V. REPORTS

A. Report on Enrollment

President Enarson reported that the unofficial enrollment figures for Autumn Quarter 1975 show 54,640 students enrolled at all campuses, up two per cent from last fall. The Columbus campus has 50,095 students, representing a two per cent gain over Autumn Quarter 1974. Various trends and breakdowns of current and past enrollments were also presented at this time.

B. Wright Airlines Use of Don Scott Field

President Enarson reviewed a situation which has developed at Don Scott Field in which Wright Airlines, Inc., is operating a scheduled airlines service between Cleveland and the Field without authorization of the Board of Trustees.

After a brief discussion, Mr. Gushman moved, seconded by Mr. Harrod, that the President be authorized to take whatever legal action the University's counsel directs between now and our next Board meeting to preserve the Board's rights at Don Scott Field.

The motion passed unanimously.

C. Report on University Investment Portfolio

The report on the University's Investment Portfolio dated October 3, 1975, as submitted to the Fiscal Affairs Committee of the Board of Trustees, was received and ordered to be filed with the official records of the Board.

VI. GUEST SPEAKER

Mr. James C. Ervin, President of Local 101, Communications Workers of America (CWA), asked and was granted permission to appear before the Trustees. In his presentation Mr. Ervin expressed concern with what he suggested was a breakdown in communication with the administration of this University.

Mr. Dunlap responded:

While this Board is obviously concerned with the issues which you have raised, we consider it inappropriate as a Board to be directly involved in this matter. The Board reserves for its own authority only those matters relating to labor relations policy. And I think clearly the issues which you have presented are ones that the President and his associates must continue to deal with through previously agreed upon procedures.

\* \* \*

Thereupon the Board recessed to discuss collective bargaining in executive session. At the conclusion of this session, the meeting was adjourned to meet Friday, November 7, 1975, at 1:30 p.m., in the Ohio Union.

RESOLUTIONS IN MEMORIAM

President Enarson reported to the Board the deaths of Otto C. Croy, Professor Emeritus in the Cooperative Extension Service, and Eva M. Kinsey, Associate Professor Emeritus in the Cooperative Extension Service. In accordance with the instructions of the Board of Trustees, copies of the following resolutions expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the families of the deceased.

A. Otto C. Croy

The Board of Trustees of The Ohio State University expresses its sorrow at the death on September 24, 1975, of Otto C. Croy, Professor Emeritus in the Cooperative Extension Service.

Mr. Croy was born August 3, 1890, at Dresden, Ohio. He attended high school in Muskingum County at Dresden, graduating in 1909. Mr. Croy received a Bachelor of Science in Agriculture degree from The Ohio State University in 1913. His graduate education was completed at Cornell University with a Master of Science degree being awarded to him in 1928.

Mr. Croy joined the faculty of The Ohio State University as an emergency county leader for 4-H Club work in Muskingum County in March of 1918. He served in this capacity until August 1919 when he moved to The Ohio State University campus as an Assistant State Leader of 4-H Club work. On October 1, 1935, he was named District Supervisor of the Ohio Cooperative Extension Service with responsibility for the northeast district. From January 1, 1950 until the time of his retirement from The Ohio State University on September 30, 1954, he served in the position of Assistant Director of the Ohio Cooperative Extension Service. Upon leaving the Ohio Cooperative Extension Service faculty, he joined the Extension faculty at the United States Department of Agriculture as Assistant Administrator of Programs, and he served in that capacity for approximately six years.

Mr. Croy was a dedicated and highly respected Extension educational leader in the eyes of the Ohio Cooperative Extension Service faculty and among Extension leaders across the nation, as well as by leaders in agricultural industry throughout Ohio. Mr. Croy was highly oriented to helping people and served with both enthusiasm and distinction in every position which he held. He will long be remembered for his outstanding contributions to educational programs conducted by The Ohio State University through the Cooperative Extension Service.

RESOLUTIONS IN MEMORIAM (continued)

A. Otto C. Croy (continued)

On behalf of the University, the Board of Trustees expresses to the family its deepest sympathy in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

B. Eva M. Kinsey

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 13, 1975, of Eva M. Kinsey, Associate Professor Emeritus in the Cooperative Extension Service.

Miss Kinsey was born at Cando, North Dakota, on May 27, 1896. Following high school, she attended Lynchburg College for two years, then Madison College at Harrisonburg, Virginia, for two years, graduating with a Bachelor of Science in Home Economics in 1929. She later pursued graduate education at The Ohio State University.

Miss Kinsey served as Home Demonstration Agent in Stafford County, Virginia, and Washington County, Ohio, before assuming the position of Assistant State 4-H Club Leader at The Ohio State University in 1939. She remained in that position until her retirement on May 31, 1956. Since that time she has made her home in Hot Springs, Virginia, with other members of her family.

Miss Kinsey is best known for her writing and teachings in the area of meditations, vespers, inspiration, and human motivation. She had a unique ability to convey the fundamentals of human relationships and inspiration through ceremonies and presentations where words and music combined to move people to greater aspirations and heights. She also provided leadership in the Ohio 4-H Health Program, in all Home Economics 4-H program areas, and in related youth development endeavors, including the training of voluntary lay leaders. Her influence will be long felt in Ohio and nationally as her publication, "Highlighting the Heart H," continues to be widely used.

On behalf of the University, the Board of Trustees expresses to the family its deepest sympathy in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

President Enarson presented the following recommendations:

I. GENERAL RECOMMENDATIONS

A. Degrees and Certificates Conferred--Autumn Quarter Commencement

President Enarson recommended that degrees and certificates be conferred at the Autumn Quarter Commencement Convocation on November 26, 1975, to those students who have completed the requirements for their respective degrees and certificates and are recommended by the University Senate. The names of those awarded degrees and certificates will be included in the minutes of this meeting. (See Appendix III, page 297.)

B. Honorary Degree

Upon the recommendation of the Committee on Honorary Degrees, the University Senate has approved for recommendation to the Board of Trustees the following person for the honorary degree as indicated:

William M. Kaula            Doctor of Science

Upon motion of Mr. Gushman, seconded by Mr. Harrod, the Board of Trustees approved the foregoing recommendations by unanimous voice vote.

C. Budget Summary - First Quarter, 1975-1976  
(Quarter Ended September 30, 1975)

The current funds budget for 1975-1976 based on revenues and expenditures for the first quarter of this fiscal year--and including revised estimates of subsidy and fee revenues based on the actual Autumn, 1975 enrollments--is presented for your consideration and approval. Except for revisions to estimates of subsidy and fee revenues, there are no significant changes to the current funds budget submitted to and approved by the Board of Trustees on July 11, 1975.

For the Columbus Campus, State subsidy is estimated at 99 per cent of the appropriation. Thus, subsidy for the Columbus programs is estimated to be \$1.1 million less than the July estimate, primarily because of a decrease in the average load taken by graduate students.

However, because of a higher proportion of full-time students, a larger summer enrollment and a slightly higher-than-expected Autumn enrollment, fee revenues for 1975-1976 are now estimated to be \$1.0 million higher than the July estimate. The total subsidy and fee revenues are, therefore, very nearly the same as estimated in July.

November 7, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

C. Budget Summary - First Quarter, 1975-1976  
(Quarter Ended September 30, 1975) (continued)

For the Regional Campuses, State subsidy is estimated at 93 per cent of their appropriations. Fee revenues are projected to be 102 per cent of the July, 1975 estimate. Overall, considering all revenue sources, it has been necessary to lower Regional Campus budgets by an average of 3 per cent.

President Enarson recommended that the accompanying first-quarter budget report be accepted.

Upon motion of Mr. Devenow, seconded by Mr. Gushman, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

Following the presentation of the quarterly budget summary, Mr. Zimmerman presented a series of charts which depicted the changes in the University's income and expenditures based on the figures for actual enrollments for the Summer and Autumn Quarters of 1975.

This project will provide for permanent improvements to eroded and damaged sections of the tunnels on 18th and 19th Avenues. The work on the 18th Avenue portion of the work will be requested as an alternate to the base contract. The work is necessary to prevent complete structural failures resulting in utility outages.

Funds are budgeted in H. B. 687 (Utilities and Renovations 75-77).

Upon motion of Mr. Harrod, seconded by Dr. Jacob, the above recommendation was approved by unanimous roll call vote, and the Secretary was authorized and directed to sign the plans and specifications for the above project for and on behalf of the Board of Trustees. The Vice President for Business and Administration was directed to proceed with the request for bids in the normal University manner, and if satisfactory bids are received to proceed with the award of contracts. All action regarding this matter will be reported to the Board of Trustees at a later meeting.

1. Agreement Between The Ohio State University and the Ohio Board of Regents for the Operation of the Research and Graduate Education Facility at the Transportation Research Center of Ohio

The Board of Regents has requested that The Ohio State University enter into a contract with the Regents for the purpose of managing the research and graduate education facility at the Transportation Research Center of Ohio for the benefit of all institutions of higher education in the State of Ohio. This contract provides that The Ohio State University will be responsible for organizing and convening an Advisory Board comprised of Deans of the Engineering Colleges of the State-assisted and private colleges in Ohio for the purpose of consulting on matters relating to control and management of this facility.

It was recommended that the President and/or the Vice President for Business and Administration of The Ohio State University be authorized to enter into such an agreement with the Ohio Board of Regents for the operation of the research and graduate education facility located at the Transportation Research Center of Ohio, East Liberty, Ohio, for the period July 1, 1975 through June 30, 1977.

B. Report on State Civil Service Paybill

Vice President Madison Scott discussed the financial implications of the State Civil Service Paybill enacted by the 111th General Assembly. With the concurrence of this Committee, these revisions will be presented at the next meeting of this Board for implementation.

After a discussion and further explanation by Dean Henry Cramblett and Mr. David Steffy, Director of Hospital Administration - University Hospitals, the following resolution was adopted:

In accordance with the legislative authorizations as provided under Amended Senate Bill 263, it is recommended that The Ohio State University Hospitals be authorized to purchase employee liability insurance coverage for all employees and students of The Ohio State University Hospitals acting within the scope of their assigned duties/responsibilities.

VI. GUEST SPEAKERS

Chris Kalis, President of the Undergraduate Student Government, requested permission to speak before the Trustees meeting concerning collective bargaining. Kalis requested that students be included in all such discussions since salary increases could result in fee increases because students are no longer protected by a statutory fee ceiling.

The Undergraduate Student Government Vice President, Rick Theis, then spoke without invitation demanding that students be allowed to be present at the scheduled closed discussion with the Board and the AAUP Executive Committee at the end of the Board meeting.

Dr. Sirak and Mr. Dunlap indicated that the meeting was to be closed to enable the Board members to carry on a full discussion so that they might gain a better understanding of the AAUP request for a collective bargaining election.

\* \* \*

Thereupon the Board recessed and reconvened to Executive Session for the purpose of discussing collective bargaining with the Executive Committee of the American Association of University Professors, Local Chapter.

The Board reconvened following the Executive Session and the following actions transpired:

November 7, 1975 meeting, Board of Trustees

A. Collective Bargaining

Upon motion of Dr. Sirak, seconded by Mr. Smith, a proposal that groups wishing to make statements to the Board on collective bargaining be invited to do so. The motion was approved by roll call vote, Dr. Jacob abstaining.

B. Wright Airlines

President Enarson made the following statement regarding the use of Don Scott Field by Wright Airlines:

At the last meeting of this Board, I reported to you that Wright Airlines was using the University's facilities at Don Scott Field without any contract authorizing them to do so. You instructed me then to oppose this unauthorized use of the airfield, and since that time formal notice has been served on Wright Airlines demanding that they cease their operations and leave the University's premises. This notice is the first required step in bringing legal action to evict.

There has been a great deal of discussion in the community over this matter, including detailed coverage of the issues in the newspapers and the broadcast media. Representatives of the Civil Aeronautics Board were also in Columbus to hold a public meeting to hear discussion about the exemption currently held by Wright Airlines to fly the Cleveland to Don Scott airfield route.

