RESOLUTIONS IN MEMORIAM

President Enarson reported to the Board the deaths of Lucile B. Alexander, Professor Emeritus in the School of Home Economics; Charles A. Haas, Professor Emeritus in the Cooperative Extension Service; Herbert G. Mote, Associate Professor Emeritus in the College of Optometry; and Claud R. Neiswander, Professor Emeritus in the Department of Entomology. In accordance with the instructions of the Board of Trustees, copies of the following resolutions expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the families of the deceased.

A. Lucile B. Alexander

The Board of Trustees of The Ohio State University expresses its sorrow at the death on July 8, 1974, of Lucile B. Alexander, Professor Emeritus in the School of Home Economics.

Miss Alexander joined the faculty at The Ohio State University in 1946. Prior to that time she had served in the public schools of Montana, 1934-1939, and in home economics education at Montana State College, 1939-1945.

Miss Alexander received her bachelor's degree in home economics from Montana State College in 1938 and a master's degree from University of Minnesota in 1946. She did advanced graduate work at Iowa State College and Cornell University.

In her 27 years at The Ohio State University, Miss Alexander received many honors in recognition of her position as a teacher, adviser, and friend. She was tapped for Alpha Lambda Delta, 1949; Mortar Board, 1952; Mirrors, 1955; Chimes, 1959; and received the meritorious Service Award of the College Council, 1964; and the Alfred J. Wright Award, 1965.

Miss Alexander received recognition from both faculty members and students for her leadership in the area of student guidance. She also served as co-adviser to the Agriculture and Home Economics College Council for 16 years; adviser to Alpha Lambda Delta, 13 years; and adviser to The Ohio State University Chapter of the American Home Economics Association, 16 years.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

B. Charles A. Haas

The Board of Trustees of The Ohio State University expresses its sorrow at the death on July 10, 1974, of Charles A. Haas, Professor Emeritus in the Cooperative Extension Service.

RESOLUTIONS IN MEMORIAM (continued)

B. Charles A. Haas (continued)

Mr. Haas was born April 26, 1911, in Tuscarawas County at Strasburg, Ohio. He attended high school in Tuscarawas County graduating in 1929. A Bachelor of Science in Agriculture degree was received from The Ohio State University in 1933. Graduate education was completed at Cornell University with a Master of Science degree awarded in 1952.

Mr. Haas joined the faculty of The Ohio State University as an Acting County Agent in Stark County, Ohio, in July of 1934. He served in this capacity until 1935 when he moved to Portage County as an Assistant County Agent, Agriculture, and then on to Geauga County in March of 1936. On January 1, 1950, he was named District Supervisor of the Ohio Cooperative Extension Service with responsibility for the Northeast District. From late 1964 until the time of his retirement on January 31, 1970, he served in the position of Assistant State Leader, Personnel. He had held the academic rank of Professor since 1958. Mr. Haas was a dedicated and highly respected agricultural leader first in the eyes of people of Geauga and surrounding counties and then by his peers throughout the Ohio Cooperative Extension Service faculty. Mr. Haas was highly people oriented and served with both enthusiasm and distinction in every position which he held. He will long be remembered for his outstanding contributions to educational programs conducted at The Ohio State University through the Cooperative Extension Service.

On behalf of the University community, the Board of Trustees expresses to the family of Mr. Haas its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and copies be tendered to Mrs. Haas and daughter, Janet Johnson, and son, William Haas, as sincere appreciation of the Board's realization of the loss to the family, University, and his many friends and associates.

C. Herbert G. Mote

The Board of Trustees of The Ohio State University expresses its sorrow at the death on August 15, 1974, of Herbert G. Mote, Associate Professor Emeritus in the College of Optometry.

Born March 26, 1903, in Arcanum, Ohio, Dr. Mote first received the B.S. degree from the University of Akron in 1928. He received his degree in optometry from The Ohio State University in 1935 with honors. He was the first optometry student to receive the Epsilon Psi Epsilon Professional Optometric Fraternity Junior Merit Award, which on his retirement in 1973 was renamed the Herbert G. Mote Award by the fraternity.

Following graduation, he was one of three students to inaugurate the graduate program in physiological optics. He received the M.S. degree in 1938.

Professor Mote was a member of the faculty in optometry on a half-time basis from 1936 through 1961, while also maintaining a part-time practice of optometry in Columbus. In 1961 he closed his practice and became a full-time member of the faculty. He retired July 1, 1973.

RESOLUTIONS IN MEMORIAM (continued)

C. Herbert G. Mote (continued)

Professor Mote was President of the Ohio Optometric Association from 1949 through 1951. During his service on the OOA Board, \$108,000 was collected toward the initial phase of the Optometry Building. From 1959 through 1961 he served as President of the Association of Schools and Colleges of Optometry.

Professor Mote served for fourteen years on the University Placement Committee, two years as its Chairman. He was a Fellow of the American Academy of Optometry and a member of the American Optometric Foundation, the Ohio Optometric Association, the American Optometric Association, the Midwest College Placement Association, the Faculty Club, and the Indianola Presbyterian Church.

The father of three daughters, he was active for many years on the Board of Trustees of the Columbus and Franklin County Council of Camp Fire Girls, and was a past President. He was a former member of the Columbus Recreation Commission and for many years served as vision consultant to the Ohio State Highway Patrol. In 1969 he received an honorary badge of Captain in the Highway Patrol.

On behalf of the University community, the Board of Trustees expresses to the family of Dr. Mote its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to Mrs. Mote as sincere appreciation of the Board's realization of the loss which the family, the University, and his many friends and associates have sustained.

D. Claud R. Neiswander

The Board of Trustees of The Ohio State University expresses its sorrow at the death on June 19, 1974, of Claud R. Neiswander, Professor Emeritus in the Department of Entomology.

Dr. Neiswander was born in Hancock County, Ohio, on March 6, 1893. He was a high school teacher of Latin and mathematics and in 1913 he was made principal of Arlington High School. He served in the U. S. Army in World War I with a medical detachment in France. After receiving an honorable discharge in 1919, he enrolled at The Ohio State University where he was elected to Phi Beta Kappa and graduated summa cum laude in 1922. He received his M. S. degree in 1923 and a Ph. D. degree in 1926 from the same institution.

Dr. Neiswander was first employed at the Experiment Station in Wooster, Ohio, in 1932 and became Associate Chairman in the Department of Entomology in 1948. He served in this capacity until 1961 when he retired. His administration was characterized by an unselfish devotion to duty and to the implementation of the research of his staff.

RESOLUTIONS IN MEMORIAM (continued)

D. Claud R. Neiswander (continued)

His membership in professional societies included the American Association for the Advancement of Science, Sigma Xi, The Ohio Academy of Science, The Entomological Society of America, and The North Central Branch of The Entomological Society of America, serving as President of the Branch in 1951.

Dr. Neiswander was best known for his research on the European corn borer and other corn insects. He also published widely on many other pest species. His pioneering work in the use of selenium as a systemic acaricide led to the first commercial use of systemics in the history of economic entomology.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

President Enarson presented the following recommendations:

I. GENERAL RECOMMENDATIONS

A. Use of University's Name and Seal

Action was initiated in November, 1973 by the Vice President for Business and Administration to cause to be registered with the United States Patent Office the name and seal of The Ohio State University, as a means of establishing control over the use of the University's name and seal by persons or organizations not associated with the University or with the State of Ohio.

In so doing the University may now control the use of its name and seal to (1) prevent any use that reflects unfavorably on the University, and (2) provide a supplement to this University's scholarship funds from all funds received through the licensing of the University's name and seal.

President Enarson recommended that the program for the controlled use of the University's name and seal as described be authorized and implemented.

Upon motion of Mr. Hilliker, seconded by Mr. Harrod, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

B. Traffic and Parking Regulations -  
The Ohio State University

On June 10, 1965, at the request of the University's administration, this Board established the "Motor Vehicle, Traffic, and Parking Regulations of The Ohio State University." At subsequent meetings of the Board these

I. GENERAL RECOMMENDATIONS (continued)

B. Traffic and Parking Regulations -  
The Ohio State University (continued)

Regulations were amended to include branch campuses of the University and incorporated regulations for control of watercraft. Further actions adopted a code for vehicular traffic on certain streets and areas, modified fees for parking permits, and provided for registration of a second motor vehicle and assessment of a per diem fee for visitors to park in traffic control area.

The Board is now being requested to approve additional revisions in the "Motor Vehicle, Traffic, and Parking Regulations of The Ohio State University" relating to the traffic and parking regulations on the campus, clarification of the authority of the Board of Trustees in traffic and parking matters, establishment of guidelines for safe operation of bicycles on campus, the schedule of assessments for parking infractions and the appeals procedure for persons in violation of the parking and traffic regulations.

President Enarson recommended that this "Revised Motor Vehicle, Traffic, and Parking Regulations of The Ohio State University" be approved as amended and become effective upon the filing of this document with the Secretary of State of Ohio in accordance with Ohio Revised Code Section 3345.21, and that a copy be filed with the official records of the Board of Trustees.

Upon motion of Mr. Dunlap, seconded by Dr. Sirak, the above recommendation was approved by unanimous roll call vote.

C. Establishment of a Chair in Radiology in the College of Medicine

President Enarson recommended that a Chair in Radiology in the College of Medicine be designated in accordance with the wishes of a donor who prefers to remain anonymous and pursuant to an action by the Board of Trustees of The Ohio State University approved on March 3, 1972.

The donor has agreed that this Chair should be funded from income derived from deposits made in the form of a revocable trust on September 15, 1971. The income from this trust will provide sufficient funds to support the Chair in Radiology on an annual basis and may eventually be used to permanently endow this Chair.

The purpose of this Chair in Radiology shall be for the teaching of radiology, for the enhancement of research in radiology and for the development of clinical learning experiences in radiology, but is not necessarily limited to these three areas of radiology. Funds provided for the support of this Chair can be used for purposes of salary and program support.

I. GENERAL RECOMMENDATIONS (continued)

C. Establishment of a Chair in Radiology in the College of Medicine (continued)

At some future date, at the donor's wish, the Chair may be named in the donor's honor.

Upon motion of Mr. Dunlap, seconded by Mr. Kessler, the Board of Trustees by unanimous voice vote approved the establishment of a Chair in Radiology in the College of Medicine.

2. Establishment of Named Funds

- a. \$25,000.00 from the Estate of Martha H. Mayer for the establishment of The Bruce A. Mayer Scholarship Fund.

The Bruce A. Mayer Scholarship Fund

The Bruce A. Mayer Scholarship Fund was established September 6, 1974, by the Board of Trustees of The Ohio State University with a bequest from Martha H. Mayer to The Ohio State University Development Fund in memory of her husband, Bruce A. Mayer, D. D. S. '18, formerly of Springfield, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide one or more scholarships for deserving students in the College of Veterinary Medicine. The selection of the recipients is to be made upon the recommendation of the University Scholarship Committee in cooperation with the Dean of the College of Veterinary Medicine.

Should the need for these scholarships cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for scholarships.

2. Establishment of Named Funds (continued)

- b. \$4,090.00 from family, friends, colleagues, and former students of Salvatore M. Marco for the establishment of the Salvatore Michael Marco Memorial Scholarship Fund.

Salvatore Michael Marco Memorial Scholarship Fund

The Salvatore Michael Marco Memorial Scholarship Fund was established September 6, 1974, by the Board of Trustees of The Ohio State University with gifts through The Ohio State University Development Fund from the family, friends, colleagues, and former students of Salvatore Michael Marco, B.M.E. '30, M.S. '32, late of Columbus, Ohio, Chairman of the Department of Mechanical Engineering, 1952-1968, and Professor Emeritus at the time of his death in 1973.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of the University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide one or more scholarships to either entering freshmen or to first-, second-, or third-year students who demonstrate a strong motivation toward pursuit of the Mechanical Engineering Program at The Ohio State University and upon strong probability of successful academic work. Financial need should be a part of the total consideration in the selection but should not be a prerequisite, nor should a student be obligated to pursue the Mechanical Engineering Program if, for good and sufficient reason, he deems it advisable to change majors. Selection is to be made by the University Scholarship Committee upon the recommendation of the Scholarship Committee of the Department of Mechanical Engineering and approved by the Department of Mechanical Engineering and approved by the Department faculty.

Should the Department of Mechanical Engineering cease to exist, through any reorganization of the University, then the income shall be used as recommended by an appropriate committee appointed by the administrative head of engineering studies and responsible for Mechanical Engineering education, for purposes as nearly as practicable as set forth above.

The recipients of these awards shall be designated SALVATORE MICHAEL MARCO MEMORIAL SCHOLARS for the year immediately succeeding the award.

2. Establishment of Named Funds

- a. \$393,655.06 from the Bert W. Martin Chair in Agricultural Sciences for the establishment of the Bert W. Martin Fund.

Bert W. Martin Fund

The Bert W. Martin Fund was established September 6, 1974, by the Board of Trustees of The Ohio State University, with a gift from the Bert W. Martin Foundation and Bert W. and Ada L. Martin in 1963. The proceeds from this gift were used originally for the establishment of the Bert W. Martin Chair in Agricultural Sciences on February 9, 1967.

When the Chair was originally established, it was hoped that additional contributions would make it possible to fully endow a Chair within a relatively short period of time. It is now clear that individuals other than the principal donor (now deceased) are not likely to contribute to complete the funding of this Chair.

It is deemed desirable that the Bert W. Martin Fund be established for the general purposes of the College of Agriculture and Home Economics in furtherance of programs and activities in that College.

- b. \$63,251.54 from faculty, staff, students, and friends of James R. McCoy for the establishment of The James R. McCoy Scholarship Fund.

The James R. McCoy Scholarship Fund

The James R. McCoy Scholarship Fund was established September 6, 1974, by the Board of Trustees of The Ohio State University with gifts through the Development Fund from faculty, staff, students, and friends to honor James R. McCoy, B.S. Bus. Adm. 1934, M.B.A. 1936, Dean of the College of Administrative Science from 1959 to 1974 and member of the Accounting Faculty for 39 years.

Gifts may be designated for specific programs in the College and are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to award scholarships to students in the donor-designated graduate and undergraduate programs of

the College of Administrative Science upon the recommendations of the separate program directors and/or the faculty chairmen, the College Scholarship Committee, and the Dean of the College.

Should the College of Administrative Science cease to exist through any reorganization of the University, then the scholarships are to be awarded upon the recommendation of the appropriate administrative official of the University who is then directly responsible for existing higher education programs now resident in the College.

c. \$1,450.00 from friends of Arthur M. Culler for the establishment of The Arthur M. Culler Memorial Lecture Fund.

The Arthur M. Culler Memorial Lecture Fund

The Arthur M. Culler Memorial Lecture Fund was established September 6, 1974, by the Board of Trustees of The Ohio State University with gifts from friends of the late Arthur M. Culler, M. D., former chairman of the Department of Ophthalmology at The Ohio State University.

All gifts to this fund are to be invested in the University's Permanent Endowment under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide honorariums and expenses for visiting professors invited to lecture by the Department of Ophthalmology.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for medical education.

IV. BUSINESS AND ADMINISTRATION

A. Engineers/Architects

1. Academic Facilities Field Audit, The Ohio State University

President Enarson recommended that the firm of William Gould and Associates, Cleveland, Ohio, be employed to perform the architectural, mechanical, electrical, and safety inspections of all academic facilities that were constructed prior to 1962 on The Ohio State University campus. The report will include the estimates of cost to correct any deficiencies uncovered as a result of the inspections.

The consulting firm was selected by the Ohio Board of Regents which is sponsoring the program. The fee for this service is \$104,026.00 and has been approved by the Department of Administrative Services, Division of Public Works.

Funds for this service have been provided from H. B. 985 (Utilities and Renovations).

Upon motion of Mr. Harrod, seconded by Mrs. James, the above recommendation was approved by unanimous roll call vote.

B. Plans and Specifications

1. Advertised Projects

At the request of the Vice President for Business and Administration, President Enarson recommended that the plans and specifications, bills of materials, and estimates of cost for the following projects be approved by the Board of Trustees.

a. Royer Commons, Remodeling (Phase I)

This project will provide office space for student activities, a library, and a listening center. The first phase of this refurbishing of Royer Commons will be in the lower level only.

Funds are budgeted in Budget Account 998295 (Dorm Contingency Fund).

b. Drackett Tower, North Commons--Chilled Water Cross Connection

This project will provide cooling for two facilities with one chiller during periods of reduced occupancy with subsequent energy conservation.

Funds are budgeted in Budget Account 998295 (Dorm Contingency Fund).

IV. BUSINESS AND ADMINISTRATION (continued)

B. Plans and Specifications (continued)

1. Advertised Projects (continued)

c. Goss Laboratory - Veterinary Hospital--Chilled Water Loop

This project will permit a boiler and chiller in the Veterinary Clinic to furnish chilled water cooling to both facilities, thus effecting a savings in natural gas consumption by operating the boiler in a higher efficiency range.

Funds are budgeted in Budget Account 126070 (Contract Repair).

Upon motion of Mr. Dunlap, seconded by Mr. Gushman, the above recommendation was approved by unanimous roll call vote, and the Secretary was authorized and directed to sign the plans and specifications for the above projects for and on behalf of the Board of Trustees. The Vice President for Business and Administration was directed to proceed with a request for bids in the normal University manner, and if satisfactory bids are received to proceed with the award of contracts. All action regarding this matter will be reported to the Board of Trustees at a later meeting.

2. Request for Bids Through The Ohio State University Purchasing Department

At the request of the Vice President for Business and Administration, President Enarson recommended that the plans and specifications and estimate of cost for the following project be approved by the Board of Trustees to obtain bids through The Ohio State University Purchasing Department:

a. Calf-Holding Shed, Moores Demonstration Farm, Ashland County, Ohio

This structure will provide shelter for 60 to 90 calves each year. Construction will be an all-metal clear-span prefab structure approximately 40 feet by 110 feet.

Funds are budgeted in Budget Account 921000 (Moores Farm).

Upon motion of Mr. Dunlap, seconded by Mr. Gushman, the above recommendation was approved by unanimous roll call vote. The Vice President for Business and Administration was directed to proceed with a request for bids through The Ohio State University Purchasing Department in their normal manner, and if a satisfactory bid is received to proceed with the issuance of the necessary purchase orders. All action regarding this matter will be reported to the Board of Trustees at a later meeting.

IV. BUSINESS AND ADMINISTRATION (continued)

C. Report of Award of Contracts

1. Cancellation of Project

On May 3, 1974, the Board of Trustees approved the following project to be advertised for the completion of construction:

a. Parking Lot Renovation--Eleventh and Worthington Avenues

This site is now proposed for a recreation building and tennis courts to serve the South Campus area. Therefore, it was recommended that this project be cancelled.

Upon motion of Mr. Hilliker, seconded by Mr. Devenow, the above cancellation was approved by unanimous roll call vote.

2. Award of Contracts

In accordance with authorization provided by the Board of Trustees, bids were taken on the projects listed below and the contracts were recommended for award. The action reported to the Board was as follows:

a. Campbell Hall, Office Improvements

	<u>Low Bid</u>	<u>Est. of Cost</u>
<u>General Contract</u> (3 bids received 8-7-74) Ed Ross Construction Co. (Westerville)	\$ 18,400.00*	\$ 17,701.00

1. Lease Agreement, Affiliation Agreement, and Service Contract Between the Veterans Administration, Washington, D. C., and The Ohio State University, Columbus, Ohio

A proposed Lease Agreement, Affiliation Agreement, and Service Contract have been developed between this University and the Veterans Administration to provide patient care, education and training to veterans and research in support of these activities.

Under these agreements the University will house the necessary personnel, supplies, and equipment in support of these activities in the University Hospitals Clinic Facility. The University will be reimbursed in full for these services.

President Enarson recommended that the Secretary of the Board of Trustees be authorized to enter into the Lease, Affiliation Agreement, and Service Agreement with the Veterans Administration on behalf of The Ohio State University and that a copy of these documents be filed with the records of the Board of Trustees.

Upon motion of Mr. Devenow, seconded by Mr. Dunlap, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

IV. BUSINESS AND ADMINISTRATION (continued)

D. Other (continued)

2. Lease Agreement - Board of County Commissioners of Franklin County and the Board of Trustees of The Ohio State University

The Board of County Commissioners of Franklin County, Ohio, and the administration of The Ohio State University have agreed that it would serve the best interests of both parties as well as the citizens of Franklin and surrounding counties to locate the new County Coroner's Office facilities, laboratory, and morgue in close proximity to The Ohio State University medical facilities so as to provide the fullest possible educational opportunity for the students and faculty of this University.

Under this agreement, The Ohio State University will lease to the Board of County Commissioners of Franklin County a parcel of University land situated at the northeast corner of the intersection of Cannon Drive and King Avenue, consisting of approximately one acre for a period of 40 years for the purpose of constructing a facility to house the County Coroner's Office, a morgue and crime laboratory to serve Franklin County and other surrounding counties.

It is understood in making this site available to the County Commissioners that this facility will be available to the University in support of its various educational programs.

It was recommended that the President and/or Vice President for Business and Administration be authorized to sign the lease which has been negotiated with the Board of County Commissioners of Franklin County in the form approved by the Attorney General of Ohio on behalf of the Board of Trustees of The Ohio State University, and that a copy of this lease be filed with the records of the Board of Trustees.

Upon motion of Mr. Kessler, seconded by Dr. Sirak, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

3. Leases for Food Service Operations in the Ohio Union

A special presidential task force was appointed for the purpose of studying and making recommendations concerning the food services being provided by this University. The task force found that increasing financial losses were being experienced in the various food service operations within the Ohio Union because of an apparent lack of student use.

Because of this, continued operation by the University of food service in those areas was a waste of University resources and this space was no longer needed for that purpose. The specific areas involved are the Tavern, the South Terrace, the Franklin Room, the Sweet Shop, and a portion of the present cafeteria. In an effort to be responsive to this

IV. BUSINESS AND ADMINISTRATION (continued)

3. Leases for Food Service Operations in the Ohio Union (continued)

problem, the task force recommended that consideration be given to leasing these areas which would be of no current use to the University to private enterprise for the purpose of providing convenience food service until such time as the University may have further need for this space.

Bids were solicited in accordance with the specifications developed by the Ohio Union and the Purchasing Department. One-year lease agreements have now been negotiated with four private companies for the purpose of providing this service. The agreements have been prepared by the University's legal counsel. President Enarson requested that the recommendation of the task force be accepted and that these agreements with McDonald's University Services, Inc., Shakey's Pizza, Findley Sweet Shack, Fruit Drinks, Inc., respectively be approved by this Board so that this service might be available for this coming quarter.

Upon motion of Mr. Harrod, seconded by Mrs. James, the Board of Trustees approved the above recommendation by unanimous roll call vote.

V. REPORTS

A. Expenses for Designated Administrative Officials

Mr. Devenow moved that the Finance Committee be authorized to provide from the unrestricted gifts to the University Endowment Fund on an appropriate basis, to the President and designated University officials, reimbursement for expenditures which are directly and necessarily related to the performance of their assigned responsibilities and in the best interests of the University.

Mr. Gushman seconded the motion which was approved by unanimous roll call vote.

B. Ratification of Amendments to The Ohio State University Development Fund Constitution

Mr. Gushman made the following statement and recommendation:

About a year ago I was asked to serve as a representative from this Board as a member of a committee to study the relationship of The Ohio State University Association with the Development Fund and the University. This committee had been appointed for the purpose of reviewing the structure of this University's Development Fund and its interrelationship to the University and to The Ohio State University Association, and at the same time to review the organizational structures of similar agencies associated with other universities in this country. During this past year members of this committee have had numerous meetings and have undertaken an extensive review of this subject, interviewing literally dozens of people, both at this University and at other universities.

A series of recommended amendments to the Constitution of The Ohio State University Development Fund have now been developed by the committee, which I believe will make the Development Fund a more effective organization in providing financial support to this University and at the same time clarify its relationship to the University and to The Ohio State University Association. You have in the back of your book the printed Constitution and By-Laws of the Development Fund which contain the detail of these changes. (See pages 169-170.) I might highlight them by pointing out that

1. The position of Director of Development is created by this change and he is to be a person other than the Director of Alumni Affairs. This job will carry the responsibility of Chief Executive Officer of the Development Fund.

V. REPORTS (continued)

B. Ratification of Amendments to The Ohio State University Development Fund Constitution (continued)

Mr. Gushman's statement and recommendation (continued)

2. A Steering Committee is created consisting of four members, including the Chairman of the Development Fund Board, the Director of The Ohio State University Association, the Chief Financial Officer of the University, and a Vice President of the University appointed by the President. This body shall have administrative, coordinating and advisory responsibilities to give guidance and general direction to day-to-day operations of the Development Fund.
3. The Director of The Ohio State University Association now becomes a member of the Board of Directors of the Development Fund.
4. The number of Board meetings was enlarged from two to four per year.

By rule these amendments before they can become a part of The Ohio State University Development Fund Constitution must be favorably acted upon by the Development Fund Board of Directors, by The Ohio State University Association, and by this Board. This action has now been taken by the Development Fund Board. It has been appropriately ratified by the Association Board and incidentally, by the Alumni Advisory Board as well. And therefore, all that remains is favorable action by this Board before these Constitutional changes can be implemented, and it is my pleasure to recommend them to this Board.

I must say before closing that this committee, under the leadership of Mr. Jacob Davis, undertook a most difficult task and one which many people thought was literally unsolvable. And at several points, the committee and the various interested parties were at a complete impasse and only the patience and hard work of the committee, and particularly Mr. Jacob Davis and Mr. Wesley Leas, made what I consider a fine solution possible. Therefore, in addition to moving the adoption of the changes, I would like to move that the Secretary of this Board be directed to forward to the members of the study committee this Board's commendation for their outstanding service on behalf of this University in the development of these recommendations.

Upon motion of Mr. Gushman, seconded by Mr. Harrod, the Board of Trustees approved the foregoing amendments to the Constitution of The Ohio State University Development Fund by unanimous voice vote.

In the eighth line, following "and" and before "of" insert the following "by the Board of Directors."

V. REPORTS (continued)

C. Report on Enrollment

President Enarson presented a report on the enrollment pattern at Ohio State University. This pattern during the past several years has remained remarkably stable and prospects for the future in this regard are good. The proportion of older student enrollments is increasing, as well as the number of part-time students. Total enrollments at the regional campuses and the Agricultural Technical Institute continue to increase, and Wright-Patterson Graduate Center appears to be stabilized.

D. Report on the University's Investment Portfolio

The report dated August 30, 1974, as submitted to the Finance Committee of the Board of Trustees by Mr. Ernest W. Leggett pertaining to the University's Investment Portfolio, was received and ordered to be filed with the official records of the Board of Trustees.

