¹ Replacement Value in FY 2006 dollars computed by Facilities Operations and Development

² 2% annual depreciation based on building life expectancy of 50 years

³ Annualized state support and university debt for FY 2009-2010 as computed by the Office of Business and Finance.

⁴ Estimate of deferred maintenance and renewal reported by Facilities Operations and Development to the OSU Fiscal Affairs Committee in December 2006.

C. Impact of Future State Funded Capital Requests

With State funds declining and becoming more uncertain, multiyear planning becomes more important. In general, we have to phase large projects over three biennia, one for planning and two for construction. Although this is not ideal, this provides greater flexibility in use of State funds. The table below shows how the recommendations in this memo would play out over the next three biennia. For planning purposes, a control total of approximately \$70 million is projected for each future biennium.

Project	Total Funding (millions)		State Funding (millions)			
	State	Other	Previous	FY09-10	FY11-12	FY13-14
Library Renovation	\$71.7	\$36.8	\$63.0	\$8.7		
Academic Core-North (see above)	\$243.8	\$242.9	\$5.0	\$48.7	\$48.7	\$35.0
Health Sciences Renovations	TBD	TBD	\$6.0	\$6.0	TBD	TBD
Cunz Hall Renovation	\$15.2	\$5.0	\$8.6	\$6.6		
Totals	\$330.7	\$284.7	\$82.6	\$70.0	\$48.7	\$35.0

D. Impact on Debt Capacity

In order to preserve debt capacity for the highest priorities of the Academic Plan, the University Board of Trustees approved guidelines on the use of bonds and other credit instruments on March 4, 2005. These recommendations are consistent with those guidelines and envision a bond issue of no more than \$450 million in calendar year 2007 and no more than \$500 million in calendar year 2009. The current recommended target for FY 2011 would be \$500 million. How this would be allocated among the various groups of users is illustrated in Attachment B. The bond allocation for CY2007 was approved during the last capital planning cycle. The 2007 column on the attached chart shows revised needs based on actual projected spend. The 2009 column shows the allocations recommended for 2009 which we are asking approval for during this capital planning cycle. CY 2011 bond requests currently total over \$600 million, which means additional review is needed in order to bring allocations in line with proposed \$500M cap.

E. Impact on Students, Faculty, and Staff

A large number of students, faculty, and staff regularly use the buildings recommended here for replacement or renovation. They will benefit when the projects are done, but will be inconvenienced while they are under construction.

The single largest challenge will be the inconvenience caused by the Library renovation and Ohio Union replacement projects, both of which will be under construction at the same time. Temporary sites have been provided for both functions with appropriate transportation. This transition for the library project seems to be proceeding smoothly. Additional planning and the ability to quickly respond to emerging issues will need to be done to minimize inconvenience and confusion in both cases.

Temporary student study and social space while both projects are unavailable during construction will be provided at several locations across campus. These temporary measures to minimize adverse impact of this needed construction were reviewed with the Board's Fiscal Affairs Committee at their June 2005 meeting.

F. Impact on Operating Costs

In the University's budget system, the benefiting units are responsible for operating costs of additional space assigned to them. The table below summarizes the approximate net change in ASF for major projects approved for the coming biennium. "Cost Increase" column are projections at the POM rate. Not all these buildings are POM facilities, but using POM rates provides an estimate for increased operational costs.

Unit	Project	Net Change in ASF	Cost Increase (or Decrease)
OAA	Library Renovation	-11,500	(\$155,940)
English ASC/Humanities	Brown Hall Renovation	4,600	\$62,376
Medicine	Graves & Meiling Hall Renovations	TBD	TDB
Music ASC/Arts	Hughes Hall Renovation and/or new construction	TBD	TBD
Engineering	Koffolt Laboratory Renovation	TBD	TBD
Health Science	Murray Hall Renovation	43,000	\$583,080
Health Science	Clinical Expansion Phase I	TBD	TBD
Student Affairs	Ohio Union Replacement	23,000	\$311,880
Various	Student Academic Services Building	-12,200	(\$165,422)

G. Impact on Transportation and Parking

Meeting additional space needs without exacerbating parking and accessibility continues to be an enormous challenge. Vehicular and foot traffic congestion will undoubtedly occur as a result of building construction and road improvements, but it is a temporary obstacle.

Most projects that are renovations or replacements will not increase long-term parking demand. The Medical Center Expansion project will create additional demand on a part of the campus where congestion is high and parking in short supply, but the project will replace any parking that is removed and will add additional parking to accommodate additional needs.

The Student Services building will eliminate approximately 500 surface parking spaces, but these will be replaced by the proposed Lane Avenue Garage. The new garage will

September 21, 2007 meeting, Board of Trustees

increase parking availability in the north campus area, shifting demand from west campus to Lane Avenue and increasing the amount of vehicular traffic in this area.

The Ohio Union project will increase parking demand on the east side of campus, but this can be mitigated by the expansion of the Ohio Union Garage

H. Physical Feasibility

Many of the proposed projects are tied to existing projects and will require careful planning when it comes to timing and space coordination. The availability of Smith Lab for swing space will facilitate demolition of Lord Hall. The new Student Services building will have to be completed before Lincoln can be converted to additional housing. There will be swing-space issues associated with the Academic Core-North plan but these will be resolved once the sequence of steps for this district are more fully resolved.

I. Energy Conservation/Sustainability

The recent rise in the cost of energy is expected to be a long-term trend; consequently, strengthened emphasis on energy conservation makes sense from both a financial and environmental protection standpoint. New design standards for campus planning and development were approved by the President's Cabinet on January 24, 2007 and will be incorporated into all new building and renovation projects. Three projects have already been designated to be LEED certified: 4-H building, Ohio Union and the new Student Services Building.

J. Next Development Campaign

Planning for the next campaign has been delayed to accommodate the transition in University leadership. The stretch out of the North Academic Core plan and the revised Medical Center Master Facilities Plan will provide an opportunity to make sure these plans are aligned.

K. Transition

As a result of the transition in senior leadership at the University, it is important to allow enough time for decisions involving activities such as the North Academic Core, the next development campaign and the Medical Center Master Facilities Plan to be appropriately reviewed by the incoming leadership. At the same time, it is necessary to meet deadlines for requests for state funds and to meet commitments already made by the University.

September 21, 2007 meeting, Board of Trustees

Therefore, we are asking the Board to:

- Approve a request of \$80 million in state capital funds for the Columbus Campus and \$12 million for the Regional Campuses for FY 2009 - FY 2010, as described on page 7 of this memo.
- Approve revised allocations of approximately \$367 million in bonds in calendar year 2007, as described in Attachment B of this memo
- Approve proposed allocations of approximately \$497 million in bonds in calendar year 2009, as described in Attachment B of this memo.
- Approve a cap of no more than \$500 million in additional debt in CY 2011.

We will return with additional recommendations to the Board after consulting with President Gee.

We hope this information is helpful to you in evaluating our capital recommendations.

September 21, 2007 meeting, Board of Trustees

PART V: Appendix

Supplemental Materials

- A. Funding Principles
- B. Proposed Allocations for FY 2009 and FY 2011 bond issues
- C. Top 30 Buildings on the Columbus Campus ranked by Deferred Maintenance Needs

**2009-2010 Capital Budget
Funding Principles**

With stable enrollment, limited funding and a substantial amount of deferred maintenance, the priority for use of central funds (including State funds) will be to enhance or improve existing space and reduce operating costs. Therefore, as a general rule:

1. Central funds will not be used to increase academic or administrative space assigned to a unit unless:
 - Paid for by the benefiting unit, or
 - Reallocated from elsewhere.
2. Central funds will not be committed to additional operating costs.
3. Capital and operating costs for additional research space should come from increased cost recoveries.
4. Any additional space for non-general fund units should be funded by that unit and meet the space service needs of the University.
5. Fund raising is an important consideration but fundraising does not guarantee matching funds independent of the criteria listed above. Fundraising is particularly encouraged for upgrades and renovations that do not require additional central support.
6. Use of University bonds and other credit instruments may be requested where a repayment mechanism can be identified. However, availability of this funding source is extremely limited and must be specifically approved as part of the project review approval process.
7. The ability to document and track proposed benefits of the project as to the Academic Plan will be an important consideration in choosing among competing projects.

(APPENDIX XVI)

Waivers of Competitive Bidding Requirements April - June 2007

<u>Category</u>	<u>Total</u>	<u>Sole Source</u>	<u>Emergency</u>	<u>Sufficient Economic Reason</u>
Health Systems - Professional Health Care Services	\$3,125,000	\$2,225,000	\$0	\$900,000
Health Systems - Administrative Equipment and Services	\$10,150,768	\$8,571,518	\$40,000	\$1,539,250

September 21, 2007 meeting, Board of Trustees

(APPENDIX XVII)

**The Ohio State University
Board of Trustees
September 21, 2007**

TOPIC:

Medical Center Master Facilities Plan

CONTEXT:

This is a follow up to the July 13, 2007 briefing on this topic.

SUMMARY:

A great deal of progress has been made over the summer and, although much still remains to be done, alignment has been reached in a number of key areas. Attached are four sets of documents:

- What has been accomplished over the summer? (Attachment A)
- What items need to be addressed next? (Attachment B)
- What may be asked of the Board at the next (November) meeting? (Attachment C)
- Conclusions (Attachment D)

CONSIDERATIONS:

- What additional information would the Board like to have?
- What happens next?

REQUESTED OF THE BOARD OF TRUSTEES:

For information and discussion. No vote required.

WHAT HAS BEEN ACCOMPLISHED OVER THE SUMMER?

1. Medical Center Master Facilities Plan Work Group established (6/20/07)
2. Alignment on the following:
 - Timeline and decision tree (7/13/07) (Attachment A-1)
 - New organization design (7/13/07) (President will be ultimate decision-maker)
 - New governance structure for the James and the Medical Center (8/24/07)
 - Key issues to be resolved as identified in Deloitte/Hammes reports (8/30/07) (Attachment A-2)
 - Fact Base for Revising Master Facilities Plan
 - Critical Attributes of the New Master Facilities Plan (Attachment A-3)

Exhibit 1: Timeline of Key Decisions

August 28, 2007

Joseph Alutto, PhD
Interim President and Provost
The Ohio State University
203 Bricker Hall
190 North Oval Mall

Dear Joe:

The purpose of this letter is to transmit to you and the Board of Trustees the final reports on the Medical Center Master Facilities Plan from the two consulting firms, Deloitte and Hammes. Copies of the Final Reports and Executive Summaries are attached. These reports have been reviewed by the members of the Work Group Mr. Cloyd created in his June 20, 2007 memo to the Medical Center Leadership. This group consists of Chris Culley, Pete Geier, Dave Schuller, Chip Souba and me. We all provided input to the consultants, reviewed drafts and suggested changes. However, we all thought it was important the consultants retain editorial control over their products so the Board could benefit from a frank independent assessment.

This means not all five of us necessarily agree with every statement in the consultants' reports; but we all do agree on the following:

1. The successful initiation and completion of this project is critical to the academic and financial success of the University, the Medical Center and its component parts. It is also critical to the future health and well being of the people of Ohio who depend on the OSU Medical Center for their care.
2. The consultants' reviews were a good investment in time and money. They helped us make sure the right questions were raised in order for this project to succeed.
3. We will provide the leadership to make sure the following issues are addressed so the project can go forward successfully:
 - Achieve alignment among senior leadership regarding priorities. This includes the Cancer Program, the other five signature programs and the non-signature programs.
 - Knit together component plans into a comprehensive business plan that can be managed and easily governed.
 - Develop a plan with measurable benchmarks to reduce costs while improving patient outcomes.
 - Provide additional scenarios to address risk of not achieving goals in more than one area.
 - Develop a detailed implementation plan, including establishment of a program office.
 - Adjust the schedule and timeline to reflect the revised plan.
 - Provide additional detail regarding infrastructure and contingencies.
 - Clarify hand offs from schematic design to design development.
 - Clarify the implications of the new James reporting structure on facilities, operations and cash flow as it applies to this project.
 - Develop a fund raising component that is aggressive, but realistic, with clear benchmarks and timetables.
 - Assess and manage impact of other large construction projects in the Columbus market on this project.

September 21, 2007 meeting, Board of Trustees

Over the remainder of the summer we will be working to address these and other related issues as laid out in the decision tree and timeline presented to the OSU Board at the July 13 meeting.

Although working through these issues will take some time, we remain cautiously optimistic that we can present evidence of significant progress by the September 21 Board of Trustees meeting.

If you or any members of the Board of Trustees would like any additional information or clarification, please don't hesitate to let us know.

Sincerely,

Christopher M. Culley
Vice President and General Counsel
Office of Legal Affairs

Peter E. Geier
Vice President - Health Services

David E. Schuller
Senior Executive Director
James Cancer Hospital and Solove Research Institute

William J. Shkurti
Senior Vice President for Business and Finance

Wiley W. (Chip) Souba
Interim Senior Vice President and Executive Dean for Health Sciences
Interim CEO of OSU Medical Center
Dean, College of Medicine

**Annotated Work List
Critical Attributes of the New MFP**

- Facility Priorities within the MFP - **(Attachment A-4)**
- Capital expenditures - parameters? **(Attachment A-5)**
- Key adjacencies and points of integration - **(Integrated into Attachment A-4)**
- Clear definition of components in phases - **(Attachment A-6)**

Criteria for Facility Priority Within the MFP

Programmatic Priority

- Patient centered care
- Programs that accelerate elevation to top 20 AMC status/top 10 NCI status
- Prioritization of six signature programs
- Maintenance of CCC designation and PPS exemption
- Leveraging technology as a differentiator
- Program commitments to existing contractual relationships
- Ambulatory strategy that fosters community outreach

Financial Feasibility

- Meet University, Medical Center and James financial goals
- Ability to repay debt (margin/demand)
- Ability to fundraise for programmatic priorities
- Protection of DRG exemption
- Inpatient capacity and mix of service as a driver of revenue
- Additional revenue generating possibilities

Physical Feasibility

- Necessary infrastructure
- Supporting adjacencies that enhance patient care and translational research
- Utilize existing building condition scores for replacement prioritization

Parameters for Capital Expenditures

- Extended timeline to 2014 for newly defined phasing (to be refined)
- Add an additional bond sale:
 - \$150M for program (approximate)
 - \$100M for escalation (approximate)
- Add a fund raising component (working target - \$75M)
- Comparison of current bond schedule with proposed schedule

FY	Current	Proposed
07-08	\$117	\$117
09-10	\$243	\$243
11-12	\$307	\$307
13-14	--	\$250
	\$667	\$917

- Be more explicit about funding for moveable equipment, including reconciled current \$60-\$70 million annual capital budget with the revised master facilities plan. Prioritize equipment purchases on:
 - Serving multiple programs
 - Revenue generation
 - Expense reduction
 - Technological advancement
- Develop a comprehensive sources and uses statement by year

Revised Phasing Plan

Phase I - Projects already under construction

• Master Plan (umbrella project)	\$ 9.8M
• North Doan Faculty Office Building and Digestive Health Center	\$35.9M
• Ross Heart Hospital Addition	\$32.3M
• MRI Relocation	<u>\$ 7.0M</u>
Sub Total	\$85.0M

(NOTE: Sub Total does not include approximately \$16M in planning and design fees related to other projects).

Phase II - through 2014

- A. Necessary enabling infrastructure (parking, utilities, etc.)
- B. New Cancer Hospital and Critical Care Tower
- C. TBD

Phase III - 2014 and beyond

- TBD

NOTE: Programmatic and financial implications of delay from the earlier timetable need to be addressed.

ATTACHMENT B

WHAT ARE THE HIGHEST PRIORITY ISSUES TO BE RESOLVED NEXT?

- Confirmation of Critical Attributes
- Agreement on Project Management Structure
- Process and Timeline for Addressing Issues Identified in 8/28/07 letter
- Evaluation of Development Opportunities
- Identify Key Elements of Revised Phases II and III

WHAT MAY BE DISCUSSED WITH THE BOARD OF TRUSTEES IN NOVEMBER?

- Recommended Key Attributes of the Revised Plan
- Recommended Project Management Structure
- Recommended Financial Parameters
- Recommended Next Steps
- Other Time Sensitive Capital Projects

NOTE: List is preliminary and may change.

Conclusions

1. It is important to the University for this project to proceed in both a timely and thoughtful manner.
2. The Deloitte-Hammes decision tree and timetable provides a useful template to accomplish this goal.
3. Steps 1 through 3 of the timetable have been completed or are near completion.
4. Key elements for moving forward include:
 - Continue to achieve alignment on key issues with the clear role of the President as the final decision maker.
 - Provide an integrated and clearly accountable project management structure.
 - Support a governance structure for the cancer program, while maximizing operational integration for the benefit of all programs.
 - Develop an integrated, comprehensive business plan in support of the project.
5. Next steps for moving forward will be presented at the November 2, 2007 Board of Trustees meeting.

September 21, 2007 meeting, Board of Trustees

November 2, 2007 meeting, Board of Trustees

The Chairman, Dr. Cloyd, called the meeting of the Board of Trustees to order on Friday, November 2, 2007, at 8:30am. He requested the Secretary to call the roll.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Algenon L. Marbley, Christopher Alvarez-Breckenridge and Debra J. Van Camp.

Dr. Cloyd:

I would like to convene the meeting of the Board of Trustees and ask the secretary to note the attendance. In a moment we will be taking a roll call vote to go into Executive Session; the Board will reconvene this afternoon at 1:00pm.

I hereby move that the Board recess into Executive Session for the purpose of considering personnel matters regarding compensation and employment. May I have a second?

Upon motion of Dr. Cloyd, seconded by Amb. Ong, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, Ong, Borrer, O'Dell, Hicks, Fisher, Schottenstein, Brass, and Marbley.

Dr. Cloyd reconvened the meeting at 1:00pm.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, and Algenon L. Marbley. Robert Boggs, director of the Ohio Department of Agriculture, was also in attendance.

Dr. Cloyd:

I would like to note for the record that our student trustees will be tied-up this afternoon in a conference call with all other student trustees and Chancellor Eric D. Fingerhut.

PRESIDENT'S REPORT

President Gee:

Mr. Chairman, my report is going to be very short in that we have already had a discussion in Executive Session. However, I would say that today celebrates the completion of my first month at Ohio State and the reason for a short report is the fact that I do not want to jeopardize that status. Thank you very much.

COMMITTEE ON TRUSTEESHIP REPORT

Mr. McFerson:

Approximately one year ago, as the Board was beginning the Presidential Search resulting in the appointment of Dr. Gordon Gee as president, the Board agreed we

November 2, 2007 meeting, Board of Trustees

needed a formal statement of expectations on how we would be interacting with our new president. Further, we knew we needed to organize ourselves differently as a Board because we had now expanded the number of voting trustees from nine to 15. No longer would the senior Board member become the chair.

Accordingly, the Board agreed that a small group of trustees should meet a few times to work initially on how the Board should be organized. This culminated earlier this year in the election of Dr. Gil Cloyd as our Chair. After this election occurred, Dr. Cloyd organized the Committee on Trusteeship to address additional Board issues, with the specific charge to prepare a draft statement on Board of Trustee expectations and he asked me to be the chair of that Committee. My presentation for the next few minutes will address this draft statement.

It is our understanding that no other university in Ohio has such a Statement of Expectations. We also understand from our consultant, Dr. Richard Chait, a noted national expert on board governance and a professor at Harvard University that very few universities in the country have published and adopted such a statement. In fact, there may not be any at all.

The Committee on Trusteeship met several times and twice as a full Board. We had discussions on the draft statement in publicly noticed meetings. Good feedback was given by the full Board and incorporated into the statement being presented today. Further, I personally had a telephone conversation with Chancellor Fingerhut who offered comments and his strong endorsement of the statement.

The statement is broken into several major sections. The first section is headed "Preamble." The very first sentence states that "as trustees of The Ohio State University, Board members have one overriding and all-encompassing responsibility: to serve the best interests of the University so that the University, in turn, can serve the best interests of the state of Ohio and society at-large." From this Board mission statement unrolls some specific behavior statements we are endorsing.

The next section is entitled, "Comportment among Trustees." It specifically outlines how we as trustees will carry out our specific responsibilities and the expectations we have of each other. For example, the section addresses how we prepare for and conduct ourselves at Board and committee meetings. It emphasizes, without exception, the requirement of confidentiality when confidence is expected. As Board members we also will support the University philanthropically, commensurate with one's means.

The next major section discusses "Comportment with the President." We specifically state that the President is the CEO of the University and is responsible for the operations of the University. The Board will minimize its involvement in the operations of the University except when necessary to fulfill the Board's fiduciary responsibilities. In partnership with the president, the Board will focus on the strategic opportunities and challenges as developed together with the president.

It is expected that Board members will have interactions with the internal constituents of the University. However, our comportment with these parties must be respectful of our role as trustees and their respective reporting responsibilities through the President. We are committed not to insert ourselves into the operations of the University and create confusion with these internal constituents.

With regard to comportment with external constituents, the Board must speak as a single entity. The Board chair is the official spokesperson for the Board as a whole. When external constituencies interact with an individual Board member, that Board member should be mindful not to speak on the Board's behalf and should report to the Board chair any conversations. Because all members of the Board agree to honor the standards, procedures, and expectations stated in this document, compliance is

November 2, 2007 meeting, Board of Trustees

fundamentally voluntary and self-enforced. More broadly, the Committee on Trusteeship has overall responsibility to monitor the Board's effectiveness.

Mr. Chairman, as Chairman of the Committee on Trusteeship, I represent the unanimous feelings of the Committee members and accordingly move adoption of the Statement of Expectations, ask for a second, and then have full discussion by the Board before voting on the motion.

Dr. Cloyd:

Thank you, Mr. McFerson. Is there a second?

Mr. Brass:

I will second it.

Dr. Cloyd:

Thank you. Discussion or questions?

Mrs. Davidson:

Mr. Chairman, I would like to raise one concern that I have. This is not a new concern, but one we raised in some of our other discussions. I think the redraft is, I'm talking particularly about the Compartment with External Constituents, much more explicit than what the original draft was and gives us a better sense of what we are dealing with. I am still, however, sensitive, Mr. Chairman, to your time and don't want to be calling you on an every other day basis. I want to make sure that my interpretation here is not a literal one, but that the intent is to communicate with you when we have had substantive conversations with one of the external constituents relating to a matter that is or might be pending before the Board of Trustees. If not, you are going to be getting a lot of calls on the basis that there have been conversations that might not have been relevant to the University, but were with the external constituents that are specified in this document.

Dr. Cloyd:

Thanks, Jo Ann; that is an important question. Mr. Fisher and I have talked about this also, because of the nature of Mr. Fisher's work he is interacting with representatives of the state government on a daily basis.

I think there are two important elements and one which is very explicit. As we have talked, when we are contacted externally we need to be careful that as an individual who happens to be a trustee we are not talking for the Board of Trustees. We should be talking only on those situations where we have an agreed position on a matter and then, I think, it is appropriate to clarify.

I think particularly with the state government in Columbus, and particularly with trustees who are locally based here, it is inevitable that there will be a number of contacts. I think the only thing that is important to report back to the chair is when there is something of substance, relevant to an issue that is in front of the Board, or an important perspective that someone is offering or a point of view that the Board is dealing with. I don't think we should clutter our correspondence and interaction with the sorts of things where it would be something of a routine nature requesting a clarification on a subject that has been voted on and agreed to by the Board.

Mrs. Davidson:

Thank you, Mr. Chairman.

November 2, 2007 meeting, Board of Trustees

Ambassador Ong

One of the undertakings that we have under this statement with respect to our comportment as trustees is to take part in campus events of one kind or another, above and beyond the scheduled meetings of the Board and its committees. Obviously, at an institution the size of Ohio State, there are a lot of campus events. I would hope that as an aid to us in this regard the President, or someone on his staff, would be able to give us some guidance about what events are sufficient in importance or relevance to the Board's actions that he would encourage the presence of one of the members of the Board.

President Gee:

If I may insert myself, because this is a very relevant question. This is a very complex University and on any given day there are multiple numbers of events. People within the University are going to automatically send our trustees invitations because: a) they would like for you to come; and b) protocol would also dictate that. I think we can - and David and I will work on this to try and develop a way to be more supportive in terms of your schedules, that way you will know how we are going to matrix that. I think that will be very helpful. At the same time, as you can well imagine, there are so many things that come along that are very interesting. For example, there may be for you, John, certain areas that you may want to know more about since you have very distinct interests. Nonetheless, it is not a call of duty, so we will try to develop that.

Mr. McFerson:

While you have the floor, Dr. Gee, you talked with the Committee about your feelings with regards to this expectations document. I was wondering if you would be interested in sharing that.

President Gee:

I would be. My own view is, and I will share, again, with the Board, that this is a very brave document. This is highly unusual. I have been in this position now for 28-years at multiple institutions and I can assure you that any board that I have worked with has not taken this level of opportunity to really respond to responsibility and development of a board. I think it is enormously healthy. Obviously, it is coming at the early time of my own presidency - Gee XIV - and provides not only a roadmap for the Board to work with each other, but to also work with me and my administration. As you know, we are developing within the University administration a like set of expectations in terms of how we engage with each other, so we are paralleling this process.

Mr. McFerson:

Thank you.

Dr. Cloyd:

Any other questions or comments?

Mr. O'Dell:

As a member of this Committee, we really thought it was important work to set the expectations and to think about making the Board more involved in strategic decisions and less involved in operational decisions. I would also like to say what a great job of leadership Dimon provided through this whole process.

November 2, 2007 meeting, Board of Trustees

Dr. Cloyd:

Thank you. Any other questions or comments? Let's have a vote on the Statement of Expectations, which is on the floor to adopt.

**STATEMENT OF EXPECTATIONS
THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES**

Resolution No. 2008-38

Preamble

As Trustees of The Ohio State University, Board Members have one overriding and all-encompassing responsibility: to serve the best interests of the University so that the University, in turn, can serve the best interests of the state of Ohio and society at-large. The Board's principal duty, as fiduciaries, requires loyalty to the University as a whole, not to any particular parts or personal agendas, and an objective, long-term view.

This document is a guide to trustee behavior, a statement of what we ask and expect of one another. Compliance with the principles and practices delineated here will enable the Board to serve and govern the University most effectively. For that reason, above all others, we individually and collectively pledge adherence to the Statement as a commitment to the University and the citizens of Ohio and as a covenant with one another. We aim, through allegiance to the Statement, to ensure due diligence, a culture of constructive inquiry and open discussion, a climate respectful of shared governance and University leadership, and an intense focus on matters of strategic importance.

The Board of Trustees strives to function as a collective, cohesive corporate entity. The voices and votes of Board members count equally; no one enjoys special privilege or status except as accorded by the Board as a whole. We recognize that we are not free agents empowered to speak or act on behalf of the Board or the University.

Comportment among Trustees

The Board of Trustees has specific expectations about Trustee performance and behavior that apply uniformly to all Board members and facilitate the Board's effectiveness. Every Board member:

- Shall, except for extraordinary reasons, attend all Board meetings and, as assigned, all committee meetings. When a trustee cannot attend, for instance due to personal illness, family matters, or work-related imperatives, the individual will so inform the Chair with as much advance notice as possible and provide an explanation for the absence. In the event that a board member fails to attend faithfully Board and committee meetings, the matter shall be referred to the Committee on Trusteeship.
- Shall prepare diligently and participate constructively in all Board and committee meetings. Specifically, all trustees shall:
 - Carefully read and review all relevant materials;
 - Thoughtfully prepare for all Board and committee meetings;
 - Expend the time and effort to understand the issues at hand;
 - Make a good faith effort to attend important campus events and to participate in programs and conferences designed to educate and update university trustees;
 - Speak openly on matters under consideration;
 - Participate actively by asking pertinent questions, offering insights, registering concerns, contributing expertise, and proposing alternative opinions and perspectives;

November 2, 2007 meeting, Board of Trustees

- Accept and competently complete, to the greatest extent possible, assignments from the Board Chair or a Committee Chair;
- Disclose promptly and fully any potential or actual conflicts or dualities of interest.
- May expect from and shall accord to every other Board member civil, respectful treatment even when trustees have different opinions or recommendations. Civility and respect include:
 - Extending good will to one another;
 - Listening attentively and taking seriously the comments of all trustees;
 - Being open to alternative points of view;
 - Encouraging healthy debate, and seeking no reprisals for dissent;
 - Refraining from publicly or privately disparaging or criticizing fellow trustees or impugning their motives;
 - Refraining from “multi-tasking” during Board and committee meetings.
- Shall, *without exception*, maintain confidentiality. Any information, written or oral, whatever the source, the Board receives or discusses in confidence shall remain in confidence. To ensure candor and trust, no trustee, at any time for any reason, shall disclose points of view privately or confidentially expressed by Board members or officers of the University. Disclosure of confidential information to any person for any reason without the express consent of the Board Chair or the University President violates the public trust placed in the Board collectively and trust Board members extend to each other.
- Shall be supportive of the precepts of the State’s “sunshine laws,” and the practice of open discussions at open meetings except when executive sessions are both permissible and warranted.
- Shall have the opportunity to understand and participate in processes associated with the selection of Board officers and the review of the President’s performance.
- Shall support the University philanthropically, commensurate with one’s means as one expression, among others, of a personal commitment to the University’s well-being.
- Shall submit annually to the Chair of the Board a written declaration of any potential or actual conflicts of interest with respect to the discharge of one’s responsibilities as a trustee of the University.

Compartment with the President

The Board recognizes the President as the University’s Chief Executive Officer. In general, the Board delegates management of the University to the President, and holds the President accountable for the institution’s performance, progress, and well-being. In partnership with the President, the Board will, to the greatest degree possible, focus on strategic opportunities and challenges of paramount significance and, at the same time, minimize the amount of attention accorded operational matters except as necessary to fulfill the Board’s fiduciary duties.

The President reports to and serves at the pleasure of the Board, *not individual Board members*. Publicly, trustees should be supportive and respectful of the President. In executive sessions, trustees should be candid and, as warranted, constructively critical. Performance-related concerns about the President should be presented to the Board Chair. Performance reviews of the President shall occur no less than annually and through a defined process that invites contributions from all Board members and that

November 2, 2007 meeting, Board of Trustees

apprises all Board members of the overall assessment. The Chair (and others the Chair may designate) shall convey the Board's evaluation to the President.

All trustees should seek to develop a comfortable working relationship with the President, but none should ever usurp the role of Board member to offer the President a personal performance review, to advocate personnel actions, to seek or gain special access or favors personally or on behalf of others, or to ensure a particular outcome to a matter under consideration. If a trustee has a relationship with the President (e.g., a business or financial connection) that creates a potential or actual conflict of interest, that information should be disclosed immediately to the Chair of the Board.

Board members are encouraged to have one-on-one conversations with the President to share information, insights, concerns, and advice, and to build a relationship. However, trustees must not explicitly or implicitly direct the President to reach a particular conclusion or take a particular course of action. Suggestions and observations from Board members are always welcome; directives are never appropriate.

Comportment with Internal Constituents

Both the Board as a whole and trustees singly must strike a balance between the equally undesirable extremes of daily engagement with campus constituents and distant detachment from the life and people of the University. Trustees are encouraged to interact with the University's campus constituents, especially members of the administration, faculty, and student body. However, Board members must exercise great care, particularly when trustees approach constituents rather than vice versa. Under those circumstances, the possibility always exists that constituents will perceive the interaction as an attempt by the trustee to exert influence, seek favors, or prescribe a course of action.

Conversations with internal constituents should honor these guidelines. Trustees should not:

- Breach matters deemed confidential by the Board or Committee.
- Discuss pending Board business or policy matters with constituents without the express authorization of the Board Chair or relevant Committee Chair.
- Take these occasions to advance personal agendas, promote advocacy by constituents, or criticize the President or Board.
- Elicit performance evaluations of any officers or employees of the University. Concerns about the performance at any level of the University should be raised within the Board with questions or concerns then communicated to the President, with the outcome then reported to the Board by the Chair or the President.
- Organize or undertake information gathering events or activities to solicit constituent views unless authorized to do so by the Board Chair or relevant Committee Chair.
- Be insensitive to the time demands trustee-initiated conversations place on administrators, faculty, and students.

Committee chairs are free to initiate requests for information necessary to discharge the committee's designated responsibilities. Such requests should always be respectful of administrative lines of authority and demands on administrators' time. Requests for institutional data by individual trustees should be rare. In such cases, trustees should not contact staff independently and directly. Rather, the trustee should route the request through the Board Chair, relevant Committee chair, or the President, and proceed only when so authorized and only through established organizational channels.

These guidelines do not preclude personal connections between trustees and members of the campus community which the Board encourages. Instead, such relationships should be clearly personal and distinctly outside the duties of trusteeship

Comportment with External Constituents

The Board must speak as a single entity. No individual trustee or self-appointed group of trustees shall speak on behalf of the Board or the University. No trustee should be publicly critical of actions taken or decisions made by the Board or President. Board members should not invite or initiate opportunities for personal pronouncements. When asked by constituents, the press, media, or government to represent or speak on behalf of the Board or the University, all trustees, unless specifically designated to do so by the Chair, should demur *without exception*. When presented with concerns about the performance of individuals or offices, trustees should direct constituents to the President.

Board members shall initiate communication on behalf of the University or in the role of University trustee with external constituencies (the Governor, senior State executives, the Chancellor, Board of Regents, members of the General Assembly, or local or federal officials) *only* with the prior consent of the Board Chair or President. Should any external constituents contact Board members, trustees should be mindful not to speak on the Board's behalf or otherwise violate the letter or spirit of this Statement. In all instances, Board members should promptly report to the Board Chair any conversations with government officials.

Trustees should not interact with external stakeholders on specific University issues, projects, policies, or concerns unless that interaction occurs directly and expressly as part of a Board or Committee approved process.

Board members should publicly support the University, the President, and decisions the Board and President reach, even when one holds views or cast votes to the contrary.

Compliance

Because all members of the Board agree to honor the standards, procedures, and expectations stated in this document, compliance is fundamentally voluntary and self-enforced. More broadly, the Committee on Trusteeship has overall responsibility to monitor the Board's effectiveness. Toward that end, the Committee on Trusteeship will periodically conduct a self-study of the Board's performance that includes compliance with this Statement of Expectations.

A trustee concerned about the comportment of a fellow Committee member should speak with the Chair of the Committee. If the concerns transcend comportment on the Committee, the trustee should confer with the Chair of the Committee on Trusteeship.

Upon motion of Mr. McFerson, seconded by Mr. Brass, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Dr. Cloyd:

Before we move to the second part, Mr. McFerson, let me also add my compliments and thanks. This has been an excellent process. I also want to compliment the Committee on one of the components of this which was to operate within the full context of the Sunshine Laws. In that regard, we had a lot of public discussion on this, which was excellent.

Mr. McFerson:

We did. A companion discussion is as follows, the Preamble of the recently adopted "Statement of Expectations" states that the "Board Members have one overriding and all-encompassing responsibility: to serve the best interests of the University so that the University, in turn, can serve the best interests of the State of Ohio and society at-

large.” This can only happen if the administration and Board are aligned behind the same strategic goals and objectives.

The Committee on Trusteeship, responding to the challenge given to us by Chairman Cloyd to address Board governance and structure, concluded that our current Board committee structure did not allow us to properly focus on the identified key strategies outlined by President Gee. Instead, we were spending far too much time hearing presentations, attending to operational matters best handled by the administration, and rushing to get through overly-crowded agendas full of non-strategic content. We needed to change the structure of our committees, taskforces, affiliated boards, meeting frequency, and content; and we needed to do it right away. Accordingly, at our last publicly noticed meeting - a retreat - the Committee on Trusteeship was asked by the Chair to come back with a new Board of Trustees structure that would allow us more time to focus significantly on strategic matters during committee and Board meetings. Therefore a proposal is as follows and in no particular order:

- 1) The Board of Trustees will meet six times a year, plus a retreat; exact dates will be determined by the next meeting, but we will meet next month as scheduled, December 6 and 7, and we will also use six of the nine dates already calendared for 2008.
- 2) Details of an annual retreat need to be worked out with President Gee and should be ready by our next meeting. The President attended our meeting yesterday and gave us some insight into these retreats. Clearly these retreat sessions will not be the same every year: maybe there will be a couple a year; they will vary as to time, as to content, as to location; they will clearly be strategic; they will be relevant to the University; and very topical with regard to content. It is expected that these sessions will be very solid learning experiences for all of us.
- 3) There will be six standing committees, with Agricultural Affairs as an as needed committee. Each of the six standing committees will meet each meeting cycle.
- 4) The six committees will be labeled “A,” “B,” and “C,” with meeting times organized so Board members may serve on two to three committees. The two “A” committees will be Academic and Student Affairs, and Fiscal Affairs, and Board members will serve on just one of the “A” committees. The same would apply to the “B” committees and the “C” committees.
- 5) Each Board member will serve as either a committee chair or vice chair to the extent possible. That means there will be 12 individuals as chair or vice chair.
- 6) The Board chair will serve as an ex-officio member of all six committees - our thirteenth Board member. We will have a new Board member - the fourteenth Board member - and they will not likely serve as a chair or vice chair until they have had a year of orientation. Sometimes we will have two new Board members. So, virtually everyone will serve as a committee chair or vice chair.
- 7) The Board chair will select the committee chairs, vice chairs, and committee members. These will all be in place by next month when we will begin this cycle.
- 8) All committee meetings will be on Thursdays; Friday morning will be reserved for Executive Session; and following lunch, our full Board of Trustees meetings will take place like we are doing now.
- 9) Committee chairs are responsible for making certain agendas are strategic and that sufficient time is allocated for a discussion on designated strategic objectives agreed to by President Gee and the Board.

November 2, 2007 meeting, Board of Trustees

10) The six standing committees - the "A" Committees will be Academic and Student Affairs, and Fiscal Affairs; the "B" Committees will be Audit and Compliance - that is an expanded title and responsibility not strictly audit, but also the whole compliance function - and Medial Affairs; and the "C" Committees will be the Committee on Trusteeship and a new committee - Development and Investment. This is clearly a new committee. In the past, Investments was a separate committee and Development was under Fiscal Affairs. It was felt in one of our previous meetings that going forward with the emphasis on both of those areas that they should be broken out from Fiscal Affairs.

11) It should be noted that Board of Trustees members are no longer being asked to serve on affiliate, Hospitals, or other OSU company boards. These responsibilities will all be rolled into the six standing committees.

12) Committee chair reports to the full Board should focus only on those strategic issues that were discussed in the committee meeting and encourage Board of Trustees dialogue on these matters. In other words, as we have done in the past, rather than reporting everything that took place in our committee, we will only talk about the strategic issues that we dialogued and get further input from the Board.

13) Committees could have non-Board of Trustees members appointed. We currently have non-Board of Trustees members on Audit and Investments Committees. It could very well be that additional non-Board of Trustee members could be appointed to some of these committees at the discretion of the Chair.

It should be noted that all of these changes in the Board of Trustee structure will take time to understand. We talked about that at length yesterday and will need to sort out how it will best work. The Committee on Trusteeship understands these challenges, as does President Gee, but we are committed to going forward with this streamlined structure. It gives us our best chance to be more strategic in our deliberations.

Once again, Mr. Chairman, on behalf of the Committee on Trusteeship, I move approval of this new Board of Trustee structure as outlined, ask for a second, ask for additional Board of Trustee discussion, and then a vote.

Dr. Cloyd:

Thank you. Is there a second?

Ambassador Ong

Second.

Dr. Cloyd:

Let's have a discussion on the proposal before the Board.

Ms. Hendricks:

With regard to the non-trustee membership on committees, did you discuss what committees and how many non-trustee members? I am assuming this is Gil's responsibility or is it the responsibility of the Committee on Trusteeship?

Mr. McFerson:

We did not discuss how many non-trustee members nor which committees, and it would be the Chairman's decision, but I am sure he would receive counsel from us. I would think that some of these committees are natural for additional non-trustee

November 2, 2007 meeting, Board of Trustees

members, such as Medical Affairs where we could use some outside expertise. There may be other committees, but we did not get into the details.

Dr. Cloyd:

Karen, the chairs of the committees, as they work with their trustee committee members, are going to be in the best position to make their decisions on whether they want non-trustee committee members and, if so, the type of expertise or background they would like to have on the committee. I think that is something we can defer to the committee chairs to decide.

Ms. Hendricks:

Would they consider people outside of Columbus for the committees?

Dr. Cloyd:

I would see no limitation.

Ms. Hendricks:

Just as it is on the Board?

Dr. Cloyd:

Right.

Mr. McFerson:

Currently David Rismiller, who is on the Investments Committee, comes from Omaha.

Mr. Schottenstein:

As a member of the Committee on Trusteeship, I would like to comment on both the current motion and the previous motion that was passed as it relates to how we are going to govern ourselves, as opposed to what we are going to govern. I want to commend you, Dimon, as chair of the Committee on Trusteeship, and also acknowledge the tremendous advice and support we received from Dr. Chait. This is a significant departure from where we were, but it is one that will serve us very well at this exciting time. I am extremely supportive of this. Again, I want to thank you for your chairmanship.

Mr. McFerson:

You are welcome. I agree that Dr. Chait was a major help and David Frantz was a major help staffing this Committee. We all have to recognize that we have a lot of learning to do as to how to make this best work for the University, but we are prepared to go forward.

Dr. Cloyd:

Thank you. Any other questions or comments?

Mr. Shumate:

Dimon, I'm not sure if you want to comment, but during our Committee deliberations we talked about taking steps to align the six strategic goals that the President has outlined to the University within our committee structure to make sure that we are focusing on the overall strategic goals of the University.

November 2, 2007 meeting, Board of Trustees

Mr. McFerson:

Alex, we did, as you know, have some discussion on that and how best to align the six strategic goals of President Gee into the committees. It is very clear that each of those goals cross over into one or more committees, but the President and his counsel are still deciding exactly how some of that should be spread. I think as a Committee, and also with input from the Chair, on how to best align that is yet to be decided. That is why I didn't talk about it right now.

President Gee:

The answer is that we hope the strategy of the University, and particularly the goals that I have set, will be a template against which we measure almost everything we do. At the same time, we want to make certain that we get them lined up to make the best use out of the committee structure. So the answer is yes and it is an alignment issue right now.

Dr. Cloyd:

Let me make one other specific comment. Dimon's reference that we talked about in the Committee yesterday was that there is going to be a transitional nature of this. We also recognize, as a part of that, some of the other affiliated boards and committees that are now being aligned under here may require some bylaw changes, given that we will not be having trustees on this Board be full members of those committees or boards. That is being worked out through the legal organization right now. Again, that will be a part of the transitional process we will have to go through here to get the final alignment on how we want to operate.

If there are no other questions or comments, let's move this resolution to a vote.

Board Committees

Resolution No. 2008-39

Academic & Student Affairs	Fiscal Affairs	Audit & Compliance	Medical Affairs	Development & Investment	Trusteeship	Agricultural Affairs

November 2, 2007 meeting, Board of Trustees

Upon motion of Mr. McFerson, seconded by Ambassador Ong, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Dr. Cloyd:

Dimon, and to the entire Committee on Trusteeship, this has been tremendous work. I know it has taken a lot of time, but I can echo some of the comments that have been made around the table here that this is exciting. I think this is going to give us a more efficient and effective way to approach our work going forward. Tremendous work!

Mr. McFerson:

And the fun is just starting.

Dr. Cloyd:

And the fun is just starting; that is correct.

COMMITTEE REPORTS

Dr. Cloyd:

At this time, we will hear other committee reports and I would like to begin with the Affiliated Entities Committee. Mr. Fisher...

Mr. Fisher:

Thank you, Mr. Chairman. We met the last week of September, so there is a little age to this report. In the spirit of what we are doing on the full Board, the commitment to improve our operating effectiveness by the way of governance, accountability, and, in some cases, necessity of some of our affiliated entities was the theme of our Committee meeting. We are trying to get our arms around the fact that we spend more of our time on the affiliated entities that involve more investment and risk in our partnership with the University, such as Campus Partners and SciTech.

The second thing I would highlight is that Legal Affairs also noted that the coordination between the work of the external auditors and Trustee Schottenstein with our affiliated entities was very important.

Finally, we heard presentations from: Managed Health Care Systems and the appointment of the new CEO Scott Streator; Campus Partners -- and I would note the appointment of their two new board members, Donna James and Boyce Safford; SciTech; the Ohio Supercomputer Center; and an update from Pete Geier on the wind down of the UMC Partners operation.

Mr. Chairman, that concludes my report, and I would be happy to take any questions.

Dr. Cloyd:

Thank you, Mr. Fisher. Questions or comments to Mr. Fisher on his report? Next, we will hear from Mr. Schottenstein on the Audit Committee.

Mr. Schottenstein:

Thank you, Mr. Chairman. The Audit Committee met yesterday at 11:15 am and we had a very complete agenda. The first item was a presentation by Dr. Todd Guttman, associate vice president for Research Compliance, along with Dr. McGrath, on what

November 2, 2007 meeting, Board of Trustees

we do as an institution to assure compliance in all of the various areas of research. This was a very informative review for the members of the Audit Committee. I will take a minute to highlight a few facts for the members of the Board and the others who are here today before I summarize the nature of the report.

As everyone knows, Ohio State is 7th among all U.S. public universities in total research dollars as of the year 2006; has over \$720 million in research expenditures for FY 2007; approximately 7,000 awards are managed by the Research Foundation; over 4,000 active research protocols, involving the use of human subjects; nearly 1,000 active protocols involving the use of animals; 275 protocols involving the use of biohazardous materials and/or agents; and 479 current industry-funded clinical trials. The purpose of the report by Dr. Guttman was to present to the Audit Committee what we do as an institution to make certain we are in compliance.

A couple of comments I want to make is that first of all it was a very good report and much of the discussion focused on our accreditation activities. I think we will all recall the issues that we had during the last 18-months with the Association for Assessment and Accreditation of Laboratory Animal Care (AAALAC), which is the association that monitors accreditation for research involving animals. As you will recall, we were awarded full accreditation last year following a multiple year process, and ongoing and very robust efforts are in place today to maintain that accreditation.

What AAALAC is to animals, there is also a relevantly new accreditation association, Association for the Accreditation of Human Research Protection Programs (AAHRPP), which monitors research efforts as they relate to humans. This accreditation association has only been in existence for five years and while there are a few universities that have now received full accreditation from AAHRPP, we are not one of them. The very positive news is that we are just beginning the efforts to secure full accreditation from AAHRPP. It will take approximately two years to complete the process. It is very comprehensive; it involves all aspects of this institution; and Drs. Guttman and McGrath's report was very comforting. I think I speak for all the members of the Audit Committee in that this is putting us in a position where we think we will be in good stead.

The other principle item that the Audit Committee dealt with was the financial report including a presentation by Deloitte and Touche for the FY 2006 audit. Just a couple of highlights: the University's overall financial health remains sound. We operated in the black, which is good, to the tune of overall \$500 million. With respect to Ohio Senate Bill 6, our composite score is very stable at 4.2, well above the minimum level.

The Audit Report that we received from Deloitte was also a very good report. Deloitte was able to provide us with a complete, unqualified opinion, acknowledged full levels of cooperation from all of the various financial arms of the University, and the Audit Committee unanimously approved and accepted the report of Deloitte and Touche.

That concludes my report.

Dr. Cloyd:

Thank you, Mr. Schottenstein. Questions or comments?

Mr. McFerson:

How much longer is the cycle for Deloitte before it has to be rebid or new auditors selected?

November 2, 2007 meeting, Board of Trustees

Mr. Schottenstein:

I think this is the second year of five years, but Mr. Shkurti might be able to answer that question.

Mr. Shkurti:

That is correct - this is the second year of five.

Dr. Cloyd:

One other comment I would like to make, in addition to what Mr. Schottenstein said, that is consistent, President Gee, with what you are talking about is for Ohio State University to streamline one of the areas highlighted. We have a real opportunity to improve our efficiency and also in the controls area by simplifying the payroll systems. We had some considerable discussion on the complexity we have today with multiple payroll systems and getting that improved will be very consistent with some of the other things you have in mind.

Any other questions or comments? We will next have the Academic and Student Affairs Committee report. Mr. Borrer...

Mr. Borrer:

Thank you very much, Chairman Cloyd. In the Academic and Student Affairs Committee, we started with a discussion led by Provost Joe Alutto on the Ohio Innovation Partnership. This is a new statewide initiative that will provide \$250 million to enhance Ohio's ability to compete in the STEM fields, science, technology, engineering, and math. At Ohio State, STEM also includes medicine and STEM education. Matching funds will provide another \$250 million, for a total of \$500 million. STEM is one of Ohio State's best examples of the trans-institutional Ohio State that President Gee envisions.

Vice Provosts Randy Smith and Martha Garland talked to the Committee in detail about the Choose Ohio First Scholarship Program, which \$100 million is available for this program statewide. Ohio State is allowed to submit a maximum of five proposals, up to \$10 million each, and all of those will be at that level. The proposals will target various points along the STEM continuum. Some of these will propose new programs and others will propose the expansion of existing programs to new populations. All will build on the existing strengths in STEM programs.

Next we heard from Senior Vice President for Research Bob McGrath and Vice Provost Carole Anderson. They spoke to us about the Ohio Research Scholars program. For FY 2008-09, \$150 million in state funding is available for this program. Of that amount, \$51 million comes from the Board of Regents and \$99 million from Third Frontier monies. The maximum individual award amount is \$50 million. Each award must be matched dollar-for-dollar, though matching funds which can be defined "flexibly." That does not apply to Ohio State, we will match them. The \$51 million endowment will generate about \$2 million annually for faculty salaries. The matching requirement will double that amount to \$4 million. This translates to hiring 20 new faculty members statewide. A number of proposals are currently under consideration. Proposals should demonstrate potential for economic impact. Partnerships between Ohio higher education institutions, Ohio industry, and government labs are strongly encouraged.

The next report we heard was on the Bias Assessment and Response Team (BART), from Rebecca Nelson, assistant vice president for Student Affairs, Georgina Dodge, assistant vice provost for Minority Affairs, and graduate student Darius Williams. This is a new collaboration of Student Affairs and Minority Affairs, as well as several other

November 2, 2007 meeting, Board of Trustees

offices. BART, as the team is called for short, deals with hate and bias-related incidents that affect the University community. The team receives and monitors reports of such incidents, refers individuals to appropriate resources, and, if necessary, coordinates a University response. In 2007, BART has collected reports of 17 incidents. This is a leading-edge collaboration designed to improve response time and potentially reduce this behavior in the future.

Finally, our Committee endorsed the following recommendations: 1) the naming of Hawk's Nest Clubhouse at Ohio State ATI; 2) the naming of the Les Wexner Football Complex at the Woody Hayes Athletic Center; and 3) routine personnel actions.

This concludes my report, Mr. Chairman.

Dr. Cloyd:

Thank you, Mr. Borrer. Questions or comments on this report?

Ms. Hendricks:

When you talked about the \$250 million for the STEM field effort in Ohio, is that a business effort or is it for students to come to Ohio State?

Provost Alutto:

The scholarships are designed to support students who are studying in the STEM fields. That would involve scholarships not just for students in regular academic programs, but also in internships as a way to encourage their connection with STEM industries early on in their studies.

Ms. Hendricks:

Interesting; thank you.

Dr. Cloyd:

Any other questions or comments? As I mentioned in our Committee meeting, I have to give Ambassador Ong a lot of credit for the leadership that he brought in the state in getting this program funded. It has been some tremendous work on your part and it is going to be very beneficial to our young people here in Ohio and also for the kind of faculty that we are going to be able to bring to Ohio State. Thank you for that, Ambassador Ong.

We will next go to the Fiscal Affairs Committee. Mrs. Davidson -

Mrs. Davidson:

Thank you, Mr. Chairman. We led off our Committee meeting with the First Quarter Report on the budget for Fiscal Year 2008 and reviewed where we ended up in 2007. I will highlight some of the things that came out of both of those reports.

As we know the Health System had a very good year in FY 2007. For the first quarter of FY 2008 we are 4.4% below budget in revenue, but helping to manage that is that we are 4.7% lower in expenses. In talking with Mr. Shkurti, he pointed out that one quarter does not make a trend. We will need to keep an eye on this particular situation and continue to be aware, as we are now, of our obvious lack of capacity on a continuing basis. It is good to report that the Ross Hospital addition should bring 16 new beds on board in June 2008 and the MRI facility would be completed by July 2008, but that might tie in to our discussion at the end of this current Board meeting.

November 2, 2007 meeting, Board of Trustees

In the enrollment report we are slightly above the planned level and that is very good. With state support, since we agreed to the freeze of tuition for two years, we will be carefully watching state revenues to be sure that the state is going to be in a position to make their commitment. On research it is great. In addition to the report that was already given and where we ended up in 2007, new research awards were up 19.2% in the first quarter of 2008 compared to 2007.

The Development Report indicated that we tried to resolve a little bit of the operating cost of development with a more stable budget and we did that, as you know, when you approved the budget at our September meeting. Our gift receipts in 2007 increased by 11%. We discussed the capital campaigns and there are six projects for which we are involved in raising targeted money. We have not met that goal and we need to continue to look at and reach those goals.

In investments we had \$2.3 billion at the end of FY 2007, with \$1.6 billion of that in gifted endowment and \$598 million in long-term operating funds. This compares to a total of \$2 billion at the end of FY 2006.

In general operations, we have deficits in some units and we are tracking those very carefully, requiring that plans be put together to bring those units out of the deficit situation. As Jack reported, our auxiliaries and affiliates are all within their own budget guidelines in revenue and expenses. We anticipate having a full discussion on debt for Ohio State at the Fiscal Affairs Committee meeting next month. A number of members of the Board have asked that we take a look at that in-depth, so we will be reviewing that.

On the regional campuses enrollments are good with the exception of the problem with ATI, which is still dragging behind; but the Lima problem seems to have corrected itself. Our reserves are running a bit lower than anticipated, we are at \$31.3 million versus our goal of \$42.1 million. We are continuing to deal with the financial aid situation where we had more students accept enrollment at Ohio State. Going into this fiscal year, we would project that shortage will be someplace in the area of \$14-\$15 million and are developing a plan in which we can handle that.

We had a first reading on the Purchase Policy. We are attempting to do what President Gee has asked, which is to streamline some of the bureaucracy. All Board members have received a copy of the revised purchasing policy. We ask that you look it over, so it can be adopted at the next meeting.

We reviewed the Board of Regents' Efficiency Report. As you know, we are required to at least demonstrate a 1% efficiency savings to qualify for state support. This year it equates to a \$4.7 million savings, but next year that will increase to a 4% savings. We filed an efficiency savings report with the Board of Regents equaling \$68.9 million, so we are well above that and it shows the great efforts we have made on efficiency.

We have seven items on the Consent Agenda and the first item is the University Development Report. Our gift receipts were down for the quarter, but the number of contributors actually grew by 17%, which is a good indicator. Our goal for the year in Development is \$242 million, but that means we have to make up 88% of that goal in the next three quarters. An exciting corporate gift of \$10 million is pending and we hope it will be announced soon. We have also received a \$22 million anonymous gift for space exploration.

You have before you the Waivers of Competitive Bidding that have taken place in the last quarter. We waive competitive bidding when there is an emergency or a single source bid.

We also have amendments on the *Code of Regulations of The Ohio State University Managed Health Care Systems, Inc.* The UMHC Board wants to expand their board

November 2, 2007 meeting, Board of Trustees

members by adding two additional non-OSU members to that board and to redesignate the titles under which their officers are serving.

There is some exciting news dealing with what we are able to do with our Civil Service regulations. New legislation passed gives the four-year state universities an opportunity to redo their own Civil Service regulations. For your consideration is a resolution authorizing the Office of Human Resources to begin looking at these regulations and to bring recommendations back to us for approval.

We have our typical monthly approval of contracts and feasibility studies, and four easements: one easement for Time Warner Telecom at the WOSU Tower; and three easements for Ohio Power to provide electrical service to the Newark campus.

Mr. Chairman, we recommend all of those items on the consent agenda and I would be glad to answer any questions.

Dr. Cloyd:

Any questions or comments for Mrs. Davidson? Did you have any discussion about where we stand in an operational context with reserves vis-à-vis oil pricing and what could happen? What would happen if we continue to see escalation and a hard winter?

Mrs. Davidson:

We did not have any discussion on that. If you look at what we filed with the Board of Regents, you will see that some of the plans we have made in having contracts into the future show that we are having some efficiency savings. Perhaps Mr. Shkurti wants to comment on that, too.

Mr. Shkurti:

Mr. Chairman, we also have a utility reserve that will help us in the event of spikes in utilities and although it got beat up two years ago we are replenishing it. Secondly, we have the ability to use either fuel oil or natural gas, so if oil goes up you can use natural gas. The problem is the way the markets work when oil goes up, natural gas goes up, too.

On the longer horizon, we are working more in conservation as we have been for some time. We also want to get back into the business of being able to use Ohio-based coal when we can get it environmentally sound. There is no 100% guarantee against it, but we do have reserves. Then we have the rainy day fund if those reserves are depleted. We are in fairly good shape given the circumstances.

Dr. Cloyd:

Any other questions or comments? As always, Fiscal Affairs Committee stays very busy. Thank you.

Dr. Cloyd:

I have the real pleasure to put a resolution in front of the Board for approval and that is the Waiver and Naming of the "Les Wexner Football Complex" at the Woody Hayes Athletic Center.

At each commencement, Archie Griffin talks to the students about giving back and supporting the University. We have an alumnus on the Board who shows his endearing love and support of the University. His wife, Abigail, is also in that camp. Les, we thank

November 2, 2007 meeting, Board of Trustees

you very much. It is a real pleasure. Les is a role model for all of us and we would hope that all of our alumni will follow.

The resolution is in front of the Board and if I could have a second?

Upon motion of Dr. Cloyd, seconded by Mr. O'Dell, the Board of Trustees adopted the following resolution by unanimous voice vote.

**WAIVER AND NAMING OF THE LES WEXNER FOOTBALL
COMPLEX AT THE WOODY HAYES ATHLETIC CENTER**

Resolution No. 2008-40

Synopsis: Approval of the waiver of paragraph (F) of Bylaw 3335-1-08 of the Administrative Code and Naming of the Les Wexner Football Complex at the Woody Hayes Athletic Center, located at 535 Irving Schottenstein Drive, is proposed.

WHEREAS the Board of Trustees has authority in naming of all buildings and structures at The Ohio State University, as set forth in paragraph (F) of rule 3335-1-08 of the Administrative Code which states that "buildings and structures shall not be named for any person who is an officer or employee of the University or the State of Ohio, but may be named for a person who has been retired or has otherwise left such a position for a minimum of three years"; and

WHEREAS Leslie H. Wexner began his relationship with The Ohio State University in the late 1950's, earning a Bachelor of Science in Business Administration degree in 1959 and an Honorary Doctor of Humane Letters degree in 1986; and

WHEREAS he has made valuable contributions to his Alma Mater over several decades, serving on numerous boards, including the Board of Trustees, the University Foundation Board, the Wexner Center Foundation Board, and the Fisher College of Business Dean's Advisory Council; and

WHEREAS Mr. Wexner has demonstrated further campus commitment through the establishment of the Fisher Council on Global Trade & Technology Fund and generous support of the OSU Hillel Foundation; and

WHEREAS Mr. Wexner, along with his wife Abigail, has been a tireless supporter of The James Foundation and The James Fund for Life; and

WHEREAS the Wexner family is proud of the tradition, the people, and the excellence of Ohio State football, having generously supported the renovation of the Woody Hayes Athletic Center:

NOW THEREFORE

BE IT RESOLVED, That paragraph (F) of bylaw 3335-1-08 of the Administrative Code be waived and the naming of the "Les Wexner Football Complex" at the Woody Hayes Athletic Center, be approved, effective September 8, 2007.

CONSENT AGENDA

President Gee:

We now have 12 resolutions left on the Consent Agenda and we are asking that a separate vote be held for items #7, Waivers of Competitive Bidding Requirements, and #11, Easement to Time Warner Telecom of Ohio, L.L.C. Therefore, we are seeking your approval for the following:

**AMENDMENTS TO THE UNIVERSITY HOSPITALS
MEDICAL STAFF RULES AND REGULATIONS**

Resolution No. 2008-41

Synopsis: The amendments to the *University Hospitals Medical Staff Rules and Regulations* are recommended for approval.

WHEREAS The Ohio State University Hospitals Board pursuant to bylaw 3335-101-04 of the *Hospitals Board Bylaws* is authorized to recommend to the Board of Trustees the adoption of amendments to the *University Hospitals Medical Staff Rules and Regulations*; and

WHEREAS this amendment was approved by the University Hospitals Board on September 27, 2007:

84-06 Death and autopsy procedures.

(A) Unchanged

(B) ~~The death of a patient in the hospital within twenty four hours of admission must be reported to the proper legal authorities under the laws of Ohio.~~

(C) (B) All autopsies shall be performed by an attending pathologist with hospital privileges or other attending practitioner who is qualified to perform autopsies. The attending pathologist or his or her designee shall have the responsibility of informing the patient's attending physician or designee that a proper consent for the performance of an autopsy has been obtained. The anticipated time for the autopsy shall also be reported at this time.

(D) (C) Criteria for autopsy requests include the following:

(1) Coroner's cases when the coroner elects not to perform an autopsy. The county coroner has jurisdiction for performing an autopsy when death is the result of violence, casualty, or suicide, or occurs suddenly in a suspicious or unusual manner. ~~Deaths occurring during surgery or within twenty four hours of admission to the hospital are also coroner's cases, and the decision whether to autopsy is the coroner's responsibility.~~ When the coroner elects not to perform an autopsy, a request for an autopsy shall be made pursuant to paragraph (A) of this rule.

(2) through (10) unchanged

(E) (D) When an autopsy is performed, provisional anatomic diagnosis should be recorded in the medical record within three days and the complete protocol should be made a part of the record within sixty days.

84-12 Medical information committee.

(A) Unchanged

(1) through (8) unchanged

(B) Each member of the medical staff shall conform to the policies established by the medical information committee, including the following:

(1) and (2) unchanged

(3) Deadlines and sanctions.

November 2, 2007 meeting, Board of Trustees

(a) through (h) unchanged

(i) Reports in the electronic signature system must be signed within ten five (5) business days of availability.

(4) through (11) unchanged

NOW THEREFORE

BE IT RESOLVED, That the above amendments are hereby adopted.

NAMING OF HAWK'S NEST CLUBHOUSE AT OHIO STATE ATI

Resolution No. 2008-42

Synopsis: Naming the Clubhouse at Hawk's Nest at Ohio State ATI, located at 2800 East Pleasant Home Road, Creston, OH, in honor of Betty J. Hawkins, is proposed.

WHEREAS Betty J. Hawkins had her lifetime love of golf realized in the construction of Hawk's Nest golf course, which became a top-tiered golf course recognized statewide and nationally and is highly ranked by *Golf Digest*; and

WHEREAS Mrs. Hawkins worked tirelessly on the design, construction and operation of Hawk's Nest prior to and after its opening in 1993; and

WHEREAS she was the primary visionary in the creation of Hawk's Nest and was instrumental in the donation of the course to The Ohio State University Agricultural Technical Institute, and as such, the University would like to recognize and honor her contributions by naming the Clubhouse for her; and

WHEREAS this gift is the largest donation to date to the Agricultural Technical Institute (ATI) and will serve the educational and research interests of the students and faculty of ATI:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees, as set forth in paragraph (F) of rule 3335-1-08 of the Administrative Code, approves that the naming of the aforementioned Clubhouse shall be the "Betty J. Hawkins Clubhouse" at Hawk's Nest at Ohio State ATI, effective immediately.

PERSONNEL ACTIONS

Resolution No. 2008-43

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the September 21, 2007 meeting of the Board, including the following Appointments/Reappointments, Concurrent Appointment, Appointment of Chairpersons, Leave of Absence without Salary - Change in Dates, Professional Improvement Leaves, Professional Improvement Leave - Change in Dates, and Emeritus Titles, be approved.

Appointments

Name: JOSEPH A. ALUTTO
Title: Executive Vice President and Provost
Office: Academic Affairs
Effective: October 1, 2007 through June 30, 2011

November 2, 2007 meeting, Board of Trustees

Name: WILLIAM A. BAESLACK III
Title: Executive Dean
College: Professional Colleges
Term: October 1, 2007 through June 30, 2010

Name: MARTHA BELURY
Title: Associate Professor (The Carol S. Kennedy Professorship in Human Nutrition)
College: Education and Human Ecology
Term: October 1, 2007 through September 30, 2010

Name: ELLEN E. DEASON
Title: Professor (The Joanne Wharton Murphy/Classes of 1965 and 1973 Professorship of Law)
College: The Michael E. Moritz College of Law
Term: August 1, 2007 through July 31, 2017

Name: JEFF M.S. KAPLAN
Title: Vice President for Business Development and Collaborative Advancement at the Medical Center/Interim Vice President for University Development/Special Assistant to the President
College/Office: Medicine/Development/President
Effective: October 1, 2007

Name: EHUD MENDEL
Title: Professor (The Justine Skestos Chair in Minimally Invasive Neurological Spinal Surgery)
College: Medicine
Term: September 1, 2007 through June 30, 2011

Name: SANDRA A. STROOT
Title: Interim Dean
College: Education and Human Ecology
Effective: January 1, 2008 through December 31, 2008

Name: DONGPING ZHONG
Title: Associate Professor (The Robert Smith Endowed Professorship in Physics)
College: Mathematical and Physical Sciences
Term: October 1, 2007 through September 30, 2012

Reappointments

Name: RUSSELL H. FAZIO
Title: Professor (The Harold E. Burt Chair in Psychology)
College: Social and Behavioral Sciences
Term: July 1, 2007 through June 30, 2012

Name: THOMAS W. JOHNSON
Title: Interim University Treasurer
Office: Business and Finance
Term: October 1, 2007 through June 30, 2008

Concurrent Appointment

Name: ANN M. PENDLETON-JULLIAN
Title: Professor (The Walter H. Kidd Designated Professorship)
School: Knowlton School of Architecture
Term: July 1, 2007 through June 30, 2011
Concurrent Title: Director, Knowlton School of Architecture

November 2, 2007 meeting, Board of Trustees

Appointment of Chairpersons

ROBERT R. BAHNSON, Department of Urology, effective November 1, 2006 through June 30, 2010.

CHRISTOPHER M. HADAD*, Department of Chemistry, effective October 1, 2007 through September 30, 2008.

**Interim*

Leave of Absence without Salary - Change in Dates

GREGOR G. HOMAN, Assistant Professor, Ohio State University Extension, change leave from Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to September 1, 2007 - June 30, 2008.

Professional Improvement Leaves

SHERYL A. BARRINGER, Professor, Department of Food Science and Technology, effective Summer Quarter and Autumn Quarter 2008.

ANDREW P. GOULD, Professor, Department of Astronomy, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

THOMAS A. WAITE, Associate Professor, Department of Evolution, Ecology, and Organismal Biology, effective Winter Quarter and Spring Quarter 2008.

Professional Improvement Leave -- Change in Dates

ALLAN J. SILVERMAN, Professor, Department of Philosophy, change leave from Winter Quarter and Spring Quarter 2008, to Winter Quarter and Spring Quarter 2009.

Emeritus Titles

HOWARD M. FEDERSPIEL, Department of Political Science (Newark), with the title Professor Emeritus, effective January 1, 2008.

KENNETH A. FOLAND, School of Earth Sciences, with the title Professor Emeritus, effective November 1, 2007.

BARBARA G. LUDWIG, Ohio State University Extension, with the title Professor Emeritus, effective November 1, 2007.

LAWRENCE H. NEWCOMB, Department of Human and Community Resource Development, with the title Professor Emeritus, effective January 1, 2008.

RESOLUTIONS IN MEMORIAM

Resolution No. 2008-44

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Mary Lynne Bowman-Cowen

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 18, 2007, of Mary Lynne Bowman-Cowen, Associate Professor Emeritus in the School of Environment and Natural Resources.

November 2, 2007 meeting, Board of Trustees

Dr. Bowman-Cowen held a B.S. degree in music education, a M.A. degree in curriculum and instruction, and a Ph.D. degree in environmental education, all from The Ohio State University. She was an elementary vocal music teacher in the Upper Arlington and Westerville city school systems during the period 1958-71. Mary Lynne joined the faculty of the School of Natural Resources in January 1973 and served the University through September 1986. She was a highly-dedicated teacher and delivered outstanding courses on natural history and environmental education and interpretation while at Ohio State. She was an active member of the Ohio Nature Conservancy, the Ohio Alliance for Environmental Education, and the Ohio Academy of Science. In 1984, she was named a fellow of the Ohio Academy of Science and received a Pomerene Teaching Enhancement Award.

Dr. Bowman-Cowen was passionate about affirmative action and became a national authority on the role of minorities and women in natural resources. She worked tirelessly to instill an appreciation of nature in young people and to inform women and minority students of career opportunities in natural resource conservation. She developed strategies to enlist inner-city community involvement in natural resource programs through the St. John XIII Head Start Program and created resource materials for teachers of environmental education in urban schools. Mary Lynne worked with the Columbus Metropolitan Area Community Action Organization and spearheaded cooperative efforts between university students and inner-city residents to design and develop community enrichment projects that improved environmental quality and access to nature.

Mary Lynne was a dedicated professional, but never to the exclusion of family and friends. She will be remembered not only for her scholarship but also for her sense of humor, love of nature, great kindness, and generosity to those less fortunate.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Mary Lynne Bowman-Cowen its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

Elizabeth L. Gross

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 27, 2007, of Elizabeth L. Gross, Professor Emeritus in the Department of Biochemistry.

Professor Gross held a Bachelor of Arts degree in biophysics from the University of California-Los Angeles and a Doctor of Philosophy degree from the University of California-Berkeley, also in biophysics. She served as a postdoctoral research associate at the C.F. Kettering Research Laboratory, Yellow Springs, Ohio, for two years before joining the faculty of the Department of Biochemistry at The Ohio State University as an assistant professor in 1968. Professor Gross continued to serve admirably on the faculty for 39 years until her retirement in 2006.

Professor Gross was a dedicated instructor who taught in many areas of biology, biochemistry, and biophysics at both the undergraduate and graduate levels. She was particularly devoted to graduate education in biophysics. She served as the director and Graduate Studies chair of the Biophysics Graduate Program at The Ohio State University for 12 years, from 1990 - 2001, and continued to serve on the Graduate Studies Committee until her retirement. She was very influential in the development of this program, including its curricular and organizational structure. The program flourished under her leadership, more than doubling in size in both its faculty and students. In recognition of her many contributions, Professor Gross received the First Annual Elizabeth L. Gross Award for Faculty

November 2, 2007 meeting, Board of Trustees

Excellence from the Program in 2001. Professor Gross also maintained a strong commitment to research. Her research focused on the study of the structure and function of metalloproteins involved in photosynthetic electron transport. Using both computational and experimental approaches, she and her research team investigated in detail the interactions between these proteins and their role in this biologically essential electron transport process. These studies involved the training of 15 graduate students and six postdoctoral scientists and have led to over 85 research papers, reviews, and proceedings in highly-respected scientific journals.

Dr. Gross served her profession at the highest level. She was a long-term member of the Biophysical Society and served on its Council from 1984-87, and was on the Executive Committee of the Bioenergetics Subgroup from 1991-93. She was also a member of the American Chemical Society and the American Section of the International Solar Energy Society where she served in various capacities on its Executive Committee including as its vice-chair, chair, and secretary-treasurer. Professor Gross served on the editorial board of the journal *Plant Physiology* from 1979-82 and reviewed research manuscripts for numerous biochemical and biophysical journals.

Professor Gross was an active member of the University community and served on numerous department, college, and University committees, including the University Senate as well as on its Rules and Program Committees, the Arts and Sciences Senate and its Curriculum Committee, the Research and Graduate Council, the Research Committee, the Presidential Fellowship Committee, the Committee on Traffic and Parking and Public Safety, the College and Department Curriculum Committees, the Faculty Advisory Committee, and several others.

Dr. Gross was a committed advocate for the advancement of opportunities for women in science. She served as the chair of the Committee on Professional Opportunities for Women in the Biophysical Society. She was a member of the Association for Women in Science of Central Ohio, served as its president in 1992, and received its Outstanding Women in Science in Central Ohio award in 1989. She was a member of the Committee on Women and Minorities and served as its chair from 1986-87. She was also a member of the Steering Committee for the Council on Academic Excellence for Women from 1984-87 and served several years on the College of Biological Sciences Affirmative Action and Diversity Committees. She also was a supportive mentor to many of the women faculty members in the College.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Elizabeth L. Gross its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

Lloyd A. Horrocks

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 18, 2007, of Lloyd A. Horrocks, Professor Emeritus in the Department of Molecular and Cellular Biochemistry.

The Ohio State University lost a professor who, even in retirement, maintained a presence as a teacher/investigator who functioned admirably within the great traditions of the classic university. Cardinal Newman would have recognized him and applauded, as we who were his colleagues do.

Professor Horrocks was born in Cincinnati, where his parents were associated with the YMCA. He was raised in Ohio, being educated in the public schools of our state. He graduated from a strong liberal arts college, The Ohio Wesleyan University, and completed his military service as an officer in the Air Force assigned to a research group

November 2, 2007 meeting, Board of Trustees

at Wright Patterson AFB in Dayton. Lloyd had been assigned briefly for training at Ohio State while in the Air Force and he returned to Ohio State, completing his Ph.D. degree in 1960.

He worked as a neurochemist at the Cleveland Psychiatric Institute, spent a year as a visiting scientist in England, and returned to the Institute in Cleveland. Ohio State recruited him in the late sixties as an assistant professor who would establish a program in neurochemistry within the Department of Physiological Chemistry in the College of Medicine and this department and its successors continued as his academic home.

Horrocks was an academic. His faculty file lists innumerable comments on his service to the teaching programs in our University. Dieter Haenicke's comment to Horrocks in 1984 is an example of the recognition his contributions to key University committees received. Writing about his work beyond the call of duty, Haenicke stated, "I want to thank you personally for contributions to the principle of shared governance in our institution."

Some faculty are satisfied with an occasional lecture within an arcane subspecialty that has little to do with the canons of an academic disciple. Horrocks saw the whole canon and he made the whole canon accessible to his students. Professor Horrocks was a well-organized and efficient member of our faculty. He managed to be an effective teacher, a competent and innovative committee man, and the leader of a large and vigorous research program. Attributes such as honesty, sincerity, and quiet competence described him. He had large amounts of two qualities, courage and tenacity, and these made him a successful leader.

A revolution occurred in the field of lipid research with the introduction of gas-liquid chromatography in the early 1950's. Professor Horrocks was the first graduate student to use this methodology, and work that previously took months was now accomplished not in weeks but in days. He completed his dissertation in 1960 and moved to establish a lipid neurochemistry program in Cleveland. While there, he introduced thin-layer chromatography to his laboratory and to Ohio State. Neurochemistry is a particularly obtuse subject but new methodologies allowed him to accomplish good work in the identification and quantitative estimation of brain lipids.

Dr. Horrocks established a large and well-funded graduate program. He traveled widely, served on editorial boards, and received a Josiah Macy, Jr. Faculty Scholar Award for studies at the Centre de Neurochimie du Centre National de la Recherche Scientifique, Strasbourg, France. He became very interested in a family of unique lipids, the plasmalogens, which are concentrated in the brain and heart, and spent many years on what is an almost intractable problem, the isolation and purification of the plasmalogenases that control plasmalogen metabolism. He was aided in this work and much other research by his collaborator and good friend Dr. Akhlaq Farooqui.

Dr. Horrocks had wide interests in lipid biochemistry and he was particularly interested in omega 3 fatty acids, commonly called fish-oil fatty acids. These polyunsaturated fatty acids have several unique biologic properties and there is a long and continuing debate about their nutritional benefit. Solutions to this debate will only be achieved through epidemiology and Horrocks took it upon himself to develop foods rich in omega 3 fatty acids that might very well benefit the human diet. He was a leader in this controversial field and work here will be delayed with his passing.

Lloyd was an interesting mix, in being a political conservative and a social liberal. In this he was the converse of many faculty but he was so good-natured and so reasonable in expressing his convictions that he was a welcome member at luncheon groups dominated by his political opponents.

Lloyd and Marjorie Horrocks were highly visible and active members of King Avenue Methodist Church, well-known in the University community as a rock where inclusiveness is truly founded. His crowded memorial service was a celebration and one could not but

November 2, 2007 meeting, Board of Trustees

think about him, the scion of an old New England family living triumphantly through multiple surgeries.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Lloyd A. Horrocks its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Steve D. Ruhl

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 1, 2007, of Steve D. Ruhl, Associate Professor in the Ohio State University Extension.

Mr. Ruhl was born August 16, 1954, in Galion, Ohio. He was in the Combined Honors Program and received his Bachelor of Science in Agriculture and Master of Science degrees in 1976 from The Ohio State University.

Steve began his Extension career in Ohio in February 1983 as the county agent-Agriculture in Morrow County. In June 2005, in addition to his Morrow County responsibilities, he began work in Marion County as the extension educator-Agriculture. He also served as the county director/administrative leader for the Morrow County office.

Professor Ruhl's many, many contributions in providing Extension educational programs during his career proved that he was a truly dedicated teacher for Extension. He was regarded as an outstanding educator and was ranked in the top 5% of Extension professionals throughout the United States.

The area of agronomic crop production was one of his primary focus points for the citizens of Morrow and Marion Counties. He also worked with livestock production as well as general agriculture programming. Mr. Ruhl was recognized as being the first in Ohio Extension to conduct livestock environmental assurance programs to certify livestock producers. This became a protocol for the entire state. He was awarded the National Livestock Products Education Award by the National Association of County Agricultural Agents in 1994, and was awarded the Distinguished Service Award from this same organization. He served on the agronomic crops, swine, and dairy teams for Extension. He also served on the panel of experts at the National Pork Producers Council program at the World Pork Expo in the mid 1990's.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Steve D. Ruhl its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Marlin O. Thurston

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 18, 2007 of Marlin O. Thurston, Professor Emeritus in the Department of Electrical and Computer Engineering.

Professor Thurston received his Bachelor of Science and Master of Science degrees in physics from the University of Colorado in 1940 and 1946, respectively. He earned his Ph.D. degree in electrical engineering from The Ohio State University in 1955. From 1946-52, Professor Thurston served as a faculty member and acting head of the Electrical Engineering Department at the U.S. Air Force Institute of Technology in

November 2, 2007 meeting, Board of Trustees

Dayton, Ohio. He joined the faculty in OSU's Department of Electrical Engineering in 1955 as an associate professor and was promoted to professor in 1959. He served as chairperson of the Department from 1965-77. From 1974 until his retirement in 1982, he held the Robert M. Critchfield Professorship in Engineering "in recognition of his outstanding achievements as teacher, administrator, researcher, and consultant to industry and government."

During his academic career, Professor Thurston was a specialist in semiconductor and solid-state electronics. His research work won wide recognition including him being named a fellow by the Institute of Electrical and Electronics Engineers (IEEE). He was also an excellent teacher, consistently rated near the top in the Department by his students. As the department chairperson, research activities reached a high level of excellence, and the department became one of the top rated departments in the nation.

After retiring from OSU, Professor Thurston began working with Dr. Edward Martin, Jr., a cancer surgeon in OSU's Division of Surgical Oncology, on an electronic device to help surgeons detect cancerous tumors. This work led to him being named as "Inventor of the Year Finalist" in 1989 by the Intellectual Property Owners Foundation and being given the Central Ohio Technical Achievement Award in 1991. He also received the highest award given to an alumnus of the OSU College of Engineering in 1991: the Benjamin G. Lamme Gold Medal for Meritorious Achievement in Engineering.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Marlin O. Thurston its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

D. Ransom Whitney

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 16, 2007, of D. Ransom Whitney, Professor Emeritus in the Department of Statistics.

Professor Whitney held a B.A. degree from Oberlin College, an M.A. degree in mathematics from Princeton University, and a Ph.D. degree in mathematics from The Ohio State University. After graduating from Princeton, he began his teaching career at Mary Washington College and then joined the U.S. Navy, serving from 1942-46. While in the Navy he taught celestial navigation at Princeton, trained at Bell Labs, and served on the U.S.S. Atlanta in the Pacific.

Upon discharge from the Navy, he came to Ohio State, received his Ph.D. degree in 1946, and immediately joined the Department of Mathematics faculty. There he established a working relationship with Professor H. B. Mann and, together in 1947, they published their world-famous paper introducing the Mann-Whitney U Statistic. It soon became the most widely used nonparametric two-sample test procedure in the field of statistics.

While in the Mathematics Department he served as acting chairperson during a difficult time for the department, and he was instrumental in convincing the University to act to reverse the fortunes of the department. At that time he also led the planning committee for the "new" mathematics building. By 1970 he had gathered together a critical mass of faculty in mathematical statistics, and they had established a full range of statistics courses as well as a graduate degree program. The group then separated from Mathematics to form a division and later a Department of Statistics in 1974. He served as chairperson of the Department of Statistics for its first eight years and continued in the department until retirement. In his tenure in the Mathematics and Statistics Departments he directed many Ph.D. students and well over 100 master's students.

November 2, 2007 meeting, Board of Trustees

He always believed that statistics was an applied branch of mathematics designed to help scientists in their research. Thus, in his first years at Ohio State, he established the Statistics Laboratory to provide consultation and assistance to faculty and students throughout the University. He personally assisted hundreds of scientists in many departments and colleges over the years. He published dozens of papers with them and became widely known and respected by faculty colleagues. Moreover, by his example and under his direction, Statistics faculty have similarly served in the Statistics Lab. Perhaps equally important was his belief that statistics should be taught to be used, and over the years the Stat Lab has been the vehicle for providing graduate students in the department with an apprenticeship experience in consulting under faculty guidance. As a result, they have done very well in both the corporate and University job markets. It is notable that he did this while teaching a full load, including developing over a dozen new courses, and serving on numerous committees at all levels of the University.

He served as a consultant to a number of corporations, especially testifying as an expert witness in utility rate cases. He was author or coauthor of three textbooks in mathematics and statistics. In the mid-1950s he and Mathematics Professors Roy Reeves and Leslie Miller founded the Numerical Computation Lab, which was the precursor of the Academic Computing Center. Professor Whitney was a member of several mathematics and statistics societies. He was named a fellow in both the American Statistical Association and the American Association for the Advancement of Science.

He left a broad legacy in the wider University community as well. He served as president of the Faculty Club and initiated both the Tertullian breakfasts and the original Lunch Bunch. These efforts, and many of his other activities, were in keeping with his deeply held belief that the role of university professors extended beyond the boundaries of the department and college, and that the best way for good things to happen was to promote collegiality across the university at the personal level by informal associations. In later years he and several colleagues spearheaded the creation of OSURA, the retirement association for University faculty and staff. He served as its first president and helped lead it to the active organization of 2,800 members that it is today.

He retired in 1982 and received the University Distinguished Service Award in recognition of his many contributions to The Ohio State University. He remained active in the Department of Statistics and other campus organizations for many years after his retirement.

On behalf of the University community, the Board of Trustees expresses to the family of Professor D. Ransom Whitney its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2008-45

Synopsis: The University Development Report for September 2007 is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

November 2, 2007 meeting, Board of Trustees

WHEREAS this report includes the establishment of nine (9) new named endowed funds and the revision of three (3) endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of September 2007 be approved.

(See Appendix XVIII for background information, page 533.)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Change in Description of Named Endowed Fund

The Rho Pi Phi Scholarship Fund in Pharmacy

THE OHIO STATE UNIVERSITY FOUNDATION

<u>Establishment of Named Endowed Funds</u>	Total <u>Gifts</u>
Dr. Basil D. Ward Family Scholarship Fund Established with gifts from the estate of Dr. Basil D. Ward and Mary E. Ward; used to provide scholarships for students who intend to practice food animal medicine	\$106,021.75
The Raymond E. Mason Logistics Fund Established with a gift from The Raymond E. Mason Foundation; used to support the activities of the logistics program in the Fisher College of Business	\$100,000.00
The Erlene and Donald Wolfe Athletic Scholarship Fund Established with a gift from Janice E. Wolfe in memory of her parents; used to fund a student-athlete who is pursuing a degree at OSU and is a member of the women's basketball team	\$100,000.00
John M. Bennett Avant Writing Collection Endowment Fund Established with gifts from Dr. John M. Bennett; used to support OSU Library's Avant Writing Collection for the purchase and maintenance of materials	\$52,254.10
The Gene F. Shrum DDS 1947 and Edith (Dee Dee) Shrum Wacksman DHY 1967 Dental Scholarship Fund Established with a gift from Edith Shrum Wacksman in memory of her father; used to provide two scholarships to be split equally between the Dental Hygiene and the pre-doctoral programs in the College of Dentistry	\$50,076.28
The Joseph M. and Marlene Y. Berwanger Men's Lacrosse Scholarship Fund Established with a gift from Joseph M. Berwanger and Marlene Y. Berwanger; used to supplement the grant-in-aid scholarship costs of student-athletes who are pursuing degrees at OSU and are members of the men's lacrosse team	\$50,050.00

November 2, 2007 meeting, Board of Trustees

The Henry G. Croci and Suzanne D. Croci Resident Education Fund in Ophthalmology \$50,000.00
Established with gifts from Dr. Henry G. Croci and Suzanne D. Croci; used to support the education and training of medical residents in the Department of Ophthalmology

The Physical Therapy Alumni Legacy Scholarship Fund \$27,365.00
Established with gifts from alumni and friends of the Division of Physical Therapy; used to support scholarships for graduate students enrolled in the Division of Physical Therapy in the School of Allied Medical Professions (grandfathered)

The Katherine C. Jones Memorial Scholarship Fund \$25,000.00
Established with gifts from Laura Jones Dean in memory of her sister; used to provide scholarship support to students in the Moritz College of Law with preference given to students with a physical disability or students who have made a significant contribution to the rights or protection of individuals with physical disabilities (grandfathered)

Change in Description of Named Endowed Fund

The Edwin L. and Mary Jane Overmyer Scholarship Fund

Change in Name and Description of Named Endowed Fund

From: The Raul A. Hernandez, Jr., M.D. Nephrology and Critical Care Medicine Fellowship Fund

To: Hernandez Nephrology Fellowship Research Fund at The Ohio State University College of Medicine

Total \$560,767.13

Change in Description of Named Endowed Fund

The Rho Pi Phi Scholarship Fund in Pharmacy

The Rho Pi Phi Scholarship Fund in Pharmacy was established May 4, 1989, by the Board of Trustees of The Ohio State University with gifts from the Cleveland Chapter of Rho Pi Phi Fraternity. The description was revised November 2, 2007.

The annual distribution from this fund shall be used to provide scholarships, awards, or professional activities for students with particular attention to need-based underrepresented groups in the pharmacy profession. Expenditures shall be approved by the dean of the College of Pharmacy. Scholarships shall be awarded in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Pharmacy. Any such alternate distributions

November 2, 2007 meeting, Board of Trustees

shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Establishment of Named Endowed Funds

Dr. Basil D. Ward Family Scholarship Fund

The Dr. Basil D. Ward Family Scholarship Fund was established November 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Dr. Basil D. Ward (D.V.M. 1949) and Mary E. Ward (B.S. 1950) of Gallatin, Tennessee.

The annual distribution from this fund shall provide a scholarship for a student who intends to practice food animal medicine. First preference should be given to students from Butler, Preble, or Warren Counties in Ohio. The scholarship recipient shall be selected by the dean of the College of Veterinary Medicine in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$106,021.75

The Raymond E. Mason Logistics Fund

The Raymond E. Mason Logistics Fund was established November 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from The Raymond E. Mason Foundation.

The annual distribution from this fund shall be used by the dean of The Max M. Fisher College of Business to support the activities of the logistics program in consultation with the logistics faculty.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$100,000.00

November 2, 2007 meeting, Board of Trustees

The Erline and Donald Wolfe Athletic Scholarship Fund

The Erline and Donald Wolfe Athletic Scholarship Fund was established November 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Janice E. Wolfe (J.D. 1964) from Groveport, Ohio, in memory of her parents, Erline and Donald Wolfe.

The annual distribution from this fund shall be used to fund a student-athlete who is pursuing a degree at The Ohio State University and is a member of the women's basketball team. The scholarship recipient must be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$100,000.00

John M. Bennett Avant Writing Collection Endowment Fund

The John M. Bennett Avant Writing Collection Endowment Fund was established November 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. John M. Bennett.

The mission of the Avant Writing Collection (AWC) is to collect, archive, and make available a largely hidden, but extremely important, body of literature for future generations. The collection focuses on a group of primarily (but not exclusively) North American writers, most of whom are not associated with prevailing literary or institutional establishments due to the unique nature of their writing. The primary focus of these writers is poetry and visual poetry, but their works also include experimental writing, visual arts, photography, sound art, music, performance, conceptual art, mail art, photography, sound art, and artists' books.

The annual distribution from this fund shall support The Ohio State University Library's Avant Writing Collection for the purchase and maintenance of materials with priority given to sub-collections within the AWC. These sub-collections include, but are not limited to, works by, about, and relevant to the following writers and artists: John M. Bennett, Allen Bramhall, Jon Cone, K.S. Ernst, Scott Helmes, Paul Lambert, Jim Leftwich, Scott MacLeod, Sheila E. Murphy, F.A. Nettelbeck, Marilyn R. Rosenberg, and Thomas L. Taylor. Expenditures shall be approved by the director of the University Libraries in consultation with the curator of the Avant Writing Collection.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide

November 2, 2007 meeting, Board of Trustees

unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the University Libraries. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$52,254.10

**The Gene F. Shrum DDS 1947 and Edith (Dee Dee) Shrum Wacksman
DHY 1967 Dental Scholarship Fund**

The Gene F. Shrum DDS 1947 and Edith (Dee Dee) Shrum Wacksman DHY 1967 Dental Scholarship Fund was established November 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Edith (Dee Dee) Shrum Wacksman (B.S.Ed. 1968) of Essexville, Michigan, in memory of her father, Dr. Gene F. Shrum.

The annual distribution from this fund shall be used to provide two scholarships to be split equally between the dental hygiene and the pre-doctoral programs in the College of Dentistry. Scholarship recipients will be selected by the dean of the College of Dentistry in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Dentistry. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Needed to Establish Endowment: \$50,076.28

The Joseph M. and Marlene Y. Berwanger Men's Lacrosse Scholarship Fund

The Joseph M. and Marlene Y. Berwanger Men's Lacrosse Scholarship Fund was established November 2, 2007, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Joseph M. Berwanger (B.A. 1960) and Marlene Y. Berwanger (B.S.Ed. 1961).

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of two student-athletes who are pursuing degrees at The Ohio State University and are members of the men's lacrosse team. Scholarship recipients must be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

November 2, 2007 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to prove unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,050.00

**The Henry G. Croci and Suzanne D. Croci
Resident Education Fund in Ophthalmology**

The Henry G. Croci and Suzanne D. Croci Resident Education Fund in Ophthalmology was established November 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Dr. Henry G. Croci (M.D. 1965) and Suzanne D. Croci (B.S.Nurs. 1962, M.S. 1963), of Savannah, Georgia.

The annual distribution from this fund shall be used to support the education and training of medical residents in the Department of Ophthalmology. Allocation of funds shall be approved by the chairperson of the Department of Ophthalmology, the senior vice president for Health Sciences, and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist, or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of Ophthalmology in consultation with the senior vice president for Health Sciences and dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Physical Therapy Alumni Legacy Scholarship Fund

The Physical Therapy Alumni Legacy Scholarship Fund was established November 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from alumni and friends of the Division of Physical Therapy.

The annual distribution of this fund shall be used to support scholarships for graduate students enrolled in the Division of Physical Therapy in the School of Allied Medical Professions. The selection of the recipients of The Physical Therapy Alumni Legacy Scholarship Fund shall be made based on academic merit and/or financial need. Recipients shall be selected at the recommendation of the director of the Division of Physical Therapy in consultation with the University's Office of Student Financial Aid, the dean of the College of Medicine and the College's Student Financial Services.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

November 2, 2007 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist, or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the School of Allied Medical Professions and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$27,365.00 (grandfathered)

The Katherine C. Jones Memorial Scholarship Fund

The Katherine C. Jones Memorial Scholarship Fund was established November 2, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Laura Jones Dean in memory of her sister, Katherine C. Jones (B.A. 1984, J.D. 1987).

The annual distribution from this fund shall provide scholarship support to a student in The Michael E. Moritz College of Law with preference given to a student with a physical disability or a student who has made a significant contribution to the rights or protection of individuals with physical disabilities. Scholarship recipients shall be selected by the dean of the Moritz College of Law in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

Change in Description of Named Endowed Fund

The Edwin L. and Mary Jane Overmyer Scholarship Fund

The Edwin L. and Mary Jane Overmyer Scholarship Fund was established September 23, 2005, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Edwin L. (B.S.Agr. 1961) and Mary Jane Overmyer, of Columbus, Ohio. The description was revised November 2, 2007.

The annual distribution from this fund shall provide scholarship support to undergraduate students in The Max M. Fisher College of Business who demonstrate outstanding leadership skills. Preference will be given to students whose grade point average does not exceed 3.2 on a 4.0 scale. It is the donors' intent that the student has clearly demonstrated leadership while being a student at The Ohio State University. Scholarship recipients shall be selected by the dean of the Fisher College of Business in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of

November 2, 2007 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Change in Name and Description of Named Endowed Fund

**Hernandez Nephrology Fellowship Research Fund
at The Ohio State University College of Medicine**

The Raul A. Hernandez, Jr., M.D. Nephrology and Critical Care Medicine Fellowship Fund was established July 12, 2002, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Raul A. Hernandez (B.S.Bus.Adm. 1983, M.D. 1989, Internal Medicine Residency 1992, and Nephrology Fellowship 1992-94) and Constance McCourry Hernandez (B.S.Nurs. 1989), of Nashport, Ohio. The name and description were revised November 2, 2007.

The annual distribution from this fund shall be used to provide support for fellows' academic and clinical research development in the Division of Nephrology in the Department of Internal Medicine. Distribution shall be made at the recommendation of the director of the Division of Nephrology in consultation with the chairperson of the Department of Internal Medicine, the senior vice president for health sciences, and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Division of Nephrology, the chairperson of the Department of Internal Medicine, the senior vice president for health sciences, and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

**AMENDMENTS TO THE CODE OF REGULATIONS OF THE OHIO STATE
UNIVERSITY MANAGED HEALTH CARE SYSTEMS, INC.**

Resolution No. 2008-46

Synopsis: Approval is requested for amendment to the *Code of Regulations of The Ohio State University Managed Health Care Systems, Inc.*

WHEREAS, Managed Health Care Systems, Inc. (MHCS), an entity affiliated with The Ohio State University, is providing leadership on a new approach to health care plans for the University, referred to as *Your Plan for Health*, in partnership with the University Office of Human Resources and the University Medical Center; and

November 2, 2007 meeting, Board of Trustees

WHEREAS Managed Health Care Systems is being positioned to develop and offer innovative products and services to new customers in addition to University faculty, staff, and students; and

WHEREAS MHCS recently undertook a review of its *Code of Regulations*, and the Board of Directors of MHCS approved the attached revisions to the Regulations, subject to approval by the University's Board of Trustees, as provided for in the MHCS Regulations; and

WHEREAS the proposed changes in the *Code of Regulations* are intended to expand the membership and expertise of the Board of Directors and clarify the staff structure and Board governance in ways appropriate to the future direction of the corporation:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby approves the proposed amendments to the Code of Regulations of The Ohio State University Managed Health Care Systems, Inc., as shown in the attached document, effective immediately.

(See Appendix XIX for background information, page 536.)

**AUTHORIZATION FOR THE IMPLEMENTATION OF ADMINISTRATIVE
RULES MODERNIZING THE UNIVERSITY'S CLASSIFIED CIVIL SERVICE**

Resolution No. 2008-47

Synopsis: Authorization for the Office of Human Resources to review and make recommendations to the Board of Trustees regarding the implementation of administrative rules modernizing the laws, rules, and regulations governing the University's Civil Service employees is proposed.

WHEREAS the 126TH Ohio General Assembly enacted and Governor Taft signed into law Sub. H.B. 187, revising many of the laws governing Ohio's civil service employees; and

WHEREAS Sub. H.B. 187 grants to the Board of Trustees of each four-year public college and university, including The Ohio State University, the authority to enact their own administrative rules for the purpose of modernizing the laws, rules, and regulations governing certain aspects of the employment of our classified civil service staff; and

WHEREAS The Ohio State University Board of Trustees hereby delegates to the Office of Human Resources and our Appointing Authority the authority to review, research, develop and make periodic recommendations to the Board, in accordance with Sub. H.B. 187, regarding the enactment of new administrative rules governing certain aspects of the employment of our classified civil service staff:

NOW THEREFORE

BE IT RESOLVED, That the Office of Human Resources and our Appointing Authority, in consultation with the Office of Legal Affairs, shall conduct an ongoing review of those civil service laws, rules, regulations, policies and procedures governing our classified civil service staff and will then on a case by case basis recommend that the Board make appropriate changes and updates to such after consultation with administration, management, and staff.

BE IT FURTHER RESOLVED, The Ohio State University commits to carrying out this charge of modernizing the laws, rules, policies, and procedures governing our classified civil service staff in a controlled and incremental manner. We will continue to consult with

November 2, 2007 meeting, Board of Trustees

bargaining unit representatives, the University Staff Advisory Committee, and staff in general, so they may have a voice in this process.

BE IT FURTHER RESOLVED, The Ohio State University shall continue to follow existing laws, rules, policies, and regulations until such time that the Board elects to implement rule changes pursuant to Section 111.15 of the Ohio Revised Code in accordance with Sub. H.B. 187.

(See Appendix XX for background information, page 549.)

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following projects:

Arena Steam Line Relocation (N/A)	\$0.5M	Central funds
Arps Hall - Suites 283, 287, and 288 Renovation (N/A)	\$0.3M	Department general funds
Baker Systems Engineering Roof Replacement (05-06 Basic Renovation request)	\$0.5M	State funds
Campbell Hall - First Floor Suite Renovations (N/A)	\$0.2M	Department general funds
Fawcett Center for Tomorrow - Fire Alarm System Upgrade (N/A)	\$0.2M	Auxiliary funds
Ramseyer Hall - Second Floor Suites Renovation (N/A)	\$0.2M	Department general funds
12th Ave, 395 W - Communications Systems Upgrades (N/A)	\$0.9M	Auxiliary funds

WHEREAS in accordance with the attached materials, the University desires to increase the construction contracts for the following projects:

Veterinary Hospital Air Handling Unit Replacement (05-06 Basic Renovation request)	\$2.4M	State funds Repair & Renovation funds
Women's Softball Stadium (05-06 capital request)	\$7.2M	Line of Credit Auxiliary funds Development funds

November 2, 2007 meeting, Board of Trustees

** Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project, renovation projects funded by internal office or department funds that are noted as "N/A" have not had separate capital project authorization because of their small size or because they arose unexpectedly between capital planning cycles.*

NOW THEREFORE

BE IT RESOLVED that the President and/or Senior Vice President for Business and Finance be authorized to enter into a feasibility study contract, design and construction contracts, and to increase construction contracts for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix XXI for background information, page 550.)

EASEMENTS

Resolution No. 2008-49

OHIO POWER COMPANY
THE OHIO STATE UNIVERSITY, NEWARK REGIONAL CAMPUS
NEWARK, OHIO

Synopsis: Authorization to grant Ohio Power Company three easements to extend an electric power line and provide electric utility service to The Ohio State University, Newark Regional Campus, is proposed.

WHEREAS Ohio Power Company has requested a 10 foot wide by 743 and 15/100 foot long easement from a transformer on campus to Lefevre Hall for a term of 25 years; and

WHEREAS Ohio Power Company has requested a 10 foot wide by 721 and 25/100 foot long easement from a transformer adjacent to Adena Hall to a transformer adjacent to the Reese Center for a term of 25 years; and

WHEREAS Ohio Power Company has requested a 10 foot wide by 207 and 25/100 foot long easement from an existing easement line at the library currently under construction for a term of 25 years; and

WHEREAS the appropriate University offices have determined that the granting of these easements is in the best interest of the University;

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve and the Ohio Department of Administrative Services be authorized to process appropriate documents and grant these easements to Ohio Power Company upon such terms and conditions as are in the best interest of the University.

(See Appendix XXII for background information, page 573.)

ACCEPTANCE OF THE REPORT OF AUDIT FOR 2006-2007

Resolution No. 2008-50

Synopsis: The report of the audit of the financial statements for The Ohio State University for 2006-2007 conducted by Deloitte & Touche is recommended for acceptance.

November 2, 2007 meeting, Board of Trustees

WHEREAS with the approval of the Auditor of State, The Ohio State University entered into a five-year agreement with Deloitte & Touche in 2006 for an annual audit of the University for fiscal years 2005-2006 through 2009-10; and

WHEREAS the Deloitte & Touche audit of the University for 2006-2007, meeting the requirements of the Auditor of State, has been received and the accounts, records, files, and reports of the University have been found to be in satisfactory condition, and certain constructive service comments have been discussed with the Audit Committee; and appropriate procedures and responses are being developed as a result of these comments:

NOW THEREFORE

BE IT RESOLVED, That the report of the Deloitte & Touche audit for The Ohio State University for 2006-2007, including the report on the audit of the University's financial statements and the summary of constructive service comments to management, be accepted.

Upon motion of Mrs. Davidson, seconded by Mr. Hicks, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Davidson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, and Marbley.

**WAIVERS OF COMPETITIVE BIDDING
REQUIREMENTS (JULY - SEPTEMBER 2007)**

Resolution No. 2008-51

Synopsis: Acceptance of the quarterly report on waivers of competitive bidding requirements is proposed.

WHEREAS the Purchasing Policy of The Ohio State University adopted by the Board of Trustees on September 7, 1984, and revised on February 7, 1992, July 8, 1994, November 7, 1997, and March 1, 2002 provides that the President and/or the Senior Vice President for Business and Finance, or for the Hospitals of the University and their related facilities, the Vice President for Health Services, may grant a waiver from competitive bidding in the event of an emergency, when a sufficient economic reason exists or when the goods or services can be purchased from only a single source, with a report on such waivers to be made quarterly to this Board; and

WHEREAS the Senior Vice President for Business and Finance has submitted a report on waivers of competitive bidding requirements granted for the period of July - September 2007; and

WHEREAS during the period covered, the Senior Vice President for Business and Finance, at the requests of the departments making the purchases and upon the recommendation of the Purchasing Department, granted 122 waivers of competitive bidding requirements for annual purchases totaling approximately \$24,176,606 as shown on the enclosed exhibit; and

WHEREAS during the period covered, the Vice President for Health Services, at the requests of the Hospitals of the University and their related facilities making purchases, granted 70 waivers of competitive bidding requirements for annual purchases totaling approximately \$30,808,976 as shown on the enclosed exhibit:

NOW THEREFORE

BE IT RESOLVED, That the report on waivers of competitive bidding requirements for the period of July - September 2007, is hereby accepted.

November 2, 2007 meeting, Board of Trustees

Upon motion of Mr. McFerson, seconded by Mrs. Davidson, the Board of Trustees adopted the foregoing resolution with eleven affirmative votes cast by Trustees Hendricks, McFerson, Davidson, Ong, Borrer, O'Dell, Shumate, Hicks, Fisher, Brass, and Marbley, and three abstentions cast by Trustees Cloyd, Wexner, and Schottenstein.

(See Appendix XXIII for background information, page 576.)

EASEMENT

Resolution No. 2008-52

TIME WARNER TELECOM OF OHIO, L.L.C.
WOSU TOWER - 350 W. DODRIDGE ST., COLUMBUS, OHIO

Synopsis: Authorization to grant Time Warner Telecom of Ohio, L.L.C. an easement at the WOSU Radio Tower site at 350 W. Dodridge St., Columbus, Ohio to install and provide fiber optic service to United Television Partners, LLC, as required by the terms of the tower space rental agreement between the University and United Television Partners, L.L.C. is proposed.

WHEREAS Time Warner Telecom of Ohio, L.L.C. has requested a 5 foot wide by approximately 344 foot long easement area to run optic fiber cable lines into the tower site, for a term of 25 years, for consideration of \$1,000.00; and

WHEREAS this easement will satisfy the obligation of the University under the tower rental agreement. The appropriate University offices have determined that the granting of this easement is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve and the Ohio Department of Administrative Services be authorized to process appropriate documents and grant this easement to Time Warner Telecom of Ohio, L.L.C., upon such terms and conditions as are in the best interest of the University.

Upon motion of Amb. Ong, seconded by Ms. Hendricks, the Board of Trustees adopted the foregoing resolution with thirteen affirmative votes cast by Trustees Cloyd, Hendricks, McFerson, Davidson, Ong, Borrer, Wexner, O'Dell, Shumate, Fisher, Schottenstein, Brass, and Marbley, and one abstention cast by Trustee Hicks.

(See Appendix XXIV for background information, page 584.)

UPDATE ON THE MEDICAL CENTER MASTER FACILITIES PLAN

Mr. Shkurti:

This is the fourth update in a series of reports on the Medical Center Master Facilities Plan since last June and this particular report is a follow-up to the report on September 21. I want to stress that even though I am the spokesman, this is really a team effort that involves Chip Souba, Dave Schuller, Pete Geier, Chris Culley, and myself as the members of the executive sponsors that are reviewing this plan.

There were five issues that I highlighted last month that we would come back to and I will follow those in order. The first two issues involve the key attributes both generally and financially and they are in your books as Attachment A. The Attachment A is the

same as last month, because we are now in alignment, and I am speaking on behalf of all five of us, as to the critical attributes of this project. Although that is an important step in going forward it is not a declaration of victory, but simply a consensus on what we feel the important features are. There is still a lot of hard work and tough decisions to be made, but at least we are moving forward in that direction.

The third issue involves the second group of items regarding the project management structure. With guidance we received from the Board previously, we are in agreement on the importance, because of the size and complexity of this project, in having a specific management structure. We have given this a lot of thought and discussion, and some of that is summarized in the documents you have. Most of them are still marked "DRAFT," because our own thinking is evolving on this.

The fourth issue to highlight is the philosophy statement, Attachment B-1, which reflects what our thinking is at this time. There are two points that I would like to highlight. The first point: we have concluded that as important as the facilities and construction management of this project is, because it is a construction project, that can't be the sole focus of the program manager or of us as University leadership. The inter-relationship between the construction, the finances in the Medical Center, and the patient care all have to be carefully managed. For example, you can have a great construction project, but if the lay down and the construction schedule is such as it interferes with the ability of patients and/or the physicians and staff to easily get in and out of the facilities then we are shooting ourselves in the foot. So we need to be very careful that all of the processes involved, not just construction, but an alignment of patient-care, etc., are aligned. We also need someone specifically assigned to this project to make sure that happens and somebody that understands how hospitals work and need to operate, as well as understand its construction.

The second point was originally highlighted in the Deloitte report. The issue of making it clear who is the decider if there are any disagreements. The document makes clear that in the event of a disagreement the ultimate decider will be the president. I think that is consistent with the discussion earlier about the philosophy of the Board's governance structure. This doesn't mean that there is not room for descent and honest disagreement, because there has to be in a project this big. This does mean that once that is done, the decision is made, and we are ready to go forward to construction that lack of alignment is not an option. That deals with one of the issues that was highlighted in the Deloitte report and we are all committed to that.

Issue five is a work list of various issues that need to be addressed as part of this project, which is Attachment B-2. The reason we have included this list is to give you a sense of the complexity of this project and there are a number of important tough issues listed. Again, it gets back to the point that the program manager has to be able to pull all of that together, make sure all of those decisions are in the right sequence, and reinforce each other rather than conflict with each other for this project to be successful.

Attachment B-3 is a new one and talks about the possibility of an interim program director. You may ask why that surfaced. One of the things we are finding is that when we talk to people that are familiar with what is going on in the health care industry, there is a lot of construction going on throughout the country and in this area as well. The people that are experienced with these kinds of big projects are in high-demand and short supply, so to get the right person may take some months. We are not prejudging that, but we need to be prepared for that potentiality. At the same time, our Medical Center and Health System is in a very competitive market locally and nationally. While we are waiting to find the right program manager we can't afford to just sit in the water like a dead whale, we need to be able to move forward in a very thoughtful and careful way. So we have to leave open the option of an interim program manager, if that becomes necessary. What we have said is if it becomes necessary and we do that, we want to have some overlap between the interim person and the

November 2, 2007 meeting, Board of Trustees

permanent person, so there is no slippage. We are just raising that issue. We will have a better sense of where the market is once we pick a search firm and go through the actual process.

The next combination of items is the next five steps, including time sensitive projects, listed in Attachment C. Step one is to come back to you at the December Board meeting with an agreed upon vision we have of what the project will look like in broad conceptual terms of its next steps and to be in alignment. Again, that is an important step going forward.

The second step is to give you a progress update on the Executive Program Director and whether or not we are going to need an interim director. We hope to do this at the December Board meeting.

The third step to bring to your attention is the two emerging issues and one involves the ambulatory care plan. As complete as it is, if you go back through the Deloitte report it isn't 100% clear about where they came down on the issue of the ambulatory care plan for the University. I've talked with Deloitte and they agree and are writing us some supplemental information. So you will have the benefit of their thinking, as well as ours, on the next steps regarding ambulatory care, which is an important part of this project.

The second emerging issue is a gap strategy, which refers to inpatient beds. We are at capacity now and are running into shortages in some areas. No matter how well this project goes forward these additional beds won't be available to open up until 2014. The question is what do you do in the interim? The Medical Center staff is looking at options and we will share that with you at the December meeting.

The fourth step is that we may - and I stress the word "may," because a decision hasn't been made yet - request authority from the President and the Board to move forward in possibly three targeted areas. One would be projects that we would define as low risk, but high benefit. I would call those "enabling projects" and they are listed in Attachment D. I won't go through all of those, but if you want to be informed on something you might not be familiar with you can read about what an oxygen tank farm is. Although it has an odd name, it is important. This is simply asking for authorization to move projects to design, not construction. We can get the design work started now on projects that we know have to be done, so once we make a decision on which way to go, and when and where, we are able to move quickly instead of being put further behind.

The second item might be some additional consulting expertise. We have had quite a bit of consulting expertise up to now and there are some specific areas where we may need some additional authorization. For example, in doing cost estimates on a revised project we will have some thoughts about that.

The third area is the ambulatory care area. If we think we need to move forward - if there are sites available and we don't move forward those sites may go away or be snapped up by competitors -- we think you should know that. Again, we will not bring these forward unless we are convinced that we are comfortable and that these make sense and are good decisions, but we wanted to put that up on the table.

Finally at the December Board meeting, we will set for you the goals in terms of where we go forward for the February Board meeting.

In summary, this project is on schedule with the original Deloitte and Hammes timetables that I shared with you previously. The cooperation of the team and our staff has been excellent and so far we are in alignment, although inevitably there will be some differences that we will need to work out. Consequently, I am cautiously optimistic, as my colleagues are, that we will be able to bring forward to you a revised

November 2, 2007 meeting, Board of Trustees

project that can be successful. There remains a great deal of work and difficult decisions to be made. It is also important to stress that the whole University, and the entire central Ohio community, stand to benefit if this project is successful and we are committed to making that happen.

That summarizes my report and if there are any questions, I will be glad to respond.

Dr. Cloyd:

Thank you, Bill. Any questions or comments?

Mr. Wexner:

Bill, I am curious, with the delay in the cost and review of the consultants, how does it feel to you in terms of the value of that time spent in the critiquing and reviewing?

Mr. Shkurti:

Mr. Wexner, what is becoming clear to me is that it was time well spent. Let me speak for myself. It was clear that the project was on too aggressive of a time schedule. We also had alignment issues and both were pointed out in the Deloitte report. We are getting the alignment issues worked out and will have a more reasonable schedule. It is clear to me that a lot of good planning work has been done. The fundamental problems that the project recognized - the need to expand inpatient beds, the need to modernize facilities, and the need to make the facilities more attractive - are very legitimate. We will be able to use a lot of the work that has already been done to make this a successful project.

President Gee:

Bill and I have talked about this a couple of times. Fortunately this process has allowed us to start aligning within the broader context of the University, which is important. We want to make certain that when we do something, that it has a 360-degree review and is aligned with all of our priorities. Provost Alutto, Bill Shkurti, and Chip Souba, are committed to making certain that we have that alignment from the very beginning and this is an important new process.

Mr. Brass:

President Gee, I am glad you said that. I think that is very critical. Bill, at the next Medical Affairs Committee meeting there are a few things for discussion that we can fine tune to keep it moving forward. One would be to clarify the evade issue that you and I chatted about appreciation expense, interest expense, and so on as it relates to the forecast. We need to make sure we are fully aligned there.

The second thing is that this morning we talked about the six signature programs. I would like to talk through that a little bit about what is the impact on the big project if we reduce it from six, to five, to four. I'm not sure we want to do that and I'm not sure we shouldn't do it.

The third thing is the one you mentioned and I want to amplify. That is the entire ambulatory care model as it relates to the new building project, and the forecast of revenues and expenses. In health care that is going to be the future and I want to make sure we are on target.

Those three things are critical as we continue to fine tune this model, as well as making sure that the priorities are set on the 360-degree review. President Gee, I applaud that comment.

November 2, 2007 meeting, Board of Trustees

President Gee:

I think we are all in agreement there.

Mr. Brass:

I think we are. Thank you, Bill.

Mr. Shkurti:

Thank you.

Dr. Cloyd:

Any other questions or comments?

Ms. Hendricks:

Originally in this expansion The James Care facility was not a part of it. Is it being discussed as a part of it?

Mr. Shkurti:

Ms. Hendricks, it is being discussed. We haven't resolved exactly where The James Care will end up. The executive sponsors have agreed that we need to have a better idea by the time we come forward as to exactly where that fits in time wise and location wise.

President Gee:

Again, that is part of the alignment issue.

Mr. Brass:

One of the six signature programs.

Mr. Hicks:

She is talking about The James Care, which is off-site.

Ms. Hendricks:

The off-site facility; it had been separate from this and it seemed to me it needed to be integrated, so when it came forward we would deal with it as well.

Mr. Shkurti:

Another thing you will see when we come forward is, and we have had the staff working on this and it has been tedious, but important, a very clear list of what is in and what is out.

Dr. Cloyd:

Any other questions or comments? Thank you very much, Bill, and thanks to the group working this continued progress. We will look forward to the report in December.

(See Appendix XXV for background information, page 585.)

November 2, 2007 meeting, Board of Trustees

Dr. Cloyd:

I would ask that all Board members come forward after the meeting, so I can give you the material relating to the new schedule. Thank you very much.

Thereupon the Board adjourned to meet Friday, December 7, 2007, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

Attest:

G. Gilbert Cloyd
Chairman

David O. Frantz
Secretary

(APPENDIX XIX)

MANAGED HEALTH CARE SYSTEMS, INC.

REVISIONS TO CODE OF REGULATIONS

ITEM: Approval is requested for changes in the Code of Regulations for Managed Health Care Systems, Inc.

BACKGROUND: It has been several years since changes have been made to the *Code of Regulations*. A team composed of David Frantz, Robert Haverkamp, Larry Lewellen, and Phil Moots was designated by University leadership and the MHCS Board to carefully review the Code and recommend changes consistent with the future direction of the corporation (including *Your Plan for Health* project for OSU, and expanding to markets outside OSU).

PROCESS: The MHCS Board has reviewed and approved the recommended revisions. The final step is for the University Board of Trustees to approve.

SUMMARY OF RECOMMENDED REVISIONS:

- Change the Board officer positions from President and Vice President to Chair and Vice Chair
- Define the role of the Executive Director as the CEO, and clarify responsibilities of the Board
- Clarify that the primary mission of the corporation is in service of OSU's health plans
- Eliminate the Board officer position of Treasurer, and implement a Chief Financial Officer position and a Finance Committee of the Board
- Expand the Board from 9 to 11 directors, by the addition of two more non-OSU directors (to a total of 3 non-OSU directors)

If the Code revisions are approved, the structure of the MHCS Board would be as shown on the attached sheet.

These governance changes are important to incorporate at this time to facilitate the mission of MHCS. There likely will be additional future changes recommended to enhance MHCS operations and governance as the planning process continues.

STRUCTURE OF MANAGED HEALTH CARE SYSTEMS

**CODE OF REGULATIONS
OF
THE OHIO STATE UNIVERSITY MANAGED HEALTH CARE SYSTEMS, INC.
(MHCS)**

This document contains amendments to the Code of Regulations as requested by the Office of Human Resources and the Board of Managed Health Care Systems, Inc. The amendments were formally approved by vote of the MHCS Board at the August 2007 meeting.

These amendments are respectfully submitted for approval by the Board of Trustees.

**CODE OF REGULATIONS
OF
THE OHIO STATE UNIVERSITY MANAGED HEALTH CARE SYSTEMS, INC.
RECOMMENDED AMENDMENTS**

**ARTICLE I
NAME AND PURPOSE OF THE CORPORATION**

Section 1.01 Name. The name of the Corporation is The Ohio State University Managed Health Care Systems, Inc., herein called the "Corporation".

Section 1.02 Purpose: Tax-exempt Status. The Corporation, is organized exclusively to promote and carry out educational, charitable, and scientific purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (or any corresponding provisions of any future United States Internal Revenue Code) (the "Code"), by conducting and supporting activities that are for the benefit, perform the functions, or carry out the purpose, of The Ohio State University (hereinafter, the "University"), principally its health plans, **WITH THE SUPPORT OF** its health care facilities, and its College of Medicine; **AND MAY ALSO** in support of the educational and health care responsibilities reposed in the University by law, **AND THE STRATEGIC GOALS OF THE UNIVERSITY'S MEDICAL CENTER.**

~~including, but~~ **THE FOREGOING INCLUDES, BUT IS** not limited to the following:

C.A. To market, promote, and provide, through management services, contracting for services, and/or the franchising of such services, the University's health plans and any expanded managed health care services and programs to employers and groups within Ohio and to contract with employers and groups, established managed care networks, service providers, and others and to undertake, conduct, or support other programs or activities reasonably related thereto;

D.B. To conduct or support other programs or projects that augment and enhance the undertakings of the University's health plans, the University's health care facilities, the College of Medicine, and other health-related services in advancing their educational, research, patient care, health care, and public service responsibilities;

A.C. To receive from the University, and to seek and obtain from any other resources, funds and other property, including donated funds and other property, to be used and administered to promote the purposes of the University's health plans, the University's health care facilities, the College of Medicine, and other health-related services; **AND**

B.D. To use and administer all funds and other property received by it for activities designed and implemented for the use and benefit of the University's health plans, the University's health care facilities, the College of Medicine, and other health-related services and to engage in any and all activities reasonably incidental thereto;

E. To retain, employ, contract for, and discharge employees, consultants, advisors, and agents to carry out the purposes of the Corporation, as directed by the Board of Directors.

Solely for the above purposes, the Corporation is empowered to exercise all rights and powers conferred by the laws of the State of Ohio upon nonprofit corporations.

**ARTICLE II
OFFICES: CORPORATE SEAL AND LOGO**

Section 2.01 Office. The Corporation's principal office shall be located in the City of Columbus, Franklin County, Ohio, unless otherwise established by a vote of the Board of Directors.

~~Section 2.02 Corporate Seal. The Corporate seal shall not be a requisite to the validity of any instrument executed by or on behalf of the Corporation. However, if in any instance any Corporate seal is used, it shall be, at the pleasure of the authorized Corporate official affixing it, either a circle having on the circumference thereof the words "THE OHIO STATE UNIVERSITY MANAGED HEALTH CARE SYSTEMS, INC." or a circle containing the words "Corporate Seal" on the circumference thereof.~~

Section 2.032 Corporate Logo. The Board of Directors may authorize a distinctive and unique identifying logo to be used as prescribed by the Board in the conduct of corporate business.

ARTICLE III DIRECTORS

Section 3.01 Powers. Except as otherwise provided in the Articles of Incorporation, these Regulations, or applicable laws, the Board of Directors shall exercise all of the authority of the Corporation. The Directors serving hereunder shall have the power, authority, and responsibilities of, and perform the functions provided for, ~~trustees~~ **DIRECTORS** under the Ohio Non-profit Corporation Law. The Board of Directors shall ~~establish corporate policies for the direction and guidance of the Officers and the management of the Corporation and formulate the basic rules and regulations governing the operation and management of the Corporation~~ **GUIDE AND APPROVE THE STRATEGIC DIRECTION AND BUSINESS VENTURES OF THE CORPORATION.** ~~The Board shall have responsibility and authority for establishing~~ **APPROVING INCLUDING** the operating policy **IES, THE BUSINESS PLAN** and the annual budget and operating plan for the Corporation. All major contracts, as determined by the Board, shall be subject to prior approval by the Board.

Section 3.02 Number. Appointment. Term of Office. Except as provided below, there shall be nine voting Directors of the Corporation, as follows:

- A. A member of the University's Board of Trustees, who shall be a Term Director and elected by the University's Board of Trustees for a one-year term or until his or her successor is elected;
- B. The Secretary of the University's Board of Trustees, or the equivalent successor officer, who shall serve as an Administration Director for so long as he or she occupies that position;
- C. The Senior Vice President for Health Sciences of the University, or the equivalent successor officer, who shall serve as an Administration Director for so long as he or she occupies that position;
- D. The Vice President for Health Services shall serve as an Administration Director for so long as he or she occupies that position;
- E. The **ASSOCIATE** Vice President for Human Resources and Relations of the University, or the equivalent successor officer, who shall serve as an Administration Director for so long as he or she occupies that position;
- F. A regular faculty member of the University's College of Medicine and a member of the recognized University central practice plan organization (OSUP) who is a senior physician on the Medical Staff of either the University Hospitals, or the University's Arthur G. James Cancer Hospital and Richard J. Solove Research Institute, or the Ohio State University Hospitals East who shall be a Term Director and appointment by the President of the University for a three-year term or until his or her successor is appointed in consultation with the Senior Vice President for Health Sciences and the leadership of OSUP.
- G. ~~One~~ **THREE** individual**S, from the business community,** independent of the University, who shall be a Term Director**S** and appointed by the President of the University for a three-year term or until his ~~or her~~ **SUCH TIME AS A** successor is appointed.
- H. One individual who is a university regular faculty member nominated and recommended by Faculty Council, who shall not be employed by nor serve this corporation, shall not be employed by nor serve the University Health Systems, ~~and who shall not be or become a member of the University Senate Faculty Compensation and Benefits Committee (FCBC).~~ The regular faculty member shall be appointed by the President of the University for a one year term or until his or her successor is appointed, and be eligible for up to two subsequent one year renewals at the pleasure of the President, but in no circumstance longer than three consecutive years. Recommendations shall be made to the President of the University on or before April 1 of each calendar year. The regular faculty member position to be appointed pursuant to this paragraph shall remain vacant until such time as the appointment is received from the President of the University.

I. One individual who is a regular staff member nominated and recommended by the University Staff Advisory Committee (USAC), who shall not be employed by nor serve this corporation, shall not be employed by nor serve the University Health Systems, ~~and shall not be or become a member of the University Staff Compensation and Benefits Committee.~~ The regular staff member shall be appointed by the President of the University for a one year term or until his or her successor is appointed, and be eligible for up to two subsequent one year renewals at the pleasure of the President, but in no circumstance longer than three consecutive years. Recommendations shall be made to the President of the University on or before April 1 of each calendar year. The regular staff member position to be appointed pursuant to this paragraph shall remain vacant until such time as the appointment is received from the President of the University.

J. Each Director described in this Section shall have the same voting power and privileges as the other Directors. All references in this Code of Regulations to the Board of Directors, or members of the Board of Directors shall mean only the Directors described in this Section.

The election or appointment of each Term Director shall be made by the appropriate electing or appointing authority before the Annual Meeting of the Board of Directors. The term of each Term Director shall begin and end at the close of the appropriate Annual Meeting, except that each Term Director shall continue in office until his or her successor is appointed or elected. A Director may serve for unlimited consecutive terms.

Section 3.03 Resignation or Removal. Any Director may resign at any time, by giving notice in writing to the Board of Directors and the authority that appointed or elected the Director. Any Director may be removed from office by either authorized action of the authority that elected or appointed the Director or by a two-thirds vote of all the Directors then in office and eligible to vote.

Section 3.04 Vacancy. In the event of a vacancy in a Term Director position resulting from death, resignation, or removal, the Board of Directors shall immediately give notice of the vacancy to the appropriate electing or appointing authority, and that authority shall fill the vacancy within 60 days of receipt of such notice. In the event that the vacancy is not so filled within that time, the Board of Directors may, at their option, fill the vacancy by majority vote. In the event of a vacancy in an Administration Director, the vacancy shall remain until the replacement (whether acting or permanent) takes office at the University.

Section 3.05 Annual and other Meetings. The Board of Directors shall hold at least two meetings each year, one of which shall be the Annual Meeting, which shall be held in June or July of each year. Other meetings of the Board may be called by the President or by two Directors upon delivery of a written request to the Secretary for such a meeting at least five business days prior to the minimum notice period provided in Section 3.07 of these Regulations. All meetings of the Board shall be at a place (within or without the State Of Ohio), date, and time as shall be determined by the Board or by the President as authorized by the Board. Directors may participate at, and Voting Directors be counted in determining a quorum for such meeting through any communications equipment if all persons participating can hear each other.

Section 3.06 Written Notice of Meetings. Written notice stating the place, date, and time of any meeting of the Board of Directors shall be given by the Secretary of the Board to each Director not less than seven days before the date of such meeting. Such notice may be delivered by first-class mail, postage prepaid, telegram, tele-facsimile, **ELECTRONIC MAIL**, or any other reasonable means. The notice shall be deemed to be given if mailed or otherwise sent or delivered to the Director at his or her address as it appears on the records of the Corporation or the Corporation receives evidence of receipt. The notice need not specify the purposes of the meeting, except with respect to proposed action to remove a Director or Officer and except that, if an amendment to the Articles of Incorporation or these Regulations is proposed, a copy of the proposed amendment must accompany the notice.

Section 3.07 Waiver of Notice. The giving of notice shall be deemed to be waived by any Director who shall attend and participate in any meeting other than to object to the transaction of any business because the meeting is not lawfully called or convened. Any

Director either before, at, or after such meeting may waive the giving of notice, in writing. All such waiver shall be filed with the corporate records.

Section 3.08 Quorum; Voting. A majority of the Voting Directors then in office shall constitute a quorum for the transaction business at any meeting of the Directors. The vote of a majority of the directors present and eligible to vote and voting at any meeting at which there is a quorum shall be the act of the Board of Directors, except as may be otherwise specifically provided by statute, the Articles of Incorporation, or these Regulations. In the event of a tie vote, the measure or action shall fail.

A majority of the Voting Directors present at a meeting, whether or not a quorum is present, may adjourn any Board meeting to another time and place. If a quorum is present at the meeting to be adjourned, notice of the time and place of resuming an adjourned meeting need not be given to absent Directors if the time and place is fixed at the meeting to be adjourned; provided, however, that if the meeting is adjourned for more than 24 hours, notice of any adjournment shall be given prior to the time of resuming the adjourned meeting to the Directors who were not present at the time of the adjournment. If a quorum is not present at the meeting to be adjourned, notice of any adjournment shall be given in accordance with Section 3.07 of these Regulations.

Section 3.09 Committees. The Board of Directors may, by resolution, designate one or more committees from among the Directors and other persons, which, to the extent provided in the resolution, shall have and may exercise the powers of the Board of Directors and the management of the business and affairs of the Corporation. However, no such committee shall exercise the authority of the Board of Directors with regard to: a) the election or removal of Directors or Officers; b) the establishment of, or appointment of members to, any committee; c) **ADOPTION OR AMENDMENT OF THE BUDGET OF THE CORPORATION**, or d) amendment of these Regulations **OR THE ARTICLES**. The Officers of the Corporation shall be ex-officio voting members of each committee. Each committee shall serve at the pleasure of the Board and shall keep regular minutes of its meetings and report its activities to the Board as the Board shall determine.

Section 3.10 Unanimous Consent. Any act of the Board of Directors or of any committee the Board may be taken without a meeting if a consent in writing setting forth the act is signed by all Directors or all members of the committee, as applicable, eligible to vote. The consent shall have the same force and effect as a unanimous vote of the Board of Directors or the committee, as applicable.

Section 3.11 Rights of Inspection. Each Director and Officer shall have the absolute right at any reasonable time to inspect and copy all Corporate books, records, and documents of every kind and to inspect the physical properties of the Corporation, except as otherwise prohibited by law.

Section 3.12 Honorary Designations. The Board of Directors may establish such additional class or classes of persons entitled to attend meetings of the Board of Directors or other activities of the Corporation as determined by the Board. The Board shall prescribe the manner of selection and privileges for such class or classes, provided that such persons, whether or not called "Directors," shall not be entitled to vote, shall not be counted for quorum purposes or for purposes of determining the number of Directors, and the failure of such persons to receive notice of a meeting of the Board shall not affect the validity of such a meeting.

Section 3.13 Reimbursement of Expenses. Directors and Officers who are Directors shall receive no compensation from the Corporation for their services to the Corporation in these capacities. However, Directors, Officers, employees, and agents of the Corporation may receive reimbursement for necessary and reasonable out-of-pocket expenses, as determined by the Board of Directors.

ARTICLE IV **MEDICAL ADVISORY BOARD**

Section 4.01 Purpose. There shall be a Medical Advisory Board to regularly advise the Executive Director, other staff, and the Board of Directors. As requested or on its own initiative, the Medical Advisory Board shall review and provide advice with respect to management of health care services, protocol arrangements, arrangements that regulate the conduct of physicians and other health care providers, medical practices, cost of

November 2, 2007 meeting, Board of Trustees

health care, credentialing, quality assurance requirements and programs, and other issues related to health care services.

Section 4.02 Voting Members. The Medical Advisory Board shall be comprised of the following voting members:

- A. Three physicians appointed by the Board of Directors, for a term of three years and who shall be eligible for reappointment. Each member shall join and maintain membership in OSUP, unless this provision shall be waived by separate resolution of this Board of Directors. Failure to join or maintain membership in OSUP shall result in automatic loss of membership on the Medical Advisory Board.
- B. Such other members as the Board of Directors shall determine, who shall be appointed for staggered three-year terms and who shall be eligible for reappointment.

Section 4.03 Nonvoting Members. The following individuals shall be ex-officio nonvoting members of the Medical Advisory Board for so long as each occupies that position:

- A. The Director who is the University's Senior Vice President for Health Sciences, or his or her designee;
- B. The Director who is the Vice President for Health Services, or his or her designee;
- C. The Director who is the University's ASSOCIATE Vice President for Human Resources and Relations, or his or her designee;
- D. The Director named in Section 3.02 (F) of these Regulations, who shall be the official liaison of the Board of Directors to the Medical Advisory Board, and who shall be a nonvoting member of the Medical Advisory Board unless otherwise entitled to vote because he or she also holds a position identified in Section 4.02 of these Regulations; and
- E. Physicians who serve full or part time as Medical Directors for the Corporation.

Section 4.04 Chair. The Chair of the Medical Advisory Board shall be elected annually by and from the voting members of the Medical Advisory Board, except that the Director named in Section 3.02 (F) of these Regulations shall not be eligible to serve as Chair. Any eligible member of the Medical Advisory Board may serve unlimited terms as Chair. The Chair of the Medical Advisory Board shall be an ex-officio non-voting member of the Board of Directors.

Section 4.05 Meetings: Procedures. The Medical Advisory Board shall meet at least quarterly, unless otherwise determined by the Medical Advisory Board or the Board of Directors. The Medical Advisory Board shall operate under such procedures as shall be determined from time to time by the Board of Directors. Notwithstanding Sections 4.02 and 4.03 above, no person shall have more than one vote on the Medical Advisory Board.

ARTICLE V OFFICERS

Section 5.01 Officers. The Officers of the Corporation shall be a ~~President~~, a ~~Vice President~~, CHAIR, VICE CHAIR, a Secretary, a ~~Treasurer~~, and such other Officers as the Board of Directors shall determine from time to time. The same person except for the offices of President CHAIR and Secretary may hold any two or more offices. The ~~President and Vice President~~ CHAIR AND VICE CHAIR must be Directors in order to hold office.

Section 5.02 Election. Term of Office. Vacancies. The Board of Directors at the Annual Meeting shall elect officers of the Corporation, other than the ~~President~~ CHAIR, or, if action is not then taken or if there is a vacancy, at any other meeting of the Board for which notice is given as provided in Section 3.07 of these Regulations. Each Officer shall be elected to hold office for one year until his or her successor is elected and qualified. Officers may serve unlimited consecutive terms. Upon the death, resignation, or removal of any Officer other than the ~~President~~ CHAIR, the Board may elect a successor to serve the unexpired term.

Section 5.03 Removal. Any Officer elected by the Board of Directors may be removed at any time by a two thirds vote of the Directors then in office and eligible to vote at a duly called and held meeting.

Section 5.04 President CHAIR. The President **CHAIR**, who shall be designated by the President of the University, shall be the chief executive officer of the corporation and shall preside at all meetings of the Board. He or she shall sign, execute, and acknowledge, in the name of the Corporation, deeds, mortgages, bonds, contracts, and other instruments authorized by the Board, except in cases where the signing and execution thereof shall be delegated by the Board to some other Officer or agent of the Corporation, and, in general, he or she shall perform all duties incident to the office of President **CHAIR**, and such other duties as from time to time may be assigned by the Board. Under the general direction of the Board, the President shall have general supervision, direction, and control of the business and Officers of the Corporation and see that all policies of the Board are carried out. The Board may prescribe procedures whereby, between meetings, but only when time is of the essence, the President **CHAIR** may act for the Board. In the case of a vacancy in the office of President **CHAIR**, the President of the University shall designate a successor to serve for the unexpired term.

Section 5.05 Vice-President VICE CHAIR. The Vice President **VICE CHAIR** shall have such duties and functions as may be assigned from time to time by the Board or the President **CHAIR** and shall perform the duties and functions of the President **CHAIR** during the absence or disability of the President **CHAIR**.

Section 5.06 Secretary. The Secretary shall record the votes of the Directors and keep the minutes of the proceedings of the Board of Directors; shall see that notices of meetings of the Board are given as required; shall be the custodian of all records and documents of the Corporation, except as the Board may otherwise direct; shall, if the Corporation has a seal, be the custodian of the seal of the Corporation and shall see that it is affixed, as required, to documents executed on behalf of the Corporation under its seal; shall perform all duties incidental to the office of Secretary; and shall have such other duties and functions as may be assigned from time to time by the Board or the President **CHAIR**.

~~Section 5.07 Treasurer. The Treasurer shall have responsibility for the care and custody of the funds of the Corporation, the keeping of an accurate account of all of the financial transactions of the Corporation, and the deposit of all funds of the Corporation, except such as may be required for current use, in such banks or other places of deposit as the Board of Directors may from time to time designate. THE TREASURER SHALL PROVIDE OVERSIGHT OVER THE FINANCIAL POLICIES, PROCEDURES AND PRACTICES OF THE CORPORATION, INCLUDING ANY NECESSARY ACTIONS TO ENSURE ADHERENCE TO APPLICABLE POLICIES, REGULATIONS, LAWS, AUDIT REQUIREMENTS, AND GENERALLY ACCEPTED ACCOUNTING PRINCIPLES. The Treasurer shall perform all duties incidental to the office of the Treasurer and shall have such other duties and functions as may be assigned from time to time by the Board or the President. Except as otherwise provided by the Board, at the end of each fiscal year, the Treasurer shall have an independent audit made of the accounts of the Corporation and shall make such audit available to the Board within 180 days after the end of the fiscal year. The Treasurer shall make regular reports to the Board setting forth the financial condition of the Corporation. REGULAR REPORTS SHALL BE PROVIDED TO THE BOARD, SETTING FORTH THE FINANCIAL CONDITION OF THE CORPORATION, AND SUCH REPORTS SHALL BE APPROVED BY THE TREASURER.~~

Section 5.087 Acting Officers. In the absence or disability of the Vice President **VICE CHAIR** OR the Secretary, or the Treasurer, the President **CHAIR** may appoint an Acting Vice President **VICE CHAIR** who must be a Director OR an Acting Secretary, or an Acting Treasurer, each of whom shall, for the period of his or her appointment, have the powers, duties, and responsibilities of that office.

Section 5.098 Bonds. As required by the Board, any Officer, employee, or agent of the Corporation shall execute to the Corporation a bond in such amount and with such surety as the Board may direct, conditioned upon the faithful performance of his or her duties to the Corporation and including responsibility for negligence, bad faith, and misconduct, and for the accounting for all property, funds, or securities of the Corporation which may come into his or her hands. The cost of such bonds shall be borne by the Corporation.

ARTICLE VI
FINANCE COMMITTEE

SECTION 6.01 FINANCE COMMITTEE. THERE SHALL BE A FINANCE COMMITTEE TO FUNCTION IN SERVICE OF THE BOARD OF DIRECTORS. THE FINANCE COMMITTEE SHALL PROVIDE OVERSIGHT FOR THE FINANCIAL POLICIES, PROCEDURES AND PRACTICES OF THE CORPORATION, INCLUDING ANY NECESSARY ACTIONS TO ENSURE ADHERENCE TO APPLICABLE POLICIES, REGULATIONS, LAWS, AUDIT REQUIREMENTS, AND GENERALLY ACCEPTED ACCOUNTING PRINCIPLES. EXCEPT AS OTHERWISE PROVIDED BY THE BOARD, AT THE END OF EACH FISCAL YEAR, THE FINANCE COMMITTEE SHALL ORDER AN INDEPENDENT AUDIT MADE OF THE ACCOUNTS OF THE CORPORATION AND SHALL MAKE SUCH AUDIT AVAILABLE TO THE BOARD WITHIN 180 DAYS AFTER THE END OF THE FISCAL YEAR. THE FINANCE COMMITTEE SHALL APPROVE REGULAR REPORTS TO THE BOARD SETTING FORTH THE FINANCIAL CONDITION OF THE CORPORATION.

ARTICLE VII
STAFF

Section 67.01 Executive Director AND CHIEF EXECUTIVE OFFICER. The Executive Director of the Corporation, who shall be the chief operating EXECUTIVE officer of the Corporation, shall be appointed by the Board of Directors and shall serve at the pleasure of the Board. Under the general direction and supervision of the President and the Board of Directors, the Executive Director shall have authority and responsibility to DEVELOP, RECOMMEND AND implement the VISION, STRATEGIC priorities, objectives, and directives set AS APPROVED by the Board. The Executive Director shall administer the day-to-day operations of the Corporation and shall be responsible for preparation and implementation of the annual operating plan and budget. The Executive Director shall be an ex-officio non-voting member of the Board of Directors. The Executive Director is charged with all things necessarily attendant to the duties specified above, including the discharge of any Corporation liabilities, incurrence of short-term temporary debt as authorized by the Board, the retention and release of necessary staff, consultants, or advisors and the expenditure of Corporation funds in the ordinary course of business. However, except in accordance with procedures established by the Board of Directors, no expenditure in excess of \$5,000.00 shall be authorized by the Executive Director without the prior approval of the Board of Directors.

SECTION 7.02 CHIEF FINANCIAL OFFICER. THE CHIEF FINANCIAL OFFICER SHALL HAVE RESPONSIBILITY FOR THE CARE AND CUSTODY OF THE FUNDS OF THE CORPORATION, THE SAFEGUARDING OF ASSETS OF THE CORPORATION, THE KEEPING OF AN ACCURATE ACCOUNT OF ALL OF THE FINANCIAL TRANSACTIONS OF THE CORPORATION, AND THE DEPOSIT OF ALL FUNDS OF THE CORPORATION, EXCEPT SUCH AS MAY BE REQUIRED FOR CURRENT USE. THE CHIEF FINANCIAL OFFICER SHALL PERFORM ALL DUTIES INCIDENTAL TO THE OFFICE AND SHALL HAVE SUCH OTHER DUTIES AND FUNCTIONS AS MAY BE ASSIGNED FROM TIME TO TIME BY THE CHIEF EXECUTIVE OFFICER. REGULAR REPORTS SHALL BE PROVIDED TO THE BOARD, SETTING FORTH THE FINANCIAL CONDITION OF THE CORPORATION, AND SUCH REPORTS SHALL BE APPROVED BY THE FINANCE COMMITTEE.

Section 67.023 Other Staff. The Executive Director may retain, employ, contract for, and discharge such other employees, consultants, advisors, and agents as he or she deems necessary, subject to the prior approval of the Board as the Board may determine.

Section 67.034 Payment for Staff Services. For administrative purposes, Corporation staff, including the Executive Director, may but need not be employees of the University. For any Corporation staff that are University employees, the Corporation shall pay the University the appropriate salary, benefits, and other costs of such employees, as determined by the Board of Directors and the University.

ARTICLE VIII
INDEMNIFICATION AND INSURANCE

Section 78.01 Mandatory Indemnification. The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative, or investigative (including, without limitation, any action, threatened or instituted by or in the right OF the Corporation), by reason of the fact that he or she is or was a Director, Officer, employee, or agent of the Corporation, or is or was serving at the request of the Corporation as a director or trustee, officer, employee, or agent of another corporation (domestic or foreign, nonprofit or for profit), partnership, joint venture, trust or other enterprise, against expenses (including, without limitation, attorneys' fees, filing fees, court reporters' fees, and transcript costs), judgments, fines, and amounts paid in settlement actually and reasonably incurred by his or her connection with such action, suit, or proceeding if he or she acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, the best interests of the Corporation, and, with respect to any criminal action or proceeding, he or she had no reasonable cause to believe his or her conduct was unlawful. A person claiming indemnification under this Section shall be presumed, in respect of any act or omission giving rise to such claim for indemnification, to have acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, the best interests of the Corporation, and, with respect to any criminal action or proceeding, to have had no reasonable cause to believe his or her conduct was unlawful, and the termination of any action, suit, or proceeding by judgment, order, settlement, or conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, rebut such presumption.

