Molecular Spectroscopy Symposium Endowed Fund (Used to support a symposium and lecture series that will advance knowledge and increase education on the topic of molecular spectroscopy; provided by a gift from the International Symposium on Molecular Spectroscopy)	\$75,000.00
The Danny and Elaine Stergiou Family Athletic Scholarship Fund (Used to supplement the grant-in-aid scholarship costs of an undergraduate intercollegiate student-athlete who is a member of the OSU varsity men's hockey team; provided by a gift from Danny and Elaine Stergiou)	\$50,247.73
The Frederick and Patricia Lichtnesteiger Scholarship Endowment Fund (Used to provide scholarships for Columbus campus students pursuing any of the agricultural majors within the B.S. in Agriculture program or a B.S. in Food, Agricultural, and Biological Engineering; provided by gifts from Michael Lichtensteiger, David Lichtensteiger, Carol Lichtensteiger, Mary Lichtensteiger, Susan Lichtensteiger, Larry Lichtensteiger, Nancy Lichtensteiger, and Janet Lichtensteiger-Kelly)	\$50,000.00
The Lucas Family Scholarship Fund (Used to provide need-based scholarship support for students in the Moritz College of Law; provided by a gift from G. Robert Lucas and Roberta R. Lucas)	\$50,000.00
Alfred E. Stockum College of Medicine Scholarship Fund (Used to provide a scholarship in the College of Medicine for a first-year medical student based on academic merit or financial need; provided by gifts from Alfred Stockum and Mary Ann Stockum)	\$50,000.00
The United Insurance Service Athletic Scholarship Fund in Honor of Bill and Mary Felton (Used to supplement the grant-in-aid scholarship costs of an undergraduate intercollegiate student-athlete who is a member of an OSU varsity athletics team; provided by a gift from United Insurance Service of Tiffin, Ohio)	\$50,000.00
Will Eisner Endowment Fund for the Cartoon Research Library (Used to support a distinguished speakers program and research fellowships at the Cartoon Research Library; provided by gifts given in memory of Will Eisner from his wife Ann Eisner, family, and friends) (grandfathered)	\$28,588.00

March 1 and 2, 2007 meeting, Board of Trustees

David Citino Memorial Fund (Used to support undergraduate and graduate scholarships for travel abroad experiences for students in the Department of English and the Creative Writing Program; provided by gifts given in memory of David Citino from his wife Mary H. Citino, family, and friends) (grandfathered)	\$27,562.68
The Respiratory Therapy Scholarship Fund (Used to support scholarships for undergraduate and graduate students enrolled in the Division of Respiratory Therapy of the School of Allied Medical Professions who are intent on pursuing a respiratory therapy career; provided by gifts from Robert Charles Hawk and many friends and supporters of the Division of Respiratory Therapy) (grandfathered)	\$26,024.00
Cleo and Ella Toombs Medical Scholarship Fund (Used to support medical education by providing merit-based scholarships to historically underrepresented groups in the medical profession; provided by gifts from Dr. Ella Louise Toombs) (grandfathered)	\$25,333.34
Edward E. Brady Endowed Scholarship Fund (Used to provide merit and need-based scholarships for full-time undergraduate or graduate students who were residents of Crawford County, Ohio, at the time they graduated from high school and who are majoring in engineering at the Columbus campus; provided by gifts from C. Randolph Strauch in memory of Edward E. Brady) (grandfathered)	\$25,000.00
The Elizabeth G. Rossetti Cheerleading Scholarship Fund (Used to supplement the tuition costs of a student who is a member of the varsity cheerleading team; provided by gifts from Elizabeth G. Rossetti) (grandfathered)	\$25,000.00
The Upraka-Laga-Schweitzer Fund in Czech Studies (Used to defray the cost of tuition or other program costs for an undergraduate or graduate student of Czech language and culture; provided by a gift from Sharon Marie Schweitzer) (grandfathered)	<u>\$25,000.00</u>
Total	\$3,609,041.83

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Endowed Chair

Jacob E. Davis and Jacob E. Davis II Chair in Law

The Jacob E. Davis Professorship in Law Fund was established December 9, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Jacob E. Davis II. The funding level was reached and the professorship was established October 1, 1999. The name and description were revised March 4, 2005, to the Jacob E. Davis and Jacob E. Davis II Professorship in Law. The funding required for a chair position was reached and the professorship was changed to a chair March 2, 2007.

The annual distribution from this fund shall be used to support the work of a distinguished scholar and teacher in The Michael E. Moritz College of Law, with appointment to the Jacob E. Davis and Jacob E. Davis II Chair in Law to be recommended to the executive vice president and provost by the dean of the Moritz College of Law, for approval by the Board of Trustees.

March 1 and 2, 2007 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Chair: \$750,000.00 (grandfathered)

Establishment of Named Designated Professorship

The Donald G. Jones, M.D. and Patsy P. Jones Designated Professorship
in Obstetrics and Gynecology

The Donald G. Jones, M.D. and Patsy P. Jones Designated Professorship in Obstetrics and Gynecology was established March 2, 2007, by the Board of Trustees of The Ohio State University with annual gifts from Donald G. Jones, M.D. (Master of Medical Science, 1964) and Patsy P. Jones of Granville, Ohio.

This fund shall be used to support a distinguished professor within the Department of Obstetrics and Gynecology in the College of Medicine as recommended by the chairperson of the Department of Obstetrics and Gynecology in consultation with the dean of the College of Medicine. The designated professorship position shall be for a four-year period. The fund is renewable pending additional funding at the end of the four-year term. The activities of the designated professorship holder shall be reviewed by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University. Appointment to The Donald G. Jones, M.D. and Patsy P. Jones Designated Professorship in Obstetrics and Gynecology shall be recommended by the dean of the College of Medicine in consultation with the chairperson of the Department of Obstetrics and Gynecology and approved by the Board of Trustees.

Yearly Funding Amount: \$40,000.00
Total Commitment: \$160,000.00

Establishment of Named Endowed Funds

Edward R. Grilly Endowed Fund in Chemistry and Physics

The Edward R. Grilly Endowed Fund in Chemistry and Physics was established March 2, 2007, by the Board of Trustees of The Ohio State University with gifts from Edward R. Grilly (B.A., 1940; Ph.D., 1944) and his late wife, JuliaMarie Langham Grilly.

The annual distribution from this fund shall support a scholarship in the Department of Chemistry known as the Edward R. Grilly Graduate Scholarship in Chemistry and provide a scholarship in the Department of Physics known as the Edward R. Grilly Undergraduate Research Scholarship.

Seventy-five percent (75%) of the distribution will provide competitive scholarships for graduate students enrolled in the Department of Chemistry. The chairperson of the Department of Chemistry or his/her designee will determine the process for selecting the award recipients and will recommend recipients to

March 1 and 2, 2007 meeting, Board of Trustees

the dean of the College of Mathematical and Physical Sciences who will make the final selection.

Twenty-five percent (25%) of the distribution will provide competitive scholarships for undergraduate students majoring in physics who participate in research supervised by members of the Physics Department faculty. The chairperson of the Department of Physics or his/her designee will determine the process for selecting the award recipients and will recommend recipients to the dean of the College of Mathematical and Physical Sciences who will make the final selection.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Mathematical and Physical Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$230,000.00

Carl J. Cron Internship Fund

The Carl J. Cron Internship Fund in the Department of Materials Science and Engineering was established March 2, 2007, by the Board of Trustees of The Ohio State University with gifts from Charles R. Morin, Jr. (B.C.E., 1972; M.S., 1972).

The annual distribution from this fund shall support the development of future scientists and engineers interested in the use of the latest technologies to study physical and mechanical properties of engineering materials, with emphasis on modern corrosion research and testing methods, by funding an internship for a student in the Department of Materials Science and Engineering. The Cron Internship will be awarded annually by the chairperson of the Department of Materials Science and Engineering to deserving students who will work with the Department's modern instrumentation equipment during summer quarter.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$28,641.00 (grandfathered)

March 1 and 2, 2007 meeting, Board of Trustees

Change in Description of Named Endowed Fund

The Paul Ecke, Jr. Scholar Program Fund

The Paul Ecke, Jr. Scholar Program Fund was established February 2, 2007, by the Board of Trustees of The Ohio State University, with gifts from Paul Ecke III and the late Paul Ecke, Jr. (B.S., 1949). The description was revised March 2, 2007.

The annual distribution from this fund shall be used to provide stipends for junior or senior undergraduate students who work directly with faculty in the Department of Horticulture and Crop Science in the ornamental and floriculture area. The scholar program will consist of an annual competition, with students who have been awarded during their junior year re-applying during their senior year. The program will include a working experience in ornamentals and floriculture, including research and/or work in the Chadwick Arboretum and Learning Gardens.

Award recipients will be selected by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Horticulture and Crop Science and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Horticulture and Crop Science. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Change in Name and Description of Named Endowed Fund

The Robert L. Folk Academic Excellence Scholarship Fund in Medicine

The Robert L. Folk Academic Excellence Scholarship Fund was established March 2, 1990, by the Board of Trustees of The Ohio State University with gifts from various donors. The name and description were revised March 2, 2007.

The annual distribution from this fund shall be used to provide a scholarship to a medical student in the College of Medicine with an outstanding history of scholarship and achievement for excellence in his/her academic performance. The student may be at any level of medical study including an entering student. The award shall be based solely upon academic merit, although other considerations (such as College, University or community service or research efforts) may be considered when competing students have otherwise equal academic records. The selection shall be made by the recommendation of the dean of the College of Medicine in consultation with the associate deans for Student Affairs and for Medical Education, the president of the Medical Alumni Society, and with the College of Medicine Committee for Scholarship Awards and

March 1 and 2, 2007 meeting, Board of Trustees

the Office of Student Financial Aid, and in consultation with the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Medicine and by the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

THE OHIO STATE UNIVERSITY FOUNDATION

Establishment of Named Endowed Funds

Helen Haden Scholarship Fund

The Helen Haden Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Helen Haden.

The annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It was the donor's desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, students who are American citizens, who have been accepted for admissions at the University, and who are enrolled in The Michael E. Moritz College of Law. Furthermore, it was the donor's intention that the distribution be used in the following order: University fees and tuition, books, educational expenses and, last, for room and board, living expenses, and like expenses. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

Scholarship recipients shall be selected by the dean of the Moritz College of Law in consultation with the Moritz College's Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$1,619,913.83

March 1 and 2, 2007 meeting, Board of Trustees

The R & L Carriers Athletic Scholarship Fund

The R & L Carriers Athletic Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from R & L Carriers, of Wilmington, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete pursuing an undergraduate degree at The Ohio State University who is a member of the varsity football team. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$150,000.00

The Jack E. and Mary C. Short Athletic Scholarship Fund

The Jack E. and Mary C. Short Athletic Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Jack E. and Mary C. Short.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete pursuing an undergraduate degree at The Ohio State University who is a member of the varsity football team, as well as a graduate of an Ohio high school. Preference is given to a resident of the southwestern part of the State of Ohio. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director

March 1 and 2, 2007 meeting, Board of Trustees

of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$102,731.25

The Dennis S. Hoobler Athletic Scholarship Fund

The Dennis S. Hoobler Athletic Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from an admiring friend.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing a degree at The Ohio State University and is a member of the football team. First preference will be given to a student-athlete from Carroll, Stark, or Tuscarawas Counties, Ohio. Second preference will be given to a student-athlete from the State of Ohio. Scholarship recipients must be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$100,000.00

The Bernard M. and Helen Schneider Scholarship Fund

The Bernard M. and Helen Schneider Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with estate gifts from Dr. Bernard M. (B.A., 1936; M.A., 1936; M.D., 1940) and Mrs. Helen Schneider.

The annual distribution from this fund shall be used to provide scholarships for one or more students in the College of Medicine based on demonstrated leadership skills. Scholarships are renewable so long as the students continue demonstrating leadership skills and maintain good academic status. Scholarship recipients shall be selected by the dean of the College of Medicine in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so

March 1 and 2, 2007 meeting, Board of Trustees

diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$80,000.00

Molecular Spectroscopy Symposium Endowed Fund

The Molecular Spectroscopy Symposium Endowed Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from the International Symposium on Molecular Spectroscopy.

The annual distribution from this fund shall be used to support a symposium and lecture series that will advance knowledge and increase education on the topic of molecular spectroscopy. Expenditures from the fund shall be approved by the dean of the College of Mathematical and Physical Sciences in consultation with the chairperson of the Molecular Spectroscopy Symposium.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Mathematical and Physical Sciences in consultation with the chairperson of the Molecular Spectroscopy Symposium. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$75,000.00

The Danny and Elaine Stergiou Family Athletic Scholarship Fund

The Danny and Elaine Stergiou Family Athletic Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Danny (B.A., 1976) and Elaine (B.S., 1976) Stergiou of Dublin, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity men's ice hockey team and is pursuing an undergraduate degree at The Ohio State University. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

March 1 and 2, 2007 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment:	\$50,247.73
Total Commitment:	\$150,000.00

The Frederick and Patricia Lichtensteiger Scholarship Endowment Fund

The Frederick and Patricia Lichtensteiger Scholarship Endowment Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Michael Lichtensteiger (B.S., 1977; M.S., 1980; Ph.D., 1982), David Lichtensteiger (B.S., 1975), Carol Lichtensteiger (B.S., 1975; D.V.M., 1979), Mary Lichtensteiger, Susan Lichtensteiger (B.S., 1980), Larry Lichtensteiger (B.S., 1982), Nancy Lichtensteiger, and Janet Lichtensteiger-Kelly (B.A., 1985).

The annual distribution from this fund shall be used to provide scholarships for Columbus campus students pursuing any of the agricultural majors (agribusiness and applied economics, agricultural communication, agricultural systems management, agricultural education, animal sciences, or crop science) within the B.S. in Agriculture degree program or a B.S. in Food, Agricultural and Biological Engineering degree, with first preference for incoming students from Crestview High School of Convoy, Ohio; second preference for continuing students from Crestview High School of Convoy, Ohio; and third preference for continuing students from Van Wert County, Ohio. Scholarship recipients shall be selected by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the Office of Student Financial Aid. The College shall inform the Lichtensteiger family of the progress of selection of the candidates in a timely manner.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment:	\$50,000.00
--------------------------------	-------------

March 1 and 2, 2007 meeting, Board of Trustees

The Lucas Family Scholarship Fund

The Lucas Family Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from G. Robert Lucas (J.D., 1968) and Roberta R. Lucas (B.S., 1965) in memory of William B. Lucas.

The annual distribution from this fund shall be used to provide need-based scholarship support for students in The Michael E. Moritz College of Law at The Ohio State University. Scholarship recipients shall be selected by the assistant dean for Admissions and Financial Aid at the Moritz College of Law.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

Alfred E. Stockum College of Medicine Scholarship Fund

The Alfred E. Stockum College of Medicine Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Alfred Stockum (B.S., 1953; M.D., 1958) and Mary Ann Stockum of Columbus, Ohio.

The annual distribution from this fund shall provide a scholarship in the College of Medicine for a first-year medical student based on academic merit or financial need. Scholarship recipients shall be made by the recommendation of the dean of the College of Medicine in consultation with the senior vice president for Health Sciences; and with the College of Medicine Committee for Scholarship Awards and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Medicine. Any such alternate distributions shall be made in a

March 1 and 2, 2007 meeting, Board of Trustees

manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The United Insurance Service Athletic Scholarship Fund in Honor of Bill and Mary Felton

The United Insurance Service Athletic Scholarship Fund in Honor of Bill and Mary Felton was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from United Insurance Service of Tiffin, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of a varsity athletics team and is pursuing an undergraduate degree at The Ohio State University. First preference will be given to a student-athlete from the Ohio cities of Sandusky, Fremont, Findlay, Tiffin, Bellevue, or Upper Sandusky, or from Monroe, Michigan. Second preference will be given to any student-athlete from the Northwest Ohio region. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by The Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscious and need dictate.

Amount Establishing Endowment: \$50,000.00
Total Commitment: \$150,000.00

Will Eisner Endowment Fund for the Cartoon Research Library

The Will Eisner Endowment Fund for the Cartoon Research Library was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts in memory of Will Eisner from his wife Ann Eisner, family, and friends.

The annual distribution from this fund shall be used to support a distinguished speakers program and research fellowships at the Cartoon Research Library. Expenditures shall be approved by the curator of the Cartoon Research Library.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

March 1 and 2, 2007 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of University Libraries. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$28,588.00 (grandfathered)

David Citino Memorial Fund

The David Citino Memorial Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts given in memory of David Citino from his wife Mary H. Citino, family, and friends.

The annual distribution from this fund shall be used for, but not limited to, support of undergraduate and graduate scholarships and travel abroad experiences for students in the Department of English and the Creative Writing Program. Scholarship recipients will be selected by the dean of the College of Humanities in consultation with the chairperson of the Department of English and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Humanities. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$27,562.68 (grandfathered)

The Respiratory Therapy Scholarship Fund

The Respiratory Therapy Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Robert Charles Hawk (B.S., 1986) and friends and supporters of the Division of Respiratory Therapy.

The annual distribution from this fund shall be used to support scholarships for undergraduate and graduate students enrolled in the Division of Respiratory Therapy in the School of Allied Medical Professions who are intent on pursuing a respiratory therapy career. The selection of the recipients shall be made based on academic merit and achievement and at the recommendation of the director of the Division of Respiratory Therapy in consultation with the director of the School of Allied Medical Professions and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be

March 1 and 2, 2007 meeting, Board of Trustees

assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the School of Allied Medical Professions in consultation with the director of the Division of Respiratory Therapy. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$26,024.00 (grandfathered)

Cleo and Ella Toombs Medical Scholarship Fund

The Cleo and Ella Toombs Medical Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Ella Louise Toombs (M.D., 1981) of Washington, D.C.

The annual distribution shall be reinvested to principal until it reaches \$100,000; upon reaching this level, it will be used to support medical education at the University, consistent with the University's mission and admissions policy. It is the donor's desire that a merit-based scholarship be awarded annually to incoming students in furtherance of the diversity mission in support of College of Medicine efforts to increase the representation of students from groups historically underrepresented in the medical profession who have been accepted for admissions at the College of Medicine. The donor wishes to encourage the recipient to serve as a mentor to others who are considering a career in medicine.

Scholarship recipients will be selected by the associate dean for Admissions and Records in conjunction with the associate dean for Multicultural Affairs and the director of Financial Aid, College of Medicine, and in consultation with the dean of the College of Medicine and with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Medicine in consultation with the associate dean for Admissions and Records and in conjunction with the associate dean for Multicultural Affairs and the director of Financial Aid, College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,333.34 (grandfathered)

March 1 and 2, 2007 meeting, Board of Trustees

Edward E. Brady Endowed Scholarship Fund

The Edward E. Brady Endowed Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from C. Randolph Strauch (B.C.E., 1967) in memory of Edward E. Brady (B.C.E., 1970).

The annual distribution from this fund shall be used to provide one or more merit and need-based scholarships for full-time undergraduate or graduate students who were residents of Crawford County, Ohio, at the time they graduated from high school, who are majoring in engineering, and who are attending the Columbus campus. First preference shall be given to students majoring in structural or hydraulic engineering in civil engineering. Second preference shall be given to other civil engineering majors. Third preference shall be given to other engineering majors. Scholarship recipients should have demonstrated financial need and a 3.0 grade point average to qualify. Scholarships are renewable to a maximum of 15 quarters, provided the student maintains a 3.0 cumulative grade point average and continues to demonstrate financial need. Recipients will be selected by the dean of the College of Engineering and the chairperson of the Department of Civil and Environmental Engineering and Geodetic Science in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Engineering and the chairperson of the Department of Civil and Environmental Engineering and Geodetic Science. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Elizabeth G. Rossetti Cheerleading Scholarship Fund

The Elizabeth G. Rossetti Cheerleading Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Elizabeth G. Rossetti (B.S., 1985; M.A., 1987).

The annual distribution from this fund shall be used to supplement the tuition costs of a student who is a member of the varsity cheerleading team. Scholarship recipients will be selected by the Department of Athletics cheerleading coach in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be

March 1 and 2, 2007 meeting, Board of Trustees

assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Upraka-Laga-Schweitzer Fund in Czech Studies

The Upraka-Laga-Schweitzer Fund in Czech Studies was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Sharon Marie Schweitzer (B.A., 1984).

The annual distribution from this fund shall be used to defray the cost of tuition or other program costs for an undergraduate or graduate student of Czech language and culture at The Ohio State University. Preference will be given to students in a Czech study abroad program specifically in the Joza Upraka, Alphons Mucha, Dvorak, and Moravian regions of the Czech Republic. Scholarships shall be awarded in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Humanities in consultation with the chairperson of the Department of Slavic and East European Languages and Literatures. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

**APPROVAL TO ENTER INTO DESIGN AND CONSTRUCTION CONTRACTS,
AND A BUDGET CORRECTION**

Resolution No. 2007-109

APPROVAL TO ENTER INTO DESIGN CONTRACTS

DOAN HALL SINGLE PHOTON EMISSION CT INSTALLATION

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following projects:

Airport Rehabilitation – South Runway and Ramp (05-06 capital request)	\$7.8M	Development funds - Engineering & FAA Grant funds
Doan Hall Single Photon Emission CT Installation	\$.49M	Operating funds – Hospitals
OARDC – Branch Farm Improvements EORDC Office/Work Shop Facility (N/A)	\$.81M	General funds - OARDC
State of Ohio Computer Center – Computer Room Upgrades (N/A)	\$.40M - \$.50M	State funds
ULAR – Animal Environment Monitoring and Alarm System (N/A)	\$.64M	Development funds – Office of Research

WHEREAS in accordance with the attached materials, the University desires to correct the total budget for the following project:

Women's Softball Stadium	\$5.1M	Development funds
--------------------------	--------	-------------------

March 1 and 2, 2007 meeting, Board of Trustees

*Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project; renovation projects funded by internal office or departmental funds that are noted as "N/A" have not had separate capital project authorization because of their smaller size or because they arose unexpectedly between capital planning cycles.

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into design and construction contracts for the projects listed above, and reapproval for the Women's Softball Stadium, in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix XLII for background information and maps, page 937.)

SALE OF REAL PROPERTY

Resolution No. 2007-110

3.44 ACRES, LOCATED ON STATE ROUTE 621
OHIO AGRICULTURAL RESEARCH AND DEVELOPMENT CENTER,
POMERENE FOREST FACILITY
COSHOCOTON COUNTY, OHIO

Synopsis: Authorization of the sale of 3.44 acres, located on State Route 621, in Keene Township, Coshocoton County, Ohio, is requested.

WHEREAS the State of Ohio for the benefit of The Ohio State University owns real estate known as Pomerene Forest, in Coshocoton County, Ohio; and

WHEREAS the Three Rivers Fire District has approached the University to purchase land at the south end of the Pomerene Forest Facility to construct a building to house the township fire department; and

WHEREAS the appraised value of this property is \$11,000.00 per acre or \$37,840.00, and the property will be sold for the appraised value; and

WHEREAS the appropriate offices of the University have determined that the real estate is not necessary to support the mission of the University and this sale is in the best interest of The Ohio State University; and

WHEREAS the Ohio State legislature has enacted legislation authorizing sale and preparation of a Governor's Deed for transfer of the property:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance, through the Ohio Department of Administrative Services, be authorized to sell all of The Ohio State University's right, title and interest in this property in accordance with the laws of the State of Ohio, upon such terms and conditions as are deemed to be in the best interest of The Ohio State University, with the net proceeds being paid to The Ohio State University to benefit the Ohio Agricultural Research and Development Center (OARDC).

(See Appendix XLIII for background information and map, page 951.)

March 1 and 2, 2007 meeting, Board of Trustees

**SALE OF LAND AND GRANT OF TEMPORARY CONSTRUCTION LICENSE
TO THE CITY OF COLUMBUS**

Resolution No. 2007-111

INTERSECTION OF DEFIANCE DRIVE AND ACKERMAN ROAD
PARCEL 16WD, APPROXIMATELY 0.049 ACRES, COLUMBUS, OHIO

Synopsis: Authorization to sell vacant land containing 0.049 acres, more or less, and to grant a temporary construction license, at the intersection of Defiance Drive and Ackerman Road, to the City of Columbus, for the purpose of installing ADA ramps at the COTA bus stop is proposed.

WHEREAS The Ohio State University owns land along the south side of Ackerman Road at the intersection of Defiance Drive; and

WHEREAS the City of Columbus desires to purchase 0.049 acres, more or less, Parcel 16WD, and to have temporary access for construction purposes for the purposes of installing ADA ramps at the COTA bus stop; and

WHEREAS the City is performing this work under a Federally Funded Program that requires the City to own the property being improved and all work will be completed at the sole cost of the City to benefit the University, the University community, and the City; and

WHEREAS the appraised value of the property desired by the City is \$19,950.00 and the City has agreed to pay the University \$19,950.00 for the value of the University property needed for the project; and

WHEREAS the appropriate University offices have determined that the sale of property and the granting of a temporary construction license as requested by the City are in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Business and Finance be authorized to sell and grant a temporary construction license for the property described herein, giving temporary and permanent real property rights to the City of Columbus for the propose of installing ADA ramps at the COTA bus stop.

(See Appendix XLIV for background information and map, page 953.)

PURCHASE OF REAL PROPERTY

Resolution No. 2007-112

NINE (9) PARCELS
2404-2432 KENNY ROAD AND
2410 WOOD AVENUE
COLUMBUS, OHIO 43221

Synopsis: Authorization to purchase the property located at 2404-2432 Kenny Road and 2410 Wood Avenue, Columbus, Ohio 43221, is proposed.

WHEREAS this property has an appraised value range of approximately \$785,000.00 - \$800,000.00 and the owner, Merullo Realty Co., has entered into a real estate purchase contract to sell the property to the University for \$700,000.00; and

March 1 and 2, 2007 meeting, Board of Trustees

WHEREAS this property is located within the University's West Campus Acquisition Area and the appropriate University offices have determined that the purchase of this property would be in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to purchase nine parcels located at 2404-2432 Kenny Road and 2410 Wood Avenue and to acquire title of this property in the name of the State of Ohio for the use and benefit of The Ohio State University, upon such terms and conditions deemed to be in the best interest of the University.

(See Appendix XLV for background information and map, page 955.)

**EMPLOYMENT OF CONSULTANTS AND COMPLETION OF
SCHEMATIC DESIGN**

Resolution No. 2007-113

MEDICAL CENTER FACILITIES PLAN CLINICAL EXPANSION PROJECTS

Synopsis: Authorization to contract for external consulting services to review the Medical Center (OSUMC) Facilities Plan to ensure that the project plans are aligned with the physical, programmatic, and financial goals of the Medical Center and those of the University is requested.

WHEREAS in November 2005, the Board of Trustees adopted the 2005 Medical Center Facilities Plan and Project Cancer Expansion Plan; and

WHEREAS in November 2006, the Board of Trustees authorized the University to contract for executive design, programming and construction management services for these projects; and

WHEREAS the Medical Center Facilities Plan Clinical Expansion, estimated to cost approximately \$780 million, is a strategic initiative that will create a unique physical and intellectual environment that will enable the Medical Center to expand its services in meeting its research, clinical and education missions to achieve parity with top-quartile academic medical centers nationwide; and

WHEREAS to pursue this plan, the University desires to contract for consulting services to review the Medical Center Facilities Plan; and

WHEREAS the University will finalize the business, parking, and infrastructure plans for these Clinical Expansion projects before seeking Board of Trustees authorization to enter into individual project design and/or construction contracts; and

WHEREAS these actions are important to assure that the Medical Center will be able to continue to move forward in a way that is beneficial to the University, the community, and the State of Ohio:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into consulting contracts, in accordance with regular University procedures, for review of the Medical Center Facilities Plan to ensure that the project plans are aligned with the physical, programmatic, and

March 1 and 2, 2007 meeting, Board of Trustees

financial goals of the Medical Center and the University, as approved by the Board of Trustees; and

BE IT FURTHER RESOLVED, That design and construction for specific projects within the Clinical Expansion projects shall require separate Board of Trustees authorization at the appropriate time.

(See Appendix XLVI for background information, page 957.)

Upon motion of Mr. McFerson, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Davidson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Shackelford.

NAMING OF DRIVE

Resolution No. 2007-114

Synopsis: The naming of the campus street which runs from Olentangy River Road west past the Woody Hayes Athletic Center to the Jesse Owens Memorial Stadium, as Irving Schottenstein Drive, is proposed.

WHEREAS The Ohio State University is renovating the Woody Hayes Athletic Center to serve hundreds of students who participate on numerous athletic teams and represent The Ohio State University in its intercollegiate competitions; and

WHEREAS the late Irving Schottenstein was a civic and business leader in Central Ohio, serving on numerous boards including the Columbus Jewish Federation, the Columbus Jewish Foundation, the Leo Yassenoff Jewish Community Center, Big Brothers/Big Sisters, and The Columbus Torah Academy; and

WHEREAS the Irving Schottenstein family has been avid Buckeye fans for decades and has contributed generously to the Woody Hayes Athletic Center renovation project; and

WHEREAS the late Irving Schottenstein had a deep commitment to philanthropic efforts in Central Ohio and with The Ohio State University, including serving as a member of the National Campaign Executive Committee of The Affirm Thy Friendship Campaign for The Ohio State University:

NOW THEREFORE

BE IT RESOLVED, That, in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that this campus street be named "Irving Schottenstein Drive."

Upon motion of Mr. Wexner, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by voice vote, with fourteen affirmative votes and one abstention cast by Trustee Schottenstein.

March 1 and 2, 2007 meeting, Board of Trustees

**APPOINTMENT OF INVESTMENT MANAGERS AND
REALLOCATION OF FUNDS**

Resolution No. 2007-115

Synopsis: Approval of the Appointment of Investment Managers and reallocation of funds is proposed.

WHEREAS it is the policy of The Ohio State University to utilize the service of external Investment Managers to assist in the management of the University's Endowment Fund; and

WHEREAS the Investments Committee of the Board of Trustees periodically reviews the results obtained by the external Investment Managers and the amount of funds assigned to each of them; and

WHEREAS it is prudent practice to reallocate funds assigned to external Investment Managers as conditions change; and

WHEREAS the number of external Investment Managers and the amount of funds assigned to them shall be determined by the Board of Trustees; and

WHEREAS the Board of Trustees last approved the Appointment and Reappointment of Investment Managers on February 2, 2007:

NOW THEREFORE BE IT RESOLVED, That upon the recommendation of the Investments Committee of the Board of Trustees the following changes shall be made:

	<u>Allocation as of 1/31/07</u>	<u>Changes</u>	<u>Revised Allocation</u>

Judge Duncan:

Last month the Board approved procedures for the election of the chair of the Board of Trustees and those changes are captured in resolution #19, which is before you for approval.

**PROCEDURES FOR ELECTION OF THE CHAIR
OF THE BOARD OF TRUSTEES**

Resolution No. 2007-116

Synopsis: Amendment of Board of Trustees Bylaw 3335-1-02 for the election of the Chair of the Board of Trustees to codify the determinations made by the Board at its February 2007 meeting is proposed.

WHEREAS Bylaw 3335-1-02 provides for the election, term of office, and qualifications of the Chair of the Board of Trustees; and

WHEREAS with changes in the structure and organization of the Board, there is a need to revise the procedures for the election of the Chair, and the Board took action to develop new procedures at the February 2, 2007 meeting, subject to codification of these procedures at the March 2007 meeting:

NOW THEREFORE

BE IT RESOLVED, That Bylaw 3335-1-02 is hereby amended as follows:

1. Each voting Trustee shall be eligible for election as Chair of the Board.
2. The Chair of the Board shall be elected for a two-year term and, subject to the review provided for below, may be eligible to serve a third year.
3. Before the end of the first year and of the second year of the term of the Chair, a proposed Board of Trustees Committee on Trusteeship shall conduct a review of the Chair, and after consultation with the members of the Board, shall recommend to the Board whether an election for Chair shall be held that year.
4. Election of the Chair shall require a majority vote of all Trustees then in office and eligible to vote.
5. Election for the Chair of the Board to serve during 2007-08 shall be conducted at the March 2007 Board of Trustees meeting, with the Chair-elect to serve in that capacity from the March meeting through the May meeting, and take office as Chair at close of the May 2007 meeting.

March 1 and 2, 2007 meeting, Board of Trustees

BE IT FURTHER RESOLVED, That these changes are effective immediately and the Secretary of the Board of Trustees is hereby authorized and directed to incorporate these changes into the applicable sections of the Bylaws of the Board of Trustees.

Upon motion of Mr. Shumate, seconded by Mr. O'Dell, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Davidson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Shackelford.

Judge Duncan:

At this time, I would like to read the Ad Hoc Nominating Committee's Report submitted by Karen Hendricks, chair of that Committee:

**REPORT AND RECOMMENDATION OF THE AD HOC
NOMINATING COMMITTEE**

As chair of the Ad Hoc Nominating Committee, I respectfully submit this report and recommendation on behalf of the members of the Committee. They are: Jo Ann Davidson, Brian Hicks, John Ong, Alex Shumate, and myself.

First, our process. Understanding that it is the charge of this Committee to gather information relevant to the profile of the chair, to identify a candidate or candidates for that position, and to make a recommendation to the Board that would assist it in making its selection at a meeting of the full Board, one of our first tasks was to review the Chait Governance Committee's recommendations for the attributes desirable in the next chair of OSU's Board of Trustees. The question posed to the Committee was "Are these the attributes necessary in the next chair of the Board of Trustees?" Those attributes are: collaborative, inclusive, consensus builder; objective, puts the University and Board before self; effective communicator; encourages open, candid, and productive dialogue among all Board members; advances good governance practices; willing to invest time necessary for performance of duties; and tireless advocate for the University.

After a thorough discussion, it was unanimously agreed by the members of the Ad Hoc Nominating Committee that these were indeed the attributes necessary in the next chair of the Board of Trustees, and that these attributes should guide all aspects of our work.

Next, as chair of the Ad Hoc Nominating Committee and with the support of the members of the Committee, I conducted conversations with members of the Board of Trustees. In these conversations, I sought their perspectives on Board leadership.

Finally, the Committee met to review the perspectives shared and to nominate a member of the Board to serve as its next chair.

As a result of those activities, understanding that all voting members of the Board would continue to be eligible for nomination from the floor, and based upon the attributes identified by the Chait Governance Committee and embraced by the members of the Committee, the Ad Hoc Nominating Committee unanimously places the name of Dr. G. Gilbert Cloyd in nomination as the next chair of the Board of Trustees of The Ohio State University.

March 1 and 2, 2007 meeting, Board of Trustees

It is the collective opinion of the Ad Hoc Nominating Committee that Dr. Cloyd both possesses all of the attributes desirable in the next chair, and, more importantly, has demonstrated each and every one of these qualities through his Board service to date. Dr. Cloyd has earned the confidence of the entire Board of Trustees and has demonstrated that he consistently places the interests of the University and the Board before his own.

This is a critical time for The Ohio State University. The University has before it some of the most significant opportunities ever presented in its history; it also faces significant challenges. Moreover, we are about to hire a new president, and the Board is continuing to implement a new governance process. He can serve as a neutral convener and unifier of Board members' thoughts, interests, and objectives. In sum, Dr. Cloyd possesses all of the attributes necessary to successfully lead the Board of Trustees in providing the administration with a sense of purpose and direction that reflects the interests of the varied stakeholders in the future of this great institution.

Mr. Wexner:

I would like to second the nomination and I would like to move that we unanimously support the work of the Committee and their recommendation.

Ms. Shackelford:

I would like to second that motion.

Judge Duncan:

I have a motion and a second to accept the Nominating Committee's recommendation of Dr. G. Gilbert Cloyd as the Board's next chairman. I would like to ask the Board members for a show of hands in accepting this recommendation.

It is unanimous. Dr. G. Gilbert Cloyd has been elected the next chairman of the Board, to take office immediately after the May 4, 2007, Board meeting. Congratulations, Dr. Cloyd.

Dr. Cloyd:

Thank you.

--0--

Thereupon the Board adjourned to meet Friday, April 6, 2007, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

THE PLAIN DEALER

Who Chomps the funding?

It took less than a month for Ohio State University to enjoy a small amount of revenge against the school that crushed the Buckeyes' national football championship dreams. The University of Florida ruled the field on Jan. 8, but OSU is winning the battle of the bucks. The state's flagship public university this year continued its steady climb up the rankings for research spending. In fiscal 2005, the most recent year available, OSU ranked 12th among all institutions, public and private—a three notch leap over 2004 that put it ahead of places like Cornell University and the Massachusetts Institute of Technology. Not surprisingly, the University of Michigan ranked ahead of Ohio State in 2005. UM ranked second among all schools—and first among the publics. OSU was No. 8 among publics with Florida at No. 12. Even better for Ohio, OSU has more than doubled its research dollars since 1997 to \$609 million from \$289 million. That spending translates to thousands of jobs: OSU puts the number at nearly 20,000, while other economic models say the total could be as high as 31,000. College football fans may not be comforted, but if the research pace continues, Ohioans will see still more jobs and dollars.

Big ideas

OSU is assuming growing importance as research center

Ohio State University's status as a research institution is like a snowball rolling down a hill, growing and picking up speed: The more prominent and prestigious OSU becomes, by making big discoveries and helping companies to design useful products, the more funding it picks up to do even more research.

Last week, the National Science Foundation released its ranking of U.S. research universities, measured by the amount of money spent on research for the year, and OSU is ranked eighth among public institutions. In 2005, the university spent \$609 million on research. Among all universities, public and private, OSU is ranked 12th.

OSU's ability to do applied research. The latest ranking was based on 2005 numbers, but OSU had an even better 2006, when it spent \$652 million on research.

The university also announced last year that it would be dedicating \$110 million to major research projects to address fundamental concerns, including preventing cancer, finding sources of clean energy and maintaining enough fresh water to sustain life.

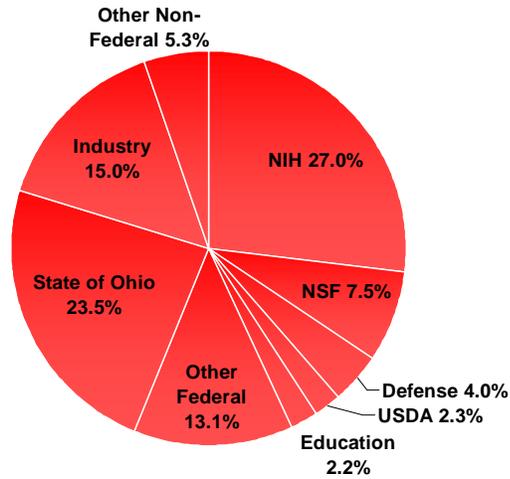

Around 4,000 research projects are taking place at OSU. Not only are graduate students helping out, but hundreds of undergraduate students in various fields are enriching their educations by participating.

They benefit by learning directly from the experts.

And of course, the very best professors and researchers want to be a part of an organization that supports

Ohio State ranks third nationally in industry funded research

FY 2006 Research Awards by Unit

Notable Research Rankings for 2005

- 12th among all universities, public and private (15th in 2004)
- 8th among public institutions (9th in 2004);
- 3rd in industrially sponsored research (up from 6th);
- 3rd in materials science & engineering (no change);
- 9th in Social Sciences (5th in 2004);
- 9th in Computer Science (12th in 2004);
- 10th in Mathematical Sciences (12th in 2004);
- 10th in Engineering (12th in 2004);
- 25th in Medical Sciences (up from 47th in 2004)
 - \$199 million in '05 - an increase of \$91 million in one year;
 - \$61 million of this dramatic increase represents real growth;
 - \$30 million reflects more careful categorization and reporting of our activities.
 - For 2006, our Medical Sciences total is \$223M, an additional increase of 12%.

Exciting New Proposal Example: Center for Clinical and Translational Science

Leadership and Participants:

- Co-PIs: Rebecca Jackson MD, William Malarkey MD, John Barnard MD
- More than 60 clinical and basic research investigators will develop and apply new knowledge and techniques for patient care
- OSU faculty participants come from the Colleges of Medicine, Dentistry, Nursing, Optometry, Pharmacy, Veterinary Medicine and Public Health
- Columbus Children's Research Institute (CCRI) is a key partner and the CCTS award is equally essential to their continued success in clinical and translational science and research

Fiscal Parameters for this Proposed 5-year Award:

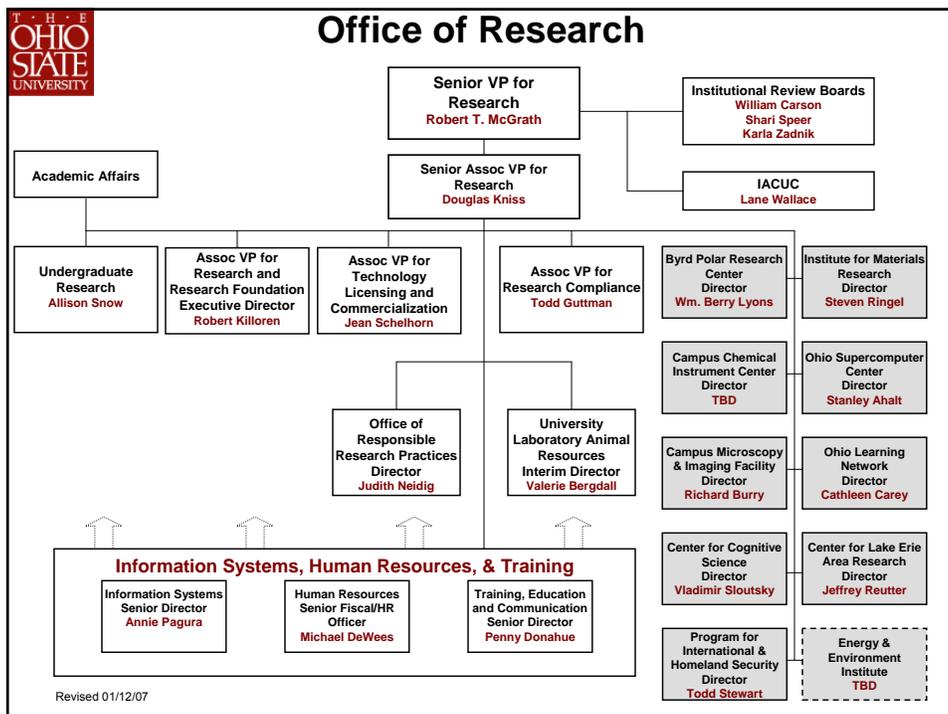

- \$52 million from NIH
- \$12.25 million in institutional matching contributions from:
 - ODOD Research & Development Cost Share Program
 - Ohio State - College of Medicine, President's, Provost's and Research Offices
 - Columbus Children's Hospital

Targeted Investments in Excellence (TIE)

The following programs will share \$110 million of University investment over the next five years.

- Climate, Water and Carbon
- Mathematical Biosciences Institute
- Public Health Preparedness Program
- Center for Cosmology and Astro-particle Physics
- Center for Clean Sustainable Energy
- Advanced Materials Institute
- Population and Health Initiative
- Translational Plant Sciences Initiative
- The Music Industry Program
- Micro-RNA Project

Center for Clean Sustainable Energy

- Professor L.S. Fan holds numerous patents for liquid fuels from coal and the related reduction of hydrocarbon emissions.
- Professor Umit Ozkan is known for her catalysis research on clean use of coal and hydrogen fuel technologies.

A pioneering bio-energy research facility is under construction on the Wooster campus. It will provide an important boost to converting food-processing and agricultural waste into clean, renewable energy.

The OSU Internationally recognized *Center for Automotive Research* opened Ohio's first hydrogen fueling station (one of 15 nationwide) enabling transportation demonstrations with prototype fuel cell powered vehicles.

Advanced Materials Initiative

- Professor Steve Ringel's high performance, light-weight Solar Cells operated flawlessly on the International Space Station.
- In Dec. 07, in partnership with the University of Toledo, the OSU Photovoltaic Program received \$6.8 M in Third Frontier Funding.

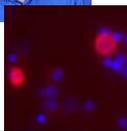

- Dr. Hamish Fraser partners with FEI and AFRL on development & utilization of the world's highest resolution, commercially-available scanning transmission electron microscope.
- With resolution of 0.06 nm, the instrument routinely provides images of individual atoms and molecules, enabling faster and more cost effective development of new materials.

Dr. Jeff Chalmers is using Magnetic Cell Separation Technology for Early Cancer Detection

- His team isolates breast cancer cells (red) from normal blood (blue)
- Start-up Partners: SHOT, Inc., IKOTech, and Columbus NanoWorks
- \$3.5 M from Third Frontier and \$3.5 M from industry

THE OHIO STATE UNIVERSITY
FINANCIAL CONFLICTS OF INTEREST POLICY
FOR FACULTY

I. PREAMBLE

Faculty at The Ohio State University accept an obligation to avoid financial conflicts of interest in carrying out their professional work. This policy is intended to assist faculty members, including administrators with faculty appointments, in avoiding these conflicts. The patterns of administration of tenure initiating units and colleges may include conflict of interest policies specific to their mission composition, and sources of funding.

II. STATE AND FEDERAL LAWS AND REGULATIONS

Federal regulations require the University to adopt a policy governing conflicts of interest in research. In addition, faculty members should be aware that they are also subject to various provisions of Ohio law governing ethics and conflicts of interest in public employment. For example, as a general rule, a university employee may not have an interest in a contract involving the university. In addition, an employee may not use his or her authority or influence to obtain a contract between the university and a family member or business associate of the employee. A university employee may not accept compensation for the performance of his or her university duties from any person or entity other than the university. Finally, the Ohio Ethics Law prohibits university employees from accepting anything of value that will exert a substantial and improper influence upon them with respect to their university duties. Additional information about the requirements of Ohio law may be obtained by consulting the Office of Legal Affairs.

III. POLICY ADVISORY COMMITTEE

In consultation with the Executive Committee of Faculty Council, the Provost shall appoint a Conflicts of Interest Policy Advisory Committee composed of a minimum of six members, two from colleges in the health sciences, two from colleges in the arts and sciences and two from professional colleges (Business; Education and Human Ecology; Engineering; Food, Agricultural and Environmental Sciences; ~~Human Ecology~~; Law; Social Work). This committee shall periodically review the operation of this policy and make recommendations for change as needed. In addition, the Provost shall consult with the committee regarding particularly difficult or complicated conflict of interest situations.

IV. DEFINITION

For purposes of this policy, a financial conflict of interest exists if financial interests or other opportunities for tangible personal benefit may exert a substantial and improper influence upon a faculty member or administrator's professional judgment in exercising any university duty or responsibility, including designing, conducting or reporting research.

V. POLICY

Faculty members, including administrators with faculty appointments, are expected to review their professional activities to determine if conflicts of interest may exist, and to avoid activities that entail or create a conflict of interest.

If a faculty member is engaged in externally funded research, performs consulting, or has other business interests that may create conflicts of interest, the faculty member shall report and manage the activity in a way that will avoid any conflict. The procedures for reporting and managing such activities shall be

promulgated by the Office of Academic Affairs in consultation with the Conflict of Interest Policy Advisory Committee. If the activity cannot be managed to avoid the conflict, the faculty member must refrain from participating in the activity. Examples of situations that might entail or create a conflict of interest are presented below. The examples are by no means exhaustive, and are provided only as samples of some commonly encountered situations.

- Having significant involvement and/or financial interest in an entity that does business with the University.
- Participation in research that is funded by an entity in which the faculty member or the faculty member's family is involved or hold a significant financial interest.
- Entering into consulting agreements that purport to transfer to a private entity intellectual property that belongs to the University. (See the University's Policy on Patents and Copyrights for further detail.)
- Use of one's professional expertise to provide services that compete with services provided by an academic entity within the University.

The University encourages faculty authorship of instructional materials and does not discourage the use of such materials in courses in the faculty member's department. However, every academic unit should establish a policy appropriate to its circumstances that ensures that instructional materials are selected on their academic merit and also ensures that there is no significant conflict of interest or appearance of conflict of interest in the selection of such materials.

This policy shall apply to ongoing and future activities, research grants, projects or programs but not to completed purchases, past transactions or past research grants. The latter are subject to applicable University policies in place at the time these activities were undertaken.

Failure to comply with this policy may result in the filing of a complaint against the faculty member under Faculty Rule 3335-5-04. If the conflict of interest involves a research project administered by the University, whether or not that administration is through the Ohio State University Research Foundation, any action legally required by the funding agency will also be taken.

IX. FACULTY DEVELOPMENT
Faculty Professional Leave
Updated 11/21/2006
[FPL Application Form rev. 8/5/05]

The Ohio State University Board of Trustees approved a Faculty Professional Leave Program for this institution on 9/9/77 (Resolution No. 78-21) based on Statute 3345.28 of the [Ohio Revised Code](#). The Board Resolution requires each college and tenure initiating unit (TIU) to establish formal criteria and procedures for reviewing the merits of proposals submitted from faculty in their units. It is essential that there be careful planning and rigorous peer review of FPL proposals and that the approved purpose for these leaves be strictly fulfilled.

Faculty Professional Leave proposals generally emphasize enhancement of research skills and knowledge. However, an FPL may be used for substantial investment in pedagogical or administrative skills and knowledge when these are judged to be mutually beneficial to the faculty member and his or her academic unit.

The FPL program was created to give faculty a period of uninterrupted time to invest in their professional development. Activities that entail little or no investment in new skills and knowledge are not appropriate for the program. In addition, faculty should restrict other employment activity during a leave to that which clearly enhances the purposes of the leave. (Also see COMPENSATION below.)

In evaluating FPL proposals, departments and colleges should place greatest weight on the merits of the proposal in light of the professional development of the faculty member and the advancement of the academic mission of the department and college. Although there are many advantages to spending the FPL at another university or in industry or at some other appropriate institution, such an appointment is not essential if the plan for the leave is meritorious in its own right.

TIMING

The Faculty Professional Leave (FPL) Program should be considered for any period of intensive study or research not to exceed one academic year.

- A multi-quarter FPL need not be for a continuous period and may bridge an off-duty quarter or semester.
- An SRA and an FPL may occur in contiguous on-duty quarters or semesters (including Spring-Autumn). An FPL will not be granted for less than one quarter

ELIGIBILITY

Statute 3345.28 of the [Ohio Revised Code](#) specifies that only tenured faculty with at least seven years of service as a regular faculty member at Ohio State are eligible for a Faculty Professional Leave at this institution. Years of service at another university and years served in auxiliary appointments cannot be credited toward the required years of service at Ohio State.

Definition of a "year of service" per Board Resolution No. 78-21: *"Academic year of teaching service" shall mean any academic year in which the full-time faculty member, while in such status, whether on nine months or eleven months appointments, had significant responsibilities to an instructional unit or units of the University.*

When a faculty member has taken one or more unpaid Leaves of Absence (LOA) in the course of a seven year period, the years of service will be calculated according to the following guidelines, applicable both to 9- and 12-month faculty. In calculating seven years of service:

An academic year counts as **one full year of service** if the faculty member was on **full-time duty at least two quarters or one semester** of that year.

Situations when a faculty member holds less than a full-time appointment will be resolved on a case by case basis by the Office of Academic Affairs.

A faculty member who takes an FPL, regardless of its duration (one or two semesters or one, two or three quarters), becomes eligible again only after completing an additional seven years of service at Ohio State after the last term of the FPL has been completed.

COMPENSATION

QUARTERS on leave Salary reduction

1 or 2 No reduction

3 or 4..... 1/3 over the year

SEMESTERS on leave Salary reduction

1 No reduction

2..... 1/3 over 2 semesters

The salary as calculated above represents *the total amount that may be earned from Ohio State general funds*. Thus departments and colleges may not rehire faculty during the period of their FPL leave to teach or to engage in other supplementally compensated activities.

The FPL application should describe any *non Ohio State* compensation that the faculty member will receive during the period of the FPL. Double compensation is illegal under Ohio law; thus faculty cannot be paid twice for the same work--once by the University and once by an external body. The Board of Trustees statute permits faculty on FPL for longer than one quarter to augment their leave stipend with funds from external sources such as research grants, provided that:

- The activity to be compensated supports the purposes of the FPL.
- The combined external support and reduced leave stipend *do not exceed the level of the regular annual salary*.

In the event that external support funds are available that produce a salary higher than the regular annual salary, the excess must be used to reimburse the University for its costs.

When a faculty member documents substantial increased living costs necessitated by the leave, an exception to this policy may be made with the approval of the appropriate dean and the provost.

Colleges may create, with the approval of the Office of Academic Affairs, competitive programs for replacing, from non general funds sources, some or all of the reduced salary associated with an FPL.

FACULTY OBLIGATIONS

As part of the application process, faculty are required to sign a three-part statement that:

- They understand and accept their obligation to return for a full year of service to the university following completion of the FPL.
- They understand that supplemental compensation, or other compensation from university general funds, is not permitted during an FPL.
- They are required to submit a written report (see below) of goals and accomplishments within 60 days of the date of their return to service.

[FPL Application PDF](#) or [FPL Application Word](#) [rev. 8/5/05]

FPL REPORT

The FPL Report form [FPL Report PDF](#) or [FPL Report Word](#) is NOT required so long as the requested information—a **brief summary of goals and accomplishments**—is submitted. Please send to the attention of Bobbie Houser by any of the following methods:

- CAMPUS MAIL—203 Bricker Hall, 190 North Oval Mall
- FAX—614-292-3658
- E-MAIL—Houser.73@osu.edu (report may be either in the body of the message or attached as a WORD document)

The report is ordinarily copied to the TIU head and college dean or regional campus dean if applicable; however, the TIU and college may ask for a more detailed report than the brief summary required by OAA.

APPROVALS NEEDED FOR FACULTY PROFESSIONAL LEAVE

COLUMBUS CAMPUS

- TIU head
- College dean
- Office of Academic Affairs
- Board of Trustees

REGIONAL CAMPUS

- Regional campus dean
- TIU head
- Office of Academic Affairs
- Board of Trustees

[FPL Application PDF](#) or [FPL Application Word](#) [rev. 8/5/05]

The college or regional campus sends to the Office of Academic Affairs (OAA):

1 ORIGINAL + 1 COPY of the complete application including all attachments, except Item 13 (*Curriculum Vitae*)--**SUBMIT ONLY 1 CV**.

Proposals should reach OAA **at least two (2) months prior to the start of the proposed leave**. Individual colleges and regional campuses may establish their own deadlines for reviewing FPL proposals.

The Office of Academic Affairs will approve FPL proposals that are consistent with the technical requirements of the program and that have been approved by the TIU head and college dean or regional campus dean. Once approved by OAA, leaves are recommended to the Board of Trustees for final approval. OAA

notifies the college dean or regional campus dean when Board approval has been granted.

Regional campus proposals are reviewed and approved first by the regional campus dean and then forwarded to the TIU head for approval. The proposal is then returned by the TIU to the regional campus, which is responsible for submitting the leave application to the Office of Academic Affairs. The college office in which the TIU is located is notified, but is not directly involved in the approval process.

CHANGES IN TIMING OR CANCELLATION

The State of Ohio annually monitors the timing and completion of Faculty Professional Leaves. FPLs are a matter of public record; therefore faculty members may not cancel or change the timing of a leave without submitting a written request for the change through the same levels of approval listed above.

- **No special form is required to change or cancel an FPL but the request must be made in writing.**
- The faculty member submits a written explanation to the TIU head or regional campus dean, which is directed to the Office of Academic Affairs after signatures of concurrence at the next level have been added.
- OAA submits the change or cancellation to the Board of Trustees for final approval as a matter of public record and notifies the college dean or regional campus dean when Board approval has been granted.
- Changes in timing may occur prior to the start of the leave or during the leave.

Doan Hall Single Photon Emission CT Installation

315-07-1501

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): Doan Hall, Charles Austin

363,616 ASF/669,869 GSF Age: 1951

Description:

This project will renovate two rooms in Doan Hall for the installation of a new Single Photon Emission Computed Tomography scanner.

Location(s): Various Locations, Franklin County

ASF/O GSF Age:

Description:

This project includes the repair of the south runway, ramp and relocation and upgrade of the air guidance system.

Project Information:

Due to increased FAA funding the total funds available has increased from \$4,602,815 to \$7,759,331 which allows the project to cover additional rehabilitation work including the relocation and upgrade of the guidance system which will also meet FAA revised standards.

How does this project advance the Academic Plan? This project will enhance operational safety at the airport.

Outstanding Funding Issues: This project will be funded by a FAA grant and matching funds from College of Engineering. The project needs to have a bid result back by August 1, 2007 to meet FAA grant application deadline.

Timing Issues: None

"Ripple effects" of the project: None

Women's Softball Stadium

315-2005-998

Requesting Agency(s): ATHLETICS

Location(s): See Project Information

ASF/0 GSF Age:

Description:

This project will construct a softball stadium for varsity women's athletics with seating for 1,500-2,000 spectators. Support spaces will include, but are not limited to, home and away locker rooms, home team lounge, umpire locker rooms, press box, public restrooms and concessions.

Project Information:

The project scope was increased during design to accommodate amenities that are necessary for a fully-functional facility but had not been identified in the feasibility study, including storage space; additional restroom areas; coaches support; and building support spaces.

How does this project advance the Academic Plan? The greatly improved facilities will benefit the experience of current student athletes and aid in the recruiting process for future student athletes. A new facility will also allow the University to comply with the NCAA Title IX program requirements.

Outstanding Funding Issues: None

Timing Issues: Construction must occur during the off-season, from mid-summer to early spring, and must be complete by the 2008 softball season, beginning in March 2008.

SALE OF REAL PROPERTY

3.44 ACRES, LOCATED ON STATE ROUTE 621
OHIO AGRICULTURAL RESEARCH AND DEVELOPMENT CENTER,
POMERENE FOREST FACILITY
COSHOCTON COUNTY, OHIO

Background

Location and Description

The property is located at the Ohio Agricultural Research and Development Center (OARDC), Pomerene Forest Facility, which consists of 97.36 acres and includes 3.44 acres, located on State Route 621, in Keene Township, Coshocton County, Ohio. This property is at the south end of the Pomerene Forest Facility. The property is not part of the active education and research activities of OARDC at the Pomerene Facility. The property is separated from the Pomerene Forest Facility by a significant tree line and ridge.

The Three Rivers Fire District approached the University to purchase 3.44 acres to construct a new and larger township fire house. The location of the property provides access to major thoroughfares and improves the response time of the township fire department. This will benefit the University and the surrounding community.

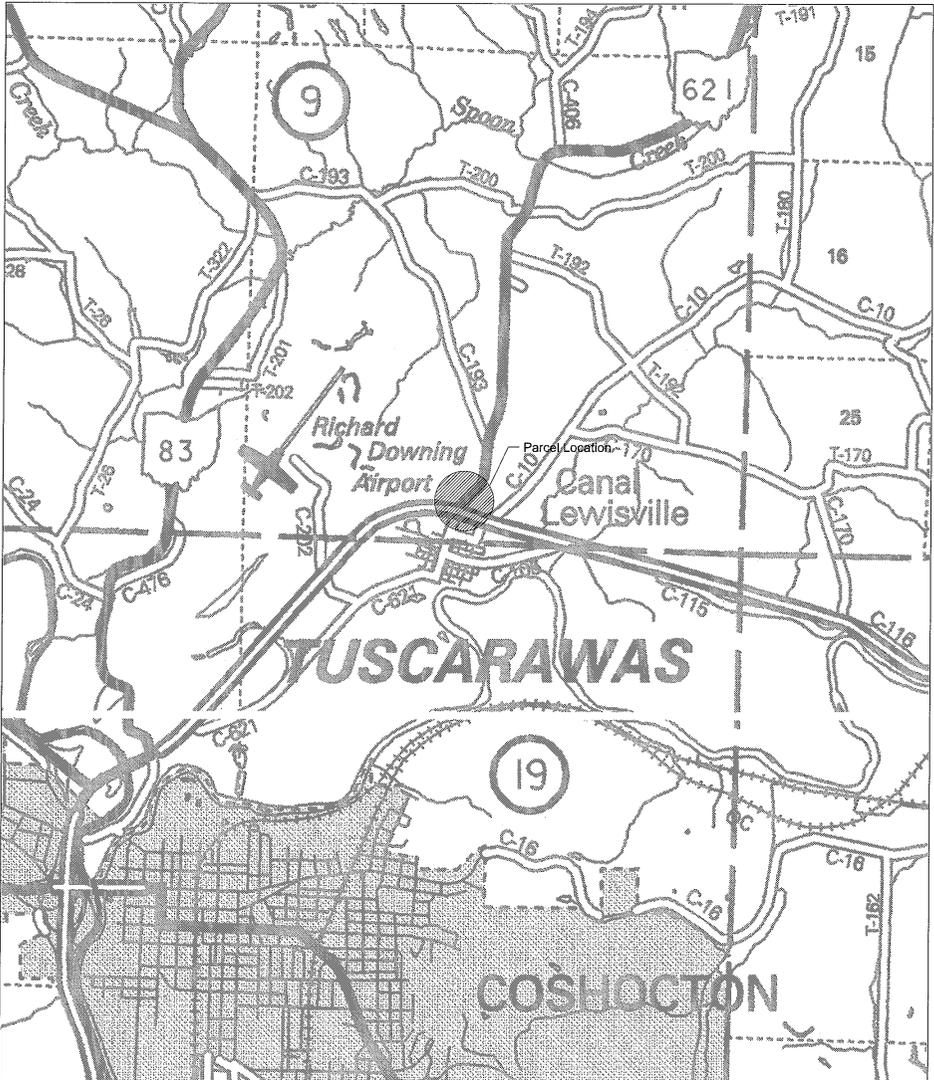

Legislation approving the sale and authorizing a Governor's Deed has been passed by the state legislature. Execution of the deed and completion of the sale remain conditioned upon Board approval.

Appraisals and Consideration

Charles G. Snyder conducted an appraisal and as of May 12, 2006 valued the property at \$11,000.00 per acre or \$37,840.00. The purchase price for the transfer of the property is \$37,840.00. OARDC will receive the proceeds of the sale. We have deemed this purchase in the best interest of the University.

Sale of Real Estate, 3.44 Acres Pomerene Forest, Coshocton, Ohio

**SALE OF LAND AND GRANT OF TEMPORARY CONSTRUCTION LICENSE
TO THE CITY OF COLUMBUS**

INTERSECTION OF DEFIANCE DRIVE AND ACKERMAN ROAD
PARCEL 16WD, APPROXIMATELY 0.049 ACRES, COLUMBUS, OHIO

Background

Location and Description

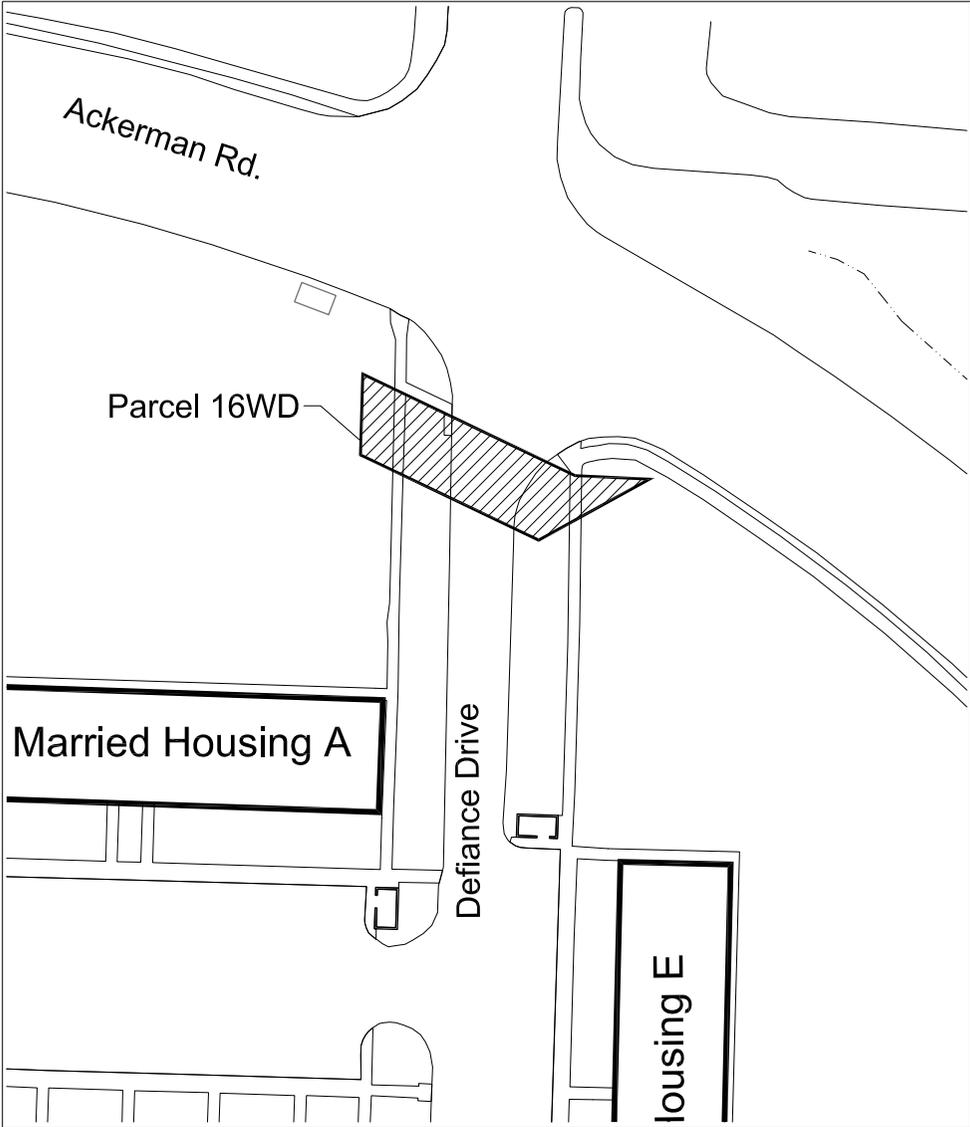

The City of Columbus intends to install ADA ramps at various COTA bus stop sites in Columbus. One of their targeted sites is at the intersection of Defiance Drive and along the south side of Ackerman Road. The University has been asked to sell approximately 0.049 acres, known as Parcel 16WD, for the permanent public right-of-way and to grant the City a temporary construction license to commence the proposed improvements. The City is required to acquire the property in order to qualify for Federally Funded Programs.

Appraisals and Consideration

The City will pay Fair Market Value (FMV) for any property acquired for this program. A limited scope appraisal was completed by Edwin N. Merrell indicating the value of the property being acquired to be \$19,950.00. The City will pay the University \$19,950.00 for the permanent right of way and the temporary construction license.

Sale Of Land And Grant Of Temporary Construction Licence To The City Of Columbus

- Sale of Land and Grant of Temporary Construction License to the City of Columbus, at the Intersection of Defiance Drive and Ackerman Road Parcel 16WD, Approximately 0.049 Acres, Columbus, Ohio

PURCHASE OF REAL PROPERTY

NINE (9) PARCELS
2404-2432 KENNY ROAD AND
2410 WOOD AVENUE
COLUMBUS, OHIO 43221

Background

Location and Description

The University is presented with the opportunity to purchase real estate located at 2404-2432 Kenny Road, and 2410 Wood Avenue, Columbus, Ohio 43221. The University exercised its option to purchase the property prior to the owner placing the property for sale to the general public. The properties are located on the east side of Kenny Road, north of Lane Avenue, adjacent to other properties owned by the University, and are located in the West Campus Acquisition Area.

The property being purchased contains eight (8) parcels having 360' of frontage on Kenny Road with an average depth of 135', containing 1.157 acres, improved with commercial buildings containing 9,560 SF, and one (1) parcel located at 2410 Wood Avenue, improved with a 2-story, three bedroom residential dwelling. The property has been appraised by two MAI appraisers, Ralph Berger & Associates and Arnold & Associates, with their appraisal reports indicating values between \$785,000.00 - \$800,000.00. The negotiated purchase price for the property is \$700,000.00. The property is owned by Merullo Realty Co., an Ohio corporation.

Use of the Property

It is the intention of the University to acquire the property and continue to operate the buildings as rental property while a thorough assessment of University needs can be completed. Eventually, the longer term plan would be to remove the structures to provide for new construction to meet the University needs.

Purchase of Real Property - Nine Parcels, 2404-2432 Kenny Road, Columbus

**FISCAL AFFAIRS COMMITTEE
MARCH 2, 2007**

SUBJECT:

MEDICAL CENTER MASTER FACILITIES PLAN

CONTEXT:

The Medical Center Master Facilities Plan was approved in September 2005 with the understanding that the Administration would return for approval of individual projects.

In the context of overall University priorities and the Medical Center's Strategic Plan and Financial Plan, The Ohio State University Administration and Board of Trustees desire to engage consultants to review the OSU Medical Center (OSUMC) Master Facilities Plan. The proposed \$780 million OSUMC expansion is the largest construction project in the history of the University. In order to ensure that the project plans are aligned with the physical, programmatic, and financial goals of the OSUMC and those of the University, the University Administration and the Board of Trustees have decided to engage an external consultant or consultants to review and validate the overall project scope, assumptions, timeliness and deliverables. This additional review will provide the assurance that the OSUMC will be able to continue to move forward in a way that is beneficial to the University, the community, and the State of Ohio.

RECOMMENDATION:

It is recommended that a consultant or consultants be hired to review and validate key portions of the Medical Center Master Facilities Plan.

CONSIDERATIONS:

- What are the deliverables and the timeline of this review?
- What impact will the review have on the timeline and finances of the project?
- How will the Board be kept informed?

REQUESTED OF FISCAL AFFAIRS COMMITTEE:

Approval of resolution.

Office of Business and Finance
2/24/07

OFFICE OF THE PRESIDENT

Memorandum

To: Members of the Board of Trustees
From: Karen A. Holbrook, President 
Date: February 22, 2007
Subject: Medical Center Planning

During the past few years, the Medical Center has been involved in a robust strategic planning process designed to enhance its capacity to provide outstanding medical education, conduct world-class medical research, and offer patients the finest medical services as a top-tier medical center. A major element of this effort is the pursuit of a Master Space Plan in the context of the Medical Center's strategic programming and financial plan, and, ultimately, the University's plans and goals.

The proposed Medical Center building program is the largest capital project in the history of the University, and the decisions made now will have an impact for decades to come. Pursuant to discussions at Board committee meetings, it has become evident that it is in everyone's best interest to seek additional outside review of this initiative before taking the next critical steps. To this end, the Chairman of the Board of Trustees has formed a Medical Center Task Force composed of Alan Brass, Robert Duncan, Dimon McFerson, John Ong, William Shkurti, and Leslie Wexner. One of the first actions of the Task Force was to generate a Request for Proposals from consultants who will be charged with reviewing and evaluating the assumptions and planning already conducted by the Medical Center, the University, and community leaders as well as the external professionals who have assisted with this plan development. The review will also take into consideration the relationship of The Arthur G. James Hospital and Richard J. Solove Research Institute with The Ohio State Medical Center within the context of this overall planning. The goal is to provide essential, timely analysis so that the Medical Center will be able to continue to move forward in a way that best serves the University, the community, and the State of Ohio.

**RFP for Consultant to Review
Medical Center Master Facilities Plan**

CONSULTING ENGAGEMENT

GENERAL BACKGROUND

In the context of overall University priorities and the Medical Center's Strategic Plan and Financial Plan, The Ohio State University Administration and Board of Trustees desire to engage a consultant to review the OSU Medical Center (OSUMC) Master Facilities Plan. The proposed \$780 million Medical Center expansion is the largest construction project in the history of the University. In order to ensure that the project plans are aligned with the physical, programmatic, and financial goals of the Medical Center and those of the University, the University Administration and the Board of Trustees have decided to engage an external consultant or consultants to review and validate the overall project scope, assumptions, timelines and deliverables. This added step will provide the assurance that the Medical Center will be able to continue to move forward in a way that is beneficial to the University, the community, and the State of Ohio.

SCOPE

The scope of the project includes review of existing documentation and interviews with critical University and Medical Center personnel. For purposes of this request, "review and validate" means to examine existing plans and supporting materials to ensure they are complete, strategically consistent, and fiscally sound and are achievable within the timeframes indicated and that risks are appropriately identified and managed.

STRATEGIC CONTEXT

- Review and validate the OSUMC Strategic Plan in relationship to the University's plans and goals.
- Review and validate the planning and support for the six signature programs (cancer, critical care, heart, imaging, neuroscience, and transplant).

MEDICAL CENTER MASTER FACILITIES PLAN

- Review and validate the overall strategy and planning principles driving the Master Facilities Plan, including the relation to the six signature programs.
- Review and validate individual and total project budgets of Phase I, including comparisons with appropriate benchmarks.
- Review and validate individual and total project schedules for Phase I, including project sequencing for feasibility of scheduling, coordination and attainability based on a fully functioning Medical Center during construction.
- Review and validate risk management of all facility and financial contingencies, including loss of revenue projections if the project is not brought on line as proposed in the master plan schedule and opportunities for mid-course adjustments.
- Review and validate preliminary plans for Phase II.

FIVE-YEAR FINANCIAL PLAN

- Review and validate the five-year financial plan, including:
 - Revenue and cost assumptions
 - Targets for operating margin, cash on hand and debt coverage
 - How the OSUMC plan fits into the University's long range financial plan
- Review and validate the financial performance of the OSUMC compared to other public and private academic medical centers based on selected indicators (e.g., margin, liquidity, debt) and external financial ratings (e.g., Moody's S&P).
- Review and validate the management options related to the Master Facilities Plan and the five-year financial plan.

FINANCIAL RELATIONSHIP BETWEEN THE JAMES AND ALL OTHER COMPONENTS OF THE OSUMC

- Review and validate the funds flow between The James, the OSU CCC, the OSUMC, and the University.
- Review and validate the financial benefit of the Medicare exemption for The James and the rest of the OSUMC.
- Review and validate costs and benefits of the Master Facilities Plan (Phase I) to The James and the rest of the OSUMC, including James Care and the ambulatory care plans.

RELATED STUDIES

The consultant is also expected to coordinate their review with other ongoing reviews currently underway in other University entities such as Business and Finance and Legal Affairs.

DELIVERABLES

- A preliminary report is expected no later than 30 days after the start of this engagement.
- A final report is expected not later than 60 days after the start of this engagement.
- This review will be coordinated by the Senior Vice President for Business and Finance and the Chief Legal Counsel in consultation with the Board of Trustees, President of the University, the CEO of the Medical Center, and other interested stakeholders as appropriate.

QUALIFICATIONS

The proposed consultant(s) should include financial analysts, business analysts, and construction experts with industry experience. Experience with medical center developments of the type and size being implemented here is preferred. Resumes of each team member should be provided for consideration. The core team members should have an established record of previous work. Client references should be provided.

MEMORANDUM

Date: February 22, 2007
From: Thomas W. Johnson, Interim University Treasurer
To: William J. Shkurti, Senior Vice President for Business and Finance
Subject: Appointment of Investment Managers and Reallocation of Funds

The Office of the Treasurer is recommending to the Investment Committee of the Board of Trustees, the hiring of seven new investment managers and the reallocation of monies between existing investment managers. Of the new manager's, three are in the 'Absolute Return' category, one is in the 'Venture/Private Equity' category, one is in the 'Natural Resources' category and one is in 'Real Estate'. Also one manager has been selected to manage the futures portion of the Portable Alpha strategy. Attached are summary pages for each of the recommended managers.

The Absolute Return managers were recommended by our consultant, Cliffwater LLC. The Office of the Treasurer did additional due diligence including reviewing the investment management agreements and interviewing each of the firms. The Natural Resources and Real Estate managers were identified by the Office of the Treasurer. Cliffwater LLC was asked to complete additional due diligence on the manager and they have concurred with the recommendations. The Venture/Private Equity manager was identified by the University and the Office of the Treasurer did additional due diligence including reviewing the investment management agreements and interviewing the firm.

The addition of these seven managers will provide much greater diversification to those segments of the portfolio. It also moves the portfolio closer to the new asset allocation targets. The reallocation of monies to existing investment mangers is a continuation of the process to reach the new asset allocation targets as approved by the Board of Trustees at the November 2006 meeting. With the exception of the Private Equities/Venture category, we plan to have the new asset allocation targets met by May 2007.

Please let me know if you have any questions.

Pranab Bhattacharya
Timothy L. Michel

Private Real Estate Investment Opportunity- Executive Summary

Fund Name:	BPG Properties VIII	Date:	March, 2007
Fund Size:	\$800 Million	GP Commitment:	10%
Term of Fund:	8 Years	Investment Period:	Three Years
Strategy:	Value Added Real Estate	Due Diligence:	Staff/Cliffwater

Organization & People: Based in Philadelphia, BPG Properties (BPG) was established in 1980 to identify, develop and manage real estate investments for the Berwind Group. The Berwind Group is an investment management company that was founded in 1874 that currently sponsors seven companies in different industries. BPG operates independently and has evolved from a financial partner in the 1980's to a full service real estate operating company since the 1990's. BPG launched its first institutional value-added real estate fund in 1993 and has invested approximately \$1.5 billion of equity across seven such funds.

BPG has a staff of 115 real estate professionals with expertise in areas such as acquisitions, development, construction, renovation, finance, asset management, property management, financial controls and dispositions. This broad range of expertise allows BPG to remain independent and rely less on third party providers. BPG has a senior management team of twelve individuals with an average tenure of 18 years with the firm. Lastly, the investment committee is comprised of eight members of the senior management and must approve all investments.

Strategy & Investment Process: BPG's value-added approach to real estate investing includes three primary strategies: 1) *Repositioning*. BPG management will seek to create value through hands-on management in order to improve inefficiencies. Opportunities include changing management, upgrading physical appearance of assets, increasing occupancy, improving tenant mix and minimizing operating expenses. 2) *Development/Redevelopment*. Markets that have attractive real estate fundamentals will be selectively considered for new development. In contrast, BPG will seek under-performing assets in weak markets in need of redevelopment. 3) *Recapitalization*. BPG will target investments with restrictive or insufficient capital structures.

The BPG team utilizes its network of contacts and market research to source potential investments for Fund VIII. Once potential investments are identified, the transaction team conducts site visits, an analysis of the opportunity and proceeds with a letter of intent. A recommendation is made to the investment committee for preliminary approval. Once the initial approval is received, the transaction team proceeds with a more in-depth due diligence analysis, reviews the purchase & sale agreement and the loan application. The potential deal is then submitted to the investment committee for final approval. Upon final approval, the deal is negotiated and proceeds to the purchase and closing process. The BPG asset management team will manage and monitor the progress of the investment, execute the strategic investment plan and ultimately position the asset for a sale.

Portfolio Construction & Diversification: BPG VIII will make real estate investments across a diversified range of property types including office, multifamily, retail, industrial, hotels, residential and land. Investments for BPG VIII will also be spread across numerous markets in the U.S. Additionally, BPG VIII will primarily acquire assets through direct purchases and development acquisitions, but may also invest in mezzanine equity and co-development programs on a strategic basis.

BPG VIII will adhere to the following parameters to further diversify the portfolio and manage risk: 1) No more than 20% of total commitments will be invested in a single asset; 2) Hotel projects will not exceed 5% of total commitments; 3) Investments will only be made in the continental United States; 4) Overall leverage will not exceed 65% of the gross fair market value of the portfolio.

Performance: BPG has invested seven previous value-added real estate funds since 1993. The combined performance of those funds through September 30, 2006 is a net IRR of 14.7%. Over the same time period, the NCREIF Property Index produced a 10.8% return. Additionally, all of BPG's previous funds have produced performance in excess of 10%. The lowest performing fund is currently projected to produce a 12% net return.

Private Real Estate Investment Opportunity- Executive Summary

It should be noted that the NCREIF Property Index returns do not take into account the use of leverage. Due to the use of leverage and active management, private real estate funds should be expected to outperform the index on a net of fees basis. Historically, BPG's series of funds have been able to consistently achieve consistent excess performance versus the NCREIF Index. Value-added real estate investments typically use less leverage than opportunistic funds and have lower risk and return expectations.

Management Fees/Expenses: The management fee for BPG VIII will be 1.5% of total fund commitments during the investment period. After the investment period, the fee will be 1.5% of invested capital (funded commitments at cost less distributions). BPG will receive 20% of the net profits (carried interest) after the investors receive 100% of their capital contributions plus a 9% return compounded annually (preferred return). Organizational expenses will be charged at the fund level, but will be limited to \$500,000 for the life of the fund. Lastly, BPG VIII will provide a first loss guarantee. If upon liquidation of Fund VIII, the limited partners have not received distributions at least equal to capital contributions, BPG and its affiliates will bear the entire loss up to 5%.

Conclusion: BPG is a privately held real estate management firm with direct operational and development expertise. BPG's management team is stable and has experience through several market cycles. BPG has proven an ability to produce attractive and consistent performance through environments. Additionally, BPG and its affiliates will make a significant monetary commitment alongside its investors. BPG VIII will provide exposure to a value-added strategy within the Ohio State University real estate portfolio. ***BPG VIII is recommended for a \$15 million real estate commitment.***

Hedge Fund Investment Opportunity- Executive Summary

Firm:	Davidson Kempner Advisors	Fund Name:	Davidson Kempner Instit. Partners
Category:	Event Driven	Fund Assets:	\$2.5 Billion
Lock-Up Period:	None	Due Diligence:	Cliffwater/Staff

Organization & People: Davidson Kempner Advisors (DK) was founded in 1983 and is based in New York. The firm also operates an office in London. DK has approximately \$9.7 billion in assets under management consisting of event driven and distressed debt funds. The Davidson Kempner Institutional Partners Fund (DKIP) was formed in 1991 and has approximately \$2.5 billion in assets.

DK has 92 employees, including 45 investment professionals and 22 operations staff. DK is a private company owned by ten principals. The average tenure of the ten principals at DK is fifteen years. The investment team is organized by four primary strategies- merger arbitrage, distressed securities, convertible arbitrage and event driven equities. The groups are led by principals who are supported by research analysts and traders. DK has strategically added bench strength as assets under management have grown. Since 2002, the firm has hired fourteen analysts.

Investment Process & Strategy: DK engages primarily in event-driven investments which seek to exploit situations in which announced or anticipated events create pricing inefficiencies. DK follows a bottom-up investment process. Each position is evaluated based on its relative risk/reward versus short-term interest rates. The firm places a high priority on preservation of capital. DK prefers more conservative and predictable deals and is willing to accept lower expected performance. DKIP targets 10%-12% annual net of fees returns with 3%-4% expected volatility.

DKIP will target investments in securities that are experiencing financial distress or that are the subject of proposed changes in the corporate structure or control. Once these types of opportunities are uncovered, the DK team conducts a thorough analysis of the business and financial conditions of the relevant company and analyzes the processes surrounding the event. DK then attempts to determine how the anticipated outcome of the event may affect the company's trading price. Based on the analysis, DK seeks to purchase the securities at a discount to what they believe to be the asset's fair value. In periods where there is a lack of attractive opportunities, DK will hold larger cash positions rather than increase the risk profile of the portfolio.

Portfolio Construction and Diversification: DK's primary areas of expertise are merger arbitrage and distressed management. While these two areas will continue to be the primary focus, DKIP will also invest in other strategies such as event oriented equities, convertible arbitrage and healthcare. In merger arbitrage, the firm will typically invest in publicly announced deals. In distressed securities, DK will generally participate in senior positions of the capital structure. DKIP will allocate capital on an opportunistic basis to strategies offering the best risk/reward profile. As a result, allocation weights will change over time.

Additional mechanisms for diversification and risk control include: utilization of very limited amounts of leverage, maximum concentrated position per issuer limited to 25% of capital, construction of a well-diversified portfolio of at least 50 positions and a daily review of the profit and loss statements. Lastly, investments in illiquid securities will be limited to 5% of the fund's assets. Typically, if the firm invests in illiquid securities, it will be in the form of private placements or certain bank debt.

Performance: From March 1996 through January 2007, DKIP has produced an annualized net of fees return of 10.7% with a 2.8% standard deviation. During the same period, the HFRI Event-Driven Index returned 12.9% with a standard deviation of 6.5%. Although the fund has underperformed the index, the return/risk ratio for the period was substantially greater at 3.86 versus 2.0 for the Index. This is reflective of DK's conservative investment philosophy. Lastly, DKIP has had limited periods of negative absolute performance, as the fund has not had any negative calendar year performance for the past eleven years. During this same period, the firm endured only three down quarters.

Hedge Fund Investment Opportunity- Executive Summary

Fees & Liquidity: DKIP will charge a 1.5% management fee and 20% incentive fee. Additional investment-related fund expenses are expected to less than 10 basis points. Redemptions from the fund can be made on a quarterly basis upon 65 days' prior written notice. There are no early withdrawal penalties or lock-up period associated with DKIP.

Conclusion: Davidson Kempner is a patient, conservative hedge fund manager which has produced high risk-adjusted returns across various market cycles. The firm has a stable and experienced management team that focuses on preserving capital, opportunistic management of distressed situations and capitalizing on pricing inefficiencies. DKIP provides a strong complement to the other event driven hedge fund manager in the portfolio, York Capital Management. ***The Davidson Kempner Institutional Partners Fund (DKIP) is recommended for a \$25 million hedge fund investment.***

Hedge Fund Investment Opportunity- Executive Summary

Firm:	King Street Capital Management	Fund Name:	King Street Capital, LP
Category:	Distressed Debt	Fund Assets:	\$2.5 billion
Lock-Up Period:	Two Years	Due Diligence:	Cliffwater/Staff

Organization & People: King Street Capital Management (King Street) was founded in 1995 by O. Francis Biondi, Jr. and Brian Higgins. King Street is based in New York and has additional offices in London and Singapore. King Street manages two hedge funds, one onshore and one offshore, and has approximately \$7.2 billion in assets under management. The two funds follow the same investment strategy, but have different tax and liquidity objectives. The onshore vehicle, the King Street Capital Fund, LP (KSCF) was launched in April, 1995.

King Street has 77 employees, including 32 investment professionals and 45 operations and support staff. The two founding members share equally in the ownership of the firm and serve as the firm's managing principals as well as the portfolio managers. The firm is structured to support a research oriented process. The research analysts provide coverage on all major industries. The traders keep management updated on the markets, provide transaction execution and generate ideas. The firm has in-house legal expertise devoted to analyzing litigation-related events and bankruptcy situations. The COO and CFO manage the operations and risk management functions. Lastly, the technology team is devoted to improving existing systems and developing proprietary products.

Investment Process & Strategy: King Street's objective is to produce attractive risk-adjusted returns in all types of market environments by capitalizing on mispriced investment opportunities. King Street follows a fundamental and research-driven approach to investing. Downside risk assessment plays a key role in assessing investment decisions. The firm focuses on long/short credit and event-driven opportunities including distressed and out-of-favor situations, shorting of debt and deep value situations. King Street's goal is to generate equity-like returns on each investment by taking fixed income type risk.

King Street evaluates assets and companies, determines whether there is a long or short opportunity and attempts to implement the most favorable risk/reward tradeoff within the portfolio. All key investment decisions must be approved by the firm's two managing principals, Messrs. Biondi and Higgins. The managing principals work closely with the research analysts. The analysts perform research on potential opportunities, monitor their industries and existing investments and generate new investment ideas. The research analysts work closely with the traders who are organized by product area. Senior members of the trading and research teams have the ability to make certain investment decisions, subject to the oversight of the managing principals.

Portfolio Construction and Diversification: King Street invests across multiple strategies, industries, markets, instruments, companies and assets. KSCF will invest in a broad range of securities at any level of a company's capital structure and includes bank debt, corporate bonds, trade claims, equities, credit default swaps, options and other derivative investments. Position sizes typically start as less than 1% of net assets and grow as positive events unfold or through profit generation. King Street seeks to liquidate positions and realize profits as positions move toward their established price targets. King Street generally avoids the explicit use of leverage and will hold large cash positions when new opportunities are in short supply. King Street targets a 3 to 1 upside to downside ratio for investments and a 15% to 20% return expectation. KSCF will typically hold between 100-150 core positions and issuer concentration is limited to 20% of the total portfolio.

Performance: Since its inception in April 1995 through January 2007, the KSCF has an annualized net return of 15.4% with standard deviation of 4.3%. During the same period, the HFRI Distressed Securities Index returned 13.1% with a standard deviation of 5.3%. During the same period, the return/risk ratio was 3.6 for KSCF versus 2.5 for the index. King Street has outperformed the index over a long period of time while taking on less risk. KSCF has only had two down quarters and zero down calendar years since inception.

Hedge Fund Investment Opportunity- Executive Summary

Fees & Liquidity: KSCF will charge a 1.5% management fee and 20% incentive fee. Administrative fees are expected to be around 5 basis points. Redemptions from the fund can be made quarterly subject to a two year lock-up period. King Street can invest up to 15% of the portfolio in side pockets. Side pockets are used for less liquid investments that lack a readily accessible market value.

Conclusion: King Street is a disciplined hedge fund manager that has produced consistently strong risk-adjusted performance over various investment cycles. The firm has grown its assets under management at a reasonable pace and manages a portfolio of distressed debt in a conservative manner. King Street will provide a good complement to the existing hedge fund portfolio. ***The King Street Capital Fund, LP (KSCP) is recommended for a \$25 million hedge fund investment.***

Hedge Fund Investment Opportunity- Executive Summary

Firm:	York Capital Management	Fund Name:	York Institutional Partners, LP
Category:	Event-Driven	Fund Assets:	\$3.5 Billion
Lock-Up Period:	Two Years	Due Diligence:	Cliffwater/Staff

Organization & People: York Capital Management (York) was founded in 1991 by James Dinan. York is based in New York and has additional offices in London and Singapore. York has approximately \$9 billion in assets under management across five event-driven hedge fund products. The York Institutional Partners, LP (YIP) is a diversified event-driven fund with approximately \$3.5 billion in assets.

York has 54 employees including 30 investment professionals. James Dinan and Daniel Schwartz own approximately 90% of the firm. The remaining 10% ownership is shared amongst four senior managers. There are twelve senior investment professionals with an average tenure of eight years with the firm. There are 18 professionals dedicated to operations, legal and compliance management.

Investment Process & Strategy: York has a fundamental approach to investing in event-driven opportunities. York invests on an opportunistic basis, constructing portfolios bottom-up in response to market conditions. York's approach does not rely on the cycle of a particular sector, but rather on corporate change. York strives to implement an all-season investment strategy that is proactive and flexible.

York utilizes its network of contacts, news feeds, industry trends, credit event analysis, liquidity analysis and fundamental analysis to source events that have altered or will alter the company or sector being analyzed. York analyzes potential opportunities in the context of risk/reward, relative versus actual value and the probability of the occurrence of certain events. York will analyze whether or not the marketplace is appropriately discounting the effect of a corporate event. Ultimately, York's goal is to determine the appropriate entry and exit strategies to unlock value in the market.

Portfolio Construction and Diversification: YIP will primarily invest across four event driven strategies which include event equities, credit, value equities and risk arbitrage. York manages position sizes to allocate capital according to risk/reward profiles and liquidity objectives. Capital allocations are made on an opportunistic basis. From 2000 to 2006, York has gradually reduced its exposure to risk arbitrage and increased its exposure to event equities, credit-related opportunities and value equities. YIP will consist of a diversified portfolio of 80 to 100 positions. Individual positions will be limited to 2% of fund assets and YIP will utilize a minimal amount of leverage. YIP will make investments primarily in the United States, but will have the ability to invest internationally. Position limits and stop loss orders are used to mitigate downside risk.

Performance: Since January, 1999 through January, 2007, YIP has an annualized net return of 13.2% with a 7.1% standard deviation. During the same period, the HFRI Event-Driven Index returned 12.4% with a standard deviation of 5.9%. YIP's return/risk ratio for the period was 1.9 versus 2.1 for the HFRI Composite. The fund has outperformed the index with slightly higher volatility. YIP has only had one negative calendar year of performance since its inception in 1991.

Fees & Liquidity: YIP will charge a 1.5% management fee and 20% incentive fee. Additional investment-related fund expenses are expected to less than 10 basis points. Redemptions from the fund can be made on an annual basis subject to a two year lock-up period. Up to 20% of fund assets can be invested in side pockets, which contain illiquid investments such as certain debt investments and private placements.

Conclusion: York follows a multi-strategy, event driven process that has produced consistent and favorable risk-adjusted performance over various environments. York analyzes asset valuations closely, manages downside risk and follows a disciplined purchase and sale strategy. YIP will provide additional diversification and uncorrelated performance expectations to the existing hedge fund portfolio. ***The York Institutional Partners, LP is recommended for a \$25 million hedge fund investment.***

Private Equity Investment Opportunity- Executive Summary

Fund Name:	Ohio Tech Angel Fund II Co-Investment	Date:	March, 2007
Fund Size:	\$2.5 Million	GP Commitment:	0%
Term of Fund:	10 Years	Investment Period:	Seven Years
Strategy:	Pre-Seed & Seed Stage Venture Capital	Due Diligence:	Staff

Organization & People: Based in Columbus, OH, TechColumbus is a non-profit organization formed by a merger of the Business Technology Center and the Columbus Technology Council. The Columbus Technology Council was formed in 2002 with the goal of creating a unified umbrella to strive for growth of the Columbus technology sector. TechColumbus was formed to promote technology-based economic development in the central Ohio region. The Science & Technology Campus Corporation (SciTech) operates under the TechColumbus umbrella.

TechColumbus is forming the Ohio Tech Angels Fund II Co-Investment Fund (OTAF II-CIF). OTAF II-CIF will invest exclusively in investments made simultaneously by the Ohio TechAngel Fund II (OTAF II). The funds will invest side-by-side in pre-seed and seed stage technology companies. OTAF II is a \$2.5 million fund managed by John Huston and TechColumbus. John Huston retired from a career in banking in 2000, and has since been an active business angel, advisor and speaker. Mr. Huston has been an active member of the Ohio Venture Capital Authority since its inception in 2003 and serves as its vice chairman.

OTAF II-CIF will be managed by TechColumbus. The investment committee for OTAF II-CIF will consist of Will Indest from TechColumbus and Ernie Knight from Nationwide Mutual Capital. TechColumbus is in the process of hiring a Funds Manager and additional support staff. The accounting and bookkeeping functions will be outsourced.

Strategy & Investment Process: OTAF II-CIF will make co-investments alongside the primary fund, OTAF II, in pre-seed and seed stage companies located in Ohio. Pre-seed and seed stage investments involve financing an entrepreneur's idea. Typically, the entrepreneur has not developed a business plan or management team. Seed financing is used to help turn a concept into an actual product or service. OTAF II-CIF will focus on investing in the healthcare, information technology and advanced materials business sectors. The objective of OTAF II-CIF is to invest in several business leaders whose mission is to accelerate technology start-up business in Ohio (primarily in Central Ohio).

Deal flow is sourced on a reactive basis. Entrepreneurs approach OTAF management and market their ideas or concepts. The managing member will then evaluate the potential investment opportunities and make a decision on what should be considered by the investment screening committee (ISC). The ISC consists of the Manager (John Huston) and four fund investors. The four ISC investor members will serve on a rotational basis for a six-month term. John Huston will be the only permanent member of the screening committee. The ISC will select, by a majority vote, which investments will be presented at the next Member Meeting. The Member Meetings are open to all fund investors and are held approximately every two months. The investors at the Member Meetings vote on which company additional due diligence should be performed. A majority vote of the investors acts as a trigger for the Manager to form a due diligence team. The due diligence team is comprised of volunteers that are investors in the fund. The due diligence team will conduct a more in-depth analysis of the potential investment. If the due diligence team decides to move forward, a final recommendation is made at another Member Meeting. If there is a majority vote by the investors present at the Member Meeting, the investment is approved. The due diligence team then closes on the investment.

Portfolio Construction & Diversification: Investments in OTAF II-CIF will be made across different industries with the primary focus in information technology, healthcare and advanced materials. OTAF II-CIF will invest over a seven year period. OTAF II-CIF does not currently have any established diversification guidelines. Instead, fund management will invest opportunistically and attempt to invest the fund across several companies.

Private Equity Investment Opportunity- Executive Summary

Performance: One previous fund with a similar strategy is currently being managed by John Huston, SciTech and TechColumbus, OTAF I which was raised in 2004. OTAF I is a \$4.4 million fund which includes a \$1 million state of Ohio grant. The fund has made twelve investments. One has been written-off as a total loss and the others are held at cost. It is too early in the life of the fund to provide a meaningful performance comparison.

Management Fees/Expenses: Initially, the fund will not have a management fee. TechColumbus will bear fund operational expenses. TechColumbus will receive 10% of the net profits (carried interest) after investors receive 100% of their capital contributions plus a 10% compounded annual rate of return (preferred return). Organizational expenses will be charged to the fund. If TechColumbus ceases to be involved in sponsorship of the fund, the new Managing Member will have the ability, in its sole discretion to charge a 3% management fee.

Additional Key Risk Considerations: Seed stage and very early stage venture capital investments contain an increased level of risk in comparison to other private equity investments. The list below identifies some of the key risks associated with an investment in the OFAF II-CIF.

- 1) **Risk of early stage investments.** While early stage venture capital investments may have the potential for significant gains, these investments involve a high degree of business and financial risk and can result in significant loss. Funds containing these types of investments tend to have more investments that lose money than are successful.
- 2) **The fund will make investments in a very concentrated geographic region.** Due to the fact that investments will be limited to Ohio, there may not be as many high quality opportunities available to fund management. This may have a significant impact on the performance of OTAF II-CIF.
- 3) **The members of investment committee for the OTAF II-CIF, Will Indest and Ernie Knight, have not previously worked together.**
- 4) **Lack of performance track record.** The individuals responsible for management of OTAF II- CIF do not have prior experience managing a for-profit venture capital fund.
- 5) **The investment process is managed 'by committee'.** The investment process for the fund involves rotating membership and involves fund investors. This approach could lead to an inconsistent management of the fund and raise conflict of interest issues. Typically, the investment process is managed solely by fund management.
- 6) **The due diligence process is voluntary and consists of investors of the fund.** Typically, fund management has staff dedicated to perform due diligence. OTAF II-CIF will rely on investors in OTAF II to perform due diligence analysis. Investors in the fund may or may not have the appropriate expertise and/or sufficient time to dedicate to this analysis.
- 7) **Other responsibilities of management of OTAF II-CIF.** Management will have responsibilities, duties and commitments outside of OTAF II and OTAF II-CIF that may constrain the time available to manage the fund.

Conclusion: The OTAF II-CIF presents an opportunity to provide financial assistance and encourage the growth of technology-based economic development in Ohio. Ohio represents an underserved area of the venture capital community. However, as mentioned above, there is a significant amount of risk associated with a speculative type of investment such as OTAF II-CIF. ***The OTAF II Coinvestment Fund will be a \$500,000 commitment.***

Private Equity Investment Opportunity- Executive Summary

Fund Name:	GS Concentrated Energy Fund	Date:	March, 2007
Fund Size:	\$500 Million	GP Commitment:	5%
Term of Fund:	10 Years	Investment Period:	Two Years
Strategy:	Natural Resources	Due Diligence:	Staff/Cliffwater

Organization & People: Based in New York, Goldman Sachs was founded in 1869 and is one of the premier international investment banking organizations. Goldman Sachs Asset Management (GSAM) is a separate unit of the Goldman Sachs' investment management division. GSAM manages over \$496 billion in assets across a full range of equity, fixed income, private investment funds and separately managed accounts. The GSAM Private Equity Group (PEG) was established in 1996 to manage the private equity fund-of-funds program. The PEG currently manages approximately \$18 billion in committed assets across four fund programs- diversified, secondary, technology and distressed fund-of-funds. The PEG is currently raising a \$500 million focused energy-related private equity fund, the Goldman Sachs Concentrated Energy Fund (GSCEF).

The PEG has a staff of 80 including 28 investment professionals. The 28-member investment team consists of eighteen portfolio managers and ten analysts. The investment team has direct-investing, M&A, leveraged-finance and operational expertise. The PEG also has deep product management, portfolio analytics & reporting and legal teams. The staff is based in New York and has additional offices in London, Hong Kong, Tokyo and San Francisco.

Strategy & Investment Process: GSCEF will make partnership and direct investments in the energy sector. The fund will focus on the oil, gas, coal, power, energy infrastructure and energy services sub-sectors. The PEG will utilize the Goldman Sachs' network and resources to source and analyze potential investments efficiently. The group focuses on gaining and maintaining access to leading and emerging energy and power private equity managers.

PEG screens potential investments from sources that include industry contacts, investors, consultants and existing managers. If a manager passes the initial screen, it is assessed for a strategic fit within the portfolio. Next, portfolio managers and analysts conduct a comprehensive due diligence analysis. After a potential investment passes through the due diligence process, it must be approved by the investment committee. The PEG focuses on constructing portfolios that have above average performance expectations with reasonable downside protection. GSCEF will invest a significant portion of the fund in direct investments.

Portfolio Construction & Diversification: As mentioned above, GSCEF will invest across several energy-related sectors. The fund will be comprised of partnership and direct investments. At least 25% of GSCEF will be made up of direct investments. GSCEF provides a unique opportunity. The fund is almost fully committed which provides investors significant transparency of the underlying funds and direct investments in the portfolio. This is unusual for fund-of-funds products, which typically take up to three years to make commitments. Below is a list of the pre-specified investments for GSCEF:

Partnership Commitments	Commitment Amt.
Carlyle/Riverstone Global Energy and Power Fund III	\$90 million
Energy Capital Partners I	\$60 million
First Reserve XI	\$100 million
Quantum Energy Partners IV	\$100 million
Direct Investments	
Quantum Resources A1	\$100 million
NE Energy, Inc.	\$12 million
Niska Gas Storage	\$20 million
TOTAL PRE-DEFINED COMMITMENTS	\$482 million

Private Equity Investment Opportunity- Executive Summary

Performance: This is the first concentrated energy fund raised by the PEG, so there is no specific energy fund track record. However, since the fund is already substantially committed, the track record can be evaluated based on the underlying partnership commitments. The aggregate performance of the previous Carlyle/Riverstone funds is 66%. The aggregate performance of the five previous First Reserve funds dedicated to the energy sector is 33%. The aggregate performance of the three previous Quantum funds is 58%. The combined performance of the previous energy equity investments for the management team of Energy Capital Partners I is 55%. In summary, the pre-specified partnership investments for GSCEP have all produced top quartile performance on a consistent basis. The direct investment opportunities will be sourced from the four partnership investments listed.

Management Fees/Expenses: GSCEP will charge a 1% management fee for the first five years of the fund. Starting in year six, the management fee will be 75% of the previous year's fee. Additionally, a performance fee of 5% of fund investment profits and 15% of direct investment profits will be charged only after investors receive 100% of their capital contributions plus an 8% return compounded annually.

Conclusion: The Goldman Sachs PEG is experienced and stable and have proven an ability to construct high-quality private equity fund-of-funds. The GSCEF is pre-specified and is comprised of a blend of high quality, top-tier energy funds and direct investments. The GSCEF provides an opportunity to help mitigate the J-Curve effect, invest a portion of the natural resources portfolio more quickly and provides the potential for strong performance. ***The GS Concentrated Energy Fund is recommended for a \$10 million commitment.***

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND TWENTY-NINTH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, April 5 and 6, 2007

The Board of Trustees met at its regular monthly meeting on Thursday, April 5, and Friday, April 6, 2007, at The Ohio State University Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **

April 5 and 6, 2007 meeting, Board of Trustees

The Chairman, Judge Duncan, called the meeting of the Board of Trustees to order on Thursday, April 5, 2007, at 2:00 pm. He requested the Secretary to call the roll.

Present: Robert M. Duncan, Chairman, Karen L. Hendricks, Dimon R. McFerson, G. Gil Cloyd, Jo Ann Davidson, John D. Ong, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, and Christopher Alvarez-Breckenridge.

Judge Duncan:

In a moment we will be taking a roll call vote to go into Executive Session; that vote will conclude all formal Board action for the day beyond recessing the Board meeting until tomorrow morning. I'll remind you that the Board will reconvene tomorrow morning at 10:45 am.

I hereby move that the Board recess into Executive Session for the purposes of considering personnel matters regarding employment and compensation. May I have a second?

Upon motion of Judge Duncan, seconded by Mr. Shumate, the Board adopted the foregoing motion by unanimous roll call vote, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Davidson, Ong, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, and Brass.

--0--

Judge Duncan reconvened the meeting on Friday, April 6, 2007, at 10:45 am.

Present: Robert M. Duncan, Chairman, Karen L. Hendricks, Dimon R. McFerson, G. Gil Cloyd, Jo Ann Davidson, John D. Ong, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Yoonhee P. Ha, and Christopher Alvarez-Breckenridge.

--0--

Judge Duncan:

On behalf of The Ohio State University, I'd like to welcome The Honorable Eric Fingerhut, the new Chancellor of the Ohio Board of Regents, to our Board meeting. Thank you so much for visiting our meeting and, hopefully, you will be willing to share some comments with us later.

--0--

PRESENTATION AND LINKING TO SPHINX SENIOR HONORARY

Dr. David O. Frantz:

We have a resolution that I would like to read out loud and ask the Board to approve today. This is an expression of appreciation to Sphinx Senior Honorary.

EXPRESSION OF APPRECIATION TO SPHINX SENIOR HONORARY

Resolution No. 2007-117

WHEREAS the Sphinx Senior Honorary for men and women at The Ohio State University will be commemorating 100 years of recognizing and honoring student leaders with celebrations in May 2007; and

April 5 and 6, 2007 meeting, Board of Trustees

WHEREAS the Sphinx Senior Honorary was founded at The Ohio State University in 1907 and is the oldest honor society at the institution; and

WHEREAS being “linked” into Sphinx (selected for membership) is one of the highest honors that can be bestowed on a student at The Ohio State University and is limited to 24 students and select honorary members who uphold the highest ideals of scholarship, leadership, camaraderie, citizenship, and service at The Ohio State University; and

WHEREAS the Sphinx Senior Honorary has had a record of extraordinary impact upon the University, having been the first student organization to hold a meeting in the first student union in 1910 and the Ohio Union in 1951 (April 3, 1951), having started what is known today as the President’s Undergraduate Leadership Awards Banquet, having raised the funds to design and build Sphinx Plaza on the north side of the Main Library in 1982, and having created Sphinx Grove in 1995, a collection of 24 Scarlet Oaks planted on the west side of the Longaberger Alumni House, which was renamed the Dan L. Heinlen Sphinx Grove in 2004 in honor of tried link and long-time president and CEO of The Ohio State University Alumni Association; and

WHEREAS additionally, Sphinx alumni made the largest contribution of any organization to the Ohio Stadium Construction Fund in 1921; and

WHEREAS in celebration of its 100 years at The Ohio State University, Sphinx Senior Honorary and its alumni have committed to raising \$500,000 towards the construction of the new Ohio Union and the naming of a two-room suite suitable for executive meeting rooms and to establish an endowment in honor of Sphinx’s longstanding commitment to student leadership at The Ohio State University; and

WHEREAS in connection with this gift in 2010, Sphinx will once again be the first student organization to meet in the “new” Ohio Union – 100 years after being the first organization to meet in the first student union:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees of The Ohio State University offers its congratulations and sincere gratitude to Sphinx Senior Honorary and its many “Tried Links” as it celebrates its 100th year of leadership and service to the University.

Upon motion of Mr. McFerson, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

A Sphinx Member:

Sphinx links President Karen Holbrook! Originally from Des Moines, Iowa, Dr. Karen A. Holbrook earned her B.S. and M.S. degrees in zoology at the University of Wisconsin - Madison, and a Ph.D. degree in biological structure from the University of Washington, School of Medicine.

Throughout her life, Dr. Holbrook has always been a trendsetter. As the 13th president of The Ohio State University and the first woman to serve in that position, she is a prominent academic leader and respected world-renowned scientist. She has helped shape Ohio State into one of the top ranked research and teaching public universities in America by making research a top priority and an important part of the undergraduate experience. She has increased our student retention and graduation rates, expanded students’ opportunities for international exchange, reinforced Ohio State’s commitment to diversity, and enhanced our campus facilities for students.

April 5 and 6, 2007 meeting, Board of Trustees

Dr. Holbrook has received wide recognition for her leadership in strengthening relationships with the Columbus community, better integrating the connection between academics and athletics, and changing the atmosphere surrounding fall football game days. President Holbrook also makes time to guest lecture in classes at Ohio State to both undergraduate and graduate students while maintaining an open door policy, working with individual students on issues such as the undergraduate research office or with student organizations, or giving her time to hear what students of the University are thinking. She has been honored repeatedly for her many contributions to the scientific world, as well as to academia.

After her retirement from The Ohio State University later this year, she plans to return to her home in Florida. President Karen A. Holbrook is an excellent example of the true meaning of scholarship and undying dedication, compassion, and service to The Ohio State University, making her an outstanding addition to the 101st class of Sphinx.

President Karen A. Holbrook:

Thank you so much. There is nothing that means more than to be honored by the students, because there is nothing that this University stands for more than what we do for our students. All I can say to all of you is thank you so very much. This is a true and deep honor for me. I do appreciate it. Thank your very much.

Judge Duncan:

On behalf of this Board, thanks to Sphinx for many years of service to this University. We are truly grateful and thanks for honoring Dr. Holbrook. What a wonderful thing to do.

Dr. Frantz:

They are not done yet.

A Sphinx Member:

Sphinx links Judge Robert M. Duncan!

Robert M. Duncan, a native from Urbana, Ohio, earned his Bachelor of Science in Education degree, a law degree, and an honorary Doctorate of Laws degree from The Ohio State University.

He became Ohio's youngest Supreme Court Justice in 1969 and the first person of color to serve on Ohio's highest Court. In 1971, he was appointed by President Nixon to the U.S. Court of Military Appeals, where he served as Chief Justice in 1974. As a federal judge of the U.S. District Court for the Southern District of Ohio, he wrote the landmark order ending segregation in Columbus Public Schools in 1979. His fairness, leadership, and accessibility to community groups set a national standard for peacefully accomplishing a major social change.

Judge Duncan has dedicated his life to serving Ohio, and the students, faculty, and staff of this University. His commitment to the love of Ohio State is unconditional. Whether it is through the Honorable Robert M. Duncan Scholarship of the Moritz College of Law or his role as the chair of the Board of Trustees, Judge Duncan has exemplified the true passion of serving this institution and maintaining its land-grant mission.

April 5 and 6, 2007 meeting, Board of Trustees

Despite his numerous awards, recognitions, and accomplishments, he is a man of humility, kindness, and grace. The Ohio State University has been privileged to have his service throughout his adult life. As a judge, an Ohio State alumnus, trustee, faculty, and staff member, who created an enduring legacy for service, The Honorable Judge Robert M. Duncan is truly a valuable addition to the 101st class of Sphinx.

Judge Duncan:

I am too old to get surprises like this. Thank you so very much.

--0--

COMMITTEE APPOINTMENTS FOR 2007-2008

Resolution No. 2007-118

BE IT RESOLVED, That the appointments to committees and representatives to various Boards, to include the establishment of a Committee on Trusteeship, for 2007-2008 be approved:

Committee on Trusteeship:

Dimon R. McFerson, Chair
John D. Ong
Walden W. O'Dell
Alex Shumate
Robert H. Schottenstein
Chairperson of the Board, ex officio

Wexner Center Foundation Board:

ROBERT H. SCHOTTENSTEIN⁺ (2010)
LESLIE H. WEXNER

⁺President's Appointment

Upon motion of Ms. Hendricks, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

PRESIDENT'S REPORT

President Karen A. Holbrook:

Today I am very pleased to announce that The Ohio State University has another undergraduate student who was elected as a National Truman Scholar this year. You know that Yoonhee Ha was the Truman Scholar last year and now Joshua Lotz has been named the Truman Scholar this year. You also may know that only 70 students nationally are awarded these scholarships, so it is a very prestigious scholarship. The award of \$30,000 is given to a student who has shown a commitment to public service and will use that money to go on to graduate school.

Joshua is a junior in the Honors Collegium program and is pursuing a combined B.S./M.A. in biochemistry and Chinese. I am not clear how the two fit together, but Joshua is. He is also the co-founder of the Global Health Initiative, which is a student group that builds awareness and opportunities for students who are interested in public health. He is currently conducting research on medicinal plants in the College of Pharmacy and is going to spend next year in China studying the chemical makeup of two Tibetan poppy species with the Chinese Academy of Sciences, which are very prestigious organizations in China. He has studied in China already where he opened a school in a rural Tibetan village and has managed a health clinic in the same area.

He plans to attend medical school and pursue medical anthropology and public health degrees. His goal is to be in public health and work with

April 5 and 6, 2007 meeting, Board of Trustees

indigenous populations both in the United States and abroad. We are delighted that we have another Truman Scholar at Ohio State.

A number of us had the privilege of listening to Ryan Fournier and Kate Christobek give their State of the University Address, which highlights accomplishments from the perspective of the Undergraduate Student Government. They went through the accomplishments that their administration has put in place and I thought I would cite a number of those for you, because they have done a wonderful job.

Student safety has been one of the areas of concern to our student leaders over the last five years and Ryan and Kate have done a great job. One of the first things that is very important is they have received \$958,000 from the City of Columbus to improve the lighting around campus. That is a major accomplishment. They helped purchase a new van for the Student Escort Service, and collaborated with the OSU Police Department, Columbus Police Department, and the University Area Commission to prepare for Michigan week activities; and partnered with the Sportsmanship Council Block "O" during beat Michigan week to also aid in planning and programming. They have teamed with the Columbus Police Department and the Columbus Fire Department on the University Student Government Safety Day that they hold in the autumn, and they have hosted the second Community Safety Summit with the Columbus Police Department and the University Area Commission to discuss safety on- and off-campus. A high priority for them.

USG also did something that I think is very innovative, which was creating the Center for Financial Wellness. This Center is being established to help students coordinate and understand what it means to be in debt, how to stay out of debt, and how to help themselves financially as they go through school. This Center will be a one-stop shop site.

USG worked on Ohio State Votes, a partnership activity with the John Glenn School of Public Affairs and the Ohio Union Activity Board. The partnership registered students in the campus precinct – a 76% increase in registration. They also hosted two important discussions and dinners: 1) a diversity dinner to talk about diversity issues on campus; and 2) a dinner was held at the John Glenn School for legislators, legislative aids, and City Council members to talk about what is important to students on campus.

They hosted an Association of Big Ten Students Conference and took it upon themselves to meet with Governor Strickland and Chancellor Fingerhut soon after both of them came on board. I really commend them for taking that initiative -- they have done a fine job. Kate is now running for president and Ryan is transitioning out.

I am also pleased to present to the trustees a copy of a publication called, "*Time and Change*" put together by the Office of University Relations. I hope you will take the opportunity to look through it and do some reminiscing of our University. It covers about 137 years of the past and looking at the way things were compared to the way things are today. Since any publication like this is going to be out-of-date the minute it is printed, I am going to give you some up-to-date statistics beyond what is in the publication. This is a lovely publication that gives you a broad sense of what this University is about; what kind of a well-rounded education we offer to our students; what kind of innovative environment they work in because of the research; what the economic impact is of a major research university like ours; and what our commitment is to diversity and to preparing our students to become global citizens. This publication emphasizes outreach and also features the regional campuses. The whole point of it is to give

April 5 and 6, 2007 meeting, Board of Trustees

you a sense of pride, a sense of connection and tradition, and everything we do for the good of our students. I hope you will enjoy looking through it.

Curt, I want to congratulate you and your office in doing a fine job of putting this together for us.

In closing, I want to bring you up-to-date on the most recent *US News and World Report* graduate rankings. I am only going to give you numbers where some of our colleges and programs have improved since last year. Comparing 2007 with 2008 -- Business stayed the same and Education moved up from #24 to #17 -- a big jump. Within the College of Education and Human Ecology, five of our programs each moved up: vocational technical education, curriculum instruction, counseling, secondary teacher education, and administrative and supervision. Medicine has moved up one position -- but has been trekking upward for a longtime and moving very well -- from #32 to #31. Primary Care moved up from #38 to #33. Law moved up from #39 to #31 -- a big jump and it is about time. Law has been doing well for a longtime and this is the kind of jump we expected to see. We thought we would see it gradually, but I suspect it is going to continue growing in the right direction. Dispute Resolution has moved up within the Moritz College of Law. Biological Sciences moved up from #52 to #42 -- a big jump in one year. Chemistry moved from #27 to #28, Veterinary Medicine ranked #5, Nursing ranked #32, and Public Health ranked #12.

We have lots of good news in terms of students, faculty, and programs. Thank you, Mr. Chairman.

Judge Duncan:

Thank you. That is good news.

--0--

STUDENT RECOGNITION AWARD

Mr. Alvarez-Breckenridge:

The Student Recognition Award is presented each month by the Board of Trustees to a student in honor of their achievement in his or her area of study, service to the University and/or community, and research achievements that have been a credit to the college and the University.

This month's recipient, Charlene Chi, from Grove City, was nominated by Dean Paul Beck, from the College of Social and Behavioral Sciences. Charlene will be graduating with honors and distinction this spring in economics and political science. Today, Charlene is accompanied by Dean Beck and her father, Mr. David Chi.

The praise for Charlene comes from multiple sources ranging from Dean Beck who comments that she is a valuable contributor to the diversity of the campus community and has represented OSU and her college very effectively on numerous occasions, to her advisors who view her as one of the best undergraduates they have ever taught.

Charlene has been able to masterfully balance her academics as she maintains a 3.96 GPA, research, internships, and extracurricular activities. Scholastically, Charlene received a Morrill Full Scholarship, is a member of Phi Beta Kappa, and is an Undergraduate Fellow in the Mershon Center for International Security Studies. She has traveled to both Peru and Belize to conduct research on "Donors, NGOs, and the Poor" and has presented this

April 5 and 6, 2007 meeting, Board of Trustees

research at the Denman Forum in addition to other venues across the country. Additionally, she has served as an intern both at the U.S. Embassy in Peru and at the American Council of Young Political Leaders in the District of Columbia. Her co-curricular activities have also been numerous, including: serving as president of Free the Planet, an Undergraduate Student Government Senator, an advisory committee member for the Undergraduate Research Office, and an Honors Ambassador.

With these academic accomplishments, an ability to excel in the research arena and a propensity for selfless leadership, Charlene has placed herself in an excellent position to continue her studies in graduate school. She ultimately hopes to be named as a Faculty Fellow at Columbia University, where she will be pursuing doctoral studies in Developmental Economics. In particular, she hopes to study the interface between sustainable development and environmental protection in developing countries.

Charlene, on behalf of the Board of Trustees, I am very pleased to present this award to you today. Your achievements are truly remarkable and you are indeed an outstanding student. Congratulations and best of luck in your future endeavors!

Ms. Charlene R. Chi:

Thanks for the very generous introduction, Christopher, and thank you for the nomination, Dean Beck.

I want to take this opportunity to say a bit about my experience at Ohio State. I do want to thank Ohio State for the freedom it has given me to create an undergraduate experience that was uniquely mine. It gave me the resources to take courses from art history to physics and to participate in organizations from environmental justice to student government. It has allowed me a lot of flexibility and freedom to design a path that was uniquely mine.

My experiences at The Ohio State University aren't limited to this physical campus in Columbus, Ohio. My ability to travel to Peru and Belize was thanks to financial and faculty support from the College of Social and Behavioral Sciences, Honors and Scholars, and the Department of Economics. Ohio State has given me a lot of support in pursuing opportunities outside of Ohio and the U.S.

When I look back at my four years, the people I have met here will be my most memorable experiences. I have had great fortune to befriend a lot of students who are not only smart and driven, but also caring and compassionate, and, my favorite, idealistic. Being around my friends has made me a deeper thinker and broadened my interests. I have had a good time.

There are two people I would especially like to recognize that are not here today, my advisors Professors Irfan Nooruddin from Political Science, and Joel Wainwright from Geography. They challenged me to be not only a better social scientist, but also challenged me as an individual and to be a better advocate; for that I am truly grateful. Mostly they gave me a deep appreciation for scholastic pursuits especially ones at great public universities such as this one. Thank you for having me.

--0--

ACADEMIC PLAN AND FINANCIAL BENCHMARK REPORT 2007

Provost Barbara R. Snyder: [PowerPoint Presentation]

Good morning, it is great to be here this morning. This is an annual presentation to give you an honest assessment of our academic and financial strengths and weaknesses in areas where additional focus is needed and how we stack up against our benchmarks.

If you will take a look at the screen, you will see the list of our benchmark institutions. These were selected through a process in the creation of the Academic Plan. You can see that structure was one of the issues, as well as size. We will be looking at this again after NRC releases the results of the study of doctoral programs that will come out in 2008, to determine whether these remain the right set of benchmarks for us.

Our benchmarking process is to collect and exchange data with other institutions throughout the year. Annually we update the Academic Plan's Scorecard, which measures our progress on each of its six strategies. Colleges measure their own contributions to meeting their goals and we call these the College Academic Quality Indicators. There are a number of common academic indicators such as faculty honors and awards, and student satisfaction. Then each college has unique indicators such as the number of performances and exhibits in the College of the Arts, and the average salary accepted by MBA graduates for the College of Business. Recently, we have begun to measure the contribution of our academic support units in addition to measuring their contributions in meeting their goals in the Academic Plan, and we have started looking at their efficiency.

The first strategy in the Academic Plan is to build a world-class faculty. We have given you one small measure of that and it shows the tremendous improvement we have made in the number of National Academy members and the Institute of Medicine members. Nearly half of the Academy members have been hired or elected since we put the Academic Plan into place. You can see that we still have a long way to go, but our trajectory is much better than the benchmark average. We are making real progress.

This slide shows you where we are as of last year looking at faculty salary information. We lost some ground from last year when the difference was 0.5% from the benchmark average. Actually, you will hear from Larry Lewellen next month that we are even a little bit farther for 2007. We dropped another two-tenths of a percent and are 1.8% behind the benchmark.

Our second strategy is to develop programs that define us as a leading public land-grant university. One of the most important measures we have been using is our research productivity. You heard from Dr. McGrath earlier this year that we are now 8th among all public universities, 12th among all universities, and we have had a 41% increase since 2000, compared to a benchmark average increase of 30%. You can see we are not just increasing the absolute dollars, but, in fact, increasing at a faster rate than our peers. We don't have the 2006 information for our benchmarks yet, but we are very pleased that our research expenditures increased from \$609 million in 2005 to \$652 million in 2006.

In the *US News* "Best College Rankings," Ohio State moved up from 60th to 57th overall; 21st to 19th among publics; and our peer assessment improved from 44th to 41st overall. We continue to have a gap between our peer assessment ranking and our overall ranking, and I have talked a little bit before about this with you. The *US News* rankings are skewed toward the

April 5 and 6, 2007 meeting, Board of Trustees

private universities, because so many of the factors are on resources. In fact the first public university does not show up on the rankings until #21, which is California-Berkley. The undergraduate business program held steady in the *US News* undergraduate rankings and engineering dropped from #27 to #30.

This slide shows the rankings for graduate and professional programs and is an area where we need to give further attention to. President Holbrook mentioned some of the good news. I am going to point out that we were second to last in the number of top 25 Arts and Sciences' Ph.D. programs and fourth from the bottom for the top 25 professional colleges. In the spirit of honesty, one other thing you should know is that we have more programs eligible to be ranked than some of the other institutions. This is an area we have to work harder in. You will hear from me and Graduate Dean Pat Osmer next month about the change in the funding formula for doctoral programs that we think will help us improve the quality of those programs.

The third strategy is to enhance the quality of the teaching and learning environment. One of the things we do is administer surveys to our faculty and students to measure their satisfaction with the educational experience and the quality of instruction for students. We do this survey every three years and we will be doing it again for undergraduate students this year. I look forward to sharing those new results with you. When we get these data, we provide it at the college-level to deans so each dean knows how his or her college is fairing. We are working on several fronts to assess student learning, which is a national push toward greater accountability. We are participating in the Collegiate Learning Assessment Pilot Study being partially funded by the Lumina Foundation. Our results in the first round indicate our students are performing above the level expected given their qualifications when they enter Ohio State.

This is a chart showing the size of our faculty and total enrollment. This is from the integrated post-secondary education data system. You can get a general sense of where we stand with regard to faculty numbers and total enrollment. I would point out the obvious contrast between The Ohio State University and the University of Michigan, that their faculty numbers are very close to ours, but their enrollment is significantly smaller.

Another measure of the size of our faculty is the student/faculty ratio, which comes from the *US News*. These two systems of counting are different, so you could not take the numbers I gave you in the last chart and come up with these ratios because they use a different definition of full-time faculty. I just want you to be aware of that. I am trying to give you a broad sense of where we stand with regard to faculty and student numbers.

This slide shows you the graduation and retention rates. We have been reporting on these every year, so you know we have been making tremendous progress. We do have some gaps in data; we couldn't get the UCLA cohort data so they are not included in the average. Assuming that we don't have any surprises from UCLA and their numbers don't change, we think this will be the first year that Ohio State's retention rate is actually higher than the benchmark average. This is amazing progress in a very short period of time.

This slide shows you our tuition, fees, and room and board. We are \$150 higher than the benchmark average. Our financial aid is calculated based on the total cost, which includes expenses beyond tuition, fees, and room and board such as books and travel.

April 5 and 6, 2007 meeting, Board of Trustees

This slide shows where we stand with regard to the percentage of institutional financial aid as a percentage of gross tuition per FTE. Miami adopted a new fee schedule effective in the Fall 2004, which charges in-state and out-of-state students the same. This is a high rate of tuition, but guarantees all admitted Ohio residents at least \$11,000 in scholarships this year. Those scholarships make up the bulk of Miami's institutional grants, so it is very difficult to compare them to us in this regard. I should also point out that Central State is very small compared to Ohio State. It only has about 1,600 students, and enrollment and aid fluctuations affect their calculation as well.

The retention rates for our minority students have improved dramatically and are also seeing their graduation rates improving. We expect to be able to report to you in a few years that the graduation rate gap has closed as nicely as the retention rate gap has already done. Those students are in the pipeline now and we look at the graduation rate every single quarter, and I can tell you that the trajectory looks very good.

One of the measures we use in helping to build Ohio's future is technology licensing and commercialization, and these are the particular metrics that you see on the screen. Dr. McGrath recently hired a new leader for this office, Dr. Jean Schelhorn from Battelle. Under her leadership, they are working to rebuild staff and will be presenting along with Dr. McGrath sometime in the near future to give you a more detailed picture of technology licensing and commercialization as requested by Dr. Cloyd.

We don't have benchmark comparisons for 2006, but we do know that our revenue from income generating licenses was up 36% and we project that it will be up another 25% or 30% for 2007. Start-up companies fluctuate quite a bit from year to year, but our five-year trend matches the benchmark average.

I am going to now turn the presentation over to my colleague, Mr. Shkurti, and then we will be happy to take any questions.

Mr. William J. Shkurti:

Thank you, Barbara. Barbara mentioned the benchmark institutions and how they are structurally similar to us. The other point that bears emphasis is that these were picked about a decade ago as institutions -- by and large with one or two exceptions -- that had an academic reputation higher than Ohio State. They have been referred to on campus sometimes as peer institutions and that is not exactly right if you use that definition. The thought at the time was let's take a look at those public institutions that are structured similar to us, so that we are comparing apples to apples, and what is it that they are doing the same or differently or what is it that we are doing the same or differently compared to them that might give us some insight as to what we need to do to make ourselves better. As Barbara mentioned, we have made substantial progress in a number of academic indicators in the last ten years and what will be interesting is to see what we have done despite having a financial resource disadvantage. Sometimes that makes you work harder and smarter, and that has been our case.

Those benchmark institutions are shown on the slide. The one institution missing is Penn State and they are interesting because sometimes they act as a public institution and sometimes they don't. They are somewhat parsimonious in sharing financial data. We would love to have that data when we can, but we can't in all cases.

April 5 and 6, 2007 meeting, Board of Trustees

The data sources we are using are the best available, but I want to mention that the convoluted nature of finances in higher education sometimes makes comparisons across institutions difficult. I think the comparisons we are doing are appropriate given the data, but as you refine and breakdown comparisons using that data sometimes you get some anomalies in the system and I will mention those if it is appropriate.

The first and probably most important comparison we look at is the current funds revenue per full-time equivalent student. Current funds revenue means that we look at fundamentally the academic core, which is education. It is called education in general revenue, so it takes out the Hospitals, Athletics, and other self-supported businesses that operate differently on different campuses. We try to make this an apple to apple comparison as best we can. You can see that our FTE current funds revenue is about \$36,000 per student, compared to a benchmark average of \$42,500 per student and we are 16% below the average. The interesting comparison is with our friends up north who have about \$53,000 per student. When Barbara showed you that they have a higher number of faculty per student that is, in part, because they can afford it. They have both higher tuition and higher state support than we do, but we are closing the gap on them.

I've mentioned before that sometimes we get funny numbers and you will see the University of Texas at Austin who have \$26,900 per student. I am suspicious of those numbers, because I know they are sitting on oil down there and it goes through an endowment that somehow isn't showing up on these numbers. We think the other comparisons are reasonably valid. It shows that we are in pretty tough company, but we are keeping up despite being at a financial disadvantage.

This next chart shows the same numbers you saw before, but over a historical period. Starting in 1995, this is our total revenue per student as a percentage of the benchmark average. Because we have shown the whole chart -- I don't believe in cutting off the bottom of the chart to exaggerate the differences -- it may look like it hasn't changed much, but, in fact, we have been becoming more and more competitive in generating resources in the last ten years. In 1995 we were at 76% of the benchmark average and now we are almost at 84%. Part of what we think happens is a virtuous cycle -- if you have money and you spend it wisely you become a better institution; and if you become a better institution it is easier to attract research grants, private giving, the best students, and that in turn generates more money. We are seeing that virtuous cycle begin to have an effect here. At the current rate it will take us another 15 years to reach the benchmark average, but I would also say that we have made tremendous progress academically over the last ten years while improving our finances marginally. We are doing some things right, but we still have a ways to go.

This next chart compares our current funds revenue in three major categories with the benchmark averages. It shows that our tuition and fees are higher on average per student than our benchmarks. It is primarily because our state support is lower on average per FTE and those two cancel each other out. The other interesting one is Gifts, Grants and Contracts, which includes a variety of things such as public giving, research grants, and various kinds of contracts. On a per student basis we have a substantial gap with the benchmarks. As our reputation improves and the investments we are making in research and development begin to pay off and continue to grow, we will probably have more of an opportunity to close the gap there than we do in tuition or state support. However, we have to work on all of those funding sources.

April 5 and 6, 2007 meeting, Board of Trustees

This chart simply compares our full-time resident undergraduate tuition and fees with the benchmark schools. You can see we are a little higher than the benchmark average and that is primarily not because we are more expensive or we spend more, but because our state support per student is less.

This chart compares our resident undergraduate tuition with the other selective admissions institutions in Ohio and we are lower than all of the others, except for Kent State. That shows what a tremendous value we are for the taxpayers of Ohio and for our students.

This chart looks at the spending side and this is where we have some reporting issues because different institutions classify things differently. I think the broad conclusion you can draw from this chart is it has instructional spending on the far left, non-instructional in the middle, and total spending on the right. Even though we have more limited resources, we are putting them in the right place. Our first priority is the instruction of our students and you can see we are very close to the benchmark average. This means we are matching the top public institutions in the country in what we are spending per student for instruction or very close to matching. I would say the fluctuations in the data are such that a difference of 2% or 4% is not really a significant difference.

Looking at the non-instructional side -- although we have closed the gap some, we are not anywhere close to where these other institutions are. I know we have expressed that some of our buildings are run down and that is one of the reasons. We don't have the resources to put into our buildings as much as other institutions do. That means two things: 1) what resources we do have we have to spend extremely wisely, because we don't have any margin for error; and 2) as we generate additional resources, we also need to find a way to build-up the non-instructional support while still maintaining a strong investment on the instructional side. The implication is that we have less in resources per student, but we have made steady progress since the early 1990's both in our academic performance and in the resources per student. In order to continue to make progress, we will have to continue to manage our existing resources effectively. Although our state support is less than other places, it continues to be important and we need to expand and develop our revenue base.

The final point I would make is that this chart shows our peer assessment. In other words, our academic reputation is measured by a survey the *US News and World Report* does across the country with our annual tuition and fees. Miami, Ohio University, Cincinnati, Bowling Green, and Kent State are all great institutions -- and I wouldn't diminish them in any way -- but if you look at the value that Ohio taxpayers and students get for their dollar in relationship to the academic reputation that follows those students when they leave here, no one comes close to The Ohio State University.

That concludes our formal presentation. Barbara and I would be happy to answer any questions you might have.

Mr. Brass:

You mention that Michigan's state support was greater per student than Ohio. Do you have any data numbers? Do you know what that is by chance?

April 5 and 6, 2007 meeting, Board of Trustees

Mr. Shkurti:

Mr. Brass, off the top of my head, no, I do not, but I would be glad to get that to you. Their bigger advantage is in tuition than it is in state support, but there is a gap of some amount that they get in state support that is higher than what we get.

Mr. Brass:

I was trying to link the two between Barbara's comment on what is happening to our faculty salaries per student and the adjustment that we are falling off a little bit against our available funding for this next year, which is going to be a tight budget. Those two are really of interest to me as we try to close that gap.

Mr. Shkurti:

The other thing I would mention is if you look at where we are losing in relationship to salary to where we are losing ground with other institutions -- although there are some exceptions in the Midwest -- by and large it is California and some of the other sunbelt states where the economy is growing more. They are able to support and invest in their institutions, which in turn gets invested in growing their economy more. That ties back to the conversation we had in the Fiscal Affairs Committee meeting where I think what the Governor is trying to do in Ohio -- which is getting our economy to grow -- is the long-term answer; the problem is we have to pay the bills in the short-term.

Mr. Brass:

That is correct. Thank you, Bill.

Provost Snyder:

Mr. Brass, let me point out one other thing. Recently Michigan has decided to separate the research institutions from the other institutions in terms of state support. It is very controversial. Some of you may have been following this in *The Chronicle*. We will ultimately see what happens with that, but they have put it out there that they are going to treat their three research universities in the state of Michigan differently than the rest of the public universities in the state.

Judge Duncan:

Are there any other questions or discussion?

Dr. Cloyd:

Provost Snyder, could I ask one follow-up question? Was that based on the value that they thought it would bring back to the Michigan economy in regards to selective investment?

Provost Snyder:

I think it is based on a number of factors including value, but also the reality of cost differential. It costs more to educate students in the context of a research environment and that is largely due to faculty and research costs.

April 5 and 6, 2007 meeting, Board of Trustees

Ms. Hendricks:

This caused me to think back some years ago when the state capped tuition, we were seventh or eighth. If we would sign this Compact -- and let's assume everyone signs it -- I recall that Ohio State could never catch up, so there was a time period where the state allowed us to take an increment above the cap. Even if you look at these five selective admissions institutions, you wouldn't call them all research universities. We used to look at all ten institutions separately and then there are the research universities. From a support standpoint, we are sitting low and what we don't want to do is hurt our research university status. I think that kind of thinking could be helpful.

Mr. Shkurti:

Ms. Hendricks, that is a fair point and Chancellor Fingerhut may speak to that when he makes his presentation. There are really two parts to the Governor's plan: 1) there is this immediate hold on tuition as a way to get peoples' attention -- that it is not as expensive as you might think and encouraging more people to go to college; and 2) then the longer term strategy is how you grow the research institutions and the other institutions in relationship to their mission. What we don't want is to get frozen in the status quo and that has been an issue with the state in some previous years.

Mr. Brass:

Barbara, in the statistics that we heard last time from you and also in the report that our President just gave us, our student retention and graduation rates are going the right way. Can you give me a feel for the retention rate of our faculty?

Provost Snyder:

We have looked at that and, in fact, Larry Lewellen and I have reported on that, and we do well with retaining faculty. We have also looked not only at retention numbers -- because they don't look unusual -- but at trends, and also at the other institutions to which we lose faculty because all of those are important things to know. We lose about half of our faculty to other AAU institutions and the other half to non-AAU institutions. We have also looked at whether we lose them to institutions that have a higher average salary than Ohio State. Larry will be presenting on Compensation Benchmarks at the next Board meeting and I will suggest then that we have more specific information for you about faculty losses, but turnover is not terribly high. Sometimes it isn't the numbers, but who you are losing and if you are losing your very best people that is an issue.

Mr. Brass:

I would emphasize the same point and that is we want to make sure that our dollars aren't getting out of whack and that we are not losing the best faculty. If the first ones to leave are your better faculty, this is a cycle you do not want to get into.

Provost Snyder:

Because your better faculty have the most options. I have said this before to this Board and I do say this to all of the deans, "You know who your best people are and you need to watch the market." I do the same for the deans. I watch the market for other deans in the same discipline and I know when I

April 5 and 6, 2007 meeting, Board of Trustees

need to make corrections. I make those corrections when I need to, as our deans do for their top faculty.

Mr. Brass:

Good point, thank you.

Amb. Ong:

I participated some years ago at a private university in a benchmarking effort to identify a peer group of research universities. Based on what I know about the institutions in Ohio, my guess is there are only two or three universities in this state that would, by those criteria, be research universities: Ohio State, Case Western Reserve and, maybe, the University of Cincinnati. None of the others would fit that definition. I can't help making that point with the new Chancellor sitting here in the room. Maybe we should think about differential treatment in this state.

Provost Snyder:

Last year we collaborated with Case Western Reserve and the University of Cincinnati to report on the impact collectively of our research to the state's economy and it was a very good report. I think the President discussed it in her remarks at a meeting not too long ago. We share that and agree with you that there is something special that research universities bring to the education of our students, as well as to the economy of our state.

Mr. Alvarez-Breckenridge:

Provost Snyder, I was looking at the academic reputation scorecard and it seems like that is the band of our existence every time we talk about this. I was wondering if you could comment on the undergraduates that are coming in that are improving our academic standing and, hopefully, will translate into academic reputation. Are they primarily coming from Ohio or has the trend been to increase more out-of-state students? I think that would correlate as well with the academic reputation for the University at a national-level if we were bringing in out-of-state students.

Provost Snyder:

Thanks to an investment from President Holbrook, we have targeted greater efforts in some areas toward out-of-state recruitment. Our out-of-state tuition is on the high end and that is an issue for us, because it does make us somewhat less competitive in terms of value and cost compared to some other institutions. In terms of the quality of the incoming student body, we are not done yet because they have until May 1 to tell us whether they are coming. I can tell you that things look very good for this coming fall and I think you will again be celebrating, for the 13th year in a row, the most academically-prepared class we have ever had.

Mr. Shumate:

Bill, you indicated that we first established our peer group about ten years ago. Are you suggesting that we should update or revise that group? Is it still relevant today?

Mr. Shkurti:

Mr. Shumate, it is a good thing you raised that question. Barbara and I have had that discussion about revisiting the list. We have had a lot of back

April 5 and 6, 2007 meeting, Board of Trustees

and forth from faculty, in particular, about why Arizona is in there. At the time, they were a fast riser in research. There is some thought that we may want to revisit this, but it has been put on hold since we are going through a provost transition. I'm sure it will probably come up again. I am almost reluctant to bring this up, but the irony of this is amazing. One of the schools we have talked about perhaps adding to the list is known for the "Gatorchop" and I don't think right now would be a good time to raise the subject. Despite that, the University of Florida has a good academic reputation and that may be one of the schools we look at adding. I think the time has come to take a look at our peer group in the near future.

Judge Duncan:

This is a good way to end the discussion. Thanks very much. Your benchmarking reports are very helpful and we will hope to hear from you again regarding these numbers.

(See Appendix XLIX for background material, page 1073.)

--0--

REMARKS FROM CHANCELLOR OF THE OHIO BOARD OF REGENTS

President Holbrook:

We are delighted to have the Honorable Eric Fingerhut, the new Chancellor of the Ohio Board of Regents, with us here today. Eric, we would like to publicly congratulate you on your new position. We certainly welcome you and are delighted you are here. We know your demonstrated talent and dedication will allow you to provide exemplary service and leadership to the state in this role. Thank you for taking your time to be with us today and we look forward to your remarks. Welcome.

Chancellor Eric D. Fingerhut:

Thank you, Judge Duncan, members of the Board, and President Holbrook. As I told President Holbrook privately, my only regret is that I won't have the chance to work with her in the years to come as I fulfill this role. As a member of the Ohio Senate, I had a chance quite often to talk to the President about Ohio State and the needs of higher education in Ohio. She has been a mentor and counselor to me, and I'm appreciative of that.

I am honored to be here and especially appreciate the opportunity to have listened to the information that you presented before. It confirms what I have thought about this Board, which is that you are willing to take the hard look at what is necessary to do in order to make this the greatest institution that it can be. So thank you for allowing me sit in today.

I am always a little nervous to give any grand thoughts after only three weeks on the job, so I hope you will take it for what it is worth. I do want you to know that I personally appreciate the role that The Ohio State University plays for our state and our system of higher education. I've had this perspective change throughout my life -- first as a young man growing up in Cleveland Heights and thinking about what college I might want to attend, then as a young state senator, who first took office back in 1991, then looking at it from the perspective of a new public official, and now as the Chancellor. I want to say that over time, my perception is that this is indeed a university that is on the rise. The standards are rising, the commitment to quality in excellence is rising, and I also perceive that the rise is growing in velocity, the speed is picking up. It is noticeable from the

April 5 and 6, 2007 meeting, Board of Trustees

outside. Sometimes when you are sitting at the table you are sitting at, you see year to year, month to month, quarter to quarter reports, you may not understand that we see from the outside a dramatic change in this institution, and so thank you for the work you have done on that. In the spirit of Amb. Ong's honest comment, it doesn't mean that I don't expect to see the same and more in the future, but I do recognize what has gone on.