RESOLUTIONS IN MEMORIAM

President Enarson reported to the Board the deaths of Francis W. Davis, Professor Emeritus in the Department of Photography and Cinema, and Charles J. Willard, Professor Emeritus in the Department of Agronomy. In accordance with the instructions of the Board of Trustees, copies of the following resolutions expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the families of the deceased.

A. Francis W. Davis

The Board of Trustees of The Ohio State University expresses its sorrow at the death on September 12, 1974, of Francis W. Davis, Professor Emeritus in the Department of Photography and Cinema.

Professor Davis joined the faculty at The Ohio State University in 1933. He was appointed Acting Chairman, July 1934, and subsequently served as Chairman of the Department of Photography and Cinema until 1966.

Professor Davis received his Bachelor's degree in Electrical Engineering in 1930 and a Master's degree in Physics in 1932 from The Ohio State University, where he also did graduate work in Physics.

In his 35 years at The Ohio State University, Professor Davis received many honors in recognition of his position as a teacher, advisor, and friend. He received the Robert M. Critchfield Award for Meritorious Service in the College of Engineering, 1964; the Alfred Wright Award, 1965; Texnikoi Award, 1966; and the Engineering Speaking Society Award, 1966.

Professor Davis received recognition from both faculty members and students for his leadership in the area of student guidance. He served as advisor to Texnikoi and advisor to the Engineering Speaking Society.

Professor Davis pioneered research in infra-red photography, served in the Army Signal Corps in World War II, reaching the rank of Colonel. He wrote many articles and papers along with collaborating on a textbook, "Basic Photography."

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

B. Charles J. Willard

The Board of Trustees of The Ohio State University expresses its sorrow at the death on September 13, 1974, of Charles J. Willard, Professor Emeritus in the Department of Agronomy.

October 4, 1974 meeting, Board of Trustees

RESOLUTIONS IN MEMORIAM (continued)

B. Charles J. Willard (continued)

Dr. Willard joined the faculty at The Ohio State University in 1917. He received the Bachelor of Science degree at both Kansas State University and University of Illinois. He received the Master of Science degree from the University of Illinois in 1917 and the Doctor of Philosophy degree from The Ohio State University in 1926.

In his 42 years at The Ohio State University he became internationally recognized for his research with forage crops and the control of weeds in farm crops. As a consequence, the graduate program of the Department of Agronomy in weed control has received national and international recognition. He was an inspirational trainer of men and an imaginative research scientist. As a Professor of Agronomy, he taught 3,500 undergraduate students and advised 35 advanced degree students.

Dr. Willard was Vice President in 1953, President in 1954, and a Fellow of the American Society of Agronomy. He was a Fellow of the American Association for the Advancement of Science. He played an active role in the organization of the Weed Science Society of America and was elected a Fellow of the Society and Editor of their publication "Weeds." He was Vice President 1947 and President 1948 of the North Central Weed Control Conference and Vice President of the Ohio Academy of Science. He received the Centennial Award from The Ohio State University and was Senior Scientist and Attache, U. S. Department of State, London Embassy, England, 1948. He was elected to the Ohio Agricultural Hall of Fame in 1972.

Dr. Willard published many scientific papers and popular articles, as well as contributing the Chapter, "Good Stand from Good Seeds," to the book, Grassland Seeds, D. Van Nostrand Co. in 1957; Chapter 37, "Establishment of New Seedlings," and Chapter 38, "Weed Control in Forages," in the book, Forages, published by the Iowa State University Press in 1962.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

2. Establishment of Named Funds

- a. \$5,000.00 from the family of Gerald R. Black for the establishment of The Gerald R. Black Memorial Scholarship Fund.

The Gerald R. Black Memorial Scholarship Fund

The Gerald R. Black Memorial Scholarship Fund was established October 4, 1974, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from the family of Gerald R. Black, B. Arch. '24.

All gifts are to be invested in the University's Permanent Endowment Fund under the rules and regulations adopted by the Board of Trustees of The Ohio State University with the right to invest and reinvest as occasion dictates.

The annual income is to be used to award a scholarship to a student in the Department of Theatre, preferably a playwright, in the discretion of the Chairman of the Department of Theatre in the College of The Arts. In the case of a playwright, the limitation to students in the Department of the Theatre may be waived, to include students from the English or literature departments.

a. The Gerald R. Black Memorial Scholarship Fund (continued)

Should the need for this scholarship cease to exist, or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by The Ohio State University Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then responsible for theatre education.

b. \$5,000.00 from Mrs. Frances M. Johnson for the establishment of the Sherman Johnson & Frances Battles Johnson Fund.

Sherman Johnson & Frances Battles Johnson Fund

The Sherman Johnson & Frances Battles Johnson Fund was established October 4, 1974, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Mrs. Frances M. Johnson, B.S.Ed. '17, Painesville, Ohio, and in memory of her late husband Sherman Johnson.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used for the benefit of The Ohio State University College of Medicine. Income from the Fund may be used at the discretion of the Dean of the College of Medicine but the principal should be kept in perpetuity unless special permission for its specific use is obtained from Mrs. Johnson.

In the event that the College of Medicine as it now exists should be altered in any reorganization of University colleges, schools and departments, the Board of Trustees or successor governing body of the University shall direct use of the income for educational and related purposes in the field of medicine.

III. BUSINESS AND ADMINISTRATION

A. Architects or Engineers

1. Clinical Medical Sciences Educational Facility  
(Supporting Services Phase)

At the December 7, 1973, meeting of the Board of Trustees, the services of the architectural firm of Page Southerland Page were approved to be continued for the modified program of the total project formerly known as "Clinical Medical Sciences Educational Facility." The modified program was estimated to cost \$10,000,000.00, limited to support and ancillary facilities consisting of a two-story structure.

It is now anticipated that an additional \$2,707,018.00 will be made available from the Department of Health, Education, and Welfare, which can be added to the original funds available from H. B. 985, making a new project total of \$12,707,018.00 for the revised modified program. The additional funds will provide for a third floor to the support facility, which will include space for radiology and laboratories.

In order to make use of these funds it is necessary to modify the Page Southerland Page contract to expand their architectural services. This will provide additional architectural and engineering services including preliminary plans, basic drawings, working drawings, specifications, estimate of cost, necessary bidding documents and complete supervision of construction. Fee for this service will be negotiated with the architect by the Division of Public Works.

Funds for the service were originally provided in H. B. 985, Item 315-077. The additional funding will be provided from the Department of Health, Education, and Welfare grant.

Upon motion of Mr. Gushman, seconded by Mr. Hilliker, the above recommendation was approved by unanimous roll call vote. This action is contingent upon receipt of grant from the Department of Health, Education, and Welfare.

B. Report of Award of Contracts

1. Advertised Project

In accordance with authorization provided by the Board of Trustees, bids were taken on the project listed below and the contract was recommended for award. The action reported to the Board was as follows:

\*Based upon counsel by the Department of Administrative Services, Division of Public Works, the low bidder, A & C Construction Co. was permitted to withdraw their bid of \$6,453.50 because of errors and omissions they made on the bid sheet. Therefore, the job was awarded to the second low bidder, Baker Construction Company.

Funds are budgeted in Budget Account 126070 (Contract Repair).

2. Bids Received Through The Ohio State University Purchasing Department

Bids were requested and received on the project listed below by The Ohio State University Purchasing Department. The action reported to the Board was as follows:

Funds are budgeted in H. B. 985, Item 366-001 (Agricultural Technical Institute).

Upon motion of Dr. Sirak, seconded by Mr. Gushman, the above award of contracts and expenditure of funds were approved, and the action of the Vice President for Business and Administration was ratified by unanimous roll call vote.

IV. REPORTS

A. Report from President Enarson on the University Activities Center

President Enarson made the following statement:

Mr. Chairman and Members of the Board, I come to an extremely important item on the Board agenda. I have awaited this day for a long time. I am pleased to report to this Board and to the public that we have successfully completed our campaign to fund the expansion of University Activities facilities on this campus. As a matter of historical interest, I was going to bring this matter to the Board a month ago. I was going to report we have come very close and the time had come to wind the campaign down. I was trying to figure out how to say in a small, wee voice that we hadn't quite made it. But Jack Havens who is an alumnus of this University and has given an unbelievable amount of time and support to the fund-raising effort almost begged me to wait another month. Two things happened since then: One, he succeeded in raising more money and secondly, we received an unrestricted gift of \$250,000 from the Dolly and Ralph Cohen Foundation that pushed us over the top.

Earlier we had had a very significant commitment of a very special sort which brought us within sight of our goal. As you may recall, our Department of Athletics had committed \$50,000 from the proceeds from the Browns-Bengals game of last year.

IV. REPORTS (continued)

A. Report from President Enarson on the University Activities Center (continued)

President Enarson's statement (continued)

The Department of Athletics some months ago also agreed to provide \$683,000 for a diving pool as an intimate part of this total program. This pool clearly is advantageous to us in support of our intercollegiate program since it obviously has a dual use. It will free up the other facilities and provide greater opportunities for people interested in swimming. And so I would like, for the record, to thank the many other people who have contributed so significantly to this campaign--to Jack Nicklaus who spearheaded the national campaign; to the staff of the Development Fund; and to many other volunteers. I should also be remiss if I didn't thank the many alumni, faculty, staff, students, and friends of the University who through gifts and pledges made this goal a reality. Special recognition is due to the Benedum Foundation for the million dollar challenge gift because it was the kickoff gift. This is an unusual project since the Legislature put up \$5 million with the understanding that we would raise \$5 million and at long last we are at the \$10 million goal. Special thanks also go to the Nationwide Insurance Companies for a \$250,000 gift and to five anonymous donors whose total contributions came to over three-quarters of a million dollars.

So with the total achieved, it is now essential that we move ahead as rapidly as possible into the construction stage of the project. As the Board knows from earlier reports, we have tried to get started on as many things as we possibly could even as we awaited the final completion of the drive. I can't even estimate the number of man and woman hours that various staff members have given to this project over the past several years. I can assure you that this program has been massaged carefully by anybody who had any interest in it and I can assure you that many people have had that interest!

B. Report by Mr. Frederick Beekman on Need for University Activities Center

Mr. Frederick Beekman then presented information concerning the need for expanded facilities for the intramural and recreational programs for the University students. He provided statistics which showed the extremely limited nature of the existing facilities.

IV. REPORTS (continued)

C. Report on Development of Architectural Design for University Activities Center

Mr. John Evans, a member of the architectural firm of Samborn, Stekete, Otis and Evans, Inc., project architects for the design of these facilities, discussed their proposed solution to the program of requirements which included a new structure attached to the present Physical Education Building at 337 West 17th Avenue, and satellite facilities at four dispersed campus locations, including three small recreation buildings and outdoor courts on North, South, and West Campuses, and outdoor facilities near the river dormitories.

Mr. John Luscombe, also of the architectural firm, presented additional details concerning the main facility.

D. President Enarson's Recommendation for Siting and General Configuration Plans for University Activities Center

President Enarson requested the support, encouragement, and specific approval of the siting and general configuration plans for the University Activities facilities.

Upon motion of Mr. Hilliker, seconded by Dr. Sirak, the siting and general configuration plans for the University Activities Center (Recreation, Physical Education, Intramural Facilities) presented by the Project Architects, Samborn, Stekete, Otis and Evans, Inc., were approved by a unanimous vote of the Board of Trustees.

E. Resolution Adopting Recommendation of Educational Affairs Committee - Admission Policies for Graduate Professional Programs

Mr. Gushman presented the following report and recommendation:

Mr. Chairman, on behalf of the Educational Affairs Committee, I should like to bring before this Board for its consideration a recommendation to the President:

As you are aware, this Committee has devoted considerable time during this past year in reviewing the admission policies for the various graduate professional programs of the University. The Committee has now met with all of the Deans who had the responsibility for each of these programs, discussed the various criteria and procedures presently employed within these selection processes, and examined the patterns of admissions for the past several years.

Based upon this information and subsequent discussions it is the unanimous recommendation of this Committee that the President be asked to appoint a Task Force with appropriate representation from each of the graduate professional colleges, for the purpose

October 4, 1974 meeting, Board of Trustees

IV. REPORTS (continued)

E. Resolution Adopting Recommendation of Educational Affairs Committee - Admission Policies for Graduate Professional Programs (continued)

Mr. Gushman's report and recommendation (continued)

of reviewing the relevancy of all current selection criteria now being employed within these Colleges, with particular attention to the following issues:

1. The need for correlations of success in the various professions versus the admission criteria presently being employed.
2. The apparent incongruity in the use of personnel interviews and/or selective letters of recommendation in some professional programs and not in others.
3. The sizable number of out-of-state students admitted in some programs in which many totally qualified in-state students are being turned away.
4. The unevenness in geographical distribution of students within this state in some of our professional programs.
5. The strengthening of affirmative action efforts in the recruitment, acceptance, and retention of minorities and women in these programs.
6. The size of the entering freshman classes and criteria for determining the number of individuals to be admitted.

Now, specifically, the Resolution--we recommend also that this Task Force give full consideration to a number of alternatives that this University might provide to those applicants to our professional programs who are fully qualified in all respects for admission to these programs, but who, because of space limitations, cannot be admitted, and we respectfully request a report by March 5, 1975.

In the Committee's view, the admissions problem is most critical in the continuing support of this University. For this reason, we believe the level of effort required is both timely and needful. On behalf of the Committee, Mr. President, I wish to assure you of our availability to assist this Task Force in all appropriate ways in its work. Mr. Chairman, I would like to move the adoption of the above recommendation to the President.

October 4, 1974 meeting, Board of Trustees

IV. REPORTS (continued)

E. Resolution Adopting Recommendation of Educational Affairs Committee - Admission Policies for Graduate Professional Programs (continued)

In discussing this motion, Mrs. James noted that the programs in nursing, allied health sciences, and dental hygiene were not included in the areas to be studied by the Task Force and indicated that the Committee should continue its efforts in this area by interviewing representatives of these areas and discussing some of the problems first rather than bogging down the Task Force with too many areas which are too divergent.

Dr. Sirak stated his complete agreement with what Mr. Gushman and Mrs. James said. He further indicated that the Task Force method probably should be used for both areas, graduate professional and the undergraduate professional programs to which Mrs. James referred, but in the latter case the matter should be pursued further by the Committee before making such a recommendation.

Upon motion of Mr. Gushman, seconded by Mr. Hilliker, the foregoing resolution was approved by unanimous roll call vote.

F. Report on the University's Investment Portfolio

The report dated September 27, 1974, as submitted to the Finance Committee of the Board of Trustees by Mr. Ernest W. Leggett pertaining to the University's Investment Portfolio, was received and ordered to be filed with the official records of the Board of Trustees.

G. Report on Enrollment

President Enarson also commented on the enrollment for the Autumn Quarter which is significantly larger than that which had been anticipated. He informed the Board that he would provide additional information on this subject at next month's meeting.

November 1, 1974 meeting, Board of Trustees

President Enarson presented the following recommendations:

I. GENERAL RECOMMENDATIONS

A. Naming of Building

Upon the recommendation of the Department of History, and with the concurrence of the President's Staff, President Enarson recommended that the academic office building presently nearing completion on the site of the former Alumni House at 230 West Seventeenth Avenue be named "Foster Rhea Dulles Hall" in honor of Foster Rhea Dulles, former Professor and Chairman of the Department of History.

Upon motion of Mr. Devenow, seconded by Mr. Gushman, the Board of Trustees approved the foregoing recommendation by unanimous voice vote.

B. Designation of Two Chairs Previously Established

The Board of Trustees established a Chair in Endocrinology in the College of Medicine at the meeting September 7, 1973. A Chair in Radiology in the College of Medicine was subsequently established by this Board on September 6, 1974. In each case the donors requested to be anonymous. The donors have recently indicated their willingness to have the Chairs designated in their names--Ralph W. Kurtz Chair in Endocrinology and Helen C. Kurtz Chair in Radiology.

Support in the amount of \$30,000 for each Chair will be provided from a portion of the income made available from a revocable trust and the annual income from the Ralph W. Kurtz Chair in Endocrinology Fund and Helen C. Kurtz Chair in Radiology Fund, recently established endowment accounts. The funds so provided can be used for the purposes of salary and/or program support.

President Enarson recommended that these Chairs be duly named in accordance with the wishes of the donors.

Upon motion of Mr. Harrod, seconded by Mr. Kessler, the Board of Trustees approved the foregoing recommendation by unanimous voice vote.

C. Budget Summary - First Quarter 1974-1975 Report  
(Quarter Ended September 30, 1974)

President Enarson made the following statement:

Our budgetary activity for the first quarter of this current fiscal year, July 1 to September 30, was as anticipated except for the impact of the salary increases for all State Civil Service employees (Amended Substitute House Bill 1476) which was mandated by the General Assembly last July. As was explained at an earlier Board meeting, while the State will provide the necessary funds, approximately \$1.8 million to support this

President Enarson's statement (continued)

increase, this University was obligated to provide parallel increases for our other employees who are not supported through State appropriations. We also believed it essential to provide some recognition to our faculty and staff members through a modest cost-of-living increase. In the latter two cases, the cost of these increases were either passed on to the users as in the case of the hospitals, dormitories, and auxiliary services; or absorbed within the existing Instructional and General Budget of the University as in the case of most of the faculty and staff increases. The change in the State allocation as well as increased costs of service, and an equivalent increase in the level of income in providing the service as well as the necessary internal relocations are reflected directly in the expenditure statement (Table I) and the income statement (Table II). (See pages 208-210.)

Other than these changes we are very close to our anticipated budget. However, as inflation continues to erode this University's resources it may very well be necessary for us to consider further economies including curtailment in a number of the current activities and services if we are to hold within these projections.

Incidentally, this quarterly summary does not include any adjustments in our State subsidy level or student fees based upon this Autumn Quarter's enrollment. These adjustments will be incorporated in our budget activity report for the second quarter.

President Enarson recommended that the foregoing first quarter budget report be approved.

Upon motion of Mr. Harrod, seconded by Mr. Gushman, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

D. Establishment of Office for the Physically Impaired

President Enarson made the following statement and recommendation:

As I am sure you are aware, shortly after I arrived I became concerned with the plight of the physically impaired on this campus. During the past two years I believe that we have made a limited number of gains in this regard through providing ramps to buildings, braille signs, and easing the access to buildings

I. GENERAL RECOMMENDATIONS (continued)

D. Establishment of Office for the Physically Impaired (continued)

President Enarson's statement and recommendation (continued)

through ramps, elevators, and remodeling of restrooms, lowering of drinking fountains and providing a special bus for our handicapped students. However, much remains to be done before we can say that truly we have made our educational programs and our employment opportunities fully available to the physically impaired, which is obviously our goal.

I believe it is now time for the creation of an office on this campus, the Office for the Physically Impaired, which is charged with the coordinating responsibility for the identification of all remaining "barriers," and development of appropriate planning for the elimination of all such barriers, and the coordination of all such efforts. However, since such a program would impinge upon every segment of this University, there would be no effective way to delegate the total responsibility for the would-be resolution of all these problems. Instead, we are dependent upon the efforts of almost every office on this campus to resolve some aspect of the total problem.

It is for this reason that I am recommending that this new Office for the Physically Impaired be assigned the coordinating responsibility and that a broadly based Advisory Committee from the University community be appointed in support of this activity.

The administrative head of this office shall be a Director reporting administratively to the University Affirmative Action Officer who in turn is directly responsible to the President.

Upon motion of Mr. Dunlap, seconded by Mr. Devenow, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

II. PERSONNEL ACTIONS

Personnel actions since the October 4, 1974 meeting of the Board, as recorded in the official "Salary Roll" of the University, include the following Appointments, Leaves of Absence Without Salary, and Emeritus Title:

II. PERSONNEL ACTIONS (continued)

A. Appointments

Robert E. Taylor, presently Director of the Center for Vocational and Technical Education and Professor in the Department of Agricultural Education and Academic Faculty of Vocational-Technical Education, to Associate Dean in the Colleges of Agriculture and Home Economics and Education, effective November 1, 1974, at No Salary. Dr. Taylor also will continue in his current responsibilities as Director of the Center for Vocational and Technical Education and Professor in the Department of Agricultural Education and Academic Faculty of Vocational-Technical Education.

Nancy J. Brower, Acting Director, Office for the Physically Impaired, effective November 1, 1974, at a salary of \$13,368.00 per annum.

B. Leaves of Absence Without Salary

F. Joe Crosswhite, Professor, Academic Faculty of Science-Mathematics Education, effective October 1, 1974 through December 31, 1974, to serve in the Program Development Section of the National Science Foundation.

R. William Liddle, Associate Professor, Department of Political Science, effective January 1, 1975 through September 30, 1975, to accept a Fulbright-Hays Lectureship at Monash University in Melbourne, Australia.

C. Emeritus Title

Robert F. Daly, Department of Obstetrics and Gynecology, with the title Clinical Professor Emeritus, effective July 1, 1974.

President Enarson recommended that the Appointments, Leaves of Absence Without Salary, Emeritus Title, and personnel budget actions as recorded in the "Salary Roll" of the University be approved.

Upon motion of Mr. Devenow, seconded by Mr. Gushman, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote, and the Secretary was instructed to file these changes in the "Salary Roll," an official document of the University.

- a. \$2,411.68 from John G. Boutselis, M. D., for the establishment of The John G. Boutselis Fund in Obstetrics and Gynecology.

The John G. Boutselis Fund in Obstetrics and Gynecology

The John G. Boutselis Fund in Obstetrics and Gynecology was established November 1, 1974, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from John G. Boutselis, M. D., M.M.Sc. '56, Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment under the rules and regulations adopted by the Board of Trustees of The Ohio State University with the right to invest and reinvest as occasion dictates.

The annual income is to be added to the principal until the fund reaches \$10,000. At that time, the income is to be used: to further the advancement of knowledge in gynecology and obstetrics, with special emphasis on gynecologic oncology; to provide support for clinical and basic science research; to conduct postgraduate courses and seminars of interest to staff, residents, and students; and for the publication of texts, periodicals, etc. The income is to be used in accordance with suggestions of Dr. Boutselis subject to the approval of the Chairman of the Department of Obstetrics and Gynecology and the Dean of the College of Medicine.

D. The Ohio State University Development Fund (continued)

2. Establishment of Named Fund (continued)

a. The John G. Boutselis Fund in Obstetrics and Gynecology (continued)

After Dr. Boutselis retires from active teaching at the University, the income may be used for purposes recommended by the Chairman of the Department of Obstetrics and Gynecology and approved by the Dean of the College of Medicine.

Should the Department of Obstetrics and Gynecology or the College of Medicine cease to exist through any reorganization of the University, then the income may be used by the Board of Trustees with preference being given to the recommendations of the appropriate administrative official of the University who is then directly responsible for medical education.

3. Gift-in-Kind

a. John W. Galbreath has made a gift of an Aircraft Hangar to the University. This hangar which is presently located at Darby Dan Farm will be removed and reconstructed at Don Scott Field for use by our Department of Aviation.

IV. BUSINESS AND ADMINISTRATION

A. Plans and Specifications

At the request of the Vice President for Business and Administration, President Enarson recommended that the plans and specifications, bills of materials, and estimates of cost for the following projects be approved by the Board of Trustees:

1. Page Hall--Interior Repairs to Room 200

This project will involve the removal and replacement of ceiling and painting of Room 200.

Funds are budgeted in Budget Account 126070 (Contract Repair).

2. Pomerene Hall--Interior Painting

This project will provide patch plastering and painting and the installation of vinyl wall covering in various offices. The interior of this building was last painted in 1963.

Funds are budgeted in Budget Account 126070 (Contract Repair).

IV. BUSINESS AND ADMINISTRATION (continued)

A. Plans and Specifications (continued)

3. Galvin Hall - New Elevator

The Ohio State University Lima Campus (Lima, Ohio)

This project is to complete the installation of the second elevator and coordinating controls with the existing elevator in Galvin Hall.

Funds are budgeted in Budget Account 801302 (Galvin Hall Elevator).

4. Starling Loving Hall, Remodeling for the College of Optometry

This project consists of remodeling and renovation of parts of A-Wing, Starling Loving Hall, to provide facilities to accommodate expansion in enrollment in degree programs of the College of Optometry and for initiation of a program for training of optometric technicians.

Funds are budgeted in H. B. 985, Item 315-071 (College of Optometry, Clinical Facility), and Budget Account 801230 (Optometry Addition).

5. Newark Campus, Phase II

This project will provide a new building with facilities for the Technical Education Program of the Central Ohio Technical College and the Baccalaureate Program of The Ohio State University. The new building will be located on the Newark Campus south of Founders Hall (Phase I Building).

Funds are budgeted in H. B. 988, Item 315-085, and H. B. 985, Item 315-085 (Ohio State University, in cooperation with Central Ohio Technical College - Newark).

Upon motion of Mr. Harrod, seconded by Mr. Gushman, the above recommendation was approved by unanimous roll call vote, and the Secretary was authorized and directed to sign the plans and specifications for the above projects for and on behalf of the Board of Trustees. The Vice President for Business and Administration was directed to proceed with a request for bids in the normal University manner, and if satisfactory bids are received to proceed with the award of contracts. All action regarding this matter will be reported to the Board of Trustees at a later meeting.

B. Report of Award of Contracts

1. Advertised Projects

In accordance with authorization provided by the Board of Trustees, bids were taken on the projects listed below and the contracts were recommended for award. The action reported to the Board was as follows:

1. Easements

Gas Line Replacement North Star and Kenny Roads - Columbia Gas of Ohio, Inc.

The University has received notice from Columbia Gas of Ohio, Inc., that the gas line crossing University lands between North Star Road and Kenny Road is to be replaced with a new line in accordance with an easement granted in August 1905.

Underground Electric Service Line - University Agriculture Land - Carroll, Ohio - South Central Power Company

The University has received a request from the South Central Power Company for an easement to install an underground electric service at 3525 Pickerington Road, Carroll, Ohio. The line will be constructed within the limits of a ten-foot strip of land approximately 1,015 feet in distance, terminating at the University's equipment storage and horticulture research building.

Don Scott Field - Landing Approach System - Underground Electric Service Lines - Columbus and Southern Ohio Electric Company

The University has received a request from the Columbus and Southern Ohio Electric Company for two easements to install underground electric service to the MALSR (Landing Approach System) shelter and transmitter sheds. The lines will be constructed within a ten-foot strip of land being approximately 818 feet and 1,000 feet connected to existing electric service within the easements approved by the Board of Trustees action on November 3, 1973.

Kenny Road Agriculture Land - Underground Electric Service  
Line - Columbus and Southern Ohio Electric Company

The University has received a request from the Columbus and Southern Ohio Electric Company for an easement to install an underground electric service at 2623 Kenny Road. This service was requested by the College of Agriculture and Home Economics. The line will be constructed within the limits of a five-foot strip of land approximately 789.5 ft. in distance terminating at the grain laboratory building.

