the learning opportunities for students, to better support research and to better serve the growing enrollment, while allowing for future growth.

Outstanding Funding Issues: A portion of the project funding is from future capital appropriations (2009-2010). OSU Newark and COTC will fund any delay or shortfall with operating funds.

Timing Issues: The current occupants of the affected spaces in Hopewell and Founders Halls will be relocating to the Newark Campus - Warner Library and Student Center. This project cannot start until the Warner Center project is complete, expected in Winter 2008.

"Ripple effects" of the project: None

Special limitations/risks: None

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion
Development-Newark	\$300,000.00					
Future Capital Appropriations	\$5,902,254.00					
Central Ohio Technical College - State	\$354,765.00

Olentangy Trail Improvements - Phase I

315-07-0165

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): Unidentified Mall, Plaza, Green-Col.

ASF/0 GSF Age:

Description:

This project will extend the bikeway from the Woody Hayes Bridge to the Drake Union at the river level and make connection with and improvements to the existing levee path.

Project Information:

The boundaries of the site are the Woody Hayes Bridge to the north, Drake Union to the south, Cannon Drive to the east and the Olentangy River to the west.

Issues:

How does this project advance the Academic Plan? This project will improve the learning environment by offering alternate transportation opportunities to and from campus.

Outstanding Funding Issues: A portion of the project funding is from future capital appropriations (2007-2008).

Timing Issues: None

"Ripple effects" of the project: None

Special limitations/risks: None

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion

Residence Hall Elevator Upgrades

315-07-0188

Requesting Agency(s): STUDENT AFFAIRS, OFFICE OF

Location(s): Siebert Hall, Annie Ware Sabine

46,383 ASF/74,647 GSF Age: 1957

Location(s): Morrison Tower, Mary Franc

55,002 ASF/99,916 GSF Age: 1962

Description:

In both Morrison Tower and Siebert Hall, this project will provide upgrades to three building elevator system machines, controllers, fixtures, hoist-way equipment and cab interiors including code-compliant Fire Fighters' operation, fire recall, high-rise operations and ADA provisions.

Project Information:

Issues:

How does this project advance the Academic Plan? This project will advance the Academic Plan by improving student facilities and ensuring an accessible environment.

Outstanding Funding Issues: The project proposes to use FY 2009 bonds, which will not be available until the construction phase. Student Affairs will cover the projects costs until bond funds are available.

Timing Issues: None

"Ripple effects" of the project: None

Special limitations/risks: None

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion

Smith Laboratory Rehabilitation

315-2005-957

Requesting Agency(s): ACADEMIC AFFAIRS, OFFICE OF
Requesting Agency(s): BUSINESS & FINANCE, OFFICE OF
Location(s): Smith Laboratory, Alpheus

134, 125 ASF/219,438 GSF Age: 1950

Description:

This project will renovate portions of Smith Laboratory for the Anthropology Department. This project will also relocate and renovate some pool classrooms from the upper floors to the first and second floors.

Project Information:

A comprehensive building assessment will be completed prior to entering into the design phase.
 This project will begin to address the \$51.8M of deferred renewal on Smith Laboratory.

Issues:

How does this project advance the Academic Plan? This project will provide improved space for the Department of Anthropology and improve the classroom pool space within Smith Laboratory.

Outstanding Funding Issues: None

Timing Issues: The start of construction on this project will occur after the remaining Physics researchers are relocated to the new Physics Research Building.

"Ripple effects" of the project: Enables relocation of some of the current occupants in Lord Hall, an essential step towards the demolition of that facility.

Special limitations/risks: There are other partial renovation projects planned and occurring in Smith Laboratory that will overlap with the projected schedule of this project, each involving MEP issues and voice/data issues. This project will be designed to coordinate with the other projects to prevent gaps or overlap.

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion

Bevis Hall - Biomedical Engineering Basement Laboratory Space

5061-PF08286

Requesting Agency(s): BIOMEDICAL ENGINEERING

Location(s): Bevis Hall, Howard L.

46,417 ASF/80,178 GSF Age: 1969

Description:

This project will convert old classrooms and offices into wet and dry lab spaces for the College of Engineering.

Project Information:

The project budget increased due to added mechanical and bio-safety equipment, and laboratory casework.

This project will address a portion of the \$1.4M of deferred maintenance on Bevis Hall.

Issues:

How does this project advance the Academic Plan? This project will provide laboratory spaces for faculty and students for the College of Engineering.

Central Classroom Building - Classroom Renovations

315-2005-949

Requesting Agency(s): ACADEMIC AFFAIRS, OFFICE OF

Location(s): Central Classroom Building

54,610 ASF/89,008 GSF Age: 1949

Description:

This project will renovate the classrooms and corridors on the third floor of Central Classroom Building, including technology improvements.

Project Information:

This project will address \$1.2M in deferred maintenance.

Issues:

How does this project advance the Academic Plan? This renovation project supports the academic plan by enhancing the quality of the teaching and learning environment of our classroom pool space, and by providing faculty, staff, and students with the latest technology tools for leadership in teaching, research, and career development.

Outstanding Funding Issues: None

Timing Issues: The renovation of the facility will have to be coordinated with existing occupants. The project will have to be accomplished in several stages to maintain the acceptable number of available classrooms in the general classroom pool due to the high percentage of use during prime hours.

"Ripple effects" of the project: None

Special limitations/risks: None

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion

Clinical Space Reorganization - 10 West Rhodes Inpatient Rooms

315-2001-911-30

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): Rhodes Hall-University Hospital

234,178 ASF/480,976 GSF Age: 1979

Description:

This project will renovate ten rooms and upgrade the medical gases in seven of the rooms on the tenth floor of Rhodes Hall.

Project Information:

This project is included in the \$20,000,000 - \$25,000,000 umbrella project for the Clinical Space Reorganization project.

This project addresses a portion of the \$4.9M of deferred maintenance on Rhodes Hall.

Issues:

How does this project advance the Academic Plan? Enables the Medical Center Facilities Plan, which will support continued clinical, teaching and research missions at The Ohio State University.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Special limitations/risks: None

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion

Increase Campus Electric Capacity Phase I (Third Transformer)

5062-PF07944

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): Electric Substation, Buckeye

0 ASF/13,200 GSF Age: 1974

Description:

This project will add a third transformer at the OSU Electric Substation providing redundancy and the needed additional capacity for the increasing campus power needs due to new and future buildings.

Project Information:

Issues:

How does this project advance the Academic Plan? The addition of a third 84 Mega Volt-Amp transformer will give the University the additional capacity needed for current and future demands. Without this expansion, the University will not have the needed electrical capacity to service new and future academic and research buildings.

Outstanding Funding Issues: None

Timing Issues: This new transformer capacity must be available by spring 2008 as the University will have three new 2000-ton chillers in the McCracken Power Plant scheduled to come on line at that time to meet the growing cooling needs of the main campus.

"Ripple effects" of the project: None

Special limitations/risks: A possible one or two day outage at the substation will be required for transfer of power to the new equipment.

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion
Univ. Bond Proceeds	\$0.00

Journalism Building - Multi-Media Classroom

315-2006-901

Requesting Agency(s): SOCIAL & BEHAVIORAL SCIENCES ADMIN

Location(s): Journalism Building

47,019 ASF/85,792 GSF Age: 1974

Description:

This project will renovate an existing television studio into a 120-seat multi-media tiered classroom for the School of Communication, including mechanical, fire protection and electrical upgrades.

Project Information:

This project will address a portion of the \$1.7M of deferred maintenancel on the Journalism Building.

Issues:

How does this project advance the Academic Plan? This project will provide much needed lecture space and growth in the School, enhance the development of the teaching and learning environment and better serve the needs of the student body.

Outstanding Funding Issues: None

Ohio Union Garage Renovation and Expansion

315-2005-997

Requesting Agency(s): TRANSPORTATION & PARKING SERVICES

Location(s): Parking Garage C (Union)

371,641 ASF/387,952 GSF Age: 1969

Description:

This project will demolish a portion of the parking garage and renovate the remaining spaces. Project also includes upgrades to the elevator, electrical and lighting systems. The project will add three bays to accommodate additional parking on campus.

Project Information:

The original scope would have provided 400 new spaces and renovated 1,064 spaces to last only 15 more years. The revised scope will renovate 664 spaces, demolish the portion of the garage built in 1986 (400 spaces) and replace it with a new 3-bay garage adjacent to the Ohio Union that will provide 840 new spaces (440 net new spaces) that will last 60+ years. The mitigation plan for displaced parking includes an early bid package for the renovation of the portion of the garage that will remain.

Issues:

How does this project advance the Academic Plan? Renovation and repairs to the Ohio Union Garage will improve its condition and function. The garage provides access to various academic interests in the surrounding area.

Outstanding Funding Issues: None

Timing Issues: The construction of this project will be coordinated with the Ohio Union Replacement project construction.

"Ripple effects" of the project: The garage will be out of service during construction, and therefore, parking will be displaced for this area of campus; a mitigation plan is in process. Part of the mitigation plan is to begin the renovation portion of the project prior to the demolition and new construction.

Special limitations/risks: Space for the garage expansion is limited by the Ohio Union Replacement project. An existing city sewer below the existing garage will be relocated.

Requesting Agency(s): CANCER HOSPITAL & RESEARCH INSTITUTE

Location(s): James Cancer Hosp & Solove Res Inst

116,384 ASF/265,423 GSF Age: 1990

Description:

This project will renovate the north side of the eleventh floor research area to accommodate bone marrow transplant outpatient rooms.

Project Information:

The project budget increased due to the change in location from the first to the eleventh floor and the additional cost of the upgrades needed to the mechanical and electrical systems for the revised location.

Issues:

How does this project advance the Academic Plan? Enables the Medical Center Facilities Plan, which will support continued clinical, teaching and research missions at The Ohio State University.

Outstanding Funding Issues: None

Timing Issues: This renovation will not be initiated until space is renovated at the Morehouse Medical Plaza so that a portion of the clinical services currently provided on the first floor of the James Cancer Hospital can be relocated to that facility.

"Ripple effects" of the project: None

Special limitations/risks: None

Source of Funds:	Original	Revised	Uses of Funds:	As Designed	As Bid	Completion
Auxiliaries-University Hospitals	\$1,432,560.00	\$2,022,786.00

OARDC - Feed Mill Replacement

315-2003-078

Requesting Agency(s): OHIO AGRIC RESEARCH AND DEVELOPMENT CTR

Location(s): Feed Mill (OARDC)

ASF/8,000 GSF Age: 2007

Description:

This project provides a new feed mill with raw ingredient storage, grain drying equipment, feed processing equipment and processed feed storage. The new feed mill will be located on Selby Road in Wooster, Ohio.

Project Information:

This project will be a design/build project and be locally administered. Approval of this project delivery method was provided in House Bill 215 and the funds were re-appropriated in HB 530 on 6/30/06.

Project budget increased due to escalation of material cost (Cement, 15%; Copper, 87%; Steel, 13%; Fuel, 40%) for the new facility as well as the feed mill processing equipment.

Issues:

How does this project advance the Academic Plan? This project will advance the academic plan by providing improved research facilities and support.

Office of Business and Finance / Board of Trustees Meeting

December 8, 2006

Easement Columbus Southern Power Company at 960 Kinnear Road

Office of Business and Finance / Board of Trustees Meeting

December 8, 2006

MEMORANDUM

Date: November 28, 2006

From: Alvin C. Rodack, Associate Treasurer 

To: William J. Shkurti, Senior Vice President for Business and Finance

Subject: Appointment/Reappointment of Investment Managers

The Office of the Treasurer is recommending to the Investment Committee of the Board of Trustees, the hiring of nine new investment managers and the reallocation of monies between existing investment managers. Of the new manager's, five are in the 'Absolute Return' category, three are in the 'Venture/Private Equity' category and one is in 'Natural Resources'. Attached is one summary page per manager for each of the recommended Managers.

The Absolute Return and Private Equity managers were recommended by our consultant, Cliffwater LLC. The Office of the Treasurer did additional due diligence including reviewing the investment management agreements and interviewing each of the firms. The Natural Resources manager was identified by the Office of the Treasurer. Cliffwater LLC was asked to complete additional due diligence on the manager and they have concurred with the recommendation. The addition of the nine managers will provide much greater diversification to those segments of the portfolio. It also moves the portfolio closer to the new asset allocation targets.

The reallocation of monies to existing investment mangers is the beginning of the process to reach the new asset allocation targets as approved by the Board of Trustees at the November 2006 meeting. With the exception of the Private Equities/Venture category, we plan to have the new asset allocation targets met over the next six months. This will include the hiring to additional investment managers to be presented at future Board of Trustee meetings.

Please let me know if you have any questions.

Hedge Fund Investment- Executive Summary

Firm:	Angelo, Gordon & Co.	Fund Name:	AG Super Fund
Category:	Multi-Strategy	Fund Assets :	\$2 Billion
Lock-Up Period:	One Year	Due Diligence:	Cliffwater/Staff

Organization & People: Based in New York, Angelo, Gordon & Co. (AG) was founded in 1988 by John Angelo and Michael Gordon. The firm also operates out of offices in London, Los Angeles, Hong Kong and Seoul. The firm is privately owned and currently has approximately \$10 billion in assets under management (AUM). The types of assets that AG manages include distressed debt, real estate, private equity, hedged strategies, leveraged loans and cash. Hedge fund products represent approximately \$3.5 billion of AUM. The multi-strategy AG Super Fund is currently a \$2 billion fund.

AG has 138 employees including 73 investment, 22 accounting and operations and nine client services professionals. Firm ownership is distributed amongst 35 senior employees and a limited number of outside investors. Ownership is offered broadly throughout the firm in investments, operations and client services. John Angelo and Michael Gordon are the Managing Directors of AG.

Investment Process & Strategy: The objective of the AG Superfund is an absolute return target of 10-15% annualized net of fees. The team strives for consistent performance with low-volatility. The investment process consists of researching and identifying situations, conducting fundamental analysis, reaching an investment committee consensus, sizing the position for the portfolio and continuous monitoring. The fund is managed opportunistically by investing across areas in which the firm possesses expertise.

Portfolio Construction & Diversification: The AG Superfund will be invested across nine strategies including distressed debt, merger arbitrage, real estate, private equity, long/short real estate securities, credit arbitrage, convertible arbitrage, power and energy and special situations. There are no set minimum or maximum allocations to each strategy. Instead, Michael Gordon works with each portfolio manager to identify opportunities and determine position sizes. The AG Superfund will limit investments in private and illiquid investments to 25% of the portfolio. These types of investments typically include private equity, real estate and some distressed opportunities. Traditionally, the AG portfolio has had a high concentration to distressed debt and risk arbitrage. Lastly, if AG management cannot find enough compelling opportunities, the fund will invest a high percentage in cash. The following is a breakdown of the strategy weights as of October 31, 2006:

Hedge Fund Strategy	Portfolio Weight
Distressed Debt	30%
Merger Arbitrage	26%
Private Equity	6%
Convertibles	6%
Credit Arbitrage	6%
Long/Short Real Estate Securities	5%
Real Estate (Private)	4%
Special Situations	4%
Long/Short Health Care	2%
Cash	11%

Performance: Since its inception in 1993 through September 2006, the AG Super Fund has generated an annualized net return of 14.35% with low volatility (4.24% standard deviation). Over the same period, the HFRI Fund Weighted Composite returned 12.62% with higher volatility (6.9% standard deviation). Additionally, through the past fourteen year period, the AG Super Fund has only had 14 negative performing months.

Fees & Liquidity: The AG Super Fund will charge a 1.5% management fee on net assets and a 20% incentive fee. Fund expenses are expected to be approximately 10 basis points. Redemptions may be made on an annual basis subject to a one year lock-up. Up to 25% of fund assets can be invested in side pockets. Side pockets are used for less liquid investments such as private equity and private real estate.

Conclusion: Angelo, Gordon & Co. is a high-quality hedge fund manager. The firm has an experienced investment team, solid long-term performance and is focused on preservation of capital and strong internal controls. *The AG Super Fund is recommended for a \$30 million investment.*

Fund Name:	CF Natural Resources VII (CNR VII)	Date:	December 2006
Fund Size:	\$500 Million	GP Commitment:	1%
Term of Fund:	12 Years	Investment Period:	Three Years
Strategy:	Natural Resources	Due Diligence:	Staff/Cliffwater

Organization & People: The Common Fund was founded in 1971 and is located in Wilton, CT. The Common Fund is one of the largest managers for endowments and foundations and currently manages over \$38 billion in assets. Commonfund Capital, Inc. (CCI) was established in 1988 as a subsidiary of the Common Fund. CCI represents over 500 institutional investors in the non-profit community. CCI has invested over \$7.4 billion in private equity for seventeen years through venture capital, leveraged buyout, international and natural resources fund-of-funds.

CCI has a staff of thirty-four professionals dedicated to the private equity, seventeen of which are dedicated to investment management. The senior management averages close to ten years of experience each at CCI and is led by Susan Carter. There has been no turnover of senior staff since inception of CCI.

Strategy & Investment Process: Commonfund Natural Resource Partners VII (CNR VII) will focus on making partnership investments in natural resource related industries across North America. CCI's strategy follows two fundamental principals that it feels will make it successful in private capital investing. The first principal is accessing top-tier managers; the second is diversification. CCI strives to increase allocations with follow-on funds sponsored by top-tier managers in order to continue to create selective fund-of-fund portfolios.

CCI investment process starts with screening potential investments from sources that include industry contacts, investors, consultants and existing managers. If a manager passes the initial screen, it is assessed for a strategic fit. Next, the potential investment is put through a due diligence process that focuses on the firm's management, investment process, performance and future potential. The legal and financial terms are then analyzed and negotiated prior to presentation to the investment committee. The investment committee is made up of five senior managers and must approve all investments. Lastly, once a commitment is made, the fund is monitored on a continuous basis.

Portfolio Construction & Diversification: CNR VII will invest in natural resource related industries including oil & gas, energy services, timber, power infrastructure, alternative energy and mining. CCI management will strive to invest over a three year period in order to obtain vintage year diversification. CNR VII will make between 10-15 partnership investments and no single commitment will be greater than 20% of the total fund size. Although CNR VII will strive to diversify across as many different industries as possible, oil & gas and energy services related partnerships will more than likely comprise over 50% of the portfolio. Lastly, CNR VII has three pre-specified investments that total \$68 million in commitments, providing some initial transparency.

Performance: CCI has invested six previous natural resource funds since 1989. The combined performance of these funds is 16% net IRR since inception of Fund I. Individually, Funds I and II ranked in the third quartile when compared to private equity funds of the same vintage year (Thomson Venture Economics Benchmark). However, these funds invested in a single manager and therefore are not representative of Commonfund's current diversified natural resources program. Funds III-V ranked in the second, first and first quartile respectively when compared to funds of the same vintage year. Fund VI is completing the investment period and it is too early to provide a meaningful performance comparison.

Conclusion: CCI has a deep and stable team of professionals dedicated to making and monitoring private equity investments. Through their series of diversified natural resource funds, CCI has proven an ability to deliver consistently strong returns throughout different investment environments. CNR VII will be a good fit for the natural resources portion of the OSU portfolio. The fund will have a high concentration to energy-related investments, but will also add diversification through investments in other natural resource related industries. *The Commonfund Natural Resource Partners VII (CNR VII) is recommended for a \$5 private equity commitment.*

Hedge Fund Investment Executive Summary

Firm:	Farallon Cap. Mngmt.	Fund Name:	Farallon Capital Institutional Partners, LP
Category:	Multi-Strategy	Fund Assets:	\$5.2 Billion
Lock-Up Period:	None	Due Diligence:	Cliffwater/Staff

Organization & People: Farallon Capital Management (Farallon) was founded in 1990 by Thomas Steyer and is based in San Francisco. The firm also operates offices in New York, Charlotte, London and Singapore. Farallon manages four multi-strategy hedge funds for a total of \$19.7 billion and separate account assets of \$1.3 billion. The four hedge funds follow the same investment strategy, but are managed with different tax or liquidity objectives. The Farallon Capital Institutional Partners, LP (FCIP) was created in January 1990.

Farallon and its affiliates have 135 employees, which consists of 73 investment professionals and 62 operations staff. Farallon is a private company owned by its 13 managing members. The managing members each average over ten years of experience at Farallon. Thomas Steyer is the firm's Senior Managing Member and Chief Investment Officer. Prior to founding Farallon, Mr. Steyer worked in Goldman Sachs risk arbitrage department and then launched the first hedge fund for Hellman & Friedman. Mr. Steyer continues to serve on the investment committee for Hellman & Friedman.

Investment Process & Strategy: FCIP will follow a fundamentally driven multi-strategy investment approach to invest across five core investment strategies: credit investments, real estate, restructurings and value, special situations and merger arbitrage. Farallon decentralizes its investment process by utilizing investment teams headed by senior portfolio managers to cover the core strategies.

The CIO allocates capital to each team and the portfolio managers are responsible for managing their respective strategic allocations. Portfolio managers and a group of analysts have the authority to invest in liquid positions. The position sizes are determined by bottom-up analysis. Illiquid investments require CIO approval. Analysts perform an initial risk analysis of each position by conducting a thorough fundamental analysis. The analysts then determine what net exposure should be taken within each industry. Positions are monitored and analyzed daily. Detailed exposure and profit and loss reports are produced and reviewed daily by the CIO and lead traders to monitor and manage risk. Lastly, company specific and currency risks are hedged on an opportunistic basis.

Portfolio Construction and Diversification: FCIP will invest in both public and private securities internationally. The fund will be diversified across 500-700 positions and will use a minimal amount of leverage. Investments are made opportunistically and the portfolio is not overly constrained. FCIP will invest up to 30% of the portfolio in illiquid investments, primarily private equity and real estate transactions. In addition, FCIP will invest a small portion of the portfolio strategically through affiliated sub-advisors. Below is a breakdown of the strategy weights as of September 30, 2006:

Strategy	Weight	Strategy	Weight
Value Investments	44%	Direct Investments	7.0%
Credit	19%	Sub-Advisors	3.0%
Merger Arbitrage	13%	Risk Arbitrage	0.5%
Real Estate Related	13%	Liquidations	0.5%

Performance: Since its inception in January 1990 through September 2006, FCIP has an annualized net return of 13.65% with a 3.17% standard deviation. During the same period, the HFRI Fund Weighted Composite Index returned 13.89% with a standard deviation of 6.74%. Although the fund has slightly underperformed the index, its Return/Risk ratio is substantially greater at 4.3 versus 2.1 for the HFRI Composite. Lastly, FCIP has limited periods of negative absolute performance, as the fund has not had any negative calendar year performance since inception. In fact, the worst calendar-year net return was 6.27% in 2002.

Fees & Liquidity: FCIP will charge a 1.5% management fee and 20% incentive fee. Administrative fees are expected to less than 5 basis points. Redemptions from the fund can only be made annually and the fund can invest up to 30% of the portfolio in side pockets. Side pockets are used for less liquid investments such as private equity and private real estate. There are no early withdrawal penalties or lock-up period associated with FCIP.

Conclusion: Farallon is a quality hedge fund manager that has produced consistently strong risk-adjusted performance over various investment cycles. The firm manages a fund of multiple strategies that focuses on diversification, preservation of capital and risk management. *The Farallon Capital Institutional Partners Fund, LP (FCIP) is recommended for a \$30 million hedge fund investment.*

Hedge Fund Investment- Executive Summary

Firm:	Grantham, Mayo, Van Otterloo & Co.	Fund Name:	GMO Emerging Country Debt, L.P.
Category:	Emerging Market Debt	Fund Assets:	\$1 Billion
Lock-Up Period:	Varies (See Below)	Due Diligence:	Cliffwater/Staff

Organization & People: GMO was founded in 1977 and is based in Boston. The firm manages approximately \$127 billion in assets (as of September, 2006) and has six offices in addition to Boston, strategically located globally. GMO is privately held with ownership distributed amongst 39 active partners and Richard Mayo, who retired in 2001. The founding partners each have more than 10% ownership in the firm. GMO has more than 300 employees worldwide, of which 81 are investment professionals. GMO manages global equity, fixed income, absolute return and asset allocation strategies for institutional clients.

GMO began managing fixed income strategies in 1993 after acquiring the fixed income group from Boston International Advisors (BIA). William Nemerever and Thomas Cooper oversee the fixed income group and have been with GMO for 13 years. Messrs. Nemerever and Cooper previously co-managed the global fixed income group at BIA. The GMO fixed income team consists of sixteen investment professionals that average approximately 14 years of industry experience and seven years tenure with GMO. The fixed income group is supported by GMO's overall firm operational, administrative and client services teams.

The Emerging Markets Debt, L.P. was launched in 1996 and has approximately \$1 billion in assets. The fund will have limited capacity to accept additional commitments. After the end of January 2007, the fund will not consider new funds for another year.

Investment Process and Strategy: The GMO Emerging Country Debt, L.P. (ECDLP) performance target will be to outperform the Citigroup One Year Treasury-Bill Index by 5-10% annually. The ECDLP strategy focuses on instrument rather than country selection. GMO believes that several emerging market debt issues are priced inefficiently and are undervalued. The GMO team will attempt to exploit these pricing inefficiencies by utilizing advanced quantitative techniques to analyze various forms of emerging market debt. Each position is evaluated by analyzing its effect on the total portfolio duration, currency composition, credit rating, interest rate and credit spread.

Portfolio Construction & Diversification: The ECDLP consists of a well-diversified portfolio which invests across multiple debt issues and countries. The ECDLP invests in several types of emerging market debt instruments including bonds, Paris and London Club bonds, Brady bonds, private placements and a variety of derivative contracts. There are no defined position limits, but a single debt issue will typically not exceed 3% of the total portfolio value. The fund will typically contain more than 100 positions.

The ECDLP is invested in approximately 40 countries worldwide which helps mitigate concentrated geographic, political and investment risk. Default risk is managed primarily by entering into credit default swaps. This type of transaction involves making a fixed payment in exchange for a specified payment upon a default of the underlying security during the swap period.

Performance: Since its inception in April of 2006 through September 2006, the ECDLP has generated an annualized net return of 15.3% with 16.6% standard deviation. During the same period, the HFRI Emerging Market Index produced a 12.4% return with a standard deviation of 14.8%. The return/risk ratio was .92 for ECDLP versus .84 for the index.

Fees & Liquidity: There will be three share classes of the ECDLP that offer different fee/lock-up structures:

Lock-Up Term	Management Fee	Incentive Fee
One Year	1.0% of Net Assets	20% of Profits
Two Year	0.9% of Net Assets	18% of Profits
Three Year	0.8% of Net Assets	16% of Profits

Administrative expenses are approximately 10 basis points and redemptions are accepted annually.

Conclusion: GMO is an experienced and stable debt manager that is disciplined, value oriented and research driven. The ECDLP will provide access to non-traditional global markets and higher expected and uncorrelated performance compared to other hedge fund strategies. *The GMO Emerging Country Debt, LP is recommended for a \$15 million investment.*

Firm:	GoldenTree Asset Management	Fund Name:	GoldenTree MultiStrategy Fund
Category:	Credit (Multi-Strategy)	Fund Assets:	\$411 Million
Lock-Up Period:	One-Year	Due Diligence:	Cliffwater/Staff

Organization & People: GoldenTree Asset Management (GoldenTree) was founded in 2000 and is based in New York with additional offices in London and Los Angeles. The firm manages approximately \$5.5 billion of absolute return strategies which invest in bank debt, high yield bonds, distressed debt, middle market loans, equities and real estate. GoldenTree manages an additional \$2.1 billion in structured products and long-only accounts. The GoldenTree MultiStrategy Fund (MultiStrategy Fund) was launched in August 2005 and currently has \$411 million in assets.

The four founding partners of GoldenTree are Steven Tannanbaum, Leon Wagner, Steve Shapiro and Tom Shandell. The firm is privately held with ownership dispersed amongst sixteen partners. GoldenTree has more than 100 employees, of which 44 are investment professionals.

Investment Process & Strategy: The objective of the MultiStrategy Fund is to allocate capital to 'best idea' investments across distinct investment strategies. The Fund will employ a bottom-up, value-oriented investment process to a broad set of assets and strategies. Relative value analysis is used to determine allocations to asset classes, strategies and positions, and to rebalance exposures. Short positions, hedges and leverage are used to both enhance performance and manage risk.

The selection of the types of securities, markets, sectors, and part of the capital structure depends on where the most attractive risk/reward tradeoffs exist. Portfolio managers are empowered to make investments with a position of no greater than 1% of fund assets. Investments that account for more than 1% of the total assets require approval by a senior manager. Portfolio managers and analysts meet weekly to ensure that every position complies with the investment process and is correctly weighted. GoldenTree management will adhere to a strict sell discipline for the MultiStrategy Fund. An investment will be sold when the price target is met, if fundamentals deteriorate, if a positions attractiveness is significantly diminished or to rebalance the portfolio.

Portfolio Construction & Diversification: The MultiStrategy Fund utilizes all of the absolute return strategy that GoldenTree manages and will make additional investments in real estate. The Fund is diversified across approximately 200 positions including public and private holdings. Non-US investments currently account for 25% of the portfolio. Approximately 70% of the MultiStrategy portfolio will invest in liquid assets, consisting of primarily bank debt and high yield bonds. The remaining 30% will be targeted at making investments in more illiquid assets such as middle market loans and real estate.

Performance: Since its inception in August 2005 through September 2006, the MultiStrategy Fund has generated a 12.29% annualized net return with a 2.7% standard deviation. During the same period, the HFRI High Yield Index returned 7.59% with a 1.5% standard deviation. The funds' higher volatility vs. the index resulted in a slightly lower return/risk ratio of 4.5 vs. 5.1 for the index. The MultiStrategy Fund has only had one month of negative performance over its fourteen month history. Due to the relatively short track record, it is difficult to draw meaningful performance comparisons for the MultiStrategy Fund.

Fees & Liquidity: The MultiStrategy Fund will charge a 2% management fee on net assets and a 20% performance incentive fee. The administrative fees will be capped at 20 basis points. Redemptions can be made semi-annually after a one year lock-up period. The fund will also impose an early withdrawal penalty of 5%.

Conclusion: GoldenTree has an experienced investment team, adheres to a disciplined investment approach and has been able to produce strong historical performance. The firm has proven capable of managing multiple absolute return strategies effectively while mitigating risk. *The GoldenTree MultiStrategy Fund is recommended for a \$20 million investment.*

Fund Name:	Hellman & Friedman VI (HF VI)	Date:	December 2006
Fund Size:	\$8 Billion	GP Commitment:	\$350 Million
Term of Fund:	10 Years	Investment Period:	Up to Six Years
Strategy:	Leveraged Buyout	Due Diligence:	Cliffwater/Staff

Organization & People: Hellman & Friedman (H&F) was founded in 1984 by Warren Hellman and Tully Friedman. H&F is based in San Francisco and has offices in London and New York. The firm has raised five previous institutional private equity buyout funds since 1987 with total commitments in excess of \$8.4 billion. Hellman & Friedman Capital Partners VI (HF VI) will seek \$8 billion in capital commitments.

HF VI will be managed by a team of 30 investment professionals composed of twelve managing directors, three directors, six principals and nine associates. The twelve managing directors' average tenure at H&F is eleven years. H&F has strategically grown its staff over the past few years in anticipation of growing its business and size of follow-on funds. The staff of investment professionals has grown from 15 in 2001 to the current level.

Strategy & Investment Process: HF VI will continue to follow a consistent and focused strategy that H&F has successfully executed throughout its history. HF VI will focus on the quality of its portfolio company investments, rather than quantity. HF VI will seek to invest in companies with strong franchises that have predictable revenue and earnings growth. HF VI will remain flexible in structuring deals by investing in both control and non-control positions.

H&F primarily utilizes its network of relationships and firm reputation to source proprietary opportunities. Over its history, H&F has sourced less than 10% of its deals in investment banking led auctions. This has helped H&F keep purchase prices at a reasonable level. Once an opportunity is identified, an extensive qualitative and quantitative analysis is performed on the company and its industry in order to quantify the potential investment's risk/reward tradeoff. The due diligence process is driven by the same 4-5 member team that will ultimately be responsible for negotiating, structuring and monitoring the transaction. H&F will have a seat on the Board of Directors of each portfolio company investment. Additionally, H&F team members participate in the company's strategic planning and budgeting process.

H&F has an investment committee consisting of five senior investment professionals. Unanimous approval of the investment committee is necessary for approval of an investment.

Portfolio Construction & Diversification: HF VI will invest across a variety of industries including media, financial services, professional services, vertical software and information services. Additional industries that fit H&F's investment philosophy are also considered. HF VI will focus on investment opportunities that require between \$200 and \$750 million in equity. HF VI will also have the ability to invest outside the United States. Non-US investments will be sourced primarily from Europe and Canada and can account for up to 40% of total committed capital.

Performance Track Record: Since 1987, H&F has raised five previous private equity funds focused on the leveraged buyout sector. These funds have generated a combined net IRR of 24.3% as of June 30, 2006. Fund I was a second quartile performer, while Funds II, III and IV ranked in the first quartile compared to funds of the same vintage year. Fund V was raised in 2004 and will be approximately 90% invested by the end of 2006. The funds were compared using Thomson Venture Economics and Cambridge vintage year benchmark statistics.

Conclusion: H&F has a deep, experienced team that has produced top-tier performance over different investment environments. H&F differentiates itself from its competitors by focusing on a limited number of high quality investments. As a result, H&F makes fewer investments than its peers and dedicates more professionals to the management and oversight of each investment. Lastly, H&F remains flexible in structuring investments (control & non-control) and has the ability to invest internationally.

HF VI will be included in the leveraged buyout portion of the Ohio State private equity portfolio. Leveraged buyouts will account for the largest segment of the portfolio with a target weight of 50%. A commitment of \$10 million is appropriate in managing vintage year and investment type diversification. *Hellman & Friedman VI (HF VI) is recommended for a \$10 million commitment.*

Fund Name:	Providence Equity Partners VI	Date:	December 2006
Fund Size:	\$8 Billion (\$12 Billion Cap)	GP Commitment:	\$250 Million
Term of Fund:	Ten Years	Investment Period:	Up To Five Years
Strategy:	Leveraged Buyout	Due Diligence:	Cliffwater/Staff

Organization & People: Providence Equity Partners (Providence) was founded in 1990 by Glenn Creamer, Jonathon Nelson and Paul Salem. The firm is based in Providence, RI and has additional offices in New York and London. Providence has raised six previous institutional private equity funds with commitments totaling close to \$9 billion. Providence Equity Partners VI (PEP VI) will target \$8 billion in capital commitments.

Providence has a team of 45 investment professionals including twenty in Providence, Nine in New York and sixteen in London. There are fifteen members of the senior investment team with an average tenure of nine years at Providence. There are 91 employees at Providence including operational, client services and legal professionals. Providence is the largest private equity firm specializing in media, communications and information services. Providence has plans to open an office in Hong Kong within the next twelve months.

Strategy & Investment Process: Providence will seek to maintain its position as the pre-eminent specialist private equity firm. The primary characteristics that distinguish Providence are its experience, industry-focused investment approach and its network of relationships. Providence will look to invest globally in companies with stable cash flow and strong management. Providence will pursue both control and non-control positions in leveraged buyouts, growth equity and recapitalization transactions. Providence will also co-invest with other private equity groups on an opportunistic basis.

The Providence team will identify potential investments on a proactive basis through its network of contacts and industry research. Each prospective deal will be scrutinized by a team of at least four individuals led by two managing directors. The investment team meets bi-weekly to discuss the current investment pipeline. Once a potential investment has passed through thorough due diligence, the team presents the deal to the investment committee. The investment committee is made up of six senior managers who must approve all fund investments. In addition to the ongoing monitoring conducted by each deal team, the investment committee also acts as the review committee. The review committee meets annually to assess the progress of each investment. During the meeting, the group reassesses the original investment proposal and discusses potential process improvements.

Portfolio Construction & Diversification: As mentioned, Providence will primarily invest in media, communications and information services companies. PEP VI will make transactions that require between \$150 million and \$800 million of equity. PEP VI will make investments on a global basis, primarily in North America, Europe and Asia. Investments outside of North America and Western Europe will be limited to no more than 25% of the portfolio. PEP VI will add further diversification by investing in 15-20 portfolio companies over a 4-5 year period.

Performance Track Record: Providence has raised six previous private equity funds since 1991, Providence Equity Partner Funds I-V and the Providence Growth Fund. The funds have produced a combined net return of 37.3%. Four of the previous funds ranked in the first quartile and one in the second quartile when compared to buyout funds of the same vintage year. PEP V was raised in 2005 and is nearing the end of its investment period. It is too early in the life of PEP V to provide meaningful investment comparisons.

Conclusion: Providence is a high quality private equity manager with an experienced team that has produced consistent top-tier performance globally. Providence has a specialized and flexible approach to investing. *Providence Equity Partners VI (PEP VI) is recommended for a \$10 million commitment.*

PEP VI will be included in the leveraged buyout portion of the private equity portfolio. Leveraged buyouts will account for the largest segment of the portfolio with a target weight of 50%.