The Governor believes that higher education is the key to turning around Ohio, there is no question about it. What you have seen in the early days of this new administration is a number of initiatives and that they have tried to put higher education front and center in the public policy debate in the state of Ohio. One of those was that he took the very unusual step of intervening in the selection of the next chancellor of the Ohio Board of Regents, and it is well-known I was the suggestion of the Governor, not the traditional way that a chancellor would be selected. The fact that the Ohio Board of Regents not only honored, but partnered with the Governor to make his selection a reality, says volumes about the commitment that our civic and political leaderships have to higher education.

I think the reason that he wanted to intervene in that discussion was the belief that having a governor and a chancellor who are aligned on a vision and strategy for higher education is critical to moving this state forward. Many of you are familiar with the Commission on Higher Education and the Economy, which I was privileged to serve on as a member of the Ohio Senate. One of the findings of that Commission was that gubernatorial leadership is essential to moving higher education off the dime, so the Governor has asked me to play that role as his partner. I think that we will all see the benefits of having a chancellor who is part of the leadership team that is running the state of Ohio, instead of candidly being part of an independent system that can comment but isn't necessarily in the center of the decision-making on higher education.

When the Governor called me about this position he asked me -- and we have had many detailed conversations since -- to join him in creating a system of higher education for the state of Ohio that will truly make us competitive in the 21st century global economy. I think that it is important to spend a moment talking about what it is that we mean by that, because frankly the word "system" is a loaded word in higher education and certainly a loaded word in the state of Ohio. We don't mean the system of higher education has to look like what another state has; we are not planning to import the University of California, lock, stock and barrel or the University of Wisconsin system, lock, stock and barrel. We understand that a system of higher education builds on this state's greatest traditions and builds on the institutions that we have across the state. What we do mean is that for higher education to deliver what this state needs to be economically competitive no single institution can do it all. If we depend on each institution to try to do it all, we will surely fail as we have done to some extent in keeping up with the global competitiveness and the education-level of our state. Instead if we look at us as a system, then we believe collectively that each institution plays its essential role and we can make higher education the driver of our economic competitiveness in the global economy. To be even more concrete, we need to be clear about what the missions of each of our institutions are and how those missions relate to each other and, of course, to the important economic and public policy goals of the state of Ohio. I think if we are candid with ourselves, we haven't been as clear with our institutions and they with us about what each of their missions and roles are in our higher education system.

I know that money is on everyone's mind today. I attended the Fiscal Affairs Committee meeting this morning and heard Bill Shkurti's presentation and

April 5 and 6, 2007 meeting, Board of Trustees

heard the comments. Once we are able to be clear about what we want each of our institutions to be, to do, and to contribute, I then believe, and the Governor then believes, that it is possible for us to design a funding system that affirms and supports those missions. To the comments that Provost Snyder and Amb. Ong made -- and I heard his comment to me loud and clear -- to the question of would we envision a different system of funding or a different calculation of funding based on differentiation of missions? The answer is that it is certainly a possibility, but it follows the clarification for all of us of what those missions are.

Now what does that mean for our view of The Ohio State University? I certainly speak for myself here -- the Governor and I have spoken about this and he would speak, I am sure, quite eloquently for himself -- but I want to be very clear that for my chancellorship, I believe, that a great state -- and Ohio is a great state and will continue to be a great state -- needs a flagship public research university. Indeed, if we want to be the best state, we need to have the best public flagship research university. It would be our goal to partner with you to see that the next time those benchmarks change it is because we are putting ourselves in increasingly competitive company with the goal of becoming the best public flagship research university in the nation and competitive with any research university public or private in the world. We understand that has value for the state of Ohio and its citizens that cannot possibly be captured in the best document that Curt Steiner can put together. It is simply a value, probably beyond numbers, but it would be at the core of the state's economic turnaround strategy.

Of course there are challenges to achieving that and you have talked about some of them this morning, resources being one of them. Let me mention two challenges that we can work on together as we move forward. Then I will stop and be happy to engage in any conversation or dialogue.

The first challenge is that we together have to do a better job of articulating the benefit of a flagship public research university to all of the citizens of the state of Ohio. It is no surprise that I report to you that there are still many thoughtful members of the legislature and other public officials in the state who view the resources that come to The Ohio State University as a zero sum game with resources that go to either other institutions or other parts of the state. In my opinion, the only way to overcome that is to explain carefully, clearly, and consistently why this is an institution of state-wide responsibility, state-wide scope, and state-wide benefit, and global in scope and competitiveness to the citizens of the state of Ohio. On every corner, wherever they live, whether they will ever attend or not attend here, they benefit from the impact of The Ohio State University.

The second challenge is that we have to do a better job of articulating the benefit of The Ohio State University to our other institutions in the state of Ohio. There are many things that this institution is able to do, whether it is from the terrific administrative support staff that you have -- that certainly exceeds in its capacity which most of our other four-year public institutions can't muster -- or from the research end or from the teaching end. There are many things that happen at this institution that can be shared with and can benefit the other institutions in the state of Ohio. Again, if we are going to be the flagship public research university for our state, then we also need to be clear about how we can assist the other institutions in their missions.

As I close, let me say one word about the Compact and that is to thank you truly for the constructive response that has come forward from your senior and professional leadership, as well as today from the Board of Trustees. The Governor understands and I understand that the parameters of the Compact that have been put on the table present a difficult challenge. This

April 5 and 6, 2007 meeting, Board of Trustees

is not an easy thing to accomplish. It is painful and it requires shared sacrifice. Obviously, we believe that it is a necessary step in order to begin the process of public reinvestment in higher education. Therefore your very positive response coming from The Ohio State University, which provides a leadership role in higher education beyond just your own institution, has been an enormous benefit.

The Compact is meant to be a full document that embodies our collective vision for the future. So while it begins with financial parameters proposed by the Governor -- which will now be considered by the General Assembly, debated thoroughly, and, we hope, adopted ultimately in form substantially as to what was proposed -- it is simply the parameter in which we will collectively set our vision for the future. That is why it is called the "Compact." The Compact wasn't Governor Strickland's idea alone it also came from many others around the state, including the Board of Regents and the Commission on Higher Education and the Economy. We could say, "it is our way or the highway," but we would then get the kind of quality response that that approach would suggest. Instead we truly do want to, in the spirit of a compact, form a collaborative relationship that sets our visions, sets our goals, and understands the roles of this institution and the others for the future of the state of Ohio. Then we will put our shoulders to the grindstone to achieve it.

I thank you for the opportunity to share some thoughts as I begin the role as Chancellor of the Ohio Board of Regents. I am happy to discuss or listen to any issues, suggestions or comments you might have.

Judge Duncan:

Thank you.

Mr. O'Dell:

Welcome, Chancellor. I really appreciate the vision you laid out and your talk about articulating the benefits consistently and I think we all agree with that. What would be your preliminary thoughts on the right way to go about them?

Chancellor Fingerhut:

They would be very preliminary, Mr. O'Dell. I think that we have to recognize that communicating it just through the political process is probably not adequate. Ultimately what public officials know, and Speaker Davidson understands this well, comes from the public media. In the era of term limits where we are going to have constant turnover in the members of our legislature and people with little background and experience in this area, often we can't just focus on educating each newly-elected member. Therefore at a high level this is about a communication strategy that reaches the average citizen not just focused on opinion makers. Opinion makers will follow to some extent the understanding that the public has of the benefit of this institution to the state.

Dr. Cloud:

Chancellor Fingerhut, have you thought through the process that you want to follow for establishing clarity of mission of the different universities and how they will interrelate to make ultimate decisions that you are going to want to have from the state's standpoint, in terms, of how you want to invest?

April 5 and 6, 2007 meeting, Board of Trustees

Chancellor Fingerhut:

Partially. Again to refer to the Compact, it is my hope and belief that by forming a Compact between the institutions of higher education and the state, that we will have the infrastructure within which to conduct these conversations. I want to acknowledge one of the things that is exciting about this particular moment in time in the state of Ohio. It is not that we have a new Governor who has put higher education at the center of his agenda and picked a new chancellor who will partner with him to do that, but through your association in the Inter-University Council you selected a new leader, former Lieutenant Governor Bruce Johnson. He is not only very able in terms of his thinking about public policy, but in his deep understanding of how the system works. In the last three weeks, Bruce and I have spent a lot of time together and that association will be very helpful in advancing this idea of a mission differentiation. He and I are aligned on that goal.

Further, we have legislative leaders who are deeply committed to this. Speaker Husted is a remarkable leader on the subject of higher education. In his opening remarks to the General Assembly this year, he spoke very clearly about higher education being at the top of his agenda. Since the budget is now in the House, I am spending more time there than in the Senate. Speaker Husted and I have had a number of conversations, including yesterday afternoon about these precise issues. It is not a secret that prior to my appointment as Chancellor I met privately and extensively with both the Speaker and the President of the Senate. Having served in the Senate, I have the relationship to have a candid conversation with the President of the Senate and he also shares this vision.

We have remarkable alignment at a high level in what we hope to achieve in higher education in Ohio. Now comes the hard work of getting it down to a specific plan with goals and accountability measures and benchmarks for us as a system as you have for your institution. I feel like we have the talent at the table and, of course, we look forward to adding your new President to that mix as we move forward.

Dr. Cloyd:

I have one follow-up question, Chancellor. Do you have a timeframe or a timeline by which you hope to establish this mission clarity and differentiation?

Chancellor Fingerhut:

Yes. I wouldn't say a firm timetable, but it certainly would be soon. I would say that we would want to be in a position whereby in the next biannual budget we could speak to the legislature in terms of funding against the mission. This would mean we would have to get to work very quickly.

Ms. Hendricks:

I assume this effort is focused on the public higher education system. Is there any interface with the private four-year colleges in the state?

Chancellor Fingerhut:

Yes, Ms. Hendricks. In my opening remarks to the House this week -- which was the first time I was able to speak publicly on the subject -- I did outline the role that we believe should be played by all of the sectors. For example, we believe that the state of Ohio desperately needs a two-year

April 5 and 6, 2007 meeting, Board of Trustees

community college system that provides a world-class community college education to every citizen in the state of Ohio. There are parts of the state that benefit from that and there are parts that do not currently have that today. As you well know, that is the core of the workforce development pipeline. The four-year universities in a broad brush provide the innovative and leadership talents that are going to drive our state and, ultimately, make us a magnet for businesses, investment, and capital from the outside.

The private institutions in this state come in two categories. We have private research universities -- Case Western Reserve and the University of Dayton -- which are also a substantial magnet for research dollars. We all understand the role that great private research universities play in the economies of their state. I spent three wonderful years at Stanford in law school. I wasn't doing any of the research, but I certainly understand what Stanford has meant to northern California and to the economy of the area. We want to be partners with our private research universities and see them excel as much as they possibly can. I am very much looking forward to working with the new President of Case Western Reserve and with the University of Dayton.

Secondly, we have a remarkable network of private liberal arts colleges. Ohio is blessed with richness. These institutions do provide much of the talent and leadership which end up leading our businesses and public institutions across the state. We want to partner with them and support them through financial aid.

As you may know, the Governor has asked that we focus our aid on need-based financial aid with significant increases in the Ohio College Opportunity Grant Program, which will benefit this institution as well; it is one of the other financial areas. While we are looking at the Compact, we also need to understand that whether it is the research that the Governor is recommending -- with regard to research incentive and with respect to need-based financial aid -- it will also add to essentially the bottom line of this institution and will do the same for the private sector. Also, as we attack the needs of the state, whether it is in the area of stem education, entrepreneurship, or rebuilding an innovation economy in the area of healthcare -- where we are meeting the needs of our healthcare industry with professionals that can fill the open jobs -- we very much believe that the private institutions are part of the pipeline. We intend to partner with them, but we hope to structure that partnership in a way that it is mission-driven.

Judge Duncan:

Chancellor Fingerhut, thanks very much for visiting and sharing your thoughts with us today. We would hope as Chancellor this will be the first of many visits you will have to The Ohio State University.

Chancellor Fingerhut:

Thank you, Judge Duncan, I look forward to it.

--0--

COMMITTEE REPORTS

Judge Duncan:

I would like to call for committee reports and will call on Mr. O'Dell for the Agricultural Affairs Committee report.

April 5 and 6, 2007 meeting, Board of Trustees

Mr. O'Dell:

The Agricultural Affairs Committee met this morning and received a report on Carbon Management and Sequestration from Professor Rutan Lal. Carbon sequestration involves reducing atmospheric abundance of carbon dioxide and other greenhouse gases through natural processes of increasing carbon in the soil and trees, and using biomass to produce carbon-neutral ethanol. Increasing the soil carbon pool is essential to advancing global food security, especially in Africa and Asia, improving the environment, and restoring desert-defied lands and degraded ecosystems. It also provides another income stream for farmers through trading of carbon credits.

Led by Professor Lal, the Ohio State Carbon Management Center has developed national and international networks of researchers in Latin America, Central Asia, South Asia, and Africa. Iceland's President Grimsson visited Ohio State on April 1-2. A memorandum of understanding was signed by President Grimsson and President Holbrook, with their goal to make Iceland an emission-neutral country. Ohio State will work with Icelandic institutions to enhance terrestrial carbon sequestration and achieve this goal. These results will be validated in Africa and Asia. The climate water carbon project is very relevant to the proposed program. This project will be implemented in Iceland, Costa Rica, Ohio, and expanded to India and Asia. Terrestrial carbon sequestration is a win-win-win strategy.

Judge Duncan:

Any questions or discussion? I will now call on Dimon McFerson for the Medical Center Affairs Committee report.

Mr. McFerson:

Thank you, Mr. Chairman. The Medical Center Affairs Committee met this morning from 8:00 – 9:30 am. We first had a report from Dr. Sanfilippo on what we refer to as "people and program" updates. Perhaps the most exciting thing that came out of the report is an item on our consent agenda today that Dr. Tom Ryan will be voted on as our new director of The Ohio State University Heart Center. He formally held a similar position for eight years at Duke University Medical Center. This is a huge plus for us to attract someone from a top ten heart organization to the OSU Heart Center. We are very excited about this hire.

Next we had a report from John Stone on the February financials through the first eight months of the year. Things look very good. We are a little bit ahead of budget and we are pleased with that.

Pete Geier, CEO of the Health System, went through the consent agenda items that are being presented to the Board today for vote and it includes appointment or reappointments to the Self-Insurance Board, approval of non-academic center status for the Clinical Diabetes Research Center, and a couple of personnel appointments, including Dr. Ryan.

Bill Shkurti gave us an update on the Medical Center Facilities Plan with the consultants. That work is now underway and we expect to continue to follow that very closely. We had some good conversation to make sure that every constituency has an opportunity to have their issues addressed, so at the end of this fast 60-day period we have a solid understanding and buy-in from all sources.

April 5 and 6, 2007 meeting, Board of Trustees

We then went into Executive Session for the purpose of discussing personnel matters regarding appointment and employment, and matters to be kept confidential by state statute.

Judge Duncan:

Any questions or discussion? Let me call on Amb. Ong for the Academic and Student Affairs Committee report.

Amb. Ong:

In the Academic and Student Affairs Committee meeting, we first had an update on Student-Athlete Support Services – SASSO -- from Director David Graham.

Mr. Graham explained that SASSO's role is to help our athletes achieve their highest potential as both athletes and students. Ohio State has nearly 1,000 student athletes majoring in more than 120 fields, with an average 3.0 GPA. About 30% of our student athletes are high-ability students whose grades reflect that ability; 65% are good, average students; and about 5% need help to perform their best.

SASSO supports our student athletes by working with various University offices and academic advisors. It also sponsors the CHAMPS program, which promotes good decision-making and communication skills, volunteerism, and personal development.

In 2005, in order to knit athletics and academics more tightly together, SASSO was moved from Athletics to become a part of the Office of Academic Affairs. SASSO continues to receive its financial support from Athletics, with Academic Affairs providing administrative support. The transition has been very smooth, which was evident from the presentation this morning. SASSO is presently developing a Student-Athlete Leadership Academy to promote leadership skills throughout a student-athlete's academic career. It is expected to launch in Autumn 2007. Vice Provost for Enrollment Services and Dean for Undergraduate Education Martha Garland and Athletics Director Gene Smith were on-hand during the presentation and participated in the questions and answers.

We next heard a progress report on our sorority and fraternity communities from Kurt Foriska, senior coordinator of Greek Life, and Jason Kalira, a member of Sigma Phi Epsilon fraternity and immediate past president of the Interfraternity Council.

Before 2001, OSU's Greek community was plagued by low grades, declining membership, and values that were not congruent with the organizations' standards or with the University's requirements. To address these issues, the University commissioned a Greek Life Task Force to provide recommendations for improvement. This group created a document called "Standards of Excellence" that presented minimum expectations in such areas as academic performance, fiscal responsibility, and recruitment and retention. Over the past six years, these standards have been implemented and the results have been quite significant. Total membership in fraternities and sororities has increased by a full 30% and grades have improved. In 2001, the all-Greek average was 2.9 GPA; it is now 3.1 GPA; and the all-undergraduate average is 3.0 GPA.

The entire Greek community has twice won the Outstanding Change Initiative Award given by the National Association of Fraternity Advisors. Recently students and alumni have approached the University to say that

April 5 and 6, 2007 meeting, Board of Trustees

the original Standards of Excellence are now too low. The Ohio Union has formed nine committees to propose changes. The new standards are likely to include: higher GPA requirements, increased community service, increased focus on wellness, and increased attention to safe housing.

Finally, our Committee endorsed the following resolutions: 1) non-academic center status for the Clinical Diabetes Research Center; 2) amendments to the *Rules of the University Faculty*; and 3) routine personnel actions.

Chairman Duncan, that concludes my report.

Judge Duncan:

Are there any questions or comments? I will now call on Jo Ann Davidson for the Fiscal Affairs Committee report.

Mrs. Davidson:

Thank you, Mr. Chairman. Traditionally the April meeting of the Fiscal Affairs Committee begins with a discussion of what our fiscal year, which begins July 1, will look like as far as budget concerns and this always brings us around to the issue of what our tuition fee changes might be. You already heard a bit about the Compact from Chancellor Fingerhut, but the Compact basically offers state universities an opportunity to opt in or opt out. If OSU opts in there are certain restrictions, including a tuition freeze for Fiscal Year 2008 and a 3% tuition increase in Fiscal Year 2009. Also, we would receive a 5% increase in state funding the first fiscal year and a 2% increase the second fiscal year – this would be guaranteed. Mr. Shkurti gave us a diagram of what kind of an impact that would have on the University. He did clarify that -- because of the way the funding formula works through the Board of Regents -- rather than receive a 5% increase, the University would actually receive a 4.2% increase. This is because it is covered by enrollments and how those enrollments vary across the state. Looking at the perspective that we are at right now, if we opted into the Compact this would give us \$7 million for the first fiscal year and a \$7 million gap which we would need to fill.

There are also a lot of unpredictabilities. It is much easier to do this tuition and budget in an off-budget year. As you know, we have a new administration that has come out with this proposal and we are going to be watching carefully what happens in the legislature as we go through the process.

There are also some unanswered questions: How would this affect our fees? There are certainly some increased fees that are needed -- particularly the RPAC fee, which pays the debt service and operating cost of the recreation center. There was a commitment made to this Board that RPAC would be paid entirely through fees. Other questions to consider are about certain efficiency savings that are required as part of the Compact. What is that definition of efficiency savings and what portion of the budget does it apply to? What happens if the state gets into financial difficulties and the commitment for the state increase does not happen? What kind of a position does that put the University in? Also there are some concerns about the Tier 1 students that were granted a lower tuition for a period of time. We were intending to phase the Tier 1 fees out this fall, so how would these requirements affect that? So there are still a lot of unanswered questions.

The timetable would be for Mr. Shkurti to come back to the Committee with a proposal and other options if the Committee wants those in May, and no

April 5 and 6, 2007 meeting, Board of Trustees

action by the Board until June. There was some discussion as to whether or not with the unpredictability of what is going to be the outcome here is there a way of delaying that decision until perhaps our July meeting. It does cause us some complications, but that is something at least that we could still keep on the table. We also had a very brief report on the consultant's contract and timetable for assessing the Medical Center Facilities Plan, with a final reporting date back to us at the end of May.

Melissa Bellini gave us a report on the Student Services Building, which is the new building to be constructed at the corner of Lane Avenue and Tuttle Park Place. It will be a gateway to campus from Lane Avenue and will include a Lane Avenue garage as part of that project, with construction beginning in January 2008. We still need to find a location for Student Services because of changes in other buildings that are being returned to residential status.

We have six resolutions coming out of the Committee for the consent agenda today. Two resolutions are coming from the cancelled Investments Committee meeting that the Fiscal Affairs Committee handled this morning: 1) the appointment of two new investment managers, which are part of our asset reallocation; and 2) the Development Report. Dr. Schroeder gave this report and it shows that we have a 16% increase in our gift receipts and a 4% increase in donors from this position that we were in last year, but an overall 1% decrease in our yield because of some differences in pledges and planned gifts.

We also have four other items being recommended for the consent agenda today. The first resolution would be authorizing eight design contracts, one increase in our design contract, and five construction projects. The second resolution is to permit the University to move ahead in the process of being declared their own local authority for handling construction of our projects. Right now we can do that if the projects are \$4 million or below; if they are above that amount we have to go through the Department of Administrative Services, which is a lot of paperwork and a delay in time. The legislature has permitted us to go through an application process to be our own administrators of these projects and that resolution will authorize our application to do that as a university.

The third resolution is for an increase in certain athletic ticket prices -- membership of the Golf Courses and a \$1 increase in football and basketball tickets. In responding to the question about where we stand among other Big Ten universities, we would in most instances be at the top of the list. There are some universities that charge a premium price particularly when they are playing Ohio State. In some instances, the premium price would be above the \$60 per ticket we charge and in one instance, it is a \$70 per ticket charge. We are virtually at the top of the Big Ten in ticket prices.

The last resolution is for the issuance of some commercial paper notes to hold us over until we do our bond issue, which is planned for later this fall. Those are the items coming from the Fiscal Affairs Committee meeting for your approval today.

Thank you, Mr. Chairman.

Judge Duncan:

Are there any questions or discussion? Thank you.

--0--

CONSENT AGENDA

President Karen A. Holbrook:

We currently have twelve resolutions on the Consent Agenda today and we are seeking your approval for:

REGIONAL CAMPUS BOARD REAPPOINTMENTS

Resolution No. 2007-119

Synopsis: Approval of reappointments to The Ohio State University Mansfield Regional Campus Board are proposed.

WHEREAS the Board of Trustees in 1994 approved the establishment of The Ohio State University Regional Campus Boards; and

WHEREAS it has been previously stipulated that "the board shall be composed of ten members appointed by The Ohio State University Board of Trustees in consultation with the president of the university;" nine members shall be private citizens; and one member shall be a student); and

WHEREAS the following named persons have been nominated and selected for reappointments to the OSU Mansfield Regional Campus Board for the terms specified:

Mansfield Board Reappointments

Shelley G. Fisher, July 1, 2007 – June 30, 2010, 3rd term
Timothy J. Lehman, July 1, 2007 – June 30, 2010, 3rd term
Kevin P. Nestor, July 1, 2007 – June 30, 2010, 3rd term
Randal L. Roberts (student), July 1, 2007 – June 30, 2008, 2nd term

NOW THEREFORE

BE IT RESOLVED, That the foregoing nominees be approved as members of the OSU Mansfield Regional Campus Board.

APPOINTMENT/REAPPOINTMENTS TO THE SELF-INSURANCE BOARD

Resolution No. 2007-120

Synopsis: Appointment/reappointments of members to the Self-Insurance Board are proposed.

WHEREAS the Board of Trustees on December 6, 2002, approved the expansion of the University Self-Insurance Program to include the faculty physicians and their clinical staff who are employees of Ohio State University Physicians, Inc.; and

WHEREAS the Board of Trustees directed that a Self-Insurance Board be established to oversee the University Self-Insurance Program; and

WHEREAS all members of the Self-Insurance Board shall be appointed by The Ohio State University Board of Trustees upon recommendation of the President:

NOW THEREFORE

April 5 and 6, 2007 meeting, Board of Trustees

BE IT RESOLVED, That the following individuals be appointed/reappointed as members of the Self-Insurance Board effective May 1, 2007, for the term specified below:

R. Reed Fraley, term ending April 30, 2009 (reappointed)
Dimon R. McFerson,* term ending April 30, 2009 (reappointed)
Hagop Mekhjian, M.D., term ending April 30, 2009 (reappointed)
Wilburn Weddington, M.D., term ending April 30, 2009 (reappointed)
Thomas W. Johnson, term ending September 30, 2007 (appointed)

BE IT FURTHER RESOLVED, That these appointments entitle the members to any immunity, insurance or indemnity protection to which officers and employees of the University are, or hereafter may become, entitled.

*Appointed as chairman of the Self-Insurance Board

APPROVAL OF NON-ACADEMIC "CENTER" STATUS

Resolution No. 2007-121

Synopsis: Approval of non-academic "center" status is proposed.

WHEREAS faculty rule 3335-3-36 (A) specifies that: "Use of "center" or "institute" in the names of proposed units of the university shall be limited to academic centers, unless approved by the Council on Academic Affairs"; and

WHEREAS a request has been received from the College of Medicine for the use of this term for the "Clinical Diabetes Research Center" to initiate, develop, and coordinate multidisciplinary clinical programs in diabetes; and

WHEREAS subsequent use of the term "academic" center will require that a formal proposal for academic center status will need to be submitted to the Council on Academic Affairs for full review; and

WHEREAS the Council on Academic Affairs reviewed this formal request on February 21, 2007 and had no objections:

NOW THEREFORE

BE IT RESOLVED, That the use of the term "center" for the "Clinical Diabetes Research Center" be approved, effective immediately.

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 2007-122

Synopsis: Approval of the following amendments to the *Rules of the University Faculty* are recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the *Rules of the University Faculty* as approved by the University Senate; and

WHEREAS the proposed changes in the *Rules of the University Faculty* were approved by the University Senate on March 8, 2007:

April 5 and 6, 2007 meeting, Board of Trustees

Amended Rule

3335-5-48.18 Graduate associate compensation and benefits committee.

(A) Membership.

The graduate associate compensation and benefits committee shall consist of ~~seventeen~~ eleven voting members.

(1) ~~Nine~~ Six funded graduate students, at least ~~four~~ one of whom must be ~~members~~ a member of the council on research and graduate studies and one of whom must be a member of the university senate. Two shall have a term of service of two years, staggered so that one term expires at the end of each year. The remaining ~~seven~~ four shall have a term of service of one year.

(a) There shall be at least ~~two~~ one graduate teaching ~~associates~~ associate.

(b) There shall be at least ~~two~~ one graduate research ~~associates~~ associate.

(c) There shall be at least ~~two~~ one graduate administrative ~~associates~~ associate.

(d) Unchanged.

(2) ~~Four~~ Two faculty.

(a) ~~Two~~ One faculty ~~members~~ member from, and selected by, the council on research and graduate studies.

(b) ~~Two~~ One faculty ~~members~~ member, who is also a senator, selected by the executive committee of faculty council.

(3) Unchanged.

(4) One department, school, center or college-level staff member with extensive fiscal and budgetary experience and expertise, selected by the executive deans in consultation with the senior fiscal officers, non-voting.

(5) Unchanged.

Balance unchanged.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the *Rules of the University Faculty* be adopted as recommended by the University Senate.

PERSONNEL ACTIONS

Resolution No. 2007-123

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the March 2, 2007 meeting of the Board, including the following Appointments, Reappointments of Chairperson/Director, Leaves of Absence Without Salary, Professional Improvement Leaves – Change in Dates, Promotion and Tenure, and Emeritus Titles, be approved; and

April 5 and 6, 2007 meeting, Board of Trustees

BE IT FURTHER RESOLVED, That the Medical Staff Appointments approved on January 30, 2007, by The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board, be ratified.

Appointments

Name: THOMAS RYAN, M.D.
Titles: Director and Professor (The John G. and Jeanne Bonnet McCoy Chair in The Ohio State University Heart Center)
Center/Department: OSU Heart Center/Internal Medicine
Term: July 1, 2007, through June 30, 2011
Present Position: Professor of Medicine, Director of the Duke Heart Center, and Vice Chief for Clinical Services, Division of Cardiology, Duke University Medical Center

Name: DANIEL D. SEDMAK, M.D.
Title: Executive Director
Center: Center for Personalized Health
Term: April 1, 2007 through March 31, 2011

Name: PETER M. SHANE
Title: Professor (Jacob E. Davis and Jacob E. Davis II Chair in Law)
College: Moritz College of Law
Term: April 1, 2007 through March 31, 2017

Reappointments of Chairperson/Director

MICHAEL V. KNOPP, Department of Radiology, effective July 1, 2006 through June 30, 2007

MELLASENAH Y. MORRIS, School of Music, effective July 1, 2007 through June 30, 2011

Leaves of Absence Without Salary

MICHEL P. TALAGRAND, Professor, Department of Mathematics, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to conduct research in Paris, France.

NEELI M. BENDAPUDI, Associate Professor, Department of Marketing, effective Spring Quarter and Autumn Quarter 2007, and Winter Quarter 2008, to join Huntington Bancshares Inc. as Chief Customer Officer.

JOSEPH H. HARITONIDIS, Associate Professor, Department of Aerospace Engineering, effective Autumn Quarter 2007, for personal reasons.

INDIRA L. CHATTERJI, Assistant Professor, Department of Mathematics, effective Autumn Quarter 2007, to attend a special semester in Geometric Group Theory at the Mathematical Sciences Research Institute at Berkeley.

JENNIFER F. EISENHAEUER, Assistant Professor, Department of Art Education, effective February 12, 2007 through March 11, 2007, for personal reasons.

Professional Improvement Leaves—Change in Dates

ROBERT F. LAWSON, Professor, School of Educational Policy and Leadership, change leave from Autumn Quarter 2006, Winter Quarter and Spring Quarter 2007, to Autumn Quarter 2006 and Winter Quarter 2007.

April 5 and 6, 2007 meeting, Board of Trustees

ERDAL OZKAN, Professor, Department of Food, Agricultural, and Biological Engineering, change leave from Spring Quarter 2007 and Summer Quarter 2007, to Autumn Quarter 2007 and Winter Quarter 2008.

UMIT S. OZKAN, Professor, Department of Chemical and Biomolecular Engineering, change leave from Spring Quarter and Autumn Quarter 2007, to Autumn Quarter 2007 and Winter Quarter 2008.

YUNZHI WANG, Professor, Department of Materials Science and Engineering, change leave from Spring Quarter and Autumn Quarter 2007, and Winter Quarter 2008, to Spring Quarter and Autumn Quarter 2007.

Promotion and Tenure

COLLEGE OF MEDICINE

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Leone, Gustavo W., Molecular Virology, Immunology & Medical Genetics - effective 4/1/2007

[Prior approval postponed September 5, 2003, pending Permanent Residence status.]

Emeritus Titles

ROBERT W. DOUGLASS, School of Environment and Natural Resources, correct title from Assistant Professor Emeritus to Professor Emeritus, effective February 1, 2007.

MICHAEL A. PEREIRA, Department of Internal Medicine, with the title Professor Emeritus, effective April 1, 2007.

SARA L. STAATS, Department of Psychology (Newark Campus), with the title Professor Emeritus, effective July 1, 2007.

GERALD A. WINER, Department of Psychology, with the title Professor Emeritus, effective April 1, 2007.

ANGELO A. ALONZO, Department of Sociology, with the title Associate Professor Emeritus, effective April 1, 2007.

LOUIS S. FOURMAN, Ohio State University Extension, with the title Assistant Professor Emeritus, effective June 1, 2007.

Medical Staff – Initial Appointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Alex J. Auseon, D.O., Associate Attending, Internal Medicine, Cardiovascular Medicine, 12/8/2006

Jill L. Barno, M.D., Community Associate, Internal Medicine, General Medicine, 12/8/2006

Karen R. Bishop, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 1/30/2007

Kristen B. Davis, PA, Allied Health, Orthopaedic Surgery, Orthopaedics, 12/8/2006

Michael S. Firstenberg, M.D., Associate Attending, Surgery, Thoracic/Cardiovascular, 1/30/2007

Dareth N. Gilmore, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 12/8/2006

Carli N. Greenfield, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 1/30/2007

April 5 and 6, 2007 meeting, Board of Trustees

Richard J. Gumina, M.D., Ph.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 1/30/2007
Elizabeth A. Hingsbergen, M.D., Associate Attending, Radiology, 1/30/2007
Phuong C. Hoang, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 12/8/2006
Eric J. Hoover, C.R.N.A., Allied Health, Anesthesiology, 1/30/2007
Kathleen K. Kafka, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 12/8/2006
Frederick R. Long, M.D., Associate Attending, Radiology, 12/8/2006
Douglas D. Martin, M.D., Attending, Radiation Medicine, 12/8/2006
Lisa C. Martin, M.D., Associate Attending, Radiology, 1/30/2007
Anne T. McPherson, C.N.P., Allied Health, Internal Medicine, Cardiovascular Medicine, 12/8/2006
James W. Murakami, M.D., Associate Attending, Radiology, 12/8/2006
Donna M. Owen, C.N.P., Allied Health, Surgery, Urological Surgery, 1/30/2007
Jason R. Patterson, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 12/8/2006
E. Steve Roach, M.D., Associate Attending, Neurology, 1/30/2007
William D. Roberts, M.D., Associate Attending, Anesthesiology, 1/30/2007
Karla M. Rusk, C.N.P., Allied Health, Internal Medicine, Cardiovascular Medicine, 12/8/2006
Jerome E. Stasek, Jr., M.D., Associate Attending, Internal Medicine, Pulmonary, critical care, 12/8/2006
Yalaunda M. Thomas, M.D., Associate Attending, Surgery, General Surgery, 12/8/2006
Kathrynn S. Thompson, C.N.S., Allied Health, Psychiatry, 1/30/2007
Alexandru M. Vaida, M.D., Attending, Surgery, Thoracic/Cardiovascular, 12/8/2006
Michelle M. Wende, C.N.P., Allied Health, Internal Medicine, Cardiovascular Medicine, 12/8/2006
Angela S. Wright, C.N.P., Allied Health, Surgery, General Surgery, 1/30/2007
David A. Zvara, M.D., Associate Attending, Anesthesiology, 1/4/2007

Medical Staff – Provisional to Full Appointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Michelle A. Angelis, P.A., Allied Health, Internal Medicine, Hematology/Oncology, 1/30/2007
Don M. Benson, M.D., Attending, Internal Medicine, Hematology/Oncology, 1/30/2007
P. Mark Bloomston, M.D., Attending, Surgery, Surgical Oncology, 1/30/2007
Timothy D. Brennan, M.D., Associate Attending, Internal Medicine, General Medicine, 1/30/2007
Ryan F. Deasy, M.D., Associate Attending, Ophthalmology, 1/30/2007
Charles A. Elmaraghy, M.D., Associate Attending, Otolaryngology, 12/8/2006
Leroy W. Essig II, M.D., Associate Attending, Internal Medicine, Pulmonary, 1/30/2007
Matthew C. Exline, M.D., Associate Attending, Internal Medicine, Pulmonary, 1/30/2007
D. Reynell Harder Smith, D.O., Associate Attending, Ophthalmology, 1/30/2007
Ayesha K. Hasan, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 1/30/2007
Grace Hercl, D.O., Community Associate, Internal Medicine, General Medicine, 1/30/2007
Abraham Jacob, M.D., Associate Attending, Otolaryngology, 12/8/2006
Mark T. Kearns, M.D., Associate Attending, Internal Medicine, General Medicine, 1/30/2007
Christine E. Lawless, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 1/30/2007
Simon Lo, M.B., Ch.B., Attending, Radiation Medicine, 12/8/2006

April 5 and 6, 2007 meeting, Board of Trustees

Scott A. Maffett, M.D., Associate Attending, Internal Medicine, General Medicine, 1/30/2007
Ernest L. Mazzaferrri, Jr., M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 1/30/2007
Jennifer A. Meddings, M.D., Associate Attending, Internal Medicine, General Medicine, 1/30/2007
Enzer Ozer, M.D., Attending, Otolaryngology, 12/8/2006
Jonathan P. Parsons, M.D., Associate Attending, Internal Medicine, Pulmonary, 1/30/2007
Min Pu, M.D., Ph.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 1/30/2007
Bahadar Said, M.B.B.S., Community Associate, Internal Medicine, General Medicine, 12/8/2006
John Stefaniuk, C.R.N.A., Allied Health, Anesthesiology, 1/30/2007
John P. Tzagournis, M.D., Associate Attending, Internal Medicine, Digestive Disease, 1/30/2007
L. Douglas VanFossen, D.O., Associate Attending, Anesthesiology, 1/30/2007
Aaron S. Wenger, M.D., Associate Attending, Internal Medicine, General Medicine, 1/30/2007

Medical Staff – Requests for Additional Privileges (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Alex J. Auseon, D.O., Associate Attending, Internal Medicine, Moderate Sedation, 12/8/2006
Karen R. Bishop, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, 1/30/2007
Michael S. Firstenberg, M.D., Associate Attending, Internal Medicine, Moderate & Deep Sedation, 1/30/2007
Richard Gumina, M.D., Ph.D., Associate Attending, Internal Medicine, Moderate & Deep Sedation, 1/30/2007
Donna M. Owen, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, 1/30/2007
David B. Renton, M.D., Associate Attending, Surgery, Colonoscopy, 1/30/2007
Karla M. Rusk, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority and Discharge Writing, 12/8/2006
Annette L. Staub, C.N.P., Allied Health, Internal Medicine, Intrathecal Chemo Admin, 12/8/2006
Yalaunda M. Thomas, M.D., Associate Attending, Surgery, Moderate & Deep Sedation, 12/8/2006
Alexandru M. Vaida, M.D., Attending, Surgery, Moderate & Deep Sedation, 12/8/2006
Michelle Wende, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority and Discharge Writing, 12/8/2006
Jonathan H. Wynbrandt, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 1/30/2007

RESOLUTIONS IN MEMORIAM

Resolution No. 2007-124

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

April 5 and 6, 2007 meeting, Board of Trustees

Walter L. Fishel

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 13, 2006, of Walter L. Fishel, Professor Emeritus in the Department of Agricultural, Environmental, and Development Economics.

Dr. Fishel held bachelor and master degrees from Purdue University and he earned a Ph.D. degree in agricultural economics from North Carolina State University in 1970. He was appointed to a faculty position at the University of Minnesota in 1969 and promoted to associate professor in 1972. He joined the USDA Science and Education Administration in 1973 and came to The Ohio State University as assistant director of the Ohio Agricultural Research and Development Center, Wooster, in 1977. In 1982, he came to the Columbus campus as a professor of agricultural economics, retiring in 1991.

Early in his career, Professor Fishel was an innovative researcher in stochastic dynamic systems modeling. His pioneering research and writing on costs, benefits, and resource allocation in agricultural research – for example, his edited book, *Resource Allocation in Agricultural Research* (University of Minnesota Press 1971) – is still cited by prominent researchers in the field many years after its initial publication. At the USDA Science and Education Administration and later at the Ohio Agricultural Research and Development Center, he made the transition from researcher studying agricultural research to research policy practitioner and eventually to research administration. During his years on the Columbus campus, he made substantial contributions to undergraduate teaching, including data analysis and programming methods and advising of undergraduate students.

Dr. Fishel was a U.S. Marine Corps veteran, serving from 1951-54 in the Korean War. He was active in his community and a prominent member of the First Christian Church in Bedford, serving as elder and on the board of trustees; was past district governor of the Indian Lions Club; was a member of the American Legion Gillen Post No. 33; was a Dunn Memorial Hospital Red Coat volunteer; and served as treasurer of the Dunn Foundation until 2005.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Walter L. Fishel its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Reed D. Taylor

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 17, 2006, of Reed D. Taylor, Associate Professor Emeritus in the Department of Agricultural, Environmental, and Development Economics.

Dr. Taylor held a Bachelor of Arts degree in agronomy from Brigham Young University and a Master of Science degree in agricultural economics from Utah State University. He earned his Ph.D. degree in agricultural economics from The Pennsylvania State University in 1965. He served in the United States Air Force National Guard from 1957-66, earning the rank of technical sergeant. Dr. Taylor was on active duty in Germany during 1961-62. He served as an agricultural economist in the United States Department of Agriculture from 1966-67 and then served as manager of the New Enterprise Division of the Computer Technology Department of the Monsanto Company from 1967-71.

April 5 and 6, 2007 meeting, Board of Trustees

Dr. Taylor came to The Ohio State University in 1971 and taught in the department for over 20 years, retiring in 1991. His teaching and scholarship interests focused on computer applications for managerial decision-making in food and fiber production, processing and distribution firms, and economic analyses of fruit and vegetable crops.

He was a pioneer in introducing managerial computer applications in management, marketing, and finance courses. Dr. Taylor was an enthusiastic and dedicated teacher and was very devoted to his students.

Professor Taylor served as a business consultant and entrepreneur, co-founding and serving as chair of the board of directors for a fruit juice processing firm. He served as coordinator of the Ohio Department of Education's farm business planning and analysis program.

Dr. Taylor was an active member of the University community and served on numerous department, college, and University committees, including Computer Assisted Instruction and Floriculture and Nurseries. He was very active in his church and served for over 30 years in scouting in a variety of roles.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Reed D. Taylor its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2007-125

Synopsis: The report on the receipt of gifts and the summary for February 2007 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of sixteen (16) new named endowed funds and the revision of eight (8) endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of February 2007 be approved.

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Endowed Funds

The Edwin M. Cooperman Chair Fund at The Michael E. Moritz College of Law

The Edwin M. Cooperman Chair Fund at The Michael E. Moritz College of Law was established April 6, 2007, by the Board of Trustees of The Ohio State University, with gifts from Edwin M. Cooperman (J.D., 1967).

Until the principal reaches \$750,000, the annual distribution shall be used for The Edwin M. Cooperman Designated Professorship in Law at The Michael E. Moritz College of Law. When the principal reaches \$750,000, the annual distribution shall be used for The Edwin M. Cooperman Endowed Professorship at The Michael E. Moritz College of Law. When the principal reaches \$1,500,000, the annual distribution shall be used for The Edwin M. Cooperman Endowed Chair at The Michael E. Moritz College of Law. The holder of this position will be recommended by the dean of the Moritz College of Law and approved by the Board of Trustees.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$369,697.88

The Robert H. and Joe-Ann Schmahl Engineering Scholarship Fund

The Robert H. and Joe-Ann Schmahl Engineering Scholarship Fund was established April 6, 2007, by the Board of Trustees of The Ohio State University, with a gift from Robert H. (B.E.E., 1961) and his wife, Joe-Ann Schmahl.

The annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donors' desire that partial scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, undergraduate students who are native-born United States citizens who have been accepted for admissions at the University and are enrolled in the College of Engineering, specifically in the Aeronautical, Electrical, Engineering Physics,

April 5 and 6, 2007 meeting, Board of Trustees

Mechanical, or Welding Engineering programs at the Columbus campus. Qualified candidates must have significant financial need and have minimum grade point averages above those levels required to graduate. Candidates who are United States military veterans with honorable service or children of U.S. veterans killed or incapacitated while on military duty shall be given preference. In the event of a single award the recipient must be enrolled in the Department of Electrical and Computer Engineering. In the event of multiple awards, the first recipient must be enrolled in the Department of Electrical and Computer Engineering and additional award recipients must be selected from candidates who are enrolled in the Aeronautical, Engineering Physics, Mechanical or Welding Engineering programs.

Scholarship recipients will be selected by the dean of the College of Engineering in consultation with the Office of Student Financial Aid. Recipients will be eligible for renewal as long as they remain enrolled in the same undergraduate program and maintain the minimum grade point average required for graduating with bachelor degrees. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by dean of the College of Engineering in consultation with the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Linda Thomas Memorial Fund

The Linda Thomas Memorial Fund was established April 6, 2007, by the Board of Trustees of The Ohio State University with gifts from Fred B. Thomas (B.A., 1962; M.D., 1962), friends, and family.

One-half of the annual distribution from this fund shall be used at the discretion of the collection development librarian in the area of Education to purchase new books for the Education Library's permanent collection as approved by the dean of the College of Education and Human Ecology. The remaining one-half shall be used to support undergraduate and graduate scholarships in the College of Education and Human Ecology for students majoring in education.

The annual distribution from this fund directed towards scholarships shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donors' desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, returning female students who have had their education interrupted for at least two years, and who have been accepted for admissions at the University. Scholarship recipients shall be selected by the dean of the College of Education and Human Ecology in consultation with the

April 5 and 6, 2007 meeting, Board of Trustees

Office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Education and Human Ecology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$17,945.00 (grandfathered)

Change in Description of Named Endowed Funds

The Helen P. Alkire Scholarship Fund

The Helen P. Alkire Scholarship Fund was established June 9, 1983, by the Board of Trustees of The Ohio State University with gifts from friends and alumni in honor of Helen P. Alkire, in recognition of her distinguished leadership and service to students in the College of the Arts, Department of Dance. The description was revised April 6, 2007.

The annual distribution from this fund shall be used to provide merit-based scholarships to talented undergraduates/graduates who are or will be majors in the Department of Dance. Scholarship recipients will be selected by the dean of the College of the Arts in consultation with the chairperson of the Department of Dance and the Office of Student Financial Aid. Distribution may also be used occasionally for student projects as determined by the chairperson of the Department of Dance in consultation with the dean of the College of the Arts.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of the Arts in consultation with the chairperson of the Department of Dance. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The Dr. Dale A. Ray Memorial Fund

The Dr. Dale A. Ray Memorial Fund was established February 5, 1988, by the Board of Trustees of The Ohio State University with gifts from Frank A. Ray (B.A., 1970; J.D., 1973), other family members, and friends in memory of Frank's

April 5 and 6, 2007 meeting, Board of Trustees

father, Dr. Dale A. Ray. Additional family gifts were given on behalf of Dale's wife Merry Ann and his daughter Alice. The description was revised April 6, 2007.

The annual distribution from this fund shall be used to promote the investigation, synthesis, and dissemination of crop science to students, consumers, and professionals throughout the world. Annual selection of the emerging priorities or continuing needs in crop science shall be determined by the Ray Memorial Crop Science Committee, the chairperson of the Department of Horticulture and Crop Science, and faculty involved in research, teaching, and OSU Extension.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Change in Name and Description of Named Endowed Fund

Neal E. Vivian Scholarship Fund in Business and Marketing Education

The Neal E. Vivian Research Award in marketing and distributive education was established January 10, 1980, by the Board of Trustees of The Ohio State University, with gifts from friends to stimulate and recognize outstanding research in marketing and distributive education. The name and description were revised April 6, 2007.

Dr. Neal Vivian joined the faculty of The Ohio State University in 1966. He was a dedicated and highly respected national leader in the field of vocational distributive education. In 1977 he received the Distributive Education Professional Development Award from the American Vocational Association. As part of the award, a scholarship was established at The Ohio State University in Dr. Vivian's name for advanced study, research, and professional development. His students, who formed the Loyal Order of the Buck-Nuts, were the major contributors to the endowment. Dr. Vivian died in 1978.

The annual distribution from this fund shall be used to provide financial support to students who are studying career and technical education in workforce development and education in the College of Education and Human Ecology. Selection of the recipients shall be made by the dean of the College of Education and Human Ecology, in consultation with faculty in career and technical education and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

April 5 and 6, 2007 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Education and Human Ecology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

THE OHIO STATE UNIVERSITY FOUNDATION

Establishment of Named Endowed Funds

The Jeffrey Postdoctoral Fellowship Fund in Academic Child and Adolescent Psychiatry

The Jeffrey Postdoctoral Fellowship Fund in Academic Child and Adolescent Psychiatry was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Robert H. "Tad" and Anne K. "Nancy" Jeffrey of Bexley, Ohio.

The Jeffreys have a 40-year history of volunteer leadership in the greater Columbus area, including work with the mental health community, Columbus Children's Hospital, The Ohio State University (Robert is a member of the Arts and Sciences Advisory Committee) and the OSU Medical Center (Anne is chairperson of the OSU Harding Hospital Board and ex-officio member of the University Hospitals Board; Robert and Anne are co-chairs of the Power to Change Lives Campaign). Their dedication is further demonstrated by this fellowship, established to foster ongoing collaboration between the OSU Medical Center and Columbus Children's Hospital and to serve as the philanthropic cornerstone for a larger center for pediatric psychiatry devoted to the advancement of academic child and adolescent psychiatry across both institutions.

The Jeffrey Fellowship, housed in the Department of Psychiatry, will provide support for a board certified or board eligible child and adolescent psychiatrist(s) to pursue activities relevant to advancing the quality of mental health services delivered to children and adolescents with mental disorders. The Jeffrey Fellow(s) will be involved in such activities as mentored training and experience in the conduct of psychiatric research, the development of important educational materials, and the implementation of quality improvement practices relevant to the promotion of pediatric mental health. Mentoring and supervision for the Jeffrey Fellow(s) will be provided by an advisory group consisting of OSU and Children's Hospital representatives: dean of the OSU College of Medicine; chairperson of the OSU Department of Psychiatry; director of the OSU Division of Child and Adolescent Psychiatry who jointly serves as medical director of Behavioral Health Services at Children's Hospital; and both the CEO and the medical director of Children's Hospital.

The Jeffrey Fellow(s) may be a post-graduate physician(s) who has chosen to complete the fellowship on a full-time basis, or may be a faculty member(s) of promise who may receive part-time support to protect a portion of their time to pursue academic excellence. Aspiring applicants must demonstrate the potential for academic excellence/success and a passion for improving the quality of care for children and adolescents with mental disorders.

The fellowship will be granted on a yearly basis, may be renewable thereafter, and if funding level permits, may support more than one fellow and/or specific educational and research activities approved by the advisory group. The Jeffrey Fellow(s) will be selected by the director of the Division of Child and Adolescent

April 5 and 6, 2007 meeting, Board of Trustees

Psychiatry with final approval by the chairperson of the Department of Psychiatry; and in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences.

In instances where highly qualified applicants are not found, funds will not be expended until appropriate applicants meeting the required qualifications are identified. In any given year that the endowment distribution is not fully expended, the unused portion may remain in the income fund or may be reinvested in the endowment principal as determined by the chairperson of the Department of Psychiatry.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Division of Child and Adolescent Psychiatry and the chairperson of the Department of Psychiatry in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$1,000,334.75

Dr. William Lloyd Evans and Dr. Lloyd Roberts Evans Endowed Fund
for Disease and Disability Research in The Ohio State University Medical Center

The Dr. William Lloyd Evans and Dr. Lloyd Roberts Evans Endowed Fund for Disease and Disability Research in The Ohio State University Medical Center was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Beatrice L. Gibby in honor of Beatrice's uncle and her cousin; Dr. William Lloyd Evans, for whom Evans Laboratory of Chemistry is named, and Dr. Lloyd Roberts Evans, a former [associate] dean in The Ohio State University College of Medicine.

The annual distribution from this fund shall be used to support medical research on diseases and disabilities at The Ohio State University Medical Center. Research projects may be directed on prevention, treatment or rehabilitation, or toward the cure of a particular disease or disability; it may involve any medical discipline. Allocation of funds shall be recommended by the vice dean for Research in the College of Medicine and approved by the dean of the College of Medicine and the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Medicine and by the senior vice president for Health Sciences.

April 5 and 6, 2007 meeting, Board of Trustees

Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$390,000.00

Dr. William Lloyd Evans and Dr. Lloyd Roberts Evans Endowed Fund
for Disease and Disability Research in the Department of Chemistry

The Dr. William Lloyd Evans and Dr. Lloyd Roberts Evans Endowed Fund for Disease and Disability Research in the Department of Chemistry was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Beatrice L. Gibby in honor of Beatrice's uncle and her cousin; Dr. William Lloyd Evans, for whom Evans Laboratory of Chemistry is named, and Dr. Lloyd Roberts Evans, a former [associate] dean in The Ohio State University College of Medicine.

The annual distribution from this fund shall be used to support the efforts of students and faculty in the Department of Chemistry in their research relating to the medical field of diseases and disabilities. Expenditures shall be approved by the chairperson of the Department of Chemistry in consultation with the dean of the College of Mathematical and Physical Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Mathematical and Physical Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$390,000.00

The Food, Agricultural, and Biological Engineering Professorship Fund

The Food, Agricultural, and Biological Engineering Professorship Fund was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from an anonymous donor.

Until the endowment principal reaches \$750,000, the annual distribution will be reinvested into the principal. When fully funded, the annual distribution from this fund shall be used to support the work of a distinguished professor whose research, teaching, and public service is in food, agricultural, and biological engineering. The intention of the professorship is to strengthen the Department of Food, Agricultural, and Biological Engineering for the future needs of Ohio agriculture. The holder of the professorship shall be recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Food, Agricultural, and Biological Engineering or their successors and appointed by the Board of Trustees of The Ohio State University.

April 5 and 6, 2007 meeting, Board of Trustees

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this professorship should cease to exist, the donor requests that the principal and any unspent distribution should be moved to fund #663490 at the discretion of the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment:	\$154,817.49
Total Commitment:	\$750,000.00

The David C. McCarthy Engineering Teaching Award Fund

The David C. McCarthy Engineering Teaching Award Fund was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from John Shepherd (B.C.E., 1958; M.A., 1959) in honor of David McCarthy, senior director of Development in the College of Engineering.

The annual income will be used to recognize the contributions of College of Engineering faculty and staff to more innovative and more effective teaching and learning. Students, staff, and faculty will be invited to nominate individuals. The dean of the College of Engineering will select one or more award recipients each year. Awardees will be eligible for awards in future years.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment:	\$100,000.00
--------------------------------	--------------

Susan J. Bonnell Endowment Fund

The Susan J. Bonnell Endowment Fund was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Susan J. Bonnell (B.A., 1970).

The annual distribution from this fund shall provide program support for the Center for the Study and Teaching of Writing as determined by the director of the Center in consultation with the dean of the College of Humanities.

April 5 and 6, 2007 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Humanities. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$84,676.00

The Colonel Bernard E. and Mrs. Mary R. McDaniel Scholarship Fund

The Colonel Bernard E. and Mrs. Mary R. McDaniel Scholarship Fund was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Colonel Bernard E. McDaniel (B.A. Political Science, 1967) and Mrs. Mary R. McDaniel of Round Hill, Virginia.

The annual distribution from this fund shall provide a renewable scholarship for an incoming first-year undergraduate student with the highest academic ability (a combination of high school rank and national standardized test scores) and the highest financial need who is enrolled at the Columbus campus. Students must be enrolled on a full-time basis (considered by the University to be a minimum of 12 quarter hours per term or eight semesters in the event the University changes its system) and participate in the University's work-study program at a minimum of 12 hours a week. It is the donors' desire that the scholarship be awarded with special consideration given to first-generation college students. It is also the donors' preference that eligible students demonstrate strong leadership qualities, outstanding moral character, integrity, and public service.

Furthermore, students must have graduated from a Perry County, Ohio, public high school with preference given to students from Miller High School in Hemlock, Ohio, and Sheridan High School in Somerset, Ohio, in this order. Students must have been enrolled in the Perry County high school for at least two consecutive years prior to graduation.

If there are no qualified applicants from Perry County, Ohio, it is the donors' desire that the scholarship be given to qualified students who graduated from one of two high schools in the Columbus Public Schools of Franklin County, Ohio, in the following order of priority: Northland High School and East High School. Students must have been enrolled in that school for at least two consecutive years prior to graduation and meet the same requirements as specified above for Perry County, Ohio, applicants.

The Office of Student Financial Aid will administer this scholarship fund. Students must complete a nationally approved needs analysis document annually, such as the Free Application for Federal Student Aid (FAFSA), and must apply in time to meet application deadlines for any federal or state aid for which they are eligible before being considered for The Colonel Bernard E. and Mrs. Mary R. McDaniel Scholarship. The scholarship shall be distributed equally over three quarters of the academic school year (or two semesters in the event the University changes its system) for expenses such as the cost of tuition, room and board, books, an educational stipend, and miscellaneous educational expenses above the recipient's federal, state, and additional grant and financial

April 5 and 6, 2007 meeting, Board of Trustees

aid awards. The scholarship is renewable up to 12 quarters (or eight semesters in the event the University changes its system) or until completion of a baccalaureate degree, whichever comes first, as long as the recipient maintains financial need, participates in the work-study program at a minimum of 12 hours a week, and maintains a minimum of a 3.2 grade point average. Any unused annual distribution shall be reinvested to the endowment principal.

Upon the realization of an additional planned gift, the fund shall be renamed The Colonel Bernard E. and Mrs. Mary R. McDaniel Land Grant Opportunity Scholarship Fund and revised to provide additional Land Grant Opportunity Scholarships for Perry County, Ohio, and Franklin County, Ohio, students in accordance with the scholarship criteria listed above. The Colonel Bernard E. and Mrs. Mary R. McDaniel Land Grant Opportunity Scholarships will be in addition to the Land Grant Opportunity Scholarships provided by The Ohio State University to students of Perry County, Ohio, and Franklin County, Ohio.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

The donors desire that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Office of Student Financial Aid in consultation with the donors or their designee. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$51,719.00

The Mario Iglesias Endowed Fund

The Mario Iglesias Endowed Fund was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Alicia R. Iglesias (M.A., 1970) in memory of her husband Mario Iglesias.

The annual distribution from this fund shall provide one or more annual awards to outstanding graduate assistants in the Department of Spanish and Portuguese to recognize their achievements in the study of the Spanish language and related areas, as well as their commitment to excellence in the teaching of Spanish. The awards will support students as they further their education and help defray the cost of pursuing a range of academic and scholarly opportunities including, but not limited to, tuition expenses, education materials and resources, and travel costs to conduct relevant courses of study, to pursue research, or to participate in professional conferences. The chairperson of the Department of Spanish and Portuguese in consultation with a select group of faculty will work together as a departmental committee to administer the awards.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

April 5 and 6, 2007 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of Spanish and Portuguese in consultation with a select group of faculty working together as a departmental committee. The Department shall notify the donor or her designee of any such changes. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Peggy O'Brien Kratzer Memorial Scholarship Fund

The Peggy O'Brien Kratzer Memorial Scholarship Fund was established April 6, 2007, by the Board of Trustees in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mr. Victor Edwin Kratzer (B.S.I.E., 1972).

The annual distribution from this fund shall be used to provide one need-based scholarship to a first-year undergraduate student enrolled in the Mount Leadership Society program to be used towards the cost of tuition, room and board, books, and educational expenses. It is the donor's desire that this scholarship support undergraduate students who are actively serving their communities. First preference shall be given to a resident of Brown County, Ohio. Second preference shall be given to a resident of Adams or Highland Counties, Ohio. Third preference shall be given to a resident of Greene County, Ohio. Fourth preference shall be given to a resident of Ohio.

This scholarship is for three quarters in the given academic year and is renewable for an additional three quarters (six quarter maximum). Ten percent of the income, as well as any unused distribution, should be invested to the endowment principal annually. Scholarship recipients shall be selected by the Office of Student Financial Aid in consultation with the Program Coordinator of the Mount Leadership Society.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Slowter Family Scholarship Fund

The Slowter Family Scholarship Fund was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mr. William J. Slowter (B.A. 1970 and M.P.A. 1977) and Mrs. Kathy B. Slowter of Minnetonka, Minnesota, Mrs. Elizabeth S. Tunick of New York City, New York and Mrs. Mary S. Nescott of Hamden, Connecticut.

April 5 and 6, 2007 meeting, Board of Trustees

The annual distribution from this fund shall be used to provide a renewable need-based scholarship for one or more incoming first-year undergraduate students who are enrolled full-time at the Columbus campus. It is the donors' desire that qualified students must have graduated from a high school in the Columbus Public Schools of Franklin County, Ohio. Furthermore, it is the donors' desire that qualified students be considered in the following order of preference: graduates from East High School enrolled in the College of Engineering majoring in Chemical Engineering; graduates from any high school in the Columbus Public Schools enrolled in the College of Engineering majoring in Chemical Engineering; graduates from East High School enrolled in the College of Engineering; graduates from any high school in the Columbus Public Schools enrolled in the College of Engineering; graduates from East High School; and graduates from any high school in the Columbus Public Schools.

Qualified students must complete a nationally approved needs analysis document annually, such as the Free Application for Federal Student Aid (FAFSA) and must have graduated from high school with a minimum 3.0 grade point average. It is the donors' preference that the scholarship recipients be enrolled in the University Honors Program and have qualified for an Honors Merit Scholarship as designated by the University Honors Program.

The scholarship shall be distributed equally over three quarters of the academic school year (or two semesters in the event the University changes its system) for expenses such as the cost of tuition, room and board, books, an educational stipend, and miscellaneous educational expenses above the recipient's federal, state, and additional grant and financial aid awards. The scholarship is renewable up to 12 quarters (or eight semesters in the event the University changes its system) or until completion of a baccalaureate degree, whichever comes first, as long as the recipient maintains financial need, enrollment in the College of Engineering, and a minimum of a 3.0 grade point average. Any unused annual distribution shall be reinvested to the endowment principal. The Office of Student Financial Aid will administer this scholarship fund in consultation with the University Honors and Scholars Center.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Office of Student Financial Aid in consultation with the vice Provost for Enrollment Services and dean for Undergraduate Education, and the donors. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Eldredge Family Scholarship Endowment Fund

The Eldredge Family Scholarship Endowment Fund was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with a gift from Clifford Murray Eldredge, (B.S. Physical Therapy, 1965; M.S. Allied Medical Professions, 1971), and Janis Bloom Eldredge, (Dental Hygiene, 1965; B.S.Ed., 1970), in memory of Clifford M. and Mary Jo Eldredge.

April 5 and 6, 2007 meeting, Board of Trustees

The annual distribution from this fund shall provide scholarship support for one or more undergraduate or graduate-level students who have graduated from Ashtabula High School or Lakeside High School, in Ashtabula, Ohio, or their successors. Qualified candidates must be enrolled in or majoring in the Physical Therapy or Dental Hygiene programs. If no candidates meet the above criteria (or if these programs cease to exist), the scholarships may be awarded to candidates in any undergraduate or graduate-level health sciences program. The scholarships are intended for a new recipient each academic year. If there are no eligible new candidates, the scholarship may be renewed for a previous recipient up to a maximum of twelve quarters. This scholarship shall be administered by the Office of Student Financial Aid.

In years that the annual distribution is not awarded, or not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$27,806.50 (grandfathered)

Ben Martin Glass Fund

The Ben Martin Glass Fund was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from V. Ben Martin, Jr. (B.S.Bus.Adm., 1956).

The annual distribution from this fund shall be used to support the Glass Area of the Department of Art as approved by the head of the Glass Area.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of the Arts in consultation with the head of the Glass Area in the Department of Art. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,406.00 (grandfathered)

April 5 and 6, 2007 meeting, Board of Trustees

The Roberta and Robert B. Buchanan Endowment Fund in Engineering

The Roberta and Robert B. Buchanan Endowment Fund in Engineering was established April 6, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Roberta and Robert B. Buchanan of Scottsdale, Arizona, in recognition of Dean W. A. "Bud" Baeslack III's commitment to diversity and to collaboration of traditional engineering disciplines with bioengineering.

The annual distribution from this fund shall provide unrestricted support for the College of Engineering to be used at the discretion of the dean. The dean will apprise the donors of the use of the fund annually.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

Change in Description of Named Endowed Funds

Stanley D. Gottsegen Award Endowment Fund

The Stanley D. Gottsegen Award Endowment Fund was established February 1, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Stanley D. Gottsegen (B.S.Bus.Adm., 1954) of Boca Raton, Florida. The description was revised April 6, 2007.

The annual distribution from this fund shall be used as an annual award to recognize an undergraduate junior or senior who is outstanding in campus-wide extracurricular activities in one of the following student organizations: Undergraduate Student Government, the Ohio Union Activities Board, the Greek Governing Councils, Greek Week, Makio, or the Ohio Staters, Inc. Award recipients shall be selected by the director of the Ohio Union in consultation with the Office of Student Financial Aid and a committee comprised of an Ohio Union staff member from each of the following areas: Leadership, Student Organizations, Student Activities, Fraternities and Sororities, and the Business Office.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated

April 5 and 6, 2007 meeting, Board of Trustees

by the Board of Trustees and Foundation Board as recommended by the director of the Ohio Union in consultation with the above committee. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

The H. Gordon Hullfish Memorial Scholarship Fund

The H. Gordon Hullfish Memorial Scholarship Fund was established November 6, 1998, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Lucile B. Hullfish and Joan Hullfish Bailey (B.S.Ed., 1953). The description was revised April 6, 2007.

Professor H. Gordon Hullfish (M.A., 1922; Ph.D., 1924) taught in the College of Education and Human Ecology from 1922 until his death in 1962. He was one of the first recipients of the Alumni Award for Distinguished Teaching and was an inaugural member of the College of Education Hall of Fame. He was a prolific author and editor, an outstanding teacher, and an educational leader.

The annual distribution from this fund shall provide assistance to doctoral candidates in the College of Education and Human Ecology whose major field of study is the philosophy of education.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Education and Human Ecology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The Kent Distinguished Scholars Fund

The Kent Distinguished Scholarship Fund was established February 4, 1993, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Ralph Kent (B.S.Bus.Adm., 1937) and Betty Kent (w. 1939), Harbor Springs, Michigan, and Longboat Key, Florida. The description was revised September 2, 1998, and the name and description were further revised February 4, 2000. The description was revised again April 6, 2007.

The annual distribution from this fund shall be used to provide scholarships for up to two outstanding Master of Accounting students in The Max M. Fisher College of Business. The Kent scholarships will be administered by the Fisher College of Business in consultation with the Office of Student Financial Aid. The dean of the Fisher College of Business will have a continuing oversight responsibility role on the operation of the Kent scholarship program.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated

April 5 and 6, 2007 meeting, Board of Trustees

by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The Dorothy Lewis, Freda and Roy Barnhart and
Mary and Frank Jenkins 4-H Fund

The Dorothy Lewis, Freda and Roy Barnhart and Mary and Frank Jenkins 4-H Fund was established December 1, 1995, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mary Lewis Jenkins in memory of her mother, Dorothy Helm Lewis; by Lester Barnhart (B.S.Agr., 1969); Lynda Jenkins Heyl (B.S.H.E., 1974; M.S. Human Ecology, 1978); Barry Lewis Jenkins; and Janet Jenkins Johnson (B.S.Ed., 1974; B.A. Humanities, 1976; M.A. Education, 1981), in honor of their parents. The description was revised April 6, 2007.

The annual distribution from this fund shall be equally divided to support these three areas of the Ohio 4-H Program. One third of the distribution shall support 4-H Volunteer Leader recognition in Clark County. Uses shall include, but not be limited to: recognition items, banquets, leader trips, plaques, or gifts. Expenditures shall be approved by the County Extension professional directly responsible for 4-H programming in Clark County. One third of the distribution shall support 4-H members enrolled in nutrition projects in Madison County. Uses shall include, but not be limited to: recognition items, student scholarships for nutrition programs at The Ohio State University, nutrition leader training, and trips to regional or state nutrition educational events. Expenditures shall be approved by the County Extension professional directly responsible for 4-H programming in Madison County. The final third of the distribution shall support Ohio 4-H members with disabilities. Uses shall include, but not be limited to: scholarships, special equipment, programs, member travel, and camp or conference fees. Expenditures shall be approved by the 4-H State Leader or their designee who is directly responsible for 4-H programming for youth with physical, learning, or emotional disabilities. A second preference for this portion is to be used to support a needy 4-H member(s).

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Ohio State University Extension. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

April 5 and 6, 2007 meeting, Board of Trustees

Change of Name and Description of Named Endowed Fund

The Richard Warman and Joan Booth Bailey Graduate Fellowship Fund in Engineering

The Richard Warman Bailey Graduate Fellowship Fund in Engineering was established August 29, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Joan Bailey in memory of her husband, Richard Warman Bailey, Research Scientist Emeritus, (B.S., 1959, major - Physics; Ph.D., 1973, major - Nuclear Engineering). Additional gifts were given by the Bailey family on behalf of Richard and Joan's sons, Richard W. Bailey II (B.S., 1987), Andrew H. Bailey (B.S.Bus.Adm., 1986), and Matthew A. Bailey (B.S.Bus.Adm., 2000). The name and description were revised April 6, 2007.

The annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donors' desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, students who are United States citizens who have been accepted for admissions at the University.

Furthermore, the annual distribution shall support a fellowship in the College of Engineering for a graduate student(s). The award can be annual and renewable. Preference shall be given to a student(s) who received an undergraduate degree from The Ohio State University.

Selection shall be determined by the dean of the College of Engineering, in cooperation with the dean of the Graduate School. The fellowship will be awarded in consultation with the Office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

April 5 and 6, 2007 meeting, Board of Trustees

**APPOINTMENT OF INVESTMENT MANAGERS AND
REALLOCATION OF FUNDS**

Resolution No. 2007-126

Synopsis: Approval of the Appointment of Investment Managers and reallocation of funds is proposed.

WHEREAS it is the policy of The Ohio State University to utilize the service of external Investment Managers to assist in the management of the University's Endowment Fund; and

WHEREAS the Investments Committee of the Board of Trustees periodically reviews the results obtained by the external Investment Managers and the amount of funds assigned to each of them; and

WHEREAS it is prudent practice to reallocate funds assigned to external Investment Managers as conditions change; and

WHEREAS the number of external Investment Managers and the amount of funds assigned to them shall be determined by the Board of Trustees; and

WHEREAS the Board of Trustees last approved the Appointment and Reappointment of Investment Managers on March 2, 2007:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Investments Committee of the Board of Trustees the following changes shall be made:

<u>Allocation as of 3/31/07</u>	<u>Changes</u>	<u>Revised Allocation</u>
<u>Real Estate</u>		
Praedium Fund VII	\$10,000,000	\$10,000,000
<u>Venture Capital/Private Equity</u>		
Sun Capital Partners V	\$15,000,000	\$15,000,000

(See Appendix L for background information, page 1089.)

**APPROVAL TO ENTER INTO DESIGN AND CONSTRUCTION CONTRACTS,
AND TO INCREASE DESIGN CONTRACTS**

Resolution No. 2007-127

APPROVAL TO ENTER INTO DESIGN CONTRACTS

CUNZ HALL RENOVATION
JONES GRADUATE TOWER RENOVATION
MOREHOUSE MEDICAL PLAZA – WRIGHT CENTER OF INNOVATION PART II
MURRAY HALL RENOVATION – PHASE I
NORTH CAMPUS CHILLED WATER EXTENSION
RIGHTMIRE HALL – CHILLER REPLACEMENT
STEAM AND CONDENSATE DISTRIBUTION SYSTEM UPGRADES – PHASE I
ULAR FACILITIES RENOVATION – WISEMAN AND SISSON HALLS

APPROVAL TO ENTER INTO CONSTRUCTION CONTRACTS

EVANS LABORATORY – FUME HOOD REPAIRS
GOSS LABORATORY ELEVATOR UPGRADES
LARKINS HALL – CONDENSATE PIPING REPLACEMENT

April 5 and 6, 2007 meeting, Board of Trustees

OARDC – UTILITIES UPGRADE TO EAST CAMPUS AREA
RIGHTMIRE HALL – CHILLER REPLACEMENT

APPROVAL TO INCREASE DESIGN CONTRACTS
OARDC – LIFE SAFETY SYSTEM UPGRADES

Synopsis: Authorization to enter into design and construction contracts, and to increase design contracts, as detailed in the attached materials, is requested.

WHEREAS in accordance with the attached materials, the University desires to undertake, and enter into design contracts for, the following projects:

Cunz Hall Renovation (07-08 capital request)	\$20.1M	State and development funds
Jones Graduate Tower Renovation (09-10 capital request)	\$6.0M	Future bond proceeds
Morehouse Medical Plaza – Wright Center of Innovation Part II (N/A)	\$3.1M	Grant funds
Murray Hall Renovation – Phase I (07-08 capital request)	\$1.0M	State funds
North Campus Chilled Water Extension (N/A)	\$7.5M	Future bond proceeds
Rightmire Hall – Chiller Replacement (N/A)	\$0.3M	FOD operating funds
Steam and Condensate Distribution System Upgrades -- Phase I	\$8.2M	Future bond proceeds
ULAR Facilities Renovation – Wiseman and Sisson Halls (05-06 capital request)	\$2.0M	State and development funds

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following projects:

Evans Laboratory – Fume Hood Repairs (N/A)	\$1.5M	FOD operating funds
Goss Laboratory Elevator Upgrades (05-06 capital request)	\$0.02M	State funds
Larkins Hall – Condensate Piping Replacement (05-06 capital request)	\$0.2M	State funds
OARDC – Utilities Upgrade to East Campus Area (03-04 capital request)	\$0.3M	State funds
Rightmire Hall – Chiller Replacement (N/A)	\$0.3M	FOD operating funds

WHEREAS in accordance with the attached materials, the University desires to increase the design contracts for the following project:

OARDC – Life Safety System Upgrades (03-04 capital request)	\$1.2M	State funds
--	--------	-------------

*Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project; renovation projects funded by internal office or departmental funds that are noted as "N/A" have not had separate capital project authorization because of their smaller size or because they arose unexpectedly between capital planning cycles.

April 5 and 6, 2007 meeting, Board of Trustees

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into design and construction contracts, and to increase design contracts for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix LI for background information and maps, page 1093.)

**AUTHORIZATION TO APPROVE PARTICIPATION IN THE LOCAL
ADMINISTRATION COMPETENCY CERTIFICATION PROGRAM FOR
CAPITAL FACILITIES PROJECTS**

Resolution No. 2007-128

WHEREAS the 126th Ohio General Assembly enacted H.B. 16 which creates the Local Administration Competency Certification Program; and

WHEREAS the Local Administration Competency Certification Program allows institutions of higher education to administer state-funded capital facilities projects pursuant to section 3345.51 of the Revised Code without the supervision, control, or approval of the Ohio Department of Administrative Services; and

WHEREAS the University desires to participate in the Local Administration Competency Certification Program and administer its own capital facilities projects:

NOW THEREFORE

BE IT RESOLVED, That:

Section 1. The Board authorizes University officials to participate in the Local Administration Certification Program and directs University officials to take all necessary steps to accomplish that purpose; and

Section 2. Pursuant to the requirement set forth in R.C. 3345.51 (A)(3), the University states its intent to comply with section 153.13 of the Revised Code, policy and procedure guidelines for contract documents established pursuant to section 153.16 of the Revised Code, and all laws that govern the selection of consultants, preparation and approval of contract documents, receipt of bids, and award of contracts with respect to the applicable project; and

Section 3. Pursuant to the requirements set forth in R.C. 123.17 (D)(2), the University will select new employees to participate in the certification program as necessary to compensate for employee turnover; and

Section 4. Pursuant to the requirement set forth in R.C. 123.17 (D)(6), the University agrees to indemnify and hold harmless the State and the Ohio Department of Administrative Services for any claim of injury, loss, or damage that results from the University's administration of a capital facilities project pursuant to the Local Administration Certification Program; and

Section 5. Pursuant to the requirement set forth in R.C. 123.17 (D)(5), the University will conduct biennial audits of the University's administration of capital facilities projects in accordance with R.C. 3345.51 (C).

April 5 and 6, 2007 meeting, Board of Trustees

(See Appendix LII for background information, page 1109.)

AUTHORIZATION TO APPROVE ATHLETIC TICKET PRICES AND FEE

Resolution No. 2007-129

Synopsis: Approval of Athletic ticket prices for Fiscal Year 2008 and golf course membership fees for Calendar Year 2007 at the recommended levels is requested.

WHEREAS each year the Athletic Council reviews projections for the coming year's budget and recommends ticket prices and golf course membership fees; and

WHEREAS the Athletic Council has approved increases for football and men's basketball tickets, and for golf course membership fees shown on the attached table; and

WHEREAS the Athletic Council's recommendations have been reviewed and are recommended by the President's Cabinet:

NOW THEREFORE

BE IT RESOLVED, That the recommended increases for football and men's basketball tickets for Fiscal Year 2008, and for golf course membership fees for Calendar Year 2007, be approved.

(See Appendix LIII for background information, page 1111.)

**AUTHORIZATION, ISSUANCE AND SALE OF GENERAL RECEIPTS
COMMERCIAL PAPER NOTES SERIES H OF THE OHIO STATE UNIVERSITY**

Resolution No. 2007-130

Synopsis: Providing for the authorization, issuance and sale of General Receipts Commercial Paper Notes, Series H (the "Series H Notes"), in a principal amount outstanding at any one time determined as provided herein, for the purpose of (i) financing or refinancing the Series H Project, as defined herein, (ii) currently refunding certain Outstanding Obligations (as defined in the Indenture (as hereinafter defined)), (iii) paying costs and expenses associated with the issuance of the Series H Notes, and (iv) authorizing a Series H Supplement to Amended and Restated Trust Indenture to secure the payment of Debt Service Charges (as defined in the Indenture) on the Series H Notes.

WHEREAS pursuant to Sections 3345.11 and 3345.12 of the Ohio Revised Code (the "Act"), as enacted under authority of the Constitution of Ohio, particularly Section 21 of Article VIII thereof, The Ohio State University (the "University"), a state university of the State of Ohio (the "State"), created and existing under Chapter 3335 of the Ohio Revised Code, is authorized and empowered, among other things, (a) to issue, as provided herein, Obligations (as defined in the Indenture) of the University to pay the costs of certain capital facilities defined as "facilities" in the Act (and herein called "University Facilities") and to refund, fund or retire bonds and other obligations previously issued for such purpose; (b) to pledge to the payment of the Obligations all or a specified part of the gross amount of the General Receipts of the University (as defined in the Indenture) in priority to all other expenses, claims or payments; (c) to covenant, as herein provided, that the University will make, fix, adjust and collect the fees, rates,

April 5 and 6, 2007 meeting, Board of Trustees

rentals, charges and other items comprising General Receipts to produce General Receipts sufficient at all times to meet Debt Service Charges on the Obligations, to establish and to maintain the required reserves and meet other requirements herein provided; and (d) to provide for a trust indenture and make further provisions for securing the payment of the Debt Service Charges; and

WHEREAS the University, by resolution adopted by its Board of Trustees (the "Board") on November 1, 1985 (the "Series 1985 A Bond Resolution") and by a Trust Indenture dated as of November 15, 1985 (the "Original Indenture") between the University and The Huntington National Bank, as Trustee (the "Trustee"), provided for the issuance from time to time of General Receipts Bonds of the University; and

WHEREAS the University has authorized the issuance pursuant to the Series 1985 A Bond Resolution, a resolution adopted by the Board on December 5, 1997, the Original Indenture and the Seventh Supplement to Trust Indenture, dated as of December 1, 1997 between the University and the Trustee, of The Ohio State University General Receipts Bonds, Series 1997 A in the original aggregate principal amount of \$79,540,000, of which \$35,340,000 in aggregate principal amount is presently issued and outstanding; and

WHEREAS the University, pursuant to the terms of a resolution adopted by the Board on October 1, 1999 (the "1999 General Bond Resolution") amended and restated the Original Indenture, as supplemented in accordance with the terms thereof, by entering into the Amended and Restated Trust Indenture dated as of December 1, 1999 (the "Amended and Restated Trust Indenture") with the Trustee; and

WHEREAS the Amended and Restated Indenture provides that Obligations, as defined therein, may be issued pursuant to the terms thereof, with each such issue to be authorized by a Series Resolution, as defined therein, adopted by the Board and secured pursuant to the terms of a Supplemental Indenture, as defined in the Amended and Restated Indenture with respect to such issue (the Amended and Restated Trust Indenture and all Supplemental Indentures thereto being collectively referred to herein as the "Indenture"); and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on November 5, 1999, the Indenture and the First Supplement to Amended and Restated Trust Indenture, dated as of December 1, 1999, between the University and the Trustee, of The Ohio State University General Receipts Bonds, Series 1999 A in the original aggregate principal amount of \$83,585,000, of which \$8,350,000 in aggregate principal amount are presently issued and outstanding; and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on November 5, 1999, the Indenture and the Second Supplement to Amended and Restated Trust Indenture, dated as of December 1, 1999, between the University and the Trustee, of The Ohio State University Variable Rate Demand General Receipts Bonds, Series 1999 B, in the original aggregate principal amount of \$108,000,000, of which \$52,600,000 in aggregate principal amount are presently issued and outstanding; and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on November 2, 2001, the Indenture and the Series 2001 Supplement to Amended and Restated Trust Indenture, dated as of November 1, 2001, between the University and the Trustee, of The Ohio State University Variable Rate Demand General Receipts Bonds, Series 2001, in the original aggregate principal amount of \$85,000,000, of

April 5 and 6, 2007 meeting, Board of Trustees

which \$76,950,000 in aggregate principal amount are presently issued and outstanding; and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on November 2, 2001 (the "Series D Commercial Paper Resolution") the Indenture and Series D Supplement to the Amended and Restated Trust Indenture, dated as of December 1, 2001 (the "Series D Supplement") between the University and the Trustee, of The Ohio State University General Receipts Commercial Paper Notes, Series D, in the aggregate principal amount outstanding at any one time of up to \$175,000,000, all of which have been paid and are no longer outstanding; and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on November 2, 2001, the Indenture and the Series 2002 A Supplement to Amended and Restated Trust Indenture, dated as of January 1, 2002, between the University and the Trustee, of The Ohio State University General Receipts Bonds, Series 2002 A, in the original aggregate principal amount of \$153,000,000, of which \$120,205,000 in aggregate principal amount are presently issued and outstanding; and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on February 7, 2003, the Indenture and the Series 2003 A Supplement to Amended and Restated Trust Indenture, dated as of February 1, 2003, between the University and the Trustee, of The Ohio State University General Receipts Bonds, Series 2003 A, in the original aggregate principal amount of \$53,000,000, all of which have been retired and redeemed as of the date hereof; and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on May 30, 2003, the Indenture and the Series E Supplement to Amended and Restated Trust Indenture, dated as of June 1, 2003, between the University and the Trustee, of The Ohio State University General Receipts Commercial Paper Notes, Series E, in the aggregate principal amount outstanding at any one time of up to \$430,000,000, all of which have been paid and are no longer outstanding; and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on July 11, 2003, the Indenture and the Series 2003 B Supplement to Amended and Restated Trust Indenture, dated as of September 1, 2003, between the University and the Trustee, of The Ohio State University General Receipts Bonds, Series 2003 B, in the original aggregate principal amount of \$233,780,000, of which \$171,090,000 in aggregate principal amount are presently issued and outstanding; and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on July 11, 2003, the Indenture and the Series 2003 C Supplement to Amended and Restated Trust Indenture dated as of September 1, 2003, between the University and the Trustee, of The Ohio State University General Receipts Bonds, Series 2003 C, in the original aggregate principal amount of \$121,295,000, of which \$113,355,000 in aggregate principal amount are presently issued and outstanding; and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on December 3, 2004, the Indenture and the Series F Supplement to Amended and Restated Trust Indenture, dated as of December 1, 2004, between the University and the Trustee, of The Ohio State University General Receipts Commercial Paper

April 5 and 6, 2007 meeting, Board of Trustees

Notes, Series F, in the aggregate principal amount outstanding at any one time of up to \$348,500,000, all of which have been paid and are no longer outstanding; and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on July 8, 2005, the Indenture and the Series 2005 A Supplement to Amended and Restated Trust Indenture, dated as of August 1, 2005, between the University and the Trustee of The Ohio State University General Receipts Bonds, Series 2005 A, in the original aggregate principal amount of \$279,050,000, of which \$267,125,000 in aggregate principal amount are presently issued and outstanding; and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on July 8, 2005, the Indenture and the Series 2005 B Supplement to Amended and Restated Trust Indenture, dated as of August 1, 2005, between the University and the Trustee, of The Ohio State University General Receipts Bonds, Series 2005 B, in the original aggregate principal amount of \$129,990,000, of which \$129,990,000 in aggregate principal amount are presently issued and outstanding; and

WHEREAS the University has authorized the issuance pursuant to the 1999 General Bond Resolution, a resolution adopted by the Board on July 8, 2005, the Indenture and the Series G Supplement to Amended and Restated Trust Indenture, dated as of November 1, 2005, between the University and the Trustee, of The Ohio State University General Receipts Commercial Paper Notes, Series G (the "Series G Notes"), in the aggregate principal amount outstanding at any one time of up to \$107,000,000, of which \$68,000,000 in aggregate principal amount are currently issued and outstanding; and

WHEREAS the Board has determined that it is in the best interests of the University to authorize the issuance of The Ohio State University General Receipts Commercial Paper Notes, Series H (the "Series H Notes") in the aggregate principal amount outstanding at any one time not to exceed \$107,000,000 for the purpose of paying, reimbursing or refinancing a portion of the costs of the Series H Project, currently refunding certain Outstanding Obligations, and paying costs and expenses associated with the issuance of the Series H Notes; and

WHEREAS the University desires to make provisions for the issuance of the Series H Notes and for the payment of the Debt Service Charges thereon and the securing thereof by this Resolution and a Series H Supplement to Amended and Restated Trust Indenture (the "Series H Supplement") herein authorized:

NOW THEREFORE

BE IT RESOLVED BY THE BOARD OF TRUSTEES OF THE OHIO STATE UNIVERSITY as follows:

Section 1. Definitions and Interpretations. All words and terms defined in the Indenture and all interpretations therein provided shall have in this Resolution the same meanings, respectively, and be subject to the same interpretations as therein provided or used, unless the context or use clearly indicates another or different meaning or intent. Terms not appearing in the Indenture but used herein and not previously defined herein are defined as follows:

"Book Entry System" means a system under which (i) a physical Series H Note certificate in fully registered form is issued for each maturity of Series H Notes only to a Depository or its nominee as registered owner, with the Series H

April 5 and 6, 2007 meeting, Board of Trustees

Notes held by and immobilized in the custody of the Depository; and (ii) a book entry record maintained by and the responsibility of the Depository and not maintained by or the responsibility of the University or the Trustee, is the record that identifies, and records the transfer of the interests of, the owners of book entry interests in such Series H Notes.

“Costs of Issuance Account” means the Costs of Issuance Account in the Note Program Fund created pursuant to Section 5 hereof.

“Dealer” or “Dealers” means Merrill Lynch, Pierce, Fenner & Smith Incorporated or any successor or assign permitted under the Dealer Agreement, and any other dealer or dealers for the Series H Notes which is appointed by the University and has entered into a Dealer Agreement.

“Dealer Agreement” or “Dealer Agreements” means respectively, the Dealer Agreement, by and between the University and Merrill Lynch, Pierce, Fenner & Smith Incorporated, and any and all modifications, alterations, amendments and supplements thereto, and such agreement and any other Dealer Agreement entered into by the University and a Dealer or Dealers with respect to the Series H Notes.

“Depository” means any securities depository that is a clearing agency under federal law operating and maintaining, with its participants or otherwise, a Book Entry System to record ownership of book entry interests in obligations, and includes and means initially as to the Series H Notes, The Depository Trust Company (a limited purpose trust company), New York, New York.

“Note Proceedings” means the 1999 General Bond Resolution, the Amended and Restated Trust Indenture, any applicable Series Resolution, any applicable Supplemental Indenture and any other resolutions and agreements and amendments of and supplements to the foregoing, or any combination thereof, authorizing or providing for the terms and conditions applicable to, or providing for the security or sale of Notes, and the terms contained in such Notes.

“Note Program Fund” means the Note Program Fund held by the University and created in Section 5 hereof to be funded with the proceeds of the Series H Notes.

“Offering Memorandum” means, as to the Series H Notes, the Offering Memorandum relating to the original issuance of the Series H Notes, authorized pursuant to Section 3 hereof.

“Project Account” means the Project Account in the Note Program Fund created pursuant to Section 5 hereof.

“Series H Commercial Paper Resolution” or “this Resolution” as used herein means this Resolution, as the same may be amended from time to time.

“Series H Project” means the Series H Project as described on Attachment I to the Series H Supplement, which exhibit is incorporated by reference herein with the same force and effect as if fully set forth herein.

“Trustee” means The Huntington National Bank, and any successor Trustee as determined or designated under or pursuant to the Indenture.

Any reference herein to the University, the Board, or to any members or officers thereof or to other public boards, commissions, departments, institutions, agencies, bodies, entities or officers, shall include those which

succeed to their functions, duties or responsibilities pursuant to or by operation of law or who are lawfully performing their functions. Any reference to a section or provision of the Ohio Revised Code or to the laws of Ohio shall include such section or provision and such laws as from time to time amended, modified, revised, supplemented, or superseded, provided that no such amendment, modification, revision, supplementation, or supersession shall alter the obligation to pay the Debt Service Charges in the amount and manner, at the times, and from the sources provided in the 1999 General Bond Resolution, this Resolution, the Amended and Restated Trust Indenture and the Series H Supplement, except as otherwise herein permitted.

Unless the context shall otherwise indicate, words importing the singular number shall include the plural number, and vice versa, and the terms "hereof," "herein," "hereby," "hereto," "hereunder," and similar terms, mean this Resolution.

Section 2. Authorization; Terms; Pledge; and Covenant.

(a) Authorization. The Notes, to be designated and known as The Ohio State University General Receipts Commercial Paper Notes, Series H, shall be issued pursuant to and as authorized by the Act, Section 2i of Article VIII of the Ohio Constitution, the 1999 General Bond Resolution, this Resolution, the Amended and Restated Trust Indenture and the Series H Supplement for the purposes of financing and refinancing a portion of the costs of the University Facilities comprising the Series H Project and expenses incidental to the issuance of the Series H Notes and currently refunding certain Outstanding Obligations. The Series H Notes shall be issued from time to time as provided in the Series H Supplement to finance and refinance the cost of the Series H Project and to currently refund certain Outstanding Obligations. Proceeds of the Series H Notes may also be used to pay maturing Series H Notes.

(b) Form and Numbering. The Series H Notes shall be issued only as fully registered Notes. The Series H Notes shall be numbered as determined by the Trustee.

(c) Denominations and Dates. The Notes shall be dated the date of their respective authentication and issuance; shall be issued in registered form, registered to bearer (subject to Section 2.06 of the Series H Supplement) unless otherwise designated by a Dealer; and shall be issued in denominations of \$100,000 and in integral multiples of \$1,000 in excess thereof.

(d) Principal Amount. The Series H Notes shall be issued in the principal amount specified in the Series H Supplement, which amount shall not exceed \$107,000,000.

(e) Delivery and Execution. The Treasurer or Interim Treasurer of the University (the "Treasurer") is hereby authorized to make the necessary arrangements with the Dealer to establish the date, location, procedures and conditions for the delivery of the Series H Notes to the Dealer and to take all steps as necessary to effect due execution, authentication and delivery of the Series H Notes to the Dealer or to the persons whom the Dealer directs under the terms of this Resolution. The Series H Notes shall be signed by the Treasurer in his official capacity (provided that such signature may be a facsimile) and may bear the corporate seal of the University or a facsimile thereof.

(f) Interest. The Series H Notes shall bear interest from their respective dates, payable at maturity, at a rate not to exceed 12% per annum

April 5 and 6, 2007 meeting, Board of Trustees

(calculated on the basis of a year consisting of 365/366 days and actual number of days elapsed).

(g) Maturities. The Series H Notes (i) shall mature not more than 270 days after their respective dates, but in no event later than October 1, 2008, and (ii) shall mature on a Business Day. The stated interest rate, maturity date and other terms of each Note, so long as not inconsistent with the terms of the Series H Supplement, shall be as set forth in the Instructions delivered to the Trustee pursuant to Section 2.07 of the Series H Supplement.

(h) Redemption. The Series H Notes shall not be subject to redemption prior to their stated maturities.

(i) Appointment of Dealer. The Board hereby appoints Merrill Lynch, Pierce, Fenner & Smith Incorporated as the initial Dealer for the Series H Notes.

(j) Security. As provided in the Indenture, there is hereby pledged to the security of the Series H Notes, (i) the gross amount of General Receipts of the University (subject to the provisions for the partial release of a pledge of General Receipts contained in Section 4.10 of the Amended and Restated Trust Indenture) and (ii) the moneys contained in the Special Funds (as defined in the Indenture). Anything else to the contrary in the Indenture, the 1999 General Bond Resolution, the Series H Supplement or this Resolution notwithstanding, the Series H Notes shall not have access to, any claim upon or be secured by, the Note Program Fund. This pledge of General Receipts shall be on parity with expenses, claims and payments relating to other Obligations and in priority to all other expenses, claims and payments of the University. In accordance with the Act, all the General Receipts or portions thereof are immediately subject to the lien of the pledge upon receipt thereof by the University.

For the further security of the Series H Notes, and any other Obligations, the University hereby covenants with the noteholders and the Trustee that so long as any Series H Notes or Obligations are outstanding, the University shall fix, make, adjust and collect fees, rates, rentals, charges, and other items of General Receipts, as will produce at all times General Receipts sufficient (i) to pay Debt Service Charges when due, (ii) together with other moneys lawfully available therefor, to pay all costs and expenses required to be paid under the Note Proceedings, and (iii) together with other moneys lawfully available therefor, to pay all other costs and expenses necessary for the proper maintenance and successful and continuous operation of the University.

(k) Payment, Places of Payment, and Paying Agents. The principal of and interest on the Series H Notes shall be paid in federal or other immediately available funds in such coin or currency of the United States of America as, at the respective times of payment, is legal tender for the payment of public and private debts. The principal of and interest on the Series H Notes shall be payable at the principal office of the Trustee on or before the close of business on any Business Day upon which such Series H Notes have become due and payable, provided that such Series H Notes are presented and surrendered on a timely basis. Upon presentation of such a Series H Note to the Trustee no later than 3:00 p.m. (Columbus, Ohio time) on a Business Day, payment for such Series H Note shall be made by the Trustee in immediately available funds on such Business Day. If a Series H Note is presented for payment after 3:00 p.m. (Columbus, Ohio time) on a Business Day, payment therefor shall be made by the Trustee on the next succeeding Business Day, without the accrual of additional interest thereon.

(l) Book Entry. Subject to the provisions of the immediately following paragraph, the Series H Notes shall be issued only to a Depository for holding in

April 5 and 6, 2007 meeting, Board of Trustees

a Book Entry System in accordance with the provisions of Section 2.06 of the Series H Supplement. Those Series H Notes shall be registered in the name of the Depository or its nominee, as registered owner, and immobilized in the custody of the Depository; and shall not be transferable or exchangeable, except for transfer to another Depository or to another nominee of a Depository, without further action by the University. Each maturity of the Series H Notes shall be evidenced by a single certificate in the aggregate principal amount of the Series H Notes maturing on such maturity date.

If any Depository determines not to continue to act as a Depository for the Series H Notes for holding in a Book Entry System, the University may attempt to have established a securities depository/Book Entry System relationship with another qualified Depository. If the University does not or is unable to do so, the University, after making provision for notification of the owners of book entry interests by appropriate notice to the then Depository and any other arrangements it deems necessary, shall permit the withdrawal of the Series H Notes from the Depository, and authenticate and deliver the Series H Note certificates, in fully registered form, to the assigns of the Depository or its nominee (if such Note was held by a nominee), all at the cost and expense (including costs of printing or otherwise preparing and delivering replacement Series H Notes) of the noteholders.

Section 3. Offering Memorandum. It is determined hereby that the manner of sale and the terms of the Series H Notes, as provided in this Resolution and the Series H Supplement, are consistent with all legal requirements and will carry out the public purposes of the Act.

The use and distribution of the Offering Memorandum relating to the Series H Notes is hereby approved and authorized. Such Offering Memorandum shall be in substantially the form of the offering memorandum for the Series G Notes, the form of which is hereby approved. The Board has not confirmed, and assumes no responsibility for, the accuracy, sufficiency or fairness of any statements in the Offering Memorandum contained in Appendix B thereto.

Section 4. Allocation of Proceeds. The proceeds from the sale of the Series H Notes, including any accrued interest, shall be allocated, deposited and applied as follows:

(i) To the Bond Fund, accrued interest, if any, received on the sale of the Series H Notes; and

(ii) To the Note Program Fund, created pursuant to Section 5 of this Resolution, the entire remaining amount of the proceeds of the Series H Notes, to be applied to the purposes of that Fund, including transfers from that Fund authorized by the Act and to pay costs and expenses associated with the issuance of the Series H Notes.

Section 5. Note Program Fund. There is hereby created a fund to be maintained in the custody of the Treasurer and designated the "Note Program Fund." The Note Program Fund shall be funded from the proceeds of the sale of the Series H Notes. Such proceeds shall be used for the payment or reimbursement of a portion of the costs and expenses relating to the Series H Project, current refunding of certain Outstanding Obligations, and costs and expenses associated with the issuance of the Series H Notes. The Note Program Fund shall not constitute a Special Fund and shall not be pledged to the payment of Debt Service Charges.

Moneys held in the Note Program Fund, including all investment earnings thereon, pending disbursement from the Note Program Fund shall be

April 5 and 6, 2007 meeting, Board of Trustees

invested in Authorized Investments specified in Section VIII of the Non-Endowment Investments Policy of the University, as the same may be amended from time to time. The University may establish such accounts in the Note Program Fund as are necessary or desirable to carry out the requirements of the Series H Supplement.

The Treasurer shall maintain such books and records with respect to disbursements from the Note Program Fund so as to enable the Treasurer to determine the name of any payee of any such disbursement, the date on which such disbursement occurred, the amount of such disbursement and the purpose for which such disbursement was made. Investment earnings on the funds on deposit in the Note Program Fund may, at the discretion of the University, be paid to the Trustee for deposit in the Bond Service Account in the Bond Fund to be used to pay Debt Service Charges on the Series H Notes.

There shall be established in the Note Program Fund the following accounts:

(i) The Costs of Issuance Account, from which shall be paid the costs of issuance of the initial Series H Notes;

(ii) The Redemption Account, from which shall be disbursed such portion of the proceeds as shall be necessary to retire the outstanding General Receipts Commercial Paper Notes, Series G and a portion of the General Receipts Commercial Paper Notes, Series H, from time to time; and

(iii) The Project Account, from which shall be disbursed such portion of the proceeds of the Series H Notes necessary to pay costs of the Series H Project and paying costs and expenses associated with the issuance of the Series H Notes. The Treasurer shall designate in writing, either in the Series H Supplement or otherwise, the allocation of the proceeds of the Series H Notes to each of the foregoing accounts.

Upon the determination by the Treasurer that the costs incurred in connection with any item listed in Section 1 hereof in the definition of Series H Project (each a "Component") to be paid from the Note Program Fund have been paid in full or provision for such payment has been made, the University may use any remaining moneys on deposit in the Note Program Fund with respect to such Component to fund the costs of other Components or to fund the costs of additional projects constituting University Facilities (each, an "Additional Project"). Moneys remaining on deposit in the Note Program Fund after the completion of the Series H Project and any Additional Projects shall be used by the University in any manner which, in the opinion of Bond Counsel, shall be permissible under the Act and the Code.

Section 6. Application of Bond Proceeds. The University covenants that the use of the proceeds of the Series H Notes will be restricted in such manner and to such extent, if any, as may be necessary, after taking into account reasonable expectations at the time of delivery of and payment for the Series H Notes, so that the Series H Notes will not constitute "arbitrage bonds" under Sections 103(c) and 148 of the Code. The Treasurer of the University, or any other officer having responsibility with respect to the issuance of the Series H Notes, alone or in conjunction with any other officer or employee of or consultant to the University, will give an appropriate certificate of the University for inclusion in the transcript of proceedings for the Series H Notes setting forth the reasonable expectations of the University regarding the amount and use of those proceeds and the facts and estimates on which they are based, all as of the date of original delivery of and payment for the Series H Notes.

April 5 and 6, 2007 meeting, Board of Trustees

The University further covenants that it will take all actions required to maintain the exclusion from gross income for purposes of federal income taxation of interest on the Series H Notes and will not take, or permit to be taken, any actions which would adversely affect such exclusion under the provisions of the Code that apply to the Series H Notes; and the Chairman of the Board (the "Chairman") or the Treasurer and other appropriate officers are hereby authorized to take such actions and give such certifications as may be appropriate to assure such exclusion from gross income of interest on the Series H Notes.

Section 7. Series H Supplement and Other Documents. In order to better secure the payment of the Debt Service Charges as the same shall become due and payable, the Chairman, the President of the University, the Secretary of the Board and the Treasurer, or any one or more of them, are authorized and directed to execute, acknowledge and deliver to the Trustee and the Dealer, in the name and on behalf of the University and pursuant to the Indenture, the Series H Supplement and the Dealer Agreement, respectively, each in substantially the form submitted to this Board, or to such officers on behalf of this Board and the University, and such documents are hereby approved, with such changes therein as are not substantially adverse to the University and as may be permitted by the Act and approved by the officers executing the same on behalf of the University. The Series H Supplement shall also include the form of the Series H Notes (the "Form of Note"), attached thereto as Exhibit A. The execution of such documents by any of the officers shall conclusively evidence that the officers and the Board approve such changes and that such changes are not substantially adverse to the University.

Each of such officers is further authorized to execute and deliver on behalf of the University such other certificates, documents and instruments as are necessary in connection with the acts authorized by this Resolution.

Section 8. Authorization of Bond Insurance or Credit Support Instruments. The Treasurer is authorized to submit applications to recognized providers of municipal bond insurance or the providers of any Credit Support Instruments requesting the issuance of municipal bond insurance policies or Credit Support Instruments, as the case may be, to insure the University's obligation to make payments of principal of and interest or purchase price payments on the Series H Notes. The Treasurer is hereby authorized to accept one or more commitments for insurance or a Credit Support Instrument from such providers if, in his reasonable judgment, it is in the best interests of the University to do so and the Treasurer is authorized to execute and deliver, and the University is authorized to perform, any documents, certificates or instruments reasonably necessary to obtain the benefits of such policy of bond insurance or Credit Support Instrument. There is hereby authorized to be paid from the moneys deposited in the Note Program Fund such amount as is required to pay the premium and expenses for such insurance policies and costs and expenses for such Credit Support Instruments.

Section 9. Open Meeting Determination. It is found and determined that all formal actions of the Board concerning and relating to the adoption of this Resolution were adopted in an open meeting of the Board, and that all deliberations of the Board and of any of its committees that resulted in such formal action were in meetings open to the public, in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 10. Effective Date. This Resolution shall take effect and be in force immediately upon its adoption.

(See Appendix LIV for background information, page 1115.)

April 5 and 6, 2007 meeting, Board of Trustees

Upon motion of Mr. McFerson, seconded by Amb. Ong, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Davidson, Ong, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, and Brass.

--0--

Judge Duncan:

In a moment we will be taking a roll call vote to go into Executive Session; that vote will conclude all formal Board action for the day beyond adjourning the Board meeting. For those who may not wish to stay until the Board adjourns the meeting, I remind you that the next meeting of the Board will take place on Friday, May 4, 2007.

I hereby move that the Board recess into Executive Session for the purpose of considering personnel matters regarding employment and compensation, and to discuss matters required to be kept confidential by State Statute. May I have a second?

Upon motion of Judge Duncan, seconded by Dr. Cloyd, the Board adopted the foregoing motion by unanimous roll call vote, cast by Trustees Duncan, Hendricks, McFerson, Cloyd, Davidson, Ong, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, and Brass.

--0--

Thereupon the Board adjourned to meet Friday, May 4, 2007, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

Financial Benchmark 2007

The Ohio State University Board of Trustees

April 6, 2007

Context

A. Purpose

B. Key Definitions

- Current Funds
- Student FTE
- Benchmark Institutions

C. Data Sources

- IPEDS
- AAUDE
- Ohio Board of Regents

Key Definitions

- **Current Funds**
-- includes all income and expenditures to fund day to day operations, but excludes auxiliaries (e.g., hospitals) for comparability purposes.
- **Student FTE**
-- Full-time equivalent students (adjusts for part-time vs. full-time).
- **Benchmark Institutions**
-- includes the eight campuses that are highly ranked academically and comparable to OSU in mission, size, and configuration.
-- Penn State was excluded from current and historical analysis due to vast differences in reporting on IPEDS as compared to the other benchmark institutions as of FY02.

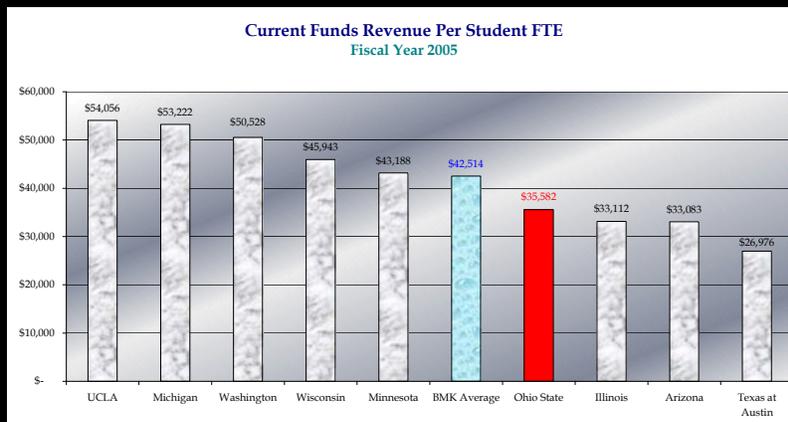

Benchmark Institutions of The Ohio State University

Data Sources

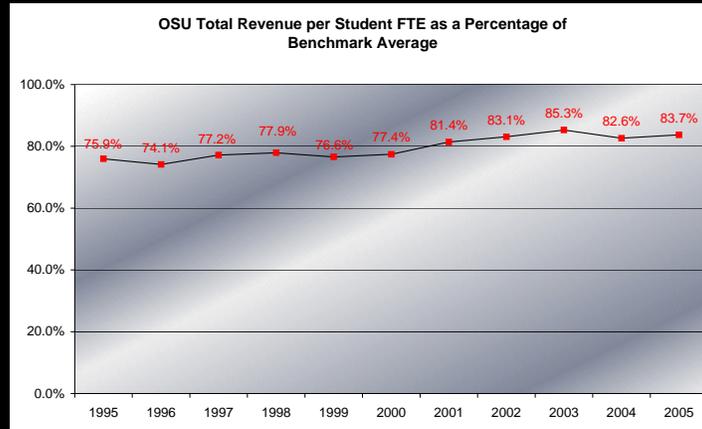

- IPEDS**
 -- Statistics of higher education institutions from the Integrated Post Secondary Education Data System (IPEDS) of the U.S. Department of Education.
- AAUDE**
 -- Statistics of participating institutions of the Association of American Universities Data Exchange (AAUDE).
- Ohio Board of Regents**
 -- Tuition and Fees Survey of Public Universities in the State of Ohio

Ohio State ranked 16.3% below the benchmark average in current funds revenue per student FTE (1.1% improvement over FY 2004)

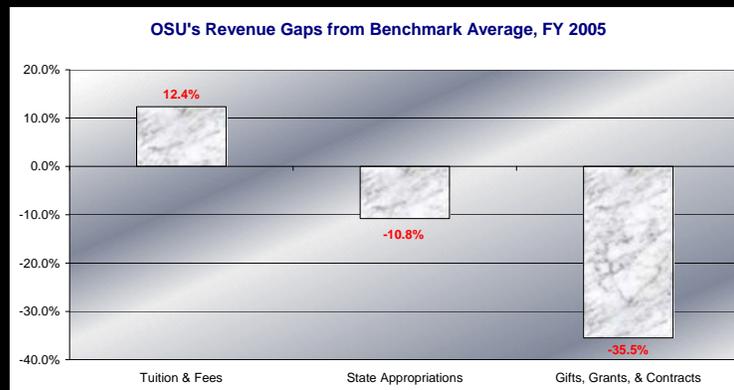

Ohio State has generally improved its financial standing in relationship to the benchmark schools since 1995

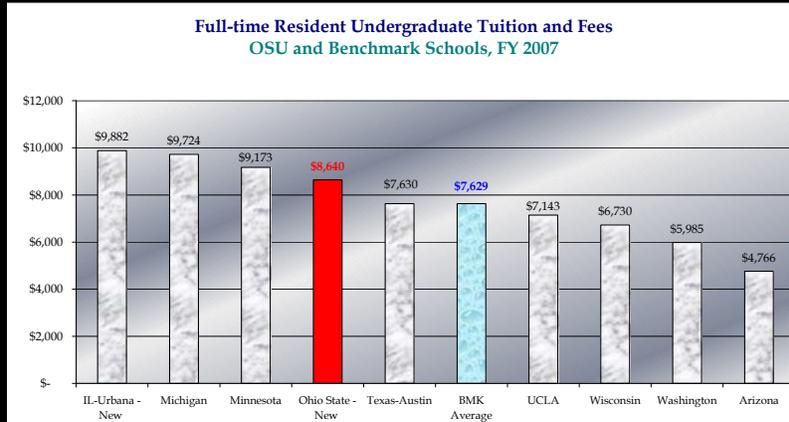

Ohio State trails benchmark institutions in major categories of current funds revenue per student FTE (except in tuition and fees)

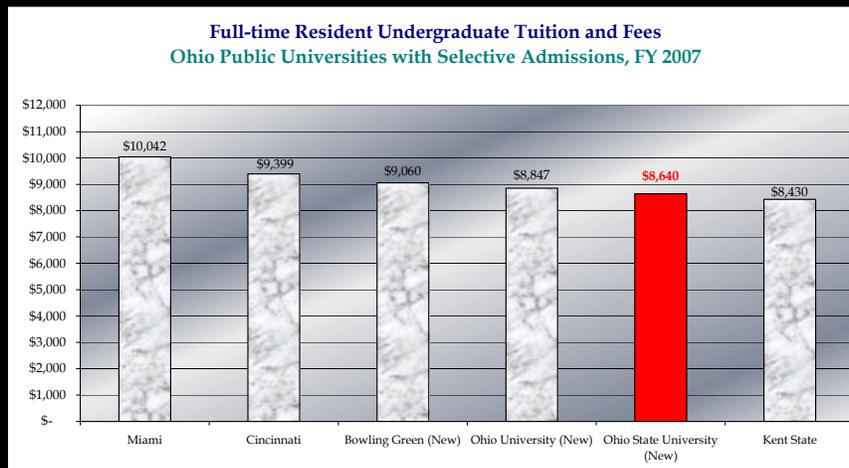

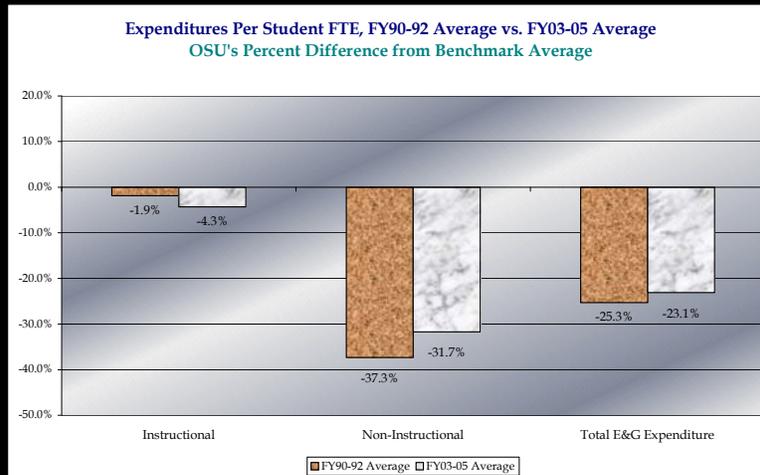

Because of reductions in state support and an increased reliance on tuition and fees, resident undergraduate tuition and fees at Ohio State are 9%* above the benchmark average (a 1% decrease over FY 2006)

However, Ohio State's resident undergraduate tuition and fees remain the second lowest among Ohio's public 4-year universities with selective admissions

While Instructional Expenditures have declined slightly, overall, Ohio State's relative position has improved since the early 1990s

Implications

- ✓ When compared to benchmark institutions, OSU has 16.3% less in resources per student
- ✓ OSU has made steady progress since the early 1990s in resources per student.
- ✓ In order to continue to make progress, OSU will need to continue to:
 - Manage its existing resources effectively
 - Assure continued state support
 - Expand and develop its revenue base

Ohio State is a tremendous value for students and Ohio taxpayers !

Peer Assessment Rank*	University	Annual Tuition & Fees
41	Ohio State	\$8,640
60	Miami	\$10,042
85	Ohio University	\$8,847
127	Cincinnati	\$9,399
164	Bowling Green	\$9,060
164	Kent State	\$8,430

Fund Name:	Praedium Fund VII	Date:	April, 2007
Fund Size:	\$800 Million	GP Commitment:	\$5 Million
Term of Fund:	8 Years	Investment Period:	Three Years
Strategy:	Opportunistic Real Estate	Due Diligence:	Cliffwater/Staff

Organization & People: In 1991, Russell Appel formed a team at Credit Suisse First Boston (CSFB) to make distressed real estate investments. After having early success, Mr. Appel and Floyd Lattin formed The Praedium Group (Praedium) in 1994 as an investment management affiliate of CSFB. Praedium separated from CSFB in 1999 and presently operates as an independent investment firm. In 2000, an affiliate of Cadim Inc. (Cadim) became a 50% owner of the Praedium Group. Cadim will invest 25% of the committed capital as a limited partner in Praedium Fund VII (Praedium VII). Cadim does not participate in the investment decision making process of Praedium.

Praedium has invested approximately \$2.2 billion in equity across six funds and is headquartered in New York. Praedium has a staff of 21 professionals. There are nine senior managers that have worked together for an average of nine years. In total, there are eleven individuals dedicated to the management of the real estate funds. The remaining team members include analytical, operational, legal and client communications personnel.

Strategy & Investment Process: Praedium VII will seek to take advantage of opportunities in highly-fragmented real estate markets which have consistent liquidity. Praedium will utilize a value-enhancement approach to improve the quality and stability of underperforming assets. Praedium targets control positions of mid-sized properties which typically require equity investments of between \$5 and \$50 million.

Praedium's investment process focuses on teamwork, communication, oversight and risk management. Prospective investments are initially evaluated based on the risk-reward tradeoff and capability of local market operating partners. Management will perform further analysis on property fundamentals, capital flows, cap rates and liquidity, quality of local partners and the physical/environmental condition of potential assets. Opportunities are then presented to the investment committee, consisting of the two founders of Praedium. The investment committee will evaluate the strategic fit of the opportunity as well as conduct a further review of the risk and reward tradeoff. Once unanimous approval is received from the investment committee, the asset can be acquired, subject to final due diligence. The asset management team will then execute the leasing and operating plans as well as make any necessary capital improvements. Praedium will continue to follow its strong sell discipline and consider a broad range of exit strategies.

Portfolio Construction & Diversification: Praedium VII will make investments across various property types and geographical locations throughout North America. Praedium VII will primarily focus on the multi-family and office sectors. However, selective investments may also be made in the industrial, retail and mixed use property types. Praedium primarily focuses on large metropolitan areas in New York, California, Texas, Florida, Arizona, Massachusetts and Illinois. Additional diversification and risk management of Praedium VII will be obtained through: 1) Investing in a number of control-oriented investments in the middle-market. 2) Limiting land and hospitality exposure. Praedium expects these types of investments to account for less than 5% of Fund VII total asset value. 3) Focusing on the United States. Canadian investments will be limited to 10% of assets; 4) Managing the use of leverage. Praedium expects to utilize leverage in the 55%-65% loan-to-value ratio range. 5) No more than 10% of the fund value will be invested in a single asset.

Performance: Praedium has invested six previous opportunistic real estate funds since 1991, including the group's experience at CSFB. The combined performance of those funds is an 18.4% net IRR. Over the same time period, the NCREIF Property Index produced a 10.2% net IRR. Praedium has also demonstrated a consistent ability to manage downside risk. Net losses across all funds have been limited to an average of approximately 8.5% of total realizations.

It should be noted that the NCREIF Property Index returns do not take into account the use of leverage. Due to the use of leverage and active management, private real estate funds should be expected to outperform the index on a net of fees basis. Praedium management has proven the ability to deliver excess performance versus the NCREIF index while maintaining a focus on limiting losses.

Private Real Estate Investment Opportunity- Executive Summary

Management Fees/Expenses: The management fee for Praedium VII will be 1.5% of total fund commitments during the investment period. After the investment period, the fee will be 1.5% of invested capital (funded commitments at cost less distributions). Praedium will receive 20% of the profits (carried interest) after the investors receive 100% of their capital contributions plus a 10% net of fees return compounded annually (preferred return). Organizational expenses will be charged at the fund level, but will be capped at \$1.5 million for the life of the fund. The fees for Praedium are comparable to opportunistic funds offered by competing firms.

Conclusion: Praedium has consistently applied its value-enhancement strategy to successfully manage a series of real estate funds through different investment environments. The Praedium management team has diverse experience, has established strong relationships with local operating partners and developed a strong sell discipline. Praedium VII will increase the private market exposure of the current Ohio State University real estate portfolio, which will add diversification. Praedium VII will also help increase the expected performance of the portfolio while maintaining a reasonable level of risk. *Praedium Fund VII is recommended for a \$10 million commitment.*

Private Equity Investment Opportunity- Executive Summary

Fund Name:	Sun Capital Partners V	Date:	April, 2007
Fund Size:	\$6 Billion	GP Commitment:	10%
Term of Fund:	10 Years	Investment Period:	Six Years
Strategy:	LBO- Distressed/Special Situations	Due Diligence:	Cliffwater/Staff

Organization & People: Sun Capital Partners (Sun Capital) was founded in 1995 by Marc Leder and Rodger Krouse. The firm is based in Boca Raton, FL and has offices in New York, Los Angeles, London and Tokyo. Sun Capital focuses on acquiring controlling interests in companies with strong franchise value, but with recent poor performance, operating challenges, inadequate management or in out-of-favor industries. Sun Capital has managed in excess of \$3.5 billion of committed capital through four previous private equity funds and a non-control oriented securities fund. The firm is currently forming its fifth control-oriented private equity fund, Sun Capital Partners V (Sun V).

Sun Capital has assembled a 116 person team comprised of transaction professionals, operating executives and support staff. The firm has a sixteen-member senior management team with an average tenure of approximately six years at Sun Capital. The founding partners, Messrs. Leder and Krause, oversee all investment and operational functions of the firm.

Strategy & Investment Process: Sun V will make control-oriented acquisitions of historically profitable companies, in relatively healthy industries that are currently experiencing difficulties. The targeted investments may be underperforming due to several factors including inadequate management teams, operational issues or the failure to realize the full potential of their business franchise. Sun Capital management seeks to purchase businesses at low valuations while they are under financial distress. Once purchased, Sun works to reduce costs, improve margins, accelerate sales growth, modify management information systems and improve control functions. Sun Capital strives to substantially improve profitability during the first two years of ownership and turn unprofitable companies profitable within one year.

The Sun Capital team utilizes its combination of operational and transaction management expertise to improve profitability in its portfolio companies. Sun Capital develops a restructuring and operating plan for each investment. The target company's strengths, weaknesses, competitive position and other relevant factors are analyzed prior to completing a transaction. Once a transaction is consummated, Sun Capital looks to improve or replace the management team. After a management team is stabilized, Sun looks to make significant changes to the portfolio company within the first three to six months. Sun Capital remains actively involved in its portfolio companies at all times. Weekly flash reports and monthly P&L reports are scrutinized by several senior managers. Additionally, weekly meetings are held to focus on operations, competition, new products and personnel. Sun Capital utilizes the portfolio company's cash flow, imbedded equity value and borrowing capacity to accelerate growth through new product and market opportunities. Lastly, once a company re-establishes a track record of sales growth and consistent profitability, Sun Capital principals consider appropriate exit opportunities.

Portfolio Construction & Diversification: Sun V is expected to invest in approximately 50-70 companies over a 4-6 year period. Sun Capital will have the ability to make investments that require equity capital in the range of \$1 million to \$250 million. The size of fund V will allow Sun Capital to complete a few large transactions while opportunistically taking advantage of smaller opportunities. Investments will have adequate industry diversification across the retail, manufacturing, automotive, distribution, business services and technology sectors. Sun V will make approximately 85% of its investments in North America, 10%-15% in Europe and 1%-2% in Japan.

Performance: Sun Capital has invested capital in four previous investment vehicles, three of which are structured as institutional limited partnerships. Since 1996, Sun has generated a net IRR of 66.3% on its investments. During the same time period, the Russell 3000 produced a 10% return. When compared individually to similar funds of the same vintage year, Sun II and III rank in the top quartile for performance. The databases used to compare the performance are Thomson Venture Economics and Cambridge Associates. If Sun I had been formed as a limited partnership, it would have ranked as a top quartile fund as well. It is too early in the life of Sun IV to provide a meaningful vintage year comparison. Due to the nature of acquiring underperforming companies, Sun Capital will incur more losses than a typical buyout fund. Since 1995, 20% of Sun Capital's investments were valued below cost. Therefore, Sun V performance may be subject to a higher level of volatility than experienced in a typical leveraged buyout investment.

Private Equity Investment Opportunity- Executive Summary

Management Fees/Expenses: The management fee for Sun V will be 2.0% of total fund commitments during the first five years. After year five, the fee will be 2.0% of invested capital (funded commitments at cost less distributions). Sun Capital will receive 25% of the profits (carried interest) after the investors receive 100% of their capital contributions plus a 10% net of fees return compounded annually (preferred return). Organizational expenses will be charged at the fund level, but will be capped at \$3.0 million for the life of the fund. The fees for Sun V are somewhat higher than similar funds offered by competing firms. However, the higher management fees are balanced by a higher preferred return to limited partners.

Conclusion: Sun Capital has developed a team that has a unique combination of operating and transaction management expertise that has produced high quality results. Sun Capital has proven an ability to generate outstanding performance by focusing on earnings growth, debt reduction and exit multiple expansion. The Sun Capital management team aligns interest by making a substantial monetary investment in the fund and by motivating employees with compensation incentives based on overall firm performance objectives. An investment in Sun V will provide additional exposure to a less-traditional segment of the market and will complement existing commitments in the Ohio State University portfolio. Sun V will be included in the special situations portion of the private equity portfolio. *Sun Capital Partners V is recommended for a \$15 million commitment.*

Requesting Agency(s): PUBLIC HEALTH, SCHOOL OF

Location(s): Cunz Hall Of Languages, Dieter

36,347 ASF/68,049 GSF Age: 1969

Description:

This project will renovate all floors of Cunz Hall to create offices and labs for the College of Public Health. The project will also include pool classrooms.

Project Information:

Renovations include interior upgrades for all floors; upgraded building systems; and a new roof.

How does this project advance the Academic Plan? This project advances the Academic Plan by providing improved teaching and research facilities for the College of Public Health.

Outstanding Funding Issues: A portion of the funding (\$6.54M) is from 2009-2010 capital appropriations. If these appropriations are delayed or reduced the project will reduce scope and/or supplement a limited amount from other sources.

Timing Issues: None

"Ripple effects" of the project: None

Special limitations/risks: None

Deferred Maintenance: None

Deferred Renewal: This project will address \$16.1M in deferred renewal.

**The Ohio State University Board of Trustees
Fiscal Affairs Committee**

April 6, 2007

Topic:

Local Administration

Context:

The Local Administration Competency Certification Program allows institutions of higher education to administer state-funded capital facilities projects without the supervision, control, or approval of the Ohio Department of Administrative Services.

Summary:

Prior to 1998, supervision, control, and approval of capital facilities projects in excess of \$400,000 were under the exclusive jurisdiction of the Ohio Department of Administration (DAS). In 1998, the legislature provided statutory authority for DAS to authorize state universities locally to administer such projects on a case by case basis.

In September 2005, the legislature amended Revised Code Sections 123.17 and 3345.50 to authorize and require DAS to provide blanket local administration authority to state universities under the Local Administration Certification Program. A university that obtains Local Administration Certification has blanket authority to administer locally its capital facilities projects without seeking or obtaining authority from DAS on a project by project basis. Obtaining such certification will expedite and simplify the steps necessary to construct capital facilities projects.

The University is in the process of submitting an application for blanket local administration. DAS requires all applications be accompanied by an approved Board of Trustees resolution (attachment). We are requesting approval of attached resolution at this time.

Considerations:

- Certain policies have been established and commitments made on behalf of the University, mandated by the Ohio Revised Code Sections 123.17, 3345.50, 3345.51, 153.13, and 153.16 a.
- Is there any additional information the Committee would like?

Requested of the Fiscal Affairs Committee:

Approval of Resolution.

**The Ohio State University Board of Trustees
Fiscal Affairs Committee
April 6, 2007**

TOPICS:

Proposed Athletic 2007-2008 Single Game Ticket Prices and Proposed Golf Fees for Calendar Year 2007

CONTEXT:

OSU's Athletics Department is fully self-supporting and does not receive a University subsidy. The Department is facing increases in operating costs for next fiscal year including utilities, financial aid, and travel.

A modest ticket price increase is necessary to meet these increased costs and remain financially stable. These proposed rates have been reviewed by the Athletic Council and the University.

RECOMMENDATIONS:

- Golf course membership rates increase at an overall 4.6% for Faculty/Staff, and 4.9% for Alumni/Buckeye Club members. Daily fees and all student fees are being held at the current rates with no increase. (Attachment A)
- Football tickets – an increase of \$1 per game. This is an increase of between 1.5% and 3.7%. (Attachment B)
- Men's basketball public and personal seat licenses will increase by \$1 per game. Faculty, staff, and student tickets will increase by \$0.50 per game. (Attachment B)
- Men's and women's soccer and gymnastics, women's basketball, men's ice hockey, baseball, wrestling, men's lacrosse, and women's volleyball will remain the same. (Attachment B)

CONSIDERATIONS:

Football Tickets:

- Students have the highest percentage increase, but remain at the target of approximately 50% of the public ticket cost (actual 47%).

Golf Course Fees:

- The daily fees for the Scarlet increased substantially last year to reflect the quality of the course after restoration. When comparing daily fees to the local market the current rates are comparable to local courses for the quality and amenities provided and at the high end of the competitive market for the area. As other courses continue to cut fees to attract play we feel that our fees need to remain steady for this coming year.
- A portion of the membership increase is a monthly minimum charge for the restaurant operations. The restaurant minimum is being implemented to encourage members to support that portion of the course operation and educate them on those services available.
- The Athletics Department and golf course management will be working on cultivating new memberships and stabilizing member levels at a sustainable number for the courses during the coming year. Memberships had declined from levels that were already below capacity caps due to the course interruption caused by the restoration.

REQUESTED OF FISCAL AFFAIRS:

**AUTHORIZATION, ISSUANCE AND SALE OF GENERAL RECEIPTS
COMMERCIAL PAPER NOTES SERIES H OF THE OHIO STATE UNIVERSITY**

This resolution authorizes the issuance and sale of General Receipts Commercial Paper Notes, Series H (the "Series H Notes") of the University in the aggregate principal amount at any time outstanding not to exceed \$107,000,000, pursuant to an Amended and Restated Trust Indenture dated as of December 1, 1999, as supplemented (the "Indenture"), and a Series H Supplement to Amended and Restated Trust Indenture. The proceeds from the sale of the Series H Notes will be used to currently refund \$68,000,000 in aggregate principal amount outstanding of General Receipts Commercial Paper Notes, Series G (the "Series G Notes"), to provide financing or refinancing for a portion of the costs of the Series H Project described below (which project is identical to the project for which the Series G Notes were issued), to pay maturing Series H Notes, and to pay costs and expenses associated with the issuance of the Series H Notes.

The Series H Notes shall bear interest at a rate not to exceed 12% per annum and shall mature no more than 270 days after their respective dates, but in no event later than October 1, 2008. The Series H Notes, together with all parity obligations, are secured by a pledge of the General Receipts of the University and all of the University's right, title and interest in the Debt Service Fund created by the Indenture and in certain other accounts permitted by, established under or identified in the Indenture or a Series Resolution thereunder. The Series H Notes are not debts or bonded indebtedness of the State of Ohio and are not general obligations of the State of Ohio or the University, and neither the full faith and credit of the State of Ohio nor the University are pledged to the payment of the Series H Notes.

The Series G Notes were issued in October 2005 and had an eighteen month term. This resolution will continue the current Commercial Paper program. It is anticipated the Series G Commercial Paper will be redeemed upon issuance of University bonds within the next twelve months.

The projects being funded by the Commercial Paper are:

1. Construction of the Biomedical Research Facility
2. Construction of the Ohio Union Replacement
3. Renovation of Archer House
4. Renovation of Fawcett Center
5. Renovation of Wilce Student Health Center
6. Off-Campus property acquisitions
7. Install, equip and improve enhancements to increase Campus electric capacity
8. Kinnear Road improvements
9. Replacement of McCracken Power Plant Boiler
10. Install, equip and improve enhancements to North Campus Hot Water Loop

EXHIBIT A

The Series H Project consists of, collectively:

1. Construction of the Biomedical Research Facility
2. Construction of the Ohio Union Replacement
3. Renovation of Archer House
4. Renovation of Fawcett Center
5. Renovation of Wilce Student Health Center
6. Off-Campus property acquisitions
7. Install, equip and improve enhancements to increase Campus electric capacity
8. Kinnear Road improvements
9. Replacement of McCracken Power Plant Boiler
10. Install, equip and improve enhancements to North Campus Hot Water Loop

Each of the foregoing (1) through (10), inclusive, constituting a "Component" within the meaning of Section 5 the Resolution to which this Exhibit is attached.

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND THIRTIETH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, May 4, 2007

The Board of Trustees met at its regular monthly meeting on Friday, May 4, 2007, at The Ohio State University Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **

May 4, 2007 meeting, Board of Trustees

The Chairman, Judge Duncan, called the meeting of the Board of Trustees to order on Friday, May 4, 2007, at 9:45 am. He requested the Secretary to call the roll.

Present: Robert M. Duncan, Chairman, Dimon R. McFerson, G. Gil Cloyd, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Thekla R. Shackelford, Yoonhee P. Ha, and Christopher Alvarez-Breckenridge.

--0--

Judge Duncan:

At this time, I would like to nominate the slate of Officers of the Board and unless there are any objections the slate of officers are as follows:

**ELECTION OF OFFICERS
BOARD OF TRUSTEES**

Resolution No. 2007-131

WHEREAS at its March 2, 2007 meeting, the Board elected Dr. G. Gilbert Cloyd to serve a two-year term as chairman of the Board; and

WHEREAS the remaining officers of the Board shall be elected at this meeting and all officers shall take office immediately following adjournment of this meeting:

NOW THEREFORE

BE IT RESOLVED, That the following slate of officers be nominated for election:

Karen L. Hendricks, Vice Chair
David O. Frantz, Secretary
Thomas Johnson, Interim Treasurer

Upon motion of Amb. Ong, seconded by Dr. Cloyd, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote, cast by Trustees Duncan, McFerson, Cloyd, Davidson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Shackelford.

RECOGNITION OF YOONHEE P. HA

Judge Duncan:

Over the years, this Board has been well-served by its student trustees. That is certainly the case of Yoonhee Ha, who is attending her final meeting of the Board today.

Yoonhee Ha has had an impressive undergraduate experience. She has been selected as the 2007 Marshall Scholar and is the first Ohio State student chosen for this prestigious scholarship since 1997. Yoonhee is also the only OSU student to have ever received both the Marshall and Truman scholarships, which she received when she was a junior. In all, Yoonhee has received 26 merit scholarships.

Yoonhee is double majoring in microbiology and finance, with minors in Korean and political science. She intends to go to the University of London, London School of Hygiene and Tropical Medicine next fall to study public health.

Yoonhee, you have been an outstanding student trustee and a wonderful example of the committed students we have here at Ohio State. We thank you for your contributions and wish you every success in the future. We all share your parents' pride in you and will miss you very much.

Members of the Board, ladies and gentlemen, this truly is a superstar. In recognition of your outstanding service to the University, we would like to present you with this plaque.

--0--

PRESIDENT'S REPORT

President Karen A. Holbrook:

It is very difficult to know the right words to adequately and appropriately thank someone who has contributed so much to this University as Judge Duncan. Judge, the University has had the privilege of working with you not only for your nine years on the Board of Trustees, but also for much longer as you served the University directly as general counsel and as secretary to the Board, and through countless other ways focused on your own field of law and other interests across the campus. You have been an outstanding Board chairman this year. I would daresay that it has been an unusual and difficult year full of challenges and the need for dedicated Board involvement and steadfast leadership. The number of days that you've spent in Bricker Hall is testimony to the activities that are constantly before us in this complex University and a statement of the commitment you have made to our governance. You have spent countless hours at events off-campus as an advocate for and to support the success of the University and the increasingly positive future for our students, faculty, and staff.

As chairman of the Board, you have led with knowledge, insight, wisdom, respect, and compassion. I have watched you agonize over decisions not because it is difficult for a judge to make decisions, but because you fully understand and appreciate the impact of any decision on individuals and you think deeply and care greatly about that impact. It has been a personal pleasure for me to work with you over this past year.

I wish you the enjoyment of your morning coffee without picking up the paper to scan for the next issue that is going on at Ohio State that would

May 4, 2007 meeting, Board of Trustees

bring you to Bricker Hall for the day, and the opportunity to linger over pages of the *Dispatch* that have nothing to do with Ohio State. I know that even though there are other items on your daily agenda besides Ohio State, it will always be a first priority for you, and you will maintain your love and close association to your University throughout the future. Thank you for your wonderful years of service and your leadership to this great institution.

We received wonderful news yesterday that Bobby Moser has been invited to join the board of directors of the Kellogg Foundation. This is a great honor and it says a lot about you, Bobby. His appointment to the Kellogg Foundation Board will bring a great deal of prominence to the University. Congratulations, Bobby.

I also want to thank and congratulate Joe Alutto for accepting the interim position as executive vice president and provost. We know the transition between Barbara and Joe is going to be a very smooth one. Joe, I know your leadership with the University is welcomed and we are pleased you have agreed to accept this position.

A few pieces of good news about our undergraduates: 160 students were elected to Phi Beta Kappa, including 16 for a second time and 3 for the third time. Let me mention a few great examples of things that have happened directly to our undergraduate students. Once again, I have to start with Yoonhee since she has earned another honor. Yoonhee has been recognized as an Academic All-Star by *USA Today*. She is only one of 20 students from more than 600 nominees across the United States selected on the basis of grades, leadership, activities, and ways in which the student extends his/her intellectual talents beyond the classroom. Congratulations, Yoonhee, for yet another honor.

Theresa Yoon, a student in International Studies, won a critical language scholarship from the U.S. State Department and the Council of American Overseas Research Centers for summer study in Korea. She also earned an internship at the U.N. in New York, and another at the U.S. Embassy in Mexico. This shows how wide of an impact our students have across the world.

Corin Marron, a senior honors student majoring in FAES, has been named a Morris K. Udall Scholar. She traveled to South Africa last summer to learn about water needs in impoverished communities and is the co-leader of the South Africa Water Reuse Initiative, a team of students developing a natural water filtration and irrigation system.

Laura Tompkins, a senior political science major, traveled to Brazil last year to study political organization in shantytowns. Her senior thesis focused on the relationship between poverty and democracy. Laura is graduating next month and in March 2008, she will be heading back to Brazil on a Fulbright Scholarship.

A group of PharmD students, from the College of Pharmacy, was recently awarded the Excellence in Public Health Pharmacy Practice from the U.S. Public Health Service for their work with Operation Diabetes. They visited middle schools in central Ohio educating students about diabetes and the effects of excess sugar in the bloodstream.

Two students have been recognized as recipients of the 2007 Student Award for Excellence in Community Service. Aimee Gall, a fourth-year mechanical engineering student, is vice president of Engineers for Community Service. This is a group that works in Honduras at an orphanage for children with HIV/AIDS. Corrie Ziegler, a fourth-year

May 4, 2007 meeting, Board of Trustees

optometry and vision science major, has volunteered throughout her entire undergraduate career and has been vice president and president of Ohio State Volunteers for Optometric Services to Humanity, which brings optometry services to people in developing countries. Again, our students are absolutely everywhere.

Then in a tech-transfer activity, Sarah Herringshaw, from the Department of Food Science and Technology in FAES, helped develop the Roasted Caramel Apple Cream sauce that is part of a new signature hotcakes dish on the Bob Evans menu. She learned this when she was in an internship program with Total Ultimate Foods.

From our regional campuses we have graduating senior Kelli Cofer, from Mansfield, who won the Delta Sigma Pi Scholarship Key for a 4.0 GPA. While earning her B.S.B.A. degree in the Fisher College of Business, she also has become a world-ranked feather weight kick boxer. Then we have graduating senior Bob Smith, from Marion, who will earn his B.A. in psychology cum laude, 22 years after earning his associate's degree. Bob is 70-years-old. A couple of years ago, we announced a gentleman from Mansfield who was 98-years-old at the time he received his associate's degree.

Let me mention something about our reaccreditation and next month I will go into greater depth about it. We have just completed a three-year process to prepare for our 10-year institutional reaccreditation from the Higher Learning Commission of the North Central Association of Colleges and Schools. This is a process that was overseen by Academic Affairs and full credit needs to be given to Randy Smith. He did an outstanding job in pulling together, with the help of faculty fellow Stephanie Davidson and a coordinating committee, three years of work into one document. This document is absolutely an exceptional road map for this University, both looking back and looking forward in where we are.

What we have to do for reaccreditation is show evidence that we meet all of the standards in five different areas: 1) mission/integrity; 2) planning -- going forward; 3) student learning and effective teaching -- an area we had a little bit of a problem in last time, because they didn't know how well we were doing in actually assessing student learning; 4) acquisition, discovery, and application of knowledge on our success and research; and 5) engagement and service. We also had the opportunity to have an in-depth discussion on one topic -- graduate and professional education -- and we will hear more about that this morning from Dean Osmer.

We were site visited by a very fine ten-member committee that spent a lot of time on campus talking to many people across various units. They will report to us probably within the next few weeks. I have to say, having sat through and participated in many of these reviews, this was absolutely the finest one I have ever heard. We went through all five criteria without a single criticism and we will come out of it presumably with no follow-up activity. What this says is over the past ten years this University has been very focused on knowing where it wants to go and putting in place many different measures to get us to the right place. This is going to be very exciting when we get the final report back and I look forward to telling you about it.

I am going to close quickly by saying that I think this has been a very good year so far with the legislature. We are very optimistic about the future. We are very grateful to the Governor and Chancellor for putting higher education so high on the agenda and not deciding whether the state needs to improve on higher education, but actually on how to improve higher

May 4, 2007 meeting, Board of Trustees

education. From the Governor's plan we moved on to the House, and the Speaker has been very supportive with the new scholarship programs in STEM education and a new plan that Senior Vice President Shkurti will tell you more about. We have been working with the Senate and we have early signals that what they are going to come out with will be very encouraging. This is a turn around approach to higher education in our state. We are very grateful to the legislature and to all the people who have been involved in promoting higher education as something good for the state and critical in driving the economy in the future. We look forward to seeing that.

Finally, I'm pleased to see what came out of House Bill 2 regarding the governance of the Board of Regents and the Chancellor. I think many of you have heard the news, but I will summarize what change there has been. We now know the Chancellor will have a five-year term, with no term limits, and the Governor can remove the Chancellor without the advice and consent of the Senate.

Mrs. Davidson:

They modified that a bit in the Committee to require input from the Senate.

President Holbrook:

Good. The members of the Board of Regents will have six-year terms beginning in September, with members serving for two terms. The Board of Regents will meet quarterly and instead of conducting its business via the current rules it will adopt its own standards. The Chancellor will request the Board to have at least one public hearing on any program the Chancellor recommends for elimination before he makes that recommendation. The Board will offer its recommendation to the Chancellor, but he or she is not required to accept it before making a decision. The Chancellor will establish rules for advisory duties and responsibilities of the Board, and respond to requests for information about higher education from the members of the General Assembly.

I would also like to say that under the direction of Bruce Johnson, IUC has been a much stronger and responsive group. IUC is working together to follow Bruce's goals, focusing on: affordability, access, accountability, and alignment. I think things are all moving in the right direction downtown for higher education at every single level beginning with the Governor to the Chancellor to the House to the Senate. I look forward to this being a very positive biennium for the system and Bill Shkurti will have more comments for you at a later time. Thank you very much for your attention.

Dr. Cloyd:

I would like to make one comment. A copy of the Reaccreditation Self-Study Report – *Time and Change: A Decade of Progress at The Ohio State University* -- was distributed to all of the Board members. I would also like to acknowledge thanks to Vice Provost Randy Smith and Professor Stephanie Davidson for putting together such a wonderful report. It reflects well on the administration who have put together outstanding programs. It addresses the issues that were raised in the past period, but documents the outstanding progress that the University has made and the bright future we have. This is tremendous work. My compliments to them.

President Holbrook:

I agree, they did a great job and thank you for reading it.

May 4, 2007 meeting, Board of Trustees

Dr. Cloyd:

It was a pleasure to read.

--0--

DOCTORAL PROGRAMS: MAKING CHOICES, MAKING CHANGES

Provost Barbara R. Snyder:

Good morning. I want to start by saying congratulations and welcome to Joe Alutto who will be succeeding me. If he loves this job half as much as I have, he is going to have a lot of fun and you are going to have a great Provost.

I'm pleased to be able to speak to you this morning about graduate education. Of course, I have been here talking about graduate education many times over the last few years and we are coming to the culmination of literally three years of work on this topic. You are going to hear more about those plans in a minute from the new dean of the Graduate School, Pat Osmer.

I do want to start with a couple of updates on our other very important projects. Like graduate education, the undergraduate curriculum is a topic that I have been talking to you about for the last couple of years. We're now in the final phases of curricular revisions that will give our undergraduate students more choices and provide them with what we hope will be a more coherent general education experience. The revisions will also allow our students to complete their degrees in four years like their counterparts at Michigan, UCLA, and other benchmark institutions. Yesterday, the Faculty Council voted, with one abstention, to support the proposal to reduce the minimum number of credit hours required for graduation from 191 to 181. On May 10, the University Senate will act on the proposal. If the Senate approves that change, I will be back for the last time in June to brief the Board on our new undergraduate curriculum and with your approval the new requirements could begin for the students entering in Autumn 2007.