Section 78.02 Court Approved Indemnification. Notwithstanding anything contained in these Regulations or elsewhere to the contrary:

- A. The Corporation shall not indemnify any Director, Officer, employee, or agent of the Corporation who was a party to any completed action or suit instituted by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that he or she is or was a Director, Officer, employee, or agent of the Corporation, or is or was serving at the request of the Corporation as a director or trustee, officer, employee, or agent of another corporation (domestic or foreign, nonprofit or for profit), partnership, joint venture, trust, or other enterprise, in respect of any claim, issue, or matter asserted in such action or suit as to which he or she shall have been adjudged to be liable for negligence or misconduct (other than negligence) in the performance of his or her duty to the Corporation unless and only to the extent that the Court of Common Pleas of Franklin County, Ohio, or the court in which such action or suit was brought shall determine upon application that, despite such adjudication of liability, and in view of all the circumstances of the case, he or she is fairly and reasonably entitled to such indemnity as the Court of Common Pleas or such other court shall deem proper .
- B. The Corporation shall not indemnify any Director, Officer, employee, or agent of the Corporation with respect to any claim or action in which a court **FINDS** against him or her pursuant to Section 1702.55 of the Ohio Revised Code determines liability.
- C. The Corporation shall promptly make any such unpaid indemnification as is determined by a court to be proper as contemplated by this Section.

Section 78.03 Indemnification for Expenses. Notwithstanding anything contained in these Regulations or elsewhere to the contrary, to the extent that a Director, Officer, employee, or agent of the Corporation has been successful on the merits or otherwise in defense of any action, suit, or proceeding referred to in Section 7.01, including any action, suit, or proceeding brought pursuant to Section 1702.55 of the Ohio Revised Code, or in defense of any claim, issue, or matter therein, he or she shall be promptly indemnified by the Corporation against expenses (including, without limitation, attorneys' fees, filing fees, court reporters' fees, and transcript costs) actually and reasonably incurred by him or her in connection therewith.

Section 78.04 Determination Required. Any indemnification under Section 7.01 and not precluded under Section 7.02 shall be made by the Corporation only upon a determination that indemnification of the Director, Officer, employee, or agent is proper in the circumstances because he or she has met the applicable standard of conduct set forth in Section 7.01. Such determination may be made only as follows:

- A. By a majority vote of a quorum consisting of Voting Directors of the Corporation who were not and are not parties to, or threatened with, any such action, suit, or proceeding; or
- B. If such quorum is not obtainable, or if a majority of a quorum of disinterested Directors so directs, in a written opinion by independent legal counsel, provided that "independent legal counsel" may not be an attorney, or a firm having associated with it an attorney, who has been retained by or who has performed services for the Corporation, or any person to be indemnified, within the past five years; or
- C. By the Court of Common Pleas of Franklin County, Ohio, or (if the Corporation is a party thereto) the court in which such action, suit, or proceeding was brought, if any.

Any determination made by the disinterested Directors under Division A of this Section or by independent legal counsel under Division B of this Section to make indemnification in respect of any claim, issue, or matter asserted in an action or suit threatened or brought by or in the right of the Corporation shall be promptly communicated to the person who threatened or brought such action or suit, and within ten days after receipt of such notification such person shall have the right to petition the Court of Common Pleas of Franklin County, Ohio, or the court in which such action or suit was brought, if any, to review the reasonableness of such determination.

Section 78.05 Advance for Expenses. Expenses (including, without limitation, attorneys' fees, filing fees, court reporters' fees, and transcript costs) incurred in defending any action, suit, or proceeding referred to in Section 7.01, except when the only liability asserted is pursuant to Section 1702.55 of the Ohio revised Code, shall be paid by the Corporation in advance of the final disposition of such action, suit, or proceeding to or on behalf of the Director, Officer, employee, or agent promptly as such expenses are incurred by him or her, but only if he or she shall first agree, in writing, to repay all amounts so paid in respect of any claim, issue, or other matter asserted in such action, suit, or proceeding in defense of which he or she shall not have been successful on the merits or otherwise:

- A. Unless it shall ultimately be determined as provided in Section 7.04 that he or she is entitled to be indemnified by the Corporation as provided under Section 7.01 ; or
- B. If, in respect of any claim, issue, or matter asserted by or in the right of the Corporation in such action or suit, he or she shall have been adjudged to be liable for negligence or misconduct (other than negligence) in the performance of his or her duty to the Corporation, unless and only to the extent that the Court of Common Pleas of Franklin County, Ohio, or the court in which such action or suit was brought shall determine upon application that, despite such adjudication of liability, and in view of all the circumstances, he or she is fairly and reasonably entitled to all or part of such indemnification.

Section 78.06 Article VIII Not Exclusive. The indemnification authorized by this Article is not exclusive of, and shall be in addition to, any other rights granted to any person seeking indemnification pursuant to the Articles of Incorporation, these Regulations, any agreement, or a vote of disinterested Directors, both as to action in his or her official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has ceased to be a Director, Officer, employee or agent of the Corporation, and shall inure to the benefit of the heirs, executors, and administrators of such a person.

Section 78.07 Insurance. The Corporation may purchase and maintain insurance on behalf of any person who is or was a Director, Officer, employee, or agent of the Corporation or who is or was serving at the request of the Corporation in such a capacity for another corporation (domestic or foreign, nonprofit or for profit), partnership, joint

venture, trust, or other enterprise, against any liability asserted against him or her and incurred by him or her in any such capacity, or arising out of his or her status as such, whether or not the Corporation would have the obligation or the power to indemnify him or her against such liability under the provisions of this Article.

Section 78.08 Certain Definitions. For purposes of this Article, and as examples and not by way of limitation:

- A. A person claiming indemnification under this Article shall be deemed to have been successful on the merits or otherwise in the defense of any action, suit, or proceeding referred to in Section 7.01, or in defense of any claim, issue, or matter therein, if such action, suit, or proceeding shall be terminated as to such person, with or without prejudice, without the entry of a judgment or order against him or her, without a conviction of him or her, without the imposition of a fine upon him or her, and without his or her payment or agreement to pay any amount in settlement thereof (whether or not any such termination is based upon a judicial or other determination of the lack of merit of the claims made against him or her or otherwise results in a vindication of him or her); and
- B. References to an "other enterprise" shall include employee benefit plans; references to a "fine" shall include any excise taxes assessed on a person with respect to an employee benefit plan; references to "serving at the request of the Corporation" shall include any service as a director or trustee, officer, employee, or agent of the Corporation which imposes duties on, or involves services by, such director or trustee, officer, employee, or agent with respect to an employee benefit plan, its participants, or beneficiaries; and a person who acted in good faith and in a manner he or she reasonably believed to be in the best interest of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner "not opposed to the best interest of the Corporation" within the meaning of that term as used in this Article.

Section 78.09 Venue. Any action, suit, or proceeding to determine a claim for indemnification under this Article may be maintained by the person claiming such indemnification, or by the Corporation, in the Court of Common Pleas of Franklin County, Ohio. The Corporation and (by claiming such indemnification) each such person consent to the exercise of jurisdiction over its or his or her person by the Court of Common Pleas of Franklin County, Ohio, in any such action, suit, or proceeding.

Section 78.10 Statutory Indemnification, Immunity, and Representation. This Article VII is not intended to, and shall not, limit or restrict the right of any person who is or was serving in any position entitling him or her to indemnification under Section 7.01 of these Regulations to representation by the Attorney General, indemnification, or immunity, as provided in the Ohio Revised Code, by virtue of his or her position as a Trustee, Officer, employee, or agent of the University. In addition, a person shall be entitled to indemnification and advanced expenses from the Corporation under this Article only to the extent such person is not entitled to indemnification, immunity, expenses, or representation from another source.

ARTICLE VIII **AMENDMENTS**

The Articles of Incorporation and this Code of Regulations may be amended by a two-thirds majority vote of all the Directors then in office, subject to approval by the University's Board of Trustees.

(APPENDIX XX)

**AUTHORIZATION FOR THE IMPLEMENTATION OF ADMINISTRATIVE
RULES MODERNIZING THE UNIVERSITY'S CLASSIFIED CIVIL SERVICE**

ITEM: A Board resolution authorizing the Office of Human Resources to review those civil service laws, rules, regulations, policies, and procedures governing our classified civil service staff. Upon which, the Office of Human Resources will then recommend to the Board appropriate changes and updates to such after consultation with administration, management, and staff.

BACKGROUND: In December 2006, the Ohio General Assembly passed and the Governor signed into law Substitute House Bill 187, the culmination of a long endeavor to reform Ohio's law and regulations governing civil service employment. This Act is the end result of more than ten years of legislative discussions and public hearings over various ways of reforming these regulations, including the recommendations of the Ohio Civil Service Review Commission.

Of great importance to Ohio's colleges and universities, Sub. H.B. 187, amends Section 124.14 (F) of the Ohio Revised Code to permit each state university's board of trustees to introduce modifications to their own civil service rules that will then govern certain aspects of the employment of their civil service staff. These changes must be in context with the guidelines produced by the Inter-University Council of Ohio and carried out in a controlled and incremental manner.

PROCESS: Pursuant to this Resolution, the Office of Human Resources, in consultation with the Office of Legal Affairs, shall review those civil service laws, rules, regulations, policies, and procedures governing our classified civil service staff and will then recommend to the Board appropriate changes and updates to such after consultation with administration, management, and staff. We will continue to consult with bargaining unit representatives, the University Staff Advisory Committee, and staff in general, so they may have a voice in this process.

OBJECTIVES: The following are the primary objectives in modernizing the laws, rules, regulations, policies, and procedures governing our classified civil service staff:

- a. Reduce bureaucracy and increase efficiency of personnel processes;
- b. Create an environment which supports recruitment and engagement of best talent;
- c. Promote a culture of performance and career success; and
- d. Maintain key protections for classified civil service staff and uphold our values regarding respect and fairness to all University staff.

SUMMARY OF RESOLUTION:

- Recognize the passage of Sub. H.B. 187 and the authority vested with the Board to modernize the laws, rules, and regulations governing certain aspects of our classified civil service staff.
- Authorize the Office of Human Resources to carry out its charge under this resolution.

Commit to engaging in this process in a controlled and incremental manner.

(APPENDIX XXI)

Mansfield Recreation and Student Life Center Feasibility Study

OSU-080006

Requesting Agency(s): MANSFIELD CAMPUS

Location(s): Eisenhower Memorial Center, Dwight D

20,926 ASF/34,096 GSF Age: 1968

Location(s): Mansfield Physical Activities Ctr

16,171 ASF/19,129 GSF Age: 1977

Description:

This project will prepare a feasibility study to develop extent of the development of a Recreation & Student Life Center encompassing all aspects of co-curricular student life.

Project Information:

The study will include needs planning and prioritization, draft program of requirements, functional and condition assessment of current facilities and preliminary project budget and timeline.

How does this project advance the Academic Plan? This project advances the Academic Plan by providing a tool for the Mansfield campus to make sound decisions regarding future development.

Arps Hall - Suites 283, 287, and 288 Renovation

OSU-072260

Requesting Agency(s): EDUCATION ADMINISTRATION

Location(s): Arps Hall, George F.

70,351 ASF/130,366 GSF Age: 1925

Description:

This project will renovate space to accommodate 11 new faculty offices and 4 GA areas.

Project Information:

Improvements include: new ceiling grid/tiles; new lighting; new carpet; and improvements to power and communications.

How does this project advance the Academic Plan? This project advances the Academic Plan by providing additional faculty and support space.

Biological Sciences Building 9th Floor Renovation

OSU-071519

Requesting Agency(s): BIOLOGICAL SCIENCES ADMINISTRATION

Location(s): Biological Sciences Building

103,009 ASF/182,129 GSF Age: 1970

Description:

This project will renovate approximately 11,000 ASF of laboratory and office space on the 9th floor.

Project Information:

Proposed renovations include replacement of lab casework; removal and replacement of fume hoods; plumbing and electrical upgrades; finish upgrades. Some hazardous materials abatement will be required.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving the teaching, learning and research environment.

Baker Systems Engineering Roof Replacement
 315-2005-928

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): Baker Systems Engineering, David F.

69,887 ASF/115,361 GSF Age: 1968

Description:

This project will replace the existing built-up roof system with a modified system, and revise existing copings and counterflashing.

Project Information:
How does this project advance the Academic Plan? This project advances the Academic Plan by improving campus facilities and infrastructure.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Special Limitations/Risks: None

Deferred Maintenance: This project addresses \$197,800 in deferred maintenance.

Deferred Renewal: None

Veterinary Hospital Air Handling Unit Replacement

315-2005-925

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): Veterinary Hospital

140,213 ASF/222,4% GSF Age: 1973

Description:

The air handling equipment in the Veterinary Hospital is over 30 years old and is beyond its useful life. The air handling units will be replaced to meet the current building load.

Project Information:

Rather than the selective repair/replacement of the existing equipment, it has been determined that the replacement of the five existing units with two new, larger air handlers is the most cost effective over the long term.

The project budget has increased due to increased costs in the mechanical and sheet metal trades as a result of changing market conditions.

How does this project advance the Academic Plan? This project addresses the Academic Plan by improving facility infrastructure and ensuring proper air handling operation, which is essential for appropriate environmental conditions for learning and animal care.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

Special Limitations/risks: None

Deferred Maintenance: This project addresses approximately \$300,000 in deferred maintenance.

Deferred Renewal: None

Source of Funds:

Project Coordinator: Karen Gogley (gogley.1@osu.edu)

Requesting Agency(s): ATHLETICS

Location(s): See Project Information

ASF/O GSF Aqs:
Description:

This project will construct a softball stadium for varsity women's athletics with seating for 1,500-2,000 spectators. Support spaces will include, but are not limited to, home and away locker rooms, home team lounge, single locker rooms, press box, public restrooms and concessions. A new facility allows the University to comply with NCAA Title IX program requirements.

Project Information:

The project budget from \$2.6M to \$4.3M during design to accommodate additional amen/tenant had not been identified in the feasibility study, such as storage space, additional restrooms, coaches support area and bullpen support spaces. The budget was also adjusted due to building materials escalation and additional inflation.

After the project was bid, bids exceeded the estimate by more than 100% and the estimate has been revised by the associate. The project budget increase also includes alternates for seating and fencing upgrades, a batting building and team space fit-out.

How does this project advance the Academic Plan? The greatly improved facilities will benefit the experience of current student athletes and aid in the recruiting process for future student athletes.

Outstanding Funding Issues: None

Timing Issues: Construction must occur during the off season, from mid-summer to early spring.

"Ripple effects" of the project: None

Special Limitations/Notes: None

Deferred Maintenance: None

Deferred Renewal: None

November 2, 2007 meeting, Board of Trustees

(APPENDIX XXV)

**The Ohio State University
Board of Trustees
November 2, 2007**

TOPIC: Medical Center Master Facilities Plan

CONTEXT:

This is the fourth in a series of briefings on this topic.

Most recent briefing was 9/21/07.

SUMMARY:

Five issues were identified for follow-up at the July 13 presentation. These are:

1. Recommended Key Attributes (Attachment A)
2. Recommended Program Management Structure (Attachment B)
3. Recommended Financial Parameters (included in Attachment A-2)
4. Recommended Next Steps (Attachment C)
5. Other Time Sensitive Capital Projects (Attachment D)

CONSIDERATIONS:

- What additional information would the Board like to have?
- What happens next?

REQUESTED OF BOARD OF TRUSTEES:

For information and discussion. No vote required

KEY ATTRIBUTES: Criteria for Facility Priority Within the MFP

Programmatic Priority

- Patient centered care
- Programs that accelerate elevation to top 20 AMC status/top 10 NCI status
- Prioritization of six signature programs
- Maintenance of CCC designation and PPS exemption
- Leveraging technology as a differentiator
- Program commitments to existing contractual relationships
- Ambulatory strategy that fosters community outreach

Financial Feasibility

- Meet University, Medical Center and James financial goals
- Ability to repay debt (margin/demand)
- Ability to fundraise for programmatic priorities
- Protection of DRG exemption
- Inpatient capacity and mix of service as a driver of revenue
- Additional revenue generating possibilities

Physical Feasibility

- Necessary infrastructure
- Supporting adjacencies that enhance patient care and translational research
- Utilize existing building condition scores for replacement prioritization

KEY ATTRIBUTES: Parameters for Capital Expenditures

- Extended timeline to 2014 for newly defined phasing (to be refined)
- Add an additional bond sale:
 - \$150M for program (approximate)
 - \$100M for escalation (approximate)
- Add a fund raising component (working target - \$75M)
- Comparison of current bond schedule with proposed schedule

FY	Current	Proposed
07-08	\$117	\$117
09-10	\$243	\$243
11-12	\$307	\$307
13-14	--	\$250
	\$667	\$917

- Be more explicit about funding for moveable equipment, including reconciled current \$60-\$70 million annual capital budget with the revised master facilities plan. Prioritize equipment purchases on:
 - Serving multiple programs
 - Revenue generation
 - Expense reduction
 - Technological advancement
- Develop a comprehensive sources and uses statement by year

KEY ATTRIBUTES: Revised Phasing Plan

Phase I - Projects already under construction

• Master Plan (umbrella project)	\$ 9.8M	
• North Doan Faculty Office Building and Digestive Health Center		\$35.9M
• Ross Heart Hospital Addition	\$32.3M	
• MRI Relocation		<u>\$ 7.0M</u>
	Sub Total	\$85.0M

(NOTE: Sub Total does not include approximately \$16M in planning and design fees related to other projects).

Phase II - through 2014

- A. Necessary enabling infrastructure (parking, utilities, etc.)
- B. New Cancer Hospital and Critical Care Tower
- C. TBD

Phase III - 2014 and beyond

- TBD

NOTE: Programmatic and financial implications of delay from the earlier timetable need to be addressed.

**Statement Regarding
Medical Center Master Facilities Plan**

Project Management Structure

The Medical Center Master Facilities Plan will be the largest and most complex capital undertaking in the history of the University. It is imperative this project, or series of projects, be successful.

Both outside consultants have recommended an integrated and comprehensive management structure to make sure the goals are achieved. We concur with that recommendation.

This Master Facilities Plan will involve a series of projects that will require coordination among several different university units including the Medical Center, Health System, James Cancer Hospital, the Comprehensive Cancer Center and the Office of Business and Finance - all of which report to different entities within the University.

In addition, these projects involve more than construction. They require close coordination with hospital, college and university operations, financial and strategic plans, as well as fund raising. Consequently, we will refer to the overall structure that integrates these elements as the program management structure.

In order to integrate this process into something that is accountable and transparent, we propose the following:

- The ultimate decider is the President of the University, who in turn is responsible to the University Board of Trustees.
- Overall responsibility of the program rests with the Executive Sponsors. They are: Chris Culley, Pete Geier, Dave Schuller, Bill Shkurti, Chip Souba

One of the key responsibilities of the Executive Sponsors will be to hire the Executive Program Director who will report to them. The Executive Program Director will be a person familiar with management of the operations and finances of large academic medical centers and health systems, as well as the impact of large construction projects on those operations.

The Executive Program Director will have overarching responsibility for the Master Facilities Plan, which will include overseeing four inter-organization teams, the heads of whom will report to him/her. Those teams are:

- Program and Operations
- Facilities
- Finance
- Development

Medical Center Master Facilities Plan Work List

Executive Sponsors

- Provide overall strategic direction and operational oversight
- Align programmatic, operational and financial priorities
- Communicate to the President and Board of Trustees
- Hire Executive Program Director- provide support and guidance to same
- Oversee consultants
- Approve timelines
- Approve comprehensive business plan
- Approve vision and design concept
- Internal and external communications

Programming and Operations Team

- Develop agreed upon fact base
- Develop metrics for programmatic success
- Develop and track volume projections
- Identify moveable equipment needs
- Reconciliation with other plans
- Develop a plan for continuing operations during construction, including moving and swing space
- Refine and implement an Ambulatory Care strategy

Facilities Team

- Develop options for revised facilities plan, including key elements of revised phases
- Document what is in and what is out
- Develop revised schedule and timeline
- Provide additional detail regarding infrastructure and contingencies
- Clarify hand-offs from schematic design to design development
- Evaluate impact of revised reporting structure on facility operations
- Assess impact of other large construction projects in the area
- Assess impact, if any, of removal of 5th Avenue dam
- Provide operational oversight of construction
- Reconciliation with other plans
- Engagement of design team and construction managers
- Develop a Gap Strategy
- Advance University sustainability goals

Finance Team

- Develop comprehensive business plan
- Determine financial impact of revised construction schedule
- Incorporate appropriate cost reduction component
- Develop financial risk management strategies based on alternative scenarios
- Assess financial implications of new governance structure
- Provide funding options for moveable equipment
- Develop options for financial goals
- Reconciliation with other plans

Public/Private Fund Raising Team

- Propose overall goal
- Recommend counting rules
- Align fund raising goals with specific projects
- Coordination with University Development
- Develop strategies for city, state and federal support in conjunction with the University
- Identify other alternatives

Interim Executive Program Director

- Market for experienced hospital construction managers is very tight nationally; search for a permanent Executive Program Director could take some time
- Additional delay could cause serious capacity, competitive, financial and retention problems
- Therefore, an interim Executive Program Director may be needed
- Experienced search firm will assist the University in filling both the interim and permanent positions
- Interim Director could be a person or a firm
- Early emphasis is on project management and construction planning
- 9-12 month contract to assure continuity

**Next Steps
(December Board Meeting)**

1. First reading of agreed upon Revised Master Facilities Plan Vision.
2. Progress report on Executive Program Director search.
3. Discussion of emerging issues:
 - a. Ambulatory Care Plan
 - b. Gap Strategy
4. May request approval for some or all of the following:
 - a. Low risk, high benefit enabling projects (Attachment D)
 - b. Additional consulting work to refine cost estimates and sequencing of plan revision.
 - c. Low risk, high benefit lease(s) for ambulatory sites.
5. Goals for February Board meeting

**OSUMC Enabling Project Summary
Updated 10.8.2007**

Enabling Project - Permission to advertise and complete the Design Development Services in December to ensure critical timelines can be achieved later in the project process.

Oxygen tank farm:

The existing medical tank farm is located just off of 12th Avenue adjacent to the loading docks of Doan Hall. They are the primary and back-up feeds for all hospital medical gas usage.

The current location will interfere with the development of the new hospital expansion, specifically the Emergency Department. The tank farm must be fully relocated and operational prior to the demolition of Means Hall. The new location will be adjacent to Atwell Hall and is part of the Infrastructure-Roadway Project nearing its completion of the SD phase.

Planning for this soon is important - because OSUMC needs to have this up and running in a new location before the existing farm can come down - this will help us recoup time later as we do plan recovery.

MRI, Means and South Cannon Garage Demo:

Both Means Hall and the MRI building are situated within the footprint of the proposed new hospital expansion. Means Hall currently houses faculty and staff primarily while the MRI is actively providing imaging services to meet the hospital's patient demands. The occupants of Means by the end of this year will be nearing 85% vacancy with the remaining to be back filled into Cramblett.

The new MRI project under construction as part of the Master Plan will replace the operations of the current MRI building with some added capacity. Planning for the demo now will allow razing the buildings sooner as opposed to later will allow us sufficient time to prep and relocate primary Security and Information System utilities as the hospital expansion nears final design phases.

Cramblett:

The Third and Fourth Floors of Cramblett will provide the final space needed to completely vacate Means Hall. The project's scope is primarily a light renovation of space, "patch & paint" and moving exercise. Cramblett is currently undergoing a shuffling of tenants as other projects, North Doan Tower, Morehouse Pavilion are being completed. Cramblett represents the clearing house for Means occupants and will allow us to start abatement procedures required in the near future.

Other Logistical and Relocation Projects:

These projects represent a multitude of interrelated areas which have an effect on the sequencing and coordination of the overall enabling work. They are comprised of utilities, temporary structures, and lay-down areas required to execute targeted areas, this may include the Polo field relocation.

Summary

All project requests are for the continuation of design only so that documentation will be in place as future projects develop. The risk of change with respect to the Master Plan is relatively minor assuming the site for the new hospital is agreed upon by all parties. These enabling or "make ready" projects will allow us to be better prepared for the near future.

November 2, 2007 meeting, Board of Trustees

Total professional fees, inclusive of FDC and project contingency are approximately \$2.4 million.

Total project cost estimates for these efforts will be developed during design.

December 7, 2007 meeting, Board of Trustees

The Chairman, Dr. Cloyd, called the meeting of the Board of Trustees to order on Friday, December 7, 2007, at 8:30am. He requested the Secretary to call the roll.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, John D. Ong, Walden W. O'Dell, Brian K. Hicks, John C. Fisher, Alan W. Brass, Algenon L. Marbley, and Debra J. Van Camp.

Dr. Cloyd:

I hereby move that the Board recess into Executive Session for the purpose of considering personnel matters regarding compensation and employment and for the purpose of discussing matters required to be kept confidential by State Statute.

Upon motion of Dr. Cloyd, seconded by Ambassador Ong, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Ong, O'Dell, Hicks, Fisher, Brass, and Marbley.

Dr. Cloyd reconvened the meeting at 12:20pm.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, Jo Ann Davidson, John D. Ong, Leslie H. Wexner, Walden W. O'Dell, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, and Algenon L. Marbley.

Dr. Cloyd:

Good afternoon and thank you all for being here. Last week Governor Ted Strickland appointed Mr. Ronald A. Ratner, of Cleveland, Ohio, as our new Board member. Mr. Ratner could not be with us today, but we look forward to having him join us at our February meeting.

PRESIDENT'S REPORT

President Gee:

Ladies and gentlemen, I had a very short report last time and I am going to lengthen it a bit, but I am only going to concentrate on one topic. I have all of these notes about the wonderful things going on at the university, and indeed they are, but today let me report on a singularly important activity and event that has taken place at this University by expressing the Board and the university's congratulations to Jessica Hanzlik. We have a resolution that I would like to refer to and it is on the Board's consent agenda as well.

Jessica is from Pickerington, Ohio, and has this month been named a 2008 Rhodes Scholar, one of 32 students nationwide who have demonstrated superior academic ability, leadership, and the potential to make an effective and positive contribution throughout the world.

Her accomplishments as an outstanding student with majors in physics and French, include: election to Phi Beta Kappa; being the recipient of a distinguished Merit Scholarship; a Battelle Scholarship and a Robert C. Byrd Scholarship recipient; recognition for outstanding achievement in physics, mathematics, and scholarship in

December 7, 2007 meeting, Board of Trustees

the Colleges of the Arts and Sciences; pursuit of a degree with distinction in writing a senior honors thesis in French; and achievement of a 3.96 grade point average.

Jessica's accomplishments as a student leader include: serving as founder and President of the Women in Physics Organization and the Women in Math and Science Organization, service on the Honors Student Advisory Board, the Peer Research Contact, and Student Advisory Board. All have earned her the respect and recognition of the University community.

Jessica is the first female selected from Ohio State and only the fifth Ohio State University student to be selected as a Rhodes Scholar, and the first one since 1986.

We understand that she will continue her studies at Oxford University in high energy physics and continue her efforts to enhance the role of women in STEM fields.

Jessica, it is a real honor for us to have you represent this University and I know that you will do it very well. I have had an opportunity to spend some time with Jessica and she is not only a wonderful scholar, obviously, and very passionate about the fields of physics and the world of science, but she is also one of the great, strong advocates and spokespeople for The Ohio State University.

Jessica, the Chairman and I would like to congratulate you and let us bring forward our resolution and hand it to you.

Ms. Hanzlik:

I'm not sure what I am supposed to say right now, but thank you. I think what I am most proud of is that Ohio State is a great school and I hope that this sort of award can bring more recognition to Ohio State and to the quality of education that I have received here. The support and the resources are astounding. Every day I discover more opportunities at Ohio State that I didn't know about yesterday, so I have had a great four years here and I look forward to the future.
Thank you.

President Gee:

Thank you, Jessica. Mr. Chairman that is my report. I should comment on the fact that I have been in office 65 days and we are going to the national championship football game, so I am giving myself full credit for that!

COMMITTEE REPORTS

Dr. Cloyd:

At this time, we will hear committee reports and I would like to begin with Mr. Brass for the Medical Affairs Committee report. Mr. Brass...

Mr. Brass:

Thank you, Mr. Chairman, and good afternoon everyone. We had a very extensive meeting this week as it relates to our Medical Center and specifically as it relates to the expansion project that will be forthcoming.

Dr. Souba began the meeting by giving us a State of the Union address and did a wonderful job. There were a couple of things that I thought would be helpful for the Board to understand. First of all, it is important for us to give back for our mission. It was reported out that through the Medical Center system we did that through our

community benefits at \$100 million plus. As Board members, in light of our non-for-profit status, we need to all be cognizant of that.

The second thing that I would like the group to be aware of today is the fact that our research endeavors have had phenomenal growth. When we take a look by any measurement, we should be very, very complimentary of that. When we look at research growth from the year 2000-2006 our growth in the medical system has been from \$80 million to close to \$200 million and our NIH growth has been from \$60 million to \$100 million. Now NIH is the gold star; it is very difficult to get NIH grants and our faculty has done a wonderful job. It will be tougher as life goes forward and, therefore, we need to be very supportive and complimentary of that.

We have a large group of residents, medical students, and fellows that we have responsibility for training and sometimes we lose sight of that. We have in excess of 800 students and 400-500 residents and fellows that are receiving their medical training here right now.

I would like to move us forward into something that will be very critical as we go forward and make some very large decisions on capital allocations in the not too distant future. First is the strategic plan for the Medical Center. We currently have a strategic plan that is in play that will carry us from 2007 to 2014, complimented by a financial plan and capitalization plan. One of the major goals in that plan is to get us into the top 20 academic medical centers; we are now 35th. That is not a small feat, especially with the various competitive forces moving across the country as it relates to their goal sets at other medical centers as well.

We recently brought in two sets of consultants to take a hard look at both our building plans and our strategic financial plans. We need to be cognizant of the fact that we have to go back and re-verify, revalidate, and relook at some of the unresolved issues in those plans. We need to make sure that the alignment of priorities is done correctly. We need to make sure we are phasing the project correctly, and we need to make sure that the financial implications are well understood in the right order.

Right now we are running approximately 1,080 beds as it relates to our inpatient acute care divisions and calls for us to add between 300-400 more beds. When you take a look at the critical lines within that statement, we know that cancer is one of those areas. We know that the critical care arena is one of those areas and there are others and here comes the priority issues.

As we reengage and revalidate the strategic plan and when we look at the unresolved issues, I would like to highlight what we believe we will be focusing down on: we will take a look at the priorities of the bed needs; we will reevaluate the ambulatory care visits and volumes; and we will take a look at the faculty needs, we are running with approximately 700 faculty members right now. We will take a look at the philanthropy drivers, right now we have \$500 million on line to be calculated in the plan, which \$50-\$100 million is driven towards bricks and mortar. We have to take a hard look at the movable, capital equipment needs and the phasing of the circuit breakers. We have six signature programs that, in fact, are being proposed and will stay with those six signature programs. We have three research protocol programs that will basically cut across all of our systems. We need to take a look at our financial needs, both our EBIDA and our cash on hand, our operating margins, and our debt service.

A couple of very important things, as part of the process of review, we will make sure that the Medical Center Strategic Plan in moving forward is consistent and totally compatible with the University's strategic plan, including its debt capabilities. We will look at the volume forecast. We will make sure that we have a full understanding of what is not included in this plan, which is just as important as what is.

December 7, 2007 meeting, Board of Trustees

The last thing that is moving very well is taking a look at the various scenarios from a construction standpoint that could take place and in what order they may take place.

That is a mouth full and over the next three to five months, we are going to take a look at those critical lines. I'm very happy to report that the executive staff and the medical leadership staff are very much working together.

The comments I just made are in full alignment with our new president as how it relates to where the University wants us to go as well. So with that, Mr. Chairman, we had a great meeting and it was a good review, and we have a lot of work yet to do.

Dr. Cloyd:

Thank you, Mr. Brass. Any questions or discussion?

Mr. Schottenstein:

That was a great report and, Alan, what you said takes this into account, but I just want to ask it in any event. I know that we see, at least throughout the state and certainly in central Ohio, hospitals opening up satellite ambulatory or other kinds of facilities, sort of like a branch banking strategy if you will. As part of the strategic inquiry that you outlined, my question would be to the extent to which Ohio State chooses to locate satellite medical facilities away from the campus will be examined as well. Is that correct?

Mr. Brass:

Mr. Schottenstein, that is a correct statement. In order for us to have a long range plan and a short range plan and to drive the ambulatory and urgent care business, part of that will be a decentralized satellite system. So the answer is yes.

Ms. Hendricks:

Alan, tell me again about your timing. You said you had all of this to do, when do you think you are going to be coming forward?

Mr. Brass:

At the next Board meeting or the next Medical Affairs Committee meeting we will be going in-depth on these various critical items, but there is a lot of planning that has yet to take place. So I think we will begin tackling each and every one of these things as early as the next Medical Affairs Committee meeting. Now it won't be done in one meeting, this is going to be an ongoing process and we also have to make sure that, in fact, it lines up with the University's strategic plan as we continue to develop that. We will be fast tracking.

President Gee:

Karen, we are presented with a great opportunity of having a master planning process taking place in the Medical Center. This is what Mr. Shkurti has been doing, what Provost Alutto has been doing, what I've been doing, what our folks in the Medical Center have been doing, is now revisiting the Master Plan based upon some of the assumptions and some of the issues. Things have changed and we want to move it forward, but we want to move it forward as an aligned proposition with the overall conceptual planning of the University. That is the reason that February is going to be very important, because we do not want in any way to give any signal that we are not committed to moving this forward. We want to make certain that we stage it and move it in the right way and that we have the data that allows us to be confident in those decisions.

December 7, 2007 meeting, Board of Trustees

Dr. Cloyd:

Any other questions or comments? Thank you, Mr. Brass. Mr. Schottenstein, we will now ask for your Audit and Compliance Committee report.

Mr. Schottenstein:

Thank you, Mr. Chairman. The Audit and Compliance Committee met yesterday and the first thing I will say is that we have a new committee name; we are now Audit and Compliance. I think it was you, Mr. Brass, who suggested we expand the name of the committee not just as a matter of ceremony, but as a matter of subject matter review. I think that was a very good suggestion.

We had two topics yesterday that we dealt with and the first one I am going to take a couple of minutes to describe. It was the interim final report that we received from our consultants, PWC, in response to their operational audit. As it relates to that, I thought I might just take a minute or two to give some context to this whole thing.

As this group will recall, it was earlier this year when this Board asked that we undertake an operational audit of various aspects of the University's systems. Pursuant to that and following an RFP process, it was in May of this year that the Audit Committee engaged PWC to conduct this review focusing on a number of things and hopefully getting to the answer of the question, "How do we know what it is that we don't know?"

The review was comprised of four separate work streams. The first one was a work stream that was designed to take a look at our strategic context and decision making. This involved an assessment as to whether or not this Board was effectively involved in strategic decisions. For purposes of undertaking that review, PWC looked at five separate strategic initiatives: 1) the establishment and operation of Campus Partners; 2) the establishment and operation of UMC Partners; 3) the Biomedical Research Tower; 4) the Targeted Investments in Excellence; and 5) the decision to merge the Colleges of Education and Human Ecology. Now let me underscore that these five weren't picked because they were viewed to be problems, we had to pick five just to study this process and we thought these five represented a very good sampling, or at least PWC did.

In each case the questions that PWC looked at were the following: Who had the idea? How was it implemented? Once the implementation began, how was it managed? Was there consistency of execution? Was this Board appropriately involved? How do aspects of centralization and decentralization fit into their continued management? As it relates to the Affiliated Entities, are we properly managing them today? Are they fulfilling the mission for which they were originally created? Are we monitoring them in an effective way? That was the first work stream.

The second work stream had to do with operating compliance and internal controls. As part of this work stream, PWC assessed the University's operating environment and how that environment, in both cases, central control and a very strong decentralized operation help or hinder our ability to advance various compliance and control issues.

The third work stream has to do with reporting. PWC looked at the accuracy and completeness of reporting practices and reporting processes including the manner in which we follow-up once we have made a decision on any one of a number of items. They also reviewed the Board of Trustees' packages, the senior leadership reporting packages, and the review of relevant financial and management reports.

The final work stream, which in some ways weaves its way through the first three, was a benchmarking study where they examined each of the first three; they looked at what other universities are doing. Among the universities that participated in the

December 7, 2007 meeting, Board of Trustees

benchmarking were: Indiana University; University of Virginia; Penn State; the University of California System; Harvard University; University of Michigan; University of Minnesota; University of Wisconsin; and the University of Missouri. While we don't have complete information from all of those schools as it relates to each one of these, there was a little bit from each to help in PWC's report.

PWC reported to the Audit Committee back in September with an interim report and the meeting yesterday was their final report. That report contained a whole series of recommendations divided into minor and major recommendations. It was the feeling of the Audit Committee that the next step before coming back to this Board is for that report to be vetted, assessed, prioritized, and thoroughly analyzed by Mr. Shkurti and Provost Alutto. After they have done that to come back to the Audit Committee with their distillation, if you will, of the report and then for the report to come to this Board.

I will say that while they did not give us a grade, I think the report was very substantive. There are a lot of good suggestions, and, in some cases, some very positive comments about our operation. We can all look forward to hearing that final report, once vetted, hopefully if not by the February meeting the meeting thereafter.

The second item was a report on the OSU Medical Center's Integrity Compliance Program presented by Dr. Hagop Mekhjian. In 1996, this Board established a Medical Center Integrity Compliance Program dealing with all types of ethical practices and many relating to billing as they relate to the Medical Center. I will note that - and I was unaware of this - that we were one of the first universities in the country to establish a program like this. The report was a good one and there have been no sanctions.

That concluded the business of our Audit and Compliance Committee and if there are any questions, I will be happy to answer them.

Dr. Cloyd:

Thank you, Mr. Schottenstein. It seems to me that the PWC report would be relevant and very helpful to the activities that have been initiated here in the University both in terms of looking at strategic planning across all of the operational units and the budgeting process. As part of the vetting, do we know, will that utilize the learnings from those activities that are underway?

Mr. Schottenstein:

I think the short answer is yes. Frankly, some of the things that the Provost has already begun to implement, in terms of the new approach towards the budgeting process, actually were recommendations by PWC. They acknowledged that we are actually ahead of them in some of that, because that is something that we are now doing that we weren't doing when they did their study. That is one of the reasons that we want the next steps for Mr. Shkurti and Dr. Alutto to vet this report and to ensure that.

Dr. Cloyd:

That is great. Other questions for Mr. Schottenstein? Thanks, Bob. We will next have the Development and Investment Committee report from Mr. Wexner.

Mr. Wexner:

Thank you, Dr. Cloyd. We had a very good meeting yesterday and most of it was focused on investment. We did not get to the development side. I think that the conclusion was that we need more expertise. We need to do more benchmarking. We need to understand more about investment practices that are best practices by our Big Ten peers or top universities of our size and scale; and because of the nature of the

December 7, 2007 meeting, Board of Trustees

investment side, probably more meetings since the investment markets move quickly, so it is a combination of what we are doing.

I think yesterday's meeting was an on-boarding for all of us. We did decide to look to reallocate how our funds are invested and the managers of those funds because our performance is not to our satisfaction. When we look at three-year returns on our investment against what we consider the peer institutions, the other very large institutions like Ohio State, we lag that top tier by more than 6% in returns over a three-year basis and each percent is about \$24 million. This is really a burning platform for us to look at what we are doing, how we are doing it, and move us to top quartile performance as soon as possible.

On the consent agenda there is going to be a recommendation for approval. I will have to abstain because I have a conflict and I think other members of the Development and Investment Committee are also. I am supportive of the changes, but I find myself in conflict. Thank you.

Dr. Cloyd:

Thank you, Mr. Wexner. Any questions or comments? Let me just make one statement and applaud the depth of the work that has been done here and understanding the realities in getting a specific plan in place so that we can enhance the return on our long-term investments. We obviously have room for improvement and I am confident we will get ourselves there. Thank you.

We will next have a report from the Committee on Trusteeship. Mr. McFerson.

Mr. McFerson:

Thank you, Mr. Chairman. As we all are witnessing, this is the first of our new two-day operating model and the new committee organizations and new membership on those committees. As Les said, there was some on-boarding taking place in his committee and there was a lot of that taking place all day yesterday. It is great to see that it is working.

The Committee on Trusteeship talked about a half a dozen matters. The first is a matter that you have before you and we would actually like to take a vote on this so that it is in the record. I am sorry we didn't have it in the agendas, but we came up with this yesterday. What it has to do with is the appointment of non-trustee Board committee members and some guidelines. We have had in the past, non-trustee membership on the Audit Committee, the Investments Committee, Medical Center Affairs Committee, and Agricultural Affairs Committee. It is likely that we will want to continue doing that and maybe even expand that, but we should have in place guidelines to help us.

It is very clear that this Board of 15 does not represent all of the skill sets required to do the job on all of the committees. There are very well-qualified people from the community who can help us be sure that we bring all of the right skills to the table and to assist the Board of Trustees in their committee work:

Resolution No. 2008-53

NON-TRUSTEE BOARD COMMITTEE APPOINTMENT GUIDELINES

1. Non-Trustee Board Committee appointments will be for two years and be eligible for a second two-year term for a maximum of four years.
2. Committee appointments will be made by the chair of the committee following discussion with his/her trustee committee members.

December 7, 2007 meeting, Board of Trustees

3. In general, no more than three non-Trustee Committee members will be appointed to any one committee. In all cases, the majority of any committee membership must be trustees.
4. Prior to contacting any potential non-trustee appointee, the committee chair will first have a discussion with the Vice President and General Counsel to ensure there would be no conflict of interest.
5. Non-Trustee Committee members will agree to abide by the Board's Statement of Expectations as it relates to their University committee work.

Mr. McFerson:

I will make a motion then that we accept those guidelines for non-trustee Board committee appointments.

Upon motion of Mr. McFerson, seconded by Mr. Fisher, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Dr. Cloyd:

Any questions or discussion on these proposed guidelines?

Ms. Hendricks:

I know that when we had setup the Audit Committee, we really felt that getting the expertise of people who would meet Sarbanes-Oxley and financial literacy requirements would be helpful since we aren't in control of the nature of these appointments since the Governor appoints all trustees. I would say that I thought they brought exceedingly added value to the Audit Committee. I am assuming that if we would expand this that that would be a benefit altogether and it is a way to get some independence. Now we did that for a particular expertise, but it seems to me that it would probably be applicable. So it is something that seems to make sense based on our positive experience at least in the Audit Committee.

Dr. Cloyd:

Thank you, I would agree. Mr. Brass...

Mr. Brass:

Dr. Cloyd, I also like this very much. A point of clarification, I know the President is in the process of recruiting a chief executive for our Medical Center and, specifically, I am referencing the Medical Affairs Committee. We have had outside trustees on the Medical Affairs Committee up to this point and at this time we are in the process of reorganizing, through the President's Office, how the committee structure or whatever we want to call sub-boards might be at this time and going forward. I want to make sure that as we move forward, if we kept the non-trustees that are currently serving in play, we have the flexibility of making changes at any point so that it is consistent with where the President's Office and where the organization wishes to go. Is that a fair statement?

December 7, 2007 meeting, Board of Trustees

Dr. Cloyd:

As we have discussed it, yes. One of the things that we talked about was that we really want to give the committee chairs flexibility and we recognize that different committees are in different stages of construction, if you will. As you mentioned, in the case of the Medical Affairs area, there is a host of other things going on and how we want to structure and how we want to operate, including who will be the new head when we finish the search process. I think the best guidance is the chairs should have flexibility for these meetings. We have the non-trustee committee members continue to attend. I think that should be the committee chairs' decision on how they want to proceed until they are ready to make the full appointments. The only thing that I would ask is that the committee chairs would personally communicate with their current non-trustee members, so that they will understand what the plans are and the process. I think it would be best to handle it that way. I think that flexibility, as we said when Mr. McFerson's committee brought the new operational structure to us is important. This first year is really going to be a transitional year and we are going to have to work our way through it. So that is what I think would be the best thing.

Mr. McFerson:

I would agree with that.

President Gee:

Let me just add that, so we cannot be confused, I think a little transparent here. One of the opportunities of being a new President - Gee XIV - is to take a look at the structures and functions of the institution in light of the need on going. That is the only thing that I have said to the Hospitals Board, The James Board, and to a number of boards that we are going to take a very careful look about how we structure these boards with their input and with a lot of conversation including some of the consultants we have from the outside. We are trying to align the University in every aspect so there is true alignment and so that there is also a real level of simplicity and agility. It is in light of that that we are having those kinds of conversations. So everyone is being consistent and it is just that we are giving ourselves a little bit of flexibility. I think this is a wonderful resolution.

Mr. Fisher:

Dimon, this is not an amendment to your governance protocol? This is a stand-alone document.

Mr. McFerson:

No. This is a stand-alone document. We are just giving some guidelines on the appointment of non-trustees and, in fact, the encouragement to committee chairs to consider up to three non-trustees to serve on their committees as they see fit. As Dr. Gee pointed out, in the Medical Affairs Committee there is a lot of change going on there, so maybe you want to stay with what you have for a while. For instance, in the Audit Committee there is not a whole lot of change going on. That Committee is pretty much now the way it was and the two outsiders have served well, and so the chair will decide if he wants continuation there or add a third non-trustee member or whatever. These are the guidelines under which we would ask the chairs to follow.

Mr. Brass:

I think your suggestion, Dr. Cloyd, is a very good one. That is to make sure that there is good communication with those who are serving if we wish to have them continue. In the case of Medical Affairs, to make sure that they understand, we are in this

December 7, 2007 meeting, Board of Trustees

process of change and I will ask them to continue on until which time as we are finished with the review process.

Dr. Cloyd:

Excellent. Any other questions or comments on the guidelines?

Judge Marbley:

Dr. Cloyd, I would like to commend Dimon's committee for drafting these guidelines. I think the importance of this is it gives us an opportunity to expand our committees, to bring in more diverse and divergent view points, and to bring in other levels of expertise. I think it is particularly critical for our Committee, the Medical Affairs Committee, as we move forward, because with the exception of Mr. Brass, we don't have anyone on our Board with the level of medical expertise to handle some of the vexing and technical problems that we have involving our health care finances at the Medical Center. So I would like to applaud the efforts of his committee for doing that.

Dr. Cloyd:

Thank you, Judge Marbley.

President Gee:

It is also an opportunity for us to reach out and find wonderful people outside of the University and the state. I'm pointing to Development, I'm pointing to Investments, and I'm pointing to Audit, the opportunity for people to come and participate with us, but to also carry the message about what we are doing is enormously important. This allows us a real chance to raise the profile of the University, as well as get great expertise. I really applaud that.

Dr. Cloyd:

An excellent point.

Ms. Hendricks:

I just wanted to reinforce the idea of it being the one opportunity we have to get people outside the state, I just love that idea. The other thing was on Investments. I think there is a requirement maybe that we have people who are from the Foundation Board sitting on it. Can we expand outside of that or do they have to be from the Foundation Board?

Mr. McFerson:

Karen, we talked about that particular requirement. That was a question that was raised and we didn't have the specifics on whether that is indeed a bylaw coming out of the Foundation or not. It is an issue that needs to be further investigated, but it has certainly been a practice that we have had two representatives from the Foundation Board serve on the Investments Committee.

Dr. Cloyd:

We will find out and there will be additional follow-up with Mr. Wexner regarding what he wants to do on his committee.

December 7, 2007 meeting, Board of Trustees

Mr. McFerson:

I would just like to say one more thing and to our Chairman's credit, he really has put the responsibility on the committee chairs. We could have easily have said, "Subject to the approval of the Board Chair," but he was adamant that this issue needs to be resolved at the committee-level by the committee chairs. I think that is important. We are trying to do less bureaucracy, Dr. Gee.

President Gee:

I think that is important. I think that in light of the governance changes we have made that the empowerment of our committees and committee chairs is a signal of great confidence in the Board process itself. Our Chairman is to really be applauded for that. There is a natural instinct to try and funnel everything and in this instance I think this has been a very positive message.

Dr. Cloyd:

Thank you for that. We need to vote on this resolution and we can do that with a voice vote. All in favor of adoption of the guidelines; anybody opposed? They are adopted.

Mr. McFerson:

Thank you. To continue with the report, next Christopher shared with us some student trustee selection conversations that he has held with the student leadership around campus and we discussed that for a period of time. We have nothing specific to comment on there at this time.

We next talked about operationalizing the Statement on Expectations. This is an important one, folks. We have spent a lot of time on this as a Board and it is important now that the Board chairs and vice chairs and the committees, in fact, really make certain as they go forward with the administration in developing the agendas and putting together the committee meetings that we operate under the spirit of the Expectations document that we all approved. So we talked a little about that and will continue to have it on our agenda for the next few meetings as we move forward. The last thing any of us wanted to see happen is to have this Statement on Expectations sit on the shelf and not be implemented or operationalized.

We then spent some time talking about the orientation of new Board members. Mr. Ratner is one that none of us on the Committee have met and the process will begin with Dr. Gee and Chairman Cloyd before we next meet and then there will be a process taking it down from that level. Part of the orientation will also include spending time with each Committee chair. Of course that doesn't need to happen immediately, but should happen rather soon so that there is a broad understanding of what actions take place at this Board. Committee assignments have already been given to Mr. Ratner and I don't have those right in front of me, but he has been assigned to a couple of committees. We will have yet another new appointee coming in May - just six months from now - and so our process of orientation that we put in place for Mr. Ratner will be one that we will want to address and maybe refine or expand for the new appointee in just six months.

We next talked about the Board Chair process. You will recall a year ago, as this Board was expanded from nine to fifteen, we put in place a process on our own leadership. That process was reviewed and it calls for an annual appointment even though it is fully expected that it will be two-year appointments with the option of going a third year. So the Committee on Trusteeship will review that at the February meeting and bring that back to this Board for an April vote. That will be before the new trustee takes place in May.

December 7, 2007 meeting, Board of Trustees

We then spent a few moments talking about our next steps with Dr. Chait and no resolution was developed there. He is an individual that we have come to respect, he has come to know a lot about the University, he has come to know a lot about us, and it is a relationship that we all feel we want to continue. So we will find a way to do that.

That is the end of my report.

Dr. Cloyd:

Thank you, Mr. McFerson. Any questions or comments on other aspects of this committee report? We will next have the Academic and Student Affairs Committee report, Ambassador Ong.

Ambassador Ong:

The Committee's first action yesterday was to spend some time talking about our agenda for the year 2008. We took notice of the fact that the President has now very carefully outlined his six strategic priorities. In our Statement of Expectations, which we approved at our last meeting, this Board has among other things concluded that we must focus our main efforts on the long-term strategic priorities of the University. For that reason, we have concluded that we will reshape our agenda and deal probably with one, certainly not more than two, major strategic issue at each of our meetings.

As chairman of the Committee, I had met with the Provost prior to yesterday's Committee meeting and we have a conceptual agreement on a half a dozen such topics. The Provost has promised that sometime in January he will get back to me with a more precise definition of those six and with his recommendations regarding the timing with which we would address them. The Committee is in agreement with this, that a paper will be circulated to the Committee after I receive it and we hope to do all of that prior to our meeting in February.

We then had two major items on the agenda. The first one was very much in line with what I just covered, which was a discussion with the Provost about his strategic planning process with the 18 colleges in the University. I have taken the liberty of stealing a couple of his slides.

As you can see, the intent is, beginning, of course, always with the Academic Plan and the President's priorities, to align the goals for the University as a whole with the goals for the constituent colleges and they, in turn, with their constituent departments and some of the special programs that reside in one or the other of them, and then to tie all of that to annual college, department, and program leadership assessments and efforts. This is not the first strategic planning process that has been put in place at Ohio State University, but it is importantly, as I understand it, the first one which is not purely aspirational in nature. It also considers ways and means to achieve the aspirations so that University management can have some ability to judge how many aspirations we are capable of fulfilling.

The Academic Plan and the President's six strategic goals are the guiding light. Each of these college plans must have: a facilities aspect; a financial plan; a capital plan, obviously relating to facilities; a technology plan for whatever kind of research effort is needed in order to fulfill the plan; a development plan for obtaining private sector funding, in addition to University funding; and finally a people plan, what faculty are needed, what kind of students perhaps need to be attracted in order to carry out some of the aspirations in college X, Y, or Z.

This slide is a little daunting, but, again, we start with the strategic goals and the existing Academic Plan. The college plans are going to be five-year plans in nature. The idea is that they will be put in place by roughly June 2008 and thereafter on an annual basis for the ensuing five years. They will be reviewed in order to see whether

progress is being made toward the longer term goals enunciated in them. The original plans, when approved, will include mile posts for each of those subsequent years, so that those judging progress have something very specific and metrical to look at. If there are three milestones to be obtained in year three, we will be able to say, "Did you meet those three milestones or not, and if not why?"

Then, of course, trickling down from the college plan will be department plans and we have a number of special programs, more than 50 I believe, and those need to be evaluated separately. There again you see the assessments of unit progress, the assessments of college progress, and the multi-year program reviews for the special programs that I mentioned. Finally, you will see in each case the assessment leads to the material needed to assess the performance of the dean of each college and in turn to assess the performance of department heads and other units or special program leaders.

Following this we had a brief presentation on the multi-year program reviews by Vice Provost Randy Smith. This is a process which we concluded now, I believe, about 20 of these programs and we have about 30 to go. It is a much shorter program than previously reviewed and the pilot process of this took place just a few years ago. The Committee did note that giving all of these college and department strategic plans, plus the program reviews, is a lot of work for a lot of people. We suggested that a lot of thought be given to scheduling this in such a way that we didn't overload any particular part of the University. Our general review was that this seemed like a very sensible system. We have agreement that the Provost will come back to us probably a couple of times during 2008 and once certainly in June or July when he has most of these reports in hand, and perhaps once more toward the end of the year to see how implementation is coming along.

Secondly, we had a presentation led by Dr. Martha Garland about student-athletes and their academic performance and what the University is doing to spur that academic performance. We looked at the numbers and the numbers are impressive. As most of you know, Ohio State supports more varsity athletic teams than any other university in the country, 36 in all. We have over 800 student-athletes engaged in those 36 sports.

Dr. Garland soon handed over to David Graham, who is the director of the Student-Athlete Support Services Organization or SASSO, the rest of the presentation. We were delighted to learn in 2005 that SASSO was moved from the Athletic Department to the Office of Academic Affairs, so now it is directly a part of student services and is independent of the Athletic Department. Gene Smith was with us and felt that that had been a key and quantitative move.

Mr. Graham related statistics of our student-athletes and based upon grade point average: 30% are high ability students, performing at a high level; 65% are good, average students; and we have about 5% that need considerable help to perform at their best in the classroom. The average GPA of all student-athletes, the 800 plus, is currently 3.01, which is exactly the same average GPA as all OSU students. So on average student-athletes are on par with students as a whole. Mr. Graham reviewed the various programs that he has in place to assist those students, particularly those in the 5% category to increase their skills.

Following his presentation, we had Dr. John Bruno, Ohio State's representative for Athletics with the NCAA, talk about some of the changes or reforms that the NCAA has instituted recently. These reforms include: enhancements in initial eligibility requirements, increases in continuing eligibility requirements, which basically relates to progress towards receiving an academic degree, and the development of objective metrics for quantifying current and historic academic performance, much of which is not based on an individual assessment, but a team assessment.

December 7, 2007 meeting, Board of Trustees

Dr. Bruno went through with us some of the statistical methods that are used by the NCAA. I won't try to repeat those to you, but I would say that he showed the NCAA scores for all of our teams, both men's and women's sports, and the majority of our teams are performing very well academically. These measurements were presented to us in comparison with other schools and with NCAA averages. We actually have five sports teams that are operating at a statistical level of 1,000, which is the highest possible. As an old fencer, I was glad to see that fencing was one of those. More importantly, our football team has been making very steady progress. Its numbers are still lower, but it is making very steady progress of improvement over the last four years which is quite effective. The men's basketball team is the one area that needs good improvement and I think both Academic Affairs and the Athletic Department are very, very much aware of that.

That is my report.

(See Appendix XXVI for background information, page 669.)

Dr. Cloyd:

Thank you, Ambassador. That was an excellent report. I am always amazed, as I learn another one of your skill sets and I think I have a better understanding now of your rapier-like wit. Questions or comments on the Ambassador's report?

President Gee:

One of the things I want to say is thank you, John, for setting us on a very positive course with this committee. We really do appreciate it. It is very consistent with what we are trying to do. Second of all, I know that this looks a little bit complex, but the truth of the matter it is not quite that complicated. Most importantly what it does do is it holds, as you said, we are developing a plan with which there are a lot of expectations. Kin to those expectations are how we as a University administration perform, too. We are holding everyone to accountability. There is a strong accountability formula there and I am very grateful for that.

Dr. Cloyd:

Thank you. We will next have the Fiscal Affairs Committee report. Speaker Davidson.

Mrs. Davidson:

Thank you, Mr. Chairman. We started out the Fiscal Affairs Committee meeting yesterday afternoon with several annual and quarterly reports that I just want to comment on briefly. One was the annual report on the Lines of Credit, which are internal lines of credit that are extended to our academic support units or colleges or regional campuses. The annual report says that we have 25 lines of credit with an outstanding balance of a little over \$90 million, with all of these in compliance with the rules. That total has decreased by \$20 million since the last annual report.

We had an in-depth report on deferred maintenance, which as you know is a continuing concern of the Board. We have an estimate of our deferred maintenance exceeding about \$1 billion and it is up by about \$22 million from the last report that we had. This covers 33 million square feet of space on this campus. There was a lengthy discussion as to whether or not this \$1 billion plus amount really reflects our deferred maintenance problems on campus. I think that Melissa Bellini is bringing on board an outside consultant to review how we actually judge what that deferred maintenance amount is so we have an idea whether we are dealing with \$1 billion or \$2 billion or perhaps more. This will give a higher degree of comfort among the Committee members, that we actually have our arms around what the real problem is. Some of the things we are doing to try and address this is a more comprehensive approach on

some of our projects. When you are getting into a project, whether it is a rehab or a rebuild, you should consider all of the other infrastructure areas that can be improved as part of that project. Obviously, if you look at what we have done in the 2009-2014 capital budget that we approved at our last committee meeting, we are taking in three areas of the campus where we have significant deferred maintenance problems: the North Academic Corridor; our infrastructure problems; and our Student Housing.

There is no question that we have growing needs in this area, that our resources are stretched and that we are probably not allocating as much as we need to be allocating on an annual basis. Looking for ways where we can address this, we are obviously always looking for new resources. We hope that we can begin to beat the drum for some increase in the capital funding that we get from the state every two years, which has been pretty flat. It doesn't even take into account the inflationary cost of construction that we try to build in so that there are some reasonable increases. We go through each of those capital budgets. We have to review increasing our annual commitment from central funds and we obviously have to do a better job in preventive maintenance. I think we got a very good report that sometimes if you take those preventive maintenance steps then you keep from having any additional serious maintenance problems.

We had the first reading on revisions to our facilities approval process. You know that at each of our Board meetings there are a number of things that come before you for approval. I hope you will take a look at these revisions so you will have a level of comfort with them. We would like to move on those at our February meeting. What it would mean is that only those projects that are above a certain financial limit will come to the Board for approval. Some of them come for just one approval process, which is feasibility design and construction. Others above \$10 million in the revision would come to us for two approvals: 1) for the feasibility and design; and 2) for the construction. So I want the Board members to feel comfortable that these new guidelines will let us focus on the very meaningful projects that are coming and would not mean that you won't have that information available to you, but as far as approval processes are concerned, I think that we can just focusing on those things that we need to be looking at.

There was a Quarterly Capital Projects Report, which we revised a little bit. We are looking in-depth at a couple of capital projects each time around to look and see whether or not we are in line with similar projects and our square footage costs. This time the review was for the Newark Campus Warren Library and Student Center and the Ohio 4-H Center, which has just been completed. In comparing these to similar types of buildings on other campuses, our square footage numbers seem to be in line. We received a very good on time, on budget report of our ongoing major capital projects. We are hoping to get to a sheet that shows all green so that they are all there. This time we came the closest we ever have, so I think we are making a lot of progress.

For informational purposes only, Larry Lewellen reported that we are extending our third-party medical claims administration services contract for OSU faculty and staff health plans to NGS American. We had a three-year contract and it was reviewed. They have been providing very good services and Mr. Lewellen just wanted us to be aware that he was extending that contract for another three years.

There are seven items on the consent agenda, which I would like to speak to very briefly. The first resolution is our typical feasibility, design, and construction contracts. The second resolution is the interim authorization, which we do every time we are going to have a little break in Board meetings. This gives the Chair of the Fiscal Affairs Committee, with the approval of the President and the Senior Vice President for Business and Finance, the approval to move ahead on some project approvals if there is a legitimate reason for doing so, which could be cost or could be necessity in getting a project moving. Rather than doing this each time, we have redrafted that knowing

December 7, 2007 meeting, Board of Trustees

now that the Board is going to six meetings. So whenever there is a gap in Board meetings, it will give us that interim authority to move in that direction.

For your approval is a five-year lease for space for the Transplant Center office, with a total of about \$321,000 a year with a top total of \$1.6 million. Also for your approval is the change of contract for our pharmacy benefit manager. I think this is a very good recommendation, because we have a cooperative agreement with some of our major pension plans, STRS, SERS, and OPERS, to join together with a pharmacy benefit manager. This will save us about \$3.2 million per year, which will account for some of the savings we need to report, as you know, to the Chancellor on an ongoing basis. We would be changing that to comply with that cooperative agreement.

We have a recommendation coming from the College of Food, Agricultural, and Environmental Sciences to help them manage their budget for a one-time separation financial incentive program. This would be a two-month salary incentive for those individuals that already qualify for retirement.

The next item is a clarification of Larry Lewellen's authority to act on behalf of the Board on personnel issues relating to our Classified Civil Service staff and law enforcement officers. This is a designation and we just need to be sure it was clarified so that his title permits him to act on behalf of the Board.

The last item was before the Board for first reading at the last meeting and it relates to improvements in our purchasing policies. You have had the opportunity to review these and I think that Bill Shkurti has provided you with a chart and a matrix that shows how many steps each one of these projects goes through in its approval. If we adopt this it will help us to again focus on those major projects. In not bringing all of those forward to the Board for approval, there will still be a semi-annual report on every unbid contract that will be filed and it will be available for review. There will also be a quarterly project on any unbid contract that exceeds \$250,000.

Just one final issue that we discussed at the end of our meeting and will continue to look at is how we get an idea of how much we are actually spending overall in the University on capital projects. We want to find out whether or not we think those total expenditures spread across this vast University make sense in relationship to the size of the organization that we are. We are going to further study that and come back to the Committee with ideas of how we put this together as it relates to the various colleges, to the Medical Center and to Athletics. We want to have an overall picture of what is going on on the campus as far as capital projects are concerned and expenditures.

Mr. Chairman, that concludes my report.

Dr. Cloyd:

Thank you, Mrs. Davidson. Any questions or comments? The Fiscal Affairs Committee covered a lot of territory.

Mr. McFerson:

I think your new system worked pretty well.

Dr. Cloyd:

I think the new system worked pretty well; I agree, Dimon.

CONSENT AGENDA

EXPRESSION OF CONGRATULATIONS TO JESSICA HANZLIK

Resolution No. 2008-54

WHEREAS Jessica Hanzlik of Pickerington, Ohio has this month been named a 2008 Rhodes Scholar, one of 32 students nation-wide who have demonstrated superior academic ability, leadership, and the potential to make an effective and positive contribution throughout the world; and

WHEREAS her accomplishments as an outstanding student with majors in physics and French, include: election to Phi Beta Kappa; being the recipient of a distinguished Merit Scholarship, a Battelle Scholarship and a Robert C. Byrd Scholarship; recognition for outstanding achievement in Physics, Mathematics and scholarship in the Colleges of the Arts and Sciences; pursuit of a degree with distinction in writing a senior honors thesis in French; and achievement of a 3.96 grade point average; and

WHEREAS her accomplishments as a student leader, including serving as founder and President of the Women in Physics Organization and the Women in Math and Science Organization and service on the Honors Student Advisory Board and the Peer Research Contact and Student Advisory Board have earned her the respect and recognition of the University community; and

WHEREAS Jessica is only the fifth Ohio State University student to be selected as a Rhodes Scholar and is the first one so selected since 1986; and

WHEREAS Jessica is the first female to be so selected from The Ohio State University; and

WHEREAS she will continue her studies at Oxford University in high energy physics, and continue her efforts to enhance the role of women in STEM fields; and

WHEREAS through her accomplishments both in the classroom and in her activities she has set an exemplary record of achievement for others to emulate and has honored the University with her pursuits:

NOW THEREFORE

BE IT RESOLVED, That this Board expresses its sincere appreciation and congratulations to Jessica for her service to the University community and her singular achievements in scholarship across the University curricula, and wishes her continued success in her future pursuits.

COMMITTEE APPOINTMENTS 2007-08

Resolution No. 2008-55

BE IT RESOLVED, That the appointments to Committees for 2007-08 be approved as follows:

Academic and Student Affairs Committee:

John D. Ong, Chair
Douglas G. Borrer, Vice Chair
G. Gilbert Cloyd, ex officio
John C. Fisher
Algenon L. Marbley
Alex Shumate

Ronald A. Ratner
Debra J. Van Camp

Fiscal Affairs Committee:

Jo Ann Davidson, Chair
Brian K. Hicks, Vice Chair
G. Gilbert Cloyd, ex officio
Karen L. Hendricks

December 7, 2007 meeting, Board of Trustees

Walden W. O'Dell
Leslie H. Wexner
Robert H. Schottenstein
Christopher A. Alvarez-Breckenridge

Audit and Compliance Committee:

Robert H. Schottenstein, Chair
Karen L. Hendricks, Vice Chair
G. Gilbert Cloyd, ex officio
Dimon R. McFerson
Walden W. O'Dell
John C. Fisher
Ronald A. Ratner
James Bachmann
James Gilmour

Medical Affairs Committee:

Alan W. Brass, Chair
Algenon L. Marbley, Vice Chair
G. Gilbert Cloyd, ex officio
Douglas G. Borrer
Jo Ann Davidson
Brian K. Hicks
Ellen Hardymon
David Lauer
Donald Shackelford

Development and Investment Committee:

Leslie H. Wexner, Chair
Walden W. O'Dell, Vice Chair
G. Gilbert Cloyd, ex officio
Alan W. Brass
Robert H. Schottenstein

Ex Officio:

John Gerlach, Jr. (Found Brd)
David A. Rismiller (Found Brd)

Committee on Trusteeship:

Dimon R. McFerson, Chair
Alex Shumate, Vice Chair
G. Gilbert Cloyd, ex officio
Jo Ann Davidson
Brian K. Hicks
John D. Ong
Christopher A. Alvarez-Breckenridge

Agricultural Affairs Committee:

John C. Fisher, Chair
Robert Boggs, Vice Chair, ex officio
G. Gilbert Cloyd, ex officio
John D. Ong
Douglas G. Borrer
Ronald A. Ratner
Debra J. Van Camp

NAMING OF INTERNAL SPACES IN THE 4-H CENTER

Resolution No. 2008-56

Synopsis: The naming of internal spaces within University facilities is proposed.

WHEREAS gifts and gift commitments have been received by donors to support the construction, equipping or furnishing of the classrooms, offices, laboratories and other noted spaces; and

WHEREAS upon the recommendation of the President and the Senior Management Council, it has been proposed that the donors to these internal spaces be recognized for their generosity:

Project: The Nationwide and Ohio Farm Bureau 4-H Center, 2201 Fred Taylor Drive
Bob Evans Farms, Inc. Board Room (room A150)
Osteopathic Heritage Foundation Health "H" Sponsor (room 105)
Patricia Brundige Hall of Fame Gallery (space X205C)
James Dailey Entranceway (east side of building)
Robert and Sheila Eastman Conference Room (room C100)
Albert and Margaret Gehres Conference Room (room E214)
Ohio Valley Bancorp Entranceway (east side of building)
Ohio Farm Bureau Leadership Circle Hands "H" Sponsor (room 105)
American Dairy Association Heart "H" Sponsor (room 105)
AEP Geothermal System
Larry and Sue Corbin Office (room 312)
Dairy Farmers of America Heart "H" Sponsor (room 105)
Sara Lee Heiner's Bakery Entranceway (east side of building)

December 7, 2007 meeting, Board of Trustees

Jill and Joe Gasper Heart "H" Sponsor (room 105)
Honda of America Foundation International Room (room B110)
Charles and Gwyenna Lifer State Leader's Office (room 420)
Ohio Corn Marketing Heart "H" Sponsor (room 105)
Ralph Rockow Office (room 314)
Barbara Rockow Office (room 316)
Virginia Zirkle Office (room 317)
Frank and Ginni Bazler Office (room 318)
Clarence and Jane Cunningham Alcove (space 401)
Dan Evans Office (room 319)
Temmy Evans Office (room 310)
Greif, Inc. Lobby (space X200L)
Frederick Grimm Family Porch (porch on south side of building)
Jim and Marlene Helt Office (room 321)
Doris Huffman Flagpole (west entrance)
Lois Hungate Plaza (outside Board Room)
Jo Jones Innovation Room (room 510)
Ed Johnson Reception Area (space 115)
Bill and Ernestine Lowrie Office (room 410)
Jim and Lil Marquand International Room (room B110)
Tiney McComb Kitchenette (room 407)
Bob and Joan McCoy Office (room 412)
Mary Blausner Meilwes Break Room (room 315)
Dan and Kathryn Moore Flagpole (west entrance)
Ohio Township Association Control Room (room 220A)
National City Bank Office (room 421)
Vance Family Associate State Leader's Office (room 320)
Jack and Helen Root Office (room 414)
Richard and Nancy Stahl Office (room 416)
Bill and Bette Tyznik Flagpole (west entrance)
Tuscarawas County Office (room 417)
Dan Amstutz Office (room 418)
Cryder/Joseph Family Office (room 419)

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the aforementioned internal spaces in campus facilities are hereby approved, effective immediately.

**ESTABLISHMENT OF A "MASTER OF
PROFESSIONAL COMMUNICATION" DEGREE**

Resolution No. 2008-57

Synopsis: Approval to establish a "Master of Professional Communication" degree is proposed.

WHEREAS as a result of the merger of two units that produced the School of Communication in the mid-1990s, and the different approaches to research and teaching related to that merger, three Master of Arts (M.A.) programs have existed that create confusing terminology for students, and do not reflect the coherence of the existing program; and

WHEREAS the School's Graduate Studies Committee proposes the elimination of the non-thesis option of the Communication M.A. program, the elimination of the Journalism M.A. program, and the elimination of the thesis option of the Journalism and

December 7, 2007 meeting, Board of Trustees

Communication M.A. program with a new designation of a "Master of Professional Communication" degree; and

WHEREAS the proposal was approved by the Council on Research and Graduate Studies, the Council on Academic Affairs approved the proposal in two stages, programmatic changes on November 15, 2006, and the new tagged degree designation on May 30, 2007, and was approved by the University Senate at its November 8, 2007 meeting:

NOW THEREFORE

BE IT RESOLVED, That the establishment of a "Master of Professional Communication" degree is hereby approved, effective upon the approval of the Ohio Board of Regents.

ESTABLISHMENT OF A "MASTER IN ENVIRONMENT AND NATURAL RESOURCES" DEGREE

Resolution No. 2008-58

Synopsis: Approval to establish "Master in Environment and Natural Resources" degree is proposed.

WHEREAS the School of Environment and Natural Resources proposes a tagged, applied, professional degree for practicing professionals and others who want to enhance their professional competency in environment and natural resource science and management; and

WHEREAS the degree is a non-thesis degree that will replace the Plan B non-thesis option currently available to students pursuing the Master of Science (M.S.) in the Natural Resources program, and students wanting to pursue research-oriented careers will continue to enroll in the M.S. program; and

WHEREAS the proposal was approved by the Council on Research and Graduate Studies on June 7, 2006 and on March 15, 2007, the Office of Academic Affairs convened all units on campus that have programmatic emphases related to the term "environment," and received support for this program; and

WHEREAS the Council on Academic Affairs approved the proposal and it was approved by the University Senate at its November 8, 2007 meeting:

NOW THEREFORE

BE IT RESOLVED, That the "Master in Environment and Natural Resources" degree is hereby approved, effective upon the approval of the Ohio Board of Regents.

AMENDMENTS TO THE CODE OF STUDENT CONDUCT

Resolution No. 2008-59

Synopsis: Approval of the attached amendments to the *Code of Student Conduct* are recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the *Code of Student Conduct* as approved by the University Senate; and

December 7, 2007 meeting, Board of Trustees

WHEREAS the Council on Student Affairs has reviewed and approved said revisions to the *Code of Student Conduct*; and

WHEREAS the proposed changes in the *Code of Student Conduct* were approved by the University Senate at its November 8, 2007 meeting:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments to the *Code of Student Conduct* be adopted as recommended by the University Senate.

(See Appendix XXVII for background information, page 671.)

DEGREES AND CERTIFICATES - AUTUMN QUARTER COMMENCEMENT

Resolution No. 2008-60

Synopsis: Approval of Degrees and Certificates for Autumn Quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on December 9, 2007, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

(See Appendix XXXIV for background information, page 731.)

PERSONNEL ACTIONS

Resolution No. 2008-61

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the November 2, 2007 meeting of the Board, including the following Appointment/Reappointment, Concurrent Appointment, Appointment of Chairperson, Leave of Absence without Salary, Continuation, Professional Improvement Leaves, Professional Improvement Leave, Change in Dates, Emeritus Titles, and Emeritus Title - Change in Title be approved; and

BE IT FURTHER RESOLVED, That the Medical Staff Appointments and Reappointments approved on October 2, 2007, by The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Board, be ratified.

Appointment

Name: STEPHEN L. MANGUM
Title: Interim Dean
Office: The Max M. Fisher College of Business
Effective: October 1, 2007

December 7, 2007 meeting, Board of Trustees

Reappointment

Name: DIETER WANNER
Title: Interim Associate Provost for International Affairs
Office: Academic Affairs
Term: January 1, 2008 through December 31, 2008

Concurrent Appointment

Name: WILEY W. SOUBA, JR.
Title: Executive Dean for Health Sciences
Term: November 1, 2007 through August 31, 2011
Present Position: Interim Senior Vice President for Health Sciences and Dean of the College of Medicine

Appointment of Chairperson

MALCOLM H. CHISHOLM, Department of Chemistry, effective December 10, 2007 through September 30, 2011.

Leave of Absence without Salary - Continuation

INDIRA L. CHATTERJI, Assistant Professor, Department of Mathematics, effective Winter Quarter and Spring Quarter 2008, for personal reasons.

Professional Improvement Leaves

JOHN J. FINER, Professor, Department of Horticulture and Crop Science, effective January 3, 2008 through June 8, 2008.

KRISTEN J. GREMILLION, Associate Professor, Department of Anthropology, effective Winter Quarter and Spring Quarter 2009.

Professional Improvement Leave - Change in Dates

CARTER V. FINDLEY, Professor, Department of History, change leave from Autumn Quarter 2007, Winter Quarter and Spring Quarter 2008, to Autumn Quarter 2007.

Emeritus Titles

DONALD J. CEGALA, School of Communication, with the title Professor Emeritus, effective January 1, 2008.

STEPHEN J. RALLIS, Department of Mathematics, with the title Professor Emeritus, effective January 1, 2008.

SIA K. WONG, Department of Mathematics, with the title Professor Emeritus, effective July 1, 2008.

WILLIAM S. DANCEY, Department of Anthropology, with the title Associate Professor Emeritus, effective July 1, 2008.

STEPHEN M. HILLS, Department of Management and Human Resources, with the title Associate Professor Emeritus, effective January 1, 2008.

DOROTHY W. JACKSON, Department of Psychology, with the title Associate Professor Emeritus, effective January 1, 2008.

SUSAN L. JOSEPHS, Office of Academic Affairs, with the title Associate Professor Emeritus, effective February 1, 2008.

CHARLES J. POPOVICH, University Libraries, with the title Associate Professor Emeritus, effective February 1, 2008.

December 7, 2007 meeting, Board of Trustees

Emeritus Title - Change in Title

GEORGE W. HANDLEY, Department of Psychology (Lima), change in title from Assistant Professor Emeritus to Associate Professor Emeritus, effective September 1, 2007.

Medical Staff - Initial Appointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Brent H. Adler, M.D., Associate Attending, Radiology, 8/21/2007

Anthony Antonoplos, M.D., Associate Attending, Radiology, 10/2/2007

Carlos E. Arce-Lara, M.D., Pending Attending, Internal Medicine, Hematology/Oncology, 10/2/2007

Simon Bergman, M.D., Associate Attending, Surgery, General Surgery, 8/21/2007

Michael A. Borunda, M.D., Pending Associate Attending, Emergency Medicine, 10/2/2007

Susie Chang, M.D., Pending Associate Attending, Ophthalmology, 10/2/2007

Jane Dishon-Ritzert, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 8/21/2007

Jillian L. Gustin, M.D., Pending Clinical Attending, Internal Medicine, General Medicine, 10/2/2007

Douglas W. Haden, M.D., Associate Attending, Internal Medicine, Pulmonary, Critical Care, 8/21/2007

Gang He, M.D., Ph.D., Pending Associate Attending, Pathology, 10/2/2007

Michael S. Ingerski, M.D., Associate Attending, Anesthesiology, 10/2/2007

Rami Kahwash, M.D., Pending Associate Attending, Internal Medicine, Cardiovascular Medicine, 10/2/2007

Jamie Keller, M.D., Associate Attending, Anesthesiology, 8/21/2007

Edward Y. Kim, M.D., Attending, Radiation Medicine, 10/2/2007

Stephen Kolb, M.D., Ph.D., Pending Associate Attending, Neurology, 10/2/2007

Louis B. Louis IV, M.D., Associate Attending, Surgery, Thoracic/Cardiovascular, 8/21/2007

Susan C. Massick, M.D., Pending Associate Attending, Internal Medicine, Dermatology, 11/6/2007

Laxmi S. Mehta, M.D., Pending Associate Attending, Internal Medicine, Cardiovascular Medicine, 10/2/2007

Paul K. Nanda, M.D., Associate Attending, Family Medicine, 9/1/2007

Purvi C. Panchal, M.D., Associate Attending, Internal Medicine, Digestive Disease, 10/2/2007

Joseph A. Pantelis, M.D., Pending Associate Attending, Internal Medicine, Hospital Medicine, 10/2/2007

Stephen E. Paquelet, M.D., Associate Attending, Anesthesiology, 10/2/2007

Mitva J. Patel, M.D., Associate Attending, Radiology, 10/2/2007

Parita Patel, M.D., Associate Attending, Family Medicine, 8/21/2007

Jerome A. Rusin, M.D., Associate Attending, Radiology, 8/21/2007

Thomas Ryan, M.D., Pending Associate Attending, Internal Medicine, Cardiovascular Medicine, 10/2/2007

Rosemarie L. Shim, M.D., Pending Associate Attending, Internal Medicine, Nephrology, 10/2/2007

Adrian A. Suarez, M.D., Associate Attending, Pathology, 8/21/2007

Pankaj Tiwari, M.D., Associate Attending, Surgery, Plastic Surgery, 8/21/2007

Subhdeep Virk, M.B.B.S., Pending Associate Attending, Psychiatry, 10/2/2007

Kerry C. Will, M.D., Pending Associate Attending, Internal Medicine, Hospital Medicine, 10/2/2007

Medical Staff - Provisional to Full Appointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Jill L. Barno, M.D., Community Associate, Internal Medicine, General Medicine, 10/2/2007

David G. Bates, M.D., Associate Attending, Radiology, 10/2/2007

December 7, 2007 meeting, Board of Trustees

Heather M. Brom, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 10/2/2007
Kristen R. Blackman-Davis, P.A., Allied Health, Orthopaedics, 10/2/2007
John B. Christoforidis, M.D., Associate Attending, Ophthalmology, 8/21/2007
Michael S. Firstenberg, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 8/21/2007
Nicole R. Hans, C.N.P., Allied Health, Neurology, 8/21/2007
Kathleen S. Hawker, M.D., Associate Attending, Neurology, 8/21/2007
Sangeeta L. Guttikonda, M.D., Associate Attending, Radiology, 10/2/2007
Catherine K. Hesness, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 10/2/2007
Sheri A. Knepel, M.D., Associate Attending, Emergency Medicine, 10/2/2007
Frederick Long, M.D., Associate Attending, Radiology, 8/21/2007
Douglas Martin, M.D., Attending, Radiation Medicine, 8/21/2007
James Murakami, M.D., Associate Attending, Radiology, 8/21/2007
Julie C. O'Donovan, M.D., Associate Attending, Radiology, 10/2/2007
Tushar C. Patel, MB.ChB, Associate Attending, Psychiatry, 10/2/2007
Michael K. Racke, M.D., Associate Attending, Neurology, 8/21/2007
E. Steve Roach, M.D., Associate Attending, Neurology, 8/21/2007
Lisa D. Ross, C.N.P., Associate Attending, Internal Medicine, Hematology/Oncology, 10/2/2007
Shelley J. Ryan, C.N.P., Associate Attending, Internal Medicine, Hematology/Oncology, 10/2/2007
Megan K. Smith, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 10/2/2007
Jerome Stasek, Jr., M.D., Associate Attending, Internal Medicine, Pulmonary, 8/21/2007
L. Jill Staufenberg, C.N.S., Allied Health, Psychiatry, 10/2/2007
Henry Douglas Windler, M.D., Associate Attending, Radiology, 10/2/2007
David A. Zvara, M.D., Associate Attending, Anesthesiology, 8/21/2007

Medical Staff - Reappointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Ulysses J. Magalang, M.D., Associate Attending, Internal Medicine, Pulmonary, 11/1/2007 - 10/31/2009
Douglas D. Martin, M.D., Attending, Radiation Medicine, 11/1/2007 - 10/31/2009
Sharon K. McDowell, M.D., Associate Attending, Physical Medicine, 11/1/2007 - 10/31/2009
Marc P. Michalsky, M.D., Associate Attending, Surgery, Pediatric Surgery, 11/1/2007 - 4/30/2008
Michael J. Miller, M.D., Associate Attending, Surgery, Plastic Surgery, 11/1/2007 - 4/30/2008
Steven M. Nash, M.D., Associate Attending, Neurology, 11/1/2007 - 10/31/2009
Ryan D. Niederkohr, M.D., Associate Attending, Radiology, 11/1/2007 - 4/30/2008
Julie A. Niedermier, M.D., Associate Attending, Psychiatry, 11/1/2007 - 10/31/2009
John A. Norton, D.O., Associate Attending, Anesthesiology, 11/1/2007 - 10/31/2009
Kwame Osei, M.D., Associate Attending, Internal Medicine, Endocrinology, 11/1/2007 - 10/31/2009
Trupti V. Patel, M.D., Associate Attending, Psychiatry, 11/1/2007 - 10/31/2009
William S. Pease, M.D., Associate Attending, Physical Medicine, 11/1/2007 - 10/31/2009
Rodney V. Pozderac, M.D., Associate Attending, Radiology, 11/1/2007 - 10/31/2009
Robert J. Ragosin, M.D., Associate Attending, Radiology, 11/1/2007 - 10/31/2009
Parshan S. Ramsingh, M.B.B.S., Associate Attending, Radiology, 11/1/2007 - 4/30/2008
John L. Robinson, M.D., Associate Attending, Internal Medicine, Cardio Medicine, 11/1/2007 - 10/31/2009
Alan D. Rogers, M.D., Associate Attending, Radiology, 11/1/2007 - 4/30/2008
Melissa Rosado-de-Christenson, M.D., Associate Attending, Radiology, 11/1/2007 - 10/31/2009
Howard R. Rothbaum, M.D., Associate Attending, Internal Medicine, General Medicine, 11/1/2007 - 10/31/2009

December 7, 2007 meeting, Board of Trustees

Brad H. Rovin, M.D., Associate Attending, Internal Medicine, Nephrology, 11/1/2007 - 10/31/2009

Robert L. Ruberg, M.D., Associate Attending, Surgery, Plastic Surgery, 11/1/2007 - 10/31/2009

Medical Staff - Requests for Additional Privileges (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Susie Chang, M.D., Associate Attending, Ophthalmology, Argon & Ophthalmic Yag Lasers, 10/2/2007

Jane Dishon-Ritzert, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, 8/21/2007

Rami Kahwash, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 10/2/2007

David E. Lindsay, M.D., Associate Attending, Surgery, Moderate Sedation, 10/2/2007

Louis B. Louis IV, M.D., Associate Attending, Surgery, Deep Sedation, 8/21/2007

Purvi C. Panchal, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 10/2/2007

Laxmi Mehta, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 10/2/2007

Thomas Ryan, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 10/2/2007

Kerry C. Will, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 10/2/2007

RESOLUTIONS IN MEMORIAM

Resolution No. 2008-62

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

George A. Barber

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 26, 2007, of George A. Barber, Professor Emeritus in the Department of Biochemistry.

Professor Barber was awarded an A.B. degree from Rutgers University in 1951 and a Ph.D. degree in plant physiology and chemistry from Columbia University in 1955, under the direction of Professor R. F. Dawson. He served as a research biochemist at the Connecticut Agricultural Experiment Station and at The Stanford Research Institute before taking a research position in the laboratory of Professor W. Z. Hassid at the University of California-Berkeley, which he held until 1965. He then joined the faculty of the University of Hawaii as an associate professor of biochemistry, a position he held until 1968 when he accepted an appointment in the Department of Biochemistry at The Ohio State University at the rank of full professor. Professor Barber continued to serve worthily on the faculty until his retirement in 1987.

Dr. Barber's most intense research interest was in the complex area of cellulose biosynthesis in higher plants. He began this pioneering work in Professor Hassid's laboratory and continued to conduct research in this area throughout the rest of his career. He also studied extensively the metabolism of sucrose and flavanoids in plants as well as sugar nucleotides, particularly those aspects involving the sugars rhamnose and

December 7, 2007 meeting, Board of Trustees

fucose. His research was supported for many years by grants from the National Institutes of Health. As a notable accomplishment, the *beta* anomers of rhamnosyl- and fucosyl-phosphates were chemically synthesized for the first time in his laboratory.

Professor Barber taught (and taught well) at both the undergraduate and graduate levels. He had high expectations and many undergraduates, graduate students, and postdoctoral fellows were well-trained under his unique style of mentoring and direction.

On behalf of the University community, the Board of Trustees expresses to the family of Professor George A. Barber its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Helen L. Schneider

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 21, 2007, of Helen L. Schneider, Assistant Professor Emeritus in the Ohio State University Extension.

Professor Schneider was born December 15, 1917, in New Burlington, Ohio. She received her Bachelor of Arts degree in mathematics from Wilmington College in 1939, and her Master of Science degree in agricultural education from The Ohio State University in 1975.

Helen began her Extension career in Ohio in October 1948 as a home demonstration agent in Clermont County. In 1954 she became an assistant state home demonstration leader. She resigned in October 1955, but returned to the Ohio Cooperative Extension Service in September 1969 as the county extension agent-home economics in Madison County. She held this position until her retirement on August 31, 1982.

Professor Schneider's contributions in providing Extension educational programs during her career included increasing the interest in food preservation for home grown fruits and vegetables and making these programs available to all homemakers in her county. She wrote a news column each week and was instrumental in placing Extension bulletins in the local library. She conducted demonstrations in the local gas company kitchen for Extension clientele, and conducted programs for low income families, showing them how to prepare well-balanced meals at a low cost. She wrote newsletters giving helpful household hints and new recipes.

In 1975, Helen received the Distinguished Service Award presented by the National Association of Home Economics Agents. Helen was well-respected by her peers and co-workers throughout the entire state. She was a loyal Extension employee and once said, "I have the best job in the world."

On behalf of the University community, the Board of Trustees expresses to the family of Professor Helen L. Schneider its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2008-63

Synopsis: The University Development Report for October 2007 is presented for Board acceptance.

December 7, 2007 meeting, Board of Trustees

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The John Glenn Chair for Technology and Space Exploration, The Thomas Jefferson Chair for Discovery and Space Exploration, and the Dorothy J. and Herbert L. Fenburr Professorship; and

WHEREAS this report includes the establishment of eleven (11) new named endowed funds and the revision of three (3) endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of October 2007 be approved.

(See Appendix XXVIII for background information, page 680.)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

	<u>Total Gifts</u>
<u>Establishment of Named Endowed Funds</u>	
The Center for Retrovirus Research Endowed Fund at the College of Veterinary Medicine Established with royalties from the Retrovirus Group; used to benefit the investigators of the Center for Retrovirus Research	\$50,000.00
Hal Hazelett Endowment Fund Established with gifts from friends and family of Hal Hazelett of Marion, Ohio; used to provide scholarship support to Marion campus students (grandfathered)	\$25,126.00
Friends of Delaware Center Endowment Fund Established with gifts from the Marion Campus Delaware Center Fund; used to provide unrestricted support for scholarships, initiatives, and emerging priorities for students, faculty, and staff at the Delaware Center (grandfathered)	\$25,070.00
Warren Harding - Norman Thomas Fund Established with gifts from OSU-Marion; used to support the development of the Harding-Thomas Center (grandfathered)	\$25,000.00

Established with gifts from the OSU Alumni Club of Clermont County;
used to provide scholarships for high school graduates from Clermont
County, Ohio (grandfathered)

Change in Description of Named Endowed Fund

Rosalie S. and Edward O. Elliott II Scholarship Fund

Change in Name and Description of Named Endowed Fund

From: Scott/Staats Psychology Endowment Fund
To: Outstanding Newark Psychology Student Endowed Award

Total \$11,299,317.42

Establishment of Named Endowed Funds

**The Center for Retrovirus Research Endowed Fund
at the College of Veterinary Medicine**

The Center for Retrovirus Research Endowed Fund at the College of Veterinary Medicine was established December 7, 2007, by the Board of Trustees of The Ohio State University with royalties from the Retrovirus Group.

The annual distribution from this fund shall be reinvested in the endowment principal until the principal balance reaches \$100,000. After the principal reaches \$100,000, the annual distribution will be used to benefit the investigators of the Center for Retrovirus Research. Specification and dispersal of funds must be authorized by the Center director in consultation with the Center's internal advisory board.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Veterinary Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

Hal Hazelett Endowment Fund

The Hal Hazelett Endowment Fund was established December 7, 2007, by the Board of Trustees of The Ohio State University with gifts from friends and family of Hal Hazelett of Marion, Ohio.

The annual distribution from this fund shall provide scholarship support to students who demonstrate financial need, have a 2.8 or higher grade point average, and are enrolled at the OSU-Marion campus. Preference shall be given to students who intend to pursue careers in math, science, and/or education who display skills indicating they could be successful in their selected field. Scholarship recipients shall be selected by the dean and director of The Ohio State University at Marion in consultation with the Office of Student Financial Aid.

December 7, 2007 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean and director of The Ohio State University at Marion.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from both a representative of the group of donors, should one be available, and the dean and director of The Ohio State University at Marion.

Amount Establishing Endowment: \$25,126.00 (grandfathered)

Friends of Delaware Center Endowment Fund

The Friends of Delaware Center Endowment Fund was established December 7, 2007, by the Board of Trustees of The Ohio State University with gifts from the Marion Campus Delaware Center Fund.

The annual distribution from this fund shall provide unrestricted support for scholarships, initiatives, and emerging priorities for students, faculty, and staff at the Delaware Center, a program of The Ohio State University at Marion. Uses may include, but are not limited to, academic awards, event sponsorships, and scholarships. Scholarship recipients shall be selected by the dean and director of The Ohio State University at Marion in consultation with the Office of Student Financial Aid. All other expenditures shall be made at the discretion of the dean and director of The Ohio State University at Marion.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal. The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from both a representative of the donor, should one be available, and the dean and director of The Ohio State University at Marion.

Amount Establishing Endowment: \$25,070.00 (grandfathered)

Warren Harding - Norman Thomas Fund

The Warren Harding - Norman Thomas Fund was established December 7, 2007, by the Board of Trustees of The Ohio State University with gifts from friends of The Ohio State University at Marion.

December 7, 2007 meeting, Board of Trustees

The annual distribution from this fund shall support the development of the Harding-Thomas Center, also referred to as The Age of Normalcy Center. The Center houses research materials of two outstanding Marionites who contributed to the shaping of 20th century America. This material supports undergraduate studies and is available to scholars and the Marion public. This fund will also support the activities of the Center that celebrate Harding and Thomas. The director of The Ohio State University at Marion Honors Program will oversee the fund, in consultation with the librarian and the Honors Committee, as appropriate, and with the approval of the dean and director of The Ohio State University at Marion.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean and director of The Ohio State University at Marion.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from both a representative of the group of donors, should one be available, and the dean and director of The Ohio State University at Marion.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

Change in Name and Description of Named Endowed Fund

Community Bankers of Ohio 4-H Center Fund

The Community Bankers Association of Ohio 4-H Bank Scholars Fund was established February 3, 1995, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from members of the Community Bankers Association of Ohio. The name and description were revised December 7, 2007.

The annual distribution from this fund shall be used for upkeep and maintenance of The Nationwide and Ohio Farm Bureau 4-H Center as approved by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the

December 7, 2007 meeting, Board of Trustees

need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from both a representative of the group of donors, should one be available, and the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

Establishment of Named Endowed Chairs

The John Glenn Chair for Technology and Space Exploration

The John Glenn Chair for Technology and Space Exploration was established December 7, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The Columbus Foundation.

The annual distribution from this fund shall be used to support a chair to lead research on propulsion technologies for orbital payload delivery, interplanetary transport, and space power systems for space travel or for moon/planetary bases. Appointment to The John Glenn Chair for Technology and Space Exploration shall be recommended by the University president, assisted by the executive vice president and provost, and the senior vice president for Research, or their designees, and approved by the Board of Trustees. As per University policy, the activities of the chair holder shall be periodically reviewed by the tenure-initiating unit (TIU) and reported to the president as directed by the Office of Academic Affairs and the Office of Research.

The investment and management of expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. Two-fifths of the annual distribution generated may be utilized for educational and research equipment directly supporting education and training of students and young scientists. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the University president, working in consultation with the Board of Trustees and Foundation Board. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Chair: \$5,000,000.00

The Thomas Jefferson Chair for Discovery and Space Exploration

The Thomas Jefferson Chair for Discovery and Space Exploration was established December 7, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The Columbus Foundation.

The annual distribution from this fund shall be used to support a chair for conducting space exploration on a grand scale in areas of cosmology, astroparticle physics, or planetary science. Appointment to The Thomas Jefferson Chair for Discovery and Space Exploration shall be recommended by the University president, assisted by the executive vice president and provost, and the senior vice president for Research, or their designees and approved by the Board of Trustees. As per University policy, the activities of the chair holder shall be periodically reviewed by the tenure-initiating unit (TIU) and reported to the president as directed by the Office of Academic Affairs and the Office of Research.

December 7, 2007 meeting, Board of Trustees

The investment and management of expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. Two-fifths of the annual distribution generated may be utilized for educational and research equipment directly supporting education and training of students and young scientists. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the University president, working in consultation with the Board of Trustees and Foundation Board. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Chair: \$5,000,000.00

Establishment of Named Endowed Professorship

Dorothy J. and Herbert L. Fenburr Professorship

The Dorothy J. and Herbert L. Fenburr Professorship was established December 7, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with estate gifts from Herbert L. Fenburr (B.Ch.E. 1934, M.S. 1935, Ph.D. 1937).

The annual distribution from this fund shall provide support for a distinguished faculty position in the Department of Chemical and Biomolecular Engineering in the College of Engineering. Appointment for each five-year chair term will be recommended by the dean of the College of Engineering to the executive vice president and provost and the president and approved by the Board of Trustees. Reappointment is possible after assessment of the professorship holder's academic and research performance.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Engineering.

Amount Establishing Endowment: \$427,386.38

Establishment of Named Endowed Funds

The Space Exploration Research Fund

The Space Exploration Research Fund was established December 7, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by

December 7, 2007 meeting, Board of Trustees

the Board of Directors of The Ohio State University Foundation, with gifts from The Columbus Foundation.

The annual distribution from this fund shall be used to support undergraduate, graduate, and postdoctoral fellowships for the career development of individuals demonstrating exceptional ability and motivation for studies in science or allied fields for the furtherance of exploration of space as identified by the University. Award recipients shall be selected by the University president, assisted by the executive vice president and provost, and the senior vice president for Research, or their designees.

The investment and management of expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the University president, working in consultation with the Board of Trustees and Foundation Board. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$421,410.04

McNeil-Siegrist Endowed Scholarship Fund for Special Education

The McNeil-Siegrist Endowed Scholarship Fund for Special Education was established December 7, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Leo (B.S.Bus.Adm. 1971, M.B.A. 1977) and Gretchen (B.A. 1974) McNeil.

The annual distribution from this fund shall provide scholarship support for students admitted into the Special Education program in the School of Physical Activity and Educational Services. Qualified applicants must have a 3.0 or higher grade point average and have earned 60 or more credit hours. Preference shall be given to students with a ranking of sophomore or higher. Scholarships may be renewed for a maximum of three academic years as long as the recipient maintains eligibility. Scholarship recipients will be selected by the dean of the College of Education and Human Ecology in consultation with the Office of Student Financial Aid. The College will apprise the donors of the selection process.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Education and Human Ecology.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from both

December 7, 2007 meeting, Board of Trustees

the donors, should they be alive, and the dean of the College of Education and Human Ecology.

Amount Establishing Endowment: \$100,000.00
Total Commitment: \$100,000.00

The Joseph and Carrol Keifer Memorial Scholarship Fund

The Joseph and Carrol Keifer Memorial Scholarship Fund was established December 7, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Sue Keifer, Barbara Hagen, and Dan Keifer.

The annual distribution from this fund shall provide at least one scholarship, at the discretion of the dean and director of the Mansfield Campus of The Ohio State University, with first preference for a student attending the Mansfield Campus of The Ohio State University on a full-time basis who has graduated from a Richland County, Ohio, high school and has demonstrated financial need. Second preference shall be for any student enrolled full-time at the Mansfield Campus of The Ohio State University who has demonstrated financial need.

The annual distribution of the scholarship fund may be used toward the cost of tuition, room and board, and books. The scholarship shall be distributed equally among the quarters enrolled during the academic school year. The scholarship is renewable at the discretion of the dean and director of the Mansfield Campus, up to 12 quarters (or eight semesters should the University change to the semester system) or until the completion of a baccalaureate degree, whichever comes first.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal. This scholarship fund will be administered by the dean and director of the Mansfield Campus of The Ohio State University in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean and director of the Mansfield Campus of The Ohio State University in consultation with the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Joyce Rupert Kerze Endowment Fund

The Joyce Rupert Kerze Endowment Fund was established December 7, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Joyce Rupert Kerze (B.S. 1971) of Powell, Ohio, in memory of Floyd D. Rupert (attended 1939).

The annual distribution from this fund shall be used for the activities and programs of the JamesCare for Life program. Funds may be used for personnel, supplies, equipment, publications, conferences, and other activities required to maintain and enhance the

December 7, 2007 meeting, Board of Trustees

healing through the arts programming of JamesCare for *Life*. Allocation of funds shall be approved by the director of the JamesCare for *Life* program in consultation with the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute, the director of the Comprehensive Cancer Center, and the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the JamesCare for *Life* program in consultation with the senior executive director of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute, the director of the Comprehensive Cancer Center, and the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Knoll and Gaglione Families Scholarship Fund in Medicine

The Knoll and Gaglione Families Scholarship Fund in Medicine was established December 7, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Herman C. Knoll (B.A. 1951, M.D. 1955) and Joan Clark Knoll (attended 1952); Dr. Aaron Knoll (B.S. 1981, M.D. 1985) and Karen Knoll; and Dr. Elaine Knoll Gaglione (B.S.Nutrition 1983, M.D. 1987) and John Gaglione (B.S.C.I.S. 1985), all of Dayton, Ohio.

The annual distribution from this fund shall be used to fund one or more scholarships to medical students in the College of Medicine based on academic merit and/or financial need. Scholarship recipients shall be selected by the dean of the College of Medicine at the recommendation of the College of Medicine Scholarship Committee in consultation with the College's vice dean for Education and the University's Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Medicine and by the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

December 7, 2007 meeting, Board of Trustees

Amount Establishing Endowment: \$50,000.00

The Alan and Susan Letson Retina and Ophthalmology Fund

The Alan and Susan Letson Retina and Ophthalmology Fund was established December 7, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Dr. Holton C. Letson of Hilton Head, South Carolina.

The annual distribution from this fund shall be used to support the education of ophthalmology residents, acquisition of equipment for research, clinical and patient care, projects in retina disease, and emerging priorities or initiatives related to retina disease in the Department of Ophthalmology. Allocation of funds shall be approved by the chairperson of the Department of Ophthalmology in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine and reviewed by Alan and Susan Letson or their designee(s) at their request. The Department of Ophthalmology will also provide annual reports of fund expenditures to Alan and Susan Letson or their designee(s).

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chairperson of the Department of Ophthalmology in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from Alan and/or Susan Letson or the Letsons' designee(s) and as recommended by the chairperson of the Department of Ophthalmology in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Endowment: \$50,000.00

Clermont County Alumni Scholarship Endowment Fund

The Clermont County Alumni Scholarship Endowment Fund was established December 7, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the OSU Alumni Club of Clermont County.

The annual distribution from this fund shall provide scholarships for high school graduates from Clermont County, Ohio. Scholarship recipients will be recommended by the OSU Clermont County Alumni Club and selected by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

December 7, 2007 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,325.00 (grandfathered)

Change in Description of Named Endowed Fund

Rosalie S. and Edward O. Elliott II Scholarship Fund

The Rosalie S. and Edward O. Elliott II Scholarship Fund was established July 13, 2007, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Rosalie S. Elliott (B.S. 1967) and Edward O. Elliott II. The description was revised December 7, 2007.

The annual distribution from this fund shall provide one or more need-based scholarships for full-time undergraduate students who are graduates of Ridgemont High School of Hardin County, Ohio, or graduates of its successor high school who live in the Ridgemont High School district. It is the donors' desire that students enrolled at a regional campus be given equal consideration as students enrolled on main campus. First preference shall be given to undergraduate students enrolled in the College of Education and Human Ecology or the College of Food, Agricultural, and Environmental Sciences.

Furthermore, it is the donors' desire that if in a given year there are no qualified students who have graduated from Ridgemont High School of Hardin County, Ohio, or graduates of its successor high school who live in the Ridgemont High School district, then graduates from any high school in Hardin County, Logan County, or Union County, Ohio, may be considered.

The scholarships will be awarded at a minimum of \$500 each. The scholarship shall be distributed equally among the quarters enrolled during the academic school year for expenses such as the cost of tuition, room and board, books and supplies, an educational stipend, and miscellaneous educational expenses. The scholarship is renewable up to 12 quarters or until completion of a baccalaureate degree, whichever comes first, as long as the recipient maintains financial need. In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal. The fund will be administered by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

December 7, 2007 meeting, Board of Trustees

Change in Name and Description of Named Endowed Fund

Outstanding Newark Psychology Student Endowed Award Fund

The Scott/Staats Psychology Endowment Fund was established July 9, 2004, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from the estate of Ruth Scott, associate professor emeritus of psychology at The Ohio State University-Newark, and Dr. Sara Staats (B.S. 1952, M.A. 1954, Ph.D., 1958), professor of psychology at The Ohio State University-Newark. The name and description were revised December 7, 2007.

Ruth Scott, supported by Sara Staats, established this award to recognize research activities of OSU-Newark psychology students and to improve their opportunities for entry into graduate school.

The annual distribution from this fund shall be used to fund the annual Outstanding Newark Psychology Student Award offered to an OSU-Newark psychology student, as well as the costs associated with offering the award. The award shall be given to students with research achievements such as publications in peer reviewed articles; presentations at national, regional, or state conferences; and intent to perform an undergraduate honors thesis. In most cases recipients shall have at least a 3.5 grade point average in psychology courses and little, if any, consideration shall be given to the candidates involvement in service work. Recipients shall be selected by a committee composed of the tenured and tenure-track OSU-Newark Psychology faculty and an ex officio member from academic advising in consultation with the University's Office of Student Financial Aid.

The remainder of the distribution shall be used at the discretion of the OSU-Newark psychology faculty, with preference for support to promote the development of a master of psychology degree program at OSU-Newark that would have the training of teachers of psychology as a central goal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by The Ohio State University-Newark psychology tenured and tenure-track faculty. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

December 7, 2007 meeting, Board of Trustees

(07-08 basic renovation request)

WHEREAS in accordance with the attached materials, the University desires to increase the construction contract for the following project:

Larkins Hall - Condensate Piping Replacement (05-06 Basic Renovation request)	\$0.3M	State funds Repair & Ren funds
--	--------	-----------------------------------

** Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project, renovation projects funded by internal office or department funds that are noted as "N/A" have not had separate capital project authorization because of their small size or because they arose unexpectedly between capital planning cycles.*

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into a feasibility study contract, enter into design and construction contracts, and to increase a construction contract for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix XXIX for background information, page 682.)

**AUTHORIZATION TO ENTER INTO DESIGN,
CONSTRUCTION MANAGEMENT, AND CONSTRUCTION CONTRACTS**

Resolution No. 2008-65

Synopsis: Authorization to enter into design, construction management, and construction contracts for University capital projects as necessary between Board of Trustees meetings is requested.

WHEREAS to support the Academic Plan, ensure timely design and construction of University facilities and improvements, and make the most effective use of limited financial resources, the University desires to move forward expeditiously with needed capital projects, subject to approval by the Board of Trustees; and

WHEREAS the recent changes approved by the Board of Trustees with respect to the schedule of Board meetings extend the periods between meetings; and

WHEREAS during these intervening periods, the Board desires to facilitate such capital project approvals, subject to appropriate review and oversight:

NOW THEREFORE

BE IT RESOLVED, That in the intervening periods between regularly scheduled meetings of the Board of Trustees, the Chair of the Fiscal Affairs Committee, in consultation with the Committee and with the Chair of the Board of Trustees as appropriate, shall have the authority, on behalf of the Board of Trustees, to authorize design, construction management, and construction contracts, and approve other related actions, for University capital projects; and

BE IT FURTHER RESOLVED, That, during these intervening periods, as approved by the President, the Senior Vice President for Business and Finance shall present any needed actions to authorize design, construction management, and/or construction contracts or take any related actions for capital projects to the Chair of the Fiscal Affairs Committee, as she or he may direct, for review and approval; and

December 7, 2007 meeting, Board of Trustees

BE IT FURTHER RESOLVED, That, in accordance with the process outlined above and subject to the written approval of the Chair of the Fiscal Affairs Committee, the President and/or Senior Vice President for Business and Finance shall be authorized to enter into design contracts and construction management contracts and enter into construction contracts, if satisfactory bids are received, and take any other related actions on capital projects, in accordance with established University and State of Ohio procedures, with these actions to be reported to the Board at its next meeting.

**FIVE-YEAR LEASE - OSU MEDICAL CENTER
COMPREHENSIVE TRANSPLANT CENTER**

Resolution No. 2008-66

RELOCATION AND EXPANSION
760 KINNEAR ROAD
COLUMBUS, OHIO 43212

Synopsis: Authorization is requested for entering into a five-year lease of approximately 15,000 SF of office space located on the first and second floors of the two-story office building located at 760 Kinnear Road, Columbus, Ohio, 43212, to be occupied by The Ohio State Medical Center Comprehensive Transplant Center.

WHEREAS the Board of Trustees of The Ohio State University is presented with the opportunity to enter into a five-year lease of real property at 760 Kinnear Road owned by Battelle Memorial Institute Employees Credit Union; and

WHEREAS the property contains approximately 20,000 SF and is adjacent to the current operations of the Comprehensive Transplant Center located at 770 Kinnear Road; and

WHEREAS this property will adequately satisfy the relocation and expansion of office requirements of the Comprehensive Transplant Center and the OSU Medical Center has determined that the lease of this property is in the best interest of the University; and

WHEREAS the funds for the lease will be provided by the Department of Transplant Services:

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Business and Finance be authorized to enter into a five-year lease of the improved real property at 760 Kinnear Road for use by The Ohio State University Medical Center and its uses. The lease will be negotiated to contain rental terms and lease conditions determined to be in the best interest of the OSU Medical Center and the University.

(See Appendix XXX for background information, page 711.)

CHANGE OF CONTRACT FOR PHARMACY BENEFIT MANAGER

Resolution No. 2008-67

Synopsis: The award of Pharmacy Benefit Manager (PBM) services for members of the OSU Faculty and Staff Health Plans is proposed.

WHEREAS The Ohio State University proposes a new Pharmacy Benefit Manager for its medical plan membership to provide services such as mail service dispensing facilities, customer service, retail pharmacy network, and prescription drug claims processing; and

December 7, 2007 meeting, Board of Trustees

WHEREAS the Purchasing Department has approved the procurement process for selecting the PBM; and

WHEREAS Buck Consulting and Porter Wright Morris & Arthur were employed to assist with the selection of the PBM and the terms of the contract; and

WHEREAS this opportunity is a result of a collaborative purchasing process with three of the Ohio retirement systems (Ohio PERS, STRS Ohio, and Ohio SERS), and will result in very substantial cost savings; and

WHEREAS the appropriate University offices have reviewed the proposals, and based on the financial considerations, as well as the services, operations and strategies to be provided, it is the recommendation of the Office of Human Resources and OSU Managed Health Care Systems (MHCS) with the concurrence of the Purchasing Department that Express Scripts be awarded a contract to provide Pharmacy Benefit Management services to the University:

NOW THEREFORE

BE IT RESOLVED, That the contract to perform Pharmacy Benefit Management services for OSU Faculty and Staff Health Plans be awarded to Express Scripts for a three-year period effective January 1, 2008, with the option to secure additional terms with Express Scripts for up to a total of six years and that the Senior Vice President for Business and Finance, in consultation with the Associate Vice President for Human Resources and CEO of MHCS, be authorized to negotiate any subsequent renewal agreement and to take any other appropriate action to manage this ongoing contract.

(See Appendix XXXI for background information, page 712.)

**ONE-TIME SEPARATION INCENTIVE PROGRAM FOR THE
COLLEGE OF FOOD, AGRICULTURAL AND ENVIRONMENTAL SCIENCES**

Resolution No. 2008-68

Synopsis: Approval of the proposed one-time separation incentive program for the College of Food, Agricultural, and Environmental Sciences for workforce reduction and reorganization is requested.

WHEREAS the Board of Trustees of The Ohio State University is vested with authority, pursuant to Chapter 3335 of the Revised Code to adopt bylaws, rules and regulations governing the operations of the University, including but not limited to, fixing of compensation for employees of the University; and

WHEREAS in 2002 the Board of Trustees approved a Severance Program, wherein a table of salary and benefit continuation is provided for those who are involuntarily separated from the University; and

WHEREAS the economic value of severance benefits could be constructively utilized to provide incentives for voluntary employment separation when workforce reductions are needed, minimizing the necessity for the disruption of involuntary separations; and

WHEREAS the level of funding for the College of Food, Agricultural, and Environmental Sciences for FY2008 and FY2009, combined with the need to keep faculty and staff salaries competitive will result in a projected \$4.7 million shortfall in addition to similar shortfalls in the FY2006-07 biennium for the College; and

WHEREAS the University desires to institute a one-time Separation Incentive Program for the College of Food, Agricultural, and Environmental Sciences to assist the College in

December 7, 2007 meeting, Board of Trustees

addressing short-term financial demands and providing a speedier transition process toward achieving sustainable levels of employees and programs; and

WHEREAS such a program would provide cash payments and related economic incentives of such economic value that is within the range of the previously adopted severance program benefits:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby authorizes the Executive Vice President and Provost and the Associate Vice President for Human Resources to implement a one-time Separation Incentive Program for the College of Food, Agricultural, and Environmental Sciences, as described in Attachment A, to be effective immediately; and

BE IT FURTHER RESOLVED, That the University shall report back to the Board of Trustees at the appropriate time on the operation of this program.

(See Appendix XXXII for background information, page 713.)

**DESIGNATION OF APPOINTING AUTHORITY
AND DELEGATION OF AUTHORITY FOR THE ADMINISTRATION OF
CLASSIFIED CIVIL SERVICE STAFF AND COLLECTIVE BARGAINING**

Resolution No. 2008-69

Synopsis: Authority to designate the Associate Vice President for Human Resources as the University's Appointing Authority for all personnel issues related to the University's classified civil service staff and law enforcement officers and/or peace officers is proposed.

WHEREAS the Board of Trustees desires to make clear its delegation of authority to the Associate Vice President for Human Resources of all rights, powers, and authority as the University's Appointing Authority, to include any and all authority required for the administration of our classified civil service staff and collective bargaining:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the President, and pursuant to Chapter 3335 of the Ohio Revised Code, the Board of Trustees hereby designates and appoints the Associate Vice President for Human Resources as the University's Appointing Authority for all classified civil service staff in accordance with Chapter 124 of the Ohio Revised Code and all University law enforcement officers and/or peace officers in accordance with Chapters 109 and 3345 of the Ohio Revised Code; and

BE IT FURTHER RESOLVED, That the Board of Trustees hereby delegates and assigns to the University's Appointing Authority full authorization, pursuant to Chapter 4117 of the Ohio Revised Code, to negotiate, ratify, fund and otherwise administer any and all collective bargaining agreements on behalf of the University; and

BE IT FURTHER RESOLVED, That the Associate Vice President for Human Resources shall report to the Board of Trustees from time to time, as he deems appropriate or as the Board requests, on actions taken pursuant to this resolution, effective immediately.

REVISIONS TO THE POLICY ON PURCHASING AND COMPETITIVE BIDDING

Resolution No. 2008-70

Synopsis: Authorization for the adoption of the revised policy on purchasing and competitive bidding is requested.

WHEREAS it is the policy of The Ohio State University to solicit competitive bids or proposals in making University purchases in all cases wherein the best interest of the University will be served by such competition; and

WHEREAS the University's policy on purchasing and competitive bidding has been established by the Board of Trustees through Resolutions 84-61, 85-29, 86-41, 87-38, 87-39, 88-55, 92-78, 95-17, and 2002-97 and there is a need to revise and update the University's policy on purchasing:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby revises the policy on purchasing, as follows, effective immediately:

1. Under the direction of the Senior Vice President for Business and Finance, the Office of Business Operations shall have the responsibility and requisite authority for the purchase of equipment, materials, supplies, and services for the University.
2. Except as provided below, all equipment, materials, supplies, and services shall be purchased through solicitation of competitive bids or proposals except where such equipment, materials, supplies, or services are purchased pursuant to Sections 4115.31 to 4115.35 and 5147.07 of the Revised Code, or where the amount of such purchase of equipment, materials, and/or supplies is less than \$25,000 or where the purchase of services, or any combination of services, equipment, materials, and supplies, is less than \$50,000. The above threshold amounts notwithstanding, the University may require competitive bidding for purchases below these threshold amounts if it determines that such bidding is in the best interest of the University. Contracts shall be awarded to the lowest responsible and responsive bidder. In accordance with policies and procedures established by the Office of Business and Finance, the University may accept or reject any or all bids or proposals in whole or by item. For any contract authorized by the University's policy on purchasing, the University is authorized to make multiple awards as provided for in the University's request for bids or proposals.
3. The President and/or Senior Vice President for Business and Finance, or his or her designee, may grant a waiver from competitive bidding when he or she determines that an emergency or a sufficient economic reason exists, or that the equipment, materials, supplies, or services can be purchased only from a single supplier ("sole source").
4. The President and/or Senior Vice President for Business and Finance, upon recommendation of the appropriate University office responsible for University collections and with any necessary budgeting approval, is authorized on behalf of the University, on a continuing basis, to purchase (including through the commissioning of such work or objects), without competitive bidding, objects of fine or decorative art or other objects to be collected for and on behalf of the University, from funds authorized for such purposes, upon such terms and conditions as are deemed to be in the best interest of the University, but not to exceed \$1 million per art work or collection based on an appraisal (or appraisals) acceptable to the University. This provision rescinds Resolution 84-61.
5. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase, without competitive

bidding, equipment, materials, supplies, or services through any non-profit or governmental agencies or consortia (including but not limited to the Inter University Council Purchasing Group) whose contracts meet the competitive bidding requirements as determined by the University, upon such terms and conditions as are in the best interest of the University.

6. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to enter into agreements, without competitive bidding, for entertainment acts, performers, and artists, and their selected, required, or contractually mandated promoters or associated vendors, as scheduled by various University departments, upon such terms and conditions as are in the best interest of the University.
7. Resolution 87-38 is hereby reconfirmed and the President and/or Senior Vice President for Business and Finance, in consultation with the Senior Vice President for Research, is authorized on behalf of the University, on a continuing basis, to negotiate and to enter into, without competitive bidding, agreements, including purchase agreements, as are necessary or desirable to acquire, finance, install, equip, maintain, operate, and up-date current generation and subsequent new generation supercomputing equipment developed by or for use with Cray Research, Inc., supercomputing equipment.
8. In accordance with Section 5513.01(B) of the Revised Code, the President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase, without competitive bidding, through Ohio Department of Transportation agreements, machinery, materials, supplies or other articles upon such terms and conditions that are in the best interest of the University.
9. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase, without competitive bidding, books, periodicals, and other related items for the University Libraries' collections.
10. In compliance with Section 125.081 of the Revised Code and any applicable court decisions, the University shall set aside a number of purchases each year for bidding by certified minority businesses only. The bidding procedures for such contracts shall be the same as for all other contracts except that: 1) only minority business enterprises certified by the State of Ohio Equal Employment Opportunity Coordinator shall be qualified to submit bids; and 2) the cost of products and services may not exceed the estimated market price by more than approximately 10%. If bids are rejected because of this cost consideration, the purchase shall be offered again for bid by all interested vendors in accordance with standard bidding procedures.
11. Resolution 95-17 is hereby reconfirmed, and notwithstanding any other provision of this policy on purchasing, the Vice President of Health Services shall have the responsibility and requisite authority for the purchase of equipment, materials, supplies, and services for the Hospitals of the University and their related facilities, in accordance with this University Purchasing Policy. The exercise of this authority by the Vice President of Health Services shall be subject to the oversight authority of the Senior Vice President for Business and Finance who shall review the application of this delegation of authority every three years.
12. Resolutions 87-39 and 88-55 are hereby reconfirmed, and the President and/or Senior Vice President for Business and Finance is authorized, on a continuing basis, to purchase, without competitive bidding, equipment, materials, supplies, or services through the University Hospital Consortium, Inc., and the Hospital Helicopter Consortium of Central Ohio, whose contracts meet the competitive

bidding requirements as determined by the University, and upon such terms and conditions as are in the best interest of the University.

13. The President and/or Senior Vice President for Business and Finance is authorized, on behalf of the University, on a continuing basis, to negotiate and enter into agreements, to purchase services for blood and organ products for transplantation, without competitive bidding, upon such terms and conditions as are in the best interest of the University. This provision rescinds Resolution 86-41.
14. The President and/or the Senior Vice President for Business and Finance is authorized on behalf of the University to employ reverse-auctioning procurement methods for the purchase of goods and services, in accordance with the competitive bidding requirements as determined by the University.
15. Resolution 2002-97 is hereby reconfirmed, and the President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding, equipment, materials, supplies, or services through participation in State of Ohio term schedules in which the vendor guarantees that the State will receive the lowest price as offered to the federal government and in which the vendor agrees to accept all of the State's terms and conditions.
16. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding, the renewal of licenses and maintenance agreements for existing mission critical enterprise-wide software applications, upon such terms and conditions as are in the best interest of the University.
17. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis and without competitive bidding, to negotiate and enter into real estate lease agreements in accordance with existing University procedures, upon such terms and conditions as are in the best interest of the University.
18. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding, municipally based and other single-source supplies of utility services, upon such terms and conditions as are in the best interest of the University.
19. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding and in support of the mission of WOSU Public Media, products and services available solely through the Public Broadcast Service, National Public Radio and the National Program Service (including but not limited to programming fees and promotional products), upon such terms and conditions as are in the best interest of the University.
20. The President and/or Senior Vice President for Business and Finance is authorized on behalf of the University, on a continuing basis, to purchase without competitive bidding, necessary services for authorized student exchange programs with other institutions of higher education, upon such terms and conditions as are in the best interest of the University.
21. The President and/or Senior Vice President for Business and Finance is authorized, on behalf of the University, on a continuing basis, to negotiate and enter into agreements to purchase physician services in support of the University Health System, without competitive bidding, upon such terms and conditions as are in the best interest of the University.

December 7, 2007 meeting, Board of Trustees

22. Notwithstanding any other provision of this policy to the contrary, any contract or purchase, whether competitively bid or not, for goods or services which contract or purchase is in excess of \$1 million must have the prior written approval of the Senior Vice President for Business and Finance.
23. Notwithstanding any other provision of this policy to the contrary, any contract or purchase for goods or services for which competitive bidding is waived, and which contract or purchase is in excess of \$500,000 must have the prior written approval of the Senior Vice President for Business and Finance.
24. All contracts or purchases for goods or services for which contract or purchase is in excess of \$250,000 for which competitive bidding is waived, shall be reported to the Board on a quarterly basis.
25. A report of all contracts or purchases for goods or services for which competitive bidding is waived shall be provided to the Board of Trustees Office on a semi-annual basis.
26. This policy applies to all funds administered by The Ohio State University.

REVISION OF THE ENDOWMENT FUND INVESTMENT POLICY

Resolution No. 2008-71

Synopsis: Revision of the University's Endowment Fund Investment Policy is proposed.

WHEREAS the Board of Trustees, from time to time, has adopted specific policies governing various aspects of the management of the investment portfolios; and

WHEREAS there is a need for comprehensive policies to provide for the overall management of the investment portfolios; and

WHEREAS there is need to modify the comprehensive policies on occasion:

NOW THEREFORE

BE IT RESOLVED, That the following Endowment Investment Policy for The Ohio State University be adopted by the Board of Trustees; and

BE IT FURTHER RESOLVED, That the Treasurer and/or Senior Vice President for Business and Finance be, and hereby are, directed and authorized to implement and administer this policy and to manage the Endowment Investment Portfolio in accordance with this policy.

Upon motion of Mr. Schottenstein, seconded by Mr. Brass, the Board of Trustees adopted the foregoing resolution with twelve affirmative votes cast by Trustees Cloyd, Hendricks, McFerson, Davidson, Ong, Wexner, O'Dell, Hicks, Fisher, Schottenstein, Brass, and Marbley.

APPOINTMENT OF INVESTMENT MANAGERS AND REALLOCATION OF FUNDS

Resolution No. 2008-72

WHEREAS it is the policy of The Ohio State University to utilize the service of external Investment Managers to assist in the management of the University's Long-Term Investment Pool; and

December 7, 2007 meeting, Board of Trustees

WHEREAS the Development and Investment Committee of the Board of Trustees periodically reviews the results obtained by the external investment managers and the amount of funds assigned to each of them; and

WHEREAS it is prudent practice to reallocate funds assigned to external investment managers as conditions change; and

WHEREAS the number of external investment managers and the amount of funds assigned to them shall be determined by the Board of Trustees; and

WHEREAS the Board of Trustees last approved the Appointment of Investment Managers and Reallocation of Funds on September 21, 2007:

NOW THEREFORE

BE IT RESOLVED, That the following changes shall be made:

	Allocation as of 10/31/07	Changes	Revised Allocation
<u>International Equity</u>			
BlackRock	\$72,606,812	\$11,000,000	\$83,606,812
LSV Asset Management	\$67,489,875	\$16,000,000	\$83,489,875
Voyageur	\$64,252,328	\$19,000,000	\$83,252,328

December 7, 2007 meeting, Board of Trustees

Upon motion of Ms. Hendricks, seconded by Judge Marbley, the Board of Trustees adopted the foregoing resolution with eight affirmative votes cast by Trustees Cloyd, Hendricks, McFerson, Ong, Hicks, Fisher, Brass, and Marbley, and four abstentions cast by Trustees Davidson, Wexner, O'Dell and Schottenstein.

Dr. Cloyd:

I would next like to call on Bill Shkurti and Tom Johnson for a presentation on Debt Management.

DEBT MANAGEMENT UPDATE

Mr. Shkurti: [PowerPoint presentation]

Thank you, Mr. Chairman. This presentation comes out of a conversation I had with the Chair of Fiscal Affairs. Chair Davidson and I both agreed that there seemed to be a lot of questions and a lot of angst among Board members about the University's debt policies, I think more from just a point of questioning how it all fits together, and then tying that altogether with President Gee's emphasis on alignment. I think that is appropriate because we are in a position where we are going to be issuing a lot of debt over the next several years. How do our debt priorities and our debt policies align with our capital priorities, our academic priorities, our financial priorities, and our governance priorities? So this is an attempt to address that.

I realize I am dealing with an intelligent audience, but it has a diverse background in financial issues such as debt, so I have tried to gear this above the kindergarten-level, but below the Ph.D., in the middle and not to go to extremes in esoteric financing, rather to give everybody a good understanding of the implications.

What this is designed to do is cover four areas: 1) to set a general context for everybody; 2) to understand the concept of debt capacity; 3) then the heart of the presentation is the three policy issues: how do we maintain or protect our credit rating; what are our priorities; and how do we deal with off-balance sheet debt; 4) then conclusions and next steps. The other thing I would like to say is it took the work of a lot of people to put this information together and I want to acknowledge the work of Tom Johnson and his staff, and particularly Al Rodack, who is the institutional memory on debt. Al, will you please stand? And I will call on him if needed.

Let me turn first to context and answer the question of: how much debt do we have; whose is it; how has it grown; and does the University have policies regarding it? This slide shows you the total debt that existed on last June 30, it is \$1.1 billion. This is the way the rating agencies count debt, and I will get back to that later. The biggest part of that debt is the fixed and variable rate bonds that you see there, the bottom part of the pie chart, and those are 20-year bonds. That is the standard University policy and that is really the biggest part of our debt, but you can obviously see that those are the things that count, such as capital leases and so forth.

The next chart shows you whose debt it is, because we allocate back to different units that have asked to have the debt service. You will see that the biggest portions are assigned to the Medical Center, particularly the Health System, Athletics, and Student Affairs. The thing that all three of those organizations have in common is that they are auxiliaries, which means that they generate their own revenue therefore they generate the capacity to pay off the debt. You won't see a lot of the academic units in there and I will talk about that later, but that gives you a sense of the spread. The other thing is that we never have a problem in collecting this when a unit commits to it, because we bill them automatically. We have had a very good record of units paying their debt back.

December 7, 2007 meeting, Board of Trustees

This next chart shows you how our debt has grown and you can see it accelerated quite a bit. In fact, it started accelerating in 1997 as President Gee left. There is a cause and effect and state funding really started to take a downturn back in the late 1990s and the University was turning more and more to its own resources. In fact, between 1997 and 2007 the University's bonded indebtedness increased five-fold. Now the amazing thing is that we maintained our credit rating in that period and we will talk about that later, but you can see it has increased quite a bit.

One question I get a lot is, "Does the University have a policy?" In fact, the policy was initially approved at the tail end of Gee XI in May 1997; it was revised in December 2003; and just recently expanded to cover leases and other elements of debt in May 2005. The major elements of the policy are what are listed in the chart -- that it is comprehensive. I want to stress two things: 1) no major capital project is initiated without prior Board approval; and the correlator to that is 2) no debt is issued without prior Board approval. That has been the case ever since that policy was approved in 1997 and it wasn't always the case in the past, but the Board is appropriately engaged in oversight. It is also the University's policy that a credit rating of at least AA must be maintained and we have been very successful at that. I think in general I can say that the University has been scrupulous about following these policies and that is one of the reasons we have been able to increase our debt and get a lot done and still maintain our credit rating.

Now we are going to turn to the concept of debt capacity, talk about what it is, why it is important, how it is determined, and how OSU compares to some benchmarks. The concept itself is really pretty simple -- how much additional long-term debt can we issue at a given credit rating? These credit ratings are similar to what you might get on your own credit and there are three for profit entities that do this: Moody's, Standard and Poor's, and Fitch. When we set out a bond issue, we actually pay them in part to give us a credit rating. The people that would buy those bonds, whether it is institutions or investors, then use that credit rating, because obviously they want to buy bonds that they know will be paid back. And depending on how high the credit rating is, or isn't, has an implication on what kind of interest rates we have to pay.

This gets us into why the credit rating matters, because it helps set the interest rate, especially if it is 20-year bonds that exist for 20 years. So the better credit rating you have, the less interest you pay. It is a good thing. It is also an external independent evaluation of the financial strength of an institution, it helps us establish a focus for scarce resources, and once it falls it is very hard to reestablish. We will talk about that later.

The only thing I would stress - and this comes from a document that Moody's actually issued, they love to issue these pontifications when in fact they are very useful - and what they stress, which is correct, it is not determined by formulas and ratios alone, it is really a judgment that reflects a number of factors that are listed there. One of the things that I would stress - because this tends to get overlooked - if you go down to the fifth bullet point, the relationship with the state. As a state institution, our debt rating and our debt capacity is determined not only by our own efforts, but by the rating agencies perception of how good of shape or not they think the state is in. The state of Ohio has had some struggles in the last couple of years, although it has been stronger more recently. There is only one institution that has a credit rating higher than the state in which it is in. We will talk about them in a minute.

Here are some additional concepts. The one that I would stress here is that it is not a static concept, your debt capacity and your debt rating can change. The third bullet point - revenue generating projects have a different impact than others. In other words, if the credit rating agencies are convinced your making good investment decisions and that the debt you are issuing has a good chance of being paid off, they are going to respond more positively than if they think the reverse.

December 7, 2007 meeting, Board of Trustees

I also want to stress the fourth bullet point and I will talk about it more in a minute. Off balance sheet financing is included despite conventional wisdom to the contrary. And we will get back to that in a minute, too.

Here is our comparison with the benchmarks. These are the benchmark institutions that are academically very highly rated, but structurally similar to Ohio State. You will see there at the top is the University of Michigan - a AAA. The highest ratings are at the top, the lowest at the bottom. Michigan is that one exception. The state is not AAA rated and, if you have been reading the press lately, you can understand why. I will talk in a minute about how Michigan is able to maintain that rating. Texas at Austin has a AAA rating as well, but a lot has to do with an endowment they have from oil wells under the ground that have been with them for years.

Mr. Schottenstein:

One quick question, Bill. If we were to move up from AA2 to AA1 incrementally, what would that mean in terms of interest rates?

Mr. Shkurti:

The general rule of thumb is that the interest rate goes up or down by 15-20 basis points per notch on the credit rating. So if you are issuing \$500 million of debt --

Mr. Schottenstein:

We have about \$950 million of debt.

Mr. Shkurti:

Remember the rating is only for the debt that is being issued at that point in time. So on a \$500 million bond issue, 20 basis points would be \$1 million. Remember that is over 20 years, so it could be \$20 million - it adds up significantly.

Ms Hendricks:

What is the state of Ohio's rating?

Mr. Shkurti:

I believe it is the equivalent of AA. A1, is that correct?

Mr. Rodack:

AA1.

Mr. Shkurti:

AA1. The other thing I would point out is that we are in the middle. Wisconsin is not rated there because they are lumped in with the state. The University of Wisconsin is on a different system.

This next chart is kind of mischievous, but interesting. What I had our financial people do is take three institutions that represent the middles and the extremes. On the left-hand side you have the University of Michigan, which I would call the gold standard. On the right-hand side you have the University of Cincinnati, who is struggling right now, and you will see why. Then we looked at a number of different comparisons. I should also point out that in terms of the number of students, OSU is about 50,000, Michigan is about 40,000, and the University of Cincinnati is about 30,000, so that affects their size somewhat.

December 7, 2007 meeting, Board of Trustees

First look at the annual revenues, Michigan has less students but look how much more they generate in the way of revenues. Then the University of Cincinnati of course is smaller has even a lesser amount than us. Then you look at the existing debt line and the amount of debt of the three institutions is about equal.

The next line - expendable net assets is a fancy accounting word for cash and you can see that we have \$1.4 billion. But look at Michigan -- \$6.4 billion. That is not endowment, that is cash. So they are sitting on a lot of cash up there, in fact they have six times as much cash as they do debt. So even if you are a rating agency and you think the state of Michigan is going down the tubes, the University of Michigan is very strong financially. Then take a look at the University of Cincinnati, and I think you may have read in the press they have been struggling and that shows pretty clear.

So then you get down to the bottom line, which is the credit rating and you can see why Michigan is AAA, you can see why we are AA2, we are kind of in the middle, and you can see where Cincinnati is at the A level. This was done off the financial statements. They were a negative credit watch at the time; their rating was lowered to A1, which is where they are now. When I say that the University of Cincinnati is struggling, I am not exaggerating. It is going to take them years to dig out of the position they are in. Now they are going to function and they are going to survive, but they won't be able to do the kinds of things that we can do or Michigan can do, because we have kept our credit ratings strong.

This next chart is just another way of comparing where we stand. This is, in fact, a question a number of Board members have asked: What are the major ratios? Remember Moody's has pointed out that they don't rate solely on ratios, but the ratios are important. These are the three most important ratios that the rating agencies look at. We are looking at OSU compared to the median for AA2, so it is other institutions that are about as financially strong as we are. A plus there on the right-hand side means that it is good - our ratio is good compared to the others, sometimes less can be better in this case, and the negative is where we are behind. So what you will see is that our annual debt service as a percentage of our operating expenses is lower than for the AA2 median and our debt service coverage is higher. So both of those are good; we are better than the median. Where we fall a little bit behind is financial resources to direct debt - that is another fancy way of saying cash. So even though our morning newspaper thinks we have too much cash, the rating agencies don't concur with them. If we wanted to strengthen our financial position we should be accumulating more cash. I think this also gives you a sense of why we are in that AA2 range.

Now one question I get from time to time is: Why shouldn't we try for a AAA rating like Michigan? If we had their money it would be nice, but the short answer is that there is no way we are going to accumulate that kind of cash and we have other needs for it if we did.

Another question I get is: Why don't we take on more debt and have a lower rating? Although it would be nice to spend more money on debt, it would be real hard to crawl back from that. It would cost us more on interest, it shows a lack of institutional focus and leadership, I think, and once your rating is lowered it is very hard to get it back. If there is something that is out of your control - market down turn or the state runs into financial trouble - you have the potential to drop two levels instead of one and then it is really hard to dig out.

Now I mentioned that we would talk about issues that are really key to this discussion and there are three of them: 1) our relative priorities; 2) off balance sheet debt; and 3) future capacity. This is an interesting chart and this is state capital appropriations. You may say, "Has Bill lost his mind? What does this have to do with debt?" Actually it is important in terms of the context. What this shows is by a series of standard categories -- where our state capital appropriations are spent. You will see that 80% of it goes to colleges and libraries, because what you will see when we get to the debt side, is that

it tends to be the auxiliaries who have the money to pay the debt back. It is really hard to issue debt on a library. What are you going to use to pay the money back? We try to use state money as much as we can and private gifts where we can as well. You will also notice the regional campuses are in there, they are allocated a certain portion of our debt by a state formula. This is state capital appropriations only, not debt, but it forms the next chart.

This is probably the single most important chart if we talk about priorities. It looks complicated, but it's really not. Down the left-hand side I've taken the major areas of the University, and you can see them listed there, then the next column is their share of the University's operating budget. This is just to give you a sense of the order of magnitude of their operation financially. I need to stress just because they have that share of the budget, they do not have an entitlement to that share of bond capacity - although every now and then I get that argument. In fact what management is supposed to do is to sort those decisions, to put them in a way that makes sense strategically, and I think you will see how we did it.

Then you go to the next column and that is the share of existing debt as of June 30, 2007. So some of that debt was issued 19 or 20 years ago, but it will give you a sense of the University's historic priorities. You will see the big three auxiliaries: the Medical Center, Athletics, and Student Affairs. Now the interesting one is Athletics, because whenever we do anything with Athletics it is interesting because of their size. You might ask yourself, "What the heck are you doing with 21% of the debt for Athletics and they are only 3% of your budget?" Remember we did a major renovation of the Stadium a couple of years ago. The Stadium was built in 1929, it had not undergone any renovations for 60 some years, so you had a kind of lumpy - a pig through a python -- I guess in terms of that. I will get back to that in a minute.

With Student Affairs most of the existing debt is on student services' facilities like the Recreation Center and related things like that. It also includes housing and I will get to that in a minute. Then we go down to infrastructures, colleges and libraries, and so forth. Now you will notice some double asterisks there and what that means is that they are either 0 or very little money in terms of long-term debt allocated to that area, either existing or in the future. In many cases, those units are eligible for limited, short-term lines of credit from within the University. It is not like we are starving them, but, again, the issue is where we put our priorities. I think the best example of that will be the first two lines.

If you go to the next three columns or the next three scheduled bond issues, you will see our preliminary allocations by area. For example, you will see the Medical Center going up - it was at 24% last June, it will get 33% of the next issue, 48% of the issue after that, and probably 51% of the issue after that. The reason for that is that the Medical Center back ten years ago had fairly new facilities and was not at capacity. Both of those conditions now have changed and so we are going to have to make an investment there to keep the Medical Center viable. That means it has to come out of somewhere else. Because we have had a fairly aggressive building boom in Athletics, it is our determination or our recommendation that Athletics and whatever it needs to do next funds itself out of cash reserves or short-term lines of credit. So we are not planning any additional bond issues for Athletics.

You will notice Student Affairs jumping up in 2008 and staying up there in 2010, that reflects our emphasis on dealing with some of the deferred maintenance issues in housing that we have talked about. There will be more discussion of that at the next Board meeting.

You will see infrastructure jumping up, because that historically - even though it is a small percent of the budget -- is a very important one. If you don't have water and you don't have electricity, it doesn't matter what you build if you can't operate the buildings. You will see that is probably the third major area in an increase in commitment. We are

December 7, 2007 meeting, Board of Trustees

also going to try and move the colleges and libraries and Campus Partners to alternative funding that doesn't use long-term bonds, so we can free up the resources that we need there. So I hope this gives you a sense of the way the University's priorities might be changing over the next several years.

The other thing that I would mention is all of the projects that are included in those preliminary bond numbers were approved as part of the capital plan. So one of our areas of alignment is that the six-year capital plan the Board approves, and that we review annually, is what drives this allocation of both debt service or long-term bond financing and also the state capital resources.

The next issue is off-balance sheet debt. That quote there is not from me, that is from Moody's in one of their pontifications that they put out, but I find this a lot. There are a lot of people that advise me in how best to do my job and one of the things that I get -- especially from outside consultants who have money to gain by issuing debt -- is "Don't worry about it, it is not on your books." I would have to say I tend to agree with Moody's and I really don't have a choice as the University's chief financial officer. They view financing, including privatized housing under some circumstances -- and we will get into that in a minute -- as either direct or indirect debt of the University depending on how closely tied the project is to the University. What this flows from is the bad experience the rating agencies got burned with Enron. Enron was running a lot of stuff off the balance sheet that should have been on the balance sheet. So the rating agencies have been very diligent. A lot of universities have done privatized housing, in some cases on the balance sheet and some cases off. Privatized housing by itself, there is nothing wrong with it, but we need to be very thoughtful in approaching that.

That gets us to the next point -- also from Moody's -- which are the factors they consider as to whether they count privatized housing on the balance sheet or off the balance sheet. Again the issue is not whether it is privatized or not, but how it is structured. You can see what the three major issues are there. So it can be structured in such a way that it is not on the balance sheet. If OSU makes a decision to go that way we can do that -- in fact, the MBA housing, currently on Kenny Road, has been structured so that it stays off the balance sheet. So there are ways to do it, but you need to be careful and you need to know what we are doing if we do that.

The next issue is future capacity. How do we continue to issue all of this debt and keep our credit rating up? We thoroughly expect -- and we've talked informally with the rating agencies about this last spring -- that when we issue our \$349 million in bonds sometime this winter we should maintain our current bond rate. Now when we jump up to a target of \$500 million, we will be on the outer edge of maintaining our current bond rating and could be within the AA3 range, which is a notch down. So you might ask yourself, "What the heck am I doing? We just talked about how we don't want the bond rating to slip, yet we are being somewhat aggressive in this." Let me show you two things that affect this.

What this chart shows is how the debt gets paid off. OSU has a reputation, because we normally do not issue bonds for longer than 20 years, of paying our debt off pretty aggressively. So even though in a two-year period we may be adding \$300-\$400 million in debt, we will be paying debt off at the rate of \$50 million a year, so there is some trade-off there. The more important point is this next chart shows that we do set a cap that the Board approves before we issue bonds and you will see what our historical experience has been. We tend to be a little aggressive when we set the cap, because we don't want to end up issuing bonds and not having a use for them. You will see -- in terms of what we actually issue when it comes time to issue the bonds -- it is always below the cap. In 2008 it will be substantially below the cap. So even though we have a higher cap in 2010, I expect by the time we come around to issuing the bonds it will be less than that. Part of my job and the job of my staff is to make sure that what we actually issue is not only within the cap, but protects our bond rating at

the AA level. We have enough experience now in doing that and we are comfortable in doing that, but it is going to take some additional work.