Fund Name:	The Resolute Fund II (Jordan Company)	Date:	December 2006
Fund Size:	\$2.5 Billion Target	GP Commitment:	2%
Term of Fund:	10 Years	Investment Period:	Up to Six Years
Strategy:	Leveraged Buyout	Due Diligence:	Cliffwater/Staff

Organization & People: The Jordan Company (TJC) was founded in 1982 by Jay Jordan and David Zalaznick and is based in New York with an additional office in Chicago. From 1982-1986, the firm invested their own capital in leveraged buyouts and syndicated equity on a deal-by-deal basis to institutional investors. From 1987-2002, TJC continued making LBO investments via JZ Equity Partners, a UK investment company. JZ Equity Partners was established as the primary capital source for TJC for investments. TJC raised its first institutional private equity buyout fund in 2002, The Resolute Fund I. At this time, the strategy of JZ Equity Partners was redirected to making Mezzanine Debt investments. The Resolute Fund II (RF II) will seek to raise \$2.5 billion in commitments.

TJC will be led by Messrs. Jordan and Zalaznick. TJC has a team of 18 investment professions including six managing principals, three principals, three vice presidents, one senior associate and five associates. The six senior managers of the team have been working together as for more than sixteen years and have an average tenure of 21 years at TJC.

Strategy & Investment Process: RF II will pursue the same investment strategy deployed by TJC over the past three decades. TJC's approach is to acquire companies in partnership with management at reasonable valuations. TJC will then implement a hands-on operational strategy to generate performance. TJC executes its approach by maintaining and enhancing investment origination capabilities, focusing on middle-market investments, maintaining investment discipline, managing risk and creating value through operational expertise. RF II will target control investments in a diversified mix of established, well-managed and consistently profitable businesses.

TJC utilizes its extensive network of relationships that it has built over the past thirty years to source deal flow. The network has also provided opportunities for TJC to meet with portfolio company management prior to participating in a competitive bidding process. This has enabled TJC to complete investments at more reasonable values. Once opportunities are identified, TJC performs a quantitative and qualitative assessment. TJC also performs an operational analysis of the business to be acquired as well as an industry analysis. Teams of three or more investment professionals, led by a managing principal, are assigned to each potential investment. After an investment passes through due diligence, it is presented to the investment committee for approval. The investment committee must approve all investments.

Portfolio Construction & Diversification: RF II will invest in a wide variety of industries including business services, industrial products and services, consumer/retail, financial, telecom, healthcare and building products. The fund will seek to invest between \$50 and \$400 million of equity per transaction in middle-market companies. RF II will have the ability to make up to 25% of investments outside of the United States. The fund will not invest more than 20% in any single investment and no more than 40% of the total fund commitments will be invested in any twelve month period.

Performance Track Record: The investment track record for TJC dates back to 1987 with the inception of JZ Equity Partners. Prior to this, the principals made investments using their own capital. Since 1987, TJC has made 50 leveraged buyout investments. 32 of these investments have been realized. As of June 30, 2006 these investments have generated a 34.6% net IRR. The first institutional fund, Resolute Fund I (RF I), was raised in 2002 and has generated a net IRR of 11.7% through June 30, 2006. This would rank in the second quartile vs. funds of the same vintage as measured by Thomson Venture Economics. Of the ten investments in RF I, five were made in 2006. TJC's typical holding period is 3-7 years, so the fund is still in the early stages of its life.

Conclusion: The Jordan Company a very experienced and stable group of investment professionals who have produced outstanding performance investing in middle market private equity transactions. TJC follows a disciplined, thorough investment process and focuses on value creation through the team's operational expertise. *The Resolute Fund II (RFII) is recommended for a \$10 million investment.*

RF II will be included in the leveraged buyout portion of the private equity portfolio. Leveraged buyouts will account for the largest segment of the portfolio with a target weight of 50%.

Firm:	Wellington Management	Fund Name:	Archipelago Partners, LP
Category:	Long/Short (Multi-Strategy)	Fund Assets:	\$2.3 Billion
Lock-Up Period:	One Year	Due Diligence:	Cliffwater/Staff

Organization & People: Founded in 1928, Wellington Management (WM) is based in Boston and operates nine additional offices globally. WM functions as an independent, private partnership directed by three managing partners. The firm manages equity, fixed income, currency, commodity and multi-asset portfolios for institutional clients. As of September 2006, the firm had \$540 billion assets under management and 1500 employees. 430 of the employees are investment professionals and firm ownership is currently distributed amongst 95 partners.

Wellington Management began managing hedge funds in 1994 and the firm currently sponsors thirteen long/short portfolios with approximately \$12.3 billion in assets. The hedge fund products are managed and supported by a team of 32 individuals. The senior members of the hedge fund team average over fourteen years experience at WM. Archipelago Partners, LP (Archipelago) was established in 2001 and has approximately \$2.3 in assets. Archipelago seeks capital appreciation and diversification by investing in a group of the WM long/short hedge funds.

Investment Process & Strategy: WM employs a disciplined approach across the hedged equity portfolios based on fundamental company research. WM believes that its proprietary, independent research provides the foundation for successful portfolio management. Portfolio composition is driven by a bottom-up approach that focuses on individual security selection. Excess performance is expected to be generated through a combination of long and short positions. Each underlying long/short equity portfolio of Archipelago has a management team that is responsible for security selection as well as managing risk.

Risk management is a critical aspect of the overall strategy of Archipelago. A portion of the dedicated WM hedge fund team helps ensure that the Archipelago portfolio adheres to its diversification parameters, exposure and leverage limitations and all other compliance guidelines. The portfolios that comprise Archipelago operate under a defined set of guidelines that are monitored on a daily basis.

Portfolio Construction & Diversification: Archipelago will consist of a variety of underlying equity long/short hedge funds that are diversified throughout different industry sectors. Below is a breakdown of the Archipelago portfolio as of September 2006:

Multi-Sector Funds	Focus	Allocation
Quissett	Capital Appreciation	17.5%
J. Caird	Value	17.5%
Sector-Specific Funds		
Spindrift and Placer Creek	Energy/Global Natural Resources	15%
North River and Salthill	Healthcare/Biotechnology	15%
Hazelbrook	Technology	15%
Wolf Creek	Financial Services	15%
Terrebonne	Real Estate	5%

Allocation between the funds is static and the funds are rebalanced annually. Additional hedge funds may be considered periodically for inclusion in Archipelago.

Performance: Since its inception in April 2001 through September 2006, Archipelago has produced an annualized net return of 11.3% with a standard deviation of 7.4%. During the same period, the HFRI Equity Hedge Index returned 7.47% with a standard deviation of 6.24%. The overall risk/reward ratio of 1.53 for Archipelago was favorable compared to the benchmark ratio of 1.20.

Fees & Liquidity: Management fees for Archipelago will be 1.0% of assets with a 20% incentive fee. Administrative expenses amount to approximately 20 basis points. The fund will have quarterly liquidity after a one year lock-up period.

Conclusion: Archipelago provides the diversification, attractive risk/reward payoff and management oversight of a fund-of-funds product without the additional level of fees. The fund is managed by a high-quality organization with talented portfolio managers, outstanding research capabilities and a dedicated staff to support the hedge fund products. *Archipelago is recommended for a \$25 million investment.*

Who Gets In, Who Gets Through: From Access to Success

Economic Access

World Economic Forum Survey

- Educational system in the United States ranks 15th
- Finland, Singapore, and Iceland are the top three
- U.S. math and science education ranks 42nd

Students with the highest ability and lowest income are **less** likely to go to college than students with the lowest ability and highest income.

Pell Grants

- 26 percent of the Ohio State student body qualifies for Pell Grants
- Proportion of nation's undergraduates receiving Pell Grants has risen from 23 percent since 2004-2005

Public Institutions			
Rank	Institution	Undergrad Enrollment	Pell Grant Proportion
1	University of Cincinnati	19,128	39.4%
2	University of California at Los Angeles	24,946	37.2%
3	University of Washington	27,732	25.0%
4	University of Louisville	14,872	24.4%
5	University of Oklahoma at Norman	20,906	24.4%
6	University of Florida	33,694	23.9%
7	University of Arkansas at Fayetteville	13,817	23.7%
8	University of Alabama at Tuscaloosa	16,568	23.6%
9	Ohio State University	37,509	23.0%
10	University of Tennessee at Knoxville	19,640	22.6%

Office for Economic Access

Reason for the Office for Economic Access

- Human resources throughout Ohio must be optimized to be part of sound economic future for our state, our nation, and especially for our children
- Ohio State has worked to optimize college access and success
 - Cited in recent Education Trust report
 - Increased rate of enrollment and graduation of low income students
- Ohio needs 450,000 more college graduates (added to the current base of 1.1 million graduates) to achieve the level of highest economic performing countries

What the Office Will Do

Connect key players in a way that can be replicated

- Extension in both rural and urban focuses
 - Ideas from students such as our own student assistant, Deb Van Camp, herself a leader in FFA and an OSU Land Grant Scholar
- Faculty/ staff who were the first in their families to go to college with future students
- Our students with younger children – that’s who children want to hear from

- **Provide a catalyst for academic research**

- Internships for students in higher education programs
- Social Justice program at Honors and Scholars will have immersion program regarding access to higher education
- Programs will be offered to future teachers in our College of Education and Human Ecology

- **Pilot programs, some as the result of grant proposals led by Laura Kraus from her successful work in First Year Experience**
 - Program with Hilliard Schools tutoring on Saturdays bringing low-income middle school students and their parents to campus, part of Adopt-a-Schools to teach about education access
 - Honors students interact with young children through technology to respond to their questions about going to college

- **Assist in assuring success, reaching OSU graduation, with many starting points that are “right fits” noted in the poster**
 - Regional campuses
 - Community colleges
 - Central State project

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND TWENTY-SEVENTH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, February 1 and 2, 2007

The Board of Trustees met at its regular monthly meeting on Thursday, February 1, and Friday, February 2, 2007, at The Ohio State University Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **

February 1, and February 2, 2007 meeting, Board of Trustees

The Chairman, Judge Duncan, called the meeting of the Board of Trustees to order on Thursday, February 1, 2007, at 5:30 pm. He requested the Secretary to call the roll.

Present: Robert M. Duncan, Chairman, Karen L. Hendricks, Dimon R. McFerson, G. Gil Cloyd, John Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, John C. Fisher, Robert H. Schottenstein, and Christopher Alvarez-Breckenridge.

Judge Duncan:

In a moment we will be taking a roll call vote to go into Executive Session; that vote will conclude all formal Board action for the day beyond recessing the Board meeting until tomorrow morning. The Board will reconvene tomorrow morning at 10:50 am.

I hereby move that the Board recess into Executive Session for the purposes of considering personnel matters regarding appointment and employment; for consulting with legal counsel regarding pending or imminent litigation; and for the purpose of discussing matters required to be kept confidential by State Statute. May I have a second?

Upon motion of Judge Duncan, seconded by Ms. Hendricks, the Board adopted the foregoing motion by unanimous roll call vote, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Ong, Borrer, O'Dell, Shumate, Fisher, and Schottenstein.

--0--

Judge Duncan reconvened the meeting on Friday, February 2, 2007, at 11:30 am.

Present: Robert M. Duncan, Chairman, Karen L. Hendricks, Dimon R. McFerson, G. Gil Cloyd, Jo Ann Davidson, John Ong, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Thekla R. Shackelford, Yoonhee P. Ha, and Christopher Alvarez-Breckenridge.

--0--

Judge Duncan:

I would like to begin by welcoming Mr. Robert Boggs to our meeting. I know he was introduced earlier this morning at the Agricultural Affairs Committee meeting, but for the benefit of those who were not in attendance, Mr. Boggs has been appointed as the new director of the Ohio Department of Agriculture by Governor Strickland and as such, serves as the vice chair, ex officio, of our Agricultural Affairs Committee. Mr. Boggs is a longtime resident of Ashtabula County and has had an extensive career in public service. He served for a number of years as county commissioner of Ashtabula County and served as a member of the Ohio House of Representatives and then minority leader of the Ohio Senate. Please join me in welcoming Director Boggs.

SEARCH COMMITTEE UPDATE

Judge Duncan:

I'd like to call on Alex Shumate for an update on our Presidential Search Committee's actions. Alex --

Mr. Shumate:

Thank you, Mr. Chairman. Mr. Chairman and fellow members of the Board of Trustees, the Search Committee has completed a very important step in the process of identifying candidates to be the next president of The Ohio State University. We have completed the development of a profile of the skills, traits, and characteristics desirable in Ohio State's next president and we are presenting to the Board today that profile for approval.

As all of you know, our twenty-four person Search Committee reflects both the tremendous scope and broad diversity that make the University such a great institution. The members of the Committee represent a wide variety of constituencies and bring to our discussion varied backgrounds and distinguished talents. Those many different voices were represented and heard during the workgroup meetings and the full Search Committee meetings in which we discussed, vetted and debated the qualities needed in Ohio State's next president. We also conducted a pair of public forums. This profile reflects the sum total of those activities and discussions, and outlines in clear terms the skills, traits, and characteristics necessary in the next president.

As the Search Committee moves to the next stage of the process, we will continue to generate input and feedback. As an example, we are working now with the Ohio Chamber of Commerce and the Columbus Chamber of Commerce to schedule a public forum for statewide business and civic leader input. We will share the details of that event with you as soon as they are completed.

Our next step in this process is to begin identifying candidates, using this profile as our guide. We will proceed ever mindful of Chairman Duncan's charge, "to conduct a thorough and efficient nationwide search that respects confidentiality and results in having a great leader in place as Ohio State's next president by Autumn Quarter 2007."

Judge Duncan:

Thank you. Is there any discussion of the presidential profile? I believe all of the members of the Board have received a copy of the presidential profile and I will entertain a motion for approval.

PRESIDENTIAL PROFILE

Resolution No. 2007-78

Synopsis: Adoption of the Presidential Profile is recommended.

WHEREAS the Board of Trustees' charge to the Search Committee included development of a profile of the qualities, skills and characteristics desired in the next President of the University; and

WHEREAS the Search Committee, in conjunction with the Board of Trustees, has sought and received input from various community and University constituencies in developing a profile statement; and

February 1, and February 2, 2007 meeting, Board of Trustees

WHEREAS the profile statement will be an important element in attracting the very best candidates to seek the Presidency of The Ohio State University; and

WHEREAS the Search Committee has recommended to the Board of Trustees the adoption of the Profile of the President of The Ohio State University, in the form accompanying this Resolution:

NOW THEREFORE

BE IT RESOLVED, That the Profile of the President of The Ohio State University dated February 2, 2007, be formally adopted as the embodiment of the essential qualities, skills and characteristics desired in the next President; and

BE IT FURTHER RESOLVED, That the Profile so adopted be widely distributed and utilized by the Search Committee in fulfilling its responsibility of ultimately recommending to the Board of Trustees one or more candidates for the Presidency of the University.

Upon motion of Dr. Cloyd, seconded by Mrs. Davidson, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

PROFILE OF THE PRESIDENT OF THE OHIO STATE UNIVERSITY

Ohio State takes great pride in being among the top public teaching and research land-grant institutions in the nation. For the past six years, we have operated successfully in support of a strategic academic plan that has taken clearly into account where we were in the year 2000 and where we are committed to being by 2010. We established a set of institutional goals and a matrix for evaluation that, over the course of implementing this plan, have made us confident, not only about our institutional distinctiveness as a world-class university, but also about the brilliance of the paths ahead with regard to: the outstanding academic preparation of undergraduate, graduate, and professional students; cutting-edge research; our remarkable capacity to help build an impressive future for the state of Ohio; and an equally remarkable capacity through teaching, research, and community engagement to provide truly distinctive leadership in addressing pressing issues and critical challenges for the state, the nation, and the world.

Personal Attributes

The Ohio State University requires a President with exceptional personal qualities. Distinctive among them are the following:

- **Clear and inspirational vision for higher education in the 21st century** – The President must be a scholar-administrator who can envision a university that serves its students, state, and nation, as well as the world community; who is actively committed to creating and sustaining a diverse community in which all members can thrive; who can eagerly, enthusiastically, and effectively communicate a compelling vision to a wide variety of publics; who can lead the institution in differentiating itself from its peers; and who is willing and able to confront the complex forces that inhibit change. Such a vision is, by necessity, well-grounded in the goals and aspirations of the university and also in an astute understanding of the contemporary complexities of top tier academic institutions within a national and global context.
- **Exemplary integrity, trustworthiness, and wisdom** – The President must inspire trust, respect, and credibility; embody and convey self-confidence and personal comfort with authority, responsibility, and

February 1, and February 2, 2007 meeting, Board of Trustees

leadership; and demonstrate a capacity to garner advocacy and support and to influence others to accomplish goals.

- **Breadth and depth of intellect and a distinctive record of innovation and scholarly achievement** – The President must understand research and scholarship from various points of view and have a personal record of scholarly achievement; demonstrate a capacity to think beyond just the articulation of problems to a strategic understanding of solutions; and demonstrate as well a dynamic understanding of the impact of strategic decision-making in the lives of those who will be affected by those decisions.
- **Superb interpersonal, communication, and leadership skills** – The President must value diversity with a demonstrated capacity to recognize talents, envision how a diverse community thrives, and envision how a broad range of strengths can be directed toward collective excellence. The President must be articulate, persuasive, diplomatic, and extraordinarily engaging as the key and most visible enthusiast of an exciting top ranking university. The President must also be:
 - a highly skilled communicator who is eager to solicit, listen to and respond to the perspectives and concerns of others and greatly energized to engage a broad range of individuals and groups in accomplishing university goals;
 - highly accomplished in setting and leading an ambitious fundraising agenda;
 - a consensus builder who is inclusive, fair, and decisive;
 - able to think creatively and innovatively yet decisively;
 - capable of working effectively and productively in various settings (academic, governmental, profit, non-profit) in establishing critical relationships;
 - capable of envisioning what needs to be done and why; accomplishing well-articulated goals; leading by example rather than fiat; and conveying both vision and operational processes with transparency to various internal and external constituencies; and
 - astute in the management of fiscal and business affairs and capable of managing dynamic change.
- **High level of energy** – The President must be endowed with great energy, enthusiasm, and an intensely positive attitude that will inspire others to work at similar levels of commitment.

Areas of Demonstrated Leadership

The Ohio State University requires a President who has a demonstrated record of experience and success in a number of areas, most notably in:

- Establishing and articulating for both internal and external audiences the mission and value of an academic research university, including experience in conveying a clear understanding of:
 - the mission of a comprehensive teaching and research university that is simultaneously a public land-grant institution;
 - the roles, responsibilities, and relationships of a metropolitan university that is intricately connected to its immediate community, the city, and the state;

February 1, and February 2, 2007 meeting, Board of Trustees

- the necessity of integrating highly innovative research vibrantly into highly successful teaching and outreach missions; and
 - the university (in its being a highly successful and highly visible public institution with national and international influence) as a key site of investment for the health and prosperity of the state.
- Generating substantial investment in the university from both private and public sectors and leading a world-class development effort.
 - Attracting and retaining highly talented people -- outstanding faculty and staff, as well as high achieving undergraduate, graduate and professional students.
 - Fostering intellectual vibrancy and excellence through diversity in all of its forms and manifestations.
 - Creating, leading, and sustaining an effective operational system, including building highly productive teams and leading strong partnerships in the successful accomplishment of goals.
 - Acknowledging the voices and viewpoints of students at all levels and setting a model for others in actively engaging students.
 - Working effectively with various internal and external constituencies.
 - Managing governance within an academic environment and creating transparent processes that are inclusive of university constituencies.
 - Leading and fostering innovation and engaging and aligning a large complex organization with a broad array of stakeholders in order to effect change.

--0--

PRESIDENT'S REPORT

President Karen A. Holbrook:

Today I would like to focus my remarks around a brainstorming session Governor Strickland convened early last week with the presidents of all of Ohio's two-year and four-year colleges and universities to talk about higher education. I think it is very encouraging when we have a new governor who is willing to commit five hours of his time to engage in discussions on higher education and to listen. He sent a very strong signal that higher education will have a prominent place on the issue agenda at the Statehouse and he values higher education in its role in stimulating the state's economy. It was also very notable that Speaker Jon Husted, House Minority Leader Joyce Beatty, and several other Senate leaders and members of the Board of Regents spent their time with us.

The sessions focused on three areas and you have probably seen the working papers that were presented: 1) access and student success; 2) workforce development; and 3) research and innovation. The conversations were very lively, and were held in open session and breakout groups, with reporting out at the end of discussion that engaged the Governor and his thinking as well.

February 1, and February 2, 2007 meeting, Board of Trustees

To improve access and student success, the Governor is encouraging Ohio's institutions to become more student-centered, to offer students, faculty, and staff the resources and support required for success. In each one of these issues the Governor presented two key goals for consideration. The key goals included increasing the number of Ohioans enrolled in the state's public and private colleges, and the number of students who graduate from those institutions.

The bright spotlight on this topic provides us, Ohio State, with opportunities to demonstrate the progress that we have already made in the past several years through a significantly enhanced undergraduate experience, through increased class availability, better scheduling and advising, expanded and renovated classrooms and residence halls space, as well as freshman seminars and increased research opportunities.

One of the most visible signs of progress, and you talked about it already this morning in the Fiscal Affairs Committee meeting, is that our applications are up 25% over the same time last year. The credentials of the incoming students, in terms of their ACT scores and their positions within their high school classes, are significantly improved and by far the best of any of our classes entering The Ohio State University to date.

Another indication of the positive atmosphere at Ohio State recently reported was the result of a survey that was conducted among junior faculty from a couple of dozen institutions. The survey body was a group called the Collaborative on Academic Careers in Higher Education. It is a body organized at Harvard University and the acronym for it is "COACHE." Last week in *The Chronicle of Higher Education*, the results were published and what it showed was that the junior faculty at Ohio State rated their University as exemplary on four out of seven dimensions of faculty work life, including tenure clarity, policy effectiveness, compensation, and work and family. Four other universities and one college ranked at the same level as Ohio State, but no other university scored higher than we did.

The second area that the Governor talked about was research and innovation as one of the keys to enhancing the future of this state. One of the goals was to double the amount of research funding that was obtained from federal and private sources over the next several years. Our committee realized that this was probably an unrealistic goal considering the constraint on the federal budget right now, earmarks are going away, and the fact that many universities are well ahead of us already and are not going to want to be preempted as Ohio State moves up to knock them out. We suggested they down size that goal to one that was a little more realistic, although we liked it as an aspirational goal. We also suggested that other measures be used to recognize what we do in research innovation besides simply counting the number of patents but to put other measures in place. I think it was a very robust discussion and, I believe, he will go back and revise some of the goals that were put in place with that.

Again, I would say Ohio State is certainly doing its role to help improve the research and innovation scene in this state. All of you have had the opportunity to look at today's *Columbus Dispatch* and see the wonderful data that we learned only a couple of days ago. In the National Science Foundation rankings of research expenditures, Ohio State has moved from fifteenth to twelfth. Among public universities, we have moved from position nine to position eight. These rankings are based on 2005 research expenditure numbers and we have continued to go up since then. I think we were at about \$609 million at that time and this year we recorded \$652 million in research funding. I am certainly optimistic that that will continue to

February 1, and February 2, 2007 meeting, Board of Trustees

grow and contribute enormously to the state of Ohio, as well as to the kinds of things we can do at The Ohio State University.

Finally, the last area of discussion was workforce development and training. It centered on the fact that workforce training should be tightly linked to the economic needs of the state, the regions, and the industry. The goal here was to increase the number of workers in high-demand fields such as health care, engineering, and information technology, to bridge the current shortages that exist. Again, I would say Ohio State with its stamina, initiatives, and where it is going will help foster those goals.

I think in the end, Ohio State will certainly do all it can to help the Governor make progress on the ambitious goals that he has laid out. We support them, they are very important, and they are ones where we can be major contributors. We also realize we have a unique responsibility to provide leadership and expertise in each of these areas with a bright spotlight now on higher education. We will continue to be challenged to reduce costs, improve services, and increase our performance in as many ways as possible, as we do every single year. We are certainly open to new ideas.

Thank you, Mr. Chairman.

--0--

STUDENT RECOGNITION AWARD

Mr. Alvarez-Breckenridge:

The Student Recognition Award is presented each month by the Board of Trustees to a student in honor of their achievements in his or her area of study, service to the University and/or community, and research achievements that have been a credit to the college and the University.

This month's recipient Laura Connell, from Springfield, Ohio, was nominated by Dean Bob Brueggemeier, from the College of Pharmacy. Laura is a fourth-year student, pursuing dual degrees in pharmaceutical sciences and biology. Today Laura is accompanied by Dean Bob Brueggemeier and Assistant Dean Ken Hale.

Laura's achievements prior to arriving at Ohio State were numerous and provided the basis for her remarkable accomplishments upon enrolling at OSU and the College of Pharmacy. After graduating from Catholic Central as the salutatorian of her senior class, she continued her academic success at the collegiate-level while balancing extensive extra-curricular activities, service, and research.

From day one at OSU, Laura has academically excelled in all of her coursework and is a candidate for graduation with both honors and distinction in pharmaceutical sciences this coming spring. While pursuing such rigorous coursework in both the classroom and the research lab, she has been able to maintain an excellent academic standing. This has been most evident with her recognition on the Dean's List six times and the Dean's Honor Roll for 2005-2006. Additionally, Laura has been recognized by the University with its University Scholarship, the College of Pharmacy's Undergraduate Research Scholarship, and the Biological Sciences' Sharp Memorial Scholarship.

In the current educational environment, an increasing number of students are seeking the benefits that can be garnered by studying away from main campus. Not surprisingly, Laura decided to take full advantage of this

February 1, and February 2, 2007 meeting, Board of Trustees

extracurricular learning initiative in Merced, California, last year. This experience involved reading Anne Fadiman's, *The Spirit Catches You and You Fall Down*, engaging in a discussion with the author, and visiting the Hmong health center in Merced. From this experience, Laura was able to benefit in several ways. First, she has developed a significant understanding of cultural competency issues in health care. Additionally, she was able to develop her public speaking skills by presenting her perspective from this project to the Pre-Pharmacy Club, the Midwest Asian-American Student Union Conference, the Pharmacy 400 Class, and the Helix Tri-Beta Induction Ceremony.

During her time at OSU, Laura has clearly learned that the educational forum regularly extends beyond the classroom. Beyond her study abroad experience, she has experienced this lesson by pursuing undergraduate research in the laboratory of Dr. Lane Wallace, from the Department of Pharmacology. In his lab, Laura has used a computational approach to studying the mechanism by which amphetamine alters the amount of dopamine in the brain.

While Laura's successes have been recognized by the faculty and staff in the College of Pharmacy, she is equally respected by her student peers. She has been heavily involved in the Pre-Pharmacy Club and was elected by the student membership as the vice president last year and is currently serving a term as the organization's president. Additionally, she has served as the membership chair of Helix Tri-Beta Biological Sciences Honorary, has worked as a Biological Sciences recruitment leader, an American Language program conversation partner, and State Science Day judge in addition to raising \$500 for the Healthy House in Merced, California.

In short, Laura is making great strides as a scholar, scientist, and leader within the College of Pharmacy. Additionally, she has done a remarkable job of balancing her academic obligations with her numerous co-curricular activities. She has truly made an indelible mark on her College of Pharmacy and the University at large. These accomplishments and experiences will undoubtedly serve her well when this fall she will be attending the Doctor of Pharmacy program at Ohio State in preparation to become a pharmacist.

Laura, on behalf of the Board of Trustees, I am very pleased to present this award to you today. Your achievements are truly remarkable and you are indeed an outstanding student. Congratulations and best of luck in your future endeavors!

Ms. Laura Connell:

I would first like to start off by saying a sincere thank you to the Board of Trustees for this award and I am extremely honored and grateful to receive it. I would also like to thank Dean Brueggemeier, from the College of Pharmacy, for nominating me and Assistant Dean Ken Hale for his continuous support. Even though my parents could not be here today, I would like to acknowledge them for the unconditional love and guidance that they have provided me over the past twenty-two years.

As I think about my past three and a half years at Ohio State, I realize I have gained an abundant amount of knowledge. However, it is worthwhile to note that the wisdom that I acquired did not come solely from textbooks, rather, my undergraduate education has been an assortment of lessons learned from professors, advisors, fellow students, coworkers, research, and involvement in school and extracurricular activities. The Ohio State University presents endless opportunities for learning on many different

February 1, and February 2, 2007 meeting, Board of Trustees

levels, which I will continue to explore for the next four years in Ohio State's doctorate of pharmacy program. As a pharmaceutical sciences and biology undergraduate student, I have been exposed to a variety of areas from the dynamics of dinosaurs to professional ethics. As a student researcher, I have strengthened my problem solving skills and contributed to understanding a mechanism that may underlie drug addiction. As an organization leader, I have acquired strategies to bring a group together. Most importantly, as an Ohio State student, I have witnessed true diversity and the need to embrace and appreciate cultural differences in my daily interactions.

My endeavors outside of the classroom have allowed me to explore and reflect upon what it means to serve and care for others in a culturally competent manner. In December 2006, I took part in an alternative winter break trip to Merced, California. A group of students and I spent time there with Hmong refugees, gained first-hand knowledge about the Hmong culture, and learned numerous approaches that a pharmacist, or anyone for that matter, can take to serve marginalized communities. One such strategy is simply to learn about the community's cultural backgrounds and beliefs. This knowledge enables you to view services through the eyes of someone else and then take action to foster an atmosphere that is responsive to that individual's needs. The trip inspired me to spread awareness about the Hmong population and the crucial need for cultural mediators not only in pharmacy, but in all healthcare settings. I share this experience through formal presentations as Christopher has mentioned.

Similarly as a pharmacist, I will seek to strengthen pharmaceutical care by promoting diversity and building cultural competency through interactions with other healthcare professionals and patients. If we all tried to learn about and accept each others differences, we can be excellent, cross-cultural communicators; however, if we learn about each others' differences and embrace those through our actions, our potential to better the lives of those around us become infinite.

Again, I would like to say thank you to the Board of Trustees for the Student Recognition Award. I am thankful for all of the opportunities that The Ohio State University has offered me and will strive to promote the lessons I have learned here throughout the rest of my life. Thank you.

Judge Duncan:

Thank you very much for all of the hard work you have put in to get the extreme high honors you mentioned. You bring honor to your University.

--0--

FACULTY LEADERSHIP REPORT

Provost Barbara J. Snyder:

It is an honor to introduce our Senate leaders this year to make a presentation. I think the bulk of the presentation will be done by Dr. Allan Silverman, chair of Faculty Council, from the College of Humanities, Department of Philosophy. He will be assisted by Dr. Harald Vaessin, chair of the Senate Steering Committee and professor in the College of Biological Sciences, and who serves on the Presidential Search Committee; and Dr. Robert Perry, from the College of Mathematical and Physical Sciences, Department of Physics, who is chair-elect of Faculty Council and will be taking over for Allan this summer.

February 1, and February 2, 2007 meeting, Board of Trustees

Professor Allan J. Silverman:

On behalf of the faculty of Ohio State, I would like to thank Chairman Duncan and the Board for the opportunity to address what we see as major issues facing the University and the faculty, as well as to bring you up-to-date on the activities of the Faculty Council and the University Senate.

Before turning to specifics, permit us some general remarks. First and foremost, the top priority of the faculty is to help Ohio State become a world-class research university. The faculty at Ohio State has changed greatly over the last fifteen years, during which time the majority of us have been hired. Most of us produce nationally and internationally recognized research, as well as teach undergraduate and graduate students. Most of us have been trained at the top research universities in the United States. We believe that there is no way that Ohio State can become world-class without emulating the practices of these best institutions whether public or private. We are keenly aware that the statistics used to measure the academic quality of faculty, departments, colleges, and universities are all flawed, that perception usually lags reality. Nonetheless, we do have a fair sense of where we stand at Ohio State.

By and large we are a good research university, probably even a very good one. The Ohio State University today is a better academic institution than it was ten years ago. We are grateful that, especially over the last few years, salaries have improved, though we are not yet back to the competitive levels we enjoyed in the 1980s. We are fully cognizant and appreciate that the undergraduate population has steadily improved, most markedly this last year.

Yet it is fair to say that while we think Ohio State has made steady, if incremental, progress towards the goal of becoming world-class, we believe that right now Ohio State is at a crucial inflection point. We will either plateau and then inevitably decline or we will break through what one dean calls "the killing zone" -- where ambitions die -- to become an ever more self-sustaining, world-class research university. The faculty appreciates just how difficult and expensive it is to become and remain a world-class research institution.

Fortunately, we believe the confluence of events that have occurred over the last year, on balance, provide the opportunity to bring about dramatic changes that will accelerate our progress towards our goal. The growing awareness of the centrality of a great university for the economic well-being of the state, following a path where great universities have been the engines of economic development for other states, makes us cautiously optimistic that the new governor and legislature will stop cutting the state's contribution to universities. With luck, perhaps they will even take steps to provide additional resources, especially for needy students who are qualified to matriculate to Ohio State and other universities.

We believe the new Board structure will allow the fifteen of you to better serve the University, to devote more energy to strategic planning for Ohio State, and to promote greater interaction between the Board and the faculty of the University. In this regard, we want to express our thanks to Chairman Duncan and his predecessor, Dan Slane, for the new practice of quarterly meetings with faculty leadership and the provost. We look forward to continuing to meet with you.

Though we are understandably anxious about losing a president and a provost who have worked tirelessly and successfully for a better Ohio State, we look forward to new faces and new approaches to advancing the crucial

February 1, and February 2, 2007 meeting, Board of Trustees

initiatives that have been set in motion by President Holbrook and Provost Snyder. Let us now turn to those initiatives.

In the eyes of the faculty, the two initiatives most crucial to our future are competitive compensation and reform of the Graduate School and graduate programs at Ohio State. As some of you may know, I joined the Senate for the first time two-and-a-half years ago convinced that the most important step Ohio State could take to create a world-class research university was to focus on the faculty, fundamentally by increasing the number of faculty to achieve a student-to-faculty ratio roughly equal to that of our best peers.

The size of the faculty has three direct benefits: 1) a low student-to-faculty ratio resulting in better classroom and research experiences, which in turn allow the great universities to attract the best students; 2) large numbers of excellent graduate students; today's senior graduate student is tomorrow's professor and attracting the best is important to the undergraduate experience as well as to the research profile of the University; and 3) a synergistic increase in research, which in turn attracts additional outside dollars from private corporations and public agencies such as the National Institutes of Health, the National Science Foundation, or the National Endowment for the Humanities.

I still believe that we will have to continue to increase the size of our faculty, especially in key colleges such as engineering. Our engineering faculty numbers approximately 267; Illinois has well over 400; Michigan well over 300; and Purdue is adding 70 new faculty. If OSU hopes to achieve the goals of the Academic Plan and place ten or twenty departments in the top ten, additional regular tenure-track faculty will almost certainly be required. A quick glance at Harvard's expansion plans of growing their faculty of arts and sciences by almost 50%, or the strategic goals of the Universities of Texas or Virginia, reveals that the race for talent will be fierce. Let us not be misunderstood. It should go without saying that we will add faculty of the highest quality, not faculty just for the sake of numbers, with due attention given to strategic departments and changing enrollment patterns.

But ultimately as important as increasing the size of the faculty will be, the provost has persuaded us that the more immediate need is to improve the salaries of the faculty presently at Ohio State. Ohio State finds itself 38th among the AAU and, at best, at the mid-point in comparison to our benchmark peers. We will never become world-class if our salaries remain mediocre. The academic community is keenly aware of where universities stand with respect to salaries. With mediocre salaries, we will lose out on the race to hire the best and we will not be able to keep those whom we do hire. Reputational ranking by one's peers, which is a significant part of overall rankings, will not improve until and unless we continue to make progress on salaries. For instance, we can set goals for becoming 30th among the AAU, but it will take a commitment on the part of the deans, provost, president, and Board to make them a reality.

Here we believe that the provost has it right: we urge in the strongest possible way that the University administration declare as its principal aim annual raises of 1% over the benchmark average for at least the next five years. Again, let us not be misunderstood. We are not asking for across-the-board raises nor are we even recommending that each college achieve the same raise pool. We believe that it is up to the deans and chairs to award raises according to merit in research, teaching and service, and up to the provost to ensure that the overall raises meet the goal of 1% over benchmark average. On the other hand, we do think that special attention needs to be given to ensuring that high-quality faculty at Ohio State be compensated equitably. The equity problem is not unique to Ohio State, but

February 1, and February 2, 2007 meeting, Board of Trustees

unless it is solved our strongest programs will continue either to lose faculty or, almost as bad, suffer from deteriorating morale among its best and often most loyal faculty.