Let me also update you on our new Economic Access Initiative, which I spoke to you about a few months ago. In December I informed you that our goal is for Ohio State to become the nation's leader in enabling financial access to higher education.

Under the leadership of Tally Hart, Ohio State's Economic Access Initiative is well underway. It will encourage economically-needy high school students to go to college and to think about continuing their studies in graduate and professional school. One way we have decided to do that is to call upon our faculty members who are themselves first-generation scholars. I sent out an e-mail message a few months ago to all of our faculty members and the response was truly overwhelming. We heard from nearly 450 faculty members, including physicians, engineers, nurses, mathematicians, humanists, lawyers, pharmacists, social scientists, veterinarians, and architects. They shared their stories about the impediments they had along the way to college and some ideas of how we might make college possible for students in similar circumstances

These faculty members are patent holders, presidents of international societies, and researchers whose work defines and drives the course of scholarship in their disciplines. Among them are 6 deans, 15 current or former department chairs, 15 winners of the Distinguished University Teaching Award, 27 Distinguished University Scholars or Distinguished

May 4, 2007 meeting, Board of Trustees

University Professors, and 2 Ohio Eminent Scholars. We brought them all together at a big meeting last month to talk about how to use the wonderful stories of struggle and success that they had shared with us. We asked them to serve our community as mentors for first-generation students and as resources to meet with donors as we think of raising dollars for scholarships. We hope that they will become an important part of the campaign that will cement our Economic Access Initiative. It is already bearing fruit, but I wanted to make sure that you knew that and you will be hearing more about it in the years to come.

In turning now to our discussion of graduate education, I'm reminded of a remark by one of our first-generation scholars, who said, "Success precedes work only in the dictionary." That's true of just about everything, including the reform of doctoral education. The plan that Pat Osmer will discuss with you is the result of many hours of work by many colleagues throughout the University.

You will probably remember that Pat's first charge was to implement the recommendations of two committees that had studied the state of graduate education at our University. One of the committees looked specifically at the structure and functions of the Graduate School and the other focused on the alignment of funding with quality in graduate education. The latter committee found that our traditional model for funding doctoral education, based on credit hours, has led to considerable variability in program and student quality. With that in mind, I charged a subcommittee of the University Senate Fiscal Committee to come up with new approaches for funding doctoral education. With the endorsement of the Fiscal Committee and the recommendation of the Council of Deans, I asked Dean Osmer to create an implementation plan for the University-wide funding model developed by the subcommittee. He has done so after discussions with the Council of Deans, the Council of Graduate Students, the Research and Graduate Council, department chairs, the graduate studies chairs, the Steering Committee, and Faculty Council.

I've asked him now to present the plan to the members of the Board and indicate how the model for investing resources will ensure that our doctoral programs are consistently excellent. Pat --

Dean Patrick S. Osmer: [PowerPoint Presentation]

Thank you very much, Barbara. I am very delighted to have this chance to address the Board and describe this implementation plan that she mentioned. I must say it has been an amazing learning curve and experience for me this year. As you are hearing this morning, you may know about the accelerating universe and it seems like my life has been accelerating, too.

This morning I would like to tell you about the essence of this program, which we have entitled, "Making Choices, Making Changes." How do we identify our top quality graduate programs? How are we going to reallocate resources?

I remind you that graduate study at Ohio State is a major enterprise. It not only involves some 10,000 graduate students and 3,000 professional students, but it also covers 92 doctoral programs and 115 masters' programs. A unique and special feature of Ohio State is that we span just about everything. We have the arts and sciences programs, the health sciences, and the professional disciplines. This offers us some competitive advantages particularly with interdisciplinary programs.

May 4, 2007 meeting, Board of Trustees

As Barbara mentioned, today we want to concentrate on the doctoral programs. If there is one word that I want to associate in your mind with what we are doing it is "quality." As I have been saying in regard to doctoral programs, quality trumps virtually everything. As Barbara has been saying, this has been studied at length by the University for several years and it was highlighted in the reaccreditation process. During this year, I participated on a Senate Fiscal subcommittee, chaired by Cheena Srinivasa, which made a major effort in coming up with a plan on how we would carry this out. I am going to mention the highlights and then go through the details of the plan.

First, the colleges are the main academic units. That is important to remember, because we have such a breadth of activities and I cannot pretend to know all of the details of all their programs. I don't have any faculty or divisions under me, they are in the colleges as are the other resources. This is a tripartite effort: 1) a partnership with Academic Affairs -- which has the overall responsibility for academic programs and resources in the University led by the Provost; 2) the Graduate School, which looks at the overall quality of standards, goals, directions, and allocates some central resources such as fellowships and tuition authorizations; and 3) the colleges, where the bulk of the effort lies. The three groups must work together if we are going to advance the quality of our graduate programs.

How are we going to do this? In the report of the Senate Fiscal Subcommittee a series of dialogues have already been underway in other context with the colleges, the Graduate School, and OAA to identify the strongest programs and best candidates for enhanced funding, along with the need for disinvestment of weaker programs.

How are we going to carry this out? There are three parts: 1) the principles of this process, which have to be widely known across campus; 2) quality indicators we use to select the strongest programs; and 3) the criteria for the programs selected on how best to go ahead. These are the three key parts of this process.

Principles may be obvious but are important to be recognized. It has to be a fair process. It has to recognize that among our 92 doctoral programs there are tremendous differences from the life sciences, the physical sciences, professional schools, arts, and humanities. They have many things in common, but many differences and we have to recognize that. It has to be a rigorous program so that we can get the results we need. It has to be effective in selecting our highest quality programs and it has to be defensible when we are all done.

How are we going to identify the strongest programs? As I have been saying, there is not a formulated approach. Nonetheless, there are quality indicators that definitely inform us of what are our strongest programs. Through this dialogue process, I plan to derive with each college and each program appropriate indicators for that area of study or discipline involving some national comparisons, too. For example, things that are going to be important for most programs are the GRE scores -- the national entrance level scores -- as a measure of the quality and ability of incoming students. The Freeman Committee Part Two found that the most important indicator was placement of graduates. This is perhaps the best indicator of the success of our programs, and recognizing that the placement criteria and value differ from program to program. Where our students go and what they do is an important measure of our success. We have to consider the overall quality of the doctoral programs and the centrality of our mission for those will be factors on deciding where we go. Other factors which will be used in a more specialized way are things like how long it is taking students to get to their candidacy, how long to complete their degree, or how many

May 4, 2007 meeting, Board of Trustees

students are being enrolled compared to how many are actually getting their Ph.D. There is no formulative approach, but if there are outlining values in this we want to look at those and they can be an indicator of the situation of a program. Throughout this process we want to be very aware of -- and it is an integral goal of our whole effort -- maintaining and strengthening diversity. As David Boley was saying this morning in the Academic and Student Affairs Committee, if you looked at the diversity of the people attending the luncheon at the Hayes Graduate Forum, you realized that is who we are and part of what we do. In the Graduate School we are very committed to that.

In my opinion just because a program is good does not mean we just throw money at it. It is very important for everyone to have thought through how we are going to succeed in this area. We are in a very competitive situation. There is nobody particularly wanting to get out of the way of the universities ranked higher than we are and making way for us. That is certainly my own experience. In the Department of Astronomy we thought very deeply about and concentrated on the criteria. So we need to look at the criteria in making these selections; for example, fields where there are newer emerging opportunities where we can excel.

When we have programs that are doing very well, how are they going to gain a distinctive edge relative to competing institutions? What can they do to be special? We have to be ahead of the curve. Again, we keep working to improve diversity. Departments have to think about and develop new approaches to attract high-quality students. We are now aiming for the top rank here in our University programs. It is a very competitive situation. You cannot just sit back and wait for students to apply to Ohio State because they heard it might be good. I can assure you the higher you go in the rankings the more competitive it gets. Departments have to think about how they are going to go out and be proactive in recruiting these high-quality students. Finally, for this to succeed the departments and colleges have to make an overall commitment. It has to be a fundamental part of their program. It is not just an afterthought or it will never, never get there. These are just some of the criteria that I wanted to bring to your attention as part of this process.

As I have said, I find this a very interesting management challenge and how we are going to do this across our 92 doctoral programs, because it spans such a wide range. I have come up with what I call an "adaptive feedback process," and there are a series of steps I am going to outline and then take you through a little more detail. It is initially based on a series of meetings between the Graduate School and each college, since the result ought to be at that college-level. Each college will need to identify its programs that it thinks are the strongest candidates for both enhancement and for disinvestment. Then having completed this series of reviews, the Graduate School will make a compilation of these results with its own advisory process to bring together, think about, and make initial recommendations to the Provost on what I think would be an appropriate balance of programs to support across the University. I envision then continuing dialogues among the Provost, the Graduate School dean, and the college deans -- who are the authorities responsible for the success, outcomes, and efforts in their units -- and then the final decision would be made by the Provost.

Since the Graduate School would compile what information it has centrally on the programs in each college, I would envision meeting with each dean initially to describe the proposed process we have in mind. We would then engage in a dialogue to learn about the special programs in the college that will inform us and eventually lead to agreement on how we would go through the assessment process for each college. In the case of the larger

May 4, 2007 meeting, Board of Trustees

colleges where there are many departments, I will be happy to meet with the department and graduate chairs in that college to discuss the process and address any questions that may arise. We have to have people involved at the department and program-level in doing this. They are the ones who know the fields best that are going to be carrying out the program that will, in fact, be coming up with the ideas for going ahead, so they must be involved. They have to understand as well as possible what process and approach we are using. Then I would expect each college, led by its dean, to carryout its own process to select its own best programs for enhancement and any weak ones for disinvestment. As an incentive, we recommended in the Senate Fiscal Subcommittee Report that if a college comes forward and identifies and proposes programs for disinvestment, then it would get to keep those resources freed up and use and redirect them towards its stronger programs. If on the other hand it doesn't, and in the eventual centralized outcome we make decisions on disinvestment, then those funds that are freed up would be used in a central pool. Finally, when that is all done, I expect to meet with each college dean and receive the recommendations from that college as part of the input for the next step.

As they say, this will be a very interesting, challenging, and fun process, because this makes us think about what are we going to do to achieve a great university at the university-level? That involves taking results across all of the programs and bringing them together, in what is going to be the best way for Ohio State and its mission. This is not going to be easy, but a very important and interesting challenge. I would expect to use an advisory process including not only our distinguished faculty, but external distinguished people. To bring this together we will make these preliminary findings, discuss it with the Provost, have another round of interactions as needed with the college deans to get these recommendations together, and finally, the Provost has the overall responsibility for the final decisions about these programs and will announce the results. That is the process.

During these consultations this last month, I have become aware that it is very important that we actually now do it for a variety of reasons. One is that we need the outcomes. Uncertainty gets produced by people worrying about what will happen, so I want to be as aggressive and as ambitious as we can. We are actually going to start pulling together a process over the summer. Coincidentally, it happens that many program reviews for individual departments, as well as all college dialogues that Academic Affairs has been carrying out, will be completed by the end of Autumn Quarter 2007. I think we need to have the goal of carrying out this individual process for the graduate and doctoral programs on that same time scale, so that we can get those results in by the end of December. That allows Winter Quarter as a time to bring them all together, to be compiled, to be discussed, and we ought to have the goal of announcing the outcome by the end of Winter Quarter 2008.

Let me just remind you again of the importance of this. Graduate programs literally define the University. The difference between a college and a university is that universities offer graduate programs and degrees. They are absolutely essential to Ohio State's role as a flagship university. I was delighted to hear Chancellor Fingerhut call attention to the importance of Ohio State as a flagship university in Ohio. My core belief is that Ohio State has a vital role in the state's economic, cultural, and future going forward. We must have a strong university which will involve strong research, graduate, and undergraduate programs. Graduate programs are what establish one's national and international reputation, building on the great progress we made in undergraduate programs. This is an important area to focus on.

May 4, 2007 meeting, Board of Trustees

Just to reiterate the obvious, graduate education is central to Ohio State and its mission. It produces the next generation of independent and original researchers and scholars. It is vitally involved in our undergraduate education through TA's and the interactions of the graduate and undergraduate students. It is a fundamental part of advancing our research programs at Ohio State. This process is vital to us going forward and achieving the next level of excellence that we all aspire. Thank you very much.

Provost Snyder:

We would be happy to take any questions you may have.

Mr. Borrer:

First of all I would like to congratulate Provost Snyder, the faculty, Professor Silverman, and President Holbrook on the recent faculty vote to reduce the number of hours to a more manageable level. This has been a two-and-a-half-year project and we would expect to have the overall faculty vote in favor of this coming up very soon. We are very excited about it. The Board should understand the amount of work and energy this took and the collaboration that it has taken among a number of groups to accomplish this has been truly outstanding.

The second part of this presentation today is another almost as ambitious project, if not more. I think it is critical and vital to our mission of our University. While we are having an administrative change with both President Holbrook and Provost Snyder moving on, I think it is incumbent upon us as a Board to help those coming in to replace them understand the need we have to make sure that we advance and that this continues to be a very high priority for the University. I do want to thank you for the job well-done and you will continue to have my personal support whenever you need it to help twist some arms. I hope everybody can realize the importance of this. Thank you.

Dr. Cloyd:

Dean Osmer, let me also lend my strong support for the tough work you have ahead with the faculty. As you think about the quality of the programs and how you will monitor quality of existing programs, do you have any thoughts on how you could use development funding that programs have been able to garner, either public or private, and even thinking of ways that you could normalize for different sizes and different tenures of program? It seems to me that one sign of a strong graduate program is its ability to get funding back, either through the research process or through graduates or other stakeholders who feel so strongly about the program that this brings funds back to the University.

Dean Osmer:

Those are very important measures. I didn't have time to mention the survey of the National Resources Council on Graduate Education that went on this fall. We have now collected an invaluable set of essential data on all these factors and those are important measures, too. I remind you that this is where you have to be careful and look at it on a discipline by discipline basis. For example, English is different from high energy physics. What is appropriate? I want to be sure we look at it discipline by discipline. We have indicators that matter compared to the outstanding institutions across the country in that area. Yes, we will certainly be looking at all of that and taking that into account.

May 4, 2007 meeting, Board of Trustees

Also having enhanced financial support is going to be crucial. For example, we are not competitive on our fellowship stipends and we are going to have to make strategic investments in some of these programs. As part of this going forward, I envision a pilot program this next year to allow colleges to propose areas they think will give them a competitive edge -- be it in extra research support for their students or travel support or what it may be for their area. We have to figure out where we can make the best use of our resources and direct it that way so we can get that quality edge going.

Amb. Ong:

I think you understand that you have great support. Provost Snyder has had great support for this project from this Board from the beginning. I personally think it is of critical importance to the future of the University. I would just suggest -- while this cannot be completely an objective exercise there are subjective elements to it. You do have a good set of metrics or measurements -- and you need to be ruthlessly firm in applying those metrics and not allow yourself to be talked out of eliminating a program when the metrics look very bad -- but there are a lot of subjective arguments in the other direction. All of the work that has been done up to this point -- Barbara your timing is exquisite -- is nothing to what is going to happen between now and Winter Quarter 2008, because this is where the tough get going, so to speak. I would just urge you to straighten your spine.

Dean Osmer:

Thank you very much. I am very glad to hear the commitment of the Board, because it is going to be essential. It goes back to a word I deliberately chose in the beginning about this process -- it is going to have to be "defensible." I am not under any illusions that people are going to go down without a fight. I have had considerable experience in very competitive selection processes before coming here. It is my belief that by setting up the process this way we will build on success. I observed this from being involved in and actually leading the selection for the Hubble Space Telescope science proposals, which is a valuable oversubscribed resource. By building on that and involving what I call the major stakeholders -- the deans, the Provost, and me -- when we get to those decisions, it will be a good basis for it and we will appreciate you backing those up.

Mr. Wexner:

I am personally of the school that the few produce the many, and quality does matter and quantity doesn't. One thing I think might be helpful for us is if we understood in benchmark or comparable institutions like ours how many doctoral programs can be supported in the best practice institutions and which programs they are moving to or moving away from -- the adds and the minuses. I have no idea of relativity in the masters' programs, but we do know that we don't have endless resources, so how do we squeeze that down. I have to have some benchmark to understand what is possible and what is successful. Also, it would seem to me that when you begin looking at the quality of doctoral programs and masters' programs, then you could have a quality program that presumably produces one doctoral candidate a year, so you get into a paradox of quality and quantity. Would I understand that right? I would also think that the alignment of the doctoral programs with the masters' programs and the undergraduate programs is a part of an alignment. I am just guessing. This is a backward question -- you are really evaluating the colleges, the deans, and the lead professors all the way through the curriculum.

May 4, 2007 meeting, Board of Trustees

Dean Osmer:

You made the point that I failed to. Another critical reason the colleges are the main units -- because I first thought we will just have a competition for the doctoral programs and I was quickly disabused of that for many reasons -- is that doctoral programs cannot be considered independent of all the other activities in departments and colleges. They affect research programs, undergraduate programs, and teaching -- it is all interlinked. The way we are set up in our current budget and business models is that the deans and the department chairs are the ones responsible for those. In my opinion, they have to look at their proposals for doctoral programs in the context of all their other programs and get those balances and trade-offs made correctly. I agree with you there. That is why they have to be involved in this and they have to make their eventual recommendations based on that.

Mr. Wexner:

What I am understanding or misunderstanding is that as you begin to evaluate these programs -- by colleges at the doctoral-level, master-level, and undergraduate-level, and you are looking at deans and professors that head centers or major departments -- what comes out of this is a reengineering of the University in a very profound way.

Dean Osmer:

It is a very exciting challenge. You are right and that gets into exactly what is the mission of Ohio State overall. From my arts and sciences background I can figure out much of what we might want at the doctoral-level, but this is a leading comprehensive public research university. As I said, it spans all of these fields, which are a unique asset and challenge for Ohio State. We are going to have to make some choices based on other parts of the mission and how to make that emphasis. For example, consider the masters' programs in the professional schools that play very important roles in this state and in a variety of other things. In some cases, there are doctoral programs very tied into them and in some cases there aren't. Overall, when it comes to the Provost and the Board, I believe, we are going to have to be thinking about that and that is what I call the fun part of it. What kind of university are we going to want coming out of all this? At the same time, we are not starting from scratch. We have to start from where we are, what our strengths are, and we have to be responsive in identifying where best to go in the future based on what we are and what we can do. This is a very interesting strategic planning exercise, but we can't know in the end what is going to be best until we have gone through the process, get the recommendations from the colleges, and put it all together, because there are so many dynamic things going on in different disciplines. We have to wait until we get this more together and then we will be in a better position to judge how to make that balance.

Mr. Wexner:

Joe Alutto would probably think this way because of his background, but if I looked at large scale teaching and research institutions and I found they were supporting 60 doctoral programs and we were supporting 92, I would go, "hmmmm, I wonder why?" In the ranking side -- and supporting what Amb. Ong said -- I think it is a very useful practice to either force rank in thirds or quartiles the work as you go, because if you don't have that force then you don't really have the argument. That is a very tough discipline because no one wants to be in the bottom third. The "C" students would really like to be "B-" students. I think when it comes down to the end, it is

May 4, 2007 meeting, Board of Trustees

going to be one of those major decisions that the Board will support or disagree with academically.

Dean Osmer:

Yes.

Mr. Schottenstein:

This is a great discussion, but this may be a slightly more specific question. In terms of measuring quality -- which is very difficult and there are a lot of different metrics you are going to be looking at -- you touched on a number of them in your presentation. To what extent do you take into account national reputation? In other words, not that we fall on the sword when it comes to our rankings, but often in these meetings and in other situations we look at how we are ranked by this organization or that. I don't even know whether national rankings exist for some of these programs. In the absence of that, to what extent are we able to monitor and quantify what the reputation is of a particular doctoral program and how does that factor into measuring quality as one of the criteria?

Dean Osmer:

That is a very important criterion. It is something that has been missing or a bit deficient for graduate programs. The National Research Council has probably carried out the broadest and the most highly regarded study. It has been over a decade since the last study was done, but last fall all of the data was collected for the next one. The goal and interest of graduate deans at CIC institutions, as well as AAU institutions, is that the national research universities -- even in advance of those results coming out -- share data that has been collected so we can make inter-comparisons. That is coming together and would be an important part of this process, and we will definitely make use of it. I really hope to get out of it the quantitative data by our peer and benchmark institutions by field, so that we can make the appropriately detailed comparison. In the end, reputational rankings are important, but we often say perception lags reality as you make developments. It is a part, but it should not be the dominate part or only part. What will be very valuable to me is if we can get the other data from our sister institutions, then we can compare discipline by discipline. I think that is a crucial factor. Coming back to your question, we will also be able to assess numbers and general directions.

Mr. Brass:

I also applaud the effort, this is a Herculean process. I have an old statement that says just because it is complex doesn't mean that you shouldn't do it. There is nothing more complex than what you are undertaking. The more complex, the more the criteria need to be understood prospectively. I would encourage you to make sure that those who are going to be participating -- both giving and evaluating information -- understand the criteria before the evaluation begins and the more specific you can be the easier the job will be for us to support. I would encourage us to spend some time understanding the criteria of evaluations and what order you are going to weight that, so we don't have it moving on us -- going back to Amb. Ong's comments -- as we go through the process. I do support the process and we are remaking the mission of the University through this process. There is no doubt about it.

May 4, 2007 meeting, Board of Trustees

Dean Osmer:

As you have noticed, I have now been sharing the criteria with the colleges. I appreciate the wisdom of Barbara in making sure I have talked as broadly as I can to the constituent groups on campus. I think you have a copy of the document I circulated. As I said, that is why once I meet with the deans regarding their college-level programs and we have agreed on those criterion, I want the people in that college to know what they are. I agree and we will do it as well as we can.

Mr. Brass:

I would encourage you to make sure that the weight factors are well understood and just because you have three criterions doesn't mean they get weighted equally. Everyone needs to know how you are going to weigh them.

Provost Snyder:

Let me add one thing that has actually been a surprising part of this process that I think responds to your concern about this being transparent and people really understanding. We have been talking about this for more than two years on campus. In fact, we talk about it so frequently that when it finally came down to enveloping the document that would be the basis for the process going forward, we got an amazingly small amount of push back. I said to Pat, "I suppose it could be that they are so sick of hearing this that they are telling us if we don't say anything, will you shut up about doctoral education?" I think it is because we have done a good job of laying the groundwork and making sure that people do understand. That does not mean, and I have been honest with him, that it will be easy. No one thinks they are in the bottom third and nobody thinks that their program should get cut. However, it does mean that we have gotten very good agreement about our need to do this. We cannot continue doing what we have been doing and distributing funds the way we have been doing it. What you get is what we have, which is a large number of doctoral programs of widely varying quality. If we want to have excellence across-the-board in our doctoral programs, we have to change the way we are doing business. People do get that. Even though it will still be hard and it will still require the Board's support, we have done a good job of laying that groundwork and talking about this to many groups over a long period of time. They do fundamentally understand our need to go forward with this and that will make it at least a little bit easier. You are right about my timing, but Pat and Joe have the hard job.

Mr. Alvarez-Breckenridge:

Dean Osmer, I had a question regarding the examination of the different graduate programs and one of the metrics being graduate placement. With Ohio State being the flagship institution in the state is there any consideration given to graduate placement in positions in the state of Ohio?

Dean Osmer:

It is really discipline by discipline. I would say that it does matter that we measure the placement against what are the norms in that area and in general at the doctoral-level it is national and international. To me it is what would be the appropriate quality indicator in that area.

May 4, 2007 meeting, Board of Trustees

Judge Duncan:

Any other questions or discussion? Thank you so very much for such an interesting and provocative presentation. Good luck.

(See Appendix LV for background material, page 1179.)

--0--

COMMITTEE REPORTS

Judge Duncan:

I would like to call for committee reports. First, I would like to report to you that the Affiliated Entities Committee met yesterday afternoon. There were no action items. Probably the most significant part of the meeting was a status graph regarding our entities, which I will mail to you along with some other information about the meeting. I will do that in the short term.

Next, I will call on Mr. McFerson for the Medical Center Affairs Committee report.

Mr. McFerson:

Thank you, Mr. Chairman. You have at your places a brochure entitled, "Point of Pride" about the Medical Center and is used by Fred, Pete, and Chip to conduct town meetings. These town meetings are underway, again, at the Medical Center for the third year. Thousands will attend and get a chance to talk about the issues of key importance going on in the Medical Center. The highlight is the opportunity for attendees to have a Q&A with the leadership. Great feedback is always received and this is a good way to keep open communication.

Yesterday, we heard from Dr. Sanfilippo that 3,800 jobs have been created in the Medical Center over the past six years. That is a huge increase and sometimes inside large organizations -- and we have seen this happen in the private sector -- the jobs that get created go unnoticed, but that is a lot of new employment at the University.

Dr. Souba gave a report on various recruitments that are underway. Mr. Geier reported on three consent agenda items, which you will be asked to vote on: 1) the reappointments to the OSU Harding Hospital Board and a bylaw waiver -- because those two appointees are beyond the term that the bylaws require, but they are solid members and we have asked them to stay on for another term; 2) the approval of non-academic center status for the Women's Health Center and the Heart Center; and 3) entering into the design and construction contracts for a couple of projects.

Mr. Shkurti reported on the progress of the Master Space Plan Consultants project. A preliminary report should be received in 7-10 days, with a final report due probably after our June Board meeting. I am not sure it is going to make it before the June Board meeting, but it should be shortly after that. That process is on target and underway, and Bill is doing a fine job in shepherding that.

John Stone, CFO for the Medical Center, reported on the nine-month financials and I'm pleased to report we are having a very good year. The budget is a little better in all categories. The operating cash was a little behind budget through nine months, but it is a timing difference more than

May 4, 2007 meeting, Board of Trustees

anything else. He is very confident by year-end we will certainly meet budget.

We also had a conversation on the Standard & Poor's bond rating for the Medical Center. I think you have all heard about that, since it has been written up as well. We received an AA- for the University overall, which is a very good rating. I just have to read one paragraph to you out of the report from the S&P, which is an external validation of the Medical Center. "The AA- rating on the OSU health system reflects its position as an important component of OSU with strong operating performance and cash flow, solid business position as an academic medical center, and a highly competitive Columbus, Ohio market, and a solid management team. Off-setting factors for the credit include a weak balance sheet at OSU Health, although this is mitigated by the large OSU balance sheet on a balanced comprehensive master facility plan that calls for almost \$800 million in capital to be expended over the next 4-5 years." That was one of the issues that we all wanted to get an answer to and that has now been received and, I think, it is a good answer.

We heard a report from Dr. Schuller and Keith Todd, who heads the development operations at the Medical Center, on the "Power to Change Lives Campaign," which is a \$500 million campaign. From July 2001 to March 2007, \$321 million has been raised in various categories. We have \$179 million remaining to be raised until the end of the campaign in December 2010. More importantly, that is 40% of the time and only 36% of the goal. I think that report was well received.

I asked Judge Duncan if I could give a report on the Self-Insurance programs at the University. We don't talk about this very often, but we meet three or four times a year and we held a meeting earlier this week. As you recall, the OSUP -- where we brought together all of the physician plans -- required a new approach to insurance instead of the 15 – 16 separate stand alone insurance plans that were operating under the physician plans. Some of those plans were on a claim-made basis, which means they are only buying coverage from year-to-year. That is cheaper coverage, but that doesn't cover the longtime tail of liabilities. We had a lot of different programs out there, but when we organized all of the physician plans into one cohesive organization, OSUP, it meant that we had to take a whole new look at the way the University provides insurance. Also, there was a very tight insurance market going on and the availability of insurance was not there. The Self-Insurance Program was restructured and a separate committee -- with a majority of outside citizen members -- was put in place and the fund was walled off, we now call it Fund I. That was for the Hospitals only; as I said the doctors have their own coverage. Fund I is in a run-off mode. The assets today are \$14.5 million and their reserve is at \$7.7 million, with a surplus of \$6.8 million, and we think that is very conservatively stated.

Fund II was the new plan put into place after the organization of OSUP, so that would be from July 1, 2003 going forward. This is a full-insurance basis occurrence coverage and it covers both the doctors and the Hospitals. From that short period of time, July 2003 to today, we have assets of \$70 million and reserves of \$57.5 million, with surplus of \$12.5 million in Fund II.

Then we have an excess coverage company -- Oval -- which we need to think of as a little insurance operation. The assets now total about \$100 million, the reserves total about \$80 million, and we have a surplus of \$20 million in Oval. We purchase coverage in the open market place, as well as self-insure.

May 4, 2007 meeting, Board of Trustees

We had an independent actual report at our meeting this week from Milliman and it was a very strong actuary report. As you know, actuaries are very conservative by nature and there is no exception to that approach for Milliman. This little operation has managed very conservatively. Our experience has been outstanding and significantly better than expected, so despite the fact that exposures and inflation is up, the premiums for this coming year will be down 15.6%. That is a \$1.9 million savings spread across the OSUP plan. I think the doctors will be happy with that and because of the great experience with that, we are very comfortable that that can be supported on an ongoing basis.

Mr. Chairman, to summarize, we have \$100 million in assets, \$80 million in reserves, and a \$20 million surplus, and this little operation is running smoothly.

Judge Duncan:

Thank you very much. Any questions or discussion? Let me call on Mr. Schottenstein for the Audit Committee report.

Mr. Schottenstein:

Thank you, Mr. Chairman. The Audit Committee met yesterday at 3:30 pm. The primary topic of discussion involved cybersecurity and the recent data breach that occurred within the last month. We had a very extensive discussion on this concerning the fact that rigorous and appropriate steps were taken by the University to protect the 14,000 or so individuals – many of whom were faculty or former faculty members and a number of students. The Committee was quite impressed with the efforts taken to protect these people from being further damaged. At this point, there is no indication that anyone has been. That is the good news, but this is a work-in-progress.

A considerable amount of the discussion also related to the Audit Committee's desire, together with the University's desire, to fully understand how it happened and what can be done to prevent it from happening again, a very comprehensive assessment of best practices, and a comprehensive assessment and understanding of how we managed the crisis after we found out about it. Much of that is underway. The outside firm of Cybertrust was engaged by the University and has been on the job for a number of weeks now, which is a good thing and has been very helpful to us. Between now and, hopefully, the next Audit Committee meeting, it is the desire of the Committee to receive a summary answering some of the questions that I just mentioned in a clear understandable form. This is a complex matter. The Committee was very firm, as are all of those associated with this within the University, to treat this matter in the most diligent and rigorous way in which we can.

In addition to that there were no action items, but we had a brief discussion on the operational audit commenced by PricewaterhouseCoopers, which Mr. Shkurti will be discussing momentarily. We also had a brief update from Mr. Shkurti on an audit that is underway assessing and addressing the manner in which we count gifts from a development standpoint.

Beyond that there were no other items. If there are any questions, I would be happy to try to answer them.

Judge Duncan:

Any questions or discussion? Let me call on Doug Borrer for the Academic and Student Affairs Committee report.

May 4, 2007 meeting, Board of Trustees

Mr. Borrer:

Thank you, Chairman Duncan. We started today with an update on campus security from Vice President Hollingsworth and Vern Baisden. First we had a discussion about the emergency response and mobilization that is currently planned and in place at Ohio State. Next we discussed the prevention and involvement of the various groups to alert ourselves of potential problems and people that might act out. It is very clear that we have a very comprehensive plan. They gave us very detailed information about both of the different areas that they are dealing with and have used, and will continue to use recent events like the one at Virginia Tech or the Amish situation in Pennsylvania to further modify and always improve their response to activities. A couple of things of note that happened in the recent tragedy was the number of students using cell phones, which lead up to the cell phone and email systems crashing. Many of the people involved directly in the situation made phone calls not to the police, but to friends, family, and media. The police were actually lacking in understanding what was going on. I think an educational effort will be made to make sure there are things that everybody can learn going forward. We also expect them to come back to our Committee at a later point to review with us more advanced plans for campus security.

Next we heard from Dean Osmer about the Hayes Graduate Research Forum. It is in its 21st year and proving to be very successful. All of the research projects are real world and relevant. This year the Forum represented 45 programs in 10 academic areas and we had 262 applicants to be judged, up from five years ago when we had 75 applicants. We had 114 abstracts that were actually picked to be presented and 97 presenters. Today, we heard from two winners of the award that were quite fascinating from differing backgrounds: 1) a young Ph.D. candidate who talked about black matter, which was very interesting; and 2) a young lady who is a Ph.D. candidate in art history. Clearly when you listen to our students as we always do, their love and compassion for Ohio State and their dedication to their own studies is always amazing.

Then we heard from the Council of Graduate Students about life in the Graduate School. We heard from two Ph.D. candidates who have very different backgrounds. They presented a very fascinating example of how graduate students live in the Ohio State environment, how they blend their lives of having jobs and families, how they pursue their studies, and how they reach out and participate in extra curricular activities while they are doing all of those things. It is amazing to be exposed to this group.

Finally, we approved the following resolutions to be forwarded for the consent agenda: 1) the establishment of the Center for the Study of Religion; 2) the approval of non-academic center status for the Heart Center and the Center for Women's Health; 3) the renaming of the undergraduate and graduate degree programs in the Department of Human and Community Resource Development; 4) the naming of landmarks and a building on the Marion campus; 5) the naming of internal spaces; and 6) routine personnel actions. That concludes my report.

Judge Duncan:

Are there any questions or discussion? I will now call on Speaker Davidson for the Fiscal Affairs Committee report.

May 4, 2007 meeting, Board of Trustees

Mrs. Davidson:

Thank you, Mr. Chairman. The Fiscal Affairs Committee meeting had three reports and two items to send to you for the consent agenda. The first report was our traditional Third Quarter Financial Report, which we try to catch up to where we stand as it relates to our budget. It was mostly good news on that report. Enrollments are up and, obviously, that is generating some additional revenue. When you combine all programs for spring quarter our total enrollment is up 1.9%, generating \$10 million more than we expected in our estimated budget numbers. Before we get too excited about how we use that extra money, Senior Vice President Shkurti pointed out that there are additional costs -- additional students on campus and additional costs for teaching those students -- but it may give us a little bit of a cushion as we move into Fiscal Year 2008. As Chairman McFerson has already mentioned the financial report of the Medical Center is very good and that has a lot of impact upon our bottom line.

The second report we received was a continuation of our discussion on tuition. You will remember that at our last meeting, we had a report of what the Governor recommended in the budget. We are now in the second stage of the budget, because the House approved the budget earlier this week with a unanimous vote -- this doesn't happen very often in Ohio politics. We are very fortunate, because much of the focus of this budget has been towards higher education. This began with the Governor's recommendations on the Compact -- and the Chancellor shared this with us last month -- which has now been sent to the House for consideration. The House changed some of the elements of the Compact and are recommending that we be permitted to approve a 3% tuition increase in Fiscal Year 2008 and freeze tuition in Fiscal Year 2009. In exchange, we would receive a 2% increase in state aid in 2008 and a 10% increase in 2009. In the House version it should make us about the same as we were in the introduced version for Fiscal Year 2008, but in Fiscal Year 2009 it would make a major difference in the state-level of funding for the University -- more than doubling that. Consequently, we are looking at permitting our enrollment offices to put on our website a tentative recommendation on tuition, which would be based upon whether or not we continue to have this same level of funding that would be included in the House version of the budget. The Senate is expected to vote on their version of the budget sometime in mid-June, so we are going to be working on this tentative number for a period of time. Our enrollment office needs to be able to give the students that are thinking about enrolling an idea of what tuition would be. If we hold in the situation we are in right now with the House version of the budget -- if it stays there or is increased -- we would have the lowest tuition increase at Ohio State -- at the 3% level -- that we have had in 20 years. If it stays where it is for the two years of the budget, we would have the lowest increase we have had in a combination of two years since the mid-1960s. I think that is good news for us in higher education.

I would point out a number of things: the tuition freeze does not include our out-of-state students; it does not include our graduate and professional students; and it does not include a freeze in our other fees that are related to the courses or other fees for housing and parking. As far as our regional campuses are concerned, there is not a recommendation there because they are taking this back to their advisory boards so there will be a recommendation in June as it relates to that. We are not asking for any action from the Board at this particular meeting. We will wait to see -- and keep our fingers crossed -- if the good news continues for higher education. I think it is a real understanding of what we have been promoting at Ohio State, which is really the role that we play in the economic well-being and future of the state of Ohio.

May 4, 2007 meeting, Board of Trustees

Our third report was the Talent Report – which used to be called, “Compensation Benchmarks Report” -- to let us know where we stand with our numbers for employees and compensation. You should have a copy of this report in your Board books, and I would encourage you to take a look at it and keep it as a reference as we go through this discussion. Our overall employee increase was 18% for the 10 years ending in 2005. Most of that was coming from employees who were not on our general funds budgets, but other budgets such as research. The faculty numbers have stayed just about the same.

We have improved competitively in our compensation packages over the last few years, except the last two years we have not. We are going downhill a little bit. As far as faculty salaries are concerned, we are about 1.8% below our benchmark institutions. Competition continues to heat up for good faculty and this causes us some concern in trying to remain competitive. The overall average is a 4.1% increase in compensation in the fiscal year we are currently in and we are struggling to be able to keep that up and keep competitive. In our other colleges, there has been some significant faculty turnover particularly at the assistant professor level. As you know, we are doing much better with our graduate associates. We addressed that last year with extended health care benefits, which we did not do before and are ranked 4th among 13 universities. On our other compensation, we are ranked 7th among 10 of our benchmark institutions. It is something that we need to continue to be very cautious and careful about.

The two items on the consent agenda today are: 1) authorization of design and construction contracts and one increase in a contract that is very important, because it deals with a Put-in-Bay situation where we have to do some extension of water sewer lines; and 2) the Development Report, given by Jim Schroeder, for the month shows an increase in gifts of 7% with some downturn in our pledges, but ending with a 1% plus. So we are doing very well in our development area. Thank you, Mr. Chairman.

Judge Duncan:

Are there any questions or discussion? Thank you.

--0--

CONSENT AGENDA

President Karen A. Holbrook:

We currently have ten resolutions on the Consent Agenda today and we are seeking your approval for:

REAPPOINTMENTS TO THE OSU HARDING HOSPITAL BOARD AND BYLAW WAIVER

Resolution No. 2007-133

Synopsis: Authorization to waive *University Hospitals Board Bylaw* 3335-104-01 and approval of reappointments to the OSU Harding Hospital Board are proposed.

WHEREAS the Board of Trustees on December 6, 2001, approved the establishment of the OSU Harding Hospital Board; and

WHEREAS all members of a specialized board shall be appointed by The Ohio State University Board of Trustees in consultation with the Vice President for

May 4, 2007 meeting, Board of Trustees

Health Services, the Senior Vice President for Health Sciences, and the President of the University:

NOW THEREFORE

BE IT RESOLVED, That *University Hospitals Board Bylaw* 3335-104-01 be waived to allow the reappointment of Anne K. Jeffrey and Peter Frenzer, as citizen members of the OSU Harding Hospital Board, for a fourth term, effective June 1, 2007 through May 31, 2010.

ESTABLISHMENT OF THE CENTER FOR THE STUDY OF RELIGION

Resolution No. 2007-134

Synopsis: Proposal to establish the Center for the Study of Religion is proposed.

WHEREAS the establishment of the Center for the Study of Religion will encourage and support scholarly research in religion by faculty members and graduate students across the University, and particularly within the College of Humanities; and

WHEREAS the emphasis will be on the dynamic aspects of religious systems and the importance of studying them within carefully nuanced understandings of the larger social and cultural contexts in which they exist; and the major research foci, unified by methodology and approach, would make this center distinctive among centers within the country; and

WHEREAS the Center has the strong support of the Dean of the College of Humanities and the proposal adheres to the *Guidelines for the Establishment and Review of Academic Centers*, was reviewed and endorsed by the Council on Academic Affairs, and approved by the University Senate at its April 12, 2007 meeting;

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish the Center for the Study of Religion be hereby approved, effective immediately.

APPROVAL OF NON-ACADEMIC "CENTER" STATUS

Resolution No. 2007-135

Synopsis: Approval of non-academic "center" status is proposed.

WHEREAS faculty rule 3335-3-36 (A) specifies that: Use of 'center' or 'institute' in the names of proposed units of the university shall be limited to academic centers, unless approved by the Council on Academic Affairs; and

WHEREAS a request has been received from the College of Medicine for the use of this term for the "Heart Center" and for the "Center for Women's Health" to facilitate the organizational integration of established clinical and related programs; and

WHEREAS subsequent use of the term "academic" center will require that a formal proposal for academic center status will need to be submitted to the Council on Academic Affairs for full review; and

May 4, 2007 meeting, Board of Trustees

WHEREAS the Council on Academic Affairs reviewed this formal request on April 18, 2007 and had no objections:

NOW THEREFORE

BE IT RESOLVED, That the use of the term 'center' for the "Heart Center" and for the "Center for Women's Health" be approved, effective immediately.

RENAMING THE UNDERGRADUATE AND GRADUATE DEGREE PROGRAMS IN THE DEPARTMENT OF HUMAN AND COMMUNITY RESOURCE DEVELOPMENT

Resolution No. 2007-136

Synopsis: Renaming the Undergraduate and Graduate Degree Programs in the Department of Human and Community Resource Development is proposed.

WHEREAS as part of its Six Year Action Plan, faculty in the Department of Human and Community Resource Development decided to merge the agricultural education and extension education programs within the Department; and

WHEREAS merging the two programs will create a common core of required courses at each degree level, and improve the visibility of extension education, an important component of the current agricultural education program; and

WHEREAS the proposal has the support of the College of Food, Agricultural, and Environmental Sciences, and the concurrence from the College of Education and Human Ecology; and the graduate program name change was reviewed and approved by the Council on Research and Graduate Studies, the Council on Academic Affairs, and by the University Senate at its April 12, 2007 meeting;

NOW THEREFORE

BE IT RESOLVED, That the proposal to rename the undergraduate bachelor of science degree program from Agricultural Education to Agricultural and Extension Education, be approved effective immediately, and its graduate degree programs (M.Ed., M.S., and Ph.D.) from Human and Community Resource Development to Agricultural and Extension Education be approved and that the programs be effective upon the approval of the Board of Regents.

NAMING OF LANDMARKS AND BUILDING ON THE MARION CAMPUS

Resolution No. 2007-137

Synopsis: The naming of two landmarks and a building at The Ohio State University – Marion Campus is proposed.

WHEREAS The Ohio State University will celebrate 50 years of offering classes in Marion, Ohio, on May 19, 2007; and

WHEREAS as former employees of The Ohio State University at Marion, Eugene Maynard, Theodore B. Myers, and Larry Yoder demonstrated their commitment to the University's goals and mission, and through their generous gifts of their time and talent to Ohio State at Marion, they positively touched the lives of so many students, faculty, staff and the community; and

May 4, 2007 meeting, Board of Trustees

WHEREAS as part of the 50th Anniversary celebration it seems fitting to honor their long-standing contributions by naming the new Student Services building, located at 1465 Mt. Vernon Avenue, on the Marion Campus, as "Eugene Maynard Hall" in honor of the first Dean and Director of the campus; naming the forest preserve the "Theodore B. Myers Oak Savanna" in honor of the campus' first Associate Director and Professor of Zoology; and naming the Marion Campus Prairie the "Larry Yoder Marion Campus Prairie" in honor of his vision and efforts in creating a quiet reserve for campus beauty and personal reflection:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of bylaw 3335-1-08 of the Administrative Code, The Ohio State University Board of Trustees hereby approve the namings outlined above, effective immediately.

NAMING OF INTERNAL SPACES

Resolution No. 2007-138

Synopsis: The naming of the following internal spaces within University facilities is proposed.

WHEREAS gifts and gift commitments have been received by donors to support the construction, equipping or furnishing of the classrooms, offices, laboratories and other noted spaces; and

WHEREAS upon the recommendation of the President and the President's Cabinet, it has been proposed that the donors to these internal spaces be recognized for their generosity:

Project: The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute

- Anita and Michael Goldberg/Rite Rug Company Mammography Waiting Area

Project: Scott Laboratory

- Dr. Michael and Anna Chen Family Conference Room (Room E100, 1st Floor)
- Robert O. Webster Machine Shop (Room W299, 2nd Floor)
- Rex and Helen Ritchie Fluid Power Laboratory (Room W268, 2nd Floor)
- Hoover Elevated Walkway (3rd Floor)
- Gleason Research Laboratories (Rooms W061, W066, W068, W070, W097, Basement and Rooms W179 and W180, 1st Floor)

Project: Recreation & Physical Activity Center

- The Tim and Jayn Corral Cardio Canyon (Room B31, Level 1)

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the above naming of internal spaces shall be approved effective immediately.

PERSONNEL ACTIONS

Resolution No. 2007-139

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the April 6, 2007 meeting of the Board, including the following Appointments, Reappointment of Principal Administrative Officials, Leave of Absence Without Salary, Professional Improvement Leaves, Tenure -- Relinquished, and Emeritus Titles, be approved.

Appointments

Name: JOSEPH A. ALUTTO
Title: Interim Executive Vice President and Provost
Office: Academic Affairs
Effective: July 1, 2007
Present Position: Dean, Fisher College of Business, and Professor (The John W. Berry, Sr. Chair in Business)

Name: STEPHEN L. MANGUM
Title: Acting Dean
College: Fisher College of Business
Term: July 1, 2007, through June 30, 2008
Present Position: Senior Associate Dean for Academic Programs, Fisher College of Business, and Professor, Department of Management and Human Resources

Reappointment of Principal Administrative Officials

KAREN A. BELL, Dean, College of the Arts, effective July 1, 2007 through June 30, 2012, pursuant to bylaw 3335-1-03 (S) of the Administrative Code.

JOAN M. HERBERS, Dean, College of Biological Sciences, effective July 1, 2007 through June 30, 2012, pursuant to bylaw 3335-1-03 (S) of the Administrative Code.

Leave of Absence Without Salary – Continuation

ALAMIN MAZRUI, Professor, Department of African American and African Studies, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to accept a Visiting Professorship in the Department of Africana Studies, Rutgers University, New Jersey.

Professional Improvement Leaves

MAUREEN AHERN, Professor, Department of Spanish and Portuguese, effective Winter Quarter and Spring Quarter 2008.

PAUL R. BERGER, Professor, Department of Electrical and Computer Engineering, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

ALBERT T. CONLISK, JR., Professor, Department of Mechanical Engineering, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

STEPHEN R. COSSLETT, Professor, Department of Economics, effective Winter Quarter and Spring Quarter 2008.

FRANK T. COULSON, Professor, Department of Greek and Latin, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

ARNON E. REICHERS, Department of Management and Human Resources, with the title Associate Professor Emeritus, effective July 1, 2007.

RESOLUTIONS IN MEMORIAM

Resolution No. 2007-140

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Simon P. Dinitz

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 3, 2007, of Simon P. Dinitz, Professor Emeritus in the Department of Sociology.

Sy Dinitz earned his master and doctorate degrees at the University of Wisconsin. In 1951 he was offered a faculty position in the Department of Sociology at The Ohio State University, where he taught for 40 years, retiring as professor emeritus in 1991. He was also a visiting professor at numerous universities and taught and did research in Israel on numerous occasions. During his illustrious career he authored and co-authored 16 books on sociology, criminology, criminal justice, and mental health and published over 120 professional journal articles and book chapters.

Professor Dinitz was exemplary in all he did and received many awards including the American Psychiatric Association's Hofheimer Prize for Research, the American Society of Criminology's Sutherland Award, and the Academy of Criminal Justice Sciences' Bruce Smith Award. At Ohio State he was the first person to receive all three of Ohio State's top awards: the Distinguished

May 4, 2007 meeting, Board of Trustees

Teaching Award (1970), the Distinguished Research Award (1979), and the Distinguished Service Award (1996). In 1981, he was honored to be chosen as the first OSU faculty member to deliver an OSU Commencement address. On a national level he served as president of the American Society of Criminology and of the North Central Sociological Association, and as editor-in-chief of Criminologica, the official journal of the American Society of Criminology. Featured in the *Chicago Tribune* as one of the Big Ten's "Ten Most Exciting Teachers," Sy was electrifying in the classroom and also served as advisor to 39 doctoral students.

Professor Sy Dinitz used his expertise to serve the state of Ohio and the nation, as well. He served on five blue-ribbon committees on corrections, chairing the Governor's Task Force on Prison Overcrowding from 1984-86 and the Governor's Task Force that investigated the April 1993 Lucasville riot. He also served as consultant to the United Nations Social Defense Research Institute on Crime Prevention and Treatment of Offenders. He served on the boards of Alvis House, Buckeye Boys' Ranch, Jewish Family Services, and OSU Hillel. Sy was a member of Congregation Tifereth Israel for over 40 years and frequently gave public lectures at Tifereth Israel, Temple Israel, and the Jewish Community Center.

Simon Dinitz was a true scholar, but a man who always put family first. He took great joy in the achievements of his children and grandchildren, and shared 46 years with his wife Mildred. He will be remembered by his family, friends, and colleagues not only for his scholarship but also for his sharp wit, keen sense of humor, kindness, and generosity.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Simon P. Dinitz its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Robert V. Esmond

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 29, 2007, of Robert V. Esmond, Director Emeritus in the Office of University Development – Research.

Dr. Esmond held a bachelor's degree in journalism from the University of Illinois, a master's degree in journalism from the University of Wisconsin, and a Ph.D. degree in education with a journalism minor from Indiana University. He served in various capacities at Northern Illinois University before coming to Ohio State. Dr. Esmond served The Ohio State University for more than 30 years. He held various positions in the Offices of University Relations, Public Affairs, and University Development. His various assignments and the excellence of his work demonstrate to his flexibility, professionalism, and important contributions to the University.

Robert Esmond began his career at Ohio State as assistant director of University Relations in 1960. He was named executive assistant to the vice president for University Development in 1969, and later assumed a similar role as executive assistant to the vice president of Public Affairs in 1974. In 1982, Dr. Esmond served as executive assistant to the vice president for University Communications and Development. As a result of the rapid growth in the development office in the mid 1980's coupled with Dr. Esmond's proven success at the University, he assumed the role of director of Research. He was the key coordinator in the organization of The Ohio State University Foundation in 1985. Upon his retirement, Dr. Esmond received the title of Director Emeritus of

May 4, 2007 meeting, Board of Trustees

Development-Research, in honor of his long and meritorious service to Ohio State.

Dr. Esmond was an active member of the Centennial Development Campaign, in addition to various other campaigns. Much of his work was special projects assigned by the vice presidents he served. He was an involved member of the Council for Advancement and Support of Education, and coordinated many events and served on many committees for the organization. Outside of Ohio State, Dr. Esmond served as a member of the U.S. Navy, and was a member of the First Community Church Board of Deacons.

On behalf of the University committee, the Board of Trustees expresses to the family of Dr. Robert V. Esmond its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Paul H. Gipp

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 12, 2007, of Paul H. Gipp, Assistant Professor Emeritus in the Ohio State University Extension.

Mr. Gipp was born April 22, 1921 in Canfield, Ohio. He received his Bachelor of Science in Agriculture degree in 1951 and his Master of Science degree in 1959 in agricultural education, both from The Ohio State University.

Paul began his Extension career in Ohio in October 1967 as the County Agent-Agriculture in Columbiana County. He held this position until his retirement in May 1985.

Professor Gipp's contributions in providing Extension educational programs during his career proved that he was a truly dedicated teacher for Extension. He worked with many local committees and agencies to strengthen Extension programs in rural development and farm business analysis programs. He also participated in the statewide workshops for animal health and kept abreast of current subject matter in the agriculture field. He was a member of the National Association for County Agriculture Agents and, in 1977 he received the Public Information Award. He was also awarded the District Achievement Award for the Canfield Area twice during his career.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Paul H. Gipp its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Paul Gottwald

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 12, 2007, of Paul Gottwald, Associate Professor Emeritus in the Department of Germanic Languages and Literatures.

Professor Gottwald held a B.A. degree from Hope College and M.A. and Ph.D. degrees from The Ohio State University. He taught for five years at the University of Connecticut before joining the faculty of The Ohio State University in 1955. Professor Gottwald was a professor of German in the Department of Germanic Languages and Literatures for 34 years. After his retirement in 1984 he continued teaching on a part-time basis for another five years. His teaching and scholarship interests focused on beginning, intermediate, and advanced

May 4, 2007 meeting, Board of Trustees

language instruction and assessment. Professor Gottwald was a dedicated, highly successful, and very popular teacher.

Professor Gottwald co-edited various textbooks and developed supplemental classroom materials for existing textbooks. He is also known for a number of book translations into English and German. In 1965, he published *Instructor's Supplement (with tape recordings) to German for Beginners*, and in 1971 he edited Hans Fallada, *Damals bei uns daheim*. In 1970, he published two translations with Ungar: Max Lüthi's *Once Upon a Time ... On the Nature of Fairy Tales*, and Wolfgang Seiferth's *Synagoge and Church in the Middle Ages*. Other translations include Hans Bänziger's *Heimat und Fremde* (1960) and Hubert Jannach's *German for Reading Knowledge* (1963).

Paul Gottwald was an active member of the University community and served on numerous committees. He was also engaged in the profession at large as a member of the Modern Language Association and of the Association of Teachers of German. At the departmental level he was for many years in charge of placement and proficiency testing at both the undergraduate and graduate levels.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Paul Gottwald its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Gerald D. Stanley

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 4, 2007, of Gerald D. Stanley, Associate Professor Emeritus in the Ohio State University Extension.

Mr. Stanley was born December 20, 1926 in Princeton, Missouri. He received his Bachelor of Science in Agriculture degree in 1951 in animal science from The Ohio State University and his master of science degree in 1966 in animal science from Purdue University.

Jerry began his Extension career in Ohio in August 1961 as the County Agent-4-H in Stark County. In 1967 he became the County Extension Agent-Agriculture in Williams County and held this position until his retirement in May 1987.

Professor Stanley's contributions in providing Extension educational programs during his career proved that he was a truly dedicated teacher for Extension. He worked with many local committees and agencies to strengthen Extension programs in beef, swine, and dairy in Williams County. He also participated in the statewide workshops for animal health and kept abreast of current subject matter in the agriculture field. He was a member of the National Association for County Agriculture Agents and, in 1980, received the Public Information Award and in 1982 was awarded their Distinguished Service Award.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Gerald D. Stanley its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2007-141

Synopsis: The report on the receipt of gifts and the summary for March 2007 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of eighteen (18) new named endowed funds and the revision of four (4) endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of March 2007 be approved.

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Endowed Funds

The Ohio State University at Newark Scholarship Fund

The Ohio State University at Newark Scholarship Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University with funds transferred under the direction of the dean/director of The Ohio State University at Newark.

The annual distribution from this fund shall be used to provide annual scholarship support for students who are enrolled or intend to enroll at Ohio State Newark. Scholarships for incoming and returning students will be based on need and merit. Scholarship recipients will be selected by the director of Financial Aid in consultation with the OSU Newark dean/director and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

This fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean/director of Ohio State Newark. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent as good conscience and need dictate.

Amount Establishing Endowment: \$1,000,000.00

The Aidan W., Daniel P., and Angela M. Lindner Memorial
Athletic Scholarship Fund

The Aidan W., Daniel P., and Angela M. Lindner Memorial Athletic Scholarship Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University with gifts from friends and family of Daniel R. Lindner (B.S., 1990) of Naperville, Illinois, in loving memory of Mr. Lindner's wife Angela, sons Daniel P. and Aidan W., and mother-in-law Dorothy Meller of Swanton, Ohio.

May 4, 2007 meeting, Board of Trustees

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete pursuing an undergraduate degree at The Ohio State University who is a member of the men's lacrosse team. Preference will be given to a student-athlete who demonstrates the qualities of integrity and leadership. Scholarship recipients shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Dr. Kurt L. Loening Endowment Fund in Chemical Nomenclature and Chemical Information

The Dr. Kurt L. Loening Endowment Fund in Chemical Nomenclature and Chemical Information was established May 4, 2007, by the Board of Trustees of The Ohio State University, with gifts in memory of Dr. Kurt L. Loening (B.S., 1944; Ph.D., 1951) from Dr. Helen Ginsberg (Ph.D., 1947), the Department of Chemistry, and former colleagues and friends.

Dr. Kurt L. Loening was an expert and leader in chemical nomenclature. After he received his undergraduate and Ph.D. degrees from The Ohio State University, Dr. Loening served as a staff member at Chemical Abstracts Service (CAS) from 1951-90 before returning to Ohio State as a senior research associate in the Department of Chemistry. During his career Dr. Loening shared his knowledge and enthusiasm for chemical nomenclature and chemical information via lectures and publications including articles in journals, entries in encyclopedias, and chapters in books.

Per one of Dr. Loening's final requests, the annual distribution from this fund shall be used to support activities in the Department of Chemistry in chemical nomenclature, chemical information, or related topics. Expenditures from this fund shall be approved by the chairperson of the Department of Chemistry in consultation with the dean of the College of Mathematical and Physical Sciences.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of

Mathematical and Physical Sciences in consultation with the chairperson of the Department of Chemistry. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

Change in Description of Named Endowed Fund

The Townshend ATZ Endowment Fund

The Townshend AZ Endowment Fund was established on March 4, 1994, by the Board of Trustees of The Ohio State University with gifts from alumni, friends, and current members of the Townshend Chapter of Alpha Zeta Fraternity, and in memory of Mark Sommers, by his friends and family. The description was revised and the name was changed to The Townshend ATZ Endowment Fund, on March 5, 1999. The description was revised again on May 7, 1999, and was further revised May 4, 2007.

The annual distribution shall be used for scholarships or other appropriate educational, professional, and personal enrichment experiences for students enrolled at The Ohio State University who are active members or engaged in the new member education program of Alpha Tau Zeta Fraternity, Townshend Chapter, and have a minimum 2.85 cumulative grade point average. Scholarship recipients will be selected by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences or his/her designee in consultation with The Ohio State University Office of Student Financial Aid and the president of the ATZ Townshend Alumni Association Board of Trustees.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Change in Name and Description of Named Endowed Funds

Dorothy R., Thomas A., and John E. Hamrick Memorial Scholarship Fund for Pickaway County

The Thomas A. and John E. Hamrick Memorial Scholarship Fund for Pickaway County was established December 5, 1986, by the Board of Trustees of The Ohio State University with gifts from George H. Hamrick (B.S., 1951; M.S., 1959, chair of the Pickaway County Office of the Ohio State University Extension from 1957-84) and his wife, Dorothy R. Hamrick (B.S.Ed., 1947), in memory of their sons. The description was revised on July 9, 1993, and the name and description were revised on October 4, 2002. Per George Hamrick's request, the name and description were further revised May 4, 2007, to honor the memory of his wife who passed away in 2006.

May 4, 2007 meeting, Board of Trustees

The annual distribution from this fund shall be used to provide one or more scholarships for undergraduate or graduate students enrolled in any degree program on the Columbus campus in the College of Education and Human Ecology. The award shall alternate between education and human ecology majors – one year awarded to a student majoring in human ecology and the following year awarded to a student majoring in education who is working towards teacher certification in elementary or secondary education. Criteria for selection shall include outstanding scholastic achievement and leadership potential demonstrated through extracurricular activities. First preference is for students beyond their first year of studies with financial need who are from Pickaway County, Ohio. Second preference is for students from Gallia or Ross Counties of Ohio. The Office of Student Financial Aid will select scholarship recipients in consultation with the dean of the College of Education and Human Ecology.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Education and Human Ecology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The Jane Shanely Phi Upsilon Omicron Graduate Scholarship Fund

The Jane Shanely Phi Upsilon Omicron Fellowship Fund was established May 5, 1983, by the Board of Trustees of The Ohio State University with gifts from the Gamma Alumni Chapter of Phi Upsilon Omicron, an honor society of home economics, in memory of Jane Shanely (B.S., 1972) of Columbus, Ohio. The name and description were revised May 4, 2007.

The annual distribution from this fund shall be used to support studies of a student(s) enrolled in graduate programs of the Department of Human Development and Family Science, the Department of Consumer Sciences, the Department of Human Nutrition, or the Family and Consumer Sciences Program in the College of Education and Human Ecology. Qualified candidates must have maintained a minimum 3.0 grade point average (GPA) and must be a Phi Upsilon Omicron alumnus. Scholarship recipients will be selected by the dean of the College of Education and Human Ecology in cooperation with the Phi Upsilon Omicron Alumni Scholarship chairperson and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Education and Human Ecology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

REPORT ON UNIVERSITY DEVELOPMENT

THE OHIO STATE UNIVERSITY FOUNDATION

Establishment of Named Endowed Funds

The Battelle Center for Mathematics and Science Education Policy
Endowed Support Fund

The Battelle Center for Mathematics and Science Education Policy Endowed Support Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Battelle Memorial Institute.

The annual distribution from this fund shall be used to support activities associated with or related to the Battelle Center for Mathematics and Science Education Policy at the John Glenn School of Public Affairs. Expenditures shall be recommended by the director of the Battelle Center for Mathematics and Science Education Policy and approved by the director of the John Glenn School of Public Affairs.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$2,000,000.00

The Cropper Family Graduate Scholarship Fund

The Cropper Family Graduate Scholarship Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mary Jo Stolle Cropper (B.S.Ed., 1963), Robert Cropper, Spence Cropper, and Amy Cropper Settlemyre.

The annual distribution from this fund shall provide scholarship support to a graduate student(s) enrolled at The Max M. Fisher College of Business. Selection of the recipient(s) shall be made by the Graduate Programs Office at the Fisher College of Business in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

May 4, 2007 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$250,000.00

The Wirtanen Family Athletic Scholarship Fund

The Wirtanen Family Athletic Scholarship Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Donald (B.S.Bus.Ad., 1977) and Gail (B.S.Bus.Ad., 1976) Wirtanen of Weatherford, Texas.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity football team and pursuing an undergraduate degree at The Ohio State University. First preference will be given to a student-athlete from the state of Texas. Next preference will be given to a student athlete from the greater Cleveland or Dayton, Ohio, areas. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscious and need dictate.

Amount Establishing Endowment: \$150,000.00

The Dr. Milton W. Firestone Endowed Scholarship Fund

The Dr. Milton W. Firestone Endowed Scholarship Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with an unrestricted estate gift from Dr. Milton W. Firestone (D.V.M., 1938).

The annual distribution from this fund shall be used to support one (1) scholarship for a student at the College of Veterinary Medicine interested in pursuing a career in veterinary medicine. First preference shall be given to a student who attended high school in the Bronx, New York. If a student from the Bronx is not enrolled or eligible then another student may be selected. Scholarship recipients will be selected by the dean of the College of Veterinary Medicine in consultation with the associate dean for Student Affairs and the Office of Student Financial Aid.

May 4, 2007 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$100,000.00

The Walt Rudin Sr. Football Manager Scholarship Fund

The Walt Rudin Sr. Football Manager Scholarship Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Walt Rudin Jr. (B.S., 1977), of Columbus, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of the head senior football manager who is pursuing an undergraduate degree at The Ohio State University. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by The Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscious and need dictate.

Amount Establishing Endowment: \$51,064.84
Total Commitment: \$100,000.00

OSU Extension Southeast Region Endowment Fund

The OSU Extension Southeast Region Endowment Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the OSU Extension Southeast Office.

The annual distribution from this fund shall be used for creative extension programming and the professional development of all extension employees in the 29 counties of the Appalachia and Hamilton County. Expenditures shall be approved by the regional director and the director of OSU Extension.

May 4, 2007 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the regional director and the director of OSU Extension. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,820.63

The Jay S. Worly and Kathy T. Worly Endowment Fund
for Breast Cancer Research

The Jay S. Worly and Kathy T. Worly Endowment Fund for Breast Cancer Research was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Jay Steven Worly and Kathy Tolkan Worly of Columbus, Ohio.

The annual distribution from this fund shall be used for breast cancer research at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute at The Ohio State University as approved by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences. Funds may be used for research personnel, supplies, equipment, publications, conferences, and other activities required for quality medical research.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,786.00

The Jay S. Worly and Kathy T. Worly Endowment Fund
for Lung Cancer Research

The Jay S. Worly and Kathy T. Worly Endowment Fund for Lung Cancer Research was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Jay Steven Worly and Kathy Tolkan Worly of Columbus, Ohio.

May 4, 2007 meeting, Board of Trustees

The annual distribution from this fund shall be used for lung cancer research at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute at The Ohio State University as approved by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences. Funds may be used for research personnel, supplies, equipment, publications, conferences, and other activities required for quality medical research.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,261.00

The Dr. Peter Anthony Volpe Medical Student Scholarship Fund

The Dr. Peter Anthony Volpe Medical Student Scholarship Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Peter Anthony Volpe (B.A., 1958; M.D., 1961) in memory of his father, Dr. Peter Anthony Volpe (B.A., 1929; M.D., 1931).

The annual distribution from this fund shall provide a scholarship for a medical student in the College of Medicine. The selection of the recipient shall be based on financial need and academic merit, and shall be made at the recommendation of the director of Student Financial Aid in collaboration with the College of Medicine Scholarship Committee.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

May 4, 2007 meeting, Board of Trustees

Monroe County 4-H Endowment Fund

The Monroe County 4-H Endowment Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends of Monroe County 4-H.

The annual distribution from this fund shall be used to provide a sound source of program funding for the 4-H youth and volunteers of the Monroe County 4-H Youth Development Program. This support may include, but is not limited to, the funding of trips, awards, and scholarships for 4-H members, volunteer leaders, and friends of 4-H; sponsoring seminars and programs; and for purchasing material and services that will supplement 4-H programming or increase visibility and public support of 4-H in Monroe County. The Monroe County 4-H Committee and the professional in charge of the Monroe County 4-H Program shall approve all expenditures from this fund.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the professional in charge of the Monroe County 4-H Program in consultation with the Monroe County 4-H Committee. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$31,045.00 (grandfathered)

David H. and Susan E. Bailey Endowment Fund for
College of Engineering Student Development

The David H. and Susan E. Bailey Endowment Fund for College of Engineering Student Development was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from David H. (B.S., 1973) and Susan E. Bailey of Stevensville, Michigan.

The annual distribution from this fund shall be used for College of Engineering student development outside the classroom. The dean of the College of Engineering will determine the best use of the distribution each year. Initiatives may include, but are not limited to: 1) cross-discipline activities within the College and with other majors in other colleges in order to understand better each other's professional responsibilities in preparation for "real world" employment; 2) support for external experts who will lecture on "breaking" technologies, on "real world" experiences, etc.; 3) student travel to professional conferences; and 4) help for student extra-curricular development organizations, such as the Association of Computing Machinery chapter, who wish to host an outside speaker series, etc.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

May 4, 2007 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$29,700.00 (grandfathered)

The OSU Alumni Club of Charlotte Scholarship Endowment Fund

The OSU Alumni Club of Charlotte Scholarship Endowment Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the OSU Alumni Club of Charlotte, North Carolina.

The annual distribution from this fund shall provide scholarships for students from the Charlotte, North Carolina, area. Scholarship recipients will be selected by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,050.00 (grandfathered)

The Barton Endowment Scholarship Fund

The Barton Endowment Scholarship Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mrs. Kathleen Barton Conway (M.A. Education, 1989) of Shelton, Connecticut, and her father, Mr. Cornelius J. Barton of Redding, Connecticut, to express their passion for the teaching profession.

The annual distribution from this fund shall provide an initial need-based scholarship for an existing undergraduate student with a 2.0 to 3.3 grade point average (GPA) enrolled part-time or full-time in the College of Education and Human Ecology at the Columbus main campus of The Ohio State University. It is the donors' preference that the recipient's major be focused on early and middle childhood education.

The scholarship shall be used for the cost of tuition, room and board, books, an educational stipend, and miscellaneous educational expenses above the recipient's federal, state, and additional grant and financial aid awards. The award shall be distributed equally over the three quarters of the academic school year and is renewable up to twelve quarters (or eight semesters in the event the University changes its system) or until completion of a baccalaureate degree as

May 4, 2007 meeting, Board of Trustees

long as the recipient maintains financial need and at the minimum a 2.0 GPA. The recipient must complete a nationally approved needs analysis document annually, such as the Free Application for Federal Student Aid (FAFSA).

This scholarship fund will be administered by the Office of Student Financial Aid in consultation with the College of Education and Human Ecology. Any unused distribution should be reinvested to the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Education and Human Ecology and the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate. It is the donors' desire that, if they are alive, they are to be consulted regarding the new designation as recommended by the University.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Knox-Gingrich Endowed Scholarship Fund

The Knox-Gingrich Endowed Scholarship Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. John Knox and Dr. Karl F. Gingrich.

The annual distribution from this fund shall provide scholarship support for one outstanding student enrolled in the College of Veterinary Medicine who is interested in pursuing a career in dairy medicine. Scholarship recipients will be selected by the dean of the College of Veterinary Medicine in consultation with the associate dean for Student Affairs and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Veterinary Medicine in consultation with the associate dean for Student Affairs and the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

May 4, 2007 meeting, Board of Trustees

The John Boyd and Pauline Drysdale Mitchell Memorial Fund

The John Boyd and Pauline Drysdale Mitchell Memorial Fund was established May 4, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from John Boyd Mitchell of Columbus, Ohio.

The annual distribution from this fund shall provide one academic merit and need-based undergraduate scholarship to a student who is in the top 60% of their high school graduating class. At such time that the remaining principal in Dr. Mitchell's charitable remainder trust is added to this fund it shall then provide two scholarships annually. It is the donor's desire that the scholarships be awarded with first preference to students who are residents of Alabama, Arkansas, Georgia, Kentucky, Louisiana, Mississippi, or West Virginia. Additionally, it is the donor's desire that the students be in good standing with the University and not have committed violations resulting in disciplinary proceedings.

The annual distribution may be used towards the cost of tuition, room and board, books, an educational stipend, and miscellaneous educational expenses. The scholarship shall be distributed equally over the three quarters of the academic school year. The scholarship is renewable up to fifteen quarters or until completion of a baccalaureate degree, whichever comes first, as long as the recipient maintains financial need and academic eligibility requirements. This scholarship fund will be administered by the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)
Total Commitment: \$50,000.00

Change in Description of Named Endowed Fund

The Medical Class of 1957 Endowment Fund

The Medical Class of 1957 Scholarship Fund was established September 2, 1998, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the medical alumni of the Class of 1957 of the College of Medicine. The name and description were revised October 6, 2000, and the description was further revised May 4, 2007.

The annual distribution from this fund shall be used to provide a stipend to defray medical education expenses for one medical student enrolled in the College of

May 4, 2007 meeting, Board of Trustees

Medicine. Preference shall be given to a second-year student who graduated from an Ohio high school. The recipient shall be determined each year through an anonymous and random selection process identified and administered by the associate dean for Student Affairs of the College of Medicine, and upon consultation when applicable with the College's Committee for Scholarship Awards and with the Office of Student Financial Aid, and in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any unused distribution should be returned to the principal at the end of each fiscal year.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

May 4, 2007 meeting, Board of Trustees

**APPROVAL TO ENTER INTO DESIGN AND CONSTRUCTION CONTRACTS,
AND TO INCREASE CONSTRUCTION CONTRACTS**

Resolution No. 2007-142

APPROVAL TO ENTER INTO DESIGN CONTRACTS

CANFIELD HALL – BATHROOM RENOVATIONS
OHIO STADIUM – PRESS BOX RENOVATION
ROSS HEART HOSPITAL – FIRST FLOOR OUTPATIENT SURGERY

APPROVAL TO ENTER INTO CONSTRUCTION CONTRACTS

AERONAUTICAL AND ASTRONAUTICAL RESEARCH LAB ROOF
REPLACEMENT
AIRPORT HANGARS 1, 2 AND 3 ROOF REPLACEMENT
OHIO STADIUM – PRESS BOX RENOVATION
ROSS HEART HOSPITAL – FIRST FLOOR OUTPATIENT SURGERY
STILLMAN HALL THIRD FLOOR RENOVATION
UNIVERSITY HOSPITALS EAST – ENDOSCOPY AND DIGESTIVE
HEALTH RENOVATION

APPROVAL TO INCREASE CONSTRUCTION CONTRACTS

PUT-IN-BAY WATER AND SEWER LINE EXTENSION

Synopsis: Authorization to enter into design and construction contracts, and to increase a construction contract, as detailed in the attached materials, is requested.

WHEREAS in accordance with the attached materials, the University desires to undertake, and enter into design contracts for, the following projects:

Canfield Hall – Bathroom Renovations (N/A)	\$1.4M	Future Bond Proceeds
Ohio Stadium – Press Box Renovation (N/A)	\$1.0M	Athletics
Ross Heart Hospital – First Floor Outpatient Surgery (N/A)	\$0.3M	OSUMC Health Systems

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following projects:

Aeronautical and Astronautical Research Lab Roof Replacement (05-06 capital request)	\$0.8M	State funds
Airport Hangars 1, 2 and 3 Roof Replacement (05-06 capital request)	\$0.6M	State funds
Ohio Stadium – Press Box Renovation (N/A)	\$1.0M	Athletics
Ross Heart Hospital – First Floor Outpatient Surgery (N/A)	\$0.3M	OSUMC Health Systems
Stillman Hall Third Floor Renovation (N/A)	\$0.4M	Departmental Funds
University Hospitals East – Endoscopy and Digestive Health Renovation (N/A)	\$1.5M	OSUMC Health Systems

WHEREAS in accordance with the attached materials, the University desires to increase construction contracts for the following project:

Put-in-Bay Water and Sewer Line Extension (03-04 capital request)	\$3.5M	2007 bond proceeds
--	--------	--------------------

May 4, 2007 meeting, Board of Trustees

*Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project; renovation projects funded by internal office or departmental funds that are noted as "N/A" have not had separate capital project authorization because of their smaller size or because they arose unexpectedly between capital planning cycles.

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into design and construction contracts and to increase a construction contract for the projects listed above in accordance with established University and state of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix LVI for background information and maps, page 1187.)

Upon motion of Mr. Brass, seconded by Mrs. Davidson, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Duncan, McFerson, Cloyd, Davidson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Shackelford.

PRICEWATERHOUSECOOPERS CONSULTANTS

Mr. William J. Shkurti:

At the direction of the Audit Committee of the Board of Trustees, the University has hired PricewaterhouseCoopers, through a competitive process, to assess the University's decision-making, compliance, control, and reporting structures as they relate to the financial operations of the University as reported to the Board of Trustees. In your Board books is a summary of the scope of the contract, timetable, and the principals involved. With us today from PricewaterhouseCoopers is Mark Match, who is the principal, and he is accompanied by Michael Barone and Barbara Walsh. I will turn it over to them and they will go over the scope of the contract and give you a chance to interact with them about what they will be doing.

Mr. Mark Match:

Thank you. We are very pleased to be here and present to the Board. We met with representatives of the Audit Committee, Mr. Brass and Mr. Schottenstein, to go over our proposed scope and you will find that in Attachment B. One key element of the project is to review the strategic context and Barbara is going to review that. We picked five specific projects and the purpose is to go through the process that was followed by the University in conducting those projects. The second key element is to look at operational and fiscal controls, and Michael Barone is going to handle that element of the project. We picked specific policies in conjunction with Leslie Flesh and Bill, and we will start that piece of the project this coming Monday. We are going to start the strategic piece of the project in three weeks, the third week in May, and when we are done with that we are going to go through and look at the reporting phase. Those two will feed into the reporting phase. The focus of that is what type of information you as a Board or you as Committee members are receiving on those particular elements. Finally, as has been discussed in other facets, we are going to benchmark you against your peer institutions on not only what you do and what do we see other institutions doing, but where you have similar institutions that you want to be compared against. Then we will come back

May 4, 2007 meeting, Board of Trustees

to Mr. Brass and Mr. Schottenstein to help us select those particular institutions before we start the actual benchmarking phase of the exercise.

As written in the contract, there will be a 90-day interim report on our progress and a 180-day final report. We believe we can live within those time frames. Even though we are getting a slight delayed start on one phase of it, it shouldn't impact the overall delivery timeframe. When we went over the particular scoping of the project, I think that we had a good dialogue between your Audit Committee representatives and ourselves. I think we have a good understanding of what we think their expectations are. We agreed to get back to them on a regular basis throughout the course of our project to give them our current results, as well as if there are open questions or input that they wish to have. We can do that in an interactive basis throughout the course of the project as opposed to getting done and then reporting our results. Do you have any particular things you would like to add as Committee members?

Mr. Schottenstein:

No, I don't think so. Why don't you go ahead with your report and we will see what kind of questions we get from the group.

Mr. Match:

Again, we are going to start specifically on Monday. Barbara, do you want to take just a few minutes to go through the strategic piece?

Ms. Barbara Walsh:

Thank you, Mark. Our understanding of the project is that the institution is interested in looking at the context in which strategy is implemented and the decision-making processes that are used for implementing strategic initiatives compared to other similar peer institutions or aspirational peers. Five examples of recent strategic initiatives were selected: the Medical Center Partners, the creation of that organization; Campus Partners; the construction of the Biomedical Research Tower; the creation of the School of Public Health; and the merger of the Colleges of Education and Human Ecology. The reason we selected these projects was to get a broad spectrum of different types of things -- the creation of an affiliate, a real estate venture, a construction project, the creation of a new academic entity, and a change, because change is a different process from the creation of a new thing. Those were the example projects that we have selected. Our intent is to develop an understanding of the processes that were used at the institution to make decisions around those projects, to speak with all of the critical people around the institution who are involved in making those decisions, confirm that we have a good understanding of how the process progressed, and then to compare that with similar projects at benchmark institutions.

Mr. Match:

Then on the operational side, Mr. Barone.

Mr. Michael Barone:

The scope of this portion of our engagement will be to evaluate the organization, development, and dissemination of financial policies and procedures across the University. The context for this is the culture of the institution being a decentralized managed institution, as most are. In the

May 4, 2007 meeting, Board of Trustees

context of that, "Is the extent to which policies and procedures find their way out to the units where they are actually executed and the degree to which monitoring over policies and procedure exists to help ensure that they are followed?" This is not deep drilled out in terms of comprehensive testing of compliance of those policies, but we are fundamentally looking at the organization, dissemination, understanding, execution, and appearance at the department-level. The department-level means schools and departments, including a selected affiliate such as the Medical Center and the Research Foundation to the extent that these are University-wide policies that extend to those units.

As Mark mentioned, there will be a benchmarking element to this of comparing to peer institutions. As mentioned, our portion of this component will begin on Monday. A certain initial set of policies that have been selected are: procurement, travel and expenses, restricted funds and gifts, accounting -- to the extent that it extends out to journal voucher processing, not necessarily an accounting activity, but it would be centrally processed -- and an element of the student billing process. The *Code of Student Conduct* comes into play here, because it sets a standard by which one would expect policies and procedures to adhere to. This set will be further refined in the initial days next week when we get more familiar with the details of your inventory of policies and procedures, but that is the initial selection.

Mr. Wexner:

When I think about it from a business context, you could have independent business units that are part of a corporation, but very diversified. When you get to accounting, you could require standard charts of accounts for all of the business units even though they were independent. Does that apply in an academic institution?

Mr. Barone:

Absolutely, it does. It depends on how the accounting structure has evolved over time, so it can be the case of an affiliated entity. For example, it may have its own chart of accounts and it may have a different underlying financial system in the University. I am not familiar enough yet to know the details of that, but that is something we are going to inquire about.

Mr. Wexner:

Then out of that, I presume, comes the recommendation that you should have standardized charts of accounts or not have standardized charts of accounts?

Mr. Barone:

Yes, I think it would depend on the circumstance.

Mr. Match:

That is obviously one of the things we will look at. What is your policy when you enter into a new arrangement, you create a new affiliate, do you go through and set up that requirement or is that not an existing policy? Those will be the types of things we look at as actually a part of both projects.

May 4, 2007 meeting, Board of Trustees

Mr. Wexner:

In parallel to that, the deans are independent but they all report through to the Provost. The chief financial officers of the various colleges are independent, do they report to the deans or do they report to the chief financial officer of the University?

Mr. Match:

That is good question. Bill, we will have to answer that question.

Mr. Wexner:

Or should they?

Mr. Match:

That is a popular question.

Mr. Shkurti:

They report to the deans.

Mr. Match:

They currently report to the deans and that is one of things we will look at when we do our review. We will then compare that to both. We will look at outside institutions that are both academic and business, and then draw the parallels that you are trying to draw, which is if that is a good situation.

Mr. Wexner:

I can draw the parallel to the business, but I don't know if it is applicable in academic institutions.

Mr. Match:

It is one of the things that we want to go over with both Mr. Brass and Mr. Schottenstein, "Who do you want to be benchmarked against?" Obviously, if you simply limit that to academic institutions you may come up with one answer and if you include businesses or other institutions for comparison purposes it may lead you to a different decision. That is why we have a specific checkpoint with them to make certain before we begin our benchmarking that we are trying to achieve your objectives.

Mr. Wexner:

Years ago the University didn't benchmark. Then the question was, "Who do we benchmark against?" So the first benchmarking was against the Big Ten, and that is not irrelevant, then you can benchmark against institutions like yourselves, and then you can benchmark against admired institutions. You will get three very different answers and they are all relevant in their own way.

Mr. Barone:

What could be relevant in this case is that if we went back ten years ago, in my observation a rare institution, if any, had that kind of dual reporting structure you asked about. Today, there are some that do, maybe more

May 4, 2007 meeting, Board of Trustees

than a handful. They have evolved toward that. It is not common, but there are more today. There are influences that bear upon that which we could talk about, but there are some and they exist in very large research intensive institutions that have academic medical centers. Some of them may not be public. So it is where that may exist that may be useful to incorporate a perspective for you within the industries.

Mr. Wexner:

My guess is that size, speed, and IT allows you to think differently. If Ohio State was smaller, it could think one way and if we didn't have IT or shared services that we could use, we would think differently. Then just the financial scope scaled the speed of the world makes my molecules move different.

Mr. Match:

Which is why, again, it is extremely important that we pick benchmark or peer institutions that you as a collective group are very comfortable with, because who we pick is going to drive the results.

Mr. Wexner:

In my own point of view if you ask me who we should be like, I don't know. I would be influenced by, "Here is the best practice in your opinion and here is someone who is really winning." The peer group might all be doing better, but somebody might be leaping ahead who is outside of any of those brackets.

Mr. Match:

We will probably use that logic different ways for each of the projects, but because of the specific projects we selected for strategic review we clearly will want to go to an institution that has had a similar project to pick from. We are going to use our knowledge to attempt to steer why we would select that particular institution.

Mr. Brass:

If you look at Attachment B, that attachment has been worked, reworked, and then worked again. In the strategic sector there are four main thrusts and in the fiscal operation there are five main thrusts. At the bottom are who do we benchmark against once we make sure the thrusts are adequately identified and what group. I agree, we may end up with benchmarks in those two sectors that may be different, but the most important thing for the Board to understand is that Bobby and I tried to work through how we get our arms around such a complex issue. What we are trying to figure out is how we strategically move something through this organization in a decentralized -- some elements require centralized -- process, especially when you deal with audits. Fiscal audits are easier than compliance audits and compliance audits are what get institutions like this in trouble.

The second part is the operating compliance. How do we make sure we have the right policies in place, how is a policy established, how is a policy monitored, and how do we make sure there is adherence to that policy in an organization as big as this one? I think we have approached it very well. Pricewaterhouse has done a wonderful job working with us to try to get our arms around this at least as it relates to the methodology.

May 4, 2007 meeting, Board of Trustees

Bobby and I said, "How do we start this thing in such a big way?" We are comfortable moving up, but we want to make sure the Board understands before we push the go button what it is that we are doing. What are the four big items under strategy that we are going to be looking at and what are the five big items under fiscal that we are going to be looking at, and then how are we going to approach the benchmarking for this University? This may change some of the way we operate the company and that is what the intent is.

Mr. Schottenstein:

Just to add on to that, while the Audit Committee is managing this, this process is owned by the Board. I think it would be very important for all of us to take a careful read of Attachments B, C, and D. If you have any questions, comments or input, provide them to us so that we can make sure they are funneled back to Mark and his team. I think they have done an excellent job of verbalizing something that we actually had a little bit of difficulty in describing when we asked them to do this. They have actually come back to us with a fairly clear set of items that they are going to assess, but I would recommend everyone taking the time to look at this.

Just to follow-up on what Alan said, I think that as we move through this process we are probably going to want to make certain that the scope of it either includes, or that it is widened to include what we refer to as compliance. In other words, it is one thing to understand the auditing practices and procedures of the University, but are we in compliance? It transcends almost every part of the University. How is compliance reported up and how do we assess the strength of the manner in which we constantly review and monitor whether we are in compliance of a certain particular license or standard or government regulation?

Mr. Brass:

The timing of this is very important as we have a leadership change. We want to make sure our new Provost and President have the proper mechanisms, that these programs can be supported at their office, and communication is there, and that we are establishing new affiliates, new programs, new policies, and new strategies in a way that the Board is comfortable. This is going to be an interesting undertaking and it is on a short time-frame. We are going to try to bring back a 90-day report and then the final report. It should be very interesting. We welcome your input. As Bobby mentioned, please read over those three attachments and if you have any other thoughts please let us know.

Mrs. Davidson:

Mark, we try to benchmark ourselves all of the time with everything that we are doing here at the University and sometimes we find that the information we need for good benchmarking is not available, it is not relevant, and it is not timely. I am a little bit curious how you go about being sure that the benchmark institutions or entities you've identified will give us the appropriate information in which to benchmark against?

Mr. Match:

That is a great question. In our proposal -- and I don't think the details about which institutions we have selected are in your materials and we can get that to you -- we have actually identified contacts already at each of the potential benchmark institutions that we will work through. Part of the

May 4, 2007 meeting, Board of Trustees

advantage we have is higher education is one of our major industries as a firm, so we already have contacts at most of these organizations. We may be their external auditor or we may be doing a similar type project with these people, so for all of the institutions that we were asked to include we have already identified a key contact to go through to get to that information. As you point out, sometimes getting to the right person to get to the information is the key. We think we have already covered that for the institutions we have selected. As Mr. Wexner pointed out, we may offer a few others, because we know personally we have done work there. Perhaps they were not included in the initial list, but because we have a contact, we know we can get the information, and we think it may be relevant to what we are attempting to present back to you, we will go to that institution as well.

Mr. Wexner:

Jo Ann, my experience, in business and on other boards, is you really get the best benchmarking when you go to outsiders. If someone asked me to benchmark my height against other people, I would pick short people. So when you are asking someone to evaluate themselves against outside institutions or organizations, everyone sees themselves unique so it is very hard to find the benchmark and then it is almost always very hard to get the information. My experience is that when you go to third parties and say this is what we are trying to benchmark, they will argue the internal subject and you get much better clarity and much better information.

Judge Duncan:

Thank you very much.

(See Appendix LVII for background information, page 1199.)

--0--

President Holbrook:

Bob, before we ask for your closing remarks, on behalf of all of us, I have the privilege of presenting to you a small token and memento to you for your service on the Board and as chairman. This is something that will help you at home as you call order to your household.

Judge Duncan:

Thank you. I am in my final minutes as chair of this Board and I am not in a good emotional state to address my true feelings about leaving this Board. I hope you will bear with me for just a few minutes.

I am so grateful to Senator George Voinovich who, while Governor of this great state, took a chance and appointed me to The Ohio State University Board of Trustees -- one of the most significant honors I have ever had in all of my life. I came to the University as a freshman in 1945, so I have been a part of the University community for almost 62 years. The last 15 of those years I have had some sort of official capacity with the University. In that period of time, I have come to know and enjoy the friendship of some incredible people: members of this administration, staff, and faculty members, many of whom are with us today. I can't tell you how much you have enriched my life and increased my perspective in the range of thinking.

Serving on this Board is such a unique perspective. As Doug Borrer mentioned, this morning we listened to a graduate student engaged in

May 4, 2007 meeting, Board of Trustees

research and for the first time in my life I heard about a physical theoretic phenomenon called, "dark mass." I also heard a doctoral candidate talk about some incredibly interesting aspects of Italian art history. It is that sort of information that is such an enriching side to being a member of this Board.

As time goes by, I am going to hunt people down and thank them personally for what each one has meant to me and many are in the room today. With the exception of Bill Shkurti, who is somehow a blindly consument Cleveland Indian fan, who is constantly giving me grief about exercising my constitutional rights to be a New York Yankee fan, I may make good. I may get over that.

The often repeated public relations tag line of this University is "Do Something Great." As I think about the University today, this is a great university which has become substantially greater under the leadership of Dr. Karen Holbrook. In a word, she has "done something great." I certainly appreciate Karen, and her leadership and friendship.

I spoke to the Board last night and I don't want to repeat myself. I share with you your great love for this institution and, hopefully, I will continue to find ways to help out. After today if you see me wandering around the campus, it is not dementia, I just love this place.

Finally, my thanks to my dear friend and distinguished faculty member, Dr. David Frantz, who has helped me in so many ways and has been a great addition to my life. What do I say about Maureen and Lucy, who have been the very best and dear friends for the last 15 years? I will still probably be calling you on a daily basis. And certainly thanks to the other members of the Board Office; we couldn't have a finer support staff than these folks. It has been a pleasure.

Now I am certainly delighted and pleased to pass the gavel to my dear friend and fellow trustee Gilbert Cloyd. I wish you every success in the world, my friend. This is a great Board and you don't need me to tell you this is the greatest university in the whole world. Good luck!

Dr. Cloyd:

Judge Duncan, from all of your colleagues here on the Board, I want to express our deepest thanks. Thanks for all of the leadership and the service you have brought. You are one of those rare individuals that always makes service a verb. There are not many people who do that, but you do.

We have benefited from your wisdom, tireless dedication, and passion for this University to take it to even greater levels. We thank you for that. While we are going to miss you on a regular basis within the Board meetings, I know myself and others were very pleased last night to understand you do still want to stay around this University. You can expect us to continue grabbing you for counsel. We are also very happy that the University is going to continue to benefit from the outstanding service you have provided over the years. Thank you very much.

Judge Duncan:

Thank you, Gil. I really appreciate that.

My last official act is to announce and remind everyone that the next meeting of the Board will take place on Friday, June 1, 2007.

May 4, 2007 meeting, Board of Trustees

I hereby move that the Board recess into Executive Session for the purpose of considering personnel matters regarding employment and compensation, and to discuss matters required to be kept confidential by State Statute. May I have a second?

Upon motion of Judge Duncan, seconded by Dr. Cloyd, the Board adopted the foregoing motion by unanimous roll call vote, cast by Trustees Duncan, McFerson, Cloyd, Davidson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Shackelford.

--0--

Thereupon the Board adjourned to meet Friday, June 1, 2007, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

Presentation to Board of Trustees, May 4, 2007

Making Choices, Making Changes

May 4, 2007

Making Choices, Making Changes

- Choices – How do we identify the top-quality graduate programs?
- Changes – How do we re-allocate resources?

Introduction

- Graduate study at Ohio State:
 - 10,000 graduate students; 3,000 professional students
 - 92 doctoral programs, 115 Masters' programs
 - The programs span the arts & sciences, health sciences, and professional disciplines

Highlights of Senate Fiscal Subcommittee Report (K. Srinivasan, Chair)

- Involve the colleges as the main academic units
- A tripartite effort: OAA, Graduate School, Colleges
- Use a series of dialogues to identify the strongest programs and best candidates for enhanced funding, along with candidates for disinvestment

How Are We Going to do This?

- Essential to have a well-defined, well-known process
- Key principles
 - Fair
 - Recognizes the differences among our 92 doctoral programs
 - Rigorous
 - Effective in selecting our highest quality programs
 - Defensible

How Do We Identify the Strongest Programs?

- Quality indicators
 - GRE scores
 - Placement of graduates
 - Overall program quality and centrality
 - Time to candidacy and time to degree completion
 - Ratio of number of students enrolled to number completing Ph.D.
 - Diversity

How Do We Select Programs for Enhancement?

- Criteria for re-allocation
 - Emerging opportunities where Ohio State can excel
 - Ways that a program can gain a distinctive edge relative to competing institutions
 - Improve diversity
 - New approaches to attracting high-quality students
 - Commitment of department and college

An Adaptive Feedback Process

- Steps in Assessment Process
 - Structured series of meetings with Graduate School and each college, resulting in identification of programs for enhancement and for disinvestment
 - Compilation of results by Graduate School
 - Graduate School makes recommendations to Provost
 - Dialogues with Provost, Graduate Dean, College Deans
 - Final decision by Provost

Initial Assessment Process for Each College

1. Graduate School Dean meets with College Dean
 - Presents and shares information compiled by Graduate School
 - Describes proposed process for assessing graduate programs in the college
 - Engages in dialogue with Dean about college programs, and the two agree on next steps for college assessment

Initial Assessment Process for Each College

2. As appropriate, Graduate Dean and College Dean meet with Department and Graduate Program Chairs
 - Discuss initial data
 - Describe proposed process for the college
 - Address any questions that arise

Initial Assessment Process for Each College

3. College Dean carries out internal process, selects candidate programs for enhancement and for disinvestment
4. Graduate Dean and College Dean meet to discuss recommendations of College Dean

Compile All Dialogues and Develop Recommendation to Provost

1. Graduate School compiles and assesses the results of the 17 dialogues
2. Graduate School presents preliminary findings to and initiates discussions with Provost
3. Graduate School makes its recommendations to Provost
4. Provost, Graduate Dean, College Deans meet as needed to discuss recommendations

Decision by Provost

- Provost makes final decisions about programs for enhancement and for disinvestment
- Provost announces the results

Timeline

- Aim to complete individual college dialogues by end of December, 2007
- Compilation, iterations during Winter Quarter, 2008
- Announce outcome by end of Winter Quarter, 2008

Summary

- Graduate programs
 - define a university
 - are essential to Ohio State's role as a flagship university
 - establish Ohio State's national and international reputation

Graduate Education is Central to Ohio State

- Graduate education
 - Produces the next generation of independent researchers and scholars
 - Supports undergraduate education
 - Advances research programs at Ohio State

Canfield Hall - Bathroom Renovations

315-07-2181

Requesting Agency(s): STUDENT AFFAIRS, OFFICE OF

Location(s): Canfield Hall, James H.

36,012 ASF/61,020 GSF Age: 1940

Description:

This project will renovate the restrooms in Canfield Hall, creating private bathrooms for residents. This project will also upgrade the original electrical distribution gear and branch panels to support the renovation.

Project Information:

The project will reconfigure the existing bathrooms into six private bathrooms per floor. The project will determine the location and quantity of necessary ADA accommodations.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving the quality of student facilities.

Outstanding Funding Issues: This project is funded with future University bond proceeds; Student Affairs has identified an interim funding source until bond proceeds become available.

Timing Issues: This project must be completed during a summer quarter and completed and ready for student occupancy in the fall.

"Ripple effects" of the project: None

Special limitations/risks: None

Deferred Maintenance: This project will address approximately \$750,000 of deferred maintenance.

Deferred Renewal: None

Put-In-Bay Water and Sewer Line Extension

5062-PF6799

Requesting Agency(s): BUSINESS & FINANCE, OFFICE OF

Location(s): Peach Point, South Bass Island

1,556 ASF/2,013 GSF Age: 1926

Description:

This project provides centralized water and sewer service to all facilities owned by OSU on the Peach Point of South Bass Island and on Gibraltar Island. It will connect these facilities to the Village of Put-in-Bay's water and sewer systems. The work will install approximately 3,000 feet each of water and sewer pipeline from the Village of Put-in-Bay's limit to Peach Point and approximately 1,000 feet each of water and sewer pipeline, in the bed of Lake Erie, from Peach Point to Gibraltar Island.

Project Information:

As a health and safety requirement, the EPA has mandated that all water lines on the islands must connect to the Village water system.

The project was originally budgeted with completion planned for 2004. The project has experienced delays in coordinating and securing the approvals of the various agencies - including the Village, County, ODOT, and Army Corp of Engineers. Major delays include acquiring a "Right of Way" permit from ODOT and Village changes to the scope and plan. As a result, the cost of materials and labor has escalated and the project budget has increased by \$1M.

How does this project advance the Academic Plan? This project advances the Academic Plan by meeting the University mission of teaching and learning.

Outstanding Funding Issues: The project is seeking partial reimbursement of the \$1M escalation from ODNR.

Timing Issues: Special permits may be required to protect the wildlife.

"Ripple effects" of the project: None

Special limitations/risks: The Village of Put-In-Bay and Ottawa County must approve all plans prior to start of construction.

Deferred Maintenance: None

Deferred Renewal: None

Office of Business and Finance / Board of Trustees Meeting

May 4, 2007

**The Ohio State University
Board of Trustees
May 4, 2007**

TOPIC:

Audit Committee Consulting Engagement

BACKGROUND:

At the direction of the Audit Committee of the Board of Trustees, the University has hired PricewaterhouseCoopers ("PwC") to assess the University's decision-making, compliance, control and reporting structures as they relate to the financial operations of the University reported to the Board of Trustees.

SUMMARY:

The scope of the contract is as follows:

- Strategic Context and Decision-Making
- Operating Compliance and Operational Controls
- Reporting

The timetable is for a preliminary report in 90 days and a complete report in 180 days.

Attached are the following:

- Description of the selection process (Attachment A)
- Description of the project scope (Attachment B)
- Description of the principals (Attachment C)
- Summary of the approach (Attachment D)

CONSIDERATIONS:

- When does the clock start?
- Who will be interviewed and when?
- Are affiliated entities included?
- How will this be coordinated with other consultants and audits?
- How will the Board be kept informed?
- How will the results be shared with the rest of the University?
- What happens next?

REQUESTED OF THE BOARD OF TRUSTEES:

For information and discussion.

**Summary Sheet
Audit Committee Process Review Consultants
Consultant Selection Process**

Bid Process:

- RFP Issued – November 28, 2006
- Pre-bid conference call – December 13, 2006
- Bids Due – January 16, 2007

Internal Review Committee:

- Leslie Flesch, Assistant Vice President, Business and Finance
- Jim Woods, Senior Fiscal Officer, College of Optometry
- Marie Meade, Senior Fiscal Officer, College of Engineering
- Kevin Patton, Director of Internal Audit
- Greta Russell, University Controller

Number of Bids Received: Seven

Successful Bidder: PricewaterhouseCoopers
Principal: Mark Match
Columbus, Ohio

Cost: \$680,953 - \$795,953 including expenses
Funded through central funds as part of FY08 Budget Process

Timeline: Interim Report 90 days
Final Report 180 days

Summary Sheet
Audit Committee Process Review Consultants
Project Scope

The Audit Committee of the Board of Trustees for The Ohio State University and the Senior Vice President for Business and Finance of The Ohio State University desire to engage a consultant to assess University-wide decision-making, compliance, control and reporting structures as they relate to the financial and other operations of the University.

A. Strategic Context and Decision-Making

1. Assess the process by which key issues are identified and decided at the senior levels of the University.
2. Assess how accountability is operationalized and defined within the University.
3. Assess the impact of a decentralized organizational structure on the decision-making process.
4. Assess the process of how affiliates are established, monitored and managed within the University.

B. Operating Compliance and Operational Controls

1. Assess the adequacy of fiscal and other controls from both a centralized and decentralized perspective, taking into account the strategic context described above.
2. Assess the adequacy of current policies and procedures including consistency, accessibility, and overall documentation of processes.
3. Assess the process by which controls are managed and monitored from both a centralized and decentralized perspective.
4. Assess the process by which policies are created, communicated, managed, and monitored to ensure consistent language and interpretation of policy meaning throughout the University.
5. Assess the adequacy of training pertaining to controls and policies at all levels relative to their roles.

C. Reporting

1. Assess the accuracy and completeness of management reports to senior management and the Board of Trustees in relation to the strategic context and operational context described above.
2. Assess the environment and process by which follow-up action is taken on the reports described above.

D. Benchmarks

Identify appropriate benchmark institutions and provide comparisons of best practices where appropriate.

Summary Sheet
Audit Committee Process Review Consultants
PricewaterhouseCoopers Project Principals

Mark Match – Principal, Columbus, OH

Mark will work closely with the team as the local partner responsible for coordinating the work of the team across the University, quality assurance of the final work product and will be available to lead meetings should out-of-town subject matter leaders be required to attend meetings via phone.

Michael Barone – Managing Director, Boston, MA

Michael will serve as technical lead for the assessment of operational and financial controls. Mike is Managing Director in PwCs Internal Audit Services practice primarily serving the higher education and other nonprofit industries. He has over 25 years of auditing and financial management experience. Prior to joining PwC in 1998, Mike was Director of Internal Audit at Harvard University for twelve years. He also served as Harvard's Director of Financial Services for sponsored research administration and was an assistant controller at Rensselaer Polytechnic Institute.

Barbara Walsh – Managing Director, Atlanta, GA

Barbara is Managing Director and practice leader in the Health Sciences practice, specializing in Academic Medical Centers. She has over 28 years of experience in the university research and academic environments, with deep experience in university leadership processes and university strategy. She will serve as technical lead for the strategic and reporting elements of the project and will co-lead the benchmarking work with Michael Barone.

T.R. Kane – Director, Cleveland, OH

T.R. will serve as the local day-to-day project leader. He will manage the daily execution of the engagement, ensure resourcing requirements are met, and coordinate other project management activities. T.R. has over 10 years experience in operational and systems risk management. He has been actively involved in assisting clients throughout the United States, Canada, and Europe in developing, maintaining and assessing their overall risk compliance.

Summary Sheet
Audit Committee Process Review Consultants
Project Approach

STRATEGIC CONTEXT AND DECISION-MAKING

Evaluation of processes for implementation of strategy through executive decision-making

- Review existing relevant documentation and governing bylaws for senior leadership and the Trustees (Board policy manuals, minutes, etc.)
- Develop an understanding of and clearly document reporting relationships and the stated expectations, accountability structures and evaluation mechanisms
- Process map recent examples of major decisions made at the University to document how the issue proceeded through organizational levels to implementation
- Interview representatives of leadership and their support staffs
- Utilize survey instruments to map types of decisions against organizational levels in the University

OPERATING COMPLIANCE AND OPERATIONAL CONTROLS

Evaluation of processes for implementation of control and compliance structures to support fiscal accountability

- Interview numerous individuals throughout the University including central senior management, functional leaders, and administrators within the colleges and relevant affiliated entities
- Apply high level perspective of an internal control framework such as COSO as well as the PwC Internal Control Maturity Framework
- Develop an inventory of existing policies and procedures and compare the inventory to a list of key functions and business processes that support University financial operations
- Examine existing operations at the decentralized units as well as the central data reports that serve to monitor trends and identify outliers relative to policy and defined benchmarks
- Assess available training programs and review attendance at such programs, including extent to which training is mandatory or voluntary

REPORTING

Assessment of management reports provided to senior University leadership and the OSU Board of Trustees, as well as the environment and processes by which follow-up action is taken

- Analysis of Trustee and senior leadership report packages including documentation of content, process and frequency of financial reporting (such as P&Ls, Financial Status reports, Construction and Building Projects) and their relation to the specific strategic objectives of the University
- Evaluate content, frequency and utility of reports in relation to the strategic and operational content from the strategic and operational review components
- Assess the environment and process by which follow-up action is taken on the reports described above.

BENCHMARKS

Analyze OSU process and policy information in comparison to relevant industry leading policy and procedures from a select group of peers; define similarities and differences. (Benchmarks include Indiana University, Univ. of Michigan, Univ. of Wisconsin, UCLA, Penn State Univ., Univ. of Iowa, Univ. of Minnesota, Purdue Univ.)

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND THIRTY-FIRST MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, May 31 and June 1, 2007

The Board of Trustees met at its regular monthly meeting on Thursday, May 31, and Friday, June 1, 2007, at The Ohio State University Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **

May 31 and June 1, 2007 meeting, Board of Trustees

The Chairman, Dr. Cloyd, called the meeting of the Board of Trustees to order on Thursday, May 31, 2007, at 6:00 pm. He requested the Secretary to call the roll.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Thekla R. Shackelford, Algenon L. Marbley, and Christopher Alvarez-Breckenridge.

--0--

Dr. Cloyd:

In a moment we will be taking a roll call vote to go into Executive Session; that vote will conclude all formal Board action for the day beyond recessing the Board meeting until tomorrow morning. I'll remind you that the Board will reconvene tomorrow morning at 9:00 am.

I hereby move that the Board recess into Executive Session for the purposes of considering personnel matters regarding employment and compensation and to consult with legal counsel regarding pending or imminent litigation. May I have a second?

Upon motion of Dr. Cloyd, seconded by Amb. Ong, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Davidson, Ong, Borrer, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Shackelford, and Marbley.

--0--

Dr. Cloyd reconvened the meeting on Friday, June 1, 2007, at 9:00 am.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Thekla R. Shackelford, Algenon L. Marbley, Christopher Alvarez-Breckenridge, and Debra J. Van Camp.

--0--

INTRODUCTION OF NEW TRUSTEES

Dr. Cloyd:

I would like to take a moment to welcome our two new trustees who were appointed yesterday by Governor Strickland.

Debra Van Camp is our new student trustee who will serve a two-year term. Deb, from Lancaster, Ohio, is one of our land-grant scholars and an honors undergraduate student in Food Science and Technology, with a minor in Agricultural Business and Applied Economics. Welcome, Deb, it is great to have you with us.

Judge Algenon Marbley, of Columbus, was appointed to the U.S. District Court for the Southern District of Ohio, Eastern Division, in 1997. He was a partner with the law firm Vorys, Sater, Seymour and Pease, and received his undergraduate degree from the University of North Carolina and his J.D. degree from Northwestern University. He succeeds Robert Duncan on the Board for a nine-year term expiring May 13, 2016.

May 31 and June 1, 2007 meeting, Board of Trustees

We are honored to have you join our Board, Judge. Judge Marbley and Deb, welcome.

--0--

PRESIDENT'S REPORT

President Karen A. Holbrook:

I, too, want to welcome our two new Board members. The Governor made excellent choices and they will be terrific additions. Both of you are going to have a wonderful time being on this Board.

Since this is my last Board meeting, and the last time I will be with this group as a whole, I thought that I would take the opportunity to say thank you. Thank you to everyone on the Board and thank you to my colleagues around the room for the opportunity to have served this great University for five years.

When I came, we started out looking at the Academic Plan and where we were going. I am going to conclude my tenure here by looking back, again, at the Academic Plan and reminding people of where we started out and the things that have happened since I've been here. The Academic Plan still serves us very well and has been a great guide during these five years and will continue to be so until it gets refreshed. I think it is very important that it does get refreshed, because there are some things that are probably missing and some things that need to be updated no matter what year it is.

Building a world-class faculty was the first goal and we have a world-class faculty. At virtually every meeting we indicate some wonderful award that our faculty members have received. I can't tell you how thrilled I was to learn that Lonnie Thompson has received the National Medal of Science. What a phenomenal award for Lonnie to receive and what a phenomenal award for any faculty member in a university to receive. This is top recognition of excellence that is just beyond comparison. That is an example of what our faculty are doing at this University and we are extremely fortunate to have one of the top ranked faculties in the nation.

The second goal was to build academic programs that define Ohio State as the leading public land-grant university, with the idea that we would build programmatic strengths and new fields that capture our opportunities with many multi-disciplinary programs. I think that has been done rather dramatically as well with many new programs that have been put together, because this is what students want and this is the way to prepare students for the future. Not just simply in one discipline, but as disciplines intersect and cross those are constantly going on in virtually every department where colleges get together and the boundaries and the silos are broken down and these are the way we solve the problems in the world. This is a university that has done that extremely well.

The third goal is to enhance the quality of teaching and learning environment. All one has to do is look back over the last five or ten years and see what kind of a campus this has become with the teaching facilities and learning environments for our students that are also extraordinary. From Hagerty Hall -- where students can connect in real time with their colleagues around the world -- to the Fisher College of Business, which is a campus in itself and one of the finest in the nation for students in business. Virtually any single facility around the campus that has been put in place is one that is serving our students in an exemplary manner.

May 31 and June 1, 2007 meeting, Board of Trustees

The fourth goal is to enhance and better serve the student body and we do that all of the time and we have done it with selective admissions. When you look at the quality of students coming in, it shows what we have done to bring in better students is something that is making a difference simply because we are getting far better students. We have invested in scholarship dollars. Our new student trustee is a wonderful example of someone that has come in because of an innovative solution to help bring in students who are extremely well-qualified academically and may need some financial support. The Land-Grant Scholarship Program has brought in – now the third class will be coming in this fall – exemplary students. All you have to do is look at the 181-credit hours, the opportunities that we have put in front of students in research and international study abroad, and a whole array of things that every college has done to better serve our student body.

The fifth goal was to create a diverse university community and this is always on our agenda. Whether we look at racial diversity, gender diversity, or other forms of diversity, this is something that The Ohio State University has taken and continues to take very seriously in everything that we do. We look at all of our goals through the lens of diversity and the kinds of people that we bring together on this campus whether it is faculty, students, or staff.

The final goal was to help build Ohio's future. I have always said that if we live up to goals one through five, then we are meeting the standards for goal six – build Ohio's future. Our goal is to make Ohio State distinctive as a land-grant university and do very important things in outreach and engagement, and research and technology transfer. If we look back on what we have done in research it has been an extraordinary time -- going from \$426 million to \$652 million in externally-sponsored research. Not just for faculty, that research money translates into opportunities for students. For those of you who attended the Academic and Student Affairs Committee meeting this morning, we heard from three students who talked about their Denman Research projects. Those are three out of over 300 projects that were presented, and every one of them is an exceptional piece of work.

In helping build Ohio's future, I would like to see that we help build the nation's future and the global future. This University has an opportunity to prepare students who are global citizens of the world and we do it in so many ways. Our international task force that has been put together is now documenting that very well and codifying the things that we can do as an institution to become even stronger in terms of preparing students for the global environment and to connecting all over the world.

I just came back from Turkey last night where Ohio State has connections with Yeditepe University in Istanbul and Atatürk University in Erzurum. The difference that it makes to them and to us, and to have these kinds of relationships all over the world is simply phenomenal. The last university we visited was started by the University of Nebraska as a land-grant university and we celebrated 50 years of their history and our relationship with that university.

The kinds of outreach programs globally are extraordinary in this University and make such a difference for our students in thinking about other people and thinking about peace. There is nothing like the connection between education and peace. The more of these relationships that we have through our University and the more that our students connect, the better off we are. I think the Academic Plan has served us very well. I thank you all and I am very proud to have been sitting in my position for five years. Thank you very much.

May 31 and June 1, 2007 meeting, Board of Trustees

Dr. Cloyd:

Thank you, President Holbrook. I think that is an excellent summary of what this University is all about, the wonderful contribution that it is making today, and the real advances that have occurred over the last five years. Congratulations and thank you.

--0--

STUDENT RECOGNITION AWARD

Mr. Alvarez-Breckenridge:

The Student Recognition Award is presented each month by the Board of Trustees to a student in honor of their achievement in his or her area of study, service to the University and/or community, and research achievements that have been a credit to the college and the University.

This month's recipient, Brian Fangman, from Vandalia, Ohio, was nominated by Dean Carole Anderson from the College of Dentistry. Brian is a fourth-year student who will be graduating this month from the College of Dentistry. Today Brian is accompanied by Dean Carole Anderson, Associate Dean Cheryl DeVore, Dr. Henry Fischbach, Dr. Peter Larsen, and his wife, Lillian.

Prior to enrolling into dental school, Brian spent his undergraduate years at Ohio State while receiving a B.S. degree in biology with an emphasis in anatomy. During his undergraduate years, Brian had the opportunity to study abroad in Mexico. While studying there, he became fluent in Spanish and this ultimately influenced his desire to reach out to the Hispanic population.

As a dental student, Brian has upheld a strong academic performance and scored in the top percentile of the National Board Examination. Most commendable, however, come from the words of Dean Anderson as she describes Brian as "an excellent student in a demanding professional curriculum [while] still finding time to be of assistance to others....He possesses personal qualities such as curiosity, an intense desire to learn, compassion, and a strong work ethic that has and will continue to serve him very well in his personal and professional life."

Along the lines of reaching out to others, Brian participated on a Dental Mission with Health Professionals Serving Humanity. This trip took Brian to Honduras. Additionally, Brian has served as the president of the OSU student chapter of The Hispanic Dental Association, as well as the president and director of La Clinica Latina Dental Clinic. These accomplishments have not been overlooked as Brian has been awarded with several awards, including the American Dental Education Association/Listerine Preventive Dentistry Scholarship, the Basch Memorial Scholarship Award, and the Arden D. Hegvedt Student Research Scholarship. This later scholarship is awarded to a student who displays outstanding achievement and ability in communication and patient management skills.

With these academic and service accomplishments, Brian has placed himself in a position to excel as an oral and maxillofacial surgeon after participating in a four-year training program at Nassau University Medical Center in Long Island, New York.

Brian, on behalf of the Board of Trustees, I am very pleased to present this award to you today. Your achievements are truly remarkable and you are

May 31 and June 1, 2007 meeting, Board of Trustees

indeed an outstanding student. Congratulations and best of luck in your future endeavors!

Mr. Brian J. Fangman:

Christopher, thank you for your kind words. I have had the privilege to work here as a student employee since September 1998, and I can tell you that this is one of the highlights of my education. I really appreciate your consideration of the nomination for this award.

Dean Anderson, thank you very much for the nomination. It is definitely something very special. I appreciate it. Thanks to my wife, Lilly, who has been a constant support, I am very fortunate to have her in my life.

Early in my studies, I began to realize how privileged I was to pursue a career in dentistry. The privilege I speak of is not material in nature, but the benefit you receive from someone else's time and talent. With that said, I feel that I have been privileged all of my life from the nurturing of my parents to the experiences of my college and dental school faculty. I have always been aware and appreciative of the time and experiences others have shared with me for I know that is what has allowed me to become who I am today. Experience, whether professional or personal, shapes us into who we are. They allow us to set goals, learn from your mistakes, and find out what is important to you. There is only one thing, you cannot obtain these life experiences without selfless people willing to mentor and share their own experiences. I have invited three such people here today.

Dean DeVore, your door has always been open and you are very easy to approach. You always have students' best interests at heart and we really appreciate you. Dr. Fischbach, you have helped me develop as a clinician and a leader through your support with the La Clinica Latina Dental Clinic and Hispanic Dental Association. I have learned a lot from your dedication. And Dr. Larsen, the knowledge and experiences that you have shared with me in the classroom and during the trip to Honduras, have truly inspired me more than you can imagine. I appreciate your mentorship and look forward to the next four years in oral surgery. I am sure I will be giving you a call with a few questions. The time that I have shared with each of you is irreplaceable and you have made a great impact on me professionally and personally. Thank you, again, for sharing your time to be with me today. It means the world to me.

To all of you, thank you very much, I really appreciate it.

Dr. Cloyd:

Brian, again, congratulations and all the very best in the future. You have made wonderful contributions to-date and you bring to life what President Holbrook just outlined in the start of her address when she described what this great University is all about – its diversity, its global scope, its service, and great academic qualities. Thank you.

Mr. Fangman:

These faculty create such a foundation for people to build off of and none of this would be possible, and I wouldn't be here today, if it wasn't for them. This is as much their award as it is mine. Thank you very much.

--0--

MEDICAL CENTER REVIEWS

Mr. William J. Shkurti:

Chris and I agreed that I will lead off and talk about the Medical Center Facilities Master Plan and then he will follow-up and talk about the governance review of The James Cancer Hospital and Comprehensive Cancer Center. I want to stress that this is a preliminary report and that there is still a lot of work to be done, but we thought it would be useful for the whole Board to be briefed on where we are because of the importance of this project.

The Medical Center Facilities Master Plan is a \$780 million capital project, which makes it the largest in the history of the University. Therefore it is important that the project be done in a timely way, but also carefully planned and executed. The Board initiated a process at the beginning of the year to review the Medical Center Facilities Master Plan. The first step of that process was to create a special Task Force that included: Mr. Brass, Judge Duncan, Mr. McFerson, Amb. Ong, and Mr. Wexner. The second step was to hire consultants who were experts in this area to advise the University and the Task Force. After a competitive process, two consultants were picked: 1) Deloitte and Touche, who most of you are familiar with; and 2) Hammes Company. Although Hammes doesn't do a lot of work in Central Ohio, they are a company that specializes in second opinions on medical facility construction and those second opinions are done very often in the private sector.

Four components were highlighted for the consultants to review: 1) the Medical Center Strategic Plan, with Deloitte leading that effort; 2) the five-year financial plan for the Medical Center, with Deloitte also leading that effort; 3) the Medical Center Facilities Master Plan itself, with Hammes leading that effort; and 4) the financial relationships between The James and The Ohio State University Medical Center, with Hammes also leading that effort. Although different consulting teams led each effort, we stressed with them -- and they worked very hard to make sure that happened -- that these efforts were to be coordinated, because one affects the other.

At the time the consultants were hired, we asked them to provide us with a preliminary report in 30 days and a final report in 60 days, because there was a concern about having this done in a timely way. The official clock started on April 6, so we are running about a month behind. We felt it was more important to take the time to do this correctly, than it was to rush through to meet an artificial deadline.

The report I will be relaying to you today also reflects the outcome of several discussions and meetings that the Task Force has had, including the most recent discussion on May 16 with the consultants. What I will talk about are three things: 1) the review of the preliminary conclusions that the consultants have relayed to us; 2) discuss the implications of the Master Plan for the University; and 3) recommend what should happen next. I would like to point out that there is a summary of all of this material in your Board books, but some things have changed since you received the material last week because of this dynamic situation.

Let me first turn to the preliminary conclusions. I think that the external consultants have spent considerable time reading the various documents supporting the plans and interviewing stakeholders in order to be able to comment on these issues. Deloitte has identified five risk areas that they feel merit further review: 1) strategic and organizational; 2) market and competitive; 3) financial; 4) service and quality; and 5) execution. In the

May 31 and June 1, 2007 meeting, Board of Trustees

interest of time I will not go through all of these, but if there are any questions I will be happy to elaborate on the specifics.

The Hammes Company identified four specific risk areas that they want to do additional work on: 1) an extension on the proposed schedule due to existing and potential delays; 2) lack of consensus on the current Medical Center Facilities Master Plan among major stakeholders and its subsequent phases; 3) the adequacy of allowances for unknown items in the current project budget; and 4) the funds flow between the OSUMC and The James, which in the opinion of Hammes -- and I would agree -- currently provides benefits to both the Medical Center and The James from the shared service arrangement and access to patient care and ancillary services. Hammes pointed out that a risk exists should there be increased separation between The James and the Medical Center, and if it is not done properly it could lead to greater costs for both entities and that is something we don't want.

Deloitte and Hammes both have observed that there is agreement among the key stakeholders -- both within the Medical Center and the University -- that we want the academic Medical Center to become a top-tier medical center and we want the Comprehensive Cancer Center to be a top ten comprehensive cancer center. However, there is not alignment as to the relative priority of these goals and how these relate to the Medical Center Facilities Master Plan and I will elaborate on that.

First, the consultants concluded that the lack of alignment among some of the stakeholders is the most significant risk to going forward at this time. Accordingly, they suggest that the Medical Center Facilities Master Plan needs refinement in order to proceed effectively with the project. One of the things that the Deloitte people pointed out to us -- and they have done a lot of consulting in this area -- is it is not unusual to have this degree of differing views in terms of relative priorities within medical specialties, because people who support these believe in what they are doing and those are the kind of people that you want to recruit. What is unusual would be to go forward with a project of this size without having that worked out so that everybody understands what the relative priorities are within that overall goal. One of the things that they are recommending is that we take a little more time to do that and I will talk more about that in a minute.

The second thing is that among the other analyses they are doing, the consultants are obtaining information on other top tier academic medical centers and top ten comprehensive cancer centers to determine if other models can serve as a guide to develop alternative facility options. So we are going to take a look at who else is successful and what the pattern is there.

We also want to point out that -- even though they are recommending and we are concurring -- there be a delay in moving forward. When you do delay a project of this size, it does inevitably increase the cost due to inflation. If you do something later it is going to cost more in today's dollars than if the project was done today, but that has to be balanced against other considerations. Another risk that is posed by a significant delay is the ability to generate enthusiasm, support, and commitment from potential donors, so they are also aware of that.

The other challenge that we have is that there is a finite amount of debt the University can incur and still retain its current bond rating. Most of this construction will have to be done by issuing debt. The borrowing capacity for the Medical Center and the University is not sufficient to fund everything everyone wants to do in regards to this plan in the next 4-5 years; therefore, some prioritization is in order. Again, that is not unusual.

May 31 and June 1, 2007 meeting, Board of Trustees

The new organizational structure that is being prepared, so that The James can retain its PPS exempt status, may add another level of complexity. This will place an even higher level of importance on achieving alignment for the Medical Center Facilities Master Plan between all of the stakeholders in this process.

At the recommendation of the Board's Task Force – and this came out of the May 16 meeting -- a timeline is being developed by the consultants, in consultation with Chris and I, for key decisions that need to be made over the next few months. This timeline will also provide the key action steps for OSU to manage the risk for the largest capital expansion decision the University has made in its history. The implications of all of this are as follows: first it is important to emphasize that the current Health System physical plant is at capacity and in need of modernization, and that is not subject to dispute. Successful implementation of a well thought-out Medical Center Facilities Master Plan will generate programmatic, quality of care, competitive, and financial benefits for the Medical Center and the University. So doing this project right has tremendous benefits for everyone involved.

Although a great deal of good work has been done, a number of significant issues still need to be resolved before proceeding. Foremost among these is the lack of alignment among major stakeholders regarding priorities within the Medical Center Strategic Plan. Again, this is not unusual in projects of this nature. To meet best practice we need to get these resolved before proceeding to the next step. This is something that both of the consultants, as well as Chris and I, agree on completely. The most important thing we can do next is develop a framework and timeline for resolution of these issues. In fact, Chris and I have already asked the consultants to start working on this.

Another point is that the outcome of the Cancer Program governance review that Chris is heading up needs to be integrated into this process, because that will affect this and this will affect that. It is important that they are coordinated. And, finally, it is highly unlikely that all of these issues can be resolved by the next Board meeting on July 13.

The next question is what should we do? I am recommending four things that need to happen between now and the next Board meeting. The first recommendation is to finalize the decision framework and timeline that I referred to, so that by the time the Board meets again we will have a very specific plan for you on how and when these issues can be resolved.

The second recommendation is that we need to make significant progress regarding the Consultants' reports, since they aren't completed yet, and also the governance recommendations that Chris is working on, because they aren't completed yet. So we want to take the time to do those correctly, but they need to be done in a timely way.

The third recommendation is that what we need to be prepared to do at the next Board meeting is provide you with more specifics on how we propose to align expectations and resources regarding the Strategic Plan priorities. In other words, Job 1 will be alignment -- and I am using the word "alignment" deliberately. "Alignment" to me means everyone will not necessarily be in agreement. There are deeply held opinions for sincere reasons and there are differences and we shouldn't pretend that there are not differences. What we need to be able to do -- as any good organization does -- is take those differences, work through those to the degree we can, and agree on a course to move forward that everybody supports whether they are in complete agreement or not. All successful organizations do that.

May 31 and June 1, 2007 meeting, Board of Trustees

If we can't do that, we won't be successful and all we will have is a collection of individuals. I think it bears emphasizing that we will not have a first-rate medical center unless we have a first-rate cancer program and we will not have a first-rate cancer program unless we have a first-rate medical center. The two need each other and benefit from each other in terms of the relationship.

The fourth recommendation is to determine how to make the best use of the period between the July 13 and September 21 Board meetings. Traditionally, the summer is the period when things slow down and we need to make sure that the heat of summer does not become an invitation to take the summer off. Instead, we need to use those summer months constructively, so by the time fall comes we have a clear direction of where this project needs to go.

In summary, I have tried to give you a sense of the background behind the project, what the preliminary conclusions of the consultants are, what the implications are for the project and the University, and what we recommend as next steps. I will now turn to Chris and let him brief you on the governance process, and then we will be glad to answer any questions.

Mr. Christopher M. Culley:

Thanks, Bill. You will recall about a month-and-a-half ago, it was decided that as a part of the Master Space Plan we needed to pay special attention to the governance and operational model in place at the Medical Center so that we could ensure that going forward -- as we implemented the Master Space Plan -- we could assure continued compliance with federal regulations that require a certain degree of separation of the Cancer Program from the rest of the Health System. To do that the incoming and outgoing chairs of the Board assigned a working group which included: Dr. Fred Sanfilippo, Dr. David Schuller, Dr. Michael Caligiuri, Dr. Chip Souba, Mr. Dennis Smith, Mr. Pete Geier, and me. Joining us midway through the process was Dr. Chris Ellison and we have also been aided by Mr. John Stone and Mr. Julian Bell.

The Committee was given the charge to review the governance structure at the Medical Center with four guiding principles in mind: 1) to position the OSU James Cancer Hospital and Solove Research Institute to become a top ten NCI-designated comprehensive cancer center; 2) to maintain the excellence and growth of the Medical Center both in programs, personnel, and facilities through a sound strategic investment plan; 3) to maintain the federal PPS exemption; and 4) to enhance interdisciplinary synergies among the University Medical Center, The James, and The Ohio State University. Given that there were legal issues and continue to be legal issues intertwined in this task, I was asked to chair the working group.

Over the past several weeks, this group has met frequently. I think that everyone has been candid and fully engaged. It has not always been an exercise in total alignment, but everyone has been fully engaged in the process and have worked in good faith and with open minds. The Committee is nearing the end of its work. Within the next week to ten days, the group will be releasing a report on its model to internal and external constituencies. The model clarifies the roles and responsibilities of The James and the other hospitals in the Health Care System, the Medical Center, and the University, and the relationship of all of those entities. I will be relating some of the legal issues regarding this in Executive Session after our presentation.

May 31 and June 1, 2007 meeting, Board of Trustees

The model that we have come up with, and which needs some additional tweaking over the next seven to ten days, is one that all of the members of the working group support and feel is a workable model. I think that it meets all of the objectives given to us in the four guiding principles and believe that it complies with the PPS regulations at the federal-level. We have been consulting with an outside law firm that specializes in this area and have also been in consultation with CMS, the federal regulatory agency. We will continue to consult with CMS until we have closure on this issue, so we can be confident going forward that we have tied this issue down.

At the same time we are wrapping this work up, we will be integrating this work into the larger Master Space Planning Review. I think that at some point, these two processes will be moving in parallel tracks. Once we agree on this governance model, it will take a lot of detailed planning going forward into the future and may result in some changes to bylaws on all of the boards, including perhaps this Board.

That is my status report on where we are with the governance working group. We will now open the floor for any questions.

Dr. Cloyd:

Are there any questions for Bill or Chris?

Ms. Hendricks:

Bill, you listed all of these areas that the consultants were going to look at. Do you feel that they are going to be able to complete this work in the 60-day timeline that they have proposed? It seems like a lot of work.

Mr. Shkurti:

Ms. Hendricks, the literal interpretation of the 60-day timeline would be if they started on April 6 they would be done by June 6. I do not anticipate them meeting that timeline. I suspect them coming very close to substantial completion by the time of the next Board meeting. I want to use the word "substantial completion," but if we have some loose ends that aren't done I don't want to force a deadline. They are working intensively to get these things done and there is a lot of work that has been done already.

Mr. McFerson:

One of our objectives in this study was to benchmark the work that had been done with regard to other institutions to see if our budget was appropriate. Do you have any indication as to what that benchmark work has indicated? Is it looking okay? Do we have some challenges there? Can you be a little more specific?

Mr. Shkurti:

Sure. Remember we are talking about two budgets -- the operating budget for the Medical Center and the capital budget for the construction process.

On the operating budget for the Medical Center and the Health System, in particular, Deloitte has taken the lead in that. They found in some cases we are okay and in some cases we have challenges. The best examples would be if you look at -- and part of this was discussed in the Medical Center Affairs Committee meeting yesterday -- the traditional measures of financial health of a medical center, which would be the operating margin, cash on-

May 31 and June 1, 2007 meeting, Board of Trustees

hand, and debt service coverage. What Deloitte has found -- and it is very consistent with what Standard & Poor's found in the bond review that they did of the Health System -- is that we have a very good operating margin compared to other academic medical centers and we have very good debt service coverage, although that will change as we issue more debt. Where we aren't quite as strong as the others might be is in the cash area. Although we are improving on that, the Medical Center is benefiting from the fact that the University is in a fairly good cash position. I would say that two out of three is pretty good, but before you embark on a major expansion of this size we need to nail down the appropriate level of cash reserves that are useful to have.

The other thing that the Deloitte people told me is that they felt that the growth assumptions that are built-in for the next five years in the five-year financial plan were not out of line, but were on the aggressive end. They want to do some additional work to make sure that it was aggressive good rather than too aggressive. One of the things that they are concerned about is that they know the market that we face and that the Medical Center faces involves third-party payers, some of whom are governmental entities that can be somewhat arbitrary on what they decide to pay. On the private side you have the third-party payers, such as the health maintenance organizations and large insurers, who are under a lot of competitive pressure. So they wanted to do some additional testing to see how that affects the five-year financial plan.

The third thing that they wanted to look at in a little more detail was what we may call the "perfect storm" scenario and I know that the Medical Center has already done some stress testing on its assumptions. So instead of growth at a certain percent -- if reimbursement only grows two-thirds of that, what is the impact of that? Deloitte wants to look at what if you have two or three things that go south at the same time. If you remember when the Health System ran into financial trouble back in the early part of this decade, there were a number of things that happened: the federal government changed the Medicare reimbursement as a result of the Balanced Budget Act and the stock market collapsed. It was more than one thing. So they want to test multiple stresses.

On the capital budget, what the Hammes people have told me is that it appears from their initial look -- and they are still digging into it a little deeper -- that the capital cost estimates look fairly reasonable for the timeline that they were predicated on at the time. That timeline is now not going to be met, so that has to be figured in. They also felt that the overall fees that were built into the project for the architects and construction managers seemed reasonable for projects of this size and complexity.

They were concerned with a couple of areas -- they thought the timeline for the two medical towers, which is the core of the project, was a bit aggressive. Again, that needs some more work -- how much aggressive is too aggressive, because time is money in this case. They were also a little concerned about the contingencies. They thought the contingencies on balance seemed to be appropriate, but they were a little concerned about the impact of multiple primes. If they haven't worked in Ohio before, multiple primes probably would strike them as a bit strange, because it is not the norm throughout the country. So they want to make sure that the reserves take that into account. What both Deloitte and Hammes told me is that they thought that there had been a lot of good work done on this project, but that there were still some open issues that needed some additional work.

May 31 and June 1, 2007 meeting, Board of Trustees

The other one that Hammes mentioned was that they thought there was some good preliminary work done on the infrastructure, but that there was still some details up in the air that needed to be nailed down. The other thing that Hammes and Deloitte both mentioned was that they thought the planning for Phase I had been very thorough, but that Phase II was up in the air. We need to have a better idea before going further into Phase I exactly what Phase II would mean and what's in and what's out.

Mr. Schottenstein:

Did any part of their report go to how we are going to manage this once it starts? In other words, I recognize that most of what they have looked into had to do with the many items that you have articulated. Once we are ready to start -- whatever this ultimately looks like -- how should we manage it, who is in charge, and who ensures that there is proper oversight within the University on what will inevitably be the largest project in our history? Have they in any way begun to weigh in on issues related to that?

Mr. Shkurti:

Mr. Schottenstein, the short answer to your question is yes; that is one of the things they are charged with looking at. Their first priority is on alignment and getting that taken care of, but further on down the road they will make sure we can execute this. Both Deloitte and Hammes are looking at that and making sure that we execute it in the best practice.

Mr. Wexner:

Bill, one of the things that I heard was that in looking at the cost they didn't look at the market in relationship to competitive projects. They weren't aware of the fact that Children's Hospital is going forward with a \$1 billion project that is funded in exactly the same timeframe. There will be two of the largest construction projects ever undertaken in a specific area happening in Central Ohio at exactly the same time. I raised that to the Hammes guy and that was like a big, "Oh," because they didn't know about it. My guess is that when you have a billion dollar hospital project going on at the same time as another billion dollar hospital project, it doesn't get any cheaper.

Mr. Shkurti:

Mr. Wexner, that is a very appropriate observation. We have since followed up to try and work through that impact. I can tell you from my own experience of when we were renovating the Stadium at the same time that Easton was under construction. Although Columbus is a big place there are strains put on the market when there is a lot of construction going on. We need to take that into account and make sure that is factored in as we move forward.

Dr. Cloyd:

Any other questions? Bill and Chris, thank you very much. That was an excellent summary report and we will look forward to being further updated at the next Board meeting. Thank you.

(See Appendix LVIII for background information, page 1269.)

May 31 and June 1, 2007 meeting, Board of Trustees

Dr. Cloyd:

At this time I will move that the Board recess into Executive Session for the purposes of considering personnel matters regarding compensation, to consult with legal counsel regarding pending or imminent litigation, and for the purpose of discussing matters required to be kept confidential by State Statute. May I have a second?

Upon motion of Dr. Cloyd, seconded by Mr. McFerson, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Davidson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Shackelford, and Marbley.

--0--

Dr. Cloyd reconvened the meeting on Friday, May 1, 2007, at 11:20 am.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, John D. Ong, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Thekla R. Shackelford, Algenon L. Marbley, and Christopher Alvarez-Breckenridge.

--0--

**THE REMODELED UNDERGRADUATE CURRICULUM:
GETTING ON WITH WHAT WE'RE GOOD AT**

Provost Barbara R. Snyder:

Good morning. I'm pleased -- in fact, I'm delighted -- to appear before the Board this morning.

Nearly 100 years ago, W.H. Auden authored a line that motivational speakers have been commandeering ever since. "You owe it to us all," he wrote, "to get on with what you're good at." The Ohio State University is good, of course, at many, many things. That's especially true of the education we provide our undergraduates. Indeed, in recent years, Ohio State has become a real destination for talented undergraduate students. Just consider that 22,172 hopeful high school seniors applied for admission to this fall's entering class. That's nearly 20% more than last year and, I believe, that is a record.

Today, Vice Provost Randy Smith and I are here to let you know that yet another undergraduate milestone has been reached. Members of the Board, it is a pleasure to tell you that on May 10 the University Senate approved, with only one negative vote, the reduction from 191 to 181 in the number of hours required for earning a basic bachelor's degree at Ohio State. This change will enable us -- as never before -- to get on with what we're good at.

You know from many of my previous reports that the Senate's action was the culmination of three years of hard work. In 2004 we launched a major study of the undergraduate curriculum under the leadership of Distinguished Humanities Professor Brian McHale from the Department of English. In the wake of that study, Professor McHale and the Committee on the University-Wide Review of Undergraduate Education developed a series of recommendations for reforming undergraduate education at Ohio State. After the report was presented in late 2005, the Committee's recommendations were refined in discussions with the University community and with governance bodies, including the Arts and Sciences'

May 31 and June 1, 2007 meeting, Board of Trustees

Faculty Senate and the Council on Academic Affairs. Of the recommended changes, the proposal to move from 191 to 181 credit hours for graduation was the most controversial, even though Ohio State's 191-hour requirement was top-heavy in comparison to our peers. The Arts and Sciences' Faculty Senate approved the change, and, now, the University Senate has added its imprimatur by likewise approving the reduction to 181 hours.

As I reported to you last September, moving from 191 to 181 hours is important for several reasons: 1) it will reduce the financial resources that our undergraduate students and their families have to muster for an undergraduate degree; 2) it will help students advance more quickly into their chosen career paths; and 3) it will mean that our students will be able to graduate in four years like students at Michigan, UCLA, and some of our other benchmark institutions. This change will position Ohio State more competitively among the nation's top public research universities.

Randy Smith is one of those most responsible for this important outcome. He has been intensely involved in the reform of the undergraduate curriculum, beginning with his ex officio membership on the McHale Committee. And it was because of his masterful administrative skills and his resolve in moving this through the appropriate groups that the administrative process went so smoothly, steadily, and collegially, if not rapidly.

Many, many others were instrumental in the process. With the Board's indulgence, I would like to take a moment to recognize the efforts of some people who were really important including the Arts and Sciences' Faculty Senate; the Arts and Sciences' Committee on Curriculum and Instruction; and the Council on Academic Affairs and its chair Brian Winer. I'd also like to thank Vice Provost and Dean for Undergraduate Education Martha Garland, the deans of our colleges that teach undergraduate students, our faculty leaders, particularly Faculty Council Chair Allan Silverman, and, of course, the members of the Undergraduate Student Government who gave us their feedback and strong support. Special thanks and acknowledgement go to Executive Dean for Arts and Sciences Jacqueline Royster, who couldn't be with us today, and Associate Executive Dean Ed Adelson, who is here today. As a result of their advice, their spirit of cooperation, and their desire to do what was right for Ohio State, we have made what may be the most significant change to undergraduate education in the last 20 years. Thanks to them, we're better equipped than ever to get on with what we're good at.

With the Board's approval today, the new credit hour requirements begin with the class coming in Autumn 2007. Here to give you a few more of the details is Vice Provost Randy Smith.

Dr. W. Randy Smith:

Thank you and good morning. Let me just take a few minutes to elaborate on a small set of specifics associated with this proposal. For undergraduates at Ohio State, the curriculum has three main pieces: 1) a general education curriculum component; 2) a major component; and 3) a set of electives. What is actually in those parts varies somewhat by college, so for the basic B.A. and B.S. degrees there are specific requirements and for the tagged degrees – for example, degrees in business or engineering – they may be somewhat different.

Professor McHale's Committee formally addressed the need to reduce the number of credit hours to graduation and focused specifically on the GEC – General Education Curriculum – component to it. At no point was the

May 31 and June 1, 2007 meeting, Board of Trustees

Committee questioning the goals of the current general education curriculum or advising for any broad structural changes to it. It did suggest that it was time to think about reducing some of the hours in it and in doing so letting students have more choices or personal decisions about the kinds of courses that they were taking in some of the categories.

With that behind us, over the last year-and-a-half -- with the tremendous help of the many people whose names were just mentioned -- we started to discuss this process in the Colleges of the Arts and Sciences where 90% of the courses in the GEC are located and where the colleges have the largest number, approximately half, of undergraduate students. It has been a year of incredible discussion in that body. Professor Adelson deserves tremendous credit for his leadership through that process.

What the Arts and Sciences decided to do in the end was to reduce from 191 hours to 181 hours and to do so through five hours being drawn from the general education curriculum -- known as the bread areas -- and five hours from somewhere else, most notably in the electives. As Arts and Sciences worked on that, an important part of the process was that the other eight colleges at Ohio State that have undergraduate programs were watching and participating and contributing in what Arts and Sciences was thinking. Brian Weiner, from the Council on Academic Affairs, and I worked closely with them as that process was playing out.

As a result of that, in the last few months these other colleges themselves have come forward with templates or proposals for their programs and they have reduced five hours in the GEC and, if possible, five hours from their major or their electives. All of those templates went through the system just recently. On May 4, the University Senate's Council on Academic Affairs -- the body that brings proposals to you -- approved it and then, as Barbara mentioned, on May 10 the Senate approved it. We really are very grateful to Allan Silverman, Harald Vaessin, Rob Perry, and Chris Zacher and the Senate leadership for everything they did to help us in the last stages of that process.

Given all of that, we could talk about process and we can talk about the new mechanical structure, but some other things were achieved in the last couple of months and I will mention four of them. I think it is the best discussion of our general education curriculum that we have had in well over a decade at the University or maybe longer. I was involved, as David Frantz and Ed Adelson were involved, in the development of the GEC in 1988. We are now realizing that this is the best discussion we have had since that establishment occurred.

Second, we have really worked hard to keep an alignment among the colleges. If the general education isn't dramatically different between and among the colleges within the University and if students were to transfer among colleges, that could be an issue.

Two other things that are not on the agenda, but I think you should know about is that we are going to pilot a new "Freshmen Cluster." That is where students could take a small set of courses in their freshman year, and these would be general education courses integrated with one another in some way and may have a topical orientation. This is new for us and we are going to tie that in with the Arts and Sciences and have it move forward.

Probably above all, we are about to establish a new University-wide advisory committee for the general education curriculum. Historically it has been rooted in the Colleges of the Arts and Sciences understandably, but now we are adding faculty and students from other parts of the University to

May 31 and June 1, 2007 meeting, Board of Trustees

be looking at the University on a continuous basis. Not waiting for a report of this nature to emerge every five or six years, but to actually be watching it all of the time.

The next steps are that if it is approved today, implementation will take effective with the freshman class of Autumn 2007. Vice Provost Martha Garland and I are now beginning work with our advising staff across the University to ensure that the nature of these changes is known to the staff and that students can be advised appropriately.

As a long-term member of the faculty and with the administration for a few years, and someone whose own children have gone through the University, I think that what has happened is something that is very important for what our students want and expect. I think that we went about it in a way that our faculty deserve. Thank you.

Dr. Cloyd:

Thanks, Barbara and Randy. This is really an important milestone and thanks to everyone that has been involved in all of the work to get this done. It is tremendous. Let me open it up to the Board for any questions or comments.

Mr. McFerson:

As one who has been around here awhile, I would just say thank you. This was a long, arduous process, but you are to be congratulated for thinking of our students and also making sure that everybody was given an opportunity to air their views on it. It is an important step. Thank you.

Ms. Hendricks:

Does this mean that for every undergraduate curriculum there is no more than 181 hours to graduate?