It was recommended that the President and/or Vice President for Business and Administration be authorized to request the Director of Department of Administrative Services, pursuant to his statutory duties, to act on behalf of the University in developing the necessary legal instruments to provide for the above easements.

Upon motion of Mr. Dunlap, seconded by Mr. Kessler, the above recommendation was approved by unanimous roll call vote.

2. Purchase of Buildings and Property -  
South Campus, 196-200 West Tenth Avenue

It was recommended that the President and/or Vice President for Business and Administration be authorized to proceed with the purchase of:

Lot No. 18, Res. B, University Heights Addition, County Auditor's Parcel No. 8199-Columbus, and more commonly known as 196-200 West 10th Avenue, Columbus, Franklin County, Ohio.

Purchase of this property from South Hall, Inc., Blaine T. Sickles, President, for the sum of \$110,000.00 is to be made from General University Funds (Endowment) with title to be vested in the name of the Board of Trustees of The Ohio State University.

Upon motion of Mr. Gushman, seconded by Mrs. James, the above recommendation was approved by unanimous roll call vote.

3. Lease - Land at Wayne County Fairgrounds for  
the Agricultural Technical Institute

The College of Agriculture and Home Economics has requested to lease approximately .38 acres of land from the Wayne County Agriculture Society, on the Wayne County Fairgrounds, to construct an Equine

V. REPORTS

A. Report on Enrollment

Dr. Enarson reported on Autumn Quarter enrollment for The Ohio State University in which a comparison was made with the Autumn Quarter 1973 and the estimates for the Autumn of 1974.

B. Report of Nobel Prize Recipient

President Enarson announced that Dr. Paul John Flory, M.S. '31, Ph.D. '34, D.Sc. (Hon) '70, a distinguished graduate of The Ohio State University, recently was awarded the 1974 Nobel Prize for Chemistry.

V. REPORTS (continued)

C. Report on the Olentangy Expressway

President Enarson made the following statement and recommendation:

The Ohio State University has viewed with growing concern the continuing impasse over the completion of the north leg of the Olentangy Expressway. Each day of delay adds to the traffic congestion endured by faculty, staff, students, and visitors trying to reach the main campus from the north on Olentangy River Road. Even worse, each day adds to the final cost of construction and the taxpayer burden, since construction costs continue to escalate.

The Ohio State University is not a direct party to this complex and long-standing controversy. None of the proposed alternative routes touch nearby University land. But as a state university and, we trust, a good and cooperative neighbor, we feel an obligation to cooperate with city and state agencies in the search for solutions to problems that burden us all.

Recently I met with Mayor Tom Moody of Columbus, Mr. Philip Richley, the State Director of Transportation, and Mr. Richard Jackson, Service Director of Columbus, at which time Mr. Richley described a number of possible alternative solutions, one of which essentially involved a trade of cemetery land for a parcel of University land lying north of Dodridge and west of Olentangy River.

It is not my purpose to speak to the merits of the positions taken by contending parties, nor do I pretend to know which alternative route is best, all things considered. However, if one of the alternatives being considered by the Department of Transportation is to be a realistic option, it would require a willingness on the part of the University to sell the Dodridge parcel.

Accordingly, I am recommending to the Board of Trustees that we state publicly our willingness to enter into negotiations for the exchange of the Dodridge parcel if the parties to the controversy conclude that such negotiations might possibly provide a constructive solution to a very serious problem faced by Columbus, the State of Ohio, and all of us as taxpayers. May I ask your support for the following recommendation:

The Board of Trustees strongly urges that, in the public interest, initiatives be taken by the appropriate parties to explore all possible alternatives

V. REPORTS (continued)

C. Report on the Olentangy Expressway (continued)

President Enarson's statement and recommendation (continued)

on the Olentangy Expressway project and, to this end, the Board expresses its willingness to negotiate for the transfer of the Dodridge parcel if by such action the current impasse can be resolved and construction promptly started. We would expect, of course, that an appropriate benefit would accrue to the University's capital program.

The following comments were made:

Mr. Harrod:

What you're really saying is that we're an innocent bystander, is that right?

President Enarson:

Yes, and there's no other way to put it. But, if it's within our initiative to help break the impasse, then we should try to do so. I have no reason, however, to believe that by this action that the impasse will or will not be broken.

Mr. Gushman:

I would like to comment before we vote on this resolution. I heartily endorse your attitude, and there is a real need here, but I feel compelled to point out that land is a precious commodity, particularly when it is contiguous to, or in the area of, your main operation. There is no better example than that we have bought more land by Board action today, because we just don't have enough. I am also mindful of the fact that the University founders and our predecessors were exceedingly wise in laying out this University. We're very fortunate to have the land that we do have and, therefore, I think we should surrender any land that we have grudgingly, and certainly at a minimum. We must have an adequate quid pro quo to support future capital programs of this University. I am still heartily in favor of your proposal, Mr. President, but I feel that all parties involved should clearly understand our position on this matter.

November 1, 1974 meeting, Board of Trustees

V. REPORTS (continued)

C. Report on the Olentangy Expressway (continued)

Comments (continued)

Mr. Dunlap:

Will this have to go before the Legislature?

President Enarson:

Yes, under Ohio law, no land can be disposed of without an act of the General Assembly. I would certainly hope that the General Assembly would understand the necessity of making us whole through the reassignment of the funds involved in any such transaction for the support of any one of a number of major capital outlay projects which we urgently need.

Mr. Kessler:

As I understand, President Enarson, we have no idea whether we are just being a good citizen in Columbus and know that this is a major problem, and this may be a solution and it may not be.

President Enarson:

This is right. I have no idea whether this will help break the impasse or not. All I know is that there has been, for several years, an intolerable impasse.

Dr. Sirak:

The delay itself has cost a considerable sum of money.

President Enarson:

This is the key point. This delay has been very costly, both to the State and to the potential users.

Mr. Safford:

This would have to come before the January session of the Legislature, wouldn't it--unless the Governor makes a special call.

President Enarson:

That's right. There has to be a break in the discussions on this. Maybe this will help.

Upon motion of Mr. Harrod, seconded by Mr. Kessler, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

Dear Chairman Safford:

I learned only a few days ago of my appointment to the Board of Trustees of Ohio State University, and subsequently only yesterday that a Board meeting had been set for Friday, January 10, 1975. My entire week's schedule at that point of time was completely planned with commitments which I cannot break.

I plan to attend the February meeting and thereafter will reserve the first Friday of the month for meetings of the Board.

Apologizing to the Board for my absence at the January 10th meeting, I am

Sincerely,

#### RESOLUTIONS IN MEMORIAM

President Enarson reported to the Board the deaths of Florence Babb Allen, Instructor Emeritus in the Department of English; Raymond D. Bennett, Associate Professor Emeritus in the College of Education; Jonathan A. Forman, Professor Emeritus in the Department of Medicine; Frederick E. Jones, former member of the Board of Trustees; and Samuel Saslaw, Professor in the Department of Medicine. In accordance with the instructions of the Board of Trustees, copies of the following resolutions expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the families of the deceased.

RESOLUTIONS IN MEMORIAM (continued)

A. Florence Babb Allen

The Board of Trustees of The Ohio State University expresses its sorrow at the death on October 15, 1974, of Florence B. Allen, Instructor Emeritus in the Department of English.

Mrs. Allen was born in Wayne County, Ohio, in 1905. She received her undergraduate education at Kent State University, graduating in 1926, and earned a master's degree in history from Columbia University in 1931. She did further graduate work at the University of Geneva, Switzerland, and the University of Michigan. She taught history and English at Central, Jennings, North and Ellet High Schools in Akron. She was an English Instructor at Kent State University from 1953 to 1955, and later became an Instructor of English at The Ohio State University - Mansfield, from 1957 until her retirement in 1970 as Instructor Emeritus.

Mrs. Allen was a popular teacher with the many students who took her courses and was noted for creating and supporting the Florence Allen Poetry Contest, an annual event devoted to the encouragement of student poetic endeavors at the Mansfield Regional Campus. She was greatly respected and will be sorely missed by her academic colleagues.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

B. Raymond D. Bennett

The Board of Trustees of The Ohio State University expresses its sorrow at the death on October 21, 1974, of Raymond D. Bennett, Associate Professor Emeritus in the College of Education.

Dr. Raymond D. Bennett was born in Westerville, Ohio, on August 19, 1885. He received the A. B. degree from Otterbein College and in 1916 was granted the M. A. degree from Teachers College, Columbia, New York. The Ph. D. degree was conferred by The Ohio State University in 1932.

Dr. Bennett served as Principal of Westerville and Athens High Schools before joining the staff at The Ohio State University. He was first employed in the College of Education as Supervisor of Student Teaching in 1922, and became Secretary of the College in 1925. Dr. Bennett served in this capacity until 1956 when he retired. His administration was characterized by an unselfish devotion to duty and a deep concern about the needs of students.

Dr. Bennett coordinated student advisory programs for the College of Education and was best known for his interest in and concern for students. His pioneering work in the development of student counseling led to the establishment of orientation courses for new and transfer students. He was a member of Kappa Phi Kappa and Phi Delta Kappa, professional education fraternities.

RESOLUTIONS IN MEMORIAM (continued)

B. Raymond D. Bennett (continued)

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

C. Jonathan A. Forman

The Board of Trustees of The Ohio State University expresses its sorrow at the death on October 10, 1974, of Jonathan A. Forman, Professor Emeritus in the Department of Medicine.

Jonathan Forman's life spanned 87 years and included many accomplishments in a variety of diverse disciplines. He was an Ohioan, born in a small rural community, brought up on a farm, and he worked his way through college, entering The Ohio State University in 1906, and Starling Ohio Medical College in 1910. While still a student, Dr. Forman pursued the first of many disciplines he was to encompass in his lifetime. He was a Student Demonstrator in Anatomy, later an Assistant Professor in Pathology, and then a Teaching Fellow in Physiology at Harvard.

In 1920 Jonathan Forman returned to Columbus to organize a private clinic with Professors of Medicine, Surgery, Eye, Ear, Nose and Throat, and Genito-Urinary Surgery. The clinic dissolved and Dr. Forman continued in practice with then Professor of Medicine, E. J. Gordon. In 1924 he accepted the general administrative responsibility of the Grant Hospital Clinical Laboratories.

During these years Dr. Forman maintained a warm friendship with a Phi Rho Sigma Medical Fraternity brother, Dr. Warren Vaughn, at the University of Michigan. Dr. Vaughn, a pioneer allergist, convinced Jonathan Forman he should enter the field of allergy which he did, making a significant impact in that field during the next forty years. Dr. Forman was an early member and officer in all the major 'Allergy' societies in the ensuing years. His interest in this specialty led to further studies in other disciplines such as nutrition, ecology, agriculture, national health, and the history of medicine.

This institution will be forever indebted to his industry as author and editor in the field of local medical history. He published a volume in 1934 concerning the first hundred years of the Medical School. Later he contributed over sixty papers dealing with Ohio's Medical History and became Editor of the Ohio State Medical Journal. In his lifetime, Jonathan Forman was editor of six different journals and on the editorial board of five journals. Many societies enjoyed his membership including those with special emphasis on causes in which he believed.

RESOLUTIONS IN MEMORIAM (continued)

C. Jonathan A. Forman (continued)

Dr. Forman was a man of integrity, wisdom, and wit. He shared his beliefs with others and was tolerant of those who did not share his convictions. He appropriately enjoyed the respect of all those whose lives he touched. Time will not dim his name, nor his accomplishments.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

D. Frederick E. Jones

The Board of Trustees of The Ohio State University expresses its sorrow at the death on December 8, 1974, of Frederick E. Jones, a former member of the Board.

Mr. Jones was appointed a Trustee in 1963 and served until 1970. He brought to this assignment long experience in business and industry as well as a deep interest in civic affairs, notably the work of youth organizations. This background, along with the qualities of energy and leadership, made his contributions as a Trustee particularly effective. He served as a member and chairman of the Board's Finance and Investment Committee and as a Trustee member of The Ohio State University Development Fund Board of Directors.

Mr. Jones contributed not only as a Trustee but also as a friend and a benefactor of the University. After his service on the Board, he continued his interest in Ohio State as a charter member of the Presidents Club, which he had joined upon its organization in 1963.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

E. Samuel Saslaw

The Board of Trustees of The Ohio State University expresses its sorrow at the death on August 22, 1974, of Samuel Saslaw, Professor in the Department of Medicine.

Samuel Saslaw was born April 26, 1915. He gave to The Ohio State University a love of institution and a heritage of excellence in medical teaching, research, patient care, and administrative service not soon to be equaled. Although born in another city and educated in the early college years in another state, Columbus and this University along with his family became and remained the central

RESOLUTIONS IN MEMORIAM (continued)

E. Samuel Saslaw (continued)

interests in his life. He was recognized early in his career by farsighted leadership at this College of Medicine as one of the new breed at that time with the special talents of Ph. D. training in the basic science area related to his subspecialty interest as a physician. Thus, he was ideally suited to direct the new Division of Infectious Diseases which he did with distinction for 19 years. His academic achievements during that period were remarkable, rising to Professor of Medicine in eight years. Honors and awards at this University accumulated quickly, including several which he was quietly but fiercely proud to have earned: Man of the Year, College of Medicine, 1956; Alumni Award for Distinguished Teaching, 1963; and Alumni Achievement Award, College of Medicine, 1966. An Honorary Doctor of Science degree was bestowed by Transylvania College in 1966 as further recognition of his achievements as a scientist and alumnus of that school.

Meaningful publications of his research appeared in rapid succession; at the time of appointment as a young Assistant Professor in 1950 his bibliography already totaled 31 publications and increased to 66 at the time he became a full Professor in 1958, to be followed by 115 additional papers as a Professor or one every 44 days for 15 years. The University was enriched by the co-authorship involved in so many manuscripts; 35 Ohio State University faculty shared his publications including 15 faculty currently in the College of Medicine; 19 Ohio State University graduate students or trainees, 7 technicians and 17 faculty from other institutions likewise shared the pen. Part of the reward for many was learning the art of scientific writing from a demanding teacher.

Those who admired Samuel Saslaw the most were those fortunate enough to touch his life closely and see through the complexity of his personality. Like many notable people, he could be irascible but no one could be unhappy with him for long. He had a compulsive approach to detail in teaching and patient care and was his own utilization review committee long before the term was created.

On behalf of the University, the Board of Trustees expresses to his family its deepest sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

President Enarson presented the following recommendations:

I. GENERAL RECOMMENDATIONS

A. Establishment of a Department of Family Medicine

Upon approval of the Council on Academic Affairs, the University Senate at the meeting held November 12, 1974, recommended the establishment of the Department of Family Medicine within the College of Medicine.

I. GENERAL RECOMMENDATIONS (continued)

A. Establishment of a Department of Family Medicine (continued)

The American Board of Family Practice was created by the American Medical Association, Council of Education, in 1969. Family Practice became the twentieth specialty in American Medicine, and, as such, was recognized to have a distinct body of knowledge. Scholarly activity has been pursued to the ends of defining and refining the specifics of that body of knowledge.

While the College of Medicine has had a rapidly growing commitment to Family Medicine for a number of years, which presently involves over 100 family physicians within the community, it is now being requested that a Department be established.

President Enarson recommended that the Department of Family Medicine in the College of Medicine be approved, effective immediately upon approval of the Board of Trustees.

Upon motion of Mr. Dunlap, seconded by Mr. Hilliker, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

B. Establishment of Academic Faculty of Labor and Human Resources

The Council on Academic Affairs recommended to the University Senate that an Academic Faculty of Labor and Human Resources be established in the College of Administrative Science. The University Senate approved this recommendation November 12, 1974.

On July 13, 1973, a University Task Force reported to the Provost that there was interest and need for a program in labor and human resources for the purpose of coordinating and bringing into focus existing programs in this area. Along with the preparation of graduate and undergraduate students in the area of labor, it is proposed that this program provide relevant instruction for students in education, social work, health administration, public administration, history, preventive medicine, as well as other academic areas.

President Enarson recommended that the Board of Trustees approve the establishment of the Academic Faculty of Labor and Human Resources in the College of Administrative Science, effective immediately.

Upon motion of Mr. Dunlap, seconded by Mr. Devenow, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

I. GENERAL RECOMMENDATIONS (continued)

C. Establishment of an Undergraduate Degree Program  
Leading to a Bachelor of Science in Surveying Degree

The University Senate on December 3, 1974, approved a recommendation from the Council on Academic Affairs that the University establish an undergraduate degree program leading to the Bachelor of Science in Surveying degree.

Surveying and related topics have long had a fragmented location in this University, principally in the Departments of Civil Engineering and Geodetic Science. A program has now been proposed jointly by the Departments of Civil Engineering and Geodetic Science which will be responsive to the present and future professional needs based upon a combined curriculum and course work as well as faculty. This program will lead to a Bachelor of Science in Surveying degree offered by the College of Engineering and administered through the Civil Engineering Department with cooperation of the Geodetic Science Department.

President Enarson recommended that the proposal of the University Senate be adopted, and pursuant to Section 3333.04 of the Revised Code of Ohio, with the approval of the Board of Trustees, the proposal be forwarded to the Ohio Board of Regents for approval. This program would become operative upon approval by the Ohio Board of Regents.

Upon motion of Mr. Gushman, seconded by Mr. Devenow, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

D. Establishment of New Rules 29.2735 and 31.0704,  
Revision of Rules 29.2709, 31.05, 31.0701, 31.0703, and  
Withdrawal of Rule 31.03 of Rules for the University Faculty

The University Senate at the meeting on October 15 and at a subsequent meeting on December 3, 1974, approved the recommendation from the Council on Academic Affairs that new Rules 29.2735 and 31.0704 be created, that Rules 29.2709, 31.05, 31.0701, and 31.0703 be revised, and that Rule 31.03 be withdrawn from the Rules for the University Faculty.

Briefly the proposed changes are summarized as follows:

- 29.2735 creates a University Calendar Committee of the University Senate which shall prepare and review the University calendar and act in an advisory capacity to the Council of Deans.
- 31.0704 combines sections of two existing Rules into one Rule relating to the Physical Education requirement for all students.

I. GENERAL RECOMMENDATIONS (continued)

D. Establishment of New Rules 29.2735 and 31.0704,  
Revision of Rules 29.2709, 31.05, 31.0701, 31.0703, and  
Withdrawal of Rule 31.03 of Rules for the University Faculty (continued)

--29.2709 provides that two rather than all of the six elected faculty members on the Council on Student Affairs shall be members of the University Senate.

--31.05 modifies the course numbering system for the University, effective with the Spring Quarter 1975.

--31.0701 changes the responsibility for the military science requirement (National Defense Option) from the student to the curriculum or program.

--31.0703 clarifies the basic education requirement.

--31.03 has been combined in Rule 31.05.

President Enarson recommended that the proposal from the University Senate for changes in Rules for the University Faculty as outlined above be approved by the Board of Trustees, with the changes to be effective immediately unless otherwise noted. (See pages 250-252 for details of changes.)

Upon motion of Mr. Devenow, seconded by Mr. Hilliker, the Board of Trustees approved the foregoing recommendation by unanimous voice vote.

E. Degrees and Certificates Conferred--Autumn Quarter Commencement

President Enarson requested that this Board ratify the awarding of the degrees and certificates conferred at the Autumn Quarter Commencement Convocation on December 13, 1974, to those students who had completed the requirements for their respective degrees and certificates and were recommended by the University Senate. The names of those awarded degrees and certificates are included in the minutes of this meeting. (See Appendix II, page 287.)

Upon motion of Dr. Sirak, seconded by Mr. Hilliker, the Board of Trustees approved the above recommendation by unanimous voice vote.

2. Gifts-in-Kind

- a. A collection of film posters, lobby title cards, and lobby one-sheet and three-sheet movie posters from Mr. Philip Sills, Riverdale-on-Hudson, New York, for the College of The Arts.
- b. Eileen Heckart, distinguished actress and devoted alumna, has offered to this University a collection of her theatre memorabilia which will serve as a rich resource for research for students majoring in theatre.

The University is fortunate to add this valuable collection of scripts, tapes, correspondence, programs, awards and photographs to its research holdings in the field of the performing arts.

The donor resides in New Canaan, Connecticut, with her husband, John H. Yankee, Jr., Bachelor of Science in Business Administration '42, and their three sons, Mark, Philip and Luke, and received the Bachelor of Arts degree from Ohio State in 1942. The long list of awards and honors earned during her career includes the 1973 Academy Award as Best Supporting Actress, Honorary Doctor of Laws from Sacred Heart University, Outer Circle and Daniel Blum Citation, Straw Hat Award, Donaldson Award, Golden Globe Foreign Press Award, Sylvania T. V. Award, and The Ohio State University Centennial Achievement Award.

Although research would be the primary use of this collection, it is Miss Heckart's intention that the collection be open and available to the largest possible number of students and others who have interest in her work.

It is recommended that Miss Heckart's generous offer be accepted, and that the Eileen Heckart Collection be established and appropriately housed at the Department of Theatre, College of The Arts, at The Ohio State University.

a. James O. Grandstaff Memorial Award (continued)

All gifts are to be invested in the University's Permanent Endowment under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide one or more annual awards to either an undergraduate or graduate student majoring in Animal Science at The Ohio State University. The selection of the recipient(s) is to be made by the University Scholarship Committee upon the recommendations of the Chairman of the Department of Animal Science and the Dean of the College of Agriculture and Home Economics.

Should the need for this scholarship cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for animal science.

b. \$1,000.00 from Thomas D. Harman for the establishment of the Katharine F. Harman Scholarship Fund.

Katharine F. Harman Scholarship Fund

The Katharine F. Harman Scholarship Fund was established January 10, 1975, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Thomas D. Harman, B.S.Agr. '40, M.S. '47, Ph.D. '50, Circleville, Ohio, in memory of his wife, Katharine Foresman Harman, B.S.H.E. '37.

All gifts are to be invested in the University's Permanent Endowment under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be added to the principal until the fund reaches \$10,000. At that time, the annual income is to be used to provide one or more scholarships for students enrolled in the College of Agriculture and Home Economics and majoring in Agricultural Economics. The selection of the recipient(s) is to be made by the University Scholarship Committee upon the recommendations of the Chairman of the Department of Agricultural

3. Establishment of Named Fund

- a. \$10,000.00 from Chi Association of Theta Xi for the establishment of the Chi Association of Theta Xi Scholarship Fund.

Chi Association of Theta Xi Scholarship Fund

The Chi Association of Theta Xi Scholarship Fund was established January 10, 1975, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Chi Association of Theta Xi.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide one or more scholarships for undergraduate students who have demonstrated academic ability and need for financial assistance. The selection of the recipient is to be made upon the recommendation of the Dean of the College of Engineering and the University Scholarship Committee. It is intended that the scholarships be given to students enrolled in the advanced R. O. T. C. program and the College of Engineering.

Should the need for these scholarships cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for engineering education.

IV. BUSINESS AND ADMINISTRATION

A. Plans and Specifications

At the request of the Vice President for Business and Administration, President Enarson recommended that the plans and specifications, bills of materials, and estimates of cost for the following projects be approved by the Board of Trustees:

1. Ives Hall, East Wing--Exterior Masonry Repair

This project will eliminate a major safety problem by the replacement of the west wall of the east wing which has been pushed outward about one inch caused by oxidation of the steel lintels and penetration of water in these walls associated with the freeze-thaw cycle of the weather. This work will also correct problems with the parapet walls of this building.

Funds are budgeted in Budget Account 126070 (Contract Repair).

2. McCracken Power Plant, Masonry Repairs to Stacks

This project will shorten the south stack to remove deteriorated areas, replace all bad brick for the total height of the stack, tuck point all mortar joints and add waterproofing.

Funds are budgeted in Budget Account 126070 (Contract Repair).

3. B & Z Building, 1735 Neil Avenue, Exterior Masonry Repairs and Window Replacement

The existing windows are deteriorated due to weather and the masonry joints of the building are open. This project will provide replacement of the windows and sealing of the exterior masonry of the building to prevent further deterioration. This is an energy conservation measure as well as a maintenance measure.

Funds are budgeted in Budget Account 126070 (Contract Repair).

4. Carmack Drive, Repairs to Drainage and Pavement

This project will repair and modify the storm sewer system to prevent further penetration of water into the base and subgrade which has caused the north leg of Carmack Drive to deteriorate prematurely.

Funds are budgeted in Budget Account 126070 (Contract Repair).

5. Haskett Hall--Remodeling

This project will provide for the development of a Photo-History Center and four laboratories on the first, second, and fourth floors of Haskett Hall and associated alterations to improve functions of the existing support facilities.

IV. BUSINESS AND ADMINISTRATION (continued)

5. Haskett Hall--Remodeling (continued)

Funds are budgeted in House Bill 985, Item 315-074 (Utilities and Renovation).

6. Electrical Expansion--West Campus

This project will provide for the installation of 13.8 KV electric feeders from the utility substation located at 1735 Cannon Drive to the Agricultural Buildings and alternates for service to the West Campus buildings. Service will be transferred from the local electric utility lines through the new substation equipment. This will provide more reliable service, a back-up system and energy purchase through a more favorable service contract.

Funds are budgeted in House Bill 985, Item 315-074 (Utilities and Renovation).

7. University Hospital, Air Conditioning Improvement

This project provides for a 500-ton electrically driven chiller addition to the existing main central chiller water system located in the mechanical room of the University Hospital.

Funds are budgeted in Budget Account 801298 (University Hospital Chiller).

8. Mansfield Campus, Phase IV

This project will provide a new building, a new building addition to the Technical Education Laboratory (Phase III Building) and remodeling of the Technical Education Laboratory in Ovalwood Hall (Phase I Building) with facilities for the Technical Education Program of the North Central Technical College and the Baccalaureate Program of The Ohio State University. The new building will be located south and east of Eisenhower Hall (Phase II Building).

Funds are budgeted in House Bills 988 and 985, Item 315-082 (Mansfield Branch, Ohio State University, in cooperation with North Central Ohio Technical College).

9. University Hospital, Intensive Care Unit Alteration

This project is necessary because the Hospital critically requires more intensive care beds. The project will provide 21 new beds and will be located on the fourth floor, adjacent to the surgical suite of the existing University Hospital. Existing intensive care beds in the Hospital will remain.

IV. BUSINESS AND ADMINISTRATION (continued)

A. Plans and Specifications (continued)

9. University Hospital, Intensive Care Unit Alteration (continued)

When bids were originally taken for this project, December 13, 1973, the quotations were substantially above the estimates and it was believed undesirable to readvertise at that time. However, additional funds have now been made available and the project has been modified to include changes made necessary by Ohio Building Code revisions.

Funds are budgeted in Budget Account 801279 (Hospital Rotary).