The second initiative is the reform of graduate education and graduate programs at Ohio State. These reforms are absolutely crucial if we are to become a world-class university. At the core of every great university are graduate programs of the highest quality, especially in the arts and sciences. Broadly speaking, the issues before us involve emphasizing the research environment for faculty and graduate students. This, we believe, may well pose a challenge for Ohio State, since it will be hard to explain why the undergraduate experience will improve if we emphasize faculty research and graduate education, and why the short-term costs to the state will result in long-term returns for all of its citizens. Attracting and educating the best and brightest graduate students cannot help but improve the educational opportunities for all of our students, including our undergraduates. Moreover, the research done by these students will, in the long run, provide jobs and opportunities for all Ohioans.

We endorse the view of the reports of Deans Freeman and Beck, and the position of the provost, that some weak programs will have to be defunded, and that the doctoral subsidies will have to be redistributed in a manner that enables both our better programs to flourish and the programs most strategic for the future of Ohio State to grow. We will have to find the nuts and bolts everyday resources that Harvard or Berkeley or Michigan, or now increasingly UCLA and Texas, provide for graduate education and research; competitive multi-year fellowship offers to recruit graduate students to OSU; reduced graduate tuitions upon passage of generals; ensuring that our graduate students teach no more here than they do at the best research institutions; more colloquia, conferences, and visitors, with all their attendant costs in room, board and honoraria; more money for start-up packages in the sciences and engineering; more money for research accounts in the arts, social sciences, and humanities; and competitive leave policies to pursue one's research. Whether or not the money currently directed towards graduate education is adequate to meet these needs remains to be seen.

The faculty looks forward to hearing Dean Osmer's preliminary assessment of how much is needed to address the ambitious goals of the University, as well as how much money is currently available to meet those same goals. I have a nickel bet with Barbara that the \$17 million in annual rate that the Office of Academic Affairs currently allocates will have to be increased. I hope I will owe her a nickel, but either way, we believe that there is nothing more critical to the future of Ohio State and the State of Ohio than improving the graduate programs at Ohio State.

Let us turn to the third major initiative of the Office of Academic Affairs -- economic access. The faculty at Ohio State believe in our bones that knowledge is power. That the pursuit of it is the key both to flourishing as a human being and, equally, flourishing of the community. We do not believe that Ohio State should be open to every student who wishes to matriculate. Realizing as we do that only students with high academic potential have the opportunity to flourish here and that failing others, as we have done in the past, is neither good for them or for us. We do believe that no student who is academically qualified to be admitted to Ohio State should be prevented from enrolling due to lack of resources.

While the vast majority of us believe that the state government, for prudential if not moral reasons, should provide the monies to these students, we are resigned to the reality that tuition hikes are needed if Ohio

February 1, and February 2, 2007 meeting, Board of Trustees

State is to achieve its goal of becoming a world-class university. However, we hope that through a collaborative effort between the administration and state and federal government, we can find a formula that asks those families that can afford to pay, to pay a tuition commensurate with the quality of education they receive, and allocate sufficient resources to those who cannot afford to pay to enable them to come to Ohio State. The quid pro quo that we the faculty can promise to all families is that for every step we take towards achieving our goal of becoming world-class, your child's education will be that much better, their degree will be that much more valuable, and the economic environment of the state will be that much more vibrant, so that the jobs for which they will be qualified will be available here in Ohio.

Competitive compensation, graduate education, and economic access are all priorities. In the light of the budgetary environment at the state and federal levels, we believe that the next administration will have to focus on these priorities. At present, we may very well not have the resources to accomplish all three. Currently, the Office of Academic Affairs spends \$71 million in annual rate for student financial aid and merit aid. To date, we do not know what percentage of that figure goes towards merit. Preliminary indications are that more than \$20 million is in the merit category, a figure much higher than that of our peers.

The difference between the average ACT of the entering class, approximately 26.5, and the required honors ACT of 29 is too small to justify the burgeoning numbers of freshman honors students and the attendant costs in faculty resources and the Office of Academic Affairs' dollars. The difference between a 27 and a 29 on an ACT is just as likely explained by when you went to bed the night before as it is by anything else.

As a parent of two Ohio State students, as someone who has devoted considerable time to the honors program at Ohio State, especially the Honors Collegium, and as a regular instructor in our largest Introduction to Philosophy course -- L101 -- I think it is absurd that 20-25% of the incoming class is labeled honors. The faculty calls upon the Office of Academic Affairs to implement next fall the recommendation of the External Review Committee of Honors, to begin to shrink the honors program at Ohio State to reach its target of no more than 10% of the student body. The Office of Academic Affairs' monies currently spent on merit should steadily, over a period of time, be diminished and reallocated to the three priorities we have described. Over the intermediate and long run, offering merit incentives to attend Ohio State will have the same result as Ford's incentives to car buyers to buy a Ford instead of a Honda or Toyota. Ohio State will attract the state's best students only if we are a much better academic institution. While huge outlays in merit money may have been needed as we made the transition to selective admissions, we should now emulate the practice of Michigan, Illinois, Wisconsin, Penn State, and Texas, whose honors programs are much smaller than ours, whose outlays are much less, and whose average ACT is much higher.

We believe that there are other opportunities throughout the University to redirect dollars toward our priorities. Over the last three years, faculty leadership has requested of the Offices of Academic Affairs, Human Resources, and Business and Finance, figures pertaining to head counts of faculty, staff and administration over a fifteen-year period, broken down by college and support units, and by source of funds, i.e., general or non-general funds. We have requested raise and salary figures for assistant and associate deans, and vice presidents, as well as faculty for that same time frame. We have tried to gather comparative data from peer institutions such as Wisconsin, Illinois, and Texas.

February 1, and February 2, 2007 meeting, Board of Trustees

Let me say first that every request of Associate Vice President Larry Lewellen, Senior Vice President Bill Shkurti, and Provost Snyder was met, and almost always in a timely manner. We sincerely thank you. We cannot say enough good things about transparency, and we especially laud the effort, beginning with the Office of Academic Affairs. Hopefully soon all the colleges and support units will make available their budgets whether on-line or through more traditional media, e.g., hard copy. Second, let me say that we have a long way to go in understanding all the numbers, a long way to go in properly coding the different administrative, staff, and faculty titles and salaries, and a long way to go in -- to use the phrase that the deans and Larry beat me over the head with -- "scrubbing the numbers," both to put them in the proper context within Ohio State and in comparison to our peers.

Let me give you one such set of numbers: between 1990 and 2005 the total dollars spent on faculty salaries from general and non-general funds, excluding the Medical Center, grew from \$191 million to \$302 million, a 57% increase. Staff salary expenses grew from \$232 million to \$462 million, or almost 100% increase. We have no idea what to make of this number or even if it is a valuable number to have, but it gives us something to start with. Why the disparity? How does Ohio State compare to other peer institutions? How much of staff growth is attributable to new mandates from the state or federal authorities? How much is the result of conscious choices? How much is due to the fact that we at Ohio State are much better at creating new initiatives than we are at reviewing what we have done and closing down failed initiatives or realigning old configurations of staff to meet new needs?

You have heard from my predecessors, as well as various speakers to the Presidential Search Committee, that Ohio State suffers from a stifling bureaucracy. We all -- faculty, administration, staff, and the Board -- are going to have to work collaboratively to shrink the bureaucracy where possible, to make transparent how we spend our money, to confront hard choices about our priorities, and to face the fact that we do not and will not have the money to do everything we wish.

Let us emphatically state that we are not exempting the faculty. As Bill Shkurti told me when I first joined the Senate, if you ask the faculty what they want, you'll get 17 answers beginning with free parking and ending with Harvard salaries. He is correct; you will get a lot of answers. Yet it is also true that in the past all too infrequently the faculty have been asked -- whether in departments, colleges or in University settings -- whether they would trade a secretary or a server for a graduate fellowship or additional research funds. If we are to wring cost-savings from the \$3 billion budget of Ohio State, we will need a collaborative effort. While not every cost-saving idea is a good one, we are convinced that real gains can be achieved if transparency becomes the norm, if all parties affected by decisions are made aware of the consequences of their choices, and if we work collaboratively in achieving our goals.

Finally, let us turn to what has happened in the University Senate over the past 18 months for we truly think that they are examples of what can be done through collaborative efforts. Working with Bill's office, we reached agreement on a fiscal fraud policy in June 2005. Working with Larry's office we created a new policy on consensual relations last year. Working with the Office of Academic Affairs and The Women's Place, we have created a new policy on flexible time for faculty. Likewise we have created a new leave policy, making our sabbaticals for the first time competitive with our peers. Through the back and forth of challenge and cooperation, we have made substantial progress on Your Plan for Health and improved salaries. Jointly

February 1, and February 2, 2007 meeting, Board of Trustees

with Bob McGrath and the Office of Research, a special ad hoc committee on the Social Science Institutional Review Board will report out next month new policies that are liable to be trendsetting for the entire country. After extensive conversations with Senior Vice President Sanfilippo, Deans Bornstein and Souba, and their colleagues in the Health Sciences, the faculty and deans will soon initiate an ad hoc committee to address the fundamental question of governance rights for clinical and research faculty.

The nature of the faculty member in the 21st century is changing, and it is our obligation as faculty to confront these changes. Along with the Office of Academic Affairs, and especially Vice Provost Matt Platz, we have created an ad hoc committee to address the use of clinical titles for reconsideration of tenure and promotion decisions to ensure that when recommended by the provost and the Faculty Hearing Committee, they are new, fair, and impartial. There will also be an ad hoc committee to study the sticky issue of tenure and promotion policies for faculty with interdisciplinary appointments.

This spring we will cooperate with the Office of Academic Affairs in the review of the Federation of the Arts and Sciences. Lastly, as promised five years ago, in cooperation with the Offices of Academic Affairs and Business and Finance, we shall soon name an ad hoc committee to qualitatively review the budget process and budget model adopted in 2002. I trust that every one of the individuals mentioned here will agree that these are all the product of compromise and a growing trust between faculty and the administration.

You will no doubt notice that we have made no mention of the 181 hours to a degree. I had hoped to be able to tell you that we will be ready to bring the proposal for 181 hours to this Board for approval next month. However, the proposed template for the Bachelor of Science general education requirements differ in at least two significant aspects from the Bachelor of Arts template, and this difference is proving to be controversial. We will continue to work with the provost to persuade our colleagues in the sciences that the GER are designed to prepare the student to be a well-rounded citizen in an increasingly globalized world; that while the skills are different, the B.S. degree is no more dependent on skill sets than any other degree; and, finally, that students freely choose their majors knowing that certain majors have less flexibility than others.

Again, I want to thank the Board for the opportunity to speak on behalf of the faculty. The times-they-are-a-changing. I am an optimist by nature, so I think change should be viewed as opportunity, not crisis. I think that Ohio State is better than it has ever been. Furthermore, I think that while we face a host of challenges, we are uniquely poised to take advantage of them like never before. Obviously, if we are to achieve our priorities and if we are to become a world-class research university accessible to the best undergraduates in Ohio regardless of their socio-economic status, it will take the combined efforts of the Board, the administration, the faculty, the governor, and the legislature. It will require a successful development campaign focused on undergraduate scholarships, graduate fellowships, and additional faculty and faculty resources. It will take hard decisions on the part of all of us at Ohio State to generate cost-savings and to redirect funds within the University. And it will take, God willing, the recognition of the leaders of the state government of Thomas Jefferson's fundamental insight into the nature of our American democracy that only a well-educated citizenry can make it work. We are happy to take questions.

February 1, and February 2, 2007 meeting, Board of Trustees

Dr. Cloyd:

Dr. Silverman, that is an excellent report. I find it very encouraging the position that the faculty have taken. The whole subject of cost savings and redirection is obviously a very important one and one the University is giving attention to and needs more attention given. Is there any specific process that the faculty feels is not in place today? You mentioned transparency, but is there something else we could be doing that would further engage the faculty and their help in this whole process of cost-savings and redirection?

Professor Silverman:

I think without a doubt transparency is the key, because it is a continuing process to try to figure out where the money is being spent. I can speak in two different ways about this, one is from the average colleague who has no involvement with the University Senate and who has never sat on a Senate Fiscal Committee or a Compensation and Benefits Committee. They can probably bring cost-savings out at a local-level if they know what the department is spending their money on. As I said, given a choice we can spend it here or we can spend it there or we are doing this with our money. If we have the transparency that the provost has begun to implement in OAA -- I hope it spreads to the colleges and support units -- I think we can get some cost-savings that way.

The other way is through the Senate with a shared governance process. We have been working very hard for the past year-and-a-half with all the vice presidents and the provost to try to figure out ways in which we can better organize the review processes of the various units of the University. This is a charge of the Central Services subcommittee of the Senate Fiscal Committee, which basically has two tasks: 1) to do yearly reviews of the units or subunits like the Offices of Research or Student Affairs; and 2) to do functional reviews across various units.

You heard Ms. Bellini speak earlier today about managing waste. If we can look at the different waste management contracts -- to the best of my knowledge, there may be four including the Medical Center's hazardous waste collection -- that is a faculty job and to be perfectly honest we haven't stepped up to the plate for a variety of reasons. We haven't been able to persuade our colleagues to take part in these reviews. That is the second and probably the best thing we can do is to get the faculty and others in the University -- I don't mean to exclude the fiscal officers, staff, etc. -- to take a good hard look and contribute their ideas. I think the various officers and vice presidents of this University do a great job. As comprehensive as Bill's knowledge is of the budget and this University, not even Bill can penetrate all the way down to the low levels at which dollars are spent. We need to look at all of that.

Dr. Cloyd:

Thank you. The obvious principle that is operative there, and that I find really powerful, is the sense of responsibility it creates for all of us associated with the University to make this not only a quality education, but a highly-affordable education.

Professor Harald E. Vaessin:

To add to Allan's point clearly transparency is a critical issue, but from the Senate side we also should mention that we are in the process of discussion of improving Senate structure to some degree. I don't want to go into detail now, but to some degree we have to worry about issues of how

February 1, and February 2, 2007 meeting, Board of Trustees

the Senate can actually exercise its function and how faculties on the Senate can exercise its functions. We need to deal with how we make sure that issues are passed on as Senators rotate off committees, and how we deal with issues that individuals chair committees, in general, for one year and then disappear, and the knowledge and momentum is lost. So we are also working from that angle to ensure that as a gubernatorial we make this a smooth process.

Mr. Borrer:

Thank you, you have made a great presentation and we certainly understand all of the needs that you have. As the chair of the Academic and Student Affairs Committee, one of the things that we have been working on with Provost Snyder is the reduction in the number of hours that are required for an undergraduate student education. In watching this process -- and I think that I can speak for my colleagues on the Committee -- we are very eager to see this number decrease. We would love to support you in a number of your initiatives, but in betterment of undergraduate student education I think there is compelling information that shows that the numbers can be decreased and affordability for our students and their ability to complete a four-year term is something that we all care about. I know that you are recommending this, but we would hope that as you started your discussion about the bureaucratic issues at Ohio State, that we could see progress and see this come to fruition.

Mr. Wexner:

I agree with both of my colleagues, and encourage and appreciate your candor. We are all in this together. We have discussed this in small groups of the Board, on the efficiency of how we spend and where we spend, and the efficiency or the lack of efficiency -- utility of the bureaucracy. Bureaucracy can be within a college or a department; there are many bureaucracies here. What I would leave you with is the way I look at it as a non-academic is there is about a 15% opportunity. I just believe that everywhere -- in my business and I would believe it about the University and in almost anything. I don't know that it is there, but I like numbers in that way.

I see it as cholesterol and our collective action is like Lipitor. If the Board, the faculty, and everyone are looking at this and saying that with the aggregate of a \$3 billion budget, perhaps there is \$3-\$5 million of inefficiencies spent or dollars saved -- and we are all looking at it from different perspectives -- I think our bad cholesterol level would go down. Unless there is an acceptance -- which is culturally very hard to accept -- that everybody could be more efficient and we all see it differently, we can't get to it. I know for myself as a trustee, I think that is incredibly important for the University because that 15% -- which, I believe, is there -- redirected or just everyone gets 15% more of the savings of the inefficiency, probably helps us immensely to get from where we are to where we want to be. I believe we may have many of the resources within our control now, but we just can't get the damn cholesterol level lowered.

Professor Silverman:

I don't think I would disagree with you, Mr. Wexner. You can go around and ask individual faculty about individual ideas where costs can be saved. I sit with the chief information officer on the Senate Fiscal Committee and she has ideas about how to save money. It is a little bit like herding cats when you try to go to my colleagues to say, "Would you give this up in order to get that?" I mention servers because servers are a big issue right now at Ohio

February 1, and February 2, 2007 meeting, Board of Trustees

State and everybody wants to have their own local control over their own computer network. It may not be cost effective or good for security purposes, but this is the kind of collaborative effort we will have to repeat through all of the pockets of the University to generate savings. That is why the trust is so important.

Mr. Wexner:

The more that we are on the same issue is no one is going to find the magic 15%, but all the faculty observations about inefficiencies somewhere in there, in all these different views bundled together and examined, is how we are collectively successful. In answering Dr. Cloyd's question, in kicking it around in the Senate and saying, "This perhaps is a big priority, I would leave it for you to decide"; and "How are we going to gather all of this information because it is going to be a bit here and a bit there?" Clearly access to the administration and to the Board is essential, and for faculty to come back to us and say we have some proposals, here are some little ones and here are some big ones that will help.

Let me share a story with you from my business experience. One day somebody said, "If we use 60-watt light bulbs where we use 75-watt bulbs, we could save a lot of money." I asked where that idea came from and they said it was some dumb, part-time salesperson, because you certainly couldn't do that. We did do it. When you have 4,000 stores and you change a bunch of light bulbs, you save hundreds and hundreds of thousands of dollars. So the filter was filtering out a really good idea. I am trying to demonstrate the complexity of us gathering information, because we only know what we know from central and strategic positions.

Professor Robert J. Perry

I have been involved in the Senate for too many years and over the period of the last ten years the quality has improved. This recognition of -- if you want to come up and ask for something, you have to first make sure you are using it correctly -- the discussions were not there necessarily. That has been happening to a much greater extent over the past ten years than it had before. There is more acceptance of that and perhaps a fair amount more of understanding.

Mr. Wexner:

I didn't mean to imply that; hopefully, your house is in order. If Athletics has ideas about the Chemistry Department that is great, and if Chemistry has ideas about the Law faculty that is great, too, but you have to examine your own house. There are several thousand things that will come together that can produce it. Obviously, we need more of everything.

Professor Perry:

I think it is part of the culture.

Mr. Alvarez-Breckenridge:

Dr. Silverman, I have a question regarding your second initiative with graduate education and how it ties into benefiting the state of Ohio as a whole. As a graduate student, a lot of my fellow students are not originally from Ohio, and I don't really know if they intend to stay in Ohio once they graduate. It seems like there is a trend to want to go back to your home state. My question is how can the Graduate School go about recruiting students who are originally from Ohio, went to some other institution out of

February 1, and February 2, 2007 meeting, Board of Trustees

state for their undergraduate education, but then catch them at the end and try to bring them back for graduate school where they would hopefully settle down and that would obviously benefit the state of Ohio?

Professor Silverman:

I am not quite sure how to approach that Christopher, other than to say that in my experience graduate students, especially in the Ph.D. degree granting areas, are going to make their decisions first and foremost on where the best programs are. They are looking to enter the professoriate and are going to calculate, on the basis of their knowledge, whether they are more likely to get a job by going to Ohio State or Michigan or Illinois or anywhere else.

I assume there will be some loyalty to coming home. One feels this at various times, but, by and large, if we can build better and more competitive graduate programs, we will be able to attract those students by the sheer nature of the academic discipline. That is how it happens. Sure, some people are going to say, "Do I want to live east or do I want to live west, do I want to be on a coast or not on a coast?" But, by and large, as our peers have proved all around the country, if you are going to do computer science, you are going to look real hard at the University of Illinois. You are not going to worry about whether it is in Urbana-Champaign, it's a top five program and that is where you are going to go if you get the right offer. That is the key.

Mr. Wexner:

I just wrote myself a note, but I thought I would share it with my colleagues. Again, I like the 15% cholesterol because I think everyone's blood pressure could go down 15%, their cholesterol could go down 15%, and their heart rate could be reduced by 15%, it is a benchmark of what I think is efficiency. If that 15% target -- this is out of my imagination, but I have proven it in my world that it is reality -- of a \$3 billion budget is close to \$500 million and you assume some level of inflation over a five-year period, let alone a ten-year period, you are looking at \$2.5 billion of inefficiency that could be converted into efficiencies. So maybe if your cholesterol goes down, you will live longer and healthier, and you save other kinds of costs.

What the Board should consider is it worth a taskforce of the right people -- faculty, students, and alumnus -- to begin to think about this \$2.5-\$8 billion, over a ten-year period, efficiency and examine it, because it is an annuity that keeps on benefiting us. I am really stimulated by your discussion of needs, which everybody has. I think your needs and the things that you are talking about are very legitimate. But when I think about something that is important there are not many things that we talk about as a Board that are in the magnitude of \$2.5-\$8 billion over a ten-year period. Not only is it found money, but like reducing your cholesterol you get much healthier. Reducing your cholesterol is a mandatory thing if you don't want to be ill.

Professor Silverman:

When I first did calculations about growing the faculty -- using 3,000 as the number of faculty and calculating 10% growth over whatever the right number of years is -- basically you need about \$45 million at an annual rate, \$150,000 a person with benefits. Then I was asked, "Where do you find \$45 million at an annual rate?" After talking with Bill and others, and thinking through these found efficiencies, it strikes me that over time, you would like to believe that we could find \$15 million -- and I leave aside the Medical Center, because the budgets with clinical I don't include in the

February 1, and February 2, 2007 meeting, Board of Trustees

numbers -- in annual rate. You add in what you might get at a development campaign and what maybe the state would contribute, and you would have these resources. But it will take, first and foremost, the cost-savings within the University. Again, I can't wrap my mind around how the Medical Center's budget works with what I have available. I am sure by the time the Senate Fiscal Committee takes its look at it, we will have some better ideas of where more efficiency can be found.

Mr. Schottenstein:

Dr. Silverman, I thought your remarks were excellent. They certainly resonated with me and I suspect everyone here. I would like to get a copy of your remarks.

Professor Silverman:

I will clean up the typos and put in the commas where I think they belong, and make sure that Maureen gets them.

Judge Duncan:

Any other questions? Thank you so much for such an interesting presentation and I look forward to our next quarterly luncheon.

--0--

COMMITTEE REPORTS

Judge Duncan:

I would like to call for committee reports and will call on Mr. Schottenstein for the Audit Committee report.

Mr. Schottenstein:

Thank you, Mr. Chairman. The Audit Committee met yesterday from noon until 3:00 pm, and the primary items for discussion were a review by Mr. Shkurti of the Mid-Year Financial Report, and the follow-up to the Deloitte management letter and the various responses to some of the items raised therein, nothing material. We also undertook a review of where we stand relative to hiring the company that we are going to use to undertake the operational audit. There were also other matters that were discussed in Executive Session.

Judge Duncan:

Thank you very much. Next I will make a brief report on the meeting of the Affiliated Entities Committee, which met yesterday afternoon. We were first presented with an update in the form of a chart that sets forth information concerning each of the affiliated entities. It is a very convenient tool for an enormous job of tracking the affiliated entities. You have seen it before, but it is updated quarterly and I will provide the chart quarterly to members of the Board.

More specifically, we heard a report concerning Campus Partners from Terry Foegler, and then he commented on his much newer assignment at SciTech. We also heard a report concerning Medical Center Partners from Pete Geier. We also heard from Athletic Director Gene Smith and Joe Bull regarding the reorganization of the Diamond Club, which is a baseball support group.

February 1, and February 2, 2007 meeting, Board of Trustees

We heard some very interesting information regarding an initiative to provide teacher education in Indonesia. That initiative is in the early exploratory stages, would be a federally-funded project, and we would be collaborating with the Universities of Indiana and Illinois in that endeavor.

We also heard a most gratifying and enlightening discussion regarding our operation at the Transportation Research Center in Marysville. This is an extremely successful operation, and I have for each of you a well displayed and documented pamphlet concerning the Center's activities. I think you will find this pamphlet extremely interesting.

There were no action items. I will get this information out to you in the short term.

Next I will call on Mr. McFerson for the Medical Center Affairs and Investments Committees reports.

Mr. McFerson:

The Medical Center Affairs Committee met this morning at 8:00 am and covered a number of items. First, Dr. Sanfilippo gave a quick report on some people issues, new hires, and a couple of program updates. We then had the quarterly financial report from Chief Financial Officer of the Medical Center, John Stone. The Medical Center is doing very well through the first six months of the year in virtually every category and is slightly ahead of budget. That is encouraging.

We then went through a variety of consent agenda items which are being proposed to this Board: 1) appointment/reappointments to the Harding Hospital Board; 2) to combine University Hospitals and University Hospitals East into a Single Provider; 3) amendments to the *Bylaws and Rules and Regulations of the Medical Staff* for University Hospitals East; 4) establishment of the College of Public Health; 5) the approval of a non-academic Center for Vascular Imaging; and 6) some personnel actions. All of those were approved to forward to this Board by the Medical Center Affairs Committee.

We then had another discussion about the alignment of the fiscal plan with the Master Space Plan.

In the Investments Committee meeting this morning, we heard our monthly report from Dr. Schroeder on University Development, which is off to a good start this year in most categories. We should all feel amazed that we have 69,000 different sources of contributors through the first six months of the year. The vast majority of which are individuals and they have combined in the aggregate individuals, corporations, private foundations, and so forth, \$73.7 million up from \$67.9 million at the same time last year.

Then we dispensed with the Monthly Endowment Report and instead talked about the Quarterly Endowment Report. As a result of time, those numbers are up from six months ago and three months ago. The market value now is \$2.1 billion comprised between two categories: 1) the gifted portion of \$1.64 billion; and 2) the operating portion of \$735 million. All of which is combined into one investment source which is distributed widely among a huge amount of diversification.

We had recommendations from Associate Treasurer Al Rodack on two additional appointments of investment managers. If you look at this in your Board books, you will see a listing of all the different investment advisors and it is now three pages long. We have really diversified the portfolio,

February 1, and February 2, 2007 meeting, Board of Trustees

which is to our advantage, as a result of the research that has been done and our consulting help.

Judge Duncan:

Do we have any discussion or questions?

Mr. Wexner:

Dimon, have we hired Cambridge Consultants yet to examine the portfolio strategies?

Mr. Rodack:

We are using the firm Cliffwater. We do utilize Cambridge's database and we hire them for a look at the staffing in the investment area.

Mr. Wexner:

I just want to put a fork in that one. I would like to know what university, besides Ohio State, does not use Cambridge Consultants? The last time I looked, which was five years ago, we were the only school that didn't use Cambridge Consultants in the Big Ten, the top ten research institutions, the top twenty endowments, and the top ten museums in the country.

I got stalled around on this one. They look at everyone's endowment, they get all of the comparative data, and they advise endowments on the performance of the people that they are using to manage their funds. It would be like if I said ten years ago, "We are going to use ballpoint pencils," and got waltzed around for ten years. I am just appalled.

I will Google it on the internet, but I will bet it hasn't changed. I really would advise the chief financial officer, the treasurer, and everybody that touches the endowment in the financial management of the University, it is a really cheap date. Everyone uses them, everyone. I haven't looked at it in five years, but for the previous decade everyone did and, I believe, you will find it is true today. It is really quite sad that we are the outlier and I would be delighted to be wrong and apologize.

Mr. William J. Shkurti:

We will follow-up and give a detailed report back to the Investments Committee and a copy to Mr. Wexner.

Judge Duncan:

Let me call on Mr. O'Dell for the Agricultural Affairs Committee report.

Mr. O'Dell:

Thank you, Mr. Chairman. The Agricultural Affairs Committee met this morning. As Chairman Duncan mentioned earlier, we welcomed Mr. Robert Boggs to the Committee as vice chair, ex-officio.

Additionally, we received the report from Drs. Bobby Moser and Steve Slack, director of OARDC, on our Plant and Animal Agro Security Research Project. This is a two-phase project, with Phase One underway. This is a biosafety level-three project for food animals and \$13 million of the \$21 million required is in hand and committed by state and federal funds. It is a very important project and moving along. Phase Two is a similar project for

February 1, and February 2, 2007 meeting, Board of Trustees

plants and that is further in the future. Mr. Chairman, that is the end of my report.

Judge Duncan:

Are there any questions or discussion? Thanks very much. I'll next call on Mr. Borrer.

Mr. Borrer:

Today we heard an update on our reaccreditation process from Vice Provost Randy Smith. As I have reported before, this process is completed every ten years and we will be finalizing this in April. We expect a positive outcome. One thing that I would like to make sure everybody understands is the thoroughness with which Vice Provost Smith has kept our Committee advised of this process. It has been very detailed, and, over the last three years since I have been on the Committee, I think they have done a very good job on reaccreditation.

We heard an update about the centralized Financial Services Office from USG president Ryan Fournier, which we had heard about during our previous Board meeting. He is working to finalize this in a series of meetings coming up in March.

Next we heard a report on student wellness from Connie Boehm. We have been thorough in our initiative to assess the wellness of our incoming students. Painting with a broad brush, we have a generally healthy incoming class -- students who face normal issues. One problem that has seemingly been more and more of an issue for our students is stress. The stress levels today for incoming students -- while we certainly remember it when we were in school -- seem to be more and more from both a financial and studying initiative, so we are watching that.

One of the things that the wellness group is doing is establishing a peer-to-peer contact group to work on wellness issues and are having initially very good results. In listening to the report today, I believe we are on the forefront of the initiative for our students to learn to live healthy lives. I am very happy with that process and I think the Committee is too.

Provost Snyder and our Committee are recommending to the Board the following resolutions: 1) the establishment of the College of Public Health; 2) the establishment of the Center for Family Research; 3) the approval for non-academic center status; and 4) routine personnel actions.

Chairman Duncan, that concludes my report.

Judge Duncan:

Are there any questions or comments? I will now call on Jo Ann Davidson for the Fiscal Affairs Committee report.

Mrs. Davidson:

Thank you, Mr. Chairman. The Fiscal Affairs Committee had a very full agenda this morning. We had five different reports and will bring four items forward for the consent agenda today.

Bill Shkurti reported on the Medical Center's Facility Plan Update and covered some of the items that were listed in President Holbrook's letter to Dr. Sanfilippo about questions that the Board continues to have about

February 1, and February 2, 2007 meeting, Board of Trustees

moving ahead with a plan. There is a full update in your notebooks if you haven't had a chance to read it.

Bill covered each of those items and indicated in his opinion where we stand today. There are still five issues that we need more information on: 1) there are still concerns as we look ahead towards the Fiscal Year 2009 bond issue; 2) the development target dollars we were talking about -- whether it is \$100 million or \$75 million; 3) the exemption for The James, which we are still waiting on some resolution and confirmation of where we think we are, but we think we are in very good shape; 4) a timeline; and 5) the break points, which is when the Board has the ability to make some decisions as we go down the road on that. So we will get some additional reports on those particular issues.

Bill also reported on the FY 2007 Mid-Year Financial Report, indicating that we are having a good year, and part of that is due to our enrollment being up and that has generated some additional resources. He mentioned that even though we are having a good year, there are things on the horizon that we need to be sensitive to: 1) the state budgeting situation; the budget will not be introduced until mid-March, so we don't have any idea where we might stand there; and 2) looking ahead to Fiscal Year 2008, we were reminded that OSU is in the middle of the installation of a Student Information System and that always carries some concerns with it.

Lee Walker reported on the wrap-up from the Fiscal Year 2006 budget to see where we were in our estimates in expenses and receipts. Fortunately those estimates this year came in higher on our receipts, because we actually had a huge increase in our investment income and we were lower on our expenditures. So we ended up in good shape on our estimates in coming out of Fiscal Year 2006.

We had an excellent report on Energy and Sustainability from Melissa Bellini and two members of her staff. This is one of the areas that we have looked at as a way of saving some dollars. We are receiving quarterly reports where we are concentrating our efforts to save some money and it ties in with our earlier discussion about where we go to look at some additional dollars. This is where they are doing a lot of innovative things such as: having energy audits of our buildings; locking in commodity prices ahead of time to save some money, which is serving us well this year, they have locked in about 52% pre-purchased energy for 2008; replacing some metering; and as we go into the construction of our new buildings they are looking at how we can have more energy conservation.

The combined efforts so far for FY 2006 and FY 2007 are a savings of almost \$5 million from these efforts. The concern that we still have is that our energy budget for this particular fiscal year is 21% higher than our energy budget for the last fiscal year, so we have that to look at as we move into our budgeting process very soon.

Ms. Bellini also gave us a report on the On Time and On Budget of all of our construction projects and, as you know, we have many of them going on. We are running an average of about 93% of our projects on time and on budget. We had some good discussion in the Committee about some other things that we should be looking at as it relates to that. Mr. Wexner had some good suggestions about how we need to always realize there is a certain amount of contingency built in. When we say we are on budget, we need to be looking at what that contingency percentage is and we also need to be looking a little bit more at the square foot cost of our buildings as they then are compared to other similar buildings being constructed on other campuses or in the general community.

February 1, and February 2, 2007 meeting, Board of Trustees

The four items that we are bringing to you for approval today are: 1) the approval to enter into design and construction contracts, and to increase the construction contract on one project; 2) the sale of real property on the Marion campus – we had the first reading last month -- and the sale price will be above the appraised value of the property; 3) entering into a long-term lease for the property located on West Henderson Road for the renovation of an indoor varsity tennis facility, with the option to purchase; and 4) some good adjustments to our FY 2007 and FY 2008 capital budget plans. We have received some additional money from the State of Ohio in the amount of \$8.9 million, and in accepting this additional money we would allocate that for the demolition of Lord Hall and for the renovation of Cunz Hall. Both of these buildings will take significant maintenance problems off of our hands and move in the direction that the Board has wanted to move to in reducing those obligations. Those are the four items -- #17 through #20 -- on the consent agenda and the Committee is recommending them for approval.

Thank you, Mr. Chairman.

Judge Duncan:

Are there any questions?

Mr. Wexner:

I wanted to annotate the remarks that I made at the Fiscal Affairs Committee, to just give everybody a tangible example. The New Albany community is building a performing arts center. The building has 600 seats, is fully equipped, it is all brick, and, to the best of my knowledge, it is beautiful. The bidding is done, it is under construction, and it came in about 5%, when bid, over budget. Except when done, it will be the least expensive auditorium -- between 500 – 1,000 seats -- to have been built in the United States in the last ten years.

I am talking about what things cost on a square-foot basis, who you benchmark against, and what do you get. I think this is a significant issue when we are talking about hundreds and hundreds of millions of dollars, this year, next year, a continuing flow. How we think as a Board about how we benchmark, what do we know about what things cost, and what quality are important. I am linking it to my cholesterol conversation.

This issue in looking at things in square footage is that benchmarking and knowing what you get is important. Because it could well be that I could tell you the story about the performing arts center in New Albany and you could say, "Yes, you built a plastic building that has no roof and no air conditioning, it isn't fully equipped, it isn't landscaped, it is not all in the cost of architecture and landscape planning and the plantings that come with it." I say, "This is all in the cost. The target was to design and build something that was super good." The benchmark was could New Albany be more efficient than anything built in the country. When you think that way, you approach things very differently. I was not on that committee, but I reviewed some of the work. It is just a tangible example because it is in central Ohio and concretizes the point.

Judge Duncan:

Any further discussion? Thank you.

--0--

CONSENT AGENDA

President Karen A. Holbrook:

We currently have nineteen resolutions on the Consent Agenda today and we would like to conduct separate votes for #13 and #15. We are seeking your approval for:

AMENDMENTS TO THE *BYLAWS OF THE BOARD OF TRUSTEES*

Resolution No. 2007-79

Synopsis: Approval of the administrative amendments to the *Bylaws of the Board of Trustees* to reflect the delineation of responsibilities is recommended.

WHEREAS it is recommended that the position of executive vice president and provost be amended to reflect more accurately the relationship with the senior vice president for business and finance with respect to the university budget, and reflect the reporting line of the senior vice president for research as follows:

Amended Bylaw

3335-1-03 Administration of the university.

(A) through (E) unchanged.

(F) Executive vice president and provost. The major area of responsibility and authority of the executive vice president and provost shall be that of the instructional and faculty affairs of the university, and the chief operating officer of the university. Without limiting the generality of the foregoing, the executive vice president and provost shall, under the direction of the president and with the approval of the board of trustees, be responsible and have the requisite authority for: providing coordinated leadership for the development and evaluation of curricular patterns and teaching methods; the selection, promotion, professional development, tenure and salary of instructional staff; ~~chief architect of~~ in partnership with the senior vice president for business and finance, develop and administer the university budget; development and administration of human resources programs and services for faculty and staff; through the office for the coordination of minority affairs and in cooperation with the other existing agencies of the university, the development and maintenance of supplemental programs for the recruitment, orientation, counseling, tutoring, and financial assistance for minority students and the search for necessary funds to support these programs; through the constituent academic divisions, the appraisal of the effectiveness of academic counseling and devising the organization and procedures to improve its effectiveness; the development and administration of policies and operating procedures for enrollment services including admissions, registration, records, and scheduling; student financial aids and scholarships; the development of the services of the university libraries and other learning resources; ~~oversight of the office of the senior vice president for research and ensuring the coordination of research with instruction;~~ the development of instructional programs of the departments of air force aerospace studies, military science and naval science; the development of the four regional campuses; oversight of the office of the chief information officer and university systems; and as a deputy of the president of the university, the coordination of all matters administratively assigned to the other vice presidents of the university which relate to the academic program of the university.