So the next steps. There are a couple of things that are key elements of the capital planning process and the capital plan that you approved in September that we deliberately held open to give President Gee a chance to work through his transition and to influence these decisions. The first is reviewing our strategic alignment, which is in fact going on right now. The second is how we can approach the issue of student housing and meet our needs, yet stay within our credit rating and move forward. There is a housing taskforce that is working now that will have plans to present to the President and eventually to the Board after the first of the year. We also need to make sure that the revised Medical Center Master Facilities Plan is within these parameters and that has been our goal from the start and I think we can do that. We also need to make sure that we are moving ahead with our deferred maintenance plan. As you noticed when we showed you the allocation of bonds, at least on the infrastructure side, that is one of the things we are attempting to deal with. But obviously we have some undone work to do there.

In addition there are three issues, two of which are outside of our control, that we need to deal with and one of which is in our control. I guess you could argue that issue number one is in our control in that it is our bond capacity, our bond rating. We need to make sure that the visit from the rating agencies in the winter goes well and we have really prepared for that. From our visit with them in the spring when we went to New York to talk to them about the Medical Center Master Facilities Plan, I can say to you I think without reservation that the rating agencies like the way OSU goes about managing its debt. What they told us they liked was the fact that our Board sets a ceiling and our Board approves a set of priorities and we stick with it. Not every university does that. The other thing they like is what I mentioned earlier, that OSU is very aggressive about paying down its debt. So I am hoping that visit from the rating agencies is a positive one, but it will also give us an idea of what our flexibility is regarding 2010 and 2012. Because the other thing the rating agencies like is that we share with them our long-term plans about where we are going, we don't just talk about the current issue.

The second issue is out of our control and that is state decisions regarding the 2009 and 2010 capital appropriations process. Within the last week I have heard that they are going to make their decisions early in the year, they are going to make their decisions in the middle of the year, and they are going to make their decisions not until after the election. So we are just going to have to be flexible with that, but that is the reality we are dealing with. Once they do make their decision, that money is very helpful.

The third item is the item that was brought forward to the Fiscal Affairs and Investments Committees in September and that is the University's five-year financial goals. Those are being structured in such a way as to be in alignment with our academic priorities, our capital priorities, and also to protect our bond ratings. So as we work through that that will be under our control and we need to keep that in mind.

So by way of summary: 1) I want to stress that debt management is a strategic concept and that it is appropriate for the Board to be involved with senior management in ensuring alignment with academic and financial goals; 2) that we have had a Board approved debt management policy since May 1997 and it has worked very well and it has been updated; 3) The continued maintenance of our AA credit rating is that credit rating which is most consistent with current and future academic goals and our likely financial resources, but maintaining that rating in the future will require discipline and the allocation of debt and careful planning on our part of management of cash reserves; 4) That off-balance sheet debt may be advantageous in highly selective cases, but it is neither a panacea nor a substitute for strategic decision making; 5) That our priorities are shifting towards deferred maintenance issues regarding

December 7, 2007 meeting, Board of Trustees

infrastructure, student housing, and clinical facilities and away from Athletics, student activities other than housing, and the leveraging of development funding for projects of individual colleges; And, 6) finally, the single largest remaining challenge is how to replace the erosion of state capital dollars, and we talked about that yesterday, for renovation and replacement of academic buildings.

So I hope that gives you a sense not only of the context by which our credit rating is set, but the way it aligns with other aspects of how the University operates and also what the major issues are that we will be addressing. We will be looking to you for guidance as we move forward. I would be glad to answer any questions that anybody may have.

Mr. Brass:

Bill, I thought that was an excellent report. My first question is when you talk about cash is it all in cash -- restricted funds, endowment cash? Is there anything outside when we talk about cash?

Mr. Shkurti:

Mr. Brass, I have to say first that it depends on which context. The kind of context I was talking about here, for example, when we were comparing ourselves to Michigan, that is what is called "expendable cash," so that doesn't include the endowment. It is more the kind of money that we invest either over the short-term or sitting in various accounts of different units.

Mr. Brass:

So when we look at Michigan cash to Ohio State cash it does not include their endowment money or our endowment money, is that correct? Is that what you are saying?

Mr. Shkurti:

Their endowment monies, correct.

Mr. Brass:

I think that is an important thing to consider, too, when we are looking at cash. Which leads me to my second question, which has to do with days cash-on-hand -- one of my favorite subjects. When we look at the Medical Center's days cash-on-hand it is getting stronger. One of the strategic things that we will be looking at, Bill, is how we make it even stronger. I have always been comforted by the thought that even though the Medical Center's days cash-on-hand may not be as strong as we want it today, the University's cash-on-hand, which thus helps us with our bond rating, is okay. Are you still of that mindset?

Mr. Shkurti:

Absolutely. Policies regarding the investment of operating cash that I presented to the Investments and Fiscal Affairs Committees was a first reading in September, which we haven't brought back yet, but we will, is designed to make sure we stay in that position.

Mr. Brass:

Thank you very much.

December 7, 2007 meeting, Board of Trustees

Mr. McFerson:

Before I ask my question, just underscore that last point. That is your favorite question, Alan, and I'm glad you keep asking it, but we need to keep reminding ourselves that the Medical Center does have an upward dividend every year to the overall University that other medical centers don't have. So I think it is fair to look to the University if we ever needed to.

My question is, go back one slide, please, item three where you say, "Continued maintenance of a credit rating of AA." Earlier it was AA2.

Mr. Shkurti:

That is what I meant, I'm sorry. I was being generic and I should have been specific.

Mr. McFerson:

Okay, so there should have been a 2 on that one?

Mr. Shkurti:

That is correct.

Mrs. Davidson:

Mr. Chairman, I just have one quick question. Bill, I was just doing the quick addition and it appears that about 70% of our debt is for revenue generating entities. Do you see that shifting any as we go to putting more emphasis on infrastructure or dropping back more on Athletics? And is that going to effect our bond rating?

Mr. Shkurti:

Mrs. Davidson, that certainly is a fair question. I view infrastructure, once we get it built, as revenue generating because we will build into our electricity or our sewer rates where it is feasible. Although the revenue that we will be generating will be from ourselves, so it is going to get a little more tricky and a little more complex. I think you can see a pretty clear revenue stream from Athletics that is - the Stadium is a classic example -- either from tickets sales or TV revenues. That is the traditional source. Now we are probably going to be more complex in the way we mix our financing, but in any event whatever we issue, we need to make sure we can pay back.

Ambassador Ong:

Bill, we have a Moody's rating. Have we ever had a rating from either of the other two rating agencies?

Mr. Shkurti:

Ambassador Ong, yes and it is the equivalent. Al, do you remember the specifics?

Mr. Rodack:

The Moody's rating is AA2, Standard & Poors is AA and Fitch is AA.

Ambassador Ong:

So no difference.

December 7, 2007 meeting, Board of Trustees

Mr. Shkurti:

The reason I am focused on Moody's is two parts: 1) they love to issue these statements, which actually are very helpful; and 2) they tend to be the most hard-nosed. So if you can pass the Moody's test, you usually will pass Standard and Poor's and Fitch. Though Standard and Poor's and Fitch take pride in being independent entities.

Mr. Hicks:

Bill, how often are we looking at refinancing some of this long-term debt? Is that something we look at? Have the conditions allowed us to do that effectively?

Mr. Shkurti:

Mr. Hicks, it is something we do. We just refinanced 3 or 4 years ago. Whenever there is enough of a spread in interest rates we do that. Right now probably wouldn't be a good time. We got close about a year ago and we are going to continue to watch and where we see an opportunity we do it, because that is in the equivalent of found money once we can do that.

Mr. Hicks:

What from a policy standpoint are we looking for in terms of savings? Five percent?

Mr. Shkurti:

I'm trying to remember - AI?

Mr. Rodack:

Five percent of present value.

Mr. Hicks:

Okay.

Mr. Brass:

Bill, as we look at our peer group which you had up there, has there been any movement up or down of any of our peer institutions?

Mr. Shkurti:

Not to my knowledge. The University of Cincinnati is not a peer institution, but they are an example of someone who is moving down. AI, do you recall anybody out of the benchmarks who has changed?

Mr. Rodack:

Not on that list. There have been more of a trend and march of public universities that have upgraded in the last several years. This is the opposite of what happened in the 90's when the research universities got an upgrade. The institutions on the list tend to stay the same.

Mr. Shkurti:

The rating agencies tend to like the bigger universities because they are more stable. AI mentioned the upgrade -- we had a discussion about that at a Big Ten Business

December 7, 2007 meeting, Board of Trustees

Officers meeting about a year ago. It was interesting that the gist of the discussion was do you really want to be upgraded. Because if you are upgraded, there is less debt to issue and a lot of those universities are facing the same kind of problems we are with deferred maintenance and everything else. It is hard to imagine, but in some ways an upgrade can be a mixed blessing.

Dr. Cloyd:

Bill, thank you and thanks to your organization for an excellent report. It has been a very helpful discussion.

(See Appendix XXXIII for background information, page 716.)

Dr. Cloyd:

This is one of these bittersweet moments where we are going to recognize a retiring individual whom on one hand we are extraordinarily happy for and on the other hand we are going to miss an awful lot. The individual is Lucy Gandert who has worked at The Ohio State University for 32 years, and has been employed in the Board Office since 1982 or 25 years.

During this time she has worked for four Board secretaries and her tenure at the University has overlapped the terms of six presidents, including Gordon Gee twice!

She has contributed in numerous ways to the exceptional work done by the Board Office, including planning meetings, events and trips, and coordinating and preparing the agenda materials for Board meetings - 254 Board meetings to be exact.

Lucy's knowledge of the history of The Ohio State University during this last quarter century and beyond is rivaled by few persons, and her devotion to the University, to accuracy, thoroughness, and the highest standards of quality are unparalleled.

Lucy, we would like to express our deep appreciation and gratitude to you, for all of these many years of extraordinary service to the Board of Trustees and to The Ohio State University. We would like to convey to you and your husband our best wishes for health and happiness in the years ahead.

Lucy, thank you very much.

Ms. Gandert:

Thank you.

President Gee:

And Lucy, we hope you won't write a book!

Dr. Cloyd:

President Gee mentioned that this is commencement weekend coming up and we are very glad to have you presiding over your first commencement since you have returned as our 14th President. Of course it is the day when we get the opportunity to see all of those young men and women walking through the doorway, so it is going to be terrific.

December 7, 2007 meeting, Board of Trustees

If there is no other business to come before the Board, the meeting is adjourned.

Mr. Wexner:

I wrote a note to my colleague and I said, "This is the best Board meeting I think that I have ever experienced." I think I have experienced 10 years of them. I think it should be noted. When I think about the year 2008 for the University and this meaning the range of outcomes from a Rhodes Scholar to Athletic achievement and the progress that the University has made, whether it is the students, staff, or faculty, I'm really appreciative of the progress of the year. I'm appreciative of the work that the Board is doing and appreciative of Joe and Gordon and your leadership, because we are in a very different place. It is a great way to think about the New Year. Thank you, Gil.

Dr. Cloyd:

Thank you, excellent statement. Thank you, all, and have a happy holiday season.

Thereupon the Board adjourned to meet Friday, February 1, 2008, at The Ohio State University, Longaberger Alumni House, Columbus, Ohio.

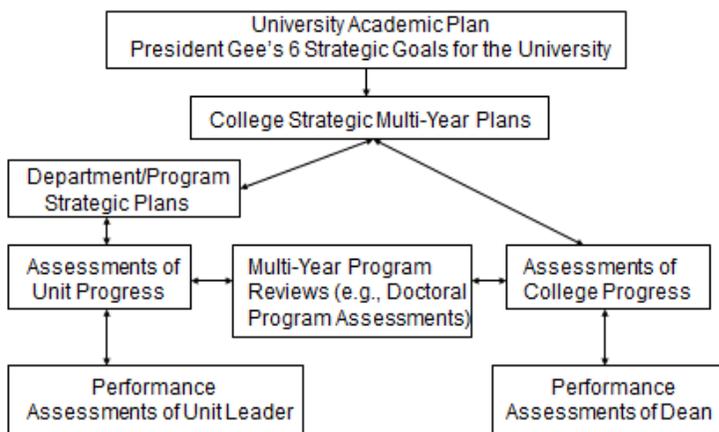

Attest:

G. Gilbert Cloyd
Chairman

David O. Frantz
Secretary

Overall Planning Processes and Cycle

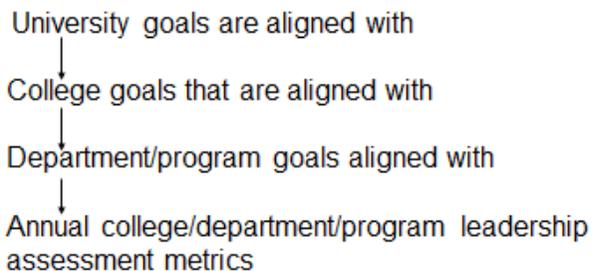

Strategic Planning Components

Intent: Create a Data-Driven Process in which...

December 7, 2007 meeting, Board of Trustees

(APPENDIX XXVII)

**Proposal to Amend the Code of Student Conduct
Section 3335-23 of the Faculty Rules**

Submitted to: The Ohio State University Board of Trustees

Members of the Board of Trustees:

The Code of Student Conduct is the portion of the Faculty Rules which defines what is and is not acceptable conduct for students at The Ohio State University in the classroom, on campus, and in specified off-campus situations. The Code of Student Conduct also outlines procedures for hearings of alleged misconduct, including selection of the hearing panels and the appeals process.

The Council on Student Affairs periodically reviews the Code of Student Conduct and makes recommendations for updates. The Code was last revised in July 2006. This review began in January 2007 with an ad-hoc committee of the Council on Student Affairs, and the recommended changes were approved by the University Senate on November 8, 2007. Both President Gee and Provost Alutto have concurred with the recommendations, and the final step is approval by the Board of Trustees.

The major revisions are: (1) greater specificity in the section on sexual misconduct, (2) inclusions of definitions of "endangering behavior" and "stalking," (3) prohibition of recording images of persons in locations where they would have reasonable expectation of privacy, (4) changing the criterion for determining whether a violation has occurred from "clear and convincing evidence" to "preponderance of evidence," and (5) allowing misconduct motivated by bias against protected groups to be considered an aggravating factor in determining sanctions.

It is asked that you, the members of the Board of Trustees, concur with the decision of the University Senate and accept the changes to the Code of Student Conduct. It is proposed that these changes go into effect on January 3, 2008, the first day of Winter Quarter for this academic year.

Thank you for your consideration,

Matt Dodovich
Chairman, Council on Student Affairs

Requested of Board of Trustees: Approve the changes to the *Code of Student Conduct* as proposed by the Council on Student Affairs and agreed to by the University Senate.

CODE OF STUDENT CONDUCT

Amended Rules

3335-23-02 Jurisdiction.

The code applies to the on-campus conduct of all students and registered student organizations. The code also applies to the off-campus conduct of students and registered student organizations in direct connection with:

- (A) ~~A professional practice assignment;~~
- (B)(A) Academic course requirements or any credit bearing experiences, such as internships, field trips, study abroad or student teaching;
- (C)(B) Any activity supporting pursuit of a degree, such as research at another institution or a professional practice assignment;
- (D)(C) Unchanged.
- (E)(D) Unchanged.
- (F)(E) Unchanged.

The code governs all campuses of the university, however, students attending at regional campuses and the agricultural technical institute are advised to consult their local campus publications for additional information or rules pertaining to those campuses, which may create hearing boards or processes for the campus, consistent with these rules.

The university reserves the right to administer the code and proceed with the hearing process even if the student withdraws from the university, is no longer enrolled in classes, or subsequently fails to meet the definition of a student while a disciplinary matter is pending.

Students continue to be subject to city, state, and federal laws while at the university, and violations of those laws may also constitute violations of the code. In such instances, the university may proceed with university disciplinary action under the code independently of any criminal proceeding involving the same conduct and may impose sanctions for violation of the code even if such criminal proceeding is not yet resolved or is resolved in the student's favor. (B/T 12/7/2007)

3335-23-03 Definitions.

As used in the code, the term "university premises" means all lands, buildings, and facilities owned, leased, or operated by the university. The term "student" means an individual who has paid an acceptance fee, registered for classes, or otherwise entered into any other contractual relationship with the university to take instruction. It further includes persons who are eligible to receive any of the rights and privileges afforded a person who is enrolled at the university, including, but not limited to, those individuals admitted to the university and attending orientation programs. Student status lasts until an individual graduates, is dismissed, or is not in attendance for two complete, consecutive quarters. The term "student" also includes registered student organizations. The term "members of the university community" includes, but is not limited to, students, faculty, staff, and visitors to the campus. The term "complaint" means a written statement, ~~on appropriate university-prescribed forms~~, alleging a violation of the code of student conduct or other published rule applicable to students at the university, provided to an authorized university official, per paragraph (A) of rule 3335-23-05 of the Administrative Code. Information submitted by other means will be reviewed and may, at

the university's discretion, be acted upon but will not be treated as a formal complaint. The term "crime of violence" means the following offenses as stated in division (A)(9) of section 2921.01 of the Revised Code in effect on the date this rule is adopted: aggravated murder; murder; voluntary manslaughter; involuntary manslaughter; felonious assault; aggravated assault; assault; aggravated menacing; menacing by stalking; kidnapping; abduction; extortion; rape; sexual battery; gross sexual imposition; aggravated arson; arson; aggravated robbery; robbery; aggravated burglary; inciting to violence; aggravated riot; inducing panic; domestic violence; intimidation; intimidation of an attorney, victim, or witness in a criminal case; escape; improperly discharging a firearm at or into a habitation or school; burglary; felonious sexual penetration; or conspiracy or attempt to commit or complicity in committing any of the foregoing offenses. Crime of violence also means offenses under the laws of another jurisdiction that are substantially equivalent to the offenses listed in this division. (B/T 12/7/2007)

3335-23-04 Prohibited conduct.

Any student found to have engaged, or attempted to engage, in the following conduct while within the university's jurisdiction, as set forth in rule 3335-23-02 of the Administrative Code, will be subject to disciplinary action by the university. For the purposes of this section, attempt shall be defined as conduct that, if successful, would constitute or result in the prohibited conduct. Any student who abandons an attempt or prevents the prohibited conduct from occurring under circumstances that demonstrate a complete and voluntary renunciation of the prohibited conduct will not be subject to disciplinary action by the university.

(A) Unchanged.

(B) Endangering health or safety.

(1) Endangering behavior: Taking or threatening action that ~~threatens or~~ endangers the safety, physical or mental health, or life of any person, or creates a reasonable fear of such action, whether intentionally or as a result of recklessness or gross negligence.

(2) Stalking: Engaging in a pattern of unwanted conduct directed at another person that threatens or endangers the safety, physical or mental health, or life or property of that person, or creates a reasonable fear of such a threat or action.

(C) Sexual misconduct.

Physical contact or other non-physical conduct of a sexual nature in the absence of clear, knowing and voluntary consent, including but not limited to:

(1) Non-consensual sexual intercourse, defined as any sexual penetration (anal, oral, or vaginal), however slight, with any body part or object, by any person upon any person without consent.

(2) Non-consensual sexual contact, defined as any intentional sexual touching, with any body part or object, by any person upon any person without consent.

(3) Sexual exploitation, defined as taking non-consensual, unjust or abusive sexual advantage of another. Examples include, but are not limited to, prostituting another student, non-consensual video or audio-taping of sexual activity, going beyond the boundaries of consent (such as knowingly allowing another to surreptitiously watch otherwise consensual sexual activity), engaging in non-consensual voyeurism,

and knowingly transmitting or exposing an STD or HIV to another student without the knowledge of the student.

- (4) Sexual harassment, as defined in applicable university policy.
- (5) Indecent exposure, defined as the exposure of the private or intimate parts of the body, in a lewd manner, in public or in private premises, when the accused may be readily observed.

For the purposes of this rule, consent shall be defined as the act of knowingly and voluntarily agreeing verbally or non-verbally to engage in sexual activity. An individual cannot consent who is obviously incapacitated substantially impaired by any drug or intoxicant; or who has been purposely compelled by force, threat of force, or deception; or who is unaware that the act is being committed; or whose ability to consent or resist is obviously impaired because of a mental or physical condition; or who is coerced by supervisory or disciplinary authority.

(D) Unchanged.

(E) Dangerous weapons or devices.

Use, storage, or possession of dangerous weapons or devices including, but not limited to, firearms and ammunition or fireworks, unless authorized by an appropriate university official or permitted by a university policy, even if otherwise permitted by law.

(F) Dishonest conduct.

Dishonest conduct, including, but not limited to, knowingly reporting a false emergency; knowingly making false accusation of misconduct; misuse or falsification of university documents by actions such as forgery, alteration, or improper transfer; submission to a university official of information known by the submitter submitter to be false.

(G) through (M) unchanged.

(N) Judicial system abuse.

Abuse of any university judicial system, including but not limited to:

- (1) Failure to obey the summons or directives of a judicial body or university official;
- (2) through (9) unchanged.

(O) and (P) unchanged.

(Q) Recording of images without knowledge.

Using electronic or other means to make a video or photographic record of any person in a location where there is a reasonable expectation of privacy without the person's prior knowledge, when such a recording is likely to cause injury, distress, or damage to reputation. This includes, but is not limited to, taking video or photographic images in shower/locker rooms, residence hall rooms, and restrooms. The storing, sharing, and/or distributing of such unauthorized records by any means is also prohibited. (B/T 7/11/2003, B/T 7/7/2006, B/T 12/7/2007)

December 7, 2007 meeting, Board of Trustees

3335-23-05 Initiation and investigation of code violations.

(A) Initiation.

Person(s) witnessing or experiencing what they believe to be a possible code violation should provide an authorized university official with the information. Information and/or complaints about possible code violations occurring in residence halls should be provided to the residence hall director. Information and/or complaints about possible non-residence hall related code violations should be provided to the director of student judicial affairs, or chief judicial officer for the regional campuses. Information and/or complaints regarding academic misconduct should be referred to the coordinator of the committee on academic misconduct. In cases where the alleged activity may involve a violation of criminal law in addition to a violation of the code, information and/or complaints should be provided to the Ohio state university police or other appropriate law enforcement agency. The university will review all information and/or complaints received and may conduct a preliminary investigation of the alleged violation.

(B) Investigation.

The Ohio state university police or other appropriate law enforcement agency shall have primary responsibility for the investigation of acts that involve suspected violation of federal, state, local laws or applicable university policies. Residence hall directors, assistant hall directors, the director of student judicial affairs, the chief judicial officer for the regional campuses, and other designated university personnel are authorized to investigate alleged violations other than those involving academic misconduct. The coordinator of the committee on academic misconduct is authorized to investigate allegations involving academic misconduct. During the investigation, the student allegedly involved in misconduct may be sent a letter describing the alleged violation, requesting the student to make an appointment to discuss the matter, and specifying a date by which the appointment must be made. Any person believed to have information relevant to an investigation may also be contacted and requested to make an appointment to discuss the matter. Failure to comply with such a request to make and keep such an appointment may result in a disciplinary hold being placed on a student's registration and records and/or the initiation of charges for judicial system abuse. Upon completion of an investigation, the investigator will decide upon an appropriate course of action, which may include, but is not limited to, taking no further action, deferring further action with or without conditions, or initiating charges with the appropriate university judicial body. (B/T 12/7/2007)

3335-23-06 Filing of complaint and initiation of charges.

A written complaint alleging a violation of the code of student conduct must be filed with the university as soon as practicable following the discovery of the alleged violation. Absent extraordinary circumstances, the written complaint must be filed within six months of the identification by for cases of non-academic misconduct (paragraphs (B) through (Q) of rule 3335-23-04 of the Administrative Code), and one month for academic misconduct (paragraph (A) of rule 3335-23-04 of the Administrative Code), from the date upon which a university official becomes aware of the student alleged violation and identifies the student(s) who allegedly committing committed the violation. Absent extraordinary circumstances, the university must initiate charges, if any, within one year of the filing of the complaint. (B/T 12/7/2007)

3335-23-07 Notice of charges.

December 7, 2007 meeting, Board of Trustees

Students shall be notified of university charges in writing, unless a more effective form of notification is deemed appropriate. Charges may be presented in person, by placement in a student's residence hall mailbox, by email to the accused student's official university email address, which will direct the student to view the notice on a secure website, or by mail to the accused student's local or permanent address on file in the office of the university registrar. All students are required to maintain an accurate and current local and permanent address with the university registrar.

Following notification of charges, students are strongly encouraged to and shall be afforded the opportunity to meet with a university official for the purpose of explaining the university judicial process and discussion of the charges. Failure of the accused student to respond to the initiation of charges or schedule a preliminary meeting shall in no way prevent the university from scheduling and conducting a hearing in the absence of the accused student. (B/T 12/7/2007)

3335-23-08 Administrative decision.

In all cases, a student charged with one or more violations of the student code has the right to a hearing. However, in a case where a charged student admits such violations in writing, the student may request in writing to have a decision as to appropriate action made administratively by a hearing officer rather than have the charges referred to a hearing officer, panel or commission board for a hearing. In such situations, the student waives the right to a hearing and the related procedural guarantees provided by a hearing officer, panel or commission board hearing. Administrative decisions involving graduate students are to be made in consultation with the graduate school. Following an administrative decision, the student retains the right to request an appeal of the original decision, but may do so only upon the ground that the sanction is grossly disproportionate to the offense committed. (B/T 7/7/2006, B/T 12/7/2007)

3335-23-09 Notice of hearing.

If a hearing is to be held, written notification will be provided. The notice may be hand delivered, placed into a student's residence hall mailbox, sent by email to the accused student's official university email address, which will direct the student to view the notice on a secure website, or mailed to the last known address of the student, either by certified mail or first class mail, no fewer than ten calendar days prior to the hearing. Unless already provided to the student, the notification will include the charges, date, time, and location of the hearing, the designated hearing officer or panel, a statement of the student's rights, and information on the hearing procedures. The accused student may request a postponement for reasonable cause or a hearing separate from other accused persons. A request for a postponement for reasonable cause must be made in writing, include supporting rationale and be received by the person sending the hearing notification at least two business days before the scheduled hearing. (B/T 12/7/2007)

3335-23-10 Hearing procedures.

Although the procedural requirements are not as formal as those existing in criminal or civil courts of law, to ensure fairness, the following procedures will apply and, unless already provided to the student, be included within the hearing notice:

(A) and (B) unchanged.

(C) The accused may submit a written statement, may invite relevant fact witnesses to attend, may invite character witnesses to submit written statements, may as approved in advance by the hearing officer invite character witnesses to testify in person, may ask questions of witnesses called by others, and will be notified of potential witnesses to be called. The accused must also submit a list of potential witnesses, and identify those who are character witnesses only, to the hearing officer at least two business days prior to the

December 7, 2007 meeting, Board of Trustees

hearing. The university may present witnesses as well as question those presented by the accused.

(D) Written statements may be used for a fact witness (i.e., not a character witness) if, for good reason, a fact witness cannot attend the hearing. ~~Written statements must be notarized, absent other clear evidence of authenticity.~~

(E) Unchanged.

(F) Students are entitled to a presumption of innocence. Therefore, a student will not be found in violation unless: a preponderance of evidence supports the charge(s).

(1) ~~In cases of academic misconduct (paragraph (A) of rule 3335-23-04 of the Administrative Code) a preponderance of the evidence supports the charge(s).~~

(2) ~~In all other cases of prohibited behavior (paragraphs (B) through (D) of rule 3335-23-04 of the Administrative Code) clear and convincing evidence supports the charge(s).~~

(3) In the event of a tie, the panel will continue to deliberate. If after the panel determines that exhaustive deliberations have occurred and a majority decision is not reached the student will be found not in violation.

(G) In cases where prompt review is essential (e.g., when graduation or the end of the academic year is imminent) the accused may be offered the option of an expedited administrative review consisting of an administrative decision or administrative hearing. The accused student may decline such expedited review without the expectation that the process can be completed on an expedited timeline. (B/T 7/11/2003, B/T 12/7/2007)

3335-23-13 Hearing bodies.

In addition to the committee on academic misconduct, ~~residence hall living units commissions~~ student conduct boards for university housing, and the university judicial panel, the director of student judicial affairs, hearing officers within the office of student judicial affairs, the coordinator of the committee on academic misconduct, and ~~residence hall university housing~~ professional staff are to be considered as official university hearing officers, and may hear cases of alleged violations of the code affording accused students the same procedural guarantees as provided in hearings by a panel, committee, or commission board. Absent special circumstances, students will be afforded the right to choose an administrative or panel hearing. When necessary to ensure a fair and just process, the hearing officer may determine the appropriate hearing venue. The accused student has the right to accept responsibility for the charges, which will result in an administrative decision, or choose to have a hearing. Students will generally be afforded the right to choose an administrative or panel hearing, except under special circumstances where, in order to ensure a fair and just process, the hearing officer may determine the appropriate hearing venue. (B/T 12/7/2007)

3335-23-15 ~~Residence hall living unit commissions~~ Student conduct boards for university housing.

The ~~commissions~~ boards may only hear only those cases, ~~referred by a residence hall hearing officer, that involve code violations that occur within the residence halls~~ university housing, whether committed by residents or nonresidents. The ~~commissions~~ boards are composed of students ~~from each living unit in university housing~~, and may initiate any sanction with the exception of suspension or dismissal. If it appears during the hearing,

December 7, 2007 meeting, Board of Trustees

to the ~~commission~~ board or to the ~~commission~~ board advisor, that the violation may be serious enough to warrant suspension or dismissal, the ~~commission~~ board will adjourn and refer the case back to the hearing officer for referral to the office of student judicial affairs. (B/T 12/7/2007)

3335-23-16 University judicial panel.

The university judicial panel is responsible for adjudicating allegations of non-academic misconduct referred by the director of student judicial affairs, except for cases involving violations of professional college codes. The panel consists of:

- (A) Unchanged.
- (B) Twelve undergraduate student members, appointed by the ~~vice president of the~~ undergraduate student government;
- (C) Six graduate student members, appointed by the ~~president of the~~ council of graduate students;
- (D) Two professional student members, appointed by the ~~president of the~~ inter-professional council; and
- (E) and (F) unchanged.

All student appointments shall be for ~~one-year~~ two-year terms, staggered, beginning with in the autumn quarter. Six of the undergraduate student members, three of the graduate student members, and one of the professional student members shall be appointed in odd-numbered years, with the remainder appointed in even-numbered years. To be eligible for appointment, a student must possess a minimum 2.5 cumulative grade point average and be under no current disciplinary sanction from the university. The director of student judicial affairs may remove university judicial panel members for cause, including but not limited to, not attending training, repeated absences, violating the code of student conduct or other applicable laws or policies, or not responding to repeated attempts at communication. Notification shall be made in writing to the university judicial panel member prior to removal, whenever possible. (B/T 12/7/2007)

3335-23-17 General guidelines for sanctions.

Sanctions should be commensurate with the violation(s) found to have occurred. In determining the sanction(s) to be imposed, the hearing officer or panel should take into account any mitigating circumstances and any aggravating factors including, but not limited to, any provocation by the subject of the conduct that constituted the violation, any past misconduct by the student, any failure of the student to comply fully with previous sanctions, the actual and potential harm caused by the violation, the degree of intent and motivation of the student in committing the violation, and the severity and pervasiveness of the conduct that constituted the violation. Misconduct, other than constitutionally protected expression, motivated by bias based on age, color, disability, gender identity or expression, national origin, race, religion, sex, sexual orientation, or veteran status may be considered an aggravating factor for sanctioning. Impairment resulting from voluntary use of alcohol or drugs (i.e., other than medically necessary) will also be considered an aggravating, and not a mitigating, factor. In determining the sanctions to be imposed on graduate students who have violated the code, the hearing officer or panel should be guided by the "Graduate Student Code of Research and Scholarly Conduct." One or more of the following courses of action may be taken when a student has been found to have violated the code of student conduct.

- (A) Unchanged.
- (B) Disciplinary sanctions.

December 7, 2007 meeting, Board of Trustees

(1) Unchanged.

~~(2)~~ Conduct probation.

~~This probationary condition is for a specified period of time but without loss of privileges. Further violation of university policies during the probationary period will be viewed not only as the act itself, but also as a violation of the probation, which could result in disciplinary probation, suspension or dismissal.~~

~~(3)~~(2) Unchanged.

~~(4)~~(3) Unchanged.

~~(5)~~(4) Unchanged.

(C) through (E) unchanged. (B/T 12/7/2007)

3335-23-18 Appellate process.

(A) Unchanged.

(B) Grounds for appeal.

An appeal may be based only upon one or more of the following grounds:

(1) and (2) unchanged.

(3) Findings of facts not supported by:

~~(a) A a preponderance of evidence in cases of academic misconduct (paragraph (A) of rule 3335-23-04 of the Administrative Code).~~

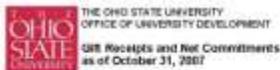

~~(b) Clear and convincing evidence in all other instances of prohibited behavior (paragraphs (B) through (O) of rule 3335-23-04 of the Administrative Code).~~

(4) and (5) unchanged.

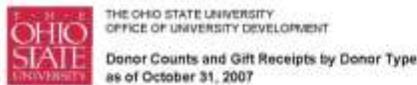

(C) through (E) unchanged. (B/T 12/7/2007)

December 7, 2007 meeting, Board of Trustees

Requesting Agency(s): ACADEMIC AFFAIRS, OFFICE OF
 Requesting Agency(s): BUSINESS & FINANCE, OFFICE OF
 Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT
 Location(s): Various Locations, Columbus

ASF / O GSF Ago:

Description:

This project will develop a facilities plan to provide a roadmap for new construction, renovations, and replacements of facilities in the Academic Core North that will promote collaboration while facilitating the efficient use of University resources.

Project Information:

The aim of the study is to inform the University specifically on which facilities in the Academic Core North should be replaced, renovated and/or repaired; establish the long-term programmatic space needs of the units in the Academic Core North; identify needed new facilities; and provide recommendations for improving efficiency.

How does this project advance the Academic Plan? This project advances the Academic Plan by completing a study that will inform the University on how to better meet facilities needs in the Academic Core North area.

Medical Tank Farm and Fuel Oil Storage (MCFP)
OSU-080386

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): See Project Information

ASF / O GSF Ags:

Description:

This project will relocate the existing medical tank farm and fuel oil storage facilities, per the Medical Center Master Plan.

Project Information:

Relocation is necessary to clear the site for the Hospital Expansion. The new facilities will be located between Awell Hall and Murry Hall, and must be installed and operational before the current facilities are removed.

How does this project advance the Academic Plan? This project enables the Medical Center Facilities Master Plan, which will support continued clinical, teaching and research initiatives at Ohio State University.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: This project will clear the site for the Hospital Expansion project.

Taylor Tower - Elevator Upgrade
OSU-080264

Requesting Agency(s): STUDENT AFFAIRS FACILITIES

Location(s): Taylor Tower, Jacob B.

74,782 ASF/143,051 GSF Age: 1966

Description:

This project will upgrade four existing elevator systems in Taylor Tower.

Project Information:

The upgrade will address code issues, including ADA and High rise code compliance, along with general upgrade of system components. This project is funded with 2009 bonds.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving the on campus student living environment and improving facility safety by upgrading the elevators.

Outstanding Funding Issues: None

Timing Issues: This project will renovate two elevators at a time so all four elevators are not down at the same time.

"Ripple effects" of the project: None

William H. Hall Housing Complex Expansion

OSU-072292

Requesting Agency(s): STUDENT AFFAIRS FACILITIES

Location(s): See Project Information

ASF / 0 GSF Agg:

Description:

This project will construct a new 58,500 GSF housing facility with apartment-style housing for 960 students. Each unit will house four students and include two bedrooms and two baths. The new facility will be located at Worthington Street and Hinch Avenue.

Project Information:

This is the second building of a planned three-building complex. This project will include the demolition of University-owned rental properties currently occupying the site. Student Affairs will seek LEED certification for this project.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving the on-campus teaching, learning and living environment.

Outstanding Funding Issues: This project is funded with 2009 University bond proceeds; Student Affairs has identified an interim funding source until the bond proceeds become available.

9th Avenue Parking Garage Expansion (MCFP)

315-2006-925

Requesting Agency(s): TRANSPORTATION & PARKING SERVICES

Location(s): Parking Garage F (9th Ave)

354,648 ASF/369,421 GSF Age: 1980

Location(s): See Project Information

ASF/0 GSF Age:

Description:

This project will construct a 1,000 car parking structure east of the existing 9th Avenue garage.

Project Information:

This project is part of the approved Medical Center Facilities Plan - South Campus Implementation, originally approved on November 4, 2005 by the Board of Trustees as Medical Center Facility Master Plan - Clinical Expansion Projects.

How does this project advance the Academic Plan? Enables the Medical Center Facilities Plan, which will support continued clinical, teaching and research missions at Ohio State.**Outstanding Funding Issues:** Transportation and Parking is responsible for the 9th Avenue parking structure and their funding is available in 2011. In order to restate the Medical Center Facilities Plan Implementation schedule, the Medical Center will fund this project with 2007 bonds until Transportation and Parking's funding is received.**Timing Issues:** None**"Ripple effects" of the project:** The short term loss of surface parking will be made up by the Medical Center Express Bus Service in conjunction with the renovation of the existing 9th Avenue parking garage and paving the surface lot west of Canton Drive.**Special Limitations/Risks:** None**Deferred Maintenance:** None**Deferred Renewal:** None

JACOBS FACILITIES INC - Construction Management

Canfield Hall - Bathroom Renovations

315-07-2181

Requesting Agency(s): STUDENT AFFAIRS, OFFICE OF

Location(s): Canfield Hall, James H.

36,012 ASF/61,020 GSF Age: 19-40

Description:

This project will renovate the restrooms in Canfield Hall, creating private bathrooms for residents. This project will also upgrade the original electrical distribution gear and branch panels to support the renovation.

Project Information:

The project will reconfigure the existing bathrooms into approximately six private bathrooms per floor. The project will determine the location and quantity of necessary ADA accommodations. The conceptual budget was adjusted during design due scope modifications (electrical upgrades and accessible restrooms) and inflationary adjustments. This project is funded with 2007 bonds.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving the quality of student facilities.

Outstanding Funding Issues: None

Timing Issues: This project must be completed during a summer quarter and completed and ready for student occupancy in the fall.

"Ripple effects" of the project: None

Special Irritations/Risks: None

Deferred Maintenance: This project will address approximately \$750,000 of deferred maintenance.

Deferred Renewal: None

Lane Avenue Parking Garage

315-2005-992-1

Requesting Agency(s): TRANSPORTATION & PARKING SERVICES

Location(s): See Project Information

ASF / O GSF Apts:

Description:

This project will construct a new 1,400-space, nine-level parking garage adjacent to the new Student Academic Services Building. The garage will be constructed on an existing surface lot and will result in a net increase of 1,000 spaces.

Project Information:

The parking garage will be located on the existing parking lot south of Lane Avenue, between Nell Avenue and Tuttle Park Place. A portion of the parking garage (up to 500 spaces) will be opened for fall quarter 2009 to allow Transportation and Parking to recoup some of the loss due to the removal of the surface lot.

How does this project advance the Academic Plan? The parking garage will support the new Student Academic Services Building by providing necessary parking. In addition it will provide parking for faculty, staff, students and visitors in the north quadrant of campus.

Outstanding Funding Issues: Bonds will be paid through parking fees (permits and hourly rates).

Timing Issues: None

"Ripple effects" of the project: None

Special Limitations/Risks: Project will be coordinated with the Student Academic Services Building project.

Deferred Maintenance: None

Deferred Renewal: None

Morrison Tower - Fan Coil Unit Replacement

315-07-2030

Requesting Agency(s): STUDENT AFFAIRS, OFFICE OF

Location(s): Morrison Tower, Mary Franc

55,002 ASF/99,916 GSF Age: 1962

Description:

This project will update heating in each room by replacing the fan coil units in the resident rooms and common areas in Morrison Tower.

Project Information:

Project includes some hazardous materials abatement. The conceptual budget was revised during design to account for inflation, increases in material prices and some minor scope adjustments.

How does this project advance the Academic Plan? This project advances the academic plan by improving the on campus student living environment.**Outstanding Funding Issues:** This project will be funded with 2009 University bonds; Student Affairs has identified an interim funding source until bond proceeds become available.**Timing Issues:** This project must occur over the summer, when the dormitory is not in use, and must be completed by fall quarter.**"Ripple effects" of the project:** None**Special Limitations/Notes:** None**Deferred Maintenance:** This project addresses \$84,388 in deferred maintenance.**Deferred Renewal:** None**Source of Funds:**

	Amount

LARGEN ENGINEERING - Design

Student Academic Services Building
315-2005-992-2

Requesting Agency(s): BUSINESS & FINANCE, OFFICE OF

Location(s): See Project Information

ASF/O GSF Aqs:

Description:

Construct a new, approximately 125,400 GSF building to accommodate core student services functions. These services will relocate from Lincoln Tower, allowing it to be converted back to residence halls.

Project Information:

This project includes roof and fall protection work for the Lane Avenue Garage.

How does this project advance the Academic Plan? The new Student Academic Services Building will provide improved efficiencies of space (net reduction of 13M or 12,200 GSF). It will allow the student services functions to be more accessible to students and visitors, and will allow Lincoln Tower to be returned to housing, which is consistent with the University's long term housing plan.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: This project will enable the project to return Lincoln Tower to student resident rooms.

Special Limitations/Risks: Project will be coordinated with the Lane Avenue Garage project.

Deferred Maintenance: None

Deferred Renewal: None

Larkins Hall - Condensate Piping Replacement

315-2005-937

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): Unidentified Utility, Col.

ASF/O GSF Ags:

Description:

This project will replace the steam and condensate line between RPAC (formerly Larkins Hall) and the Hill Avenue Parking Garage. This project includes asbestos abatement, removal of existing steel piping from the utility tunnel and approximately 670 linear feet of new piping.

Project Information:

The project budget has increased due to materials cost inflation.

How does this project advance the Academic Plan? The project will provide increased reliability and maintenance access to the steam condensate line between RPAC and Hill Avenue Parking Garage.

Outstanding Funding Issues: None

Timing Issues: Construction work needs to occur during the summer cooling season.

"Ripple effects" of the project: None

Special Limitations/Risks: None

Deferred Maintenance: This project will address \$168,460 in deferred maintenance.

(APPENDIX XXX)

**Five-Year Lease
OSU Medical Center Comprehensive Transplant Center
Relocation and Expansion
760 Kinnear Road
Columbus, Ohio 43212**

Background

Location and Description

The property to be leased is located at 760 Kinnear Road adjacent to the current location of The Ohio State University Medical Center Comprehensive Transplant Center (CTC) at 770 Kinnear Road. The proposal provides for the relocation and expansion of the general office space that supports the transplant program. The transplant clinical medical office will still be located at 770 Kinnear Road. OSUMC will lease approximately 15,000 SF of space which includes 5,000 SF of office space on the first floor and 10,000 SF of office space on the second floor of the building. The balance of the 20,000 SF building will be occupied by Battelle Employees Credit Union, owner of the property. This leased facility will satisfy a requirement of the Medical Center to provide the Comprehensive Transplant Center a suitable building and location for office space to support the program. All costs, lease payments, and any other expenses related to the property will be funded by the operations revenue of the Comprehensive Transplant Center.

Terms of Lease

The lease term shall be for a period of five (5) years with two five-year renewal options. Although not fully negotiated, the landlord has proposed a base rent for the lease premises of \$26,812.50 per month during the 5-year term or \$321,750 annually (\$21.45/SF) which includes taxes, maintenance, utilities, janitorial services and other operating expenses associated with the property. The landlord's estimate for operating expenses is \$7.91/SF. The aggregate rental over the initial lease term will exceed \$1.6 million. Additionally, the landlord will separate the lease premises from the balance of the building at their costs and will provide a tenant improvement allowance of \$100,000. Any tenant requirements that exceed the allowance will be an expense of CTC. Lease terms and conditions currently proposed by the landlord will be further reviewed and negotiated until a final lease is acceptable to the parties. The anticipated lease commencement date and occupancy is July 1, 2008. The terms and conditions of the lease will be negotiated in the best interest of the OSU Medical Center and the University.

(APPENDIX XXXI)

ATTACHMENT

ITEM: A Board resolution authorizing the Office of Human Resources (OHR) and Managed Health Care Systems (MHCS) to enter into a contract with the Pharmacy Benefit Manager (PBM), Express Scripts (ESI), with the signature authority of the Senior Vice President for Business and Finance.

SUMMARY: In constant pursuit of cost savings, OHR, MHCS, and Purchasing worked closely with three of the Ohio retirement systems for over one year to create a very large pharmacy benefit purchasing collaborative for Ohio public employers that will result in substantial savings for all entities.

The four original sponsors of the **Rx Ohio Collaborative (RxOC)** are Ohio Public Employees Retirement System (Ohio PERS), State Teachers Retirement System (STRS Ohio), School Employees Retirement System (SERS Ohio), and The Ohio State University. The three retirement systems have each individually signed the contract with ESI.

If approved, ESI will begin providing services to OSU as of January 1, 2008. OSU provided Medco with a 180-day notice to verify that we will be terminating their services as of December 31, 2007 and utilizing the services of a different PBM. Medco has committed to continue a high level of service through the remainder of the contract and to be supportive in the University's transition to the new PBM.

SUCCESSSES: The most attractive component of the new PBM contract with ESI is the significant cost reduction the University will realize during the three-year term of the contract. **Hewitt Associates, who was commissioned to independently examine the new contract, projected savings of 7.2% over three years or approximately \$3.28 million per year.** This cost savings will apply to the demonstrated annual savings amount that the University will report to the Chancellor of the Board of Regents, per House Bill 119. Additionally, approximately \$23 million in drug spend will apply to the University's overall collaborative spend that is reported to the Chancellor.

The pharmacy benefit purchasing collaborative is a demonstration of Ohio public entities working together for over one year to realize a contract with a PBM that provides significant savings, improved contract terms, and supports innovative programs that will align the payor and provider with incentives to improve outcomes for members. OSU will continue working with the retirement systems to establish innovative programs and access to the contract for other Ohio public entities, especially IUC institutions.

Faculty and staff will see only a minimum of administrative coverage changes in 2008 and will benefit directly from deeper pharmacy discounts. Each RxOC entity will retain control of its own plan design and other operational components such as the Prescription Drug Formulary. No changes in member co-payment, coinsurance or annual out-of-pocket amounts were implemented in 2008 due to the projected cost savings brought about by the new contract.

FOR QUESTIONS, CONTACT:

Larry Lewellen 292-4164, Lewellen.1@osu.edu

**The Ohio State University
College of Food, Agricultural, and Environmental Sciences
One-Time Separation Incentive Program (SIP) for FY2007-08**

Rationale

The College of Food, Agricultural, and Environmental Sciences (FAES) was most appreciative of the line item increases received for OARDC and OSU Extension for FY2008 and FY2009. These funds along with General Funds from OSU and federal funding are the primary sources of funding for most of the faculty and staff salaries, Extension, and research programs. However, combined with flat federal budgets received in the last several years, these increases are not enough to avoid budget cuts to cover the current estimated \$4.7 million shortfall. This follows a similar shortfall for the FY2006-2007 biennium and funding reductions received by OSU Extension and the Ohio Agricultural Research and Development Center (OARDC) in their State of Ohio line items in FY2004 and FY2005.

Both OARDC and OSU Extension are housed within FAES. Many of the faculty and staff positions funded in part by these two units are also funded by other funding sources in the College, particularly by the General Funds Budget.

In 2004, as approved by the Board of Trustees, the College implemented a separation incentive program to minimize the number of staff reductions that would be necessary to help address these funding shortfalls. At that time, it was estimated that at least 303 of the College's employees were eligible to retire. In the end, 50 faculty and staff members requested the separation incentive program: 18 faculty members, 13 unclassified staff members, and 19 classified staff members. These individuals' salaries totaled \$2.84 million. It was estimated that the College achieved \$844,500 in salary savings by not refilling some positions or filling them at a lower salary. These figures do not include the commensurate savings in benefits costs. Just as importantly, the program also reduced the number of staff reductions in force that were implemented.

The College proposes the adoption of another formal one-time Separation Incentive Program with guidelines outlining appropriate eligibility, periods of notice, and limitations. This program will assist the College in addressing short-term financial demands, and will assist in a speedier transition process toward achieving sustainable levels of employees and programs.

To provide additional rationale for offering another SIP, it should be noted that of the total employees within the College and all of its entities, 122 have 30 or more years of service. Of the employees with fewer than 30 years of service, 720 are age 50 or greater and 160 are age 60 or greater. It is possible that many of these individuals have additional years of service elsewhere. Hypothetical scenarios were developed to demonstrate what might happen if 5%, 10% or 20% of these employees would opt to retire, and if in turn, various ranges of these positions were filled at lesser salaries.

Although the hypothetical savings vary dramatically based on the specific figures used, the potential to free up annual commitments is great. In addition, the SIP offers a positive alternative that we can offer to our employees for reducing faculty and staff positions and could mitigate the number of reductions in force that will be needed.

PROGRAM OUTLINE

Eligibility

- Regular Unclassified staff members who are paid from State or Federal non-earmarked funds and are eligible for retirement (as defined by STRS or OPERS regulations) on or before June 30, 2008. Seasonal, temporary, grant (OSURF), or county-funded employees are not included in the program.
- Regular Classified Civil Service staff members who are paid from State or Federal non-earmarked funds and are eligible for retirement on or before June 30, 2008. Seasonal, temporary, grant (OSURF), or county-funded employees are not included in the program.
- Regular faculty members who are paid from State or Federal non-earmarked funds and are eligible for retirement on or before June 30, 2008.

Eligible employees' positions must have been funded on state and/or federal non-earmarked funds within the last 12 months. See Program Details for final eligibility clarification.

Program Design Overview

- Eligible college employees are entitled to a cash payment equivalent to two months of salary upon date of retirement. This is in addition to normal payout of earned vacation leave and sick leave benefits, according to University policy.
- Eligibility requires that the employee is eligible to retire, and actually retires, under regular STRS and OPERS regulations, effective June 30, 2008 or earlier, but not before the effective date of this program. The effective date is the date of approval by the Board of Trustees and is expected to be December 7, 2007.
- The amount of Separation Incentive will be determined by an individual's regular base pay and prorated by FTE level and funding eligibility. For example, a full-time employee paid an annual salary of \$36,000 will receive one-time Separation Incentive payment in the gross amount of \$6,000. Overtime earnings, supplemental compensation, and any earnings other than regular monthly or biweekly base pay are not included in the computation.
- Any portion of base pay that is from an ineligible funding source will not be included in the computation. Only positions funded by federal and state funding sources from within the College are eligible. Positions funded from other colleges, or from county sources, for example, are not eligible.
- The Incentive payment is subject to applicable payroll taxes.
- This one-time incentive payment will be paid from the account which has funded the individual's payroll costs. One-time incentive pay for faculty appointments will be funded by OSU Extension, OARDC, and General Funds central administrative offices. All other incentive payments are the responsibility of the hiring unit.
- Employees who elect the Separation Incentive would be leaving voluntarily and would therefore be ineligible to receive severance.

Program Details

- Those intending to pursue this offer must submit written and signed notification (not e-mail) to Vice President Bobby D. Moser by Monday, March 31, 2008 at 5:00 p.m. with a copy sent to the appropriate Associate Dean or Associate Vice President (i.e., Director of OARDC or OSUE Extension, or Associate Dean for Academic Programs or the Director of ATI).

December 7, 2007 meeting, Board of Trustees

- The Separation Incentive offer will be made available to those who have submitted the required notification and who voluntarily retire on or before June 30, 2008, and after the effective date of this program.
- There is no intention of offering this system-wide as an incentive to seasonal, county, or grant-funded (OSURF) employees.
- No limit has been placed on the number of eligible retirees who may elect to participate; the deadline of June 30, 2008 limits participation in this opportunity.
- This is a one-time incentive program. No plans exist to offer the same plan in future years.
- College and departmental leaders are not eligible for this program. This includes members of the Vice President's Cabinet and Department Chairpersons/School Directors.
- For questions: Extension employees may contact Marge Hall (Hall.38@osu.edu); OARDC support unit employees may contact Eileen Kieffaber (Kieffaber.1@osu.edu); and employees from academic units may contact Linda Riemenschneider (Riemenschneider.7@osu.edu). Anyone who would like to explore the program in confidence may do so with the Office of Human Resources, Consulting Services, by contacting Marjie Hamlett at hamlett.5@osu.edu.

Debt Management Report
The Ohio State University
Board of Trustees
December 7, 2007

William J. Shkurti
Senior Vice President for Business and Finance
11/27/07

Topics To Be Addressed

- **Context**
- **Debt Capacity**
- **Policy Issues**
- **Conclusions and Next Steps**

2

Context

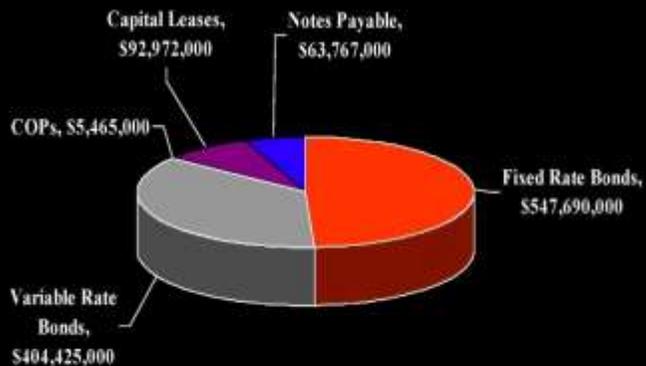

- A. How much debt do we have and what kind?
- B. How is it apportioned?
- C. How has it grown?
- D. What are existing University policies?

3

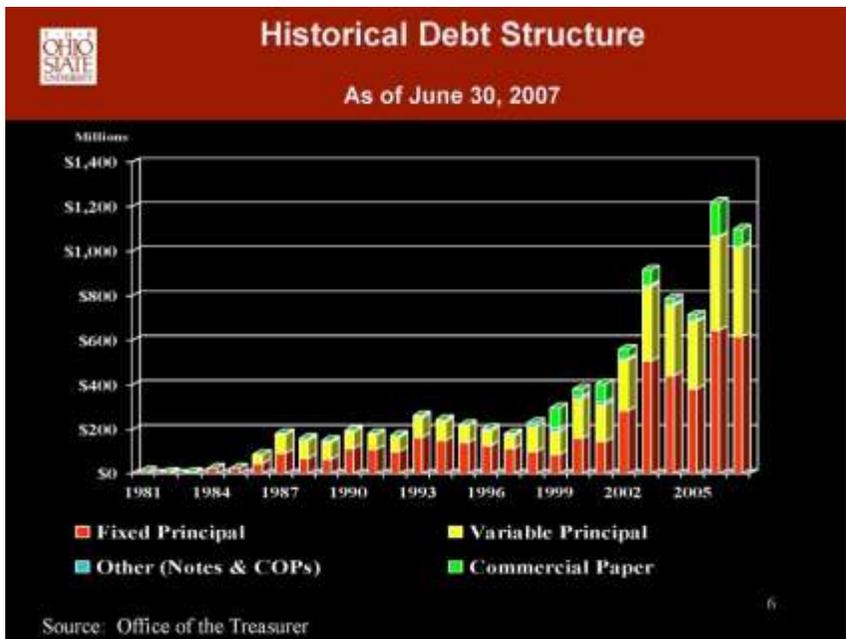

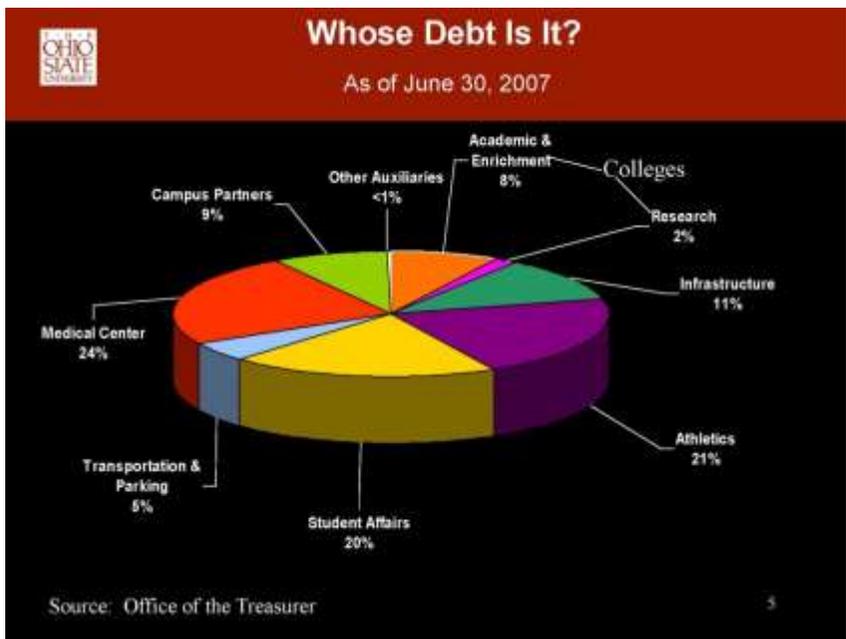

Current Debt Structure

6/30/07 Total = 1.1 Billion

Source: Office of the Treasurer

4

What Is Current University Policy?

Board approved, written policy has been in existence for a decade:

- Initial Approval 5/97
- Revised 12/03
- Expanded 5/05

7

Key Elements

- Comprehensive: Includes leases, internal loans and lines of credit
- No major capital project initiated without prior Board approval
- No debt is issued without prior Board approval
- Overall limits are approved by the Board before debt is issued
- Credit rating of at least AA must be maintained

8

Debt Capacity

- A. What is it?
- B. Why does it matter?
- C. How is it determined?
- D. How does OSU compare?

9

Debt Capacity: What Is It?

The amount of additional long-term debt that can be issued at a given credit rating

10

Why Do Credit Ratings Matter?

- Helps determine interest rate for next 20 years
- Used as an external evaluation of financial strength of the institution
- Helps establish a focus for scarce resources
- Once it falls, it is very hard to re-establish

11

Debt Capacity In Higher Education As A Strategic Concept

- It is not determined by formulas and ratios alone
- Debt capacity reflects complex interplay of multiple factors, include:
 - Market position of "core" businesses
 - Financial Reserves
 - Capital funding profile
 - Operating performance
 - Relationship with the state
 - Management competencies

Source: Moody's Investor Services, Special Comment, August 2002

12

Debt Capacity As A Strategic Concept Continued

Additional Considerations

- Not a static concept
- Dependent on institutional risk tolerance
- Revenue generating projects have a different impact than others
- Off balance sheet financing included
- Debt policies are primarily a management tool

Source: Moody's Investor Services, Special Comment, August 2002

13

OSU Credit Rating v. Benchmarks

University	Rating
Michigan	AAA
Texas – Austin	AAA
Washington	AA1
Minnesota	AA2
Ohio State	AA2
UCLA	AA2
Illinois at Champaign-Urbana	AA3
Arizona	AA3
Wisconsin	NA

Source: Moody's Investor Services, 2007

14

How OSU Compares (Continued)

FY 2006

	Michigan	OSU	UC
Annual Revenues	\$5.4 billion	\$3.7 billion	\$1.0 billion
Debt	\$0.9 billion	\$1.1 billion	\$1.0 billion
Expendable Net Assets	\$6.4 billion	\$1.4 billion	\$0.3 billion
Credit Rating	AAA	AA2	A1*

* On negative credit watch

Source: FY 2006 Official Financial Statements

15

How OSU Compares (Continued)

OSU versus AA Medians FY 2006

	OSU	AA2	Relative Standing
Financial Resources to Direct Debt	2.3X	2.7X	(-)
Annual Debt Service to Operations	2.4%	2.6%	(+)
Debt Service Coverage	5.7X	3.9X	(+)

Source: Moody's Investor Services

16

Why Not Try For AAA Rating Like Michigan?

- Would reduce debt capacity making it impossible to meet existing deferred maintenance and other facility needs
- Would require a cash build up that would be difficult to achieve and may create unintended consequences
- Determination not totally under institutional control (e.g., financial health of state government)

17

Why Not Issue More Debt And Just Take A Lower Rating?

- It will cost more over the long run in terms of higher interest rates
- Shows a lack of institutional focus and leadership
- Once a rating is lowered, it is very hard to re-establish
- It provides a significantly reduced capacity for unforeseen events (e.g., market downturn).

18

Issues

- A. Relative Priorities
- B. Off Balance Sheet Debt
- C. Future Capacity

19

Relative Priorities

State Capital Appropriations

Unit	Share FY 2007-2008	FY 2009-2010 (Preliminary)	FY 2011-2012 (Preliminary)
Medical Center*	7%	7%	0
Athletics	0	0	0
Student Affairs	0	0	0
Infrastructure	0	0	0
Colleges and Libraries	80%	80%	87%**
Campus Partners	0	0	0
Transportation & Parking	0	0	0
Other	0	0	0
Regionals	13%	13%	13%

* Medical Center is College of Medicine Only

** Assumes \$58.7M requested for Academic Core North and recommendation regarding remainder of allocation will be determined as part of the 2011-2012 capital process

20

Relative Priorities – Bond Financing

Unit	Share of Budget	Share of Debt 6/30/07	FY 2008 Issue (Preliminary)	FY 2010 Issue (Preliminary)	FY 2012 Issue (Preliminary)
Medical Center	42%	24%	33%	48%	51%
Athletics	3%	21%	**	**	**
Student Affairs	5%	20%	29%	26%	19%
Infrastructure	2%	11%	17%	11%	27%
Colleges and Libraries	33%	10%	**	**	**
Campus Partners	NA	9%	**	**	**
Transp. & Parking	1%	5%	11%	7%	1%
Other *	10%	**	5%	5%	1%
Regionals	4%	**	6%	3%	1%

* Other includes Blankenship Renovation, Student Academic Services Building and Airport Improvements.

** May be eligible for limited short term lines of credit.

21

Off Balance Sheet Debt

"Some universities mistakenly believe that because privatized housing financings are off balance sheet, they are therefore "off credit." Moody's generally views these financings as either direct or indirect debt of the university, depending on how closely tied the project is to the university."

Source: Moody's Investor Services, Special Comment, August 2003

22

Off Balance Sheet Debt

continued

Factors to be considered:

- Does the university or related foundation own the land?
- Does the university have "material involvement" in the marketing, management or leasing of the house?
- Does the university or related foundation benefit from the property's surplus cash flow?

Source: Moody's Investor Services, Special Comment, August 2003

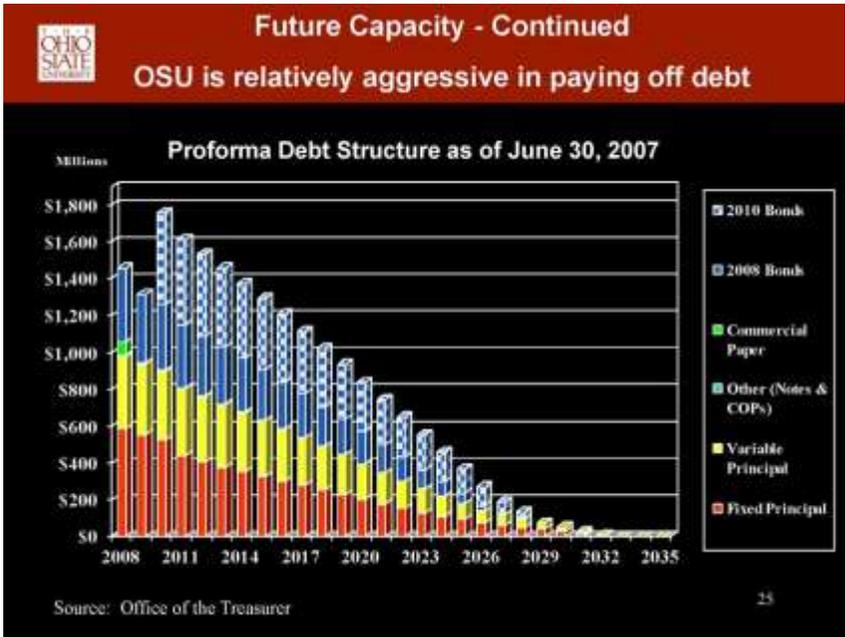

23

Future Capacity

- **Conclusions**
 - Bond Issuance FY 2008 @ \$349 Million
 - University should maintain bond rating
 - Bond Issuance FY 2010 @ \$500 Million
 - University could be on the "outer edge" of maintaining current bond rating, but well within the "AA3" rating range

24

Future Capacity – Continued
The approved cap is not a floor

(in millions)

Year of Issue	Approved Cap	Actual Issue
2005	\$400	\$360
2008	\$450	\$349
2010	\$500	TBD

Source: Office of the Treasurer

Next Steps

- A. Completion of key elements of capital planning process
 - 1. Review of Strategic Alignment
 - 2. Housing Task Force Plan
 - 3. Revised Medical Center Master Facilities Plan
 - 4. Deferred Maintenance Plan

27

Next Steps - Continued

- B. Resourcing Issues
 - 1. FY 2008 bond issue and visit from rating agencies
 - 2. State decisions regarding FY 2009 – 2010 capital appropriations
 - 3. Revised University financial goals

28

Conclusion

1. Debt management is a strategic concept. This means it merits senior management and Board involvement to ensure alignment with academic and financial goals.
2. OSU has had a Board approved debt management policy since May, 1997. The latest revision was March, 2005.
3. Continued maintenance of a credit rating of AA2 is most consistent with current and future academic goals and likely financial resources.
4. Maintaining this rating in the future will require discipline in the allocation of debt and careful planning in the management of cash reserves.

29

Conclusion - Continued

5. Off balance sheet debt may be advantageous in highly selective cases, but is neither a panacea or a substitute for strategic decision making.
6. Priorities are shifting towards deferred maintenance issues regarding infrastructure, student housing and clinical facilities, and away from athletics, student activities (other than housing) and leveraging development funding for projects of individual colleges.
7. The single largest remaining challenge is how to replace the erosion of state capital dollars for renovation and replacement of academic buildings

APPENDIX XXXIV

Degrees Conferred at

THE OHIO STATE UNIVERSITY
COMMENCEMENT CONVOCATION

December 9, 2007

COMMENCEMENT ADDRESS

Brian Daniel Joseph

Brian D. Joseph is Distinguished University Professor of Linguistics and the Kenneth E. Naylor Professor of South Slavic Linguistics at The Ohio State University. He is one of the world's leading specialists in historical linguistics—the study of how languages change and develop through time.

Professor Joseph earned his bachelor's degree at Yale University and his master's and doctoral degrees at Harvard University before joining the Ohio State faculty in 1979. As chair of the Department of Linguistics from 1987 to 1997, he is credited with helping to develop the department into one of the best in the country. He was named a Distinguished University Professor—the university's highest faculty honor—in 2003.

Much of his research has focused on the Greek language, from its earliest appearance about 1500 B.C. to the present—a span of some 3,500 years. He has also examined close relatives of Greek, such as Latin, Sanskrit, and Albanian. His study of Albanian ties in with another area of his expertise, Balkan linguistics. He has taught at all levels, from freshman classes through doctoral seminars covering a variety of topics in the Department of Linguistics and, since 1997, in the Department of Slavic and East European Languages and Literatures. He has also been a visiting professor at several other institutions, including the Netherlands Graduate

School in Linguistics; the University of North Carolina/Duke University Slavic and East European Language Resource Center; Michigan State University; the University of Canterbury, New Zealand; and the University of the Aegean, Rhodes, Greece.

Professor Joseph is editor of *Linguistics*, the official journal of the Linguistic Society of America. He has given some 200 presentations at scholarly meetings, symposia, and conferences throughout the world; authored or coauthored five books; edited or co-edited 17 books and special issues of journals; and written or co-written more than 180 articles, book chapters, and notes. In addition, he has served on numerous committees at the departmental, college, university, national, and international professional levels.

He was named a fellow of the American Association for the Advancement of Science in 2006 and a fellow of the American Academy of Arts and Sciences in 2004. In 2003, *Ohio* magazine recognized him as one of Ohio's Top 100 Educators in Higher Education with its Excellence in Education Award. He is the recipient of Ohio State's Faculty Award for Distinguished University Service, the University Distinguished Scholar Award, the College of Humanities Exemplary Faculty Award, and the Alumni Distinguished Teaching Award.

RECIPIENTS OF HONORS

Wolfgang Ketterle

Doctor of Science

Wolfgang Ketterle has been the John D. MacArthur Professor of Physics at the Massachusetts Institute of Technology since 1998. He leads a research group exploring the properties of ultracold gases.

A native of Germany, Professor Ketterle received a diploma (equivalent to a master's degree) from the Technical University of Munich in 1982 and a PhD in physics from the University of Munich in 1986. He did postdoctoral work at the Max Planck Institute for Quantum Optics in Garching, Germany, and at the University of Heidelberg in molecular spectroscopy and combustion diagnostics. In 1990, he went to MIT as a postdoctoral research associate and joined the physics faculty in 1993.

His research is in the field of atomic physics and laser spectroscopy and includes laser cooling and trapping, atom optics and atom interferometry, and studies of Bose-Einstein condensation and Fermi degeneracy. A major focus is the exploration of new forms of matter, in particular, novel aspects of superfluidity, coherence, and correlations in many-body systems. His observation of Bose-Einstein condensation in a gas in 1995 and the first realization of an atom laser in 1997 were recognized with the 2001 Nobel Prize in Physics, together with E.A. Cornell and C.E. Wieman.

Professor Ketterle is a fellow of the American Physical Society, the Optical Society of America, the American Academy

of Arts and Sciences, and the Institute of Physics. He is a member of the German Physical Society, the European Academy of Sciences and Arts, the Academy of Sciences in Heidelberg, the Bavarian Academy of Sciences, and the German Academy of Natural Scientists Leopoldina, and he is a foreign associate of the National Academy of Sciences.

In addition to the Nobel Prize, his honorees include a David and Lucile Packard Fellowship, the Rabi Prize of the American Physical Society, the Gustav-Hertz Prize of the German Physical Society, the Fritz London Prize in Low Temperature Physics, the Benjamin Franklin Medal in Physics, and the MIT Killian Award.

John M. Opitz

Doctor of Science

John M. Opitz is professor of pediatrics, pathology, human genetics, and obstetrics and gynecology at the University of Utah Health Sciences Center in Salt Lake City.

A native of Germany, Dr. Opitz received his undergraduate and medical degrees from the University of Iowa, followed by specialty training in pediatrics and medical genetics at Iowa and the University of Wisconsin, where he began his intensive studies in developmental genetics and the pathology of congenital malformations.

His distinguished career as a physician-scientist spans nearly a half-century. Following training, he first served as a member of the Department of Medical Genetics and Pediatrics at the University of Wisconsin, where he directed the Wisconsin Clinical Genetics Center. He moved to Montana in 1979 to serve as chair of the Department of Medical Genetics at Shodair

Children's Hospital and director of the Montana Medical Genetics Program. He also served as an adjunct professor at Montana State University. In 1994 he was named University Professor of Medical Humanities in Montana State's Department of History and Philosophy. He joined Utah's faculty in 1997.

His research interests include sex determination, development of the genital system and its associate malformations, embryology and genetics of growth and skeletal abnormalities, and multiple congenital syndromes associated with mental retardation. He has provided a unifying concept linking human evolution, genetics, and development, and he has described a large number of human developmental abnormalities, several of which are named for him.

Dr. Opitz has published more than 300 papers and has written or edited 15 books.

He is the founder and editor-in-chief emeritus of the *American Journal of Medical Genetics*. He has twice served as a visiting professor to Nationwide Children's Hospital in Columbus and is frequently invited as a distinguished lecturer worldwide.

His many honors include the 1996 Humboldt Prize, the March of Dimes Colonel Harlan Sanders Lifetime Achievement Award for work in the field of genetic science, the Medal of Honor of the German Society for Human Genetics, and election as a fellow of the American Association for the Advancement of Science. He is an honorary member of the Society of Pediatric Pathology and a member of international medical genetics societies, including those of Japan, Russia, South Africa, and Israel. He is also a member of the German Academy of Sciences Leopoldina.

RECIPIENTS OF HONORS

Herb Asher

Distinguished Service Award

Herb Asher is professor emeritus of political science at The Ohio State University and counselor to the university president, a position he has held during five university administrations beginning with that of Edward Jennings.

A nationally known political analyst and expert on voting behavior, Professor Asher is respected by students, teachers, scholars, and politicians of all affiliations.

He holds a bachelor of science *cum laude* in mathematics from Bucknell University and a master's and doctorate in political science from the University of Michigan. He joined Ohio State's faculty in 1970 as an assistant professor in the Department of Political Science, becoming a full professor in 1979.

During his 25-year tenure on the regular faculty, he served as the university's chief liaison with state and local government, as

well as faculty advisor to several student organizations.

Following his 1995 retirement, Professor Asher remained very involved with the university on many levels, continuing to serve as counselor to the president. At President William E. Kirwan's request, he undertook the development of the John Glenn Institute for Public Service and Public Policy, serving as its founding director from 1998 to 2000. The Glenn Institute has since grown into the nationally respected John Glenn School of Public Affairs. Professor Asher continues to teach several political science courses each year, including the popular Campaign Politics course in which students participate in an actual political campaign of their choice.

He also continues to serve as faculty advisor to the Undergraduate Student

Government, the College Democrats, and two fraternities. He is a member of the executive committee and board of trustees of Hillel and a past president of The Ohio State University Faculty Club.

Among the numerous books and articles he has authored or coauthored are *Polling and the Public: What Every Citizen Should Know* (2007); *Presidential Elections and American Politics* (1992); and "The Media and the 1996 Campaign" in *Re-election 1996: How Americans Voted* (1996).

Professor Asher is a former member and chair of the Ohio Ethics Commission and a former member of the board of trustees of the Columbus Metropolitan Club. He currently serves on the Mid-Ohio Regional Planning Commission as well as on the board of trustees for Community Research Partners.

W. Rodney Sharp

Distinguished Service Award

With a background in biotechnology, business, and technology transfer, W. Rodney Sharp currently serves as an advisor and consultant to the Rutgers University School of Environmental and Biological Sciences and the New Jersey Agricultural Experiment Station, where he was formerly dean of research and director of research.

After earning his bachelor and master's degrees from the University of Akron and his PhD in plant cell biology from Rutgers, Dr. Sharp joined the faculty of The Ohio State University in 1969 as an assistant professor in the College of Biological Sciences, becoming a full professor in 1978. In 1979, he left the university to become director of Pioneer Research at the Campbell Institute for Research and Technology. He went on to become founder and/or

director of several successful biotechnology companies, including DNA Plant Technology, Agri-Diagnostics, DNA Pharmaceuticals, ESCAgene/PHYTOpharmaceuticals, and Wellgen.

He continued to maintain close ties with Ohio State, serving as a non-salaried adjunct professor and sharing his experience and expertise with students in the Department of Microbiology. He has long fostered an entrepreneurial spirit among Ohio State's faculty and has promoted and facilitated several global partnerships, notably with the University of Sao Paulo in Brazil and Cairo University in Egypt. In 1999, he established the Rod Sharp Professorship in Microbiology at Ohio State, and he has visited the university frequently to give research seminars, to participate in symposia, and to provide

counsel to students, faculty, administrators, and alumni.

Dr. Sharp is a member of Ohio State's Colleges of the Arts and Sciences Advisory Committee and a member of the Jennings Hall Leadership Committee for the College of Biological Sciences. He holds the title of Eminent Professor at the University of Sao Paulo and received that university's Luiz Queiroz Distinguished Service Medal. In addition, the University of Sao Paulo honored him by naming the William "Rod" Sharp Biotechnology Conference Facility for him.

Dr. Sharp has authored more than 70 original research papers, abstracts, and books in the field of plant cell biology, including the five-volume *Handbook of Plant Cell Culture*.

B.S. (University of London,
England)
Astronomy
Dr. Donald M. Terndrup

Robin Ng, Medan, Indonesia
B.S. (National Central
University, Chung-Li)
Chemical Engineering
Dr. Shang-Tian Yang

Lisa Marie Nicholson,
Monongahela, PA
B.A. (Washington and
Jefferson College)
M.A.
Sociology
Dr. Christopher R. Browning

Mark Eliot Nuckols, Exmore,
VA
B.A. (University of Virginia)
M.A. (Old Dominion
University)
M.A., M.A.
*Slavic and East European
Languages and Literatures*
Dr. Daniel E. Collins

Navdeep Ojha, Columbus
B.Engr. (Thapar Institute of
Engineering and
Technology, India)
M.S. (University of Akron)
M.S.
Biomedical Engineering
Dr. Chandan Sen

Ozgur Ozturk, Izmit, Turkey
B.S. (Bilkent Universitesi)
M.S. (Oregon Health and
Science University)
*Computer Science and
Engineering*
Dr. Hakan Ferhatosmanoglu

**Hartharasudhan
Palaniswamy**,
Muthugoundenpalayam,
India
B.Engr. (Bharathidasan
University)
M.S.
Mechanical Engineering
Dr. Taylan Altan

**Laxmi Kishore Parsa
Venkata**, Hyderabad, India
Bachelor's, Master's (Acharya
N. G. Ranga Agricultural
University)
M.S. (Texas A & M University -
Kingsville)
*Ohio State Biochemistry
Program*
Dr. Susheeta Tridandapani

Commencement Convocation, December 9, 2007

Danielle Corinne Payne,
Robinson, PA
B.A. (Indiana University of
Pennsylvania)
M.A.
Sociology
Dr. Ruth D. Peterson

Isaratat Phung-on, Lopburi,
Thailand
B.Engr. (King Mongkut's
Institute of Technology,
Bangkok)
M.S.
Welding Engineering
Dr. John C. Lippold

Leonardo Martin Porchia,
Upper Arlington
B.S. (Otterbein College)
M.S.
*Ohio State Biochemistry
Program*
Dr. Mathew O. Ringel

Suwattana Pruksasri, Haytal,
Thailand
B.S. (Prince of Songkhla
University)
M.S. (Chulalongkorn
University)
Chemical Engineering
Dr. Shang-Tian Yang

Richard Evan Rader, Locust
Grove, VA
B.A. (University of Virginia)
M.A.
Greek and Latin
Dr. William W. Batstone

Raghupathy Ramaswamy,
Perundurai, India
B.Engr., Master's (Tamil Nadu
Agricultural University)
Food Science and Nutrition
Dr. V.M. Balasubramaniam

Michael David Rauscher,
Ontario, CA
B.S. (Honors) (California State
Polytechnic University
Pomona)
M.S.
*Materials Science and
Engineering*
Dr. Sheikh A. Akbar

Regan Lance Reitsma, Forty
Fort, PA
B.A. (Calvin College)
Philosophy
Dr. Donald C. Hubin

Fang Ren, Tianjin, P.R.C.
B.Engr., Master's (Tianjin
University)
M.S.
Geography
Dr. Mei-Po Kwan

Christina Marie Ritter,
Columbus
B.A. (Dartmouth College)
M.A.
Theatre
Dr. Thomas E. Postlewait

Kenneth Ralph Rodriguez,
Columbus
B.S. (California State
University - Dominguez
Hills)
M.S.
Chemistry
Dr. James V. Coe

Toni Ann Ruda, Washington,
PA
B.A. (Washington and
Jefferson College)
Chemistry
Dr. Prabir K. Dutta

PremNandhini Satgunam,
Chennai, India
B.S. (Optometry) (Birla Institute
of Technology and Science)
M.S.
Vision Science
Dr. Nicklaus F. Fogt

Jennifer Elissa Schlueter, St.
Louis, MO
B.A. (Truman State University)
M.A.
Theatre
Dr. Thomas E. Postlewait

**Onome Ejaro Scott-
Emuakpor**, Dublin
B.S. (Wright State University)
M.S.
Mechanical Engineering
Dr. Mo-How Herman Shen

Leigh Ann Sears, Dublin
B.A. (Ohio Wesleyan
University)
M.S. (Ithaca College)
Education
Dr. Janet Buckworth

Yang Shao, Chicago, IL
B.Engr. (Nanjing University of
Aeronautics and
Astronautics)
Master's (Fudan University)
*Computer Science and
Engineering*
Dr. DeLiang Wang

Hoda Sherif Shawki, Cairo,
Egypt
Vordiplom, Diploma
(Universität Trier, Germany)
City and Regional Planning
Dr. Hazel A. Morrow-Jones

Lien-Fan Shen, Taipei,
Taiwan, R.O.C.
B.A. (National Cheng CM
University)
M.F.A. (School of Visual Arts -
New York)
Art Education
Dr. Terry M. Barrett
Dr. Jennifer F. Eisenhauer

Heather Dianne Smith, Akron
B.S.C.E., M.S.
Civil Engineering
Dr. Diane L. Foster

Sunghun Son, Seoul, South
Korea
B.S. (Yonsei University)
Molecular Genetics
Dr. Stephen A. Osmani

Jing Song, Xi'an, P.R.C.
B.S. (Beijing Normal
University)
M.S. (Chinese Academy of
Sciences)
Plant Pathology
Dr. Sophien Kamoun

Juyoung Song, San Diego,
CA
B.A. (Kyungsoong University)
M.A. (Pusan National
University)
Education
Dr. Marcia E. Farr

Mei Song, Swickley, PA
B.A. (Guangdong University of

Chad Michael Schenker,
Youngstown
B.B.A. (Youngstown State
University)
*Business Logistics
Engineering*

Bingxu Song, Columbus
B.S., M.S. (Nankai University,
Tianjin)
M.S. (University of Toledo)
*Business Logistics
Engineering*

Heming Wang, Dalian, P.R.C.
B.I.E. (Dalian Maritime
University)
M.B.A. (Clarkson University)
*Business Logistics
Engineering*

Yihui Zhao, Panjin, P.R.C.
B.S. (Dalian Maritime
University)
*Business Logistics
Engineering*

**Master of City and
Regional Planning**

Joseph Poliandro, Fullerton,
CA
B.A. (Honors) (California State
University - Fullerton)
City and Regional Planning

Master of Education

Melanie Ann Allen, Warren
B.A.
Education

Tamara Lynn Cohen,
Mansfield
B.S.Bus.Adm., B.A.
Education

Kristina Joann Ekieberry,
Cardington
B.S.Ed.
Education

Jennifer Elaine Garner, Wren
B.S.Ed.
Education

Abigail Leigh Hartssock,
Chillicothe
B.A.
Education

Commencement Convocation, December 9, 2007

Andrea J. Todd, Bellefontaine
B.S.H.E.
Education

Master of Fine Arts

Michelle Leigh Amos,
Roanoke, VA
B.F.A. (Virginia
Commonwealth University)
Art

Jason Charles Banks,
Jacksonville, FL
B.F.A. (University of Florida)
Theater

Annie Arnoult Beserra,
Evanston, IL
B.A. (Northwestern University)
Dance

Joe Casey Doyle, Edgewood,
NM
B.F.A., B.A. (New Mexico
State University)
Art

Colleen S.C. Leonardi,
Chicago, IL
B.A. (Bennington College)
Dance

Andrea K. Maclean,
Pickerington
B.S.Design
*Industrial, Interior, and Visual
Communication Design*

Sky Elyse Shineman,
Columbus
B.S.Ed
Art

**Master of Health
Administration**

TyJuan Michon Irby, Gary, IN
B.S. (Franklin University)
*Health Services Management
and Policy*

**Master of Labor and
Human Resources**

Jason Robert Coholich,
Defiance
B.A. (Miami University, Oxford
Campus)
Labor and Human Resources

Prema Raman, Bangalore,
India
B.S. (Bangalore University)
Labor and Human Resources

Morgan Lynn Webb, Ironton
B.S. (Wright State University)
Labor and Human Resources

Master of Music

Kyung Hwa Kang, Seoul,
South Korea
B.Mus., M.Mus. (Ewha
Woman's University)
Music

**Master of Physical
Therapy**

Laura Elizabeth Ackman,
Chardon
B.S. (University of Dayton)
Allied Medical Professions

Valerie Annette Gracy,
Springfield
B.S.Ai.Hth.Prof.
Allied Medical Professions

Jessica A. Lonjak, Medina
B.S. (Otterbein College)
Allied Medical Professions

Jacklin Patrice Matkovich,
St. Clairsville
B.S.Ai.Hth.Prof.
Allied Medical Professions

Joseph Charles Matthews,
Columbus
B.A.
Allied Medical Professions

Melanie Anne McClain,
Dublin
B.S.Biology (West Virginia
University)
Ph.D.
Allied Medical Professions

Holly Jane Niese, Ottawa
B.S. (University of Toledo)
Physical Therapy

Andrea Michele Roberts,
Grandview Heights
B.S. (Wake Forest University)
Allied Medical Professions

Mitchell C. Selhorst, Leipsic
B.A.
Allied Medical Professions

Christina Meghan Strang,
Findlay
B.S.Ed.
Allied Medical Professions

Daniel Ronald Sulka, Girard
B.S.Ai.Hth.Prof.
Allied Medical Professions

**Master of Public
Administration**

Yuanyuan Wang, Columbus
B.A. (University of Science
and Technology of China)
*Public Policy and
Management*

Master of Public Health

Josanne Alexander,
Gasparillo, Trinidad and
Tobago
B.S. (Honors) (Claflin College)
Public Health

Elizabeth Schorpp Burkett,
Columbus
B.S.Nurs., J.D.
Public Health

Sarah Michelle Downs, Avon,
CT
B.A. (Ohio Wesleyan
University)
Public Health

Nilukshie Ekanayake,
Cincinnati
B.S. (Honors) (Ohio
University)
Public Health

Kathleen Ann Gravelle,
Hilliard
B.A. (Ohio University)
Public Health

Tricia Michelle Greenwald,
Haskins
B.S.Biology (Ohio Northern
University)
Public Health

Alexandra Victoria Gulacy,
Columbus
B.A. (Northwestern University)
Public Health

Kellie Ann Hough,
Grindstone, PA
B.S. (California University of
Pennsylvania)
D.V.M.
Public Health

Commencement Convocation, December 9, 2007

Keeley Suzanne Kidwell,
Columbus
B.A. (Ohio Wesleyan
University)
Public Health

Maria Thuy Tu Anh Nguyen,
Blacklick
B.S.
Public Health

Walter E. Phillips II,
Lucasville
B.S.Nat.Res.
M.B.A. (Capital University)
Public Health

Carolyn Theresa Rice,
Pepper Pike
B.S. (University of Findlay)
Public Health

Tara Nicole Ruhlen, Sylvania
B.Applied Sc. (Bowling Green
State University)
Public Health

Angela M. Serna, Columbus
B.S. (University of Sydney)
Public Health

Jay Laxmichand Visaria,
Mumbai, India
B.S.Pharm. (University of
Mumbai)
Public Health

Danette Daniel York, Amelia
B.A. (Northern Kentucky
University)
Public Health

Master of Science

Khushbu Agarwal, Agra,
India
B.Engr. (Birla Institute of
Technology, Ranchi)
*Computer Science and
Engineering*

Sungwoo Ahn, Columbus
B.S., M.S. (Hanyang
University)
Mathematics

**Jennifer Hae Won Ahn-
Jarvis**, Encino, CA
B.S. (California State
University - Northridge)
Food Science and Nutrition

Mhd Zaher Al Sabbagh,
Damascus, Syria
B.S.E.C.E.
*Electrical and Computer
Engineering*

Firat Alemdar, Kocaeli,
Turkey
B.S.C.E. (Middle East
Technical University)
Civil Engineering

Roberto Jose Assef,
Santiago, Chile
Licenciado (Pontificia
Universidad Católica de
Chile)
Astronomy

Sitaram Asur, Bangalore,
India
B.Engr. (Visvesvariah
Technological University,
Bangalore)
*Computer Science and
Engineering*

Emily J. Baran, Hihiard
B.A., D.D.S.
Dentistry

Tara Eileen Baranowski, Oak
Harbor
B.S. (Michigan State
University)
Natural Resources

Joseph James Barbi, Lyons,
NY
B.S.Biology (Cornell
University)
Microbiology

**Jose Pablo Barquero-
Romero**, Tres Rios, Costa
Rica
Licenciado (Universidad de
Costa Rica, San Jose)
*Agricultural, Environmental
and Development
Economics*

Candace Berrett, Layton, UT
B.S. (Brigham Young
University)
Statistics

Ashwini Bharathula,
Hyderabad, India
B.Tech. (Indian Institute of
Technology, Madras)
*Materials Science and
Engineering*

Gregory David Bixier,
Blacklick
B.S.M.E.
Mechanical Engineering

Matthew John Blanchong,
Columbus
B.A., Bachelor's (University of
Notre Dame)
D.V.M.
Veterinary Biosciences

Jeremy M. Bluestein,
Cincinnati
B.S.M.E.
Mechanical Engineering

Alexandra Lee Borstad,
Columbus
B.A. (University of Saint
Thomas)
B.S. (University of Minnesota
Extension Division)
Allied Medical Professions

Justin Lewis Brown, Taft, CA
B.S. (California State
University - Bakersfield)
Natural Resources

Matthew Galen Bunce, Glen
Burie, MD
B.S. (University of Maryland)
Food Science and Nutrition

**Amanda Matovich
Burnaugh**, Columbus
B.A. (DePauw University)
Pathology

Renita Casandra Burrell,
Madison, WI
B.S. (Xavier University of
Louisiana)
D.D.S. (University of Michigan,
Ann Arbor)
Dentistry

Amy L. Campbell, Delaware
B.S.Nat.Res.
Natural Resources

Liu Cao, Columbus
B.S., Master's (Nanjing
University)
*Materials Science and
Engineering*

Sarah Cole Carothers,
Cincinnati
B.A. (Taylor University)
Pathology

Santhosh Chandrasekharan,
Chennai, India
B.Engr. (Anna University,
Chennai)
Mechanical Engineering

Commencement Convocation, December 9, 2007

Hao-Hsun Chang, Taipei,
Taiwan, R.O.C.
B.S. (National Taiwan
University)
Food Science and Nutrition

Jacinto Chang Pang,
Maracaibo, Venezuela
B.S.E.C.E. (Purdue University)
*Industrial and Systems
Engineering*

Jeffryes Walter Chapman,
Cleveland Heights
B.S.E.C.E.
Civil Engineering

Yiqun Chen, Fuzhou, P.R.C.
B.Engr. (Wuhan Technical
University of Surveying and
Mapping)
Master's (Tongji University)
*Geodetic Science and
Surveying*

Yisheng Chen, Hangzhou,
P.R.C.
B.S.C. (Zhejiang University)
*Computer Science and
Engineering*

**Avinash Ramanadha
Chivukula**, Hyderabad,
India
B.Tech. (Jawaharlal Nehru
Technological University)
*Industrial and Systems
Engineering*

**Karen Lucinda Cook-
Hoggarth**, Westerville
B.S. (Seattle Pacific
University)
Natural Resources

Joshua Douglas Cowgill,
Worthington
B.S.M.E.
Mechanical Engineering

Simon Curran, Worthington
B.S.E.C.E.
*Electrical and Computer
Engineering*

Rakesh Kumar Dhaka,
Hanumangarh Town, India
B.Tech. (Banaras Hindu
University)
*Materials Science and
Engineering*

**Abhijit Dnyaneshwar
Dingare**, Pune, India
B.Engr. (University of Pune)
Mechanical Engineering

Jessica Beth Doom, Grand
Rapids, MI
B.S. (University of Michigan,
Ann Arbor)
Human Ecology

Katherine Louise Dykes,
Columbus
B.S.E.E. (University of
Pennsylvania)
M.S.
*Electrical and Computer
Engineering*

Jason David Eastman,
Omaha, NE
B.A. (Boston University)
Astronomy

Max Albert Eifrid, Lexington
B.S. (Ashland University)
Veterinary Biosciences

Raed Ahmad El-Hajj, Beirut,
Lebanon
B.S.P.S., Pharm.D.
Pharmacy

Katherine Diane Elder,
Glendora, CA
B.S. (Brigham Young
University)
Pharmacology

Ernest Gregory Eugene,
Crofton, MD
B.S. (George Washington
University)
Allied Medical Professions

Grace Susan Evans,
Youngstown
B.S.
Ph.D. (Tufts University)
Dentistry

Kevin Eugene Fall,
Middletown
B.S.Agr.
Horticulture and Crop Science

Kai-Wei Fan, Hsinchu County,
Taiwan, R.O.C.
B.S., M.S. (National Chiao
Tung University)
*Computer Science and
Engineering*

Charles Elliot Flower, Bexley
B.A. (Lake Forest College)
*Evolution, Ecology, and
Organismal Biology*

Sean Thad Flowers,
Columbus
B.S.W.E.
Welding Engineering

Elbie Foote, Cincinnati
B.S.Al.Hth.Prof.
Allied Medical Professions

Cynthia Ann Ford, Columbus
B.S.
Entomology

Ruchika Gahiot, New Delhi,
India
B.Engr. (University of Delhi)
Mechanical Engineering

Amy Lynn Gallatin,
Wellington
B.S.Al.Hth.Prof.
Allied Medical Professions

Shelley Anne Glimcher, Bay
Village
B.S.Ch.E., B.S., M.S.
Biomedical Engineering

Anne Marie Gregg, Columbus
B.S.Nat.Res.
Public Health

Wenjun Gu, Columbus
B.S., M.S. (Shanghai Jiao
Tong University)
*Computer Science and
Engineering*

Andrew John Haase,
Worthington
D.D.S.
Dentistry

Linna Santofa Halim,
Semarang, Indonesia
B.S. (University of Minnesota
Extension Division)
Food Science and Nutrition

Ting-fang He, Taichung,
Taiwan, R.O.C.
B.S. (National Tsinghua
University)
*Ohio State Biochemistry
Program*

Cecilia Anne Hennessy,
Toledo
B.S. (University of Cincinnati)
Natural Resources

Brooke Marie Hersey, West
Chester
Human Ecology

Chad James Hoge, Bismarck,
ND
B.A. (Jamestown College)
D.D.S. (University of Nebraska
at Lincoln)
Dentistry

Commencement Convocation, December 9, 2007

Anqiao Hu, Zhuzhou, P.R.C.
B.S.E.E. (Beijing University of
Aeronautics and
Astronautics)
*Electrical and Computer
Engineering*

Tianyao Huo, Zhenjiang,
P.R.C.
B.S., M.S. (Nanjing University)
Human Ecology

Erin Elizabeth Hutter, Plain
City
B.S. (Wright State University)
Mechanical Engineering

Mihee Ji, Yongin, South
Korea
B.Eng. (Dongduk Women's
University)
Pharmacology

Jill A. Jones, Grove City
B.S.Nurs.
Nursing

Suraj Joottu Thiagarajan,
Madurai, India
B.Eng. (Anna University,
Chennai)
Mechanical Engineering

Ryanne Ariel Kennedy,
Lebanon
B.S.E.P.
Nuclear Engineering

Gaurav Khanna, New Delhi,
India
B.Eng. (University of Delhi)
*Computer Science and
Engineering*

Chelsea Anne Korfel,
Westerville
B.S. (University of Dayton)
Natural Resources

Claudia Harumi Kuniyoshi,
Blacklick
B.Agr.E., B.S.Agr.E. (Escuela
Agricola Panamericana,
Zamorano, Honduras)
Entomology

Tae Hun Lee, Coquitlam, BC,
Canada
B.S.C.S.E.
*Electrical and Computer
Engineering*

Adriana Ley Chavez,
Orizaba, Mexico
B.S. (Universidad de las
Americas, Puebla)
*Industrial and Systems
Engineering*

Yipeng Li, Pucheng, P.R.C.
B.S. (Tsinghua University)
M.S.
*Computer Science and
Engineering*

Matthew V. Lindemann, Flint,
MI
B.A., D.D.S. (University of
Michigan, Ann Arbor)
Dentistry

Wei Liu, Beijing, P.R.C.
B.S. (Peking University)
*Ohio State Biochemistry
Program*

Kaarina Lokko, Ardmore, AL
B.S. (Oakwood College)
Chemistry

Anirban Mahapatra,
Midnapore, India
B.S., M.S. (Vidyasagar
University)
Microbiology

JN M. Markiel, Columbus
B.S., M.B.A. (Franklin
University)

Colleges of the Arts and Sciences

Executive Dean: Jacqueline J. Royster

The Colleges of the Arts and Sciences, a federation of five colleges, includes the College of the Arts, the College of Biological Sciences, the College of Humanities, the College of Mathematical and Physical Sciences, the College of Social and Behavioral Sciences, and Arts and Sciences students enrolled in interdisciplinary programs.

Associate of Arts

Gifted Adutwum, Marion Campus
Sana Ahmed, Marion Campus
Courtney Lynn Bacin, Mansfield Campus
Maryjo Marguerite Barga, Marion Campus
Stephanie Rae Barker, Mansfield Campus
Brett Michael Baumgardner, Lima Campus
Dominick Sorrentino Berg, Marion Campus
Kelly A. Bohlander, Marion Campus
Alexander Erwin Buechel, Marion Campus
William Buckley Bums, Marion Campus
Austin Douglas Carey, Marion Campus
Chad Michael Carroll, Newark Campus
Leovinica Schanell Caruthers, Mansfield Campus
Ashley Erica Coder, Marion Campus
Tera M. Conard, Mansfield Campus
Alyson Marie Criswell, Marion Campus
Karmen L. Crouch, Newark Campus
Amanda Christine Delozier, Newark Campus
Tad David Eickholt, Marion Campus
Joshua Eugene Elthert, Marion Campus
Mara Beth Endres, Marion Campus
Amy Marie Fackler, Newark Campus
Andrew Clark Fenton, Newark Campus
Kari Nicole Ford, Marion Campus

Kara Marie Forthofer, Newark Campus
Amber Sue Foster, Marion Campus
Jennifer Leanne Garrison, Newark Campus
Allison J. Goerler, Marion Campus
Alison Renee Granger, Marion Campus
Emily Elizabeth Grimm, Mansfield Campus
Adam Matthew Guinther, Marion Campus
Corey A. Hardin, Newark Campus
Rosemary L. Holcomb, Marion Campus
Stephanie Lauren Howard, Marion Campus
Ronald Anthony Hubbard, Mansfield Campus
Matthew Garrett Hutchins, Marion Campus
Hodan Abdi Jama, Newark Campus
Courtney Ann Johnson, Marion Campus
Whitney S. Johnson, Marion Campus
Fardousa O. Khalif, Newark Campus
Amanda Nicole Kirk, Newark Campus
Krysta Nicole Kirsch, Newark Campus
Benjamin J. Lachowsky, Newark Campus
Andrew Thomas Leitz, Mansfield Campus
Holly Lynn Lewis, Newark Campus
Matthew David Little, Marion Campus
Stephanie Renee Lohr, Newark Campus
Kirk S. Lundgren, Lima Campus
James Robert Mann, Mansfield Campus
Miranda LeAnn Marciano, Mansfield Campus
Nathaniel Edwin Masters, Newark Campus
Nichole Marie McCarty, Marion Campus
Amanda Marie McGraw, Marion Campus
Ashley N. Neeley, Newark Campus
Amber Lyn Neely, Newark Campus
Marie Elizabeth Nicol, Marion Campus
Jennifer Elizabeth Radcliff, Marion Campus
Misti R. Rapp, Mansfield Campus

Jaclyn Rae Rector, Newark Campus
Michael David Reimer, Newark Campus
David Alden Richardson, Marion Campus
Kristen Nicole Rocca, Newark Campus
Mariah Arm Rose, Newark Campus
Erica Lyn Ruble, Marion Campus
Andrew Lee Rumball, Marion Campus
Michael J. Scharf, Mansfield Campus
Evan Kenneth Schlarb, Marion Campus
Chelsea Marie Scott, Newark Campus
Lauren Lynn Seckel, Marion Campus
Justin Lee Sines, Newark Campus
Shauna R. Sottoway, Mansfield Campus
Laura R. Spencer, Mansfield Campus
Tina Marie Stevenson, Marion Campus
Ashley Nicole Stuart, Newark Campus
Martin A. Shill, Mansfield Campus
Thaddeus Jason Townsend, Marion Campus
Rachelle Nichole Underwood, Newark Campus
Sara Michelle Veirs, Marion Campus
Amber Renee Vigar, Marion Campus
Raymond F. Warner, Newark Campus
Daniel Scott Wilcox, Marion Campus
Blessing Ember Wilhelmsen, Newark Campus
Brooke Savilla Williams, Marion Campus
Holly Nicole Wilson, Marion Campus
Paul Mike Wilson, Jr., Newark Campus
Tyler Robert Witzky, Mansfield Campus
Tiffany Danielle Yeager, Newark Campus

Bachelor of Arts

Rachael Brianne Agee, Trenton
Nohal Kamal Alshahal, Columbus

Commencement Convocation, December 9, 2007

Christopher Frank Baithaser,
Canal Winchester
Cum Laude
Shannon Rae Barnett,
Pickerington
Laura Emily Benchea, Akron
Selena Danice Bryant,
Columbus
Justin Richard Buntain,
Tailmadge
Cum Laude
Ryan Thomas Butler, Caldwell
Matthew Angelo Calabrese,
Springfield
Jennifer Lynn Cesari,
Ashtabula
Kristen C. Chapic, Russell
Michael Edward Deskins,
Westerville

February 1, 2008 meeting, Board of Trustees

The Chairman, Dr. Cloyd, called the meeting of the Board of Trustees to order on Friday, February 1, 2008, at 9:00am. He requested the Secretary to call the roll.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, John D. Ong, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Algenon L. Marbley, Ronald A. Ratner and Debra J. Van Camp.

Dr. Cloyd

In a moment we will be taking a roll call vote to go into executive session. The Board will reconvene this afternoon at 12:15pm. I hereby move that the Board recess into executive session for the purposes of discussing personnel matters regarding compensation, the sale and acquisition of property, and to discuss matters required to be kept confidential by State Statute.

Upon motion of Dr. Cloyd, seconded by Mr. Brass, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, Ong, Hicks, Fisher, Schottenstein, Brass, Marbley and Ratner.

Dr. Cloyd reconvened the meeting on Friday, February 1, 2008, at 12:15pm.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, John D. Ong, Leslie H. Wexner, Walden W. O'Dell, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Algenon L. Marbley, Ronald A. Ratner, Christopher A. Alvarez-Breckenridge and Debra J. Van Camp.

Dr. Cloyd:

Good afternoon. First of all, please join me in welcoming our newest Board member, Mr. Ronald A. Ratner, who was appointed to the Board by Governor Ted Strickland for a term ending May 13, 2015. Mr. Ratner is from Cleveland Ohio and is President and CEO of Forest City Residential Group and Executive Vice President and Director of its parent company Forest City Enterprises of Cleveland. We are delighted, Ron, to have you joining us and we look forward to working with you.

I would also like to note that another one of our Trustees, Mr. Doug Borrer, had surgery this week. He is home now and recovering nicely and he sends all of us his best regards. We wish Doug a very speedy recovery.

Next, I would like to discuss a topic that is certainly important to everyone in Ohio and that's the fiscal challenges that the state is under right now and the response we have seen from the state leadership. And what I want to read into the record of this board meeting is a letter that President Gee sent to the faculty and staff regarding what has transpired this week and this was sent out yesterday.

Earlier today Governor Strickland announced a series of decisions aimed at closing the significant budget deficit confronted by Ohio. In that announcement the Governor reaffirmed his commitment to higher education and to Ohio State by preserving funding for universities and colleges while making difficult choices in other areas of state government. I would like to personally thank Governor Strickland, Chancellor Fingerhut, and the leaders of the Ohio General Assembly for their continuing support for affordable and excellent public higher education. The Governor's decisions

February 1, 2008 meeting, Board of Trustees

demonstrate a real commitment to ensuring Ohio's long-term economic health through investment in Ohio State and other state-supported universities and colleges.

We at Ohio State have a substantial responsibility. We must continue to attract and maintain the best and brightest students and faculty, provide a world class education, conduct cutting edge research, attract outside investment, and partner with other institutions, businesses and industries to turn innovative ideas into real world solutions for public good. And we must do so while being wise guardians of our resources. I believe we represent Ohio's best opportunity for a prosperous future. Today's announcement is a vote of confidence in that belief, and I look forward to all of us working together to fulfill Ohio State's enormous promise and responsibility to the citizens of Ohio.

This is a terrific message and the Board of Trustees of Ohio State is fully supportive of everything contained in this letter. First of all, we have deep appreciation for the governor, the chancellor, and the Ohio General Assembly for standing steadfast in their commitment to continue to invest in higher education. Also, we recognize the special responsibility that we carry here at The Ohio State University to fulfill the promise of what the governor and the General Assembly wants. So with that, President Gee, I want to thank you because I thought that was a wonderful message and I would now like to turn to you for your report.

PRESIDENT'S REPORT

President Gee:

Thank you very much, and let me just add to that by saying that I sent a note last evening to the governor and to the chancellor and to the legislative leadership, all of whom have been very supportive to this University and for higher education, indicating that I personally pledged, and I know that my college joined me, that we will do anything possible to be worthy and that we will continue to be worthy of their support, but we realize that we have a high level of opportunity as well as responsibility and that we will fulfill that. The leadership role for this University at this time and in this state, nationally, and internationally is a powerful opportunity and we will do everything possible to make that leadership role a reality. So I just wanted to be on the record in that regard.

A lot has happened since we last met. First of all, I made it home from the Bowl game alive. I want you to know, barely. This is the first time I have ever been chased by a man with an inflatable Buckeye head. And you know something, I didn't know that Brutus could swear, but he does. Some fans were understandably disappointed by our loss, but I was literally awestruck by the number of our fans in the Big Easy. Sixteen thousand were at our Buckeye Bash. The game was watched by 23.1 million people and, by the way, I will say this to our team, we had the best band, we had the best fans, we had the best ads on television, and we didn't have to go back to Baton Rouge LA, so we really did win! I hope we don't play LSU next year. I hope I am not invited back down there!

So anyway football does provide a wonderful platform for our team, for our band, and for the spirit of the University. I would like to make one note and this is a note of pleasure. You know we had 13 football players eligible for the draft, all of whom would have gone very high, and only one chose to leave Ohio State. James Laurinaitis, who is our great all-American defensive back, made a very moving statement about the value of this University, about the value of education, about the spirit of the place, and that I think to my colleagues over here is what it's about. It's about students achieving whatever they achieve and I think that that was such an important affirming moment for us. And I take great pleasure in that. So it is a testament to all of us.

February 1, 2008 meeting, Board of Trustees

For my part, I spent much of the last month continuing to harness and cultivate that great spirit of Ohio State, strengthen our network from campus working with our neighbors in Columbus and with our friends at the statehouse and throughout the state.

I thought I should tell the board we've had a faculty and staff recognition lunch for those who have dedicated their lives and careers to the mission of Ohio State, in that lunch we celebrated 17,000 cumulative years of service to the University. One of the things that has struck me, and let me just say to everyone here, what struck me is the intense loyalty among our faculty and staff at this institution. They have much more loyalty to the University than the University has to them, and we need to make sure that we are great partners with our faculty and staff. I must say that I was very taken with that service.

And then we are trying to make students and their families feel a part of Ohio State. Tomorrow, and you are all welcome, although we do not have any room, I have rented out Gateway Theaters. I have rented them all and we've invited the graduate students with their families to come and join me in watching the latest version of the *Wizard of Oz*. I'm taking everyone to see the *Wizard of Oz* tomorrow. So you should all come, how does that sound? And then next week I am taking the undergraduates to see *Napoleon Dynamite*, so if you want to have fun and spend an evening with me you can do that, otherwise you can have a life.

We've been helping recruit the best and brightest to come to this University and the quality of our applications continue to improve substantially, and that was evidenced by the large number of students coming to our scholars days. Tomorrow we have another group coming in.

I can't fail to mention something else. Coach Tressel was honored by his colleagues as Ohio coach of the year and Jim Foster won his 650th victory as a basketball coach. Jim Foster by the way has the longest standing graduation rate of 100% among any standing coaches in the country. That is something we should note.

In the Community Bucks for Charity drive, Ohio State employees raised almost \$1.2 million for local non-profits including Habitat for Humanity, United Negro College Fund, Girls Scouts, and Legal Aid Society. Our faculty and staff program, in support of the community, is one of the largest, if not the largest in this country in terms of the contributions they make. That is a great statement about the fact that we believe that we cannot have a great university unless we live in a great city and in a great community.

We met with the local K-12 schools superintendents to deepen Ohio State's collaboration with Franklin County Schools and we are opening our urban art space in the old Lazarus Building downtown. This is a statement that we are planting our flag in the center of the city. You know our campus is not simply bound by High and Lane. Our campus is a city and our campus is a state, and this is just another effort in that regard.

At the same time, I've started to travel around the state. My goal is to be in all 88 counties this year. I am having my picture taken in front of these county signs. I was out in front of this county sign, which county was it? Athens County, I should have figured that out. Athens County, and it was about 20 degrees and I am standing out there getting my picture taken. What I don't do for this University, anyway! I've spoken to the Akron Round Table and the Athens Rotary Club. We visited ATI and Wooster to have a chance to see the programs there. The chairman and I spent a good deal of our time in Cincinnati with the Alumni Parents and students and we also had an opportunity to go to Cleveland to spend some great time there.

February 1, 2008 meeting, Board of Trustees

The most exciting news I would like to announce today is that one of Ohio's best cooperate citizens has chosen wonderful timing for an extraordinarily generous gift. I am pleased to announce that Abercrombie & Fitch has donated \$10 million to our University. This money will support research and patient care both in women's oncology at the James Cancer Hospital and Solove Research Institute and inflammatory bowel and digestive diseases at the Medical Center. It creates endowed funds split evenly between those two areas. Abercrombie & Fitch's generous investment in Ohio State raises our current total of the Medical Center's Power to Change Lives fund raising campaign to more than \$385 million. It's a fitting gift I would say at a fitting time as this company continues to thrive and expand overseas. Abercrombie is demonstrating uncommon support for its hometown university.

So I am going to ask some friends to join me. First, Tom Lennox, please stand. Now I want you to know Tom is dressed up for an Abercrombie guy. He is actually wearing shoes instead of Birkenstocks! Tom is Abercrombie & Fitch's vice president for cooperate communications. With him is Dr. Souba the University's interim senior vice president of health sciences; Dr. Hagop Mekhjian, Hagop, please stand, the chief medical officer of the University health systems; and Dr. David Schuller, who is our vice president for the medical center expansion and outreach. Together they made a great thing happen and for that we are grateful. Will you please tell all your colleagues at Abercrombie & Fitch how delighted we are with this and it's going to make a significant difference. Gentlemen, thank you for making this happen on behalf of this University. Let's give them all a round of applause.

Would you like to say anything?

Mr. Lennox:

I really didn't prepare anything. We just appreciate the opportunity to partner with one of the best institutions in the country. This will be great for Columbus and beyond Ohio. So thank you.

COMMITTEE REPORTS

Dr. Cloyd:

Thank you. At this time we will hear committee reports. I would like to begin with the Medical Affairs Committee. Mr. Brass.

Mr. Brass:

Good afternoon and thank you, Mr. Chairman. What a great way to start off the Medical Affairs report with a great gift like that. What else can I say! We had a fantastic Medical Affairs Committee meeting yesterday. An awful lot is happening and I would like to share with the Board today. Dr. Souba started us off with a number of items that are happening at the Medical Center. Since our last Board meeting we have hosted a very large technology symposium here in which we had some 200 people from other major health systems, which we took a leadership role in, and again, it just brings an awful lot of good comments to our Ohio State University.

The Anthem Insurance organization also gave us an award as the best in class as it relates to diabetes. That says an awful lot for a lot of our different programs. We moved the financial report to the beginning of the committee report just to make sure we had a really good handle on the finances. And I'm happy to tell you, as it relates to the economics of a very large piece of our University; they are really looking very, very good. On the down side, our admissions are down a little bit; our surgeries are up quite a bit; and overall our operation gain is exceeding budget over last year.

February 1, 2008 meeting, Board of Trustees

Now we look at a number of different things to determine whether we are in good stead. And those of us who manage these types of things look at our EBIDA rates, we look at our debt service rates, and we take a look at our day's cash on hand very closely. And I'm telling you we are in good stead with all of them and getting better. The weakest one is a day's cash on hand, but we are getting better every day. Our debt service rate is looking great and our EBIDA is looking great. So statistically things are looking good, and I think that is important to know.

One of the things that we have to pay attention to, as it relates to this large project coming forward for the expansion, is to make sure we keep an eye on the trends. As a Board we will be watching that very carefully with the executive team. The two that I want the Board to be aware of is we have got to keep track of the mix. By that I mean the type of insurances that are paying the bills and the self-pay patients coming through, because we have an obligation to take care of patients that come for care.

I think as we gain momentum with the planning process, our executive team is working better than ever as it relates to this large plan which takes us out, it used to be 2012 and now it's 2014. We've moved it out a little bit. We have engaged Deloitte to really help us, arm and arm, to look at the strategic plan and that is coming together very well. At our April Board Meeting both at the committee level as well as the full Board we will be spending quite a bit of time putting an awful lot of information forward as it relates to where that strategic plan is. Deloitte has done a wonderful job along with the executive team. Specifically we are looking at the financial forecast, we are looking at the signature programs, we are looking at the core strategy of this long-term plan, we are looking at the risk factors that could be coming at us so that we have a real good sensitivity analysis done, and we are also taking a look at the implementation plan. So those five big areas are focus points for us as it relates to recasting, revalidating, and re verifying the strategic plan as we go forward.

Dr. Gee is very busy as it relates to recruitment within the Medical Center for our top executive. That's going very, very well. We are taking a look at the PPS exemption in detail as it relates to the cost flow of dollars there, so we are making sure we maximize our returns.

There are three other parts we talked about and I just wanted to mention them quickly today. One is the philanthropy as a part of a large structural expansion and we are thinking about that both programmatically as well as for the facility. Philanthropy will be a very important part and that has to be fine-tuned as it relates to how large that capital campaign will be as part of this plan. Second, is the ambulatory care structure. The strategic plan related to ambulatory care both on site and off site has got to be built into this plan, and we have a lot of work going on with that. And the last one is that our Medical Center right now is operating 1,110 beds. That's what we could physically count if you walk through all the corridors. As part of this plan, we are estimating that we are at least 200 beds short to meet the critical needs right now. That then relates back to dollars and relates to meeting the needs of our patients, our faculty, and so on as part of the short-term plan and the long-term plan. The short-term plan is that the staff has figured out a way to bring on 65 additional beds in the near future. Now that does not sound like a lot but that is in fact a lot when you think about the critical care beds, med/surg beds. We still have additional work to do there both on a short-term and on a longer term basis, but it is important for us to know that. In addition to that we will be opening up 60 new beds over in our heart hospital and 12 additional critical care beds. So, when you put it all together and you think about short-term and long-term we are talking about probably being able to solve about 100 beds on a short-term basis. We will still end up with a couple hundred beds short on the long term, which has to be met either through new construction or through some creative way of moving things around.

February 1, 2008 meeting, Board of Trustees

We had a great meeting. The synergy that is coming forward from the executive team of our Medical Center, the finances, the strategy, our outside consultants, both Deloitte and others, are really working together very, very well.

The committee was very pleased with the progress we are making and I believe over the next few months additional progress will be made around those 5 subject areas I highlighted earlier. I think this board along with this executive team will be in a position to make some very exciting decisions in the near future. So unless there are some questions, I will end my report. It was a good meeting.

Dr. Cloyd:

Thank you Mr. Brass.

Mr. Wexner:

I've asked this question and I guess I assume I will get an answer this time. About how many days of cash do we have on hand and what should be our target?

Mr. Brass:

Well, I can answer that with exactness; which is just a little over 54 days of cash on hand. And as far as how many we should have on hand in an academic center, that's a question I have asked Deloitte to give us in April.

I could give you specifically what it should be for AA rating in a large complex tertiary care center and that would be about 150 days. I can go up from that and I can go down with that. In an academic center it is a little different. And, the reason for that is you have the financial strength of the University as a whole backing up the University Medical Center, and the cash position within the University that has to be taken into account and therefore the days cash on hand are not as important as they would be in an institution that is not backed up.

The question is how many more should we need.

Mr. Wexner:

You know how many you had at Michigan?

Mr. Brass:

Sure. And Michigan has a very large endowment backed up by the university and we were running about 150.

Dr. Cloyd:

Are there any other questions or comments for Mr. Brass? Thank you very much. We will next have the report from the Audit and Compliance Committee, Mr. Schottenstein.

Mr. Schottenstein:

Thank you, Mr. Chairman. The Audit and Compliance Committee met yesterday. There were no specific action items, but we did hear a number of reports. With the expansion of the name of the committee from just the "Audit Committee" to the "Audit and Compliance Committee," it is now our goal at each meeting to make certain that in addition to our regular audit reports that at least one, if not more than one, major compliance area is reviewed.

February 1, 2008 meeting, Board of Trustees

In accordance with that, at this particular meeting the compliance matter that was presented relates to athletics and it was an excellent report. As you talked about a few minutes ago, Dr. Gee, we love to win on the field. I think I speak for all the members of the Audit and Compliance Committee that listened to the report yesterday when I say that we are winning off the field as well. We have a very robust compliance department. It's probably one that is the envy of most other universities. We take it very seriously and I think that in any compliance matter perhaps the most important thing is the tone at the top. And I know that the members of the Audit and Compliance Committee felt that we have an outstanding tone at the top beginning with our athletic director and all the individuals who play a role in this important area.

In addition to the athletics compliance report we also received an update from Mr. Shkurti on the implementation of some of the recommendations that have come out of the PricewaterhouseCooper's operational audit. Beyond that there were just several other minor things, but as I said no action items. So, unless there are questions, that concludes my report.

Dr. Cloyd:

Thank you, Mr. Schottenstein. Questions or comments on this committee report? We will next have a report from the Academic and Student Affairs Committee chair, Ambassador Ong.

Ambassador Ong:

Thank you, Mr. Chairman. As I reported last month, our committee, working with the provost, has defined a six meeting 2008 agenda. In each of our meetings we are seeking to address one of the major strategic issues facing the academic enterprise of the University, all of which have been sighted as priorities by President Gee.

Yesterday we addressed the subject of student housing, which Gordon has made an important priority for him as part of his drive to improve the student experience at the University. Today we have 9,850 students living in campus housing. And the plans had been put underway some time ago, and this Board has approved those plans, to improve and expand those facilities over the next several years. President Gee however, since coming on board, has urged, and the provost and his minions have accepted the fact, that this plan needs to be somewhat refined and more importantly accelerated. So we are now talking about a revised schedule which will complete the items that had been planned about two years earlier than originally conceived.

The committee was very impressed by the fact that the provost in approaching this subject addressed a question that often is not asked in matters of this kind. Mainly, why do this at all? And he gave a very convincing defense or explanation of the importance of increased student housing on campus. Looking at just the latest cohort, the 2004 cohort, those who have lived in residence halls in the first year, 91% return for the second year and 86% returned for the third year. If you look at those who are not living in residence halls, only 81% returned for the second year and 75% for the third year. So there is a great difference in terms of continued effort between resident and non-resident students.

Likewise, the provost looked at grade point averages and resident hall students have the highest grade point average in the University at 3.33, and the next highest are those students who live within walking distance. Clearly geography has a little bit to do with this, but again, the highest grade point average is earned by those who are in residence halls.

There was also some surveying done about the attitude of students who are living in residence halls and the attitude of students living elsewhere. That satisfaction level was well over 90% for those living in residence halls and just a bit under 80% with

February 1, 2008 meeting, Board of Trustees

those living in other kind of facilities. It's also the case that the number of students graduating within four years is substantially greater among residence hall students compared to non-residence hall students.

The provost then spelled out some other considerations: student safety and security is enhanced by being on campus in a residence hall. The sense of community is created obviously by that. Convenient access to classrooms and laboratories, academic support services within the residence hall in terms of tutoring, access to the internet, leadership opportunities, and student organizations of one kind or another, clearly are facilitated by living in a residence hall. It is also interesting that we have 6,000 students who are living in living-learning communities, affinity kind of communities based upon their academic specialty such as an engineering house, a pharmacy house, a human ecology learning community. We have several affinity housing units for honors programs, cultural communities based upon language and culture of various kinds, and this, of course, is something that can only exist within on-campus housing.

We have now 37 buildings on campus in 22 complexes and I said something like 9,800 students. Residential life and housing education programs are administered by professional graduate and paraprofessional staff. Student satisfaction, as I reported earlier, ranges well above that for students living on campus. The system is financially self-supported through fees. However, the majority of the facilities that we have today were built in the 1950's and 1960's, so maintenance is and will remain a problem.

We have invested about \$200 million in student housing improvements over the last 15 years. Most of this was demand driven and there has not been a carefully thought out long-range plan for addressing this problem, but now we have such a plan. The 2008-12 capital plan objectives aim to do several things, first of all modernize and improve aesthetically the residence halls and lower the density. We now have a substantial number of these residential students living in quads and triples and the aim is to reduce that over this period of time so that no one is in over a double occupancy. We want to maintain the capacity of 9,800 beds during the renovation and construction period which is going to take a lot of scrambling around obviously. We want to increase capacity by up to 1,500 beds and perhaps even more. This is an issue which the committee has urged the provost and his staff to take another look at, since the president has an ambition to see the entire sophomore class of undergraduates in residential situations, if possible, as opposed to the entire freshman class and some sophomores. It remains unclear whether there is capacity, financial or physical, to do that, but the committee has urged the provost, as I said, to take a very careful look at the president's goal and see whether in fact there are ways to achieve it.

I won't go through the entire chronology of the expansion plan but I can tell you that it will occur between now and 2012. The estimated investment is \$195 million. The administration is looking at four different ways of financing this. We have the University build on University land, which is the traditional way that most of our student housing has been acquired in the past. They are also looking at having a developer build on University land, which has advantages in terms of cost, and yet at the same time gives the University substantial control over the design and the quality of construction. We have University master lease of off campus property and a little of that has been done in the past. And then, finally, just a simple arrangement with developers to build on private land which they would acquire.

The provost very carefully went through the advantages and disadvantages of those four options and I think it was a conclusion of the committee that given the realities of our financial capacity, the answer is they will probably use all four of these options to some extent, as is most appropriate.

The next steps are basically to gain some consulting insight into several of the issues. In particular, reviewing that one dealing with the amount of capacity that we can increase as opposed to simply replacing dorms, and some further investigation into the

February 1, 2008 meeting, Board of Trustees

various financing alternatives. We expect that the administration will return to us later this year for some further reporting on that and further input on our part. That was the entire meeting except for the usual personnel action approvals.

Dr. Cloyd:

Thank you, Ambassador Ong. It is clearly a very exciting vision relative to the academic experience that can be created. As you noted, there is a very strong case to be made that the success of the students is enhanced by this, but obviously this is a very significant investment. Mr. Brass has just outlined that in April we will be getting to the next stage of what is probably about a \$1 billion investment in the Medical Center, so we have a lot of activities going on. President Gee, I think it would be good if you could provide just a little bit of your thinking of a timetable and how we choreograph all of this and bring it all together into a composite consideration.

President Gee:

We are a University that has infinite appetites and not infinite capacity and so the issue of planning for us is enormously important. And what we are trying to do through this process, what Mr. Brass is doing, what the Ambassador is doing, what we are doing together, is we are now talking about this in the common framework in one University. And that means that we can't plan in a segregated fashion. We can't think about housing as one activity and think about the Medical Center as another activity. We have to think about both and how we plan, how we integrate, how we align our resources, and how we move everything forward together, because there are synergies that can be developed there and opportunities for us to not replicate the activities and opportunities for us to stage ourselves. It is all about alignment and prioritization. The end result is that we cannot be in a position, Mr. Chairman, where we have internal competition for resources which are sort of needed but in which we use our resources as a weapon. We must be sure that we are moving forward the agenda of the institution in an aligned fashion, that's the reason the master plan and concept is so important.

Now I spoke today about the fact that we have got some good external consultants looking very carefully at all of our issues. Obviously we have a huge deficit in terms of deferred maintenance. We have got to take a look at all that we are doing in terms of maintaining the quality of our campus and enhancing it. But it is all about program. The planning concept, you will hear this today from the provost, that this University can no longer just build a building. We are building a program and then we will make certain that our physical assets are absolutely aligned with that academic prioritization. For all too often and for all too long universities have built buildings and then said, "Oh, we'll put something in there." What we are going to do is we're going to create programs and enhance programs and say this is our need and it's all part of a common strategy.

Dr. Cloyd:

Thank you very much, President Gee. Are there any other questions or comments to Ambassador Ong about his report?

We will next hear the report from the Fiscal Affairs Committee, Mr. Hicks.

Mr. Hicks:

Thank you, Mr. Chairman; the Fiscal Affairs Committee met yesterday. We spent a considerable period of time reviewing how we spend our non-infinite resources. Much to the President's delight, we first started out by looking at our annual work plan which is really what the Ambassador did with his committee. We talked about last month about getting a plan of approach to review our financial and our facilities throughout

February 1, 2008 meeting, Board of Trustees

the course of a year, but also to highlight the strategic issues that we really want to pay attention to. So we spent some time doing that.

Mr. Shkurti gave us a mid-year financial report and this is essentially a report in which we have been reviewing our major areas of financial risk. I think Bill had mentioned he tries to keep this to a top 10 list, but it happens to have 12 items on it, right now. We won't review all 12 items but a couple of ones we should highlight here for the broader group would include the state support, which obviously we talked a great deal about already today. And we would express again our appreciation to the Governor and the Chancellor for keeping their commitment to higher education and we do have the responsibility to keep our commitment to manage wisely as well.

We talked in November about our financial aid situation and at that time we were told in November that we had a gap somewhere in the neighborhood of \$14-15 million in FY08. We needed to come up with additional financial aid resources to meet our obligations and I'm pleased to report that our recovery plan has been developed. One time funds for FY08 and for FY09 have been identified. There was also an identification of an ongoing fund of money for the next five years which is going to allow us to do what we committed to do, which is to fully fund our commitment on financial aid and achieve all of our recruiting goals. We were pleased with that.

We spent a little bit of time talking about the health system. I won't go into details on that obviously Mr. Brass covered a lot of that as well. We also spent some time talking about what Ambassador Ong just talked about which is how do we pay for all the needs that we have from a student housing stand point. We did talk on balance sheet and off balance sheet and some various ways in which we could meet the demands and do what we need to do in terms of upgrading our student housing given our debt capacity limitation.

The other area that I would highlight in terms of importance on these 12 areas that Bill went over with us is our key affiliates. Medical Center Partners as everyone knows has now been dissolved. We talked a great deal about Campus Partners and we are pleased about their project. We know that we have a long range plan, a business plan and a financial plan that is coming forward within a month or so and we are looking forward to seeing that.

And then I would highlight at this point a document that was in everyone's briefing book from Moody's, which is a very good summary, kind of a global macro trends on higher education, that we thought was very helpful as we think of the broader strategic issues that we are wrestling with right now.

We then spent some time talking about our financial benchmarks, which is really an annual comparison that we look at. At the beginning of each budget process we would point out, as I think we have in previous years that Ohio State operates on about 14.2% less in resources per student than some of our aspirational peers. That gap is decreasing and we are pleased to see that. We should also point out that that gap is not on the academic side of the house or the instructional side, if you will, it's more so on the support side, which gets us back into issues of deferred maintenance. But the bottom line on that report is that Ohio State clearly remains a very good bargain for students and an excellent bargain for the Ohio taxpayers.

Lee Walker walked us through the annual reconciliation as we looked at last year's budget relative to our forecasting verses what our actuals were. We were very pleased for the most part; we hit our projections extremely well. Our earnings and our restricted resources were very well within target. Our student fees and state support was 2% above our estimate, so that worked to our favor. And the one area we did spend considerable time talking about yesterday is how we estimate investment income. We have historically estimated investment income in a very conservative way, we thought that made sense. As a result of being conservative in our estimates, there is actually a

February 1, 2008 meeting, Board of Trustees

positive variance of about \$31 million in 2007, and those funds were used for very prudent one time expenditures including some of the capitol repairs and financial aid that I just mentioned.

Where our projections were slightly off, they were off on the positive side as opposed to the negative side of the ledger. We were pleased to see that.

We spent some time hearing from Ms. Bellini about construction metrics. As you know, we have been going through a process to develop phase 1, 2, and 3 construction metrics to ensure that we are monitoring and evaluating the construction projects and the facility improvement projects we're doing relative to other ones. Phase 1 metrics included benchmarking against other similar projects primarily looking at hard costs. Those metrics have been developed. Data is being compiled and collected on those points right now. We are in the development phase of the phase 2 metrics that will look at the medical space, all the different medical space, clinical office space, etc., that we have on campus and that we will have in the future.

We will also be looking at renovations and significant additions in that phase 2 metric analysis and we are expecting the early results in, I think, March for the phase 2. There will be a phase 3 metric developed in the next fiscal year that will primarily be looking at soft costs, as I understand it.

We also spent some time reviewing the 2007 on budget/on time progress report for construction projects. I am pleased to report that this was very positive. There were four projects above \$10 million that were closed out -- one of them completely closed out and three other ones that were occupied in 2007. All of those were on time and one of those was slightly above budget. As we got further into some of the smaller projects, what we looked at was a total of 17 projects above \$200,000 representing about \$171 million of overall construction costs last year. Ninety-four percent of the 17 were on time and on budget. So that means that out of the 17 above \$200,000, we had just one project that was over budget, and only one project that was slightly behind schedule. So I think that is really a tribute to our staff for focusing on delivering those and we thank them for a very positive report.

We spent some time talking about the transitional work plan. Larry Lewellen and his team talked to us about a very innovative program, a very good program that allows our employees who have temporary disabilities to be put into a job that they can do with their temporary disability for up to 12 weeks rather than just being at home. About 257 employees took advantage of that program last year. We are very pleased that it keeps our employees working productively and it has been a significant cost savings. Now the return on investment of this program is excellent, I think we invested about \$300,000 to develop and implement this program. As a result of that money, last year alone we saved \$2.2 million because of savings in disability and medical savings. That does not count for additional savings for temporary workers that we did not have to hire as a result of this. So this is a very good program, we were very pleased that Larry and his team Tori Weeks and Pam Doseck were with us. It was also significant to note that Tina Kielmeyer with the Ohio Bureau of Workers Compensation came by to applaud this program and said that this was really a model program. In fact, our team has been meeting with folks at the BWC and other state agencies about how to adopt and use a program similar to this because it's been so good. So we are very pleased that this innovative program is working out well.

We have five items that we are reporting for the consent agenda. The first one involves a very modest increase in our athletic ticket prices for football, men's basketball and some green fees at the Scarlet and Gray Course. I would point out that within our football program, unlike many of our peers, we have no premium game ticket prices. As we all know, we see a premium team every single week! I would also point out that because of some very good allocation of tickets, we are actually going to be able to allocate an additional 3,500 tickets to students next year. So we will have up to 30,000

February 1, 2008 meeting, Board of Trustees

students have the opportunity to get tickets for each of the home games. That exceeds by a very significant measure anything that other universities with big time programs have, so I am pleased that we are doing that.

We are reporting out a change in policy to the facilities improvement projects and some of the real-estate and easement issues that we traditionally see. We are trying to make sure that the Board spends its time looking at and reviewing the most important ones, so we will have a different matrix of projects that come in front of us - any project that is \$4 million and above. So what this is going to mean is that we will see fewer projects on our docket, but they will be the most important ones. As a matter of fact, if you look back at the last year, under this new policy we will see just about 3% of all projects, but that equates to about 80% of all the costs. So it really allows us to focus on the quality of those projects that are very, very important to us and have a big price tag.

We are recommending approval for three design contracts, five construction contracts, two easements, and one change to a long-term lease amendment for the varsity crew facility. So that concludes the report; I would be happy to respond to any questions.

Dr. Cloyd:

Thank you, Mr. Hicks. Any questions or comments on the report?

Thank you very much, there is obviously a lot going on at this point in time when there are non-infinite resources.

We will next have a report from the Agricultural Affairs Committee, Mr. Fisher.

Mr. Fisher:

Thank you, Mr. Chairman. The Agricultural Affairs Committee also met yesterday and took the opportunity to look back at some past actions to see how we are doing. Specifically, we heard a very informative update on a Targeted Investment in Excellence program, the TIE program. The one we looked at was the Public Health Preparedness for Infectious Diseases. Many of you may recall the TIE program and I will quote former Provost Snyder here, "... is one that will provide the greatest return for our investment, not only elevating the University's academic stature, but ultimately the quality of human life." From the report we heard yesterday, that indeed is happening.

In this case the program has six partners co-led by the College of Veterinary Medicine and the College of Food, Agricultural, and Environmental Sciences, and also includes the College of Medicine, the College of Biological Sciences, the College of Pharmacy and the College of Public Health. The mission is one of protecting human health, specifically the relationship between animals and humans, and the most recent example that we all hear about is Avian Flu.

I am happy to report this program adds great value not only to the Academic Plan but, President Gee, I think it contributes to each and every one of your six goals in a significant way. So we are very pleased about that.

A part of this in the Food Animal Health area does have some concerns. In this area we happen to have, and are privileged to have, internationally acclaimed faculty that are in place, but they are lacking facilities. In this case we are lacking a high security lab, which would be for this work and particularly to house animals. In fact we have lost some research dollars and some faculty because of this. This needed PAAR (Plant and Animal AgroSecurity Research Lab) would be located at OARDC in Wooster. We can't complete this facility soon enough. Work is in progress and it will be very beneficial when we get it done.

February 1, 2008 meeting, Board of Trustees

Lastly, we are pleased that the 4-H Center is up and operating, directly west of the Schottenstein Center, and would invite all of the board and all our guests here to visit the facility. Hopefully we can make that a part of our April agenda.

I would be happy to answer any questions, Mr. Chairman.

Dr. Cloyd:

Thank you, Mr. Fisher. Do they have a target date for a completion of this facility in Wooster?

Mr. Fisher:

I'm not sure about that, can you help me with that Dr. Moser?

Dr. Moser:

We don't have an exact target date yet, we are still working on the money, to raise enough resources to get it done. We do have design that we are starting with and we are working with Bill Shkurti's office to make sure we have all the steps covered. We are developing a business plan, so we are a little ways down the road yet to getting it completed, but as Mr. Fisher said, we can't get it completed fast enough. It's badly needed at the moment.

President Gee:

This is quite remarkable. We have two of the world's leading experts in Wooster, Ohio, Mo Saif is the leading expert on the Avian Flu. Think about this, everyone when they want to know about Avian Flu, they come to see him. And his wife Linda is the world's expert on another form of influenza, and they are sitting there in this little facility. I went to visit them. I got sick afterwards, no, I am just kidding. Sometimes in this vast enterprise we do not recognize two things: 1) that we have these miraculous treasures that exist, and 2) of all we don't recognize. Sometimes I think that one of our challenges in this state, not necessarily in this University, but in this state, is that we engage in a little bit of negative elitism. We don't realize really how good we are, and we always say if we are so damn good, then why are we here? The truth of the matter is we are here and we are very good and we have world class people doing world class things, and this is one of those nuggets that we need to celebrate and support.

Dr. Cloyd:

Other questions for Mr. Fisher?

Ms. Van Camp:

I just wanted to reiterate what President Gee said and I said to the committee yesterday, I mean if you want to talk about a program that is accomplishing President Gee's six strategic goals, this is that program. There are six colleges collaborating and the World Health Organization, we're talking international scope, is part of their funding. It's just a phenomenal program and they need \$5-6 million. So if we want to talk about where should we spend our limited resources and where are we going to get the highest rate of return, this is it. I can't think of a more exemplary program, so thanks.

Dr. Cloyd:

Any other comments or questions?

February 1, 2008 meeting, Board of Trustees

Thank you very much Mr. Fisher. We will next have a report from the Development and Investment Committee, Mr. O'Dell.

Mr. O'Dell:

Thank you, Mr. Chairman. The Development and Investment Committee met yesterday afternoon. Mr. Jeff Kaplan gave the Development Report, and reported on an excellent 6 month period ending December 2007, with total gift receipts up 20% versus prior year, and total net plan gifts are up 16%. This was accomplished in a very challenging period and I want to express the thanks of the whole board for your great efforts, Jeff, and for the work you have done to lead us through this transition period. We now we look forward to Peter Weiler joining us and continuing the great momentum and leading our development program.

Next we received updates from Mr. Tom Johnson on the rebalancing of the University's long-term investment portfolio, and the appointment of several new investment managers. That concluded the Development and Investment Committee meeting and concludes my report of both the Development Report and the investment manager approval on the consent agenda.

Dr. Cloyd:

Thank you, Mr. O'Dell. Any questions or comments on this report?

Alright, the Consent Agenda is now before the trustees, and I would like to call on President Gee to present it to the board.

UNIVERSITY HOSPITALS EAST BOARD APPOINTMENT

Resolution No. 2008-73

Synopsis: Approval of an appointment to the University Hospitals East Board is recommended.

WHEREAS in accordance with University Hospitals Board Bylaw (3335-104-01) all members of a specialized board shall be appointed by The Ohio State University Board of Trustees in consultation with the vice president for health services, the senior vice president for health sciences, and the president of the University:

NOW THEREFORE

BE IT RESOLVED, That the following individual be appointed as follows:

University Hospitals East Board

Denvy A. Bowman, effective February 1, 2008, through
January 31, 2011 (1st Term)

AMENDMENTS TO THE MEDICAL STAFF BYLAWS OF THE OHIO STATE UNIVERSITY HOSPITALS

Resolution No. 2008-74

Synopsis: The amendments to the *Bylaws of the Medical Staff of The Ohio State University Hospitals* are recommended for approval.

February 1, 2008 meeting, Board of Trustees

WHEREAS The Ohio State University Hospitals Board pursuant to bylaw 3335-101-04 of the *Hospitals Board Bylaws* is authorized to recommend to the Board of Trustees the adoption of amendments to the *Bylaws of the Medical Staff of The Ohio State University Hospitals*; and

WHEREAS these amendments were approved by the University Hospitals Board on January 15, 2008:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments are hereby adopted, effective immediately.

(See Appendix XXXV for background information, page 829.)

HONORARY DEGREES

Resolution No. 2008-75

Synopsis: The awarding of honorary degrees is recommended for approval.

WHEREAS the Committee on Honorary Degrees and the University Senate, pursuant to rule 3335-5-488 of the Administrative Code, have approved for recommendation to the Board of Trustees the awarding of honorary degrees as listed below:

Kofi Annan	Doctor of Public Service
Charles K. Brain	Doctor of Science
Francis S. Collins	Doctor of Science
Jules Pretty	Doctor of Science
Gloria Steinem	Doctor of Humane Letters

NOW THEREFORE

BE IT RESOLVED, That the above honorary degrees be awarded in accordance with the recommendation at a time convenient to the University and the recipients.

DEGREES AND CERTIFICATES - WINTER QUARTER COMMENCEMENT

Resolution No. 2008-76

Synopsis: Approval of Degrees and Certificates for Winter Quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on March 16, 2008, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

February 1, 2008 meeting, Board of Trustees

(See Appendix XLIII for background information, page 866.)

PERSONNEL ACTIONS

Resolution No. 2008-77

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the December 7, 2007 meeting of the Board, including the following Appointments, Concurrent Appointment, Reappointment, Professional Improvement Leaves, Emeritus Titles, and Promotion, be approved; and

BE IT FURTHER RESOLVED, That the Medical Staff Appointments and Reappointments of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute, approved on December 4, 2007, by the James Board, be ratified.

Appointments

Name: RUSTIN M. MOORE
Title: Professor (The Bud and Marilyn Jenne Designated Professorship in Equine Clinical Sciences and Research)
College: Veterinary Medicine
Term: November 1, 2007 through October 31, 2010

Name: PETER B. WEILER
Titles: Senior Vice President for Development/President, The Ohio State University Foundation
Office: Development
Term: March 4, 2008 through January 31, 2013

Concurrent Appointment

Name: MICHAEL A. CALIGIURI
Title: Chief Executive Officer, The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute
Term: November 1, 2007 through June 30, 2012
Concurrent Titles: Director, Comprehensive Cancer Center; Professor of Internal Medicine; and The John L. Marakas Nationwide Insurance Enterprise Foundation Chair in Cancer Research

Reappointment

Name: RICHARD A. HOLLINGSWORTH
Title: Vice President for Student Affairs
Office: Student Affairs
Effective: January 1, 2008

Professional Improvement Leaves

BELTON M. FLEISHER, Professor, Department of Economics, effective Autumn Quarter 2008 and Spring Quarter 2009.

LAUREN J. KRIVO, Professor, Department of Sociology, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

LUNG-FEI LEE, Professor, Department of Economics, effective Autumn Quarter 2008 and Winter Quarter 2009.

ELIZABETH G. MENAGHAN, Professor, Department of Sociology, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

February 1, 2008 meeting, Board of Trustees

JOHN MUELLER, Professor, Department of Political Science, effective Spring Quarter and Autumn Quarter 2009.

JANET M. BOX-STEFFENSMEIER, Professor, Department of Political Science, effective Winter Quarter and Spring Quarter 2009.

PRABU DAVID, Associate Professor, School of Communication, effective Winter Quarter and Spring Quarter 2009.

DANA L. HAYNIE, Associate Professor, Department of Sociology, effective Autumn Quarter 2008 and Winter Quarter 2009.

GOLDIE A. SHABAD, Associate Professor, Department of Political Science, effective Autumn Quarter 2008 and Winter Quarter 2009.

Emeritus Titles

STEVEN E. BOER, Department of Philosophy, with the title Professor Emeritus, effective April 1, 2008.

ROBERT F. LAWSON, School of Educational Policy and Leadership, with the title Professor Emeritus, effective July 1, 2008.