10. Central Campus Energy Control Center - Phase I

This project will provide for the initial phase of a planned five-year program to provide centralized monitoring and control of all major energy using systems on the central campus as well as centralized fire and security alarm reporting.

Funds are budgeted in House Bill 985, Item 315-074 (Utilities and Renovation).

11. Main Library Addition

This project will provide a major addition to the west of the existing Library and remodeling of the existing building for a more usable total Library facility.

Funds are budgeted in House Bill 985, Item 315-079 (Main Library Addition).

Mr. Leo Lauterbach, of the architectural firm of Lorenz, Williams, Lively, and Likens, made a presentation of the architectural plans for the Main Library Addition.

12. Evans Laboratory-- Ventilation (Phase II, Third and Fourth Floors)

This project will provide improvements of the ventilation in the Third and Fourth Floor Laboratories for the purpose of eliminating safety hazards to students and other University personnel.

Funds are budgeted in House Bill 985, Item 315-074 (Utilities and Renovation).

13. Traffic Improvements

This project will provide for the realignment of the northwest entrances to the campus and extension of College Road from Twelfth Avenue to Eleventh Avenue. Traffic flow will be improved when this work has been completed.

Funds are budgeted in House Bill 985, Item 315-074 (Utilities and Renovation).

IV. BUSINESS AND ADMINISTRATION (continued)

A. Plans and Specifications (continued)

14. Utility Tunnel, Structural Repairs (19th Avenue to Haskett Hall)

This project will provide for the repair of deteriorated tunnel sections which present a hazard to the traffic traveling overhead.

Funds are budgeted in Budget Account 126070 (Contract Repair).

Upon motion of Mr. Hilliker, seconded by Mr. Gushman, the above recommendations were approved by unanimous roll call vote, and the Secretary was authorized and directed to sign the plans and specifications for the above projects for and on behalf of the Board of Trustees. The Vice President for Business and Administration was directed to proceed with a request for bids in the normal University manner, and if satisfactory bids are received to proceed with the award of contracts. All action regarding this matter will be reported to the Board of Trustees at a later meeting.

B. Report of Award of Contracts

1. Cancellation of Project

On November 1, 1974, the Board of Trustees approved the following project to be advertised for completion of construction:

a. Drackett Tower, North Commons,  
Chilled Water Cross Connection

The equipment for this installation will be purchased by the Residence and Dining Halls directly through the Purchasing Department.

Upon motion of Mr. Hilliker, seconded by Mr. Gushman, the above cancellation was approved by unanimous roll call vote.

2. Award of Contracts

In accordance with authorization provided by the Board of Trustees, bids were taken on the projects listed below and the contracts were recommended for award. The action reported to the Board was as follows:

a. Means Hall--Renovation of Elevators

	<u>Low Bid</u>	<u>Est. of Cost</u>

	<u>Low Bid</u>	<u>Est. of Cost</u>
<u>General Contract</u> (10 bids received 12-16-74) Madias Bros., Inc. (Detroit, Michigan)	\$ 11,680.00	\$ 19,000.00

Funds for this project have been provided in Budget Account 126070 (Contract Repair).

Upon motion of Mr. Hilliker, seconded by Mr. Gushman, the above award of contracts and expenditure of funds were approved and the action of the Vice President for Business and Administration was ratified by unanimous roll call vote.

IV. BUSINESS AND ADMINISTRATION (continued)

C. Other

1. Easements

Pipeline Easement, Lima Campus - Buckeye Pipe Line Company

The Buckeye Pipe Line Company has requested a pipeline easement on State of Ohio land that has been designated for the use of The Ohio State University - Lima Regional Campus. The standard easement charge will be \$1,552.50 for a fifteen-year easement.

North Star Road - Electric Service Line - Columbus and Southern Ohio Electric Company

The Columbus and Southern Ohio Electric Company has requested land for an easement to install an electric service at 2760 North Star Road for the College of Agriculture and Home Economics. The line will be constructed within the limits of a ten-foot strip of land approximately 600 ft. in distance, terminating at the Turf Research Building.

It was recommended that the President and/or Vice President for Business and Administration be authorized to request the Director of the Department of Administrative Services, pursuant to his statutory duties, to act on behalf of the University in developing the necessary legal instruments to provide for both of these easements.

2. Deed and Agreement of Easement

It was recommended that the Vice President for Business and Administration be authorized to sign a Deed and Agreement of Easement between the Board of Trustees of The Ohio State University (Grantor) and Saint Stephen's Episcopal Church (Grantee), of Columbus, Ohio, for property located on the north side of West Woodruff Avenue, a duly dedicated public street.

3. Vacation of Alley - City of Columbus Ordinance No. 1768-74

It was recommended that the Vice President for Business and Administration be authorized to accept the terms of the proposed ordinance for the vacation of the alley south of Eleventh Avenue, extending from the west line of the first alley west of Highland Avenue to the east line of the second alley west of Highland Avenue.

Upon motion of Mr. Hilliker, seconded by Mr. Dunlap, the Board of Trustees approved the foregoing recommendations by unanimous roll call vote.

IV. BUSINESS AND ADMINISTRATION (continued)

C. Other (continued)

4. Power of Attorney - Customs

President Enarson recommended that the action taken by the Board of Trustees on September 12, 1968, relative to the Power of Attorney - Customs, be rescinded and the following recommendation for authorization be approved:

That Edward Q. Moulton, Vice President for Business and Administration; Ernest W. Leggett, Treasurer of the University; and Dwight F. Stobbs, Acting Assistant Vice President for Business Management, The Ohio State University; be authorized to transact business on behalf of The Ohio State University with any Custom House in the United States of America, including making declarations to entries of merchandise imported by this University, endorsing bills of lading, and signing all bonds in the name of the University as required by law or the regulations of the Collector of Customs or Treasury Department; securing the duties on importations made by the University; and also in the name of the University executing and delivering bonds of indemnity to the Collector of Customs.

Upon motion of Mr. Hilliker, seconded by Mr. Dunlap, the Board of Trustees approved the above recommendation by unanimous roll call vote.

D. Report of Controlling Board Actions Pertaining to The Ohio State University

- 12 Approves the release of \$110,000.00 from the General University Funds to purchase the property at 196-200 West 10th Avenue, Columbus, Franklin County, Ohio.
- 13 Approves the release of \$106,500.00 from H. B. 985, Item 315-074 (Utilities and Renovation), to award the Mechanical and Electrical Contracts for the project known as "Evans Laboratory - Ventilation (Phase I, First Floor)."
- 14 Approves the release of \$7,000.00 from H. B. 985, Item 315-074 (Utilities and Renovation), for planning funds for the project known as "Evans Laboratory - Ventilation (Phase II)."

V. REPORTS

A. Report of Auditor of State - Educational Opportunity Grants Program - The Ohio State University

The Report of the Auditor of State for the Educational Opportunity Grants Program - The Ohio State University for the period July 1, 1968 through June 30, 1973 has been received and reviewed by the appropriate officers of the University.

V. REPORTS (continued)

A. Report of Auditor of State - Educational Opportunity Grants Program - The Ohio State University (continued)

The Report is favorable but does suggest some procedural changes which since have been incorporated.

President Enarson recommended that this Report of the Auditor of State be received and filed with the official documents of the University.

Upon motion of Mr. Devenow, seconded by Mr. Gushman, the foregoing recommendation was approved by unanimous voice vote.

B. Report from the Insurance Committee

Dr. Sirak, as Chairman of the Insurance Committee of the Board, made the following recommendations:

Dependents' Group Term Life Insurance Program

As Chairman of the Insurance Committee and with the full support of the administration of this University, I wish to recommend the establishment of a dependents' group term life insurance program. This program will enable University faculty and staff members to purchase, on an optional basis, life insurance coverage for their spouses and dependent children. Specifically, the coverage provided is:

<u>Dependents</u>	<u>Amount of Life Insurance</u>
1. Spouse	\$3,000
2. Each child	
--Under 15 days of age	-0-
--15 days to 6 months of age	500
--6 months to age 23	1,000

The monthly premium will be \$1.00 and paid by payroll deduction by the participating employees.

In making this recommendation, it should be noted that the addition of dependents' group term life insurance was one of the items in our benefits program recommended by Alexander & Alexander, Inc., who were engaged by this Board to review the insurance programs of the University.

January 10, 1975 meeting, Board of Trustees

V. REPORTS (continued)

B. Report from the Insurance Committee (continued)

Dr. Sirak's recommendation (continued)

It is recommended that this University's existing contracts with John Hancock Mutual Life Insurance (Contract No. 58175-GTC as amended for faculty and staff and Contract No. GTC-58175-100 as amended for classified and hourly employees) be amended to include the addition of dependents' group term life insurance, effective February 1, 1975.

It is further recommended that the President and/or Vice President for Business and Administration be authorized to implement this recommendation.

Upon motion of Dr. Sirak, seconded by Mr. Devenow, the Board of Trustees approved the foregoing recommendations by unanimous roll call vote.

C. Report on the University's Investment Portfolio and Accountant's Report on the University Dormitory Revenue Bond Funds

The reports on the University's Investment Portfolio dated December 5, 1974 and January 9, 1975, and the Accountant's Report on the University Dormitory Revenue Bond Funds, including the financial statements of June 30, 1974, prepared by Peat, Marwick, Mitchell & Co., as submitted to the Finance and Investment Committee of the Board of Trustees, were received and ordered to be filed with the official records of the Board.

D. Report on Energy Conservation

Dr. Edward Q. Moulton, Mr. Thomas B. Smith, and Professor Charles Sepsy reported on energy conservation measures which had been implemented at the University, as well as the current energy situation as it pertains to the University.

RESOLUTIONS IN MEMORIAM

President Enarson reported to the Board the deaths of Willard P. Ashbrook, Professor Emeritus in the School of Health, Physical Education, and Recreation; John Bacon, Professor in the Department of Electrical Engineering; Donald S. Bell, Professor Emeritus in the Department of Animal Science; and Warner F. Woodring, Professor Emeritus in the Department of History. In accordance with the instructions of the Board of Trustees, copies of the following resolutions expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the families of the deceased.

A. Willard P. Ashbrook

The Board of Trustees of The Ohio State University expresses its sorrow at the death on January 12, 1975, of Willard P. Ashbrook, Professor Emeritus in the School of Health, Physical Education, and Recreation.

Dr. Willard P. Ashbrook was born in Richmond, Virginia, on April 18, 1900. He received his bachelor's degree from Springfield College in 1924 and the Ph. D. degree from New York University in 1930. He taught at the State Teachers College in Cortland, New York, for several years and was an Assistant Professor at New York University from 1927 to 1933. He attended the Medical College of Virginia for two years but then left to join the faculty of The Ohio State University in 1935 and served for 35 years until his retirement in 1970. During World War II Dr. Ashbrook was commissioned as a Major in the U. S. Army and for two years was Chief of the Physical Reconditioning of Disabled Soldiers in eight army hospitals in the 5th Service Command.

RESOLUTIONS IN MEMORIAM (continued)

A. Willard P. Ashbrook (continued)

Dr. Ashbrook was nationally recognized for his work in the areas of adapted physical education and the evaluation of school programs in physical education and athletics. He was an active member of the American Association for Health, Physical Education, and Recreation and the National College Physical Education Association for Men, serving on many committees and contributing articles for their publications. At Ohio State University he taught classes in both the undergraduate and graduate major programs and served as a faculty adviser for countless students from freshmen through the doctoral dissertation. He gave distinction and quality to the graduate program in physical education which was initiated in the early 1930's. Dr. Ashbrook began the practice of bringing handicapped children to the University on Saturday mornings to provide teaching experience for major students.

Willard Ashbrook, as known and beloved by students and faculty alike, could be characterized in four ways: (1) a true Virginia gentleman who had none of the historic prejudices of the South; (2) a master teacher who emphasized the scientific and medical approach; (3) a lover of people who saw the good in human beings and encouraged the best from them; and (4) the poet laureate who did not openly display this very real talent. The Ashbrook personality was always marked by gentleness, thoughtfulness, tact, and consideration for the feelings and opinions of others.

During his lifetime Dr. Ashbrook was honored by several special awards. Springfield College gave him the Tarbell Medallion, the highest award for notable service by an alumnus of the college. He received the meritorious awards of both the Ohio Association for Health, Physical Education, and Recreation and the Franklin County Society for Crippled Children. In 1970 Dr. Ashbrook was granted the Distinguished Service Award of the College of Education of The Ohio State University.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

B. John Bacon

The Board of Trustees expresses its sorrow at the death on January 5, 1975, of John Bacon, Professor in the Department of Electrical Engineering.

Professor Bacon was born in Bishopton, Durham, England, on September 3, 1916. He came to this country with his parents after the first World War and completed his elementary and secondary education in the public schools of Dayton, Ohio. After graduating from high school he worked for two years in electrical industries before entering The Ohio State University in 1936.

RESOLUTIONS IN MEMORIAM (continued)

B. John Bacon (continued)

He received his B.S.E.E. degree in 1940, and following further industrial experience he also completed his M.S. and Ph. D. degrees.

His first employment after his bachelor's degree was with the Wagner Electric Corporation in St. Louis. When the second World War began, he joined the Aircraft Radio Laboratory at Wright Field, where his work benefited from both his engineering skills and his long-term interest in amateur radio. For two years following the war he continued in similar work with the Federal Telecommunications Corporation.

In 1947 he joined The Ohio State University as a full-time engineer in the Antenna Laboratory of the Department of Electrical Engineering. He served in this position with great distinction. The specialized instrumentation systems he developed not only contributed substantially to the effectiveness of the Antenna Laboratory but were also of great value to the manufacturing companies that later produced them.

Although he made many important contributions in engineering practice, his principal objective from undergraduate days was to be an engineering teacher. From the time he began teaching as an Instructor in 1948 his door was always open to students who needed extra help. He constantly revised the undergraduate laboratories in automatic control in order to incorporate new developments. Because of his contributions to the teaching of automatic control he was appointed for eighteen months to assist the Indian Institute of Technology at Kanpur to establish a sound program in this subject. In recognition of his accomplishments in India he was given the Robert M. Critchfield Award for Meritorious Achievement.

Dr. Bacon was a member of Tau Beta Pi, Eta Kappa Nu, Sigma Xi, and the Institute of Electrical and Electronics Engineers.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

C. Donald S. Bell

The Board of Trustees of The Ohio State University expresses its sorrow at the death on November 26, 1974, of Donald S. Bell, Professor Emeritus in the Department of Animal Science.

Professor Bell was born April 29, 1898, at Bell's Landing, Clearfield County, Pennsylvania, and was graduated from State College High School, State College, Pennsylvania, in 1917. He received his B.S. degree in 1921 from Pennsylvania State University and the M.S. degree in 1925

RESOLUTIONS IN MEMORIAM (continued)

C. Donald S. Bell (continued)

from The Ohio State University. He was an Instructor in Animal Husbandry at Pennsylvania State University, 1921-22, and was appointed Assistant in Animal Industry at the Ohio Agricultural Research and Development Center (then the Ohio Agricultural Experiment Station) in 1922, and was in charge of sheep research at that institution for forty-four years. He was appointed Associate in Animal Industry in 1926 and Professor in Animal Science in 1949. In 1952, he became Professor on the Graduate School faculty at The Ohio State University.

Professor Bell published work on the factors affecting wool growth and quality which has been recognized as a basic reference by researchers, both nationally and internationally. His early lamb nutrition studies explored the importance of mineral balance for lambs on finishing rations. His research helped to identify and to establish the value of type adaptation, crossbreeding, and other important factors affecting lamb meat production. His natural ability to inspire young men to greater achievement was a personal characteristic well recognized among his fellow workers. In 1956, he was presented the "Merit Award" by the Ohio Sheep Improvement Association for his distinguished service to the sheep industry of Ohio. In 1966, the title of Fellow was conferred on Professor Bell by the American Association of Animal Science.

Professor Bell was not only a dedicated scientist and teacher, but had a sense of community responsibility. He was a member of the Wooster Board of Education from 1954 to 1958, serving both as Vice President and President of that Board. He was a member of the Wooster Board of Recreation for seventeen years and of the City Planning Commission for two years. He served on the Board of Trustees of the First Presbyterian Church and became an Ordained Elder in 1957.

On behalf of The Ohio State University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as a sincere expression of the Board's realization of the loss which the family and the University have sustained.

D. Warner F. Woodring

The Board of Trustees of The Ohio State University expresses its sorrow at the death on November 27, 1974, at Brookesmith, Texas, of Warner F. Woodring, Professor Emeritus in the Department of History.

Dr. Woodring was born December 5, 1892, at Angola, Indiana. He attended the local high school and was graduated in 1914 with a B.S. degree in engineering from Tri-State College in Angola. During World War I, he served in the United States Army, being attached to the Meteorological Service.

RESOLUTIONS IN MEMORIAM (continued)

D. Warner F. Woodring (continued)

In 1920 he was awarded a Fellowship at the University of Chicago. This was followed by a Teaching Assistantship until he received the Ph. D. degree in History in 1922. His special field of research was English political and legal history in the thirteenth and fourteenth centuries.

Professor Woodring held positions at Morningside College, Sioux City, Iowa, from 1922 to 1924, and at Allegheny College, Meadville, Pennsylvania, from 1924 to 1937. He came to The Ohio State University as a Visiting Professor of English History in 1937 and became a tenured Professor of the Department of History the following year, a position he filled with distinction until his early retirement in 1956 because of impaired vision. During his teaching career he was honored by invitations to serve as Visiting Professor at the University of Arkansas, University of Chicago, University of Southern California, and Pennsylvania State University.

Dr. Woodring was an erudite scholar with a prodigious memory and an easy and working fluency in French and Latin. He supplemented his English historical skill and knowledge by reading widely in English literature and art. He was fascinated by military and naval history and often regaled his colleagues and students with graphic descriptions of early European warships and episodes of the sea. He contributed many reviews of scholarly works to a number of professional journals and these were always models of perfection.

Professor Woodring loved to teach and he was most successful and effective, especially with advanced undergraduates and graduate students. He was a most demanding leader and in graduate seminars was an inspiring teacher with perfect give-and-take with the students and in discussions continued after class, sometimes almost endlessly. Superior students sought him out and benefited enormously from his association.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

President Enarson presented the following recommendations:

I. GENERAL RECOMMENDATIONS

A. Naming of Building

President Enarson recommended that the auditorium constructed as a part of the University Hall project and which is located at 2023 Neil Avenue be named "Independence Hall," to commemorate the Bicentennial of this country.

I. GENERAL RECOMMENDATIONS (continued)

B. Naming of Athletic Facility

President Enarson recommended that the Tennis Court Facility located east of Buckeye Village and northeast of the Athletic Facility North be named "Herman Wirthwein Tennis Facility." Herman Wirthwein served as Tennis Coach at The Ohio State University from 1926 to 1957.

C. Naming of Street

President Enarson recommended that the street between Perry Street and Cannon Drive adjacent to the new University Hospitals Clinic Building be named "Clinic Drive."

These recommendations are in accordance with the Bylaws of the Board of Trustees.

D. Change in Name of Degree

Upon the request of the School of Architecture and with the approval of the Council on Academic Affairs, President Enarson recommended that the title of the master's degree awarded by the School of Architecture be changed from Master of City Planning to Master of City and Regional Planning, effective immediately. This change is recommended to reflect more accurately the academic content of this program and the professional positions being filled by our graduates.

E. Degrees and Certificates Conferred--Winter Quarter Commencement

President Enarson recommended that degrees and certificates be conferred at the Winter Quarter Commencement Convocation on March 20, 1975, to those students who have completed the requirements for their respective degrees and certificates and are recommended by the University Senate. The names of those awarded degrees and certificates will be included in the minutes of this meeting. (See Appendix III, page 359.)

Upon motion of Mr. Harrod, seconded by Mr. Hilliker, the Board of Trustees approved the foregoing recommendations by unanimous voice vote.

F. Budget Summary - Second Quarter 1974-1975 Report  
(Quarter Ended December 31, 1974)

The current funds budget for 1974-1975 based on revenues and expenditures for the first two quarters of the fiscal year is presented for your consideration and approval. Significant changes from the first-quarter report have not been experienced. A slightly larger-than-expected enrollment has increased both fee revenues and instructional expenditures. State subsidy is the same as reported previously. State and federal grants are somewhat higher than estimated in September, 1974; their distribution by budget

category has changed, with departmental instruction and research receiving the major portion of the increases in these restricted revenues.

President Enarson recommended that the above second quarter budget report be accepted. (See details pages 329-331.)

Upon motion of Mrs. James, seconded by Mr. Dunlap, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

a. The Herbert A. Toops Prize for Creativity (continued)

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide one or more awards for graduate students who have demonstrated creative skills in research in psychology. The selection of the recipient is to be made upon the recommendation of the Chairman of the Department of Psychology. Preference is to be given to students enrolled in the Department of Psychology.

Should the need for these awards cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for Psychology education.

- c. \$1,000.00 from Gerald Weisberg for the establishment of The Gerald Weisberg Scholarship Fund.

The Gerald Weisberg Scholarship Fund

The Gerald Weisberg Scholarship Fund was established February 7, 1975, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Gerald Weisberg, D. D.S. '58, Hamilton, Ohio.

All gifts are to be invested in the University's Permanent Endowment under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be added to the principal until the fund reaches \$10,000. At that time, one or more scholarships will be made available to current or former athletes enrolled in and pursuing a degree in the healing arts area. Selection of the recipient(s) will be made by the University Scholarship Committee.

Should the need for this scholarship cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is directly responsible for medical education.

IV. BUSINESS AND ADMINISTRATION

A. Plans and Specifications

At the request of the Vice President for Business and Administration, President Enarson recommended that the plans and specifications, bills of materials, and estimates of cost for the following projects be approved by the Board of Trustees:

1. Clinical Medical Sciences Education Facility  
(Supporting Services Phase)

This project is a major facility to be located adjacent to the existing University Hospital in the Medical Center Complex. Connections will be provided to University Hospital and Means Hall. Included in the new facility will be areas for supporting services badly needed for efficient operation of the existing Hospital as well as a new Hospital entrance and a clinical classroom area.

Funds are budgeted in H. B. 985, Item 315-077 (Clinical Medical Sciences Education Facility), Federal Grant, and Budget Account 801266 (Clinical Medical Sciences).

Mr. George Page, of the architectural firm of Page Sutherland and Page, made a presentation of the architectural plans for the Clinical Medical Sciences Education Facility.

2. Lima Campus, Phase IV

This project will provide a new building which will have facilities for classrooms, laboratories, offices, recreational facilities, and a learning resources center. The building will be located on a quadrangle bounded by the existing buildings at the Lima Campus.

Funds are budgeted in H. B. 985, Item 315-083 (Lima Branch, Ohio State University, in cooperation with North Central Ohio Technical College).

3. Marion Campus, Phase II

This project will provide a new building which will have facilities for the Technical Education Program of the Marion Technical College and the Baccalaureate Program of The Ohio State University. The new building will be located east of the Marion Academic Center.

Funds are budgeted in H. B. 985, Item 315-088, and H. B. 988, Item 359-001 (The Ohio State University, in cooperation with Marion Technical College).

IV. BUSINESS AND ADMINISTRATION (continued)

A. Plans and Specifications (continued)

4. Recreation, Physical Education, Intramural Facilities, Dispersed Facilities

The Dispersed Facilities consists of three Recreational Areas in close proximity to student concentration, being the first major construction for this entire project which is known as "Recreation, Physical Education, Intramural Facilities."

These recreation buildings can have the sides opened by roll-up doors, will contain minimal heat, toilet facilities, and storage areas.

The North Campus Recreation area will be located at the corner of Lane and Neil Avenues, and will include an arch-type building. The South Campus Recreation area will be located at the corner of West 11th Avenue and Worthington Street and will be an identical type building. The West Campus Recreation area will be located along the west side of Kenny Road, South of Carmack Road.

Funds are provided in H. B. 985, Item 315-081 (Recreation, Physical Education, Intramural Facilities), and Budget Account 801295 (Gifts).

5. Means Hall--Renovation of Second Floor East

This project will consist of remodeling the patient-room area of the second floor east for a medical intensive care unit which includes an isolation room laboratory, dispensary, and visitors' waiting room.

Funds are provided in Budget Account 801309 (Means Hall--Intensive Care).

6. Galvin Hall--Repair to Roof and Ventilation (Lima Campus, The Ohio State University)

This project will provide for the replacement of the roof which has failed and the investigation of the ventilating system and controls, which may have contributed to the roof failure.

Funds are provided in Budget Account 129001 (University College - Improvements).

Upon motion of Mr. Harrod, seconded by Mr. Gushman, the above recommendations were approved by unanimous roll call vote, and the Secretary was authorized and directed to sign the plans and specifications for the above projects for and on behalf of the Board of Trustees. The Vice President for Business and Administration was directed to proceed with a request for bids in the normal University manner, and if satisfactory bids are received to proceed with the award of contracts. All action regarding this matter will be reported to the Board of Trustees at a later meeting.

IV. BUSINESS AND ADMINISTRATION (continued)

B. Other

1. Easements

Lane Avenue--Road Widening

The City of Columbus has requested an easement on the south side of Lane Avenue from Neil Avenue to the east right-of-way line of the Olentangy River Road. This easement will be for the purpose of widening Lane Avenue. The easement from Neil Avenue west to the east right-of-way line of the Olentangy River Road will be 20 ft. wide and a total of 2,329 ft. in length containing approximately 1.252 acres. This easement is to be granted contingent with the finalizing of the vacation by the City of Woodruff Avenue from High Street to its western terminus, Frambes Avenue, Poe and Joe Alleys from Neil Avenue to Tuttle Park Place and Neil Avenue and Tuttle Park Place from Lane Avenue to Woodruff Avenue.

It was recommended that the President and/or Vice President for Business and Administration be authorized to request the Director of the Department of Administrative Services, pursuant to his statutory duties, to act on behalf of the University in developing the necessary legal instruments to provide for this easement with contingencies as required.

Recreation, Physical Education, Intramural Facilities -  
West Eleventh Avenue

In the construction of the Recreational Physical Education Facility on West Eleventh Avenue, it is required that the University provide a utility easement to the City of Columbus, Columbus and Southern Ohio Electric Company, Columbia Gas of Ohio, Inc., and the Ohio Bell Telephone Company. This utility easement will enable the above utilities to be constructed around the proposed building within the granted twenty-foot easement.

It was recommended that the President and/or Vice President for Business and Administration be authorized to request the Director of the Department of Administrative Services, pursuant to his statutory duties, to act on behalf of the University in developing the necessary legal instruments to provide for this easement for each utility required.