Provost Snyder:

No. It does mean that for the basic bachelor's degree – the B.A. and B.S. – no more than 181 hours will be required to graduate. There are already majors above 191 hours and those have come down ten hours, one way or another -- they took five hours out of the GEC and then five hours someplace else. They were never at 191 hours and will not be at 181 hours either, but they will be reduced.

Dr. Smith:

That is really an important step in this. As the Arts and Sciences said, "We will bring all of our degree programs down from 191 hours to 181 hours" and other colleges – Engineering, FAES, and Business – said, "We will take them from wherever we are and come down ten hours as well." That doesn't mean that all of them will be at 181 hours.

Provost Snyder:

There are many degree programs outside the Arts and Sciences that are at 181 hours now, too.

May 31 and June 1, 2007 meeting, Board of Trustees

Amb. Ong:

We see in our Student Recognition Awards every meeting, examples of hyperactive undergraduates. I assume that these hyperactive undergraduates will remain able to take more than 181 hours. In other words, this is a requirement not a ceiling?

Provost Snyder:

Many of our students take more than the required minimum number of credit hours. Of course they are welcome to continue to do that and we know that many of them will still choose to do that for various reasons.

Mr. McFerson:

Practically speaking, let's say you have a senior student and now this is approved. Is it effective immediately, so that students can look at their hours and perhaps graduate a quarter sooner?

Provost Snyder:

No. We are starting it with the students who come in as freshmen this Fall. Essentially we look at it as making an agreement with our students, we tell them when they come in, "Here are the requirements with which you must comply to graduate." We don't change those while they are here. The students who are already here have a different understanding and they are well into their programs. This will begin with the new students.

Dr. Cloyd:

Again, Barbara and Randy, thank you and thanks to all of your colleagues for this great work.

Provost Snyder:

Thank you for your support.

--0--

COMMITTEE REPORTS

Dr. Cloyd:

I would like to call for committee reports and will begin with the Medical Center Affairs Committee report by Mr. McFerson.

Mr. McFerson:

Thank you. The Medical Center Affairs Committee met yesterday afternoon. Dr. Sanfilippo started with an update on where we are with regard to staffing levels and particular programs, and then where we are with various recruitments -- in certain areas these things often take many, many months to bring to a conclusion -- and any appointments that are going to appear on the consent agenda. The one that you will be asked to vote on today is the appointment of Elizabeth Seely, executive director of University Hospitals East. She has been on staff here for approximately 20 years and is uniquely qualified for this assignment and we are delighted to have her.

May 31 and June 1, 2007 meeting, Board of Trustees

Mr. Pete Geier presented additional consent agenda items for your approval. The first is to enter into design and construction contracts, and to enter into a joint use agreement. These are matters of rather routine nature that are in the annual capital budget approved each year. None of these are major projects, but are rather minor things that need to be accomplished from time to time to meet deferred maintenance issues or structuring changes in regard to where programs are located.

Then we spent the bulk of our time hearing the year-to-date financial report through ten months. It is going very well and we are essentially on budget. Then we had a lengthy discussion with a lot of questions on the operating plan for Fiscal Year 2008. This was previously vetted in The James Board and the University Hospitals Board meetings, and we now had a chance for the Medical Center Affairs Committee to review it. We then passed it on to the Fiscal Affairs Committee for their consideration this morning. To summarize, we have two consent agenda items #7 and #10 that have been recommended to the full Board from the Medical Center Affairs Committee.

We then went into Executive Session to discuss matters that can be discussed in this session, and then we adjourned the meeting.

Dr. Cloyd:

Thank you, Mr. McFerson. Any questions? We will now have the Investments Committee Report.

Mr. McFerson:

The Investments Committee met yesterday and we first heard the Proctor Report from Tom Johnson, Interim Treasurer. Allen Proctor is a noted consultant who has done some wonderful work for us. He was retained last October to formulate recommendations and actions to improve the organization and operation of the University's Treasurer's Office. As part of that consulting agreement, he has provided eight memos to the Office for eight different areas of responsibility. As a Committee, we agreed to monitor those rather closely over the months or perhaps over the year ahead with regard to those recommendations and changes that were recommended by him. We are very pleased to have that report.

We then looked at the Endowment Quarterly Report as of March 31, 2007, compared to nine months ago -- the end of the last fiscal year. The gift endowment dollars are now \$1.513 billion versus \$1.345 billion; that is up \$68 million or a 12.5% increase. The operating pool of funds -- the University's cash from all sources -- is up \$97 million or 13.2% in the aggregate. We also looked at a new format for reporting this data that is in the process of being developed. We will probably continue to see some changes in that, but it is showing the information in a much more meaningful way than it has in the past. All of this information is now being benchmarked versus appropriate standards that have been established and it is helpful for us to see how we stack up against the Big Ten and our other comparable universities. We are making progress, but we have some work to do.

With regard to the Investment Managers Report, it is interesting to note that we have 82 separate investment managers. This is significant progress compared to where we were a number of years ago, when we did not have that many investment managers, that many different styles, and that much diversification of the portfolio. The Proctor Report and Cliffwater, another consultant that we have used, have made some significant recommendations to us. We are moving dramatically into the diversification

May 31 and June 1, 2007 meeting, Board of Trustees

of this portfolio, which will help us improve our results vis-à-vis the other universities that we benchmark against. Today you will see on the consent agenda some recommendations with regard to additional investment managers and the reallocation of funds from one area into another of the portfolio.

Then we heard the Development Report from Dr. Schroeder. Comparing nine months -- Fiscal Year 2007 to last year -- we are up slightly over that same period a year ago. Gift receipts are \$116 million versus \$113 million; net pledges are \$20 million versus \$28 million; and the bequests expectancies of \$33 million versus \$35 million. The Development Report is also on the consent agenda for Board approval.

That concludes the Investments Committee report.

Dr. Cloyd:

Thank you, Dimon. Any questions? Next is the Audit Committee report from Mr. Schottenstein.

Mr. Schottenstein:

Thank you, Mr. Chairman. The Audit Committee met yesterday afternoon and there were five items on the agenda. First we reviewed, as we do annually, the Internal Audit Work Plan for the coming year and also the work plan for the external auditors.

We then received a very detailed and thorough report from Provost Snyder dealing with the security breach which occurred with the intrusion into our computerized records. The Audit Committee was very pleased with what has transpired since the hacking occurred. At this time, all of the internal recommendations from our own internal workgroup are being implemented in what appears to be a very effective way. The outside consultant, Cybertrust, was brought in to help us understand what happened and is also charged with recommending what can be done to prevent this from happening again. Cybertrust's work is proceeding in an orderly fashion.

We next received a report -- which began recently at the request of the Audit Committee, and also Mr. Shkurti and this Board -- on an assessment into our enterprise risk management. A committee has been formed which will be assessing various aspects of the University system and understanding the risk associated with each. The operational audit -- which we heard about at the last Board meeting being undertaken by PricewaterhouseCoopers -- will have some impact on this study of enterprise risk management as they look at the way in which decisions are made and look at the various operational controls we have. There is some overlap, but we are very happy that this project is underway.

Finally, we heard two reports from Mr. Shkurti. The first was the Proctor Report, which Mr. McFerson just referred to. Related to that is the idea that as the Proctor Report comes forward with recommendations on policies, practices, and procedures that need to be implemented in the Treasurer's Office, we will, from the internal audit standpoint, be testing those and hearing about those from time to time. Then he reviewed with us the follow-up to some of the principle recommendations from the Deloitte Management Letter. In all matters we are making progress.

That concludes my report.

May 31 and June 1, 2007 meeting, Board of Trustees

Mr. Wexner:

Bob, I don't know whether you know, but the Board should know, that Dean Alutto has recruited two companies that have made their IT leads: 1) Nationwide; and 2) another company that is recruiting chief IT officers from major organizations, to be the consulting group that oversees the IT function. So that when you are looking at the IT audit, you should be aware of that. I think that is a very good practice.

Mr. McFerson:

That is an advisory group?

Mr. Wexner:

Yes. You can think about that in other functions.

Dr. Cloyd:

Thank you. We will now hear the Fiscal Affairs Committee report by Ms. Hendricks.

Ms. Hendricks:

The Fiscal Affairs Committee met this morning. We first heard a report from Melissa Bellini on the Quarterly Capital Projects and then a first reading on a long-term lease. The Department of Athletics has proposed a long-term, 40-year lease, with a 40-year renewal, with the City of Columbus of a Crew Boathouse facility for the women's crewing team at Briggs Reservoir on the Scioto River, with the rent not to exceed \$3.3 million.

The Committee is also recommending for Board approval items #10 through #15 on the consent agenda. The first resolution is the authorization to enter into five construction contracts, four design contracts, and one joint use agreement, and these are all outlined in your Board books. The second resolution is the approval of four easements. The third resolution is for a long-term ground lease renewal with the Creative Living Housing Corporation for housing disabled students on West 10th Avenue. This will be a 25-year lease, with a 25-year renewal. By taking on this amount, it will allow them to do some improvements to the facilities that are needed.

The fourth resolution is the receipt of a gift of real property given to ATI. The property is Hawk's Nest Golf Course, an 18-hole course, near ATI in Wooster. This is an outright gift, a change from previous discussions, valued at \$4.1 million, with an additional \$500,000 of building and equipment to go with it. This provides a learning opportunity for ATI students, with 50 different courses and approximately 40% of students having access to the golf course for hands-on laboratory and clinical experience. For example, students taking classes in landscape horticulture, turf science, and ground management will be able to have access to this golf course since it is very close to ATI. There are no restrictions on the use of this property as a golf course, so in the case that ATI sees that the learning lab that it creates does not justify running a golf course, they can make the changes as they see necessary. We agreed that this would be monitored closely, so we are ensured that the balance of the benefits versus possible risks would be dealt with.

We looked at the 2008 Funds Budget and are awaiting decisions from the Ohio Legislature to act with regard to tuition. Therefore we would not be looking at tuition today, but expect a recommendation by the July Board

May 31 and June 1, 2007 meeting, Board of Trustees

meeting. However, we did discuss mandatory user fees and these are fees from units that are designed to be self-supporting such as student health insurance, recreation fees, and COTA bus passes. We also looked at non-mandatory fees such as residence halls, parking, and football and basketball tickets -- things that are optional depending on the student.

We also discussed fees related to the OSU Health System -- we are looking at weighted averaging increases of 7.6% in prices and contractually-agreed rate increases. In addition, we looked at the supplemental instructional fees that apply to students for technology areas or field practicum or clinicals or other undergraduate requirements. We also noted that there were new supplemental instruction fees in two colleges: the College of Engineering and the College of Social Work. We will be voting on the mandatory and non-mandatory fees today.

We authorized the administration to make expenditures in Fiscal Year 2008 until the Fiscal Year 2008 operating budget is finalized and this is consistent with the level of resources that we have approved for Fiscal Year 2007. We expect to adopt the general funds budget for Fiscal Year 2008 at the July Board meeting and the current funds budget for Fiscal Year 2008 at the September Board meeting. This is also very consistent with what we have done in the past.

That concludes my report.

Dr. Cloyd:

Thank you, Karen. Any questions or comments? We will now have the report from the Academic and Student Affairs Committee. Mr. Borrer --

Mr. Borrer:

Thank you, Mr. Chairman. First we started yesterday afternoon with a tour of student housing with Vice President Hollingsworth and his staff. We got a complete look at the current student housing inventory. We called this trip, "The Good, the Bad, and the Ugly," and we got to see some new and very nice dorms, some remodeled dorms, and some others. I don't know whether Rich planned it this way or not, but it was the hottest day of the year so far and we are now aware of how many dorms are not air conditioned. All joking aside, they have a very complete plan on expenditures and renovations, and are looking forward to completing that. We are hoping that we can find ways to financially and potentially accelerate that.

This morning in the Academic and Student Affairs Committee meeting we heard from Vice Provost Martha Garland and Associate Provost Linda Harlow on the Denman Undergraduate Research Forum. As always, this was a great presentation.

The Denman Undergraduate Research Forum was established in 1996 and this year over 350 students participated in the forum, which was held at the French Field House. Each student does a research project, which is judged by over 200 faculty, corporate and industry judges. It was an amazing day, with 44 winners this year. As always, we heard presentations today from three students and each one was diverse, varied, and very detailed. When you get done listening to these students, you find it hard to believe that they are indeed still undergraduates.

Finally we heard a follow-up report on the creation of a Center for Financial Life and Research, from USG president Kate Christobek, Jonathan Fox,

May 31 and June 1, 2007 meeting, Board of Trustees

associate professor in the Department of Consumer Sciences, and Kate Seguin, coordinator of Financial Wellness. They are working together to try to get increasing help for students to manage their finances while going through school. This is an ongoing effort and one that will be reported back to the Board going forward.

Finally, we have four items for the consent agenda: 1) a reduction in the number of credit hours required for graduation. This has been a major issue that our Committee has worked on the last four years and I am honored and pleased to have been on the Committee during this time and that we got that done. President Holbrook, you deserve a lot of credit along with Provost Snyder and I am glad that got done while you are both still here; 2) the naming of a building; 3) amendments to the *Rules of the University Faculty*; and 4) routine personnel actions.

That concludes my report, Mr. Chairman.

Dr. Cloyd:

Thank you, Doug. Any questions or comments?

--0--

FAREWELL TO BARBARA SNYDER

Dr. Cloyd:

As you all know, this is Barbara Snyder's last Board meeting with us and she has provided extraordinary leadership to Ohio State University for a number of years. She first served as a professor in the Moritz College of Law -- and to her credit she continues to be a professor and that is one of the signs of a great academician -- before moving on to associate dean for Academic Affairs. After leaving the Moritz College of Law, she moved into central administration in 2001, where she was appointed vice provost for Academic Policy and Faculty Resources. She served for seven months as interim vice president for University Relations before being named interim executive vice president and provost in 2003, and then permanently named to that position in 2004.

Barbara, you are known for your unbelievable energy. It is not only constant physical motion, but it is constant intellectual motion and that is where this University has benefited so greatly. You really do take a pioneering spirit to academics, constantly improving and stretching our approaches to education. You take on tough challenges that many people would shy away from and you have an excellent collaborative way to move things to completion. The presentation we just heard on the GEC is a good example of that. You have put in place an excellent program that Dean Osmer outlined at the last Board meeting on how we will approach and enhance our graduate education, and the conception and implementation of the Targeted Investments in Excellence. I could go on and on. Great universities require great faculty and great faculty require great leadership by their academic officer, and we have certainly been blessed with that here at Ohio State.

As you move on to the northern lands to assume the presidency of Case Western Reserve University, you leave here with heartfelt thanks from everyone on this Board. You have touched many lives here and you will touch many more. As an Ohioan, I am simply glad you are going to stay in the state of Ohio. Congratulations and thank you.

May 31 and June 1, 2007 meeting, Board of Trustees

Provost Barbara R. Snyder:

Thank you, Mr. Chairman. I would just like to say what a privilege it has been to serve Ohio State for the last 19 years and to say a special thank you to President Holbrook who believed in me and gave me this amazing opportunity. Thank you very much.

--0--

CONSENT AGENDA

President Karen A. Holbrook:

We currently have fifteen resolutions on the Consent Agenda today and would like to hold separate votes for #5 – Honorary Degrees – and #11 – Easements. We are seeking your approval for:

REGIONAL CAMPUS BOARDS APPOINTMENT/REAPPOINTMENTS

Resolution No. 2007-143

Synopsis: Approval of appointment/reappointments to The Ohio State University Regional Campus Boards is proposed.

WHEREAS the Board of Trustees in 1994 approved the establishment of The Ohio State University Regional Campus Boards; and

WHEREAS it has been previously stipulated that “the board shall be composed of ten members appointed by The Ohio State University Board of Trustees in consultation with the president of the university;” nine members shall be private citizens; and one member shall be a student; and

WHEREAS the following named persons have been nominated and selected for appointment/reappointments to the following Regional Campus Boards for the terms as specified:

Lima Board Reappointments

Ronald E. Hadley, 3rd term, July 1, 2007 – June 30, 2010
Grace Schulte, 3rd term, July 1, 2007 – June 30, 2010

Marion Board Appointment/Reappointments

Stephen D. Keen, 1st term, September 13, 2007 – June 30, 2009
Douglas W. Brown, 3rd term, July 1, 2007 – June 30, 2010
Janet P. Pry, 3rd term, July 1, 2007 – June 30, 2010

Newark Board Reappointments

Robert Coffman, 3rd term, July 1, 2007 – June 30, 2010
Richard L. Gummer, 3rd term, July 1, 2007 – June 30, 2010
Robert H. McGaughy, 3rd term, July 1, 2007 – June 30, 2010
Joshua L. Maccombs (student), 2nd term, July 1, 2007 – June 30, 2008

NOW THEREFORE

BE IT RESOLVED, That the foregoing nominees be approved as members of the respective Regional Campus Boards for the terms specified.

REDUCTION IN CREDIT HOURS FOR GRADUATION

Resolution No. 2007-144

Synopsis: Recommendation to reduce the minimum number of credit hours required for graduation from 191 to 181 hours, with no more than 5 credit hours being removed from a college's general education curriculum, is proposed.

WHEREAS in October 2005, the University-wide Committee for the Review of Undergraduate Education recommended a reduction in the minimum number of credit hours required for graduation from 191 to 180 hours, to align the University with many of its peers nationally; and

WHEREAS subsequently, the University community, from the department/school, to college, to institutional levels, has engaged in a detailed discussion of this and related proposals; and

WHEREAS at its meeting on February 28, 2007, the Faculty Senate of the Colleges of the Arts and Sciences, in response to recommendations from its Committee on Curriculum and Instruction, approved a proposal to reduce the minimum number of credit hours for the Bachelor of Arts and the Bachelor of Science degrees from 191 to 181 hours; and

WHEREAS that change was achieved through a 5-hour reduction in the "breadth" categories (natural sciences, social sciences, arts and humanities) of the general education curriculum, combined with a 5-hour reduction in electives of the major programs; and

WHEREAS the Council on Academic Affairs requested that all other colleges with undergraduate tagged degrees review their curricula and if possible propose a commensurate 10-hour reduction in credit hours to graduate, with no more than 5 hours from the general education curriculum; and

WHEREAS at its meetings, the Council on Academic Affairs reviewed the proposals from the Colleges of the Arts and Sciences and the other colleges with undergraduate tagged degrees; and

WHEREAS the proposal to reduce the minimum number of credit hours required for graduation from 191 to 181 hours, with no more than 5 credit hours being removed from a college's general education curriculum was endorsed by the Faculty Council, the University Senate Steering Committee, the Council on Academic Affairs and the University Senate at its May 10, 2007 meeting:

NOW THEREFORE

BE IT RESOLVED, That the proposal as stated above be approved effective immediately.

NAMING OF BUILDING

Resolution No. 2007-145

Synopsis: The naming of the Early Childhood Development Center at Weinland Park, located at 175 East Seventh Avenue, as The Schoenbaum Family Center, is proposed.

WHEREAS The Ohio State University is building this early childhood center to serve as a teacher training facility, research center, and early childhood center to benefit the children of Weinland Park; and

May 31 and June 1, 2007 meeting, Board of Trustees

WHEREAS Betty Schoenbaum is president and trustee of the Schoenbaum Family Foundation Inc., which grants funds to numerous charitable and civic organizations with major support at The Ohio State University, including a \$2.5 million lead gift for the early childhood center; and

WHEREAS Betty Schoenbaum is a strong supporter of community and educational causes worldwide, serving on the boards of the Sarasota-Manatee Jewish Federation, the Jewish Community Foundation, the American Jewish Committee, the Florida West Coast Symphony, and the Women's Resource Center; and

WHEREAS she is honorary chair of the Women's Initiative of the United Way of Sarasota County and a member of The Critical Difference for Women Program National Network; and

WHEREAS Betty Schoenbaum has a deep commitment to philanthropic efforts in education and with The Ohio State University, including currently serving on The Ohio State University Foundation Board and past service as a member of the National Campaign Executive Committee of the OSU's Affirm Thy Friendship Campaign; and

WHEREAS Betty Schoenbaum also received Ohio State's prestigious Everett D. Reese Medal in 2002, an honorary doctoral degree in business from Ohio State in 2001, and an honorary doctorate in humanities in 1999 from the University of Charleston (West Virginia):

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees hereby approves that the early childhood center at Weinland Park be named "The Schoenbaum Family Center," effective immediately

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 2007-146

Synopsis: Approval of the following amendments to the *Rules of the University Faculty* are recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the *Rules of the University Faculty* as approved by the University Senate; and

WHEREAS the proposed changes in the *Rules of the University Faculty* were approved by the University Senate on May 10, 2007:

Amended Rules

3335-7-02 Titles.

The term "regular clinical track faculty" ~~will exist solely~~ exists for the purpose of recording this type of appointment in the university's employment system data base.

~~Individual~~ If individual colleges, schools, and departments with regular clinical track faculty ~~may wish to provide them~~ clinical faculty with faculty-rank titles, ~~that are then whatever title is used must be~~ distinct from tenure-track titles ~~and are~~

May 31 and June 1, 2007 meeting, Board of Trustees

~~descriptive of the functions regular clinical track faculty perform in that college (see paragraph (A) of rule 3335-5-19 of the Administrative Code).~~ Examples include, but are not limited to, professor of clinical (name of college, school, or department) and associate professor of professional practice. (B/T 7/12/2002, B/T 6/4/2004)

3335-7-04 Proposals and approval process.

- (A) Proposals to establish or amend a regular clinical faculty track in a college or school reporting directly to Office of Academic Affairs (OAA) must be submitted to the provost by the dean of the college or director of the school reporting directly to OAA. Proposals must include a clear rationale for establishing a regular clinical faculty track and address how the terms and conditions of the appointments will be consistent with the rules set forth in Chapter 3335-7 of the Administrative Code, what titles will be given to regular clinical track faculty, and what department and college governance rights will be extended to regular clinical track faculty. Regular clinical track faculty may not participate in the promotion and tenure reviews of tenure-track faculty. In addition, proposals must include the following components:

(1) through (3) unchanged.

- (B) ~~College proposals~~ With the exception of changes to existing titles, proposals from a college or school reporting directly to OAA to establish or amend a regular clinical faculty track must be approved by a majority of the tenure-track faculty of the college or school reporting directly to OAA proposing to have a regular clinical faculty track, by the dean of the college or director of the school reporting directly to OAA, by the executive vice president and provost, by the university senate, and by the board of trustees. The executive vice president and provost will transmit all proposals to the council on academic affairs, which will review proposals and make a recommendation to the university senate. Title changes must be consistent with rule 3335-7-02 of the Administrative Code, but need only be approved by a majority of the regular tenure track faculty and dean of the college or director of the school reporting directly to OAA proposing the amendment.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the *Rules of the University Faculty* be adopted as recommended by the University Senate.

DEGREES AND CERTIFICATES – SPRING QUARTER COMMENCEMENT

Resolution No. 2007-147

Synopsis: Approval of Degrees and Certificates for Spring Quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

May 31 and June 1, 2007 meeting, Board of Trustees

BE IT RESOLVED, That the degrees and certificates be conferred on June 10, 2007, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

PERSONNEL ACTIONS

Resolution No. 2007-148

WHEREAS, a public notice and hearing is required per Ohio Revised Code section 3307.353 regarding retirement and rehire actions contemplated for specified leadership positions; and

WHEREAS David O. Frantz, Secretary to the Board of Trustees, has announced his intention to enter retirement status and therefore initiate retirement benefits from State Teachers Retirement System, and subsequently return to his university position as a returning retiree:

NOW THEREFORE

BE IT RESOLVED, That a public hearing is hereby scheduled for anyone who wishes to comment on this employment action, to occur on Friday, July 6, 2007, at 10:00 a.m., in Room 200 Bricker Hall. A University official will preside over the hearing; and

BE IT FURTHER RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the May 4, 2007 meeting of the Board, including the following Appointments, Concurrent Appointment, Reappointment, Leaves of Absence Without Salary, Professional Improvement Leaves, and Emeritus Titles, be approved.

Appointments

Name: GERALD S. FRANKEL
Title: Professor (The Det Norske Veritas (DNV) Designated Chair in Materials Science and Engineering)
Department: Materials Science and Engineering
Effective: July 1, 2007 through June 30, 2010

Name: AVNER FRIEDMAN
Title: Distinguished University Professor
Department: Mathematics
Effective: June 1, 2007

Name: N. GEOFFREY PARKER
Title: Distinguished University Professor
Department: History
Effective: June 1, 2007
Concurrent Title: The Andreas Dorpalen Designated Professorship in European History

Name: ELIZABETH O. SEELY
Title: Executive Director
Hospital/Institute: Ohio State University Hospitals East
Effective: May 1, 2007

May 31 and June 1, 2007 meeting, Board of Trustees

Concurrent Appointment

Name: WILLIAM A. BAESLACK III
Title: Interim Executive Dean for the Professional Colleges
Term: July 1, 2007 through June 30, 2008
Concurrent Title: Dean, College of Engineering

Reappointment

Name: JAY L. ZWEIER
Title: Director
Department: Davis Heart and Lung Research Institute
Effective: July 1, 2007 through June 30, 2008

Leave of Absence Without Salary

BERYL A. MILLER, Professor, Department of Dance, effective Autumn Quarter 2007, to work as artistic director of Bebe Miller Co.

CHADWICK ALLEN, Associate Professor, Department of English, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to accept a Visiting Professorship in the Department of English, University of Oregon, Eugene, Oregon.

TIEN-HSIEN CHANG, Associate Professor, Department of Molecular Genetics, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to accept the position as Research Vice Director at Cheng Technology Corporation, Taiwan.

GREGOR G. HOMAN, Assistant Professor, Ohio State University Extension, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to accept a Visiting Professorship at Wright State University, Lake Campus, Celina, Ohio.

Professional Improvement Leaves

NOEL A. CRESSIE, Professor, Department of Statistics, effective Autumn Quarter 2007 and Winter Quarter 2008.

BORIS S. MITYAGIN, Professor, Department of Mathematics, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

ELENA G. IRWIN, Associate Professor, Department of Agricultural, Environmental and Development Economics, effective Autumn Quarter 2007 and Winter Quarter 2008.

BRIAN E. ROE, Associate Professor, Department of Agricultural, Environmental and Development Economics, effective Autumn Quarter 2007 and Winter Quarter 2008.

MATTHEW R. SALTZMAN, Associate Professor, School of Earth Sciences, effective Autumn Quarter 2007 and Winter Quarter 2008.

SANDRA J. TANENBAUM, Associate Professor, College of Public Health, effective Autumn Quarter 2007 and Winter Quarter 2008.

SHARON C. WEST, Associate Professor, School of Communication, effective Winter Quarter and Spring Quarter 2008.

May 31 and June 1, 2007 meeting, Board of Trustees

Professional Improvement Leaves — Change in Dates

NEIL G. JACOBS, Professor, Department of Germanic Languages and Literatures, change leave from Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to Winter Quarter and Spring Quarter 2008.

CATHY A. RAKOWSKI, Associate Professor, Department of Human and Community Resource Development change leave from Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to Winter Quarter and Spring Quarter 2008.

CHRISTOPHER A. REED, Associate Professor, Department of History, change leave from Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to Winter Quarter and Spring Quarter 2008.

Emeritus Titles

WILLIAM L. BERRY, Department of Management Sciences, with the title Professor Emeritus, effective July 1, 2007.

JOSEPH F. DASTA, College of Pharmacy, with the title Professor Emeritus, effective July 1, 2007.

BURK A. DEHORITY, Department of Animal Sciences, with the title Professor Emeritus, effective June 1, 2007.

LEE A. HEBERT, Department of Internal Medicine (Nephrology), with the title Professor Emeritus, effective July 1, 2007.

KEITH M. KILTY, College of Social Work, with the title Professor Emeritus, effective July 1, 2007.

MELVIN L. MOESCHBERGER, College of Public Health, with the title Professor Emeritus, effective October 1, 2007.

JUDITH E. WELKER, Ohio State University Extension, with the title Assistant Professor Emeritus, effective June 1, 2007.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2007-149

Synopsis: The University Development Report for April 2007 is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The Det Norske Veritas (DNV) Designated Chair in Materials Science and Engineering; and

WHEREAS this report includes the establishment of seventeen (17) new named endowed funds and the revision of two (2) endowed funds:

NOW THEREFORE

May 31 and June 1, 2007 meeting, Board of Trustees

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of April 2007 be approved.

Total	\$2,407,308.50

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Endowed Funds

The William H. Davis, Dorothy M. Davis, and William C. Davis Foundation
Research Endowment Fund in Cardiovascular and Pulmonary Medicine

The William H. Davis, Dorothy M. Davis, and William C. Davis Foundation Research Endowment Fund in Cardiovascular and Pulmonary Medicine at The Dorothy M. Davis Heart and Lung Research Institute (DHLRI) was established June 1, 2007, by the Board of Trustees of The Ohio State University, with discretionary funds from the DHLRI, the College of Medicine, and the Office of Health Sciences.

The annual distribution from this fund shall provide annual support for faculty members in the fields of cardiovascular or pulmonary medicine within The Dorothy M. Davis Heart and Lung Research Institute at The Ohio State University. The number of annual awards distributed and the selection of the recipients will be recommended by the director of the DHLRI in consultation with the director's executive cabinet, and approval of the dean of the College of Medicine and of the senior vice president for Health Sciences. The activities of the recipients will be reviewed no less than annually by the director of DHLRI and the director's executive cabinet to determine compliance with the intent of the endowment.

Research activities to be supported shall include salary, research personnel, equipment, supplies, and other necessary expenses of an active researcher. Each recipient will decide how to utilize this support with the approval of the director of The Dorothy M. Davis Heart and Lung Research Institute.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

This fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the senior vice president for Health Sciences and the dean of the College of Medicine in consultation with the director of The Dorothy M. Davis Heart and Lung Research Institute. Any such alternate distributions shall be made in a

May 31 and June 1, 2007 meeting, Board of Trustees

manner as nearly aligned with the original intent as good conscience and need dictate.

Amount Establishing Endowment: \$1,500,000.00

The College of Food, Agricultural, and Environmental Sciences Study Abroad Fund

The College of Food, Agricultural, and Environmental Sciences Study Abroad Fund was established June 1, 2007, by the Board of Trustees of The Ohio State University with gifts from the Southard Foundation and family and friends of the College in honor of Dorothy Southard.

The annual distribution from this fund shall be used to support the College of Food, Agricultural, and Environmental Sciences (FAES) undergraduate students participating in FAES-approved study abroad programs. Uses shall include, but not be exclusively for: transportation, books, fees, and tuition. The use of the fund shall be directed by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$45,320.00 (grandfathered)

Change in Description of Named Endowed Fund

The Gwen H. Kagey Endowed Scholarship Fund

The Gwen H. Kagey Endowed Scholarship Fund was established October 6, 1995, by the Board of Trustees of The Ohio State University with gifts from the estate of Gwen H. Kagey (B.A. Theater, 1975). Gwen was a faculty member in the Department of Dance and was a frequent visitor to the College of Humanities office. The description was revised June 1, 2007.

The annual distribution from this fund shall be used to provide support for undergraduate or graduate-level students in the Department of African-American and African Studies to attend conferences, workshops, study abroad programs, and other activities as approved by the dean of the College of Humanities in consultation with the chairperson of the Department of African-American and African Studies.

May 31 and June 1, 2007 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Humanities in conjunction with the chairperson of the Department of African-American and African Studies. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

THE OHIO STATE UNIVERSITY FOUNDATION

Establishment of Named Designated Chair

The Det Norske Veritas (DNV) Designated Chair in Materials Science and Engineering

The Det Norske Veritas (DNV) Designated Chair in Materials Science and Engineering was established June 1, 2007, by the Board of Trustees of The Ohio State University with funds from a gift to The Ohio State University Foundation from DNV Research and Innovation. The generosity of DNV Research and Innovation is recognized and appreciated.

Funds from the gift will support studies by the designated chair in the area of corrosion on topics of interest and importance to DNV.

Appointment for a three-year term will be recommended by the dean of the College of Engineering to the executive vice president and provost, and the Board of Trustees for their final approval. The chair holder may be reappointed to another term following favorable assessment of the holder's academic and research performance, and accomplishments, during an appointment, and subject to the availability of funding.

Yearly Funding Amount:	\$120,000.00
Total Commitment:	\$360,000.00

The D.A. Dickey Scholarship in Engineering Fund

The D.A. Dickey Scholarship in Engineering Fund was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with the residual of a unitrust from Ms. Jean E. Dickey (B.S., 1944) in memory of her late father, D.A. Dickey (B.E.E., 1916).

The annual distribution from this fund shall be used by the dean of the College of Engineering to provide merit scholarships to deserving undergraduates in the College. Students selected as D.A. Dickey Scholars will be eligible for renewal pending a review of their academic progress. The dean will be responsible for administering these scholarships in cooperation with the Office of Student Financial Aid.

May 31 and June 1, 2007 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$252,418.96

James Homer Robinson Jr. Endowment Fund

The James Homer Robinson Jr. Endowment Fund was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with unrestricted gifts from the estate of Ruth "Virginia" Robinson in memory of her son, James Homer Robinson Jr.

The annual distribution from this fund shall be used by the University for general purposes at the discretion of the president and the senior vice president for Business and Finance.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the president and by the senior vice president of Business and Finance of the Ohio State University Foundation. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$81,102.65

The American Council of the Blind of Ohio Scholarship Fund

The American Council of the Blind of Ohio Scholarship Fund was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the American Council of the Blind of Ohio (ACB-Ohio) of Columbus, Ohio.

The annual distribution from this fund shall provide scholarships for existing undergraduate or graduate students who have a minimum 3.0 grade point average. It is the donor's desire that qualified students demonstrate their enrollment in an academic major or program through which they are studying to be educators for children who are visually impaired. If such an applicant does not exist in a current academic year then it is the donor's desire that visually impaired students may become eligible for this scholarship. It is the donor's

May 31 and June 1, 2007 meeting, Board of Trustees

preference that qualified students be residents of Ohio. Qualified students may be enrolled as full-time or part-time students and at either the main campus or a regional campus.

The scholarship shall be distributed equally over three quarters of the academic school year for expenses such as the cost of tuition, room and board, books, an educational stipend, and miscellaneous educational expenses above the recipient's federal, state, and additional grant and financial aid awards. It is the donor's desire that the scholarships be awarded in the minimum amount of \$2,000 each. Renewability is contingent on the recipients' reapplication to be considered in a competitive and annual selection process.

The Office of Student Financial Aid will administer this scholarship fund in consultation with the College of Education and Human Ecology, the Office of Disability Services, and the ACB-Ohio. Any unused annual distribution shall be reinvested to the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

The donor desires that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Office of Student Financial Aid in consultation with the donor. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,100.00

The 86/61 Athletic Scholarship Fund

The 86/61 Athletic Scholarship Fund was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Gary J. Marcinick (B.S.Bus.Adm., 1986) and Richard M. Nash.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the varsity football team. The recipient will be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as

May 31 and June 1, 2007 meeting, Board of Trustees

nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment:	\$50,000.00
Total Commitment:	\$100,000.00

The Heffner Scholarship Fund in Medicine

The Heffner Scholarship Fund in Medicine was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from The Heffner Fund of Columbus, Ohio.

The annual distribution from this fund shall be used to provide one or more scholarships to medical students in the College of Medicine based on financial need, with preference given to students who have served in leadership roles that called upon their abilities to lead an organization in innovative ways, propelling the organization to excellence. The selection shall be made by the recommendation of the dean of the College of Medicine in consultation with the senior vice president for Health Sciences and with the College of Medicine Committee for Scholarship Awards and the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Medicine and by the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment:	\$50,000.00
--------------------------------	-------------

Thomas J. Byers Memorial Scholarship Fund

The Thomas J. Byers Memorial Scholarship Fund was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from family, friends, and colleagues in memory of Dr. Thomas Jones Byers. This is a fitting tribute to the memory of Professor Byers, who was renowned for his concern for students and his tireless efforts on their behalf.

The annual distribution from this fund shall provide scholarship support for students in the Department of Molecular Genetics in the College of Biological Sciences. Scholarship recipients shall be selected by the dean of the College of Biological Sciences in consultation with the chairperson of the Department of Molecular Genetics and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be

May 31 and June 1, 2007 meeting, Board of Trustees

assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Biological Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$27,940.00 (grandfathered)

David L. Kahler Power Equipment Endowed Scholarship Fund

The David L. Kahler Power Equipment Endowed Scholarship Fund was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from David L. (B.S., 1969) and Linda Kahler, members of their family, and others.

The annual distribution from this fund shall be divided equally between scholarships in the Department of Food, Agricultural, and Biological Engineering and the Agricultural Technical Institute (ATI). Scholarships in the Department of Food, Agricultural, and Biological Engineering shall be awarded to undergraduates with the first priority for students interested in a career in power equipment. Recipients will be selected by the chairperson of the Department of Food, Agricultural, and Biological Engineering, the Undergraduate Scholarship Committee, and the Office of Student Financial Aid. Scholarships at ATI shall be awarded to students in the power equipment technology program, specifically for incoming freshmen as an enticement for them to enroll at ATI. Recipients will be selected by the director of the Agricultural Technical Institute, the scholarship committee, and the coordinator of Financial Aid at ATI in consultation with the Office of Student Financial Aid.

Should scholarships in the areas designated above not be needed, the donor prefers that the distribution be used for programs in the Department of Food, Agricultural, and Biological Engineering or other programs at ATI as designated by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences or his/her successor in consultation with the chairperson of the Department of Food, Agricultural, and Biological Engineering as well as the director of the Agricultural Technical Institute in Wooster.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation

May 31 and June 1, 2007 meeting, Board of Trustees

Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$27,623.00 (grandfathered)

Catherine Elizabeth Woods Dance Scholarship Fund

The Catherine Elizabeth Woods Dance Scholarship Fund was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts in Catherine's memory from friends and family.

Catherine grew up surrounded by music and dance became her life's passion. By age three she was studying dance; her dedication to dance and her talent grew through the years. Catherine dreamed of becoming a professional dancer; after graduating from high school, she moved to New York City to pursue her dream. In New York, she continued her diligent study of dance, took vocal lessons, trained faithfully, and attended auditions relentlessly. Her family wishes to honor her memory and continue her dedication to dance by establishing this endowment to assist others in their pursuit of dance careers.

The annual distribution from this fund shall be used to provide scholarship support to an outstanding undergraduate or graduate student enrolled in the College of the Arts, Department of Dance, majoring in dance with aspirations of becoming a professional dancer. Scholarship recipients shall be selected by the chairperson of the Department of Dance in consultation with the dean of the College of the Arts and the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of the Arts. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$27,535.00 (grandfathered)

James D. Brown Endowed Fund in Athletics

The James D. Brown Endowed Fund in Athletics was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from an anonymous donor. In the future, other donors who wish to support the golf program may give to this fund.

May 31 and June 1, 2007 meeting, Board of Trustees

The annual distribution from this fund shall be for unrestricted use by the varsity golf coaches in the Department of Athletics with approval from the director of Athletics or his/her designee.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment:	\$25,214.81 (grandfathered)
Total Commitment:	\$50,000.00

Lynda J. Heyl and Lester Barnhart Fund for Excellence

The Lynda J. Heyl and Lester Barnhart Fund for Excellence was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Lynda J. Heyl and Lester E. Barnhart.

The annual distribution shall be added to the principal until the fund's market value reaches \$50,000, after which 80% of the annual distribution shall be used to provide financial aid to one or more worthy full-time students on the Columbus campus without regard to financial need who are residents of Madison County, Ohio, but who may have attended a high school outside Madison County. Candidates must demonstrate exemplary commitment to leadership and service to the campus community while attending The Ohio State University; the award is renewable for recipients who meet this criteria. Recipients shall be selected by the Office of Student Financial Aid.

Twenty percent (20%) of the annual distribution shall be returned to the principal annually. In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment:	\$25,054.08 (grandfathered)
--------------------------------	-----------------------------

May 31 and June 1, 2007 meeting, Board of Trustees

The Ronald Hodges MD and Paula Kimpton Hodges Scholarship Fund in Medicine

The Ronald Hodges MD and Paula Kimpton Hodges Scholarship Fund in Medicine was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Dr. Ronald Hodges (B.S., 1968; M.D., 1972) and Paula Kimpton Hodges, R.N., M.S.N., F.N.P., of Danville, Virginia.

The annual distribution from this fund shall be used to provide one or more scholarships to medical students in the College of Medicine based on academic merit and/or financial need. The selection shall be made by the recommendation of the senior vice president for Health Sciences and dean of the College of Medicine in consultation with the College of Medicine Committee for Scholarship Awards and with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Junk Family Endowed Scholarship Fund

The Junk Family Endowed Scholarship Fund was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Gary Junk (B.S.Agr., 1970; D.V.M., 1975) of Washington Courthouse, Ohio.

The annual distribution from this fund shall provide scholarship support for one outstanding student in the College of Veterinary Medicine, with first preference going to a student from Fayette County, Ohio. Recipients will be selected by the dean of the College of Veterinary Medicine in consultation with the Office of Student Financial Aid and the associate dean for Student Affairs.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of

May 31 and June 1, 2007 meeting, Board of Trustees

the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The David and Ellen Stafman Scholarship Fund

The David and Ellen Stafman Scholarship Fund was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from David (B.S.Bus.Adm., 1979) and Ellen Stafman of Deerfield, Illinois.

The annual distribution from this fund shall provide need-based scholarship support to an undergraduate student(s) in The Max M. Fisher College of Business with preference given to out-of-state students. Selection of the recipient(s) shall be made by the director of the Undergraduate Programs Office in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The William S. Stinson Jr. Scholarship Endowment Fund

The William S. Stinson Jr. Scholarship Endowment Fund was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. William S. Stinson Jr. (B.S., 1961; M.S., Horticulture 1964; Ph.D., 1966) of Lakeland, Florida.

The annual distribution from this fund shall be used to support scholarships for undergraduate and/or graduate students enrolled in the Department of Food Science and Technology in the College of Food, Agricultural, and Environmental Sciences. Scholarship recipients will be selected by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

May 31 and June 1, 2007 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Ralph C. Tyler Memorial Engineering Scholarship Fund

The Ralph C. Tyler Memorial Engineering Scholarship Fund was established June 1, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation in memory of Ralph C. Tyler, P.E., P.S. (B.C.E., 1948), with gifts from family, friends, and the employees of the Ralph Tyler Companies of Cleveland, Ohio.

The annual distribution from this fund shall be used to support educational diversity at the University consistent with the University's mission and admissions policy. It is the donors' desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to African-American students who have been accepted for admissions at the University and are majoring in engineering. Additional preference will be given to civil engineering majors and graduates of Cleveland, Ohio, area high schools. Renewal will depend upon suitable progress towards a bachelor of science degree in an engineering field. The award recipients shall be chosen by the dean of the College of Engineering in consultation with College's Minority Engineering Office and the Office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by dean of the College of Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

Change in Name and Description of Named Endowed Fund

The Forest and Karen Muir OARDC Innovation Fund

The Ohio Agricultural Research and Development Center Innovation Fund was established March 1, 2002, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Forest (Ph.D., 1967) and Karen Muir of Wooster, Ohio. The name and description were revised June 1, 2007.

May 31 and June 1, 2007 meeting, Board of Trustees

The annual distribution from this fund shall be used by the director of the Ohio Agricultural Research and Development Center to enhance and foster innovative concepts and visions that impact and advance excellence in agriculture. Unused distribution shall be reinvested in the principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Ohio Agricultural Research and Development Center. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

**APPOINTMENT OF INVESTMENT MANAGERS AND
REALLOCATION OF FUNDS**

Resolution No. 2007-150

Synopsis: Approval of the Appointment of Investment Managers and reallocation of funds is proposed.

WHEREAS it is the policy of The Ohio State University to utilize the service of external Investment Managers to assist in the management of the University's Endowment Fund; and

WHEREAS the Investments Committee of the Board of Trustees periodically reviews the results obtained by the external Investment Managers and the amount of funds assigned to each of them; and

WHEREAS it is prudent practice to reallocate funds assigned to external Investment Managers as conditions change; and

WHEREAS the number of external Investment Managers and the amount of funds assigned to them shall be determined by the Board of Trustees; and

WHEREAS the Board of Trustees last approved the Appointment of Investment Managers on April 6, 2007:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Investments Committee of the Board of Trustees the following changes shall be made:

**APPROVAL TO ENTER INTO DESIGN AND CONSTRUCTION
CONTRACTS AND TO ENTER INTO A JOINT USE AGREEMENT**

Resolution No. 2007-151

APPROVAL TO ENTER INTO DESIGN CONTRACTS
JOURNALISM BUILDING AND DERBY HALL - RENOVATION
POSTLE HALL – DEAN'S OFFICE RENOVATION
RHODES HALL – 10TH AND 11TH FLOOR EPILEPSY MONITORING UNIT
UNIVERSITY HOSPITALS – EMERGENCY DEPARTMENT EXPANSION

May 31 and June 1, 2007 meeting, Board of Trustees

APPROVAL TO ENTER INTO CONSTRUCTION CONTRACTS

LIMA CAMPUS – AGRICULTURAL BUILDING ADDITION
MORRILL TOWER – FRESH EXPRESS
POSTLE HALL – DEAN'S OFFICE RENOVATION
SMITH LABORATORY – THIRD FLOOR RENOVATION PHASE I
RHODES HALL – 10TH AND 11TH FLOOR EPILEPSY MONITORING UNIT

APPROVAL TO ENTER INTO A JOINT USE AGREEMENT

MADISON COUNTY AGRICULTURAL SOCIETY

Synopsis: Authorization to enter into design and construction contracts and to enter into a joint use agreement as detailed in the attached materials, is requested.

WHEREAS in accordance with the attached materials, the University desires to undertake, and enter into design contracts for, the following projects:

Journalism Building and Derby Hall – Renovation (N/A)	\$1.5M	College General Funds
Postle Hall – Dean's Office Renovation (N/A)	\$0.3M	Dentistry Operating and Development Funds
Rhodes Hall – 10 th and 11 th Floor Epilepsy Monitoring Unit (N/A)	\$0.7M	OSUMC Health Systems
University Hospitals – Emergency Department Expansion (05-06 Capital Request)	\$1.9M	OSUMC Health Systems

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following projects:

Lima Campus – Agriculture Building Addition (05-06 Capital Request)	\$1.3M	College General Funds
Morrill Tower – Fresh Express (05-06 Capital Request)	\$0.5M	Student Affairs Operating Funds
Postle Hall – Dean's Office Renovation (N/A)	\$0.3M	Dentistry Operating and Development Funds
Rhodes Hall – 10 th and 11 th Floor Epilepsy Monitoring Unit (N/A)	\$0.7M	OSUMC Health Systems
Smith Laboratory - Third Floor Renovation Phase I (N/A)	\$0.5M	Wright Center Grant

WHEREAS in accordance with the rules of the Ohio Board of Regents, the University desires to enter into a joint use with the Madison County Agricultural Society for the following project:

OSU Extension Safety Improvements in Madison County	\$0.09M	Capital Appropriation: CAP-745
---	---------	--------------------------------

**Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project; renovation projects funded by internal office or departmental funds that are noted as "N/A" have not had separate capital project authorization because of their smaller size or because they arose unexpectedly between capital planning cycles.*

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into design and construction contracts and to enter into a joint use agreement for the projects listed above in accordance with

May 31 and June 1, 2007 meeting, Board of Trustees

established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix LX for background information and maps, page 1291.)

LONG-TERM LEASE RENEWAL

Resolution No. 2007-152

CREATIVE LIVING FACILITY
150 WEST 10TH AVENUE
COLUMBUS, OHIO

Synopsis: Authorization is requested for granting a renewal option to a long-term ground lease to Creative Living Housing Corporation, at 150 West 10th Avenue, Columbus, Ohio.

WHEREAS Creative Living Housing Corporation requests that the Board of Trustees of The Ohio State University grant an additional renewal term of 25 years to the lease of real property currently in place between the parties; and

WHEREAS Creative Living Housing Corporation has exercised its existing right to renew the lease and requests an additional renewal term of 25 years; and

WHEREAS the leased premises is used by Creative Living Housing Corporation to provide housing for students with physical disabilities; and

WHEREAS this long-term lease will be for a 25-year renewal term, at an annual rent of \$1.00 per year, and the lease of this property is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Business and Finance be authorized to enter into a long-term ground lease with Creative Living Housing Corporation for the real property, as improved, at 150 West 10th Avenue, Columbus, Ohio, upon such additional terms and conditions as shall be in the best interest of the University.

(See Appendix LXI for background information and map, page 1303.)

GIFT OF REAL PROPERTY - ATI

Resolution No. 2007-153

HAWK'S NEST GOLF COURSE
2800 EAST PLEASANT HOME ROAD, CRESTON, OHIO

Synopsis: Authorization to accept a gift of improved real property, parcel number 07-00180.000, located at 2800 East Pleasant Home Road, Creston, Ohio, is proposed.

WHEREAS the Board of Trustees of The Ohio State University is presented with an opportunity to accept a gift of improved real property located at 2800 East Pleasant Home Road, Creston, Ohio, and owned by Earl and Betty Hawkins; and

May 31 and June 1, 2007 meeting, Board of Trustees

WHEREAS the appropriate University offices have determined that accepting the gift of this property is in the best interest of the University; and

WHEREAS funding for the maintenance and operation of this property will be provided by The Ohio State University Agricultural Technical Institute (ATI), Wooster:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized, in the name of the State of Ohio for the use of The Ohio State University, to accept the gift of improved real property located at 2800 East Pleasant Home Road, Creston, Ohio, from Earl and Betty Hawkins, upon such terms and conditions as are deemed to be in the best interest of the University.

(See Appendix LXII for background information, page 1305.)

COLUMBUS CAMPUS FISCAL YEAR 2008 USER CHARGES

Resolution No. 2007-154

Synopsis: Approval of the Columbus Campus Fiscal Year 2008 User Charges, is proposed.

WHEREAS the Fiscal Year 2008 increase in user charges for self-supporting units on the Columbus Campus including the Recreation fee, Student Health Insurance fee, and the room and board charge, as described on the accompanying text and tables, have been reviewed and recommended following appropriate consultation within the University; and

WHEREAS the University Health System has recommended a 7.6% weighted average increase in charges for services provided through the system in Fiscal Year 08; and

WHEREAS the Columbus Campus Supplemental Instructional Fees have been reviewed and presented for a first reading; and

WHEREAS Tuition, Subsidy and Supplemental Instructional Fee recommendations are not yet complete and will be forthcoming following the passage of the State Biennial Budget:

NOW THEREFORE

BE IT RESOLVED, That Fiscal Year 08, non-instructional user fees for the Columbus Campus and charges for the Health System services, as described in the accompanying text and tables, be approved.

(See Appendix LXIII for background information, page 1313.)

INTERIM BUDGET FOR FISCAL YEAR 2008

Resolution No. 2007-155

Synopsis: Authorization to make expenditures in Fiscal Year 2008 is proposed.

May 31 and June 1, 2007 meeting, Board of Trustees

WHEREAS the University has not yet finalized its operating budget for Fiscal Year 2008; and

WHEREAS it is necessary to continue University expenditures, including payment of faculty and staff, prior to the time that the Current Funds Budget for Fiscal Year 2008 is developed and adopted:

NOW THEREFORE

BE IT RESOLVED, That the University be authorized to make expenditures consistent with the level of resources approved for Fiscal Year 2007, pending the adoption of the General Funds Budget for Fiscal Year 2008 at the July Board of Trustees meeting and the Current Funds Budget for FY 2008 at the September Board of Trustees meeting.

Upon motion of Amb. Ong, seconded by Ms. Shackelford, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Shackelford, and Marbley.

--0--

EASEMENTS

Resolution No. 2007-156

COLUMBUS SOUTHERN POWER COMPANY, AT&T OHIO, TIME
WARNER TELECOM OF OHIO, L.L.C. -- RESIDENCES AT LANE AND KENNY
LENNOX RETAIL LLC – 1570 OLENTANGY RIVER ROAD
EMBARQ CORPORATION – OSU, LIMA
AMERICAN ELECTRIC POWER – WOOSTER, OH
BOARD OF COUNTY COMMISSIONERS OF WAYNE COUNTY, OHIO –
WOOSTER, OH

Synopsis: Authorization to grant various easements is proposed.

WHEREAS the following companies have requested easements for the residences at Lane Avenue and Kenny Road:

Columbus Southern Power Company has requested a 10 foot wide by approximately 497 foot long easement area to run electric power lines into and through the project, for a term of 25 years;

AT&T Ohio has requested a 10 foot wide by approximately 497 foot long easement area to run telephone lines into and through the project, for a term of 25 years;

Time Warner Telecom of Ohio, LLC has requested a 10 foot wide by approximately 497 foot long easement area to run cable television lines into and through the project, for a term of 25 years; and

WHEREAS the following company has requested an easement for the commercial shopping center Lennox Station at 1570 Olentangy River Road, Columbus, Ohio:

Lennox Retail LLC has requested a 4,878.72 square feet, or 0.112 acre easement, for a term of 25 years, beginning July 15, 2007, for use in the parking lot supporting.

May 31 and June 1, 2007 meeting, Board of Trustees

The easement area requested is not adjacent to the Columbus Campus and is located west of State Route 315 and north of the Intersection of Olentangy River Road and King Avenue and the property is surplus to the University with no established University use in the University Master Plan.

Lennox Retail LLC needs the 0.112 acre parcel for use in the parking lot of its commercial development and will pay consideration in the amount of \$106,722 for the easement; and

WHEREAS Embarq Corporation has requested a 15 foot wide by 3,061.3 foot long easement area on the west side of Reservoir Rd. and the south side of Thayer Rd., for a term of 25 years; and

WHEREAS the following companies have requested easements for the Ohio Agricultural Research and Development Center:

American Electric Power Company has requested an easement 30 foot wide by 825 foot along Oil City Road and connecting to the Krauss Dairy Center, for a term of 25 years;

Wayne County Commissioners have requested an easement on 0.005 acres along Prairie Lane Road, for a term, beginning upon execution of the easement and continuing until completion of all required improvements, approximately 6 months after first entry on the property; and

WHEREAS these easements will serve and benefit the development projects and the appropriate University offices have determined that the grant of these easements are in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve and the Ohio Department of Administrative Services be authorized to process appropriate documents and grant the above easements upon such terms and conditions as are in the best interest of the University.

Upon motion of Mr. Brass, seconded by Ms. Hendricks, the Board of Trustees adopted the foregoing resolution with thirteen affirmative votes cast by Trustees Cloyd, Hendricks, McFerson, Ong, Borror, Wexner, O'Dell, Shumate, Fisher, Schottenstein, Brass, Shackelford, and Marbley, and one abstention cast by Trustee Hicks.

(See Appendix LXIV for maps, page 1319.)

--0--

HONORARY DEGREES

Resolution No. 2007-157

Synopsis: The awarding of honorary degrees is recommended for approval.

WHEREAS the Committee on Honorary Degrees and the University Senate, pursuant to rule 3335-5-488 of the Administrative Code, have approved for recommendation to the Board of Trustees awarding of an honorary degree as listed below:

May 31 and June 1, 2007 meeting, Board of Trustees

Karen A. Holbrook

Doctor of Education

and

WHEREAS pursuant to paragraph (B)(4) of rule 3335-1-03 of the Administrative Code, the President, after consultation with the Steering Committee of the University Senate, recommended to the Board of Trustees awarding of an honorary degree as listed below:

William J. Clinton

Doctor of Public Service

NOW THEREFORE

BE IT RESOLVED, That the above honorary degrees be awarded in accordance with the recommendation at a time convenient to the University and the recipients.

Upon motion of Mr. McFerson, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

DISTINGUISHED UNIVERSITY PROFESSORS PRESENTATION

Provost Barbara R. Snyder:

For the Board's approval, I have the great pleasure of recommending the designation of the title *Distinguished University Professor* for two of Ohio State's finest scholars. This honorific, permanent title is the University's highest honor for a senior faculty member and, since its inception in 1987, has been awarded to only 36 faculty members, including today's recipients. The selection process includes nominations by Ohio State faculty colleagues, with a screening process by the dean of the nominee's college, with support letters from scholars in the global community, and final recommendations by our own distinguished faculty.

This year's selection committee members were: Kevin R. Cox, Distinguished University Professor, from the Department of Geography, and he was the convener; Clara Bloomfield, Distinguished University Professor, in the Division of Hematology and Oncology, Department of Internal Medicine; Richard Dick, the Ohio Eminent Scholar in Soil Ecology, from the School of Environment and Natural Resources; Hamish L. Fraser, the Ohio Eminent Scholar in High Temperature Structural Materials, from the Department of Materials Science and Engineering; and Karin Musier-Forsyth, the Ohio Eminent Scholar in Macromolecular Structure, from the Department of Chemistry.

The Office of Academic Affairs provides an annual award of \$10,000 for three years to each of the Distinguished University Professors, and they automatically become members of the President's and Provost's Advisory Committee, which we call the PPAC. Both Karen and I have enjoyed meeting with this group and receiving wise and valued counsel from the distinguished scholars who attend those meetings.

I'm going to tell you a little bit about each of our honorees, and then we'll see a short video. I would ask the Chairman of the Board and President Holbrook to join the honorees and their colleagues for pictures while I introduce them.

May 31 and June 1, 2007 meeting, Board of Trustees

Professor Avner Friedman, Distinguished Professor of Mathematical and Physical Sciences, is joined by Dean Rick Freeman, from the College of Mathematical and Physical Sciences, Professor David Goss, chairperson of the Department of Mathematics, and Associate Executive Dean Edward Adelson from the Colleges of the Arts and Sciences. Professor Friedman is the director of the Mathematical Biosciences Institute here at Ohio State.

One of his nominators wrote that “he has taken a leading role in identifying new mathematical challenges arising from problems in biosciences.” A portion of his work includes research on tumor growth and other issues related to cancer and immunology. As a scholar from the University of Auckland in New Zealand wrote, “[a]lmost single-handedly Avner came up with the idea [of the Mathematical Biosciences Institute], put a group together to help with various aspects of the proposal, negotiated with OSU and [the National Science Foundation], and was successful at forming the most significant institute in mathematical biosciences in the world.”

Professor Friedman is a member of the National Academy of Sciences, a distinction held by only nine Ohio State faculty members; as well as the American Academy of Arts and Sciences, an honor held by ten faculty and one Trustee, Mr. Wexner. Professor Friedman was also awarded the prestigious Sloan and Guggenheim Fellowships and has written more than 400 research articles and 20 books.

I would next like to introduce Professor Geoffrey Parker, the Andreas Dorpalen Designated Professor in European History, who is joined today by Dean John Roberts, from the College of Humanities, Professor Peter Hahn, chairperson of the Department of History, and Associate Executive Dean Edward Adelson from the Colleges of the Arts and Sciences.

As his nominator wrote, “[Professor] Parker boasts a record of publications second to none -- 33 books, 11 review articles, 88 other articles and book chapters, and over 170 book reviews in three distinct fields: European History, Military History, and World History.” One nominator wrote that he “is unquestionably one of the outstanding historians of his generation.” And another wrote, “Professor Parker is one of the greatest and most productive historians of our age, and simply towers over all his contemporaries in the field of early-modern European and world history.” And yet another wrote that he is “the best historian of Spain alive today.”

He is also considered “a stellar teacher.” Last year, he won the University’s highest honor for teaching excellence, the Alumni Award for Distinguished Teaching. He has also received two knighthoods from the Spanish government -- one from the King of Spain and the other from the Spanish Prime Minister. It is an interesting thing that is probably not true of any other faculty member at The Ohio State University.

[Video presentation]

Provost Snyder:

Thank you, Dr. Cloyd and Dr. Holbrook, for presenting the medallions and plaques. I will start with Dean Rick Freeman and ask him to say a few words about Avner Friedman.

Dean Richard R. Freeman:

Thank you, Provost Snyder. Ladies and gentlemen of the Board, it is always a pleasure to be in front of you for reasons that are as important to

May 31 and June 1, 2007 meeting, Board of Trustees

Ohio State University and to the College of Mathematics and Physical Sciences as this is. As you have seen, Avner Friedman is rather remarkable. Former chairperson and now NSF director, Peter March, was on the video and summed it up very nicely -- Avner is a man who is "one in a million."

One of our big difficulties has grown out of Avner's success. Avner not only started MBI here and won the only Math and Biological Institute funded by the National Science Foundation anywhere in the country, he was successful this last year in beating a remarkable come from behind renewal of the Math and Biological Institute. It has been renewed for three years. The National Science Foundation started out by telling us that they were considering doing away with these institutes, but because of Avner's leadership and ability to get out in front and gather the necessary people and support, we now have it again for three years.

The problem that he has presented to us is that the National Science Foundation -- in looking at Avner and not realizing that years on one's resume mean nothing when you have the energy of Avner Friedman -- has told us that they want us to work over the next three years and find someone to be able to take Avner's place as director at the end of the three years, at which point we will be considered for a five-year renewal. I emphasize that this is so unique -- and President Holbrook has spoken to this many times -- that this is an institute which carries with it so much prestige and is so much now associated with Ohio State that we really can't afford to lose it. I am presented with an interesting problem. The problem is that I am chairman of the search committee to find a replacement for Avner. With Avner's help, we have identified international scientists to be on this search committee and each of them has told me this will be an impossible job. So we are faced with both the good and the bad. Avner has brought this wonderful institute to us, he has made it successful and has led a renewal, which is an outstanding accomplishment for Ohio State. It exists because of Avner and now we have to find his replacement.

Professor Avner Friedman:

I would like to thank the Board of Trustees, the President, and the Provost for this honor. I would like to thank my dean, my immediate boss, for all his nice comments. I'd like to take this opportunity to tell you about myself and since some people have already told you a little about me, I will speak more about my vision as a mathematician.

Some people like to divide mathematics into pure and applied. This is not uncommon with other disciplines, as well: Theoretical Physics and Applied Physics, and Theoretical Computer Sciences and Applied Computer Sciences. I believe that setting up such fences within a discipline or even among disciplines is not very healthy. My wife, who is here today, received her Ph.D. degree in Mathematics Education from the University of Chicago, once showed me a quote from the University of Chicago educator John Dewey. I never had a chance to meet him, because he belongs to several generations ago, but in 1900 in a book about Chicago society he had a very interesting quote:

"We do not have a series of stratified earths, one which is mathematical, another physical, another historical, etc. We should not be able to live long in any one taken by itself. We live in a world where all sides are bound together. All studies grow out of relations in the one great common world."

May 31 and June 1, 2007 meeting, Board of Trustees

I began my career in what one may call “pure mathematics,” but over the years I became interested in applications of mathematics in science and technology. When I took the position as director of the Institute of Mathematics and its Application at the University of Minnesota, I then started to initiate interdisciplinary programs in mathematics and material sciences, mathematical imaging, multimedia, mathematical geophysics, and so on, and initiated research with industry. We had post-doctoral students who worked with industry and they were mathematicians.

During those years it gradually became clear to me that biology was the future frontier of mathematics. For example, if you look at physics and look at one drop of water, you understand water in a glass or in the ocean – water is water no matter where it is – but it is not the same in biology. One error in 3 billion nucleic acids may have detrimental effects on the life of a person. This shows you that biology is a concern of what happens at the molecular level than the individual molecules. There is so much data that has been accumulated at the molecular level by biologists that there is a need to gain knowledge out of all of this data. This is where mathematics and statistics are coming in, by trying to model this experiment based on data that can allow progress in the biological sciences.

When NSF called for new proposals for mathematical institutes in 2000, it was immediately clear to me that there was a need to propose such an institute devoted to the biosciences, so I contacted OSU. Why OSU? The Mathematics Department had just won a “strategic investment award” in an internal OSU competition -- very much like Provost Snyder did with the TIE money, but on a smaller scale. The person that was instrumental in this was Peter March, whom you saw on the video. This was already something that provided some new positions in mathematical biology and computational mathematics, both important ingredients. The Math and Statistics Departments had several people already in this interdisciplinary field and the University administration was very supportive. All of these ingredients made OSU a place to come to. When I came here, I was surprised to find that the Medical School was embarking on a very ambitious path to bring excellent, first-rate people from the east coast, Harvard Medical School, Philadelphia, and Thomas Jefferson to OSU to work with them.

The Mathematical Biosciences Institute (MBI) has 600 – 700 visitors a year, runs annual programs on themes – this year’s is System Physiology, next year it is Bioengineering, and then Developmental Biology. We have 15 post-docs who work with mentors from mathematics/statistics and the biosciences. We have now started a curriculum development in mathematical biology for both undergraduate and graduate students. And this is only the beginning!

We have a workshop that started this morning, so this is my second speech today. My first speech was welcoming the attendees to the workshop -- “Over the Fence: Mathematicians and Biologists Talk About Bridging the Curricular Divide.” It is a very exciting topic and very exciting for colleges and university professors to become teams -- for math and biologists to talk about their experiences.

Again, I would like to thank you for this honor which I view as a vote of confidence in our mission. Thank you.

May 31 and June 1, 2007 meeting, Board of Trustees

Provost Snyder:

Thank you, Professor Friedman. Now let me turn to Professor Parker and first to his dean, John Roberts, to say a few words about him and then we will hear from Professor Parker himself.

Dean John W. Roberts:

Thank you and good morning. I am very pleased to have this opportunity to say a few words about Geoffrey Parker. While I can only imagine the personal satisfaction that being named Distinguished University Professor brings to Geoffrey and his family, I can say that his colleagues in the College of Humanities view this recognition as a source of pride for all of us. We believe strongly that it is a fitting way to recognize the accomplishments of one of our most talented scholars and teachers for achievements that will astound and impress. Of all the adjectives that one could use to describe Geoffrey Parker's career, none seems more appropriate than "distinguished." He is at the height of an illustrious career that shows no signs of abating.

He came to Ohio State after having established himself as a major scholar in his field at some of the finest institutions of higher learning in the world, including Cambridge and Yale Universities. After such an auspicious beginning of his career, we can only consider ourselves fortunate that he chose to join our Department of History where his presence has only served to enhance the excellence associated with historical study at Ohio State.

As one of his peer recommender's notes, "Geoffrey is a distinguished scholar who is generally considered to be one of the very top historians of his generation and one of a select group which has completely transformed the field of early modern European Studies." He has deservedly earned this distinction through the sheer volume and consistently high quality of his scholarly publications, which have in turn established him as one of the world's leading authorities in the broad field of European history. In addition, due to the breadth of his work, Geoffrey's equally well-known to historians who work in other historical fields on both sides of the Atlantic, especially those in the areas of military history, political history, history of religion, world history, and now environmental history.

I would conclude by saying that, to his colleagues in the college and his department, Geoffrey's greatest claim to the title of Distinguished Professor is the fact that he is a wonderful colleague who consistently demonstrates an incredible willingness to contribute to this community and its students. Whether he is teaching the introductory sequence in Western Civilization or a graduate seminar, serving on a departmental search committee or University task force, or advising an undergraduate honors thesis or one of his many doctoral dissertation students, Geoffrey approaches these tasks with enthusiasm, a sense of purpose, and a commitment to excellence that characterizes a Distinguished University Professor.

On behalf of myself and all of his colleagues in the College of Humanities, I want to express our sincere appreciation to the Board of Trustees for recognizing the many contributions of Geoffrey Parker to his students, his profession, and The Ohio State University. Thank you.

Professor N. Geoffrey Parker:

Let me begin by thanking Dean Roberts, Birgitte Sølund, who hired me, David Cressy, my friend for thirty years who wrote the nomination, and Kate

May 31 and June 1, 2007 meeting, Board of Trustees

Epstein, who realized as I did that the only way to succeed in academic life is to go from Yale to OSU. I would like to thank all of them for that inspiring, but, obviously, unrealistic praise. My parents died 20 years ago and I still miss them every day, but especially today. If they heard all of those kind words, my father would have been proud and my mother would have believed them. President Holbrook, you probably have heard that line so many times since we first met when Dick Sisson and I came to ask your support for a series of eight lectures here at OSU to commemorate Ohio's Bicentennial in 2003. You graciously agreed, and so the lecturers came, two of them introduced by you. All eight talks and your introductions can still be seen and heard on the Bicentennial website.

One month ago, on May Day, you and Provost Snyder arrived in the middle of one of our History Department meetings and announced that you wanted to see me again today. It was a moment of pleasure and surprise that I shall never forget. But of course, it did not surprise everyone in the room. Chris Burton and Gail Summerhill knew, because they know everything. Our department simply could not function without them and the rest of our wonderful administrative staff who I would like to recognize now: Joby Abernathy, Jim Bach, Steve Fink, Maria Mazon, Jan Thompson, and Rich Uglund. I wanted them all to be here, but how could we have dealt otherwise if they had all been here with our 60 brilliant, but sometimes fragile faculty, our 200 inspired, but occasionally insecure graduate students, and our 17,000 dedicated, but – what was your word Amb. Ong -- hyperactive undergraduates. Of course you knew and Jackie knew, because they saw the letter of nomination drafted by David Cressy and signed by my chair, Peter Hahn – so they all knew. Perhaps some of my other colleagues and friends here knew: Rick Herrmann, my boss at Mershon; Elizabeth and Steve my fellow Espanistous; Alice, Birgitte, Cynthia, Martha, and Joe Lynch from History; my fellow military historians Mark Grimsley, Jenni Siegel, and Dr. G. -- as Joe Guilmartin is known to all our grad students, usually with affection; and my History graduate students whom we are all so very proud, maybe they knew. They are here, of course, for Ohio's legendary dessert – Crème Brule. But me? I didn't know, because I spend most of my time living in the 17th century, as Dean Roberts said.

Is ignorance always such a disadvantage? Ignorance may not always be bliss, but it can be fruitful. This paradox was very well expressed by the Polish poet and Nobel laureate Wislawa Szymborska: "Whatever inspiration is, it's born from a continuous 'I don't know'." She continued:

"If Isaac Newton had never said to himself, 'I don't know,' the apples in his little orchard might have dropped to the ground like hailstones; and at best he would have stooped to pick them up and gobble them with gusto..."

Please note, I was born exactly three centuries after Isaac Newton, on the same day of the year, Christmas Day, and in a town only a few miles from his little orchard. I attended the same university as he did, but alas in Nottingham we pick up the apples and we eat them and we don't think anything more.

To move back to Wislawa Szymborska, she said:

"[Had] Marie Curie never said to herself 'I don't know,' she probably would have ended up teaching chemistry at some private high school for young ladies from good families... But she kept on saying 'I don't know,' and these words led her not once but twice to [a Nobel Prize]."

May 31 and June 1, 2007 meeting, Board of Trustees

Now at least in this historians are just like poets, mathematicians and research chemists -- we, too, struggle to create something that will have a life of its own, independent of us. That creation will involve what we know as well as what we don't know, what we infer as well as what we discover. But creation, members of the Board of Trustees, is impatient.

Another distinguished Polish scholar, Czesław Miłosz, wrote a poem entitled *Preparation*:

"Still one more year of preparation!
Tomorrow at the latest I'll start working on a great book
In which my century will appear as it really was,
The sun will rise over the righteous and the wicked...

And that will be the subject, with addenda. Thus: armies
Running across frozen plains, shouting a curse
In a many voiced chorus; the barrel of a tank
Growing immense at the corner of a street; the ride at dusk
Into a camp with watchtowers and barbed wire.

No, I won't write it tomorrow. Maybe in five or ten years...
I haven't learned yet to speak as I should, calmly.
With not-quite truth...
[About] the not-quite guiltless
And the not-quite degraded."

But we don't have "five or ten years" to start the process of creation; even "tomorrow" may be too late, for tomorrow some of the things we don't know may become unknowable or we, the would-be creators, may be taken away on our own "ride at dusk." Our time to create, our time to achieve, is limited -- whether we are poets, mathematicians, research chemists, or historians. This is why I am so grateful to all of you senior officers and Trustees of this great University, gathered here today, for spending so much of your time preparing for our future. You are preparing OSU for what it can be in five or ten years from now. You are establishing the long-range goals and developing the strategies to reach them -- an enormous enterprise! I sometimes feel that you don't receive enough recognition from faculty for your vision, your time, and your commitment. And so, on behalf of my colleagues and myself, I would like thank you for all that you do to make it possible for us to advance our scholarship while we teach our students.

I'm excited right now at the prospect of joining the President's and Provost's Advisory Committee -- PPAC I have now learned. It will be a privilege to join you in seeking to identify what we "don't know" and in finding the best answers so that OSU can continue to excel. This involves not only pursuing new challenges and achievements, but also consolidating the goals already attained; or, as my colleagues in military history say, "we need to bite and hold."

Thus we already have Ohio's finest undergraduates, but how can we improve our teaching so that they will both learn more and earn more? We already have brilliant graduate students, but how can we make their lives more secure as they study? And we already have world-class faculty, how can we best retain them? Above all, now that we are on track to achieve the 20/10 goals set out so brilliantly in the Academic Plan, what about 30/15? What about 40/20?

I don't know how we will get there, but I will try and find out by working alongside my new colleagues on the PPAC and I shall also work alongside

May 31 and June 1, 2007 meeting, Board of Trustees

them on that quest tomorrow as well as in "one more year," and in "five or ten years." Because as you have shown President Holbrook, Provost Snyder, and members of the Board of Trustees, "preparation" is the key. Joining with you in the pursuit of the goals you have defined is my personal Academic Plan here at The Ohio State University.

Thank you, again, for conferring on me this single honor today.

Dr. Cloyd:

Professor Friedman and Professor Parker, congratulations and thank you for those wonderful comments. Would any of the other Board members have any questions or comments? Again, congratulations, this is an honor, but an honor that is certainly very well deserved as has been reflected by your deans, the video, and the students, and we are very fortunate to have academicians like you here at The Ohio State University.

--0--

Dr. Cloyd:

As we move to the close of this meeting President Holbrook, this is the last time we are going to have the benefit as a Board of Trustees sitting around the same table with you. You talked in your opening comments about how the University has been well served over the last five years by our Academic Plan and that is very true. But an institution of this size and complexity only moves forward through great leadership and we have certainly been very blessed with that in your tenure. In fact, last week Professor Frantz and I were looking at measures of academic and research progress, and everything is heading to the north east when we look at Ohio State in your tenure. That is wonderful. It is wonderful for all of the people who leave here, and certainly for the legacy that you leave to this institution.

People could probably talk for a long time about what kind of leadership qualities are required for leading an institution of this size, the complexity of a land-grant institution, and the academic, research, and service orientation. It does require someone that is tireless, dedicated, and someone that has great curiosity and a passion for science, knowledge, and for all of the people around them – and you have all of that. But one of the things that I think that you have that is very, very special is the heart and the passion for students, faculty, teaching, and helping people better prepare themselves for their lives as they go forward.

Most of us are going to have an opportunity to group with you again at commencement and celebrate your well earned and well deserved honorary Doctorate of Education degree. As we get ready to close this meeting, I wanted all of the Board to thank you for your tireless leadership and for all you have done for this great University. Thank you.

President Holbrook:

Thank you.

--0--

Dr. Cloyd:

In a moment I am going to take a roll call vote to go into Executive Session and that vote will conclude all formal Board action for this day.

May 31 and June 1, 2007 meeting, Board of Trustees

I hereby move that the Board recess into Executive Session for the purposes of considering personnel matters regarding employment and compensation, to consult with legal counsel regarding pending or imminent litigation, and to discuss matters required to be kept confidential by State Statute. May I have a second?

Upon motion of Dr. Cloyd, seconded by Mr. McFerson, the Board adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Ong, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Shackelford, and Marbley.

--0--

Thereupon the Board adjourned to meet Friday, July 13, 2007, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

--0--

Attest:

G. Gilbert Cloyd
Chairman

David O. Frantz
Secretary

**The Ohio State University Board of Trustees
June 1, 2007**

TOPIC:

Medical Center Master Facilities Plan

CONTEXT:

This is a summary of the preliminary reports from the consultants' reviews of the Medical Center Master Facilities Plan and the May 16 discussion of the Medical Center Master Facilities Plan Task Force.

SUMMARY:

Attached are three documents:

1. A cover memo to Dr. Holbrook summarizing the outcome of the May 16 meeting of the Task Force.
2. A summary of the preliminary report from Deloitte.
3. A summary of the preliminary report from Hammes.

CONSIDERATIONS:

- How should the full Board be engaged?
- What additional information is desired?
- What happens next?

REQUESTED OF THE BOARD OF TRUSTEES:

For discussion and advice. No vote required.

Subject: Medical Center Master Facilities Plan Review

Date: May 23, 2007

From: William Shkurti ^{WTS}

To: Karen Holbrook

The purpose of this memo is to update you on the May 16 meeting of the Medical Center Master Facilities Plan Task Force. The Task Force heard updates from both Deloitte and Hammes, summaries of which are attached.

After extensive discussion, the Task Force agreed on the following:

1. This is the largest resource decision (time, people, money) in the University's history; therefore, it needs to be approached thoughtfully with accurate, complete and timely information.
2. The consultants will prepare a comprehensive timeline and decision tree in order to help map out a methodology for moving the Medical Center Master Facilities Plan forward. This plan will help insure that all interrelated decisions and processes are integrated. This includes aligning the governance and program review with the Master Facilities Plan consultants' reviews.
3. A session needs to be scheduled to brief the entire Board of Trustees on the issues described above. I have discussed this with the Board Office and the session will be conducted at the June 1 Board of Trustees meeting.

If you would like any additional information, please feel free to contact me.

30-Day Status Report
The Ohio State University

May 11, 2007

Deloitte

Project Status

Data Provided:

- Read approximately 95% of all provided documentation

Interviews Conducted:

- Interviews have been conducted with many Senior Medical Center Leaders, four of the Health System Leaders, the six Signature Program Physician Leaders and six of the University Senior Administration Leaders

Strategy / Data / Assumption Testing:

- Assumptions for growth in primary, secondary and tertiary markets are being compared to historical performance as an indicator of future performance and to other comparable organizations
- Additional testing on assumptions for growth related to the signature programs is underway
- In the process of reading and commenting on assumptions for payor rate increases, payor mix, expenses and capital structure
- Reviewing characteristics of top AMCs and CCCs for strategic context
- Tracking the linkage between the six signature plans and the Master Facility Plan (MFP)

A significant amount of work has been completed on areas within the RFP

Five major areas of risk were identified and serve as the focus for reading and commenting on the strategic plan

Risk Areas

Preliminary Observations

☑ Strategic and Organizational

☑ Market and Competitive

☑ Financial risk

☑ Service and Quality

☑ Execution

- While there was significant inclusion in the Medical Center strategic planning process and agreement on many of the elements in the plan, **consensus** among the major stakeholders on the Master Facility Plan (MFP) can be strengthened through further refinement of the plan. Time should be spent on refining the plan and building consensus in order to proceed effectively.
- Volume **growth** and payor mix are being evaluated in light of **competition**, level of market penetration and other factors that may affect the plan. Past performance by the Medical Center is another important consideration.
- Increases in **reimbursement** rates and the **cost and capital structures** are being compared to comparable organizations and the Medical Center's historical performance to determine the financial impact on the organization's ability to meet its financial targets.
- The impact to **service and quality** posed by the MFP components for Cancer and Neurosciences is being studied further. Comparisons to "best practice" AMCs and CCCs are underway.
- A well planned and structured approach to **implement** the MFP is a key element for success. At this time, it is more important to improve **consensus** among the major stakeholders on the overall plan in order to successfully execute the strategy.

Presentation to:

The Ohio State University Medical
Center Facilities Task Force

Preliminary Report
Facility Plan Review

May 11, 2007

The Hammes Company

Project Status

- Areas of Responsibility
 - Medical Center Master Facilities Plan
 - Financial Relationship Between the James and All Other Components of the OSUMC
- Documents Reviews
- Interviews
 - 18 individual interviews with senior leadership in the OSUMC
 - Three sets of group interviews with architects, engineers and FOD personnel
 - Additional interviews planned during the next phase

Initial Areas of Focus

- Site and Facility solution
- Proposed Schedule
- Projected Cost
- Pros and Cons of Consolidating Cancer Program in Phase I
- Funds Flow
- Impact of James PPS Exemption and CCC Designation.

Areas of Further Analysis

- Additional interviews with leadership, including physician leaders of six signature programs
- Further review/analysis of space program, throughput and bed need calculations to ensure future facility needs reasonable
- Integration with Deloitte Consulting review of strategic plan and the degree to which the MFP conforms to the strategic plan
- Analysis regarding implementation risks associated with the project
- Identification of phasing issues and alternatives
- Additional analysis regarding value of PPS exemption and CCC status, and the impact of the loss of one or both
- Greater understanding of the expense allocations and the Medicare Cost Reports utilized in determining James' cost reimbursements from CMS
- Determination of relative benefit received by the James and other portions of the Health System from the mutual relationship

Hedge Fund Investment Opportunity- Executive Summary

Firm:	Sirios Capital Management	Fund Name:	Sirios Capital Partners
Category:	Equity Long/Short	Fund Assets:	\$2.4 billion
Lock-Up Period:	Various	Due Diligence:	Cliffwater/Staff

Organization & People: Sirios Capital Management (Sirios) was founded in 1999 by John Brennan and Christian Felipe. In June 2002, Mr. Felipe retired from the firm for personal reasons. John Brennan owns 100% of the firm. Sirios is based in Boston and has approximately \$2.7 billion in assets under management. The Sirios Capital Partners Long/Short product (SCP) is the firm's flagship fund and is currently offered through onshore and offshore vehicles. The flagship fund was started in 1999. In addition to SCP, Sirios manages a European long/short fund and two concentrated long-only funds.

Sirios has 24 employees, including fourteen investment professionals and ten individuals dedicated to operations, legal and investor relations. John Brennan owns the firm and acts as the lead portfolio manager. Investment decisions are made by Mr. Brennan. Primary support is provided by nine analysts who cover specific sectors. A small portion of fund assets are 'carved-out' and managed directly by the sector leads. The carve-out assets represent approximately 15% of total firm assets. Shares of the incentive fee and bonuses are awarded to individuals primarily based on the impact of their idea generation and investment decision making abilities.

Investment Strategy & Process: SCP's focus is on generating strong absolute performance while producing a relatively low level of volatility through all investment cycles. SCP follows a fundamental, research-driven process to selecting stocks. On the long side, SCP will seek to purchase attractively-valued growth stocks of medium to large companies. When shorting stocks, SCP will look for companies with deteriorating fundamentals and balance sheets. SCP will focus primarily on investing in North America, but will also seek opportunities overseas.

Sirios utilizes a bottom-up, research-intensive investment process to identify opportunities on both the long and short portions of the portfolio. When considering potential investments, Sirios' sector analysts will perform an analysis of a company's financial statements, management team, competitive advantage and future growth plans. Additionally, Sirios interviews portfolio company management, their competitors and other industry experts. When evaluating a company's growth potential, Sirios focuses on new product development, capital spending programs, potential acquisitions, cost reduction and restructuring programs. Another important element of Sirios' analysis is determining whether or not a company's management team incentives are aligned with investors. Once a sector leader has drawn a conclusion on a potential investment, they review their analysis with the lead portfolio manager, Mr. Brennan. Mr. Brennan makes all final investment and allocation decisions.

Portfolio Construction and Diversification: Sirios constructs portfolios opportunistically, on a security by security basis. SCP will focus on making investments primarily in the consumer, energy, financials, healthcare and tech/telecom sectors. SCP will have a net long bias, with an average net exposure of 50%+. For example, at the end of December 2006, the fund's exposure was 110% long and 52% short for a net exposure of 58%. The long side of the portfolio will consist of 40-60 positions, with an average weighting of 1%-2%. If Sirios management has strong conviction in an investment, a long position can take up to a 10% position. The short side of the portfolio will contain 50-75 positions, with an average weighting of 0.5%-1%. Individual short positions are limited to 2% of the portfolio market value. The maximum exposure to a single sector is 35%. Options may be used, but on a limited basis as a hedging tool. SCP expects to invest approximately 0%-25% of the portfolio in international (non-US listed) securities.

Performance: Since its inception in July 1999 through March 2007, SCP has produced an annualized net return of 12.3% with standard deviation of 6.7%. During the same period, the HFRI Equity Hedge Index returned 10.1% with a standard deviation of 8.8%. During the same period, the return/risk ratio was 1.8 for SCP versus 1.2 for the index. SCP has produced excess returns with less volatility compared to its benchmark. Additionally, SCP has not had any negative performing calendar years since inception.

Hedge Fund Investment Opportunity- Executive Summary

Fees & Liquidity: SCP will charge a 1% annual management fee and 20% incentive fee. Administrative fees are expected to be less than 5 basis points. Redemptions from the fund can be made annually subject to a one year lock-up period. SCP will not utilize side pockets for any investments.

Conclusion: Sirios research-driven process has delivered consistently strong risk-adjusted performance since inception. SCP has limited volatility and remained disciplined in times when the market has experienced an increased level of price fluctuation. SCP will provide a good compliment to the existing long/short hedge fund investment, Archipelago. *Sirios Capital Partners is recommended for a \$15 million hedge fund investment.*

Private Equity Investment Opportunity- Executive Summary

Fund Name:	JMI Equity Fund VI	Date:	June, 2007
Target Fund Size:	\$500 Million	GP Commitment:	1%
Term of Fund:	10 Years	Investment Period:	Six Years
Strategy:	Venture Capital	Due Diligence:	Cliffwater/Staff

Organization & People: JMI Equity (JMI) was founded in 1992 by Charles Noell and Harry Gruner. The firm is based in Baltimore and operates out of an additional office in San Diego. JMI primarily focuses on investing in software and business services companies. JMI will diversify investments across various stages, from early-stage to multi-billion dollar enterprises. JMI has managed approximately \$660 million in assets, made 81 investments and produced realized returns on 31 companies through past funds. JMI is currently forming JMI Equity Fund VI.

JMI has twenty-two employees consisting of fifteen investment professionals and seven individuals dedicated to operations. JMI has six partners who have an average tenure of eleven years at the firm. Six of the fifteen investment professionals work in the San Diego office, giving JMI a strategic presence on the West coast. The remaining investment team and all of the operations personnel operate out of the headquarters in Baltimore.

Investment Strategy & Process: JMI VI will focus on making investments in the software and business services industries in various stages of the investment lifecycle. JMI seeks to invest in opportunities in which they can actively build growing and profitable companies in order to generate attractive capital gains. Investments will generally be structured as venture financing, recapitalizations and leveraged buyouts. JMI believes that its investment model is driven by its experienced investment team, research process, proactive deal generation, network of relationships and reputation in the industry.

JMI researches segments of the software and services industry in order to identify attractive investment opportunities. Potential investments must have defensible intellectual property, a strong management team and relatively low capital expenses. JMI utilizes a team-based due diligence process. The team varies in size depending on the complexity of the opportunity. Each team is responsible for leading the evaluation of a prospective investment. Each due diligence team conducts customer interviews and site-visits, competitive analysis, market review and technical evaluations. The due diligence team is also responsible for forming a detailed operating plan for the potential investment. JMI's partners challenge the assumptions of each investment thesis before reaching a final conclusion. Decisions on additional rounds of financing also require a due diligence process with a recommendation presented to the partners. All investment decisions require unanimous approval by the partners.

Portfolio Construction & Diversification: JMI VI is expected to make investments in approximately 20-30 software and business services companies in North America. JMI will seek to invest \$5-\$30 million in each investment, diversified across different stages of the investment cycle. Roughly 50%-60% of the fund will consist of expansion-stage and 20% early-stage investments. The remaining fund investments will consist of late-stage or leveraged-buyout (LBO) transactions. For LBO investments, JMI will partner with one or more private equity firms. More specifically, JMI has a strong historical relationship co-investing alongside Hellman & Friedman.

Performance: Since 1992, JMI has generated a net return of 42% on its investments. During the same period, the NASDAQ index returned 8.8%. JMI's historical performance includes initial funds (Funds I & II) that consisted of capital from one source. The remaining funds (Funds III, IV and V) include capital from a diversified group of institutional investors. On a relative basis, when compared individually to similar funds of the same vintage year, JMI's initial funds and Fund V rank in the first quartile, while Funds III and IV rank in the second quartile for performance. The databases used to compare the performance are Thomson Venture Economics and Cambridge Associates. Lastly, 19% of JMI's total investments have generated a loss for limited partners. This percentage translates into approximately 9% of the value that the firm has generated. JMI's loss ratio compares favorably to other venture capital firms with similar industry focus which indicates a lower level of risk versus their peers. Investing in venture capital does not come without risk and one should expect that some investments will lose money. JMI has delivered enough winners to offset the losses and produce strong returns.

Management Fees/Expenses: The management fee for JMI VI will be 2.0% of total fund commitments during the first five years. After year five, the fee will be reduced by 10% per year. JMI will receive 20% of the profits (carried interest) and limited partners will receive 80%. Organizational expenses will be charged at the fund level,

Private Equity Investment Opportunity- Executive Summary

but will be capped at \$750,000 for the life of the fund. The fees for JMI VI are consistent with the management fees of similar venture capital funds.

Conclusion: JMI has an experienced management team that has produced strong results over various environments. JMI's ability to invest across different stages of the investment lifecycle provides a diversified product and helps dampen the volatility of performance. JMI VI will provide broader diversification to the existing venture capital commitments in the OSU private equity portfolio. The existing OSU venture capital commitments consist primarily of seed and early stage funds with a higher risk profile. ***JMI VI is recommended for a \$10 million commitment.***

Private Equity Investment Opportunity- Executive Summary

Fund Name:	Kelso Investment Associates VIII	Date:	June, 2007
Fund Size:	\$5 Billion	GP Commitment:	At least 5%
Term of Fund:	10 Years	Investment Period:	Six Years
Strategy:	Leveraged Buyout	Due Diligence:	Cliffwater/Staff

Organization & People: Kelso & Company (Kelso) was formed in 1971 and is based in New York. Through most of the 1970's, Kelso acted as an advisory firm, assisting companies with structuring transactions that included Employee Stock Ownership Plans (ESOPs). Kelso is recognized as the firm responsible for the creation and development of ESOPs. Kelso formed its first investment partnership in 1980 and began investing in private equity transactions. Kelso commenced investing with its current, control-oriented strategy in 1984 with the launch of its second fund. Kelso makes private equity investments in middle market buyout companies and has managed close to \$5 billion of committed capital through seven previous funds. The group is currently raising its eighth buyout fund, Kelso Investment Associates VIII (Kelso VIII).

Kelso has 24 employees, including fifteen investment professionals. The firm has nine managing principals with an average tenure of approximately eighteen years at Kelso. All investment professionals participate in the firm's investment committee meetings. Additionally, all employees of Kelso invest in the funds and share in the carried interest. In addition to the commitment of 5% by Kelso (the General Partner), the principals and other employees of the firm may invest up to an additional 20% of the fund in portfolio company investments. This will help further align the interests of Kelso with its investors. Lastly, Kelso utilizes three outside directors that advise the firm on developing overall strategy and assist with portfolio company management. The directors have worked with Kelso for approximately fourteen years.

Investment Strategy & Process: Kelso VIII will focus on making control-oriented investments consisting of growing to relatively mature middle-market companies in a broad range of industries. Kelso will seek to invest in companies led by strong management teams. Kelso will structure investments to closely align portfolio company management's interests with those of investors. Kelso will add value post-investment by working with company management to plan and implement strategic and operational improvements that will increase equity value. Kelso assists management teams in growing their businesses through capital expenditures, acquisitions and expansions. Kelso stresses a long-term investment philosophy. The average holding period for realized investments has been approximately 66 months.

For each potential acquisition, Kelso assigns a deal team consisting of at least three investment professionals, which always includes a principal of the firm. Once a potential investment is identified, the deal team conducts an in-depth analysis of the company's operations, management, finances and industry. Additionally, the deal team will conduct a thorough review of the company's operating and financial business plan. This analysis helps formulate a financial and economic assessment. Kelso evaluates management's capabilities, integrity, character, commitment and depth prior to every investment. Kelso's investment professionals meet on a regular basis to discuss potential investments. Final investment decisions are decided by a majority vote of the investment committee, which is comprised of the principals of Kelso. Once an investment is made, Kelso's investment professionals are actively involved in reviewing operating and capital budgets, assessing new opportunities, designing and overseeing compensation incentive plans and hiring key employees. Lastly, exit opportunities are evaluated throughout the life of an investment. When determining the timing of a full or partial exit, Kelso evaluates the company's strategic progress, growth prospects, business environment and overall economic conditions.

Portfolio Construction & Diversification: Kelso VIII will seek to invest in a variety of industries, but with an emphasis on manufacturing and service businesses. Each transaction will require between \$50 million to \$600 million of equity. Kelso anticipates completing an average of 4-6 transactions per year and will have the ability to make investments in the first six years of the fund. It is anticipated that the fund will consist of 20-30 companies. Kelso VIII will not invest more than 20% of total commitments in any one company and will avoid start-ups. Additionally, Kelso VIII will not invest more than 20% of total commitments outside of North America.

Performance: Since 1984, Kelso has generated aggregate net performance of 24% through December 2006 across six funds that have followed the same investment strategy. During the same time period, the Russell 3000 index generated a 17% return. When compared on an individual basis to funds in the same vintage year, all of the previous Kelso funds rank in the first or second quartile. The databases used to compare the performance are

Private Equity Investment Opportunity- Executive Summary

Thomson Venture Economics and Cambridge Associates. Four of the previous funds rank in the first quartile and two in the second quartile when compared versus Thomson. When compared against the Cambridge database, three funds rank in the first quartile and three in the second quartile.

Management Fees/Expenses: The management fee for Kelso VIII will be 1.5% of total fund commitments during the first six years. After year six, the fee will be 1.0% of invested capital. Kelso will receive 20% of the profits (carried interest) after the investors receive 100% of their capital contributions plus an 8% net of fees return compounded annually (preferred return). Organizational expenses will be charged at the fund level, but will be capped at 0.1% of aggregate commitments. The fees for Kelso VIII are comparable to similar funds offered by competing firms.

Conclusion: Kelso is a well-established private equity investment firm with a seasoned senior investment team that has generated strong, consistent performance throughout various economic environments. Kelso follows a disciplined investment process and the firm's employees make a significant monetary commitment to each partnership. An investment in Kelso VIII will provide additional exposure and balance to the middle-market, leveraged buyout portion of the private equity portfolio. *Kelso Investment Associates VIII is recommended for a \$10 million commitment.*

Hedge Fund Investment Opportunity- Executive Summary

Firm:	Och-Ziff Capital Management	Fund Name:	Och-Ziff Master Fund, Ltd.
Category:	Multi-Strategy	Product Assets:	\$15.6 Billion
Lock-Up Period:	Two Years	Due Diligence:	Cliffwater/Staff

Organization & People: Och-Ziff Capital Management (Och-Ziff) was founded in 1994 by Daniel Och and the Ziff family. Och-Ziff is based in New York and has additional offices in London, Tokyo, Hong Kong and Bangalore. Och-Ziff currently manages five hedge fund products globally with over \$23 billion in assets under management. The flagship multi-strategy vehicles account for \$15.6 billion of the assets. New investors are able to access the Och-Ziff Master Fund (OZMF) product through two feeder funds (one onshore and one offshore). The master fund and feeder funds have the same investment objectives and structure.

Och-Ziff has 267 employees, including 114 investment professionals and 83 individuals dedicated to operations. Ownership is spread amongst 44 members of the firm. The equity sharing plan has been expanding over the past several years as Daniel Och has reduced his ownership to less than 50%. Och-Ziff's investment teams are organized by strategy and led by a senior portfolio manager. The teams are broken down into coverage of U.S. equities, European equities, Asian equities, distressed credit, convertible arbitrage, special situations and real estate. Analysts in the U.S. and Europe cover specific sectors, while the analysts in Asia cover specific geographic areas.

Investment Strategy & Process: The objective of the OZ Master Fund is to achieve positive absolute returns that are uncorrelated with the equity market indices. Och-Ziff seeks to accomplish this objective through investing in several different investment strategies on a global basis. Och-Ziff follows a bottom-up, research driven process that is supported by a combination of qualitative and quantitative analysis. Capital preservation is a core component of Och-Ziff's strategy. The OZ Master Fund will have an event-driven bias that emphasizes selection of the most attractive risk/reward opportunities available.

Daniel Och oversees the investment process and is responsible for setting the allocation of the portfolio. Capital is allocated on an opportunistic basis across strategies and geographic regions. Each investment is compared to other potential uses of capital. The individual strategy teams are responsible for sourcing, analyzing and recommending potential investments in their respective areas. Och-Ziff utilizes a dedicated relationship manager to interact with financial intermediaries, sell side analysts and other data providers and then distributes information to the firm's research analysts. Securities are recommended after an extensive fundamental analysis. Compensation is based on total firm performance to help ensure that capital is deployed to the most attractive opportunities on an ongoing basis.

Portfolio Construction and Diversification: The OZMF makes investments across five underlying strategies in North America, Europe and Asia. The five strategies are merger arbitrage, equity restructuring, convertible/capital structure arbitrage, distressed credit and private market investments. Capital is allocated opportunistically across strategies and geographies. If opportunities are scarce, the OZ Master Fund will hold a larger cash position. Och-Ziff utilizes a conservative amount of leverage limited to arbitrage opportunities. As a result the total fund leverage ratio is around 1.25 to 1.

Below is a breakdown of the approximate portfolio allocation* as of April 1, 2007:

Strategy	U.S.	Europe	Asia	Total
Merger Arbitrage	5	7	2	14
L/S Equity Restructuring	31	19	10	60
Convertible Arbitrage	7	1	2	10
Distressed Credit	2	2	0	4
Special/Private Investments	5	3	4	12
Cash	0	0	0	0
TOTAL	50%	32%	18%	100%

*Please note that the allocation decisions are made on an opportunistic basis and will change over time. There are no pre-established limits or targets.

Hedge Fund Investment Opportunity- Executive Summary

Performance: Since its inception in April 1994 through March 2007, the OZMF has produced an annualized net return of 17.0% with standard deviation of 5.0%. During the same period, the HFRI Fund Weighted Composite Index returned 11.9% with a standard deviation of 6.8%. The resulting return/risk ratio was 3.4 for OZMF compared to 1.7 for the index. The OZMF has provided high excess returns compared to the benchmark with significantly less variability in returns. OZMF has only experienced one negative performing calendar year since inception. The 2002 calendar year return was -1.58%.

Fees & Liquidity: OZMF will charge a 2% annual management fee and 20% incentive fee. Administrative fees are expected to be less than 10 basis points. Redemptions from the fund can be made annually subject to a two year lock-up period. Och-Ziff can invest up to 20% of the portfolio in side pockets. Side pockets are used for less liquid investments that lack a readily accessible market value.

Conclusion: Och-Ziff is a high quality and disciplined multi-strategy hedge fund manager that has delivered strong results over a long period of time. Management of the fund has been consistent and the team has grown to match the growth in assets under management. OZMF will provide a strategic addition to the existing multi-strategy hedge fund exposure in the existing portfolio. *The Och-Ziff Master Fund Ltd. is recommended for a \$30 million investment.*

Journalism Building and Derby Hall - Renovation

University Hospitals - Emergency Department Expansion

315-2006-916

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): Rhodes Hall-University Hospital

234,178 ASF/480,976 GSF Age: 1979

Description:

This project will renovate space to provide a Critical Decision Unit and relocate the Patient Transportation Services and Facilities Shop.

Project Information:

This project is the result of the first phase of implementation of a feasibility study completed in December 2005. The study was commissioned to ensure that any expansion of the Emergency Department capacity occur in a manner consistent with the longer range growth identified in the Medical Center Facilities Master Plan - South Campus Implementation project.

How does this project advance the Academic Plan? This project will advance the Academic Plan by expanding the Emergency Department to facilitate and utilize new technology, enabling the Ohio State University Medical Center's Emergency Department to remain a Level One Trauma Center. This project will also increase the department's ability to meet the needs of the local community.

Outstanding Funding Issues: None

Morrill Tower - Fresh Express

315-07-0100

Requesting Agency(s): STUDENT AFFAIRS, OFFICE OF

Location(s): Morrill Tower, Justin S.

199,325 ASF/324,504 GSF Age: 1967

Description:

This project will renovate the Morrill Tower food service area, replacing the previous food service functions to the newly-developed "Fresh Express" service concept. The focus of the menu will be on items that are prepared fresh such as "tossed to order" salads, a deli station and a "grilled to order" station.

Project Information:

Improvements include new interior and exterior signage; new lighting; new kitchen layout and equipment. The construction budget reflects electrical, lighting and plumbing work required to adapt the space. There was also a considerable amount of wall tile could not be saved and reused, as originally anticipated.

How does this project advance the Academic Plan? This renovation supports the Academic Plan by enhancing the quality of residence hall life by providing a healthful alternative dining option.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Smith Laboratory - Third Floor Renovation Phase I

315-2006-911

Requesting Agency(s): ENGINEERING ADMINISTRATION

Location(s): Smith Laboratory, Alpheus

134,125 ASF/219,438 GSF Age: 1950

Description:

This project will renovate space on the third floor of Smith Laboratory for the College of Engineering. The project will provide lab and office facilities for research associated with the Wright Center for Innovation - Center for Multifunctional Polymer Nanomaterials and Devices.

Project Information:

Phase II of this project still needs to be developed. The conceptual budget for this phase reflects more construction complexity that was discovered during design. The building HVAC system does not support the design requirements, resulting additional construction work (new penetrations and duct work).

How does this project advance the Academic Plan? Renovation of third floor space in Smith Laboratory will provide space to support new research grants within the College of Engineering.

Outstanding Funding Issues: None

Timing Issues: None identified at this time.

"Ripple effects" of the project: Construction schedule for this project will be coordinated with Physics researchers relocation to the new Physical Sciences Research Building.

Special limitations/risks: None

Deferred Maintenance: This project will address \$46,250 in deferred maintenance.

LONG-TERM LEASE RENEWAL

CREATIVE LIVING FACILITY
150 WEST 10TH AVENUE
COLUMBUS, OHIO

Location and Description

Creative Living Housing Corporation is a non-profit organization offering assisted housing to students with physical disabilities. One of the properties operated by Creative Living Housing Corporation is leased from the University and located at 150 West 10th Avenue, Columbus, Ohio.

Creative Living Housing Corporation has 5 years remaining on a lease for 25 years. There is a 25-year renewal option under the current lease. Creative Living Housing Corporation is interested in refinancing the HUD held mortgage secured by the lease to obtain a lower interest rate. HUD will refinance the mortgage if Creative Living Housing Corporation can obtain a lease for a minimum term of 50 years. HUD will accept a 25-year term with a 25-year renewal option as compliance with the requirement. Creative Living Housing Corporation has given notice that it will exercise its renewal option under the current lease. Creative Living Housing Corporation requests that the University grant an additional renewal option of 25 years.

The refinancing of the mortgage to a lower interest rate will generate funds so Creative Living Housing Corporation can make needed improvements to the building on the site.

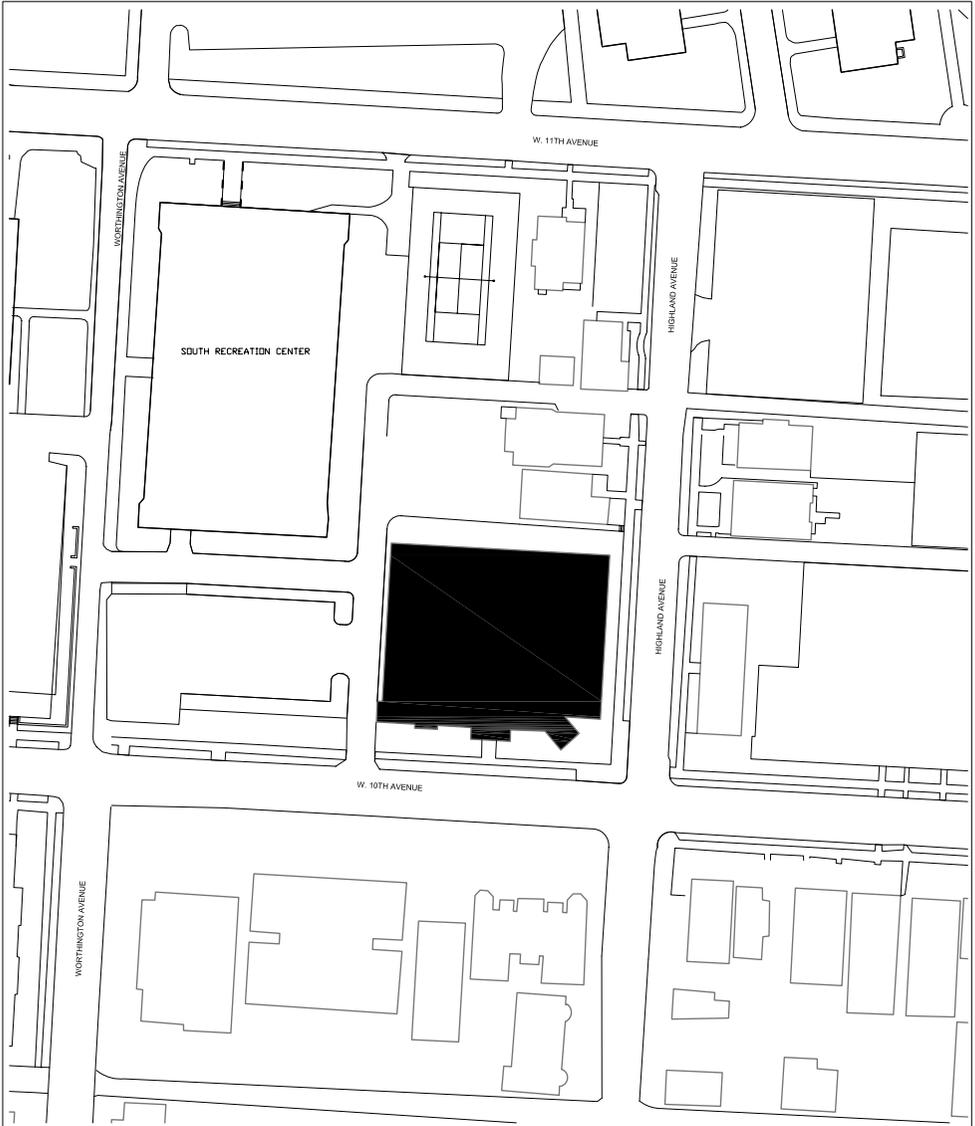

Terms of Lease

The lease term shall be for a renewal option of 25 years.

Rent for the property will be \$1.00 annually.

Long Term Lease Renewal Option

- Long Term Lease - Creative Living Facility, 150 West 10th Avenue, Columbus, Ohio

**The Ohio State University Board of Trustees
Fiscal Affairs Committee
June 1, 2007**

TOPIC:

Gift of Property – Hawk’s Nest Golf Course – Second Reading

CONTEXT:

The University has been presented with the opportunity to obtain by gift, 193.52 acres of land located in Creston, Ohio approximately 11 miles north of the OSU ATI Wooster Campus. The gift of land includes the Hawks Nest Golf Club which is an 18-hole public golf course located on this site. The gift includes the land, buildings and equipment associated with the golf course. The fair market value of this property is approximately \$4,100,000 in “as is” condition with an additional \$500,000 of golf course equipment.

Hawks Nest Golf Course was built in 1993 and is currently rated a 4.5 out of 5 star golf course according to Golf Digest placing it among North America’s 201 best public-access courses. Hawks Nest is well known in Northeast Ohio as a premier golf course and attracts avid golfers from Cleveland and surrounding areas.

RECOMMENDATION:

This proposal differs from the initial proposal brought before the Board at May 4, 2007 Board of Trustees meeting in the following specific ways:

1. This is an outright gift with no requirement for additional payment
2. There are no restrictions on selling all or part of the property
3. Academic goals have been clearly articulated (Attachment A)
4. The business plan is being independently validated (Attachment B)
5. A back up strategy has been developed along with an appropriate trigger and reporting mechanism (Attachments C and D)

ATI would like to accept this gift and the College of Food, Agricultural and Environmental Sciences supports this proposal. ATI believes the property supports their academic mission by serving as a learning laboratory for several of their key instructional programs. ATI also welcomes the opportunity to operate the golf course and believes it can at least break even. However, in the event this is not the case and the golf course experiences losses, a proposal is included to set aside a reserve to cover possible operating losses and to implement an exit strategy if needed.

CONSIDERATIONS:

- Have the concerns raised by the Fiscal Affairs Committee at the May 4, 2007 meeting been addressed?
- Is accepting the transfer in the best interest of the University?
- How would acceptance of the property support the Academic Plan?
- What are the risks in accepting/not accepting the property?
- Have the risks associated with operating a golf course been mitigated?
- How well is ATI doing on its deficit reduction?
- Have the other options for use/funding of this property been identified?

REQUESTED OF THE FISCAL AFFAIRS COMMITTEE:

Approval of attached resolution

Academic Mission:

The applied nature of ATI's fifteen agricultural, horticultural, environmental and business programs makes this facility a highly valued learning laboratory. ATI's faculty and undergraduate and graduate students along with research scientists from OARDC can utilize the land and its resources for scientific research. There are over 50 course offerings at ATI that would incorporate the use of this land as a part of the course curriculum.

The preliminary environmental site assessment noted that the property has three ponds and a stream and wetland characteristics were observed. If indeed, the site is deemed to include a wetland, this will create an additional and welcome opportunity for many College faculty and students. The College, including ATI & OARDC, has more than 15 faculty members who focus on environmental sciences, many of them specifically on wetlands. The College offers several interdisciplinary programs that would benefit from the opportunity to use wetlands for courses and research. However, this assessment was not a wetlands determination report; such an assessment is the sole authority of the U.S. Army Corps of Engineers and may need to be completed.

ATI feels it could very easily achieve an enrollment increase of 10 to 15 students per year through the recruitment potential of Hawks Nest.. This could amount to \$100,000 to \$150,000 in additional revenue per year.

Examples of ATI Programs that would benefit:

- Professional Golf Management
A pending college curriculum for aspiring PGA Professionals will provide students the opportunity to acquire the knowledge and skills necessary for success in the golf industry. Students not accepted at the Columbus Campus due to the selective admissions process, would have the opportunity to enroll initially at ATI and then transfer to the Columbus Campus to complete their degrees.
- Turf Grass Management
This program involves the science and business of using turf grass. All turf grass students complete two courses in golf course management.. Students can use the site as a land laboratory to gain experience in turf grass maintenance and design and construction of golf courses.
- Sports/Commercial Turf Equipment
Program involves the maintenance, applications, trouble-shooting, repair and rebuilding of commercial mowers, reel equipment, and other types of outdoor power equipment.
- Horticultural Science
This program includes the study of landscape horticulture, crop science, turf science and grounds management. Students can utilize the vast landscape to study woody and herbaceous plant materials, plant disease, and design and construct landscape including features as terraces, flowerbeds, fences and walkways. Arboriculture students can use the course as a primary site for tree-care and pruning.
- Environmental Resources Management
This program involves finding solutions to critical issues of air pollution, water quality, soil erosion, and waste management. Technical courses include the study of environmental resources, regulated waste management, and other business applications.
- Agricultural Commerce/Business Management:
Students study business and agriculture. Technical courses include accounting, personnel management, advertising and promotion, HR management and small business management.

Proforma Assumptions:

The attached proforma reflects three scenarios related to the financial projections associated with the operations of the golf course. These proformas have been independently reviewed and approved by the office of Resource Planning and OSU Athletics. We have also asked an outside golf course management firm to review these proformas. That review is expected to be completed by the June 2007 Board of Trustees meeting. These three scenarios are based on the following assumptions:

Likely Scenario Assumptions

- Use worst historical revenue generating year (2006) as base with 4% increase in revenue per year
- 2007 Personnel expenses based on FY 2007 OSU pay grades
- All years based on January-December calendar year
- Annual \$76,000 lease to own equipment paid off in July 2006
- Renewal & Maintenance expense = 2% of estimated original cost
- Capitalized equipment increased \$20,000 per year
- 2006 Taxes estimated based on 2005 data
- University Overhead 3.4% of (revenue minus cost of sales)
- House rental estimated at \$750 per month
- Includes contingency
- FY2007 Building & Grounds/Maintenance includes: chemicals, \$46,275, Fertilizer, \$11,895, Misc, \$17,830

Less Optimistic Scenario Assumptions

- Use worst historical revenue generating year (2006) as base with 0% increase in revenue per year
- 2007 Personnel expenses based on FY 2007 OSU pay grades
- All years based on January-December calendar year
- Annual \$76,000 lease to own equipment paid off in July 2006
- Renewal & Maintenance expense = 2% of estimated original cost
- Capitalized equipment increased \$20,000 per year
- 2006 Taxes estimated based on 2005 data
- University Overhead 3.4% of (revenue minus cost of sales)
- House rental estimated at \$750 per month
- Includes contingency
- FY2007 Building & Grounds/Maintenance includes: chemicals, \$46,275, Fertilizer, \$11,895, Misc, \$17,830

More Optimistic Scenario Assumptions

- Use worst historical revenue generating year (2006) as base with 5.5% increase in revenue per year
- 2007 Personnel expenses based on FY 2007 OSU pay grades
- All years based on January-December calendar year
- Annual \$76,000 lease to own equipment paid off in July 2006
- Renewal & Maintenance expense = 2% of estimated original cost
- Capitalized equipment increased \$20,000 per year
- 2006 Taxes estimated based on 2005 data
- University Overhead 3.4% of (revenue minus cost of sales)
- House rental estimated at \$750 per month
- Includes contingency
- FY2007 Building & Grounds/Maintenance includes: chemicals, \$46,275, Fertilizer, \$11,895, Misc, \$17,830

Funding Alternatives to Help Support Golf Course Operations

Generate a \$500,000 to \$1,000,000 endowment to support operations – ATI has a great external and alumni support base especially in the turf grass industry. Many of these alums are in lucrative careers in the golf industry. ATI also has a relatively new development officer who is rapidly building the donor base. He is actively identifying leadership level gifts and is in the midst of discussions with a number of potential donors. He has already sensed a great deal of enthusiasm among potential donors.

- Sell portions of the land for residential development; establish endowment - potential exists to sell a few parcels of property on the north edge of Hawks Nest. This area has “utilities” installed already and could be sold for an estimated \$35,000-\$40,000 per parcel with an estimated 8 parcels available for development. Proceeds could be endowed to support future operations.
- Target alumni for membership/donations – ATI has approximately 5,600 alums and the University has identified approximately 46,000 alumni who live in northeastern Ohio. An aggressive fund raising initiative would be conducted to solicit funds in support of the golf course.
- Support has already been committed by Baker Vehicle Systems of Macedonia, Ohio to provide gift-in-kind usage of equipment during the year for ATI students; they are willing to expand their donation for use at Hawks Nest and will provide specific equipment as needed for classes. Similar arrangements are also under discussion with Century Equipment (Toro) and Xenia Power Equipment (John Deere).
- Rent out the house at ~ \$750.00 per month, or ~\$9,000 per year.

Subject: ATI/Hawk's Nest
Date: May 21 2007
From: Bill Shkurti *WJS*
To: Bob Moser

The purpose of this memo is to follow-up our discussions at President's Cabinet regarding managing the financial risks associated with the proposed gift of Hawk's Nest Golf Course to ATI. By structuring this proposal as an outright gift with the ability to sell all or part of the land, we have reduced the financial risks considerably.

Nonetheless, the less optimistic scenario shows a potential cumulative loss of \$238,000 over the next four years. Consequently, we discussed having ATI set aside a reserve of \$250,000 for this purpose. This reserve will be held in a separate interest bearing restricted account for use only with the joint approval of the Vice President for Agricultural Administration and the Senior Vice President for Business and Finance. If the reserve is depleted, the Vice President Agricultural Administration will direct ATI to sell a portion of the property and take whatever steps are necessary to return to a break even status. Should the golf course meet or exceed projections, the reserve will be returned to ATI at the end of four years.

The Vice President for Agricultural Administration will report quarterly to the Executive Vice President and Provost and the Senior Vice President for Business and Finance on the financial status of the golf course. This information will be included in the quarterly financial report to the Board of Trustees.

If this is consistent with your understanding, let me know so we can include this in the Board materials.

**THE OHIO STATE UNIVERSITY
BOARD OF TRUSTEES
FISCAL AFFAIRS COMMITTEE
JUNE 1, 2007**

TOPIC:

FY 2008 BUDGET

CONTEXT:

This is the third of four discussions about the FY 2008 Current Funds Budget

SUMMARY:

Because the state budget is still unfolding, only two actions are recommended for vote at this meeting:

- Approval of user charges for self-supporting auxiliaries, including the health system
- Approval of an interim budget for the period between 6/30/07-7/13/07

The remaining actions necessary to implement the FY 2008 Current Funds Budget will be presented at the July 13th meeting.

CONSIDERATIONS:

- What will be presented at the July 13th meeting?
- What are the risks of operating on an interim budget for two weeks?
- What will we tell current and prospective students about possible tuition rates for Fall 2007?
- What will we tell our faculty and staff regarding possible reallocations for FY 2008?
- What are our goals in the Senate?

REQUESTED OF FISCAL AFFAIRS COMMITTEE:

Approval of the attached resolutions regarding user fees for self-supporting auxiliaries and an interim budget.

Discussion and advice regarding remaining current funds budget issues.

FY 2008 Budget Update

- I. Prior Board Actions
- II. Action Requested at This Meeting
- III. User Charges
- IV. Health System Budget and Charges
- V. Supplemental Instructional Fees
- VI. Items of Concern for the Senate
- VII. What Happens Next

I. Actions Taken at Previous Meetings

- A. April 6 –
 - 1. Implications of Governor's recommendations
 - 2. Financial benchmarks
- B. May 4 –
 - 1. Implications of House budget
 - 2. Preliminary recommendations for graduate and professional fees
 - 3. Human resources benchmarks

II. Actions Requested at This Meeting

- A. Approve user fees for self-supporting auxiliary operations, including the Health System
- B. Approve interim budget to allow the University to operate between June 30 and the July 13, 2007 Board of Trustees meeting
- C. First reading only for supplemental instructional fees that do not affect all students

III. Designated User Fees

- A. Fees and Charges listed below are required to provide activities and services which are self-supporting and receive no state support or tuition dollars.

Fees and Charges

(All figures are for an academic year of three quarters)

Mandatory for All Students	Current Amount	Dollar Increase	Percent Increase
Recreation Fee ¹	\$234	\$9	3.8%
Health Insurance ²	\$1,365	\$69	5.0%
COTA Bus Pass	\$27	0	0.0%

Non-Mandatory			
Room & Board ³	\$7,236	\$345	4.7%
Parking ⁴	\$72	\$3.60	5.0
Football Tickets ⁵	\$116	\$4	3.5
Basketball Tickets ⁶	\$11	\$.50	4.5

IV. The Ohio State University Health System Fiscal Year 2008 Budget and Fee Increases

The Ohio State University Health System budget for Fiscal Year 2008 is built on the strategic and financial plans of the organization. It provides a significant increase in Total Operating Revenues that will exceed \$1.5 billion, an increase of \$151.3 million or 11.1% compared to the FY 2007 forecast. Of the \$151.3 million growth in total revenues, approximately \$16.5 million is generated through the weighted average 7.6% price increase and \$134.8 million is generated through contractually agreed rate increases, additional volume and new programs. As a result, the FY 2008 budget provides a positive gain from operations of \$102.7 million compared to a FY 2007 forecast of \$97.7 million. The Health System is budgeting Earnings before Interest, Depreciation and Amortization (EBIDA) of \$171.3 million compared to the FY 2007 forecasted EBIDA of \$161 million.

Key Statistics and Activities:

	<u>2008 Budget</u>	<u>2007 Forecasted</u>	<u>%Change</u>
Admissions	58,562	56,584	3.5%
Patient Days	337,625	328,719	2.7%
Length of Stay	5.77	5.81	(.7)%
Average Daily Census	925	901	2.5%
ED Visits	106,602	101,740	4.8%
Outpatient Visits	921,864	881,108	3.8%
Surgery Cases	31,049	30,785	.9%
FTE 's	8,469.7	8,018.5	5.6%
Weighted Price Increase for UH, UHE, OSU James, and OSU/Harding			7.6%
Weighted Average Salary Increase			4.45%

¹ This is a flat fee for four credit hours and above.

² Based on "Single Student Comprehensive Rate".

³ Weighted average room rates and basic meal plan. Individual rates may vary.

⁴ Rate is for West Campus.

⁵ Student football package is 4 games.

⁶ Per game – price varies between \$9.50-13.50 depending on location

In summary, The Ohio State University Health System budget for FY 2008 continues to reflect the expected growth in volume and improvement in margins consistent with the strategic and financial plans. The FY 2008 budget also meets the financial targets set in the long range financial plan by growing cash on hand by approximately four days, having an EBIDA margin of 11.4 % and debt service coverage of 8.1. The areas of sensitivity in the budget are; volume changes, payor mix shifts and service mix. With that said reaching the financial targets should be attainable.

V. First reading for supplemental instructional fees that apply to some students (no vote requested):

Technology Fees	FY07 Rate	Dollar Increase	Percent Increase
College of Arts (Undergraduate & Graduate)	\$53	\$3	6%
College of Business (Undergraduate)	\$112	\$15	13%
College of Business (Graduate)	\$159	\$15	9%
College of Engineering (Undergraduate)	\$110	\$0	0%
College of Engineering (Graduate)	\$120	\$0	0%
College of Nursing (Undergraduate & Graduate)	\$50	\$3	6%
MAPS in CSE (Undergraduate)	\$73	\$0	0%
Dept of Engineering Physics (Undergraduate)	\$73	\$0	0%
School of Music (Undergraduate)	\$50	\$0	0%
School of Public Policy & Mgt (Graduate)	\$120	\$0	0%

Undergraduate Program Fee			
College of Biological Sciences	\$60	\$0	0%
College of Business	\$150	\$50	33%
College of Engineering	\$0	\$50	New
College of Nursing	\$50	\$0	0%
School of Allied Medical Professions	\$50	\$0	0%
School of Music	\$150	\$9	6%

Field Practicum Fee			
College of Social Work	\$0	\$50	New

Clinical Fees			
Optometry Clinic Usage Fee	\$340	\$0	0%
Dental Hygiene EFDA Fee (Continuing Students)	\$128	\$0	0%
Nursing Clinical Fee	\$250	\$0	0%

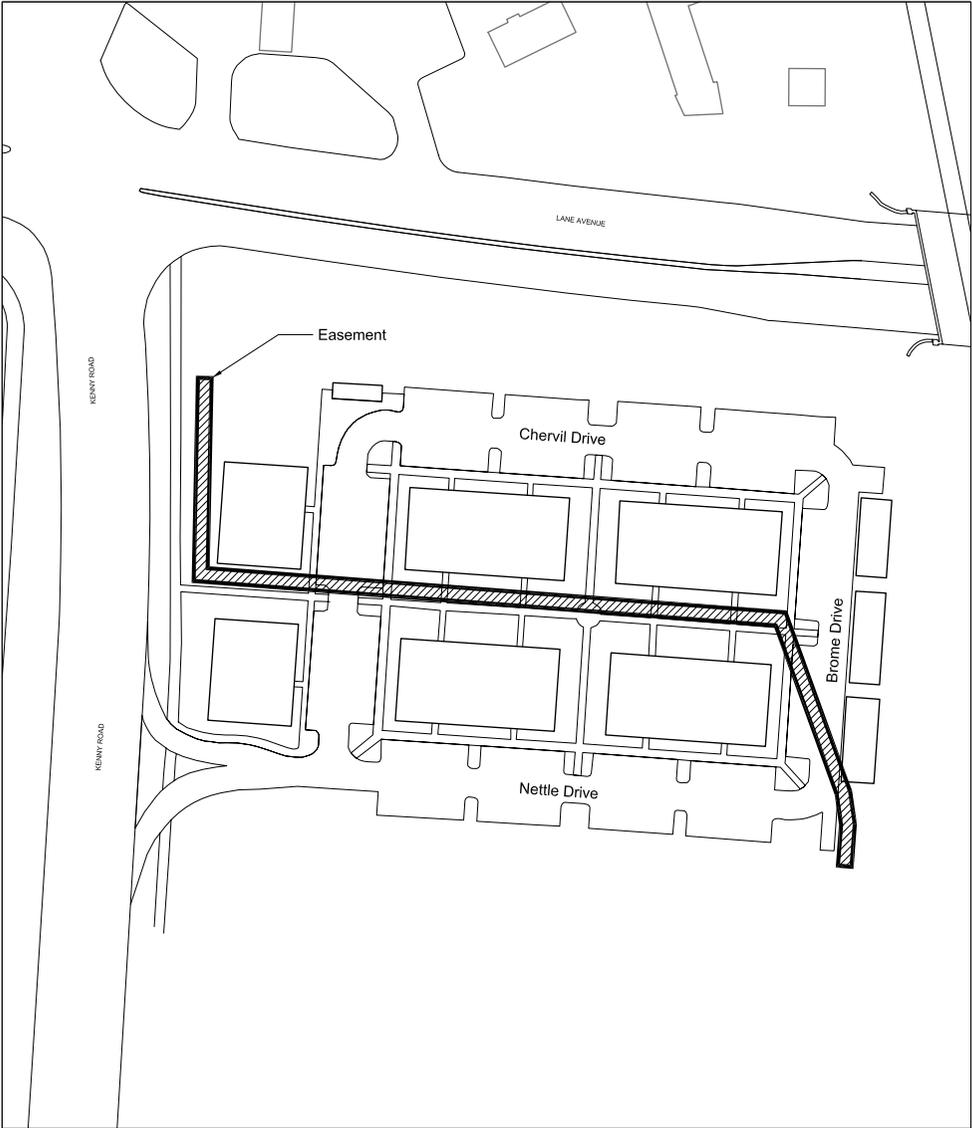

VI. Items of Concern for the Senate

- A. Maintain net funding levels at least as favorable as the House version.
- B. Clarify funding and language issues regarding innovation incentive.
- C. Address what happens to tuition if state support is not forthcoming as promised.
- D. Clarify efficiency requirements so that colleges and universities that have already made progress in this area are not penalized.

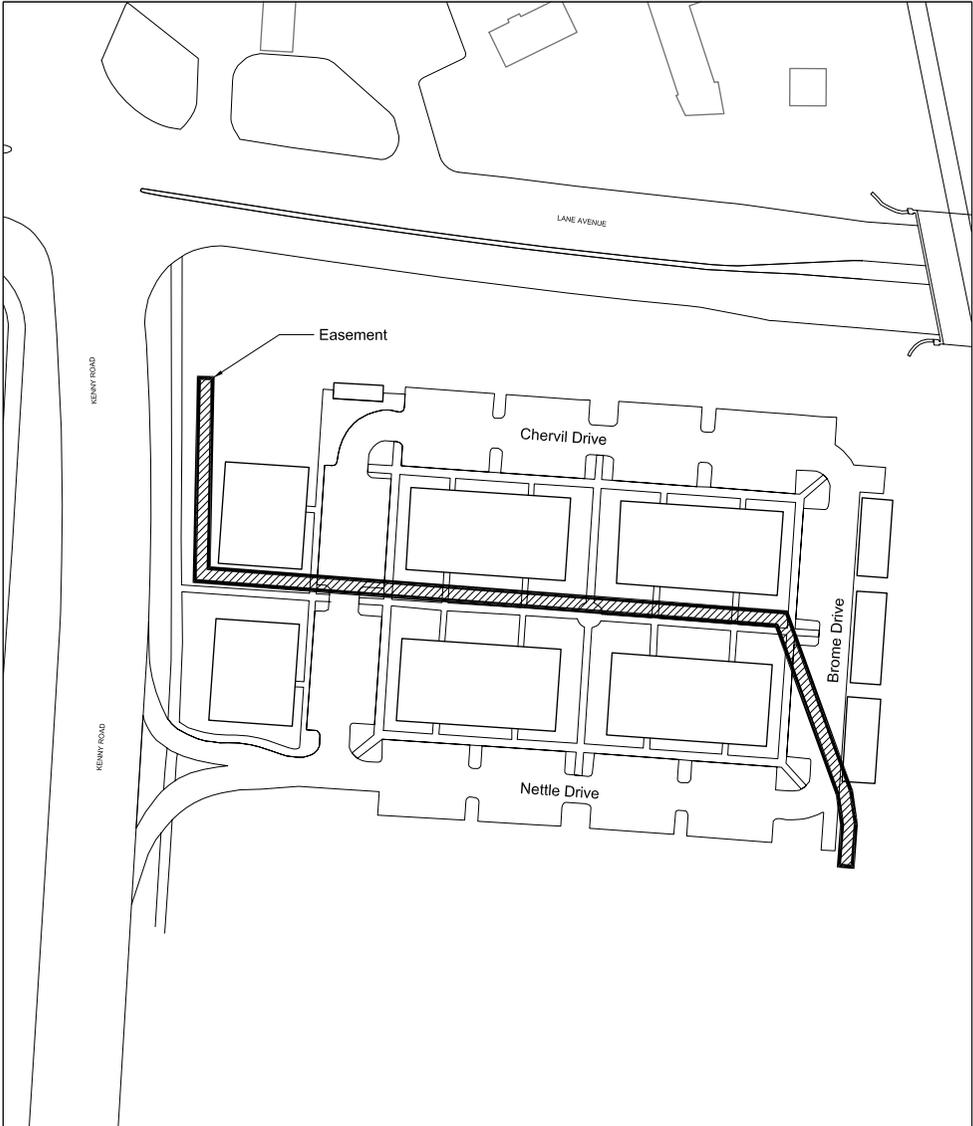

VII. What Happens Next

- A. Recommendations for tuition and instructional fee increases and the FY 2008 Operating Budget (including revenue and expense detail) will be presented for approval at the July 13, 2007 Board of Trustees meeting, along with instructional and general fees for regional campuses.
- B. The Current Funds Budget book will be presented at the September Board meeting.
- C. All fee increases will be effective Fall Quarter 2007, unless otherwise indicated.
- D. Pay raises for most faculty and staff will be effective October 1, 2007.

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND THIRTY-SECOND MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, June 15, 2007

Pursuant to paragraph (B) of bylaw 3335-1-01 of the Administrative Code of The Ohio State University, the Board met upon the call of the Chairman, G. Gilbert Cloyd, in a special meeting on Friday, June 15, 2007, at 1:00 p.m., at The Ohio State University Longaberger Alumni House, Columbus, Ohio.

**

**

**

June 15, 2007 meeting, Board of Trustees

The Chairman, Dr. Cloyd, called a special meeting of the Board of Trustees to order on Friday, June 15, 2007, at 1:00 pm. He requested the Secretary to call the roll.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Jo Ann Davidson, John D. Ong, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Algenon L. Marbley, Christopher Alvarez-Breckenridge, and Debra J. Van Camp.

--0--

Dr. Cloyd:

In a moment we will be taking a roll call vote to go into Executive Session; that vote will conclude all formal Board action for the day beyond adjourning the meeting.

I hereby move that the Board recess into Executive Session for the purpose of considering personnel matters regarding employment. There will be no official actions taken during or following this Executive Session. May I have a second?

Upon motion of Dr. Cloyd, seconded by Amb. Ong, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, Ong, Wexner, O'Dell, Shumate, Hicks, Fisher, and Schottenstein.

--0--

Thereupon the Board adjourned to meet Friday, July 13, 2007, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

--0--

Attest:

G. Gilbert Cloyd
Chairman

David O. Frantz
Secretary

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND THIRTY-THIRD MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, June 22, 2007

Pursuant to paragraph (B) of bylaw 3335-1-01 of the Administrative Code of The Ohio State University, the Board met upon the call of the Chairman, G. Gilbert Cloyd, in a special meeting on Friday, June 22, 2007, at 3:05 p.m., at The Ohio State University Longaberger Alumni House, Columbus, Ohio.

June 22, 2007 meeting, Board of Trustees

The Chairman, Dr. Cloyd, called a special meeting of the Board of Trustees to order on Friday, June 22, 2007, at 3:05 pm. He requested the Secretary to call the roll.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, Robert H. Schottenstein, Thekla R. Shackelford, Algenon L. Marbley, Christopher Alvarez-Breckenridge, and Debra J. Van Camp.

--0--

Dr. Cloyd:

In a moment we will be taking a roll call vote to go into Executive Session. I hereby move that the Board recess into Executive Session for the purpose of considering personnel matters regarding appointment and employment. May I have a second?

Upon motion of Dr. Cloyd, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Borrer, O'Dell, Shumate, Hicks, Schottenstein, Shackelford, and Marbley.

--0--

Dr. Cloyd reconvened the meeting on Friday, June 22, 2007, at 5:05 pm.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, Robert H. Schottenstein, Thekla R. Shackelford, Algenon L. Marbley, Christopher Alvarez-Breckenridge, and Debra J. Van Camp.

--0--

REPORT ON THE PRESIDENTIAL SEARCH COMMITTEE AND APPOINTMENT OF INTERIM PRESIDENT

Dr. Cloyd:

Mr. Shumate, I would like to turn to you for your report.

Mr. Shumate:

Thank you, Mr. Chairman. As you know, the presidential search committee continues to pursue the charge we were given by our former chair, Judge Duncan, and that is to conduct a thorough and nationwide search with the ultimate goal of recommending the best possible candidates to this Board of Trustees so that a new president can be in place by the start of Autumn Quarter 2007. From the beginning, we have asked everyone involved with the process, both inside and outside the University community, to exercise the discretion and understanding necessary to ensure a successful search process. We appreciate the fact that everyone involved, including the members of the media, have been respectful of our need to maintain confidentiality throughout this process; it remains critical to our success moving forward.

Meanwhile to ensure flexibility in the search process and clarity in the leadership of the University, I propose that effective July 1, 2007, and until such time as the Board names a new president, that Joseph A. Alutto, the

June 22, 2007 meeting, Board of Trustees

interim executive vice president and provost be named interim president of the University, and I so move, Mr. Chairman.

Dr. Cloyd:

Thank you, Mr. Shumate. Do we have any discussion?

Mr. McFerson:

I will second that motion.

Mr. Schottenstein:

Mr. Chairman, I whole heartedly support the motion. I think that Dean Alutto has done an extraordinary job in leading the Fisher College of Business for many years. It is truly one of our many jewels and he has helped make it that way. I think that he has demonstrated strong leadership not only in the Fisher College but also in various aspects in this University. I know that we will be well served by having Dean Alutto serve as interim president of Ohio State. As I said, I whole heartedly support the motion.

Mr. O'Dell:

He is a highly recognized and respected leader in this state and community, and has done a great job in the Business School and the University. I strongly support this motion.

Ms. Hendricks:

One thing that I know from having my experience more on the technical side, is that Dean Alutto is an executive dean. I know that Bud Baeslack, dean of Engineering, has the highest regard for him. So he really has been able to have influence -- more broadly than in the Business School -- and that will be helpful to put him in this position.

Mr. McFerson:

I think that we are fortunate, as a University, to have someone of his stature ready to step up and help us at this time. He is a proven leader who has been around here a long time and has achieved high marks for the Fisher College. I think it is a terrific recommendation and I am thrilled to be able to second the motion.

Dr. Cloyd:

Thank you. Any other comments? Mr. Secretary, please call the roll.

Upon motion of Mr. Shumate, seconded by Mr. McFerson, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Wexner, O'Dell, Shumate, Hicks, Schottenstein, Shackelford, and Marbley.

--0--

Dr. Cloyd:

Mr. Shumate, let me, again, compliment you on both the quality and tenacity as leading our search committee. I think you are doing great work and it is really appreciated by all of us. It is very difficult to do it while maintaining the confidentiality of people. I think you are doing a great job of getting the

June 22, 2007 meeting, Board of Trustees

broad input that we need, while also respecting the privacy of others. So from the whole Board, thank you and we do look to successful completion of the search by Autumn Quarter 2007.

To Dean Alutto, congratulations. Before we adjourn, Joe, I'm sorry that you weren't in here for the discussion. Just to capture in summary, the University is really very fortunate to have a leader of your stature that can step forward July 1 as our interim president. We are very, very confident that under your service, you are going to keep the University moving forward and up, the way we want. Thank you very much for agreeing to do this.

Dean Joseph A. Alutto:

Thank you very much and thank you very much for the honor. I have a passion for this University and my task will be to keep us on target and moving towards our goals and agenda for action. That is why we are here and that is how we spend our time and energy. Thank you very much.

Dr. Cloyd:

Thank you, Joe. The meeting is adjourned.

--0--

Thereupon the Board adjourned to meet Friday, July 13, 2007, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

--0--

Attest:

G. Gilbert Cloyd
Chairman

David O. Frantz
Secretary

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND THIRTY-FOURTH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, July 12 and 13, 2007

The Board of Trustees met at its regular monthly meeting on Thursday, July 12, and Friday, July 13, 2007, at The Ohio State University Longaberger Alumni House, Columbus, Ohio, pursuant to adjournment.

** ** *

Minutes of the last meetings were approved.

** ** *

July 13, 2007 meeting, Board of Trustees

The Chairman, Dr. Cloyd, called the meeting of the Board of Trustees to order on Thursday, July 12, 2007, at 3:35pm. He requested the Secretary to call the roll.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Algenon L. Marbley, Christopher Alvarez-Breckenridge, and Debra J. Van Camp.

Dr. Cloyd:

At this time, I will entertain a motion to recess into Executive Session to consider a personnel matter regarding employment and appointment.

Upon motion of Mr. Shumate, seconded by Mr. Borrer, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Davidson, Ong, Borrer, O'Dell, Shumate, Hicks, Fisher, Schottenstein, and Marbley.

Dr. Cloyd reconvened the meeting at 4:30pm.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Algenon L. Marbley, Christopher Alvarez-Breckenridge, and Debra J. Van Camp.

ELECTION OF PRESIDENT

Resolution No. 2008-37

Dr. Cloyd:

Before we start, I would like to acknowledge and thank Chancellor Eric D. Fingerhut for joining us here today. It is great to have you here, sir. I would also like to acknowledge that Speaker Jon Husted was here earlier, and we have some other members of the General Assembly here today, and I want to thank them for their participation.

Over the years The Ohio State University has been blessed with many great and visionary leaders, men and women who have inspired us to define and articulate the mission of this great University. Men and women who have developed meaningful goals and then recruited the talent, built the consensus, created the climate, and helped us acquire the resources to achieve them. Men and women who have encouraged us to raise our aspirations and then guided us as we have worked to close the gap between those aspirations and our actual performance.

Each of these leaders has contributed to Ohio State's standing as the nation's largest public land-grant university, as the state's best public university, and importantly as a leader in defining how society can have high-quality postsecondary education for all of its citizens while preparing them for success in a knowledge-driven, global economy. Each has left his or her indelible mark on the University, on its outstanding academic programs, on its talented faculty, on its world-class researchers and research facilities, and on the great learning experiences that prepare our students to become tomorrow's leaders of business and industry, entrepreneurs, writers and artists, inventors, political decision makers, and contributing citizens.

July 13, 2007 meeting, Board of Trustees

This reality explains why the Board of Trustees approached the search for a new president as both a challenge and an opportunity. It has been a challenge because our next president will have the responsibility to lead Ohio State in very uncertain times; to accelerate the University's climb up the academic ladder while fulfilling our promise to provide broad access to excellent education; to attract the best and brightest students and faculty to this University; to make the difficult, strategic choices that will allow Ohio State to make better use of its resources; and to capitalize on the new confidence shown by Ohio's leaders in higher education as the engine of economic growth and prosperity for this state

But it also has been a great opportunity for us because Ohio State's 14th president will guide us as we improve Ohioans' access to excellent postsecondary learning experiences, as we prepare them for the global and diverse world in which they are going to have to live and work, as we build our capacity to conduct life-changing basic and applied research, and as we search for ways to do all of this more productively and efficiently.

This blending of challenge and opportunity is reflected in the profile of the next president that guided our search. We set out to find a leader with a clear and inspirational vision for higher education in the 21st century; exemplary integrity, trustworthiness and wisdom; breadth and depth of intellect and a distinguished record of innovation and scholarly achievement; and superb interpersonal, communication and leadership skills.

It has been daunting, yet an inspiring task led by my fellow Board member, Alex Shumate. And today, I am pleased to report that we have completed our search and that the Board is ready to consider the recommendation of the Presidential Search Committee. Mr. Shumate.

Mr. Shumate:

Thank you, Mr. Chairman. The charge to the members of the Presidential Search Committee was to look for a proven leader; someone with experience leading a large, complex institution; and an innovative and effective implementer. We were asked to search for a bold leader, someone with imagination, perception and creativity, skilled at working with all elements of the University, and with external constituencies upon whom we depend and whom we have an obligation to serve. We were directed to identify a leader who could build on our traditions, harness the University's strengths, address its weaknesses, respond to emerging needs, seize new opportunities, and inspire us. Mr. Chairman, I believe that we have met the Board's expectations.

I do want to take a moment to acknowledge the dedicated work of our Search Committee members. They gave freely of their time and their talent, and they always put the interest of this great University first. I want to also thank our search firm, Heidrick & Struggles, and, more specifically, Bonnie Gwin for her informed and wise guidance and counsel. And to my colleagues on this Board, thank you for setting a high bar and for your determined efforts to ensure that our expectations were met by our performance.

Through our search, we believe that we have found the leader we are looking for. So this afternoon, we are recommending that the Board of Trustees formally extend an offer to Gordon Gee, currently the chancellor at Vanderbilt University, to serve as the 14th president of The Ohio State University.

Many of us know Gordon Gee from his 7 years as president here at Ohio State. Under his previous leadership the University expanded and strengthened its academic offerings, launched new research initiatives, and began the development of its Science and Technology Campus. We also expanded efforts to rebuild our aging infrastructure

July 13, 2007 meeting, Board of Trustees

and conducted an unprecedented capital campaign that raised \$1.23 billion, driven by an understanding that there can be no great creation without a dream.