GEORGE S. PAPPAS, Department of Philosophy, with the title Professor Emeritus, effective April 1, 2008.

ROY A. STEIN, Department of Evolution, Ecology and Organismal Biology, with the title Professor Emeritus, effective February 1, 2008.

NEIL R. BAKER, Department of Microbiology, with the title Associate Professor Emeritus, effective February 1, 2008.

GARY P. MAUL, Department of Industrial, Welding and Systems Engineering, with the title Associate Professor Emeritus, effective February 1, 2008.

KENNETH D. SIMERAL, Ohio State University Extension, with the title Associate Professor Emeritus, effective February 1, 2008.

Promotion

COLLEGE OF HUMANITIES

PROMOTION TO PROFESSOR

Batstone, William W., Greek and Latin, effective October 1, 2007

Medical Staff - Initial Appointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Patricia A. Allenby, M.D.*, Associate Attending, Pathology, 10/12/2007

Larry A. Binkovitz, M.D., Pending Associate Attending, Radiology, 12/4/2007

Myrna G. Bowler, C.N.P., Allied Health, Neurology, 10/12/2007

Lisa A. Downs, C.R.N.A., Pending Allied Health, Anesthesiology, 12/4/2007

Lisbeth Edinger, C.R.N.A., Pending Allied Health, Anesthesiology, 12/4/2007

Veronica Franco, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 10/12/2007

Andrea L. Franklin, D.O., Associate Attending, Radiology, 10/12/2007

Michael J. Garufi, R.N.F.A., Pending Allied Health, Surgery Thoracic/Cardiovascular, 12/4/2007

Weihong Hu, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 10/12/2007

O. Hans Iwenofu, M.B.B.S., Associate Attending, Pathology, 10/12/2007

Richard H. Keates, M.D., Associate Attending, Ophthalmology, 10/12/2007

February 1, 2008 meeting, Board of Trustees

Kristin K. Kuntz, Ph.D., Pending Associate Attending, Psychiatry, Psychology, 12/4/2007
Victoria H. Lawson, M.D., Pending Associate Attending, Neurology, 12/4/2007
Deborah A. Levine, M.D., Associate Attending, Internal Medicine, General Medicine, 10/12/2007
David E. Lindsey, M.D.***, Associate Attending, Surgery, General Surgery, 12/4/2007
Margaret Linnabary, C.N.P., Allied Health, Internal Medicine, Digestive Disease, 10/12/2007
James J. Liu, M.D., Pending Associate Attending, Pathology, 12/4/2007
Sylvia R. Mand, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 12/4/2007
Julie E. McFarland, C.N.S., Pending Allied Health, Internal Medicine, Hematology/Oncology, 12/4/2007
Gina M. Mitchell, C.R.N.A., Pending Allied Health, Anesthesiology, 12/4/2007
Rhonda G. Paletta, C.R.N.A., Pending Allied Health, Anesthesiology, 12/4/2007
Rebecca Petzinger, C.R.N.A., Pending Allied Health, Anesthesiology, 12/4/2007
Carmen G. Sidani, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 10/12/2007
Yahna T. Smith, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 10/12/2007
Sarah A. Torabi, C.R.N.A., Allied Health, Anesthesiology, 10/12/2007
Mark W. Wurster, M.D.**, Pending Attending, Internal Medicine, Hematology/Oncology, 12/1/2007

*Monitoring required for first six months of practice due to lack of recent clinical activity.

**Proctoring of first five procedures performed for each procedure on Hematology/Oncology privilege form due to lack of recent specific clinical activity: bone marrow aspirate and biopsy, lumbar puncture, paracentesis, thoracentesis, and skin punch biopsies.

***Recommended for 18 month appointment, the first six months of which are provisional. All surgical procedures are to be proctored during the provisional period. Quality data will be examined at the end of the provisional period, prior to approval for a full appointment to the James medical staff. In addition, the applicant is expected to pass both the general surgery and critical care board exams within a year.

Medical Staff - Provisional to Full Appointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Michael N. Ailes, C.N.P., Allied Health, Internal Medicine, Pulmonary/Critical Care, 12/4/2007
Donna M. Beaty, P.A., Allied Health, Internal Medicine, Dermatology, 10/12/2007
Danette R. Birkhimer, C.N.S., Allied Health, Obstetrics/Gynecology, Gynecologic Oncology, 12/4/2007
Paul Chacko, M.B.B.S., Associate Attending, Internal Medicine, Hospital Medicine, 10/12/2007
Dennis M. Glatz, M.D., Associate Attending, Radiology, 10/12/2007
David L. Hall, D.D.S., Associate Attending, Dentistry, 12/4/2007
Diane B. Loseth, C.N.S., Allied Health, Neurology, Pain/Palliative Medicine, 12/4/2007
Gretchen A. McNally, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 12/4/2007
Jon Mickle, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 10/12/2007
Donna M. Owen, C.N.P., Allied Health, Urology, 10/12/2007
Parshan S. Ramsingh, M.B.B.S., Associate Attending, Radiology, 10/12/2007
Barbara L. Roeser, C.N.P., Allied Health, Internal Medicine, Pulmonary/Critical Care, 12/4/2007
Allison L. Rosenberg, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 12/4/2007

Medical Staff - Reappointments (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

February 1, 2008 meeting, Board of Trustees

Leslie A. Andritsos, M.D., Attending, Internal Medicine, Hematology/Oncology, 11/1/2007- 10/31/2009

Michael J. Andritsos, M.D., Associate Attending, Anesthesiology, 11/1/2007 - 10/31/2009

Ralph S. Augostini, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 11/1/2007 - 10/31/2009

Udayan Y. Bhatt, M.D., Associate Attending, Internal Medicine, Nephrology, 11/1/2007 - 10/31/2009

Shael Brachman, M.D., Associate Attending, Internal Medicine, Hospital Medicine, 11/1/2007 - 10/31/2009

Emile G. Daoud, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 11/1/2007 - 10/31/2009

Jamielynn W. Kemp, P.A., Allied Health, Radiology, 12/1/2007 - 3/31/2009

Allison K. Macerollo, M.D., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009

Douglas M. Magorien, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 11/1/2007 - 10/31/2009

Raymond D. Magorien, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 11/1/2007 - 10/31/2009

William E. Maher, M.D., Associate Attending, Internal Medicine, Infectious Disease, 11/1/2007 - 10/31/2009

Mahamadu Maida, M.D., Community Associate, Internal Medicine, General Medicine, 11/1/2007 - 4/30/2008

William B. Malarkey, M.D., Associate Attending, Internal Medicine, Endocrinology, 11/1/2007 - 10/31/2009

Michael A. Malfatto, P.A., Allied Health, Radiation Medicine, 11/1/2007 - 10/31/2009

Susan Mallery, D.D.S., Ph.D., Associate Attending, Dentistry, Dental, 11/1/2007 - 4/30/2008

Charles J. Manfreda, D.O., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009

Julie E. Mangino, M.D., Associate Attending, Internal Medicine, Infectious Disease, 11/1/2007 - 10/31/2009

Matharbootham Mani, M.D., Associate Attending, Anesthesiology, 11/1/2007 - 4/30/2008

Andrei V. Manilchuk, M.D., Associate Attending, Surgery, General Surgery, 11/1/2007 - 10/31/2009

Valerie Mann-Jiles, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 11/1/2007- 10/31/2009

Tasos Manokas, D.O., Associate Attending, Internal Medicine, Digestive Disease, 11/1/2007 - 10/31/2009

Jeffrey Marable, M.D., Associate Attending, Obstetrics and Gynecology, 11/1/2007 - 4/30/2008

Guido Marcucci, M.D., Attending, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009

Tracey M. Marks, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009

Clay B. Marsh, M.D., Associate Attending, Internal Medicine, Pulmonary, critical care and sleep medicine, 11/1/2007 - 10/31/2009

William L. Marsh, Jr., M.D., Associate Attending, Pathology, 11/1/2007 - 10/31/2009

Charles E. Martin, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009

Edward W. Martin, Jr., M.D., Attending, Surgery, Surgical Oncology, 11/1/2007 - 10/31/2009

Lisa C. Martin, M.D., Associate Attending, Radiology, 11/1/2007 - 4/30/2008

Stanley I. Martin, M.D., Associate Attending, Internal Medicine, Infectious Disease, 11/1/2007 - 10/31/2009

Christine S. Marx, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009

Janet R. Mason, M.D., Associate Attending, Family Medicine, 11/1/2007 - 4/30/2008

Douglas D. Massick, M.D., Associate Attending, Otolaryngology, 11/1/2007 - 10/31/2009

John G. Mastronarde, M.D., Associate Attending, Internal Medicine, Pulmonary, critical care and sleep medicine, 11/1/2007 - 10/31/2009

Thomas F. Mauger, M.D., Associate Attending, Ophthalmology, 11/1/2007 - 10/31/2009

Joel L. Mayerson, M.D., Attending, Orthopaedic Surgery, Orthopaedics, 11/1/2007 - 10/31/2009

February 1, 2008 meeting, Board of Trustees

Nina A. Mayr, M.D., Attending, Radiation Medicine, 11/1/2007 - 10/31/2009
Ernest L. Mazzaferri, Jr., M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 11/1/2007 - 10/31/2009
Mary J. McCafferty, M.D., Associate Attending, Psychiatry, 11/1/2007 - 10/31/2009
Jennifer W. McCallister, M.D., Associate Attending, Internal Medicine, Pulmonary, critical care and sleep medicine, 11/1/2007 - 10/31/2009
Kendra L. McCamey, M.D., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009
Helen M. McCarthy, C.N.P., Allied Health, Anesthesiology, Pain Palliative Med, 11/1/2007 - 10/31/2009
Carolyn A. McClerking, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009
John R. McConaghy, M.D., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009
Connie A. McCoy, D.O., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009
Leon McDougale, M.D., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009
John M. McGregor, M.D., Associate Attending, Neurological Surgery, 11/1/2007 - 10/31/2009
Bradford McGwire, M.D., Ph.D.*, Associate Attending, Internal Medicine, Infectious Disease, 11/1/2007 - 10/31/2009
Anne T. McPherson, C.N.P., Allied Health, Internal Medicine, Cardiovascular Medicine, 11/1/2007 - 10/31/2009
Anne A. McVey, Ph.D., Associate Attending, Psychiatry, 11/1/2007 - 10/31/2009
Mitchell A. Medow, M.D., Associate Attending, Internal Medicine, General Medicine, 11/1/2007 - 10/31/2009
Madhu Mehta, M.D., Associate Attending, Internal Medicine, Immunology, 11/1/2007 - 10/31/2009
Hagop S. Mekhjian, M.D., Associate Attending, Internal Medicine, Digestive Disease, 11/1/2007 - 10/31/2009
W. Scott Melvin, M.D., Associate Attending, Surgery, General Surgery, 11/1/2007-10/31/2009
Ehud Mendel, M.D., Attending, Neurological Surgery, 11/1/2007 - 10/31/2009
Jerry R. Mendell, M.D., Associate Attending, Neurology, 11/1/2007 - 10/31/2009
J. Layne Moore, M.D., Associate Attending, Neurology, 11/1/2007 - 10/31/2009
Scott H. Merryman, M.D., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009
Jon Mickle, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009
Dean J. Mikami, M.D., Associate Attending, Surgery, General Surgery, 11/1/2007 - 10/31/2009
Zhanna Mikulik, M.D., Associate Attending, Internal Medicine, Immunology, 11/1/2007 - 10/31/2009
Carole A. Miller, M.D., Associate Attending, Neurological Surgery, 11/1/2007 - 10/31/2009
Hans B. Miller, M.D.*, Associate Attending, Anesthesiology, 11/1/2007 - 10/31/2009
Sidney F. Miller, M.D., Associate Attending, Surgery, General Surgery, 11/1/2007 - 10/31/2009
Randy L. Mills, D.O., Community Associate, Internal Medicine, General Medicine, 11/1/2007 - 10/31/2009
William F. Miser, M.D., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009
Susan Moffatt-Bruce, M.D., Ph.D., Attending, Surgery, Thoracic/Cardiovascular, 11/1/2007 - 10/31/2009
Yousef M. Mohammad, M.D., Associate Attending, Neurology, 11/1/2007 - 10/31/2009
J. Paul Monk III, M.D., Attending, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009
Joseph F. Montebello, M.D., Attending, Radiation Medicine, 11/1/2007 - 10/31/2009
Patty A. Moomaw, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009
Constance R. Moore, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009
Mollie E. Moran, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009

February 1, 2008 meeting, Board of Trustees

Amir Mortazavi, M.D., Attending, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009

Perry D. Mostov, D.O., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009

Ewa Mrozek, M.D., Attending, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009

Khalil Murad, M.D., Community Associate, Internal Medicine, General Medicine, 11/1/2007 - 10/31/2009

James W. Murakami, M.D., Associate Attending, Radiology, 11/1/2007 - 4/30/2008

Robert A. Murden, M.D., Associate Attending, Internal Medicine, General Medicine, 11/1/2007 - 10/31/2009

Peter Muscarella II, M.D., Associate Attending, Surgery, General Surgery, 11/1/2007 - 10/31/2009

Tibor Nadasdy, M.D., Associate Attending, Pathology, 11/1/2007 - 10/31/2009

Sushma Nagar, P.A., Allied Health, Surgery, Thoracic/Cardiovascular, 11/1/2007 - 10/31/2009

S. Patrick Nana-Sinkam, M.D., Associate Attending, Internal Medicine, Pulmonary, critical care and sleep medicine, 11/1/2007 - 10/31/2009

Vimal K. Narula, M.D., Associate Attending, Surgery, General Surgery, 11/1/2007 - 10/31/2009

Malarvizhi Natesan, A.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009

Nadia S. Nathan, M.B.B./C.H., Associate Attending, Anesthesiology, 11/1/2007 - 4/30/2008

Anita N. Ndife, M.B.B.S., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009

Bradley J. Needleman, M.D., Associate Attending, Surgery, General Surgery, 11/1/2007 - 10/31/2009

Herbert G. Neff, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009

Anterpreet S. Neki, M.B.B.S., Attending, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009

Kami L. Nemcik, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009

Herbert B. Newton, M.D., Attending, Neurology, 11/1/2007 - 10/31/2009

Berit Nilsson, L.M.T., Allied Health, Family Medicine, 11/1/2007 - 10/31/2009

Uday S. Nori, M.B.B.S., Associate Attending, Internal Medicine, Nephrology, 11/1/2007 - 10/31/2009

David R. Nunley, M.D., Associate Attending, Internal Medicine, Pulmonary, critical care and sleep medicine, 11/1/2007 - 10/31/2009

Benedict C. Nwomeh, M.D., Associate Attending, Surgery, Pediatric Surgery, 11/1/2007 - 4/30/2008

James M. O'Brien, Jr., M.D., Associate Attending, Internal Medicine, Pulmonary, critical care and sleep medicine, 11/1/2007 - 10/31/2009

Julie C. O'Donovan, M.D., Associate Attending, Radiology, 11/1/2007 - 4/30/2008

Nathan J. O'Dorisio, M.D., Associate Attending, Internal Medicine, Hospital Medicine, 11/1/2007 - 10/31/2009

Barbara Olcott, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009

Thomas E. Olencki, D.O., Attending, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009

Johannes O. Olsen, M.D., Associate Attending, Radiology, 11/1/2007 - 10/31/2009

David M. O'Malley, M.D., Attending, Obstetrics and Gynecology, Gynecologic Oncology, 11/1/2007 - 10/31/2009

Eunice Oppenheim-Knudsen, M.D., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009

David A. Orsinelli, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 11/1/2007 - 10/31/2009

Erin M. Ort, M.D., Associate Attending, Internal Medicine, Hospital Medicine, 11/1/2007 - 10/31/2009

Richard W. O'Shaughnessy, M.D., Associate Attending, Obstetrics and Gynecology, 11/1/2007 - 10/31/2009

Gregory A. Otterson, M.D., Attending, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009

February 1, 2008 meeting, Board of Trustees

Donna M. Owen, C.N.P., Allied Health, Urology, Urological Surgery, 11/1/2007 - 10/31/2009

Rupal S. Oza, M.D., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009

Enver Ozer, M.D., Attending, Otolaryngology, 11/1/2007 - 10/31/2009

Francis J. Pace, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009

Hosi Padamadan, M.D., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009

Michael F. Para, M.D., Associate Attending, Internal Medicine, Infectious Disease, 11/1/2007 - 10/31/2009

Stephen F. Pariser, M.D., Associate Attending, Psychiatry, 11/1/2007 - 10/31/2009

Lisa S. Parks, C.N.P., Allied Health, Surgery, Surgical Oncology, 12/4/2007 - 10/31/2009

Jonathan P. Parsons, M.D., Associate Attending, Internal Medicine, Pulmonary, critical care and sleep medicine, 11/1/2007 - 10/31/2009

Leslie E. Partridge, R.A., Allied Health, Radiology, 11/1/2007 - 10/31/2009

Howard A. Paskett, P.A., Allied Health, Orthopaedic Surgery, Orthopaedics, 11/1/2007 - 10/31/2009

Sejal D. Patel, M.D., Associate Attending, Obstetrics and Gynecology, 11/1/2007 - 10/31/2009

Tushar C. Patel, MB.ChB, Associate Attending, Internal Medicine, Digestive Disease, 11/1/2007 - 10/31/2009

Vipul R. Patel, M.D., Associate Attending, Urology, Urological Surgery, 11/1/2007 - 10/31/2009

Jason R. Patterson, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 11/1/2007 - 0/31/2009

Elizabeth H. Paul, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009

Ronald P. Pelletier, M.D., Associate Attending, Surgery, Transplant, 11/1/2007 - 10/31/2009

Sam L. Penza, M.D., Attending, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009

William J. Perez, M.D., Associate Attending, Anesthesiology, 11/1/2007 - 10/31/2009

Frank L. Perin, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009

Todd E. Pesavento, M.D., Associate Attending, Internal Medicine, Nephrology, 11/1/2007 - 10/31/2009

Sara B. Peters, M.D., Associate Attending, Pathology, 11/1/2007 - 10/31/2009

Benita M. Petri, M.D., Associate Attending, Family Medicine, 11/1/2007 - 4/30/2008

Sheryl A. Pfeil, M.D., Associate Attending, Internal Medicine, Digestive Disease, 11/1/2007 - 10/31/2009

Stephen M. Pickstone, M.D., Associate Attending, Psychiatry, 11/1/2007 - 10/31/2009

Joseph J. Pinzone, M.D., Associate Attending, Internal Medicine, Endocrinology, 11/1/2007 - 10/31/2009

Christine A. Pitts, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009

Kamal S. Pohar, M.D., Attending, Urology, Urological Surgery, 11/1/2007 - 10/31/2009

Raymond M. Pongonis, D.O., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009

Amy L. Pope-Harman, M.D., Associate Attending, Internal Medicine, Pulmonary, critical care and sleep medicine, 11/1/2007 - 10/31/2009

Pierluigi Porcu, M.D., Attending, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009

Jeffrey G. Poulos, M.D., Community Associate, Internal Medicine, General Medicine, 11/1/2007 - 10/31/2009

Stephen P. Povoski, M.D., Attending, Surgery, Surgical Oncology, 11/1/2007 - 10/31/2009

David M. Powell, M.D., Associate Attending, Otolaryngology, 11/1/2007 - 10/31/2009

John M. Prickett, P.A., Allied Health, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009

Daniela M. Proca, M.D., Associate Attending, Pathology, 11/1/2007 - 10/31/2009

Min Pu, M.D., Ph.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 11/1/2007 - 10/31/2009

Adam D. Quick, M.D., Associate Attending, Neurology, 11/1/2007 - 10/31/2009

Patricia A. Rabinowitz, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009

February 1, 2008 meeting, Board of Trustees

Frederick K. Racke, M.D., Ph.D., Associate Attending, Pathology, 11/1/2007 - 4/30/2008
Michael K. Racke, M.D., Associate Attending, Neurology, 11/1/2007 - 10/31/2009
Melissa K. Radaker, P.A., Allied Health, Surgery, Thoracic/Cardiovascular, 11/1/2007 - 10/31/2009
Lisa R. Rader, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 12/4/2007 - 10/31/2009
Vasudevan Raghavan, M.B.B.S., M.D., Associate Attending, Internal Medicine, Endocrinology, 11/1/2007 - 10/31/2009
Amer Rajab, M.D., Ph.D., Associate Attending, Surgery, Transplant, 11/1/2007 - 10/31/2009
Sanjay Rajagopalan, M.B.B.S., Associate Attending, Internal Medicine, Cardiovascular Medicine, 11/1/2007 - 10/31/2009
Subha V. Raman, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 11/1/2007 - 10/31/2009
Bhuvaneswari Ramaswamy, M.D., Attending, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009
Nilsa D. Ramirez Milan, M.D., Associate Attending, Pathology, 11/1/2007 - 10/31/2009
Kottil W. Rammohan, M.D., Associate Attending, Neurology, 11/1/2007 - 10/31/2009
Abhik Ray Chaudhury, M.B.B.S., Associate Attending, Pathology, 11/1/2007 - 4/30/2008
Gary L. Rea, M.D., Associate Attending, Neurological Surgery, 11/1/2007 - 10/31/2009
Gary C. Reid, M.D., Comm Onc - Attending, Obstetrics and Gynecology, 11/1/2007 - 4/30/2008
Thomas E. Reilley, D.O., Associate Attending, Anesthesiology, 11/1/2007 - 10/31/2009
Douglas R. Rethman, M.D., Associate Attending, Internal Medicine, Hospital Medicine, 11/1/2007 - 10/31/2009

*Approved with waiver for board/subspecialty board certification at the request of the clinical department chair. Both applicants are scheduled to take respective board exams.

Joel M. Rice, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009
Ali A. Rikabi, M.D., Associate Attending, Radiology, 11/1/2007 - 10/31/2009
Philip A. Rinehart, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009
Matthew D. Ringel, M.D., Associate Attending, Internal Medicine, Endocrinology, 11/1/2007 - 10/31/2009
Milisa K Rizer, M.D., Associate Attending, Family Medicine, 11/1/2007 - 10/31/2009
E. Steve Roach, M.D., Associate Attending, Neurology, 11/1/2007 - 4/30/2008
William D. Roberts, M.D., Associate Attending, Anesthesiology, 11/1/2007 - 4/30/2008
Tom E. Rodgers, P.A., Allied Health, Surgery, Thoracic/Cardiovascular, 11/1/2007 - 10/31/2009
Barbara L. Roeser, C.N.P., Allied Health, Internal Medicine, Pulmonary, critical care and sleep medicine, 11/1/2007 - 10/31/2009
Barbara M. Rogers, M.D., Associate Attending, Anesthesiology, 11/1/2007 - 4/30/2008
Kathleen B. Rogers, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009
John S. Rogoski, D.O., Associate Attending, Anesthesiology, 11/1/2007 - 4/30/2008
Jason C. Roland, M.D., Associate Attending, Surgery, General Surgery, 11/1/2007 - 10/31/2009
Stephen D. Rose, M.D., Associate Attending, Orthopaedic Surgery, Orthopaedics, 11/1/2007 - 10/31/2009
Allison L. Rosenberg, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009
Christopher J. Rosile, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009
Lisa D. Ross, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009
Patrick Ross, Jr., M.D., Ph.D., Attending, Surgery, Thoracic/Cardiovascular, 11/1/2007 - 10/31/2009
Andrew H. Roth, M.D., Associate Attending, Anesthesiology, 11/1/2007 - 4/30/2008

February 1, 2008 meeting, Board of Trustees

Douglas A. Rund, M.D., Associate Attending, Emergency Medicine, 11/1/2007 - 4/30/2008
Robert D. Rupert, Jr., M.D., Clinical Attending, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009
Karla M. Rusk, C.N.P., Allied Health, Internal Medicine, Cardiovascular Medicine, 11/1/2007 - 10/31/2009
James M. Ryan, M.D., Associate Attending, Internal Medicine, Cardiovascular Medicine, 11/1/2007 - 10/31/2009
Laura E. Ryan, M.D., Associate Attending, Internal Medicine, Endocrinology, 11/1/2007 - 4/30/2008
Shelley J. Ryan, C.N.P., Allied Health, Internal Medicine, Hematology/Oncology, 11/1/2007 - 10/31/2009
Linda J. Spizzirri, C.R.N.A., Allied Health, Anesthesiology, 11/1/2007 - 10/31/2009
Gretchen Whitby, C.N.P., Allied Health, Internal Medicine, Pulmonary, critical care and sleep medicine, 11/1/2007 - 10/31/2009

Medical Staff - Additional Privilege Requests (The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute)

Ralph S. Augostini, M.D., Associate Attending, Internal Medicine, Moderate & Deep Sedation, 11/1/2007
Karen R. Bishop, C.N.P., Allied Health, Internal Medicine, Arterial Blood Gases, 10/12/2007
Heather Brom, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority & Bone Marrow Aspirates and Biopsy, 10/12/2007
Emile Daoud, M.D., Associate Attending, Internal Medicine, Moderate & Deep Sedation, 11/1/2007
David N. Eries, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, 11/1/2007
Veronica Franco, M.D., Associate Attending, Internal Medicine, Moderate Sedation, 10/12/2007
Dareth Gilmore, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, Skin Punch Biopsy, ABGs, 12/4/2007
Carli Greenfield, C.N.P., Allied Health, Internal Medicine, Intrathecal Chemotherapy, 12/4/2007
Weihong Hu, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, 10/12/2007
Jamielynn Kemp, P.A., Allied Health, Radiology, Tunneled CVC Removals From Adult Patients under direct supervision, 12/1/2007
Margaret Linnabary, C.N.P., Allied Health, Internal Medicine, Prescriptive Authority, 10/12/2007

RESOLUTIONS IN MEMORIAM

Resolution No. 2008-78

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Charles W. Hoffmann

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 29, 2007, of Charles W. Hoffmann, Professor Emeritus in the Department of Germanic Languages and Literatures.

Professor Hoffmann held a bachelor's degree from Oberlin College and M.A. and Ph.D. degrees in German literature from the University of Illinois. He taught at the University of California at Los Angeles from 1956-64 before accepting a position as an Associate Professor at The Ohio State University in 1964. In 1966 he was promoted to the rank of full Professor and taught at OSU for a total of 28 years until his retirement in 1992. He served as chairperson of the Department of Germanic Languages and Literatures from 1969-77 and again in the academic year 1986-87. Professor Hoffmann was one of the founders of the University Senate and received the Nemzer Award of the American Association of University Professors in 1983 in recognition of his tireless engagement for faculty rights and academic freedom. Other awards include the UCLA Distinguished Teaching Award, a Phi Beta Kappa scholarship, and a two-year Fulbright fellowship.

Dr. Hoffmann's teaching interests and scholarly publications include anti-Nazi poetry, the works of Bertolt Brecht, Max Frisch, Rudolf Hagestange, Carl Zuckmayer, Erich Maria Remarque, and others, as well as film in the Weimar and Nazi periods. He was an enthusiastic and dedicated teacher who, though he set high expectations, was extremely devoted to his students.

Professor Hoffmann served his profession at the highest level and was an active member of the University community. He served on and often chaired numerous department, college, and University committees, including the Faculty Council, the Arts and Sciences Senate, several search committees for deans of the College of Humanities, Department and Program Review committees, the Film Studies Committee, the Study Abroad Committee, the Fulbright Fellowship Selection Committee, the Library Council, and many others. He also chaired the Honorary Member Committee of Phi Beta Kappa and served in various positions for the American Association of Teachers of German, the Modern

February 1, 2008 meeting, Board of Trustees

Language Association of America, and the American Association of University Professors, for which he served as chairperson of the OSU chapter from 1984-86.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Charles W. Hoffmann its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

G. Howard Phillips

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 24, 2007, of G. Howard Phillips, Professor Emeritus in the Department of Agricultural, Environmental, and Development Economics.

Dr. Phillips attended Atlantic Christian College in Wilson, North Carolina, and then moved to Columbus, Ohio, in 1948 to attend The Ohio State University. While continuing with his education, he worked for the Ohio Agricultural Extension Service in Woodsfield, Ohio. In 1966, he earned a Ph.D. degree in rural sociology from Ohio State, and went on to serve as a professor and associate chairperson in what was then the Department of Agricultural Economics and Rural Sociology, and as the founding director of the National Rural Crime Prevention Center. Dr. Phillips published more than 50 books, book chapters, monographs, and peer-reviewed articles on rural crime, rural sociology, and genealogy. He advised more than 30 doctoral and master's degree candidates.

It is the rare scholar who is credited with pioneering a new and thriving field of research. If not for the work of G. Howard Phillips in the late 1970s and early 1980s, it is unlikely that today's scholarship on rural crime would be so well-developed and so vibrant. Increasingly, this research has taken on a more theoretical, critical, and comparative approach, now challenging mainstream criminological theories and their inability to account for crime beyond the cities and suburbs.

Born June 1, 1926, in Farmville, North Carolina, Dr. Phillips served as a photographer in the United States Navy from 1943-46. He was in London for both VE and VJ days. He married Shirley Brague in Dayton, Ohio, in 1946, and together they raised three sons. Following his retirement in 1982, he remained active in a broad array of research and continuing education endeavors on behalf of the AARP/National Retired Teachers Association, the Ohio Association of Chiefs of Police, the Ohio Farm Bureau Federation, and several churches in the Columbus area. In retirement, he developed a deep interest in genealogical research and published actively in that area. Long after retiring from the University, Howard Phillips remained the consummate scholar, teacher, researcher, and mentor. Indeed, his life and career serves as a model for us all.

On behalf of the University community, the Board of Trustees expresses to the family of Professor G. Howard Phillips its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

James A. Provost

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 22, 2007, of James A. Provost, Instructor Emeritus in the School of Physical Activity and Educational Services.

Mr. Provost graduated with a bachelor's degree in education from Bowling Green State University in 1949 and earned his master's degree in 1956. At the age of 27, he served as the superintendent of schools in Webster, Ohio. Later he joined the faculty of the

February 1, 2008 meeting, Board of Trustees

School of Physical Activity and Educational Services within the College of Education at The Ohio State University. During his University service, he organized, designed, and established an instructional program for school bus drivers in the state of Ohio and also taught in an initial teacher preparation program. Instructor Provost retired from Ohio State in 1982.

Mr. Provost served in the U.S. Army Air Corps during World War II in Burma, China, and India. He was a member of the Christ United Methodist Church; American Legion; Ohio Retired Teachers Association; the fraternity Sigma Alpha Epsilon; Elks Lodge in Englewood, Florida; and the Jacaranda West Country Club in Florida. He was also an enthusiastic OSU fan and golfer.

On behalf of the University community, the Board of Trustees expresses to the family of Instructor Emeritus James A. Provost its deepest sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2008-79

Synopsis: The University Development Report for December 2007 is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the revision of The Jack C. Geer M.D. Professorship in Pathology; and

WHEREAS this report includes the establishment of fourteen (14) new named endowed funds, the revision of eight (8) endowed funds, and the closure of one (1) named endowed fund:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of December 2007 be approved.

(See Appendix XXXVI for background information, page 840.)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Change in Name and Description of Named Endowed Professorship

From: The University Pathology Services Clinical Pathology Professorship
To: The Jack C. Geer M.D. Professorship in Pathology

Total
Gifts

February 1, 2008 meeting, Board of Trustees

Establishment of Named Endowed Funds

The Robert F. Shurtz Endowed Fund in the College of Engineering \$407,337.56
(Established with an estate gift from Robert F. Shurtz; used at the discretion of the dean of the College of Engineering to commemorate Robert F. Shurtz and his desire to advance the quality of teaching and research in the College)

Ohio State Lima Spring for Scholarships Fund \$130,378.77
(Established with gifts from numerous donors; used to provide scholarships to students attending OSU-Lima who are in good standing with the University)

Women's Studies Professional Development Fund \$100,415.00
(Established with gifts from friends of the College of Humanities and the Department of Women's Studies; used for activities that contribute to the professional development of core faculty and graduate students in the Department of Women's Studies)

Change in Description of Named Endowed Fund

Dr. Joe and Esther Ponzani Dental Missionary Scholarship Fund

Change in Name and Description of Named Endowed Funds

From: The Dennis E. Clark/Columbus Life Underwriters Chair in Surgical Oncology Research Fund

To: The Dennis E. Clark/National Association of Insurance and Financial Advisors-Columbus Chapter/Columbus Chapter of the Society of Financial Service Professionals Chair Fund in Surgical Oncology Research

From: The Producers Livestock Association Endowment Fund

To: The United Producers Vice President's Excellence Fund

From: The Michael R. Zetz Scholarship Fund

To: The Michael R. Zetz and R. Neil Sundheimer Scholarship Fund

Closure of Named Endowed Fund

Francis P. Robinson, Frank M. Fletcher, Harold B. Pepinsky, and Maude Stewart Endowment Fund

(Established November 2, 1984 with gifts from W. Bruce and Jane C. Walsh in memory of Dr. Robinson and in honor of Drs. Fletcher, Pepinsky, and Stewart; used to support faculty development and faculty and graduate student research primarily in the area of Counseling Psychology. Closed February 1, 2008. The principal and any unused distribution will be transferred to the Psychology Building Fund.)

Establishment of Named Endowed Funds

The Abercrombie & Fitch Chair Fund in Inflammatory Bowel Disease \$520,000.00
(Established with gifts from Abercrombie & Fitch; this fund shall be used to provide a chair position in the College of Medicine supporting a nationally or internationally recognized physician faculty member in the field of inflammatory bowel disease)

February 1, 2008 meeting, Board of Trustees

The Abercrombie & Fitch Women's Oncology Center Endowment Fund (Established with gifts from Abercrombie & Fitch; used to support research and programmatic expansion for the treatment of women's cancer at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the Comprehensive Cancer Center)	\$385,000.00
The Jo Ann Davidson Scholarship Fund (Established with gifts through the Jo Ann Davidson Fund at The Columbus Foundation; used to provide scholarships for first-year undergraduate students who are residents of Franklin County, Ohio, who display leadership skills and demonstrate an interest in public service with preference given to female students)	\$260,258.74
Henry F. and Raymond W. Dachsteiner Music Scholarship Fund (Established with gifts from the estate of Ethelyn Dachsteiner in memory of Henry F. Dachsteiner and Raymond W. Dachsteiner; used to provide scholarship support to undergraduate or graduate students in the School of Music who are majoring in music)	\$198,599.91
The H.C. and Piyu C. Ko Endowment Fund (Established with gifts from Hsien Ching Ko; used to provide two awards in the Department of Electrical and Computer Engineering, and one scholarship in the Department of Psychology)	\$57,102.62
George and Lynn Ankney Scholarship Fund (Established with gifts from George W. and Doris M. (Lynn) Ankney; used to provide scholarships to students at the Moritz College of Law academically ranked in the 40-60 th percentile of their classes prior to beginning the first year in law school)	\$50,448.19
The Szykowny Family Scholarship Fund (Established with gifts from Thomas Szykowny and Lee Shackelford Szykowny; used to provide a scholarship for a student in need of financial aid)	\$50,274.00
Roger W. LeValley, D.D.S. Agricultural Education Endowment Fund (Established with gifts from Roger W. LeValley; used to provide scholarships to students enrolled in the B.S. in Agriculture degree program, majoring in agricultural education, specifically in the teaching option)	\$50,000.00
The Lauren Sanders American Sign Language Fund (Established with gifts from friends of the American Sign Language Program; used to support the American Sign Language Program)	\$50,000.00

The Joe R. and Elizabeth Engle Scholarship Fund

The Griffith Family Scholarship Endowment Fund

Change in Name and Description of Named Endowed Funds

From: The Farnham E. Mosley Scholarship Fund
To: The Farnham E. Mosley Urbana Scholarship Fund

From: Jack Nicklaus/The Toro Company Turfgrass Legacy Endowment Fund
To: The Toro Company/Jack Nicklaus Turfgrass Legacy Endowment Fund

Total \$2,327,992.29

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Change in Name and Description of Named Endowed Professorship

The Jack C. Geer M.D. Professorship in Pathology

The University Pathology Services Clinical Pathology Professorship Fund was established March 1, 2002, by the Board of Trustees of The Ohio State University with gifts from University Pathology Services, Columbus, Ohio, and from other friends of the Department of Pathology. The funding level was reached and The University Pathology Services Clinical Pathology Professorship was established December 2, 2005. The name and description were revised February 1, 2008, to honor Dr. Jack C. Geer, past chairperson of the Department of Pathology (1967-72).

The annual distribution from this fund shall provide for a professorship position. The professorship shall support the advancement of medical knowledge in the field of pathology research, both basic and clinical, and shall be held by an individual who is a member of the Department of Pathology in the College of Medicine. The position shall be held by a nationally eminent faculty member who has distinguished himself/herself in the performance of pathology research, who maintains an active productive research program, and who is an effective educator-teacher.

The appointment shall be made by the Board of Trustees of The Ohio State University as recommended by the senior vice president for Health Sciences and by the dean of the College of Medicine in consultation with the chairperson of the Department of Pathology. The activities of the endowed professorship holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donors and the chairperson of the Department of Pathology in consultation with the dean of the College of Medicine and with the senior vice president for Health Sciences.

February 1, 2008 meeting, Board of Trustees

Establishment of Named Endowed Funds

The Robert F. Shurtz Endowed Fund in the College of Engineering

The Robert F. Shurtz Endowed Fund in the College of Engineering was established February 1, 2008, by the Board of Trustees of The Ohio State University with gifts from an estate gift from Robert F. Shurtz (Bachelor of Engineering in Mining 1937, Engineer of Mines 1950, M.S. 1950) of San Francisco, California.

The annual distribution from this fund shall be used to commemorate Robert F. Shurtz and his desire to advance the quality of teaching and research within the University's College of Engineering. The dean of the College of Engineering will be responsible for allocating these discretionary funds in ways to enhance the College.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the dean of the College of Engineering.

Amount Establishing Endowment: \$407,337.56

Ohio State Lima Spring for Scholarships Fund

The Ohio State Lima Spring for Scholarships Fund was established February 1, 2008, by the Board of Trustees of The Ohio State University with gifts from numerous donors.

The annual distribution from this fund shall provide scholarships to new or continuing students attending The Ohio State University at Lima who are in good standing with the University. Scholarship recipients shall be selected by the dean and director of The Ohio State University at Lima in consultation with the Office of Student Financial Aid on the Columbus campus.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean and director.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation,

February 1, 2008 meeting, Board of Trustees

the Board shall seek advice from the dean and director of The Ohio State University at Lima.

Amount Establishing Endowment: \$130,378.77

Women's Studies Professional Development Fund

The Women's Studies Professional Development Fund was established February 1, 2008, by the Board of Trustees of The Ohio State University with gifts from friends of the College of Humanities and the Department of Women's Studies.

The annual distribution from this fund shall be used for activities that contribute to the professional development of core faculty and graduate students in the College of Humanities, Department of Women's Studies as approved by the dean of the College in consultation with the chairperson of the Department.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Humanities in consultation with the chairperson of the Department of Women's Studies.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the dean of the College of Humanities in consultation with the chairperson of the Department of Women's Studies.

Amount Establishing Endowment: \$100,415.00

Change in Description of Named Endowed Fund

Dr. Joe and Esther Ponzani Dental Missionary Scholarship Fund

The Dr. Joe and Esther Ponzani Dental Missionary Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University with gifts from Esther Ponzani, friends, and family to celebrate the life of Joe Ponzani (B.S. 1952, D.D.S. 1956). The description was revised February 1, 2008.

The annual distribution from this fund shall be used to provide one or more annual scholarship awards for enrolled dental student(s) or post-doctoral student(s) who have served in the past 12 months as dental missionaries, who will be serving on a short-term dental mission trip, or are considering dental missions long-term. Scholarship recipients will be selected by the dean of the College of Dentistry in consultation with the Office of Student Financial Aid. As part of the application process, prospective recipients will provide a letter from a sending mission agency as proof of their participation.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

February 1, 2008 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Dentistry. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Change in Name and Description of Named Endowed Funds

**The Dennis E. Clark/National Association of Insurance and Financial Advisors-
Columbus Chapter/Columbus Chapter of the Society of Financial Service
Professionals Chair Fund in Surgical Oncology Research**

The Dennis E. Clark/Columbus Life Underwriters Chair in Surgical Oncology Research Fund was established June 3, 1994, by the Board of Trustees of The Ohio State University with a gift from the Dennis E. Clark family, the National Association of Insurance and Financial Advisors-Columbus Chapter (formerly The Columbus Life Underwriters Association), and the Columbus Chapter of the Society of Financial Service Professionals (formerly Columbus Chapter of Chartered Life Underwriters). The name and description were revised February 1, 2008.

Until the principal of the fund reaches \$1,250,000 the annual distribution shall be reinvested into the principal. Thereafter, the annual income shall be used to support the cancer research activities of the holder of The Dennis E. Clark/National Association of Insurance and Financial Advisors-Columbus Chapter/Columbus Chapter of the Society of Financial Service Professionals Chair in Surgical Oncology Research for The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute.

Appointment to this chair shall be recommended by the dean of the College of Medicine, in consultation with the chief executive officer of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and with the senior vice president for Health Sciences, to the executive vice president and provost of The Ohio State University and approved by The Ohio State University Board of Trustees. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donor as well as the academic and research standards of the University.

Once fully funded, in any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the chief executive officer of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and with the senior vice president for Health Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The United Producers Vice President's Excellence Fund

The Producers Livestock Association Scholarship Fund was established September 2, 1971, by the Board of Trustees of The Ohio State University with gifts from the United Producers (formerly known as Producers Livestock Association). The name and

February 1, 2008 meeting, Board of Trustees

description were changed July 12, 1996 (The Producers Livestock Association Endowment Fund), and were revised again February 1, 2008.

The annual distribution from this fund shall be used at the discretion of the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences with special consideration given to leadership development programs. The College of Food, Agricultural, and Environmental Sciences shall keep the donor apprised of the fund's impact in a timely manner.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from both the donor and the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

The Michael R. Zetz and R. Neil Sundheimer Scholarship Fund

The Michael R. Zetz Scholarship Fund was established February 1, 1991, by the Board of Trustees of The Ohio State University with gifts from Dr. Michael R. Zetz (D.D.S. 1970) of Canton, Ohio. The name and description were revised February 1, 2008, in recognition of additional gifts from Dr. R. Neil Sundheimer.

The annual distribution from this fund shall be used to provide scholarships for dental students from Stark, Summit, and Wayne Counties of Ohio. Priority should be given to those dental students who demonstrate a need for financial assistance. Scholarship awards shall be made by the dean of the College of Dentistry, or his/her representative, in consultation with the Office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Dentistry.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be

February 1, 2008 meeting, Board of Trustees

designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from both the donors, should they be alive, and the dean of the College of Dentistry.

Closure of Named Endowed Fund

Francis P. Robinson, Frank M. Fletcher, Harold B. Pepinsky, and Maude Stewart Endowment Fund

Established November 2, 1984, with gifts from W. Bruce and Jane C. Walsh in memory of Dr. Robinson and in honor of Drs. Fletcher, Pepinsky, and Stewart; used to support faculty development and faculty and graduate student research primarily in the area of Counseling Psychology. Endowed fund closed February 1, 2008. The principal and any unused distribution will be transferred to the Psychology Building Fund.

Establishment of Named Endowed Funds

The Abercrombie & Fitch Chair Fund in Inflammatory Bowel Disease

The Abercrombie & Fitch Chair Fund in Inflammatory Bowel Disease was established February 1, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Abercrombie & Fitch of New Albany, Ohio.

Until the principal balance reaches \$2,000,000, the annual distribution shall be reinvested into the fund's principal.

After the principal reaches \$2,000,000, the annual distribution from this fund shall be used for a chair position in the College of Medicine supporting a nationally or internationally recognized physician faculty member in the field of inflammatory bowel disease. The chair holder shall be appointed by the Board of Trustees of The Ohio State University as recommended and approved by the dean of the College of Medicine and by the senior vice president for Health Sciences in consultation with a designee of Abercrombie & Fitch. The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donor as well as the academic and research standards of the University. In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, and as recommended by the dean of the College of Medicine and by the senior vice president for Health Sciences.

Amount Establishing Endowment: \$520,000.00

February 1, 2008 meeting, Board of Trustees

The Abercrombie & Fitch Women's Oncology Center Endowment Fund

The Abercrombie & Fitch Women's Oncology Center Endowment Fund was established February 1, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Abercrombie & Fitch of New Albany, Ohio.

The annual distribution from this fund shall be used to support research and programmatic expansion for the treatment of women's cancer at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and the Comprehensive Cancer Center. Allocation of funds shall be approved by the chief executive officer of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chief executive officer of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need

dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, and as recommended by the chief executive officer of The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute and director of the Comprehensive Cancer Center in consultation with the senior vice president for Health Sciences.

Amount Establishing Endowment: \$385,000.00

The Jo Ann Davidson Scholarship Fund

The Jo Ann Davidson Scholarship Fund was established February 1, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, through the Jo Ann Davidson Fund at The Columbus Foundation.

The intent of this fund is to support educational diversity at the University, consistent with the University's mission and admissions policy. The annual distribution from this fund shall provide one or more scholarships for first-year undergraduate students who are residents of Franklin County, Ohio, who display leadership skills and demonstrate an interest in public service. It is the donor's desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, female students, who have been accepted for admissions at the University. In addition, it is the donor's desire that these scholarships be awarded to students regardless of their financial need.

February 1, 2008 meeting, Board of Trustees

Furthermore, it is the desire of the donor that eligible candidates may be enrolled at the Columbus campus or one of the regional campuses. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

The scholarship shall be distributed equally among the quarters enrolled during the academic school year for expenses such as the cost of tuition, room and board, books and supplies, an educational stipend, and miscellaneous educational expenses. The scholarship is renewable up to 12 quarters as long as the recipient maintains a minimum 3.2 grade point average and continues to demonstrate an interest in public service. Each year, any unused distribution should be reinvested to the principal. The fund will be administered by the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice provost for Enrollment Services and dean for Undergraduate Education. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$260,258.74

Henry F. and Raymond W. Dachsteiner Music Scholarship Fund

The Henry F. and Raymond W. Dachsteiner Music Scholarship Fund was established February 1, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Ethelyn Dachsteiner in memory of Henry F. Dachsteiner and Raymond W. Dachsteiner (B.S.Bus.Adm. 1925).

The annual distribution from this fund shall provide scholarship support to undergraduate or graduate students in the School of Music who are majoring in music. Scholarship recipients shall be selected by the director of the School of Music in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the School of Music.

Amount Establishing Endowment: \$198,599.91

February 1, 2008 meeting, Board of Trustees

The H.C. and Piyu C. Ko Endowment Fund

The H.C. and Piyu C. Ko Endowment Fund was established February 1, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Hsien Ching Ko (M.S. 1953, Ph.D. 1955), chairperson and Professor Emeritus in the Department of Electrical and Computer Engineering. A portion of the annual earnings will commemorate his late wife Piyu C. Ko.

The annual distribution will be used to support the following awards and scholarships at The Ohio State University: The John D. and Alice Nelson Kraus Student Research Achievement Award in the Department of Electrical and Computer Engineering, The H.C. Ko Meritorious Service Award in the Department of Electrical and Computer Engineering, and The Piyu C. Ko Memorial Scholarship in the Department of Psychology. Each award/scholarship will receive one-third of the fund's annual distribution. Any unused distribution shall be reinvested to principal.

The John D. and Alice Nelson Kraus Student Research Achievement Award shall be given annually to an undergraduate or graduate student with the highest research achievement in the Department of Electrical and Computer Engineering. The honor includes a plaque and monetary award. The recipient shall be chosen by the Department chairperson and the Department Graduate Studies Committee in consultation with the Office of Student Financial Aid.

The H.C. Ko Meritorious Service Award shall be given annually to an individual whose meritorious and dedicated service made a significant advancement in the mission and development of the Department of Electrical and Computer Engineering. The honor includes a plaque and monetary award. The recipient shall be chosen from active and emeritus faculty, staff, students, and alumni by the Department chairperson and the Department Advisory Committee. Student awards shall be made in consultation with the Office of Student Financial Aid.

The Piyu C. Ko Memorial Scholarship shall be awarded annually to a student in the Department of Psychology seeking a career in clinical psychology. The recipient shall be chosen by the chairperson of the Department of Psychology in consultation with an appropriate department committee and the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and the chairpersons from the Department of Electrical and Computer Engineering and the Department of Psychology.

Amount Establishing Endowment: \$57,102.62

February 1, 2008 meeting, Board of Trustees

George and Lynn Ankney Scholarship Fund

The George and Lynn Ankney Scholarship Fund was established February 1, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from George W. and Doris M. (Lynn) Ankney.

The annual distribution from this fund shall provide a scholarship(s) to a student at The Michael E. Moritz College of Law who is academically ranked in the 40-60th percentile of his/her class prior to beginning the first year in law school. The dean of the College and the College's Office of Student Financial Aid shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Moritz College of Law.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from both the donors, should they be alive, and the dean of the Moritz College of Law.

Amount Establishing Endowment: \$50,448.19

The Szykowny Family Scholarship Fund

The Szykowny Family Scholarship Fund was established February 1, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Thomas Szykowny (J.D. 1982) and Lee Shackelford Szykowny (M.D. 1988) of Columbus, Ohio.

The annual distribution shall fund a scholarship for a student in need of financial aid at OSU's The Michael E. Moritz College of Law. The dean of the College and the College's Office of Student Financial Aid shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$50,274.00

February 1, 2008 meeting, Board of Trustees

Roger W. LeValley, D.D.S. Agricultural Education Endowment Fund

The Roger W. LeValley, D.D.S. Agricultural Education Endowment Fund was established February 1, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Roger W. LeValley (B.S.Agr. 1962, D.D.S. 1968).

The annual distribution from this fund shall be used to provide a scholarship to a student enrolled in the B.S. in Agriculture degree program, majoring in agricultural education, specifically in the teaching option. This fund shall recognize and reward a sophomore, junior, or senior student from Ohio who has declared a major in the agricultural education teaching option, has demonstrated an interest in pursuing a career in teaching agriculture, and has shown evidence of the determination to make it happen. Financial need is the primary consideration in the selection process, and any student in good academic standing is eligible for consideration. Preference should also be given to a member of the Delta Theta Sigma agriculture fraternity and/or a veteran of the armed forces. Selection of the recipient shall be made by the chairperson of the Department of Human and Community Resource Development, in consultation with the Office of Student Financial Aid and approved by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of Human and Community Resource Development and the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Lauren Sanders American Sign Language Fund

The Lauren Sanders American Sign Language Fund was established February 1, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends of the American Sign Language Program.

The annual distribution from this fund shall support the American Sign Language Program. Expenses may include program support, scholarships, and travel as approved by the program director for the American Sign Language Program, the director of the Foreign Language Center, and the dean of the College of Humanities. Scholarship recipients shall be selected in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of

February 1, 2008 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the program director for the American Sign Language Program, the director of the Foreign Language Center, and the dean of the College of Humanities.

Amount Establishing Endowment: \$50,000.00

**The E. Christopher Ellison MD, FACS and Mary Pat Borgess MD
Surgery Scholars Fund**

The E. Christopher Ellison MD, FACS and Mary Pat Borgess MD Surgery Scholars Fund was established February 1, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Dr. E. Christopher Ellison (residency, General Surgery, 1976-83; Surgical Gastroenterology Research Fellow, 1978-80; served as assistant professor to department chairperson, Department of Surgery, 1984 to present) and from Dr. Mary Pat Borgess (M.D. 1976; residency, Radiology, 1977-81; served as assistant professor, 1981-83) of Dublin, Ohio; and with gifts from family, friends, and colleagues in honor of Dr. Ellison's leadership in education and as chairperson of the Department of Surgery.

The annual distribution from this fund shall be used to support a medical student (or students, as funding permits) while they participate in Surgery's Honors Program providing pre-residency advanced training and academic enrichment in the field of surgery. A candidate must be a fourth-year medical student who shows exceptional professional interest and aptitude while completing a clerkship in surgery. Allocation of funds shall be approved by the director of the Scholars Honors Program and the chairperson of the Department of Surgery in consultation with the senior vice president for Health Sciences, the dean in the College of Medicine, and the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the chairperson of the Department of Surgery and in consultation with the senior vice present for Health Sciences and the dean of the College of Medicine. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$43,177.50 (grandfathered)

February 1, 2008 meeting, Board of Trustees

The Farnham E. Mosley Accounting Scholarship Fund

The Farnham E. Mosley Accounting Scholarship Fund was established February 1, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Farnham E. Mosley.

Farnham E. Mosley, a native-born Ohioan, graduated from Urbana High School; received a B.S. in Business Administration degree, cum laude, from The Max M. Fisher College of Business at Ohio State; and a Juris Doctor degree from Capital University. He was awarded two scholarships and elected to three national scholastic organizations, Beta Alpha Psi (accounting), Beta Gamma Sigma (business), and The Order of Curia (law). During his professional career he was self-employed, held executive level positions in the federal government and private sectors, and served on boards of directors in positions of executive committee member and board chairman.

Until the donor's deferred gift is realized, annual distribution of income shall be used to provide a scholarship, of at least \$1,000, in the form of payments for registration fees or other expenses owed to the University by the recipient, for a second-year or higher undergraduate accounting major at the Fisher College of Business. Recipient shall be selected based on financial need, demonstrated academic merit (maintaining a cumulative grade point average which qualifies for Dean's List), and scheduled graduation with their entering class. Selection of the recipient shall be made by the Department of Accounting and Management Information Systems in coordination with the Office of Student Financial Aid and the Fisher Undergraduate Programs Office.

Upon the realization of the donor's deferred gift, the annual distribution of income shall be used to provide four scholarships in the form of payments for registration fees or other expenses owed to the University by the recipients as follows: 10% - sophomore scholarship; 20% - junior scholarship; 30% - senior scholarship; and 40% - graduating senior scholarship.

Undergraduate scholarship recipients will be selected based on financial need, demonstrated academic merit (maintain a cumulative GPA which qualifies for Dean's List), and scheduled graduation with their entering class. Selection of the recipients shall be made by the Department of Accounting and Management Information Systems in coordination with the Office of Student Financial Aid and the Fisher Undergraduate Programs Office.

The graduating senior scholarship shall be awarded to the student with the highest cumulative GPA as an undergraduate accounting student who has enrolled in the Master of Accounting (M.Acc.) program in the Fisher College of Business. Selection of the recipient shall be made by the Department of Accounting and Management Information Systems in coordination with the Office of Student Financial Aid and the Fisher Undergraduate and Graduate Program Offices.

It is the donor's desire that the accounting scholarships be awarded in furtherance of educational diversity at the University and are consistent with the University's basic mission and admission policy. To this end, particular attention shall be given to all qualified, underrepresented students majoring in accounting at the Fisher College of Business.

If for any reason the income available for distribution is not distributed in whole or in part, the portion not distributed shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

February 1, 2008 meeting, Board of Trustees

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate. If the Fisher College of Business should no longer exist or change names, the Board of Trustees shall revise scholarship guidelines as necessary to preserve the donor's basic desire that the fund support undergraduates pursuing the equivalent of a business degree with a major in accounting at The Ohio State University.

Amount Establishing Endowment: \$25,000.00 (grandfathered)

Change in Description of Named Endowed Funds

The Joe R. and Elizabeth Engle Scholarship Fund

The Joe R. and Elizabeth Engle Scholarship Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Joe R. Engle (B.I.E. 1943) and Elizabeth Engle of New York City, New York. The endowment description was revised February 1, 2008.

The annual distribution from this fund shall provide multiple scholarships for incoming first-year undergraduate students with the highest academic ability (a combination of high school rank and national standardized test scores) and the highest financial need who are enrolled at the Columbus campus of The Ohio State University. The recipients of this scholarship must have graduated from one of the following high schools in Coshocton County: Coshocton High School (Coshocton, Ohio), River View High School (Warsaw, Ohio), or Ridgewood High School (West Lafayette, Ohio). It is the donors' desire that the scholarships be awarded with first preference to students who are high need, first generation college students.

The annual distribution is to be used to provide scholarships to be used towards the cost of tuition, room and board, books, an educational stipend, and miscellaneous educational expenses above the recipient's federal, state, institutional and additional merit and grant financial aid awards up to the student's demonstrated financial need. The recipient must complete a nationally approved needs analysis document annually, such as the Free Application for Federal Student Aid (FAFSA), and must apply in time to be eligible for any federal, state, and institutional gift assistance for which they are eligible before being considered for an Engle Scholarship. It is the donors' expressed wish and desire that these scholarships be the "Last Dollar Grant" after all other scholarships, work aid, and grants have been secured.

The scholarship shall be distributed equally over the three quarters of the academic school year. The scholarship is renewable up to 12 quarters (or eight semesters should the University ever change its system) or until completion of a baccalaureate degree, whichever comes first, as long as the recipient maintains financial need and a minimum of a 2.5 grade point average. It is the donors' desire that the student must be enrolled on a full-time basis (considered by the University to be a minimum of 12 quarter hours per term) to receive the full scholarship. During the final quarter (or semester), if the student is not enrolled full-time, the amount of the award is scaled down to reflect the lower costs.

As a part of this endowment, the University commits to marketing the scholarship program in order to maximize its effectiveness. The University's current marketing plan for this fund is on file with the Office of Development, and while it may be amended as communications and needs change in the future, the marketing effort will always be present and reflect the goals of the program.

February 1, 2008 meeting, Board of Trustees

This scholarship fund will be administered by the Office of Student Financial Aid in consultation with Joe R. and Elizabeth Engle annually. The final scholarship awardees will be determined by the Office of Student Financial Aid. One-fourth of one percent of the annual distribution, as well as any unused distribution, should be reinvested to the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

The Griffith Family Scholarship Endowment Fund

The Griffith Family Scholarship Endowment Fund was established April 6, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from William David (B.S.Agr. 1961), Phyllis Ann (B.S. - Medical Technology, 1962), Thomas Edward (B.S.Agr. 1991), and William Douglas Griffith (B.S. - Agronomy, 1988), of Ada, Ohio. The description was revised February 1, 2008.

The intent of this fund is to encourage and support students from Hardin County, Ohio, as they pursue degrees at The Ohio State University. Scholarship applicants will be selected based on academic achievement (minimum 2.5 grade point average), financial need, leadership and community involvement, and the personal statement on their application. The Hardin County OSU Alumni Scholarship Committee will determine division of the distribution and recommend scholarship recipients to the Office of Student Financial Aid who will administer the scholarships.

A portion of the annual distribution from this fund shall be used to support students who are enrolled in the College of Food, Agricultural, and Environmental Sciences at the University's main campus, including incoming freshman. If there are no qualified applicants from Hardin County, Ohio, second preference shall go to any student in the College who resides in any county adjacent to Hardin County.

The remaining portion of the annual distribution shall support incoming freshman students attending the Lima campus of The Ohio State University who have some background in agriculture or whose immediate family has some background in agriculture. If there are no applicants with an agricultural background, second preference shall go to a student from Hardin County with no background in agriculture.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

February 1, 2008 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences.

Change in Name and Description of Named Endowed Funds

The Farnham E. Mosley Urbana Scholarship Fund

The Farnham E. Mosley Scholarship Fund was established December 3, 1999, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Farnham E. Mosley. The name and description were revised February 1, 2008.

Farnham E. Mosley, a native-born Ohioan, graduated from Urbana High School; received a B.S. in Business Administration degree, cum laude, from The Max M. Fisher College of Business at Ohio State; and a Juris Doctor degree from Capital University. He was awarded two scholarships and elected to three national scholastic organizations, Beta Alpha Psi (accounting), Beta Gamma Sigma (business), and The Order of Curia (law). During his professional career he was self-employed, held executive level positions in the federal government and private sectors, and served on Boards of Directors in positions of executive committee member and board chairman.

Until the donor's deferred gift is realized, annual distribution of income shall be used to provide a scholarship, of at least \$1,000, in the form of payments for registration fees or other expenses owed to the University by the recipient, for an entering freshman who is a current year graduate of Urbana High School in Urbana, Ohio; has a high school record that demonstrates academic aptitude; and has enrolled at The Ohio State University. Preference shall be given to qualified applicants with financial need. Selection of the recipient shall be made by the Office of Student Financial Aid in consultation with Urbana High School guidance staff.

Upon the realization of the donor's deferred gift, the annual distribution of income will be used to provide scholarships for qualified applicants as follows: 60% to provide two equal scholarships for two entering freshmen; and 40% to provide two equal supplemental sophomore scholarships. Scholarships shall be in the form of payments for registration fees or other expenses owed to the University by the recipients.

Qualifying entering freshmen must be current year graduates of Urbana High School in Urbana, Ohio; have high school records that demonstrate academic aptitude; and have enrolled at The Ohio State University. Preference will be given to qualified applicants with demonstrated financial need. Selection of the recipients shall be made by the Office of Student Financial Aid in consultation with Urbana High School guidance staff.

Recipients of the freshman scholarships will be eligible to receive a supplemental scholarship their sophomore year if they comply with the requirements to maintain full-time enrollment during their freshman year and achieve a cumulative grade point average of 3.0 or higher. Sophomore scholarships shall be awarded by the Office of Student Financial Aid in consultation with the recipients' respective college unit.

If for any reason the income available for distribution to initial freshman and/or sophomore scholarships is not distributed in whole or in part, the portion not distributed shall be reinvested in the endowment principal.

February 1, 2008 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor for this fund to mutually benefit OSU-bound Urbana High School graduates and The Ohio State University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the Office of Student Financial Aid. If Urbana High School should no longer exist or change names, the Board of Trustees shall revise scholarship guidelines as necessary to preserve the donor's basic desire that the fund support OSU-bound high school graduates from the city of Urbana, Ohio. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as circumstances, need, and good conscience dictate.

The Toro Company/Jack Nicklaus Turfgrass Legacy Endowment Fund

The Jack Nicklaus/The Toro Company Turfgrass Legacy Endowment Fund was established November 3, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The Toro Company. The name and description were revised February 1, 2008.

The annual distribution from this fund shall be used to provide a scholarship(s) to freshmen or sophomores or an international internship(s) for a student(s) in the Turfgrass Management Program, Department of Horticulture and Crop Science, with preference given to students who have relatives involved in the profession of turfgrass management. Recipients will be selected by a committee comprised of individuals from Nicklaus Companies, The Toro Company, the OSU turfgrass faculty, and the College of Food, Agricultural and Environmental Sciences' representatives. Scholarships will be awarded in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the vice president for Agricultural Administration and University Outreach, and executive dean for Food, Agricultural, and Environmental Sciences. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

ATHLETIC TICKET PRICES AND FEES FOR FOOTBALL AND MEN'S BASKETBALL FISCAL YEAR 2009 GOLF COURSE MEMBERSHIP CALENDAR YEAR 2008

Resolution No. 2008-80

Synopsis: Approval of Athletic ticket prices for Fiscal Year 2009 and golf course membership fees for Calendar Year 2008 at the recommended levels is requested.

February 1, 2008 meeting, Board of Trustees

WHEREAS each year the Athletic Council reviews projections for the coming year's budget and recommends ticket prices and golf course membership fees; and

WHEREAS the Athletic Council has approved increases for football and men's basketball tickets, and for golf course membership fees shown on the attached tables; and

WHEREAS the Athletic Council's recommendations have been reviewed and are recommended by the appropriate University administration:

NOW THEREFORE

BE IT RESOLVED, That the recommended increases for football and men's basketball tickets for Fiscal Year 2009, and for golf course membership fees for Calendar Year 2008, be approved.

(See Appendix XXXVII for background information, page 842.)

**POLICY REGARDING BOARD OF TRUSTEES REVIEW AND APPROVAL
OF FACILITIES IMPROVEMENT PROJECTS AND REAL ESTATE TRANSACTIONS**

Resolution No. 2008-81

Synopsis: Adoption of an approved policy regarding Board of Trustees review and approval of facilities improvement projects and real estate transactions, is proposed.

WHEREAS the Board of Trustees of The Ohio State University has a fiduciary responsibility with respect to the stewardship of University resources and the development of University property and facilities to meet the academic needs of the University; and

WHEREAS except as provided by the Board of Trustees, the Board retains sole authority with respect to University facilities improvement projects and real estate transactions unless otherwise delegated; and

WHEREAS the Board desires to provide for the flexibility needed to ensure the timely completion of facilities improvement projects while ensuring that the Board retains the authority and ability to exercise appropriate oversight regarding the facilities improvement process, especially with respect to major projects; and

WHEREAS in 2003, management of facilities improvement projects was identified as one of six core processes to be reviewed, and several actions since have been taken to streamline the processes involved during the planning, design, and construction phases of facilities improvement projects, resulting in gained efficiencies and cost savings; and

WHEREAS there now is a need to codify the policies and guidelines of the Board and the University regarding review and approval for capital projects, planning studies, and real estate transactions:

NOW THEREFORE

BE IT RESOLVED, That the attached policy regarding Board of Trustees review and approval of facilities improvement projects, planning studies, and real estate transactions be adopted, effective immediately, and that the Senior Vice President for Business and Finance, in consultation with the Office of the Board of Trustees, be responsible for coordination of the implementation of this policy; and

BE IT FURTHER RESOLVED, That under the direction of the Senior Vice President for Business and Finance, the Office of Facilities Operations and Development shall have

February 1, 2008 meeting, Board of Trustees

the responsibility and requisite authority for contracting for the University for any facilities improvement project of any kind (repair, maintenance, renovation, or new construction) estimated to cost \$4 million or more and less than \$10 million in accordance with all applicable laws and regulations.

(See Appendix XXXVIII for background information, page 847.)

APPROVAL TO ENTER INTO DESIGN AND CONSTRUCTION CONTRACTS

Resolution No. 2008-82

APPROVAL TO ENTER INTO DESIGN CONTRACTS

POSTLE HALL - REGISTRATION AREA RENOVATION
SOUTH LOW RISE FIRE ALARMS
TAYLOR TOWER - FAN COIL REPLACEMENT

APPROVAL TO ENTER INTO CONSTRUCTION CONTRACTS

FISHER COLLEGE OF BUSINESS - SECURITY UPGRADES
OARDC - POUNDEN HALL RENOVATION
POSTLE HALL - REGISTRATION AREA RENOVATION
SMITH LABORATORY REHABILITATION
UNIVERSITY HOSPITALS - EMERGENCY DEPARTMENT EXPANSION

Synopsis: Authorization to enter into design and construction contracts, as detailed in the attached materials, is requested.

WHEREAS in accordance with the attached materials, the University desires to undertake and enter into design contracts for the following projects:

Postle Hall - Registration Area Renovation (N/A)	\$0.4M	Department general funds
South Low Rise Fire Alarms (09-10 capital request)	\$3.4M	Bond proceeds
Taylor Tower - Fan Coil Replacement (09-10 capital request)	\$3.0M	Bond proceeds

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following projects:

Fisher College of Business - Security Upgrades (N/A)	\$2.5M	Central funds
OARDC - Pouden Hall Renovation (07-08 capital request)	\$1.5M	Grant funds Department general funds
Postle Hall - Registration Area Renovation (N/A)	\$0.4M	Department general funds
Smith Laboratory Rehabilitation (05-06 capital request)	\$3.4M	State appropriations College general funds
University Hospitals - Emergency Department Expansion (N/A)	\$1.9M	Auxiliary funds

** Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project, renovation projects funded by internal office or department funds that are noted as "N/A" have not had separate capital project authorization because of their small size or because they arose unexpectedly between capital planning cycles.*

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to enter into design and construction contracts for the projects

February 1, 2008 meeting, Board of Trustees

listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix XXXIX for background information, page 850.)

AMENDMENT TO LONG-TERM LEASE

Resolution No. 2008-83

Varsity Crew Facility Indian Village Road Columbus, Ohio

Synopsis: Authorization for an amendment to a long-term lease with the city of Columbus, landlord, and The Ohio State University, tenant, for a crew boathouse facility located at the Griggs Reservoir on the Scioto River, Columbus, Ohio, is requested.

WHEREAS the Board of Trustees previously approved the long-term lease of real property consisting of the crew boathouse facility at the July 13, 2007 meeting; and

WHEREAS the Board of Trustees is presented with the need to amend the long-term lease of real property; and

WHEREAS the funds for the lease will be provided by the Department of Athletics:

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Business and Finance be authorized to enter into an amendment of the long-term lease with the city of Columbus to increase the rent to an amount not to exceed \$4.87 million and such additional terms as shall be beneficial to the University.

(See Appendix XL for background information, page 859.)

EASEMENTS

Resolution No. 2008-84

CITY OF COLUMBUS - SANITARY SEWER SOUTH OF WEST LANE AVENUE, COLUMBUS, OHIO

CITY OF COLUMBUS - SIDEWALK SOUTH SIDE OF WEST LANE AVENUE, COLUMBUS, OHIO

Synopsis: Authorization to grant the city of Columbus an easement south of West Lane Avenue, Columbus, Ohio, to relocate the existing sanitary sewer to accommodate the Lane Avenue Parking Garage and an easement to relocate the existing sidewalk to accommodate a turn lane providing access to the Lane Avenue Parking Garage is requested.

WHEREAS the city of Columbus has requested an approximately 0.085 acre easement area to relocate the sanitary sewer line, for a term of 25 years, for consideration of \$1.00; and

WHEREAS the city of Columbus has requested an approximately 0.065 acre easement area to relocate the sidewalk, for a term of 25 years, for consideration of \$1.00; and

February 1, 2008 meeting, Board of Trustees

WHEREAS these easement are necessitated by the need to relocate the existing sanitary sewer line and relocate the sidewalk to accommodate the Lane Avenue Parking Garage. The appropriate University offices have determined that the grant of these easements are in the best interests of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve and the Ohio Department of Administrative Services be authorized to process appropriate documents and grant these easements to the city of Columbus upon such terms and conditions as are in the best interests of the University.

Upon motion of Mr. O'Dell, seconded by Mr. Brass, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, Ong, Wexner, O'Dell, Hicks, Fisher, Schottenstein, Brass, Marbley and Ratner.

(See Appendix XLI for background information, page 860.)

APPOINTMENT OF INVESTMENT MANAGERS AND REALLOCATION OF FUNDS

Resolution No. 2008-85

Synopsis: The appointment of investment managers and reallocation of funds are proposed.

WHEREAS it is the policy of The Ohio State University to utilize the service of external investment managers and index funds to assist in the management of the University's Long-Term Investment Pool; and

WHEREAS the Development and Investment Committee of the Board of Trustees periodically reviews the results obtained by the external investment managers and the amount of funds assigned to each of them; and

WHEREAS it is prudent practice to reallocate funds assigned to external investment managers as conditions change; and

WHEREAS the number of external Investment Managers and the amount of funds assigned to them shall be determined by the Board of Trustees; and

WHEREAS the Board of Trustees last approved the Appointment of Investment Managers and Reallocation of Funds on December 7, 2007:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Development and Investment Committee of the Board of Trustees the following external investment manager changes shall be made in conjunction with index fund reallocations as needed to maintain target asset allocations previously approved:

	Allocation as of 11/30/07	Changes	Revised Allocation
<u>US Equity-Mid Cap</u>			
Nicholas Applegate	\$48,380,890	(\$48,380,890)	\$0
Meeder 100	\$43,798,588	(\$43,798,588)	\$0
Meeder Enhanced	\$21,631,278	(\$21,631,278)	\$0

February 1, 2008 meeting, Board of Trustees

Domestic Fixed Income

Hughes Capital Management	\$43,195,204	(\$43,195,204)	\$0
Huntington Trust	\$45,143,357	(\$45,143,357)	\$0
JP Morgan	\$45,532,946	\$33,000,000	\$78,532,946

International Fixed Income

Brandywine	\$22,442,279	(\$22,442,279)	\$0
------------	--------------	----------------	-----

Absolute Return

Samlyn Capital	\$0	\$20,000,000	\$20,000,000
Indus Capital Partners	\$0	\$15,000,000	\$15,000,000
Marathon	\$0	\$20,000,000	\$20,000,000
Level Global Investors	\$0	\$20,000,000	\$20,000,000
TPG-Axon Capital Management	\$0	\$20,000,000	\$20,000,000
Glennview Capital GP	\$0	\$15,000,000	\$15,000,000
Pendragon Capital	\$0	\$18,000,000	\$18,000,000

Private Equity

Summit Sub-Debt IV	\$0	\$15,000,000	\$15,000,000
Summit Europe	\$0	\$10,000,000	\$10,000,000

Natural Resources

Carlyle/Riverstone IV	\$0	\$15,000,000	\$15,000,000
-----------------------	-----	--------------	--------------

Upon motion of Ambassador Ong, seconded by Judge Marbley, the Board of Trustees adopted the foregoing resolution with eight affirmative votes cast by Trustees Cloyd, Hendricks, Ong, Hicks, Fisher, Brass, Marbley and Ratner, and three abstentions cast by Trustees Wexner, O'Dell and Schottenstein.

**STRATEGIC PLANNING, STRATEGIC INITIATIVES
AND BOARD GOVERNANCE REPORT**

Dr. Cloyd:

Thank you very much. I'd like to now call on Provost Alutto. He is going to provide a presentation that President Gee referenced earlier on strategic planning, strategic initiatives, and Board governance.

President Gee:

While Joe is sitting down let me just say to all of you. I'd asked Joe to do this and he asked me why? I think it's important, and I say this is sort of like sin and confession in that we have to constantly remind ourselves of this. One of the things that the Provost and I along with my colleagues -- but particularly because the Provost is leading this -- are very devoted to us having a very thoughtful, very progressive, and very aggressive alignment and strategic planning process. We did have an opportunity to talk about that in the Ambassador's committee last Board meeting, but I thought it would be useful at the 10,000 foot level for the Board again to understand the complexity of the process and the fact that we now do have an aligned process. We know when X is happening that Y is aligned with that. We have realigned the way that we manage the University and we now have this institutional process which is run through an integrated financial planning group which is composed of the provost, who chairs it, and the senior vice president for health affairs and the chief financial officer. We now have a common place where these issues are brought together. Joe...

February 1, 2008 meeting, Board of Trustees

Provost Alutto: [PowerPoint presentation]

Well, you just made my presentation! Really, it makes it easy. I'd really like to talk about three things. First, is about some of the discipline that we're now exhibiting in our planning process; and secondly, to talk about the extent which our planning process is allowing the individual silos, chimneys, or whatever metaphor you want to use for our various programs and schools and colleges, to plan more effectively and more rigorously, as President Gee has indicated. I want to give you a sense of the integration mechanisms we are using to make sure we are planning as *one* University. This goes back to a question Chairman Cloyd asked -- the simple question of, "With all these competing financial opportunities we have, how do we make decisions about what we will or will not do?"

This is a slide that should be familiar to you. It was one that Ambassador Ong showed in the past, and it gives you a sense of the overall planning process and cycle for the University. Everything starts with the Academic Plan and President Gee's six strategic goals for the University. So we don't really ask people to go beyond those particular planning documents. They provide the boundaries for some of the planning that takes place. That feeds in obviously to the Board of Trustees Planning and the activities that you have, and I'll give you just one example of how that gets reflected in reality.

This is the agenda that Ambassador Ong described earlier that we've agreed to with the Committee on Academic and Student Affairs. Each one of these topics flow from the planning activities that are ongoing within the University, either as a result of the Academic Plan or as a result of our efforts to implement the six goals that have been identified by President Gee.

So as you heard, we started with student housing, because that's an issue that has to deal with the student life question which the President has raised. The issue that is flowing from much of the planning documents at the college level is the focus on the importance of enriching the experiences that students have while they are on campus. The doctoral program review is part of the normal process we go through to focus on the quality of our programs and the impact that those programs have on a national and international level. The focus on University centers, which will come to the committee, is really a translation of the issue the President has raised with trans institutional mechanisms that will lead the way to the future eminence that we would like for this institution.

Our international programs which are a key to our Academic Plan and our reflection of our ability to play a role not just in this region, not just in this state, but truly on a worldwide basis.

The Ohio Innovation Partnership update which will be coming to the committee flows from the focus that we've had on developing our strengths in the STEM area. This is an area we have decided as an academic priority for this institution, also happens to coincide with state priorities in terms of investment.

And the last item which is sort of, "where are we?" We have all had a year of working with this new strategic process and the question is how do we assess this and how do we get some feedback as to what should be changed and what adjustments should be made.

So if I go back now to that overall process diagram. After the Board of Trustees, we go to the question of college strategic multi-year plans. We have been asking colleges to plan within a five year cycle. That is an important piece to keep in mind because not only is there going to be the five-year review process, but within each and every year there are performance metrics that are being identified, and I'll talk about those briefly.

February 1, 2008 meeting, Board of Trustees

If you go down the right branch, once the colleges have strategic plans that have been approved we go through the annual assessment process for college process, for college progress. Each of the plans has to identify for us time periods and metrics we can use to assess whether or not progress is being made or what adjustment should be made as a result of our actual experience with implementation. Then that obviously leads to the performance of individual deans.

If we go down the left side branch of that, we begin to see department and program strategic goals which have to be consistent with and aligned with the departments. So we have alignment from the plan to the trustees, to the colleges, to individual departments, and individual initiatives, then of course that leads to assessments of unit progress and the assessment of the performance of the leaders of those units.

The middle box talks about multi-year program reviews. We have to keep in mind that while this planning is going on we have our regular cycles of planning and regular cycles of assessments of individual programs and individual initiatives such as the doctoral program assessment which is going on as we speak, and about which the Board will hear more in the future.

One of the things we have tried to do for each of these planning efforts within the silos is to try to identify the key planning elements that have to be reflected in those plans. They range from facilities, we've talked about that a little bit today, at the Board level -- we are beginning to raise questions for example about shared facilities. We have proposals and Academic Plans that are being developed for rather significant increases and wet lab space for different colleges. That has lead us to ask questions about if we can combine some of that access to wet lab space and have that reflected in our building plans. So we are beginning to ask those kinds of questions about common classroom space and so forth. In the past all of those decisions would have simply been kept at the department or college level and lead to a lot of idiosyncratic planning. We are trying to get away from that.

Every unit has to have a financial plan. One of the things we are discovering at the academic level is that every unit we deal with can articulate for us what their long-term goals are. That is not an issue. The hard part is telling us where the resources are going to come from in order to achieve those goals, and each unit must have a fairly detailed and specific financial plan for that.

There is a technology plan -- what support must be provided for them to achieve success, what support will be central, what support will be decentralized, etc.

There has to be a development plan because it is clear to all the units that we cannot achieve their goals and objectives just with state support. So we need to see a very detailed plan of how they are going to generate dollars, whether it is through actual development or fund raising, or if it is going to be through indirect costs as a result of external grant generation. All of that has to be specified, and the talent plan -- it's fine to be talking about massive growth if we are in an area of shortage of faculty, where is that talent coming from? Where is the talent coming from for the quality of programs in terms of student attraction?

We heard earlier about the need for financial aid and our plans to make sure we continue to offer adequate levels of financial aid. That is tied in part to the question of are we going to have the level of talent we need in students to accomplish the goals and objectives we have?

So all of the plans that come out of the silos have to have those elements addressed and that is how they are being assessed. And just to give you an overall sense of what we are trying to do for the academic units, it is simply to create a data-driven process in which decisions are made based on alignment with the University goals and the Board of Trustees goals being aligned with the college goals, the college goals being

February 1, 2008 meeting, Board of Trustees

aligned with the department goals, and annual college and department leadership assessments being driven by explicit metrics. It is that alignment that becomes absolutely critical.

The other point I would like to make is that this applies not just to academic units. One of the important issues for us is to make sure that all of our support units are planning in a way that is aligned with our academic goals and objectives. One of the foci of the conversation we had with Ambassador Ong's committee was the issue about whether or not we should increase residence capacity on campus and that should be driven by our academic goals, not simply the question of whether or not we could do it. But we are trying to consistently use our academic goals as a way of driving the goals and objectives of all our support units on campus, and this just tries to visually display that for you.

Up to this point what I've talked about are activities that easily can take place within any silo. There is a limited amount of integration that is forced as a result of what I've just described. Now I want to talk about some of the integration mechanisms that have come about because of activities that President Gee has undertaken.

The first step was the creation of a group that he has described earlier as the Integrated Financial Planning Committee and that consists of three individuals, myself, the senior vice president of health sciences, and the chief financial officer and senior vice president for business and finance. Our function is to look at these cross unit activities and proposals for resource allocations and begin to make absolutely certain that there is integration that takes place in all of those activities. But that is not done alone. In addition, we have biweekly meetings of the new Executive Committee that is chaired by the president and includes the provost and a series of vice presidents. That group again begins to both surface and flesh out issues that cut across all the silos of the University, and that is the purpose of that particular committee. We then have weekly meetings of the Senior Management Council that I chair. It includes all the vice presidents and the secretary of the board of trustees. It becomes both an agenda setting committee that looks at a set of issues across the University as a whole and it also does some assessments of implementation. We are beginning to get, as a result of these mechanisms and efforts, a look across all the functions of the institution and make sure that there is consistency.

We also have a series of other issues, and I will go through these very, very quickly. We have the monthly meetings of the President's Council and that has all of the vice presidents, the executive deans, and the faculty senate representatives. That is to do two things: first, to make sure that there are consistent messages of information about what is happening and what our goals and objectives are; and second, then also listen to a broader base of individuals with a variety of different perspectives who can ask questions about why we are moving in particular areas, raise questions about implementation plans, as well as the very process of planning that takes place.

We then have monthly meetings of the Council of Deans and those are chaired by the provost. All deans in the University come to those meetings and that is both for problem solving purposes and also for communications purposes. But again the primary effort is to get the deans actively involved in looking at issues across the colleges, not in any one individual college of the institution. We are organized by clusters, as I think you all know, and there are periodical meetings of the cluster deans, where the deans in the health sciences will be getting together, deans in the professional colleges, and deans in the arts and sciences, to talk about common issues across their colleges within their cluster. They also begin to raise issues that might affect colleges in different clusters. It becomes another way of getting integration just at a lower level within the institution.

There are periodic meetings with all the department chairs. I meet with over a hundred department chairs periodically, again to make sure that I am listening to and that we

February 1, 2008 meeting, Board of Trustees

are hearing about the issues on the ground from chairs who have to deal with the very real issues, not just the planning, but actual implementation, and they have an opportunity to hear directly from me. We have continual reviews, which we talked about before, of the Office of Academic Affairs in terms of leadership performance. We have periodic meetings of the Faculty Council. We have the Faculty Council representatives here. We meet regularly, again, to raise issues that they begin to see from a very different perspective and that are not silo bound. And of course there are periodic meetings of the Faculty Senate which is a much broader group that again gives us an opportunity to hear across the institution.

So the main message I am trying to convey is that we are trying very hard to get greater discipline in both planning and implementation within silos, because that is a very important part of what we do. But we also want to make absolutely certain that we are beginning to see the integration that must occur across those silos if we are to accomplish our goals and objectives.

I would be happy to answer any questions if there are any?

Dr. Cloyd:

Thank you, Provost Alutto.

It's really terrific to see this activity that can generate the kind of alignment that we know we need to achieve the goals we have set for the University and start to become more of the "one university" that we have talked about. I think its terrific work and compliments to you and all the people who have been involved in this.

I would like to open it up now to the Board for any other Trustees that have questions or comments on this report.

Ambassador Ong:

A lot of meetings.

Provost Alutto:

A lot of meetings, very focused, and we do run some fairly efficient meetings.

Dr. Cloyd:

Other questions or comments?

Mr. Wexner:

No, I just want to compliment you. I feel humble complimenting a business dean, but know this is clear that you have figured out how to do it. The what, the how, and the who, and it is laid out very clear. I think it's a great template for managing things on issues. What are the issues; what you are trying to achieve for us in our boards and our committees, so we are in the same kind of format. What it is, how are you going to get there, who's going to do it, when, and that was just as complete as I have ever seen, in a concise presentation.

Dr. Alutto:

Thank you.

(See Appendix XLII for background information, page 861.)

February 1, 2008 meeting, Board of Trustees

Dr. Cloyd:

Any other comments?

Thank you, Provost Alutto. The only other item of business that we have today is a short one, and President Gee that is to wish you a happy birthday, one day early. Now I thought about singing happy birthday to you, then when I considered this group, with the Ambassador having a lovely voice, I decided that standards of humaneness just would not let that happen. But please take our best wishes for a very happy birthday, and we certainly hope you enjoy the *Wizard of Oz!*

President Gee:

Thank you, I might just, I was going to do this in my office today. You know, February 2nd is Ground Hog's day, so I thought I would show you what I have (donning a hat with a woodchuck on it)! I don't know what he is going to do, but for me I'm going to be able to see the sun tomorrow.

Thereupon the Board adjourned to meet Friday, April 4th, 2008 at the Longaberger Alumni House, Columbus, Ohio.

Attest:

G. Gilbert Cloyd
Chairman

David O. Frantz
Secretary

February 1, 2008 meeting, Board of Trustees

(APPENDIX XXXV)

IMPACT STATEMENT
THE OHIO STATE UNIVERSITY HOSPITALS
RULES AND REGULATIONS

AMENDMENTS APPROVED BY
MEDICAL STAFF ADMINISTRATION COMMITTEE
ON NOVEMBER 14, 2007

I. MEDICAL STAFF BYLAWS

- A. Updated Professional Affairs Committee name.
- B. Added Professionalism Policy as a policy in which all members of the Medical Staff must comply.
- C. Moved automatic suspension of membership on the Medical Staff for resignation, termination or non-reappointment of OSU Faculty Appointment from "Membership" section to "Automatic Suspension" section.
- D. Revised and updated "Peer Review and Corrective Action" section to accurately reflect current practice.
- E. Added provisions to the "Hearing and Appeal Process" section that allows Professional Affairs Committee and the University Hospitals Board to remand hearing committee reports back to Medical Staff Administrative Committee for further action as directed.
- F. Added a provision to "Administration of the Medical Staff" section to comply with JCAHO standards to allow the Licensed Independent Practitioner Health Committee to initiate appropriate actions when a practitioner fails to complete a required rehabilitation program.

3335-43-04 Membership.

(A) Qualifications.

- (1) Unchanged
- (2) All members of the medical staff of the Ohio state university hospitals shall, except as specifically provided in these bylaws, be members of the faculty of the Ohio state university college of medicine and public health, or in the case of dentists, of the Ohio state university college of dentistry, and shall, except for members of the limited staff, be duly licensed to practice in the state of Ohio. Members of the limited staff shall possess a valid training certificate, or an unrestricted license from the applicable state board based on the eligibility criteria defined by that board. All members of the medical staff and limited staff shall comply with provisions of state law and the regulations of the state medical board. Only those physicians, dentists, and practitioners of psychology and podiatry who can document their education, training, experience, competence, adherence to the ethics of their profession, dedication to educational and research-goals, and ability to work with others with sufficient adequacy to assure the university hospitals board and the board of trustees of the Ohio state university that any patient treated by them at university hospitals will be given the high quality of medical care provided at university hospitals, shall be qualified for membership on the medical staff of the Ohio state university hospitals.

All members of the medical staff will comply with medical staff and the Ohio state university policies regarding employee and medical staff

health and safety; uncompensated care; and will comply with appropriate administrative directives and policies to avoid disrupting those operations of the Ohio state university hospitals which adversely impact overall patient care or which adversely impact the ability of the Ohio state university hospitals employees or staff to effectively and efficiently fulfill their responsibilities. All members of the medical staff will comply with policies adopted by the medical staff administrative committee, including but not limited to policies on professionalism, disruptive behavior, conflict of interest, and access and communication guidelines.

- (3) ~~Resignation, termination, or non-reappointment to the faculty of the Ohio state university shall result in immediate termination of membership on the medical staff of the Ohio state university hospitals.~~
- (4) (3) Exclusion of any medical staff member or licensed health care professional from participation in any federal or state government program or suspension from participation, in whole or part, in any federal or state government reimbursement program, shall result in immediate termination of membership on the medical staff of the Ohio state university hospitals and the immediate termination of clinical privileges at the Ohio state university hospitals as of the effective date of the exclusion or suspension. If the medical staff member's or licensed health care professional's participation in these programs is fully reinstated, the affected medical staff member or licensed health care professional shall be eligible to apply for membership and clinical privileges at that time. It shall be the duty of all medical staff members and licensed health care professionals to promptly inform the medical director of any action taken, or the initiation of any process which could lead to such action taken by any of these programs.
- (5) (4) Except as otherwise provided for herein, an applicant for membership shall at the time of appointment or reappointment, be and remain board certified in a medical specialty approved by at least one of the American board of medical specialties, or other applicable certifying boards, including certifying boards if applicable for doctors of osteopathy, podiatry, psychology, and dentistry. All applicants must be and remain certified within the specific areas for which they have requested clinical privileges. An applicant who is an active candidate for board certification at the time of initial appointment or reappointment shall have three years from the date eligibility was first attained to become board certified. Board certification is a continuing requirement. Whenever recertification is required by a sub-specialty board approved herein, applicants for appointment or reappointment shall meet the terms of recertification established by their respective sub-specialty board or boards. Failure to meet or maintain board certification shall result in immediate termination of membership on the medical staff of the Ohio state university hospitals. This requirement may be waived by action of the medical staff administrative committee, upon the recommendation of the credentials committee or the medical director of the Ohio state university hospitals, or as specifically provided in these bylaws.
- (6) (5) Any medical staff member whose membership has been terminated pursuant to paragraph (A)(4) or (A)(5) of this rule shall not be entitled to request a hearing and appeal in accordance with rule 3335-43-06 of the Administrative Code. Any licensed health care professional whose clinical privileges have been terminated pursuant to paragraph (A)(4) of

February 1, 2008 meeting, Board of Trustees

this rule may not request an appeal in accordance with paragraph (E)(8)(j) of rule 3335-43-07 of the Administrative Code.

(B) through (D) unchanged.

(E) Procedure for appointment.

(1) through (6) unchanged.

(7) The credentials committee shall review the application, evaluate and verify the supporting documentation, references, licensure, the chief of the clinical department's report and recommendation, and other relevant information. The credentials committee shall examine the character, professional competence, qualifications and ethical standing of the applicant and shall determine, through information contained in personal references and from other sources available to the credentials committee, including an appraisal from the chief of the clinical department in which clinical privileges are sought, whether the applicant has established and meets all of the necessary qualifications for the category of medical staff membership and clinical privileges requested.

The credentials committee shall, within thirty days from receipt of a complete application, make a recommendation to the medical director that the application be accepted, rejected, or modified. The medical director shall forward the recommendation of the credentials committee to the medical staff administrative committee. The credentials committee or the medical director may recommend to the medical staff administrative committee that certain applications for appointment be reviewed in executive session. The recommendation of the medical staff administrative committee regarding an appointment decision shall be made within thirty days of receipt of the credentials committee recommendation and shall be communicated by the medical director, along with the recommendation of the medical director to the professional affairs, ~~research and education~~ committee of the university hospitals board, and thereafter to the university hospitals board. When the Ohio state university hospitals board has acted, the chairperson of the board shall instruct the medical director to transmit the final decision to the chief of the clinical department and applicant and, if appropriate, to the director of the applicable clinical division.

(8) unchanged

(F) Procedure for reappointment.

(1) through (3) unchanged.

(4) The medical staff administrative committee shall review each request for reappointment in the same manner and with the same authority as an original application for medical staff membership. The medical staff administrative committee shall accept, reject, or modify the request for reappointment in the same manner and with the same authority as an original application for medical staff membership. The recommendation of the medical staff administrative committee regarding reappointment of a member shall be communicated by the medical director, along with the recommendation of the medical director, to the professional affairs, ~~research, and education~~ committee of the university hospitals board, and thereafter to the university hospitals board. When the Ohio state university hospitals board has acted, the chairperson of the board shall

February 1, 2008 meeting, Board of Trustees

instruct the medical director to transmit the final decision to the chief of the clinical department and applicant and, if appropriate, to the director of the applicable clinical division.

(5) through (7) unchanged.

(G) unchanged

3335-43-05 Peer review and corrective action.

(A) Informal review.

All medical staff members agree to cooperate in informal review activities that are solely intended to improve the quality of medical care provided to patients at the Ohio state university hospitals and by the individual medical staff member. Such activities may include the handling and informal review of complaints Information indicating a need for informal review, including patient complaints, disagreements, questions of clinical competence, or inappropriate conduct and variation variations in clinical practice identified by the clinical departments or divisions and medical staff committees. ~~The resulting information from such activities shall be furnished referred~~ to the applicable chief of the clinical department chief. Upon review by the clinical department chief, and with concurrence of who shall consult the medical director the review activity may result in consultation with the medical staff member, recommendations for educational actions or additional training, sharing of comparative data, monitoring, informal letters of reprimand or warning or other methods of guidance to the medical staff member to assist them in improving the quality of patient care outside of the mechanism for formal review in paragraph (B) of this rule. Such actions are not regarded as adverse, do not require reporting to any governmental or other agency, and do not invoke a right to any hearing. In each case under review, an initial written determination shall be made by The chief of the clinical department and the medical director shall evaluate the matter to determine the appropriate course of action. They may, as they deem necessary, consult with the affected medical staff member or obtain information or opinions from knowledgeable persons within the medical center as well as outside consultants. At the conclusion of their evaluation, the clinical department chief and the medical director shall make an initial written determination on whether:

- (1) ~~The complaint matter~~ warrants no further action;
- (2) ~~Informal review resolution~~ under this paragraph is warranted appropriate; or
- (3) Peer review under paragraph (B) of this rule is warranted. In cases where the clinical department chief and medical director cannot agree on the need for peer review, the matter shall be submitted for peer review and determined as set forth in paragraph (B) of this rule.

If the clinical department chief and the medical director determine that informal resolution is appropriate, they may consult with the medical staff member, make recommendations for educational actions of additional training, sharing of comparative data or monitoring, issue informal letters of warning or provide other forms of guidance to the medical staff member to assist him or her in improving the quality of patient care. Such actions are not regarded as adverse, do not require reporting to any governmental or other agency, and do not invoke a right to any hearing. The chief of the clinical department and the medical director shall determine whether it is appropriate to include documentation of such actions in the medical staff member's file. If documentation is included in the member's file,

February 1, 2008 meeting, Board of Trustees

the affected member shall have an opportunity to review it and may make a written response which shall also be placed in the member's file. Informal review under this paragraph is not a procedural prerequisite to the initiation of peer review under paragraph (B) of this rule.

(B) Peer review.

- (1) Peer review may be ~~requested in more serious situations or where informal review has not resolved an issue or whenever the activities or professional conduct of~~ initiated when a member of the medical staff of the Ohio state university hospitals:
 - (a) ~~Violates the~~ Fails to adhere to standards or aims of the of patient care and professional conduct appropriate for a physician practicing in an academic medical center as determined by the medical staff or standards of professional conduct;
 - (b) ~~Is considered to be~~ disruptive to the operation of the Ohio state university hospitals;
 - (c) Violates the bylaws, rules and regulations of the medical staff, the Ohio state university hospitals board, or the board of trustees of the Ohio state university;
 - (d) Violates state or federal law; or
 - (e) Is responsible for acts or omissions detrimental to patient safety or to the delivery quality or efficiency of patient care within the Ohio state university hospitals; or
 - (f) Is responsible for acts or omissions damaging to the reputation of the medical staff of the Ohio state university hospitals.

Peer review may be initiated by a chief of a clinical department, the medical director, any member of the medical staff, the executive director of the Ohio state university hospitals, the dean of the college of medicine and public health, any member of the board of the Ohio state university hospitals, or the vice president for health services. All requests for peer review shall be in writing, shall be submitted to the medical director, and shall ~~be supported by reference to the specific activities or~~ specifically state the conduct or activities which constitute grounds for the requested action.

- (2) The medical director shall promptly ~~notify~~ deliver a written copy of the request for peer review to the affected member of the medical staff, in a confidential manner; ~~that a request for peer review has been made, and inform the member of the specific activities or conduct which constitutes grounds for the requested action.~~ The medical director shall then conduct a preliminary review to verify the facts related to the request for peer review, and within thirty days, make a written determination. If the medical director decides that no further action is warranted, the medical director shall notify the person(s) who filed the request for peer review and the member accused, in writing, that no further action ~~would~~ will be taken.
- (3) Whenever the medical director determines that peer review is warranted ~~and that a reduction, suspension or revocation of clinical~~

~~privileges could result, the medical director, he or she shall refer the request for peer review to the peer review committee. The affected member of the medical staff shall be notified of the referral to the peer review committee, and be informed that these medical staff bylaws shall govern all further proceedings.~~

- (4) The senior vice president for health sciences or designee shall exercise any or all duties or responsibilities assigned to the medical director under these rules for implementing corrective action and appellate procedure ~~only if:~~
- (a) The medical director is the medical staff member charged;
 - (b) The medical director ~~is responsible for having the charges brought against another medical staff member; or~~ has a financial interest or a relationship with any person that may have an improper effect on the exercise of his or her judgment in the matter, or may be perceived to have such an effect.
 - (c) ~~There is an obvious conflict of interest.~~
- (4)-(5) The peer review committee shall investigate every request and shall ~~report in writing within thirty days its~~ deliver written findings and recommendations for action to the chief of the clinical department within thirty days. The peer review committee may recommend a reduction, suspension or revocation of the medical staff member's clinical privileges or other action as it deems appropriate. In making its recommendation the peer review committee may consider as ~~appropriate,~~ relevant literature and clinical practice guidelines, ~~all the~~ opinions and views expressed throughout the review process, ~~and any~~ information or explanations provided by the member under review and other relevant information. Prior to making its report, the committee shall afford the medical staff member against whom the action has been requested ~~shall be afforded~~ an opportunity for an interview ~~with the peer review committee.~~ At such interview, the medical staff member shall be informed of the specific activities actions or omissions alleged to constitute grounds for peer review, and shall be ~~afforded the opportunity to discuss, explain or refute the allegations against the medical staff member given copies of any statements, reports, opinions or other information compiled at prior stages of the proceedings.~~ The medical staff member may furnish written or oral information to the peer review committee at this time and shall be given an opportunity to discuss, explain, or refute the allegations and to respond to any statements, reports or opinions previously compiled in the proceedings. However, such interview shall not constitute a hearing, but shall be investigative in nature. The medical staff member shall not be represented by an attorney at this interview.
- (5) (6) Upon receipt of the written report and recommendation from the peer review committee, the chief of the clinical department shall, within seven days, make his or her own written determination recommendation for corrective action and forward that determination recommendation along with the findings and recommendations of the peer review committee to the medical director, ~~or if required by paragraph (B)(3) of this rule, to the senior vice president for health sciences or designee.~~

- (6) ~~(7)~~ Following receipt of the recommendation from the clinical department chief and the report from the peer review committee, the ~~The~~ medical director, or the senior vice president for health sciences or designee, shall have ten days to approve or to decide whether to accept, reject or modify the determination recommendation of the clinical department chief. Following receipt of the report of clinical department chief, the medical director or senior vice president for health sciences or designee shall decide whether the grounds for the requested corrective action are such as should result in a reduction, suspension or revocation of clinical privileges. If the medical director, or senior vice president for health sciences or designee, decides the grounds are not substantiated, the medical director will notify the peer review committee; the clinical department chief; the person(s) who filed the complaint and the affected medical staff member, in writing, that no further action will be taken.

~~In the event~~ If the medical director or senior vice president for health sciences or designee finds the grounds for the requested corrective action are substantiated, the medical director shall promptly notify the affected medical staff member of that decision and of the corrective action that will be taken. This notice shall advise the affected medical staff member's member of his or her right to request a hearing before the medical staff administrative committee pursuant to rule 3335-43-06 of the Administrative Code and. ~~The written notice shall also include a statement that the medical staff member's failure to request a hearing in the timeframe prescribed in this rule 3335-43-06 of the Administrative Code shall constitute a waiver of rights to a hearing and to an appeal on the matter; a statement that~~ and the affected medical staff member shall have the procedural rights found in rule 3335-43-06 of the Administrative Code; and also be given a copy of the rule 3335-43-06 of the Administrative Code. This notification and an opportunity to exhaust the administrative hearing and appeal process shall occur prior to the imposition of the proposed corrective action unless the emergency provisions outlined in paragraph (D) of this rule apply. This written notice by the medical director shall be sent certified return receipt mail to the affected medical staff member's last known address as determined by university records.

- ~~(7)~~ (8) If the affected member of the medical staff does not make a written request for a hearing to the medical director within thirty-one days after receipt of the adverse decision, it he or she shall be deemed a waiver of to have waived the right to any review by the medical staff administrative committee to which the staff member might otherwise have been entitled on the matter.

- ~~(8)~~ (9) If a timely, written request for hearing is made, the procedures set forth in rule 3335-43-06 of the Administrative Code shall apply.

(C) Composition of peer review committee.

(1) and (2) unchanged.

- (3) An outside review consultant may serve as a member of the peer review whenever:

(a) Unchanged

(b) The objectivity of the review may be compromised ~~due to economic considerations~~; or

February 1, 2008 meeting, Board of Trustees

- (c) Whenever the medical director determines that an outside review is otherwise advisable.

If an outside reviewer is recommended, the chief of the clinical department shall make a written recommendation to the medical director for selection of an outside reviewer. The medical director shall make the final selection of an outside reviewer.

(D) Unchanged

(E) Automatic suspension.

(1) through (8) unchanged.

(9) Resignation, termination, or non-reappointment to the faculty of the Ohio state university shall result in immediate termination of membership on the medical staff of the Ohio state university hospitals.

(F) Reporting responsibility.

When a decision on corrective action is taken which constitutes a "formal disciplinary action" as may be defined in Ohio state law, or as may be required to be reported pursuant to federal law, including the health care quality improvement act, the medical director shall ~~make~~ ensure that a report of said action ~~is made~~ in order to maintain compliance with applicable state or federal law or regulations. The medical director shall ~~amend~~ ensure that such reports ~~are amended~~ as may be required to reflect subsequent actions taken under the hearing and appeal rights afforded in these bylaws.

When applicable, any recommendations or actions that are the result of a review or hearing and appeal shall be monitored by the medical director on an ongoing basis through the Ohio state university hospitals' quality management activities. (B/T 6/7/2002, B/T 5/6/2005)

3335-43-06 Hearing and appeal process.

(A) through (C) unchanged.

(D) Conduct of hearing.

(1) through (9) unchanged.

(10) The decision and record of the medical staff administrative committee shall be transmitted to the professional affairs, ~~education, and research~~ committee of the university hospitals board, which shall, subject to the affected member's right to appeal and implementation of paragraph (E) of this rule, consider the matter at its next scheduled meeting, or at a special meeting to be held no less than thirty days following receipt of the transmittal. The professional affairs, ~~education and research~~ committee may accept, reject, or modify the decision of the medical staff administrative committee. The professional affairs committee may remand that matter back to the medical staff administrative committee for further action as directed.

(11) The recommendation of the professional affairs, ~~education and research~~ committee shall be promptly considered by the university hospitals board, or the executive committee of the hospital's board, at its next scheduled meeting. The university hospitals board, or the

February 1, 2008 meeting, Board of Trustees

executive committee of the university hospitals board, may accept, reject, or modify the recommendation of the professional affairs, ~~education and research~~ committee. The university hospitals board or executive committee of the hospitals board may remand the matter back to the medical staff administrative committee for further action as directed.

(12) Unchanged

(E) Appeal process.

(1) and (2) unchanged.

(3) The appeal shall be conducted by the professional affairs, ~~education and research~~ committee of the university hospitals board.

(4) The affected medical staff member shall have access to the reports and records, including transcripts, if any, of the hearing committee and of the medical staff administrative committee and all other material, favorable or unfavorable, that has been considered by the medical staff administrative committee. The staff member shall then submit a written statement indicating those factual and procedural matters with which the member disagrees, specifying the reasons for such disagreement. This written statement may cover any matters raised at any step in the procedure to which the appeal is related, and legal counsel may assist in its preparation. Such written statement shall be submitted to the professional affairs, ~~education and research~~ committee no later than seven days following the date of the affected member's notice of appeal.

(5) New or additional matters not raised during the hearing or in the medical staff administrative committee hearings shall only be considered on appeal at the sole discretion of the professional affairs, ~~education and research~~ committee.

(6) Within fourteen days following submission of the written statement by the affected medical staff member, the professional affairs, ~~education and research~~ committee shall recommend to the Ohio state university hospitals board that the adverse decision be affirmed, modified or rejected, or to refer the matter back to the medical staff administrative committee for further review and recommendation. Such referral to the medical staff administrative committee may include a request for further investigation.

(7) Unchanged

3335-43-07 Categories of the medical staff.

The medical staff of the Ohio state university hospitals shall be divided into five categories: honorary medical staff; attending medical staff; courtesy medical staff; community affiliate medical staff; and limited staff.

(A) through (E) unchanged.

(F) Clinical privileges.

(1) through (7) unchanged.

February 1, 2008 meeting, Board of Trustees

(8) Other licensed health care professionals.

(a) through (j) unchanged.

(k) Appeal process.

(i) and (ii) unchanged.

(iii) The appellate review shall be conducted on the record by the professional affairs, ~~education and research~~ committee of the Ohio state university hospitals board.

(iv) The affected licensed health care professional shall have access to the reports and records, including transcripts, if any, of the hearing committee and of the medical staff administrative committee and all other material, favorable or unfavorable, that has been considered by the medical director. The licensed health care professional shall submit a written statement indicating those factual and procedural matters with which the member disagrees, specifying the reasons for such disagreement. This written statement may cover any matters raised at any step in the procedure to which the appeal is related, and legal counsel may assist in its preparation. Such written statement shall be submitted to the professional affairs, ~~education and research~~ committee no later than seven days following the date of the licensed health care professional's notice of appeal.

(v) New or additional matters shall only be considered on appeal at the sole discretion of the professional affairs, education and research committee.

(vi) Within thirty days following submission of the written statement by the licensed health care professional, the professional affairs, ~~education and research~~ committee shall recommend to the Ohio state university hospitals board executive committee that the adverse decision be affirmed, modified or rejected, or to refer the matter back to the medical director for further review and recommendation. Such referral to the medical director may include a request for further investigation.

(vii) unchanged

(l) unchanged

(9) through (11) unchanged.

February 1, 2008 meeting, Board of Trustees

3335-43-10 Administration of the medical staff of the Ohio state university hospitals.

(A) and (B) unchanged

(C) Medical staff administrative committee:

(1) and (2) unchanged

(3) Meetings. The committee shall meet monthly and shall keep detailed minutes which shall be distributed to each committee member and to the university hospitals board through the professional affairs, education, and research committee.

(4) unchanged

(D) unchanged

(E) Committee for licensed independent practitioner health.

(1) unchanged

(2) Duties:

(a) through (f) unchanged

(g) To initiate appropriate actions when a licensed practitioner fails to complete the required rehabilitation program.

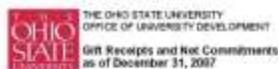

(h) through (l) unchanged

(J) Leadership council for clinical value enhancement.

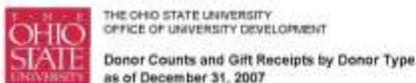

The leadership council shall consist of members appointed in accordance with paragraph (A)(6) of rule 3335-43-09 of the Administrative Code, and shall include the senior vice president for health sciences and dean of the college of medicine and public health and the chairperson of the professional affairs ~~education and research~~ committee of the university hospitals board as ex-officio members without a vote. The medical director shall be the chairperson of the leadership council.

(1) through (4) unchanged

Alumni/Affiliates/Guests - Scarlet	\$70	\$70	0.0%

**The Ohio State University
Department of Athletics
Football Ticket Allotment Caps**

Background:

The Facilities and Finance Subcommittee proposed the following ticket allotment caps for the 2008 Football season and for all future seasons to the following constituencies. Student season tickets would be capped at 30,000, which is an increase of 3,500 over the previous cap. At this level, we will maintain an allotment of tickets for students that are higher than any other school in the country, and still be able to accommodate tickets for the most diverse constituency group in the country as well.

We realize the importance of students to the University as well as the Department of Athletics, and with the growing popularity of Ohio State Football amongst students, we feel the increase is a very positive one. Another positive result of this allotment proposal will be that Alumni Association members will be notified earlier for which game they will receive tickets. By holding all constituencies to their caps, the Ticket Office will be more efficient in serving their customers. In the event that a given constituency as noted below does not use its entire allotment, the remaining tickets will be distributed among the remaining constituencies herein.

		<u>CURRENT TICKET ALLOTMENT CAPS</u>	<u>PROPOSED TICKET ALLOTMENT CAPS *</u>	
Student	26,500	season tickets	30,000	season tickets
Faculty/Staff	15,000	season tickets	15,000	season tickets
Buckeye Club	15,000	season tickets	15,000	season tickets
President's Club	15,000	season tickets	15,000	season tickets
Alumni	70,000	individual tickets	70,000	individual tickets
* effective for 2008 football season				

BENCHMARKING- STUDENTS, FACULTY/STAFF AND ALUMNI

University	# of student tickets allocated	# of Faculty/Staff tickets allocated	F/S Ticket Opportunity
Texas	14,000	Number based on availability	
Michigan	23,252	1,000 season tickets allocated	
Penn State	25,000	No allocation set aside, must donate	Must donate to buy
Tennessee	25,000		
Florida	19,756		Must donate to buy

BENCHMARKING- 2006-07 MEN'S BASKETBALL PRICING

As compared to the other Conference schools, our proposed single game ticket prices are in line with the top basketball programs. As shown on the benchmark chart below, OSU is not the highest price in the Conference. The proposed price increase brings the University closest to the highest ticket prices at Illinois, Michigan and Michigan State. Our single game prices are below comparable men's basketball programs at North Carolina and UCLA.

University	Season Ticket Price	# of games	<u>Average Single Game Basketball Ticket Prices</u>			
North Carolina	\$535	16		\$33.44		
UCLA	\$567	18		\$31.50		
Tennessee	\$250	13		\$19.23		
Arizona	\$456, 424, 344	17	\$26.82	\$24.94	\$20.24

(APPENDIX XXXVIII)

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
FISCAL AFFAIRS COMMITTEE**

January 31, 2008

TOPIC:

Recommended process clarifications and improvements regarding management and oversight authority of facilities improvements projects and real estate transactions.

CONTEXT:

This policy was presented for a first reading at the December 2007 Board of Trustees meeting. The proposed changes will allow us to streamline processes and focus our energy and the Board's time on those issues of the greatest financial and strategic impact to the University.

Six changes from existing policies have been incorporated into the proposed policy. They are:

1. Projects of less than \$1M are required to follow all university and state procurement policies and guidelines regardless of funding source.
2. Projects more than \$1M but less than \$4M would require one time approval by the Senior Vice President for Business and Finance, which would cover approval for both design and construction. Projects that were not part of a submitted annual budget or capital plan will require separate Board approval.
3. Projects \$4M but less than \$10M would require one time Board of Trustees approval, which would cover approval for both design and construction.
4. Projects over \$10M would require two separate Board of Trustees approvals - one for design and one for construction.
5. Guidelines for planning studies, leases, and real estate transactions are now included under the attached policy.
6. Board approval would no longer be required for the replacement and/or renewal of existing, previously approved easements.

CONSIDERATIONS:

- Is the University sufficiently protected?
- Are the targeted project budget limits appropriate for each category?
- Is including only projects greater than \$4M in the annual report to the Board acceptable?

REQUESTED OF THE FISCAL AFFAIRS COMMITTEE:

Approval of attached resolution

**Policy for Board of Trustees Review and Approval of
Facilities Improvement Projects, Planning Studies, and
Real Estate Transactions Facilities Improvement Projects**

For the purposes of this document, Facilities Improvement Projects are defined as any initiatives undertaken on behalf of the University that improve the physical environment in support of the academic mission. Projects covered under this policy would include, but may not be limited to activities that involve land acquisition, construction, reconstruction, renovation, demolition, landscaping, roads and grounds improvements/maintenance, building and systems repairs/replacements; client-specified projects, major emergency responses and any capital improvement project. This policy excludes items which would appropriately be directed through the procurement process and subject to the University's procurement policies and guidelines.

1. Any facilities improvement project estimated to cost less than \$1M shall follow all applicable university and state procurement guidelines regardless of funding source.
2. Any facilities improvement project estimated to cost more than \$1M but less than \$4M shall require specific project authorization by the Senior Vice President of Business and Finance. This approval constitutes complete authorization for the project, including site selection, design, construction and any services needed, except as specifically noted in the authorization resolution.
3. Any facilities improvement project estimated to cost \$4M but less than \$10M shall require specific project authorization by the Board of Trustees. This approval constitutes complete authorization for the project, including site selection, design, construction, and any other services needed, except as specifically noted in the authorizing resolution.
4. Any facilities improvement project estimated to cost \$10M or more shall require specific project authorization by the Board of Trustees that may include site determination, design work, and construction management services, except as specifically noted in the authorizing resolution. For these projects, separate Board authorization shall be required for construction unless specifically included in the project approval resolution.
5. Once a project of \$4M or more has been approved by the Board, the University shall not increase the project costs (including costs for design, construction, construction management, or other services) presented to the Board at the time of authorization without specific Board approval except as follows:
 - a. For projects under \$4M, with the prior written approval of the Senior Vice President for Business and Finance, the University may increase individual project contracts or the total project budget as long as the increased project budget does not exceed 10% of the total project budget and funding for the increase is provided by the requesting department or other source and an appropriate report is made to the Board regarding the increase.
 - b. For projects of \$4M or more, with the prior written approval of the Senior Vice President for Business and Finance, the University may increase individual project contracts or the total project budget cumulatively by no more than 10% of the total project budget or \$1M, whichever is less, so long as funding for the increase is provided by the requesting department or other source and an appropriate report is made to the Board regarding the increase.

February 1, 2008 meeting, Board of Trustees

6. The University shall report annually to the Board, at the first meeting of the calendar year, on all projects estimated to cost \$4M or more that were completed during the previous year. The report will include determination as to whether the project was on time and on budget.
7. The University shall report quarterly to the Board on the status of each major facilities improvement project of \$20M or more that meet the reporting point's criteria, and annually on any other facilities project as required by the Board. The report will include determination as to whether the project is on time and on budget and include appropriate metrics.

Planning Studies and Project Siting

8. Any planning study (including any feasibility, technical, siting, or other planning study) estimated to cost \$250,000 or more shall require Board of Trustees authorization (either separately or as part of the facilities project recommendations). Any planning study originally estimated at less than \$250,000 that goes over that amount shall be submitted to the Board for authorization. Any planning study estimated to cost less than \$250,000 shall require Senior Vice President for Business and Finance approval.
9. Any proposed changes to the approved University Master Plan, Regional Plans, District Plans, and Sub-District Plans shall be subject to review and approval by the President's Executive Committee and Board of Trustees.
10. Requests for use of a site for any facilities project or any change in activity or program shall be subject to review and approval by the President's Executive Committee and Board of Trustees if not in compliance with the approved University Master and District Plans, as determined by the Department of Facilities Operations and Development.

Real Estate Transactions

11. Any easement, other than an easement for street, roadway or highway purposes, to be granted to another party for use of University property for a term of not more than 25 years shall be subject to review and approval by the Senior Vice President for Business and Finance.
12. Approval replacement (renewal) easements for existing agreements that benefit the University and that were previously approved by the Board of Trustees as outlined in item #11, may be granted for a like term by the University through the written approval of the Senior Vice President for Business and Finance.
13. Any sale or purchase of real property, or acceptance of the gift of real property, shall be subject to the review and approval of the Board of Trustees.
14. The lease of real property by the University for any total term of ten years or more or with a total lease value greater than \$1M shall be subject to review and approval by the Board of Trustees.

Interpretation and Intent

15. This policy is intended to provide flexibility for the University to undertake projects in an expeditious manner, while preserving the authority and ability of the Board of Trustees to review and approve major projects as the Board determines. This policy is not intended to limit Board review of any project or action as the Board determines appropriate. In interpreting this policy, the University shall provide for Board review in any case in which the provisions of this policy are unclear or subject to varying interpretation.

Location(s): Paterson Hall, Alma Wacker 38,513 ASF/61,276 GSF Age: 1954

Description:

This project will upgrade the existing fire alarm systems in Paterson, Bradley, Mack, Canfield and Baker Halls.

Project Information:

The project will provide a fully addressable code compliant system, and will allow alarms to report through the campus level system and to Student Affairs building automation system.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving safety in the student living environment.

Outstanding Funding Issues: This project is funded with future bond proceeds. Student Affairs has identified an interim funding source for use until bond proceeds are available.

Timing Issues: None

Triple effects of the project: None

Special Considerations: None

Taylor Tower - Fan Coil Replacement

OSU-080466

Requesting Agency(s): STUDENT AFFAIRS FACILITIES

Location(s): Taylor Tower, Jacob B.

74,782 ASF/143,051 GSF Age: 1966

Description:

This project will replace the fan coil units in each of the resident rooms and the public areas - a total of approximately 460 units. This project will also replace the piping, valves and fittings, and provide new insulation.

Project Information:

The project will improve the air conditioning functions of the units. In addition, the new piping system will allow the building automation system to automatically change over the building systems as weather dictates.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving the student on campus living environment.

Outstanding Funding Issues: None

Timing Issues: None

"Ripple effects" of the project: None

- OARDC - POUNDEN HALL RENOVATION

Smith Laboratory Rehabilitation

315-2005-957

Requesting Agency(s): ACADEMIC AFFAIRS, OFFICE OF

Requesting Agency(s): BUSINESS & FINANCE, OFFICE OF

Location(s): Smith Laboratory, Alpheus

134,125 ASF/219,438 GSF Age: 1950

Description:

This project will renovate portions of Smith Laboratory for the Anthropology Department. This project will also relocate and renovate some pool classrooms from the upper floors to the first and second floors.

Project Information:

The conceptual budget has been adjusted for additional scope, which includes all new doors; all new light fixtures; upgraded classroom and lab counters; replacement of two fume hoods; and other finish upgrades.

How does this project advance the Academic Plan? This project will provide improved space for the Department of Anthropology and improve the classroom pool space within Smith Laboratory.

Outstanding Funding Issues: None**Timing Issues:** None

Triple effects of the project: Enables relocation of the Anthropology Department from Lovd Hall, an essential step towards the demolition of that facility.

Special Considerations: There are other partial renovation projects planned and occurring in Smith Laboratory that will overlap with the projected schedule of this project, each involving HDP issues and space/placement issues. This project will be designed to coordinate with the other projects to prevent gaps or overlap.

Deferred Maintenance: This project will address \$78,000 in deferred maintenance.

Deferred Renewal: None

Source of Funds:	Amount
General Funds-Social & Behav Sci	\$568,000.00
HB16 Line Item Appropriation	\$2,000,000.00

University Hospitals - Emergency Department Expansion

315-2006-916

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): Rhodes Hall-University Hospital

234,178 ASF/480,976 GSF Age: 1979

Description:

This project will renovate space to provide a Critical Decision Unit and relocate the Patient Transportation Services and Facilities Shop.

Project Information:

This project is supportive of the longer range growth identified in the Medical Center Facilities Master Plan.

How does this project advance the Academic Plan? This project will advance the Academic Plan by expanding the Emergency Department to facilitate and utilize new technology, enabling the Ohio State University Medical Center's Emergency Department to remain a Level One Trauma Center. This project will also increase the department's ability to meet the needs of the local community.

Outstanding Funding Issues: None

Timing Issues: None

"Stippled effects" of the project: None

Special Circumstances: None

Deferred Maintenance: This project will address approximately \$1,200,000 of deferred maintenance.

Deferred Renewal: None

ARRAY HEALTHCARE FACILITIES SOLUTIONS - Design

(APPENDIX XL)

AMENDMENT TO LONG-TERM LEASE

**Varsity Crew Facility
Indian Village Road
Columbus, Ohio**

Background

Location and Description

The 40-year lease between city of Columbus, landlord, and The Ohio State University, tenant, was previously presented and approved by the Board at the July 13, 2007 meeting. Subsequent to the July Board meeting the lease was executed by the parties. The lease provides that the city of Columbus will construct a boathouse and the cost of the design and construction of the boathouse will be the total rent paid by the University for the full-term of the lease. The leased premises will consist of three (3) bays, two (2) meeting rooms and one (1) office in the permanent boathouse to be constructed upon real property at Griggs Reservoir on the Scioto River together with the right to use in common with the city, the lobbies, kitchen, training rooms, men's and women's locker rooms, common corridors, hallways, public restrooms and other common areas located within the boathouse, and the dock facilities to be located on the real property accessing the Scioto River.

All costs, lease payments, and any other expenses related to the proposed off-campus property will be funded by the Department of Athletics using funds from reserves that have been set aside for a boathouse project and future fundraising. All costs associated with this project will be the responsibility of the Department of Athletics.

The original estimate of the cost for design and construction of the facility was \$3.3 million. Subsequent programmatic changes in design of the boathouse and unforeseen construction issues resulted in the estimate of the cost of construction of the boathouse being increased to \$4.87 million. It is necessary to amend the lease to increase the rent to the amount of \$4.87 million.

Terms of Lease Amendment

The lease term shall remain 40 years with a 40-year renewal option.

A onetime payment of rent shall be the actual cost of design and construction in an amount not to exceed \$4.87 million. Any additional changes that may result in any increases to the cost of the boathouse will be value engineered so as not to exceed the maximum rent amount.

The remaining terms of the lease will remain unchanged.

Intent:

For academic units, create a data-driven process in which decisions are made based on...

University goals aligned with

↓
Board of Trustees goals aligned with

↓
College goals aligned with

↓
Department/program goals aligned with

↓
Annual college/department/program leadership assessments driven by explicit metrics

Intent:

For support service units, create a data-driven process in which decisions are made based on...

Cross-Function Planning and Implementation Integration Occurs Through...

1. Weekly meetings of Integrated Financial Planning Committee
Integrated Financial Planning Committee:
Chaired by provost; includes vice presidents for business and finance and health sciences
2. Bi-weekly meetings of Executive Committee
Executive Committee:
Chaired by president; includes provost, vice presidents for development, business and finance, health sciences, legal affairs, university relations; secretary to the Board of Trustees (ex officio)
3. Weekly meetings of Senior Management Council
Senior Management Council:
Chaired by provost; includes all vice presidents; secretary to the Board of Trustees (ex officio)

Planning and Implementation *(continued)*

4. Monthly meetings of President's Council

President's Council:

Chaired by president; includes all vice presidents, executive deans, Faculty Senate representative; director of athletics, CIO, and secretary to the Board of Trustees (ex officio)

5. Monthly meeting of the Council of Deans

Council of Deans:

Chaired by provost; includes all deans and vice president for business and finance

6. Periodic meetings of cluster deans

Cluster deans:

Includes the executive deans of the three college clusters (arts and sciences colleges, professional colleges, and health sciences colleges) and the executive dean of the regional campuses

Planning and Implementation *(continued)*

7. Periodic meetings of department chairs

8. Continual, consistent reviews by OAA of unit and leadership performance

9. Periodic meetings of Faculty Council

Faculty Council:

Comprised of the 70 faculty members of the University Senate, representing faculty of the 18 colleges, the University Libraries, the military sciences, and the four regional campuses

10. Periodic meetings of the University Senate

University Senate:

Comprised of the Faculty Council, 26 representatives of the university administration, and 41 student representatives

APPENDIX XLIII

Degrees Conferred at

THE OHIO STATE UNIVERSITY
COMMENCEMENT CONVOCATION

March 16, 2008

COMMENCEMENT ADDRESS

Steven A. Davis

Steven A. Davis was elected chair of the board and chief executive officer of Bob Evans Farms, Inc., in 2006.

Before joining the company, Mr. Davis worked at Yum! Brands, Inc., where he had been president of Long John Silver's and A&W All-American Food Restaurants since 2002. Previously, he served in a variety of operations management and other executive positions in Yum! Brands' Pizza Hut division, including senior vice president of concept development, where his team introduced the Wing Street concept.

Before joining Pizza Hut in 1993, Mr. Davis was with Kraft General Foods for nine years. His last position with Kraft was as director of marketing for All American Gourmet. Earlier in his career, he held a series of brand management positions in Kraft's cheese business where he launched several successful new products and marketing campaigns.

Mr. Davis serves as a board member of the Arthur G. James Cancer Hospital and Richard J. Solove Research Institute Foundation. He is a member of the Columbus Partnership and Compete

Columbus, two organizations focused on economic development for the region. He is also a board member of the National Restaurant Association and the EMBARC Corp. (\$6.5 billion company), which provides local and long-distance voice, data, high-speed Internet, wireless, and entertainment services to customers in its serving areas. Mr. Davis was the 2007 chair for Operation Feed, which provides food for needy families in central Ohio. He served as chair of the board of Summerbridge Louisville educational assistance program from 2003 to 2006 and was a board member from 2000 to 2003 of Jirmer 12, a Dallas-based organization that provides assistance to lower-income children to attend college.

Black Enterprise Magazine 2005 named Mr. Davis one of the "75 Most Powerful Black Men in American Business."

He holds a master of business administration degree in marketing and finance from the University of Chicago and a bachelor of science in business administration from the University of Wisconsin at Milwaukee. Mr. Davis and his wife of 25 years, Lynnda, have three daughters and reside in Columbus.

RECIPIENTS OF HONORS

Roy G. Glauber

Doctor of Science

Nobel laureate Roy G. Glauber is Mallinckrodt Professor of Physics at Harvard University and adjunct professor of optical sciences at the University of Arizona.

A native of New York City, he was a member of the first graduating class of the Bronx High School of Science. He enrolled at Harvard in 1941, attending undergraduate classes until he was invited in 1944 to join the Theory Division of the Manhattan Project at Los Alamos, New Mexico, where, at the age of 18, he had the opportunity to work with Robert Oppenheimer, Richard Feynman, Neils Bohr II, and Hans Bethe. Following World War II, he returned to Harvard, receiving his BS in 1946 and his Ph.D. in 1949. He did post-doctoral work at Princeton's Institute for Advanced Study

and the Swiss Federal Institute of Technology in Zürich. After a year as a lecturer at the California Institute of Technology, he joined Harvard's physics faculty, becoming professor of physics in 1962 and Mallinckrodt Professor in 1976.

Professor Glauber's groundbreaking research on optical coherence and the behavior of light particles, first published in 1963, was recognized in 2005 when he was awarded half the Nobel Prize in Physics. He is also the recipient of the A.A. Michelson Prize of the Franklin Institute, the Max Born Award of the American Physical Society, an A. Von Humboldt Research Award, the Dennis Heineman Prize of the American Physical Society, and the Willis E. Lamb Medal for Laser Science and Quantum Optics.

Professor Glauber is also known for his work on high energy nuclear collision theory. He is the author of more than 120 articles in refereed journals and has served on the editorial board of the *Journal of Mathematical Physics and Nuclear Physics B*. He is a fellow of the National Academy of Science, the American Academy of Arts and Sciences, and the American Physical Society, and he is an honorary foreign member of the Royal Society of London and the New Zealand Academy of Sciences.

He has been a visiting professor or scientist at CERN in Geneva, the University of Leiden in Holland, the Collège de France in Paris, NORDITA in Denmark, and director of a session at the Enrico Fermi School in Varenna, Italy.

RECIPIENTS OF HONORS

Patricia Duke Robinson

Distinguished Service Award

Patricia Duke Robinson is president of the board of trustees for the Paul G. Duhr Foundation, which was established by and named for her father, founder of the lawn services company, ChemLawn.

Mrs. Robinson is a longtime supporter of The Ohio State University and currently serves on the university's foundation board. She is a member of the Library Renovation Campaign Committee and, with her husband, Thom, she has made a leadership gift to the William Orley Thompson Library renovation project. The Robinsons hosted a "Farewell Fiesta" to mark the

beginning of construction, an important milestone of the renovation.

A resident of Troy, Ohio, she also serves on The Ohio State University National Major Gift Council for Ohio's Miami Valley. She and her husband have lent their support to the Department of Athletics, where they established the Patricia A. and Thomas E. Robinson Athletic Scholarship Endowment Fund, and to the College of Veterinary Medicine, where they were instrumental in efforts to build a new veterinary medicine academic building. In addition, Mrs. Robinson participated in the "Experience Ohio State Focus Day" for women in 1997.

She is involved in a range of other community and philanthropic activities, including the Future Begins Today, a Troy-based last-dollar grant college assistance program that also offers academic and motivational programs for Troy elementary and junior high students. She is a member of the Miami County YMCA board of trustees.

Mrs. Robinson's honors include the Outstanding Philanthropists Award along with her husband from the National Society of Fund-Raising Executives, the Women of Excellence Award from the YWCA of Piqua, and the Friend of Community Colleges Award.

Thomas E. Robinson

Distinguished Service Award

Thomas E. Robinson retired in 1978 from Dinner Bell Foods, Inc., where he served as area sales manager of southwest Ohio.

A resident of Troy, Ohio, Mr. Robinson is an enthusiastic advocate for The Ohio State University with wide-ranging interests. He and his wife, Patricia, have worked tirelessly to generate support for the renovations of the William Orley Thompson Library and have made a generous lead gift to the effort. In addition, as avid Buckeye fans, he and his wife created the Thomas E. and Patricia A. Robinson

Athletic Scholarship Endowment Fund. The Robinsons were also instrumental in gaining support for the College of Veterinary Medicine Building Fund for a new academic building.

Mr. Robinson currently serves as chair of the Troy Foundation governing board. He also has served for seven years as a member of the Edison Community College foundation board, participating in major fund-raising efforts for the college. He is currently chair of the Acorn Society Foundation, a support group for the Troy Foundation, which serves the needs of Troy.

The Robinsons' community activities and support extend to the Upper Valley Hospital and regional hospitals in Cincinnati and Dayton, the Brukner Nature Center, and the Clear Creek Farm in Sidney.

Mr. Robinson attended Troy High School and joined the United States Marine Corps in 1949, serving two tours of duty before starting his business career in 1953.

In 1995, he and his wife received the Outstanding Philanthropists Award from the National Society of Fund-Raising Executives.

Integrated Biomedical Science Graduate Program
Dr. Norton H. Neff

Barbara Nicole Padgett, Fairfield
B.S.Mat.Sc.Eng., M.S.
Materials Science and Engineering
Dr. Rudolph G. Buchheit

Commencement Convocation, March 16, 2008

Rose E. Palumbo, Newport News, VA
B.S., M.S. (Virginia Polytechnic Institute and State University)

Plant Pathology
Dr. Guo-Liang Wang

Guangdong Pan, Highland Heights, KY
B.Engr. (Chengdu College of Geology)

M.S. (Chinese Academy of Sciences)
M.S. (University of Nebraska at Lincoln)

Electrical and Computer Engineering
Dr. Joel T. Johnson

Charles Robert Partridge, Newark
B.A.

Human Ecology
Dr. Stephen M. Gavazzi

Harisadhan Patra, Khatra Bankura, India

B.S. (Ali Yavar Jung National Institute for the Hearing Handicapped, Mumbai)

M.S. (All India Institute of Speech and Hearing)
Speech and Hearing Science
Dr. Lawrence L. Feth

Richard Scott Pearson, Plant City, FL

B.A. (Samford University)
M.B.A. (University of South Florida)

M.A.
Agricultural, Environmental and Development Economics
Dr. Claudio Gonzalez-Vega

Jim Yang Pee, Singapore, Singapore

B.S.Ch.E., M.S.
Civil Engineering
Dr. Linda K. Weavers

Tzu-Chin Martina Peng, Columbus

B.A. (Soochow University)
M.B.A. (State University of New York at Buffalo)
Human Ecology
Dr. Jonathan J. Fox

David Harper Phillips, Chillicothe

B.S.W.E., M.S.
Welding Engineering
Dr. Charles E. Albright

Gregory Anthony Polsinelli, McMechen, WV

B.S.(Honors) (Virginia Polytechnic Institute and State University)

M.S.
Ohio State Biochemistry Program
Dr. Ross E. Dalbey

David Joel Rabb, Worthington

B.S.E.E. (Ohio University)
M.S.
Electrical and Computer Engineering

Dr. Betty Lise Anderson

Carine Reveneau, Toulon sur Arroux, France

Bachelor's, Master's (Etablissement national d'enseignement superieur agronomique de Dijon)

M.S.
Ohio State University Nutrition
Dr. Jeffrey L. Firkins

Lana Juliette Rucks, Huber Heights

B.A. (Ohio Wesleyan University)

M.A. (University of Dayton)
M.A.
Psychology
Dr. Robert M. Arkin

Sanjay Sudam Sarang, Columbus

B.Ch.E. (University of Mumbai, India)

M.S. (University of Cincinnati)
Food, Agricultural and Biological Engineering
Dr. Sudhir K. Sastry

Jason Robert Schenk, Joliet, IL

B.S.I.E., Master's (University of Iowa)

Industrial and Systems Engineering
Dr. Theodore T. Allen
Dr. David D. Woods

Vinay Sharma, Kerala, India

B.Engr. (Birla Institute of Technology and Science)
Computer Science and Engineering

Erin Ney Sharp, Fort Lauderdale, FL

B.S. (Seton Hall University)
Chemistry
Dr. Terry A. Miller

Yuko Shiroyanagi, Tokyo, Japan

B.Engr., Master's (University of Tokyo)

M.S. (Southern Illinois University, Carbondale)
Physics
Dr. Thomas J. Gramila

Leigh Victoria Slauson, Hilliard

B.A. (Vanderbilt University)
M.Appl.Stat.
Education

Dr. Patricia A. Brosnan

Sama F. Sleiman, Columbus

B.S. (American University of Beirut)

M.S. (Université de Sherbrooke)
Molecular, Cellular, and Developmental Biology
Dr. Helen M. Chamberlin

Jitesh Anthony A. Scares, Mumbai, India

B.S. (Saint Xavier's College - Madurai Kamaraj University)

M.S. (University of Mumbai)
M.S.
Microbiology

Dr. Joseph A. Krzycki

Haiyan Song, Columbus

B.S., M.S. (Nankai University, Tianjin)
Ohio State Biochemistry Program

Dr. Ming-Daw Tsai

Evan Tennell Straub, Columbus

B.S. (Bowling Green State University)

M.A.
Education
Dr. Heather A. Davis

Sakthi Kumaran

Subburayalu, Madurai, India

B.S.Agr., M.S.Agr. (Tamil Nadu Agricultural University)

Soil Science
Dr. Brian K. Slater

Yohanes Sulaiman, Bandung, Indonesia

B.A. (University of Wisconsin - Madison)

M.A.
Political Science
Dr. John Mueller

Commencement Convocation, March 16, 2008

Wasim Akram Tarar,
Columbus
B.Engr. (National University of
Sciences and Technology,
Pakistan)
M.S.
Mechanical Engineering
Dr. Mo-How Herman Shen

Shih-Hsien Tseng, Taichung,
Taiwan, R.O.C.
B.S. (Yuan Ze University,
Chung-Li)
M.S.
*Industrial and Systems
Engineering*
Dr. Theodore T. Allen

Rebecca L. Twist, Beaverton,
OR
B.A. (Portland State
University)

Colleges of the Arts and Sciences

Executive Dean: Jacqueline I. Royster

The Colleges of the Arts and Sciences, a federation of five colleges, includes the College of the Arts, the College of Biological Sciences, the College of Humanities, the College of Mathematical and Physical Sciences, the College of Social and Behavioral Sciences, and Arts and Sciences students enrolled in interdisciplinary programs.

Bachelor of Arts

Alexsandra Adamovic, Warren
Nicholas Carl Agich, Bowling Green

with Honors in the Arts and Sciences

Besrat Gebrye Amare, Columbus

Cum Laude

Brian Christopher Andres, Bryan

Djeynaba Gatta Ba, Nouakchott, Mauritania

Amy Elizabeth Barnes, Westerville

Michael B. Becker, Columbus
Kaitlin Albright Beeble, Columbus

Lance Steven Born, Lewistown

Gregory Dale Celia, San Mateo, CA

Aaron James Cohen, Akron
Alejandro Feria-Arias, Tijuana, Mexico

Matthew J. Foss, Cuyahoga Falls

Sarah Rachel Friedman, Chagrin Falls

Jennifer Leanne Gable, Loveland

Magna Cum Laude with Honors in the Arts and Sciences

Ryan Jonathan Gale, Johnstown

Amanda Lynn Grabski, Westlake

Lisa Elizabeth Griffith, North Lima

Jonathan Robert Hanwell, Medina

Jonathan Andrew Hess, Newark

Jacob Whaley Howlett, Marietta

Summa Cum Laude

Andrew David Hyatt, Boulder Creek, CA

Rosalyn Jean Isreal, Gahanna

Azer V. Jalilov, Columbus
Eric Nathan Johnson, Boulder, CO

Sueyun Kang, Columbus
Meredith Young Lammers, Aurora

Magna Cum Laude with Honors in the Arts and Sciences

with Research Distinction in French
John Paul Langenbahn, Columbus

Joshua Wolfgang Leber, Seven Mile

Nayoung Lee, Frederick, MD
Evan Robertson Lloyd, Durham, NC

Colin Daniel Lyman, Kent
Cum Laude

Elizabeth Ann Merkel, Worthington

Ryan Patrick Moore, Dublin
Laura Rose Murphy, Hudson

Summa Cum Laude

Kelsey A. Pajak, Wooster
Stephen Michael Pitts, Canfield

Jennifer Michelle Rodock, Columbus

Feasal M. Rostom, Grove City
Taylor Francis Shaffer, Cortland

with Honors in the Arts and Sciences

Ryan Stuart Silverman, Akron
Glenn M. Stanley, Brunswick

Alison Ann Steedman, Columbus

Heather Marie Sweetser, Excelsior, MN

Summa Cum Laude with Honors in the Arts and Sciences

Jason Michael Thomas, Westerville

Megan Christine Verzella, Ashtabula

Magna Cum Laude
Nick Loren Verzilli, Poland

Elizabeth Anne Waild, Springfield

Joseph Robert Walter, Fort Recovery

Chelsea F. Watson, Steubenville

Katharine Lea Wenner, Bellevue

Brandon Tyler Worthington, Cincinnati

Summa Cum Laude

Jerry F. Zacharias, Marion
Weifei Zheng, Belpre

Magna Cum Laude with Honors in the Arts and Sciences

Bachelor of Science

Aaron Courtland Roberts, Conneaut

Associate of Arts

Elizabeth Ann Adams, Mansfield Campus
Halimo S. Ahmed, Newark Campus

David James Akers, Marion Campus

Anthony James Alfano, Newark Campus

Mahad Sulub Alinoor, Marion Campus

Samatar Sulub Alinoor, Marion Campus

Katherine Jams Allen, Newark Campus

Lakisha M. Allen, Mansfield Campus

Ethina Belinda Amer-Yahia, Marion Campus

Bo Michael Amos, Mansfield Campus

Rachel McEneaney Antes, Newark Campus

Gyasi Dreamgirl Atkins, Marion Campus

Matthew Marvin Ayers, Mansfield Campus

Cody A. Barcroft, Mansfield Campus

Christine Ann Barr, Mansfield Campus

Michael C. Bear, Mansfield Campus

Nick P. Bendure, Newark Campus

Danielle R. Blackburn, Newark Campus

Angelo Salvatore Boccia, Marion Campus

Nikkala Maria Briggs, Marion Campus

Kaitlyn A. Bull, Marion Campus

Christopher Powell Bullock, Newark Campus

Seth D. Channing, Mansfield Campus

Katie Elizabeth Clark, Mansfield Campus

Kelly Gene Cochran, Mansfield Campus

Erin Graham Combs, Marion Campus

Matthew Christopher Coutts, Marion Campus

Stephanie Grace Cramer, Marion Campus

Matthew Thomas Crowley, Mansfield Campus

Commencement Convocation, March 16, 2008

Dublin
Jennifer Renee Proffitt,
Nashport
Eric M. Slezak, Columbus
Summa Cum Laude
Alma Emily Sumajin, Sylvania
Magna Cum Laude
Nicholas Tyler Trouw,
Highland Heights

Bachelor of Fine Arts

Daniel David Alvarez, Mexico
City, Mexico
Robert A. D. Amos,
Cambridge
Lauren Marie Bowers, Mentor
Cum Laude
Leigh Christine Cordetti,
Columbus
Jennifer Lynn Gillette,
Miramar, FL
Summa Cum Laude
Stephen Michael Goldstein,
Bexley
Joseph Thomas Handzel,
Fairview Park
Cum Laude
Noah John Hart, Carmel, IN
Brittany Ola Long,
Reynoldsburg
Eileen June McDonough, Bay
Village
Kevin Eugene Meyer, Toledo
Kyle Matthew Miller, West
Chester
Racquel Tiffany Oroasco,
Toledo
Ryan Timothy Podesta, Brick,
NJ
Cum Laude
with Distinction in Art
Emilee Claire Rutledge,
Bergholz
Cum Laude
Alex Morgan Walp, Perrysburg
Cum Laude
with Distinction in Art

Bachelor of Music

Jenna Kamrass Morvay,
Worthington
Cum Laude

**Bachelor of Music
Education**

Daniel Patrick Bey, Johnstown
Bethany Lee Hoch, Westerville

**College of Biological
Sciences**

Dean: Joan M. Herbers

Bachelor of Arts

Aubrey Virginia Bateman,
Cincinnati
Ashley Marie Klinker,
Worthington
Adam Michael Lundy,
Edgerton
William W. Reeder, Lima
Kimberly Jan Vogel, Dayton

Bachelor of Science

Megan Marie Andonian,
Olmsted Falls
Ashley Nicole Ankney,
Columbus
Anthony Joseph Archual,
North Canton
Laura Jo Bacak, Port Clinton
Alexander James Bailey,
Columbus
Cum Laude
*with Honors in the Arts and
Sciences*
Sarah Ann Baker, Austintown
Kelly Elizabeth Basham,
Blacklick
Nicolas Bellizzi, Westerville

February 1, 2008 meeting, Board of Trustees

April 4, 2008 meeting, Board of Trustees

The Chairman, Dr. Cloyd, called the meeting of the Board of Trustees to order on Thursday, April 3, 2008, at 1:10pm. He requested the Secretary to call the roll.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, John D. Ong, Douglas G. Borrer, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, Robert H. Schottenstein, Alan W. Brass, Algenon L. Marbley, Ronald A. Ratner and Debra J. Van Camp.

