### RESOLUTIONS IN MEMORIAM

Resolution No. 82-17

*Synopsis: Resolutions honoring the service of four of this University's faculty members who have recently died are being proposed.*

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Upon motion of Mr. Hilliker, seconded by Mr. Immke, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Robert O. Chadeayne

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 19, 1981, of Robert O. Chadeayne, Associate Professor Emeritus in the College of the Arts.

Professor Chadeayne joined the faculty of The Ohio State University in 1943, and served as a painting instructor until his retirement in October, 1963. He began his teaching career at Quiassaic Hall, Newburgh, New York, and then became head of the drawing and painting department of the Columbus Art School in 1927, a position he held until 1943. During part of this period he was dean of the Columbus Art School.

In addition to his University activities, Professor Chadeayne taught children's art classes and organized and taught private classes for business and professional men, as well as for women members of The Columbus Gallery of Fine Arts. He continued to paint and exhibited his work professionally in national exhibitions, including the Corcoran-Biennial, Washington, D. C.; the National Academy of Design; the Art Institute of Chicago Annual; the Peabody Institute; and others. He held numerous one-man exhibitions. He was awarded the Norman Waite Harris medal at the Art Institute of Chicago, the John Lambert Purchase prize at the Pennsylvania Academy of Fine Arts, the Franz Huntington prize, the Schumacker purchase prize, and eight other first prizes in the Columbus Art League. He also received a medal for "Contribution to the World of Art" at the Hall of Science and Art, World's Fair, New York City.

Robert O. Chadeayne (contd)

Professor Chadeayne's work is represented in numerous collections, including the permanent collection of the Pennsylvania Academy of Fine Arts; The Columbus Gallery of Fine Arts; Capital University; the Dr. E. G. Stillman private collection (New York City); the permanent collection of the Canton Art Institute, Canton, Ohio; and many others.

Since coming to Columbus in 1927, Professor Chadeayne was a member of the Columbus Art League and held numerous executive positions in the League, including that of president.

Professor Chadeayne was born in Cornwall, Orange County, New York, December 13, 1897, and he received his early education in Cornwall High School, Colgate University, and the Art Students' League, New York City.

On behalf of the University, the Board of Trustees wishes to express to his family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

Mary Alice Diehl

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 15, 1981, of Mary Alice Diehl, Instructor Emeritus in the Cooperative Extension Service.

Mrs. Diehl was born in Hinton, West Virginia. She attended Wittenberg University and The Ohio State University receiving a Bachelor of Science in Home Economics degree.

Mrs. Diehl was a home economics education teacher in Harlan, Indiana; Magnetic Springs, Ohio; and Grove City, Ohio. She later served as a home service director for Ohio Edison.

She was a home economics teacher at Raymond, Ohio, before joining the Ohio Cooperative Extension Service as a home demonstration agent in 1946. Mrs. Diehl served in this position in Union County until her retirement on December 31, 1961.

On behalf of the University community, the Board of Trustees expresses to the family of Mrs. Diehl its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as sincere appreciation of the Board's realization of the loss that the family, the University and her many friends and associates have sustained.

Dan J. Eustice

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 5, 1981, of Dan J. Eustice, Associate Professor in the Department of Mathematics.

September 4, 1981 meeting, Board of Trustees

**RESOLUTIONS IN MEMORIAM (contd)**

Dan J. Eustice (contd)

Professor Eustice was born in Detroit, Michigan, on May 3, 1931. He attended Mankato State College from September 1949 to June 1953 at which time he received the B.A. degree in science and mathematics. From September 1953 to June 1955, he was a half-time teaching assistant in the Department of Mathematics at Purdue University and received the M.S. degree in mathematics from Purdue at the end of this period. From June 1955 to September 1957, Professor Eustice was employed by the National Aeronautics and Space Administration agency in Cleveland, Ohio. In September of 1957, he returned to Purdue University and received his Ph.D. degree there in January 1960. He resumed his position as Research Engineer at N.A.S.A. in Cleveland and continued there until September 1961 when he joined the faculty at the University of Illinois. In September of 1966, he became a faculty member of the Department of Mathematics at The Ohio State University as an Assistant Professor and was promoted to the rank of Associate Professor in September 1968.

Professor Eustice was a member of the American Mathematical Society and served as problem editor for Mathematics Magazine for several years. He had a creditable record of publication in the area of orthogonal series. His strong commitment to gifted undergraduates was manifest by his dedicated service on the Honors Committee and by the outstanding effort he made in preparing students for national competitions in mathematics.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Leland D. Schuler

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on July 1, 1981, of Leland D. Schuler, Assistant Professor Emeritus in the Cooperative Extension Service.

Mr. Schuler was County Extension Agent, Agriculture, in Geauga County from 1951 until his retirement in 1974. He had previously been an Associate County Extension Agent in Lorain County from 1947 until 1951.

Mr. Schuler was born on a farm near Coshocton, Ohio, on April 28, 1918. After graduating from Clark High School, Clark, Ohio, in 1935, he earned two degrees in agriculture from The Ohio State University—Bachelor of Science in Agriculture in 1939 and Master of Science in 1960.

He was a vocational agriculture instructor in the Nashville and Big Prairie Schools from 1939 to 1941. He then moved to Millersburg to a similar position. After a three-year tour of duty in the U. S. Army Air Force, he became a vocational agriculture instructor in the Hopewell-Loudon and Jackson-Liberty Schools in 1946 and 1947.

September 4, 1981 meeting, Board of Trustees

**RESOLUTIONS IN MEMORIAM (contd)**

Leland D. Schuler (contd)

Leland Schuler made several outstanding contributions to Geauga County. He took the leadership in assisting area farmers in both the production and marketing of quality maple syrup. Through his help, Geauga County maple syrup became nationally known.

Mr. Schuler gave leadership to the organization of an area feeder pig production and marketing program. This has been of real value to the area, particularly among the Amish.

Mr. Schuler worked with the county dairy industry to develop programs in dairy herd improvement and in milk marketing and consumer education. He also worked with the 4-H program in Geauga County and was one of the extension faculty responsible for securing and developing 4-H Camp Whitewood, used annually by thousands of young people.

Mr. Schuler served as president of the OSU alumni in Geauga County, chairman of Northeast Ohio 4-H Camps, Inc., chairman of Geauga County Maple Festival and associate director of National Maple Syrup Council, and was a charter member of Geauga County Planning Commission. He served on the Natural Resources Task Force Committee on the OSU College of Agriculture and the Kent State University Center advisory board in 1969 and 1970.

On behalf of the University community, the Board of Trustees expresses to the family of Mr. Schuler its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as sincere appreciation of the Board's realization of the loss that they, the University and his many friends and associates have sustained.

**ADMISSION TO THE OHIO STATE UNIVERSITY,  
EFFECTIVE AUTUMN QUARTER 1983**

Resolution No. 82-18

*Synopsis: Approval is requested to announce that it is the intention of The Ohio State University that effective Autumn Quarter 1983 unconditional admission of new freshmen to the University will be granted only upon completion of a college preparatory high school curriculum as defined by the State Board of Education.*

WHEREAS The Ohio State University has worked and will continue to work actively toward improving the quality of college preparatory instruction in the high schools in the State of Ohio; and

WHEREAS the Advisory Commission on Articulation Between Secondary Education and Colleges of the Ohio Board of Regents and the State Board of Education has recommended that completion of a college preparatory high school curriculum be necessary for unconditional admission to Ohio's four-year colleges and universities; and

September 4, 1981 meeting, Board of Trustees

**ADMISSION TO THE OHIO STATE UNIVERSITY,  
EFFECTIVE AUTUMN QUARTER 1983 (contd)**

WHEREAS it is the mission of The Ohio State University to provide instruction which is beyond the secondary level; and

WHEREAS The Ohio State University has a strong commitment to improving the level of understanding of college expectations and to meeting the educational needs of minorities, women and the educationally disadvantaged; and

WHEREAS the Ohio Revised Code requires at least a two-year notice of any change of admission policy to State-assisted colleges or universities; and

WHEREAS it is the intention of The Ohio State University to use the two-year period of notice to communicate with the high schools and students who may be affected by this resolution:

**NOW THEREFORE**

BE IT RESOLVED, That an announcement be distributed to the high schools and citizenry of the State of Ohio that it is the intention of The Ohio State University that effective Autumn Quarter 1983 admission of new freshmen to The Ohio State University will be on a conditional or unconditional basis, dependent upon completion of a college preparatory high school curriculum.

Upon motion of Mr. Immke, seconded by Mr. Redman, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Mr. Smith:

We discussed this and I think we discussed two items in the RESOLVED--one is the question of legality which we have determined and the other one was the effective date in that there are juniors who have already set their school schedules and commenced classes already that would be affected by this. Maybe starting the policy effective in '84 would be a way out--fairer to those students.

Provost Reynolds:

Could I offer, perhaps, the substitute wording, Mr. Smith, of 'effective no sooner than Autumn Quarter 1983'? Essentially the time is enabling time as we discussed this morning. There are many aspects of this that we need to study, work with guidance counselors, etc., across the state; but we need Board action on it in order to begin working on it which is the situation that we are in, so if we switch that to 'no earlier than Autumn Quarter 1983,' it would leave us with that opening--would that be accepted?

Mr. Smith:

This is '81. I am thinking of the junior who is in a course right now who may intend, for example, to be a vocational education teacher--for some reason he is going to take straight vocational education. I just happen to have gone through school with a student who did that and is now in vocational education and he

September 4, 1981 meeting, Board of Trustees

**ADMISSION TO THE OHIO STATE UNIVERSITY,  
EFFECTIVE AUTUMN QUARTER 1983 (contd)**

Mr. Smith: (contd)

surprised all of us, he went into a vocational education class. And I'm just thinking of juniors who have made decisions like that for one reason or another and set their schedules this year, and when they come here to be admitted in '83, they may not have taken some of the required courses.

Provost Reynolds: But, of course, they would still be admitted.

Mr. Smith:

They would be admitted maybe. I say maybe because I think you are going to have two classifications conditional--those who have no conditions and those who have conditional, and I would think that you would take those who first had no conditions attached to admittance, or is that wrong?

Provost Reynolds:

I look upon this as being two things--it is enabling. It quickly allows us to admit the student who has had the college preparatory curriculum. In a sense it is a reward for it. We hasten by those. It then groups the students who have not, and those we will devote a great deal of time and effort to. We do presently in attempting to assess at what level they are so we may best handle them at Ohio State. And by the same token, I believe this would give a message to high school youngsters, their parents and their schools and we have agreed on that this morning that is very desirable.

Mr. Smith: But for some students though.

Provost Reynolds:

That's why I would suggest that to say no--the only reason that the Autumn Quarter '83 is picked and that we felt the need to bring it in at this time is that it has to be at least two years. There is nothing to say it can't be more than two years.

Mr. Devenow:

Do you want to qualify that, Warren, by saying two years or some revised period subject to Board action?

Mr. Smith: All I want is assurance that some junior . . .

Mr. Devenow: I understand.

Mr. Smith:

. . . will not fall into a trap. Ann is telling me that will not happen and that he is not going to be told, 'Well, you should have that; I didn't know that'--I have no quarrel if that is so. I do have problems with the legality of this, though, and I think we should pass on the condition that it is approved by the Attorney General.

September 4, 1981 meeting, Board of Trustees

**ADMISSION TO THE OHIO STATE UNIVERSITY,  
EFFECTIVE AUTUMN QUARTER 1983 (contd)**

Provost Reynolds: And you and I discussed that and we will work on that.

Mr. Devenow: Did you amend the motion so that--

Provost Reynolds: I have no right to amend the motion.

Mr. Devenow: Who amended the motion?

Mr. Immke: I think we added, subject to the approval of the Attorney General.

Mr. Devenow:

We did amend it at the Fiscal Affairs Committee this morning subject to Attorney General ruling; okay. With that will you accept?

Mr. Smith: Yes.

The Board indicated approval with an affirmative vote.

**PERSONNEL ACTIONS**

Resolution No. 82-19

President Jennings requested Provost Reynolds to present the first personnel action.

Provost Reynolds:

It is my pleasure and privilege to add something to the very first personnel action which is the recommendation that Dr. Edward H. Jennings be appointed to the title of Professor in the Department of Finance in the College of Administrative Sciences. And to that end I would just like to read a brief statement from Dean Davidson, College of Administrative Science: 'Based on my review and the recommendations of the Faculty of Finance and the College of Administrative Science Personnel Committee, I am pleased to recommend award of tenure and the rank of full professor for Dr. Edward H. Jennings.'

**Establishment of Named Funds**

**The Bernice B. Ross Memorial Scholarship Fund for Music**

The Bernice B. Ross Memorial Scholarship Fund for Music was established September 4, 1981, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Mr. Gene P. Dragonette of Huntsville, Ohio.

The gift is to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be awarded to one or more talented undergraduate students in the School of Music. Recipients will be determined by the established procedures within the School of Music, with approval by the Director of the School of Music, who will also approve requisitions for payment.

#### **Establishment of Named Funds (contd)**

##### **The Bernice B. Ross Memorial Scholarship Fund for Music (contd)**

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University, who is then directly responsible for the School of Music.

##### **The Castor Memorial Scholarship Fund**

The Castor Memorial Scholarship Fund was established September 4, 1981, by the Board of Trustees of The Ohio State University with a gift from Lawrence B. Leiby, CDR USN (Ret), B.A. '40, in honor and memory of his uncle and grandmother, William W. and Louisa Castor.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest or reinvest as occasion dictates.

Ten percent (10%) of the annual income is to be used to add to the principal of the scholarship. The remaining ninety percent (90%) of the annual income is to be used to provide one or more scholarships for undergraduate students who are above average and have financial need. The students are to be enrolled at the Agricultural Technical Institute, Wooster, Ohio. The scholarship is to be awarded to those students who are residents of Wayne County with preference given to those of Clinton Township who are in attendance at the Agricultural Technical Institute campus. The scholarships are renewable for so long as the student maintains the appropriate academic and need criteria.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purposes whatsoever as determined by the appropriate administrative official of the University who is then directly responsible for scholarships in consultation with the Director of the Agricultural Technical Institute.

##### **The William W. and Louisa Castor Memorial Award Fund**

The William W. and Louisa Castor Memorial Award Fund was established September 4, 1981, by the Board of Trustees of The Ohio State University with a gift from Lawrence B. Leiby, CDR USN (Ret), B.A. '40, of Shreve, Ohio, in honor and memory of his uncle and grandmother, William W. and Louisa Castor.

This bequest is to be invested in the University's investment portfolio under the rules and regulations adopted by the Board of Trustees of The Ohio State University with the right to invest and reinvest as occasion dictates.

Ten percent (10%) of the annual income is to be applied to the principal each year with the remaining ninety percent (90%) of the income used to provide awards in geology and mineralogy to the most deserving graduate student(s) as determined by the department chairman and the appropriate committee. A portion of that income may also be used specifically in the utilization of aerial reconnaissance materials in the investigation of strategic materials as appropriate and/or to provide a lectureship in mineral resources and/or to develop a library of satellite imagery.

Should the need for these awards and other provisions cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for education in geology and mineralogy.

**Bill Zipf 4-H Memorial Scholarship**

The Bill Zipf 4-H Memorial Scholarship was established September 4, 1981, by the Board of Trustees of The Ohio State University with a gift from the Columbus Dispatch Charities in memory of Bill Zipf.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide an undergraduate scholarship to a sophomore, junior or senior majoring in agricultural communications in the College of Agriculture and Home Economics or in journalism in the School of Journalism. Student recipients must be a member or former member of 4-H and will be selected by the University Committee on Student Financial Aids based on the recommendations of the scholarship committee of either the College of Agriculture and Home Economics or the School of Journalism.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University, who is then directly responsible for the College of Agriculture and Home Economics or the School of Journalism.

**Richards Farms Scholarship in Agricultural Economics and Rural Sociology**

The Richards Farms Scholarship in Agricultural Economics and Rural Sociology was established September 4, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Richards Farms.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The income is to be used to provide undergraduate scholarships in the Department of Agricultural Economics and Rural Sociology of the College of Agriculture and Home Economics. Preference will be given to a student majoring in agribusiness. Recipients will be selected by the University Committee on Student Financial Aids based on the recommendation of the Scholarship Committee of the College of Agriculture and Home Economics.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income from the fund may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to the appropriate official of the University who is then directly responsible for the agricultural curricula at The Ohio State University.

**The Tzagournis Teaching and Research Fund**

The Tzagournis Teaching and Research Fund was established September 4, 1981, by the Board of Trustees of The Ohio State University with a bequest to The Ohio State University Development Fund from Donald C. Power, B.S. '22, LL.B. '26, M.A. '27, of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with right to invest and reinvest as occasion dictates.

The annual income is to be used to support endocrinology students' research, teaching and patient care in the College of Medicine. Requisitions for the use of the funds will be approved by the Dean of the College of Medicine.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for endocrinology research, teaching and patient care.

**The Kalmbach Family Scholarship Fund**

The Kalmbach Family Scholarship Fund was established September 4, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the Kalmbach family.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income from the fund principal is to be used to provide one or more scholarships for students in the College of Agriculture and Home Economics. Preference will be given to students from Wyandot County, Ohio, who have expressed an interest in or are enrolled in a major in agricultural economics, animal science, dairy science, or poultry science. The selection of the recipient shall be made by the University Committee on Student Financial Aids based upon the recommendation from the Dean or Assistant Dean for Student Affairs in the College of Agriculture.

Should the need for this fund cease to exist or so diminish as to provide unused funds, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for curricula in agriculture.

**Baba Memorial Fellowship in Pathology Fund\***

The Department of Pathology Educational and Research Discretionary Fund was established June 11, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the faculty and friends of the Department of Pathology, College of Medicine.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with right to invest and reinvest as occasion dictates.

The annual income is to be used to provide one or more fellowships for pathology resident physicians who wish to pursue an additional one- or two-year program in research and education at The Ohio State University leading to eligibility for the examinations of Special Competence of the American Board of Pathology. The Department is authorized to invade the principal amount of the endowment if necessary. The selection of the recipients is to be made upon the recommendation of the Department Chairman and the Dean of the College of Medicine.

Should the need for these pathology fellowships cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the Chairman of the Department of Pathology in the College of Medicine.

Establishment of Named Funds

**The Warner M. and Lora Kays Pomerene College of Medicine Research Fund**

The Warner M. and Lora Kays Pomerene College of Medicine Research Fund was established September 4, 1981, by the Board of Trustees of The Ohio State University with bequests to The Ohio State University Development Fund from Lora Kays Pomerene, B.S.Edu. '16, and Warner M. Pomerene, B.A. '15, J.D. '17, Coshocton, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with right to invest and reinvest as occasion dictates.

The annual income is to be used to underwrite research projects in the College of Medicine. Research projects will be recommended by the Dean of the College of Medicine and approved by the Vice President for Health Sciences.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for medical research.

**The Samuel Freifield Endowed Scholarship Fund in Law**

The Samuel Freifield Endowed Scholarship Fund in Law was established September 4, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from friends of Mr. Samuel Freifield of Steubenville, Ohio.

The gift is to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

**THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)**

**Establishment of Named Funds (contd)**

**The Samuel Freifield Endowed Scholarship Fund in Law (contd)**

The annual income is to be awarded to one or more students in the College of Law. Recipients will be determined by the established procedures within the College of Law, with preference given to students with demonstrated financial need from the Steubenville area.

Should the need for this fund cease to exist or so diminish as to provide unused income, the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the College of Law.

**The C. B. and Ardis H. Stewart Scholarship Fund**

The C. B. and Ardis H. Stewart Scholarship Fund was established September 4, 1981, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Dr. and Mrs. John A. Thoms.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income will be used to provide one or more full-tuition scholarship(s) to an entering freshman who is a resident of Wood County, Ohio. If at any time the income from this fund is not sufficient to provide at least one annual full-tuition scholarship, the income shall be added to the principal until the fund is again sufficient to provide a full-tuition scholarship. Any unused annual income shall also be added to the principal.

The selection of the recipient(s) will be made by the University Committee on Student Financial Aid based upon recommendations received from any one of the following: County 4-H Agent; the Home Economics Agent; high school principals; or the Wood County Alumni Club. Preference shall be given to students interested in fields of study relating to agriculture or home economics, and who are active in 4-H.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees with preference being given to recommendations from the Dean of the College of Agriculture and Home Economics or from the appropriate administrative official of the University who is then responsible for study related to the field of agriculture.

**The William G. Cronenwett Memorial Scholarship of Wood County\***

The Wood County Scholarship Fund was established May 2, 1980, by the Board of Trustees of The Ohio State University with gifts from alumni and friends of Wood County to The Ohio State University Development Fund.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as the occasion dictates.

The annual income is to be used to provide one or more scholarships for undergraduate students from Wood County enrolled in The Ohio State University. The selection of the recipient is to be made by the University Committee on Student Financial Aids upon recommendation of a selection committee from the Wood County Alumni Club.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to the recommendations from the appropriate administrative official of the University who is then directly responsible for scholarships and student financial aids.

**SALE OF PROPERTY TO THE INDUSTRIAL COMMISSION OF OHIO**

Resolution No. 82-23

*Synopsis: A report on the sale of land to the Industrial Commission of Ohio is presented.*

WHEREAS the Board of Trustees, in March, 1979, authorized the Administration to negotiate with the Industrial Commission of Ohio for the use of University property as the site for a Rehabilitation Center to be operated by the Commission's Division of Rehabilitation Services; and

WHEREAS as a result of discussions between the University and the Commission, it was determined that the best arrangement would be for the Administrator of the Bureau of Worker's Compensation, acting for the Commission, to purchase the 12.41 acre tract south of the new Veterans Administration Clinic on Kenny Road, and for this purpose a bill was introduced in the General Assembly; and

WHEREAS Amended Senate Bill 50, effective May 8, 1981, authorized the Governor to execute a deed in the name of the State conveying title to the property to the Administrator and provided that the purchase price of \$636,012.50 be deposited in the University's General Fund, and further provided an option to purchase an adjacent 3.74 acre tract, east of the Veterans Administration Clinic, in the event of future expansion of the Rehabilitation Center; and

September 4, 1981 meeting, Board of Trustees

**SALE OF PROPERTY TO THE INDUSTRIAL COMMISSION OF OHIO (contd)**

WHEREAS pursuant to Amended Senate Bill 50, the Governor has executed a deed conveying title to the 12.41 acre tract to the Administrator for use as the site of the new Rehabilitation Center and the purchase price of \$636,012.50 has been paid to the University and deposited in the University's General Fund:

NOW THEREFORE

BE IT RESOLVED, That this report on the sale of property to the Administrator of the Bureau of Worker's Compensation for use as the site of the new Rehabilitation Center be accepted and filed with the Office of the Secretary of the Board of Trustees.

Upon motion of Mr. Immke, seconded by Mr. Hilliker, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

**INVESTMENTS POLICY**

Resolution No. 82-24

*Synopsis: Adoption of a comprehensive policy governing investments is recommended.*

WHEREAS the Board of Trustees, from time to time, has adopted specific policies governing various aspects of the management of the University and endowment investment portfolios; and

WHEREAS there is a need for a comprehensive policy to provide for the overall management of these investment portfolios; and

WHEREAS the proposed University and endowment investments policy has been recommended by the University Administration, in consultation with Legal Counsel, and the Fiscal Affairs Committee:

NOW THEREFORE

BE IT RESOLVED, That the attached Investments Policy for The Ohio State University be adopted by the Board of Trustees; and

BE IT FURTHER RESOLVED, That the University Treasurer be, and hereby is, directed and authorized to implement and administer this Policy and to manage the University and endowment investments portfolios in accordance with this Policy.

Upon motion of Mr. Immke, seconded by Mr. Berry, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

September 4, 1981 meeting, Board of Trustees

## INVESTMENTS POLICY (contd)

Mr. Hilliker:

Mr. Chairman, also at this time I would like to have Dick Jackson report to the Board concerning the status of various notes that the University has in its investment portfolio.

Mr. Jackson:

We have had, over the last several months, a couple of bad--a couple of problems--trying to get out of two investments that the University had made. One was a local investment that was made some years ago and through our lawyers and with our lawyers we have gotten a return on our so-called "B" Notes of the Klingbeil Company and that money has been received in full value and has been invested, and we are very pleased to report that. Secondly, there was another organization called Main Line Fleets, Inc., in which we had actually written off the books and we have actually gotten a partial settlement in the amount of some \$25,000, and we are very pleased to have gotten both of those issues settled and over the hill with both of them.

## INVESTMENTS POLICY FOR THE OHIO STATE UNIVERSITY

### I. *Goals*

It shall be the policy of The Ohio State University to manage the investment portfolios of the University and the endowment for the use and benefit of the University in a manner that will:

- A. preserve and maintain the real purchasing power of the principal in the portfolios, and
- B. produce a yield which, when compared to the current marketplace, would be described as acceptable by conservative investment managers.

### II. *Investment Philosophy*

The endowment portfolio shall be managed with the intention of obtaining the highest possible "total return" (i.e., current income plus net realized and unrealized appreciation) of the investment portfolio, balancing reasonable growth with maintenance of prudently acceptable risk and maximizing income to satisfy the needs of the various endowment funds.

The University portfolio shall be managed with the intention of obtaining the highest possible "current income" for the investment portfolio while adhering to a prudent level of risk.

**INVESTMENTS POLICY FOR THE OHIO STATE UNIVERSITY (contd)**

**III. Definitions**

For purposes of this Policy, the endowment investments portfolio ("endowment portfolio") shall include all principal of the Endowment, the various charitable remainder annuity trusts, pooled income funds, unitrusts, all other gifts made to the University and the income produced on these funds. The University investments portfolio ("University portfolio") shall include all non-endowment investments of University funds.

**IV. Gains/Losses**

It shall be permissible for the University Treasurer to realize losses in any of the portfolios if such an action would be consistent with the University's investment goals. Losses and gains realized on the University portfolio shall be charged or credited against current income. Losses and gains realized on the endowment portfolio shall be debited or credited against the Endowment Gain and Loss Account and are not to be distributed on a current basis.

**V. Advisors**

It is the policy of the University to utilize the services of external investment advisors to assist in the management of the University and endowment portfolios. The number of advisors and the amount of funds under their aegis shall be determined by the Board of Trustees. The services to be provided by investment advisors shall be specified in written agreements.

**VI. Limitations**

- A. Not more than 10% of the University portfolio nor more than 10% of the endowment portfolio shall be concentrated in any particular industry. Certificates of deposit in banks and savings and loans shall not be deemed as an investment in the banking or savings and loan industry. Since the total amount of funds held in the University and endowment portfolios fluctuate on a day-to-day basis, the percentage concentration test shall not be monitored daily on existing investments. Rather, the test of any industry shall be made as of the date that an investment is made.
- B. Endowment investments directly in any foreign country shall be made only if specifically authorized by the Vice President for Business and Administration and the Fiscal Affairs Committee. No University investments shall be made in any foreign country. No monies in either the University or endowment portfolios shall be invested in corporations headquartered outside the United States.
- C. Not less than 30% nor more than 70% of the endowment portfolio shall be invested in common stocks. Additionally, not less than 30% nor more than 70% of the endowment portfolio shall be invested in fixed-income

**INVESTMENTS POLICY FOR THE OHIO STATE UNIVERSITY (contd)**

securities. For purposes of this limitation, the amounts recommended to be maintained in short-term investments by the equity advisors and by the fixed income advisors shall be considered as invested in common stocks or fixed-income securities, respectively, as long as those funds are committed to be invested in common stocks or fixed-income securities.

- D. The stock held by the Mutual Funds owned by the endowment shall not be considered in computing the industry concentration limitations.
- E. The directors, trustees, and administrators of the various funds of the University and endowment may specify terms and conditions that are more restrictive than those of this Policy but shall not permit a less restrictive policy without specific authorization from the Board of Trustees.
- F. The quality rating guidelines which are to be used shall be the ratings as of the date of the purchase of the security. If a rating change occurs which disqualifies a security that is already present in one of the University's portfolios, the following procedures are to be implemented:
  - 1. If the security is a short-term investment (to mature within one year from the date of the rating change), no action is required and the security may be held to maturity.
  - 2. If the security is a long-term investment (maturity exceeds one year from the date of the rating change), the security must be sold within sixty days from the discovery of the rating change.

**VII. *Marketability***

Securities purchased by the University and endowment may be listed on the New York, American or other exchange or be unlisted and traded over-the-counter provided that all securities purchased shall be readily marketable and meet the quality guidelines of this Policy. Investments that have no ready market that are gifts to the University shall be accepted if, as determined by the Vice President for Business and Administration and the University Treasurer, acceptance is in the best interest of the University.

**VIII. *Social Responsibility***

All investments of the University and the endowment portfolios must comply with the policy of the Board of Trustees approved April 7, 1978 (included as Exhibit "A") regarding social and employment policies of corporations. Proxies shall be voted in accordance with the above policy.

**IX. *Authorized Investments***

The following categories of investments shall be authorized for the endowment and/or the University portfolios as indicated.

**INVESTMENTS POLICY FOR THE OHIO STATE UNIVERSITY (contd)**

**A. Commercial Paper (endowment only)**

1. If the maturity of the paper does not exceed 60 days from the date of purchase, the following quality and amount limitations shall apply:
  - Rated A-1 (Standard and Poor's) and P-1 (Moody's), not more than \$3,000,000.
  - Rated A-1 and not rated by Moody's, not more than \$3,000,000.
  - Not rated by Standard and Poor's and rated P-1, not more than \$3,000,000.
  - Rated A-1 and P-2, not more than \$1,000,000.
  - Rated A-2 and P-1, not more than \$1,000,000.
  
2. If the term is greater than 60 days, but less than 270 days, the following limitations shall apply:
  - a. An amount not to exceed \$3,000,000 in any corporation rated A-1 and P-1 and whose long-term debt is rated AA (Moody's) or better, or whose parent company guarantees 100% of the commercial paper of its subsidiary.
  - b. An amount not to exceed \$3,000,000 in any corporation rated either A-1 and not rated by Moody's, or P-1 and not rated by Standard and Poor's, and whose long-term debt is rated AA or better or whose parent company debt rating is AA or better if that parent company guarantees 100% of the commercial paper of its subsidiary.
  - c. An amount not to exceed \$1,000,000 in any corporation rated A-1 and P-2, or A-2 and P-1, and whose long-term debt is rated A (Moody's) or better or whose parent company debt rating is A or better if that parent company guarantees 100% of the commercial paper of its subsidiary.
  
3. No commercial paper may be purchased with a term greater than 270 days.
  
4. The total of commercial paper, certificates of deposit, and banker's acceptances in one institution may not exceed \$3,000,000 (up to \$9,000,000 if the amount exceeding \$3,000,000 is in certificates of deposit that are 100% collateralized at their market value). Demand accounts shall not be included in this calculation.

**INVESTMENTS POLICY FOR THE OHIO STATE UNIVERSITY (contd)**

5. The total investment in commercial paper shall not exceed \$50 million.
  6. See Section VI, paragraphs A and B for industry concentration and foreign corporation limitations.
- B. Banker's Acceptances (endowment only)**
1. An amount not to exceed \$3,000,000 in any bank that is rated C or better by Keefe.
  2. The total of commercial paper, certificates of deposit and banker's acceptances in one institution shall not exceed \$3,000,000 (up to \$9,000,000 if the amount exceeding \$3,000,000 is in certificates of deposit that are 100% collateralized at their market value). Demand accounts shall not be included in this calculation.
  3. No banker's acceptances shall be purchased with a term greater than 270 days.
- C. Eurodollars (endowment only)**
1. An amount not to exceed \$3,000,000 in banks or subsidiaries of banks rated C or better by Keefe.
  2. No Eurodollars shall be purchased with a term greater than one year.
- D. Corporate Bonds (endowment only)**
1. An amount not to exceed \$1,000,000 may be invested in the long-term debt instruments of any one company. Not more than 10% of the endowment shall be invested in any particular industry.
  2. Bonds shall be A rated or better.
  3. No corporate bonds shall be purchased with a term greater than 40 years.
- E. Common Stock and Preferred Stock (endowment only)**
- An amount not to exceed 3% of the outstanding shares of a company may be purchased. Not more than 10% of the endowment portfolio shall be invested in any particular industry. All stock shall be of investment grade.

**INVESTMENTS POLICY FOR THE OHIO STATE UNIVERSITY (contd)**

**F. Mutual Funds (endowment only)**

The investment in any particular fund shall not exceed 5% of the total endowment. Investment in any fund shall not exceed 5% of the total funds of the mutual fund. All mutual funds shall be of investment grade.

**G. Real Estate (endowment only)**

Investments in real estate shall be made only upon specific authorization of the Board of Trustees.

**H. Municipal or State Bonds (University and endowment)**

1. An amount not to exceed \$1,000,000 in any one municipality or state (except that there shall be no limit on OSU or OSU-related bonds).
2. Bonds shall be A rated or better (except that there shall be no limitation on OSU or OSU-related bonds).
3. No bonds shall be purchased with a term greater than 30 years.

**I. Certificates of Deposit (University and endowment)**

**1. Collateralized at market value (University and endowment)**

Not to exceed \$6,000,000 in any Ohio bank authorized in Section 135.03 Ohio Revised Code which is rated C or better by Keeffe or any Ohio savings and loan authorized in Section 135.03 Ohio Revised Code whose return on average net assets according to Kaplan and Smith's publication of Ohio Savings and Loans and whose net worth as a percentage of assets according to Sheshunoff's publication of all savings and loans in Ohio rank in the top two-thirds of the savings and loans in Ohio, provided the amount not federally insured is collateralized as provided in Section 135.18 of the Ohio Revised Code with securities eligible under Section 135.18 (B).

**2. Uncollateralized (endowment only)**

Not to exceed \$3,000,000 in any bank or savings and loan located in the United States if uncollateralized and the bank is rated C or better by Keeffe or the savings and loan's return on average net assets according to Kaplan and Smith's publication of savings and loans and net worth as a percentage of assets according to Sheshunoff's publication of all savings and loans rank in the top two-thirds of the savings and loans in the United States.

**INVESTMENTS POLICY FOR THE OHIO STATE UNIVERSITY (contd)**

3. The total of commercial paper, certificates of deposit, and banker's acceptances in one institution may not exceed \$3,000,000 (up to \$9,000,000 if the amount exceeding \$3,000,000 is in certificates of deposit that are 100% collateralized at their market value). Demand accounts shall not be included in this calculation.
  4. No certificate of deposit shall have a term exceeding one year unless approved by the Vice President for Business and Administration and the Fiscal Affairs Committee.
- J. U. S. Treasury Bills, Notes and Bonds (University and endowment)
- No limitations on amount invested or term.
- K. U. S. Government Agencies (University and endowment)
- No limitations on amount invested or term.
- L. Repurchase Agreements (University and endowment)
1. Uncollateralized (endowment only)
- There shall be no limitations on the amount invested in this vehicle provided the term of the agreement shall not exceed 30 days.
2. Collateralized at Market Value (University and endowment)
- There shall be no limitations on the amount invested in this vehicle provided the term of the agreement shall not exceed 30 days and is 100% collateralized at market value by U. S. Government securities.
- M. Reverse Repurchase Agreements and Forward Commitments (University and endowment)
1. An amount not to exceed \$3,000,000 may be committed under any reverse repurchase agreement or any commitment to buy U. S. Treasury or U. S. Government Agency instruments at any one time.
  2. The length of the commitment may not exceed 90 days.
- N. Other Investments (University and endowment)
- Between meetings of the Board of Trustees, if deemed advisable, other investments not specifically authorized by this Policy may be made if approved by the Vice President for Business and Administration and the Fiscal Affairs Committee. Any such action shall be taken to the Board of Trustees at its next meeting for approval.

September 4, 1981 meeting, Board of Trustees

**INVESTMENTS POLICY FOR THE OHIO STATE UNIVERSITY (contd)**

**X. *Management of Investments***

Except as provided herein, the University Treasurer shall be authorized to implement and administer this Policy on behalf of the Board of Trustees and manage the University and endowment portfolios in accordance with this Policy.

**XI. *Effective Date***

It is understood that some of the current holdings may not meet the terms of this Policy on the date it becomes effective. Those holdings not in compliance may be maintained until the University Treasurer determines that sale would be in the best interests of the University or endowment. Any such current investments not in compliance with this Policy still held by the University or endowment six months after the effective date of this Policy shall be referred to the Fiscal Affairs Committee for a final decision as to disposition.

**XII. *Exceptions***

Modifications and exceptions to this Policy shall be authorized only by resolution of the Board of Trustees or as provided herein. The terms and conditions of this Policy as to the endowment portfolio may be waived if specified by the terms of a gift and approved by the Board of Trustees.

**XIII. *Reporting and Accountability***

The University Treasurer shall be accountable to the Board of Trustees for implementing this Policy. The University Treasurer shall make a written report to the Fiscal Affairs Committee at each regular meeting on the status of the University and endowment portfolios, and the Fiscal Affairs Committee shall report not less frequently than quarterly to the Board of Trustees.

**REPORT - FISCAL AFFAIRS COMMITTEE  
UNIVERSITY INVESTMENT PORTFOLIO**

Mr. Devenow, Chairman of the Fiscal Affairs Committee, read the following statement as prepared by Mr. John F. Havens.

At your request and on behalf of this committee, I have spent the past several months working directly with Dr. Moulton reviewing our endowment investments as well as the policies relating to these investments. During this period I believe we have effected a number of constructive changes in our holdings which have substantially strengthened our position. Certainly the recent performance of our mutual funds, the Chicago Corporation stocks, and the stocks managed by the University have performed very favorably when compared to the current market. Dr. Moulton and I, with the assistance of an investments committee which he has

formed, are now looking into our bond holdings in the endowment. We are presently in the process of interviewing bond counsel, and we hope to be able to make a recommendation to you in this regard in the next month or two.

At this time I would like to present to you several policy recommendations relating to our endowment investments for your consideration. The first relates to the size of our individual investments in the endowment.

Because of the present size of the portfolio--approximately \$60 million--I would recommend that a limit of approximately \$1 million be placed on our investments in any one corporation including its subsidiaries. Exceptions, of course, can be made by this committee to this rule. Further, I would not include within this specific policy investments in mutual funds and U. S. Treasury or Federal Agencies. At the same time, I would recommend a limit of approximately five per cent be placed on our portion of the total investment within a given corporation, including its subsidiaries. Mutual funds should be included within this policy.

I hope to be back to you in the near future with a recommendation on the matter of quality indices for our bond holdings which we are presently reviewing.

I would also like to suggest some further extensions of the general policies adopted by this board in July of last year, relating to investments in corporations conducting a significant level of business activity in South Africa.

First, I wish to recommend that we communicate to those corporations in which we have investments our full support of the Sullivan Principles. Further, in those limited cases where the companies in which we have an investment have not as yet subscribed to these principles, we determine what these corporations' intent is in this regard. Based upon this information, and subsequent evaluations as to the economic progress and/or the lack thereof that each of the corporations in which we have an investment is making in implementing these principles, we will, if we do not believe it is sufficiently substantial, divest such holdings at a time of our choosing.

Second, I would recommend that we not purchase investments in any corporation not supporting the Sullivan Principles which has been listed in *News for Investors* published by the Investor Responsibility Research Center, Inc., as a corporation conducting a significant level of business in South Africa.

At the same time we continue to vote our stock proxies in full support of the Sullivan Principles and, where possible, support the reduction in the level of the business activities in South Africa.

September 4, 1981 meeting, Board of Trustees

**EXHIBIT "A" (contd)**

**SULLIVAN PRINCIPLES**

The "Sullivan Principles," a statement of principles governing activities in South Africa, was drawn up under the direction of Reverend Leon Sullivan, a member of the Board of Directors of General Motors.<sup>1</sup> Each corporation which agrees to adhere to the principles is committed to the following:

- \* non-segregation of the races in all eating, comfort and work facilities;
- \* equal and fair employment practices for all employees;
- \* equal pay for all employees doing equal or comparable work for the same period of time;
- \* the initiation and development of training programs that will prepare, in substantial numbers, blacks and other non-whites for supervisory, administrative, clerical and technical jobs;
- \* an increase in the numbers of blacks and other non-whites in management and supervisory positions; and
- \* improvement in the quality of employees' lives outside the work environment in such areas as housing, transportation, schooling, recreation and health facilities.

**ACCESSION OF PROPERTY - 1.82 ACRES ADJACENT TO THE  
MANSFIELD REGIONAL CAMPUS, RICHLAND COUNTY, OHIO**

Resolution No. 82-28

*Synopsis: Accession of 1.82 acres adjacent to the Mansfield Regional Campus is proposed.*

WHEREAS the University has been provided with an opportunity to acquire 1.82 acres of land on the south side of State Route 39 in Richland County, Ohio, and situated northwest of, and adjacent to, the main entrance of the Mansfield Regional Campus; and

WHEREAS the property has been acquired by the Mansfield University Foundation through equal contributions of Foundation funds and funds from Mr. John B. Conard, and the Mansfield University Foundation has offered to make a gift of the property to the University through the Development Fund; and

WHEREAS it has been determined that accepting this gift is in the best interests of the University and the Mansfield Regional Campus:

**NOW THEREFORE**

**BE IT RESOLVED**, That the property be accepted as a gift to the University through the Development Fund from the Mansfield University Foundation by the Foundation's conveyance by General Warranty Deed to the Board of Trustees of The Ohio State University; and

**BE IT FURTHER RESOLVED**, That the President and/or Vice President for Business and Administration be authorized to acquire title to the property in the name of the Board of Trustees of The Ohio State University.

Upon motion of Mr. Immke, seconded by Dr. Jacob, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

Mr. Devenow:

You might say that that is quite an important thing for Board members that weren't here this morning. That is a piece of property that has access to our Mansfield campus, and we were always nervous about whether somebody was going to do something that might damage the appearance of that campus. Fortunately, now we have got that as a gift and let's thank John Mount; this was a great coup in our favor.

## REPORT - FACULTY COUNCIL (UNIVERSITY SENATE)

President Jennings:

Mr. Chairman, Professor Mike Gerald is here. He is currently Chairman of the Faculty Council and would like to say a few words to this Board.

Professor Michael C. Gerald:

Thank you President Jennings. Mr. Chairman, Distinguished Members of the Board, Colleagues, and Loyal Friends of The Ohio State University--I sincerely appreciate the opportunity to join you this afternoon.

When I accepted the opportunity to chat with you this afternoon, implicitly, I also accepted the challenge offered to me by one of my colleagues to keep my remarks brief. As an individual who has been a professor at this University for about a dozen years, this is going to be indeed a formidable challenge to me.

On behalf of the faculty, I wish to congratulate the Presidential Search Committee for identifying and the Board of Trustees for selecting Dr. Edward Jennings to serve as the 10th president of our University. Your choice of this outstanding academic administrator and scholar has been warmly applauded and is strongly supported by our faculty. We believe that he amply possesses those vital professional and personal attributes required to rally and unite all elements of the University community--our students, faculty, staff, and alumni--during this immediate critical period and in the coming years ahead.

Dr. Jennings, the faculty welcomes you to The Ohio State University and hopes that you, your wife, and your sons find abundant happiness and personal and professional satisfaction during your many years here in Columbus.

Our Colleges of Administrative Sciences, Agriculture, Education, Engineering, Pharmacy, and Veterinary Medicine, among many others, have been ranked by their respective peers to be among the very best such educational institutions in the nation. Administrators, students, and faculty have all richly and generously contributed to the well-deserved preeminent reputations of these colleges and to the overall excellent standing of our University among national and international scholars. However, in the absence of significant legislative assistance, we are concerned about the continued intellectual viability of this state's greatest resource.

Our administrators have worked to foster the educational process and search for new knowledge. They have effectively and judiciously allocated funds invested by the Ohio General Assembly in today's young people--people who will apply their education acquired here at Ohio State to help shape the destiny of our state and the nation well into the 21st century. The cost of such an education at this state University must continue to remain within the reach of all academically qualified Ohioans and should not create an insurmountable economic barrier for all but the affluent.

September 4, 1981 meeting, Board of Trustees

**REPORT - FACULTY COUNCIL (UNIVERSITY SENATE) (contd)**

Professor Michael C. Gerald: (contd)

Our University would precipitously grind to a halt without our talented administrators and would clearly lack a *raison d'être* in the absence of a student body. However, the intellectual survival of this University and its stature in the academic community are primarily dependent upon the quality of its faculty and the products of their scholarly endeavors. The faculty of The Ohio State University has had a long and distinguished record for expanding the boundaries of knowledge in all fields of academic inquiry and for also providing solutions to practical problems facing us as citizens of the local community, our state, and the nation.

I hope at some opportunity in the future I will have a chance to expand upon that aspect of my remarks.

President Jennings, on behalf of the entire University faculty, once again, I wish to welcome you and reaffirm our strong desire to assist you in fulfilling the missions of this great University. Mr. Devenow, we are equally committed to serving you and your colleagues who so generously serve as members of our Board.

Thank you for permitting this opportunity to address you today.

--o--

**REMARKS - PRESIDENT JENNINGS**

Mr. Chairman, let me just make a few remarks. Scholars have often said that the most important part of any job is its beginning. Now I'll say that I am in a very real sense at the beginning of my work here at Ohio State.

I want all of you to know that I am proud and privileged to be a part of this magnificent enterprise. Ohio State is undoubtedly an outstanding institution whose greatness stems, in large part, from its rich history and traditions of teaching, research and public service to the citizens of Ohio, the nation and indeed the world.

Soon after I accepted the offer of this Board, I remarked about the quality associated with Ohio State. In my few days here I have been learning first-hand about that quality in many areas of this institution, but most importantly in our faculty, our staff and our students.

The heart of our university is its faculty and Ohio State can be proud that it truly has one of the best. I have been impressed with their competence, their dedication to teaching and scholarly activity, and to the service they provide to virtually innumerable segments of the population of this state.

The students I have met, and I am anxious to meet many more when the quarter begins later this month, are vibrant, interested and serious about their education.

September 4, 1981 meeting, Board of Trustees

**REMARKS - PRESIDENT JENNINGS (contd)**

I have also been extremely impressed to find that staff, who in large measure are responsible for making this place work, share a deep commitment and dedication to their individual tasks and to the University as a whole.

I would be less than candid if I did not admit that we face some serious problems at this time--especially related to fiscal matters. But, I do pledge to you that I am committed to doing all that I can to see that faculty are adequately compensated and attempting to contain the ever-rising cost of education.

These challenges will indeed have the highest priorities.

Just on a personal note: my wife, Mary Eleanor, and I appreciate the many kindnesses and courtesies which have been extended to us by so many associated with Ohio State and the State of Ohio. We are looking forward to the challenges and are anxious to get on with it. Thank you very much.

### ADDRESS TO BOARD OF TRUSTEES BY MICHAEL C. GERALD

President Jennings:

Before I proceed with the agenda, I would like to call on Professor Michael Gerald, Chairman of the Faculty Council of the University Senate, to provide you a report on the last month's activities.

Professor Gerald:

Thank you, President Jennings, Mr. Chairman, Distinguished Members of the Board, Colleagues, and Loyal Friends of The Ohio State University. 'It was the best of times, it was the worst of times, it was the age of wisdom, it was the age of foolishness; it was the spring of hope, it was the winter of despair . . . .' So opens, as of course you know, Charles Dickens', *The Tale of Two Cities*. Parenthetically, I kind of wonder whether if Mr. Dickens was enrolled in one of our freshman English courses whether people would have corrected his writing style with these rather lengthy sentences--making it rather simple.

I perceive that analogous antithetical feelings exist in the minds and hearts of many of the members of the faculty at The Ohio State University--feelings that are undermining their aggressive pursuit of academic excellence. One finds it difficult to contemplate the design and inception of a scholarly program that will require five to ten years to bring to fruition, when the immediate future--the coming days, weeks, months--are so shrouded by uncertainty at both the national and state levels.

The events of recent months reveal a shift in priorities in terms of federal support of programs in education, the social services, the arts and the humanities. Continued support of scientific and even biomedical research programs remain in doubt. There are clear signs that academic programs that have been long in their stages of development and maturation may be rapid in their emasculation and dissolution.

In the absence of the state budget, program curtailment, release of tenured faculty, and salary increases remain unresolved issues. Our concern was clearly manifested when on September 21 over 700 faculty members attended an emergency meeting at which the President and four distinguished and very well-respected faculty colleagues candidly discussed these issues. In passing, it should be noted that never before in the history of the University have so many members of the faculty been in attendance at a single meeting--with the possible exception of a nice autumn afternoon in the Ohio Stadium, of course.