Balance unchanged.

February 1, and February 2, 2007 meeting, Board of Trustees

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the President, the proposed administrative amendment be hereby adopted, effective immediately.

REGIONAL CAMPUS BOARD APPOINTMENT

Resolution No. 2007-80

Synopsis: Approval of an appointment to the Marion Regional Campus Board is proposed.

WHEREAS the Board of Trustees in 1994 approved the establishment of The Ohio State University Regional Campus Boards; and

WHEREAS it has been previously stipulated that "the board shall be composed of ten members appointed by The Ohio State University Board of Trustees in consultation with the president of the university;" (nine members shall be private citizens; and one member shall be a student); and

WHEREAS the following named person has been nominated and selected for appointment to the Marion Regional Campus Board for the term as specified:

Appointment

Ronald J. Scharer, 1st term, February 8, 2007 – June 30, 2008

NOW THEREFORE

BE IT RESOLVED, That the foregoing nominee be approved as a member of the Marion Regional Campus Board, effective February 8, 2007.

**APPOINTMENT/REAPPOINTMENTS TO THE
OSU HARDING HOSPITAL BOARD**

Resolution No. 2007-81

Synopsis: Approval of appointment/reappointments to the OSU Harding Hospital Board is proposed.

WHEREAS the Board of Trustees on December 6, 2001, approved the establishment of the OSU Harding Hospital Board; and

WHEREAS all members of a specialized board shall be appointed by The Ohio State University Board of Trustees in consultation with the Vice President for Health Services, the Senior Vice President for Health Sciences, and the President of the University:

NOW THEREFORE

BE IT RESOLVED, That the following individuals be appointed/reappointed as citizen members of the OSU Harding Hospital Board for the following terms:

Yvette McGee-Brown, effective February 1, 2007 through January 31, 2010
(1st term)

Richard Harding, effective May 1, 2006 through April 30, 2009 (2nd term)

Sul R. Thorward, effective May 1, 2006 through April 30, 2009 (2nd term)

February 1, and February 2, 2007 meeting, Board of Trustees

**COMBINING UNIVERSITY HOSPITALS AND UNIVERSITY
HOSPITALS EAST INTO A SINGLE PROVIDER**

Resolution No. 2007-82

Synopsis: Authorization to combine University Hospitals and University Hospitals East into a single provider is proposed.

WHEREAS the leadership of University Hospitals and University Hospitals East has developed a proposal to make the University Hospitals East part of University Hospitals ("Proposal"); and

WHEREAS under the Proposal, University Hospitals and University Hospitals East would become a single entity, with a single medical staff and a single provider number; and

WHEREAS the University Medical Center has determined that having University Hospitals East become a part of University Hospitals will result in efficiencies in providing care to patients, increased opportunities to support the Medical Center's academic mission and improved financial performance; and

WHEREAS the Boards of University Hospitals and University Hospitals East have endorsed and recommended the proposed merger of the two hospitals; and

WHEREAS the recommended amendments to the University Hospitals *Medical Staff Bylaws and Rules and Regulations* have been approved by its bylaws committee, medical staff administrative committee, and the medical staff; and

WHEREAS the Boards of University Hospitals and University Hospitals East have endorsed and recommended the attached amendments to the *Medical Staff Bylaws* of University Hospitals to enable this merger:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby approves the merger of University Hospitals East into University Hospitals effective July 1, 2007; and

BE IT FURTHER RESOLVED, That the executive director of University Hospitals and the vice president of Health Services are hereby authorized to take all necessary administrative actions to implement this resolution; and

BE IT FURTHER RESOLVED, That the attached proposed amendments to the University Hospitals *Medical Staff Bylaws* be adopted as recommended by the University Hospitals Board; and

BE IT FURTHER RESOLVED, That the *Medical Staff Bylaws and Rules and Regulations* of University Hospital East are hereby rescinded effective July 1, 2007.

(See Appendix XXXI for background information, page 817.)

**AMENDMENTS TO THE BYLAWS AND RULES AND REGULATIONS OF
THE MEDICAL STAFF OF THE OHIO STATE
UNIVERSITY HOSPITALS EAST**

Resolution No. 2007-83

Synopsis: The amendments to the *Bylaws and Rules and Regulations of the Medical Staff* of The Ohio State University Hospitals East are recommended for approval.

February 1, and February 2, 2007 meeting, Board of Trustees

WHEREAS The Ohio State University Hospitals Board pursuant to bylaw 3335-101-04 of the *Hospitals Board Bylaws* is authorized to recommend to the Board of Trustees the adoption of amendments to the *Bylaws and Rules and Regulations of the Medical Staff* of The Ohio State University Hospitals East; and

WHEREAS these amendments were approved by the University Hospitals Board on January 25, 2007:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments are hereby adopted.

(See Appendix XXXII for background information, page 831.)

ESTABLISHMENT OF THE COLLEGE OF PUBLIC HEALTH

Resolution No. 2007-84

Synopsis: Proposal to establish the College of Public Health is proposed.

WHEREAS the School of Public Health, established in 1995, is the only accredited school of public health in Ohio, and has the largest and most comprehensive public health offerings; and

WHEREAS the move to college status, accompanied by an aggressive growth strategy, will enhance recruitment of faculty, making it comparable in size and configuration to benchmark institutions; will help it enhance its research, teaching, and outreach contributions to the University and thus its visibility within and outside the University; and will help remove the ambiguity concerning the School's eligibility for continued accreditation; and

WHEREAS the multidisciplinary nature of public health can benefit the entire University, both in research and in educational programs; and its active dual or combined degree programs can help attract excellent students to both degrees; and

WHEREAS the proposal adheres to the *Guidelines for Determining College Status*, was reviewed and endorsed by the Faculty Council, the full Council on Academic Affairs, and approved by the University Senate at its January 11, 2007 meeting:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish the College of Public Health, be hereby approved, effective immediately.

ESTABLISHMENT OF THE CENTER FOR FAMILY RESEARCH

Resolution No. 2007-85

Synopsis: Proposal to establish the Center for Family Research is proposed.

WHEREAS the overall mission of the Center for Family Research is to conduct research for improving the lives of children and families; and

WHEREAS it will focus specifically on the context of the family; be interdisciplinary in nature; provide high quality undergraduate and graduate

February 1, and February 2, 2007 meeting, Board of Trustees

experiences; and serve as a catalyst for outreach and engagement strategies to strengthen individuals and families through research-based educational programming; and

WHEREAS linkages between the Center and other University-based initiatives will provide additional opportunities for University scholars from a wide variety of academic backgrounds to participate in an interdisciplinary examination of the family context of youth development and well-being; and

WHEREAS this proposal has the support of the dean of the College of Education and Human Ecology and the executive dean of the College of Food, Agricultural, and Environmental Sciences, and the proposed Center will be directed by one faculty member from each of these two colleges; and

WHEREAS the proposal adheres to the *Guidelines for the Establishment and Review of Academic Centers*, was reviewed and endorsed by the University Research Committee, the Council on Research and Graduate Studies, the full Council on Academic Affairs, and approved by the University Senate at its January 11, 2007 meeting;

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish the Center for Family Research, be hereby approved, effective immediately.

APPROVAL OF NON-ACADEMIC “CENTER” STATUS

Resolution No. 2007-86

Synopsis: Approval of non-academic “center” status is proposed.

WHEREAS faculty rule 3335-3-36 (A) specifies that: “Use of “center” or “institute” in the names of proposed units of the university shall be limited to academic centers, unless approved by the Council on Academic Affairs”; and

WHEREAS a request has been received from the College of Medicine for the use of this term for the “Center for Vascular Imaging” – an umbrella for the clinical activities that currently exist in the Departments of Internal Medicine, Surgery, and Radiology; and

WHEREAS subsequent use of the term “academic” center will require that a formal proposal for academic center status will need to be submitted to the Council on Academic Affairs for full review; and

WHEREAS the Council on Academic Affairs reviewed this formal request on January 17, 2007 and had no objections:

NOW THEREFORE

BE IT RESOLVED, That the use of the term “center” for the “Center for Vascular Imaging” be approved, effective immediately.

HONORARY DEGREES

Resolution No. 2007-87

Synopsis: The awarding of honorary degrees is recommended for approval.

February 1, and February 2, 2007 meeting, Board of Trustees

WHEREAS the Committee on Honorary Degrees and the University Senate, pursuant to rule 3335-5-488 of the Administrative Code, have approved for recommendation to the Board of Trustees the awarding of honorary degrees as listed below:

John M. Opitz	Doctor of Science
John Griggs Thompson	Doctor of Science

WHEREAS pursuant to paragraph (B)(4) of rule 3335-1-03 of the Administrative Code, the President, after consultation with the Steering Committee of the University Senate, recommends to the Board of Trustees the awarding of an honorary degree as listed below:

Ellen Johnson-Sirleaf	Doctor of Public Administration
-----------------------	---------------------------------

NOW THEREFORE

BE IT RESOLVED, That the above honorary degrees be awarded in accordance with the recommendation at a time convenient to the University and the recipients.

PERSONNEL ACTIONS

ANELYA E. RUGALEVA, Department of Slavic and East European Languages and Literatures, with the title Associate Professor Emeritus, effective February 1, 2007.

DONALD J. SMELTZER, Department of Psychiatry, with the title Associate Professor Emeritus, effective February 1, 2007.

February 1, and February 2, 2007 meeting, Board of Trustees

MAURICE E. WATSON, School of Environment and Natural Resources, with the title Associate Professor Emeritus, effective February 1, 2007.

JOHN V. CHIDLEY, School of Allied Medical Professions, with the title Assistant Professor Emeritus, effective February 1, 2007.

ROBERT W. DOUGLASS, School of Environment and Natural Resources, with the title Assistant Professor Emeritus, effective February 1, 2007.

ROBERT D. KLINGENSMITH, JR., Department of Geography (Newark), with the title Assistant Professor Emeritus, effective February 1, 2007.

ERNEST F. OELKER, Ohio State University Extension, with the title Assistant Professor Emeritus, effective February 1, 2007.

DENNIS L. WEILNAU, Ohio State University Extension, with the title Assistant Professor Emeritus, effective February 1, 2007.

RESOLUTIONS IN MEMORIAM

Resolution No. 2007-89

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Floyd Henderson

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 6, 2006, of Floyd Henderson, Instructor Emeritus in the Ohio State University Extension.

Mr. Henderson was born April 23, 1906, in Cadiz, Ohio. He received his Bachelor of Science in Agriculture degree in 1928 from The Ohio State University.

Floyd began his Extension career in Ohio in March 1930 as the county agent-agriculture in Belmont County. In 1930 he transferred to Jackson County as the county agent-agriculture and, in 1946, became the county agent-agriculture in Noble County. He held this position until his retirement on August 31, 1965.

Floyd's contributions in providing Extension educational programs during his career proved that he was a truly dedicated teacher for Extension. He administered many educational programs for Extension clientele. He conducted farm management programs for farmers who worked on or owned hill farms. He also was instrumental in planning and organizing the Guernsey/Noble County Feeder Calf Livestock Association and its annual sale. He was a member of the National Association of County Agricultural Agents.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Floyd Henderson its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

February 1, and February 2, 2007 meeting, Board of Trustees

Beulah M. Hill

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 19, 2006, of Beulah M. Hill, Assistant Professor Emeritus in the Ohio State University Extension.

Professor Hill was born January 22, 1921, in Mason County, Kentucky. She received her Bachelor of Science in Home Economics degree in 1943 from the University of Kentucky, and her Master of Science degree in agricultural education from The Ohio State University in 1976.

Beulah began her Extension career in Ohio in April 1963 as the county extension agent-home economics in Clinton County. In 1970, she became the area extension agent-home economics for the Washington Court House area, and in 1982 she transferred to Highland County as the county extension agent-home economics. She held this position until her retirement on October 31, 1986.

Professor Hill's contributions in providing Extension educational programs during her career proved that she was a truly dedicated teacher for Extension. She conducted many educational programs for Extension clientele including a pilot program for "Feeding Young Families" and helped develop the "Clothing Cupboard" in Clinton County for low-income families. She taught nutrition education classes to low-income families as well. She taught several workshops on food preservation, canning, microwave and meat cookery. Beulah was a member of the National Association of County Home Economics Agents and received the Distinguished Service Award in 1974. She was also a member of the Ohio County Extension Agent's Association.

On behalf of the University community, the Board of Trustees expresses to the family and friends of Professor Beulah M. Hill its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

Walter E. Pillow

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 7, 2006, of Walter E. Pillow, Associate Professor Emeritus in the College of Social Work.

Professor Pillow was born on July 4, 1927, in Smith's Grove, Kentucky. He obtained a Bachelor's degree from Hampton Institute, majoring in sociology. Having completed a tour of duty in the U.S. Army during the fifties "Cold War" period, he went on to obtain a Master of Social Work degree from The Ohio State University in 1957. He served on the College of Social Work faculty from 1968 until his retirement in 1984.

Walter made his mark on the social work profession as a group work practitioner, working with disturbed children and their parents. Along the path to establishing himself in this community, he was employed for 10 years as a youth leader at Central Community House, as a program director at Columbus Children's Psychiatric Hospital, and as assistant to the director of Planned Parenthood of Columbus. He also served as a consultant on intervention strategies with the Ohio Youth Commission.

Professor Pillow's expertise in the child mental health field was recognized in the broad community, extending beyond the boundaries of his adopted city of Columbus. He served as a field instructor with students from other colleges and

February 1, and February 2, 2007 meeting, Board of Trustees

universities, including West Virginia University, Ohio Dominican University, and Capital University.

His teaching in social work at Ohio State included undergraduate practice courses and instructing graduate students, placed in correctional field agencies, as they learned to apply knowledge from the classroom to the real world of service delivery, specifically through group treatment of youth in the secure juvenile corrections setting of the Ohio Youth Commission.

Professor Pillow was particularly skillful at mentoring graduate students in his field setting and became an advisor and friend to many students with whom he came into contact. He was especially revered for encouraging those who were striving to improve their statuses. He is remembered by many of his former students as an approachable, warm, no-nonsense person who cared for his students and went out of his way to be helpful to them.

Walter served as college liaison to the United Negro College Fund and to the Ohio State Alumni Association. He maintained a consulting and volunteer service relationship with several social agencies including Boys Own Shelter Inc., the Board of North Central Mental Health, and the Franklin County Mental Health Board, as well as the Commission on Inter-Professional Education and Practice. He was also active with the Group Work section of his professional organization, the National Association of Social Workers.

Professor Pillow was a very approachable colleague who stressed the positives in people – all people. He loved life, good clothes, good food, good conversation, and a good laugh. He was a faithful member of the Shiloh Baptist Church in Columbus, and was skilled at the piano and as a singer with a rich, solo baritone voice. He was highly regarded as a faithful and generous member of his church organization, as an alumnus of Ohio State, and as a faculty member in the field of social work.

On behalf of the University community, the Board of Trustees expresses to the family and friends of Professor Walter E. Pillow its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2007-90

Synopsis: The report on the receipt of gifts and the summary for December 2006 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The Clayton C. Wagner Parkinson's Disease Chair in Neurology and The Walter H. Kidd Designated Professorship in the Knowlton School of Architecture; and

WHEREAS this report includes the establishment of forty (40) new named endowed funds, the revision of six (6) endowed funds, and the closure of one (1) endowed funds:

February 1, and February 2, 2007 meeting, Board of Trustees

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of December 2006 be approved.

Establishment of Named Designated Professorship

The Walter H. Kidd Designated Professorship in the
Knowlton School of Architecture

The Walter H. Kidd Designated Professorship in the Knowlton School of
Architecture was established February 2, 2007, by the Board of Trustees of The
Ohio State University with annual distribution from The (endowed) Walter H. Kidd
Fund, which was established with gifts from Walter H. Kidd. The annual

February 1, and February 2, 2007 meeting, Board of Trustees

distribution from The Walter H. Kidd Fund is used for the benefit of the College of Engineering for any purpose relating thereto as the dean of said College shall determine.

Mr. Walter H. Kidd was a graduate of the College of Engineering (Bachelor of Architectural Engineering, 1929) who had an accomplished professional career. He contributed much of his accumulated assets to The Ohio State University Development Fund for the advancement of the College of Engineering. His generosity is recognized and appreciated.

A sum of \$37,500 per year will be spent over a five-year period which will provide salary and research support for a professorship position at the Austin E. Knowlton School of Architecture. The dean of the College of Engineering, in consultation with the director of the Knowlton School of Architecture, shall recommend the candidate for the professorship to the executive vice president and provost. Appointment to the position shall be approved by the Board of Trustees.

The designated professorship may be renewed at the prevailing amount and term at the time of renewal. The professorship holder may be reappointed to another term following favorable assessment of the holder's academic and research performance and accomplishments during an appointment.

\$37,500.00 per year for five years

Establishment of Named Endowed Funds

ATI Instructional Technology Endowment Fund

The ATI Instructional Technology Endowment Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University with a grant from the U.S. Department of Education.

The annual distribution from this fund shall be used to enhance academic programs, courses, and initiatives making greater use of instructional technologies at Ohio State ATI. Expenditures shall be approved by The Ohio State University Agricultural Technical Institute associate director – academic affairs.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by The Ohio State University Agricultural Technical Institute director and associate director – academic affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment:	\$50,000.00
Total Commitment:	\$250,000.00

February 1, and February 2, 2007 meeting, Board of Trustees

The Carl E. Pickering Memorial Endowed Scholarship Fund in Human and Community Resource Development

The Carl E. Pickering Memorial Endowed Scholarship Fund in Human and Community Resource Development was established February 2, 2007, by the Board of Trustees of The Ohio State University with gifts from Dr. Ed R. Pickering (B.S., 1956; M.S., 1958) in honor of his father, Carl E. Pickering (B.S., 1930).

The annual distribution from this fund shall provide a scholarship for an entering freshman student enrolled in agricultural education who demonstrates both academic achievement (based on high school scores) and financial need. The donor would prefer that the scholarship be awarded to the same student each year, repeatable for four years as long as the student maintains a 3.0 grade point average (G.P.A.). Scholarship recipients will be selected by the agricultural education undergraduate scholarship committee, in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Henry A. Wise II, M.D., Endowed Professorship Fund in Urology

The Henry A. Wise II, M.D., Endowed Professorship Fund in Urology was established February 2, 2007, by the Board of Trustees of The Ohio State University with gifts from the University Urology Education and Research Foundation, Inc., and friends of the Department of Urology, with support from the College of Medicine; given in honor of Henry A. Wise II, M.D. (clinical professor emeritus, 2003; held positions of assistant professor, associate professor, division director, and clinical professor in Urology from 1972-2000) of Dublin, Ohio.

The annual distribution from this fund shall be reinvested in the endowment principal until the principal reaches the level of \$1,000,000. Upon reaching this level, it will be used for an endowed professorship position in the Department of Urology in support of a nationally recognized urologist faculty member undertaking clinical, educational, and research activities in the field of urology. If funding reaches the level of \$2,000,000, the professorship shall be converted to a chair position. Appointment shall be made as recommended by the chairperson of the Department of Urology and approved by the dean of the College of Medicine and the senior vice president for Health Sciences. The activities of the professorship or chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donor as well as the academic and research standards of the University.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by

February 1, and February 2, 2007 meeting, Board of Trustees

the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the chairperson of the Department of Urology in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The William L. Berry Scholarship Fund

The William L. Berry Scholarship Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University with gifts from colleagues and friends of Professor William L. Berry to honor his professional achievements.

The annual distribution from this fund shall provide scholarship support to a student(s) in the Master of Business Administration (M.B.A.) degree program at The Max M. Fisher College of Business, with preference given to operations management majors. Scholarship recipients will be selected by the dean of the Fisher College of Business in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$44,850.00 (grandfathered)

The Ohio State University "Brutus Buckeye" Scholarship Fund

The Ohio State University "Brutus Buckeye" Scholarship Fund in the Department of Athletics was established February 2, 2007, by the Board of Trustees of The Ohio State University with gifts from Colonel and Mrs. George R. Nelson (B.S., 1971), their family, and friends of The Ohio State University.

The annual distribution from this fund shall be used at the discretion of The Ohio State University head coach for cheerleaders to provide a tuition scholarship award for the full-time student or students serving as "Brutus Buckeye," the athletic mascot of The Ohio State University. The decision to grant the award must include a thorough consideration of each candidate's academic standing and demonstrated potential for leadership. On the date the scholarship is awarded each candidate must be in sound academic standing and have achieved a sophomore class status as designated by the University. The director

February 1, and February 2, 2007 meeting, Board of Trustees

of Athletics must verify the qualification of any and all candidates in consultation with the Office of Student Financial Aid before the scholarship is awarded.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$28,625.00 (grandfathered)

Change in Description of Named Endowed Funds

The Gordon Grigsby Poetry Fund

The Gordon Grigsby Poetry Fund was established March 7, 1986, by the Board of Trustees of The Ohio State University with a gift from Paul Watkins (B.S., 1958) of Columbus, Ohio, in honor of Gordon K. Grigsby, Associate Professor of English (now Professor Emeritus) at The Ohio State University. The description was revised February 2, 2007.

The annual distribution from this fund shall be used to, but shall not be limited to, support the costs of events that are directly associated with honoraria readings by creative writers who visit campus. Appropriate expenditures shall be determined by the Department of English Creative Writing Program and approved the dean of the College of Humanities.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Humanities and the chairperson of the Department of English. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

The Von Price Scholarship Endowment Fund

The Von Price Scholarship Endowment Fund was established April 7, 2006, by the Board of Trustees of The Ohio State University with gifts in memory of Von Price of Garrettsville, Ohio, from his family. The description was revised February 2, 2007.

The annual distribution from this fund shall be used to award one or more scholarships to students in the College of Food, Agricultural, and Environmental

February 1, and February 2, 2007 meeting, Board of Trustees

Sciences with a minimum grade point average of 2.5 who demonstrate merit and need and who are members of the current year's Intercollegiate Livestock Judging Team. Scholarship recipients shall be selected by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences or the dean's designee, in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

THE OHIO STATE UNIVERSITY FOUNDATION

Establishment of Named Endowed Chair

The Clayton C. Wagner Parkinson's Disease Chair in Neurology

The Clayton C. Wagner Parkinson's Disease Research Professorship was established December 3, 1999, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from an anonymous donor made in memory of Clayton C. Wagner. The Clayton C. Wagner Parkinson's Disease Clinical Research Professorship, The Clayton C. Wagner Parkinson's Disease Professorship in Neurotherapeutics, and The Clayton C. Wagner Parkinson's Disease Research Fund, established by estate gifts from the same anonymous donor, were merged with The Clayton C. Wagner Parkinson's Disease Research Professorship to create a named endowed chair position February 2, 2007.

The annual distribution from this fund shall be used for a chair position supporting a nationally or internationally recognized physician faculty member in the Madden/National Parkinson's Foundation Center of Excellence for Parkinson's Disease at The Ohio State University whose focus is to advance medical knowledge of Parkinson's Disease towards finding the cause, innovative treatment, and cure. The appointment shall be made at the recommendation of the chairperson of the Department of Neurology in consultation with the director of the Madden/NPF Center and as approved by the dean of the College of Medicine and by the senior vice president for Health Sciences. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donor as well as the academic and research standards of the University.

As funding level permits, research activities of the chair holder shall also be supported to include research personnel, equipment, supplies, and other necessary expenses as allocated by the chairperson of the Department of Neurology.

February 1, and February 2, 2007 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of Neurology and in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Creating Chair: \$3,922,310.00

Establishment of Named Endowed Funds

The Vernon L. Tharp Professorship Fund in Food Animal Medicine

The Vernon L. Tharp Professorship Fund in Food Animal Medicine was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts given in memory of Dr. Vernon L. Tharp (D.V.M., 1940) from his wife Grace Tharp, family, and friends, including Dr. Robert Dunton (D.V.M., 1955).

Dr. Tharp was passionate about his work in the field of food animal medicine. The creation of this professorship is an expression of Dr. Dunton's gratitude for the role Dr. Tharp played in his life as a great teacher, mentor, and friend.

Until the endowment reaches the required minimum funding level of \$750,000, the annual distribution will be reinvested into the principal. When fully funded, the annual distribution from this fund will be used to support a professorship in food animal medicine within the College of Veterinary Medicine's Department of Veterinary Clinical Sciences. The holder of the professorship will be recommended by the dean of the College of Veterinary Medicine and appointed by the Board of Trustees of The Ohio State University.

If in the future the endowment principal should reach the funding level required for a chair position, the endowment will be revised for this purpose.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Funding Endowment: \$550,670.00

February 1, and February 2, 2007 meeting, Board of Trustees

The Corbett Price Scholarship Fund

The Corbett Price Scholarship Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Corbett Price (M.S., 1975).

Until the endowment principal reaches \$1,000,000 and until no children of Corbett Price are enrolled at The Max M. Fisher College of Business, the annual distribution shall be reinvested in the endowment principal. After the above requirements have been met, the annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donor's desire that the graduate level scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, incoming minority students who have been accepted for admissions at the University and are enrolled at the Fisher College of Business. Qualified candidates must demonstrate financial need, have a minimum undergraduate grade point average of 3.1 and good scores on their GMAT. The distribution will provide a full waiver of tuition, general/institutional fees, and a monthly housing allowance of approximately \$1,000. The scholarship is renewable for a second year as long as the recipient(s) maintains full-time student status and good academic standing. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. This scholarship fund will be administered by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment:	\$549,500.00
Total Commitment:	\$1,000,000.00

The Henry C. Gelbke Endowment Fund for the ATI Dairy Program

The Henry C. Gelbke Endowment Fund for the ATI (Agricultural Technical Institute) Dairy Program was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Herman R. Gelbke to honor his brother, Henry C. Gelbke.

The annual income shall be used for special opportunities or activities involving the dairy program at ATI. This will include purchase of new equipment, student activity support, and capital projects in consultation with the Agricultural and Engineering Technologies Division director and the appropriate faculty member(s).

In any given year that the endowment distribution is not fully expended, the unused portion shall be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the

February 1, and February 2, 2007 meeting, Board of Trustees

endowment principal at the discretion of the director of the Agricultural Technical Institute in consultation with the head of the dairy cattle production and management program.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Agricultural Technical Institute in consultation with the head of the dairy cattle production and management program. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$165,000.00

The Tina and Byron Trott Endowed Scholarship Fund

The Tina and Byron Trott Endowed Scholarship Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Tina S. Trott (B.S., 1984) and Byron D. Trott, of Glencoe, Illinois.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete pursuing an undergraduate degree at The Ohio State University. Preference will be given to a student-athlete with a cumulative grade point average (G.P.A.) of 3.00 or higher. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$140,000.00

The Jo Ann S. Donohue Speech-Language Pathology Innovation Fund

The Jo Ann S. Donohue Speech-Language Pathology Innovation Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the estate of Dorothy Somerville of Wintersville, Ohio, in honor of her daughter, Jo Ann S. Donohue (B.S., 1971).

February 1, and February 2, 2007 meeting, Board of Trustees

The annual distribution from this fund shall be used by the Department of Speech and Hearing Science, in the College of Social and Behavioral Sciences, for endeavors that enhance advancement in the area of speech-language pathology clinical education, clinical supervision, and clinical service delivery as approved by the chairperson of the Department in consultation with the dean of the College.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Social and Behavioral Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$113,339.10

The Somerville Family Endowed Scholarship Fund

The Somerville Family Endowed Scholarship Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the estate of Dorothy Somerville of Wintersville, Ohio, in honor of her son, David Somerville (D.V.M., 1970).

The annual distribution from this fund shall be used to supplement tuition, room, and board for two (2) students enrolled at The Ohio State University College of Veterinary Medicine pursuing a D.V.M. degree. Recipients must be in good academic standing, with preference to students from Jefferson County, Ohio. Scholarship recipients will be selected by the dean of the College of Veterinary Medicine in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$113,339.10

The John B. and Jane T. McCoy Medical Research Fund

The John B. and Jane T. McCoy Medical Research Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts made in honor of Dr. Manuel Tzagournis

February 1, and February 2, 2007 meeting, Board of Trustees

(B.S., 1956; M.D. *cum laude*, 1960; M.S., 1967), former vice president for Health Sciences and dean of the College of Medicine, from John B. McCoy (D.B.A. honorary, 1993) and Jane T. McCoy of Columbus, Ohio.

The annual distribution from this fund, as with other similar funds under the Manuel Tzagournis M.D. Medical Research Endowment Trust, shall be used to support grants for research at the Medical Center, in the Tzagournis Medical Research Facility, or within the Medical Center's Research Corridor. The grants may be used for, but are not limited to, supplies, equipment, salaries for research personnel, and activities required for quality medical research and will be selected through an application process. Researchers may apply for the one-year funding grants through the vice dean for Research in the College of Medicine. Selection shall be made by the vice dean for Research in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$100,000.00

Grace Fern Heck Faust and Leo H. Faust Endowment Fund in the College of Education and Human Ecology

The Grace Fern Heck Faust and Leo H. Faust Endowment Fund in the College of Education and Human Ecology was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from the estate of The Honorable Grace Fern Heck Faust (B.A., 1928; J.D., 1930) of Urbana, Ohio.

The annual distribution from this fund shall used to support the Historic Costume and Textile Collection of the College of Education and Human Ecology including, but not limited to acquisition, preservation, restoration, and exhibition of articles in the collection, as well as to augment the salary of any employee working with the collection as the chairperson of the Department of Consumer Sciences and curator of the collection in their discretion shall decide.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Education and Human Ecology in consultation with the

February 1, and February 2, 2007 meeting, Board of Trustees

chairperson of the Department of Consumer Sciences and curator of the collection. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$89,531.84

Leo H. Faust and Grace Fern Heck Faust Endowment Fund
at The Arthur G. James Cancer Hospital and
Richard J. Solove Research Institute

The Leo H. Faust and Grace Fern Heck Faust Endowment Fund at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from the estate of The Honorable Grace Fern Heck Faust (B.A., 1928; J.D., 1930) of Urbana, Ohio.

The annual distribution from this fund shall be used for cancer research at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute at The Ohio State University as approved by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice present for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$89,531.83

Leo H. Faust and Grace Fern Heck Faust Endowment Fund
in the Division of Cardiovascular Medicine

The Leo H. Faust and Grace Fern Heck Faust Endowment Fund in the Division of Cardiovascular Medicine was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from the estate of The Honorable Grace Fern Heck Faust (B.A., 1928; J.D., 1930) of Urbana, Ohio.

The annual distribution from this fund shall be used for research in the field of cardiovascular diseases. Allocation of funds shall be approved by the director of the Division of Cardiovascular Medicine in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be

February 1, and February 2, 2007 meeting, Board of Trustees

assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Division of Cardiovascular Medicine in consultation with the dean of the College of Medicine and with the senior vice present for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$89,531.83

Leo H. Faust and Grace Fern Heck Faust Endowment Fund
in the Department of Ophthalmology

The Leo H. Faust and Grace Fern Heck Faust Endowment Fund in the Department of Ophthalmology was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from the estate of The Honorable Grace Fern Heck Faust (B.A., 1928; J.D., 1930) of Urbana, Ohio.

The annual distribution from this fund shall be used for research into the causes, prevention, and cures of retinal diseases. If and when said diseases become readily curable, then the income shall be used for research in other fields of ophthalmology. Allocation of funds shall be approved by the chairperson of the Department of Ophthalmology in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of Ophthalmology in consultation with the dean of the College of Medicine and with the senior vice present for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$89,531.83

The Robert and Susan Savage Endowment Fund
in Industrial and Systems Engineering

The Robert and Susan Savage Endowment Fund in Industrial and Systems Engineering was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Robert W. (B.S.I.S.E., 1983) and Susan M. (B.S.Ed., 1983; Cert.Grad.Dent.Hyg., 1983) Savage of Coto de Caza, California.

The annual distribution from this fund shall be used to cultivate leadership skills in deserving undergraduate students in industrial and systems engineering. The

February 1, and February 2, 2007 meeting, Board of Trustees

chairperson of the Department of Industrial, Welding, and Systems Engineering, in discussion with the donors during their lifetime, will determine the best use of the income each year. Initiatives may be defined, but are not limited to, student academic projects, student travel to attend a conference, interdisciplinary work, or a business case study.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,160.00

The James A. and Mavis Fletcher Endowed Memorial Fund

The James A. and Mavis Fletcher Endowed Memorial Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mavis Fletcher (M.A., 1948) in memory of her husband, James A. Fletcher (B.S., 1949; M.S., 1952).

The annual distribution from this fund shall provide one scholarship, or as large a portion of a scholarship as possible. Qualified candidates must be first-year undergraduate students enrolled in the College of Food, Agricultural, and Environmental Sciences with a minimum 2.85 grade point average (G.P.A.). First preference is for a student who graduated from Harding High School, Marion, Ohio. If there are no candidates from Harding High School, second preference shall be given to a student who intends to study environmental science at the School of Environment and Natural Resources regardless of which high school they attended. If no candidates meet either of these criteria, third preference shall be given to a student regardless of area of study.

The annual distribution may be used toward the cost of tuition and room and board. The scholarship shall be distributed equally over the three quarters of the academic school year and is renewable up to twelve quarters (or eight semesters should the University ever change its system) or until completion of a baccalaureate degree, whichever comes first.

This scholarship will be administered by the College of Food, Agricultural, and Environmental Sciences in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

February 1, and February 2, 2007 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The George Family Scholarship Fund

The George Family Scholarship Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from John C. George (B.S., 1977) of Lebanon, Ohio, and George Steel Incorporated.

The annual distribution from this fund shall be used to provide scholarship support to an incoming freshman who has graduated from Lebanon High School in Lebanon, Ohio. Preference shall be given to students who plan to major in business at The Max M. Fisher College of Business. Selection of the recipient(s) shall be made by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Shirley and Harold Schumaker Endowed Scholarship Fund

The Shirley and Harold Schumaker Endowed Scholarship Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Tina S. Trott (B.S., 1984) and Byron D. Trott, of Glencoe, Illinois.

The annual distribution from this fund shall be used to provide a merit and need-based scholarship for an undergraduate student attending the Columbus campus. First preference shall be given to students from Medina County, Ohio. Second preference shall be given to students from other counties in northeast Ohio. The recipients will have participated in community service or leadership activities in high school, and should have a 3.0 or higher grade point average (G.P.A.) with special emphasis given to select scholars who have overcome obstacles to succeed both academically and socially. Scholarships are renewable for a maximum of 12 quarters leading to an undergraduate degree, provided the student maintains a 3.0 or higher accumulative G.P.A. and continues to demonstrate financial need. The scholarship shall be administered

February 1, and February 2, 2007 meeting, Board of Trustees

as part of the Ruth and Jesse Owens Scholars Program at The Ohio State University and be awarded by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Carole Hershey Walters Endowed Scholarship Fund

The Carole Hershey Walters Endowed Scholarship Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The Hershey Foundation in honor of Carole Hershey Walters (B.S., 1959).

The annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donor's desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, female students who have been accepted for admissions at the University and are enrolled in the College of Biological Sciences. Scholarships are renewable as long as the recipient(s) is still enrolled in the College of Biological Sciences and maintains a minimum grade point average of 3.0. Scholarship recipients will be selected by the dean of the College of Biological Sciences in consultation with the Office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Biological Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00
Total Commitment: \$150,000.00

February 1, and February 2, 2007 meeting, Board of Trustees

The Robert and Nancy Dix Athletic Scholarship Fund

The Robert and Nancy Dix Athletic Scholarship Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Robert and Nancy Dix of Hebron, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of a varsity athletics team and pursuing an undergraduate degree at The Ohio State University. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by The Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscious and need dictate.

Amount Establishing Endowment:	\$49,439.00 (grandfathered)
Total Commitment:	\$100,000.00

John H. Kauffman Family Graduate Support Fund in American History

The John H. Kauffman Family Graduate Support Fund in American History was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from John H. Kauffman (B.A., 1960) of Atlanta, Georgia.

The annual distribution from this fund shall be used to provide support for American history graduate students who are conducting summer research projects for their dissertations. Award recipients will be selected by the chairperson of the Department of History.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by chairperson of the Department of History, in conjunction with the dean of the College of Humanities. Any such alternate distributions shall be made in a manner as

February 1, and February 2, 2007 meeting, Board of Trustees

nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Needed to Establish Endowment: \$43,000.00 (grandfathered)

Stephen F. Vogel International Fellow Award Fund

The Stephen F. Vogel International Fellow Award Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Stephen F. Vogel (J.D., 1978).