Gordon Gee led Ohio State with a clear understanding that this University, as Ohio's intellectual and economic engine, must stay true to its mission to educate a broad cross-section of Ohio's citizens, even as it expands its research capacity. In everything he did, Gordon Gee also reflected the Buckeye Spirit. That sense of pride felt by more than 400,000 graduates living and working around the world, that connection that all of us feel when University researchers announce another scientific discovery, when a new company commercializes a technology developed at Ohio State, or when 104,000 fans celebrate another victory at Ohio Stadium.

During the past 10 months, we have conducted a thorough, open-minded national search. We have consulted with scores of education leaders from across the country some of whom could have been candidates for this position. Throughout our search, we were guided by several criteria. We looked for someone with comprehensive experience at a public university, an educator with excellent academic credentials. We looked primarily for a sitting president, a strategic, visionary leader, a tough minded decision maker, a skilled collaborator with external constituencies, and someone who has worked with an academic medical center.

On all of these criteria, Gordon Gee met and he exceeded our expectations. All of us know, just as Chancellor Gee knows, that Ohio State today is not the same university that he led in the 1990s. During the past decade, Ohio State has experienced significant academic progress and its reputation has been enhanced. Ohio State's stature as a center for academic research has been strengthened and the University's annual budget, which was \$1.7 billion a decade ago, is \$3.7 billion today.

But let me also be clear, Gordon Gee is not the same president that led this institution a decade ago. As we talked with Gordon, and as the Board of Trustees explored its options, we discovered that Chancellor Gee is a more seasoned and mature leader, and an incredibly successful university president. He is committed to the power of public higher education and he continues to prove that he is the consummate fundraiser. He is a team leader who knows the importance of empowering people to achieve and who believes in shared governance and shared responsibilities. He is a passionate advocate for universities that are genuine, student-centered learning communities. And he is an unequalled champion, on and off the campus, for higher education and for the opportunities it creates for the students and communities we serve.

Mr. Chairman, we believe that Gordon Gee is one of the most experienced and highly skilled university presidents in the nation. He is the best person for our job and for the challenges and opportunities that lie ahead for Ohio's flagship public university.

Therefore, on behalf of my colleagues on the selection committee who have worked with great dedication to get us to this point and who have earned our sincerest appreciation for the work they have done, I move that the Board of Trustees extend an offer to E. Gordon Gee to become the 14th president of The Ohio State University.

Dr. Cloyd:

Thank you. Do we have a second?

Ms. Hendricks:

Chairman Cloyd, I would like to second the nomination. I was on the Search Committee, along with Alex, and we considered a broad range of people for this job. When we came down to looking at the candidates and the skill sets that they had, I think that we went back and said, "This is the man for Ohio State and for now."

July 13, 2007 meeting, Board of Trustees

We know Gordon brings the strengths that we all experienced some years ago, but as Alex said he has grown and brings now private institution experience as well as a lot of public experience to Ohio State. I think we feel that we will grow as a university also.

Dr. Cloyd:

Thank you, Karen. Any other discussion?

Mr. Borrer:

Thank you, Chairman Cloyd. As a member of the Search Committee, I was on the subcommittee that wrote the "Presidential Profile." Upon reviewing that document and going through the criteria and all the different candidates that we considered, there is no question that Chancellor Gee fits that bill excellently.

One of the issues that we did raise was: "Can you come home again?" "How do you come back to a place that you have been previously?" "How will that be perceived by the public?" As we talked with Gordon, and throughout this process, we realized that his enthusiasm, leadership, vision, and goals for this University far outweighed any baggage that he may have had with him. It became very apparent to me, as a member of this Committee, that he was the person for the job. I very strongly support his candidacy.

Mrs. Davidson:

First, I would like to thank our good Search Committee chairman, Alex, for his patience through this process and his great leadership. It was really a unique experience, because the Search Committee itself was balanced and represented by all the aspects of this University. In our initial conversations as we came together - because we all come at it from different perspective - it was clear that everybody felt that we are in a unique position right now in the history of the University, in which we need people with unique qualifications.

I had an opportunity to work with Gordon in a different setting when I was a member of the legislature. We are very fortunate right now from both the administration and the legislature to have the strongest support we've had in a long time for higher education, but it also brings with it expectations for what we do here. As we all know, we are poised to move up the ladder not only as a flagship university in Ohio, but as one of the national leaders in public education.

I think that Dr. Gee brings together those qualities that this University needs at this particular time in its history to move us up that ladder and to address those legitimate expectations, quite frankly, that are very important for the economy of the state of Ohio, too.

I am fully supportive of the motion.

Mr. Hicks:

I did not have the luxury of serving on the Search Committee, but first of all let me commend everybody that did serve. I felt as a trustee, who is not on the Search Committee, that I was fully informed throughout the entire process and I think we had a lot of deliberations about the scope and the breadth of the search that was done. Again, I want to commend Alex and commend the Committee members. People took an awful lot of their time and their effort to serve on the Search Committee. We certainly commend them for their thoroughness, patience, and persistence that has led us here.

July 13, 2007 meeting, Board of Trustees

Everybody around the table, obviously working on the Search Committee, really loves this University otherwise you wouldn't have devoted this amount time. The University has changed all of us. For some of us, it has opened the door to a pathway of opportunity that we never thought possible. As we look at where we are at today, as Ohio State, we are at a critical defining point in the life of this University. I think it is not just about the past, although certainly we are going to build on the traditions of the past, but it is about the future. The Search Committee, as they went about their work and created the profile that Doug spoke so eloquently to, really did a fabulous job in finding an individual who is uniquely qualified in all of the country who fits the test of what we laid out that we wanted.

I couldn't be more excited for this to happen. I think it is going to be a great thing for the University, it is a great thing for the state of Ohio, and I would echo Speaker Davidson's comments. I look forward to serving with Dr. Gee in the future.

Dr. Cloyd:

Thank you, Mr. Hicks. You know you are making a very important point. I think the Search Committee and the breadth of the various stakeholders of Ohio that they engaged in the process of establishing the profile that Mr. Borrer outlined, led to a sense of clarity of what we wanted that we would not have achieved absent that kind of input. That is an excellent point.

Ambassador Ong:

Alex, in your remarks you pointed out that Ohio State University is not the same in 2007 as it was when Dr. Gee left here in 1997 and that he is not the same person who left here in 1997. The University has grown and developed and so has he. Can I assume that the Search Committee, which, like Brian, I was not a member of, gave him a good overview of where we are and a lot of the very exciting things that, as we all know, lie in the immediate future for this University? Is he aware of that and of the implications of the Academic Plan and so on?

Mr. Shumate:

Thank you, Ambassador Ong. He absolutely is aware of this great University. As he will speak to later I am sure. He has stayed in touch with the University and is well aware of the fact that, for example, our research dollars have substantially increased and the programs that we have for our undergraduate research programs are distinguishing this University. Also, Dr. Gee is very much aware of the quality of our student body and the increases in the performance of our students, not just when they enter, but also when they leave Ohio State.

He is aware of the challenges that we have particularly in the area of making sure that as we strive for the kind of excellence that we, as a Board, believe is important for this University, that we also have that balance of access and affordability. That is a unique balance that we are going to have to make sure we pay special attention to. I spent a number of hours talking with Dr. Gee about these issues. There is a need for that kind of leadership and not just in the state of Ohio. As we talked with various leaders throughout the country, there is a need for a national public university like Ohio State with its research focus, its teaching focus, as well as its community focus, to become the national spokesperson for public higher education to make sure that this balance between equity, access, and affordability is maintained and strengthened as we go forward. Dr. Gee is very much aware of these issues and other issues. I believe that as we look afresh at our Academic Plan - and we believe it is time to take a fresh look at that - that he has the kind of experience to help us in a strategic planning process that engages all of the interested parties and stakeholders of the University in saying, "What do we need to do now to move to the next level of excellence."

July 13, 2007 meeting, Board of Trustees

Mr. McFerson:

Like Brian I was not on the Search Committee this time, but I was last time and I know how much work is involved. Alex, super, super job to you and your colleagues, and Dr. Cloyd, for all of the time you had to spend on this, too.

I knew Gordon quite well when he was here last time. I was working downtown and we interacted a lot. The man knows how to get things done. As I have been sitting here thinking about this, he has spent more than half of his professional life as a sitting president of several universities - public and private. To think that someone of his stature, probably acknowledged as if not the best in the country, right near the top as university presidents - would want to come to The Ohio State University, is a real feather in our cap. I think we should be pretty darn excited about that he would want to come back to Ohio State. He doesn't have to do this. He is probably very happy and comfortable down in Tennessee, but coming back here means that he sees the great potential that has been put in place the last ten years or so under the leadership of Dr. Kirwan and Dr. Holbrook, and the great progress in the Medical Center. This is a totally different University than it was and he is a totally different person, and now he wants to take it to the next level that you so beautifully articulated, Alex. I think that is fantastic.

I look at Dr. Alutto and Dr. Moser, he hired you guys, and he hired some others. Now you get a chance to work for him again. It may be a little different, but I can't tell you how excited I am for this opportunity and what a real blessing it is going to be for The Ohio State University. I am excited to cast my vote "yes."

Mr. Schottenstein:

I share that excitement, Chairman Cloyd. In fact, I am so excited I will probably stumble over my words. I think this is one of the most important and exciting, great days in the history of this great University.

First I would like to thank you, Chairman Cloyd, for your work in this process. Your remarks earlier, I think, really captured the essence of what this is about. We all take our work very seriously and there is no greater responsibility that we as trustees have than what we are about to do and that is to select the individual who is going to lead this University.

Alex, you did an exemplary job in leading the search process, assisted capably by Bonnie Gwin, from Heidrick & Struggles, who did an outstanding job for us. Participating in that process was an extraordinary experience for me, and it was literally like a tutorial on higher education. It was a process and it is important for everyone to understand that. We met with an extraordinary number of very accomplished and talented people. One of our trustees, who couldn't be with us here today, also served on the Search Committee and he deserves special recognition for his efforts in this process and that is Les Wexner.

We are very fortunate. Dimon, you made the point that I was having trouble verbalizing and that is we have a great love for Ohio State University in our hearts. I think what is so special about today is not only will we be hiring an extraordinary leader with extraordinary skills, great acumen, and a great communicator, but who has a place in his heart with a love for Ohio State that we do. The combination of all of that to me gives us momentum and puts us at a place where this is an extraordinary time to be here. We are lucky, and this is great for the University, great for the state of Ohio, and this is a day for all Buckeyes to feel that we are going somewhere.

I wholeheartedly support this motion.

July 13, 2007 meeting, Board of Trustees

Mr. O'Dell:

I also want to thank Alex and the whole Search Committee for a tremendous job. It thrills me to have Chancellor Gee returning to the state of Ohio and it is indeed a great day for The Ohio State University and for this great state.

Mr. Alvarez-Breckenridge:

First of all I would like to thank, Chairman Cloyd, Alex, and all of the members of the Search Committee who did an excellent job and were very diligent in the tasks that they had in front of them.

Secondly from a student perspective I just want to say how thoroughly excited I am to have the opportunity to work with Chancellor Gee and to get to know him. As a member of the Ohio State community for quite a long time, I have heard great stories about the Chancellor. As a student, people would always make comparisons to the Chancellor and I am really excited to have the opportunity to actually see these comparisons come to light.

As someone who was not on the Search Committee, I was wondering if somebody who had the interaction with Chancellor Gee could comment about his fundraising skills in terms of the new capital campaign that we are going to be undertaking. Does he have any type of ideology of what he is going to bring to the table in terms of money for buildings, or scholarships, or things along those lines?

Mr. Schottenstein:

Without equal.

Mr. Shumate:

It is a great question, too, Christopher, because I think we know as a Board we are going to be engaged in a very aggressive and ambitious capital campaign. The focus is going to be on support for excellence, supporting our faculty with chairs, grants, and also access, scholarships for our students. My anticipation is, and I know we are still involved in the planning process, that this is going to be a campaign where we really focus on the academic core aspects of the University, focusing on excellence and access.

Judge Marbley:

Mr. Chairman, I have a slightly different perspective. I am not the youngest but the newest member of the Board and I am going to have the longest to serve with President Gee. I think all of you have put me in a very good position, but I want to make a couple of observations. One is that I see Coach Tressel in the room and I think that the next time he writes a book he should chronicle Alex's great comeback. I think that we have forgotten about the fact that we were losing in the fourth quarter and Mr. Shumate and Dr. Cloyd made a significant comeback when we resurrected this victory and brought the Chancellor here, subject to our vote.

The second thing that I think is quite important for us to consider is that we have looked at some of the finest sitting presidents and provosts in the country. I think, what we have determined is that we have the first among equals and that is quite important. As Dimon said, I think that is a great testament to Gordon's sense of vision and purpose, but also to this University. I don't believe that we sell the University short by saying this is a great institution and anybody should be happy to come to this institution and lead the state's flagship university. We have a great leader at a great university, and seven or eight years from now, when everyone's memory has faded, I might even take credit for having brought him back!

July 13, 2007 meeting, Board of Trustees

Mr. Fisher:

I am also very excited, but the practicality of this is when can he start and how long can I expect him to stay?

Dr. Cloyd:

Mr. Fisher, we will talk about some of the specific terms in a moment. What I've learned with some of the conversations I've had with Chancellor Gee, if this Board elects him, is that he would probably start sometime in the fall. He wants to make sure, and I think it is a credit to his character, he works the right transition plan with Vanderbilt. I'm not going to pin down an exact date in the fall, but more will be forthcoming. Let me just say that his intention is that he intends to be here for a long period of time.

Ms. Van Camp:

Like the Judge, I am a new addition to this Board and I would like to thank everyone for welcoming me in at this exciting time. As Mr. Schottenstein told me when I joined the Board, I was joining at an exciting time.

I bring a student perspective to this Board and one of the chief concerns that I had in the search process was how well the new president would connect with students and help us to ensure that the student voice is represented. Although I have never met Gordon Gee, everything that I have heard from people on the Search Committee, and even deans that I talked to in the school, is that he is very personable and has a good reputation of connecting with students. I'm excited to welcome him back as a Buckeye.

Dr. Cloyd:

Thank you, Debra. Any other discussion?

The members of the Board have before them a nomination to elect E. Gordon Gee as President of The Ohio State University, and know that this is a responsibility of the Board, pursuant to section 3335.09 of the Revised Code.

The terms, which have been incorporated into a term sheet, are that the initial term of office shall be for a period of seven (7) years, with an annual salary set at \$775,000, with an appropriate benefits package. With the approval of this motion, the chair will negotiate a final agreement in conjunction with our counsel to formalize the relationship between the University and Dr. Gee.

Upon motion of Mr. Shumate, seconded by Ms. Hendricks, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Davidson, Ong, Borrer, O'Dell, Shumate, Hicks, Fisher, Schottenstein, and Marbley.

Dr. Cloyd:

Ladies and gentlemen, if you will please keep your seats for a few minutes, I'm going to see if I can find our new president.

Ladies and gentlemen, it is my very distinct pleasure to introduce the 14th President of The Ohio State University - E. Gordon Gee.

July 13, 2007 meeting, Board of Trustees

[APPLAUSE]

President Elect Gee:

Thank you. Gosh, the last time a got a standing ovation is when I told the people at Brown I was leaving! I am so honored to be here. Thank you, Mr. Chairman, I appreciate your leadership.

Yesterday I wrote to the Vanderbilt community and its board and I said the following, "I am not leaving Vanderbilt. Rather I am following my heart and returning to a place that I consider home." I thank all of you for letting me come home. In *Luke 15* in the *New Testament* is the story of the Prodigal Son, well I am that son. I left, I experienced the world, I made my way in a different life and a different time, but this place, this father, this magnificent institution never forgot me and has now forgiven me and welcomed me home. So how true today is that great refrain, which I so dearly love: *Time and change will surely show, how firm thy friendship O-H-I-O*. I am honored, I want you to know.

I do have some people to acknowledge. I want to start with acknowledging the people of Ohio. They have built a great university called The Ohio State University. I appreciated what the Judge had to say, I came here because I recognize - and, of course, I have been president to half of the universities in this country - that this is a remarkable institution. It is not just a great institution, it is a remarkable institution and I think that we should celebrate that and we should celebrate with all 11 million Ohioans. This is my opportunity, but this is their day.

I want to thank our chairman. He and I didn't know each other, we had this kabuki dance that we went through, but he is a wonderful person. One of the great pleasures of my life is going to be an opportunity to work with him as it is with the rest of this Board.

Alex Shumate was the chairman of the Board when I took my sabbatical and left for Brown. I can remember walking to John Wolfe's office then walking across the street and telling Alex. I am amazed that you would actually even recruit me back, Alex. What a blessing he has always been to me.

To our Board of Trustees, some of whom I know very well, all of whom I will know very well over time, I heard what you had to say and I appreciate those words. May they be true and may I make them true. I will work very hard to make that happen. I even have a Vanderbilt father here and I will make sure that you pay a very high tuition at Vanderbilt.

I met with the Search Committee today and it was a different process. This Search Committee showed a lot of trust in this process and for that I am grateful.

Citizen recruiters, and there are a number of them here, but there is no greater captain of that citizen recruiting group than one Jack Kessler. Give him a round applause, he deserves that.

To my colleagues, some of who look slightly older, but none of whom are worn out and who are doing wonderful things for this institution. Joe, I really appreciate the leadership that you are providing. Let me just say, I am the president-elect of the institution, Joe is the president of the University. He is doing a great job and make certain that you continue to support him as we go through this transition. I am honored to have an opportunity to work with him, as I am with the other vice presidents.

Bobby, you haven't changed a bit. I can't wait to get out on the road with you again. Eighty-eight counties! I can remember when I came here, by the way, that I made this great announcement about the fact that I was going to visit every county, every year

July 13, 2007 meeting, Board of Trustees

and then I turned to Alex and I said, "How many counties are there?" And he said, "88." I came from Colorado where there were 20 counties.

I am grateful for the friends that I have here and for the senior leadership, faculty, staff, and students of Ohio State whom I meet in wonderful and strange places whether it be London or Beijing. I was in a hotel in Beijing, China, and I hear this big shout, "O-H." That's Ohio State, that's its spirit, our alumni and friends.

I particularly want to acknowledge my predecessors; it has been 10 years. Brit Kirwan is a great friend of mine and remains a great friend of mine. Brit Kirwan did a wonderful job at this institution and I hope that we continue to acknowledge that great work. He certainly takes great pride in his achievements, as does Karen Holbrook. I did not know Karen as well, but I got to know her and admire her, and I know that she has done remarkable things. In this time and in this effort, it is important for us to know that. So I appreciate that and I want to make certain that we do acknowledge them.

I want to acknowledge the folks at Vanderbilt. It is a wonderful university. They embraced me and I spent seven years at that institution. I hope that they hear me today; I love and admire the people of that institution. As I said, I am not leaving Vanderbilt; I am coming to Ohio State. Martha Ingram, chairman of the Vanderbilt Board, is an angel and has been my angel for all of that time. She has also given Vanderbilt University \$550 million, which is the largest single donation from any individual in this country. I want you to know that I hope to eclipse that at Ohio State.

To the Board of Trustees, my senior colleagues, faculty, staff, and students at Vanderbilt, it has been a love affair for me, but I am home. I am grateful for that and I want to acknowledge them.

I want to now acknowledge two people who are so central to my life. First, I want to introduce my daughter, Rebekah. Rebekah was 14 years old and she did not want to move from Colorado. I still remember this that I had to give her a root canal on the day that we came to Ohio State, literally we gave her a root canal to tone her down a little bit, but she came and she fell in love with this place. Rebekah Gee today whenever she signs where she is from she says, "I'm from Ohio." That is who she is.

Rebekah has gone on to do wonderful things. Rebekah went to Columbia University, Cornell Medical School, and Harvard to do her residency, and Rebekah met her wonderful husband there, and she is now a Robert Wood Johnson Clinical Scholar at the University of Pennsylvania Medical School. She is making a tour of the Ivy League. Dr. Allan Moore, who is her husband, is a graduate of the University of Virginia, the Vanderbilt University Medical School, one of the two of them has a great degree, and the two of them met at the Massachusetts General Hospital at Harvard University, and is now a fellow in endocrinology there. They are fabulous young people and they are the future of this country. I am proud that I am her father and his father-in-law, they are great young people, and you are going to love them as much as I do. I am glad they are here to celebrate with me.

So the question is why am I here? Well I want you to know what I said before, I am returning to be part of one of the most exciting academic environments in American higher education. This, ladies and gentlemen, is Ohio State's time! Since 1990 this University has moved from good to excellence, thanks to the good work and great leadership from the deans, vice presidents, and the presidents themselves. I believe, due to wise decisions and a thoughtful Academic Plan, that this University is now poised, and Joe, you and I will talk a lot about this, to move from excellence to eminence. Judge Marbley, that is where I think we are. We are now poised to move from excellence to eminence. And that is an aspiration that very few institutions in this country can ever have and we are there. I am glad that I can be part of that.

July 13, 2007 meeting, Board of Trustees

This is the most comprehensive, complex university in this country and, therefore, we should be a beacon on the hill for all of higher education. We have the opportunity to set a standard for excellence, to set a standard for leadership, and to set a standard for direction. There are very few universities in this country that can and we will do it right here.

I also want you to know that I am returning as a different, more mature, and more thoughtful academic leader. This is a much different university than I left in 1997 and I am a much different person. This is not *Back to the Future* and this is not *Halloween II*, and I do not intend on being the Grover Cleveland of university presidents. I have had the opportunity to lead and learn from two of the most highly respected and academically distinguished universities in this country, Brown and Vanderbilt. As a result, and I hope you will see this in me, I have developed clarity of purpose and an ability to understand, identify, sustain, and create excellence. Hold me to that standard. Expect that of me. Make certain that I say what I am and what I will do, and that is the maturing process. I want you to understand that even though it is a great joy for me to be here and it is a great honor, this is a different place and I am a different person. I hope that those two will come together again in a wonderful event.

When the state legislature passed unanimously, Madam Speaker, it didn't happen in our time - a state budget and in that budget they said, "We are going to support higher education. This is our number one priority." Why not? This should be; it is about time. This was also a great recruiting opportunity for me, I can assure you. The people of this state are demanding leadership from their university and I believe we now have the tools and ability, financially and politically, to make that happen.

The Governor, whom I know, is doing a terrific job and I just want to acknowledge him. The Speaker of the House and Senate President, I do not know them as well, but I will get to know them I can assure you. They showed unprecedented commitment and leadership and we should be grateful to them. Chancellor Fingerhut, I knew him in his senatorial days. I have followed him closely and have had an opportunity to speak with him at great length about the future of higher education. He is a magnificent voice for quality and excellence and a person who will make a difference to this University and will make a difference to this state.

I want to say this; this is a different kind of Board than I worked with. This is a reorganized, revitalized, and reconfigured Board, and I think a perfectly logical way to now run a university. I am delighted that I can be here to be a part of that. This Board reorganization is important.

I clearly believe that a confluence of common sense and common will is occurring, recognizing that one cannot have a vital and progressive state without the leadership of a great university, it is impossible. But at the same time, this University must recognize that we have an essential and an incredibly significant stake in the future of this state. We are wed. We are The Ohio State University. A great state and a great university can make a difference, but only if we work together.

This leads me to perhaps the most compelling reason I am here. I can now sleep at night. I have spent ten years not in the wilderness, because I love those institutions, but I woke up every morning and I said, "Why am I here?" A private institution has a particular role to play, but 80% of the students in this country are educated in our public universities. They are the front door to the American dream, they represent what life is about, and they represent what this nation is about, and I have returned to the great opportunity that exists. I believe in every fiber of my being in the land-grant mission of this public university. Ohio State is unique. There are very few institutions in this country that are both a land-grant institution and the state's leading institution. What an opportunity for me and what an opportunity for us. I am going to be able to sleep at night, because I will never ask again the questions, "Why do I exist?" and "Why am I doing what I'm doing?"

July 13, 2007 meeting, Board of Trustees

Of course there are many challenges, but the fundamental challenges, I believe, center around people and ideas. You would probably expect me to say money or a variety of other things - that will come. Open your wallets, I'm here! No wallet is safe in this state! That will come, we will make that happen. The fundamental challenges center around people and ideas. We must capture the hearts and minds of the people of Ohio to believe in the fiber that they have in their being that this University will make a difference in their lives and then we must do so. At the same time, we must convince the people of this wonderful University, this great magnificent institution, the faculty, the staff, and the students, that this University is not a job, but a calling and a responsibility. It is a remarkable opportunity that each and every one of us has at this time and in this institution in ways that very few people do. We must create a climate of dignity and respect for each other. We must not be futuristic with each other, we must celebrate our differences, and we must, through those celebrations, make certain that in celebrating that we understand the value of this great University.

We must engage and win the battle for talent. It is all about talent. We don't make cars, Joe, and we don't make widgets, it is all about talent. The most talented faculty teaching the most talented students. We will win that, I am predatory. We will win that, but it will require a lot of hard work. That is what it is about. It is about bright, wonderful faculty engaged in their libraries and in their laboratories, about the world that they are engaged in, and then it is about engaging those wonderful bright students. We will win that battle for talent.

The corollary is that we must win the battle for ideas. You can't run an empty vessel. You can't be a great university unless we are not a place of great ideas and those ideas are found in our laboratories. This institution has marched in a truly distinguished way, it has made a dash for distinction by creating an environment in which research is actually celebrated and in which gifted opportunity for people to make a real difference in terms of what their research does in the lives of people around the world. We are a magnificent research university, but we also recognize and encourage a whole level of creativity that very few institutions can and will do. I think that is Ohio State.

We must not think of our size. We are the largest university in the country. I know I used to talk about the fact that this was an aircraft carrier and I moved to a speed boat. Let me just tell you something, speed boats can be dangerous. We must not think of size as an impediment, but as an opportunity. Size is not an impediment at this institution. We are the most massive intellectual platform in America gathered on one campus, but we will only be that if we can think, act, and operationalize ourselves as one university. We can't be 18 colleges connected by a heating plant and we can't be a series of departments connected by telephone lines. We have to actively, and you are going to hear this theme from me a lot, be one university. If we are this massive institution and we can think with agility and act with simplicity, even in our complexity, we are going to be enormously successful. And no one else is doing that in this country. We will and we can. I am so bound up in that notion. I am thrilled that we have that opportunity.

We must remember that we are about creating ideas and we must be equally passionate about passing along those ideas. If we create ideas, if we have this great research mechanism, and we have it narrowly defined in those laboratories or in those libraries, then we have done ourselves very little good and maybe even some harm. So we must pass along those ideas and we must be a student-centered university. Teaching and learning is our mission and we must make that happen. So, those whom we teach and those who teach and learn here must also reflect the diversity, racially, economically, socially, and culturally, that allows difference to flourish. That allows us to celebrate those differences in ways that will truly make us better.

Mr. Chairman, members of the Board, ladies and gentlemen, here on this mid-summer evening as we celebrate a great university, these are just a few of my thoughts. I had many today, but I wanted to limit my time. This is the one thing that I want to say to

July 13, 2007 meeting, Board of Trustees

each of you, I believe, absolutely, this is the University of the American Dream. I can remember still one time when I conducted commencement, I just happened to ask, there were all of these people gathered and they were having a great time, "Would all of those who are first generation students stand up?" Over half of those students stood up. This is the American Dream. I am a product of that; I grew up in a very small town, Vernal, Utah. Without a great public university, I would not be here today. This is the American Dream, the front door to the future. Today I stand before you because you have fulfilled my dream. I thank you very much.

I am open for any questions that any of you may have. Oh, Carol, I love you. Thank you for waking me up so early in the mornings, otherwise I would have slept in and had a good time. Yes, Ma'am.

Ms. Carol Luper: [ABC-6 and FOX-28 Reporter]

Dr. Gee, knowing you, you are going to do everything first; but when you hit the ground running here at The Ohio State University, what is your first priority?

President Elect Gee:

My first priority is - and I don't want to sound so simple - that we have a President here and he and I are going to caucus on Saturday and we are going to devise a transition plan and then we are going to start executing that. I have to build some of my own team, I have to figure out the structure of the institution, and I have to think about how we operationalize some of the things that we talked about right now, but that will be my first priority. Obviously sometime I will have to move here, Carol, but I will make that happen.

Ms. Luper:

The second question just to follow-up, since you have been here a couple of times, what have you seen on campus that has changed the most?

President Elect Gee:

Someone had asked me the same question today at the Search Committee meeting, "What is it about the University that is different from when you were here in 1997?" I think a couple of things, first of all, the quality of students is extraordinary at the undergraduate level. I operationalized the selective admissions process. Right before I came here, Ohio State was an open admissions institution. So when I came we raised the admissions standards and we did a variety of other things, but it was a long operational issue. This is now an institution that is enormously competitive and we are now in that very difficult position of having to, because access, affordability, and quality are all parts of the mission of the University, convince the mothers and fathers of sons and daughters in Ohio that it is a great honor to have been rejected from Ohio State. We need to figure that.

Second, is the massive investment in faculty, which has resulted in this incredible research engine which we now see. We have to invest and continue to do the best in that and we have to make certain that we now are a three-legged stool in which all three legs are long - that is undergraduate, graduate, and professional education. I think that many of our faculty would agree that we have to invest more heavily in graduate students and we have to bring them up to the quality of the rest of our efforts, but we are in a great position right now.

Any other questions? Boy, I intimidated everyone!

July 13, 2007 meeting, Board of Trustees

Speaker: [Associated Press Reporter]

Dr. Gee, could you explain to us what changed from a couple of weeks ago when you denied that you were a candidate for the job and said you were going to stay at Vanderbilt and now here you are today? Was it a question of money? Was it a question of benefits? What changed in these few days?

President Elect Gee:

As you know, I was, until a few minutes ago, the most highly-paid university president in the country and life has come back into balance. I am no longer that and I no longer make as much money as a football coach. I feel much more sanguine about that.

The issue for me was a very simple one, it is as simple as it is complex. I turned down the job, because I felt that I had a duty and responsibility at Vanderbilt but also that I was not prepared to take this position because I just did not really know enough. Since that time, the tenacity of some of the people in this room, in terms of their recruiting, gave me an opportunity to really understand the institution a bit more. This is sort of spiritual for me. I came here last Sunday on my own and my assistant couldn't believe that I knew how to buy an airplane ticket, but I did. I came on my own, I came and visited the campus, I walked the place, and what I said at the beginning is what I felt then, I was home. I knew I needed to come and I made the decision right then. It was my moment. It was nothing about Vanderbilt, it was nothing about money or issues, or any problems of push and pull, it was simply that my heart told me what to do and that is what I did.

Speaker:

Dr. Gee, if you could just explain a little more of what you just said about having left and then coming back last weekend, walking around campus, and what you saw that you said, "By golly this is different" and also what stirred up some old ghosts for you?

President Elect Gee:

Let me just talk about my daughter for a second, because she was very much instrumental in this. She was a great advocate for me to return, by the way. When we came, she was 14 and her mother, my dear wife, Elizabeth, died here. We were embraced as no two people could be embraced by a university community and by people of the state at a time in which we needed that. She and I became fast friends, we are as close as two people can possibly be today, and all of that just stirred up in me. It was that moment for me and that is just the way that I feel.

I think sometimes people who run these massive universities and so forth you expect them say, "Well, if there was a little bit more research here and if there is a little bit more student productivity there, and the buildings are a little bit bigger, and so forth." This was a pure and simple spiritual decision for me and it was the right decision.

Speaker:

Did you see the south campus area?

President Elect Gee:

I certainly did see the south campus area and I thank you very much for noting that. When I came here, Jack Kessler, who was the chairman of the Search Committee, would always drive me in off Olentangy River Road and the first time I came I drove myself and thought, "Oh, oh, someone has given me a false impression of this place, because I need a Humvee." Now it is a magnificent addition.

July 13, 2007 meeting, Board of Trustees

I take great pride in having established Campus Partners, but now we are truly a partnership with the community. What we had done was sucked the oxygen out of the community, we had not given back, and we had allowed these shot-gun places to grow up in which our students weren't living in the best conditions, and we have changed that culturally. It is wonderful to see what is happening and the connection now between Ohio State and downtown and we are creating a great corridor. There has been so much that has changed and so much positive. I saw that, too.

Mr. Patrick Bell: [WBNS-TV Reporter]

You mentioned that you were coming home, should the students and the other members of this University read that this is in fact the last stop in your illustrious career?

President Elect Gee:

I hold the world's record for the number of universities that I have been at the helm of. I probably have said three times, "This is it." This one really is it. In fact, I'll tell you what, everyone hold out a big sign that reads, "THIS IS IT!" and I will sign it. The reason this is it, is the way that I made the decision. I made the decision based upon a very jealous moment, which is what is right for me and I hope it is also right for the University. So, this is it.

Ms. Lindsey Seaver: [WBNS-TV Reporter]

Rarely do you ever get to revisit a chapter of your career and say that you want to do it better. What would you want to do better this time around?

President Elect Gee:

I think a couple of things that I just said and let me mention them again. When I was here the last time I was 46-years of age and coming to The Ohio State University is an overwhelming proposition, and I had been a university president for ten years and it nearly overwhelmed me. So I did a lot of on the job learning and I will do that now, but I am prepared for that and I am prepared to, in a more mature way, deal with the immediate issues of the institution. I think lightening the learning curve and really increasing the intensity of what I believe is a sturdy academic profile and a sturdy Academic Plan is what I would do differently. It took me a long time to get moving the last time I was here.

Speaker: [*Call & Post* Reporter]

You mentioned that when you came the first time that you established selective admissions from an open admissions policy. One of the issues, of course, that has changed since the last time you were here has been the Supreme Court's rulings in a couple of cases reflecting diversity, especially in the Michigan cases. This tension between excellence and diversity, how do you see the changes affecting the way you operate now or the way this University operates in terms of promoting diversity now?

President Elect Gee:

Gosh, you haven't changed at all. That was the question you asked me the last time I was here.

I want to be on the record about this; I think this is a false economy. There is no tension between excellence and diversity. In fact, I submit to you that excellence and diversity are absolute partners. We live in a global world and there are so many different languages being spoken, and we need to have an opportunity for people who look, think, and act differently to be part of this University family. If we don't, then we

July 13, 2007 meeting, Board of Trustees

are diminished. One of the challenges we face is that 85% of our students are Ohioans. How do we get a different cultural take? We can only do that by diversifying racially, socially, culturally, and economically to make certain that everyone of us are enabled and empowered to ask different kinds of questions and to be challenged by those. I just want to be clear about that. I think that if one thinks about a university that way, then it is not about making choices, it is about having an opportunity to make that difference and that is exactly what we are going to do.

Speaker: [OSU Student]

Dr. Gee, first I want to apologize for my attire because I came straight from the University, - actually I'm a senior here, and I was really excited to read about the press conference. Again, I want to apologize for my appearance, I'm not trying to have any impropriety here.

We have heard so much leading up to this about your ability to connect with students and to bring the faculty and students together. From my perception and students whom I have spoken with over my years here at the University, there has been a growing rift between those two bodies. I am interested in how you plan to address that practically going forth from here?

President Elect Gee:

I love students. You will be tired of seeing me after a while. There shouldn't be a rift and there is sometimes this natural notion that the administrators sit here and the student sit there, and even a rift between the administration and the faculty. I simply don't accept that. I believe we are all colleagues. Personally, one of the things that I love to do, even though I am 63 years of age now, is go to student parties. You invite me and I will be over to your place. That will scare you! In fact, I'm expecting the invite. Tell me your name and I will be over there. The point is that we can make a very large university very small by the actions that we take. I can assure you that President Alutto and I are going to take every possible action to make certain that this institution connects very precisely with the students. That is what we are about, that is what I love, and it is a great opportunity for me to come back and have 60,000 of you to be my friends. You will be and I will make that happen.

Ladies and gentlemen, thank you so much for letting me be here today.

Dr. Cloyd:

Thank you, President-elect Gee. Thank you, ladies and gentlemen, for being here today for this historic moment. In a moment we will recess this meeting and reconvene at 8:00 am tomorrow. I would also like to announce that President-elect Gee will be here for a while yet and will be having additional meetings with members of the press in the Mount Leadership Room. He then will be having a social dinner later this evening with his family and members of the Board of Trustees.

The Board is now recessed.

Dr. Cloyd reconvened the meeting on Friday, July 13, 2007, at 8:05am.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, Jo Ann Davidson, John D. Ong, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Algenon L. Marbley, Christopher Alvarez-Breckenridge, and Debra J. Van Camp.

July 13, 2007 meeting, Board of Trustees

Dr. Cloyd:

In a moment we will be taking a roll call vote to go into Executive Session. I hereby move that the Board recess into Executive Session for the purpose of considering personnel matters regarding appointment and employment, for consulting with legal counsel regarding pending or imminent litigation, and to discuss matters required to be kept confidential by State Statute.

Upon motion of Dr. Cloyd, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Davidson, Ong, O'Dell, Shumate, Hicks, Fisher, Schottenstein, and Marbley.

Dr. Cloyd reconvened the meeting at 10:10am.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Algenon L. Marbley, Christopher Alvarez-Breckenridge, and Debra J. Van Camp.

PERSONNEL ACTION

Resolution No. 2008-20

Dr. Cloyd:

In accordance with the recommendations of the College of Medicine Investigation Committee, the Faculty Hearing Committee, Executive Vice President and Provost Barbara Snyder and President Karen Holbrook, I move that the tenured faculty appointment of Dr. Miles E. Drake be terminated effective July 13, 2007.

Upon motion of Dr. Cloyd, seconded by Mr. McFerson, the Board of Trustees adopted the foregoing motion by eleven affirmative votes, cast by Trustees Cloyd, Hendricks, McFerson, Davidson, Ong, Borrer, Shumate, Hicks, Fisher, Schottenstein, and Marbley, and one abstention cast by Trustee O'Dell.

APPROVAL PROCESSES FOR LARGE DOLLAR CONTRACTS AND WAIVERS REPORT

Mr. Shkurti:

The reason this report is before you at this particular time is that the Board Office requested, on behalf of some of the Board members, that since we have a lot of new people on the Board that we update you on the approval process for large dollar contract awards and waivers of competitive bidding. I think that the single document that would be the most helpful to you is the one that is on the last page of the handout, which is in essence a chart. This chart tracks purchase order approval, which is a fancy way for saying, "contracts, bids, and services."

I think where I will start is as a public entity - even though we are not a state agency - we are covered by state law. The presumption is that the best way to acquire goods and services is through a competitive bidding process and we do that. The question is then how much review - and that is related to the size of the purchase obviously - and then what happens when there are cases where it is inappropriate, difficult, or impractical to bid something out, and that is when we ask for a waiver of competitive

bidding. I think the sense is that the Board's interest on this is not micromanaging the process, but making sure that the process is fair, that bidders have an appropriate opportunity to bid on contracts, that we are doing it efficiently, and that it is appropriate, but timely. The important distinction to draw is between a regular competitive bid and a waiver.

At the top of that chart you will see what is called, "Standard Purchase Orders." It starts at a relatively low level; between \$1,000-\$5,000. A delegated buyer could go buy something like pencils or paper within the University contract or within a procedure and there are two layers of approval. If the contract is \$1 million or more, then it would be a competitive bid. You will see that even after it is competitively bid there are seven layers of approval and the last layer is yours truly - me. Each one of these approvers looks at it for something a little different, but we want to make sure that the process is done appropriately.

The other process that we have added to this - this is not state law, but a process that both the administration and the Board felt was appropriate, is that if it is a bid contract of over \$1 million, I then notify the designated Board person, which in this case is the chair of the Fiscal Affairs Committee, Mrs. Davidson, and I will send her an e-mail summary of what the contract is, why it is bid, and what has been awarded. This is not to ask her to approve it, because it has been competitively bid, but is for notification so she knows that if she has questions, and she often does, then I will respond back to her. That is a way of making sure that the process stays appropriate from start to finish and also that the Board knows about big contracts. I think that has worked relatively well and is a big part of this.

The second group of contracts would be things that are exceptions to the competitive bidding process. Why would we not competitively bid something? There could be a couple of reasons, but probably the single biggest one is "sole source." For example, this is a particular piece of medical equipment. This company is the only people who make it and it is the only way to treat patients in the most effective way. So a waiver of competitive bidding will be requested on the basis of sole source. Every now and then there may be something that is an emergency, where timing is an issue, and we don't have the time to go through the whole process. If it is a legitimate emergency of that type, we might also ask for a waiver of competitive bidding.

You will see the process differs somewhat based on the dollar range, but it is a lot more extensive than if it is competitively bid and this is to make sure that the waiver isn't being abused in any way. If you go to a waiver that is \$500,000 or more, you will see 14 levels of review, so it gets reviewed very carefully. The other thing that happens if it is \$500,000 or more, the chair of the Fiscal Affairs Committee, again, Mrs. Davidson, is notified in advance. What I will send her is a summary e-mail my staff prepares saying, "Here is what we are proposing to have as a waiver of competitive bidding, here is the reason why we are doing it, and here are the steps that we have taken to make sure that it is appropriate," so she is comfortable in advance before we award it.

The interesting thing is that once we established this process a couple of years ago - because this is a big diverse place and it is rare people will deliberately do something fraudulent, one would hope, and, I think, that has been the case, what happens is that a lot of the units get in a hurry to get things done for the right reasons. Sometimes on a waiver of competitive bidding, we want to make sure that they are not cutting corners nor that they are using the waiver of competitive bidding as a way of short-circuiting the process when, in fact, the process could be followed. The volume of these waivers has been relatively small, but they are gone through carefully. They are then also presented to the Board on a quarterly basis, so that you are familiar with what the waivers are at least by dollar amount. We are now starting to add a list of who all the vendors are, so that the Board can be competent that the process is working the way it is supposed to.

July 13, 2007 meeting, Board of Trustees

The other thing that I think bears emphasis is that because this is a big place and this is a complicated process, there is always the opportunity for improvement. We are looking at some ways we can improve this process and also protect the Board on issues, because a lot of you have relationships in your business and don't want to be involved in something that involves a contractor or relationship that you have that is getting approved by the University. Now if it goes through the normal competitive bid process that is not an issue, and we do this a lot when you have to vote on the acceptance of contracts, because Board members will recuse or absence themselves from that vote.

I think that we have a very good process for doing the public's business and maintaining a good process. We are looking at ways to improve this and we may have some recommendations in September. The purpose of this particular briefing was simply to bring this to your attention, let you know this review is going on, and give you the opportunity to ask any questions. Although Purchasing reports to me, so I have an understanding of how it works, I will feel free to call on my colleagues if the questions get a little too detailed. Mr. Chairman, I am at the Board's disposal at this point.

Mr. Schottenstein:

I have three questions: 1) Does this apply even if the item being acquired is within budget; 2) I notice at the top it says, "Medical Center and Research Foundation not included," I wondered how they fit into this? It seems to be a very rationale process; and 3) Is this process, in any way, to be reviewed as part of the overall PricewaterhouseCoopers operational audit, which is now underway?

Mr. Shkurti:

The answer to your first question is yes it does. Mr. Schottenstein, let me answer your last question next, because that is the simplest one. This is included in that broad category of financial controls in the PricewaterhouseCoopers audit without going down into great detail, but they are looking at how it all fits in. Regarding your second question, which is certainly an appropriate one, I think that it is fair to say that the Medical Center and Research Foundation operate under the same general principles because they are covered by state law as well. There are two quirks, if you will, that apply.

In the case of the Medical Center, they are part of the University and we have delegated to them some ability to run their own purchasing operation within University guidelines. What is a little different about them, say compared to an academic department, is that they're really in a business, if you will, of healthcare where there is a great deal of participation in purchasing consortiums and so forth. A lot of their products, services or equipment are purchased through consortiums they belong to and they go through their own competitive bid process. When I send the e-mail to Mrs. Davidson, because the Hospitals stuff is covered as well, I mention whether or not it is something that has been purchased through the consortium agreement. So they are a little different in that way, so their process is not identical to this. That is why they are not on here, but it is the same thing in function.

With the Research Foundation it is similar, but not identical. The reason is the Research Foundation is technically a separate legal entity. They are an affiliated organization. They operate under a separate board, although they are ultimately accountable to the University and use the same general process that we have here and the same general guidelines. I know Bob McGrath is here and if there is anything that I'm mischaracterizing in that...

July 13, 2007 meeting, Board of Trustees

Dr. McGrath:

I would just mention A-21 is the federal guidelines that the Research Foundation is required to follow as well.

Mr. Shkurti:

Which are a little more strict in fact. As true of anything with the University, there is never a simple answer - we never do anything simple - but the same general principles that I have laid out here are followed both by the Hospitals and the Research Foundation. In fact, if there are contracts that reach the numbers I talked about that are at the threshold for notification to the chair of the Fiscal Affairs Committee, the Research Foundation and the Medical Center would be involved as well.

Mr. Fisher:

The review protocol within each of the areas is that set by you or the central purchasing manager? Is that protocol determined within that agency or does that come from you?

Mr. Shkurti:

Mr. Fisher, I think the best way to describe it is that whatever power I have is delegated from the Board to the President who delegates it to me and then I delegate it to Purchasing. They fill in the details, but I approve the general policies that they adopt.

Judge Marbley:

When you look at the waiver provisions, does each level have the same criteria by which they review the request to waive the competitive bid process or does each level make its own criteria? How does the criteria differ from level to level?

Mr. Shkurti:

Judge Marbley, if you say from level to level do you mean the dollar amount?

Judge Marbley:

Actually, I mean from delegated requisition initiator to waiver request initiator as you go through the process. Are the criteria the same for evaluating each request?

Mr. Shkurti:

Yes. The way that I would describe it is that the general criteria is set at the University-level, and then articulated by me down to Purchasing, and then Purchasing sets general standards. Within those general standards we give the units some room for discretion, because each unit is a little different. For example, what the College of Biological Sciences might buy is very different from what the Athletics Department might buy, but they all have to follow the same general processes as laid out in these terms.

Judge Marbley:

But in determining whether they can waive the competitive bid process, do they use that same criteria?

July 13, 2007 meeting, Board of Trustees

Mr. Shkurti:

The waiver of competitive bid is really defined in state law and then applied by us, so the same reasons for being able to gain a waiver has to be consistent throughout the University by everyone.

Mr. McFerson:

To waive purchase orders, on the last part of this page it looks like there is a whole process to follow just to decide if this is going to be waived. Then you see the thick double lines and then once that decision is made, the same people will then have to go through the process of approving the purchase order itself. Is that the way I read that? In the 14 steps, there is some duplication of offices looking at it twice. As I understand this, it looks like the first all the way up to that double line you have to decide if we are going to waive it. Then once that occurs, then you look at it a second time as it comes by to decide if the purchase order itself is okay.

Mr. Shkurti:

Mr. McFerson, that is fair in a sense. If you look at the bottom it says, "Path is for Waiver Approval" and "Path is for Subsequent Purchase Order Approval." So before you can send the purchase order through, you need to know you can waive it. It looks more cumbersome than it is and we try to parallel process to a degree, but the logic of the system is correct. Before you send a purchase order through on a waiver of competitive bidding, you need to have some sense that the higher ups are going to say, "Yes, this makes sense."

Mr. McFerson:

I think I understand it that way; you just described exactly what happens. So you have to decide first if you are going to waive the competitive bid.

Mr. Shkurti:

That is correct. If we say to someone, "No, you are out in left field on this, you send it through a competitive bid," then we don't want them sending us a purchase order to be approved as a waiver.

Dr. Cloyd:

Any other questions? Bill, do we have any guidelines for the importance of prior experience with the service provider in order to be eligible to have a waiver of a competitive bid?

Mr. Shkurti:

Dr. Cloyd, that is an excellent question. When the individual units are involved in setting the specifications for the bid that is a legitimate specification to set depending, again, on what it is for. For example, if you are looking to hire architects you want someone who has some experience in building the kind of facilities that you are looking at. On the other hand, if you are buying pencils and you are putting a contract out for that, you may not necessarily need the same level of professional qualifications, but you need some assurance that these people have made pencils and they have done it competently. So those qualifications to meet the requirements of the bid are very much part of the process, but, as you might imagine, vary quite a bit depending on what it is your bidding out.

July 13, 2007 meeting, Board of Trustees

Dr. Cloyd:

Any other questions for Mr. Shkurti? Thank you very much, Bill. That has been very helpful.

BRIEFING - LEASE AT LAZARUS BUILDING

Mr. Shkurti:

We are providing a briefing on a lease for the College of the Arts at the old Lazarus Building located at 50 West Town Street in Columbus. The College of the Arts is renovating and leasing 10,000 square feet, along the Town Street portion of the building, for a facility that will include exhibition space, non-traditional performance, and installation space for faculty and staff. The space will support the Urban Arts Space Mission and allow students to experience all aspects of professional presentation and program operations for the space. It will also support the University's mission to support the revitalization of the central business district and education based on community outreach. The College itself is strongly supportive of this and I would be remiss if I didn't acknowledge Karen Bell, dean of the College of the Arts, who is very supportive of this.

We have gone through the appropriate due diligence, so it is a nine-year lease with four five-year options to renew. The College will contribute a total \$230,000 towards tenant improvements and the remaining cost of nearly \$1.3 million will be funded by the landlord, which is the Columbus Downtown Development Corporation. The rent will be approximately \$75,000 annually through the term of the lease, which will be paid by the College, and the College has identified the sources for that. The lease has gone through the appropriate process and it has been determined that this is in the best interest of the College of the Arts and the University, and is strongly supported by the University. A vote is not required, but we thought this was significant enough that the Board be informed.

Dr. Cloyd:

Questions by Board members? Moving forward, when will you be in?

Dean Bell:

We hope to have the opening in January 2008.

Dr. Cloyd:

Great. We will look forward to it. Thank you very much.

President Alutto:

This is just a wonderful example of an initiative taken by a college to work at the multiple missions of the University both to improve the quality of the academic experience, but to reach out to this community and reinforce the notion that we are part of a vibrant community. I want to thank Dean Bell for that.

Dr. Cloyd:

Thank you; great point.

July 13, 2007 meeting, Board of Trustees

FY 2009 - FY 2014 CAPITAL PLAN RECOMMENDATIONS

Mr. Shkurti: [PowerPoint Presentation]

Mike Sherman, the vice provost who deals with a lot of the facilities issues, will be joining me for this presentation. What we will be giving you is a briefing on the FY 2009 - FY 2014 Capital Plan. This is something that we normally present to the Board every two years. We normally do it in the Fiscal Affairs Committee meeting, but because we have so many new Board members, we thought it would be useful to do this at the full meeting. The interesting thing is that this was a process that actually started when President Gee was here the first time, because both the administration and the Board wanted to make sure that they knew where all of these projects were coming from and we wanted to have a comprehensive capital process.

What we will cover is a bit of the context, the recommendations regarding state funds, other sources of funding - which are becoming increasingly important - the implications, and the next steps. What I would stress is that what is in these slides is in essence a summary of a 20-page tome that is in your Board books. I won't go over this all in detail, but you are welcome to read it at your leisure because it will fill in the details. Ohio State is probably one of the most systematic about laying out why these decisions are made and we think that is appropriate.

The things that I would stress about the capital plan first is that because this place is so big, we think it is extremely important we have in one place a comprehensive review that encompasses all the major projects over \$1.5 million from all sources, including affiliated entities and I will talk more about that later. We do this over a six-year time horizon, although sometimes a little longer, with the emphasis on the next two years - 2009 and 2010. The plan is updated annually and reported to the Board. This is a first reading only, so, we won't be asking you to vote today, but rather to give you a sense of what is in there, and then we will come back in September and ask for a vote. In addition, even though the Board has the power to approve a lot of these projects, the state funded projects will require additional approval by the state. They will go through their own process, which will be their own 2009 and 2010 state capital bill.

Finally, if this process works the way it is supposed to, any individual projects that come forward for approval by the Board to either hire architects or begin construction should be able to be referenced back in these documents. Which answers the question, "Where do these projects come from?"

Now let me talk about the strategic context. One of the wonderful things about working in higher education is that the aspirations are great, so the needs are always greater than the funding available. This will give you a sense, in at least one way, that the process we went through where we invite the deans, vice presidents, and affiliated entities to submit requests has been completed. What we have is a total request for \$873 million in state funds and \$1.5 billion in bond capacity for the University, which is on the left-hand side of the slide. On the right-hand side of the slide, you can see how much we have available which is somewhat less. When I teach the public budgeting course, I teach my students that the whole structure of public budgeting is to reconcile limited resources with unlimited needs. I wouldn't say our needs are unlimited, but they are great. So the question is how do you reconcile this, because we only have about a quarter of the amount that people have asked for, although those requests go over multiple years.

That takes me to the next point and this is prioritization. You figure out, "Okay what is it that we are going to emphasize; what is most important that we do that supports the Academic Plan if we can't do everything?" With state funds what we are stressing is - and you will see this in the recommendations, the renovation or replacement of core academic buildings. As you know, we have a deferred maintenance problem. The wonderful thing about state funds is that although there are not enough of them, they

July 13, 2007 meeting, Board of Trustees

are unrestricted in terms of the use of capital. Although the state can be a pain in the behind sometimes, we know they are going to be there and we know they are going to pay off. That is the first part of it, these core academic buildings - again, we will have some examples for you shortly.

The next issue is, "Okay, what about the University's bond capacity?" which is substantially more than what the state gives us. "How do we use that?" The three areas you will see that are being emphasized in these recommendations are: 1) the Medical Center, particularly on the patient care side, because that is a need we have and also a funding source in terms of what insurance companies and patients pay back; 2) student housing, which is extremely important to our academic mission; a lot of that housing was built in the late '50s and early '60s and now needs renovation or replacement and the demand is greater than the supply; and 3) utilities infrastructure; if we don't have the heat, water, and electricity then we can't move forward. Those are the three priorities and you will see how that plays out as we go through the recommendations.

One of the things we use is a set of criteria then to try to whittle out what it is we're going to fund and what it is we're not. We look at: 1) the academic priority as related to the Academic Plan; 2) the physical need, and that is another way of saying, "Is that building in good shape or is it relatively rundown?", and all other things being equal, you want to repair your rundown buildings before the ones that are in good shape; 3) financial feasibility - can we pay for it; and 4) physical feasibility and this is overlooked sometimes, but it is really important that if we are going to replace or renovate a building that we have somewhere to put it and that we have somewhere to put people if we are moving them out to get it done. A place that is as big and as crowded as this can sometimes be a bit of a chess game, but it is extremely important. Those are the evaluation criteria and are explained in more detail in the memo that I referred to earlier.

This slide shows the process that we use and it starts almost a year early. Our process for this round started in September 2006, we are now in the July 2007 phase, which is the recommendations by the President to the Board of Trustees and the first reading, and then we will come back in September for the vote. I think that is fairly self-explanatory. It is a long and tedious process, but it is an important one in order to vet this and make sure everything fits together.

What I will do now is turn over the microphone to my colleague, Mike Sherman, who will talk about the recommendations for state funds.

Dr. Sherman: [PowerPoint Presentation]

Thank you, Bill. Our previous capital recommendations for academic purposes were positioned over three biennia. At this point in time, we are proposing to take a longer term view through 2020 and in particular for the North Academic Core in consideration of academic priorities, deferred maintenance, and infrastructure support. So a comprehensive view for a longer period of time.

In the meantime, and for our immediate recommendations, we are recommending that there be \$8.7 million allocated to the Oxley Thompson Library project and this will finish the state capital allocation to this project of \$72.4 million. As you know, the project is underway and this provides the final allocation. The Library has transitioned to Ackerman Road and alternate studying and learning spaces have been arranged in other buildings and other libraries on campus.

We are recommending \$6 million for the College of Medicine. This is our most research intensive and research successful college. This is their priority for renovations related to Meiling and Graves Halls that will provide improved academic advising facilities and teaching and learning facilities.

We are also recommending from this allocation \$6.6 million for a project related to the College of Public Health in Cunz Hall that is a \$20 million total project. As you know, the College of Public Health is a new college and is an institutional priority. The College of Public Health had previously been located in Starling-Loving Hall, but that building is now slated for use by the Medical Center and the College of Medicine. We will be using a combination of capital funds, basic renovation funds, college set aside funds, and development funds to secure this total project cost. It will meet the instructional needs both for teaching and learning, as well as wet laboratory needs for this college. And importantly, given that it is Cunz Hall, we have included in the cost estimate a cladding system that will make this building at least as esthetically pleasing as Recreation and Physical Activity Center (RPAC) and the new Psychology Building.

If I could move to the longer-term approach, in particular, related to the North Academic Core, I would like to point out that the approach that we have previously taken can be considered as more incremental, shorter term period of time of view, and college and programs specific. It has produced from short-term views and short-term visions, and is mostly from the perspective of, "What can we do with buildings we currently have with renovation or residings around those buildings?" To some extent it produces a competition for donors. The new approach we are pursuing is the more strategic approach, longer term, collaborative, and holistic. It has the potential for pooling multiple resources and it provides more optimized solutions, because it can take into consideration the priorities for multiple colleges in a district perspective and it can follow more optimally the Master Plan.

As you can see in this slide, the North Academic Core that is bounded by Woodruff Avenue, 17th Avenue, College Road, and Tuttle Park Place is presented through this long-term holistic approach. It is linked to the Master Plan and provides interactive learning spaces; it considers core green spaces; it considers distinctive edges; it provides an urban nature; it creates a community urban interface along the High Street corridor; it provides notions of campus gateways; it produces enhanced sitings; and it provides optimized building heights and setbacks. So what you have here is basically a conceptual perspective of the North Academic Core, taking a view of our academic priorities through 2020, with the potential siting opportunities that exist taking a more comprehensive approach.

It is important to note that in this capital recommendation we are including the reconciliation of deferred maintenance for infrastructure, as well as the infrastructure needs for increased capacity that might exist in this core. In the near term, we will reconcile \$27.5 million in deferred maintenance. The longer-term view will provide a reconciliation of \$61 million in deferred maintenance. It is important to note that while this is only 6% of the institutional deferred maintenance, this is nearly 50% of the deferred maintenance in the North Academic Core.

An approach that is more comprehensive, more holistic, and a longer-term view provides the opportunity for: flexible framework, multidisciplinary interactions, discipline-based adjacencies and districts, distinctive edges, and a more pedestrian-friendly environment. Believe it or not, it has the potential to add up to one million square feet without increasing the concept of density.

In this slide, we basically represented the notion of a performing arts district, an education/humanities district, a sciences district, and classroom pool and teaching and learning opportunities. This next slide shows a potential long-term view of the siting opportunities in this district, which is a conceptual perspective, that could provide teaching, learning, research, and outreach and engagement success in the areas of the arts, the social sciences and humanities, the mathematical, physical, and engineering sciences, and the education professionals. It is important to know that the colleges in the North Academic Core have contact with 60% of the students through student-credit hours of instruction and have 26% of the assigned square feet, and it represents \$300 million in general funds budgets. Our objective is to meet these

July 13, 2007 meeting, Board of Trustees

priorities across time for the English and the writing programs, the music performance and teaching programs, chemical engineering programs, chemistry programs, education programs, and classroom pools.

We are proposing to explore this concept further, having cost estimates for the North Academic Core priorities to be \$487 million through 2020. We are requesting an allocation of \$242 million in capital funds through 2020. The balance, \$245 million - we propose to be secured through a unique and slightly different approach to capital projects. We could potentially take the University centric approach in the next development campaign and we could also rely on college funds. For example, setting a goal for the University in the North Academic Core area for the development campaign would then determine what the colleges' obligations would be to this capital proposal. It is important to note that on the basis of \$70 million in planning per biennium from the state capital appropriations and this allocation of funds, it leaves \$245 million available through 2020 for other academic priorities campus-wide.

Basically what we are asking you today for is endorsement of the North Academic Core planning and funding concepts. We know we need to undertake a funding feasibility study and further interact with the deans of the affected colleges to secure, in a sense, their absolute support for an approach like this that is over such a long period of time.

Mr. Shkurti:

We wanted to make you aware - and these are discussed more in the memo - that there are also some additional worthy projects waiting in the wings in future biennia which would include: the North Academic Core; Postle Hall Renovation / Replacement; the Veterinary Hospital Renovation/New Construction; Pomerene Hall Renovation; and the FAES Information and Technology Center. These are projects that we have identified as having a need, but we don't have enough money to do them all at the same time. Also, there are some other physical planning and other things that need to be done, but you will probably be seeing those projects in the future in terms of recommendations for state funds.

What I will turn to next are recommendations regarding other funds. Other funds, although not exclusive - are primarily University-backed bonds that would then be paid back by user fees or some other sources of income. As I mentioned earlier, the three highest priorities are: the Medical Center, Student Affairs, and infrastructure. Then we have a variety of other important projects as well, which I will highlight briefly.

First let me talk about the Medical Center. What we will be requesting in September is bonding authority of \$680 million from FY 2007 to FY 2012. One thing I should highlight is that the capital plan is designed to cover from FY 2009 to FY 2014, but we don't have all of the bond detail worked out yet. So I thought it would be helpful in this first reading to give you FY 2007 through FY 2012 because we are about to issue the bond for FY 2007 and this will give you a perspective and then we can update it. As you know, the Medical Center Master Facilities Plan is under review, which will affect that, and there will be more information on all of that in September. This is obviously an important project, but we need to make sure it all fits together.

The next area of priority is in Student Affairs. I think it is important to remember that at the Board's strong support, student-related facilities have been a high priority for a long time. We are now replacing the Union and we have replaced Larkins Hall, but we still have to pay for those. It is still important that that be worked into our calculation.

In addition, what we are seeing now in the Student Affairs area is that the next area that needs attention is student housing. This slide shows a list of what the major projects are including: upgrading the air conditioning and bathrooms on the south campus; the expansion of the Hall Complex; reworking Lincoln and Jones Towers; and

also some renovations for housing and food service. Once these recommendations are funded and worked through that would add a total of 1,196 beds to the system and upgrade another 886 beds, so we think this is another major commitment. We have also recommended in the memo that you have that a special workgroup be put together that includes representatives from Student Affairs, Business and Finance, Academic Affairs, and Campus Partners to take a look at other options that might exist for graduate and professional housing that may be on or near campus and may involve private developers or other funding sources so we can augment in that way as well. This represents a major commitment to improving our student housing stock and we think that is extremely important.

The third area we are looking at a great deal of bonding authority for is facilities infrastructure. This slide will give you a sense of what the largest projects are and they are listed in order. On the purpose side it talks about whether it is increasing capacity, which is what a new electrical substation would do, or dealing with the deferred maintenance issue, which is what the high voltage switch would do. To many normal people these seem boring and mundane, but for those of us that are involved with facilities, these are exciting because if you don't have electricity, chilled water, and heat you have no building. It is extremely important that these be thought through very carefully and put in place, so we can do the renovations and expansions that are necessary for the Academic Plan.

The other projects also which are important involve: Athletics; Transportation and Parking; Regional Campuses; affiliated entities, including Campus Partners; a couple of projects from individual colleges; and a couple of other projects like upgrading Blankenship Hall. We hope to accommodate as many of these projects as we can. One thing I would stress is even though we create an affiliated entity and we put it off as a part of the University, but not really part, in the eyes of the rating agencies, that debt counts as University debt no matter what anyone else says. We have had some confusion about that in the past. We take a holistic look at how the affiliated entities fit in and we want to make sure that their goals that support the University fit in with our overall debt capacity and our overall ability to issue debt. So when you get final recommendations back in September, they will take that into account.

The memo lists the implications of these various recommendations, which we think are important. I won't go through all of those, they are in the document. The two things I would highlight, because there have been questions on the Board's mind, appropriately, is that we are putting a very high priority on dealing with our deferred maintenance issues. We have an aging physical plant and although expansion is important, it is important to take care of what we have first and these recommendations reflect that.

The fourth item is debt capacity; that is how much we can issue and maintain our AA credit rating. We are very cognizant of that and appreciate the Board's support in keeping that credit rating maintained and the recommendations that you will get back will be consistent with that.

As Mike mentioned, in the next steps we will be consulting with the deans and other stakeholders on the details of the North Academic Core Plan. I think it is safe to say that the deans were excited about the North Academic Core Plan conceptually, but their question is, as mine would be, "What's it going to cost me and what am I going to get out of it?" That is one of the things that we need to talk about with them and make sure that they are in alignment with us. As I mentioned, we also need to align the Medical Center Master Facilities Plan so the project can go forward and I will talk more about that next.

We need to explore those supplemental options I talked about for student housing, particularly for graduate and professional students. We hopefully will have some preliminary recommendations for you when we meet in September.

July 13, 2007 meeting, Board of Trustees

This next item is extremely important - reconciling our fund raising expectations, which have now risen dramatically since yesterday, with planning for the next campaign. Part of the issue there is how much do we want to spend, campaign effort resources, on fund raising for buildings and how much do we want to spend on endowed chairs and scholarships, all of which are worthy goals. We just need to reconcile and make sure that the whole University is on the same page. When we talk about reconciliation, the next thing is to reconcile our unlimited funding demands with our available debt capacity so we protect the bond rating but move forward. As I mentioned, we would hope to return to you on September 21 to request approval of the capital plan.

In summary, I hope you have a sense of: what our criteria and process is for making these recommendations; how the recommendations are in alignment with the Academic Plan; why our highest priorities are the four items mentioned - North Academic Core, Medical Center Patient Care Facilities, Student Housing, Utilities infrastructure; the implications for the future, including deferred maintenance and debt capacity, again those are addressed in more detail in the memo; what are the next steps, which include those issues that I highlighted in the previous slide; and then coming back to you in September to ask for approval.

At this point, Mike and I will be glad to answer any questions you might have.

Mr. O'Dell:

This is a fascinating piece of work. I was thinking about the student housing conversations we have been having and am wondering that within this proposal if there is a specific date by which all the dorms are air conditioned, and all of the quads, sleeping arrangements, and gang showers are eliminated?

Mr. Shkurti:

Mr. O'Dell, let me turn to Rich Hollingsworth and I will let him answer that question.

Mr. Hollingsworth:

The current plan is the continuation of a previous strategic plan that doesn't have most of that happening until somewhere around 2014. Part of what this task group will work on over the next month is going forward with a new and more strategic approach, which will look at things more holistic and look at creative alternatives. The goal is to figure out how can we accelerate that to get it done in the shortest period of time as possible.

Mr. O'Dell:

I think that is a pretty urgent matter. I am sure you all heard what Ohio University has recently announced, which is a very comprehensive plan, dramatic investment and increases in rental rates to pay for it. It appears that we are a little bit behind and we may be getting further behind if we don't really move forward.

Mr. Shukurti:

Mr. O'Dell, that point is well taken. What we are trying to balance is the need to move forward quickly in that area, but we need to move quickly in the medical area because that is a very competitive environment, and the need to put the infrastructure in place to support all of that. I hope that by the time we come back in September we have a sense for you of how all of that fits and that we have made the maximum use of our resources to accomplish those goals.

July 13, 2007 meeting, Board of Trustees

Mr. Hicks:

Just to follow-up on that point on the residents - and I applaud you for putting together a group to look at alternative financing and alternative arrangements. You said specifically "for graduate and professional housing." Will that group look at undergraduate student housing at all in the sense of could you do a similar thing for undergraduates as we are doing for the MBA housing, that would then free-up some debt limitation issues that we are obviously confined with?

Mr. Shukurti:

Mr. Hicks, everything is on the table but there are some differences between undergraduate and graduate housing. Rich, do you want to elaborate on that?

Mr. Hollingsworth:

Yes. I think that will certainly be on the table, particularly for upper-division undergraduate students. In Student Affairs, we believe, our core mission is to help first year students and some portion of the sophomore class. I think, absolutely, the notion of private sector development can be a tremendous addition to this. Student Affairs in some ways has been sinking over the years and has been in a silo and has not really thought holistically about what are all of the pieces. For example, the Gateway Project provides additional housing for the law students. We haven't talked with them in recent history about what are the other alternatives there. But private development like the MBA project had positive implications for upper-division undergraduate student housing as well. From my perspective, all of that is on the table at this point.

Mr. Hicks:

Good, great to hear.

Ms. Hendricks:

We just recently met with the regional campuses and you have listed there Regional Campuses renovations and additions. In checking, my understanding is that they get their own source of capital, or are they a part of our bonding?

Mr. Shukurti:

Ms. Hendricks, the answer to both questions is yes. They get their own source of state capital dollars via a formula that we pass on dollar for dollar to them. Just like for the Columbus Campus, the state money is not enough to do everything that needs to be done, so we have made available to them the ability to issue University-backed bonds. As you might imagine with all the demands on University-backed bonds, there is not unlimited amount.

Mr. Hendricks:

Okay. Thank you.

Mr. Schottenstein:

That was a great presentation. When I reread this memo, it will make a little bit more sense to me and I appreciate that. I have one point and one question. The point is to reinforce what Brian Hicks just said about the importance of pursuing, analyzing, and assessing the viability given the limited resources of privatizing some of the housing options, both for graduates and undergraduates without compromising the student experience. I am a big advocate in at least seeing to it that we really give due diligence to assessing that.

July 13, 2007 meeting, Board of Trustees

This will probably underscore your first point, Bill, about changes in the Board. Listening to this very large, potentially dramatic plan for the North Academic Core, I'm sitting here thinking, "Where does that fit into an assessment of a Master Plan or a Master Space Study of the entire campus and all of its needs and why the north campus versus the total campus?" The horse may well be out of the barn, because of prior discussions that occurred before some of us came here. If they did so be it, but it is a little confusing. It appears to be a little bit of a one off, not a small one off, but a gigantic and frankly a very exciting project. The question rather is not about the value of it, but where it fits in contextually.

Mr. Shukurti:

Mr. Schottenstein, allow me to let Mike elaborate on it because he has been involved in the whole planning process. We do have a Master Plan for the whole University that we update periodically. This came out of that original process, but, I think, there are also some nuances that probably Mike is a little more familiar with than I am.

Dr. Sherman:

Basically, the concept follows the priorities from the last capital bill and looks at academic priorities through 2020 for the colleges in that district. The critical first step is going to be what the first project is. Since this goes across so many years, we have realized that there are space issues in terms of how effectively are we using our spaces; do we need as much as we have; and because there is a potential to add one million square feet in this district and reduce density, that gives opportunities to look at the need for entire buildings that, perhaps, represent large deferred maintenance costs. That is one opportunity from the space balance side of things.

The Space and Facilities Committee and Facilities Operations and Development have basically wrestled with that same question this year. Given the perspective you are asking about, and we are looking at funding internally a master space plan that would look at space within the academic campus. We can do that at the same time as we plan for the long-term North Academic Core

Mr. Shukurti:

The other thing I would say is that one of the things the Fiscal Affairs Committee, which is where capital normally goes and Committee members can jump in if they feel I have mischaracterized or misunderstood them, have said to us over the last two or three years is, "You guys have too narrow of a planning horizon, you need to think out longer term and more broadly." This is an attempt at least to start that dialogue. Now this may morph into other discussions, but we thought that we were at the point now that this deserved at least some initial conversations with the Board. You can give us some guidance, especially after you think about it and read the whole document, as to what the next steps might be. There is nothing that is sacred that says it has to be done in this particular way, at this particular time, but I think we do need to start looking out even beyond the six-year horizon as we look to where we want to be.

Ambassador Ong:

Bill, I was trying to visualize this and think about what I know about that area - the north campus. It seems to me to get as many square feet as you are talking about, you are going to have to build some fairly high buildings. Is that an accurate perception?

Dr. Sherman:

Basically the plan has been looked at from the perspective of the Master Plan, which is four stories maximum and if it goes above four stories, setbacks. The perspective is consistent with the Master Plan.

July 13, 2007 meeting, Board of Trustees

Ambassador Ong:

They will just be four story buildings?

Dr. Sherman:

No. If they go higher than four stories, they would be setback from the perspective of the density issue. None of the buildings are necessarily determined at this point in time to be of a particular height. This is really what a massing concept might be to gain efficiencies, effectiveness and to achieve the objectives of the Master Plan.

Mr. Shkurti:

I would add two things to what Mike has said. Because we haven't defined the specifics, one of the guidelines that the Board might want to think about is do we limit to four stories or do we limit to four stories with a setback up to six or not? That is one legitimate issue.

Ambassador Ong:

Presumably you want to retain some green space in that area, and not cover the whole thing with concrete.

Mr. Shkurti:

If you walk through that area you will see Lord Hall is at an odd angle and because those buildings were all done individually we aren't making effective use of the ground space. The thinking is with some careful planning you can get more density there, have more green space, have it look better, and have it be more functional. That is going to require a great deal of forethought.

Dr. Sherman:

The conceptual framework does provide more green space exactly from this perspective.

Mr. Alvarez-Breckenridge:

Mr. Shkurti, looking into the future and thinking about the dorm renovations and trying to connect these two things together, the reduction in credit hours to 181, I know there is still work being done on the implications of that, but I talked to you at one point and you thought maybe we would have to increase enrollment possibly to compensate for that. With possibly larger incoming freshman classes that would need to be placed in the dorms, and if we are closing some of the dorms for renovations, how would that be reconciled?

Mr. Shkurti:

Mr. Alvarez-Breckenridge, in using the term "reconcile" you have hit on the key elements of what has to go on in this plan. We have multiple goals and we have to make sure that they work. That is why Rich mentioned, in an answer to Mr. Hicks' or Mr. Schottenstein's question, what we may do is look for ways near or off campus to have upperclassmen, graduate, and professional students live, so we free up more of the on-campus residence hall spaces for new freshmen. That is one way to deal with it and the other way is to provide other options.

One of the things we also have to take into account with the reduction in credit hours is students will graduate sooner. That will reduce the number on one side, but to make up for that we are going to have to increase the freshman class, although we have

July 13, 2007 meeting, Board of Trustees

done some of that already and we are accommodating them. There are a number of different variables that we have to work through to make sure that we don't shoot ourselves in the foot in the end by not taking that into account. That is why the implication's section of the memo is important and this is one of the implications in terms of how we are making other decisions.

A couple of years ago we were having a real uptake in research coming in to the University, so we wanted to make sure that we had enough research facilities. Since then, some of that has flattened off, predictably the federally-funded research. You find that in almost every case where you have a five or six-year lead time in buildings. But the trends don't always go the way you think they are and so how do you build that flexibility into it as well. It is a fair question and we don't have the perfect answer for you yet, but by the time we come back in September we ought to at least be able to give you a feeling that we thought those through and have a method for dealing with it.

Mr. Alvarez-Breckenridge:

Thank you.

Dr. Cloyd:

I have two comments before we move to the next report. I think this was very, very helpful. I want to commend what your team has been doing not only looking longer range, but to start to get some integrated multi-college involvement in the plans. I think that is a terrific approach. I don't know exactly where we are going to come out, but it just feels, directionally, like the right thing to do.

I think it would be important when we come back in September to go even a little bit deeper on the deferred maintenance part. I don't know what else you can do in the modeling context, but it will be very important that we come out of this plan with a sense of "we are going to be just fine," "we are very happy with where we are and where we will be with whatever kind of benchmarks we have." "However you want to do the modeling on the probabilities about what would be new construction and the age of our current facilities where they come down," it would be good in this time period to work that one with some depth. We want to come out with a plan that we all feel very satisfied with.

Mr. Shkurti:

Okay; we will do that.

Dr. Cloyd:

Good. Thank you very much.

(See Appendix I for background material, page 97.)

UPDATE ON MEDICAL CENTER FACILITIES PLAN AND GOVERNANCE

Mr. William J. Shkurti:

This is a follow-up to the June 1 presentation that Chris and I made on this topic, which is "Where do we go next with the Medical Center Master Facilities Plan?" What I will be able to summarize for you is what has been done with the consultants, which has, in fact, been very helpful. Although we still have a long way go, I think that over the last month there has been progress made and I will highlight where that is.

July 13, 2007 meeting, Board of Trustees

At the Board's request, first and foremost we did develop a decision tree and timeline. You have attached to the document a representation of it --Exhibit 1: Timeline of Key Decisions - that Deloitte and Hammes helped us put together. The main point is that they have identified a five-step process. Step 1 is New Organization Design in month 1, which I would call June. This is where I think we've already made a great deal of success and I will elaborate on that. Months 2 to 3, which are steps 2 and 3 - Fact Base for Revising the Master Facilities Plan and the Critical Attributes - we will be working on over the summer. We hope to get into step 4, which is the Proposed New Master Facilities Plan, I say get into, not resolve, and to be back with an update on where we are on that by the September meeting. I think we are meeting that requirement.

I mentioned that an administrative structure has been established, at least in my opinion, and let me explain why that is the case. You also have attached a memorandum that Dr. Cloyd sent to the Medical Center leadership on June 20 that lays out how this project should move forward and what I would call the administrative structure. It answers a lot of the questions that were in Deloitte and Hammes Phase 1. He has asked me, with Chris' help, to take the lead in moving the process forward to the next phase, which would be the timeline that we have talked about. And then he has also asked Pete Geier, Dave Schuller, and Chip Souba, from the Medical Center, to join us in a small workgroup that moves this forward. That workgroup has already met once and we have had, I think, agreement on the process we want to use to move forward. I think it was very encouraging. Everybody is committed to making this project move forward, because it is extremely important to the Medical Center and the University. I don't want to imply that there aren't some differences in perspective regarding priorities, and that is what we will be working on over the summer and hope to have some progress there. The group is up and working, we have a timeline set out, and we will continue to move forward.

The two things I would also like to highlight from Dr. Cloyd's memo: 1) objective #3, "Define an approach to maximize private philanthropic support..." is something we all agreed upon and we expect Dr. Gee will be a big help to us in moving that forward. And 2) objective #6, "Ensure that hospitals within the health system, including The James, are managed and governed consistent with an approved five-year financial plan. This includes collaboration and sharing of services to minimize duplication and unnecessary expense." As you know, Chris has been working on a revised governance structure for The James that is necessary to maintain the PPS exemption. We certainly want to do that and at the same time we want to be able to take advantage of the synergies of all of the different activities that go on in the Medical Center, so that the whole is greater than the sum of its part. I feel good about where we are on that.

One of the questions you may wonder is - because I get this from reporters a lot - "When are the final reports from Deloitte and Hammes going to be available?" They are actually working on editing the final versions. This has been a little more complex and a little longer than anybody realized, but we expect those reports to be finalized before the September Board meeting. When they are finalized, we will send information out to the Board, probably a summary, and make available to whoever wants it the full reports which will be quite substantial. We hope to be able to treat those as public documents, which they will be, but we need to be sure everybody has seen them and they are ready to go. I think you will be able to have the opportunity to review those reports before the September Board meeting. So when we go to next steps, you will have some sense of what that is.

The final point is that the next progress report will be made to the full Board in September and we hope - I am cautiously optimistic - that we will have good progress to report to you so that this important project can move forward.

Mr. Culley, is there anything you would like to add?

July 13, 2007 meeting, Board of Trustees

Mr. Culley:

Not to that report. I guess I could give an update on the CMS issue. We did get a response from CMS and they have asked for additional information, so that is being provided to them right now. The information they requested was more in the nature of historical records to support the representations, I believe, that we made in our letter to them. It looks like a natural response on their part and we are expediting our response back to them so that we can hopefully get a resolution from CMS as soon as possible.

Dr. Cloyd:

Great. Questions from the Board? Thank you. Let me just note, Bill and Chris and all of the folks that have been working on this, as we've said a number of times this is by far the largest and most complex project the University has ever undertaken. I think the deep, thoughtful, and very difficult work that you and your colleagues are doing right now to get us to a really sound plan that we can execute is the right thing to do. The execution ultimately is also going to be a huge challenge in its own regard. We really need to make sure that we are all aligned at the start on what we are going to do and where we will have decision points and milestones. I know that is difficult trench work and I complement and thank all of you who have been doing it. Thank you.

(See Appendix II for background material, page 132.)

CONSENT AGENDA

President Alutto:

We currently have 19 resolutions on the Consent Agenda today and would like to hold a separate vote for #14 - Waivers of Competitive Bidding Requirements. We are seeking your approval for:

AMENDED COMMITTEE APPOINTMENT

Resolution No. 2008-1

BE IT RESOLVED, That the appointment to the Academic and Student Affairs Committee be approved as follows:

Academic and Student Affairs Committee:

Douglas G. Borrer, Chair
John D. Ong, Vice Chair
Robert H. Schottenstein
G. Gilbert Cloyd
Thekla R. Shackelford
Alex Shumate
John C. Fisher
ALGENON L. MARBLEY
Debra J. Van Camp

REGIONAL CAMPUS BOARDS APPOINTMENTS

Resolution No. 2008-2

Synopsis: Approval of appointments to The Ohio State University Regional Campus Boards is proposed.

July 13, 2007 meeting, Board of Trustees

WHEREAS the Board of Trustees in 1994 approved the establishment of The Ohio State University Regional Campus Boards; and

WHEREAS it has been previously stipulated that "the board shall be composed of ten members appointed by The Ohio State University Board of Trustees in consultation with the president of the university;" nine members shall be private citizens; and one member shall be a student; and

WHEREAS the following named individuals have been nominated and selected for appointments to the following Regional Campus Boards for the terms specified:

Lima Board

Jered M. Slusher (student), July 1, 2007 - June 30, 2008

Mansfield Board

Chriss Harris, 1st term, July 1, 2007 - June 30, 2010
Sara M. Fisher (student), July 1, 2007 - June 30, 2008

Marion Board

M. Brad Reynolds, 1st term, July 1, 2007 - June 30, 2010
Michal M. Shirley (student), July 1, 2007 - June 30, 2008

NOW THEREFORE

BE IT RESOLVED, That the foregoing nominees be approved as members of the respective Regional Campus Boards for the terms specified.

HOSPITALS BOARDS APPOINTMENTS/REAPPOINTMENTS

Resolution No. 2008-3

Synopsis: Recommending approval of appointments/reappointments to the University Hospitals Board, the University Hospitals East Board, OSU Harding Hospital Board and the Richard M. Ross Heart Hospital Board.

WHEREAS in accordance with University Hospitals Board Bylaw (3335-104-01) all members of a specialized board shall be appointed by The Ohio State University Board of Trustees in consultation with the vice president for health services, the senior vice president for health sciences, and the president of the University:

NOW THEREFORE

BE IT RESOLVED, That the following individuals be appointed/reappointed as follows:

University Hospitals Board

David P. Lauer (reappointment) - Chair, effective July 1, 2007, through June 30, 2008
Nancy Petro (appointment) - Vice Chair, effective July 1, 2007, through May 31, 2008

University Hospitals East Board

George A. Skestos (appointment) - Chair, effective July 1, 2007, through June 30, 2008

OSU Harding Hospital Board

Anne K. Jeffrey (appointment) - Chair, effective July 1, 2007, through June 30, 2008
Peter F. Frenzer, (appointment) - Vice Chair, effective July 1, 2007, through June 30, 2008

July 13, 2007 meeting, Board of Trustees

Richard M. Ross Heart Hospital Board

John B. Gerlach Jr., (reappointment) - Chair, effective September 1, 2007, through August 31, 2008

AMENDMENTS TO THE BYLAWS OF THE MEDICAL STAFF AND *RULES AND REGULATIONS OF THE MEDICAL STAFF* OF THE ARTHUR G. JAMES CANCER HOSPITAL AND RICHARD J. SOLOVE RESEARCH INSTITUTE

Resolution No. 2008-4

Synopsis: The amendments to the *Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff* of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute are recommended for approval.

WHEREAS The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board, pursuant to bylaw 3335-109-02 of the *James Cancer Hospital Board Bylaws*, is authorized to recommend to the Board of Trustees the adoption of amendments to the *Bylaws of the Medical Staff and Rules and Regulations of the Medical Staff* of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute; and

WHEREAS the proposed amendments to the *Bylaws and Rules and Regulations of the Medical Staff* of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute were previously endorsed and ratified by The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board on January 30, 2007 and April 3, 2007.

NOW THEREFORE

BE IT RESOLVED, That the following amendments be hereby adopted.

Amended Bylaws

3335-111-04 Membership.

(A) through (D) unchanged.

(E) Procedure for appointment.

(1) and (2) unchanged.

(3) An application for membership on the medical staff shall be considered complete when all the information requested on the application form is provided, the applicant signs the application and the information is verified. A completed application must contain:

(a) through (l) unchanged.

(m) Completion of criminal history check by the Ohio state university medical center security department.

(n) Completion of the Ohio state university medical center drug testing.

(o) Verification of completion of HIPAA education program.

(4) through (14) unchanged.

(F) Procedure for reappointment.

July 13, 2007 meeting, Board of Trustees

(1) and (2) unchanged.

(3) An application for reappointment is complete when all the information requested has been submitted and/or verified. A completed reappointment application must contain:

(a) through (n) unchanged.

(o) Attending physicians only: submit information summarizing clinical research activities with each application.

(4) through (11) unchanged.

(G) Unchanged.

3335-111-07 Categories of the medical staff.

The medical staff of the CHRI shall be divided into honorary, attending, associate attending, clinical, community oncologist attending, community associate, and limited designations. All medical staff members with admitting privileges may admit patients in accordance with state law and criteria for standards of care established by the medical staff.

(A) through (H) unchanged.

(I) Clinical privileges.

(1) through (9) unchanged.

(10) Disaster privileges:

~~Disaster privileges may be granted by the medical director or his or her designee to fully licensed, qualified individuals who at the time of the disaster are not members of the medical staff in order to provide voluntary services during a local, state, or national disaster in accordance with hospital/medical staff policy and only when the following two conditions are present: the emergency management plan has been activated and the hospital is unable to meet immediate patient needs. Such privileges may be granted by the medical director or his or her designee to fully licensed, qualified individuals who at the time of the disaster are not members of the medical staff. The director of medical affairs may seek the recommendation of the chief of the clinical department or the section chief. These privileges will be limited in scope and will terminate once the disaster situation subsides or at the discretion of the director of medical affairs.~~

(11) Telemedicine:

Telemedicine involves the use of electronic communication or other communication technologies to provide or support clinical care at a distance. Diagnosis and treatment of a patient may now be performed via telemedicine link.

(a) Unchanged.

(b) ~~Generally, a member of the medical staff will be entitled to the same clinical privileges via telemedicine for which he has been granted privileges.~~ The credentials committee, the chief of the clinical service, the director of medical affairs or the medical staff administrative committee shall have the prerogative of requiring documentation or making a determination of the

July 13, 2007 meeting, Board of Trustees

appropriateness of the exercise of a particular specialty/subspecialty via telemedicine.

Amended Rules

05 ORDER WRITING PRIVILEGES.

(A) and (B) unchanged.

(C) Telephone and verbal orders may be given by the responsible attending physician, dentist, podiatrist, psychologist, member of the limited medical staff, or other licensed healthcare professionals with appropriate clinical privileges only to health care providers who have been approved in writing by title or category by the director of medical affairs, the director of the CHRI, and each chief of the clinical service where they will exercise clinical privileges, and only where said health care provider is exercising clinical privileges which have been approved and delineated by job description for employees of the hospital, or by the customary medical staff credentialing process when the provider is not an employee of the hospital. Lists of the approved titles or categories of providers shall be maintained by the director of medical affairs. The job description or delineated privileges for each provider must indicate each provider's authority to receive telephone or verbal orders, including but not limited to the authority to receive orders for medications. The order is to be written and signed by approved health care provider to whom it is dictated or given as "verbal order by _____," or "V.O. or T.O. by _____," giving the licensed healthcare practitioner's name and the time of the order, followed by the approved health care provider's signature and date, and read back in its entirety to the ordering physician, dentist, psychologist, podiatrist, designated limited staff member, or other licensed healthcare professionals with appropriate clinical privileges. All telephone and verbal orders for DEA schedule II controlled substances must be authenticated within one (1) day by signature of a licensed physician, dentist, podiatrist, psychologist, or designated limited staff member or other licensed healthcare professionals with appropriate clinical privileges. All other verbal and telephone and verbal orders for patient seclusion and patient restraint must be authenticated within one (1) day by signature of a licensed physician, dentist, podiatrist, psychologist, designated limited staff member or other licensed healthcare professionals with appropriate clinical privileges. All other verbal and telephone orders must be authenticated within twenty-one (21) days of discharge or ambulatory visit forty-eight (48) hours by signature by a licensed physician, dentist, podiatrist, psychologist, limited staff member, or other licensed healthcare professionals with appropriate clinical privileges.

(D) through (L) unchanged.

APPROVAL OF NON-ACADEMIC "CENTER" AND "INSTITUTE" STATUS

Resolution No. 2008-5

Synopsis: Approval of non-academic "center" and "institute" status is proposed.

WHEREAS faculty Rule 3335-3-36 (A) specifies that: Use of 'center' or 'institute' in the names of proposed units of the university shall be limited to academic centers, unless approved by the Council on Academic Affairs; and

WHEREAS requests have been received from the College of Medicine, College of Public Health, and the Office of Research for use of these terms as follows:

July 13, 2007 meeting, Board of Trustees

College of Medicine
Center on Advanced Radiation Technology and Therapy
Radiosurgery Center for Brain and Spine
OSU Sports Medicine Center

College of Medicine and College of Public Health
Center for Global Health

Office of Research
Institute for Energy and the Environment

WHEREAS subsequent use of the term “academic” center/institute will require that a formal proposal for academic center status will need to be submitted to the Council on Academic Affairs for full review for each of these units.

WHEREAS the Council on Academic Affairs reviewed these requests at its meetings on May 30, 2007 and June 20, 2007 and had no objections:

NOW THEREFORE

BE IT RESOLVED, That the “Center on Advanced Radiation Technology and Therapy”; the “Radiosurgery Center for Brain and Spine”; the “OSU Sports Medicine Center”; the “Center for Global Health” and the “Institute for Energy and the Environment” are hereby approved, effective immediately.

**NAMING OF THE KEN SWIGART HUMAN
MOTION TRANSLATIONAL LABORATORY**

Resolution No. 2008-6

Synopsis: Recommendation to name the Motion Analysis/Biomechanics lab in Dodd Hall (Rooms 1054, 1060, and 1060A) on the Medical Center campus that provides a space for patients in the early stages of neuromuscular disease to receive analysis, treatment, and diagnosis.

WHEREAS Dodd Hall rehabilitation is a world-renowned facility for diagnosing and treating patients suffering from neuromuscular and degenerative diseases; and

WHEREAS Ty Bryant’s son Christopher was a patient at Dodd Hall after suffering from a spinal cord injury, and “graduated” from treatment as a high-level quadriplegic in 1997 but passed away in 2005; and

WHEREAS Ty Bryant’s friend, Ken Swigart, began struggling with his own health problems and was diagnosed with ALS after two years of testing and delays; and

WHEREAS Ty Bryant and Ken Swigart have established a company whose devices are designed to make life easier for those with stroke and spinal cord injury; and Ty Bryant’s contributions to Dodd Hall will be utilized to upgrade technology and purchase additional state-of-the-art equipment that will provide for a digital system for the early discovery of ALS:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that the aforementioned lab in Dodd Hall be named the “Ken Swigart Human Motion Translational Laboratory.”

July 13, 2007 meeting, Board of Trustees

**NAMING OF THE HELEN DEACON SWANK
VOICE TEACHING AND RESEARCH LABORATORY**

Resolution No. 2008-7

Synopsis: Recommending the naming of a new research laboratory and teaching facility that will support the undergraduate and graduate Voice Pedagogy programs.

WHEREAS The Ohio State University School of Music is creating a voice pedagogy and research laboratory; and

WHEREAS Helen Deacon Swank received both a Bachelor of Music Education degree ('53) and Master of Arts degree ('66) degree from The Ohio State University, and taught on the faculty of The Ohio State University School of Music from 1967-1991 and provided leadership for the Vocal Performance Area from 1980 until her retirement; and

WHEREAS Helen Deacon Swank created The Ohio State University School of Music's nationally recognized graduate program in voice pedagogy, one of the first in the country, and is a widely-recognized voice teacher whose many outstanding students populate colleges, universities and concert stages throughout the country; and

WHEREAS she and her husband C. William Swank have been long-time friends and supporters of The Ohio State University:

NOW THEREFORE

BE IT RESOVLED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees approves that this new research laboratory located, in Mershon Auditorium, Room 304A, be named the "Helen Deacon Swank Voice Teaching and Research Laboratory."

NAMING OF INTERNAL SPACES

Resolution No. 2008-8

Synopsis: The naming of internal space within University facilities is proposed.

WHEREAS gifts and gift commitments have been received by donors to support the construction, equipping or furnishing of the classrooms, offices, laboratories and other noted spaces; and

WHEREAS upon the recommendation of the President and the President's Planning Cabinet, it has been proposed that the donors to these internal spaces be recognized for their generosity:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the aforementioned internal spaces in campus facilities shall be named as follows:

Project: Scott Laboratory, 201 West 19th Avenue

- Richard and Shirley Spencer Student Team Room, room N148
- William E. Fillmore Classroom, room N048
- David and Anna Ashley Conference Room, room N435
- Michael A. Chaszeyka Non-Equilibrium Thermodynamics Laboratory, rooms W477, W478
- Kurt M. Marshek Faculty Office, room E502
- William Lowrie Conference Room, room W190

July 13, 2007 meeting, Board of Trustees

- Charles and Lillian Heisler Student Resource Room, room N151
- Emerson Climate Technologies/Copeland Classroom, room E203
- Max W. Holzer Faculty Lounge, room E539
- Norma and Richard Hoover Gear and Mechanisms Display, room E439
- Evelyn and Gary Kinzel Reception Space, room N250
- Judy and Bruce Lavash Computing Classroom, room E205
- Frederick Meyers Student Organization Room, room N252
- Anthony Luscher Student Team Room, room N156
- W. Scott Schaefer Classroom, room E103
- William Mack Watkins and Elizabeth Ann Trinkler Watkins Classroom, room E241
- Randy and Tracy Edwards Conference Room, room E339
- W. Norman Shade Conference Room, room N353
- Cindy and Dan Kimmert Computing Classroom, room E225
- John and Suzanne Smucker Faculty Conference Room, room E525

Project: Recreation & Physical Activity Center, 337 West 17th Avenue

- Marty Bailey Scuba Room, room C98

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 2008-9

Synopsis: Approval of the following amendments to the *Rules of the University Faculty* are recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the *Rules of the University Faculty* as approved by the University Senate; and

WHEREAS the proposed changes in the *Rules of the University Faculty* were approved by the University Senate on May 31, 2007:

Amended Rules

3335-5-47 Organizing committees of the senate.

- (A) Unchanged.
- (B) Membership.
 - (1) and (2) unchanged.
 - (3) Terms of service.
 - (a) Faculty members shall serve two-year terms and shall ~~not be eligible for immediate reelection until one full year has elapsed unless they have served less than two-thirds of a full term~~ are eligible for immediate reelection or reappointment to a second term. Following that they are ineligible for reelection or reappointment until one full year has elapsed. Faculty members may not serve as chair of an individual committee for more than three successive years.
 - (b) through (d) unchanged.

July 13, 2007 meeting, Board of Trustees

(C) Unchanged.

3335-5-48 Standing and special committees of the senate.

(A) Unchanged.

(B) Membership.

(1) and (2) unchanged.

(3) Terms of service.

(a) Faculty members shall serve three-year terms and are eligible for immediate reappointment to a second term. Following that they are ineligible for reappointment until one full year has elapsed. Faculty members may not serve as chair of an individual committee for more than three successive years.

(b) Unless otherwise specified by the rules, student members shall serve one-year terms and be eligible for; ~~voting faculty and appointed administrative members shall serve three-year terms and shall be ineligible for immediate reelection or reappointment until one full year has elapsed unless they have served less than two-thirds of a full term reappointment.~~

(c) Appointed administration members shall serve two-year terms and shall not be eligible for immediate reappointment until one full year has elapsed unless they have served less than two-thirds of a full term.

(d) Multiyear terms shall be staggered so that approximately equal proportions of the number of members retire from the committee each year.

(C) Unchanged.

Rescinded Rule

~~3335-5-48.14 Research committee.~~

~~(A) Membership.~~

~~The research committee shall consist of twenty-six members.~~

~~(1) Sixteen faculty.~~

~~(a) Ten regular tenure-track faculty to be determined by the established procedures of the research and graduate council. These faculty must be members of the research and graduate council and represent the ten areas of the graduate school. The term of service is four years.~~

~~(b) Six regular tenure-track faculty selected by the faculty council. Of these six, one must serve on a regional campus and no more than one may be from any individual college. The term of service is four years.~~

~~(2) One research scientist, or comparable staff member engaged in research, appointed by the senior vice president for research and ratified by the steering committee. The term of service is one year and the member may be reappointed for a maximum of three years.~~

July 13, 2007 meeting, Board of Trustees

- ~~(3) One postdoctoral scholar appointed by the dean of the graduate school and ratified by the steering committee. The term of service is one year and the member may be reappointed for a maximum of three years.~~
- ~~(4) Five students.
 - ~~(a) Three graduate students.~~
 - ~~(b) One professional student.~~
 - ~~(c) One undergraduate student.~~~~
- ~~(5) Three administrators, non-voting.
 - ~~(a) The senior vice president for research.~~
 - ~~(b) The dean of the graduate school.~~
 - ~~(c) The executive director of the Ohio state university research foundation.~~~~

~~(B) — Duties and responsibilities:~~

- ~~(1) Encourage and stimulate scholarly research and creative activity and foster a close relationship between education and scholarly research.~~
- ~~(2) Review current policies, initiate recommendations for change, and review proposed changes in practices and policies governing the conduct of research and scholarly activity including, but not limited to, policies required by the federal government, internal policies related to grants and contracts administration, policies related to the allocation of internal funds to research activities, and policies related to academic centers that are engaged in research. Recommendations will be forwarded to appropriate persons, offices, and/or bodies.~~
- ~~(3) Serve as an advisory committee to the senior vice president for research.~~
- ~~(4) Make recommendations to the research and graduate council about establishing, affiliating, or abolishing academic centers and other comparable organizations that are engaged in research and make recommendations for determining the membership or authorities of their boards or governing bodies.~~

~~(C) — Organization:~~

- ~~(1) The committee shall serve as the research committee of the university senate and the research and graduate council and shall report to both bodies. Recommendations requiring formal action will be submitted to the university senate and/or the research and graduate council, as appropriate.~~
- ~~(2) The chair shall be elected each year by the committee from among its faculty members. The chair will be an ex-officio member of the research and graduate council if not already a member, and shall serve on the executive committee of the research and graduate council.~~
- ~~(3) As a standing committee of the research and graduate council, this committee is also governed by the provisions of rules 3335-5-35 and 3335-5-36 of the Administrative Code.~~
- ~~(4) As a standing committee of the senate, this committee is also governed by the provisions of rules 3335-5-46 and 3335-5-48 of the Administrative Code~~

New Rule

3335-5-48.14 University research committee.

(A) Membership.

The university research committee shall consist of 16 voting and 3 non-voting members.

- (1) Twelve regular faculty members drawn from no less than eight colleges. Faculty with joint appointments across colleges may be chosen to represent either college. The term of service is three years.
 - (a) Eight regular faculty members appointed by the executive committee of faculty council, at least three of whom are members of the senate and at least one of whom is a distinguished university professor or Ohio eminent scholar.
 - (b) Four regular faculty members appointed by the president.
- (2) One research scientist, or comparable staff member engaged in research, appointed by the senior vice president for research. The term of service is three years.
- (3) Three students appointed by the respective governing bodies to one-year terms.
 - (a) Two graduate students.
 - (b) One undergraduate student.
- (4) Ex officio members, non-voting (or their designees).
 - (a) The senior vice-president for research.
 - (b) The dean of the graduate school.
- (5) The senate fiscal committee chair, or her or his designee, nonvoting.

(B) Duties and responsibilities.

- (1) Encourage and stimulate scholarly research and creative activity and foster a close relationship between education and scholarly research.
- (2) Advise the senior vice president for research.
- (3) Review, on a continuing basis, the policies and practices governing the conduct of research and scholarly activity.
- (4) Coordinate with the governing bodies of the graduate school and with the office of undergraduate research.
- (5) Make recommendations concerning the establishment, affiliation or abolition of centers or comparable organizations that are primarily engaged in research.
- (6) Collaborate in reviews of the budget of the office of research undertaken by the senate fiscal committee.

July 13, 2007 meeting, Board of Trustees

(C) Organization.

(1) The committee shall annually elect a chair from its regular faculty membership in the spring quarter preceding the academic year of service for no more than three consecutive one-year terms.

(2) As a standing committee of the senate, this committee is also governed by the provisions of rules 3335-5-46 and 3335-5-48 of the Administrative Code.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the *Rules of the University Faculty* be adopted as recommended by the University Senate.

DEGREES AND CERTIFICATES - SUMMER QUARTER COMMENCEMENT

Resolution No. 2008-10

Synopsis: Approval of Degrees and Certificates for Summer Quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on August 26, 2007, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

(See Appendix VIII for background information, page 196)

PERSONNEL ACTIONS

Resolution No. 2008-11

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the June 1, 2007 meeting of the Board, including the following Appointments/Reappointments, Appointment / Reappointments of Chairpersons/Director, Amendment of Contract for Director of Athletics, Leaves of Absence Without Salary, Leave of Absence Without Salary - Continuation, Professional Improvement Leaves, Professional Improvement Leaves - Change in Dates, Emeritus Titles, Emeritus Title - change in date, and salary rolls with promotion and tenure, as detailed in the University Budget, be approved; and

BE IT FURTHER RESOLVED, That following a public hearing on July 6, 2007, David O. Frantz is being rehired to his previous administrative position, Secretary of the Board, as a returning retiree effective August 2, 2007.

July 13, 2007 meeting, Board of Trustees

Appointments

Name: DAVID J. HART
Title: Professor (The M.S. Newman Professorship)
Department: Chemistry
Effective: October 1, 2007 through September 30, 2014

Name: SUSAN V. OLESIK
Title: Professor (Dow Professorship in Chemistry)
College: Mathematical and Physical Sciences
Effective: October 1, 2007 through September 30, 2014

Name: DORU M. STEFANESCU
Title: Senior Research Scientist (The Ashland Designated Research Professorship)
Department: Materials Science and Engineering
Effective: July 1, 2007 through June 30, 2010

Reappointments

Name: JAY D. IAMS
Title: Professor (The Frederick P. Zuspan, M.D. Chair in Obstetrics and Gynecology)
College: Medicine
Effective: July 1, 2007 through June 30, 2011

Name: CARL V. LEIER
Title: Professor (The James W. Overstreet Chair in Cardiology)
College: Medicine
Effective: July 1, 2007 through June 30, 2011

Name: W. JERRY MYSIW
Title: Associate Professor (The Bert C. Wiley, M.D., Chair in Physical Medicine and Rehabilitation)
College: Medicine
Effective: July 1, 2007 through June 30, 2011

Name: THOMAS L. SPORLEDER
Title: Professor (The Farm Income Enhancement Endowed Chair in Agricultural Policy, Trade and Marketing)
College: Food, Agricultural, and Environmental Sciences
Effective: July 1, 2007 through June 30, 2012

Name: PHILIP F. BINKLEY
Title: Professor (The James Hay and Ruth Jansson Wilson Professorship in Cardiology)
College: Medicine
Effective: July 1, 2007 through June 30, 2011

Name: JACK A. BOULANT
Title: Professor (Fred A. Hitchcock Professorship in Environmental Physiology)
College: Medicine
Effective: July 1, 2007 through June 30, 2011

Name: SAMSON T. JACOB
Title: Professor (The William C. and Joan E. Davis Cancer Research Professorship)
Center/Hospital: Comprehensive Cancer Center - The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute
Effective: July 1, 2007 through June 30, 2011

July 13, 2007 meeting, Board of Trustees

Name: MICHAEL F. PARA
Title: Professor (Frank E. and Mary W. Pomerene Professorship in the Prevention and Treatment of Infectious Diseases)
College: Medicine
Effective: July 1, 2007 through June 30, 2011

Name: WILLIAM S. PEASE
Title: Professor (The Dr. Ernest W. Johnson Professorship)
College: Medicine
Effective: July 1, 2007 through June 30, 2011

Name: WILLIAM L. SMEAD
Title: Associate Professor (The Luther M. Keith Professorship in Surgery)
College: Medicine
Effective: July 1, 2007 through June 30, 2011

Appointment of Chairperson

MICHAEL J. BOEHM, Department of Plant Pathology, effective July 1, 2007 through June 30, 2011.

Reappointments of Chairperson/Director

JAMES E. KINDER, Department of Animal Sciences, effective July 1, 2007 through June 30, 2011.

STEVEN A. SLACK, OARDC, effective July 1, 2007 through June 30, 2011.

Amendment of Contract for Director of Athletics

EUGENE D. SMITH, contract amended, effective July 1, 2007 through June 30, 2012.

Leave of Absence Without Salary

JAMES J. BRUDNEY, Newton D. Baker/Baker and Hostetler Chair in Law and Professor, effective Spring Semester 2008, to be a visiting professor at Harvard Law School.

SHARON L. DAVIES, Professor, College of Law, effective Spring Semester 2008, to work on book project.

IVO HERZOG, Associate Professor, Department of Mathematics (Lima), effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to accept a position as a Visiting Faculty Member, Department of Mathematics, Yonsei University, South Korea.

KENNETH E. RINALDO, Associate Professor, Department of Art, effective Autumn Quarter 2007, to accept the Jill Kraus Visiting Professorship, School of Art, Carnegie Mellon University.

MARC S. SPINDELMAN, Associate Professor, College of Law, effective Autumn Semester 2007 and Spring Semester 2008, to accept a Visiting Professorship, College of Law, University of Michigan.

LEILA HEIL, Assistant Professor, School of Music, effective Autumn Quarter 2007, to accept an administrative opportunity at Cherry Creek High School, Denver, Colorado.

R. VALERIE KANEKO LUCAS, Assistant Professor, Department of Theatre, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, for personal reasons.

IRENE MASING-DELIC, Professor, Department of Slavic and East European Languages and Literatures, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to continue a Visiting Adjunct Professorship, Department of Slavic Languages, University of North Carolina at Chapel Hill.

July 13, 2007 meeting, Board of Trustees

Professional Improvement Leaves

GREGORY R. BAKER, Professor, Department of Mathematics, effective Autumn Quarter 2007 and Winter Quarter 2008.

JEFFREY J. DANIELS, Professor, School of Earth Sciences, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

RICHARD J. FURNSTAHL, Professor, Department of Physics, effective Autumn Quarter 2007 and Winter Quarter 2008.

NICHOLAS G. HALL, Professor, Department of Management Services, effective Winter Quarter and Spring Quarter 2008.

NEAL H. HOOKER, Associate Professor, Department of Agricultural, Environmental, and Development Economics, effective Winter Quarter and Spring Quarter 2008.

JAY F. MARTIN, Associate Professor, Department of Food, Agricultural, and Biological Engineering, effective Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008.

EMILY M. RODGERS, Associate Professor, School of Teaching and Learning, effective Winter Quarter and Spring Quarter 2008.

LESLIE D. STOEL, Associate Professor, Department of Consumer Sciences, effective Autumn Quarter 2007 and Winter Quarter 2008.

Professional Improvement Leaves -- Change in Dates

PAUL R. BERGER, Professor, Department of Electrical and Computer Engineering, change leave from Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to Winter Quarter and Spring Quarter 2008.

HESHAM M. EL GAMAL, Associate Professor, Department of Electrical and Computer Engineering, change leave from Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to Autumn Quarter 2007 and Winter Quarter 2008.

Emeritus Titles

REINHART F. BUTTER, Department of Industrial, Interior and Visual Communication Design, with the title Professor Emeritus, effective July 1, 2007.

DAVID O. FRANTZ, Department of English, with the title Professor Emeritus, effective August 1, 2007.

JERRY R. LADMAN, Department of Agricultural, Environmental, and Development Economics, with the title Professor Emeritus, effective July 1, 2007.

WILLIAM E. LOADMAN, School of Educational Policy and Leadership, with the title Professor Emeritus, effective July 1, 2007.

WILLIAM B. MALARKEY, Department of Internal Medicine (Endocrinology), with the title Professor Emeritus, effective July 1, 2007.

L. ALAYNE PARSON, Department of Mathematics, with the title Professor Emeritus, effective September 1, 2007.

VALAYAMGHAT RAGHAVAN, Department of Plant Cellular and Molecular Biology, with the title Professor Emeritus, effective July 1, 2007.

July 13, 2007 meeting, Board of Trustees

STEPHEN M. REED, Department of Veterinary Clinical Sciences, with the title Professor Emeritus, effective July 1, 2007.

DUANE W. ROLLER, Department of Greek and Latin (Lima), with the title Professor Emeritus, effective July 1, 2007.

JOSEPH R. TEBBEN, Department of Greek and Latin (Newark), with the title Professor Emeritus, effective July 1, 2007.

NICHOLAS J. TETERIS, Department of Obstetrics and Gynecology, with the title Professor Emeritus, effective July 1, 2007.

ALLAN J. YATES, Department of Pathology, with the title Professor Emeritus, effective September 1, 2007.

ELEANOR S. BLOCK, University Libraries, with the title Associate Professor Emeritus, effective September 1, 2007.

JOEL G. LUCAS, Department of Pathology, with the title Professor - Clinical Emeritus, effective July 1, 2007.

SEDIGHEH KEYHANI-ROFAGHA, Department of Pathology, with the title Professor - Clinical Emeritus, effective July 1, 2007.

DAVID L. CLARK, Department of Biomedical Informatics, with the title Associate Professor Emeritus, effective July 1, 2007.

LINDA K. MULLIGAN, Department of Sociology (Marion), with the title Associate Professor Emeritus, effective August 1, 2007.

BARRY M. FRIEDMAN, Department of Internal Medicine, with the title Assistant Professor Emeritus, effective October 1, 2007.

DAVID W. KRAMER, Department of Evolution, Ecology and Organismal Biology (Mansfield), with the title Assistant Professor Emeritus, effective July 1, 2007.

Emeritus Title - change in date

RAPHAEL T. GEORGE, Department of Consumer Sciences, with the title Associate Professor Emeritus, change effective date of September 1, 2007, to January 1, 2008.

Promotions, Tenure, and Reappointments

COLLEGE OF THE ARTS

PROMOTION TO PROFESSOR

Bales, Melanie, Dance, effective October 1, 2007

Eliot, Karen, Dance, effective October 1, 2007

Harvey, Rebecca, Art, effective October 1, 2007

PROMOTION TO PROFESSOR WITH TENURE

Petry, Susan Van Pelt, Dance, effective July 1, 2007

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Emoff, Ron, School of Music, Newark, effective October 1, 2007

Leasure, Timothy Lee, School of Music, effective October 1, 2007

Youngs, Amy Michelle, Art, effective October 1, 2007

July 13, 2007 meeting, Board of Trustees

TENURE [at rank of Associate Professor]

Price, Alan, Industrial, Interior and Visual Communication Design, effective October 1, 2007

COLLEGE OF BIOLOGICAL SCIENCES

PROMOTION TO PROFESSOR

Wenzel, John, Entomology, effective October 1, 2007

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Suo, Zucal, Biochemistry Admin, effective October 1, 2007

MAX FISHER COLLEGE OF BUSINESS

PROMOTION TO PROFESSOR

Klein, Howard, FCOB Mgmt & Human Resources, effective October 1, 2007

COLLEGE OF DENTISTRY

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Huja, Sarandeep Singh, effective October 1, 2007

Schricker, Scott Raymond, effective October 1, 2007

COLLEGE OF DENTISTRY

REGULAR CLINICAL

PROMOTION TO PROFESSOR-CLINICAL AND REAPPOINTMENT

Kalmar, John Richard, effective October 1, 2007 & October 1, 2008

REAPPOINTMENT

Iannucci, Joen M, effective October 1, 2008

Sharples II, Dale Stanley, effective October 1, 2008

Villarroel, Soraya C, effective October 1, 2008

COLLEGE OF EDUCATION AND HUMAN ECOLOGY

PROMOTION TO PROFESSOR

Dillard, Cynthia, School of Teaching & Learning, effective October 1, 2007

Medeiros, Lydia, Human Nutrition, effective October 1, 2007

Petosa, Richard, School of Physical Activity & Educational Services, effective October 1, 2007

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Bomser, Joshua A, Human Nutrition, effective October 1, 2007

Hawley, Joshua D, School of Physical Activity & Educational Services, effective October 1, 2007

Hirvela, Alan, School of Teaching & Learning, effective October 1, 2007

Voithofer, Richard J., School of Educational Policy & Leadership, effective October 1, 2007

Zirkle, Christopher J, School of Physical Activity & Educational Services, effective October 1, 2007

TENURE [at rank of Associate Professor]

Danforth, Scot, School of Teaching & Learning, effective October 1, 2007

Katz, Laurie J, School of Teaching & Learning, effective October 1, 2007

July 13, 2007 meeting, Board of Trustees

COLLEGE OF ENGINEERING

PROMOTION TO PROFESSOR

Agrawal, Gagan, Computer Science & Engineering, effective October 1, 2007
Cadwell, Michael, Knowlton School of Architecture, effective October 1, 2007
Parent, Richard, Computer Science & Engineering, effective October 1, 2007

PROMOTION TO ASSOCIATE PROFESSOR WITH TENURE

Cowley, Jennifer Evans, Knowlton School of Architecture, effective October 1, 2007
Dapino, Marcelo J, Mechanical Engineering, effective October 1, 2007
Ferhatosmanoglu, Hakan, Computer Science & Engineering, effective October 1, 2007
Foster, Diane L, Civil, Environmental Engineering & Geodetic Science, effective October 1, 2007

RESOLUTIONS IN MEMORIAM

Resolution No. 2008-12

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

July 13, 2007 meeting, Board of Trustees

Richard H. Armitage

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 26, 2007, of Richard H. Armitage, Vice President Emeritus in the Office of Student Affairs.

A native of Ravenna, Ohio, Dr. Armitage received the Bachelor of Arts degree from Oberlin College in 1939, and was awarded the Master of Arts and Doctor of Philosophy degrees by Ohio State in 1940 and 1945, respectively. He joined the Ohio State staff in 1941 as an assistant instructor and rose to the rank of professor in the Department of Romance Languages. He served as acting assistant dean of the College of Arts and Sciences in 1955 and 1956. In 1957, he assumed the duties of assistant dean of the Graduate School. He became associate dean in 1960 and was promoted to dean in 1963, serving until 1970, when he briefly left Ohio State to become provost at the University of Missouri-Kansas City. He returned to Ohio State in 1971 to become the University's first ombudsman. In 1973, he was named vice president for Student Affairs, a position he held until 1978, when he retired from Ohio State and took a position at the University of California-San Diego.

A specialist in Spanish and Latin American Studies, Dr. Armitage co-authored a widely used textbook, "Beginning Spanish, A Cultural Approach," published in 1953 and revised in 1963 and 1971. Even though most of his 39-year career at Ohio State was spent in administrative positions, he frequently taught lower-level Spanish courses, both because he enjoyed teaching and because he felt it helped him understand students better. He was active in University governance and service, chairing the Michigan-Ohio regional selection committee for Woodrow Wilson Fellowships and the Ohio State committee on Fulbright Awards. He served on the board of directors of The Ohio State University Research Foundation and was very active in the Faculty Club. He was the first elected faculty member of the Athletic Council, on which he served from 1958 - 70. Dr. Armitage was a key figure in the faculty decision to decline the 1961 Rose Bowl invitation, arguing that the game extended the season too long, overemphasized the role of athletics, and was a financial hardship to the University.

In all of his roles, Dr. Armitage was a passionate advocate for quality and for students. As ombudsman, he recommended that 180 credit hours be the normal amount for a bachelor's degree, that the problem of closed courses be more effectively addressed, and that policies be clarified to regulate smoking in classrooms and dogs on campus. As graduate dean, he was instrumental in the building of Jones Graduate Tower and he revised many of the procedures and policies of the Graduate School to include greater faculty involvement and to address student concerns. As vice president for Student Affairs, he oversaw the expansion of women's athletics, the establishment of the first Black Cultural Center, and the beginnings of career counseling.

Dr. Armitage was the first recipient of the Nemzer Award of The Ohio State University chapter of the American Association of University Professors and the first recipient of the Administrator of the Year Award given by the Council of Graduate Students. He was presented with the Distinguished Service Award at the Autumn 1990 commencement.

On behalf of the University community, the Board of Trustees expresses to the family of Dr. Richard H. Armitage its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

William J. Holloway

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 12, 2006, of William J. Holloway, first vice provost of the Office of Minority

July 13, 2007 meeting, Board of Trustees

Affairs and Professor Emeritus in the School of Physical Activity and Educational Services.

Dr. William Jimmerson Holloway, a native of Smithfield, Virginia, studied at the Isle of Wight County Training School in Smithfield and at Huntington High School, and earned degrees from Hampton Institute (B.A., 1940), the University of Michigan (M.A., 1946), and the University of Illinois (Ed.D., 1961), and was a fellow in Far Eastern Studies at Harvard University (1950).

Dr. Holloway served as an administrator in many schools, including Union School (Hampton, Virginia, 1946-47), Savannah State College (1947-55), Ligon High School (Durham, North Carolina, 1959-61), and the Virginia State School for the Deaf and Blind (Hampton, Virginia, 1961-65), where he developed a curriculum that led to this school's first accreditation, and where he fought to gain approval of the admission of the school's first white student.

Dr. Holloway served with distinction in the United States Office of Education, in the Department of Health, Education, and Welfare, under President Lyndon Johnson (1965-70), where he labored to ensure the orderly desegregation of public schools in 35 states, and to resolve educational problems of Native Americans in North Carolina and Oklahoma.

The Ohio State University, following campus disturbances during the turbulent period of the late 1960s and 1970, invited Dr. Holloway to create its Office of Minority Affairs, where from 1970 - 78 he led the University's efforts to recruit, provide financial assistance to, and organize supportive services for African Americans, Appalachian Whites, Hispanic Americans, Asian Americans and Native Americans. His tenure was always being characterized by his high sense of personal integrity, his wise judgment on issues of equity, and his gracious leadership style.

Soon after he left his senior administrative post, the Nigerian state of Bauchi requested Ohio State's assistance in training secondary school teachers. Dr. Holloway accepted this challenge and served as director of the Nigerian Education Program at Ohio State until his retirement in 1982.

Throughout his life he was an effective and beloved teacher at virtually every level of educational attainment. He was a scholar and an author of many articles and books, as well as a member of the Board of Editors of the *Negro Educational Review* from 1972 - 99 and as editor-in-chief from 1995 - 99.

Dr. Holloway was the recipient of many distinguished awards and certificates of recognition from local, statewide, national and international organizations.

On behalf of the University community, the Board of Trustees expresses to the family of Professor William J. Holloway its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

James A. Kreider

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 8, 2007, of James A. Kreider, Professor Emeritus in the College of Dentistry.

Professor Kreider, a native of Newark, Ohio, enrolled in The Ohio State University College of Liberal Arts in 1928 and graduated from OSU's College of Dentistry in 1935. He was a member of Pi Kappa Alpha Fraternity, Psi Omega Dental Fraternity, and Omicron Kappa Upsilon National Dental Honor Society.

July 13, 2007 meeting, Board of Trustees

Dr. Kreider practiced in Newark until 1942, when he voluntarily enlisted in the U.S. Army as a dental surgeon. During World War II, he served in the North Africa, Southern France, and European theaters and attained the rank of major. In December 1945, he joined the faculty of The Ohio State University College of Dentistry at the rank of instructor in Prosthetic Dentistry.

He was a demanding clinical teacher and clinician whose dedication to students and patients was exceptional. He was a proponent of organized dentistry and was a member of the American Dental Association and its components: the Ohio Dental Association and the Columbus Dental Society. He was a life member of The Ohio State University Alumni Association.

He retired in 1979 and, in 2001, he provided a narrative of his dental student days that was included in the College of Dentistry's book, "A Century of Dental Education & A Decade More."

On behalf of the University community, the Board of Trustees expresses to the family of Dr. James A. Kreider its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Edwin L. "Ted" Mitchell

The Board of Trustees of The Ohio State University and the OSU-Marion Board of Trustees expresses its sorrow upon the death on June 5, 2007, of Edwin L. "Ted" Mitchell. Mr. Mitchell was a Marion attorney, an active community leader, and a founder and long-time friend and supporter of Ohio State Marion.

Mr. Mitchell was born in Ironton, Ohio, on September 22, 1912. He received his bachelor's degree from The Ohio State University in 1934 and his law degree in 1937, the same year he was admitted to the Ohio Bar. While a student at Ohio State, he worked as an assistant law librarian. He began practicing law in Marion in 1948 and was elected to the Marion City School Board in 1952 and 1956.

In 1957, Mr. Mitchell was prominent among community leaders encouraging The Ohio State University to establish an off-campus operation in Marion and developing community support for this successful effort. He was one of the original "OSU Marion Committee of Sixteen" responsible for awarding community-provided scholarships to the first students of Ohio State Marion and for providing a community voice for the newly established program in Marion.

As general chairman of the Marion Area College Foundation, Mr. Mitchell led the community campaign in the mid-1960s that raised \$400,000 to purchase the 180-acre campus now home to Ohio State Marion. His efforts were so successful and the community so generous that an additional \$227,000 was raised, providing funds to establish scholarships that continue to benefit students at Ohio State Marion. For many years, he served on the Citizens Council at Ohio State Marion and in 1994 he was appointed trustee emeritus of the Ohio State Marion Board. In a recent interview, he stated, "Of all the things I've done in my life, there is nothing I'm more proud of than OSU Marion." Fittingly, he was honored with an OSU Distinguished Service Award in 1978.

Always a Buckeye, Mr. Mitchell was a member of the Ohio State Alumni Association and a past chairman of the Ohio State Alumni Advisory Board. He received the OSU Alumni Centennial Award in 1970. He also was a member of the University President's and Buckeye Clubs, and was part of the Woody Hayes Frontliner Club, reflecting his love of Ohio State football.

July 13, 2007 meeting, Board of Trustees

Mr. Mitchell's community service included membership on local and state bar associations. He was president of the Marion County Bar Association. He was a member of the Workman's Compensation and Unemployment Compensation Committees of the Ohio State Bar Association, twice serving as chairman of the Council and honored with life membership on the Council in 1974. He received the Distinguished Service Award from the Ohio State Bar Association in 1966.

On behalf of the University community, the Board of Trustees of The Ohio State University and the OSU-Marion Board of Trustees expresses to the family of Edwin L. "Ted" Mitchell their deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Boards' heartfelt sympathy.

Roy F. Reeves

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 5, 2007, of Roy F. Reeves, Professor Emeritus in the Department of Mathematics.

Dr. Reeves received his B.S. degree in Electrical Engineering from the University of Colorado and his Ph.D. degree from Iowa State University in 1951. His dissertation in applied mathematics was titled *Force Fields in which Centers of Gravity can be Defined*. He joined The Ohio State University mathematics faculty in 1951. He was the founder and director of what became the Instruction and Research Computer Center and is now the Office of Information Technology. He was named a full professor in 1965 and held the title director of Academic Computing. After his retirement from Ohio State in 1981, he held the John A. Patton Chair in Computer Sciences at Otterbein College in Westerville.

Professor Reeves was an early pioneer in the mathematics of scientific computing. In addition to carrying out his own technical research, he was a consultant to numerous organizations including Battelle Memorial Institute, the National Bureau of Standards, and the National Science Foundation. As director of Academic Computing he created an organization that served undergraduates, graduate students, faculty, and staff. He carefully balanced the needs of classroom teaching, technical research in computation, and the rigorous mathematical foundations of computation in mathematics, statistics, engineering, and the sciences.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Roy F. Reeves its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2008-13

Synopsis: The University Development Report for May 2007 is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

July 13, 2007 meeting, Board of Trustees

WHEREAS this report includes the establishment of The Henry A. Wise II, M.D. Endowed Professorship in Urology, The Ashland Designated Research Professorship in Materials Science and Engineering, and The Dr. Charles Saltzer Professorship in Mathematics; and

WHEREAS this report includes the establishment of twenty-four (24) new named endowed funds, the revision of one (1) endowed chair, and the revision of four (4) endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of May 2007 be approved.

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Total Gifts

Change in Name and Description of Named Endowed Chair

From: The Wayne Woodrow Hayes Chair in National Securities Studies
To: The Wayne Woodrow Hayes Chair in National Security Studies

Establishment of Named Endowed Professorship

The Henry A. Wise II, M.D., Endowed Professorship in Urology \$1,000,000.00
(Used to support a nationally recognized urologist faculty member undertaking clinical, educational, and research activities in the field of urology; provided by gifts from the University Urology Education and Research Foundation and friends of the Department of Urology in honor of Henry A. Wise II, M.D.)

Establishment of Named Designated Professorship

The Ashland Designated Research Professorship in Materials Science and Engineering \$200,614.64
(Used to support a research professor within the Department of Materials Science and Engineering in the College of Engineering for a three-year period; provided by annual gifts from Ashland Inc.)

Establishment of Named Endowed Funds

Carter G. Phillips Colloquium Series on American Political Institutions Fund \$50,000.00
(Used to pay the expenses of speakers who visit the Department of Political Science to present colloquium lectures on American political institutions; provided by gifts from Carter G. Phillips)

Lawrence Shaefer Endowed Scholarship Fund \$29,700.00
(Used to provide scholarships to third-year optometry students who demonstrate outstanding clinical skills; provided by gifts from numerous donors in memory of Dr. Lawrence B. Shaefer) (grandfathered)

OARDC Organic Food and Farming Education and Research (OFFER) Program Fund \$26,000.00
(Used to support the certified organic research and education activities of the interdisciplinary Organic Food and Farming Education and Research (OFFER) Program; provided by funds from the College of Food, Agricultural, and Environmental Sciences and the Ohio Agricultural Research and Development Center) (grandfathered)

Change in Description of Named Endowed Fund

The Jack D. Sparks Endowed Scholarship Fund

Change in Name and Description of Named Endowed Fund

From: The Lois and Brian P. Donahue Endowment Fund
To: The Brian P. Donahue Endowment Fund

July 13, 2007 meeting, Board of Trustees

Establishment of Named Endowed Professorship

The Dr. Charles Saltzer Professorship in Mathematics \$1,507,536.51
(Used to provide support to secure a professorship for a distinguished visiting faculty member or a new faculty member who will elevate the research in the Department of Mathematics; provided by gifts from the estate of Dr. and Mrs. Charles Saltzer)

Establishment of Named Endowed Funds

The Robert E. and Anna L. Holderman Family Athletic Scholarship Fund \$500,000.00
(Used to supplement the grant-in-aid scholarship costs of an undergraduate student-athlete who is a member of the varsity men's basketball team; provided by gifts from Anna L. Holderman, Robin V. Holderman, Kris Holderman Hurd, and Adam R. Holderman)

The Karen A. Holbrook Fund \$150,225.00
(Used to support research at the undergraduate level through the Undergraduate Research Office and/or study abroad scholarships through the Office of International Affairs; provided by gifts from Dr. Karen A. Holbrook, colleagues, friends, and family)

The Hagop S. Mekhjian, M.D. Medical Ethics and Professionalism Lectureship Fund \$61,500.00
(Used to provide support for outstanding instruction, scholarship, and professional development activities addressing medical ethics and medical professionalism for medical students, residents, and practicing physicians; provided by gifts from Dr. and Mrs. Mekhjian and multiple friends made in honor of Hagop Mekhjian, M.D.)

The Huntington Archives Endowment Fund \$51,635.59
(Used to support the activities of The Huntington Archives; provided by gifts from an anonymous donor)

Ronald D. and Jane Hess Harris Fund for Education Excellence \$50,897.37
(Used to pay construction costs or interest on construction bonds issued for a new building(s) for the Department of Chemical and Biomolecular Engineering; provided by gifts from Ronald D. Harris and Jane Hess Harris)

The Sungkyu Christopher Lee, M.D. Family Scholarship Fund \$50,047.53
(Used to support undergraduate scholarships for third- or fourth-year international students who are preparing to attend medical school; provided by gifts from Dr. Sungkyu Christopher Lee, Mrs. Geraldine Lee, and Mr. Bryan Christopher Lee)

The Edward C. "Danny" Danford Strategic Initiatives Fund \$50,000.00
(Used by the dean of the Fisher College of Business to support activities of the faculty, students, and staff in accordance with the strategic plans of the College; provided by a gift from Edward C. "Danny" Danford)

The Major Robert C. White Endowed Scholarship Fund \$50,000.00
(Used to provide scholarships to undergraduate students with preference given to junior, senior, or fifth-year senior cadets who intend to make a career in the United States Air Force; provided by gifts from Eugene M. and Marjorie L. White in memory of Eugene's brother, Major Robert C. White)

July 13, 2007 meeting, Board of Trustees

The OSU Naval ROTC Alumni Society Award Fund (Used to support awards and programming for the Ohio State Naval Reserve Officer Training Corps (OSU ROTC); provided by gifts from members and friends of The Ohio State University Naval Reserve Officer Training Corps Alumni Society) (grandfathered)	\$29,667.00
Daniel and Lisa Wampler Vice President's Excellence Fund (Used to support programs identified by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences as current and critical priorities in the College of Food, Agricultural, and Environmental Sciences; provided by gifts from Daniel and Lisa Wampler) (grandfathered)	\$29,487.00
The Sharron L. Kisner CIDP Research Fund (Used to advance medical knowledge in the field of chronic inflammatory demyelinating polyneuropathy in the Department of Neurology; provided by gifts from her son Karl Jeffrey Kisner, family, and friends) (grandfathered)	\$28,650.00
Rosalie S. and Edward O. Elliott II Scholarship Fund (Used to provide need-based scholarships for full-time undergraduate students who are graduates of Ridgemont High School in Hardin County, Ohio, or its successor who live in the Ridgemont High School district; provided by gifts from Rosalie S. Elliott and Edward O. Elliott II) (grandfathered)	\$27,580.00
Mark A. and Debbie Cramer Endowment Fund (Used to provide unrestricted support for The Ohio State University at Marion; provided by gifts from Mark A. and Deborah Cramer)	\$27,209.20
The Class of 1960 Medical Education Scholarship Fund (Used to provide scholarships to medical students in the College of Medicine based on academic merit and/or financial need; provided by gifts from alumni of the 1960 medical class of the College of Medicine) (grandfathered)	\$26,237.14
The G. Jane Leiby and Marie Myers Memorial Scholarship Fund (Used to support one need-based scholarship for a first-generation undergraduate student; provided by gifts from Dr. Jane M. Leiby) (grandfathered)	\$25,958.13
Wilson Weait Bassoon Studio Award Fund (Used to provide an award for students enrolled in the School of Music majoring in bassoon; provided by gifts from friends, family, and colleagues in honor of George Wilson and Christopher Weait) (grandfathered)	\$25,112.00
The Charles Foley Scholarship Fund (Used to provide need-based scholarships to first-year students who graduated from Central Catholic High School with a minimum GPA of 3.0; provided by a gift from Charles R. Foley) (grandfathered)	\$25,024.00
Marjorie Simmons Clemmer Dean's Fund (Used to support creative, forward-thinking programs in all areas of human ecology in the College of Education and Human Ecology; provided by gifts from Marjorie Simmons Clemmer) (grandfathered)	\$25,000.00

July 13, 2007 meeting, Board of Trustees

The Hall Family Scholarship Fund in the College of Biological Sciences (Used to assist undergraduate students enrolled in the College of Biological Sciences with preference given to students with an interest in the environment and education; provided by gifts from Dr. Richard W. Hall and Janet C. Hall) (grandfathered)	\$25,000.00
--	-------------

The Selma and Edward Levy Endowed Scholarship Fund (Used to provide yearly financial aid to one D.V.M. student with preference given to a student from New Jersey with an interest in small animal medicine; provided by gifts from Gary S. Levy) (grandfathered)	\$25,000.00
--	-------------

The George and Betty Richards Endowed Fund in the College of Pharmacy (Used to provide unrestricted support for the College of Pharmacy; provided by gifts from George and Betty Richards)	\$25,000.00
---	-------------

Change in Name and Description of Named Endowed Chair

The Wayne Woodrow Hayes Chair in National Security Studies

The Wayne Woodrow Hayes Professorship Fund in National Securities Studies was established June 6, 1996, by the Board of Trustees of The Ohio State University with gifts from the family and friends of Woody Hayes. The name was changed to The Wayne Woodrow Hayes Chair Fund in National Securities Studies and the description was revised July 11, 1997. The name was changed again to The Wayne Woodrow Hayes Chair Fund in National Security Studies and the description was revised October 3, 1997. The funding level of \$1,250,000 was reached, the chair was established, and the name was changed to The Wayne Woodrow Hayes Chair in National Securities Studies July 7, 2000. The name and description were again revised July 13, 2007.

In keeping with the provisions of the original endowed fund, the annual distribution from this fund shall be used to support The Wayne Woodrow Hayes Chair in National Security Studies in the Mershon Center in the College of Social and Behavioral Sciences. Appointment to the Hayes Chair will be made upon recommendation of the director of the Mershon Center and with approval of the University Board of Trustees.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Social and Behavioral Sciences in consultation with the director of the Mershon Center. Any such alternate distributions

July 13, 2007 meeting, Board of Trustees

shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Establishment of Named Endowed Professorship

The Henry A. Wise II, M.D., Endowed Professorship in Urology

The Henry A. Wise II, M.D., Endowed Professorship Fund in Urology was established February 2, 2007, by the Board of Trustees of The Ohio State University with gifts from the University Urology Education and Research Foundation, Inc., and friends of the Department of Urology, with support from the College of Medicine; given in honor of Henry A. Wise II, M.D. (clinical professor emeritus, 2003; held positions of assistant professor, associate professor, division director, and clinical professor in Urology from 1972-2000) of Dublin, Ohio. The funding level has been reached and the professorship was established July 13, 2007.

The annual distribution from this fund shall support an endowed professorship position in the Department of Urology in support of a nationally recognized urologist faculty member undertaking clinical, educational, and research activities in the field of urology. If funding reaches the level of \$2,000,000, the professorship shall be converted to a chair position. Appointment shall be made as recommended by the chairperson of the Department of Urology and approved by the dean of the College of Medicine and by the senior vice president for Health Sciences. The activities of the professorship or chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the chairperson of the Department of Urology in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Professorship: \$1,000,000.00

Establishment of Named Designated Professorship

The Ashland Designated Research Professorship in Materials Science and Engineering

The Ashland Designated Research Professorship in Materials Science and Engineering was established July 13, 2007, by the Board of Trustees of The Ohio State University with annual gifts from Ashland Inc.

As recommended by the chairperson of the Department of Materials Science and Engineering in consultation with the dean of the College of Engineering, this fund shall be used to support a research professor within the Department of Materials Science and Engineering in the College of Engineering. The designated research professorship position shall be for a three-year period. The fund is renewable pending additional funding at the end of the initial term. The activities of the designated research professorship holder shall be reviewed by the dean to determine compliance with the intent of the donor as well as the academic and research standards of the University.

July 13, 2007 meeting, Board of Trustees

Appointment to The Ashland Designated Research Professorship in Materials Science and Engineering shall be recommended by the dean of the College of Engineering in consultation with the chairperson of the Department of Materials Science and Engineering and approved by the Board of Trustees.

Amount Funding Professorship: \$200,614.64

Establishment of Named Endowed Funds

Carter G. Phillips Colloquium Series on American Political Institutions Fund

The Carter G. Phillips Colloquium Series on American Political Institutions Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University with gifts from Carter G. Phillips (B.A., 1973).

The annual distribution from this fund shall be used at the discretion of the chairperson of the Department of Political Science in the College of Social and Behavioral Sciences to pay the expenses of speakers who visit the Department to present colloquium lectures on American political institutions, including the courts and their relationships to other governmental institutions.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Social and Behavioral Sciences in consultation with the chairperson of the Department of Political Science. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

Lawrence Shaefer Endowed Scholarship Fund

The Lawrence Shaefer Endowed Scholarship Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University with gifts from numerous donors in memory of Dr. Lawrence B. Shaefer (B.S., 1979; O.D., 1982).

The annual distribution from this fund shall provide a scholarship(s) to a third-year optometry student(s) who demonstrates outstanding clinical skills. Scholarship recipients will be selected by the dean of the College of Optometry in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Optometry. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

July 13, 2007 meeting, Board of Trustees

Amount Establishing Endowment: \$29,700.00 (grandfathered)

**OARDC Organic Food and Farming Education
and Research (OFFER) Program Fund**

The OARDC (Ohio Agricultural Research and Development Center) Organic Food and Farming Education and Research (OFFER) Program Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University with funds from the College of Food, Agricultural, and Environmental Sciences and the Ohio Agricultural Research and Development Center.

Farming has been a passion of the Hirzel family for several generations. The Hirzel Canning Company and Farms is a family-owned and operated business which was founded in 1923 by the late Carl R. Hirzel. The late John E. Hirzel transitioned 600 acres of Hirzel Farms to certified organic production, making Hirzel Farms the largest organic vegetable operation in Ohio. In memory of Rosalie Hirzel, John Hirzel, and John's father-in-law, Robert Slovak, this endowed fund shall support education and research in the field of organic food and farming to benefit future generations.

The annual distribution from this fund shall be used to support the certified organic research and education activities of the interdisciplinary Organic Food and Farming Education and Research (OFFER) Program at various locations in Ohio, including OARDC Wooster and the John Hirzel Sustainable Agriculture Research and Education Site in Bowling Green as approved by the administrative coordinator of the OFFER program. The OFFER program is in the College of Food, Agricultural, and Environmental Sciences and the Ohio Agricultural Research and Development Center.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the administrative coordinator of the OFFER program. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$26,000.00 (grandfathered)

Change in Description of Named Endowed Fund

The Jack D. Sparks Endowed Scholarship Fund

The Jack D. Sparks Endowed Scholarship Fund was established May 30, 2003, by the Board of Trustees of The Ohio State University with a gift from The Jack D. and Fredda S. Sparks Foundation. The description was revised July 7, 2006, and was revised again July 13, 2007.

The annual distribution from this fund shall be used to provide scholarship support for two "John Glenn Fellows" participating in the Washington Academic Internship Program of the John Glenn School of Public Affairs. It is the desire of the donor that the scholarships shall be awarded with preference to, but not limited to, students interested in public service. The scholarships shall be awarded by the director of the Washington Academic Internship Program in consultation with the Office of Student Financial Aid.

July 13, 2007 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of the John Glenn School of Public Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Change in Name and Description of Named Endowed Fund

The Brian P. Donahue Endowment Fund

The Lois and Brian P. Donahue Endowment Fund was established June 6, 1975, by the Board of Trustees of The Ohio State University with gifts from Brian P. Donahue (B.S., 1959) of Columbus, Ohio. The name and description were revised July 13, 2007.

The annual distribution from this fund shall be used by the College of Medicine in support of research in the areas of cystic fibrosis and chronic pulmonary diseases. Requests for expenditure of funds will be initiated and approved by the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the appropriate administrative official of the University who is then directly responsible for medical education. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Establishment of Named Endowed Professorship

The Dr. Charles Saltzer Professorship in Mathematics

The Dr. Charles Saltzer Professorship in Mathematics was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with estate gifts from Charles Saltzer and Florence Saltzer of Columbus, Ohio.

Dr. Charles Saltzer, former professor in the Department of Mathematics and in the Department of Computer and Information Science at The Ohio State University, was a specialist in analysis and applied mathematics. He actively promoted cooperation between the Departments of Mathematics and Computer and Information Science. In addition to his contributions to research in applied mathematics, Professor Saltzer was an extremely kind and versatile teacher on both the undergraduate and the graduate level. Although he demanded strong performance, he was devoted to his students and worked to ensure that they learned both theory and applications. After his retirement from OSU, Dr. Saltzer continued to teach one course per year in the Department of Mathematics. During the summer of 2001 he was teaching a basic course in ordinary differential equations, and he wrote the final examination for that course just a few days before his

July 13, 2007 meeting, Board of Trustees

death. Professor Saltzer remained an active mathematician and an inspired teacher to the very end.

The annual distribution from this fund shall provide support to secure a professorship for a distinguished visiting faculty member or a new faculty member who will elevate the research in the Department of Mathematics. Appointment to the professorship shall be made as recommended by the chairperson of the Department of Mathematics and approved by the dean of the College of Mathematical and Physical Sciences. The activities of the professorship holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Mathematical and Physical Sciences in consultation with the chairperson of the Department of Mathematics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$1,507,536.51

Establishment of Named Endowed Funds

The Robert E. and Anna L. Holderman Family Athletic Scholarship Fund

The Robert E. and Anna L. Holderman Family Athletic Scholarship Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Anna L. Holderman, Robin V. Holderman, Kris Holderman Hurd, and Adam R. Holderman of Columbus, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing a degree at The Ohio State University and is a member of the varsity men's basketball team. Scholarship recipients must be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics after consultation with the donors or their designee. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$500,000.00

July 13, 2007 meeting, Board of Trustees

The Karen A. Holbrook Fund

The Karen A. Holbrook Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Karen A. Holbrook, as well as gifts from colleagues, friends, and family in honor of Dr. Holbrook's distinguished career as the 13th president of The Ohio State University.

The annual distribution from this fund shall support research at the undergraduate level through the Undergraduate Research Office and/or study abroad scholarships through the Office of International Affairs at the discretion of the executive vice president and provost. The director of the Undergraduate Research Office and the director of study abroad in the Office of International Affairs in consultation with the Office of Student Financial Aid will make recommendations for their areas respectively.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the executive vice president and provost. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$150,225.00

The Hagop S. Mekhjian, M.D. Medical Ethics and Professionalism Lectureship Fund

The Hagop S. Mekhjian, M.D. Medical Ethics and Professionalism Lectureship Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Dr. and Mrs. Mekhjian and multiple friends made in honor of Hagop Mekhjian, M.D. (medical director, OSU Health System since 1984) of Columbus, Ohio.