2. Transfer of Board of Trustees and State  
of Ohio Lands to the City of Columbus

The City of Columbus is planning to construct a Recreation Park north of Lane Avenue within the Olentangy River Tuttle Park area. The City Division of Parks and Recreation has requested that the University

IV. BUSINESS AND ADMINISTRATION (continued)

2. Transfer of Board of Trustees and State  
of Ohio Lands to the City of Columbus (continued)

transfer, at no cost to the City, certain State of Ohio (The Ohio State University) and Board of Trustees, The Ohio State University, land by title to the City of Columbus. The lots within the park area are as follows:

Board of Trustees Owned:

Lots 159 through 171, 179 through 183, north 1/2 of Lot 184, north 1/4 of Lot 185, and Lot 186 in Thompson's Northwood Heights Addition

Lots 61, 63, 65, 137, 139 in Montgomery and McKee's Amended and Corrected Plot of Laura M. Knickerbocker's Second Subdivision

State of Ohio Owned:

Lots 132 through 135 of Montgomery and McKee's Amended and Corrected Plot of Laura M. Knickerbocker's Second Subdivision

The park will provide recreation facilities for the public including Ohio State University students, staff, and faculty without reservations.

In the event this park is not completed or the recreation facility ceases to be operated by the City of Columbus, the lots will revert to the University.

Upon approval of this proposal by this Board, it was recommended that legal counsel be instructed to prepare the necessary legal documents effecting the transfer of the Board of Trustees' property to the City and that the necessary legal documents be developed for presentation to the State Legislature for the transfer of the four State-owned lots to the City of Columbus.

3. Lease - 2470 North Star Road to the Ohio  
Educational Television Network Commission

The Ohio Educational Television Network Commission has requested to renegotiate the lease for the building and grounds at 2470 North Star Road, formerly occupied by The Ohio State University Telecommunications Center. The term of this lease will be seven years with an option for an eight-year extension, or a total of fifteen years.

IV. BUSINESS AND ADMINISTRATION (continued)

B. Other (continued)

3. Lease - 2470 North Star Road to the Ohio Educational Television Network Commission (continued)

In accordance with the conditions of this lease, the Ohio Educational Television Network Commission will replace the present obsolete broadcasting tower with a modern microwave tower that, at the conclusion of this fifteen-year lease, will become the property of The Ohio State University.

It was recommended that the Vice President for Business and Administration as Secretary of the Board of Trustees be authorized to execute the lease agreement as prepared and submitted by the Director of Administrative Services.

Upon motion of Dr. Sirak, seconded by Mr. Gushman, the Board of Trustees approved the foregoing recommendations by unanimous roll call vote.

V. REPORTS

A. Report from the Insurance Committee

Dr. Sirak, as Chairman of the Insurance Committee of this Board, made the following recommendation:

Student Health Insurance Contract

That Mutual of Omaha be awarded the Student Health Insurance Contract, effective the first day of classes Autumn Quarter 1975, for a period of two years. The contract will provide additional benefits to those now available under the terms of the current Mutual of Omaha Student Health Insurance Contract.

This coverage will be available on an optional basis to all registered students at the following premium schedule:

<u>Classification</u>	<u>Quarterly Premium Rates</u>
Student	\$17
Student and Spouse	39
Student, Spouse and All Children	60
Student and Dependent Child or Children	38

Dr. Sirak's recommendation (continued)

This Student Health Insurance Contract has been recommended by the Subcommittee on Student Insurance of the Council on Student Affairs, endorsed by the Council on Student Affairs and approved by the Office of the Vice President for Student Services.

Upon motion of Dr. Sirak, seconded by Mr. Harrod, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

B. Report to the Faculty, Staff and Students - University Energy Conservation Coordinating Committee

President Enarson presented the following report:

In negotiations with Columbia Gas of Ohio, it was determined that the Hospital facilities and Housing facilities served through McCracken Power Plant are properly classified as commercial users and not subject to either industrial gas allocation reduction or commercial gas allocation reduction. As a result of this, 23% of the gas allocation to McCracken Power Plant was judged to be not subject to reduction. However, it will be charged for at the commercial rate which is approximately 20% above the industrial rate. Industrial gas allocations have historically been on an interruptible basis and therefore at a lower unit cost.

The effect of this change in allocation and classification is indicated by the following table:

<u>Month</u>	<u>1973-74 Allocation</u>	<u>1973-74 Consumption</u>	<u>1974-75 Allocation</u>
November	253,400	219,772	208,875
December	265,100	190,046	172,315
January	267,000	235,800	92,515
February	263,100	224,684	91,164
March	257,300	183,226	89,154

<u>Month</u>	<u>Comm. Gas Allocation</u>	<u>Total Allocation</u>	<u>1974-75 Consumption</u>
November			186,731
December			187,131
January	61,410	153,925	96,448
February	60,513	151,677	
March	59,179	148,333	

V. REPORTS (continued)

B. Report to the Faculty, Staff and Students - University Energy Conservation Coordinating Committee (continued)

President Enarson's report (continued)

When we were under our tightest restriction on industrial gas at the McCracken Power Plant, we burned 941,654 gallons of fuel oil, which exceeded the allocation for the year from our regular supplier. Availability from other suppliers has allowed us to purchase this amount and continue to keep our storage tanks full for emergency use.

Cost of energy purchased as fuel oil exceeded the cost of a comparable supply of gas energy at industrial rate by approximately \$172,000.

During the tightest time of restriction, some extreme measures were taken in relation to closing a number of buildings, some of which contained branch libraries, during the evening and weekend hours. With the relief experienced through the change in gas allocation and due to the mild winter and campus-wide conservation of energy, it has been found possible to reopen these branch libraries on a schedule similar to that in operation during the Winter Quarter of 1973-74.

A program of electrical use monitoring has been expanded by the cooperation of building monitors and their appointment of floor deputies to review the use of electricity during unoccupied periods, with particular emphasis on a 5:00 p.m. shutdown. Much of the custodial work is done on the third shift so custodians are not available to control light use until about 10:30 p.m.

Major economies effected during the past year include removal of over 40,000 fluorescent tubes and shutdown of ventilating systems during unoccupied periods.

In our perimeter heating plants, such as those in the College of Agriculture and College of Veterinary Medicine as well as the West Campus and Don Scott Field, where we have dual fuel gas and oil fired boilers, we have been making sure that the operating personnel are familiar with the transfer from gas to oil and have been keeping storage tanks in these areas topped out in case of a further gas emergency.

In addition to the above, the six buildings which have been approved for energy conservation modifications are having the modifications designed and implemented with the anticipation that the one-time modifications cost will be recovered in utility bills within the first year of the new operation.

February 7, 1975 meeting, Board of Trustees

V. REPORTS (continued)

B. Report to the Faculty, Staff and Students - University Energy Conservation Coordinating Committee (continued)

President Enarson's report (continued)

These formal energy conservation studies are proceeding under the joint direction of Professor Charles Sepsy of Mechanical Engineering and Mr. Dallas Sullivan, who has recently been given full-time responsibility in the energy conservation area. The largest energy savings of course are in our newer, more sophisticated buildings with complex heating, cooling, and ventilating systems.

To insure that there is no interruption of classes on our campus, the cooperation of every member of the campus community is needed. You can help by:

- \* Supporting administrative measures to reduce fuel usage by finding ways to work effectively with reduced schedules of building occupancy.
- \* Maintaining thermostat settings at 68° F. or below.
- \* Turning off hoods and exhaust fans when not in use.
- \* Turning out lights when leaving the classroom, office, or laboratory.

Our experience to date indicates that with everyone's help an energy consumption 25% less than 1973-74 levels can be achieved while maintaining all essential programs.

President Enarson's statement (continued)

away by double-digit inflation. There is, on the part of all who work here--in all ranks of faculty and in all offices--a deep concern about their well-being and their immediate future. It is a concern that I fully share.

Although the actual dollars which the General Assembly appropriates will not be known for some months--possibly not until early summer--I believe it imperative, in fairness to all, that we announce now our intentions, goals, and approach with respect to the level of desired compensation and methods of distributing the dollars finally available for salary purposes.

Last year, with my encouragement, the University Senate set up a Committee on Faculty Compensation and Benefits. That Committee, chaired by Professor David H. Boyne, has met weekly analyzing the changes in levels of real income over the past several years. Dr. Kuhn and I have met with the Committee and have been privileged to share in their inquiry and their deliberations. I have in hand the Committee report, dealing with inflation and faculty salaries. Comparative studies of salary and fringe benefits are inherently difficult and their conclusions open to differing interpretations. However, the main thrust of the report confirms my own earlier independent assessment--that the cumulative loss of real income since 1968 has been about 17 per cent.

Regrettably, I see no real prospect that the Ohio General Assembly will fund such an increase--not at a time when most other wage earners in Ohio have also been afflicted with lost income.

But, I do believe it essential that we set now as a goal an increase of 14 per cent in average compensation for faculty and staff for the 1975-76 year. It can be achieved by a combination of substantially increased support in instructional subsidy along with substantial across-the-board cuts in all University budgets. For next year's budget, this means not filling positions; this means even greater energy conservation efforts; this means allocating--for example--no more than a 4 per cent increase for supplies and equipment, where prices have already increased 16-18 per cent. In short, this means less travel, fewer phone calls, more deferred building maintenance, elimination of some positions, less secretarial service and no money to invest in new or expanded programs.

V. REPORTS (continued)

C. Statement on Faculty and Staff Salaries (continued)

President Enarson's statement (continued)

We should not delude ourselves. There is no hidden cache of dollars to be tapped, no easy way to economize, no way to avoid the hard fact that to put salary relief first is necessarily to put other needs in second place. One key statistic illuminates the price of the tradeoff: for each 5 per cent gain in compensation, cutbacks of 3 per cent in the entire budget are required.

New times require new approaches. Historically, this University--along with major universities everywhere--has resisted across-the-board increases and has prided itself in adhering to the "merit" principle. Very simply, this means that each College receives a lump sum for salary increases and distributes those scarce dollars selectively in an effort to reward performance. In short, we require deans and department chairmen to make discriminating judgments--admittedly a difficult task. However, two-digit inflation has led me reluctantly to the conclusion that some part of the 14 per cent goal must--for the 1975-76 year--be earmarked for a flat across-the-board increase.

In the short run, an across-the-board approach preserves in part existing differentials in salaries and thus, in effect, simply carries forward earlier judgments about comparative performance of individuals.

In the last month, I have consulted with the Council of Deans, the President's Staff, the University Senate Committee on Faculty Compensation and Benefits, as well as with some individual faculty members. It will not surprise anyone who knows universities and the independence of judgment of faculty that all points of view were expressed. While there is no consensus, there is a growing conviction that some substantial part--say one half--of the 14 per cent goal ought to be dedicated to an across-the-board increase. At the same time, there is strong conviction that it would be wrong to abandon the merit principle.

Therefore, I have concluded that earmarking half of the 14 per cent goal for an across-the-board increase is justified if at the same time we reserve the remaining half for merit and for correction of inequities.

V. REPORTS (continued)

C. Statement on Faculty and Staff Salaries (continued)

President Enarson's statement (continued)

Salaries are necessarily dependent upon the availability of legislative appropriations. However, we must move ahead in our budgetary planning. I am assuming for planning purposes, that a 7 per cent increase will be incorporated in the 1975-76 budget. Again, our ability to provide the additional 7 per cent will be a function of a) how many dollars are finally appropriated, and b) our willingness to cut deeply into existing budgets.

D. Report on the University's Investment Portfolio

The report dated February 7, 1975, as submitted to the Finance Committee of the Board of Trustees by Mr. Ernest W. Leggett pertaining to the University's Investment Portfolio, was received and ordered to be filed with the official records of the Board of Trustees.

Board of Trustees  
The Ohio State University  
Columbus, Ohio 43210

Gentlemen:

There is an old, ever brewing struggle which pits the court of public opinion against formal institutions such as the (sic) Ohio State University Board of Trustees.

We, members of the Society of Professional Journalists/Sigma Delta Chi, Women in Communications Incorporated, and interested journalism students, come before you today to seek clarification on the board's decision (sic) making practices.

It is not our intent to accuse the board of any wrongdoing. Our purpose is to seek clarification and information, so that we may more fully understand the board's work and transmit that information to our readers and listeners.

February 7, 1975 meeting, Board of Trustees

GUEST SPEAKER (continued)

Mr. Timothy Collins (continued)

We would appreciate a response at your earliest convenience.

\*Does the board hold executive sessions? If so, what is the nature of the discussion?

\*How does the board handle its business between public meetings?

\*What are the committees of the board? Are their meetings open? If so, are they announced? If the meetings are closed, could you please give a committee-by-committee rationale for the closed sessions?

We thank you for your cooperation.

(Signed)

Charles Durfey, president  
The Society of Professional  
Journalists/Sigma Delta Chi

(Signed)

Carol Stoff, president  
Women in Communications Inc.

The members of the Board indicated their willingness to respond to the questions posed in the foregoing letter at the next regular meeting of the Board.

**Dr. Harlan Cleveland**  
**Director, Program in International Affairs**  
**Aspen Institute for Humanistic Studies**

Dr. Harlan Cleveland has distinguished himself as an able public executive, diplomat, educator and author, through the multiple careers he has woven together since his graduation as an honors student from Princeton University in 1938.

Sought as an adviser by Presidents Kennedy and Johnson, Dr. Cleveland was involved in every crisis that threatened the peace and security of our nation and the world from 1961 to 1965. As a member of the United Nations administration, he was instrumental in bringing about peacekeeping arrangements in Africa, Southeast Asia, the Middle East and the Caribbean during that same period. He has served as Assistant Secretary of State for International Organization Affairs, and as United States Ambassador to NATO.

A Rhodes Scholar, Harlan Cleveland holds an esteemed position in academe, having demonstrated his expertise in higher education as Dean of Syracuse University's Maxwell Graduate School of Citizenship and Public Affairs, and more recently, as President of the University of Hawaii. His authorship of many widely published works on public administration and United States foreign policy has earned him deserved acclaim.

The recipient of numerous awards, including Princeton University's Woodrow Wilson Award and the United States Medal of Freedom, Dr. Harlan Cleveland addresses the 251st graduating class of Ohio State as a truly honored guest.

THE OHIO STATE UNIVERSITY  
OFFICIAL PROCEEDINGS OF THE  
ONE THOUSAND ONE HUNDRED AND FIFTH MEETING  
OF THE BOARD OF TRUSTEES

Newark, Ohio, March 7, 1975

The Board of Trustees met at its regular monthly meeting on Friday, March 7, 1975, at The Ohio State University Newark Regional Campus, Newark, Ohio, pursuant to adjournment.

Present: William C. Safford, Chairman, Don M. Hilliker, John H. Dunlap, M. Merle Harrod, Howard D. Sirak, Patricia D. James, Chester Devenow, and Warren J Smith.

March 7, 1975 meeting, Board of Trustees

---

Mr. Safford stated that at the Board meeting last month a presentation was made by Mr. Timothy Collins on behalf of the Society of Professional Journalists/Sigma Delta Chi and Women in Communications, Inc., in which a number of questions were raised relating to the decision-making processes of this Board. He called on the Secretary, Dr. Moulton, to read the letter in response to this inquiry.

Ms. Carol Stoff  
1660 Shanley Drive #6  
Columbus, Ohio 43224

Dear Mr. Durfey and Ms. Stoff:

I am writing in response to your letter of February 7, 1975, which was directed to the Board of Trustees requesting clarification of the Board's operating procedures.

No official action is taken by this Board at other than its regularly or specially scheduled public meetings. While the possibility of meeting in executive sessions is available to this Board under Ohio Law (see case notes under Ohio Revised Code 121.22); the Board has chosen rather to rely on a comprehensive committee structure through which topics and agenda items are studied and reviewed. However, no action is taken by these committees other than to recommend, not recommend, or to refer to the Board without a recommendation various items for its consideration.

As Chairman I established four such committees and announced their membership at a regular meeting of this Board in July. The Committees are: Finance and Investments, Educational Affairs, Buildings and Grounds, and Insurance and Retirement. There are four trustees on the Finance and Investments and Educational Affairs Committees, three on the Buildings and Grounds Committee, and two on the Insurance Committee. These committees usually meet at least once a month with the exception of the Insurance Committee which meets generally less frequently. As a standing policy of this Board all members of the Board are invited and welcome to attend all committee meetings of the Board. These meetings have not been open to the public or publicly announced to enable the trustees to review fully such items as personnel selection and evaluation, endowment transactions, and legal actions.

The Board conducts no business between Board meetings; however, the President as the chief executive officer of the University is responsible for the entire administration of the University subject to the control of the Board of Trustees. Thus a continuity of authority is maintained.

March 7, 1975 meeting, Board of Trustees

Mr. Charles Durfey

March 7, 1975

I trust this is responsive to the questions which were raised and assists in the development of a better understanding of the operating procedures of this Board.

Cordially,

(Signed)

William C. Safford, Chairman

WCS/kah

cc: President Harold L. Enarson  
Members of the Board

Upon motion of Mr. Harrod, seconded by Mr. Hilliker, the Board of Trustees approved by unanimous roll call vote, the letter as read by the Secretary of the Board in answer to the questions posed at the last meeting by Mr. Durfey and Miss Carol Stoff.

---

Mr. Devenow then made the following statement:

I would like to bring before the Board two matters which I think need addressing and consideration by the Board. They relate to (1) the fact that there has been criticism that we pre-cast decisions and that releases are made to the press prior to meetings which indicate that this is nothing more than a rubber-stamp Board. In my opinion nothing could be more erroneous and contrary to the facts. And, therefore, I would support any recommendation to change that rule.

The second matter, Mr. Chairman, relates to the letter and also to some statements which indicate that executive sessions are held in which decisions are made prior to public hearings. Again nothing could be more contrary to the facts. I think there is a need for clarification by the Board of this procedure. Fact-finding and discussion are essential and relevant to conducting our business. Decision-making in turn is made publicly by this Board. It is necessary and it is useful for us to discuss fully all the facts, to examine all the implications of a decision. This is a vast University--there are a great many complex problems and for us to sit in a public hearing and make a decision without first discussing and having fact-finding sessions would be absurd.

Mr. Safford then made the following announcement:

Now as to news releases which have been provided heretofore; they've been developed for the benefit of the news media. However, in view of the objection which has been raised, we are going to do away with them. As of today, there will be no releases. If the news media wants any information, they can get it at the meeting of the Board. If there is no objection, then let us proceed with the meeting of the Board.

---

President Enarson expressed the appreciation and pleasure of the Board to be meeting on one of the five campuses of The Ohio State University. He indicated that later in the proceedings the Board would have an opportunity to meet a number of the people, particularly the people who serve on the Advisory Councils.

---

RESOLUTION IN MEMORIAM

President Enarson reported to the Board the death of Adolph E. Waller, Professor Emeritus in the Department of Botany. In accordance with the instructions of the Board of Trustees, copies of the following resolution expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the family of the deceased.

A. Adolph E. Waller

The Board of Trustees of The Ohio State University expresses its sorrow at the death on January 28, 1975, of Adolph E. Waller, Professor Emeritus in the Department of Botany.

Dr. Waller was born in Louisville, Kentucky, on August 24, 1892. He was educated at the Louisville Male High School where he graduated in 1911. In 1915 he received a bachelor's degree in agriculture from the University of Kentucky. He entered The Ohio State University in 1915 to pursue his graduate education in agriculture, soon transferring to botany, and received his M.S. and Ph.D. degrees in 1916 and 1918, respectively. While in graduate school, Dr. Waller participated as both a Scholar in Botany and University Fellow under the direction of Professor Transeau.

Dr. Waller was employed initially as an Assistant Agronomist in 1916 and later moved to the rank of Associate Professor of Botany and Plant Pathology. He served in this capacity and as Curator of the Botanical Garden until 1963 when he retired. He was a Visiting Instructor at the Royal Botanical Gardens, Kew, and at several American institutions.

His membership in professional societies included the Botanical Society of America, American Association for the Advancement of Science, Association of American Geographers, American Genetics Association, History of Science Society, Society of the Sigma Xi, Gamma Alpha, Ohio Academy of Science, and Ecological Society of America where he served for a time as Associate Editor of Ecology.

Dr. Waller was best known for his research on crop ecology and genetic and physiological responses of cultivated plants. He also published extensively on the life and writings of early Ohio botanists.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

March 7, 1975 meeting, Board of Trustees

President Enarson presented the following recommendations:

I. GENERAL RECOMMENDATIONS

A. Establishment of Departments Within  
the School of Architecture

At the meeting held February 11, 1975, the University Senate approved the departmentalization of the School of Architecture as previously approved by the Council on Academic Affairs.

Architecture was originally organized as a department at this University in 1906. In 1950, it was reorganized as the School of Architecture and Landscape Architecture. A graduate program in City and Regional Planning was added to the School in 1956 and the Master of City Planning degree was authorized in 1958.

It is now being proposed because of the rapid enrollment growth being experienced in recent years to organize the School into three departments-- Department of Architecture, Department of Landscape Architecture, and Department of City and Regional Planning--to achieve greater academic effectiveness as well as greater administrative efficiency. This change is to be effective July 1, 1975.

B. Establishment of Departments Within  
the School of Home Economics

At the meeting held February 11, 1975, the University Senate approved the departmentalization of the School of Home Economics as previously approved by the Council on Academic Affairs.

The School of Home Economics has been operating under an internal divisional status as a step toward departmental status since 1968. The College Executive Committee is now requesting approval for the establishment of these five divisions into departments in the belief that the future growth and development of the School can be fostered more effectively under the aegis of departmental status. The five departments being proposed are: Department of Family Relations and Human Development; Department of Home Economics Education; Department of Home Management and Housing; Department of Human Nutrition and Food Management; and Department of Textiles and Clothing. This change is to be effective July 1, 1975.

C. Emendation of Rules 28.19 and 29.2727  
of Rules for the University Faculty

At the University Senate meeting on February 11, 1975, the revision of Rules 28.19 and 29.2727 of Rules for the University Faculty was approved, with the changes to be effective immediately.

March 7, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

C. Emendation of Rules 28.19 and 29.2727  
of Rules for the University Faculty (continued)

The changes made were as follows:

Rule 28.19--Deletes the responsibility of the Committee on Rules and Senate Organization for submitting a formal report at the end of two years containing its conclusions and specific proposals.

Rule 29.2727--Changes the procedure for electing candidates for Honorary Degrees so that it is accomplished by mail rather than at a Senate meeting.

President Enarson recommended that the proposals from the University Senate for the establishment of Departments within the Schools of Architecture and Home Economics and the changes in the Rules for the University Faculty be approved by the Board of Trustees.

Upon motion of Mr. Harrod, seconded by Mr. Hilliker, the Board of Trustees approved the foregoing recommendation by unanimous voice vote.

D. Naming of Building

President Enarson recommended that the proposal made by the Director of this University's Agricultural Extension Program that the building presently known as the Southeast Ohio Area Extension Center in Noble County be named "Belle Valley Area Extension Center."

This recommendation is in accordance with the Bylaws of the Board of Trustees.

Upon motion of Mr. Dunlap, seconded by Mr. Smith, the Board of Trustees approved the above recommendation by unanimous voice vote.

E. Residence Halls Room and Board Rates and  
Rentals for North Campus Apartments

President Enarson made the following statement:

We continue to make every reasonable effort to hold down the costs in spite of the dramatic increases which we continue to experience. These increases have been particularly acute during this past year in our Residence and Dining Halls. Labor and food costs have continued to rise at a substantial rate. We anticipate that by the end of the next fiscal year utility costs will have doubled in a three-year period.

Rules for the University Faculty

28.19. Committees.

3. Committee on Rules and Senate Organization

- d. The Committee shall review the structure and operation of the University Senate. It shall receive suggestions and initiate recommendations for change, as need and advantage may appear. The Committee shall have continuing responsibility for assessing the structure, operation, and effectiveness of the Senate, without, however, in any way restricting the Senate's authority to alter its operation by other means.

- o -

29.2727. Committee on Honorary Degrees.

Section 2. (e) to keep all deliberations and votes confidential except where publication is necessary for official purposes.

Section 3. The nominations report of the Committee on Honorary Degrees shall be distributed to all members of the University Senate. The report shall be accompanied by full details concerning the qualifications of each candidate proposed, and the name of the sponsoring Department or academic unit. A ballot shall be included with the Committee report. The ballots shall be returned to the Secretary of the University Senate within a time prescribed in the Committee report, but in no case less than two weeks from the date that the Committee report is distributed. The Secretary shall transmit to the President the nominations, together with the appropriate sections of the report from the Committee on Honorary Degrees, for those candidates who are endorsed by a majority of the ballots cast by the Members of the University Senate.

I. GENERAL RECOMMENDATIONS (continued)

E. Residence Halls Room and Board Rates and Rentals for North Campus Apartments (continued)

President Enarson's statement (continued)

In an effort to offset some of these costs and at the same time provide resident facilities which are conducive to the educational and social development of our students, numerous efficiencies and economies have been implemented both in the personnel and the operating budgets. Through these efforts we have been able to limit the increases which must be passed on to the students utilizing these services. In spite of these efforts, however, I regret to say it is necessary to recommend that the basic room rates for this coming year be increased: for the undergraduate dorms an increase of \$30 per quarter, bringing the rate to \$488 per quarter which represents a 6.6 per cent increase in cost; graduate and professional housing increases range from 2.5 per cent to 8.0 per cent; in apartment housing from 1.6 per cent to 9.7 per cent; and for Stadium Scholarship Dormitory an increase of \$30 per quarter which is the same as undergraduate halls.

President Enarson recommended that the rate structures which are attached for the Residence and Dining Halls and the North Campus Apartments be adopted.

Upon motion of Mr. Devenow, seconded by Mr. Hilliker, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

D. The Ohio State University Development Fund (continued)

2. Establishment of Named Funds (continued)

- a. Fred A. Hitchcock Professorship in Environmental Physiology Fund (continued)

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be added to principal until such time as sufficient money is available to establish the Fred A. Hitchcock Professorship in Environmental Physiology. It is anticipated that additional funds will be forthcoming at Dr. Hitchcock's demise to fully fund the Professorship.

Should the need for this faculty position cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for environmental physiology.

- b. \$5,000.00 from Wilhelmina S. Kinsey for the establishment of The Slaymaker-Kinsey Memorial Scholarship Trust Fund.

The Slaymaker-Kinsey Memorial Scholarship Trust Fund

The Slaymaker-Kinsey Memorial Scholarship Trust Fund was established March 7, 1975, by the Board of Trustees of The Ohio State University with a gift of \$5,000 to The Ohio State University Development Fund from Wilhelmina S. Kinsey, B.S. Ed. '16, B.A. '18, M.A. '34, of Columbus, Ohio. It is Mrs. Kinsey's intention that additional funds be added to the memorial fund by means of a bequest at her demise and/or by further gifts during her life.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates. The principal sum is to remain intact at all times.