The annual distribution from this fund shall provide an annual award to a student in The Michael E. Moritz College of Law for an international experience suggested by the student and approved by the College for academic credit toward a degree from the College. Award recipients will be selected by the dean of the Moritz College of Law in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$40,000.00 (grandfathered)
Total Commitment: \$110,000.00

The Lawrence and Julia Pollock Dean's Innovation Fund

The Lawrence and Julia Pollock Dean's Innovation Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Lawrence (B.S.Bus.Adm., 1969) and Julia Pollock of Shaker Heights, Ohio.

The annual distribution from this fund shall be used by the dean of The Max M. Fisher College of Business to promote initiatives by the faculty and staff designed to increase the quality of teaching, research, and involvement with the business community.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in

February 1, and February 2, 2007 meeting, Board of Trustees

a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Needed to Establish Endowment: \$34,781.00 (grandfathered)

Todd Anthony Bell Endowment Fund

The Todd Anthony Bell Endowment Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the family, friends, and colleagues in memory of Todd Anthony Bell (B.S.Ed., 1989).

Todd Bell was most widely known for his achievements in competitive sports. At Middletown High School he became a three-time football All-American and a three-time state champion in the long jump, breaking the records set by Jesse Owens. At The Ohio State University, he played under Coach Woody Hayes and was a four-year letterman, first and second team All-American, and first team UPI and API all-Big Ten player. Starting in 1981, he played for the Chicago Bears for seven seasons, then for the Philadelphia Eagles until a career-ending injury in 1990. In 1997 Bell returned to Ohio State where he worked in University College and in the Office of Minority Affairs until his death in 2005. Notably, he gave leadership to the Black Male Initiative and the African-American Male Resource Center. On September 23, 2005, the Board of Trustees approved the establishment of the Todd Anthony Bell National Resource Center on the African-American Male.

The annual distribution from this fund shall support the Bell Center and other projects and entities at the University which may be established in his memory. Expenditures from this account shall be approved by the vice provost for Minority Affairs/special assistant to the president for diversity.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice provost for Minority Affairs/special assistant to the president for diversity. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$27,312.30 (grandfathered)

The Larry R. Langdon Scholarship Fund

The Larry R. Langdon Scholarship Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Larry R. Langdon (B.S., 1959; J.D., 1961) of Portola Valley, California.

February 1, and February 2, 2007 meeting, Board of Trustees

The annual distribution from this fund shall be used to provide scholarship support to an undergraduate student(s) enrolled in The Max M. Fisher College of Business. The recipient shall be selected based on academic merit. Selection of the recipient(s) shall be made by the director of the Undergraduate Programs Office in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$26,680.00 (grandfathered)

Mary Lou and John Habash Fund in History

The Mary Lou and John Habash Fund in History was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Stephen Habash (B.A., 1974; J.D., 1978) and Jean Marie Luczkowski (J.D., 1978).

The annual distribution from this fund shall benefit the Archeological Teaching Museum in History and will include, but not be limited to, course development, support of graduate and undergraduate research projects, expansion of the Teaching Museum, acquisition of significant museum pieces, and preservation of the collection housed within the Teaching Museum. Expenditures will be approved by the curator of the Teaching Museum in consultation with the chairperson of the Department of History.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of History. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$26,530.00 (grandfathered)

The Paul Ecke, Jr. Scholar Program Fund

The Paul Ecke, Jr. Scholar Program Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Paul Ecke III and the late Paul Ecke, Jr. (B.S., 1949).

February 1, and February 2, 2007 meeting, Board of Trustees

The annual distribution from this fund shall be used to provide stipends for junior or senior undergraduate students who work directly with faculty in the Department of Horticulture and Crop Science in the ornamental and floriculture area. The scholar program will consist of an annual competition, with students who have been awarded during their junior year re-applying during their senior year. The program will include a working experience in ornamentals and floriculture, including research and/or work in the Chadwick Arboretum and Learning Gardens.

Award recipients will be selected by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Horticulture and Crop Science and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Horticulture and Crop Science. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$26,040.00 (grandfathered)

The Susan Galloway Swavel Endowed Scholarship Fund

The Susan Galloway Swavel Endowed Scholarship Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Joseph William Galloway family of Marion, Ohio.

The annual distribution from this fund shall be used to provide scholarships to deserving students with a 3.0 or higher grade point average who are attending The Ohio State University at Marion. Preference shall be given to students ranked sophomore or higher who are pursuing studies in elementary education. Scholarship recipients will be selected by The Ohio State University Marion Campus Scholarship Committee in consultation with the dean and director of the Marion Campus and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean and director of The Ohio State University at Marion in consultation with the

February 1, and February 2, 2007 meeting, Board of Trustees

director of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$26,000.00 (grandfathered)

The Brown County 4-H Endowment Fund

The Brown County 4-H Endowment Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends of Brown County 4-H.

The annual distribution from this fund shall be used to provide a sound source of program funding for the 4-H youth and volunteers of the Brown County 4-H Youth Development Program. This support may include, but is not limited to, the funding of trips and awards for 4-H members, volunteer leaders and friends of 4-H; sponsoring seminars and programs; and purchasing material and services that will supplement 4-H programming or increase visibility and public support of 4-H in Brown County. The Brown County 4-H Committee and the professional in charge of the Brown County 4-H Program shall approve all expenditures from this fund.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Ohio State University Extension and a committee representing the Brown County 4-H donors. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Needed to Establish Endowment: \$25,039.00 (grandfathered)

The Richard and Elizabeth Goertemiller Dean's Innovation Fund

The Richard and Elizabeth Goertemiller Dean's Innovation Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Richard H. (B.S.Bus.Adm., 1950) and Elizabeth Waddle (B.S.Bus.Adm., 1950) Goertemiller.

The annual distribution from this fund shall be used by the dean of The Max M. Fisher College of Business to support the activities of the faculty, students, and staff in accordance with the strategic plan of the College.

In any given year that the endowment distribution is not fully expended, the unused portion will carry forward for the next year or will be reinvested at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be

February 1, and February 2, 2007 meeting, Board of Trustees

assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Homer W. Joehlin Memorial Scholarship Fund
in Food, Agricultural, and Biological Engineering

The Homer W. Joehlin Memorial Scholarship Fund in Food, Agricultural, and Biological Engineering was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from his children and grandchildren.

The annual distribution from this fund shall be used to support undergraduate scholarship(s) for students enrolled in the College of Engineering and pursuing a degree in the Department of Food, Agricultural, and Biological Engineering. Scholarship recipients will be graduates of Ohio schools and selection shall be based on financial need, ability, and demonstrated interest in food and agriculture with the intention of attracting and graduating outstanding students to and through the Department. The scholarship will be awarded to one student only until the annual income has exceeded a full academic year's tuition. Students will be selected by the chairperson of the Department of Food, Agricultural, and Biological Engineering or their designee in consultation with the scholarship committee of the Department and the Office of Student Financial Aid. The Office of Student Financial Aid is responsible for awarding the scholarship and will apprise the donor (or their designee) of the selection status.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

If in the future, if the need for this fund should cease to exist, it is the desire of the donor that the funds shall be transferred to another need within the Department of Food, Agricultural, and Biological Engineering, or its successor department, before transfer to any other University use.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Food, Agricultural, and Biological Engineering.

February 1, and February 2, 2007 meeting, Board of Trustees

Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Richard C. Richley M.D. Medical Research Fund

The Richard C. Richley M.D. Medical Research Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts made in honor of Dr. Manuel Tzagournis (B.S., 1956; M.D. *cum laude*, 1960; M.S., 1967), former vice president for Health Sciences and dean of the College of Medicine, from Richard C. Richley, M.D. (B.S., 1966; M.D., 1970) of San Diego, California.

The annual distribution from this fund and other similar funds under the Manuel Tzagournis M.D. Medical Research Endowment Trust, shall be used to support researchers conducting research at the Medical Center, mainly in the Tzagournis Medical Research Facility or in a facility within the Medical Center's Research Corridor. Selection shall be made through a grant application process. Researchers may apply for one-year funding grants, which are not limited to senior faculty, through the vice dean for Research in the College of Medicine. Selection shall be made by the vice dean for Research in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. The grants may be used for, but not limited to, supplies, equipment, salaries for research personnel, and activities required for quality medical research.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Hubert Conrad Schmidt and Virginia Grama Schmidt
Graduate Student Fund for Pacific Coast Flora Study

The Hubert Conrad Schmidt and Virginia Grama Schmidt Graduate Student Fund for Pacific Coast Flora Study was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Virginia Grama Schmidt (B.A. in French *with Distinction*, 1936; M.A., 1937; B.S.Ed., 1938).

The annual distribution from this fund shall be used to support a graduate landscape architecture student studying the native ecology and flora of the Pacific Coast (Alaska, Washington, Oregon, California, Mexico, Central America, and South America). Scholarship recipients will be selected by the head of the Landscape Architecture Program in consultation with the director of the Austin E.

February 1, and February 2, 2007 meeting, Board of Trustees

Knowlton School of Architecture and the Office of Student Financial Aid. If not used for a scholarship, the fund may support the Chadwick Arboretum.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Austin E. Knowlton School of Architecture in consultation with the head of the Landscape Architecture Program. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Allan L. Shumard Fund for The Ohio State University Marching Band

The Allan L. Shumard Fund for The Ohio State University Marching Band was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the estate of Allan L. Shumard (B.C.E., 1930).

The annual distribution from this fund shall be used by the director of The Ohio State University Marching Band for whatever he deems appropriate. Purchase decisions shall be made by the director of the School of Music in consultation with the music faculty.

In the event there are undistributed funds in any given year, the unused portion shall be added to the principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of the Arts. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Allan L. Shumard Musical Instrument Fund

The Allan L. Shumard Musical Instrument Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the estate of Allan L. Shumard (B.C.E., 1930).

February 1, and February 2, 2007 meeting, Board of Trustees

The annual distribution from this fund shall be used to support the purchase and maintenance of musical instruments in The Ohio State University School of Music. Purchase decisions shall be made by the director of the School of Music in consultation with the music faculty.

In the event there are undistributed funds in any given year, the unused portion shall be added to the principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of the Arts. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.000 (grandfathered)

Rick Toracinta Graduate Scholarship Award Fund in Atmospheric Science

The Rick Toracinta Graduate Scholarship Award Fund in Atmospheric Science was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Byrd Polar Research Center, Alma and James Chaney, and numerous others in memory of Dr. E. Richard (Rick) Toracinta.

Dr. Toracinta was a talented research scientist with the Polar Meteorology Group of the Byrd Polar Research Center at The Ohio State University. In addition to his polar work, Rick had a passion for severe weather and was a volunteer storm chaser on the Great Plains during many springs. This scholarship commemorates Rick's lasting interest in the atmosphere as well as his desire to be a teacher.

The annual distribution from this fund shall provide annual scholarship awards to graduate students studying atmospheric science with preference given to students specializing in severe weather (thunderstorms, tornadoes, and hurricanes), polar meteorology or polar climatology. Recipients will be selected based on academic performance, excellence as an instructor, and intention to continue graduate studies as determined by the director and administrative associate of the Polar Meteorology Group of the Byrd Polar Research Center in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

February 1, and February 2, 2007 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Polar Meteorology Group of the Byrd Polar Research Center. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

Anthony and Fern Valentine Neurofibromatosis Fund

The Anthony and Fern Valentine Neurofibromatosis Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, in honor of Fern Valentine and in memory of her late husband, Anthony Valentine, with gifts from Fern Valentine of Columbus, Ohio.

The annual distribution from this fund shall be used to support research and treatment of neurofibromatosis, including but not limited to research, personnel, supplies, equipment, travel, publication, conference, and other related activities in the Department of Neurology in the College of Medicine, as directed by the chairperson of the Department of Neurology.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior vice president for Health Sciences and the dean of the College of Medicine in consultation with the chairperson of the Department of Neurology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

Chilin Yu Endowment Fund for the Chinese Studies Library Collection

The Chilin Yu Endowment Fund for the Chinese Studies Library Collection was established February 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Chilin Yu.

The annual distribution from this fund shall be used to support the Chinese Studies Collection at the University Libraries. Expenditures shall be approved by the director of the University Libraries.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

February 1, and February 2, 2007 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the University Libraries. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

Change in Description of Named Endowed Fund

The Henry C. Gelbke Endowed Scholarship Fund

The Henry C. Gelbke Endowed Scholarship Fund was established June 29, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Herman R. Gelbke to honor his brother, Henry C. Gelbke. The description was revised on February 2, 2007, in consultation with the donor.

The annual distribution from this fund shall be used to support two or more Agricultural Technical Institute students studying dairy cattle production and management or dairy science. Qualified candidates must intend to pursue a career as a dairy farmer upon graduation. First preference shall be given to candidates from northeast Ohio. If there are no qualified candidates from northeast Ohio, the scholarships may be awarded to candidates from other areas of Ohio. If there are no qualified candidates available from the State of Ohio, the distribution may be carried over to the next selection period for additional scholarships or added to the principal of the fund.

Scholarships shall be awarded in consultation with the ATI Financial Aid Coordinator and appropriate faculty members at the Agricultural Technical Institute. A letter of notification naming the scholarship recipients shall be sent annually to the donor or the donor's designee and the Trumbull County Extension office.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Agricultural Technical Institute in consultation with the coordinator of the dairy cattle programs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Change in Name and Description of Named Endowed Funds

The Dairy Farmers of America, Inc., Donald H. Schriver Agriculture and Human Ecology Fund

The Milk Marketing Inc. Agriculture and Human Ecology Fund was established December 3, 1993, by the Board of Trustees of The Ohio State University with gifts from Milk Marketing Inc., Strongsville, Ohio. The name and description

February 1, and February 2, 2007 meeting, Board of Trustees

were revised to reflect the new name of the company July 10, 1998. The name and description were revised again September 22, 2006, to The Dairy Farmers of America, Inc., Don H. Schriver Agriculture and Human Ecology Fund. The name and description were revised February 2, 2007.

The annual distribution from this fund shall be used to support programs and scholarships within the College of Food, Agricultural, and Environmental Sciences and the College of Education and Human Ecology. Support shall include at least one scholarship in each of these areas: dairy science, agricultural economics, and ATI dairy in the College of Food, Agricultural, and Environmental Sciences and in either human nutrition or home economics education in the College of Education and Human Ecology. Support shall also include ATI and OARDC programs, LEAD, and other priority programs identified by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences and the CEO and/or executive vice president, Dairy Farmers of America, Inc., or their designee or its successor organization. Annual awards will be directed by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences or their designee in consultation with the CEO and/or executive vice president, Dairy Farmers of America, Inc., or their designee or its successor organization. Scholarship and award recipients shall be selected annually by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences or their designee, the dean, College of Human Ecology or their designee, the director, ATI or their designee, and the CEO and/or executive vice president, DFA, or their designee, in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

The Dairy Farmers of America, Inc., Donald H. Schriver 4-H Fund

The Milk Marketing Inc. 4-H Fund was established December 3, 1993, by the Board of Trustees of The Ohio State University with gifts from Milk Marketing Inc., Strongsville, Ohio. The name and description were revised to reflect the new name of the company July 10, 1998. The name and description were revised again September 22, 2006, to The Dairy Farmers of America, Inc., Don H. Schriver 4-H Fund. The name and description were revised February 2, 2007.

The annual distribution from this fund shall be used to support programs within The Ohio State University Extension state 4-H program including, but not exclusively, the 4-H Dairy Award, 4-H Congress, National 4-H Center and programs, Dairy Conference, and annual needs. Annual distribution shall be directed by the state 4-H Leader, in conjunction with the Ohio 4-H Foundation Board of Trustees with final approval by the director of Ohio State University Extension or his/her designee in consultation with the CEO and/or executive vice

February 1, and February 2, 2007 meeting, Board of Trustees

president, Dairy Farmers of America, Inc., or its successor organization and/or designee.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

The Roberta Elliott Wantman Endowment Fund in the School of Earth Sciences

The Roberta Elliott Wantman Endowment Fund in the Department of Greek and Latin in the College of Humanities was established June 29, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Esther B. Elliott in honor of her daughter, Roberta Elliott Wantman (B.A. cum laude and with Distinction in Latin and Ancient History 1971; M.A. 1973). The name and description were revised May 7, 2004, to The Roberta Elliott Wantman Endowment Fund. The name and description were revised again on February 2, 2007.

The annual distribution from this fund shall be used to support the Ice Core Paleoclimate Research Group, directed by Lonnie Thompson and Ellen Mosley-Thompson. The fund will be administered by the School of Earth Sciences in consultation with Lonnie Thompson and Ellen Mosley-Thompson or their successors.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the donor, the dean of the College of Mathematical and Physical Sciences, and the director of the School of Earth Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

February 1 and February 2, 2007 meeting, Board of Trustees

WAIVERS OF COMPETITIVE BIDDING REQUIREMENTS

Resolution No. 2007-91

October - December 2006

Synopsis: Acceptance of the quarterly report on waivers of competitive bidding requirements is proposed.

WHEREAS the Purchasing Policy of The Ohio State University adopted by the Board of Trustees on September 7, 1984, and revised on February 7, 1992, July 8, 1994, November 7, 1997, and March 1, 2002 provides that the President and/or the Senior Vice President for Business and Finance, or for the Hospitals of the University and their related facilities, the Vice President for Health Services, may grant a waiver from competitive bidding in the event of an emergency, when a sufficient economic reason exists or when the goods or services can be purchased from only a single source, with a report on such waivers to be made quarterly to this Board; and

WHEREAS the Senior Vice President for Business and Finance has submitted a report on waivers of competitive bidding requirements granted for the period of October – December 2006; and

WHEREAS during the period covered, the Senior Vice President for Business and Finance, at the requests of the departments making the purchases and upon the recommendation of the Purchasing Department, granted 78 waivers of competitive bidding requirements for annual purchases totaling approximately \$11,655,707 as shown on the enclosed exhibit; and

WHEREAS during the period covered, the Vice President for Health Services, at the requests of the Hospitals of the University and their related facilities making purchases, granted 46 waivers of competitive bidding requirements for annual purchases totaling approximately \$17,498,859 as shown on the enclosed exhibit:

NOW THEREFORE

BE IT RESOLVED, That the report on waivers of competitive bidding requirements for the period of October - December 2006, is hereby accepted.

(See Appendix XXXIII for background information, page 835.)

**APPROVAL TO ENTER INTO DESIGN AND CONSTRUCTION CONTRACTS,
AND TO INCREASE CONSTRUCTION CONTRACTS**

BIOLOGICAL SCIENCES BUILDING SUPPLY FAN REPLACEMENT

February 1 and February 2, 2007 meeting, Board of Trustees

KENNEDY COMMONS ROOF REPLACEMENT
LIMA CAMPUS – GALVIN HALL FIRST FLOOR CLASSROOM RENOVATION
NEWARK CAMPUS – FOUNDERS HALL RESTROOMS RENOVATION
OHIO STADIUM – FIELD REPLACEMENT
TUTTLE PARK GARAGE – RETAIL AIR CONDITIONING
WOMEN'S SOFTBALL STADIUM

APPROVAL TO INCREASE CONSTRUCTION CONTRACTS
NEWARK CAMPUS – WARNER LIBRARY AND STUDENT CENTER

Synopsis: Authorization to enter into design and construction contracts, and to increase construction contracts, as detailed in the attached materials, is requested.

WHEREAS in accordance with the attached materials, the University desires to undertake, and enter into design contracts, for the following projects:

Baker Systems – Air Conditioning Unit Replacement (N/A)	\$0.2M	Department operating funds
Lincoln Tower – Cooling Tower Replacement (09-10 capital request)	\$2.6M	Future bond proceeds
Morrison Tower – Fan Coil Unit Replacement (09-10 capital request)	\$1.8M	Future bond proceeds
Newark Campus – Founders Hall Restrooms Renovation (N/A)	\$0.4M	Campus operating funds
OARDC – Pouden Hall Renovation (N/A)	\$1.5M	Grant funds Campus operating funds
Ohio Stadium – Field Replacement (N/A)	\$1.0M	Athletics operating funds
Tuttle Park Garage – Retail Air Conditioning (N/A)	\$0.4M	Department operating funds

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following projects:

Baker Systems – Air Conditioning Unit Replacement (N/A)	\$0.2M	Department operating funds
Biological Sciences Building Fume Hood Repairs (05-06 capital request)	\$1.5M	State funds
Biological Sciences Building Supply Fan Replacement (05-06 capital request)	\$0.8M	State funds
Kennedy Commons Roof Replacement (N/A)	\$1.6M	2007 bond proceeds
Lima Campus – Galvin Hall First Floor Classroom Renovation (05-06 capital request)	\$0.4M	State funds Campus operating funds
Newark Campus – Founders Hall Restrooms Renovation (N/A)	\$0.4M	Campus operating funds
Ohio Stadium – Field Replacement (N/A)	\$1.0M	Athletics operating funds
Tuttle Park Garage – Retail Air Conditioning (N/A)	\$0.4M	Department operating funds
Women's Softball Stadium	\$4.3M	Development funds

WHEREAS in accordance with the attached materials, the University desires to increase construction contracts for the following projects:

February 1 and February 2, 2007 meeting, Board of Trustees

Newark Campus – Warner Library and Student Center (05-06 capital request)	\$20.0M	State funds Development funds Campus operating funds 2007 bond proceeds
--	---------	--

*Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project; renovation projects funded by internal office or departmental funds that are noted as "N/A" have not had separate capital project authorization because of their smaller size or because they arose unexpectedly between capital planning cycles.

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into design and construction contracts, and to increase construction contracts, for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix XXXIV for background information and maps, page 837.)

SALE OF REAL PROPERTY

Resolution No. 2007-93

1339 MT. VERNON AVENUE, MARION, OHIO

Synopsis: Authorization to sell University property located at 1339 Mt. Vernon Avenue, Marion, Ohio, is proposed.

WHEREAS this property has been declared surplus by the Ohio State Marion Campus, and has been unutilized since 2003 and adaptive uses have been determined to be cost prohibitive; and

WHEREAS this property has been appraised for \$340,000 and the University has entered into a purchase contract to sell the property for \$365,000 to Lu Chivington and Deb Cooper to be used as a real estate brokerage office; and

WHEREAS the appropriate University offices have determined that the sale of this property is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to sell the property located at 1339 Mt. Vernon Avenue, Marion, Ohio, to a qualified purchaser upon such terms and conditions deemed to be in the best interest of the University.

(See Appendix XXXV for background information and map, page 855.)

February 1 and February 2, 2007 meeting, Board of Trustees

LONG-TERM LEASE

Resolution No. 2007-94

**LEASED VARSITY TENNIS CENTER
880 WEST HENDERSON ROAD, COLUMBUS, OHIO**

Synopsis: Authorization for entering into a long-term lease, with an option to purchase, for a six-court indoor varsity tennis center located at 880 West Henderson Road, Columbus, Ohio, is proposed.

WHEREAS the Board of Trustees of The Ohio State University is presented with the opportunity to enter into a long-term lease of real property at 880 West Henderson Road, with a LLC entity to be created, made up of principals from Continental Development, Inc.; and

WHEREAS the property contains 5.2 acres improved with buildings containing 81,000 SF that will be used for varsity men's and women's indoor tennis practice and competitive meets facility, and equipment storage for the Athletics Department; and

WHEREAS this property is located within reasonable proximity of the Columbus Campus with convenient access by players and spectators and the Department of Athletics has determined that the lease of this property is in the best interest of the University; and

WHEREAS the funds for the lease will be provided from the Department of Athletics:

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Business and Finance be authorized to enter into a long-term lease of the improved real property at 880 West Henderson Road for use by The Ohio State University and its varsity tennis programs and other Department of Athletics uses as determined by the Department, at a proposed rent of \$20,000 per month for the ten-year term, plus the property's operating expenses. Terms and conditions of the lease have been negotiated to be in the best interest of the University.

(See Appendix XXXVI for background information and map, page 857.)

FY 2007 AND FY 2008 STATE CAPITAL APPROPRIATIONS

Resolution No. 2007-95

Synopsis: Adoption of recommendations in response to recently enacted FY 2007 through FY 2008 State Capital appropriations bill is recommended.

WHEREAS in September 2005, the University presented and the Board adopted the FY 2007 through FY 2012 Capital plan which included the FY 2007 and FY 2008 State Capital recommendations; and

WHEREAS the recently enacted State Capital appropriations bill included \$8.9 million in supplemental funding for the Columbus Campus and \$846,000 for the regional campuses to be used for the purposes of campus capital renewal projects; and

February 1 and February 2, 2007 meeting, Board of Trustees

WHEREAS in assessing how to best use the supplemental funding, the University has undertaken a thorough and critical review of the options available and their impact on the goals of the Academic Plan; and

WHEREAS these recommendations have been reviewed through the University's governance structure; and

WHEREAS only those projects outlined in these recommendations will be eligible for funding for the FY 2007 and FY 2008 biennium:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby adopts the proposed FY 2007 through FY 2008 State capital plan, and adopts the proposed recommendations for the supplemental allocations received as part of the FY 2007 and FY 2008 State allocation; and

BE IT FURTHER RESOLVED, That any request for authorization to proceed with any project contained in these recommendations or for University funds for any such project must be submitted individually by the University for approval by the Board of Trustees.

(See Appendix XXXVII for background information, page 859.)

Upon motion of Mrs. Davidson, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Davidson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, and Shackelford.

REPORT OF RESEARCH CONTRACTS AND GRANTS

Resolution No. 2007-96

Synopsis: The report on research and other sponsored program contracts and grants and the summaries for November and December 2006 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, and other agencies in support of research, instructional activities, and service; and

WHEREAS such monies are received through The Ohio State University Research Foundation:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein during the months of November and December 2006 be approved.

Upon motion of Amb. Ong, seconded by Ms. Shackelford, the Board of Trustees adopted the foregoing resolution with nine affirmative votes, cast by Trustees Duncan, McFerson, Davidson, Ong, Borrer, Wexner, O'Dell, Fisher, and Shackelford, and five abstentions cast by Trustees Hendricks, Cloyd, Shumate, Hicks, and Schottenstein.

February 1 and February 2, 2007 meeting, Board of Trustees

APPOINTMENT AND REAPPOINTMENT OF INVESTMENT MANAGERS

Resolution No. 2007-97

Synopsis: Approval of the Appointment and Reappointment of Investment Managers is proposed.

WHEREAS it is the policy of The Ohio State University to utilize the service of external Investment Managers to assist in the management of the University's Endowment Fund; and

WHEREAS the Investments Committee of the Board of Trustees periodically reviews the results obtained by the external Investment Managers and the amount of funds assigned to each of them; and

WHEREAS it is prudent investment policy to adjust the mix and amounts of money assigned to external Investment Managers as economic conditions and performance change; and

WHEREAS the number of external Investment Managers and the amount of funds assigned to them shall be determined by the Board of Trustees:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Investments Committee of the Board of Trustees the following named external Investment Managers and the Office of the Treasurer shall be approved to manage Endowment Funds as follows:

TRUSTEE GOVERNANCE BYLAW REVISIONS

Judge Duncan:

Members of the Board, I will now turn to the consideration of some issues regarding the election of the chair of this Board. With the increase in the number of trustees on the Board and for other good causes, it is obvious it is going to be necessary to elect a chair of our Board. I believe it was back in early December that I expressed the view that an election should take place as soon as practicable for the reason that it would be beneficial to our presidential search process and also helpful in the review, hopefully leading to the development of best practices in our governance procedures. Our bylaws currently do not provide for the election of officers and, as you all know, we have engaged the services of Dr. Richard Chait, a highly-regarded consultant, who is helping us with our review and reconsideration of governance policies and procedures, and bylaws.

There is a Committee in place to work in liaison with Dr. Chait and I have asked that Committee to deliberate and recommend procedures to address certain matters both procedurally and substantively. I will call on Karen Hendricks, the chair of the Chait Committee, for the results of her deliberations on a number of issues that are key to the process of electing a chair. I hope we can find a way to consider these items one at a time, so that we can all understand what we are doing.

February 1 and February 2, 2007 meeting, Board of Trustees

Ms. Hendricks:

Thank you, Mr. Chairman. The Chait Committee met several times over the last month as a result of your request. We deliberated on a wide range of issues associated with Board leadership including, of course, the Board chair election, Board committees, and executive committee and their responsibilities. We also deliberated on the characteristics of the chair that we would consider.

I want today to focus solely on what we are coming back to the Board to recommend with regards to the election of the chair. We are assuming with the majority acceptance of these principles today, that we could ask the secretary to modify the bylaws to reflect these. With regard first to the eligibility for the position of chair of the Board, we are recommending that all voting members of the Board shall be eligible for election. With regard to the term of office of the chair, we are recommending that the chair shall be elected annually by the full Board for a one-year term and may be reelected to office for a period of up to three years. With regard to voting, we recommend that the concurrence of the majority of all voting members of the Board shall be necessary to elect the chair of the Board. With regard to voting, we recommend that the vote shall be done by secret ballot, and, for the year 2007–08, we recommend that the election of the chair would take place at the March meeting of the Board, the chair-elect will take office as chair immediately following adjournment of the May meeting of the Board. That concludes my report.

Judge Duncan:

Why don't we take these ad seriatim and first take the issue concerning a recommendation of eligibility, and that is that all voting members of the Board shall be eligible for election to the office of chair. I open the floor to comment on this issue.

Mr. McFerson:

Let me start. Are you asking that we vote on each of these issues one at a time?

Judge Duncan:

Yes.

Mr. McFerson:

I would make a motion to the effect that all Board members are eligible to be elected.

Mr. Hicks:

Second.

Judge Duncan:

Any discussion regarding the motion? Mr. Wexner --

Mr. Wexner:

I think it is hard to know if you are eligible, if you don't know what the term is.

February 1 and February 2, 2007 meeting, Board of Trustees

Judge Duncan:

Would the Board prefer to deal with the term first or not? Do I sense that?

Ms. Hendricks:

I think we probably need to deal with them together then. That is, the eligibility and the term.

Judge Duncan:

In my mind they are different issues. We can't do them together. We are going to stick with our script. We are going to vote on eligibility first. Any discussion regarding eligibility? If not, I will entertain a motion to ...

Mr. McFerson:

I already made a motion.

Judge Duncan:

It has been moved and seconded that the eligibility recommendation be accepted which is as follows: all voting members of the Board shall be eligible for election to the office of chair.

Mr. Wexner:

Would the maker of the motion accept an amendment that you have to be eligible to fulfill the term?

Mr. McFerson:

Well, we haven't gotten to the issue of term. Your first point was a good one, Les, a couple of minutes ago, but the Chair wants us to vote on these individually.

Mr. Schottenstein:

I guess that I would share the view -- irrespective of the merits of any of these -- logically, without knowing what the term is I think it is somewhat out of sequence to attempt to vote on eligibility first.

Judge Duncan:

Any other discussions on this issue? All in favor of the motion, please say yes; opposed, no? Motion carries.

Next item is term of office of the chair: the Board shall elect a chair who shall serve for one year and be eligible for re-election to office for a period of up to three years. First, is there any discussion on that recommendation?

Mr. Hicks:

I think we need a motion on the table to accept that, Mr. Chairman. So moved.

Mrs. Davidson:

Second.

February 1 and February 2, 2007 meeting, Board of Trustees

Judge Duncan:

Any discussion on the motion?

Mr. Shumate:

Mr. Chairman, I would like to offer an amendment to the motion.

Judge Duncan:

What is your amendment?

Mr. Shumate:

My amendment would be that the term be for two years and that the amendment I would be offering would be to have the recommendation read as follows: "The Board shall elect a chair who shall serve for two years and be eligible for re-election to the office for a period of up to three years." Also, Mr. Chairman, as a part of this amendment, I would like to offer the concept of an annual review and evaluation. I do believe the term of two years would allow for greater continuity as well as predictability of the office of chair. I believe that we are now at a stage in our development as a Board that that continuity would be beneficial and would allow for a culture of the Board to have the kind of term of office that could work in collaboration, collectively and collegially, with the president to allow us to focus upon the strategies that we have talked about and to allow us to begin to focus on being an active resource that would be helpful on these strategic issues, goals, and objectives that are aspirational for the University. That is my offer of an amendment.

Mr. Wexner:

Alex, is your intention for the Board to review the chair or the Board to review the chair and the Board? Are you looking for 360-degree feedback of the whole Board to itself?

Mr. Shumate:

At this time, the amendment that I am offering is in regard to the election of the chair. I believe that is what we are talking about -- the election of the chair. As you know, we have been working with Dr. Chait to talk about various procedures along the lines of a nominating committee, etc., so that we could have a process that, I believe, would be thorough and a process that would be appropriate, but that the predictability of a two-year term is really what I am offering for our consideration.

Mr. Borrer:

Can I ask for a clarification? Are we voting today on how we are drafting the amendment to bring back to our March meeting or are we voting finally?

Judge Duncan:

What I would hope to have happen today, Mr. Borrer, is that we vote on this with the idea that the result of the vote would be incorporated into a resolution which would be confirmed by the Board at the next meeting.

February 1 and February 2, 2007 meeting, Board of Trustees

Mr. Borrer:

Okay, because the discussion that Alex is having -- about how a review would be determined -- would be very important to my support of a two-year term. What he is talking about, I think, is critical, so I want to get another bite of the apple, if you will, if this resolution amendment passes. Would that be --

Judge Duncan:

I am sure it is awkward, but it was my hope that we would be able to finalize something that could be transmitted into the bylaws word-for-word at the next meeting.

Mr. O'Dell:

Is it an appropriate time for me to make a comment regarding Mr. Shumate's motion? I think everybody on the Chait Committee felt that two years is preferable to one as a stand alone concept, but there are many other issues involved. When everything was taken into account, certainly the majority of the Chait Committee came to the conclusion while that is, in fact, a good thing, we didn't want to exclude anyone from having the opportunity to be chair for that reason alone. That is how we came to our conclusion.

Mr. Shumate:

I understand and I think that is why there is the confusion on the eligibility. Just to be clear, in the terms of my position, I believe that all members of the Board should be eligible at this point, but, in terms of the term of office, I am strongly recommending a two-year term. I do want to be clear that I do appreciate the hard work and effort of the Chait Committee and respect that work. I am asking that in light of time to reflect and time to think about the issues that we face as a Board going forward, that the clarity of a two-year term is important. That is why I am offering the amendment.

Mr. Wexner:

I support your amendment, Alex.

Judge Duncan:

There is a second. Let's continue the discussion, but we do have a second to the amendment.

Mrs. Davidson:

Alex, just clarify the second part of your amendment, because I think that is something that Doug is asking about.

Mr. Borrer:

Somebody circulated a draft here. I don't know who circulated it, but that was the next thing I was going to mention.

Dr. Frantz:

Do you want me to read it?

February 1 and February 2, 2007 meeting, Board of Trustees

Judge Duncan:

Does this encompass what you have in mind?

Mr. Shumate:

It encompasses a sense. I understand that the specific language of the amendment and the revision is important. I am offering the concept. I understand there are Board members who do desire to have an evaluation and review process in place. This offers the ability of the proposed Committee on Trusteeship, after consulting with the chair and members of the Board, to recommend to the Board whether or not an election is to be held that year. I am certainly comfortable with that process.

Mr. Hicks:

First, let me say that I think the sense that you are trying to get at with the amendment to the resolution on the table make sense in terms of continuity and predictability. I think that we all believe that some ongoing evaluation, not only for the chair but for the full Board, is going to be an important thing and that is something the Chait Committee talked a great deal about. I think that it is a pretty significant step for this Board to elect a chair differently than we have and I think it is an appropriate step. I, personally, think that it is highly likely that regardless of what the term of office is, so long as someone can continue to serve more than one term, the next chair will likely serve two years and maybe three. And I think that will probably set the pattern, practically speaking, for what this group will do. I think that would be appropriate as well.

Having said that, I do support the one-year term with the option for renewal two times for a couple of reasons. Number one, I think that it maintains our ability for continuity. By selecting a one-year chair with the ability to succeed him or herself two times, we have maintained our ability for continuity which, I think, is very important. Number two, I think that it ensures our maximum flexibility. This Board is changing, the University is changing, nobody can predict what the next Board chair's relationship with the yet unselected president is going to be, nobody can predict what goes on in our personal or professional lives, and so I think that ensuring maximum flexibility in this time is a pretty important factor for my consideration.

Finally, I think a one-year term with the ability to renew two times ensures the most accountability, not just accountability for the chair to the Board, but equally as important the accountability of the Board to the chair. I think it is important that we as a Board on a regular basis, on an annual basis, express our confidence in our chair -- publicly and to the University community -- that the individual is doing a good job, that they have the willingness to serve, that they are effective in their relationship with all of us, and effective in their relationship with the president and the rest of the community. I think because of where we are currently and some of the uncertainties that we have ahead of us from a challenge standpoint -- in terms of maintaining continuity, ensuring maximum flexibility, and really guaranteeing accountability -- a one-year term with the ability to succeed two times makes the most sense. That, in my opinion, is the sum of a lot of discussion the Chait Committee had. I think we looked at and talked about a lot of scenarios, we looked at the literature out there in terms of what other benchmark universities do, and I think at the end of the day the one-year term with the ability to succeed for two times probably gives us the best option right now. So that is what I would be supportive of.