While we have not been formally notified, it has been publicly announced that a proposal to establish an operations base for Wright Airlines at Port Columbus International Airport and Burke Lakefront Airport in Cleveland has been presented to the Civil Aeronautics Board. This proposal has the support of both Wright Airlines and the City of Columbus.

The University wishes to make it clear to neighbors of Don Scott Field and other interested persons that Ohio State University has no intention of expanding that facility's use to the operation of regularly scheduled commercial airlines, including Wright's scheduled service to Cleveland. However, the University also wants to be as helpful as possible to air travelers in both Cleveland and Columbus--within the limits it has set for the use of its airfield.

In hopes of offering a studied and reasonable solution to this problem, in the best interests of all parties involved, I now propose the following course of action.

Since these questions are now before the C.A.B., it is my judgment that the University should bring no formal legal action to evict Wright Airlines until that federal agency has

November 7, 1975 meeting, Board of Trustees

B. Wright Airlines (continued)

President Enarson's statement (continued)

had a reasonable time to take whatever action it deems appropriate. Action by the C.A.B. on these questions could well render moot anything the University might do.

However, as a condition of the University's refraining from taking formal legal action, we must insist upon receipt of written assurance from Wright Airlines that it will cease all of its operations from Don Scott Field within 120 days--irrespective of whether the C.A.B. has acted before that time.

It would be our hope that in pursuing this course of action we will ensure the early departure of Wright Airlines from Don Scott Field without time-consuming and expensive legal proceedings, as well as give the C.A.B. a reasonable time to decide whether the Port Columbus Airport to Cleveland Burke Lakefront Airport service is in the best interests of the citizens of Ohio.

Dr. Sirak moved that in the spirit of that statement and in the context of that letter, the course of action being that we notify them of the 120-day period in which to remove their services, irrespective of the decision of the Civil Aeronautics Board. The motion was seconded by Mr. Devenow. Dr. Jacob indicated that while the wording of the motion was appropriate that he wanted the 120-day period specified in any such agreement and that hopefully this agreement would be achieved within one to two weeks. It was agreed that this intent be incorporated into the motion. The motion was approved by unanimous roll call vote.

RESOLUTIONS IN MEMORIAM

President Enarson reported to the Board the deaths of Walter C. Burnham, Associate Professor Emeritus in the Academic Faculty of Accounting, Alfred Landé, Professor Emeritus in the Department of Physics; and Robert Dean Patton, Professor Emeritus in the Department of Economics. In accordance with the instructions of the Board of Trustees, copies of the following resolutions expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the families of the deceased.

A. Walter C. Burnham

The Board of Trustees of The Ohio State University expresses its great sorrow upon the death on November 5, 1975, of Walter C. Burnham, Associate Professor Emeritus in the Academic Faculty of Accounting in the College of Administrative Science. Professor Burnham was retired on June 30, 1975, at the age of 70 after a 41-year teaching career at the University.

Chairman of the Accounting Internship Program at The Ohio State University for 25 years, Professor Burnham had hundreds of former students who are prominent in accounting and business circles in the state and in the nation. Teaching was deeply important to him, motivated by a desire to see students realize personal fulfillment and satisfaction from his courses.

A founding member in 1929 of the Omicron Chapter of Beta Alpha Psi, the national accounting scholastic and professional fraternity, he was honored several times during his career by the fraternity for his service to it. He was a member of the American Accounting Association and Beta Gamma Sigma, national scholastic honorary for students in Business Administration. In 1973, he received the Alpha Kappa Psi Award for over 25 years of service to college education. He co-authored a book, Audit Working Papers (1954), and a number of papers on accounting subjects.

Professor Burnham was also an officer or member of many accounting and civic organizations. He was a past president of both the Pickerington Board of Education and the Fairfield County Board of Education. He was treasurer of the Peace United Methodist Church from 1960 to 1970. A CPA, he was a member of the American Institute of Certified Public Accountants, and a former officer and member of the Ohio Society of Certified Public Accountants and the National Association of Cost Accountants.

On behalf of the University, the Board of Trustees expresses to the family its deepest sympathy in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

RESOLUTIONS IN MEMORIAM (continued)

B. Alfred Landé

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 30, 1975, of Alfred Landé, Professor Emeritus in the Department of Physics.

Born in Elberfeld, Germany, on December 13, 1888, Dr. Landé was educated at the Universities of Marburg and Gottingen and received his Ph. D. from the University of Munich in 1914. He held the position of Privat-docent at the University of Frankfort, and of Professor of Physics at the University of Tubingen. In 1929 and 1930-31 Dr. Landé held visiting appointments at The Ohio State University and in 1931 joined the faculty of the Department of Physics on which he served until his retirement as Professor Emeritus in 1959.

Working in the 1920's when the quantum theory of the atom was in its early stages of development, Dr. Landé introduced what is known as the "Landé g-factor" in order to describe coherently the anomalous Zeeman splitting of spectral lines in a magnetic field, and he developed a vector model of the atom in a form much as we know it today. Later in his career Dr. Landé turned his attention to the study of the foundations and structure of the quantum theory and, in particular, to an effort to reformulate the basic assumptions of the theory in such a way as to eliminate what he felt to be deep obscurities and inconsistencies in the so-called "Copenhagen interpretation." This subject occupied him to the last.

Dr. Landé's contributions to physics are represented by the more than 125 technical papers and books of which he was author or co-author. He will be remembered also by his colleagues and students for his charm and wit and humanity.

On behalf of the University community, the Board of Trustees expresses to the family of Alfred Landé its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to Mrs. Alfred Landé as a sincere expression of sympathy and respect.

C. Robert Dean Patton

The Board of Trustees of The Ohio State University expresses its sorrow at the death on November 13, 1975, of Robert Dean Patton, Professor Emeritus in the Department of Economics.

Dr. Patton was a native of Columbus and a graduate of Columbus East High School. He had three degrees from The Ohio State University--bachelor of science, master of arts, and doctor of philosophy. He also studied as a postgraduate fellow at Columbia University.

RESOLUTIONS IN MEMORIAM (continued)

C. Robert Dean Patton (continued)

From 1929 until his retirement in 1963, Dr. Patton served the University as a Professor in the Department of Economics. Prior to his retirement he also served for three years as the Assistant Dean of the Graduate School and Editor of the Journal of Higher Education. For over a quarter of a century every Ph.D. student in Economics, Business Administration, and Agricultural Economics studied the History of Economic Thought with Professor Patton. During most of those years every undergraduate student in the College of Commerce and Administration attended his freshman course in the Economic History of the United States. Ever the teacher, Dr. Patton also served many years as Chairman of the committee for the popular program, Columbus Town Meeting.

In recognition of his outstanding teaching, Dr. Patton was one of the first recipients of the annual Alumni Award for Distinguished Teaching, when that award was established in 1960.

Throughout his career Robert Patton epitomized those qualities of effective teaching, real scholarship, and useful service to students, colleagues, University and community that are the hallmark of a truly excellent academic person. He contributed immeasurably to maintaining and enhancing the quality and humanity of this institution. While no brief statement can adequately summarize the value of such a life, Robert Patton gave much to this University and merits its deepest respect, appreciation, and thanks for a life of constructive service.

On behalf of the University community, the Board of Trustees expresses to the family of Robert Dean Patton its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to Mrs. Robert Patton as a sincere expression of sympathy and respect.

VI. GUEST SPEAKERS

The following individuals and representatives of groups requested permission to speak before the Trustees at the meeting concerning collective bargaining:

A. Collective Bargaining - Ad Hoc Faculty Group

Russel C. Jones, Professor and Chairman of the Department of Civil Engineering, in a prepared statement said that collective bargaining rights for Ohio State University faculty members would lower the quality of education, drain too much budget money off for salaries, and alienate the public. In the proposed election, the faculty would decide whether to bring collective bargaining onto the campus, and if so, what organization should represent the faculty. Jones said, "Generally, we think unionization of the faculty would be a strong force toward mediocrity, department by department, and toward loss of existing quality programs."

James Cerilli, Professor of Surgery; William G. Dewald, Professor of Economics; William Petersen, Professor of Sociology; Morgan Shipman, Professor of Law; and Edwin Robbins, Professor of English; also spoke in support of the position taken by Professor Jones.

B. Collective Bargaining - Undergraduate Student Government

Chris Kalis, President of the Undergraduate Student Government, asked the Trustees to include students in the bargaining process if the Board decides to authorize collective bargaining on campus. Kalis said students have a direct interest in how the bargaining affects their fees and the quality of their education.

VI. GUEST SPEAKERS (continued)

C. Collective Bargaining - Ohio Cooperative Extension Agents Association

Calvin Knight, President of the Ohio Cooperative Extension Agents Association, and Robert Groves, President-Elect of the Ohio Cooperative Extension Agents Association, joined in the request for a delay in voting for collective bargaining so that University faculty members can more fully debate the issue and to wait until the Ohio General Assembly acts on pending legislation that would set the stage for college faculty members to bargain with the administration.

March 5, 1976 meeting, Board of Trustees

The meeting was called to order at 11:00 a.m., by John H. Dunlap, Chairman of the Board. The Secretary called the roll and ascertained that a quorum was present.

GUEST SPEAKERS

The following individuals having requested permission spoke before the Trustees on collective bargaining.

- A. Marshall A. Bell, President of the Council of Graduate Students, read the following resolution which was passed by the Council of Graduate Students at its February 5, 1976 meeting.

The Council of Graduate Students recommends should any further events occur within the university structure which may separate the university constituents into faculty, staff, and students, that the graduate students be treated as an entity separate from the general classification of students. (This is due to particular educational, research, library and employment relations with the university.) The Council of Graduate Students further recommends that the Board of Trustees also be aware of the distinctions within the graduate student body itself. Of the total of 9,224 graduate students, 3,700 are employed at the university as GRA's, TA's and AA's and another 1,500 students are employed at the university in other capacities.

- B. Chris Kalis, President of the Undergraduate Student Government, made his third presentation on behalf of the undergraduate students of the University concerning the need for representation from the students in any collective bargaining process which might be established.

Thereupon the Board recessed in Executive Session to discuss collective bargaining and personnel considerations.

The Board reconvened at 1:30 p.m.

Dr. Brilliant attended Dickinson College and received his D. D. S. degree from Temple University School of Dentistry in 1958. He did his post-graduate work in endodontics at The Ohio State University. Dr. Brilliant was in private practice and was a member of the faculty of the College of Dentistry since 1959 and served as Chairman of the Graduate Endodontic Department.

Dr. Brilliant was a member of the Columbus Dental Society, Ohio State Dental Association, American Dental Association, Ohio Association of Endodontists, American Association of Endodontists, American Association of Dental Schools, Alpha Omega Fraternity, and Omicron Kappa Upsilon Fraternity.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

B. Paul J. Dixon

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 7, 1976, of Paul Jennings Dixon, County Extension Agent, Agriculture, in Pike County, Ohio.

Mr. Dixon was born July 29, 1925, at Waverly, Ohio. He was graduated from Waverly High School in 1943. He served in the United States Marine Corps prior to enrolling at The Ohio State University where he received his Bachelor of Science degree in agricultural education in 1951. A Master of Science degree in agricultural education was secured from The Ohio State University on March 14, 1975.

Mr. Dixon joined the faculty of The Ohio State University as County Extension Agent, 4-H, in Pike County on April 1, 1968. He became County Extension Agent, Agriculture, in Pike County on February 1, 1969, the position which he held at the time of his death. Mr. Dixon had served as vocational agriculture teacher at Waverly and Piketon, Ohio, for a total of 17 years prior to joining the Extension faculty.

Mr. Dixon gave aggressive leadership to various Extension programs in Pike County including the agronomy, beef and rapid adjustment farm program. He was a highly respected and dedicated agricultural educator

for the Extension Service and was both well known and respected among his peers on the Extension faculty and by the clientele in Pike County.