On the positive side--and I would like to emphasize the positive side of my story today--many of us sense and are very greatly encouraged by the increased spirit of cooperation among the Board of Trustees, administration, students, and

Professor Gerald: (contd)

faculty. Let me provide some tangible examples of what I feel to be the nature of this cooperation. Representatives of the faculty and students were invited by this Board to play a major role in the selection of candidates for the Presidency of this University. Last week, the Steering Committee of the University Senate, under the very able and dynamic leadership of Professor Richard Gilson of the Department of Aviation, publicly announced its support for a statement issued by the Ohio Student Association. I point out that the Steering Committee of the University Senate is made up predominantly of members of the faculty and administration. This is the first time on record when this organization has indeed supported a student resolution.

In recent days, the Provost has received a report from the Ad Hoc Committee on Policies for Termination of Tenured Faculty During Financial Exigency, an outstanding faculty committee chaired by Professor James Garland of the Department of Physics. This extremely sensitive report examines general conditions which might justify the termination of tenured faculty, and includes both financial exigency as well as academic considerations for termination of such individuals. Inclusion of both of these contingencies, that is financial as well as academic concerns, will enable the University to take grasp of its destiny in setting forth to accomplish its stated missions in the most effective and efficient manner. Within the week, the entire text of this report will be disseminated to the University faculty via publication in *OSU onCampus*, and on October 19, all faculty will be invited to an open discussion of this report. We are hopeful that a final report will be available for submission to the University Senate at its November meeting and be presented to this Board for approval at its meeting in December.

In conclusion, the faculty acknowledges and appreciates the support of the administration and the Board of Trustees in these trying times. We, the faculty, are eagerly looking forward to returning to our laboratories and libraries, our classrooms and clinics, where we can again obsessively resume our scholarly academic endeavors. Thank you, Mr. Chairman.

**RESOLUTIONS IN MEMORIAM**

Resolution No. 82-30

*Synopsis: Resolutions honoring the service of five of this University's faculty members who have recently died are being proposed.*

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Upon motion of Dr. Jacob, seconded by Mr. Smith, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

October 2, 1981 meeting, Board of Trustees

**RESOLUTIONS IN MEMORIAM (contd)**

Marion J. Conrad

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 5, 1981, of Marion J. Conrad, Professor Emeritus, Academic Faculty of Educational Administration.

Professor Conrad received the Bachelor of Science degree from Capital University in 1938 and the Master's and Ph.D. degrees from Ohio State in 1946 and 1952. He began his teaching career as a mathematics teacher at the Ravenna City High School in 1938 and was associated with public schools for a total of seven years, rising to the position of principal of Mariemont High School in 1948. He joined The Ohio State University staff in 1950 as a staff associate in the Bureau of Educational Research. He was head of the School Plant Division of the Bureau of Educational Research from 1956 to 1961 and in 1962 was named head of the Educational Administration and Facilities Unit in the College of Education. When he retired in 1974 he held the rank of Professor and Associate Chairman of the Academic Faculty of Educational Administration.

Professor Conrad conducted numerous studies of educational facility needs and was involved heavily in educational facility planning at the local, state, and national levels. He developed the Conrad Formula for Determining the Operating Capacity of Secondary School Buildings; demonstrated a relationship between carpeting as an acoustical floor covering and learning; developed a computer approach to building the high school master schedule, and comprehensive educational planning at the local, district, and state department of education levels; and conducted a replanning study of the Illinois plan for program development on gifted children.

He held membership in several professional associations including the Council of Educational Facility Planners, International; the American Association of School Administrators; the National Conference of Professors of Educational Administration; and the American Educational Research Association. He served on the Board of Directors of the Council of Educational Facility Planners, International and received one of the first distinguished service awards from the Council.

On behalf of the University community, the Board of Trustees expresses to the family its deepest sympathy and sense of understanding it its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

Matthew Charles Dodd

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 27, 1981, of Dr. Matthew Charles Dodd, Professor Emeritus, Department of Microbiology, College of Biological Sciences.

Matthew Charles Dodd was born in Circleville, Ohio, on March 24, 1910. He attended parochial school, Columbus Aquinas High School, class of 1928 and earned his Bachelor of Arts degree from Ohio State in 1933. Dr. Dodd received his doctorate at the University of Michigan in 1942 having studied *Bacillus violaceus* and its antigenic relationships.

October 2, 1981 meeting, Board of Trustees

**RESOLUTIONS IN MEMORIAM (contd)**

Matthew Charles Dodd (contd)

In 1941 Dr. Dodd joined the Research Division of the Norwich Pharmaceutical Company in Norwich, New York. During his stay with that company he recognized and developed the chemotherapeutically important drugs Furacin and Furadantin. The work resulted in thirteen patents issued to Dr. Dodd and his associates. His work was very important in the treatment of infections and burns of soldiers during World War II.

Dr. Dodd joined The Ohio State University in 1946 as an Assistant Professor of Bacteriology with primary interest in teaching and research in the area of immunology and pathogenic bacteriology.

During his tenure at Ohio State, Dr. Dodd was major advisor to 68 students receiving the M.S. degree and 40 receiving the Ph.D. degree.

In 1975 he was recognized as a preeminent educator when he received a national award, (Carski Distinguished Teaching Award) from his peers in the American Society for Microbiology.

Dr. Dodd served a term as Chairman of the Department of Microbiology beginning in 1967.

On behalf of the University community, the Board of Trustees expresses to the family its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as a sincere expression of the Board's realization of the loss which the family and The Ohio State University have sustained.

Roger M. Thomas

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 31, 1981, of Roger M. Thomas, County Extension Agent Emeritus, Cooperative Extension Service.

Mr. Thomas joined the Extension Service of The Ohio State University as County Agricultural Agent in Scioto County in 1924. He served there until 1938 at which time he moved to Portage County where he continued as Agricultural Agent until his retirement on December 31, 1959.

He is remembered as an effective agent who was innovative in his use of visual aids. He is also remembered for his work in dairy, agronomy, artificial insemination and production testing.

Prior to becoming an Extension Agent, Mr. Thomas taught school one year and earned his Bachelor of Science in Agriculture degree from The Ohio State University. He did graduate work at Colorado State, Cornell and the University of Indiana. Mr. Thomas was active in church, community and professional organizations.

Roger M. Thomas (contd)

On behalf of the University community, the Board of Trustees expresses to the family of Mr. Thomas its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as sincere appreciation of the Board's realization of the loss that the family, the University and his many friends and associates have sustained.

James D. Wilson

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 2, 1981, of James D. Wilson, Associate Professor and Chairperson of the General Studies Division at the Agricultural Technical Institute.

Mr. Wilson was born December 28, 1943. He was graduated from Marion L. Steele High School in Amherst, Ohio, in 1961 and began his college studies at Baldwin-Wallace. In 1963 he transferred to The Ohio State University and was awarded his Bachelor of Science degree in anatomy/English/psychology. He pursued his post graduate work in English at Kent State University and Indiana University of Pennsylvania.

Mr. Wilson joined the faculty of The Ohio State University at the Agricultural Technical Institute in Wooster, Ohio, on July 1, 1974, after five years teaching experience at the Kent State University and the University of Akron. In 1978 Mr. Wilson became the first Chairperson of the General Studies Division at the Agricultural Technical Institute.

Mr. Wilson was a dedicated and highly respected educator. He was well known and respected among his peers and students and served the University in a commendable fashion.

On behalf of the University community, the Board of Trustees expresses to the family its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as sincere appreciation of the Board's realization of the loss which the family, the University and his many friends and associates have sustained.

John Harold Wilson

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 28, 1981, of John Harold Wilson, Professor Emeritus, Department of English in the College of Humanities.

Dr. Wilson was born in Springfield, Ohio, on February 11, 1900. He received an A.B. degree from Oberlin College in 1922, the M.A. degree from Syracuse University in 1924, and the Ph.D. degree in English from The Ohio State University in 1927.

Dr. Wilson was an Instructor at Syracuse University from 1922-1924, and a Lecturer in English at the University of Tennessee in the Spring of 1936 and 1938. He was also a

Lecturer in English at Michigan State University in the Summer of 1958. Dr. Wilson joined the faculty of the Department of English at Ohio State in 1924 with the rank of Instructor, was promoted to Assistant Professor in 1928, to Associate Professor in 1934, and to Professor in 1942. He retired in 1968.

Dr. Wilson authored or coauthored twenty books and numerous articles, most of them dealing with his specialty, Restoration drama and 18th Century British literature. He was a Folger Fellow, a Guggenheim Fellow, and member of the Modern Language Association, the Society for Theatre Research, and the American Association of University Professors.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

President Jennings requested Vice President Jackson to say a word about Mr. Nichols.

October 2, 1981 meeting, Board of Trustees

**PERSONNEL ACTIONS (contd)**

Appointments (contd)

Mr. Jackson:

Thank you, Dr. Jennings. Mr. Smith, and members of the Board of Trustees, I am very pleased to be able to have the name of James Lee Nichols presented to you today for consideration for the position of University Treasurer. After Mr. Kristoff left the University, we began looking diligently for someone to replace him, and it has obviously taken some period of time. We did that purposely because we wanted to find someone who we thought could provide leadership as well as some continuity over a period of time. I have known this young man for some period of years. I have watched him grow and mature into management positions. At this time he is Deputy Director of the Department of Energy, State of Ohio, and I am most hopeful that you will support this appointment and that we can bring him on board so that I can get Mr. Brace back from over there, back into my office where I need him so badly, and I am certainly most appreciative of the job he has done over there. I would hope that the Board would approve Mr. Nichols' appointment.

\$115,486.00 - Florida Department of Transportation, Tallahassee, Florida, Fabrication of Two Pavement Friction Measurement Systems, Transplex, August 2, 1981 through March 31, 1982. (312713/7009)

**Industrial and Other Sponsored Research and Development**

\$430,000.00 - various industries for general support of the Center for Welding Research, Department of Welding Engineering, August 1, 1981 through July 31, 1982. Current industry participants and their respective levels of support include:

Bishopric Products, Inc., Cincinnati, Ohio	\$ 30,000
Caterpillar Tractor Co., E. Peoria, Illinois	30,000
Euclid, Inc., Cleveland, Ohio	30,000
GATAX, Gard, Inc., Niles, Illinois	30,000
G. E. Aircraft Engine, Evendale, Ohio	80,000
GM Technical Center, Detroit, Michigan	30,000
IBM, Armonk, New York	30,000
Standard Oil, Cleveland, Ohio	30,000
Westinghouse, Pittsburgh, Pennsylvania	30,000
Pending Support	110,000

The CWR second year research program consists of the following projects:

Director's Office--added funding total of	\$124,950	(529090)
Sensing and Control of Arc Welding Process	214,760	(529501)
Weld Pool Solidification under Power Variations	69,830	(529502)

October 2, 1981 meeting, Board of Trustees

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)**

**ENGINEERING EXPERIMENT STATION (contd)**

**Industrial and Other Sponsored Research and Development (contd)**

Laser and Laser-Arc Welding Studies	\$ 70,620	(529503)
Weld Strength of Steel Structures	75,070	(529504)
Weld Discontinuity Analysis	67,210	(529505)
Resistance Welding	45,000	(529506)
Micro Joining	22,560	(529507)

The second year of CWR activity includes federal support from National Science Foundation through The Ohio State University Research Foundation Project 713272 totalling \$260,000.00. (EES 529090, 529501-8)

\$122,945.00 - various industries for 40 development projects conducted in six departments for the College of Engineering.

**TOTAL - INDUSTRIAL AND OTHER SPONSORED  
RESEARCH AND DEVELOPMENT**

**\$ 552,945.00**

**THE OHIO STATE UNIVERSITY DEVELOPMENT FUND**

**Gifts of \$5,000 or More**

\$128,911.72 - Trust Under the Will of Kathryn L. Mitchell, Columbus, Ohio, for Gilbert and Kathryn Mitchell Fund.

\$68,450.00 - Trust Under the Will of Anna Roessler, Columbus, Ohio, for Samuel J. Roessler Memorial Fund.

\$25,000.00 - Norden Laboratories, Lincoln, Nebraska, for Veterinary Pathology Graduate Training Fund.

\$25,000.00 - Texagulf, Inc., Stamford, Connecticut, for Endowed Professorship in Plant Protection.

\$17,318.75 - Hoffmann-LaRoche, Inc., Nutley, New Jersey (given in the name of Dr. Brian D. Andresen), for Clinical Pharmacology Fund.

**Gamma Alpha Library Fund (contd)**

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

Income from the fund is to be used annually to purchase reference materials, such as books, journals, and microformatted materials, for the University Science Libraries, i.e., libraries of the Chemistry, Physics, Botany, Biological Sciences and Geology Departments. The available funds will be used in a manner that will benefit as equitably as possible all of the named libraries. Requisitions for such funds will be made in consultation with the librarians of the respective named libraries by the appropriate dean in cooperation with the University Director of Libraries.

Should the needs for these funds cease to exist, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to the recommendations of the appropriate administrative official of the University who is then directly responsible for the University Libraries.

**Graduate Program in Hospital and Health Services Administration  
Excellence Endowment Fund**

A Graduate Program in Hospital and Health Services Administration (H.H.S.A.) Excellence Endowment Fund was established October 2, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund by alumni and friends of the program.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The principal and/or income is to be used to support and advance the Graduate Program in Hospital and Health Services Administration at the direction of the Executive Committee of the Alumni Association of the Graduate Program in Hospital and Health Services Administration.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for the graduate program.

The Joseph S. Platt--Porter, Wright, Morris & Arthur Professorship in Law Fund\*

WHEREAS the Board of Trustees on January 14, 1965, approved a set of guidelines for the establishment of "Named Professorships," which was subsequently modified March 3, 1972, and renamed "Endowed Professorships" and was modified further on May 5, 1978; and

WHEREAS gifts and pledges of gifts have been received from several individuals for the establishment of The Joseph S. Platt--Porter, Wright, Morris & Arthur Professorship in Law; and

WHEREAS all gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates; and

WHEREAS at such time as the gifts reach a total of \$250,000, the annual income shall be used to provide support for the work of a distinguished scholar and teacher in the College of Law with appointment to The Joseph S. Platt--Porter, Wright, Morris & Arthur Professorship to be recommended to the Provost by the Dean of the College of Law, for approval by the Board of Trustees; and

WHEREAS the Professorship shall be known as "The Joseph S. Platt--Porter, Wright, Morris & Arthur Professorship in Law" but should the name of the firm change or should the firm dissolve, separate or merge with another firm, the name of this professorship may be changed, in the sole discretion of the Dean of the College of Law, to a name most clearly coinciding with the original purpose of this endowment; and

WHEREAS there will be a period until this fund reaches the level necessary to endow a professorship, the income from the fund may, until that time, be used in the discretion of the Dean of the College of Law in such manner as will best serve the needs of the College of Law, including, but not limited to adding the income to this endowed fund or establishing a designated professorship; and

WHEREAS should the need for this faculty position cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the College of Law:

**NOW THEREFORE**

**BE IT RESOLVED**, That "The Joseph S. Platt--Porter, Wright, Morris & Arthur Professorship in Law Fund" be established in accordance with the wishes of the donors.

October 2, 1981 meeting, Board of Trustees

**REPORT BY PRESIDENT EDWARD H. JENNINGS**

President Jennings:

Mr. Chairman, I would just like to point out a few things. First of all, I would like to extend our thanks--my thanks--to OARDC, Dean Kottman, and their staff for providing these fine facilities for our meeting, and I do look forward to Dean Kottman and his staff giving us a tour of the OARDC facilities. I think an opportunity to come to what we hope legislatively will be a fully integrated part of Ohio State very shortly is a good opportunity. I also look forward, I think with the success of this, perhaps getting around the state much more and perhaps we might even be able to go to some of our other facilities outside Columbus even for Board meetings as that develops.

Just a comment. Yesterday afternoon the House by a two to one vote did pass the budget bill which is essentially with some exceptions the same budget bill that we have been talking about. I certainly commend the House for their activity there and for their recognition of the financial difficulties of not only Ohio State but all of higher education as well as primary and secondary education around the state. I think that if that bill now goes through the Senate, the major financial problems of this institution can be solved, but I want to emphasize that this bill, if it comes out of the Senate in its current status, is a bill that will essentially restore the cuts that were made last year and will provide for very, very little expansion in this institution, if any. Anything beyond the restoration would be simply to catch up as we understand the figures now. The bill, beyond the restoration, provides an additional \$4 million beyond the restoration of last year's initial budget so that you can see \$4 million out of a total budget of \$500 million is not a great expansion. And this will not eliminate the need for financial control and financial stringency, it will simply allow us to get us out of our worst problems with faculty salaries and tuition. That concludes my report.

#### **RESOLUTIONS IN MEMORIAM**

Resolution No. 82-38

*Synopsis: Resolutions honoring the service of two of this University's faculty members who have recently died are being proposed.*

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Upon motion of Mr. Hilliker, seconded by Mr. Immke, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

K. Kenney Crooks

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 18, 1981, of K. Kenney Crooks, Assistant Professor in the Department of Surgery, Division of Urology, Head of Section of Pediatric Urology.

November 6, 1981 meeting, Board of Trustees

**RESOLUTIONS IN MEMORIAM (contd)**

**K. Kenney Crooks (contd)**

Dr. Crooks was born in Newport News, Virginia, in 1945 and lived in Virginia during his undergraduate years. He received the M.D. degree from the Medical College of Virginia in 1971 and interned at the Peter Bent Bingham Hospital in Boston, Massachusetts.

He became interested in genitourinary surgery, and after a two-year hiatus as a flight surgeon in Oklahoma, returned to train under Dr. George Prout at the Massachusetts General Hospital in Boston. While there, he was exposed to the innovative operative techniques of Dr. Hardy Hendren and chose to extend his training at Harvard Medical School in Pediatric Urology. He came to Columbus to join the faculty of The Ohio State University School of Medicine as an Assistant Professor in the Department of Surgery, Division of Urology, Head of Section of Pediatric Urology. He was board certified in 1980.

Dr. Crooks became recognized as one of the finest technicians of operative surgery in the Department of Surgery. He brought to Columbus a standard of care for the pediatric urology patient that had not been seen before, and his innovative surgeries helped to correct many of the tragic malformations seen in this group of patients.

He was an avid teacher of students, residents, and faculty. He brought a new level of academics to the urology service at Columbus Children's Hospital and this passed over to his literary endeavors. At his young age, he had published 24 articles or chapters. This month he was to have presented original work in Boston and Indianapolis.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Helen E. Dean

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 6, 1981, of Helen E. Dean, Professor Emeritus in the University Libraries.

Professor Dean was born in Manhattan, Kansas, on November 3, 1905. She received her B.S. degree in 1928 from Kansas State College, Manhattan, with a major in English literature and her B.S. degree in library science from the University of Illinois in 1929. From September 1929 until June 1930, she was Acting Reference Librarian at Lawrence College, Appleton, Wisconsin; and she was a Cataloger at the University of Missouri, Columbia, from September 1930 until July 1, 1946 when she came to The Ohio State University Libraries as a member of the Catalog Department. On July 1, 1959, she became Associate Cataloger, assuming the responsibilities of the second-in-command in the Catalog Department. Ms. Dean held the rank of Assistant Professor from July 1, 1959 until July 1, 1966 when she was promoted to the rank of Associate Professor.

Professor Dean held active memberships in major library organizations both on the national and local levels. These included the American Library Association, Association of College

and Research Libraries, Beta Phi Mu, The Ohio Valley Group of Technical Service Librarians, Missouri Library Association, and the Ohio Library Association. She was also a member of the American Association of University Professors and the Archaeological Institute of America. She also published in the professional library journals.

Professor Dean retired on December 1, 1971 with 25 years of fine, devoted and loyal service. She demonstrated her total commitment to the goal of excellence in the successful training of generations of new catalogers for The Ohio State University libraries.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

**BUDGET SUMMARY (FOURTH QUARTER, 1980-1981)**

Resolution No. 82-39

*Synopsis: The fourth quarter summary report of the current funds budget is presented for review.*

WHEREAS the fourth quarter report of the current funds budget for the fiscal year ending June 30, 1981 is presented for review; and

WHEREAS the actual expenditures and commitments of the fourth quarter report are supported by adequate income; and

WHEREAS the variations in income represent primarily unanticipated increases in investment earnings, hospital patient volume, and grant and contract activity; and

WHEREAS the variances in expenditures represent less than one-half of one percent of budget estimates:

NOW THEREFORE

BE IT RESOLVED, That the budget report for the fourth quarter, including transfers to plant funds and transfers to endowment principal processed for the fiscal year 1980-81, be accepted.

Upon motion of Mr. Hilliker, seconded by Mr. Havens, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

Establishment of Named Funds

The William M. Batten Distinguished Visitor Fund

The William M. Batten Distinguished Visitor Fund was established November 6, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the Texas Instruments Foundation, Dallas, Texas, to honor the achievements of William M. Batten.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income from the principal is to be used to improve mutual learning, understanding and respect between academic and management communities, by facilitating and supporting visits by distinguished executives to the College of Administrative Science and The Ohio State University.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then responsible for curricula in administrative science.

The McGregor Fund Finance, Banking and Accounting Scholarship

The McGregor Fund Finance, Banking and Accounting Scholarship was established November 6, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the McGregor Fund, Detroit, Michigan.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income from the principal is to be used to provide scholarships for students in finance, banking, accounting and related fields. The selection of the recipients shall be made upon the recommendation of the Scholarship Committee of the College of Administrative Science.

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)**

**THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)**

**Establishment of Named Funds (contd)**

**The McGregor Fund Finance, Banking and Accounting Scholarship (contd)**

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for curricula in administrative science.

**Helen Sells Clarkson Memorial Scholarship**

The Helen Sells Clarkson Memorial Scholarship was established November 6, 1981, by the Board of Trustees of The Ohio State University with a gift from the estate of Helen Sells Clarkson, B.A. '14.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

Income from the scholarship fund shall be used to benefit students who are pursuing majors in the natural sciences in the College of the Arts and Sciences or the College of Agriculture, Home Economics and Natural Resources. The selection of the recipient(s) is to be made upon the recommendation of the University Scholarship Committee.

Should the need for these funds cease to exist, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to the recommendations of the appropriate administrative official of the University who is then directly responsible for studies in the natural sciences.

**The History Enrichment Fund**

The History Enrichment Fund was established November 6, 1981, by the Board of Trustees of The Ohio State University with an anonymous gift to The Ohio State University Development Fund.

The gift is to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to support research activities in the Department of History; to support an annual graduate fellowship prize for the best history seminar paper; and to provide discretionary funds for the Department of History to support excellence in teaching, departmental social obligations, the search for additional enrichment funds, and as well to publicize the scholarly activities of the Department.

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)**

**THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)**

**Establishment of Named Funds (contd)**

**The History Enrichment Fund (contd)**

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for training students in history.

**The C. B. "Bill" Smith Scholarship Fund in Civil Engineering**

The C. B. "Bill" Smith Scholarship Fund in Civil Engineering was established November 6, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from friends of C. B. "Bill" Smith.

The gift is to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be awarded to an Ohio resident who is a graduate student in structural engineering. Recipients will be determined by the established procedures within the Department of Civil Engineering.

Should the need for this fund cease to exist or so diminish as to provide unused income, the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the College of Engineering.

**The Hilandar Research Project Endowment Fund**

The Hilandar Research Project Endowment Fund was established November 6, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from: (1) individuals and institutions concerned with the preservation and dissemination of Serbian and Slavic culture and the heritage of Orthodoxy which are embodied in the microfilm copies of manuscripts from Hilandar Monastery and other repositories of Slavic manuscripts currently housed in the Hilandar Room in the Main Library, and (2) other friends of the Hilandar Room.

It is understood that the name Hilandar will be used in perpetuity to designate the facility which houses the collection of manuscripts on microfilm from the Hilandar Monastery on Mount Athos, Greece. Donors to the endowment fund will be designated as "Friends of the Hilandar Room."

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)**

**THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)**

**Establishment of Named Funds (contd)**

**The Hilandar Research Project Endowment Fund (contd)**

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income will be used to facilitate scholarship and to disseminate the results of that scholarship throughout this hemisphere and on a worldwide basis. Specifically, the income will be used for library acquisitions, research, publications, and clerical and administrative support in keeping with an annual budget approved by a University Advisory Council for the Hilandar Research Project. Requisitions for the use of these funds will be initiated by the Director of the Hilandar Research Project and approved by the Dean of the College of Humanities.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for Slavic studies.

**The Philip P. Poirier Memorial Fund**

The Philip P. Poirier Memorial Fund was established November 6, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the friends and family of Professor Philip P. Poirier who served as Professor of British history from 1952 until his death in February 1979. Professor Poirier was best known for his prize-winning book on the British Labour Party and for his rigorous and stimulating classes on modern British history.

The gift is to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The income is to be awarded to one or more graduate students enrolled in the Department of History to support their travel abroad when working on a doctoral dissertation in some area of British history. Each year the Poirier Memorial Travel Fund award will be announced by the Department of History. Applications will be solicited from graduate students. Applications will be evaluated by an appointed committee and recipients will be informed by the Department Chairperson. Awards need not be made each year and are made at the discretion of the Committee and the Department Chairperson.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for training students in history.

**REQUEST FOR ARCHITECTS/ENGINEERS AND  
REQUEST FOR CONSTRUCTION BIDS**

**ENERGY MODIFICATIONS - LINCOLN AND MORRILL TOWERS**

Resolution No. 82-44

*Synopsis: Employment of engineering firm and request for construction bids pending finalization of funding from the United States Department of Education's College Housing Energy Conservation Loans.*

WHEREAS The Ohio State University has been selected by the U. S. Department of Education to receive funding under the College Housing Program for 1981; and

WHEREAS this funding will provide for energy conservation modifications through Energy Retrofit for Morrill Tower and Lincoln Tower; and

WHEREAS the total project costs for both towers are \$522,800 with \$497,800 to be a low interest (three percent) loan from the U. S. Department of Education and \$25,000 will be provided by The Ohio State University General Dormitory Fund and/or Housing Commission 3; and

WHEREAS several energy conservation measures will be accomplished, i.e., damper and return air modifications, time clocks installed for air systems and night shutdown of heating, ventilating and air conditioning systems, lighting modifications, heat recovery unit will be provided for preheating of water for the domestic hot water system and these modifications will provide excellent payback provisions which are estimated at one year four months:

**NOW THEREFORE**

**BE IT RESOLVED**, That the Vice President for Business and Administration be authorized to proceed to select a qualified engineering firm for this project in conjunction with the Department of Administrative Services; and that the fees for these engineering services be negotiated between the firm selected and the Department of Administrative Services, Division of Public Works; and

**BE IT FURTHER RESOLVED**, That the Vice President for Business and Administration be authorized to proceed to request construction bids on this project in accordance with established University procedures, and if satisfactory bids are received, to recommend to the Department of Administrative Services, Division of Public Works, the award of contracts with all actions to be reported to this Board at the appropriate time; and

**BE IT FURTHER RESOLVED**, That all final actions related to the award of engineering contracts for each of these projects will be dependent upon final funding by the United States Department of Education.

Upon motion of Mr. Hilliker, seconded by Mr. Havens, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

**REQUEST FOR ARCHITECTS/ENGINEERS AND  
REQUEST FOR CONSTRUCTION BIDS**

**ENERGY MODIFICATIONS - PRINTING FACILITY  
AND UNIVERSITY HOSPITAL (ECM 5 AND 6)**

Resolution No. 82-45

*Synopsis: Employment of engineering firms and request for construction bids pending finalization of funding from Federal and local University sources.*

WHEREAS The Ohio State University has been selected by the Department of Energy to receive funding under Cycle III of the Department of Energy's Federal Institutional Grants Program; and

WHEREAS this grant will provide fifty percent funding for energy modification projects for the University Hospital, known as ECM-6, and the Printing Facility, known as ECM-5; and

WHEREAS fifty percent for each project will be funded from the Federal Department of Energy and fifty percent from University Hospital funds and Printing Facility local funds with the total project costs being \$115,208 for the University Hospital and \$105,770 for the Printing Facility:

**NOW THEREFORE**

**BE IT RESOLVED**, That the Vice President for Business and Administration be authorized to proceed to select a qualified engineering firm for each project in conjunction with the Department of Administrative Services; and that the fees for these engineering services be negotiated between the firm selected and the Department of Administrative Services, Division of Public Works; and

**BE IT FURTHER RESOLVED**, That the Vice President for Business and Administration be authorized to proceed to request construction bids on these projects in accordance with established University procedures, and if satisfactory bids are received, to recommend to the Department of Administrative Services, Division of Public Works, the award of contracts with all actions to be reported to this Board at the appropriate time; and

**BE IT FURTHER RESOLVED**, That all final actions related to the award of engineering contracts for each of these projects will be dependent upon final funding by the Department of Energy and the Printing Facility and University Hospital.

Upon motion of Mr. Hilliker, seconded by Mr. Havens, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

**TREASURER'S BOND**

Resolution No. 82-46

*Synopsis: Treasurer's Bond is being proposed pursuant to Section 3335.05 of the Ohio Revised Code.*

WHEREAS Section 3335.05 of the Ohio Revised Code requires that the Treasurer of The Ohio State University give bond to the State of Ohio in such sum as the Board of Trustees determines; and

WHEREAS the Board of Trustees has determined that a bond of \$3,000,000 per incident will be adequate protection for the probable amount that realistically will be under the Treasurer's control in any one year:

NOW THEREFORE

BE IT RESOLVED, That the bond of James Lee Nichols, Treasurer of The Ohio State University, as required by Section 3335.05 of the Ohio Revised Code, be set at \$3,000,000.

Upon motion of Mr. Hilliker, seconded by Mr. Smith, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

President Jennings requested Mr. Redman to present the following resolution:

**EXPRESSION OF GRATITUDE TO WILLIAM E. VANDAMENT**

Resolution No. 82-47

WHEREAS, Dr. William E. Vandament served The Ohio State University with distinction from 1976 to 1981 as Executive Assistant to the President, Director of Budget and Resources Planning, and Vice President for Finance and Planning; and

WHEREAS, Dr. Vandament's service has been exemplary in helping Ohio State cope with difficult budgetary problems; and

WHEREAS, Dr. Vandament's expertise in grasping complex financial issues, and his skill in communicating these issues to this Board, to the University's administration, and to its faculty, staff, and students have been of the highest caliber; and

WHEREAS, Dr. Vandament is held in high personal regard throughout the University as a reflection of his open managerial style, his positive attitude, and his warm personality; and

WHEREAS, Dr. Vandament has left Ohio State after his years of distinguished service to accept the important professional advancement of becoming Senior Vice President for Administration at New York University:

**EXPRESSION OF GRATITUDE TO WILLIAM E. VANDAMENT (contd)**

**NOW THEREFORE**

**BE IT RESOLVED**, That it is the wish of this Board to recognize Dr. Vandament at the time of his departure from service at The Ohio State University;

**BE IT FURTHER RESOLVED**, That this Board wishes to make public and plain its deep and sincere appreciation for Dr. Vandament's contributions to the continued fiscal health of the University;

**BE IT FURTHER RESOLVED**, That this Board wishes to express how keenly Dr. Vandament's professional talents and personal presence on this campus will be missed;

**BE IT FURTHER RESOLVED**, That this Board wishes to thank Dr. Vandament for his years of devoted service, which have immeasurably benefited The Ohio State University, by directing that this expression of gratitude be inscribed upon the minutes of the Board of Trustees;

**BE IT FURTHER RESOLVED**, That a copy of this resolution shall be forwarded to Dr. Vandament with our best wishes for his every success as he continues his career at New York University.

Mr. Redman moved that the foregoing resolution be adopted which was seconded by Dr. Jacob.

Mr. Devenow:

I don't think this motion needs any discussion. We're all indebted to Dr. Vandament for a great job he did here at the University, and with that I will ask for those in favor.

The foregoing resolution was approved by unanimous voice vote.

--o--

Mr. Devenow: Mr. President, you have one more item?

**COMMENTS BY PRESIDENT JENNINGS**

President Jennings:

Yes, Mr. Chairman. At the September Board meeting, as you know we began a process of college preparatory requirements for conditional/unconditional admittance. And at that time, we wanted to do it pending a review by the Attorney General's office. That review has taken place. The Attorney General's office has responded to us in writing that the 1958 opinion issued by the Attorney General at that time is still applicable to the conditional/unconditional proposal that we made in September, and in that context, the legal issues there I would consider closed. Thank you.

### Simon Dinitz

A professor of sociology who is considered one of the foremost criminologists in the world today, Simon Dinitz has been honored repeatedly by his peers for his influential research in mental illness, crime, juvenile delinquency, and violent behavior. His book on schizophrenia, one of 14 he has written, is credited with the movement which brought schizophrenics out of mental hospitals and into functional lives in the community. It was for this work that he was awarded the 1967 Hofheimer Prize for Research from the American Psychiatric Association.

More recently Dr. Dinitz became the first Ohio State professor to have won both the University's Alumni Award for Distinguished Teaching (1970) and its

Distinguished Research Award (1979). Nominations for these awards are made by students and professional colleagues and reflect the high regard of the entire academic community.

Dr. Dinitz is a native of New York City and received the bachelor of arts degree, magna cum laude, from Vanderbilt University in 1947. He received the master of arts in 1949 and the Ph.D. in 1951, both from the University of Wisconsin. He has been a faculty member at Ohio State since 1951.

His accomplishments exemplify the scholarly excellence of the University's faculty and their dedication to the University's mission of teaching, research, and service. The Ohio State University is honored to have Simon Dinitz address the graduates of the 278th Commencement.

## Recipients of Honors

---

### **Merritt Madison Chambers** Doctor of Humane Letters

A longstanding and ardent supporter of public higher education, M. M. Chambers has been teaching and doing scholarly research for more than a half-century. He has been the mentor of thousands of students. In the course of his distinguished career, he has written 35 books and monographs and some 400 published articles. Known for his expertise in higher education finance and law, he has, for nearly 25 years, collected, analyzed, and circulated statistics on support by the fifty states for higher education. His staunch advocacy of public higher education is best expressed by one of his often-quoted statements: "The public value of universal access to higher education is incalculable. It is the most productive possible long-term investment for public funds, for dollar return, and for the intangible benefits to society." The Ohio State University is pleased to honor its alumnus, Merritt Madison Chambers, for his invaluable contributions to public higher education.

### **Jack O. Evans** Distinguished Service Award

The hearts of Ohio State University's friends have thrilled as Jack O. Evans filled this campus with music. As director of the University's Activities Band, the Buckeye Scarlet Band, Military and Marching Band, he has kindled the friendship and spirit that are Ohio State. As professor of trombone, he is known throughout the country as a distinguished teacher. During his many years of service, his dedication to this institution has continued to grow. Even after retirement, he has sought out and counseled students who have become part of the Ohio State musical tradition.

As professor emeritus, he organized the Alumni Marching Band, a group unique to the annals of college marching bands. Alumni throughout this country and Europe are a tribute to the excellence of this widely respected scholar and teacher. For one who has given so much to the University, it is fitting that Ohio State now sings his praises.

### **John A. Prior** Distinguished Service Award

The medical career of Dr. John A. Prior has brought honor and credit both to himself and to this University. An alumnus of this institution, he provided academic and administrative leadership to the College of Medicine for more than 40 years. Serving in the ranks from instructor to director of the Pulmonary Disease Division to dean of the College of Medicine, Dr. Prior through his expertise has given strength to the medical program here. Others as well have recognized his contributions to Ohio State. The recipient of a University Distinguished Teaching Award and an Alumni Achievement Award, he was also voted Man of the Year in the College of Medicine. Through his scientific publications and other writings, he has advanced the study of medicine far beyond this institution. Ohio State University has been well served by the contributions of this noted physician.

THE OHIO STATE UNIVERSITY  
OFFICIAL PROCEEDINGS OF THE  
ONE THOUSAND ONE HUNDRED AND SEVENTY-FIFTH MEETING  
OF THE BOARD OF TRUSTEES

Columbus, Ohio, December 10, 1981

The Board of Trustees met at its regular monthly meeting on Thursday, December 10, 1981, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio, pursuant to adjournment.

Present: Chester Devenow, Chairman, Warren J Smith, John D. Jacob, D. James Hilliker, John F. Havens, Leonard J. Immke, and John W. Berry.

Minutes of the last meeting were approved.

December 10, 1981 meeting, Board of Trustees

The Chairman, Mr. Devenow, called the meeting of the Board of Trustees to order at 11:45 a.m. He requested the Secretary to call the roll. The meeting recessed into Executive Session for the purpose of considering legal issues and personnel-related matters.

Present: Chester Devenow, Chairman, Warren J. Smith, John D. Jacob, D. James Hilliker, Leonard J. Immke, and John W. Berry.

The meeting of the Board of Trustees reconvened at 1:30 p.m.

President Jennings:

Mr. Chairman, we've got a variety of presentations. I would like first to recognize Mike Gerald's presence, Chairman of the Faculty Council. Mike, have you got any comments for us?

**COMMENTS - MICHAEL C. GERALD  
CHAIRMAN, FACULTY COUNCIL**

Professor Gerald:

I'm glad you asked that question, Mr. President. On behalf of the University faculty, I wish to extend my thanks to the members of the Board of Trustees, the President and the staff, the Provost, our vice presidents and our deans for their individual and collective efforts in securing for the faculty an equitable salary increase in these very difficult times.

In another matter--in response to the charges by the President, the Provost, and the University Senate Steering Committee, the faculty is making steady progress in its efforts to formulate rules for the termination of tenured faculty. The rules we seek to develop must safeguard both the tenure system and the individual faculty member while permitting the University to respond appropriately to financial exigencies or academic considerations.

Just an aside if I might. I'm fortunate in having probably one of the best secretaries on this campus--I will not tell you her name; I don't want her taken away from us. But as good a secretary as she is and an outstanding typist as she is, when she was typing the rules committee for me, she instead typed 'fules' committee, and I'm not sure she is trying to tell us something here.

The report of the Ad Hoc Faculty Committee on the Release of Tenured Faculty--chaired by Professor James Garland of the Department of Physics--has been released, and through the kind offices of Provost Reynolds, copies have been distributed very promptly to all University faculty for their scholarly analysis.

The Senate Steering Committee has created and charged a Select Faculty Rules Committee--chaired by Professor Glen Schmidt of Dairy Science--with the responsibility of transforming the Garland report into rules. To achieve this end, Faculty

December 10, 1981 meeting, Board of Trustees

**COMMENTS - MICHAEL C. GERALD  
CHAIRMAN, FACULTY COUNCIL (contd)**

Professor Gerald: (contd)

Council--in cooperation with this Select Rules Committee--will be conducting an open faculty hearing on the 21st of January--and what they will attempt to do is to receive positive and negative comments on this report from Senate committees and other University committees, as well as from individual faculty members. We hope to take this information on the 21st of January and use it for the incorporation of rules. We are responsive to the need for us to move expeditiously in this rule formulation process and we are endeavoring to do so.

With your kind indulgence, I hope to keep the Board apprised of our progress in this regard. I would like to share Dean Kottman's wishes for a pleasant holiday season and a happy new year. Thank you.

President Jennings:

Thank you, Mike, I think it very important to note that the faculty is getting deeply involved in this issue, and I look forward to their development of this. I think we should all be encouraged as the faculty has taken a bit by the horns here and are going to establish, I believe, a very substantial policy to maintain academic freedom in this institution, and it should be a faculty discussion in great depth on this. And I'm sure that we're going to be able to get a policy that this institution will be much better off with in the unlikely event that we should have financial exigency, but we at all times have to be prepared for that potential eventuality.

Mr. Chairman, I would like at this time to call on Provost Reynolds, who will introduce our Chuck Csuri to give you a presentation on what we're doing at Ohio State in computer graphics.

--0--

**INTRODUCTION OF CHARLES CSURI**

Provost Reynolds:

Thank you very much, President Jennings. Charles Csuri was an All American football player, a tag which will follow him all his life, and unlike most of us, he weighed more in college than he does now and was chosen by his teammates as the most valuable player on Ohio State's first national championship team in 1942. He is professor of art education and computer and information science, and, rather unbelievably to all of us, he's been on our faculty for 35 years. His work has been supported by the National Science Foundation for the past twelve years. He has also received grants from the Air Force Office for Scientific Research, the Ohio Arts Council, the Bureau for the Education of the Handicapped, the Department of the Navy, and subcontracts from HEW and DARPA projects. His total research support approximates \$2,225,000 for these various projects over these last years. He is also a first-rate artist.

December 10, 1981 meeting, Board of Trustees

### INTRODUCTION OF CHARLES CSURI (contd)

Provost Reynolds: (contd)

Professor Csuri is known for his pioneering efforts in computer art, and his computer animation won a major prize at the Fourth International Experimental Film Festival in Brussels, Belgium. He has an animated film in the collection of the Museum of Modern Art and other computer works in the Institute for Contemporary Art in London, England. He has been on the editorial board of several major journals in this field, including the *Journal of Computer Graphics and Image Processing*, *Computer Studies in the Humanities and Verbal Behavior*. In 1974, he was one of fifteen Americans invited to present at the International Federation of Information Processing Societies in Stockholm, Sweden. He has also served as a consultant for Boeing Computer Services and the Boeing Aerospace Company, and these are just a few of his selected activities.

Professor Csuri's computer graphics have been shown on prime television time in Japan. In this country, his work has appeared twice on the Today Show, NBC News, ABC News, and PM Magazine. Next Spring, segments of his work will be aired on Walter Cronkite's CBS Universe, and on a Walt Disney special on science fiction.

I very much am pleased that Professor Csuri could present to you this day some of his work and its applicability to all of the missions of this University--teaching, research, and service. And I hope if we can have adequate time for it during the winter and spring months, we will endeavor to bring to the Board other ways in which the University is reaching out on the edge of technology in fulfilling its mission. Professor Csuri.

### COMPUTER GRAPHICS PRESENTATION BY CHARLES CSURI

Professor Csuri:

Thank you very much, Ann. I feel compelled to say there's life after football. What I would like to do is show you a relatively short video tape that would provide you with examples of the application of this technology to art, medicine, science, and to some extent to business. And perhaps what we should do is look at the video tape first, and then I would like to make a few comments about it. I will also narrate the tape. I guess I had better start it.

Now the work comes really from several different universities. This work was done at Ohio State, and you would have to realize that this picture has never existed as an object. It was generated mathematically. We simulated a lens on the right hand side and computer programs had to be written to calculate light source, perspective, reflection, and all of the cues that one would associate with the so-called real world object. This animation is going to be included in the Walt Disney special next spring. It is very exciting to see a bright, young graduate student put something like this together. And I think the pictures and the animation compares very favorably with anything that's been done in the field of computer graphics in this country and perhaps in the world.

December 10, 1981 meeting, Board of Trustees

**COMPUTER GRAPHICS PRESENTATION BY CHARLES CSURI (contd)**

Professor Csuri: (contd)

One of the applications is to the field of architecture. The data was generated at Cornell, and they were showing a board of trustees how you could position a building before it was actually constructed, and by taking the architect's drawings you could do a simulation of the building, move it around campus, through buildings for that matter so we don't have any physics involved here, and to get some feeling for the orientation of the building relative to the rest of the campus. And one, of course, if you have the data, you can also show the interior structure of the building before it is actually built--which has a lot of potential for complex urban development projects.

We did this at Ohio State. This is a city that we simulated. We wrote programs to grow buildings rather than read coordinates, and within a week we were able to put together a data base of about two thousand buildings. And here we are going at a fairly fast rate of speed through the environment before it is built. This also has great possibilities for urban planners. This is also done at Ohio State by my associate Frank Crow, and it's simply a demonstration program showing our capabilities to make pictures to control visual information.

The first segment was done at the University of California, San Diego. It's a simulation of the human brain where they took a brain and made slices through it, and picked off coordinates off each of the slices, entered that into the computer, and then this gave the researcher or possibly the physician to look at neurophysiology. The film is much longer, but this is just the introductory part of it.

We did a simulation at Ohio State of a beating heart. It's not real data, but we were interested in motion control, and we took slices and put this together. One could take a computerized tomography, the X-ray scanning, and do that kind of thing.

The following material has been done at Ohio State. Out of Professor Robert McGee's project, we did this computer animation for him. The mathematics were built into the robot. It's a zero gravity vehicle. I find it absolutely fascinating the way that it moves. It's like a creature. And this is a robot arm. Again, somebody had to figure out the physics, and they gave us the control points. We, of course, with our software were able to display this thing.

At Ohio State, one of our graduate students is working on this dissertation work. The skeleton is being controlled by subroutines. He wrote a program where he had to build into it the control of the hips, the legs, the arms, and somehow figure out how to coordinate that.

Again, another item that we did at the University for the military illustrating how we can create very complex data and doing a simulation. Obviously, the Army is very interested in stuff like that.

Flight simulation--we've been fortunate to have quite a bit of support here. The computer is updating a graphic display screen at 30 frames per second, so that it looks like it is a real scene and gives you all the visual cues as if you are in that environment--an extremely valuable tool to teach pilots about flight maneuvering.

And this is a simulation of non-real time. We calculate the pictures. Our task was to be able to come up with techniques to make mountains and trees and roadways, and then we simulate a takeoff. And since we are not really pilots, we want to make sure we can get off the ground, and we take off in a hurry. Again, this is our work of a flight simulator and every amateur pilot wants to fly under a bridge and that's what we did.

This is done by a fellow who is now working for George Lucas of Star Wars fame. This is a computer simulation. These mountains never existed and it is just amazing how people are now able to simulate so-called reality.

We don't have a great deal on education. That was work done at Ohio State by Professor Thomas Linehan.

The following is work from Lawrence Livermore and is a nice example, I think, of how the scientist can use computer graphics to validate or verify their model. And computers are so great at turning out numbers, but it becomes quite another matter to try to understand what those numbers mean. And so for the research scientist, it is extremely valuable to get a graphical display, and even better, to get time-dependent phenomenon illustrated, and by looking at this, obviously, he is knowledgeable about the behavior of these models. He can get a good idea of how his statistics or his data is working.

Work done at Ohio State on astronomy, interacting galaxies where the physics were built into the model. You had to worry about gravity and mass, and I find this absolutely fascinating in the way it makes this spiral galaxy. And, of course, they validate the data by comparing it to so-called real photographs of the universe.

Again, the Department of Geography and Harold Moellering's work in cartography--showing through graphically an innovation--the dispersion of the tractors through the United States--that's the center section of the United States.

I think it is this kind of material that gives people a much better conceptual grasp of what the data is doing. I look at this and I still cannot believe that this never existed as a physical object--it's completely a computer simulation done at Lawrence Livermore Laboratories--it's dealing with molecular structure. And with computer technology, you can also slow time down so to speak and be able to study the phenomenon. This is a marvelous research and teaching tool.

**COMPUTER GRAPHICS PRESENTATION BY CHARLES CSURI (contd)**

Professor Csuri: (contd)

This is a little more complicated to explain, but I will try. A system at MIT that shows the use of computer graphics technology in an application to a complex data base. The picture on the screen represents items in the data base, which happens to be the MIT campus, and it was organized hierarchically, and the user moves through the environment by controlling a cursor, that little block that is moving around the screen, and then they can enter a part of the data base. They went into the Administration Building and then with the cursor they can indicate what person they want to know about. In this instance, it was the President of the University. And then tagged on the data base automatically is a sound track. Now he is going deeper into the space, getting additional information. The sound and pictures again are arranged hierarchically. When you hit a node, then it invokes that particular picture of that sound track. Now he is coming back out of the space, computers keeping track of their location in space. And I think it is a rather revolutionary way of looking at information, and really what we are talking about is how we organize the information, and how we access it. Instead of going through all kinds of manuals, you can store this information on video discs. And now I want a factual profile of MIT, and we go into that item, and it gives me some information about the degrees, the degree programs, and possibly the cost at MIT and so forth.