February 1 and February 2, 2007 meeting, Board of Trustees

Dr. Cloyd:

I support the amendment that Alex has offered and I think there is a great value if we really bring clarity around the expectation of a two-year term for the individuals that would want to be considered to be chair. It is a very significant commitment of time that needs to be made to the University. While the terminology on one-year leaves it open, I am not sure it really clarifies the level of expectation that someone should have about, do they really want to serve? I mean they may want to, but can they adjust their own life so they can make that kind of commitment. For that reason, besides the ones that Alex mentioned, I would be very supportive of the two-year term. I also like the idea that there is this checkpoint and some kind of an evaluation to where the Board could be coming back and making sure that they would be happy with the person serving a longer term.

Mr. Schottenstein:

Thank you, Mr. Chairman. I agree with Dr. Cloyd's comments. This is a tough issue from the standpoint that it is one that I don't think anyone thinks is clearly one way or the other. All of the points made by Brian and others around the table have merit and can be argued. But in balance, I think that -- and you said it Wally -- on a stand alone basis -- and that is how I look at this -- the University is best served with the two-year term, with a check at the end of the first year. I like the idea of the Committee on Trusteeship taking ownership of that check, in consultation with the Board. For a lot of reasons, and not the least of which is Dr. Cloyd's comment about the commitment -- the true commitment to take this on -- and also the advantage and the clarity it gives in connection with our search process, I support the amendment. I do have a question. If the amendment is passed, I am not quite certain how you reconcile it with the first item that we voted on. I may be the only one that doesn't understand that, which is why I asked it before. Maybe we can deal with that afterwards. I do support the amendment and I do so advisedly, but, I believe, it is in the best interest of the University.

Ambassador Ong:

We are probably talking about a relatively subtle difference here, but I would like to associate myself with Brian's comments. I think the Chait Committee members had a number of meetings over a period of a month or more to think about this subject and to consider alternatives. The answer that we came up with is the one that is on the floor as presented by the chair of our Committee. I strongly feel that it would be the right way to go and it is consistent certainly with the practice of many and, if indeed my recollection is correct, most of our peer institutions, and I think it is very suitable to the circumstances. The likely result of this or the amendment may well be the same. In other words, a person elected for one-year is likely to be re-elected for a second year and perhaps re-elected for a third year, assuming that he or she continues to enjoy the confidence of the Board. I think that the Board in a fiduciary manner really needs to maintain the authority to formally review by the process of re-election the relationship between the Board and the sitting chair.

Mr. McFerson:

While everyone is offering comments, I will offer one, too. As one who sat on that Chait Committee, I believe the recommendation commentates the first matter we voted on, which is everyone is eligible to serve. I think it provides all of the flexibility to do what Alex has proposed in his

February 1 and February 2, 2007 meeting, Board of Trustees

amendment, so I intend to vote against the amendment and for the proposed Chait Committee recommendation.

Judge Duncan:

Anyone else, any further comment?

Mr. Hicks:

Offer the question, please?

Judge Duncan:

The question is to vote on the amendment. All of those in favor please say yes, and those opposed, no? A show of hands please, all of those in favor of the motion of the amendment, and now those opposed.

Mr. McFerson:

Have you voted?

Judge Duncan:

That's a question – whether or not I should vote or do I break ties? I'm not sure what the parliamentary procedure is.

Mr. Shumate:

What is the vote?

Dr. Frantz:

Seven for the amendment, six against, and the Chair did not vote.

Judge Duncan:

The motion carries. Next recommendation is --

Dr. Frantz:

The amendment essentially invalidates the motion itself, correct?

Mrs. Davidson:

We have amended the amendment and you now have to go back and vote for the initial motion, because you have amended the motion.

Dr. Frantz:

It has now been amended, so now we have to vote for the motion as amended.

Mr. Borrer:

I just want to make clear that we are voting on the wording that is here on this paper.

February 1 and February 2, 2007 meeting, Board of Trustees

Judge Duncan:

That is my understanding.

Mr. Shumate:

Correct.

Mr. Borrer:

With the Committee on Trusteeship?

Mr. Shumate:

Correct.

Mr. McFerson:

May I ask something of the former speaker of the House of Representatives, as a parliamentarian -- this is a first for me on a board to do something like this -- describe what it is that we are doing next.

Mrs. Davidson:

There was an amendment offered on the language that is before you in the Chait recommendation. There was a move to amend that. So we voted on that amendment, it passed, and now we have to go back and vote on the original motion as amended.

Dr. Frantz:

So you are essentially voting on the same matter you just voted on.

Ambassador Ong:

What was the vote to allow the amendment?

Dr. Frantz:

The vote was seven to six.

Ambassador Ong:

We have of course one trustee who is not here.

Mr. McFerson:

And one who didn't vote, the Chair.

Mr. Shumate:

Call the question, Mr. Chairman.

Judge Duncan:

Yes, we are now voting on the amended motion. All in favor....

February 1 and February 2, 2007 meeting, Board of Trustees

Mr. Hicks:

I am confused a little bit on what we are voting on substantively. I understand procedurally how we are doing this, but substantively. I think Mr. Borrer just asked this -- are we voting on the language that says that we will have the Committee on Trusteeship, after consultation with the chair, and conduct evaluations?

Judge Duncan:

As I understand it, that is your motion?

Mr. Shumate:

Yes.

Judge Duncan:

We all agree to that.

Ms. Hendricks:

What about eligibility?

Mrs. Davidson:

That is not on the table at this time, it already passed earlier.

Judge Duncan:

The question was called. All in favor show by raising your hands please, and all those opposed?

Dr. Frantz:

The motion passes eight to five.

Judge Duncan:

Motion carries. Let's move on to the next item which is the voting. The recommendation is: that voting for the chair shall be by the concurrence of a majority of all the voting members of the Board. That shall be necessary to elect the chair of the Board.

Mr. McFerson:

So moved.

Mr. Shumate:

Second.

Judge Duncan:

Discussion? If not, all in favor please say yes, those opposed?

The next item is that the vote shall be by secret ballot. Do I hear a motion?

February 1 and February 2, 2007 meeting, Board of Trustees

Dr. Cloyd:

So moved.

Ambassador Ong:

Second.

Judge Duncan:

Discussion first? All of those in favor please say yes. Those opposed?
Motion carries.

The last item reads as follows: The election of the chair for 2007-08 will take place at the March meeting of the Board. The chair-elect will take office as chair immediately following the adjournment of the May meeting of the Board.

Ambassador Ong:

So moved.

Mr. Shumate:

Second.

Judge Duncan:

Discussion on this motion? All in favor of the motion please say yes. Those opposed? Motion carries.

It is my fondest expectations now that we are done with this for today. Are there any further matters?

Mr. Wexner:

I didn't speak to this at any time during this discussion, so it is past the point. The trustees should know that about twelve years ago the same thing was discussed in consultation, I believe, with two or three Big Ten university presidents retired. We asked them about their judgment on the same issue we just voted on. And three years ago, the unanimous decision of the Board was that the term should be for three years and only three-year term members should be eligible. The reason it never happened was that the Board then could not find a leader who had three years of eligibility. It is kind of funny -- just in history -- what you are talking about is a twenty-year reflection on this issue. I am not arguing for the three years, I just think the discussion and the differences of opinion are very healthy. I have said that privately and I would say it publicly in this meeting, I think the Board being able to think and discuss out loud and to know what opinions are, is very healthy for the University. I am delighted to have the thinking.

Judge Duncan:

Finally, it should be noted that as chair I have appointed a six-person ad hoc Nominating Committee, which will now go on with this work and proceed with the process of nominating a candidate for chair. I hope I can speak

February 1 and February 2, 2007 meeting, Board of Trustees

briefly with the members of that committee to schedule something immediately after this meeting.

--0--

Thereupon the Board adjourned to meet Friday, March 2, 2007, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

Attest:

Robert M. Duncan
Chairman

David O. Frantz
Secretary

**COMBINING UNIVERSITY HOSPITALS AND UNIVERSITY HOSPITALS EAST
INTO A SINGLE PROVIDER**

University Hospitals East was acquired by The Ohio State University Medical Center in April 1999. It has been operated as a separate hospital with its own medical staff, business functions, and Medicare and Medicaid provider numbers. The Medical Center leadership now wishes to merge University Hospitals East into University Hospitals effective the beginning of the next fiscal year, July 1, 2007. The result of the merger will be one hospital that operates as an integrated unit, delivering and billing for patient care as a single provider. The merger will create increased opportunities to support the Medical Center's academic mission, as well as operational and financial efficiencies between the two organizations around patient care and transfers, physician staffing, information system processes, and patient billing. Changes to the University Hospitals *Medical Staff Bylaws* have been proposed and approved by the Medical Staff that will allow the integration of East Medical Staff members into the University Hospitals Medical Staff. Other changes to integrate the business and information systems will be completed by July 1, 2007.

IMPACT STATEMENT
THE OHIO STATE UNIVERSITY HOSPITALS
MEDICAL STAFF BYLAWS AND RULES AND REGULATIONS

AMENDMENTS APPROVED BY MEDICAL STAFF
ADMINISTRATIVE COMMITTEE (NOVEMBER 8, 2006 AND DECEMBER 20,
2006),
MEDICAL STAFF (NOVEMBER 30, 2006 and JANUARY 24, 2007)
AND THE UNIVERSITY HOSPITALS BOARD (JANUARY 25, 2007)

I. MEDICAL STAFF BYLAWS

- A. Created a Community Affiliate category of the Medical Staff. This category was created so that physicians and other practitioners from University Hospitals East who do not have faculty appointments can join the University Hospital Medical Staff as University Hospitals East merges into University Hospitals to become a single provider.
- B. Provided Community Affiliate medical staff representation on MSAC through a representative jointly elected by Courtesy Staff and Community Affiliate staff.
- C. Updated requirements for appointment to include criminal background checks, drug screening and HIPAA education.
- D. Updated divisions and departments to reflect changes that have occurred. Deleted Urologic Surgery as a division under Surgery and made it a Department. Deleted Allergy as a division under Internal Medicine and made it part of the Pulmonary Division. Deleted the Community Internal Medicine division from Internal Medicine.
- E. Added language indicating that Bylaw revisions are effective after being approved by the University Board of Trustees.
- F. Updated names of Committees.

II. MEDICAL STAFF RULES AND REGULATIONS

- A. Changed requirement for authenticating verbal orders to meet new regulations. Must now be authenticated within 48 hours.
- B. Correct several typographical errors.

Amended Medical Staff Bylaws

3335-43-02 Purpose.

The purpose of the medical staff of the Ohio state university hospitals shall be:

- (A) To strive to maintain quality standards of patient care for all patients admitted to the Ohio state university hospitals, consistent with an active teaching environment, realizing that the care and treatment of the individual patient is the medical responsibility of the member of the honorary, attending, ~~and~~ courtesy, and community affiliate medical staff to whose care the patient is admitted or transferred.

(B) through (D) unchanged.

3335-43-03 Patients.

- (A) The continuous care and treatment of individual patients is the medical responsibility of the member of the honorary, attending, ~~and~~ courtesy, and community affiliate medical staff to whose care the patient is admitted or transferred within the Ohio state university hospitals and to licensed health care professionals being granted clinical privileges under these bylaws.

(B) and (C) unchanged.

3335-43-04 Membership.

- (A) Qualifications.

(1) through (4) unchanged.

- (5) ~~An~~ Except as otherwise provided for herein, an applicant for membership shall at the time of appointment or reappointment, be and remain board certified in a medical specialty approved by at least one of the American board of medical specialties, or other applicable certifying boards, including certifying boards if applicable for doctors of osteopathy, podiatry, psychology, and dentistry. All applicants must be and remain certified within the specific areas for which they have requested clinical privileges. An applicant who is an active candidate for board certification at the time of initial appointment or reappointment shall have three years from the date eligibility was first attained to become board certified. Board certification is a continuing requirement. Whenever recertification is required by a sub-specialty board approved herein, applicants for appointment or reappointment shall meet the terms of recertification established by their respective sub-specialty board or boards. Failure to meet or maintain board certification shall result in immediate termination of membership on the medical staff of the Ohio state university hospitals. This requirement may be waived by action of the medical staff administrative committee, upon the recommendation of the credentials committee or the medical director of the Ohio state university hospitals, or as specifically provided in these bylaws.

(6) Unchanged.

- (B) Application for membership.

Initial application for medical staff membership for all categories of the medical staff shall be made by the applicant to the chief of the clinical department on forms prescribed by the medical staff administrative

committee stating the qualifications and references of the applicant and giving an account of the applicant's current licensure, relevant professional training and experience, current competence and ability to perform the clinical privileges requested. All applications for appointment must specify the clinical privileges requested. Applications may be made only if the applicant meets the qualifications outlined in paragraph (A) of this rule. The application shall include written statements of the applicant to abide by the bylaws, rules and regulations of the medical staff, the university hospitals board, and the board of trustees of the Ohio state university. The applicant shall produce a government-issued photo identification to verify his/her identity pursuant to hospital/medical staff policy. The applicant shall agree that membership on the medical staff requires participation in the peer review process of evaluating credentials, medical staff membership and clinical privileges, and that a condition for membership requires mutual covenants between all members of the medical staff to release one another from civil liability in this review process as long as the peer review is not conducted in bad faith, with malice, or without reasonable effort to ascertain the accuracy of information being disclosed or relied upon. In addition for community affiliate medical staff in order to optimize the clinical organization resource utilization and planning of the Ohio state university hospitals, the chief of the clinical department may require that the community affiliate medical staff member identify categories of diagnosis, extent of anticipated patient activity, and service areas to be utilized and may prepare a statement of participation for the applicant, which shall be made a part of the application for appointment. A separate record shall be maintained for each applicant requesting appointment to the medical staff.

(C) and (D) unchanged.

(E) Procedure for appointment.

(1) and (2) unchanged.

(3) An application for membership on the medical staff shall be considered complete when all the information requested on the application form is provided, the application is signed by the applicant and the information is verified. A completed application must contain:

(a) through (d) unchanged.

(e) Verification by primary source documentation of:

(i) Unchanged.

(ii) Faculty appointment (not required for community affiliate category);

(iii) through (v) unchanged.

(vi) Board certification or active candidacy for board certification (may not be required for community affiliate category).

(f) through (h) unchanged.

(i) Completion of criminal history check by Ohio state university medical center security department.

(j) Completion of Ohio state university medical center drug testing.

(k) Verification of completion of HIPAA education program.

(4) The chief of the applicable clinical department shall be responsible for investigating and verifying the character, qualifications, and professional standing of the applicant by making inquiry of the primary source of such information and shall within thirty days of receipt of the complete application, submit a report of those findings along with a recommendation on membership and clinical privileges to the medical director of the Ohio state university hospitals.

(5) through (8) unchanged.

(F) Procedure for reappointment.

(1) At least ninety days prior to the end of the medical staff member's appointment period, the chief of the clinical department shall provide each medical staff member with an application for reappointment to the medical staff on forms prescribed by the medical staff administrative committee. The reappointment application shall include all information necessary to update and evaluate the qualifications of the medical staff member. The chief of the clinical department shall review the information available on each medical staff member, and the chief of the clinical department shall make recommendations regarding reappointment to the medical staff and for granting clinical privileges for the ensuing appointment period. The chief of the clinical department's recommendation shall be transmitted in writing along with the signed and completed reappointment forms to the medical director at least forty-five days prior to the end of the medical staff member's appointment period. The terms of paragraphs (A), (B), (C), (D), (E)(1), and (E)(2) of this rule shall apply to all applicants for reappointment. Only completed applications for reappointment shall be considered by the credentials committee. An application for reappointment is complete when all the information requested on the reappointment application form is provided, the reappointment form is signed by the applicant, and the information is verified. A completed reappointment application form must contain:

(a) through (c) unchanged.

(d) Verification of primary source documentation of:

(i) Unchanged.

(ii) Faculty appointment (not required for community affiliate category);

(iii) Unchanged.

(iv) Unchanged.

(v) Board certification, re-certification, or continued active candidacy for certification (may not be required for community affiliate category).

(e) through (m) unchanged.

Balance unchanged.

3335-43-07 Categories of the medical staff.

The medical staff of the Ohio state university hospitals shall be divided into ~~four~~ five categories: honorary medical staff; attending medical staff; courtesy medical staff; community affiliate medical staff; and limited staff.

(A) through (B) unchanged.

(C) Courtesy medical staff.

(1) Unchanged.

(2) Prerogatives:

The courtesy medical staff may:

(a) and (b) unchanged.

(c) Attend meetings as a member of the medical staff and the clinical department of which he or she is a member and any medical staff or the Ohio state university hospitals education programs. The courtesy medical staff member may vote for and be eligible to hold a position on the medical staff administrative committee reserved for the representative of the courtesy or community affiliate medical staff as set forth in paragraph (D) of rule 3335-43-09 and paragraph (D) of rule 3335-43-10 of the Administrative Code. Members of the courtesy medical staff may serve on non-elected medical staff committees as provided by these bylaws.

(3) Unchanged.

(D) Unchanged.

(E) Community affiliate medical staff.

(1) Qualifications: Community affiliate medical staff shall consist of those doctors of medicine, osteopathic medicine, dentists and practitioners of podiatry or psychology who:

(a) Do not qualify for an attending medical staff appointment;

(b) Are either current members of the Ohio state university hospitals east medical staff or community affiliate members seeking reappointment; and

(c) Satisfy the requirements and qualifications set forth in rule 3335-43-04 of the Administrative Code and are appointed to the community affiliate medical staff pursuant to these bylaws.

A community affiliate medical staff member shall meet and maintain the same standards for quality patient care applicable to all members of the medical staff. Community affiliate medical staff members shall be subject to these bylaws and the rules and regulations of the medical staff except as provided in this paragraph. The community affiliate medical staff member shall not be required to obtain appointment to the faculty of the Ohio

state university. The community affiliate medical staff member shall not be subject to the requirement for board certification within the community affiliate medical staff member's respective area of practice if that requirement was waived when he or she became a member of the Ohio state university east medical staff. Teaching and research accomplishments shall not be required in determining the qualifications of applicants to this category of the medical staff.

To optimize the clinical organization, resource utilization, and planning of the hospitals, the chief of the clinical department may require that the applicant for community affiliate medical staff membership to identify categories of diagnosis, extent of anticipated patient activity, and service areas to be utilized and may prepare a statement of participation for the applicant which will be made a part of the application for appointment.

(2) Prerogatives:

A community affiliate medical staff member may:

- (a) Admit patients consistent with the limitations of bed and service allocations established by the medical director and approved by the medical staff administrative committee, and the university hospitals board. At times when inpatient beds or other resources are in short supply, patient admissions of community affiliate medical staff shall be subordinate to those of attending medical staff. If, in the judgment of the medical director, a balanced teaching program is jeopardized, following consultation with the chief of the clinical department, and with the concurrence of a majority of the medical staff administrative committee, the medical director may restrict admissions of members of the community affiliate medical staff. Patients admitted under the care of the community affiliate medical staff will not be required to participate in the educational mission of the Ohio state university hospitals. Ordinarily, no coverage by the limited medical staff will be afforded, with the exception of emergency medical services.
- (b) Exercise the clinical privileges granted, have access to all medical records, and be entitled to utilize the facilities of the Ohio state university hospitals incidental to the clinical privileges granted pursuant to these bylaws.
- (c) Attend teaching and educational conferences approved by the Ohio state university, attend medical staff social functions, and participate as providers in the Ohio state university or the Ohio state university hospitals affiliated health plans.

(3) Responsibilities:

Each member of the community affiliate medical staff shall:

- (a) Participate in the management of and represent the interests of the clinical department for which he or she is granted clinical privileges. The community affiliate medical staff member shall comply with all provisions of these bylaws and rules and regulations of the medical

staff, unless expressly exempted under this rule. The community affiliate medical staff member shall comply with all the Ohio state university hospitals' policies and accreditation standards, and shall be subject to the same quality evaluation, monitoring, and resource management requirements as other members of the medical staff.

- (b) Be responsible within the member's area of professional competence for the continuous care and supervision of each patient in the Ohio state university hospitals for whom the member is providing care, or arrange a suitable alternative for such care and supervision.
- (c) Not be eligible to vote on medical staff policies, rules and regulations, or bylaws. The community affiliate medical staff member may vote for and be eligible to hold the position on the medical staff administrative committee reserved for the representative of the courtesy and community affiliate medical staff as set forth in paragraph (D) of rule 3335-43-09 and paragraph (D) of rule 3335-43-10 of the Administrative Code. Members of the community affiliate medical staff may serve on non-elected medical staff committees as provided by these bylaws.
- (d) Be subject to payment of medical staff dues or assessments as approved by the medical staff.

~~(E)(F)~~ Clinical privileges.

(1) through (9) unchanged.

(10) Disaster privileges.

Disaster privileges may be granted in order to provide voluntary services during a local, state, or national disaster in accordance with hospital/medical staff policy and only when the following two conditions are present: the emergency management plan has been activated and the hospital is unable to meet immediate patient needs. Such privileges may be granted by the medical director or his or her designee to fully licensed, qualified individuals who at the time of the disaster are not members of the medical staff in order to provide voluntary services during a local, state, or national disaster in accordance with hospital/medical staff policy. The medical director may seek the recommendation of the chief of the clinical department. These privileges will be limited in scope and will terminate once the disaster situation subsides or at the discretion of the medical director.

(11) Unchanged.

3335-43-08 Organization of the medical staff.

(A) Each member of the attending medical, courtesy medical, community affiliate medical, limited, and honorary medical staff shall be assigned to a clinical department and division, if applicable, upon the recommendation of the applicable chief of the clinical department.

(B) Names of clinical departments and divisions.

(1) through (3) unchanged.

(4) Internal medicine. The following divisions are designated:

Allergy
Cardiovascular medicine
~~Community internal medicine~~
Dermatology
Endocrinology and metabolism
Digestive health
General medicine
Hematology and oncology
Hospital medicine
Human genetics
Infectious diseases
Nephrology
Pulmonary, allergy, critical care and sleep
medicine
Rheumatology – immunology

(5) through (16) unchanged.

(17) Surgery. The following divisions are designated:

General and gastrointestinal surgery
Pediatric surgery
Plastic surgery
Surgical oncology
Thoracic and cardiovascular surgery
Transplant
Trauma, critical care and burn
~~Urologic surgery~~
Vascular

(18) Urology.

~~(19)~~(18) Unchanged.

Balance unchanged.

3335-43-09 Elected officers of the medical staff of the Ohio state university hospitals.

(A) Chief of staff.

The chief of staff shall:

(1) through (5) unchanged.

(6) Make medical staff committee appointments jointly with the medical director and chief of staff-elect in consultation with the executive director of the Ohio state university hospitals and with the approval of the ~~respective dean of the college of medicine and public health or dentistry and~~ university hospitals board, with the exception of the members of the medical staff administrative committee and nominating committee.

(7) Fill any vacancy which occurs in the position of courtesy or community affiliate medical staff representative to the medical staff administrative committee.

(8) and (9) unchanged.

(B) and (C) unchanged.

(D) Representative of the courtesy or community affiliate medical staff.

- (1) There shall be a member of the courtesy or community affiliate medical staff, elected solely by courtesy and community affiliate medical staff members, who shall serve on the medical staff administrative committee as provided by paragraph (D) of rule 3335-43-10 of the Administrative Code.
- (2) The courtesy or community affiliate medical staff member representative shall be selected from written or electronic nominations made by members of the courtesy and community affiliate medical staff. Nominees shall be submitted in writing or electronically to all members of the courtesy and community affiliate medical staff for voting no later than March first of the election year.
- (3) Unchanged.
- (4) Any vacancy shall be filled from among the membership of the courtesy and community affiliate medical staff by the chief of staff. The member so appointed shall serve until the next scheduled election, unless removed by a majority vote upon written ballot of the courtesy medical staff. Grounds for removal shall be the same as referenced in paragraph (F)(6) of this rule.
- (5) No other provisions of this rule shall apply to the courtesy medical staff representative. Members of the courtesy and the community affiliate medical staff shall not be eligible to vote for or hold other elected office in the medical staff organization.

(E) through (G) unchanged.

(H) Vacancies in office.

- (1) and (2) unchanged.
- (3) Vacancies in the at-large representatives and courtesy and the community affiliate medical staff positions shall be filled by appointment by the chief of staff.

3335-43-10 Administration of the medical staff of the Ohio state university hospitals.

(A) Unchanged.

(B) Medical staff committees.

- (1) Appointments:

Appointments to all medical staff committees except the medical staff administrative committee, ~~and the nominating committee~~ and all health system committees, shall be made jointly by the chief of staff, chief of staff-elect, and the medical director ~~with consultation with the executive director of the Ohio state university hospitals.~~ Representatives from the Ohio state university hospitals to health system committees shall be appointed jointly by the chief medical officer of the health system and the medical director. Unless otherwise provided by these bylaws, all appointments to medical staff committees shall be for one year and may be renewed. The chief of staff, medical director, and the executive director of the

Ohio state university hospitals may serve on any medical staff committee as an ex-officio member without vote.

(2) Unchanged.

(C) Medical staff administrative committee:

(1) Composition.

(a) This committee shall consist of the following voting members: chief of staff, chief of staff-elect, chiefs of the clinical departments, three medical staff representatives elected at large, one medical courtesy or the community affiliate medical staff representative, the medical director, and the executive director of the Ohio state university hospitals. Additional members may be appointed to the medical staff administrative committee at the recommendation of the dean or the chief medical officer of the OSU health system subject to the approval of the medical staff administrative committee and subject to review/renewal on a yearly basis. The medical director shall be the chairperson and the chief of staff shall be vice-chairperson.

(b) and (c) unchanged.

(2) through (4) unchanged.

(D) through (H) unchanged.

(I) Medical information ~~management~~ committee.

Balance unchanged.

(J) Leadership council for clinical value enhancement.

The leadership council shall consist of members appointed in accordance with paragraph (A)(6) of rule 3335-43-09 of the Administrative Code, and shall include the senior vice president for health sciences and dean of the college of medicine and public health and the chairperson of the professional affairs education and research committee of the university hospitals board as ex-officio members without a vote. The medical director shall be the chairperson of the leadership council.

(1) Unchanged.

(2) Clinical resource ~~management~~ evaluation policy group.

(a) and (b) unchanged.

(3) Unchanged.

(4) ~~Practice~~ Clinical practice guidelines policy group.

(a) and (b) unchanged.

The bylaws committee shall review the bylaws and rules and regulations as need arises but not less than every two years. This committee shall recommend changes to the medical staff administrative committee.

These bylaws may be amended after notice is given at a meeting of the medical staff administrative committee, and shall require two-thirds vote of the members of the medical staff administrative committee present for approval and submission to the medical staff for ratification. Ratification of an amendment shall be by a plurality of those medical staff members voting through written ballot. When an amendment is approved by the medical staff administrative committee and ratified by the medical staff it shall be forwarded in successive order to the following: the Ohio state university hospitals board which and the board of trustees of the Ohio state university. Each of the foregoing reviewers shall accept or reject the requested amendment. The amendment shall become effective when accepted by the board of trustees of the Ohio state university in the form ratified by the medical staff. Significant changes to these bylaws shall be reported in writing to the medical staff and other individuals who have clinical privileges. Neither the medical staff, nor the Ohio state university hospitals board may unilaterally amend these medical staff bylaws. The medical staff bylaws, rules and regulations, and policies and the university hospitals board bylaws shall not conflict.

Amended Rules and Regulations

84-05 Privileges for giving orders.

(A) through (C) unchanged.

(D) Telephone and verbal orders.

Telephone and verbal orders may be given by the responsible attending physician, dentist, podiatrist, psychologist, member of the limited staff, or other licensed healthcare professional with appropriate clinical privileges only to health care providers who have been approved in writing by title or category by the medical director, the executive director of the hospitals, and each chief of the clinical service where they shall exercise clinical privileges, and only where said health care provider is exercising clinical privileges which have been approved and delineated by job description for employees of the hospitals, or by the customary medical staff credentialing process when the provider is not an employee of the hospitals. Lists of the approved titles or categories of providers shall be maintained by the medical director. The job description or delineated privileges for each provider must indicate each provider's authority to receive telephone or verbal orders, including but not limited to the authority to receive orders for medications. The order is to be recorded and authenticated by the approved health care provider to whom it is given as "verbal order by," or "V. O. or T. O. by," recording the licensed healthcare practitioner's name and the time of the order. All telephone and verbal orders for D.E.A. schedule II controlled substances, patient seclusion, or patient restraint must be authenticated within one day by the licensed physician, dentist, podiatrist, psychologist, limited staff member, or other licensed healthcare professional with appropriate clinical privileges. All other verbal and telephone orders must be authenticated within ~~twenty one days of discharge or visit~~ forty-eight (48) hours by a licensed physician, dentist, podiatrist, psychologist, limited staff member, or other licensed healthcare professional with appropriate privileges.

Balance unchanged.

84-12 Medical information committee.

- (A) Unchanged.
- (B) Each member of the medical staff shall conform to the policies established by the medical information committee, including the following:
 - (1) through (3) unchanged.
 - (4) Discharges.
 - (a) through (f) unchanged.
 - (g) All medical records must be completed by the attending medical staff member or, when applicable, by the attending medical staff member's designee within twenty-one (21) days of discharge of the patient. Attending medical staff members shall be notified prior to suspension for all incomplete records. After notification, attending medical staff members shall have their admitting and operative scheduling privileges suspended until all records are completed. A list of delinquent incomplete records, by attending medical staff members, shall be prepared and distributed by the medical information management department once each week. If an attempt is made by the attending medical staff member, or the attending medical staff member's designee when applicable, to complete the record, and the record is not available, the record shall not be counted against the attending medical staff member.
 - (h) Records which are incomplete, more than twenty-one (21) days after discharge are defined as delinquent.
 - (5) through (11) unchanged.

(APPENDIX XXXII)

IMPACT STATEMENT
THE OHIO STATE UNIVERSITY HOSPITALS EAST
MEDICAL STAFF BYLAWS AND RULES AND REGULATIONS

AMENDMENTS APPROVED BY MEDICAL STAFF
EXECUTIVE COMMITTEE (SEPTEMBER 18, 2006)
AND THE GENERAL MEDICAL STAFF (NOVEMBER 9, 2006) AND THE
UNIVERSITY HOSPITALS BOARD (JANUARY 25, 2007)

I. MEDICAL STAFF BYLAWS

- A. Added language permitting podiatrists to admit podiatric patients as permitted by state law.
- B. Clarified conditions under which Disaster Privileges may be granted.

II. MEDICAL STAFF RULES AND REGULATIONS

- A. Removed requirement that podiatrist be under medical doctor supervision when writing patient orders for podiatric patients.

Amended Medical Staff Bylaws of University Hospitals East

3335-45-06 Categories of the medical staff.

(A) through (C) unchanged.

(D) The active medical staff.

(1) Unchanged.

(2) Members of the active medical staff:

(a) Have full admitting privileges if they are practitioners of medicine or osteopathic medicine, or practitioners of dentistry who have been granted privileges as oral and maxillofacial surgeons, ~~or podiatrists.~~ Practitioners of dentistry who have not been granted privileges as oral and maxillofacial surgeons, may admit patients to the hospital if such patients are being admitted solely to receive care which a dentist may provide without medical assistance pursuant to the scope of his or her professional license. Practitioners of dentistry must, in all other circumstances, co-admit patients with a physician member of the medical staff. Members of the medical staff who only have privileges in the department of emergency services do not have admitting privileges. Psychologists shall not have admitting privileges. ~~Practitioners of podiatry must co-admit all patients with a member of the medical staff who is a doctor of medicine or a doctor of osteopathic medicine.~~

(b) through (i) unchanged.

(E) through (H) unchanged.

3335-45-07 Clinical privileges.

(A) and (B) unchanged.

(C) Podiatric privileges.

~~All patients admitted for podiatric care shall receive the same medical appraisal as all other hospitalized patients. A member of the medical staff who is a doctor of medicine or osteopathic medicine shall co-admit the patient and be responsible for the history and physical and medical care that may be required at the time of admission or that may arise during hospitalization, and shall determine the need of any proposed procedure on the total health status of the patient. The podiatrist shall be responsible for the podiatric care of the patient including the podiatric history and physical examination and all appropriate elements of the patient's record.~~

(1) Practitioners of podiatry may admit patients to the Ohio state university hospitals east if such patients are being admitted solely to receive care that a podiatrist may provide without medical assistance, pursuant to the scope of the professional license of the podiatrist. Practitioners of podiatry must, in all other circumstances co-admit patients with a member of the medical staff who is a doctor of medicine or osteopathic medicine. A member of the medical staff who is a doctor of medicine or osteopathy shall be responsible for any medical problems that the patient has while an inpatient of the Ohio state university hospitals east.

(2) A member of the medical staff who is a doctor of medicine or osteopathy;

(a) Shall be responsible for the medical history and physical and any medical problems that the patient has while an inpatient of the Ohio state university hospitals east; and

(b) Shall confirm the findings, conclusions and assessment of risk prior to high-risk diagnosis or therapeutic interventions defined by the medical staff.

(3) Practitioners of podiatry shall be responsible for the podiatric care of the patient including the podiatric history and physical examination and all appropriate elements of the patient's record.

(4) The podiatrist shall be responsible to the chief of the department of orthopaedics.

(D) through (J) unchanged.

(K) Disaster privileges.

Disaster privileges may be granted in order to provide voluntary services during a local, state, or national disaster in accordance with hospital/medical staff policy and only when the following two conditions are present: the emergency management plan has been activated and the hospital is unable to meet immediate patient needs. Such privileges may be granted by the medical director or his or her designee to fully licensed, qualified individuals who at the time of the disaster are not members of the medical staff in order to provide voluntary services during a local, state, or national disaster in accordance with hospital/medical staff policy. The medical director may seek the recommendation of the chief of the clinical department. These privileges shall be limited in scope and shall terminate once the disaster subsides or at the discretion of the medical director.

(L) Unchanged.

Amended Rules and Regulations of The Ohio State University Hospitals East

86-05 Patient care orders.

(A) and (B) unchanged.

(C) Responsible medical practitioner.

The licensed physician, dentist, podiatrist (~~under medical doctor supervision~~), or psychologist (~~under medical doctor supervision~~) member of the medical staff responsible for the care and treatment of the patient is responsible for all orders for the patient.

Attending, courtesy, and honorary medical staff may designate members of the limited staff, or other licensed healthcare professional with appropriate clinical privileges to write or electronically enter orders under their direction. The attending staff member may also designate members of the pre-M.D. medical student group to write or electronically enter orders, but in all cases these orders shall be authenticated by the physician, dentist, podiatrist, psychologist, or designated limited staff member who has the right to practice medicine, dentistry, psychology, or podiatry, and who is responsible for that patient's care. All non-verbal

orders must be authenticated by the medical practitioner prior to the execution of the order(s) by the hospital or outpatient nursing staff or other professional groups.

Patient orders written or electronically entered by “off-service” limited staff or consultant staff must be authenticated by the responsible practitioner or the practitioner’s designee. Exception may be made in the event of preoperative orders or in the instance of acknowledged co-management; e.g., the intensive care unit or post-anesthesia care unit.

(D) through (M) unchanged.

Baker Systems - Air Conditioning Unit Replacement

315-07-0172

Requesting Agency(s): ENGINEERING COMPUTER SERVICES

Location(s): Baker Systems Engineering, David F.

69,887 ASF/115,361 GSF Age: 1968

Description:

This project will replace the air conditioning unit in room 480 to maintain the environmental conditions required for computer equipment. The project will also install a backup generator.

Project Information:

How does this project advance the Academic Plan? This project advances the academic plan by preventing loss of data.

Lincoln Tower - Cooling Tower Replacement

315-07-2024

Requesting Agency(s): STUDENT AFFAIRS, OFFICE OF

Location(s): Lincoln Tower, Abraham

208,606 ASF/322,387 GSF Age: 1967

Description:

This project will replace the cooling tower, chiller and transformer in Lincoln Tower and replace the domestic hot water storage tanks at Lincoln and Morrill Towers.

Project Information:

How does this project advance the Academic Plan? This project advances the academic plan by improving the on-campus student living experience.

Outstanding Funding Issues: This project is funded with future University bond proceeds; Student Affairs has identified an interim funding source until bond proceeds become available.

Timing Issues: Equipment replacement will be scheduled during breaks; project must be completed prior to Fall quarter 2009.

"Ripple effects" of the project: None

Special limitations/risks: None

Deferred Maintenance: This project will address \$1,773,100 in deferred maintenance.