The annual income is to be used to provide one or more scholarships of approximately \$200 each for undergraduate and/or graduate students who have demonstrated excellent ability during at least two quarters in the University. The selection of the recipient is to be made upon the recommendation of the University Scholarship Committee. Preference is to be given to women students enrolled in the College of Education.

2. Establishment of Named Funds (continued)

- c. \$5,000.00 from Pauline C. Wittwer for the establishment of the Pauline C. Wittwer Graduate Fellowship in Dentistry.

Pauline C. Wittwer Graduate Fellowship in Dentistry

The Pauline C. Wittwer Graduate Fellowship in Dentistry was established March 7, 1975, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Pauline C. Wittwer, B.S. Ed. '26, of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide one or more graduate fellowships in the College of Dentistry for individuals who have expressed a preference for teaching as a career and have demonstrated a need for financial assistance. The selection of the recipient is to be made upon the recommendation of the Chairman of the College of Dentistry Graduate Committee with the approval of the Dean of the College of Dentistry.

Should the need for these graduate fellowships cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for dental education.

IV. BUSINESS AND ADMINISTRATION

A. Plans and Specifications

At the request of the Vice President for Business and Administration, President Enarson recommended that the plans and specifications, bills of materials, and estimates of cost for the following projects be approved by the Board of Trustees:

1. Lincoln Tower Alterations

This project will be the conversion of Lincoln Tower from residential to a combination of residential and office use.

March 7, 1975 meeting, Board of Trustees

IV. BUSINESS AND ADMINISTRATION (continued)

A. Plans and Specifications (continued)

1. Lincoln Tower Alterations (continued)

The upper nine floors will be retained for residential operations. This is a logical break due to the nature of the elevator banks. The residential control will be relocated on the 15th floor.

Work on the first three floors will involve considerable remodeling to accommodate the relation of the combined services facility including, University Systems Operations, Admissions, Director of Records, Bursar, I. D. Center, Traffic and Parking, Student Financial Aids, Part-Time and Evening Programs.

The basic objectives of these lower floors is to establish a "one-stop concept" for the students by consolidating central administrative functions which are involved as a student prepares for a coming school year, e.g., admission, class scheduling, fees, financial assistance, I. D., parking permission, lodging and food services.

Floors four through fourteen will be assigned to various University departments on an "as is" basis with the exception of work required by bringing the building up to present codes as required by the change in occupancy.

Funds are budgeted in H. B. 985, Item 315-074 (Utilities and Renovation).

2. Recreation, Physical Education, Intramural Facilities - Central Facility

This project will provide expanded recreation, physical education and intramural facilities attached to the existing Physical Education Building and will provide remodeling of the existing locker-shower rooms.

The new construction will contain approximately 173,226 square feet of floor space. It will contain four gymnasiums, men's and women's conditioning areas, 20 handball courts, a multi-purpose area, a classroom, a conference room, a lounge, and offices along with the necessary supporting and service areas.

In addition to the above, the facility will include a 50-meter pool and a diving pool. Remodeling includes locker-shower areas for men and women on two separate floors which will contain 22,000 square feet of floor space.

A fifth gymnasium for men's and women's gymnastics containing 12,000 square feet of floor space will be considered as an add alternate.

IV. BUSINESS AND ADMINISTRATION (continued)

A. Plans and Specifications (continued)

2. Recreation, Physical Education, Intramural Facilities - Central Facility (continued)

Since the building will extend over a number of existing tennis courts, plans have been made for their replacement by separate contract which will be funded from this project.

Funds are budgeted in H. B. 985, Item 315-081 (Recreation, Physical Education, Intramural Facilities), and gifts.

3. Brown Hall--Installation of New Elevator

This project will provide for the construction of an exterior elevator in a new masonry elevator shaft with elevator equipment room adjoining the east side of the north wing of the building. There is no elevator in this building at the present time. In order to make the building accessible to handicapped people, it is necessary to provide an elevator.

Funds are budgeted in H. B. 985, Item 315-074 (Utilities and Renovation).

4. Masonry Repairs--Exterior, 1975

This project will provide necessary maintenance to the exteriors of Brown Hall, Animal Science, Caldwell Laboratory, and Stillman Hall. Work will consist of the repair of defective masonry joints, placement of sealants and waterproofing of surfaces. Alternate quotations will be solicited for similar work in other major campus buildings.

Funds are budgeted in H. B. 985, Item 315-074 (Utilities and Renovation).

5. Hamilton Hall Electric Service

This project will provide for the construction of underground manholes and conduits and installation of 15 KV power cables to provide for adequate power supply to the building.

Funds are budgeted in H. B. 985, Item 315-074 (Utilities and Renovation).

6. Tunnel Repairs, North Central Campus

This project will provide for the repair of a deteriorated section of tunnel (adjacent to 18th Avenue), extending to Arps Parking Lot. The walls are out of alignment and structural failure could occur. Temporary shoring has been installed until permanent repairs can be made. An alternate quotation will be solicited for similar work in the 19th Avenue tunnel.

March 7, 1975 meeting, Board of Trustees

IV. BUSINESS AND ADMINISTRATION (continued)

A. Plans and Specifications (continued)

6. Tunnel Repairs, North Central Campus (continued)

Funds are budgeted in H. B. 985, Item 315-074 (Utilities and Renovation).

Upon motion of Mr. Harrod, seconded by Dr. Sirak, the above recommendations were approved by unanimous roll call vote, and the Secretary was authorized and directed to sign the plans and specifications for the above projects for and on behalf of the Board of Trustees. The Vice President for Business and Administration was directed to proceed with a request for bids in the normal University manner, and if satisfactory bids are received to proceed with the award of contracts. All action regarding this matter will be reported to the Board of Trustees at a later meeting.

V. REPORT

A. Report on the University's Investment Portfolio

The report dated March 7, 1975, as submitted to the Finance Committee of the Board of Trustees by Mr. Ernest W. Leggett pertaining to the University's Investment Portfolio, was received and ordered to be filed with the official records of the Board of Trustees.

\*

\*

\*

Mrs. James asked Dr. Armitage about his reorganization plan for the Office of Student Services.

Dr. Armitage responded that the nature of student services has required change over the years from the concept of a Dean of Men and Dean of Women followed by the concept of a Dean of Students' Office to a more mission-oriented organizational structure. After studying the duties performed by the various areas under his jurisdiction, many duplications of effort were found. The reorganization proposed would assist in eliminating these duplications.

RESOLUTIONS IN MEMORIAM

President Enarson reported to the Board the deaths of Roderick D. Barden, Professor Emeritus in the Department of Agricultural Engineering; Carl O. Boucher, Professor in the College of Dentistry; Wencel J. Kostir, Professor Emeritus in the Department of Zoology; and Mary Louise Mark, Professor Emeritus in the School of Social Work. In accordance with the instructions of the Board of Trustees, copies of the following resolutions expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the families of the deceased.

A. Roderick D. Barden

The Board of Trustees of The Ohio State University expresses its sorrow at the death on March 22, 1975, of Roderick D. Barden, Professor Emeritus in the Department of Agricultural Engineering.

Professor Barden was born near Shreve, Ohio, on March 26, 1900. He was educated at the Wooster High School where he was graduated in 1919. In 1923 he received his Bachelor of Science in Agriculture degree and in 1938 his Master of Science degree from The Ohio State University.

Professor Barden was initially employed as an Extension Agricultural Engineer in 1924 and moved to the rank of Professor of Agricultural Engineering. He served as Acting Director of the School of Aviation and Acting Director of Don Scott Field from 1951 to 1955. At that time he became Chairman of the Department of Agricultural Engineering serving in that capacity until his retirement in 1960.

His membership in professional societies included the American Society of Agricultural Engineers and the American Society for Engineering Education. He also was a member of Alpha Zeta, Scabbard and Blade, Gamma Sigma Delta, and was made a State Farmer in 1946.

Professor Barden was best known for his outstanding ability as a teacher, receiving the Professor of the Year Award from the College of Agriculture in 1955. He served on several University groups including the Faculty Council, the Conference Committee of the Teaching Staff, and the Athletic Council. He had a special interest in the application of airplanes to agricultural practices and conducted research programs in the development, application, and testing phases of the agricultural airplane.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

April 4, 1975 meeting, Board of Trustees

RESOLUTIONS IN MEMORIAM (continued)

B. Carl O. Boucher

The Board of Trustees of The Ohio State University expresses its sorrow at the death on March 11, 1975, of Carl O. Boucher, Professor in the College of Dentistry.

Dr. Boucher received his D.D.S. degree from The Ohio State University in 1927 and entered private practice the same year. In 1928 he joined the faculty at The Ohio State University College of Dentistry. He was Chairman of the Section of Prosthodontics and Chairman of the Division of Dental Laboratory Technology, during his 47 years of service.

Dr. Boucher was past president of the Columbus Dental Society and the Ohio Dental Association. He was a member of the American Dental Association, International Association of Dental Research, American Association for Advancement of Science, Federation Dentaire Internationale, American Association of Dental Editors, Pierre Fauchard Academy, Academy of Denture Prosthetics, American Prosthodontic Society, American Board of Prosthodontics, American Association of Cleft Palate Rehabilitation, American Equilibration Society, American Association of Dental Schools, Ohio State Dental Care Corporation, Federation of Prosthodontic Organizations, and American College of Dentists. He was an honorary member of Nebraska State Dental Association, Florida State Dental Association, Milwaukee Dental Forum, Pacific Coast Society of Prosthodontics, Southeastern Academy of Prosthodontics, Academia Brasileira de Odontologia, American Dental Society of Europe, and American Academy of Maxillo-facial Prosthetics. He was elected to honorary membership in the Dental Association of South Africa and was also made an honorary member of the Prosthodontic Society of South Africa. Dr. Boucher was selected by the Federation Dentaire Internationale to receive the Georges Villain International Prize for outstanding work in prosthodontics.

Dr. Boucher served as Editor of the Ohio Dental Journal and of the Journal for Prosthetic Dentistry. He was the author of two textbooks, Glossary of Clinical Dental Terminology and Swenson's Complete Denture Prosthodontics. He was active in Theta Chapter of Omicron Kappa Upsilon and was a past Supreme Grand Master of Psi Omega, professional dental fraternity.

He was honorary president of the Carl O. Boucher Prosthodontic Conference which was formed in his honor by his former students in 1966.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

April 4, 1975 meeting, Board of Trustees

RESOLUTIONS IN MEMORIAM (continued)

C. Wencel J. Kostir

The Board of Trustees of The Ohio State University expresses its sorrow at the death on March 11, 1975, of Wencel J. Kostir, Professor Emeritus in the Department of Zoology.

Professor Kostir was born in Cleveland, Ohio, on September 28, 1886. He worked as a printer from 1901 to 1907, attended Baldwin-Wallace College, and returned to work as a printer from 1909 to 1910. Professor Kostir attended The Ohio State University and received his Bachelor of Arts degree in 1912 and his Master of Arts degree in 1913, where he was elected to Phi Beta Kappa.

Professor Kostir was first employed at The Ohio State University as an Instructor in 1913. During the summers of 1917 and 1918 he was Instructor at the Marine Biology Laboratory, and in 1921-22 he was an Assistant Instructor at Columbia University. He returned to The Ohio State University October 1, 1923 as Assistant Professor. He was made Associate Professor in 1926, Professor in 1945, and he retired in 1957.

His membership in professional societies included the Sigma Xi, Ohio Academy of Science, American Society of Protozoologists, American Microscopical Society, and American Association for Advancement of Science.

Professor Kostir published numerous highly regarded scientific papers in the Ohio Journal of Science, Transactions of the American Microscopical Society, Journal of Experimental Zoology, and others. He was co-author of a Laboratory Guide in Zoology.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

D. Mary Louise Mark

The Board of Trustees of The Ohio State University expresses its sorrow at the death on March 18, 1975, of Mary Louise Mark, Professor Emeritus in the School of Social Work.

Professor Mark was born January 6, 1878, in Scioto County, Ohio, where her father served as pastor for several Methodist Churches. She took preparatory work at Ohio University in 1898 and received her B. A. degree from The Ohio State University in 1903. In 1907 she was awarded her Master's degree from Columbia University.

RESOLUTIONS IN MEMORIAM (continued)

D. Mary Louise Mark (continued)

Throughout her career, Professor Mark was an innovator in survey research. Her first position was with Theodore Roosevelt's Immigration Commission where she pioneered in surveys of the living conditions of immigrants in New York City. In 1911 she edited the first mortality report of the U. S. Bureau of the Census. The following year she went to the U. S. Bureau of Labor where she developed methods for collecting data for the indexes of consumer prices. In 1913 she returned to Ohio to develop a reporting system for morbidity statistics.

Professor Mark joined The Ohio State University faculty in 1914 as an Assistant in economics and sociology, was appointed Instructor in 1915, Assistant Professor in 1918, and Professor in 1923. She taught primarily in the areas of survey methods and statistics and emphasized field experience in the learning tasks. She was one of the founding faculty of what is now the College of Administrative Science and the School of Social Work and participated in the development of degree programs at all levels. She took leave in 1927 for a survey of Indian affairs, visiting all major Indian reservations. She became Professor Emeritus in 1943 but taught research methodology (part time) in business organization during World War II.

Professor Mark served the Columbus community well. She and her students made early studies of housing, unemployment, leisure-time needs, Negroes, and delinquency in Columbus. She authored numerous reports of her various research activities and a textbook, Statistics in the Making. Her honors included: Phi Beta Kappa; Centennial Award (College of Administrative Science); Life Member of Board of Gladden Community House; Fellow, Royal Statistical Society; President, Columbus Chapter, American Statistical Association.

On behalf of The Ohio State University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as a sincere expression of the Board's realization of the loss which the family and the University have sustained.

Stephenson, deceased, late of Grosse Pointe Woods, Michigan.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income and/or principal is to be used for scholarship house purposes.

If, under the conditions existing at the time of payment of the bequest, it appears that such use would be unnecessary or inappropriate to the purposes and objectives of the Development Fund, this bequest may be applied to other purposes of the Fund, with preference to scholarships for deserving students of the University.

- b. \$10,232.00 from friends and colleagues of Samuel Saslaw for the establishment of The Samuel Saslaw Endowment Fund.

The Samuel Saslaw Endowment Fund

The Samuel Saslaw Endowment Fund was established April 4, 1975, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from friends and colleagues in memory of Samuel Saslaw, Ph. D. '42, M. D. '46.

All gifts are to be invested in the University's Permanent Endowment under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

(continued)

D. The Ohio State University Development Fund (continued)

2. Establishment of Named Funds (continued)

b. The Samuel Saslaw Endowment Fund (continued)

The annual income is to be used to support continuing medical education programs, lectureships in infectious diseases and an endowed professorship or faculty chair if sufficient gifts are received. Requests for expenditure of funds will be initiated and approved by the dean of the College of Medicine.

Should the need for these funds cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is directly responsible for medical education.

IV. BUSINESS AND ADMINISTRATION

A. Plans and Specifications

At the request of the Vice President for Business and Administration, President Enarson recommended that the plans and specifications, bills of material and estimates of cost for the following projects be approved by the Board of Trustees:

1. Tunnel Repairs and Sidewalk Extension - Oval

This project will provide for the repair of two deteriorated sections of tunnel and extend the width of the concrete sidewalk. The sidewalk will be of aggregate (exposed) to distinguish location from North Oval to South Oval to facilitate travel of blind students.

Funds are budgeted in Budget Account 126070 (Contract Repair).

2. Watts Hall, Repairs and Modifications to Ventilation Systems

This project will include heating modifications and installation of devices and material as required to comply with the present Ohio Building Code requirements, and an improvement will be made in the air circulation systems. Also the fire safety will be updated by provision of fire dampers, fire-stats, and smoke detectors.

April 4, 1975 meeting, Board of Trustees

IV. BUSINESS AND ADMINISTRATION (continued)

A. Plans and Specifications (continued)

2. Watts Hall, Repairs and Modifications to Ventilation Systems (continued)

Funds are budgeted in Budget Account 126070 (Contract Repair).

Upon motion of Mr. Devenow, seconded by Mr. Gushman, the above recommendations were approved by unanimous roll call vote, and the Secretary was authorized and directed to sign the plans and specifications for the above projects for and on behalf of the Board of Trustees. The Vice President for Business and Administration was directed to proceed with the request for bids in the normal University manner, and if satisfactory bids are received to proceed with the award of contracts. All action regarding this matter will be reported to the Board of Trustees at a later meeting.

B. Report of Award of Contracts

In accordance with authorization provided by the Board of Trustees, bids were taken on the projects listed below and the contracts were recommended for award. The action reported to the Board was as follows:

C. Other

1. Pipeline Easement - Mansfield Regional Campus

The University has received a request from the Cyclops Corporation for a fifteen-foot easement across University land at The Ohio State University's Mansfield Regional Campus. The purpose of this easement is to install a four-inch privately owned natural gas pipeline to service the Empire-Detroit Steel Division in Mansfield. The length of pipeline on University property is 7,889.37 feet.

It was recommended that the President and/or Vice President for Business and Administration be authorized to negotiate this easement at a fair market value, and request the Director of Administrative Services Division, pursuant to his statutory duties, to act on behalf of the University in developing the legal instruments providing a fifteen-year easement to the Cyclops Corporation.

Upon motion of Mr. Dunlap, seconded by Mr. Hilliker, the above recommendation was approved by unanimous roll call vote.

V. REPORTS

A. Report on Action Taken by Ohio Board of Regents

President Enarson reported that the Ohio Board of Regents at its meeting on February 21, 1975, approved the

Awarding of the Bachelor of Science in Surveying degree by The Ohio State University.

B. Report of Auditor of State - The Ohio State University Hospitals

Mr. Devenow presented the following report on behalf of the Finance Committee:

The Report of the Auditor of State for The Ohio State University Hospitals for the period July 1, 1972 through June 30, 1974, has been received and reviewed by the appropriate officers of the University.

The accounts, records, files and reports of The Ohio State University Hospitals were found to be in order but some procedural changes were suggested to improve the accounting system.

It is recommended that this Report of the Auditor of State be received and filed with the official documents of the University.

Upon motion of Mr. Devenow, seconded by Mr. Harrod, the foregoing report was accepted by unanimous voice vote.

C. Report from the Insurance Committee

Dr. Sirak, on behalf of the Insurance Committee, recommended:

That the current Personal Property Policy which provides up to \$1,250.00 coverage for each claim or loss, with a \$250.00 deductible, for all students residing in University dormitories, be awarded to the United States Fire Insurance Company, through the Atkinson-Dauksch Agencies, Inc., for a three-year period at a premium of \$5,043.00. The current policy expires May 8 of this year.

C. Report from the Insurance Committee (continued)

The Committee also recommended

That the current Public Officials Bond, providing coverage of \$500,000.00 for the Treasurer of the University for the faithful performance of his duties, be awarded to the Lumbermen's Mutual Casualty Co., through the Lumbermen's Mutual Insurance Agency, Inc., for a five-year period at a premium of \$2,030.00. The current policy expires May 14 of this year.

These recommendations were made after reviewing the analysis of bid documents provided by the Office of Business and Administration.

Upon motion of Dr. Sirak, seconded by Mr. Devenow, the Board of Trustees approved the foregoing recommendations by unanimous roll call vote.

D. Report on the University's Investment Portfolio

The report dated April 3, 1975, as submitted to the Finance Committee of the Board of Trustees by Mr. Ernest W. Leggett pertaining to the University's Investment Portfolio, was received and ordered to be filed with the official records of the Board of Trustees.

RESOLUTIONS IN MEMORIAM

President Enarson reported to the Board the deaths of Harry M. Beatty, Assistant Professor Emeritus in the Department of Mathematics, and Sylvester S. Humphrey, Instructor Emeritus in the Department of Botany. In accordance with the instructions of the Board of Trustees, copies of the following resolutions expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the families of the deceased.

A. Harry M. Beatty

The Board of Trustees of The Ohio State University expresses its sorrow at the death on March 20, 1975, of Harry M. Beatty, Assistant Professor Emeritus in the Department of Mathematics.

Harry M. Beatty was born in 1883. He received his B.A. degree from Ohio Wesleyan University in 1908 and his M.A. degree from The Ohio State University in 1917.

Professor Beatty served as Superintendent of Schools in Fayette County from 1908 to 1911. He was a mathematics and science teacher in Newark High School from 1911 to 1917. He served as Principal of Urbana High School in 1917. In 1918 he came to Ohio State as an Instructor and was promoted to the rank of Assistant Professor in 1920. He resigned his position at Ohio State on June 30, 1953 and was awarded the status of Assistant Professor Emeritus.

A charter member of the Mathematics Association of America, he served as Regional Governor during the year 1946.

RESOLUTIONS IN MEMORIAM (continued)

A. Harry M. Beatty (continued)

In addition to serving the department as a teacher, Professor Beatty served as Director of Elementary Math Instruction and supervised the placement tests. He served on several departmental committees and was Chairman of the Staff Committee in 1944.

Professor Beatty worked for the State Teachers Retirement System during his retirement years.

On behalf of the University Community, the Board of Trustees expresses to the family of Professor Beatty its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as sincere appreciation of the Board's realization of the loss which the family, the University, and his many friends and associates have sustained.

B. Sylvester S. Humphrey

The Board of Trustees of The Ohio State University expresses its sorrow at the death on April 10, 1975, of Sylvester S. Humphrey, Instructor Emeritus in the Department of Botany.

Mr. Humphrey was born October 1, 1894. He received a B.S. degree from The Ohio State University in 1921 and a M.S. degree in 1923.

Mr. Humphrey was initially employed as a Student Assistant and Graduate Assistant in the Department of Botany, and later moved to the rank of Instructor of Botany. During several summers he was employed by the United States Department of Agriculture as a Field Assistant involved in several of the plant disease control programs.

His memberships in professional societies and honors included Sigma Xi, Ohio Academy of Science, and American Association for the Advancement of Science, where he served as Fellow.

Mr. Humphrey was a dedicated teacher and sincere friend of students. His teaching duties involved General Botany, Local Flora, Plant Pathology, and Mycology. His office was not only a place for students to obtain additional academic information, but moreover, served as a source of sound and compassionate advice of all types sought by students.

Mr. Humphrey was best known for his research on fungal diseases of plants and their potential for control. His interests also included the morphology and taxonomy of various fungi, and the vascular plants of Ohio.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

President Enarson presented the following recommendations:

I. GENERAL RECOMMENDATIONS

A. Revision of Rules 21.01, 21.05, and 21.07, and the Addition of New Rule 21.08 of Rules of the University Faculty

At the University Senate meeting on April 8, 1975, the following revisions of Rules 21.01, 21.05, and 21.07, and the addition of Rule 21.08 of Rules of the University Faculty were approved.

Rule 21.01 (Academic Freedom and Responsibility)  
Redefines with more specificity the statement on academic freedom and responsibility.

Rule 21.05 (Election of Staff; Tenure)  
Clarifies University policy on tenure, specifying that only regular faculty are eligible.

Rule 21.07 (Hearing Procedures for Complaints Against Regular and Auxiliary Faculty Members)  
Spells out in much more detail the procedure for the disposition of charges against faculty members. These charges will fall into three categories: the failure to meet University responsibilities, proved incompetence, and grave misconduct.

In the case of alleged failure to meet University responsibilities, the procedure moves from the Department to the Dean, who may appoint a hearing committee from within the College to review the matter if he thinks the charges may have merit. The maximum sanction which can be imposed is a recorded censure. Should the Dean determine that such censure is in order, the matter can be appealed to the Provost, who in turn will refer it to the newly created University Faculty Hearing Committee. That body will again hear the charges and make a recommendation back to the Provost. The decision of the Provost is final.

In the case of alleged incompetence or grave misconduct, the procedure goes somewhat further. Should the Department Chairman, Dean and Provost believe that the charges have merit, the Faculty Hearing Committee conducts a formal hearing. Their recommendation then is presented to the President. The President in turn makes a recommendation to the Board of Trustees if he supports the termination of the faculty member. The Board has the final determination, and its discretion is not bound by the previous recommendations.

The faculty member does have the right to appear before the Board and present a written or an oral statement when a recommendation to terminate is being considered.

I. GENERAL RECOMMENDATIONS (continued)

A. Revision of Rules 21.01, 21.05, and 21.07, and the Addition of New Rule 21.08 of Rules of the University Faculty (continued)

Rule 21.08 (Procedures Concerning Faculty Complaints About Promotion, Tenure and Renewal Decisions)

Provides a grievance procedure for faculty who wish to question decisions regarding promotions, tenure or the nonrenewal of probationary appointments. Given the increasing number of difficult decisions to be made in these matters, providing a fair mechanism for such review is essential.

It is clear under the rule that the substantive academic judgments which have gone into these decisions are not open to challenge. The grievance procedure only reviews whether the evidence was fairly considered and whether the decision was based on any improper (unconstitutional) considerations.

The procedure moves through channels, with a hearing provided before the Faculty Hearing Committee at the Provost's level. The decisions are appealable to the President, whose authority is final.

President Enarson recommended that these revisions of Rules 21.01, 21.05, and 21.07, and the addition of new Rule 21.08 be approved by this Board.

Upon motion of Dr. Sirak, seconded by Mr. Harrod, the foregoing recommendation was approved by unanimous voice vote.

B. Degrees and Certificates Conferred--Spring Quarter Commencement

President Enarson recommended that degrees and certificates be conferred at the Spring Quarter Commencement Convocation on June 13, 1975, to those students who have completed the requirements for their respective degrees and certificates and are recommended by the University Senate. The names of those awarded degrees and certificates will be included in the minutes of this meeting. (See Appendix IV, page 513.)

C. Honorary Degrees

Pursuant to Section 3, Rule 11.05, of Rules of the University Faculty and after consultation with the Steering Committee of the University Senate, President Enarson recommended that an honorary degree be awarded to

William B. Saxbe, United States  
Ambassador to India

Doctor of Laws

## Rules of the University Faculty

### 21.01. Academic Freedom and Responsibility.\*

Section 1. The Ohio State University endorses full academic freedom as essential to attain the goal of the free search for truth and its free exposition. Academic freedom and academic responsibility are twin guardians of the integrity of institutions of higher learning. This integrity is essential to the preservation of a free society and explains the willingness of society historically to accept the concept of academic freedom and, in addition, to protect it through the institution of academic tenure.

Section 2. The principal elements of academic freedom include:

- (a) the freedom of the teacher to teach, conduct research and publish research findings;
- (b) the freedom of the teacher to discuss in a classroom, in his own manner, any material that is relevant to the subject matter as defined in the course objectives;
- (c) the freedom of the teacher to exercise his constitutional rights as a citizen without institutional censorship or discipline;
- (d) the freedom to seek changes in academic and institutional policies through lawful and peaceful means.