We made this for the University. You may have seen it on regional television; once in a while on national TV. We received the contract through the Research Foundation and did this for Channel 10. It was on TV all of last year. Again, because we represent things as a three-dimensional structure, we can change the viewpoint very arbitrarily and move about it as if it were a real physical object. The software for this was developed by Professor Frank Crow in our computer science department, who is my associate director, calculating the highlights and the transparency, figuring out the mathematics to do that. We developed the system here at Ohio State that made this possible and the programming was used to produce this animation sequence in Star Wars. This was done under a National Science Foundation project. That is the basic system that made this possible. And what we are talking about is the animation that appears in the distance in the scene--the linear graphics.

And this is more recent work here at the University simulating a space station from the imagination, landed, and now we need to go inside and explore it. And one of my graduate students put the data together and did the animation. A simulation of the galaxy that we did. Again, this is an example of the kind of control we have--we can make those spheres go in any kind of a direction, bringing together to form a structure, and going inside of the structure.

I think that is the end of the video tape. I think I would just like to make a few comments. I think what we're looking at really is a new and very powerful communication tool. It can be used for science, for education, for art and entertainment; it can be used for medicine. And I think one of the things that very few

December 10, 1981 meeting, Board of Trustees

**COMPUTER GRAPHICS PRESENTATION BY CHARLES CSURI (contd)**

Professor Csuri: (contd)

people realize is that the field of computer graphics today is a \$2.3 billion industry. We're talking about hardware and software. By the middle of this decade, projections are that it will be a \$7.5 billion industry--just in four years. It is absolutely phenomenal in terms of how this technology will be used, I think, in almost every aspect of society. And my own bias is that I think that we have a tremendous resource here at the University in our computer graphics research group. I think the software we have developed represents years and millions of dollars in research and development.

And, I think that the greatest thing that the University has going for it are its graduate students, and it is really the bright, young graduate students that make this kind of thing possible. And it has really been very exciting for me to be involved in working with young people.

This is obviously a high technology area, and I think it has tremendous implications for business and the economy of Ohio. For example, I think that we have a great deal of knowledge and a great deal of information, but we don't have the mechanism with a structure really to deal with the kinds of requests we are getting from the business community. For instance--just basic information about computer graphics--there are people who would like to have workshops and even some companies are willing to subsidize internships involved in university programs, but we don't know how to do it. We don't have that set up. We could be involved in the licensing of software. We get requests all the time for the software, but we don't know how to address questions like that. I don't have the time; I mean, it's hard enough for me to keep track of my purchase orders, you know, let alone these other things.

I think the potential of the technology is so great and with the projections about its growth that I personally have cut back to 50 per cent time in the University and 50 per cent of my time I have devoted to establishing a Computer Graphics Company here in Columbus, Ohio.

I think that the technology has great implications for academic programs. There are many faculty and graduate students who would like to take courses, who would like to have access to software that they can use in their programs. The College of Education, for example, would like to use this for teaching youngsters concepts in math and science. A professor in astronomy would like to have our display algorithm so that he can display the results of his experiment, but so far we haven't figured out how to coordinate some of that stuff and to really provide this technology to even our own faculty. It's a bit of a problem.

And, I think that--I gave a talk for a Battelle Endowment Lecture series. I was really very surprised at the number of people who showed up at that lecture. I guess we had about a thousand people, and my phone has been ringing off the

December 10, 1981 meeting, Board of Trustees

**COMPUTER GRAPHICS PRESENTATION BY CHARLES CSURI (contd)**

Professor Csuri: (contd)

wall; students wanting to take courses, wanting information, and I can't handle it. I'm inclined to believe that by the end of this decade, depending on the kinds of decisions this University makes, we could have three hundred majors in computer animation, fifty graduate students involved in that kind of thing not to mention how the computer science program could go. My feeling is that we have tremendous momentum in this area at the present time. We have the projects and talent in position to advance the state of the art further. This is where we are today. I think in five years, we may look back at such and say, 'That was the stone age. This was very primitive.' Technology has a way of really moving very rapidly. In fact, that's one of our problems that it moves so fast that, as a very complex institution, we have difficulty in knowing how to respond to that kind of thing. It's not just Ohio State, but I think it's institutions in general. Well, perhaps some of you have a couple of questions or comments.

Provost Reynolds:

I would just like to say very quickly, 'Thank you, you who have advanced the technologies so rapidly, and you do pose a challenge for us at the University to catch up in our ways of enabling students to have access to this and enabling you to flourish with this rapidly moving field and in making sure that we continue to be at this forefront.'

President Jennings:

This is absolutely incredible! It does demonstrate really what a university, I think, is all about as we heard from Roy a few minutes ago about a research project on cattle, and now we have in a wholly different field another presentation on the state of the art in computer graphics. Any one of these particular areas could revolutionize a particular industry in how we go about that. We've been thinking about building buildings at this University now with the legislative appropriation, it's just fascinating to see the architectural work of moving that about.

We're going to have later on today some preliminary looks at placement of a building on this very campus which will be undoubtedly complex and to have that type of thing. I really think what Chuck is also emphasizing is not only the transfer of that, but the enormous rapidly moving dynamics of whether it's this field or any other field in the institution. How, indeed, whether it's five years or ten years, it's still going to be a very short period of time or even when it's fifteen years, Chuck, I think we can virtually guarantee that this will be stone age stuff in a very short period of time. Even if it were fifteen years from now, Chuck, our freshmen at this institution are only going to be about thirty-five years old when that occurs.

Ann introduced you as playing football. When you were playing football, this was science fiction and radical science fiction, and it'll happen again. It'll happen again and again. When you did the flight simulation, I saw Dick over there. That's

December 10, 1981 meeting, Board of Trustees

**COMPUTER GRAPHICS PRESENTATION BY CHARLES CSURI (contd)**

President Jennings: (contd)

going to totally revolutionize your program--your flight training program. It probably already is in the process of that. Just absolutely incredible! And that's really what our joint mission of the creation of knowledge and the dissemination of knowledge is really all about. I just really liked this outstanding presentation and hope that we can, as an institution--hope that we are up to the challenge to keep the momentum going here in this.

Professor Csuri:

Well, thank you. I'd just like to thank the Trustees and President Jennings and Provost Reynolds for this opportunity. Thank you very much.

Mr. Smith:

You say it's a quickly advancing technology, and I just wondered how you keep up in your research equipment?

Professor Csuri:

Well, we have been very fortunate at this institution that a number of years ago the administration recognized that we had potential and provided us with some special computer facilities. Now that was a great beginning. Now, what we have been, in my group, able to do, we have been able to acquire more equipment through federal grants. That's becoming increasingly difficult, but we've been able to buy peripherals, more memory, more processors of one kind or another, and we have a Navy project right now where we are designing some computers that will probably be temporarily state of the art, okay. So we're very fortunate in that we have a good track record, and we've been able to acquire a lot of federal funding, and we have the tools and the opportunity to do it. It is not easy. I think for the young faculty member on this campus, it's incredibly difficult to get research support. I'm an old war horse. I'm part of the woodwork, and I've been here a long time and people sort of know me in federal agencies so I have an easier time of it. I'd hate to be a young professor, an assistant professor, trying to find money for memory or for computer. It's not easy. It's really hard.

President Jennings:

The answer is we don't keep up with the state of the art equipment. We're seeing a \$2 million allocation for equipment. Our estimates are that we need \$50 million just to catch us up to the state of the art equipment, and then a recurring budget item in today's dollars of \$12 to \$15 million annually that we are short. The answer is, Chuck is, but the basic answer is, institutionally we don't keep up with the equipment.

December 10, 1981 meeting, Board of Trustees

**COMPUTER GRAPHICS PRESENTATION BY CHARLES CSURI (contd)**

Dr. Jacob:

It looks to me like this is sort of the tip of the iceberg--maybe the dawning of the age. I think that's even an outdated saying, but I think I hear some questions and concerns being raised about, you know, we happen to be in the forefront through a combination of good fortune and good people, but are we going to be able to keep doing this. And maybe, Chet, going back to what you were saying at lunch, maybe there's something that we should do from an organizational or management point. We can't just stand back and throw money at it.

Professor Csuri:

Well, I would like, perhaps, to say the obvious. I'm sure you gentlemen already know it. I think those of us that are involved with high technology, whether it be genetics or computer technology or a number of other things, and because of the growth of these areas, the commercial potential, there are really some very powerful forces pulling at us trying to pull us out of the University. It's a tremendous source of conflict, I think, particularly for someone like myself who's been in the institution for 35 years, and there's a lot of emotional attachment and a lot of service, and you don't want to give that up, but these forces are getting tougher and tougher, and it's going to be particularly difficult for a young faculty member to resist that.

Dr. Jacob:

Well, getting back to lunch again, are there maybe some heretofore untried ways of organizing or working with industry rather than just letting them pick off our good people or our good programs?

Provost Reynolds:

May I just respond on that quickly, and thank you for asking that question. It's a question I had hoped would be asked about this because we just happen--Professor Csuri is one individual; we have others in the College of Engineering, others in the College of Biological Sciences, and we have to figure out some ways to work cooperatively with our industrial colleagues in finding ways to support them. Now, Dr. Csuri is too nice to tell us in this setting; he mentions his equipment has been very good, but do you have one computer sitting on a computer floor? I don't think so. Do you have any computer floor you're working on?

Professor Csuri:

No, we don't have a raised floor. We have wires hanging from the ceiling. It's an embarrassment for me to bring in our Japanese friends to come in and look at the Computer Graphics Research Group. We have all this PR to come in and see the environment, and it's a little embarrassing.

December 10, 1981 meeting, Board of Trustees

**COMPUTER GRAPHICS PRESENTATION BY CHARLES CSURI (contd)**

Provost Reynolds:

But we are trying to begin to explore some ways of working with industry so that we can have some joint arrangements. It means a lot of things, and a lot of these things will have to be worked out with the Trustees, particularly in patent agreements and all kinds of things.

Dr. Jacob:

Well, just to wrap up, I guess, in the future, can research and service be expanded or redefined to maybe have a little more close working relationship with some of the other sources of financial support or equipment support or people support?

President Jennings:

I don't think there's any question. First of all, I've been very encouraged, particularly in the last few weeks of what the Governor recently did of bringing educators and industrial people together to--initially, the long-term objective is to get the relationship developed much more closely. The initial objective is to find out what we're doing now, whether it's Chuck or anybody else, and find out how to communicate that.

We've also, on campus, asked our Research Committee of the Graduate Council to address this very question of how we do that. I think financially that is tied up closely with the types of financial recommendations you're going to be receiving in the way of salaries and equipment when this budget item comes up, and I think we have to be doing all we can to bring these things together. And you really are seeing, John, you're dead right, the tip of the iceberg on this and particularly in the equipment and space area because it is not a matter of just catching up. We could catch up today. I could present, if we had the money, Ann, with \$50 million and she'd be out of date a year from now again or our faculty would. It's not a matter of just catching up. It's a matter of catching up and staying up. And the potential is enormous there. Much of this work now is interdisciplinary. It is not just computer scientists working on this. It is anywhere--from computer scientists to medical people, to sociologists to ag people--bringing those folks together is our great challenge in the future to not have any of these people work in isolation. That's an organizational issue as well. I can imagine you sitting there as an orthodontist having gone through this thing. There is a direct application of what will happen if on the computer graphics, but there is where you get a dental research person together and/or computer graphics--the interdisciplinary research, and we frankly are not organized in our institution or any institution to accommodate to that.

Dr. Jacob: Where do we go from here?

President Jennings:

We keep at it. That's right. You are bringing up something--we don't have good answers at this stage. Some of it takes money and some of it takes a change in

December 10, 1981 meeting, Board of Trustees

**COMPUTER GRAPHICS PRESENTATION BY CHARLES CSURI (contd)**

President Jennings: (contd)

philosophy and a whole change in attitude. It takes organizational structure, it takes attitude, it takes communication with industry. I don't think there is a simple, straightforward way to get at this. I think we get at this on all fronts. Money is a very limiting factor right now in a major way and we need to--

Mr. Devenow:

I would like to say, John, that I think one of the deficiencies in our country is--I think the word communication would be a tough word to use here--but it might not have the proper connotation but the relationship with a liaison between industry and the University is to develop a joint program in these areas and one of the problems is that other countries are doing it. Japan is doing it very rapidly; Russia is certainly doing it. We have got some kind of a failure here of connecting in that area. I would like to ask Dr. Csuri one question if I may. This must have tremendous military application. I would say--

Professor Csuri:

There is no question about it. In the flight simulator, for example, we have a contract now--it's about a \$260,000 project to show feasibility of an idea that we have about a flight simulator. If we are correct, and we are inclined to believe we are, eighteen months from now we could be talking to the Navy about a \$4 million dollar contract involving building a real time flight simulator. Okay. I don't know that we will get it. I am just saying that's one aspect. Now in terms of training devices, you could use this technology and store it on video discs--video discs being a medium where you can store 54,000 pictures and with a micro-computer you can have random access to it, and you can simulate war games or you can simulate how to repair a carburetor in a vehicle, let's say.

Mr. Devenow:

That's what I am getting at. There's a program that the government is involved in which will replace the Jeep. It's a new type of vehicle and it has to be able to operate under desert conditions, for example, because if there is a possible outbreak of war in the Middle East we will probably be in the middle of that. But it has to have other qualities. And by the time the bugs are worked out of this vehicle which is being bid on by three or four companies in the United States--by the time the bugs are worked out of this thing (by the way, it is an all-aluminum vehicle at this point) there will be millions and millions of dollars spent correcting mistakes, but look what a jump you could get on this kind of thing.

Professor Csuri:

I think that in the automotive industry with finite element analysis, where you--let's say put stress on a structure and through computer graphics display, it shows you in three dimensions--the stress points.

December 10, 1981 meeting, Board of Trustees

**COMPUTER GRAPHICS PRESENTATION BY CHARLES CSURI (contd)**

Mr. Devenow: Right.

Professor Csuri:

It will make it red. It will tell you what point it will break so you can do a lot of nondestructive testing before you go to the trouble of making a physical prototype. Ultimately, you have to make the prototype, but at least you eliminate a lot of bad decisions.

Mr. Devenow:

Well, I'm delighted with the work you are doing. As one individual trustee, and we have got a chance to be leaders here, and I hope that what you are saying, John, and I hope that we can follow through or put the pieces together to do it. It is a question of money again.

Dr. Jacob:

But I would hate to see organization and traditional structure stand in our way if there is a way that we can--we have got all the management expertise that you could ever need if you could turn them loose and say 'solve this problem on an organizational basis.'

Mr. Devenow: Thank you. It has been very interesting. Thank you for coming.

**REPORT - COMMISSION ON STUDENT ATTRITION AND RETENTION**

President Jennings:

Mr. Chairman, I also--now we move from an aspect of our institution from the creation of knowledge that we have just had a fine report, and now I would like to go into the second major function of this institution--the dissemination of knowledge to our students, and I would like to turn the meeting over to Provost Reynolds to introduce Professor Rosbottom who will talk to us about student attrition.

Provost Reynolds:

Over a year ago, I along with Vice President Kathryn Schoen had become very concerned about our perception that we had an untoward amount of attrition amongst first year freshmen and we felt that this issue was a serious one and we didn't have enough data about it to know the framework in which we were working, and we felt that we needed faculty insights and recommendations on this very, very important issue. To address this we appointed a Commission on Attrition and Retention, and we asked Professor Rosbottom, Professor of Romance Languages, to chair the Commission. Our original intention was that they would finish their report within the academic year. As any good faculty body will, they brought in their charge, their data, and came in with what I consider a very honest masterpiece. And Dr. Rosbottom is here today along with Mr. Michael Young from the Office of Finance and Planning to tell you about the final recommendations and the routes and paths the faculty group chose to take and what they now place before the administration and very appropriately put back into our purview for action. Professor Rosbottom and Mr. Young.

December 10, 1981 meeting, Board of Trustees

**COMMISSION ON STUDENT ATTRITION AND RETENTION  
BY PROFESSOR RONALD ROSBOTTOM**

Professor Rosbottom:

I can't tell you how much I appreciate following this act. I would like to begin by introducing my colleagues who are here--all of whom were on the Commission but only some of whom are here. David Boyne, who is in the Department of Agricultural Economics; Jerry Reagan in the Department of Educational Foundations and Research; Jim Garland who came out of hiding to appear today--he is in the Department of Physics; Erika Bourguignon, Department of Anthropology; and John Hirth who is not here is in the Department of Metallurgical Engineering; also I would like to introduce John Savage who was our Graduate Administrative Associate, and who did most of the work of the Commission. The person who did the second most amount of work was Mike Young who is Director of the Office of Planning Studies.

Ann has told you that we were asked to discover if OSU had an attrition problem and if so to define it and to recommend strategies for remedying any perceived problem. I take it you have received copies of this report--gentlemen, I refer you to pages 8 and 9 which set up our charge to discover the attrition rate of baccalaureate students at The Ohio State University and to determine whether that rate is acceptable and then to discover and evaluate those aspects of the University environment--academic and non-academic--that are perceived to have a negative impact on Ohio State students. Most likely I think the establishment of this Commission was motivated by a desire to maintain the FTE at roughly comparable levels despite the indicated decrease in prospective students over the next twenty years. But as Provost Reynolds has said, this was a faculty commission--as such, a unique commission--to be asked to study such a problem as attrition and retention, and as a result we concentrated on educational quality rather than primarily on enrollment levels in a purely fiscal sense.

Do we have an attrition problem at Ohio State? The answer is 'Yes.' Fifty per cent of all entering new freshmen will not graduate from this institution. They may graduate from other institutions or they may never receive a baccalaureate degree.

I would like to draw your attention to the otherwise excellent coverage we got in the *Lantern*, including a very favorable editorial. This coverage, however, had an unfortunate factual error. And that error was, in fact, one which stated that 50 per cent of all freshmen leave in their first year. That is incorrect. It is 50 per cent of all students who enter will leave before they get a degree; 50 per cent of that attrition will occur in the first year. In other words, roughly 25 per cent of all entering freshmen will not enter their sophomore year.

Once we discovered we had that attrition rate we had to define what the problem was. That is, what is an attrition problem? Were we measuring success only by a somewhat measurable criterion; that is, receipt of a degree. It is the only criterion we had available. Where does expected and normal attrition stop and so-called

December 10, 1981 meeting, Board of Trustees

**COMMISSION ON STUDENT ATTRITION AND RETENTION  
BY PROFESSOR RONALD ROSBOTTOM (contd)**

Professor Rosbottom: (contd)

problematic attrition begin? If you will turn to page 13 you will see that we list about four different types of attrition that we try to address and try to distinguish between or among. Also we had to ask ourselves, 'How do we compare nationally and regionally with other similar universities?' Finally, the Commission recognized that attrition at OSU is in lieu, perhaps, of selective admissions; that is, that we select, in a way, students, or they self-select in that first year. Nonetheless, we can't explain away some of the problem. Our attrition, we concluded, remains inexcusable.

How do we know that we have such an attrition rate? How do you measure attrition and retention? It is very difficult to do so without a substantial data base which we have. The Office of Planning Studies has about one and a half million records that it has been maintaining since 1973. It is very difficult to evaluate attrition without a sophisticated program to access that data base. We have that--a program developed through Mike Young and his associates in the Office of Planning Studies. We have over thirty variables which we can use to track students according to various personal, geographical, educational, chronological factors. Also, we were able to compare ourselves with some other institutions although this comparison proved limited. I'll return to that in a second.

It is very difficult to evaluate attrition and retention without established procedures for interviewing students who disenroll, and we don't have this capability, which leads me to the next question. 'What do we not know about why students leave Ohio State?' We don't know why they leave Ohio State. We know--nothing we have learned leads us to believe that their reasons for leaving differ from those at similar institutions. They leave for personal reasons. This is usually the reason they give, the ones that we can catch who tell us that they are going to leave which is only a small, small percentage. Most of them fade, disappear. But the ones that we do and can interview always list 'personal.' They also tell us that they leave for educationally negative reasons--advising is poor, counseling is poor, teaching is poor, curriculum is poor or they leave for educationally positive reasons. They want to go to a better school or a school which is perceived to be better. In fact, according to national reports (a broad range of which we have looked at) the most negative characteristic given by students who interviewed is inadequate advising.

The most positive is the caring attitude of faculty and staff. Though we compared ourselves with other institutions we soon discovered that we were caught up in what I refer to as the apples and oranges syndrome--that is, how good are their data; how good are their retention programs; what are their modes of inquiry. I might say that we are very proud of this report. We think it is a pathfinding report. We intend for it to get national attention because of the fact that we are able to understand ourselves we feel perhaps better than any other similar institution in the country. Mike wrote to fifty-some-odd flagship universities and the

December 10, 1981 meeting, Board of Trustees

**COMMISSION ON STUDENT ATTRITION AND RETENTION  
BY PROFESSOR RONALD ROSBOTTOM (contd)**

Professor Rosbottom: (contd)

variety of data that we got was quite large. There were very few institutions that we feel have the ability to analyze themselves as well as we do. The national attrition rate is (according to which publication you read) somewhere between 30 and 40 per cent of all institutions. That makes us look with our 50 per cent attrition rate somewhat unfavorable position. We would like to think that we just understand ourselves better, that if other institutions were able to evaluate themselves with the precision that we can--that perhaps their attrition rates would be somewhat similar.

Also, obviously, we are a unique institution in many ways--a large land-grant open admissions institution, the major research institution in a large state with demands ranging from teaching people how to read to putting together programs like the one you have just seen--all within the same campus. What can we do about what we do know? We can admit the problem. We can inform the University community that it exists. We can redirect our resources and our attention to establishing closer relationships between faculty and undergraduates. We can examine organizational structures which were set up in the 60's and 70's to respond to real needs--I speak here specifically of UVC and the Arts and Sciences federation. We can examine those structures in terms of the changing nature of higher education and where it is going to be in the next 20 years.

I refer you specifically to the Carnegie Council's 1980 report entitled, 'Three Thousand Futures: the Next Twenty Years for Higher Education,' which will show you what we need to do at Ohio State in order to respond imaginatively to projected changes. We can mandate a coherent faculty-devised curriculum for a liberal college education which those of us on the Commission do not feel we presently have. We can devise ways to mitigate the three gremlins of education at OSU: its size, the quarter system--which impedes coherent planning and which encourages stop-outs; which weakens the bonding that we feel is necessary between students and the institution they have chosen to attend.

And the third is the insufficient response that we've discovered to changes in higher education on the part of administrative structures originally designed to address earlier problems.

The overall rationale which subtended the recommendations that you have before you was--our benchmark was educational quality. This is a faculty commission and present company accepted, it is made up of, I think, five of the best faculty members that teach and do research at this institution. Each one of these people has been asked to chair or serve on another commission dealing with equally intractable problems since our Commission was formed.

OSU needs to think smaller; it's going to get smaller; and soon it needs to examine present administrative structures. It needs to encourage more attention to the student's intellectual life on campus. There is a general morale problem that we

Professor Rosbottom: (contd)

have discovered here, reinforced both in students and in faculty which impedes change. President Jennings has made several public statements about OSU being more respected outside the state than within the state. And I think an analogous statement could be made that OSU is respected more outside of our campus than inside, both by the students and by the faculty.

The *Lantern*, for instance, just in the last year has had a half dozen editorials addressing the size, the impersonality, the lack of coherence in programs; perceptions defined responses, perceptions become facts, and that's why we were especially pleased with the strong *Lantern* endorsement of this report which appeared in last Friday's *Lantern*.

As far as the recommendations themselves are concerned, recommendations 1 and 2 deal with technical--but what we consider to be crucial--implementation of what we've learned. We know ourselves well enough now to cure our ills. We have got to centralize our information gathering processes on this campus. We've got to quit reinventing the wheel. I would hate to think that in five years, there will be another professor sitting here telling you about an attrition and retention report that has just been made which has forgotten the one that I've just reported on. We can't rely on demographic projections, but we can certainly establish more control over our internal institutional projections.

Number 3--better recruitment means higher retention. It's easier to retain students than it is to obtain students. Number 3 also refers to another fact which we discovered and that is that the black graduation rate at Ohio State University is very low and the retention efforts in that area need to be addressed and immediately.

Numbers 4, 5, and 6 refer to UVC (University College), which is an easy target. It is an easy target because it is the entry unit through which all of our students must pass, but it's an unavoidable one. We must address it since 50 per cent of all attrition occurs within that first year.

Recommendation 7 refers to the BER (the basic education requirement), which many of us feel is inimical to the definition of an educational philosophy. It's a microcosm of OSU, of those three gremlins I mentioned. Its emphasis there is on size and variety. When you have 400 or four hundred-and-something courses which are supposed to together enable a student to choose a coherent liberal college education, naturally problems are going to evolve. The BER, by the way, was examined in 1977, and I refer you to that report--the so-called Scanlon report.

And last, recommendations 8 and 9 which deal with conditional admission to Ohio State University. We were working on that this summer when you and

**COMMISSION ON STUDENT ATTRITION AND RETENTION  
BY PROFESSOR RONALD ROSBOTTOM (contd)**

Professor Rosbottom: (contd)

Provost Reynolds and President Jennings decided that it was a matter worth pursuing. We enthusiastically endorse it; we think that these two recommendations form a central part of our report.

Who has the responsibility now to address these problems? First is the retention committee which must avoid falling into the trap of not considering qualitative judgments and being inundated with data. These are academic issues, and we feel the Office of Academic Affairs should take the leadership in addressing this problem, and individual colleges should begin to establish a closer relationship between programmatic coherence and retention.

Let me conclude with a few salient facts that we discovered in our report. To give you an idea of what we are able to do--I wish I had a video tape--because I have a great respect for visual information, and one retains it longer than they do verbal. Fifty per cent of all NFQF will not get a degree at Ohio State University. Fifty per cent of all attrition occurs in the first year. Black students stand a significantly less chance of graduating than do whites. There is no statistically significant discrepancy between male and female graduation rates except in terms of blacks. There is little change in attrition or graduation rates over time. OSU needs to attract a higher proportion of the better Ohio high school graduates. The four-year model is no longer so dominant--by that, I mean the model of student entering in year one and graduating in spring of year four, but 12 quarters do seem to be the average. In other words, no matter how long they stay, it's going to take them 12 quarters of work. They can stay 15 years, but they will have, in effect, studied for 12 quarters. Students seem to do better in programs with a higher degree of curricular sequentiality, that is, with better defined requirements and as a result better advising. OSU's graduation rate is quite low in comparison with other large land-grant institutions insofar as we've been able to establish a valid comparison.

To conclude, let me say that the underlying belief of this committee was that we at Ohio State are prepared to offer excellent, quality education to those people who are ready, willing, and able to receive it.

Mr. Devenow: What was your statement just before your concluding statement?

Professor Rosbottom:

That Ohio State's graduation rate is quite low in comparison with other large land-grant institutions insofar as we've been able to establish those valid comparisons. We have some comparative data. It's interesting data; I think it's valid data, but we have to be very careful because we don't know how well their self-analysis is.

Mr. Devenow: So that that conclusion may not be a correct one?

December 10, 1981 meeting, Board of Trustees

**COMMISSION ON STUDENT ATTRITION AND RETENTION  
BY PROFESSOR RONALD ROSBOTTOM (contd)**

President Jennings:

Ron, I think it might be worthwhile saying that the conclusion may not be a correct one, but on a national level doesn't really give me any solace to say that Ohio State's rate is 50 per cent and somebody else's rate is 40 per cent. The magnitude of the issue is still there. I think that two things need emphasizing is that we are and I think we should be enormously skeptical of another institution's data and graduation rate. I think it is also important to point out that even if those data are correct that other institutions have the same problem. And then, I think, we must go on then to say that we should not go on to conclude that since other institutions have the same problem that we, at Ohio State, should not attempt to try and do something about it at our institution.

Mr. Devenow:

I agree except that whether we are or not the worst or the lowest--there's a question of how strong their analysis is. I agree that we have to deal with it wherever we are.

Professor Rosbottom:

Yes, I think it's not much of a solace saying that we're just a little more ill than the other institutions which are also ill. Unless you like being ill, it's better to cure yourself. Mike might want to make a comment about this data, because I think this is in many ways the most striking and yet the most problematic aspect of--it's data over which we had the least control because it's data that was provided by other institutions.

Mr. Mike Young:

Because I think you can get an idea if you could see the pile of material I received in response to the survey that I sent out as to the quality of data that other institutions have. Generally, they were Xerox copies that were hardly legible, apologies in cover letters for the quality of the data as well as of the presentation. Most of the universities that responded would not even allow us to identify them which gives me some indication of how proud they are of what they have. Yet, at the same time, I appreciate their willingness to share these data in a research mode.

Mr. Devenow:

May I interrupt--what I am trying to get at here is that we have had some criticism from time to time that academically we are not as good as other schools. This statement you made prior to your conclusion, maybe if it is accurate, it is a verification of that. If it's inaccurate, why we've been accused wrongly--even though, as I say, we need substantially more improvement.

December 10, 1981 meeting, Board of Trustees

**COMMISSION ON STUDENT ATTRITION AND RETENTION  
BY PROFESSOR RONALD ROSBOTTOM (contd)**

Professor Rosbottom:

I was just going to refer you back to one of my earlier statements and that is-- it's because of that first year that we look so bad. We do not have selective admissions at this institution. We select in that first year. We select, and I think students self-select as they decide what they are capable of doing. We didn't do this kind of run, but if we compared ourselves second and third and fourth years to other institutions--second, third, and fourth years--we look better. Not better, we don't look as bad.

Provost Reynolds:

That's the point I was going to make. When you just take the data, and you have those data that were sent to you, and you compare the attrition rate between the sophomore and the junior year, and the junior and senior year, we are not unlike the other comparative institutions. Our real problem is primarily in the first year, and many of the things that this Commission has recommended put the responsibility for that problem rather firmly--the responsibility for remedying the problem rather firmly on the faculty--and I appreciate that, and I am grateful for that because there are things that involve putting students in closer contact with faculty members and senior faculty members earlier. As we move to implement this, the faculty will be undertaking extra obligations in working with 18-year olds. And I am grateful to the Commission for making that recommendation and the reception of the faculty to this has, in general, been very strong.

Mr. Devenow:

All I was trying to certainly clarify is whether this was done in support of your position, and the actual preparation for exams. I didn't want this to be a self-serving situation.

Provost Reynolds:

No, Chairman Devenow, this project was started far before that. You were charged in September 1980, I think.

Professor Rosbottom: Right.

Provost Reynolds: And their recommendation is a concurrent one with that issue, but--

Professor Rosbottom:

I might say that we thought our most controversial recommendations were going to be the last two, and we voted on them back in June, all kinds of trepidations, spent hours trying to figure out how we were going to talk to the Provost and the President and the Board of Trustees into looking at them favorably. And

December 10, 1981 meeting, Board of Trustees

**COMMISSION ON STUDENT ATTRITION AND RETENTION  
BY PROFESSOR RONALD ROSBOTTOM (contd)**

Professor Rosbottom: (contd)

then there was an epiphany, a serendipitous combination of events, which took us off the hook, so that we can come back now and say that you've done a marvelous job, and as you can see, we back you 100 per cent, and we're glad you were out front on it rather than--

Mr. Devenow: In other words, you didn't back into it?

Professor Rosbottom:

We didn't back into it; we went into it with courage but a little trepidation, but I was expecting to appear before you saying, 'Here it comes; what about conditional admissions?' And now we don't have to do that; you've done all the hard work. We encourage, we strongly encourage that this program--this idea--be pursued. We think that it is a waste of resources--emotional and fiscal resources--to allow what happens in the first year at this institution to continue to happen.

Dr. Jacob:

Do you have any historical data related to the same type of numbers you're talking about? In other words, what was the magnitude of the problem in 1971, 1961, 1951?

Professor Rosbottom:

Well, 1973 is when we began to keep these kinds of data we have. Now, I know that I've heard some stories from one person who is sitting over there, John Mount, who always pulls out historical data whenever we come out with something just as recent as a decade ago. I think that the data, quite frankly, before 1973 was very idiosyncratically collected, was spread all over the University, was done well by some departments, less well by others, and I wouldn't suggest anyone taking the time or making the effort to dig that data out, because I just don't think it would be useful.

Mr. Devenow:

I've just one more question. How was the data related to the size of the college--number of students?

Mr. Mike Young: Are you asking if, did we sample this--

Mr. Devenow:

Well, I'm saying, 'Would the attrition rate be the same at the University of Michigan which is 45,000 or 60,000 or some other school that was 15,000, the University of Toledo--how did you adjust for size?'

December 10, 1981 meeting, Board of Trustees

**COMMISSION ON STUDENT ATTRITION AND RETENTION  
BY PROFESSOR RONALD ROSBOTTOM (contd)**

Mr. Mike Young:

I did not look at the size; I know what the attrition rates are for many of the institutions that you've mentioned, but it tends not to be--it's random by size, it has nothing to do with the size.

Mr. Devenow: You don't think size has an impact on it?

Mr. Mike Young:

I think it has more to do with open admissions. We looked at the quality of the students who came to OSU as measured by test scores compared to other universities and on the average they're lower here, but we have a lot of very good students and some very weak students so that's what is hitting the average.

Dr. Jacob:

Ron, would it suffice to say you would use this work that you've done, particularly the data base, for future evaluations to keep the Board and the administration up to date on how we are doing?

Professor Rosbottom:

I won't do it because I am through with this job! But it will be done because our first recommendation, and I might add that it was President Jennings, and on President Jennings' initiative, that we altered our first recommendation. There will be a retention commission chaired by a faculty member, the majority of whose members will be faculty, who will report, at least biannually, to the Board of Trustees and to the Senate on not only the fiscal but the academic issues attendant to retention and graduation.

Dr. Jacob: You're not volunteering?

Professor Rosbottom:

No. Well, I'd love to do it, but I think I should give the position to someone else.

President Jennings:

Let me just make a couple of points on this, too, that I think bear some considerable emphasis. We've talked about other institutions and other institutions' data. There has been a great deal of work nationally on the whys of retention or lack thereof. I think what you are going to find is that this study is going to be in higher education a pioneering study because it is the first that has taken strictly an academic approach to this issue that this is a faculty study--there are other aspects

December 10, 1981 meeting, Board of Trustees

**COMMISSION ON STUDENT ATTRITION AND RETENTION  
BY PROFESSOR RONALD ROSBOTTOM (contd)**

President Jennings: (contd)

of an institution besides academic aspects--and this institution has been a leader in some of those whether we're talking about dormitory programs, recreational activities, and so forth and so on. And those are extremely important to the total fabric of student life at this institution as it is at other institutions, but it's worth and I think very important, to emphasize that Ron and his committee have taken a faculty perspective on this, and all the recommendations are directed at the academic side of the student's experience at Ohio State. That has not been done on a national level, and so, I think, in answer to the quality issue, we're going to be very much out front nationally in taking a look at this issue from strictly the academic experience side of this.

I don't think there is any question also that it bears emphasizing that this is going to be an issue that the faculty must get engaged in and get engaged in deeply. Whether the issue is advising or organizational structure, many of the 'solutions' to these, at least that we think now, are not going to work unless the faculty is actively engaged in this. We absolutely must have the faculty engaged in it. I think that is one of the reasons we should be optimistic on this is because this whole process is a process of faculty engagements whether it's advising or what not.

I think, third, and very important--you saw earlier changing technology. I think we in the academic community very much have to address ourselves to the question of, 'What are we preparing our students for?' We've heard a lot in the last ten years about irrelevancies, but I think we all are fearing that they are irrelevancies only in a very short, short time period. I don't think there is any doubt that ten years ago those students trained in computer science, for example, if they have not adapted to those changing technologies, they are hopelessly out of date.

We've got to address also in this the very fundamental issue of, 'What are we training our students for?' Is it for that first job or is it for a career--a forty- to fifty-year career where things will totally change? And is it going to be a situation where we have to put out students who are ready for those changes, and that means in many areas a total rethinking of curricula to get more foreign language, more history, more humanities into that curriculum. It may be that they are irrelevant to that first job, but they are clearly not irrelevant to the career. That first job really hasn't got a lot to do with a student's long-term career and long-term success. And in this report, Ron has addressed that and the committee has addressed that very issue, and that's going to be a very significant issue at Ohio State and across the country, and again, the faculty is going to be involved in this.

And, I think, fifth, just as important, they have not fallen into the trap, that is, a lot of university studies are falling into. Namely, they have not relied solely on the traditional quantitative measures, whether it is square feet or student/faculty ratios or what not. Those are all important, but we are essentially in a very qualitative area. The judgments of the success of our students are going to be

December 10, 1981 meeting, Board of Trustees

**COMMISSION ON STUDENT ATTRITION AND RETENTION  
BY PROFESSOR RONALD ROSBOTTOM (contd)**

President Jennings: (contd)

made twenty and thirty and forty years from now. This group has not fallen into that trap of using just quantitative measures. While it makes it much more complex to go into the qualitative measures, the real guts of this thing is going to be a qualitative judgment, but in a qualitative judgment not tomorrow or next week but twenty years from now and thirty years from now. And, I think, that what we set forth is a process that is going to make a student's experience a much more lifelong student experience than that first job issue, and it is very wrapped up in what we saw before. I think it is very significant that these two activities are coming together, and we're talking about such rapidly changing technology, and we teach a student about computers today; that student by the time they're thirty is hopelessly out of date if they do not have some ability to adapt to that changing future, and we have to very much emphasize it. I think, frankly, we're on the right track here. We may be proven wrong ten years from now, but this is something that has not been addressed before and not tried before--the type of things that this committee is recommending, and I think it is kind of exciting, and I think that you're going to find that nationally we're going to be getting Ohio State--people are going to be watching us as to how successful we are, and I can imagine that we're going to be copied on down the road a great deal as we get on down the road.

Mr. Smith:

Just one thought--you highlighted the problem of retention of the black student, and I've been on this Board for many years now, and I have never heard a good report about admission of black students, retention of black students, admission of black students for professional schools, i.e., that we are improving. That's a problem that doesn't go away for us.

Mr. Devenow: That's right.

Mr. Smith: We don't seem to get any better at it.

President Jennings:

We've done a lot of quantitative work. I think in our minority or educational disadvantage, I would, of course, go beyond just the black student; I would go beyond to the minority and to the educationally disadvantaged student. We've done a great deal of getting those students into our institution, but now they are addressing the problem of what happens when they get into the institution. We've brought them into the institution. Now, we've got to determine whether there are special problems associated with that group, but I think what Ron is pointing out, it is a black student problem but it is a student body problem in general.

December 10, 1981 meeting, Board of Trustees

**COMMISSION ON STUDENT ATTRITION AND RETENTION  
BY PROFESSOR RONALD ROSBOTTOM (contd)**

Mr. Smith:

The last report I heard, we weren't doing a good job of getting them into the institution.

President Jennings:

We've got these 600 slots and we're getting them into the institution, but--

Provost Reynolds:

You may not have been at that meeting. I gave a preliminary report on enrollment and mentioned specifically minority admission, and would be happy to bring this in more fully over--with a profile of several years. I do want to mention one thing in that context though, our graduate program, where we actually recruit graduate students for our graduate school from minorities--is outstanding across the nation. We have one of the highest percentages of black students in graduate programs of any institution in the country, and we have produced more black Ph.D.'s than any institution in the United States.

Mr. Smith: That's the first time I've heard that.

Provost Reynolds:

But that's one statistic, and if the President concurs and so forth, I would be glad to explore that more fully with you.

President Jennings:

I would be glad to. Well, I'd just, perhaps, like to close, but I think this is an exciting activity, and I appreciate very much the faculty addressing this very difficult issue, and it's going to be a long time in the making, but I think this institution in this process is taking a major step towards looking at our entire academic activity, and we thank you, Ron, and each of the members of the committee, and as soon as I get my desk cleaned off and down to it, we'll be appointing this Commission, and I'm very confident we're off to a good start on it.

Professor Rosbottom:

Thank you, and I would like to commend the administration in the person of Provost Reynolds and former President Enarson and former Vice President Vandament, who initiated this Commission and who called me on the phone and said, 'We want you to do something about retention.' And I said, 'Yes,' because I didn't know anything about it. But it was a good idea, and I hope that we've been able to help you. Thank you.

Mr. Devenow: Thank you very much.

## RESOLUTIONS IN MEMORIAM

Resolution No. 82-49

*Synopsis: Resolutions honoring the service of two of this University's faculty members who have recently died are being proposed.*

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Upon motion of Mr. Immke, seconded by Dr. Jacob, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

William H. Reither

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 19, 1981, of William H. Reither, Associate Professor Emeritus in the Department of Philosophy.

Professor Reither was born in Jackson Center, Pennsylvania, on May 2, 1892. He received the A.B. degree in philosophy from Oberlin College in 1924 and the A.M. degree, likewise in philosophy from Oberlin, in 1925. In 1931, he was awarded the Ph.D. degree from The Ohio State University where he had already served in the Department of Philosophy as Graduate Assistant (1926-28) and as part-time Instructor (1928-31). From 1931 to 1942, Dr. Reither served as Instructor of Philosophy at Ohio State, from 1942 to 1957 as Assistant Professor, and from 1957 to 1962 as Associate Professor. In 1962, he became Associate Professor Emeritus. Dr. Reither also served as Acting Associate Professor at Ohio University in the Summer of 1948, as Lecturer at Johns Hopkins University in 1949-50 and, after his retirement, as Visiting Professor at the College of Wooster in 1963-64.

Throughout his career at Ohio State, Professor Reither made manifest his steadfast commitment to the department by serving on numerous committees. He was, moreover, Secretary-Treasurer of Phi Beta Kappa, Epsilon of Ohio, from 1944 to 1948, and President of the Chapter in 1957-58. From 1950 till 1953, he was a member of various committees of the University Post, No. 310, of the American Legion. Likewise, Dr. Reither was active in professional philosophy in Ohio when, from 1935 to 1940, he was Secretary-Treasurer of the Philosophy Section of the Ohio College Association and, from 1949 to 1952, its President.

Although he contributed articles and reviews to journals in the field, Professor Reither was, above all, a devoted teacher and counselor of students. He taught and advised thousands of students both here at Ohio State and elsewhere, and he literally dedicated his life to his students.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

December 10, 1981 meeting, Board of Trustees

### RESOLUTIONS IN MEMORIAM (contd)

Samuel Renshaw

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 5, 1981, of Samuel Renshaw, Professor Emeritus in the Department of Psychology.

Dr. Samuel Renshaw was born in Sugar Grove, Ohio, in 1892. He was a lifelong Ohioan although his many professional contributions extended his reputation far beyond the borders of his state and even of his nation. Dr. Renshaw was a friend of many of the notables of his day, among them James Thurber and Aldous Huxley.

He graduated from Ohio University in 1914 and earned his M.A. and Ph.D. degrees at The Ohio State University. He began his academic career as an Instructor in experimental psychology at Ohio University. Before coming to Ohio State in 1925 as Assistant Professor of psychology, he taught successively at Rio Grande College and at Western State Normal School in Michigan. At Ohio State where he taught experimental and educational psychology, Dr. Renshaw was for many years Director of the Experimental and Perception Laboratory. He retired as Professor Emeritus from Ohio State in 1962.

In addition to his specialty in the psychology of perception, Dr. Renshaw made numerous contributions to the field of optometry and was widely known among optometrists for his applied and theoretical contributions to their profession. During World War II, Dr. Renshaw devised an early recognition system for the identification of enemy aircraft and was head of a U. S. Navy sponsored school at The Ohio State University for training naval personnel in his system. He was decorated by the Navy for his contribution to the war effort. As an educational psychologist, Dr. Renshaw was particularly interested in the process of speed reading and devised tachistoscopic methods for teaching reading at high rates of speed while maintaining comprehension. Dr. Renshaw's book, *Childrens' Sleep* is an outstanding contribution to the field of developmental psychology.

Dr. Renshaw's work has been a great credit to the University at which he taught for so many years. He befriended many of his students and will long be remembered by both the undergraduate and graduate students who took his seminars, worked in his laboratory, and took their degrees under his direction.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

## 1981-82 CURRENT FUNDS BUDGET FOR THE OHIO STATE UNIVERSITY

### I. INTRODUCTION

The adoption of the Current Funds Budget for Fiscal Year 1981-82 has been deferred until the members of the Ohio General Assembly were able to complete their work of dealing with the difficult financial constraints facing the State. Now that the work of the State legislators has resulted in a budget for the remainder of the 1981-83 biennium, the allocation for The Ohio State University will enable this University to continue to fulfill its mission as the State's land-grant University and maintain its reputation as one of the finest public universities in the nation.

Under the provisions of this budget, Ohio State will be able to provide long-overdue raises to maintain and improve the quality of our faculty and staff. Funds are also available to provide some additional support for sustaining the quality of the library plus acquisition of teaching and research equipment. Perhaps most important to this University's mission is the reduction in student fees to maintain the tradition of student accessibility.

In developing and approving this budget for 1981-82, we must be ever mindful that the economic situation in Ohio remains uncertain. Therefore, every effort will be made to maintain adequate flexibility to adjust expenditure patterns if less than anticipated State revenues should necessitate further budget adjustments. In this regard, the hiring restrictions which have been in effect will continue until there is a clarification of the State revenue situation and budget plans for Fiscal Year 1982-83 are approved.

### II. SOURCES OF FUNDS

The sources of current funds in support of the 1981-82 budget total \$607,084,800, as detailed in the schedule of Sources of Income to support 1981-82 Budget. These revenues represent an estimated increase of 12.6 per cent over actual 1980-81 current funds revenues. Of these total sources, Columbus Campus general funds represent 44 per cent of the total with earnings operations generating 33 per cent, restricted grants and contracts 21 per cent, and the regional campuses revenues total 2 per cent.

The 1981-82 budgeted student fee revenues incorporate a 50 per cent reduction in the Instructional Fee surcharge effective the Winter Quarter 1982. This surcharge, implemented the Autumn Quarter 1981, was necessitated by the interim State budget. With the support currently provided by the State, this University will meet its commitment to reduce the amount of the surcharge and establish the instructional fees at a lower level. Even with this lowering of student fees, the percentage of the Columbus Campus unrestricted general funds budgets support by student fees continues to increase--33 per cent for 1981-82, 31 per cent in 1980-81 and 28 per cent in 1979-80.

Due to the uncertainties in State revenues, the 1981-82 biennium budget legislation includes an automatic subsidy cutback of 1 per cent for 1981-82 if revenues do not meet projections. Therefore, we have created within this budget flexibilities which will allow this University to address to reductions in State support without disruption to the academic programs.

**1981-82 CURRENT FUNDS BUDGET FOR  
THE OHIO STATE UNIVERSITY (contd)**

**III. USES OF FUNDS**

The University's current funds estimated expenditures for Fiscal Year 1981-82 are detailed in the schedule of Budgeted Expenditures for 1981-82. These expenditure levels will enable this University to implement the following budget guidelines for Fiscal Year 1981-82.

- \* Increase faculty and administrative/professional staff salaries by an average of 9 per cent (which includes a 4 per cent across-the-board pay increase), plus an allowance of 2 per cent as a supplemental allocation for market adjustments in selected units of the University, both to be effective November 1, 1981.
- \* All eligible faculty and staff to receive a one-time cash supplement on December 18 to equalize the effects of the delay in pay increases for those on academic year versus annual appointments. This one-time payment is to cover the month of November for academic year personnel and November plus three months for annual appointment faculty and administrative/professional staff.
- \* Classified personnel to receive pay increases of 75 cents-per-hour or 10 per cent, whichever is greater, in accordance with House Bill 634, with this University covering one-third the cost.
- \* Increase general expense budgets by 8 per cent for the colleges and departments, which includes stipends for graduate students working as teaching, research and administrative associates.
- \* Provide on a one-time basis, special allocations of \$1.1 million for student financial aid support, \$1.1 million for library acquisitions, and \$2.0 million for the purchase of necessary instructional and research equipment.

In addition to these specified budget increases, the expenditure budgets will enable this University to meet mandated General Fund cost increases such as utilities (\$2.2 million) and employee benefits (\$1.3 million). There is also established a minimum flexibility budget of \$2.5 million with which to address unanticipated needs, along with \$3.3 million held as uncommitted reserves unless needed to remedy potential shortages in revenues.

Assumed in this budget is the implementation of the overhead cost recovery system applicable to all University earnings operations. This program will require each unit that earns all or part of its revenues from charges for their services to compensate the University General Fund for the various administrative and support services provided as well as pay the direct costs of the utility, custodial and maintenance services utilized. These units will in turn be compensated for the short-term interest earnings on their positive cash balances (or charged the same rate of interest for negative cash balances). This program will reduce the General Fund burden of support for these earnings operations by having each such unit cover the total costs of their activities.