On behalf of the University community, the Board of Trustees expresses to the family of Mr. Dixon its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as a sincere expression of the Board's heartfelt sympathy.

C. Harold P. Fawcett

The Board of Trustees of The Ohio State University expresses its sorrow upon the death January 5, 1976, of Harold P. Fawcett, Professor Emeritus in the College of Education.

Born in Upper Sackville, in New Brunswick, Canada, on July 20, 1894, Dr. Fawcett received his Bachelor of Arts degree from Mount Allison University in New Brunswick. After three years of high school teaching he joined the American Expeditionary Forces in France; then, at the close of World War I, he returned to teaching and to graduate studies at Columbia University. He earned both the Master's and Doctoral degrees from Columbia University.

With his appointment in 1932 as Assistant Professor at Ohio State University, Dr. Fawcett began a career at the University School that gained him national prominence. His teaching of "Nature of Proof," using Grade 10 Geometry as the vehicle, is chronicled in the 13th Yearbook of the National Council of Teachers of Mathematics. Among his many publications, this one stands out as a classic in the field of Education.

Dr. Fawcett moved through broadened responsibilities, teaching mathematics and teacher of mathematics, to Chairman of the Department of Education in 1948. From 1956 until retirement on August 31, 1964, he was involved again as a teacher of teachers, and as advisor to a select group of doctoral students who proudly carry on the Fawcett mission.

His 32 years at Ohio State were interrupted only by brief periods serving as Visiting Professor at Northwestern, Columbia, Wisconsin, Virginia, and Michigan. In 1958-60 he was President of the National Council of Teachers of Mathematics. He served his community in many ways, especially as an active member of Maple Grove United Methodist Church. In each of his many roles he became, to people he contacted, the personification of the abstraction "teacher"; and so he left, to all of us, a vision of a reach that exceeds our grasp.

On behalf of the University community, the Board of Trustees expresses to the family of Harold P. Fawcett its deepest sympathy. It was directed

D. Ralph Waterbury Powell

The Board of Trustees of The Ohio State University expresses its great sorrow upon the death on January 30, 1976, of Ralph W. Powell, Professor Emeritus in the Department of Engineering Mechanics. Professor Powell was retired on June 30, 1957, at the age of 67 after a 30-year teaching career at the University.

Professor Powell held degrees from Michigan State University, Cornell University, and Yale University. He was a member of Tau Beta Pi, Sigma Xi, and numerous professional societies. He taught for eleven years at Yale-in-China and held Visiting Professorships at the State University of Iowa and the University of Kansas. His professional experience included work for the U. S. Corps of Engineers and the Muskingum Watershed Conservancy District.

Professor Powell was recognized internationally as an authority in the field of hydraulics and his research and publications continued for many years after his retirement. He was the author of approximately one hundred papers in the United States and foreign journals, plus many reviews and technical notes.

Professor Powell was one of the founders of the Rocky Mountain Hydraulic Laboratory and served as its Secretary. From 1946 until a few years before his death his summers were spent there conducting research, largely on open channel flow.

On behalf of the University, the Board of Trustees expresses to the family its deepest sympathy in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

E. Daisy Johnson Secrest

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 25, 1975, of Mrs. Daisy Johnson Secrest, County Extension Agent Emeritus.

from Radford State Teacher's College at Radford, Virginia, in 1940. Additional education with credit towards a master of science degree was secured from the University of Arkansas.

Mrs. Secrest joined the faculty of The Ohio State University as a County Extension Agent, Home Economics, in Carroll County on May 1, 1961. She transferred as County Extension Agent, Home Economics, in Noble County on January 16, 1969, from which position she retired on May 31, 1971. Mrs. Secrest also had 19 years of Extension experience in Virginia.

Mrs. Secrest was a dedicated and highly respected home economics educator for the Extension Service. She was well known and respected among her peers on the Extension faculty and served the University in a commendable fashion. Mrs. Secrest received the Distinguished Service Award from the National Association of Extension Home Economists in October of 1969. Among her many outstanding accomplishments were the efforts related to community beautification.

On behalf of the University community, the Board of Trustees expresses to the family of Mrs. Secrest its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as a sincere expression of sympathy and respect.

F. Royall H. Snow

The Board of Trustees of The Ohio State University expresses its sorrow upon the death February 2, 1976, of Royall H. Snow, Associate Professor Emeritus in the Department of English.

Born in Chicago, Illinois, on January 21, 1898, Professor Snow received undergraduate degrees from Harvard and from Oxford, which he attended as a Rhodes Scholar. Prior to his appointment at Ohio State, he taught at Dalhousie University and Washington and Jefferson College.

Professor Snow was appointed Assistant Professor of English at The Ohio State University in 1928 and served this University until his retirement in 1963. He was instrumental in developing the honors program of the College of Arts and Sciences during the 1930's, and he was for a number of years involved in the selection of Rhodes Scholars. He also served as fencing coach at this University. Professor Snow published a number of articles on poetry of the Romantic period and was the author of a biography of Thomas Lovell Beddoes.

RESOLUTIONS IN MEMORIAM (continued)

F. Royall H. Snow (continued)

On behalf of the University community, the Board of Trustees expresses to the family of Royall H. Snow its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to his family as a sincere expression of sympathy and respect.

G. Gertrude M. Walsh

The Board of Trustees of The Ohio State University expresses its great sorrow upon the untimely death on January 25, 1976, of Gertrude M. Walsh, Instructor Emeritus in the Department of Romance Languages.

Miss Walsh joined the Department in September 1920 and was made Instructor in 1925, an appointment she retained until September 1944, at which time she retired with the title of Instructor Emeritus.

Gertrude M. Walsh was a superb teacher of the Spanish language and interpreter of Latin American culture for many years in the Department of Romance Languages. The superior quality of her early teaching at North High School in Columbus became evident through the performance of her students at Ohio State and elsewhere. As a result, she was invited to join the Department at Ohio State and continued her teaching for many years. She contributed in many ways to the development of the American Association of Teachers of Spanish and Portuguese, holding offices in that organization at both the state and national levels. She published a very popular collection of Spanish American short stories which served as a text both at Ohio State and throughout the nation. Her publications were largely devoted to the teaching of Spanish and Hispanic culture. The influence of her enthusiastic dedication to these subjects was carried from the University by the hundreds of students who studied in her classes over the decades she taught at the University.

On behalf of the University, the Board of Trustees expresses to the family its deepest sympathy in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Statement by President Harold L. Enarson to the Board of Trustees  
The Ohio State University  
March 5, 1976

Although the uncertainties in revenue estimates and in rising costs for next year are greater than usual, Ohio State must proceed and is proceeding with budget plans for 1976-1977. I had hoped to review our plans with you at the February meeting which was unavoidably cancelled.

Present budget plans project a bottom-line increase of 5 to 6 per cent for Ohio State's total operating budget next year (from \$356 million this year to \$376 million next year). The Instruction and General Budget--the primary budget covering all academic programs--is expected to increase 7 per cent (from \$172 million this year to \$184 million next year), while the other four major budgets (Sponsored Research, Public Service, Student Aid and Auxiliaries) are likely to increase in their aggregate by 4 per cent--from \$184 million to \$192 million.

The 1976-1977 budget guidelines reflect the following objectives:

- A budget balanced without the use of University general reserves.
- No increase in undergraduates' fees based on best current estimates of revenue.
- To take special note of potential State funding problems which could either delay subsidy payments or reduce their magnitude (or both);
- A realistic treatment of the probable impact of inflation;
- An assessment of fee and subsidy revenues based on best estimates of next year's enrollment mix by level and program, taking account of Ohio State's enrollment ceiling, Columbus Campus;

In preparing the Guidelines, we have sought the counsel and advice of the Faculty Compensation and Benefits Committee, University Senate, the Council of Deans, Vice Presidents and Provost.

It is expected, generally, that the following specific budget goals can be achieved within the framework of next year's budget plans.

President Enarson's statement (continued)

- \* The compensation package proposed would set aside 7.5 per cent of projected budget increases for faculty and staff pay increases--to be made on the basis of merit.

It also would:

- \* Provide another 0.5 per cent for salary adjustments to eliminate inequities.
- \* Allocate an additional 0.5 per cent for full university payment of Blue Cross insurance for all regular faculty and professional personnel.
- \* Provide the mandated step and longevity increase for all classified personnel;
- \* Hold internal budget cuts to an aggregate equivalent of one half of one per cent;
- \* Fund the estimated increase in utility costs of 23 to 24 per cent;
- \* Increase the library books and periodicals budget by 18 per cent;
- \* Increase the budgets for both wages and departmental equipment, supplies and services by 5 per cent;
- \* Meet unavoidable cost increases (about \$650,000 for major medical insurance, Blue Cross, workman's compensation and student-aid matching funds);
- \* Set aside one per cent of the aggregate of all budgets in direct support of academic programs (\$1.35 million) as "minimum flexibility funds" to provide (as needed) for adjustments in college budgets with change in their enrollment mix, for program improvements and for opportunity matching funds.

VI. SPECIAL ACTION

A. Collective Bargaining

WHEREAS the American Association of University Professors has expressed the desire to represent the faculty of The Ohio State University in collective negotiations with this University; and

March 5, 1976 meeting, Board of Trustees

VI. SPECIAL ACTION (continued)

A. Collective Bargaining (continued)

WHEREAS the Board of Trustees of The Ohio State University is vested by law with full authority and responsibility for the governance of the University; and

WHEREAS there exist no legal provisions to govern the process of public employees collective bargaining in Ohio, though such negotiations are not prohibited by law;

NOW THEREFORE BE IT RESOLVED:

THAT the President of The Ohio State University is authorized to make arrangements to conduct an election for the purpose of giving faculty members the opportunity to decide whether they wish to be represented in collective bargaining negotiations regarding faculty compensation and work loads by the American Association of University Professors.

Following President Enarson's introduction of the resolution, the Chairman, Mr. Dunlap, called on the President to make a statement.

President Enarson's Statement on Collective Bargaining:

The next item to be considered is that of collective bargaining. At the Chairman's request, I have been given this opportunity to state my own view on this matter preliminary to Board discussion and, I trust, a final Board decision. Before I get into full swing here, I should say that I don't know any question that I have wrestled with more intensely than I have with the whole issue of collective bargaining at a major comprehensive university. And I add in the same breath, that every single member of this Board without exception has, to my personal knowledge, given this matter the most conscientious, careful attention. I think everybody should understand that. I'd like to speak, really, wearing three hats. I realize I can't escape wearing the hat of President of the University--but I'm also a professor at heart. And, finally, I would like to speak as a professor of political science whose specialty was labor relations, and whose doctoral dissertation dealt with emergency labor disputes and the sweet mysteries of fact-finding as a way of settling labor disputes. In each of these roles, I want to tell this Board why I think collective bargaining is inappropriate to this institution at this time. And because this topic is important, I'd like to beg your indulgence and speak at considerable length. I believe that faculty participation in academic affairs at this institution makes faculty inseparable from management. One of the silliest things is to label a building 'Administration,' as if all administration were done in but one out of 370 buildings on this campus. In truth, academic administration permeates this entire campus, as it

March 5, 1976 meeting, Board of Trustees

VI. SPECIAL ACTION (continued)

A. Collective Bargaining (continued)

President Enarson's Statement (continued)

must, to be effective. And decisions of every kind are made in the academic departments with the full participation of faculty. The absolutely basic decisions--what you teach and how you teach it, how a teaching load is distributed, even the hours of work--are made right there in the Department of German, and right there in the Department of Physics.