Dr. Cloyd:

So that we are able to conduct the business of this meeting in an orderly fashion, I ask that the ringers on all cell phones and other communication devices be turned off at this time, and I would ask that all members of the audience observe rules of the quorum proper to conduct the business at hand.

In a moment we will be taking a roll call vote to go into Executive Session. The Board will reconvene this afternoon at 3:30 pm. I hereby move that the Board recess into Executive Session for the purposes of considering personnel matters regarding appointments and compensation and to discuss matters required to be kept confidential by State Statute.

Upon motion of Dr. Cloyd, seconded by Ambassador Ong, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Ong, Borrer, O'Dell, Shumate, Hicks, Schottenstein, Brass, Marbley and Ratner.

Dr. Cloyd reconvened the meeting on Thursday, April 3, 2008, at 3:47pm.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, John D. Ong, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, Robert H. Schottenstein, Alan W. Brass, Algenon L. Marbley, Ronald A. Ratner, Christopher Alvarez-Breckenridge and Debra J. Van Camp.

MEDICAL CENTER MASTER SPACE PLAN

Dr. Cloyd:

Good afternoon everyone. So that we are able to conduct the business of this meeting in an orderly fashion, I would ask that all ringers on cell phones and other communication devices be turned off at this time, and I would ask that all members of the audience observe the rules of the quorum proper to conduct the business at hand.

We wanted to bring the full Board together today to hear the Medical Center Master Space Plan. Alan Brass, chair of the Medical Affairs Committee, has been working closely with Bill Shkurti and Chip Souba on this plan, so let me call on Alan to see if he has any remarks and to introduce the presentation, Mr. Brass.

Mr. Brass:

Thank you Mr. Chairman, and good afternoon everyone. It is an exciting day as it relates to bringing forward what I am going to call a revised plan. A little while back we decided to step back as a Board and spend some time with Dr. Souba, Mr. Shkurti, myself and many, many others, to take a hard look at this strategic plan that is making

April 4, 2008 meeting, Board of Trustees

up the master facility plan and master strategic plan for our Medical Center here at The Ohio State University. And to be honest with you I'm glad we did, because it is giving us an additional comfort zone along with our Medical Center partners to really poke at this thing and to make sure that we are very comfortable. The reason that is important is this will be the largest facility construction program, if approved, that The Ohio State University has undertaken. In this day in age when healthcare and academic medical centers really have to make sure they have all the T's crossed and all the I's dotted for a plan of this size to be implemented correctly, I think it is time well spent.

A couple things are very important. The program plan and the strategic plan deals not only with the areas of medical importance, and a prioritization of those, but also it deals with the technology. It deals with the facility issues. It deals with the financial issues, and we also have to be cognizant of the human resources issues. All five piece parts make up this plan. If one of them is weak the other four will be weak.

I am happy to tell you that Chip Souba and Bill Shkurti have done a wonderful job pulling together all the piece parts within the University and are very much united on the plan we are bringing forward. That is an important statement. I also want to make sure the Board understands what we are talking about today, to feel comfortable with it, and what we are not talking about today. Today the only thing that is going forward for endorsement is going to be \$6.5 million that is part of the ordinary routine capital processes that go on in the Medical Center and \$1 million expenditure for electrophysiology. Bill Shkurti will talk about that later.

At the June Board meeting, that is when we will really have to make sure we are absolutely comfortable with this plan, and that's when we will request between \$100 million and \$110 million to really take this master plan forward. That is important because we are not quite done with everything we have yet to do. We will talk more about what has yet to be done, but a number of sensitivity analysis has yet to be done, and that is going to require additional time because we want to make sure it is done right.

We have used two consultants on this program plan, and they have done a very nice job for us. One is Deloitte, and Jeff Christoff I think is here, sitting over there. Thank you very much Jeff. The other one is Hammes, and Steve Cronin is here, right there behind Jeff. Thank you Steve. We are going to hear from them in June as we bring forward some final plans but I wanted them to listen in to where we are right now as you are being brought up to speed as well with the master program plan. We have activated the project management office, and you will meet the individuals a little later as part of the presentation, who are helping us manage this project because of its size.

I would like to just take a second before I call on our President to say a few words, and recap the eight or nine issues that were really critical to us as Board members, that we had to go back and take another look at. We wanted to make sure that we revalidated the numbers and the strategic plan. We needed to make sure that the strategic plan was lined up correctly, that we had the right elements in it - the volumes. We wanted to take a look both from an external point of view and an internal point of view. We needed to make sure the alignment of priorities was correct. We wanted to make sure what the unresolved issues were, that we could identify those and that we could bring resolution to those. We needed to make sure that the component part of the ambulatory healthcare delivery was in this plan. We needed to finalize the philanthropic support for this plan as to what magnitude a dollar would be part thereof. We needed to make sure there was enough dollars for capital equipment not only for the routine capital equipment that we need to operate the Medical Center every year, but also the new capital equipment we have built into this capital project to make sure technology was being brought forward correctly. We needed to make sure what the circuit breakers would be in the event that some of our analysis was wrong, or something happened over this period of time, and the revenue dollars were not as

April 4, 2008 meeting, Board of Trustees

available as we might have thought. Where were the circuit breakers, when do we have to trigger them, and what can we trigger.

We needed to make sure we knew what financial parameters were absolutely critical for us to monitor, to make sure we in fact were staying very steadfast as it relates to our financial capability - EBIDA or days cash on hand, or liquid days cash on hand, or debt to cap ratios, and those type of things. We needed to make absolutely sure that the goals of the Medical Center were lined up with the President's new goals for the University, and we needed to be able to articulate what is not in this plan, so we all understand that. Those were the things that we have been exploring. Those are the things that Dr. Souba, Bill Shkurti and others have really focused on so that we as a Board are comfortable with the answers.

This plan takes us from 2008 to 2014. I call it phase one, and then again from 2014 to 2016. This is a very large capital expenditure. In addition to those dollars that are being referenced today, there are ongoing capital dollars to keep the Medical Center going. One of the things we wanted to explore was - is there enough routine capital dollars to keep everything going in light of the bed crunch and other demands on the current operation. So that was another issue that we have looked into. I will tell you one thing that I did find, and I was very pleased with was that we have no auction rate bonds - thank you Bill Shkurti - to deal with in the credit market, and that we do not have to worry about that. And the other thing that our President and others are working on is to make sure we have the right leadership going forward.

So with that I am going to call on our President to say a few words, and then kick it back to me for a few other comments.

President Gee:

Thank you very much Mr. Brass. Let me just note to the members of the Board that Alan Brass took on this assignment, to chair our committee, not knowing that he was going to become a full time employee of the University, and he has done so with great intelligence, I might add, because I can assure you that he has as sharp a pencil as anyone could possibly have in academic administration of hospitals and academic medical centers. We felt the sharpness of that pencil and we have responded. I can remember being asked at my first official Board meeting, six months ago, if you can believe that, what I thought of this plan. We were moving down the road to develop this plan and - although I am enthusiastic about our academic Medical Center - I raised the question which was that I wanted to make certain this was aligned with the priorities of the institution. That we inadvertently were not going to become Johns Hopkins. Great University as you well know, Johns Hopkins is a huge academic medical center with a very small academic component. We are blessed, by the way, to have a \$4 billion budget, half of which is our academic Medical Center which means that we are more balanced than most. But we can quickly lose that balance and we could also quickly lose the momentum of the University if inadvertently we make decisions that would divert our resources, soak up our resources or not wisely use them. That is the reason we went back to recalibrate this plan to make certain that is the case. As you well know we have talked on other occasions about the continuing need to support our undergraduate programs, build new residence halls, renovate; we have talked about the need to support The Colleges of the Arts and Sciences, the heart of this institution; we have talked about the passion that we have for our graduate education; the need for us to make certain that we create the kind of graduate educational programs that are compelling and that will bring us into the forefront; and we need to do that in the context of having a great academic Medical Center. Today I can tell you with all confidence that we will meet all of those goals and still have the ability to be able to move forward with this plan, and that is something that I say to each member of the Board, as a very important component of where we are and what we are about. This is a tribute to the hard work of Alan Brass, Bill Shkurti, Chip Souba and all of our team,

April 4, 2008 meeting, Board of Trustees

and I not only endorse this plan, I believe it is now essential for us in terms of the context for the University to move forward.

Mr. Brass:

Thank you Mr. President. I am going to turn it over to the people who have done all the heavy lifting, and that is Chip Souba and Bill Shkurti. We have an outlined program which you will see up on the screen. At this time, Chip, would you take it away please?

Dr. Souba, Jr:

Thank you very much Mr. Brass, and good afternoon ladies and gentlemen. We appreciate your being here today to hear about what we think is a very exciting part of our future. I am going to spend the next few minutes talking about strategic alignment, and then you will hear from some other members of the team. Recall that our overarching strategic goal, which is listed here, is to become a top 20 academic medical center by the year 2015, and we will do that through advancements in research education and patient care. An integral strategic component of that overarching goal is for our cancer program to become a top ten NCI funded cancer institute, and you will recall that those two complimentary goals are articulated in the memo sent out by Dr. Cloud to the Medical Center and to the Board last summer.

Why top 20? Why do we put so much importance on moving into that elite group of academic medical centers? The way we think about the value proposition is that rankings and reputation matter. They matter because they attract talented people, and talented people are key because they drive excellence in learning, discovery and healing. But if this triangulation, if you will, is the only way we think about the value proposition we would say it is necessary, but not sufficient in and of itself, the real reason for wanting to be excellent in learning, discovering and healing is because it enhances our ability to improve people's lives. Indeed that is our mission, that is the reason we come to work each day, and it is the ability to improve the lives of other people that makes work more fun and more fulfilling, and increases the commitment of our people, and when people are more committed we are able to attract the right people with the right values and, yet indeed, further increase our commitment to excellence in teaching, research and patient care.

This plan is, we believe, supportive of the overarching University plans and goals. It is consistent with the President's six strategic goals of forging one University, putting students first, ensuring faculty success, recasting the research agenda, supporting our communities and simplifying our systems and structures, and it is aligned with the academic plan which is designed to move the University into the very top tier of public research universities. The plan guides all University priorities and an essential compliment of the plan, recognized that the Medical Center must become top tier. The plan is complex and it involves these five fundamental components: programmatic component, a technology plan, a financial plan, a human resources plan, what we will focus on today is the facilities plan, and that is what my colleagues will share with you over the next 20 to 30 minutes. We want to emphasize to the Board and to the audience that we are in agreement and in alignment. The plan fully integrates the three missions of education, research and patient care. We will move forward with a single balance sheet, and one strategic plan. Again this is grounded in the University's academic plan, and guided by the President's six strategic principles. It is aligned with the Medical Center's six key results areas. Those are the six performance metric areas that we pay attention to on a regular basis. It is also aligned with the governance changes, the bond rating, the financial ratio targets, and the University capital planning. It has been inclusive of University leaders, Boards, Board members and Medical Center leaders, and I am entirely comfortable sharing with the Board that there is 100% consensus agreement and alignment amongst the executive sponsors and we have had external validation from the consultants in the audience as well. I will finish by just showing a copy of the memo that the executive sponsors sent to President Gee

April 4, 2008 meeting, Board of Trustees

last week. The memo indicates that we are in full agreement about the priorities and the commitments in this revised version, and moving forward as a single unified front.

It is now my pleasure to introduce to you two key members of our team; Mr. Jay Kasey, who is the interim project director, and Mr. Paul Lentz, who is the lead person from our facilities operations and development group. They will discuss with you the revised facility plan.

Mr. Kasey: [PowerPoint presentation]

Thank you Chip, I am Jay Kasey. Paul Lentz and I are here representing the team of people that we call the master space plan team. We are excited about the opportunity to talk to you and we are equally excited about the next meeting we have because we think that you will be even more pleased with the results that we will be able to bring you as we put our component pieces together. Before I leave this slide, I want to mention again the executive sponsors that you see up there. Those people have brought us together and have been very giving with their time, their talent and their direction. That is one of the reasons we are aligned and the team has had good steady progress over the last three or four months since we have been together meeting.

We are going to take about 10 to 15 minutes to walk through the major components of the plan. I want to give you a high level cheat sheet here in that EOC refers to those parts of the plan that are located east of Cannon Drive. Most of you are familiar with the two towers and what we call the diagnostic and treatment spine, which were original components of the original project. Those are all located east of Cannon. On the west of Cannon (WOC), this plan has expanded to locate about 185 thousand square feet of primarily outpatient services and exclusively cancer services. So as we go through the plan here and the component parts you will understand that east of Cannon and west of Cannon represent different elements of the plan.

So here you see, primarily in blue, the new additions that are anticipated east of Cannon and west of Cannon. These additions will be made over a period of years from the component parts that are coming online in these next few months, up until our vision of the final components in 2016. The majority of the plan that we will be talking about today though will be completed in 2014, and that includes the inpatient bed towers and the diagnostic and treatment spine. This is a plan that impacts the entire medical campus. It is complex. It involves our relationship back to north campus, or the academic campus, and all those parts will be discussed this month and in the coming months.

The parts of the plan in the early years include the completion of three elements that you are very familiar with, the Ross Heart Hospital expansion, our Magnetic Resonance Imaging (MRI) expansion, and the diagnostic health and faculty offices that are being completed on 12th Avenue right now. These parts of the plan are all enabling portions of the plan that allow us to continue to build in the footprint of the site selected for the major part of the plan. In 2009 there are a number of other parts of the plan that will be initiated. You see them listed here, and I won't walk through all of them, but just be aware that before we can start digging the hole that will be the site for the east of Cannon addition, we have to prepare numerous buildings and infrastructure that will be necessary to support the new additions. These elements started in 2009 will allow us to start the plan in full.

So finally in 2010 you see that the cancer and critical care towers, that element of the plan would start digging a hole in the ground to be built, and we would be adding another 1,000 car parking garage in order to facilitate the site and prepare it for the congestion that construction will dictate.

By 2014 the elements of the plan located east of Cannon and those include primarily the cancer and critical care towers, and a total of 795 thousand square feet should be

completed. You see that in cancer, we have a total of 252 new beds, and in critical care we are forecasting a total of 132 new beds, each in their towers, and each above a spine of ancillary and support services that you see detailed here. This portion of the plan then will allow the James Cancer Hospital to move in total to this site, and for us to expand our critical care footprint, which are the two inpatient elements of the medical center most in need today of additional space and anticipated for more space in the future.

By 2014 the site west of Cannon, which I mentioned to you was primarily cancer ambulatory space, will be completed and house the items you see there. The greatest use of that space is in outpatient cancer care and includes five modules of cancer care to be centralized directly adjacent to the inpatient unit and tied together by a bridge over Cannon Drive.

Now I want to take a moment and make sure you understand the plan that will be constructed downstream, and I will show you the timetable and the schedule for that in just a moment but those will be located west of Cannon and some sites east of Cannon anticipated to be brought online in 2016. At that point, the east of Cannon project will allow the same standard of quality and current comforts that you will find in the new buildings to be arranged in the old hospital buildings also, because we still will run almost 1000 beds in the old hospital buildings. West of Cannon will pick up component parts, major component parts of clinical care and support you see there, including clinical trials offices, radiation oncology, and dry and wet labs for research.

This is a slide I put in so I could take just a moment to mention to you, and remind myself, this is not a typical hospital expansion, this is an expansion of an academic medical center. I know you are aware of that, but it includes space that a typical hospital would not build, but it is exciting to us because they support the education and research that we are becoming so well-known and nationally acclaimed for. The cost of these facilities are a bit more expensive because you have general space in the buildings to support academics and research, and that allows me to then go to this slide which is the cost and budget for the phases of the project to be completed by 2014. See the initial phases of the project that are nearing completion at \$76 million and then the component parts to be located east of Cannon and west of Cannon, the primary inpatient components and some ambulatory services clustered east of Cannon, with all cancer ambulatory services west of Cannon. The total budget for this anticipated part of the project is \$1 billion and includes philanthropy. That number includes philanthropy, but there is another component part, a major component part anticipated by 2016, and we want to make sure you understand that we would start the design features of both the 2014 components and the 2016 components upon approval by you, anticipated and hoped for at the June meeting. We do the design for the 2016 portion of the plan, only to the extent that we understand the adjacencies and the infrastructure needs, and how those portions of the plan would tie back to the earlier portions of the plan. We would then go on hold for the full design and construction of those portions of the plan the potential \$3 million to \$4 million portions of the plan, and pick that design back up around the end of 2010, after we have shown that we have met the criteria and the benchmarks you have set for us for the earlier and major portions of the inpatient plan. I want you to understand that we would do initial design for the entire project, and we will tell you about the cost increment of that, but that we would not fully implement that design or go back to the design until later in the project.

There has been talk in the past and we have an obligation, we believe, to talk to you about how we would litigate the risk of this plan. We have put together a list of what we believe are difficult and not recommended but potential circuit breakers, if we were not on plan later in the development of the project. You see here that there are elements of the project that we could hold back or discontinue, and add later if we were meeting the criteria that you will be expecting us to show you as we get into the plan. The final decision on these elements do not have to be made until mid-2010, and so next month

April 4, 2008 meeting, Board of Trustees

when we come to you, we will be coming to you and anticipating you approving the entire plan knowing that later on you can pull us back if we are not meeting the goals. In a similar way there are elements of the plan that we have not been aggressive on, we have put in 2016 or we simply don't think we need all the capacity the plan will allow us that we can fund, at an earlier date, if our volumes or sources of revenue are found to fund them at an earlier date, and you see this is what we call the accelerated circuit breakers. Again we would have to make a decision about these sometime in 2010 if we want them to come forward and be delivered by 2014.

This is a general project schedule. You see a number of the bars for this project starting the blue design features by mid-2008, that is in time for the June Board meeting. If we get the go ahead we would start the design features for all these elements of the plan this summer. All of these move forward at a different pace, some of these are enabling projects so that the 2014 date for the east of Cannon cancer and critical care beds can be completed. You also see at the bottom of this schedule the west of Cannon portion, the final 2016 portion would start again later in the project.

I also want to mention to you that there are elements that are key to our growth, to meeting our plan design that is not included in the master space plan. These elements will be brought to you individually and at different times, some of them even at this meeting, but these elements are to be funded outside the master space plan. They include our ambulatory care plan, and the three elements of that that we have in planning are to be brought forward for approval. The build-out of the basic research tower and those three floors are at approximately \$8 million per floor. The EP labs are being brought forward earlier and outside the plan because of our accelerated and very positive growth in our cardiology plan. And then finally to let you know that the financial plan for the Medical Center still anticipates about \$80 million every year even during the building of the facility to be used for what we call gap strategies and annual capital, routine capital projects. Gap strategies could include trying to make more beds available sooner as we try to bridge ourselves between our existing beds today and the delivery of new towers in 2014. So today we are here to ask, and I know Bill Shkurti will be putting before you requests for two elements of the plan to receive initial funding. That is phase one infrastructure portion of the plan. We need about \$3 million to continue and complete the design of the east of Cannon hospital continual refinement. We need to stay on track about \$3.5 million to complete the schematic design, that is just schematic design, and then all other remaining master space plan projects. We are anticipating bringing back to you, following a full review by our team and the Deloitte and Hammes team, a recommendation in June, and just a note to make sure that you understand that that would be a recommendation to allow us to go into full design and there would be further approvals required before we would approach construction. With that I think we are ready to turn over to the financial plan.

Mr. Wexner:

Alan when they pad the costs, I assume those are all estimated costs in today's dollars?

Mr. Brass:

That is correct. There are two parts to this thing. Part number one is when you take a look at the 2008 to 2016 estimation of costs, that is our best guess based on the perk chart that you saw up there. The second part of this is assuming that we go forward with \$6.5 million and then the \$100 million. The \$6.5 million allows our staff to take the next step forward to check those blueprints. We just have to make sure that it is the right thing to do, in the right locations, and the right size, and then we get into the schematics. And the other thing that was important to highlight is the fact that there is about a \$70 million to \$80 million bill every year to keep the capital going at the Medical Center that is part of the routine project. The new capital equipment that is needed within the big project is part of that project. So it is important to know we are

April 4, 2008 meeting, Board of Trustees

not stealing from Peter to give to Paul as part of this project. The project stands on its own, here is the cost, here is our best guess right now as to the \$1 billion or \$1.4 billion depending on how you look at it. It is our best guess right now of all inclusive costs.

Go ahead Bill; I am sure you are going to get into a number of these things for us here.

Mr. Shkurti:

Thank you Mr. Chairman. The next element of our presentation deals with the integrated financial plan and accompanying me is John Stone, who is the Chief Financial Officer for the Medical Center, and I am going to turn the microphone over to John in just a minute. I just want to emphasize four things as we get started. First of all this is still a work in progress regarding integrated financial plan, but we will have a finalized plan recommended for you that we will send out before the June Board meeting that you will be able to review, and you will also have the Hammes and the Deloitte reviews on that. Secondly, the financial goals that John will talk about regarding operating margin, debt coverage and cash on hand are in alignment with the University's financial goals and, in fact, are explicitly referenced in the five-year financial goals that we are asking the Fiscal Affairs Committee to review tomorrow as a second reading and we will be asking to have the Board approve in June, so we are in full alignment in that regard. I forget if President Gee or Mr. Brass mentioned, the Medical Center counts for almost half of the University's finances, so it is important, that the two are aligned to work together, and they are. Third point that I would make is the cash on hand is an important measure of financial strength and stability but is not the only one, and the relationship between cash and debt and operating margin is important and John will get into that in a minute. The fourth and final point I want to make is that the overall finances of the Medical Center, that includes the Health System, right now are very strong. The key will be, we want to make sure they stay strong in what will be a very unstable environment in the years ahead, and the project is designed to do that. So at this point I will turn the microphone over to my colleague, John Stone.

Mr. Stone:

Thanks Bill, I just want to spend a minute with you today. We are still in the process of putting the plan together, but I thought I would share with you again the tenacity behind that plan, what drives that plan as we put it together so that when you see it in June you will be able to relate it to all the detail behind it and how we try to address it within the context of the strategic plan. You can see here again why we need a strong margin, none of this should be a surprise to you, we want to invest in research, patient care and education as our three mission areas. As Mr. Brass mentioned, every year we invest about \$73 million in this current year, in routine capital and that would be an ongoing assumption within the plan. We would also continue to invest in our signature programs, our faculty recruitments, our program growth and our research growth that fall under the strategic initiatives. Again this year it is about \$66 million and we expect that to be greater each year and that will be built in the plan. Again all these are outside the master facility plan. These will be some of the commitments that we will put in here separate from the master facility plan, so again we are accounting for everything.

The other part is we want to make sure that the plan shows we have the capacity and the long term debt. As we have talked about, we continue to grow our cash reserves about \$20 million to \$30 million a year. We can expect that to be built into the plan. I will spend a minute on that. We continually want to present a strong financial position to our donors so that we can support the development plan and the development plan has a good basis to go out and raise funds. And, finally and certainly one of the most important is that we want to maintain the University's credit rating of a double A which again is critical in the cost of capital.

April 4, 2008 meeting, Board of Trustees

Just talking a minute about the targets, and why we set the targets. Certainly the first one is to develop a sufficient cash fold to support the strategic plan, the second is built around to maintain a strong credit profile within the context of the University which is important, and third is the targets set provide the Board to hold management accountable. We report on those every month to give you an idea how we are performing. You can monitor our performance management with those targets.

The three targets that we have set, the three overriding targets as Mr. Shkurti mentioned, are our operating EBIDIA margins - our target in the long range financial plan will be about 12% each year, we want to continue to grow our days cash on hand between three to five days, and we also want to make sure our debt service coverage is greater than four times as we put this plan together. Those are some of the basic principles behind the plan, as we put the plan together. Just to share with you again a couple other items as we are putting the plan together. I have not shared this before, this is a new chart that you have not seen. This is not in our days cash on hand, this is the College of Medicine and Office of Health Sciences fund balances. When we do our days cash on hand we report it and do our comparisons, it is against other health systems, but on top of the health systems, keep in mind, is the rest of the Medical Center which is The College of Medicine, Office of Health Sciences. We have at the end of 2007 in our endowment fund, \$258 million and in our general funds about \$107 million. This is just to share with you numbers that sit in the University as part of what we consider the Medical Center assets.

Again just to hit on the three targets that we have set to give you a little historical perspective, as you can see in the operating EBIDA margin, we have had tremendous growth and success. We are projecting out at the end of this year to be at about 12.2%, as a margin and that would be somewhere in the neighborhood of \$180 million in our operating EBIDA dollars. Just to share with you again the percentiles, we compare ourselves to a database of 31 other similar academic medical centers in the country. To give you an idea of some that are in that 31: Michigan, Hopkins, University of California San Francisco, and Harvard, just to name a few. So we have taken the top academic medical centers, we also have Big Ten schools, Wisconsin and Penn State in this also, and that is how we do our comparison now. Those percentiles then are compared to those 31 hospitals. As you can see in our EBIDA margin, we are approaching the 75th percentile, and we feel very good about where we are from at least on an operating perspective.

On the days cash on hand again, we have had a lot of discussions in the past, and it continues to grow as you can see. We have gone from about in absolute dollars, the green line, about \$100 million to about \$200 million over the last four years. Again that is the green line, and the numbers are on the left. From a day's cash on hand we continue to grow. We have grown to better than four days per year and at the end of this year we project to be at about 51.7 days. As you can see that is one of our areas that we have discussed a lot compared to our peers, we are not at the same level. Our goal is certainly to get to the 50th percentile and, I think, the plan will show that we will get within the context of the master facility plan also by the year 2014 to 2016, and we are still working on that number.

Finally debt service coverage - very strong debt service coverage. We are off the chart compared to our peers. That is really related to two things. One is we are doing very well from our operating EBIDA margin, and number two we are not very highly leveraged today, which is good news because it gives us the opportunity to borrow and be able to sustain that borrowing. Those are just three of our key targets to give you some historical perspective of where we have gotten to today.

Again, just in the plan, as we build the plan, we are building it around assumptions, volume assumptions, inpatient/outpatient assumptions, rates, rate increases in the health plans, and the government payers, Medicare and Medicaid, and certainly then an inflation of our expenses and labor supplies and other expenses. So as we build

April 4, 2008 meeting, Board of Trustees

this plan we will have assumptions in all those different areas. Again, we will use those key financial ratios as we build the plan. I mentioned the three key ones; we certainly have others like days in AR, and long-term debt to capitalization, as we build the plan. They will all be included in the plan. Also as we are working on the plan and putting the plan together, management has to really keep its eyes on the issues we have on a day-to-day basis and understand those issues. So as we are building the plan we continue to look at the signature plan performance that will impact the plan. We dig into all the operational issues and efficiencies, looking at how well we move the patient through the system, the cost of that, productivity improvement, non-labor initiatives, particularly supplies and also continuing to work with OSUP and the College of Medicine on initiatives - all are being addressed in the plan. We will continue to look at the increased activity, bed gap strategy, and again that is really talking about finding additional beds between now and the year 2014 to handle the volume that we are projecting and how we can add some beds to the organization in the interim. Our ambulatory strategies that are going to be discussed a little later, 23 North, and others, will be included in the plan. Again, looking at other initiatives, we get more aggressive with contracting with our peers, and our peer mix is always a challenge. It is a challenge nationally and certainly where we are going to be with the development program and how many dollars we can put into plan to support it from development. All those initiatives are going to be included as we weigh out the financial plan.

Just to share with you where we are at, we have completed the baseline. The baseline plan includes what we call organic volume assumptions, which is just a growth in population, the growth in the aging of the population, and also it incorporates revenue and expense assumptions. We are in the process of adding to the baseline our additional growth based on our faculty recruitments, our strategic planning process, and our signature programs. We are also adding the master facility plan cost, the \$1 billion that you have seen and adding the debt to that, so we are in the process of doing that and should have that done by the middle of May. We are also going to be adding the ambulatory strategy plan and incorporating the bed gap strategy that I mentioned earlier. We will apply our management interventions and initiatives to it. We will do a lot of sensitivity analysis and then we will do the final executive review and have Deloitte's comments and Hammes' comments hopefully all completed to present to you by the June Board meeting. And that is where we are at with the financial plan today.

Mr. Shkurti:

Thank you John.

The next item I am going to turn to is called items of continued interest, a narrative that is more specific, and the purpose of this is as we have talked about this project over the last year there have been a lot of questions Board members have raised, there have been questions we have asked ourselves. This is a way of keeping them in front of us and giving you a sense of what the responses are. You will notice in some cases we have an answer already, in others we know we need to have an answer to you before asking you to approve the next step in June. There are four areas as I mentioned. I will not go over every one of those in the interest of time but rather hit a highlight of a point or two under each one of them.

In terms of alignment, as Dr. Souba mentioned earlier, the executive sponsors are in alignment. We sent that memo to President Gee because that was a major shortcoming in the plan initially. Also at this point we want to thank the other three members of the executive sponsors: Dave Schuller, Pete Geier and Chris Culley, who have also been very helpful in this process. If you may recall, the development target was somewhat elusive in our earlier discussions. We went through a major set of discussions and also involved our new Senior Vice President for Development, Peter Weiler, to make sure we were all in agreement as to what that appropriate target is,

April 4, 2008 meeting, Board of Trustees

and that target is \$75 million between now and 2014. So we will be gearing our financial plans on that and tying fundraising to specific areas.

If we go next to the project management area, one of the questions that kept coming up, and I think appropriately, what is in the project and what is out? As Jay Kasey laid out for you, you first had a list of all the elements that are defined as being in the project budget, that is the \$1 billion envelope, and then there are other elements that are consistent with the plan, but are not being funded out of the project. He showed you a slide that is also in this document as attachment four of some other projects that are related to this - for example, the electrocardiophysiology labs. Those are being funded from sources out of the project and we are identifying those. Before you are asked to vote on any of those, we will show you what the sources are, so I think we have addressed the what's in and what's out problems.

If you go next to the business plan, the integrated business plan, one of the issues again that has been a source of questions, and appropriately so, are cash balances and cash resources. John Stone addressed that in his presentation, and I would emphasize the point John made. It is appropriate to look at the cash balances and the health system because a lot of this is a construction of clinical facilities, but we also want to make sure everyone understands there are also significant cash balances in the College of Medicine. There is also significant endowment in the College of Medicine, and we would not spend down the endowment obviously, but that does give some flexibility for the portion of this project that is related to research facilities. That in turn reflects the academic mission of those units so that our cash situation is a good one right now.

One of the other elements in the business plan is the question that has come up, what about routine capital and what about movable equipment? Those are now all cost out and are provided as part of our integrated financial plan. And, as John mentioned and also as Mr. Brass mentioned, this is also built into the integrated financial plan - about \$80 million per year of routine capital. This has been pretty much the characteristic for the last several years so we think we have the routine capital covered, the moveable equipment covered, and the costs of the project covered.

Finally in the risk management area, because this is an extremely important area, no matter how good our projections are, we will face an environment more likely than not when these projects move forward. That will be somewhat different in some way than what it is today because of changes in technology, changes in the economic environment or changes in academic medicine. We have tried to accommodate that in our planning and the chart that Jay Kasey went over with you and what we are calling circuit breakers is an important part of that. The bottom line and what that chart means is that three years from now, after a lot of the design work has gone on, but before we go to construction of the hospital project, we will have a chance to take a look at where we are and to make modifications if we need to. We can slow down parts of this project, speed up parts of this project, depending on what the needs are at that time. I think that is an important part of a risk management study.

The final thing I would mention in regards to risk management is, you will see in the memo, it refers to the consulting work Deloitte and Hammes will do. We think this will be as helpful as it was when they did it initially. We are labeling what Deloitte is doing as read and comment, and the reason we are doing that is because Deloitte is also our auditors. To preserve the independence of the auditors, the auditors do not want to be reviewing consulting work that Deloitte has been doing because then they are reviewing themselves. So the way we have worked this out is Deloitte consultants will be able to read and comment on what we are doing, but they will not be telling us what to do. It will be clear enough from the report what it is we are doing that makes sense and what is not. We just have to be very careful to make sure we keep that line between Deloitte the auditors and Deloitte the consultants a clear one. I am comfortable we are going to be able to do that.

In summary, I think we have shown how either we have addressed the questions that have come up over the last year or are in a position to address them before we ask you to vote in June on the major release of funds for the next phase of this project. So that takes me to the next item, which is what we will be asking you to vote on or not vote on in the next day or two. As Jay Kasey mentioned, we will be asking you to approve \$6.5 million for additional design work related to this project, for master plan projects involving infrastructure and the hospital, so we can keep the project going over the next several months, but not make an overly large commitment. So I think the risk of this is very low and we will ask the Fiscal Affairs Committee to formally vote on this tomorrow. The second vote we will ask for, and we will also be asking the fiscal affairs committee to do this, is for \$1 million for design work only on the electrophysiology labs and that will be funded out of part of the routine capital we talked about earlier. The third thing that will be happening in the Fiscal Affairs Committee meeting is that Pete Geier and I will be updating the committee on the Route 23 ambulatory lease. Under our procedures the Board is not required to approve that lease because it has been done through a competitive process, but at the same time we do not want to move ahead without the Board being comfortable with that, so we will go into a little more detail at the Fiscal Affairs Committee meeting.

To summarize, I hope you have a sense of both the project in terms of the overall goals, and how they fit in and how they align with the University, which is what Dr. Souba presented, and then Jay Kasey and Paul Lentz talked about - how the various pieces of the project fit together. Then John Stone and I talked about the financial work, a lot of which is still in progress, but what we will have is an integrated financial plan. And then you got a sense from me of the continued issues that we have been working on and how we plan to address those, and also what we will be specifically asking the Board to do at this meeting, beginning with the Fiscal Affairs Committee meeting tomorrow. At this point I will turn the microphone back over to Mr. Brass, and then we will go from there.

Mr. Brass:

Thank you very much everyone, a job well done. A couple things that I want to make sure we understand as we get ready to move forward toward June. First of all, in the next three months all the sensitivity analysis will be done, and we will be looking at best case, average case, what happens if we have a train wreck, and what are the options? That is why the circuit breakers are there, but what is the impact on the Medical Center as a whole - that analysis will be done and presented at the June meeting as well.

When you take a look at when our staff basically presented the financial plan and critical initiatives, two that I really want to highlight, it is going to be very critical that we, in fact, improve the throughput of our existing structure. The volumes are increasing and the facilities are not coming online until 2014, so that is going to be a critical piece. The second one is, we have not talked about it, but the managed care market. Negotiating those managed care contracts on behalf of the Medical Center will be critical to the revenue production of the institution and that the Board should know as well. That is part of the sensitivity analysis.

The three basic financial parameters that we highlighted - we as a Board should really understand those - because we will be watch dogging those through 14 and throughout 16. The EBIDA margins, the days cash on hand and the debt service coverage - those are circuit breakers. That is why the circuit breakers on the projects are triggered by the financial circuit breakers. John and Bill have done a wonderful job making sure we understand where we think we will be with those circuit breakers. We have to watch those, staff will be watching those, and we will talk more about that at the June meeting.

April 4, 2008 meeting, Board of Trustees

Good news is Chip and Bill and all the other folks, David, Peter and others, have done a wonderful job pulling all the piece parts together in a unified recommendation. They are all together and that is really good news. The second is we do have circuit breakers. You need to understand that in the event that we did not get this right something is not going to go as planned. This is too big of a plan over too long of a period; something is going to go haywire. So it is important that we as a Board know we have circuit breakers. I am comfortable that we have circuit breakers. We are financially healthy right now. That is an important statement. We are not coming at this thing as an underdog. I wish our days cash on hand were greater, but the plan calls for us even during this process to increase days cash on hand. Last is, in my opinion most importantly, in light of our University goals and our Medical Center goals, we will end up with a world class Medical Center. This is not going to be something that we in fact will not be proud of, and will not allow us to get in that top 20; it is where we want to be. So with that Mr. Chairman I am going to close our commentary and open up for questions. I will be happy to address any that I can, and the staff will help me with most of them I am sure.

Dr. Clloyd:

Thank you Mr. Brass. Let me first of all really compliment the team on its outstanding work, and also for a very concise and thorough presentation. I think it was very, very good. Let me open it up now to questions from members of the Board. Mr. McFerson.

Mr. McFerson:

Well I am impressed with what I see and congratulate you Alan and everyone. Let me ask you a question about that development number. We have had a lot of conversations about that over the last year or two and we had to raise it in advance and I guess I am wondering now, am I hearing that we just have to have it raised by the end of this project as opposed to the beginning? Maybe, we could have a little more dialogue on that, or how much have we raised to date, can you talk a little more to that?

Mr. Brass:

Those are good questions. Bill do you want to help me a little bit, I know what the number is, I think.

Mr. Shkurti:

Mr. McFerson, let me elaborate on that because that is something - having lived through some of our other projects - I know the Board is very sensitive to that. What we have all agreed to in the executive sponsors team is that we will use the standard policy that the Board has, which is that you need to raise 80% of the money before you go to construction. So if you figure we have about a five-year time period, and if we can raise \$15 million a year, that gets us up to the end when most of the construction is completed, the money will be in the bank. One of the things you will notice in that document of continuing issues is the next thing we have to do is sit down with the fund raisers and get the timing as to what projects this money will apply to and when it is needed, so that we are comfortable it is on hand or we have the signed and written pledges in the amount that we need before we proceed to construction. As you noticed from the presentation, we have at least three years before we go to construction, so it will give us an opportunity, I think, to raise most of the money.

April 4, 2008 meeting, Board of Trustees

Mr. Brass:

The answer on the end number is \$75 million has been recommended by the fund development, philanthropic folks to be put into the plan. That is a number that is in the preliminary numbers right now with 80% to be hit before construction. Whether that number is the right number or not, that is the number we have plugged.

Mr. McFerson:

Let me just follow on before you take another question. Of the \$500 million Medical Center fund raising plan initiated a number of years ago, would not some of this money be raised already, or allocated to this \$75 million bogie?

Mr. Shkurit:

The way I am counting it is, I want to make sure I confirm that data, Chip do you want to?

Dr. Souba:

We have a little under \$6 million that is committed to those expansion projects.

Dr. Cloyd:

Other questions? Mr. Schottenstein.

Mr. Schottenstein:

I want to just echo the comments about what an outstanding presentation this was and very clearly presented, thoughtfully, and appreciated. It is a very exciting project.

I have a question about the contingency and also the follow on the question Dimon asked about the philanthropic support. What is the dollar amount, or what should the dollar amount be, as opposed to the percentage, because some items, equipment, architectural fees, legal fees, and construction interests, you do not perhaps need as much of a contingency for. I am curious what the dollar amount of the contingency is in this budget, and if that is something that is in process. We can answer that later I suppose. I have a second question after this too.

Mr. Brass:

We do have an answer, Bill do you want to answer?

Mr. Shkurti:

Mr. Schottenstein, the contingency amount in the \$1 billion project we are talking about at this point is estimated at about \$87 million, that may be refined a little bit, but that is the approximate total.

Mr. Schottenstein:

I guess I am a little concerned, and again I do not want anything to detract from my enthusiasm for this project because I think it is vitally important for all the reasons that Alan and the rest of you articulated. But I guess I would just question a \$75 million fund raising target over a period of years, less than the contingency, less than 5%. I realize the initial project is a billion, but in terms of inflation adjusted, I know the costs of this need to be adjusted for inflation, yet the fundraising target will not be. So if the cost goes from \$1 billion to \$1.1 billion or \$1.2 billion, and I recognize we have circuit breakers and so forth, we will still hold our heat to the fire with today's dollars - \$75

April 4, 2008 meeting, Board of Trustees

million on a philanthropic level. This is such a dynamic project with what I think is enormous potential for fundraising, perhaps as great a potential as any project this University has ever undertaken. It just seems to me that 5% against the total or 7.5% against the initial phase, with 80% coming in over time, as opposed to upfront - it just seems light to me.

President Gee:

Can I comment on that Bobby, because I think your observation is mine, and I commented on this a couple times? What we are about is we are about planning a project very conservatively, because I did not want to come to this Board and overinflate or overpromise because this is me out of the shoot now, if you understand that. I can no longer blame the previous administration for anything; I am that now, so I am here. We have hired a world class leader in terms of our fundraising, but he has not really had a chance to get his arms around this. I can assure you that we will raise mega millions for this project and beyond. For the purposes of this Board and it's planning, we are being very conservative because we want to make sure we get the numbers right, and every dollar we raise beyond that is going to be just a significant boost to us. So rather than overinflating, for the first time, this is a commentary on me, for the first time I have actually underinflated. I think in this instance we are trying to do that. Peter you may want to comment on this.

Mr. Welier:

Thank you Gordon, he is right. Week three of my tenure here and I really have not had a chance to assess whether that is high or low, and that number I would also remind you will be part of a much larger portion of the next comprehensive campaign of which the medical center will hold a very big part of. That \$75 million is part yet of another larger number undetermined at this point towards the Medical Center. The \$75 million is really just toward the construction project. I would expect the number for the comprehensive campaign for the Medical Center to be much, much larger. At this moment in time, sure it is a very conservative number. Did I answer your question?

Mr. Wexner:

Bob I just want to chip in - Children's Hospital is a \$1 billion project and largely from central Ohio. They raised \$250 million of real philanthropy. It will have \$250 million in cash before they dig.

Mr. Schottenstein:

So you are agreeing that the \$75 million sounds low?

Mr. Wexner:

I am on the development committee and have not thought about it, and that is something for all of us to discuss. But Children's Hospital is not a University, it is just one hospital. The board of their hospital got together and raised \$250 million to a \$1 billion project. From my point of view the major fundraising, the heavy lifting, has to be done by people sitting around this table. I think Gordon is advised to say that we should be cautious. I think Peter is new at the job, but then is us, so if we say that we are going to raise big money, and we have partners on the hospital board, we have to do the work. That is my view as head of the Development and Investment Committee.

Mr. Schottenstein:

There is no question about that and I appreciate what you are saying Gordon, and I think we are all saying the same thing, other than, as a benchmark, my only question

April 4, 2008 meeting, Board of Trustees

is, I know we intend to do more, we want to do more, should we require ourselves to do more?

President Gee:

Oh, we are going to require ourselves to do more. Again, I want to speak on behalf of all of us, which is the fact that we are bringing a plan to this Board which I feel very comfortable in the context of what I said earlier is very doable. So I did not want to overinflate anything. I did not want to overpromise. Now the standard that Les just said, the \$250 million that Children's Hospital has raised toward its \$1 billion campaign gives me great solace because as you said, it is a beloved institution, but this is The Ohio State University, and we should stretch that considerably, and around this table we will do that, and beyond. I have been on the other side of this a lot. In the previous institutions, and even here, in which we did a lot of academic planning: you have the goal of what you want to build or what you want to reach, you have the financial footings to do it, and then the difference between them is fundraising. We are doing it the other way around, which is quite remarkable, and I applaud us for doing that. But I can assure you that this is very light, and we will have real success. What happens with that is that it really does allow us to go from really good to great, and that is all I am trying to say.

Mr. Schottenstein:

That is all I am trying to say.

Mr. Wexner:

I am lost on the big pieces. I appreciate the planning, the diligence, and the effort, Alan on your behalf, and the fact that everyone is getting agreed and aligned and reflecting. This is the question I have; as I understand it, the first phase of the project is \$1 billion, about, as close as you know it today, the phase that goes through 2014 is \$1 billion. The second phase, which you could trigger, and I like the circuit breaker idea, let's say is \$400 million, am I right?

Mr. Brass:

You are correct.

Mr. Wexner:

And we are saying, we are looking at about nine years, we would spend an additional \$80 million a year on just normal capital for the Medical Center.

Mr. Brass:

That is correct. That could slow down as new equipment comes online as part of the project, but who knows yet.

Mr. Wexner:

Or the world invents new wiz-bangs and ours becomes obsolete. So in the aggregate, if we are looking, as I get my arm around the big pieces, between the normal capital and the second trench and the part that we would be reviewing in June/July, in the aggregate is about \$2.1 billion looking out, and I realize that we are not pulling the trigger.

April 4, 2008 meeting, Board of Trustees

Mr. Brass:

I think you are right. I think you are right when you look at maintaining the current Medical Center going forward and adding the \$1.4 million to that.

Mr. Wexner:

Doug and I were chatting, we were lost whether that \$700 million was in the \$1.4 million?

Mr. Brass:

It is not.

Just one other comment and it is a big picture. A 50,000 foot level, when you are taking a look at issuing debt, and philanthropic activity, here is how that plays out real fast. The more you raise the less you borrow, the less you borrow the more you make, the more you make the faster the days cash on hand goes up. It is that simple. There is a balance in all of this. We also have to remember there is a \$300 million or \$400 million phase two coming at us if we are successful with the financial parameters being met, which gives the president another opportunity for another philanthropic activity if he wishes to do so, so it is not a one cut, but there is a magic balance in all of this. We as a Board should understand that. Our Achilles heel is our day's cash on hand. Now I am going to say something that I have had Bill run some numbers on, which I think is important to understand. Our debt at the Medical Center compared to the average debt at other medical centers is low. In fact we have the average debt that the other medical centers would have, our day's cash on hand would go from 50 to 100; therefore, that is a positive thing. We in fact would be going this way, because we would have had less debt interest and more profit. So it balances the other way too. Now the fact is that we want to maintain an AA rating, which is very important to the University. That is why these financial parameters are so important. We want to maintain that financial parameter too, so that we can maintain our AA rating. Our debt as a Medical Center is not that bad. Therefore our interest expense is lower right now, and it could work both ways, and when you take it to the big picture, when you take the big picture and you say let's go for debt, we have to watch that EBIDA, we have to watch the days cash on hand and we have to watch the debt to cap ratio, that is why this goes back and forth a little bit.

Mr. Wexner:

If we would have let's say 100 days cash on hand and call that \$100 million, we would have borrowed \$50 million. The income would be reduced by the interest expense; the cash on hand would give us interest income, so you figure it is a wash?

Mr. Brass:

Pretty close, but we have to understand as a Board we have chosen to go this route versus this route. That is why we are in good shape to go forward with the project.

President Gee:

You know one of the things, and I will just say here, as sort of the inside outsider, and now outside insider, I say this to every member of the Board and that is the fact, and having a part of huge academic medical centers for a long period of time including this one, I was really, pleasantly surprised about the financial health of our Medical Center. I will just be very honest, I can say this now, I expected it to be much more fragile than I found it, and so that gives us some solace. You took a look at those numbers, the financial health numbers are on the robust side comparatively and even compared to

April 4, 2008 meeting, Board of Trustees

places like Michigan and Illinois and other places, they have huge expenditures but they are very fragile at the moment in terms of their financial numbers.

Mr. Wexner:

I mean that is the next phase of the projection because if you borrowed \$1 billion you would have \$60 million of interest expense and no income, you have spent it in the capital, so the next phase is to see how that crosses over.

Mr. Brass:

Exactly the sensitivities we are running right now. But it is important to get us up to this speed as a Board. We have to be comfortable that we are rounding second base and going to third. We are financially healthy, the President is absolutely right, if we were not we would not be able to entertain something like this.

Mr. O'Dell:

I would like to ask a question Alan. Obviously the medical site is going very well now and I am very enthusiastic about the project, but curious about the impact on the existing hospital inpatients and revenue and profits during the huge construction project and if that has been taken into account of, if it is being done in such a way that we do not think it is going to have a major impact.

Mr. Brass:

Whenever you have a project of this size, on a campus of this size, and when you think of the campus as a large campus, but when you think of the Medical Center there are a lot of buildings very close in proximity to one another, it is going to take a lot of magic to keep the flow of volume maintained, but it can be done. That is where Jay comes in, that is why we needed to hire someone that has done these large complex mega projects that can, in fact, make sure that all of the charts are working so that there are no log jams. I am comfortable that the volume demand is here and it will continue to be. The worst thing that could happen is that we cannot meet the service needs and the primary and secondary positions that are referring in saying it is a mess down there lets stop referring there for five years until they get their building opened up. That is what we cannot afford, so we have to pay attention to it all. It is complex but it can be done. It has been done in other large major centers without interruption. Northwestern was the last one that did it and they did it brilliantly, so I am absolutely comfortable that we can do it here at The Ohio State University Medical Center as well, but we have to watch it very carefully.

Mr. O'Dell:

Tight space and tight buildings and a lot of people want to avoid that area anyway because of the parking and traffic.

Mr. Brass:

But it can be done.

Mr. McFerson:

Wally the subset of that was when they put 60 rooms or two floors on top of the Ross, and patient satisfaction and service continue to go up, and the worst of all is trying to put new floors on top of existing floors, this is at least new construction, but it is a possibility.

April 4, 2008 meeting, Board of Trustees

Ambassador Ong:

This may be just a counterpart question to Wally's, but have you talked about, it seems to me that in addition to a lot of physical confusion in which could interrupt clinical care, there is going to be a lot of distraction of faculty. Have you talked at all about what impact this might have on the educational activities that are going on here?

Mr. Brass:

That is a really good question Ambassador, and Dr. Souba why don't you help me with that a little bit because you have had so many meetings now with faculty and the teachers themselves.

Dr. Souba:

I think your question Ambassador was what disruption if any would this have on the educational activities?

Ambassador Ong:

Faculty and others absorbed in the details of this.

Dr. Souba:

I would echo what Mr. Brass says, any project of this magnitude will create some distractions around parking and getting around. Actually the faculty are extremely excited about this project and their view of it is that we have put this thing on hold for a year and a half and when this goes forward, as we hope it will formally in June, there will be such a surge of confidence and goodwill and inspiration that we think the education of our students and our residents will precede in a very positive fashion.

Mr. Borrer:

This is a question probably for both Gordon and Bill. This is a wonderful project and the effort we have gone through is amazing, and it certainly deserves support, but as I look at our plan for the University and one of the things that we talk about is supporting our students, so I want to make sure that we have the ability to support other capital expenditures that come on our campus. We have deferred maintenance, we have other construction projects that are coming on, our President has proposed additional student housing, and I want to understand how a cost magnitude of this project is going to impact those other projects. Have we analyzed that?

Mr. Shkurti:

Mr. Borrer, at the December meeting, which I believe you were absent, I went through a rather long detailed explanation of the commitment of University credit and who would get it. The short version of that is about half of it would go to the Medical Center project because the Medical Center is about half the University, the other half would go to infrastructure, and also student housing, and we have built into the bond schedules the accelerated renovation that the President has called for. The next issue we have to address is if we are going to build additional housing. How we do that because we do not have the capacity to do all that and everything else we have done but we are looking at some other options including private developers.

President Gee:

I am glad you raised that question because I can say again what I said very early and that is that it is the whole reason that we went back, and some people would say that we delayed. I think what we did is we moved forward. I think in this instance, for once

April 4, 2008 meeting, Board of Trustees

saying halt was actually not only a brave thing to do but actually has put us in a position to be strategically alive and move this institution forward. I think that if we would have gone forward under the plan that we had you would be asking that question now and I would be shrugging my shoulders and saying, I am not quite certain. I just say this to all my colleagues, sometimes we get so driven by just the movement that we forget that it is important, every once in a while, that a strategic pause is a movement forward, and this was that. Absolutely.

Mr. Brass:

Doug I would also add, that's where those three financial parameters come into play again. If they get out of whack, we have to make a tough decision or we are going to steal from Peter to give to Paul. Academics will have to help pay the freight, and therefore something stops. We have to be disciplined within the Medical Center to manage this project and it's macroeconomics within the parameters that we are projecting. Otherwise it has to spill to someone else, and that is not fair to the students and others, so we have to balance that as a Board.

Ms. Hendricks:

I wanted to ask more of a technical question. When we put up the new cancer hospital my understanding from the discussion was that the James will no longer be a cancer hospital. Is it one that we are going to then fit out to be a regular hospital or what happens to the "James" that we know of today?

Mr. Souba:

Mrs. Hendricks, that is an excellent question and the short answer is that we are not entirely sure what we would do with the James, but let me give you an example of what we could do with it.

Because of the way the James is currently constructed and designed, it lends itself very nicely to taking care of patients who are immunosuppressed because cancer suppresses the immune system. Another very large group of patients that become immunosuppressed, which we believe is a critical part of the future of this Medical Center, is the transplant patient. That would be an excellent hospital to be a home for organ transplantation which is a very large and important program here.

Ms. Hendricks:

A follow-up to that, I know this may not even be a decision now, but that hospital is called "The James." Will the next hospital be The James or is that a naming opportunity? Is there any thought to that?

Dr. Souba:

I do not think we know the answer to that today but hopefully there will be plenty of naming opportunities.

Dr. Cloyd:

Any other questions? Mr. Wexner.

Mr. Wexner:

I am not critical, I like poking at \$1 billion and \$2 billion projects.

April 4, 2008 meeting, Board of Trustees

Mr. Brass:

I need all the poking we can get, a lot of heads are better than one here.

Mr. Wexner:

When you look, because you have experienced this in academic medical centers, when you talk about a \$1.5 billion to \$2 billion capital expenditure, over these time frames, what is the world experience? How many people have done projects of this size?

Mr. Brass:

I would say to you that there are probably less than 15 of the 123 medical schools in this country that have undertaken a project of this magnitude to replace its "critical center" of its operation. Those which have done it are far better off because they did do it. They are stronger today than what they were prior to taking the risk. This is a risk issue; this is a risk reward issue. If we do believe, as the President said, that we really want to get into that top 20, then we need to come to grips with this one. A number of them have but this is a large project to us, I would be misleading if I did not say that. This is a large project.

Mr. Wexner:

This is what your expertise is, hind sighting them, because I'm sure some have done it superbly, some not so. Would that be a help to us to understand where these other well-intended institutions who have gotten through this maze successfully and maybe where others got lost?

Mr. Brass:

I think there are those who have done it better than others; I reference Northwestern just because it is most recent. They have done it well. They did it within their budget and their volumes are skyrocketing. In fact they are getting ready for another big addition. Michigan, although that being many years ago, had they not replaced what was the double Y, they would never be where they are today. That was a huge expenditure, a high risk because the interest rates at that time were in the high double digits when they hit the market place, but had Michigan not done it they would not be where they are today in their rankings. We have to manage. I am ready for the risk and we have to manage the macroeconomics. If it starts to go south, we have to be disciplined enough to make sure we pull the triggers and we have to know what triggers those are.

Mr. Wexner:

It gives me comfort to know we are not boiling the ocean.

Mr. Brass:

I think that is true.

Dr. Cloyd:

Other questions?

Mr. Ratner:

As a follow-up to Les' question in a sense, because I was right on the same page as you running the nine times 80 is 270, and there seems to be very careful planning and

April 4, 2008 meeting, Board of Trustees

I can look through it and see the physical planning that relates to the \$1.4 billion. During that same time frame, you are spending virtually 50% of \$1.4 billion on other capital. Is that other capital well considered at this point or is it basically a plug number that says this is in our run rate and that is what we think we will be at or is this, in fact, a total capital plan over the next nine years of \$2.1 billion of which \$1.4 billion is identified as the new program and \$700 million is the continuing?

Mr. Brass:

I think I will start, but I will turn it over to others to answer that. It really gets down to what is the discipline we use on an annual basis to spend the \$80 million or \$70 million, whatever that number is, and how far out we can project with certainty as to what it is going to be spent on. Bill or Chip?

Mr. Ratner:

Right with that is a question of what is the physical condition of these facilities, what is the age and its condition, and being that I have never even visited the facility, I am totally clueless.

Mr. Shkurti:

First let me talk about the age of the plant because that is something every time I walk down there and walk into Rhodes Hall, which is one of the newer facilities, I see that little cornerstone that says 1977. That is a thirty year old facility, it has had some remodeling but I think it is safe to say that we are in a very good situation regarding debt, but we are running the risk of greater and greater out loaded facilities. The newest facility down there, other than the construction at the heart hospital, is the cancer hospital, and I was here when it opened in 1990, so that has now been 18 years. Before the new cancer hospital opens it will be another six years, so that would make it 24 years, which in medicine is an eternity. Mr. Ratner, I think it is fair to say that even though there are parts of the Medical Center that are better off in terms of being how old they are than some other parts of the campus, it is a very highly competitive environment where you need to stay up-to-date, so this type of investment is merited in that regard.

In regards to the question about the routine capital I think probably John Stone would be the person to address how that is allocated and prioritized, and John, are you still here?

Mr. Stone:

I am still here. We do not have a long-term capital plan on routine capital. A lot of that is going to be taken care of with the master facility plan because a lot of it is infrastructure. What we end up having every year, just to share with you our process, is we go out with a request for routine capital, mainly equipment replacement and some renovations, and a lot of those renovations in the future are going to be taken care of with this master facility plan and our call every year. To give you a perspective, it is about \$260 million worth of requests and we have to tear it down to about \$80 million. What we are trying to tie together now, and it is going to be critical to this plan, is linking an ongoing needs of equipment replacement and renovation that we see going forward toward what we are going to do in the master plan and I think that one of the big questions that has been asked continuously is the difference between routine capital and what we are putting into the plan. That is going to be a key part of it because it is a challenge for us to replace CT scan, MRIs and other things every year in a \$1.5 billion business, so that is what we are trying to pull together today.

April 4, 2008 meeting, Board of Trustees

Mr. Ratner:

Then of course the follow-on problem is that at the end of 2016 you now have facilities that virtually doubles your physical size, so then your ongoing needs, then your ongoing physical plan that has to support that because the ongoing capital needs for that level of high-tech facility becomes staggering, and the operational needs become staggering, so again it is hard to say that you want to continue, and when you stop the planning horizon. Yet taking on this kind of additional capital implies an operating cost that is also something that clearly needs to be considered very carefully because these are the gifts that keep on giving. These buildings will keep on requesting money.

Mr. Shkurti:

Mr. Ratner, that is a very fair point. One of the things I have noticed being in an academic environment is that nobody ever wants to give up space, but in fact we are going to have to tear some space down and demolish some space that is over in the Medical Center. Now we have to strike a balance. I would not want to tear down the James, the old James, because that is relatively a new facility, but some of the other facilities are from the '50s and we are going to take a look whether it is worth it to remodel those, reuse them or worth it to demolish them and free up space for other needs.

Mr. Ratner:

You also look at some of the energy management and other characteristics of old buildings, at some point it just gets to that stage. It will be a fun planning process.

Mr. Brass:

Very good point because, in fact, unless you padlock it someone is going to creep into it.

Mr. Shkurti:

Mr. Chairman, Melissa Bellini slipped me a note that deals with the question that Mr. O'Dell asked about construction on campus and how we avoid difficulties that we talked about. There is a two day meeting scheduled in May to work on aligning all the construction on campus including the infrastructure projects so that by June we will have a summary and we can share that with you on the impact and conflicts. I am sure some of these we will be able to resolve quickly, some we will not, and we will take a little more time, but we are already working through addressing this issue of the construction. I would emphasize again the point that we have had, and the heart hospital is a good example, construction here is successful where we have maintained volume, but this is a lot bigger than anything we have done before, so we are going to have to work extra hard to make sure we are able to function appropriately.

Mr. Alvarez-Breckenridge:

I had a question related to, I think, the \$73 million per year. Over the last few years there has been expansion with Martha Morehouse, Stoneridge and some of the primary care facilities, and I was not sure where the costs came for funding that, and as we presumably would need more primary care facilities in the community, would that relate to the \$73 million or would we have additional costs related to that, and would that add further costs to the entire Medical Center's expenditures.

Mr. Shkurti:

Mr. Alvarez-Breckenridge let me answer that briefly and then see if my colleagues want to add to it. The type of facilities you are talking about which are primarily

April 4, 2008 meeting, Board of Trustees

ambulatory facilities are not part of the billion dollar envelope. Most of those we expect to be self-financing, and I will talk about the Route 23 facility tomorrow. We are going to do a lease, we think, by the end of the first year and a half and it will be a positive cash flow, so that I think would be the short answer.

Mr. Brass:

Mr. Chair, I would be remiss if I did not personally thank Chris, Peter, Dave, Bill, Chip, and all their people behind them. I have to tell you I have been on and off of this campus a lot since the last Board meeting, and have had a lot of phone calls, and I just know how much work has gone on behind the scene. They have done a really, really good job for our University, so I want to publicly thank them. They have done a nice job.

Dr. Cloyd:

Thank you Mr. Brass, and let me also thank you and you know there is a sense of confidence you get in a huge project like this when you sense you have all the right leaders gathered around the program area and putting attention to it and we certainly have it here. I do thank you for all the time you are spending and it is probably warmer here than it is in Toledo, so there may be some benefits in that regard.

Any other questions or comments on this subject?

(See Appendix XLIV for background information, page 999.)

The Board will now recess until tomorrow at 12:30 pm. The Board's Committee meetings will begin at 8:30 am here at the Longaberger Alumni House.

Dr. Cloyd reconvened the meeting on Friday, April 4, 2008, at 12:50pm.

Present: G. Gil Cloyd, Chairman, Karen L. Hendricks, Dimon R. McFerson, John D. Ong, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Algenon L. Marbley, Ronald A. Ratner, Christopher Alvarez-Breckenridge and Debra J. Van Camp.

Dr. Cloyd:

So that we are able to conduct the business of this meeting in an orderly fashion I ask that the ringers on all cell phones and other communication devices be turned off at this time, and I would also ask that the audience observe the rules of the quorum proper to the conduct of the business at hand.

At this time I would like to welcome Peter Weiler, our new Senior Vice President for University Development, we are delighted Peter to have you joining us and we are looking forward to working with you in what we know is going to be a very exciting year. Thank you and welcome. Why don't you stand up?

I would now like to call on Karen Hendricks, Vice Chair to preside over the next item of business on the agenda.

April 4, 2008 meeting, Board of Trustees

ELECTION OF OFFICERS

Ms. Hendricks:

Thank you Gil. I would like to call on Dimon McFerson, Chair of the Committee on Trusteeship to report on the review of the chairman and the election of officers.

Mr. McFerson:

Thank you Karen. Well as folks may recall a year ago we went through an elaborate process, because the Board expanded from nine to 15, as to how we are going to function from a governance perspective. At that time we put in place the program that you see operating before you and it was agreed also that every year we would step back and ask ourselves going forward for the next year how everybody felt. So I personally contacted every member of the Board and had a dialogue and a conversation regarding the leadership of the Board.

I am very happy to say, without any reservation whatsoever, everyone is unanimously supportive and appreciative of the great job our chair, Dr. Gil Cloyd, has done this past year. The Committee on Trusteeship met this morning and we discussed very briefly the process, and unanimously are recommending that he be elected again as the chair of the Board. Following the practice that was put in place a year ago, the senior member of the Board, or said another way, the Board member that is in their last year of service, if not serving as Board chair, would serve as the vice chair and so that would mean, me, as vice chair of the Board, and the slate would further re-elect Dr. David Frantz as our secretary, and as interim treasurer, Tom Johnson. This concludes the report from the Committee on Trusteeship, and we do so very enthusiastically.

Ms. Hendricks:

Thank you, Dimon. I would like to call for a motion and a second to Dimon's proposal.

Do we have any nominations from the floor? Hearing none, then we will close the nominations. We will have a show of hand vote. If you are in favor, raise your hand.

Any opposed raise your hand.

Upon motion of Mr. Wexner, seconded by Ambassador Ong, the Board of Trustees adopted the foregoing motion by a unanimous show of hands.

Dr. Cloyd:

Thank you, Karen. Thank you, Dimon.

Mr. McFerson:

Thank you for a great job.

Dr. Cloyd:

Thank you very much, and thank you to the Board members, your vote of confidence really touches me and means an awful lot to me. It is truly an honor to be associated with such a wonderful and great group of people working for such a wonderful University as we have, and I look forward to the coming year, and thank you.

Next I would like to move to some really important recognition. Over the years our Board has been well served by its Student Trustees. This is true in the case of Christopher Alvarez-Breckenridge who is attending his final Board meeting today. Christopher has provided us with tremendous insight while serving on the presidential

April 4, 2008 meeting, Board of Trustees

search committee and has been very engaged in the process of selecting the next student Trustee, and has written a manual to help them in their orientation to trusteeship. Next weekend, in fact, he will be attending the Association of Governing Boards meeting to moderate a round table discussion on student trustee orientation. He truly excelled as an undergraduate student and now as a professional student. Christopher we know you are going to be continuing your studies in the College of Medicine for the next couple of years so you are not going anywhere. We know we will all continue to benefit from your presence here at Ohio State and continue as just a wonderful ambassador of this institution. I noted last night to the Trustees as we talked with Christopher about how the student perspective is very important to us as we conduct the work on this Board. Christopher has measured up in every way in terms of always helping us understand the student perspective on important issues but he has certainly moved well beyond that. Those of you who know Christopher, he is marvelously intelligent, deeply insightful and deliberate, and conscientious with what I call a constant sense of nobility. He is always looking at the higher causes, the better paths, and we have all really benefited from your help, your advice and your council, Christopher. Speaking for the entire Board of Trustees, we want to thank you very much for the outstanding service you have provided in the last two years and we want to wish you every success in the future and we share the pride, that your parents here today have for you and do look forward to continued interactions in the future. Thank you so much.

Mr. Alvarez-Breckenridge:

First of all thank you very much Dr. Cloyd for your very kind remarks. I would be remiss if I did not thank my parents for their support during these two years and prior to my years on the Board. They really fostered my intellect and analytical mind, and I certainly would not be here if it were not for them. Secondly I really do have to thank former Governor Taft, I am very grateful for his appointment. In terms of the Board members, I am grateful for all of you. I really strove to have a personal interaction with each and every one of you and get to know all of you and really tried to foster a relationship and it is something that has enriched me a great deal these past two years. I certainly hope that is something that will continue with each and every one of you because I care for all of you very deeply. Outside of the Board I would also like to thank all the administrators, I have had a chance to bug you several times. I apologize if I bothered you too much, but really always sought your mentorship and guidance and you were always a huge asset to me. President Gee, it has been a honor getting to work with you this one year seeing how you are probably going to be here for a while, and I will too. The question is who will finish their tenure at Ohio State first? I sincerely hope it is me. I would love to continue to give back to The Ohio State University in any way you would see fit. Continuing on the course of thanking people, my friends over in the corner, Maureen, Ann and Korenia, you have been an immense help to me and I thank you for always having a smile every time I come in the office. I do not know if the smile is there before or after, but at least while I am there you are very gracious and kind. The last person that I have to thank is Deb. The student trustee position is something that I have cared very passionately about and I try to institute a legacy that will continue down the road. I feel that with Deb as the upcoming senior student trustee that the position is stronger than it ever has been, and personally I feel that you are the best student trustee Ohio State has ever had. I am very excited to see where you take the position. Thank you very much.

Dr. Cloyd:

Thank you Christopher, it is really nice today to have sartorial splendor of two bow ties around the table.

Mr. Alvarez-Breckenridge:

It is my parting gift.

PRESIDENT'S REPORT

President Gee:

I am going to be very, very short because we are running behind and I have a rather lengthy report, but I am going to keep it very short. First of all welcome to Peter Weiler. Peter, when I came here six months ago in this room, it was longer than that actually, it just seems like it was six months. I am completing my sixth month. I noted that there was no wallet safe in Ohio, and indeed Peter is going to make that the case, so I appreciate that. Jeff Kaplan, we have not noted that Jeff has been promoted and is doing a marvelous job for his work, and for what he does I am very grateful. Rich Hollingsworth, who has announced his retirement, is one of those constant University citizens and will continue to be a University citizen. He is changing roles. Much of the quality of student life and the endeavors we have had can be attributed to Rich and his leadership and I just wanted to be on the record thanking him. Christopher, we will run to the end together as a matter of fact. I look forward to getting my name on your diploma and more importantly I have appreciated the role you have played. Christopher has saved me from embarrassing moments. Deb and Christopher took me out a couple times. One evening they took me out and Christopher refused to allow me to have my picture taken at one of those student parties with bunny ears, and so I am grateful for that Christopher, you saved me from myself. Thank you very much. I am appreciative for that.

One of the things I want to note, and I will just say this, and I sent a note to our chairman, got up early and wrote him a note because his election was forgone, I had been his campaign manager and had the votes counted. I think we all know that he has done a remarkable job of knitting and weaving a Board together in ways that has now made us stronger and more viable. This is my last point; one cannot have a great University without a great Board. I am just looking at every one of you. It is important to know that the maturity of this Board and the way that you have come together, after what I think we would have to say was a time of imbalance, is something that I greatly appreciate. I can assure you, the people who sit behind you, on either side of here, we understand that we work for you but we also understand that the strength of this University resides in you and your willingness to move the institution forward. I love the fact that we have had these really invigorating conversations. You are holding us to high standards. You are pushing us and you are developing expectations of your role and our role together. You are developing great partnerships but most importantly you are showing a level of public service and public leadership which I think is astonishing. I just wanted to be on the record saying that the greatness of this University is going to reside in you so we are in very good hands. Our chairman could not be a better chairman. He and I had this wonderful moment, we were carrying on business on the treadmills in the Blackwell at five o'clock in the morning, and he is in great shape, because I am breathing heavily and he continued to do his work.

Today my report is gratefulness for the opportunity that I have, grateful for the six months you have given me, grateful for the leadership that we have assembled, and grateful for the opportunity to serve. Thank you very much Mr. Chairman.

Dr. Cloyd:

Thank you President Gee for those kind words and I can tell you, speaking for every Board member, we very much appreciate the leadership and vigor and vitality that you are bringing here to Ohio State. It is hard to imagine that it is six months since you have actually been on the payroll. I know you were working long before that for Ohio State. The progress that has been made since you have come here is just tremendous, and we appreciate that very much.

April 4, 2008 meeting, Board of Trustees

We have had a day and a half of some very busy and very important committee meetings, and I would like to now move for reports on the committees and we will begin with the Audit and Compliance Committee report. Mr. Schottenstein.

COMMITTEE REPORTS

Mr. Schottenstein:

Thank you Mr. Chairman. The Audit and Compliance Committee met yesterday. There were no action items, and I will be very brief in reviewing what we discussed. We discussed and reached consensus on what our calendar would be for the fiscal year in terms of both audit issues and compliance issues. We had a fairly in-depth review by Mr. Shkurti of the responses to the Deloitte management letter in terms of what we are doing in areas that our external auditors noted require some action to be done. I am very happy to report that excellent progress is being made there that was recognized by both the Audit and Compliance Committee and also by our external auditors.

We also reviewed the Deloitte fiscal year 08 audit plan. We had a report from Mr. Culley and Mr. Haverkamp on the affiliated entities policy. I believe that same report was also given to the Committee on Trusteeship. I want to say that I think the manner we are proceeding with managing, monitoring, and governing affiliated entities is outstanding in our operational audit that PricewaterhouseCoopers did for us. They singled us out as somewhat of a best practice in this area, but we think we can even improve what we have been doing, and I think that the work Mr. Culley has overseen has been very robust and the committee was very appreciative of it.

Finally we had an interesting report from Mr. Lewellen dealing with various compliance matters that the Office of Human Resources oversees, and that concludes my report.

Dr. Cloyd:

Thank you Mr. Schottenstein. Any questions or comments?

We will now hear from the Development and Investment Committee, Mr. Wexner.

Mr. Wexner:

It was Peter Weiler's first full meeting and getting on board. We are in a quiet period assessing staff potential and probably for the next six months looking at potential against the University priorities to make sure our funding requirements align to the University's needs, and just reviewing everything, and staff capabilities. Probably sometime this fall Peter and Gordon will test-fly the case for the endowment campaign with some key donors around the country, so I think we are on track.

On the investment side, making progress, looking at reallocations of funds and investment managers and getting more information about best practices of not just pure institutions but looking at the top tier within the peer groups, so we looked at public Universities. What would the top quartile of publics do on their investment returns if we are looking at the Big Ten. It would be the same way, looking at the top quartile of performance and trying to understand how they are staffed, how they allocate investment funds. One of the things that came up in the meeting, which should interest the Board, is that as you look at average performance and then you look at average allocation to different investment pools is that it correlates - and Cambridge Associates made a very good presentation this morning - to average or below average returns. The better than average returns come from market leading investments and when you look at the average you are looking at the way the market was and so I think the Development and Investment Committee is processing that because there is some comfort in investing on an average basis to other portfolio investments. The risk is that

April 4, 2008 meeting, Board of Trustees

your returns will be probably below average because you are following the market, the reporting basis and it takes some risk and I think some expertise to get at the forward edge of the market. The search for a chief investment officer is very important because we are really not able to execute without an executive as fully as we would like. Because it is a full time job for several people. I think that is substantially where we are.

Dr. Cloyd:

Thank you very much Mr. Wexner. Are there questions or comments?

Thank you and I would just like to make a comment. I would like to particularly acknowledge the work of the committee. The work they are doing now, really digging deep into investment best practices and gauge the best external thinking, it really sparked the thought of being up there at the top of the top tier and looking at what takes a leadership return, that's terrific. I would also just like to acknowledge, Mr. Weiler, that you are going to have everyone's support on this Board. Mr. Wexner made a comment at one of our meetings yesterday that the development campaign as we think about it is Ohio State's and it really begins around this table with the Trustees and I just want you to know that you are going to have our full support as you think through and help guide us on what is the best strategy for our development campaign.

Alright, next we will hear from the Committee on Trusteeship, Mr. McFerson.

Mr. McFerson:

Thank you Mr. Chairman, and again congratulations on your reelection, and we look forward to another very, very strong year. We had just a few items to discuss at our 9:00 o'clock meeting this morning, the first was guidelines for non-trustee Board committee appointments. We believe we are now in a position to bring this forward at our June meeting for a vote. There are not many guidelines but we certainly encourage every committee to have non-trustee Board appointments made and hope those guidelines will be acceptable to everyone.

Secondly, we also had a first reading on the policy on affiliated entities. The same discussion that took place in the Audit and Compliance Committee. It is important that the Committee on Trusteeship, which is the Board's governance committee, feel very comfortable with these guidelines and we expect that at the next meeting we will be able to recommend those to the full Board for acceptance and then look to the Audit and Compliance Committee for compliance of those guidelines when they get put in place.

We then had a brief discussion from Peter Geier, amendments to the code of regulations of the OSU Managed Healthcare Systems. This was by voice vote accepted by the committee and being sent to the consent agenda as item number 13. We then spent a little bit of time on election of officers and that action has already taken place.

Dr. Cloyd:

Thank you Mr. McFerson. Any questions or comments on this committee's report?

We will next go to Academic and Student Affairs Committee, Ambassador Ong.

Ambassador Ong:

The principle subject of our meeting today was to consider the nature and purposes of centers and institutions in the University, and to talk a little bit about what changes need to be made there and what future use of these entities we might want to

consider. I will go to some length in explaining this, I think for many members of the committee, it was new information and I'm sure will be to others on the Board. The first thing to understand is that we have some 60 institutes or centers throughout Ohio State. The next interesting thing is that these are interchangeable titles; there is no difference constitutionally between a center or an institute. The use of one term or the other is pretty much at the discretions of those people who are organizing that center or institute. All of them have a multidisciplinary function. They involve faculty from a number of departments and in most cases, many cases even a number of colleges, and so they to some extent fall into the strategic area that President Gee has outlined for increasing the amount of interdisciplinary activity across the University. They are not authorized to do several things, they are not authorized to grant tenure, they are not authorized to offer courses, although there is some exception to that, occasionally if, with the approval of the Council of Academic Affairs, a center related academic unit may delegate to that particular center the authority to offer a course, but this is not very often done.

Centers have traditionally been reviewed no later than eight years after their establishment, and every four years thereafter. Going forward some of the older centers are going to be two or three of those each year, are going to be reviewed to see whether their intended purpose is still being fulfilled. Since the mid-1990s, centers and institutes have been established by the Board of Trustees ultimately, but upon the recommendation of the University Senate through its Council on Academic Affairs, and in concert with the academic units that would commit or receive resources from the centers, departments, or colleges.

Eighteen centers have been established under this system since the mid-'90s but importantly more than 40 other centers exist that were established prior to that time and prior to that kind of system, and the manner of their establishment was considerably more casual, if that is the right word, than the current system.

Some centers have considerable central funding from the Office of the President, from the Office of Academic Affairs or from the Office of Research; others are primarily funded at the college level by the dean. Revisions are being considered by the Office of Academic Affairs in the old manner in which centers and institutes have been developed since the mid-'90s. The proposal of the Council of our Academic Affairs of which will go forward through the usual approval procedures and arrive on my desk probably at the June meeting would provide that a subcommittee of the council on Academic Affairs will be responsible for centers and institutes, that will be their function. There will be two types of centers, University centers and college centers. Only University centers will go through formal Council on Academic Affairs development and subsequent review. College centers will be developed and reviewed within the colleges with the authority of the dean. College centers however and University centers will generally align in their approval and review processes.

In discussing these matters it became clear that while these are interdisciplinary units of a University, they may or may not be the appropriate matter in which to expand interdisciplinary activity of the University as President Gee desires of doing. Questions have been raised as to whether we should allow centers, some of them which are doing worthwhile work, to grant tenure track or to offer courses, or to initiate programs independently of any other supporting departments or colleges. The question that was raised when we discussed that point was if there needs to be some kind of sunset provision for these centers if they are allowed to grant tenure and do these other things. It might make the process of sun setting somewhat more difficult. The University is going to look into all of these possibilities and they will as I say, and come back with the proposal for the new University Center and College Center System in June, but the review of some of the existing older centers will continue and there could be some further action later in the year and into the years ahead.

April 4, 2008 meeting, Board of Trustees

We also discussed whether there was a better role or more significant role to be played in a development process by centers. Since some of our centers are doing interesting interdisciplinary work which could attract endowment giving. I think there was an agreement that the provost will discuss these possibilities with the Senior Vice President for Development. An appropriate thing to do in terms of the quiet phase of our projected campaign.

Whereas the provost and the committee had agreed at the beginning of the year that we would generally have just one discussion item for each agenda, we violated that a little bit today because there has been intervening variables that occurred just a week ago that is likely to have a very significant impact upon the academic affairs of this University, and that is the release of the chancellor's report and recommendations on the University System of Ohio. Dr. Asher joined us and gave a presentation outlining the contents of that report and talked about some of the implications for Ohio State and indeed some of the concerns that we should have as the review process of that report goes forward. The report solicits formal reactions by each of the higher education institutions in the state so Ohio State will be participating in that process and this discussion which was a very fruitful and substantive one is going to give Dr. Asher and the provost some ideas to consider as they prepare the University's response and then monitor the development of the program which will take some time because many of the recommendations being made by the Chancellor actually require action by the General Assembly before they can be completed.

Fundamentally the plan offers a number of strategies for making higher education more affordable to Ohioans by greater reliance on community colleges and regional campuses of the various 13 state universities. It introduces the idea of dual admissions to a community college and a university simultaneously. The object being to allow a particular student to enjoy the lower cost of community college for the first two years and then enjoy the higher quality of instruction at the main campus in the last two years. A strong emphasis in the report is on quantitative matters. Graduating more people at the associate and baccalaureate levels in particular, also perhaps the graduate professional level. It does however specifically recognize qualitative matters as well which is very important for us. Clearly growth in degree granting is not something that is likely to be a focus of effort at Ohio State. We already have the largest single campus in the country and so quantitative growth is not our thing, however the report specifically recognizes that each of the 13 universities in the state should define for itself, a specific role and then be measured in terms of performance by its ability to carry out that role in an effective manner. Ohio State is specifically recognized in the report as the state's Land Grant University and "National Research University." So it seems likely that as the individual missions of these universities are defined by the chancellor that the definition of our role is likely to center around the quality of instruction that we have, the capability of our student body with selective admissions and our research and innovation efforts rather than increases in student enrollment.

There is a lot of emphasis in the report on accountability. There are then several elements to the report that Dr. Asher centered on as being important for us to think about. Obviously the admissions situation qualification for admissions is one that we need to be careful about in the way in which the definition of this dual admissions thing is ultimately outlined. Ohio State had, prior to the issuance of this report, begun an initiative to advocate removing certain state restrictions on our activities, or better said certain state procedures of which cause us to take more time and spend more money upfront for various things in particular construction projects, restrictions with regard to treatment of intellectual property and so on. Those are not covered in the report. The committee feels we should not allow those issues to go away as this process continues. We should see that those kinds of considerations released from those restrictions become part of the format of the State University System of Ohio. There is also a provision for creating a charitable foundation which would allow the chancellor to solicit private funds to create an endowment for financial aid with an immediate

April 4, 2008 meeting, Board of Trustees

target on about \$1 billion and there is some considerable concern by the various universities about what impact that would have on current development activities that ourselves and others similarly situated, there again, another thing to keep an eye on.

There is also a suggestion that all universities be required to use the semester system. This of course would have an impact immediately upon us and just exactly what switching to a semester would mean is not clear from the report.

We ended the session with interesting discussion about who the next chancellor will be. The question arose because I think most of us are very comfortable with the current chancellor. He is intelligent, he is thoughtful, he seems to have a good appreciation for what this University is about, but this plan is a ten-year plan, so it is very likely to go many years beyond his term of office. The question was raised whether there should be some definition of what qualifications there should be for a new Chancellor. Chancellors, under legislation passed earlier this year, are now directly appointed by the governor just like other members of his cabinet. They will be a member of the cabinet. That legislation contains no language regarding qualification or characteristics. There was some considerable discussion of that and I think an agreement that this should be a clarification of the legislation that created the chancellor and his current guys that is part of the establishment of the University system.

Finally we had five consent agenda items that were presented by the provost and recommended to the Board by our committee.

Dr. Cloyd:

Thank you Ambassador. Questions or comments on the report?

I have two comments I wanted to make, first of all I do not think Vice Provost Smith is here, but I am really compelled to acknowledge appreciation for the work that they are doing around centers and institutes. As we have talked around this table many times, simplifying work, bringing focus, getting rid of complexity, getting rid of bureaucracy is just extraordinarily important to have a highly efficient and effective University, and the work that is going on right now really reflects that, and that is often non-glamorous and I think it is fair to say, sometimes under-appreciated work, but I think it is a terrific effort and President Gee I am glad to see the University taking this on.

We will try to have regular kinds of updates with the Board on the University System of Ohio. As things develop, as the Ambassador said, we are part of the system, we have a critical role to play in the system as Ohio seeks some goals that I know we all support, but doing it in a way that leverages our strengths, does not create any bureaucracy or inappropriate barriers as we go forward, kind of into the how's, I think, in terms of what we want to accomplish. Everyone is aligned, but obviously as we get into some of the how's it done, there is going to be some questions and opportunities to do it in the most efficient and effective way. I know the Ambassador and his committee will work to keep the Board up-to-date in terms of the development of this important new system.

I would like to next go to the Fiscal Affairs Committee, Mr. Hicks.

Mr. Hicks:

Thank you Mr. Chairman, we had a four hour agenda that we put into a 90 minute meeting, so I will try to take some time and go through some of these things very quickly.

We heard a first reading of our FY09 instructional and general fee recommendations. This will come back to us as part of the budget process in months to come, but we

April 4, 2008 meeting, Board of Trustees

would highlight that we will be recommending a 0% tuition increase per state law. This is a first, as Mr. Shkurti pointed out, back to back tuition freezes in 40 years, so that is very significant.

We will be eliminating with this any tiered tuition that we have had for the last several years. For non-resident and graduate tuition, we will see about a 5% increase, although that is the lowest level in 14 years for non-residents and the lowest level in six years for graduates, so these numbers are very strong and very solid. Room and board will see a slight increase although we are putting a lot of money, as we all know, back into renovations particularly of our dormitories over the next several years, four years particularly. We do have, and will see a recommendation of a \$1 increase for the RPAC, but at the same time we will see part of the recommendation package that comes forward for increased financial aid to accommodate even these minor increases for room and board and RPAC and other things.

We then heard a second reading of the five-year financial goals. This is information we heard back in September. A number of changes and considerations have been included in this document since that time to essentially account for new processes that the president and his administration are putting into place. We are obviously looking at liquidity and margin and debt coverage ratios, and we are expecting a vote in June on that.

We had a very brief report on the long-term operating funds and the investment of those. Although the majority of that activity will be done by the Development and Investment Committee, I think they are going to be coming forward in the next subsequent meetings with a recommendation from that standpoint.

We had a very interesting dialogue and discussion on a report that we requested back in December to look at our capital expenditure trends, particularly looking at the major areas in which we are spending the majority of our capital expenditure dollars. We looked particularly at age to depletion ratios and analysis for academic health science buildings, athletic buildings, student affairs, both the housing and some of the non-housing student affairs. We clearly have some challenges from a housing standpoint. We did have some discussion of the regional campuses and overall infrastructure. We talked a lot about needing some additional analysis, particularly related to our peers and other organizations in planning, but this is the first crack we have really taken and looked at in these big buckets, and it was very good and Bill Shkurti and Melissa Bellini and their staff did a good job presenting this information to us.

We had a fairly extensive discussion on energy services at this meeting today. We expect to have another long discussion on energy sustainability in June but we focused on the service areas today. This is one of the six significant areas that we have identified for cost containment. We spend about \$58 million a year on energy, so it obviously is a big ticket item. We talked a lot about how to continue, make sure we have continuity and good customer service for our energy needs. Utility metering, we had an overview of some of the energy audits, and some of the improvement programs that have been done in a number of the buildings. There have been 27 energy projects completed and it has saved about \$1.42 million. There are another 11 projects going on right now that savings will, when completed, be in the \$780 thousand range. The savings are very significant there.

We spent some time talking about a mandate that is on us from House Bill 251 that was passed last year. In a nutshell, House Bill 251, among other things, requires us to reduce our energy consumption by 20% by the year 2014. So this is a fairly significant change in operations that we have to do. There will be Inner-University Council (IUC) guidelines on this, and Melissa and her staff, Ross Parkman and Aparna Dial, are going to be presenting a plan to us later this fall on those issues.

April 4, 2008 meeting, Board of Trustees

We had a very robust discussion on our energy mandates and our energy benchmarks, and really spent a lot of time talking about how we look at major renovations, like the library and new construction like what we are talking about with the Medical Center and certainly with the Ohio Union and other things, to ensure that we are really looking at total lifecycle costs for these buildings. Energy up until fairly recently really, 2006-2007 was not one of the key categories that we looked at, although given the energy prices today and what we are expecting they are going to be in the future. We do need to look at the utility costs. We have asked the staff to help us develop a policy so that when we are looking at these major construction projects that we are thinking about how we incorporate the most efficient design parts right as we are doing the design work. Mr. Schottenstein raised the analogy of we have a policy that basically says we have to have a certain amount of our private development dollars in hand before we go to construction, and this is somewhat analogist to that where we want to think about looking at a certain benchmark, if you will, of utility reduction and efficiency before we get into construction. We spent a lot of time talking about that and its an issue we are going to spend some more time on.

We also asked the staff to look at a couple of the existing ongoing projects, like the library, like the Ohio Union, to figure out if there is anything we could do yet still to improve the energy efficiency of these buildings as the utility costs continue to go up and up. We had a very, very robust discussion on those issues.

We had our quarterly capital projects report from Melissa Bellini. We did hear an update on the library, which reminded everybody that this is \$108 million. It is on budget and on time right now, which we are very pleased to see. Also it was pointed out that 85% of the development dollars are in hand for this project, so that is over \$25 million in hand, cash in hand, so we are very pleased to see that. We talked a little bit about the Ohio Union Parking Garage which I am sure everyone who has to park on campus will be delighted when that gets done. That is also on time and on budget, and it turns out that we are actually in the lower end of the cost side of the house, if you will, for building parking garages at this facility. We were actually able to reduce some of the costs because of the way it was bid out with the Ohio Union construction, as one fell swoop project if you will.

We talked a little bit about OARDC Animal and Plant Biology Level 3 isolate facility. This is called the BSL3 Facility. The schematic designs for this building came in fairly higher than what we were expecting. We had budgeted in the neighborhood of \$20 million, it came in at \$25 million. Staff is looking at a number of options and some feasibility plans to reduce the costs of this or to recast the projects and where we would come on this. This project does show where our different levels of review at different points along the construction line are very helpful to us as we try to get a handle on these construction costs.

We heard from Bill Shkurti and Pete Geier about our ambulatory care plans, specifically that we will be having an ambulatory care facility of about 30,000 square feet up on Route 23 and Lewis Center. No vote is needed for this in our new policies that we passed last month. It was a bid project. We will be housing some family medicine, sports medicine and some imaging and cardiology, I think, in this location once it is fully up and running.

We also expect, according to Mr. Geier, to be moving towards an RFP, an April timeframe to be looked at for James Care, which is currently in operation and at full operation up in Dublin as we know.

We have four resolutions for the consent agenda, dealing with two internal lines of credits of which money has been identified. We have a number of design and construction contracts, two of which I would point out have to do with the Medical System Master Plan that we talked about yesterday, and those are on the consent agenda today, and then we have an item for the purchase of property near the airport

April 4, 2008 meeting, Board of Trustees

and an item for the lease of that property to MedFlight, and we would ask for formal approval of those documents today.

That concludes the report.

Dr. Cloyd:

Thank you, Mr. Hicks. I think you did cram a four hour agenda into 90 minutes. I do have one question on the energy reduction requirements of 20% in 2014. It is a two part question. You mentioned that the IUC is going to be having guidelines - what kinds of guidelines, and has anyone factored how you will make that determination versus how you are going to have continued expansion and other facilities coming online between now and 2014.

Mr. Hicks:

I am going to look to Melissa to help out on this.

Ms. Bellini:

The 20% reduction is based on the 2004 baseline and so it is really based on the square footage in 2004. The guidelines were to provide parameters for us to build our own policies which we would bring to the Board in November.

Dr. Cloyd:

So you would have a common energy determination by square foot/square meter, and then if you would expand, you would have a common footprint you would do it from.

Ms. Bellini:

BTU is by square foot.

Dr. Cloyd:

I see, thank you.

Mr. Hicks:

Mr. Chairman, one of the things we looked at is very interesting and somewhat alarming, the chart of our BTU usage per square foot compared to some comparable institutions, where it appears ours are going up and some others are going down. We have some more information to gather on that but they are trying to harmonize these things so you are not looking at cost but you are looking at BTUs, so whatever the energy source, whether coal or natural gas or wind, or whatever the case may be, is converted to BTU.

Dr. Cloyd:

So it is BTUs per square foot.

Mr. McFerson:

Is the Ohio Union Parking Garage coming online before the Ohio Union and how many parking spaces are we talking about here?

April 4, 2008 meeting, Board of Trustees

Ms. Bellini:

It is coming on before, yes, it is coordinated, and I think 1,100 spaces. I am sorry, 840 new spaces.

Mr. McFerson:

It's pretty big.

Dr. Cloyd:

Any other questions or comments? Mr. Wexner.

Mr. Wexner:

I had to take a phone call but I know Brian made a point; It is such a big deal. Our energy costs are about \$60 million a year, and if you assume energy costs compounded at 10%, 12%, 15%, and 20%, at 15% they will be \$120 million in five years, so the issue really knows what the standards are. For example, it was not on anybody's radar, the biomedical research tower, good thing for us to know as an example is that when we started on that project, what the top performers are in terms of planning buildings that are energy efficient, and obviously that was not done, presumably we are efficient, but then the capital costs against the operating costs are going to change the paradigms of our buildings. We are looking at where we have been efficient in capital costs per square foot in the aggregate, we could be terribly inefficient and it just keeps right on going. When we are talking about a magnitude of \$60 million line items that could double, I think probably will double on our budget. This is big, for me I never saw it before, but it was like a big red light on my dial.

Dr. Cloyd:

Excellent point. I agree 100% Mr. Wexner. I think it is going to be very important and obviously it is going to take a lot of thinking in our state competitive bidding system. How are you going to factor different energy efficient construction plans versus something that might be a lower cost but does not have the same kind of energy efficiency to it because I am still looking for that prescient person, and have not found them. Anyone that tries to predict what fuel costs and energy costs are going to be five to ten years from now, it is just so speculative. We just know it is going to be bigger, but it is how much bigger, who knows. So this is something that is going to be very important for us to do.

Are we getting, you mentioned the IUC and the others, the best thinking we think out there in the country today on how we should be thinking about this?

Ms. Bellini:

I think they are doing a fair job. It is very new. It's a big challenge for all of us given the age of our facilities so I would wait and see the end product before I would say it is the best thinking, but they are benchmarking and are using track ...*inaudible*..... and they do have representation from all...*inaudible*.

Dr. Cloyd:

Okay. Also Melissa, I would make sure they really look at the private industry and what is going on. I know from our own company standpoint, this is something that is now a very high priority and we are looking for the best thinking out there on construction of energy efficient facilities so I would just encourage a very broad look at who may know something that would be very helpful to us so that we can plan appropriately.

April 4, 2008 meeting, Board of Trustees

Any other questions or comments.

Mr. Wexner:

This has particular implication as we are about to begin the real planning of the largest facility and medicine clearly uses a lot of energy. Is that going to make the construction costs go lower?

Dr. Cloyd:

Absolutely Mr. Wexner. It's a great point.

Mr. Schottenstein:

Gil, just on this and I am sure this resonates with everyone here. We have a lot of goals as a University, and Gordon has helped shape those. Knowing full well that there are few institutions that will engage in more capital projects in this state or this region over the next generation, for us to take a leadership role in what is an absolutely critical social economic purpose, a noble purpose, I think is something that the University and us as a Board would be commended to get our arms around. I thought that the discussion we had in our committee and the comments that Les and Brian made are really spot on and we need to be a balance. It is as important as having a budget beforehand. What are we doing to be green, what are we doing to pay attention to this? We need to lead in this.

Dr. Cloyd:

I agree. I think it is great and I hope President Gee that resonates with you.

President Gee:

The message has been heard clearly. I want to note what both of you said. There is a confluence here given \$100 for a barrel of oil. It is a wonderful confluence which is this, one is the fact that we are going to be doing a tremendous amount of building. Anytime we can save money it is appropriate. Anytime we can also engage in good social policy and good social engineering it is also important. The other thing is the fact that again one of the points that we need to make, and remind ourselves about all the time, is that we want to be on the leading edge of change. We want to set not only a financial standard for excellence, but also a moral standard for good. I think that those two things come together very nicely so I would urge all of us to think very aggressively. Melissa will have that responsibility.

Mr. Wexner:

I think in this one you have the academic and research component, whether it is in engineering, business, life sciences, agrofuels or big state initiatives. We have a whole bunch of reasons, whether it is business students doing a case study or engineers and researchers being engaged in this. We have got a big project that should really have intellectual power just to help us solve it.

Ambassador Ong:

You know this reminds me, we had the discussion, I did not mention this in my report, but there is rather broad and not very specific language in the chancellor's report about Ohio State helping other universities throughout the state. In our committee discussion we assumed that, perhaps, one way to do that might be to convene conferences of the 13 universities here to discuss major issues. This strikes me as a natural thing, if we could draw the other universities in the state together and talk about how do we meet

April 4, 2008 meeting, Board of Trustees

this statutory requirement within the time zone that would be clear evidence of our helping the system.

President Gee:

Coming back to the intellectual resources we can be, Mr. Wexner's point is that here we have some of the environmentally advanced thinking on this campus. Intellectually the question is why not use it in terms of our own internal discussion and external consulting and partnering. We just appointed a new head of our architecture school Ann Pendleton-Jullian, comes to us from MIT, one of the foremost thinkers in terms of environmentally sound facilities in the country and in the world, really. Here she is sitting right there and we should have that conversation starting with people like that.

Mr. Wexner:

To tag on, it just occurred to me, we should all know that one of the Governor's priorities that I have heard about is to make Ohio the center for biofuels, whether it is for plastics or for other products, because of the agricultural nature of the state, and clearly we are really in that and this major bond package that they have is connected, I think, to biofuels and research and we should be at the center of that for the good of the state, for the good of the world, and for the good of ourselves. There is some connective tissue.

Mr. Ratner:

The only thing that I wanted to comment on here is, it is really a much broader issue of sustainability. It is an issue that goes from daylighting, indoor air quality, a whole range of issues, and in my corporate world, when we start to look at issues of sustainability, we have begun to realize that it just cannot be at the end use and say now what can we do to paint the building green. You really have to think through from the very beginning of the process, from sighting buildings, from thinking about the way, at some level, the campus is organized and we think about the way people get around on the campus. It is large. Is there a way to do it without vehicles? There are so many different places, so one level has to ingrain our thinking and everything we do. The other side is that there is also a consistent pattern of being able to go back and finding out, in fact, that there is new low hanging fruit. Technologies just were not available three and five years ago in certain areas of energy recovery, energy sustainability, dealing with waste and dealing with water conservation. Things that were prohibitive in cost just three to five years ago are now not only not prohibitive, but both the cost of the energy on the one side has gone up and the cost of the systems to save energy has gone down, and we were surprised within our corporate portfolio at things that we rejected just five years ago. We thought we had done an exhaustive study on our existing portfolio and found out that redoing that study last year made us realize that we had a very easy 20% reduction across the board in energy utilization that was not available when we studied the same property five years ago. I just urge that we constantly keep at this because there is clearly this advance in the underlying technologies of what is available. Changing things, as we speak, so it is not just on major new buildings, I think particularly when we have a lot of old dinosaurs on campus, I think we would be shocked at how much we can do in those buildings to really change the way we use and think about energy.

Dr. Cloyd:

Excellent point.

April 4, 2008 meeting, Board of Trustees

Mr. Fisher:

I would like to invite all of the Board members over to the dedication this afternoon at 3:00 pm of the 4-H Center, which would be a good example of our best effort to date on campus of a lot of these issues you are talking about.

Dr. Cloyd:

Thank you Mr. Fisher. Any other questions or comments on the report?

I will note for the record that we had a full Board review yesterday. That supplanted the Medical Affairs Committee as we reviewed the Medical Center Space Plan. It was an excellent review. They also have things coming in June. As I was thinking about June and particularly after these reports, I will make a promise to the Board members that Dr. Frantz and I will cloister and figure out how we can cover the number of very meaty topics and key decisions we are going to have to make in June. I think we are going to have to think of non-traditional kinds of thoughts around that so that we will be able to get through the agenda because it is clearly going to be a very important and a very full one.

I would like to now call on President Gee to present the consent agenda to the Board.

CONSENT AGENDA

President Gee:

Thank you, Mr. Chairman, we have 22 resolutions on the consent agenda. We are asking that separate votes be held for items 12 and 18 due to conflict of interest possibilities, therefore we are asking approval for the following:

REGIONAL CAMPUS BOARD APPOINTMENTS

Resolution No. 2008-86

Synopsis: Approval of appointments to the Mansfield Regional Campus Board is proposed.

WHEREAS the Board of Trustees in 1994 approved the establishment of The Ohio State University Regional Campus Boards; and

WHEREAS it has been previously stipulated that "the board shall be composed of ten members appointed by The Ohio State University Board of Trustees in consultation with the president of the university;" nine members shall be private citizens; and one member shall be a student; and

WHEREAS the following named individuals have been nominated and selected for appointments to the Mansfield Campus Board for the terms specified:

Mansfield Board

David J. Gooch, 1st term, July 1, 2008, through June 30, 2011

John S. Roby, 3rd term, July 1, 2008, through June 30, 2011

John R. Shuler, 2nd term, July 1, 2008, through June 30, 2011

Sara M. Fisher (student), 2nd term, July 1, 2008, through June 30, 2009

NOW THEREFORE

BE IT RESOLVED, That the foregoing nominees be approved as members of the Mansfield Regional Campus Board for the terms specified.

April 4, 2008 meeting, Board of Trustees

UNIVERSITY HOSPITALS BOARDS APPOINTMENT/REAPPOINTMENTS

Resolution No. 2008-87

Synopsis: Recommending approval of appointment/reappointments to the University Hospitals Board, the University Hospitals East Board, OSU Harding Hospital Board and the Richard M. Ross Heart Hospital Board.

WHEREAS in accordance with University Hospitals Board Bylaw (3335-104-01) all members of a specialized board shall be appointed by The Ohio State University Board of Trustees in consultation with the vice president for health services, the senior vice president for health sciences, and the president of the University:

NOW THEREFORE

BE IT RESOLVED, That the following individuals be appointed/reappointed as follows:

University Hospitals Board

Todd B. Barnum (2nd term) - effective March 1, 2008, through February 28, 2011

John F. Havens (3rd term) - effective May 1, 2008, through April 30, 2011

W.G. (Jerry) Jurgensen (2nd term) - effective March 1, 2008, through February 28, 2011

Nancy Petro (3rd term) - effective June 1, 2008, through May 31, 2011

David P. Lauer (reappointment) - Chair, effective July 1, 2008, through June 30, 2009

Nancy Petro (reappointment) - Vice Chair, effective June 1, 2008, through May 31, 2009

University Hospitals East Board

Karen Angelou (2nd term) - effective November 1, 2007, through October 31, 2010

James Phieffer (2nd term) - effective March 1, 2008, through February 28, 2011

George A. Skestos (reappointment) - Chair,
effective July 1, 2008, through June 30, 2009

OSU Harding Hospital Board

Charles A. Schneider (1st term) effective April 1, 2008, through March 31, 2011

Donald Scriven (2nd term) - effective April 1, 2008, through March 31, 2011

Anne K. Jeffrey (reappointment) - Chair,
effective July 1, 2008, through June 30, 2009

Peter F. Frenzer (reappointment) - Vice Chair,
effective July 1, 2008, through June 30, 2009

Richard M. Ross Heart Hospital Board

John B. Gerlach Jr. (3rd term) - effective January 1, 2008, through December 31, 2010

William D. Wells (2nd term) - effective July 1, 2007, through June 30, 2010

Frank Wobst (3rd term) - effective January 1, 2008, through December 31, 2010

John B. Gerlach Jr. (reappointment) - Chair,
effective September 1, 2008, through August 31, 2009

REAPPOINTMENT TO THE SELF-INSURANCE BOARD

Resolution No. 2008-88

Synopsis: Reappointment of a member to the Self-Insurance Board is proposed.

April 4, 2008 meeting, Board of Trustees

WHEREAS the Board of Trustees on December 6, 2002, approved the expansion of the University Self-Insurance Program to include the faculty physicians and their clinical staff who are employees of Ohio State University Physicians, Inc.; and

WHEREAS the Board of Trustees directed that a Self-Insurance Board be established to oversee the University Self-Insurance Program; and

WHEREAS all members of the Self-Insurance Board shall be appointed by The Ohio State University Board of Trustees upon recommendation of the President:

NOW THEREFORE

BE IT RESOLVED, That the following individual be reappointed as a member of the Self-Insurance Board effective October 1, 2007, for the term specified below:

Thomas W. Johnson, term ending April 30, 2009 (reappointed)

BE IT FURTHER RESOLVED, That this reappointment entitles the member to any immunity, insurance or indemnity protection to which officers and employees of the University are, or hereafter may become, entitled.

**APPROVAL OF THE UNIVERSITY ADMINISTRATIVE REORGANIZATION
AND AUTHORITY TO AMEND THE *BYLAWS OF THE BOARD OF
TRUSTEES AND RULES OF THE UNIVERSITY FACULTY***

Resolution No. 2008-89

Synopsis: Approval of the administrative reorganization plan, organizational chart, and authority to amend the *Bylaws of the Board of Trustees and Rules of the University Faculty* to reflect title changes and the delineation of responsibilities in accordance with the reorganization of the central University administration are recommended.

WHEREAS the President has announced an administrative reorganization plan designed to enhance effective decision-making, communication and accountability and align the collective senior leadership to focus on the academic goals and priorities for the University; and

WHEREAS pursuant to the recommended reorganization plan, a copy of which is filed with this resolution, the position of Senior Vice President is being created to bring focus, consistency, and integration to both long-term planning and day-to-day operations and to create unique opportunities for collaboration and to further develop our commitment to *one* Ohio State; and

WHEREAS reporting to the Senior Vice President will be the Vice for President for Student Affairs and the newly established position of Vice President for Outreach and Engagement, with its portfolio to include Campus Partners as well as the University's other outreach initiatives; and

WHEREAS while still reporting directly to the President, the Director of Athletics will work strategically and regularly with the Senior Vice President; and will have the additional title of Assistant Vice President; and

WHEREAS while still reporting directly to the President, the Vice President of Legal Affairs and General Counsel will also report directly to the Senior Vice President; and

WHEREAS other aspects of this reorganization include changing the title of the Vice President for Development to the Senior Vice President for Development; and realigning

April 4, 2008 meeting, Board of Trustees

the reporting responsibility of the Senior Vice President for Research to the Executive Vice President and Provost; and

WHEREAS these and other position realignments and assignments are reflected in personnel actions which are the subject of a separate resolution:

NOW THEREFORE

BE IT RESOLVED, That pursuant to rule 3335-1-09 of the Administrative Code and upon the recommendation of the President, the proposed administrative reorganization plan and organizational chart is hereby approved and the Bylaws of the Board of Trustees and the Rules of the University Faculty are hereby amended accordingly, effective immediately; and

BE IT FURTHER RESOLVED, That the Secretary of the Board of Trustees is hereby authorized and directed to incorporate these changes into the applicable sections in the *Bylaws of the Board of Trustees* and the *Rules of the University Faculty*.

(See Appendix XLV for background information, page 1018.)

NAMING OF PARKING FACILITY

Resolution No. 2008-90

Synopsis: The naming of the parking garage located at 1585 Westpark Street within The Ohio State University Medical Center area and attached to the Richard M. Ross Heart Hospital is proposed.

WHEREAS the Safe Auto Company and its corporate officers and employees have been longtime and generous donors to The Ohio State University; and

WHEREAS their gift to support the parking of hospital patients and visitors further demonstrates their commitment to the University and the Medical Center; and

WHEREAS their philanthropy will contribute to making excellent medical research, education and patient care available to the citizens of Columbus and the state of Ohio;

NOW THEREFORE

BE IT RESOLVED, that in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the Board of Trustees hereby approves the naming of "The Safe Auto Hospitals Parking Garage," effective immediately.

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 2008-91

Synopsis: Approval of the following amendments to the *Rules of the University Faculty* are recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the *Rules of the University Faculty* as approved by the University Senate; and

WHEREAS the proposed changes in the *Rules of the University Faculty* were approved by the University Senate on February 7, 2008:

April 4, 2008 meeting, Board of Trustees

3335-5-19.1 University faculty.

For purposes of the governance functions described in rules 3335-5-20 to 3335-5-25, and rule 3335-5-37 of the Administrative Code, the term "university faculty" shall mean all regular tenure-track faculty, such regular clinical track faculty as are authorized pursuant to rule 3335-7-11, the president, members of the president's planning cabinet serving at the president's pleasure and designated as executive heads of offices, the deans of the colleges and of the graduate school, and the dean for undergraduate education.

3335-7-11 Participation in governance by regular clinical track faculty.

- (A) A college or academic unit that appoints regular clinical track faculty determines the level of participation in college and departmental structures.
- (B) A college or academic unit that appoints regular clinical track faculty and elects senators may, by vote of at least a majority of all of its regular tenure track faculty, determine that the regular clinical track members of its faculty are eligible for election to the university senate.
- (C) Following approval by a college or academic unit of eligibility of its regular clinical track faculty for election to the senate under the foregoing paragraph:
 - (1) For purposes of selection of university senators, the electorate for the college or academic unit shall be composed of all regular tenure track and regular clinical track faculty.
 - (2) Any regular clinical track faculty member appointed by the college or academic unit may stand for election to serve as a representative in the senate.
 - (3) The minimum and maximum numbers of clinical track faculty from each college or academic unit that may serve as representatives in the senate shall be determined by majority vote of regular tenure track and regular clinical track faculty appointed by that college or academic unit within the limits provided for in paragraph 4 of this section.
 - (4) One senator or not more than 45% of the senators representing that college or academic unit, whichever is greater, may be regular clinical track faculty of the college or academic unit.

3335-5-38 Terms of office.

- (A) unchanged.
- (B) Faculty members shall serve three-year terms, with one-third being elected each year; they shall be ineligible for one year for reelection; unless otherwise noted below, faculty-senator elections will be completed before the end of the winter quarter annually.
- (C) unchanged.

3335-5-46 Senate committee operating procedures.

The university senate shall have committees designated as organizing, standing, or special.

April 4, 2008 meeting, Board of Trustees

(A) Membership.

(1) through (4) unchanged.

(5) Terms of service.

Unless otherwise specified by the rules, terms of service of senate committee members shall begin and end on the first day of autumn quarter; incoming members may attend meetings as non-voting members as soon as they are appointed.

(B) Duties and responsibilities.

(1) and (2) unchanged.

(C) Organization.

Committee chairs. Except where otherwise specified by the rules, in the spring each committee shall elect a chair ~~pro tem in the spring~~ from its continuing membership ~~and a chair at its first meeting in the autumn quarter, whose term shall begin the subsequent summer quarter; where it is deemed useful, committees may elect a vice-chair in the autumn to assist the current chair.~~

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the *Rules of the University Faculty* be adopted as recommended by the University Senate.

**ESTABLISHMENT OF A BACHELOR OF SCIENCE IN
BIOMEDICAL ENGINEERING DEGREE PROGRAM**

Resolution No. 2008-92

WHEREAS biomedical engineering has become accepted as an important field of interdisciplinary research, reflected in a growing set of national-level activities such as the establishment of new academic programs and academic departments; and

WHEREAS at The Ohio State University a graduate program has existed in this field since 1971, but no undergraduate degree program; and

WHEREAS in November 2005 the Department of Biomedical Engineering was established and this new degree program has emerged from the strategic planning process within the Department; and

WHEREAS the proposal was reviewed and approved by the Council on Academic Affairs, and by University Senate at its February 7, 2008 meeting:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish a Bachelor of Science in Biomedical Engineering degree program is hereby approved, effective upon the approval of the Board of Regents.

**ESTABLISHMENT OF A BACHELOR OF SCIENCE IN
ENVIRONMENTAL ENGINEERING DEGREE PROGRAM**

Resolution No. 2008-93

April 4, 2008 meeting, Board of Trustees

WHEREAS the study of environmental engineering is now an "option" within the civil engineering undergraduate degree program, accredited separately since 1993; and

WHEREAS this new degree program conforms to the practice of the profession where the accredited program leads to a BSEnvE degree; aligns the program with recent changes in accreditation criteria to the content of the National Council on Engineering Examiners for Engineering and Surveying; and will lead to related changes in the existing MS/Ph.D. program in this field; and

WHEREAS the proposal was reviewed and approved by the Council on Academic Affairs, and by University Senate at its February 7, 2008 meeting:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish a Bachelor of Science in Environmental Engineering degree program is hereby approved, effective upon the approval of the Board of Regents.

ESTABLISHMENT OF A DOCTOR OF NURSING PRACTICE DEGREE PROGRAM

Resolution No. 2008-94

WHEREAS the Doctor of Nursing Practice (DNP) is being proposed in response to dramatic change in the health care needs of this country and the global community, and is aligned with a recommendation from the *American Association of Colleges of Nursing* (AACN); and

WHEREAS the DNP is an advanced degree for persons already holding a baccalaureate degree and licensed to practice professional nursing, and is not the degree for entry into practice; and the new degree will be a DNP in accordance with AACN recommendations regarding degree title; and

WHEREAS the proposal was reviewed and approved by the Council on Research and Graduate Studies, the Council on Academic Affairs, and by University Senate at its February 7, 2008 meeting:

NOW THEREFORE

BE IT RESOLVED, That the proposal to establish a Doctorate of Nursing Practice degree program is hereby approved, effective upon the approval of the Board of Regents.

COLLEGE OF DENTISTRY REORGANIZATION

Resolution No. 2008-95

WHEREAS the College of Dentistry currently has eight sections based on recognized dental specialties, each with a section head who reports to the dean; and

WHEREAS recent College discussions have resulted in a proposal to convert the eight sections, and add dental hygiene, to become nine divisions, each with its own chairperson, thus aligning the college, in terms of administrative organization, with peer institutions; and

WHEREAS the proposal was reviewed and approved by the Council on Academic Affairs at its meeting on November 28, 2007:

NOW THEREFORE

April 4, 2008 meeting, Board of Trustees

BE IT RESOLVED, That the College of Dentistry proposal to convert eight sections and add dental hygiene, to become nine divisions, each with its own chairperson is hereby approved.

HONORARY DEGREES

Resolution No. 2008-96

Synopsis: The awarding of honorary degrees is recommended for approval.

WHEREAS the Committee on Honorary Degrees and the University Senate, pursuant to rule 3335-5-488 of the Administrative Code, have approved for recommendation to the Board of Trustees the awarding of honorary degrees as listed below:

William E. Evans	Doctor of Science
Brien A. Holden	Doctor of Science
Orhan Pamuk	Doctor of Literature

NOW THEREFORE

BE IT RESOLVED, That the above honorary degrees be awarded in accordance with the recommendation at a time convenient to the University and the recipients.

PERSONNEL ACTIONS

Resolution No. 2008-97

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the February 1, 2008 meeting of the Board, including the following Appointments, Concurrent Appointments, Appointment of Chairpersons, Leave of Absence - Continuation, Professional Improvement Leaves, Emeritus Titles, and Emeritus Titles - change in dates, be approved; and

Appointments

Name: DANIEL C.K. CHOW
Titles: Professor (The Joseph S. Platt-Porter, Wright, Morris & Arthur Professorship of Law)
College: The Moritz College of Law
Term: December 1, 2007 through November 20, 2017

Name: BRUCE S. JOHNSON
Title: Professor (The Thomas J. and Mary E. Heck and Leo H. Faust Memorial Designated Professorship in the Law Library)
College: The Moritz College of Law
Term: February 13, 2008 through February 28, 2013

Name: DONALD O. MUTTI
Titles: Professor (The E. F. Wildermuth Foundation Professorship in Optometry)
College: Optometry
Effective: February 1, 2008

April 4, 2008 meeting, Board of Trustees

Name: MOHAMMAD SAMIMY
Titles: Professor (The Howard D. Winbigler Designated Professorship)
College: Engineering
Term: April 1, 2008 through March 31, 2013

Name: MANI A. VANNAN
Titles: Chair (The Joseph M. Ryan, M.D. Chair in Cardiovascular Medicine)
College: Medicine
Term: November 1, 2007 through October 31, 2012

Concurrent Appointments

Name: JEFF M.S. KAPLAN
Title: Senior Vice President
Effective: March 17, 2008
Concurrent Title: Special Assistant to the President

Name: DAVID E. SCHULLER
Titles: Chief Executive Officer Emeritus of the Comprehensive Cancer Center
- The Arthur G. James Cancer Hospital and Richard J. Solove
Research Institute Vice President for Medical Center Expansion and
Outreach; Medical Director of the Power to Change Lives Campaign
Term: November 1, 2007 through October 31, 2012
Office: Health Sciences
Concurrent Title: Professor (The John W. Wolfe Chair in Cancer Research)

Name: EUGENE SMITH
Title: Assistant Vice President
Effective: March 17, 2008
Present Position: Director of Athletics

Appointment of Chairpersons

STUART L. COOPER, Department of Chemical and Biomolecular Engineering, effective July 1, 2008, through June 30, 2012.

KRISHNASWAMY SRINIVASAN, Department of Mechanical Engineering, effective July 1, 2008, through June 30, 2012.

Leave of Absence - Continuation

DECLAN G. SMITHIES, Assistant Professor, Department of Philosophy, effective Autumn Quarter 2008, Winter Quarter, and Spring Quarter 2009, to serve as a Post-doctoral Fellow at The Australian National University.

Professional Improvement Leaves

ROBERT M. ARKIN, Professor, Department of Psychology, effective Winter Quarter and Spring Quarter 2009.

ANISH K. ARORA, Professor, Department of Computer Science and Engineering, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

MANSEL G. BLACKFORD, Professor, Department of History, effective Winter Quarter and Spring Quarter 2009.

CYNTHIA J. BROKAW, Professor, Department of History, effective Winter Quarter, Spring Quarter, and Autumn Quarter 2009.

JOHN L. BROOKE, Professor, Department of History, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

April 4, 2008 meeting, Board of Trustees

HENRY R. BUSBY, Professor, Department of Mechanical Engineering, effective Winter Quarter and Spring Quarter 2009.

STEVEN CONN, Professor, Department of History, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

JOSE B. CRUZ, JR., Professor, Department of Electrical and Computer Engineering, effective Autumn Quarter 2008 and Winter Quarter 2009.

HELEN FEHERVARY, Professor, Department of Germanic Languages and Literature, effective Winter Quarter and Spring Quarter 2009.

KENNETH W. GOINGS, Professor, Department of African American and African Studies, effective Autumn Quarter 2008 and Winter Quarter 2009.

DONNA J. GUY, Professor, Department of History, effective Autumn Quarter 2008.

DAVID G. HORN, Professor, Department of Comparative Studies, effective Autumn Quarter 2008 and Winter Quarter 2009.

ANDREW HUDGINS, Professor, Department of English, effective Autumn Quarter 2008.

THOMAS J. HUMANIC, Professor, Department of Physics, effective Autumn Quarter 2008 and Winter Quarter 2009.

ELIZABETH V. HUME, Professor, Department of Linguistics, effective Winter Quarter and Spring Quarter 2009.

MARIA C. JULIA, Professor, College of Social Work, effective Winter Quarter and Spring Quarter 2009.

ANTHONY KALDELLIS, Professor, Department of Greek and Latin, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

RAMA K. YEDAVALLI, Professor, Department of Aerospace Engineering, effective Winter Quarter and Spring Quarter 2009.

ROBERT D. LEVINE, Professor, Department of Linguistics, effective Spring Quarter and Autumn Quarter 2009.

DANIELLE C. MARX-SCOURAS, Professor, Department of French and Italian, effective Autumn Quarter 2008, Spring Quarter and Winter Quarter 2009.

JUDITH S. MAYNE, Professor, Department of French and Italian, effective Autumn Quarter 2008 and Winter Quarter 2009.

ERIN MCGRAW, Professor, Department of English, effective Autumn Quarter 2008.

JAY I. MYUNG, Professor, Department of Psychology, effective Winter Quarter and Spring Quarter 2009.

FUSUN OZGUNER, Professor, Department of Electrical and Computer Engineering, effective Autumn Quarter 2008 and Winter Quarter 2009.

STUART A. RABY, Professor, Department of Physics, effective Autumn Quarter 2008 and Winter Quarter 2009.

VIRGINIA E. RICHARDSON, Professor, College of Social Work, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

April 4, 2008 meeting, Board of Trustees

TAMAR RUDAVSKY, Professor, Department of Philosophy, effective Autumn Quarter 2008 and Winter Quarter 2009.

MOHAMMAD SAMIMY, Professor, Department of Mechanical Engineering, effective Winter Quarter and Spring Quarter 2009.

VISHWANATH V. SUBRAMANIAM, Professor, Department of Mechanical Engineering, effective Autumn Quarter 2008 and Winter Quarter 2009.

NEIL W. TENNANT, Professor, Department of Philosophy, effective Autumn Quarter 2008 and Winter Quarter 2009.

VADIM I. UTKIN, Professor, Department of Electrical and Computer Engineering, effective Spring Quarter and Autumn Quarter 2009, Winter Quarter 2010.

ROBERT H. WAGONER, Professor, Department of Materials Science and Engineering, effective Autumn Quarter 2008 and Autumn Quarter 2009.

LESLIE M. ALEXANDER, Associate Professor, Department of History, effective Autumn Quarter 2008 and Winter Quarter 2009.

GEORGIOS ANAGNOSTU, Associate Professor, Department of Greek and Latin, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

JANICE M. ASKI, Associate Professor, Department of French and Italian, effective Winter Quarter and Spring Quarter 2009.

DAVID A. BREWER, Associate Professor, Department of English, effective Winter Quarter and Spring Quarter 2009.

RALF A. BUNDSCHUH, Associate Professor, Department of Physics, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

LUCIA H. COSTIGAN, Associate Professor, Department of Spanish and Portuguese, effective Winter Quarter and Spring Quarter 2009.

HAKAN FERHATOSMANOGLU, Associate Professor, Department of Computer Science and Engineering, effective Winter Quarter and Spring Quarter 2009.

STEVEN S. FINK, Associate Professor, Department of English, effective Autumn Quarter 2008 and Winter Quarter 2009.

YANA HASHAMOVA, Associate Professor, Department of Slavic and East European Languages and Literature, effective Winter Quarter and Spring Quarter 2009.

WENDY S. HESFORD, Associate Professor, Department of English, effective Winter Quarter and Spring Quarter 2009.

ELIZABETH A. HEWITT, Associate Professor, Department of English, effective Winter Quarter and Spring Quarter 2009.

ROBIN E. JUDD, Associate Professor, Department of History, effective Winter Quarter and Spring Quarter 2009.

CHRISTIANE LAEUFER, Associate Professor, Department of French and Italian, effective Winter Quarter and Spring Quarter 2009.

April 4, 2008 meeting, Board of Trustees

RABI G. MISHALANI, Associate Professor, Department of Civil and Environmental Engineering and Geodetic Science, effective Autumn Quarter 2008 and Winter Quarter 2009.

PAUL REITTER, Associate Professor, Department of Germanic Languages and Literatures, effective Autumn Quarter 2008 and Winter Quarter 2009.

CHARLES J. QUINN, JR., Associate Professor, Department of East Asian Languages and Literatures, effective Winter Quarter and Spring Quarter 2009.

SHELLEY F. QUINN, Associate Professor, Department of East Asian Languages and Literatures, effective Winter Quarter and Spring Quarter 2009.

PHILIP SCHNITER, Associate Professor, Department of Electrical and Computer Engineering, effective Autumn Quarter 2008 and Winter Quarter 2009.

HAN-WEI SHEN, Associate Professor, Department of Computer Science and Engineering, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

DAVID H. STEIGERWALD, Associate Professor, Department of History (Marion Campus), effective Autumn Quarter 2008 and Winter Quarter 2009.

DAVID L. STEBENNE, Associate Professor, Department of History, effective Autumn Quarter 2008 and Winter Quarter 2009.

STEPHEN J. SUMMERHILL, Associate Professor, Department of Spanish and Portuguese, effective Winter Quarter and Spring Quarter 2009.

SIGRUN SVAVARSDOTTIR, Associate Professor, Department of Philosophy, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

FERNANDO L. TEIXEIRA, Associate Professor, Department of Electrical and Computer Engineering, effective Winter Quarter and Spring Quarter 2009.

HOWARD L. ULMAN, Associate Professor, Department of English, effective Winter Quarter and Spring Quarter 2009.

FERNANDO UNZUETA, Associate Professor, Department of Spanish and Portuguese, effective Autumn Quarter 2008 and Winter Quarter 2009.

HAROLD W. WALKER, Associate Professor, Department of Civil and Environmental Engineering and Geodetic Science, effective Winter Quarter and Spring Quarter 2009.

JIANQI WANG, Associate Professor, Department of East Asian Languages and Literatures, effective Autumn Quarter 2008 and Winter Quarter 2009.

JENNIFER WILLGING, Associate Professor, Department of French and Italian, effective Autumn Quarter 2008 and Winter Quarter 2009.

WOLFGANG E. WINDL, Associate Professor, Department of Materials Science and Engineering, effective Autumn Quarter 2008 and Winter Quarter 2009.

ETSUYO YUASA, Associate Professor, Department of East Asian Languages and Literatures, effective Winter Quarter and Spring Quarter 2009.

PARVANEH POURSHARIATI, Assistant Professor, Department of Near Eastern Languages and Cultures, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

April 4, 2008 meeting, Board of Trustees

Emeritus Titles

REUBEN AHRONI, Department of Near Eastern Languages and Cultures, with the title Professor Emeritus, effective July 1, 2008.

JAMES H. CALDWELL, Department of Internal Medicine, with the title Professor Emeritus, effective April 1, 2008.

THOMAS L. CLANTON, Department of Internal Medicine, with the title Professor Emeritus, effective April 1, 2008.

DAVID J. HORN, Department of Entomology, with the title Professor Emeritus, effective April 1, 2008.

RANDALL E. JAMES, Ohio State University Extension, with the title Professor Emeritus, effective May 1, 2008.

ALAMIN MAZRUI, Department of African American and African Studies, with the title Professor Emeritus, effective April 1, 2008.

ROBERT E. NORTON, Department of Human and Community Resource Development, with the title Professor Emeritus, effective April 1, 2008.

STEPHEN S. PINSKY, Department of Physics, with the title Professor Emeritus, effective April 1, 2008.

RUSSELL M. PITZER, Department of Chemistry, with the title Professor Emeritus, effective July 1, 2008.

KARLIS RACEVSKIS, Department of French and Italian, with the title Professor Emeritus, effective July 1, 2008.

BOSTWICK F. WYMAN, Department of Mathematics, with the title Professor Emeritus, effective July 1, 2008.

STEPHEN R. BAERTSCHE, Ohio State University Extension, with the title Associate Professor Emeritus, effective April 1, 2008.

HARVEY G. SHULMAN, Department of Psychology, with the title Associate Professor Emeritus, effective April 1, 2008.

NEIL J. ANDREW, School of Environment and Natural Resources, with the title Assistant Professor Emeritus, effective April 1, 2008.

JANE C. MARTIN, Ohio State University Extension, with the title Assistant Professor Emeritus, effective May 1, 2008.

Emeritus Titles - change in dates

RAPHAEL T. GEORGE, Department of Consumer Sciences, with the title Associate Professor Emeritus, change effective date of January 1, 2008, to September 1, 2008.

RESOLUTIONS IN MEMORIAM

Resolution No. 2008-98

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

April 4, 2008 meeting, Board of Trustees

Arthur E. Adams

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 6, 2007, of Arthur E. Adams, Professor Emeritus in the Department of History and former Dean of the College of Humanities and Associate Provost.

Professor Adams was a graduate of the University of Nebraska and a veteran of World War II, having served as an infantry officer overseas and attaining the rank of major. After the war he began graduate work in Russian history at Cornell University and was awarded the degree of Doctor of Philosophy in 1951. His primary teaching career of almost 20 years was spent at Michigan State University, where he was a recipient of the university's Outstanding Teacher Award and served in various administrative capacities.

Professor Adams came to The Ohio State University in 1970 as a professor of History and dean of the newly established College of Humanities. Admired by many, feared by some, and respected by all, Professor Adams was the consummate dean, insisting on high standards and interested in the growth and development of faculty as well as students. After a seven-year stint as dean, he served as associate provost, then vice provost, and finally, under President Edward Jennings, as special assistant to the president for Research and Graduate Studies (1982-84). In the latter capacity, he created plans for the development of the new Ohio State University Research Park, the principal street of which was officially designated by this Board as "Arthur E. Adams Drive" in his honor.

Colleagues will also remember with gratitude Professor Adams' tireless service to the University as a member of the President's Advisory Council, the Advisory Committee of the Office of International Programs, the Faculty Senate of the Colleges of the Arts and Sciences, the President's Council of Deans, the Council of Deans of the Colleges of the Arts and Sciences, and committees planning the reorganization of the Colleges of the Arts and Sciences and examining the University's system of Public Safety.

Despite the heavy demands of administrative positions throughout his career, Professor Adams remained very much a scholar-administrator, active as author, editor, and prominent member of the American Association for the Advancement of Slavic Studies. His book Bolsheviks in the Ukraine: The Second Campaign, 1918-1919 received the Borden Award from the Hoover Institute of Stanford University. Also influential in his field were his books Stalin and His Times and coauthored with his wife (Jan S. Adams) Men versus Systems: Agriculture in the USSR, Poland, and Czechoslovakia. In addition, he was the editor, co-editor, or compiler of several much-used collections of texts and documents in Russian history.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Arthur E. Adams its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Jan S. Adams

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 9, 2007, of Jan S. Adams, Director Emeritus of the Office of International Studies and retired Adjunct Professor of Political Science.

After graduating *cum laude* and Phi Beta Kappa from the University of Nebraska and marrying Arthur E. Adams, Professor Adams took time out from academic work to raise their two children, Russell and Catherine, before beginning graduate work in international politics, with an emphasis on Russia, at Michigan State University. There she earned a Master of Arts degree in 1966 and the degree of Doctor of Philosophy in 1971.

April 4, 2008 meeting, Board of Trustees

At The Ohio State University from 1970, Professor Adams was appointed assistant professor of Political Science and director of the newly formed Center for Undergraduate International Studies. When this center was expanded and renamed "Center for International Studies" in 1975, she was again named director, a position she held until a year before her retirement, along with the title of adjunct associate professor of Political Science. During that last year--1985-86--her administrative responsibilities were expanded once more as she was named acting vice provost for International Affairs. In each of these positions, she broke new ground at Ohio State and laid the foundation for the structure of instruction in international studies that exists at the University today.

Professor Adams was a driving force in the development of Russian and East European studies at Ohio State. The interdisciplinary course on the Soviet Union that she developed and taught became one of the most popular courses at the University and served undergraduates in many fields as an introduction to the realities of the Communist world. Her achievements in Slavic Studies were recognized nationally when she was named executive secretary of the American Association for the Advancement of Slavic Studies from 1978-80. She also served the central Ohio community as a member of the board of the Columbus Council on World Affairs from 1978-2001.

Over and above her administrative services, Professor Adams was a productive research scholar and author throughout her career. In addition to publishing many articles and producing books of readings, she co-authored (with Arthur E. Adams) Men versus Systems: Agriculture in the USSR, Poland, and Czechoslovakia and was sole author of the books Citizen Inspectors in the Soviet Union: The People's Control Committee and A Foreign Policy in Transition: Moscow's Retreat from Central America and the Caribbean, 1885-1992. The last volume was honored by the AAASS as the best book on Russian or East European relations published in the year 1993.

On behalf of the University community, the Board of Trustees expresses to the family of Director Emeritus and Professor Jan S. Adams its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

Francis R. Allaire

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 27, 2007, of Francis R. "Frank" Allaire, Professor Emeritus in the Department of Animal Sciences in the College of Food, Agricultural, and Environmental Sciences.

Professor Allaire earned his Baccalaureate degree cum laude, majoring in dairy husbandry, and his Master of Science degree in animal breeding and genetics from the University of Massachusetts. Thereafter, he completed the Doctor of Philosophy degree in animal breeding with minors in statistics and genetics at Cornell University. Proceeding to The Ohio State University, he served as a post-doctoral researcher in the Department of Dairy Science, 1965-66. The Department advanced him to the rank of tenure track assistant professor in 1966 and he progressed steadily through the ranks to full professor by 1982. He also held a courtesy appointment in the Department of Genetics as a faculty member in biostatistics in the interdisciplinary graduate program. After 36 years of dedicated service to his department, which was renamed the Department of Animal Sciences, he retired in 2001 as Professor Emeritus.

During most of his career, his research and teaching responsibilities were in the areas of animal breeding and genetics. Dr. Allaire's work in selection techniques for breeding of dairy cattle led to his national Lush Award from the American Dairy Science Association in 1992. He served this prominent organization on the *Journal of Dairy Science* Editorial Board for two terms. In the last years of his professional service, he specialized in agro-

April 4, 2008 meeting, Board of Trustees

ecosystems management, helping to pioneer the program for the Ohio Agricultural Research and Development Center (OARDC). He was one of the founding members of the Agricultural Ecological Management working group that was instrumental in winning the W. K. Kellogg Foundation-endowed chair in ecological management at OARDC. He was excited about leading a faculty group in applying skills for systemic learning through curriculum change and outreach initiatives. He foresaw promoting change in agriculture through participatory research methods with an emphasis in the dairy industry.

Professor Allaire added to the international dimension of The Ohio State University through foreign assignments. They included consultation for the United Nations Development Program in India in 1974, as a Fulbright-Hays Research Scholar at the Agriculture Research Institute in Ireland in 1978, a lecture tour through Northern Europe in 1978, and lecturing and consultation in Australia in 1988. These experiences materially added to his expertise in teaching a variety of courses and the design of an interdisciplinary course entitled "Our food and our land in the 21st century." He was always supported wholeheartedly by his surviving wife, Sheila, and their four children. On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Francis R. Allaire its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Robert E. Georges

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 18, 2007, of Robert Eugene "Bob" Georges, Associate Dean and Associate Professor Emeritus in the Department of Management and Human Resources in The Max M. Fisher College of Business.

He attended Kansas Wesleyan University in Salina, Kansas, and in 1941 entered the Army Air Corps Flying Program. He trained as a pilot and subsequently flew a variety of trainer and bomber aircraft. He also graduated from the Air Command College and Air War College at Maxwell Air Force Base, Montgomery, Alabama. He earned a B.S. in Business Administration degree from The Ohio State University and an M.B.A. degree from George Washington University. During his 25 years with the United States Air Force, he had assignments in 24 different locations in Asia, Europe, and the United States. He retired as a lieutenant colonel in 1965 and immediately began his second career at what was then the College of Commerce and Administration - now The Max M. Fisher College of Business.

Dr. Georges worked for 22 years in the College and retired as its associate dean in 1987. During this period he was also director of the College's nationally recognized undergraduate program and was responsible for a variety of curriculum and program innovations. He served as an OSU advisor to Junior Achievement and a number of student organizations, mentored countless numbers of individual students, and was recognized for his efforts on behalf of minority students. He was also an active member of the University community and served as president of the Ohio State University Faculty Club. In 1988, the Robert E. Georges Outstanding Student Award and The Robert E. Georges Scholarship Fund were established in his honor.

On behalf of the University community, the Board of Trustees expresses to the family of Associate Dean and Associate Professor Emeritus Robert E. Georges its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

April 4, 2008 meeting, Board of Trustees

Geoffrey Keller

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 12, 2007, of Geoffrey Keller, Professor Emeritus in the Department of Astronomy.

Professor Keller had a profound impact on the advancement of astronomy, across the country and at Ohio State, in particular. He received his B.S. degree from Swarthmore College in 1938 and served as a physicist in the Navy's Bureau of Ordnance during World War II. His Ph.D. degree was awarded by Columbia University in 1948 for his research on the internal structure and composition of the sun. In that same year he was appointed an instructor at Ohio State and joined the staff at Perkins Observatory. He was a pioneer in using the new digital computers to study the structure of stars and was also an early user of photoelectric photometers to obtain vastly improved measurements of eclipsing variable stars. For the Air Force, Professor Keller modeled the effects of turbulence in the earth's upper atmosphere on the twinkling and blurring of starlight. Pioneering work in this area culminated decades later with "adaptive optics," where this distortion can be overcome to produce much sharper images of celestial objects.

Soon after arriving at Ohio State, Professor Keller concluded that the University needed to offer a Ph.D. in astronomy. Accordingly, he led the planning for appropriate graduate courses and in 1950 the Department of Physics and Astronomy received approval to offer this degree. He directed the Perkins Observatory from 1951-57 and began negotiations which led to moving the Perkins Telescope to a much better site in northern Arizona, greatly improving the telescope's productivity. A condition for moving the telescope was that a replacement be obtained for Perkins Observatory, which he also arranged.

Professor Keller was a leading figure in proposing a "cooperative observatory" where Ohio State, the University of Arizona, and Indiana University could share in operating a new facility. The idea caught on and by 1957 the consortium consisted of eight major universities. Funding by the National Science Foundation was needed for such a plan, and it was at this point that Professor Keller left Ohio State for the NSF. He was program director for Astronomy from 1957-61, moving up to division director for Mathematical and Physical Sciences (1961-66) and deputy planning director (1966-68). With NSF support, the proposed consortium became the Kitt Peak National Observatory, which soon became a world leader in astronomical research.

Ohio State decided in 1967 to split the College of Arts and Sciences into several smaller colleges, each with its own dean. Professor Keller was recruited back to Ohio State to become the first dean of the College of Mathematics and Physical Sciences, a position he held from 1968-71, when he returned full-time to the Astronomy faculty. Always admired as a fine teacher, he became best known for his Physical Sciences 180 course, where he combined his scientific background with his experiences at the National Science Foundation to provide undergraduates with a unique perspective on how science policy is developed and implemented in the United States. His retirement in 1986 did not mark the end of his service to the University; he was president of the Ohio State University Retirees Association in 1995 and 1996. His career was varied and productive and his contributions to the University, the field of astronomy, and the nation were many.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Geoffrey Keller its deepest sympathy and sense of understanding of their loss. It is direct that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

April 4, 2008 meeting, Board of Trustees

Jules B. LaPidus

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 3, 2007, of Jules B. LaPidus, Professor and Dean Emeritus in the Graduate School.

Jules LaPidus received his Bachelor's degree from the University of Illinois and his M.S. and Ph.D. degrees in medicinal chemistry from the University of Wisconsin. He joined the faculty of The Ohio State University's College of Pharmacy as an assistant professor in 1958, rising to the rank of professor in 1967. Dr. LaPidus authored over 40 professional papers in the general areas of medicinal chemistry and pharmacology. In 1972, he was appointed associate dean for Research in the Graduate School and, later, dean of the Graduate School and vice provost for Research in 1974 where he rendered distinguished service for a decade.

In 1984, Dr. LaPidus left Ohio State to become the president of the Council of Graduate Schools in Washington, D.C., an organization representing nearly 500 institutions offering graduate degrees. From this position, Dr. LaPidus was the chief spokesperson advocating for the importance of graduate education and research in the country and in the world. In addition, he continued to serve the interests of graduate education and his academic discipline as a member of the advisory committees for the National Institutes of Health, the National Science Foundation, the National Academy of Sciences, and the American Association for the Advancement of Science. Dr. LaPidus retired from the Council of Graduate Schools in 2000 and then in 2004, returned to live in Columbus.

At its summer commencement in 2000, Dr. LaPidus was awarded the honorary degree of Doctor of Humane Letters by The Ohio State University. Also that year, the Council on Research and Graduate Studies of The Ohio State University recognized Dr. LaPidus' unparalleled role in graduate education here and nationally by naming two graduate fellowship awards in his honor.

After his return to Columbus, Dr. LaPidus continued to pursue his lifelong interest in classical music through delivering a series of lectures on recorded music at the Old Worthington Library. Dr. LaPidus also served on the Boards of Chamber Music Columbus, the Chamber Music Connection and The Ohio State University Retirees Association.

On behalf of the University community, the Board of Trustees expresses to the family of Professor and Dean Emeritus Jules B. LaPidus its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

N. L. McCaslin

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 26, 2008, of N. L. "Mac" McCaslin, Professor Emeritus in the Department of Human and Community Resource Development.

Professor McCaslin held a Bachelor of Science degree in vocational education, Master of Science degree in agricultural education from the University of Nebraska-Lincoln, and a Doctor of Philosophy degree in agricultural education from Iowa State University. He served as research and evaluation coordinator at the Iowa Department of Public Instruction before coming to The Ohio State University in 1971. Professor McCaslin was a professor of agricultural education from 1971 until his retirement in 2001. He served as chairperson of the Department of Human and Community Resource Development from 1996 through 2001. From 1971-88 he served in various positions in the National Center for Research in Vocational Education. Upon his retirement in 2001, he assumed the role

April 4, 2008 meeting, Board of Trustees

of site director in the National Dissemination Center for Career and Technical Education. His teaching and scholarship interests focused on educational evaluation, planning, and policy analysis. His passion was teaching and mentoring graduate students.

Professor McCaslin was instrumental in developing educational systems in 12 countries. He was co-author of five books and 11 book chapters. In addition, he had an extensive record of scholarly manuscripts published in peer-reviewed journals and other professional dissemination outlets. He served on the editorial review board of the *Journal of Agricultural Education* and as a manuscript reviewer for the *Journal of Vocational Education Research* and the *Educational Evaluation and Policy Analysis* journal. He had also made numerous presentations at a variety of state, regional, national and international conferences and professional meetings. As a consultant, Professor McCaslin provided assistance to over 34 industry, education and government organizations.

Mac served many leadership roles throughout his career, holding offices in the American Vocational Education Research Association, the University Council for Vocational Education and The Ohio State University chapter of Phi Kappa Phi honor society. He provided service to the department promotion and tenure committee, was chairperson of the graduate studies and research committee, and was a member of the college Faculty Council.

Professor McCaslin was the recipient of Honorary State and American FFA degrees. He was also awarded the Outstanding Agricultural Educator Award and was recognized as a fellow in the American Association for Agricultural Education.

On behalf of the University community, the Board of Trustees expresses to the family of Professor N. L. McCaslin its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Paul E. Panek

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 28, 2007, of Paul E. Panek, Professor of Psychology at The Ohio State University at Newark.

Professor Panek held a Bachelor's degree in psychology from Central Connecticut State College, a Master's degree in psychology from the University of Bridgeport, and earned his Ph.D. degree in psychology from The University of Akron. He was a professor of psychology and chairperson of the department at Eastern Illinois University from 1977-88. He came to The Ohio State University at Newark as a full professor in 1988. He served as associate dean, academic dean, psychology coordinator and a faculty member during his tenure at OSU Newark.

He specialized in adulthood, aging and developmental disabilities and conducted cross-cultural research with psychologists in Japan, Italy, Ireland and Scotland. He wrote a college textbook on adulthood development and aging (in its fourth edition), and a manual on the use of a projective technique, the Hand Test. He published more than 100 journal articles and book chapters. He was an invited guest lecturer at Gakushuin University, Tokyo, Japan. He received the Outstanding Faculty Award from Eastern Illinois University, the Distinguished Alumnus in Gerontology Award from the University of Akron and the Robert A. Barnes Award for Exemplary Teaching at The Ohio State University.

Dr. Panek was a registered psychologist in Ohio and Illinois and a qualified mental retardation professional. He was a member of the American Association of Mental

April 4, 2008 meeting, Board of Trustees

Retardation, the American Psychological Association, the Society for Personality Assessment, and the American Association on Mental Retardation. He was a Gerontological Society Fellow. He was a supporter of wildlife and conservation preservation and a sponsor of the Baskets of Life Ministry. He was a loving husband, father and grandfather.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Paul E. Panek its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

John H. Shaw

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 31, 2008, of John H. Shaw, Professor Emeritus in the Department of Physics.