**IV. 1982-83 BUDGET PLANNING**

Knowledge of State appropriations for the second year of the biennium has enabled us to initiate the budget planning process for 1982-83. As soon as resource and cost estimates are more refined, budget guideline recommendations for the next fiscal year will be brought to the Board. Preliminary analyses indicate that with the current biennium allocation from the State, and assuming reasonable increases in expenditures plus maintaining our commitment to hold fee increases to a minimum, it will still be necessary for this University to cut an additional \$6.7 million from its budget prior to June 30, 1983. This is in addition to the \$10 million in retrenchments and savings already absorbed since July 1, 1980.

These reductions will be made over the remainder of the biennium in selected areas to be determined by the vice presidents and deans, in consultation with faculty, staff and students. In making these further cutbacks, every attempt will be made to assure that the University's fundamental missions are not adversely affected. Reductions in personnel will continue to be achieved through attrition, and the University's limited hiring freeze will remain in effect. The overriding goal in realizing these savings by the end of the biennium will be that Ohio State's long-standing quality in teaching, research and public service are maintained.

Unfortunately, there is still a great deal of uncertainty about the second year's finances for the State, and we must be aware of these uncertainties in projecting fee levels for next year. The Ohio State University, however, remains committed to the principle of accessibility, and therefore we remain committed to keeping our fees as low as possible.

**BUDGET 1981-82**

Resolution No. 82-50

*Synopsis: The Budget for 1981-82 is being submitted for adoption.*

WHEREAS the State has adopted a budget for the remainder of the 1981-83 biennium which provides funding to this University for 1981-82 which is 8.2 per cent above the reduced appropriation level for Fiscal Year 1980-81; and

WHEREAS this funding level enables this University to reduce 50 per cent of the student fee surcharge imposed during the period of the interim budget; and

WHEREAS the resources are now available to provide salary increases of 9 per cent to the faculty and administrative/professional staff for Fiscal Year 1981-82 plus another 2 per cent for selective market adjustments; and

WHEREAS the State has adopted salary increases for the classified staff of 75 cents per hour or 10 per cent, whichever is greater for Fiscal Year 1981-82 and has provided two-thirds of the funding for these increases:

December 10, 1981 meeting, Board of Trustees

**BUDGET 1981-82 (contd)**

NOW THEREFORE

BE IT RESOLVED, That the University Current Funds Budget for Fiscal Year 1981-82 be approved with the authorization to make expenditures within the income levels contained in the budget schedules included as a part of this Resolution; and

BE IT FURTHER RESOLVED, That the student fee surcharge imposed during the period of the interim budget be reduced 50 per cent beginning Winter Quarter 1982, and that the Schedule of Student Fees for the Winter Quarter 1982 be hereby approved; and

BE IT FURTHER RESOLVED, That the Secretary be instructed to incorporate all supporting documents into the minutes of this meeting, including salary rolls with promotions and fees and charges for the Fiscal Year 1981-82, and to file these materials with the official records of this University.

Mr. Devenow:

Before we ask for a motion or a vote, I would like to make a statement. I would like to report that the Personnel Committee of this Board has met to consider the President's salary. I think everyone assembled here knows the President's salary has been a concern of long standing with this Board. As you know, the salary was also a particularly acute and difficult problem for the Board during the search and selection process for a new president. This ultimately resulted in Dr. Jennings having to take a substantial salary reduction in order to assume the presidency of The Ohio State University.

We were delighted and pleased with President Jennings' decision to come to OSU, and I believe that it would be a disservice to him not to recognize the financial sacrifice he made in order to assume the presidency of this great University. It is most certainly difficult to justify the current salary of President Jennings in light of the level and complexity of his responsibilities. I should note here that the Board wishes to formally recognize Dr. Jennings efforts over the past several weeks for his work on behalf of The Ohio State University.

In view of the action taken by the Ohio General Assembly to remove the constraints imposed on the University with regard to the President's salary, the Personnel Committee has recommended that effective November 1, President Jennings' salary be fixed at an annual rate of \$78,000.00. I should like to note further that even at the proposed salary increase level, President Jennings will be substantially below some of the salaries of other presidents of the Big 10 institutions. I would like to ask for a motion to approve the President's budget recommendations as well as the recommendation of the Personnel Committee as noted in my report to this Board. Do I have a motion?

Upon motion of Mr. Hilliker, seconded by Mr. Smith, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

**CHANGE NAME OF MASTER OF HUMANITIES DEGREE TO  
MASTER OF LIBERAL STUDIES**

Resolution No. 82-53

*Synopsis: Change name of Master of Humanities degree to Master of Liberal Studies is being proposed.*

WHEREAS the previously approved Master of Humanities degree program has been successful in attracting highly motivated, intelligent students who, in consultation with faculty advisors, have developed academically sound master's level programs that do not fit into the regular degree offerings of the University; and

WHEREAS the courses used in the program are existing courses put together in different ways, but always in ways that make programmatic sense; and

WHEREAS the program has never been limited to courses solely in the humanities, but the degree title was chosen because the College of Humanities submitted the original proposal; and

WHEREAS the designation Master of Liberal Studies is more accurate and informative than the present title, and is a designation in wide use at colleges and universities in Ohio and the nation; and

WHEREAS the proposed designation has been approved by the College of Humanities, the Graduate School, and the Council on Academic Affairs:

NOW THEREFORE

BE IT RESOLVED, That the foregoing proposal from the University Senate, which was approved November 14, 1981, be adopted; and

BE IT FURTHER RESOLVED, That this proposal be forwarded to the Board of Regents pursuant to section 3333.04(N) of the Revised Code for approval.

Upon motion of Mr. Smith, seconded by Mr. Immke, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS**

Resolution No. 82-55

*Synopsis: The reports on contracts, grants, and gifts and the summary for October are presented for Board acceptance.*

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, and The Ohio State University Development Fund:

NOW THEREFORE

BE IT RESOLVED, That the research agreements between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station and The Ohio State University Development Fund during the month of October 1981, be approved.

Upon motion of Mr. Hilliker, seconded by Mr. Smith, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

**The Ohio State University College of Optometry Progress Fund (contd)**

These funds and any subsequent gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with right to invest and reinvest as occasion dictates.

The annual income is to be used for those purposes which will aid the instructional and research programs in the College of Optometry, with priority given to those activities which will improve clinical instruction and practice. In the event that, with additions, the endowment becomes sufficiently large, it may also be used to help fund a professorship or chair. The income from this fund is specifically not to be used for scholarships or fellowships. The Vice President for Health Sciences and the Dean, College of Optometry, will have sole authority to approve expenditures from the fund.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for optometric education and research.

**THE OHIO STATE UNIVERSITY DEVELOPMENT FUND**

**Cheerleaders Scholarship Fund**

The Cheerleaders Scholarship Fund was established December 10, 1981, by the Board of Trustees of The Ohio State University with the award for winning the National Collegiate Cheerleading Championship by the 1980-81 Ohio State University Cheerleading Squad.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide scholarship assistance to one or more undergraduate students actively participating in varsity cheerleading. Students who have demonstrated academic ability and the need for financial assistance should receive first consideration. Selection of the recipient(s) is to be made by the University Scholarship Committee upon the recommendation of the Director of Athletics. If, in any year, there are no applicants for this award, the income may be used at the discretion of the Director of Athletics.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to the appropriate administrative official of the University who is then directly responsible for intercollegiate athletics.

**The Friends and Alumni of the Ohio-Drake Unions Scholarship Fund**

The Friends and Alumni of the Ohio-Drake Unions Scholarship Fund was established December 10, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from friends and alumni of the Ohio Unions.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with right to invest and reinvest as occasion dictates.

The annual income is to be used to provide scholarships for students participating in Ohio-Drake Unions' activities who have demonstrated a need for financial assistance. The selection of the recipient is to be made upon the recommendation of the Director of the Ohio Unions in cooperation with the University Scholarship Committee and the Board of Governors of the Ohio-Drake Unions Activities Alumni Association.

Should the need for these scholarships cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for the Ohio Unions' activities.

**The Class of 1931 Library Fund**

The Class of 1931 Library Fund was established December 10, 1981, by the Board of Trustees of The Ohio State University with gifts from members of the Class of 1931 in honor of the 50th anniversary year.

All gifts are to be invested in the University's permanent funds, under the rules and regulations adopted by the Trustees of The Ohio State University, with the right to invest and reinvest as the occasion dictates.

The annual income is to be used to provide acquisition funds for The Ohio State University's library system, toward the purchase of such items as rare books, special collections, and other necessary materials. Funds will be allocated by the authority of the Director of the University Libraries.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to the recommendations from the appropriate administrative official of the University, who is then directly responsible for the University's libraries.

**Apiculture Memorial Fund**

The Apiculture Memorial Fund was established December 10, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from interested persons and from the estate of William A. Stephen, Worthington, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used for the Apiculture program in any one or all of Resident Instruction, Research and Extension through the Discretionary Fund of the Dean of the College of Agriculture and Home Economics. Use of the funds is to be determined annually by a joint committee consisting of the Dean of the College of Agriculture and Home Economics, the Chairman of the Department of Entomology, and the Senior Professor of Beekeeping. Any income not used in a given year will be added to the principal to increase the amount available for use in succeeding years.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the Dean of the College of Agriculture and Home Economics.

**The Richard Scott Smith Memorial Fund**

The Richard Scott Smith Memorial Fund was established December 10, 1981, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from family and friends of Mr. Richard Scott Smith of New Canaan, Connecticut.

The gift is to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be awarded to one or more students in the School of Architecture. Recipients will be determined by the established procedures within the School of Architecture, with preference given to students with demonstrated financial need and leadership qualities.

Should the need for this fund cease to exist or so diminish as to provide unused income, the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the School of Architecture.

**PLANS AND SPECIFICATIONS**

Resolution No. 82-56

*Synopsis: Plans and specifications are being proposed for the following projects.*

WHEREAS at the request of the Vice President for Business and Administration, the President recommended that the Board of Trustees approve the plans and specifications, bills of materials, and estimates of cost for the following projects:

**UNIVERSITY HOSPITAL RECEIVING DOCK MODIFICATIONS**

Project: Replace deteriorated dock, install additional covered dock and replace housing for refuse conveyor and compactor controls.

Funding: Budget Account 885105

Estimated Project Cost: \$94,185.00

**WOODRUFF AVENUE, REPAIR/REPLACE CURBS AND SIDEWALKS**

Project: Repair of curbs and sidewalks on the north side of Woodruff Avenue from Neil Avenue to High Street. This is necessary due to deterioration.

Funding: Budget Account 210134

Estimated Project Cost: \$35,500.00

**NOW THEREFORE**

BE IT RESOLVED, That the plans and specifications, bills of materials, and estimates of cost for the projects listed above be approved and that the President and/or Vice President for Business and Administration be authorized to sign the plans and specifications for these projects and, in accordance with established University procedures, to request bids and, if satisfactory bids are received, to recommend to the Department of Administrative Services, Division of Public Works, the award of necessary contracts; and

BE IT FURTHER RESOLVED, That this action be reported to the Board at a later meeting.

Upon motion of Mr. Immke, seconded by Mr. Smith, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

**AUTHORITY TO ACQUIRE TITLE TO GIFTS**

Resolution No. 82-58

*Synopsis: Authority to acquire title to gifts is requested for the month of December, 1981.*

WHEREAS The Ohio State University Development Fund has had inquiries from potential donors who are considering making gifts to the University prior to December 31, 1981; and

WHEREAS the next meeting of the Board of Trustees will not be until after December 31, 1981:

NOW THEREFORE

BE IT RESOLVED, That the Chairman of the Fiscal Affairs Committee of the Board of Trustees and the President and/or Vice President for Business and Administration be authorized, during the period from December 1, 1981 through December 31, 1981, inclusive, to acquire title in the name of the Board of Trustees to such gifts that they determine, after appropriate review and evaluation, to be in the best interest of the University; and

BE IT FURTHER RESOLVED, That such gifts made on or before December 31, 1981, be accepted as gifts to the University through the Development Fund from the respective donors; and

December 10, 1981 meeting, Board of Trustees

### **AUTHORITY TO ACQUIRE TITLE TO GIFTS (contd)**

BE IT FURTHER RESOLVED, That these gifts be reported to the Board of Trustees at its next meeting.

Upon motion of Dr. Jacob, seconded by Mr. Immke, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

President Jennings:

In association with this action, while all the details have not been worked out yet, we do have at this stage--we will be announcing very shortly that Mr. William H. Davis, prominent Columbus businessman and philanthropist, will be providing an additional \$250,000 to the College of Medicine. This is a continuation of his previous donations for the William H. Davis Scholarship Fund for Basic Medical Research, and I would just like to recognize Mr. Davis' great contributions to The Ohio State University at this stage. It is gifts of that nature that represent the margin of excellence for this University. We will get the legal activity worked out in the next few days, and with this authority we will be able to accept this gift before the close of this calendar year.

### **REPORT - SITE LOCATION FOR CANCER INSTITUTE HOSPITAL**

President Jennings:

We do have one more report. As you know, the legislature recently passed the Capital Budget for Ohio State amounting to \$90 million. We would like to get on with those individual projects and one of the major projects is the Cancer Hospital. I would like at this stage for our people to present to you some of the basic concepts they are dealing with right now in terms of location of that Cancer Hospital. This is very preliminary work at this stage, and this same material will be presented to the Hospital Board next week for their recommendation to you. But I thought it worthwhile at this stage to present to you some of the preliminary thinking on this so that we might be able to move forward on this at the February meeting after we have received recommendations from the Hospital Board. Dr. Cramblett, perhaps you could get us started on the locational aspects of this Cancer Hospital.

Dr. Cramblett:

Mr. Chairman and members of the Board, Mr. Curtis Inscho, who has been the principal architect for many of the projects in the Health Sciences Center, has done considerable staff work for us in looking for potential sites. Obviously the siting of the Cancer Hospital will impact the program and the program requirements will impact the siting. So it is a terribly important decision to be made. I would like to introduce at this point Mr. Inscho for presentation; Mr. Hahn, who is assistant vice president in our office, who will also assist with the presentation.

December 10, 1981 meeting, Board of Trustees

**REPORT - SITE LOCATION FOR CANCER INSTITUTE HOSPITAL (contd)**

Mr. Inscho:

I feel a little humble after that presentation from computer graphics. I would like to evidence the fact that I'll be the first student in the class when you organize those. I would like very much to be able to take this Cancer Hospital and by flipping a switch, move it all over campus. If I were to draw it that way, believe me, it would take me the next ten years, and then impossible almost to have it this way. So, we're back to the olden days of presentation, some visual supports I think might be of some help to you. First of all, I imagine you're pretty well oriented, Neil Avenue here, University Hospital, Rhodes Hall here, Upham Drive, Cannon Drive, the parking ramp, University Hospital Clinic, Means Hall, Upham, Postle, Starling-Loving, the Library and the Administration Building. So we are talking about this general area as potential sites or places for the Cancer Hospital. I tried to set up, and I'm going to go very briefly through this so that if you have any questions or things that I'm missing or more information you want on any particular site, please don't hesitate to interrupt me.

Basically starring some eight major considerations with regard to the location of the Cancer Institute Hospital:

1. Public visibility.
2. Pedestrian and vehicular access.
3. Availability of parking.
4. Direct access to hospital facilities. Perhaps I should expand on that just a little bit to tell you what I mean. In Rhodes Hall and University Hospital, the center complex here, we feel are already existing with sufficient capacities for receiving, storage, food service, administrative areas, and certainly the big diagnostic areas of the 2nd, 3rd, and 4th floors housing the radiology department, laboratories, pharmacies, surgeries, and that type of facilities. These are all vitally important to the Cancer Hospital itself, and certainly in the way of economics we don't want to have to duplicate them, nor really could we within the budget we have in a Cancer Hospital, be it located wherever. So, as close to or adjacent to--as near as we can get the Cancer Hospital and its functions to those facilities already existing, and sufficient to handle the additional load, the better off we are. So, that becomes then a very important one, I think, a direct access to the hospital facilities.
5. Disruption during construction. I think it is also an important one. Primarily I think that was capitalized in this group to show the hospital I am concerned--or whoever is going to do this job should be concerned--with what we're going to do to the day-to-day operations of that hospital while all of this is going on. It's a four to five year program from now until the time we have patients in that building. So that anything that's going on in a way that would totally disrupt the operation of the hospital would be a very serious thing.

**REPORT - SITE LOCATION FOR CANCER INSTITUTE HOSPITAL (contd)**

Mr. Inscho: (contd)

6. Access to Radiation Therapy. Radiation Therapy, as you know, is a part of that Capital Improvements Budget--the funds are available for planning only. But, we feel that there is a very direct relationship with the Cancer Institute Hospital and the new facility proposed for Radiation Therapy, so that we may hopefully--those two projects can be designed together, if not built together, but certainly wind up together. The patients in the Cancer Hospital and also the research and diagnostic facilities, and the treatment for outpatients and so on are thoroughly dependent upon the Radiation Therapy facilities being adjacent to them.
7. The effect on the project cost of the location. I mentioned the duplication of expensive services, and certainly those things I mentioned, of laboratories, surgeries, radiology departments, and so on are the really most expensive part of most any hospital. So it does have an effect on cost.
8. Adequacies for future expansion is important because there isn't any doubt in my mind, and I'm sure none of the other people's, that once this center is established, that it will be drawing and it will be enlarging, it will be increasing, and one of these days there will have to be additions to it. So the site itself should have the capacity for expansion. Those are the major considerations. There are hundreds more.

Now in order to arrive at the sites, we quickly identified five or six sites, or potential locations for this project. And, of course, the first thing that had to be done as far as I'm concerned, is to decide how much space are we talking about, how much area is this building actually going to take. So we took a Cancer Hospital with no attempt to design the building--that's not my charge; my charge is that, to select a site. But it is pretty difficult to have a site consideration without knowing what kind of building you are going to have, or the size. We did develop what we thought would be necessary for a typical patient floor. We'll probably have five of them or so, but that typical patient floor, housing the nursing facilities for the patients, created the basic size overall of the building. That was determined to be about 18,000 square feet. So, as you work down, that building requires a minimum of siting of 18,000 feet on the ground. So, with that in mind, we began to analyze the various sites we thought were worthy of consideration to see what would happen.

So we come back to Site No.1, which is located just west of Rhodes Hall, south of Means, and north of the Clinic, east of the parking ramp. You are familiar, I am sure, with that particular area. Now, 10th I think runs through there. It is the emergency entrance to Rhodes Hall; it comes around through here, underneath. So in just taking that, this area No.1, very quickly, a ground floor unit--here again is the Clinic, Means Hall, Rhodes Hall, the parking ramp. In order to get our

**REPORT - SITE LOCATION FOR CANCER INSTITUTE HOSPITAL (contd)**

Mr. Inscho: (contd)

18,000 square feet building into there, we would go literally from University Clinic to Means Hall, and pretty much a big hunk of that space, requiring the elimination of the road through, we can take the emergency entrance and roads down around this way to get by that problem, but it does close that entire space.

You say, 'Well, what kind of an outlook do we have if we have a patient floor area here?' We're looking really at the back end of the Clinic. The Clinic now is a six story building; it was designed and planned for five additional floors, bringing it up to eleven floors, which is the height of Rhodes Hall and University Hospital. So here we would be just too crowded in that particular place. It just isn't the area. So that is one of the major things, the public visibility, you can say, fair, from Upham Drive along here it has good visibility from the parking ramp, adjacent to that, that part of it would work out fine, the direct access to the hospital facilities, it exists now from Means Hall across to Rhodes Hall on the second floor. There is a bridge across the roof of Rhodes Hall, if you recall, or remember. We would have to then build additional levels of bridges to connect to Rhodes Hall to satisfy the movement of patients from the Cancer Hospital to Radiation Therapy or to Radiation Therapy and X-ray departments existing on the second floor of Rhodes, and certainly the fourth floor surgeries and so forth. So probably the effect on the cost of this particular site versus someplace immediately adjacent or some other site, would be the cost of bridges, perhaps at two or three levels.

Go back to the Site No. 2, which is up in this area. We have, and these are very schematic, very quick things but I think they will show you what our thinking is up to now. There are many more details later that we will go over, but we'll let that go till another time, or if you wish, I'll be available from now on to discuss any one of them in more detail that you would like. If we take Site No. 2, between Bioscience-Wiseman Hall, north of Upham, and north of 12th Avenue, now a parking lot. There is adequate ground there. Again, the public visibility off of 12th Avenue could be (it's an independent building); it has its own architectural identity as such, or could. And come back to the traffic, the parking would be adequate, satisfactory. Now, again, that access to the hospital, access to the existing facilities right here, this piece of ground is ten feet lower than this; it is twenty feet lower than out in front of Rhodes, so we are down on lower levels, so we would have to build above ground bridge connections, from this building down to this building, through the University Hospital in order to get in and utilize all the services we have already constructed. So this does create a rather sizable additional project cost, ranging anywhere from a million to two million in the building of those bridges, bridging 12th Avenue and so on. It's quite a haul for everything. If we've concentrated all of the activities within the hospital and they are sufficient in size and area, to accommodate this building, we've got a long walk. The laboratory technicians who are going for blood samples, make that walk. The patients make that trip going and coming from surgery. So it just seems to me a little too far out.

December 10, 1981 meeting, Board of Trustees

**REPORT - SITE LOCATION FOR CANCER INSTITUTE HOSPITAL (contd)**

Mr. Inscho: (contd)

Now there have been many suggestions, and I got to admit that my first attempt to tackle this problem started off in Site No. 3. Why? It is right adjacent to the north end of the University Hospital. Boom, just feed right into it--totally. However, the more you get into it, the more problems I've found. Let me tell you just a few of them. First of all, as you know this is our receiving dock. A receiving dock right now comes off of 12th Avenue in here and into this whole area. There's a loading dock all the way across here. This is the receiving, storage, linens, all types of receiving comes in off this dock. Right now (we have found this out a few years ago) when we were making some studies of utilization of existing University Hospital, that there was already a tremendous shortage of receiving-storage type space, particularly all in one spot. There is a lot of storage, but it is sort of scattered all over. So if we attempt to build here, we have wiped out our receiving and loading dock areas in order to build a building in here. So we say, 'Okay, let's leave that in here, and we'll build on top.' Well, now what we have done, we've increased the scope of our project not only to include a Cancer Institute Hospital, but we're also going to create a receiving area, loading docks, maintenance shops; things that are not very glamorous when you think of hospitals and hospital buildings. But believe me, the shop activities, the storage and receiving of supplies, is unbelievable, so we have to recognize it as an important part of a function of a hospital. So I don't think we can ignore that.

The planning that we tried to do within that area in order to say, 'Can we get it in there?' Well, yes, we can get it in there. You can do almost anything these days, but what would happen? Well, we would have our entrance to the Cancer Hospital; this is a ground floor on the back side entrance to the Cancer Hospital from 12th Avenue on the north. These are the additions to Radiation Therapy which I mentioned before so that up on the first floor, we would have the outpatient departments over the cancer area. We come to the second floor; again, outpatient treatment, research-type facilities of cancer, this would be additions to Radiation Therapy adjacent to the second floor of Rhodes Hall, which has all of our X-ray department here.

Then the tower of the patient tower would rise at this particular location. So thinking now that we have five or six floors of patients and where is their vision? Out here to the back end of the hospital here, 20-30 feet across the fence here, 30 feet across the fence over here, and we are looking to sit on top of the loading docks, looking in the back end of Upham and Means Halls. So looking from the standpoint of public visibility, I think it leaves a lot to be desired.

And immediately, somebody coming to the Hospital--and it seems to me that every time I walk anywhere near around that area, I get stopped at least twice by people saying, 'How do I get to someplace?' And it isn't easy to answer that. I've tried and I direct and so on, but what would I say here; I'd say, 'It's around back.'

December 10, 1981 meeting, Board of Trustees

**REPORT - SITE LOCATION FOR CANCER INSTITUTE HOSPITAL (contd)**

Mr. Inscho: (contd)

Now, I'm out in the front of Rhodes--where is the Cancer Hospital? It's around in back. I don't think that quite has the visibility, the public visibility, that a building of this magnitude should have. So I kind of got away from this thing as not a workable solution at all to our problem. We're not only increasing our scope of our project, thus reducing the amount of money available for the Cancer Center, but I think we have it oriented in such a way that it's just not acceptable for a major project of this type.

Well, then we are back to No. 4 and No. 5 which is the next logical step. We've hooked on to the back of the University Hospital. This is what we call a north wing. It stops right here. This area is eleven stories high. This is two stories. Let's go out from here so we have a connection in here, and we connect on eleven floors if we want to. So we go on the back end. Then, we say, 'Well, let's go to the extreme and eliminate 12th Avenue going through--take 12th Avenue and turn it up someplace else; deadend 12th Avenue back in here--so that we could physically connect the existing hospital to the new hospital.' What does that do for us? Well, all right, here is our 18,000 square feet. This is no problem. We can get it into there. We can expand our Radiation Therapy potentially when that money comes along, and certainly, the planning, again, as I say, should be done together right adjacent to the existing Radiation Therapy. We've got a nice separate entrance for outpatients coming into Radiation Therapy. That's good; there is a lot of it. We've got an entrance coming down 12th Avenue to get into the Cancer Institute Hospital. (Neil Avenue is right here, so where we are is at this site). So if our main entrance, you say, 'Where is the Cancer Hospital?' Well, you go up Neil and you turn in 12th and there it is back there. There is a turnaround and you can go back out or you can go back in here. But we're in here between Wiseman, Water Resources, the Greenhouses (which are here to actual scale as they are). This is Postle Hall which is Dentistry. Right here is the trash pick-up area of Postle Hall, the back of Postle. This is the only place we had to get into and out of the Cancer Hospital. So, again, I think the public visibility of around back there is kind of lost because our Hospital is down here. Here's our main entrance and somehow or other it should be developed into and tie into it.

So, then we say, 'Well, if we left 12th Avenue and let's just put a little hook in 12th Avenue and connect it back here so that it sort of sits back there as a separate entity and doesn't just make this long string that we had on the other drive.' Leave 12th this way and let 12th Avenue go all the way through so you get to the building from this end or this end, which gives it a little better, I think, reflection and connotation than back over here coming in only from Neil so we can get in from both sides.

Again, if the building were here, we'd have a turnaround out here and so forth. In here would be the Radiation Therapy additions--again in here. If this building were here sited, for example--and don't worry too much about the shape, it's a block of 18,000 feet--actually it's a couple of nursing units here, but that's a detail for the physical planning of those buildings which is going to come along at a later date.

December 10, 1981 meeting, Board of Trustees

**REPORT - SITE LOCATION FOR CANCER INSTITUTE HOSPITAL (contd)**

Mr. Inscho: (contd)

But the distance to travel--where we want to get to is here at Broad and High for connections. This is the existing elevator bank in the east area of University Hospital; present entrance of University Hospital over here; entrance to Rhodes over here. The services we are talking about is in this particular area; most of them oriented to entry at this end. So if we make the comparison here--so we're talking distances, and this brings in bearing Site No. 5, so that this building sited here adjacent to the east end of University Hospital gives you a direct flow from there to the working areas of University and Rhodes. Now, surgeries, the entrances that are in here--can get in here; radiology, the same way; laboratories and all of those things, so that your access is rather direct across there. You get the same direct access back here except that it is a couple hundred feet shorter or longer back here.

So these were the major concerns with these five sites that we've identified here, or six. We had a look--I didn't bring any drawings because I didn't think it would do anything that some of these others we haven't talked about. The big problem down here or anywhere in this area is, again, the connections and the getting up to the main parts of the one utilized. Somebody says, 'Let's go across the river.' If--or back down west of Cannon, anywhere--if we go anywhere down into there, it means almost automatically duplicating \$20 million worth of services that we've already got here. Now that sounds like a fantastic figure, but believe me, when you start building food services, laboratories, pharmacies, X-ray departments, surgeries, and all that type of thing, we're talking about an awful lot of money. And it just isn't in the cards that we walk away from that which we have in adequate supply, and I'm not sure on the programming of Rhodes, but I think George could verify the fact that in the original planning of those buildings were the increased capacities, able to take care of the new cancer unit, because we have been talking about this for years. So that these facilities are here and it just doesn't make any sense to walk away and leave them there.

So we go from there to say, 'Well, what would happen in this area?' We're all concerned as we should be with green areas and green spaces. We've got a real nice one in front of--north of--Hamilton, Starling-Loving, and south of Postle--this area right here. It is very nice. I think it could be better, but it's real nice right now. It's green and there are lots of trees. The identity of this building--and at the time we were doing these drawings, we did not have a program, a program had not been developed; they've been working on one. I've seen a draft of that program within the last week or two, and it doesn't change, as far as I'm concerned, that basic area of the 18,000 feet roughly, and some of the emphasis on entrance and service and the delivery of outpatients who come into these particular treatment facilities for treatment, maybe as much as three or four times a week for an hour, for maybe thirty treatments. So you will have outpatients coming in almost continuously. So they should be able to get into these facilities and out, not through the front door. So it's pretty important to have the circulation. Ingress

**REPORT - SITE LOCATION FOR CANCER INSTITUTE HOSPITAL (contd)**

Mr. Inscho: (contd)

and egress have been studied out pretty thoroughly, and it will be done later on in the physical planning. This would say this building, in that shape as you remember, again opened up on the first floor similar to Rhodes, similar to the Library, so you do get some vision through it. So we are trying to relate this to be a part of University Hospital, but a separate entity; then you could have the entrance or the access to this or so reflect some of Postle, and I think it's important to think of the future expansions of these areas. I mentioned that the Clinic was designed to accommodate five additional floors. This Library is designed to accommodate two additional floors; this little area of optometry is designed for five additional floors; this new--the latest wing of Postle Hall is designed for two additional floors. So that some of the expansion of the areas around here are not going to be horizontal; they'll be vertical. And I think that's good because that doesn't eat up any more of our green or our land spaces. So basically this is the areas that are developed around the potential sites that we have available. Now, let me quickly stop for a minute and what can I tell you more--and I could spend, believe me, a few more hours if you wanted to get into more details.

Mr. Devenow: I don't think we do.

Mr. Inscho: I'm sure you don't.

Mr. Devenow:

I want to thank you very much. It is quite a problem, and, Jim, we'll be looking to the Hospital Board for recommendations on this thing. I think they ought to get into detail, it's too complex for us to get into at this point.

Mr. Hilliker: That Board you don't have to worry about. They'll give them the details.

President Jennings:

Well, I think that, Mr. Chairman, very important that the Hospital Board is looking into that, and we need to share this with the entire community as the Hospital Board begins to look at that. This, of course, is going to be one of the major projects in the years to come. But it is also going to be one of the major national centers for research in cancer, our most dreaded disease, and I think that constructing a building here we are setting the stage for a center of excellence that is going to be unmatched in the nation and perhaps in the world. I think as we get down on this all the work, it will be long and complicated, but it is going to be worth it in the long run when we have the center of excellence.

Mr. Devenow: Thanks very much.

President Jennings:

Do you have anything else, Mr. Chairman? That concludes my report.

**STATEMENT BY CHAIRMAN OF BOARD OF TRUSTEES**

Mr. Devenow:

I would like to make a statement before I ask for the adjournment. When Dr. Jennings came to The Ohio State University on September 1, he brought to the presidency an outstanding record as educator and administrator, and a demonstrated capacity for excellence and professional achievement. In recognition of the importance of this appointment, the formal conferring of authority on Dr. Jennings as the tenth President of The Ohio State University at an appropriate occasion is a matter which deserves the attention of not only this Board but of all members of the University community as well as the various other constituent groups.

In keeping with the history and traditions of colleges and universities, it is the wish of this University to entrust the Office of President to Dr. Jennings in a formal public setting and with ceremonial proceedings judged to be consistent with the customs and traditions of the academy.

In discussing this matter with the President, we have agreed that the ceremony for his investiture should take place during the week of March 8, 1982. So that we may move forward with the development of the requisite and necessary plans for this most important occasion, I am asking that the Secretary of the Board of Trustees serve as the designee of this Board to work with the President and any committees as may be appointed by the President to coordinate this effort. I would like to have your concurrence for this Board to specify that funds to defray expenses in connection with the President's inauguration shall be made available from the unrestricted endowment accounts of the University.

Upon motion of Mr. Smith, seconded by Dr. Jacob, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

President Jennings:

Mr. Chairman, I would just like to say, in connection with that inauguration I have asked the Search Committee that you appointed on recommendation of the University Senate to act as the committee on that inauguration. And I want to say I certainly appreciate this Board's recognition and support in the context of establishing a date for the inauguration as well as the salary decision you made a few moments ago. I, for one, thank you for that and am very much appreciative of your support as we tackle some of these major problems in the institution.

The meeting of the Board of Trustees reconvened at 1:30 p.m.

## **REPORT - THE NATIONAL CENTER FOR RESEARCH IN VOCATIONAL EDUCATION**

The President called on Provost Reynolds to introduce Dr. Taylor for a report on The National Center for Research in Vocational Education.

Provost Reynolds:

Thank you very much. I think many of you already know Dr. Robert Taylor who is Executive Director of The National Center for Research in Vocational Education. Dr. Taylor was the guiding force in arranging to have the National Center developed and in obtaining Federal funding for it. He was actually the initiator for the National Center. Dr. Taylor also serves as Associate Dean in The Ohio State University College of Agriculture and Home Economics and also has an appointment in our College of Education. His most senior academic degree is from The Ohio State University; his bachelor's and master's degrees were awarded by the University of Arizona. Dr. Taylor's activities take on a wide international sphere; as well, he was one of five national leaders designated by the U. S. Office of Education and Department of State to study vocational education programs in Russia. He has also traveled and consulted extensively in Europe, North and South America studying national training and vocational systems. He has published widely, but I think the real reason we wanted him to present to you today was to bring you up to date both on initiatives occurring currently in The National Center for Research in Vocational Education and also to apprise the Board concomitant to our difficulties with State funding we are experiencing some real struggles in an effort to have our Federal funding continue at levels that are necessary to support our programs.

Dr. Taylor:

Thank you Ann, Chairman Devenow and President Jennings, and Members of the Trustees:

I appreciate this opportunity to give you a brief update on the National Center. I last appeared before you when we received our \$25 million grant in 1978 and as we approach our 17th year, hopefully we can apprise you of our status, our directions, and comment on some of the impact of Federal R&D policy on our operation.

You will recall that we are unlike other units on campus that are organized along disciplinary lines. We are an interdisciplinary organization focusing on a mission

**REPORT - THE NATIONAL CENTER FOR RESEARCH IN  
VOCATIONAL EDUCATION (contd)**

Dr. Taylor: (contd)

that deals with the planning, preparation, and progression of individuals for careers. We carry out our mission in terms of generating knowledge through research, developing educational products and programs, evaluation, providing information for national planning and policy, installing education programs and products, operating national information systems and services and conducting leadership development and training activities. We work with all types of vocational education, not just the public school programs in the high schools and community colleges, but with other types such as apprenticeship, with five international labor unions, with industry sponsored training, with training conducted through private trade and technical schools, special institutions, and others.

Since our beginning in 1965, we have brought some \$88 million to campus and just last week signed our fifth year contract on the main National Center contract in the amount of \$4.8 million. We have contracts in force of \$9.4 million. We have a number of proposed grants and contracts outstanding and we believe by July 1 we should have contracts in force approaching \$15 million. We are funded through a number of Federal agencies and also through private sources as well as the states and other institutions. About 70 per cent of our current funding comes from various sectors of the Federal government. We think with our expansion in the international field and our continued emphasis on diversification that we will be able to bring the Federal portion of our funding down to the neighborhood of 60 per cent.

We have conducted a number of research and development projects, and our products catalog lists approximately a thousand reports. I just wanted to share with you one research activity that went on over a number of years that focused on the preparation of vocational teachers that is now being used in all 50 states, all Canadian provinces, and 32 foreign countries. We estimate that some 100,000+ teachers have been prepared using these Performance Based Teacher Education materials. They are also being used by a number of private industries, and by other areas of government such as Defense, Agriculture, Commerce, and others in their training programs.

Just to give you some sense of outreach, during the 1981 year we served 50,000 information requests. We operate the National Information System for Vocational, Career, and Adult Education and we have a number of other clearinghouse activities, including one that we expect to be starting shortly for the Department of Labor in their Job Corps operation. We have a large number of visitors and others that draw on and look upon the National Center as an information source, both nationally and internationally. Additionally, in terms of outreach, ten of our projects last year had some 93 field sites where we had staff working collaboratively with institutions, such as state departments of education, local schools, community colleges, universities, and others and were involved in field activities in some 57 states, territories, and districts. Last year the National Center received some 1,380 people representing 52 different states and 45 foreign countries. I

might add the number of international visitors is increasing and these people are representing either federal ministries in education or labor. They come to OSU to familiarize themselves with our work and activities. We are, in some instances, beginning to work with them in terms of contracting and the development of vocational and technical training in their countries.

One of the main purposes of the National Center is that of leadership development, and we accomplish this through our support of graduate students working on doctoral level activities, and in terms of leadership training across the country through the National Academy, and also through postdoctoral and advanced study for individuals who are established scholars. With respect to graduate research associates, we have since 1965 supported for several years while working on a doctorate, some 412 individuals who completed their doctorate in 17 different departments and five colleges and schools of the University. Currently we are supporting 32 individuals who are working on doctorates in seven departments and four colleges and schools of the University. Our support for graduate students to date has exceeded some \$5 million.

Through our National Academy we conducted last year 109 national workshops and seminars that were held in 25 different states and involved almost 4,000 state and national leaders from all of the 57 states and territories and also involved individuals from some 15 foreign countries. Beyond the Academy, we have an Advanced Study Center where we support individuals for full-time residency of some nine- to 12-month duration. We have had 28 individuals from 19 states, including full professors from institutions like Stanford, North Carolina, Texas, Syracuse and others, who have completed a number of books and major monographs. In our National Academy, we have had 130 individuals here as In-Residents for periods of several weeks and then we have a number of sabbatics, both from the states and Fulbright scholars from other countries such as Poland, Germany, Canada, Australia, Philippines, and others.

In terms of international efforts to date, we have completed contracts with a number of foreign countries. We have seven current contracts in force and we expect to expand our work and activity in this particular area. We expect by July 1 to have work under way in about five additional foreign countries amounting to some \$3 to \$4 million in contracts and grants.

With respect to new initiatives, one of the major areas of focus and activity for the Center right now is the area of economic development. This includes activities designed to strengthen the linkages between schools of all types and the business/industry/labor sector. We are expanding our work with respect to private sector training by working with groups like Westinghouse, Control Data, General Electric, and others. We are trying to expand the options and possibilities of young people who are completing vocational and technical education to become self-

employed entrepreneurs. We are working in the area of high technology as it relates to the interface between technical institutes, community colleges, and high technology firms. We are expecting to establish an Executive In-Residence program for individuals responsible for corporate training and other types of training. They would come to the Center for in-service development and advancement. We have a number of major collaborative activities under way working with such groups as the U. S. Chamber of Commerce, National Association of Manufacturers, and National Association of State Legislatures. Five international labor unions are presently supporting us and additionally we have put together working relationships with a number of centers of excellence--R&D centers in Geneva; Tourin, Italy; Berlin; The Hague; and Paris, so that we have an opportunity to tie into the research and development work that is going on in some of the other advanced R&D centers in our field.

Let me take just a minute, if I may, and talk a bit about some of the problems that we are experiencing in working in the Federal policy arena. I mean Federal policies affecting research and development. It seems to be translating into such things as reduced support and appropriations. Additionally, there appears to be a limiting of discretion and independence on the part of researchers. The dollars are being specified and targeted and there is a tendency to shift away from discovery, invention and more fundamental research problems to things that are applied and in some instances to only activities of dissemination. Additionally, appropriation levels for R&D are diminishing in some areas. Decision processes that used to be predictable and dependable with respect to contracts and grants are being delayed. This makes it extremely difficult to maintain staff and to maintain continuity in programs and activities. Finally we have a situation of excessive evaluation and audits. For example, the National Center has been audited on some \$28 million of our Federal contracts. Fortunately we have had no audit exceptions, but we have had 999 person days of site visits, reviews, and audits in the last three years. That means more than one person a day in our building doing evaluation and audits on our several activities.

In terms of needs, as we see them, there is a strong need for continuing and core support that would provide a basis of protecting staff and allowing us to continue between contracts and what might be potential delays. Additionally, we have a situation where there is an increasing requirement of some form of matching or local contribution for major contracts. The amount of this matching is becoming increasingly competitive among universities; in some instances overhead is being waived. Second, we also see a need for a fund that could be labeled "independent R&D" and that would enable us to begin exploratory studies to begin investigation and activity into areas that we later could translate into legislation for Federal support or private sector development. Third, we need to consolidate our staff

VOCATIONAL EDUCATION (contd)**

Dr. Taylor: (contd)

and operation in terms of buildings. We are continuing to pay rent as we have since 1978. Our operations would be improved by being able to more closely group our staff.

Now with respect to the future, I think that the mission and problem focus of the National Center is going to continue to be significant. The matter of helping people plan, prepare and progress in careers is going to be an increasingly important problem area. We have the opportunity to diversify our funding, not only domestically but also in terms of the international sector. Reauthorization of the Federal vocational education act is now before the Congress. We are being recommended for continuance in the renewed legislation by the American Vocational Association, Chief State School Officers, State Directors of Vocational Education, the President's National Advisory Council, University Council for Vocational Education, and others. There is other manpower legislation including CETA, apprenticeship and others that are currently being considered for reauthorization. We see the opportunity to build in additional research and development activities for support in that area. We plan to continue our focus of activities on the several vocational education delivery systems that are available for manpower training and development. We also plan to continue our work in the international field, to translate our technology into the needs and requirements of other countries, to learn from their experiences in national planning and development, and to help a comparative dimension into American systems. I want to thank you for this opportunity to report to you and would be pleased to respond to any questions that you might have.

**REPORT - STUDENT FINANCIAL AIDS**

Provost Reynolds:

In the interest of time I will move right ahead. At first glance, Bob Taylor and Rod Harrison might appear to be strange program partners, but they do have some things in common. They have in common a long affiliation with The Ohio State University and a total commitment to the welfare and well-being of this institution. There is another item they hold in common as well--Federal and other outright sources of support are necessary to the success of their efforts and to this end we have asked Mr. Rodney Harrison, Director of Student Financial Aids, who incidentally has been at this institution working in this area for some 24 years, and who reports, of course, to Vice President Nester, to talk to us today about Federal student financial aid. I think each of you will find at your places a hand-out which you might want to follow along with during Mr. Harrison's presentation.

**REPORT - STUDENT FINANCIAL AID**

Mr. Harrison:

The importance of Federal student financial aid at The Ohio State University is immeasurable. The resources enable us to enroll large numbers of students who would be totally incapable of financing an education, even at their own state university. It also encourages students to seek higher degrees than they might otherwise be financially able to pursue.

In reviewing the proposed Federal budgets, we are providing you information relative to the impact of the Pell Grant, Supplemental Educational Opportunity Grant, National Direct Student Loan, and College Work-Study Program. Following is a chart which indicates the number of students and average loan or grant under those programs during this year at The Ohio State University. Although these are significant, they need to be related to the rapidly increasing undergraduate fees at Ohio State, which now total \$1,330 per year. This means that most needy students must have support from more than one program.

**PRESENT WORTH OF PROGRAMS, 1981-82  
AT THE OHIO STATE UNIVERSITY**

Program	No. of Students	Loan/Grant
National Direct Student Loan (NDSL)	4,000	\$1,050
Supplemental Educational Opportunity Grant (SEOG)	700	750
Pell Grants (BEOG)	9,200	890
College Work-Study	2,500	1,050

In order to review the impact of the proposed budget reductions, we took the average of the Federal appropriations for these programs for Fiscal 80 and 81, then took the average of our appropriations for those same two years. This established an average percent of the total appropriation which was coming to The Ohio State University. Taking those percentages, we calculated the potential impact on Ohio State by comparing that to FY-82 Continuing Resolution Budget and found it would mean a \$993,025 reduction in financial aid resources. In comparing it to the FY-82 Administration Revised Budget, we found a reduction of \$1,471,593, or over 13%. Compared with the Proposed OMB budget for FY-83, the reduction amounts to \$6,119,898, or 49%.

Following this analysis, we reviewed the Guaranteed Student Loan Program and felt that a similar analysis of the budget was not appropriate because of the rapidly changing eligibility requirements and because of specific concerns about proposals being promulgated by the Administration for additional change. This program has been enormously important to our students. Almost \$7,000,000 was

February 5, 1982 meeting, Board of Trustees

**REPORT - STUDENT FINANCIAL AID (contd)**

Mr. Harrison: (contd)

borrowed during 1981 by students enrolled in our Health Profession colleges. The potential loss of these funds for these students would be devastating.

With the knowledge that choices will have to be made in order to bring Federal spending under control, we are providing for your information and consideration the University's priorities relative to funding concerns and administrative changes in the program. These priorities are summarized as follows:

1. Guaranteed Student Loan. This is our major concern. We urge the retention of eligibility for graduate and professional students in this program and that they not be forced into the Auxiliary Loan to Assist Students (ALAS) as has been proposed by the Administration.
2. Pell Grants.
3. College Work-Study Program.
4. National Direct Student Loan.
5. Supplemental Educational Opportunity Grant.

In summary, we wish to express to you our sincere thanks for your continued support of these programs and, in particular, call your attention to the vital concern relative to the eligibility requirements for graduate and professional students in the Guaranteed Student Loan Program.

In reviewing the impact on The Ohio State University, we find that if we review the numbers of students in the College Work-Study, National Direct Student Loan, Supplemental Educational Opportunity Grant, Pell (Basic) Grant, Health Professions Loans, and the Guaranteed Student Loan, we have approximately 23,500 students enrolled at The Ohio State University because these funds have been made available.

President Jennings:

Thank you Rod. I think it is important to note that both these financial areas--whether in the research area or in the student financial aid area--this institution is greatly dependent on Federal funds as well as State funds for the support, and I think it is--as we concern ourselves with State financing, it is very important to all of us to remember that this financing situation is being doubled up right now because the Federal monies are clearly being impacted in a very major way for our institution. It is happening simultaneously. At this stage it seems unlikely that we can look to our additional Federal funding to solve some of our State funding problems at the institution.

## RESOLUTIONS IN MEMORIAM

Resolution No. 82-60

*Synopsis: Resolutions honoring the service of seven of this University's faculty members who have recently died are being proposed.*

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Upon motion of Dr. Jacob, seconded by Mr. Immke, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Camille J. Botte

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 9, 1982, of Camille J. Botte, Assistant Professor Emeritus in the Department of Economics.

Professor Botte received all of his higher education at The Ohio State University, earning B.S.Edu., M.A., and Ph.D. degrees, the latter degree in 1934. Upon completion of the Ph.D., Dr. Botte joined the federal government as Ohio Chief for Research and Records in the Worker Progress Administration. From there he moved to the Office of Price Administration and finally became a Senior Economist with the War Labor Board. In 1943 he left federal service to become Research Economist with the Ohio Chamber of Commerce, a position he held for 15 years.

In 1946 with the post-World War II veterans enrollment expansion, Dr. Botte came back to the University as a part-time lecturer in the Twilight School. After retiring from the Ohio Chamber of Commerce, he became a full-time Assistant Professor. During more than 20 years, thousands of students in elementary economics benefitted from the stimulating teaching enriched by Professor Botte's government and business experience.

Professor Botte was active in the community and professional organizations, including the American Economics Association and the American Statistical Association. But above all he was a loyal friend and supporter of The Ohio State University as an active member of the Alumni Association, the Presidents Club, and the Faculty Club.

On behalf of the University, the Board of Trustees expresses to the family, its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Richard W. Deeds

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 7, 1981, of Dr. Richard W. Deeds, Professor Emeritus in the College of Dentistry.

February 5, 1982 meeting, Board of Trustees

**RESOLUTIONS IN MEMORIAM (contd)**

Richard W. Deeds (contd)

Dr. Deeds received his D.D.S. degree from The Ohio State University in 1929.

After graduation from The Ohio State University College of Dentistry, Dr. Deeds practiced in Portsmouth until he joined the faculty in 1944 and maintained a very successful private practice in Upper Arlington. He retired in 1970.