Section 3. Academic freedom carries with it correlative academic responsibilities. The principal elements include:

- (a) the responsibility of the teacher to meet his defined teaching, research and service obligations;
- (b) the responsibility of the teacher to pursue excellence, intellectual honesty, and objectivity in teaching, in conducting research, and in publishing research findings;
- (c) the responsibility of the teacher to encourage students and colleagues to engage in free discussion and inquiry;
- (d) the responsibility of the teacher to evaluate student and colleague performance on a scholarly basis;
- (e) the responsibility of the teacher to refrain from persistently introducing matters that have no bearing on the subject matter of the course;
- (f) the responsibility of the teacher to work with appropriate individuals and bodies to provide optimal conditions conducive to the attainment of the free search for truth and its free exposition;
- (g) the responsibility of the teacher to differentiate carefully his official activities as a teacher from his personal activities as a citizen, and to act accordingly.

## Rules of the University Faculty (continued)

### 21.05. Election of Faculty and Staff; Tenure.\*

The Board of Trustees shall annually appoint the President, and all employees of the University not in the classified civil service, subject to the laws of the State of Ohio and, in the case of regular faculty, to the rights and protection of tenure. Tenure may be earned by all teachers with regular faculty status subject to a probationary period. Regular faculty status does not include Adjunct, Clinical, Visiting, or Lecturer appointments, or part-time service (less than 50 percent total service to the University as specified in the Notice of Appointment). Tenure is lost by formal resignation, by retirement, or may be terminated by reason of proved incompetence or grave misconduct in accordance with Rule 21.07 or for causes set forth in Rule 21.03.

- o -

### 21.07. Hearing Procedures for Complaints Against Regular and Auxiliary Faculty Members.

#### A. Definitions and Construction

1. This rule shall apply only to complaints against regular and auxiliary faculty members.
2. At all stages in proceedings under this rule Department Chairmen, Deans, or the Provost will attempt, through the use of informal consultation, to resolve complaints to their satisfaction and that of the Complainant, and the faculty member against whom the Complaint is made (hereinafter "Respondent").
3. Department Chairmen, Deans, or the Provost shall not act in their administrative capacities in the consideration of any Complaint naming them as Respondent. In Complaints naming a Department Chairman or a Dean as Respondent, the Provost shall appoint an equivalent rank administrator from another Department or College to act in the stead of the Chairman or Dean for the purposes of Rule 21.07 review. In Complaints naming the Provost as Respondent, the Chairman of the Faculty Hearing Committee shall act in his stead.
4. The Faculty Hearing Committee shall be composed of six members of the regular faculty, elected by the University Senate initially from a slate of no fewer than 12 persons nominated by the Steering Committee of the University Senate. Three members shall be elected for a two-year term and three for a one-year term. Each year thereafter, to replace members whose terms expire, three members shall be elected for a two-year term from a slate of no fewer than six persons.
  - a. The Faculty Hearing Committee shall elect its own Chairman, who shall select three members of the Committee to sit on each Hearing Panel.

---

\*Rule initiated by Board of Trustees.

Rules of the University Faculty (continued)

21.07. Hearing Procedures for Complaints Against Regular and Auxiliary Faculty Members. (continued)

- b. A member of the Faculty Hearing Committee shall disqualify himself from serving on any Hearing Panel when he believes that his relationship to one of the parties involved or his prior involvement with the issues would prejudice his judgment.
  - c. A Hearing Panel shall select a person, who need not be a member of the Faculty Hearing Committee, to serve as presiding officer. The presiding officer shall direct the proceedings, rule on matters involving the introduction of evidence, and advise the Panel members on such issues of law and procedure as they may deem necessary. The presiding officer, if not a member of the Panel, shall not, however, be permitted to participate in substantive deliberations with the Panel or to vote on decisions by the Panel.
5. Records of proceedings under this rule shall be kept only in the Administrative Office wherein the proceedings terminate. With written permission of the Respondent, such records shall be open to inspection by the Ombudsman, but may be inspected by others only with the written permission of the Respondent and the administrative officer in charge of the office wherein the records in question are kept.
  6. Alleged incompetence shall be judged by reference to the qualities and conditions under which tenure is customarily established at this University, to wit: Competence with respect to teaching, service, and research. Accordingly, incompetence shall refer to a faculty member's failure to meet his defined teaching, service, and research obligations. However, physical or mental disability resulting in failure of performance shall be dealt with through administrative procedures requiring medical certification, which, in turn, may lead to a change of duties or to retirement.
  7. Complaints alleging grave misconduct shall refer only to activities that, if proved, seriously impair a faculty member's effectiveness in meeting his defined teaching, service, and research obligations.
  8. The designation Department Chairman in this rule includes Academic Faculty Chairman, Division Chairman, and School Director.

B. Initial Proceedings

1. The Complaint shall be set forth in writing, and a copy furnished to the Respondent. Only charges thus set forth upon initiation of the Complaint shall be considered at the several stages of deliberation.
  - a. The Complaint shall indicate whether the charge is (a) Incompetence or grave misconduct; or (b) Failure to meet University responsibilities, which failure is not alleged to constitute incompetence or grave misconduct.

Rules of the University Faculty (continued)

21.07. Hearing Procedures for Complaints Against Regular and Auxiliary Faculty Members. (continued)

- b. Standing as Complainant shall be limited to the following classes of persons: The University Faculty, Students, Post-doctoral Fellows, and Post-professional Fellows.
  - c. The Complaint shall be composed by, or directed to, the Department Chairman of the department of which the Respondent is a member.
  - d. The burden of going forward and the burden of proof shall be with the Complainant.
2. The Department Chairman shall review the Complaint and evidence relating to it, including evidence on behalf of the Respondent, to determine whether reasonable and adequate grounds exist to support the Complaint.
- a. A decision by the Department Chairman that no reasonable and adequate grounds exist to support the Complaint shall be communicated in writing to the Complainant and the Respondent. Such a decision may be appealed by the Complainant to the Dean of the College in which the Complaint was initially filed.
  - b. If reasonable and adequate grounds are determined to exist to support the Complaint, the Department Chairman shall refer the Complaint to the Dean of the College.

C. College Proceedings

Complaints referred to the Dean of the College by a Department Chairman, or appealed to the Dean by a Complainant, shall be reviewed by the Dean who will determine whether reasonable and adequate grounds to support the Complaint have been established.

1. Complaints alleging failure to meet University responsibilities when such failures are not alleged to constitute incompetence or grave misconduct.
  - a. If no reasonable and adequate grounds are found to support the Complaint, the Dean shall dismiss the Complaint and communicate this disposition in writing to the Complainant, the Respondent, and the Department Chairman.
  - b. If reasonable and adequate grounds are found to support the Complaint, the Dean shall establish a College Hearing Committee consisting of no fewer than three faculty members from within the College but from outside the Respondent's department.

Rules of the University Faculty (continued)

21.07. Hearing Procedures for Complaints Against Regular and Auxiliary Faculty Members. (continued)

- c. The College Hearing Committee shall review the Complaint, hear relevant testimony, including testimony from both the Complainant and the Respondent, and determine the accuracy and sufficiency of the Complaint.
- d. The College Hearing Committee shall transmit its findings in writing to the Complainant, Respondent, and Dean.
- e. Upon receipt of the written findings of the College Hearing Committee, the Dean shall consider them in connection with the nature of the offense and its circumstances and select one of the following sanctions:
  - (1) Dismiss the Complaint, if such is the recommendation of the College Hearing Committee.
  - (2) Direct that an oral warning and reprimand be administered by the Department Chairman.
  - (3) Administer a written record of censure.
- f. The Complainant may take no appeal from these proceedings. The Respondent shall have the right of appeal to the Provost from either the findings of the College Hearing Committee or the sanction imposed by the Dean.

2. Complaints alleging incompetence or grave misconduct.

- a. If no reasonable and adequate grounds are found to support the Complaint, the Dean shall dismiss the Complaint and communicate this disposition in writing to the Complainant, Respondent, and Department Chairman. A decision to dismiss the Complaint may be appealed to the Provost.
- b. If reasonable and adequate grounds are found to support the Complaint, the Dean shall refer the matter to the Provost.

D. The Provost

- 1. Appeals to the Provost by a Respondent from the findings of a College Hearing Committee or the sanction imposed by a Dean in response to a Complaint alleging failure to meet University responsibilities, shall be dealt with by the Provost in accord with the following procedures:
  - a. Upon receiving such an appeal, the Provost shall invoke the procedures contained in Section E, subsections 1 through 5, inclusive, of this rule. In such appeals, the Dean shall function as Prosecutor and the Hearing Panel shall report its findings of fact and its judgment as to the appropriateness of the imposed sanctions to the Provost and to the Respondent.

Rules of the University Faculty (continued)

21.07. Hearing Procedures for Complaints Against Regular and Auxiliary Faculty Members. (continued)

- b. Upon receiving the report of the Hearing Panel, the Provost may
  - (1) sustain the sanction
  - (2) impose a lesser sanction, or
  - (3) dismiss the Complaint and direct that the record be expunged.
- c. The Provost shall communicate in writing his disposition of the appeal to the Respondent, Complainant, and Dean. No appeal may be taken from the actions of the Provost.

2. Complaints alleging incompetence or grave misconduct, referred to or appealed to the Provost by a Dean or a Complainant, shall be reviewed by the Provost to determine whether reasonable and adequate grounds have been established to support the Complaint.

- a. If it is determined that reasonable and adequate grounds have not been established to support the Complaint, the Provost shall dismiss the Complaint and communicate this disposition in writing to the Complainant, Respondent, Dean and Department Chairman. No appeal may be taken from such a dismissal by the Provost.
- b. If a determination is made that reasonable and adequate grounds have been established to support the Complaint, the Provost shall transmit a written notice of the specific charges to the Faculty Hearing Committee, Respondent, and Complainant. In proceedings before a Hearing Panel involving Complaints alleging incompetence or grave misconduct, the burden of going forward, the burden of proof, and the responsibility for prosecuting the charge shall be with the Provost. The Provost may be represented in such proceedings by a designee.

E. The Faculty Hearing Committee

- 1. Within 30 days of receipt from the Provost of charges against a Respondent, or of an appeal from a Respondent as provided for in Section D (1), subsections a through c, of this rule, the Faculty Hearing Committee shall convene a Hearing Panel to consider the Complaint. The Respondent and the Prosecutor may each make one preemptory challenge to the seating of one person on the Hearing Panel and to the selection of a presiding officer.
- 2. The Hearing Panel may restrict the attendance of persons at the proceedings; provided, however, that neither the Respondent nor the Prosecutor shall be denied the right to have one observer of their choosing present at all times.

Rules of the University Faculty (continued)

21.07. Hearing Procedures for Complaints Against Regular and Auxiliary Faculty Members. (continued)

3. Respondents shall have the right to be represented by legal counsel or any other person of their choice, to examine the evidence and witnesses against them, to present witnesses and evidence on their own behalf, and to refuse to testify or be questioned in the proceedings without prejudice to their cause.
4. The Hearing Panel shall receive such testimony and other evidence as it deems to be material and relevant to the issues before it.
5. An electronic recording shall be kept of all proceedings before a Hearing Panel. In addition, a written transcript shall be kept of proceedings dealing with Complaints alleging incompetence or grave misconduct.
6. At the conclusion of the proceedings, the Hearing Panel shall make separate written findings of fact and a recommendation as to a sanction, if any, to be imposed pursuant to subsection H of this rule. Such findings of fact and recommendation, together with a complete transcript of the proceedings, shall be transmitted to the President of the University and to the Respondent.
7. If the recommendation of a Hearing Panel is termination of the Respondent, such recommendation shall also state whether the termination should be effective immediately, at the end of the current appointment term, or one year following expiration of the current appointment term.

F. The President

Upon receipt of written findings of fact, a complete transcript of the proceedings, and a recommendation from a Hearing Panel, the President shall review the matter and:

1. Should he disagree with the findings or the recommendation of the Hearing Panel, or desire consideration of additional evidence, he may remand the matter to the Hearing Panel along with a written statement of the reasons therefor.
  - a. Upon remand of a case, the Hearing Panel shall supply copies of the President's statement to the Provost and the Respondent, and shall reopen the proceeding, at the conclusion thereof submitting a supplemental report to the President and to the concerned parties.
2. Should he agree with the findings and recommendation of the Hearing Panel, should he disagree but choose not to remand, or in any event after receiving the supplemental report of the Hearing Panel, he may:

Rules of the University Faculty (continued)

21.07. Hearing Procedures for Complaints Against Regular and Auxiliary Faculty Members. (continued)

- a. Dismiss the Complaint; or
- b. Impose any sanction less than termination, whether or not it accords with the recommendation of the Hearing Panel; or
- c. Recommend to the Board of Trustees termination of the Respondent on such terms and conditions as he may deem advisable.

Any decision of the President shall be communicated in writing to the Hearing Panel and to the Respondent.

G. Board of Trustees

The Board of Trustees may sustain, revoke, or modify any action taken by the President; accept or reject any recommendation of the President; or, on its own motion, take whatever action under the circumstances it feels to be in the best interest of the University.

1. If the President recommends termination, the Board may approve the recommendation, disapprove the recommendation and dismiss the Complaint, or disapprove the recommendation and modify the sanction subject to Section G (2) of this rule.
2. If the Board rejects a recommendation of termination, it shall state its reasons in writing and provide an opportunity for the President, the Respondent, and the Hearing Panel to respond thereto in writing.
3. Should the President dismiss a Complaint against a Respondent, or impose a sanction less than termination, the Board, or any committee thereof, may on its own motion review the matter and request written or oral statements of their respective positions from the President, the Respondent, and the Hearing Panel.
4. Before imposing a sanction of termination, the Board shall give the Respondent an opportunity to present to it either in writing or in person reasons why facts as they appear in the record of proceedings do not justify the sanction of termination.

H. Sanctions Applicable to Established Cases of Incompetence or Grave Misconduct

Sanctions shall be selected from the following:

1. Recorded censure, administered by the Dean of the College or the Provost. This sanction shall be applied only in those cases involving unusually strong mitigating circumstances of exceptionally persuasive character.
2. Termination of employment, recorded and administered by the Provost.

Rules of the University Faculty (continued)

21.08. Procedures Concerning Faculty Complaints About Promotion, Tenure and Renewal Decisions.

A. Definitions and Construction

1. When presenting a complaint to the Committee on Academic Freedom and Responsibility, a faculty member (hereinafter "Complainant") must first present evidence that he has made a reasonable effort to resolve the grievance by informal methods (or formal methods if they exist) in both the Department and the College. Complaints concerning promotion, tenure, or renewal decisions may be made by tenured or probationary Faculty.
2. In all formal proceedings under this rule, the burden of going forward and the burden of establishing proof shall be on the Complainant.
3. "Improper evaluation," as used in this rule, shall mean:
  - (a) that a decision affecting the Complainant was based upon an inadequate consideration of the pertinent facts by the individual(s) making the decision, or
  - (b) that such decision was based upon reasons or considerations that infringe a constitutional right of the Complainant.
4. In considering complaints alleging an improper evaluation under this rule, the review should consider only whether those individual(s) making the decision followed the appropriate procedures, considered the important evidence material to a fair determination, and acted in a responsible manner. When reviewing complaints, neither the Committee on Academic Freedom and Responsibility nor the Faculty Hearing Panel shall substitute its judgment on the merits of the individual's performance for that of the academic unit.
5. If a complaint is dismissed by either the Committee on Academic Freedom and Responsibility or a Hearing Panel pursuant to this rule, no appeal may be taken by the Complainant.
6. All records of proceedings under this rule shall be kept in the Office of the Provost and shall not be open to public inspection without the written permission of the Complainant and the Provost.

B. The Committee on Academic Freedom and Responsibility

1. Complaints alleging improper evaluation shall be presented in writing to the faculty members of the Committee on Academic Freedom and Responsibility (hereinafter "Committee") and to the Provost within 30 days (whenever practical) after a faculty member has been notified of the decision he wishes to challenge.

Rules of the University Faculty (continued)

21.08. Procedures Concerning Faculty Complaints About Promotion, Tenure and Renewal Decisions. (continued)

2. By means of informal procedures, the Committee shall review the complaint, and evidence relating to it (including evidence on behalf of the academic unit) to determine whether reasonable and adequate grounds exist for asserting improper evaluation.
3. If the Committee determines that no reasonable and adequate grounds exist for asserting improper evaluation, it shall dismiss the complaint and forward all files on the matter to the Provost.
4. If the Committee determines that reasonable and adequate grounds may exist for asserting improper evaluation, it shall forward the complaint to the Faculty Hearing Committee, established pursuant to Faculty Rule 21.07.

C. The Faculty Hearing Committee

1. Upon receipt of a complaint alleging improper evaluation, the Faculty Hearing Committee shall select a Hearing Panel according to the method provided in Faculty Rule 21.07, to conduct proceedings in order to determine whether there is validity in the complaint.
2. Actions being challenged under this rule shall be responded to by the Provost or his designee.
3. In matters involving allegations that some fundamental right has been infringed, the Hearing Panel shall conduct its proceedings in the same manner as those provided under Faculty Rule 21.07.
4. In matters involving complaints under Section A 3(a) of this rule, the Hearing Panel shall conduct an investigatory proceeding in accord with the following guidelines:
  - (a) The proceeding shall not be adversary in nature. The proceeding is an investigation leading to a report on whether or not adequate consideration was accorded.
  - (b) The Complainant should be given opportunity to state his case in writing and in person to the Hearing Panel, and offer any evidence substantiating the claim.
  - (c) If the Complainant appears before the Hearing Panel, he may bring with him an advisor. No formal transcript of the proceedings need be kept.

Rules of the University Faculty (continued)

21.08. Procedures Concerning Faculty Complaints About Promotion, Tenure and Renewal Decisions. (continued)

- (d) The Hearing Panel shall request an oral or written report on the procedures followed and the evidence considered in reaching the decision that led to the complaint. The person or group who makes the decision may be called upon to demonstrate that all important and material evidence was considered.

5. At the conclusion of a hearing, the Hearing Panel shall:

- (a) Dismiss the complaint if it determines that there has been no improper evaluation.
- (b) When it has found that an improper evaluation has been made, submit its findings to the Dean of the College in which the Complainant is a member and to the Provost, with the recommendation that the appropriate parties reconsider their decision, taking into account the findings of the Hearing Panel. A copy of the Hearing Panel's findings shall also be sent to the President.

6. If a decision is remanded under subsection C 5(b) of this rule, it shall be reconsidered promptly. Within 30 days of the receipt of the Hearing Panel's decision, the Provost shall respond in writing to the Hearing Panel and the President, stating what action has been taken and the reasons therefor.

7. All findings and recommendations of a Hearing Panel shall be made in writing and a copy shall be provided to the Complainant.

D. The President

- 1. Upon receipt of a report under subsection C 6 of this rule, the President shall review the matter and take whatever action he deems appropriate.
- 2. All decisions of the President under this rule shall be provided in writing to the Hearing Panel and the Complainant.

(continued)

D. The Ohio State University Development Fund (continued)

1. Gifts of \$5,000 or More (continued)

a. The Charles C. Palmer Fund in Veterinary Medicine (continued)

The annual income is to be used to provide one or more graduate fellowships in the College of Veterinary Medicine of The Ohio State University. The selection of the recipients is to be made upon the recommendations of the Graduate Faculty of the College of Veterinary Medicine and the Dean of the College of Veterinary Medicine.

Should the need for these scholarships cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for veterinary medical education.

b. \$10,000.00 from the City National Bank and Trust Company for the establishment of the College of Medicine Dean's Administrative Seminar Fund.

College of Medicine Dean's Administrative Seminar Fund

The College of Medicine Dean's Administrative Seminar Fund was established May 2, 1975, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from the City National Bank and Trust Company, Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The income is to be used to support an annual administrative seminar under sponsorship of the College of Medicine for professional students and postdoctoral trainees.

Responsibility for the seminar will rest with the Dean of the College of Medicine and will deal with management of fiscal resources by professionals.

Should the need for the College of Medicine Dean's Administrative Seminar cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for the College of Medicine.

IV. BUSINESS AND ADMINISTRATION

A. Architect or Engineer

1. Ohio Stadium Repairs - 1975

President Enarson recommended that the engineering firm of The Harrison Cothorn Partnership, Columbus, Ohio, be employed to provide complete engineering services including preliminary plans, basic drawings, working drawings, specifications, estimates of cost, necessary bidding documents, and resident supervision of construction.

The fee for this service will be negotiated between the engineering firm and the Department of Administrative Services, Division of Public Works. The total estimated project cost is \$400,000.00.

Funds for this service have been provided from Budget Account 999000 (Athletic Revenue).

Upon motion of Mr. Harrod, seconded by Mr. Dunlap, the above recommendation was approved by unanimous roll call vote.

B. Plans and Specifications

At the request of the Vice President for Business and Administration, President Enarson recommended that the plans and specifications, bills of material, and estimates of cost for the following projects be approved by the Board of Trustees.

1. Ohio Stadium Repairs - 1975

Due to the deteriorated concrete condition at the front of "C" Deck which may result in falling concrete from "C" Deck to "A" Deck this project has become necessary. Deterioration of the concrete is caused by freeze-thaw cycles as water enters the existing cracks in the concrete.

All work involved is on "C" Deck of Ohio Stadium. Remove and replace front aisle beam, the floor slab in front of Row 1 and the first seat beam in Sections 1, 2, 4, 8, 20, and 22. Rebuild and replace expansion joints at ends of all sections included above. All surfaces in referenced sections will be cleaned of all asphalt covering and the surface will be repaired to original contours of the concrete. A breathing type polyurethane elastomeric membrane will be applied to all of the concrete surfaces in sections as specified above. Install new drainage from front floor slab to existing drainage.

Funds are budgeted in Budget Account 999000 (Athletic Revenue).

B. Plans and Specifications (continued)

2. Polo Field Parking Lot Expansion

This work will involve the construction of parking surface to extend approximately 240 feet south of the existing parking lot west of Cannon Drive at 12th Avenue and lighting of the parking areas and adjacent areas.

Funds for this project have been provided from Budget Account 921300 (Parking Rotary) and Budget Account 801311 (Lighting Intramural and Recreational Fields).

Upon motion of Mr. Dunlap, seconded by Mr. Harrod, the above recommendation was approved by unanimous roll call vote, and the Secretary was authorized and directed to sign the plans and specifications for the above projects for and on behalf of the Board of Trustees. The Vice President for Business and Administration was directed to proceed with a request for bids in the normal University manner, and if satisfactory bids are received to proceed with the award of contracts. All action regarding this matter will be reported to the Board of Trustees at a later meeting.

C. Report of Award of Contracts

2a. Recreation, Physical Education, Intramural Facilities -  
Dispersed Facilities  
Supplemental Submittal to Award of Contracts on April 4, 1975

At the time bids were received for the Dispersed Facilities, Alternate Bids were included to add a Recreation Building on the West Campus, and to provide floor sealing of the floors of all three buildings. The presentation to the Board of Trustees on April 4, 1975, included only the base bid contracts.

Bids received on April 22, 1975, for the Central Facility make it possible for the University to increase the Contracts for the Dispersed Facilities to include previously advertised additional alternates.

The following Supplemental Presentation of Award of Contracts summarizes the April 4, 1975, presentation of Contracts and details the additional Alternates to provide revised Contracts, including construction of the West Campus Recreation Building and surface sealing for floors of all new Recreation Buildings.

1. Agreement Between The Ohio State University and the Ohio Department of Mental Health and Mental Retardation Regarding the Farming Operation of the Apple Creek State Institute, Apple Creek, Ohio

President Enarson recommended that the following Resolution be adopted:

WHEREAS, the Department of Mental Health and Mental Retardation (DMHMR), as a major agency of State Government in Ohio, has been provided jurisdiction and responsibility for the custody, control, operation, and management of certain land areas and other resources as required and used in the farming operations which are conducted at the Apple Creek State Institute (ACSI) at Apple Creek, Ohio; and

WHEREAS, the DMHMR has for a number of years conducted farming operations at ACSI for the benefit of not only the patients located at Apple Creek but also for limited support to the integrated network of agricultural operations for the care of patients under the jurisdiction of the DMHMR at other locations in Ohio; and

WHEREAS, historically, agricultural land, equipment, facilities, and other resources at various state-owned institutional farms have, on different occasions, been made available to the College of Agriculture and Home Economics, The Ohio State University, and the Ohio Agricultural Research and Development Center, Wooster, for use in instructional, research, demonstrational and experimental programs in agriculture; and

WHEREAS, central to the role and mission of the Agricultural Technical Institute at Wooster (ATI), (a part of the College of Agriculture and Home Economics of The Ohio State University), is the need for students enrolled in any one of eleven specialized curricula to have the opportunity to receive practical instruction regarding the application of the latest information, data, methods, technology, and approved practices pertinent to the specialized field of agriculture being pursued; and

WHEREAS, not only is it important that instructors make use of an enriched academic setting which includes classrooms, laboratories, and academic support areas which are usually found on college campuses, but it is essential that an operational setting paralleling actual commercial operations found in agriculture be provided for instructional purposes; and

WHEREAS, it is of utmost importance in technical education that the student be provided opportunities to gain practical experience under actual operating conditions; and

1. Agreement Between The Ohio State University and the Ohio Department of Mental Health and Mental Retardation Regarding the Farming Operation of the Apple Creek State Institute, Apple Creek, Ohio  
(continued)

WHEREAS, at the present time, the need is urgent for ATI to secure and develop farming operations which might be utilized in order to provide students who are enrolled in the various agronomic, horticultural, agricultural business, agricultural mechanics and engineering, and animal science technologies with the opportunities to:

1. Initiate and/or improve their operational abilities with each of the different types of farm tools and equipment, including power units and implements and, to gain experience in the handling of all materials, farm animals, and chemicals common to animal and crop enterprises.
2. Secure a high level of coordination and articulation of the efforts made by instructors in campus classrooms and laboratories with actual farming programs.
3. Have provided on a twelve-month basis, an operating farming unit of appropriate scale, enterprise diversity and economic size for use in the study of farm organization and management and other agricultural business courses offered at ATI, since the instructional program at ATI is conducted on a 12-month basis and there is need, therefore, for student involvement in farming enterprises throughout the year.
4. Benefit from improvement upon existing patterns and within a commercial farming operational setting, by being able to observe and compare the results of the limited use of new strains and varieties of plants, to contrast new and recommended techniques of agricultural production, to work with a limited number of different species of farm animals possessing improved qualities, and to secure limited experience in operating and making use of newly developed models of equipment and machinery, and to evaluate the performance of new products for use in farming; and

IV. BUSINESS AND ADMINISTRATION (continued)

D. Other (continued)

1. Agreement Between The Ohio State University and the Ohio Department of Mental Health and Mental Retardation Regarding the Farming Operation of the Apple Creek State Institute, Apple Creek, Ohio  
(continued)

WHEREAS, the ATI has the need for considerable acreage of farmland and the availability of various farm enterprise operations including those associated with producing agricultural crops and rearing of farm animals for use as agricultural laboratories in support of efforts to achieve many of the educational goals and objectives of the ATI; and

WHEREAS, presently there are only limited land and other related farming resources and agricultural enterprises available for use by the ATI for farm laboratories; and

WHEREAS, it is deemed by the Department of Mental Health and Mental Retardation and the Board of Trustees, The Ohio State University, that major benefits and advantages can be secured, not only to the parties hereto, but also to the taxpayers of the State of Ohio in general, through joint efforts on the part of the DMHMR and the ATI to conduct the farming operations at the Apple Creek State Institute;

NOW THEREFORE, BE IT RESOLVED, that in view of the foregoing circumstances, The Ohio State University and the Department of Mental Health and Mental Retardation, the State of Ohio, shall enter into an agreement whereby the Agricultural Technical Institute, The Ohio State University, and the Department of Mental Health and Mental Retardation, the State of Ohio, shall cooperate in the farming operation of the Apple Creek State Institute, at Apple Creek, Ohio, and that the President and/or Vice President for Business and Administration be and they are hereby authorized to cause said agreement to be prepared and executed.