The annual distribution from this fund shall be used to provide support for outstanding instruction, scholarship, and professional development activities addressing medical ethics and medical professionalism for medical students, residents, and practicing physicians. The lectureship will focus on developing the knowledge base and skills to provide humane, compassionate care in today's complex social and medico-legal environment. Allocation of funds shall be recommended by the medical director and approved by the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the medical director of the OSU Health System and approved by the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

July 13, 2007 meeting, Board of Trustees

Amount Establishing Endowment: \$61,500.00

The Huntington Archives Endowment Fund

The Huntington Archives Endowment Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from an anonymous donor.

The annual distribution from this fund shall be used to support the activities of The Huntington Archives at The Ohio State University as determined by the director of Special Collections/Art Archives curator in consultation with the dean of the College of the Arts.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of the Arts. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$51,635.59

Ronald D. and Jane Hess Harris Fund for Educational Excellence

The Ronald D. and Jane Hess Harris Fund for Educational Excellence was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Ronald D. Harris (B.Ch.E., 1961; M.S., 1961) and Jane Hess Harris (B.A., 1960).

The primary purpose of this fund is to help provide excellent educational facilities for the Department of Chemical and Biomolecular Engineering of The Ohio State University, or to otherwise provide scholarships for students of that department. The annual distribution from this fund shall be used to pay construction costs or interest on construction bonds issued for a new building(s) for the Department of Chemical and Biomolecular Engineering. Until such construction begins, the distribution shall be used for scholarship support for deserving chemical engineering students. Once construction costs are paid off, the distribution will once again be used for scholarship support. Scholarship recipients will be chosen by the chairperson of the Department of Chemical and Biomolecular Engineering in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the chemical engineering degree programs cease at the University, the endowment principal will be transferred to the Department of Art and the distribution will be used primarily for the payment of construction costs and secondarily for scholarships. If, in the future, neither of these departments exist, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of

July 13, 2007 meeting, Board of Trustees

Engineering and by the dean of the College of the Arts. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,897.37

The Sungkyu Christopher Lee, M.S. Family Scholarship Fund

The Sungkyu Christopher Lee, M.D. Family Scholarship Fund was established July 13, 2007, by the Board of Trustees in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Sungkyu Christopher Lee, Mrs. Geraldine Lee, and Mr. Bryan Christopher Lee of Columbus, Ohio.

The annual distribution from this fund shall be used to support one or more undergraduate scholarships for third or fourth year international students who are preparing to attend medical school. By University definition, the undergraduate preparation for medicine should include a base of core science courses that include the following: biology, general chemistry with laboratory, organic chemistry with laboratory, physics with laboratory, and biochemistry. In addition, a clinical or research internship or work experience is strongly recommended.

The donors prefer to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the donors' desire that the scholarship be awarded in furtherance of the diversity mission with particular attention to, but not limited to, undergraduates who are enrolled full-time at the University with a minimum 3.0 grade point average (G.P.A.), in the following order: first preference is to South Korean undergraduate students, second preference is to undergraduate students of South Korean descent, and third preference is to undergraduate students who are from the continent of Asia or are of Asian descent.

The fund may be used towards the cost of tuition, room and board, books, an educational stipend, and miscellaneous educational expenses. The scholarship is renewable up to nine quarters as long as the recipient maintains a minimum of a 3.0 G.P.A.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy. This scholarship fund will be administered by the Office of Student Financial Aid. Any unused annual distribution shall be reinvested to the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Office of Student Financial Aid in consultation with the vice provost for Enrollment Services and dean for Undergraduate Education and the donors. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,047.53

The Edward C. "Danny" Danford Strategic Initiatives Fund

The Edward C. "Danny" Danford Strategic Initiatives Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Edward C. "Danny" Danford (B.S.Bus.Ad., 1934).

July 13, 2007 meeting, Board of Trustees

The annual distribution from this fund shall be used by the dean of The Max M. Fisher College of Business to support activities of the faculty, students, and staff in accordance with the strategic plans of the College.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Major Robert C. White Endowed Scholarship Fund

The Major Robert C. White Endowed Scholarship Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Eugene M. (B.S.Bus.Adm., 1954) and Marjorie L. (B.S., 1958) White in memory of Eugene's brother, Major Robert C. White (B.S., 1947).

This scholarship is in memory of Major Robert C. White, a native of Risingsun, Ohio, and a pilot during World War II. Later, after recall to service, he served in public information at the Pentagon and bases throughout the world. While in Korea he was in charge of the "Mutuality Program" whereby the Air Force assisted South Koreans in a variety of ways. This was a forerunner of the Peace Corps. He was a spokesman at Cape Kennedy during the early space flights and finished his career in 1966 establishing the Cape Kennedy Space Museum. Major White was a graduate of The Ohio State University and would have been honored to have assisted future graduates of the University's Air Force ROTC program.

The annual distribution from this fund shall provide one (1) scholarship to an undergraduate student with preference being given to junior, senior, or fifth-year senior cadets who intend to make a career in the United States Air Force. Scholarship recipients will be selected by the Detachment Commander of the Air Force Reserve Officer Training Corps at The Ohio State University in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

July 13, 2007 meeting, Board of Trustees

The OSU Naval ROTC Alumni Society Award Fund

The OSU Naval ROTC Alumni Society Award Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from members and friends of The Ohio State University Naval Reserve Officer Training Corps Alumni Society.

The annual distribution from this fund shall support awards and programming for The Ohio State University Naval Reserve Officer Training Corps (OSU NROTC). The fund shall be used to provide annual awards to selected midshipmen. The Commanding Officer of the OSU NROTC and the Board of Governors of the OSU NROTC Alumni Society shall annually determine the number and the amount of the awards. To the extent funds are available after presenting the annual awards, the fund may be used to support the programmatic needs of the OSU NROTC Unit.

The fund will be administered by the Commanding Officer of the OSU NROTC in consultation with the Board of Governors of the OSU NROTC Alumni Society and disbursed through the Office of Student Financial Aid. Funds not distributed in any year shall be available for distribution in successive years.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Commanding Officer of the OSU NROTC Unit and the Board of Governors of the OSU NROTC Alumni Society. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$29,667.00 (grandfathered)

Daniel and Lisa Wampler Vice President's Excellence Fund

The Daniel and Lisa Wampler Vice President's Excellence Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Daniel (B.S.FoodTech., 1980; Ph.D., 1983) and Lisa (B.S.Ed., 1982) Wampler.

The annual distribution from this fund shall be used to support programs identified by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences as current and critical priorities in the College of Food, Agricultural, and Environmental Sciences. Uses of the fund shall include, but not be limited to, support of a positive, creative work environment for students, faculty, and staff; outreach to our external audiences; encouragement and promotion of student organizations; scholarships; and professional development. Scholarships will be awarded in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of

July 13, 2007 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$29,487.00 (grandfathered)

The Sharron L. Kisner CIDP Research Fund

The Sharron L. Kisner CIDP Research Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts made in her honor from son, Karl Jeffrey Kisner (B.S.Agr., 1990) of Durham, North Carolina, and from family and friends.

The annual distribution from this fund shall be used to advance medical knowledge in the field of chronic inflammatory demyelinating polyneuropathy (CIDP) in the Department of Neurology. Funds may be used for personnel, supplies, equipment, publications, conferences, and other activities required for quality medical research. Allocation of funds shall be approved by the chairperson of the Department of Neurology, the senior vice president for Health Sciences, and the dean of the College of Medicine.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of Neurology in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$28,650.00 (grandfathered)

Rosalie S. and Edward O. Elliott II Scholarship Fund

The Rosalie S. and Edward O. Elliott II Scholarship Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Rosalie S. (B.S., 1967) and Edward O. Elliott II.

The annual distribution from this fund shall provide scholarships for graduates of Ridgmont High School of Hardin County, Ohio. Candidates shall be interviewed by The Hardin County Alumni Club and recommended to the Office of Student Financial Aid. Scholarship recipients will be selected by the Office of Student Financial Aid.

July 13, 2007 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$27,580.00 (grandfathered)

Mark A. and Debbie Cramer Endowment Fund

The Mark A. and Debbie Cramer Endowment Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mark A. and Debbie Cramer.

The annual distribution from this fund shall provide unrestricted support for The Ohio State University at Marion to be used at the discretion of the dean and director of The Ohio State University at Marion, who will apprise the donors of the use of the fund annually.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean and director of The Ohio State University at Marion. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$27,209.20

The Class of 1960 Medical Education Scholarship Fund

The Class of 1960 Medical Education Scholarship Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from alumni of the 1960 medical class of the College of Medicine.

The annual distribution from this fund shall be used to provide one or more scholarships to medical students in the College of Medicine based on academic merit and/or financial need. The selection shall be made by the recommendation of the dean of the College of Medicine in consultation with the senior vice president for Health Sciences and with the College of Medicine Committee for Scholarship Awards and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of

July 13, 2007 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation

Board as recommended by the dean of the College of Medicine and by the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$26,737.14 (grandfathered)

The G. Jane Leiby and Marie Myers Memorial Scholarship Fund

The G. Jane Leiby and Marie Myers Memorial Scholarship Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Jane M. Leiby (M.D., 1979) of Ostrander, Ohio.

The annual distribution from this fund shall be used to support one need-based scholarship for a first-generation undergraduate student. The annual distribution may be used towards the cost of tuition, room and board, books, an educational stipend, and miscellaneous educational expenses. The scholarship is renewable up to 12 quarters as long as the recipient maintains financial need.

Each year, any unused distribution should be reinvested to the principal. The fund will be administered by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the associate provost for Honors and Scholars. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,958.13 (grandfathered)

Wilson Weait Bassoon Studio Award Fund

The Wilson Weait Bassoon Studio Award Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends, family, and colleagues in honor of George Wilson and Christopher Weait, retired School of Music bassoon professors.

The annual distribution from this fund shall provide an award for students enrolled in the School of Music majoring in bassoon. Recipients shall be selected by bassoon faculty in consultation with the director of the School of Music and the Office of Student Financial Aid.

July 13, 2007 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the School of Music in consultation with the dean of the College of the Arts. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,112.00 (grandfathered)

The Charles Foley Scholarship Fund

The Charles Foley Scholarship Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Charles R. Foley (B.S., 1968; M.B.A., 1971), of Columbus, Ohio.

The annual distribution from this fund shall provide one or more need-based scholarships to a first-year full-time student who graduated from Central Catholic High School (Springfield, Ohio) with a minimum of a 3.0 grade point average. It is the donor's desire that scholarships be given to students who do not qualify for Pell Grants with preference given to students who have applied for a student loan.

Furthermore, it is the donor's desire that, if in a given year there are no qualified students who have graduated from Central Catholic High School (Springfield, Ohio), then graduates of the following may be considered in the following order of preference: Grand Rapids Catholic Central High School (Grand Rapids, Michigan); any high school in Clark County, Ohio; or any high school in Kent County, Michigan.

Each scholarship shall be awarded at a minimum of \$500. The scholarship shall be distributed equally among the quarters enrolled during the academic school year for expenses such as the cost of tuition, room and board, books and supplies, an educational stipend, and miscellaneous educational expenses. The scholarship is renewable up to 12 quarters as long as the recipient maintains financial need and a minimum 3.0 G.P.A. Each year, unused distribution should be reinvested in the endowment principal. The fund will be administered by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice provost and dean of the Office of Enrollment Services and Undergraduate Education. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,024.00 (grandfathered)

July 13, 2007 meeting, Board of Trustees

Marjorie Simmons Clemmer Dean's Fund

The Marjorie Simmons Clemmer Dean's Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Marjorie Simmons Clemmer (B.S., 1948; M.S., 1955) of Lancaster, California.

The annual distribution from this fund shall be used to support creative, forward-thinking programs in all areas of human ecology in the College of Education and Human Ecology. Uses shall be approved by the dean in consultation with the College's Executive Committee and shall include but not be limited to: research, teaching, and service projects; recruitment, alumni, and development programming; professional development; emergency needs of faculty, staff, and students; and emerging program priorities based on societal issues.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Education and Human Ecology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Hall Family Scholarship Fund in the College of Biological Sciences

The Hall Family Scholarship Fund in the College of Biological Sciences was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Richard W. Hall and Janet C. Hall of Columbus, Ohio. The annual distribution from this fund shall be used to assist undergraduate students enrolled in the College of Biological Sciences with preference given to students with an interest in the environment and education. Recipients will be selected by the dean of the College of Biological Sciences in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Biological Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The Selma and Edward Levy Endowed Scholarship Fund

The Selma and Edward Levy Endowed Scholarship Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts

July 13, 2007 meeting, Board of Trustees

from Gary S. Levy (D.V.M., 1981) in honor of his parents Selma (B.S., 1933) and Edward Levy.

The annual distribution from this fund shall provide financial aid yearly to one (1) D.V.M. student with preference given to a student from New Jersey with an interest in small animal medicine. Scholarship recipients will be selected by the dean of the College of Veterinary Medicine in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

The George and Betty Richards Endowed Fund in the College of Pharmacy

The George and Betty Richards Endowed Fund in the College of Pharmacy was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from George and Betty Richards.

The annual distribution from this fund shall provide unrestricted support for The Ohio State University College of Pharmacy to be used at the discretion of the dean.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Pharmacy. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00

Change in Description of Named Endowed Fund

The George Booth Family Athletic Scholarship Fund

The George Booth Family Athletic Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from George H. Booth Jr., of Perrysburg, Ohio. The description was revised July 13, 2007.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the varsity baseball team. The recipient will be

July 13, 2007 meeting, Board of Trustees

selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Change in Name of Named Endowed Fund

The Dr. Alfred and Mary Ann Stockum Medical Student Scholarship Fund

The Alfred E. Stockum College of Medicine Scholarship Fund was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Alfred Stockum (B.S., 1953; M.D., 1958) and Mary Ann Stockum of Columbus, Ohio. The name was revised July 13, 2007.

The annual distribution from this fund shall provide a scholarship in the College of Medicine for a first-year medical student based on academic merit or financial need. Scholarship recipients shall be made by the recommendation of the dean of the College of Medicine in consultation with the senior vice president for Health Sciences and with the College of Medicine Committee for Scholarship Awards and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Power Plant - Security Upgrades (N/A)	\$0.3M	Central Funds

July 13, 2007 meeting, Board of Trustees

University Hospitals East - Operating Rooms \$0.8M OSUMC Health Systems
Renovation (N/A)

WHEREAS in accordance with the attached materials, the University desires to increase construction contracts for the following project:

Morehouse Medical Plaza - Surface Parking \$3.7M OSUMC Health Systems
Expansion Project (07-08 Capital Request)

WHEREAS in accordance with the rules of the Ohio Board of Regents, the University desires to enter into a joint use agreement with the Delaware Speech and Hearing Center, Inc. for the following project:

Delaware County Speech & Hearing with \$0.08M State appropriations
OSU Medical College (CAP-747)

** Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project, renovation projects funded by internal office or department funds that are noted as "N/A" have not had separate capital project authorization because of their small size or because they arose unexpectedly between capital planning cycles.*

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into design and construction contracts, to increase construction contracts and to enter into a joint use agreement, for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix III for background information, page 136.)

**INTERIM AUTHORIZATION TO ENTER INTO DESIGN,
CONSTRUCTION MANAGEMENT, AND CONSTRUCTION CONTRACTS**

Resolution No. 2008-15

Synopsis: Authorization to enter into design, construction management, and construction contracts for University capital projects as necessary prior to the September Board of Trustees meeting is requested.

WHEREAS to support the Academic Plan, ensure timely design and construction of University facilities and improvements, and make the most effective use of limited financial resources, the University desires to move forward expeditiously with needed capital projects, subject to approval by the Board of Trustees; and

WHEREAS the next scheduled meeting of the Board of Trustees is on September 21, 2007; and

WHEREAS during the intervening period, the Board desires to facilitate such approvals, subject to appropriate review and oversight:

NOW THEREFORE

BE IT RESOLVED, That in the intervening period before the next regularly scheduled meeting of the Board of Trustees on September 21, 2007, the Chair of the Fiscal Affairs Committee, in consultation with the Committee and with the Chair of the Board of Trustees as appropriate, shall have the authority, on behalf of the Board of Trustees, to

July 13, 2007 meeting, Board of Trustees

authorize design, construction management, and construction contracts, and approve other related actions, for University capital projects; and

BE IT FURTHER RESOLVED, That, during this period, as approved by the President, the Senior Vice President for Business and Finance shall present any needed actions to authorize design, construction management, and/or construction contracts or take any related actions for capital projects to the Chair of the Fiscal Affairs Committee, as she may direct, for review and approval; and

BE IT FURTHER RESOLVED, That, in accordance with the process outlined above and subject to the written approval of the Chair of the Fiscal Affairs Committee, the President and/or Senior Vice President for Business and Finance shall be authorized to enter into design contracts and construction management contracts and enter into construction contracts, if satisfactory bids are received, and take any other related actions on capital projects, in accordance with established University and State of Ohio procedures, with these actions to be reported to the Board at the September 2007 meeting; and

BE IT FURTHER RESOLVED, That the authority granted by this resolution shall expire as of the September 2007 meeting.

EASEMENT

Resolution No. 2008-16

OHIO POWER COMPANY ELECTRICAL SERVICE AGRICULTURAL TECHNICAL INSTITUTE, WOOSTER, OHIO

Synopsis: Authorization to grant an easement to Ohio Power Company for improvements, facilities, and equipment related to providing electrical service for the Agricultural Technical Institute Water Well Service is proposed.

WHEREAS Ohio Power Company has requested an easement, 10 foot wide by 347.4 foot long, for a term of 25 years to construct, operate and maintain underground facilities and equipment for an electrical utility distribution line running from South Apple Creek Road to the Agricultural Technical Institute well; and

WHEREAS this easement will serve and benefit the Agricultural Technical Institute Campus and the appropriate University offices have determined that the grant of this easement is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve and the Ohio Department of Administrative Services be authorized to prepare appropriate documents and grant an easement to Ohio Power Company upon such terms and conditions as are in the best interest of the University.

(See Appendix IV for background information, page 166.)

LONG-TERM LEASE

Resolution No. 2008-17

VARSITY CREW FACILITY INDIAN VILLAGE ROAD COLUMBUS, OHIO

July 13, 2007 meeting, Board of Trustees

Synopsis: Authorization is requested for a long-term lease with the City of Columbus of a crew boathouse facility located at the Griggs Reservoir on the Scioto River, Columbus, Ohio.

WHEREAS the Board of Trustees of The Ohio State University is presented with the opportunity to enter into a long-term lease of real property; and

WHEREAS the leased premises will be a boathouse facility used for varsity women's crew activities; and

WHEREAS this property is located within reasonable proximity of the Columbus Campus with convenient access by rowers and the Department of Athletics has determined that the Lease of this property is in the best interest of the University; and

WHEREAS the funds for the lease will be provided from the Department of Athletics:

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Business and Finance be authorized to enter into a long-term lease of the improved real property at the Griggs Reservoir on the Scioto River for use by The Ohio State University and its varsity crew program and other Department of Athletics uses, for a 40-year term, with a 40-year renewal term, rent not to exceed \$3.3 million, and under such additional terms and conditions as shall be in the best interest of the University.

(See Appendix V for background information, page 167.)

**APPROVAL OF FISCAL YEAR 2008 TUITION AND SUPPLEMENTAL
INSTRUCTIONAL, IN-HOUSE DESIGN AND PROJECT MANAGEMENT FEES,
AND FISCAL YEAR 2008 OPERATING BUDGETS FOR ALL CAMPUSES**

Resolution No. 2008-18

Synopsis: Approval of the instructional, general and non-resident fees, and supplemental instructional fees for selected programs at the Columbus, Regional and ATI Campuses for FY 2008 are proposed effective Autumn Quarter 2007. Further, approval of the proposed Columbus, Regional and ATI Campuses' Operating Budgets for Fiscal Year 2008 and approval of the proposed fees for in-house design and project management are proposed, effective July 13, 2007.

WHEREAS the Board of Trustees of The Ohio State University supports the University's continued implementation of the Academic Plan and its initiatives to meet the needs of Ohio State students; and

WHEREAS State support levels have been determined and undergraduate instructional and general fees at all campuses are subject to a 0% tuition cap in the state budget; and

WHEREAS consultations have taken place within the University to determine the appropriate instructional fee increases for undergraduate, graduate and professional programs, and selective supplemental instructional fees; and

WHEREAS effective Autumn Quarter 2007, undergraduate Tier-One tuition (applying to students admitted before Summer 2002) will as planned be included in the Tier-Two tuition level and Tier-One will be eliminated; and

WHEREAS Instructional, general, non-resident fees and supplemental instructional fee increases for selected programs for the Columbus, Regional and ATI Campuses for FY 2008 and in-house design and project management fees have been proposed; and

July 13, 2007 meeting, Board of Trustees

WHEREAS other sources of general funds and earnings resources have been estimated and restricted fund resources have been projected based on historical trends; and

WHEREAS the assessment on the Endowment to support Development has been phased down from 1.33% to 1.1% in FY 2007 and is proposed to be phased down in FY 2008 to 1.075% and an additional .025% in FY 2009, 2010, and 2011 to a permanent support level of 1%; and

WHEREAS expenditures, including compensation, have been estimated for FY 2008; and

WHEREAS the FY 2008 budget includes for the second year one-time funds for Campus Partners including: 1) \$650,000 for support of Campus Partners operations to carry out its initiatives, subject to the provisions of the 1997 memorandum of understanding, as amended from time to time, and 2) \$600,000 to address timing issues related to the renting of Gateway commercial/retail spaces; and

WHEREAS appropriate planning and consultation within the University has been accomplished with regard to the Columbus, Regional and ATI budgets, and the Interim President now recommends approval of these FY 2008 Operating Budgets with a final Total University Current Funds Budget to be submitted at the September meeting of the Board of Trustees:

NOW THEREFORE

BE IT RESOLVED, That instructional and general fees for undergraduate students in Tier-Two and Tier-Three enrolled at the Columbus Campus and all undergraduates enrolled at the Regional and ATI Campuses will not increase; and

BE IT FURTHER RESOLVED, That effective Autumn Quarter 2007, Tier-One tuition (applying to students admitted before Summer 2002) will be included in the Tier-Two tuition level and Tier-One will be eliminated; and

BE IT FURTHER RESOLVED, That supplemental instructional fees described in the attached supporting material will be implemented; and

BE IT FURTHER RESOLVED, That instructional and general fees for most graduate students will increase 5.7% and that the instructional fees for the professional colleges and selected graduate programs will increase between 6% and 13%; and

BE IT FURTHER RESOLVED, That the nonresident surcharge for all programs will increase by 6% except for the Law nonresident surcharge which will increase by 2%; and

BE IT FURTHER RESOLVED, That all of these fee rates shall be effective Autumn Quarter 2007; and

BE IT FURTHER RESOLVED, That the in-house design and project management fees shall be effective for projects commencing after July 13, 2007; and

BE IT FURTHER RESOLVED, That the Endowment assessment level to support Development be reduced to 1.075% effective FY 2008 and continue to be reduced by .025% in FY 2009, 2010 and 2011 to a permanent level of 1%; and

BE IT FURTHER RESOLVED, That the Operating Budget for the Columbus, ATI, Lima, Mansfield, Newark, and Marion Campuses for Fiscal Year 2008, as described in the accompanying text and tables, be approved effective July 13, 2007, with authorization for the President to make general fund and earnings fund expenditures within the estimated income levels and to authorize the expenditure of all restricted funds earned with quarterly revenue updates to the Board.

July 13, 2007 meeting, Board of Trustees

(See Appendix VI for background information, page 169.)

Upon motion of Mr. Shumate, seconded by Mr. Borrer, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Davidson, Ong, Borrer, O'Dell, Shumate, Hicks, Fisher, Schottenstein, and Marbley.

WAIVERS OF COMPETITIVE BIDDING REQUIREMENTS (JANUARY - MARCH 2007
Resolution No. 2008-19

Synopsis: Acceptance of the quarterly report on waivers of competitive bidding requirements is proposed.

WHEREAS the Purchasing Policy of The Ohio State University adopted by the Board of Trustees on September 7, 1984, and revised on February 7, 1992, July 8, 1994, November 7, 1997, and March 1, 2002 provides that the President and/or the Senior Vice President for Business and Finance, or for the Hospitals of the University and their related facilities, the Vice President for Health Services, may grant a waiver from competitive bidding in the event of an emergency, when a sufficient economic reason exists or when the goods or services can be purchased from only a single source, with a report on such waivers to be made quarterly to this Board; and

WHEREAS the Senior Vice President for Business and Finance has submitted a report on waivers of competitive bidding requirements granted for the period of January - March 2007 and

WHEREAS during the period covered, the Senior Vice President for Business and Finance, at the requests of the departments making the purchases and upon the recommendation of the Purchasing Department, granted 72 waivers of competitive bidding requirements for annual purchases totaling approximately \$11,970,723 as shown on the enclosed exhibit:

WHEREAS during the period covered, the Vice President for Health Services, at the requests of the Hospitals of the University and their related facilities making purchases, granted 39 waivers of competitive bidding requirements for annual purchases totaling approximately \$11,972,564 as shown on the enclosed exhibit:

NOW THEREFORE

BE IT RESOLVED, That the report on waivers of competitive bidding requirements for the period of January - March 2007, is hereby accepted.

Upon motion of Mrs. Davidson, seconded by Mr. McFerson, the Board of Trustees adopted the foregoing resolution with nine affirmative votes cast by Trustees Hendricks, McFerson, Davidson, Ong, Borrer, O'Dell, Hicks, Fisher, and Marbley, and three abstentions cast by Trustees Cloyd, Shumate, and Schottenstein.

(See Appendix VII for background information, page 191.)

INTERIM PRESIDENT'S REPORT

President Alutto:

It certainly has been a pleasure for me to be with you at my first Board of Trustees meeting in my interim capacity, especially under such unique and absolutely delightful circumstances. I am personally very pleased with the announcement that Gordon Gee

July 13, 2007 meeting, Board of Trustees

will be joining us as President. In 1991 - Gordon might not remember this, he hired me as a dean and he did it in the midst of a rain storm at a Bowl game in Memphis, Tennessee, when we were losing. From my perspective that bodes extremely well for us as we continue to add outstanding faculty, staff and student talent in the years ahead, because Gordon can recruit anyone. It is the sense of passion, vision, and absolute total commitment that makes me look forward to working with Gordon again in the years ahead.

Let me say that while serving in a dual interim capacity certainly has had its challenges; it has also been made easier by the support of the outstanding leadership team that Karen Holbrook and Barbara Snyder were able to assemble. The vice presidents and vice provosts have truly stepped up to the plate during this transition period and I have been grateful for that support, as well as the support of all trustees. The sense of common mission and mutual commitment that I have experienced gives me great confidence for the future of a wonderful University.

I have certainly been helped by the involvement of dedicated faculty and staff throughout this period. And a few of our new faculty and staff leaders are with us today and I would like to acknowledge them: Professor Rick Herrmann, chair of the Senate Steering Committee, director of the Merston Center, and professor of Political Science; Professor Robert Perry, chair of the Faculty Council and professor of Physics; and Mr. David Kos, chair of USAC and director, Environmental Compliance, Office of Environmental Health and Safety. They are truly representative of the faculty and staff who care for this institution and are truly dedicated to it.

My role as Interim President, as I see it, is to ensure that this great University does not lose any momentum in aggressively pursuing the Academic Plan that has guided us so well for a number of years. Continuity in execution will set the stage for any new focus that reflects our own changing environment. As embodied in the plan, the core issue for us is to achieve greater levels of excellence and prominence for all of our academic programs. That must be the dynamic that drives all our decisions and new initiatives.

In keeping with this, in the immediate future I hope to focus energies in at least two areas. The first is an effort to provide access to excellence for all that we are creating at Ohio State. Access is certainly part of our land-grant mission and we have made considerable strides in providing financial access for students of ability. As one example, the Land Grant Opportunity Scholarship Program, established in 2005, has opened Ohio State to many high-achieving students who might never have been able to attend this institution without full-ride scholarships. Of course, there could be no more stellar example of this commitment to access than our own present student trustee and Land Grant Scholar, Debra Van Camp.

Consistent with this, Ohio State was also singled out in an Education Trust report entitled "Engines of Inequality" for creating an Office of Economic Access, headed by Tally Hart, to seek ways of ensuring that every qualified student can achieve a college education here at Ohio State. But access to mediocrity has very little value. We need to provide faculty, staff and programs of excellence that attract and welcome the very best high quality students with the education that they and Ohio both need and deserve.

We also need to continue our efforts to help create portals of excellence in the pre-college education system, as we are doing in partnership with Battelle and the Educational Council at the highly regarded Metro School. Also in partnership with Columbus Public Schools at the Schoenbaum Family Center, the early childhood development center in Weinland Park.

That excellence must also extend to our international focus. Here at Ohio State we already have a global reach by virtue of our size, an alumni base that is distributed on

July 13, 2007 meeting, Board of Trustees

every continent, the number of international students and faculty found on campus, our study abroad programs, and the many international partnerships that are found in our colleges, the Medical Center, and professional schools.

As some examples of these activities, Ohio State has a special relationship with the Punjab Agricultural University in India and the College of Food, Agricultural and Environmental Sciences also has programs in Tanzania, Bangladesh, Ecuador, Jamaica, the Philippines, and Uganda, as well as collaboration with the University of Sao Paulo in Brazil that goes back more than 40 years.

In the Fisher College of Business, the Center for International Business Education and Research supports the development of international teaching, research and outreach. The Center and College have sent students on research and study projects to over eleven different countries over the past few years and annually welcomes students from 20-30 different countries into college programs. Most recently that commitment to global understanding was evidenced in a project for the government of Ethiopia that focused on identifying national strategies for developing international markets for products previously only developed and distributed on a local basis.

University area studies programs and honors programs provide opportunities for specialized international experiences and knowledge creation for both faculty and students. Such programs exist throughout the Arts and Sciences and most colleges on campus, which is indicative of Ohio State's reach and its global involvement. But we have tended to pursue those efforts in a piece meal fashion, taking advantage of our decentralized academic and administrative structure. We now have to build on and integrate these efforts, in part taking advantage of the worldwide network of our alumni to establish a very clear international visibility for this great institution. Such an effort will serve to enrich the intellectual lives of our students and faculty while also strengthening the economy and quality of life for citizens of the state.

I am delighted to note that the recently passed state budget for higher education is important in setting the stage for Ohio State's future in accomplishing the goals of the Academic Plan and for truly providing student and faculty access to excellence. It heralds a new commitment on the part of the state of Ohio to support excellence in higher education and through tuition freezes, it also provides access to that set of outstanding resources. Our expectations for this commitment, and the accountability that goes with it, are high. And it is only appropriate to acknowledge the courage and commitment of the Governor and Legislature as they have embarked on this investment strategy for the future of Ohio.

As we transition to new University leadership, please know that The Ohio State University is in a very strong place, with a growing reputation for greatness, rising standards in all that we do, and increased recognition that we serve a unique role as a flagship public university.

Thank you, Mr. Chairman.

Dr. Cloyd:

Thank you, Dr. Alutto, that is a very stimulating report.

PRESIDENT-ELECT'S REPORT

Dr. Cloyd:

Dr. Gee, I would like to offer you the opportunity to provide some comments.

July 13, 2007 meeting, Board of Trustees

President Elect Gee:

First of all, I agree with everything Dr. Alutto said save for the kind words that he said about me; we will put those on ice for the moment, Joe. Indeed, one of the great prides of my time at Ohio State was the opportunity to recruit Joe. It was in a rain storm, we were losing to Air Force, and it was one of the most miserable days of my life. Then Joe said, "Yes," right in the middle of that and it buoyed me up.

I would say that today has been extraordinary for me, Mr. Chairman, because it has been a day filled with enthusiasm and inspiration for me. I was inspired by the opportunity to meet with my faculty colleagues this morning, early; and they were there, they were very enthusiastic about this University, and obviously that enthusiasm is something that I take great energy from. I had an opportunity to meet with the University Staff Advisory Committee (USAC) and they too feel valued and appreciated, and must because we need to make sure that we have a great partnership with all of the elements of this institution. The inspiration came also from meeting with students. I walked over to the Market Place and the students were there and they greeted me with great respect and great warmth. I take that as an opportunity for me to energize myself. So the inspiration of the University exists and I find myself very engaged in that.

This is a public comment, but we had a wonderful time last evening. Rebecca, my fabulous daughter, came home last evening and said, "Dad, you are so fortunate to work with these people." She reads people well and I want to second that, I feel very fortunate to work with all of you.

The Chairman and I were on our workout facilities at 5:30 am this morning and I am overwhelmed by the fact that I am going to have to keep up with you now. I look forward to that and look forward to the opportunity to work with you, and each and every one of you. So just understand that.

I also want to reiterate the inspiration that I get from being again in public higher education. What I said yesterday, I meant. I slept very well last night, because I knew what I was going to do today and I knew why I'm doing it. I am very grateful for that. This is an inspirational time for me, because of the inspiration and opportunity I take from this University. Public higher education has a special place, doesn't it, Joe? And I heard what you said, I think it was so beautifully stated but it also is what we are about and I do appreciate that.

Then I am impressed, again, because of the quick tour that I took, about the changing nature of this institution. Seeing that magnificent new library rising up, and what they have accomplished in terms of the intellectual resources of this institution is something that is extraordinary. What I said yesterday is even more true today in my mind, that this is a much different institution than I had the opportunity to lead in the 1990s, and I am grateful to those who made it so. Now I know that I must be a different president and I pledge to you that I will.

I want to thank the legislature for their support of higher education, I want to thank the Governor for his enthusiasm, and I want to thank the Governor for appointing a great Chancellor. I feel very good about where we are right now. We have opportunity, we have progress in the making, and we also have an opportunity to make our case in a positive environment. I believe this, if given the opportunity to make the case for Ohio State to the people of Ohio, we will succeed. We are already succeeding. There is no question about that. We just need to be given that opportunity.

Finally, I want to say to everyone, I am not quite certain about when I will be here full-time, probably close to October 1. I want everyone around this table to understand and everyone at this University to understand, that there is an outstanding President leading The Ohio State University and his name is Joe Alutto. I am his quiet, silent,

July 13, 2007 meeting, Board of Trustees

learning partner, but please do not in any way misunderstand that he is the President of the University. I am not. It is going to be a great pleasure to work with him through this transition, but we are very well led and fortunately so. I appreciate the opportunity to be here today.

Mr. Chairman, thank you.

Dr. Cloyd:

Thank you very much, Dr. Gee. The description that Dr. Alutto and Dr. Gee have provided about our mission and opportunities, and the sense of stimulation and excitement they provide are wonderful. I won't provide any commentary on that, because it would sadly pale to what both of you've said. But for this Board, what I can say - and I think it is part of our responsibility - is the sense of confidence that we have that we will deliver on that exciting mission and vision that you described. This University is truly blessed to have two leaders now of your stature here. Both of you, thank you very much for that dedication.

Thereupon the Board adjourned to meet Friday, September 21, 2007, at The Ohio State University, Fawcett Center, Columbus, Ohio.

Attest:

G. Gilbert Cloyd
Chairman

David O. Frantz
Secretary

- Consult with deans and other stakeholders on details of North Academic Core Plan.
- Align Medical Center Master Facilities Plan so the project can go forward.
- Explore supplemental options for student housing.
- Reconcile fund raising expectations with planning for the next campaign.
- Reconcile fund demands with available debt capacity.
- Return to the Board on September 21 to request approval.

CONCLUSIONS

- Criteria and process is transparent
- Recommendations are in alignment with the Academic Plan
- Highest priorities going forward are:
 - North Academic Core
 - Medical Center Patient Care Facilities
 - Student Housing
 - Utilities infrastructure
- Implications for the future, including deferred maintenance and debt capacity are addressed
- Next steps have been defined

**The Ohio State University
Board of Trustees
July 13, 2007**

TOPIC:

FY 2009 - FY 2014 Capital Plan (First Reading)

BACKGROUND:

This memorandum represents the preliminary recommendations for the FY 2009 - FY 2014 Capital Plan. It includes all projects from all funding sources, including affiliated entities. This is a first reading only. It will return for final recommendations at the September 21 Board Meeting.

SUMMARY:

Highest priorities for \$70 million in state capital funds in FY 2009-2010 are:

- Thompson Library Renovation
- Academic Core - North (Phase 1 of 7)
- Cunz Hall Renovation
- College of Medicine Renovations

Highest priorities for the \$500 million in non-state funds for FY 2009 - FY 2010 are:

- Ohio Union Replacement
- Medical Center Expansion
- Utilities Infrastructure
- Student Housing

CONSIDERATIONS:

- Are the recommendations consistent with the Academic Plan?
- Are the recommendations and implications clear and complete?
- Is the Academic Core - North plan clearly spelled out? Are the affected colleges on board?
- Are deferred maintenance needs being appropriately addressed?
- How are these recommendations being reconciled with the review of the Medical Center Master Facilities Plan?
- Are student housing needs being addressed?
- How do affiliated entities fit in?
- How do these recommendations reconcile with our private fund raising goals?
- What will not be built if these recommendations are approved?
- How is the University's credit rating protected?
- Who else is being consulted?

REQUESTED OF BOARD OF TRUSTEES:

First reading only. Discussion and advice.

Subject: FY 2009-2014 Capital Plan

Date: June 28, 2007

From: William Shkurti, Senior Vice President for
Business and Finance

Mike Sherman, Vice Provost

To: Joe Alutto, Interim President

This memorandum represents our preliminary recommendations regarding prioritization and funding of capital projects for the period FY2009 - FY2014. We recommend this memorandum be circulated campus-wide for comment prior to submission for a first reading at the July Board of Trustees meeting.

We have divided this memorandum into five parts. Part I describes the process and criteria used to make our decisions. Part II discusses our recommendations for State funded projects. Part III discusses projects that do not include State capital funds. The implications of our recommendations are discussed in Part IV. Part V is the appendix, which includes supplemental materials.

I. PROCESS AND PROJECT CRITERIA

An intensive information gathering and review process began over a year ago with a Request for Submission memo sent to all Deans and Vice Presidents on April 14, 2006. In the end, there were 19 major project requests for State capital funds, totaling approximately \$873 million; 67 requests for 2007 and 2009 bonds totaling approximately \$905 million. An additional \$660 million dollars in future funding has already been requested for consideration during the 2011 bond approval process. With the advice of the Space Facilities Committee and the appropriate Vice Presidents, projects were selected for additional review for possible inclusion in the FY2009 - FY2010 State capital biennial request or for University bonds. Information hearings with units requesting project funding were held during February, March, April and May 2007.

Predicting what will be available in State funds has become more and more difficult. The chart below shows the amount of State funds allocated to the University's Columbus Campus, and regional campuses, ATI, and OARDC for major capital projects over the last five biennia.

Biennium	OSU Columbus (millions)	OSU Regional/ATI/OARDC (millions)
1999-2000	\$78	\$10
2001-2002	\$72	\$6
2003-2004	\$70	\$10
2005-2006	\$57	\$7
2007-2008	\$71	\$11

State support has declined over this period while needs due to block obsolescence have increased. At this point it is difficult to predict what the State will allocate for FY2009 - FY2010. We are using a planning figure of \$70 million for the Columbus Campus, while presenting a mechanism for alternative funding scenarios.

To rank projects for inclusion in our final request, each project was evaluated based on its relationship to the Academic Plan, physical need, financial feasibility, and physical feasibility. The financial and physical feasibility components were included because, based on the other requirements alone, our priority projects would greatly exceed our expected appropriations. In addition, the impact of facilities on operating costs was incorporated into our discussions and the capital guidelines clearly stated that central funds would not, as a rule, pay operating costs for additional space (Attachment A). These recommendations are based on assumptions about program needs. If those needs change, the University reserves the right, after consultation with the parties involved, to reduce the project or reassign that space.

In making these recommendations to you, we, along with representatives from the Offices of Academic Affairs, Business and Finance, Research, Health Services, Student Affairs, Development, and representatives of the Senate Fiscal Committee and the Senate Committee on the Physical Environment, have evaluated the information submitted by the units with respect to established criteria. The following criteria do not provide a mathematical solution to a very complex set of issues; but are intended to guide our judgments:

Academic Priority

- Relation to University mission and the Academic Plan
- Program excellence
- Student demand
- Research productivity
- Opportunities for interdisciplinary collaboration

Physical Need

- Condition of existing space
- Unmet health and safety requirements

Financial Feasibility

- Likelihood of State support
- Cost sharing by requesting unit
- Net impact on operating costs

Physical Feasibility and Other Considerations

- Previous commitments
- Physical feasibility, including timing or staging issues
- Impact on parking
- Impact on other needs

A critical element in the planning process is the Academic Plan. Alignment of the objectives of the project with the goals of the Academic Plan was an overriding factor in the Space Facilities Committee's recommendations. As always, the number of worthy projects exceeds the funds available. The Academic Plan provides an additional context by which to establish academic priorities. The six major strategies identified in the Academic Plan are:

- 1) Build a world-class faculty
- 2) Develop academic programs that define Ohio State as the nation's leading public land-grant university
- 3) Improve the quality of the teaching and learning environment
- 4) Enhance and better serve the student body
- 5) Create a more diverse University community
- 6) Help build Ohio's future

Several of these strategies call for a supportive physical environment. The growing number of existing buildings requiring renovation or replacement is a threat to achieving our goals. So, in response to the Academic Plan, we are reserving scarce state dollars to support renovation or replacement of academic buildings, particularly where a deferred maintenance problem is involved. In addition, we are recommending an entirely new

approach to planning and funding core academic facilities. This is discussed in greater detail in the section titled "Academic Core - North."

II. RECOMMENDATIONS REGARDING STATE CAPITAL FUNDS

Our recommendations for State capital funds are divided into three groups. Group One consists of projects identified as high priority for funds in the FY2009 - FY2010 biennium. Group Two is projects identified as high priority for FY2011 - FY2012 and beyond. Group Three consists of projects not recommended for State capital funds at this time and that likely warrant further study and development.

A. Group One: Recommendations for State Capital Funds in FY2009 - FY2010 Biennium

The projects listed in Group One have the highest priority in the Academic Plan as well as high physical need and financial feasibility. For purposes of these recommendations we are planning on a base state appropriation of \$70 million, although we recognize this number could change. The four priority projects are Thompson Library Renovation, Academic Core - North, Graves and Meiling Hall Renovations Phase II, and Cunz Hall renovations.

1. Thompson Library Renovation

The Thompson Library Renovation is one of only two capital construction projects specifically mentioned in the Academic Plan. The Thompson Library is in many ways the intellectual heart of the campus. It is the single most visible academic building. Although it is in better shape than some academic buildings on campus, it has not had a major renovation in over 30 years. The building's systems and its ability to respond to the academic needs of the institution are rapidly deteriorating and inadequate.

Consequently, this \$108.5 million project was identified as the number one priority in the FY2005 - FY2006 capital process. A total of \$71.7 million in state funds was requested over six biennia with the FY 2009-2010 allocation of \$8.7 million completing the state funded portion of the project. The remainder of the project will be funded as follows: approximately \$25 million will be secured by private fund raising, \$5 million has been pledged from Athletics, roughly \$6 million will be provided by bonds, and University Libraries has committed \$762,500 of its own funds to complete the renovation.

Construction is expected to be completed in the Summer 2009. This project will not add any net square footage to the Library's inventory, since space located elsewhere in the Library inventory is being released back to the University to offset any additional square footage in the Library project. The project is not expected to create additional parking demands. However, having both the Library and the Ohio Union closed for construction at the same time has meant the University has had to identify additional space for administrative offices, book stacks, meeting rooms and student study space. This has been achieved by using 650 Ackerman and other locations. Costs for this temporary space have been funded in the project budgets.

2. Academic Core - North

Traditionally, the University has budgeted capital projects individually, which makes it easier to establish financial and design accountability. However, this runs the risk of missing opportunities for synergies and efficiencies from a more comprehensive university-level approach.

Last biennium, the University leadership empowered the Space and Facilities Committee to work with the affected deans to develop a long-term plan for the Academic Core - North (AC-N). The AC-N study has provided a long-term vision for the areas within and adjacencies bounded by Tuttle Park on the West, Woodruff on the North, High Street

July 13, 2007 meeting, Board of Trustees

on the East, and 17th Avenue on the South. The colleges with facilities in this area account for 66% of all credit hours taught and 26% of academic space.

The long-term view, including the concurrent funding of infrastructure for the district, supports the Master Plan objectives of pedestrian friendly, social and learning engagement spaces, identifiable edges and thorough-fares, and more effective use of space over the long term. The plan identifies a tentative capacity for an additional one million square feet of space by more strategic building siting and effective use of structural heights and eliminates up to \$61 million in current deferred maintenance issues. This is an 8% reduction in the University's current total building deferred maintenance.

The total budget for the proposed AC-N projects is estimated to be about \$487 million. This amount is based on conceptual project costs that have been inflated to align with the projected project costs at midpoint of construction based on proposed project timelines. The Space and Facilities Committee recommends \$242 million in state capital funds be set aside over seven biennia (2007-2008 through 2019-2020) to fund about 50% of the projected costs for the AC-N projects. An additional \$245 million will need to be secured through an integrated development initiative, or funded from reallocations of funds by the respective colleges. A fund raising feasibility study has been funded via the Space and Facilities Committee to assess the fund-raising viability of this approach to long-term capital planning. It is anticipated that an additional \$111 million for infrastructure in the AC-N area will be funded from University bond proceeds assuring that essential steam, water, sewer, technology and other basic services can be provided.

We recommend about \$49 million in each of the next two biennia and \$35 million in the subsequent biennia through the 2019-2020 biennium be set aside to fund projects in the AC-N. This recommendation allows work to proceed on projects in the AC-N while reserving about \$35 million per biennium for other academic projects in each of the future biennia through FY 2020.

Funding will be used to support projects in the AC-N North Core that replace inefficient buildings and provide for flexible, functional space that encourage multi-disciplinary interactions and that are in alignment with the University Master Plan. These projects will support the disciplines in English, Chemical Engineering, and Music in the Colleges of Humanities, Engineering, and the Arts. Subsequent projects will possibly involve the disciplines of Chemistry, Education and Economics for the Colleges of Mathematical and Physical Sciences, Education and Human Ecology, and Social and Behavioral Sciences.

The funding sources for the college shares will come from internal capital allocations, fund-raising and other internally generated funds. Multi-year targets will be established after consultation with the affected deans and will reflect a combination of benefits received and ability to pay. Exact allocation of the State capital funding to specific projects will be determined as more detailed planning of the AC-N progresses.

Planning on a six biennia horizon across many colleges requires a major shift in culture and thinking, but the benefits of a successful initiative of this nature are enormous particularly accompanied by an infrastructure solution for the entire district. Integrating the allocation of state capital funds with college funds and with funds derived from a collaborative development initiative for an institutional approach to capital development also represents a major shift in funding capital projects. While the proposed overall approach and funding models are different, the priority projects within the AC-N plan still reflect priorities from the previous capital recommendations and reflect institution-level academic priorities over the next seven biennia.

We anticipate the Space and Facilities Committee will consider how other districts may benefit from such a long-term and comprehensive vision.

3. Cunz Hall Renovation

The newly created College of Public Health has significant and legitimate space needs. Renovation of Cunz Hall reconciles nearly all of the college's wet-lab needs in the near term. \$6.5 million from the FY 2009 - FY 2010 capital funds is recommended to help fully fund the roughly \$20 million Cunz Hall renovation project including re-cladding the exterior of the building to be more aesthetically compatible with the surrounding structures (RPAC, Psychology and the new Library). The remaining funds should be fund-raised by the college or reallocated from existing college resources.

4. College of Medicine Renovations (Phase II)

The College of Medicine is one of the fastest growing areas of research in the University. Lack of suitable space is a major impediment to future growth. Murray Hall has returned to the University at a truly strategic time in the growth of the academic Medical Center. Murray Hall will likely become the transitional home for the Institute for Behavioral Medicine Research.

The Medical Center Master Facilities Plan process has also identified the renovations to Graves Hall and parts of Meiling Hall as cost effective ways of adding, consolidating and upgrading student service spaces in addition to addressing a potential deferred maintenance problem. These renovations may include an annex to Graves Hall, which will house much needed large and small auditorium-style classrooms.

\$5 million was provided in the FY2007 - FY2008 State capital budget for the Graves and Meiling projects and \$1 million for Murray Hall. An additional \$6 million is recommended for Graves and Meiling in FY2009 - FY2010.

The acquisition of Murray Hall adds space to the University's inventory, but the Graves and Meiling renovations should not. The Murray project may have some impact on parking, but that will need to be determined as part of a feasibility study.

The impact of these projects on state capital requests for future biennia is shown below.

Project	Total Cost	State Capital Funds		
		Prior to FY 2009	2009-2010	2011-2012
Library Renovation	\$108.5M	\$63.0M	\$8.7M	NA
Academic Core - North	\$487.0M	\$5.0M	\$48.7M	\$48.7M
Cunz Hall Renovation	\$20.2M	\$8.6M	\$6.6M	NA
College of Medicine Renovations	TBD	\$6.0M	\$6.0M	TBD
Totals	\$615.7M +	\$82.6M	70.0M	48.7M +

B. Group Two: Recommendations for State Capital Funds in Future Biennia

5. Academic Core - North

Based on the preliminary plan recommended by the Space and Facilities Committee, completion of the Brown Hall Replacement, swing space for Arps, and swing/replacement space for Johnston/Boyd/Aviation would begin first, followed by completion of Koffolt Replacement. Next in line would be a new Chemistry Building, a Music/Theater Complex, and the Arps Hall Replacement. The project order will be more fully specified in the next capital projects cycle. It is estimated this will require a commitment of \$48.7 million in state funds from the next two biennia and \$35 million in state funds from each of the next four biennia after that.

6. Postle Hall Renovation/Replacement

Postle Hall, which serves as the home for the College of Dentistry, is more than 50 years old and no longer meets the academic needs of the college. Two years ago, the college proposed a \$270 million project that included \$100 million in state funds.

This was rejected as being financially unfeasible. The college was instructed to develop a scaled down project that is more consistent with what future funding is likely to be. That work is now in process and will be evaluated as part of the FY 2011 - FY 2012 capital process.

7. College of Veterinary Medicine

Veterinary Medicine is one of the top ranked programs in the country and is highly productive in teaching, research and public service. The current small animal hospital was built in 1973 and is overcrowded and no longer meets the academic and clinical needs of the program.

The college has proposed a combination of renovation and new construction for 2014 totaling approximately \$70 million to come from a variety of sources. We recommend the next two years be used to assess financial and physical feasibility of various approaches to improving this facility.

8. Pomerene Hall

Pomerene Hall occupies a unique physical and psychological place in the culture and history of Ohio State University. The predominant user (PAES) has moved out of Pomerene Hall into the new RPAC facility. Consequently, we authorized the Space and Facilities Committee to conduct a feasibility study on possible future uses of the building.

That study has been completed. Three broad adaptive uses have been identified. These are:

- Student Use
- Instruction and Instructional Support
- Academic Conference Space

Cost estimates for renovation total between \$25M and \$35M.

To ensure best possible uses for this valuable space, the Provost invited units interested in utilizing the space to submit a statement of intent. Several units have expressed interest (Medicine, Dentistry, Student Affairs, Public Health, Outreach and Engagement, OAA groups, Classroom Pool, Linguistics, and International Affairs). All units that submit a timely, formal request will be evaluated. A major criterion will be ability to help support the capital costs to appropriately use the building for strategic use. Recommendations will be forthcoming as part of the FY 2011 - FY 2012 capital process.

9. Food, Agricultural and Environmental Sciences

The College of FAES has a disproportionate share of the oldest buildings on campus. More than one-third of its assigned GSF is more than 45 years old. In our recommendations two years ago, we recommended the college generate \$3.5 million for planning a \$60-\$70 million integrated teaching and research facility in the FY2011 - FY2012 biennium, as well as generate additional resources in future biennia.

At its capital hearing, the college asked for additional time to develop a phased plan anchored by a new academic information and technology center to enhance teaching, research and student services. We recommend this request be accepted and that the college return with a more detailed proposal for the FY2013 - FY2014 biennium. We will

July 13, 2007 meeting, Board of Trustees

work with them in the meantime to assist them with this analysis that can be supported by funds currently on hand for such analyses.

C. Group Three: Projects Not Recommended for State Funds

In addition to the projects recommended above, we considered 10 additional projects as listed below.

Requesting Unit	Project Description	FY2009-10 Request (millions)	Total Project Request (millions)
Arts and Sciences	Consolidated Space	TBD	TBD
Biological Sciences	Building Addition	TBD	TBD
FAES	New Integrated Teaching and Research Building	TBD	TBD
Law	Drinko Hall	22-33 million	57-69 million
Medicine	COM Academic Center	TBD	TBD
Pharmacy	Parks Hall	TBD	TBD
Social and Behavioral Science	New Department of Economics Space	TBD	TBD
Social Work	Stillman	3.4 million	3.5 million
Research	New Interdisciplinary Research Building	10 million	100 million
Wexner Center	Mershon Auditorium Renovation	TBD	TBD

While not all unfunded projects are of equal merit or feasibility, it is clear the need for state support is much greater than what is likely to be available by a substantial amount. One strategy to address this is to use other funding sources where it might be appropriate. In that regard, we have specific recommendations regarding three projects in particular, Stillman Hall renovation, Drinko Hall renovation/expansion, and the Academic Medical Center project.

11. College of Social Work

Stillman Hall 2nd Floor Renovation, Windows and HVAC replacement is a \$3.5 million project. This would complete the renovation of Stillman Hall and should be considered for possible funding through the Basic Renovation process including deferred maintenance funds.

12. College of Law

Drinko Hall Renovation/Expansion: the Basic Renovation project for Drinko Hall (window/masonry renovations) is recommended to proceed. The more comprehensive Drinko project is not recommended for funding in this biennium, but should be revisited once a more comprehensive funding plan is completed. The college has committed to fund-raising a significant portion of this major project. The availability of college-raised funds will be an important consideration in the future.

13. College of Medicine

The College of Medicine requested funding for a 51,000 ASF Academic Medical Center, citing space shortages and the need to reconfigure facilities to meet changed teaching requirements. The college did not present cost estimates or a financing plan. Consequently, we recommend the next two years be used to develop a funding plan that includes a significant component of private fund-raising for such a facility.

The College of Medicine also submitted a request to renovate Murray Hall to house the Institute for Behavioral Medical Research. This program is one of the University's most successful interdisciplinary research efforts. The feasibility study completed in April 2006 estimated the costs of the renovations to Murray Hall for the purposes of the

Institute for Behavioral Medical Research to be between \$21.8 and \$27.3 million in 2010 dollars. The Office of Health Sciences is expected to contribute some funds to this project, but the amount is unknown at this time. This project and associated funding will need to be coordinated with the Murray, Graves and Meiling Hall renovations mentioned in section II, item #4 of this document. We recommend the next year be used to develop a funding plan that includes a significant component of private fund-raising for this facility.

III. RECOMMENDATIONS REGARDING OTHER FUNDS

As the amount of available state funds fails to keep the pace with demand, the University needs to continue to identify other funding sources for its capital needs. However, in doing so we need to be mindful of practical limits on the University's debt capacity, fund-raising priorities, and other factors that bear on these decisions. Therefore, we have organized this section into two parts: A) significant commitments involving non-state appropriated funds; and B) additional projects involving non-state appropriated funds. Non-State appropriated funds include bonds, user fees, development monies and other resources from requesting units.

A. Significant University Commitments Involving Non-State Funds

In the FY2007 - FY2008 recommendations, we highlighted three projects involving non-state funds: The Medical Center Master Facilities Plan, the Ohio Union replacement, and the new Student Services Center.

The Medical Center Master Facilities Plan is still under review and will be addressed separately. The Ohio Union replacement project was approved for construction in July 2006 and is expected to be completed by February 2010. This building will be LEED certified. Funding sources include a mandatory student fee. The Student Services Center was approved for design in September 2005. Construction is expected to begin by June 2008 and will be completed by August 2009. This building will also be LEED certified. This project is being financed by University resources.

The most significant new project from non-state funds is a major investment in infrastructure (electricity, water and roadways) to address significant deferred maintenance and capacity needs. This commitment is based on a comprehensive review over a four-year period. The outcome of that review was presented to the Board of Trustees Fiscal Affairs Committee in December 2006.

The recommendations in this plan represent an investment in infrastructure of over \$100 million to address deferred maintenance and renewal (including electrical distribution, roadways and tunnels), as well as \$35 million for additional capacity. These projects will be financed with University bonds and will be paid back with user fees. This investment will benefit the University for years to come. A more complete description is included in the section under Facilities Operations and Development.

The second major area of investment is renovation and expansion of student housing. This is described in the section on Student Affairs.

B. Additional Projects Involving Non-State Funds

This section lists projects proposed by colleges, support units and affiliated entities to be funded by sources other than State funds. In many cases, University backed bonds are requested. In order to make most strategic use of our available debt capacity, we have asked units to plan on a six-year horizon. The projects listed here reflect the units' plans for that time period. However, being included here does not guarantee a project will receive bonds or other University credit. That issue is addressed in Section IV.

1. OSU Medical Center

As of this writing, the \$780 million Medical Center Master Facilities Plan is still under review. Those projects previously approved and requiring 2007 bonds are listed below. For planning purposes we will use the 2009, 2011 and 2013 bond allocations totals previously allocated to the Medical Center for the \$780 million Facility Master Plan projects. This section will be updated at a later time, once the Medical Center Master Facilities Plan review is completed.

Project	2007-2008	2009-2010	2011 - 2012
Biomedical Research Tower	42,350,000		
Doan Digestive Disease	26,200,000		
Ross Addition	32,500,000		
MRI Relocation	7,000,000		
Project Programming	3,500,000		
Means/Garage Demo	4,900,000		
Parking Deck		29,200,000	
Tower 1		60,667,000	75,432,000
D&T		70,430,000	87,570,000
Faculty Offices		18,900,000	
Infrastructure	1,000,000	17,500,000	40,000,000
Ambulatory			27,500,000
Remediation & Modernization		46,380,000	76,420,000
Total Medical Center Requests	117,450,000	243,077,000	306,922,000

2. Student Affairs

Now that the Recreation Center is complete and the Ohio Union replacement project is under construction, the highest priority for the Office of Student Affairs is to upgrade and expand student housing. The largest projects will be the conversion of Lincoln Tower floors 1-15 back to residence halls (\$38 million), expansion of the Hall Student Housing Complex (\$41 million), and South Campus AC/Bathroom modernization (Phase I) (\$32 million). The request also includes significant renewal and replacement. Funding sources include University bonds to be repaid by housing fees, as well as Student Affairs capital reserves set aside for this purpose.

We also recommend an internal work group be formed to make sure the University is leveraging all its potential housing resources in the best way. The work group should include representatives from Academic Affairs, Business and Finance, Campus Partners, Legal Affairs, and Student Affairs. The goal is to have a preliminary report completed by the time the capital recommendations are presented in September.

Project	Requested Amounts (in millions)			
	2007 Bonds	2009 Bonds	2011 Bonds	Future Bonds
Archer House Conversion - 100 beds	5,300,000			
Jones Tower		6,000,000		
Lincoln Tower 1-15 Conversion - Renovated 960 Kinnear	1,000,000			
Lincoln Tower 1-15 Conversion to Residence Hall - 576 beds		11,000,000	27,000,000	
New Housing Construction - Expansion of Hall Housing Complex Phase I (160 beds)		1,200,000	13,900,000	
New Housing Construction - Expansion of Hall Housing Complex Phase II (250 beds)		700,000	12,000,000	13,000,000
South Campus AC/Bathrooms: Phase I		7,000,000	25,000,000	

July 13, 2007 meeting, Board of Trustees

South Campus AC/Bathrooms: Phase II			7,000,000	27,000,000
Food Service Master Plan	2,500,000	450,000	3,600,000	
Housing and Food Services Renovations	16,000,000	14,000,000	14,000,000	
Off Campus Residential Properties		1,500,000	1,500,000	
Fawcett Center Renovation	8,600,000			
Larkins Hall Replacement Project	43,470,000			
Wilce Health Center Renovations		3,300,000		
Wilce Health Center Renovations Phase IV		2,000,000	3,900,000	
Ohio Union Replacement Project - Central Funds	10,000,000			
Ohio Union Replacement Project - Student Affairs	10,000,000	87,000,000	5,000,000	
Oxley Conversion to Housing				9,000,000
North Area Housing Renovation				1,000,000
Total Student Affairs	\$96,870,000	\$134,150,000	\$112,900,000	\$50,000,000

3. Facilities Operations and Development

As mentioned previously, the highest priorities for Facilities Operations and Development are projects to restore and expand the University's essential infrastructure. These are listed below and reflect whether the project addresses deferred maintenance (DM) or increased capacity (IC), or both.

Project	Goal	Amount Requested (in millions)		
		2007 Bonds	2009 Bonds	2011 Bonds
Boiler Replacement/McCracken	DM	16,000,000		
East Chilled Water Plant	IC	4,000,000		
North Hot Water Loop	IC	2,500,000		
Increase Campus Electrical Capacity Phase I	IC	6,000,000		
High Voltage Air Break Switch Replacement	DM	15,000,000		13,280,000
Kinnear Corridor Improvements	DM	5,000,000		
12 th Avenue/Neil Corridor Improvements	DM	2,000,000		
South Dorm Sewer Separation	DM	625,000		
Student Academic Services Building Chilled Water Extension (ACN-17)	IC	7,458,000		
Capacity Coordination with Medical Center - Identified Projects	IC	2,545,000		
Boiler Replacement	DM and IC	1,130,000	5,100,000	5,049,000
Central Power Plant Water Treatment	DM and IC	1,430,000	12,859,000	
Drainage Improvements (ACN-1)	DM	1,900,000		
Domestic Cold Water System Improvements - Oval Area (ACN-2)	DM	1,669,000		
Steam and Condensate Distribution System Upgrades Phase I (ACN-2)	IC	8,150,000		
Put-In-Bay Water & Sewer Line Extension	Utility need	1,000,000		
Steam and Condensate Distribution System Upgrades Phase 2 (ACN-6)	IC		6,370,000	
John Herrick Drive Rebuild Phase 1 and Phase 2(ACN-9)	DM		2,858,000	4,568,000

July 13, 2007 meeting, Board of Trustees

Tunnel Durability Evaluation Project (ACN-3)	DM		1,000,000	
Woodruff Avenue and Tuttle Park Place Rebuilds (ACN-10) (ACN-11)	DM		3,303,000	
Water & Natural Gas Distribution Capacity Upgrade (SCW-1 and MA-2)	IC		1,671,000	
Woody Hayes Drive & Fyffe Rd. Rebuilds (ACN-12) (ACN-14)	DM		483,000	4,344,000
Campus Electric Capacity, Phase 2 (New Substation) (SCW-4)	IC		8,000,000	43,132,000
East Chilled Water Plant (ACN-5) (Phase 1 only)	DM		2,000,000	47,146,000
Hagerty Drive Rebuild (Oval Phase C) (ACN-13)	DM			4,107,000
Defiance Drive Rebuild (OP-1)	DM			1,207,000
Capacity Coordination with Medical Center - Opportunity Projects	IC			5,000,000
South Campus Sewer Separation and Site Improvements (SCE-1)	DM			2,331,000
North Campus Sewer Separation and Site Improvements	DM			4,182,000
Selected Tunnel Replacement Projects (ACN-4)	DM			5,479,000
Infrastructure Improvements, West & Midwest Campus Expansion Phase I	IC			18,012,000
17th Avenue Rebuild (ACN-8)	DM			3,860,000
18th and 19th Avenue Rebuilds (ACN-7)	DM			1,998,000
Total FOD Requests		\$76,407,000	\$43,644,000	\$163,695,000

4. Athletics

The highest priority for the Department of Athletics is an office complex and sports medicine center. Athletics feels this can be achieved through private fund-raising. Other priorities are listed below.

Project	Estimated Project Costs		
	2009-2010	2011-2012	2013-2014
New Athletics Complex		15,000,000	15,000,000
Sports Medicine Center		15,000,000	15,000,000
Stickney Tennis Courts Renovation	3,000,000		
Indoor Track and Multi Purpose Sports Facility	15,000,000	15,000,000	
Basketball Auxiliary Gym Addition & Offices	20,000,000		
Field Hockey Stadium & Football Practice Turf replacement & Relocation	5,000,000		
Total Athletics Requests	43,000,000	45,000,000	30,000,000

Athletics currently accounts for 21% of the University's outstanding debt, but less than 3% of the University's annual operating revenue. Therefore, to preserve access to capital funds for other units, it is recommended that only those projects that can be funded with cash, early retirement of existing debt, or short-term (5 years or less) lines of credit, be approved for funding design and construction.

5. Transportation and Parking

Transportation and Parking's projects are listed below in priority order. Funding will come primarily from bonds paid for with parking user fees. The biggest unknown at this point is additional parking for the Medical Center, which will be addressed as part of the planning for the Medical Center Master Facilities Plan.

Project	Request Amount (in millions)		
	2007 Bond Request	2009 Bond Request	2011 Bond Request
9 th Avenue Garage Restoration	2,500,000		
Surface Parking Lot Renovations	1,500,000	1,500,000	
New 9 th Avenue Garage East	21,700,000		
Ohio Union Garage Restoration & Expansion		21,500,000	
Lane Avenue Garage	14,000,000	14,000,000	
Arps Garage Restoration			4,000,000
Total T & P Requests	\$39,700,000	\$37,000,000	\$4,000,000

6. Regional Campuses, ATI and OARDC

The University's regional campuses, OARDC, and ATI have identified the following projects as high priority over the next six years:

Campus	Project	Estimated Total Project Cost	Requested Amounts (in millions)		
			2007-2008 Bonds	2009-2010 Bonds	2011-2012 Bonds
Lima	Student Life Building		7,000,000		
Newark	Warner Library		5,500,000		
Mansfield	Ovalwood Renovations		7,000,000		
Lima	New Maintenance Facility	2,400,000		2,000,000	
Mansfield	Recreation and Student Life Center Expansion (\$8M Bonds; \$5M Local)	13,000,000		6,000,000	
Mansfield	Schuttera Service Center				3,200,000
Marion	New Science and Art Building (\$5M Bonds; various other sources for remaining \$10M)	15,000,000			5,000,000
Newark	Founders Hall and Hopewell Hall Renovations (\$1M; various other sources for remaining \$6.3M)	7,300,000		1,000,000	
OARDC	Selby Hall BSL-2 Greenhouse Replacements			5,500,000	
OARDC	New Entomology Building	21M-28M			
OARDC	BioHio Concept (Job Ready Site Grant to City of Wooster for Total Project Cost)	3,373,600			
OARDC	Pounden Hall Renovation (EDA Grant and Local OARDC funds)	744,091			
ATI	Horticulture Operations Building (Project Budget is \$8.5M: \$1.26 State; various other sources for remaining	8,500,000			

July 13, 2007 meeting, Board of Trustees

	Total Regional Requests		19,500,000	14,500,000	8,200,000
--	-------------------------	--	------------	------------	-----------

The projects are to be funded with a combination of State capital funds, cash reserves, and University bonds. We recommend these projects proceed within the bond capacity limits identified in Section IV Part D.

All four regional campuses expressed a desire to provide additional housing at some point in the next six years. Two campuses (Newark and Mansfield) have such housing. The Lima and Marion Campuses have requested housing as well.

Unfortunately, the University does not have the debt capacity for these as University built and operated facilities and to meet the other capital needs of the regional campuses. Therefore, we recommend both Lima and Marion be directed to explore options with private developers who could provide student housing in close proximity to those campuses, as long as this can be done without adversely affecting the University's debt capacity. Proposals for housing on any of the regional campuses will need to be linked to each regional campuses' strategic plan, once endorsed from an academic priority perspective.

7. Projects from Individual Colleges

We have pending requests from the colleges listed below. These requests are currently in the process of being evaluated for further consideration.

College	Project	Amount Requested (in millions)	
Engineering	New Airport T-Hangers	4,000,000	2007 or 2009 Bonds
University Libraries	Book Depository	5,000,000	Future Bond cycle
University Libraries	Cartoon Research	12,000,000	Fundraising

8. Affiliated Entities

In the 1990s, the University created a number of affiliated entities to undertake strategic initiatives. Two of these, Campus Partners and SciTech, made use of University-backed credit during their start-up phase. Since then, the rating agencies now include University-backed credit to affiliated entities as counting against the University's debt capacity.

Since both Campus Partners and SciTech are now viable, we recommended two years ago that their capital needs be financed by their own equity, thus preserving the University's debt capacity for other priorities in the Academic Plan.

We have discussed this concept with the leadership of both Campus Partners and SciTech. They are supportive of the recommendation, provided that in the case of SciTech, the existing University \$10 million line of credit be maintained as a revolving line of credit and that in the case of Campus Partners, the goals of the five-year business plan are met.

We think these conditions are reasonable. Therefore, we are showing Campus Partners and SciTech capital plans for information only, rather than as requests for additional University-backed credit or State capital funds.

Entity	Projects	Estimated Cost (in millions)		
		2009-2010	2011-2012	2013-2014
Campus Partners	TBD	15,000,000	15,000,000	TBD
	CCF Site Development	TBD	TBD	TBD
	Total Campus Partners	\$15,000,000 +	\$15,000,000 +	TBD

SciTech	New Electrical Engineering Research Lab	6,200,000		
	1275 Kinnear Road Complex Build Out	1,600,000		
	SW Quadrant OSU Research Park - Ph I	6,100,000		
	Total SciTech	\$13,900,000		

Note: amounts listed above are estimated project costs, funding sources will need to be identified.

9. Other Projects

In addition to the projects discussed above, there are a number of capital projects that do not fit into the categories listed above. These are:

- University District Neighborhood Safety Center - this project was announced by President Holbrook and Mayor Coleman in October 2004. It is a city project, but the University has committed to pay half of the construction cost and rent for University use of the building for University Public Safety and Community Crime Patrol. The original total project cost was estimated at between \$3.5 and \$4.0 million. Our share of \$1.75-2.0 million will come from central University cash reserves set aside for this purpose.

The estimated cost has increased to \$4.6 million as a result of delays and design changes required by the University Area Review Board. The University has agreed to commit up to \$2.3 million, but to cap its commitment at that amount. Funding has already been set aside in the operating budget for this purpose.

- The renovation and expansion of Blankenship Hall is designed to address space and infrastructure needs for four critical public safety functions:
 - Meet increased demand for computer and communications network space and infrastructure.
 - Provide better security and control for key operations.
 - Upgrade radio communications, including interoperability and redundancy.
 - Enhance emergency response capability.

The recommended proposal provides for approximately \$7 million in project costs for the renovation in FY 2007 dollars, and \$12 million for communications equipment and upgrades.

The \$7 million in project costs will come from University bonds. The \$12 million for the communications equipment will come from General Funds, user fees and other sources.

- Real Estate and Property Management has prepared a prioritized list of improvements and possible acquisitions. These requests are currently under review, but should be funded by internal lines of credit to be paid back by rental income rather than bonds.

IV. IMPLICATIONS

In this section, we address the implications of these recommendations in nine specific areas: the Academic Plan; deferred maintenance; future capital requests; debt capacity; students, faculty and staff; future operating costs; transportation and parking; physical feasibility and energy conservation.

A. Impact on Academic Plan

These recommendations are strongly aligned with the Academic Plan. Funding of the Library Renovation completes a high priority specifically identified in the Plan. The Academic Core - North provides a unique opportunity to improve the quality of the teaching and learning environment for several core disciplines that house world-class faculty and leading academic programs. This approach represents a potential model that might be applied to other areas of campus.

The Ohio Union project, and the new Student Services Building, along with upgrades to Residence Halls, are key components to enhance and better serve the student body.

B. Impact on Deferred Maintenance

Funding of these recommendations will address many of the University's lingering deferred maintenance problems. Brown Hall, Hughes Hall, Koffolt, Cunz and Lord Halls are among the worst deferred maintenance problems. Addressing these will remove at least \$67 million in deferred maintenance.

In addition, addressing renovations of the Thompson Library and Graves Hall, and the replacement of the Ohio Union proactively keeps these key facilities from becoming deferred maintenance problems in the future.

The recommendations proposed as part of FY 2009-FY2014 Capital Plan will address 9 buildings ranked in the top 30 with the largest deferred maintenance problems on the Columbus campus (Attachment C). And will begin to evaluate options for another 4 buildings on this list in future years.

C. Impact of Future State Funded Capital Requests

With State funds declining and becoming more uncertain, multiyear planning becomes more important. In general, we have to phase large projects over three biennia, one for planning and two for construction. Although this is not ideal, this provides greater flexibility in use of State funds. The table below shows how the recommendations in this memo would play out over the next three biennia. For planning purposes, a control total of approximately \$70 million is projected for each future biennium.

Project	Total Funding (millions)		State Funding (millions)			
	State	Other	Previous	FY09-10	FY11-12	FY13-14
Library Renovation	\$71.7	\$36.8	\$63.0	\$8.7		
Academic Core-North (see above)	\$243.8	\$242.9	\$5.0	\$48.7	\$48.7	\$35.0
Health Sciences Renovations	TBD	TBD	\$6.0	\$6.0	TBD	TBD
Cunz Hall Renovation	\$15.2	\$5.0	\$8.6	\$6.6		
Totals	\$330.7	\$284.7	\$82.6	\$70.0	\$48.7	\$35.0

D. Impact on Debt Capacity

In order to preserve debt capacity for the highest priorities of the Academic Plan, the University Board of Trustees approved guidelines on the use of bonds and other credit instruments on March 4, 2005. These recommendations are consistent with those guidelines and envision a bond issue of no more than \$450 million in calendar year 2007 and no more than \$500 million in calendar year 2009. The current recommended target

July 13, 2007 meeting, Board of Trustees

for FY 2011 would be \$500 million. How this would be allocated among the various groups of users is illustrated in Attachment B.

E. Impact on Students, Faculty, and Staff

A large number of students, faculty, and staff regularly use the buildings recommended here for replacement or renovation. They will benefit when the projects are done, but will be inconvenienced while they are under construction.

The single largest challenge will be the inconvenience caused by the Library renovation and Ohio Union replacement projects, both of which will be under construction at the same time. Temporary sites have been provided for both functions with appropriate transportation. This transition for the Library project seems to be proceeding smoothly. Additional planning and the ability to quickly respond to emerging issues will need to be done to minimize inconvenience and confusion in both cases.

Temporary student study and social space while both projects are unavailable during construction will be provided at several locations across campus. These temporary measures to minimize adverse impact of this needed construction were reviewed with the Board's Fiscal Affairs Committee at their June 2005 meeting.

F. Impact on Operating Costs

In the University's budget system, the benefiting units are responsible for operating costs of additional space assigned to them. The table below summarizes the approximate net change in ASF for major projects approved for the coming biennium. "Cost Increase" column are projections at the POM rate. Not all these buildings are POM facilities, but using POM rates provides an estimate for increased operational costs.

Unit	Project	Net Change in ASF	Cost Increase (or Decrease)
OAA	Library Renovation	-11,500	(\$155,940)
English ASC/Humanities	Brown Hall Renovation	4,600	\$62,376
Medicine	Graves & Meiling Hall Renovations	TBD	TBD
Music ASC/Arts	Hughes Hall Renovation and/or new construction	TBD	TBD
Engineering	Koffolt Laboratory Renovation	TBD	TBD
Health Science	Murray Hall Renovation	43,000	\$583,080
Health Science	Clinical Expansion Phase I	TBD	TBD
Student Affairs	Ohio Union Replacement	23,000	\$311,880
Various	Student Academic Services Building	-12,200	(\$165,422)

G. Impact on Transportation and Parking

Meeting additional space needs without exacerbating parking and accessibility continues to be an enormous challenge. Vehicular and foot traffic congestion will undoubtedly occur as a result of building construction and road improvements, but it is a temporary obstacle.

Most projects that are renovations or replacements will not increase long-term parking demand. The Medical Center Expansion project will create additional demand on a part of the campus where congestion is high and parking is short supply, but the project will replace any parking that is removed and will add additional parking to accommodate additional needs.

July 13, 2007 meeting, Board of Trustees

The Student Services building will eliminate approximately 500 surface parking spaces, but these will be replaced by the proposed Lane Avenue Garage. The new garage will increase parking availability in the north campus area, shifting demand from west campus to Lane Avenue and increasing the amount of vehicular traffic in this area.

The Ohio Union project will increase parking demand on the east side of campus, but this can be mitigated by the expansion of the Ohio Union Garage

H. Physical Feasibility

Many of the proposed projects are tied to existing projects and will require careful planning when it comes to timing and space coordination. The availability of Smith Lab for swing space will facilitate demolition of Lord Hall. The new Student Services building will have to be completed before Lincoln can be converted to additional housing. There will be swing-space issues associated with the Academic Core-North plan but these will be resolved once the sequence of steps for this district are more fully resolved.

I. Energy Conservation/Sustainability

The recent rise in the cost of energy is expected to be a long-term trend; consequently, strengthened emphasis on energy conservation makes sense from both a financial and environmental protection standpoint. New design standards for campus planning and development were approved by the President's Cabinet on January 24, 2007 and will be incorporated into all new building and renovation projects. Three projects have already been designated to be LEEDS certified: the 4-H building, the Ohio Union and the new Student Services Building.

We hope this information is helpful to you in evaluating our capital recommendations. With your approval, we will circulate these recommendations across campus for input prior to bringing them to the Board for a first reading at the July Board of Trustees Meeting.

PART V: Appendix

Supplemental Materials

- A. Funding Principles**
- B. Proposed Allocations for FY 2009 and FY 2011 bond issues**
- C. Top 30 Building on the Columbus Campus ranked by Deferred Maintenance Needs**

Attachment A

**2009-2010 Capital Budget
Funding Principles**

With stable enrollment, limited funding and a substantial amount of deferred maintenance, the priority for use of central funds (including State funds) will be to enhance or improve existing space and reduce operating costs. Therefore, as a general rule:

1. Central funds will not be used to increase academic or administrative space assigned to a unit unless:
 - Paid for by the benefiting unit, or
 - Reallocated from elsewhere.
2. Central funds will not be committed to additional operating costs.
3. Capital and operating costs for additional research space should come from increased cost recoveries.
4. Any additional space for non-general fund units should be funded by that unit and meet the space service needs of the University.
5. Fund raising is an important consideration but fundraising does not guarantee matching funds independent of the criteria listed above. Fundraising is particularly encouraged for upgrades and renovations that do not require additional central support.
6. Use of University bonds and other credit instruments may be requested where a repayment mechanism can be identified. However, availability of this funding source is extremely limited and must be specifically approved as part of the project review approval process.
7. The ability to document and track proposed benefits of the project as to the Academic Plan will be an important consideration in choosing among competing projects.

NOTE: This list is preliminary; projects and amounts for FY 2009 and FY 2011 have not yet been approved

<u>Proposed Project</u>	<u>FY2007</u>	<u>FY2009</u>	<u>FY2011</u>
FOD			
Boiler Replacement/McCracken	\$16,000,000		
East Chilled Water Plant	\$4,000,000		\$0

July 13, 2007 meeting, Board of Trustees

(APPENDIX II)

***The Ohio State University
Board of Trustees
July 13, 2007***

TOPIC:

Medical Center Master Facilities Plan Update

CONTEXT:

This is a follow-up to the June 1, 2007 Briefing on this topic.

SUMMARY:

The work by the consultants has been very helpful. Over the last month, progress has been made in the following:

- A decision tree and timeline has been established (attached).
- An administrative structure has been established (attached).
- The reports from Deloitte and Hammes are expected to be finalized before the September Board meeting.
- The next progress report will be made to the Board in September.

CONSIDERATIONS:

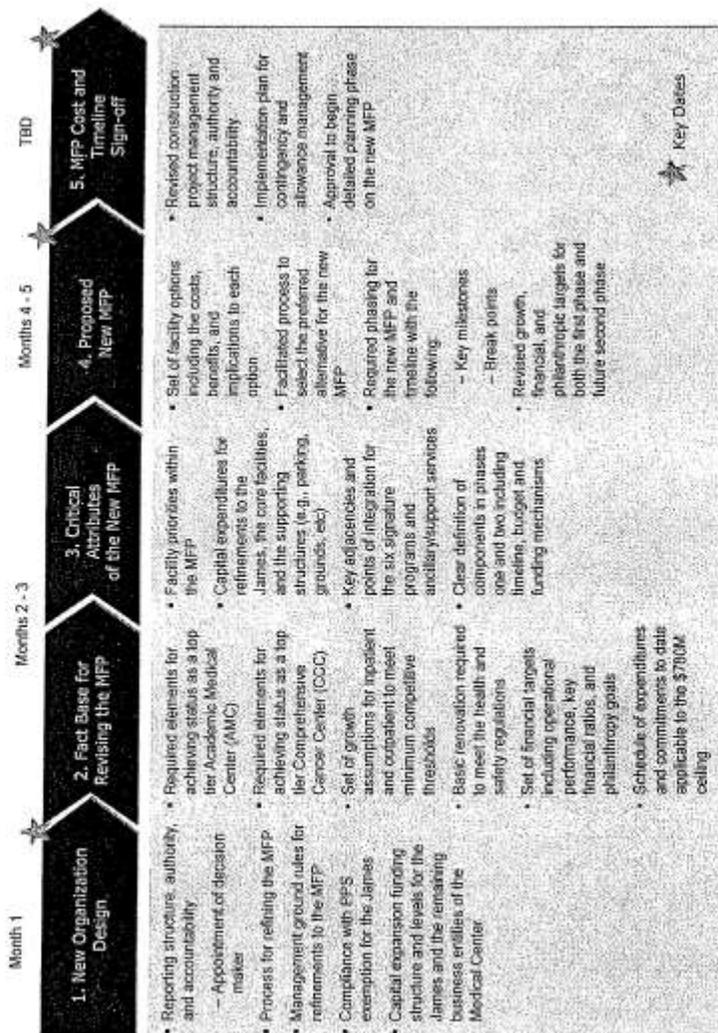

- What additional information would the Board like to have?
- What can we expect in September?
- What effect will proposed changes in the James/CCC governance structure have?

REQUESTED OF BOARD OF TRUSTEES:

For information and discussion. No vote required.

DRAFT

Exhibit 1: Timeline of Key Decisions

Board of Trustees

Subject: Medical Center Master Facilities Plan
Date: June 20, 2007
From: Gil Cloyd *ggcloyd*
To: Medical Center Leadership

Now that the internal work group led by Chris Culley is completing its charge to articulate a governance and operational model for the James and the Medical Center, we need to complete our review of remaining issues involving the Master Facilities Plan. Since this involves facility and financial issues, I have asked Bill Shkurti to take the lead in moving this process to the next phase. This includes making sure this project moves forward as a University project with appropriate support, oversight, accountability and reporting. I expect Bill and his staff to work with you and your staff to make sure programmatic needs are met, but ultimate accountability for financial and facilities decisions rests with Bill as the senior University official involved.

I have asked Chris Culley, Pete Geier, Dave Schuller and Chip Souba to form a small work group under Bill's leadership, to assist in this process. I have also asked the following members of the Board of Trustees to join me in providing advice and support to Bill in this effort: Alan Brass, Jo Ann Davidson, Karen Hendricks, Dimon McPerson, John Ong and Les Wexner.

The working group will be guided in its work by these primary objectives:

1. Move forward with the Medical Center Master Facilities Plan in a manner consistent with the objectives laid out in the April 18, 2007 letter from Bob Duncan and me to the Medical Center Leadership and utilized by the Governance working group:
 - To position the OSU James Cancer Hospital and Solove Research Center to become a top ten NCI-designed Comprehensive Cancer Center;
 - To maintain the excellence and growth of the OSU Medical Center to achieve top twenty status among academic medical centers in the nation in programs, personnel and facilities, through a sound strategic investment plan;
 - To maintain the federal PPS exemption; and
 - To enhance inter-disciplinary synergies among the OSU Medical Center, the James/Solove, and Ohio State broadly.
2. Develop a framework and timeline for resolution of all issues identified by the consultants and other stakeholders as described in Bill's June 1, 2007 presentation to the Trustees. This includes ensuring that the Medical Center and the James leadership and

July 13, 2007 meeting, Board of Trustees

all relevant groups work with the consultants to achieve strategic alignment with appropriate cost options identified.

3. Define an approach to maximize private philanthropic support which incentivizes leadership to gain substantive private contributions (or an equivalent) in addition to other funding sources.
4. Establish clarity and line of sight reporting responsibility to the Senior VP for Business and Finance for all financial and facilities-related decisions applicable to the expansion. This includes defining an ongoing project management process that ensures proper tracking, milestone evaluations, and adherence to best practices, high quality and effectiveness.
5. Ensure that the credit rating and financial viability of the University, the Medical Center, the James and the Health System are maintained.
6. Ensure that hospitals within the health system, including the James, are managed and governed consistent with an approved five-year financial plan. This includes collaboration and sharing of services to minimize duplication and unnecessary expense.

I have authorized Bill to hire whatever consulting assistance and staff support he needs and, where appropriate, to charge this to the project, including the hiring of a senior, experienced overall Project Leader who reports to the Senior Vice President for Business and Finance.

I have asked Bill to present a follow-up report to the full Board at the July 13 meeting.

The University remains committed to a timely and thorough analysis and consideration of this total proposed project and, ultimately, the implementation of a master plan that will position the James, the Medical Center and all of its component programs for continued excellence and leadership in the years ahead.

Cc: Karen Holbrook, President
Christopher Culley, Vice President for Legal Affairs and General Counsel
William Shkurti, Senior Vice President for Business and Finance

(APPENDIX III)

Athletic Department Facilities Master Plan

315-07-2152

Requesting Agency(s): ATHLETICS

Location(s): Various Locations, Columbus

ASF/O GSF Age:

Description:

This project will hire an associate architect or consultant to assist in the development of an athletic department facilities master plan. The facilities master plan will address sports programming, building analysis and recommendations for improvement or replacement of facilities. The plan will assist decision-making for the next 30 years.

Project Information:

The study area includes up to approximately 360 acres (including the golf course), 77 million gross square feet of existing athletic department space, and 36 varsity sports.

How does this project advance the Academic Plan? This project advances the Academic Plan by supporting the mission of the Department of Athletics to provide student athletes with exceptional education and athletic opportunities.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Special Circumstances: None

Tzagournis Medical Research Facility Curtain Wall Repairs

315-07-1623

Requesting Agency(s): UNIVERSITY HOSPITALS

Requesting Agency(s): RESEARCH, OFFICE OF

Location(s): Tzagournis Medical Research Facility

44,890 ASF/78,705 GSF Age: 1994

Description:

This project consists of repairs to the curtain wall at the Tzagournis Medical Research Facility. The project will include general exterior building envelope repairs, including clearing of existing limestone panels, application of sealant, repair of joints and replacement of broken panels; vertical framing and joints; replacing sealant, canopy capping, insulation and broken glass. Work will also include the removal and restoration of the spandrel glass.

Project Information:

How does this project advance the Academic Plan? This project advances the Academic Plan by supporting the clinical, teaching and research missions at the University.

Outstanding Funding Issues: None

Tiering Issues: None

"Ripple effects" of the project: None

Special Incentives/Risks: Corroded leads in the exterior building enclosure will cause additional damage to the building curtain wall system until repairs are made. An additional risk is the loss of centralized quality research space on campus.

Deferred Maintenance: This project will address approximately \$279,500 of deferred maintenance.

Deferred Renewal: None

Morehouse Medical Plaza - Surface Parking Expansion Project

315-2004-905-2

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): See Project Information

ASF/0 GSF Age:

Description:

This project will provide the Martha Morehouse Medical Plaza with an increase in surface parking, lighting, and drainage to meet the growing demands of the complex. Adjacent land to the immediate south of the plaza will become part of a staff parking area to meet the desired vehicle count. Once complete, the overall lot capacity will total 940 vehicles, an increase of approximately 514 spaces.

Project Information:

Project budget increased to tie the primary power to the Morehouse Medical Plaza to the University power supply. It is necessary to add this scope to avoid bearing up the new parking lot after construction.

This project is part of the 513th Outpatient Services - 2050 Kenry Road project previously approved on March 5, 2004 by the Board of Trustees.

How does this project advance the Academic Plan? This project will advance the Academic Plan by providing the needed infrastructure to support the growth of medical outpatient clinics and specialties at one location where complex treatment options and research can be developed.

Delaware Speech & Hearing with OSU Medical College (Pass-Thru)

315-07-1556

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): See Project Information

ASF/O GSF Age:

Description:

This project will provide funds for use in constructing and renovating the Delaware Speech and Hearing Center's facilities in Delaware, Ohio.

Project Information:

This is a pass-thru capital project. A Joint Use Agreement has been prepared between The Ohio State University and the Delaware Speech and Hearing Center. This appropriation will provide increased access to speech, audiology and related services for Delaware County and will provide increased opportunities for clinical education placement for OSU medical students.

How does this project advance the Academic Plan? This project advances the Academic Plan by supporting the teaching and research interests of the University.

LONG-TERM LEASE

Varsity Crew Facility
Indian Village Road
Columbus, Ohio

Background

Location and Description

The Department of Athletics proposes to lease a boathouse from the City of Columbus, Ohio. The City of Columbus will construct a boathouse and the cost of construction of the boathouse will be the rent paid by the University.

The property is located along the Griggs Reservoir on the Scioto River in a portion of Durenceau Park located at the southerly end of Indian Village Road in Columbus, Ohio. The proposal provides for construction of a boathouse facility by the City, portions of which will be leased by the University. The leased premises will consist of three (3) bays, two (2) meeting rooms, and one (1) office in the permanent boathouse to be constructed upon real property at Griggs Reservoir on the Scioto River together with the right to use in common with the City, the lobbies, kitchen, training rooms, men's and women's locker rooms, common corridors, hallways, public restrooms, and other common areas located within the boathouse, and the dock facilities to be located on the real property accessing the Scioto River.

All costs, lease payments, and any other expenses related to the proposed off-campus property will be funded by the Department of Athletics using funds from reserves that have been set aside for a boathouse project and future fundraising. All costs associated with this project will be the responsibility of the Department of Athletics until the time donor funds have been secured.

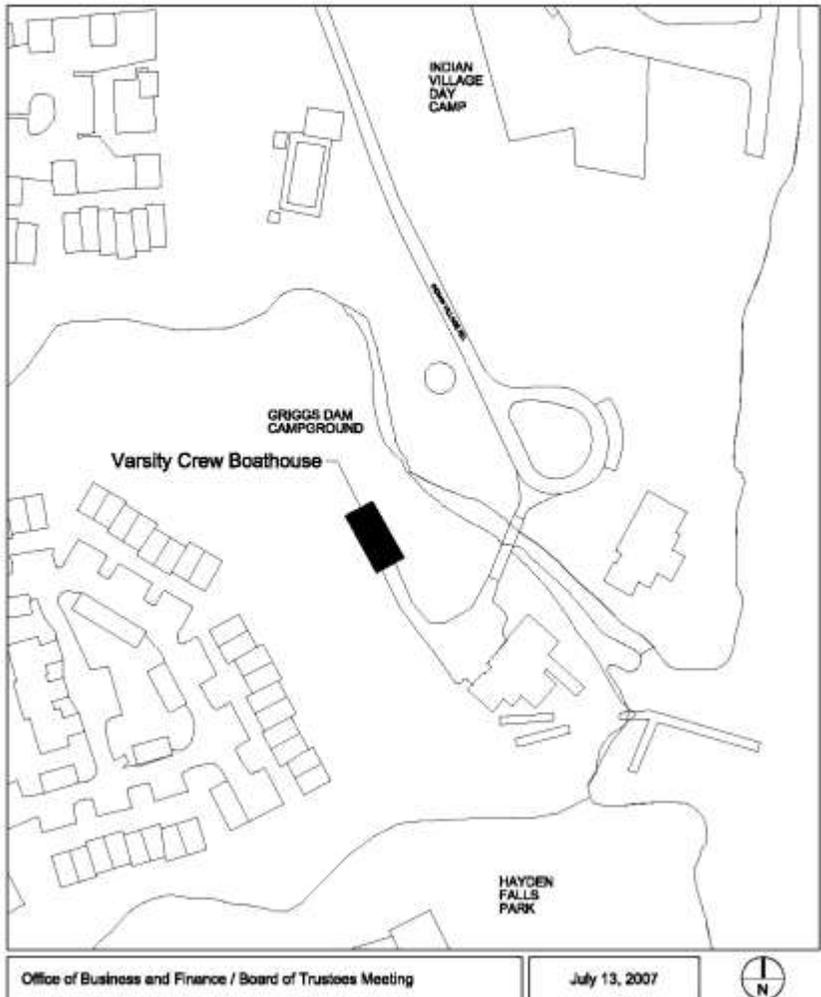

Terms of Lease

The lease term shall be for 40 years, with one 40-year renewal option.

Rent for the property will be the actual costs of construction of the boathouse facility, not to exceed \$3.3 million. The mechanics of payment of rent and additional terms remain to be negotiated and such additional terms and conditions as shall be in the best interest of the University.

Long Term Lease

- Leased Varsity Crew Facility, Indian Village Road, Columbus, Ohio

July 13, 2007

July 13, 2007 meeting, Board of Trustees

(APPENDIX VI)

**The Ohio State University Board of Trustees
Fiscal Affairs Committee
July 13, 2007**

Topic:

FY 2008 Operating Budget Recommendations

Context:

This is the second to last step in approval of the FY 2008 Operating Budget. The final step (Budget Detail) will occur at the September meeting.

Recommendations:

The recommendations are subdivided into five parts:

- Strategic Priorities (pp. 3-4)
- Tuition and Fees (pp. 5-11)
- General Fund Budgets Recommendations (pp. 12-19)
- All Fund Budget Recommendations (pp. 20-24)
- Financial Stewardship (pp. 25-28)

Considerations:

- How does this budget support the Academic Plan?
- How did the leadership transition affect this budget?
- What does the state budget bill portend for FY 2009?
- What happens next?

Requested of Fiscal Affairs Committee:

Approval

July 13, 2007 meeting, Board of Trustees

FY 2008 Operating Budget Recommendations

- I. Prior Board Actions
- II Strategic Overview
- III. Tuition and Fees
- IV. Columbus General Funds Budget Recommendations
- V. Regional Campuses
- VI. All Funds Budget Recommendations
- VII. Financial Stewardship
- VIII. Conclusions
- IX. Appendices

July 13, 2007 meeting, Board of Trustees

I. Prior Board Actions

A. April 6, 2007

- Implications of the Governor's proposal were discussed.
- Presented Financial Benchmark report

B. May 4, 2007

- The BOT was presented with the first set of scenarios available for the FY 2008 year.
- Included an analysis and comparison of the Governor's budget bill proposal and the House of Representatives passed version of the budget bill.
- The presentation was information only in May and was viewed as a starting point for the discussion of funding availability for the year. No Board action was required.

C. June 1, 2007

- The BOT approved the used charges for self -supporting auxiliaries and approved an interim budget for the period of July 1 - 13, 2007, inclusively.
- The first reading for the supplemental instructional fees that do not impact all students was presented.

II. Strategic Overview

The FY 2008 budget is structured to support key University-wide initiatives, consistent with the Academic Plan:

- Competitive Compensation
- Reform of the Undergraduate Curriculum
- Quality Graduate Programs
- 2008 Enrollment Plan
- Enterprise -Wide Systems
- Safety and Security
- Compliance Activities

Funding for these initiatives is described below:

- Competitive Compensation - will be funded from college and support unit operating budgets. Most units are able to fund a raise pool at a minimum of 3.5% for faculty, staff and student employees without a reallocation. Further discussions are on-going regarding reallocations required to reach a more competitive increase. The Provost will selectively support high quality academic units that lag behind their benchmark faculty salary levels.
- Reform of the Undergraduate Curriculum - The University has approved the implementation of the reduced credit hours proposal for graduation to start August 2007 and work continues on addressing the financial implications of reduced credit hours to graduate.
- Quality Graduate Programs - The University has approved the changes for supporting quality graduate programs as proposed by the Senate Fiscal Committee. An assessment on all doctoral granting colleges will be implemented, with the funding being utilized to support the Innovation Incentive funded activities and to fund quality graduate programs not included in the Innovation Incentive program. The targeting of funds to quality programs will allow the university to support these programs and to begin an assessment of other doctoral programs for potential

July 13, 2007 meeting, Board of Trustees

changes and eliminations. This review will be conducted by the Graduate School and the impacted colleges.

- D. 2008 Enrollment Plan - The final year of funding will be used to complete the Enrollment Plan activities. One million, three hundred thousand dollars is being set aside for financial aid to support recruiting of highly qualified undergraduates. In FY 2007, this program was funded through the student services assessment. In FY 2008, this program will be funded centrally by the revenue generated from the higher than anticipated student enrollment and retention that occurred in FY 2007. The goal of this program is to continue to raise academic qualifications of the incoming freshman class to targeted levels. The success of this initiative is reflected in continually improving qualifications of incoming students.
- E. Enterprise-Wide Systems - The major initiative in this area is the Student Information System. Nine million dollars is allocated to fund Phase II of V of this \$50 million project.
- F. Safety and Security - The budget directs a significant level of resources toward safety and security issues, both for the physical safety of the students, faculty and staff of the university and for the security of the information systems. These initiatives include fire safety (\$292,000), building security (\$1.3 million), and Cyber Security activities (\$1.1 million)
- G. Compliance Activities - Compliance issues are also a priority FY 2008. These activities include the audit consultant as requested by the Board (\$800,000) and EPA compliance funding (\$180,000). In addition, the request for funding for meeting Human Subject federal requirements is included (\$250,000).

III. Tuition and Fees

- A. Columbus Campus resident undergraduate
 - B. Regional Campuses
 - C. Tuition for Other Students
 - D. Historical Resident Undergraduate Tuition
 - E. Comparison of OSU and Other Ohio Public Universities
 - F. Comparison with Benchmark Universities
 - G. User Fees
- A. Columbus Campus resident undergraduate instructional and general fees will not increase Fall Quarter 2007, per Amended Substitute House Bill (ASHB) 119.
- For Tier-Three students (students admitted Summer 2003 and after), this means full-time instructional and general fees will remain at \$8,406 for a three-quarter academic year.
 - For Tier-Two students (students admitted between Summer 2002 and Spring 2003), full-time instructional and general fees will remain at \$8,298.
 - Effective Fall 2007, Tier-One students (students admitted before Summer 2002) are now included in the Tier-Two level and Tier-One will be eliminated.
 - When the increased RPAC fee is included, the Autumn Quarter 2007 fees for Tier-Three full-time students will be \$8,676, an increase of \$9 or 0.1% over Autumn Quarter 2006.
 - Savings to a typical student resulting for the 0% increase in instructional and general fees compared to a 6% increase would be \$1,541 over two years.

July 13, 2007 meeting, Board of Trustees

Aggregate savings to all undergraduate students over the same period would be \$55.4 million.

B. Regional Campuses will not increase undergraduate instructional and general fees Fall Quarter 2007, per ASHB 119. The non-resident undergraduate and graduate instructional fees will increase 6% for FY 08.

C. Tuition for Other Students

- Resident graduate instructional fees for the Columbus Campus are recommended to increase 6% for a full-time student. Including the general fee and the increase in the RPAC Fee, graduate fees will increase 5.7%.
- Non-resident graduate and undergraduate fees for the Columbus Campus are recommended to increase 6% for a full-time student.

D. Historical Resident Undergraduate Tuition

The 0% tuition growth in FY 2008 will be the first time since 1987 that resident undergraduate tuition has not increased. It is the lowest two-year tuition increase since 1965/1966.

Year	Resident Undergraduate Tuition	Percent Change
1960	\$270	0.00%
1961	\$300	11.10%
1962	\$300	0.00%
1963	\$330	10.00%
1964	\$375	13.60%
1965	\$375	0.00%
1966	\$375	0.00%
1967	\$450	20.00%
1968	\$480	6.70%
1969	\$510	6.30%
1970	\$600	17.60%
1971	\$630	5.00%
1972	\$720	14.30%

E. Comparison of OSU and Other Ohio Public Universities

Tuition at OSU will still be lower than most other Ohio public universities with competitive admissions.

University	Fall 2007 Full-time Resident Undergraduate Tuition & Fees (New Students)	Difference with Ohio State Tuition (per student)
Miami	\$10,042	\$1,375
Cincinnati	\$9,399	\$732
Average	\$9,156	\$489
Bowling Green	\$9,060	\$393
Ohio University	\$8,847	\$180
Ohio State	\$8,667¹	
Kent State	\$8,430	-\$237

¹OSU figure does not include the RPAC increase of \$9.

Our resource difference: \$489 X 30,000 FTE = \$14.7 million

Source: Ohio Board of Regents, Fall Survey of Student Charges For Academic Year 2006-2007

F. Comparison with Benchmark Universities

The 0% increase in tuition at OSU will put us far below the percentage increases of our benchmark institutions. In dollars, our tuition will be just above the average tuition costs of our benchmarks.

July 13, 2007 meeting, Board of Trustees

Proposed Tuition Increases at Benchmark Universities - Fall 2007

Institution	% Increase	FY 2008	Status
Penn State ¹	5.6%	\$12,851	Proposed
Michigan ²	TBD	TBD	Proposed
Illinois	8.6%	\$10,730	Final
Minnesota ³	4.6%	\$9,598	Proposed
Ohio State⁴	0.1%	\$8,676	Final
UCLA ⁵	8.0%	\$7,713	Final
Texas - Austin	0.5%	\$7,670	Final
Wisconsin ⁶	TBD	TBD	TBD
Washington - Seattle	6.4%	\$6,367	Final
Arizona	5.9%	\$5,048	Final
Benchmark Average ⁷	5.7%	\$8,568	

Source: Resource Planning review of institutional web sites and newspaper articles. Proposed Estimates are subject to change until final approval.

¹ Final tuition rates for 2007-2008 are in the process of being determined by the state legislature. Information in the chart is from the Office of Student Aid: *Estimated Penn State 2007-08 First-Year Undergraduate Costs*, based on the budget Penn State anticipated submitting to the General Assembly of the Commonwealth of Pennsylvania. Final tuition and fees will be determined by the Board of Trustees in July, 2007, following approval of the University's state appropriation by the Commonwealth.

²For the University of Michigan-Ann Arbor, the final tuition rates for 2007-08 are in the process of being determined by the state legislature. Per campus representative, the % increase is expected to be less than 10%.

³According to the June 7, 2007, *University of Minnesota, President's Recommended Operating Budget Plan 2007-08*. Includes university and student service fees. Per the University of Minnesota's website, their Board of Regents has just approved a tiered tuition increase. For families with income at or below \$150,000, the tuition increase will be 2.4%. For families with income greater than \$150,000, the tuition increase will be 4.8%. Final rates based on this change are not available at this time.

⁴OSU tuition and fees for students entering after Spring Quarter 2003. Includes the \$27 COTA Fee and the \$243 Mandatory Recreation Fee (this fee is outside the state fee cap).

⁵For the University of California-Los Angeles, figure includes the \$675 Mandatory Medical Insurance Fee, which many students get waived by showing they have other coverage. The university has traditionally included in its costs as reported on national surveys.

⁶For the University of Wisconsin-Madison, the final tuition rates for 2007-08 are in the process of being determined by the state legislature.

⁷Benchmark Average exclude OSU figure.

G. User Fees

- 1) Supplemental Instructional Fees - In June, the first reading for Supplemental Fees was presented. We are seeking Board approval for these fees contained in Appendix A.
- 2) In-House Project Management Fees - These recommendations include increases in the In-House Project Management Fee for capital projects as described below. These increases are necessary to support sufficient staffing to properly oversee multiple contractors and meet state and university requirements. The increased fees apply to new projects only and will be re-evaluated at the end of two years. We are seeking Board Approval for these fees.

	OSU Historical Fees	OSU Proposed Fees
In-House Design Fee	7%	7%
In-House Project Management Fee		
Up to \$100K	4%	6%
\$100,001-\$200,000	3%	3%
\$200,001-\$1M	2%	**
\$1M-\$4M	1%	2%
\$4M-\$5M	1%	2%
\$5M-\$10M	1%	2%
\$10M-\$20M	1%	2%
\$20M+	1%	2%
State Funds	1.5%	1.5%
Studies	1%	1-3%

** Fee would be 3% for under \$500,000 and 2% for over \$500,000

- 3) Differential Fees: In June, the first reading for the differential fees was presented. We are seeking Board approval for these fees contained in Appendix B. The fees range from a 6% to 13% increase for specific students.
- 4) In June, the Board passed a resolution approving the University Health Systems 7.6% weighted average increase in charges at the June 1, 2007 meeting.
- 5) Designated User Fees - The Fees and Charges listed below are required to provide activities and services which are self-supporting and receive no state support or tuition dollars and were approved by the Board at the June 1, 2007 meeting:

Fees and Charges

(All figures are for an academic year of three quarters)

Mandatory for All Students	Current Amount	Dollar Increase	Percent Increase
Recreation Fee ¹	\$234	\$9	3.8%
Health Insurance ²	\$1,365	\$69	5.0%
COTA Bus Pass	\$27	0	0.0%

Non-Mandatory	Current Amount	Dollar Increase	Percent Increase
Room & Board ³	\$7,236	\$345	4.7%
Parking ⁴	\$72	\$3.60	5.0
Football Tickets ⁵	\$116	\$4	3.5
Basketball Tickets ⁶	\$11	\$.50	4.5

IV. Columbus Campus General Fund Budget Recommendations

- A. FY 2008 Budget Assumptions
- B. FY 2008 Sources and Uses
- C. Additional Budget Highlights
- D. Increased Support by Area of Focus

¹ This is a flat fee for four credit hours and above.

² Based on "Single Student Comprehensive Rate".

³ Weighted average room rates and basic meal plan. Individual rates may vary.

⁴ Rate is for West Campus.

⁵ Student football package is 4 games.

⁶ Per game – price varies between \$9.50-13.50 depending on location

Strategic Investment (8)			<u>37.5%</u>
Total Uses			4.2%

Sources less Uses

(1) Based on Conference Committee Budget. Subsidy at 102% plus \$9.3M, includes Success Challenge does not include Research Challenge which is now treated as a restricted line item.

(2) FY 08 fees assume 0% base increase for UG Resident. The \$5M increase results from phasing out Tier 1 and projected UG Resident enrollment increase. (Fee Tier 1: full-time continuing undergraduates first enrolled prior to Summer 2002, phased out effective Autumn 2007. Any remaining students moved to Fee Tier 2).

(3) FY 08 fees assume 6% increase for UG Non-Resident, Graduate & Professional, and includes \$2.48M in differential fee income.

(4) Does not include \$10.1M in FY 07 undistributed fees to be distributed in FY 08.

(5) Includes Earnings and Regional Campus Overhead and Cost Containment.

(6) Assumes a minimum salary increase pool for faculty and staff of 3.5% and benefit cost increase of 9.6%.

(7) Reflects 9.9% increase in net utility bills.

(8) Was originally budgeted at \$38.2M in FY 07. \$7.1M has been transferred to fund strategic investments in college departmental budgets. This category includes the Provost's and President's Strategic Investments funds and University Reserves.

C. Additional Budget Highlights

1. This budget includes \$9 million in one-time funds and \$1 million in continuing funds to support Phase II of V of Targeted Investments in Excellence. The total commitment is \$50 million over the next five years.
2. Due to a growing interest in high quality public education, the entering freshman class is expected to be 6,150. This is factored into the enrollment

and revenue estimates. In addition, increased retention rates have been taken into account.

3. To ensure a robust University Development effort, this budget recommends a revised model for funding Development. The model was developed in conjunction with the Council of Deans, Office of Academic Affairs, the Office of University Development and the Office of Business and Finance. The model assumes a FY 08 endowment payout in support of development of 1.075% or about \$13 million. The payout is recommended to be reduced by .025% in FY's 09, 10 and 11 to reach a recommended permanent endowment support of development level of 1%. The colleges and support units will increase their support of development by \$1.8 million and an estimated \$1.6 million in interest earned on unspent endowment distributions and current use gifts. These recommendations in combination with the 180-day hold on current-use gifts and the revenue from the first six months of new endowments distribution, both already in place, along with the revenue from existing unrestricted gift money and endowments set aside for the support of development, will reduce the FY 08 continuing general fund support of development to \$2.4 million while providing a stable funding base for our current level of development efforts.
4. Included in the FY 2008 is the carryover of approximately \$10 million in additional revenue received in FY 2007 due to higher than anticipated enrollment and retention rates. Please note that it is not anticipated that this level of carryover will continue for FY 2009. It is projected that the percentage increase in revenue in FY 09 will be slightly less than the percentage increase for this year.
5. In FY 2007 and 2008, the university invested in STEM related research at the college level through its contribution to the TIE. In FY 2008, the investment of one-time central funds in STEM will continue at the department level. For instance, a \$460K investment will be made in the Research Experience to Enhance Learning (REEL) Program. REEL's goals are: 1) to transform the current 1st and 2nd year Chemistry courses into research-intensive, 2) to increase the retention and graduation rates in STEM fields; and, 3) to generate new knowledge in the chemical sciences through multi-site faculty-student collaborative research projects that pool their results in a common data base. The REEL program will dramatically enhance the education of undergraduates who take chemistry, either as a major or as a prerequisite for medicine, biology or engineering.
6. OSU Facilities and Administrative Recovery Rate on most federal research grants has been approved at 50.0% effective July 1, 2006 through June 30, 2009. By FY 2009 this will generate an additional \$1 million in cost recoveries annually. However, even with this higher recovery rate, there is only a slight increase in recoveries projected for FY 08 as a result of the federal government's flat funding of research.
7. The status of the items highlighted as Items of Concern for the Senate is as follows:
 - (a) Maintain net funding levels at least as favorable as the House version - Done
 - (b) Clarify funding and language issues regarding Innovation Incentives - Vetoed
 - (c) Address what happens to tuition if state support is not forthcoming - Not Addressed

(d) Clarify efficiency incentive requirements - Done

D. General Funds Increased Support by Area of Focus

Central discretionary funds of \$4.8 million in continuing funds and \$32.4 million in one-time funds are recommended to seed University-wide initiatives that cross college boundaries and strengthen core support services. This chart does not include over \$5.3 million which will be reallocated from current uses to fund priority initiatives.

New Continuing Funds	
Services to Students	\$1,632,000
Research Support	1,350,000
All Other ¹	713,000
Safety and Security	534,000
Library Support	500,000
Facilities Support	52,000
Compliance	0
Total	\$4,781,500
One-Time Funds (cash support)	
Research Support	\$16,400,000
Services to Students	9,288,000
Safety and Security	2,600,000
Facilities Support	1,290,000
Compliance	1,016,000
Academic Programs	1,010,000
Outreach and Engagement	500,000
All Other ¹	480,000
Library Support	250,000
Total	\$32,834,000

¹ The All Other category contains funding for President's Operating (continuing funds), E-Procurement (continuing and one-time funds), Financial Archiving (continuing funds) and the Women's Place (continuing funds).

V. Regional Campuses

Recommended resident undergraduate tuition levels for the regional campuses are consistent with the legislatively mandated 0% tuition freeze.

VII. Resource Allocations Should Advance Effective Financial Stewardship

- A. Compliance with State and Federal Mandates
- B. New Cost Savings Initiatives
- C. Financial Goals

A. FY 08 Additional Funds Allocated to Assure Compliance with State and Federal Mandates, Columbus Campus

	Continuing	One-Time
Safety Engineer	\$80,000	\$0
Human Subjects	\$250,000	\$0
Disability Services	\$13,000	\$25,000
Audit Committee Consultant	\$0	\$800,000
EPA Compliance	\$0	\$180,000
Federal Contract Compliance Audit	\$0	\$36,000
Total	\$343,000	\$1,041,000

B. New Cost Savings Initiatives

This budget request includes funding for three continuing cost reduction initiatives summarized below:

Transition to Work (OHR) - This plan is modeled after successful efforts elsewhere that demonstrate savings to employers in Worker's Compensation costs and significant benefits to employees by returning employees with temporary medical or psychological restrictions to work sooner. This requests funds year 2 of 3 of this initiative. The investment of \$241,000 is expected to save between \$1.5 - \$2.8 million annually.

Energy Projects (FOD) - The rising cost of energy has made it cost effective to enhance conservation efforts and explore alternative energy sources across campus. This request

July 13, 2007 meeting, Board of Trustees

includes \$250,000 in one-time funds to enable the Energy Services and Sustainability group to provide leadership and coordination and approval of project proposals targeted at reducing energy costs. This is the second year that funding has been provided to address energy conservation.

E-Procurement (Business and Finance) - This request includes funding for the continued implementation of the E-Procurement System in order to reduce costs for the purchase of goods and services and to improve the internal controls surrounding the procurement processes. This will allow for an improved bidding and negotiation position with vendors, streamlined central purchasing processes to focus on strategic purchasing and contract management. Included is \$285,000 in continuing funds and \$480,000 in one-time funds.

Before funds are released, the sponsoring unit will be expected to complete a detailed work plan that includes deliverables and measures of success. Outcomes will be reported to the University community and the Board of Trustees at the September meeting.

C. Financial Goals For FY 2008

The table below outlines the financial goals and targets that were originally approved by the Board in 1997. The Office of Business and Finance is currently reviewing the financial targets and will be presenting a recommendation for revised targets to the Board in September.

	FY 2007	FY 2008	Long-Term Target
Operating Margin ²¹	0.46%	0.88%	0.5 - 1.0%
Rainy Day Fund	\$12.5M	TBD	\$25M
Other Reserves	Varies	Varies	Varies
Operating Cash	60 days	70 days +	30 days+
All Funds Debt Service as a % of Total	2.13%	3.31%	Less than 5.0%
Bond Rating	AA	AA	AA
Future Commitments of Continuing Funds	\$11.9M	\$9.4 M	No more than 1% ²²

VIII. Conclusions

- A. Chronology - What Happens Next
- B. Financial Issues for FY 2008
- C. Summary

A. What Happens Next

September

- Current Funds Budget Books
- Expense Reduction Update
- Capital Plan Approval
- New Financial Goals Recommendations

November

- Year-End Financial Review
- First Quarter Budget Report/Risk Assessment

²¹ Includes budgeted operating margin, utility and enrollment reserves.

²² One percent of the FY 08 Revenue is \$11.4 million.

July 13, 2007 meeting, Board of Trustees

December

Energy Management and Sustainability Report

February

Mid-Year Review
Budget vs. Actual

B. Financial Issues for FY 2008

1. Engaging with state officials to develop a long-term, sustainable academic and financial partnership
2. Implementing the reduction of undergraduate credit hours needed to graduate from 191 to 181 and development of a plan to address financial implications
3. Implementing the doctoral funding assessment to support high quality graduate programs
4. Continued development of an enterprise-wide risk management structure.
5. Approval of the Next Capital Plan for the University and the development of the North Academic Corridor as a new approach to capital planning for OSU
6. Review investment performance of all assets
7. Implementation and tracking of key cost reduction initiatives
8. Continue to strengthen internal controls through the implementation of E-Procurement and Human Resources controls
9. Continue to monitor financial performance of affiliated entities
10. Oversight of SIS installation
11. Completion of five-year financial plan
12. Review of Budget Allocation Model to determine consistency with academic goals
13. Continue to identify funding sources to address deferred maintenance issues
14. Evaluation of sources, uses and cost allocation processes regarding support of research
15. Monitoring FY 2008-FY 2009 state revenue trends/planning for FY 2009

C. Summary

1. This budget supports the priorities of the Academic Plan/Leadership Agenda.
2. Revenue assumptions are reasonable and in compliance with state law.
3. Best news financially for resident undergraduate students in 40 years, but depends on the state meeting its commitments regarding funding support.

July 13, 2007 meeting, Board of Trustees

4. Expenses are fully funded and within available revenues.
5. Financial Stewardship is strengthened.
6. Next steps and strategic issues for the next budget cycle have been identified.

IX. Appendices

- A. Supplemental Instructional Fees
- B. Differential Fees

Appendix A

Degrees Conferred at

THE OHIO STATE UNIVERSITY
COMMENCEMENT CONVOCATION

August 26, 2007

COMMENCEMENT ADDRESS

Michael F. Curtin

Michael F. Curtin is vice chair and chief operating officer of The Dispatch Printing Company and associate publisher of *The Columbus Dispatch*.

A native of Columbus, Mr. Curtin is a graduate of The Ohio State University School of Journalism, now the School of Communication. He began his career with *The Dispatch* in 1973 as a general assignment reporter. For 18 years—most of his reporting career—he specialized in the coverage of state and local government and politics. His beats included Columbus City Hall, Franklin County government, the Ohio General Assembly, and local and state political campaigns.

In 1985, Mr. Curtin became the newspaper's chief political writer and director of the Dispatch Poll. In October 1994, he was named executive managing editor. He was promoted to editor in

December 1995 and associate publisher in July 1998.

Mr. Curtin was named president in January 1999, COO in January 2002, and vice chair in January 2005. Dispatch Printing is the umbrella company for the newspaper, WBNS10-TV, 97.1 FM and 1460 AM radio stations, *This Week* newspapers, On-Target Marketing/The Bag, and WTHR-TV in Indianapolis.

He is the author of *The Ohio Politics Almanac*, 1st and 2nd editions, published by Kent State University Press.

Mr. Curtin currently serves on the boards of the Greater Columbus Chamber of Commerce, Mt. Carmel Health System, YMCA of Central Ohio, the Columbus Metropolitan Library Foundation, and the Catholic Foundation of the Columbus Diocese.

RECIPIENTS OF HONORS

David J. Gross

Doctor of Science

Nobel laureate David J. Gross is the Frederick W. Gluck Professor of Theoretical Physics and director of the Kavli Institute for Theoretical Physics at the University of California-Santa Barbara.

A native of Washington, D.C., he received his bachelor's and master's degrees from the Hebrew University of Jerusalem and his doctorate in physics from the University of California-Berkeley, followed by a fellowship at Harvard. He began his teaching career at Princeton University in 1969 and was named professor of physics in 1977, then Eugene Higgins Professor of Physics in 1986 and Thomas Jones Professor of Mathematical Physics in 1995. He joined the faculty of the University of California-Santa Barbara in 1997, where he remains today.

In 1973, Professor Gross, working with his graduate student, Frank Wilczek, at Princeton, discovered asymptotic freedom, which holds that the closer quarks are to each other, the less the strong interaction, or color charge, is between them, and they behave almost as free particles. Asymptotic freedom, independently discovered by David Politzer, was important for the development of quantum chromodynamics. Along with Wilczek and Politzer, Professor Gross was awarded the 2004 Nobel Prize in Physics.

He has made seminal contributions to the theory of superstrings, taking a critical role in the explosive development of string theory in the 1980s, bringing gravity into the quantum framework. With collaborators, he originated the "heterotic string theory," the prime candidate for a unified theory on all the forces of nature. He continues to do

research in this field at the Kavli Institute, the world center of string theory.

In addition to the Nobel Prize, Professor Gross has received numerous awards for his work, including the J.J. Sakurai Prize of the National Academy of Science, a MacArthur Foundation Fellowship, the Dirac Medal, Stockholm University's Oscar Klein Medal, the Harvey Prize of the Technion, the European Physical Society Prize in Elementary Particle Physics, and the Grande Médaille D'Or of the French Academy of Science.

He is a fellow of the American Physical Society, the American Academy of Arts and Sciences, the American Association for the Advancement of Sciences, and the Indian Academy of Science, and a member of the National Academy of Science and the American Philosophical Society.

Orlando L. Taylor

Doctor of Higher Education

Orlando L. Taylor is vice provost for research, dean of the Graduate School, and professor of communications at Howard University in Washington, D.C.

Dr. Taylor holds a bachelor's degree from Hampton University, a master's degree from Indiana University, and a doctorate from the University of Michigan. He joined Howard University's faculty in 1973 as a graduate professor and department chair in Communication Arts and Sciences/Communication Sciences and Disorders. He has since served as Howard's School of Communications' dean from 1985 to 1993, as executive assistant to the president in 1994, and as interim vice president for academic affairs from 1994 to 1995. He became dean of the Graduate School in 1993 and vice provost for research in 2005.

As dean, he has played a significant role in assuring Howard's continued national leadership in graduate education. Howard

produces more African American Ph.D. recipients than any other research university in the nation, and Dr. Taylor has been a vigorous advocate and spokesperson on topics and issues relating to access and equity in higher education.

He has raised several million dollars in research, training, and program development grants from federal and private sources during his tenure at Howard. Currently, he serves as principal investigator on major grants from the National Science Foundation to increase the production of minority Ph.D. recipients in science, technology, mathematics, and engineering (STEM) and in the social, behavioral, and economic sciences as well as from the U.S. Department of Education to develop collaborative academic and research programs between universities in Brazil and in four European Union countries with those in the United States.

Dr. Taylor is currently or has served previously as a member of numerous national boards, including the board of directors of the Council of Graduate Schools, for which he served as board chair in 2001. He is also a past president of the Northeastern Association of Graduate Schools, the National Communication Association, and the Council of Social Science Associations. He is a former member of the Advisory Committee of the Directorate for Education and Human Resources of the National Science Foundation and of an advisory council at the National Institutes of Health. He is a current member of the board of trustees of the University Corporation for Atmospheric Research and the Oak Ridge Associated Universities and chairs the National Advisory Board for the Center for the Integration of Research, Teaching, and Learning, a major NSF-funded center at the University of Wisconsin.

RECIPIENTS OF HONORS

Ted A. Beattie

Distinguished Service Award

Ted A. Beattie has been president and chief executive officer of Chicago's John G. Shedd Aquarium since 1994. Shedd is the highest-attended aquarium of its kind in the nation with more than two million visitors each year.

Born in Salem, Ohio, Mr. Beattie earned his bachelor's degree in journalism and his master's degree in public relations at The Ohio State University. He started his zoo and aquarium career as the Cincinnati Zoo's first marketing and development director in 1981, followed by positions as associate director of Chicago's Brookfield Zoo, executive director of the Knoxville Zoological Gardens, and director and CEO of the Fort Worth Zoological Park.

At the Shedd Aquarium, he is responsible for the overall management of the aquarium and its operating divisions, including programs, research, development, finance, and operations. Under his leadership, the aquarium has deepened its

commitment to education while embarking on one of its largest-ever expansion projects—a new wing that houses the \$45 million Wild Reef, featuring one of the largest and most diverse shark exhibits in North America.

Appointed by President George W. Bush to the 16-member U.S. Commission on Ocean Policy, he has helped craft reform recommendations on a range of issues, from stewardship of marine resources and pollution prevention to enhancing marine science, commerce, and transportation. On a national level, Mr. Beattie has been an active member of the American Zoo and Aquarium Association, having served as president of the 6,000-member professional organization.

Mr. Beattie's ties to his alma mater have remained strong. As a past chair of the Alumni Association Board of Directors, he guided the association through the early stages of an organizational transition. He

served on the Provost's External Advisory Board on Teaching and the advisory board for the School of Communication. In 2002, Mr. Beattie played an integral role in establishing a strategic communications program within the School of Communication. In addition, he serves on the Chicago Major Gifts Committee.

As a member of the "Affirm Thy Friendship Campaign" National Major Gift Committee, Mr. Beattie played a leading role in strengthening partnerships among Chicago-area alumni and friends of Ohio State, opening the Shedd Aquarium on occasion for campaign events.

He is the recipient of The Ohio State University's School of Communication's Distinguished Alumni Award and the American Zoo Association's Merlin Perkins Award for Lifetime Achievement and Professional Excellence, and he was named Chicago's Chief Executive Officer of the Year in 2006.

Judith E. Tuckerman

Distinguished Service Award

Judith E. Tuckerman is a leader in the Columbus philanthropic community and a longtime supporter of The Ohio State University.

A 1964 graduate of Ohio State with a bachelor of science in education, Mrs. Tuckerman has played a leading role in strengthening her university, in particular the Wexner Center for the Arts and the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute. She has served on the Wexner Center Donor Circles Council since its 1990 inception, acting as chair since 1992, and her efforts have resulted in a more than 400% increase in membership and more than \$5 million in gifts through the Donor Circles program alone.

She continues to be an invaluable member of the Wexner Center's annual Anniversary Gala planning committee, and she and her family have established the

Tuckerman Family Endowment for Children's Programs, which sustains and enhances the center's ongoing educational programs.

Mrs. Tuckerman has served as a trustee for the James Foundation Board since 2002, actively assisting in volunteer recruitment and fund-raising strategies. Her advocacy and support were instrumental in launching the James Fund for Life, the first effort by the community to support the James on an annual basis. She and her husband, Stew, have co-chaired the hospital's very successful annual Celebration for Life fund-raising event since its inception. The Tuckermans have also created the Tuckerman Family Breast Cancer Research Endowment to support and advance breast cancer research at the James, and, in 2002, they served as honorary chairs of Stefanie's Champions, benefiting the Stefanie Spielman Fund for

Breast Cancer Research. Together they chair the James Cancer Hospital campaign, and they have agreed to co-chair the upcoming Ohio State University Medical Center's "Power to Change Lives" campaign.

Equally dedicated to the greater Columbus community, Mrs. Tuckerman has given her time and expertise to the YWCA, Race for the Cure, the Columbus Montessori Education Center, the Columbus Jewish Federation, the Columbus Coalition Against Family Violence, and the American Cancer Society, among others.

She is the recipient of Ohio State's Gerlach Award for her volunteer service and was named one of the YWCA's Women of Achievement in 2003 and Outstanding Volunteer Fundraiser by the Central Ohio chapter of the Association of Fundraising Professionals in 2004.

Master of Science

Jacob James Adams, Dublin
B.S.E.C.E.
*Electrical and Computer
Engineering*

Michael Daniel Arnett,
Ontario
B.S.M.E.
Mechanical Engineering

Stacy Lynn Baker, Galloway
B.S.Al.Hth.Prof.
Allied Medical Professions

**Denitza Svetoslavova
Bantchevska**, Sofia,
Bulgaria
B.B.A. (Franklin University)
Human Ecology

Commencement Convocation, August 26, 2007

Weichao Bao, Columbia, SC
Bachelor's (Shandong
Agricultural University)
Master's (China Agricultural
University)
Veterinary Biosciences

Maria Soledad Benitez,
Quito, Ecuador
Licence (Pontificia Universidad
Católica del Ecuador)
Plant Pathology

Aditi Bhatiya, Columbus
B.S. (Denison University)
Microbiology

Cynthia Jane Black,
Westerville
B.S. (Michigan State
University)
Food Science and Nutrition

Janice Duncan Bourke,
Columbus
B.A.
Allied Medical Professions

Kevin Martin Brueggemeier,
Pemberville
B.S.Agr.
Animal Sciences

Brian Keith Castle, Columbus
B.S.M.E.
Nuclear Engineering

Casey Lynne Cavanaugh,
Spring Creek, NV
B.S. (Idaho State University)
Allied Medical Professions

Zbigniew ChajECKi, Lomza,
Poland
Diploma (Warsaw University of
Technology)
Physics

Tanmoy Chowdhury,
Kolkata, India
B.C.E. (Jadavpur University)
Civil Engineering

Lauren Renee Cloyes,
Strongsville
B.S.Nurs.
Nursing

Stephanie Karen Collins,
Hamilton
B.S.Mat.Sc.Eng.
*Materials Science and
Engineering*

Beau Christopher Corkins,
San Luis Obispo, CA
B.S. (California Polytechnic
State University - San Luis
Obispo)
Statistics

Joel Michael Cowgill,
Worthington
B.S.M.E. (Clemson University)
Mechanical Engineering

Valerie Corinne Crane,
Lebanon
B.S.Biology (Miami University,
Oxford Campus)
*Evolution, Ecology, and
Organismal Biology*

Donnell Eugene Crear,
Mason
B.S.M.E.
Mechanical Engineering

Angela Sue Dann, Marathon,
NY
B.S. (Hobart and William
Smith Colleges)
Chemistry

Taniya Dhillon, Ludhiana,
India
B.S.Agr. (Punjab Agricultural
University)
Horticulture and Crop Science

Kadriye Deniz Duman, Izmir,
Turkey
B.S. (Bogaziçi Üniversitesi)
Physics

Katherine Louise Dykes,
Columbus
B.S.E.E. (University of
Pennsylvania)
*Agricultural, Environmental
and Development
Economics*

**Sleiman Khaled El Hage
Ghonein**, Chitoura,
Lebanon
B.S.E.C.E.
*Electrical and Computer
Engineering*

Meng Fan, Columbus
B.S. (Luoyang Institute of
Technology)
M.S. (Beijing Institute of
Technology)
Statistics

Kathleen Donovan Farrell,
Waukegan, IL
B.S.A.A.E. (University of Notre
Dame)
Mechanical Engineering

Lisa Fiorentini, Falconara
Marittima, Italy
Engineer (Università
Politecnica delle Marche)
*Electrical and Computer
Engineering*

Kenneth Michael Follen,
Strongsville
B.S.M.E.
Mechanical Engineering

Alexia Renee Fountain,
Zanesville
B.S.M.E. (University of
Cincinnati)
Mechanical Engineering

Jill Ann Gevin, Cochranton,
PA
B.S.Food Sc. (Pennsylvania
State University)
Animal Sciences

Arimdam Ghatak,
JamsheDpur, India
B.Tech. (Indian Institute of
Technology, Kharagpur)
Mechanical Engineering

Dianne Henry Glass,
Columbus
B.S., B.A. (Rice University)
Biomedical Engineering

Leonid Glimcher, Moscow,
Russia
B.S.C.S.E.
*Computer Science and
Engineering*

Bret Michael Graves,
Columbus
B.S.Bus.Adm.
Natural Resources

Bonnie Lynne Grimaldi,
Pickerington
B.S.Med.Tech. (University of
Akron)
Human Ecology

Jaideep S. Gupte, Amherst,
MA
B.Engr. (University of Mumbai,
India)
M.S. (University of South
Florida)
*Industrial and Systems
Engineering*

Nicholas Johann Harmon,
Berea
B.A. (College of Wooster)
Physics

Commencement Convocation, August 26, 2007

Patricia G. Harp, Dublin
B.A. (University of Michigan,
Ann Arbor)
Human Ecology

Ann Dingee Hatch, Lewis
Center
B.S.A.I.Hth.Prof.
Allied Medical Professions

Emily Elizabeth Hawthorne,
Cincinnati
B.S.M.E. (University of Notre
Dame)
Mechanical Engineering

Paul Anthony Heimberger,
Worthington
B.A. (Malone College)
Environmental Science

Edward David Herderick,
Pickerington
B.S.Mat.Sc.Eng.
*Materials Science and
Engineering*

Inggrayani Herlambang,
Pekalongan, Indonesia
B.S. (Oregon State University)
Food Science and Nutrition

Humberto Herrera, Juarez,
Mexico
B.S.I.E. (Universidad de
Juárez)
*Industrial and Systems
Engineering*

Michael Heskamp,
Wadsworth
B.S.M.E.
Mechanical Engineering

Caryn Mari Hoerst, Harrison
B.S.Agr.
*Human and Community
Resource Development*

Terri Lynn Holland,
Westerville
B.S.Occ.Ther. (Wayne State
University)
Allied Medical Professions

Kenji Hosoya, Yamagata,
Japan
D.V.M. (Hokkaido University)
Veterinary Clinical Sciences

Kaixuan Hu, Yuncheng,
P.R.C.
B.Engr. (Tsinghua University)
Mechanical Engineering

Jianming Huang, Wuhan,
P.R.C.
B.S. (Wuhan University)
M.S. (Peking University)
Mathematics

Diana D. Jolles, Colebrook,
NH
B.A. (Reed College)
*Evolution, Ecology, and
Organismal Biology*

Natalie Beckman Jones,
New Albany
B.A.(Honors) (University of
Virginia)
M.D.
Medical Science

Brian Alan Kalb, Cincinnati
B.S.A.A.E.
Mechanical Engineering

Nasser Hussam Kashou,
Dublin
B.S.E.C.E., M.S.
Biomedical Engineering

Heather Anne Katafiasz,
Delaware
B.S. (Ohio Wesleyan
University)
Human Ecology

Erica Lynn Keller-Brown,
Baltimore
B.S.Nurs.
Nursing

Erika Nicole Kimble, Powell
B.S.Nurs., M.A.
Nursing

Santhosh Kumar Koduri,
Sultanabad, India
B.Tech. (Jawaharlal Nehru
Technological University)
M.S. (South Dakota School of
Mines and Technology)
*Materials Science and
Engineering*

Ramkrishnan Kulathumani,
MaladWest, Mumbai, India
B.Engr. (University of Mumbai)
*Computer Science and
Engineering*

Ana Lara Garcia, Columbus
B.S., D.Vet.Med.Prof.
(Universidad de Las
Palmas de Gran Canaria)
Veterinary Clinical Sciences

**Jacqueline Christine
Lieblein**, Greenville, SC
B.S.
*Ohio State Biochemistry
Program*

Amith Rajith Mamidala,
Hyderabad, India
B.Tech. (Indian Institute of
Technology, Madras)
*Computer Science and
Engineering*

Sivom Manchiraju,
Rishikesh, India
B.Tech. (Jawaharlal Nehru
Technological University)
Master's (Michigan State
University)
Mechanical Engineering

Lawrence Anthony Mangan,
Beavercreek
B.S.M.E.
Nuclear Engineering

Erin Theresa Marino, Dover
B.S.Agr.
Veterinary Clinical Sciences

Samir M. Mehta, Cincinnati
B.S.M.E. (Pennsylvania State
University)
Mechanical Engineering

Rohit Menon, Harrisburg, PA
B.Engr. (Anna University,
India)
Mechanical Engineering

Paul Arthur Messman,
Manitowoc, WI
B.S. (University of Wisconsin -
Stevens Point)
Nuclear Engineering

Isaac Fernando Meta,
Buenos Aires, Argentina
D.D.S. (Universidad de
Buenos Aires)
Oral Biology

Jeremy John Morris,
Columbus
B.S. (Bowling Green State
University)
M.A.
*Computer Science and
Engineering*

Mitali Mukherjee, Mumbai,
India
B.Pharmacy (University of
Mumbai)
Pharmacy

Commencement Convocation, August 26, 2007

Mark B. Murphey, Gurnee, IL
B.S. (University of Illinois,
Urbana-Champaign)
Physics

Aaron Clyde Naber, Roca,
NE
B.S. (University of Nebraska at
Lincoln)
Animal Sciences

Jason S. Nasse, Bradford, VT
B.S. (University of
Southwestern Louisiana)
Biophysics

Laura Louise Nelson, Bolivar
B.S., D.V.M.
Veterinary Clinical Sciences

Gilbert M. O'Connor, Shaker
Heights
B.S. (University of Dayton)
Geological Sciences

Steve Onyeka Oghumu,
Benin City, Nigeria
B.S. (Ahmadu Bello
University)
Microbiology

Theodore Paul Pavlic,
Westerville
B.S.E.C.E.
*Electrical and Computer
Engineering*

Ian Johansen Pfefferle, Tiffin
B.S.C.E.
Civil Engineering

Hector Ricardo Santiago,
Galloway
B.S.Nat.Res.
Natural Resources

Aparna Sathyanarayan,
Chennai, India
B.Tech. (University of Madras)
M.S.
*Evolution, Ecology, and
Organismal Biology*

Kevin Frederick Schaefer,
Elyria
B.S. (Xavier University)
Pharmacy

James Robert Schmidt,
Chicago, IL
B.S. (Saint Norbert College)
D.D.S. (Marquette University)
Dentistry

Travis H. Sefzik, Midway, PA
B.A. (Washington and
Jefferson College)
Chemistry

Shrenik Pankajbhai Shah,
Surat, India
B.Pharmacy (Gujarat
University)
Pharmacology

Shan Shan, SongYuan,
P.R.C.
B.Engr. (Tianjin University)
*Geodetic Science and
Surveying*

**Christopher Joseph
Shanahan**, Columbus
B.S.Agr.
*Agricultural, Environmental
and Development
Economics*

Luv Sharma, Allahabad, India
B.Tech. (Motilal Nehru
National Institute of
Technology)
*Mechanical Engineering;
Nuclear Engineering*

Bareena R. Silverman,
Columbus
B.A., B.S.
Entomology

Matthew Frank Sinfield,
Massillon
B.S.W.E.
Welding Engineering

Chad David Slick, Niles
B.S. (Kettering University)

University)
Social Work

Shannon Nicole Wood,
Pomeroy
B.A. (Ohio University)
Social Work

Certificate of Specialist in Medieval and Renaissance Studies

Mark Charles Rankin,
Columbus
B.S.Ed., M.A. (Ohio
University)
Ph.D.
English

Colleges of the Arts and Sciences

Executive Dean: Jacqueline J. Royster

The Colleges of the Arts and Sciences, a federation of five colleges, includes the College of the Arts, the College of Biological Sciences, the College of Humanities, the College of Mathematical and Physical Sciences, the College of Social and Behavioral Sciences, and Arts and Sciences students enrolled in interdisciplinary programs.