Dr. Deeds was a member of Sigma Pi Fraternity, Psi Omega Dental Fraternity and Omicron Kappa Upsilon. He was on the Advisory Committee of Psi Omega Alumni Association and House Committee. He was a member of the Columbus Dental Society, The Ohio State University Alumni Association, the Ohio Dental Association and the American Dental Association.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

R. Richard Howard

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 6, 1982, of R. Richard Howard, Associate Professor Emeritus, Cooperative Extension Service.

Mr. Howard was born in Shiloh, Richland County, Ohio, on March 17, 1920. He attended high school there then earned a B.S.Agr. degree in 1942 and a M.A. degree in 1962 from The Ohio State University.

In 1946 he joined the Extension Service as an Associate County Agent in Summit County. In 1950 he became County Extension Agent and later became a Marketing Agent, serving for two years in the Akron-Youngstown area. Dick joined the state Extension faculty as Radio Editor in 1960, a position he held until his retirement on January 31, 1976.

Dick was widely known for his keen wit and subtle humor and was a popular MC at meetings.

On behalf of the University community, the Board of Trustees expresses to the family of Mr. Howard its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as sincere appreciation of the Board's realization of the loss that the family, University, and his many friends and associates have sustained.

**RESOLUTIONS IN MEMORIAM (contd)**

Dale Allen Ray

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 22, 1981, of Dale Allen Ray, Professor and Assistant Chairman, Department of Agronomy.

Dr. Ray graduated with a B.S. degree from Purdue University in 1947; Master's degree from Purdue University in 1949. He received his Ph.D. degree in agronomy in 1952 from North Carolina State.

He was Assistant Professor of Agronomy and Genetics at West Virginia University, Morgantown, West Virginia, from 1952 to 1956. He came to The Ohio State University on July 1, 1956. At Ohio State, he taught grain crops courses, did oat and barley research plus various administrative duties.

He was a World War II Veteran, E.T.O. decorated, Combat Infantry Badge.

While at Purdue University, he was a member of the Purdue University Glee Club.

Organizations which Dr. Ray belonged to were: Alpha Gamma Rho Fraternity, Alpha Zeta, Kappa Delta Pi, Gamma Sigma Delta, American Society of Agronomy, American Society of Genetics, Ohio State Faculty Club, Ohio State Open Court, OSU Bowling League-Agronomy Department Team. In all of these organizations, he at one time held officer status.

In 1969, he was awarded outstanding faculty award in agronomy, selected by students. He was a long-time based member of Ohio Seed Improvement Association and Foundation Seeds of Croton, Ohio. He was a member of Morgantown, West Virginia, Masonic Lodge No. 4.

Dr. Ray was a dedicated and highly respected educator and administrator. He was well known and respected among his peers and served the University in a commendable fashion.

On behalf of the University community, the Board of Trustees expresses to the family its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family. This is done in sincere appreciation of the Board's realization of the loss which the family, the University and his many friends and associates have sustained.

Hoyt L. Sherman

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 29, 1981, of Hoyt L. Sherman, Professor Emeritus in the College of the Arts.

Professor Sherman first joined the faculty in 1928 as an Instructor in the School of Art. When he retired in 1974, Professor Sherman had established an international reputation as one of the great researchers and teachers in visual arts.

February 5, 1982 meeting, Board of Trustees

### RESOLUTIONS IN MEMORIAM (contd)

Hoyt L. Sherman (contd)

In collaboration with colleagues in optometry, psychology and education, Professor Sherman developed the Flash Laboratory for the teaching of drawing and the Visual Demonstration Center on this campus. Besides developing innovative teaching programs in art, he also worked with architecture and dentistry students and with the varsity football and basketball teams.

He was the author of three books and several articles on operational theories of art. In his retirement, Professor Sherman continued his active research in color perception and was working on an analytical book of Rembrandt's drawings.

During World War II, he served as a consultant to the U. S. Navy and contributed significant research to the development of the Armed Forces Aircraft Recognition Program. In 1945-46 Professor Sherman received the Howald Scholarship, and in 1962 he was awarded the University Distinguished Teaching Award.

Professor Sherman was born in Lafayette, Alabama, on November 7, 1903. After graduating from high school in Bessemer, Alabama, he enrolled at The Ohio State University College of Engineering in 1921 as an electrical engineering student. After transferring to architecture, he found his true vocation in art. The School of Art awarded him the Bachelor of Fine Arts degree in 1926.

On behalf of the University, the Board of Trustees wishes to express to his family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

Robert James Wherry, Sr.

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 13, 1981, of Robert James Wherry, Sr., Professor Emeritus, Department of Psychology.

Professor Wherry was born in Middletown, Ohio, on May 16, 1904. He earned the Bachelor's degree in 1925, the Master's degree in 1927, and the Ph.D. degree in 1929, all at The Ohio State University. He served on the faculty of Cumberland University from 1929 to 1937 and of the University of North Carolina from 1937 to 1948. He was Professor of Psychology at The Ohio State University from 1948 to 1975. Between 1960 and 1970, he served as Chairman of the Department of Psychology at Ohio State. In 1944, during World War II, he served as Chief of Research in the Office of the Secretary of War.

Professor Wherry was internationally renowned for his invention of a number of statistical methods, his many significant research papers, and his consultation to industry and government. He had been a member of the American Psychological Association, the Psychonomic Society, Sigma Xi honorary society, and was a member of the editorial board of *Personnel Psychology*.

February 5, 1982 meeting, Board of Trustees

**RESOLUTIONS IN MEMORIAM (contd)**

Robert James Wherry, Sr. (contd)

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Mohammed Yaqub

The Board of Trustees of The Ohio State University expresses its sorrow upon the death, on December 29, 1981, of Mohammed Yaqub, Professor in the Department of Physics.

Professor Yaqub received his Ph.D. degree from Oxford University in 1957. He held post-doctoral fellowships at London University, Washington University, and MIT before joining the OSU Department of Physics in 1965. He became a Professor of Physics in 1968.

Professor Yaqub carried out research in solid state physics. His interests centered on the electrical properties of metals at very low temperatures. He is the author of more than thirty papers in scientific journals.

On behalf of the University, the Board of Trustees expresses to his family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

**ESTABLISHMENT OF "THE ARTHUR E. SHEPARD  
ENDOWED PROFESSORSHIP IN INSURANCE" (contd)**

WHEREAS the annual income is to be used for the endowment of a professorship in the College of Administrative Science for the teaching and promotion of insurance; and

WHEREAS the Board of Trustees in Resolution No. 80-101 established "The Arthur E. Shepard Designated Professorship in Insurance" with the provision that at such time as sufficient funds were made available the faculty position would be converted to an "Endowed Professorship"; and

WHEREAS appropriate funding has been received for the establishment of an Endowed Professorship in Insurance; and

WHEREAS should the need for this faculty position cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for insurance education:

NOW THEREFORE

BE IT RESOLVED, That "The Arthur E. Shepard Endowed Professorship in Insurance" be established in accordance with the wishes of the donor.

Upon motion of Mr. Havens, seconded by Mr. Hilliker, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

**ADDITION OF NEW RULE AND AMENDMENTS TO  
RULES OF THE UNIVERSITY FACULTY**

Resolution No. 82-63

*Synopsis: Addition of new rule 3335-3-172 and amendments to rules 3335-7-14, 3335-7-26, 3335-7-27, and 3335-7-28 of Rules of the University Faculty are presented for adoption.*

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of new rules and amendments to *Rules of the University Faculty* as approved by the University Senate; and

WHEREAS the proposed changes in *Rules of the University Faculty* were approved by the University Senate on January 9, 1982, as follows:

**NEW RULE**

3335-3-172 Dean of student life.

- (A) The dean of student life shall have responsibility and authority for the administration of non-academic programs and support services dealing with the general welfare of students.

**ADDITION OF NEW RULE AND AMENDMENTS TO  
RULES OF THE UNIVERSITY FACULTY (contd)**

3335-3-172 Dean of student life. (contd)

- (B) Without limiting the generality of the foregoing, the dean of student life shall, under the direction of the vice president for student services, have the responsibility and authority for administering the office of student life, including budgeting, staffing, and planning for all office of student life functions. The responsibilities of this office include coordination of campus-wide activities, women's services, student judicial programs, the activities office (including student organizations, student government, and student activity auditing), Greek affairs, off-campus student center, cultural and ethnic programming for minority students, and student life research.
- (C) The usual method of communication between the dean of student life and the president or the board of trustees shall be through the vice president for student services. (B/T 2/5/82)

**AMENDED RULES**

3335-7-14 Approval of student schedules.

The deans or secretaries of the several colleges and schools, and of the graduate school, shall approve the quarterly schedule of classes of students in their colleges and schools (or graduate school) but the assignment to hours and all changes in such assignment shall be made by the office of registration, records and scheduling.

3335-7-26 Point-hour ratio.

- (B) When determining the point-hour ratio of a student:
  - (1) For a quarter, the "applicable number of credit hours" shall be the student's scheduled credit hours in that quarter.
  - (2) For the student's work in the university, the "applicable number of credit hours" shall be the total number of credit hours undertaken in the university except as modified by paragraph (A) (2) of rule 3335-7-271 of the Administrative Code.
  - (3) For the student's work in the graduate school or in a professional college or school or professional division of a college, the "applicable number of credit hours" shall be the total number of credit hours undertaken in the graduate school or in the professional college or school or professional division of a college.
  - (4) For the student's work in the major field of interest, the "applicable number of credit hours" shall be the total number of credit hours undertaken in courses approved for the major program.

**ADDITION OF NEW RULE AND AMENDMENTS TO  
RULES OF THE UNIVERSITY FACULTY (contd)**

**3335-7-27 Failure in a required course.**

- (A) An undergraduate or professional student who has not been dismissed from the university must repeat in a regularly scheduled class, at the first opportunity, a required course in which a mark of "E" has been received, unless an equivalent course is recommended and approved by the authorized representative of the dean or director of the student's enrollment unit.
- (B) A graduate student who has not been dismissed from the university must repeat in a regularly scheduled class a required course in which a mark of "E" has been received only if this is required by the student's adviser.

**3335-7-28 Repetition of courses.**

- (A) Except as specified by rule 3335-7-27 of the Administrative Code, undergraduate students who have received a mark of "E" or "NP" in a course at this university may repeat the course for credit at their option.
- (B) Undergraduate or professional students, as defined in rule 3335-9-01 of the Administrative Code, who have received a mark of "D+" or "D" in a course at this university may repeat the course for credit only upon the recommendation of the authorized representative of the dean or director of their enrollment unit.
- (C) Undergraduate or professional students, as defined in rule 3335-9-01 of the Administrative Code, who have received a mark of "A," "A-," "B+," "B," "B-," "C+," "C," "C-," or "PA" in a course at this university or elsewhere may repeat the course only as auditors, in accordance with rule 3335-7-29 of the Administrative Code.
- (D) A graduate student, as defined in rule 3335-9-01 of the Administrative Code, may repeat for credit any course when approval is given by the student's adviser.
- (E) A student who has audited a course may subsequently repeat the course for credit only upon receiving permission of the authorized representative of the dean or director of the student's enrollment unit.
- (F) The credit hours for a repeated course shall in no case be counted more than once in meeting graduation requirements. When a student repeats a course, both grades appear on the student's record and both are used in computing the point-hour ratio, except as modified by rule 3335-7-271 of the Administrative Code.

February 5, 1982 meeting, Board of Trustees

**ADDITION OF NEW RULE AND AMENDMENTS TO  
RULES OF THE UNIVERSITY FACULTY (contd)**

NOW THEREFORE

BE IT RESOLVED, That the foregoing new rule and amendments to existing *Rules of the University Faculty* be adopted by the Board of Trustees for implementation and incorporation in the Administrative Code.

Upon motion of Dr. Jacob, seconded by Mr. Immke, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

**\$134,000.00** - Department of the Navy, Office of Naval Research, Arlington, Virginia, "Resonant Structure NCTR" (Non-Cooperative Target Recognition), Department of Electrical Engineering, ElectroScience Laboratory (J. D. Young), 1 October 1981 through 15 January 1982. (Project 762920 - New)

**\$133,578.00** - Department of the Navy, Naval Training Equipment Center, Orlando, Florida, OSU/Microde Development for CIG, Department of Art Education (C. A. Csuri) and Department of Computer and Information Science (F. C. Crow), 30 June 1982 through 28 June 1983. (Project 762746 - Continuation)

**\$116,740.00** - Department of the Navy, Office of Naval Research, Arlington, Virginia, Increasing Productivity Through Social Structure, Department of Psychology (B. Latane), 1 October 1981 through 30 September 1982. (Project 762439 - Continuation)

**\$98,159.00** - Department of the Air Force, Office of Scientific Research, Bolling Air Force Base, D. C., Chemical Carcinogen (Hydrazine, Polynuclear Hydrocarbon and/or Synthetic Jet Fuel Components) Induced Carcinogenesis of Human Cells, *in Vitro*, Department of Physiological Chemistry (G. E. Milo), 1 October 1981 through 30 June 1982. (Project 762178 - Continuation)

**\$89,995.00** - Department of the Army, Army Research Office, Research Triangle Park, North Carolina, The Effects of Atmospheric Water Vapor on Infrared Propagation, Department of Electrical Engineering, ElectroScience Laboratory (E. Damon and R. Long), 1 December 1981 through 30 November 1982. (Project 762674 - Continuation)

**\$87,009.00** - Department of the Air Force, Office of Scientific Research, Bolling Air Force Base, D. C., Chemical and Molecular Biological Aspects of Alkylhydrazine-Induced Carcinogenesis in Human Cells *in Vitro*, College of Pharmacy (D. Witiak), 1 October 1981 through 30 June 1982. (Project 762177 - Continuation)

**\$69,943.00** - Department of the Air Force, Office of Scientific Research, Bolling Air Force Base, D. C., Molecular Interactions of High Energy Fuels and Jet Fuels with Oncogenic Viruses and Endogenous Viruses, Department of Veterinary Pathobiology (J. Blakeslee), 1 October 1981 through 30 June 1982. (Project 762179 - Continuation)

**\$64,985.00** - Department of the Navy, Naval Air Systems Command, Washington, D. C., Research on Near Field Pattern Effects, Department of Electrical Engineering, ElectroScience Laboratory (W. D. Burnside), 1 October 1981 through 30 September 1982. (Project 762922 - Continuation)

February 5, 1982 meeting, Board of Trustees

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)**

**THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)**

**Federal Research Contracts/Grants (contd)**

\$63,314.00 - Department of the Air Force, Office of Scientific Research, Bolling Air Force Base, D. C., Immune Dysfunctions and Abrogation of the Inflammatory Response by Environmental Chemicals, Department of Veterinary Pathobiology (R. G. Olsen), 1 October 1981 through 30 June 1982. (Project 761657 - Continuation)

\$60,000.00 - Department of the Air Force, Aeronautical Systems Division (AFSC), Wright-Patterson Air Force Base, Ohio, Supercritical Airfoil Wind Tunnel Flutter Research, Department of Aeronautical and Astronautical Engineering (J. D. Lee), 1 October 1981 through 30 September 1982. (Project 762832 - Continuation)

\$52,497.00 - Department of the Army, Army Research Office, Research Triangle Park, North Carolina, Microstrip Analysis Techniques, Department of Electrical Engineering, ElectroScience Laboratory (E. H. Newman), 1 November 1981 through 31 October 1982. (Project 762478 - Continuation)

\$50,000.00 - Department of the Air Force, Aeronautical Systems Division (AFSC), Wright-Patterson Air Force Base, Ohio, Kinetic-Elastic Approach for Time-Dependent Rheological Data, Department of Chemical Engineering (R. S. Brodkey), 1 October 1981 through 24 March 1982. (Project 762084 - Continuation)

\$50,000.00 - Department of the Army, Army Research Office, Research Triangle Park, North Carolina, Coherent Electromagnetic Wave Propagation and Scattering in Random Media, Department of Engineering Mechanics (V. K. Varadan and V. V. Varadan), 16 November 1981 through 15 November 1982. (Project 762930 - New)

\$45,466.00 - National Science Foundation, Washington, D. C., Geometry of Banach Spaces, Department of Mathematics (W. B. Johnson), 1 October 1981 through 30 September 1982. (Project 761663 - Continuation)

\$42,991.00 - Department of the Navy, Office of Naval Research, Arlington, Virginia, Research on the Kinetics of Phase Changes on Solids, Department of Metallurgical Engineering (J. P. Hirth), 15 December 1981 through 14 December 1982. (Project 760222 - Continuation)

\$40,319.00 - Department of the Air Force, Aeronautical Systems Division (AFSC), Wright-Patterson Air Force Base, Ohio, A Study of the Buckling, Postbuckling Behavior and Vibrations of Laminated Composite Panels, Department of Engineering Mechanics (A. W. Leissa), 1 October 1981 through 30 September 1982. (Project 762513 - Continuation)

February 5, 1982 meeting, Board of Trustees

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)**

**THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)**

**Federal Research Contracts/Grants (contd)**

\$33,392.00 - Defense Mapping Agency, Hydrographic/Topographic Center, Washington, D. C., Research Related to Inertial Surveying Systems, Department of Geodetic Science and Surveying (I. I. Mueller), 1 October 1981 through 30 September 1982. (Project 761793 - Continuation)

\$31,409.00 - Department of the Air Force, Aeronautical Systems Division (AFSC), Wright-Patterson Air Force Base, Ohio, Data Processing of Radar Measurements, Department of Electrical Engineering, ElectroScience Laboratory (A. A. Ksienski, E. K. Walton, and R. Caldecott), 1 May 1981 through 1 January 1982. (Project 762649 - Continuation)

\$30,000.00 - Department of the Air Force, Aeronautical Systems Division (AFSC), Wright-Patterson Air Force Base, Ohio, Changes in the Organ of Hearing Produced by Sound, Department of Otolaryngology (D. J. Lim and W. Melnick), 1 October 1981 through 30 September 1982. (Project 762072 - Continuation)

\$26,500.00 - Department of the Navy, Naval Regional Contracting Office, Long Beach, California, Formulate Quasi-Optical Techniques for Antennas at UHF, Department of Electrical Engineering, ElectroScience Laboratory (C. H. Walter, R. J. Marhefka, and R. C. Rudduck), 13 August 1981 through 31 July 1982. (Project 761784 - Continuation)

\$23,992.00 - Department of the Air Force, Aeronautical Systems Division (AFSC), Wright-Patterson Air Force Base, Ohio, Improved Modeling with Injury Prediction Capability of Human Shoulder Complex, Department of Engineering Mechanics (A. Engin), 1 October 1981 through 15 May 1982. (Project 762205 - Continuation)

\$18,750.00 - Department of the Air Force, Aeronautical Systems Division (AFSC), Wright-Patterson Air Force Base, Ohio, Conduct Exploratory Development on Millimeter Wave (MMW) Systems Using the Target Systems Characterization Facility (TSCF), Department of Electrical Engineering, ElectroScience Laboratory (C. A. Levis), 1 October 1981 through 31 March 1982. (Project 762615 - Continuation)

\$11,859.00 - National Aeronautics and Space Administration, Langley Research Center, Hampton, Virginia, A Summary and Integration of Research Concerning Single Pilot IFR Operational Problems, Department of Aviation (G. S. Weislogel), 1 January 1982 through 31 August 1982. (Project 762941 - New)

\$10,265.00 - Department of the Navy, Naval Research Laboratory, Washington, D. C., On the Feasibility of Extending the T-Matrix Approach to Study Scattering of Acoustic Waves by Finite Cylindrical Shells at Higher Frequencies, Department of Engineering Mechanics (V. K. Varadan and V. V. Varadan), 1 September 1981 through 31 January 1982. (Project 762839 - New)

February 5, 1982 meeting, Board of Trustees

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)**

**THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)**

**Federal Research Contracts/Grants (contd)**

\$9,793.90 - Agency for International Development, American Embassy, Honduras Mission, Tegucigalpa, Honduras, An Evaluation of Women's Access to Credit in the Rural Honduran Economy, Department of Agricultural Economics and Rural Sociology (D. H. Graham and D. H. Boyne), 1 September 1981 through 20 December 1981. (Project 762927 - New)

\$8,750.00 - Department of the Army, Army Research Office, Research Triangle Park, North Carolina, International Symposium on Molecular Spectroscopy, Department of Physics (K. N. Rao), 1 December 1981 through 30 November 1982. (Project 761955 - Continuation)

\$8,320.00 - National Endowment for the Humanities, Washington, D. C., Ohio Boeotia Expedition, Department of History (T. E. Gregory), 1 April 1980 through 31 October 1981. (Project 762851 - New)

\$5,100.00 - Department of Energy, Chicago Operations Office, Argonne, Illinois, Kinetics of Fast Reactions of Excited Species, Department of Chemistry (R. F. Firestone), 1 December 1981 through 30 November 1982. (Project 760022 - Continuation)

**TOTAL - FEDERAL RESEARCH CONTRACTS/GRANTS** **\$1,417,126.90**

**State of Ohio Research Contracts/Grants**

\$10,828.00 - State of Ohio, Department of Education, Columbus, Ohio, Summer Food Service Program, Office of Minority Affairs (R. T. McDonald), 28 June 1981 through 8 August 1981. (Project 762792 - New)

\$8,000.00 - State of Ohio, Department of Natural Resources, Division of Soil and Water Districts, Columbus, Ohio, Lake Erie Basin - Accelerated Conservation Tillage Project, Cooperative Extension Service - Field Operations (T. L. Jones), 1 October 1981 through 30 November 1982. (Project 762943 - New)

**TOTAL - STATE OF OHIO RESEARCH CONTRACTS/GRANTS** **\$ 18,828.00**

**Industrial, Private, and Other Non-Federal Research Contracts/Grants**

\$258,988.00 - The Procter & Gamble Company, Cincinnati, Ohio, Clinical Investigation of a Non-Perfumed Pantiliner and a Perfumed Pantiliner, Department of Obstetrics and Gynecology (R. C. Bump and F. P. Zuspan), 1 November 1981 through 31 October 1982. (Project 762931 - New)

February 5, 1982 meeting, Board of Trustees

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)**

**THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)**

**Industrial, Private, and Other Non-Federal Research Contracts/Grants (contd)**

\$150,000.00 - University of California - Davis, Davis, California, Intensive Forage Production Systems for Smallholder Sheep and Goat Producers, International Programs in Agriculture (H. D. Bauman) and Department of Agronomy (R. W. VanKeuren), 1 October 1981 through 30 September 1982. (Project 761949 - Continuation)

\$120,661.00 - Electric Power Research Institute, Palo Alto, California, Mechanism of Intergranular Corrosion of Inconel 600 Tubing in PWR Steam Generators, Department of Metallurgical Engineering (D. D. Macdonald), 29 October 1981 through 31 December 1982. (Project 762932 - New)

\$42,000.00 - Diamond Shamrock Corporation, Painesville, Ohio, The Metallurgy and Electrochemistry of the Aluminum Anode, Department of Metallurgical Engineering (D. D. Macdonald), 1 January 1982 through 31 December 1982. (Project 762942 - New)

\$25,298.00 - Battelle Memorial Institute Foundation, Columbus, Ohio, Assessment of Degraded Piping by the Tearing Instability Fracture Mechanics Method, Department of Engineering Mechanics (C. Popelar), 1 October 1981 through 1 September 1982. (Project 762929 - New)

\$20,000.00 - Illuminating Engineering Research Institute, New York, New York, Studies of Visual Performance and Illumination, Institute for Research in Vision (H. R. Blackwell), 1 July 1981 through 30 June 1982. (Project 760716 - Continuation)

\$16,932.00 - Philip Morris Research Center, Richmond, Virginia, Effects of Nicotine on Learning and Memory, Department of Psychology (G. G. Berntson), 1 September 1981 through 31 August 1982. (Project 760715 - Continuation)

\$13,371.00 - Boehringer, Ingelheim, Ltd., Ridgefield, Connecticut, Analysis of Dipyridamole in Plasma, Department of Veterinary Clinical Sciences (R. Sams), 1 November 1981 through 15 January 1982. (Project 762928 - New)

\$12,500.00 - Boeing Aerospace Company, Seattle, Washington, MX Physical Security System, Department of Electrical Engineering, ElectroScience Laboratory (J. Young, D. Moffatt, and J. Richmond), 1 October 1981 through 31 December 1981. (Project 762606 - Continuation)

\$12,000.00 - American Heart Association, Central Ohio Heart Chapter, Inc., Columbus, Ohio, Effect of Platelet Factors in Lymphocyte Function, Department of Medical Microbiology and Immunology (C. Prakash) and Department of Pharmacology (G. A. Teiwani), 1 November 1981 through 30 October 1982. (Project 762934 - New)

February 5, 1982 meeting, Board of Trustees

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)**

**THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)**

**Industrial, Private, and Other Non-Federal Research Contracts/Grants (contd)**

\$11,587.00 - Electric Power Research Institute, Palo Alto, California, Corrosion and Corrosion Cracking for Water Cooled Reactors, Department of Metallurgical Engineering (D. D. Macdonald), 20 November 1981 through 31 December 1981. (Project 760982 - Continuation)

\$11,533.00 - Battelle Memorial Institute, Columbus, Ohio, Alumina Tooth Implantation in Human Subjects, College of Dentistry - Crown and Bridge (R. H. Downes) 16 October 1981 through 15 October 1982. (Project 762936 - Continuation)

\$9,370.00 - Muscular Dystrophy Association, New York, New York, Carrier Detection Studies in Duchenne Muscular Dystrophy Families Participating in MDA Drug Protocol, Department of Medicine (J. R. Mendell), 20 October 1981 through 31 December 1982. (Project 762494 - Continuation)

\$7,568.00 - Burroughs Wellcome Company, Research Triangle Park, North Carolina, Clinical Evaluation of Cinromide Inad 2230, Department of Veterinary Clinical Sciences (W. R. Fenner), 15 November 1981 through 14 November 1982. (Project 762937 - New)

\$6,775.00 - The Prudential Insurance Company of America, Newark, New Jersey, Behavior Modelling Training Films, Department of Psychology (M. D. Hakel), 1 November 1981 through 31 December 1981. (Project 762933 - New)

\$4,000.00 - Caldwell Community College and Technical Institute, Hudson, North Carolina and Linn-Benton Community College, Albany, Oregon, National Alliance of Postsecondary Education Institutions/Districts, The National Center for Research in Vocational Education (R. E. Taylor), 1 July 1981 through 30 June 1982. (Project 761599 - Continuation)

\$3,950.00 - SME Manufacturing Engineering Education Foundation, Dearborn, Michigan, Equipment Request for Industrial and Systems Engineering Computer and Control Laboratory, Department of Industrial and Systems Engineering (R. S. Ahluwalia), 9 November 1981 through 8 November 1982. (Project 762940 - New)

\$1,000.00 - Cessna Aircraft Company, Pawnee Division, Wichita, Kansas, General Aviation/Airfoil Design and Analysis Service - Airfoil Modification Study, Department of Aeronautical and Astronautical Engineering (G. M. Gregorek), 3 November 1981 through 31 December 1981. (Project 762547 - Continuation)

\$1,000.00 - Dumbarton Oaks, Washington, D. C., Ohio Boeotia Expedition, Department of History (T. E. Gregory), 1 April 1980 through 31 October 1981. (Project 762938 - New)

\$262.00 - La Secretaria del Trabajo y Prevision Social de los Estados Unidos Mexicanos through Unidad Coordinadora del Empleo Capacitacion y Adiestramiento (UCECA), Mexico City, D. F., Republic of Mexico, UCECA Planning Project, The National Center for Research in Vocational Education (R. E. Taylor), 15 September 1981 through 15 December 1981. (Project 762919 - Continuation)

**TOTAL - INDUSTRIAL, PRIVATE, AND OTHER NON-FEDERAL RESEARCH CONTRACTS/GRANTS** **\$ 728,795.00**

**ENGINEERING EXPERIMENT STATION**

**Industrial and Other Sponsored Research and Development**

\$101,881.00 - various sponsors for 51 development projects under the direction of five engineering college departments and research areas.

**THE OHIO STATE UNIVERSITY DEVELOPMENT FUND**

**Gifts of \$5,000 or More**

\$185,657.35 - Estate Under the Will of Dr. Fred A. Hitchcock, Columbus, Ohio, for Fred A. Hitchcock Professorship in Environmental Physiology Fund.

\$38,200.00 - The Leo Yassenoff Foundation, Columbus, Ohio--\$25,000.00 for The Leo Yassenoff Chair of Jewish Philosophy; \$1,000.00 for Journalism Director's Special Fund; \$1,000.00 for College of Administrative Science Fund; \$1,000.00 for Dean's Discretionary Fund for Biological Sciences; \$1,000.00 for Humanities Support Fund; \$1,000.00 for Social and Behavioral Sciences Support Fund; \$1,000.00 for College of the Arts Support Fund; \$1,000.00 for Arts and Sciences Vice Provost Discretionary Fund; \$1,000.00 for College of Agriculture and Home Economics Dean's Discretionary Fund; \$1,000.00 for College of Mathematical and Physical Sciences Dean's Emergency Fund; \$1,000.00 for Pharmacy Fund; \$1,000.00 for College of Social Work Emergency Fund; \$1,000.00 for College of Engineering Special Fund; \$500.00 for College of Law Student Financial Aid Fund; \$500.00 for College of Law Advancement Fund; and \$200.00 for Yassenoff Polar Studies Fund.

\$37,500.00 - Shell Companies Foundation, Inc., Houston, Texas--\$7,500.00 for Shell Companies Foundation Fund for Chemical Engineering; \$7,500.00 for Shell Companies Foundation Fund for Metallurgical Engineering; \$7,500.00 for Shell Graduate Aid for Computer and Information Science in Engineering; \$7,500.00 for Shell Companies Foundation Fund for Electrical Engineering; and \$7,500.00 for Shell Companies Foundation Fund for Chemistry.

**THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)**

**Gifts of \$5,000 or More (contd)**

\$24,000.00 - Mr. and Mrs. Howard E. LeFevre, Newark, Ohio (3,000 shares of Capitol Corporation stock), for Howard E. and Catharine Bonner LeFevre Fund.

\$20,000.00 - Mansfield University Foundation, Mansfield, Ohio, for Mansfield Campus Scholarship Fund.

\$15,400.00 - Trust Under the Will of Anna Roessler, Columbus, Ohio, for Samuel J. Roessler Memorial Fund.

\$15,000.00 - Needham, Harper & Steers, New York, New York, for WOSU Support Fund.

\$15,000.00 - SCOA Foundation, Inc., Columbus, Ohio, for Joseph S. Platt-Porter, Wright, Morris & Arthur Professorship in Law Fund.

\$14,770.00 - General Motors Corporation, Warren, Ohio, for General Motors Corporation Scholarship Fund.

\$13,943.33 - Wyeth Labs, Philadelphia, Pennsylvania--\$8,250.00 for Cancer Research Center Fund and \$5,693.33 for Menopausal Patient Follow-up Project.

\$12,660.00 - Amoco Foundation, Inc., Chicago, Illinois, for Amoco Foundation, Inc., Fellowship in Chemistry.

\$11,808.22 - University Eye Surgeons, Inc., Columbus, Ohio, for Eye Bank Fund.

\$10,000.00 - Exxon Education Foundation, New York, New York, for Exxon Fellowship in Metallurgical Engineering.

\$10,000.00 - Brad Marks Productions, Inc., Los Angeles, California, for Cheerleaders Scholarship Fund.

\$9,200.00 - Eastman Kodak Company, Rochester, New York--\$2,000.00 for Eastman Kodak Scholarship in Industrial Engineering; \$1,500.00 for Eastman Kodak Scholarship in Chemical Engineering; \$1,500.00 for Eastman Kodak Scholarship in Electrical Engineering; \$1,500.00 for Eastman Kodak Scholarship in Mechanical Engineering; \$900.00 for ISE Advancement Fund; \$600.00 for I. G. Brenner Fund for Engineering; \$600.00 for Department of Chemical Engineering Support Fund; and \$600.00 for Electrical Engineering Chairman's Discretionary Fund.

\$8,864.90 - Griffith Foundation for Insurance Education, Columbus, Ohio, for Charles W. Griffith Memorial Fund.

**THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)**

Gifts of \$5,000 or More (contd)

\$8,790.96 - Reproductive Research and Education Association, Columbus, Ohio (given in the names of George Johnson, M.D., Richard Bump, M.D., Belinda Bryan, Chad Friedman, M.D., Mary L. Summer, A. Huneke, M.D., John Michael Williams, Yong Pak, M.D., and William Rigsby, M.D.), for EPR-OBS Fund.

\$8,334.00 - H. J. Heinz Company Foundation, Pittsburgh, Pennsylvania, for Endowed Professorship in Plant Protection.

\$8,000.00 - Phillips Petroleum Foundation, Inc., Bartlesville, Oklahoma, for Phillips Petroleum Company Fellowship Fund.

\$8,000.00 - The Standard Oil Company, Cleveland, Ohio, for Sohio Fellowship in Chemistry.

\$6,255.45 - Lyman J. Strong, Lima, Ohio, undesignated.

\$6,000.00 - The American Society for Nondestructive Testing, Inc., Columbus, Ohio, for The American Society for Nondestructive Testing Fellowship Fund.

\$6,000.00 - Cravat Coal Company, Cadiz, Ohio, for Ohio 4-H Foundation Support Fund.

\$5,000.00 - Alcoa Foundation, Pittsburgh, Pennsylvania, for Advanced Design Methods Laboratory--Mechanical Engineering.

\$5,000.00 - Gannett Newspaper Foundation, Rochester, New York, for Journalism Director's Special Fund.

\$5,000.00 - Petersen Manufacturing Company, Inc., DeWitt, Nebraska, for Robert E. Oscar Professorship in International Business.

\$5,000.00 - Estate Under the Will of Carl W. Rodewig, Wheeling, West Virginia, for College of Pharmacy Advancement Fund.

Gift-in-Kind

\$12,500.00 - Paul Fekula, Elmhurst, New York, a 1488 Bohemian Bible.

### THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Funds

#### Dr. Howard Dexter Brown Scholarship Fund

The Dr. Howard Dexter Brown Scholarship Fund was established February 5, 1982, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from the Estate of Elsie Beulah Brown, Worthington, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide a scholarship(s) to assist a student(s) in the field of food technology in the Department of Horticulture of the College of Agriculture and Home Economics. The designation of the recipient(s) is to be based on the recommendation of the Dean of the College of Agriculture and Home Economics in cooperation with the appropriate academic unit. The Dean shall also approve expenditures of this scholarship fund. In the event that the scholarship is unused, the annual income shall be added to the principal of the scholarship fund.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official who is then responsible for food technology education at the University.

#### The W. Arthur Cullman Symposium Fund

The W. Arthur Cullman Symposium Fund was established February 5, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from family and friends of Dr. W. Arthur Cullman in honor of his outstanding teaching and research as a member of the marketing faculty for 35 years.

Gifts to this fund are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

**Establishment of Named Funds (contd)**

**The W. Arthur Cullman Symposium Fund (contd)**

The annual income is to be used by the College of Administrative Science to support expenses of periodic symposia which will attract nationally prominent scholars and practitioners in the field of business policy and strategy.

Should the need for this fund cease to exist or so diminish as to provide unused income, the income may be used for any other purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the College of Administrative Science.

**The Irving Abramowitz Memorial Professorship Fund**

The Irving Abramowitz Memorial Professorship Fund was established February 5, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the family and friends of Irving Abramowitz of San Rafael, California.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide support for the work of a distinguished teacher, researcher and scholar in business policy and ethics in the business policy faculty area of the College of Administrative Science. Appointment to the Abramowitz Professorship will be recommended by the Dean of the College of Administrative Science to the President and approved by the Board of Trustees.

Should the need for this faculty position cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for management education.

It is the intention of the donors of the fund to establish either a chair when the fund reaches \$750,000 or a professorship when the fund reaches \$250,000. All income and future gifts from the fund shall be added to principal until the determination is made by members of the Abramowitz family.

**The Jimmie L. Huitt, Jr., Fund**

The Jimmie L. Huitt, Jr., Fund was established February 5, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Mr. Jimmie L. Huitt, Jr., '72.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income from the principal is to be used to support scholarship and honors among the students in the College of Administrative Science at the discretion of the Dean of the College of Administrative Science.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then responsible for curricula in administrative science.

**Robert E. Oscar Professorship in International Business Fund**

The Robert E. Oscar Professorship in International Business Fund was established February 5, 1982, by the Board of Trustees of The Ohio State University with a bequest to The Ohio State University Development Fund from Robert E. Oscar, B.S.Bus. Adm. '38, of Chicago, Illinois.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income from this endowment is to be added to the principal until this amount, along with additional gifts and bequests, is sufficient to establish the professorship. At the time when the professorship is fully funded, the annual income is to be used to provide salary and program support for the work of a distinguished scholar and teacher in international business. Appointment to the Oscar Professorship will be recommended by the Dean of the College of Administrative Science to the President and approved by the Board of Trustees.

In the event that sufficient funds are not available to establish the professorship, the amount accumulated is to be used for the purpose of establishing the Robert E. Oscar Scholarship in International Business. The annual income is to be used for students who are majoring in international business and who have demonstrated academic ability and need for financial

assistance. The selection of the recipient is to be made upon the recommendation of the University Scholarship Committee in cooperation with the Dean of the College of Administrative Science.

Should the need for this professorship (or scholarship) cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for international business education.

**The J. Norman Staiger/OSU Men's Glee Club Memorial Scholarship**

The J. Norman Staiger/OSU Men's Glee Club Memorial Scholarship was established February 5, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from friends and members of the OSU Men's Glee Club in memory of J. Norman Staiger, M.A. '58, Professor Emeritus of voice and Director of the club for more than a quarter of a century.

These gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be awarded to one or more talented undergraduate students who have successfully completed at least one year as members of the Men's Glee Club. Recipients will be determined by the established procedures within the School of Music, with final approval by the Director of the Men's Glee Club and the Director of the School of Music.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to (1) vocal students and/or (2) music majors recommended by the appropriate administrative official of the University responsible for music education.

**Roy E. and Zelma L. Roeder Memorial Fund**

The Roy E. and Zelma L. Roeder Memorial Fund was established February 5, 1982, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Mr. Eugene M. and Mrs. Marjorie L. (Roeder) White. The fund honors the memory of Roy E. and Zelma L. Roeder, parents of Mrs. White.

The original gifts and all subsequent gifts to this fund are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used in support of programs in business and/or music at The Ohio State University at Lima. A portion of the income will be awarded annually as the "Roy and Zelma Roeder Award" to the outstanding student(s) in music and business. Recipient(s) of the award will be selected by the dean and director or his designee. The remainder of the income will be used to benefit the music and/or business programs on the Lima Campus. All expenditures must be approved by the dean and director in consultation with the vice president for regional campuses.

Should the need for this fund cease to exist or so diminish as to provide unused income, the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to the recommendations of the vice president for regional campuses in consultation with the administrators of the Lima Campus.

**The Elizabeth Kiss Amstutz Scholarship Fund**

The Elizabeth Kiss Amstutz Scholarship Fund was established February 5, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Daniel G. Amstutz, B.S.Bus.Adm. '54.

All gifts are to be invested in the University's Permanent Endowment, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide scholarships for one or more talented undergraduate or graduate students in the College of Humanities. Recipients will be determined by the established procedures within the college with final approval by the dean, who will also approve requisitions for payment.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for curricula in the College of Humanities.

All gifts are to be invested in the University's Permanent Endowment, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide scholarships for one or more students in the College of Engineering. The selection of the recipient(s) shall be made by the University Committee on Student Financial Aids with recommendations from the dean of the College of Engineering.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for curricula in the College of Engineering.

**The Loudenslager Scholarship Fund**

The Loudenslager Scholarship Fund was established February 5, 1982, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Mr. and Mrs. Forest D. Loudenslager, Marion, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest or reinvest as occasion dictates.

The annual income is to be used to provide one or more scholarships awarded annually to deserving students of merit who are entering The Ohio State University at Marion, Ohio, and who express an interest in pursuing study leading to a degree awarded by the College of Agriculture and Home Economics. The selection of the recipient is to be made upon the recommendation of The Ohio State University Marion Campus Scholarship Committee in consultation with the Vice President for Regional Campuses and Dean of University College. Consideration shall be limited to students who are residents of Marion or Wyandot or Crawford or Morrow or Delaware or Union or Hardin County, Ohio.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official who is then responsible for agricultural scholarships.

**Change in Name and Description of Named Fund**

**From:** William H. Davis Scholarship Fund for Basic Medical Research  
**To:** William H. Davis Endowment for Basic Medical Research

This Fund was established February 6, 1981, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from William H. Davis, B.S.Bus.Adm. '26, of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to support basic research in medicine to provide one or more scholarships to young scientists who have shown an interest in academic medicine as a career. All recipients should have an M.D. degree and should have had at least three years of training in research or in a graduate discipline. Income from the Fund will pay for expenses other than for the salaries of the researchers, provided that, if more than four researchers are employed at any one time and if income from the Fund is then sufficient, it may be used for salaries of researchers in excess of four individuals. During the first two years of the Fund's operation, the income should be equally divided between the Department of Surgery and the Department of Medicine. Thereafter, the division of funds will be determined by the Advisory Board.

There shall be an annual deadline for the submission of applications to become "Davis Scholars." Prospective scholars may be nominated by any faculty member in the Departments of Medicine or Surgery. The selection of research projects and the appointment of "Davis Scholars" will be made upon the recommendation of the Dean of the College of Medicine and Vice President for Health Sciences, in cooperation with an Advisory Board named by the Vice President for Health Sciences and whose members will include three (3) from within the University and two (2) non-physician representatives from outside the University, for a total of five. The members from the community-at-large should be individuals of considerable accomplishment in their respective fields, whether that be business, law, journalism or any other profession. Dorothy M. Davis and William C. Davis shall be members of the Advisory Board during their lifetimes or as long as they wish to serve, and in the event the service of either should terminate, the replacement shall be an individual who is qualified as stated above and who is nominated for this purpose by William H. Davis by letter or by will. All expenditures shall be approved by the Dean of the College of Medicine and the Chairman of the department from which the scholar is selected and/or from which the research project originated.

Any income resulting from the research provided by the Fund will be added to and maintained as part of the principal of the Fund in accordance with University policies on copyrights and patents. "Davis Scholars" may accept temporary assignments at other institutions to further their research, in accordance with the personnel policies of the University, but should return to Ohio State for a minimum of two years to teach and/or continue their research efforts.

**PLANS AND SPECIFICATIONS**

Resolution No. 82-69

*Synopsis: Plans and specifications are being proposed for the following project.*

WHEREAS at the request of the Vice President for Business and Administration, the President recommended that the Board of Trustees approve the plans and specifications, bills of materials, and estimates of cost for the following project:

**NATIONAL ENERGY CONSERVATION POLICY ACT (NECPA)  
TITLE III PROGRAM - CYCLE II**

**McCRACKEN POWER PLANT - DESUPERHEATERS  
AND PIPING INSULATION RETROFIT - ECM-3**

**Project:** Installation of a desuperheater in the Power Plant to reduce temperature of steam distribution through the system, and to also install additional insulation on piping in selected areas in the five-mile tunnel system to further reduce heat losses; these modifications will substantially save dollars in energy costs and will have a two-and-one-half-year payback.

**Funding:** Federal Grant, Ohio Board of Regents, University Funds (B/A 885147)

**Estimated Project Cost:** \$518,604.00

**NOW THEREFORE**

BE IT RESOLVED, That the plans and specifications, bills of materials, and estimates of cost for the project listed above be approved and that the President and/or Vice President for Business and Administration be authorized to sign the plans and specifications for this project and in accordance with established University procedures, to request construction

**PLANS AND SPECIFICATIONS**

Resolution No. 82-70

*Synopsis: Plans and specifications are being proposed for the following projects.*

WHEREAS at the request of the Vice President for Business and Administration, the President recommended that the Board of Trustees approve the plans and specifications, bills of materials, and estimates of cost for the following projects:

**GAS LINE PROTECTION**

**Project:** Installation of protection on OSU gas distribution lines to reduce the rate of deterioration and extend the life of the system. It will include the installation of electric isolators to insulate and sectionalize pipes. Cathodic protection will be installed to decrease the rate of corrosion.

**Funding:** Amended Substitute House Bill 552 (Utilities and Renovation)

**Estimated Project Cost:** \$150,000.00

The estimates of cost for the following projects for parking lot maintenance have been increased from amounts originally approved by the Board on April 3, 1981. The initial approval included only projects for the fiscal year 1981; these revised projects have been expanded to include work not completed in 1981, plus work planned for 1982. The type of work remains the same.

**SALE OF PROPERTY - 111.508 ACRES IN PLEASANT TOWNSHIP,  
FRANKLIN COUNTY, OHIO (HENDERSON FARM)**

Resolution No. 82-72

*Synopsis: Sale of the University's interest in 111.508 acres of the Henderson Farm in Pleasant Township of Franklin County is proposed.*

WHEREAS pursuant to the Last Will and Testament of Dr. Roger C. Henderson, this Board acquired an undivided one-half interest in a certain approximately 228.61-acre tract of real property (known as the Henderson Farm) located in Pleasant Township, Franklin County, Ohio, which real property is more particularly described in the Certificate of Transfer issued by the Greene County, Ohio, Probate Court on February 24, 1981, and recorded in Official Records Volume 626, pages C09 through C11, both inclusive, Recorder's Office, Franklin County, Ohio; and

WHEREAS on March 2, 1981, Margery W. Henderson, as grantor, and the Treasurer of The Ohio State University, as Trustee, entered into a Charitable Remainder Annuity Trust Agreement pursuant to which Margery W. Henderson gave, assigned, and conveyed to the Treasurer the remaining undivided one-half interest in the Henderson Farm (together with other personal property described in the Trust Agreement); and

WHEREAS the Board of Park Commissioners of the Columbus and Franklin County Metropolitan Park District has submitted an offer to purchase a 111.508-acre portion of the Henderson Farm for \$228,591.40; and

The meeting of the Board of Trustees reconvened at 1:30 p.m.

President Jennings:

Mr. Chairman, at the last Board meeting some good discussion developed regarding our dormitory system. I have today requested Mr. Bill Hall to provide this Board with a general overview of The Ohio State University's Dormitory System. Mr. Hall is our Director of Residence and Dining Halls.

#### **REPORT - THE OHIO STATE UNIVERSITY DORMITORY SYSTEM**

Mr. William Hall:

Mr. Chairman, Members of the Board: I would like to present you a member of my staff that will do the overview, and the reason that I picked this individual he represents, I think, the tip of the iceberg in terms of the professionalism that exists within the Residence Hall System. Mr. Roger Meyer has over 20 years of experience in the system and has virtually worked in every functional area within the system.

Mr. Roger Meyer:

Thank you. Starting our presentation out this afternoon concerning the Residence and Dining Halls at The Ohio State University, we thought this picture of University Hall might be quite appropriate because for many people this building--University Hall--stands as a strong symbol of what the University means to them. We need to think back but a relatively few years ago when it was necessary for the University to tear down the original building to make way for the building that now stands and remember what some of the outcry was from the public and various of the alumni. Very honestly University Hall stands as a strong symbol for us in Residence and Dining Halls as well, in terms of the kind of relationship that has existed for a great many years. History tells us, for example, that in 1873 when University Hall was initially constructed and opened, that there was an area set aside on the first floor for the housing of students. History tells us that the rooms were created there by the mere hanging of curtains as room dividers. There was an area set aside for the preparation of meals and Professor Mendenhall was selected as the Head Resident and lived there in this facility with his wife and with his son. So from the very early beginning, the residential concept has been one that has been intertwined with the University in meeting its broad mission, and it's a kind of relationship that has continued to flourish over the years until the present time--today--when we find provided throughout the University campus a variety of Residence and Dining Halls facilities.

March 5, 1982 meeting, Board of Trustees

**REPORT - THE OHIO STATE UNIVERSITY DORMITORY SYSTEM (contd)**

Mr. Roger Meyer: (contd)

On the north edge of campus, for example, between Lane Avenue and Woodruff Avenue, there is a North Area of residence halls. On the south edge of campus, between 12th Avenue and 11th Avenue, we have the South Area residence halls. Then just northwest of the central campus is Buckeye Village which is our family housing unit. Then along the Olentangy River we have the Olentangy Area of residence halls which consists of Lincoln Tower, Morrill Tower, and Stadium Scholarship Dormitory in the Stadium, which was an item on the Board agenda at the last meeting.