There are in this University an unbelievable number of committees, almost all of which have substantial faculty involvement. And this committee structure is capped by University Senate, incidentally, a University Senate whose membership was threshed out over a period of several years of intense work and debate. The faculty of this University has, and continues to have, a deepening involvement in matters directly affecting them. I refer specifically to what I said a moment ago about the reliance that I place--and Dr. Kuhn, our chief academic officer places--on the work of the Faculty Compensation and Benefits Committee. To be perfectly blunt, there is a larger University interest that transcends any special interest in this University, whether that is the interest of the College of Agriculture, or the interest of a student group, or the interest of a faculty group. All the wishes and dreams and needs and aspirations somehow come into competition with another. If there is more money for Dentistry, there's going to be less money for Law, or for all other programs. If there are more dollars for student financial aid, there will be less for research support. I deeply believe that no one interest group can dictate to another group. Unionism, as I observe it around the country invites harsh, bitter and divisive adversary relations. While I have never had a belief that 'collegiality' meant sweet harmony, at least we do keep the adversary spirit under control under present arrangement. What collective bargaining does do is unleash, verify, and indeed, justify the adversary spirit. One is led from pie-in-the-sky promises to demands and then inexorably to impasse in negotiation.

In Ohio, there is currently no system for resolving impasses. If you doubt it, look at the University of Cincinnati. That University offers today a case study in what can happen, indeed I am tempted to say is likely to happen in faculty collective bargaining. A union

March 5, 1976 meeting, Board of Trustees

VI. SPECIAL ACTION (continued)

A. Collective Bargaining (continued)

President Enarson's Statement (continued)

organizes. A union makes demands. Counter offers are made. There is a failure to reach agreement. There is an impasse. The level of rhetoric becomes louder and more extreme. The dialogue breaks down. We are now in the ninth month of the current year, of the current fiscal year, and the faculty of the University of Cincinnati is still operating on last year's salary levels, and with all the sweet talk as to how you can have collective bargaining and still retain all those good old collegial relationships. If you believe that, you should study the University of Cincinnati, Kent State, Rutgers, or City University of New York.

You can talk about how collective bargaining doesn't necessarily mean strikes or job action, but you better not look at the record. Because, in fact, strikes and job action are endemic to the collective bargaining process. If there is a strike, there can be no lock out, because it's inconceivable that the University would lock out students because of an impasse with the labor union. If there is a strike, it's the students who suffer.

Also we read in the literature about not leveling the faculty but anyone who reads the literature knows that this force is endemic in unionism.

Universities are very frail institutions. Our mutual respect and good faith are what holds them together.

I trust I'm going to surprise you when I move to the next point. Having said all this, I believe--I deeply believe--that the faculty members of this University deserve the opportunity to decide for themselves through discussion, through debate, and through an election whether they want to delegate to a union the right to negotiate terms and conditions of employment, including work load. I think it's time to get on with honest debate on this subject. I think it's time for the people who are skeptical about collective bargaining to speak out. I think it's time for people to talk about bargaining to understand what it is--a two-way street--not a one-way street. If concessions are won, concessions are extracted from the other side. This is not now fully understood. A fiction has been developed

March 5, 1976 meeting, Board of Trustees

VI. SPECIAL ACTION (continued)

President Enarson's Statement (continued)

and is sustained on this campus by the proponents of collective bargaining that somehow it's a one-way street. Somehow, everything that the faculty has now will be protected and sustained. This process will simply enable the faculty to get more. More, incidentally, without increasing fees. More, by going downtown and exercising that 'clout' with the legislature. Well, if the faculty has to come to grips with the reality of unionism, I'm confident that it will be discovered that there are many hazards along the way. But, I repeat, I think the faculty deserves the opportunity to decide. Many of us, and I am one, have wished over the months that this issue would go away, but it won't. And, if an election which is organized on a fair basis is not permitted--an election organized unilaterally by the union and by rules most advantageous to unionization probably will be conducted. So, in a few months, the Board may be confronted with a demand that it bargain. Will the Board then assert that it will have no dealings with the union? I believe, Mr. Chairman and members of this Board, that this issue needs resolution and needs resolution as quickly as possible. Frankly, I think that in this, the Bicentennial Year of this country, it would be ironic to disregard a request for the privilege of voting on a matter of such deep concern to our faculty. If there is inconsistency in these two positions, then so be it. I don't believe I have been inconsistent, but I am emotional on both points. Thank you.

Mr. Dunlap said, "We have a recommendation that the President of The Ohio State University be authorized to make the necessary arrangements to conduct an election to determine if the faculty members of the University wish to be represented in collective bargaining negotiations by the American Association of University Professors."

Mr. Smith moved that the resolution be adopted and Dr. Jacob seconded the motion.

The Chairman then called for discussion.

March 5, 1976 meeting, Board of Trustees

VI. SPECIAL ACTION (continued)

A. Collective Bargaining (continued)

Mr. Harrod:

I agree in part with the President's statement, the latter part I don't agree with. I have been on this Board since 1969, and I don't know when I've been bothered with an issue more than I have been bothered with this issue. It's just inconceivable to me that the highly skilled, highly professional people at the University should be subjected to collective bargaining. I am unalterably opposed to it! I think collective bargaining will be divisive, and may be the first step toward mediocrity within this faculty. For this reason, when it comes time to vote, I'm going to vote 'No.'

Mr. Devenow:

Mr. Chairman, I would like to comment on a matter which, while not directly related with this vote, does deeply concern me since it relates to the credibility and integrity of this Board. There have been inferences the past several months that this Board has dragged its feet on the issue of collective bargaining--that the Board has not faced up to this issue. As the President stated, and since I have been on this Board, I don't know of any other issue to which the Board has given more time, effort and consideration than this particular issue. And to those who have made those inferences, that this Board has needlessly delayed this decision, let me say that I resent such inferences very much, as I'm sure every member of this Board does. Since this issue has come to us, we have had a change in membership on this Board. We have had difficulty in scheduling meetings--for example, our last meeting had to be canceled because of weather, since it was impossible for two of us to get into Columbus. We have other pressing matters to consider, not the least of which involve the financial condition of this University. This Board has refused to be panicked or pushed into a decision which, I think, is to its credit. I think the Board should be commended rather than criticized for that position. In reality, we have had a very short period when considering the magnitude of this issue, to make our decision. Individual decisions such as this are hard, tough calls for each of us. For anyone to think that we could just suddenly, immediately, without due consideration, vote on a matter of this magnitude, to me is utterly repugnant. Mr. Chairman, I appreciate having the opportunity for this comment.

March 5, 1976 meeting, Board of Trustees

VI. SPECIAL ACTION (continued)

A. Collective Bargaining (continued)

Dr. Sirak:

I want to take this opportunity to publicly say some of the things that I said in Executive Session. First, I want to state very emphatically that I think collective bargaining at Ohio State University would be very destructive to this University's purpose and the quality by which it achieves this purpose. Collective bargaining violates the spirit of collegiality, sets faction against faction, students against faculty, graduate students against undergraduate students. I think ample instruments exist on the campus by which faculty can input their attitudes and beliefs to the administration and the Board of this University. For me, however, the one very overriding consideration that influences my vote here today--and I realize that whichever way I vote, or whichever decision this Board comes to, that this position can be changed at a later date by action of the Legislature, or even by this Board itself--is that I do not believe that I can justifiably deny any group the right to vote. It is for this reason that I will vote 'Yes' on the motion. However, if this issue passes, it should be understood that I will do all in my power to educate members of the faculty about the undesirability of collective bargaining at this University. Further, I will insist that the entire faculty of this University be allowed to participate in this vote.

Mr. Hilliker:

I became a member of this Board in November of last year and ever since I have been on this Board, the primary issue before the Board has been collective bargaining. We have heard speakers pro and con--in some cases, not strictly pro and con from a substantive viewpoint whether they are for collective bargaining or whether they are against it--but from a procedural as much as substantive viewpoint. Certain groups feel they should be directly involved--other groups feel they should be involved, but separately, because they are different from another group--graduate students are different from the undergraduates--law students and medical students are different from undergraduate students--the teaching assistants are different from the faculty. What these presentations have convinced me is--and I had been told this--I went to school here and I was really aware of this--that there are a myriad of interests at this University.

March 5, 1976 meeting, Board of Trustees

VI. SPECIAL ACTION (continued)

A. Collective Bargaining (continued)

Mr. Hilliker: (continued)

While I have some of the same substantive concerns about faculty collective bargaining as stated by some other members of the Board, my greater concern now is more of a procedural nature. Quite honestly, I do not believe that, at least presently, I could decide how these myriad of interests should best be served. We have no state enabling legislation. This does not mean I am questioning the power of this Board to substitute its decisions for the Legislature in this instance--I know it can--and create a means by which it can enter into faculty collective bargaining. In my opinion, however, I don't think it is appropriate for this Board to do so. Therefore, until this Board is given the legislative sanctions to do so, I would be forced to vote 'No' on the issue as to whether or not such a vote should be authorized.

Mr. Smith:

I don't think we are breaking new ground on the issue of faculty collective bargaining. We know that in the nation there are some 433 campuses that have already unionized. There are a number of elections on the question of whether or not there will be representation of the faculty presently in the process at other universities through the country, including two Big Ten schools-- University of Wisconsin and University of Minnesota. Elections have also recently been held at two of our sister universities in Ohio. This process is going on in Ohio regardless of whether we have a state statute or not. In point of fact, we presently have well over 70,000 state and local public employees covered by collective bargaining agreements and, in the professional area, probably well over 60,000 classroom school teachers in this state who are covered by collective bargaining agreements, despite the lack of any statutory permission, or established policy, by the State of Ohio.

I would like to respond to what President Enarson just said. I do not agree with the first part of his statement. I don't think it is necessary for me to say that. I agree with the latter part of his statement. I think that he proved the first part of his statement with the latter part

March 5, 1976 meeting, Board of Trustees

VI. SPECIAL ACTION (continued)

A. Collective Bargaining (continued)

Mr. Smith: (continued)

when he said that there is a collegiality that exists on this campus that permits the faculty to be involved in administrative and policy decisions at this University. Right now we are faced with a major policy decision and, if we really do have this collegiality, then certainly we will permit the faculty to participate in this decision. As Mr. Devenow has said, this Board has considered and studied this problem in depth. I know every Board member here has agonized over the problem trying to find the right answer. My conclusion is that we ought to give the faculty the right to agonize over the problem, too, and the best way to do this is as the President suggests, give the faculty the right to an election and let them decide this issue for themselves.

The Chairman then asked the Secretary to call the roll.

Secretary: Mr. Hilliker

Mr. Hilliker: "No"

Secretary: Dr. Jacob

Dr. Jacob:

Over the past six months I have studied intensively the AAUP request for a Board of Trustees authorized collective bargaining election. During this time, the Amended Substitute Senate Bill 70 was considered by the Legislature and Executive Branches of the government of the State of Ohio. This bill which would have provided legal direction and authority for public employee unions failed to become law in the State of Ohio. I therefore cannot justify any position or action which would disregard the actions of the legislative and executive branches of our state government. The question of an exclusive collective bargaining unit for the faculty at The Ohio State University is a most complex issue but I believe that the most important consideration at this time must be the status of enabling legislation. At such a time that Ohio law gives definition to this type of action by public employees I will be most ready to affirm representation election by the faculty at The Ohio State University. At present I think it is clearly my duty as a Trustee to deny the authority for such an election. I therefore vote 'No' on the motion pending.

A. Collective Bargaining (continued)

Secretary: Mr. Smith

Mr. Smith: "Yes"

Secretary: Mr. Devenow

Mr. Devenow:

I find it very difficult to understand and accept the concept of collective bargaining as the President outlined it for the faculty, not just Ohio State, but of any university, for most of the reasons as stated by the President. It seems to me that the academic world is different! It is a unique, distinct body which, I believe, already does participate in 'collective bargaining.' However, I would not deny the faculty its right, through an election, to make that determination, and therefore I vote 'Yes.'