Professor Shaw graduated from Cambridge University, England, with a B.A. degree in 1946, a M.A. degree in 1950 and a Ph.D. degree in physics in 1951. Prior to immigrating here in 1949, John had worked at the Cambridge Solar Physics Observatory from 1946-49. At OSU he started as a research associate in 1949, then progressed through the academic ranks from lecturer in 1951 through the intervening steps in 1953, 1955 and 1958, to become a full professor in 1964. John retired as Professor Emeritus in the Department of Physics in 1988.

Succinctly, one could title John's 40 years of research as "Infrared Studies of Atmospheric Constituents from Ground Level to the Stratosphere." In the early 1950s he and several OSU graduate students developed a widely accepted Atlas of the Solar System from data taken at ground level in a WW II on-campus Quonset hut. By 1953 he had reported on the ozone band near 4.7 microns (*Astrophysics J.* 117, 460). Later he was one of the first physicists to establish the harmful effects of hydrofluorocarbons on the earth's ozone layer.

John Shaw was one of several researchers from OSU known worldwide for their studies of infrared spectra. Four who previously had worked with him here also participated in a session devoted solely to Infrared Spectroscopy of the Atmosphere in the August 1964 International Symposium on Radiation Processes held in Leningrad.

His atmospheric research studies ran from earth level to middle level to the stratosphere including an instrument research mission on Space-lab 3 in 1985; trace molecule spectroscopy of five polyatomic molecules in the middle atmosphere, and odd-nitrogen compounds in the stratosphere were the focus of that research.

John was a dedicated teacher and researcher who expected and received excellent work from his students. He and his wife, Betty, raised four children, at least three of whom have followed careers in science. John and Betty were instrumental in forming an English folk dancing group still meeting weekly as the Columbus Folk Dancers.

On behalf of the University Community, the Board of Trustees expresses to the family of Professor Emeritus John H. Shaw its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

April 4, 2008 meeting, Board of Trustees

Charles F. Wooley

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 15, 2008, of Charles F. Wooley, Professor Emeritus in the Division of Cardiology, Department of Internal Medicine.

Dr. Wooley graduated from Providence College in 1950, and received his M.D. degree from the New York Medical College in 1954. He served his internship and residency at The Ohio State University Hospitals and then attended the U.S. Navy's School of Aviation Medicine, Pensacola, Florida. He served as a naval aviation flight surgeon with U.S. Navy Early Warning Squadrons in Patuxent River, Maryland; and Argentia, Newfoundland, Canada; and as senior medical officer, Marine Air Group 32, in Beaufort, South Carolina.

He returned to Columbus in 1958 where he completed medical residency and a cardiology fellowship at Ohio State in 1963. Charles was a faculty member in the Department of Internal Medicine starting in 1961, and assumed Professor Emeritus status in 1992. During his career, Dr. Wooley was a dedicated teacher of thousands of medical students, striving to impart not only medical knowledge, but also a keen sense of personal and social responsibility - the knowledge to recognize our collective and individual obligations to improve our world while keeping the highest ethical standards. He was a willing, patient and Socratic mentor to many who sought to raise their level of medical knowledge and their practice of medicine.

Among his many accomplishments, Dr. Wooley was director of the Cardiology Catheterization Laboratory (1962-71, the early era of open heart surgery), was involved in the first cardiac pacemaker and electro-physiologic studies at Ohio State, and was instrumental in the founding of teaching labs and libraries. His areas of research included pioneering use of sound and ultrasound in diagnosing heart and tissue disease, applying advanced diagnostic techniques to routine patient care, heart valve anomalies, and identifying unique genetic characteristics and markers related to specific heart disease. He was a member and past president of the William Osler Society.

Later in his career, he dedicated himself to providing historical perspective regarding the evolution of clinical medicine and its noteworthy practitioners. Dr. Wooley was known to many students, interns, residents, and colleagues as a demanding perfectionist who was uniquely creative and rigorously analytical. He was the author of numerous books and articles related to medical research and medical history. Professional awards included a Career Research Development award from the NIH, a Laureate Award from the American College of Physicians and American Society of Internal Medicine, an Alumni Medal of Honor from the New York Medical College, the Earl N. Metz Award from Ohio State, and multiple teaching awards from medical staff and students at Ohio State.

Dr. Wooley was a highly respected and loved Professor Emeritus in the Department of Medicine. As an outstanding cardiologist, he made many important contributions to the literature. He was also the dedicated historian who brought an appreciation of our heritage as an academic medical center to life. In addition to his many well-written historical accounts of the evolution of this great University becoming a leading academic medical center in the nation, he provided insight into the lives of the academic physicians who actually built the tradition of excellence at Ohio State. He was a wonderful physician, educator, innovator and friend. He will be missed by so many of us. The Department of Internal Medicine will dedicate a Medical Grand Rounds each year in his memory. We believe that he would appreciate our celebrating his memory by emphasizing the importance of the physician who truly cares for the patient.

His primary legacy will continue to be his loving and admiring family. He was an avid writer, fisherman and, always and in all ways, a dedicated teacher.

April 4, 2008 meeting, Board of Trustees

On behalf of the University community, the Board of Trustees expresses to the family of Professor Emeritus Charles F. Wooley its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

**AMENDMENTS TO THE *CODE OF REGULATIONS* OF
THE OHIO STATE UNIVERSITY MANAGED HEALTH CARE SYSTEMS, INC.**

Resolution No. 2008-99

Synopsis: Approval of amendments to the *Code of Regulations* of The Ohio State University Managed Health Care Systems, Inc., is recommended.

WHEREAS, The Ohio State University Managed Health Care Systems, Inc. (MHCS), an entity affiliated with The Ohio State University, is providing leadership on a new approach to health care plans for the University, referred to as *Your Plan for Health*, in partnership with the University Office of Human Resources and the University Medical Center; and

WHEREAS Managed Health Care Systems is being positioned to develop and offer innovative products and services to new customers in addition to University faculty, staff, and students; and

WHEREAS MHCS is continuing a systematic review of its *Code of Regulations*, and the Board of Directors of MHCS has approved the attached amendments to the Regulations at its March 2008, subject to approval by the University's Board of Trustees, as provided for in the MHCS Regulations; and

WHEREAS the proposed changes in the *Code of Regulations* are intended to provide flexibility with respect to the University director positions and add an additional external director to further increase expertise of the Board of Directors:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby approves the proposed amendments to the *Code of Regulations* of The Ohio State University Managed Health Care Systems, Inc., as shown in the attached document, effective immediately.

(See Appendix XLVI for background information, page 1019.)

**HONORING THE 25TH YEAR OF
THE OHIO STATE UNIVERSITY RETIREES ASSOCIATION**

Resolution No. 2008-100

WHEREAS The Ohio State University Retirees Association (OSURA) provides a variety of programs and activities that enrich the lives of retired faculty and staff of The Ohio State University; and

WHEREAS the Association makes significant efforts to optimize benefits, health care and the welfare of University retirees; and admirably represents University retirees on the Faculty Compensation and Benefits Committee of the University Senate and the Staff Compensation and Benefits Committee; and

WHEREAS the Association provides an array of information, cultural, social, travel, and volunteer activities; and

April 4, 2008 meeting, Board of Trustees

WHEREAS the Association, in collaboration with the Office of Human Resources, effectively communicates to its members, the University, and the community via the Association's monthly *Newsletter*, the annual Membership Directory, and its web site; and

WHEREAS the Association and its members actively and significantly contribute to the University in accomplishing its mission of teaching, research, and public service:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees commends the outstanding achievements and contributions of The Ohio State University Retirees Association to retired faculty and staff, the University, and the citizens of Ohio; and,

BE IT FURTHER RESOLVED, That the Board extends its best wishes for the continuing success of the Association's future endeavors to enrich the lives of retirees and thanks them for their commitment to the University.

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2008-101

Synopsis: The University Development Report for February 2008 is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The Edwin M. Cooperman Endowed Professorship at The Michael E. Moritz College of Law, The Howard D. Winbigler Designated Professorship, and The Thomas J. and Mary E. Heck and Leo H. Faust Memorial Designated Professorship in the Law Library; and

WHEREAS this report includes the establishment of thirty-two (32) new named endowed funds, the revision of seven (7) endowed funds, and the closure of one (1) named designated professorship:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the month of February 2008 be approved.

(See Appendix XLVII for background information, page 1022.)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

	<u>Total Gifts</u>
<u>Establishment of Named Endowed Professorship</u>	
The Edwin M. Cooperman Endowed Professorship at The Michael E. Moritz College of Law	\$750,000.00

April 4, 2008 meeting, Board of Trustees

(Established with gifts from Edwin M. Cooperman; used to Provide an endowed professorship position in The Michael E. Moritz College of Law) (grandfathered)

Establishment of Named Designated Professorship

The Howard D. Winbigger Designated Professorship (Established with a portion of the annual distribution from The Howard D. Winbigger Memorial Fund in the College of Engineering; used to provide a designated professorship position in the College of Engineering)	\$40,000.00 Per year for 5 years
---	--

Establishment of Named Endowed Funds

The R. Reid and Grace H. Vance Logan Elm Press Education Fund (Established with gifts from Grace Vance in memory of her husband; used at the discretion of the director of the OSU Libraries' Logan Elm Press)	\$51,927.00
---	-------------

Marion Campus Business Endowment Fund (Established with a gift from the Marion Campus Business Initiative Fund; used at the discretion of the dean and director of OSU-Marion) (grandfathered)	\$28,000.00
---	-------------

The Timothy D. Moore Award Fund (Established with gifts from Cheryl Moore and children Tiffany, Tori, and Ryan Moore in memory of Timothy D. Moore; used to support an annual award for health system pharmacy graduates) (grandfathered)	\$25,211.96
--	-------------

Change in Description of Named Endowed Funds

The Virginia Hutchison Bazler Scholarship Fund
The Chester S. Hutchison Scholarship Fund
President's Strategic Investment Endowment Fund

Change in Name and Description of Named Endowed Fund

From: The Demkee Athletic Scholarship Fund
To: The Demkee Athletic Award Endowment Fund

Establishment of Named Designated Professorship

The Thomas J. and Mary E. Heck and Leo H. Faust Memorial Designated Professorship in the Law Library [Established with a portion of the annual distribution from The Thomas J. and Mary E. Heck and Leo H. Faust Memorial (endowed) Fund for the Law Library; used to provide a designated professorship position in the Moritz College of Law]	\$40,000.00 Per year for 5 years
--	--

Closure of Named Designated Professorship

The Edwin M. Cooperman Designated Professorship in Law
(Established August 29, 2001, with gifts from Edwin M. Cooperman; used to provide salary and research support of a professorship position at the Moritz College of Law. The principal and annual distribution were transferred to The Edwin M. Cooperman Chair Fund at The Michael E. Moritz College of Law.)

April 4, 2008 meeting, Board of Trustees

Establishment of Named Endowed Funds

The Fisher Family Fund (Established with gifts from the Max M. and Marjorie S. Fisher Foundation; used to support scholarships for M.B.A. students enrolled in the Fisher College of Business)	\$2,100,000.00
The Trueman Innovation Fund (Established with gifts from Barbara C. Trueman; used to Advance academic programs, facilities, and equipment that support innovations in clinical teaching, research, and service in the Department of Veterinary Clinical Sciences and the Veterinary Hospital)	\$1,220,523.49
The Thomas L. Thomas Engineering Scholarship Fund (Established with gifts from Thomas L. and Janet J. Thomas; used to provide scholarships for Honors Scholars program-entering freshman students in the College of Engineering - specifically those pursuing degrees in electrical and computer engineering or computer science and engineering)	\$1,000,000.00
The Jeffrey R. Rodek Dean's Innovation Fund (Established with a gift from Jeffrey R. Rodek; used to support activities of the faculty, students, and staff of the Fisher College of Business)	\$115,054.13
The Bruce F. Welsh Dean's Innovation Fund (Established with gifts from the estate of Bruce F. Welsh; used to support activities of the faculty, students, and staff of the Fisher College of Business in accordance with the College's strategic plans)	\$128,231.97
The Westman Family Swimming Athletic Scholarship Fund (Established with a gift from John Westman and Renee Haas Westman; used to supplement the grant-in-aid scholarship costs of a student-athlete who is a member of the varsity men's swimming team)	\$100,367.18
The Chemical Abstracts Service (CAS) Endowment Fund for Undergraduate Chemistry Research at The Ohio State University (Established with initial seed gifts from the CAS division of The American Chemical Society and additional gifts from their staff and others interested in supporting research in chemistry; used to support undergraduate research in the Department of Chemistry)	\$100,000.00
The Bob and Mary Reusché Chair Fund in Geography (Established with gifts from Bob F. and Mary W. Reusché; used to provide funding for a chair position in the Department of Geography in the College of Social and Behavioral Sciences)	\$100,000.00
The Scott C. Stallkamp Family Endowment Fund (Established with a gift from Scott C. and Jeanna M. Stallkamp; used to supplement the grant-in-aid scholarship costs of a student-athlete who is a member of the varsity women's swimming team)	\$90,000.00
The Christine F. and Jeffrey R. Rodek Excellence Fund for Men's Varsity Lacrosse (Established with a gift from Christine F. and Jeffrey R. Rodek; used to supplement the coach's discretionary budget for the men's varsity lacrosse team)	\$75,000.00

April 4, 2008 meeting, Board of Trustees

Frederick R. "Fritz" Reed Scholarship Fund (Established with gifts from his wife Jane Reed, family members, friends, and colleagues to honor Fritz's memory; used to provide merit-based scholarship support to an incoming student at the Moritz College of Law, with preference for an individual who was involved in athletics at Harvard University)	\$65,866.08
The Garrett Family Athletic Scholarship Fund (Established with gifts from Garrett Equipment Inc.; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity swimming team)	\$60,000.00
The Mike Sexton Athletic Scholarship Fund (Established with gifts from Mike Sexton; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity men's gymnastics team)	\$60,000.00
The John and Kathy Warner Athletic Scholarship Fund (Established with gifts from John T. Warner III and Kathryn B. Warner; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity football team with preference given to students from the state of Ohio)	\$60,000.00
The Barbara Cuiwik Scholarship Fund (Established with gifts from Dr. Anthony Cuiwik and Mrs. Barbara Cuiwik; used to provide scholarships to full-time Honors undergraduate or graduate students in the Fisher College of Business)	\$50,000.00
The Nancy L. Fisher Football Athletic Scholarship Fund (Established with gifts from James L. Fisher; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity football team)	\$50,000.00
Blair Janson and Wilmer Stover Scholarship Fund in Plant Pathology (Established with gifts from Dr. Blair Janson; used to provide travel scholarships for undergraduate and graduate students in the Department of Plant Pathology)	\$50,000.00
The Dr. Miriam G. Schwartz Slavic Fund (Established with gifts from Dr. Miriam G. Schwartz through the Miriam & Stanley Schwartz, Jr. Philanthropic Foundation; used to provide merit-based scholarship support for undergraduate students who have declared a major in Russian language, literature, culture, or linguistics)	\$50,000.00
The Samantha Sue "Sam" Scuro Law Library Fund (Established with a gift from Joseph E. Scuro on behalf of Samantha Sue "Sam" Scuro by "Salem," "Sweetness," and "Popoki" - her little cats; used to provide general operating support for the library at the Moritz College of Law)	\$50,000.00
The James F. and Barbara Young Sipp Endowment Fund for WOSU Public Media Student Internships (Established with gifts from Barbara and James Sipp; used to annually support at least one non-competitive student intern in WOSU Public Media to provide professional experience to the student)	\$50,000.00

April 4, 2008 meeting, Board of Trustees

The Lynn and Eileen "Mert" Theis Athletic Scholarship Fund \$50,000.00
(Established with a gift from Lynn and Eileen Theis; used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the football team or cheerleading squad)

Strassman Family Scholarship Fund \$36,000.00
(Established with gifts from James A. Strassman and Debra G. Strassman; used to provide undergraduate scholarships to full-time, first generation students who are attending the Columbus campus and are not majoring in a sport-related program) (grandfathered)

The John P. Henderson Scholarship Fund \$28,750.00
(Established with gifts from William Kohn and John P. Henderson; used to provide scholarship support for students in the Moritz College of Law) (grandfathered)

OSU Alumni Club of Butler County Scholarship Endowment Fund \$28,626.88
(Established with gifts from the OSU Alumni Club of Butler County; used to provide scholarships for students who graduated from public or private high schools located in Butler County, Ohio)(grandfathered)

The Jeanne Ann Cadden Memorial Scholarship Fund for the College of Nursing \$27,280.00
(Established with gifts from Bernard E. Cadden and family; used to provide a scholarship for graduate students in the College of Nursing specializing in neonatal nursing) (grandfathered)

Class of 1958 Clinical Teaching Endowed Fund \$27,151.70
(Established with gifts from alumni and friends of the College of Nursing Class of 1958; used at the discretion of the dean to enrich clinical teaching of undergraduate students) (grandfathered)

The Kleptz Family and Dr. Thomas Turner Livestock and Meat Judging Teams Endowment Fund \$26,274.00
(Established with gifts from the Kleptz family to honor the dedication and leadership Dr. Thomas Turner has provided to the OSU Livestock and Meat Judging Teams program; used to support undergraduate livestock evaluation and meat evaluation judging teams in preparation for regional and national intercollegiate contests and associated educational programs in the Department of Animal Sciences) (grandfathered)

Karl Danneberger Turfgrass Science Fund \$26,140.78
(Established with gifts from Dr. Karl Danneberger and friends; used to enhance the undergraduate or graduate educational experience in turfgrass science) (grandfathered)

The Betty-ann Hoener Graduate Endowed Fund in Pharmaceutics \$25,416.56
(Established with a gift from Dr. Betty-ann Hoener; used to support an outstanding senior graduate student in the College of Pharmacy's Division of Pharmaceutics) (grandfathered)

Total \$6,785,821.73

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Endowed Professorship

**The Edwin M. Cooperman Endowed Professorship
at The Michael E. Moritz College of Law**

The Edwin M. Cooperman Chair Fund at The Michael E. Moritz College of Law was established April 6, 2007, by the Board of Trustees of The Ohio State University, with gifts from Edwin M. Cooperman (J.D. 1967). The funding level for a professorship has been reached and the position was established April 4, 2008.

The annual distribution shall support a professorship position at the Moritz College of Law. When the principal reaches \$1,500,000, the annual distribution shall be used for The Edwin M. Cooperman Endowed Chair at The Michael E. Moritz College of Law. The holder of this position shall be recommended by the dean of the Moritz College of Law and approved by the Board of Trustees.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowed Professorship: \$750,000.00 (grandfathered)

Establishment of Named Designated Professorship

The Howard D. Winbigler Designated Professorship

The Howard D. Winbigler Designated Professorship was established April 4, 2008, by the Board of Trustees of The Ohio State University with a portion of the annual distribution from The Howard D. Winbigler Memorial Fund in the College of Engineering which was established June 6, 1996, with a gift from the estate of Howard D. Winbigler (B.M.E. 1915) of Ashland, Ohio.

Per Mr. Winbigler's wishes, the endowed fund is used to advance the quality of teaching and research within the College of Engineering at the discretion of the College's dean.

This designated professorship is being established in honor of Mr. Winbigler's accomplished professional career and his generosity. Appointment for each five-year

April 4, 2008 meeting, Board of Trustees

term shall be recommended by the dean of the College of Engineering to the executive vice president and provost, and to the Board of Trustees for their approval. The professorship holder may be reappointed to another term following favorable assessment of the holder's academic and research performance and accomplishments during an appointment.

Amount Establishing Fund: \$40,000.00 per year for five years
Total Commitment: \$200,000.00

Establishment of Named Endowed Funds

The R. Reid and Grace H. Vance Logan Elm Press Education Fund

The R. Reid and Grace H. Vance Logan Elm Press Education Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University with gifts from Grace Vance in memory of her husband.

The annual distribution from this fund shall be designated to The Ohio State University Libraries' Logan Elm Press to be used at the discretion of the director of the Press in consultation with the director of the University Libraries.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Logan Elm Press in consultation with the director of the University Libraries.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor, should she be alive, and from the director of the Logan Elm Press in consultation with the director of the University Libraries.

Amount Establishing Endowment: \$51,927.00

Marion Campus Business Endowment Fund

The Marion Campus Business Endowment Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University with a gift from the Marion Campus Business Initiative Fund.

The annual distribution from this fund shall be used at the discretion of the dean and director of The Ohio State University at Marion.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

April 4, 2008 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the group of donors, should one be available, and the dean and director of The Ohio State University at Marion.

Amount Establishing Endowment: \$28,000.00 (grandfathered)

The Timothy D. Moore Award Fund

The Timothy D. Moore Award Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University with gifts from Cheryl Moore, and children Tiffany, Tori, and Ryan Moore in memory of Timothy D. Moore (M.S. 1979).

The annual distribution from this fund shall be used to support an annual award for health system pharmacy graduates who demonstrate strong communication skills, are in good academic standing, and whose research project will have meaningful impact in advancing health systems pharmacy. The award will support travel and exhibit costs associated with presenting research posters at relevant national conference(s), an important step towards publication. Award recipients will be selected by the dean of the College of Pharmacy in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Pharmacy. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$25,211.96 (grandfathered)

Change in Description of Named Endowed Funds

The Virginia Hutchison Bazler Scholarship Fund

The Virginia Hutchison Bazler Scholarship Fund was established March 4, 1983, by the Board of Trustees of The Ohio State University with gifts from Virginia H. Bazler (B.S.H.E. 1954) and Frank E. Bazler (B.S.Bus.Adm. 1951, J.D. 1953). The description was revised April 4, 2008.

The annual distribution from this fund shall be used for one or more scholarships for second- or third-year students enrolled in the College of Education and Human Ecology majoring in hospitality management or consumer sciences who demonstrate academic ability and financial need. Upon the recommendation of the dean of the College and the chairpersons of the applicable departments, the College's Scholarship Committee shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid.

April 4, 2008 meeting, Board of Trustees

Should the above purpose cease to exist, the annual distribution shall be used at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the appropriate college dean.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, should they be alive, and from the appropriate college dean.

The Chester S. Hutchison Scholarship Fund

The Chester S. Hutchison Scholarship Fund was established December 15, 1976, by the Board of Trustees of The Ohio State University with gifts from Virginia Hutchison Bazler (B.S.H.E. 1954) and Frank E. Bazler (B.S. 1951, J.D. 1953) in honor of Mrs. Bazler's father, Chester S. Hutchison (B.S.Agr. 1924, M.A. 1930). The description was revised April 4, 2008.

The annual distribution from this fund shall be used to provide one or more scholarships for second- or third-year students enrolled in the College of Food, Agricultural, and Environmental Sciences majoring in agricultural and extension education who demonstrate academic ability and financial need. Preference shall be given to students from Miami and Pickaway Counties of Ohio. Upon the recommendation of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences and the chairpersons of the applicable departments, the College's Scholarship Committee shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid.

Should the above purpose cease to exist, the annual distribution shall be used at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, should they be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

April 4, 2008 meeting, Board of Trustees

President's Strategic Investment Endowment Fund

The President's Strategic Investment Endowment Fund was established September 22, 2004, by the Board of Trustees of The Ohio State University with distribution and realized/unrealized appreciation from the Long Term Component Endowment Fund. The was revised April 4, 2008.

The annual distribution, and principal if necessary, shall be used by the president to fund strategic investments at the president's discretion. Any unused distributions shall be reinvested to principal annually. The senior vice president for Business and Finance shall report annually to the Board of Trustees on the revenue and expenditures of this fund.

A contingency of 8% of the Long Term Component Endowment Fund will be established and maintained within this fund. The operating principles for the investment of this fund are approved by the senior vice president for Business and Finance and the treasurer.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the University that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees.

Change in Name and Description of Named Endowed Fund

The Demkee Athletic Award Endowment Fund

The Demkee Athletic Scholarship Fund was established February 1, 1985, by the Board of Trustees of The Ohio State University with a gift from the Demkee family of Wooster, Ohio, through the Demkee Scholarship Fund. The name and description were revised April 4, 2008.

The annual distribution from this fund shall be used to provide a suitable award for an undergraduate student involved in a varsity athletic program who is in good standing and is planning a career in dentistry or dental hygiene. This award benefits both the College of Dentistry and the Department of Athletics. Award recipients shall be selected by the director of Athletics in consultation with the dean of the College of Dentistry.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, should they be alive, and from the director of Athletics in consultation with the dean of the College of Dentistry.

April 4, 2008 meeting, Board of Trustees

Establishment of Named Designated Professorship

**The Thomas J. and Mary E. Heck and Leo H. Faust
Memorial Designated Professorship in the Law Library**

The Thomas J. and Mary E. Heck and Leo H. Faust Memorial Designated Professorship was established April 4, 2008, by the Board of Trustees of The Ohio State University with a portion of the annual distribution from The Thomas J. and Mary E. Heck and Leo H. Faust Memorial (endowed) Fund for the Law Library which was established with estate gifts from Grace Fern Heck Faust (B.A. 1928; J.D. 1930), Urbana, Ohio.

Per the donor's wishes, the annual distribution from the endowed fund is used at the discretion of the dean of The Michael E. Moritz College of Law for supporting the Law Library.

Appointment to the professorship for each five-year term will be recommended by the dean of the Moritz College of Law to the executive vice president and provost, and the Board of Trustees for their approval. The professorship holder may be reappointed to another term following favorable assessment of the holder's academic and research performance, and accomplishments, during an appointment.

Amount Establishing Fund: \$40,000.00 per year for 5 years
Total Commitment: \$200,000.00

Closure of Named Designated Professorship

The Edwin M. Cooperman Designated Professorship in Law

Established August 29, 2001, with gifts from Edwin M. Cooperman; used to provide salary and research support of a professorship position at The Michael E. Moritz College of Law. The principal and annual distribution were transferred to The Edwin M. Cooperman Chair Fund at The Michael E. Moritz College of Law.

Establishment of Named Endowed Funds

The Fisher Family Fund

The Fisher Family Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Max M. and Marjorie S. Fisher Foundation of Southfield, Michigan.

The annual distribution from this fund shall be used to support scholarships for M.B.A. students enrolled at The Max M. Fisher College of Business, as determined by the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$2,100,000.00

April 4, 2008 meeting, Board of Trustees

Total Commitment: \$5,000,000.00

The Trueman Innovation Fund

The Trueman Innovation Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Barbara C. Trueman (B.S. 1961).

The annual distribution from this fund shall be used to provide funds critical to advancing academic programs, facilities, and equipment that support innovations in clinical teaching, research, and service in the Department of Veterinary Clinical Sciences and the Veterinary Hospital as approved by the dean of the College of Veterinary Medicine in consultation with the chairperson of the Department of Veterinary Clinical Sciences and the director of the Veterinary Hospital.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Veterinary Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and from the dean of the College of Veterinary Medicine.

Amount Establishing Endowment: \$1,220,523.49

The Thomas L. Thomas Engineering Scholarship Fund

The Thomas L. Thomas Engineering Scholarship Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Thomas L. (B.E.E. *summa cum laude* 1966, M.S. 1966) and Janet J. (B.S. 1966) Thomas.

The intent of this fund is to provide scholarships for students who have been accepted for admission to the University and to support educational diversity as outlined in the University's diversity mission. The annual distribution from this fund shall provide four need-based scholarships to academically superior entering freshman students in the College of Engineering. It is the donors' intention that each of these scholarships will be approximately one-half of tuition but not to exceed the recipient's unmet financial need. Candidates must be in the top 10% of their high school class and have a standardized test score equal to or greater than the score used by the University to designate Honors Scholars. It is the donors' desire that the scholarships be awarded with particular attention to, but not limited to, undergraduate students who are native-born United States citizens with first preference given to Ohio residents. First consideration shall be given to qualified candidates pursuing a bachelor degree in electrical and computer engineering or computer science and engineering. If there are an insufficient number of qualified candidates pursuing the aforementioned degrees, the scholarships may be awarded to otherwise qualified candidates pursuing degrees in other engineering disciplines.

April 4, 2008 meeting, Board of Trustees

Scholarships may be renewed for the sophomore year if a recipient excels academically during the first year by demonstrating sufficient progress towards graduation and a top 10% cumulative grade point average for the freshmen engineering class at the end of spring quarter and continues to demonstrate financial need.

Scholarship recipients will be selected by the dean of the College of Engineering in consultation with the Office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Engineering in consultation with the Office of Student Financial Aid.

Amount Establishing Endowment: \$1,000,000.00

The Jeffrey R. Rodek Dean's Innovation Fund

The Jeffrey R. Rodek Dean's Innovation Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Jeffrey R. Rodek (B.S.M.E. 1975, M.B.A. 1976).

The annual distribution from this fund shall be used by the dean of The Max M. Fisher College of Business to support activities of the faculty, students, and staff in accordance with the strategic plan of the College.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$115,054.13

The Bruce F. Welsh Dean's Innovation Fund

The Bruce F. Welsh Dean's Innovation Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by

April 4, 2008 meeting, Board of Trustees

the Board of Directors of The Ohio State University Foundation, with gifts from the estate of Bruce F. Welsh (B.S.Bus.Adm. 1955).

The annual distribution from this fund shall be used by the dean of The Max M. Fisher College of Business to support activities of the faculty, students and staff in accordance with the College's strategic plans.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the Fisher College of Business.

Amount Establishing Endowment: \$128,231.97

The Westman Family Swimming Athletic Scholarship Fund

The Westman Family Swimming Athletic Scholarship Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from John Westman (B.S. 1964) and Renee Haas Westman (B.S. 1960) both of Atlantic Beach, Florida.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the varsity men's swimming team. The recipient will be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

If the annual distribution can no longer be used for the above purpose, then the annual distribution shall be used to fund a student pursuing an undergraduate degree in preparation for teaching science at the secondary level. The recipient shall be selected by the dean of the College of Education and Human Ecology in conjunction with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. If, in the future, the need for this endowment ceases to exist, or so diminish as to provide unused income, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors or their designee, and the distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscious and need dictate.

Amount Establishing Endowment: \$100,367.18

April 4, 2008 meeting, Board of Trustees

**The Chemical Abstracts Service (CAS) Endowment Fund
for Undergraduate Chemistry Research at The Ohio State University**

The Chemical Abstracts Service (CAS) Endowment Fund for Undergraduate Chemistry Research at The Ohio State University was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with initial seed gifts from the CAS division of The American Chemical Society and additional gifts from their staff and others interested in supporting research in chemistry.

The gift commemorates in an enduring way the appreciation the American Chemical Society extends to The Ohio State University for 50 years of support for Chemical Abstracts Service in the early part of the last century.

The annual distribution from this fund shall support undergraduate research in the Department of Chemistry at The Ohio State University as approved by the chairperson of the Department of Chemistry in the College of Mathematical and Physical Sciences.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors and from the dean of the College of Mathematical and Physical Sciences.

Amount Establishing Endowment: \$100,000.00

The Bob and Mary Reusché Chair Fund in Geography

The Bob and Mary Reusché Chair Fund in Geography was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Robert F. (B.S.Bus.Adm. 1949) and Mary W. (B.S.Bus.Adm. 1950) Reusché.

Until the principal balance of this fund reaches \$2,000,000, the annual distribution shall be reinvested in the endowment principal. After the principal balance reaches \$2,000,000, the annual distribution shall be used to support a chair position in the Department of Geography in the College of Social and Behavioral Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the Department chairperson in consultation with the dean of the College of Social and Behavioral Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

April 4, 2008 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Social and Behavioral Sciences.

Amount Establishing Endowment:	\$100,000.00
Total Commitment:	\$2,000,000.00

The Scott C. Stallkamp Family Endowment Fund

The Scott C. Stallkamp Family Endowment Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Scott C. (B.S. *cum laude* 1988, M.D. 1995) and Jeanna M. (M.A. 1995) Stallkamp.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a student-athlete who is pursuing a degree at The Ohio State University and is a member of the women's swimming team. Scholarship recipients must be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to prove unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$90,000.00

The Christine F. and Jeffrey R. Rodek Excellence Fund for Men's Varsity Lacrosse

The Christine F. and Jeffrey R. Rodek Excellence Fund for Men's Varsity Lacrosse was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Christine F. (B.S.Nurs. 1975) and Jeffrey R. (B.S.M.E. 1975, M.B.A. 1976) Rodek of New Albany, Ohio.

The annual distribution from this fund shall be used to supplement the coach's discretionary budget for the men's varsity lacrosse team in the Department of Athletics at The Ohio State University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

April 4, 2008 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of the Department of Athletics.

Amount Establishing Endowment: \$75,000.00

Frederick R. "Fritz" Reed Scholarship Fund

The Frederick R. "Fritz" Reed (J.D. 1973) Scholarship Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from his wife, Jane Reed, family members, friends, and colleagues to honor Fritz's memory.

The annual distribution shall provide merit-based scholarship support to an incoming student at The Michael E. Moritz College of Law, with preference for an individual who was involved in athletics at Harvard University or, if there is no qualified Harvard candidate, to a candidate who was involved in athletics elsewhere during their undergraduate experience. The scholarship award is renewable for a three-year period, based on academic merit. The dean of the College and the College's Office of Student Financial Aid shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Moritz College of Law.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, should one be available, and from the dean of the Moritz College of Law.

April 4, 2008 meeting, Board of Trustees

The Garrett Family Athletic Scholarship Fund

The Garrett Family Athletic Scholarship Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Garrett Equipment Inc. of Columbus, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity swimming team and pursuing an undergraduate degree at The Ohio State University. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the university's cost of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by The Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$60,000.00
Total Commitment: \$150,000.00

The Mike Sexton Athletic Scholarship Fund

The Mike Sexton Athletic Scholarship Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Mike Sexton of Las Vegas, Nevada.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is pursuing an undergraduate degree at The Ohio State University and is a member of the varsity men's gymnastics team. The recipients shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$60,000.00
Total Commitment: \$150,000.00

April 4, 2008 meeting, Board of Trustees

The John and Kathy Warner Athletic Scholarship Fund

The John and Kathy Warner Athletic Scholarship Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from John T. Warner III (B.S. 1981) and Kathryn B. Warner (B.S. 1981) of Dublin, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity football team and pursuing an undergraduate degree at The Ohio State University. First preference will be given to a student from the state of Ohio. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. Amount Establishing Endowment: \$60,000.00

The Barbara Cuiwik Scholarship Fund

The Barbara Cuiwik Scholarship Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Anthony Cuiwik (New York University, B.S. 1962 - Electrical Engineering, M.S. 1964 - Electrical Engineering, and Ph.D. 1968 - Philosophy in Operations Research) in honor of his wife, Mrs. Barbara Cuiwik (The Ohio State University, B.S. Adm. 1987 - Marketing from the College of Business) of Cincinnati, Ohio.

It is the donor's intent to support students who would otherwise be burdened with student loans. The annual distribution from this fund shall be used to provide one renewable merit and financial-based recruitment scholarship to a full-time Honors undergraduate or graduate student in The Max M. Fisher College of Business. First preference is to support students who do not qualify for financial aid grants based on their completion of a nationally approved needs analysis document, such as the Free Application for Federal Student Aid (FAFSA). Second preference is to support students who do qualify for financial aid grants based on their completion of a nationally approved needs analysis document.

The scholarship is renewable up to 12 quarters or upon completion of degree, whichever comes first, as long as the recipient maintains financial aid or need, enrollment in the Fisher College of Business, and enrollment in the University Honors Program or graduate program. The scholarship shall be distributed equally over three quarters of the academic year for expenses such as the cost of tuition, room and board, books and supplies, and miscellaneous educational expenses.

The annual distribution from this fund shall be used to support educational diversity at the University, consistent with the University's mission and admissions policy. It is the

April 4, 2008 meeting, Board of Trustees

donor's desire that the scholarships be awarded in furtherance of the diversity mission with particular attention to, but not limited to, female students who are United States citizens, and have been accepted for admissions at the University. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

Furthermore, it is the donor's desire that the scholarship be administered so as to alternate between a first-year, undergraduate student enrolled in the University Honors Program, and a first-year graduate student. The Office of Student Financial Aid will administer this scholarship fund in consultation with the Fisher College of Business, the University Honors and Scholars Center, and the Graduate School. In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the vice provost for Enrollment Services and dean for Undergraduate Education.

Amount Establishing Endowment: \$50,000.00

The Nancy L. Fisher Football Athletic Scholarship Fund

The Nancy L. Fisher Football Athletic Scholarship Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from James L. Fisher of Akron, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity football team and pursuing an undergraduate degree at The Ohio State University. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by The Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

April 4, 2008 meeting, Board of Trustees

Total Commitment: \$300,000.00

Blair Janson and Wilmer Stover Scholarship Fund in Plant Pathology

The Blair Janson and Wilmer Stover Scholarship Fund in Plant Pathology was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Dr. Blair Janson (B.S. 1947, M.S. 1947, Ph.D. 1950).

The annual distribution from this fund shall be used to support named travel scholarships for undergraduate and graduate students in the Department of Plant Pathology. Applicants must submit a request and an abstract of the proposed research to the chairperson of the Department of Plant Pathology. Recipients will be selected by the chairperson of the Department in consultation with the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences and the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Endowment: \$50,000.00

The Dr. Miriam G. Schwartz Slavic Fund

The Dr. Miriam G. Schwartz Slavic Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Miriam G. Schwartz (B.S. 1944, M.A. 1967, Ph.D. 1979) through the Miriam & Stanley Schwartz, Jr. Philanthropic Foundation.

The annual distribution from this fund shall be used to provide merit-based scholarship support for undergraduate students who have declared a major in Russian language, literature, culture, or linguistics. The recipient must be at least junior status and have a grade point average (G.P.A.) of 3.5 or higher. Scholarship recipients shall be selected by the chairperson of the Department of Slavic and East European Languages and Literatures in consultation with the dean of the College of Humanities and the Office of Student Financial Aid. The donor shall be kept apprised of the selection process and the awarding of the scholarship.

A portion of the annual distribution may be used to recognize teaching and research excellence among the instructors and faculty in the Department of Slavic and East

April 4, 2008 meeting, Board of Trustees

European Languages and Literatures at the discretion of the dean of the College of Humanities.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Humanities in consultation with the chairperson of the Department of Slavic and East European Languages and Literatures. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Endowment: \$50,000.00

The Samantha Sue "Sam" Scuro Law Library Fund

The Samantha Sue "Sam" Scuro Law Library Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Joseph E. Scuro (J.D. 1972) on behalf of Samantha Sue "Sam" Scuro by "Salem," "Sweetness," and "Popoki" - her little cats.

The annual distribution from this fund shall be used to provide general operating support for the library at The Michael E. Moritz College of Law as approved by the College's dean in consultation with the associate dean of Information Services.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Moritz College of Law.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the Moritz College of Law in consultation with the College's associate dean of Information Services.

Amount Establishing Endowment: \$50,000.00

The James F. and Barbara Young Sipp Endowment Fund for WOSU Public Media Student Internships

The James F. and Barbara Young Sipp Endowment Fund for WOSU Public Media Student Internships was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of

April 4, 2008 meeting, Board of Trustees

The Ohio State University Foundation, with gifts from Barbara (B.S. 1959) and James (B.S. 1959) Sipp.

The annual distribution from this fund shall be used to support at least one WOSU Public Media student intern annually. The internship shall be non-competitive and provide professional experience to the student in the area of greatest need to WOSU - television or radio production, journalism, etc. Internship recipients shall be selected by the general manager of WOSU Public Media.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the senior vice president for University Relations and the general manager of WOSU Public Media.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the senior vice president for University Relations and the general manager of WOSU Public Media.

Amount Establishing Endowment: \$50,000.00

The Lynn and Eileen "Mert" Theis Athletic Scholarship Fund

The Lynn and Eileen "Mert" Theis Athletic Scholarship Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Lynn (B.S. 1959), and Eileen (Cert.Grad.Dent.Hyg. 1957) Theis of Chagrin Falls, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the football team or cheerleading squad and pursuing an undergraduate degree at The Ohio State University. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the university's cost of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by The Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

April 4, 2008 meeting, Board of Trustees

Amount Establishing Endowment: \$50,000.00
Total Commitment: \$150,000.00

Strassman Family Scholarship Fund

The Strassman Family Scholarship Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from James A. Strassman and Debra G. Strassman.

The annual distribution from this fund shall be used to provide one merit- and need-based undergraduate scholarship to a full-time, first generation, entering student attending the Columbus campus. First preference shall be for graduates of Cleveland public high schools in Cuyahoga County, Ohio. Second preference shall be for graduates of other high schools in Cuyahoga County, and third preference shall be for graduates of high schools in Lake or Geauga Counties. The recipients of the scholarship should not be majoring in sports-related programs. The scholarship is renewable for a maximum of 12 quarters of receipt leading to an undergraduate degree at the University provided the student maintains a 3.0 cumulative grade point average and continues to demonstrate financial need. Scholarships shall be awarded by the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the Office of Student Financial Aid.

Amount Establishing Endowment: \$36,000.00 (grandfathered)

The John P. Henderson Scholarship Fund

The John P. Henderson Scholarship Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from William Kohn (J.D. 1976) and John P. Henderson (M.A. 1965, Ph.D. 1972).

The annual distribution from this fund shall provide scholarship support for students in The Michael E. Moritz College of Law. The dean of the College and the College's Office of Student Financial Aid shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Moritz College of Law.

April 4, 2008 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the Moritz College of Law.

Amount Establishing Endowment: \$28,750.00 (grandfathered)

OSU Alumni Club of Butler County Scholarship Endowment Fund

The OSU Alumni Club of Butler County Scholarship Endowment Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the OSU Alumni Club of Butler County.

The annual distribution from this fund shall provide one or more annual scholarships for students who graduated from public or private high schools located in Butler County, Ohio. To qualify, candidates must be in the upper 25% of their graduating class and demonstrate good citizenship qualities and leadership skills. Financial need may also be a consideration, although not a requirement for receiving the scholarship. Candidates will be recommended by the OSU Alumni Club of Butler County and selected by the Office of Student Financial Aid. Provided they are in good standing with the University, recipients may apply with the Office of Student Financial Aid to renew their scholarships on an annual basis.

Per the request of the donors, the University agrees any unused distribution from this endowed fund shall be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of the Office of Student Financial Aid. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$28,626.88 (grandfathered)

The Jeanne Ann Cadden Memorial Scholarship Fund for the College of Nursing

The Jeanne Ann Cadden Memorial Scholarship Fund for the College of Nursing was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Bernard E. Cadden (B.S. 1948), from Columbus, Ohio, and family.

April 4, 2008 meeting, Board of Trustees

The annual distribution from this fund shall be used to provide a scholarship for graduate students in the College of Nursing specializing in neonatal nursing. Scholarship recipients shall be selected by the dean and associate deans of the College of Nursing in consultation with the Office of Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the university's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the University's Board of Trustees and Foundation Board as recommended by the dean of the College of Nursing. Any such alternate distributions shall be made in a manner as aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Endowment: \$27,280.00 (grandfathered)

Class of 1958 Clinical Teaching Endowed Fund

The Class of 1958 Clinical Teaching Endowed Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from alumni and friends of the College of Nursing Class of 1958.

The annual distribution from this fund shall be used at the discretion of the dean of the College of Nursing to enrich clinical teaching of undergraduate students.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Nursing.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the group of donors should one be available, and from the dean of the College of Nursing.

Amount Establishing Endowment: \$27,151.70 (grandfathered)

The Kleptz Family and Dr. Thomas Turner Livestock and Meat Judging Teams Endowment Fund

The Kleptz Family and Dr. Thomas Turner Livestock and Meat Judging Teams Endowment Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Kleptz family to honor the dedication and leadership that Dr. Thomas Turner (B.S. 1970) has provided to The Ohio State University Livestock and Meat Judging Teams program.

April 4, 2008 meeting, Board of Trustees

The annual distribution from this fund shall be used to support undergraduate livestock evaluation and meat evaluation judging teams in preparation for regional and national intercollegiate contests and associated educational programs in the Department of Animal Sciences in the College of Food, Agricultural, and Environmental Sciences. The annual distribution may also be used to provide a graduate assistant position to support the judging teams. Expenditures shall be approved by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Animal Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Animal Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, should one be available, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Animal Sciences.

Amount Establishing Endowment: \$26,274.00 (grandfathered)

Karl Danneberger Turfgrass Science Fund

The Karl Danneberger Turfgrass Science Fund was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Dr. Karl Danneberger and friends.

The annual distribution from this fund shall be used to enhance the undergraduate or graduate educational experience in turfgrass science. Expenditures shall be made by the chairperson of the Department of Horticulture and Crop Science, with recommendations by the turfgrass science faculty member who is the advisor for the undergraduate turfgrass management club, teaches the greatest number of turfgrass science courses, or advises the largest number of turfgrass science majors, and approved by the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

April 4, 2008 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from Dr. Danneberger, should he be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences. Amount Establishing Endowment: \$26,140.78 (grandfathered)

The Betty-ann Hoener Graduate Endowed Fund in Pharmaceutics

The Betty-ann Hoener Graduate Endowed Fund in Pharmaceutics was established April 4, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Dr. Betty-ann Hoener (Ph.D. 1974) of San Francisco, California.

The annual distribution from this fund shall be used to support an outstanding senior graduate student in the College of Pharmacy's Division of Pharmaceutics. This award will be in addition to the College of Pharmacy's graduate stipend. Recipients shall be selected by the Division of Pharmaceutics faculty in consultation with the Office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and from the dean of the College of Pharmacy.

Amount Establishing Endowment: \$25,416.56 (grand-fathered)

Change in Description of Named Endowed Fund

Atsushi Onoe Memorial Fund

The Atsushi Onoe Memorial Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Toshioki and Keiko Onoe and many friends in memory of Atsushi Onoe (M.A. East Asian Languages and Literatures 1997) who was tragically killed in an accident in 1999. The description was revised April 4, 2008.

The annual distribution from this fund shall be used to support academic activities of Ohio State University students who wish to pursue the study of the Japanese language and culture, including but not limited to, scholarships, travel, and educational support materials. Award recipients will be selected by the chairperson of the Department of East Asian Languages and Literatures as recommended by the Department's committee. Scholarships will be awarded in consultation with the Office of Student Financial Aid.

April 4, 2008 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Humanities in consultation with the chairperson of the Department of East Asian Languages and Literatures. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Change in Name of Named Endowed Fund

Vig/Williams Endowed Chair Fund in Orthodontics

The College of Dentistry Endowed Chair Fund in Orthodontics was established May 6, 2005, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from alumni and friends. The name was revised April 4, 2008.

The annual distribution from this fund and additional gifts will be added to the principal until the minimum amount for funding an endowed chair (\$1.5 million) has been reached. Subsequently, the annual distribution shall be used to provide salary and program support to a distinguished faculty member in the Section of Orthodontics in the College of Dentistry. Selection of the named chair holder shall be made by the dean of the College of Dentistry with recommendations from the head of the Section of Orthodontics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Dentistry and the head of the Section of Orthodontics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Change in Name and Description of Named Endowed Fund

The Willard A. Staker Memorial Scholarship Fund

The Willard A. Staker Memorial Scholarship Fund was established May 4, 2001, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Staker's Drugs, Inc. of Portsmouth, Ohio. The name and description were revised April 4, 2008.

The annual distribution from this fund shall be used to provide a scholarship to a student(s) enrolled in the College of Pharmacy. Preference will be given to a student(s) who has resided in Scioto County located in southern Ohio and who also has an interest in community/retail pharmacy. The dean of the College or the dean's designee shall be

April 4, 2008 meeting, Board of Trustees

responsible for selecting scholarship recipients, apprising Staker's Drugs, Inc. of the decision, and coordinating these scholarships with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Pharmacy.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, should one be available, and from the dean of the College of Pharmacy.

INTERNAL LINES OF CREDIT

Resolution No. 2008-102

CAMPUS PARTNERS AND UMC PARTNERS

Synopsis: Approval of the use of internal lines of credit to support two affiliated entities initiatives is proposed.

WHEREAS in 2005 the Board of Trustees approved the University's Policies Regarding Use of University Debt which require Board approval for University lines of credit to affiliated entities; and

WHEREAS Campus Partners has requested a line of credit of up to \$10,000,000 for property acquisitions that are consistent with the Campus Partners strategic plan and are approved by the Campus Partners Board of Directors; and

WHEREAS UMC Partners has requested a line of credit of up to \$5,700,000 for costs associated with the dissolution of UMC Partners with repayment being the responsibility of Health System; and

WHEREAS both requests have received the appropriate levels of approval and are consistent with the policies regarding use of internal lines of credit:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees approve a University line of credit to Campus Partners for up to \$10,000,000 for property acquisitions; and

BE IT FURTHER RESOLVED, That the Board of Trustees approve a University line of credit to UMC Partners for up to \$5,700,000 for costs associated with UMC Partners dissolution.

April 4, 2008 meeting, Board of Trustees

(See Appendix XLVIII for background information, page 1024.)

APPROVAL TO ENTER INTO DESIGN AND CONSTRUCTION CONTRACTS

Resolution No. 2008-103

APPROVAL TO ENTER INTO DESIGN CONTRACTS
ATI-HORTICULTURE AND OPERATIONS CENTER
EOC CLINICAL EXPANSION
FIELD HOCKEY/OUTDOOR TENNIS COMPLEX
INFRASTRUCTURE AND ROADWAYS EOC PHASE 1
ROSS HEART HOSPITAL EP LAB EXPANSION

APPROVAL TO ENTER INTO CONSTRUCTION CONTRACTS

ATI-HORTICULTURE AND OPERATIONS CENTER
FIELD HOCKEY/OUTDOOR TENNIS COMPLEX

Synopsis: Authorization to enter into design and construction contracts, as detailed in the attached materials, is requested.

WHEREAS in accordance with the attached materials, the University desires to undertake and enter into design contracts for the following projects:

ATI - Horticulture and Operations Center (99-00 capital request)	\$8.4M	State appropriations College general funds
EOC Clinical Expansion (09-10 capital request, \$550.4M total project)	\$3.5M	Bond proceeds
Field Hockey/Outdoor Tennis Complex (N/A)	\$6.0M-\$9.0M	Auxiliary funds
Infrastructure and Roadways EOC Phase 1 (09-10 capital request. \$45.9M total project)	\$3.0M	Bond proceeds
Ross Heart Hospital EP Lab Expansion (N/A)	\$12.0M	Auxiliary funds

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following projects:

ATI - Horticulture and Operations Center (99-00 capital request)	\$8.4M	State appropriations College general funds
Field Hockey/Outdoor Tennis Complex (N/A)	\$6.0M-\$9.0M	Auxiliary funds

** Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project, renovation projects funded by internal office or department funds that are noted as "N/A" have not had separate capital project authorization because of their small size or because they arose unexpectedly between capital planning cycles.*

NOW THEREFORE

BE IT RESOLVED that the President and/or Senior Vice President for Business and Finance be authorized to enter into design and construction contracts for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix XLIX for background information, page 1025.)

PURCHASE OF REAL PROPERTY

Resolution No. 2008-104

**Ohio National Guard Hangar Facility
Adjacent to Don Scott Field
2827 West Dublin-Granville Road
Columbus, Ohio**

Synopsis: Authorization to purchase the improved real estate located at 2827 West Dublin-Granville Road, Columbus Ohio, is proposed. The property is improved with a two-story aviation hangar facility containing 56,160 SF.

WHEREAS this property has an appraised value range of approximately \$2,875,000.00 - \$3,035,000.00 and the owner, the Adjutant General of the state of Ohio, has entered into a contingent real estate purchase contract to sell the property to the University for \$2,875,000.00; and

WHEREAS this property is located adjacent to the University Airport at Don Scott Field, and is surrounded by other property owned by the University and the appropriate University offices have determined that the purchase of this property would be in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to purchase nine parcels located at 2827 West Dublin-Granville Road, Columbus Ohio and to acquire title of this property in the name of the state of Ohio for the use and benefit of The Ohio State University, upon such terms and conditions deemed to be in the best interest of the University.

(See Appendix L for background information, page 1033.)

LONG-TERM LEASE

Resolution No. 2008-105

**Aviation Hangar Facility
Adjacent to Don Scott Field
2827 West Dublin-Granville Road
Columbus, Ohio**

Synopsis: Authorization is requested for a long-term lease of 8.017 acres, improved with a two-story aviation hangar at 2827 Dublin-Granville Road, Columbus, Ohio containing 56,160 SF from The Ohio State University to MedFlight of Ohio.

WHEREAS the Board of Trustees of The Ohio State University is presented with the opportunity to enter into a long term lease of real property; and

WHEREAS this property is currently used by MedFlight of Ohio, Inc. and the University Airport and the College of Engineering have determined that the Lease of this property is in the best interest of the University, and

WHEREAS the University Airport will bear all operating costs, and the rent from the Lease will be used to repay the bond financing used to purchase the property:

NOW THEREFORE

April 4, 2008 meeting, Board of Trustees

BE IT RESOLVED, That the President and/or the Senior Vice President for Business and Finance be authorized to enter into a long term lease of the improved real property at 2827 Dublin-Granville Road to MedFlight of Ohio, Inc., for a 10 year term, with two 5 year renewal terms, and with rights of either party to terminate the lease at any time with two year notice, and under such additional terms and conditions as shall be in the best interest of the University.

(See Appendix LI for background information, page 1035.)

Upon motion of Mr. Wexner, seconded by Ms. Hendricks, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Cloyd, Hendricks, McFerson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Marbley and Ratner.

DISTINGUISHED SERVICE AWARDS

Resolution No. 2008-106

Synopsis: Approval of seven individuals to receive the University's Distinguished Service Award is proposed.

WHEREAS the President's Council, upon the recommendation of the Committee on Distinguished Service Awards, nominated and recommended the following seven individuals for approval by the Board of Trustees to receive the Distinguished Service Award at a time convenient to the University and the recipient:

Edwin M. "Ed" Cooperman
Alice Galloway
Anne K. "Nancy" Jeffrey
Bruce W. Lavash
Corbett A. Price
Barbara J. "Barbie" Tootle
George Paulson

WHEREAS these awards are given in recognition of distinguished service to The Ohio State University and the awards are in accordance with action taken by the Board of Trustees in 1952:

NOW THEREFORE

BE IT RESOLVED, That the Distinguished Service Awards be approved for awarding as designated above.

Upon motion of Ambassador Ong, seconded by Mr. McFerson, the Board of Trustees adopted the foregoing resolution with thirteen affirmative votes cast by Trustees Hendricks, McFerson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Marbley and Ratner, and one abstention cast by Trustee Cloyd.

APPOINTMENT OF INVESTMENT MANAGERS AND REALLOCATION OF FUNDS

Resolution No. 2008-107

Synopsis: The appointment of investment managers and reallocation of funds are proposed.

April 4, 2008 meeting, Board of Trustees

WHEREAS it is the policy of The Ohio State University to utilize the service of external investment managers and index funds to assist in the management of the University's Long-Term Investment Pool; and

WHEREAS the Development and Investment Committee of the Board of Trustees periodically reviews the results obtained by the external investment managers and the amount of funds assigned to each of them; and

WHEREAS it is prudent practice to reallocate funds assigned to external investment managers as conditions change; and

WHEREAS the number of external Investment Managers and the amount of funds assigned to them shall be determined by the Board of Trustees; and

WHEREAS the Board of Trustees last approved the Appointment of Investment Managers and Reallocation of Funds on February 1, 2008:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Development and Investment Committee, the Board of Trustees hereby waives competitive bidding requirements under the University's Purchasing Policy (Resolution 2008-70) and approves the following external investment manager changes in conjunction with index fund reallocations as needed to maintain target asset allocations previously approved:

	Allocation as of 3/31/08	Changes	Revised Allocation
<u>US Equity Large Cap</u>			
Fifth Third	\$42,742,623	(\$42,742,623)	\$0
Huntington Value	\$43,457,778	(\$43,457,778)	\$0
SSGA S&P 500	\$109,619,381	(\$109,619,381)	\$0
SSGA Russell 1000	\$0	\$363,579,624	\$363,579,624
<u>US Equity- Mid Cap</u>			
SSGA Extended	\$88,735,420	(\$88,735,420)	\$0
<u>US Equity Small Cap</u>			
Bernzott	\$22,838,188	(\$22,838,188)	\$0
Independence	\$26,874,331	(\$26,874,331)	\$0
Opus	\$27,200,189	(\$27,200,189)	\$0
SSGA Russell 2000	\$32,111,714	(\$32,111,714)	\$0
<u>Private Equity</u>			
AG Capital Recovery Partners VI	\$0	\$15,000,000	\$15,000,000
TPG Partners VI	\$0	\$15,000,000	\$15,000,000
Total	\$393,579,624	\$0	\$393,579,624

Upon motion of Ambassador Ong, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution with thirteen affirmative votes cast by Trustees Hendricks, McFerson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass, Marbley and Ratner, and one abstention cast by Trustee Cloyd.

April 4, 2008 meeting, Board of Trustees

Dr. Cloyd:

Thank you very much. Today is another special day in that Karen Hendricks, our vice chair of the Board is attending her last Board of Trustees meeting, and I want to take this opportunity publicly to thank her for the many, many contributions that she has made to this University as a Trustee and also the excellence she has brought to the Board as we think about our work process and perhaps even more importantly the value she brings as a colleague and demonstration of what collegiality is all about. We really deeply appreciate that Karen. She has a long history with Ohio State going back to her days as an undergraduate student here in engineering, and also her years in the Alumni Association Board. We know Karen that your service and dedication to this University is not going to end today. We certainly look forward to future opportunities to work with you on University business. Also all of us will really continue to value the time with you as a colleague and friend. I said last night I do not think this University has a more passionate, energetic and dedicated supporter than you. So from all of the Board, I want to thank you very much. We have a little token of appreciation that we would like to offer you.

We would love to hear a few comments if you have any.

Ms. Hendricks:

Well I thought I might repeat one of the things that I mentioned last night at dinner because few people have the perspective that a Trustee has because of the breadth of our purview of our great University, and also because of the length of time that we spend here. I do not even think that some of the deans in the room or some of the staff who have been here many, many years have the broad look that we all have. They probably have a lot deeper look, but not as broad a look. Also, at least in my nine years, I have covered three different administrations, so even the president, who has the purview, sometimes does not have the years that give us a sense of where we are and where we are going. I really feel that after nine years we have made enormous progress. This is a different University than it was nine years ago, but the other thing that I would say is that by understanding the greatness of this place, the depth of it, and the complexity of it, that our opportunities are endless still. I think that Gordon probably has communicated it better than any, that this is Ohio State's time. First of all I think we have the leadership that Gordon brings, and I think all of us are amazed at his energy and how quickly he is on board. When you have good leadership, you bring in good leadership, and already with Peter and Jeff here, it is just an example of the kind of talent that good leadership brings, so I see this happening, the stars aligning if you will. In addition, the state of Ohio has its focus on higher education and with the chancellor's look at this, there is some real thinking going on now about the importance of higher education to our state. I think with our history now over these last years and the progress we are making, we have alumni and staff and faculty that are feeling the energy. Certainly I feel the energy, and I think that everybody around us will as this leadership moves forward. I was so glad I was here for the little bit that we have approved today for this Medical Center expansion. How many years have we been talking about this and it's the start of something big. It is 50% of us, and that 50% will put the University as a whole, move it and progress it. I leave very excited about where we are and I think one of the things as a Board, we have added to that with the governance structure that we have put in place that will sustain us over time, and our leadership. I think as Gordon said today, it is as important as his in progressing the University. Our focus on the big things that will move us are important. I leave feeling very energized about where we are, having seen all that has transpired in the last nine years, I know we are well positioned and I was glad to be a part of it, and I look forward to hearing all the wonderful things that will happen in the years to come. Thank you.

April 4, 2008 meeting, Board of Trustees

Mr. McFerson:

As one who had a chance to sit next to Karen for eight years, and seeing all the work that takes place around here, I don't know of any Trustee who has given us more time, more effort, or served on more task forces behind the scenes. She really gave it everything she had. I personally will miss her because of that. She did a fabulous job for this University and I think set an example of how hard a Trustee really can work and when you do, what a difference you can make. So best wishes to you and thank you so much Karen for what you have done.

Ms. Hendricks:

Thank you.

Thereupon the Board adjourned to meet Friday, June 6th, 2008 at the Longaberger Alumni House, Columbus, Ohio.

Attest:

G. Gilbert Cloyd
Chairman

David O. Frantz

April 3, 2008

Board Agenda

- **Objectives of Briefing**
- **Strategic Alignment**
- **The Revised Facilities Plan**
- **Integrated Financial Planning**
- **Items of Continued Interest**
- **Next Steps**
- **Summary**

The Ohio State University Medical Center Update April 2008

Strategic Alignment

Strategic Goal

**Become a top 20 academic medical center by 2015
through advancements in research, education, and
patient care**

- Cancer Program top 10 NCI goal detailed in the Cancer Strategic Plan and linked directly to this overarching goal

Est. summer 2007

Why Top 20? The Value Proposition

Strategic Plan *Supporting the University Plans*

6 Strategic Goals:

- Forge *One* OSU
- Put Students First
- Faculty Success
- Research Agenda
- Our Communities
- Simplify Systems and Structures

OSU Academic Plan:

- Move OSU into Top Tier of Public Research University
- Guides all University Academic Priorities
- Medical Center Must Become Top Tier

OSU Medical Center Strategic Planning Components

Creating the future of medicine to improve people's lives

Health Enterprise Alignment

- Integration of Tripartite Mission
 - Education, Research, Patient Care
- Single Balance Sheet and Strategic Plan
- Based on University Academic Plan
- Guided by President's Six Strategic Principles
- Aligned with Six Medical Center Key Result Areas
- Aligned with Governance Changes, Bond Rating, Financial Ratio Targets, and University Capital Planning (Inclusive: University Leaders, Boards, Medical Center Leaders)
- Executive Sponsors Consensus
- External Validation

Date: March 26, 2008
Subject: Revised Medical Center Master Facilities Plan
From: Chris Callahan
Peter Gaiser *et al.*
Dave Schiller *et al.*
Bill Sklar *et al.*
Chip Socha *et al.*
To: E. Gordon Gee

The purpose of this memo is to transmit to you our conceptual vision for the Revised Medical Center Master Facilities Plan. Although there are still some issues that need to be resolved before requesting Board approval in June and July, particularly the refined financial plan, we are in full agreement about the priorities and commitments represented in this revised version. We find it offers a unique opportunity to move the health enterprise and the University forward academically and clinically, and that it does so in a way that is in alignment with the University's planning process.

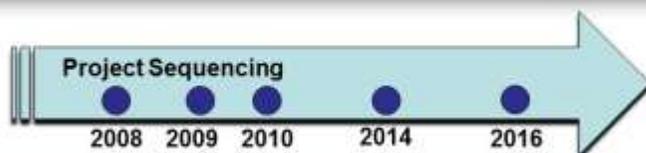

We look forward to working with each other and with the other stakeholders in the months ahead to assure the success of this critically important project.

The Ohio State University Health System Long Range Financial Plan FY09-16 April 2008

Integrated Financial Plan

The Ohio State University Health System The Need for Strong Financial Performance

- **Invest into the 3 mission areas of OSUMC**
- **Invest in new technology, equipment, and buildings**
 - Over \$73 million will be invested in routine capital in FY08
- **Invest in strategic initiatives with emphasis on the six signature programs**
 - Over \$66 million will be transferred to departments and centers in FY08
- **Provide the capacity to obtain additional funding through long-term debt to meet expansion needs**
 - Cash reserves will grow by approximately \$20 million in FY08
- **Present a strong financial position to donors**
- **Maintain University's credit rating (AA)**

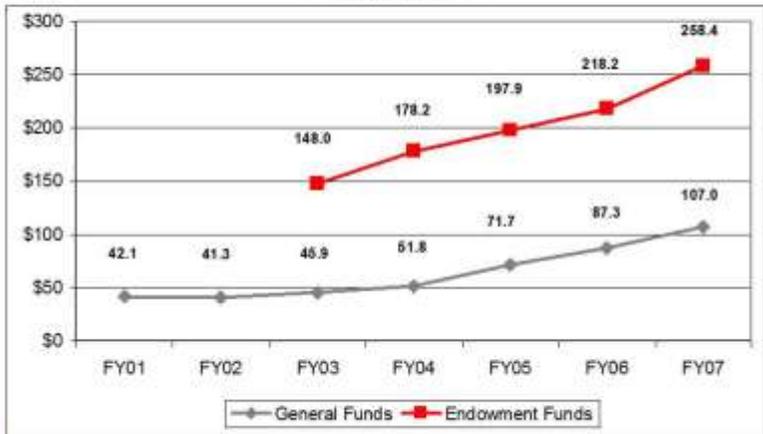

The Ohio State University Health System The Need For Financial Targets

- **Financial performance must be sufficient to meet cash flow requirements of the strategic plan and maintain or improve the financial stability of the Medical Center.**
- **It is imperative that OSUHS be able to service the debt based on its own cash flows and maintain a healthy credit profile as part of the University.**
- **Setting financial targets is instrumental in generating positive cash flows and protecting the University's credit rating.**

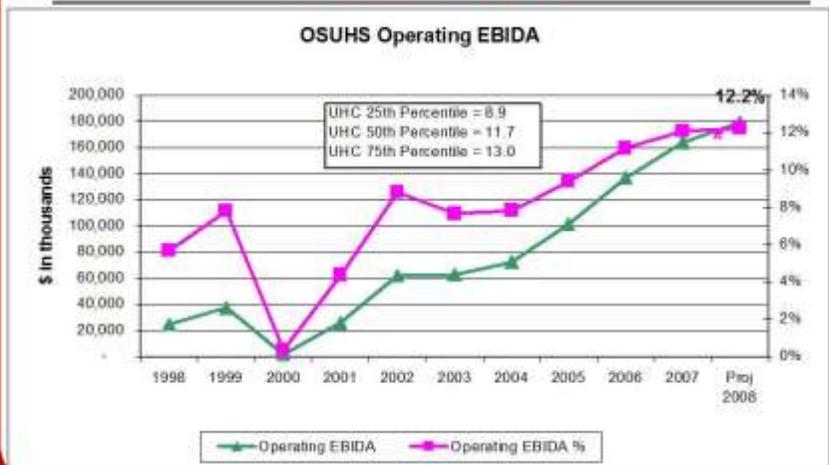

The Ohio State University Health System Financial Targets

- **The following ratios were used to establish financial performance in developing the long range financial plan:**
 - **Operating EBIDA Margin**
 - 10.0 to 12.0%
 - **Days Cash on Hand**
 - Increase 3 to 5 days per year
 - **Debt Service Coverage**
 - Greater than 4.0 times

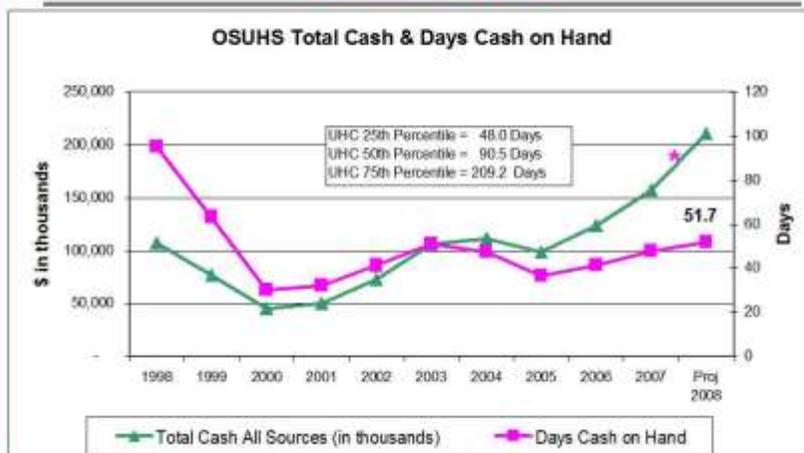

The Ohio State University Medical Center College of Medicine and Office of Health Sciences Fund Balances *In millions*

The Ohio State University Health System Long Range Financial Plan

- **Developed based on internal and external assumptions**
 - Volumes
 - Rates
 - Inflation
- **Used key financial ratios to set long-term goals**
 - EBIDA Margin
 - Days Cash on Hand
 - Long-Term Debt to Capitalization
 - Cash Flow to Total Debt
 - Debt Service Coverage
 - Days in A/R

The Ohio State University Health System Long Range Financial Plan Critical Initiatives Needed to Achieve Targets

- **Signature program performance**
- **Operational efficiencies**
 - Improved throughput
 - Improved productivity
 - Continued non-labor initiatives
 - Continue OSUP and COM initiatives
- **Increased activity**
 - Bed gap strategy
 - Ambulatory strategies
- **Aggressive contracting with payers**
- **Improved payer mix**
- **Strong development program**

The Ohio State University Health System Long Range Financial Plan Process

Step 1 - Complete baseline plan which includes:

- Organic volume assumptions
- Revenue and expense assumptions

Step 2 - Add to the baseline plan (Executive review)

- Volume growth based on faculty recruitments
- Master facility plan costs
- Debt

Step 3 - Add ambulatory plan

Step 4 - Incorporate bed gap strategy (Executive review)

Step 5 - Apply management interventions

Step 6 - Complete sensitivity analysis

Step 7 - Executive review and Deloitte comments

Items of Continued Interest

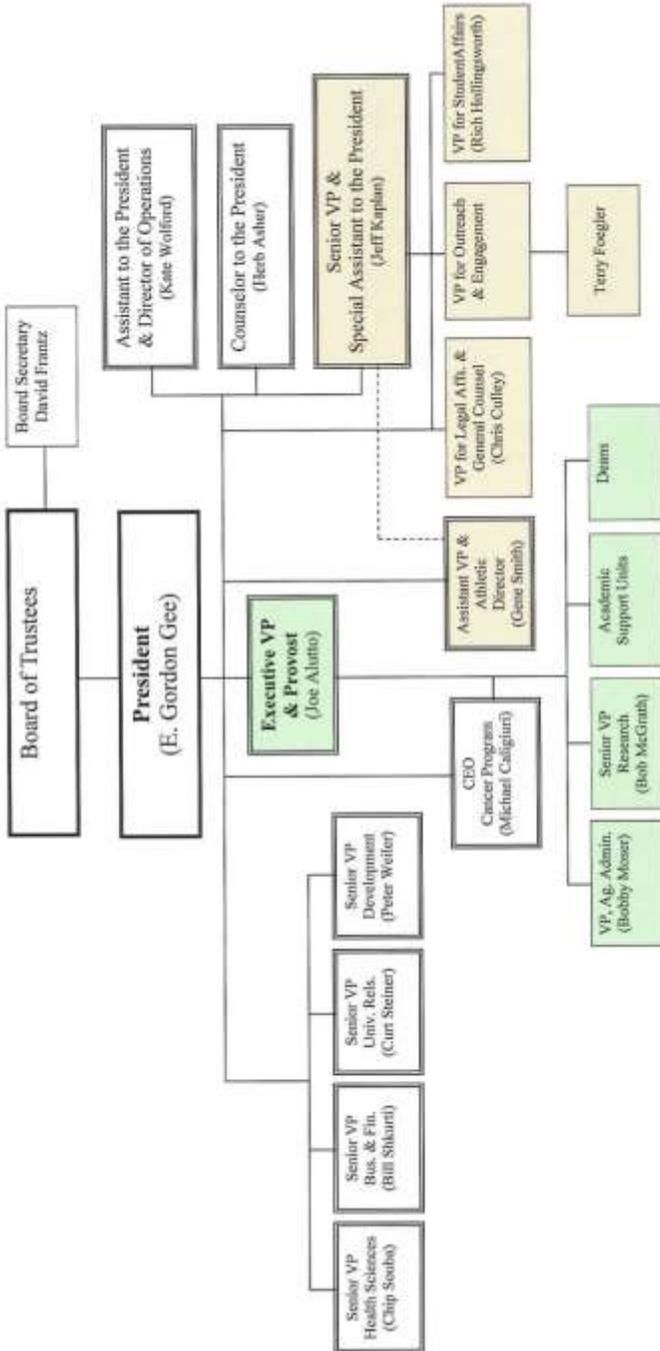

- Alignment
- Project Management
- Business Plan
- Risk Management
- Other

Next Steps

- **Approve \$6.5M for Additional Design Work for Master Plan Projects (Joint Committee)**
- **Approve \$1.0M for Design Work for EP Labs (Routine Capital) (Fiscal Affairs)**
- **Update on Rt. 23 Ambulatory Lease (Fiscal Affairs)**

University Leadership Organizational Chart

**AMENDMENTS TO THE CODE OF REGULATIONS OF
THE OHIO STATE UNIVERSITY MANAGED HEALTH CARE SYSTEMS, INC. (MHCS)**

SUMMARY

The MHCS Board of Directors has approved the proposed changes to the Code of Regulations, which is subject to the approval of the University's Board of Trustees. The changes are intended to provide alternate representatives of The Ohio State University on the Board of Directors to replace the representatives of the Board of Trustees in accordance with Board of Trustees policy and add an additional external director to further increase expertise of the Board of Directors.

SUCCESS: In MHCS's effort to better serve its client base of faculty, staff, and students and potential new customers it is preparing to strategically position itself with greater flexibility and agility in the marketplace in the development and offering of innovative products and services. To accomplish this endeavor there is a need to increase the range and depth of expertise represented on the Board of Directors.

**CODE OF REGULATIONS OF
THE OHIO STATE UNIVERSITY MANAGED HEALTH CARE SYSTEMS, INC.**

**ARTICLE I
NAME AND PURPOSE OF THE CORPORATION**

Section 1.01 Name. The name of the Corporation is The Ohio State University Managed Health Care Systems, Inc., herein called the "Corporation".

Section 1.02 Purpose: Tax-exempt Status. The Corporation, is organized exclusively to promote and carry out educational, charitable, and scientific purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code of 1986, as amended (or any corresponding provisions of any future United States Internal Revenue Code) (the "Code"), by conducting and supporting activities that are for the benefit, perform the functions, or carry out the purpose, of The Ohio State University (hereinafter, the "University"), principally its health plans, with the support of its health care facilities, and its College of Medicine; and may also support the educational and health care responsibilities reposed in the University by law, and the strategic goals of the University Medical Center.

The foregoing includes, but is not limited to the following:

- A. To market, promote, and provide, through management services, contracting for services, and/or the franchising of such services, the University's health plans and any expanded managed health care services and programs to employers and groups within Ohio and to contract with employers and groups, established managed care networks, service providers, and others and to undertake, conduct, or support other programs or activities reasonably related thereto;
- B. To conduct or support other programs or projects that augment and enhance the undertakings of the University's health plans, the University's health care facilities, the College of Medicine, and other health-related services in advancing their educational, research, patient care, health care, and public service responsibilities;
- C. To receive from the University, and to seek and obtain from any other resources, funds and other property, including donated funds and other property, to be used and administered to promote the purposes of the University's health plans, the

April 4, 2008 meeting, Board of Trustees

University's health care facilities, the College of Medicine, and other health-related services; and

D. To use and administer all funds and other property received by it for activities designed and implemented for the use and benefit of the University's health plans, the University's health care facilities, the College of Medicine, and other health-related services and to engage in any and all activities reasonably incidental thereto;

E. To retain, employ, contract for, and discharge employees, consultants, advisors, and agents to carry out the purposes of the Corporation, as directed by the Board of Directors.

Solely for the above purposes, the Corporation is empowered to exercise all rights and powers conferred by the laws of the State of Ohio upon nonprofit corporations.

ARTICLE II **OFFICES: CORPORATE LOGO**

Section 2.01 Office. The Corporation's principal office shall be located in the City of Columbus, Franklin County, Ohio, unless otherwise established by a vote of the Board of Directors.

Section 2.02 Corporate Logo. The Board of Directors may authorize a distinctive and unique identifying logo to be used as prescribed by the Board in the conduct of corporate business.

ARTICLE III **DIRECTORS**

Section 3.01 Powers. Except as otherwise provided in the Articles of Incorporation, these Regulations, or applicable laws, the Board of Directors shall exercise all of the authority of the Corporation. The Directors serving hereunder shall have the power, authority, and responsibilities of, and perform the functions provided for, Directors under the Ohio Non-profit Corporation Law. The Board of Directors shall guide and approve the strategic direction and ventures of the corporation including the operating policies, the business plan and the annual budget for the Corporation. All major contracts, as determined by the Board, shall be subject to prior approval by the Board.

Section 3.02 Number. Appointment. Term of Office. ~~Except as provided below, there~~ There shall be nine Twelve voting Directors of the Corporation, as follows:

~~A. A member of the University's Board of Trustees, who shall be a Term Director and elected by the University's Board of Trustees for a one-year term or until his or her successor is elected;~~

~~B. The Secretary of the University's Board of Trustees, or the equivalent successor officer, who shall serve as an Administration Director for so long as he or she occupies that position;~~

~~C. The Senior Vice President for Health Sciences of the University, or the equivalent successor officer, who shall serve as an Administration Director for so long as he or she occupies that position;~~

~~D. The Vice President for Health Services shall serve as an Administration Director for so long as he or she occupies that position;~~

~~E. The Associate Vice President for Human Resources of the University, or the equivalent successor officer, who shall serve as an Administration Director for so long as he or she occupies that position;~~

April 4, 2008 meeting, Board of Trustees

~~FD.~~ A regular faculty member of the University's College of Medicine ~~and a member of the recognized University central practice plan organization (OSUP)~~ who is a senior physician on the Medical Staff of either the University Hospitals, or the University's Arthur G. James Cancer Hospital and Richard J. Solove Research Institute, ~~or the Ohio State University Hospitals East~~ shall be a Term Director and appointment by the President of the University for a three-year term or until his or her successor is appointed in consultation with the Senior Vice President for Health Sciences and the leadership of OSUP.

~~GE.~~ ~~Three~~Four individuals, independent of the University, who shall be Term Directors and appointed by the President of the University for a three-year term or until such time as a successor is appointed.

~~HF.~~ One individual who is a university regular faculty member nominated and recommended by Faculty Council, who shall not be employed by nor serve this corporation, shall not be employed by nor serve the University Health Systems. The regular faculty member shall be appointed by the President of the University for a one year term or until his or her successor is appointed, and be eligible for up to two subsequent one year renewals at the pleasure of the President, but in no circumstance longer than three consecutive years. Recommendations shall be made to the President of the University on or before April 1 of each calendar year. The regular faculty member position to be appointed pursuant to this paragraph shall remain vacant until such time as the appointment is received from the President of the University.

~~IG.~~ One individual who is a regular staff member nominated and recommended by the University Staff Advisory Committee (USAC), who shall not be employed by nor serve this corporation, shall not be employed by nor serve the University Health Systems. The regular staff member shall be appointed by the President of the University for a one year term or until his or her successor is appointed, and be eligible for up to two subsequent one year renewals at the pleasure of the President, but in no circumstance longer than three consecutive years. Recommendations shall be made to the President of the University on or before April 1 of each calendar year. The regular staff member position to be appointed pursuant to this paragraph shall remain vacant until such time as the appointment is received from the President of the University.

H. Two additional members of the osu community who may be either regular staff members or faculty members and who are recommended by the incumbent directors of the corporation. Each such individual shall be appointed by the president of the university for a one year term or until his or her successor is appointed, and be eligible for up to two subsequent one year renewals at the pleasure of the president, but in no circumstance longer than three consecutive years. Recommendations shall be made to the president of the university on or before april 1 of each calendar year for appointment and for renewal of such appointment.

~~IJ.~~ Each Director described in this Section shall have the same voting power and privileges as the other Directors. All references in this Code of Regulations to the Board of Directors, or members of the Board of Directors shall mean only the Directors described in this Section.

The election or appointment of each Term Director shall be made by the appropriate electing or appointing authority before the Annual Meeting of the Board of Directors. The term of each Term Director shall begin and end at the close of the appropriate Annual Meeting, except that each Term Director shall continue in office until his or her successor is appointed or elected. Except as provided in paragraphs f, g and h of this section A Director may serve for unlimited consecutive terms.

Balance unchanged (available upon request).

April 4, 2008 meeting, Board of Trustees

(APPENDIX XLVIII)

**The Ohio State University Board of Trustees
Fiscal Affairs Committee
April 4, 2008**

TOPIC:

Internal Lines of Credit

CONTEXT:

In accordance with the University's Principles Regarding Use of Internal Lines of Credit adopted by the Board of Trustees at the March 4, 2005 meeting, all University lines of credit agreements involving affiliated entities require approval by the Board of Trustees.

RECOMMENDATION:

The following Lines of Credit have been requested:

- 1) Campus Partners: Line of credit (LOC) of up to \$10,000,000 for property acquisitions for targeted Campus Partners projects. The LOC repayment will be made of anticipated funding from the President's Strategic Fund in FY 2009. Terms and conditions have been reviewed and approved by the Senior Vice President of Business and Finance and the President of Campus Partners
- 2) UMC Partners: Line of Credit (LOC) of up to \$5,700,000 for costs associated with the dissolution of UMC Partners. Term of LOC will be 5 years with repayment of the outstanding balance associated with this LOC being the responsibility of Health System. Terms and conditions have been reviewed and approved by the Senior Vice President of Business and Finance, the Vice President for Health Services, and the Interim Senior Vice President for Health Sciences.

CONSIDERATIONS:

- Are these requests being made for strategic purposes consistent with the Academic Plan?
- Has the impact to the University's Credit rating been sufficiently considered?
- Is repayment assured?

REQUESTED OF THE FISCAL AFFAIRS COMMITTEE:

Approval of attached resolution

(APPENDIX XLIX)

ATI-Horticulture and Operations Center

OSU-080801

Requesting Agency(s): ATI-HORTICULTURAL TECHNOLOGY**Location(s):** See Project Information

ASF / O GSF Age:

Description/Scope:

This project will construct a new Horticulture Operations Center at the ATI campus in Wooster, OH. The Center will include classroom, laboratory and office space for the horticulture programs, including the Plant Materials, Turf Science, Landscape Design, Nursery Operations, and Floral Operations programs. The building will be approximately 34,300 gross square feet.

Project programming and schematic design were accomplished as part of a separate project. This project will verify the program and complete project design.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving the teaching, learning and research facilities and helping ATI to achieve its academic mission.

Funding Status and Source: A portion of the project funding is from future capital appropriations (2009-2010 capital request). If funding is reduced or delayed alternate funding will need to be provided or the project scope reduced.

Logistics: Project site has been selected and approved.

Energy and Sustainability: This project will pursue green building initiatives. It has not been determined if the project will seek LEED certification.

Risks: None

EOC Clinical Expansion

315-2005-993-8

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): See Project Information

ASF/G GSF Age:

Description/Scope:

This project involves the addition of space for the Diagnostic Treatment Center and Inpatient Cancer/Critical Care Towers east of Cannon Drive. The work will include the demolition of Mears Hall, MRI Building and South Cannon Garage.

At this time, the project is requesting approval to complete schematic design in the amount of \$3,500,000 only.

This project is part of the Medical Center Facilities Plan approved on November 4, 2005 by the Board of Trustees as Medical Center Facility Master Plan - Clinical Expansion Projects.

How does this project advance the Academic Plan? Enables the Medical Center Facilities Plan, which will support continued clinical, teaching and research missions at The Ohio State University.

Funding Status and Source: The construction expenditures must be coordinated with the available debt capacity.

Logistics: This project cannot begin until the North Dean Hall - Non-Clinical Building and Digestive Health Center and MRI Replacement projects have been completed, which is anticipated to be in the summer of 2008, after which the current occupants of Mears Hall will be relocated to these facilities.

Energy and Sustainability: A parking plan must be in place prior to the demolition of the South Cannon Garage.

Risks: The budget set forth is conceptual at this time. The project scope is currently being developed and aligned with University expectations. Once scope, budget and infrastructure needs are validated, an update will be provided to the Board of Trustees, and budgets may be adjusted at that time.

Deferred Maintenance: This project will address a total of \$104.6M of deferred maintenance with the demolition of Mears Hall and the MRI Building.

Deferred Renewal: None

Field Hockey/Outdoor Tennis Complex
OSU-080802

Requesting Agency(s): ATHLETICS

Location(s): See Project Information

ASF/G GSF Age:

Description/Scope:

This project will construct an outdoor women's field hockey facility and replace the existing 12 outdoor tennis courts. The project also includes the construction of concessions, restroom, and storage facilities and a 100-car parking lot.

A previous project had combined the field hockey scope with outdoor football practice fields. Based on the Athletics Master Plan, it was determined to be more efficient to combine the field hockey and tennis court projects due to their adjacencies. The football practice fields will be accomplished as a separate project.

Project programming has yet to occur and the project will be advertised at \$6M, but early estimates have ranged from \$6M to \$9M. Once programming and design are complete a final conceptual budget will be established though the budget will not exceed \$9M.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving student athletic facilities and helping Athletics to meet the goal and objectives identified in their master plan. The field hockey facilities will also meet Title IX requirements.

Funding Status and Source: Project funding has been confirmed.

Legislative: The field hockey portion of the project must be complete by fall 2009; the tennis center portion must complete by spring 2010.

Energy and Sustainability: None

Risks: None

Infrastructure and Roadways EOC Phase I

315-2005-993-7

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): See Project Information

ASF/G GSF Age:

Description/Scope:

This project will provide major utilities, civil and landscape design required to support the Medical Center Facilities Plan/Master Space Plan. The work will upgrade electric power, water, sanitary sewer, storm sewer, natural gas, information technology, steam and chilled water, and several south campus roadways including Caron Drive.

This project is part of the Medical Center Facilities Plan approved on November 4, 2005 by the Board of Trustees as Medical Center Facility Master Plan - Clinical Expansion Projects. This project will be sited west of Rhodes Hall; east of the Olentangy River; south of Medical Center Drive and south of 12th Avenue.

At this time, the project is requesting approval to complete the design and prepare the project for construction in the amount of \$3,000,000.

How does this project advance the Academic Plan? Enables the Medical Center Facilities Plan, which will support continued clinical, teaching and research missions at The Ohio State University.

Funding Status and Source: The construction expenditures must be coordinated with the available debt capacity.

Legislatives: This project distributes utilities to all Medical Center Facilities Plan Phase I projects and is on a critical path schedule in order to align sequentially with other Master Plan projects. Delays in this project could cause delays in New Cancer Hospital, OSUMC Clinical Expansion and West of Caron development. The total construction duration will be dependent on the completion of several other related projects of the Medical Center Facilities Plan.

Energy and Sustainability: None.

Risks: The budget set forth is conceptual at this time. The project scope is currently being developed and aligned with University expectations. Once scope, budget and infrastructure needs are validated, an update will be provided to the Board of Trustees, and budgets may be adjusted at that time.

(APPENDIX L)

PURCHASE OF REAL PROPERTY

**Ohio National Guard Hangar Facility
Adjacent to Don Scott Field
2827 West Dublin-Granville Road
Columbus, Ohio**

Location and Description

The University is presented with the opportunity to purchase the improved real estate consisting of a hangar facility located at 2827 West Dublin-Granville Road, Columbus Ohio. The University has entered into a contingent contract to purchase the property. The property is located on the south side of West Dublin-Granville Road, adjacent to the University Airport at Don Scott Field, and is surrounded by other property owned by the University. The hangar facility is currently leased on a month-to-month basis to MedFlight of Ohio, Inc. by the current property owner. Upon the University's purchase the hangar facility will be leased from the University to MedFlight of Ohio through a long-term lease which has been proposed separately.

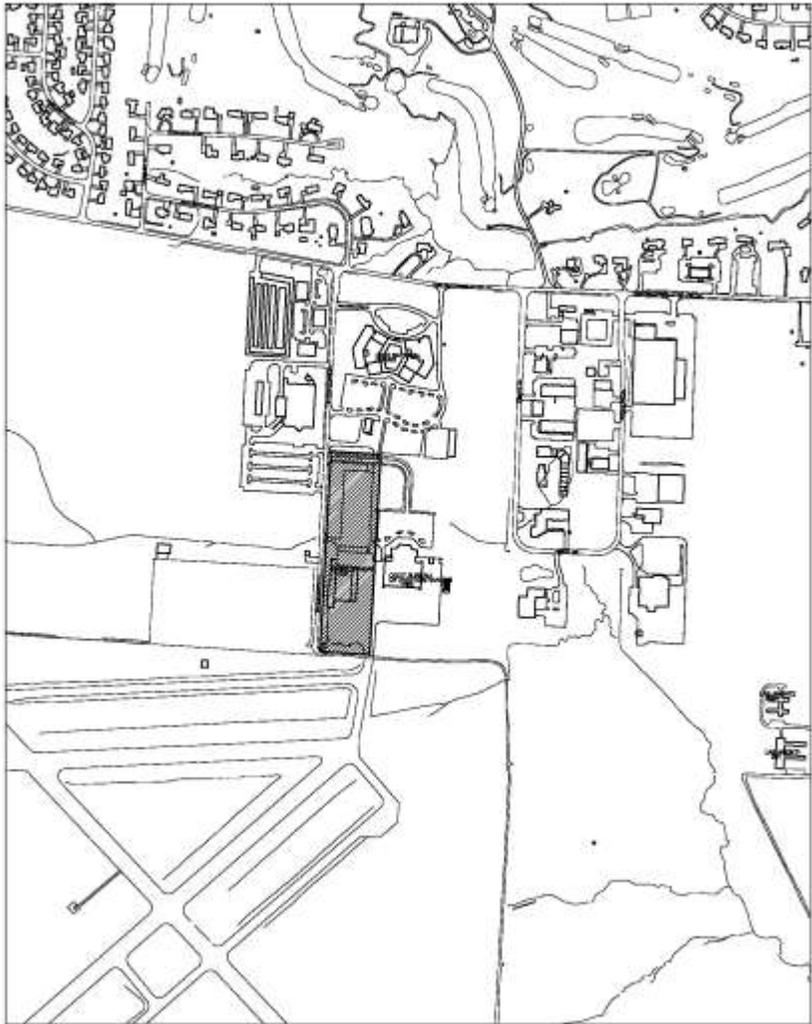

The property being purchased contains 8.017 acres, improved with a two-story aviation hangar containing 56,160 SF. The property has been appraised by two MAI appraisers, The Charles R. Porter Company and Arnold & Associates, with the appraisal reports indicating values of \$2,875,000.00 and \$3,035,000.00, respectively. The purchase price for the property is \$2,875,000.00. The property is owned by Adjutant General of the state of Ohio, an entity of the state of Ohio.

Use of the Property

It is the intention of the University to acquire the property and enter into a lease of the hangar facility with MedFlight of Ohio and to control this adjacent property through the acquisition. The purchase of this property allows continuity in the ownership of properties abutting the airfield and ensures compliance with Federal regulations pertaining to those activities which access the public airport from private property.

(APPENDIX LI)

LONG-TERM LEASE

**Aviation Hangar Facility
Adjacent to Don Scott Field
2827 West Dublin-Granville Road
Columbus, Ohio**

Location and Description

The University Airport at Don Scott Field proposes to lease 8.017 acres, improved with a two story aviation hangar facility containing 56,160 SF to MedFlight of Ohio, Inc.

The property is located at 2827 West Dublin-Granville Road, Columbus Ohio. The University has entered into a contingent purchase contract to purchase the property from the current property owner - the Adjutant General of the state of Ohio. The property is located on the south side of West Dublin-Granville Road, adjacent to the University Airport at Don Scott Field, and is surrounded by other property owned by the University. The hangar facility is currently leased on a month-to-month basis from the owner of the property to MedFlight of Ohio, Inc. Upon purchase of the property by the University, the University will enter into this proposed new long-term lease with the tenant, MedFlight of Ohio.

All operating costs and any other expenses related to the proposed off-campus property will be paid by the University Airport and all lease payments, net of costs and/or expenses will be used to pay off the bond financing used to acquire the property.

Terms of Lease

The lease term shall be for 10 years, and either the landlord (OSU) or the tenant (Medflight) will have the right to terminate the lease at any time with a two-year notice of termination. The lease will also provide the tenant two five-year renewal options. [Note: in the event MedFlight of Ohio exercises its right to terminate the lease, the airport business plan provides for alternative sources of revenue to offset the remainder of the 20 year bond financing.]

During the term of Medflight's lease, rent for the property will be \$190,000.00 annually or \$15,833.00 monthly, with rent increases based on CPI every 5 years.

April 4, 2008 meeting, Board of Trustees

June 6, 2008 meeting, Board of Trustees

The Chairman, Dr. Cloyd, called the meeting of the Board of Trustees to order on Friday, June 6, 2008, at 8:30am. He requested the secretary to call the roll.

Present: G. Gil Cloyd, Chairman, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Alex Shumate, Brian K. Hicks, John C. Fisher, Alan W. Brass, and Algenon L. Marbley.

Dr. Cloyd:

Before we take a roll call vote to go into executive session I wanted to announce that the Board will reconvene this afternoon at 1:00pm. I hereby move that the Board recess into Executive Session for the purposes of considering personnel matters regarding compensation and to discuss matters required to be kept confidential by state statute.

Upon motion of Dr. Cloyd, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing motion by unanimous roll call vote, cast by Trustees Cloyd, Davidson, Ong, Borrer, Shumate, Hicks, Fisher, Schottenstein, Brass and Marbley.

Dr. Cloyd reconvened the meeting on Friday, June 6, 2008, at 1:03pm.

Present: G. Gil Cloyd, Chairman, Dimon R. McFerson, Jo Ann Davidson, John D. Ong, Douglas G. Borrer, Leslie H. Wexner, Walden W. O'Dell, Alex Shumate, Brian K. Hicks, John C. Fisher, Robert H. Schottenstein, Alan W. Brass, Algenon L. Marbley, and Debra J. Van Camp.

Dr. Cloyd:

So that we are able to conduct the business of this meeting in an orderly fashion, I would ask that ringers on all cell phones and other communication devices be turned off at this time and I would ask the members of the audience to observe the rules of the quorum proper to conduct the business at hand.

At this time I would like to call on Provost Joe Alutto to introduce our two distinguished University professors.

DISTINGUISHED UNIVERSITY PROFESSORS PRESENTATION

Dr. Alutto:

Thank you Chairman Cloyd. It is with great pride that I bring forward two exemplars for the conferment of the highest honor that the University bestows on a faculty member; the permanent honorific title of Distinguished University Professor. Our honorees will join a select group of only 36 other faculty members, ever to have received this distinction and they will automatically become members of the President's and Provost's Advisory Committee (PPAC). Faculty members are nominated by their colleges and chosen by members of the PPAC. Our recipients will receive a one-time cash award of \$30,000 from the Office of Academic Affairs to further their scholarly work. Before I introduce our honorees however, please join me in thanking the members of this year's selection committee. They include Dr. David E. Denlinger, Distinguished University Professor, Department of Entomology; Dr. L.S. Fan, who also served as the selection committee's convener, and is a Distinguished University

June 6, 2008 meeting, Board of Trustees

Professor in the Department of Chemical and Biomolecular Engineering; Dr. Avner Friedman, who was selected as a Distinguished University Professor just last year, and is a Distinguished University Professor in the Department of Mathematics; Dr. Karin M. Musier-Forsyth, the Ohio Eminent Scholar in Macromolecular Structure Determination in the Department of Chemistry and Dr. Julian F. Thayer, the Ohio Eminent Scholar in Health Psychology in the Department of Psychology.

Let me tell you a little bit about each of our honorees and then I will ask them to come forward. First, Professor Janice Kiecolt-Glaser, The S. Robert Davis Chair of Medicine, is the director of the Division of Health Psychology in the Department of Psychiatry. A professor in the Institute of Behavioral Medicine Research and is widely regarded as a major scientific leader. As Dr. Chip Souba wrote in his nomination letter "her seminal work in the adverse effects of stress on the immune system has provided the very foundation of this field of investigation. Her research has demonstrated that a wide range of stressful life events from medical school examinations, to divorce, to care giving, to patients with Alzheimer's disease, all lead to meaningful changes in immunity." She has written or co-written close to 200 articles. Not only is she among the world's most highly cited authors, but also as one scholar has noted, soon after she spearheads new techniques many others in the field try to emulate and use her innovations. She is an elected member of the Institute of Medicine of the National Academy of Sciences and an elected fellow of the American Association for the Advancement of Science and a recipient of Ohio State's Distinguished Scholar Award. She has an exceptional teaching and service record here at Ohio State. You will be further amazed when I tell you that in addition to her outstanding research endeavors she has also managed to write two mystery novels. She earned her bachelor's degree in psychology at the University of Oklahoma, her doctorate and clinical psychology degree at the University of Miami, Florida, and completed an internship in clinical psychology at Baylor College of Medicine, and a post doctorate fellowship in adult clinical psychology at the University of Rochester School of Medicine.

Next is Professor James Phelan, Humanities Distinguished Professor, Department of English. Professor Phelan is considered a genuine pioneer in the intellectual world. His research focuses on rhetorical approaches to narrative, looking at narrative as a complex communication involving its audiences understanding, emotion and ethics. He has written five books and more than 100 essays, edited or co-edited four other books, and since 1993 has been the editor of *Narrative*, the leading journal in the field. His work has literally taught around the world, demonstrating it's far reaching impact. One scholar nominator wrote "Phelan is an unusually clear-sighted, though a sympathetic reader of other people's ideas. He often understands your point of view better than you do yourself. This gives him an uncanny way of making suggestions that help you make an interesting idea into something much more." That nominator acknowledged what an outstanding talent this is for a teacher and went on to say "in the larger world of scholarship it has made Phelan into a superb editor of other people's work." Among his many prestigious recognitions, he has received Ohio State's Distinguished Scholar Award, the Alumni Award for Distinguished Teaching, and the Arts and Sciences Research Award for Exemplary Service. He served as chair of the Department of English for eight years. He has developed courses and given tireless service on departmental, college and university wide committees. Dr. Phelan earned his bachelor's degree in English Literature at Boston College, his master's degree and doctorate in English Language and Literature at the University of Chicago.

Both of these individuals are precisely the kind of faculty members who are moving this University from excellence to true eminence. Would Dr. Janice Kiecolt-Glaser now come forward?

And now I would like to invite Dr. Kiecolt-Glaser to say a few words.

June 6, 2008 meeting, Board of Trustees

Dr. Kiecolt-Glaser:

Let me very briefly tell you about the work I share with Dr. Ronald Glaser, who if there were justice would be equally honored at this moment as well. We share a close working relationship. We have shown, for example, stress substantially alters or delays your response to a series of vaccines and that wounds heal up to 40% more slowly when you are stressed. We have been working most recently on inflammation which is associated with a series of age-related diseases: cardiovascular disease, type 2 diabetes, arthritis, osteoporosis, frailty and functional decline. Stress substantially enhances inflammation and may in fact speed the aging of the immune response. Most recently we were looking at remedies for some of this among our current NIH funded grants. There are two where we are looking at omega-3 as an intervention to see if we can alter stress related changes in inflammation. We are also looking at cancer survivors particularly breast cancer and colon cancer, and we are very interested in how inflammation and stress may contribute to fatigue in those survivors.

Finally let me say that I have a letter that I pulled out of my file from 1997 from President Gee where he talked about how Ron and I were the most cited research faculty members in the University at that point in time in the popular press. I do not know at this point in time if we are now but we are pretty close to the top and it is one of the ways that we give back in terms of the University in recognition and branding. Thank you very much for your support, I am most honored.

Dr. Phelan:

Since I work in narrative studies I have decided to offer my brief remarks today in a form of what I call a lyric narrative. Lyric narrative is a hybridization that I have become particularly interested in recently, and it combines elements of traditional stories, especially characters, events and change with elements of lyric poetry, especially the expression of thoughts and emotions. I will begin with a flashback to an event that occurred on January 4, 1987. That event is my writing of the first entry in the journal that became my book beyond the tenure track, *Fifteen Months in the Life of an English Professor*. The entry itself is primarily thoughts and reflections; two tenured jobs at the same University. The long climb that Betty, that's my wife, Elizabeth Menaghan, a professor in OSU sociology department, and I began in graduate school almost 15 years ago when we had not read any guide books and were blissfully ignorant of the path has led us, if not to a summit of academe, at least to a place that we can catch our breaths and contemplate the prospect before us. When the gods want to punish us, they answer our prayers. Oscar Wilde said "What do the gods have in mind for us?" So far it does not seem that they are after punishment, but perhaps that's because the place we are in is not exactly the place we prayed to reach. When we left Boston for graduate school at the University of Chicago in the fall of 1972, neither Betty nor I would have said that our ideal job would be at a huge university in the Midwest. A small liberal arts college in New England was more what we born and bred Easterners had in mind. Now here we are in Columbus, decidedly not an eastern city, teaching English and sociology on the largest campus in the country. A place where football is king and buckeye is a term referring not to a vision problem but to a loyal Ohioan and a loyal Ohio Stater. It is and probably enough, a term of honor. After ten years we are finally beginning to think of Columbus as our permanent home. Given that we have moved around a lot during our first seven years of marriage and given our feelings about Ohio State in Columbus, we have not until recently been inclined to think of our residency here as provisional and tentative. We weren't sure if they would keep us, we weren't sure how much we wanted to stay. Now, I flash forward through many years and many events in a narrative of my life, not just because time is short, but also because these events are not all that gripping, or as we narrative theorists say, tellable. But the events include researching and writing of various books and articles, the editing of other people's books and articles, the highs and lows of eight years as a department chair, and the launch in 2006 of a program within the English department called Project Narrative. Of course outside the boundaries of my life

June 6, 2008 meeting, Board of Trustees

narrative, all kinds of other more tellable changes are occurring including the departure and return of our distinguished and beloved President E. Gordon Gee. But the relentless pace of the flash forwarding now brings me to this present moment, and to my rounding off the story that begun in that journal entry of January 4, 1987 by means of some current reflections.

Happily Oscar Wilde's dictum has not applied to Betty and me. The gods apparently not only had no interest in punishing us, but instead they seemed to have been determined to shower blessings upon us; more so than I either recognized or anticipated 21 years ago. In particular, in my case, I have been blessed with very supportive chairs, Julian Markels who hired me and shepherded me through tenure, Morris Beja whose initial response to my request was almost always "let me see if I can make that happen." And now, Valerie Lee, who as I have already told her, belongs in the department chair hall of fame. I have also been blessed with wonderful colleagues, indeed too many to mention, though for this audience I will single out David Frantz, who has since I arrived in 1977 been both a wonderful friend and a role model of what it means to dedicate oneself to this University. My colleagues and I have also been fortunate to receive the support of the Office of Academic Affairs, and the College of Humanities, first for a selected investment grant to the English department during my stent as chair and for our Targeted Investment in Excellence Award to fund that Project Narrative, and for that last award I am deeply grateful to Dean John Roberts.

The gods have also blessed me by sending me so many impressive students, both graduate and undergraduate into those classrooms in Denney Hall. All these things have made the Ohio State English Department the best environment I could imagine for doing my work. Above all, the gods have blessed me beyond measure by making it possible for me to share my life at Ohio State with Betty, who today I call with great conviction, pride and pleasure my fellow buckeye.

Thank you very much.

Dr. Cloyd:

Dr. Glaser and Dr. Phelan, again congratulations to both of you. Thank you very much. I think if I build on what you said Dr. Phelan, I think the gods have smiled on Ohio State for having the two of you here. Certainly as we look to crown this University, we do not have brighter jewels than faculty like yourselves, so thank you very much.

I would now like to call on Bill Shkurti and Chip Souba who are going to give us an update on the Medical Center Master Space Plan.

MASTER SPACE PLAN UPDATE

Dr. Souba, Jr:

Thank you very much Mr. Chairman. Good afternoon ladies and gentlemen. Mr. Shkurti and I would like to brief the Board on the events that transpired at the Medical Affairs Committee meeting yesterday. I will try to be brief but at the same time informative. I think for starters it is important to point out that we are fully aligned on multiple fronts with this project to include the integration of the three missions: education, research and patient care. We are working from a single balance sheet and have a fully integrated strategic plan, and the plan itself is based on the University's academic plan and guided by the President's six key strategic principles. We are aligned with the Medical Center's key result areas, and aligned as well with our governance changes, our bond rating and our financial targets. The University capital planning targets and the executive sponsors in the Medical Center leadership are in

June 6, 2008 meeting, Board of Trustees

agreement on the plan to include the efficiency and productivity targets that we will have to hit to successfully execute the plan and we have also had external validation from our consultants. Yesterday we talked briefly about our ambulatory strategy which is our outpatient strategy in the perimeter of Columbus. We will be moving forward with the lease of an outpatient facility on 23 North and will be asking for your approval of that today, and we are moving forward as well with our JamesCare program and our ambulatory surgery program. We reviewed the integrated long range financial plan for the master space plan. We believe the plan protects the University's credit rating. We believe it hits the three financial targets of EBIDA margin, debt service coverage and days cash on hand. That is important as you have asked us to adhere to those parameters, and we believe it provides sufficient cash flow to invest in equipment and facilities and into our three missions of research, education and patient care.

The plan itself will require continued signature program performance in order to execute on it and it will require operational efficiencies to include throughput, productivity and some non-labor initiatives. In addition the successful plan will require a development program which has as its target for phase one raising \$75 million, 75% of which must be raised by the summer of 2010 to begin construction, and a phase two fundraising goal which is to be determined. Yesterday we heard preliminary reports from Deloitte and Hammes, who are with us today. Those reports are in your packets and we will have complete full reports for you by the July Board meeting. I think it is safe to say that both consultants find the plan to be reasonable and have remarked that the major concerns that they expressed this year have been addressed.

Finally in terms of next steps, we will continue to work with our consultants. Next time we meet we will have additional information on the sensitivities that surround the plan which will include best case, most likely case, and worse case scenarios, with examples of the interventions that will be put into place in the unlikely event that we had a perfect storm situation. We will follow-up on the other topics we discussed yesterday.

Mr. Shkurti:

Mr. Chairman, what I will cover is what you are being asked to approve today and why. As Dr. Souba mentioned, although we are prepared to move forward we are not prepared to move full steam ahead until we have a level of comfort that the Deloitte and Hammes review has been satisfactorily completed and we expect that to be done for the July meeting. Meanwhile, we are requesting approval to move ahead with seven low-risk initiatives or projects that we know need to be done and we think they will move the Medical Center and the University forward. Briefly these are mechanical, electrical, and plumbing upgrades that deal with deferred maintenance issues on existing buildings, and we are asking for the release of design fees only, so we can get moving on that. We know we have to do it. The second item is design fees, again, design approval for another parking garage, and if you have driven in the Medical Center area you know there is no excess of parking there. We are also asking for approval to allow us to start the process of advertising and bringing a construction manager on board. It is best practice to bring these people on early, so they can help design things. Although the total cost seems like a large number, it is \$38 million; it is what is in the Board books, that's for the entire length of the contract. We can modify that and we will write the contract in such a way as to modify that as necessary if we end up with less of a project or project delays. We do not anticipate that but we need to have that flexibility.

We have the same issues regarding a commissioning agent. There is a specialized engineering firm that will help us make sure all the systems integrate properly when the project is completed, and again it is best practice to bring that person or group of persons on early to help make sure that is successful. We are asking for the release of approximately \$500,000 for construction contracts for renovations to Cramblett Hall to allow the relocation of staff from Means Hall, which is something we know we are

June 6, 2008 meeting, Board of Trustees

going to have to do anyway. We are asking for approval of a lease of 30 thousand square feet for an ambulatory facility near 23 North, near Powell, and that is a facility we know we need and one we know will begin to more than pay for itself within two years. We are also asking you to approve the rates for the health system for fiscal year 2009, which would take effect July 1, and all of these projects that we are asking you to approve in full session today have been vetted and reviewed and recommended by both the Medical Affairs Committee and the Fiscal Affairs Committee of the Board.

It is management's intention, as Dr. Souba mentioned, to return in July with completed reports from Deloitte and Hammes, a request to spend an additional \$57 million to complete detailed design east of Cannon, and to begin conceptual design west of Cannon, and also to address any open issues including the various scenarios that Dr. Souba mentioned.

Dr. Souba:

In conclusion this is the largest and most complex project ever taken on by the University. We are excited about it and think we are fully aligned, but it is important to take our time upfront to tie down all the loose ends so we maximize the likelihood of a successful outcome. We do believe that the successful completion of this project will help move the Medical Center and the University forward into a very elite group of top institutions and more importantly it will help us enhance the value that we provide the people we serve; our students our faculty, our staff, our community and our patients. Mr. Chairman, thank you very much for the opportunity to present.

Dr. Cloyd:

Thanks Chip. Thanks Bill. Mr. Brass and Ms. Davidson, I know that this was reviewed and approved in both of your committees yesterday, did you have any comments either of you would like to provide before I call for a motion?

Mr. Brass:

No, I would just tell you that there are two phases to this project, but we are concentrating on phase one, which is a \$1 billion project, phase two is \$300 - \$400 million. The goal is a very simple one and that is to get us into the top 20 medical school systems in this country. Dr. Souba stated and I will confirm that we are now fully aligned on all eight of those critical line items including the University goal sets. I am very comfortable right now with the financial forecasting model and the forecast that we are bringing forward is most likely going to happen. We are running additional sensitivities with comments coming back from Deloitte, as Dr. Souba said, for worse case and best case. We will state to you that we have asked Hammes to go back and review the fees again, as it relates to benchmarks; we will have that in July before we start any construction. And we will concentrate on the circuit breakers in the event that we have to activate some of those as to what the ramifications are on the project as a whole, which we will have a better feel for in July as well. Right now I think that we are in a very good position to move forward as recommended.

Ms. Davidson:

Mr. Chairman, I would agree with Mr. Brass in that assessment. We had a full review yesterday in Fiscal Affairs Committee, the steps that we are taking today with this resolution are the beginning steps for design fees, as we know, and also for a requisition for proposals that will be reached during and only spending the money that will be needed as we move ahead so I think the Fiscal Affairs Committee was comfortable with moving ahead on this too.

June 6, 2008 meeting, Board of Trustees

Dr. Cloyd:

Thanks Ms. Davidson.

MEDICAL CENTER FACILITY MASTER PLAN EXPANSION PROJECTS - PHASE I
Resolution No. 2008-107

**DESIGN, CONSTRUCTION, COMMISSIONING
AND CONSTRUCTION MANAGEMENT SERVICES**

Synopsis: Authorization to enter into design contracts for the 10th Avenue Parking Garage and mechanical, electrical, and plumbing upgrades to Rhodes Hall, Doan Hall, the James Cancer Hospital and Solove Research Institute, and Cramblett Hall, construction contracts for the Cramblett Hall renovation, and contracts for construction management and commissioning services for the Medical Center Facility Master Plan Expansion Phase I.

WHEREAS approval is requested to contract for design services for 10th Avenue Parking Garage and mechanical, electrical, and plumbing upgrades to Rhodes Hall, Doan Hall, the James Cancer Hospital and Solove Research Institute, and Cramblett Hall for a combined estimated cost of \$7 million; and

WHEREAS approval is requested to enter into construction management and commissioning services contracts up to \$43 million in support of the Medical Center Facility Master Plan Expansion Phase I to ensure that both parties are available to assist with the final program and project design; and

WHEREAS approval is requested to enter into construction contracts for \$449,682 for the renovation of Cramblett Hall that will allow for the relocation of staff from Means Hall in support of the Medical Center expansion:

NOW THEREFORE

BE IT RESOLVED, that the President and/or Senior Vice President for Business and Finance be authorized to enter into design, construction manager, commissioning and construction contracts, for these projects as detailed above in accordance with established University and state of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

Upon motion of Mr. Schottenstein, seconded by Ambassador Ong, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote, cast by Trustees Cloyd, McFerson, Davidson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass and Marbley.

(See Appendix LII for background information and map, page 1127)

Dr. Cloyd:

Thank you very much. Nice work by everyone, really, thank you very much.

At this time I will call on President Gee for his report.

PRESIDENT'S REPORT

President Gee:

Thank you, I appreciate that. I am going to spend a little more time today because of the fact that it is the end of the season and this indeed has been a whirlwind of an academic year. As we reach this point, this crescendo, I have come to realize that springtime means different things to different people depending on one's age as you can all imagine. There is art time and there is ADD time. For those with art memberships, spring is not just a time for graduation but also for reflection and contemplation. For college students, however, spring is most clearly ADD time and at Ohio State who can blame them, the sun is shining, the Oval is filled with frisbees and laughter, the dirt piles and wrecking balls are all in bloom, even still students focus has been strong enough so that on Sunday some 7,866 will graduate, if you think about that, that is a medium size university. I am really looking forward to this because it is my first time to conduct commencement in the stadium for ten years and to give students the full measure of credit they are due. Evidence of their excellence could be seen clearly in their remarkable success and so many national academic competitions, in addition to some of the better big name competition, the Rhodes, the Goldwater and so on. You may have heard about our students' incredible success in the Chinese bridge competition. Now I have to admit that I had heard little of it before learning that Ohio State students are the best in the world in this competition. It is something like the intellectual version of American Gladiators. These young people compete live on Chinese television displaying their language skills and cultural knowledge. In April a team of Chinese journalists and television crews came to campus to learn the secrets of our student success. The creativity and abilities of these 60,000 students who call this place home never cease to impress me. Their hard work, their energy, and their commitment to this great University help fuel my own dedication to sharpening our focus on the student experiences. We officially changed the name of the student affairs division to student life. Now that may seem like a small change but it reflects a more complete understanding of our critical role in every aspect of our students' development. University physical facilities, by the way, must support our students focus and we have projects in various stages of completion on that score.

This spring we had a topping ceremony for the new Ohio Union, that facility is going to be among the nation's very finest and it will have a decidedly Ohio centric theme. Also this spring we dedicated both RPAC, our large fitness center, and Jennings Hall. Taken together these facilities reflect comprehensive understanding of both our students' needs and our academic purposes. The search for a successor to Rich Hollingsworth, who is sitting right over there on the end, has begun and I am confident we will attract a superb visionary new vice president, but Rich, I applaud you for years of service to this institution, and I deeply appreciate your good work.

As you know I have been very busy hiring the most talented leaders from across the country. One of our new leaders whom I just talked to a minute ago, he calls in every day and reports in, I told him I am not his father, is Steve Gabbe who will return to Ohio State this summer as senior vice president for Health Sciences. Kathy Starkoff, joins Ohio State this month as our chief information officer. And a search has begun for a new vice provost for global strategies and international affairs. The internationalization of this institution is one of our highest priorities, and we are working very aggressively to make that happen.

Before I talk about some of my off campus adventures, of which I have had many as some of you know, I want to mention that the provost and I have been ratcheting up with the pace of change here, as you know. We have begun an administrative reorganization in the Colleges of the Arts and Sciences that will greatly strengthen the very heart of our University; likewise we are thoroughly reviewing the graduate programs. It is important, by the way, to note that both of these projects are the result of faculty driven assessments of programmatic strengths and weaknesses. The

June 6, 2008 meeting, Board of Trustees

difference is that Joe and I refuse to place these reports on shelves to gather dust and so when I spoke with the faculty about these changes and others last week I am very encouraged that we have full partners in the process.

Moving outward from campus I am delighted to say that I am truly enjoying living in the Pizzuti House. I loved the Blackwell, but after eight months it got a little old. The new home is handsome, it is comfortable, and we are making excellent use of it most every night that I am in town. We have held several dinners with University friends and donors and many receptions with student faculty and community groups. Since late April, when I moved in, I have hosted nearly 1,000 guests, some of them are still there. I keep counting them as a matter of fact. I have made the usual rounds of Rotary Club and Chamber of Commerce lunches. I also spent a morning with several hundred Ohio lawyers in town for the state bar association convention; it was more fun than you might guess. The new OSU urban arts space is fulfilling its promise of sharing University's cultural resources with the community. Last month our master of fine arts students held their final exhibition at the site and it was a perfect venue for showcasing their talent and it is a wonderful venue, please come and see it.

Our faculty and students at the extended campus in Lima were very kind during my recent visit. That trip completes my first round of tours of Ohio State's engaged campuses and I have promised or threatened to return frequently. And on Monday I start my 88 county tour of Ohio State, of which I will complete in August. I will not milk a cow in every county, although I thought about it, I want you to know. I had a wonderful few days in Washington; I have to say that the Pope must not have known of my travel plans. The city was not quite big enough for the both of us. In truth I enjoyed several Ohio State events there, the legislative breakfast was a great opportunity to thank Ohio's exceptional delegation, particularly as so many of our leaders are leaving office.

I will close my report by noting that a few weeks ago several hundred of Les Wexner's closest friends had way too much fun watching me stumble through what seemed like several pages of a Yiddish dictionary. I was very fortunate to have Judge Marbley as my Yiddish tutor, I want you to know. I thank you Judge, you are a very able assistant. The National Hillel Organization had a special event in Les' honor and it was very special indeed, Mr. Wexner we acknowledge that. I was pleased to serve as emcee and grateful for the chance to offer a hearty mazal-tov to my very good friend.

So ladies and gentlemen I want to take this chance in this very room where I started nearly a year ago, to thank you for the opportunity to return to what is without a doubt an incredible University. I wake each day only half believing my good fortune. That is my report.

Dr. Cloyd:

Thank you President Gee. At this time we will hear our committee reports, and I want to begin with the Agricultural Affairs Committee, Mr. Fisher.

COMMITTEE REPORTS

Mr. Fisher:

Thank you Mr. Chairman, the short version could be entitled "Waterless Urinals, The Incredible Egg, and The Hawk's Nest," but I will share more. The Agricultural Affairs Committee was hosted by Dean Bobby Moser at the Nationwide and Ohio Farm Bureau 4-H Center, the first "green" building on campus. The Leadership in Energy and Environmental Design (LEED) registered building is meeting all of our projections. The feature is geothermal system for heating and cooling. This building uses 52% less

June 6, 2008 meeting, Board of Trustees

water than a comparable building, in fact waterless urinals are a major contributor to that. There are major electricity savings, recycling is evident throughout from the recycled carpet that is now in place, to work stations made from corn product, walls from sunflower seed hulls, on and on it goes about this green building. All of these features are outlined in this report at your desk and I encourage you to take a look at it.

The second part of the meeting we focused on the home of the 4-H Center - Ohio's 4-H program. What I am reflecting for you are figures from 2007 but we have over 324,000 young Ohioans involved in 4-H. That also involves 23,000 adult volunteers and 12,000 youth volunteers. As you look at the report in front of you please note the 4-H demographics, as every community in all 88 counties is touched by 4-H.

We then heard from Dr. Robert Horton, a curriculum specialist, on how 4-H has adapted to today's leadership and education needs. He talked about the Buckeye Science, Technology, Engineering and Mathematics Scholars (STEMS) program for fifth and sixth graders, an after school project based on science, technology, engineering and mathematics. We also heard about the after school agricultural program for second through fifth graders which promotes agricultural literacy while developing their understanding, appreciation and application of sciences. And indeed we did hear about the incredible egg program, utilizing the egg and all about it as a STEM based program for elementary grade classrooms. There is also an exciting space program and space camp going on in collaboration between Marietta College, Ohio State University Extension and the 4-H youth development. So this building and the home to 4-H is located directly west of the Schottenstein Center. The Nationwide and Ohio Farm Bureau 4-H Center is a campus treasure that we can all be proud of, but seeing is believing, so take advantage of the opportunity to stop in and take a look for yourself.

And lastly I would like to thank Athletic Director Gene Smith and Archie Griffin from the Alumni Association for hosting an event at Hawk's Nest, which is the golf course donated to the University last year and it is doing well, and we appreciate their efforts in promoting and sharing this treasure with our alumni and friends in the northeast Ohio area.

Thank you Mr. Chairman.

(See Appendix LIII for background information, page 1131)

Dr. Cloyd:

Thank you Mr. Fisher. Any questions or comments?

Next I would ask for the Audit and Compliance Committee report.

Mr. Schottenstein:

Thank you Mr. Chairman, the Audit and Compliance Committee met yesterday and the agenda items included the following: first we had a follow-up from the PWC operational audit that began last year, with particular emphasis paid to a streamlining taskforce which Mr. Shkurti has organized pursuant to the direction of President Gee. Primarily looking at several areas where there are inconsistent policies and practices within the University, the goal being to streamline and make certain areas more efficient. It was quite a positive report from Mr. Shkurti.

We then reviewed a draft of the internal audit work plan for the next several years. The two compliance matters that came before the committee, one dealt with student financial aid, which was very interesting and also a very positive report. Just for everyone's interest we have the largest student financial aid operation in the country. We receive over \$585 million of aid; there are over 70 employees that work in our

June 6, 2008 meeting, Board of Trustees

student financial aid office. The operating standards are very strict; we voluntarily participate in the federal quality assurance program, undertake a number of evaluations and are audited annually. For a number of years now there has been no material findings and the members of the committee were quite satisfied from a compliance and operational standpoint that we have a first rate operation in the Office of Student Financial Aid.

Likewise we also had a report concerning the newly named Office of Student Life and the compliance associated with it. I thought I would share a few interesting facts about it as well. Over 11,000 students live in University housing; there are 19 dining locations that serve over three million meals per year. Over 98 thousand patients are seen at the student health center, more than 15,000 counseling sessions, approximately 1 million guests hosted each year at the Schottenstein Center and there is more. All of these items require licensing and updated licensing. The members of the Audit and Compliance Committee were satisfied that from a compliance standpoint we have a robust program here as well.

Finally we were informed as to the conflict of interest process undertaken through the general counsel's office. Lynn Readey, deputy general counsel presented the process that is undertaken. Approximately 2,500 employees of the University are sent forms to deal with ethics and conflicts of interest and we require 100% participation regarding the filling out and turning in of those forms. I think we have a commendable practice in this area as well.

We also had a second reading of the Affiliated Entities Policy which will come before the Board for vote today. Other than Executive Session that concludes my report.

Dr. Cloyd:

Thank you Mr. Schottenstein, certainly the results on the financial aid are very reassuring when we read about some of the problems some institutions have encountered. That is excellent.

But I do have one question relative to the streamlining work verses a base. Have we reached a point yet to where we have some kind of an understanding of however we want to look at it, a productivity enhancement we may have at the University with getting more streamlined in our approaches?

Mr. Schottenstein:

I think we are making progress, let me say that. I think the operational audit that we undertook last year pointed out a number of things and I think that this streamlining taskforce which Mr. Shkurti has organized is really the beginning of the first step to try to do just what you are saying. I think we are starting to make progress on that. Bill if you want to add anything to what I have said. We are quite early in the streamlining process.

Mr. Shkurti:

Mr. Schottenstein, I think that is a fair characterization. Our next step will be to finalize the recommendations this summer and begin implementation and as we do we are going to set up metrics so we can measure this and we hope to have some significant savings in faculty time and administrative time and yet still protect the University.

Dr. Cloyd:

Any other questions or comments on the committee report?

If not I would like to then go to the Medical Affairs Committee report.

June 6, 2008 meeting, Board of Trustees

Mr. Brass:

Thank you Mr. Chairman, my comments will be very brief in light of the presentation we had. I think I would be remiss if I did not thank Chip Souba, Bill Shkurti, Pete Geier and the rest of the staff. They have done a wonderful job over the last year trying to get all the t's crossed and the i's dotted. We have a few more to go, which we will bring back in July but at this point in time as we begin to start the design work on the largest project at our Ohio State University, I am assured in fact that we have the right kind of safeguards in place. We will spend a little more time on sensitivity analysis at the next meeting which is going to be very important for the Board to understand along with the fee structures we are entering into because of the magnitude of this project. The goal sets, the strategic plan, the integration, the long range forecasting, I am very, very happy with at this point in time.

At the Medical Affairs Committee we also spent time on the next year's budget for our Medical Center as well as making sure that we are in good shape as it relates to some of the forecasting that is going to be taking place next year as a baseline for the next eight or ten years of productivity. You heard earlier some of the projects we took a look at in detail yesterday which was approved earlier today and I think those are good first steps as it relates to phase one of our project. So with that Mr. Chairman I will end my comments. It was a productive meeting yesterday, and I really felt very gratified as it relates to the number of answers we were able to bring forward. Thank you very much.

Dr. Cloyd:

Thank you Mr. Brass, any questions or comments?

Next we have Academic and Student Affairs Committee.

Ambassador Ong:

Thank you Mr. Chairman. Yesterday the Academic and Student Affairs Committee heard two presentations with ensuing discussion among the committee and members of the administration. The first presentation was made by Pat Osmer who is vice provost for graduate studies and dean of the Graduate School. Understanding that one of the elements in making Ohio State a preeminent University is the quality of our Ph.D. programs. Last summer President Gee and Provost Alutto commissioned a committee consisting of a number of senior members of the faculty and also some senior academic leaders from outside the University to study the some 90 Ph.D. programs which we have here at Ohio State. This was a three way partnership of the Graduate School, the Office of Academic Affairs and, of course, the colleges themselves. The review assigned all of these programs to one of six categories after they had examined all of the presentations made by various departments and colleges and then added their own analysis. Twelve out of the roughly 90 were rated as high quality on the basis that their planning focus and potential to enhance the standing of the University. These are already world class programs and the committee, as well as defining them, or identifying them, also strongly recommended that they be made the target for additional investment to continue the dynamics of those programs.

Secondly, they rated another 17 programs as strong, that is to say programs with substance and potential but each of which have some issues in terms of either the focus of the program or perhaps the structure of the program, so these are programs that need a little attention but along with the 12 that are considered to be of high quality and about whom there are no particular recommendations for change. There are 29 that are recognized as very good. Sixteen more programs were identified as good and there were 11 programs which were relatively new and in the process of development, some of which have not even produced their first doctorate. The committee felt that they could not really intelligently assess the standing of those 11.

June 6, 2008 meeting, Board of Trustees

Unfortunately there were 29 programs that were identified as needing either reassessment or restructuring and five others which were cited as candidates for disinvestment or perhaps elimination because they are either inactive or are no longer a priority of the college in which they reside.

In addition to these assessments the review identified a number of broader issues, chief among these is the need to overhaul the organization of doctoral programs in the Biological and Life Sciences and the Environmental and Earth Sciences. There is some opportunities for combination and cross college activity. The review also found that Ohio State's graduate stipends are generally too low to be competitive among the well prepared graduate students we want to attract. In response, beginning in autumn 2009 the graduate school will provide enhanced support to students in our high quality and strong programs, the top 29 are awarded graduate fellowships for the 2008-2009 academic year competition. These students will receive an additional \$3,000 a year in fellowship funding for four years and those new resources will be coming from all 18 colleges whether or not they are home to any of the 29. Another step that is planned is each college dean will meet with the provost and the graduate school dean to agree on an action plan for the doctoral programs within his or her college. That action plan will become an integral part of the college's overall strategic plan which is due for presentation on the first of September. Plans for the elimination and restructuring will be received by the end of this calendar year. Implementation of those plans to precede in 2009. Deans will be asked to make annual reports on implementing agreed to changes within their doctoral program and then in four or five years down the road we will have another full scale review of the entire array of programs as they then exist.

Secondly, the committee heard from Provost Alutto who discussed recent administration changes within the federation of The Colleges of the Arts and Sciences. Those have been pretty well publicized. I will not add anything at this point except to offer the provost an opportunity to comment if he wishes to do so.

Dr. Alutto:

I will respond to any questions you have. I think the committee did an excellent job reviewing all of the actions we have taken up to this point.

Ambassador Ong:

Finally, we recommend to the Board the creation of three academic centers which are on the consent agenda and a number of routine personnel actions which are also on the consent agenda.

Dr. Cloyd:

Thank you Ambassador Ong. Relative to the doctoral programs, is there a process decided on how we will pursue cross college program opportunities or is that going to be a part of some of the separate deans' review with the provost?

Ambassador Ong:

I think there is thinking going on right now. I mentioned the two specific areas. There has been some preliminary thinking. Joe is there anything you would like to add?

Dr. Alutto:

There are specific conversations ongoing now being led by Dean Osmer some possibilities for some new programs. We have asked

each of the interdisciplinary programs to meet and to confer with Dean Osmer on what their plans are for further progress in terms of achieving the goals of various programs

June 6, 2008 meeting, Board of Trustees

as a part of the review process and each of the deans that are involved in any of these cross discipline programs are being asked to address that issue as part of their strategic planning process. So we have at least three avenues in which we will deal with the issue of how to improve those programs, many of which are identified clearly in the review as needing that assessment or that reorganization.

Dr. Cloyd:

Provost Alutto, the one thing that is still left open in my mind is what are the opportunities for the bubble-up types of programs where senior faculty or chairs will identify opportunities, that it moves across college, and how will they get that addressed?

Dr. Alutto:

Those opportunities exist all the time. They exist today; bubbling-up can happen with a set of proposals. It would again go through the normal review process up through the colleges, the multiple colleges involved and multiple departments that are involved and ultimately up through the graduate school for review. That process is already underway. We have a number of proposals that have come forward as a result to the doctoral program review but also as a result of the arts and sciences review where faculty seeing those changes have stepped up and said here are some other changes we think might be reflected at the doctoral level, the changes that are going on, in just the arts and science colleges configuration. So we are seeing a number of those conversations right now but they are really in the early initiation stages.

Ambassador Ong:

I ought to say also that in addition to the possibility of eliminating some of these programs and restructuring and reforming some, our discussion with Provost Alutto and Vice Provost Osmer uncovered the fact that there are also probably opportunities to merge some of these programs and I think in the interdisciplinary area that might open up opportunities to take two or three doctoral programs and turn them into a single doctoral program. There has been some effort of that kind, I understand in the College of Medicine already and I think that the members of the review committee feel that there is gold to be mined there as well.

President Gee:

An overarching goal of this institution should be and one of the things that Dr. Osmer and his team are doing and that is the fact that we want to provide our faculty access to the very best graduate students possible. That does not mean that they all need to have individual academic programs, it is about access to great graduate students. What you are saying is critical and that is the fact that what we are really looking at is reinventing or remising some of these graduate programs so that cumulatively we are gathering much better graduate students for our faculty to work with, and that is, in the educational process the most critical in reading the success of graduate education at that level.

Dr. Cloyd:

I think those are great comments because there is obviously always some pain in a process like this when we are going through programs and it is possible to lose focus on what are the great opportunities that we are really opening up by wanting to be more trans-institutional and more collaborative in our approaches. I think it is very important that we keep that in front of people and I know you are doing some things but also really enable it where people are coming up with some good ideas for these types of collaborative programs that will elevate overall the quality of our graduate programs.

June 6, 2008 meeting, Board of Trustees

President Gee:

That is what we are trying to do through; obviously we have the TIE program to focus on excellence, but also through our academic venture fund, which we are creating. The purpose of that is to really institutionalize an investment strategy and great ideas so that people know that there are resources if the report is coming, so it is that combination of those things that are very important.

Dr. Cloyd:

That is terrific. This great thinking usually does not exist in an anaerobic environment, you have to give it some oxygen, so that is good.

Any other questions or comments on this committee's report?

I would like to next go to Fiscal Affairs Committee report.

Ms. Davidson:

Thank you Mr. Chairman, we started our committee meeting yesterday with several reports that I want to just briefly report on. One was the compensation benchmark, something that we look at annually to see where we are competitively on compensation for both our faculty and our staff. You may recall that a few years ago we made a concentrated effort to come up to be in the median range there with our benchmark universities and to achieve that we have slid back a little bit in the last couple of years but if you take factors in like cost of living, it evens it out a little bit and means that we are in a more competitive position. I thought there was one good graphic in there that is worth pointing out and that is the faculty that have been here with the University and have stayed over a five year period of time, that percentage of increases that they have received are very, very competitive out there with our benchmark universities. Larry Lewellen, who presented the report will return in September and give us a second part of that report which will really look at talent. I think committee members rightly raise the question, and Larry was already prepared for that, that we really want to know where our compensation is and what kind of situation it put on us for keeping good people and recruiting good people to this University. It is at the top of our priority list, so we will look at that again in September.

The committee in April had a very good discussion on energy and there was a follow-up on some of that discussion. Melissa made a report that basically said we are going back and looking at three major construction projects that are ongoing in the campus right now that are in various stages of completion to see whether there are any other energy efficiencies that we could bring into those projects at this time and whether bringing them in would give us a return on investment that would make sense to do that. She will report back to the committee either in July, if they have that report back from the people they are working with, or at least by our September meeting.

We also had a great report on sustainability, looking at what we are doing in the environmental area on campus. Our major program is called Scarlet, Gray and Green. I think everybody was very impressed with the statistics out there, what we are doing on recycling, what we are doing to use recyclable materials in our construction and what we are doing in our demolition, and being sure that as many of those materials are able to be recycled. It was a very impressive report and I do believe that Mr. Schottenstein spoke up and said that we need to do a little bit more about publicizing what we are doing on this University campus in relationship to that program because there is a great story to tell.

We had the quarterly report on unbid contracts. Those unbid contracts fit into three categories, those that are single provider, emergency or where there are good economic reasons for doing an unbid contract. We will get the full report for the entire

June 6, 2008 meeting, Board of Trustees

fiscal year at our November meeting. We also did a quick look at the investment policy of our operating funds which had also been in Mr. Wexner's committee.

One of the items that go forward to the consent agenda today is approval of our tuition and fees going into our next school year. As you know we are in a two-year budget situation with additional state funds being pledged if we do a zero tuition increase for fiscal year 2009, so this tuition would have no increases for our in-state students. If we are looking at what our benchmark universities are doing so far, those reporting are probably the average increase of about 6.3% in tuition. The nonresident students, the graduate students and the fee increase will be at 5%. The University Health System charges would be a 5.9% increase and the room and board charges would be a 6% increase.

We also wanted to take a look at the next item; we already mentioned the financial performance goals. Financial performance goals are something that we look at and they cover six major areas: liquidity, operating margin, debt, Senate Bill 6 ratio, which is something established by the state to judge the financial stability of a university, our credit rating and our health system. We met every one of those performance goals in FY07. I think Mr. Shkurti believes we will meet every one of those performance goals in FY08 and you do have a resolution confirming those fiscal goals on the agenda.

There is an interim budget resolution to give the University authority to spend from July 1 until our July meeting in which you will have the current funds budget before you for approval, and that spending level will be at the same spending level that is authorized right now.

Transfer of a piece of real estate in Redwood, California to the foundation so that it can be sold at the appraised value which is \$900,000. Several easements to Columbus and Southern Power and to the City of Wooster for some road improvements, and then following up with the 23 North Ambulatory Care Center for a lease for that property, 30 thousand square feet being leased and that was also reported under Mr. Brass' committee. Those are the items that come to the consent agenda with the approval of Fiscal Affairs Committee. Thank you Mr. Chairman. I would be happy to answer any questions.

Dr. Cloyd:

Thank you Ms. Davidson. Any questions or comments on the report?

We will next have the report on the Committee on Trusteeship.

Mr. McFerson:

Thank you Dr. Cloyd. After all those meetings, we still had yet another one yesterday, the Committee on Trusteeship. We had the first reading of what is referred to as the amendments to the Bylaws of the Board of Trustees and Rules of the University Faculty. It is a rather extensive document and as I said it is a first reading. There are still a number of holes in that first reading of matters that have not yet even been submitted for a first reading, namely the Medical Center draft, and there were some comments made there and we will continue to look at this a second time and probably might even have to take a third time before we bring it back in September.

With regard to items for action, we have two in the consent agenda. The first is amendments of the non-trustee Board committee appointment guidelines. All of our committees are authorized, as all you committee chairs know, to have three non-trustee committee members who will be voting members as well as the student members on those committees who will also be voting members, and we would encourage you to begin to think about those appointments later in the year, and that would be item number two on the consent agenda.

June 6, 2008 meeting, Board of Trustees

Bob Schottenstein talked about the Affiliated Entities Policy that was presented to the Audit Committee; it was also presented to the Trusteeship Committee where we are recommending it as item 12 on the consent agenda. The oversight for this will be in the Audit and Compliance Committee.

I would also point out that in the first reading the office of treasurer to the Board of Trustees is being eliminated. Not the University treasurer, but the office of treasurer to the Board of Trustees. It appeared to be duplicative and not necessary, so we will be left with three offices of the Board, the chair, the vice chair and the secretary of the Board with the chair and vice chair membership as required on the Board of Trustees to hold those offices. That would be our report.

Dr. Cloyd:

Thank you Mr. McFerson. Questions or comments?

I would just like to again thank the committee and the staff for fine work on the revised policy for affiliated entities. I think that is a real step forward for the University. It is just going to be terrific.

Next committee report will be Development and Investment Committee.

Mr. Wexner:

I think there are four or five items on the consent agenda. We at the committee level approved a policy on investment of operating funds, a divestment of directly-held real estate from the long-term investment pool. We approved an amendment of the long-term investment pool policy and an amendment of the operating and agency funds investment policies. There was an amendment that was discussed then tabled and that is to look at the long-term investment pool distribution policy. The committee approved the appointment of investment managers and the reallocation of funds. I had to recuse myself from that discussion and vote on the consent agenda because of a conflict. There was also a University Development report. We had a very good meeting and full attendance.

Dr. Cloyd:

Thank you, questions or comments?

I would just again like to compliment this committee. I think that it has addressed some of the issues that we saw that we have had in the endowment overall and the investments in return and there has been some really good dedicated action here that I feel is really getting us back on the road to where we need to be, so again to that committee and to the staff that are working with it, thank you very much. It is great work.

The consent agenda is now before the Trustees. We do have one change that Mr. Wexner has noted on number 15 in your list, amendment for the long-term investment pool distribution policy is being tabled for further discussion. With that thought I would like to call on President Gee to present the remaining items on the consent agenda to the Board.

CONSENT AGENDA

President Gee:

Thank you Mr. Chairman, we have 24 resolutions on the consent agenda and we are asking that a separate vote be held for item number 19 due to a conflict of interest, therefore we are seeking your approval for the following:

**AMENDMENTS TO THE NON-TRUSTEE BOARD COMMITTEE
APPOINTMENT GUIDELINES**

Resolution No. 2008-108

Synopsis: Approval to amend the Non-Trustee Board Committee Appointment Guidelines is requested.

WHEREAS the Board of Trustees approved the Non-Trustee Board Committee Appointment Guidelines at its December 7, 2007 meeting (Resolution No. 2008-53); and

WHEREAS additions to the guidelines, as recommended by the Committee on Trusteeship, address voting responsibilities and orientation:

NOW THEREFORE

BE IT RESOLVED, That amendments to the Non-Trustee Board Committee Appointment Guidelines are hereby adopted as follows, effective immediately:

NON-TRUSTEE BOARD COMMITTEE APPOINTMENT GUIDELINES

1. Non-Trustee Board Committee appointments will be for two years and be eligible for a second two-year term for a maximum of four years.
2. Committee appointments will be made by the chair of the committee following discussion with his/her trustee committee members.
3. In general, no more than three non-trustee committee members will be appointed to any one committee. In all cases, the majority of any committee membership must be trustees.
4. Prior to contacting any potential non-trustee appointee, the committee chair will first have a discussion with the vice president and general counsel to ensure there would be no conflict of interest.
5. Non-Trustee Committee members will agree to abide by the Board's *Statement of Expectations* as it relates to their University committee work.
6. Non-Trustee Committee members will be voting members of Board committees.
7. Orientation of non-trustee committee members shall be the responsibility of the committee chairs, the office of the Board of Trustees, and the appropriate university administrative officer.

REGIONAL CAMPUS BOARD APPOINTMENTS/REAPPOINTMENTS

Resolution No. 2008-109

Synopsis: Approval of appointments to The Ohio State University Regional Campus Boards is proposed.

June 6, 2008 meeting, Board of Trustees

WHEREAS the Board of Trustees in 1994 approved the establishment of The Ohio State University Regional Campus Boards; and

WHEREAS it has been previously stipulated that "the board shall be composed of ten members appointed by The Ohio State University Board of Trustees in consultation with the president of the university;" nine members shall be private citizens; and one member shall be a student; and

WHEREAS the following named individuals have been nominated and selected for appointments/reappointments to the following Regional Campus Boards for the terms as specified:

Lima Board

Ted Griffith, 3rd term, July 1, 2008, through June 30, 2011
Nancy J. Knight, 3rd term, July 1, 2008, through June 30, 2011
James W. Unverferth, 3rd term, July 1, 2008, through June 30, 2011
Victoria D. Gonzalez (student), July 1, 2008, through June 30, 2009

Newark Board

Girard E. Besanceney, 3rd term, July 1, 2008, through June 30, 2011
Marlene E. Eader, 3rd term, July 1, 2008, through June 30, 2011
Lisa G. Whittaker, 1st term, July 1, 2008, through June 30, 2011
Stephanie Volbrecht (student), July 1, 2008, through June 30, 2009

NOW THEREFORE

BE IT RESOLVED, That the foregoing nominees be approved as members of the respective Regional Campus Boards for the terms specified.

UNIVERSITY HOSPITALS EAST BOARD APPOINTMENT

Resolution No. 2008-110

Synopsis: Recommending approval of an appointment to the University Hospitals Board.

WHEREAS in accordance with University Hospitals Board Bylaw (3335-104-01) all members of a specialized board shall be appointed by The Ohio State University Board of Trustees in consultation with the vice president for health services, the senior vice president for health sciences, and the president of the University:

NOW THEREFORE

BE IT RESOLVED, That the following individual be appointed as follows:

University Hospitals East Board

Gregory S. Lashutka (1st term) - effective June 1, 2008, through May 31, 2011

**AMENDMENTS TO THE UNIVERSITY HOSPITALS
MEDICAL STAFF RULES AND REGULATIONS**

Resolution No. 2008-111

Synopsis: The amendments to the *University Hospitals Medical Staff Rules and Regulations* are recommended for approval.