Then just east of High Street there are a few homes that we operate as co-op scholarship units there as well. In all of these facilities the University accommodates about 11,500 students; and they consist of graduate students, professional students, undergraduate students, international students, scholars, of course, married students living in Buckeye Village. And in accommodating this variety of students, obviously we have got a variety of relationships and programs that exist within the University.

Accommodating graduate students, for example, we do have a relationship with the Graduate School. With the undergraduate colleges, there is a variety of relationships that we have with respect to some of the special programs that we have in the residence halls. For example, we have the Honors Residential Center which is located in Taylor Tower in the North Residence Halls Area and that particular program is tied in with the Colleges of the Arts and Sciences. There we accommodate about 400 students. Men and women students are eligible for that program. They need to be honors students--Grey Austin and Jack Cooley in the Honors Program Office in the Colleges of Arts and Sciences have for years worked with that program, selecting the students eligible to live there and trying to accommodate and provide as much faculty interaction with that program, trying to provide as many enrichment experiences as possible in this Honors Residential Center. As a matter of fact, for the next year we are looking at the possibility of expanding that program even beyond the 400 spaces that currently exist.

We have the Engineering Residential Centers tied in with the College of Engineering. Those are located in Houck House in the North Area, as well as in Morrill Tower in the Olentangy Area. That is a program that has been in existence for a number of years, has received excellent support from the College of Engineering, and it is an opportunity for faculty to come into the residence halls there where we provide computer terminals; they work with students on the computer equipment there--faculty come in to talk to students about the nature of the engineering profession, and generally it has attempted to encourage a great deal of student and faculty interaction there.

Women in Health Sciences is a program that we have offered in Mack and Canfield Halls in the South Area Residence Halls, as well as in Lincoln Tower in the Olentangy Area.

March 5, 1982 meeting, Board of Trustees

**REPORT - THE OHIO STATE UNIVERSITY DORMITORY SYSTEM (contd)**

Mr. Roger Meyer: (contd)

With the College of Agriculture, Home Economics, and Natural Resources, we have had a very long standing program existing in Norton and Scott Houses in the North Residence Halls. There, Ray Miller and Ted Darrow have been principals who have once again been responsible for selecting students, for providing continuous support for that program, and generally insuring its success. Roy Kottman was up here just a little bit ago, and he happens to be a very strong supporter of that program as well, and involves himself and spends a portion of his time with that program.

The Multicultural Center is our newest program in residence halls. It has been started this year, and it is located in Blackburn and Haverfield Houses in the North Area, and as the name might suggest, it is a program opportunity for students who may be interested in learning more about cultural differences and cultural similarities to participate in that program.

Olentangy Area programs are located in Lincoln and Morrill Towers, and it is a type of program that is a support program. Students, by and large, who participate in that program submit to some testing. Some test instruments are sent to them at their homes. The results of those tests can be used then in terms of completing their specific assignments with roommates, assignments with other students in an academic--of a like academic interest, or assignment of students in areas of special interest other than academic considerations. This program is aimed primarily at freshmen students who are enrolled in University College, and it tries to anticipate the concerns, the interests, the problems that students may have in moving from the high school experience to the University experience.

We have had a couple of very fine spinoffs from that program. There are some indications that are coming back to us of its success. We find, for example, those students indicating that they feel a better sense of belonging as they participate in that program in these Towers. With that improved sense of belonging comes a tighter community feeling, and there are some payoffs there in terms of--there are some indications that there is less damage to the public areas--a little bit more ownership to the facility and to the community there. With the smoke detector system that we just recently installed and we will have a few comments on in a little bit, we have noticed some excellent staff support and student support in that facility. So some of the attitudinal concerns we kind of think that we are getting at and turning around just a bit. As a matter of fact, we appreciate some of the comments we have been receiving, too, of improved intellectual development, some indications of that as well. So we are very interested in continuing these programs here.

The last listed here is the Cooperative Scholarship Housing Program, which as indicated earlier, is in the Stadium Scholarship Dormitory. It is our oldest residence hall program. As a matter of fact, the alumni in that unit are getting ready to celebrate the 50th year since the start of that program. This facility is unique,

March 5, 1982 meeting, Board of Trustees

## REPORT - THE OHIO STATE UNIVERSITY DORMITORY SYSTEM (contd)

Mr. Roger Meyer: (contd)

too, in terms of the fact that it does have an alumni organization. This is a facility that accommodates about 360 students. It is a unique community, there is a unique fabric to it and there is a very close sense of identity with that program which obviously continues then into the years after the University experience with the alumni organization as it exists. There are two criteria that students must meet on a continuing basis to be eligible to live there. One is they must maintain themselves scholastically in the upper 25 percent of their respective college class (that's on a continuous basis). The other aspect is the criterion of financial need. They must meet financial need criteria on an ongoing basis there as well. So we are very pleased about that program and its very long life at the University here.

Well, in addition to these more formally structured programs there is a variety of programming activity that goes on beyond these formal kinds of relationships. Our professional staff in the residence halls that we have provided are working continuously, working with student leadership, and providing a wide range of program interest for students in the residence halls. That range could be from working with student development programs in individual halls to involving students in administrative policy review and administrative policy formulation. In the dining commons, it can range from providing theme dinners or special event dinners, to providing nutrition and nutrition education programs, weight control programs, and so on.

We provide 'how to study' sessions in the residence halls to improve study skills, and also set aside areas for students to study as well as quiet areas for students to live. We have sessions regarding energy conservation, trying to develop that consciousness about conserving resources, as well as having education programs with respect to the smoke detector system that has been installed. We are counseling with students regarding their personal concerns, as well as counseling with students regarding their academic, their career, and their vocational concerns. So a myriad of activities is being conducted in the halls. The professional staff, working with the student services staff and their resources, and working with faculty and staff of the University to bring them into the residence halls. The facilities that we are talking about permitting us to do these programs--there is another point I want to make--these are the kinds of things that we do during the academic year in the residence halls.

During the summer months when the University's enrollment takes a bit of a dip, so does our occupancy within residence halls, and it is at that time after we have accommodated the students that require Summer Quarter housing that we make our facilities available for other aspects of the University who may be able to benefit from them. For example, in University College, the University's Orientation Program is administered for those students attending that new student orientation program; we accommodate them in Morrill Tower. We also accommodate there during the summer months the parents who attend the University's Parent Orientation Program. Remaining facilities that are not utilized or needed

March 5, 1982 meeting, Board of Trustees

**REPORT - THE OHIO STATE UNIVERSITY DORMITORY SYSTEM (contd)**

Mr. Roger Meyer: (contd)

during the summer months for Summer Quarter housing are offered through the Office of Continuing Education to various of the administrative and academic units of the University that are interested in conducting special meetings, special programs, conferences, and so on during the summer months. So what we are trying to do is to keep our facilities in as much service as possible to the entire University community.

The facilities that we are talking about are 72 structures and for the most part they consist of residence halls for undergraduate and graduate students. They consist of the family living units in Buckeye Village, our dining and kitchen facilities provided in the North, South, and Olentangy Areas (incidentally furnish about 4.3 million meals per year). And then completing the 72 buildings we have several support facilities that are in our complex as well. These units were constructed by the University and opened between the years 1908 when Mack Hall was brought on line to 1969 when Jones Tower, our graduate facility, was opened. All of these facilities together comprise about 3.1 million square feet and the replacement value of those facilities has been calculated at \$163 million, and I might add that is in 1981 dollars.

Completing that scenario just a bit, we operate on a current annual budget of about \$27 million. We employ about 560 classified civil service employees, about 38 professional staff, and provide employment opportunities for about 1,200 students and we do this kind of with the idea in mind that it is a financial aid type of opportunity for students to participate in, and help defray some of their costs of attending the University. Our concern--the Office of Residence and Dining Halls was established by the University in order to administer these facilities and there were four chief responsibilities given to that office, one of which is the educational programs that we have already discussed here briefly. Another has to do with the office operating these facilities on a self-support basis, trying to keep the fees just at the lowest level possible. A third responsibility is that of while operating the residence halls on a self-support basis, we operate them in such a way, too, that we repay the bondholders on proper schedule. The final responsibility, or the fourth responsibility, is that of administering the physical plant on a current basis, as well as on a future basis, appreciating that there are needs that the facilities will be having for the future to maintain them in service. In that regard, with an eye toward the future, we had just completed a study of our facilities--25-year look into the future--to see what might be involved in maintaining them in service to the University. We enjoined a firm--Alden E. Stilson & Associates--for the purpose of conducting that study, and they have completed it, they have given us the results, and we are studying them now trying to develop the program that is most appropriate to follow through on that.

In closing this brief overview, we thought it might be appropriate to leave with you a few of today's immediate challenges that we find ourselves involved in, and we find ourselves expending our energies on. Capital improvements requirements I have just mentioned in terms of the facility review that we just had

March 5, 1982 meeting, Board of Trustees

**REPORT - THE OHIO STATE UNIVERSITY DORMITORY SYSTEM (contd)**

Mr. Roger Meyers: (contd)

completed. We learned that in the 25-year frame that our costs might be about \$92 million in 1981 dollars that we might have to develop programs in order to maintain the facilities in proper service. Narrowing that down just a bit, we could look at say the next five years of that 25-year period, and there we are looking at a cost of \$22.5 for the program that has been outlined for us. We have a real challenge there in trying to meet that program because we have very limited accumulated reserves within the residence halls, and we know that we are in no position to approach the State Controlling Board for funds, nor are we in a position to approach the University for appropriated monies, so it is definitely an immediate challenge to determine how it is that we are going to develop the funding to meet that capital improvement program.

Well, another aspect that has our energies consumed right now is that of budgeting for the fiscal year 1982-83 and doing that budgeting in such a way that once again we are going to be able to provide services at the lowest possible fees, and we may have to be adjusting some service levels in residence halls this year with some of the other factors that need to be recognized. The budgeting is also going to be done, and is being done, in terms of recognizing the assigned indirect administrative overhead charges and then also the budgeting is being done with an eye toward developing, setting aside more in the way of capital reserves to help meet these capital improvement requirements here. Well, these are some of the challenges that we are working with on a day-to-day basis, but it is very definitely with the idea in mind that what we are trying to do is maintain the education programs, the educational dimensions, the educational support that is appropriate for the University's students as they live in residence halls and that are appropriate for the University's very broad mission, and as a matter of fact we feel that we have been trying to be about for these many years here.

Mr. William Hall:

While I have the Board's attention, I would like to comment on one specific aspect of the Residence Hall program and that is the Board authorized, approximately two years ago, the expenditure of funds for the early warning or smoke detector system that we installed in the Residence Halls, and I would like to give the Board just a brief update of the success that we have had with that program. The brief report before you will indicate the substantial reduction in nuisance alarms, if you will, that we have had within the system which ultimately has increased the safety that we do provide to the residents. From our initial design of this project, it was our hope that we would, when we completed the installation, have a system that was first of all manageable; and one that we would operate with a minimum of cost; but you will note before you that we have installed approximately 7,000 sensing devices in the residence hall system. And the uniqueness of our system is that we no longer, for example, evacuate a 24-story high-rise building. It is now done in a zone evacuation basis. For example, if an alarm is

**REPORT - THE OHIO STATE UNIVERSITY DORMITORY SYSTEM (contd)**

Mr. William Hall: (contd)

sounded on the twenty-second floor, we will evacuate that floor and the floor above. It was a rather horrifying experience to evacuate 24 floors, for example, at three o'clock in the morning. I don't know if you have even seen that happen, but it was definitely a complicated procedure.

The other feature that we have in our high-rise buildings is that we have a fire command system whereas if the fire chief should come into that building he has immediate access to each and every floor in that building through a verbal communication system or he can give directions to students and staff as to where they can move throughout that building to stay away from smoke or fire. The other unique feature that we have in this system is that we have a staff alert system, whenever there is an alarm in the building that the residence hall staff immediately knows by monitoring central panels where that alarm is. A signal is sent to each resident advisor on that floor and they can check out that alarm. Immediately we will know whether it is a trouble alarm or an incident where smoke or fire exists where we call the fire department. But in essence we are most pleased with the system. It is very effective and we have enhanced the safety of our residence halls students tremendously on this campus. Thank you.

President Jennings:

Thank you Bill. I think as you can see we are awfully proud of our residence and dining halls system. Modestly, you folks have provided a good overview. I think it is important to recognize that in the University, in particular Ohio State, this is indeed a resident campus, and that the dormitory and food service activities are, we believe, there fundamentally for educational purposes--that the learning and living environment provided in the residence halls system is enormously important to the undergraduate and graduate education opportunities for the student. The students' classroom activities are critical but all the learning and teaching does not go on just in classrooms. The residence halls are an integral part of that, and I am frankly quite proud to see such a complete system.

As you can also see, the residence halls, like the entire University, is plagued with financial difficulties. The Stadium Dormitory issue is another example of some of the problems that get generated from a general lack of funding in this institution. While the residence halls are not generally supported by state appropriation, part of the problem, whether it is with the Stadium Dorm or any place else, is coming from the inadequate support of the General Assembly right now because we are having to call on the residence halls to do more of the academic activity than they have done in the past, and they are doing a great job on that but some of the effects are being seen in curtailment, particularly in capital activities. Thanks very much Bill.

## RESOLUTIONS IN MEMORIAM

Resolution No. 82-76

*Synopsis: Resolutions honoring the service of six of this University's faculty members who have recently died are being proposed.*

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Upon motion of Mr. Hilliker, seconded by Mr. Berry, the foregoing resolution was adopted by the Board of Trustees by a unanimous voice vote.

Malcolm M. Helper

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 1, 1981, of Malcolm M. Helper, Professor in the Departments of Pediatrics and Psychology.

Dr. Helper was born on March 27, 1928, in Henry, Illinois. Growing up in an intellectually stimulating family while living in an isolated rural setting left an indelible imprint on his character. Until the end he seemed more the homespun farmboy than the polished professional, his unassuming manner and his common touch being inbred. He viewed his numerous achievements with inner amusement and a touch of incredulity, since neither competitiveness nor self aggrandizement was in his nature.

Professor Helper has been the Acting Chief both of the Division of Psychology in the Department of Pediatrics and the Section on Child Development and Psychology of Columbus Children's Hospital since 1977. Prior to coming to The Ohio State University, he held positions at the University of Nebraska College of Medicine and the Nebraska Psychiatric Institute in Omaha.

Dr. Helper's brilliance was evidenced in all of his intellectual undertakings. He graduated from the University of Illinois in 1949 with University Honors and Phi Beta Kappa. Subsequently he published on a wide array of topics ranging from the acculturation of the American Indian adolescent to the effects of chlorpromazine on learning in emotionally disturbed children. His command of the literature and of research methodology was awesome. Ask him about almost any topic and he would be apt to come up not only with author and title but journal and date as well. His command of research design and statistics was equally impressive. But what no listing of publications can capture is Dr. Helper's priceless impersonality - that clear separation of intellect from ego which enables ideas to be evaluated on their merit alone.

Dr. Helper was a superb clinician. He had that rare ability of being aware of complexities and contingencies, yet of being simple and direct in discussing children and making recommendations. Moreover, in all of his dealings with troubled parents and children, his humanity was as deep as his insights were keen.

### RESOLUTIONS IN MEMORIAM (contd)

Malcolm M. Helper (contd)

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding at its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in their bereavement.

Alex Laurie

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 1, 1982, of Alex Laurie, Professor Emeritus, Department of Horticulture.

Dr. Laurie was born on May 23, 1892, in Bordeaux, France. He received a B.S. degree in horticulture from Cornell University in 1914 and a M.A. degree from Washington University in 1917. He was an Instructor at the University of Maine from 1914 to 1916 and was a horticulturist at the Missouri Botanical Gardens from 1916 to 1925. From 1925 to 1929 he was an Assistant Professor of Horticulture at Michigan State College. He came to The Ohio State University in 1929 as a Professor of Horticulture. He resigned from this position in 1952 after twenty-five years of dedicated service.

Among his many accomplishments were the establishment of two of the major florists organizations in existence today. He organized the Ohio Florists' Association in 1929 and served as the organization's Secretary/Treasurer from 1929 to 1952. In 1937 he organized Roses, Inc. and served as the Secretary/Treasurer of that organization until 1954.

Professor Laurie has received numerous awards: Hall of Fame of the Society of American Florists, Fellow of the American Society for Horticultural Science, Hall of Fame of the Florida Foliage Association, and Alex Laurie Award of the Society of American Florists.

Among the many organizations of which he was a member are The American Society for Horticultural Science (President, 1936), Sigma Xi, Pi Alpha Xi, Alpha Zeta, Phi Sigma, Pi Kappa Phi, and Gamma Sigma Delta.

Perhaps his most significant research contribution was the commercial application of the principle of photoperiodism whereby the flowering of many plants could be controlled by manipulating the length of day.

Professor Laurie was a dedicated and highly respected educator. He served as advisor to over five hundred floriculture students at The Ohio State University. Of these five hundred plus students, approximately one hundred obtained either a M.S. or Ph.D. degree under his advisorship.

On behalf of the University community, the Board of Trustees expresses to the family its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family. This is done in sincere appreciation of the Board's realization of the loss which the family, the University, and his many friends and associates have sustained.

## RESOLUTIONS IN MEMORIAM (contd)

Wilford L. L'Esperance III

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 3, 1982, of Wilford L. L'Esperance III, Professor, Department of Economics in the College of Social and Behavioral Sciences.

Dr. L'Esperance was born in New York, New York, on December 9, 1930. He received a B.A. degree from Columbia in 1951, the M.S. degree from the Graduate School of Business, Columbia University, in 1952, and the Ph.D. degree in Economics from the University of Michigan in 1963.

Dr. L'Esperance joined the economics faculty of The Ohio State University in 1963 as an Assistant Professor, having previously held positions at the University of Michigan and Indiana University, Fort Wayne, Indiana. He served from 1953 to 1955 as a mathematical analyst with the U. S. Army's Missile Development Division at Huntsville, Alabama, as well as a marketing research analyst for General Electric Company from 1955 to 1960. He was promoted to Associate Professor at OSU in 1966 and to Professor in 1970.

Nationally recognized as an authority on state and regional econometric models, L'Esperance was the founder in 1973, and president until 1979, of Midwest Econometrics, Inc., a Columbus-based economic forecasting service owned by BancOhio Corporation. He was the first in the United States to develop a regional econometric model for Ohio to provide economic analyses and forecasts for the state, region and local governments.

Dr. L'Esperance was a very cultured man, deeply concerned with the preservation of Ohio's history, with the ethos of Central Ohio, and with the growth of Columbus. He was frequently consulted on matters of state and local economic development policy, testified before legislative committees, and was in demand as a speaker before civic associations and similar groups.

Since 1975 he served as a consultant to the Columbus Department of Development, worked on economic development plans for Central Ohio, and attracted substantial resources for improvement within the region. Mayor Tom Moody appointed him to the Technical Advisory Group of the Mayor's Economic Development Council and to the Columbus Energy Council. Characteristically, his last efforts were focused on a bill in the state legislature for the establishment of a state-wide center to promote business and economic research and development.

Professor L'Esperance authored numerous journal articles and research monographs. His first textbook *Modern Statistics for Business and Economics* was widely used. His latest book *The Structure and Control of a State Economy* was published in 1981. He was instrumental in the establishment of the *Columbus Economic Review*, published by the City of Columbus. He was active in the American Economic Association, the American Statistical Association, the Regional Science Association and the Ohio Academy of Science.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding at its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

**RESOLUTIONS IN MEMORIAM (contd)**

Eleanor W. Lewis

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 24, 1981, of Eleanor W. Lewis, Associate Professor Emeritus in the School of Nursing.

Miss Lewis was born in Hawley, Minnesota, on January 25, 1901. She was orphaned during her early childhood. By the time she entered Colorado Springs High School, Colorado Springs, Colorado, she had gone to live with and work for a family from whom she learned much about the arts. After graduating from high school in 1918, she spent several years traveling with an ill daughter of the family with whom she lived. In 1922, she entered Radcliffe College and graduated from there in 1925, having earned an A.B. degree in romance languages. Wanting to dedicate her life to the service of others, Miss Lewis entered the second class to ever graduate in nursing from Yale University School of Nursing and graduated from there in 1928 with a Bachelor of Nursing degree.

In 1952, Miss Lewis earned a Master of Science degree with a major in Psychiatric/Mental Health Nursing from Yale University. In the interim between 1928 and 1952, Miss Lewis held a variety of positions in nursing in such institutions as the University of California School of Nursing; Grosslands Hospital School of Nursing (Valhalla, New York); Cornell University School of Nursing; Spring Grove State Hospital (Catonsville, Maryland); Institute of Living (Hartford, Connecticut); Payne Whitney Clinic, New York Hospital (New York City); Four Winds Sanatorium (Katonah, New York); New Haven Hospital (New Haven, Connecticut); Brooklyn Visiting Nurse Association (Brooklyn, New York).

In 1952 Miss Lewis accepted a dual position at The Ohio State University. She served as an associate professor at the graduate level in the School of Nursing, where she initiated the School's Master's level psychiatric nursing program. She also served as an associate director of nursing service at the Columbus Receiving Hospital (since renamed Upham Hall). She served in both these capacities until 1964 when she became a full-time member of the graduate faculty in the School of Nursing.

Miss Lewis spent much of her professional life upgrading the quality of nursing care available to psychiatric patients. She inspired those around her to reach for that which seemed just outside of their reach. Her unshakeable belief in and respect for those under her tutelage enabled them to mature professionally as well as personally. True to the developmental task of generativity, Miss Lewis was never too busy to lend support to younger colleagues when they were in need.

Miss Lewis' primary contribution to the profession of nursing was in the form of actively developing new generations of psychiatric/mental health practitioners. Today these practitioners - each carrying with them the wisdoms gained through association with an expert mentor - are scattered throughout the United States and abroad.

On behalf of the University, the Board of Trustees expresses to Mr. John C. Binger its sympathy and sense of understanding in his loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to him as a humble expression of the Board's heartfelt sympathy in his bereavement.

### RESOLUTIONS IN MEMORIAM (contd)

Will Rannells

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 3, 1982, of Will Rannells, Professor Emeritus in the Department of Industrial Design.

A native of Caldwell, Ohio, Professor Rannells graduated from the Art Academy of Cincinnati in 1920. He joined the faculty of The Ohio State University in 1926 and was Professor in Art for the School of Fine and Applied Arts for 35 years before retiring in 1961.

Professor Rannells was nationally known for his canine portraits. He designed covers and illustrations for national magazines, such as *Life*, *McCall's*, *Judge*, *Farm and Fireside*, and *Country Gentlemen*. His annual dog calendar, produced for the Buckeye Union Company for more than 40 years, was a favorite of dog fanciers. He became widely known when he illustrated Eldon Roark's book *Just a Mutt* in 1947. The model for two of the book's drawings was Rannells' Irish terrier, Ginger.

Professor Rannells also illustrated a number of children's books including *Waif*, *The Story of Spe*, *Animal Baby Knows*, *Jack, Jock and Funny*, *Timmy*, and *Animal Picture Story Book*.

Listed in *Who's Who in America* since 1928, he was selected for inclusion in *Who's Who in the World* in 1979. In 1977, he was honored by the Greater Columbus Arts Festival for his contributions to the cultural arts in Columbus.

Professor Rannells put his love for dogs into action through the Capital Area Humane Society. During his 60 years with the organization, he hunted dog poisoners, investigated cases of animal cruelty, advised owners on the care of dogs and served as champion of the animal population in Franklin County. He also served as the Society's President for several years and on its Board of Directors.

Professor Rannells donated his works to the OSU libraries where they will be exhibited April 4 - May 5, 1982, in the Skylight Room of the OSU Main Library.

On behalf of the University, the Board of Trustees wishes to express to his family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

John W. Riner

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 26, 1982, of John W. Riner, Professor and Vice-Chairman of the Department of Mathematics.

### RESOLUTIONS IN MEMORIAM (contd)

John W. Riner (contd)

Professor Riner was born in Kansas City, Missouri, on July 29, 1924. His collegiate education was interrupted by World War II; he served on the front lines in France both before and after receiving a Purple Heart as a U. S. Army Corporal. He completed his B.S. degree at Rockhurst College in 1947. The University of Notre Dame awarded him a M.S. degree in 1949 and a Ph.D. degree with the Mathematical specialty Topology in 1953.

Professor Riner held Assistant Professor of Mathematics positions at St. Peters College from 1953 to 1956 and at St. Louis University from 1956 to 1959. He joined the Mathematics Department at The Ohio State University in 1959 as an Assistant Professor, was promoted in 1963 to an Associate Professor, and was promoted in 1970 to Professor. He has served the Department of Mathematics as Vice-Chairman continuously since 1970.

Professor Riner pioneered the development of television instruction of Mathematics in the 1960's, allowing The Ohio State University to teach mathematics to 8,000 students with only 20 faculty during a time of expansion. He also led the Curriculum Revision in Mathematics at the Elementary Level (CRIMEL) program which gained national attention as an efficient means of providing individualized paced mathematics in a modular mode to large numbers of students. He gave several invited addresses to the National Council of Teachers of Mathematics and to the Mathematical Association of America on this CRIMEL program. Professor Riner developed a liberal arts mathematics course which was especially popular in the 1970's with humanities students. He also developed a remediation program to make our Mathematics program accessible to any conscientious OSU student, regardless of preparation.

During the summers of 1965 through 1974, Professor Riner directed the National Science Foundation Institute for High School Teachers at OSU. He had been the faculty advisor for many years of The Ohio State University Sports Car Club.

Professor Riner was presented the prestigious Rosalene Sedgwick Faculty Service Award by OSU's Colleges of Arts and Sciences in 1982. He authored or coauthored four textbooks for precalculus students or business students. He also published several articles. Professor Riner was a member of Sigma Xi and of the American Mathematical Society. He was listed in *American Men of Science*.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding at its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in their bereavement.

## THE OHIO STATE UNIVERSITY AIRPORT RULES

Resolution No. 82-79

*Synopsis: Adoption of rules governing the operation and use of the University Airport is recommended.*

WHEREAS The Ohio State University owns and operates an airport facility to further enhance the nationally renowned teaching, research and service missions of the Department of Aviation; and

WHEREAS the University Airport has served owners of small aircraft in general aviation for several decades and will continue to do so into the foreseeable future; and

WHEREAS the College of Engineering and the Department of Aviation have revised The Ohio State University Airport Rules to reflect to the users of the facility and to the surrounding community their commitment to the missions of the University, the college and the department; and

WHEREAS the Airport Advisory Council participated in the development of these rules, and the proposed revisions represent over two years of research and work in consultation with this Council as well as various constituent groups; and

WHEREAS revision of these policies and their codification as Rules of the Administrative Code are deemed necessary to ensure the safety of airport operations, regulate the use of airport facilities, and generally promote the efficient operation of the airport:

NOW THEREFORE

BE IT RESOLVED, That The Ohio State University Airport Rules be adopted by the Board of Trustees to become Rules 3335-105-01 through 3335-105-11 of the Ohio Administrative Code.

President Jennings:

Mr. Chairman, in the Educational Affairs Committee this morning it was recommended that the Airport rules, as recommended by myself, be adopted at this meeting. It would perhaps be appropriate if Mr. Thompson could review again the outline of those rules.

Mr. Thompson:

Thank you Mr. President. Mr. Chairman and Members of the Board: As I stated this morning-basically these rules that are proposed for adoption deal with the governance and operation of The Ohio State University Airport and deal with such matters as aircraft and flight operation, vehicles, safety and noise abatement. At the Airport we really do want to foster and encourage the use of The Ohio State University Airport and some of the revisions are necessary in the rules because of primarily four reasons:

March 5, 1982 meeting, Board of Trustees

**THE OHIO STATE UNIVERSITY AIRPORT RULES (contd)**

Mr. Thompson: (contd)

1. Current economic constraints on the University;
2. Concern by the community over some possible lack of control by the University over the Airport property;
3. A need to insure, because we are an educational institution, that flight instruction which is given on University premises be through our Flight Training Clinic, and if these rules are adopted, that we would attempt to implement them to accommodate all the users at the Airport; and
4. To reiterate a little more clearly, possibly, our proprietary, exclusive rights recognized under FAA policy.

The procedure that we have developed, as you heard this morning, was to meet with various constituencies who use the Airport, including the flying clubs, the corporate owners, the private aircraft based owners, as well as the State of Ohio. We have gotten a lot of their input. We have incorporated much of it into the rules and as we develop further our guidelines with respect to the Airport Manager, if these rules are adopted in the operation, we will look forward to working more closely with these groups.

President Jennings:

Thank you Mr. Thompson. Mr. Chairman, I would concur with the Committee's recommendation that these rules be adopted. I think it is important to point out that there are, as in many rules and regulations in an institution of this size, always differences of opinion and particularly differences of opinion in legal matters. I am satisfied that the process has operated here--I am also satisfied that we have in place now an ability to work through some guidelines to implement these rules so that any inconvenience will be minimized; indeed, I look forward to a good relationship with all the people using the Airport currently and those who might use it in the future. I think with the adoption of these rules, it will be very important for us to continue to work with the users of Don Scott Field to work out guidelines for implementation of these rules.

Upon motion of Dr. Jacob, seconded by Mr. Hilliker, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)**

**THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)**

**Establishment of Named Funds**

**The Robert D. Smith Electrical Engineering Fund**

The Robert D. Smith Electrical Engineering Fund was established March 5, 1982, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Robert D. Smith, B.S.E.E. '51 and M.S. '51, of Upland, California.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with right to invest and reinvest as occasion dictates.

The annual income is to be used for those purposes which will aid the research, teaching and service programs/facilities within the Department of Electrical Engineering in the College of Engineering. The Chairman of the Department of Electrical Engineering is authorized to invade the principal amount of the endowment if necessary. The Chairman of the Electrical Engineering Department will have sole authority to authorize expenditures from the Fund, as approved by the Dean of the College of Engineering.

Should the need for this Fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for electrical engineering education.

**The Frank J. Kloenne Memorial Orthopaedic Research Fund**

The Frank J. Kloenne Memorial Orthopaedic Research Fund was established March 5, 1982, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Mrs. Jacqueline Kay Kloenne in memory of her husband, Frank J. Kloenne, of Dublin, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used for orthopaedic research within the Division of Orthopaedic Surgery, Department of Surgery, College of Medicine. The Chairman of the Division of Orthopaedic Surgery, the Chairman of the Department of Surgery, and the Dean of the College of Medicine will have sole authority to authorize expenditures from the Fund.

Should the need for this Fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for orthopaedic research.

**Establishment of Named Funds**

**The William M. and Frances Smith Junk Endowed Fund**

The William M. and Frances Smith Junk Endowed Fund was established March 5, 1982, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from William M. and Frances Smith Junk of Washington Court House, Ohio.

The gift is to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be awarded to a physically disabled student enrolled at The Ohio State University and residing at the Creative Living Housing Facility, 445 West 8th Avenue, Columbus, Ohio. Recipients will be determined by the University Committee for Student Financial Aids and the University Office for Disability Services. Preference should be given to a student with demonstrated academic ability and with the greatest financial need.

If Creative Living, Inc., should cease to exist, the income may be awarded to any physically disabled student enrolled at The Ohio State University. Should the need for this fund cease to exist or so diminish as to provide unused income, the income may be used for any purpose whatsoever as determined by the Board of Trustees with preference being given to recommendations from the appropriate administrative official from Student Financial Aids and the Office for Disability Services.

**Susan D. Holdren Memorial Research Fund**

The Susan D. Holdren Memorial Research Fund was established March 5, 1982, by the Board of Trustees of The Ohio State University with gifts from her family and friends.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

Income from the fund must be used to support and advance Leukemia Research in the College of Medicine, Division of Hematology at The Ohio State University.

Should the need for these funds cease to exist, then the income may be used for any type of cancer research with preference being given to the recommendations of the Director of the Division of Hematology who is responsible for Leukemia Research.

**EMPLOYMENT OF ARCHITECT/ENGINEER AND  
REQUEST FOR CONSTRUCTION BIDS**

Resolution No. 82-82

**NEIL HALL, FIRE EXIT RENOVATIONS**

*Synopsis: Authorization to employ an architectural/engineering firm and request for construction bids is proposed.*

WHEREAS extensive investigations and engineering studies have revealed and confirmed numerous exit problems existing at Neil Hall; and

WHEREAS this project will provide for fire exit improvements for safety for the occupants of this area; and

WHEREAS \$120,000 has been provided by Residence and Dining Halls for this purpose:

NOW THEREFORE

BE IT RESOLVED, That the Vice President for Business and Administration be authorized to proceed to select a qualified architectural/engineering firm for this project from the lists of firms requested from and provided by the Department of Administrative Services; and that the fee for these architectural/engineering services be negotiated between the firm selected and the Department of Administrative Services, Division of Public Works; and

BE IT FURTHER RESOLVED, That the Vice President for Business and Administration be authorized to proceed to request construction bids on this project in accordance with established University procedures, and if satisfactory bids are received to recommend to the Department of Administrative Services, Division of Public Works, the award of contract, with all actions to be reported to this Board at the appropriate time.

Upon motion of Mr. Hilliker, seconded by Dr. Jacob, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

**ACCEPTANCE OF THE GIFT OF PROPERTY  
202 ACRES IN PLEASANT TOWNSHIP (KAGAY FARM)**

Resolution No. 82-84

*Synopsis: Acceptance of a farm of approximately 202 acres in Pleasant Township, Franklin County, Ohio, and establishment of an income-only unitrust are proposed.*

WHEREAS Edmund M. Kagay, who is the owner of a 202.729-acre farm at 3955 Georgesville-Wrightsville Road, Grove City, Ohio, wishes to make a gift of this property to the University, through the Development Fund, subject to assumption by the University of the mortgages on the property; and

WHEREAS a condition of this gift by Mr. Kagay is the establishment of an income-only unitrust under which the University will pay to Mr. Kagay an annuity, for so long as he shall live, of seven percent of the net amount realized from the sale of the property; and

WHEREAS it has been determined that the acceptance of this gift and the establishment of the income-only unitrust are in the best interests of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Vice President for Business and Administration be authorized to acquire title to the property in the name of the Board of Trustees of The Ohio State University and to sign and execute on behalf of the Board of Trustees the documents and instruments necessary to carry out the conditions of this gift.

Upon motion of Mr. Hilliker, seconded by Mr. Smith, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

## Commencement Speaker

---

### Daryle H. Busch

Daryle H. Busch, professor of chemistry, has been a faculty member since receiving his Ph.D. from the University of Illinois in 1954. He specializes in transition metal and bio-inorganic chemistry and has recently done ground-breaking work in synthetic iron chemistry. In 1980, he was honored as an outstanding teacher with the University's Alumni Award for Distinguished Teaching, and in 1981 received the Distinguished Research Award. His numerous other awards include the 1978 Dwyer Medal of the Chemical Society of New South Wales, Australia, and he is one of only three people to receive both of the American Chemical Society's awards in inorganic chemistry. He was elected a fellow of the American Association for the Advancement of Science in 1980 and currently serves on the editorial boards of several chemistry journals.

The University is proud to have so distinguished a faculty member address the graduates of the 279th Commencement.

## Recipients of Honors

---

### **W. Edwards Deming** Doctor of Science

In an era marked by increasing complexity, Dr. W. Edwards Deming is one of a handful of people who have made it possible for business, industry, and government to manage the tasks of industrial societies effectively. A highly sought-after and eminent statistician, Dr. Deming is known throughout the world for his contributions to the creation and use of statistics. His work in statistics helped make possible the United States' rapid mobilization during World War II as well as Japan's miraculous recovery in the post-war period. Japan has recognized his contribution to its remarkable economic growth by striking a medal in his honor. The W. Edwards Deming Medal is awarded to the company which has made the most significant advances in productivity and product quality. Dr. Deming has served as a consultant to many foreign governments and the United Nations and has lectured at universities in Europe and South America. Committed to a more productive and humane workplace, he has helped make possible higher living standards for people around the globe. The University is privileged to honor Dr. Deming for his pioneering work in statistics.

### **Ferdinand Fairfax Stone** Doctor of Humane Letters

Ohio State has a long tradition of academic excellence. This tradition is best demonstrated by its graduates and the contributions they have made to society and their professions. Ferdinand Stone is a shining example of this tradition. Dr. Stone is an internationally recognized authority on comparative law and the only living Rhodes Scholar from The Ohio State University. After completing his B.A. in English and his M.A. in political science at Ohio State, he attended Oxford in 1931 and from there went on to receive his doctoral degree in juristic science from Yale University. Awarded an honorary degree from the University of Grenoble by Charles DeGaulle, he was also named an honorary officer in the "Most Excellent Order of the British Empire" by Queen Elizabeth II. Dr. Stone has lectured at universities throughout Europe, authored four books—including the first textbook in French on American law—and has written over forty scholarly articles and other publications. The founder and first director of Tulane University's Institute of Comparative Law, he was Scholar in Residence at Tulane's Law School, where he taught for over forty years before retiring in 1979. Today, the University takes great pride in honoring one of its most distinguished graduates for his contributions to jurisprudence and comparative law.

**Barbara W. Tuchman**

Doctor of Humane Letters (presented  
in absentia)

The most widely known and generally respected non-academic historian in the United States, Barbara Tuchman has brought the drama, experience, and value of history to a wide audience. An internationally recognized writer, journalist, and advocate of humanistic values, Mrs. Tuchman is a living tribute to the value of a liberal education. She received her B.A. degree from Radcliffe College in 1933 and went on to pursue a journalistic and literary career. A prolific and versatile author, she has written nine books including two Pulitzer Prize winners, *The Guns of August* and *Stilwell and the American Experience in China, 1911-1945*. Over the last two and a half decades she has contributed regularly to a number of leading journals of opinion, including *American Heritage*, *Atlantic Monthly*, *Harper's*, and *the Nation*. Her articles, like her books, vary in subject matter, from medieval history to contemporary politics and culture. Mrs. Tuchman has long been a leader in American arts and letters and is a member of the Authors League of America and the Society of American Historians. She is a former president of the American Institute and Academy of Arts and Letters and a recipient of its prized Gold Medal. In bestowing this honor on Mrs. Tuchman, the University seeks to recognize and thank her for her many contributions to the arts and humanities.

**Robert C. Ringer**

Distinguished Service Award

For 35 years Robert C. Ringer provided a compassionate ear and a helping hand to the faculty and staff of this University. Many can recall his leadership of the University's Payroll Office. For nearly 20 years he guided it through periods of great growth and technical and administrative changes. Later, as a special assistant to the Vice President for Personnel Services, he continued to strive to improve the quality of an Ohio State University career. Instrumental in developing the Retirement Affairs section of Personnel Services, he added the personal touch to a program designed to help faculty and staff plan and process their retirements. On behalf of the many he has touched in such a positive and caring manner, his alma mater expresses its gratitude for a job well done.

The meeting of the Board of Trustees reconvened at 12:15 p.m. with Chester Devenow, Chairman, presiding.

### RESOLUTIONS IN MEMORIAM

Resolution.No. 82-87

*Synopsis: Resolutions honoring the service of two of this University's faculty members who have recently died are being proposed.*

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Upon motion of Mr. Smith, seconded by Mr. Havens, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Wallace E. Anderson

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 28, 1982, of Wallace E. Anderson, Associate Professor in the Department of Philosophy.

Professor Anderson was born in 1931 near Staples, Minnesota. He attended Macalester College and upon graduation in 1953 (cum laude), attended Chicago Theological Seminary for one year. He was married in 1954 and went on to the University of Minnesota where he received the M.A. in 1958 and Ph.D. in 1961. He taught at the University of Florida from 1958 to 1961, joining The Ohio State University's Department of Philosophy in 1961.

During his 21 years at Ohio State, Professor Anderson served on numerous department and University committees. He was especially committed to the development of our library resources and headed the department Library Committee for a number of years. He taught and published primarily in 17th and 18th century philosophy, and in American philosophy. His writing dealt with problems of metaphysics, perception, and the history and philosophy of science. He edited a volume of the Yale University Press edition of the works of Jonathon Edwards, contributing a number of lengthy and scholarly introductions to Edwards' scientific and philosophical writings.

Professor Anderson's research has been supported by the National Endowment for the Humanities, the Southern Fellowships Foundation, and The Ohio State University. He

belonged to a number of professional and public service organizations, including the American Philosophical Association, the Society for 18th Century Studies, the Columbus Area Civil Rights Council, the United Nations Organization, and groups which supported the musical and cultural institutions of Columbus.

On behalf of the University community, the Board of Trustees expresses to the family its deep sympathy and sense of understanding at its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy in their bereavement.

Mary Jane Loomis

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 8, 1981, of Mary Jane Loomis, Professor Emeritus in the Academic Faculty of Early and Middle Childhood Education.

Mary Jane Loomis was born in 1904 in New Philadelphia, Ohio. She attended Goucher College, Baltimore, Maryland, and received her B.S.Edu., M.A. and Ph.D. degrees at The Ohio State University. She taught several years in New Philadelphia, Ohio. She was an associate of the *Columbus Citizen* and taught at the School For the Handicapped Children in Columbus.

In 1936 she joined the faculty at the University School and College of Education at OSU and continued there until her retirement. She was a Professor Emeritus in Early and Middle Childhood Education.

While at OSU, she was an active member of the Association for Childhood Education International organization and served in various capacities. For many years, she contributed articles to the journal, *Childhood Education*, and served one term on the journal's editorial board. She also was a member of the Association for Supervision and Curriculum Development and contributed to the organization's magazine. She served on the association's Yearbook Committee that prepared the ASCD 1962 Yearbook, titled: *Perceiving, Behaving, Becoming: A New Focus for Education*. She received an award of merit for her years of service to the organizations.

She was a member of Pen Women in Ohio and received recognition for her book, *The Pre-adolescent*, published in 1959.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding at its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy in their bereavement.

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS**

Resolution No. 82-92

*Synopsis: The reports on contracts, grants, and gifts and the summary for February are presented for Board acceptance.*

WHEREAS monies are solicited and received on behalf of the University and the Ohio Agricultural Research and Development Center from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, the Ohio Agricultural Research and Development Center, and The Ohio State University Development Fund:

NOW THEREFORE

BE IT RESOLVED, That the research agreements between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station, the Ohio Agricultural Research and Development Center, and The Ohio State University Development Fund during the month of February 1982 be approved.

Upon motion of Mr. Hilliker, seconded by Mr. Smith, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

**Establishment of Named Funds**

**The Alec Parsons Scholarship in the College of Engineering**

The Alec Parsons Scholarship in the College of Engineering was established April 2, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from his parents, Dr. and Mrs. George Parsons, his sister, Heather and friends.

The gift is to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The income is to be used to establish a scholarship in the College of Engineering. The recipient should be a male Ohio resident who has been admitted to a branch of The Ohio State University College of Engineering. Preference would be to someone who shows financial need and demonstrated interest in human relations and potential service to others. This scholarship is limited to undergraduate students and the support would remain in effect through the recipients undergraduate years as long as all academic qualifications were maintained.

Should the need for this fund cease to exist or so diminish as to provide unused income, the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the College of Engineering.

**The Rudolf Kaelbling Memorial Research Fund in Psychiatry**

The Rudolf Kaelbling Memorial Research Fund in Psychiatry was established April 2, 1982, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Marianne Kaelbling in memory of her husband, Rudolf Kaelbling, M.D., M.S. '59, originator of the OSU Sleep Research Laboratory and Professor of Psychiatry at The Ohio State University, until his death, December 15, 1976.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide a stipend for one (or more) medical students each year (no one student to receive more than two stipends) to conduct a research project in the Department of Psychiatry. During the initial six years, preference shall be given, but not necessarily limited to, students wishing to do research on the topics of sleep and sleep disorders. In the absence of any suitable candidates for the stipend from among medical students, consideration can also be given to a resident or a student from a related discipline.

**The Rudolf Kaelbling Memorial Research Fund in Psychiatry (contd)**

The size of the stipend shall be at least 90 percent of the annual income. Any remainder shall be added to the principal. The selection of the recipient is to be made upon the recommendation of the Director of Sleep Disorders Clinic, in cooperation with the Chairman of the Department of Psychiatry and the Dean of the College of Medicine.

Should the need for funds for this purpose cease to exist or so diminish as to provide unused income, then the Chairman of the Department of Psychiatry, in cooperation with the Dean of the College of Medicine, shall have the right to designate an alternate use of the income that will be of benefit to the Department of Psychiatry.

**Endowed Program Fund in Cooperative Business Management**

The Endowed Program Fund in Cooperative Business Management was established April 2, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the Ohio Council of Farmer Cooperatives, its members, and friends of cooperatives throughout the State of Ohio and nationally.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide program support for the work of a distinguished scholar in the field of cooperative education and business management. Funds will be allocated by the chairperson of the Department of Agricultural Economics and Rural Sociology based upon recommendations of those within the department and the Cooperative Extension Service responsible for the program and an advisory committee comprised of members of the Ohio Council of Farmer Cooperatives Executive Committee. Until this fund reaches \$250,000 or three years have elapsed from the date the endowment is established, whichever occurs first, seventy-five percent of the interest earnings will be added to the principal. During this same period twenty-five percent may be used for program support.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the Chairperson of the Department of Agricultural Economics and Rural Sociology or from the appropriate administrative official of the University who is then responsible for study related to the field of cooperatives in the College of Agriculture and Home Economics.

Development Fund from John T. Eby, B.Sc.Bus.Adm. '62, and other friends of Vice President and Dean John T. Mount, B.S.Agr. '41.

All gifts are to be invested in the University's Permanent Endowment Fund under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to:

1. Identify undergraduate students who may be strong candidates for post-baccalaureate scholarships;
2. Alert these students to the opportunities provided by such scholarships;
3. Encourage qualified students in their pursuit of these awards;
4. Assist potential candidates to be successful recipients of available scholarships.

This fund shall be administered by the principal administrative officer of the Office of Academic Affairs.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees with preference being given to recommendations from the administrative official who is then directly responsible for the Office of Academic Affairs.

**The Buford M. and May Scott Teater Scholarship Fund**

The Buford M. and May Scott Teater Scholarship Fund was established April 2, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Robert W. Teater, M.S. '55, Ph.D. '57, family and friends in honor of Dr. Teater's parents, Buford M. and May Scott Teater.

All gifts are to be invested in the University's Permanent Endowment Fund under the rules and regulations adopted by the Board of Trustees, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide scholarship assistance for one or more undergraduate students enrolled in the School of Natural Resources. Selection of the recipient(s)

is to be made by the University Scholarship Committee upon the recommendation of the School of Natural Resources Scholarship Committee. Recipients will be selected on the basis of financial need, academic achievements and leadership potential. Should the need for student scholarship assistance in the School of Natural Resources cease to exist, the income from this fund may be used for any academic purpose as determined by the Director of the School of Natural Resources.

Should the School of Natural Resources cease to exist through any reorganization of the University, then the income may be used by the Board of Trustees with preference being given to the recommendations of the appropriate administrative official of the University who is then directly responsible for natural resource education.

**Change in Name and Description of Named Fund**

From: The Donald E. Demkee Dental Scholarship Fund  
To: The Dr. Donald E. Demkee Wayne-Holmes County Scholarship Fund

This Fund was established April 2, 1976, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Dr. Donald E. Demkee, D.D.S. '65, Wooster, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide scholarships to undergraduate students who are residents of Wayne County or Holmes County. Financial need may or may not be a consideration. Recommendations for students who qualify should be forwarded to the University Scholarship Committee for final selection in conjunction with the Dean of the intended recipient's chosen College.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate official on the University Scholarship Committee.

**DEMOLITION OF BUILDING - 930 KINNEAR ROAD**

Resolution No. 82-93

*Synopsis: Demolition of Building No. 3 at 930 Kinnear Road, Columbus, Ohio, is proposed.*

WHEREAS the Board of Trustees of The Ohio State University owns 3.295 acres at 930 Kinnear Road (consisting of three commercial-use buildings and parking facilities) and authorized lease of this property to Warner Cable Corporation on July 22, 1977 (for Buildings No. 1 and 3), and November 30, 1979 (for Building No. 2), with the leases to expire on June 14, 1982, and each lease providing for two five-year renewal options; and

WHEREAS Building No. 3 has deteriorated beyond economical repair and the demolition of this building has been recommended by the appropriate University Offices; and

WHEREAS in negotiating the five-year renewal under the option in the original leases, Warner Amex Communications, Inc. (the successor Lessee to Warner Cable Corporation), has agreed to demolish Building No. 3 and install a gasoline storage tank under the site and improve parking facilities on the site, all to be accomplished at the Lessee's sole cost and expense and subject to University approval of plans and specifications:

NOW THEREFORE

BE IT RESOLVED, That the demolition of Building No. 3 at 930 Kinnear Road as proposed above be approved.