Secretary: Mrs. James

Mrs. James:

Mr. Chairman, before I cast my vote, I'd like to make a few comments. I don't think collective bargaining is in the best interest of the University, and there are a number of reasons why I feel this way. I've only picked out three that seem to be haunting me the most. In my opinion, collective bargaining contains the potential for destroying the delicate balance between the many competing interests at the University, particularly since bargaining units have traditionally tended to focus on the interests of the majority, and been less aggressive pertaining to other groups as minorities and women. This became quite clear to me when we had our discussions with the AAUP Executive Committee and Professor Stocker. When I raised this concern, I was informed that this matter hadn't been considered as yet. Further, I see the request for a collective bargaining election as an attempt to circumvent public policy and opinion on public employee bargaining. I agree with my colleague, Dr. Jacob, the public does not wish this to occur. I also believe, in time, a bargaining unit cannot help but overshadow the University Senate, in a concept of shared authority, which will exclude students from the academic decision-making process, perhaps even make the University Senate obsolete. However, I do agree with my

Mrs. James: (continued)

colleague, Warren Smith, who says that we're talking about shared authority. It's time to share some of the authority by turning this decision over to the faculty to resolve. Let them help us determine whether or not any short-term monetary gain that may be achieved through collective bargaining is more important than the tradition of excellence at this University. Therefore, I vote 'Yes.'

Secretary: Dr. Sirak

Dr. Sirak: "Yes"

Mr. Dunlap: "I believe it is appropriate to read the following letter which I recently received from Mr. Gushman."

Mr. John H. Dunlap, Jr., Chairman  
Board of Trustees - Ohio State University  
The Dunlap Company  
Williamsport, Ohio 43164

Dear Mr. Dunlap:

I greatly regret being unable to attend the March 5, 1976 meeting of the Board of Trustees. My schedule had been committed well in advance of this meeting. Moreover, I had expected that we should deal with the subject of the AAUP's request for a collective bargaining election at our February meeting.

It is my understanding that there is no legal authority for a member of the Board to vote either by proxy or by written ballot. I do, however, wish to state, for the record, my position on this extremely important issue.

After considerable thought and study, and after listening with interest to persons representing all sides of the question, it is my judgment that the best interests of the university and its faculty would not be served by entering a collective bargaining relationship. In this regard I found most persuasive the arguments presented by Professors Cerilli, Dewald, Jones, Peterson, Robbins and Shipman.

However, I am not persuaded that the best interests of the university and the faculty would be served by this Board's refusing to authorize an election in which the members of the faculty can decide the issue of their representation for themselves. Accordingly, I support President Enarson's recommendation that such an election be authorized.

Again, I regret not being able to participate in person at this meeting, but appreciate the opportunity to express my views on this critical subject.

Sincerely,

Secretary: Mr. Dunlap

Mr. Dunlap:

I have spent a great deal of time attempting to arrive at a decision on this issue. I don't think I have ever been as concerned about anything in my life as I am about doing the right thing on this issue.

Since the matter of collective bargaining was first raised with this Board, I have made a concerted effort to educate myself on the subject of collective bargaining in higher education. I have read everything I could find on this subject, I have talked with people from at least a dozen colleges from Nebraska to New York, in the process of reaching my conclusion. The people with whom I have talked are not in favor of collective bargaining for The Ohio State University faculty. I have yet to find a single person among faculty, students, or people around the state that are in favor of it, other than the members of the AAUP Executive Committee.

March 5, 1976 meeting, Board of Trustees

VI. SPECIAL ACTION (continued)

A. Collective Bargaining (continued)

Mr. Dunlap: (continued)

Collective bargaining for our faculty cannot help but eventually place our students and our faculty in adversary roles which would be most regrettable and which would not make for good education here.

The AAUP says they will use political pressures to get higher levels of faculty compensation. If they do get a higher level it probably will be enacted the way the recent pay bill was for our civil servants which means the University is obligated to pay the increases from within the existing resources which cannot help but result in a University student fee increase.

Of course, this is happening right now in just about all the private supported universities in this country. Our students already anticipate this possibility and have expressed a deep interest in this issue, as they should.

Collective bargaining is contrary to greater faculty freedom and professionalism. For a university to be at its best it must be allowed great flexibility to provide for individual variation, not only in work assignments, but in recognition and compensation. However, at the moment there seems to be more concern among faculty unions about bringing up minimums and equalizing working conditions and compensation. In my opinion, such actions would be at the expense of the meritorious faculty members and that will depreciate the educational quality of this University.

Lastly, the State of Ohio has not conferred on this Board any rules for bargaining.

Accordingly, I personally do not see how this Board, independent of legislative authority properly conferred by the state can establish collective bargaining procedures for The Ohio State University.

I think Ohio State University is one of the great universities of this country, and while I am on this Board I do not intend to willingly do anything which will degrade it or hurt it in any way, which I am afraid that this would do. As I said, I have given this much thought and have talked to many people, and this is my opinion, so I must vote 'No' on this issue.

Mr. Haley's newest book, **Roots**, is based on his family history traced to its African beginnings. It will be adapted for a television special and motion picture.

The Ohio State University is honored to have Alex Haley present today to address the 255th graduating class.

##### A. Arch O. Heck

The Board of Trustees of The Ohio State University expresses its sorrow upon the death March 17, 1976, of Arch O. Heck, Professor Emeritus in the College of Education.

A native of Bardolph, Illinois, Dr. Heck received his Bachelor of Science degree from Hedding College, Abingdon, Illinois, in 1913 and his Master of Science degree from the University of Illinois in 1914. Following experience as a teacher, principal, field agent, and director of research in Illinois, Indiana, and Ohio schools, Dr. Heck earned the Ph.D. degree from The Ohio State University in 1924.

An outstanding scholar in the area of personnel administration and a pioneer in the area of special education programs, Dr. Heck served the University for 35 years as a professor before his retirement in 1958. Dr. Heck was the author of highly regarded texts in his fields of interest and wrote numerous articles, monographs, and research reports. He was active in professional associations and provided noted service to local, state, and federal agencies including the 1930 White House Conference on Child Health and Protection. The range and quality of his achievements brought him listing in "Who's Who in America."

Dr. Heck enjoyed a warm and close association with his students and colleagues and maintained an active concern for and association with the University in his retirement years. His enthusiasm for life was an inspiration to all who knew him.

RESOLUTIONS IN MEMORIAM (continued)

A. Arch O. Heck (continued)

On behalf of the University community, the Board of Trustees expresses to the family of Arch O. Heck its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to his family as a sincere expression of sympathy and respect.

B. Charles B. Huelsman, Jr.

The Board of Trustees of The Ohio State University expresses its sorrow upon the death March 3, 1976, of Charles B. Huelsman, Jr., Professor in the College of Education.

Born in Chicago, Illinois, on October 15, 1916, Dr. Huelsman received his A. B. degree in history and English from Western Michigan University in 1938. He completed his Master of Arts degree at the University of Chicago in education the following year. After four years of teaching high school English and remedial reading, he joined the U. S. Navy; at the close of World War II, he returned to graduate studies at the University of Chicago, where he earned his Doctoral degree in reading.

After completion of his degree, Dr. Huelsman served as director of a remedial reading clinic in Chicago for four years. With his appointment in 1953 as Associate Professor at Miami University, Oxford, Ohio, Dr. Huelsman began a long and distinguished career in university teaching. Although Dr. Huelsman's primary area of interest always remained in reading, he was an early supporter of school psychology and contributed significantly to its development in Ohio. His leadership has helped to make Ohio's school psychology program a model for the country.

After moving to Ohio State in 1961, Dr. Huelsman accepted broadened responsibilities, teaching reading and school psychology, directing the remedial reading clinic, serving as a consultant to the Ohio State Department of Education, Columbus Public Schools, and many other school districts throughout Ohio. Throughout his teaching career, Dr. Huelsman concentrated on facilitating optimum student involvement and professional development. His most recent interests were the development of materials for the presentation of information to college students in modular form. In each of his many roles, he modeled a standard of excellence in performance, a zest for life and a sincere interest in helping others. His students and colleagues saw him as the personification of "teacher"; and so he left, to all of us, an inspiration to "teach."

On behalf of the University community, the Board of Trustees expresses to the family of Charles B. Huelsman, Jr., its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to his family as a sincere expression of sympathy and respect.

C. Emily L. Stogdill

The Board of Trustees of The Ohio State University expresses its sorrow upon the death March 14, 1976, of Emily L. Stogdill, Professor Emeritus in the Department of Psychology.

Born in Wapakoneta, Ohio, on July 13, 1893, Professor Stogdill received an undergraduate degree from Ohio Wesleyan University and a masters and doctorate in Clinical Psychology from The Ohio State University.

Professor Stogdill was appointed as Instructor in Psychology at The Ohio State University in 1930 and served continuously until her retirement in 1963. She was instrumental in organizing one of the earliest courses in mental hygiene for students and one of the earliest counseling centers for students. She continued her work with emotionally disturbed students until her retirement. Professor Stogdill published a number of articles and contributed chapters to several books.

On behalf of the University community, the Board of Trustees expresses to the family of Emily L. Stogdill its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as a sincere expression of sympathy and respect.

1. Chemistry Laboratories Remodeling (McPherson  
Chemical Laboratory) and Stillman Hall Alterations

The work in McPherson Chemistry Laboratory will provide renovated analytical chemistry, physical chemistry, and instrumental analysis laboratories for instructional purposes. This includes lab bench work, utility services to lab benches, lighting, some improved ventilation and patching and painting.

The work in Stillman Hall provides for the completion of a project first initiated in 1968. This includes work on the first, third and fourth floors which involves partitioning relocations, electric and lighting, improvements in ventilation, and patching and painting.

The fee for services on each of these projects will be negotiated between the architectural firm and the Department of Administrative Services, Division of Public Works. The total combined project cost is \$150,000.00 (\$75,000.00 Stillman Hall and \$75,000.00 Chemistry Laboratories).

Funds for this service have been provided from H. B. 687, Utilities and Renovation.

It is recommended that the firm of John P. Gibboney and Associates of Columbus, Ohio, be employed to provide complete architectural and engineering services for these projects, including preliminary plans, basic drawings, working drawings, specifications, estimates of cost, necessary bidding documents, and supervision of construction.

2. Education Laboratory Improvements (Welding Engineering  
Laboratories Building) and Poultry Administration  
Building Improvements

The work in Welding Engineering Laboratories for the College of Education will provide for the renovation of five rooms on the second floor including the installation of laboratory equipment, replacement of electrical service, new lighting, new acoustical ceilings, and improved floor covering.

The work in the Poultry Administration Building will provide for the renovation and up-to-date equipment of the existing laboratories, laboratory-related rooms and classrooms including replacement of antiquated lab benches, provision of services to lab benches, lighting, acoustical treatment, ventilation, and electrical system renovations.

Funds for this service have been provided from H. B. 687, Utilities and Renovation.

It is recommended that the firm of Phillip Markwood, Architects, Inc., Columbus, Ohio, be employed to provide complete architectural and engineering services for this project, including preliminary plans, basic drawings, working drawings, specifications, estimates of cost, necessary bidding documents, and supervision of construction.

3. Temporary Veterinary Clinic Remodeling

The work involved for this project will provide for remodeling of an existing building for use in accordance with its originally intended purpose. It was designed to accommodate the Transportation Motor Pool and warehouse operations. However, during the design and construction phase it became necessary to convert it for use as a temporary location for the Veterinary Hospital until the new hospital was completed. It served this purpose from 1965 through 1972. Since the building was originally designed with the transportation function in mind, a number of features to support a vehicle maintenance operation are already installed.

Upon completion of the remodeling, this facility will house the Division of Transportation, Office Equipment Repair Department and a warehouse area for various auxiliary enterprises.

The fee for this service will be negotiated between the architectural firm and the Department of Administrative Services, Division of Public Works. The project cost is \$250,000.00.

Funds for this service have been provided from H. B. 687, Utilities and Renovation.

A. Report on University Investment Portfolio

The report on the University's Investment Portfolio dated April 1, 1976, as submitted to the Fiscal Affairs Committee of the Board of Trustees, was received and ordered to be filed with the official records of the Board.

VI. GUEST SPEAKER

Ted W. Switzer requested permission to speak on the subject of collective bargaining.