KRAMER ENGINEERING - Design

Kennedy Commons Roof Replacement

315-2005-1002

Requesting Agency(s): STUDENT AFFAIRS, OFFICE OF

Location(s): Kennedy Commons, June L

24,034 ASF/37,233 GSF Age: 1939

Description:

This project will replace the existing slate, copper and built-up roof system with equivalent new roofing materials, approximately 28,000 square feet. It will also repair existing copings and counterflashing and provide for fall protection.

Project Information:

How does this project advance the Academic Plan? Replacement of the roof on this building will enhance the quality of Kennedy Commons to better serve faculty, staff and students.

Outstanding Funding Issues: None

Timing Issues: The condition of the existing roof has deteriorated substantially, therefore, planning and construction of the new roof needs to occur as soon as possible. Work must occur during the spring and summer months.

"Ripple effects" of the project: None

Special limitations/risks: None

Deferred Maintenance: This project addresses \$149,000 in deferred maintenance.

Lima Campus - Galvin Hall First Floor Classroom Renovation

315-2005-951

Requesting Agency(s): LIMA CAMPUS

Location(s): Galvin Hall

47,297 ASF/81,719 GSF Age: 1966

Description:

This project will update the first floor classroom in Galvin Hall on the Lima Campus. The renovation will include new furnishings, electrical upgrades, lighting upgrades, asbestos abatement, and installation of new audiovisual equipment.

Project Information:

The project budget has increased due to higher than anticipated hazardous materials costs, additional scope to comply with current building code requirements, and additional equipment costs.

How does this project advance the Academic Plan? This project advances the Academic Plan by providing improved teaching and learning facilities for faculty and students.

Outstanding Funding Issues: None

Timing Issues: Construction must occur during Summer Quarter.

"Ripple effects" of the project: None

Special limitations/risks: None

Deferred Maintenance: This project will begin to address the \$4,821,400 in deferred maintenance on Galvin Hall.

Deferred Renewal: None

Women's Softball Stadium

315-2005-998

Requesting Agency(s): ATHLETICS

Location(s): See Project Information

ASF/0 GSF Age:

Description:

This project will construct a softball stadium for varsity women's athletics with seating for 1,500-2,000 spectators. Support spaces will include, but are not limited to, home and away locker rooms, home team lounge, umpire locker rooms, press box, public restrooms and concessions.

Project Information:

The project scope was increased during design to accommodate amenities that are necessary for a fully-functional facility but had not been identified in the feasibility study, including storage space; additional restroom areas; coaches support; and building support spaces.

How does this project advance the Academic Plan? The greatly improved facilities will benefit the experience of current student athletes and aid in the recruiting process for future student athletes. A new facility will also allow the University to comply with the NCAA Title IX program requirements.

Outstanding Funding Issues: None

Timing Issues: Construction must occur during the off-season, from mid-summer to early spring, and must be complete by the 2008 softball season, beginning in March 2008.

"Ripple effects" of the project: None

Special limitations/risks: None

Newark Campus - Warner Library and Student Center

315-2004-930

Requesting Agency(s): NEWARK CAMPUS

Location(s): See Project Information

ASF/O GSF Age:

Description:

This project will construct a new library that will serve as the gateway to information services for the Newark Campus. The building will also house a student center that will serve as the hub of student life on the campus and meet the emerging need for student life resources.

Project Information:

At the time of bidding, the project was 12% over the budget as a result of increases in the construction industry and inflationary increases in construction costs. After undergoing value engineering the project increase is now 8.7% (\$1.6M). COTC and OSU Newark have committed the additional funds necessary to maintain the program scope.

How does this project advance the Academic Plan? This project will advance the academic plan by providing facilities for a variety of cultural, educational, social and recreational programs and the new library will improve the teaching and learning facilities.

Outstanding Funding Issues: None

Timing Issues: The construction schedule allows for relocation of the existing library during spring break or summer quarter 2008.

"Ripple effects" of the project: A series of renovation projects to existing space will be proposed following the relocation of functions to the Warner Library and Student Center.

Special limitations/risks: None

Deferred Maintenance: None

Deferred Renewal: None

SALE OF REAL PROPERTY

1339 MT. VERNON AVENUE, MARION, OHIO

In 1992, The Ohio State University purchased a 1.1 acre parcel immediately adjacent to the northwest corner of the Marion campus for use as an Early Childhood Educational Center in support of a two-year pre-Kindergarten associate's degree program. After years of subsidizing the operations at the Center and upon review of campus priorities, Ohio State Marion determined that it could no longer afford to keep the center, closing it in mid-2003.

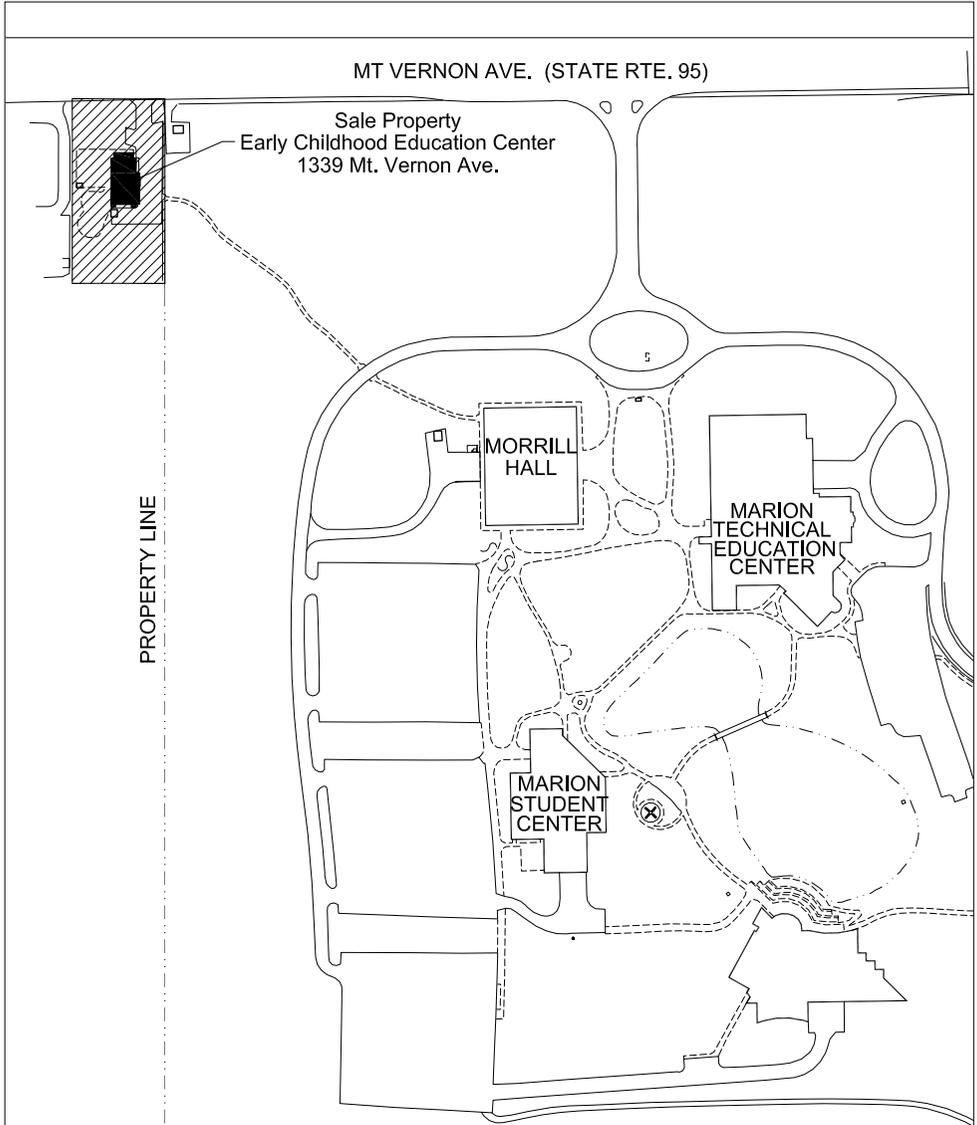

The building has been vacant and unutilized since that time. Various adaptive reuses have been explored but have all proven cost prohibitive. The building, originally built as a McDonald's restaurant in 1973, has mechanical systems nearing the end of their design life, is not constructed to University standards and contains nearly half of the square footage in a non-ADA accessible basement. The planned extension of State Route 529 on the western edge of the campus will physically separate this property from the rest of campus. The June 2005 appraisal of the property indicated a value of \$350,000.

Ohio State Marion has recommended that the property be determined surplus University property and be marketed for sale to the general public for the maximum price possible. This recommendation has been endorsed by the faculty and staff of Ohio State Marion and by The Ohio State University Marion Board of Trustees.

The University has entered into a purchase contract to sell the property to Lu Chivington and Deb Cooper, Buyers, for \$365,000 subject to Board of Trustees approval and legislation being passed by the Ohio General Assembly authorizing the transfer of the property. Ohio State Marion has approved the purchase price and the purchase contract and permission is being requested from the Board of Trustees for the Office of Business & Finance to complete this sale in the best interest of the University.

LONG-TERM LEASE

LEASED VARSITY TENNIS CENTER
880 WEST HENDERSON ROAD, COLUMBUS, OHIO 43214

Location and Description

The property is located in northwest Columbus at 880 West Henderson Road, west of Olentangy River Road, with access off of Knightsbridge Road. The proposal provides for an existing indoor soccer facility containing 57,000 SF, formerly used as a tennis building, and a second building containing 24,000 SF used for athletic equipment storage, situated on 5.2 acres, to be acquired by Continental Development, Inc. and converted back to a six-court tennis center with coaches offices, spectator areas, rest rooms, and locker rooms. This leased tennis center will satisfy a long-term requirement of the Department of Athletics to provide both the men's and women's varsity tennis programs with a suitable building and location for its indoor practice and competitive meets.

This proposed tennis facility is in lieu of a previously proposed project to construct an on-campus varsity tennis facility. Costs for construction of the on-campus facility have been estimated to be approximately \$11 million.

All costs, lease payments, and any other expenses related to the proposed off-campus property will be funded by the Department of Athletics using funds from reserves that have been set aside for a tennis project and future fundraising. All costs associated with this project will be the responsibility of the Department of Athletics until the time donor funds have been secured.

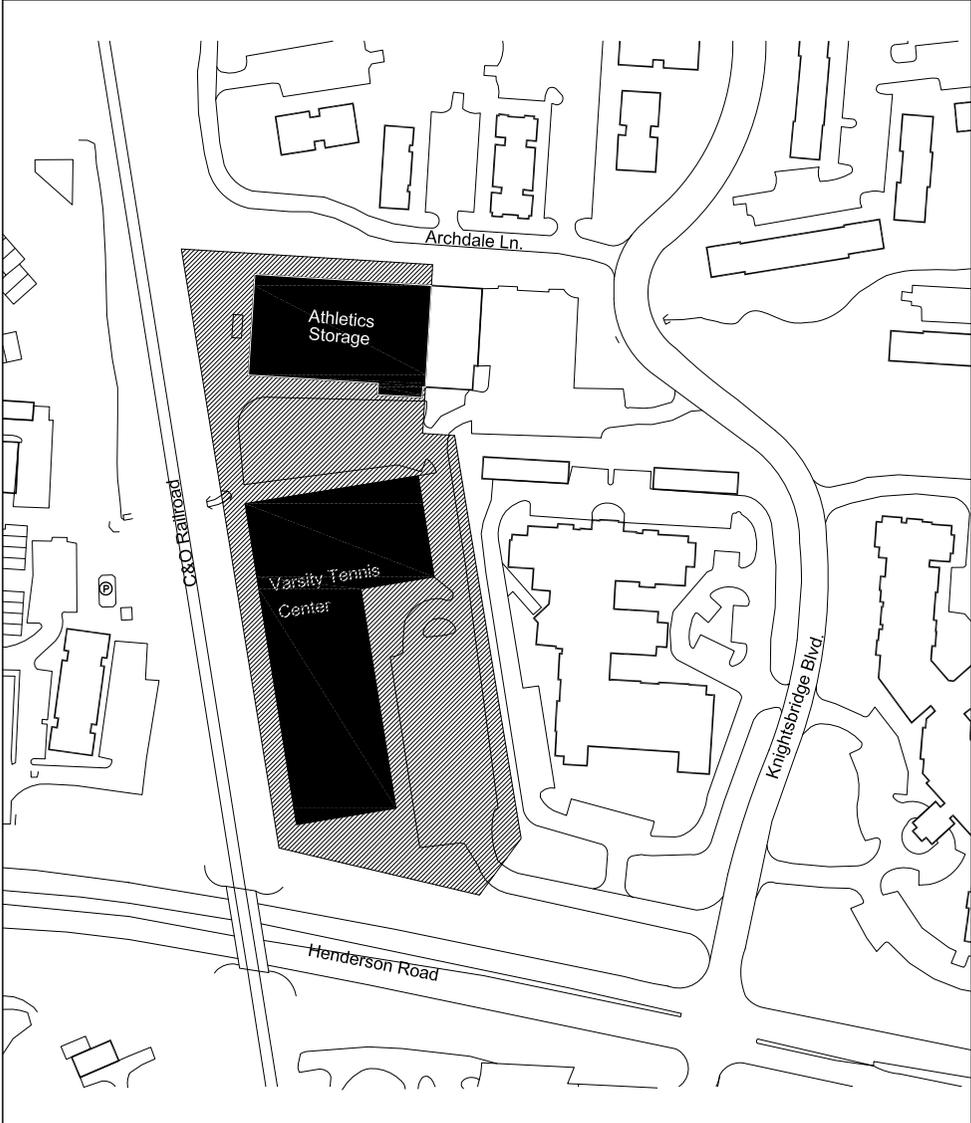

Terms of Lease

The lease term shall be for a period of ten years (10) years with two five-year renewal options and an option to purchase the property. A purchase of the property would require support of a purchase price by two appraisals, approval by the University, the Board of Trustees, and the State Controlling Board. No purchase action is being sought at this time.

Base Rent for the property will be \$20,000 per month during the 10-year term or \$240,000 annually (\$2.96/SF), plus operating expenses associated with the property estimated to be \$15,000 per month or approximately \$2.25/SF. Landlord's initial construction costs to complete alterations and convert the building to a tennis center are estimated to be \$2.9 million. The Department of Athletics will reimburse Continental Development, Inc. up to \$3 million for the approved alterations when completed using donated funds.

Varsity Tennis Center

Long Term Lease for Varsity Tennis Center 880 W. Henderson Road

**FISCAL AFFAIRS COMMITTEE
THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES**

February 2, 2007

TOPIC: FY 2007 AND FY 2008 STATE CAPITAL APPROPRIATIONS

CONTEXT:

The state's Capital Appropriations Bill (HB 699) was signed by the governor in December 2006. The total allocation to the Columbus Campus is approximately \$93 million. In addition to our original request of \$83.3 million, the Columbus Campus received an additional \$759,000 for community projects and approximately \$8.9 million in supplemental funding (Attachment A). Regional campuses received a total of approximately \$15 million which included supplemental allocations totaling approximately \$1.6 million. (Attachment B)

The supplemental allocation is in response to the Regents request for Campus Capital Renewal funding. These additional funds are intended to address critical renovation and modernization needs at each campus.

RECOMMENDATIONS:

Recommend \$8.9 million in supplemental funding to be used as follows:

- \$1.34 million -- Lord Hall Demolition: 100+ year building. Demolition would address \$13.3 million in deferred maintenance.
- \$7.56 million -- Cunz Hall Renovation: Renovation will provide much needed office and lab space for the College of Public Health. Project addresses \$1.4 million in deferred maintenance.

CONSIDERATIONS:

- Are these priorities consistent with the Academic Plan and fiscal realities?
- What role should the ability to privately fund raise play?
- What are the implications for infrastructure?

REQUESTED OF FISCAL AFFAIRS COMMITTEE:

Approval of recommendations for supplemental funds.

MEMORANDUM

Date: January 19, 2007
From: Alvin C. Rodack, Associate Treasurer 
To: William J. Shkurti, Senior Vice President for Business and Finance
Subject: Appointment/Reappointment of Investment Managers

The Office of the Treasurer is recommending to the Investment Committee of the Board of Trustees, the hiring of two new investment managers. One of the new managers is in the 'Venture/Private Equity' category and one is in 'Real Estate'. Attached is a summary for each of the recommended managers.

The managers were recommended by our consultant, Cliffwater LLC. The Office of the Treasurer did additional due diligence including reviewing the investment management agreements and interviewing each of the firms. The addition of the two managers will provide greater diversification to those segments of the portfolio. It also moves the portfolio closer to the new asset allocation targets.

Please let me know if you have any questions.

cc: Pranab Bhattacharya
Timothy A. Michel

Private Real Estate Investment Opportunity- Executive Summary

Fund Name:	Carlyle Realty Partners V	Date:	February, 2007
Fund Size:	\$2.75 billion	GP Commitment:	5%
Term of Fund:	10 Years	Investment Period:	Up to Four Years
Strategy:	Opportunistic Real Estate	Due Diligence:	Staff/Cliffwater

Organization & People: The Carlyle Group (Carlyle) was founded in 1987 and is based in Washington, DC. Carlyle has become one of the largest private equity firms in the world and manages over \$39 billion in capital commitments. In addition to real estate, Carlyle invests in buyouts, leveraged finance and venture capital on a global basis. Carlyle Realty Partners (Carlyle Realty) was established in 1993 to invest opportunistically in real estate. Carlyle Realty launched its first institutional fund in 1997 and has invested over \$2.5 billion across four private real estate funds.

Carlyle Realty has a staff of 52 professionals dedicated to managing real estate investments. There are fifteen senior investment managers that have an average tenure of over eight years at Carlyle. All of the senior managers have been involved in making investments in the previous four funds.

Strategy & Investment Process: The investment strategy for Carlyle Realty Partners V (Carlyle V) will first focus on analyzing property and market fundamentals in order to source well-located assets in large, undersupplied markets in North America. Carlyle V will focus on markets where management has identified forecasted vacancies that are trending downward and forecasted new construction that is unlikely to satisfy demand. Additionally, Carlyle analyzes the capital flows that influence asset pricing in order to identify inefficiently-priced assets. Once these opportunities are identified, Carlyle seeks to stabilize and/or redevelop the asset and sell it for a premium after a relatively short holding period.

Carlyle Realty uses a team approach to identify, complete, manage and sell its assets. Prospective investments are developed, analyzed and negotiated by the real estate professionals. Recommendations are then submitted to the investment committee which is comprised of five managing directors. The investment committee will evaluate all proposed investments, monitor performance and oversee the operations of Carlyle Realty. After completing analysis on the potential investments, the investment committee will make recommendations to the management committee. The management committee is comprised of the three founding partners of the Carlyle Group and the chairman of the investment committee. The management committee is responsible for making all final investment decisions for Carlyle V. These levels of oversight help ensure that the investments of the fund are thoroughly scrutinized.

Portfolio Construction & Diversification: Carlyle V will make real estate investments across various property types and geographical locations throughout North America. The fund will target primarily large metropolitan markets including New York, Boston, Chicago, Denver, San Francisco, Los Angeles and Washington, D.C. Carlyle V will have a six-sector property type focus including office, retail, hotel, multi-family, residential and senior living. Carlyle Realty will have a four year investment period in order to obtain maximum diversification through a disciplined process. Additional diversification and risk management will be obtained through the following fund management activities. 1) Investing in a number of small, control-oriented investments. Carlyle Realty has made approximately 150 investments in the previous four funds. 2) Restricting the size of a single investment to no more than 20% of the total fund equity. Fund III's largest investment was 7% and Fund IV's largest investment was approximately 8% of the total fund. 3) Managing leverage levels in a prudent manner. The majority of real estate opportunity funds will employ leverage in the 75-85% loan-to-value ratio. Carlyle's experience and future objective is to utilize leverage at a more conservative 55-65% loan-to-value ratio.

Performance: Carlyle Realty has invested four previous opportunistic real estate funds since 1997. The combined performance of those funds through June 30, 2006 is a net IRR of 19.3%. Over the same time period, the NCREIF Property Index produced an 11.8% net IRR. Additionally, Carlyle Realty has been successful in managing downside risk potential. Overall, net losses have been limited to 7% of the total realizations in Funds I-IV, which includes 80 investments.

It should be noted that the NCREIF Property Index returns do not take into account the use of leverage. Due to the use of leverage and active management, private real estate funds should be expected to outperform the index on a net of fees basis. Historically, the Carlyle Realty series of funds have been able to consistently achieve significant excess performance versus the NCREIF Index.

Private Real Estate Investment Opportunity- Executive Summary

Management Fees/Expenses: The management fee for Carlyle V will be 1.5% of total fund commitments during the investment period. After the investment period, the fee will be 1.5% of invested capital (funded commitments at cost less distributions). Carlyle Realty will receive 20% of the net profits (carried interest) after the investors receive 100% of their capital contributions plus a 9% net of fees return compounded annually (preferred return). Organizational expenses will be charged at the fund level, but will be capped at \$2.5 million for the life of the fund. The fees for Carlyle V are somewhat favorable compared to similar opportunistic funds offered by competing firms.

Conclusion: Carlyle Realty has established themselves as a premier real estate investor capable of producing strong performance across different market cycles. The team is deep, experienced and stable. Carlyle Realty manages risk appropriately, maintains a strong market presence and has a control-oriented investment approach. Carlyle V will provide additional diversification to the Ohio State University real estate portfolio. Carlyle V will consist of a portfolio of opportunistic, private market real estate investments. Currently, the OSU portfolio does not contain any such investments. Carlyle V will provide the opportunity to achieve higher expected returns with a measured level of risk. *Carlyle Realty Partners V is recommended for a \$10 million commitment.*

Private Equity Investment Opportunity- Executive Summary

Fund Name:	OCM Principal Opportunities Fund IV	Date:	February, 2007
Fund Size:	\$3.5 billion	GP Commitment:	2%
Term of Fund:	10 Years	Investment Period:	Five Years
Strategy:	Distressed Debt	Due Diligence:	Staff/Cliffwater

Organization & People: Oaktree Capital Management (OCM) was founded in 1995 and is based in Los Angeles with additional offices in New York, Stamford (CT), London, Tokyo, Singapore and Frankfurt. OCM was founded by seven principals from the Trust Company of the West (TCW). OCM currently manages over \$31 billion in assets. The firm specializes in managing debt investments including distressed, high yield, convertibles and mezzanine strategies. OCM manages distressed debt investments through two separate strategies, control-oriented and non-control oriented. Steve Kaplan and Ron Beck are co-head of the principal opportunities group, which makes control-oriented distressed debt investments. The firm is currently raising its fourth control-oriented distressed debt private equity fund, the OCM Principal Opportunities Fund IV (POF IV).

OCM employs approximately 315 people in the various offices mentioned above, 130 of which are investment and legal professionals. The principal opportunities group consists of 37 employees, including 29 investment professionals. The eight-member management team has an average tenure of over eight years at OCM.

Strategy & Investment Process: POF IV will make control-oriented investments primarily in equity and debt obligations in companies that are financially distressed, owned by individuals who are motivated sellers, in industries that are in transition or that lack the capital to respond to problems or opportunities. OCM believes that these types of opportunities will provide ample undervalued opportunities. In general, POF IV will invest only in situations where management believes that (a) the price of the company is supported by substantial asset value; (b) the cash-generating ability of the investment provides meaningful downside protection. OCM feels that the upside potential of these types of investments will rely on the successful implementation of two strategies: (a) restructuring the balance sheets to return the company to a sustainable level of profitability, (b) providing operational, strategic and financial advice.

Once a potential investment is identified, the investment process begins with a thorough analysis of the sector and opportunity including an initial legal review. The initial idea will be shared with analysts from other areas of the firm who may have insight into the sector, management team or competitors. If the initial analysis is positive, the deal team will enter into a confidentiality agreement, hold meetings with management and conduct quantitative, legal and accounting due diligence. The entire principal opportunities team meets weekly to review potential investments and address areas in need of additional due diligence. If the team reaches a consensus, it is presented to senior management. Every investment decision requires the approval of both Steve Kaplan and Ron Beck.

Portfolio Construction & Diversification: POF IV will target investments in distressed and undervalued companies with less than \$1.25 billion in debt on their balance sheet. POF IV will invest in approximately 20-30 companies diversified across industry sectors, investment periods and geographically. The primary industry sectors that the fund will target include media, energy, consumer, healthcare, transportation and manufacturing companies. Investments outside of North America are limited to 35% of the total fund's capital commitments. Additionally, no more than 30% of the fund may be invested in a single issuer.

Performance: OCM has invested three previous funds with the same strategy as POF IV since 1996. As of June 30, 2006, the combined performance of these funds was 11.7% net of fees. Performance for the most relevant benchmark, the Lehman High Yield Bond Index, produced a return of 7.1% over the same time period. Below is a breakdown of the performance of each individual fund through June 30, 2006:

Fund	Vintage Year	Net IRR	Quartile Rank (Thomson) ¹	Quartile Rank (Cambridge) ²	Lehman HY Index ³
POF I	1996	4.8%	Second	Third	5.4%
POF II	2001	19.3%	First	Second	10.7%
POF III	2004	26.7%	First	First	5.7%

1) Rank vs. buyout and mezzanine debt related funds in Thomson Venture Economics database for respective vintage year of fund.
 2) Rank vs. buyout, mezzanine debt and distressed debt in Cambridge associates database for respective vintage year of fund.
 3) Comparative return of Lehman High Yield Index for same time frame (Source- Cliffwater).

Private Equity Investment Opportunity- Executive Summary

Performance of the individual funds by vintage year was compared vs. two different private equity databases, Thomson Venture Economics and Cambridge Associates. There is no specific breakdown for distressed debt funds in either database. Therefore, the funds were compared vs. a combination of leveraged buyout and debt-related funds. Generally, leveraged buyout funds will have more volatility and higher return expectations than distressed debt partnerships. Overall, the POF funds compare favorably versus both benchmarks.

Management Fees/Expenses: The management fee for POF IV will be a combination of the following during the investment period: (a) 1.75% annually on total fund commitments up to \$2.5 billion; (b) 1.5% annually on commitments greater than \$2.5 billion. For example, if the total fund size of POF IV is \$3 billion, the management fee will equal 1.71%. After the investment period, the fee will be based on invested capital (funded commitments at cost less distributions). OCM will receive 20% of the net profits (carried interest) after limited partners receive 100% of their capital contributions plus an 8% net of fees return compounded annually (preferred return). Organizational expenses will be charged at the fund level, but will be capped at \$2.5 million for the life of the fund. The fees for POF IV are consistent with similar funds offered by competing firms.

Conclusion: OCM has a deep and seasoned team of investment professionals dedicated to managing distressed debt. The team has produced solid performance and proven an ability to preserve investors' capital through various investing environments. OCM has a consistent, team-oriented approach that focuses on achieving superior performance with a carefully managed level of risk. POF IV will be a good fit for the OSU private equity portfolio. The investment provides exposure to a less-traditional segment of the market, complements existing commitments in the portfolio and has lower correlation relative to venture capital and leveraged buyout investments. Additionally, distressed debt investments have the potential to hedge the leveraged buyout market. Lastly, POF IV will be included in the special situations portion of the private equity portfolio. Special situation investments consist of secondary, debt and opportunistic private equity strategies. *The OCM Principal Opportunities Fund IV is recommended for a \$10 million commitment.*

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND TWENTY-EIGHTH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, March 1 and 2, 2007

The Board of Trustees met at its regular monthly meeting on Thursday, March 1, and Friday, March 2, 2007, at The Ohio State University Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **

March 1 and 2, 2007 meeting, Board of Trustees

The Chairman, Judge Duncan, called the meeting of the Board of Trustees to order on Thursday, March 1, 2007, at 6:20 pm. He requested the Secretary to call the roll.

Present: Robert M. Duncan, Chairman, Karen L. Hendricks, Dimon R. McFerson, G. Gil Cloyd, John Ong, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Thekla R. Shackelford, Yoonhee P. Ha, and Christopher Alvarez-Breckenridge.

Judge Duncan:

In a moment we will be taking a roll call vote to go into Executive Session; that vote will conclude all formal Board action for the day beyond recessing the Board meeting until tomorrow morning. I'll remind you that the Board will reconvene tomorrow morning at 10:15 am.

I hereby move that the Board recess into Executive Session for the purposes of considering personnel matters regarding compensation and employment, for consulting with legal counsel regarding pending or imminent litigation; and for the purpose of discussing matters required to be kept confidential by State Statute. May I have a second?

Upon motion of Judge Duncan, seconded by Mr. O'Dell, the Board adopted the foregoing motion by unanimous roll call vote, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Ong, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Shackelford.

--0--

Judge Duncan reconvened the meeting on Friday, March 2, 2007, at 10:25 am.

Present: Robert M. Duncan, Chairman, Karen L. Hendricks, Dimon R. McFerson, G. Gil Cloyd, Jo Ann Davidson, John Ong, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Thekla R. Shackelford, and Christopher Alvarez-Breckenridge.

--0--

PRESIDENT'S REPORT

President Karen A. Holbrook: [Text version of presentation]

First I'd like to offer my congratulations to Alex Shumate, who on Wednesday was honored by the Chamber with the Columbus Award, its highest honor, for outstanding leadership. Alex has contributed his time and talent to so many other corporate, civic and professional boards, including the Glenn School, the Wexner Center, the Columbus Downtown Development Corporation, Capitol South, and the Columbus Partnership, to name just a few. We are fortunate that we now have him on our Board for the second time. We also have a few other Board members who have won this prestigious award – Les Wexner in the 1990s and Dimon McFerson in 2001-2002, as well as our chairman, Bob Duncan -- long ago.

I also would like to take a moment to introduce Tom Johnson, who is our interim treasurer. Tom also is executive in residence at the Glenn School and a former state budget director. Welcome, Tom.

Today I'd like to focus my remarks around new developments that are taking place nationally, in Ohio and in Columbus, to improve the way in

March 1 and 2, 2007 meeting, Board of Trustees

which we educate our children, with particular emphasis on Science, Math, Engineering and Technology, the so-called STEM disciplines, to make our workforce more competitive globally.

At the national level, the New Commission on the Skills of the American Workforce -- a bipartisan panel that includes former Cabinet secretaries and governors, federal and state education officials, and business and civic leaders -- issued a report, "Tough Choices or Tough Times," in December. The report is updated from the Commission's 1990 study in which it alerted officials to the effects the emerging globalization trend would have on our workforce.

In this most recent report, the Commissioners warned that unless improvements are made in the nation's public schools and colleges by 2021, a large number of jobs would be lost to countries including India and China, where workers are better educated but paid much less than their U.S. counterparts. In fact, the report calls for a complete overhaul of the American educational system, saying that the changes in the American education system over the past three decades have required more money but have produced no significant results.

Let me quote the vice-chairman of the Commission, Marc Tucker: "Either we do a much better job of giving our young people the world-class skills and knowledge they need to compete in a swiftly integrating world economy, or we condemn them to working even longer hours for even lower pay."

Among other things, the report encourages a more systematic approach to bringing together the three integral components of a successful workforce system -- education, training, and economic development. That is the approach being taken in the state of Ohio.

As many of you know, in November 2005, the Ohio Board of Regents, the Ohio Department of Education, and the Governor's office created the Science and Mathematics Education Policy Advisory Council, known as SAMEPAC. I chaired the Council along with Julian Earls, retired director of the NASA Glenn Research Center in Cleveland. Our charge was to recommend changes in public policy and educational practices in the P-16 system that will give Ohio the skilled workforce with scientific and technical capabilities required for success in the 21st century economy. We reviewed the best and most current research and we listened to business decision-makers and educators throughout Ohio.

Last week, we issued our report. We chose to focus on a limited set of goal-based recommendations structured around five specific strategies that support economic growth, strengthen the state's system of mathematics and science education, build upon existing programs, and make high-level mathematics and science courses available to all Ohio students. The Council deliberately made only a few recommendations so that there would be less temptation to "cherry pick" among them. The recommendations point to five strategies for enhancing Ohio's success in the 21st century economy.

First, expand public awareness and understanding of the importance of mathematics and science to Ohioans' success in the 21st century workplace, and to the state's future economic prosperity through a multi-year, research-based public awareness campaign. Also, we believe we should identify, coordinate, and sustain community-based partnerships to improve math and science education.

March 1 and 2, 2007 meeting, Board of Trustees

Second, the Council recommends increasing the number of students who take courses and master high-level math and science subjects, and then pursue STEM careers. Thus, we should offer early intervention programs and extra support in elementary and middle-school grades, particularly for low-income and minority students in urban and rural communities. We also should use technology such as online course delivery to expand access to upper-level and AP courses in high school math and science to small, rural school districts that lack financial or human resources to make such courses available in their school buildings.

Third, we should improve the quality of math and science education by recruiting, preparing, and retaining a larger number of high-quality teachers. We have to improve their pay and continuing education, while also creating incentives for our best teachers to stay in the profession and stay in Ohio.

The fourth strategy in the SAMEPAC report is about strengthening the links between post-secondary instructional and research programs and the business community to improve students' STEM career opportunities while matching education and training programs with workforce needs. One recommendation is to establish university-business advisory councils to develop and promote research goals and graduate programs, and provide internships and other nontraditional learning experiences for students and teachers in STEM-related disciplines.

And the fifth strategy is to build the state's capacity to drive improvement in math and science learning by creating the Institute for Mathematics and Science Education. This institute would analyze progress and assess educational needs and share results with policy makers and appropriate state agencies and stakeholders, as well as drive strategic improvements in P-12 STEM education across the state.

At Ohio State, where the STEM disciplines and related activities long have been one of our strong suits, they have taken on an enhanced role given the obvious role STEM plays in improving Ohio's economic prospects. That is why Provost Barbara Snyder is creating an ad hoc committee to develop and oversee a comprehensive plan for STEM education. We're calling it STEM-squared, to reflect the importance of medicine in this equation. The proposed committee would include several deans from STEM-squared disciplines, and a like number of faculty from those fields.

Essentially, the committee will identify and summarize strengths and weaknesses of our current STEM-squared activities, identify collaborations from across campus that could benefit from more resources, analyze our activities in K-16 science and education and improve them so we can be a leader in outreach for K-12 STEM teaching, and to identify new ways in which we can collaborate in areas that are in line with emerging state and federal priorities. The committee's deadlines will vary, with some initial reports due in six months and implementation and oversight of other reforms extending up to two years.

Of course, one of the most visible steps we have taken to improve STEM education, at least in Columbus, is by forming the Metro School with Battelle and the Education Council. By all accounts, the students are thriving in this new environment where their subjects are integrated in a way that helps them understand how they fit into their world.

For example, at the SAMEPAC event last week the students presented the results of their study of garbage or what they called "garbology." It was a three-week unit on waste and waste management that covered each of their subjects in some way. First, they studied waste and waste management in

March 1 and 2, 2007 meeting, Board of Trustees

their engineering class, looking at its global impact. Then, they looked more locally at the issue, collecting and analyzing their own household trash to see what kinds of waste came from which parts of the city. They sorted it and categorized it and then predicted how big a landfill they would need if they all continued to generate waste at the same rate. And then they made recommendations to each other and to their families about how to reduce the waste they were producing.

That's only one example of the innovation that's taking place at Metro School on a daily basis. I encourage any of you to stop by the school and see for yourself the different kinds of activities that these students are participating in, and the different ways in which they are learning how to contribute to their world.

Mr. Chairman, that concludes my report for today.

--0--

STUDENT RECOGNITION AWARD

Mr. Alvarez-Breckenridge:

The Student Recognition Award is presented each month by the Board of Trustees to a student in honor of their achievement in his or her area of study, service to the University and/or community, and research achievements that have been a credit to the college and the University.

This month's recipient, Garrett Elliot from Coshocton, Ohio, was nominated by Dean Richard Freeman, from the College of Mathematical and Physical Sciences. Garrett is a fourth-year student, pursuing dual degrees in astronomy and physics. Today Garrett is accompanied by his advisor Dr. Don Terndrup and Senior Associate Dean for Mathematical and Physical Sciences, David Andereck.

Garrett's achievements prior to arriving at Ohio State were numerous and provided the basis for his remarkable accomplishments upon enrolling at OSU. After graduating from Coshocton High School as the salutatorian of his senior class, he has continued his academic success at the collegiate-level while pursuing extensive research opportunities both at Ohio State and throughout the country.

While taking classes that range from general relativity to stellar structure, Garrett has remarkably maintained a near perfect GPA. With a cumulative GPA of 3.989, Dr. Terndrup comments that "his overall academic performance places him at the top of about 30 majors...and is currently about even with our incoming graduate students." To put this praise in perspective, the astronomy graduate program only accepts approximately 10% of its applicants!

Clearly, Garrett has embraced the academic rigors of his curriculum with determination and dedication. Additionally, however, Garrett has embraced the challenges of research and discovered its many rewards. Garrett is currently doing research with Dr. David Tholen, from the Institute for Astronomy at the University of Hawaii. This work is studying the orbit's of Pluto's recently discovered small moons, Nix and Hydra. In this research project, Garrett was able to determine the likelihood of observing eclipses for these two stellar bodies. The findings from this work were presented in January 2007 at the American Astronomical Society meeting and in October 2006 at the American Astronomical Society Division for Planetary Sciences meeting.