Upon motion of Mr. Hilliker, seconded by Mr. Smith, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

**PURCHASE OF PROPERTY**

Resolution No. 82-95

*Synopsis: Request for authorization to purchase residential property.*

WHEREAS the Margaret E. (Runnels) Krauss real property consisting of approximately .219 acres, improved with a two-story dwelling with a one-story addition and a one-car garage, located in Wooster Township, Wayne County, and described as the east 70 feet of Lots 1440, 1441, and 1442, is being offered for sale; and

WHEREAS this property is immediately adjacent to and surrounded on all sides by OARDC property; and

WHEREAS the OARDC desires to have this property purchased by OSU for use as graduate student housing, and to eliminate the nuisance of private ownership; and

WHEREAS this property and improvements have been appraised, according to Department of Administrative Services, Bureau of Real Estate recommendations, and these appraisals are \$43,000, \$49,000 and \$59,000; and

WHEREAS the Director of OARDC and the owner have negotiated a purchase price of \$52,000 contingent upon Board of Trustees approval:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees authorize the purchase of the above-described real property for fifty-two thousand dollars (\$52,000), and authorize the Director, OARDC, to formalize the transfer with appropriate State agencies.

Upon motion of Mr. Hilliker, seconded by Mr. Immke, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

Mr. Devenow presented the following resolution:

**DISTINGUISHED SERVICE AWARD AND NAMING OF STREET**

Resolution No. 82-96

*Synopsis: It is proposed that the Distinguished Service Award be presented to Wayne Woodrow "Woody" Hayes and that Stadium Drive be renamed Woody Hayes Drive.*

WHEREAS the public record reflects that Wayne Woodrow "Woody" Hayes served as head football coach at The Ohio State University for twenty-eight years; and

WHEREAS during this time Coach Hayes established himself as one of the truly great college football coaches, providing leadership for the Ohio State football program in achieving a degree of excellence--205 wins, 65 losses and 10 ties--unmatched in the University's illustrious athletic history; and

WHEREAS Coach Hayes' dedication to excellence in the classroom and the well-being of those associated with him--his athletes, coaches, fans and other friends--has been amply chronicled; and

WHEREAS his involvement in the life of the University, its people and institutional processes has been extraordinary; and

WHEREAS his outstanding contributions to public service are evidenced by his deep involvement with the less fortunate and by his active participation and support of organizations committed to the betterment of mankind; and

WHEREAS his overall meritorious service, loyalty and dedication to the University attest to the many noble contributions of Coach Hayes:

NOW THEREFORE

BE IT RESOLVED, That in recognition and appreciation of Coach Hayes' exemplary service, the University will award him the Distinguished Service Medal at a time convenient to the recipient and the University, in accordance with action taken by the Board of Trustees in 1952; and

BE IT FURTHER RESOLVED, That in order to establish a living memorial which recognizes Mr. Hayes' significant role in the history of the University, the street located north of Ohio Stadium and south of St. John Arena and which runs from Neil Avenue to Kenny Road be renamed Woody Hayes Drive.

Upon motion of Mr. Hilliker, seconded by Mr. Immke, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

April 2, 1982 meeting, Board of Trustees

President Jennings responded to the adoption of the foregoing resolution as follows:

Mr. Chairman, if I might say that while I do not vote on that I would just like to express my support to this Board for honoring Coach Hayes. I have been in Big 10 institutions now almost 17 years; 16 of those years I had not exactly been a fan of Ohio State's. One of the things that, around the Big 10, was always clear--one of the reasons Ohio State wasn't all that well liked around the Big 10--was because Coach Hayes not only was an outstanding football coach, but Coach Hayes was one of the early coaches who insisted that the youngsters were first of all students and scholars, and secondly, football players. He had a deep and important commitment to the academic excellence of this institution and the young people that he had the privilege to tutor. He had a few of them, he didn't stock his teams, and he went overboard in staying within the NCAA rules. It was the cleanest program around the Big 10, around the nation. All the talk now you hear from football, basketball coaches about academic excellence, about how these are students, if you'll look back in history, all of us, you'll find that those words were being uttered by Coach Hayes in the early 1950's, and they are almost all duplicates of what Coach Hayes began. Stories are legend about the students that graduated to become physicians, lawyers, leaders, politicians, from the Ohio State football team, and that's largely to the credit of Coach Hayes. He really does mean it when he means that students are students first and athletes second, and the most important part of football coaching is getting them graduated and getting them on to successful years and not winning football games. He happened to do both, but he is rare in that context and I thank this Board for recognizing his contributions.

#### Martha Brian

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 25, 1982, of Ms. Martha Brian, Associate Professor, School of Journalism, College of Social and Behavioral Sciences.

Martha Brian was born in Cincinnati, Ohio, on September 28, 1930. She earned an Associate of Arts degree from Stephens College, Columbia, Missouri, in 1950 and a Bachelor of Journalism degree from the University of Missouri in 1952. She completed a Master of Arts degree in Journalism at The Ohio State University in 1970.

Ms. Brian became a general assignment reporter for the Bristol, Virginia, *Virginia-Tennessean* in 1952. In 1954 she took a position as continuity director for WLW-C television, Columbus, and in 1955 moved to the *Columbus Dispatch* where she worked for 12 years as reporter covering social welfare, the juvenile court and general assignments as well as writing for the *Sunday Magazine*. During this period in her professional life, Ms. Brian won many awards, including prizes in the writing contests of the Ohio Newspaper Women's Association, the Associated Press Editors Association, the Ohio United Press International and the Press Club of Ohio. These honors as a professional journalist were climaxed when she was nominated for a Pulitzer Prize in 1960.

During her tenure at Ohio State, where she was appointed to the faculty of the School of Journalism in 1967, Ms. Brian moved up from the rank of Instructor to that of Associate Professor. She was active in the University community as well as in her profession, serving as a member of the OSU Athletic Council and as an adviser to the student chapter of the Society of Professional Journalists/Sigma Delta Chi and for seven years served as chapter Adviser to Women in Communications, Inc. She was several times a finalist for distinguished teaching awards at the University, and was the first woman faculty member of Ohio Staters, Inc., a student/faculty service organization.

While she taught reporting and writing to Ohio State Journalism students, she continued to write, with articles appearing frequently in the *Columbus Monthly Magazine*.

On behalf of the University community, the Board of Trustees expresses to the family its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as a sincere expression of the Board's realization of the loss which the family and The Ohio State University have sustained.

### **RESOLUTIONS IN MEMORIAM (contd)**

**Viola Marie Cassidy**

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 16, 1982, of Viola Marie Cassidy, Professor Emeritus in the Department of Psychology.

Dr. Viola Cassidy began her career in education in 1926 as an elementary school teacher in the Cleveland Public Schools. She received her Bachelor of Arts degree from Western Reserve in 1929 and her Master of Arts degree from Columbia University in 1936.

She taught at Western Michigan University and at Eastern Washington College of Education before returning to Ohio where she received her Doctor of Philosophy degree in Psychology from The Ohio State University in 1948. That same year she took a position as Associate Professor of Psychology at Ohio State.

Dr. Cassidy's primary interests were in school psychology, human growth and development, and the education of exceptional children. She served a term as President of the Ohio Chapter of the National Council for Exceptional Children and she was, until her retirement in 1971, head of the Program for Exceptional Children at this University. She authored numerous professional papers, including a highly influential treatise dealing with the efficacy of special education classes.

Dr. Cassidy's work has been a great credit to the University from which she received her doctorate and at which she taught for so many years. She befriended many of her students and will be long remembered by both the undergraduate and graduate students who took classes and seminars with her and took their degrees under her direction. She will also be remembered with respect and admiration by her faculty colleagues, both in the College of Education and the Department of Psychology.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

**Elizabeth Minter Moore**

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 1, 1982, of Elizabeth Minter Moore, Assistant Professor Emeritus in the Department of Home Management and Housing in the School of Home Economics.

Mrs. Moore was born in Wilksburg, Pennsylvania, on August 8, 1896. She received the Bachelor of Science degree from Muskingum College in 1924 and the Master of Science degree from The Ohio State University in 1933.

Mrs. Moore taught high school home economics and English at Youngstown Public Schools from 1918-19; home economics and biology in the Frazeyburg Public School from 1924-26, and was an Instructor of home economics at Muskingum College in the Summer of 1925.

May 7, 1982 meeting, Board of Trustees

**RESOLUTIONS IN MEMORIAM (contd)**

Elizabeth Minter Moore (contd)

She came to Ohio State as a graduate assistant in 1929-33. She was appointed an Instructor in September, 1933 until she resigned in June, 1942. She later returned to teaching at Ohio State as an Assistant Professor, October 1945 and remained until her retirement in March, 1964. She was considered an inspiring teacher.

Mrs. Moore held honorary memberships in Phi Upsilon Omicron, Omicron Nu, and Pi Lambda Theta. Membership in professional societies included Ohio Education Association, Ohio Home Economics Association, American Home Economics Association, American Vocational Association, and Ohio Vocational Association. She also served on various school committees and held office in state associations.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

**DEGREES AND CERTIFICATES - SPRING QUARTER COMMENCEMENT**

Resolution No. 82-100

*Synopsis: Approval is being requested for awarding degrees and certificates for Spring Quarter Commencement.*

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit the names of persons who have completed degree and certificate requirements in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on June 11, 1982, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

Upon motion of Dr. Jacob, seconded by Mr. Berry, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

May 7, 1982 meeting, Board of Trustees

President Jennings made the following statement:

I am recommending on the next item that the Office of Public Affairs and the Office of University Development be combined into one position as a Vice President for University Communications and Development. That Vice Presidency would have responsibility for the current Public Affairs Office, the current University Development Fund as well as to provide us some managerial transition as to how we will handle WOSU and the Fawcett Center when Vice President Schoen retires in August of 1983. I am recommending that Mr. Burnham, who is currently the Dean of the College of Education, be appointed as Acting Vice President for University Communications and Development. We will develop shortly a search committee for that position. Dean Burnham will continue on as Dean of the College of Education, but Professor Russell Spillman, who is Associate Dean there, will be taking on most of Dean Burnham's duties as he assumes the duties of this new Vice Presidency.

I also ask that Vice President Crawford take on a special assignment for me to explore the possibilities of operating an office in Washington, D. C., because of the need, I believe, to establish better relations in Washington, not only with Congress but with the various agency heads. Some of the progress we have made on that already is what you heard earlier this morning--some of the report from Janet Martin about the Student Aid issue is that combined teamwork on this has been very helpful, and Ed has taken this on as a special project to explore this possibility.

We have also got that--Vice President Schoen, who announced her retirement at the April meeting, will take on the Acting Directorship of University Communications which will include Public Affairs, WOSU and the Fawcett Center. And I am recommending, Mr. Chairman, that the University Rules be changed to reflect that. And in the personnel section, those individuals are recommended for your approval - Mr. Burnham, Mr. Buxton, Mr. Crawford and Mrs. Schoen.

**RESTRUCTURING OF THE UNIVERSITY'S EXTERNAL RELATIONS OFFICES  
AND AMENDMENTS TO BYLAWS OF THE BOARD OF TRUSTEES  
AND RULES OF THE UNIVERSITY FACULTY**

Resolution No. 82-101

*Synopsis: Restructuring of two administrative offices is being recommended and modification of bylaws and rules to effectuate that change are being proposed.*

WHEREAS the President has announced his intention to restructure the University's external relations offices; and

Establishment of Named Funds

The John C. Geupel Chair Fund

The John C. Geupel Chair Fund was established May 7, 1982, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from John C. Geupel of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used for salary and program support for a distinguished teacher, researcher and engineer in the Department of Civil Engineering. Appointment to the Geupel Chair will be upon the recommendation of the Dean of the College of Engineering to the President and approval of the Board of Trustees.

Should the need for this faculty position cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to the recommendations from the appropriate administrative official of the University who is then directly responsible for civil engineering education.

Biological Environmental Research Fund

The Biological Environmental Research Fund was established May 7, 1982, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Columbia Gas of Ohio.

Gifts to this fund are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used for support of biological environmental research to be conducted by faculty in the College of Biological Sciences at the Neotoma preserve, Hocking County, Ohio. The Dean of the College of Biological Sciences is authorized to invade the

principal amount of the endowment if necessary, and will have sole authority to approve expenditures from the fund.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for biological sciences education and research.

**The Sheldon B. Ackerman Endowment Fund**

The Sheldon B. Ackerman Endowment Fund was established May 7, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University through The Ohio State University Development Fund from the family and friends of Sheldon B. Ackerman.

All gifts are to be invested in the University's Permanent Endowment under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to establish a prize to be known as the Sheldon B. Ackerman Award to be given to an outstanding student(s) in the area of business logistics or for similar outstanding achievement in marketing. The selection of the recipient(s) will be recommended by the faculty member holding "The James R. Riley Professorship (designated) in Transportation and Business Logistics." If the Riley professor does not exercise the selection option, then the chairman of the marketing faculty will recommend the recipient(s). All recommendations are to be approved by the dean of the College of Administrative Science.

Should the need for the fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees with preference given to recommendations from the appropriate administrative official who is then directly responsible for marketing education.

**The William J. Skou Faculty Enrichment Fund**

The William J. Skou Faculty Enrichment Fund was established May 7, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the estate of William J. Skou, M.S. '51, of Akron, Ohio, in memory of his service as a faculty member of The Ohio State University Agricultural Technical Institute, Wooster, Ohio.

**The William J. Skou Faculty Enrichment Fund (contd)**

All gifts are to be invested in the University's Permanent Endowment under the rules and regulations adopted by the Board of Trustees of The Ohio State University with the right to invest and reinvest as occasion dictates.

The annual income may be used exclusively for full-time faculty members of The Ohio State University Agricultural Technical Institute for defraying costs involved in attending off-campus professional meetings, courses and similar educational meetings with the funds being used to defray travel expenses, lodging, meal costs and registration fees. All requisitions for funds will be approved by the Director of the Agricultural Technical Institute.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees of the University with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for faculty enrichment programs in the area of technical agriculture.

**The William J. Skou Scholarship Fund**

The William J. Skou Scholarship Fund was established May 7, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the estate of William J. Skou, M.S. '51, of Akron, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund under the rules and regulations adopted by the Board of Trustees of The Ohio State University with the right to invest and reinvest as occasion dictates.

The annual income (over and above what must be added to the principal to offset the annual inflation rate) is to be used to provide one or more scholarships for students entering the field of floriculture and/or greenhouse production of flowers or ornamentals. Only students in the upper third of their graduating high school class, and without regard to their parent's income level, can be selected to receive the scholarships. Further, of the annual income available for distribution, 50 per cent will be utilized for scholarship recipients at The Ohio State University Columbus Campus and the remaining 50 per cent of the income for scholarship recipients at The Ohio State University Agricultural Technical Institute Campus. Selection of recipient(s) is to be made upon the recommendation of a committee comprised of the Chairman, Department of Horticulture (Columbus Campus), the Director of the Agricultural Technical Institute and the Dean of the College of Agriculture and Home Economics with the latter serving as chairman (designees of these officers may serve as the recommending committee).

**TRIBUTE TO CHESTER DEVENOW**

President Jennings:

Mr. Chairman, I would like now to call on Professor Protheroe, who I see in the audience, who would like to make a comment.

Professor Protheroe:

President Jennings, I have been asked by a group of faculty to come before the Board to read a statement to you today. It is dated May 7, 1982.

To Mr. Chester Devenow:

The below named faculty, speaking directly in their own names and symbolically for the entire faculty, wish to express to you our thanks for your service to our University. You have consistently given of yourself to The Ohio State University beyond that which could be reasonably expected. Your devotion and attention to our academic endeavour has been an example to us which serves to reinforce our collective belief in Ohio State.

May 7, 1982 meeting, Board of Trustees

**TRIBUTE TO CHESTER DEVENOW (contd)**

In recognition of your efforts, we wish to do something which we have no power to do in either rule or in law but which we feel we have in spirit and in mind. We would confer upon you the title Professor and ask that you accept this act and, in so doing, will feel free, if not obligated, to continue your association with Ohio State. We invite you to join us, at your pleasure, in the Faculty Club, in our classrooms, in our laboratories and in our studies. We will not settle for a mere nine years of your devotion and we therefore ask you to continue with us.

With our deep thanks and appreciation,

Professor Protheroe: (contd)

I think 'Professor Devenow' when you look at the breadth of disciplines represented you will realize your professorship is not an ordinary one but rather it is most cosmic in nature.

Mr. Devenow:

Thank you, Professor Protheroe. I am shocked and delighted and at a loss for words for the first time in nine years but very grateful for the recognition, and you can be assured that whether I am or am not a professor, I will continue my deep and committed dedication to this University. As I said last night, it is a great, great complex. It goes beyond the ordinary realm of anything I have ever been in, and I feel very honored and grateful that I have had an opportunity to serve. Thank you very, very much.

President Jennings:

Thank you, Bill. Professor Devenow, we expect you to agree with everything that the Board says from here on out.

**RECOGNITION OF THE SEVENTY-FIFTH ANNIVERSARY OF SPHINX**

Resolution No. 82-109

WHEREAS: Sphinx, the Senior Honor Society, is today celebrating its 75th Anniversary of service to The Ohio State University; and

WHEREAS: Sphinx Plaza is to be dedicated today as an anniversary gift from the honor society commemorating its 75 years of loyalty and service to our University; and

WHEREAS: the Sphinx Plaza makes substantial esthetic contribution to the campus environment in support of our educational activities and helps complete the master plan for the area enclosed by University Hall, the Main Library, Townsend Hall, and Independence Hall:

NOW THEREFORE, BE IT RESOLVED, that the Board of Trustees accept with deep gratitude the gift of Sphinx Plaza in tribute to that organization whose leadership and individual members have, through time, provided exemplary and exceptional service to their Alma Mater, The Ohio State University.

Upon motion of Dr. Jacob, seconded by Mr. Smith, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

### THANKS BY CHESTER DEVENOW

Mr. Devenow:

Well, maybe I can take five minutes to thank everybody in the total University for all the support that you have given me. I have never felt more comfortable than I have with this Board of Trustees. They are a bunch of magnificent men that they have. I hope you understand and take it back to your constituencies that they spend a lot of time and they give a lot of concern to all the problems of the University, and they are deeply concerned about all the problems that we face at the University, and the Board of Trustees is normally considered to be just a rubber stamp operation; but that is not a fact at Ohio State. I found that out, we have got individual men with individual opinions, and over the last nine years they have with complete commitment and dedication made decisions which they felt were best for the total University, the faculty, students and administration, and I feel very confident that the future of Ohio State is in very secure hands. You have a President who is one of the ablest men I have met in many, many years, and one who knows what the problems are and probably will, in my opinion, resolve those problems to the best interests of all of us. So I take leave with great confidence that this is the beginning of a tremendous growth area for Ohio State. You've got everything; the question is, 'How you develop it?' Is that five minutes up? I feel like some Senator filibustering.

### APPRECIATION TO CHESTER DEVENOW

Mr. Smith:

You know when you get the first appointment you have nine years, it seems like a long time and yet it goes very quickly. Sometimes it's a flash of leaky roofs and parking lots that need paved and buildings that are constructed, but it is more than that. There are light moments like Barnebey Center, which I am sure you remember, Barnebey Center which we visited, etc., and there are thorny problems like the practice plan and like the budget problems that you just led us through; but I think you put your finger on it last night when you were talking to the group and that was: it is different from our work-a-day life what we do here at the University. There is a marked difference for all of us to observe, and I think it is an institution that is going to be here after we are all gone, after we are all dust. Somehow there are many parts to us, and a lot of people make the contribution that makes it a great university. I think in your years of service you have made your contribution, and it will live a long time with this institution.

Mr. Devenow: Thank you very much, thank you.

President Jennings:

Well, we are not in television so we can't stretch this further. I want to, from the University, present perhaps a small symbol of our appreciation to you--speaking for the entire University--with a couple of small tokens that perhaps will allow you to remember us by.

May 7, 1982 meeting, Board of Trustees

**APPRECIATION TO CHESTER DEVENOW (contd)**

President Jennings presented a plaque (State of Ohio) with the inscription:

### **Roy M. Kottman**

Roy M. Kottman has devoted more than 22 years of service to the state of Ohio. Before being appointed vice president for Agricultural Administration and executive dean for Agriculture, Home Economics, and Natural Resources—he served as dean of the College of Agriculture and Home Economics for more than 20 years. Aside from holding a professorship in the Department of Animal Science, he is also director of both the Ohio Agricultural Research and Development Center and the Cooperative Extension Service. In his various administrative posts, he has forged a strong link between the University and business and industry. He has ensured that the great assets and resources of Ohio State have been and will continue to be made available to the farming community, not only throughout Ohio, but throughout the world. Although Dr. Kottman's basic field is animal science—specifically genetics and breeding—his interests and activities encompass all aspects of research and education in agriculture, home economics, and natural resources. He has received numerous awards for his outstanding service and holds an honorary degree from the University of Wooster. Dr. Kottman is a Fellow of the American Society of Animal Science and is a member of the honorary societies of Sigma Xi and Phi Kappa Phi, as well as a member of Gamma Sigma Delta and Alpha Zeta, agricultural honoraries. In recognition of his service to the University and to the state of Ohio, a permanent endowment in his name was established to provide financial support to students majoring in agriculture, home economics, or natural resources.

The University is proud to have this distinguished administrator, researcher, and teacher address the graduates of its 280th Commencement.

### **R. M. Lumiansky**

#### Doctor of Humane Letters

An internationally recognized scholar of medieval literature, Dr. Lumiansky is one of the most influential spokesmen for the humanities in the United States today. Dr. Lumiansky played a pivotal role in the establishment of the National Endowment for the Arts and the National Endowment for the Humanities. Most recently, he was a member of the Presidential Task Force on the Arts and Humanities. A teacher and scholar for more than a quarter century, he is an academic administrator and leader as well. He served as chairman of the departments of English at two universities, as well as dean and then provost at Tulane University. He has taught at Tulane University, Duke University, the University of Pennsylvania, and New York University. Professor Lumiansky's translation of Chaucer stands as a classic and has brought the joy of the famous poet's work to many modern readers. His scholarly work has been recognized by the governments of France, from which he received the *Palme Académiques*, and of Italy, from which he received the *Stella della Solidarietà Italiana*. He received a Guggenheim Fellowship in 1968 and is a Fellow of the Medieval Academy of America and of the American Academy of Arts and Sciences. An author of eight books and more than fifty scholarly articles, he has received honorary degrees from the University of South Carolina, the University of Southern California, the City University of New York, and the University of North Carolina. In bestowing this honor, the University seeks to recognize Dr. Lumiansky for his unflinching commitment to higher education, to scholarship, and, most especially, to the advancement of the humanities.

### **Elmer Boyd Staats**

#### Doctor of Humane Letters

After receiving his doctoral degree from the University of Minnesota, Elmer Staats joined the New Deal Bureau of the Budget in 1939 and headed up its War Agencies Section during World War II. Serving in every administration since Roosevelt's, he was appointed Comptroller General of the United States by President Johnson. In his fifteen years as head of the Government Accounting Office, Elmer Staats transformed what was once essentially an accounting and auditing organization into a highly respected voice in public policy. Under his leadership, the GAO's mission increasingly became one of management consulting—helping other government agencies organize and economize. He also helped shift its focus from examination of financial statements to comprehensive evaluation of large government programs such as Social Security and military procurement. A proponent of frugality in government long before it ever became popular, his efforts and evaluation programs have resulted in many reforms and savings. The greatly widened and altered concepts of comprehensive audit and performance evaluation which he has developed have earned him the highest regard in both the public and private sectors. A member of Phi Beta Kappa, he has been a fellow at the Brookings Institution and has received numerous honorary degrees, including Doctor of Laws degrees from Duke University, McPherson College, and Nova University; a Doctor of Public Service degree from George Washington University; and a Doctor of Administration degree from the University of South Dakota. President Reagan arranged for a special ceremony to award Dr. Staats the Presidential Medal of Honor for meritorious service and contributions to the federal government. Today, the University takes great pride in recognizing Elmer Staats for his many years of distinguished government service.

## **Wayne Woodrow "Woody" Hayes** Distinguished Service Award

Wayne Woodrow Hayes served as head football coach at The Ohio State University for 28 years. During that time, he established himself as one of the all-time great college football coaches. Under his leadership, Ohio state's football teams achieved a degree of excellence unmatched in the University's rich athletic history. Aside from his duties as football coach, Woody also enjoyed teaching courses in physical education and athletic administration at both the undergraduate and graduate levels. An avid reader, he is an aficionado of military history. In 1935, he was graduated from Denison University, where he majored in English and history. He holds an M.A. from The Ohio State University in education administration. An inspirational speaker, he has addressed thousands of people, from elementary school age children to professionals in various fields. His speeches are motivational, informative, and unabashedly patriotic. Regardless of the audience, he never fails to mention the merits of Ohio State, the value of college football, and his unswerving belief in his country. In his 33 years as a head football coach, his teams won 238 games, a record which places him fourth among all major college coaches for the most victories. Coach Hayes was named "College Coach of the Year" in 1957 and again in 1975. Thirteen of his OSU teams won Big Ten Championships and five of his teams were named National Champions by one or more of the four recognized selection committees. The university community is proud to honor Coach Hayes for his many years of distinguished and devoted service to The Ohio State University.

**Bachelor of Art Education and  
Bachelor of Music Education**  
degrees are offered jointly by the  
College of the Arts and the  
College of Education.

Candidates are listed under  
College of the Arts.

## College of Engineering

Dean: Donald D. Glower

### Bachelor of Science in Aeronautical and Astronautical Engineering

Jose Gregorio Aguilar,  
Maracaibo, Venezuela  
Mark Edward Bartman, Worthington  
James Kenneth Black, Flemington, N. J.  
Bruce Alan Carter, Circleville  
Russell Brian Cline, Lancaster  
Brian Samuel Hays, Wadsworth  
Kris Phillip Hein, Madison  
Jack Henry Lucas, Wyoming, Mich.  
Jeffrey Lynn Maresh, Walton Hills  
Donn Michael Mills, Canal Winchester  
Steven William Rudy, Columbus  
Margaret Grace Schweitzer, Lisbon  
Wayne Allen Spence, North Robinson  
Jon Edward Spryer, Grove City  
John Gerard Standen, Cleveland Heights

### Bachelor of Science in Aviation

Michael Alan McCoy, Chillicothe

### Bachelor of Science in Agricultural Engineering

David Lee Diefenthaler, Martin  
Charles Richard Frazier, Newark  
Jerry Lee Harris, Cardington  
Jeffrey Bay Helmut, Orrville  
Michael Kent Holloway, Willshire  
Debra Jo Martin, Genoa  
Sue Ellen Nokes, Canal Fulton  
Asye Sevin Tin, Columbus  
Gregory Charles Topp, New Bremen  
Stephen Ray Workman, Lynchburg

### Bachelor of Science in Ceramic Engineering

Raymond Earl Barnes, Wooster  
Barton Lee Browning, Newark  
Dennis Shawn Fox, Columbus  
David Howard Freund, Westerville  
Douglas Paul Gerhardt, Springfield  
Gregory Hamilton Jones, Portsmouth  
Richard Joseph Koba, Jr., Lorain  
Jack Douglas Larry, Newark  
David Nelson Lyster, Silver Lake  
Charles Robert Martz, Delphos

Robert Clair Oberst, Columbus  
Michael Jeffrey Readey, Dublin  
John Stewart Reid, Columbus  
Thomas Lamar Riley, II, Manchester, Conn.  
Stacey Allen Ruff, Columbus  
Martin Joseph Shingler, Solon  
Lisa Marie Springer, Solon  
Teresa Lynn Trott, Zanesville

### Bachelor of Science in Chemical Engineering

Mary Abel, Coshocton  
Keith Alan Artman, Dayton  
Douglas Harry Baughman, Cincinnati  
Robert Andrew Bollinger, Akron  
David Brian Boyle, Ashtabula  
Douglas Jay Bryan, Delphos  
Jeffrey Lynn Cline, Sandusky  
Chi-Thien Doan, Dayton

June 10, 1982 meeting, Board of Trustees

The Chairman, Mr. Smith, called the meeting of the Board of Trustees to order at 11:30 a.m. He requested the Secretary to call the roll. The meeting recessed into Executive Session for the purpose of considering legal issues and personnel-related matters.

Present: Warren J Smith, Chairman, John D. Jacob, D. James Hilliker, John F. Havens, Edmund C. Redman, Leonard J. Immke, John W. Berry, and Shirley D. Bowser.

--o--

The meeting of the Board of Trustees reconvened at 1:30 p.m.

### INTRODUCTION OF NEW BOARD MEMBER

Mr. Smith:

I am delighted to introduce Mrs. Shirley Dunlap Bowser, Williamsport, Ohio, whose appointment was announced by Governor James A. Rhodes for a term beginning May 14, 1982 and ending May 13, 1991, to succeed Chester Devenow, whose term expired.

Mrs. Bowser graduated from The Ohio State University in 1956 with a Bachelor of Science in Education degree. While pursuing her undergraduate degree, she was a member of Kappa Kappa Gamma sorority. She was selected for membership in Alpha Lambda Delta, Mirrors, Chimes and Mortar Board honoraries.

Mrs. Bowser is the corporate secretary of The Dunlap Company of Williamsport, Ohio.

Mrs. Bowser served as a member of the Westfall Board of Education from 1964 until 1972 and as president of the board from 1966 until 1970. She was media librarian for the elementary schools of the Westfall Local School District.

She is a member of the Central Ohio Advisory Council for the Development of the Central Ohio Water Plan, a member of the Pickaway County Planning Commission and a member of the Williamsport Park Commission.

She was appointed by Governor James A. Rhodes to the Recreation and Resources Commission of Ohio Department of Natural Resources and was elected the first woman Chairman of the Commission.

She is a trustee for the Ohioana Library Association.

Mrs. Bowser is a charter member of the Circleville Branch of American Association of University Women, a member of the Presidents Club and a member of the Williamsport United Methodist Church.

### COMMENTS BY DR. RICHARD GILSON

Mr. Smith:

Richard Gilson, who is the Chairman of the Steering Committee of the Senate, has asked to speak to the Board.

Dr. Gilson:

Thank you, Mr. Smith and Board members and Mr. President. This is making my first comments and last comments as the Steering Committee Chairperson and as proof of that point, I'd like to recognize Professor Herb Asher, Professor of Political Science, who succeeds me as the Chairperson of the Steering Committee. Herb has been the Chairperson of the Legislative Affairs Committee during an important year and has rallied students and faculty alike and has some important endeavors downtown. I'm sure he will do an outstanding job.

I'd also like to note that the faculty voted for Professor Richard Firestone to be Chairman of the Faculty Council. Professor Firestone is a Professor of Chemistry, and he replaces the irreplaceable--Professor Michael Gerald who has been this year a delight to work with.

Also, I would like to thank and congratulate one of our departing Steering Committee members, Provost Ann Reynolds. Best wishes to her in her new position as the Chancellor of that monstrous system out there in the State of California.

Secondly, I've had the privilege this year of observing this Board's actions during a very difficult year, and I feel it would be helpful as Janet Martin said before to have all our faculty members observe Board activities and see what the Board does. I realize that's impossible. Many on campus regard the Trustees like a trust in the sense that a trust is far removed and oftentimes inactive. This Board is far from that. It's been concerned, interested, and active in bringing about not only people throughout the state but on campus as well and during this year's challenges, and for that, I think this campus owes you an appreciation, and I bring that to you--in particular for the support this year for this University during the

June 10, 1982 meeting, Board of Trustees

**COMMENTS BY DR. RICHARD GILSON (contd)**

Dr. Gilson: (contd)

ongoing budget crisis. Many don't realize the amount of efforts that this Board has contributed to this ongoing crisis, and I would like to bring our thanks from the faculty and from the students for the work this year.

And secondly, we feel that you've made an exemplary choice in our new President, Dr. Edward Jennings, and for that we applaud you as well.

Indeed, during this year the ongoing budget--it's evident that a number of universities have not made it through this year without questioning the very survival of the quality of their institutions--OSU, however, has made it through this year with students, faculty, administrators, and the President working together and very hard indeed to maintain the high quality of Ohio's flagship institution--The Ohio State University.

Accordingly, and I think appropriately, the Steering Committee proposed and the Senate unanimously passed as its final action of the year, the following resolution which I would like to read to you:

WHEREAS Edward H. Jennings became the tenth President of The Ohio State University on September 1, 1981; and

WHEREAS President Jennings has demonstrated remarkable leadership in working with faculty, staff, and students throughout this first year of his presidency; and

WHEREAS the University Senate appreciates the efforts President Jennings has made to emphasize the excellence of this institution:

NOW THEREFORE

BE IT RESOLVED, That the University Senate congratulates President Jennings for his accomplishments during his first year in office and urges him to continue in this fine manner during the years to come.

And I note that that is one of the Senate resolutions--mostly it's at the end of a term and this is the beginning of the term. Thank you.

**BUDGET 1982-83**

Resolution No. 82-112

*Synopsis: The Budget for 1982-83 is being submitted for adoption.*

June 10, 1982 meeting, Board of Trustees

**BUDGET 1982-83 (contd)**

WHEREAS the projections of current State revenues for the 1981-83 biennium are insufficient to support the budget adopted by the State for the current biennium; and

WHEREAS this University has made or initiated expenditure cuts which now total \$42 million for the 1981-83 biennium; and

WHEREAS the General Assembly currently has under consideration a funding bill to resolve a part of the State's revenue shortfall; and

WHEREAS this University must proceed with its budget for 1982-83 to be effective July 1, 1982, even with the current uncertainties in State revenues:

**NOW THEREFORE**

BE IT RESOLVED, That the University Current Funds Budget for Fiscal Year 1982-83, as described in the accompanying text and tables, be approved with authorization for the President to make expenditures within the projected income levels, including making additional reductions in expenditures as appropriate should no new funding legislation be enacted before July 1, 1982; and

BE IT FURTHER RESOLVED, That the student fees be increased by an average of 12 percent beginning Autumn Quarter, 1982, and that the Schedule of Student Fees for the Autumn Quarter, 1982, be hereby approved; and

BE IT FURTHER RESOLVED, That the Secretary be instructed to incorporate all supporting documents into the minutes of this meeting, including salary rolls with promotions, and fees and charges for the Fiscal Year 1982-83, and to file these materials with the official records of this University.

Mr. Smith:

Before I ask for a motion and a vote on the President's budget recommendation, I would like to make the following statement.

It seems that it was only yesterday that this Board was in the process of selecting a new president. As a matter of fact, it was on the evening of June 11, 1981, that this Board announced that Edward Jennings had been recommended by the search committee for appointment as the tenth President of The Ohio State University. In reflecting back on that announcement and all that has transpired since--the normal problems associated with leadership transition, compounded by a series of excruciating budget cuts and the resulting need to make institutional adjustments; and the struggle to achieve a degree of stability for the university--I think we all can appreciate the enormity of the problems just in this area alone which the President has had to deal with during his first year. He is to be commended for a job well done. It should also be noted that his effective leadership relative to the ordinary, day-to-day affairs of the University is equally deserving of meritorious recognition.

June 10, 1982 meeting, Board of Trustees

**BUDGET 1982-83 (contd)**

Mr. Smith: (contd)

All would agree that there are no ultimate ways to give recognition to President Jennings for his superb efforts and exemplary performance during his first year. However, this Board strongly believes that some recognition of the President's achievements is warranted at this time in the form of compensation adjustment. In addition, in order that the Board may regularize the review of the President's compensation so that the timing coincides with the review process pertaining to University faculty, administrative staff and Classified Civil Service salaries, I am pleased to report that the Personnel Committee has recommended that effective July 1 President Jennings' salary be increased by 10 percent.

It is worth noting that even with the proposed increase, President Jennings' compensation will still not be commensurate with that of several Presidents of Big Ten and other peer institutions.

I would like to ask for a motion to approve the President's budget recommendations as well as the recommendation of the Personnel Committee as noted in this report. Do I have a motion?

Upon motion of Dr. Jacob, seconded by Mr. Immke, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

THE OHIO STATE UNIVERSITY**

**I. INTRODUCTION**

In December, 1981, this Board approved a budget for fiscal year 1981-82 which also referenced budgetary projections for 1982-83 covering salaries, general expenses, and tuition.

In January, 1982, we were informed that the State of Ohio anticipated a revenue shortfall for the current biennium of at least \$1 billion. The Ohio State University's share of that deficit was estimated to be \$55 million. Our new estimate, based on more current data, is that the 1981-83 biennium revenue shortfall for this University will be \$56.6 million, assuming no further legislative action.

In response to this serious financial situation, a retrenchment program was initiated in January to reduce by \$19.6 million the University's budget for the remainder of the 1981-82 fiscal year. The remaining \$37 million retrenchment was to be addressed during 1982-83, unless the General Assembly took action to help accommodate the deficit.

As of this date, both the Ohio House and Senate have passed a budget bill that essentially resolves the state's deficit by asking for cuts and tax increases in about equal proportion. This bill currently is in conference committee, and we are confident that the House and Senate will agree upon and pass a common bill soon.

June 10, 1982 meeting, Board of Trustees

### 1982-83 CURRENT FUNDS BUDGET FOR THE OHIO STATE UNIVERSITY (contd)

Although it was our intent to wait until legislative action was completed before recommending a budget for 1982-83, we cannot wait any longer. Our goal has been to provide more fiscal stability to allow faculty, staff, and students to plan for next year. Unless we proceed, the stability we hope to establish will be endangered.

Students must know of tuition and residence hall rates before the end of Spring Quarter. Faculty and staff notices of appointment must be issued. Finally, deans, department heads, and directors must be able to implement their plans for the coming fiscal year and be able to assume budgetary authority on July 1, so that their academic responsibilities can be met.

Accordingly, two budgets for 1982-83 are being recommended. One version includes, in addition to the \$42 million in expenditure cuts implemented this biennium, an additional \$8 million retrenchment in the event that a new funding bill is not passed. The other includes additional planned expenditures to be implemented if the General Assembly agrees on a bill that allows us to avoid starting the Fiscal Year facing more budget cuts. The budget preparation guidelines are the same for each version. These budgets incorporate both the plans brought to the Board in December, 1981, and the cutbacks instituted in January, 1982.

#### II. SOURCES OF FUNDS

The sources of current funds in support of the 1982-83 budget total \$644,834,000, as detailed in the schedule of Sources of Income to Support 1982-83 Budget. This amount is based upon State support being cut by \$37 million from the level appropriated in the budget bill enacted in November, 1981. Pending action by the General Assembly is expected to result in restoration of \$17 million in State support for this University for 1982-83. If no action is taken by the General Assembly before July 1, 1982, additional budget cuts will need to be initiated during 1982-83 in order to avoid a deficit. The revenues for 1982-83 represent an estimated increase of 6.5 percent over current funds revenues budgeted for 1981-82. Of these sources, Columbus Campus general funds represent 42 percent of the total with earnings operations generating 34 percent, restricted grants and contracts 19 percent, and the regional campuses revenues with OARDC totaling 6 percent.

While our projections for 1982-83 made this past December did not include a tuition increase, one clearly is required now. If we are to remain a viable institution of quality higher education, students must bear at least a moderate rise in the cost. We must, however, continue every effort to maintain accessibility. Therefore, the average increase in student fees has been set at 12 percent effective Autumn Quarter, 1982.

In addition to higher tuition, students face price increases in such other areas as residence halls, health insurance, parking, and extracurricular activities. Therefore, increases in normal charges assessed by the University have been limited to a combined average of no more than 12 percent. This policy is designed to help alleviate the "nickel and dime" effect on our students if such prices are not controlled.

Due to continued uncertainties in State revenues, every effort has been made to create within the budget plan flexibilities which will allow this University to address further reductions in State support without disruption to the academic programs. If funding legislation is not

**1982-83 CURRENT FUNDS BUDGET FOR  
THE OHIO STATE UNIVERSITY (contd)**

enacted, \$8 million in further expenditure cuts will be required to balance the budget before June 30, 1983, on top of the \$42 million in cuts already initiated for this biennium. Such action will be extremely disruptive and leave no room for further flexibility.

**III. USES OF FUNDS**

This University's current funds estimated expenditures for Fiscal Year 1982-83 are detailed in the schedule of Budgeted Expenditures for 1982-83. These expenditure levels will enable this University to implement the following budget guidelines for Fiscal Year 1982-83:

- \* Increase faculty and administrative/professional staff salaries by an average of 3 percent across-the-board and 5 percent for merit.
- \* Classified personnel to receive pay increases of 40 cents-per-hour or 5 percent, whichever is greater, in accordance with House Bill 694, with this University covering one-third the cost.
- \* Provide an allowance of 1 percent as a supplemental allocation for market adjustments for faculty and administrative/professional staff.
- \* Increase general expense budgets by 9 percent for the colleges and offices, which includes 7 percent increases in stipends for graduate students working as teaching, research, and administrative associates.
- \* Provide on a one-time basis, special allocations of \$600,000 to maintain the purchasing power of University funded student financial aid support and a \$4.4 million emergency fund to meet critical needs with emphasis on maintaining quality, providing adequate instructional staffs, supporting accessibility and affirmative action efforts.

In addition to these specified budget increases, the expenditure budget will enable this University to meet mandatory General Fund cost increases such as utilities (\$2.1 million) and employee benefits (\$1.3 million).

Assumed in this budget is full implementation of the overhead cost recovery system applicable to all University earnings operations. This program, instituted January 1, 1982, will reduce the General Fund burden of support for these earnings operations by having each such unit cover the total costs, both direct and indirect, of their activities.

This budget plan for 1982-83 calls for the January retrenchment levels to be instituted on a recurring basis at a level of \$22.55 million. These cutbacks include a \$6.7 million retrenchment for the colleges and offices on the Columbus campus, cuts of \$6.95 million for University programs receiving line-item appropriations, and full implementation of administrative overhead charges to earnings operations totaling \$8.9 million. When the 1981-82 and proposed 1982-83 cuts are combined, the total expenditure reductions for the biennium amount to \$42.13 million.

**1982-83 CURRENT FUNDS BUDGET FOR  
THE OHIO STATE UNIVERSITY (contd)**

The \$6.7 million in retrenchments for general fund-supported units will be permanent reductions from the budget bases of academic and administrative units. We have maintained the concept established in January of protecting the instructional budgets as much as possible, with special emphasis on the needs of those colleges experiencing significant enrollment changes. The distribution of the cuts to colleges and administrative units will differ, however, from those assigned in January. The cuts from the colleges will not exceed 3 percent, while the cuts for the administrative units will not exceed 4.5 percent of each unit's 1982-83 budget base.

If a revised revenue bill is enacted, it is expected to reduce the cutback in State funding to this University from \$56.6 million to \$29.8 million over the current biennium. If such a bill is passed the following expenditures will be incorporated into the 1982-83 budget plan:

- \* Eliminate the need for \$8 million in further expenditure reductions and restore the applicable portion of the cuts to University operations funded by line-item appropriations from the State.
- \* Continue upgrading equipment and library acquisitions by making \$6 million available in one-time funding in addition to the \$3.1 million provided for these uses in the 1981-82 budget.
- \* Commit up to \$3.2 million to address instructional workload needs generated by increasing and shifting student enrollment patterns.
- \* Maintain a \$3.8 million contingency against further State and federal revenue shortfalls during 1982-83.

**IV. CONCLUDING COMMENTS**

We are recommending an extremely austere fiscal program. These budget plans attempt to maintain accessibility through moderate tuition and fee increases; attempt to maintain the essential quality of the institution by retaining our best faculty and staff; attempt to address some serious problems in regard to outdated equipment and a deteriorating library acquisitions budget; and attempt to provide the fiscal flexibility to respond on an emergency basis to those most critical needs that inevitably develop in this comprehensive and dynamic institution.

Simultaneously, these plans recognize that The Ohio State University must do its part in these financially troublesome times by accepting budget retrenchments that amount to more than \$42 million for the last 18 months of the biennium. We are making \$42 million in cuts, even assuming a budget bill. The magnitude of these cuts is unprecedented, both in percentage and dollar amounts.

We are confident that this University's faculty and staff, deans and department heads, and students will continue their outstanding efforts in seeing us through this very difficult situation. With the cooperation and dedication of all individuals across the campuses, we will continue to maintain and enhance the long traditions of excellence of The Ohio State University.

## UNIVERSITY HOSPITALS BOARD BYLAWS (contd)

NOW THEREFORE

BE IT RESOLVED, That the amendments as recommended by the University Hospitals Board on May 27, 1982 be approved.

Upon motion of Mr. Havens, seconded by Mr. Galbreath, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

### Chapter 3335-93

## UNIVERSITY HOSPITALS BOARD BYLAWS

3335-93-01 University hospitals board.

- (A) The body responsible to the Ohio state university board of trustees for oversight of patient care services, the university hospitals' support of the Ohio state university health sciences academic programs, shall be known as the university hospitals board (herein called board).
- (1) The hospitals board will be composed of three members of the Ohio state university board of trustees (trustee members) and twelve citizens from the general public (citizen members), all appointed by the Ohio state university board of trustees in consultation with the president of the university. No employee of the university shall be eligible for board membership.
  - (2) The president of the Ohio state university shall be an ex officio member of the hospitals board.
  - (3) Insofar as feasible, the selection criteria will ensure that the hospitals board membership will include persons with business expertise, persons with legal expertise, persons with knowledge of health care issues, persons knowledgeable about the academic mission of university hospitals, and persons who can assist the hospitals in its relations with the public and governmental entities. Selection processes will incorporate the affirmative action policies of the university.
  - (4) The term of office for the twelve citizen members will be three years. Of the original twelve such members appointed, four will be appointed for three years, four will be appointed for two years, and four will be appointed for one year. Thereafter, four members will be appointed each year to serve three-year terms. At the discretion of the Ohio state university board of trustees, any citizen member may serve two consecutive terms. Original members with two- or one-year initial appointments may serve two full terms in addition to the initial partial terms.
  - (5) In addition to the hospital board members, the following will participate in deliberations at the board's request, will receive agenda and minutes, and

**UNIVERSITY HOSPITALS BOARD BYLAWS (contd)**

from time to time will be invited to submit agenda items:

- Executive director of university hospitals
- Deans of health sciences colleges
- Medical director of university hospitals
- Chief, hospitals medical staff, or equivalent position

- (6) The president of the Ohio state university will serve as the university's primary administrative contact with the hospitals board and shall interpret to the university's board of trustees proposals and recommend actions of the hospitals board.
  - (7) The executive director of university hospitals will serve as the non-voting secretary to the board and provide such staff services for the board as may be requested.
- (B) In carrying out its responsibilities as defined in rule 3335-93-02 of the Administrative Code, the board shall seek continuing guidance from health professionals, management specialists, and others with professional expertise. The hospitals board may choose to have a periodic review of university hospitals activities by a board of visitors. The visitors, consisting of persons of national eminence in health care fields, would be selected in consultation with the president of the university.  
(B/T 5/2/80, B/T 6/10/82)

**3335-93-02 Powers and duties.**

Members of the hospitals board shall be responsible to the university board of trustees for the oversight of patient care services in university hospitals and for ensuring that the hospitals' activities support the health sciences programs of the university. Although it is understood that the university board of trustees cannot delegate its ultimate authority over and responsibility for the hospitals--including determination of policy for the fiscal health of the university hospitals, its personnel policies, or the definition of the hospitals' mission--the hospitals board will be delegated the authority and responsibility set forth herein, consistent with Ohio law. The university hospitals board will be responsible for, subject to the authority and periodic review of the university board of trustees, the following:

- (A) Oversight of patient services, including admissions and quality assurance policies and practices developed by the hospitals staff.
- (B) Oversight of the hospitals' unique mission to support the health sciences teaching and research programs of the university.
- (C) Oversight of relationships with outside agencies, both private and public.
- (D) Oversight of hospitals' compliance with federal and state laws.
- (E) Oversight of hospitals' accreditation process.