Ted W. Switzer, President of the Council of Undergraduate Students in Education, expressed his concerns as a student about a collective bargaining election for the faculty. Further, he requested that, if the faculty does organize, that students be included in the bargaining process, and that the Board revoke parts of Faculty Rule 21 dealing with tenure and peer review.

VII. REGIONAL CAMPUS REPORT

President Enarson called on Vice President Mount for a presentation on the University's Regional Campus program.

Vice President Mount called on Dr. Morrill to make a few remarks concerning the naming of the James Lewis Morrill Hall.

Dr. Morrill responded as follows:

Mr. President, Mr. Chairman, Board Members, Director Maynard and members of your staff, and friends of this interesting Regional Campus. I can't quite say to you how honored I feel by the distinction that you have conferred upon me today. Marion was my birthplace--I went through all the public schools here before going to The Ohio State University; and as Dr. Enarson said, I have spent a good many years serving this University.

We all like to be remembered, we remember others with affection and respect, but it sometimes takes a gesture to achieve that. Honorary degrees are one of the ways. But it's very rare indeed that living faculty members have buildings named after them. I don't know why that is, but

April 2, 1976 meeting, Board of Trustees

VII. REGIONAL CAMPUS REPORT (continued)

Dr. Morrill (continued)

that is the case in this country. There doesn't seem to be much hesitation about naming buildings after living presidents of universities who have retired. I think the philosophy there is that they are too old to do anything to disgrace their University. However, I'm in the unique position of not having been a president of this University, and this gesture--this generous gesture--on the part of the University means everything to me. It also is in the sense an honor to the City of Marion.

Let me then express to the University and officials, Mr. President, and all of your colleagues, members of this Board, my very proud sense of honor in having this building, in my hometown, named for me.

John T. Mount, Vice President for Regional Campuses, presented projected enrollment increases for University and Technical College students on Ohio State's Regional Campuses for this coming year.

C. Eugene Maynard, Director of the Marion Campus, reviewed events on that campus, and Professor Jessie A. Engle, Chairman of the Marion Faculty Assembly, spoke on behalf of the faculty of this campus.

Speaking on behalf of the Marion community was Edwin L. Mitchell, member of the Alumni Advisory Board and also member of the Marion Citizens Advisory Council.

Mr. Dunlap then made the following statement:

Thank you Mr. Mitchell, for those thoughtful remarks. I am confident that each member of this Board joins with me in an expression of high commendation and deep appreciation to you and to all members of the Citizens Advisory Councils for the timely advice and counsel which you have provided to University administration and this Board of Trustees.

We do recognize that as members of the Citizens Advisory Councils, you have given significant contribution in support of the University's efforts to extend high quality educational programs to the regional campus communities.

We are especially grateful for your thoughtful efforts in bringing about a better understanding of the mission of the regional campuses and their relationship to the University. We look forward to your continued support, advice, and counsel, as well as these annual opportunities to meet with you on a regional campus.

April 2, 1976 meeting, Board of Trustees

Merriss Cornell

The Board of Trustees of The Ohio State University expresses its sorrow upon the death April 17, 1976, of Merriss Cornell, Professor in the School of Social Work.

Professor Cornell, a native and lifelong resident of Westerville, Ohio, was born November 3, 1911. He received his undergraduate education at Otterbein College and his social work education at The Ohio State University. His knowledge of research methodology and behavioral science was furthered by additional study at Columbia University. He was a member of the Social Work Faculty of The Ohio State University since his appointment as an Instructor in 1935.

Professor Cornell's writings include a comprehensive historical sketch of the School of Social Work. In this volume, with characteristic modesty, he avoids mention of his many significant contributions to the growth of the School from its early modest proportions to its present status as one of the outstanding centers of social work education in the nation.

In addition to distinguishing himself as a teacher, a researcher, a consultant, and an advisor of students, Professor Cornell was recognized as an expert in census tract research techniques. His technical knowledge was utilized extensively to develop the research component of the social work curriculum.

Professor Cornell was most generous in providing assistance, support, and counsel to junior colleagues which contributed to their professional development. He was active and held office in many professional organizations, social agencies and community groups through which he made a unique and outstanding contribution to human welfare.

On behalf of the University community, the Board of Trustees expresses to the family of Merriss Cornell its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to his family as a sincere expression of sympathy and respect.

Eldon L. Hoffman

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 27, 1976, of Eldon L. Hoffman, County Extension Agent, Agriculture, in Portage County, Ohio.

Mr. Hoffman was born July 23, 1934, at Grelton, Ohio. He graduated from Malinta-Grelton High School in 1952. He enrolled at The Ohio State University in 1952 where he received his bachelor of science degree in agricultural education in 1956. Mr. Hoffman also pursued graduate education in agricultural education at The Ohio State University.

Mr. Hoffman joined the faculty of The Ohio State University as County Extension Agent, Agriculture, in Portage County on July 1, 1965, the position which he held at the time of his death. Mr. Hoffman had served as vocational agriculture teacher at Sunbury and Pandora, Ohio, for a total of nine years prior to joining the Extension faculty.

Mr. Hoffman provided aggressive leadership for various Extension activities in Portage County including agricultural and community programs. He was a highly respected and dedicated agricultural educator for the Extension Service and was both well known and respected among his peers on the Extension faculty and by both rural and urban people of Portage County.

On behalf of the University community, the Board of Trustees expresses to the family of Mr. Hoffman its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as a sincere expression of the Board's realization of the loss which the family, the Portage County community, and the University have sustained.

Guy-Harold Smith

The Board of Trustees of The Ohio State University expresses its great sorrow upon the death on April 7, 1976, of Guy-Harold Smith, Professor Emeritus in the Department of Geography. Professor Smith retired on June 30, 1964, at the age of 69 after a 37-year teaching career at the University.

Professor Smith earned his doctoral degree at the University of Wisconsin and continued postgraduate studies at the University of Pennsylvania. He was a member of Phi Beta Kappa, Sigma Xi, Beta Gamma Sigma, and numerous scientific and professional societies. He taught at the University of Illinois and Columbia University.

Professor Smith was recognized internationally as an authority in the field of cartography with special reference to population and physiographic maps. He served as a consultant and cartographer in the Military Intelligence Service of the U. S. Army General Staff. He was the author of more than sixty papers and drew more than seventy maps of major importance.

Professor Smith was also an authority on the conservation of natural resources and edited several books in that field. He served as chairman of the Department of Geography from 1934 to 1963.

On behalf of the University, the Board of Trustees expresses to the family its deepest sympathy in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

GENERAL RECOMMENDATIONS

Degrees and Certificates  
Spring Quarter Commencement

Resolution No. G-1976-1.1

WHEREAS pursuant to Article VI, Section 5, of the Bylaws of the Board of Trustees of The Ohio State University, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit to the University Senate names of persons who have completed degree and certificate requirements, in accordance with Rule 49.01 of the Rules of the University Faculty, for approval by the Board of Trustees;

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on June 11, 1976, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the University Senate and that the names of those awarded degrees and certificates be included in the minutes of this meeting. (See page 547.)

Upon motion of Mr. Harrod, seconded by Mr. Gushman, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Honorary Degrees

Resolution No. G-1976-1.2

WHEREAS the Committee on Honorary Degrees and the University Senate, pursuant to Rule 29.2727, have approved for recommendation to the Board of Trustees the awarding of the honorary degrees as listed below:

Arthur S. Iberall	Doctor of Science
Jacob W. Schaefer	Doctor of Science
Walter Seagar Sullivan	Doctor of Science

May 7, 1976 meeting, Board of Trustees

GENERAL RECOMMENDATIONS (continued)

Honorary Degrees (continued)

WHEREAS the President after consultation with the Steering Committee of the University Senate, pursuant to Rule 11.05, has approved for recommendation to the Board of Trustees the awarding of the honorary degrees as listed below:

Daniel Patrick Moynihan	Doctor of Laws
Franz T. Stone	Doctor of Humane Letters

NOW THEREFORE

BE IT RESOLVED, That the above honorary degrees be awarded in accordance with these recommendations at a time convenient to the University and the recipient.

Dr. Sirak moved and Mr. Devenow seconded the motion to adopt President Enarson's recommendation that the foregoing resolution be adopted.

Mrs. James requested that the Board divide the question.

Upon motion of Mrs. James, seconded by Mr. Devenow, the Board of Trustees voted to divide the candidates proposed under Rule 29.2727 from the nominees under Rule 11.05, which was approved with eight affirmative votes and one negative vote cast by Dr. Jacob.

Mr. Dunlap called for a motion on the first three candidates under Rule 29.2727.

Upon motion of Mr. Devenow, seconded by Dr. Sirak, the Board of Trustees approved the candidates under Rule 29.2727 by unanimous roll call vote.

Mr. Dunlap then called for a motion on the candidates under Rule 11.05.

Dr. Jacob moved and Mr. Hilliker seconded the motion to award honorary degrees to the two persons specified under Rule 11.05.

Mrs. James requested a discussion of the question.

Mrs. James indicated that she had requested a division of the question and was supported by her colleagues because she had an objection to awarding the honorary degree to one of the suggested honorees. She indicated that she wanted to make a statement in that regard.

It is my intention to cast my vote in opposition to the resolution to award the honorary Doctor of Laws degree to Mr. Daniel Patrick Moynihan, our June Commencement speaker. I do not oppose Mr. Moynihan's presence on this campus. Awarding Mr. Moynihan an honorary degree is another matter.

May 7, 1976 meeting, Board of Trustees

GENERAL RECOMMENDATIONS (continued)

Honorary Degrees (continued)

Mrs. James' statement:

Mr. Moynihan has spent many years in public life and has been recognized for his public service. I do not question his motivations. The fact remains that throughout his tenure of public service, Black Americans have been victimized by the rhetoric and myth-making which has emanated from the articulate Mr. Moynihan's reports and writings. A case in point is The Negro Family: A Case for National Action. This highly controversial document was published by the U. S. Department of Labor in 1965 and authored by Mr. Moynihan. The widely publicized assertions made in this report concerning the pathology of the Black family have become an integral part of social science folklore and cannot be revoked. Numerous serious scholars have since dismissed Moynihan's work and have challenged his use of descriptive statistical data to declare causality. Mr. Moynihan is guilty of analyzing data by color rather than by income level and from that error support for the slavery-specific hypothesis. Since a much larger proportion of Negroes than whites are on the lower income levels what could look like statistically significant differences between Negroes and whites are actually only reflections of different socio-economic levels.

Indeed, when racial comparisons are controlled for income, Negro-white differences in family structure evaporate and differences are more striking by income than by color--a fact documented by the U. S. Government itself in response to the Moynihan Report.

And yet, the myths live on. Fictions woven from the fabric of Mr. Moynihan's professed good intentions have become fact in the public mind and have damaged Negro causes.

Mr. Moynihan has greatly influenced social legislation over the years. He admits to being one of the architects of the Economic Opportunity Act of 1964 and the Elementary and Secondary Act of 1965. He now charges that liberals, educators and the helping professions are responsible for the failure of these brilliantly conceived programs intended for Blacks and poor people. It is strange indeed that an architect whose buildings constantly crumble, never questions the efficiency of his blueprints, but rather, castigates the contractors and craftsmen who build according to his specifications.

GENERAL RECOMMENDATIONS (continued)

Honorary Degrees (continued)

Mrs. James' statement:

There is much more evidence of Mr. Moynihan's malicious and destructive public pronouncements and public actions. I close with the following observations:

Noting Mr. Moynihan's biographical data, I find that some of his writings--the most controversial ones are omitted. I find that curious, indeed. I have also noted that many honorary degrees have been awarded to Mr. Moynihan by some of this nation's outstanding institutions of higher learning. As I understand the concept of honorary degrees, they are awarded to those who have contributed to the quality of our lives in some way. Mr. Moynihan has done much harm to the quality of life of Black Americans. Without concrete evidence to the contrary, it is my belief that not one Black American participated in making those decisions to award the honorary degree to Mr. Moynihan. I, a Black American, am asked to do so. I cannot agree to honor Mr. Moynihan. I do not honor Mr. Moynihan. I, therefore, oppose awarding an honorary Doctor of Laws from The Ohio State University to Mr. Daniel Patrick Moynihan.