WHEREAS The Ohio State University Hospitals Board pursuant to bylaw 3335-101-04 of the *Hospitals Board Bylaws* is authorized to recommend to the Board of Trustees the

June 6, 2008 meeting, Board of Trustees

adoption of amendments to the *University Hospitals Medical Staff Rules and Regulations*; and

WHEREAS these amendments were approved by the University Hospitals Board on May 22, 2008:

84-04 Consultations.

(A) Consultation requirements.

When a patient care problem is identified that requires intervention during the hospital stay that is outside the attending or courtesy medical staff member's area of training and experience, it is the responsibility of the attending or courtesy medical staff member or his or her designee to obtain consultation by the appropriate specialist. The consultation may be ordered by the responsible medical practitioner, a member of the limited staff, or another licensed healthcare professional with appropriate clinical privileges as designated in these rules and regulations. If a consultation is ordered prior to 10 a.m., the consult shall occur on the same business day. If a consultation is ordered after 10 a.m., the consult shall occur within twenty-four hours.

(B) unchanged.

(C) Consultation contents.

~~A satisfactory consultation shall be rendered within 24 hours of the request and shall include examination of the patient, examination of the medical record, and a written opinion signed by the consultant that is made a part of such record. If operative procedures are involved, the consultation note, except in an emergency, shall be recorded prior to the operation. (B/T 9/6/2002, B/T 11/4/2005)~~

84-05 Privileges for giving orders.

(A) through (G) unchanged.

(H) Change of nursing service.

"Change of nursing service" means official and physical movement (transfer) of a patient from any permanent care unit to another with or without change in attending physician, dentist, psychologist, or podiatrist or clinical service. Orders effective before transfer must be reviewed renewed, rewritten or reentered upon transfer by the responsible medical practitioner. The new or renewed orders may be written or electronically entered before or when the patient arrives on the receiving unit and may become effective immediately.

In each case of "change of nursing service," it is the responsibility of the receiving nurse to establish the availability of renewed or new written or electronically entered orders. Prior orders shall remain in effect until new orders are available. This should be done within eight hours of transfer.

(I) through (M) unchanged.

84-12 Medical information committee.

(A) unchanged.

(B) Each member of the medical staff shall conform to the policies established by the medical information committee, including the following:

June 6, 2008 meeting, Board of Trustees

- (1) unchanged.
- (2) History and physical examination.
 - (a) A complete history and physical examination ~~shall be documented on all inpatient and ambulatory surgery records. The history and physical shall include but not be limited to:~~
 - (i) ~~Date of admission~~
 - (ii i) Chief complaint and/or indication for procedure
 - (iii ii) History of present illness
 - (iv iii) Past medical and surgical history
 - (v iv) Relevant past social and family history
 - (vi v) Medications and allergies
 - (vii vi) Review of systems
 - (viii vii) Physical examination
 - (ix viii) Test results
 - (x ix) ~~Impression~~ Assessment or impression
 - (xi x) Plan of care
 - (b) A history and physical appropriate to the patient and/or the procedure to be completed and the ~~patient~~ shall be documented in the medical record of all patients undergoing ~~outpatient procedures. either:~~
 - (1) admitted to the hospital
 - (2) undergoing outpatient/ambulatory procedures
 - (3) undergoing outpatient/ambulatory surgery
 - (4) in a hospital-based ambulatory clinic.
 - (c) ~~A history and physical appropriate to the patient and the patient's chief complaint shall be documented in the medical record of all ambulatory patients.~~
 - (d) ~~The history and physical examination for ambulatory patients and~~ For patients undergoing outpatient/ambulatory procedures or outpatient/ambulatory surgery, the history and physical examination shall include at a minimum:
 - (i) Indications for procedure visit or surgery
 - (ii) Relevant medical and surgical history
 - (iii) Medications and allergies or reference to current listing in the chart or electronic medical record
 - (iv) Focused review of systems, as appropriate for the procedure or surgery
 - (v) Pre-procedure assessment ~~/—and~~ physical examination
 - (vi) ~~Impression~~ Assessment/impression and treatment plan
- (3) Deadlines and sanctions.
 - (a) unchanged.
 - (b) The complete history and physical examination shall be dictated, written or updated no later than 24 hours after admission of the patient for all inpatients. ~~A summary of pertinent findings must be recorded in the patient's chart at the time of dictation. In the event the history and physical~~

~~examination is performed by a physician extender, it shall be countersigned by the responsible medical staff member.~~

(c) and (d) unchanged.

- (e) A procedure note shall be entered in the record by the responsible attending medical staff member or the medical staff member's designee immediately upon completion of an invasive procedure. Procedure notes must be written for any surgical or medical procedures, irrespective of their repetitive nature, which involve material risk to the patient. Notes for procedures completed in the operating rooms must be finalized in OR web by the attending surgeon. For any formal operative procedures, a note shall include preoperative and postoperative diagnoses, procedure(s) performed and description of each procedure, surgeon(s), resident(s), anesthesiologist(s), surgical service, type of anesthesia (general or local), complications, invasive lines either added or deleted, estimated blood loss, any pertinent information not included on the O.R./anesthesia record, preliminary surgical findings, and specimens removed and disposition of each specimen. Where a formal operative report is appropriate, the report must be dictated immediately following the procedure. The transcribed operative/procedure report must be signed by the attending medical staff member. Any operative/procedure report not dictated or any procedure note for procedures completed in the operating rooms not completed in OR web by 10:00 a.m. the day following the procedure shall be deemed delinquent and the attending medical staff member responsible shall lose operating/procedure room and medical staff privileges the following day. The operating rooms and procedure rooms will not cancel cases scheduled before the suspension occurred. Effective with the suspension, the attending medical staff member will lose all privileges to schedule elective and add-on cases. The attending medical staff member will only be allowed to schedule emergency cases until all delinquent operative/procedure reports are completed. All emergency cases scheduled by suspended medical staff members are subject to the review of the medical director and will be reported to the suspended medical staff members' chief of the clinical department and the medical director by the operating room staff. Affected medical staff members shall receive telephone calls from the medical information management department indicating the delinquent operative/procedure reports.

Remainder of rule unchanged.

NOW THEREFORE

BE IT RESOLVED, That the above amendments are hereby adopted.

APPROVAL OF NON-ACADEMIC "CENTER" STATUS

Resolution No. 2008-112

Synopsis: Approval of non-academic "center" status is proposed.

June 6, 2008 meeting, Board of Trustees

WHEREAS faculty Rule 3335-3-36 (A) specifies that: Use of 'center' or 'institute' in the names of proposed units of the university shall be limited to academic centers, unless approved by the Council on Academic Affairs; and

WHEREAS requests have been received from the College of Mathematical and Physical Sciences and the College of Veterinary Medicine, for use of these terms as follows:

College of Mathematical and Physical Sciences
Center for Cosmology and Astro-Particle Physics

College of Veterinary Medicine
Center for Excellence in Food Animal Health, Production, and Well-Being

The Max M. Fisher College of Business
Nationwide Center for Advanced Customer Insights

WHEREAS subsequent use of the term "academic" center/institute will require that a formal proposal for academic center status will need to be submitted to the Council on Academic Affairs for full review for each of these units.

WHEREAS the Council on Academic Affairs reviewed these requests at its meetings on April 2, 2008, April 16, 2008 and May 21, 2008, and had no objections:

NOW THEREFORE

BE IT RESOLVED, That the "Center for Cosmology and Astro-Particle Physics"; "Center for Excellence in Food Animal Health, Production, and Well-Being"; and the "Nationwide Center for Advanced Customer Insights" are hereby approved, effective immediately.

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 2008-113

Synopsis: Approval of the following amendments to the *Rules of the University Faculty* are recommended.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the *Rules of the University Faculty* as approved by the University Senate; and

WHEREAS the proposed changes in the *Rules of the University Faculty* were approved by the University Senate on April 10, 2008 and May 9, 2008:

NOW THEREFORE

BE IT RESOLVED, That the attached amendments be hereby adopted.

3335-3-31 Dean of the graduate school.

- (A) There shall be a dean of the graduate school who shall be the administrative head of the graduate school. The dean shall be appointed by the board of trustees upon nomination of the president. Before making a nomination, the president shall confer with the ~~research and~~ graduate council.
- (B) The dean of the graduate school shall have the same general responsibilities and authorities that pertain to the deans of the several colleges. The dean shall also preside at the meetings of the ~~research and~~ graduate council and of its executive

June 6, 2008 meeting, Board of Trustees

committee, make recommendations to the council concerning all such matters as are of primary importance in the development of the graduate work of the university, and make recommendations to the executive vice president and provost concerning the budget of the graduate school to provide for the proper maintenance of the school and to assist in the development of graduate work and research programs.

The dean of the graduate school shall present candidates for graduate degrees to the president, serve as a member of the council of deans, and in general, be responsible for the progress of the educational policies and well-being of the school. The dean shall report to the appropriate member of the president's planning cabinet upon the condition and progress of the graduate school whenever called upon to do so.

(C) and (D) unchanged.

(E) The dean shall appoint all graduate school committees unless their membership has been designated by these faculty rules, the ~~research and~~ graduate council, or the graduate faculty.

(F) and (G) unchanged.

3335-3-36 ~~Academic centers~~ Centers and institutes.

(A) Definition of an academic center (institute).

An academic center is a non-degree granting educational unit of the university engaged in ~~research, instruction, or~~ clinical, outreach, or related service ~~which crosses department, division, school, or college boundaries.~~ An academic center is defined by its mission and scope, not its title, and may be described as a center, institute, laboratory, or similar term. Use of "center" or "institute" in the names of proposed units of the university shall be limited to academic centers, unless otherwise approved by the council on academic affairs. See paragraph (C) of rule 3335-3-56 of the Administrative Code, for definition of non-academic centers. Academic centers are of two broad types: university centers and college centers.

University center typically will have a substantial research/scholarship component to their mission, but also may be involved in instruction, and/or related service. Their internal funding (initial and continuing) is drawn fully, or in large part, from central university funds (i.e. office of the president, office of academic affairs, office of research, colleges of the arts and sciences). The leadership of the center will report to one or more of those offices.

College centers typically will have some mix, with variable emphases, of research/scholarship, instruction, service, clinical or outreach missions. Internal funding (initial and continuing) is drawn fully, or in large part, from one college or a small set of colleges. The leadership of the center will report to one dean or a small set of deans.

(B) ~~Academic centers shall be established or abolished by the board of trustees upon the recommendation of the university senate and the council on academic affairs. Faculties of existing educational units that would commit or receive resources shall be consulted in the creation or abolishment of an academic center. If the academic center has a research or graduate education component, the research and graduate council shall be consulted.~~

Establishment, reporting, and oversight.

(1) Establishment of University Centers.

Proposals for university centers will be developed following the “guidelines for the establishment and review of academic centers” and submitted to the office of academic affairs for action.

The chair of the council on academic affairs (CAA), the provost’s designee to that council, and the chair of the university research committee (URC) will review the proposal to ensure adherence to the guidelines and determine if it includes a substantial research component.

If so, a “centers subcommittee” of the council, supplemented with membership from URC, will review the proposal and bring a recommendation for action to CAA. If a substantial research component does not exist, the special subcommittee of the council (without URC involvement) will review the proposal and bring a recommendation for action to CAA.

If approved by CAA, the proposal will be sent to the university senate for final approval. That action will be communicated to the board of trustees.

(2) Establishment of college centers.

Each college will have a template for the establishment and review of centers that will be included in the college pattern of administration. Copies of college templates also will be maintained in the office of academic affairs, proposal will be developed with adherence to the template, and submitted to the dean(s) of the college(s).

No review/action by CAA is required. The dean(s) will inform the office of academic affairs of the establishment of such a center. OAA will inform CAA, resulting in official institutional notification.

The office of academic affairs shall maintain a register of all academic centers and appropriate records concerning each one.

- ~~(C) Reporting lines for academic centers shall be specified by the executive vice president and provost on the recommendation of the council on academic affairs and, where appropriate, the research and graduate council.~~

~~An academic center shall be administered by a director who shall be appointed by and report to the dean relevant vice president(s) or deans of the pertinent college college(s) or, where there is no single pertinent college, to a dean, governing board of deans, or vice president, as determined by the nature, purposes, and special circumstances of the academic center.~~

- ~~(D) Each academic center shall have an oversight committee nominated by the person or board to whom the director reports and approved by the faculty of the center. The majority of the oversight committee shall consist of regular faculty from the academic units involved in the academic center. The director shall consult regularly with the oversight committee.~~

- (E) (3) Curricula and faculty affiliation.

Although academic neither university nor college centers may not establish independent course offerings and degree programs, they may participate in cooperative programs involving course offerings and degree programs within existing academic units. With the approval of the council on academic affairs, the faculty of a school or college may delegate to an academic center

June 6, 2008 meeting, Board of Trustees

the authority to offer courses or degree programs established under the auspices of that school or college. Proposals for any such courses or programs must be forwarded to the office of academic affairs with the signature approval of the appropriate school or college which must retain ultimate authority and responsibility for the courses or degree programs.

- (F) University faculty and staff may affiliate with an the academic center under procedures approved by its oversight committee. Academic centers shall not serve as tenure initiating units.

(4) Administration.

An academic center shall be administered by a director who shall be appointed by and report to the dean relevant vice president(s) or deans of the pertinent college(s).

(5) Oversight.

Each university and college center shall have an oversight committee, at least two-thirds of whose members are regular faculty from the academic units involved in the center. The director shall consult regularly with the oversight committee.

- (G) The director of each academic center shall develop in conjunction with the oversight committee a pattern of administration for the center.

~~The director of each academic center shall submit an annual report to the oversight committee; to the dean, governing board of deans, or vice president to whom the director reports; and to the office of academic affairs, as part of the annual budget review process of the university. The director shall consult with the oversight committee during preparation of the annual report.~~

- ~~(H) Separate fiscal units shall be established and maintained only for authorized academic centers.~~

- ~~(I) Every four years the office of academic affairs shall request from the director of an academic center, its oversight committee, and the dean, governing board of deans, or vice president to whom the director reports, recommendations concerning reporting lines, governance, performance and effectiveness, and the continuation of the academic center.~~

(6) Review process.

All university centers will be reviewed two years after initial establishment and at four-year intervals thereafter. The centers subcommittee of CAA will conduct the review following the "guidelines for the establishment and review of centers" and bring a recommendation for action to CAA. The range of actions include: continuation, conditional continuation with a follow-up in less than four years, and termination.

All college centers will be monitored through annual reports to the college dean(s). Should significant change to a center occur, or a decision be made to abolish a center, notification of that decision will be made to the office of academic affairs and through it to CAA.

(7) Previously established centers.

All existing academic center established outside of this rule shall be reviewed under the requirements of this rule. Those not in compliance with

June 6, 2008 meeting, Board of Trustees

the rule shall be allowed one additional year to make appropriate adjustments to allow for their continuation.

Note: the request of any established center seeking to move from one type to another must be reviewed and approved by CAA.

(C) Conditional use of the term "center."

Start-up centers are permitted. Following submission of a formal request by a vice president or dean and expedited review and approval by CAA, the term "center" may be used related to external or central funding possibilities. That action will be communicated directly to the board of trustees. Should funding not be secured within one year, the unit must request from CAA an extension of the use of the term. Once funding is secured, the appropriate process for establishment of a university or college center must be initiated within one year.

3335-5-29 Membership.

The regular members of the graduate faculty shall consist of those members of the university faculty who are ~~approved by the policy and standards committee of the research and graduate council~~ nominated by their graduate program and approved by the graduate school. Ex officio members of the graduate faculty are the executive vice president and provost, the senior vice president for research, the dean of the graduate school, the deans of the colleges, and the director of libraries.

3335-5-30 Powers and functions.

The graduate faculty shall have the following general powers and functions:

- (A) ~~To elect all voting faculty members of the research and graduate council in the manner prescribed by rule 3335-5-34 of the Administrative Code.~~
- (B) To initiate and to act upon any question affecting the policies of the graduate school or to request consideration and action by the ~~research and graduate council~~.
- (C) ~~To approve, modify, or reverse any action of the research and graduate council.~~
- ~~(D)~~(B) To receive the annual report of the dean of the graduate school and such other reports as the dean shall submit.
- ~~(E)~~(C) To perform the functions approved by the ~~research and graduate council~~.

3335-5-31 Meetings.

- (A) Meetings of the graduate faculty shall be called by the dean of the graduate school or whenever so requested by ~~ten per cent~~ per cent of the regular members of the graduate faculty or whenever so requested by a majority of the members present at any regular meeting of the ~~research and graduate council~~.
- (B) The dean of the graduate school shall announce the time, place and purpose of each meeting at least seven days before the date of the meeting. The dean of the graduate school, or designee, shall preside at all meetings of the graduate faculty. All actions of the graduate faculty shall be upon a majority vote of the regular members present. In case of a tie vote on any matter before the graduate faculty, the dean of the graduate school shall cast the deciding ballot. Any action taken pursuant to paragraph ~~(B) or (C)~~ (A) of rule 3335-5-30 of the Administrative Code shall be proposed at one meeting of the graduate faculty and acted upon at a subsequent meeting called for that purpose.

June 6, 2008 meeting, Board of Trustees

3335-5-32 Council on research and graduate studies Graduate council.

There shall be established a council on research and graduate studies (also called research and graduate council) graduate council with the following powers and subject to the following limitations in rules 3335-5-33 to 3335-5-36 of the Administrative Code.

3335-5-33 Membership.

There shall be a graduate council on research and graduate studies constituted as follows:

(A) — Chief administrative officer. The executive vice president and provost shall serve as the chief administrative officer.

(B)(A) Chair. The vice provost for A faculty chair of the graduate studies council shall be elected annually by members and dean of the graduate school council. shall The chair will sit on the council on research and graduate studies senate's faculty cabinet.

(C)(B) Faculty members. Forty-four Twelve members of the graduate faculty; elected from the regular members of the graduate faculty of each of the seventeen colleges with graduate programs and the group of cross-college interdisciplinary graduate programs so designated by the dean of the graduate school: business (2), social work (1), food, agricultural, and environmental sciences (3), arts (4), biological sciences (4), education and human ecology (5), engineering (4), humanities (4), mathematical and physical sciences (4), medicine (1), nursing, dentistry (1), optometry (1), veterinary medicine (1), pharmacy (1), social and behavioral sciences (4), law (1), and interdisciplinary (2) shall be appointed for terms of three-years by the vice provost for graduate studies and dean of the graduate school in consultation with the executive deans and senate faculty leadership (the chair and vice-chair of faculty council, the chair of the senate steering committee, and the university senate secretary). Three of the twelve shall be members of the university senate. Graduate faculty members should have experience as a graduate studies committee chair, department chair, or other significant involvement in graduate education. Nine of the twelve graduate faculty members shall be nominated by executive deans from lists solicited from the faculty of their respective colleges in the following manner: three by the executive dean of the colleges of the arts and sciences; three by the executive dean of the health sciences; three by the executive dean of the professional colleges. Three of the twelve graduate faculty members shall be appointed by the vice provost for graduate studies and dean of the graduate school.

(D)(C) Alternate faculty members. Each faculty member of the graduate council is expected to attend its meetings regularly. Alternate representatives shall be elected from identified by each college and cross-college interdisciplinary group in order to assure full attendance at meetings when regular faculty members are justifiably absent executive dean and approved by the vice provost for graduate studies and dean of the graduate school. When a regular member is off duty or unable to attend a meeting of the council, the member shall notify the secretary of the graduate school in advance of the meeting, giving the name of the alternate who will attend. The alternate Alternates shall then have the general powers and privileges in the council of as the member represented. Service as an alternate does not make the alternate ineligible for membership in the council the following year.

(E)(D) Postdoctoral scholar Graduate student members. Two postdoctoral scholars graduate students shall be appointed by the dean council of the graduate school students. The term These members shall serve terms of service is one year, and

June 6, 2008 meeting, Board of Trustees

~~a member may~~ shall be eligible reappointed for a maximum of three consecutive years terms.

(F) ~~Student members. Twelve graduate students shall be elected by the council of graduate students. These members shall serve terms of one year and shall be eligible for at most three consecutive terms~~

(G)(E) ~~Alternate student members. Each student member of the council is expected to attend its meetings regularly, but an alternate representative~~ Alternative representatives shall be appointed for each member in order to assure full attendance at regular meetings when elected student members are justifiably absent. When a student member is unable to attend a meeting of the council, the member shall notify the secretary of the graduate school in advance of the meeting, giving the name of the alternate who will attend identified by the council of graduate students. The alternate shall then have the general powers and privileges in the council of as the member represented. Service as an alternate does not make the alternate ineligible for membership in the council the following year.

(F) One administrator. The vice provost for graduate studies and dean of the graduate school or designee.

(H)(G) Non-voting members. The senior vice president for research is an ex officio member of the council of graduate students and the senior vice president for research.

(I) ~~The chair of the research committee is an ex officio member of the council if not already a member.~~

3335-5-34 Election of faculty members. RESCIND

(A) ~~Faculty members shall be elected from each of the seventeen graduate colleges and the group of cross-college interdisciplinary programs defined in rule 3335-5-33 of the Administrative Code, for terms of four years and shall be ineligible to serve for one year thereafter.~~

(B) ~~The election process shall be supervised by the graduate school. There shall be a council election process in each college having graduate programs and in the cross-college interdisciplinary program group. The process shall be conducted by the college dean or designee in the spring quarter of each year. Names of the persons selected through this process shall be reported to the graduate school. Faculty identified through this process will serve four year terms beginning in the following autumn quarter.~~

3335-5-34 Duties and responsibilities.

The graduate council shall be the principal advisory body of the graduate school and shall have the following duties and responsibilities:

(A) To serve as an advisory group to the vice provost of graduate studies and dean of the graduate school.

(B) To participate in the development of rules, policies, and standards pertaining to graduate education and graduate programs and to act upon any question affecting those policies.

(C) To participate in the establishment of rules, policies, and standards governing graduate associates and graduate fellowships, including overseeing eligibility and allocation procedures for graduate school fellowships.

June 6, 2008 meeting, Board of Trustees

- (D) To review proposals for new or revised graduate programs, graduate minors, graduate interdisciplinary specializations and other curricular matters.
- (E) To submit to the council on academic affairs recommendations about adopting or abolishing academic degrees administered by the graduate school.
- (F) To provide oversight for interdisciplinary graduate programs.
- (G) To make recommendations about establishing and abolishing academic centers and other comparable organizations that are engaged in graduate education and make recommendations for determining the membership and authorities of their boards or governing bodies.
- (H) To approve, modify, or reverse any action taken by its standing or ad hoc committees.

~~3335-5-35 Powers and functions. RESCIND~~

~~The research and graduate council shall be the principal legislative body of the graduate school and, subject to modification or reversal by the graduate faculty, shall have the following powers and functions:~~

- (A) ~~To initiate graduate school policies and to act upon any questions affecting those policies.~~
- (B) ~~To establish and publish rules governing graduate programs.~~
- (C) ~~To submit to the council on academic affairs recommendations about proposals for adopting new courses and curricula involving graduate credit or for altering or abolishing existing ones.~~
- (D) ~~To submit to the council on academic affairs recommendations about adopting or abolishing academic degrees administered by the graduate school.~~
- (E) ~~To encourage and stimulate scholarly research and creative activity and foster the close relationship between graduate education and scholarly research.~~
- (F) ~~To make recommendations about establishing, affiliating, and abolishing academic centers and other comparable organizations that are engaged in research or graduate education and make recommendations for determining the membership and authorities of their boards or governing bodies.~~
- (G) ~~To approve, modify, or reverse any action taken by its standing committees.~~
- (H) ~~To oversee the program representation plan established by rule 3335-5-33 of the Administrative Code.~~
- (I) ~~To nominate members to the board of the Ohio state university research foundation.~~

3335-5-35 Committees. NEW

- (A) There shall be one standing committee: curriculum. The committee will be chaired by a graduate faculty member of the committee.
- (B) There shall be ad hoc committees to address issues requiring specific expertise. Ad hoc committees shall be convened at the discretion of the vice provost for graduate studies and dean of the graduate school or graduate council.

June 6, 2008 meeting, Board of Trustees

~~3335-5-36 Committees- RESCIND~~

- (A) ~~There shall be five standing committees: executive, curriculum, policy and standards, research, and graduate associate and fellowship. The dean of the graduate school will serve as chair of the executive committee. The other committees will be chaired by a faculty member of the committee.~~
- (B) ~~The executive committee shall consist of the chairs of the other four standing committees, the president of the council of graduate students and the dean of the graduate school. The curriculum, graduate associate and fellowship, and policy and standards committees shall each consist of ten faculty members of the council on research and graduate studies, one from each graduate area, and three graduate students, all of whom are members of the council. The research committee, which is also a standing committee of the university senate, shall be constituted as described by rule 3335-5-48.14 of the Administrative Code.~~
- (C) ~~Specific responsibilities, in addition to those assigned by the council on research and graduate studies, the senior vice president for research, the dean of the graduate school, and in case of the research committee the university senate (see rule 3335-5-48.14 of the Administrative Code), are as follows:~~
- ~~(1) The curriculum committee considers and acts on courses carrying graduate credit and considers and recommends to the council action on graduate degree programs.~~
 - ~~(2) The executive committee monitors graduate council and committee activities, determines the agenda for the council, assigns issues for consideration by the other standing committees, serves as a coordinating body for council activities, and acts in the interim when council is not in session and action is required.~~
 - ~~(3) The policy and standards committee considers and recommends to the council policies and rules related to graduate education and acts on graduate faculty nominations and student petitions.~~
 - ~~(4) The graduate associate and fellowship committee considers and recommends to the council policies and rules related to graduate associates and fellows.~~

3335-9-33 Standards for honors at graduation.

- (A) Degrees "*Cum Laude*," "*Magna Cum Laude*," and "*summa Cum Laude*" may be granted for exceptional achievement in the curriculum of each enrollment unit. The designation "*summa Cum Laude*" may be granted only for those students who have achieved at least a 3.90 cumulative point-hour ratio as of the term penultimate to their at the time of graduation. The designation "*Magna Cum Laude*" may be granted only for those students who have achieved at least a 3.70 cumulative point-hour ratio as of the term penultimate to their at the time of graduation. The designation "*Cum Laude*" may be granted only for those students who have achieved at least a 3.50 cumulative point-hour ratio as of the term penultimate to their at the time of graduation.
- (1) Should a student not meet the criteria noted above as of the term penultimate to his or her graduation, but meet the criteria based on his or her cumulative GPA at the time of graduation, he or she will be considered as having met the criteria to graduate with the appropriately revised recognition.
 - (2) Should a student meet the criteria noted above as of the term penultimate to his or her graduation, but drop below the threshold with his or her final

June 6, 2008 meeting, Board of Trustees

cumulative GPA, he or she will not be considered to lose his or her Latin honors recognition for graduation.

- (B) Eligibility for these honors shall be based on a minimum of ninety credit hours of course enrollment at this university. The marks for all Ohio state coursework considered toward the degree will be included in calculating a student's eligibility for such honors. Credits in courses graded "S/U," as well as credits earned in repeatable coursework will be considered as counting toward the 90 credit hours. Credits in courses graded "PA/NP," as well as credits earned in coursework repeated in rule 3335-8-28 of the Administrative Code will not be considered as counting toward the 90 credit hours, except that for For a student who has completed ninety credit hours subsequent to application of a fresh start, in accordance with rule 3335-8-26.1 of the Administrative Code, only those marks received for coursework subsequent to fresh start will be considered toward calculating a student's eligibility for such honors.
- (C) Standards for graduation "with distinction in [special subject(s)]" and "with honors in []" shall be as adopted by the council on academic affairs. Eligibility for these honors shall be based on a minimum of 90 credit hours of course enrollment at this university. The marks for all Ohio state coursework considered toward the degree will be included in calculating a student's eligibility for such honors. Credits in courses graded "S/U" and credits earned in repeatable coursework will be considered as counting toward the
90 credit hours. Credits in courses graded "PA/NP" and credits earned in coursework repeated in rule 3335-8-28 of the Administrative Code will not be considered as counting toward the 90 credit hours.
- (D) Beyond these minimal requirements the enrollment units may establish additional stipulations for graduation "*Cum Laude*," "*Magna Cum Laude*," and "*summa Cum Laude*."

3335-17-04 Apportionment of faculty members.

(A) and (B) unchanged.

- (C) For the purpose of voting in a senate election, the eligible faculty shall be regular tenure-track faculty and ~~shall vote only in the election of members from the constituency in which they hold their primary appointment~~ such regular clinical track faculty as are authorized for senate service pursuant to rule 3335-7-11. They shall vote only in the election of members from the college or unit in which they hold their primary appointment.

3335-17-08 Qualifications for membership.

(A) To be eligible for service as members of the university senate:

- (1) Faculty members shall be on the roster of the regular tenure-track faculty and ~~available for senate service autumn, winter and spring quarters during their elected terms, or on the roster of a college or unit's regular clinical track faculty who are authorized for senate service pursuant to rule 3335-7-11, and available for senate service autumn, winter and spring quarters during their elected terms.~~

(2) and (3) unchanged.

(B) and (C) unchanged.

June 6, 2008 meeting, Board of Trustees

HONORARY DEGREE

Resolution No. 2008-114

Synopsis: The awarding of an honorary degree is recommended for approval.

WHEREAS pursuant to paragraph (B)(4) of rule 3335-1-03 of the Administrative Code, the President, after consultation with the Steering Committee of the University Senate, recommends to the Board of Trustees the awarding of an honorary degree as listed below:

Brian Williams

Doctor of Journalism

NOW THEREFORE

BE IT RESOLVED, That the above honorary degree be awarded in accordance with the recommendation at a time convenient to the University and the recipient.

DEGREES AND CERTIFICATES - SPRING QUARTER COMMENCEMENT

Resolution No. 2008-115

Synopsis: Approval of Degrees and Certificates for Spring Quarter is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on June 8, 2008, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

(See Appendix LXV for background information, page 1197)

PERSONNEL ACTIONS

Resolution No. 2008-116

BE IT RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the April 4, 2008 meeting of the Board, including the following Appointments, Concurrent Appointments, Reappointments, Appointment of Chairpersons/Directors, Leaves of Absence - Continuation, Leaves of Absence Without Salary, Professional Improvement Leaves, and Emeritus Titles, be approved; and

June 6, 2008 meeting, Board of Trustees

Appointments

Name: STEVEN G. GABBE
Title: Senior Vice President
Office: Health Sciences
Term: July 1, 2008, through June 30, 2012
Title: Counselor to the President for Health Affairs
Term: July 1, 2012, through June 30, 2015
Title: Professor, Department of Obstetrics and Gynecology

Name: LARRY T. GARVIN
Title: Professor (Lawrence D. Stanley Professorship in Law)
College: Moritz College of Law
Term: June 1, 2008, through May 31, 2018

Name: ROBERT J. GUSTAFSON
Title: Professor (The Honda Designated Professorship in Engineering)
College: Engineering
Concurrent Title: Director, Engineering Education Innovation Center
Term: July 1, 2008, through June 30, 2012

Name: PETER R. MANSOOR
Title: Associate Professor (The Major General Raymond E. Mason, Jr. Chair of Military History)
College: Humanities
Term: October 1, 2008, through September 30, 2013

Name: KATHLEEN K. STARKOFF
Title: Chief Information Officer
Office: Academic Affairs
Effective: June 16, 2008

Name: MELINDA T. SWAN
Title: Associate Vice President
Office: University Relations
Effective: April 14, 2008

Name: CELIA E. WILLS
Title: Associate Professor (The Grayce M. Sills Professorship)
College: Nursing
Term: October 1, 2008, through June 30, 2013

Name: AHMED E. YOUSEF
Title: Professor (Virginia Hutchinson Bazler and Frank E. Bazler Designated Professorship in Food Science)
College: Food, Agricultural, and Environmental Sciences
Term: July 1, 2008, through June 30, 2013

Name: DAVID A. ZVARA
Title: Professor (The Jay J. Jacoby M.D., Ph.D. Chair in Anesthesiology)
College: Medicine
Term: January 8, 2007, through June 30, 2011

June 6, 2008 meeting, Board of Trustees

Concurrent Appointments

Name: HAGOP S. MEKHJIAN
Title: Senior Associate Vice President
Office: Health Sciences
Effective: July 1, 2008
Concurrent Titles: Chief Medical Officer, OSU Medical Center
Professor, College of Medicine
Professor, College of Public Health

Name: WILEY W. SOUBA, JR.
Title: Vice President
Office: Health Sciences
Term: July 1, 2008, through June 30, 2012
Concurrent Titles: Dean, College of Medicine
Executive Dean, Colleges of Health Sciences
Professor, Department of Surgery

Reappointments

Name: JANET M. BOX-STEFFENSMEIER
Title: Professor (The Vernal G. Riffe Professorship in Government and Politics)
College: Social and Behavioral Sciences
Term: July 1, 2008, through June 30, 2013

Name: ROBERT W. BRUEGGEMEIER
Titles: Dean
College: Pharmacy
Term: July 1, 2008, through June 30, 2013

Name: EVELYN B. FREEMAN
Titles: Dean and Director
Regional Campus: The Ohio State University-Mansfield
Term: July 1, 2008, through June 30, 2013

Name: THOMAS W. JOHNSON
Title: Interim University Treasurer
Office: Business and Finance
Term: July 1, 2008, through December 31, 2008

Name: STANLEY A. LEMESHOW
Title: Dean
College: Public Health
Term: July 1, 2008, through June 30, 2013

Name: JOHN R. SNYDER
Titles: Dean and Director
Regional Campus: The Ohio State University-Lima
Term: July 1, 2008, through June 30, 2013

Appointment of Chairpersons/Directors

EDWARD H. ADELSON,** School of Music, effective July 1, 2008, through June 30, 2009.

JAMES J. BEATTY, Department of Physics, effective July 1, 2008, through September 30, 2012.

June 6, 2008 meeting, Board of Trustees

ELIZABETH B. DAVIS,* Department of Spanish and Portuguese, effective August 1, 2008, through September 30, 2009.

ANNA A. GROTHANS, Department of Germanic Languages and Literatures, effective October 1, 2008, through September 30, 2012.

EUGENE W. HOLLAND, Department of Comparative Studies, effective October 1, 2008, through September 30, 2012.

ANTHONIA C. KALU, Department of African American and African Studies, effective October 1, 2008, through June 30, 2012.

IRENE I. MASING-DELIC,* Department of Slavic and East European Languages and Literatures, effective October 1, 2008, through September 30, 2009.

DANIEL D. SEDMAK,** Department of Radiology, effective March 12, 2008, through April 1, 2009.

RICHARD E. TORRANCE,* Department of East Asian Languages and Literatures, effective September 1, 2008, through September 30, 2009.

FERNANDO UNZUETA, Department of Spanish and Portuguese, effective July 1, 2008, through June 30, 2012.

*Acting

**Interim

Leaves of Absence Without Salary

IAN J. LEARY, Professor, Department of Mathematics, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009, to accept a researcher position at the Heilbronn Institute, Bristol, UK.

STEPHEN W. MELVILLE, Professor, Department of History of Art, effective Autumn Quarter 2008 and Winter Quarter 2009, for personal reasons.

HALINA STEPHAN, Professor, Department of Slavic and East European Languages and Literatures, effective Spring and Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009, for personal reasons.

IVO HERZOG, Associate Professor, Department of Mathematics (Lima), effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009, to accept a visiting faculty position at Yonsei University, Seoul, South Korea.

MARI NODA, Associate Professor, Department of East Asian Languages and Literatures, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009, to accept an adjunct Associate Professor, Columbia University, New York.

ALAN T. WISEMAN, Assistant Professor, Department of Political Science, effective Autumn Quarter 2008, to accept a teaching position at the Kellogg School of Management at Northwestern University, Evanston, Illinois.

TIEN-HSIEN CHANG, Associate Professor, College of Biological Sciences, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009, to continue as Vice Director of Research and Development at Cheng Technology Corporation, Taipei, Taiwan.

INDIRA L. CHATTERJI, Assistant Professor, Department of Mathematics, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009, to continue mathematical collaborations in France.

June 6, 2008 meeting, Board of Trustees

Professional Improvement Leaves

MARVIN T. BATTE, Professor, Department of Agricultural, Environmental, and Development Economics, effective Winter Quarter and Spring Quarter 2009.

GRAEME M. BOONE, Professor, School of Music, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

JAMES J. BRUDNEY, Professor, Moritz College of Law, effective Autumn Semester 2008.

VESTA A.H. DANIEL, Professor, Department of Art Education, effective Autumn Quarter 2008 and Winter Quarter 2009.

JOSHUA DRESSLER, Professor, Moritz College of Law, effective Winter Semester 2009.

ULRICH H. GERLACH, Professor, Department of Mathematics, effective Autumn Quarter 2008 and Winter Quarter 2009.

ARTHUR F. GREENBAUM, Professor, Moritz College of Law, effective Winter Semester 2009.

BARBARA D. GROSECLOSE, Professor, Department of History of Art, effective Autumn Quarter 2008 and Winter Quarter 2009.

ANITA W. HOY, Professor, School of Educational Policy and Leadership, effective Spring Quarter and Summer Quarter 2009.

WAYNE K. HOY, Professor, School of Educational Policy and Leadership, effective Spring Quarter and Summer Quarter 2009.

JASON C. HSU, Professor, Department of Statistics, effective Winter Quarter and Spring Quarter 2009.

ROY JOSHUA, Professor, Department of Mathematics, effective Winter Quarter and Spring Quarter 2009.

IAN J. LEARY, Professor, Department of Mathematics, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

TA-YUNG LING, Professor, Department of Physics, effective Autumn Quarter 2008 and Winter Quarter 2009.

MICHAEL A. LISA, Professor, Department of Physics, effective Autumn Quarter 2008 and Winter Quarter 2009.

BERYL A. MILLER, Professor, Department of Dance, effective Autumn Quarter 2008.

DOUGLAS T. OWENS, Professor, School of Teaching and Learning, effective Autumn Quarter 2008 and Winter Quarter 2009.

ROBERT J. PERRY, Professor, Department of Physics, effective Autumn Quarter 2008 and Winter Quarter 2009.

JOSEPH B. STULBERG, Professor, Moritz College of Law, effective Winter Semester 2009.

DAVID H. TERMAN, Professor, Department of Mathematics, effective Winter Quarter and Spring Quarter 2009.

June 6, 2008 meeting, Board of Trustees

JOSEPH S. VERDUCCI, Professor, Department of Statistics, effective Winter Quarter and Spring Quarter 2009.

MARGARET J. WYSZOMIRSKI, Professor, Department of Art Education, effective Winter Quarter and Spring Quarter 2009.

FANGYANG ZHENG, Professor, Department of Mathematics, effective Autumn Quarter 2008 and Winter Quarter 2009.

LEI BAO, Associate Professor, Department of Physics, effective Autumn Quarter 2008 and Winter Quarter 2009.

MOLLIE V. BLACKBURN, Associate Professor, School of Teaching and Learning, effective Winter Quarter and Spring Quarter 2009.

TERRI T. BUCCI, Associate Professor, School of Teaching and Learning (Mansfield), effective Autumn Quarter 2008 and Winter Quarter 2009.

SERGEI V. CHMUTOV, Associate Professor, Department of Mathematics (Mansfield), effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

ANTHONY D. HILL, Associate Professor, Department of Theatre, effective Autumn Quarter 2008 and Winter Quarter 2009.

MARIA B. IGNATIEVA, Associate Professor, Department of Theatre (Lima), effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

LAURICE M. JOSEPH, Associate Professor, School of Physical Activity and Educational Services, effective Autumn Quarter 2008 and Spring Quarter 2009.

ARDINE K. NELSON, Associate Professor, Department of Art, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

THOMAS V. O'BRIEN, Associate Professor, School of Teaching and Learning (Mansfield), effective Winter Quarter and Spring Quarter 2009.

JOY H. REILLY, Associate Professor, Department of Theatre, effective Autumn Quarter 2008 and Winter Quarter 2009.

KEIKO K. SAMIMY, Associate Professor, School of Teaching and Learning, effective Winter Quarter and Spring Quarter 2009.

ANDREW C. SHELTON, Associate Professor, Department of History of Art, effective October 1, 2008, through June 30, 2009.

DONALD A. TOBIN, Associate Professor, Moritz College of Law, effective Autumn Semester 2008.

EDWARD E. VALENTINE, Associate Professor, Department of Art (Lima), effective Autumn Quarter 2008 and Winter Quarter 2009.

RICHARD J. VOITHOFER, Associate Professor, School of Educational Policy and Leadership, effective Autumn Quarter 2008 and Winter Quarter 2009.

IAN A.G. WILKINSON, Associate Professor, School of Teaching and Learning, effective Winter Quarter and Spring Quarter 2009.

AMY M. YOUNGS, Associate Professor, Department of Art, effective Autumn Quarter 2008, Winter Quarter and Spring Quarter 2009.

June 6, 2008 meeting, Board of Trustees

Emeritus Titles

HAL R. ARKES, Department of Psychology with the title Professor Emeritus, effective August 1, 2008.

MARILYNN B. BREWER, Department of Psychology with the title Professor Emeritus, effective July 1, 2008.

A.J. CHRISTOFORIDIS, Department of Radiology with the title Professor Emeritus, effective July 1, 2008.

DAVID A. CULVER, Department of Evolution, Ecology and Organismal Biology with the title Professor Emeritus, effective July 1, 2008.

MARK C. ELLIS, School of Music (Mansfield) with the title Professor Emeritus, effective August 1, 2008.

CECIL MAGBAILY FYLE, Department of African American and African Studies with the title Professor Emeritus, effective July 1, 2008.

FREDRICK J. HITZHUSEN, Department of Agricultural, Environmental and Development Economics with the title Professor Emeritus, effective July 1, 2008.

WILLIAM A. JENSEN, Department of Plant Cellular and Molecular Biology with the title Professor Emeritus, effective July 1, 2008.

JAMES MORGANSTERN, Department of History of Art with the title Professor Emeritus, effective July 1, 2008.

G. NEIL ROBERTSON, Department of Mathematics with the title Professor Emeritus, effective August 1, 2008.

NANCY A. RYAN-WENGER, College of Nursing with the title Professor Emeritus, effective October 1, 2008.

WILLIAM F. SAAM, Department of Physics with the title Professor Emeritus effective July 1, 2008.

GREGORY M. TRAVALIO, Moritz College of Law with the title Professor Emeritus, effective June 1, 2008.

STEPHEN R. ACKER, School of Communication with the title Associate Professor Emeritus, effective June 1, 2008.

ROBERT J. CASWELL, College of Public Health with the title Associate Professor Emeritus, effective July 1, 2008.

GERARD S. KAKOS, Department of Surgery with the title Clinical Associate Professor Emeritus, effective June 1, 2008.

SCOTT D. KLEON, Ohio State University Extension with the title Associate Professor Emeritus effective July 1, 2008.

MARLENE B. LONGENECKER, Department of English with the title Associate Professor Emeritus, effective July 1, 2008.

ARLINE J. MEYER, Department of History of Art with the title Associate Professor Emeritus, effective July 1, 2008.

June 6, 2008 meeting, Board of Trustees

ISAAC J. MOWOE, Department of African American and African Studies with the title Associate Professor Emeritus, effective July 1, 2008.

JOHN B. ROBERTS, Department of Orthopaedics with the title Associate Professor Emeritus, effective September 1, 2008.

MARGUERITE C. WEIBEL, University Libraries with the title Associate Professor Emeritus, effective July 1, 2008.

SUSAN M. KROLL, University Libraries with the title Assistant Professor Emeritus, effective July 1, 2008.

TERRY L. MOORE, Department of Women's Studies with the title Assistant Professor Emeritus, effective July 1, 2008.

ROGER A. PAGE, Department of Psychology (Lima) with the title Assistant Professor Emeritus, effective September 1, 2008.

RESOLUTIONS IN MEMORIAM

Resolution No. 2008-117

Synopsis: Approval of Resolutions in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey copies to the families of the deceased.

Richard D. Altick

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 7, 2008, of Richard D. Altick, Regents Professor Emeritus in the Department of English.

Professor Altick was born in Lancaster, Pennsylvania, a locale he would later write about in his memoir, *Of a Place and a Time* (1991). He graduated from Franklin and Marshall College in 1936 and received a Ph.D. degree in English from the University of Pennsylvania in 1941. Professor Altick began his academic career in 1941 at Franklin and Marshall College and later moved to The Ohio State University in 1946. Dr. Altick, who was the only faculty member in the Department of English to be honored with the title of Regents Professor, published a number of books of wide interest and of great influence, including *The Scholar Adventurers* (1950), *The Art of Literary Research* (1963), and *A Preface to Critical Reading* (1949 and 1969).

He was an eminent scholar of Victorian studies and helped establish the field as a flourishing one. Among his many other books, to mention only a few, were *The English Common Reader: A Social History of the Mass Reading Public 1800-1900* (1957); *Browning's Roman Murder Story: A Reading of The Ring & The Book* (1968; with James Loucks); *Lives and Letters: A History of Literary Biography in England and America* (1969); *Victorian Studies in Scarlet: Murders and Manners in the Age of Victoria* (1970); *The Shows of London: A Panoramic History of Exhibitions, 1699-1862* (1978); *Victorian People and Ideas: A Companion for the Modern Reader of Victorian Literature* (1980); and *Paintings from Books: Art and Literature in Britain 1760-1900* (1985). He also frequently wrote essay-reviews for the *Times Literary Supplement* and the *London Review of Books*.

Professor Altick was a faculty member at Ohio State until his retirement in 1982. A recipient of The Ohio State University Distinguished Scholar Award, he annually taught a

June 6, 2008 meeting, Board of Trustees

bibliography and research course that set the national standard for such courses. His classes in Victorian Studies were legendary for their attention to detail and social history.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Richard D. Altick its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

M. Jean Daubenmire

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 7, 2008, of M. Jean Daubenmire, Associate Professor Emeritus in the College of Nursing.

Professor Daubenmire held bachelor and master of science degrees in nursing from The Ohio State University. She was an instructor of nursing at Lancaster/Fairfield Hospital before joining the faculty at OSU in 1960. She was a professor of nursing in the College of Nursing, formerly known as the School of Nursing, from 1965 until her retirement as an associate professor emeritus in 1988.

Professor Daubenmire's teaching and scholarship focused on communication behaviors in nursing practice. She was a highly-regarded clinician and an outstanding role model for her students. She had numerous publications focusing on nursing practice models and communication interactions. She gave various presentations on holistic health, communications, and nursing practice.

During her tenure at Ohio State, Professor Daubenmire was an active member of the University community and served on numerous department, school, and University committees.

Professor Daubenmire was a member of the American Nurses' Association, National League of Nursing, Institute for Non-Verbal Communication Research, Holistic Nurses' Association, and Nurse Healers' Professional Association, and was inducted into Sigma Theta Tau Honorary Nursing Society.

On behalf of the University community, the Board of Trustees expresses to the family of Professor M. Jean Daubenmire its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

Jack M. Fugate

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 2, 2008, of Jack M. Fugate, Assistant Professor Emeritus in the College of Optometry.

Dr. Fugate graduated from Bexley High School and served in the United States Navy during WWII. He was a three-time graduate of The Ohio State University, earning a bachelor's degree in 1951, a master's degree in 1953, and an optometric doctorate degree in 1966. Subsequent to graduation, Dr. Fugate returned to the college to serve as an assistant professor and clinical instructor for 41 years. He also practiced optometry for 52 years in Plain City and Columbus.

Dr. Fugate was an extraordinary humanitarian. In 1995, Dr. Fugate received a Community Service Award from *The Columbus Dispatch* for providing comprehensive

June 6, 2008 meeting, Board of Trustees

eye care for hundreds of homeless and low-income residents of Franklin County, and for arranging donated hospital treatment for those needing specialized care. His work in the College of Optometry was in the area of low vision. This specialization focuses on patients whose vision problems cannot be corrected fully with prescription lenses, medical treatment and/or surgery. Dr. Fugate was a pioneer - he assumed the role of helping patients with low vision long before this was a true specialty area in eye care. In summary, Dr. Fugate was a real hero.

Professor Fugate was a life member of the American Optometric Association, The Ohio State University Alumni Association, and the college's Optometry Alumni and Friends. As a student, he was involved with Epsilon Psi Epsilon, Delta Upsilon, and the American Optometric Student Association.

On behalf of the University community, the Board of Trustees expresses to the family of Dr. Jack M. Fugate its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Chalmer G. Hixson

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 16, 2007, of Chalmer G. Hixson, Professor Emeritus in the School of Physical Activity and Educational Services.

Chalmer Hixson began his career at The Ohio State University in 1943, and served OSU until his retirement in 1971 as Professor Emeritus. He was an officer in the Ohio Council of Higher Education Retirees and a valued member of the faculty at Ohio State. He had a strong belief in the value of athletic participation and considered his greatest achievement to be that of helping keep many students involved in athletics. Professor Hixson had a distinguished career in professional physical education and athletics. He was president of the Central Ohio Football Officials Association in 1960.

After leaving Ohio State, Chalmer served as director of the Division of Health and Physical Education and athletic director at Wayne State University from 1971-81. His contributions to athletics were many as were his efforts at the state and national levels. He established the Michigan Athletic Directors section of MAHPERD; served on the NCAA Council, the NCAA Football Rules Committee, and the NCAA Committee on Sports for the Handicapped; and chaired the NCAA Steering Committee. Professor Hixson is remembered as being an expert on NCAA football rules. He was responsible for the formation of the prestigious WSU Athletic Hall of Fame. He retired from WSU in 1981 and was honored in their Hall of Fame in 1983.

Professor Hixson was the president of The Ohio State University Retirees Association from 1992-93, where he contributed greatly to the establishment of the OSURA Endowment.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Chalmer G. Hixson its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Frank J. Longo

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 9, 2008, of Frank J. Longo, Associate Professor Emeritus in the College of Social Work.

June 6, 2008 meeting, Board of Trustees

Professor Longo grew up in Cleveland, Ohio, the youngest child of Italian immigrants. During his youth he demonstrated a keen appreciation of the arts. When World War II began, he was in his teens and, in 1943 at the age of 18 years, he was called to military service. Professor Longo participated in the Italian campaign as an infantryman. Three years later, holding the rank of staff sergeant, he was discharged from the Army and returned to Cleveland.

He was the only member of his family to go to college and was the first among his peers to complete professional education. His undergraduate work was completed at Kent State University in 1948. He then earned a Master of Arts in Social Administration degree at The Ohio State University. During the 1964-65 academic year he pursued post-master coursework at the University of Pittsburgh.

After receiving his social work degree, Professor Longo worked with disadvantaged youths in institutional settings. In the 1950s, his work with children in group living treatment facilities such as the then Columbus State School and the Summit County Children's Home - where he served as Group Life Director - earned him recognition as an expert in the group treatment process. After joining OSU's Social Work faculty in 1960, Professor Longo taught undergraduate and graduate students based on the knowledge gained in youth leadership and group work settings.

He displayed a passion for his subject matter and taught his material rhythmically waving his arms to emphasize important points. He enjoyed good rapport with his students and was wont to rely on his practice wisdom rather than on rigid textbook formulations. Professor Longo's approach to social work was modeled after the "interactionalist" school of group work which grew out of the pioneering work of Grace Coyle and W.I. Newstetter. He viewed group work as a vital force for the betterment of individuals as well as for the achievement of larger socially desirable goals. This approach to groups, which emphasized dynamic interaction between worker and clients (youths), emphasized more what workers do rather than what they knew.

Professor Longo's 20-year tenure in the College of Social Work corresponded with its growth from a traditional, regional, method-oriented school of social work to a nationally respected multi-faceted social work education complex. Professor Longo played a pivotal role in this growth and transformation through his education philosophy, for he believed that a broad knowledge base would better enable students to come into full possession of their creative and problem-solving powers. His service in the community included membership on boards of agencies such as St. Stephen's Community Center and Gladden Community Center, and he conducted training for child care workers and group leaders at the Ohio Youth Commission. He also served as an instructor in the College's New Careers program and consulted with the local operational center of VISTA.

Professor Longo will be missed by former students and colleagues for his unique and colorful rhetorical style as a teacher and as a passionate faculty member. He will be remembered for his genuine congeniality in relating to graduate students. From his modest background, he brought to his college strongly-felt convictions about human dignity and the dynamics of social change. His emphasis on fundamental social work themes such as the "dignity of the individual" and the "power of the informal" still linger in the minds of his former students. And he is appreciated by his colleagues for his unique capacity to reach students and disadvantaged clients without apologies for his signature artistic flare.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Frank J. Longo its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

June 6, 2008 meeting, Board of Trustees

Rao V. Panganamala

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 7, 2008, of Rao V. Panganamala, Professor Emeritus in the Department of Molecular and Cellular Biochemistry.

Dr. Panganamala graduated from Andhra University (Visakhapatnam, India) in 1954 with a bachelor of science degree in chemistry and from Osmania University (Hyderabad, India) in 1958 with a B.Sc. degree in chemical technology. He entered a doctoral program within what was then known as the Department of Physiological Chemistry at The Ohio State University and received his Ph.D. in 1968.

Dr. Panganamala was trained in lipid chemistry and opened new research programs for the study of lipid metabolism in animal models. He was recognized for studies in the diabetic rabbit on the various roles of vitamin E in platelet aggregation, prostaglandin, and leukotriene metabolism. He was funded by foundations, NIH, and industry. Dr. Panganamala was a dedicated teacher who was always available and always had time for students. He defined his occupation as that of a teacher.

Professor Panganamala served his profession at the highest level. He served as a reviewer of grant applications for the National Institutes of Health and served on numerous committees of the College of Medicine and the University.

On behalf of the University community, the Board of Trustees expresses to the family of Professor Rao V. Panganamala its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to his family as an expression of the Board's heartfelt sympathy.

Helen E. Stevens

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 26, 2008, of Helen E. Stevens, Associate Professor Emeritus in the School of Physical Activity and Educational Services.

Professor Stevens was raised in Ann Arbor, Michigan, and received her B.A. degree in physical education and M.A. degree in education from the University of Michigan. During World War II, she worked in a tank manufacturing plant in Lima, Ohio. Before teaching at The Ohio State University, she spread her love of education throughout the world, teaching in Germany and Japan.

Professor Stevens began her work at Ohio State in 1956 and retired as an associate professor emeritus in 1983. She is not only remembered for her dedication to the students of OSU, but also for the many other ways in which she served.

On behalf of the University community, the Board of Trustees expresses to the family of Helen Stevens its deepest sympathy and sense of understanding of their loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees meeting and that a copy be tendered to her family as an expression of the Board's heartfelt sympathy.

AFFILIATED ENTITIES POLICY

Resolution No. 2008-118

Synopsis: Approval of the Affiliated Entities Policy is proposed.

June 6, 2008 meeting, Board of Trustees

WHEREAS The Ohio State University has a vital interest in and recognizes the value and contributions of each of the entities affiliated with the University; and

WHEREAS in May 1998, the Board of Trustees adopted a process for the creation, approval, monitoring, and governance of entities affiliated with the University; and

WHEREAS under the direction of the Board's Affiliated Entities Committee, the University has provided renewed emphasis with respect to effective governance and oversight of the University's affiliated entities to assist in their work to further the goals and mission of the University; and

WHEREAS there now is a need to promulgate a comprehensive policy regarding the University's affiliates to strengthen and streamline the monitoring and reporting process under the Board's continuing oversight and align the affiliates to ensure that they are working in concert with the University; and

WHEREAS this policy should be guided by the following principles:

1. The creation and activities of affiliates must promote, sponsor, or complement the mission of the University.
2. To promote a more proactive relationship with affiliates, the University's relationship with each affiliate will be memorialized through a memorandum of agreement.
3. Affiliates will be monitored by the Board of Trustees through a regular reporting process.
4. Affiliates shall provide for at least one University representative with full voting rights on its governing board.
5. Affiliates must use sound fiscal and accounting procedures.
6. Affiliates must be managed in a manner consistent with their own enabling documents and the University's purpose, mission, and procedures.
7. Affiliates must adhere to high standards of ethics and conflicts of interest.
8. The University's relationship with an affiliate is not necessarily intended to be perpetual, and relationships with affiliates will be examined at least every five years to determine whether a sunset provision is appropriate.

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees hereby adopts the attached Policy on Affiliated Entities, to supersede the process adopted in May 1998, and directs the Office of Legal Affairs and the Office of Business and Finance, under the direction of the Audit and Compliance Committee, to implement the requirements of the Policy and report to that Committee regarding affiliated entities as the Committee and the Board deem appropriate.

(See Appendix LIV for background information, page 1141)

UNIVERSITY DEVELOPMENT REPORT

Resolution No. 2008-119

Synopsis: The University Development Report for March/April 2008 is presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from alumni, industry, and various individuals in support of research, instructional activities, and service; and

June 6, 2008 meeting, Board of Trustees

WHEREAS such gifts are received through The Ohio State University Development Fund and The Ohio State University Foundation; and

WHEREAS this report includes the establishment of The David A. Rismiller Chair in Finance, The H. C. "Slip" Slider Professorship in Chemical and Biomolecular Engineering, the Frank E. and Virginia H. Bazler Designated Professorship in Business Law, the Virginia Hutchinson Bazler and Frank E. Bazler Designated Professorship in Food Science, and The Honda Designated Professorship in Engineering; and

WHEREAS this report includes the establishment of thirty-two (32) new named endowed funds, the revision of eleven (11) endowed funds, and the closure of two (2) named endowed funds:

NOW THEREFORE

BE IT RESOLVED, That the acceptance of the report from The Ohio State University Development Fund and The Ohio State University Foundation during the months of March and April 2008 be approved.

(See Appendix LV for background information, page 1151)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

	<u>Total Gifts</u>
<u>Establishment of Named Designated Professorships</u>	
Frank E. and Virginia H. Bazler Designated Professorship in Business Law (Established with annual gifts from Frank E. Bazler; used to provide a designated professorship position for five years)	\$40,000.00 Per year for 5 years
Virginia Hutchison Bazler and Frank E. Bazler Designated Professorship in Food Science (Established with gifts from Virginia Hutchison Bazler and Frank E. Bazler; used to provide a designated professorship position for five years)	\$40,000.00 Per year for 5 years
The Honda Designated Professorship in Engineering (Established with a sufficient portion of the annual distribution from an endowed fund - The Honda Fund for Engineering Academic Enrichment in the College of Engineering; used to provide a designated professorship position for four years)	\$40,000.00 Per year for 4 years
<u>Establishment of Named Endowed Funds</u>	
The Douglas A. Rund M.D. Distinguished Emergency Medicine Faculty Endowment Fund (Established with gifts made in honor of Dr. Douglas A. Rund from faculty, colleagues, alumni, and friends of the Department of Emergency Medicine; used to support programs, activities, and awards for recognition of the distinguished faculty in the Department of Emergency Medicine) (grandfathered)	\$43,049.16
Ray Hunter Fund (Established with gifts from family, friends, faculty, students, and the Department of Civil and Environmental Engineering and Geodetic Science in memory of Ray Hunter; used to support the Department of Civil and Environmental Engineering and Geodetic Science) (grandfathered)	\$34,846.33

June 6, 2008 meeting, Board of Trustees

The Dr. M. Eugene Cravens Scholarship Fund \$26,625.56
(Established with gifts from the Direct Agricultural Marketing Association of Ohio, the Ohio Potato Growers Association, and alumni and friends who wish to honor Dr. M. Eugene Cravens; used to provide scholarship support for undergraduate or graduate students enrolled in the Department of Agricultural, Environmental, and Development Economics who are engaged in the study and/or research of fruit and vegetable marketing) (grandfathered)

Jim Lantz Memorial Scholarship Fund for Social Work Students \$26,205.38
(Established with gifts from friends, family, colleagues, and students of Professor Lantz in memory and honor of his excellence in teaching; used to provide scholarship support for undergraduate and graduate students enrolled in the College of Social Work) (grandfathered)

Change in Description of Named Endowed Funds

The Virginia Hutchison Bazler Scholarship Fund
The William R. Davidson Doctoral Fellowship in Marketing
The Chester S. Hutchison Scholarship Fund
Dr. Joe and Esther Ponzani Dental Missionary Scholarship Fund
Snyder Student Memorial Fund
The Virginia I. Zirkle Scholarship Fund

Change in Name and Description of Named Endowed Funds

From: The OSU Marion Honors Fund
To: Babich Honors Fund

From: Stephen Strasser, Ph.D. Award in Cardiovascular Research Fund
To: Charles A. Bush M.D. Award in Cardiovascular Research Fund

From: Long Term Component Endowment Fund
To: Long-Term Operating Fund

From: President's Strategic Investment Endowment Fund
To: President's Strategic Investment Fund II

Closure of Named Endowed Fund

The Martha Miller Lotman Scholarship Fund

Establishment of Named Endowed Chair

The David A. Rismiller Chair in Finance \$1,547,074.28
(Established with gifts from David A. Rismiller; used to support a chair in finance at the Fisher College of Business for a faculty member whose expertise is in banking or a related financial service industry other than insurance) (grandfathered)

Establishment of Endowed Professorship

The H. C. "Slip" Slider Professorship in Chemical and Biomolecular Engineering \$1,000,000.00
(Established with a gift from William G. and Ernestine R. Lowrie; used to provide support for an untenured, highly promising faculty member in the Department of Chemical and Biomolecular Engineering)

Establishment of Named Endowed Funds

Chair of Excellence in Cardiovascular Medicine Fund \$1,008,585.95
(Established with gifts from community leaders and other advocates of the heart program; used to provide a chair position in the Division of Cardiovascular Medicine)

June 6, 2008 meeting, Board of Trustees

Cartoon Research Library Operating Endowment Fund (Established with gifts from an anonymous donor; used to support operations of the Cartoon Research Library)	\$1,000,000.00
The Steven Selmants M.D. and Jodean R. Selmants Scholarship Fund in Medicine (Established with gifts from the estate of Jodean R. Selmants, wife of the late Dr. Steven Selmants; used to provide scholarships to deserving medical students in the College of Medicine)	\$450,630.45
The John H. Inskeep and Dorothy J. Inskeep Cancer Research Endowment Fund (Established with gifts from the Dorothy J. Inskeep Trust; used for cancer research)	\$170,000.00
The Langdale Athletic Scholarship Fund (Established with gifts from Richard S. Langdale through NCT Ventures; used to supplement the scholarship costs of an intercollegiate student-athlete who is a member of a varsity athletic team with preference to those minoring in entrepreneurial studies)	\$133,439.58
The Medical Class of 1959 Scholarship Fund (Established with gifts from alumni of the College of Medicine class of 1959; used to provide scholarships to medical students in the College of Medicine)	\$121,612.90
The Colin Philip and Virginia Rieke Combs Family Scholarship Fund (Established with a gift from Colin Philip and Virginia Rieke Combs; used to provide scholarships to students in the College of Engineering)	\$100,000.00
Jones Day International LL.M. Scholarship Fund (Established with gifts from the Jones Day Foundation; used to provide scholarships to international LL.M. students at the Moritz College of Law who have received law degrees from a law school in China)	\$100,000.00
Patrick J. Tiberi Marching Band Scholarship Fund (Established with gifts from Louis A. Mitchell; used to provide scholarships to students enrolled in the School of Music who are members of the marching band)	\$100,000.00
Dora Colver Dean's Excellence Fund (Established with gifts from the estate of Dora Colver; used to support the research, teaching, and service mission of the College of Nursing)	\$99,917.19
The B. Jane Ellis Endowment Fund for Bile Duct Cancer Research (Established with gifts from the estate of B. Jane Ellis; used for research on bile duct cancer)	\$93,163.52
The Gary and Meri Mann Family Athletic Scholarship Fund (Established with a gift from Gary and Meri Mann; used to supplement the scholarship costs of an intercollegiate student-athlete who is a member of the varsity football team)	\$90,000.00
The Jack Roth Memorial Fund for Lung Cancer Research (Established with gifts in memory of Louis Jack Roth from his wife, Janice Shafran Roth; used for lung cancer research)	\$66,440.00

June 6, 2008 meeting, Board of Trustees

The 2008 Varsity "O" Men's Alumni Association Athletic Scholarship Fund (Established with gifts from the OSU Varsity "O" Men's Alumni Association; used to supplement the scholarship costs of a male intercollegiate scholar-athlete who is a member of a varsity team)	\$60,100.00
The Dr. Paul and Bertha Meyer Scholarship Fund (Established with a gift from Karen P. and Jonathan Meyer; used to supplement the scholarship costs of an intercollegiate student-athlete who is participating in the sport of women's tennis)	\$60,000.00
Armed Services Honorarium Fund in Mechanical Engineering (Established with gifts from George Thomas Morton; used to provide scholarships to students in the second year of the mechanical engineering program at the Columbus campus who are citizens of the United States, residents of Ohio, and present members or honorably discharged members of the Armed Services of the United States or a component that has been federalized when working jointly with such armed forces under combat conditions)	\$55,507.66
The Judy E. Smith Scholarship Fund in Occupational Therapy (Established with gifts from Richard Lloyd Smith, family, and friends in honor and memory of Judy E. Smith; used to support scholarships for graduate students enrolled in the Division of Occupational Therapy in the School of Allied Medical Professions)	\$51,645.00
The Wilbur C. "Web" Hoover Memorial Fund in Prostate Cancer Research (Established with gifts made in memory of Wilbur C. "Web" Hoover from Kathryn Hoover Smith, Ruth E. Hoover, Lisa Hoover Rickenbacker, and Carol Hoover; used for prostate cancer research)	\$50,113.70
The Barton-Williams Medical Student Scholarship Fund (Established with gifts from Mrs. Margaret Barton Williams and Dr. Thomas E. Williams, Jr. to honor Dr. Williams' career at OSU; used to provide scholarships to graduating fourth-year students in the College of Medicine who intend to complete a surgical residency)	\$50,000.00
The Birdie Musick Masson Scholarship Fund (Established with a gift from Birdie Musick Masson; used to provide scholarships for students enrolled in the College of Education and Human Ecology)	\$50,000.00
The T. Thomas Mills Jr. M.D. Family Medical Student Scholarship Fund (Established with gifts from Dr. Turner Thomas Mills; used to provide scholarships to medical students in the College of Medicine) (grandfathered)	\$40,000.00
The David Evans and Maro Sondahl Memorial Fund (Established with gifts from the David Evans and Maro Sondahl Fundraising Committee; used to provide support for housing and travel costs for students enrolled in the OSU in Columbus, Ohio, or the University of Sao Paulo in Piracicba, Brazil, who are studying biological sciences) (grandfathered)	\$39,178.00
The Joan E. Gritzmacher Endowed Fund for Family and Consumer Sciences Education (Established with gifts from Joan E. Gritzmacher; used to support programs in the Family and Consumer Sciences Education program for teacher preparation and licensure to teach grades 7-12 in Ohio schools) (grandfathered)	\$34,743.50

June 6, 2008 meeting, Board of Trustees

Professor Keith W. Bedford Endowed Scholarship Fund (Established with gifts from friends, family, colleagues, and alumni; used to provide support for a travel scholarship for a graduate student in the Department of Civil and Environmental Engineering and Geodetic Science) (grandfathered)	\$28,495.00
The Douglas J. Abbott Master of Accounting Discretionary Fund (Established with a gift from Douglas J. Abbott; used to provide student scholarships, program support, and support for other priorities for the Master of Accounting program) (grandfathered)	\$27,200.00
The Cindy Rarey Dyas Memorial Endowment Fund for Breast Cancer Research (Established with gifts from her husband Mike Dyas, Daughters Gretchen, Kelly, and Alyssa, and her parents John and Ann Rarey; used to support breast cancer research) (grandfathered)	\$26,910.08
The John J. Schiff Sr. Undergraduate Scholarship Fund (Established with gifts from Julia Schiff in memory of her grandfather; used to provide scholarship support to undergraduate students in the Fisher College of Business with preference for but not limited to female students) (grandfathered)	\$25,000.00
The M. Rosita Schiller Scholarship Fund in Medical Dietetics (Established with gifts from alumni, family, and friends in honor of Dr. M. Rosita Schiller; used for scholarships for undergraduate or graduate students enrolled in the Division of Medical Dietetics in the School of Allied Medical Professions) (grandfathered)	<u>\$15,895.18</u>
<u>Change in Description of Named Endowed Fund</u> The Clarence J. and Annabel W. Strauch Endowment Fund	
<u>Closure of Named Endowed Fund</u> The David A. Rismiller Chair in Finance Support Fund	
Total	\$6,946,378.42

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Designated Professorships

Frank E. and Virginia H. Bazler Designated Professorship in Business Law

The Frank E. and Virginia H. (B.S.H.E. 1954) Bazler Designated Professorship in Business Law was established June 6, 2008, by the Board of Trustees of The Ohio State University with annual gifts from Frank E. Bazler (B.S.Bus.Adm. 1951, J.D. 1953).

Appointment to the professorship for each five-year term will be recommended by the dean of The Michael E. Moritz College of Law to the executive vice president and provost and the Board of Trustees for their approval. The fund is renewable pending additional funding at the end of the five-year commitment. The professorship holder may be reappointed to another term following favorable assessment of the holder's academic and research performance and accomplishments during an appointment.

Amount Funding Professorship: \$40,000.00 per year for 5 years
Total Commitment: \$200,000.00

June 6, 2008 meeting, Board of Trustees

**Virginia Hutchison Bazler and Frank E. Bazler Designated Professorship
in Food Science**

The Virginia Hutchison Bazler and Frank E. Bazler Designated Professorship in Food Science was established June 6, 2008, by the Board of Trustees of The Ohio State University with annual gifts from Virginia Hutchison Bazler (B.S.H.E. 1954) and Frank E. Bazler (B.S.Bus.Adm. 1951, J.D. 1953).

Appointment to the professorship for each five-year term will be recommended by the chairperson of the Department of Food Science and Technology to the vice president for agricultural administration and executive dean for Food, Agricultural, and Environmental Sciences who will make a recommendation to the executive vice president and provost and the Board of Trustees for their approval. The fund is renewable pending additional funding at the end of the five-year commitment. The professorship holder may be reappointed to another term following favorable assessment of the holder's academic and research performance and accomplishments during an appointment.

Amount Funding Professorship: \$40,000.00 per year for 5 years
Total Commitment: \$200,000.00

The Honda Designated Professorship in Engineering

The Honda Designated Professorship in Engineering was established June 6, 2008, by the Board of Trustees of The Ohio State University with a sufficient portion of the annual distribution from The Honda Fund for Engineering Academic Enrichment in the College of Engineering, which was established with a gift from the Transportation Research Center, Inc. of East Liberty, Ohio.

This designation recognizes and further strengthens the long-standing partnership between Honda and The Ohio State University's College of Engineering.

The holder of the professorship will direct the College of Engineering's Engineering Education Innovation Center, using the professorship's portion of the endowed fund's annual distribution to support the Engineering Education Innovation Center's activities which enrich students' engineering education and prepare them more effectively for careers in engineering.

Appointment for each four-year term will be recommended by the dean of the College of Engineering to the executive vice president and provost and the Board of Trustees for their approval. The professorship holder may be reappointed to another term following favorable assessment of the holder's academic and research performance, and accomplishments, during an appointment.

Amount Funding Professorship: \$40,000.00 per year for 4 years
Total Commitment: \$160,000.00

Establishment of Named Endowed Funds

**The Douglas A. Rund M.D. Distinguished Emergency
Medicine Faculty Endowment Fund**

The Douglas A. Rund M.D. Distinguished Emergency Medicine Faculty Endowment Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University with gifts made in honor of Dr. Douglas A. Rund from faculty, colleagues, alumni, and friends of the Department of Emergency Medicine.

The annual distribution from this fund shall be used to support programs, activities, and awards for recognition of distinguished faculty in the Department of Emergency Medicine. Allocation of funds shall be recommended by the chairperson of the Department of

June 6, 2008 meeting, Board of Trustees

Emergency Medicine and approved by the dean of the College of Medicine in consultation with the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donors and from the chairperson of the Department of Emergency Medicine in consultation with the Emergency Medicine Executive Committee, the senior vice president for Health Sciences, and the dean of the College of Medicine.

Amount Establishing Fund: \$43,049.16 (grandfathered)

Ray Hunter Fund

The Ray Hunter Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University with gifts from family, friends, faculty, students, and the Department of Civil and Environmental Engineering and Geodetic Science to recognize Ray Hunter's dedication, support, and involvement with student team projects through his promotion of student activities in civil engineering.

The annual distribution from this fund is intended to equally support two purposes in the College of Engineering, Department of Civil and Environmental Engineering and Geodetic Science. One half of the annual distribution shall provide a scholarship to the student who has most successfully promoted the use of practically-oriented skills with their involvement in student team competitions in the field of civil engineering. The scholarship recipient shall be selected by a committee, including the chairperson of the Department of Civil and Environmental Engineering and Geodetic Science in consultation with the Office of Student Financial Aid. The remainder of the annual distribution shall be used to purchase equipment and supplies for student activities, including student teams for regional and national competitions. Expenditures shall be approved by the chairperson of the Department of Civil and Environmental Engineering and Geodetic Science.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donors, should one be available, and from the dean of the College of Engineering in consultation with the chairperson of the Department Civil and Environmental Engineering and Geodetic Science.

Amount Establishing Fund: \$34,846.33 (grandfathered)

June 6, 2008 meeting, Board of Trustees

The Dr. M. Eugene Cravens Scholarship Fund

The Dr. M. Eugene Cravens Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University with gifts from the Direct Agricultural Marketing Association of Ohio, the Ohio Potato Growers Association, and alumni and friends who wish to honor Dr. M. Eugene Cravens, agricultural economist.

The annual distribution from this fund shall provide scholarship support for undergraduate or graduate students enrolled in the Department of Agricultural, Environmental, and Development Economics who are engaged in the study and/or research of fruit and vegetable marketing. Recipients shall be selected by the vice president for agricultural administration and executive dean for Food, Agricultural, and Environmental Sciences in consultation with the chairperson of the Department of Agricultural, Environmental, and Development Economics and the Office of Student Financial Aid. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the vice president for agricultural administration and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the groups of donors, should one be available, and from the vice president for agricultural administration and executive dean for Food, Agricultural, and Environmental Sciences.

Amount Establishing Fund: \$26,625.56 (grandfathered)

Jim Lantz Memorial Scholarship Fund for Social Work Students

The Jim Lantz Memorial Scholarship Fund for Social Work Students was established June 6, 2008, by the Board of Trustees of The Ohio State University with gifts from friends, family, colleagues, and students of Professor Lantz in memory and honor of his excellence in teaching.

The annual distribution from this fund shall provide scholarship support for undergraduate and graduate students enrolled in the College of Social Work. Scholarship recipients shall be selected by the dean of the College of Social Work in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Social Work.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of

June 6, 2008 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donors, should one be available, and from the dean of the College of Social Work.

Amount Establishing Fund: \$26,205.38 (grandfathered)

Change in Description of Named Endowed Funds

The Virginia Hutchison Bazler Scholarship Fund

The Virginia Hutchison Bazler Scholarship Fund was established March 4, 1983, by the Board of Trustees of The Ohio State University with gifts from Virginia H. Bazler (B.S.H.E. 1954) and Frank E. Bazler (B.S.Bus.Adm.1951, J.D. 1953). The description was revised April 3, 2008. A correction was made June 6, 2008.

The annual distribution from this fund shall be used for one or more scholarships for second- or third-year students enrolled in the College of Education and Human Ecology majoring in hospitality management or consumer sciences who demonstrate academic ability and financial need. Upon the recommendation of the dean of the College and the chairpersons of the applicable departments, the College's Scholarship Committee shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid.

Should the above purpose cease to exist, the annual distribution shall be used at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the appropriate college dean.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the total University endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, should they be alive, and from the appropriate college dean.

The William R. Davidson Doctoral Fellowship in Marketing

The William R. Davidson Doctoral Fellowship in Marketing was established June 4, 1993, by the Board of Trustees of The Ohio State University with gifts from the family, colleagues, and friends of William R. Davidson (Ph.D. Business Organization, 1951). The description was revised June 6, 2008.

June 6, 2008 meeting, Board of Trustees

The annual distribution from this fund shall be used to award a fellowship to an outstanding Ph.D. student(s) majoring in marketing. The fellowship will support the student's work on the applications and advancement of principles of marketing. Selection of the fellowship recipient(s) shall be made by the chairperson of the Department of Marketing and Logistics in The Max M. Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from a representative of the donors, should one be available, and from the dean of the Fisher College of Business.

The Chester S. Hutchison Scholarship Fund

The Chester S. Hutchison Scholarship Fund was established December 15, 1976, by the Board of Trustees of The Ohio State University with gifts from Virginia Hutchison Bazler (B.S.H.E.1954) and Frank E. Bazler (B.S.Bus.Adm. 1951, J.D. 1953) in honor of Mrs. Bazler's father, Chester S. Hutchison (B.S.Agr.1924, M.A.1930). The description was revised April 4, 2008. A correction was made June 6, 2008.

The annual distribution from this fund shall be used to provide one or more scholarships for second- or third-year students enrolled in the College of Food, Agricultural, and Environmental Sciences majoring in agricultural and extension education who demonstrate academic ability and financial need. Preference shall be given to students from Miami and Pickaway counties of Ohio. Upon the recommendation of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences and the chairpersons of the applicable departments, the College's Scholarship Committee shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid.

Should the above purpose cease to exist, the annual distribution shall be used at the discretion of the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the total University endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, should they be alive, and from the vice president for Agricultural Administration and executive dean for Food, Agricultural, and Environmental Sciences.

June 6, 2008 meeting, Board of Trustees

Dr. Joe and Esther Ponzani Dental Missionary Scholarship Fund

The Dr. Joe and Esther Ponzani Dental Missionary Scholarship Fund was established July 7, 2006, by the Board of Trustees of The Ohio State University with gifts from Esther Ponzani, friends, and family to celebrate the life of Joe Ponzani (B.S. 1952, D.D.S. 1956). The description was revised February 1, 2008, and was revised again June 6, 2008.

The annual distribution from this fund shall be used to provide one or more annual scholarships for enrolled dental student(s) or post-doctoral student(s) who have served in the past 12 months as dental missionaries, or who will be serving on a short-term dental mission trip, or are considering dental missions long-term. Scholarship recipients will be selected by the dean of the College of Dentistry in consultation with the Office of Student Financial Aid. As part of the application process, prospective recipients will provide a letter from the sending mission agency as proof of their participation.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the College of Dentistry. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Snyder Student Memorial Fund

The Snyder Student Memorial Fund was established March 3, 1972, by the Board of Trustees of The Ohio State University with a bequest from Dr. D. P. Snyder (D.D.S. 1913) of Columbus, Ohio, former chief of surgery in the College of Dentistry. The bequest was made in memory of Mae B. Snyder, Sadie Snyder, and Dr. D. P. Snyder. The description was revised June 6, 2008.

The annual distribution from this fund is intended to provide support for three separate purposes in the College of Dentistry in the following order of preference: one \$2,000 graduate student fellowship loan in oral surgery, two \$4,000 undergraduate student fellowship loans, and all additional distribution to advance the science of oral surgery. This fund shall be administered in accordance with Dr. Snyder's bequest by a committee established by the College of Dentistry to include the following parties or their successors: dean of the College of Dentistry, members of the Executive Committee of the College, and the chief executive officer of The Ohio State University Development Fund.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the committee referenced above.

June 6, 2008 meeting, Board of Trustees

The Virginia I. Zirkle Scholarship Fund

The Virginia I. Zirkle Scholarship Fund was established October 6, 1989, by the Board of Trustees of The Ohio State University with gifts from Virginia I. Zirkle (B.S.H.E. 1945) of Ottawa, Ohio. The description was revised on June 6, 2008.

The annual distribution from this fund shall provide a scholarship(s) to a student(s) ranked as a junior(s) or senior(s) enrolled in the College of Education and Human Ecology focusing on human ecology. Students attending the Lima campus shall be given first consideration; students attending the Columbus campus shall be given second consideration. Qualified candidates must have a 2.5 or higher grade point average and demonstrate outstanding potential for career success and strong leadership qualities. First preference shall be given to students from

Putnam County, Ohio. If there are no candidates from Putnam County, second preference shall be given to students from the following Ohio counties, in the following order: Van Wert, Allen, Hancock, Henry, Defiance, and Paulding. If there are no candidates from any of the previously mentioned counties, third preference shall be given to students from any county in the state of Ohio. Scholarship recipient(s) shall be selected by the College of Education and Human Ecology Scholarship Committee in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor, should she be alive, and from dean of the College of Education and Human Ecology.

Change in Name and Description of Named Endowed Funds

Babich Honors Fund

The OSU Marion Honors Fund was established February 7, 1986, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Ted B. Babich, (B.A. Social and Behavioral Sciences 1971) and Beth E. Babich, (B.A. Arts and Sciences 1969); in honor of their parents, Robert (B.Ch.E. 1947) and Marilyn B. (B.S.Ed. 1945) Babich. The name and description were revised June 6, 2008.

Twenty percent (20%) of the annual distribution should be added to the principal of the fund. The remaining eighty percent (80%) of the annual distribution shall be used to support activities and services at the OSU Marion campus directed toward the honors program and such activities that cultivate and nurture scholarly achievement as recommended by the appropriate Marion campus faculty committees with the concurrence of the dean and director of the Marion campus.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

June 6, 2008 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donors, should they be alive, and from the dean and director of the Marion campus.

Charles A. Bush M.D. Award in Cardiovascular Research Fund

The Stephen Strasser, Ph.D. Award in Cardiovascular Research Fund was established September 22, 2006, by the Board of Trustees of The Ohio State University in honor of faculty member Charles A. Bush, M.D. (internship/residency training and fellowship, 1965-67 and 1969-70; instructor then associate professor, 1970-83; professor, 1983-present; in Division of Cardiovascular Medicine; medical director of The Richard M. Ross Heart Hospital). This endowment was established with support from Stephen Strasser, Ph.D. (retired associate professor of Health Services Management and Policy) of Dublin, Ohio. The name and description were revised June 6, 2008.

The annual distribution from this fund shall be used to provide annual research awards in the Division of Cardiovascular Medicine to fellows who have either distinguished themselves in the field of cardiology or who have demonstrated such capability. Selection shall be based on merit and made at the recommendation of the director of the Division of Cardiovascular Medicine in consultation with the chairperson of the Department of Internal Medicine and with the dean of the College of Medicine and the senior vice president for Health Sciences.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Board shall seek advice from the donor, should he be alive, and from the director of the Division of Cardiovascular Medicine in consultation with the dean of the College of Medicine and the senior vice president for Health Sciences.

Long-Term Operating Fund

The Long Term Component Endowment Fund was established September 22, 2004, by the Board of Trustees of The Ohio State University with a transfer from University operating funds. The name and description were revised June 6, 2008.

In order to increase the support available to the University from the Long-Term Investment Pool, the annual distribution and realized or unrealized appreciation, and principal if necessary, shall be used to first fund the University's investment income account. This amount would be the equivalent of the income earned if this fund had remained invested as part of the Short-Term Pool. A reserve of 5% of the fiscal year-end value of this fund will be maintained in the Short-Term Pool to facilitate this payment if income is inadequate. Any excess distribution and realized or unrealized appreciation

June 6, 2008 meeting, Board of Trustees

above this amount will be reallocated annually to the President's Strategic Investment Fund II. Any shortfall in distribution or market value shall be covered from the President's Strategic Investment Fund II so that the market value of the fund shall be equal to the original contributions to the fund at each fiscal year end.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the University that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees in consultation with the senior vice president for Business and Finance and the treasurer.

President's Strategic Investment Fund II

The President's Strategic Investment Endowment Fund was established September 22, 2004, by the Board of Trustees of The Ohio State University with distribution and realized/unrealized appreciation from the Long Term Component Endowment Fund. The description was revised April 4, 2008. The name and description were further revised June 6, 2008.

The annual distribution, and principal if necessary, shall be used by the president to fund strategic investments at the president's discretion. No more than 25% of the fiscal year end value of the fund can be disbursed in any one year for this purpose. This fund may also be used to make up any annual distribution or market value shortfall in the Long-Term Operating Fund.

In any year that the distribution is not fully used for its intended purpose, the unused portion shall be reinvested in the fund's principal. The Senior Vice President for Business and Finance shall report annually to the Board of Trustees on the revenue and expenditures of this fund.

Seventy-five percent of the fund should be invested in the Long-Term Investment Pool and twenty-five percent in the Short-Term Pool.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the University that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees.

Closure of Named Endowed Fund

The Martha Miller Lotman Scholarship Fund

The Martha Miller Lotman Memorial Scholarship Fund was established February 3, 1989, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from family members, in honor of Martha Miller Lotman, formerly of Marion, Ohio. The name and description were changed April 7, 1989. The fund was closed June 6, 2008.

June 6, 2008 meeting, Board of Trustees

Establishment of Named Endowed Chair

The David A. Rismiller Chair in Finance

The David A. Rismiller Faculty Fellowship Fund was established October 3, 1997, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts designated for support of The Max M. Fisher College of Business from contributions from David A. Rismiller (B.S.Bus.Adm. 1958). The required funding level for a professorship was reached, and the position was established September 5, 2003, as the David A. Rismiller Professorship in Management (#646125). The name and description were revised December 3, 2004, to the David A. Rismiller Professorship in Finance. The required funding level for a chair was reached through gifts to The David A. Rismiller Chair in Finance Support Fund (#666066), which was established on February 1, 2006. The name and description of the original fund (#646125) were further revised June 6, 2008, to The David A. Rismiller Chair in Finance.

The annual distribution from fund #646125 shall be used to support a chair in finance at The Max M. Fisher College of Business. The faculty member's expertise shall be in banking or a related financial service industry other than insurance. Appointment to The David A. Rismiller Chair in Finance of the recruited or retained candidate will be recommended by the dean of the Fisher College of Business to the executive vice president and provost and approved by the Board of Trustees.

The term of the appointment shall not exceed five years and there shall be no reappointment. The donor's intent is that the chair be used to attract or retain faculty members to the Fisher College of Business early in their professional academic careers. While the donor understands the importance of tenure and research, priority in selecting the holder of The David A. Rismiller Chair in Finance will be given to a faculty member who places a strong emphasis on teaching and teaches a minimum of three courses each year. Preference shall be given to candidates with a relatively short tenure (length of appointment) whether from the Fisher College of Business or from another business school. However, consideration might be given to a candidate who is an outstanding professor and deemed exceptional by the dean and faculty.

If the chair is not held during any month(s) or year(s), a proportionate level of distribution will be added to the principal balance of the fund each year. If, for any reason (market decline, all disbursements, all fees, charges, etc.), at the end of a term the market value of the principal balance should be less than the market value of the principal balance on the date of the last appointment of The David A. Rismiller Chair in Finance, then no new appointment shall be made and the annual distribution shall be reinvested to principal until the principal balance reaches at least that amount.

Annually, the Rismiller family (including David Jr. and Cynthia and any future generation representatives) will be provided with a report on the expenses incurred on the fund. When the holder of The David A. Rismiller Chair in Finance is determined, the Rismiller family will be notified and a copy of the candidate's curriculum vitae will be provided to the family. The family will be invited to campus annually to meet with the holder of the chair. He or she will provide an annual report regarding his or her activities in teaching, research, and service, with copy to David Sr., David Jr., and Cynthia. In the event Cynthia and/or David Jr. are unable to or choose not to serve in this capacity, then these responsibilities shall be passed to issue of Cynthia and/or David Jr. Representation shall be by two family members selected by Cynthia and David Jr. or selected by their children.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

June 6, 2008 meeting, Board of Trustees

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees as recommended by the dean of the Fisher College of Business, in consultation with the donor or his immediate family. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Chair: \$1,547,074.28 (grandfathered)

Establishment of Named Endowed Professorship

**The H. C. "Slip" Slider Professorship
in Chemical and Biomolecular Engineering**

The H. C. "Slip" Slider Professorship in Chemical and Biomolecular Engineering was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from William G. (B.C.E. 1966) and Ernestine R. Lowrie of Sheldon, South Carolina, in appreciation of Professor Slider's teaching and mentoring of chemical engineering and petroleum engineering students. His influence on the careers of many undergraduate students, including Mr. Lowrie's, was significant.

The annual distribution from this fund shall be used to provide salary and/or program support for an untenured, highly promising faculty member in the Department of Chemical and Biomolecular Engineering. Each new appointee will hold this distinction for the lesser either of five academic years or until a tenure decision is reached for the holder.

Professorship selection will be based upon accomplishment and potential for excellence, innovation, and impact in teaching and research. The dean of the College of Engineering, in consultation with the chairperson of the Department of Chemical and Biomolecular Engineering, will recommend the candidate for the professorship to the executive vice president and provost. Appointment shall be approved by the Board of Trustees.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Engineering.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Engineering.

Amount Establishing Professorship: \$1,000,000.00

June 6, 2008 meeting, Board of Trustees

Establishment of Named Endowed Funds

Chair of Excellence in Cardiovascular Medicine Fund

The Chair of Excellence in Cardiovascular Medicine Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from community leaders and other advocates of the heart program at The Ohio State University Medical Center.

Until the principal balance reaches \$1,500,000, the annual distribution shall be reinvested into the fund's principal. After the principal reaches \$1,500,000, the annual distribution from this fund shall be used for a chair position supporting a nationally or internationally recognized physician faculty member in the Division of Cardiovascular Medicine to foster innovation and excellence in the field. The chair holder shall be appointed by the Board of Trustees of The Ohio State University as approved by the senior vice president for Health Sciences and by the dean of the College of Medicine in consultation with the director of the Division of Cardiovascular Medicine (unless the director of the Division is a candidate, in which case consultation should instead be with the director of the OSU Heart Center). The activities of the chair holder shall be reviewed no less than every four years by the dean to determine compliance with the intent of the donors as well as the academic and research standards of the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. If in the future the field of cardiovascular medicine ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Fund:	\$1,008,585.95
Total Commitment:	\$1,500,000.00

Cartoon Research Library Operating Endowment Fund

The Cartoon Research Library Operating Endowment Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from an anonymous donor.

The annual distribution from this fund shall be used to support operations of the Cartoon Research Library. The annual distribution shall be used at the discretion of the curator of the Cartoon Research Library as approved by the director of University Libraries. The annual distribution is a supplementary benefit not intended to replace the library's support from the University.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment.

June 6, 2008 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the Cartoon Research Library at the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of University Libraries.

Amount Establishing Fund: \$1,000,000.00

The Steven Selmants M.D. and Jodean R. Selmants Scholarship Fund in Medicine

The Steven Selmants M.D. and Jodean R. Selmants Scholarship Fund in Medicine was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from the estate of Jodean R. Selmants, wife of the late Dr. Steven Selmants (M.D. 1952), of Emerson, Georgia.

The annual distribution from this fund shall be used for one or more scholarships to provide financial aid to deserving medical students in the College of Medicine. The selection shall be made at the recommendation of the College of Medicine Scholarship Committee, including the associate dean of Student Affairs and the vice dean for Education, in consultation with the University's Office of Student Financial Aid; and as approved by the dean of the College of Medicine.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean or vice dean for Education.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek the recommendation of the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Fund: \$450,630.45

The John H. Inskeep and Dorothy J. Inskeep Cancer Research Endowment Fund

The John H. Inskeep and Dorothy J. Inskeep Cancer Research Endowment Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts in the names of John H. (B.C.E. 1943) and Dorothy J. Inskeep from the Dorothy J. Inskeep Trust.

June 6, 2008 meeting, Board of Trustees

The annual distribution from this fund shall be used for cancer research at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (The James). Allocation of funds shall be approved by the chief executive officer of The James and director of the Comprehensive Cancer Center (CCC) in consultation with the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the chief executive officer of The James and director of the CCC.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek the recommendation of the chief executive officer of The James and director of the CCC in consultation with the senior vice president for Health Sciences.

Amount Establishing Fund: \$170,000.00

The Langdale Athletic Scholarship Fund

The Langdale Athletic Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Richard S. Langdale through NCT Ventures of Westerville, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of a varsity athletic team with preference to those minoring in entrepreneurial studies. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the director of Athletics.

Amount Establishing Fund: \$133,439.58

June 6, 2008 meeting, Board of Trustees

The Medical Class of 1959 Scholarship Fund

The Medical Class of 1959 Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from alumni of the College of Medicine class of 1959.

The annual distribution from this fund shall be used to provide one or more scholarships to medical students in the College of Medicine based on academic merit and/or financial need. The selection shall be made at the recommendation of the College of Medicine Scholarship Committee, including the associate dean for Student Affairs and the vice dean for Education; and the University's Office of Student Financial Aid; and as approved by the dean of the College of Medicine.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean or vice dean for Education.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, should one be available and from the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Fund: \$121,612.90

The Colin Philip and Virginia Rieke Combs Family Scholarship Fund

The Colin Philip and Virginia Rieke Combs Family Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Colin Philip (B.S. 1971) and Virginia Rieke (B.S. 1975) Combs.

The annual distribution from this fund shall provide merit-based scholarships to academically superior entering freshman students in the College of Engineering with emphasis on those pursuing a bachelor's degree in aeronautical engineering. Preference shall be given to residents of the state of Ohio who do not qualify for need-based aid, but are deserving of financial assistance. Scholarship recipients will be selected by the dean of the College of Engineering in consultation with the chairperson of the Department of Aerospace Engineering and the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

June 6, 2008 meeting, Board of Trustees

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Engineering.

Amount Establishing Fund: \$100,000.00

Jones Day International LL.M. Scholarship Fund

The Jones Day International LL.M. Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the Jones Day Foundation.

The annual distribution from this fund shall provide one full out-of-state tuition scholarship to an international LL.M. student at The Michael E. Moritz College of Law who has received his/her law degree (J.D. or equivalent) from a law school in China. If the LL.M. program should cease to exist at the College, distributions from the fund shall be used to provide a full out-of-state scholarship to a law student who has resided in China for ten (10) years or more. The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

It is the desire of the donor that this endowment fund is to be created as an endowment but with an invadable principal, though the principal could be invaded only to bring the scholarship award up to the amount of one full in-state tuition each year. Should the principal of the endowment fall below the minimum required by the Board of Trustees, the endowment will be dissolved and the balance of the fund will revert to current use funds.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Moritz College of Law. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Fund: \$100,000.00

Total Commitment: \$250,000.00

Patrick J. Tiberi Marching Band Scholarship Fund

The Patrick J. Tiberi Marching Band Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Louis A. Mitchell.

The annual distribution from this fund shall provide a scholarship(s) to a student enrolled in the School of Music who is a member of the marching band and demonstrates financial need. Recipients shall be selected by the director of the School of Music in consultation with the Office of Student Financial Aid.

June 6, 2008 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the College of the Arts in consultation with the director of the School of Music.

Amount Establishing Fund:	\$100,000.00
Total Commitment:	\$500,000.00

Dora Colver Dean's Excellence Fund

The Dora Colver Dean's Excellence Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with estate gifts designated to the College of Nursing from Dora Colver, assistant professor emeritus.

The annual distribution from this fund shall help support the research, teaching, and service mission of the College of Nursing located in Newton Hall at the discretion of the dean.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Nursing.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Nursing.

Amount Establishing Fund: \$99,917.19

The B. Jane Ellis Endowment Fund for Bile Duct Cancer Research

The B. Jane Ellis Endowment Fund for Bile Duct Cancer Research was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from the estate of B. Jane Ellis of Columbus, Ohio.

The annual distribution from this fund shall be used for research for bile duct cancer, a rare cancer. Allocation of funds shall be approved by the director of the Division of Gastroenterology, Hepatology, and Nutrition in consultation with the chairperson of the

June 6, 2008 meeting, Board of Trustees

Department of Internal Medicine, the dean of the College of Medicine, and the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Division of Gastroenterology, Hepatology, and Nutrition.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the director of the Division of Gastroenterology, Hepatology, and Nutrition in consultation with the chairperson of the Department of Internal Medicine, the dean of the College of Medicine, and the senior vice president for Health Sciences.

Amount Establishing Fund: \$93,163.52

The Gary and Meri Mann Family Athletic Scholarship Fund

The Gary and Meri Mann Athletic Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Gary and Meri Mann of Dublin, Ohio.

The annual income shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is a member of the varsity football team. First preference will be given to a resident of the state of Ohio. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by The Board of Trustees as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscious and need dictate.

Amount Establishing Fund: \$90,000.00
Total Commitment: \$150,000.00

The Jack Roth Memorial Fund for Lung Cancer Research

The Jack Roth Memorial Fund for Lung Cancer Research was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines

June 6, 2008 meeting, Board of Trustees

approved by the Board of Directors of The Ohio State University Foundation with gifts made in memory of Louis Jack Roth by his wife, Janice Shafran Roth (B.S. 1972) of Columbus, Ohio.

The annual distribution from this fund shall be used for lung cancer research at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (The James). Funds may be used for personnel, supplies, equipment, publications, conferences and other activities required for quality medical research. Allocation of funds shall be approved by the director of the Comprehensive Cancer Center (CCC) and chief executive officer of The James in consultation with the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Comprehensive Cancer Center (CCC) and chief executive officer of The James.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and from the director of the CCC and chief executive officer of The James in consultation with the senior vice president for Health Sciences.

Amount Establishing Fund: \$66,440.00

The 2008 Varsity "O" Men's Alumni Association Athletic Scholarship Fund

The 2008 Varsity "O" Men's Alumni Association Athletic Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from The Ohio State University Varsity "O" Men's Alumni Association from Columbus, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of a male intercollegiate scholar-athlete who is a member of a varsity team. Scholarship recipients shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowed funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's cost of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of

June 6, 2008 meeting, Board of Trustees

Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donor, should one be available, and from the director of Athletics.

Amount Establishing Fund: \$60,100.00
Total Commitment: \$150,000.00

The Dr. Paul and Bertha Meyer Scholarship Fund

The Dr. Paul and Bertha Meyer Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Karen and P. Jonathan Meyer of Columbus, Ohio.

The annual distribution from this fund shall be used to supplement the grant-in-aid scholarship costs of an intercollegiate student-athlete who is participating in the sport of women's tennis. The recipient shall be selected by the director of Athletics in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the director of Athletics. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Fund: \$60,000.00
Total Commitment: \$150,000.00

Armed Services Honorarium Fund in Mechanical Engineering

The Armed Services Honorarium Fund in Mechanical Engineering was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from George Thomas Morton (B.C.E. 1951).

The annual distribution from this fund shall provide a renewable scholarship(s) for an undergraduate student in his/her second year of the mechanical engineering program in the College of Engineering at the main campus in Columbus. Candidates shall be citizens of the United States of America, residents of the state of Ohio, and present members or honorably discharged members of the Armed Services of the United States of America or a component that has been federalized when working jointly with such armed forces under combat conditions.

Recipients shall be selected with preference given in the following order: recipients of the Order of the Purple Heart capable of accomplishing the Mechanical Engineering curricula, former Prisoner of War or individual held hostage by a foreign government or an outlaw insurgent group, individuals with disabilities received in a non-combat line of duty above - i.e. malaria. The dean of the College of Engineering and the chairperson of the Department of Mechanical Engineering shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid and the OSU director of Veterans Affairs.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

June 6, 2008 meeting, Board of Trustees

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the College of Engineering.

Amount Establishing Fund: \$55,507.66

The Judy E. Smith Scholarship Fund in Occupational Therapy

The Judy E. Smith Scholarship Fund in Occupational Therapy was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Richard Lloyd Smith, family, and friends in honor and memory of Judy E. Smith (B.S. 1984; M.A. 1993).

The annual distribution of this fund shall be used to support scholarships for graduate students enrolled in the Division of Occupational Therapy in the School of Allied Medical Professions. Selection of the recipients shall be made based on academic merit and financial need. It is the donors' intent that the scholarship may be renewed if the recipients maintain good academic standing during their first year of study. Scholarship recipients will be selected at the recommendation of the director of the Division of Occupational Therapy and as approved by the director of the School of Allied Medical Professions in consultation with the University's Office of Student Financial Aid, the dean of the College of Medicine, and the College's Student Financial Services.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the School of Allied Medical Professions in consultation with the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, should one be available, and from the director of the School of Allied Medical Professions and the dean of the College of Medicine.

Amount Establishing Fund: \$51,645.00

June 6, 2008 meeting, Board of Trustees

The Wilbur C. “Web” Hoover Memorial Fund in Prostate Cancer Research

The Wilbur C. “Web” Hoover Memorial Fund in Prostate Cancer Research was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts made in memory of Wilbur C. “Web” Hoover (B.C.E. 1949) from Kathryn Hoover Smith, Ruth E. Hoover, Lisa Hoover Rickenbacker and Carol Hoover.

The annual distribution from this fund shall be used for prostate cancer research at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (The James). Funds may be used for personnel, supplies, equipment, publications, conferences, and other activities required for quality medical research. Allocation of funds shall be recommended by the program leader for Prostate Genitourinary Oncology, and approved by the director of the Comprehensive Cancer Center (CCC) and chief executive officer of The James in consultation with the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the director of the CCC and chief executive officer of The James in consultation with the senior vice president for Health Sciences.

Amount Establishing Fund: \$50,113.70

The Barton-Williams Medical Student Scholarship Fund

The Barton-Williams Medical Student Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Mrs. Margaret Barton Williams and Dr. Thomas E. Williams, Jr., (M.S. 1963, M.D. 1963, surgical residency training 1964-70) to honor Dr. Williams' career at The Ohio State University - current faculty member in the Department of Surgery, clinical instructor 1968-70, assistant then associate professor 1970-83, and clinical associate professor in Division of Cardiothoracic Surgery 1983-present.

The annual distribution from this fund shall be used to provide one or more merit scholarships to graduating fourth-year students in the College of Medicine who intend to complete a surgical residency. The selection shall be made at the recommendation of the chairperson of the Department of Surgery in consultation with the College of Medicine Scholarship Committee (including the associate dean of Student Affairs and the vice dean for Education), and the University's Office of Student Financial Aid, as approved by the dean of the College of Medicine and the senior vice president for Health Sciences.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

June 6, 2008 meeting, Board of Trustees

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and from the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Fund: \$50,000.00

The Birdie Musick Masson Scholarship Fund

The Birdie Musick Masson Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from Birdie Musick Masson (B.S. 1946).

The annual distribution shall provide one or more scholarships for students who are enrolled in the College of Education and Human Ecology who intend to become teachers with preference given to Ohio residents. Recipients will be selected by the dean of the College of Education and Human Ecology in consultation with the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the College of Education and Human Ecology.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the dean of the College of Education and Human Ecology.

Amount Establishing Fund: \$50,000.00

The T. Thomas Mills Jr. M.D. Family Medical Student Scholarship Fund

The T. Thomas Mills Jr. M.D. Family Medical Student Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from Dr. Turner Thomas Mills (B.S. Biological Sciences 1955, M.D. 1959) of Newark, Ohio.

June 6, 2008 meeting, Board of Trustees

The annual distribution from this fund shall be used to provide one or more scholarships to medical students in the College of Medicine based on academic merit and/or financial need. The selection shall be made by the recommendation of the dean of the College of Medicine in consultation with the senior vice president for Health Sciences and with the College of Medicine Committee for Scholarship Awards and the Office of Student Financial Aid.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the College of Medicine and the senior vice president for Health Sciences.

Amount Establishing Fund: \$40,000.00 (grandfathered)

The David Evans and Maro Sondahl Memorial Fund

The David Evans and Maro Sondahl Memorial Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from the David Evans and Maro Sondahl Fundraising Committee.

The annual distribution from this fund shall provide financial support for housing and travel costs for students enrolled in The Ohio State University in Columbus, Ohio, or the University of Sao Paulo in Piracicba, Brazil, who are studying biological sciences. Recipients shall be selected by the dean of the College of Biological Sciences at The Ohio State University in consultation with the Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the David Evans and Maro Sondahl Fundraising Committee, should one be available, and from the dean of the College of Biological Sciences at The Ohio State University.

June 6, 2008 meeting, Board of Trustees

Amount Establishing Fund: \$39,178.00 (grandfathered)

The Joan E. Gritzmacher Endowed Fund for Family and Consumer Sciences Education

The Joan E. Gritzmacher Endowed Fund for Family and Consumer Sciences Education was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Joan E. Gritzmacher (Professor Emeritus in the College of Education and Human Ecology).

The annual distribution from this fund shall be used to support programs in Family and Consumer Sciences Education for teacher preparation and licensure to teach grades 7-12 in Ohio schools. Expenditures will be approved by the head of the Family and Consumer Sciences Education program in the College of Education and Human Ecology.

If the Family and Consumer Sciences Education program no longer exists, the donor would like the annual distribution to support programs for teacher education. If the teacher education program no longer exists, the donor would like the annual distribution to support research in the Endocrinology, Diabetes, and Metabolism unit in The Ohio State University Hospitals.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the College of Education and Human Ecology in consultation with the head of the Family and Consumer Sciences Education program. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donors as good conscience and need dictate.

Amount Establishing Fund: \$34,743.50 (grandfathered)

Professor Keith W. Bedford Endowed Scholarship Fund

The Professor Keith W. Bedford Endowed Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from friends, family, colleagues, and alumni.

Professor Emeritus Keith W. Bedford was a faculty member at OSU for 33 years. He has over 200 publications and an outstanding national and international reputation in the area of coastal and environmental engineering, specifically for his research in environmental fluid mechanics and transport phenomena. He was an originator of the ASCE co-sponsored Estuarine and Coastal Modeling Conference and, along with his graduate students, has performed award winning research in the areas of turbulence model structure and formulation; created new acoustic instrumentation necessary to remotely and directly measure for the first time sediment entrainment and resuspension in coastal and estuarine water bodies; and created the first coastal forecast system to make operational regular predictions of currents, temperatures, and trace constituents in coastal water bodies. Keith has received national awards, including the ASCE Karl Emil Hilgard Prize, the ASCE Huber Prize, the ASCE State-of-the-Art of Civil Engineering Award, and the American Meteorological Society Special Award. As chairperson of the Department of Civil and Environmental Engineering and Geodetic Science, he brought his integrative skills to restoring the research vitality to the Department.

June 6, 2008 meeting, Board of Trustees

The annual distribution from this fund shall provide support for a travel scholarship for a graduate student in the Department of Civil and Environmental Engineering and Geodetic Science (CEEGS) to attend a science or engineering conference to present a paper in order to benefit their career and enhance their visibility to the professional community. The dean of the College of Engineering, the chairperson of the Department of CEEGS and the College's Scholarship Committee shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors, should one be available, and the dean of the College of Engineering.

Amount Establishing Fund: \$28,495.00 (grandfathered)

The Douglas J. Abbott Master of Accounting Discretionary Fund

The Douglas J. Abbott Master of Accounting Discretionary Fund at The Max. M. Fisher College of Business was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with a gift from Douglas J. Abbott (B.S.Bus.Adm. 1982).

The annual distribution from this fund shall be used to advance the mission and activities of the Department of Accounting and Management Information Systems at the Fisher College of Business, by providing student scholarships, program support, and support for other priorities for the Master of Accounting program as identified by the chairperson of the Department of Accounting and Management Information Systems. Scholarships will be awarded by the Department in consultation with the Office of Student Financial Aid.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If, in the future, the need for this fund should cease to exist or so diminish as to provide unused distributions, then another use shall be designated by the Board of Trustees and Foundation Board as recommended by the dean of the Fisher College of Business. Any such alternate distributions shall be made in a manner as nearly aligned with the original intent of the donor as good conscience and need dictate.

Amount Establishing Fund: \$27,200.00 (grandfathered)

June 6, 2008 meeting, Board of Trustees

The Cindy Rarey Dyas Memorial Endowment Fund for Breast Cancer Research

The Cindy Rarey Dyas (B.S. 1977) Memorial Endowment Fund for Breast Cancer Research was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from her husband, Mike; daughters, Gretchen, Kelly, and Alyssa; and her parents John and Ann Rarey (B.S. 1952).

The annual distribution from this fund shall be used to support breast cancer research at The Arthur G. James Cancer Hospital and Richard J. Solove Research Institute (The James) at The Ohio State University as approved by the chief executive officer of The James and the director of the Comprehensive Cancer Center (CCC) in consultation with the senior vice president for Health Sciences and the dean of the College of Medicine.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate, shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donors, should they be alive, and the chief executive officer of The James, the director of the CCC, the senior vice president for Health Sciences and the dean of the College of Medicine.

Amount Establishing Fund: \$26,910.08 (grandfathered)

The John J. Schiff Sr. Undergraduate Scholarship Fund

The John J. Schiff Sr. (B.S.Bus.Adm. 1938) Undergraduate Scholarship Fund was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from Julia Schiff in memory of her grandfather.

The intent of this fund is to provide scholarships for students who have been accepted for admission to the University and to support educational diversity as outlined in the University's diversity mission. The annual distribution from this fund shall be used for scholarship support to an undergraduate student(s) in The Max M. Fisher College of Business. It is the donor's desire that the scholarships be awarded with particular attention to, but not limited to, female students. The dean of the Fisher College of Business and the College's Undergraduate Program director shall be responsible for selecting scholarship recipients and coordinating these scholarships with the University's Office of Student Financial Aid.

The University may modify any selection criteria should the criteria be found, in whole or in part, to be contrary to federal or state law or University policy.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the dean of the Fisher College of Business.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of

June 6, 2008 meeting, Board of Trustees

Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should she be alive, and from the dean of the Fisher College of Business.

Amount Establishing Fund: \$25,000.00 (grandfathered)

The M. Rosita Schiller Scholarship Fund in Medical Dietetics

The M. Rosita Schiller Scholarship Fund in Medical Dietetics was established June 6, 2008, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation with gifts from alumni, family, and friends in honor of Dr. M. Rosita Schiller (Ph.D. 1972).

The annual distribution of this fund shall be used to support scholarships for undergraduate and graduate students enrolled in the Division of Medical Dietetics of the School of Allied Medical Professions. Selection of the recipients shall be made based on academic merit or financial need as recommended by the director of the Division of Medical Dietetics, and as approved by the director of the School of Allied Medical Professions in consultation with the University's Office of Student Financial Aid, the dean of the College of Medicine, and the College's Student Financial Services.

In any given year that the endowment distribution is not fully used for its intended purpose, the unused portion should be held in the distribution account to be used in subsequent years and only for the purposes of the endowment, or reinvested in the endowment principal at the discretion of the director of the Division of Medical Dietetics.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donors that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from a representative of the donors and from the director of the School of Allied Medical Professions and the dean of the College of Medicine.

Amount Establishing Fund: \$15,895.18 (grandfathered)

Change in Description of Named Endowed Fund

The Clarence J. and Annabel W. Strauch Endowment Fund

The Clarence J. and Annabel W. Strauch Endowment Fund was established April 1, 2005, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with a gift from C. Randolph Strauch (B.C.E. 1967) to honor the memory of his parents, Clarence J. Strauch and Annabel W. Strauch, an educator. The description was revised June 6, 2008.

June 6, 2008 meeting, Board of Trustees

The annual distribution from this fund shall be used to provide one or more merit- and need-based scholarships for full-time undergraduate or graduate students who were residents of Crawford County, Ohio, at the time they graduated from high school. Qualified candidates must be enrolled in the College of Education and Human Ecology at the Columbus campus and majoring in education. Additionally, candidates must demonstrate financial need and have a minimum 3.3 grade point average (GPA). Scholarship recipients will be selected by the dean of the College of Education and Human Ecology in consultation with the Office of Student Financial Aid. Scholarships are renewable up to 15 quarters as long as the recipient continues to demonstrate financial need and maintains a 3.3 cumulative GPA.

In any given year that the endowment distribution is not fully expended, the unused portion should be reinvested in the endowment principal.

The investment and management of and expenditures from all endowment funds shall be in accordance with University policies and procedures as approved by the Board of Trustees. As authorized by the Board of Trustees, a fee may be assessed against the endowment portfolio for the University's costs of development and fund management.

It is the desire of the donor that the endowment established herein should benefit the University in perpetuity. Should unforeseen circumstances arise in the future so that the need for this endowment ceases to exist, then another use as nearly aligned with the original intent of the contribution as good conscience and need dictate shall be designated by the Foundation's Board of Directors and the University's Board of Trustees. In making this alternate designation, the Boards shall seek advice from the donor, should he be alive, and from the dean of the College of Education and Human Ecology.

Closure of Named Endowed Fund

The David A. Rismiller Chair in Finance Support Fund

The David A. Rismiller Chair in Finance Support Fund was established February 1, 2006, by the Board of Trustees of The Ohio State University in accordance with the guidelines approved by the Board of Directors of The Ohio State University Foundation, with gifts from David A. Rismiller (B.S.Bus.Adm. 1958). The fund was closed June 6, 2008.

POLICY ON THE INVESTMENT OF OPERATING FUNDS

Resolution No. 2008-120

Synopsis: Approval to establish policy on investment of cash balances in operating funds.

WHEREAS the proper investment of operating funds is an important component of the University's funding strategy; and

WHEREAS the attached proposal has been thoroughly vetted and reviewed by the University:

NOW THEREFORE

BE IT RESOLVED, That the attached policy be approved; and

BE IT FURTHER RESOLVED, That the Senior Vice President for Business and Finance be authorized to make the fund transfers required to implement this policy.

(See Appendix LVI for background information, page 1153)

**DIVESTMENT OF DIRECTLY-HELD REAL ESTATE
FROM THE LONG-TERM INVESTMENT POOL**

Resolution No. 2008-121

Synopsis: Authorization for the transfer of directly-held real estate from the Long-Term Investment Pool is proposed.

WHEREAS the Board of Trustees of The Ohio State University owns real property held directly as part of the real estate asset class within the Long-Term Investment Pool of the University's endowment; and

WHEREAS the directly-held real estate has not performed well compared with its respective benchmark; and

WHEREAS investment staff and consultants have advised that this directly-held real estate is not an appropriate investment and should be eliminated from the real asset holdings; and

WHEREAS the Long-Term Investment Pool can reinvest proceeds from the transfer of this real estate in professionally managed real estate investments:

NOW THEREFORE

BE IT RESOLVED, That the University Treasurer, in consultation with the Senior Vice President for Business and Finance, is hereby directed to transfer the directly-held real estate in the Long-Term Investment Pool to the appropriate accounts elsewhere within the University; and

BE IT FURTHER RESOLVED, That no new direct real property holdings will be accepted into the Long-Term investment Pool; and

BE IT FURTHER RESOLVED, That the Senior Vice President for Business and Finance and the University Treasurer shall report back to the Board regarding these transfers and present recommended next steps at the next meeting of the Development and Investment Committee.

AMENDMENT OF THE LONG-TERM INVESTMENT POOL POLICY

Resolution No. 2008-122

Synopsis: Amendment of the University's Long-Term Investment Pool Policy is proposed.

WHEREAS the Board of Trustees, from time to time, has adopted specific policies governing various aspects of the management of the investment portfolios; and

WHEREAS there is a need for comprehensive policies to provide for the overall management of the investment portfolios; and

WHEREAS there is need to modify the comprehensive policies on occasion:

NOW THEREFORE

BE IT RESOLVED, That the following Interim Investment Policy be adopted by the Board of Trustees for the Long-Term Investment Pool; and

June 6, 2008 meeting, Board of Trustees

BE IT FURTHER RESOLVED, That the Chief Investment Officer and/or Senior Vice President for Business and Finance be, and hereby are, directed and authorized to implement and administer this policy and to manage the Long-Term Investment Pool in accordance with this policy.

(See Appendix LVII for background information, page 1156)

AMENDMENT OF THE OPERATING AND AGENCY FUNDS INVESTMENT POLICY

Resolution No. 2008-123

Synopsis: Amendment of the University's Operating and Agency Funds Investment Policy is proposed.

WHEREAS the Board of Trustees, from time to time, has adopted specific policies governing various aspects of the management of the investment portfolios; and

WHEREAS there is a need for comprehensive policies to provide for the overall management of the investment portfolios; and

WHEREAS there is need to modify the comprehensive policies on occasion:

NOW THEREFORE

BE IT RESOLVED, That the following Operating and Agency Funds Investment Policy be adopted by the Board of Trustees; and

BE IT FURTHER RESOLVED, That the Treasurer and/or Senior Vice President for Business and Finance be, and hereby are, directed and

authorized to implement and administer this policy and to manage the Operating and Agency Funds in accordance with this policy.

(See Appendix LVIII for background information, page 1164)

FY 2009 TUITION AND USER FEES/CHARGES

Resolution No. 2008-124

Synopsis: Instructional, general, non-resident and other user fees at all Ohio State Campuses for Fiscal Year 2009 are proposed effective Autumn Quarter 2008.

WHEREAS the Board of Trustees of The Ohio State University supports the University's continued implementation of the Academic Plan and its initiatives to meet the needs of Ohio State students; and

WHEREAS undergraduate instructional and general fees at all Ohio State Campuses are subject to a 0% tuition cap; and

WHEREAS consultations have taken place within the University to determine the appropriate instructional and general fee increases for Ohio State graduate and professional programs at all campuses, Columbus campus dormitory charges, Columbus campus Recreation and Physical Activity Center fee, and other user charges for self-supporting units as described in the accompanying text and tables have been reviewed and recommended:

NOW THEREFORE

June 6, 2008 meeting, Board of Trustees

BE IT RESOLVED, That instructional and general fees for Tier-Three undergraduates enrolled at the Columbus Campus and all undergraduates enrolled at the regional and ATI campuses will not increase; and

BE IT FURTHER RESOLVED, That effective Fall 2008, the remaining undergraduate tuition tier, Tier-Two (those students admitted Spring 2003 or earlier) will be eliminated resulting in one instructional fee for all undergraduates; and

BE IT FURTHER RESOLVED, That instructional fees for most graduate students will increase 5% and that the differential instructional fees for the professional colleges and selected graduate programs will increase between 5% and 10%; and

BE IT FURTHER RESOLVED, That the nonresident surcharge for all programs be increased by 5%; and

BE IT FURTHER RESOLVED, That the Room and Board fees increase in average of 6%, the RPAC fee increase by \$1.00 per quarter, new laboratory fees be established in the College of MAPS for Chemistry and Physics laboratory classes, new learning technology fees be established for the College of Education and Human Ecology and existing college undergraduate program, technology and clinical fees be increased as described in the attached material and text; and

BE IT FURTHER RESOLVED, That the University Health System charges increase 5.9% as described in the attached materials and text; and

BE IT FURTHER RESOLVED, That all of these increases shall be effective Autumn Quarter 2008, except that fees and charges for the Health System, as outlined in the accompanying materials, shall be effective July 1, 2008.

(See Appendix LIX for background information, page 1173)

FINANCIAL PERFORMANCE GOALS

Resolution No. 2008-125

Synopsis: Approval of Financial Performance Goals.

WHEREAS explicit financial performance goals are appropriate for good financial planning; and

WHEREAS current goals are now more than ten years old; and

WHEREAS the proposed new goals have been thoroughly reviewed and vetted:

NOW THEREFORE

BE IT RESOLVED, That the attached goals be adopted by formal resolution of the Ohio State University; and

BE IT FURTHER RESOLVED, That the Senior Vice President for Business and Finance report at least annually on progress toward these goals.

(See Appendix LX for background information, page 1183)

June 6, 2008 meeting, Board of Trustees

INTERIM BUDGET FOR FY 2009

Resolution No. 2008-126

Synopsis: Authorization to make expenditures in FY 2009 is proposed.

WHEREAS the University has not yet finalized its operating budget for FY 2009; and

WHEREAS it is necessary to continue University expenditures, including payment of faculty and staff, prior to the time that the Current Funds Budget for FY 2009 is finalized and adopted:

NOW THEREFORE

BE IT RESOLVED, That the University be authorized to make expenditures consistent with the level of resources approved for Fiscal Year 2008, pending the adoption of the General Funds Budget for FY 2009 at the July Board of Trustees meeting and the Current Funds Budget for FY 2009 at the September Board of Trustees meeting.

APPROVAL TO ENTER INTO DESIGN AND CONSTRUCTION CONTRACTS

Resolution No. 2008-127

**APPROVAL TO ENTER INTO DESIGN CONTRACTS
COLLEGE OF MEDICINE RENOVATION/ADDITION**

**APPROVAL TO ENTER INTO CONSTRUCTION CONTRACTS
NORTH CAMPUS CHILLED WATER EXTENSION**

Synopsis: Approval to enter into design and construction contracts, as detailed in the attached materials, is requested.

WHEREAS in accordance with the attached materials, the University desires to undertake and enter into design contracts for the following project:

College of Medicine Renovation/Addition (07-08 capital request)	\$13.0M	College general funds State appropriations
--	---------	---

WHEREAS in accordance with the attached materials, the University desires to enter into construction contracts for the following project:

North Campus Chilled Water Extension (N/A)	\$7.5M	University bond proceeds
---	--------	-----------------------------

** Parentheses indicates the biennial capital request or other action by the Board of Trustees to authorize the capital project, renovation projects funded by internal office or department funds that are noted as "N/A" have not had separate capital project authorization because of their small size or because they arose unexpectedly between capital planning cycles.*

NOW THEREFORE

BE IT RESOLVED that the President and/or Senior Vice President for Business and Finance be authorized to enter into design and construction contracts for the projects listed above in accordance with established University and State of Ohio procedures, with all actions to be reported to the Board at the appropriate time.

(See Appendix LXI for background information, page 1186)

TRANSFER OF REAL ESTATE

Resolution No. 2008-128

**472 Hudson Street
Redwood City, CA**

Synopsis: Authorization to transfer ownership of real estate located at 472 Hudson Street, Redwood City, San Mateo County, California is proposed.

WHEREAS The Ohio State University Board of Trustees owns real estate located at 472 Hudson Street, Redwood City, CA; and

WHEREAS the property was a gift and was accepted with the intention of liquidating the property; and

WHEREAS the Treasurer seeks the transfer of ownership of the property to The Ohio State University Foundation to facilitate the marketing and sale of the property; and

WHEREAS the property will be transferred to The Ohio State University Foundation for nominal consideration; and

WHEREAS the appraised value of this property is \$900,000 and the property will be marketed with the appraised value as the asking price; and

WHEREAS the appropriate offices of the University have determined that the real estate is not necessary to support the mission of the University and this transfer is in the best interest of The Ohio State University; and

WHEREAS the Treasurer will enter into and agree to such terms and conditions of sale as are in the best interest of the University and The Ohio State University Foundation:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to transfer all of right, title and interest of The Ohio State University Board of Trustees in this property, in accordance with the laws of the State of Ohio, for nominal consideration to The Ohio State University Foundation and for the purpose of future sale of the property. The net proceeds of sale will benefit The Ohio State University Foundation.

(See Appendix LXII for background information, page 1189)

EASEMENTS

Resolution No. 2008-129

**COLUMBUS SOUTHERN POWER COMPANY - WOSU TOWER
6131 HIGHLAND LAKES, WESTERVILLE, OHIO**

**CITY OF WOOSTER
OHIO/SECRET ROAD CONSTRUCTION, OARDC WOOSTER, OHIO**

**CITY OF WOOSTER
OHIO/SOUTH OF SECRET ROAD, OARDC, WOOSTER, OHIO**

Synopsis: Authorization to grant easements to Columbus Southern Power Company at the WOSU Radio Tower site at 6131 Highland Lakes, Westerville, Ohio, to install a pad for a transformer to provide additional electric service to Clear Channel, and to the City of

June 6, 2008 meeting, Board of Trustees

Wooster, Ohio, south of Secrest Road for a sanitary sewer lift station site and access to the site; and for a series of easements along Secrest Road for the reconstructed Secrest Road.

WHEREAS Columbus Southern Power Company has requested a 8 foot wide by 16 foot long easement area for a transformer pad at the tower site, for a term of 25 years, for consideration of \$1.00; and

WHEREAS the City of Wooster, Ohio, has requested an easement south of Secrest Road near the north boundary of the OARDC campus, being 0.689 acre, for the sanitary sewer lift station site, for a term of 25 years, for consideration of \$1.00; and

WHEREAS the City of Wooster, Ohio, has requested a series of easements along Secrest Road at the north boundary of the OARDC campus, being 0.138 acre, 0.155 acre, 1.689 acre, 1.739 acre, 1.935 acre, for a term of 2 years to allow grading and construction activity for the reconstruction of Secrest Road, for consideration of \$1.00; and

WHEREAS, the City of Wooster, Ohio, has requested a series of easements along Secrest Road at the north boundary of the OARDC campus, being 0.169 acre, 0.001 acre, 1.279 acre, 1.246 acre, 1.246 acre, and 0.346 acre for the final placement of the reconstructed Secrest Road, for a term of 25 years, for consideration of \$1.00; and

WHEREAS the City of Wooster, Ohio, has requested an easement south of Secrest Road near the north boundary of the OARDC campus, being 1.168 acre, for access to the sanitary sewer lift station site, for a term of 25 years, for consideration of \$1.00; and

WHEREAS these easements will benefit the University and they will satisfy the obligation of the University under the WOSU tower rental agreement, and will allow improved access to the BioHio Research Park at the OARDC campus. The appropriate University offices have determined that the grant of this easement is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Senior Vice President for Business and Finance be authorized to approve and the Ohio Department of Administrative Services be authorized to process appropriate documents and grant these easements to the Columbus Southern Power Company and to the City of Wooster upon such terms and conditions as are in the best interests of the University.

(See Appendix LXIII for background information, page 1191)

LONG-TERM LEASE

Resolution No. 2008-130

OSU MEDICAL CENTER 23 NORTH AMBULATORY CARE CENTER
LEWIS CENTER ROAD
LEWIS CENTER, OHIO 43035

Synopsis: Authorization is requested for entering into a twenty-year lease with Lewis Center Investments, LLC of 30,000 SF of medical office space located off of State Route 23 North on Lewis Center Road, Lewis Center, Ohio 43035. The space will be occupied by multiple specialties of The Ohio State University Medical Center.

WHEREAS the Board of Trustees of The Ohio State University is presented with the opportunity to enter into a twenty-year lease of real property; and

June 6, 2008 meeting, Board of Trustees

WHEREAS the property contains approximately 30,000 SF; and

WHEREAS this property will satisfy the objectives and requirements of the OSU Medical Center's ambulatory strategic plan and it has been determined that the lease of this property is in the best interest of the University, and

WHEREAS the funds for the lease will be provided by the Medical Center:

NOW THEREFORE

BE IT RESOLVED, that the President and/or the Senior Vice President for Business and Finance be authorized to enter into a twenty-year lease of improved real property off of State Route 23 North on Lewis Center Road for use by The Ohio State University Medical Center. The lease will be negotiated to contain rental terms and lease conditions determined to be in the best interest of the OSU Medical Center and the University.

(See Appendix LXIV for background information, page 1195)

Upon motion of Mr. Schottenstein, seconded by Ambassador Ong, the Board of Trustees adopted the foregoing resolutions by unanimous roll call vote, cast by Trustees Cloyd, McFerson, Davidson, Ong, Borrer, Wexner, O'Dell, Shumate, Hicks, Fisher, Schottenstein, Brass and Marbley.

APPOINTMENT OF INVESTMENT MANAGERS AND REALLOCATION OF FUNDS

Resolution No. 2008-131

Synopsis: The Development and Investment Committee recommended the appointment of investment managers and reallocation of funds.

WHEREAS it is the policy of The Ohio State University to utilize the service of external investment managers and index funds to assist in the management of the University's Long-Term Investment Pool; and

WHEREAS the Development and Investment Committee of the Board of Trustees periodically reviews the results obtained by the external investment managers and the amount of funds assigned to each of them; and

WHEREAS it is prudent practice to reallocate funds assigned to external investment managers as conditions change; and

WHEREAS the number of external Investment Managers and the amount of funds assigned to them shall be determined by the Board of Trustees; and

WHEREAS the Board of Trustees last approved the Appointment of Investment Managers and Reallocation of Funds on April 4, 2008:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Development and Investment Committee, the Board of Trustees hereby waives competitive bidding requirements under the University's Purchasing Policy (Resolution 2008-70) and approves the following external investment manager changes in conjunction with index fund reallocations as needed to maintain target asset allocations previously approved:

June 6, 2008 meeting, Board of Trustees

	<u>Allocation as of 04/30/08</u>	<u>Changes</u>	<u>Revised Allocation</u>
<u>U.S. Equity (1)</u>			
Eagle Capital Management	\$0	\$ 35,000,000	\$35,000,000

MCFP - Expansion Projects

315-2005-993

Requesting Agency(s): UNIVERSITY HOSPITALS

Location(s): See Project Information

ASF/O GSF Age:

Description/Scope:

The Medical Center Facility Master Plan is a strategic initiative that will enable the Medical Center to expand its services in meeting its research, clinical and education missions; to achieve parity with top-quartile academic medical centers nationwide. The MCFP projects will result in a net increase of approximately 270,000 gross square feet of parking; a net increase of approximately 1,540,000 gross square feet of clinical, faculty/staff/administrative, and support space; and renovate approximately 75,000 gross square feet of space. The following projects are currently identified as the expansion projects through 2014:

- 1. 10th Avenue Parking Garage
- 2. RDC - MBP Upgrades

This project is requesting approval to advertise for an executive Construction Manager to coordinate the construction management of all MCFP expansion projects with estimated cost of \$27.7M. The project will also hire a global construction agent that will provide construction services for all projects with estimated fees of \$5.4M.

Funding Status and Source: Funding has been confirmed and approved. Construction expenditures must be coordinated with the available debt capacity. The fundraising goal for the project is \$75,000,000. It has not yet been determined which projects will require development funds. Projects that will require development funds will be determined prior to requesting construction approval. The Infrastructure and Roadways WOC Phase 2 project will not have development funds.

Logistics: There will be multiple logistic issues related to the amount of construction expected with the MCFP expansion projects as well as across campus. An executive construction manager will be hired to ensure coordination.

Energy and Sustainability: Energy and sustainability will be addressed during the design phases of the individual projects, as requested by the Board of Trustees.

Source of Funds:	Amount
Univ. Bond Proceeds	\$50,000,000.00
Total:	\$50,000,000.00

ES ARCHITECTURE AND DEVELOPMENT - Design

(APPENDIX LIII)

Keith Smith, Director, OSU Extension, and Associate Vice President

4-H Youth Development

Ohio State University's Premiere Youth Organization

Discussion Points

- 4-H Overview – Keith Smith, Associate Vice President and Director
- Nationwide and Ohio Farm Bureau 4-H Center – Ryan Schmiesing, Interim Assistant Director & State 4-H Leader
- STEM, Science and 4-H – Bob Horton, Curriculum Specialist

The 4-H Reach – 2007

- Total involvement: 324,657 young Ohioans
- 12,249 clubs and groups
- 23,168 adult volunteers
- 12,162 youth volunteers
- 479 camps with 45,549 campers
- 369,517 4-H projects and programs completed

Examples of Projects

- | | |
|------------------------------------|-------------------------------------|
| • Citizenship & Civic Education | • Healthy Lifestyle Education |
| • Communications & Expressive Arts | • Personal Development & Leadership |
| • Consumer & Family Sciences | • Plants & Animals |
| • Environmental Education | • Science & Technology |
| | • Food & Nutrition |

4-H Demographics

- 22,267 African American
- 4,956 Hispanic
- 54% Female
- 16% Farms
- 47% Towns under 10,000
- 22% Towns and Cities 10,000-50,000
- 6% Suburbs
- 9% Central Cities over 50,000

The Nationwide and Ohio Farm Bureau 4-H Center: Ohio State's First Green Building

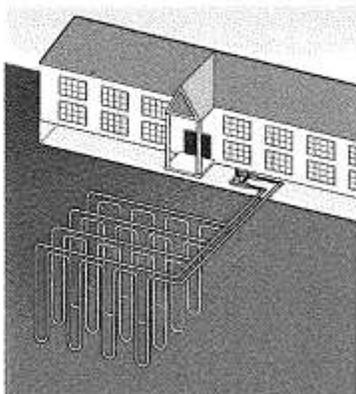

LEED Registered

- LEED = Leadership in Energy & Environmental Design.
- Goal is to achieve LEED Silver certification.
- Total project cost: \$13.5 million plus \$2 million endowment (\$15.5 million total).
- \$13.0 million raised from private sources.
- To date, approximately \$15.4 million has been raised.

Geothermal

- Building will be five times more efficient than a traditional facility.
- Early electricity bills indicate yearly electrical cost at only \$33,000.00 for a year.
- First geothermal facility on campus.

Water

- Building will use approximately 52% less water than a comparable building.
- Facility has dual flush toilets, waterless urinals, and faucet sensors.
- Use of waterless urinals will save nearly 200,000 gallons of water per year; each urinal saves 40,000 gallons of water.

Lights

- All lights in the building turn on and off automatically.
- Parking lot lights employ down lighting to reduce light pollution.
- As a result of extensive use of windows/glass, there is less candle power used in our lighting system, thus less energy.

Green Features

- 89% of all construction debris was recycled.
- Carpet is made from a recycled product.
- Roof is white rather than black so that heat is not absorbed, decreasing air conditioning needs

Green Features

- Fabric on work stations is made from a corn product.
- Product in one room is made from sunflower seed hulls.
- Office chairs are made from 42% recycled material and 96% of the chair could be recycled.
- Glue and adhesives used were low emitting VOC's.

More Features

- The steel contains 80% post-consumer and 12.5% post-industrial recycled content.
- Approximately 75% of all occupied spaces in the building have daylight.
- Extensive recycling plan being developed and implemented within the facility.

Young Buckeye STEMS

- 4-H Young Buckeye STEM Scholars is an after-school, project-based program that incorporates scientific inquiry, technological design, teamwork, communications and leadership development.
- STEM is science, technology, engineering and mathematics.

Buckeye STEMS

- Open to 5th and 6th grade students from:

- Big Walnut, Buckeye Valley
- North Union
- River Valley
- Teays Valley
- Upper Sandusky
- Worthington City Schools

Buckeye STEMS

- 4-H Young Buckeye STEMS is a partnership of The Ohio Academy of Science, OSU Extension 4-H, local schools, public libraries and TECHColumbus
- Supported by The Ohio General Assembly through a [\$700,000] grant to the Academy from The Ohio Department of Education.

After School Agriculture

- Promotes Agricultural Literacy among 2nd - 5th graders while developing their understanding, appreciation and application of science.
- Developed in cooperation with the National Consortium of State Agriculture in the Classroom Programs, Ohio Farm Bureau, OSU Extension, and practitioners from the field of childcare education.

Incredible Egg

- A complete and comprehensive model for 4-H educators to follow when delivering STEM-based programs to elementary grade classrooms.
- Will introduce an entirely new Incredible Egg life cycle curriculum designed to match specific Ohio Science Education Standards at the 3rd grade level.

Incredible Egg

- Will include a model for elevating the role of 4-H Extension professionals in the classroom, and a training plan for classroom teachers and science mentors.
- Pilot testing is underway in Licking and Pickaway county 3rd grade classrooms.
- In partnership with Ohio Soybean Council and Ohio Poultry Association.

Space Camp

- 15th Annual 4-H Space Adventure Camp starts next week
- Collaboration between Marietta College, OSU Extension and 4-H Youth Development
- Only camp of its kind in Ohio

Policy on Affiliated Entities

Purpose and Guiding Principles

Separate entities are affiliated with The Ohio State University because of services they provide in support of the University's mission. The Ohio State University has a vital interest in and recognizes the value of each affiliated entity. The University is committed to providing quality support for the efforts and activities of each affiliate, while seeking to maintain the appropriate independence from its affiliates.

The Board of Trustees of The Ohio State University has a responsibility to ensure that the University's activities with regard to affiliates are conducted in a proper manner. To protect the University's interests, and as a condition of the affiliates' use of the University's name and resources, the following principles shall apply:

1. The creation and activities of affiliates must promote, sponsor, or complement educational, scientific, research, charitable, health-care related, or cultural activities for the benefit of the University or one or more of its units.
2. To promote a more proactive relationship with affiliates, the University's relationship with each affiliate will be memorialized through a memorandum of agreement.
3. Affiliates will be monitored by the Board of Trustees through a regular reporting process.
4. Affiliates shall provide for at least one University representative with full voting rights on its governing board.
5. Affiliates must use sound fiscal and accounting procedures.
6. Affiliates must be managed in a manner consistent with their own enabling documents and the University's purpose, mission, and procedures, as specifically set forth in this policy.
7. Affiliates must adhere to high standards of ethics and conflicts of interest.
8. The University's relationship with an affiliate is not necessarily intended to be perpetual. Relationships with affiliates will be examined at least every five years to determine whether the affiliate/relationship will be continued or whether a sunset provision is appropriate.

Through the application of these principles, this policy provides a framework to guide the University in establishing and monitoring its relationships with affiliates.

Definition of an Affiliated Entity

An affiliated entity is:

1. an organization that has a legal existence separate from the University, and
2. which is formed or operated to support or complement the mission of the University, and
3. (a) was created by the University, or
(b) is controlled or strongly influenced by the University, or
(c) receives significant financial support from the University, or
(d) uses University resources, name, or identity.

The level of required reporting depends on the form of the relationship between the University and the affiliate. Relationships with affiliated entities may take one of three forms: a significant interest, regular, or arms length. These relationship categories are derived from the calculus of risk to the University, rather than simply the control imposed by the University: the University may have a significant interest in an affiliate with which the University otherwise has an arms-length relationship.

- I. **Significant Interest Affiliates.** The University has a significant interest in an affiliate if:
 - a. The University has a significant *financial investment* in the affiliate, defined for the purposes of this policy as over \$250,000;
 - b. The affiliate poses a *compliance risk* to the University; or
 - c. The affiliate provides *essential services* to the University.
- II. **Regular Affiliates.** The affiliate has closer ties to the University than an arms-length entity, but the University does not have a significant interest in the entity.
- III. **Arms-length Affiliates.** These affiliates may use University resources, but the relationship is defined by contract/memorandum of understanding or does not otherwise establish a close tie with the University. The University may act as fiscal agent or have other financial or operational ties. Specifically included in this category are consortia of which the University is a member and acts as fiscal agent.

Assignment to categories is subjective and based on the discretion of the Board of Trustees and its designees. Assignment may change as the nature or activities of affiliates evolve.

This definition does not encompass internal University units that may conduct business activities with external parties; therefore, these internal units are not covered by this policy.

Establishment of Affiliated Entities

Affiliates may be established by the University or entities outside the University, subject to review and approval by the Board of Trustees. The process to attain Board of Trustees approval will differ depending on whether the affiliate is to be created by the University or an external entity. In making its determination for either type of entity, the Board of Trustees will review the proposed affiliate's purpose, organizational format, scope of activities, and associated risks. See Appendix A for a list of considerations that should be addressed when proposing the creation of an affiliate.

Process for University Establishment of an Affiliate

The Ohio Constitution and state statutes impose limitations on the University's ability to engage in some types of business activities. Units considering establishing an affiliated entity should consult with the Office of Legal Affairs at the earliest stage of the planning process to ensure that all legal requirements are fulfilled.

1. The University unit desiring to establish an affiliate ("Sponsoring Unit") shall develop a detailed proposal which will include:
 - a. Goals and objectives of the proposed affiliate.
 - b. Proposed organizational and governing board structure. The proposed governing board structure shall reserve at least one board seat for a University representative.
 - c. Projected budget and business plan for at least five years.
 - d. Thorough risk assessment that defines and classifies risks inherent to both the proposed entity and the University, including potential conflicts of interest. The risk assessment must include mitigation strategies and metrics designed to quantify risk throughout the life of the entity.
 - e. Proposed memorandum of agreement defining the affiliate's relationship with the University.
2. The proposal shall be reviewed and approved by the Sponsoring Unit, the appropriate Vice President or Dean, the Office of Business and Finance, and the Office of Legal Affairs.
3. The appropriate Vice President or Dean then shall recommend creation of the proposed affiliate for consideration by the University's Senior Management Council and the President's Executive Committee. Upon those approvals, the proposal shall be recommended to the Board of Trustees Audit and Compliance Committee.
4. The Audit and Compliance Committee shall review the proposal and if deemed appropriate, recommend the establishment of the affiliate to the Board of Trustees. The Committee shall assign oversight responsibility for each entity to a University administrator.
5. Approval by the Board of Trustees.

6. The Board of Trustees shall either appoint the University representatives who will serve on affiliate governing boards or delegate appointment authority to the University President.
7. Depending on the circumstances and the degree of separateness of the entity, legal representation with respect to the preparation of organizational documents may be provided by the University, the Office of the Attorney General, outside counsel to the University, or private counsel retained on behalf of the entity.

Process for Relationship with Existing or New Affiliates

1. The external entity desiring to enter into an affiliate relationship with the University shall develop a detailed proposal which will include:
 - a. Goals and objectives of the proposed affiliate.
 - b. Proposed organizational and governing board structure. The proposed governing board structure shall reserve at least one board seat for a University representative.
 - c. Projected budget and business plan for at least five years.
 - d. Thorough risk assessment that defines and classifies risks inherent to both the proposed entity and the University, including potential conflicts of interest. The risk assessment must include mitigation strategies and metrics designed to quantify risk throughout the life of the entity.
 - e. Proposed memorandum of agreement defining the affiliate's relationship with the University.
2. The proposal will be reviewed by the appropriate Vice President or Dean, the Office of Business and Finance, and the Office of Legal Affairs. If these offices agree, the affiliate will be recommended for approval to the Senior Management Council and the President's Executive Committee. Upon these approvals, the proposed relationship will be recommended to the Board of Trustees Audit and Compliance Committee.
3. The Audit and Compliance Committee shall review the proposal and if deemed appropriate, recommend the authorization of the relationship with the proposed to the full Board. The Committee shall assign oversight responsibility for each entity to a University administrator.
4. Approval by the Board of Trustees.
5. The Board of Trustees shall either appoint the University representatives who will serve on affiliate governing boards or delegate appointment authority to the University President.