June 10, 1982 meeting, Board of Trustees

**UNIVERSITY HOSPITALS BOARD BYLAWS (contd)**

- (F) Approval of medical and dental appointments, clinical privileges, and disciplinary actions upon the recommendation of the appropriate official, subject where required to final action of the Ohio state university board of trustees.
- (G) Approval of medical staff bylaws and recommendation thereof to the Ohio state university board of trustees.
- (H) Review of current funds and capital budgets prior to their submission to the Ohio state university board of trustees by the university president.
- (I) Advice and counsel to the president and/or his designee on matters of institutional income and expenditures, fees for institutional services, and utilization of hospitals services. (B/T 5/2/80, B/T 6/10/82)

**3335-93-03 Accountability.**

To ensure that the Ohio state university board of trustees meets its governance obligations under Ohio law, the hospitals board will be accountable, through the president to the Ohio state university board of trustees.

- (A) The appointment of the director of university hospitals will be approved by the Ohio state university board of trustees upon recommendation of the president of the university following consultation with the hospitals board.
- (B) Recommendations and reports of the hospitals board that require Ohio state university board of trustees' review or action will be communicated through the president of the university to the Ohio state university board of trustees.
- (C) The Ohio state university board of trustees will continue to hold the president of the university responsible for the conduct of the academic programs and for ensuring that the hospitals are operated in a manner consistent with university policy and state and federal law. (B/T 5/2/80, B/T 6/10/82)

**3335-93-04 Meetings and notice.**

- (A) Regular meetings. Regular meetings of the hospitals board may be held at the hospital each month, or on a schedule established by the board, at times which shall be set and publicly announced by the chairman of the board, or at such other time or place as may be announced by the chairman.
- (B) Special meetings. Special meetings may be called at the direction of the chairman, or shall be called by the chairman at the request of three members of the board, provided that notice to all board members shall be given not less than five days prior to the meeting. The notice shall state the time, place, and purpose of the meeting.
- (C) Except as otherwise specified in these bylaws, all meetings of the board and its committees shall be conducted in accordance with the latest revision of "Robert's Rules of Order."

June 10, 1982 meeting, Board of Trustees

**UNIVERSITY HOSPITALS BOARD BYLAWS (contd)**

(D) Meetings of the board shall be open to the public, except for executive sessions called for reasons permissible under Ohio law. (B/T 5/2/80)

3335-93-05 Quorum.

At least a majority of the current membership of the board shall be necessary for a quorum. (B/T 5/2/80)

3335-97-03 Joint conference committee.

(A) Purpose. The joint conference committee shall be a forum for discussion of medical policy and practice in the university hospitals and shall advise the board concerning hospitals patient care goals, policies, standards of care, and general operating problems. All recommendations of the medical staff to the board shall first be sent to the joint conference committee for its consideration and recommendation before being acted upon by the board. The committee shall perform such other duties as shall be given it by the board and shall also have the following specific duties:

- (1) Accreditation. The committee shall be responsible for advising the hospitals board on all matters relevant to maintenance of joint commission on accreditation of hospitals' accreditation. The committee shall monitor hospitals operation to identify areas of potential non-compliance with joint commission on accreditation of hospitals' standards and shall make recommendations to the hospitals board and to the medical staff for appropriate action.
- (2) Disaster planning. The committee shall be responsible for the development and maintenance of methods for the protection and care of hospitals patients and others at the time of internal and external disaster.
- (3) Medical staff appointments. The committee shall make recommendations to the board on all applications for appointment or reappointment to the medical staff of the hospitals, and on all matters dealing with suspension or revocation of privileges of members of the medical staff, as may be provided under the bylaws of the medical staff.
- (4) Medical staff bylaws, rules, and regulations. The committee shall recommend to the hospitals board all bylaws, rules, and regulations governing the activities of the medical staff, or amendments thereto, that it may consider necessary to assure proper patient care.
- (5) Medical staff liaison. The committee shall advise the hospitals board on any communications, requests, or recommendations presented by the medical staff through its duly authorized representatives. The committee shall receive and consider all reports on the work of the medical staff organization and make such recommendations to the board as it considers to be in the best interest of the hospitals. The committee shall also receive and consider issues that may arise in the planning and operation of the hospitals that affect the relationship of the board, hospitals management, and medical staff organization.

June 10, 1982 meeting, Board of Trustees

**UNIVERSITY HOSPITALS BOARD BYLAWS (contd)**

- (B) Composition. The hospitals board shall be represented on the joint conference committee by five (5) members of the hospitals board to be appointed annually by the hospitals board chairman.

**Establishment of Named Funds**

**The Roy M. Kottman Scholars Program**

The Roy M. Kottman Scholars Program was established June 10, 1982, by the Board of Trustees of The Ohio State University with gifts from alumni, friends, and colleagues of Roy M. Kottman, Vice President for Agricultural Administration and Executive Dean for Agriculture, Home Economics and Natural Resources.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income will be used to support undergraduate scholarship(s) for students enrolled in education programs administered by or through the College of Agriculture and Home Economics. Scholarships will be awarded by the Office of Student Financial Aids based upon the recommendations of the Roy M. Kottman Scholars Selection Committee. Basis for the awards will encompass high academic achievement, demonstrated leadership, strong communication skills, enthusiasm, and dedication. Financial need will not be a primary consideration.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the Vice President for Agricultural Administration or from the appropriate administrative official of the University who is then responsible for study related to the field of agriculture.

**The John H. Moore Memorial Loan Fund**

The John H. Moore Memorial Loan Fund was established June 10, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the estate of Ola K. Moore, Marion, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used for loans to needy and worthy students at the OSU Marion Campus, preferably those who intend to enter the fields of architecture, engineering or medicine, with architecture as the first preference. The selection of the recipient(s) is to be made in cooperation with the Dean of the OSU Marion Campus.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever at the Marion Campus of OSU as determined by the Board of Trustees with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for the education of students in and from the Marion, Ohio, area.

**The Richard Stow Research & Lectureship Fund**

The Richard Stow Research & Lectureship Fund was established June 10, 1982, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Toshihio Tajima, M.D., Miyazaki-ken 881, Japan.

All gifts are to be invested in the University's Permanent Endowment Fund under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The principal and/or the annual income is to be used to provide a resident research award. In addition, an honorarium and travel expenses are to be given to a visiting lecturer. These awards are to be presented at the Richard Stow Awards Banquet which is held yearly.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for the College of Medicine.

**The Dr. Vincent Cranston Ward Memorial Scholarship Fund**

The Dr. Vincent Cranston Ward Memorial Scholarship Fund was established June 10, 1982, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Lawrence B. Leiby, CDR USNR (Ret.), B.A. '40, Geology, in honor and memory of his friend and benefactor, Dr. Vincent Cranston Ward, M.D. '29.

This gift is to be invested in the University's Investment Portfolio under the rules and regulations adopted by the Board of Trustees of The Ohio State University with the right to invest and reinvest as occasion dictates.

Ten percent (10%) of the annual income is to be applied to the principal each year with the remaining ninety percent (90%) of the income used to provide a scholarship, with first preference to a student who is a resident of Wayne County, Ohio, and who is a first-year student in the College of Medicine. Second preference shall be given to a student who resides in Delaware County. Third preference shall be given to a student who resides in Ashland County. The scholarship is renewable for so long as the student maintains the appropriate academic and need criteria.

Should the need for this scholarship cease to exist or so diminish as to provide unused income, then the income shall be used for any purposes whatsoever as determined by the Board of Trustees, with preference being given to assist in research in heart disease and psoriasis.

**The David Z. Saylor Memorial Award**

The David Z. Saylor Memorial Award was established June 10, 1982, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund by Anne C. and Mark L. Saylor in memory of their son, David Z. Saylor, M.D., who was awarded his degree posthumously June, 1980.

All gifts are to be invested in the University's Permanent Endowment Fund under the rules and regulations adopted by the Board of Trustees of The Ohio State University with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide an award to the senior medical student who exhibits outstanding proficiency in the Cardiovascular Teaching Laboratory. The selection shall be made by the Cardiology Division Director, Department of Internal Medicine, College of Medicine of The Ohio State University.

Should the need for this fund cease to exist or so diminish as to provide unused funds, then the income may be used for any medical purpose whatsoever as determined by the Board of Trustees in conjunction with a representative of the family heirs, who shall jointly decide the distribution of the income and its specific purpose.

**Allan C. Barnes Endowment Fund**

The Allan C. Barnes Endowment Fund was established June 10, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund by alumni, residents, fellows, and friends from The Ohio State University, Case Western Reserve University, and Johns Hopkins University.

All gifts are to be invested in the University's Permanent Endowment Fund under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The principal and/or income is to be used to support scholarly activities including lectureships in the name of the fund.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for the College of Medicine.

##### **The William Ray Flesher Professorship in Educational Administration Fund**

The William Ray Flesher Professorship in Educational Administration Fund was established June 10, 1982, by the Board of Trustees of The Ohio State University with a bequest to The Ohio State University Development Fund from Marie Adamson Flesher, M.A. '35, Ph.D. '51, and William Ray Flesher, M.A. '35, Ph.D. '42, of Little Rock, Arkansas. The name of the fund is to be changed to "The William Ray and Marie Adamson Flesher Professorship in Educational Administration" after the demise of Dr. Marie A. Flesher.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide support for the work of a distinguished scholar in the field of educational administration. Appointment to the Flesher Professorship will be recommended by the Dean of the College of Education to the Provost and approved by the Board of Trustees.

Should the need for this faculty position cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for educational administration.

##### **The Adelaide "Babs" McNamara Memorial Fund**

The Adelaide "Babs" McNamara Memorial Fund was established June 10, 1982, by the Board of Trustees of The Ohio State University. The fund is made possible by gifts from the friends and family of Adelaide McNamara, a graduate of the College of Law.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The income from this fund is to be used to support programs in the College of Law directed at enhancing the enrollment of, and dealing with the special problems of, female law students. The income may also be used to help with the special problems presented by a law student parent with primary responsibility for the care of a minor child or children. The Dean of the College of Law shall determine how to spend the income to achieve these purposes.

Should the need for The Adelaide "Babs" McNamara Memorial Fund cease to exist or so diminish as to provide unused income, the income may be used for any purpose whatsoever as determined by the Board of Trustees with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for legal education.

Change in Name and Description of Named Fund

The Newton D. Baker Memorial Fund

The Newton D. Baker Memorial Scholarship Fund was established February 1, 1974, by the Board of Trustees of The Ohio State University with initial gifts from John D. Drinko, LL.B. '44, of the law firm of Baker, Hostetler and Patterson, Cleveland, Ohio, and several of his friends in memory of the firm's founder, Newton D. Baker, who was also a loyal benefactor and Chairman of the Board of Trustees of The Ohio State University.

All gifts allocable to this fund are to be invested in the University's Permanent Endowment under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to support the Newton D. Baker Designated Professorship of Law. The designated professorship is created to recognize the work of a distinguished scholar and teacher in the College of Law. Appointment to the Newton D. Baker Designated Professorship of Law will be recommended to the Provost by the Dean of the College of Law for approval by the Board of Trustees. If at any time the annual income is greater than that necessary in the opinion of the Dean of the College of Law to support the designated professorship, or if the designated professorship should be vacant, the available income may, in the discretion of the Dean of the College of Law, be added to the principal of the fund, used to award a Newton D. Baker scholarship to one or more students in need of financial aid, or for one or more Newton D. Baker Summer Research Fellowships for faculty members of the College of Law.

A designated professorship will be established initially, and at such time as sufficient funds are made available, the faculty position will be converted to an endowed professorship.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for law education.

**PURCHASE OF REAL PROPERTY  
143 ACRES IN WAYNE COUNTY, OHIO**

Resolution No. 82-123

*Synopsis: Authorization to purchase two parcels of real property in Wayne County, Ohio, is requested.*

WHEREAS the Carl E. and Edith Schaffter real property comprising 99 acres, more or less, improved with a residence, bank barn, equipment storage, and other buildings, described as being the west half of the southeast quarter of Section 23 and part of the northwest corner of the northeast quarter of Section 16 in Franklin Township, Wayne County, Ohio, is being offered for sale; and

WHEREAS the Alden and May Schaffter real property comprising 44 acres, more or less, and described as being part of the east part of the southeast quarter of Section 23 in Franklin Township, Wayne County, Ohio, is being offered for sale; and

WHEREAS the west boundary of the Alden and May Schaffter property is common to the east boundary of the Carl E. and Edith Schaffter property, forming a single contiguous unit of 143 acres, more or less, located adjacent to property of the Ohio Agricultural Research and Development Center; and

WHEREAS over the years the expansion of physical facilities and programs at OARDC and the Agricultural Technical Institute has infringed on research plot land availability, and the purchase of these two properties will alleviate this loss and provide uniform soil and topographic plot land relatively virgin and free from repeated fertility, tillage, chemical and other research treatments, and the release of land presently utilized by the Department of Agronomy for all aspects of agronomic crop research is needed for use by the Departments of Plant Pathology and Entomology for pest management and related research; and

June 10, 1982 meeting, Board of Trustees

**PURCHASE OF REAL PROPERTY  
143 ACRES IN WAYNE COUNTY, OHIO (contd)**

WHEREAS the proximity of these two properties will provide operating efficiencies which purchases of non-adjacent land would not provide; and

WHEREAS funds are available from Captial Improvements Appropriation No. 320-029 contained in Amended Substitute House Bill 552; and

WHEREAS these properties and improvements have been appraised at values of \$275,600 and \$275,000 for the Carl E. and Edith Schaffter property and \$103,500 and \$101,200 for the Alden and May Schaffter property; and

WHEREAS the Vice President for Agricultural Administration and the Acting Director of OARDC have negotiated with the owners for purchase prices of \$275,000 (Carl E. and Edith Schaffter), and \$100,000 (Alden and May Schaffter), contingent upon Board of Trustees approval:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Vice President for Business and Finance be authorized to purchase, in the name of the State of Ohio for the use of The Ohio State University, the property owned by Carl E. and Edith Schaffter at a price of \$275,000 and the property owned by Alden and May Schaffter at a price of \$100,000.

Upon motion of Mr. Galbreath, seconded by Mr. Berry, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

**COMMENTS BY PRESIDENT EDWARD H. JENNINGS**

President Jennings:

Mr. Chairman, that completes my report. I would like to just take a minute and to thank Mr. Gilson for all the work he's done for this University during the past year as Chairman of the Steering Committee. Dick, it was a difficult year and any credit that is to be given should be given to you and your colleagues on the Steering Committee as well as the Faculty Council and the University Senate, but without your help, it would have been a much more difficult year and we appreciate that an awful lot.

And, Mr. Asher, welcome; we'll work you over pretty good, too. We've got a politician now. Although, those faculty members who are not politicians are members of the null set--is that--

And we have a great event tomorrow. It's going to be a great event for me--my first time in the Stadium. I tell you, I know I'm going to be in a ton of trouble because I'm told that that event has not been rained out in 31 years, and I'm not anxious to be the first in 31 years to have it rained out. But I would like to note that if the creeks don't rise, we're going to have a new professor at Ohio State University; he won't actually, but now our special assistant for state relations, Bill Napier, an old country boy from Tennessee and I don't see him here, is now going to have to have a little new respect because as of tomorrow afternoon, he will be Dr. Napier; he will be receiving a Ph.D. from Ohio State University in political science, and now he'll really give us trouble because he'll be one of them, right! But I'd like to congratulate Bill. That's all I have, Mr. Chairman.

Thereupon the Board adjourned to meet Friday, July 9, 1982, at Franz Theodore Stone Laboratory, Gibraltar Island, Ohio, at 12:00 noon.

Attest:

**ADOPTION OF NEW RULE 3335-5-582 (FISCAL COMMITTEE)  
OF RULES OF THE UNIVERSITY FACULTY**

Resolution No. 83-1

*Synopsis: A new rule 3335-5-582 (Fiscal Committee) is being proposed.*

WHEREAS temporary fiscal committees, advisory to the President, have functioned in the recent past during periods of financial stress; and

WHEREAS the Steering Committee, the Ad Hoc Committee on the Release of Tenured Faculty, and the Select Rules Committee on the Release of Tenured Faculty concur, along with other concerned groups, on the desirability of establishing a permanent, continuing Fiscal Committee, charged to develop and apply fiscal expertise in prosperous as well as recessionary times; and

WHEREAS continuity in consideration of fiscal matters is preferable to crisis orientation; and

WHEREAS functioning of rules now in preparation by the Select Rules Committee presupposes the establishment and operation of a permanent Fiscal Committee:

**RULE**

**3335-5-582 Fiscal committee.**

(A) The fiscal committee shall consist of fifteen members as follows:

- (1) Five members of the university faculty, at least two of whom must be senate members, shall be nominated by the faculty council for three-year terms; two members to be elected the first year, and every third year thereafter, and one member to be elected in each of the other years.
- (2) Two members of the university faculty to be appointed by the president for three-year terms, one member to be appointed the first year and every third year thereafter, and one member initially appointed for a two-year term.
- (3) Four members shall be students: one graduate student appointed by the president of the council of graduate students with the approval of the council of graduate students; one professional student appointed by the president of the graduate-professional council; and two undergraduate students appointed by the president of the undergraduate student government with the approval of the undergraduate student assembly. At least one of the students shall be a member of the university senate; this should be on a rotating basis beginning with the graduate student representatives. Each student member shall be appointed for a two-year term and be eligible for reappointment except the first year, when one of the undergraduate students shall serve a term of only one year.

July 9, 1982 meeting, Board of Trustees

**ADOPTION OF NEW RULE 3335-5-582 (FISCAL COMMITTEE)  
OF RULES OF THE UNIVERSITY FACULTY (contd)**

3335-5-582 Fiscal committee. (contd)

- (4) Two staff members for two-year terms, appointed by the president.
  - (5) Two administration members, appointed by the president, non-voting.
  - (6) The chairman shall be elected from among the voting members of the committee.
  - (7) A voting member who has completed a full term shall not be eligible for appointment or election for one year after such service.
- (B) The committee shall review, on a continuing basis, the fiscal resources of the university and advise the president on the alternatives and strategies for the long-term and short-term allocation of resources among academic and non-academic areas consistent with maintaining the missions of the university. The committee shall have full access to all fiscal documentation it needs to perform its functions. The committee shall analyze resources and budgets from an overall university-wide perspective, rather than making a detailed analysis of the budgets and expenditures of individual units within the university.
- (C) In the event of an imminent financial crisis, the committee will advise the president whether a determination of financial exigency is warranted.
- (D) The committee will report to the university senate at least annually.

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees adopt the proposal as approved by the University Senate at its meeting June 8, 1982, for the establishment of a Fiscal Committee, effective July 1, 1982.

Upon motion of Mr. Hilliker, seconded by Mr. Immke, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Mr. Havens: Is that a regularly scheduled type of meeting group? I see it is 15 people.

President Jennings:

Yes--it would be a--hoping, Jack, that that's going to evolve much more into a longer term planning, and still if we have a financial crisis problem, we're going to have to work with that group. Essentially, the budget recommendations that we made last May were developed by myself, my staff, in consultation with the ad hoc committee that we had formed. We're trying to move this more into a long-range activity for anywhere from general allocations to how we might reallocate funds in the institution to do a better job in the institution. I think this, if you will, institutionalizes it, and frankly, I look forward to working with them.

**WAIVER OF PARAGRAPH (G) OF BYLAW 3335-1-08  
OF THE ADMINISTRATIVE CODE**

Resolution No. 83-2

*Synopsis: Request to waive paragraph (G) of bylaw 3335-1-08 of the Administrative Code for the naming of the Agronomy, Natural Resources and Plant Pathology Building.*

WHEREAS the Board of Trustees of The Ohio State University did, on January 9, 1976, amend paragraph (G) of bylaw 3335-1-08 of the Administrative Code to state "that buildings and structures shall not be named for any person who is an officer or employee of the University or the State of Ohio, but may be named for a person who has been retired or has otherwise left such a position for a minimum of three years"; and

WHEREAS the President wishes to recommend that the Agronomy, Natural Resources and Plant Pathology Building be named to honor Roy M. Kottman who has retired as Vice President for Agricultural Administration and Executive Dean for Agriculture, Home Economics and Natural Resources:

NOW THEREFORE

BE IT RESOLVED, That paragraph (G) of bylaw 3335-1-08 of the Administrative Code be waived so that the Agronomy, Natural Resources and Plant Pathology Building can be named for a living person.

Upon motion of Mr. Immke, seconded by Dr. Jacob, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

**NAMING OF BUILDING**

Resolution No. 83-3

*Synopsis: Naming of Agronomy, Natural Resources and Plant Pathology Building.*

WHEREAS pursuant to the authority of this Board in naming of all buildings at The Ohio State University as set forth in paragraph (G) of bylaw 3335-1-08 of the Administrative Code; and

WHEREAS the President recommended, with the concurrence of the President's Staff, that the Agronomy, Natural Resources and Plant Pathology Building, located at 2021 Coffey Road, be named in honor of Roy M. Kottman, who is widely known for his leadership in agriculture and served as Dean of the College of Agriculture for 22 years:

NOW THEREFORE

BE IT RESOLVED, That the above described building be named Roy M. Kottman Hall to honor Dr. Kottman.

Upon motion of Mr. Hilliker, seconded by Mr. Immke, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

**DEGREES AND CERTIFICATES - SUMMER QUARTER COMMENCEMENT**

Resolution No. 83-4

*Synopsis: Approval is being requested for awarding degrees and certificates for Summer Quarter Commencement.*

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit the names of persons who have completed degree and certificate requirements in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees:

NOW THEREFORE

**RESTRUCTURING OF THE UNIVERSITY ADMINISTRATION--  
AMENDMENTS TO BYLAWS OF THE BOARD OF TRUSTEES  
AND RULES OF THE UNIVERSITY FACULTY**

Resolution No. 83-6

*Synopsis: Amendments to Bylaws of the Board of Trustees and Rules of the University Faculty are proposed to reflect title changes and the delineation of responsibilities in accordance with the recommended restructuring of the University administration.*

WHEREAS as a part of the restructuring of the university administration, amendments to the Bylaws of the Board of Trustees and Rules of the University Faculty are necessary to effectuate the changes proposed; and

WHEREAS paragraph (E) of bylaw 3335-1-03 and rule 3335-3-05 set forth the members of the president's staff and incorporate changes made pursuant to the proposed restructuring of the central administration of the University; and

WHEREAS the recommendation is being made to change the title of the position of provost to that of vice president for academic affairs and provost, and to accommodate this change, bylaw 3335-1-03 paragraph (F) and rule 3335-3-06 need to be amended; and

WHEREAS a new position to be known as vice president for research and graduate studies is being proposed which requires the addition of paragraph (O) to bylaw 3335-1-03 and new rule 3335-3-154; and

WHEREAS the position of vice president for health sciences is being eliminated and the new position of vice president for health services is being recommended with responsibilities as set forth in paragraph (J) of bylaw 3335-1-03 and new rule 3335-3-12; and

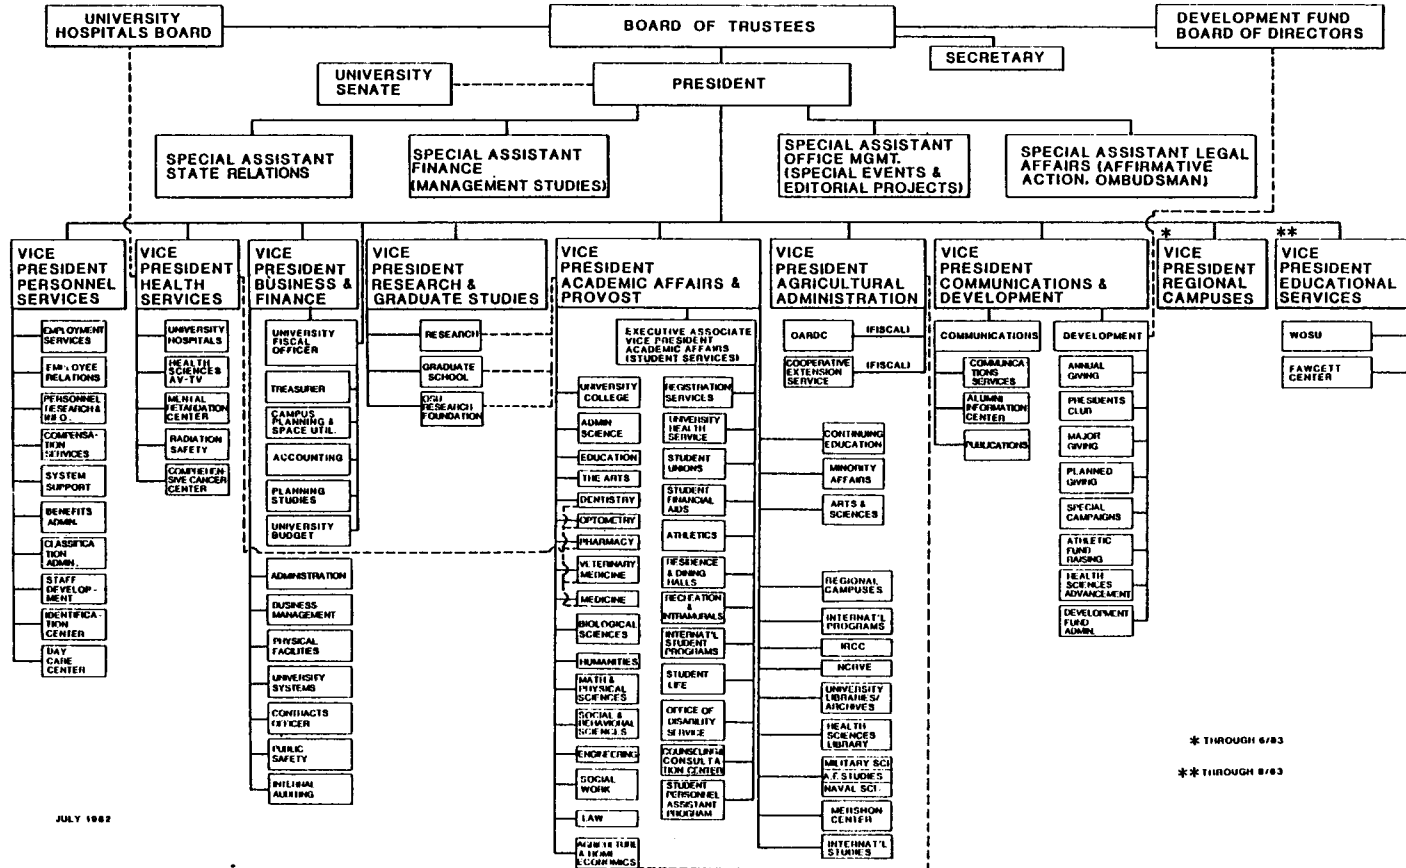

WHEREAS with the elimination of the Office of Vice President for Health Sciences, modifications of paragraph (S) of bylaw 3335-1-03 and rule 3335-3-22 are necessary, and to abolish the health sciences council paragraph (V) of bylaw 3335-1-03 and rule 3335-5-481 are hereby recommended for deletion from the publication in the future; and

WHEREAS a new reporting relationship is being proposed for the Office of Student Services, i.e., to report through the Office of Academic Affairs, with the head of that office to be designated the executive associate vice president for academic affairs (student services) these changes to be accomplished through the deletion of paragraph (I) of bylaw 3335-1-03, the elimination of rule 3335-3-09, and the addition of a new rule 3335-3-174; and

WHEREAS to further the updating of the Bylaws of the Board of Trustees and Rules of the University Faculty it is recommended that the proposed title changes/designations be made in all applicable bylaws and rules and shall be incorporated in the next printing of these official documents; and

WHEREAS pursuant to rule 3335-1-09 of the Administrative Code and upon the recommendation of the President, the rule changes as printed on the following pages are proposed:

**RESOLUTION IN MEMORIAM**

Resolution No. 83-8

*Synopsis: A resolution honoring the service of a former member of the Board of Trustees who has recently died is being proposed.*

RESOLVED, That the Board adopt the following Resolution in Memoriam and that the President be requested to convey a copy to the family of the deceased.

Upon motion of Mr. Immke, seconded by Dr. Jacob, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

July 9, 1982 meeting, Board of Trustees

**RESOLUTION IN MEMORIAM (contd)**

Jack G. Gibbs

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 22, 1982, of Jack G. Gibbs, former member of the Board of Trustees.

Mr. Gibbs was appointed as a Trustee of The Ohio State University by Governor James A. Rhodes to fill an unexpired term beginning April 9, 1969 and ending May 13, 1970, with Mr. Gibbs taking office May 5, 1969.

Mr. Gibbs graduated from West High School. He received his Bachelor of Science in Education degree in 1954 and Master of Arts degree in 1957, both from The Ohio State University. While at Ohio State he played varsity football and was a member of the team that won the Rose Bowl in 1955.

Mr. Gibbs began his career in education as a history teacher at Central High School. In 1960, he became Assistant Principal at Franklin Junior High School. He was appointed Assistant Principal at East High School in 1963 and then served as Principal from 1967 to 1971. In 1972, he was appointed Executive Director of the Metropolitan Career Center, now the Ft. Hayes Career Center.

A dynamic educator and community leader, Mr. Gibbs touched the lives of many people and had a positive impact on students of all backgrounds.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy in their bereavement.

**Establishment of Named Fund**

**The W. Arthur Cullman Business Policy Support Fund**

The W. Arthur Cullman Business Policy Support Fund was established July 9, 1982, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the family and friends of W. Arthur Cullman.

All gifts are to be invested in the University's Permanent Endowment Fund under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used as recommended by the appropriate faculty chairperson and as approved by the Dean of the College of Administrative Science to improve the various programs in policy and marketing.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for marketing education.

**WAIVER OF GROUP LIFE POLICY REQUIREMENT FOR HAROLD L. ENARSON**

Resolution No. 83-13

*Synopsis: The waiver of a policy requirement pertaining to Group Life Insurance for retired employees of The Ohio State University is proposed.*

WHEREAS the Board of Trustees of The Ohio State University adopted on April 10, 1959, a resolution which states that employees who retire after age 55 with at least ten years of service may continue their group life insurance to age 70, provided said employees are eligible to receive retirement benefits under any entitlements administered by the State of Ohio; and

July 9, 1982 meeting, Board of Trustees

**WAIVER OF GROUP LIFE POLICY REQUIREMENT FOR HAROLD L. ENARSON (contd)**

WHEREAS this Board wishes to ensure the continued coverage President Emeritus Harold L. Enarson has under the Group Life Insurance program:

NOW THEREFORE

BE IT RESOLVED, That the policy requirement which stipulates that "employees who retire after age 55 with ten years of service" is hereby waived in the case of President Emeritus Harold L. Enarson; and

BE IT FURTHER RESOLVED, That pursuant to this action, upon the remittance of the appropriate premiums, President Emeritus Harold L. Enarson may continue to be covered under the Group Life Insurance program on the same basis as all other eligible retired faculty and staff members as defined in the appropriate certificate of insurance.

Upon motion of Dr. Jacob, seconded by Mr. Havens, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

**EXPRESSION OF APPRECIATION TO JUDGE ROBERT M. DUNCAN**

Resolution No. 83-16

WHEREAS upon creation in 1980 of the University Hospitals Board, Judge Robert M. Duncan was asked by the Board of Trustees to serve on the new board; and

WHEREAS Judge Duncan was elected Chairman of that board and served in that capacity during his two years of Hospitals Board membership; and

WHEREAS his leadership as Chairman of that board encompassed the initial organizational stages of the board, a period which is one of the most challenging and difficult for any organization; and

WHEREAS Judge Duncan's brilliant leadership and working faith during these last two years epitomize the personal and professional qualities which have been recognized over time; and

WHEREAS Judge Duncan's resolve, dedication and support of the University beyond his service on the Hospitals Board have been evidenced in innumerable ways over the years:

July 9, 1982 meeting, Board of Trustees

**EXPRESSION OF APPRECIATION TO JUDGE ROBERT M. DUNCAN (contd)**

NOW THEREFORE

BE IT RESOLVED, That The Ohio State University and the Board of Trustees express to Judge Robert M. Duncan their deep gratitude in recognizing and saluting him for his two years of service as member and first Chairman of the University Hospitals Board; and

BE IT FURTHER RESOLVED, That the Trustees look forward to a continuing positive and productive association with Judge Duncan and hope to be able to find new ways to utilize his vast talents and energies toward the continued enhancement of the missions of The Ohio State University, and more specifically, the work of the University Hospitals.

Upon motion of Mr. Havens, seconded by Dr. Jacob, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

### **Dr. John Peter Minton**

Doctor John Peter Minton has earned four degrees from The Ohio State University: a bachelor of science in 1956, a doctor of medicine in 1960, a master of medical science in surgery in 1966, and a doctorate in microbiology in 1969. He was certified by the American Board of Surgery in 1969 and has been a licensed practicing physician in the state of Ohio since 1960. Throughout his career, Dr. Minton has been in the forefront of cancer research and treatment. He pioneered laser cancer research as early as 1963. As the American Cancer Society Professor of Clinical Oncology at Ohio State, he is an active and innovative cancer practitioner. His major areas of clinical investigation involve primary and secondary breast and colon cancers, metastatic liver cancer, and melanoma. He served as clinical associate at the National Cancer Institute and as Clinical Cancer Fellow at the American Cancer Society. The winner of the Mead Johnson Award for Graduate Training in Surgery, he is also the recipient of many other awards for teaching, research, and practice. Dr. Minton is a member of many honoraries and professional associations—including the American Medical Association, the Royal Society of Health, the Societe Internationale de Chirurgie, and the American College of Surgeons. An eminent teacher, an internationally recognized leader in his field, and a gifted speaker, he has distinguished himself and this University through his life and work, and his record of achievement cannot be done justice in these brief remarks. The University takes special pride in having one of its most distinguished alumni address the graduates of this its 281st commencement.

## Recipients of Honors

### **John Wilson Black**

Doctor of Humane Letters

Dr. John Black's many contributions to the development of speech and hearing science have enriched his profession and have brought him national and international recognition as a scholar and a researcher. For over fifty years he has conducted research on the understanding of the speech process and on hearing disorders, as well as extensive studies of children's ethnic speech patterns. Dr. Black has been selected as an international consultant for his expertise on industrial noise and its effects, and he directed the Army Air Force Voice Communication Laboratory during World War II. The Presidential citation he received for this work is only one of many he has been given in recognition of his unique capabilities. A scholar and researcher for over fifty years, he has earned a reputation as a highly effective teacher, and many of his students have achieved national reputations as scholars, teachers, and administrators. Dr. Black is a prolific author, having written seven books and published over 100 articles in professional journals. A Fulbright Scholar, he is also a fellow of the National Science Foundation and an honorary member of Phi Beta Kappa. The University is privileged to honor Dr. Black for his many contributions to speech and hearing science and to higher education.

### **Russell W. Peterson**

Doctor of Humane Letters

Dr. Russell Peterson, the president of the National Audubon Society, is a nationally recognized scientist and environmentalist. A businessman, community leader, former state governor, and federal executive, he has a unique combination of skills that have brought him national recognition in both the public and the private sectors. After receiving his Ph.D. in chemistry from Harvard University in 1942, he began his business career with the Du Pont Company. He served for 26 years in research, development, production, and sales and then ran for and won the office of governor of Delaware. As governor, he was responsible for numerous innovations in the structure of that state's government. A committed environmentalist, Dr. Peterson served as chairman of the U.S. Council on Environmental Quality and was a board director of the U.S. Association for The Club of Rome and of the World Wildlife Fund. He founded New Directions, a citizen's group that lobbies on global issues. His numerous awards include the World Wildlife Fund Gold Medal, the American Academy of Achievement Golden Plate Award, and the National Wildlife Federation's Conservationist of the Year Award. Dr. Peterson reflects both the scope and direction of informed leadership that Ohio State seeks to inculcate in its student body. The University community takes great pride in bestowing upon Dr. Peterson its highest honor for his outstanding efforts at making our world a better place in which to live.

## **George Ledyard Stebbins**

Doctor of Science

Professor G. L. Stebbins is one of the world's leading authorities on the evolution of plants. He has extensively researched the evolutionary processes in natural populations and the origin of species of plants native to California, as well as certain cereals and grasses of economic importance. His book, *Variation and Evolution in Plants*, published in 1950, demonstrated how genetics and chromosomal variation apply to plant evolution. This book has guided plant geneticists, evolutionists, and plant breeders throughout the world. He has written five other books and published numerous articles. Since joining the faculty of the University of California, Professor Stebbins has taught both graduate and undergraduate students and has recently developed courses that combine the study of biology and the liberal arts. In recognition of his excellent teaching skills, he was awarded a Distinguished Teaching Award by the University of California, Davis. Professor Stebbins' knowledge of plant evolution and the plant distribution and native habitats of California has enabled him to serve as an effective spokesman for the preservation of important natural areas in the state. A graduate of Harvard University, he was awarded a Guggenheim Fellowship in 1954 and again in 1960. Professor Stebbins is a member of many honoraries and learned societies, including the National Academy of Science, the American Academy of Arts and Sciences, and the American Philosophical Society. In bestowing this honor, the University seeks to recognize Professor Stebbins for his longstanding commitment to his community, to his profession, and to higher education in general.

**RESOLUTIONS IN MEMORIAM**

Resolution No. 83-21

*Synopsis: Resolutions honoring the service of nine of this University's faculty members who have recently died are being proposed.*

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Upon motion of Mr. Immke, seconded by Mr. Havens, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

William James Blackburn

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 24, 1982, of William James Blackburn, Associate Professor Emeritus in the College of Social Work.

Dr. Blackburn was born October 18, 1891, in Salem, Ohio. He received his Bachelor of Science in Social Administration degree in 1920, his Master of Arts degree in 1923, and his Doctor of Philosophy degree in 1934, all from The Ohio State University. In addition, he studied at the University of London, England, University of Leiden, Holland, and the University of Chicago.

Dr. Blackburn joined The Ohio State University faculty in the School of Social Administration as an Instructor in 1931. He was promoted to Assistant Professor in 1936 and then to Associate Professor in 1944. He retired in 1957.

**RESOLUTIONS IN MEMORIAM (contd)**

William James Blackburn (contd)

Dr. Blackburn was a most able member of the faculty of the School of Social Work for many years. He learned from a great variety of social service experiences in settlement neighborhoods of Columbus and Chicago and through extensive travel elsewhere in the United States and most of Western Europe. He knew well the many problems of the Italians, Blacks, Appalachians, or other new migrants struggling for a start in the urban ghetto.

Dr. Blackburn held membership in the National Association of Social Workers, National Conference of Social Welfare, American Association of University Professors, and National Probation Association.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Lauren F. Brush

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 23, 1982, of Lauren F. Brush, Associate Professor Emeritus in the Academic Faculty of Accounting.

Professor Brush was born in Wisconsin, in November, 1904. Prior to coming to Ohio State, he was on the faculty at the University of Wisconsin, Syracuse University, and Louisiana State University. A CPA with two degrees earned at the University of Wisconsin, he taught the required undergraduate course in management accounting for many years. His professional area of interest was cost accounting. He was an Assistant Professor at Ohio State from 1954 until 1957 when he was promoted to the rank of Associate Professor.

Professor Brush held active memberships in the American Accounting Association and the National Association of Accountants. He had several publications and book reviews in *The Accounting Review*. From 1958 to 1966, he was the faculty member chiefly responsible for administering the Accounting Hall of Fame.

Professor Brush retired June, 1975, with 20 years of devoted and loyal service.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

**RESOLUTIONS IN MEMORIAM (contd)**

Russell R. Clymer

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 3, 1982, of Russell R. Clymer, Instructor Emeritus in the Cooperative Extension Service.

Mr. Clymer was born April 24, 1893, near Swanton, Ohio. He received his Bachelor of Science degree from The Ohio State University in 1921. He taught vocational agriculture and was assistant superintendent of schools before coming to the Cooperative Extension Service in 1928. Mr. Clymer was the County Agricultural Agent in Defiance County from 1928 until his retirement on December 31, 1957.

Mr. Clymer will long be remembered for his work in founding Camp Palmer in 1946. He also founded the Defiance-Henry Jersey Bull Association, the first bull association in north-west Ohio. He was very active in organizing and promoting various agronomy groups. Mr. Clymer received many awards for his outstanding dedication and service to the agricultural field.

On behalf of the University community, the Board of Trustees expresses to the family of Mr. Clymer its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as sincere appreciation of the Board's realization of the loss that the family, the University and his many friends and associates have sustained.

Mary Jayne Dovenbarger

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 14, 1982, of Mary Jayne Dovenbarger, Assistant Professor Emeritus in the Cooperative Extension Service.

Mrs. Dovenbarger was born July 22, 1915, in Columbus, Ohio. She graduated from North High School. She received her bachelor of science degree in home economics education from The Ohio State University in 1940. She served as home economics agent in Ashland County from 1942 to 1947 and again from 1972 until her retirement on May 31, 1982. Other steps in her career included home economics teacher in Butler County, state extension clothing specialist during the summer of 1947, demonstrator for the Ohio Edison Company, teacher at Ashland High School and teacher at Ashland College.

Mrs. Dovenbarger was described as an outstanding leader in Ashland County who involved the community in whatever projects that were designated to meet the needs and interests of the community.

On behalf of the University community, the Board of Trustees expresses to the family of Mrs. Dovenbarger its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as sincere appreciation of the Board's realization of the loss that the family, the University and her many friends and associates have sustained.

### RESOLUTIONS IN MEMORIAM (contd)

Robert H. Downes

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on July 20, 1982, of Dr. Robert H. Downes, Associate Professor in the College of Dentistry.

Dr. Downes received his D.D.S. degree from West Virginia University College of Dentistry in 1961.

Dr. Downes was a member of the faculty of the College of Dentistry from January 1966 to the present time. He was in private practice from 1961-69.

Dr. Downes was a member of the American Dental Association, Ohio Dental Association, Columbus Dental Society and the American Association of Dental Research. He was also a member of Omicron Kappa Upsilon Dental Honorary Fraternity.

He was engaged in numerous research projects dealing with ceramic implants of teeth in conjunction with the United States Army and Battelle Memorial Institute.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Leo A. Estel

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 15, 1981, of Leo A. Estel, Professor Emeritus in the Department of Anthropology.

Dr. Leo Estel entered the field of anthropology rather late in life after an extensive career in the Merchant Marine. His undergraduate and graduate studies were taken at the University of California, Berkeley, where he received his Doctor of Philosophy degree in anthropology in 1950.

Dr. Estel joined The Ohio State University faculty in the Department of Sociology and Anthropology in 1950. From that time until his retirement twenty years later, Dr. Estel continued to pursue his professional interests in physical anthropology, human variability, and the peasant cultures of the Windward Islands of the Caribbean, where he conducted research on five separate occasions. Articles reporting his research findings appeared in the *American Journal of Physical Anthropology* and other professional publications. He was also an active member of the scholarly associations, Phi Beta Kappa and Sigma Xi, and a fellow of the American Anthropological Association.

Perhaps Dr. Estel's greatest contribution to the University was in the area of teaching. Throughout his career he taught both graduate and undergraduate courses and showed great concern for all of his students. The outstanding quality of his teaching was acknowledged by

the University's Distinguished Teaching Award and by the frequent praise from Ohio State University alumni who recalled his classes with great fondness. When Woody Hayes returned from visiting former OSU students serving in Viet Nam, he wrote to Dr. Estel to tell him that many of these young men had singled him out as their most outstanding teacher.

Dr. Estel's work was a credit to the University. He will be greatly missed and fondly remembered for his professional contributions to the field of anthropology, his constant support for his colleagues, and his unflagging devotion and dedication to his students.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Lawrence C. Holtkamp

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 14, 1982, of Lawrence C. Holtkamp, Instructor Emeritus in the Cooperative Extension Service.

Mr. Holtkamp was born February 6, 1909, in New Knoxville, Ohio. He received his Bachelor of Science degree from The Ohio State University in 1932. He taught vocational agriculture at Green Springs, Ohio, and West Unity, Ohio, from 1932 to 1935. He came to work for the Cooperative Extension Service in December of 1938 as Acting County Agricultural Agent in Henry County. In 1939, he was Assistant County Agricultural Agent in Hancock County and later moved to Champaign and Mercer Counties. Mr. Holtkamp served as County Agricultural Agent in Putnam County from 1940 to 1945; he then moved to Van Wert County as the County Agricultural Agent where he served until his retirement in 1969.

On behalf of the University community, the Board of Trustees expresses to the family of Mr. Holtkamp its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as sincere appreciation of the Board's realization of the loss that the family, the University and his many friends and associates have sustained.

Eunice T. Kochheiser

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on July 9, 1982, of Eunice T. Kochheiser, Professor Emeritus in the Cooperative Extension Service.

Eunice Teal Kochheiser was born March 27, 1896, in McCordsville, Indiana. Her long career in education started at the age of 20 when she began teaching in a primary school in her

home town of McCordsville, Indiana. During the next eight years, she completed her bachelor's degree at Purdue University and taught at three other locations including Cleveland and Indianapolis before going to Montgomery County in 1924 as the home demonstration agent.

She contributed greatly to the development of the Ohio Cooperative Extension Service and its home economics programs: serving six years as an agent, two years as home economics specialist, 17 years as assistant state home demonstration leader, and then three years as supervisor. Her dedication, service and leadership won her several honors and awards including a farm foundation scholarship which she used to obtain her master of education degree at Cornell in 1948.

On behalf of the University community, the Board of Trustees expresses to the family of Mrs. Kochheiser its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees.

John H. Sitterley

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on July 11, 1982, of John Haas Sitterley, Professor Emeritus in the Department of Agricultural Economics and Rural Sociology.

Dr. Sitterley was born in Canal Winchester, Ohio, in 1905. His deep roots in Fairfield County agriculture provided strong support for a productive life. His pride and ambition for the development of Sitterley Farms was an important concern. This farming foundation provided him the ability to better understand many events and enabled him to relate economic, political and social change to the well-being of all people.

Eight grades of formal education were provided in a one-room school located near the home farmstead. Four years of secondary education at Lithopolis via a Model T Ford provided the foundation for enrolling at The Ohio State University. He earned a Bachelor of Science in Agriculture degree in 1928 and in that year joined the staff of the Department of Rural Economics. He received a Master of Science degree from OSU in 1932 and in 1936, became an Assistant Professor. In 1944, he received the Doctor of Philosophy degree and was promoted to Associate Professor in the Department of Rural Economics and Rural Sociology. In 1947, Dr. Sitterley became a full Professor.

For approximately fifteen years thereafter, Dr. Sitterley guided the teaching and research program in farm management and land economics. By his own efforts as a teacher and researcher and by the example he set, John Sitterley was the leader of farm management and land economics in Ohio. During this period, he served as Chairman of the North Central Region Farm Management Committee, represented the Experiment Station and the University on the State Conservation Needs Committee and for 12 years served as Secretary-Treasurer of the Ohio Society of Farm Managers and Rural Appraisers. In the Spring of

John H. Sitterley (contd)

1958, Dr. Sitterley was voted by students as one of the top ten professors at The Ohio State University. In 1960, he received the OSU Alumni Award for Distinguished Teaching.

In 1964, John and his wife moved to Piracicaba, Brazil, to accept one of the most challenging and difficult assignments this University has offered. The task was to develop a relationship--to lay a foundation for building a program of educational assistance between OSU and ESALQ. Dr. Sitterley was first Chief of Party and served in that capacity for four years.

John was respected by those persons close to him, especially his department peers. As often stated by one colleague, John H. Sitterley was both a "gentleman and a scholar." John evolved from rural America and developed the sophistication and grace to relate with comfort to all people. Not only did he enjoy a long and productive tenure of 47 years at OSU, his interest and ability to challenge and evaluate each new event was appreciated by and benefitted all. His concern for equity, truth and the well-being of people enabled Dr. Sitterley to be a most respected teacher, advisor and colleague.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

**ENROLLMENT**

President Jennings:

During the Educational Affairs Committee, Mr. Chairman, we did have a very interesting report on our enrollment prospects. And judging from a comment I just heard from a reporter, I think it is worth reemphasizing that our enrollment projections are within plan; we are not expecting major declines in enrollment; we're expecting to be within the enrollment ceilings established by the General Assembly.