President Enarson said that Mrs. James had been kind enough to share her statement with him in advance of the meeting as well as her reservations. He said that they had talked for a half hour or so and neither was able to shake the convictions of the other. The President then made the following statement:

While it may never be prudent or wise to publicly disagree with one of your bosses, Mrs. James has spoken out of personal conviction on a matter of principle, and I am impelled to do likewise.

The issue here is not whether any of us agree or disagree with the views of Mr. Moynihan, and I do not speak now in defense of those views--though it is my opinion that they have been sometimes unfairly represented by Mr. Moynihan's critics. At various times during the ten years I have served as a President, I have recommended that the University award honorary degrees to persons with whose views I did not agree. And I know also that several members of this Board have voted in favor of bestowing this honor upon persons with whom they have not agreed.

May 7, 1976 meeting, Board of Trustees

GENERAL RECOMMENDATIONS (continued)

Honorary Degrees (continued)

President Enarson's statement:

The real issue to be decided here is whether a person's contributions--be they intellectual or through public service--warrant this honor. In the case of Mr. Moynihan, I believe that his extraordinary contributions in both areas of endeavor qualify him beyond question to receive an honorary degree from The Ohio State University. This judgment is also shared by the nineteen or more other colleges and universities that have already bestowed this honor upon him--distinguished universities such as Harvard, Indiana, and Notre Dame.

Mr. Moynihan's record is truly remarkable. He has served four American presidents in a number of high ranking positions ranging from Assistant Secretary of Labor to Counselor to the President to Ambassador to India and then the United Nations. His publications--and they are more often than not hard hitting, controversial publications--are legion. Parenthetically, if any of these were inadvertently omitted from the materials which were sent to you, I have a full listing available here. He is a member of several scholarly organizations, and is a full Professor in the John F. Kennedy School of Government, Harvard University.

His other positions of responsibility, awards and honors are too numerous to mention here.

Mr. Moynihan has created controversy. He has stirred thought and scholarly debate on a wide range of subjects. He has challenged ideas, engendered inquiry and stood up for his own convictions. I had thought that these were the qualities that this nation treasured.

It is precisely these qualities that I look for in a scholar, a colleague, or a commencement speaker. And it is precisely these qualities that an institution of higher education should honor.

We could search out and honor only those who are universally agreeable, who displease no one. We could honor mediocre, faceless persons who speak nothing to us but pious platitudes. I hope we never will.

The University should instead honor people who inspire the discussion of public issues, people who think deeply and challenge others to do likewise. We should honor those who do speak out, who voice their convictions, who stand for something.

May 7, 1976 meeting, Board of Trustees

GENERAL RECOMMENDATIONS (continued)

Honorary Degrees (continued)

President Enarson's statement:

Mr. Moynihan meets and exceeds any and all criteria which should be applied to recipients of an honorary degree. I strongly believe that he should be awarded an honorary Doctor of Laws degree from this institution.

Mr. Smith made the following remarks:

Mr. Chairman: While I don't totally agree with Mrs. James on sociological comments that have been made by Mr. Moynihan and the way they have been interpreted, I think there are some truths in those statements. Mrs. James left out one comment of his about 'benign neglect' that was certainly in the press and offended the Black community of our Nation. I agree with the President when we seek out a candidate, we don't seek out a perfect candidate. Whoever we pick who has been active in public life, has probably offended someone or some group during the course of that public life. However, maybe that criterion cannot be the test. We have used, I think, that criterion before in that the Board--I go back to discussions, for example, on collective bargaining where the comment was made that we should consider how our position would affect those who make monetary contributions to the University. When those arguments were made, and they were made by other Board members and by the administration, I didn't comment. I am pragmatic enough to think there was some reason behind that, but I think you know we are considering a group here that might be offended and this group makes a financial contribution to this University. These are Black taxpayers and they get little enough from this University. I would like to see a cost benefit ratio on the tax dollars that they put into this University.

I have had Black leaders indicate to me that they would be offended if we took this action. I think we ought to be sensitive to that point as much as we are sensitive to financial contributors to this University. I support Mrs. James' position.

May 7, 1976 meeting, Board of Trustees

GENERAL RECOMMENDATIONS (continued)

Honorary Degrees (continued)

Mr. Devenow then made the following statement:

I would like to comment that while Mrs. James raises an issue which is very close and dear to her, I have followed the life of Mr. Moynihan very closely, and despite the fact that he has made some comments which I think any man in political life has made over the years which may not be completely acceptable to certain groups, the man's record as a liberal, as standing for what he believes to be the truth, must be respected whether you agree with him or not. He certainly has called them as he has seen them. I think that perhaps a great deal of what has been said about him--now I know you say you have read deeply in his writing--has been taken out of context. Basically the man has been a great contributor to a great many causes which benefit all races in this country. I certainly would have to say that if you were going to destroy his contributions on the basis of some things that have been unacceptable to you that would not be fair to him, either.

Mr. Dunlap said he would entertain a motion that Mr. Stone and Mr. Moynihan be voted on separately.

Upon motion of Mr. Devenow, seconded by Mr. Harrod, the Board of Trustees approved by unanimous roll call vote that the vote on Mr. Stone and Mr. Moynihan be divided.

Upon motion of Mr. Gushman, seconded by Mr. Harrod, the Board of Trustees approved the awarding of the honorary degree to Mr. Stone by unanimous roll call vote.

Upon motion of Mr. Hilliker, seconded by Dr. Jacob, the Board of Trustees approved the awarding of the honorary degree to Mr. Moynihan with seven affirmative votes and Mrs. James and Mr. Smith casting negative votes.

REPORTS

Capital Improvement Projects

Resolution No. R-1976-1.1

The President called upon Mr. Thomas B. Smith to narrate a slide presentation on capital improvement projects completed and in progress.

May 7, 1976 meeting, Board of Trustees

REPORTS (continued)

Legal Services Legislation

Resolution No. R-1976-1.2

President Enarson reported that the administration had not intervened to defeat the student legal services bill presently being considered by the Ohio General Assembly. He requested that if the administration or if the Board should take a position on this legislation then he should be directed to do so. Otherwise, he would continue to take no position.

Collective Bargaining

Resolution No. R-1976-1.3

President Enarson made the following statement:

I have one more item that I feel impelled to bring up, since it hasn't come up, and I do so with some hesitation because I know there are mixed views on the subject around the table. I think it's fair to say that both the proponents and opponents of collective bargaining believe that the vote which was taken two months ago would be reconsidered when all nine members are here.

I made it as clear as I possibly can that I felt first, that collective bargaining was not appropriate for this institution; and secondly, all things considered, that the faculty should have an opportunity to have a vote on this issue. And I so recommended. Subsequently, I have had correspondence with the AAUP in which it was suggested that I had a duty to press the matter and again to present this to the Board. I have indicated to the AAUP leadership that I thought 'the ball was in their court.' While I will cooperate with the AAUP or any other faculty group, I think it is unreasonable to expect me to do their job for them. That's really all I have to say on the subject, except that there's some considerable difference between what casual observers hope happens in the event of collective bargaining and what actually happens in 'the real world.' I would urge you to follow the newspapers very carefully with respect to the bargaining process as it takes place at Kent State and Cincinnati, or possibly Rutgers.

Mr. Harrod made the following statement

I think you put it very well. We did meet. We had a motion. The motion failed and so 'the ball is in their court.' I agree with you.

Report on the University's  
Investment Portfolio

Resolution No. R-1976-1.4

The report on the University's Investment Portfolio dated May 6, 1976, as submitted to the Fiscal Affairs Committee of the Board of Trustees, was received and ordered to be filed with the official records of the Board.

ELECTION OF OFFICERS

Report from Nominating Committee

Resolution No. R-1976-1.5

The Nominating Committee (Mr. Devenow, Chairman; Mrs. James; Dr. Jacob) submitted the following slate as officers of the Board of Trustees for the year, effective May, 1976 through May, 1977 meeting:

Chairman	M. Merle Harrod
Vice Chairman	John L. Gushman
Secretary	Edward Q. Moulton
Treasurer	Ernest W. Leggett

Upon motion of Mr. Devenow, seconded by Dr. Sirak, the Board of Trustees approved the foregoing slate of officers with seven affirmative votes and Messrs. Harrod and Gushman abstaining.

Mr. Dunlap made the following statement:

Before I adjourn this meeting I would like to say just a word or two. I want to thank everyone that has put up with me for the last year--the administration, the Board, the faculty, the employees, the students, even the Lantern. I have enjoyed this year--we have had a lot of fun, we have had a lot of problems. I am sorry it is over in a way and I'm glad it is over in another way. It has been an honor to be Chairman of the Board of Trustees of what I consider, despite its pitfalls and troubles, to be the greatest University in the United States.

Mr. Harrod responded as follows:

Mrs. James and other Members of the Board: I am deeply grateful for this opportunity to serve my University. This is the greatest honor I have ever had in my life. Hopefully, I will--at least I will try, to do as well as Jack Dunlap.

Professor Melvin Newman, a member of the Ohio State University faculty since 1936, is a Guggenheim fellow, a member of the National Academy of Sciences, the recipient of the American Chemical Society Award for Creative Research in Organic Chemistry, and numerous other honors. No elementary textbook in chemistry would be complete without reference to his research. Perhaps his most important achievement has been the young men and women he has taught. More than 150 students have been graduated from this University with Ph.D. and Masters degrees, under his dedicated guidance. It is an honor for The Ohio State University to present to Professor Melvin S. Newman the 1976 Joseph Sullivant Medal in recognition of his outstanding contributions to chemistry and education.

RESOLUTIONS IN MEMORIAM

Resolution No. 76-1

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Don Louis Demorest, Professor Emeritus, Department of Romance Languages and Literatures; 32 years of service

Tom B. Haber, Professor Emeritus, Division of Comparative Literature; 36 years of service

Upon motion of Mr. Gushman, seconded by Mrs. James, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Don Louis Demorest

The Board of Trustees of The Ohio State University expresses its great sorrow upon the untimely death April 19, 1976, of Don Louis Demorest, Professor Emeritus in the Department of Romance Languages.

Professor Demorest was closely associated with The Ohio State University a large part of his life. He holds the B. A. and M. A. degrees from this institution. He was one of the first Americans to receive the distinguished Doctorat es Lettres as a result of his work at the University of Paris. After serving as Professor at Miami University (Oxford, Ohio) for several years he came to The Ohio State University in 1930 as Assistant Professor of Romance Languages, advanced to the rank of Professor in 1949, and was an active member of the faculty until his retirement in 1962. During these years he served on numerous committees in which he was courageous in championing many difficult causes. From time to time he took student groups to France. Always most gracious and very devoted to his work, his character, his personality, and his intimate knowledge of French literature had a profound influence on his students. He was internationally known as one of the leading Flaubert Scholars. His epochal "L'expression figuree et symbolique dans l'oeuvre de Gustave Flaubert" is one of the monuments in Flaubertian studies. He continued his research throughout his retirement years.

On behalf of the University, the Board of Trustees expresses to the family its deepest sympathy in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Tom B. Haber

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 23, 1976, of Tom Burns Haber, Professor Emeritus in the Division of Comparative Literature.

Professor Haber was born May 5, 1900, at Rossburg, Ohio. He graduated in 1917 from Ansonia High School, and attended Ohio Northern University, from which he received the B. A. degree in 1921, and the B. S. in Ed. degree

in 1922. He taught English and History at Union City High School from 1921 to 1924. He came to The Ohio State University in 1924, and earned the M. A. in 1925 and Ph. D. in 1929, both in English. Dr. Haber was Instructor of English from 1927 to 1949, Assistant Professor of English from 1949 to 1966, Associate Professor of Comparative Literature from 1966 to 1968, and Professor of Comparative Literature from 1968 until his retirement in 1970.