Bachelor of Arts

Alexandria Sharon Ahrendsen,
Madison, AL
Kikelomo Alexis Akeredolu,
Lagos, Nigeria
Michael Demetrios
Andromalos-Dale, Allison
Park, PA
Hanan Mohammad Babieh,
Karkouk, Iraq
John Ryan Baird, Morrow
Amy Michele Baker, Mansfield
Mokhtar Boye, Boghe,
Mauritania
Katherine Marie Britton,
Norwich
Casey Randall Brown,
Deerfield, IL
Brian David Chivington, St.
Marys
Jason Richard Dubois, Hilliard
Eric Benjamin Dunn, Solon
Robert Jonathan Emrich,
Shaker Heights
with Research Distinction
Michael D. Fraizer, Newark
Eric Michael Hepinstall,
Maumee
Laura Elizabeth Himsworth,
Columbus
Alexandria Christine Kramer,
Dublin
Cum Laude
with Honors in the Arts and
Sciences
Hussam Eldin Mohamed,
Khartoum, Sudan
Emily Katharine Muncie,
Middletown
Lauren Elizabeth Ovchinnikov,
Columbus
Clarissa Cheyanne Page,
Alamogordo, NM
Jana Eileen Pelter, Nevada
Kevin Harrison Rachlin,
Dayton
Alejandro F. Ramirez,
Brecksville

Leslie M. Reichbaum, North
Royalton
Jasmine Renee Sardari,
Gahanna
Leah Kathleen Schulte,
Columbus
Jalyn Ann Scott, Yellow
Springs
Michaeline Erin Sexton,
Columbus
Cum Laude
Michael Hillel Solomon,
Columbus
Elizabeth Rose Spellacy,
Cleveland
Shelli Marie Stepp, Ashtabula
Nancy Marie Striggow,
Bellevfontaine
Jessica Jo-An Stutzman,
Arvilla, ND
Justin Donald Turner,
Barnesville
Patricia Amber Waters,
Columbus
Christopher Paul Weyand,
Columbus
Ebru Yilmaz, Istanbul, Turkey

Bachelor of Science

James Kirk Cropcho,
Perrysburg

Associate of Arts

Katherine S. Austin, Mansfield
Campus
Troy Shannon Barker,
Mansfield Campus
Daniel Scott Barwick,
Mansfield Campus
Andrew J. Bates, Newark
Campus
Megan Marie Beers, Newark
Campus
Emily Marie Berning, Lima
Campus
Nathan Scott Biglin, Mansfield
Campus
Travis James Biglin, Mansfield
Campus
Kelly Ann Bosart, Newark
Campus
Tina L. Cabellero, Lima
Campus
Mark Anthony Capitano II,
Newark Campus
Sandra Carpenter, Mansfield
Campus
Cassandra Armeda Colliins,
Newark Campus
Obe Edward Costello,
Mansfield Campus
Harold Edward Crown III,
Newark Campus

Geoffrey Aaron Doute, Lima
Campus
Michael Lewis Downey II,
Lima Campus
Blake Alan Edwards,
Mansfield Campus
James Neil Elkins, Mansfield
Campus
Nathan Ryan Flowers, Newark
Campus
Megan M. Forster, Marion
Campus
Max Joseph Furbush, Marion
Campus
April A. Greear, Marion
Campus
Katie L. Green, Marion
Campus
James Irvin Hanna, Newark
Campus
Edgar A. Hernandez, Lima
Campus
Laura J. Hesson, Marion
Campus
Erika Marie Holly, Newark
Campus
Christine Patricia Horn,
Newark Campus
Abby Lynn Hostutler,
Mansfield Campus
Adria Michelle Jacobs,
Mansfield Campus
Courtney T. Johnson, Lima
Campus
Brittany R. Jones, Mansfield
Campus
Heather Ann Juzwiak, Marion
Campus
Emily Renee Keyes, Newark
Campus
Erin Nicole Koenig, Lima
Campus
Alicia Lee Mantz, Marion
Campus
Kayla Ann McCarty, Newark
Campus
Kevin Wayne McCleaary,
Marion Campus
Amber Joneal McCullough,
Lima Campus
Laura Elizabeth Miller, Marion
Campus
Jennifer L. Morris, Mansfield
Campus
Kacey Lee Neville, Newark
Campus
Stacy Nicole Niedermeier,
Mansfield Campus
Nathan Daniel Paykoff, Marion
Campus
Ashley Christine Perkins,
Newark Campus
Ryan Dean Perry, Lima
Campus
Brittany Renee Pocock,
Mansfield Campus
Jessica Ann Poulakis, Marion
Campus

Commencement Convocation, August 26, 2007

Amanda Elizabeth Riggans,
Mansfield Campus
Matthew James Rohn, Marion
Campus
Victoria Lynn Safarik,
Mansfield Campus
Nicholas B. Sammetinger,
Lima Campus
Brian John Schaefer, Newark
Campus
Corinthia L. Shupp, Mansfield
Campus
Raycene E. Spreng, Mansfield
Campus
Kyle Robert Stansbery, Marion
Campus
Rebecca Diane Sullivan,
Marion Campus
Benjamin J. Sunderhaus,
Lima Campus
Denisea Karen Taulbee,
Marion Campus
Amy Marie Walton, Marion
Campus
Jennifer Lynn Warner, Lima
Campus
Corinna D. Weber, Marion
Campus
Amanda Rae Wellman, Marion
Campus
Coriena S. Westler, Marion
Campus
Valerie Lynn Yonka, Newark
Campus

College of the Arts

Dean: Karen A. Bell

Bachelor of Arts

Jenny Chen, Worthington
Miranda Lauren Crowe,
Kenton
Sarah Louise Hancock,
Holland
Ryan Matthew Hemsoth,
Columbus
Dennis Wayne Ingle,
Cincinnati
Cum Laude
Christin Leigh King, Dayton
Tasha Ann Lewis, Shelby
Davina Dawn Little, Las
Vegas, NV
Nolan Andrew Martin, Powell
Michael Francis McKeivier II,
Circleville
Francis Ansano Nottoli,
Skokie, IL
Patricia Suzanne Oberle,
Aurora
Elizabeth Marie Pfennig,
Rochester Hills, MI

Drew Alexander Raitch, Upper
Arlington
Cory Sampliner, South Euclid
Magna Cum Laude
Michaeline Erin Sexton,
Columbus
Cum Laude
Jennifer Lenore Taggart,
Westerville

Bachelor of Fine Arts

Megan Nicole Rogish,
Sunbury
Jonathan David Welch, Dallas,
TX

Bachelor of Music

Jason Matthew Watkins,
Reynoldsburg

Bachelor of Art Education

Teah Ann Allen-Stanley,
Lancaster
Hilary Morgan Schreck,
Westerville

Bachelor of Music Education

Ryan Kendal Donini, Minford
Tyler C. King, Dresden
Jason Matthew Watkins,
Reynoldsburg

Bachelor of Science in Design

Emily Elizabeth Cole,
Pittsburgh, PA
Jacob Daniel Pickett, Maumee

College of Biological Sciences

Dean: Joan M. Herbers

Bachelor of Arts

Lauren Marie Tomczak,
Columbus

Bachelor of Science

Lauren Kelly Acton, Lewis
Center
Cum Laude
Omar Hussein Ahmed,
Mogadishu, Somalia
Peter Damian Akpunonu,
Holland
Joshua Matthew Alvarez,
West Chester
Renuka Annam, St. Marys
Shawn Christopher Behan,
Rochelle Park, NJ
Cum Laude
*with Honors in the Arts and
Sciences*
Anthony M. Berardinelli,
Toledo
Michelle Leigh Boyd, Lima
Sara Kate Burke, Findlay
Summa Cum Laude
Jennifer Marie Buss, Dayton
Cornell Jermain Byers,
Columbus
Cara Christine Copeland,
Bloomingtondale
Urszula Czechernecki,
Columbus
Justin A. Davis, Sylvania
William A. Falk, Vermilion
Tiffany Renee Gibson, St.
Louis, MO
Jessica Ann Gooding, Mineral
City
Justin Paul Gusching, Minster
Jeffrey Aaron Hayes,
Middletown
Catherine Elizabeth Aileen
Heaphy, Lima
Summa Cum Laude
Elham Bakir Hussein,
Columbus
Zahi Raja Jurdi, Upper
Arlington
Andreana Katz, Reminderville
Jennifer Louise Kraus, Dayton
Jacob Igor Landa, Columbus
Cum Laude
Katelyn Faith Leahy, North
Olmsted
Brandlyn Nicole Marlow,
Mansfield
Malasha Doreen Martinez,
Columbus
Rachel Renae May,
Columbus
Colleen M. McIntyre,
Columbus
Magna Cum Laude
with Research Distinction in Biology
*with Honors in the Arts and
Sciences*
Sung Jin Min, Seoul, South
Korea
*with Research Distinction in
Biochemistry*
Carl William Noble, Mansfield
Cum Laude

Commencement Convocation, August 26, 2007

Adam Alexander Olds, Dublin
Hyung-Jun Park, Seoul, South
Korea
Roshni Jitendra Patel,
Scottsdale, AZ
Neakmal Prak, Dayton
Amber Nicole Scott,
Springfield
Jenny Siv, Oxford
Magna Cum Laude
with Honors in the Arts and
Sciences
Daniel Scott Stentz, Columbus
Cum Laude
Paul Nyland Swartwout,
Dublin
Summa Cum Laude
with Research Distinction in
Evolution and Ecology
with Honors in the Arts and
Sciences
Blake Ryan Szelestey, Clayton
Megan Jeanne Williams,
Coshocton
Lauren E. Yetter, Tipp City
Heather Marie Zeier, Grove
City

Tyler Kenneth Boyd,
Farmersville
Elona Jean Boykin, Columbus
Jane Carver Brickley, Marion
Magna Cum Laude
Jason Brough, Westerville
Benjamin Samuel Brown,
Gates Mills
Amber Rochelle Bunce,
Lebanon
Brian Anthony Butts,
Lakewood
Johari A. M. Canady,
Columbus
Amy Michelle Cartmell, Ironton
Valerie Anne Chapman, Reno,
NV
Alicia Semoine Childs, Dayton
Gerald O. Christo-Baker,
Toledo
Harmony May Cox, Columbus
Cum Laude
Ryan Robert Craggs, Mentor
Magna Cum Laude
with Honors in the Arts and
Sciences
Justin Peter Crooks,
Columbus
Nicholas Gregory Cushion,
Pittsburgh, PA
Kaneeka Stephanie Marie
Dalton, Columbus
Natalie Jo Davis, Grove City
Rochelle Marie Davis, Dayton
Derek Luis DeHorta,
Columbus
Cristina DeLaSerda,
Worthington
Mamadou Doumbia, Bamako,
Mali
Kelly R. Eager, Marion
David Morris Einzig,
Youngstown
Edward Joseph Eiswerth,
West Chester
Sara P. Elizondo, Sylvania
Magna Cum Laude
Kristina Irene Farrow,
Whitehall
Alex Felix Federowicz, Solon
Desirai D. Finley, Richmond
Heights
Lydia Barrett Fleming-
Wehausen, Columbus
Jerome James Freeh,
Fremont
Sean Francis Gannon
Christopher Scott Geldis,
Bexley
Thomas Raymond George,
Pickerington
Eric C. Gerhardtstein, Mayfield
Heights
Melissa Nicole Gibson, Roy,
UT
Magna Cum Laude
Lauren Elizabeth Gruber,
Cincinnati

Yoonhee Patricia Ha,
Proctorville
Magna Cum Laude
with Honors in the Arts and
Sciences
Kamilah DeFaye Hallums,
Cincinnati
Stephanie Renee Harbolt,
Marion
Samuel Kirpal-David Harms,
Columbus
Kimberly D. Harrell, East
Cleveland
Rachelle Arlene Hartmann,
West Chester
Andrew Lowell Hopkins,
Shaker Heights
Richard G. S. Hopkins-Lutz,
Cleveland Heights
John Steven Isaacs, South
Charleston
R. Montana Jessie-Harbolt,
Columbus
David Warren Johnson,
Jackson
Matthew James Johnson,
Shelby
Sara Jessica Johnson,
Newark
Kevin Anderson Jones,
Chillicothe
Justin Kenneth Jordan,
Willowick
Christopher Daniel Juris,
Strongsville
Alla Kahn, Beachwood
Magna Cum Laude
with Honors in the Arts and
Sciences
Priscilla Naomi Bastos
Kennedy, Okeana
with Honors in the Arts and
Sciences
Craig Allen Kidder, Bellaire
Philip Joon Hwan Kim,
Painesville
David Bailey Knerem,
Brunswick
Brian Albert Line, Dover, DE
Tara Marie Lomax, Lucas
Cum Laude
Matthew Brian Long, Bay
Village
Kristin Paige Longstreth,
Newark
John Robert Loy, Bucyrus
Cum Laude
Jacquelyn Michelle Lucarelli,
Seven Hills
William Jeffrey Marlow, Mason
Merrari Adair McKinney,
Columbus
Jason Dale McLead, Delaware
Thomas Murray McLoone,
Phoenix, AZ
Kristin Nicole McNulty,
Bucyrus

College of Humanities

Dean: John W. Roberts

Bachelor of Arts

Lauren Kelly Acton, Lewis
Center
Cum Laude
Paul R. Adams, Lorain
Richard C. Allen II, Lima
Jordan Adam Argus,
Columbus
Brett Michael Aronson,
Ashtabula
Vivek Atluri, Beavercreek
Kathleen Michelle Bailey, Troy
Denton Alan Baker, Newark
Kristen Anne Baker, Newark
Matthew Raymond Bauman,
Cincinnati
Magna Cum Laude
with Honors in the Arts and
Sciences
Ami Leigh Baumgartner,
Grove City
Mary Elizabeth Beaton,
Cincinnati
Magna Cum Laude
with Research Distinction in
Spanish
with Honors in the Arts and
Sciences
Tammy J. Blair, Marion
Charles Christian Bleakmore,
Westerville
Nikolai Sergeevich
Bogomolov, Tula, Russia
Summa Cum Laude

Commencement Convocation, August 26, 2007

Lindsay Meagan Meadows,
Westerville
Cum Laude
with Honors in the Arts and Sciences

Hatim Merhi, North Royalton
Jaclene Rose Miller, Delphos
Jonathan Lyle Mudronja,
Cincinnati
John Michael Nash, Columbus
Cassie Elizabeth Natole,
Bellevue
Shaun Paul Negron
Mary Louise Newman, Orwell,
VT
Magna Cum Laude

Sabaran Oda, Columbus
Eric Johnathan Osborn,
Pandora
Lauren Elizabeth Ovchinnikov,
Columbus
Hetal Ramesh Patel,
Columbus
Luis Alberto Perez, Grandview
Heights
Amy Lynn Phillips, Marion
Carolyn Jean Pittman,
Delaware
Cum Laude

Amy Susan Pratt, Powell
Magna Cum Laude
with Research Distinction in Spanish
with Honors in the Arts and Sciences

Matthew Protacio, Norton
Matthew David Proto,
Lyndhurst
Ying Ying Avis Pun, Hong
Kong, Hong Kong, P.R.C.
Andrew John Riegel,
Cincinnati
Jessica Marie Roach,
Columbus
Cum Laude

Paul A. Robinson, Cleveland
David Michael Rome, Toledo
Josephine Elizabeth Rond,
Columbus
Michael Benjamin Rosenberg,
Cleveland
Mykhaylo I. Rusetsky, Kiev,
Ukraine
Michael Aaron Sarko,
Columbus
Carter Fitzhugh Semple,
Washington, DC
Amber Lee Sheffield, Powell
Brenda Pearl Sikon, Pataskala
Troy Andrew Sommers,
Columbus
Carol Sue Spangler, Newark
Magna Cum Laude

Adam Joseph Steigerwald,
Cincinnati
Jessica Marie Stiles,
Boardman
Samuel Patterson Stoddard,
Columbus

Bryce Alan Stoepfel, Ottawa
Jennifer Lynn Stone,
Friendship
Jessica Leigh Strope, Sugar
Grove
Jennifer Rebecca Swartz,
Medina
Cum Laude
with Honors in the Arts and Sciences

Bekim Sylaj, Dublin
Danny Thomas II, Cleveland
Joshua Andrew Topy,
Columbus
Richard Damon Trogden,
Batavia
Carri Belinda Twigg, Upper
Arlington
Nicholas Michael Van Horn,
Mansfield
Magna Cum Laude

Michelle Leigh Vetter,
Columbus
Miguel Adrian Villalobos,
Cincinnati
Justin Edwin Lee Walker,
Marion
Jesse D. Warnock, Chillicothe
John Daniel Wells, Lawton,
OK
Wonkyu Whan, Dublin
Jessica N. Worbis, Columbus
Cum Laude

Jonathon Dustin Yankasky,
Jamestown
Magna Cum Laude

Erica Harris Young,
Worthington
Jeffrey T. Zarate, Columbus
Magna Cum Laude

College of Mathematical and Physical Sciences

Interim Dean: Matthew S.
Platz

Bachelor of Arts

Lauren Elizabeth Bobick,
Broadview Heights
Anthony Michael Eberly,
Grove City
David William Kilbourne,
Columbus
Hussen A. Ommer, Addis
Ababa, Ethiopia

July 13, 2007 meeting, Board of Trustees

September 7, 2007 meeting, Board of Trustees

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND THIRTY-FIFTH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, September 7, 2007

Pursuant to paragraph (B) of bylaw 3335-1-01 of the Administrative Code of The Ohio State University, the Board met upon the call of the Chairman, G. Gilbert Cloyd, in a special meeting on Friday, September 7, 2007, at 8:00 a.m., at The Ohio State University Longaberger Alumni House, Columbus, Ohio.

September 7, 2007 meeting, Board of Trustees

The Chairman, Dr. Cloyd, called a special meeting of the Board of Trustees to order on Friday, September 7, 2007, at 8:00 am. He requested the Secretary to call the roll.

Present: G. Gil Cloyd, Chairman, Dimon R. McFerson, Jo Ann Davidson, Leslie H. Wexner, Walden W. O'Dell, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Algenon L. Marbley, and Debra J. Van Camp.

Dr. Cloyd:

In a moment we will be taking a roll call vote to go into Executive Session; that vote will conclude all formal Board action for the day beyond adjourning the meeting.

I hereby move that the Board recess into Executive Session for the purposes of considering personnel matters regarding compensation and employment, to consult with legal counsel regarding pending or imminent litigation, and for the purpose of discussing matters required to be kept confidential by State Statute. There will be no official actions taken during or following this Executive Session. May I have a second?

Upon motion of Dr. Cloyd, seconded by Mr. O'Dell, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, McFerson, Davidson, O'Dell, Hicks, Fisher, Schottenstein, Brass, and Marbley.

Thereupon the Board adjourned to meet Friday, September 21, 2007, at The Ohio State University, Fawcett Center for Tomorrow, Columbus, Ohio.

Attest:

G. Gilbert Cloyd
Chairman

David O. Frantz
Secretary

THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND FOUR HUNDRED AND THIRTY-SIXTH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, September 21, 2007

The Board of Trustees met at its regular monthly meeting on Friday, September 21, 2007, at The Ohio State University Fawcett Center, Columbus, Ohio, pursuant to adjournment.

** ** *

Minutes of the last meetings were approved.

** ** *

September 21, 2007 meeting, Board of Trustees

The Chairman, Dr. Cloyd, called the meeting of the Board of Trustees to order on Friday, September 21, 2007, at 10:35am. He requested the Secretary to call the roll.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Algenon L. Marbley, and Debra J. Van Camp.

PRESIDENT'S REPORT

President Alutto:

Good morning and welcome. This is truly an exciting time in the history of The Ohio State University. Two days ago, and for the thirteenth year in a row, we welcomed the most accomplished class of incoming freshmen ever to enter Ohio State. Our continuing students are persisting and graduating in record numbers. And the on-going contributions of our faculty and staff are pushing us ever closer to the overarching goal of the Academic Plan that Ohio State will be the premier public land-grant research university in the nation.

I could say much about each of these reasons for optimism about the future of the University. And I did not even mention the excitement that is being generated by the imminent return of Ohio State's own prodigal son, Gordon Gee. Just earlier this week, he was truly given a rock star's welcome by our brand-new freshmen at Convocation and the funny part is that most of them do not even know him yet!

In the interest of time, however, I am keeping my remarks deliberately short this morning. In fact, I am going to restrict myself to sharing with you the good news about the students who are joining us this year. Though statistics will not be finalized for another few days, here is what we can project about our new first quarter freshmen.

First, they are a class of some 6,100 students. As I said a moment ago, they are the University's most academically prepared undergraduate class to date. Their average ACT score is 27, compared with 26.4 last year and 25.8 the year before. Nearly 90% of the entering freshmen were in the top 25% of their graduating high school class and more than half were in the top ten percent of their graduating class. They are a geographically diverse class, coming from countries across the globe, all 88 counties in Ohio, and 46 different states.

They add to the intellectual vitality of our campus in other ways as well. Some 16% of our entering freshmen are students of color, and almost 23% are first-generation scholars or those who have the opportunity to be the first in their family to graduate from college.

They have many talents and bring a great deal to this University. For example, some 60% earned varsity letters in high school, 30% participated in state music contests, and 16% of this year's class won prizes or awards for scientific study. More than half of them held part-time jobs while in high school and almost a quarter earned special recognition for community service. So you can see what an accomplished group of students has chosen Ohio State as their academic home.

It was truly wonderful to be at Convocation on Monday; or out on the Oval at the Involvement Fair with the students and representatives of more than 500 OSU student organizations and campus departments, businesses, and community agencies; or at any one of the 150 other events that are part of what we call "Welcome Week." These events carried an unambiguous message to all students: Ohio State is a nurturing,

September 21, 2007 meeting, Board of Trustees

energetic, and stimulating environment that will provide value-added to their academic endeavors, both in and outside of the classroom.

As I told our newest Buckeyes at Convocation, not only did they choose Ohio State but this institution also chose them. We are delighted that they are part of the Ohio State family.

Thank you, Mr. Chairman.

Free The Planet Spokesperson:

Dr. Alutto, while we do agree with many of those statements about Ohio State being a leader in academia, we are here today representing Free The Planet OSU, an environmental and social justice organization on campus. We are here to say to the Board, we were here a year ago asking you to sign a sustainable force resources policy. We no longer want Ohio State to not ensure environmental and social justice on campus. Right now we log some endangered forests from rain forests to Canadian Boreal forests, we want to stop logging in those areas. It has been a year and so far we have heard nothing from the Board.

Dr. Cloyd:

Excuse me you are not on the agenda, so please wrap it up.

Free The Planet Spokesperson:

We will wrap it up very fast. We have five short demands for the Board of Trustees and we are encouraging President Gee to be a leader in the environment this year. We really hope that he will move the Board along as an environmental leader: 1) he must publicly state that The Ohio State University does not support logging in endangered forest areas; 2) we must dramatically increase the use of post-consumer waste recycled fiber across the University; 3) he must ensure that all remaining virgin fiber is sourced from Forest Stewardship Council certified operations; 4) we must immediately cut contracts with companies that source from endangered forests, off-limit caribou range, and First Nations Territory; and 5) the University must significantly reduce paper use.

The students here are currently turning their backs to you as you have turned your backs on the environment at Ohio State. We are looking for university-wide policies and we are hoping to hear from you within the next two weeks, otherwise we will be forced to come back to the next Board meeting and present our demands again with more students. Thank you very much.

Group of Free The Planet Students:

Free The Planet!

STUDENT RECOGNITION AWARD

Ms. Van Kamp:

The Board of Trustees presents the Student Recognition Award each month to honor a student for his or her academic accomplishments, service to the University and/or community, and research achievements that have been a credit to both the college and University.

September 21, 2007 meeting, Board of Trustees

I am proud to announce to you that the recipient of this month's award is doctoral student Ross Kauffman, who was nominated by Dean Stan Lemeshow from the College of Public Health. Ross is from Bellefontaine, Ohio, and is currently pursuing a Ph.D. degree in the College of Public Health, majoring in epidemiology with a minor in criminology.

Ross earned his B.S. degree from Eastern Mennonite University in 2003, graduating summa cum laude. In 2005, he entered The Ohio State University College of Public Health as a University Fellow in the Master of Public Health program and completed his degree in 2006. During his time at Ohio State, Ross has served as a research assistant on two key projects examining cancer-related factors among the residents of the world's largest Amish settlement and their non-Amish neighbors. While working on these projects, Ross took an ethics-training course on research with prisoners, after which he began considering a career studying the health of prison populations with regards to tobacco use.

Through his master's research Ross realized that smoking, the number one preventable killer of Americans, is an even greater threat inside prison walls. He found that prisoners smoke at a much higher rate than the general population, and despite the scale of the problem, little rigorous research has been done. Thus, Ross began to focus his work on prisoner health with an emphasis on tobacco use.

For more than a year, Ross has worked diligently to prepare for prison research. He has completed coursework for a minor in criminology, assisted The Ohio State University Sociology Department in conducting interviews with dozens of prisoners, and completed a pre-doctoral fellowship with the Behavioral Cooperative Oncology Group of the Walther Cancer Institute. Dean Lemeshow described Ross's dedication and passion for his research by saying:

"Ross's personal interest in prison populations is due in part to his Mennonite upbringing, with its emphasis on social justice. As a public health practitioner, he sees this work as a unique opportunity to reach an at-risk population. As a concerned citizen, he views this as an opportunity to curb the rising costs of incarceration."

As you might imagine, Ross's devotion to making a difference extends beyond his research into every area of his life. While at Ohio State he has served as the student representative at division faculty meetings and played an active role in the public health student organization. At home, he takes part in the family tradition of making blankets for international relief efforts. He learned how to sew about 6 years ago, when some students at Eastern Mennonite University decided to hold a blanket drive as a response to the 9/11 attacks and ensuing conflict in Afghanistan. He says that now sewing comfort tops and knotting blankets are a routine part of a trip to his hometown. To give you an idea of the scale of this project, it's not just making a few blankets a year - he told me that his family made 370 blankets in 2005. However, it is Ross himself that best describes the impact of this operation by saying, "Sewing may not be a common activity for a 25-year-old male, but I have found it to be one way I can actually try to make the world a better place for those who are less fortunate."

Ross is truly, and I think that you all would agree, an outstanding student who is making a positive impact at this University, across the state, and indeed around the world. Today I am happy to share with you that Ross's diligence and dedication for research have been recognized on a national level. Just last week Ross was awarded a grant from the Center for Disease Control to fund his dissertation project titled, "Assessing Smoking in Ohio Prisons." After completing his formal education, Ross plans to teach at the collegiate-level and continue to pursue his passion for research.

Ross, on behalf of the Board of Trustees, I am very pleased to present this award to you today and congratulate you on your many accomplishments. Your achievements

September 21, 2007 meeting, Board of Trustees

are truly remarkable and inspiring to us all. Congratulations and best of luck in your future endeavors!

Mr. Kauffman:

Thank you, Deb, for that kind introduction. It is an honor to be recognized today. I would like to thank Dean Lemeshow for his nomination and for his continued work to strengthen the College of Public Health.

There are many people I have to thank for my successes. First I would like to recognize my family. I am pleased that my parents, Roger and Rachel Kauffman, could be here today. I would not be where I am without the support and encouragement they have provided. I would also like to thank my brothers, Ryan and Rudy, for their friendship and the inspiration they provide.

I am also glad that Patrick and Deborah Ellis could be with us today. I am thankful for all that they do for Bellefontaine City Schools where I had my academic start and for their continued support of The Ohio State University. For my undergraduate studies at Eastern Mennonite University, I would like to recognize Drs. Douglas Graber Neufeld, Owen Byer, and OSU Alumnus James Yoder. Each of them made significant contributions to my development as a scientist.

Here at Ohio State I feel blessed with an excellent committee: Dr. Amy Ferketich, my advisor, who has allowed me to dream big and provided the support I need to achieve those dreams; Dr. Mary Ellen Wewers, my mentor, who has introduced me to the world of tobacco research; Dr. David Murray, who in addition to his role on my committee, has worked tirelessly to improve the college as chair of the Division of Epidemiology; and Dr. Paul Bellair, who provided me with my first experience in prison research and whose assistance has been invaluable as I have worked to design my own prison study. Though not a member of my committee, Dr. Mira Katz has also played a significant role in my growth as a researcher. She provided my first opportunity to conduct public health research and I am grateful for her continued support and guidance.

Finally, I would like to thank the members of the Board. It has been a pleasure to watch the growth and development of the public health program at Ohio State. Even in the short time since my arrival at the School, I have seen many exciting changes. Your vote last February to establish the College of Public Health was an important milestone in our efforts to become a national leader in the field of Public Health. Thank you for all that you do to foster an environment of academic excellence at The Ohio State University.

I appreciate the opportunity to meet with you today and thank you for this recognition of my efforts at Ohio State. I am grateful, but humbled to be granted this honor and feel fortunate to be part of an institution that strives for such a high level of academic excellence. Thank you.

Dr. Cloyd:

Ross, thank you. You do yourself and this university very proud and it is wonderful. I congratulate you on your accomplishments to date, particularly in the research area so important in society and wish you the very best in your career ahead.

COMMITTEE REPORTS

Dr. Cloyd:

At this time we will hear committee reports and I would like to begin with the Committee on Trusteeship. Mr. McFerson.

Mr. McFerson:

The Committee on Trusteeship has met several times and our objective has been to, at the direction of the Chair and this Board, pull together a paper that will lay out our expectations of how we intend to operate as a Board with each other, the University, and the President. We are getting close to having that document finished. Concurrent with that will be an analysis of how we are structured as a Board, the architecture, if you will, of our committees and our meetings. That work is also moving forward and will follow that expectations paper by maybe a meeting or two. So we still have some more work to do.

We have also sent a letter to the Governor's Office on what we are looking for in a new trustee, which has yet to be appointed. We have laid out specifically our concerns with regard to gender, with regard to geographic interest around the state, and with regard to backgrounds, so we can continue to have and present to this University a good, diverse Board with the appropriate makeup. We have been busy and will continue to work.

Dr. Cloyd:

Thank you, Mr. McFerson. I would now like to have the report from you on the Investments Committee meeting.

Mr. McFerson:

The Investments Committee met this morning and first heard a recommendation on the status of the Proctor Consulting Report. This has upwards of ten separate recommendations and is the most thorough analysis that has ever been conducted of the Office of the Treasurer. It has been over a year now and this status report tells us where we are with regard to each of those recommendations. A few of them are 100% complete and many are in the process of being completed. We were encouraged by that analysis and by that report. It really has resulted in some good changes in the Treasurer's Office.

We then heard the Investments Performance Report for the year. We finished the fiscal year, June 30, 2007, and the results of the year for the total portfolio increased 18% and across-the-board we were not quite at the S&P 500 on the large cap equities, we missed by four-tenths of 1%. I am not going to go through all of these categories, but in the aggregate we finished 18% compared to a Lipper balance of 15.4%. What we don't have yet is how we stacked up with the Big Ten and our peer group comparisons and we will probably have that available to us at the next meeting. Collecting all of this data from all of the other institutions does take a little bit of time.

We then had a first reading of our recommended policy revisions regarding the Investment of Operating Funds. The University has approximately \$1.3 billion of operating cash and this Board, three plus years ago, with approval from the legislation at the state-level, had the opportunity to invest those funds long-term. So we have a policy on how those dollars will be invested in the endowment, as well as maintained in short-term cash. Because we have 45% invested in the same analysis and breakdown as our endowment dollars, it has resulted in a rather significant increase into the President's Strategic Fund, which has helped us fund many important projects around here. We will continue to look at that on a regular basis as to how we invest our short-

September 21, 2007 meeting, Board of Trustees

term cash, because there is no reason for us to hold it all in short-term instruments. Remember folks, \$1.3 billion of operating funds is a pretty good number.

Then the aggregate investment dollars of all categories would be \$3.2 billion and that is broken down as to the long-term investment pool; the gifted endowment dollars are \$1.576 billion; the long-term operating dollars are \$762 million, and the balance would be other investments. So the total dollars of the University that are invested either short-term or long-term is \$3.2 billion. Let's not be confused on how much of that is gifted endowment money, it is only approximately half of that number.

Then the consultants that were hired over a year ago, Cliffwater, their president and CEO gave us a very good report on the asset allocation study and the review of what has been accomplished and the implementation of moving towards allocations. I am pleased to report that theoretically we have moved to the allocation model. In some of the categories the dollars have not yet been invested in specific investments, but the place card is in place. The analysis that they presented to us is very solid with regard to the comparative data and also should result in higher returns, more diversification, and more in line with our peer groups. We will continue to have the Cliffwater consultants come back and visit with us from time to time. They have a pretty impressive list of endowment organizations that they deal with.

For the consent agenda we are recommending: 1) some adjustments in the Investment Managers and Reallocation of Funds, and the elimination of one Investment Manager; and 2) the University Development Report. Dr. Schroeder did present the Development Report for the year and that report is up 7% in total to \$225 million and an increase in the number of donors. We received a lot of data, but on balance, pretty good reports.

Dr. Cloyd:

Thank you, Mr. McFerson. I would next like to call on Mr. Borrer for the report on the Academic and Student Affairs Committee meeting.

Mr. Borrer:

This morning we had a very full and informative agenda. We first heard from Rich Hollingsworth, vice president for Student Affairs, who gave his priorities for the year. A number of major initiatives that he is looking at include: a review and comprehensive plan for on- and off-campus housing, including remodeling and potentially expanding our housing initiatives, and the intent to establish a collaborative of a number of University groups in the immediate off-campus area to promote and advance neighborhood safety. They also have a very forward initiative to work for the enhancement of basic physical and mental health services for students, especially the population that lives on campus.

Next we heard from Thom Stevenson, director of Campus Dining Services. We have 16 full food service locations on campus. In layman's terms, we do about \$35 million worth of sales out of those 16 locations per year. So we really run a full size, full service dining operation.

They have also started on a very interesting and I think exciting initiative with the Ohio Department of Agriculture called, "Buy Ohio." The concept is "Eat Global, Buy Local." They are working with the food service group that they purchase their food from, as well as a number of people in the Ohio Agriculture industry, to provide food services to The Ohio State University that are grown and/or produced in the state of Ohio. That number is in excess now of 30% and is a very good thing for us to do since it pays back the community and helps the students understand what we are doing in Ohio.

Next we heard from Provost Alutto who gave an overview of the priorities for the Office of Academic Affairs for the upcoming year. They are doing a complete strategic

September 21, 2007 meeting, Board of Trustees

planning process including: budgeting, physical priorities, buildings, office locations, and all major programmatic initiatives. It is a complete top to bottom review of what we are doing in our academic programs and I think it will be incredibly well served.

We then heard from Vice Provost Randy Smith. Randy and his team have completed the final reaccreditation process of our University and did a fantastic job getting that done and today presented his final report to our Committee. I am pleased to let you know that we did pass and that Vice Provost Smith and his team are now beginning to prepare for the 2016 review.

Next we heard from David Andrews, dean of the College of Education and Human Ecology, who provided us with a report on the Metro School. The Metro School is a new, innovative high school that is designed to provide innovative learning opportunities, especially in science, technology, engineering, and math; STEM.

The Metro School opened two years ago through a partnership with Battelle, Ohio State, and the Educational Council, which represents all 16 school districts in Franklin County. It is presently made up of two classes of 200 freshmen and sophomores and when fully populated, it will serve 400 students. This school has been a tremendous success and has been recognized by the Gates Foundation and won the first Peter McGrath Outreach and Engagement Award presented by the National Association of State Universities and Land-Grant Colleges. The school has applied for - and we are hoping to receive - a major grant from the Gates Foundation coming up in the next 30 days. This has been a great collaborative and initiative that we started.

Finally for the consent agenda, the Committee endorsed the following recommendations: 1) the approval of non-academic center status for the Ohio House of Science and Engineering; and 2) routine personnel actions. With that, I conclude my report.

Dr. Cloyd:

Thank you, Mr. Borrer. Any questions? I would next like to call on Mrs. Davidson for the Fiscal Affairs Committee report.

Mrs. Davidson:

Thank you, Mr. Chairman. I would like to start by pointing out that the Fiscal Affairs Committee has nine of the items that are on the Consent Agenda today. In addition to discussing those, we had two reports that were very important because they were first readings. The first report was the Financial Performance Goals, which will come back to the Board in November for approval and will be the first time, I believe, in ten years that we have revised those financial goals.

The second report was a look at the Long-Term Operating Fund and how it is invested. Mr. Shkurti gave a very good report on our ability to invest those long-term funds, which generated about \$160 million in revenue; proposed expenditures of the transfer this year, which will be a little over \$78 million; and also looking at taking some precautions and establishing a stabilization fund because there is a higher risk in that long-term investment and obviously markets are pretty unpredictable. This report was a first reading, too, and will come back to the Board for action in November.

The issues that are on the Consent Agenda today include the Quarterly Report for the Waivers of Competitive Bidding Requirements and those waivers are done. As you know when there is a sole source or when there is an emergency need to waive that competitive bidding, those waivers need to be approved by the Board.

September 21, 2007 meeting, Board of Trustees

Next is the approval of Interim Authorization, interim President Alutto, Bill Shkurti, and I authorized, since we had a little gap in our Board meetings, two projects: 1) the design and construction contracts for renovations to the Veterinary Medicine food service area; and 2) the design and construction of the Carmack parking lot on West Campus. These were both small projects. The third resolution would be to give that Interim Authorization ability also between now and our next Board meeting in November.

The fourth resolution is the Approval to Enter into Design and Construction Contracts, to Increase a Construction Contract, and to enter into one Joint Use Agreement with Delaware County. We then had two temporary easements that would be granted and two sales of property that we would be authorizing. These are both to the City of Columbus: 1) building a handicapped accessible bus stop; and 2) widening West Case Road and create a turn lane at Sawmill Road, which probably you people that travel that way will appreciate. We need to give the easements because it takes legislative action to permit us to sell that property to the City of Columbus.

We also have the final action on the Fiscal Year 2008 Current Funds Budget, which has been before the Committee two or three times. There are a few things that I wanted to point out and highlight to you. First, I want to mention the Current Funds Budget book, which takes a lot of work from the staff and they do a great job, but it is sort of the *Bible* about our budget and our funds here at the University. It is a good thing for everybody to have in their system. I also want to point out that we do have a balanced budget. We don't have much room there, but it is a \$4.1 billion projected income and a \$4.0 billion spending. Of that spending allowable, 36.5% of the total budget is for the Health System and it really boils down to a campus general fund growth of about 4.3% and our final budget is \$72 million in allocation for financial aid.

The last item that we are recommending is the long-term recommendations for FY 2009-FY 2014 Capital Plan. This would include giving authority for Mr. Shkurti to submit to the state our capital request for the next capital bill in the amount of \$80 million and \$12 million for our regional campuses; to then approve the allocation of our current bond issue debt, because there has been a few changes in the proposed allocations for the \$497 million in bonds which will be issued in Fiscal Year 2009; and to put a cap on a bond issue for 2011 at no more than \$500 million.

The Fiscal Affairs Committee unanimously recommended those items on the Consent Agenda. Mr. Chairman, I will be glad to answer any questions.

Dr. Cloyd:

Thank you, Mrs. Davidson. Any questions?

CONSENT AGENDA

President Alutto:

We currently have 16 resolutions on the Consent Agenda today and would like to hold a separate vote for #7-Appointment of Investment Managers and Reallocation of Funds-and #8-Waivers of Competitive Bidding Requirements (April-June 2007). We are seeking your approval for:

September 21, 2007 meeting, Board of Trustees

UNIVERSITY HOSPITALS BOARD APPOINTMENT

Resolution No. 2008-21

Synopsis: Approval of an appointment to the University Hospitals Board is recommended.

WHEREAS in accordance with University Hospitals Board Bylaw (3335-104-01) all members of a specialized board shall be appointed by The Ohio State University Board of Trustees in consultation with the vice president for health services, the senior vice president for health sciences, and the president of the University:

NOW THEREFORE

BE IT RESOLVED, That the following individual be appointed as follows:

University Hospitals Board

Betty D. Montgomery, effective September 21, 2007, through September 20, 2010

**AMENDMENTS TO THE BYLAWS OF THE MEDICAL STAFF OF
THE OHIO STATE UNIVERSITY HOSPITALS**

Resolution No. 2008-22

Synopsis: The amendment to the *Bylaws of the Medical Staff of The Ohio State University Hospitals* is recommended for approval.

WHEREAS The Ohio State University Hospitals Board pursuant to bylaw 3335-101-04 of the *Hospitals Board Bylaws* is authorized to recommend to the Board of Trustees the adoption of amendments to the *Bylaws of the Medical Staff of The Ohio State University Hospitals*; and

WHEREAS this amendment was approved by the University Hospitals Board on July 26, 2007:

3335-43-08 Organization of the medical staff.

(A) unchanged.

(B) Names of clinical departments and divisions.

(1) through (3) unchanged.

(4) Internal medicine. The following divisions are designated:

Cardiovascular medicine
Dermatology
Endocrinology and metabolism
~~Digestive health~~
Gastroenterology, hepatology and nutrition
General medicine
Hematology and oncology
Hospital medicine
Human genetics
Infectious diseases
Nephrology
Pulmonary, allergy, critical care and sleep medicine
Rheumatology - immunology

September 21, 2007 meeting, Board of Trustees

(5) through (19) unchanged.

(C) and (D) unchanged.

NOW THEREFORE

BE IT RESOLVED, That the above amendment is hereby adopted.

APPROVAL OF NON-ACADEMIC "CENTER" STATUS

Resolution No. 2008-23

Synopsis: Approval of non-academic "center" status is proposed.

WHEREAS faculty rule 3335-3-36 (A) specifies that: "Use of "center" or "institute" in the names of proposed units of the university shall be limited to academic centers, unless approved by the Council on Academic Affairs;" and

WHEREAS a request has been received from five colleges and the Office of University Outreach and Engagement, in a manner similar to requests for use of the terms "center/institute," for the Ohio House of Science and Engineering; and

WHEREAS subsequent use of the term "academic" center/institute will require that a formal proposal for academic center status will need to be submitted to the Council on Academic Affairs for full review; and

WHEREAS the Council on Academic Affairs reviewed this request at its meeting on August 22, 2007 and had no objections:

NOW THEREFORE

BE IT RESOLVED, That the "Ohio House of Science and Engineering" be approved, effective immediately.

PERSONNEL ACTIONS

Resolution No. 2008-24

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the July 13, 2007 meeting of the Board, including the following Appointments/Reappointments, Appointments / Reappointments of Chairpersons/Directors, Leaves of Absence Without Salary, Leave of Absence-Continuation, Professional Improvement Leaves, Professional Improvement Leave-Change in Dates, Professional Improvement Leaves-Cancellation, Emeritus Titles, Emeritus Title-change in date, salary rolls with promotion and tenure, as detailed in the University Budget, be approved; and

BE IT FURTHER RESOLVED, That the Medical Staff Appointments and Reappointments approved on April 3, 2007, May 29, 2007 and July 31, 2007, by The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board, be ratified; and

BE IT FURTHER RESOLVED, That the 2007 bonus of \$250,000 for President Karen Holbrook, be ratified.

September 21, 2007 meeting, Board of Trustees

Appointments

Name: ROBERT W. CURLEY
Title: Professor (Charles H. Kimberly Professorship in Pharmacy)
College: Pharmacy
Effective: October 1, 2007 through September 30, 2010

Name: ROY J. LEWICKI
Title: Professor (The Irving Abramowitz Memorial Professorship)
College: The Max M. Fisher College of Business
Effective: October 1, 2007 through September 30, 2012

Name: CYNTHIA J. ROBERTS
Title: Professor (Martha G. and Milton Staub Chair for Research in Ophthalmology)
College: Medicine
Effective: July 1, 2007 through June 30, 2011

Name: ALAN D. LETSON
Title: Professor - Clinical (William H. Havener, M.D. Chair in Ophthalmology)
College: Medicine
Effective: July 1, 2007 through June 30, 2011

Name: DAVID COHN
Title: Associate Professor (The Donald G. Jones, M.D. and Patsy P. Jones Designated Professorship in Obstetrics and Gynecology)
College: Medicine
Effective: August 1, 2007 through June 30, 2011

Name: E. GORDON GEE
Titles: President/Professor with Tenure/Courtesy Appointment as Professor
Office/College/ Office of the President/Michael E. Moritz College of
School: Law/Educational Policy and Leadership
Effective: October 1, 2007

Name: MICHAEL M. VERES
Title: Interim Chief Information Officer
Office: Information Technology (OIT)
Effective: September 13, 2007

Name: KATHERINE WOLFORD
Title: Assistant to the President and Director of Operations
Office: Office of the President
Effective: August 13, 2007

Concurrent Appointments

Name: HERBERT B. ASHER
Title: Counselor to the President
Office: Office of the President

Richard Gilchrist, M.D., Associate Attending, Psychiatry, 4/13/2007
Hossam H. Guirgis, M.B.BCH, Associate Attending, Psychiatry, 4/13/2007
Lisa M. Hoffman, C.N.S., Allied Health, Internal Medicine, Hematology/Oncology, 5/29/2007
Amy Hoisington-Stabile, M.D., Associate Attending, Psychiatry, 4/13/2007
John D. Hummel, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 5/29/2007
Steven J. Kalbfleisch, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 5/29/2007
Ram C. Kalyanam, M.D., Associate Attending, Psychiatry, 4/13/2007
Susan M. Kirchner, C.R.N.A., Allied Health, Anesthesiology, 5/29/2007
Marino E. Leon, M.D., Associate Attending, Pathology, 5/29/2007
Beth W. Liston, M.D., Associate Attending, Internal Medicine, Hospital Med, 4/13/2007
Hans B. Miller, M.D., Associate Attending, Anesthesiology, 5/29/2007
Anterpreet Neki, M.B.B.S., Attending, Internal Medicine, Hematology/Oncology, 4/13/2007
Sara B. Peters, M.D., Associate Attending, Pathology, 5/29/2007
Frederick Racke, M.D., Ph.D., Associate Attending, Pathology, 4/13/2007
Sanjay Rajagopalan, M.B.B.S., Associate Attending, Internal Medicine, Cardiovascular Medicine, 5/29/2007
Christopher J. Rosile, C.R.N.A., Allied Health, Anesthesiology, 5/29/2007
Kathryn M. Todd, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 4/13/2007
Raul Weiss, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 5/29/2007

September 21, 2007 meeting, Board of Trustees

Alex Auseon, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 7/31/2007
Karen Bishop, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 7/31/2007
Gretchen Cunningham, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 7/31/2007
Ahmad Elsharydah, M.D., Associate Attending, Anesthesiology, 6/8/2007
Dareth Gilmore, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 7/31/2007
Carli Greenfield, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 7/31/2007
Richard Gumina, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 7/31/2007
Elizabeth Hingsbergen, M.D., Associate Attending, Radiology, Radiology, 7/31/2007
Phuong Hoang, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 7/31/2007
Eric Hoover, C.R.N.A., Allied Health, Anesthesiology, 7/31/2007
Adele Lipari, D.O., Associate Attending, Radiology, 7/31/2007
Lisa Martin, M.D., Associate Attending, Radiology, 7/31/2007
Anne McPherson, C.N.P., Allied Health, Internal Medicine, Cardiovascular Medicine, 7/31/2007
Jason Patterson, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 7/31/2007
Vasudevan Raghavan, M.B.B.S., Associate Attending, Internal Medicine, Endocrinology, 7/31/2007
Williams Roberts, M.D., Associate Attending, Anesthesiology, 7/31/2007
Karla Rusk, C.N.P., Allied Health, Internal Medicine, Cardiovascular Medicine, 7/31/2007
Katherine E. Strafford, M.D., Associate Attending, Obstetrics/Gynecology, 6/8/2007
Christina E. Taddeo, M.D., Associate Attending, Physical Medicine, 6/8/2007
Kathrynn Thompson, C.N.S., Allied Health, Psychiatry, 7/31/2007
Michelle Wende, C.N.P., Allied Health, Internal Medicine, Cardiovascular Medicine, 7/31/2007
Alexandru Vaida, M.D., Attending, Surgery, Thoracic Surgery, 7/31/2007
Cornel C. Van Gorp, M.D., Associate Attending, Orthopaedics, 6/8/2007
Glenda M. Updyke, P.A., Allied Health, Surgery, Cardiothoracic, 6/8/2007

Medical Staff - Reappointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

4/1/07 - 3/31/09

Lisa C. Binzel, C.N.P., Allied Health, Surgery, Surgical Oncology
Robert A. Bruce, Jr., M.D., Associate Attending, Ophthalmology
Matthew E. Dangel, M.D., Associate Attending, Ophthalmology
M. Farid Edwards, M.D., Associate Attending, Anesthesiology,
Osama M. El-Sayed, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine
Elmahdi A. Elkhammas, M.D., Associate Attending, Surgery, Transplant
Jennifer W. Ellis, M.D., Associate Attending, Family Medicine
E. Christopher Ellison, M.D., Associate Attending, Surgery, General Surgery
Charles A. Elmaraghy, M.D., Associate Attending, Otolaryngology
David N. Efries, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology
Hamdy M. Elsayed-Awad, M.D., Associate Attending, Anesthesiology
Bakri H. Elsheikh, M.B.B.S., Associate Attending, Neurology
G. Reza Emami, C.R.N.A., Allied Health, Anesthesiology
Garth F. Essig, M.D., Associate Attending, Obstetrics and Gynecology
Leroy W. Essig, II, M.D., Associate Attending, Internal Medicine, Pulmonary, Critical Care
Cynthia B. Evans, M.D., Associate Attending, Obstetrics and Gynecology
Erik W. Evans, D.D.S., M.D., Associate Attending, Dentistry, Dental
Susan A. Ezzone, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology
Michael F. Evers, D.O., Associate Attending, Anesthesiology

September 21, 2007 meeting, Board of Trustees

Matthew C. Exline, M.D., Associate Attending, Internal Medicine, Pulmonary, Critical Care
Renata B. Fabia, M.D., Ph.D., Associate Attending, Surgery, Pediatric Surgery
Patrick J. Fahey, M.D., Associate Attending, Family Medicine
William B. Farrar, M.D., Attending, Surgery, Surgical Oncology
David S. Feldman, M.D., Ph.D., Associate Attending, Internal Medicine, Cardiovascular Medicine
Mary F. Feldman, P.A., Allied Health, Surgery, Thoracic/Cardiovascular
Ronald M. Ferguson, M.D., Associate Attending, Surgery, Transplant
Kyriakoula V. Fisher, C.R.N.A., Allied Health, Anesthesiology
David C. Flanigan, M.D., Associate Attending, Orthopaedic Surgery, Orthopaedics
Mary E. Fontana, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine
L. Arick Forrest, M.D., Associate Attending, Otolaryngology
Jill A. Foster, M.D., Associate Attending, Ophthalmology
Jeffrey M. Fowler, M.D., Attending, Obstetrics and Gynecology, Gynecologic Oncology
Theodore D. Fraker, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine
Wendy L. Frankel, M.D., Associate Attending, Pathology
Miriam L. Freimer, M.D., Associate Attending, Neurology
Barry M. Friedman, M.D., Associate Attending, Internal Medicine, General Medicine
Chad I. Friedman, M.D., Associate Attending, Obstetrics and Gynecology
Joseph D. Friessen, C.R.N.A., Allied Health, Anesthesiology
John J. Fromkes, M.D., Associate Attending, Internal Medicine, Digestive Disease
Lisa P. Fugate, M.D., Associate Attending, Physical Medicine and Rehabilitation
Josue P. Gabriel, M.D., Associate Attending, Orthopaedic Surgery, Orthopaedics
Gloria M. Galloway, M.D., Associate Attending, Neurology
Julia A. Garrett, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology
Ramiro Garzon, M.D., Attending, Internal Medicine, Hematology/Oncology
Thomas J. Gavin, M.D., Associate Attending, Emergency Medicine
Mark A. Gerhardt, M.D., Ph.D., Associate Attending, Anesthesiology
Amy S. Gewirtz, M.D., Associate Attending, Pathology
Ahmed M. Ghany, M.D., Clinical Attending, Internal Medicine, Hematology/Oncology
Mimi A. Ghosh, M.D., Associate Attending, Family Medicine, Family Medicine
Richard H. Gilchrist, M.D., Associate Attending, Psychiatry, Psychiatry
Jason P. Gilleran, M.D., Associate Attending, Surgery, Urological Surgery
Jennifer L. Glatz, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology
Melissa M. Goist, M.D., Associate Attending, Obstetrics and Gynecology
Ernesto Goldman, M.D., Associate Attending, Anesthesiology
Rupa Ghosh-Berkebile, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology
Gayle M. Gordillo, M.D., Associate Attending, Surgery, Plastic Surgery
Deborah A. Gordish, M.D., Associate Attending, Internal Medicine, General Medicine
Diane L. Gorgas, M.D., Associate Attending, Emergency Medicine
Iain L. Grant, M.D., Associate Attending, Otolaryngology
Linda S. Gray, M.D., Associate Attending, Internal Medicine, Immunology
John C. Grecula, M.D., Attending, Radiation Medicine
Michael R. Grever, M.D., Attending, Internal Medicine, Hematology/Oncology
Jonathan I. Groner, M.D., Associate Attending, Surgery, Pediatric Surgery
Hossam H. Guirgis, M.B.BCh, Associate Attending, Psychiatry
Bhagwandas Gupta, M.D., Associate Attending, Anesthesiology
Nandkishore Gurram, M.B.B.S., Associate Attending, Internal Medicine, Cardiovascular Medicine
Robert M. Guthrie, M.D., Associate Attending, Emergency Medicine
Tamara L. Gutierrez, M.D., Associate Attending, Family Medicine
Rebecca M. Gutmann, M.D., Associate Attending, Anesthesiology
Gregory E. Guy, M.D., Associate Attending, Radiology
Garrie J. Haas, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine
Bachar Hachwa, M.D., Associate Attending, Anesthesiology
Kevin V. Hackshaw, M.D., Associate Attending, Internal Medicine, Immunology
Nabil J. Haddad, M.D., Associate Attending, Internal Medicine, Nephrology

September 21, 2007 meeting, Board of Trustees

Mona Y. Halim-Armanios, M.D., Associate Attending, Anesthesiology
Christine E. Hall, C.N.S., Allied Health, Internal Medicine, Endocrinology
Kelly F. Hall, M.D., Associate Attending, Family Medicine
Nathan C. Hall, M.D., Ph.D., Associate Attending, Radiology
Trudy L. Hamilton, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology
Nicole R. Hans, C.N.P., Allied Health, Neurology
Charles J. Hardebeck, M.D., Associate Attending, Internal Medicine, Cardiovascular
Medicine
D. Reynell Harder Smith, D.O., Associate Attending, Ophthalmology
David T. Hart, M.B.B.S., Associate Attending, Internal Medicine, Cardiovascular Medicine
Sheri L. Hart, M.D., Ph.D., Associate Attending, Neurology
Ayesha K. Hasan, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine
David W. Hauswirth, M.D., Associate Attending, Internal Medicine, Immunology
Veronica D. Haverick, C.R.N.A., Allied Health, Anesthesiology
Kathleen S. Hawker, M.D., Associate Attending, Neurology
Jeffrey W. Hazey, M.D., Associate Attending, Surgery, General Surgery
Dean W. Hearne, M.D., Associate Attending, Internal Medicine, Dermatology
Lee A. Hebert, M.D., Associate Attending, Internal Medicine, Nephrology
Shawn M. Hedderman, C.R.N.A., Allied Health, Anesthesiology
Megan L. Hendershot, P.A., Allied Health, Surgery, Thoracic/Cardiovascular
Mitchell L. Henry, M.D., Associate Attending, Surgery, Transplant
Grace Hercl, D.O., Community Associate, Internal Medicine, General Medicine
Adam B. Hessel, M.D., Associate Attending, Internal Medicine, Dermatology
Andrew J. Hicks, C.R.N.A., Allied Health, Anesthesiology
William J. Hicks, M.D., Attending, Internal Medicine, Hematology/Oncology
James M. Highley, D.O., Associate Attending, Anesthesiology
Charles L. Hitchcock, M.D., Ph.D., Associate Attending, Pathology, Pathology
Lisa M. Hoffman, C.N.S., Allied Health, Internal Medicine, Hematology/Oncology
Stephen P. Hoffmann, M.D., Associate Attending, Internal Medicine, Pulmonary, Critical
Care
Craig C. Hofmeister, M.D., Attending, Internal Medicine, Hematology/Oncology
John E. Hohmann, M.D., Associate Attending, Anesthesiology
Amy B. Hoisington-Stabile, M.D., Associate Attending, Psychiatry
Scott A. Holliday, M.D., Associate Attending, Internal Medicine, General Medicine
Donna M. Holtzapfel, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology
Quazi M.A. Hossain, M.D., Community Associate, Internal Medicine, General Medicine
Stephen L. Houff, M.D., Associate Attending, Internal Medicine, General Medicine
Mahmoud Houmsse, M.D., Associate Attending, Internal Medicine, Cardiovascular
Medicine
Cheryl A. Huang, C.N.S., Allied Health, Otolaryngology
Julianne C. Huefner, M.D., Associate Attending, General Medicine
Walter B. Hull, M.D., Associate Attending, Obstetrics and Gynecology
John D. Hummel, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine
Andrew F. Hundley, M.D., Associate Attending, Obstetrics and Gynecology
Jeffrey L. Hunter, D.O., Associate Attending, Family Medicine, Family Medicine
Jay D. Iams, M.D., Associate Attending, Obstetrics and Gynecology
Steven W. Ing, M.D., Associate Attending, Internal Medicine, Endocrinology
Shaheen Islam, M.B.B.S., Associate Attending, Internal Medicine, Pulmonary, Critical
Care
Iouri Ivanov, M.D., Associate Attending, Pathology
Rebecca D. Jackson, M.D., Associate Attending, Internal Medicine, Endocrinology
Abraham Jacob, M.D., Associate Attending, Otolaryngology
Sanjay Jain, M.D., Associate Attending, Radiology
Pauline F. James, C.N.S., Allied Health, Internal Medicine, Hematology/Oncology
V. Rama Jayanthi, M.D., Associate Attending, Surgery, Urological Surgery
Rafael E. Jimenez, M.D., Associate Attending, Pathology
Janice L. Johanson, C.R.N.A., Allied Health, Anesthesiology
Michael G. Johanson, D.O., Associate Attending, Anesthesiology

September 21, 2007 meeting, Board of Trustees

Ernest W. Johnson, M.D., Associate Attending, Physical Medicine/Rehab, Physical Medicine and Rehabilitation
Daniel E. Jolly, D.D.S., Associate Attending, Dentistry, Dental
Jeffrey A. Jones, M.D., Attending, Internal Medicine, Hematology/Oncology
Karenann Jones, C.R.N.A., Allied Health, Anesthesiology
John M. Jonesco, III, D.O., Associate Attending, Family Medicine
Wanjiku Kabiru, M.D., Associate Attending, Obstetrics and Gynecology
Samir Kahwash, M.D., Associate Attending, Pathology
Colin G. Kaide, M.D., Associate Attending, Emergency Medicine
Shalva V. Kakabadze, M.D., Associate Attending, Family Medicine
Steven J. Kalbfleisch, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine
Trisha A. Kall, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology
Ram C. Kalyanam, M.D., Associate Attending, Psychiatry
Bharat K. Kantharia, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine
David B. Kaplansky, D.P.M., Associate Attending, Orthopaedic Surgery, Podiatry
Boris I. Karanfilov, M.D., Associate Attending, Otolaryngology
Matthew R. Karlen, M.D., Associate Attending, Radiology
Rajaram J. Karne, M.B.B.S., Associate Attending, Internal Medicine, Endocrinology
Maria Katakaki, M.D., Ph.D., Associate Attending, Neurology
Steven E. Katz, M.D., Associate Attending, Ophthalmology
Lisa M. Keder, M.D., Associate Attending, Obstetrics and Gynecology
Thomas C. Keeling, M.D., Community Associate, Internal Medicine, Infectious Disease
Garrett T. Kelly, M.D., Associate Attending, Anesthesiology
Jamielynn W. Kemp, P.A.*, Allied Health, Radiology 4/1/07 - 11/30/07
Kari L. Kendra, M.D., Ph.D., Attending, Internal Medicine, Hematology/Oncology
Elizabeth A. Kennard, M.D., Associate Attending, Obstetrics and Gynecology
Melanie S. Kennedy, M.D., Associate Attending, Pathology
Ruthann C. Kennedy, C.N.P., Allied Health, Internal Medicine, Pulmonary, Critical Care
Brian D. Kenney, M.D., Associate Attending, Surgery, Pediatric Surgery
Sedigheh Keyhani-Rofagha, M.D., Associate Attending, Pathology
Babak Khabiri, D.O., Associate Attending, Anesthesiology
Hooman Khabiri, M.D., Associate Attending, Radiology
Sorabh Khandelwal, M.D., Associate Attending, Emergency Medicine
Raheela A. Khawaja, M.D., Associate Attending, Internal Medicine, Endocrinology
Rami N. Khayat, M.D., Associate Attending, Internal Medicine, Pulmonary, Critical Care
Gordon Y. Kim, D.O., Associate Attending, Internal Medicine, Digestive Disease
Mark T. Kearns, M.D., Associate Attending, Internal Medicine, General Medicine
Denis R. King, M.D., Associate Attending, Surgery, Pediatric Surgery
Mark A. King, M.D., Associate Attending, Radiology
Elizabeth A. Kinkade, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology
Susan M. Kirchner, C.R.N.A., Allied Health, Anesthesiology
Robert B. Kirkpatrick, III, M.D., Associate Attending, Internal Medicine, Digestive Disease
Lawrence S. Kirschner, M.D., Ph.D., Associate Attending, Internal Medicine, Endocrinology
John T. Kissel, M.D., Associate Attending, Neurology
Justin F. Klammer, M.D., Associate Attending, Internal Medicine, General Medicine
Dori L. Klemanski, C.N.P., Allied Health, Surgery, Surgical Oncology
Rebecca B. Klisovic, M.D., Attending, Internal Medicine, Hematology/Oncology
Richard T. Kloos, M.D., Associate Attending, Internal Medicine, Endocrinology
Richard T. Kloos, M.D., Associate Attending, Radiology
Robert G. Kloos, D.O., Associate Attending, Surgery, General Surgery
Jeffrey R. Kneile, M.D., Associate Attending, Pathology
Bodo E. Knudsen, M.D., Associate Attending, Surgery, Urological Surgery
Douglas J. Knutson, M.D., Associate Attending, Family Medicine
Lawrence Koegel, Jr., M.D., Associate Attending, Otolaryngology
Susan L. Koletar, M.D., Associate Attending, Internal Medicine, Infectious Disease

September 21, 2007 meeting, Board of Trustees

Albert J. Kolibash, Jr., M.D., Associate Attending, Internal Medicine, Cardiovascular
Medicine

Amy M. Kopp, M.D., Associate Attending, Ophthalmology

Sandra K. Kostyk, M.D., Ph.D., Associate Attending, Neurology

Kavitha V. Kosuri, D.O., Attending, Internal Medicine, Hematology/Oncology

Alan J. Kover, M.D., Associate Attending, Anesthesiology

Eric H. Kraut, M.D., Attending, Internal Medicine, Hematology/Oncology

Mandy L. Krouse, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology

Brett D. Kucej, M.D., Associate Attending, Radiology

James F. Lamb, M.D., Associate Attending, Internal Medicine, General Medicine

David R. Lambert, M.D., Associate Attending, Internal Medicine, Dermatology

Mark B. Landon, M.D., Associate Attending, Obstetrics and Gynecology

Jean E. LaPolla, L.M.T., Allied Health, Family Medicine

John A. Larry, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine

Peter E. Larsen, D.D.S., Associate Attending, Dentistry, Dental

Christine E. Lawless, M.D., Associate Attending, Internal Medicine, Cardiovascular
Medicine

Cynthia H. Ledford, M.D., Associate Attending, Internal Medicine, General Medicine

Sungkyu Christopher Lee, M.D., Associate Attending, Radiology

Carl V. Leier, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine

Donald C. LeMay, D.O., Associate Attending, Family Medicine

Richard G. Lembach, M.D., Associate Attending, Ophthalmology

Joanne L. Lester, C.N.P., Allied Health, Surgery, Surgical Oncology

Alan D. Letson, M.D., Associate Attending, Ophthalmology

Edward J. Levine, M.D., Associate Attending, Internal Medicine, Digestive Disease

Richard P. Lewis, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine

Lin Li, M.D., Associate Attending, Anesthesiology

Jason B. Lichten, M.D., Associate Attending, Surgery, Plastic Surgery

Richard J. Limperos, M.D., Associate Attending, Emergency Medicine

Thomas S. Lin, M.D., Ph.D., Attending, Internal Medicine, Hematology/Oncology

Beth W. Liston, M.D., Associate Attending, Internal Medicine, General Medicine

Christopher S. Litts, M.D., Associate Attending, Orthopaedic Surgery, Orthopaedics

Zhenguo Liu, M.D., Ph.D., Associate Attending, Internal Medicine, Cardiovascular
Medicine

Simon S. Lo, M.B., Ch.B., Attending, Radiation Medicine

Gwyn R. Londeree, M.D., Associate Attending, Internal Medicine, Dermatology

Luis A. Lopez, M.D., Associate Attending, Anesthesiology

Richard R. Love, M.D., Attending, Internal Medicine, Hematology/Oncology

Gerard Lozanski, M.D., Associate Attending, Pathology

Maria R. Lucarelli, M.D., Associate Attending, Internal Medicine, Pulmonary, Critical
Care

Joel G. Lucas, M.D., Associate Attending, Pathology

Margaret S. Lucas, P.A., Allied Health, Internal Medicine, Hematology/Oncology

Catherine R. Lucey, M.D., Associate Attending, Internal Medicine, General Medicine

John P. Lymanstall, C.R.N.A., Allied Health, Anesthesiology

D. Joanne Lynn, M.D., Associate Attending, Neurology

Gregory D. Pearson, M.D., Associate Attending, Surgery, Plastic Surgery

Tracy A. Ruegg, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology

Alan Burnette, P.A., Allied Health, Surgery, Cardiothoracic, 5/29/2007 - 12/31/2007

Maria H. Estrada, D.O., Associate Attending, Pediatrics, Pediatric Critical Care,
4/13/2007 - 3/31/2009

Jill A. Fitch, M.D., Associate Attending, Pediatrics, Pediatric Critical Care, 4/13/2007 -
3/31/2009

Mark Galantowicz, M.D., Associate Attending, Surgery, Cardiothoracic, 5/29/2007 -
3/31/2009

John R. Kalmar, D.M.D., Associate Attending, Dentistry, Dental, 4/13/2007 - 3/31/2009

Sherman A. Katz, M.D., Associate Attending, Surgery, Cardiothoracic, 4/13/2007 -
3/31/2009

September 21, 2007 meeting, Board of Trustees

Nadeem Khan, M.D., Associate Attending, Pediatrics, Pediatric Critical Care, 4/13/2007 - 3/31/2009

Charles J. Love, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 4/13/2007 - 3/31/2009

Medical Staff - Requests for Additional Privileges (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Laura E. Adams, C.N.P., Allied Health, Internal Medicine, Lumbar Puncture w IT Chemo, 3/9/2007

Carol L. Amore, C.N.P., Allied Health, Internal Medicine, Lumbar Puncture w IT Chemo, 3/9/2007

Lisa C. Binzel, C.N.P., Allied Health, Surgery, Prescriptive Authority & Drain Removal 4/1/2007

Quinn Capers, IV, M.D., Associate Attending, Internal Medicine, Peripheral interventions: Aortoiliac & Brachiocephalic Arteries, Abdominal Visceral (renal & mesentric) Arteries, & Infrainguinal Arteries, 3/9/2007

John Carlson, M.D., Associate Attending, Radiology, Image guided percutaneous ablation, 2/9/2007

David E. Cohn, M.D., Attending, OB/GYN, Co² Laser, 2/9/2007

Charles A. Elmaraghy, M.D., Associate Attending, Otolaryngology, Lasers, 4/1/2007

Erik W. Evans, D.D.S., M.D., Associate Attending, Dentistry, Lasers, 4/1/2007

Susan A. Ezzone, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, ABGs, Chemo Administration, Chemo vis Ommaya Reserv, Bone Marrow Aspiration/Biopsy, Skin Punch Biopsy/Suturing, Lumbar Puncture w IT Chemo, Lumbar Puncture, IT Chemo Admin, Temp Apheresis Catheter Removal, 4/1/2007

Mary E. Fontana, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 4/1/2007

L. Arick Forrest, M.D., Associate Attending, Otolaryngology, Lasers, 4/1/2007

Jill A. Foster, M.D., Associate Attending, Ophthalmology, Lasers, 4/1/2007

Jeffrey M. Fowler, M.D., Attending, OB/GYN, Lasers, 4/1/2007

Theodore Fraker, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 4/1/2007

John J. Fromkes, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 4/1/2007

Julia A. Garrett, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, 4/1/2007

Thomas J. Gavin, M.D., Associate Attending, Emergency Medicine, Hyperbaric Oxygen, 4/1/2007

Rupa Ghosh-Berkebile, C.N.P., Allied Health, Internal Medicine, Prescription Authority, Chemo Admin & Paracentesis, 4/1/2007

Jason Gilleran, M.D., Associate Attending, Urological Surgery, Laser & Moderate Sedation, 4/1/2007

Jennifer L. Glatz, C.N.P., Allied Health, Internal Medicine, Prescription Authority, Chemo Admin, ABGs, Bone Marrow Aspiration/Biopsy, Skin Punch Biopsy/Suturing, Chemo via Ommaya Reservoir, 4/1/2007

Diane Gorgas, M.D., Associate Attending, Emergency Medicine, Hyperbaric Oxygen, 4/1/2007

Gregory E. Guy, M.D., Associate Attending, Radiology, Moderate Sedation, 4/1/2007

Nandkishore Gurrar, M.B.B.S., Associate Attending, Internal Medicine, Moderate Sedation, 4/1/2007

Nabil J. Haddad, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 4/1/2007

Christine E. Hall, C.N.S., Allied Health, Internal Medicine, Prescriptive Authority and Discharge Instructions/Writing, 4/1/2007

Trudy L. Hamilton, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, 4/1/2007

Nicole R. Hans, C.N.P., Allied Health, Neurology, Prescriptive Authority, 4/1/2007

David T. Hart, M.D., Associate Attending, Internal Medicine, Moderate & Deep Sedation, 4/1/2007

September 21, 2007 meeting, Board of Trustees

Ayesha Hasan, M.D., Associate Attending, Internal Medicine, Moderate & Deep Sedation, 4/1/2007

Jeffrey W. Hazey, M.D., Associate Attending, Surgery, Lasers, 4/1/2007

Megan L. Hendershot, P.A., Allied Health, Surgery, Chest Tube Removal, 4/1/2007

Lisa M. Hoffman, C.N.S., Allied Health, Internal Medicine, Prescriptive Authority, Discharge Instructions/Writing, Skin Punch Biopsy & Suturing, Bone Marrow Aspiration/Biopsy, 4/1/2007

Donna Holtzapfel, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, Bone Marrow Aspiration & Biopsy & Chemo Administration, 4/1/2007

Mahmoud Houmsse, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 4/1/2007

John Hummel, M.D., Associate Attending, Internal Medicine, Moderate & Deep Sedation, 4/1/2007

Abraham Jacob, M.D., Associate Attending, Otolaryngology, Lasers, 4/1/2007

Sanjay Jain, M.D., Associate Attending, Radiology, Moderate Sedation, 4/1/2007

Maria V. Johnson, C.N.P., Allied Health, Surgery, Prescriptive Authority & Drain Removal, 3/9/2007

Steven J. Kalbfleisch, M.D., Associate Attending, Internal Medicine, Moderate & Deep Sedation, 4/1/2007

Trisha A. Kall, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority & Bone Marrow Aspiration/Biopsy, 4/1/2007

Bharat K. Kantharia, M.D., Associate Attending, Internal Medicine, Moderate & Deep Sedation, 4/1/2007

Steven E. Katz, M.D., Associate Attending, Ophthalmology, Laser, 4/1/2007

Lisa M. Keder, M.D., Associate Attending, OB/GYN, Moderate Sedation, 4/1/2007

Ruthann C. Kennedy, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, 4/1/2007

Hooman Khabiri, M.D., Associate Attending, Radiology, Moderate Sedation, 4/1/2007

Sorabh Khandelwal, M.D., Associate Attending, Emergency Medicine, Hyperbaric Oxygen, 4/1/2007

Gordon Y. Kim, D.O., Associate Attending, Internal Medicine, Moderate Sedation, 4/1/2007

Elizabeth Kinkade, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority & ABGs, 4/1/2007

Robert B. Kirkpatrick III, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 4/1/2007

Dori Klemanski, C.N.P., Allied Health, Surgery, Prescriptive Authority & Drain Removal, 4/1/2007

Sheri A. Knepel, M.D., Associate Attending, Emergency Medicine, Hyperbaric Oxygen, Emergency Ultrasound, 3/9/2007

Bodo E. Knudsen, M.D., Associate Attending, Urological Surgery, Moderate Sedation/Lasers, 4/1/2007

Lawrence Koegel, Jr., M.D., Associate Attending, Otolaryngology, Lasers, 4/1/2007

Mandy L. Krouse, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, Chemo Admin, Bone Marrow Aspiration & Biopsy, Lumbar Puncture, Lumbar Puncture w IT Chemo & IT Chemo Administration, 4/1/2007

Jean E. LaPolla, L.M.T., Allied Health, Family Medicine, Neuromuscular Massage, 4/1/2007

RESOLUTIONS IN MEMORIAM

Resolution No. 2008-25

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Mary Evelyn Shoemaker Baker

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 24, 2007, of Mary Evelyn Shoemaker Baker, Assistant Professor Emeritus in the University Libraries.

Mary Evelyn served The Ohio State University and its libraries well and for many years. She came to OSU as a cataloger in 1935, resigned in 1937, and then served again from 1938-44. In 1955, she joined the Libraries again and continued her career until her retirement in 1974. During that period, most of her responsibilities centered on the cataloging of library materials. For brief periods, Mrs. Baker served in the Acquisition Department, as acting librarian of the Botany and Zoology Library, and as administrative assistant to the director of Libraries. Most of Mrs. Baker's leadership and contributions were in Cataloging. She retired as head of the Catalog Department of the OSU Libraries.

September 21, 2007 meeting, Board of Trustees

Professor Baker helped OSU and its libraries change to a modern university with new ways of accessing information. As a cataloger, Mrs. Baker was fundamental to the educational mission of the University. Students and faculty, then and now, need cataloging records to use library materials in teaching and research. Also, her work as a cataloger occurred during unusual times in the history of the University. In the 1950s and 1960s, the campus and the Libraries experienced extraordinary growth, not only in students and faculty, but also in books and journals. The new acquisitions challenged OSU's catalogers to keep pace. In the 1960s and 1970s, The Ohio State University Libraries pioneered in using computers to circulate and to catalog library materials.

Colleagues in the OSU Libraries remember Mrs. Baker fondly. One librarian recalled that in the early 1970s, when the challenges of computers caused some librarians to retire rather than to adapt, Mrs. Baker encouraged others to accept change. She gave each of her staff a china cat as a personal thank-you, and some still have them. Another librarian remembered that Mrs. Baker, after retiring, returned to campus to give a gift in appreciation to a colleague who had typed annual reports for many years.

On behalf of the University community, the Board of Trustees expresses to the family of Mary Evelyn Shoemaker Baker its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

Austin B. Ezzell

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 26, 2007, of Austin B. Ezzell, Professor Emeritus in the Ohio State University Extension.

Dr. Ezzell was born March 14, 1915 in Belgreen, Alabama. He received his Bachelor of Science degree in 1948 in agriculture education from Alabama Polytechnic Institute in Auburn, Alabama, his Master of Science degree in 1956 in agriculture economics from Michigan State University, and his Ph.D. degree in 1961 in agriculture economics from The Ohio State University.

Austin began his Extension career in Ohio in June 1958 as an extension specialist in food merchandising. In 1964 he became the assistant director-Agriculture and Marketing. His title was changed in 1969 to assistant director-Agriculture Industry, and he held this position until his retirement in March 1975.

Dr. Ezzell's contributions in providing Extension educational programs during his career proved that he was truly dedicated to his career in Extension. He worked with many local committees and agencies to provide leadership for the Program and Policy Committee of the Farm Science Review, Fruit Committee, Field Days and Special Events Committee, Pesticide Safety Committee, Soil Testing Advisory Committee, Livestock Marketing Committee, and the Cooperative Council. He also participated in statewide workshops for animal health and kept abreast of current subject matter in the agriculture field. Professor Ezzell's leadership also focused on two major divisions of agriculture which were "Improving Farm Income" and "Marketing, Utilization, Distribution and Farm Supply" for farmers all over the state of Ohio.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Austin B. Ezzell its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

September 21, 2007 meeting, Board of Trustees

Robert G. Hill, Jr.

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 10, 2007, of Robert G. Hill, Jr., Professor Emeritus in the Department of Horticulture and Crop Science.

Dr. Hill earned Bachelor of Science, Master of Science, and Ph.D. degrees in horticulture at the University of Maryland. His first position was assistant professor-fruit crops at The Ohio State University and Ohio Experimental Station (now Ohio Agricultural Research and Development Center).

An associate chairperson of the Department of Horticulture, Dr. Hill retired in 1983 after a 33-year teaching and research career. He taught graduate and undergraduate horticulture science courses at The Ohio State University campus in Columbus during winter quarter for 17 years. He did research in small and stone fruit crops in Wooster, evaluating cultivars adaptations to Ohio conditions. In 1963-64, he spent a sabbatical leave at the Scotland Horticultural Research Institute, at Invergowrie, near Dundee. He did research on evaluating small fruit production systems.

He was affiliated as a fellow of the American Society of Horticultural Science, Ohio Fruit and Vegetable Growers Association, American Pomological Society, and American Society of Plant Physiologists. He is listed in *American Men of Science*, *Who's Who in the Midwest*, and *Leaders in American Science*.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Robert G. Hill, Jr. its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Norris E. Lenahan

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on July 1, 2007, of Norris E. Lenahan, M.D., Associate Professor Emeritus in the Department of Anesthesiology.

Professor Lenahan received both his Bachelor of Arts and Doctor of Medicine degrees from The Ohio State University. Before coming to The Ohio State University, he was in private practice in general medicine. In 1942, Dr. Lenahan joined the Department of Surgery at OSU. During his tenure at the University, he founded the Division of Anesthesiology within the Department of Surgery. Dr. Lenahan served as head of the Division of Anesthesiology until 1947. He continued on as an associate clinical professor and also after retiring in 1973 as an associate professor emeritus, until his death.

Dr. Lenahan continued his medical and anesthesiology careers by heading the Departments of Anesthesiology at St. Anthony and Mercy Hospitals. He served as the state physician for the Ohio State Highway Patrol for 30 years. He was the first full-time physician at the student health center at Capital University. He also organized and opened the new health center at the Wesley Glen community in 1969. He served as the medical director at Wesley Glen for 14 years; subsequently, Wesley Glen named the new health center after Dr. Lenahan. While serving in all of these esteemed positions, Dr. Lenahan continued a limited private medical practice.

He was active in several professional and fraternal organizations. He was a member of the American Board of Anesthesiology, the International College of Surgeons, the American Medical Association, the Ohio State Medical Association, and the Columbus and Franklin County Academies of Medicine. Dr. Lenahan was a member of the Phi Chi fraternity at OSU and was made an honorary member of the Alpha Omega Alpha medical

September 21, 2007 meeting, Board of Trustees

fraternity in 1984. He was also a member of the Linden Kiwanis, chairman of their Operation Drug Alert program, and a 32nd degree Mason for 65 years.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Norris E. Lenahan its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Rodney Marhoover

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 3, 2007, of Rodney Marhoover, Associate Professor Emeritus in the Ohio State University Extension.

Mr. Marhoover was born February 23, 1920, in Spargursville, Ohio. He received his Bachelor of Science in Agriculture degree in 1942 and his Master of Science degree in 1958 in agriculture economics, both from The Ohio State University.

Rodney began his Extension career in Ohio in July 1944 as the county agriculture agent in Ross County. In 1949 he moved to Carroll County as the county agriculture agent. In 1955 he moved to Jackson County as the county agriculture agent, and remained in this position until his retirement in February 1975.

Mr. Marhoover's contributions in providing Extension educational programs during his career proved that he was a truly dedicated teacher in Extension. His programs included working with beef cattle farmers to help them expand their feeder calf production by more than 50% and assisting farmers in increasing forage and grain crops to economically feed expanding numbers of cattle. He presented programs to fruit growers to help them maintain quality and expand production for higher income from their orchards. He organized a new fruit growers club for the expansion of strawberries and grapes.

He was a member of the Ohio County Extension Agents' Association as well as the National Association of County Agriculture Agents. He was recognized as an "Outstanding County Agent in Ohio" in 1959 by the NACAA. Professor Marhoover served on many advisory committees in the agriculture field.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Rodney Marhoover its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Alvin L. Moxon

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 21, 2007, of Alvin L. Moxon, Professor Emeritus in the Department of Animal Sciences.

Professor Moxon held a B.S. degree in agricultural chemistry from South Dakota State University, an M.S. degree in chemistry and toxicology from the same institution, and a Ph.D. degree in agricultural biochemistry from the University of Wisconsin. He served as head of the Agricultural Experiment Station Chemistry Department at South Dakota State from 1941-51, when he accepted the position of associate chair of the Department of Animal Science (now Department of Animal Sciences) at the Ohio Agricultural Experiment Station (now Ohio Agricultural Research and Development Center) in

September 21, 2007 meeting, Board of Trustees

Wooster, Ohio. He was also appointed as professor of both animal science and agricultural biochemistry at The Ohio State University.

Dr. Moxon became interested in international animal agriculture in 1960, spending six months at the Agricultural College of Ludhiana in Punjab, India. In 1964, he accepted the position of Assistant Chief of Party and professor of animal nutrition in the College of Agriculture located in Piracicaba, Brazil (University of São Paulo). At that time, he stepped down as associate chair at Ohio State. He returned to the Department in 1966, but only briefly, going back to Brazil in 1967 for four more years as Chief of Party.

Upon his return in 1971 he collaborated with several faculty members in analyzing feedstuffs, blood, and body tissues for selenium, retiring from OSU in 1979. During his years at South Dakota he had been instrumental in discovering that alkali disease was the result of selenium toxicity. Subsequent investigations revealed that animals also needed this element and he then helped establish the selenium requirement in different animal species.

Dr. Moxon received numerous awards for his work, both national and international. He was also active in many professional societies. He authored or co-authored 195 scientific publications, two reviews, and four book chapters. Without question, A. L. Moxon was a true pioneer in understanding both the toxicity and essentiality of selenium in feedstuffs.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Alvin L. Moxon its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Alan R. Osborne

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on July 29, 2007, of Alan Reid Osborne, Professor Emeritus in the School of Teaching and Learning.

Professor Osborne held a Bachelor of Science degree from Earlham College and A.M. and Doctorate degrees from the University of Michigan. He joined the faculty of the College of Education at The Ohio State University in 1965 and taught at the school for 29 years.

Professor Osborne was admired by his colleagues and students for his wide-ranging interests and intellect, his thoughtful approach to problem solving, and his consensus-building role in governance. His teaching and scholarship interest focused on the development of a highly geometric approach to problem solving and pre-calculus mathematics. In 1989, he co-authored with Greg Foley, an instructional manual of teaching materials to strengthen students' understanding of mathematics and effectively foreshadow the study of calculus.

He was part of the team which piloted a new course for college-intending high school seniors who, as juniors, showed essentially no skills in algebra. This project was funded by the Battelle Memorial Foundation. Dr. Osborne served his profession at the highest level.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Alan R. Osborne its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

September 21, 2007 meeting, Board of Trustees

Robert V. O'Toole

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 17, 2007, of Robert V. O'Toole, M.D., Professor Emeritus in the Department of Pathology.

Professor O'Toole held a Bachelor of Science degree from Siena College in Loudonville, New York, and a Doctorate in Medicine from the St. Louis University School of Medicine. He served his internship at the Valley Forge Army Hospital in Phoenixville, Pennsylvania, from 1957-58; his residency in obstetrics and gynecology at the Albany Medical Center in Albany, New York, from 1958-62; his fellowship in gynecological pathology at Johns Hopkins from 1964-65; and his second residency in anatomic pathology at Wilford Hall USAF Medical Center in 1973-74. He served in the Medical Corps of the United States Air Force for 23 years, retiring with the rank of colonel. While in the USAF, he taught at the University of Texas Health Science Center of San Antonio from 1969-76 before being recruited to The Ohio State University in 1976 as an associate professor of pathology, an associate professor of obstetrics and gynecology, and director of cytopathology by Dr. Donald Senhauser, then chairperson of the Department of Pathology. He retired in 1997 with the title Professor Emeritus.

Professor O'Toole was an enthusiastic and dedicated teacher who relished the interactions with medical students, pathology, obstetrics and gynecology residents and fellows. After he retired, he continued his teaching at the Thomas Worthington High School in industrial arts until 2005, when he was called back to work in the Department of Pathology at OSU where he continued part-time until February 2007.

Dr. O'Toole's research interests centered on improvements in the diagnosis and treatment of gynecological cancers. He did this work through the Southwest Oncology Group (SWOG) and had grants from that organization from 1978-97. These grants included the review of many SWOG protocols as well as the review of studies on Toremifene and Tamoxifen.

Dr. O'Toole served his profession at the highest level. He was double-boarded in obstetrics and gynecology and anatomic pathology. This gave him the unique perspective to bridge any gaps between the two specialties and serve both well and with distinction. He was a fellow in the College of American Pathologists and served as a member on its Performance Improvement Committee. He was also a fellow in the American College of Obstetricians and Gynecologists and served as the chairperson of its District Resident Education Committee as well as the chairperson of its District Continuing Post Graduate Nursing Education Committee. In addition, he was a member of the American Society of Cytology, the Society of Air Force Clinical Surgeons, the Southwest Oncology Group, the Central Ohio Society of Pathologists, the International Society of Gynecologic Pathology, and the Buckeye Cytology Society.

Professor O'Toole was an active member of the University community and served on numerous school, college, and University committees, including the Obstetrics and Gynecology Tissue Committee, the Cancer Committee, the College of Medicine Med II Committee, the OSU Hospital Medical Staff Grievance Committee, and the LCME Accreditation Self-Study Task Force. Within the Department of Pathology, he served on the Undergraduate Education Committee, the Graduate Medical Education Committee, the Computer Committee, and the Promotion and Tenure Committee.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Robert V. O'Toole its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

September 21, 2007 meeting, Board of Trustees

Carl F. Purtz, Jr.

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 26, 2006, of Carl F. Purtz, Jr., Associate Professor Emeritus in the Department of Civil and Environmental Engineering and Geodetic Science.

Professor Purtz received his Bachelor of Science degree in mathematics from Stetson University. He was later inducted into their Athletic Hall of Fame at Stetson University. A veteran of World War II, Professor Purtz served in the U.S. Navy in Pensacola, Florida, for four years as an Air Navigator. He moved to Columbus, Ohio, after his service to the U.S. Navy was complete.

Professor Purtz earned his Master of Science degree in civil engineering in 1950 from The Ohio State University. He began teaching in both the Mathematics and Civil Engineering Departments at The Ohio State University shortly after receiving his master's degree. He taught courses in surveying, calculus, and statistics for 32 years, retiring in 1978. Professor Purtz was well known for teaching the ten-week surveying class that was held at Zeleski State Forest near Lake Hope, Ohio, for many civil engineering students.

Professor Purtz, along with another professor, Eldis Reed, had their own engineering and surveying company, Purtz & Reed, in Columbus, Ohio, for a short period of time. After retirement from OSU, Professor Purtz moved to West Palm Beach and began teaching at Palm Beach Community College. He expanded the Land Surveying Program at Palm Beach Community College until his retirement in 1989.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Carl F. Purtz, Jr. its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Hartzel C. Slider

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on July 5, 2007, of Hartzel C. "Slip" Slider, Professor Emeritus in the Department of Chemical and Biomolecular Engineering.

Slip was a decorated B-24 bomber pilot in World War II with 35 missions over Europe. After his discharge in 1945, he enrolled at The Ohio State University and received his Bachelor of Engineering degree in Mining (petroleum engineering option) and Master of Science degree in engineering mining in 1949.

After graduation he joined the Shell Oil Company as a field engineer and rose rapidly to become a division reservoir engineer in 1954. In 1956, he returned to Ohio State as an associate professor in the Department of Mining and Petroleum Engineering, which merged with the Department of Chemical Engineering soon after. He was promoted to full professor in the Department of Chemical Engineering in 1976. Upon his retirement in 1983, he was awarded the title of professor emeritus.

Professor Slider developed a number of new petroleum engineering courses relating to drilling, reservoir engineering, etc. When the petroleum engineering degree was abolished in 1962, a petroleum option, focused on a number of these courses, was established in the Department of Chemical Engineering. For many chemical engineering graduates, this petroleum option launched them on lifetime careers in petroleum production with major oil companies. Many graduates who achieved great success in their professional careers have expressed their gratitude for Slip Slider's mentoring. For several years after becoming an emeritus professor, he continued to teach these courses because of student demand.

September 21, 2007 meeting, Board of Trustees

Professor Slider was an international authority on reservoir engineering and did extensive research on secondary recovery. He regularly gave short courses for petroleum production engineers all over the United States, Europe, South America, and Asia. In 1978-79 he was a distinguished lecturer for the Society of Petroleum Engineers. In 1976 he published the textbook, "Practical Petroleum Reservoir Engineering Methods," designed to be both a student text and a reference book for practicing reservoir engineers. It was the first book to cover both fundamentals and practical reservoir methods.

In 1979-80 he took a sabbatical to work with Texaco affiliates in Houston, Sumatra, Saudi Arabia, Nigeria, Angola, Portugal, England, and New York. Based on his overseas work experiences, he wrote his second text, "Worldwide Practical Petroleum Reservoir Engineering Methods," published in 1983. The text has been republished in three editions.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Hartzel C. "Slip" Slider its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

John G. Streeter

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 26, 2007, of John G. Streeter, Professor Emeritus in the Department of Horticulture and Crop Science.

Professor Streeter held a Bachelor of Science degree and a Master of Science degree in agronomy from Pennsylvania State University. He received a Doctorate degree in botany and plant physiology from Cornell University. Dr. Streeter came to The Ohio State University/Ohio Agricultural Research and Development Center in February 1969 and retired in September 2004. His major research areas were in basic soybean physiology.

Dr. Streeter was recognized around the world as the pre-eminent scholar on the function of soybean nodules and the role they play in nitrogen fixation, nutrient uptake, and carbohydrate metabolism. He worked with others to help solve problems of soybean tolerance to drought stress and for the development of unique soybeans for new products.

When he started his career at OARDC, soybean nodule functions were viewed as a "black box." Today, nearly half of the current knowledge in this important area is the direct result of his research. He was a visiting scientist in many parts of the world, including China, Japan, Russia, Austria, South Africa, Argentina, and Brazil, to name a few.

Dr. Streeter was an exceptional researcher with regard to new ideas and approaches to research. He was an excellent biochemist and had a wide and deep knowledge of all areas in biochemistry and plant physiology. He was an active leader in the plant physiology group at OARDC and demonstrated his ability to direct his research programs and technicians.

Professor Streeter was active in several professional organizations related to his profession. He was a National Science Foundation Graduate Fellow, a recipient of the American Soybean Association Researchers Recognition Award, and a fellow in the American Society of Agronomy and Crop Science Society of America.

On behalf of the University community, the Board of Trustees expresses to the family of Professor John G. Streeter its deepest sympathy and sense of understanding of their

September 21, 2007 meeting, Board of Trustees

loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

E. Earl Whitlatch, Jr.

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 9, 2007, of Elbert Earl "Woody" Whitlatch, Jr., Associate Professor (retired) in the Department of Civil and Environmental Engineering and Geodetic Science.

Professor Whitlatch received his Bachelor of Science degree in engineering from Geneva College and his Bachelor of Science degree in civil engineering from Carnegie Mellon University. He served in the Peace Corps for two years in Uruguay and Panama from 1968-70. In 1970 he entered Cornell University to pursue studies in water resources engineering and later transferred to Johns Hopkins University, where he obtained a Ph.D. degree under the guidance of Professor Charles S. Revelle. In 1973 he joined the faculty of the Department of Civil Engineering at OSU as an assistant professor.

Professor Whitlatch taught, conducted research, and advised graduate students in environmental systems engineering. He was a co-author with Professors Charles S. Revelle and Jeff R. Wright of the widely-used textbook *Civil and Environmental Systems Engineering*. He was principal investigator of the research program that evaluated the National Stream Water Quality Accounting Network, which is used by the United States to monitor and evaluate river water quality nationwide. He was also the central figure in mentoring new faculty hires in the areas of environmental engineering and environmental fluid mechanics. His dedication to educating our students was evident in his service to the engineering accreditation board, ABET, as well as his recent curriculum reform efforts. He was a member of and supported several environmental organizations, including the National Institutes for Water Resources, the Universities Council on Water Resources, the Natural Resources Defense Council, the Audubon Society, and the Sierra Club.

From 1995-2006 Professor Whitlatch was the director of the Ohio Water Resources Center. This Center was first established as part of the Engineering Experiment Station in 1959. In 1964 it became one of the first 14 Water Resources Research Institutes established by the federal government. In 2000, under Professor Whitlatch's leadership, the Center became a conduit for the Ohio Water Development Authority's annual Special Research Competition in Water and Wastewater Treatment Processes and Management.

On behalf of the University community, the Board of Trustees expresses to the family of Professor E. Earl Whitlatch, Jr. its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2008-26

Synopsis: The University Development Report for June 2007 is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

September 21, 2007 meeting, Board of Trustees

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The M.S. Sofia Chair in Arabic Studies, The William E. Hunt, M.D. and Charlotte M. Curtis Chair in Neuroscience, and The David E. Schuller, M.D. and Carole Schuller Chair in Otolaryngology; and

WHEREAS this report includes the establishment of thirteen (13) new named endowed funds, the revision of two (2) professorships, and the revision of five (5) endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of June 2007 be approved.

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Total
Gifts

Establishment of Named Endowed Chair

The M.S. Sofia Chair in Arabic Studies \$1,500,046.57
(Used to support a distinguished scholar in Arabic studies; provided by gifts from Mr. Zuheir Sofia and friends) (grandfathered)

Change in Name and Description of Named Endowed Professorship

From: The Department of Pathology Professorship
To: Ernest Scott, M.D., Endowed Professorship in Pathology

Change from Designated Professorship to Endowed Fund

From: The John C. Elam/Vorys Sater Designated Professorship in Law
To: The John C. Elam/Vorys Sater Professorship Fund \$406,960.00
(Used to provide a professorship position in the Moritz College of Law; provided by gifts from family and friends of John C. Elam and Ohio State Law alumni employed by Vorys Sater Seymour & Pease)

Establishment of Named Endowed Funds

The Phi Gamma Delta Endowed Scholarship Fund \$165,000.00
(Used to provide merit or need-based scholarships to currently enrolled students who are active members of the Phi Gamma Delta Fraternity; provided by gifts from alumni, brothers, and friends of the Phi Gamma Delta Fraternity)

Academic Excellence Fund \$100,000.00
(Used to encourage academic excellence through use by the University president for supplemental funding for programmatic initiatives or support for programs led by key University personnel; provided by an initial gift from G. Gilbert Cloyd)

Food, Agricultural, and Environmental Sciences Alumni Society \$32,355.51
Undergraduate Scholarship Endowment Fund
(Used to provide scholarship support to undergraduate students enrolled in agriculture and natural resources who demonstrate leadership abilities in positions of authority in student clubs and activities across the college; provided by gifts from alumni and friends of the College of Food, Agricultural, and Environmental Sciences (CFAES), and contributions from the CFAES Alumni Society through fundraisers and alumni sponsored events and activities) (grandfathered)

Establishment of Named Endowed Funds (contd)

The Forrest and Marjorie Miller Endowed Fund for Study Abroad \$30,250.00
(Used to provide one travel award per year for a travel abroad experience to a deserving undergraduate student majoring in Italian, French, or Spanish; provided by gifts from Susan Miller Van Ausdal in honor of Forrest and Marjorie Miller) (grandfathered)

September 21, 2007 meeting, Board of Trustees

The William H. Hall Endowment Fund for Pancreatic and Liver Cancer Research \$25,000.00
(Used to support pancreatic and liver cancer research at the Comprehensive Cancer Center - The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute; provided by gifts from Mrs. Kathleen A. Hall, and family, friends, and associates in memory of her husband William H. Hall) (grandfathered)

Change in Description of Named Endowed Fund

Larry Peterson Young Educators Award Fund

Change in Name and Description of Named Endowed Funds

From: The Demkee Dental Athletic Provider Award
To: The Demkee Dental Athletic Provider Award Permanent Endowment Fund

From: The Smith E. Howland and Aristech Chemical Corporation Scholarship Fund
To: The Smith E. Howland Scholarship Fund

Establishment of Named Endowed Chairs

The William E. Hunt, M.D. and Charlotte M. Curtis Chair in Neuroscience \$2,025,945.59
(Used to support a chair in neuroscience; provided by gifts from the Charlotte Curtis Hunt Living Trust made in memory of William E. Hunt, M.D. and Charlotte M. Curtis)

The David E. Schuller, M.D. and Carole Schuller Chair in Otolaryngology \$1,505,000.00
(Used to support a chair for a head and neck oncology surgeon at the Comprehensive Cancer Center - The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute; provided by gifts made in honor of Dr. David E. Schuller and Carole Schuller) (grandfathered)

Establishment of Named Endowed Funds

The Ralph G. and Doris A. Woodley Scholarship Fund \$1,028,775.62
(Used to provide merit scholarships to students in the College of Engineering; provided by estate gifts from Ralph G. Woodley and Doris A. Woodley)

The Robert V. O'Toole, M.D. Endowment Fund in Pathology \$1,000,100.00
(Used to support faculty salaries and fringe benefits and other operating expenses within the Division of Cytopathology; provided by gifts from OSU Pathology Services, L.L.C. in honor of Dr. Robert V. O'Toole)

Robert Max Thomas Graduate Fellow Endowment Fund \$187,848.37
(Used to recognize a distinguished graduate student in the Department of Geography or to attract such students to that department; provided by gifts from the estate of Robert Max Thomas to memorialize Professor Alfred J. Wright)

The Toni C. and Emerson Cheek III Athletic Scholarship Fund \$60,000.00
(Used to support a student-athlete who is pursuing a degree at OSU and is a member of a varsity sport team; provided by a gift from Toni C. and Emerson Cheek III)

September 21, 2007 meeting, Board of Trustees

Inara Mencis Brubaker Scholarship Endowment Fund in Chemistry \$52,661.30
(Used to provide scholarship awards to graduate students studying chemistry with preference given to students specializing in analytical and physical chemistry; provided by gifts from Inara Mencis Brubaker)

Dr. Clifford Heer Graduate Student Scholarship Award Fund in \$50,046.50
the Department of Physics
(Used to provide scholarship awards to graduate students studying physics; provided by gifts in memory of Professor Emeritus Clifford Heer from his wife Esther Heer and other family members)

Mangino Food Science Scholarship Fund \$50,000.00
(Used to provide scholarship support for undergraduate students enrolled in the Department of Food Science and Technology with preference given to graduates of the Columbus Public Schools; provided by gifts from Michael E. and Marilyn Mangino)

Class of 1964 Scholarship Fund \$34,650.00
(Used to provide scholarships for students enrolled in the College of Veterinary Medicine; provided by gifts from alumni and friends of the College of Veterinary Medicine) (grandfathered)

Change in Description of Named Endowed Fund

The Upraka-Laga-Schweitzer Fund in Czech Studies

Change in Name and Description of Named Endowed Fund

From: The Richard Shroyer and Cheryl Evans Leiss Family Fund
To: The Richard Shroyer Leiss and Cheryl Evans Leiss Family Fund

Total \$8,254,639.46

Establishment of Named Endowed Chair

The M. S. Sofia Chair in Arabic Studies

The M. S. Sofia Scholarship and Lecture Memorial Fund in Arabic was established June 1, 1990, by the Board of Trustees of The Ohio State University with gifts from Zuheir Sofia. With an additional gift commitment from Mr. Sofia, the description was revised and the name was changed to The M. S. Sofia Professorship in Arabic Studies Fund on May 5, 1995. With another gift commitment from Mr. Sofia and friends, the description was again revised and the name was changed to The M. S. Sofia Chair in Arabic Studies Fund on November 2, 2001. The required funding level for a chair has been reached, and The M. S. Sofia Chair in Arabic Studies was established September 21, 2007.

The annual distribution from this fund shall be used to support a distinguished scholar whose professional activities and academic credentials will contribute to:

1. The development of a greater understanding and awareness of Arabic language, culture, heritage, and literature;
2. The dissemination of such knowledge in both the academy and the community; and
3. The training of pre-collegiate teachers and university professors to integrate Arabic language, literature, and cultural components into their respective curricula and programs.

September 21, 2007 meeting, Board of Trustees

The donor and the chairperson of the Department of Near Eastern Languages and Cultures in consultation with the dean of the College of Humanities shall periodically review the achievement of the above-described purposes and discuss modifications, if necessary.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Humanities in consultation with the chairperson of the Department of Near Eastern Languages and Cultures. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Chair: \$1,500,046.57

Change in Name and Description of Named Endowed Professorship

Ernest Scott, M.D., Endowed Professorship in Pathology

The Department of Pathology Professorship was established July 12, 2002, by the Board of Trustees of The Ohio State University with gifts from friends of the Department of Pathology. An additional gift was made by OSU Pathology Services, LLC to honor the career of Ernest Scott, M.D., the first chairperson of the Department of Pathology (1904-34). The name and description were revised September 21, 2007.

The annual distribution from this fund shall support a professorship position for the advancement of medical knowledge in the field of pathology research, both basic and clinical, and shall be held by an individual who is or shall be a member of the Department of Pathology in the College of Medicine. The position shall be held by a nationally eminent faculty member who has distinguished himself/herself in the performance of pathology research, who is NIH-funded as a principal investigator, who maintains an active productive research program, and who is an effective educator-teacher.

Selection shall be made as recommended by the senior vice president for Health Sciences and the dean of the College of Medicine in consultation with the chairperson of the Department of Pathology. The activities of the endowed professorship holder shall be reviewed no less than every four years by the senior vice president for Health Sciences and the dean of the College of Medicine to determine compliance with the intent of the donors as well as the academic and research standards of the University.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the senior vice president for Health Sciences, dean of the College of Medicine, and chairperson of the Department of Pathology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

September 21, 2007 meeting, Board of Trustees

Change from Designated Professorship to Endowed Fund

The John C. Elam/Vorys Sater Professorship Fund

The John C. Elam/Vorys Sater Designated Professorship in Law was established December 6, 2002, by the Board of Trustees of The Ohio State University with gifts from the family and friends of John C. Elam and Ohio State Law alumni employed by Vorys Sater Seymour & Pease. With additional gift commitments, the designated professorship was changed to an endowed fund September 21, 2007.

Until the principal balance reaches \$750,000, the annual distribution from this fund shall help support a designated professorship position in The Michael E. Moritz College of Law. When the principal balance reaches \$750,000, the annual distribution shall provide an endowed professorship position in the Moritz College of Law. Appointment to the professorship shall be recommended by the dean of the Moritz College of Law and the executive vice president and provost, and approved by the Board of Trustees.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment:	\$406,960.00
Total Commitment:	\$750,000.00

Establishment of Named Endowed Funds

The Phi Gamma Delta Endowed Scholarship Fund

The Phi Gamma Delta Endowed Scholarship Fund was established September 21, 2007, by the Board of Trustees of The Ohio State University with gifts from alumni, brothers, and friends of Phi Gamma Delta Fraternity.

The annual distribution from this fund shall be used to provide merit- or need-based scholarships to currently enrolled students who are active members of the Phi Gamma Delta Fraternity. Scholarship recipients shall be selected by Phi Gamma Delta House Corporation, Phi Gamma Delta BCA or successor department within the Office of Student Affairs in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Student Affairs. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment:	\$165,000.00
--------------------------------	--------------

September 21, 2007 meeting, Board of Trustees

Academic Excellence Fund

The Academic Excellence Fund was established September 21, 2007, by the Board of Trustees of The Ohio State University with an initial gift from G. Gilbert Cloyd (D.V.M., 1969), chairman of The Ohio State University Board of Trustees, to assist with the retention and recruitment of the highest caliber academic and administrative leaders for The Ohio State University, and to provide supplemental funding for campus initiatives and programs.

Upon designation and approval by an appointed committee of the Board of Trustees utilizing pre-approved guidelines, the annual distribution shall be used to encourage academic excellence through use by the University president for supplemental funding for programmatic initiatives or support for programs led by key University personnel, including but not limited to, start-up and continuing costs for research or support for compensation for key personnel. The Board intends this endowment to help Ohio State attract and retain exceptionally talented individuals who enable the delivery of the highest quality education for our students, while facilitating an affordable system for students and the taxpayers of Ohio. Start-up and continuing activities must also be separately authorized through standard University processes. This fund is to provide resources beyond the standard funding sources.

It is the expectation of the Board of Trustees that the principal of the fund shall not be invaded; however, upon approval by the appointed committee of the Board of Trustees and utilizing pre-approved guidelines, the principal may be used for the above programmatic initiatives and program support. In no circumstance will the principal be permitted to fall below the minimum funding level established by the Board of Trustees.

In any given year in which the annual distribution is not fully expended, the unused portion shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the University president in consultation with the executive vice president and provost and the senior vice president for Business and Finance. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$100,000.00

Food, Agricultural, and Environmental Sciences Alumni Society Undergraduate Scholarship Endowment Fund

The Food, Agricultural, and Environmental Sciences Alumni Society Undergraduate Scholarship Endowment Fund was established September 21, 2007, by the Board of Trustees of The Ohio State University with gifts from alumni and friends of the College of Food, Agricultural, and Environmental Sciences (CFAES), and contributions from the CFAES Alumni Society through fundraisers and alumni sponsored events and activities.

The annual distribution from this fund shall provide scholarship support to one or more undergraduate students enrolled in agriculture and natural resources who demonstrate leadership abilities in positions of authority in student clubs and activities across the College, including departmental or school clubs and activities. While financial need may be a consideration, significant emphasis will be placed on leadership contributions the

September 21, 2007 meeting, Board of Trustees

students have made in their clubs or activities in terms of encouraging participation of other students, organization and implementation of the club's events and activities, and effectiveness as a leader within the group and across the College. Students must have a minimum 2.8 cumulative grade point average to be considered.

Selection will be the responsibility of the assistant dean for Student Affairs in consultation with a representative of the CFAES Alumni Society Board of Directors, and the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

If the need for this scholarship ceases to exist, it is the donors' first preference that the annual distribution shall be used to support student leadership development programs that are ongoing in the College at that time. If student leadership development programs are non-existent at that time, it is the donors' second preference that the annual distribution shall be used at the discretion of the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences, or his designee, for other student related programs in the College.

Furthermore, it is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences, or his designee. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$32,355.51 (grandfathered)

The Forrest and Marjorie Miller Endowed Fund for Study Abroad

The Forrest and Marjorie Miller Endowed Fund for Study Abroad was established September 21, 2007, by the Board of Trustees of The Ohio State University with gifts from Susan Miller Van Ausdal (B.S., 1971) in honor of Forrest and Marjorie Miller.

The annual distribution from this fund shall be used to provide one travel award per year for a travel abroad experience to a deserving undergraduate student majoring in Italian, French, or Spanish who has a 3.0 (or higher) cumulative grade point average. Additionally, the student must be ranked as a junior or higher at the time of travel. Award recipients will be selected by the director of the Foreign Language Center and the chairperson of the Department of Spanish and Portuguese and approved by the dean of the College of Humanities.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

September 21, 2007 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Humanities. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$30,250.00 (grandfathered)

The William H. Hall Endowment Fund for Pancreatic and Liver Cancer Research

The William H. Hall Endowment Fund for Pancreatic and Liver Cancer Research at the Comprehensive Cancer Center - The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute, was established September 21, 2007, by the Board of Trustees of The Ohio State University, with gifts from Mrs. Kathleen A. Hall, family, friends, and associates in memory of her husband, William H. Hall of Mt. Vernon, Ohio.

The annual distribution from this fund shall be used to support pancreatic and liver cancer research at the Comprehensive Cancer Center - The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute at The Ohio State University under the direction of the director of the Division of Hematology/Oncology, or his successor as approved by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

Change in Description of Named Endowed Fund

Larry Peterson Young Educators Award Fund

The Larry Peterson Young Educators Award Fund was established March 3, 2000, by the Board of Trustees of The Ohio State University with gifts from colleagues, friends, and alumni in honor of Dr. Larry Peterson. Dr. Peterson served as head of the Oral and Maxillofacial Surgery Section in the College of Dentistry from 1982-88. The description was revised September 21, 2007.

The annual distribution from this fund shall be used for an award to be given to a faculty member in the College of Dentistry who has been teaching between one and three years and has demonstrated unusual enthusiasm for teaching. The award will be announced at the College's annual faculty retreat usually held in December.

Nomination letters may be submitted to the selection committee which shall be comprised of Dr. Larry Peterson, the associate dean for Academic Affairs, and the associate dean

September 21, 2007 meeting, Board of Trustees

for Graduate Studies. In the future, if any one of these individuals shall not be available or if the current academic position ceases to exist, then the dean shall appoint a replacement with the substitute having similar academic responsibilities and Dr. Peterson's replacement shall be a senior member who is recognized as an enthusiastic teacher. The committee shall always have three members.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Dentistry. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Change in Name and Description of Named Endowed Funds

The Demkee Dental Athletic Provider Award Permanent Endowment Fund

The Demkee Dental Athletic Provider Award was established September 1, 1993, by the Board of Trustees of The Ohio State University with gifts from the Demkee family through the Demkee Scholarship Fund. The name and description were revised September 21, 2007.

The annual distribution from this fund shall be used to provide a suitable award for a dental student actively providing dental care in the Department of Athletics. This award benefits both the College of Dentistry and the Department of Athletics. Award recipients shall be selected by the dean of the College of Dentistry in consultation with the director of Athletics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the director of Athletics and the dean of the College of Dentistry. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The Smith E. Howland Scholarship Fund

The Smith E. Howland and Aristech Chemical Corporation Scholarship Fund was established September 13, 1996, by the Board of Trustees of The Ohio State University with a gift from Smith E. Howland (B.Ch.E., 1969; M.S., 1969) and the Aristech Chemical Corporation. The name and description were revised September 21, 2007.

The annual distribution from this fund shall provide one or more Smith E. Howland Scholarships to students majoring in chemical engineering who have completed their freshman year and who rank academically in the top quartile among chemical

September 21, 2007 meeting, Board of Trustees

engineering majors. Preference will be given to candidates who are graduates from high schools in Ohio's Scioto or Lawrence Counties.

Secondary preference will be given to graduates of high schools in the Ohio counties of Adams, Gallia, and Jackson; in the Kentucky counties of Boyd, Carter, and Greenup; and in the West Virginia counties of Cabell and Wayne. Selection will be made by the chairperson of the Department of Chemical and Biomolecular Engineering with assistance from the College of Engineering Scholarship Committee and in consultation with the Office of Student Financial Aid. The chairperson will inform Mr. Howland of the use of each year's distribution.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the chairperson of the Department of Chemical and Biomolecular Engineering in consultation with the dean of the College of Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Establishment of Named Endowed Chairs

The William E. Hunt, M.D. and Charlotte M. Curtis Chair in Neuroscience

The William E. Hunt, M.D. and Charlotte M. Curtis Neuroscience Endowment Fund was established August 30, 2000, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Charlotte Curtis Hunt Living Trust made in memory of William E. Hunt, M.D. and Charlotte M. Curtis. The required funding level for a chair has been reached, and the chair was established September 21, 2007.

The annual distribution from this fund shall be used to support the growth and development of neuroscience in the College of Medicine by creating a chair in neuroscience. The chair holder shall be recommended by the dean of the College of Medicine in consultation with the senior vice president for Health Sciences, and appointed by the Board of Trustees. The chair shall be held by one of the following individuals: the chairperson of the Department of Neuroscience, the director of the Neuroscience Institute, or another notable faculty member in the department. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donor as well as the academic and research standards of the University.

The annual distribution will be used to promote the Neurosciences through such uses as, including but not limited to, post-doctoral neurosurgery fellowships, neuroscience research (e.g., graduate and post-doctorate research), extraordinary laboratory equipment and supplies, and neuroscience lectureships. Income allocation shall be determined at the discretion of the chair holder in consultation with the vice dean for Research and the dean of the College of Medicine.

The annual distribution will not pay the salaries of those holding faculty or other full-time permanent positions at The Ohio State University or pay for the other usual costs incurred by the Department of Neuroscience or the Neuroscience Institute. With respect to the use of the income for post-doctoral salaries or equivalents, no more than twenty-five percent (25%) of income cumulatively during any four (4) year period may be used for salaries or equivalents, e.g., twenty-five percent (25%) of the annual income for each

September 21, 2007 meeting, Board of Trustees

of four (4) consecutive years could be used annually for such salaries or one hundred percent (100%) of the income during one (1) year of a four (4) year consecutive period could be used for such salaries or equivalents.

In the event that the distribution from the donated funds is not spent during the fiscal year in which the distribution is available to the program supported by the donated Charlotte Curtis Living Trust fund, the program may retain any unspent funds so that the program may operate in an orderly fashion over an extended period without any pressure to spend the distribution during any particular fiscal year.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

Any fees charged by the Foundation for its management services shall be only those fees charged by the Foundation in the usual course of its business to all other funds donated and managed by the Foundation. Any fees charged by the Foundation shall be paid from income earned from the funds donated by the Charlotte Curtis Living Trust and not from the corpus of those donated funds.

It is the desire of the donor that this fund should benefit the University in perpetuity. However, if the University does not fulfill all of the commitments made by the University then the principal of the endowment funds given to the University by the donor shall be promptly thereafter given by the University to the Columbus Foundation, an Ohio Corporation not-for-profit, Columbus, Ohio, or its successors for the uses and purposes as set forth in a Deed of Gift dated April 24, 2000, from donor to the Columbus Foundation wherein the donor has assigned to the Columbus Foundation its rights to have this agreement honored by the University in perpetuity, a copy of which Deed of Gift is attached hereto and by this reference incorporated herein.

Amount Establishing Endowment: \$2,025,945.59

The David E. Schuller, M.D. and Carole Schuller Chair in Otolaryngology

The David E. Schuller, M.D. and Carole Schuller Chair in Otolaryngology was established September 21, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with a gift made in honor of Dr. David E. Schuller and Carole Schuller from Richard J. Solove (B.S.Pharm., 1948; Honorary Doctor of Science, 2000; member, The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board) of New Albany, Ohio.

The annual distribution from this fund shall be used for a chair position supporting a distinguished head and neck oncology surgeon in the Department of Otolaryngology in the College of Medicine. The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended by the chairperson of the Department of Otolaryngology and as approved by the dean of the College of Medicine and the senior vice president for Health Sciences. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donor as well as the academic and research standards of the University.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide

September 21, 2007 meeting, Board of Trustees

unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Medicine and the senior vice president for Health Sciences in consultation with the chairperson of the Department of Otolaryngology. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$1,505,000.00 (grandfathered)

Establishment of Named Endowed Funds

The Ralph G. and Doris A. Woodley Scholarship Fund

The Ralph G. and Doris A. Woodley Scholarship Fund was established September 21, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with estate gifts from Ralph G. Woodley (B.I.E., 1941) and Doris A. Woodley of Kettering, Ohio.

The annual distribution from this fund shall be used to provide one or more merit scholarships to students in the College of Engineering. Preference will be given to residents of the state of Ohio and efforts will be made to award 33% of the Woodley awards to industrial and systems engineering majors. The Woodley Scholarship would be equal to at least \$3,000 or 50% of three quarters of full-time tuition per year. Additional Woodley support may be provided on a pro-rated basis to a Woodley Scholar who elects to enroll for an additional fourth quarter. Woodley Scholars are eligible to compete for renewed awards. Selection will be made by the dean of the College of Engineering in consultation with the chairperson of the Department of Industrial, Welding, and Systems Engineering and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Engineering. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$1,028,775.62

The Robert V. O'Toole, M.D. Endowment Fund in Pathology

The Robert V. O'Toole, M.D. Endowment Fund in Pathology was established September 21, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from OSU Pathology Services, LLC, of Columbus, Ohio, made in honor of the career of Dr. Robert V. O'Toole (Professor Emeritus) who served the Department of Pathology from 1976-97 as professor and director of the Division of Cytopathology.

The annual income from the fund shall be used to support faculty salaries and fringe benefits and other operating expenses within the Division of Cytopathology or other needs of the Department of Pathology.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

September 21, 2007 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of Pathology in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$1,000,100.00

Robert Max Thomas Graduate Fellow Endowment Fund

The Robert Max Thomas Graduate Fellow Endowment Fund was established September 21, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Robert "Bob" Max Thomas (B.S.Bus.Adm., 1949) to memorialize Professor Alfred J. Wright (OSU faculty 1928-64) as an outstanding scholar, excellent teacher, and tireless supporter of student activities.

Robert Max Thomas was well known in Coshocton, Ohio, for his dedication to community development and his passion for promoting economic growth. He served as president of the Coshocton Chamber of Commerce, was a member of the Roscoe Village Foundation, and played an integral role in the founding of the Leadership Coshocton County Program. His lifelong dedication to civic responsibility was recognized in 1994 when he received the Coshoctonian Award.

The annual distribution from this fund shall be used to recognize a distinguished graduate student in the Department of Geography or to attract such students to that department. Qualified candidates shall demonstrate professional promise with special consideration given to students expressing an interest in economic geography or the impact of geography on economic development. Appointment of the graduate fellow shall be by the chairperson of the Department of Geography, in consultation with the dean of the College of Social and Behavioral Sciences and the Graduate Committee.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distribution, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Social and Behavioral Sciences in consultation with the chairperson of the Department of Geography. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$187,848.37

The Toni C. and Emerson Cheek III Athletic Scholarship Fund

The Toni C. and Emerson Cheek III Athletic Scholarship Fund was established September 21, 2007, by the Board of Trustees in accordance with guidelines approved

September 21, 2007 meeting, Board of Trustees

by the Board of Directors of The Ohio State University Foundation, with a gift from Toni C. and Emerson Cheek III from Westerville, Ohio.

The annual distribution from this fund shall be used to support a student-athlete who is pursuing a degree at The Ohio State University and is a member of a varsity sport team. It is the donors' desire that the scholarship be awarded in furtherance of the University's diversity mission with particular attention to, but not limited to, a female scholar-athlete who is a graduate from an Ohio high school and who has been accepted for admissions at the University. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

Scholarship recipients must be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to prove unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment:	\$60,000.00
Total Commitment:	\$100,000.00

Inara Mencis Brubaker Scholarship Endowment Fund in Chemistry

The Inara Mencis Brubaker Scholarship Endowment Fund in Chemistry was established September 21, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Inara Mencis Brubaker.

The annual distribution from this fund shall provide annual scholarship awards to graduate students studying chemistry with preference given to students specializing in analytical and physical chemistry. Recipients will be selected based on academic performance, as determined by the chairperson of the Department of Chemistry in conjunction with the dean of the College of Mathematical and Physical Sciences and the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Mathematical and Physical Sciences in consultation with the chairperson of the Department of Chemistry.

September 21, 2007 meeting, Board of Trustees

Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$52,661.30

**Dr. Clifford Heer Graduate Student Scholarship Award Fund
in the Department of Physics**

The Dr. Clifford Heer Graduate Student Scholarship Award Fund in the Department of Physics was established September 21, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts in memory of Professor Emeritus Clifford Heer (B.S.Phys., 1942; Ph.D., 1949) from his wife, Esther Heer (B.S., 1949) and other family members.

Dr. Heer was a professor in the Departments of Physics and Astronomy at The Ohio State University from 1949-90. He was a dedicated teacher and researcher who expected and received excellent work from his students. His accomplishments included co-inventing the cyclic magnetic refrigerator, and being the first to measure angular rotation using a microwave interferometer. The focus of his research was low temperature physics. He produced more than 80 published research works on topics such as: low temperature physics, atomic and laser physics, general relativity, and statistical physics.

The annual distribution from this fund shall provide annual scholarship awards to graduate students studying physics. Recipients will be selected based on academic performance, as determined by the faculty chairperson of the Department of Physics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Mathematical and Physical Sciences in consultation with the chairperson of the Department of Physics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,046.50
Total Commitment: \$150,000.00

Mangino Food Science Scholarship Fund

The Mangino Food Science Scholarship Fund was established September 21, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Marilyn Mangino (M.A., 1984) and Michael Mangino.

The annual distribution from this fund shall be used to provide scholarship support for undergraduate students enrolled in the Department of Food Science and Technology with preference given to graduates of Columbus Public Schools. Scholarship recipients will be selected by the vice president for Agricultural Administration and University Outreach,

September 21, 2007 meeting, Board of Trustees

and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

Class of 1964 Scholarship Fund

The Class of 1964 Scholarship Fund was established September 21, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from alumni and friends of the College of Veterinary Medicine.

The annual distribution from this fund shall provide a scholarship for a student enrolled in the College of Veterinary Medicine. Scholarship recipients shall be selected by the dean of the College of Veterinary Medicine in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$34,650.00

Change in Description of Named Endowed Fund

The Upraka-Laga-Schweitzer Fund in Czech Studies

The Upraka-Laga-Schweitzer Fund in Czech Studies was established March 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Sharon Marie Schweitzer-Robinson (B.A., 1984). The description was revised September 21, 2007.

The fund is named after relatives of the donor: Jozef Uprka, artist; his brothers Frantisek Uprka, sculptor, and Jan Uprka, artist; the Laga family; and the donor's mother, Evelyn

September 21, 2007 meeting, Board of Trustees

Mary Laga Schweitzer and her parents, Mary Antonia Nekarda-Laga and Frank Martin Laga.

The annual distribution from this fund shall be used to defray the cost of tuition or other program costs for undergraduate or graduate students studying Czech language and culture at The Ohio State University in the College of Humanities. Preference shall be given to students in a Czech study abroad program, specifically in the Moravian regions of the Czech Republic. Scholarship recipients will be selected by the dean of the College of Humanities in consultation with the chairperson of the Department of Slavic and East European Languages and Literatures and the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Humanities in consultation with the chairperson of the Department of Slavic and East European Languages and Literatures. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Change in Name and Description of Named Endowed Fund

The Richard Shroyer Leiss and Cheryl Evans Leiss Family Fund

The Richard Shroyer and Cheryl Evans Leiss Family Fund was established April 7, 2000, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Richard Shroyer Leiss (B.S. Animal Sciences, 1960; M.S. Horticulture Food Technology, 1962) and Cheryl Evans Leiss (B.S. Family Resource Management, 1964) of Columbus, Ohio. The name and description were revised September 21, 2007.

One-third of the annual distribution from this fund shall be directed to The Stefanie Spielman Fund for Breast Cancer Research to be used in perpetuity for breast cancer research. Two-thirds of the annual income shall be used to support students whose major study and/or research focus is human nutrition and food science in the Department of Food Science and Technology. The student must have financial need and have been a resident of Ohio for at least 10 years.

The use of the annual distribution for support of a student in the human nutrition field shall be directed by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences, in consultation with the chairperson of the Department of Food Science and Technology and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide

September 21, 2007 meeting, Board of Trustees

unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

INTERIM AUTHORIZATION FOR TWO CAPITAL PROJECTS

Resolution No. 2008-27

Synopsis: The report of the Chair of Fiscal Affairs Committee granting authorization for two capital construction projects during the period between the July and September Board meetings is proposed.

WHEREAS at their July 2007 meeting, the Board of Trustees delegated to the Chair of the Fiscal Affairs Committee authority to authorize design and construction contracts for capital projects during the period prior to the September 2007 Board of Trustees meeting; and

WHEREAS during that period, the University brought forward two projects for such approval; and

WHEREAS the first project requested authorization to enter into design and construction for the Carmack parking lot on West Campus and the parking lot serving the ElectroScience Building, with a conceptual project budget of \$646,000; and

WHEREAS the second project requested authorization to enter into design and construction contracts for renovations to the Veterinary Medicine food service area, with a conceptual project budget of \$337,000; and

WHEREAS in accordance with established guidelines, approval to proceed was received from the Chair of the Fiscal Affairs Committee for both these projects:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby accepts the report of the Chair of the Fiscal Affairs Committee regarding authorization to enter into design and construction contracts, as indicated, for the above mentioned projects.

(See Appendix IX for background information, page 319.)

INTERIM AUTHORIZATION TO ENTER INTO DESIGN, CONSTRUCTION MANAGEMENT, AND CONSTRUCTION CONTRACTS

Resolution No. 2008-28

Synopsis: Authorization to enter into design, construction management, and construction contracts for University capital projects as necessary prior to the September Board of Trustees meeting is requested.

WHEREAS to support the Academic Plan, ensure timely design and construction of University facilities and improvements, and make the most effective use of limited financial resources, the University desires to move forward expeditiously with needed capital projects, subject to approval by the Board of Trustees; and

WHEREAS the next scheduled meeting of the Board of Trustees is on November 2, 2007; and

September 21, 2007 meeting, Board of Trustees

WHEREAS during the intervening period, the Board desires to facilitate such approvals, subject to appropriate review and oversight:

NOW THEREFORE

BE IT RESOLVED, That in the intervening period before the next regularly scheduled meeting of the Board of Trustees on November 2, 2007, the Chair of the Fiscal Affairs Committee, in consultation with the Committee and with the Chair of the Board of Trustees as appropriate, shall have the authority, on behalf of the Board of Trustees, to authorize design, construction management, and construction contracts, and approve other related actions, for University capital projects; and

BE IT FURTHER RESOLVED, That, during this period, as approved by the President, the Senior Vice President for Business and Finance shall present any needed actions to authorize design, construction management, and/or construction contracts or take any related actions for capital projects to the Chair of the Fiscal Affairs Committee, as she may direct, for review and approval; and

BE IT FURTHER RESOLVED, That, in accordance with the process outlined above and subject to the written approval of the Chair of the Fiscal Affairs Committee, the President and/or Senior Vice President for Business and Finance shall be authorized to enter into design contracts and construction management contracts and enter into construction contracts, if satisfactory bids are received, and take any other related actions on capital projects, in accordance with established University and State of Ohio procedures, with these actions to be reported to the Board at the November 2007 meeting; and

BE IT FURTHER RESOLVED, That the authority granted by this resolution shall expire as of the November 2007 meeting.

**APPROVAL TO ENTER INTO DESIGN AND
CONSTRUCTION CONTRACTS, TO INCREASE CONSTRUCTION
CONTRACT, AND TO ENTER INTO A JOINT USE AGREEMENT**

Resolution No. 2008-29

APPROVAL TO ENTER INTO DESIGN CONTRACTS

9TH AVENUE GARAGE - WEST ELEVATOR RENOVATION
ANIMAL SCIENCE AIR HANDLING UNIT RENOVATION

WILCE STUDENT HEALTH - PHASE III

**APPROVAL TO INCREASE CONSTRUCTION CONTRACT
INCREASE CAMPUS ELECTRIC CAPACITY PHASE I
(THIRD TRANSFORMER)**

**APPROVAL TO ENTER INTO A JOINT USE AGREEMENT
WOOD COUNTY CENTER FOR AGRICULTURE**

Synopsis: Authorization to enter into design and construction contracts, to increase construction contracts and to enter into a joint use agreement, as detailed in the attached materials, is requested.

WHEREAS in accordance with the attached materials, the University desires to undertake, and enter into design contracts for the following projects:

9 th Avenue Garage - West Elevator Renovation (N/A)	\$0.3M	Auxiliary funds
Animal Science Air Handling Unit Renovation (N/A) (07-08 Basic Renovation request)	\$0.7M	State funds
Cockins Hall Masonry/Roof Repairs (07-08 Basic Renovation request)	\$1.5M	State funds
Doan Hall - Rooms 242 and 242A Upgrades (N/A)	\$0.3M	OSUMC Health Systems
James Cancer Hospital - Elevator Upgrades Phase II (N/A)	\$1.4M	OSUMC Health Systems
Medical Center Pharmacy Upgrades (N/A)	\$5.0M	OSUMC Health Systems
Newman & Wolfrom Steam Station Replacement (07-08 Basic Renovation request)	\$0.4M	State funds
OARDC - Chilled Water Plant Upgrade (07-08 capital request) (07-08 Basic Renovation request)	\$1.5M	State funds
Science and Engineering Library Renovation (N/A)	\$0.6	Department general funds
Smith Laboratory Classroom Renovations (07-08 Basic Renovation request)	\$2.0M	State funds

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following projects:

9 th Avenue Garage - West Elevator Renovation (N/A)	\$0.3M	Auxiliary funds
ACAMS Installation - Campus Buildings (N/A)	\$0.4M	Central funds
Ackerman Complex Drive Resurface - Vet Clinic Lot Repaving (N/A)	\$0.4M	Auxiliary funds
Animal Science Air Handling Unit Renovation (07-08 Basic Renovation request)	\$0.7M	State funds
Buckeye Village Laundry Facility (N/A)	\$0.3M	Auxiliary funds
Doan Hall - Rooms 242 and 242A Upgrades (N/A)	\$0.3M	OSUM Health Systems
Newman & Wolfrom Steam Station Replacement (07-08 Basic Renovation request)	\$0.4M	State funds
Science and Engineering Library Renovation (N/A)	\$0.6M	Department general funds
Wilce Student Health - Phase III (N/A)	\$3.7M	Auxiliary funds State funds

WHEREAS in accordance with the attached materials, the University desires to increase construction contract for the following projects:

2008- \$9.0M Bond proceeds
(Third Transformer) (05-06 Capital Request)

WHEREAS in accordance with the rules of the Ohio Board of Regents, the University desires to enter into a joint use agreement with the Delaware Speech and Hearing Center, Inc. for the following project:

September 21, 2007 meeting, Board of Trustees

Wood County Center for Agriculture

\$0.3M State
Appropriations
(CAP-628)

** Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project, renovation projects funded by internal office or department funds that are noted as "N/A" have not had separate capital project authorization because of their small size or because they arose unexpectedly between capital planning cycles.*

NOW THEREFORE

BE IT RESOLVED, that the President and/or Senior Vice President for Business and Finance be authorized to enter into design and construction contracts, to increase construction contracts and to enter into a joint use agreement, for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix X for background information, page 322.)

EASEMENTS

Resolution No. 2008-30

THE CITY OF COLUMBUS, OHIO

0.002 ACRES, LOCATED AT NORTHWOOD AND HIGH AND
0.209 ACRES LOCATED ON THE NORTH SIDE OF WEST CASE ROAD
UNIVERSITY AIRPORT AT DON SCOTT FIELD

Synopsis: Authorization to grant the City of Columbus an easement located at 2225 North High Street, Columbus, Ohio, south of the intersection of Northwood and High Streets and an easement located on the north side of West Case Road, in Columbus, Ohio, is proposed.

WHEREAS the City of Columbus has requested a 0.002 acre, 110 square foot, easement area to construct a handicapped accessible bus stop, for a term of 25 years; and

WHEREAS the City of Columbus has also requested a 0.209 acre easement area to widen West Case Road and create a turn lane at Sawmill Road for a term of 25 years; and

WHEREAS these easements will serve and benefit the University and the surrounding community and the appropriate University offices have determined that the granting these easements are in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve and the Ohio Department of Administrative Services be authorized to process appropriate documents and grant these easements to the City of Columbus, Ohio, upon such terms and conditions as are in the best interest of the University.

(See Appendix XI for background information, page 345.)

SALE OF REAL ESTATE

Resolution No. 2008-31

0.002 ACRES, LOCATED AT NORTHWOOD AND HIGH
COLUMBUS, OHIO

Synopsis: Authorization of the sale of 0.002 acres, located at 2225 North High Street, Columbus, Ohio, is proposed.

WHEREAS the State of Ohio for the benefit of The Ohio State University owns real estate, located at 2225 North High Street, Columbus, Ohio, at the intersection of Northwood and High Streets; and

WHEREAS the City of Columbus has approached the University to purchase land along High Street south of Northwood to construct a handicapped accessible bus stop; and

WHEREAS the appraised value of this property is \$2,750.00 and the property will be sold for the appraised value. The City of Columbus has agreed to pay the additional sum of \$320.00 to pay for replacement of landscaping that will be removed by the construction; and

WHEREAS the appropriate offices of the University have determined that the real estate is not necessary to support the mission of the University and this sale is in the best interest of The Ohio State University; and

WHEREAS the Ohio State legislature will enact legislation authorizing sale and preparation of a Governor's Deed for transfer of the property:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance, through the Ohio Department of Administrative Services, be authorized to sell all of The Ohio State University's right, title and interest in this property in accordance with the laws of the State of Ohio, upon such terms and conditions as are deemed to be in the best interest of The Ohio State University, with the net proceeds being paid to The Ohio State University.

(See Appendix XII for background information, page 347.)

SALE OF REAL ESTATE

Resolution No. 2008-32

0.209 ACRES, LOCATED ON THE NORTH SIDE OF WEST CASE ROAD
UNIVERSITY AIRPORT AT DON SCOTT FIELD, COLUMBUS, OHIO

Synopsis: Authorization of the sale of 0.209 acres, located on the North Side of West Case Road, in Columbus, Ohio is proposed.

WHEREAS the State of Ohio for the benefit of The Ohio State University owns real estate, located on the North Side of West Case Road, in Columbus, Ohio, at the University Airport at Don Scott Field at the intersection of Sawmill Road; and

WHEREAS the City of Columbus has approached the University to purchase land along West Case Road to widen the road and create a turn lane at Sawmill Road; and

WHEREAS the appraised value of this property is \$38,700.00 and the property will be sold for the appraised value. The City of Columbus has agreed to pay the additional sum

September 21, 2007 meeting, Board of Trustees

of \$6,950.00 to pay the cost for replacement of a fence line that will be removed by the construction; and

WHEREAS the appropriate offices of the University have determined that the real estate is not necessary to support the mission of the University and this sale is in the best interest of The Ohio State University; and

WHEREAS the Ohio State legislature will enact legislation authorizing sale and preparation of a Governor's Deed for transfer of the property:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance, through the Ohio Department of Administrative Services, be authorized to sell all of The Ohio State University's right, title and interest in this property in accordance with the laws of the State of Ohio, upon such terms and conditions as are deemed to be in the best interest of The Ohio State University, with the net proceeds being paid to The Ohio State University.

(See Appendix XIII for background information, page 349.)

FISCAL YEAR 2008 TOTAL UNIVERSITY CURRENT FUNDS BUDGET

Resolution No. 2008-33

Synopsis: Approval of the total University Current Funds Budget for FY2008 is proposed.

WHEREAS the State budget for FY 2008, including funding levels for State institutions of higher education, has been enacted; and

WHEREAS fee increases for the Columbus and Regional Campuses for FY 2008 have been approved at previous meetings of the Board of Trustees; and

WHEREAS other levels of resources and expenditures for the Columbus Campus and the Regional Campuses and ATI have been approved at previous meetings of the Board; and

WHEREAS adjustments have been made to eliminate double counting of transfers among the various University units; and

Whereas: the Interim President now recommends approval of the Current Funds Budget for the total University for FY 2008:

NOW THEREFORE

BE IT RESOLVED, That the University's Current Funds Budget for FY 2008, as described in the accompanying FY 2008 Current Funds Budget Book, be approved, with authorization for the Interim President and President to make expenditures within the projected income.

(See Appendix XIV for background information, page 351.)

September 21, 2007 meeting, Board of Trustees

**FY 2009 - FY 2014 CAPITAL PLAN,
INCLUDING FY 2009 - FY 2010 STATE CAPITAL REQUEST**

Resolution No. 2008-34

Synopsis: Authorization and acceptance of the FY 2009 through FY 2014 Capital Plan, including the FY 2009-FY2010 State Capital Request is proposed.

WHEREAS the University has presented the recommended capital plan for FY 2009 through FY 2014 and the recommendations regarding the capital project funding request for State and non-State funds for the FY 2009 and FY 2010 biennium; and

WHEREAS these recommendations have been reviewed through the University's governance structure; and

WHEREAS the University needs to maintain continuity in long-term planning while addressing a transition in leadership; and

WHEREAS only those projects outlined in these recommendations will be eligible for funding for the FY 2009 and FY 2010:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby adopts the proposed FY 2009 - FY 2014 capital plan, subject to further modifications in the coming years and adopts the proposed recommendations for State funds for FY 2009 - FY 2010 and directs that the State capital funding requests be submitted to the Ohio Board of Regents; and

BE IT FURTHER RESOLVED, That the Board of Trustees adopts the non-State capital funds recommendations for FY 2007 and FY 2009 and approve the cap of no more than \$500 million in additional debt in FY 2011; and

BE IT FURTHER RESOLVED, That any request for authorization to proceed with any project contained in these recommendations or for University funds for any such project must be submitted individually by the University for approval by the Board of Trustees.

(See Appendix XV for background information, page 435.)

Upon motion of Mr. McFerson, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Davidson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Marbley.

APPOINTMENT OF INVESTMENT MANAGERS AND REALLOCATION OF FUNDS

Resolution No. 2008-35

Synopsis: The Investments Committee recommended the appointment and reallocation of Investment Managers.

WHEREAS it is the policy of The Ohio State University to utilize the service of external Investment Managers to assist in the management of the University's Endowment Fund; and

WHEREAS the Investment Committee of the Board of Trustees periodically reviews the results obtained by the external Investment Managers and the amount of funds assigned to each of them; and

September 21, 2007 meeting, Board of Trustees

WHEREAS it is prudent practice to reallocate funds assigned to external investment managers as conditions change; and

WHEREAS the number of external Investment Managers and the amount of funds assigned to them shall be determined by the Board of Trustees; and

WHEREAS the Board of Trustees last approved the Appointment of Investment Managers and Reallocation of Funds on June 1, 2007:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Investments Committee of the Board of Trustees the following changes shall be made:

	<u>Allocation</u> as of 7/31/07	<u>Changes</u>	<u>Revised</u> <u>Allocation</u>

Upon motion of Mr. Shumate, seconded by Ms. Hendricks, the Board of Trustees adopted the foregoing resolution with twelve affirmative votes, cast by Trustees Cloyd, Hendricks, McFerson, Ong, Borrer, Wexner, O'Dell, Shumate, Fisher, Schottenstein, Brass, and Marbley, and two abstentions cast by Trustees Davidson and Hicks.

WAIVERS OF COMPETITIVE BIDDING REQUIREMENTS (APRIL - JUNE 2007)

Resolution No. 2008-36

Synopsis: Acceptance of the quarterly report on waivers of competitive bidding requirements is proposed.

WHEREAS the Purchasing Policy of The Ohio State University adopted by the Board of Trustees on September 7, 1984, and revised on February 7, 1992, July 8, 1994, November 7, 1997, and March 1, 2002 provides that the President and/or the Senior Vice President for Business and Finance, or for the Hospitals of the University and their related facilities, the Vice President for Health Services, may grant a waiver from competitive bidding in the event of an emergency, when a sufficient economic reason exists or when the goods or services can be purchased from only a single source, with a report on such waivers to be made quarterly to this Board; and

WHEREAS the Senior Vice President for Business and Finance has submitted a report on waivers of competitive bidding requirements granted for the period of April - June 2007; and

September 21, 2007 meeting, Board of Trustees

WHEREAS during the period covered, the Senior Vice President for Business and Finance, at the requests of the departments making the purchases and upon the recommendation of the Purchasing Department, granted 99 waivers of competitive bidding requirements for annual purchases totaling approximately \$55,025,607 as shown on the enclosed exhibit; and

WHEREAS during the period covered, the Vice President for Health Services, at the requests of the Hospitals of the University and their related facilities making purchases, granted 54 waivers of competitive bidding requirements for annual purchases totaling approximately \$13,275,768 as shown on the enclosed exhibit:

NOW THEREFORE

BE IT RESOLVED, That the report on waivers of competitive bidding requirements for the period of April - June 2007 is hereby accepted.

Upon motion of Mr. Shumate, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution with twelve affirmative votes, cast by Trustees Hendricks, McFerson, Davidson, Ong, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Marbley, and two abstentions cast by Trustees Cloyd and Borrer.

(See Appendix XVI for background information, page 460.)

UPDATE ON MEDICAL CENTER MASTER FACILITIES PLAN

Dr. Cloyd:

I would now like to call on Mr. Shkurti to provide us with an update on the Medical Center Master Facilities Plan from the review we had at our last Board meeting.

Mr. Shkurti:

Thank you, Dr. Cloyd. I will be referring to four documents that are in your Board books and as Dr. Cloyd mentioned this is a follow-up to a report on the Medical Center Master Facilities Plan expansion. I made an initial report in June and a second one in July, so this would be the third in that series.

What I will focus on is what we have accomplished over the summer. This work group was originally established by Dr. Cloyd, on behalf of the Board, on June 20 and consists of Chris Culley, Pete Geier, David Schuller, Chip Souba, and me. There has been some press reports on the completion of the consultants' reports that have focused on some of the disagreements in the Medical Center about priorities and certainly those disagreements are real and to be expected at this point. What we are concerned with now is moving beyond that and getting an agreement and alignment on these key issues. I am encouraged by what we have been able to accomplish so far and those are listed in Attachment A in your book.

There are six specific items, and we have made good progress, and the first is that we have agreed on a timeline and a process to move forward and, in fact, we reported on that in June, Attachment A-1. The second item is that we have also agreed on a structure for making decisions and the ultimate decision-maker, in cases where there are disagreements that we cannot resolve ourselves, is the President. Completing that process is really the completion of Step 1 in the timeline and process of the Deloitte/Hammes' reports.

The third item is that we have also resolved, and Chris Culley has been very much involved in this, as well as others, the Medical Center governance issues. Although we are setting up a separate governance structure for the James Cancer Hospital in order

September 21, 2007 meeting, Board of Trustees

to protect our PPS exemption, we are also committed to operational integration in the Medical Center. As the Deloitte/Hammes reports clearly pointed out, the Cancer Program and the other programs in the Medical Center and the University benefit from the synergies of an integrated and coordinated approach, not a separate approach.

Now that the Deloitte/Hammes reports have been completed and publicly released, the fourth item we have agreed on is what needs to be done to follow-up on those reports. You have in your Board books as Attachment A-2 a letter that all five of us have signed where we agree on the specific questions that need to be addressed and where we need to move forward.

The fifth item we have also agreed on is a fact base for moving forward and that is Step 2 in the Deloitte and Hammes process. And finally we have agreed on what the critical attributes of the revised plan should be, and that is Step 3 in the Deloitte/Hammes report. That is what I would like to turn to now, which are listed in Attachment A-3. There are three sets of critical attributes that deal with: 1) facility criteria; 2) financial parameters; and 3) phasing.

Regarding the facilities criteria, the three are: 1) programmatic priority; 2) financial feasibility; and 3) physical feasibility. I won't go into all of those, but I think what I would stress under the programmatic criteria is the term we have used which is patient centered. There is a perception among some that when you have an academic medical center you get very advanced care, but it isn't necessarily patient-friendly. We think by properly planning these facilities, we can create a welcoming atmosphere where physicians and staff feel comfortable and can practice high-quality, leading edge medicine, yet patients can be comfortable and have easy access to our facilities and programs.

Regarding the financial criteria, there are several listed there, but there are two I would like to highlight. Whatever financial attributes become associated with the revised Master Plan, it has to lineup with the financial goals of the Medical Center as a whole and also the university and I will talk about that in a minute. In addition, as we prioritize where we go, because we can't do everything at once, one of the things that we will look at is the mix of service, because different services have different reimbursement rates and different impacts on the finances on patient care. We want to make sure those high demand services that generate the operating margin allows us then to pay off the bonds and invest in new services that receive a high priority. Obviously one of those would be cancer, the other signature programs are important as well.

Finally in terms of physical criteria, one of the things that we think is most important is what we call "adjacencies." One of the competitive advantages that we have that makes us different from the other health care centers in the Central Ohio area, and they are all very good, is that we are in the position to translate research into patient care immediately. So we need to make sure that those adjacencies are setup so that patients who come to The Ohio State University Medical Center from across the state, from across the country, and all over the world have access to the latest medical care and make sure that the facilities plan recognizes that.

I alluded to financial parameters earlier and we have discussed those quite a bit. We have agreed that what we want to look at is extending the completion date for what was called Phase I of this project. We want to extend it from 2012 to 2014 and we think that stretch out is appropriate. This will allow us some more flexibility in terms of particularly incorporating another University bond issue, so we will be able to leverage those resources. We are also committed to more explicit fundraising goals, and we are using a target of \$75 million initially that we will test and tie to specific projects. We are also committed to addressing more explicit moveable equipment needs. It is important to build good buildings, it is important to have good staff and physicians, and it is also important that having more moveable equipment is considered as well. Finally, we have also agreed that the business plan that knits this altogether be comprehensive,

September 21, 2007 meeting, Board of Trustees

has to fly to all of the elements of the Medical Center and all of the programs, and also integrate with all of the University's financial plans.

In terms of phasing, one of the things that we wanted to point out is that a portion of this project is already underway and that is described in the documents you have. There is approximately \$85 million worth of construction that has already been approved by the Board and that is moving forward on time and on budget. Our focus will be on what we will call Phase II, which is what happens next. A big part of that would be how we plan to create a modern cancer hospital and associated services in critical care as well as infrastructure. I also want to point out the implications that are listed in that document and that we think there are advantages to stretching out this project from the original timetable and they outweigh the disadvantages. But when you stretch out a project of this nature there is a downside, because that means with the inflation in construction costs, it costs more to build later, and it will take longer to generally open up the new beds that will generate additional revenue. So we need to recognize that in our business plan. We think by delaying the project from the original completion date to 2014, that the advantages outweigh the disadvantages.

In terms of our highest priorities of what are the issues we want to address next, those really flow from what I just talked about and those are listed in Attachment B. Obviously the comprehensive business plan is part of it and also the facilities criteria. I also want to mention that we are in agreement with the consultants that we want one integrated, uniformed program management structure for this project, because there are a lot of moving parts and we need to make sure they all move in synchronization. That will be an important priority as we move along.