March 1 and 2, 2007 meeting, Board of Trustees

In addition to studying the moons of Pluto, Garrett also had the opportunity to work with Dr. Joseph Veverka on the Deep Impact NASA mission at the University of Cornell and the Jet Propulsions Laboratory in the summer of 2005. During this time, the Deep Impact spacecraft released an impactor to excavate a crater on comet Tempel 1. As a research assistant, Garrett was able to study the cratering effects of the impactor and assisted on Deep Impact data transfer.

In the midst of studying celestial bodies on a daily basis, Garrett has also been recognized on numerous occasions by his peers and the University. Garrett is currently serving as the president of Sigma Pi Sigma, the Physics Honor Society at OSU. Additionally, he has also been awarded the Physics Department's Smith Sophomore and Junior Awards. Lastly, considering his exceptional GPA and his place on the Dean's List during every quarter he has been at Ohio State, it is not surprising that Garrett has received Ohio State's Trustee Scholarship and the Minority Affairs Freshman Foundation Program Scholarship.

With these academic accomplishments and his ability to excel in the research arena, Garrett has placed himself in an excellent position to continue his studies in astronomy at the Graduate School-level where he would like to study planetary sciences. In particular, Garrett intends on specializing in the study of minor planets and small body solar system objects to better understand the inner dynamics of solar system formation. With this training, he would ultimately like to pursue these research interests while also participating in the decision making processes of scientific space missions.

Garrett, on behalf of the Board of Trustees, I am very pleased to present this award to you today. Your achievements are truly remarkable and you are indeed an outstanding student. Congratulations and best of luck in your future endeavors!

Mr. Garrett T. Elliott:

Hello and good morning to the members of the Board, Dr. Holbrook, and all others who are here today. I am certainly happy to be here and to be recognized by the Board. I would like to thank Christopher for the kind words of introduction. I am not much for talking about myself so I am happy he could.

I'm honored to be here representing the College of Mathematical and Physical Sciences and specifically the Department of Astronomy. My advisor, Dr. Donald Terndrup, is here today and I am glad he could make it.

I would like to first thank the University as a whole. It's through the work of people such as yourselves, the faculty, staff, and students that Ohio State has such a fine academic program and the respect and credibility among people all over the world. If my record shows anything, it's that an Ohio State education really means something.

As for the individuals that affect my life daily, I must thank my parents and the educators in my life before I arrived here. I thank my advisor, Dr. Terndrup, for always being on the look out and always supporting my research. And, most importantly, I have to thank my physics professor, Dr. Robert Perry. He has not only helped shape my education, but my overall perspective on everything even outside the realm of physics. I know many people feel the same, so I am glad to be able to state that publicly. I also thank the many others that helped and have taught me along the way,

March 1 and 2, 2007 meeting, Board of Trustees

primarily my classmates. They are the driving force behind my education and it is from them that I have learned the most.

I now look forward to another year and this recognition only inspires me to work harder and take full advantage of my remaining time here. My final comment is that many people come and go from this University, and whether they “do something great” or not, the point is that you provide them with every opportunity to do something great, and for that I thank you.

--0--

RESEARCH REPORT

Dr. Robert T. McGrath: [PowerPoint Presentation]

It's my pleasure to provide a status report on the research enterprise at Ohio State to you this morning.

In summary, research programs across the campus are growing, bringing additional national and international recognition, and greatly enriching the teaching and learning environment that we are able to provide to our students.

Over the past 10 years research at Ohio State has more than doubled, climbing to \$652 million in 2006. The vast majority of these expenditures come from competitively awarded grants and contracts that unquestionably would have gone to other institutions, primarily in other states, if not for the innovation and hard work of Ohio State's dedicated research educators. Consequently our large and growing research program not only greatly enriches the environment for learning, but also significantly enhances the economic vitality of Ohio.

This table, published by the federal government, shows institutional rankings based on 2005 research expenditures. Ohio State now ranks as the 12th largest research university in the nation, up from 18th in 2003 and 15th in the 2004 rankings. We now rank as the 8th largest public research university in the nation, climbing from 10th, to 9th, to 8th over the past three years. Along the way, OSU has surpassed such notable institutions as Cornell, MIT, UC-Davis, UC-Berkeley, and Minnesota.

It was great to pick up the Sunday newspaper on February 11 and find Ohio State's research accomplishments recognized and complimented by the senior editorial staff of *The Columbus Dispatch*. Similarly, the Cleveland *Plain Dealer* highlighted OSU's research. Each pointed out the large number of peripheral jobs supported by the economic engine that OSU research represents. The *Plain Dealer* also derived a measure of satisfaction in finding that Ohio State research ranked ahead of the University of Florida's. And, I'm pleased to serve as spokesperson for a research program of which our football and basketball teams can be proud.

It's helpful for our strategic planning to understand where our research dollars come from. This next slide shows that Ohio State has broadly based and well balanced sponsorship. At 27% of total, the National Institutes of Health sponsors the largest portion of our work. The 23.5% portion provided by the state of Ohio represents funding for our Agricultural Experiment Station, Board of Regents' Research Incentive funding used for Targeted Investments, and competitively awarded Third Frontier projects.

Over the past five years, OSU has been awarded 24 Third Frontier grants, with total state funding of \$118 million. The required matching dollars on

March 1 and 2, 2007 meeting, Board of Trustees

these awards come from over 100 industrial and academic partners, whose collective contributions represent an additional \$200 million to these programs. Leveraging on Third Frontier partnerships in applied research, OSU now ranks 3rd in the nation in terms of hosting industry-sponsored research, moving up from 6th and surpassing the University of Washington, the University of Maryland, and MIT along the way.

This next pie chart breaks down our research activities by college clusters and by individual colleges. The professional college cluster is our largest, fueled by Engineering's 22% of total and Food, Agricultural and Environmental Sciences' 13% of total. The Health Sciences' cluster is nearly identical in size, with the College of Medicine's 33% of total making it the largest research college on campus. In the Arts and Sciences' cluster, the Colleges of Social and Behavioral Sciences, Mathematical and Physical Sciences, and Biological Sciences together contribute annually another \$100 million to our overall research program.

In addition to the overall and industry rankings already mentioned, I'm also proud of the top ten placements that OSU has achieved within select research subfields. OSU now ranks: 3rd in Materials Science and Engineering (no change); 9th in Social Sciences (5th in 2004); 9th in Computer Science (12th in 2004); 10th in Mathematical Sciences (12th in 2004); and 10th in overall Engineering (12th in 2004).

Importantly, too, with \$199 million in Medical Sciences' research expenditures in 2005, OSU now ranks 25th in the nation, up 22 places from 47th in 2004. This dramatic rise was driven by a one-year increase of over \$60 million in Medical Sciences research. The other portion of our gain resulted from more careful reporting and proper categorization of our research activities by the Research Foundation. For 2006, our Medical Sciences research has increased by another 12% to \$223 million. Consequently, I'm optimistic about being able to report next year on additional gains in the national ranking of our Medical Sciences.

On these next two slides, I simply wish to give an indication of the types of research planning and competing that goes on throughout our research intensive colleges. For example, over the past 47 years, NIH has continuously sponsored clinical research infrastructure at Ohio State, and at other institutions across the nation, through their General Clinical Research Center, GCRC, awards. To provide greater agility in safely and rapidly translating research innovations from the lab bench to bedside clinical practice, the NIH is now phasing out all GCRCs and establishing, instead, at select institutions Clinical and Translational Science Awards. As shown on the slide, these new CTS awards will provide significant infrastructure support for clinical and translational research. We perceive that, intentionally or not, NIH is establishing tiers of institutions, those that have CTS awards and those that do not.

Drs. Rebecca Jackson and William Malarkey, from the College of Medicine, and John Barnard, from Columbus Children's Hospital, have taken the lead on developing a comprehensive proposal that brings together the Colleges of Medicine, Public Health, Nursing, Dentistry, Pharmacy, Optometry, and Veterinary Medicine, along with Children's Hospital, to ensure that Ohio State and Columbus Children's are among the top tier institutions whose clinical research programs benefit from the significant and sustained support to be provided by these CTS awards.

I will only briefly mention the Targeted Investments in Excellence (TIE) program being led by the Office of Academic Affairs, with support from the Office of Research. The central administration is supporting the colleges to

March 1 and 2, 2007 meeting, Board of Trustees

rapidly advance their highest priority initiatives in scholarship and research. We will continue to build upon the existing strengths and the exciting science residing within these outstanding programs. For example, to address the national and global challenges of providing clean and sustainable energy, the deans of Food, Agricultural and Environmental Sciences, Biological Sciences, Mathematical and Physical Sciences, and Engineering have asked the Office of Research to coordinate the formation of an Ohio State Institute for Energy and the Environment.

This will be one of a dozen or so research institutes housed within the Office of Research, with some of the others shown here in gray shaded boxes on the right-hand side of our organizational chart. For this newest OSU Research Institute, the deans and the faculty have agreed to build upon existing strengths by recruiting additional senior leadership and junior faculty to further enhance these important programs. In parallel, associate deans for research, Jeff Daniels, Greg Washington, and Steve Slack, from Mathematical and Physical Sciences, Engineering, and Food, Agricultural and Environmental Sciences respectively, are providing leadership on formation of important statewide partnerships with other Ohio academic institutions, as well as with industries and government laboratories such as American Electric Power, the Air Force Research Laboratory, NASA Glenn Research Center, Battelle, and state and federal agencies. Together, these experts are tackling such complex problems as clean burning of coal; liquid fuels from coal; biomass power generation; fuel cell, hydrogen, and ethanol transportation; solar power; and much more.

Administratively, the Office of Research also operates a number of support units that are absolutely essential for sustaining and expanding Ohio State's research programs. For example, the Ohio State Research Foundation is the contractual agent for all research proposals, grants and contracts. The Research Foundation processes and submits to sponsors between 3,000 - 4,000 proposals annually, and is presently administering about 8,200 individual active research grants and contracts.

As I believe you well know, the Office of Research is also responsible for ensuring compliance with federal guidelines and recommended best practices. To that end, the Office of Research operates the Institutional Animal Care and Use Committee (IACUC). This is a committee made up of faculty experts charged with review and approval of the nearly 1,000 detailed protocols for research activity involving animals. The Office of Research also operates the University Laboratory Animal Resources Office (ULAR), which supports the IACUC, and provides veterinary care and husbandry for Ohio State's 18,000 research animals.

Last week, OSU hosted a team of experts from the Association for the Assessment and Accreditation of Laboratory Animal Care (AAALAC). These experts spent five full days reviewing in great detail all aspects of our research animal care and use program. During the exit briefing, the AAALAC site visitors complimented OSU's institutional commitment, and the extensive programmatic improvements devised and implemented during this past year. As expected, the AAALAC experts offered many helpful suggestions for continued improvement, but I am very please to report that NO MANDATORY program improvements were identified. This preliminary feedback represents, then, the best possible outcome that any institution could hope for from an accreditation site visit. We will now await the formal and final assessment from AAALAC scheduled to be provided in July.

An even more important compliance-related responsibility within the Office of Research is the administration of the University's Human Subjects Research Protection Program. Ohio State has nearly 4,000 specific

March 1 and 2, 2007 meeting, Board of Trustees

protocols for human subjects research active at any given time. Each protocol is meticulously scrutinized and managed by one of three different groups of experienced faculty who comprise our three Institutional Review Boards (IRBs) for cancer, biosciences, and social and behavioral sciences-related research.

In recent years, deaths within research programs at Johns Hopkins and at the University of Pennsylvania have understandably stimulated additional oversight of human subjects research, and motivated the formation of the Association for the Accreditation of Human Research Protection Programs (AAHRPP). Sponsored by the Association of American Medical Colleges, the AAU, NASULGC, the Consortium of Social Sciences, the Federation of American Societies for Experimental Biology, the National Health Council, and other prestigious professional organizations, accreditation from AAHRPP is fast becoming the gold standard for excellence in human subject research protections. With full support of the President's Cabinet and the Council of Deans, the Office of Research is taking the lead on procuring AAHRPP accreditation for OSU within the next three years. We are extremely fortunate to have Dr. Todd Guttman, M.D., J.D., and a national expert in research compliance, leading this effort for the University.

Another area of responsibility for the Office of Research is Technology Licensing and Commercialization. In prior years, this office had been in need of attention and leadership, but I'm delighted to report that Dr. Jean Schelhorn was recruited to serve as associate vice president for TLC about one year ago. Dr. Schelhorn brings to the University her extensive experience gained as one of the leaders in Technology Transfer at Battelle. Since joining OSU, Jean has been improving business practices, expeditiously managing resources, improving communications and coordination with the colleges, and developing a strategic plan for managing OSU's intellectual property. Within this realm, we seek to achieve a healthy balance between further stimulating industrially-sponsored research and increasing revenues derived from patenting and licensing of the intellectual property that our faculty researchers generate.

In the interest of time and questions, and with apologies to some of our most outstanding researchers, I'll reluctantly skip over the next couple of slides included in your handout, allowing you to read over them on your own. But I'll not skip over our students.

Whether it's teaching in an elementary school classroom, working in a biology laboratory, building robots to clean up simulated chemical spills, or exploring Bob Fosse's Legacy on the dance floor, research permeates the learning environment at Ohio State. Earlier this morning, the Academic and Student Affairs Committee heard from Dr. Allison Snow, director of the Office of Undergraduate Research. I think you'll agree that she is doing a fabulous job of coordinating the excellent undergraduate research programs that our faculty and colleges have developed over the years, and of helping to make a research experience available to any undergraduate student who wishes to have one.

I'll end as I began, by simply stating that Ohio State's research programs are infusing excitement into the learning environment all across the campus, stimulating and sustaining the Columbus and Ohio economies, and expanding the reputation of Ohio State across the nation and around the world.

Thank you for the opportunity to address the Board this morning. I'll be happy to answer any questions that you might have.

March 1 and 2, 2007 meeting, Board of Trustees

[Questions and answers inaudible.]

(See Appendix XXXIX for background material, page 921.)

--0--

COMMITTEE REPORTS

Judge Duncan:

I would like to call for committee reports and will call on Mr. McFerson for the Medical Center Affairs Committee and Investments Committee report.

Mr. McFerson:

Thank you, Mr. Chairman. The Medical Center Affairs Committee met yesterday from 2:30 until 5:00 pm. We had an update on people/programs from Dr. Sanfilippo and then had a January YTD Financial Report from Mr. John Stone. Mr. Pete Geier presented two items that will be on the consent agenda and are being proposed to this Board: 1) reappointments to the University Hospitals Board, the University Hospitals East Board, and the Richard M. Ross Heart Hospital Board; and 2) approval to enter into design and construction contracts, and a budget correction. Both of these items were approved to forward to this Board by the Medical Center Affairs Committee.

We then had the Fiscal Plan Alignment with Master Space Plan -- RFP Update from Mr. Shkurti, Mr. Geier, Mr. Stone, and Dr. Sanfilippo. There were also other matters that were discussed in Executive Session.

In the Investments Committee meeting this morning, we heard the Monthly Endowment report from Interim Treasurer Tom Johnson. He then presented a recommendation on the appointment of investment managers and reallocation of funds. We then had the monthly report from Dr. Schroeder on University Development. Both of these items were approved to forward to this Board by the Investments Committee.

Chairman Duncan, that concludes my reports.

Judge Duncan:

Let me call on Amb. Ong for the Academic and Student Affairs Committee report.

Amb. Ong:

In the Academic and Student Affairs Committee, we first heard an update on the Undergraduate Research Office from Professor Allison Snow, the director of the office and a professor in the Department of Evolution, Ecology, and Organismal Biology. Professor Snow said that studies indicate that undergraduate research opportunities are important for student retention and satisfaction. Providing such opportunities is a growing trend at our peer institutions.

The Undergraduate Research Office was created in 2006 to lead Ohio State's efforts in this area. The office helps students find faculty mentors, supports students in presenting their work, and promotes recognition of student research. Presently, about 20% of our students have an undergraduate research experience, though the numbers are higher in the STEM disciplines. The University provides more than \$800,000 to fund

March 1 and 2, 2007 meeting, Board of Trustees

student research projects, and the office is actively seeking additional funding from other sources. Within the Big Ten, Ohio State is already a major player in undergraduate research. Our goal is to become a national leader within the next few years.

Tracy Stuck, director of the Ohio Union, and Robbie Beaulieu, representing student organizations, next gave an update on the Ohio Union replacement project. In December and January, offices in the Ohio Union moved to five different swing spaces on campus. Several events marked the closing of the old building, and some of the building's fixtures will benefit the student chapter of Habitat for Humanity. Moving the Union offices has not had a significant negative impact on student activities, though there has been a loss of free or affordable meeting spaces. The Union staff are helping student organizations deal with this problem. The Union replacement project is currently on time and on budget. Asbestos abatement is in progress, and demolition is scheduled to begin this summer.

Finally, Provost Snyder and our Committee are recommending the following resolutions to the Board: 1) the abolishment of the Center for Survey Research; 2) the naming of Irving Schottenstein Drive; 3) revisions to the financial conflicts of interest policy for faculty; 4) revisions to the faculty professional leave program; 5) amendments to the *Rules of the University Faculty*; and 6) routine personnel actions.

Chairman Duncan, that concludes my report.

Judge Duncan:

Are there any questions or comments? I will now call on Jo Ann Davidson for the Fiscal Affairs Committee report.

Mrs. Davidson:

Thank you, Mr. Chairman. The Fiscal Affairs Committee had a brief agenda this morning. We had one report and have five items for the consent agenda today.

First, Bill Shkurti and Melissa Bellini reported on the Quarterly Capital Projects – On Time/On Budget Scorecard. This report is in your Board books for your information and review.

The five items that we are bringing to you for approval today are: 1) the approval to enter into design and construction contracts, and a budget correction for the Women's Softball Stadium; 2) the sale of real property located on State Route 621, in Keene Township, Coshocton County – the Three Rivers Fire District would like to purchase the land to construct a building to house the township fire department, with net proceeds of the sale to benefit OARDC; 3) the sale of land and grant of a temporary construction license at the intersection of Defiance Drive and Ackerman Road, to the City of Columbus; 4) the purchase of real property located at 2404-2432 Kenny Road and 2410 Wood Avenue, Columbus, Ohio; and 5) the employment of consultants and completion of schematic design for the Medial Center Facilities Plan Clinical Expansion Projects. Those are the five items -- #14 through #18 -- on the consent agenda and the Committee is recommending them for your approval.

Thank you, Mr. Chairman.

March 1 and 2, 2007 meeting, Board of Trustees

Judge Duncan:

Are there any questions? Thank you.

--0--

CONSENT AGENDA

President Karen A. Holbrook:

We currently have eighteen resolutions on the Consent Agenda today and we would like to conduct separate votes for #3 and #13. We are seeking your approval for:

**UNIVERSITY HOSPITALS BOARD, UNIVERSITY HOSPITALS EAST BOARD
AND THE RICHARD M. ROSS HEART HOSPITAL BOARD
REAPPOINTMENTS**

Resolution No. 2007-98

Synopsis: Approval of reappointments to the University Hospitals Board, the University Hospitals East Board, and the Richard M. Ross Heart Hospital Board is proposed.

WHEREAS the Board of Trustees on November 30, 1979, approved the establishment of a University Hospitals Board; and

WHEREAS the membership of the Hospitals Board was approved on April 4, 1980; and

WHEREAS the Board of Trustees on December 6, 2001, approved the establishment of a University Hospitals East Board, and on October 3, 2003, approved the establishment of the Richard M. Ross Heart Hospital Board; and

WHEREAS all members of a specialized board shall be appointed by The Ohio State University Board of Trustees in consultation with the vice president for health services, the senior vice president for health sciences, and the president of the university:

NOW THEREFORE

BE IT RESOLVED, That the following individuals be reappointed as citizen members to the respective boards effective as follows:

University Hospitals Board Reappointments

James B. Bachmann, 2nd term, April 1, 2007 – April 30, 2010
Edward H. Jennings, 2nd term, March 1, 2007 – March 31, 2010

University Hospitals East Board Reappointments

Joyce Estes, 3rd term, May 1, 2006 – April 30, 2009
Frederick Ransier III, 2nd term, May 1, 2006 – April 30, 2009
George A. Skestos, 2nd term, June 1, 2006 – May 31, 2009

Richard M. Ross Heart Hospital Board Reappointment

Sarah R. Soter, 2nd term, December 5, 2006 - December 31, 2009

ABOLISHMENT OF THE CENTER FOR SURVEY RESEARCH

Resolution No. 2007-99

Synopsis: Authorization to abolish the Center for Survey Research is proposed.

WHEREAS the Center for Survey Research was established in 1999, with a director report to the dean of the College of Social and Behavioral Sciences, and with most of its initial funding dedicated to a staff infrastructure for an income-earning unit, through which contract/grant monies for commissioned surveys could flow to support faculty research and graduate student training; and

WHEREAS with the loss of a major contract for surveys and as faculty took their grant-funded survey work elsewhere, the viability of the Center was not realized, and in 2004 the college returned to the Office of Academic Affairs most of the academic enrichment grant that had been the basis of the Center's initial funding; and

WHEREAS independent of center status, the College of Social and Behavioral Sciences' Center will continue to support the Graduate Interdisciplinary Specialization in Survey Research, now coordinated by the former director of the Center working with an inter-college faculty oversight committee; and

WHEREAS the proposal was approved by the Council on Academic Affairs, and approved by the University Senate at its February 8, 2007 meeting:

NOW THEREFORE

BE IT RESOLVED, That the proposal to abolish the Center for Survey Research be approved, effective immediately.

**REVISIONS TO THE FINANCIAL CONFLICTS OF
INTEREST POLICY FOR FACULTY**

Resolution No. 2007-100

Synopsis: Revisions to the Financial Conflicts of Interest Policy for Faculty are recommended to improve the process for appointment of members of the policy advisory committee.

WHEREAS the Board of Trustees adopted a Financial Conflict of Interest Policy for Faculty in 1998 (Resolution #99-4); and

WHEREAS there is a need to revise this policy to improve the consultation with the Faculty Council when appointing members to the policy advisory committee and to provide for the possibility of expanding the membership of that committee from time to time; and

WHEREAS the proposed revisions to the Financial Conflicts of Interest Policy for Faculty were approved by the University Senate at its February 8, 2007 meeting and are recommended by the President and the Executive Vice President and Provost:

NOW THEREFORE BE IT RESOLVED, That the Board of Trustees hereby adopts the attached revised Financial Conflicts of Interest Policy for Faculty, effective immediately.

(See Appendix XL for background information, page 931.)

March 1 and 2, 2007 meeting, Board of Trustees

REVISIONS TO THE FACULTY PROFESSIONAL LEAVE PROGRAM

Resolution No. 2007-101

Synopsis: Revisions to the Faculty Professional Leave Program are recommended to improve the benefit offered by this program.

WHEREAS pursuant to Ohio Revised Code Section 3345.28, the Board of Trustees adopted a Faculty Professional Leave Program in 1978 (Resolution #78-21) to provide for continued professional development for University faculty members; and

WHEREAS there is a need to revise this program to increase the paid leave benefit from one quarter to two quarters and to provide for non-continuous leave; and

WHEREAS the proposed revisions to the Faculty Professional Leave Program are recommended by the President and the Executive Vice President and Provost:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby adopts the attached revised Faculty Professional Leave Program, effective Autumn Quarter 2007.

(See Appendix XLI for background information, page 933.)

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 2007-102

Synopsis: Approval of the following amendments to the *Rules of the University Faculty* are recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the *Rules of the University Faculty* as approved by the University Senate; and

WHEREAS the proposed changes in the *Rules of the University Faculty* were approved by the University Senate on February 8, 2007:

Amended Rule

3335-6-03 Probationary service, and duration of appointments for tenure-track faculty.

(A) through (C) unchanged.

(D) Exclusion of time from probationary periods.

- (1) An untenured regular tenure-track faculty member ~~may exclude~~ will have time excluded from the probationary period in increments of one year to reflect the caregiving responsibilities associated with the birth of a child or adoption of a child under age six. ~~Requests to exclude time from the probationary period for this reason must be made within the year following the birth or adoption and prior to the beginning of the year in which the mandatory review for tenure must occur.~~ Department chairs or school directors will inform the office of academic affairs within

March 1 and 2, 2007 meeting, Board of Trustees

~~one year of the birth of a child or the adoption of a child under age six of a probationary faculty member unless the exclusion of time is prohibited by paragraph (D)(3) of this rule. The probationary faculty member may choose to decline the one-year exclusion of time from the probationary period granted for the birth or adoption of a child under six years of age by so informing her/his TIU head, dean, and the office of academic affairs in writing before August 1 of the new mandatory review year following granting of the declination. The exclusion of time granted under this provision in no way limits the award of promotion and tenure prior to the mandatory review year (see paragraph (D)(2) of this rule). The maximum amount of time that can be excluded from the probationary period for the per birth of a child event or adoption of a child children under age six is one year. Requests to exclude time from the probationary period made under the terms of this paragraph must be submitted to the chair of the tenure initiating unit for forwarding to the dean and to the office of academic affairs. Such requests will be approved unless they are prohibited by paragraphs (D)(3) or (D)(4) of this rule.~~

- (2) A probationary tenure-track faculty member may apply to exclude time from the probationary period in increments of one year because of personal illness, care of a seriously ill or injured person, an unpaid leave of absence, or factors beyond the faculty member's control that hinder the performance of the usual range of duties associated with being a successful university faculty member, i.e., teaching, scholarship, or service. Requests to exclude time from the probationary period made under the terms of this paragraph must be submitted to the chair of the tenure initiating unit. Requests shall be reviewed by the tenure initiating unit promotion and tenure committee which shall advise the tenure initiating unit chair regarding their appropriateness. Such requests require approval by the tenure initiating unit chair, dean, and executive vice president and provost. A request to exclude time from the probationary period for any of these reasons must be made prior to ~~the beginning~~ October 1 of the year in which the mandatory review for tenure must occur. The extent to which the event leading to the request was beyond the faculty member's control, the extent to which it interfered with the faculty member's ability to be productive, and the faculty member's accomplishments up to the time of the request will be considered in the review of the request.
- (3) Unchanged.
- (4) ~~The maximum amount of time that~~ Except in extraordinary circumstances a maximum of three years can be excluded from the probationary period for any reason or combination of reasons ~~is one year for an instructor, two years for assistant professor (including time spent as an instructor) and one year for an or associate professor except in extraordinary circumstances.~~ Exceptions require the approval of the tenure initiating unit chair, dean, and executive vice president and provost.
- (5) and (6) unchanged.

Balance unchanged.

March 1 and 2, 2007 meeting, Board of Trustees

NOW THEREFORE BE IT RESOLVED, That the foregoing amendments to the *Rules of the University Faculty* be adopted as recommended by the University Senate.

DISTINGUISHED SERVICE AWARDS

Resolution No. 2007-103

Synopsis: Approval of eight individuals to receive the University's Distinguished Service Award is proposed.

WHEREAS the President's Cabinet, upon the recommendation of the Committee on Distinguished Service Awards, nominated and recommended the following eight individuals for approval by the Board of Trustees to receive the Distinguished Service Award at a time convenient to the University and the recipient:

Herbert B. Asher
Ted A. Beattie
James F. Patterson
Patricia Duke Robinson
Thomas E. Robinson
William Rodney Sharp
Judith Eppstein Tuckerman
Paul E. Young, Jr.

WHEREAS these awards are given in recognition of distinguished service to The Ohio State University and the awards are in accordance with action taken by the Board of Trustees in 1952:

NOW THEREFORE

BE IT RESOLVED, That the Distinguished Service Awards be approved for awarding as designated above.

DEGREES AND CERTIFICATES – WINTER QUARTER COMMENCEMENT

Resolution No. 2007-104

Synopsis: Approval of Degrees and Certificates for Winter Quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on March 18, 2007, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

PERSONNEL ACTIONS

Resolution No. 2007-105

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the February 2, 2007 meeting of the Board, including the following Appointment, Appointment of Directors, Reappointment, Leave of Absence Without Salary, Professional Improvement Leaves, and Emeritus Titles, be approved.

Appointment

Name: JACK D. KASEY
Title: Associate Vice President and Chief Operating Officer
Office: Health Services and OSU Health System
Effective: March 12, 2007
Present Position: Managing Director, Navigant Consulting Inc.; Interim CEO of St. Mary's Hospital, Kankakee, IL

Appointment of Directors

REBECCA KANTOR-MARTIN, School of Teaching and Learning, effective January 1, 2007 through June 30, 2010

BRUCE A. KIMBALL, School of Educational Policy and Leadership, effective July 1, 2007 through June 30, 2011

DONNA L. PASTORE, School of Physical Activity and Educational Services, effective January 1, 2007 through June 30, 2010

Reappointment of Women's Head Basketball Coach

JAMES S. FOSTER, new 8 - year contract. Term of the contract: July 1, 2006 through June 30, 2014

Leave of Absence Without Salary

HELEN M. CHAMBERLIN, Associate Professor, Department of Molecular Genetics, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to pursue special training for professional development.

Professional Improvement Leaves

ULRICH W. HEINZ, Professor, Department of Physics, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

HOWARD J. MARCUM, Professor, Department of Mathematics (Newark), effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

OLLI H. TUOVINEN, Professor, Department of Microbiology, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

Professional Improvement Leaves—Change in Dates

CARL J. POLLARD, Professor, Department of Linguistics, change leave from Spring Quarter and Autumn Quarter 2007, and Winter Quarter 2008, to Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

KAZIMIERZ M. SLOMCZYNSKI, Professor, Department of Sociology, change leave from Winter Quarter, Spring Quarter, and Autumn Quarter 2007 to Winter Quarter and Spring Quarter 2007.

March 1 and 2, 2007 meeting, Board of Trustees

Emeritus Titles

WEN S. CHERN, Department of Agricultural, Environmental, and Development Economics, with the title Professor Emeritus, effective April 1, 2007.

DAVID W. DICKINSON, Department of Industrial, Welding and Systems Engineering, with the title Professor Emeritus, effective March 1, 2007.

NEIL E. SMECK, School of Environment and Natural Resources, with the title Professor Emeritus, effective March 1, 2007.

NOELLE VAN PULIS, University Libraries, with the title Associate Professor Emeritus, effective April 1, 2007.

MARY JO V. ARNOLD, University Libraries, with the title Assistant Professor Emeritus, effective March 1, 2007.

BARBARA J. CLEMENTS, Ohio State University Extension, with the title Assistant Professor Emeritus, effective April 1, 2007.

RESOLUTIONS IN MEMORIAM

Resolution No. 2007-106

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Neal J. Bailey

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 24, 2006, of Neal J. Bailey, Clinical Associate Professor Emeritus in the College of Optometry.

Professor Bailey held both a B.S. degree and a Ph.D. degree, in physiological optics, from OSU. He created the first contact lens teaching facility at Indiana University before returning to private practice in Columbus, Ohio, in 1958, where he also served as a clinical associate professor in the College of Optometry at Ohio State until being granted emeritus status in 1992.

Dr. Bailey testified before the U.S. Senate subcommittee on contact lenses and cleaning solutions, and was frequently called upon to serve as an expert witness in connection with soft contact lenses.

With the help of his wife, Florence Evelyn (Hansen), he created a very successful practice in a three-story home at 15th and High Streets, on Fraternity Row at the entrance to Ohio State. He gave this building to the University in a charitable remainder trust when he officially retired for the last time in 1996.

Professor Bailey is remembered for his wonderful sense of humor that made him a popular lecturer as well as a writer. He authored more than 120 articles and chapters on contact lenses and practice management, and was one of the first clinical investigators of soft contact lenses, writing extensively on their manufacturers, and the economics of optometry, eye health, and the contact lens industry. Many in the field trusted him and sought his counsel and advice. In May 1976 he was invited to become the first editor of the *Contact Lens Forum* that became the top publication in the contact lens field. He later was the

March 1 and 2, 2007 meeting, Board of Trustees

founding editor of *Contact Lens Spectrum* which subsequently absorbed the *Contact Lens Forum*. Today, the *Spectrum* continues to thrive.

Dr. Bailey brought distinction to his profession as demonstrated by his awards from every major professional organization in his field, including the Contact Lens Person of the Year Award by the American Optometric Association, the Max Shapero Memorial Lecture by the American Academy of Optometry, the Joseph Dallos Award from the Contact Lens Manufacturers Association, and the Kevin Tuohy Award from the Contact Lens Society. As recently as December 6, 2006, he received the Founders' Award from the American Academy of Optometry – Section on Cornea and Contact Lenses.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Neal J. Bailey its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Charles "Dan" McGrew

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 10, 2007, of Charles "Dan" McGrew, Professor Emeritus in the Ohio State University Extension.

Mr. McGrew was born April 21, 1905, in Kent, Ohio. He earned his Bachelor of Science in Agriculture degree in 1928 from The Ohio State University, and a Master of Science degree in agriculture from Cornell University in 1949.

Dan began his Extension career in Ohio in April 1929 as the County Agent-Agriculture in Paulding County. In 1931 he transferred to Trumbull County as the County Agent-Agriculture, and in 1946 became an Extension Specialist-Dairy Science. He held this position until his retirement on May 31, 1971.

Professor McGrew's contributions in providing Extension educational programs during his career proved that he was a truly dedicated teacher for Extension. He was regarded as an outstanding educator both in Ohio and throughout the United States for his knowledge of dairy science production. He served as the chairman of many production, marketing, and various breeding committees for the American Dairy Science Association. He served as the chairman of the County Extension Agents' Association in Ohio, as well as the Extension Professors' Association for OSU.

Dan's publication and magazine articles were rated as some of the top articles for Extension during his career. In 1970 he received the National DeLaval Extension Award from the American Dairy Science Association. He continued to attend many Extension and OSU events each year after retirement.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Charles McGrew its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

**AGREEMENT BETWEEN THE OHIO STATE UNIVERSITY AND
THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION**

Resolution No. 2007-107

Synopsis: Authorization for a continuing agreement with The Ohio State University Research Foundation for the acceptance and administration of research grants and contracts for the University is proposed.

WHEREAS in November 1936 The Ohio State University Research Foundation (OSURF) was established to promote the development, implementation, and coordination of sponsored research for The Ohio State University in furtherance of its educational mission; and

WHEREAS OSURF carries out this mission to the great benefit of the University; and

WHEREAS it has been the practice of OSURF to provide the Board of Trustees with a monthly report of research and other sponsored program grants and contracts entered into by OSURF during the previous month; and

WHEREAS the monthly report also contained a letter agreement which set forth the responsibilities of OSURF in accepting and administering these grants and contracts on the University's behalf; and

WHEREAS to streamline the reporting to the Board regarding OSURF's activities, there is a need for a continuing agreement between the University and OSURF to memorialize the conditions under which OSURF will apply for, accept, administer, and provide financial and compliance oversight services for sponsored program funding on behalf of the University; and

WHEREAS this agreement will include provisions that authorize and empower OSURF to:

- Submit proposals and accept agreements (grants, contracts, cooperative agreements and other instruments related to the conduct and administration of research and sponsored programs) on behalf of the University,
- Establish funded projects within the University's financial system in order to foster the timely and responsible conduct of sponsored programs,
- Procure and provide to the University materials, supplies, services and equipment necessary to conduct sponsored programs,
- Invoice sponsoring agencies and arrange for the reimbursement of the University for costs incurred and for work accomplished, pursuant to the terms of each sponsored project award, and submit all sponsor-required financial and administrative reports, and
- Provide review and oversight necessary for maintenance of federally approved systems and for ensuring compliance with sponsor and University requirements; and

WHEREAS as an entity affiliated with the University, OSURF submits periodic reports to the Board of Trustees Affiliated Entities Committee:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees authorizes the President and/or Senior Vice President for Business and Finance to enter into an agreement with The Ohio State University Research Foundation for administration of sponsored program grants and contracts on behalf of the University as outlined above; and

March 1 and 2, 2007 meeting, Board of Trustees

BE IT FURTHER RESOLVED, That under the direction of the Senior Vice President for Research, OSURF shall make an annual report to the Board of Trustees on all activities undertaken by OSURF on the University's behalf; and

BE IT FURTHER RESOLVED, That the Senior Vice President for Research shall include in the annual report on research to the Board of Trustees an update on activities undertaken by OSURF on the University's behalf; and

BE IT FURTHER RESOLVED, That monthly reports that would require action by the Board shall no longer be required from, nor submitted by, OSURF.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2007-108

Synopsis: The report on the receipt of gifts and the summary for January 2007 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of the Jacob E. Davis and Jacob E. Davis II Chair in Law and The Donald G. Jones, M.D. and Patsy P. Jones Designated Professorship in Obstetrics and Gynecology; and

WHEREAS this report includes the establishment of twenty (20) new named endowed funds and the revision of two (2) endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of January 2007 be approved.