Professor Haber published a number of books, articles, and scholarly editions, mainly on the English poet A. E. Housman. His work on Housman was internationally known.

On behalf of the University, the Board of Trustees expresses to the family its deepest sympathy in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Budget 1976-1977

Resolution No. 76-5

President Enarson made the following statement:

I. INTRODUCTION

The recommended budget for The Ohio State University is a balanced budget. It is built upon careful and realistic estimates of income and planned expenditures. The appropriation for this, the second year of the biennium, is fixed. There are, however, a number of uncertainties and therefore this budget has been planned conservatively. I recommend its adoption.

III. THE INSTRUCTIONAL AND GENERAL BUDGET

OVERVIEW:

The Instruction and General Budget of the Columbus Campus is the University's key budget. It embodies all major budgetary decisions. The I & G budget supports the credit educational programs in which students enroll and pay fees and for which the University receives State tax support in an amount depending upon the number and distribution of credit hours taught by program and level. All major budget goals and priorities originate primarily from a consideration of the constraints and boundaries imposed on the I & G budget.

A. BUDGETARY CONSTRAINTS:

On March 5, 1976, I presented to the Board of Trustees a framework of constraints within which next year's budget hopefully could be developed. The constraints set down were:

- A budget balanced without drawing upon University general reserves.
- No increase in undergraduate student fees.

June 4, 1976 meeting, Board of Trustees

GENERAL RECOMMENDATIONS (contd)

Budget 1976-1977 (contd)

President Enarson's statement (contd)

- To take special note of potential State funding problems which could either delay subsidy payments or reduce their magnitude (or both).
- A realistic consideration of the probable impact of inflation.
- An assessment of fee and subsidy revenues based on best estimates of next year's enrollment mix by program and level, taking account of Ohio State's enrollment ceiling, Columbus Campus.
- To hold internal budget cuts to a minimum.

B. KEY PRIORITIES OF I & G BUDGET

The key priorities in this proposed budget have to do with student fees, faculty and staff salaries, energy, library books and contingency planning.

Student Fees.

It is recommended that undergraduate student fees for next year be kept at present levels, thereby diminishing the share of the instruction costs borne by students. However, an increase of \$100 per quarter in the non-resident surcharge for full-time graduate professional students is recommended effective Winter Quarter 1977. (This out-of-state surcharge has not been increased since July of 1969.)

Faculty and Staff Salaries.

For the third consecutive year--in an effort to advance the salary level at Ohio State and to keep pace with inflation--high value is placed on the improvement of faculty salaries and most staff salaries.

Energy.

The projected increase in the cost of energy, though appreciable, must be funded.

Library Books.

A special, supplemental allocation for the inflation-eroded book budget is recommended.

June 4, 1976 meeting, Board of Trustees

GENERAL RECOMMENDATIONS (contd)

Budget 1976-1977 (contd)

President Enarson's statement (contd)

Contingency Planning.

As one of several aspects of contingency planning to be found throughout this budget, it is recommended that a minimum of contingency funds be set aside in the amount of one percent of the I & G budget. Such funds are essential. They would be used for emergencies, to adjust college budgets for enrollment, for program improvements and for opportunity matching grants. The proposed contingency funds would serve first to aid in funding revenue shortfalls and, beyond that need, to provide a minimum of support for much needed supplemental funding of the academic programs.

C. PROPOSED BUDGETARY DISTRIBUTION

Based upon my earlier review of this matter with the Board of Trustees and, with the advice of the Faculty Compensation and Benefits Committee, the following allocations are recommended.

1. A proposed compensation package which provides:
  - \* An average increase of 7.5 percent in salaries for returning regular faculty, specials and for returning regular administrative and professional staff.
  - \* Another 0.5 percent for special salary adjustments--inequities and promotions.
  - \* An allocation of 0.5 percent to meet the full cost of Blue Cross insurance for all regular faculty and administrative and professional personnel as recommended to the Fiscal Affairs Committee.
  - \* Allocations to fund mandated increases for all classified personnel.

These allocations together would increase the personnel services portion of the Instruction and General Budget by 7 percent.

June 4, 1976 meeting, Board of Trustees

GENERAL RECOMMENDATIONS (contd)

Budget 1976-1977 (contd)

President Enarson's statement (contd)

2. Non-personnel commitments for Instructional Support.

- \* Resources for books and periodicals, for departmental equipment (instructional and office), for supplies (laboratory, classroom and office) and for services (telephone, travel, postage, etc.) would be increased by 5 percent. The library beyond this 5 percent increase, would receive a special allocation of \$150,000 for books and periodicals.
- \* Energy - The new costs next year for all utilities and the energy conservation program may be as high as \$1.6 million (up 30 percent).
- \* Unavoidable Cost Increases - New resources must be allocated to meet unavoidable increases in the cost of the existing major medical and Blue Cross insurance programs, for radiation safety, worker's compensation, the Ohio and Drake Student Unions and for student aid matching funds. These obligations require an allocation of just under \$1 million.

These allocations together would increase the Instruction and General Budget by \$3.6 million.

3. Contingency funds.

One percent of the Instruction and General Budget (\$1.7) has been set aside for contingency purposes. These funds, once released as backup funds for the 1976-77 budget, would be used to adjust college budgets for change in enrollment, for program improvements and for opportunity matching funds.

D. HOW THE BUDGET IS BALANCED

The proposed compensation package for the Instruction and General Budget would increase personnel commitments \$8.7 million. Budget increments recommended for books, equipment, supplies and services would cost \$1 million. Unavoidable cost increases, including an increase of \$1.6 million for utilities and energy conservation, total \$2.6 million. The proposed allocation of minimum contingency funds is \$1.7 million. Thus, the recommended amount of new general funds spending next year is \$14 million.

June 4, 1976 meeting, Board of Trustees

GENERAL RECOMMENDATIONS (contd)

Budget 1976-1977 (contd)

President Enarson's statement (contd)

The sources of the \$14 million in recommended increases are:

- \* An increase in the instructional subsidy of \$11.5 million.
- \* An increase in student Instruction and General revenues of \$0.5 million.
- \* An increase in unrestricted revenues of \$0.1 million.
- \* Internal savings and retrenchment of \$1.9 million.

IV. CONCLUDING RECOMMENDATIONS

Now I wish to recommend that:

- \* The attached budget summary for 1975-76, which is also presented as the budget summary for the third quarter of the current fiscal year, be approved.
- \* The budget as proposed for the fiscal year 1976-77 be approved.
- \* An increase of \$100 per quarter in the non-resident surcharge for full-time graduate professional students be approved effective Winter Quarter, 1977, as was recommended to the Educational Affairs Committee earlier.
- \* The Secretary be instructed to incorporate all supporting documents into the minutes of this meeting, including salary rolls and the schedule of fees for the 1976-77 fiscal year, and to file these materials with the official records of the University.

Upon motion of Dr. Sirak, seconded by Mr. Hilliker, the Board of Trustees approved the foregoing recommendations by unanimous roll call vote.

2. An addition of 4,700 specimens valued at \$16,900 from Dr. Dwight M. DeLong to be added to the DeLong Collection of World Cicadellidae.

Addition to the DeLong Collection of World Cicadellidae

On June 10, 1965, the Board of Trustees accepted through the Development Fund, the personal collection of American Cicadellidae (Leafhoppers) from Dr. Dwight M. DeLong, an emeritus faculty member. Now known as the DeLong Collection of World Cicadellidae, the collection was valued at \$50,000. It was accepted upon three conditions which were, briefly: that the University furnish a proper place in which to house the collection, that the University assure Dr. DeLong that a permanent curator or custodian be employed to properly preserve the collection, and that Dr. DeLong be assured an adequate place in which he could work to continue his collecting and to add to the collection.

2. Addition to the DeLong Collection of World Cicadellidae (contd)

On October 13, 1972, Dr. DeLong made a gift of more than 12,000 additional specimens to the collection under the same conditions that guided the original gift. The additional specimens were valued at \$20,000.

Professor DeLong has now offered to make a third gift of 4,700 specimens, having a value of \$16,900. These specimens are offered as a gift on the same terms as the original collection and are to become a part of it.

During the past four years, Professor DeLong has prepared 49 manuscripts from this and related material. Three of these were genuine synopses and treated many species (large volumes).

This is a remarkable accomplishment for this 84 year old Emeritus Professor who still comes to the office regularly and continues to contribute to our knowledge of the insect world. It is recommended that Dr. DeLong's latest gift be accepted with gratitude and under the same conditions agreed to by the Trustees in accepting the original collection.

Report from the Educational Affairs Committee-- Graduate Professional Admissions Policy

Resolution No. 76-14

Mr. Gushman reported as follows:

Before making certain recommendations I would like to provide some background as to how we arrived at the recommendations. Over the past two years the Educational Affairs Committee has been reviewing the admissions policy of the Graduate Professional Programs at The Ohio State University, which include Dentistry, Law, Medicine, Optometry, and Veterinary Medicine. We met with Deans and other members of these Colleges, reviewed admissions and enrollment data, and discussed a wide range of problems associated with admissions to these various programs. We have also been provided with a report from an Ad Hoc Committee appointed by President Enarson on this same subject, as well as additional information from the President and the Provost.

After deliberating on all of this information our Committee is now recommending the establishment of the following policies relating to Graduate Professional Admission at this University effective with the classes admitted for the 1977-78 academic year:

June 4, 1976 meeting, Board of Trustees

REPORTS (contd)

Report from the Educational Affairs Committee--  
Graduate Professional Admissions Policy (contd)

Mr. Gushman (contd)

- (1) That in all cases where applicants are ranked as equally qualified by the appropriate admission committees, preference shall be given to those applicants classified as residents of the State of Ohio under the rules of the Board.
- (2) That non-resident enrollment be limited to no more than fifteen percent of the total enrollment in each of the Graduate Professional Programs with exception of Veterinary Medicine and Optometry where there are regional financial arrangements beneficial to the University.
- (3) That all Graduate Professional Programs require an interview as part of the admissions process.

Upon motion of Mr. Gushman, seconded by Dr. Sirak, the Board of Trustees approved the foregoing recommendations by unanimous roll call vote.

Mr. Gushman continued:

Mr. Chairman, I wish to inform the Board that this Committee reviewed the President's recommendation to increase non-resident tuition charges in Graduate Professional Programs by \$100 per quarter so as to bring these charges more in line with similar programs throughout the country and we support this action.

Report by President Harold L. Enarson on Safety  
of Lincoln and Morrill Towers

Resolution No. 76-15

I would like to call your attention to your Board agenda and my statement of May 24 responding to articles which appeared in the Lantern which raised questions about the safety of conditions in Lincoln and Morrill Towers.

As I indicated at that time, we do not believe that there is any cause for alarm about the safety of these or, for that matter, any other University building of the 400 we have. However, I felt then and I feel now that any question which touches in any way on the safety of students, faculty, staff

June 4, 1976 meeting, Board of Trustees

REPORTS (contd)

Report by President Harold L. Enarson on Safety of Lincoln and Morrill Towers (continued)

and visitors to campus requires thorough review and investigation. I did direct Dr. Moulton, Dr. Armitage, and Mr. Smith to investigate each and every allegation or suggestion of a dangerous or unsafe condition. Should any conditions be found to exist which require safety improvements, action will be taken immediately to make those changes.

Work has been planned for this summer on some needed remodeling in Morrill Tower. This came to our attention during the time of the Lincoln Tower remodeling. Work on those improvements will go forward as planned.

We will also issue, at some time, a point by point report of our findings with respect to the questions raised in the Lantern and our review is complete. While I cannot comment any further without the full and complete result of our study, I would emphasize, again, that we have simply found no cause for alarm about safety on campus.

Despite my earlier vow to myself that I wouldn't expand on this I will simply say that the greatest single fire threat in any dormitory that I have ever visited or known is the student who smokes in bed.