Oversight of Affiliates

The Board of Trustees shall exercise oversight over established affiliates through the following mechanisms: (1) inclusion of University representatives on the affiliate's governing board; (2) provision for reserve powers on behalf of the University in the affiliate's governing documents; (3) a memorandum of agreement between the University and the affiliate outlining expectations and responsibilities, including governance requirements; and (4) a comprehensive reporting process, as outlined below. In addition, the Board of Trustees will also inquire regularly as to the need for continued affiliation and/or separate entity status.

University Representatives on Affiliate Boards

Each affiliate shall provide for at least one University representative with full voting rights on its governing board. University representatives on affiliate governing boards shall be appointed by the Board of Trustees or the President and shall be required to follow the guidelines and expectations articulated by the University as conditions for their service. The guidelines and expectations will be memorialized in a letter of appointment for each University representative on an affiliate board and shall include the following provisions at a minimum:

- A. The University representative on the affiliate governing board shall keep the President and the Board of Trustees informed of the affiliate's activities on a regular basis, as the Board or President determines appropriate.
- B. The University representative shall consult with the Board of Trustees or the President, as determined appropriate, on any proposal to be presented the affiliate governing board relating to the creation of new corporate subsidiaries or new lines of business. With respect to these matters, the University representatives shall exercise their votes as members of the affiliate governing board in accordance with instructions they receive from the Board of Trustees or the President.
- C. Proposals that would allow an affiliate or its subsidiaries to perform elements of the University's basic research or teaching mission must be approved by the University's Executive Vice President and Provost and the Senior Vice President for Research and any other University academic units that would be affected.
- D. Any grant or loan of University funds, or any action that could reasonably be construed as a guarantee or inducement for any other grant or loan, to an affiliate or any affiliate subsidiary shall be subject to the prior written approval of the University's Senior Vice President for Business and Finance and Chief Financial Officer.
- E. Any contract between the University and the affiliate or any of its subsidiaries, as well as the transfer of any University assets, including intellectual property, to any of those entities must be approved by the University's Senior Vice President for Business and Finance.

- F. These requirements shall apply to any renamed or reorganized corporate structure or organization that the affiliate may create or authorize.

Reserve Powers

Reserve powers are specific acts of the affiliate that must be authorized by the University representatives on the affiliate governing board to be effective, even if the University representatives are not in the majority on the governing board. As determined appropriate by the University, these reserve powers must be memorialized in the affiliate's governing documents. Examples of acts that may be subject to reserve powers include dissolution, liquidation, merger, consolidation, and formation of subsidiaries. Reserve powers are not required of each affiliate, but will be an additional consideration when affiliate relationships are established.

Memorandum of Agreement

The University shall enter into a memorandum of agreement with each affiliate addressing the University/affiliate relationship and expectations and governance requirements. The memorandum of agreement may also address University services and financial contributions, use of University marks, and other support provided by the University. Upon approval of the Board's Audit and Compliance Committee, the memorandum of agreement may exempt an affiliate from requirements of this policy. Each memorandum of agreement will be tailored to the specific needs of each affiliate. For a list of potential issues to be addressed by a memorandum of agreement, please see Appendix B.

Reporting Requirements

Reporting Frequency

Based on prior reports and other available information, a "status" will be assigned to each affiliated entity:

	Entity in on track
	Entity is in jeopardy
	Entity is not on track

The following reporting schedule assumes that all entities are operating in "green" status, as assessed by the Office of Legal Affairs upon consultation with the Audit and Compliance Committee. The frequency of reports to the Audit and Compliance Committee is subject to change if the Committee determines that the affiliate needs to be given a "red" or "yellow" status.

Type of Entity	Frequency of Reports		
	<i>Annual</i>	<i>Proactive</i>	<i>Quarterly</i>
Significant Interest	Comprehensive	Update	Update
Regular	Comprehensive	Update	None
Arms-Length	Comprehensive	None	None

Annual Reports

Subsequent to the end of each fiscal year, each affiliate regardless of category shall submit to the President or his/her designee:

- A. A copy of its financial report, audited by an independent certified public accountant, the management letter, and management's response thereto on at least an annual basis.
- B. A copy of its IRS Form 990 and 990-T.
- C. A letter signed by the affiliate's executive head certifying that the affiliate has complied with this policy and any memorandum of agreement between the University and the affiliate regarding their relationship.
- D. Other such information that may be requested by the Board of Trustees on a supplied form, e.g., a list of current directors and officers, current copies of governing documents, and a brief description of the affiliate's activities during the prior year..

In addition to the items listed above, significant interest affiliates must also submit:

- A. Minutes of meetings of its governing board from the previous year.
- B. A report listing each real estate purchase and material capital lease, investment, or financing arrangement entered into during the preceding affiliate fiscal year.

Proactive Reports

From time to time, regular and significant interest affiliates shall submit to the President or his/her designee:

- A. An annual operating budget and capital expenditure plan approved by the affiliate governing board, prior to the beginning of the new affiliate fiscal year. The budget should be presented in a comparative format with the prior year and include major categories of revenues and expenses.
- B. Notice of material litigation involving the affiliate.
- C. An advance copy of any proposed amendments, additions or deletions to any of its governing documents.

Quarterly Reports

On a quarterly basis, significant interest affiliates only shall submit to the President or his/her designee:

- A. A description of activities for the prior quarter, including but not limited to significant business issues and transactions with the University.

- B. A description of the significant business issues or activities anticipated in the upcoming quarter.
- C. A copy of its quarterly financial statements and budget-to-actual reports.
- D. Any updates to information previously provided.
- E. Other such information that may be requested by the Board of Trustees on a supplied form.

Sunset Provisions

It is expected that some affiliates will have finite life spans and that it will no longer be appropriate for an affiliate to continue its relationship with the University or to continue to exist as a separate entity. At least every five years, the University will assess existing affiliates for the need for continued affiliation and separate entity status. The University shall use the reporting process as well as inquiries of affiliate management regarding reasons for continued existence and affiliation to make its determination.

If, after appropriate consultation within the University and with the affiliate, it is determined that it is no longer appropriate for a separate entity to be affiliated with the University, a recommendation to that effect will be made to the Board of Trustees Audit and Compliance Committee.

If it is determined that there is no reason for an affiliate's continued existence as a separate entity, the University may direct through its reserve powers, if applicable, or suggest to the affiliate that the entity be dissolved. It will be determined on a case-by-case basis whether the University can assist the affiliate in its dissolution and whether the remaining activities of the affiliate, if any, can or should be assumed by a University unit. If it becomes evident during the establishment process that the affiliate will have a finite existence, the affiliate governing board should consider inserting automatic sunset provisions into its governing documents.

Appendix A – Considerations For Creation of Affiliates

Policy Issues: “Will the Affiliate Serve the Best Interests of the University?”

- Is the affiliate formed to achieve a public purpose which is consistent with the mission of the University?
- Does the plan project a reasonable probability that the affiliate’s objectives can be attained?
- Have the appropriate internal constituencies been consulted (e.g., faculty, affected departments, etc.)?
- Will the affiliate’s activities conflict or compete with existing university activities?
- How will the affiliate be received by external constituencies?

Financial Issues: “What are the Financial Implications of Establishing the Affiliate?”

- Has a thorough and a credible budget and/or business plan been prepared?
- What level of financial support is expected to be provided by the University, and is it reasonable and appropriate?
- What are the financial risks to the University and how are they addressed?
- If the affiliate will use University facilities or services, is proper reimbursement assured?
- What is the proposed distribution of the affiliate’s revenues and surplus?
- What are the provisions for recovery of university investment?

Governance Issues: “Is the Appropriate Governance Structure Established?”

- Who should represent the University on the affiliate’s board of directors?
- Are the proposed public members of the board of directors qualified to oversee the mission and operations of the affiliate?
- Has responsibility for supervision of the activities of the affiliate been clearly delegated to an official (e.g., vice president or dean) within the University?
- Has a timeline been established for performance review and assessment?
- Is the inclusion of reserve powers in the affiliate’s governing documents appropriate?

Legal Issues: “Are There Adequate Safeguards to Avoid or Minimize Legal Risks and Financial Exposure?”

- Is the affiliate properly structured to maintain the appropriate degree of separation from the University?
- If University employees will be involved with the affiliate, have they complied with all University employment policies?
- Is there a plan to manage real or potential conflicts of interest?
- What are the risks of legal liability that may result from the activities of the affiliate? Are these risks adequately insured? What level of risk is the University prepared to accept?
- Will the activities of the affiliate give rise to questions regarding ownership of intellectual property?

Appendix B – Items Addressed in Memorandum of Agreement

Governance Matters

- Acknowledgement that affiliate is legally independent from the University, and neither party assumes the other's liabilities
- Affiliate is identifiably separate from University
- University representation on affiliate governing board
- Requiring reserve powers to be exercised by the University in certain actions by affiliate, including University review/approval of new business ventures and subsidiaries or other entities
- Fundraising affiliates organized and operated as non-profit, non-stock corporations
- Disposition of assets upon dissolution of affiliate
- Creation of an audit committee of the governing board
- Adoption of policies on ethics, conflict of interest, whistleblowers, compensation, and procurement
- Provision of legal services

Financial Matters

- Requiring an accounting system with appropriate controls and reporting functions and an annual audit by an independent certified public accountant
- Annual adoption by the affiliate governing board of a detailed operating budget and capital expenditure plan
- Transactions between affiliate and University treated as ordinary business transactions, with proper review and approvals
- Provisions regarding use of University registered marks
- Recovery of costs incurred for provision of personnel, facilities, or services by the University
- Provision of administrative services by University to affiliate
- Responsibilities for insurance
- Requiring an accounting system with reporting in accordance with GAAP
- Detailed operating budget and capital expenditure plan
- Officers/staff members bonded as appropriate; general liability and D&O insurance
- University's right to inspect books and records
- Requiring that no substantial part of operations devoted to lobbying/participating in political campaigns
- Requiring that no fees or remuneration shall be paid to University employees without University approval

(APPENDIX LVI)

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
DEVELOPMENT AND INVESTMENTS COMMITTEE**

June 5, 2008

TOPIC: Policy on the Investment of Operating Funds

CONTEXT:

Since 1998, the University has had the authority to invest some cash balances in higher return equity and fixed income funds. This authority was expanded by legislation in 2002 to include all funds - which is now known as the Long-Term Operating Fund.

This program has been very successful. Now that the Long-Term Operating Fund has grown to nearly \$600 million, it is a good time to review how the fund should be managed going forward and how proceeds should be distributed.

The recommendations below had a first reading in September 2007 and a second reading on April 4, 2008.

RECOMMENDATIONS:

To ensure continued safety of these valuable assets, the University recommends the following policies:

- A minimum of 60 days of operating cash in short-term investments
- An appropriate split between short-term and long-term cash
- A stabilization reserve of no less than 5% of the value of the Long-Term Operating Fund

To ensure the strategic distribution of these assets, it is recommended that:

- Annual transfers from the Long-Term Operating Fund are made to the President's Strategic Reserve II, only after minimum targets are reached for the short-term Operating Fund and the stabilization reserve.
- These funds can be allocated from the President's Strategic Reserve II at the President's discretion for one-time investments.
- Reports are provided quarterly to both the Development and Investment Committee and the Fiscal Affairs Committee.

These are described in greater detail in the attachment.

CONSIDERATIONS:

- Are University assets appropriately protected?
- Is the distribution process sufficiently strategic?
- Is the reporting process sufficient?

REQUESTED OF DEVELOPMENT AND INVESTMENTS COMMITTEE:

Approval

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
DEVELOPMENT AND INVESTMENTS COMMITTEE**

June 5, 2008

Management of Operating Funds Policy Summary

The recommendations presented here are designed to support the following objectives:

- Preservation of principal and purchasing power, including meeting or exceeding state requirements.
- Maximize return of a valuable asset without jeopardizing safety of public funds.
- Alignment with University academic and financial goals.

In order to support these objectives, the following policies are recommended:

Short-Term Pool - the short-term pool should be invested primarily in lower risk, more liquid instruments such as government securities and maintain a balance equivalent to at least 60 days operating cash. Once this threshold is reached, the Senior Vice President for Business and Finance will have the authority to approve investment of up to 60% of the operating funds, net of construction bond funds, in the long-term investment pool.

Long-Term Pool - once the amount of the short-term pool is determined, excess operating funds may be transferred to the long-term investment pool, where they will be invested along with gifted endowment funds. In no case may the long-term pool exceed 60% of the total operating funds, net of construction bond funds.

Interest Stabilization Fund - in order to protect operating cash invested by the University for individual units, a reserve of 5% of the operating funds invested in the long-term pool shall be maintained in the short-term pool. This will assure the short-term interest rate can be paid out even when returns in the long-term pool fluctuate because of market conditions.

President's Strategic Investment Fund II - over time, the long-term pool should be expected to earn returns 3-4% above the short-term pool, although this will fluctuate from year to year. The spread in yield between the short-term and long-term pool should be transferred annually to the President's Strategic Investment Fund II after the reserve requirement is met. If the long-term investment pool has a negative spread, monies may be transferred from the President's Strategic Investment Fund II to replenish the reserve and if necessary make the long-term pool whole. This fund may be used by the President at his/her discretion, but no more than 25% of the value of the fund can be dispersed in any one year. Seventy-five percent (75%) of the fund should be invested in the long-term pool and 25% in the short-term pool. Funding decisions should generally be made as part of the annual budget process, but there may be exceptions.

Reporting - the status of short and long-term operating cash should be reported quarterly to the Integrated Financial Planning Group and the Development and Investment Committee. Allocations to and from the President's Strategic Investment Fund II be made annually after the end of the fiscal year as part of the annual current funds budget process, although mid-year adjustments could be made if warranted.

A complete description of this policy can be found on the Business and Finance web site at <http://www.busfin.ohio-state.edu/>.

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
DEVELOPMENT AND INVESTMENT COMMITTEE**

June 5, 2008

TOPIC:

Amendment of the Long-Term Investment Pool Policy

CONTEXT:

This policy was last changed in December 2007. The revisions are a result of several items including a change in state law and Allen Proctor's review of The Office of the Treasurer. The policy name is being changed from "Endowment Fund" to "Long-Term Investment Pool".

This revised policy reflects changes made to Ohio Revised Code, Section 3345.05 to allow for the investment of operating funds into the Long-Term Investment Pool.

This revision creates a section outlining the duties and responsibilities for the Chief Investment Officer. All references to the Treasurer have been changed to the Chief Investment Officer. The policy delineates contractual responsibility of hiring/firing managers and consultants to the Chief Investment Officer and Senior Vice President for Business and Finance.

The revised policy will allow exceptions due to donor restrictions if approved by the Board of Trustees and adds a policy for handling non-economically based divestment decisions.

RECOMMENDATIONS:

The attached policy is recommended for approval at the June meeting.

CONSIDERATIONS:

- Has this policy been reviewed by legal counsel?
- How does this policy compare with benchmark institutions?
- Does this policy contain the proper asset allocation?
- Does this policy allow managers enough flexibility while maintaining appropriate risk controls?
- Is the distribution rate appropriate?

REQUESTED OF DEVELOPMENT AND INVESTMENT COMMITTEE:

Approval.

Highlights to the proposed changes

The Ohio State University Long - Term Investment Pool Policy

Name

- This policy was last changed in December 2007. The revisions are a result of several items including a change in state law and the Proctor Report.
- The policy name is being changed from "Endowment Fund" to "Long-Term Investment Pool".

Goals

- Adds wording to include a total return objective and specifies a long-term time horizon.

Components of the Long-Term Investment Pool

- This is a new section that defines Endowment Funds, Term Endowment Funds and Quasi Endowment Funds.
- Reference is made to Ohio Revised Code, Section 3345.05 to allow for the investment of operating funds into the Long-Term Investment Pool.

Duties and Responsibilities

- Adds a requirement for the Investment Committee to meet quarterly in order to comply with Ohio Revised Code, Section 3345.05.
- Creates a section for Chief Investment Officer outlining their duties and responsibilities. Eliminates references to the Treasurer.
- Delineates contractual responsibility of hiring/firing managers and consultants to the Chief Investment Officer and Senior Vice President for Business and Finance. Adds requirements of administration and compensation to the contract utilized for hiring investment managers and consultants.

Asset Allocation and Guidelines

- Adds hedge funds to the absolute return class.
- Specifies the Chief Investment Officer will rebalance the portfolio.

Investment Monitoring Process

- Adds consultants to be part of the monitoring process.

Account Valuation

- This is a new section explaining the accounting and valuation treatment of the pool.

Exceptions

- Allows for policy exceptions due to donor restrictions if approved by the Board of Trustees.
- Adds a policy for handling non-economically based divestment decisions.

General

All references to the Treasurer have been changed to the Chief Investment Officer.

POLICY

June, 2008

**THE OHIO STATE UNIVERSITY
LONG-TERM INVESTMENT POOL POLICY**

I. PURPOSE

The purpose of this Long-Term Investment Pool Policy (hereinafter referred to as the "Policy") is to establish the overall management, investment strategies and discipline of The Ohio State University (hereinafter referred to as "The University") for the Long-Term Investment Pool (hereinafter referred to as the "Fund"). This policy is intended to permit sufficient flexibility to capture investment opportunities, yet provide parameters that ensure prudence and care in the execution of the investment program.

This policy is issued for the guidance of fiduciaries, including the Board of Trustees, Investment Committee members, staff, investment managers, investment consultants and custodians for oversight of the Fund. It also states the standards and disciplines adopted so that the Board of Trustees and its Investment Committee can effectively evaluate the performance and operations of the Endowment Fund.

II. GOALS

The Fund was established to provide financial support for the long-term use and benefit of the University in support of its mission. The goal is to manage Fund assets with prudence and discipline to achieve that purpose. The Fund will be invested using a total return objective to meet its goals. Funds will be invested in a manner that over the long-term will preserve and maintain the real purchasing power of the principal while allowing for an annual distribution.

III. COMPONENTS OF THE LONG-TERM INVESTMENT POOL

For the purposes of this policy the Long-Term Investment Pool shall include long-term financial assets of the University, including endowments, quasi-endowments, term endowments and those held for the benefit of others invested in the Fund.

Endowment Funds are funds received from donors or other sources with the restriction that the original principal is not expendable.

Quasi-Endowments are funds in which the principal can be spent at the discretion of the university's Board of Trustees and can include monies whose sources are in accordance with Ohio Revised Code Section 3345.05. Quasi-endowments may include operating funds available

POLICY

June, 2008

for long-term investment and added to the Fund, subject to the 25% reserve requirement delineated in the Operating and Agency Funds Investment Policy.

Term Endowment Funds are funds for which there is a stipulation that the principal may be expended after a stated period or upon the occurrence of a certain event.

IV. FIDUCIARY STANDARDS

The Board of Trustees, Investment Committee members, staff, investment managers, consultants and custodians are fiduciaries. Accordingly, these individuals are required to:

- Act solely in the interest of the University, for the purpose of providing income and maintaining the real purchasing power of the principal.
- Act with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims.
- Diversify the investments of the Fund in order to minimize overall risk, and to provide investment returns to achieve the Fund's stated goals.

V. DUTIES AND RESPONSIBILITIES

A. Board of Trustees. The University Board of Trustees has overall responsibility for Fund policy and approval of Investment Committee members. The Board of Trustees vote on items brought forth by the Investment Committee.

B. Investment Committee of the Board of Trustees. The Investment Committee has strategic oversight responsibility for the investment program and operations of the Fund. The Committee shall work with the Senior Vice President for Business and Finance and the Chief Investment Officer to ensure the Fund is well managed, in accordance with this policy. The Investment Committee shall meet at least quarterly.

C. Senior Vice President for Business and Finance. The Senior Vice President for Business and Finance has oversight responsibility for the Fund's investment operations and reporting. The Senior Vice President for Business and Finance shall review operations and reporting within the Office of the Chief Investment Officer to ensure compliance with established policies and procedures.

D. Chief Investment Officer. The Chief Investment Officer is responsible for managing the Fund's investment operations. The Chief Investment Officer shall review and recommend policies and procedures that are consistent with the investment objectives of the Fund. The Chief Investment

POLICY

June, 2008

Officer shall report to the Senior Vice President for Business and Finance and the Investment Committee, at least quarterly.

E. Investment Managers. The University utilizes external investment managers approved by the Chief Investment Officer and Senior Vice President for Business and Finance to provide portfolio management services. The investment managers may be given discretion, consistent with specified objectives and guidelines, to manage Fund assets. Investment managers operate under a formal contract with the Chief Investment Officer and the Senior Vice President for Business and Finance that delineates responsibilities, risk parameters and performance expectations, administration requirements and compensation. The contract may be terminated by the Chief Investment Officer and the Senior Vice President for Business and Finance.

F. Consultants. The University may utilize the services of one or more investment consultants to assist the Chief Investment Officer in the areas of policy development, asset allocation, investment structure analysis, investment manager selection, performance review and other specialized investment topics. Consultants operate under a formal contract with the Chief Investment Officer and the Senior Vice President for Business and Finance that delineates responsibilities, risk parameters and performance expectations, administration requirements and compensation. The contract may be terminated by the Chief Investment Officer and the Senior Vice President for Business and Finance.

G. Custodians. The University retains one or more custodian banks or trust institutions to custody and report on the assets of the Fund.

VI. DISTRIBUTION POLICY

Distributions will be made at the beginning of each fiscal year according to a formula approved by the Trustees as follows:

1. The distribution amount will be calculated on a five-year moving average of the market value of the portfolio.
2. The distribution rates are 4.5% for funds existing as of June 30, 2004, and 4% for all others.
3. A collar incorporating a maximum annual distribution increase of 3% and a maximum annual distribution decrease of 1% is effective beginning July 1, 2006.

In order to maintain an orderly distribution of income under the distribution policy, an income reserve shall be maintained to accrue amounts to be distributed to the endowment funds.

Distributions are made to a fund's income account which is part of the University's Operating Fund. Distributions may be reinvested into principal; however, any reinvested distribution cannot be redistributed or withdrawn at another time.

POLICY

June, 2008

VII. ASSET ALLOCATION AND GUIDELINES

A. Time Horizon. The Fund's investment horizon is long-term (10+ years); therefore interim performance fluctuations should be viewed with this perspective. Similarly, the underlying capital market assumptions of the University's asset allocation plan are based on this long-term perspective.

B. Risk Tolerance. The Board of Trustees, the Investment Committee, and staff recognize the challenge of achieving the Fund's investment objectives in light of the uncertainties and complexities of investment markets. They also recognize that prudent levels of investment risk are necessary to achieve long-term investment objectives.

C. Asset Allocation and Rebalancing. Asset allocation is the largest contributor to overall Fund return performance and risk characteristics. The Investment Committee and the Board of Trustees will periodically evaluate asset class strategies and opportunities, and establish a long term asset allocation plan. After a thorough study of the available asset class opportunities, return objectives and risk tolerance, the Board of Trustees and Investment Committee approved the following asset classes and allocations:

Asset Class	Target	Benchmark
US Equities	20%	Russell 3000
International Equity	20%	ACWI ex US
Fixed Income	10%	Lehman Aggregate (70%)/ Citigroup WBGI ex US (30%)
Absolute Return/Hedge	25%	90 Day T-Bill + 4%
Real Assets	10%	CPI + 5%
Private Equity	20%	Venture Economics
Cash	-5%	90 Day T-Bill

Market fluctuations, cash flows and liquidity issues will cause the actual asset allocation to diverge from the target allocation from time to time. The Chief Investment Officer will rebalance the portfolio to policy target weightings, at least semi-annually.

D. Investment Manager Guidelines. The investment guidelines incorporated into each manager's contract documents the performance expectations and risk parameters of the manager's investment approach. The guidelines also specify the typical portfolio characteristics of the portfolio. These characteristics are used to monitor a manager's

POLICY

June, 2008

investment style adherence to insure that the manager is continuously fulfilling its investment role in the Fund.

VIII. INVESTMENT MONITORING PROCESS

The Fund's investment managers and consultants will be monitored for consistency of investment philosophy, return relative to objectives, and investment risk. The Chief Investment Officer and the Senior Vice President for Business and Finance will monitor the overall fund results and investment portfolios, but results will be evaluated on a long term basis. The following manager issues will be considered by the Chief Investment Officer: (1) failure to comply with the applicable investment style, guidelines, performance objectives, and fees, (2) a material change in ownership or personnel, or (3) a violation or potential violation of the terms of the investment manager agreement or other applicable laws and regulations.

IX. ACCOUNT VALUATION

All funds are invested in the pool and are unitized. At the end of each month investments are evaluated and a unit value calculated based on the number of shares assigned to each fund. The unit value calculation also takes into account earnings, investment expenses and fees. New funds and additions/withdrawals from established funds are processed at the end of each month. Additions will purchase shares only with cash. Non-marketable gifts will be liquidated first, with cash proceeds then used to purchase shares. Withdrawals may be made only from invadible funds upon the written request of the Dean or Vice President.

X. EXERCISE OF SHAREHOLDER RIGHTS

The University recognizes that publicly traded securities and other assets of the Fund may include certain ancillary rights, such as the right to vote on shareholder resolutions at companies' shareholders' meetings, and the right to assert claims in securities class action lawsuits or other litigation. The University requires of itself and its external managers the prudent management of these assets of the Fund for the exclusive purpose of enhancing the value of the Fund. The Chief Investment Officer has the authority to vote proxies in accordance with the Proxy Policy.

XI. REVIEW AND MODIFICATION OF INVESTMENT POLICY STATEMENT

All policies of the Fund are in effect until modified by the Board of Trustees. While material changes are expected infrequently, the Chief Investment Officer will review the Investment Policy at least annually for continued appropriateness and recommend any changes to the Senior Vice President for Business and Finance, the Investment Committee, and the Board of Trustees.

POLICY

June, 2008

XII EXCEPTIONS

Modifications and exceptions to this Policy shall be authorized by resolution of the Board of Trustees or as provided herein. The terms and conditions of this Policy as to the endowment fund may be waived to accept and administer donated funds or property with donor restrictions and approved by the Board of Trustees.

In order to meet its fiduciary responsibility to its academic programs and its donors, The Ohio State University seeks to maximize its investment returns within appropriate levels of risk under guidelines established by the Board of Trustees as granted by the Ohio Revised Code. As a public institution, OSU also recognizes a duty to support larger societal objectives as well.

Divestment for non-economic reasons should be recommended through the governance process, i.e. student government, University Senate or an appropriate committee. The recommendation would go to the Senior Vice President for Business and Finance. The Senior Vice President for Business and Finance should ask the Chief Investment Officer to review the potential impact on the investment portfolio of any divestment. If the cumulative impact to the pool of divestment for non-economic reasons is less than \$5,000,000 over a two year period, the Senior Vice President for Business and Finance may then bring the recommendation forward to the President's Executive Committee for final approval. If the cumulative impact to the pool is greater than \$5,000,000, the Senior Vice President for Business and Finance may then bring the recommendation forward to the President's Executive Committee for approval, but if approved, a policy change must be brought forward for a vote by the Investment Committee of the Board of Trustees.

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
DEVELOPMENT AND INVESTMENT COMMITTEE**

June 5, 2008

TOPIC:

Amendment of the Operating and Agency Funds Investment Policy

CONTEXT:

This policy was last changed in July 2003. The revisions are a result of several items including a change in state law and Allen Proctor's review of The Office of the Treasurer. This version is a substantial modification of the policy and brings it in line with the format of the Long-Term Investment Pool Policy. The policy name is being changed from "Non Endowment" to "Operating and Agency Funds" Investment Policy

This revised policy reflects changes made to Ohio Revised Code, Section 3345.05 to allow for the investment of operating funds into the Long-Term Investment Pool.

The policy goals were modified to include having a diversified portfolio with a component for appreciation while adhering to a prudent level of risk and maintaining sufficient liquidity. There is also a requirement to be diligent and prudent when carrying out the goals of the portfolios.

There is a new section that establishes the roles of the Board of Trustees, the Investments Committee, the Senior Vice President for Business & Finance, the Treasurer, Investment Managers, the Consultants, and Custodians. This section is worded to comply with Ohio Revised Code, Section 3345.05.

There is a new section that addresses the time horizon, risk tolerance, asset allocation, rebalancing and benchmarks of the portfolios. The revised policy will allow exceptions due to donor restrictions if approved by the Board of Trustees.

RECOMMENDATIONS:

The attached policy is recommended for approval at the June meeting.

CONSIDERATIONS:

- Has this policy been reviewed by legal counsel?
- How does this policy compare with benchmark institutions?
- Does the policy provide enough flexibility while maintaining appropriate risk controls?

REQUESTED OF DEVELOPMENT AND INVESTMENT COMMITTEE:

Approval

Highlights to the proposed changes

The Ohio State University Operating and Agency Funds Investment Policy

This policy was last changed in July 2003. This version is a substantial modification of the policy and brings it in line with the format of the Long-Term Investment Pool Policy.

Name

- The policy name is being changed from "Non Endowment" to "Operating and Agency Funds" Investment Policy

Purpose

- This is a new section that outlines the reasons for the policy and defines what monies are governed by this policy.

Goals

- Goals were modified to include a diversified portfolio with a component for appreciation while adhering to a prudent level of risk and maintaining sufficient liquidity.

Fiduciary Standards

- This is a new section that addresses the requirement to be diligent and prudent when carrying out the goals of the portfolios.

Duties and Responsibilities

- This is a new section that established the roles of the Board of Trustees, the Investments Committee, the Senior Vice President for Business & Finance, the Treasurer, Investment Managers, the Consultants, and Custodians. This section is worded to comply with Ohio Revised Code, Section 3345.05.

Asset Allocation and Guidelines

- This is a new section that addresses the time horizon, risk tolerance, asset allocation, rebalancing and benchmarks of the portfolios.
- This also addresses guidelines for the amounts to be placed in each component of the operating portfolios.
- States that funds other than operating funds will have their asset allocation approved by the Treasurer.

Investment Monitoring Process

- This is a new section and is virtually identical to the same section in the Long-Term Investment Pool policy.

Limitations

- This section was reworded in order to comply with Ohio Revised Code, Section 3345.05.

Exercise of Shareholder Rights

Review and Modification of Investment Policy Statement

The following sections were eliminated due to redundancy or because they are no longer applicable:

- This is a new section and is identical to the same section in the Long-Term Investment Pool policy.
- This is a new section and is identical to the same section in the Long-Term Investment Pool policy.
- Investment Philosophy.

- Definitions.

- Management of Investments.

- Reporting and Accountability.

- Gains/Losses.

- Marketability.

- Authorized Investments.
- Allows for policy exceptions due to donor restrictions if approved by the Board of Trustees.

POLICY
May 2008

**THE OHIO STATE UNIVERSITY
OPERATING AND AGENCY FUNDS INVESTMENT POLICY**

I. PURPOSE

The purpose of the Operating and Agency Fund Investment Policy (hereinafter referred to as the "Policy") is to establish the overall management, investment strategies and discipline of The Ohio State University (hereinafter referred to as "The University") for the Operating and Agency Funds Portfolios (hereinafter referred to as the "Funds"). The Funds consist of the Short-Term Operating Fund, gift annuity and trust funds, student loan funds, and other non Long-Term Investment Pool funds which are under the control and supervision of the Treasurer. This policy is intended to permit sufficient flexibility to capture investment opportunities, yet provide parameters that ensure prudence and care in the execution of the investment program.

This policy is issued for the guidance of fiduciaries, including the Board of Trustees, Investment Committee members, staff, investment managers, investment consultants and custodians for oversight of the Fund. It also states the standards and disciplines adopted so that the Board of Trustees and its Investment Committee can effectively evaluate the performance and operations of the Operating and Agency Funds.

II. GOALS

The Funds shall be managed in diversified portfolios with the intention of obtaining a reasonable yield, balanced with a component invested for appreciation, while adhering to a prudent level of risk, and retaining sufficient liquidity to meet cash flow requirements. The portfolios shall be managed with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use. Individual portfolios may have more additional goals specific to their use. These policies will be in writing and approved by the Senior Vice President for Business and Finance.

POLICY

May 2008

III. FIDUCIARY STANDARDS

The Board of Trustees, Investment Committee members, staff, investment managers, consultants and custodians are fiduciaries. Accordingly, these individuals are required to:

- Act in the interest of the Fund, for the purposes of providing income and to preserve principal.
- Act with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims.
- Diversify the investments of the Fund in order to minimize overall risk, and to provide investment returns to achieve the Fund's stated goals.

IV. DUTIES AND RESPONSIBILITIES

A. Board of Trustees. The University Board of Trustees has overall responsibility for Fund policy and approval of Investment Committee members. The Board of Trustees vote on items brought forth by the Investment Committee.

B. Investment Committee of the Board Of Trustees. The Investment Committee has strategic oversight responsibility for the investment program and operations of the Funds. The Committee shall work with the Senior Vice President for Business and Finance and the Treasurer to ensure the Funds are well managed, in accordance with this policy. The Investment committee shall review and recommend revisions to this policy and shall advise the Board on its investments. The Investment committee shall meet at least quarterly.

C. Senior Vice President for Business and Finance. The Senior Vice President for Business and Finance has oversight responsibility for the Funds investment operations and reporting. The Senior Vice President for Business and Finance shall review operations and reporting within the Office of the Treasurer to ensure compliance with established policies and procedures.

D. Treasurer. The Treasurer is responsible for managing the Funds investment operations and reporting. The Treasurer shall review and recommend policies and procedures that are consistent with the investment objectives of the Funds. The Treasurer shall report to the Senior Vice President for Business and Finance and the Investment Committee.

E. Investment Managers. The University utilizes external investment managers to provide portfolio management services. The investment managers may be given discretion, consistent with specified objectives and guidelines, to manage Fund assets. Investment managers operate under a formal contract with the Treasurer that delineates responsibilities, risk parameters and performance expectations administrative requirements and compensation.

POLICY

May 2008

F. Consultants. The University may utilize the services of one or more investment consultants to assist the Treasurer in the areas of: policy development, asset allocation, investment structure analysis, investment manager selection, performance review and other specialized investment topics. Consultants operate under a formal contract with the Treasurer that delineates responsibilities and performance expectations, administration requirements and compensation.

G. Custodians. The University retains one or more custodian banks or trust institutions to custody and report on the assets of the Fund.

V. OPERATING FUND ASSET ALLOCATION AND GUIDELINES

A. Time Horizon. The University's Short-Term Operating Fund is divided into two pools: Short-Term Pool, which represents at least 30 days of total University expenditures, and has an investment horizon of less than one year. The Intermediate-Term Pool is the remainder and is invested with an investment horizon of one to five years.

B. Risk Tolerance. The Board of Trustees, the Investment Committee, and staff recognize the challenge of achieving the Fund's investment objectives in light of the uncertainties and complexities of investment markets. They also recognize that prudent levels of investment risk are necessary to achieve investment objectives.

C. Asset Allocation and Rebalancing. Asset allocation is the largest contributor to overall Fund return performance and risk characteristics. The Short-Term Pool serves as the working cash balance to provide necessary liquidity for the University's operations. The Board of Trustees and Investment Committee will periodically evaluate the allocation to the Short-Term Operating Fund and Long-Term Investment Pool for appropriateness. The University's Short-Term Operating Fund has the following classes and benchmarks:

Asset Class	Benchmark Index
Short-Term Pool	90 Day T-Bill
Intermediate-Term Pool	Merrill Lynch 1-3 year Bond Index

POLICY

May 2008

Market fluctuations, cash flows and liquidity issues will cause the actual asset allocation to fluctuate. The Treasurer will rebalance the portfolio to policy as follows:

Short and Intermediate Term Pools

The Short-Term Pool shall cover at least thirty days of University cash flow. At least 25% of the combined operating portfolio should be short-term, as a reserve, in accordance with Article VII. The amount of the combined Short and Intermediate Pools must be enough to cover at least sixty days cash flow. The amount of the combined Short and Intermediate Pools must be greater than or equal to 110% of all variable rate debt including commercial paper.

Long-Term

After the amount of the Short and Intermediate Pools are determined monies may be transferred to the Long-Term Investment Pool. Operating Funds available for transfer to the Long-Term Investment Pool should be net of bond construction funds. To assure units who have cash invested in these funds that they will receive full value of their investment, a stabilization reserve will be maintained. This reserve will be maintained equal to 5% of the value of the Long-Term Operating Fund and will be invested with the Short-Term Operating Fund.

General

The allocation amounts will be reviewed periodically but at least semi-annually. The number used to calculate days of university cash flow will be based on the Board of Trustees approved University Budget.

Other Funds

Funds other than the Short-Term Operating Fund will be managed according to this policy with asset allocations approved by the Treasurer.

D. Investment Manager Guidelines. The investment guidelines incorporated into each manager's contract documents the performance expectations and risk parameters of the manager's investment approach. The guidelines also specify the typical portfolio characteristics of the portfolio. These characteristics are used to monitor a manager's investment style adherence to insure that the manager is continuously fulfilling its investment role in the Fund.

POLICY

May 2008

VI. INVESTMENT MONITORING PROCESS

The Fund's investment managers will be monitored for consistency of investment philosophy, return relative to objectives, and investment risk. The Treasurer and the Senior Vice President for Business and Finance will monitor the overall fund results and investment portfolios, but results will be evaluated on a long term basis. The following manager issues will be considered by the Treasurer: (1) failure to comply with the applicable investment style, guidelines, performance objectives, and fees, (2) a material change in ownership or personnel, or (3) a violation or potential violation of the terms of the investment manager agreement or other applicable laws and regulations.

VII. OPERATING FUND LIMITATIONS

A. A stipulation that investment of at least twenty-five per cent of the average amount of the Operating and Agency Fund investment portfolio over the course of the previous fiscal year be invested in securities of the United States government or of its agencies or instrumentalities, the treasurer of state's pooled investment program, obligations of this state or any political subdivision of this state, certificates of deposit of any national bank located in this state, written repurchase agreements with any eligible Ohio financial institution that is a member of the federal reserve system or federal home loan bank, money market funds, or bankers acceptances maturing in two hundred seventy days or less which are eligible for purchase by the federal reserve system, as a reserve.

VIII. EXERCISE OF SHAREHOLDER RIGHTS

The University recognizes that publicly traded securities and other assets of the Fund may include certain ancillary rights, such as the right to vote on shareholder resolutions at companies' shareholders' meetings, and the right to assert claims in securities class action lawsuits or other litigation. The University requires of itself and its external managers the prudent management of these assets of the Fund for the exclusive purpose of enhancing the value of the Fund. The Treasurer has the authority to vote proxies in accordance with the Proxy Policy.

POLICY

May 2008

IX. REVIEW AND MODIFICATION OF INVESTMENT POLICY STATEMENT

All policies of the Fund are in effect until modified by the Board of Trustees. While material changes are expected infrequently, the Treasurer will review the Investment Policy at least annually for continued appropriateness and recommend any changes to the Senior Vice President for Business and Finance, the Investment Committee, and the Board of Trustees.

X. EXCEPTIONS

Modifications and exceptions to this Policy shall be authorized by resolution of the Board of Trustees or as provided herein.

June 6, 2008 meeting, Board of Trustees

(APPENDIX LIX)

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
FISCAL AFFAIRS COMMITTEE**

June 5, 2008

TOPIC:

FY 2009 Budget - Tuition and User Fees

CONTEXT:

This is a follow-up to the discussion at the April Board meeting. By establishing tuition and fees for FY 2009 now, our students and other stakeholders will have ample time to plan ahead.

SUMMARY:

- All resident undergraduate tuition and general fees will remain frozen for FY 2009, as provided for in the state budget bill. All tiered tuition levels will be phased out.
- Approval of non-resident and graduate instructional and general fees increase of 5%.
- Approval of room and board fee increase of 6%.
- Approval of RPAC fee increase of \$1 per quarter (1.2%).
- Approval of \$50 increase in selected existing program fees and new laboratory fees of \$50 for chemistry and physics laboratory classes and a new technology fee for the College of Education and Human Ecology.
- Approval of University Health System charges increase of 5.9%.
- Approval of an interim budget for the period between 6/30/08-7/11/08

The remaining actions necessary to implement the FY 2009 Current Funds Budget will be presented at the July 11th meeting.

CONSIDERATIONS:

- What will be presented at the July 11th meeting?
- What are the risks of operating on an interim budget for two weeks?
- How are we addressing continued uncertainty regarding the state budget?
- Are the Health System budget assumptions and proposed fee increases consistent with the integrated financial plan?

REQUESTED OF FISCAL AFFAIRS COMMITTEE:

Approval of the attached resolutions regarding FY 2009 Tuition, User Fees and Charges; and for an interim budget for FY 2009.

Discussion and advice regarding remaining current funds budget issues.

June 6, 2008 meeting, Board of Trustees

**The Ohio State University
Board of Trustees
Fiscal Affairs Committee
June 5, 2008**

Approval of FY 2009 Tuition and User Fees

- I. Action Requested at This Meeting
- II. Tuition and Instructional Fee
- III. User Charges
- IV. Health System Budget and Charges
- V. Differential and Supplemental Instructional Fees
- VI. What Happens Next
- VII. Summary and Conclusions

June 6, 2008 meeting, Board of Trustees

I. Actions Requested at This Meeting

- A. Approval of resident undergraduate tuition and general fees.
- B. Approval of all other student tuition and user fees.
- C. Approval of University Health System charges increase of 5.9%.
- D. Approval of an interim budget for the period between 6/30/08-7/11/08.

II. Tuition and Instructional Fees

A. Tuition for Resident Undergraduate Students

- 1. The tuition and general fees for resident undergraduates will remain frozen for FY 2009, per the parameters established in the FY 2008/2009 Budget Bill for the Columbus Campus, ATI and Regional Campuses.
- 2. All tiered tuition levels will now be phased out. The last tier included students admitted on or before Spring 2003. It is estimated that there are currently 1,500 students remaining in this group.
- 3. Even with a 10% increase in instructional support in FY 2009, state support per FTE will be below FY 2001 levels when adjusted for inflation.

**State Support Per FTE Student
FY 2001 - FY 2009**

(Ohio State Columbus Campus)

Year	State Support Per FTE	State Support Adjusted for CPI Inflation	State Support as a % of General Funds Budget
2001	\$7,209	\$ 7,209	43.3%
2002	\$6,695	\$ 6,591	42.0%
2003	\$6,367	\$6,128	39.6%
2004	\$6,286	\$5,893	36.4%
2005	\$6,337	\$5,746	32.7%
2006	\$6,435	\$5,636	31.6%
2007	\$6,490	\$5,543	30.4%
2008 ^{4,5}	\$6,741	\$5,706	30.0%
2009 ^{1,2}	\$7,286	\$6,167	31.0% ⁶

Source: Board of Regents projections for FY 2008- FY 2009. The Ohio State University Current Funds Budget for prior years.

- 4. This will be the first back-to-back 0% undergraduate tuition growth in more than 40 years (1965-1966).

⁴ Projected FTE's used for FY 08-FY 09.

⁵ Based on the Sub. H.B. 119: State support includes subsidy, success challenge funding, research incentive funding, and innovation incentive funding; the inflation rate for 08 and 09 was effectively set equal to FY 07 averaged with January 08.

⁶ This is an estimate based on projected revenue estimates and may vary slightly in the final budget presentation.

June 6, 2008 meeting, Board of Trustees

- OSU fees are still \$460 below the state average for selective admission universities.

University	Estimated Annual Full-time Resident Undergraduate Tuition & Fees (New Students)	Difference with OSU Tuition (per student)
Miami	\$9,900	\$1,221
Cincinnati	\$9,399	\$720
Average	\$9,139	\$460
Bowling Green	\$9,060	\$381
Ohio University	\$8,907	\$228
Ohio State*	\$8,679	
Kent State	\$8,430	-\$249

\$460 X 35,700 FTE =

\$16.4 million

With the exception of Ohio State, assumes \$0 increase in tuition and fees above the FY 08 rate.

**OSU figure includes the COTA Fee and the Mandatory Recreation Fee The Recreation Fee is exempt from the state tuition freeze.*

- OSU will have the lowest increase in undergraduate tuition when compared to our benchmark institutions (see table on next page).

**New Student Annual Resident Undergraduate Tuition and Fees
Fiscal Year 2009**

Institution Name	FY 2008¹	% Increase	FY 2009¹	Status
PENNSYLVANIA STATE UNIVERSITY ^{1b,2}	\$12,844	5.3%	\$13,520	Proposed

UNIVERSITY OF ARIZONA ^{1a}	\$5,048	9.8%	\$5,542	Final
Benchmark Average¹⁰	\$8,645	6.3%	\$9,193	

TBD=To Be Determined

¹Sources for FY 2008 data: AAUDE Data Exchange except Michigan and Texas which were provided by the institutional campus representative. Sources for the 2009 data: Institutional research campus representatives^a; and web sites^b; proposed and preliminary estimates are subject to change until final approval.

²According to Office of Student Aid: *Estimated Penn State 2008-09 First-Year Undergraduate Costs*, based on the budget Penn State has submitted to the General Assembly of the Commonwealth of Pennsylvania. Final tuition and fees will be determined by the Board of Trustees in July, 2008, following approval of the University's state appropriation by the Commonwealth.

³For the University of Michigan-Ann Arbor, the tuition rates for 2008-09 are expected to become available around June 17th.

⁴Figure shown is according to the May 8 and 9, 2008, *University of Minnesota, President's Recommended Operating Budget Plan 2008-09*. Includes university and student service fees. University of Minnesota's Board of Regents will be approving tuition rates at their June 12-13, 2008 Board meeting.

⁵OSU tuition and fees for new students entering after Spring Quarter 2003. Includes the \$27 Cota Fee and the \$246 Mandatory Recreation Fee. The Recreation Fee is exempt from the state tuition freeze.

⁶FY 2009 tuition/fees for the University of Texas at Austin were approved in March by the UT System Board of Regents. However, the figure shown for FY 2009 is calculated by applying a 4.95% increase to the weighted average shown for FY 2008. According to UT's campus representative, the FY 2009 figure will be finalized when headcount enrollments by college are known in fall 2008.

⁷For the University of California-Los Angeles, UC regents approved the General Student Service fee on May 14, 2008. The above figure includes this approved rate plus additional fees, which cannot be currently confirmed by the institution's representative. The additional fees are based on the same rates that UCLA reported to the AAUDE Data Exchange in FY08.

⁸For the University of Wisconsin-Madison, the tuition rates for 2008-09 are expected to be available in June and approved by the Board of Regents in early July.

⁹For the University of Washington-Seattle Campus, the tuition rates for 2008-09 were reviewed by the Board of Regents on May 15, 2008 and are expected to be approved on June 12, 2008.

¹⁰Benchmark Average excludes OSU figure.

B. Tuition for Other Students Effective Fall Quarter 08

1. Resident graduate instructional fees for the Columbus Campus, ATI and Regional Campuses are recommended to increase 5% for a full-time student. Annual Columbus campus graduate resident fees will be \$10,440.
2. Non-resident graduate and undergraduate fees for the Columbus Campus, ATI and Regional Campuses are recommended to increase 5% for a full-time student. Columbus Campus non-resident students will pay, in addition to resident fees:
 - Undergraduates: \$13,239 annually
 - Graduate students: \$14,862 annually

C. Per Credit Hour Fee Charges

Per credit hour charges will be presented to the Board of Trustees for review and approval at the February 2009 Board meeting to accommodate a requirement of the new Student Information System that all student fees be equally divisible among the full time credit hours. Full time fee charges will not change significantly.

D. State Support

We will continue to monitor state revenues as economic uncertainty continues for the state and the nation. Based on the May report from the Office of Budget and Management, year-to-date tax revenues are \$24.3 million or -0.1% below the February revised estimates. Actual year-to-date GRF disbursements are running \$337 million or 1.5% below the revised disbursement estimates.

III. Designated User Fees

- A. Fees and Charges listed below are required to provide activities and services which are self-supporting and receive no state support or tuition dollars.

Fees and Charges

(All figures are for an academic year of three quarters)

Mandatory for All Students	Current Amount	Dollar Increase	Percent Increase
Recreation Fee ⁷	\$246	\$3	1.2%
Health Insurance ⁸	\$1,434	\$111	7.74%
COTA Bus Pass	\$27	\$0	0.0%

Non-Mandatory				
Room & Board ⁹	\$7,596	\$441	5.8%	
Parking ¹⁰	\$75.60	\$3.60	4.8%	
Football Tickets ¹¹	\$120.00	\$4	3.4%	
Basketball Tickets ¹²				\$120.00

⁷ This is a flat fee for four credit hours and above.

⁸ Based on "Single Student Comprehensive Rate".

⁹ Weighted average room rates and basic meal plan. Individual rates may vary.

¹⁰ Rate is for West Campus.

¹¹ Student football package is 4 games.

¹² Student basketball package is 10 games.

IV. The Ohio State University Health System Fiscal Year 2009 Budget and Fee Increases

The Ohio State University Health System budget for Fiscal Year 2009 is built on the strategic and financial plans of the organization. It provides a significant increase in Total Operating Revenues that will exceed \$1.6 billion, an increase of \$118.0 million or 8.06% compared to the FY 2008 forecast. Of the \$118.0 million growth in total revenues, approximately \$13.2 million is generated through the weighted average 5.9% price increase and \$104.8 million is generated through contractually agreed rate increases, additional volume and new programs. As a result, the FY 2009 budget provides a positive gain from operations of \$115.8 million compared to a FY 2008 forecast of \$110.6 million. The Health System is budgeting Earnings before Interest, Depreciation and Amortization (EBIDA) of \$196.3 million compared to the FY 2008 forecasted EBIDA of \$179.3 million.

Key Statistics and Activities:

	<u>2009</u> <u>Budget</u>	<u>2008</u> <u>Forecasted</u>	<u>%</u> <u>Change</u>
Admissions	59,204	57,537	2.9%
Patient Days	343,071	332,356	3.2%
Length of Stay	5.79	5.77	0.4%
Average Daily Census	940	908	3.5%
ED Visits	105,600	103,795	1.8%
Outpatient Visits	961,339	936,807	2.6%
Surgery Cases	32,124	31,447	2.2%
FTE 's	8,850.3	8,529.5	3.8%
Weighted Price Increase for UH, UHE, OSU James, and OSU/Harding			5.9%
Weighted Average Salary and Benefit Increase			5.3%

The following assumptions were used in preparing the FY 2009 operating budget:

- **Total admissions are budgeted to increase 1,667 or 2.9% over the FY 2008 forecast.** This includes growth in our signature programs, particularly the heart and cancer signature programs. Included is a shift from Cardiology admissions from University Hospital to the Ross Heart Hospital resulting from the opening of the two additional floors in July. The James Cancer Hospital will also be opening an additional twelve beds in FY 2009.
- **Total patient days are budgeted to increase by 10,715 or 3.2%** resulting in an average daily census of 940 compared to 908 in the FY 2008 forecast. Again, much of the increase is related to the growth in the opening of the two additional floors in the Ross Heart Hospital, as well as continued growth in the James Cancer Hospital.
- **Operating revenues are budgeted at \$1.58 billion, an increase of 8.1% or \$118 million.** The weighted average 5.9% price increase, effective, July 1 will reduce overall collection percentages but yields a recovery rate of 5.7 cents for every dollar of price increase. In addition, the Health System will receive improved reimbursement from the HCAP programs of approximately \$10.0 M in FY 2009. Included are a 1.5% increase from Medicare and a 6.0% from Managed Care/Commercial payers.
- **Salaries and benefits are reflective of an average merit increase of 5.0% in FY 2009.** The salary increase is weighted slightly higher due to

the Ohio Nurses Association contract, which will have a full year impact of approximately 6.0%. All other employees, excluding CWA are budgeted to receive a 3.6% merit average.

- **FTEs are budgeted to increase from 8,529.5 FY2008 Forecast to 8,821.0 FY 2009 Budget or 291.5 FTEs.** This is a 3.4% increase in FTEs while overall activity is expected to increase approximately 2.9%. The difference is primarily due to the opening of the two additional floors at the Ross Heart Hospital, the opening of the twelve additional beds at the James Cancer Hospital, a new BMT Clinic, and the opening of additional Outreach Heart sites for Specialty Care Network.
- **The cost of employee benefits will increase from 28.7% of salaries in FY 2008 to approximately 29.1% for the FY 2009 budget.** Most of this increase is attributable to an increase in the benefits calculation from the University and change in mix of employees.
- **Supplies are budgeted to increase \$10.2 million or 5.3%.** However, on a per adjusted admission basis, supplies are increasing 1.5% with most of the increase related to Other Medical Supplies and Instruments.
- **Costs of Drugs are expected to increase by \$5.3 million or 6.0%.** However, on an adjusted admission basis, Cost of Drugs Sold are only increasing 2.3%.
- **Services are budgeted to increase from a FY 2008 forecast of \$159.3 million to \$173.0 million.** This is an increase of \$13.7 million or 8.6%. On a per adjusted basis, services are increasing by 4.5%, with much of the increase related to additional purchased services, preventive maintenance agreements and increases in utilities costs, mostly in electricity.
- **Resident Salaries and Benefits are increasing by 8.3% or \$2.9 million.** This is an increase and is attributable to an additional 17 resident slots and an increase in average rate per resident of 2.75%.
- **Depreciation is expected to increase by approx. \$11.3 million.** This is primarily due to the opening of two additional floors at the Ross Heart Hospital, the opening of the MRI Facility, and the North Doan Digestive Health Expansion. These additional capital expenditures total approximately \$65 million.
- **Medical Center Investments are budgeted to increase by 6.4% or \$4.2 million.** The increase from \$65.8 million in the FY 2008 forecast to \$70.0 million in FY 2009 is primarily attributable to physician recruitment and support. The Medical Center Investments represent 4.4% of the Health System FY 2009 budgeted total operating revenues.
- **The FY 2009 Capital Budget of \$104.6 million** is comprised of \$12.3 million in Imaging, \$20.3 million in infrastructure and renovations, \$55.6 million in medical and non medical equipment, and \$16.4 million in information systems. Of the \$104.6 million budget, only \$89.4 million will be spent in FY 2009. The remainder will be committed to future years.

June 6, 2008 meeting, Board of Trustees

In summary, The Ohio State University Health System budget for FY 2009 continues to reflect the expected growth in volume and improvement in margins consistent with the strategic and financial plans. The FY 2009 budget also meets the financial targets set in the long range financial plan by growing cash on hand between three to four days, having an EBIDA margin of 12.4 % and debt service coverage of 6.87. The areas of sensitivity in the budget are: volume changes, payer mix shifts and service mix. With that said, reaching the financial targets should be attainable.

V. Differential and Supplemental Instructional Fees

Differential instructional fee increases for other students will range from +1.2% to +10.0%, effective Fall Quarter 2008

Fisher College of Business is offering a new program for FY 2009, the Masters in Business Operational Excellence (MBOE). This is a four-quarter program; its fee structure is similar to that of the EMBA. The proposed instructional fee for this program is \$9,343 per quarter.

College	FY 2008	Proposed FY 2009 Increases ¹³			
	Instructional Fees/Qtr	Instructional Fees/Qtr		Non-Resident Surcharge/Qtr	
Business		% Chg	\$ Chg	% Chg	\$ Chg

¹³ Non-resident students pay the non-resident surcharge in addition to the fees paid by resident students, which include a general fee, student activity fee and recreation fee not shown on this table.

June 6, 2008 meeting, Board of Trustees

Supplemental instructional fees that apply to some students:

Technology Fees	FY 08 Rate	Dollar Increase	Percent Increase
Arts (UGg & Grad)	\$ 56	\$ 4	7%
Education and Human Ecology (UG)	\$ -	\$ 50	New
Education and Human Ecology (Grad)	\$ -	\$ 75	New

Undergraduate Program Fee			
College of Business	\$ 200	\$ 50	25%
College of Engineering	\$ 50	\$ 50	100%
School of Allied Medical Professionals	\$ 50	\$ 50	100%
School of Music	\$ 159	\$ 50	31%

Clinical Fees			
Optometry Clinic Usage Fee	\$ 340	\$ 34	10%
Nursing Clinical Fee	\$ 250	\$ 25	10%
Nursing Insurance - Annual Fee	\$ 13	\$ 3	23%

Lab Fees (Course Based)			
Physics	\$ -	\$ 50	New
Chemistry	\$ -	\$ 50	New

VI. What Happens Next

- A. The FY 2009 Operating Budget (including revenue and expense detail) will be presented for approval at the July 11, 2008 Board of Trustees meeting, along with instructional and general fees for regional campuses.
- B. The Current Funds Budget book will be presented at the September Board meeting.
- C. All fee increases will be effective Fall Quarter 2008, unless otherwise indicated.
- D. Hospital fee increases will be effective July 1, 2008.
- E. Pay raises for most faculty and staff will be effective October 1, 2008.

VII. Summary and Conclusions

- A. The freeze in resident undergraduate tuition will save Ohio families \$15 million in FY 2009 alone. This is the first back-to-back freeze in tuition in more than 40 years.
- B. The 5% increase in graduate fees is the lowest in six years.
- C. Other benchmark universities that have announced resident undergraduate fees are looking at increases of 4.9% and up.
- D. Increases in state support and other income sources will allow academic goals to be met, while preserving financial stability.
- E. Increased admissions and selected increases in charges should allow the Health System to support the University's academic mission and meet its financial performance goals.
- F. More detail will be presented in July.

June 6, 2008 meeting, Board of Trustees

(APPENDIX LX)

**THE OHIO STATE UNIVERSITY BOARD OF TRUSTEES
FISCAL AFFAIRS COMMITTEE**

June 5, 2008

TOPIC:

Financial Performance Goals

CONTEXT:

These goals have been developed by the Integrated Financial Planning Group to assist in the University's strategic financial planning. They have been thoroughly vetted and reviewed over the last nine months.

RECOMMENDATIONS:

- It is recommended that specific goals be approved in each of the following areas and reported annually:
 - Liquidity
 - Margin
 - Debt
 - SB6 Ratios
 - Credit Rating
 - Health System
- It is recommended that the attached format be approved for reporting on at least an annual basis for the University and monthly for the Health System. A more complete description can be found on the Office of Business and Finance web site.

CONSIDERATIONS:

- How does this align with other strategic planning goals?
- How has this been vetted internally?
- To what degree are these goals aspirational v. protective?
- How will this information be tracked and reported to the Board?

REQUESTED OF FISCAL AFFAIRS:

Approval.

College of Medicine Renovation/Addition

OSU-080338

Requesting Agency(s): MEDICINE AND PUBLIC HEALTH ADMIN

Location(s): Prior Health Sciences Library

73,555 ASF/106,543 GSF Age: 1973

Description/Scope:

This project will construct a two-story addition to the Prior Health Sciences Library. The addition will be approximately 37,000 GSF and will house simulation and clinical skills labs for the Clinical Skills department in the College of Medicine.

How does this project advance the Academic Plan? This project advances the Academic Plan by improving the teaching and learning facilities for the College of Medicine.

Funding Status and Sources: This project is partially funded by 2007-2010 capital appropriations. If appropriations are delayed or reduced the College of Medicine must identify an alternate funding source or reduce project scope.

Logistics: None

Energy and Sustainability: None

Risks: None

Deferred Maintenance: None

Deferred Renewal: None

North Campus Chilled Water Extension

OSU-071544

Requesting Agency(s): FACILITIES OPERATIONS AND DEVELOPMENT

Location(s): Various Locations, Columbus

ASF/O GSF App:

Description/Scope:

This project will provide chilled water system upgrades to the area at the north edge of campus near Lane Avenue. New distribution lines will provide chilled water for the Student Academic Services Building with additional capacity for other potential small loads in the area. Some central plant upgrades will be done. A new section of utility tunnel will be constructed to support future expansion of other utilities in the area with minimal impact to the roads and walks.

How does this project advance the Academic Plan? This project will advance the Academic Plan by providing reliable chilled water supply to the proposed Student Academic Services building.

Funding Status and Source: Funding has been confirmed and approved.

Logistics: This project must be expedited to align with the anticipated construction completion date for the Student Academic Services building to ensure adequate chilled water supply.

Energy and Sustainability: None.

Risks: None.

Deferred Maintenance: None.

Deferred Renewal: None.

(APPENDIX LXII)

TRANSFER OF REAL ESTATE

**472 Hudson Street
Redwood City, CA**

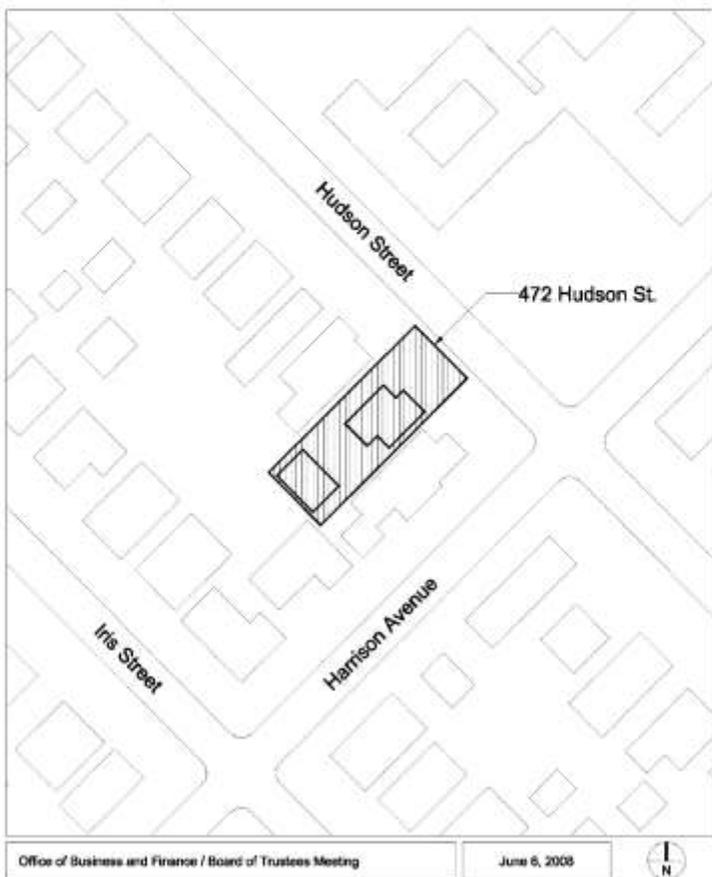

The property is located at 472 Hudson Street, Redwood City, California. The property was donated as a gift and is held in the name of the Board of Trustees of The Ohio State University. The gift was accepted with the intention of liquidating the property. The property consists of two platted lots improved with two buildings. The improvements consist of a 1,270 square foot bungalow style house and an additional building containing two apartments and a garage. The house contains six rooms, including three bedrooms, kitchen and bath. The apartments are a two bedroom, 900 square foot apartment with one bath and a studio apartment, with a kitchenette and a bath. There is a two-car garage in the building with the apartments.

It is the intent of the Treasurer to sell the real property. To facilitate the marketing and sale of the property the Treasurer requests that ownership of the property be transferred from the Board of Trustees of The Ohio State University to The Ohio State University Foundation. This transfer of ownership will permit The Treasurer to complete the sale on behalf of the Foundation. It is requested that the Senior Vice President for Business and Finance be authorized to execute a deed transferring all right, title, and interest in the property to The Ohio State University Foundation.

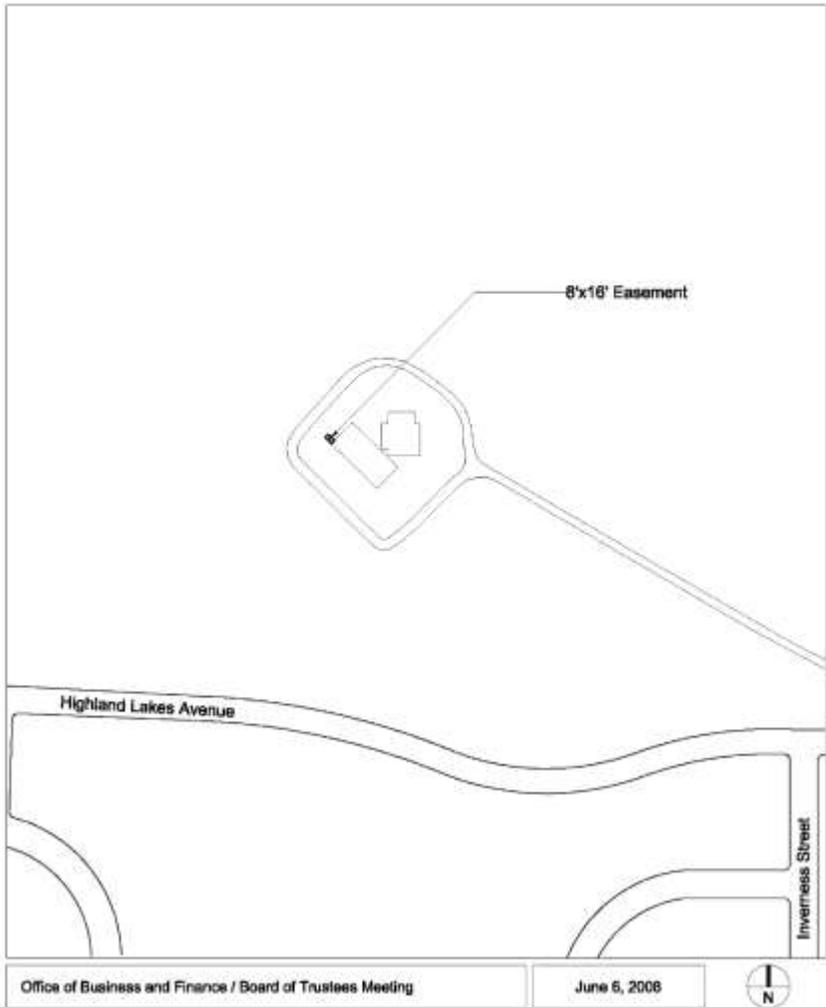

Appraisals and Consideration:

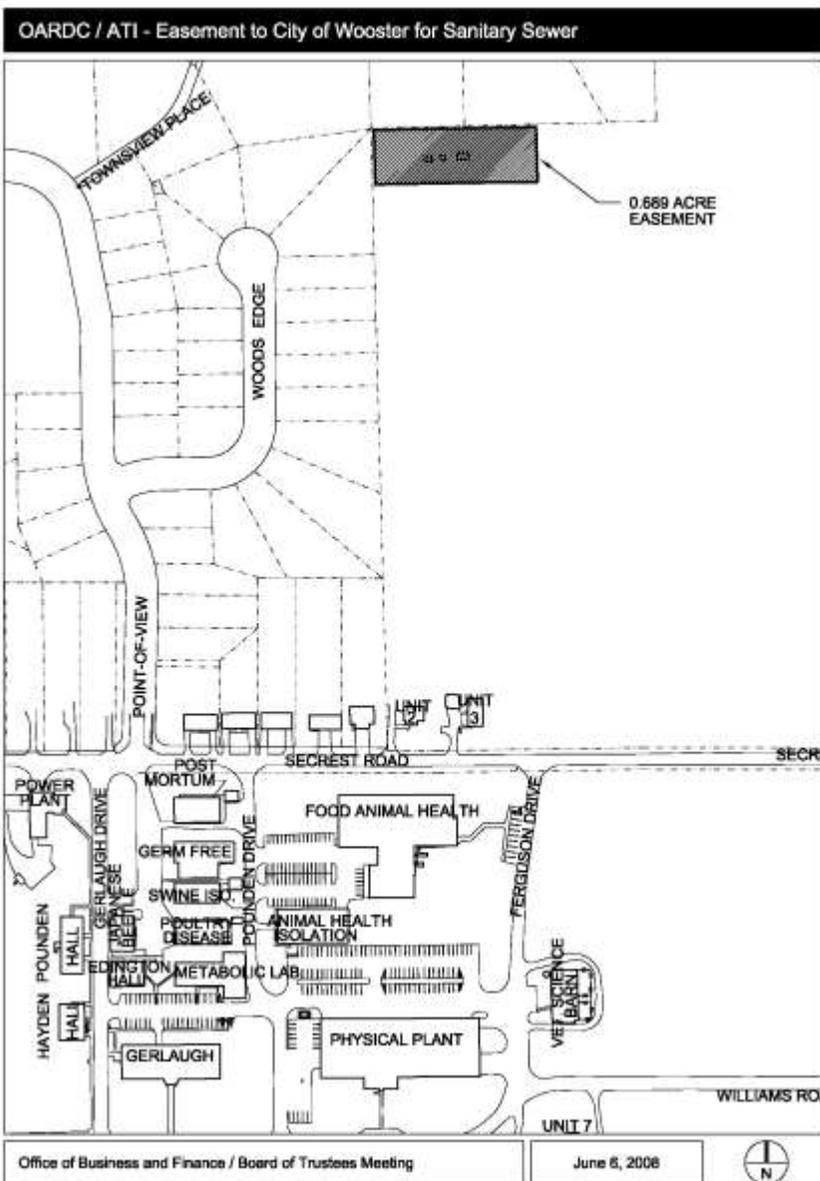

R.T. Roche & Assoc. conducted an appraisal and as of February 27, 2008, valued the property at \$900,000. The Treasurer will rely on the appraised value as the asking price for the sale of the property. The Treasurer will enter into and agree to such terms and conditions of sale as are in the best interest of the University and The Ohio State University Foundation.

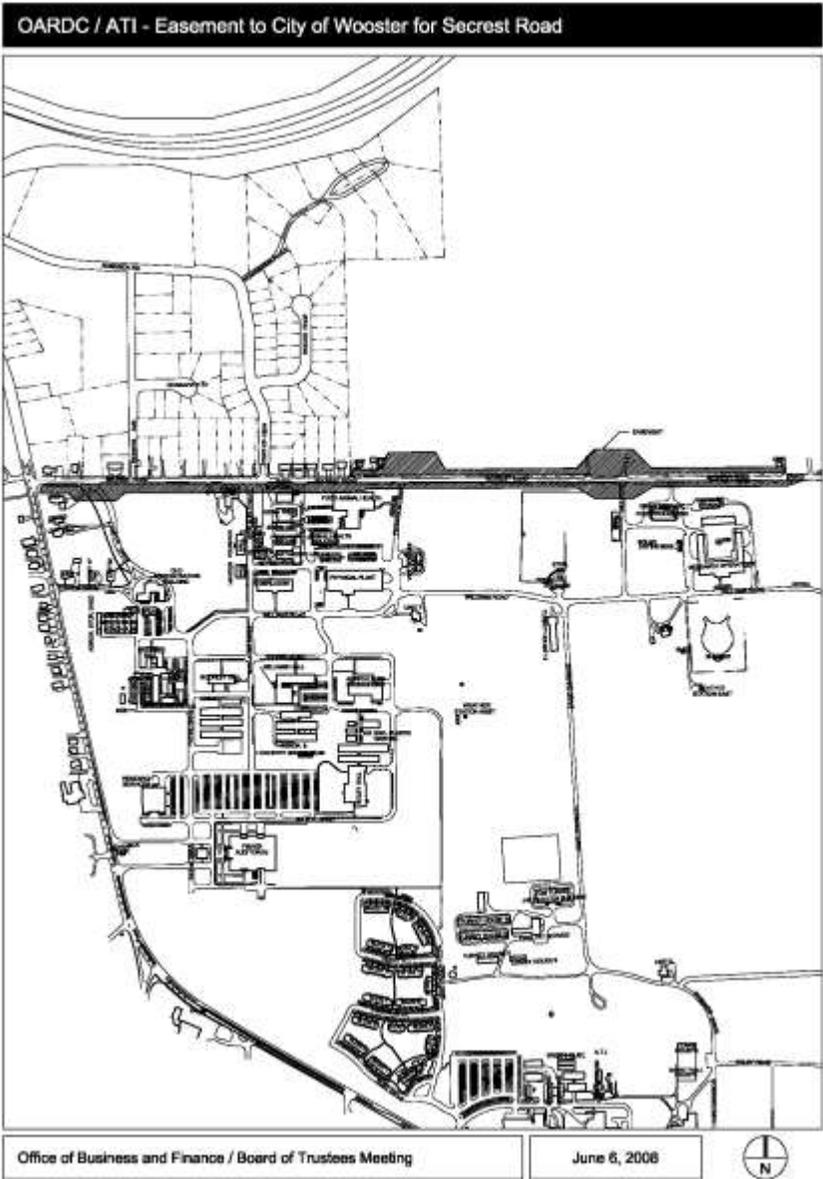

Transfer of Ownership of 472 Hudson Street, Redwood City, California

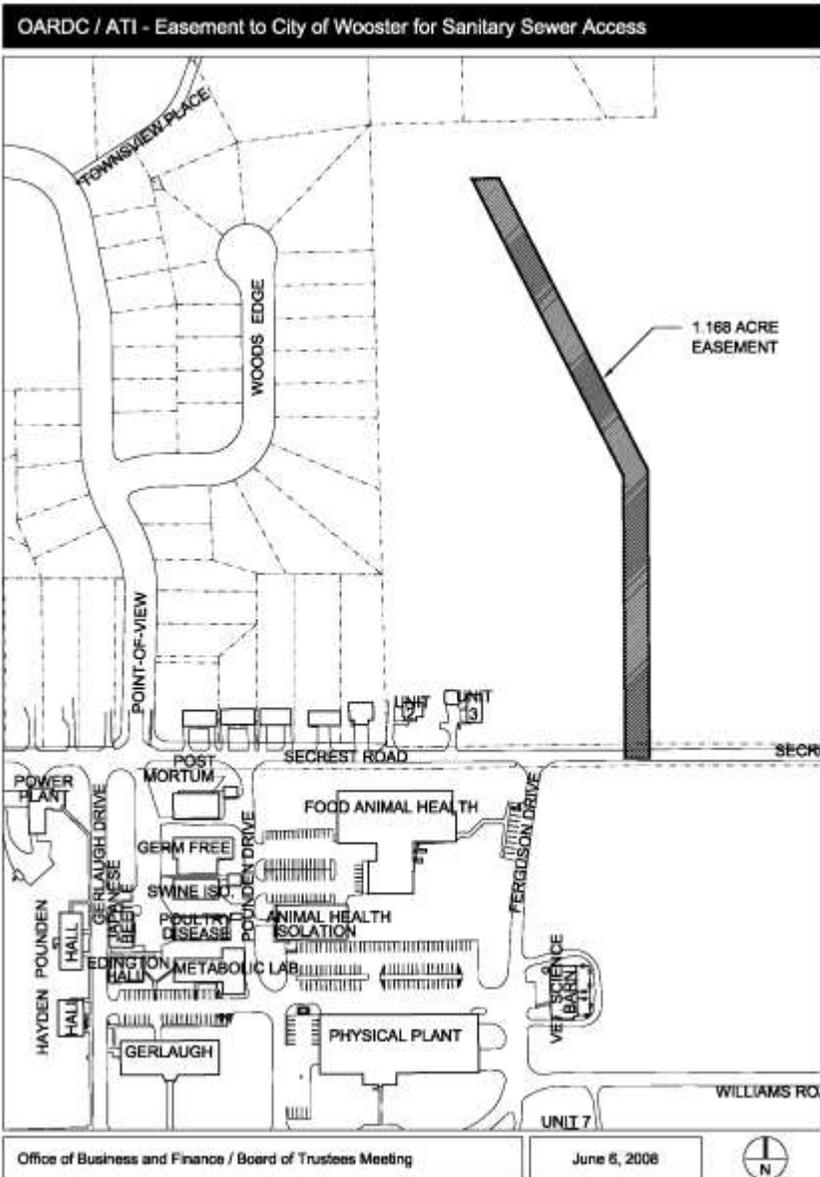

Easement to Columbus Southern Power Company at Highland Lakes

(APPENDIX LXIV)

LONG-TERM LEASE

OSU MEDICAL CENTER 23 NORTH AMBULATORY CARE CENTER
LEWIS CENTER ROAD
LEWIS CENTER, OHIO 43035

Background

Location and Description

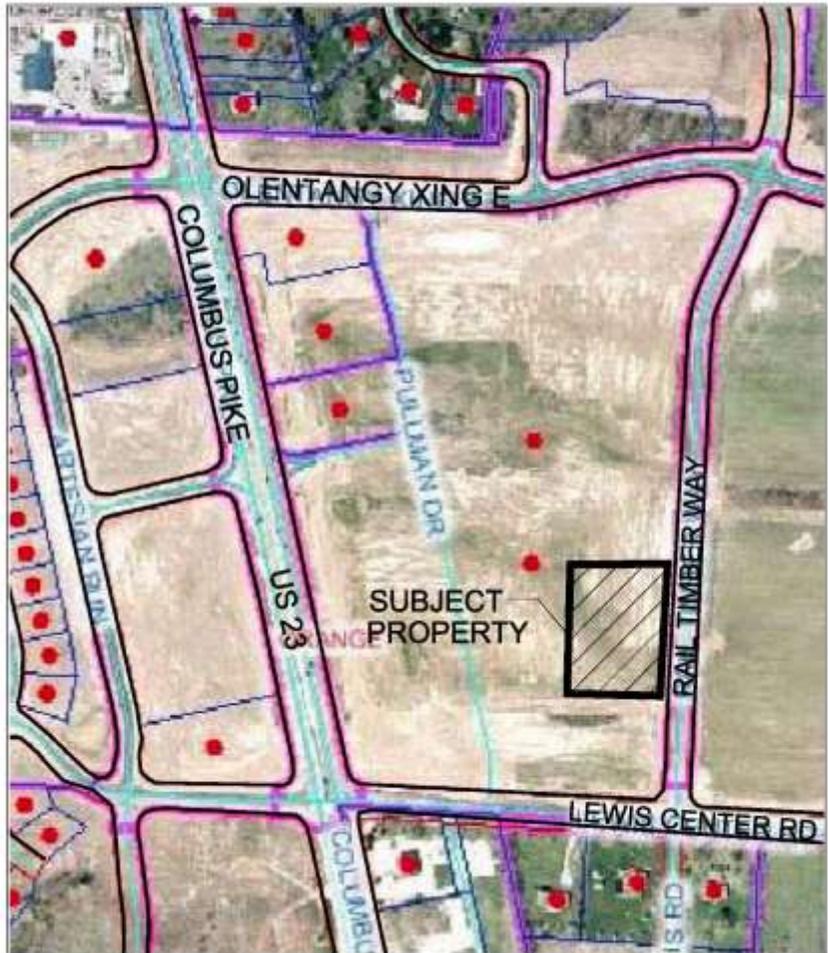

The Ambulatory Care Strategy is a key component of the OSU Medical Center (OSUMC) Strategic Plan. The plan emphasizes improved access and growth of the OSUMC's Signature Programs and related, referring programs. The 23 North Ambulatory Care Center is the first of four priority sites that comprise the ambulatory strategic plan. This location will be a new market for OSUMC and will afford residents of this community access to services in an area of Columbus that is currently underrepresented by OSUMC. Per OSUMC Ambulatory Plan guidelines, the business plan for this center demonstrates positive contribution and is self-sustaining.

The property will be located off of State Route 23 North on Lewis Center Road. The proposal provides for 30,000 SF of medical office space for multiple clinical specialty use per the plan's specifications. The plan will provide the necessary square footage for the initial program and space for future expansion as the programs develop, along with adequate parking and good visibility. This facility will be leased to OSU for a twenty-year term with renewal and purchase options. All costs including lease payments and operating costs will be paid for by the operating revenue generated at the location. Proposals for facility development were solicited through a competitive bid process and this lease arrangement was deemed superior to other proposals.

Terms of Lease

The initial lease term shall be for a period of twenty (20) years with renewal options. The proposed base rate will not exceed \$55,000 per month during the first 5 years or \$660,000 annually (\$22.00/SF). This includes estimated amortized tenant improvements but does not include operating expenses or amortized replacement and repair capital for the lease premises. This rate, while not fully negotiated, is subject to interest rates for developer financing and confirmation of tenant improvement costs upon which final rental rates will be established. The total commitment of this lease, including operating expenses over the twenty-year term, will not exceed \$22.0 million. Lease terms and conditions currently proposed by the landlord will be further reviewed and negotiated until a final lease is acceptable to the parties. The terms and conditions of the lease will be negotiated in the best interest of the OSU Medical Center and the University.

OSU Medical Center 23 North Ambulatory Care Center
Lewis Center, Ohio

THE OHIO STATE UNIVERSITY
COMMENCEMENT CONVOCATION

June 8, 2008

COMMENCEMENT ADDRESS

Brian Williams

DOCTOR OF JOURNALISM

Brian Williams is only the seventh anchor and managing editor in the history of NBC Nightly News.

Since joining NBC News in 1993, Mr. Williams has become one of the nation's foremost television journalists, covering virtually every major breaking news event and traveling extensively around the world. He is a veteran of political campaigns and elections and the Middle East, and he has traveled to dozens of U.S. cities and foreign countries in the course of covering the news over more than two decades.

In his first two years on the job, he became the most highly decorated network evening news anchor of the modern era. He has received six Edward R. Murrow Awards, seven Emmy Awards, the duPont-Columbia University Award, and the industry's highest honor, the George Foster Peabody Award. Most were awarded for his work in New Orleans while covering Hurricane Katrina and its aftermath. *Vanity Fair* magazine later called his work "Murrow-worthy," and *The New York Times* said his reporting of Katrina was "a defining moment as a network reporter and anchor." In 2006, *Time* magazine named Brian Williams one of the 100 most influential people in the world.

Mr. Williams is a former NBC News chief White House correspondent and former anchor and managing editor of *The*

News with Brian Williams on MSNBC and CNBC. He traveled for two years with the president on board Air Force One and has covered numerous nominating conventions and presidential campaigns and elections. He has moderated several presidential debates, including co-hosting the Obama-Clinton debate in Cleveland earlier this year.

Mr. Williams was the first NBC News correspondent to reach Baghdad during the 2003 war in Iraq and was part of a U.S. Army helicopter mission that was forced down by enemy fire south of Najaf. He nonetheless has returned to Iraq several times.

He is a native of Middletown, New Jersey, where he spent many years as a volunteer firefighter. He attended Catholic University and George Washington University, both in Washington, D.C., and he is a former White House intern. He is a member of the board of directors of the Congressional Medal of Honor Foundation.

Mr. Williams is a frequent guest on the *Daily Show with Joe Stewart* and has often appeared with David Letterman, Jay Leno, and Conan O'Brien. After he hosted *Saturday Night Live* in November, *Entertainment Weekly* said his name belongs alongside SNL's all-time greats. He has written for *The New York Times*, *Time*, *Newsweek*, and *The Wall Street Journal*.

RECIPIENTS OF HONORS

Brien A. Holden

DOCTOR OF SCIENCE

Brien Holden is Scientia Professor in the School of Optometry and Vision Science at the University of New South Wales in Australia. He is CEO of the Institute for Eye Research and a director and deputy CEO of the government's Vision Cooperative Research Centre.

An internationally renowned leader in the eye and vision science arena, Professor Holden founded the Cornea and Contact Lens Research Unit in 1976 at the University of New South Wales, doing cutting-edge research on corneal physiology and new contact lens materials and designs. The unit has grown into the Institute for Eye Research, the major partner in the Vision Cooperative Research Centre, a government-sponsored centre dedicated to new and better ways of seeing based on research into myopia development, refractive surgery, anti-infection strategies, vision care delivery, and many other areas of basic and applied vision science.

A graduate of the University of Melbourne, Professor Holden holds a doctorate from The City University in London. He gained fame in the 1970s for discovering the cellular changes occurring at the level of the corneal endothelium that are induced by stimuli affecting the corneal epithelium of the eye, which had a huge impact on long-wear contact lenses. His research at the University of New South Wales has measured the fundamental oxygen needs of the cornea—developing cornea implants, accommodating gel intraocular lenses—and worked to develop unique contact lens materials in partnership with the contact lens industry. He has published more than 300 peer-reviewed articles on his research.

Professor Holden has had many visiting appointments at universities across the globe, including a 1978 appointment at The Ohio State University's College of Optometry.

His international work includes serving as chair and CEO of the International Centre for EyeCare Education; global chair

of Optometry Giving Sight; chair of the Refractive Error Working Group of the World Health Organisation; and board member of the International Agency for Prevention of Blindness and its Vision 2020: Right to Sight Global Initiative. In addition, he serves as deputy co-chair of Vision 2020 Australia and chair of the board of management of VisionCare NSW.

Through these organizations, Professor Holden helps millions of people in underserved areas throughout the world who are blind or vision impaired because they have no access to eye examinations and vision correction.

His many honors include the 1986 Ruben Gold Medal from the International Society for Contact Lens Research, the 1988 HB Collin Research Medal from the Australian Optometrical Association, the 1988 Glenn A. Fry Award from the American Academy of Optometry, and the Medal of the Order of Australia for services to research and humanity.

RECIPIENTS OF HONORS

Edwin M. Cooperman

DISTINGUISHED SERVICE AWARD

Edwin M. Cooperman is chair of Edmarc Investments, a privately held consulting and venture capital firm. He is also a principal of T.C. Solutions, a privately held investment and financial services consulting firm.

He is former chair of the Travelers Bank Group and executive vice president of Travelers Group. Travelers merged with Citicorp to become Citigroup, one of the world's largest financial services companies. After joining Travelers in 1991, he became chair and CEO of Primerica Financial Service Group. Previously, he had a distinguished career at American Express, starting as an attorney in 1972 and becoming chair and co-chief executive of Travel Related Services, North America, the primary operating division of American Express Company, housing its card, travel, and travelers cheque units.

A 1984 graduate of Queens College, Mr. Cooperman earned a JD from The Ohio State University Moritz College of Law and an LL.M. from New York University School of Law. He became an associate professor at the U.S. Military Academy at West Point, where he served as counsel to a cadet accused of violating the academy's honor system. The incident received national news coverage and was the subject of an NBC television movie.

Mr. Cooperman's service to Ohio State is wide-ranging and thoughtful. He is a member of The Ohio State University Foundation Board and a long-time member of the Moritz College of Law's National Council, an alumni advisory group. He has assisted the law school in revamping its communication/public relations strategic plan and served as chair of the college's

\$30 million "Investing in Momentum" campaign. He played a leadership role in the building of the Barrister Club in the South Campus Gateway and has endowed a designated professorship in the College of Law.

In addition, he has lent his time and support to the Ross Heart Hospital, serving as vice chair of its campaign committee, and to Ohio State's Agricultural Technical Institute's Equine Program, where he has bred several horses.

Mr. Cooperman has made exceptional contributions to the cultural, economic, and social life of New York City, including raising funds for the revitalization of the Statue of Liberty and Ellis Island. In 1990, his career was featured on a half-hour CNBC special called "Profiles in Power."

Barbara J. Tootle

DISTINGUISHED SERVICE AWARD

Barbie Tootle is president of Left Field Consulting, providing training in creativity and organizational and personal development, consultation on communication strategies, and speech writing services for leaders in corporate, higher education, and nonprofit organizations.

A two-time graduate of The Ohio State University, Ms. Tootle holds a bachelor's degree in business administration and a master's in sociology. She joined the Ohio State staff in 1969 as an administrative assistant in the Disaster Research Center. In 1974, she became coordinator of the Office of Greek Affairs, where she served for 11 years as advisor to 63 undergraduate fraternities and societies. She was one of the key contributors to the 1999 GreekLife Task Force, created to evaluate, strengthen,

and improve fraternity and sorority life at Ohio State. She is a founder and past president of the Association of Fraternity Advisors.

In 1985, Ms. Tootle joined the Office of the President at Ohio State, where she worked for Presidents Jennings, Gee, and Kirwan before retiring in 1999. During her tenure in the president's office, she served first as program coordinator, then as director of editorial projects, director of special projects, and, finally, as special assistant to the president.

Ms. Tootle remains an active member of the Ohio State community, notably as The Ohio State University Alumni Association representative on the Ohio Union Council, helping to plan the new union, now under construction. A meeting room in the new

union will be named for her, thanks to gifts from former students. She continues to represent her alma mater by educating alumni at many alumni clubs and has been the featured speaker at several annual Alumni Leaders Conferences at the Alumni Association.

Her work with women's athletics through the Ohio State Varsity "O" Women's Alumnae Society is recognized with the Barbie Tootle Buckeye Spirit Award. Additionally, she continues to be involved with campus groups, including Mortar Board, Sphinx, Pi Beta Phi, and Ohio States, Inc. She is a member of the National Speakers Association, a director of the National Order of Omega, and a trustee of Columbus' Thurber House.

The Graduate School

Dean: Patrick S. Osmer

Doctor of Musical Arts

John Richard Hall, Fargo, ND
B.Mus. (DePaul University)
M.Mus. (University of Oklahoma Norman Campus)
Music
Dr. Susan K. Powell

Hong-Jiun Lin, Taichung, Taiwan, R.O.C.
B.Mus. (Boston Conservatory of Music)
M.Mus.
Music
Dr. Katherine Borst Jones

Douglas Charles Monroe, Yorktown, VA
B.Mus. (Michigan State University)
M.Mus. (University of Arizona)
Music
Dr. James M. Pyne

Joseph Michael Schauer, St. Paul, MN
Certificate (Berklee College of Music)
B.A. (University of Wisconsin - Stevens Point)
Master's (Kent State University)
Music
Dr. Paul Gene Robinson

Mark Alan Wade, Marysville
B.Mus. (Ohio Wesleyan University)
M.Mus.
Music
Dr. Timothy Lee Leasure

David Malcolm Wolf, Bedford, MA
B.Mus. (University of Massachusetts at Amherst)
M.Mus. (University of Oklahoma Norman Campus)
Music
Dr. Susan K. Powell

Doctor of Philosophy

Oludurotimi Oluwaseun Adetunji, Columbus
B.S. (Fisk University)
Physics
Dr. Arthur J. Epstein

Taehyun Ahn, Seoul, South Korea
B.A. (Honors), M.A. (Sogang University)
M.A.
Economics
Dr. Audrey L. Light

Ahmad Rashid Allafi, Kuwait, Kuwait
B.Ch.E. (University of Missouri)
Master's (Kuwait University)
Food Science and Nutrition
Dr. Melvin A. Pascall

Ardith Matilda Allen, Norman, OK
B.A. (University of Oklahoma Norman Campus)
M.A.
Sociology
Dr. J. Craig Jenkins

Jessica Chung Allison, Westerville
B.A. (Yale University)
M.Public Hlth.
Public Health
Dr. John R. Wilkins III

Kuskridho Ambardi, Columbus
Bachelor's (Universitas Gadjah Mada)
M.A. (Ohio University)
M.A.
Political Science
Dr. R. William Liddle

Carlos Daniel Amero, Mexico City, Mexico
B.S.Phys. (Universidad Nacional Autónoma de México)
BioPhysics
Dr. Mark P. Foster

Josh E. Arnold, Canal Winchester
B.S. (Ohio University)
Molecular, Cellular, and Developmental Biology
Dr. Patrick L. Green

Jie Bai, Columbus
B.Engr., Master's (Tsinghua University) M.S.
Mechanical Engineering
Dr. Somnath Ghosh

Shuangyi Bai, Beijing, P.R.C.
Bachelor's, M.S. (China Agricultural University.)
Horticulture and Crop Science
Dr. Michelle Jones

Marja Henni Bakermans, Harrisburg, PA
B.S. (Bucknell University) M.S.
Natural Resources
Dr. Amanda D. Rodewald

Niranjan Balachandran, Baltimore, MD
Bachelor's, Master's (Indian Statistical Institute, Delhi)
Mathematics
Dr. G. Neil Robertson

Joseph James Barbi, Lyons, NY
B.S.Biology (Cornell University)
M.S.
Microbiology
Dr. Abhay R. Satoskar

Deepankar Basu, Jamshepur, India
B.Tech. (Indian Institute of Technology, Kanpur)
M.A., M.Philosophy (Jawaharlal Nehru University)
M.A.
Economics
Dr. Robert M. de Jong

Matthew W. Bedore, Garfield Heights
B.S. (Miami University, Oxford Campus)
Chemistry
Dr. Leo A. Paquette

Jacqueline Denise Brooks, Cincinnati
B.A. (Miami University, Oxford Campus) M.A.
Sociology
Dr. Katherine Meyer

Commencement Convocation, June 8, 2008

Long Bu, Columbus
B.S. (Shanghai Jiao Tong
University)
M.S. (Case Western Reserve
University)
M.S. (University of
Connecticut)
*Electrical and Computer
Engineering*
Dr. Joanne E. DeGroat

Matthew Allan Buccellato,
Columbus
B.S. (Honors) (University of
Miami)
D.V.M. (North Carolina State
University at Raleigh)
Veterinary Biosciences
Dr. Michael J. Oglesbee

Christopher W. Bungard,
Stow
B.A. (Denison University)
M.A.
Greek and Latin
Dr. William W. Batstone

Shaobiao Cai, Beijing,
P.R.C.
B.S. (University of Science
and Technology, Beijing)
Master's (Northern Jiaotong
University)
M.S. Mech. Eng. (Southern
Illinois University,
Carbondale)
Mechanical Engineering
Dr. Bharat Bhushan

**Alejandro Alfonso
Canadas**, Buenos Aires,
Argentina
Licenciado (Pontificia
Universidad Católica
Argentina)
M.B.A. (University of Dayton)
*Agricultural, Environmental
and Development
Economics*
Dr. Claudio Gonzalez-Vega

Hui Cao, Lansdale, PA
B. Engr. (Shenyang University
of Technology)
Master's (Tsinghua
University)
M.S.
*Computer Science and
Engineering*
Dr. Anish Kumar Arora

Joseph W. Carl, Jr., Upper
Arlington
B.S.E.E., M.S.
*Integrated Biomedical
Science Graduate
Program*
Dr. Xue-Feng Bai

Rebecca Ann Carte,
Strongsville B.A.,
B.S. Bus. Adm. (Ohio
University)
M.A. (Northern Illinois
University)
Spanish and Portuguese
Dr. Maureen Ahern

Sajid Mahmood,
Rawalpindi, Pakistan
B.S. (Pakistan Military
Academy)
B.Engr. (National University
of Science and
Technology, Pakistan)
*Geodetic Science and
Surveying*

Bastian Sascha Maier,
Aichwald, Germany
Vordiplom, Diploma
(University of Applied
Science, Esslingen)
*Materials Science and
Engineering*

Nina Diane Mallett, Hope,
AZ
Bachelor's (University of
Arkansas at Pine Bluff)
Nursing

Erin Mangan, Cincinnati
B.S. (University of Notre
Dame)
*Aeronautical and
Astronautical Engineering*

**Karen Levonovich
Manukyan,** Columbus
Diploma (Odessa State
Polytechnic University,
Ukraine)
*Computer Science and
Engineering*

Jessica Marie Marple,
Yorkville
B.S.Al.Hth.Prof.
Nursing

Kristen Marie Marschner,
Cincinnati
B.S.Nutrition (Saint Louis
University)
Allied Medical Professions

Jason Burton Marsh,
Sebring
B.A. (Kent State University)
B.S. (Wright State University)
Nursing

Debbie Marie Marshall,
Centerburg
B.S.Soc.Work, M.S.W.
Nursing

Abigail Leigh Martin,
Cleveland Heights
B.A.
Nursing

Andrea Welling Matthews,
Luckey
B.S. (Bowling Green State
University)
M.A.
Nursing

Cassandra Joy May,
Warsaw, IN
B.S. (Ball State University)
*Evolution, Ecology, and
Organismal Biology*

Colleen Elizabeth May,
Hemlock, MI
B.A., B.S.
Entomology

Beth S. McClure, Delphos
B.S. (University of Dayton)
Nursing

Commencement Convocation, June 8, 2008

Kathryn M. McCollum, Old Lyme, CT
B.A. (Tufts University)
D.D.S. (University of Connecticut)
Dentistry

Catherine Elizabeth McDaniel, Kettering
B.S. (Wright State University)
Vision Science

Shannon Leigh McDevitt, Lisbon
B.S.P.S., B.S.Nurs.
Nursing

Ann Marie McMahon, Ironton
B.S. (Ohio Northern University)
Pharmacology

Heather Meybel McPherson, Sturgis, SD
B.S. (Denison University)
Geological Sciences

Kyle Gardner Metzroth, Cincinnati
B.S.
Nuclear Engineering

Jason Andrew Meyer, Centerville
B.S.M.E.
Mechanical Engineering

Beth Daniele Meyerholtz, Perrysburg
B.A., M.A.
Nursing

Renee T. Mikulec, Plano, TX
B.S. (Texas Woman's University)
D.D.S. (University of Texas at San Antonio)
Dentistry

Jason Alan Miller, Piqua
B.S.
Mathematics

Baba Venkata Giridhar Mogalapu, Machilipatnam, India
B.Tech. (Indian Institute of Technology, Kharagpur)
Industrial and Systems Engineering

Sarah Nicole Mominee, Martin
B.S.
Entomology

Kathleen Marie Mondino, Cincinnati
B.S.A.A.E. (Purdue University)
Aeronautical and Astronautical Engineering

Benjamin M. Morrow, Athens
B.S.Mat.Sc.Eng.
Materials Science and Engineering

Melissa Rhea Mullett, Dublin
B.S. (Ohio University)
Allied Medical Professions

Cassidy James Mullins, Findlay
B.S.
Pathology

Francisco Franco Munoz, Santiago, Chile
Licenciatura (Universidad de Chile)
Mathematics

Aimee Alice Munyon, Lancaster
B.A. (Ohio Wesleyan University)
Nursing

Michael Joseph Murray, Cincinnati
B.S.M.E. (University of Cincinnati)
Mechanical Engineering

Megan Marie Mutchler, New Bavaria
B.S.Al.Hth.Prof.
Pathology

Vishal Ryan Nazareth, Mangalore, India
B.Engr. (Mangalore University)
Materials Science and Engineering

Nathan Carleton Nelson, Lima
B.S., D.V.M.
Veterinary Clinical Sciences

Ellen Leigh Nichols, St. Clairsville
B.S.Nurs.
Nursing

Nasim Nikoumanesh, Ann Arbor
B.S. (Eastern Michigan University)
Vision Science

Melissa Peters Marcus Nines, Grandview Heights
B.S.
Nursing

Renee Slobodzian Nisthauz, Columbus
B.S.
Nursing

Sean R. Noe, Cincinnati
B.A.
Human Ecology

Christy Monique Norman, Grovetown, GA
Pharm.D. (University of Georgia)
Pharmacy

Ranjit Mario Noronha, Buffalo, NY
B.S. (University of Mumbai, India)
M.S. (State University of New York at Binghamton)
Computer Science and Engineering

Anna Douglass Ojanen, Columbus
B.A. (Tulane University of Louisiana)
Agricultural, Environmental and Development Economics

James Santo Omodio, Columbus
B.S.E.C.E.
Vision Science

Chukwunonye Judith Onugu, Roslindale, MA
B.S.E.E. (West Virginia Institute of Technology)
Electrical and Computer Engineering

Christopher Michael Orban, Bradenton, FL
B.S.Phys. (University of Illinois, Urbana-Champaign)
Physics

Jill C. B. Osborn, Purity
B.S.Nurs., B.S.Nat.Res.
Allied Medical Professions

Kathryn Nicole Palmer, Mount Vernon
B.S.Biol.Sc. (Mount Vernon Nazarene University)
Nursing

Commencement Convocation, June 8, 2008

Hye-Ri Park, Incheon, South
Korea
B.S. (Seoul National
University)
Human Ecology

Kyoung Jin Park, Seoul,
South Korea
B.S., M.S. (Sogang
University)
*Geodetic Science and
Surveying*

Emily Jean Parker,
Whitewater, WI
B.S. (University of Wisconsin,
Eau Claire)
Vision Science

Jonathan Philip Parsons,
Westerville
B.S. (Duke University)
M.D. (Medical College of
Ohio)
Medical Science

Binita Patel, Charlotte, NC

Robin Lynn Balok, Mansfield Campus
Sara Grace Bates, Mansfield Campus
Samantha Jane Bell, Newark Campus
Mari Katherine Bennett, Marion Campus
Sarah Elizabeth Bernhard, Marion Campus
Toni Marie Betti, Mansfield Campus
William M. Bible, Newark Campus
Juleen Ashley Blair, Mansfield Campus
Ryan Lee Bonfiglio, Lima Campus
Tiffany Louise Bowersock, Mansfield Campus
David Lee Bowman, Newark Campus
Zachary R. Boyd, Marion Campus
Chelssie Christine Breece, Marion Campus
Jessica Lynn Broseus, Newark Campus
Jessica Marie Browning, Marion Campus
Nicholas Grant Bumpus, Mansfield Campus
Misty Dawn Burke, Newark Campus
Brian Robert Burkhart, Marion Campus
Megan Anne Butt, Newark Campus

Matthew James Buxton, Newark Campus
Frank Rocco Capuano, Newark Campus
Deborah M. Carder, Lima Campus
Sarah Michelle Carey, Marion Campus
Aubrie Danielle Carney, Mansfield Campus
Chelsea Nicole Carrel, Newark Campus
Brian Patrick Carter, Newark Campus
Cortanee A. Caugherty, Lucas
Cassandra Paige Chaney, Newark Campus
Nick Anthony Chimenti, Mansfield Campus
Ashley Nicole Cochran, Mansfield Campus
Kayla Diane Cole, Mansfield Campus
Darrin Charles Collins, Newark Campus
Jeanna Marie Comer, Marion Campus
John David Coy, Marion Campus
Andrea Leann Coykendall, Marion Campus
Brock J. Davis, Marion Campus
Pamela Ann Deal, Newark Campus
Megan E. Delozier, Newark Campus
Jami Rose Detillion, Mansfield Campus
Dena Ann Doctor, Lima Campus
Dennis Paul Douds, Jr., Marion Campus
Dustin Ryan Durbin, Mansfield Campus
Andrew B. Field, Marion Campus
Michael France, Marion Campus
Ambrosia Mary Gamble, Marion Campus
Andrew Thomas Geiger, Newark Campus
Elizabeth Marianne Gonzales, Marion Campus
Ryan John Gruber, Lima Campus
Tisha Michele Hanley, Newark Campus
William Paul Harvey, Mansfield Campus
John Jacob Heminger, Mansfield Campus
Kelsey Nicole HerrNSTein, Mansfield Campus

Carrie Joelle Hildebrand, Marion Campus
Amber Nicole Hines, Marion Campus
Courtney Anne Holtzapfel, Newark Campus
Adam Ryan Howard, Marion Campus
Kristina K. Hoyt, Mansfield Campus
Alicia Marie Izzo, Marion Campus
Jeremy Daniel Jackson, Newark Campus
Joshua David Jackson, Newark Campus
Sarah Renee Jackson, Marion Campus
Tina Marie Jacobs, Newark Campus
Sarah Marie John, Marion Campus
Alissa Kay Johnson, Lima Campus
Kimberly Sue Johnston, Newark Campus
Douglas Williams Jolliff, Marion Campus
Jonathan Roy Kelley, Marion Campus
Morgan Bea Kellogg, Newark Campus
Pamala Jean Ketterer, Lima Campus
Martin Samuel Kimball, Newark Campus
Kyle R. Kingma, Mansfield Campus
John R. Kirschenheiter, Mansfield Campus
Eric Daniel Klingerman, Newark Campus
Ashley Nicole Knight, Newark Campus
Shanda Leigh Knipe, Newark Campus
Corrie Lea Koehler, Newark Campus
Brittany Sue Krichbaum, Mansfield Campus
Laura Lynn Kruse, Newark Campus
Michael David Kuhn, Newark Campus
Danielle Nicole LaDuke, Newark Campus
Michael William Larsen, Marion Campus
Amy Elizabeth Lewis, Marion Campus
Kaitlyn Elizabeth Lindau, Newark Campus
John Christopher Long, Lima Campus
Samantha Jo Luna, Newark Campus
Samantha Ann Maison, Marion Campus

Commencement Convocation, June 8, 2008

Jennifer Lynn Maltsbarger,

College of Biological Sciences

Dean: Joan M. Herbers

Bachelor of Arts

Amy E. Berting, Cincinnati
Dann Michael Bruno, Medina
Magna Cum Laude
Heather Elizabeth Elverson, Worthington
Megan Lynn Oltmann, Hubbard
Carmen Maria Perrino, Cincinnati
Magna Cum Laude
with Honors in the Arts and Sciences
Tina Marie Piriczky, Sydney
Tamoor Rashid, Youngstown
Kristi Lynn Reese, Ada
Tyler Douglas Schuch, Wauseon
Alyce H. Snyder, Wadsworth
Daniel J. Wallon, Jr., Columbus

Commencement Convocation, June 8, 2008

Russell Allen White, South
Charles

Bachelor of Science

Brett A. Adair, Akron
*with Honors in the Arts and
Sciences*

Mahvish Ahmed, Westerville
*Cum Laude
with Honors in the Arts and
Sciences*

Oluseun O. Akerelle, Dayton
Robert L. Aldridge, Gahanna
Mohamad Alghothani, Upper
Arlington

*Magna Cum Laude
with Honors in the Arts and
Sciences*

Stephen Edward Anderson,
West Chester

Jared Carl Appel, Poland
Cum Laude

Leanna Christine Assid,
Pittsburgh, PA

Magna Cum Laude

Ali Azad, Dublin

Magna Cum Laude

Christopher Thomas Balster,
Dayton

Charissa Ann Bare,
Columbus

Mohamad Firas Bazerbashi,
Columbus

*Magna Cum Laude
with Honors in the Arts and
Sciences*

Laura Kristen Belland,
Cincinnati

*Cum Laude
with Honors in the Arts and
Sciences*

Chelsea Olivia Bennice, Port
Clinton

*Cum Laude
with Research Distinction in
Evolution and Ecology*

Megan Michelle Beyland,
Columbus

Katherine Margaret Bickle,
Granville

*Magna Cum Laude
with Honors in the Arts and
Sciences*

Claire Elizabeth Bing,
Canton

Jennifer Ann Blatnik, Solon
*with Honors in the Arts and
Sciences*

Dina A. Bobrova, Riga,
Latvia

*Summa Cum Laude
with Honors in the Arts and
Sciences*

*with Research Distinction in
Molecular Genetics*

Robert William Bogart, Bay
Village

*Cum Laude
with Research Distinction in
Microbiology*

Jessica Kathryn Boor, Galion
Geoffrey Howard Bortel,
Maumee

Daniel Brent Box, Waterville
*Magna Cum Laude
with Honors in the Arts and
Sciences*

Elizabeth Ann Braun, Celina
*with Honors in the Arts and
Sciences*

Jeffrey Paul Breha, Seven
Hills

Dane Robert Brinley,
Greenville

Ashley Nicole Brinning,
Westerville

Brittane Marie Britton,
Chillicothe

Alan David Broering, Maria
Stein

Loren Phillip Brook,
Cincinnati

Magna Cum Laude

Bryce Daniel Brown,
Massillon

Jillian Noele Brown,
Waterville

*Magna Cum Laude
with Honors in the Arts and
Sciences*

Andrew Robert Bruggeman,
Holland

*Magna Cum Laude
with Honors in the Arts and
Sciences*

*with Research Distinction in
Microbiology*

Allison Dian Brys, Cortland
Magna Cum Laude

Dirk Matthew Bullock, Powell

Gregory Ernest Burgess,
Mansfield

Ryan C. Byerly, Maineville
*Magna Cum Laude
with Honors in the Arts and
Sciences*

Hilary Anne Cartwright,
Dublin

Magna Cum Laude

Christine Lynn Casey,
Mentor

Christopher Nicholas
Castorani, Hockessin, DE

*Magna Cum Laude
with Honors in the Arts and
Sciences*

*with Research Distinction in
Evolution and Ecology*

Yu-Ting Chen, Columbus
Summa Cum Laude

*with Honors in the Arts and
Sciences*

Anthony Michael Chomyk,
North Royalton

Anita Wei-Han Chong,
Worthington

*Magna Cum Laude
with Honors in the Arts and
Sciences*

*with Research Distinction in
Molecular Genetics*

Chih Tien Chuang, Stow
*Magna Cum Laude
with Honors in the Arts and
Sciences*

Dan Chulasavake, Chicago,
IL

Michael Raymond Ciresi,
Cincinnati

Mari Ellen Clemmer, Perry
Whitney Allison Cogswell,
Marietta

*Magna Cum Laude
with Honors in the Arts and
Sciences*

*with Research Distinction in
Molecular Genetics*

Anna Kathleen Collins,
Marietta

*Magna Cum Laude
with Honors in the Arts and
Sciences*

Zachary Allen Cordner,
Bannock

*Summa Cum Laude
with Honors in the Arts and
Sciences*

John Paul Curfman, Canton
Magna Cum Laude

*with Honors in the Arts and
Sciences*

Matthew David Custis,
Lebanon

Katherine Louise Daprile,
Shaker Heights

*Cum Laude
with Honors in the Arts and
Sciences*

Brandon Steven Daugherty,
Cincinnati

Ashley Dawn Davidson,
Maumee

*Cum Laude
with Honors in the Arts and
Sciences*

Craig Richard Davis,
Kettering

*Magna Cum Laude
with Research Distinction in
Microbiology*

Ryan Joshua Davis,
Columbus

*Cum Laude
with Honors in the Arts and
Sciences*

Carlo C. De Guzman,
Columbus

Stephanie Marie DeAngelis,
North Olmsted

*Magna Cum Laude
with Honors in the Arts and
Sciences*

Kyle Timothy Deighan,
Mentor

*Cum Laude

**Bachelor of Science in
Agriculture**

Clayton Scott Aikman, West
Manchester
Claire Collier Anderson, Ann
Arbor, MI
Gina Raeann Anderson,
Roseville
Magna Cum Laude
Dustin Michael Angle,
Pataskala

Commencement Convocation, June 8, 2008

Amanda Jo Antigo,
Bloomingtondale
Magna Cum Laude
Derek Matthew Baxter, Canal
Fulton
Adam Charles Beck,
Defiance
Andrew John Berdysz,
Garfield Heights
Jon Patrick Betts, Circleville
Sarah Elizabeth Biggs,
Dayton
Ryan Matthew Black, Tupelo,
MS
Carolyn Annette Blair,
Chardon
Jacob Benjamin Bodimer,
Gallipolis
Joshua James Bourne,
Waynesville
Whitney Savannah Bowen,
Pickerington
Josh P. Bower, Circleville
Allison Ruth Braun,
Delaware
Meghan Elizabeth Brookhart,
Spring Grove, PA
David Andrew Brown,
Brookville
Gina Marie Brown, Marion
Michael Keith Buchs, Oberlin
Lisa Marie Buehler, Anna
Summa Cum Laude
Bryan James Buhro,
Graytown
Natalie F. Carpenter,
Fairborn
Gary Charles Carroll,
Columbus
Jared Nathan Chester,
Washington Court House
Magna Cum Laude
Jacob Zuniga Christian,
Xenia
Christy Clary, Londonderry
Magna Cum Laude
Erin Rachael Cole, Mount
Blanchard
Celeste Lee Cornelius, North
Ridgeville
Bryan Jeffrey Crosier,
Frankfort
Brice Patrick Crum, Norwalk
Antonio A. Cruz, Cleveland
Alex Weber Daniel,
Columbus
Chase W. Darling, Shaker
Heights
Kenneth Maurice Davis,
Warren
Adrienne Maria DeAngelis,
Canton
Ryan Thomas DeMay,
Columbus
Thomas Richard Dill, Dublin
Bradley Jay Dinnen,
Jamestown
Patrick Gavin Duffy II,
Columbus
Elizabeth Ann Duncan,
Leesburg
Magna Cum Laude
Megan Lynn Ehrmin,
Perrysburg
Jessica Lynn Eilenfeld,
Lucas
Tyson Mitchell Estes,
Columbus
Bryan Christopher Etzler,
Vanwert
Cum Laude
Laura Lea Fishbaugh,
Sidney
Michael Gregory Fisher,
Baltimore
Michael J. Forsgren,
Fredericksburg, VA
Ryan Allen Fruth, Holgate
Mary Beth Fulk, Mansfield
Amanda Marie Gamble,
Rockford
Orlin Amadeo Gavarrete,
Norwood
Jenna McEwen Genson,
Farmersville
Austin Richard George,
Findlay
Magna Cum Laude
Jason Edward Gibson,
Warren
Joel Thomas Glynn, Swanton
Casey Ernest Goff, Mount
Gilead
James Michael Grdina, Perry
Justin Jonathan Greene,
Degraff
Matthew T. Greiner, Sylvania
Joel Francis Grimes, Troy
John Michael Gruneisen,
Dublin
Magna Cum Laude
Megan Caine Guccion,
Sharon Center
Andrew Brian Hanna,
Columbus
Craig A. Hart, Laurelville
Mark A. Hasan, Euclid
Christopher Jay Hatcher,
South Point
Brandon Joseph Hawkins,
Baltimore
Kelli Elise Hendricks, Clyde
Magna Cum Laude
Anton Joseph Henry,
Versailles
Amy Denise Hershberger,
Shreve
Christopher Hartig Hirth,
Grove City
Danielle Luann Hitchcock,
Columbus
Jason Lawrence Holleran,
Walbridge
Magna Cum Laude
Megan Elizabeth Homan,
Maria Stein
Elizabeth Rose Homerosky,
Oak Hill
Cum Laude
*with Distinction in Animal
Sciences*
Sara Marie Hough, Lewis
Center
Katie Marie Houk, Poland
Dexter Wade Housman,
Greenville
Danielle Marie Hult,
Mansfield
Whitney Elizabeth Hull,
Fairborn
Katie Lynne Hyde, Smiths
Creek, MI
Jennifer Angela Jasiewicz,
Galloway
Leonard Frederick Jatsek,
Walton Hills
Veronica Ann Jatsek, Walton
Hills
Amanda Nicole Johnson,
Ashland
Ashley Michelle Jordan,
Marysville
David Anthony Joseph, West
Chester
Erika Lynn Kemp, Wellington
Steven Edward Kirk, Powell
Laura V. Kline, North Canton
Robert Charles Knauer,
Cincinnati
John Walter Kopacz, Medina
Mark Andre Laivins,
Delaware
Magna Cum Laude
Jarrett Daniel Lang,
Sandusky
Vincent Payton Lantz,
Mechanicsburg
Alyssa Lauren Larue,
Groveport
Magna Cum Laude
*with Distinction in Animal
Sciences*
Jeffrey Joseph Lazar, Mentor
George Nelson Leckrone III,
Kettering
Calvin A. Lemon, Urbana
Cum Laude
Scott Lawrence LesChander,
Morrow
Craig Michael Link, Fort
Recovery
Ryan William Lukens,
Lebanon
Magna Cum Laude
Stefanie Ann Lutmer,
Lebanon
Bethany Robin Lynch,
Painesville
Jennifer Ann Lynch, North
Haledon, NJ
Summa Cum Laude
*with Distinction in Animal
Sciences*

Commencement Convocation, June 8, 2008

Mark Anthony Lyons,
Cambridge
Cum Laude
Valeri Jeane Mariakis,
Lakewood
Joseph Thomas Massey,
Powell
Nathaniel David McCloud,
Warren
Richard James McIntosh,
Medina
Katelin Lorraine McKnight,
Waverly
Ryan Dane McMichael,
Wapakoneta
Magna Cum Laude
Adrain Russell Mead,
Bradford
Amanda Rea Meddles,
Milford Center
Cum Laude
Bridget Lee Meiring, Piqua
Stephanie A. Metzger, Akron
Magna Cum Laude
*with Distinction in Animal
Sciences*
Kathy Lee Michael, Urbana
Summa Cum Laude
Nicholas R. Miller,
Washington Court House
Tyler Francis Miller,
Baltimore
Jonathan Matthew Miozzi,
Cleveland
Amanda Catherine Moore,
Hanoverton
Amber Dawn Moreland,
Adamsville
Patrick Casey Mulford,
Berlin, MD
Roni Marie Newhart,
Washington, PA
Denise R. Noffsinger,
Continental
Magna Cum Laude
Patrick Joseph Nolan,
Wakeman
Michael Richard Odrumsky,
Newark
Jennifer Louise Osborne,
Hebron
Bobbi Jo Parmiter,
McConnelsville
Noelle Yvonne Parmiter,
Caldwell
Sarah Jane Paullin,
Loudonville
Johanna Elizabeth Plank,
Columbus
Magna Cum Laude
*with Distinction in Animal
Sciences*
Justin Michael Platt,
Hamilton
Caitlin Marie Pohlit, Dublin
Jody Lee Poth, Pickerington
Kyle A. Powell, Columbus
Jonathan Michael Price, St.
James, NY
Andrew Lee Rager, Paulding
Nicole Lynn Ranney,
Blacklick
Bryan Paul Reeb, Ashville
Jennifer Lynn Reed, Dresden
Sarah E. Rhea, Elyria
Kimberly Joanne
Richardson, Cincinnati
Catherine Jenny Richmond,
Bellville
Magna Cum Laude
Adam Justin Roberts,
Medina, NY
Angela Marie Rospert, Oak
Harbor
Cum Laude
Sarah Janyce Roy, Silverlake
Meghan Elizabeth Ruck,
Loveland
Genna M. Ruthrauff, Salem
Shawn Thomas Ryan,
Leetonia
Maranda Sue Sauerland,
Harrison
Cum Laude
*with Distinction in Animal
Sciences*
James Patrick Saunders,
Gallipolis
Lisa J. Scheffel, Columbus
Benjamin William Schillig,
Pataskala
Jenna Christine
Schlesselman, Wheaton,
IL
Rebecca Ann Schoellman,
Pleasant Plain
Alexie M. Shanker,
Chesterland
Kirtis Matthew Siemer,
Cincinnati
Katie Marie Skolaris,
Willoughby Hills
Kyle Michael Smith,
Springfield
Dustin Cole Sowers,
Sycamore
Annie Ruth Specht, Dover
Magna Cum Laude
*with Distinction in Agricultural
Communication*
Allison Mary Stammen, New
Weston
Jack Michael Stauffer,
Mason
Ryan Christopher Stewart,
Eaton
Michaela Kristen Stiber,
Parma
Erica Dawn Stone, Belpre
Ryan John Stoner, St. Marys
Robert Sinclair Strickland,
Mentor
Myranda Kay Sutherly, Anna
Niharika Rajoo Thakwani,
Pune, India
Summa Cum Laude
Dwayne L. Thames, Toledo
Elizabeth Jillann Thomas,
Powell
Byrony Claire Tomic-Beard,
Brookline, NH
Lisa Tran, Parma Heights
Kelly Andrea Trimmer,
Baltimore
Matthew Steven Triplett,
Medway
Jude Ebenge Umoh, Dayton
Vincent Bradley Urbanski,
North Royalton
Cum Laude
Jennifer Ann Villard,
Mansfield
Erin Marie Wells, Chillicothe
Cum Laude
Zachary Charles
Westenbarger, Logan
Timothy George Whigham,
Detroit, MI
Derek Robert Wilson,
Belmont
Denver James Wolf, Concord
Kevin Ryan Woodard,
Pickerington
Gregory Michael Wyszynski,
Chesterland
On On Yeung, Hong Kong,
Hong Kong, P.R.C.
Jeffrey C. Yoakam, Newark
Joshua Ryan Yoder, Plain
City
Magna Cum Laude
Joshua Neil Zehentbauer,
Hanoverton
Adam Christopher
Zimmerman, Casstown

**Bachelor of Science in
Food Science**

Megan Ann Hoffer, Nashport
Nancy L. Timms, Columbus
Ashley Nicole
Weatherington, Houston,
TX
Ronald Anthony Wilder,
Blacklick
Sandra Jean Zurbrugg, Fort
Wayne, IN
Cum Laude
*with Distinction in Food Science
and Nutrition*
Bachelor of Science in
Nutrition
Lauren Elizabeth Patton, Flat
Rock, MI
Lisa Tran, Parma Heights

**School of
Environment and
Natural Resources**

**Bachelor of Science in
Environment and
Natural Resources**

Amy Marie Barrett, Rome
Carson Hilary Barylak,
Columbus
*Summa Cum Laude
with Distinction in Environmental
Science*
Christopher Kyle Blessing,
Toledo
Sarah May Boley, New
Lexington
Michelle Jean Braun,
Delaware
Kyle Richard Chambers,
Hilliard
*Cum Laude
with Distinction in Environmental
Science*
Christopher Dale Cooley,
Centerville
Jacob Leonard Davidson,
Olmsted Falls
Gwen Lauren Dubelko, North
Olmsted
*Cum Laude
with Distinction in Environmental
Science*
Kenton J. Garwood, Collins
Mary Brigid Gilmore,
Fairview Park
Travis L. Gregorich, Dalton
James Patrick Hamski,
Brecksville
*with Distinction in Environmental
Science*
Josh P. Hatfield, Mark Center
John Andrew Hicks, Shelby
Davin Scott Hill, Painesville
Jarrod Michael Hittle,
Dresden
Douglas William Kamenik,
Ashland
Tracee M. Kielmeyer,
Columbus
Catherine Susan Lehman,
Rockbridge
Katherine Elizabeth
McAlarney, Tallmadge
Jeremiah Wesley Moore,
Columbus
Bryan R. Moser, North
Lawrence
Nicholas James Poggiali,
Berlin Heights
Jeremy Joseph Pritt,
Proctorville
Magna Cum Laude
Ryan Stuart Pulliam, Avon
Lake
Nicholas Lee Ray, Canton

Abigail Marie Rhodebeck,
Westerville
Cum Laude
William Martin Synk III, Solon
John Robert Thornburg,
West Liberty
Kyle T. Tulisniak, Medina
Magna Cum Laude
Matthew Joseph Vargo,
Loveland
Sherr Vue, Akron
*with Distinction in Forestry,
Fisheries and Wildlife*
Justin Tyler Walters, New
Lexington
Cum Laude
Cong Wang, Mason
Collin Ward, Shaker Heights
Nathan A. Weber, Fairfield
Michael David Wellman,
Coldwater
Magna Cum Laude
Abby Marie Woodward,
Bellville

**Agricultural
Technical Institute-
Wooster**

**Associate in Applied
Science**

Jeremy R. Bellante,
Englewood
Kyle Wayne Bernhard,
Shiloh
Summa Cum Laude
Mike Besch, Mansfield
Adam C. Brewer, Atwater
Cody William Brooks, West
Salem
Brandon Robert Buchanan,
Akron
Annette Berniece Cornish,
Lore City
Samuel Roy Cunningham,
Cadiz
Eve Miriam Davis, Powell
Kathryn Lynn Fielding, North
Canton
Brett Curtis Foulk, Springfield
Lindsay Marie Friedrich,
Wooster
Cum Laude
Jonathon Andrew
Gerspacher, Medina
Brandon Scott Goshorn,
Alliance
Daniel B. Hipp, Big Prairie
Brittany Kay Hoffman, Edison
Monica Margaret Hudak,
North Royalton
Magna Cum Laude

Anna Elizabeth Johnson,
Shreve
Cum Laude
Joel Ryan Keep, Bellville
Elizabeth Jean Kidney, Polk
Cum Laude
Kenneth Stephen Kleinedler,
Fairlawn
Suzanne Lee Kroll, Wooster
Magna Cum Laude
Holly Adele Kromer,
Sandusky
Lindsay Jane Landefeld,
Woodsfield
Christine Renee Livingston,
Union City
Philip Andrew Long, Jenera
Magna Cum Laude
Andrew Richard Schaffer
Morrison, Newark
Seth A. Namestnik, Olmsted
Falls
Brian J. Norris, Canton
Patrick Sean O'Brien,
Syracuse
Scott Phillip Polidoro,
Cuyahoga Falls
Jeffery Stephen Ridenbaugh,
Shreve
Ryan J. Ridgley, Massillon
Daniel Lee Riley, Alliance
Bryan Joshua Robson,
Bloomington
Paul Richard Schmelzer,
Junction City
Kyle J. Sepe, Apple Creek
Jessica Lynn Shammo,
Gibsonburg
Eric B. Sharb, Logan
Derick Alan Snyder, Caldwell
Jadrien Elise Spear,
Massillon
Magna Cum Laude
R. Brian Spencer, Beloit
Christopher Brian Spotts,
Polk
Chad A. Stang, Monroeville
Blake Allen Stebbins,
Farmersville
Matthew Damon Urbach,
Fairlawn
Elise Marie Wascak, Sullivan
Magna Cum Laude
Nikita Dawn Wenger,
Wooster
Cum Laude
Grant M. Wilson, Hanoverton
Mason A. Zehner, Xenia

Associate of Science

Lucas Benjamin Allen,
Atwater
Carrie Justine Clippinger,
Thornville
Cum Laude
Carl Grace Fozo, Eaton
Joel Thomas Glynn, Swanton

Commencement Convocation, June 8, 2008

Jenna Louise Harper,
Mantua
Larissa Mykal Hileman, Stout
Mark Daniel Hoover, Grafton
Kayleigh E. Keller, Valley
City
Cum Laude
Emily Kay Klein, New
Bremen
Cum Laude
Heather Marie Kocher,
Galion
Robert Alan Lee, West
Alexandria
Jacob Lee McClure, Canton
Amanda Rachael Powell,
Rootstown
Jacob Alan Roe, Leesburg
Jacob Wayne Smith, Findlay
Justin Lee Snyder, Caldwell
Bethany Jean Swinehart,
Lancaster
Wendy Anthonia van der
Burg, Woodville

**Associate of Technical
Study**

Jacqueline Louise Klein,
Medina
Magna Cum Laude

**Certificate in
Commercial Turf
Equipment**

Kyle Patrick Millikin,
Brookville
Daniel Lee Riley, Alliance

**Certificate in Hydraulic
Service and Repair**

Jonathon Andrew
Gerspacher, Medina
Daniel B. Hipp, Big Prairie

**Michael E. Moritz
College of Law**

Interim Dean: Alan C.
Michaels

Juris Doctor

Samuel Morgan Adams,
Columbus
B.A. (Northwestern
University)

Christopher Walter
Alberding, Columbus
B.A. (Ohio Wesleyan
University)
M.A. (University of California
- Riverside)

Charles Christopher Alley,
Blacklick
B.S. (Ohio University)

Rasha Faisal Almahroos, Isa
Town Bahrain, Bahrain
B.A. (University of Virginia)

William Ivan Aloe, Sewickley,
PA
B.A. (Amherst College)

Aaron Solomon Applebaum,
Belpre
B.A. (College of Wooster)

Holly Helena Armstrong,
Northfield
B.A. (University of Dayton)

Jamie Michelle Aten,
Mansfield
B.A. (Calvin College)
M.A. (Claremont Graduate
School)

Casey Warren Baker,
Proctorville
B.B.A. (Ohio University)

Gerald Anthony Baker II,
Columbus
B.A. (University of Michigan,
Dearborn)
M.A.

Klodiana Basko, Enon
B.A., B.A.
Master's (Wright State
University)

Erica Leigh Berencsi, Girard
B.A. (Georgetown University)

Sara Jean Bergene,
Manitowoc, WI
B.A. (Lawrence University)

John Bernard, Cleveland
B.A. (University of Colorado
at Boulder)

Jason Patrick Bichsel, Aurora
B.S. (Ohio University)

Frederick Thomas Bills,
Columbus
B.A. (Ashland University)

Ayenev Nega Biru,
Reynoldsburg
B.A.

Sarah Elizabeth Blackburn,
Cleveland
B.A. (Ohio Wesleyan
University)

Christie Belynn Bolsen,
Lancaster
B.A. (University of Notre
Dame)

Fredrick Allen Boseman,
Cleveland
B.S. (Oakwood College)

Nicolas Allan Brentlinger,
Columbus
B.S. (University of Cincinnati)

Martha Cawein Brewer,
Rocky River
B.A. (Miami University,
Oxford Campus)

Pamela Westbrooke
Bridgeport, Columbus
B.A. (College of William and
Mary)
Master's (University of
Washington)

Dominick H. F. Brook, South
Point
M.A. (University of
Edinburgh, Scotland)
M.A. (Ohio University)

Carla Bulford, Akron
B.A. (University of the South)

Brodie Macleod Butland,
Columbus
B.S. (University of Notre
Dame)
Summa Cum Laude

Avonte Darius Campinha-
Bacote, Cincinnati
B.A. (Denison University)

Nicholas Franklin Carico,
Orient
B.A., B.A.

Heather Nicole Charnegie,
Columbus
B.A. (University of
Pittsburgh)

Rachel Lyndsey Chodera,
Hinckley
B.A.

Commencement Convocation, June 8, 2008

Jessica Gloria Lynn Clarke, Akron B.A. (Northwestern University)	Laura Lynn Drongowski, Dublin B.A. (University of Michigan, Ann Arbor)	Brian Michael Furniss, Grove City B.A. (University of Rochester)
Kathleen Madelaine Clyde, Columbus B.A. (Wesleyan University)	Phillip Gerald Eckenrode, McDonald B.A. (Kent State University)	Erik David Geiger, Duluth, GA B.A. (Vanderbilt University)

Commencement Convocation, June 8, 2008

Amy Renéé Jardy,
Northwood
Desirée Marie Jarvis,
Painesville
Christopher Allen Johnson,
Springfield
Cum Laude
Leah Rose Johnson,
Washington Court House
Ashleigh Dawn Jones, Celina
Stephanie Ann Kasberg,
Pickerington
Magna Cum Laude
with Distinction in Nursing
Meghan Marie Kerr, Mount
Vernon
Melanie Jean Kocher,
Beavercreek
Cum Laude
Marla Marie Krile, Lancaster
Cum Laude
Krista Lee Krumanaker,
Marion
Magna Cum Laude
Teresa Marie Lang,
Columbus
Kelsey Anne Lewis, Dayton
Cum Laude
Mary Grace Lewis, Lebanon
Tomie Jo Lindsay, Marion
Adam Christopher
Longberry, Washington
Court House
Cum Laude
Tiffany Leigh MacDonald,
Cincinnati
Cum Laude
Caroline Elisabeth Marshall,
Grove City
Summa Cum Laude
April Ann McCallister,
Columbus
Kellie Suzanne McGreevy,
Cincinnati
Zachary Mark McGregor,
Gahanna
Claire Elizabeth McIntyre,
Powell
Cum Laude
Jessica Sharon Meek, Utica
Steven Michael Mericle,
Bluffton
Tammie Lynn Mericle,
Bluffton
Paula Jo Mieseler, Columbus
Summa Cum Laude
Fatima Ahmed Moallim,
Westerville
Micki Rachelle Mohr, Lima
Cum Laude
Marybeth Kathleen Moore,
Canton
Rachel Ann Naeser, Marietta
Francine Anita Ndaribamare,
Westerville
Cum Laude
Joseph Lee Nelson,
Highland Heights
Cum Laude
Janel Leigh Nuzum, Fleming
Cum Laude
Ellis Ehizele Opusunju,
Benin City, Edo, Nigeria
Adrienne Marie Payawal,
Sidney
Stacey Michele Pearson, Bay
Village
Cum Laude
with Distinction in Nursing
Megan Lynnae Piper, Celina
Brian Michael Richey,
Geneva
Christian Andre Rivera,
Bloomfield, NJ
Cum Laude
Margaret Leigh Roe,
Beavercreek
Carmen Marie Rogers,
Kenton
Mary Ann Ronfeldt, Grove
City
Allison René Rose, Avon
Lake
Eliza Jane Rust, Mercer, PA
Cum Laude
Renata Michelle Sanchez,
Canton
Kathryn Sue Sanders,
Waynesfield
Magna Cum Laude
Lauren Mary Screenshot,
Oregon
with Distinction in Nursing
Julianne Joy Sharp,
Ashtabula
Cum Laude
Drema Michelle Sharpe,
Columbus
Danielle Denise Shumaker,
Upper Sandusky
Troy Robert Simmons,
Mansfield
Courtney L. Smith, Castalia
Magna Cum Laude
Tishanda Cherrelle Sparks,
Garfield Heights
Cum Laude
Stacy Sue Spengler,
Ridgeville Corners
Kassandra Ann Stiers,
Pleasant City
Magna Cum Laude
Kathryn Lyn Stiles, Gahanna
Cum Laude
Emily Renee Sullivan, Green
Cum Laude
Rachael Elizabeth
Swansinger, Munroe Falls
Alison Blair Sweeney, Toledo
Cum Laude
Kimberly Susan Taylor,
Burton
Summa Cum Laude
with Distinction in Nursing
Lucy Elizabeth Thoman,
Cincinnati
Cum Laude
Darmela Shannon Thornton,
Bedford
Jamie Suzanne Tinsley,
Columbus
Casey Anne Toward,
Madison
Melissa Marie Turner,
Beavercreek
Cum Laude
Kathryn Rebecca Tweedle,
Fairview Park
Magna Cum Laude
with Distinction in Nursing
Saba Ijaz Ullah, Dublin
Cum Laude
Valerie Marie Van Atta,
Waynesville
Henriëtte Lorraine van Zyl,
Galloway
Nicole Marie Vangeloff,
Findlay
Magna Cum Laude
Jessica Lynn Ventura,
Auburn
Kristen Nicole Waina, Mentor
Cum Laude
Cassandra Jo Waker, Piqua
Cum Laude
Gregory Allen Wallis, Newark
Lyndsey Rae Walters,
Coshocton
Cum Laude
Jennifer Lynn Weiner, Powell
Andrea Dina Weiss, Clarks
Summit, PA
Cum Laude
Deborah Michelle Whaling,
Columbus
James David White,
Columbus
Cum Laude
Barbara Annette Wickham,
Mansfield
Randi Denise Winenger,
Westerville
Cum Laude
Emily J. Wise, Williamsport
Cum Laude
Stefanie Ann Wise,
Williamsport
Cum Laude
Tara Lynn Wolfe, Liberty
Township
Laura Margaret Woodman,
Willoughby
Erin Leigh Wright, Louisville
Cum Laude
Glenda Kay Wylder,
Columbus
Summa Cum Laude
Sarah Elizabeth Yoder,
Galloway
Shannon Leigh York,
Fairborn
Cum Laude
Amy Diane Zarycky, Akron
Magna Cum Laude
Laura Anne Zider,
Barrington, IL
Cum Laude
with Distinction in Nursing

Commencement Convocation, June 8, 2008

**College of
Optometry**

Dean: Melvin D. Shipp

Doctor of Optometry

Funmilayo A. Aranmolate,
Spartanburg, SC
B.A. (Johnson C. Smith
University)

Meagan H. Avila, Tipp City
Melanie Joan Ballard,
Conneaut
B.S. (Otterbein College)
Cum Laude

Kristen Marie Banek,
Sylvania
B.A. (Miami University,
Oxford Campus)

Brandon Lee Becken,
Prosser, WA
B.S. (Arizona State
University)

Kristy Mary Gehling Bhend,
Grand Meadow, MN
B.S. (University of Wisconsin
- River Falls)
Cum Laude

Alison Rae Bolinger,
Doylestown
B.S.
Magna Cum Laude

Jennifer Lynn Bowers,
Minford
B.S. (University of Rio
Grande)

Lauren Renee Bumgardner,
Shadyside
B.S. (Ohio University)

Ame Nicole Cline,
Timberlake
B.S.

Melissa Marie DeGasperis,
Martins Ferry
B.S. (Ohio University)
Magna Cum Laude

Jessica Ann Edwards, Minot,
ND
B.S. (University of North
Dakota)
Cum Laude

Nicole Susan Elson, Fort
Loramie
B.S.Biol.Sc. (Wright State
University)
Cum Laude

Andrew John Emch,
Archbold
B.S.
Magna Cum Laude

Caitlin Sara Filips, Broadview
Heights
B.A. (Miami University,
Oxford Campus)

Abby Lynn Fisher, Avon
Lake
B.A. (Miami University,
Oxford Campus)
Cum Laude

Shane Alan Foster, Athens
B.S., B.A. (Ohio University)
Cum Laude

Stephanie Marie Gutierrez,
Struthers
B.S.Biology (University of
Toledo)

Alicia Jenna' Heller, Defiance
B.S.

Shawna Lynnae Hill,
Bellefontaine
B.S.

Dorna Javadi, Pittsburgh, PA

Bradley Joseph Johnson,
Columbus
B.S.

Michael George Kennedy,
Long Grove, IL
B.S.Biology (University of
Illinois, Urbana-
Champaign)
Cum Laude

Yanna Kisala, Algonquin, IL

Jeremy Dean Lamb, Orem,
UT
B.S. (Brigham Young
University)
Magna Cum Laude

Khyla Eval Lance,
Charleston, SC
B.S. (Claffin College)

Allyson Nicole Lane,
Edmond, OK
B.S. (Oklahoma State
University of Agriculture
and Applied Science)
Magna Cum Laude

Rebecca Ann Little,
Newcomerstown
B.A. (Miami University,
Oxford Campus)

Heidi Jo Long, Reynoldsburg
B.S. (University of North
Dakota)
Magna Cum Laude

Catherine Elizabeth
McDaniel, Kettering
B.S. (Wright State University)
Summa Cum Laude

Mary Elizabeth McVey,
Worthington
B.S.Chemistry (Miami
University, Oxford
Campus)

Ann Rea Miller, Kalida
Cum Laude

Jennifer Lynn Miller, Wooster

Rachael Yvonne Miller,
Barnesville
B.S.

Amber Christina Mixon-
Louprasong, Fairborn
Bachelor's (Wright State
University)

Chantelle L. Mundy, Logan
B.S.

Christine Burns Myers,
Newark
B.S. (Otterbein College)

Jennie Nguyen, Parma

Nasim Nikoumanesh, Ann
Arbor, MI
B.S. (Eastern Michigan
University)

Nathan Lindsey Noakes,
Boise, ID
B.S.Nutrition (Brigham
Young University)

Jacob Alan Olding, Minster

James Santo Omodio,
Columbus
B.S.E.C.E.
Magna Cum Laude

Joseph Egill Osmond,
Sandy, UT
B.A. (University of Utah)

Commencement Convocation, June 8, 2008

Emily Jean Parker,
Whitewater, WI
B.S. (University of
Wisconsin, Eau Claire)
Cum Laude

Callin Passey, Bear Lake, ID

Jason Christopher Piant,
Dallas, TX
Bachelor's (Vanderbilt
University)
M.B.A. (Auburn University at
Montgomery)
Magna Cum Laude

Cynthia JoAnne Premeaux,
Columbus
Magna Cum Laude

Luke Alexander Randall,
Rigby, UT
Magna Cum Laude

Jennifer Lynn Reynolds,
Owasso, OK
B.S. Nutrition
Cum Laude

Brie Suzanne Rhodes,
Olathe, KS
B.S. (Purdue University)

Austin Lee Saneholtz,
Montpelier

Adam Ernest Schmidt, Dover
B.S.

Amy Renee Schultz,
Schofield, WI
B.S. Biology (University of
Wisconsin - River Falls)

Candace Linn Seagraves,
Columbus
B.S. Biology (Bowling Green
State University)

Marielle Badal Serenda,
Chicago, IL
B.S., B.A.

Elisa Jo Skadah, North
Mankato, MN
B.S. (University of
Wisconsin, Eau Claire)
Summa Cum Laude

Ivy Tat, San Francisco, CA
B.A. (University of California,
Berkeley)
Cum Laude

Ryann Rochelle Thacker,
Gallipolis

Anita Ticak, Mentor
B.S.
Cum Laude

Janna Lyn Vargo, Louisville
B.S. (Optometry) (Ohio
University)

Anne Marie Vollmar, Villa
Hills, KY
B.S. (Northern Kentucky
University)

Gary Lee Watts, Pickerington
B.S.

College of Pharmacy

Dean: Robert W.
Brueggemeier

Doctor of Pharmacy

Safiya Abouzaid, Rabat,
Morocco
B.S. (Bucknell University)
Cum Laude

Ureji Ahmed, Columbus

Cody L. Allison, Odessa, TX
B.S. (University of Texas
Permian Basin)

Huglyn D. Balase,
Schaumburg, IL
B.S.P.S.

Yulia B. Bar,
Dnepropetrovsk, Ukraine
B. Pharmacy (Hebrew
University, Israel)

Erin Denise Barr, Fairborn
B.A. (Kenyon College)

Deanna Lyn Bilinovich, New
Franklin
B.S. (Walsh College)

Christine A. Black,
Milwaukee, WI
B.S. (Xavier University)
Magna Cum Laude

Marjorie Rose Blaine,
Seattle, WA
B.S. (University of
Washington)
Cum Laude

Anita Marie Blount,
Louisville, KY

James Boakye-Dankwah, Jr.,
Dublin
Magna Cum Laude

Nicholas A. Bradley,
Chassell, MI
B.S.P.S.

Christopher E. Brandle,
Cleveland
B.A. (Michigan State
University)
Cum Laude

Catherine Marie Bremer,
Granville
Cum Laude

Lisa Elaine Bromfield,
Kingston, Jamaica
Bachelor's (University of the
West Indies, Jamaica)
Diploma (University of
Technology, Jamaica)
Cum Laude

Megan Marie Brown, Morral
B.S.P.S.

Kimberly Ann Buckley-Hall,
Mentor
Magna Cum Laude

Erin Cathleen Bush,
Delafield, WI
B.S. (University of Cincinnati)

Jennifer Nicole Byrd,
Jackson Center
B.S. Phar. (University of
Toledo)

Jynel Ann Casey,
Pickerington
B.S.P.S.
Cum Laude

Christopher M. Cerny,
Kirtland
B.S. (Ohio University)

Rika June Chihara, Carmel,
IN
B.S. (University of North
Carolina at Chapel Hill)

Michelle Jung Choi,
Flushing, NY
Magna Cum Laude

Anita A. Cieckiewicz, Parma

Laura Lynn Clark,
Austintown
B.S. (Youngstown State
University)

Commencement Convocation, June 8, 2008

Carol Anne Collins, Dayton B.S.Pharm. (Ohio Northern University)	Erin Jeanine Gronauer, Cincinnati B.S.	Karah Jean Kinkaid, Maumee <i>Cum Laude</i>
Jessica L. Dell'omo, Independence B.A. (Miami University, Oxford Campus)	Sara Jo Guenther, Fairfield <i>Magna Cum Laude</i>	Kelli Jo Koon, Marietta B.S. (Geneva College) <i>Magna Cum Laude</i>