That in turn leads to what may be discussed at the November Board meeting, which is summarized in Attachment C. We hope to have more specific recommendations for the project management structure, what may be included in Phase II and III, and how we may go about meeting the business plans together. I want to stress that even though we anticipate continuing to make good progress, we will not have a complete solution to these issues at the November Board meeting, so we don't want to set expectations we can't meet. We are still discussing if we will be comfortable asking the Board to take any particular actions at the November meeting, if there may be some enabling projects, but we will not be asking for approval of a comprehensive plan because we are not quite there yet.

On Attachment D, I simply summarized and listed the conclusions. Most of them are self-evident, but there are a couple of things that I would like to stress. Probably first and foremost is that even though this has been delayed from the original time schedule, it is critically important to the future of this University and to the Medical Center that this project proceed in both a timely and thoughtful manner. All five of us are committed to doing that.

Secondly, we think the Deloitte/Hammes decision tree and timetable provide a useful template to accomplish this goal and we think that the investment in these consultants is worth it for that reason. As I said, we have already completed, we think, steps 1-3 of the five steps that are set out and we hope to move forward in that vein. The key elements to moving forward in the document reiterate what I mentioned already. Our next steps in moving forward will be presented at the November 2 Board of Trustees meeting.

With that I will stop and if there are any questions, I will be glad to answer them.

Dr. Cloyd:

Are there any questions?

September 21, 2007 meeting, Board of Trustees

Mr. Wexner:

I'm just curious, Bill, in your opinion what was the quality of the consultants' work and did it add value? I have worked with consultants in business and sometimes they just reconfirm what you know, and it is good work, but it really doesn't change things.

Mr. Shkurti:

Mr. Wexner, I think that it is fair to say that I have worked with a lot of consultants and in my experience, too, some have been very good and some have not been. In this particular case, I would say that they are among the better, especially when we consider the environment that they walked into. There was a compressed time period and they talked to different people at the University and they got different opinions. I think the consultants were very helpful in that regard and that timeline they put together and decision tree, although that is only part of what they did, I found really helpful.

There is a portion of what they said that confirmed, I think, what many of the members of the Board felt and what some of us felt is that the timetable was too aggressive. But sometimes having somebody come from outside and confirm what you think, has a way of adding credibility that is helpful. So on balance, I would give them a B+ to A-. The only thing I would say is that as I look back over the reports what is not fully addressed is that I was hoping for a little more on the ambulatory care side, but that environment is changing for us a little bit so we are going to have to talk within our workgroup about what to do.

The thing that I would say that I was most pleased about with the consultants, knowing that they walked into a situation where there was a certain amount of contention and disagreement, is that they really listened to both sides and issued a very fair report. I don't think whoever takes whatever position on the priorities within the Medical Center that anyone can point to the report and say, "Well it 100% verifies what I was saying." On the other hand, it does verify a great deal and I think gives us an opportunity to move forward. Now having said that, the hardest work still remains to be done and the consultants can't do that. That work is resolving the legitimate differences of opinion into a legitimate alignment that allows this project to move forward and that is what Chris, Chip, David, Pete, and I are committed to.

Also I want to express my appreciation to my colleagues, some of whom were very much involved in those differences, to come to the table and put the differences behind them. I have worked with a lot of workgroups at the University, some have worked better than others, but this one has been of very high quality and is very committed to taking a broad view of the picture. I think we are all better served as a result.

Mr. Borrer:

I am very pleased to hear that you have done this great work and that you have the collaboration of the Medical Center group following through with the plan for the Medical Center. The question I have, before I can fully understand this, is how does this impact the University? This is a huge project; it is multi-million dollar, probably a billion dollar project and it is spread out over a number of years. At the same time in our Academic and Student Affairs Committee we hear about the need to take care of our housing stock, possibly expand our housing stock, and we have deferred maintenance in a number of our buildings. While I hear this is a great plan and the Medical Center is all ready to go with this, how does this actually affect the rest of the University? How can I be comfortable that this is in the best interest of everybody, not just those in the Medical Center?

Mr. Shkurti:

Mr. Borrer, that is certainly a fair question. I think that a big part of what my role is as a University-wide official is to make sure that this is in balance with other University priorities. So I am going to answer your question in two ways. One is that when the Medical Center is doing well financially, programmatically, and academically, development-wise, it benefits the University, because they are such a large part of us and the same goes the other way around.

Secondly, the particular issue I have to think through in my role as chief financial officer is our debt capacity and how all that fits together. We had a discussion about that in the Fiscal Affairs Committee meeting this morning and the Committee approved a capital plan for the next six years. The preliminary structure that I have outlined here in terms of stretching out the sales and the limits are consistent with what is in that capital plan. Fundamentally, it allocates about half of the University's debt capacity to the Medical Center and to the health system, and about half to the rest of the university. If you take a look at the finances, the Medical Center and, particularly, the Health System, generates about half of our revenue, so they generate about half of our capacity. So in a very broad sense, those two balance and that is going to have to be confirmed as we go through the process. We also need to make sure as we go through a transition in presidential leadership that the new President is comfortable with those priorities. As a starting point, we are striking a good balance.

As I have said to the people in the Medical Center, by the time this is done we are going to have a good plan and we are going to be able to move forward, but not everybody is going to do everything they want when they want it. The same is true for the rest of the University. The key is to get the right balance, so that we not only have a great Medical Center, we have a great housing system, we deal with our deferred maintenance issues, we make sure that people have a place to park, and so on. I have had a number of Board members speak to me both on-line and off-line about that and I think that is an important issue, but one that I am confident we will be able to address. But we still have some hard decisions ahead of us.

Mr. Borrer:

The energy that has been expended by the Medical Center hasn't congealed yet with the rest of the University. I would hope that we can look to the administration to help us as a Board understand what their plan for that other 50% is, while the Medical Center is moving forward.

Mr. Shkurti:

Absolutely. I think the energy level of the University is going up daily!

Mr. Hicks:

Bill, I am just trying to understand the capital expenditure chart, which is A-5. The \$60 - \$70 million annual capital budget, is that an incremental cost over what is normally spent or what percentage is that incremental?

Mr. Shkurti:

Mr. Hicks, that is the annual amount that is spent. It is not incremental, but every year there is an additional \$60 - \$70 million, if that is what you mean by incremental.

September 21, 2007 meeting, Board of Trustees

Mr. Hicks:

If you add this all up, a kind of all-in cost if you will, I add it up to about \$1.45 billion. About \$560 million would be normal, routine capital expenditures that we would do over an eight-year period. Right?

Mr. Shkurti:

That is correct.

Mr. Hicks:

So we are not assuming any significant additional routine capital expenditures?

Mr. Shkurti:

Well one of the things that we want to test is whether this traditional allocation is going to be enough to equip the new facilities that we are talking about, because you are talking about adding additional square footage. I remember someone telling me that a rule of thumb you use in medical center planning, is that you probably need somewhere around a quarter of your expenditures on buildings to be reflected in movable equipment so that you meet the needs there. That is something we are going to have to work through.

Mr. Hicks:

A rule of thumb is a quarter? On this it would be \$250 million.

Mr. Shkurti:

Mr. Hicks, this is one of those classic "What's in and what's out." Does the quarter include beds and stuff like that? And if it does, that is a different thing and if it doesn't... I would like to say at this point that the question you are asking is absolutely appropriate. We have asked ourselves the same question. We don't have the answer, but we have agreed on a process that we are going to go through. Before we ask you to approve anything, we will have an answer to exactly how these numbers fit together.

Mr. Hicks:

Okay, thanks.

Mr. Schottenstein:

Bill, I really appreciate your work and leadership on this as well as your colleagues. I know this has been a long and at times challenging process, but it is very important to everyone here. I had three questions and they relate to Attachment C. Some of these have been discussed before, but I just want to make certain that I understand what is likely to occur at the November Board meeting.

I will just ask all three questions and then you can respond. The questions have to do with project management structure. As you know, there has been considerable attention paid with regard to the need for having someone brought in presumably as an employee of the University, who can bring expertise to the management of a project of this size and scope. Presumably that is part of what is going to be discussed at the November meeting, getting that person or persons on-board as soon as possible. If they are going to bring expertise to management, that expertise could probably help us sooner rather than later.

The other two comments relate to recommended financial parameters. One of them is fundraising. I think that whatever the fundraising target ends up being, it is one thing to have a target and it is another thing to collect the cash before we put the shovel in the ground. We have had that conversation more than three times. We need to force ourselves to have a greater fundraising target and greater cash in-hand on a project of this size and scope than perhaps we have done historically. We also need to make certain that whatever we do impose that it stands as a barricade in front of the first shovel, so that we do raise the money.

My final question has to do with contingency. It is one thing to have a contingency for a project where you have built the same thing a hundred times and you still build in a contingency of 5% or 7%, and you know what the cost is. This is something we've never done and I don't know what the contingency should be, but my guess is that it should be sizably larger than one would normally find if we were just going to go out and, for example, build a house. We are building something that we've never built before and whether it was the Ohio Stadium renovation or anything like it, when we get into these complex projects that are going to have a great, great result and transform what we have into something that we hope to have, there are a lot of unexpected surprises and stuff happens. Those are my three comments.

Mr. Shkurti:

Mr. Schottenstein, regarding what we are going to call the executive program manager, the short answer is yes, it will be one person. What we are thinking about is having that person accountable to our group to start and we in turn are accountable to the President. So I think we are on a similar line there.

Regarding fundraising, having lived through some of our fundraising successes and some of our fundraising less than successes, I couldn't agree with you more. We need to be very explicit about the fundraising and this needs to be real money, meaning cash or written pledges that we can expect in five years, not double counting research, not getting into that kind of thing, and it needs to be tied to specific projects. In other words, if this project is to go ahead, then the fundraising for this project needs to be on hand. The general guideline that the Board has approved is that before we go to construction 75% of the fundraising needs to be in hand either in the form of written pledges or in cash. One of the things that we are going to do is revisit whether we need to raise that. I hear that there is a lot of money on the sidelines ready to come forward once we have a comprehensive plan. It is our goal, and I think I speak for all five members of the workgroup, to have a comprehensive, sellable, exciting plan and then it will be time for our donors who have expressed their desire to see the University move forward, to step forward with cash in-hand. I think that will be an important part of making this project successful.

Regarding the contingencies, I think you are absolutely correct. In fact, all of the various parts of this project we built before in one way or another, whether it is a parking garage or even a cancer hospital. You are absolutely correct that the bigger and more complex the project, the greater the risks. There are really two or three things that we want to have a contingency for and one is if we have the typical overruns in construction.

The second would be if there are other elements of the plan that aren't directly related to construction, but are impacted by it. For example, if we have all of this construction going on, what does it do to ease the access of patients who come to our Medical Center who generate, in third-party payers, the revenue to help keep this project going? So we need to make sure that we don't have unintended effects like that.

The third is the point that the Deloitte consultants made which is, "Okay, one thing can go wrong, but what happens if two things go wrong or three things are off?" For example, you have the federal government struggling with the federal deficit, and

September 21, 2007 meeting, Board of Trustees

they arbitrarily change the Medicare spending. The state gets in a budget problem and all of a sudden they change Medicaid results. Third-party payers get beat up by employers and so they lower their payments. Low and behold these things tend to happen when the economy goes south. So that point is extremely well taken.

One of the things I want to see come out of this, and I think my colleagues do as well, is that when we talk about a comprehensive business plan we not only have construction contingencies, but a sense of what Plan B is if we have what we call the "Perfect Storm." There is no way to ensure 100% against all of that, but experience tells us we need to think through all of those possibilities and what happens to us if they happen.

The other thing that we have talked about, and the consultants have helped us, is that we don't have the ability to traditionally phase this as we would other projects. That is a good risk reduction tool. You do Phase I, you don't do Phase II until it is done. But there is more ability to phase this than you might think from the original review. By slowing this down a little bit and recognizing that \$100 million of this project is already coming out of the ground and that is on budget and on time gives us at least some encouragement. The key will be how we handle the issue of the new cancer hospital, the critical care tower, and the spine, because those three projects, if you will, are probably at least half a billion dollars out of this total. We need to figure out how we make sure once we commit to the construction of those, that we conclude that successfully.

Mr. Brass:

This morning in the Fiscal Affairs Committee meeting we talked a little bit about the cash position of the University and the cash position of the Medical Center. I would like to make sure that we include that in the November discussion as well and I am sure you will. The revenue cycle reduction potential sensitivities is a good one. I am glad that we are picking that up as far as sensitivity analysis, contingency we talked about and leadership we talked about. With a new President coming in, the balance of priorities of the capital program, the University to the Medical Center or Medical Center to the University, will we have a feel for that by November do you think or is that a \$1 million question that may still be open?

Mr. Shkurti:

Mr. Brass, I think in some ways the new President will have to answer to that when he is ready. I think it is safe to say, and I have lived through a transition before, including a transition with the new President when he was new the first time, he will do some things differently, but it will be in a thoughtful way and it won't be come in and change 180 degrees tomorrow. I think he understands the lead time on some of these. I think it is safe to say that by November we will have a better idea, but I doubt we will have everything locked up and nailed down. That is why I wanted to set the expectation that in November we aren't coming forward with a complete package to say, "We are ready to go." Rather we will come forward in November and say, "This is where we made progress, this is what we think we need to do next, and this is the timeline for getting this before you."

Mr. Brass:

I am not surprised at all with the answer, Bill, because it is the appropriate answer. It just shows the magnitude of what is on the table with this project. This is a very complex issue, very complex on revenue, on debt, on cash balance plans, and on everything. I know that timing is of essence because the escalator costs are very enormous here if we delay, but we need to make sure that at least most of the T's are crossed. That is hopefully what we will see in November. It is really a difficult issue to get our arms around right now, but I applaud you for getting all of the variables in on-

September 21, 2007 meeting, Board of Trustees

line. As a member of the taskforce who looked at it with the two outside consultants, I also believe they did a good job for us. They brought home a number of variables and allowed us to feel a comfort zone, but it also raised issues that we get paid for, which is basically making really tough decisions as it relates to "go or no go" on a very large project.

Mr. Shkurti:

Well said, Mr. Brass. I think the tough decisions lie ahead of us both within the medical complex of what goes and what doesn't, and for the whole University of what goes and what doesn't. The key is to make those good decisions in a strategic way, not a short-term, leisurely way.

Mr. McFerson:

I applaud the 75% in advance, too, on our fundraising and congratulate you on a great job here. Does that also include 75% of a deferred maintenance reserve to make sure that these buildings stay in good condition?

Mr. Shkurti:

Mr. McFerson, not directly. One of the things that we will work through in the comprehensive business plan is how we are going to maintain these buildings once they are up. If I were to look across campus, the Medical Center has actually done a better job of maintaining its buildings than the central campus has, in part, because at least their payers recognize that some degree of maintenance is a part of a legitimate amount to pay. One of the things people tend to forget around here, because there is always an excitement when you build new buildings, is that the minute that new building opens you start having a depreciating asset and you need to take that into account. That is an important part of what this comprehensive business plan needs to address.

Dr. Cloyd:

Mr. Shkurti, thank you and your core team that has been working on this. I think this is terrific work and we will look forward to a report in November.

(See Appendix XVII for background information, page 470.)

Dr. Cloyd:

As we conclude here, I want to make a couple of comments. I saw Dean Baeslack here earlier and I would like to compliment him and his very creative people with the Buckeye's Bullet 1 & 2. They have made any thoughts of a battery-powered or hydrogen fuel cell-powered vehicle as being slow obsolete thinking. Congratulations to your team.

Also this will be our last Board session with Dr. Alutto. Joe, from the whole Board, deepest thanks for this very heavy load you have been carrying during this transition period by filling both the Provost's and the President's roles. You have done an absolutely outstanding job and we deeply appreciate it. Thank you.

President Alutto:

The only thing I will say is I want all of you to know that I am the winningness President in the history of Ohio State and the pressure is on Gordon!

September 21, 2007 meeting, Board of Trustees

Dr. Cloyd:

Dr. Gee, we do look forward to having you as our President at our next Board meeting.

Thereupon the Board adjourned to meet Friday, November 2, 2007, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

Attest:

G. Gilbert Cloyd
Chairman

David O. Frantz
Secretary

September 21, 2007 meeting, Board of Trustees

(APPENDIX IX)

From: William Shkurti <wshkurti@rms.ohio-state.edu>
To: jadavidson@ameritech.net
Cc: <bellini.4@osu.edu>, <dillow.7@osu.edu>, <frantz.1@osu.edu>
Date: 25 July 2007 10:38 AM
Subject: Interim Requests

Jo Ann,

In accordance with the interim approval granted at the July 13, 2007 Board meeting, I am writing to request approval for the following two projects:

1. Carmack and NSM Lots - Maintenance Project to resurface lots -project number 315-07-0226. This project will resurface the Carmack 3 parking lot on West Campus and the parking lot serving the EletroScience Building on Kinnear Road. This project is time sensitive and has been impacted by the new board policy of bringing all projects forward for construction (maintenance or construction) over \$200,000. The project requires approval this week in order to meet summer repair schedule and is critical to supporting customers on this part of campus and in preventing further cost escalation. The maintenance project value is \$646,146.
2. Vet Hospital - Food Service Area OSU-070105. This project will renovate the former vending area to create a food service facility and will be operated by an outside vendor. This project was identified just prior to the July Board meeting but missed the board submittal deadline. The project must move forward in order to fulfill the contractual obligations of the food vendor contract. The Project value is \$336,600.

Project sheets for the associated projects are attached for your convenience. No more projects are anticipated for interim approval prior to the next board meeting. Your consideration is appreciated.

If you have any questions or concerns please free to contact me or you can contact Melissa Bellini at 614-247-8704 or at bellini.4@osu.edu.

Thank you,

Bill

Carmack & NSM Lots - Resurface

315-07-0226

Requesting Agency(s): TRANSPORTATION & PARKING SERVICES

Location(s): Various Locations, Columbus

ASF/O GSF App:

Description:

This project will resurface the Carmack 3 parking lot on West Campus and the parking lot serving the Electrosience Building on Kinnear Road.

Project Information:

This project was not originally required to be presented to the Board of Trustees. Recent changes to the Board of Trustees rules require approval to proceed with construction.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving campus facilities for students, faculty, staff and visitors to the campus.

Outstanding Funding Issues: None

Timing Issues: Interim approval for construction is requested so that construction can begin this summer and complete by football season. If the project cannot meet this completion date it will be delayed until next year.

"Ripple effects" of the project: None

Special Qualifications: None

Deferred Maintenance: None

Deferred Renewal: None

DECKER CONSTRUCTION COMPANY - General Construction

Vet Hospital - Food Service Area

OSU-070105

Requesting Agency(s): VETERINARY MEDICINE ADMINISTRATION

Location(s): Veterinary Hospital

140,213 ASF/222,496 GSF Age: 1973

Description:

This project will renovate the former vending area to create a food service facility that will be operated by an outside vendor.

Project Information:

The food service vendor has been selected and improvements are being made according to lease terms.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving the quality of life for the students, faculty and staff and provide an area for relaxation and college interactions.**Outstanding Funding Issues:** A vendor has been selected to occupy the completed food service space. The cost of the kitchen area will be incorporated into the lease terms.**Timing Issues:** Interim approval to advertise for design services is being requested to meet vendor contract obligations.**"Ripple effects" of the project:** None**Special Limitations/risks:** None**Deferred Maintenance:** None**Deferred Renewals:** None

James Cancer Hospital - Elevator Upgrades Phase II

315-07-2267

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): James Cancer Hosp & Solove Res Inst

116,384 ASF/265,423 GSF Age: 1990

Description:

This project will consist of a second major elevator modernization in the James Cancer Hospital. The project will include the modernization and upgrade of three patient and staff elevators, and the elevator equipment room.

Project Information:

How does this project advance the Academic Plan? Enables the Medical Center Facilities Plan, which will support continued clinical, teaching and research missions at The Ohio State University.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Special limitations/risks: Special attention to project safety and building function will be essential since this building will be fully operational during the elevator upgrades. Two elevator cars are required to be fully operational 24 hours per day, seven days per week for the duration of the project.

OARDC - Chilled Water Plant Upgrade

315-07-1565

Requesting Agency(s): OHIO AGRIC RESEARCH AND DEVELOPMENT CTR

Location(s): Physical Plant

29,379 ASF/33,163 GSF Age: 1955

Description:

This project will furnish and install one additional chiller unit to the existing system along with upgrading the 'constant speed' drive on the existing centrifugal chiller unit with a new 'variable speed' drive.

Project Information:

This project will increase the reliability of the chilled water plant, allow for redundancy and will also support future expansion, in particular the new BSL3 facility planned for the campus.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving the teaching and learning environment by adding reliability, redundancy and support for future expansion.

This project will expand the existing laundry operations at Buckeye Village for additional equipment and to provide sorting space.

Project Information:

The project will add approximately 1,000 SF for a new 150 lb washer, a new ironer/finisher, and reconfigure the dryers in the existing space. This work was designed as part of the Student Family Community Center at Buckeye Village project.

How does this project advance the Academic Plan? This project supports the Academic Plan by improving campus student-living environment and facilities.

Wilce Student Health - Phase III
315-2005-987

Requesting Agency(s): STUDENT AFFAIRS, OFFICE OF

Location(s): Wilce Student Health Center, John W

31,093 ASF/53,768 GSF Age: 1970

Description:

This project will add a new three-story addition on the south side of the building to provide a new entrance and lobbies. The addition will provide an elevator, central stair, and drive-through pneumatic tube delivery system for the pharmacy.

Project Information:

The conceptual budget has been adjusted for additional interior renovations.

How does this project advance the Academic Plan? The new addition will enhance the quality of the Wilce Student Health Center to better serve faculty, staff, and students.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Special Limitations/risks: The expansion of the facility will have to be coordinated with existing occupants.

Increase Campus Electric Capacity Phase I (Third Transformer)

5062-PF07944

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): Electric Substation, Buckeye

0 ASF/13,200 GSF Age: 1974

Description:

This project will add a third transformer at the OSU Electric Substation providing redundancy and the needed additional capacity for the increasing campus power needs due to new and future buildings.

Project Information:

This project included work by AEP to upgrade their capacity to OSU. The contract between the University and AEP specified full cost recovery for AEP, requiring the University to pay all costs. Costs for this portion of the work were higher than originally anticipated resulting in an increase to the project of \$1.7M. Additional project increases were due to material and labor escalation since the project was originally estimated in 2005.

How does this project advance the Academic Plan? The addition of a third 84 Mega Volt-Amp transformer will give the University the additional capacity needed for current and future demands. Without this expansion, the University will not have the needed electrical capacity to service existing and future academic and research buildings.

Outstanding Funding Issues: None

Timing Issues: This new transformer capacity must be available by spring 2008 as the University will have three new 2000-ton chillers in the McCracken Power Plant scheduled to come on line at that time to meet the cooling needs of the main campus.

"Ripple effects" of the project: None

Special limitations/risks: A possible one or two day outage at the substation will be required for transfer of power to the new equipment.

Deferred Maintenance: None

Deferred Renewal: None

Joint Use Agreement - Wood County Center for Agriculture

Easement - The City of Columbus, OH - .022 Acres on Northwood and High

Engagement - The City of Columbus, Ohio - West Case Road

September 21, 2007 meeting, Board of Trustees

(APPENDIX XII)

SALE OF REAL ESTATE

**0.002 acres, located at Northwood and High
Columbus, Ohio**

Background

The property is 0.002 acres, located at 2225 North High Street, Columbus, Ohio, located south of the intersection of Northwood and High Streets.

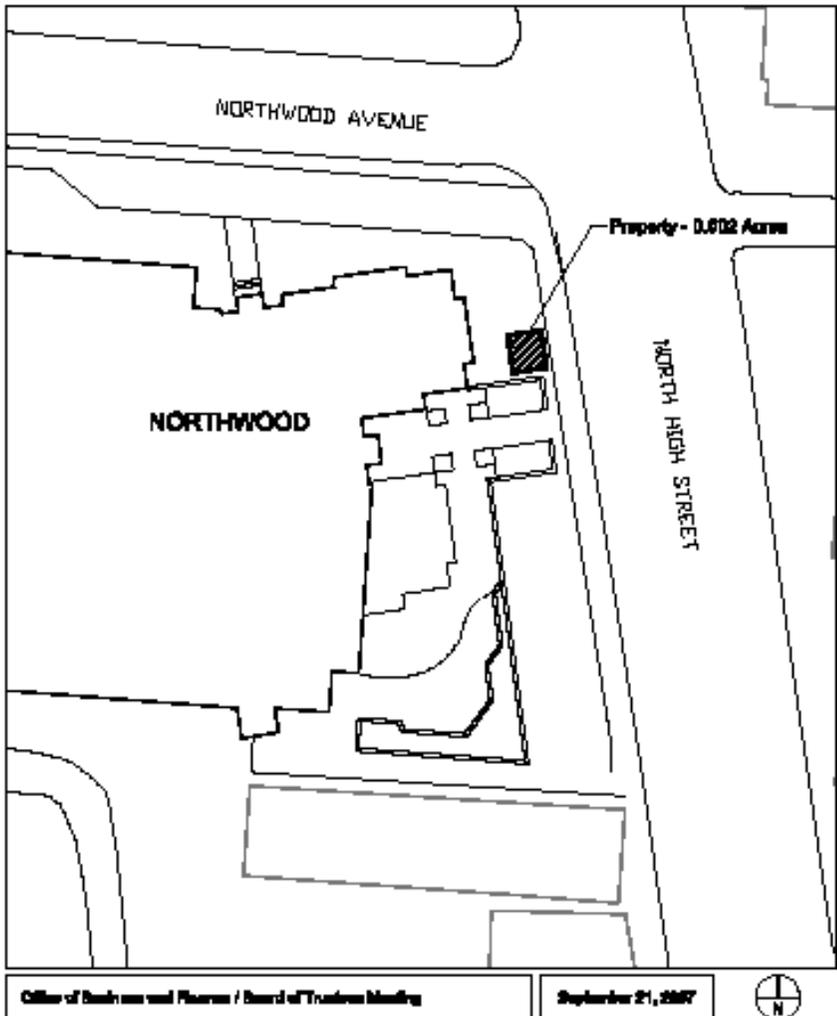

The City of Columbus approached the University to purchase 0.002 acres, 110 square feet, to construct a handicapped accessible bus stop. The bus stop will benefit the University and the surrounding community.

Legislation approving the sale and authorizing a Governor's Deed will need to be passed by the state legislature. Execution of the deed and completion of the sale remain conditioned upon Board approval.

Appraisals and Consideration:

E. N. Merrell & Associates conducted an appraisal and as of June 12, 2007 valued the property at \$2,750.00. The City of Columbus has also agreed to pay for landscaping on the property in the amount of \$320.00. The purchase price for the transfer of the property is \$3,070.00. The Ohio State University will receive the proceeds of the sale.

Sale of Real Estate - The City of Columbus, Ohio - .002 Acres on Northwood and High

(APPENDIX XIII)

SALE OF REAL ESTATE

**0.209 acres, located on the North Side of West Case Road
University Airport at Don Scott Field
Columbus, Ohio**

Background

The property is 0.209 acres, located on the north side of West Case Road, in Columbus, Ohio, located on the south side of the University Airport at Don Scott Field in Columbus, Ohio. The property is not an integral part of the activities at University Airport.

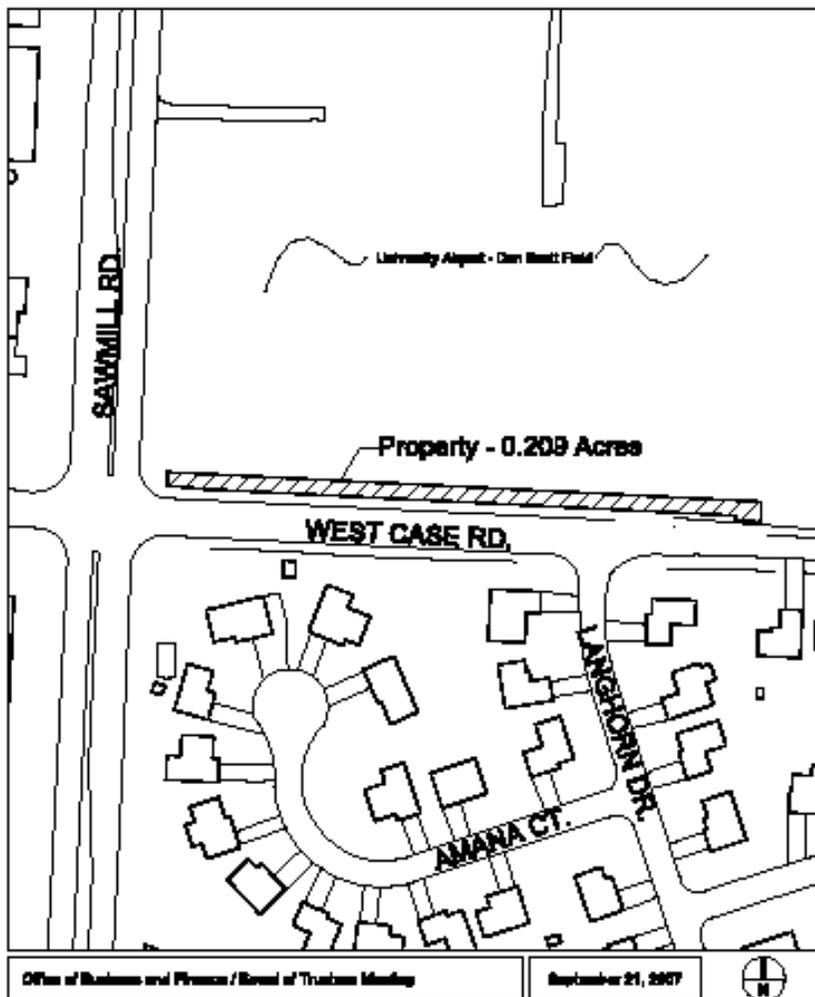

The City of Columbus approached the University to purchase 0.209 acres to widen West Case Road and construct a turn lane at Sawmill Road. The turn lane will improve traffic flow in the area of the University Airport and will benefit the University and the surrounding community.

Legislation approving the sale and authorizing a Governor's Deed will need to be passed by the state legislature. Execution of the deed and completion of the sale remain conditioned upon Board approval.

Appraisals and Consideration:

Nash/Wilson and Associates, Inc. conducted an appraisal and as of November 7, 2006 valued the property at \$38,700.00. The City of Columbus has also agreed to pay the cost of replacing the fence currently on the property bordering West Case Road in the amount of \$6,950.00. The purchase price for the transfer of the property is \$45,650.00. The Ohio State University will receive the proceeds of the sale.

Sale of Real Estate - The City of Columbus, Ohio - .209 Acres on West Case Road

September 21, 2007 meeting, Board of Trustees

(APPENDIX XIV)

FY 2008 COLUMBUS CAMPUS FISCAL YEAR 2008 USER CHARGES

Synopsis: Approval of the Columbus Campus Fiscal Year 2008 User Charges, is proposed.

WHEREAS the Fiscal Year 2008 increase in user charges for self-supporting units on the Columbus Campus including the Recreation fee, Student Health Insurance fee, and the room and board charge, as described on the accompanying text and tables, have been reviewed and recommended following appropriate consultation within the University; and

WHEREAS the University Health System has recommended a 7.6% weighted average increase in charges for services provided through the system in Fiscal Year 2008; and

WHEREAS the Columbus Campus Supplemental Instructional Fees have been reviewed and presented for a first reading; and

WHEREAS Tuition, Subsidy and Supplemental Instructional Fee recommendations are not yet complete and will be forthcoming following the passage of the State Biennial Budget:

NOW THEREFORE

BE IT RESOLVED, That Fiscal Year 2008, non-instructional user fees for the Columbus Campus and charges for the Health System services, as described in the accompanying text and tables, be approved.

September 21, 2007 meeting, Board of Trustees

INTERIM BUDGET FOR FISCAL YEAR 2008

Synopsis: Authorization to make expenditures in FY 2008 is proposed.

WHEREAS the University has not yet finalized its operating budget for FY 2008; and

WHEREAS it is necessary to continue University expenditures, including payment of faculty and staff, prior to the time that the Current Funds Budget for FY 2008 is developed and adopted:

NOW THEREFORE

BE IT RESOLVED, That the University be authorized to make expenditures consistent with the level of resources approved for Fiscal Year 2007, pending the adoption of the General Funds Budget for Fiscal Year 2008 at the July Board of Trustees meeting and the Current Funds Budget for FY 2008 at the September Board of Trustees meeting.

September 21, 2007 meeting, Board of Trustees

**APPROVAL OF FISCAL YEAR 2008 TUITION AND SUPPLEMENTAL
INSTRUCTIONAL AND INHOUSE DESIGN AND PROJECT MANAGEMENT FEES
AND FISCAL YEAR 2008 OPERATING BUDGETS FOR ALL CAMPUSES**

Synopsis: Approval of the instructional, general and non-resident fees and supplemental instructional fees for selected programs at the Columbus, Regional and ATI Campuses for FY 2008 are proposed effective Autumn Quarter 2007, approval of the proposed Columbus, Regional and ATI Campuses' Operating Budgets for Fiscal Year 2008 and approval of the proposed fees for in-house design and project management.

WHEREAS The Board of Trustees of The Ohio State University supports the University's continued implementation of the Academic Plan and its initiatives to meet the needs of Ohio State students; and

WHEREAS State Support levels have been determined and undergraduate instructional and general fees at all campuses are subject to a 0% tuition cap in the state budget; and

WHEREAS Consultations have taken place within the University to determine the appropriate instructional fee increases for undergraduate, graduate and professional programs and selective supplemental instructional fees; and

WHEREAS Fee increases for the Columbus, Regional and ATI Campuses for FY 2008 have been proposed and other levels of general funds and earnings resources have been estimated and restricted fund resources have been projected based on historical trends; and

WHEREAS expenditures, including compensation, have been estimated for FY 2008; and

WHEREAS appropriate planning and consultation within the University has been accomplished with regard to the Columbus, Regional and ATI budgets, and the Interim President now recommends approval of these FY 2008 Operating Budgets with a final Total University Current Funds Budget to be submitted at the September meeting of the Board of Trustees: and

WHEREAS this FY 2008 budget includes the following one-time funds for Campus Partners: 1) \$650,000 for support of Campus Partners operations during FY08 to carry out its initiatives, subject to the provisions of the 1997 memorandum of understanding, as amended from time to time, and 2) \$600,000 to address timing issues related to the renting of Gateway commercial/retail spaces:

NOW THEREFORE

BE IT RESOLVED, That instructional and general fees for undergraduate students in Tier-Two and Tier-Three enrolled at the Columbus Campus and all undergraduates enrolled at the Regional and ATICampuses will not increase; and

BE IT FURTHER RESOLVED, That Effective Fall 2007, Tier-One students (students admitted before Summer 2002) are now included in the Tier-Two level and Tier-One will be eliminated; and

BE IT FURTHER RESOLVED, That supplemental instructional fees described in the attached supporting material will be implemented; and

BE IT FURTHER RESOLVED, That instructional and general fees for most graduate students will increase 6% and that the instructional fees for the professional colleges and selected graduate programs will increase between 6% and 13%; and

September 21, 2007 meeting, Board of Trustees

BE IT FURTHER RESOLVED, That the nonresident surcharge for all programs will increase by 6%; and

BE IT FURTHER RESOLVED, That all of these fee rates shall be effective Autumn Quarter 2007; and

BE IT FURTHER RESOLVED, That the Operating Budget for the Columbus, ATI, Lima, Mansfield, Newark, and Marion Campuses for Fiscal Year 2008, as described in the accompanying text and tables, be approved, with authorization for the President to make general fund and earnings fund expenditures within the estimated income levels and to authorize the expenditure of all restricted funds earned with quarterly revenue updates to the Board.

September 21, 2007 meeting, Board of Trustees

**APPROVAL OF FISCAL YEAR 2008
TOTAL UNIVERSITY CURRENT FUNDS BUDGET**

Synopsis: Approval of the total University Current Funds Budget for FY 2008 is proposed.

WHEREAS the State budget for FY 2008 and 2009, including funding levels for State institutions of higher education, has been enacted; and

WHEREAS fee increases for the Columbus and Regional Campuses for FY 2008 have been approved at previous meetings of the Board of Trustees; and

WHEREAS other levels of resources and expenditures for the Columbus Campus and the Regional Campuses and ATI have been approved at previous meetings of the Board; and

WHEREAS adjustments have been made to eliminate double counting of transfers among the various University units; and

WHEREAS the President now recommends approval of the Current Funds Budget for the total University for FY 2008:

NOW THEREFORE

BE IT RESOLVED, That the University's Current Funds Budget for FY 2008, as described in the accompanying FY 2008 Current Funds Budget Book, be approved, with authorization for the President to make expenditures within the projected income.

I. Setting Budget Priorities

Budget Context

Since its approval by the Board of Trustees in 2000, it has been necessary to adapt the Academic Plan to fiscal constraints brought about by reductions in state funding. Between spring 2001 and spring 2005, the university addressed a series of state budget cuts totaling over \$50 million. These cuts constrained progress on the Academic Plan and led the university to focus on only the most critical elements of the plan.

In FY 2006 and FY 2007 revenues were more stable and expenditures were focused on selected academic priorities.

Academic Progress

Ohio State made substantial progress in a number of targeted areas in FY 2007, including:

- Four-year graduation rates increased dramatically to 42%, almost 12% over the past 5 years. During this same period, Ohio State's freshman-sophomore retention rate also rose 5% to 91.5%, exceeding the national mean of 77.3%.
- Ohio State was ranked by the National Science Foundation among the Top 10 public research universities for sponsored research (moving from 13th to 9th since 2001) and was named among the Top 20 public research universities by *U.S. News & World Report*, ranking 19th in 2007 among all public universities (moving from 24th in the last 5 years).
- For the 12th consecutive year, the incoming first-year class was the best-prepared in history. The average ACT score was 26.4 (up from 25.2 in Autumn 2001); 44% of freshmen were in the top 10% of their high school class, and 80% were in the top 25%, compared to 32% and 66%, respectively, in Autumn 2001.

Academic Plan

The Academic Plan defines six strategies and related initiatives that serve as a roadmap for The Ohio State University to become a truly great teaching and research university.

The Six Core Strategies

- Build a World-Class Faculty.
- Develop Academic Programs that Define Ohio State as the Nation's Leading Public Land-Grant University.
- Enhance the Quality of the Teaching and Learning Environment.
- Enhance and Better Serve the Student Body.
- Create a Diverse University Community.
- Help Build Ohio's Future.

- Regarding diversity, Ohio State ranks 46th among the top universities conferring degrees to minority undergraduates (an increase of 14% from the previous year) and ranks 29th nationally among all institutions, including historically black colleges and universities, for bachelor's degrees conferred to African American students (2% increase) (*Diverse Issues in Higher Education* ranking).

OSU's Rank Among Its Benchmarks

(U.S. News and World Report 2007 Rank):

- Michigan
- UCLA
- Wisconsin-Madison
- Illinois-Urbana/Champaign
- Washington
- Texas-Austin
- Minnesota-Twin Cities
- **Ohio State**
- Arizona

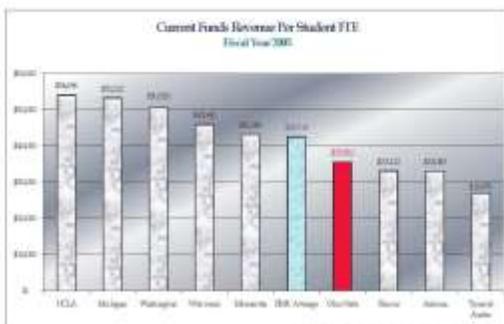

Financial Progress

Ohio State also has made significant financial progress in several areas. For example, as a result of an increase in state funding and the tuition freeze under Amended Substitute House Bill 119, undergraduate instructional and general fees will not be increased for FY 2008 or FY 2009.

At the beginning of the FY 2008 budget planning process, the university presented a financial benchmark report to its Board of Trustees. The report compares OSU's financial trends with eight benchmark institutions in a number of key areas.

The eight institutions represent public higher education institutions of the highest quality that most closely resemble Ohio State in organization and mission. The institutions represent Ohio State's peers and aspirational peers. Using the most recent audited financial data available, FY 2005, the financial comparisons follow:

Current funds revenues per FTE student at Ohio State are 16% below the average of our benchmark institutions, as revenues generated from gifts, grants, and contracts for our peer institutions continue to outpace OSU's revenues in these areas. However, this represents a 10% improvement over FY 1996, when OSU's revenues were 26% below the average benchmark. This improvement is due to revenue sources, such as state support, tuition and fees, and government grants and contracts, growing at a faster pace for OSU when compared with the benchmark average.

Despite Ohio State's revenue sources continuing to lag behind this average (except tuition and fees), the gap between OSU and the benchmark average has closed dramatically since FY 1996. This progress is expected to continue in FY 2006 as it is anticipated that revenues generated from research contracts will exhibit considerable increases.

As in previous years, for FY 2005, state support per student FTE at Ohio State (\$8,725) continues to be lower than the benchmark average (10.8% less in FY 2005). State appropriations are the slowest growing revenue source: the average annual growth rate from 1995 to 2005 was 0.6% in 2005 constant dollars. When FY 2008 and FY 2009 data become available, this pattern is expected to improve as a result of the recent enactment of Am. Sub. H.B. 119, which increases state support to the university.

A table detailing the history of resident undergraduate tuition and state share of instruction from 1960 to 2009 appears in Appendix VI.1.

While instructional expenditures per student FTE at Ohio State are slightly below (-4.3%) the benchmark average, expenditures on academic support¹ outside the classroom are 32% below the benchmark average.

The comparison of fees and tuition based on FY 2007 data shows:

- Average resident undergraduate tuition and fees are 9.3% above the average for the benchmark institutions listed on page two. This is due to reductions in state support, which has resulted in OSU's increased reliance on tuition and fees for revenue in recent years. With the new state budget bill in place, which increases state support and freezes tuition rates, improvement regarding this comparison is expected once these data are available.
- Among public universities in Ohio, Ohio State is ranked highest in academic reputation. Given the statewide tuition freeze included in the budget bill, Ohio State's student fees will continue to be the second lowest among Ohio's six public four-year universities with selective admissions. This makes Ohio State an excellent value for students and taxpayers, but it also means Ohio State does not have the resources to match its competition in key academic and support areas.

2007 Peer Assessment		Annual Tuition & Fees Rank
Rank	University	Rank
41	Ohio State	5
60	Miami	1
85	Ohio University	4
127	Cincinnati	2
164	Bowling Green	3
164	Kent State	6

Source: Peer Rankings: Based on data from the U.S. News and World Report's 2007 College Ranking, Tuition/Fee Rankings: Ohio Board of Regents, Fall Survey of Student Charges, For Academic Year 2006-2007.

¹ Includes all non-instructional expenses: research, public service, academic support, student services, instructional support, operation and maintenance of plant, and scholarships and fellowships expenses, excluding discounts/allowances.

The university will continue to develop benchmarking of key academic, demographic, and administrative issues to inform decisions on budget prioritization.

Budget Allocation Process

Over the past decade the university has moved toward a decentralized budget process that more directly aligns financial incentives for the colleges with the academic goals of the university. The budget process aligns the allocation of new revenues with the Academic Plan and reconciles college base budgets with academic goals. Beginning in FY 2003, annual increases in revenues and expenditures were shared with the colleges based on the following principles of the new budget system:

- The allocation of resources should be mission driven.
- In a large, complex organization, decentralized decision-making works best.
- Any budget system, but particularly one that is decentralized, depends on the creation and maintenance of a timely and user-friendly information system.
- A significant portion of revenues should be explicitly linked to the generating units, specifically the colleges.
- A portion of all revenues should be dedicated to the support of university-wide goals.
- Costs should also be explicitly linked to the generating college or vice presidential area.
- Although the system should be mission driven, predictability and stability are also important characteristics.
- Appropriate oversight and accountability should be provided by the university's governance and administrative structure.
- A carefully thought out transition is essential to the ultimate success of any changes in the budget system.

In FY 2007, the University Senate Fiscal Committee undertook a comprehensive review of the shifts in marginal resources among the colleges since the inception of the revised budget process to determine if the budget process is providing proper incentives for colleges to generate and use resources consistent with the goals of the Academic Plan. This review resulted in recommendations of incremental changes to offset funding shifts among the colleges teaching undergraduates that were unanticipated when budget restructuring was implemented. Changes implemented included the weighting of the marginal increase in undergraduate fees to recognize the differential cost of delivering undergraduate programs and a reallocation of 1.5% of the doctoral subsidy to further enhance quality doctoral programs.

The Provost has appointed an ad hoc Budget System Review Committee to assess how effectively Ohio State's budget system supports the Academic Plan, aligns resources and commitments with college and support unit activities, and provides central funding to optimize academic excellence and the services that support it. The committee is expected to make recommendations to the Provost by March 1, 2008.

FY 2008 Priorities

In FY 2008, state support to the Columbus campus will grow by about 4.8%, the largest increase since FY 1998. In FY 2008 the state is providing the Columbus campus with \$343 million in total core state support. Although undergraduate tuition will not increase, a tuition and fee revenue increase of 3.8% will be generated by higher retention rates and increases in graduate and professional tuition and the non-resident surcharge. In FY 2008, the university will continue to strive to diversify its revenue sources through increased private fund raising and sponsored research. It is anticipated that state support will continue to grow in FY 2009, per Am.Sub. H.B. 119, pending any mid-biennial budget reductions for the State of Ohio.

Increased revenue in FY 2008 is allocated according to the following strategic principles:

- Support the Academic Plan/Leadership Agenda.
- Support the flow of resources to the colleges to carry out their missions.
- Ensure continued operating efficiencies and high quality support services.
- Advance effective financial stewardship.

Consistent with the Academic Plan, the FY 2008 budget is structured to support the following key university-wide initiatives:

Key Initiatives in FY 2008

- Achieve Competitive Compensation
- Continue Reform of the Undergraduate Curriculum
- Invest in High Quality Graduate Programs
- Implement 2008 Enrollment Plan
- Expand Enterprise-Wide Systems
- Enhance Safety and Security Systems
- Comply with Changing Governmental Regulations

The colleges are the key focal points to advance the objectives of the Academic Plan. Consequently, the university's decentralized budget system is designed to ensure that at least 75% of increased annual revenues from tuition and fees and State Share of Instruction, as well as 100% of increased indirect cost recoveries, are distributed back to the generating colleges.

These initiatives are discussed in greater detail in Chapter III, FY 2008 Expenditure Summary.

The university continues to seek operating efficiencies through cost savings measures such as the Transition to Work program, Energy Projects and E-procurement to streamline purchasing and contracting, as outlined in Chapter III. The budget context and initiatives for the regional campuses are discussed in Chapter IV. The university continues to advance effective financial stewardship by the updating and monitoring of financial goals and measurements as outlined in Chapter V.

II. FY 2008 Revenue Summary

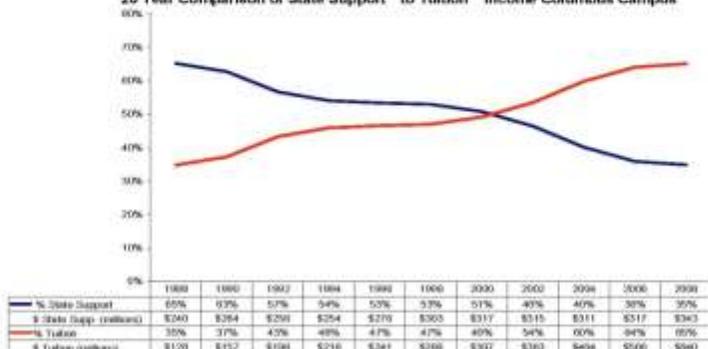

Overview

The university's total current funds revenues (including general funds, earnings and restricted revenue) are projected to increase by 7.5% from \$3.8 billion to \$4.1 billion between FY 2007 and FY 2008.

General fund revenues for the Columbus campus consist primarily of state support (State Share of Instruction, challenge funding and state line-item appropriations) and student tuition and fees. General fund revenues are projected to increase by \$46.6 million. An additional \$10.1 million is being carried forward from FY 2007 as a result of increased enrollment and retention rates.

FY 2008 will be the first time since 1987 that resident undergraduate tuition has not increased. The undergraduate tuition freeze is made possible by a 4.8% increase in state support and higher fee revenue resulting from increased enrollment and retention rates as well as increases in graduate and professional tuition and the out-of-state surcharge. The proportional share of state support of the Columbus Campus budget remains unchanged from the FY 2007 level at 35%.

20 Year Comparison of State Support* to Tuition** Income Columbus Campus

* As used here, "State Support" includes State Share of Instruction, Success Challenge, and Innovation Incentive funding.

** "Tuition Income" includes instructional, general, student activity, and recreation fees, and non-resident surcharge.

State Support

Am. Sub. H.B. 119 represents a significant investment by the State of Ohio in higher education. The bill increased state support to higher education by \$340 million for the FY 2008-2009 biennium, including additional moneys intended to offset the freeze in undergraduate tuition, as well as new moneys intended to enhance research, instruction, and enrollments in Science, Technology, Engineering, Mathematics, and Medicine (STEMM).

State Share of Instruction

The state Share of Instruction (SSI) allocation is the state's primary funding support for enrollments at its colleges and universities. In FY 2008, SSI will go up 2% uniformly, plus the state will allocate an additional \$58 million to colleges and universities that agree not to raise undergraduate tuition as well as achieve cost reductions in their operations. Ohio State's campuses are projected to receive \$342 million in base SSI in FY 2008 plus an additional \$10.6 million to offset the loss of tuition. In return, Ohio State will have to demonstrate 1% (\$4.7 million) of efficiency savings in FY 2008 and an additional 2% in FY 2009.

Ohio Innovation Partnership

Over the course of the biennium the state will invest \$150 million in the Ohio Innovation Partnership intended to bolster research in Science, Technology, Engineering, Mathematics, and Medicine (STEMM) as well as to provide scholarships for students majoring in STEMM related fields.

Fifty million dollars of the Ohio Innovation Partnership will be invested during the biennium in an endowment to support the Ohio Research Scholars Program. The income from the program will fund grants that universities can use to help recruit scientists and faculty to their campuses. The details of the grants and allocations are still unknown, so no prediction can be made yet as to what OSU's allocation will be from this program.

The state will also invest an additional \$100 million over the biennium to fund the Choose Ohio First Scholarship for students majoring in STEMM fields. The scholarships will range from a minimum of \$1,500 per year to one-half the highest tuition rate charged by state universities (excluding Miami). The details of the program are still being worked out.

Challenge Funding

Am. Sub. H.B. 119 also maintains or enhances the Challenge funding, while requiring studies to ascertain its effectiveness. The amount of challenge funding received is dependent upon the university's contribution to meeting the specific statewide goals:

Success Challenge – rewards successful completion of baccalaureate programs by at-risk students (OIG-eligible undergraduates) and successful, timely completion of

baccalaureate degrees by state residents. In FY 2008, OSU is projected to receive \$11.1 million in Success Challenge funding, an increase of 0.6% over FY 2007.

Innovation Incentive – allows institutions to match a portion of their doctoral allocation from the State Share of Instruction allocation with state funds to improve doctoral programs and enhance research in strategic areas. In FY 2008, OSU is projected to receive \$1.9 million in Innovation Incentive funding, the same as in FY 2007.

Access Challenge – reduces financial barriers to entry-level higher education (two-year campuses only). Access Challenge funds help the regional campuses keep their tuition low. OSU's regional campuses are projected to receive \$3.0 million in Access Challenge funding in FY 2008, an increase of 4% over FY 2007.

Jobs Challenge – rewards successful efforts in meeting community needs for non-credit job training (two-year campuses only). OSU's regional campuses are projected to receive \$413,000 in Jobs Challenge funding in FY 2008, the same as in FY 2007.

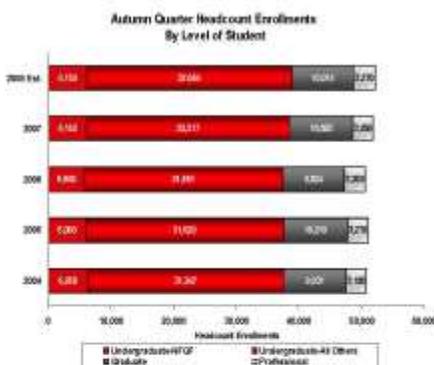

Priorities in Graduate Education – supports improvements in graduate programs in computer science. In FY 2008 OSU is projected to receive \$572,000 in Priorities in Graduate Education funding, the same as in FY 2007. This is included in the university's restricted funds category.

Research Incentive – rewards success in securing sponsored research from external sources. (Formerly known as Research Challenge.) Am. Sub. H.B. 119 increases funding for the Research Incentive by \$12 million statewide over the previous fiscal year. In FY 2008, OSU is projected to receive \$13.2 million in Research Incentive funding, an increase of \$5.4 million over FY 2007. Starting in FY 2008, Research Incentive is included in the university's restricted funds category. It previously was included in general funds.

Student Fees

Student Enrollments

Total undergraduate, graduate and professional Columbus campus enrollments for Autumn Quarter 2007 are projected to be 52,098, up 280 students over Autumn 2006. An autumn quarter freshman class of 6,150 is expected. Slightly larger freshman

classes over the past two years, as well as continuing improvement in the number of students who remain enrolled, are anticipated to offset decreasing enrollments due to an increasing number of students who graduate in four years. As a result, the estimated undergraduate enrollment level for FY 2008 is projected to increase by 501, or 0.4%, above FY 2007 enrollments.

Graduate enrollments decreased slightly in FY 2006 and 2007 after

several years of increases and are projected to continue a small decline in FY 2008. Professional student enrollments are projected to increase slightly.

Undergraduate Instructional, General, Student Activity and Recreation Fees

In accord with the FY 2008 - 2009 biennial state budget, undergraduate general and instructional fees did not increase for FY 2008 and are not planned to increase in FY 2009. This will be the first time since 1987 that resident undergraduate tuition has not increased. It is the lowest two-year tuition increase since 1965-66 (see Appendix VI.1).

This translates into the fee tier levels² listed below. In addition to the undergraduate instructional fee and the general fee (consisting of the \$126 per quarter basic general fee plus the \$15 undergraduate student activity fee), the annual amounts shown include the \$9-per-quarter Central Ohio Transportation Authority (COTA) fee. Also included is the mandatory student recreation fee of \$81 per quarter paid by students enrolled for four or more credit hours.

² Tier 1, for full-time continuing undergraduates who were first enrolled at Ohio State prior to Summer Quarter 2002, will phase out effective Autumn Quarter 2007. Any students remaining in that tier move into Tier 2.

- Tier 2 - \$8,568 annually (\$2,856 per quarter) for full-time continuing undergraduates who were first enrolled at Ohio State prior to Summer Quarter 2003. This tier is expected to phase out in FY 2009.
- Tier 3 - \$8,676 annually (\$2,892 per quarter) for full-time students who first enrolled at Ohio State for Summer Quarter 2003 or later.

**Ohio Public 4-Year Universities
Undergraduate Resident Tuition and Fees Rates
Entering Full-time Students in Autumn 2007**

Universities	Credit Hours (Range)	Academic Year 2007-08 Fees*

Shawnee State	13-18	\$6,932
Central State	12-18	\$5,294
Ohio Average		\$8,036

*Does Not Include Substantial campus-provided services.
**Substantial self-provided services.

The revenue generated by tuition will provide the university with resources to continue to make progress toward the goals of the Academic Plan and meet the needs of our students as well as continue to be a high value investment to the citizens of Ohio. In FY 2008, new students at the Columbus campus will pay less in tuition and fees than new students at four other Ohio public universities.

Graduate and Professional Fees
Masters and PhD instructional, general, and student activity fees will increase \$525 per year (5.7%), or \$175 per quarter. The graduate student activity fee (\$15 per quarter for fulltime students) supports graduate and professional student organizations and programs.

Some graduate and professional students pay a higher, or differential, instructional fee. Revenue generated from FY 2008 differential fee increases is earmarked to support the graduate and professional programs that generate the fee income.

Nineteen graduate and professional programs will have differential instructional fees in FY 2008. Twelve of these programs will have differential fee increases in excess of a base fee increase of 6.0%. The following table specifies the various graduate and professional programs' differential fee increases for full-time graduate and professional students effective in Autumn 2007.

**FY 2008 Increase for Graduate and Professional Program
Differential Instructional Fees**

College	Instructional		Non-Resident Surcharge ¹

Non-Resident Surcharges

Effective Autumn Quarter 2007, the undergraduate non-resident surcharge at all campuses will increase 6% to \$4,203 per quarter for a full-time student. The non-resident surcharge will also increase by 6% for all graduate and professional programs at each campus, except for the College of Law, which will increase by 2%.

Undergraduate Program and Technology Fees

The following six programs will have undergraduate program fees in FY 2008:

College/Program	FY 2008 Annual Fees
School of Music	\$477
College of Business	600
College of Nursing	150
College of Biological Sciences	180
College of Engineering	150
School of Allied Med.	150

¹ Non-resident students pay the non-resident surcharge in addition to the instructional fee. All students pay a general fee, student activity fee and recreation fee not shown in this table.

² This is the first year of differential fees for the Master of Social Work program.

For the Fisher College of Business, the FY 2008 program fee represents a \$150 annual increase over the FY 2007 program fee. For the School of Music, the FY 2008 program fee represents a \$27 increase over the FY 2007 program fee. The undergraduate program fee for the College of Engineering is a new fee, to be implemented in Autumn 2007.

Several colleges and programs have established learning technology fees in prior years to fund enhanced technology needed to remain competitive within their fields. The technology fee in the Fisher College of Business is increasing by \$45 annually this year. The technology fees for the College of the Arts and the College of Nursing are increasing by \$9 annually over the FY 2007 fee.

All technology and program fees are prorated by credit hours.

Residence Halls and Other Charges

Housing fees (the second highest expense after tuition) for a resident undergraduate student at Ohio State's Columbus campus are set to increase by an average of 4.7%, or \$345, for FY 2008. The residence halls are self-supporting and receive no state support or tuition to offset costs of operations and facility maintenance. All increased costs must be covered by housing fees.

The total cost for a resident undergraduate student to attend Ohio State's Columbus campus and live in university housing will increase approximately 2.5% for a three quarter academic year for a new student. However, for resident undergraduate students who receive some form of university financial aid the increase will be less and in some cases, zero.

Fees and Charges (Annual)	2007 Annual Rate	2008 Annual Rate	Percent Increase Over FY 2007
Tuition ⁵	\$8,406	\$8,406	0.0%
Room & Board ⁶	7,236	7,581	4.8%

⁷ Based on the single comprehensive rate.

⁸ Rates are for the Columbus west campus.

⁹ Student package is 4 games.

¹⁰ Season package is 10 games.

Sponsored Research

Indirect cost recoveries grow as a function of the level of external research grants awarded to the university and actual expenditures to support research at the university. The negotiated indirect cost recovery reimbursement rate is a function of the university's actual expenditures (subject to certain established ceilings) for general administrative and library support services, and research facility and equipment costs. The OSU indirect cost recovery rate on most federal research grants increased from 49.5 to 50.0% on grants awarded after July 1, 2006. This will remain the indirect cost recovery rate until July 2009. By FY 2009 it is estimated the additional 0.5% will generate an additional \$1 million in cost recoveries annually. However, even with this higher recovery rate, there is only a slight increase in recoveries projected for FY 2008 as a result of the federal government's flat funding of research.

External research grants awarded to the university are projected to remain level in FY 2008, as they were in FY 2007. Colleges and research centers are projecting indirect cost recoveries growing at only 0.4% and generating increased revenues of about \$250,000 over FY 2007 levels.

(In millions)

Sponsored Research ¹¹	Actual FY 2005	Actual FY 2006	Actual FY 2007	Budget FY 2008 ¹²
Total Direct Costs	\$ 276.8	\$ 290.9	\$ 298.5	\$ 308.5
Percent Change	-13.3%	5.1%	3.0%	3.0%
Indirect Costs	\$ 67.8	\$ 72.4	\$ 71.9	\$ 72.2
Percent Change	6.2%	6.7%	-0.7%	0.4%

Internal Overhead and Service Charge

The regional campus service charge is projected to increase by 5%, resulting in increased revenues of \$225,000 in FY 2008. University overhead paid by earnings units and auxiliaries is increasing by over \$5.7 million in FY 2008. \$4.1 million of the increase will be generated primarily as a result of the growth in hospital revenues and will be used to fund university commitments to the Medical Center and increased costs of supporting the Medical Center.

(In millions)

Internal Overhead ¹³	Actual FY 2005	Actual FY 2006	Actual FY 2007	Budget FY 2008
Cost Containment	\$ 4.6	\$ 4.6	\$ 4.6	\$ 4.6
Financial System Support	0.0	0.0	1.1	1.1
Regional Campus Serv Chg	5.2	4.2	4.2	4.7

Total Internal Overhead	49.6	53.0	59.9	64.5
Percent Change	-4.6%	6.9%	13.0%	7.7%

¹¹ Figures for FY 2005 to FY 2007 provided by OSURF.

¹² Total Direct Costs are estimated at 3% over FY 2007. Indirect Costs are per the General Funds Budget.

¹³ These revenues are not reflected in the tables in the appendices as they are considered intra-university transfers.

Assessments

The purpose of the assessments¹⁴ is to fund the support services necessary to achieve the University's goals by allocating the expense among the beneficiaries of the support services.

The marginal allocations for the Research Administration, Student Services, and Development Assessments for FYs 2005 through 2008 were as follows:

(In millions)

Assessment	FY 2005	FY 2006	FY 2007	FY 2008
Research	\$ 1.5	\$ 0.9	\$ 0.9	\$ 1.0
Student Services	11.7	10.1	10.4	7.3
Development	0.4	0.2	0.0	1.8

Research Administration Assessment

This assessment supporting the Office of Research and OSURF is allocated proportionally to the modified total direct costs recorded by each college and center. When first implemented, the rate of growth in the research assessment from one year to the next was set at approximately one-fourth of the growth of indirect cost recoveries for the preceding year, since central expenses in support of research account for about 25% of the indirect cost rate. In FY 2008 the Research Administration Assessment funds increases in general funds support of the Office of Technology Licensing and Commercialization and existing levels of service at OSURF and the Office of Research. For most units this exceeds the increase in indirect cost revenues in FY 2008.

Student Services Assessment

The student services assessment (SSA) covers the annual increases in the cost of services provided by Student Affairs, Enrollment Services, Undergraduate Student Academic Services, and the Graduate School in addition to annual changes in the non-resident portion of graduate fee waivers, graduate fellowships, and undergraduate student financial aid.

The total budgets of those units whose increases are funded through the student services assessment make up three separate cost pools: undergraduate, graduate, and all students. The component of the SSA that funds each cost pool is based on a two-year average of credit hours for the appropriate students (i.e., undergraduate, graduate, or all).

The total marginal allocation for the three SSA cost pools for FY 2008 is \$7.25 million.

Development Assessment

A robust development effort is a university priority. In recent years, the investment income earned from the endowment and other gifts was not sufficient to support the

¹⁴ The assessments are not reflected in the tables in the appendices, as they are transfers within the general fund.

level of development effort needed to meet that goal. In FY 2006, an assessment paid by colleges, support units and auxiliaries was implemented to supplement the investment income support. That assessment level was not increased in FY 2007, but is increased by \$1.8 million this year.

Each college or support unit's portion of the development assessment is based on its percentage of total gifts received and total central resources expended.

Other Income

Additional sources of general funds income include interest income and miscellaneous administrative fees and charges income. As a category, budgeted revenue from other income is projected to increase 12.1% over FY 2007 budgeted levels. Because of the volatility of the return on investments, the annual budget does not assume the actual increase earned in the prior year will be realized in its entirety. The interest earned above the budgeted annual rate is used to fund one time needs in the following year.

(In millions)

Other Income	Actual FY 2005	Actual FY 2006	Actual FY 2007	Budget FY 2008
Investment Income ⁵⁵	\$ 14.1	\$ 20.6	\$ 37.5	\$ 15.8
Miscellaneous Fee Income	1.1	1.1	1.3	0.6
Total	15.2	21.7	38.8	16.4

Endowment Distributions

In addition to their general funds support, colleges and academic support units will receive an estimated \$63 million in revenues in FY 2008 generated through the investment of their endowments.

⁵⁵ FY 2008 number includes general funds budget and interest income allocated to development support.

III. FY 2008 Expenditure Summary

Resource Allocation

FY 2008 is the sixth year of Ohio State's restructured budget process. This budget process aligns the allocation of resources with the Academic Plan and decentralizes much of the decision making about expenditure priorities to the college and vice-presidential level.

In FY 2008, Ohio State's current funds budgeted expenditures for all campuses total \$4.0 billion including \$1.2 billion in general funds, \$2.1 billion in funds generated from earnings and auxiliary operations and \$770 million in estimated restricted expenditures.

At the Columbus campus, general funds support of a continuing level of services for FY 2008 requires \$1.1 billion, including \$659.1 million to support existing faculty and staff levels and \$93.9 million to support existing facilities operations costs. The total FY 2008 financial aid budget including graduate fee authorizations is \$189.7 million or 16.8% of the university's general funds budget.

The FY 2008 budget is structured to support key university-wide initiatives, consistent with the Academic Plan:

- **Competitive Compensation**
- **Reform of the Undergraduate Curriculum**
- **Quality Graduate Programs**
- **Targeted Investments in Excellence**
- **2008 Enrollment Plan**
- **Enterprise-wide Systems**
- **Safety and Security**
- **Compliance Activities**

Funding for these initiatives is described below:

- A. **Competitive Compensation** – The FY 2008 merit compensation pool will support the university's share of increased benefit costs. On average a 4.0% faculty and 3.5% staff merit increase will be funded from college and support unit operating budgets. The average faculty compensation increase, including promotions, is estimated to be 4.3%. The provost is selectively supporting high quality academic units that lag behind their benchmark faculty salary levels.
- B. **Reform of the Undergraduate Curriculum** – The university is implementing a reduction of 10 credit hours in the requirements for graduation commencing in autumn quarter for new students. No financial

impact is anticipated in FY 2008 since the change will primarily impact freshmen. A significant financial impact is expected, beginning in FY 2009, as students are allowed to graduate with fewer credit hours. Work continues on addressing the financial implications of this change on future budgets.

- C. **Quality Graduate Programs** – The university has approved the changes for supporting quality graduate programs as proposed by the Senate Fiscal Committee. A reallocation of 1.5% of the doctoral subsidy will be implemented, with the funds being redirected to support the Innovation Incentive funded activities and to fund quality graduate programs not included in the Innovation Incentive program. The Graduate School and colleges will develop a program review process to identify those doctoral programs that should be improved, downsized, or eliminated.
- D. **Targeted Investments in Excellence** – Through a major investment of resources over the next five years, the university will reallocate \$50 million in central funds to support ten research initiatives chosen through a competitive selection process. These funds will be matched by the participating colleges for a total investment of \$100 million.
- E. **2008 Enrollment Plan** – The final year of funding will be used to complete the enrollment plan activities. \$1.3 million has been set aside for financial aid to support recruiting of highly qualified undergraduates. In FY 2007, this program was funded through the student services assessment, and in FY 2008 it will be funded centrally by the revenue generated from the higher-than-anticipated student enrollment and retention that occurred in FY 2007. The goal of this program is to continue to raise academic qualifications of the incoming freshman class to targeted levels. The success of this initiative is reflected in continually improving academic qualifications of incoming students.
- F. **Enterprise-wide Systems** – The major initiative in this area is the student information system. Nine million dollars is allocated to fund Phase III of V of this \$50 million project.
- G. **Safety and Security** – The budget directs a significant level of resources toward safety and security issues, both for the physical safety of the students, faculty and staff of the university and for the security of the information systems. These initiatives include continuing funding for fire safety (\$292,000) and cyber-security activities (\$1.1 million), as well as one-time funding for cyber-security (\$162,000), building security (\$1.3 million), and security and communications improvement (\$1.0 million).
- H. **Compliance** – Compliance issues are also a priority in FY 2008. These initiatives include one-time funding of the audit consultant as requested by

the board (\$800,000) and EPA compliance (\$180,000). In addition, \$250,000 in continuing funds was provided to the Office of Research to continue implementing federal requirements for human subject research.

The FY 2008 budget continues to support the review of core academic support processes in order to reduce expenses and improve services. Three continuing cost reduction initiatives are being funded in 2008. They are summarized below:

Transition to Work – this plan is modeled after successful efforts elsewhere that demonstrate savings to employers in Worker's Compensation costs and significant benefits to employees by returning employees with temporary medical or psychological restrictions to work sooner. This is year two of a three-year initiative. An investment of \$241,000 is expected to save between \$1.5 and \$2.8 million annually by 2010.

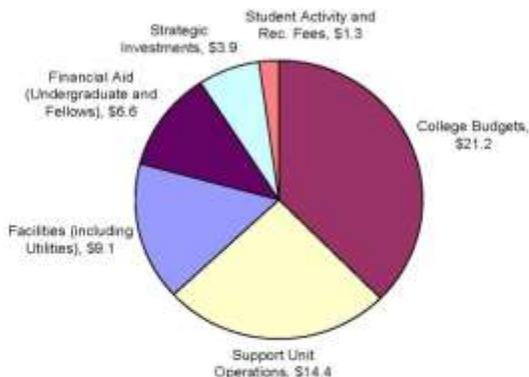

Energy Projects – the rising cost of energy has made it cost effective to enhance conservation efforts and explore alternative energy sources across campus. This initiative includes \$250,000 in one-time funds to enable the Energy Services and Sustainability group to provide leadership and coordination and approval of project proposals targeted at reducing energy costs. This is the second year that funding has been provided to address Phase 2 energy conservation. Phase 1 projects have resulted in purchased energy cost avoidance with a net present value of \$751,000 over five years. It is expected that similar results will materialize with these initiatives.

E-Procurement – this initiative includes funding for the continued implementation of the E-Procurement System in order to reduce costs for the purchase of goods and services and to improve the internal controls surrounding the procurement processes. This will allow for an improved bidding and negotiation position with vendors and streamlined central purchasing processes to focus on strategic purchasing and contract management. Included is \$285,000 in continuing funds and \$480,000 in one-time funds. Projections show that for each additional dollar of purchasing processed through the E-Procurement System, the department saves \$0.10. In FY 2005 and FY 2006, \$67 million in cost savings was achieved through more strategic use of contracts.

Changes by Category

Expenditures for FY 2008 are increasing by \$56.7 million. \$46.6 million is from FY 2008 marginal increase in revenues and \$10.1 million is a carryforward of revenue received in FY 2007 due to higher-than-anticipated enrollment and retention rates. It is not anticipated that this level of carryforward will continue for FY 2009. The general fund reserve in FY 2008 is \$0.6 million.

Total ²⁸	\$1,083.3	\$1,129.7	\$46.6	4.3%

Areas of emphasis for FY 2008 include:

Competitive faculty and staff salaries – Salaries and benefits are budgeted for in the college and support unit operating budgets and comprise 77.7% of the college budgets and 67.6% of the support unit budgets.

In FY 2008, compensation pools for faculty, including promotions, (effective October 2007) are projected to average 4.3%. Merit compensation pools for staff, also effective in October, will average 3.50%, plus an optional 0.5% to adjust for market equity. The variance among colleges in the average faculty pay increase is a reflection of the competitiveness of the faculty salaries with each department's benchmark institutions. However, the primary criterion for an individual's compensation is performance. Pay increases in many units will be partially funded by a reallocation of existing budget. In some instances, this will be accomplished by not filling vacant positions; in other cases, by using internal funding sources or by reducing operating costs. Rebasing funds were allocated by the provost to high performing departments with average salary levels below their benchmarks. This was done in order to maintain and/or increase OSU's competitiveness in compensation.

The university is providing additional support in FY 2008 to assist with the payment of graduate assistant (GA) health benefit costs. This support is increasing from 80% to 85% of the total cost, and GA premiums are reduced to about \$71 per quarter.

²⁰ Includes doctoral quality funding and rebasing funds.

²¹ Service improvements and mandates will be transferred into support unit budgets in FY 2008.

²² College and support unit fee authorizations are contained in their respective budgets.

²³ Does not include \$3.2M increase in graduate fee authorizations in college and support unit operating budgets.

²⁴ This category includes the provost's and president's strategic investment funds.

²⁵ Student activity fee revenue is transferred to Office of Student Affairs to fund student activities and is reflected in the Student Affairs operating budget.

²⁶ May not add due to rounding.

Student Financial Aid – Financial aid funds are increased at a rate that ensures students who are otherwise qualified will not be denied access for financial reasons. Although there was no increase in in-state tuition in FY 2008, financial aid was increased by \$1.7 million to reflect the increased cost of housing and the 6% increase in the out-of-state surcharge. In addition, \$1.3 million of the funds generated in FY 2007 from higher-than-anticipated enrollment and retention rates was budgeted for additional financial aid to support recruiting for the 2008 Enrollment Plan, the university's initiative to raise academic qualifications of the incoming freshman class to targeted levels, including an average ACT score of 27.

An additional \$6.1 million is budgeted to support the growth in graduate fee authorizations and non-resident graduate fee waivers. Part of this increase (\$2.4M) is included in college and support unit operating budgets.

Support of Facilities – The focus of facilities support continues to be directed toward funding utilities adequately and implementing energy conservation changes to be more efficient in energy use. In addition, funding has been designated for further campus beautification projects and long-term planning for facility needs in the future.

Colleges and support units contributed from their net marginal resources a \$9.1 million inflationary increase in budgeted facility costs, including utilities, rent, repair, and renovations. Included in this increase are the highly complex research facilities housed in the Biomedical Research Tower (BRT), which opened during FY 2007. Because the projected FY 2008 maintenance cost per assignable square foot for the BRT is more than 10% in excess of the rate for the rest of the university, BRT occupants pay a maintenance surcharge in addition to the physical plant assessment (PPA) which is charged to all colleges and support units. This is the second time the university has adopted a surcharge for a building with higher-than-average physical plant costs; the first was the McCorkle Aquatic Facility, which is assessed a utilities surcharge that was implemented in FY 2007.

Most facilities costs including operating costs for the Department of Facilities Operations and Development, are funded through the Physical Plant Assessment (PPA). The four cost pools that make up the PPA and their marginal increases for FY 2008 are: utilities, \$6.4M; maintenance, \$2.0M; custodial, \$1.4M; and the maintenance and renewal fund, \$0.5M. The maintenance and renewal fund established in 2005 to address long-term maintenance and renovation needs of general funds space cannot be spent until FY 2015. In the meantime, the cash balances are invested and the interest returned to the fund. It is estimated in FY 2015 the fund will have a balance of \$40.4M. This assumes a \$0.05 annual increase in assigned square foot rates.

The auxiliary operations, regional campuses, the Ohio Agricultural Research and Development Center, and the Agricultural Technical Institute also fund maintenance and renewal endowments for their facilities.

Strategic Investments – The FY 2008 budget assumes \$3.9M in new funding for strategic investments. These investments include the Targeted Investment in Excellence (TIE) and funding to support competitive salaries for faculty through the rebasing process.

Provost's Annual Rate to Invest in University-wide Initiatives – The provost has allocated \$4.7M to support university-wide initiatives. This includes the \$2M in the Provost's Strategic Investment Fund and an additional \$2.1M generated from the 5% set aside of marginal increases in tuition and state support. Other funds available to the provost to invest in areas of strategic importance include \$600,000 available for faculty promotions and Success Challenge Funds received from the state.

The funds generated from the 5% set aside have been used to align college base budgets with the goals of the Academic Plan. This includes moving funds into, as well as recovering funds from, college base budgets. The table below documents the rebasing transfers to and from colleges beginning in FY 2002.

College Rebasing History
(in millions)

College	FY02 - FY07	FY 2008 Rebasing ²⁷	7 Yr Total
Arts	\$0.25		0.25

Veterinary Medicine	0.32	0.07	0.39
Total Net Transfers	\$24.75	\$2.02	\$26.77

²⁷ Includes mortgage forgiveness of \$104,745 for Business and \$230,293 for FAES.

²⁸ Includes \$100,000 from Executive Dean of the Arts and Sciences.

²⁹ Includes \$110,000 redirection of Academic Enrichment funds.

Starting in FY 2007, the provost committed \$1M of the \$2M Strategic Investment Fund for five years to support the Targeted Investments in Excellence Initiative. Remaining Strategic Investment Funds are set aside to fund initiatives like the Reform of the Undergraduate Curriculum which are anticipated to need funding in future years.

President's Strategic Investment – In October 2000, the University Board of Trustees approved the creation of the President's Strategic Investment Fund. The purpose of this fund is to allow the president to direct one-time resources to areas of strategic investment.

The Board resolution prohibits use of these resources for continuing commitments. Use of these funds is reported annually to the Board of Trustees. Committed funds are identified in the following table.

**President's Strategic Investment Fund
Planned Resources and Commitments**
(In Millions)

Resources	Prior Years	FY 2006	FY 2007	FY 2008	Total

²⁰ Represents 35.5% of Research Incentive budget.

²¹ No interest loan pending capital bill.

President's Strategic Endowment – The President's Strategic Endowment income is derived from the investments made possible by a change in Ohio law that allows the university treasurer to invest university revenues with the university's endowment fund to earn a higher rate of return. The FY 2008 allocation consists of \$5.0 million that will be used at the discretion of the University's new president.

Multi-year University Initiatives

The FY 2008 budget supports 4 specific multi-year commitments. These include:

Targeted Investments in Excellence (TIE) – Funding is set aside for Phase II of V of the TIE programs. The funding includes \$5M of the President's Strategic Investment Fund, \$3M of research funding, \$1M of central funds (all one-time funding) and \$1M of continuing funding from the Provost.

Medical Center Support – One-time funding is set aside for Phase IV of V for the Medical Center. The funding includes \$3M of the President's Strategic Investment Fund, \$500,000 of central general funds, \$1M of research funding and \$500,000 of funding from the provost.

Central SIS Support – One-time funding is set aside for Phase III of V. The funding includes \$500,000 of the President's Strategic Investment Fund, \$1.5M from the Provost and \$1M from central funds.

Enrollment Plan 2008 – Central funding of \$1.3M in continuing funding is set aside for the final year of Enrollment Plan 2008 activity (Phase V of V). The source of funding was the FY 2007 fee reconciliation.

More detail on these initiatives is included in Chapter V.

Service Improvements and Mandates

The FY 2008 budget funds many service improvements and mandates as well as providing for one-time funding for specific activities. Table II.4 provides specific funding by project. Some of the highlights include:

Safety and Security – the FY 2008 budget supports physical and system safety and security issues by setting aside \$621,000 of continuing funds and \$3.8M of one-time money to address fire safety, building security, cyber-security activities, business continuity planning and security and communications improvements.

Compliance – the FY 2008 budget supports additional compliance activity needs by setting aside \$1.02M of one-time funding for audit consultants, EPA compliance and preparation for federal review of employment practices. Funding is also set aside in the Office of Research for meeting human subject protocols in order to assure passage of a federal review process.

Outreach and Engagement – the FY 2008 budget provides a total of \$500,000 in one-time funding for public service announcements, WOSU, and other outreach and engagement activities.

Services to Students – the FY 2008 budget includes \$332,000 in continuing funds for disability services, counseling and consultation services, and commencement activities. An additional \$288,000 in one-time funds is provided for Carmen support and disability services.

University Libraries – the FY 2008 budget provides \$500,000 in continuing funds and \$250,000 in one-time funds to support the library system with acquisition of new journals, books, and digital resources, as well as to fund inflationary costs of continuation of existing resources.

University Enterprise System Initiatives Funded Through Reallocations

The major initiatives in this area are SIS and the grants management system, which are both funded through multi-year cash assessments reallocated from college, support unit, and auxiliary unit budgets. Nine million dollars is allocated to fund the \$50 million SIS project. The grants management initiative is in the final year of implementation and 2008 will be the last year for its assessment.

Changes by College and Academic Support Unit

Another way to look at the allocation of university resources is by sorting the budget by unit responsible for administering the funds. The following tables show the relative size of the college and academic support unit budgets and the growth in their budgets for FY 2008 compared to FY 2007.

The budget allocation methodology directs 76% of state support and tuition and almost 100% of indirect cost recoveries to the colleges. This has, as anticipated, resulted in differential net marginal revenue growth among the colleges. The colleges teaching a growing number of credit hours or expanding their research are realizing more growth in general funds revenues than the colleges with flat or declining credit hours or research initiatives. In addition, some professional colleges and programs charge differential instructional fees. Differential tuition revenues are earmarked in their entirety for the support of the programs in which the students paying the tuition are enrolled.

It is important to recognize that some colleges rely more heavily on general fund revenue than others and therefore are more directly affected by the allocation methodologies. The following table shows fund proportions for FY 2007.

Sources of Funds by College - FY 2007
(In Order of Percent of General Funds)

College	Total Funds (in Millions)	General Funds % of Total ¹⁾	Earnings % of Total ²⁾	Restricted % of Total ³⁾
Humanities	\$62.7	91.9%	0.2%	7.9%
Arts	\$28.2	90.6%	3.9%	5.5%
Law	\$22.1	75.3%	0.5%	24.2%
Social Work	\$6.9	73.4%	1.2%	25.4%
Nursing	\$10.8	71.9%	0.4%	27.8%
Fisher College of Business	\$54.3	68.9%	7.3%	23.8%
Math & Physical Sci	\$105.6	63.2%	0.7%	36.1%
Social & Behavioral Sci	\$61.9	62.6%	3.6%	33.6%
Pharmacy	\$20.7	61.9%	1.5%	36.6%
Education/Human Ecology	\$67.4	57.0%	9.0%	34.0%

Public Health	\$11.2	49.6%	0.2%	50.3%
Dentistry	\$44.3	49.4%	26.5%	24.1%
Veterinary Medicine	\$52.8	42.7%	29.0%	28.3%
Engineering	\$176.2	38.1%	10.9%	51.0%
Optometry	\$15.4	35.3%	19.9%	44.8%
Medicine	\$245.3	27.4%	1.1%	71.5%
Food, Agric & Env Sci ⁴⁾	\$191.5	15.9%	5.5%	78.5%
Total	\$1,252.6	45.5%	6.4%	48.1%

Note: Due to interfund transfers, sources may be slightly overstated in certain situations.

¹⁾ General Funds are unrestricted resources available for allocation in support of core instruction, instructional support, and related general administrative and physical plant expenditures. Also include fee authorizations.

²⁾ Earnings Operations are also unrestricted with resources generated from the sales and services of the earnings units. While not a requirement, these resources are generally designated to the unit generating the revenue.

³⁾ Restricted Funds are funds whose use has been designated by an external agency or individual and limited to support a specific purpose and/or unit. Sponsored Programs are included.

⁴⁾ Includes the College of Food, Agricultural & Environmental Science, as well as ATI, OSUE and CARD.

Grand Total	284.12	11.91	4.2%	2.52	13.13

In addition to the one-time commitments detailed in the above chart, cash is being held centrally in a general funds reserve (\$1M) and president's operating funds (\$2M). A second year of subsidy is also set aside to support Gateway operations.

⁴⁴ Program expansions are reviewed and selected for funding through a process which includes consultation with faculty, deans, and the president's cabinet.

⁴⁵ Includes CIT, Human Resources, Provost Office Administration, and Office of Minority Affairs.

⁴⁶ Does not include \$528,000 increased funding for graduate fellows.

⁴⁷ Does not include Student Financial Aid.

⁴⁸ This funding covers the portion of the Executive Dean's Office that advises non-Arts and Sciences students. The remainder of the office is shown on the preceding page under colleges.

⁴⁹ Includes OSURF operating and \$2M one-time funds for grants management system.

The Office of Development

To ensure a robust University Development effort, this budget recommends a revised model for funding Development. The model was developed in conjunction with the Council of Deans, Office of Academic Affairs, the Office of University Development and the Office of Business and Finance. The model assumes a FY 2008 endowment payout in support of development of 1.075% or about \$13 million. The payout is recommended to be reduced by 0.025% in FY's 2009, 2010 and 2011 to reach a recommended permanent endowment support of development level of 1%. Colleges, support units, auxiliaries, and regionals will increase their support of development by \$1.8 million and an estimated \$1.6 million in interest earned on unspent endowment distributions and current use gifts. These recommendations in combination with the 180-day hold on current-use gifts and the revenue from the first six months of new endowments distribution, both already in place, along with the revenue from existing unrestricted gift money and endowments set aside for the support of development, will stabilize continuing general fund support of development while providing a funding base for the current level of development efforts.

IV. Regional Campuses

Budget Context

The mission of the regional campuses of The Ohio State University is to further Ohio State's Land Grant and outreach traditions by making higher education accessible to university students who desire a campus close to home or a smaller and more intimate one, or who want to be Buckeyes but do not meet the selective admissions standards for the Columbus campus. Regional campus admission is open to all students with high school diplomas or GEDs. The campuses value diversity and enroll students who are traditional and non-traditional in age, many of whom are first generation college students. These institutions strive to reach out to their surrounding communities and have a long history, beginning with their very origins, of strong support from their communities. Campus scholarships and other financial aid assist many students in surmounting financial obstacles, as does the lower tuition rate on the regional campuses. Smaller class sizes, more personal attention, and academic enrichment services on the campuses benefit all students and help those who may have been away from education for a number of years or who need to improve their learning skills.

The regional campuses offer the first one to two years of Ohio State arts and sciences general education curriculum as well as all coursework toward Ohio State degrees in a handful of undergraduate disciplines and graduate professions that align with community and state needs. Many regional campus students take advantage of "campus change" to Columbus to complete their Ohio State academic programs. The regional campuses deliver their programs using Ohio State faculty and staff.

The campuses share facilities with co-located technical and state colleges. Lima shares its campus with Rhodes State College, Mansfield with North Central State College; Marion with Marion Technical College, and Newark with Central Ohio Technical College. Each campus engages in cooperative activities and programming with its co-located institution, such as library services, student activities, athletic teams, and some transfer and articulation agreements for academic programs. Although each campus has its unique model, the regional campus and the co-located institution strive for efficiency and sharing of expenditures. The cost-share summary is shown in Table II.5 in the back of this book.

Revenues and Expenditures

Revenues for the regional campuses are earned from two primary sources: tuition and state subsidy. The table that follows summarizes the resources and expenditures for each campus. (Detailed budgets are included in Section II – Detail of Budgeted Revenues and Expenditures).

Regional Campus FY 2008 Current Funds Budget Summary

Resources	Lima	Mansfield	Marion	Newark
General Funds	\$ 13,024	\$ 15,800	\$ 14,549	\$ 21,046
Earnings Funds	\$ 475	\$ 313	\$ 54	\$ 75
Restricted Funds	\$ 1,702	\$ 2,037	\$ 3,256	\$ 2,224
Total Resources	\$ 15,201	\$ 18,150	\$ 17,859	\$ 23,344
Expenditures				
General Funds	\$ 12,964	\$ 15,567	\$ 14,553	\$ 21,076
Earnings	\$ 395	\$ 469	\$ 79	\$ 74
Restricted	\$ 1,702	\$ 2,037	\$ 3,256	\$ 2,224
Total Expenditures	\$ 15,061	\$ 18,073	\$ 17,888	\$ 23,374

The primary initiatives funded in the FY 2008 budget are merit-based faculty and staff compensation, improved student services, activities, and facilities, outreach and engagement programming, diversity initiatives, technology, and undergraduate student research and other unique academic opportunities.

V. Multi-Year Commitments and Financial Goals

While the university budgets on an annual basis, it is necessary to take a longer view to assure that commitments beyond the current year are feasible and that sufficient funds are available to fulfill these long term commitments. In addition, the university needs to continually monitor its financial health in the current year and set targets to guide decision making in the future. By setting legitimate financial goals and parameters, the leadership of the university can make better informed decisions about current year commitments and multi-year commitments with the knowledge that financial resources are available and are being funded in an appropriate manner.

Multiple Year Commitments

The documentation of multi-year commitments has been part of the annual budget report every year since FY 1996. The purpose of this review is to share with the campus community the nature of these commitments and how they change from year to year. In order to plan effectively, the university needs to be able to make commitments across fiscal years, but to do so in a way that does not jeopardize future financial flexibility and maximizes the opportunities for implementation of the Academic Plan.

Continuing General Funds

The following table lists the explicit multi-year commitments against continuing general funds. The Provost's Strategic Investment Fund is a continuation of existing commitments, including \$1.0M per year through FY 2011 for Targeted Investments in Excellence. Cancer Center Match is to fund 10% of the marginal increase in indirect cost recoveries on cancer research over a five year period; however, no match is needed in FY 2008. All amounts are additional funds required in that year.

**Multi-Year Continuing General Funds Commitments
(Columbus Campus General Funds Budget – In Millions)**

Commitment	FY08	FY09 Est.	FY10 Est.
Provost Strategic Investment Fund	\$2.0	\$2.0	\$2.0
Cancer Center Match	0.0 ⁽²⁾	0.4	TBD
Total	\$2.0	\$2.4	\$2.0

The desired ceiling for multi-year commitments is that commitments in the succeeding three years not exceed 1% of the current year's budget. This guideline was established in the mid-1990s in order to preserve future financial flexibility. One percent of the FY 2008 Columbus campus general funds budget is \$11.3 million. The total of the

⁽²⁾ Cancer Center Match for FY 2008 is \$0 because indirect cost recoveries on cancer research did not increase during FY 2007.

succeeding three years multi-year commitments (FY 2008 through FY 2010) equals \$6.4 million. This is well within the stated goal.

In addition to the specific multi-year commitments listed above, the university will continue to fund increases in a number of areas of the general funds budget.

These include:

- Competitive annual compensation increases for faculty, staff and student employees
- Safety and security (physical and technology)
- Support of research and compliance
- Deferred maintenance and other capital needs
- Academic and administrative computing needs
- Student financial aid
- Unfunded legal mandates
- Diversity and outreach
- Other Academic Plan initiatives

One-Time General Funds

The table below identifies a number of multi-year operating budget cash commitments. These commitments include financing plans for the Student Information System and the Grants Management System installations. Planning for the Student Information System began in FY 2006, with funding of \$5 million from central resources. Beginning in FY 2007 and continuing through FY 2011 a 0.5% cash assessment will be charged against all college, support unit and auxiliary unit operating budgets to help offset the costs of installing the new Student Information System. The total project is estimated to cost between \$43M and \$50M. The targeted completion date of the Student Information System is September 2009.

The Grants Management System is entering the final year of a four year financing plan which assesses colleges and research centers cash to cover the \$8M cost of bringing the Grants Management System on-line.

**Multi-Year One-Time General Funds Commitments
(Columbus Campus General Funds Budget – In Millions)**

Commitment	Initial FY	FY 2008	FY 2009 (est)	FY 2010 (est)	FY 2011 (est)	Total (est)
Targeted Investments in Excellence (5 yrs) ¹¹	2007	\$9.00	\$9.00	\$9.00	\$9.00	\$36.00
Student Information System (5 yrs)	2006	9.00	10.00	10.00	7.00	36.00
Grants Management System (4 yrs)	2005	2.00	0.00	0.00	0.00	2.00
Buckeye Bundle (3 yrs)	2008	1.00	1.00	1.00	TBD	3.00
Campus Security System (5 yrs)	2004	1.30	2.10	0.00	0.00	3.40
Medical Center Support (5 yrs)	2005	5.00	5.00	0.00	0.00	10.00
Human Subjects Research System	2006	0.25	TBD	TBD	TBD	0.25
OSU Pro	2007	0.35	TBD	TBD	TBD	0.35

The figures in the Multi-Year Commitment table above do not include capital commitments, which are addressed as part of the biennial capital planning process.

¹¹ Also invested is \$1 million annual rate each year.

Financial Goals

Measures of financial well being are an important part of any planning process – even more so for public institutions where transparency is paramount. As agreed to in the FY 2007 budget process, Ohio State has reviewed the current financial goals and measures used to assess the financial health of the university and is recommending the following goals be established and monitored annually.

Financial Goal	Financial Measurement	OSU's Rating (Most Current)	Target Rating
Resource Sufficiency and Flexibility	Primary Reserve Ratio(PRR)/ Expendable Financial Resources-to-Operations (x)/Cash on Hand	0.41 times annual resources or 150 days cash on hand (FY 2006)	0.4 times annual resources or 146 days cash on hand
Operating Margin	General Fund	4.6% ⁵² (FY 2007)	1% or Greater
	Health System	10.5% Budgeted (FY 2007)	10% to 11.5% or greater
Credit Rating	Moody's Rating	AA (FY 2005)	AA
	Total Financial Resources to Direct Debt ⁵³	2.33 x (FY 2006)	At least 2.0x
	Actual Debt Service to Operations ⁵³	2.4% (FY 2006)	No more than 4.0%
	Debt Service Coverage ⁵³	5.7 x (FY 2006)	At least 3.0 x
Senate Bill 6	Legislated Ratio Measuring Financial Health of State-Assisted Universities ⁵⁴	4.2 (FY 2006)	3.6 – BOT guideline 1.8 – State guideline

Conclusions

Financial projections indicate that if present trends continue, the university will have sufficient funds to cover its commitments, but only limited funds to embark on other significant new initiatives. Thus, if any new initiatives are desired or existing initiatives expanded, the university needs to reduce other commitments or secure additional funds.

⁵² The 4.6% operating margin is due in part to the higher than budgeted FY 2007 fee revenue and investment income.

⁵³ Source: OSU financial statements.

⁵⁴ This ratio is a calculation that encompasses the PRR (50% weight of ratio), the Viability Ratio (30%) and Net Income Ratio (20%).

Selected Definitions

Current Funds are those funds that are earned and expended in the current fiscal year. They include the General Fund, Earnings Operations and Restricted Funds. Excluded entirely from this report are Non-Current Funds such as Plant Funds, Loan Funds and Endowment Principal.

General Funds are unrestricted resources available for allocation in support of core instruction; instructional support and related general administrative and physical plant expenditures.

Earnings Operations are also unrestricted with resources generated from the sales and services of the earnings units. While not a requirement, these resources are generally designated to the unit generating the revenue. Included are the Hospitals & CHRI, Auxiliaries and departmental earnings units.

Auxiliaries are specifically identified by the State as the following earnings operations: Residence & Dining Halls, Intercollegiate Athletics, Student Unions, Bookstores, Transportation & Parking, Fawcett Center, University Airport and Property Management.

Unrestricted refers to the sum of general funds plus earnings operations.

Restricted Funds are funds whose use has been designated by an external agency or individual and limited to support a specific purpose and/or unit. Included is Sponsored Programs.

Instruction and Departmental Research includes all direct and applicable allocated expenditures for all activities that are part of the University's instructional program. It includes expenditures for departmental research and public service that are not separately budgeted.

Academic Support includes all funds expended for activities carried out primarily to provide support services that are an integral part of the operations of one of the three primary missions - instruction, research and public service. Included in this category are Academic Affairs Administration, Libraries, Museums & Galleries and the Deans' offices.

Student Services includes funds expended for those activities whose primary purpose is to contribute to students' emotional and physical well being, as well as their cultural and social development outside the context of the formal instructional program. Included in this category are Admissions and Registration, Counseling, Student Health Service, Recreation & Intramural Sports, Student Financial Aid and the Student unions.

Institutional Support contains expenditures for operations that provide support services to the total University. Included in this category are Executive Management, Business and Finance, Human Resources, University Relations and Development.

Plant, Operations and Maintenance includes all expenditures of current funds for the operation and maintenance of the physical plant, net of amounts charged to auxiliary

operations and hospitals. Included in this category are utilities, repair and renovations, custodial services, grounds maintenance, space rental and property insurance.

Separately Budgeted Research includes all expenditures for activities specifically organized to produce research outcomes, whether commissioned by an external agency to the University (restricted) or the University (unrestricted) and includes matching funds applicable to the conditions set forth by the grant or contract. It does not include training grants or equipment grants.

Public Service includes all funds expended for activities that are established primarily to provide non-credit designated course offerings and services beneficial to individuals and groups external to the University. Included in this category are Continuing Education and Cooperative Extension Services.

Scholarships and Fellowships include expenditures in the form of outright grants and trainee stipends to individuals enrolled in formal coursework, either for credit or non-credit.

One-Time Funds are cash payments made to colleges and departments on a discretionary basis. The source of the funds is the cash balance carried forward from the previous year.

Notes:

Full time fees for Undergraduate Students are for 12+ credit hours.
Full time fees for Graduate and Professional Students are for 10+ credit hours

- (1) Tier 1, for full-time continuing undergraduates who were first enrolled at Ohio State prior to Summer Quarter 2002, will phase out effective Autumn Quarter 2007. Any students remaining in that tier move into Tier 2.
Tier 2 are students who were first enrolled between Summer 2002 and Spring 2003.
Tier 3 are students who were first enrolled after Spring 2003.

(1) Change in recording of Income/Expenses for Center for Corporate and Community Education does recognize income from contracts which is directly sent on programs. This is to bring consistency between Mansfield and the Alter Center at Maumee, (airings account)

(2) Historically, intercampus income was reflected in budget net of expense; reporting income and expense separately (the method used for FY 2006 and subsequent years) is more consistent with standard financial reports.

- (1) Full time fees for undergraduates are 12+ hours, and for Graduates and Professional programs they are 10+ hours. Fee numbers include only the instructional and general fees.
- Tier 1, for full-time continuing undergraduates who were first enrolled at Ohio State prior to Summer Quarter 2002, will phase out effective Autumn Quarter 2007. Any students remaining in the tier move into Tier 2.
- (2) Tier 2 students were first enrolled between Summer 2002 and Spring 2003.
Tier 3 students were first enrolled after Spring 2003.
- (3) These degree granting programs were created after 1998.
- (4) These are graduate programs that once charged the graduate fee but now have differential fees.

(1) Tier 1, for full-time continuing undergraduates who were first enrolled at Ohio State prior to Summer Quarter 2002, will phase out effective Autumn Quarter 2007. Any students remaining in that tier move into Tier 2.

(2) The student activity fee is within the fee cap, and is considered part of the general fee for undergraduates.

(3) Undergraduate - Average room rate plus basic meal plan.

(4) Student insurance is based on the single student comprehensive rate.

(5) Using west campus rate. (Actual is \$75.60)

(6) FY 08 increase is \$1.00/game, four game package.

(7) Season package is 10 games.

Subtotal Expenditures & Transfers		129,512	139,567	10,055	7.8%
NET INCOME		1,802	1,907	105	5.8%

- (1) Mainly attributable to increased Meal Plan revenue. FY 2008 reflects additional meal plan usage due to the close of the Ohio Union. Catering revenue projected to increase in FY 2008 by approximately \$425K
- (2) FY 2008 budget reflects completion of Fawcett Center renovation and return of rentable space
- (3) Ohio Union replacement project continuing through 2009
- (4) Schottenstein Center budget is net of \$3.0M in artist fees for FY 2007 and \$3.1M for FY 2008
- (5) Larger operations included are Success Center, Buck ID, Summer Conferences, Hospitality Mgmt and Draks. FY 2007 has been restated to include Rac Sports
- (6) Personnel increase in FY 2008 is a result of the following major factors:
a) Approximately \$433K in new positions primarily within Campus Dining and Facilities. Filling of many previously vacant positions
b) Full year minimum wage impact in student salaries along with additional students
- (7) Mainly caused by anticipated increases in utility costs. Schottenstein Center artists fees are excluded
- (8) FY 2008 budget includes estimate for 6 months of debt service payments on 2007 bonds
- (9) Transfers related to the recognition of Student Health Insurance Plan revenues along with a transfer from reserves to the Fawcett Center to cover renovation deficits are excluded from both revenues and expenditures. With the addition of debt service on 2007 bonds, a decrease in reserve transfers is reflected in FY 2008

September 21, 2007 meeting, Board of Trustees

(APPENDIX XV)

**The Ohio State University Board of Trustees
Fiscal Affairs Committee
September 21, 2007**

TOPIC:

FY 2009-FY 2014 Capital Plan (Second Reading)

BACKGROUND:

The attached memorandum represents the final recommendations for the FY 2009 - FY 2014 Capital Plan. It includes all projects from all funding sources.

The first reading occurred at the July 13 Board of Trustees meeting.

SUMMARY:

The most significant changes for the first reading include:

1. Request for additional state funds
2. Additional consultation regarding the North Academic Core
3. Proposed reprioritization of College of Medicine renovation
4. Review of financial parameters for the Medical Center Master Facilities Plan
5. Additional information regarding student housing
6. Modifications in college specific requests
7. Recommended funding support for Campus Partners
8. Impact on deferred maintenance
9. Impact on debt capacity
10. Next Development Campaign
11. Addressing transition in leadership

(changes are highlighted in bold)

CONSIDERATIONS:

- Have the issues identified at the July 13 Board meeting been resolved?
- Who has been consulted?
- What happens next?

REQUESTED OF FISCAL AFFAIRS COMMITTEE:

Approval as recommended.

September 21, 2007 meeting, Board of Trustees

Subject: FY 2009-2014 Capital Plan

Date: September 13, 2007

From: William Shkurti, Senior Vice President for Business and Finance
Mike Sherman, Vice Provost for Academic Administration

To: Joe Alutto, Interim President

This memorandum represents our **final** recommendations regarding prioritization and funding of capital projects for the period FY2009 - FY2014.

We have divided this memorandum into five parts. Part I describes the process and criteria used to make our decisions. Part II discusses our recommendations for State funded projects. Part III discusses projects that do not include State capital funds. The implications of our recommendations are discussed in Part IV. Part V is the appendix, which includes supplemental materials.

I. PROCESS AND PROJECT CRITERIA

An intensive information gathering and review process began over a year ago with a Request for Submission memo sent to all Deans and Vice Presidents on April 14, 2006. In the end, there were 19 major project requests for State capital funds, totaling approximately \$873 million; 67 requests for 2007 and 2009 bonds totaling approximately \$905 million. An additional \$660 million dollars in future funding has already been requested for consideration during the 2011 bond approval process. With the advice of the Space Facilities Committee and the appropriate Vice Presidents, projects were selected for additional review for possible inclusion in the FY2009 - FY2010 State capital biennial request or for University bonds. Information hearings with units requesting project funding were held during February, March, April and May 2007.

Predicting what will be available in State funds has become more and more difficult. The chart below shows the amount of State funds allocated to The University's Columbus Campus, and regional campuses, ATI, and OARDC for major capital projects over the last five biennia.

Biennium	OSU Columbus (millions)	OSU Regional/ATI/OARDC (millions)
1999-2000	\$78	\$10
2001-2002	\$72	\$6
2003-2004	\$70	\$10
2005-2006	\$57	\$7
2007-2008	\$71	\$11

State support has declined over this period while needs due to block obsolescence have increased. At this point it is difficult to predict what the State will allocate for FY2009 - FY2010. We are recommending a request of a minimum of \$80 million for projects on the Columbus Campus and \$12 million for OSU Regional Campuses, including ATI and OARDC. This would allow our state capital appropriation to at least keep up with the increase in construction costs over the last two years.

To rank projects for inclusion in our final request, each project was evaluated based on its relationship to the Academic Plan, physical need, financial feasibility, and physical feasibility. The financial and physical feasibility components were included because, based on the other requirements alone, our priority projects would greatly exceed our expected appropriations. In addition, the impact of facilities on operating costs was incorporated into our discussions and the capital guidelines clearly stated that central

funds would not, as a rule, pay operating costs for additional space (Attachment A). These recommendations are based on assumptions about program needs. If those needs change, the University reserves the right, after consultation with the parties involved, to reduce the project or reassign that space.

In making these recommendations to you, we, along with representatives from the Offices of Academic Affairs, Business and Finance, Research, Health Services, Student Affairs, Development, and representatives of the Senate Fiscal Committee and the Senate Committee on the Physical Environment, have evaluated the information submitted by the units with respect to established criteria. The following criteria do not provide a mathematical solution to a very complex set of issues; but are intended to guide our judgments:

Academic Priority

- Relation to University mission and the Academic Plan
- Program excellence
- Student demand
- Research productivity
- Opportunities for interdisciplinary collaboration

Physical Need

- Condition of existing space
- Unmet health and safety requirements

Financial Feasibility

- Likelihood of State support
- Cost sharing by requesting unit
- Net impact on operating costs

Physical Feasibility and Other Considerations

- Previous commitments
- Physical feasibility, including timing or staging issues
- Impact on parking
- Impact on other needs

A critical element in the planning process is the Academic Plan. Alignment of the objectives of the project with the goals of the Academic Plan was an overriding factor in the Space Facilities Committee's recommendations. As always, the number of worthy projects exceeds the funds available. The Academic Plan provides an additional context by which to establish academic priorities. The six major strategies identified in the Academic Plan are:

- 1) Build a world-class faculty
- 2) Develop academic programs that define Ohio State as the nation's leading public land-grant university
- 3) Improve the quality of the teaching and learning environment
- 4) Enhance and better serve the student body
- 5) Create a more diverse University community
- 6) Help build Ohio's future

Several of these strategies call for a supportive physical environment. The growing number of existing buildings requiring renovation or replacement is a threat to achieving our goals. So, in response to the Academic Plan, we are reserving scarce state dollars to support renovation or replacement of academic buildings, particularly where a deferred maintenance problem is involved. In addition, we are recommending an entirely new approach to planning and funding core academic facilities. This is discussed in greater detail in the section titled "Academic Core - North."

II. RECOMMENDATIONS REGARDING STATE CAPITAL FUNDS

Our recommendations for State capital funds are divided into three groups. Group One consists of projects identified as high priority for funds in the FY2009 - FY2010 biennium. Group Two is projects identified as high priority for FY2011 - FY2012 and beyond. Group Three consists of projects not recommended for State capital funds at this time and that likely warrant further study and development.

A. Group One: Recommendations for State Capital Funds in FY2009 - FY2010 Biennium

The projects listed in Group One have the highest priority in the Academic Plan as well as high physical need and financial feasibility. For purposes of these recommendations we are planning on a base state appropriation of \$80 million, although we recognize this number could change. The four priority projects are Thompson Library Renovation, Academic Core - North, Graves and Meiling Hall Renovations Phase II, and Cunz Hall renovations.

1. Thompson Library Renovation

The Thompson Library Renovation is one of only two capital construction projects specifically mentioned in the Academic Plan. The Thompson Library is in many ways the intellectual heart of the campus. It is the single most visible academic building. Although it is in better shape than some academic buildings on campus, it has not had a major renovation in over 30 years. The building's systems and its ability to respond to the academic needs of the institution are rapidly deteriorating and inadequate.

Consequently, this \$108.5 million project was identified as the number one priority in the FY2005 - FY2006 capital process. A total of \$71.7 million in state funds was requested over six biennia with the FY 2009-2010 allocation of \$8.7 million completing the state funded portion of the project. The remainder of the project will be funded as follows: approximately \$25 million will be secured by private fund raising, \$5 million has been pledged from Athletics, roughly \$6 million will be provided by bonds, and University Libraries has committed \$762,500 of its own funds to complete the renovation.

Construction is expected to be completed in the Summer 2009. This project will not add any net square footage to the Library's inventory, since space located elsewhere in the Library inventory is being released back to the University to offset any additional square footage in the Library project. The project is not expected to create additional parking demands. However, having both the Library and the Ohio Union closed for construction at the same time has meant the University has had to identify additional space for administrative offices, book stacks, meeting rooms and student study space. This has been achieved by using 650 Ackerman and other locations. Costs for this temporary space have been funded in the project budgets.

2. Academic Core - North

Traditionally, the University has budgeted capital projects individually, which makes it easier to establish financial and design accountability. However, this runs the risk of missing opportunities for synergies and efficiencies from a more comprehensive university-level approach.

Last biennium, the University leadership empowered the Space and Facilities Committee to work with the affected deans to develop a long-term plan for the Academic Core - North (AC-N). The AC-N study has provided a long-term vision for the areas within and adjacencies bounded by Tuttle Park on the West, Woodruff on the North, High Street on the East, and 17th Avenue on the South. The colleges with facilities in this area account for 66% of all credit hours taught and 26% of academic space.

September 21, 2007 meeting, Board of Trustees

The proposed long-term view, including the concurrent funding of infrastructure for the district, supports the Master Plan objectives of pedestrian friendly, social and learning engagement spaces, identifiable edges and thorough-fares, and more effective use of space over the long term. An integrated space analysis and planning study will be completed to determine the optimal amounts of the appropriate types of spaces that are needed to support the academic plan as well as to provide flexibility, efficiency, and an appropriately high space utilization effectiveness. This information will be available early enough in the time line for decisions regarding proposed capital projects in the north academic core to be informed by the findings of the planning study.

One important component of the plan is a targeted significant reduction in deferred maintenance and renewal. As a first step, the plan calls for the demolition of both Lord and Brown Halls. These demolition projects were recently approved by the Board and are scheduled to complete by fall 2008. The projects combined costs of \$3.2 million will eliminate a total of \$27.6 million in deferred maintenance and renewal once these buildings are demolished. The overall AC-N plan reduces deferred maintenance and renewal by 57%, or \$92.5 million (FY08 \$s). If basic renovation funding can be secured over this period of time for one additional building (~\$25 million for Smith Lab) in this district, the reduction in deferred maintenance and renewal will be 89% or \$144.4 million.

The additional construction and renovation of the AC-N area will require remediation of the existing infrastructure and the addition of a new chiller to support the additional capacity needs. It is anticipated that an additional \$111M for infrastructure in the AC-N area will be funded from University bond proceeds as part of the proposed Facilities Operations and Development requests below. Infrastructure improvements are needed in this area regardless of how we proceed with this area's development.

The conceptual budget for the proposed North Academic Core project is estimated at about \$500 million through FY 2020. The Space and Facilities Committee recommends at least half this amount come from state capital funds over this period. The remainder would come from a combination of sources including additional state funds (for example, the Board of Regents Research Scholars Initiative), private fund raising, and contributions from individual colleges.

Allocation of state dollars should be structured in such a way to reward those colleges who participate most fully in the new planning process.

Therefore, we recommend for the FY 2009 - FY 2010 biennium, the allocation of \$58.7 million to the AC-N. This will allow for needed planning and consultation to be completed. A preliminary schedule detailing the order in which individual projects will proceed will be developed over the next 12 - 18 months.

Funding will be used to support projects in the AC-N that replace inefficient buildings and provide for flexible, functional space that encourage multi-disciplinary interactions and that are in alignment with the University Master Plan. These projects will support the disciplines in English, Chemical Engineering, Chemistry, and Music in the Colleges of Humanities, Engineering, Mathematical and Physical Sciences and the Arts. Subsequent projects will possibly involve the disciplines of Education and Economics for the Colleges of Education and Human Ecology and Social and Behavioral Sciences.

The exact allocation of the State capital funding to specific projects will be determined as more detailed planning of the AC-N progresses over the next 12 - 18 months. Infrastructure projects have to be planned and implemented before construction or renovations in this area can begin. During that time the colleges will be consulted to refine the steps to implement the AC-N concept. Independent of the final implementation of the AC-N concept, the standard approaches to planning for and approving capital projects will be followed. .

September 21, 2007 meeting, Board of Trustees

Planning for the biennia through 2020 across many colleges requires a major shift in culture and thinking, but the benefits of a successful initiative of this nature are enormous, particularly accompanied by an infrastructure solution for the entire district. Integrating the allocation of state capital funds with college funds and with funds derived from an integrated, collaborative, and strategic development initiative for an institutional approach to capital development also represents a major shift in funding capital projects. While the proposed overall approach and funding models are different, the priority projects within the AC-N plan still reflect priorities from the previous capital recommendations and reflect institution-level academic priorities through 2020. Again, the AC-N is flexible enough to be modified should a shift in priorities be necessitated for strategic reasons.

We anticipate the Space and Facilities Committee will consider how other districts may benefit from such a long-term and comprehensive vision.

3. Cunz Hall Renovation

The newly created College of Public Health has significant and legitimate space needs. Renovation of Cunz Hall reconciles nearly all of the college's wet-lab needs in the near term. \$6.5 million from the FY 2009 - FY 2010 capital funds is recommended to help fully fund the roughly \$20 million Cunz Hall renovation project including re-cladding the exterior of the building to be more aesthetically compatible with the surrounding structures (RPAC, Psychology and the new Library). The remaining funds should be fund-raised by the college or reallocated from existing college resources.

4. College of Medicine Renovation and Addition (Phase II)

The College of Medicine is one of the fastest growing areas of research in the University. Lack of suitable space is a major impediment to future growth. Murray Hall has returned to the University at a truly strategic time in the growth of the academic Medical Center. Murray Hall will likely become the transitional home for the Institute for Behavioral Medicine Research. In the FY2007 - FY2008 state capital budget, \$1 million was designated for Murray Hall. In addition to this original \$1 million allocation, \$1 million of the \$5 million in FY2007 - FY 2008 funds, originally designated for the Graves and Meiling projects, will be transferred to Murray Hall, making it a \$2 million project.

The Medical Center has proposed that a two-story addition to the Prior Health Sciences Library will better advance the Academic Plan than the Graves and Meiling projects which were approved in the FY2007 - FY2008 capital plan. This addition will house simulation and clinical skills labs. The remaining \$4 million, that was designated to Graves and Meiling in FY 2007 - FY2008, will be transferred to the Prior Health Sciences Library Addition project. In addition, \$6 million will be designated for this project from the FY2009 - FY2010 state funds, making it a \$10 million project. If the Medical Center wishes to add scope to the project, they must provide all funding exceeding the \$10 million in state funds.

The acquisition of Murray Hall and the two-floor addition to the Prior Health Sciences Library will add space to the University's inventory. The Murray project may have some impact on parking, but that will need to be determined as part of future planning efforts.

This proposal is under review and a recommendation from the University will be forthcoming shortly. Implementation of these projects will follow standard protocols planning, approval and construction.

September 21, 2007 meeting, Board of Trustees

The impact of these projects on state capital requests for future biennia is shown below.

Project	Total Cost	State Capital Funds		
		Prior to FY 2009	2009-2010	2011-2012
Library Renovation	\$108.5M	\$63.0M	\$8.7M	NA
Academic Core North *	\$487.0M	\$5.0M	\$58.7M	\$58.7M
Cunz Hall Renovation	\$20.2M	\$8.6M	\$6.6M	NA
College Of Medicine Graves/Meiling/Murray	\$2.0M	\$2.0		
College of Medicine Renovations/ Addition	\$10.0	\$4.0M	\$6.0M	NA
Totals	\$615.7M +	\$82.6M	80.0M	58.7M +

*see B. 5. below

B. Group Two: Recommendations for State Capital Funds in Future Biennia

5. Academic Core - North

The exact project order will be more fully specified in the next capital projects cycle. The first project planned after the demolition of Lord and Brown Hall would be construction on the Lord Hall site. Over the next 12 - 18 months we will work with the colleges to determine which priority programs should be located on this site. Programs being considered are English and writing programs, classroom instruction, and possibly other priority programs. In addition, facility issues relating to music instruction and performance space will be evaluated, as will suitable facilities for chemical engineering and chemistry. It is estimated this will require a commitment of \$58.7 million in state funds from the next two biennia and \$35 million in state funds from each of the next four biennia after that.

6. Postle Hall Renovation/Replacement

Postle Hall, which serves as the home for the College of Dentistry, is more than 50 years old and no longer meets the academic needs of the college. Two years ago, the college proposed a \$270 million project that included \$100 million in state funds.

This was rejected as being financially unfeasible. The college was instructed to develop a scaled down project that is more consistent with what future funding is likely to be. That work is now in process and will be evaluated as part of the FY 2011 - FY 2012 capital process.

7. College of Veterinary Medicine

Veterinary Medicine is one of the top ranked programs in the country and is highly productive in teaching, research and public service. The current small animal hospital was built in 1973 and is overcrowded and no longer meets the academic and clinical needs of the program.

The college has proposed a combination of renovation and new construction for 2014 totaling approximately \$70 million to come from a variety of sources. We recommend the next two years be used to assess financial and physical feasibility of various approaches to improving this facility.

8. Pomerene Hall

Pomerene Hall occupies a unique physical and psychological place in the culture and history of Ohio State University. The predominant user (PAES) has moved out of Pomerene Hall into the new RPAC facility. Consequently, we authorized the Space and Facilities Committee to conduct a feasibility study on possible future uses of the building.

September 21, 2007 meeting, Board of Trustees

That study has been completed. Three broad adaptive uses have been identified. These are:

- a. Student Use
- b. Instruction and Instructional Support
- c. Academic Conference Space

Cost estimates for renovation total between \$25M and \$35M.

To ensure best possible uses for this valuable space, the Provost invited units interested in utilizing the space to submit a statement of intent. Several units have expressed interest (Medicine, Dentistry, Student Affairs, Public Health, Outreach and Engagement, OAA groups, Classroom Pool, Linguistics, and International Affairs). All units that submit a timely, formal request will be evaluated. A major criterion will be ability to help support the capital costs to appropriately use the building for strategic use. Recommendations will be forthcoming as part of the FY 2011 - FY 2012 capital process.

9. Food, Agricultural and Environmental Sciences

The College of FAES has a disproportionate share of the oldest buildings on campus. More than one-third of its assigned GSF is more than 45 years old. In our recommendations two years ago, we recommended the college generate \$3.5 million for planning a \$60-\$70 million integrated teaching and research facility in the FY2011 - FY2012 biennium, as well as generate additional resources in future biennia.

At its capital hearing, the College asked for additional time to develop a phased plan anchored by a new academic information and technology center to enhance teaching, research and student services. We recommend this request be accepted and that the College return with a more detailed proposal for the FY2013 - FY2014 biennium. We will work with them in the meantime to assist them with this analysis that can be supported by funds currently on hand for such analyses.

C. Group Three: Projects Not Recommended for State Funds

In addition to the projects recommended above, we considered 10 additional projects as listed below.

Requesting Unit	Project Description	FY2009-10 Request (millions)	Total Project Request (millions)
Arts and Sciences	Consolidated Space	TBD	TBD
Biological Sciences	Building Addition	TBD	TBD
FAES	New Integrated Teaching and Research Building	TBD	TBD
Law	Drinko Hall	22-33 million	57-69 million
Medicine	COM Academic Center	TBD	TBD
Pharmacy	Parks Hall	TBD	TBD
Social and Behavioral Science	New Department of Economics Space	TBD	TBD
Social Work	Stillman	3.4 million	3.5 million
Research	New Interdisciplinary Research Building	10 million	100 million
Wexner Center	Mershon Auditorium Renovation	TBD	TBD

While not all unfunded projects are of equal merit or feasibility, it is clear the need for state support is much greater than what is likely to be available by a substantial amount. One strategy to address this is to use other funding sources where it might be appropriate. In that regard, we have specific recommendations regarding three projects in

September 21, 2007 meeting, Board of Trustees

particular, Stillman Hall renovation, Drinko Hall renovation/expansion and the Academic Medical Center project.

11. College of Social Work

Stillman Hall 2nd Floor Renovation, Windows and HVAC replacement is a \$3.5 million project. This would complete the renovation of Stillman and should be considered for possible funding through the Basic Renovation process including deferred maintenance funds.

12. College of Law

Drinko Hall Renovation/Expansion: The Basic Renovation project for Drinko Hall (window/masonry renovations) is recommended to proceed. The more comprehensive Drinko project is not recommended for funding in this biennium, but should be revisited once a more comprehensive funding plan is completed. The college has committed to fund-raising a significant portion of this major project. The availability of college-raised funds will be an important consideration in the future.

13. College of Medicine

The College of Medicine requested funding for a 51,000 GASF Academic Medical Center, citing space shortages and the need to reconfigure facilities to meet changed teaching requirements. The college did not present cost estimates or a financing plan. Consequently, we recommend the next two years be used to develop a funding plan that includes a significant component of private fund-raising for such a facility.

The College of Medicine also submitted a request to renovate Murray Hall to house the Institute for Behavioral Medical Research. This program is one of the University's most successful interdisciplinary research efforts. The feasibility study completed in April of 2006 estimated the costs of the renovations to Murray Hall for the purposes of the Institute for Behavioral Medical Research to be between \$21.8 and \$27.3 million in 2010 dollars. The office of Health Sciences is expected to contribute some funds to this project, but the amount is unknown at this time. We recommend the next year be used to develop a funding plan that includes a significant component of private fund-raising for this facility.

III. RECOMMENDATIONS REGARDING OTHER FUNDS

As the amount of available state funds fails to keep the pace with demand, the University needs to continue to identify other funding sources for its capital needs. However, in doing so we need to be mindful of practical limits on the University's debt capacity, fund-raising priorities, and other factors that bear on these decisions. Therefore, we have organized this section into two parts: A) significant commitments involving non-state appropriated funds and B) additional projects involving non-state appropriated funds. Non-State appropriated funds include bonds, user fees, development monies and other resources from requesting units.

A. Significant University Commitments Involving Non-State Funds

In the FY2007 - FY2008 recommendations, we highlighted three projects involving non-state funds: The Medical Center Master Facilities Plan, the Ohio Union replacement and the new Student Services Center.

The Medical Center Master Facilities Plan is still under review and will be addressed separately. The Ohio Union replacement project was approved for construction in July 2006 and is expected to be completed by February 2010. This building will be LEED certified. Funding sources include a mandatory student fee. The Student Services Center was approved for design in September 2005. Construction is expected to begin by June 2008 and will be completed by August 2009. This building will also be LEED certified. This project is being financed by University resources.

The most significant new project from non-state funds is a major investment in infrastructure (electricity, water and roadways) to address significant deferred maintenance and capacity needs. This commitment is based on a comprehensive review over a four year period. The outcome of that review was presented to the Board of Trustees Fiscal Affairs Committee in December 2006.

The recommendations in this plan represent an investment in infrastructure of over \$100 million to address deferred maintenance and renewal (including electrical distribution, roadways and tunnels), as well as \$35 million for additional capacity. These projects will be financed with University bonds and will be paid back with user fees. This investment will benefit the University for years to come. A more complete description is included in the section under Facilities Operations and Development.

The second major area of investment is renovation and expansion of student housing. This is described in the section on Student Affairs.

B. Additional Projects Involving Non-State Funds

This section lists projects proposed by colleges, support units and affiliated entities to be funded by sources other than State funds. In many cases, University backed bonds are requested. In order to make most strategic use of our available debt capacity, we have asked units to plan on a six-year horizon. The projects listed here reflect the Units' plans for that time period. However, being included here does not guarantee a project will receive bonds or other University credit. That issue is addressed in Section IV.

1. OSU Medical Center

The process to revise the Medical Center Master Facilities Plan is underway, but not complete. The financial parameters for the revised plan have been proposed and are in alignment with the University's capital plan recommended for approval today. For planning purposes we will use the 2009, 2011 and 2013 bond allocations totals previously allocated to the Medical Center for the \$780 million Facility Master Plan

September 21, 2007 meeting, Board of Trustees

projects. This section will be updated at a later time, once the Medical Center Master Facilities Plan review is completed.

Project	2007-2008	2009-2010	2011 - 2012
Biomedical Research Tower	42,350,000		
Doan Digestive Disease	26,200,000		
Ross Addition	32,500,000		
MRI Relocation	7,000,000

Infrastructure	1,000,00	17,500,000	40,000,000
Ambulatory			27,500,000
Remediation & Modernization		46,380,000	76,420,000
Total Medical Center Requests	117,450,000	243,077,00	306,922,000

2. Student Affairs

Now that the Recreation Center is complete and the Ohio Union replacement project is under construction, the highest priority for the Office of Student Affairs is to up-grade and expand student housing. The largest projects will be the conversion of Lincoln Tower floors 1-15 back to residence halls (\$38 million), expansion of the Hall student Housing Complex (\$41 million), and South Campus AC/Bathroom modernization (Phase I) (\$32 million). The request also includes significant renewal and replacement. Funding sources include University bonds to be repaid by housing fees, as well as Student Affairs capital reserves set aside for this purpose.

A special work group established by the Offices of Academic Affairs, Business and Finance, Campus Partners, Legal Affairs and Student Affairs has been working over the summer to review housing initiatives. The group has identified three critical areas for review:

- Funding options and priority relative to other initiatives (infrastructure, Medical Center, Campus Partners).
- Acceleration of on-campus housing construction and renovation of existing housing - major challenges are legal and physical (swing space).
- Partnerships for additional housing- major challenges are legal.

A preliminary report is expected by the end of this calendar year.

September 21, 2007 meeting, Board of Trustees

The Fawcett Center renovation is almost complete. Portions of the newly renovated space will be used by Student Affairs and Athletics. Options for the remaining space are under consideration as part of a broader facilities review in Student Affairs. We will return to the Board of Trustees with an update in late CY2007 or early CY2008.

Student Affairs: Project	Requested Amounts (in millions)			
	2007 Bonds	2009 Bonds	2011 Bonds	Future Bonds
Archer House Conversion - 100 beds	5,300,000			
Jones Tower		6,000,000		
Lincoln Tower 1-15 Conversion - Renovated 960 Kinnear	1,000,000			
Lincoln Tower 1-15 Conversion to Residence Hall - 576 beds		11,000,000	27,000,000	
New Housing Construction - Expansion of Hall Housing Complex Phase I (160 beds)		1,200,000	13,900,000	
New Housing Construction - Expansion of Hall Housing Complex Phase II (250 beds)		700,000	12,000,000	13,000,000
South Campus AC/Bathrooms: Phase I		7,000,000	25,000,000	
South Campus AC/Bathrooms: Phase II			7,000,000	27,000,000
Food Service Master Plan	2,500,000	450,000	3,600,000	
Housing and Food Services Renovations	16,000,000	14,000,000	14,000,000	
Off Campus Residential Properties		1,500,000	1,500,000	
Fawcett Center Renovation	8,600,000			
Larkins Hall Replacement Project	43,470,000			
Wilce Health Center Renovations		3,300,000		
Wilce Health Center Renovations Phase 4		2,000,000	3,900,000	
Ohio Union Replacement Project - Central Funds	10,000,000			
Ohio Union Replacement Project - Student Affairs	10,000,000	87,000,000	5,000,000	
Oxley Conversion to Housing				9,000,000
North Area Housing Renovation				1,000,000
Total Student Affairs	\$96,870,000	\$134,150,000	\$112,900,000	\$50,000,000

3. Facilities Operations and Development

As mentioned previously, the highest priorities for Facilities Operations and Development are projects to restore and expand the University's essential infrastructure. These are listed below and reflect whether the project addresses deferred maintenance (DM) or increased capacity (IC), or both.

FOD Project	Goal	Amount Requested (in millions)		
		2007 Bonds	2009 Bonds	2011 Bonds
Boiler Replacement/McCracken	DM	16,000,000		
East Chilled Water Plant	IC	4,000,000		
North Hot Water Loop	IC	2,500,000		
Increase Campus Electrical Capacity Phase I	IC	6,000,000		
High Voltage Air Break Switch Replacement	DM	15,000,000		13,280,000
Kinrear Corridor Improvements	DM	5,000,000		
12 th Avenue/Neil Corridor Improvements	DM	2,000,000		
South Dorm Sewer Separation	DM	625,000		
Student Academic Services Building Chilled Water Extension (ACN-17)	IC	7,458,000		
Capacity Coordination with Medical Center - Identified Projects	IC	2,545,000		
Boiler Replacement	DM and IC	1,130,000	5,100,000	5,049,000
Central Power Plant Water Treatment	DM and IC	1,430,000	12,859,000	
Drainage Improvements (ACN-1)	DM	1,900,000		
Domestic Cold Water System Improvements - Oval Area (ACN-2)	DM	1,669,000		
Steam and Condensate Distribution System Upgrades Phase I (ACN-2)	IC	8,150,000		
Put-In-Bay Water & Sewer Line Extension	Utility need	1,000,000		
Steam and Condensate Distribution System Upgrades Phase 2 (ACN-6)	IC		6,370,000	
John Herrick Drive Rebuild Phase 1 and Phase 2(ACN-9)	DM		2,858,000	4,568,000
Tunnel Durability Evaluation Project (ACN-3)	DM		1,000,000	
Woodruff Avenue and Tuttle Park Place Rebuilds (ACN-10) (ACN-11)	DM		3,303,000	
Water & Natural Gas Distribution Capacity Upgrade (SCW-1 and MA-2)	IC		1,671,000	
Woody Hayes Drive & Fyffe Rd. Rebuilds (ACN-12) (ACN-14)	DM		483,000	4,344,000
Campus Electric Capacity, Phase 2 (New Substation) (SCW-4)	IC		8,000,000	43,132,000
East Chilled Water Plant (ACN-5) (Phase 1 only)	DM		2,000,000	47,146,000
Hagerty Drive Rebuild (Oval Phase C) (ACN-13)	DM			4,107,000
Defiance Drive Rebuild (OP-1)	DM			1,207,000
Capacity Coordination with Medical Center - Opportunity Projects	IC			5,000,000
South Campus Sewer Separation and Site Improvements (SCE-1)	DM			2,331,000
North Campus Sewer Separation and Site Improvements	DM			4,182,000
Selected Tunnel Replacement Projects (ACN-4)	DM			5,479,000
Infrastructure Improvements, West & Midwest Campus Expansion Phase I	IC			18,012,000
17th Avenue Rebuild (ACN-8)	DM			3,860,000
18th and 19th Avenue Rebuilds (ACN-7)	DM			1,998,000
Total FOD Requests		\$76,407,000	\$43,644,000	\$163,695,000

4. Athletics

The highest priority for the Department of Athletics is an office complex and sports medicine center. Athletics feels this can be achieved through private fund-raising. Other priorities are listed below.

Athletics	Estimated Project Costs		
Project	2009-2010	2011-2012	2013-2014
New Athletics Complex		15,000,000	15,000,000
Sports Medicine Center		15,000,000	15,000,000
Stickney Tennis Courts Renovation	3,000,000		
Indoor Track and Multi Purpose Sports Facility	15,000,000	15,000,000	
Basketball Auxiliary Gym Addition & Offices	20,000,000		
Field Hockey Stadium & Football Practice Turf replacement & Relocation	5,000,000		
Total Athletics Requests	43,000,000	45,000,000	30,000,000

Athletics currently accounts for 21% of the University's outstanding debt, but less than 3% of the University's annual operating revenue. Therefore, to preserve access to capital funds for other units, it is recommended that only those projects that can be funded with cash, early retirement of existing debt, or short-term (5 years or less) lines of credit, be approved for funding design and construction.

5. Transportation and Parking

Transportation and Parking's projects are listed below in priority order. Funding will come primarily from bonds paid for with parking user fees. The biggest unknown at this point is additional parking for the Medical Center, which will be addressed as part of the planning for the Medical Center Master Facilities Plan.

Transportation & Parking	Request Amount (in millions)		
Project	2007 Bond Request	2009 Bond Request	2011 Bond Request
9 th Avenue Garage Restoration	2,500,000		
Surface Parking Lot Renovations	1,500,000	1,500,000	
New 9 th Avenue Garage East	21,700,000		
Ohio Union Garage Restoration & Expansion		21,500,000	
Lane Avenue Garage	14,000,000	14,000,000	
Arps Garage Restoration			4,000,000
Total T & P Requests	\$39,700,000	\$37,000,000	\$4,000,000

6. Regional Campuses, ATI and OARDC

The University's regional campuses, OARDC, and ATI have identified the following projects as high priority over the next six years:

Regional Campus	Project	Estimated Total Project Cost	Requested Amounts (in millions)		
			2007-2008 Bonds	2009-2010 Bonds	2011-2012 Bonds
Lima	Student Life Building		7,000,000		
Newark	Warner Library		5,500,000		
Mansfield	Oval wood Renovations		7,000,000		
Lima	New Maintenance Facility	2,400,000		2,000,000	
Mansfield	Recreation and Student Life Center Expansion (\$6M Bonds; \$8M Local)	13,000,000		6,000,000	
Mansfield	Schuttera Service Center				3,200,000
Marion	New Science and Art Building (\$5M Bonds; various other sources for remaining \$10M)	15,000,000			5,000,000
Newark	Founders Hall and Hopewell Hall Renovations (\$1M; various other sources for remaining \$6.3M)	7,300,000		1,000,000	
OARDC	Selby Hall BSL-2 Greenhouse Replacements			5,500,000	
OARDC	New Entomology Building	21M-28M			
OARDC	BioHio Concept (Job Ready Site Grant to City of Wooster for Total Project Cost)	3,373,600			
OARDC	Pounden Hall Renovation (EDA Grant and Local OARDC funds)	744,091			
ATI	Horticulture Operations Building (Project Budget is \$8.5M: \$1.26 State; various other sources for remaining	8,500,000			
	Total Regional Requests		19,500,000	14,500,000	8,200,000

The projects are to be funded with a combination of State capital funds, cash reserves, and University bonds. We recommend these projects proceed within the bond capacity limits identified in Section IV Part D.

All four regional campuses expressed a desire to provide additional housing at some point in the next six years. Two campuses (Newark and Mansfield) have such housing. The Lima and Marion Campuses have requested housing as well.

Unfortunately, the University does not have the debt capacity for these as University built and operated facilities and to meet the other capital needs of the regional campuses. Therefore, we recommend both Lima and Marion be directed to explore options with private developers who could provide student housing in close proximity to those campuses, as long as this can be done without adversely affecting the University's debt capacity. Proposals for housing on any of the regional campuses will need to be linked to each regional campuses strategic plan, once endorsed from an academic priority perspective.

7. Projects from Individual Colleges

We have pending requests from the colleges listed below. These requests are currently in the process of being evaluated for further consideration.

Airport

In May 2006, Senate Bill 327 was passed by the Ohio General Assembly; this bill authorizes sale of a number of parcels of land assigned to the Ohio National Guard, including the helicopter hangar and associated land just north of the University Airport. The legislation specifically authorizes sale of the hangar and associated land to The Ohio State University. In March 2006 the ONG informed the Airport Administration of its intent to sell the hangar and associated land. The College of Engineering and University Airport have expressed interest in this purchase. The 1990 University Airport Master Plan identifies the purchase of the ONG Hangar and Ramp as a priority project and the acquisition of this property is included in the Airport's five-year plan. An appraisal of the land in 2005 valued the property at \$2,875,000. The College is requesting 2007 bonds to support this acquisition. Repayment for debt service will be the responsibility of the Airport and backed by the College of Engineering. Costs will be recovered in part through rent payments received from long term lease with MedFlight. The Airport also will request FAA partial reimbursement of the purchase through a FY2010 AIP grant. Approval of the proposed purchase is not being recommended at this time, but will be brought forward separately to the Board for consideration after appropriate due diligence and approval through the College of Engineering.

Library Book Depository Module

This project would provide the third of five high-bay storage modules designed to provide economical and environmentally beneficial storage of low-use library materials. This is a very important component of the Thompson Library project . University Libraries intends to work collaboratively with OhioLINK and other Ohio libraries to request funds as a single unit through OhioLINK's line item 2009-2010 request . If the joint OhioLINK request is not successful, the Libraries would like the option to use future OSU bonds for funding of this depository.

Cartoon Research Library

The proposed Cartoon Research Library would collect, preserve, and make available original cartoons and graphic novels and other materials that visually document American social history and popular culture. The Library is currently housed in the lower level of the Wexner Center and is at capacity. The estimated cost of the project is \$14.6 million as determined by a feasibility study completed in mid 2007. The Space Facilities Committee has recommended that University Libraries continue to explore use of the Sullivant Hall site and address a number of questions regarding the proposed plan.

EERL facility

Originally proposed in 2005 as part of the FY 2007-2012 Capital Plan, the College of Engineering in partnership with SciTech continues to work through plans for the EERL facility at 1382 Kinnear Road .Engineering would lease approximately 20,000 square feet of the building from SciTech. The remainder of the building (total square footage yet to be determined would private industry partners. This project is proposed as a collaborative effort between the ESL and their research partners, corporate sponsors, and spin-off companies. Estimated total project cost is \$6.2M with funding sources being fund raising by OSU College of Engineering (estimated at \$1.2M) and SciTech (\$5.0M).

8. Affiliated Entities

In the 1990s, the University created a number of affiliated entities to undertake strategic initiatives. Two of these, Campus Partners and SciTech, made use of University-backed credit during their start-up phase. Since then, the rating agencies now include University-backed credit to affiliated entities as counting against the University's debt capacity.

September 21, 2007 meeting, Board of Trustees

Since both Campus Partners and SciTech are now viable, we recommended two years ago that their capital needs be financed by their own equity, thus preserving the University's debt capacity for other priorities in the Academic Plan.

We have discussed this concept with the leadership of both Campus Partners and SciTech. They are supportive of the recommendation, provided that in the case of SciTech, the existing University \$10 million line of credit be maintained as a revolving line of credit and that in the case of Campus Partners, the goals of the five-year business plan are met.

We think these conditions are reasonable, and in the case of Campus Partners, we recommend the University commit \$10 million per year for the next five years (\$50 million total) for patient capital. We support this request, with the following provisions:

- Funding sources will not be General Funds or endowment.
- The University has flexibility to revise the schedule in the event of a budget crisis.
- University support is tied to specific performance measures.

		Estimated Cost (in millions)		
Entity	Projects	2009-2010	2011-2012	2013-2014
Campus Partners	TBD	\$15,000,000	\$15,000,000	\$20,000,000
	Total Campus Partners	\$15,000,000	\$15,000,000	\$20,000,000
SciTech	New Electrical Engineering Research Lab	6,200,000		
	1275 Kinnear Road Complex Build Out	1,600,000		
	SW Quadrant OSU Research Park - Ph I	6,100,000		
	Total SciTech	\$13,900,000		

Note: amounts listed above are estimated project costs, funding sources will need to be identified.

9. Other Projects

In addition to the projects discussed above, there are a number of capital projects that do not fit into the categories listed above. These are:

- University District Neighborhood Safety Center - this project was announced by President Holbrook and Mayor Coleman in October 2004. It is a city project, but the University has committed to pay half of the construction cost and rent for University use of the building for University Public Safety and Community Crime Patrol. The original total project cost was estimated at between \$3.5 and \$4.0 million. Our share of \$1.75-2.0 million will come from central University cash reserves set aside for this purpose.

The estimated cost has increased to \$4.6 million as a result of delays and design changes required by the University Area Review Board. The University has agreed to commit up to \$2.3 million, but to cap its commitment at that amount. Funding has already been set aside in the operating budget for this purpose.

- The renovation and expansion of Blankenship Hall is designed to address space and infrastructure needs for four critical public safety functions:
 - Meet increased demand for computer and communications network space and infrastructure.
 - Provide better security and control for key operations

September 21, 2007 meeting, Board of Trustees

- Upgrade radio communications, including interoperability and redundancy.
- Enhance emergency response capability.

The recommended proposal provides for approximately \$7 million in project costs for the renovation in FY 2007 dollars, and \$12 million for communications equipment and upgrades.

The \$7 million in project costs will come from University bonds. The \$12 million for the communications equipment will come from General Funds, user fees and other sources.

- Real Estate and Property Management has prepared a prioritized list of improvements and possible acquisitions. These requests are currently under review, but should be funded by internal lines of credit to be paid back by rental income rather than bonds.

IV. IMPLICATIONS

In this section, we address the implications of these recommendations in nine specific areas: the Academic Plan; deferred maintenance; future capital requests; debt capacity; students, faculty and staff; future operating costs; transportation and parking; physical feasibility and energy conservation.

A. Impact on Academic Plan

These recommendations are strongly aligned with the Academic Plan. Funding of the Library Renovation completes a high priority specifically identified in the Plan. The Academic Core - North provides a unique opportunity to improve the quality of the teaching and learning environment for several core disciplines that house world class faculty and leading academic programs. This approach represents a potential model that might be applied to other areas of campus.

The Ohio Union project, and the new Student Services Building, along with upgrades to Residence halls, are key components to enhance and better serve the student body.

B. Impact on Deferred Maintenance

Funding of these recommendations will address many of the University's lingering deferred maintenance problems. Brown Hall, Hughes Hall, Koffolt, Cunz and Lord Halls are among the worst deferred maintenance problems. Addressing these will remove at least \$67 million in deferred maintenance.

In addition, addressing renovations of the Thompson Library and Graves Hall, and the replacement of the Ohio Union proactively keeps these key facilities from becoming deferred maintenance problems in the future.

The recommendations proposed as part of FY 2009-2014 Capital Plan will address 9 buildings ranked in the top 30 with the largest deferred maintenance problems on the Columbus campus (Attachment C). And will begin to evaluate options for another 4 buildings on this list in future years.

As part of the review of these recommendations, we asked our staff to compare the commitment of capital resources with estimated current depreciation costs. Like most public universities, OSU does not directly fund depreciation except in its hospital system. This means it is important that state capital dollars and university-backed debt issues are sufficient to cover these costs.

The chart below shows total resources committed to capital projects is projected to equal or exceed depreciation on existing facilities, both in FY 2009 and FY 2010. This is encouraging, but does not present a complete picture. For example, not all capital dollars are spent on existing facilities. A significant portion goes to build new or expanded facilities that will in fact raise depreciation costs.

In addition, just keeping up with current depreciation does not address the existing backlog in deferred maintenance and renewal, which is estimated to be at least a billion dollars.

Consequently, we have asked our staff to provide a more comprehensive analysis of capital needs and funding sources to be shared with the campus and the Fiscal Affairs Committee of the Board before the end of this calendar year.

Resources Committed to Capital

Category	Current Replacement Value ¹	Annual Depreciation ²	Annual Funding ³	Deferred Maintenance and Renewal ⁴
(All Figures in Millions)				
Columbus Campus				
General Fund	\$1,754	\$35	\$35	\$222
Non-General Fund	3,832	77	229	429
Other				
Infrastructure	NA	NA	22	276
Regional Campuses	610	12	12	70