Upon motion of Mrs. James, seconded by Mr. Dunlap, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

2. Academy for Contemporary Problems  
Termination of Agreement with Battelle Memorial Institute

President Enarson recommended that the following resolution be adopted:

WHEREAS during the past year officials of The Ohio State University and of Battelle Memorial Institute have held discussions regarding the future of the Academy for Contemporary Problems.

IV. BUSINESS AND ADMINISTRATION (continued)

D. Other (continued)

2. Academy for Contemporary Problems  
Termination of Agreement with Battelle Memorial Institute (continued)

WHEREAS the University and the Battelle Memorial Institute believe the Academy must continue to place primary emphasis upon improving the processes of community problem-solving through direct collaboration between those who do research and those who must use it to meet public needs.

WHEREAS the future of the Academy will be best served if it is an independent public institution, with an initial endowment by Battelle, and receiving the support of other public organizations as well as gifts and grants from a variety of public agencies and individuals.

NOW THEREFORE BE IT RESOLVED that The Ohio State University and the Battelle Memorial Institute, by mutual consent, agree to terminate, effective June 30, 1975, their agreement for joint sponsorship of the Academy for Contemporary Problems, as authorized by this Board of Trustees on October 7, 1970. While Ohio State University will no longer provide annual financial support to the Academy, the University will cooperate in areas of mutual interest as the Academy develops as an independent public foundation.

Upon motion of Dr. Sirak, seconded by Mr. Hilliker, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

VI. PRESENTATION OF CERTIFICATE

President Enarson expressed his mixed emotions concerning the expiration on the thirteenth of May of Don Hilliker's term as a member of this Board. He said, "I have had the great pleasure of working with Don Hilliker, both in his role as a member of the Board and as the Chairman. This has been rewarding in ways that I can't even begin to describe. Don, it is my pleasure on behalf of the University to present you with this certificate."

In recognition of  
**Outstanding Service**

as a member of the  
**Board of Trustees**

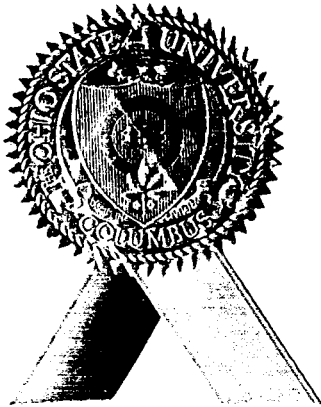

and a dedicated custodian  
of our educational heritage

**The Ohio State University**

conveys its sincere appreciation  
and best wishes to

**Don M. Hilliker**

a loyal alumnus and friend of this University

In grateful acknowledgement this certificate is presented at The Ohio State University on the second day of May in the year of our Lord nineteen hundred and seventy-five and of the University the one hundred and sixth.

## The Recipients of Honors

### EMIL BOZLER

Doctor of Science

Emil Bozler has exhibited a rare intellectual attitude in his unselfish concern for progress in the discipline of muscle physiology. His intense desire to understand the complexities of nerve and muscle has directed the uncovering of the mysteries of muscle function. His scholarship, research, lectures, and publications not only have brought him distinction; they have provided and will continue to provide the inspiration necessary to encourage significant contributions to physiology from his students and peers. The Ohio State University is honored to confer upon Emil Bozler the degree of Doctor of Science, *honoris causa*.

### LEON N. COOPER

Doctor of Science

Leon N. Cooper has carried out with enthusiasm and effectiveness the responsibilities indigenous to the scientific province. Investigating the intricacies of theoretical physics, he assisted in the development of an important theory of superconductivity which earned him the Nobel Prize. His readiness to disseminate his findings through teaching and publication mark him as an exemplary disciple of the humanitarian ideal—the giving of himself and his knowledge for improved life for man. The Ohio State University is honored to confer upon Leon N. Cooper the degree of Doctor of Science, *honoris causa*.

### LAWRENCE A. CREMIN

Doctor of Humane Letters

Lawrence A. Cremin, through insight and research, has steered the study of our nation's educational heritage to a phase of development long awaited by scholars in that field. His prize-winning publications dealing with the history of American education are unequalled in excellence and popularity. Because he is dedicated to understanding and bettering America's educational system by searching its past, and because he is determined that our future shall benefit from its revelations, The Ohio State University is honored to confer upon Lawrence A. Cremin the degree of Doctor of Humane Letters, *honoris causa*.

### CHAUNCEY D. LEAKE

Doctor of Science

Chauncey D. Leake has accepted the challenge to add knowledge to our medical portfolio both for the benefit of society and the enhancement of higher education ideals. His series of achievements in the pharmacological sciences has touched all of our lives. Many life-saving medicines are available for professional use today through his personal efforts. In recognition of one man's ability to change the course of medical treatment and to save countless lives, The Ohio State University is honored to confer upon Chauncey D. Leake the degree of Doctor of Science, *honoris causa*.

### DONALD J. McPHERSON

Doctor of Science

Donald J. McPherson has recognized the effects of metallurgical research and discovery on the successful functioning of our society, and has worked toward the perfection of new and useful metal alloys that will contribute enduringly to our environmental quality. Through his publications and lectureships he has been an effective participant in the stimulation of young scientific talent. In recognition of his unique contributions to metal science, The Ohio State University is honored to confer upon Donald J. McPherson the degree of Doctor of Science, *honoris causa*.

### WILLIAM B. SAXBE

Doctor of Laws

William B. Saxbe, a native of Ohio and a respected son of this University, has responded to the expectations of his constituents with regard for their voice. In the courtroom, in the United States Senate and in the high station of the United States Attorney General he has initiated and supported the framing of laws designed to make America what our early fathers meant it to be—the land of the free for all. Through his confidence born of knowledge and conviction he has rekindled hope in this nation as our ambassador to India. The Ohio State University is honored to confer upon William B. Saxbe the degree of Doctor of Laws, *honoris causa*.

THE OHIO STATE UNIVERSITY  
OFFICIAL PROCEEDINGS OF THE  
ONE THOUSAND ONE HUNDRED AND EIGHTH MEETING  
OF THE BOARD OF TRUSTEES

Columbus, Ohio, June 6, 1975

The Board of Trustees met at its regular monthly meeting on Friday, June 6, 1975, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio, pursuant to adjournment.

Present: John H. Dunlap, Chairman, William C. Safford, M. Merle Harrod, John L. Gushman, Howard D. Sirak, Patricia D. James, Chester Devenow, and Warren J Smith.

June 6, 1975 meeting, Board of Trustees

COMMITTEE APPOINTMENTS - 1975-1976

Mr. Dunlap made the following statement:

Since our last meeting I have given a great deal of thought to how we might realign this Board's committee structure so as to fulfill our responsibilities as a Board in a more effective manner. It is my conclusion that one way this might be done, which I would like to recommend to you is to consolidate the former four committees of this Board into two working committees: the Educational Affairs Committee and the Fiscal Affairs Committee.

I would suggest that the Educational Affairs Committee have the same range of responsibilities as it has since it was created two years ago and which, incidentally, has kept it very active during this period. The Fiscal Affairs Committee, however, would incorporate all of the activities of the former Finance Committee as well as the Buildings and Grounds and the Insurance and Retirement Committees. As you know, while each of these areas is exceedingly important to this Board, based upon past experience I believe these activities could be effectively incorporated into one committee. And by having only these two standing committees, it would be possible to have each Board member serve on one of these two committees, eliminating the conflicts for those who have had two committee assignments, which occurred in the past due to overlapping meetings; and further, to spread the work load more evenly.

I would like to announce today the membership to both of these committees. I am asking that Mr. Gushman, Mr. Hilliker, Mrs. James and Dr. Sirak serve on the Educational Affairs Committee for this coming year, with Mr. Gushman serving as Chairman and Dr. Sirak as Vice Chairman. I am further requesting that the membership of the Fiscal Affairs Committee include Mr. Devenow, Mr. Harrod, Mr. Safford and Mr. Smith, with Mr. Devenow serving as Chairman and Mr. Harrod as Vice Chairman. Further, I am requesting that Mr. Devenow and Mr. Smith continue to serve on the Development Fund Board. I am also requesting that Mr. Smith serve as this Board's representative to the Inter-University Council, and that I be allowed to complete my term as a member of the Research Foundation Board.

I am now asking for your approval of the above appointments.

Upon motion of Mr. Safford, seconded by Mr. Harrod, the Board of Trustees by unanimous voice vote approved the nominations to the Committees and the representatives to the Research Foundation Board of Directors, the Development Fund Board of Directors, and the Inter-University Council.

June 6, 1975 meeting, Board of Trustees

RESOLUTIONS IN MEMORIAM

President Enarson reported to the Board the deaths of Josef N. Knull, Professor Emeritus in the Department of Entomology; John William Means, Professor Emeritus in the Department of Surgery; and William Henry Watson, Jr., Associate Dean of University College and Professor in the Department of Agricultural Education. In accordance with the instructions of the Board of Trustees, copies of the following resolutions expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the families of the deceased.

A. Josef N. Knull

The Board of Trustees of The Ohio State University expresses its sorrow at the death on April 24, 1975, of Josef N. Knull, Professor Emeritus in the Department of Entomology.

Professor Knull was born in Harrisburg, Pennsylvania, on October 12, 1891, and was educated in the public schools in that city. He graduated from Pennsylvania State College with the B.S. degree and a major in biology in 1915, and was awarded the M.S. degree in 1924 from The Ohio State University.

After employment with the Pennsylvania State Bureau of Plant Industry, the Pennsylvania State Department of Forests and Water, and the U. S. Department of Agriculture, he accepted the position as Curator of Insects and Assistant Professor of Zoology and Entomology at Ohio State University in 1934. During the following 28 years, Joe and his wife, Dorothy (Ph. D. in Entomology), devoted their life to the collection, arrangement, and expansion of the Ohio State Insect Reference Collection. They took extensive collecting trips throughout the United States and Canada collecting and classifying many new species, collecting rare specimens and establishing new distribution records. Thanks to their painstaking efforts and meticulous care, the University now has one of the outstanding insect reference collections in the world with more than three million specimens.

Although Professor Knull was interested in all insects, he was particularly fascinated by the beetles that infested our forests. He was recognized as a world authority on the following families of insects: Buprestidae, Cerambycidae, Elateridae, and Cleridae. He described many new species, published more than 174 scientific papers which included his own superb illustrations.

His membership in professional societies included the Society of Systematic Zoologists, Entomological Society of America, Coleopterists Society, Ohio Academy of Science, Sigma Xi, American Association of Economic Entomologists, Gamma Alpha, and Gamma Sigma Delta. He was an emeritus member in the Entomological Society of America and Ohio Academy of Science. He has served as President and Secretary of the Entomological Workers of Ohio. In addition, he was a member of many Masonic bodies, Columbus Audubon Society, Columbus Entomological Society, Wheaton Club, and The Ohio State University Alumni Association.

RESOLUTIONS IN MEMORIAM (continued)

A. Josef N. Knull (continued)

On behalf of the University community, the Board of Trustees expresses to the family of Professor Knull its deep sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as sincere expression of the Board's realization of the loss which the family has sustained.

B. John William Means

The Board of Trustees of The Ohio State University expresses its sorrow at the death on March 30, 1975, of John William Means, Professor Emeritus in the Department of Surgery.

John William Means was born in Christiansburg, Ohio, on August 10, 1886, the son of William J. and Estella Thomas Means. Following graduation from North High School in Columbus in 1903, he enrolled in the College of Arts of The Ohio State University, and then the Dental College of Ohio Medical University, graduating with a D. D. S. in 1906. He was admitted the same year to the School of Medicine of the University of Pennsylvania and received his M. D. in 1909.

After spending a year as a House Officer at the old Howard Hospital in Philadelphia, he returned to Columbus in 1910 to enter practice with his father, William J. Means, M. D. (the first Dean of The Ohio State University College of Medicine). Doctor John W. Means, the son, was appointed an Instructor in Surgery at Starling Ohio Medical School, which later became the College of Medicine of The Ohio State University in 1914.

In the summer of 1914, Dr. Means studied under Dr. Mallory in the Department of Pathology at Harvard and also with Dr. David Cheever and Dr. John Homans at the Peter Bent Brigham Hospital in Boston in their surgical clinics. The following year, 1915, he studied under Dr. John Speese in Pathology at the University of Pennsylvania and Dr. George Mueller in Surgery at the same institution.

At the outbreak of World War I, he was commissioned in the United States Army and served overseas as a surgeon heading a team doing reconstructive oral surgery. He was honorably discharged with the rank of Lieutenant Colonel. Upon return to civilian life, he was appointed Assistant, then Associate, and finally Clinical Professor of Surgery (1938). Following this, he continued his academic surgical career, retiring with the rank of Professor Emeritus in the Department of Surgery.

Dr. Means published numerous articles during his career. In 1915, he and Doctor Forman published a laboratory manual of surgical pathology which went through two editions. He was an author and co-author on many subjects, including treatises on the breast, gallbladder, liver, oral surgery and bowel. In 1938, in conjunction with Dr. C. Joseph DeLor, he was co-founder of the Liver and Gallbladder Clinic which subsequently became the Division of Gastroenterology in 1944.

RESOLUTIONS IN MEMORIAM (continued)

B. John William Means (continued)

Dr. Means was a member of the Academy of Medicine of Columbus and Franklin County, Ohio State Medical Association, American Medical Association, 50-Year Club of American Medicine, Sigma Xi Scientific Honorary Society, a charter member of the Columbus Surgical Society, a Fellow of the American College of Surgeons and the American College of Gastroenterology.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

C. William Henry Watson, Jr.

The Board of Trustees of The Ohio State University expresses its sorrow at the death on May 14, 1975, of William Henry Watson, Jr., Associate Dean of University College and Professor in the Department of Agricultural Education.

Dr. Watson was born on March 27, 1913, at Portsmouth, Virginia. He completed his early education in Virginia and at the youthful age of 20 received a B.S. degree from Hampton Institute, Hampton, Virginia, majoring in French. In 1944, he received a M.A. degree in education from Hampton Institute, and in 1948, he received a doctorate in education from New York University. He also studied as a postdoctoral student at the Universities of London, Paris, and Heidelberg.

Early in his career, Dr. Watson held teaching positions in the public schools of North Carolina. He was widely recognized for his innovative administrative leadership while serving from 1942 to 1957 as high school principal in Dover, Clinton, Winston Salem, and Raleigh, North Carolina. In 1957, he became Assistant Principal of Roosevelt High School in Gary, Indiana, and in 1960, was appointed as the first black principal of Froebel High School in Gary. Dr. Watson was Director of the Peace Corps in Liberia, West Africa, from 1964 through 1966 where he had supervisory responsibility for 400 Peace Corps volunteers. In 1966, he returned to Gary, Indiana, to serve as General Supervisor for Secondary Education. He was named as Special Assistant to the Superintendent for School-Community Relations in 1968.

Dr. Watson was named Assistant Superintendent for Urban Education in Dayton, Ohio, in 1969, a position he held until he assumed his posts at Ohio State on July 1, 1971.

In joining the staff of The Ohio State University as an Associate Dean, Dr. Watson gave administrative leadership to developing unique supportive educational programs for University College students on the five campuses

of the University. The Developmental Education program has become a prototype for other institutions throughout the nation.

In addition to serving as a Visiting Professor at North Carolina Central University and consultant to many community and educational organizations, Dr. Watson was a member of the NAACP, Kiwanis, Phi Delta Kappa, Omega Psi Phi, and the Newcomen Society of North America. His spirited leadership of the University College United Way Campaign aptly demonstrated his personal concern for the welfare of others.

In his four years at Ohio State, Dr. Watson left an indelible mark upon the lives of many, especially those students who are served so effectively by the Developmental Education program.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

STATEMENT ON BUDGET FOR 1975-1976

The President, in introducing his agenda, indicated that he was unable to present a budget for the coming fiscal year (1975-1976) at this time, since the Ohio General Assembly had not as yet acted upon the University's Appropriation Bill. He indicated he had informed the faculty that their contracts would not be acted upon at the June meeting of the Board as has generally been done in the past, but rather deferred to the July Board meeting because of the lack of an Appropriation Bill. The President indicated that he has scheduled the University's budget presentation for the next regularly scheduled meeting, July 11.

President Enarson then presented the following recommendations:

I. GENERAL RECOMMENDATIONS

A. Naming of Building

Upon the recommendation of the Athletic Council and with the concurrence of the President's Staff, President Enarson recommended that the Club House at the University Golf Course located at 3605 Tremont Road be named the "Robert H. Kepler Club House," to honor Robert H. Kepler who served as Golf Coach from 1938 until his retirement in 1966.

This recommendation is in accordance with the Bylaws of the Board of Trustees.

Upon motion of Mr. Harrod, seconded by Mr. Gushman, the Board of Trustees approved the foregoing recommendation by unanimous voice vote.

June 6, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

B. Establishment of Managerial Group to Act for and on Behalf of The Ohio State University

To accommodate the annual requirement for the processing of personnel clearances for access to classified information as provided for in the Industrial Security Manual for Safeguarding Classified Information, President Enarson recommended that persons occupying the following positions among the officers of The Ohio State University shall be known as the Managerial Group:

President	Vice President for Educational
Provost	Services
Vice President for Business	Secretary, Board of Trustees
and Administration	National Security Officer

The Chief Executive and the members of the Managerial Group either have been or will be processed for a personnel clearance for access to classified information, to the level of the facility clearance granted to this institution, as provided for in the Industrial Security Manual.

This Managerial Group is delegated all of the Board's duties and responsibilities pertaining to the protection of classified information under classified contracts of the Department of Defense or User Agencies of its Industrial Security Program awarded to The Ohio State University.

The following named officers and members of the Board of Trustees shall not require, shall not have, and can be excluded from access to all classified information in the possession of The Ohio State University and do not occupy positions that would enable them to affect adversely the policies and practices of The Ohio State University in the performance of classified contracts for the Department of Defense or User Agencies of its Industrial Security Program, awarded to The Ohio State University, and accordingly need not be processed for a personnel clearance.

BOARD OF TRUSTEES

Chester Devenow	Patricia D. James (Mrs.)
John H. Dunlap	William C. Safford
John L. Gushman	Howard D. Sirak

3. Establishment of Named Funds

- a. \$18,415.79 from the Estate of Archie L. Geisinger for the establishment of the Archie L. Geisinger Fund in Mechanical Engineering.

Archie L. Geisinger Fund in Mechanical Engineering

The Archie L. Geisinger Fund in Mechanical Engineering was established June 6, 1975, by the Board of Trustees of The Ohio State University with a bequest from Archie L. Geisinger, B.M.E. '14, Pittsburgh, Pennsylvania, to The Ohio State University Development Fund.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is for the unrestricted use of and by the College of Engineering's Department of Mechanical Engineering. Recommendations for the use of the funds will be made by the Chairman of the Department of Mechanical Engineering and approved by the Dean of the College of Engineering.

Should the need for these funds cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for mechanical engineering education.

d. \$1,000.00 from John A. Burns, M. D., for the establishment of the Ophthalmic Plastic Surgery Fund.

Ophthalmic Plastic Surgery Fund

The Ophthalmic Plastic Surgery Fund was established June 6, 1975, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from John A. Burns, M. D. '64, Columbus, Ohio.

The annual income is to be used to promote ophthalmic plastic surgery among the residents and medical students of the University. The income will also be used for: purchasing textbooks for the residents; visual aids for the Department of Ophthalmology; and making small research grants to deserving residents or medical students in the Department of Ophthalmology. Funds not used for the above on an annual basis will be transferred to the Ophthalmologic Center Fund. The income is to be used in accordance with suggestions of Dr. Burns subject to the approval of the Chairman of the Department of Ophthalmology and the Dean of the College of Medicine.

After Dr. Burns retires from active teaching at the University, the income may be used for purposes recommended by the Chairman of the Department of Ophthalmology and approved by the Dean of the College of Medicine.

Should the Department of Ophthalmology or the College of Medicine cease to exist through any reorganization of the University, then the income may be used by the Board of Trustees with preference being given to the recommendations of the appropriate administrative official of the University who is then directly responsible for medical education.

#### IV. BUSINESS AND ADMINISTRATION

##### A. Plans and Specifications

At the request of the Vice President for Business and Administration, President Enarson recommended that the plans and specifications, bills of materials, and estimates of cost for the following projects be approved by the Board of Trustees:

##### 1. Dentistry Building--Replacement of Basement Fan

This project will provide for the removal of the existing supply air fan and associated heating coils and controls. The unit presently in the Dentistry Building utilizes 100 per cent outside air which requires excessive energy for winter operation. The modifications provided by this project will improve operations, reduce maintenance and energy requirements.

Funds are budgeted in Budget Account 126070 (Contract Repair 1975-1976).

##### 2. Derby Hall Remodeling

This project will provide Derby Hall with code-complying smoke tower stairwells throughout and will improve safe egress from the building by eliminating dead-end corridors from the basement level. In addition, the bookstore sales area will be expanded by means of developing the abandoned theater area for this purpose. Project scope includes upgrading of some wall, floor and ceiling finishes and modernizing lighting and mechanical systems.

Funds are budgeted in H. B. 985, Item 315-074 (Utilities and Renovation), and local funds.

Upon motion of Mr. Safford, seconded by Mr. Devenow, the above recommendations were approved by unanimous roll call vote, and the Secretary was authorized and directed to sign the plans and specifications for the above projects for and on behalf of the Board of Trustees. The Vice President for Business and Administration was directed to proceed with the request for bids in the normal University manner, and if satisfactory bids are received to proceed with the award of contracts. All action regarding this matter will be reported to the Board of Trustees at a later meeting.

##### B. Report of Award of Contracts

##### 1. Cancellation of Project

On March 7, 1975, the Board of Trustees approved the following project to be advertised for completion of construction:

June 6, 1975 meeting, Board of Trustees

IV. BUSINESS AND ADMINISTRATION (continued)

B. Report of Award of Contracts (continued)

1. Cancellation of Project (continued)

a. Tunnel Repairs, North Central Campus

Bids were received April 29, 1975, and Ed Ross Construction Company of Westerville, Ohio, was the low bidder.

Electrical Contract bids were over the estimates. On May 5, 1975, rebids were received on the Mechanical and Electrical Contract work and again were over the estimates of cost. Ed Ross Construction Company's bid of April 29, 1975, was \$81,000.00 compared to an estimate of \$120,000.00, and the Department of Administrative Services, Division of Public Works, allowed the withdrawal of this bid due to a documented error in the bid assembly.

Therefore, it was recommended that this project be cancelled, with plans for some tunnel repair projects to be accomplished in the next biennium.

Upon motion of Mr. Devenow, seconded by Mr. Harrod, the above cancellation was approved by unanimous roll call vote.

2. Award of Contracts

In accordance with authorization provided by the Board of Trustees, bids were taken on the projects listed below and the contracts were recommended for award. The action reported to the Board was as follows:

a. Lincoln Tower Alterations

Total Contract	<u>\$ 291,700.00*</u>	<u>\$ 203,250.00</u>

\*The Plumbing and Heating, Ventilating and Air Conditioning Contracts exceeded the estimates of cost, however, the total of all bids is under the total project funds available. It is recommended that Controlling Board approval be obtained for awards as indicated, since it is believed that no better bids would be received by re-advertising.

PLANNING GRANT AGREEMENT

PART I -- OFFER

DATE OF OFFER May 29, 1975

TYPE OF PLANNING GRANT:

AIRPORT MASTER PLANNING FOR  
The Ohio State University Airport

PROJECT NO. A-39-0027-01

CONTRACT NO. DOT-FA-75-GL-7588

AIRPORT SYSTEM PLANNING FOR  
\_\_\_\_\_  
\_\_\_\_\_

TO: Board of Trustees of the Ohio State University, Columbus, Ohio  
\_\_\_\_\_  
(herein referred to as the "Sponsor")

FROM: The United States of America (acting through the Federal Aviation Administration, herein referred to as the "FAA").

WHEREAS, the Sponsor has submitted to the FAA, an Airport Master Planning Grant Application  
(Master or System)

dated May 12, 1975 (herein called the "Planning Application"), for a grant of funds for a project for the development for planning purposes of information and guidance to determine the extent, type, and nature of development needed for \_\_\_\_\_

(airport area name and/or location)  
The Ohio State University Airport at Columbus, Ohio  
(herein called the airport), which Planning Application as  
(airport or area)

approved by the FAA is hereby incorporated herein and made a part hereof; and WHEREAS, the FAA has approved a project for the development of plans for the airport (herein called the "Planning Project") consisting  
(airport or area)

of the following approved airport Master planning:  
(master or system)

- I. Determination of Airport Requirements; including Inventory, Forecasts, Demand/Capacity Analysis; Facility Requirements & Environmental Study & Report.
- II. Airport Plans; including Airport Layout Plan, Land Use Plan, Airport Zoning Map, Terminal Area Plans, Airport Access Plan & Environmental Impact Assessment Report.
- III. Financial Plan; including Schedules & Cost Estimates of proposed developments, Economic Feasibility and Capital Improvement Program.
- IV. Public Information & Reports.

all as more particularly described in the Description of Work Program incorporated in the said Planning Application;

NOW THEREFORE, pursuant to and for the purpose of carrying out the provisions of the Airport and Airway Development Act of 1970, as amended, and in consideration of (a) the Sponsor's adoption and ratification of the representations and assurances contained in said Planning Application, and its acceptance of this Offer, as hereinafter provided, and (b) the benefits to accrue to the United States and the public from the accomplishment of the airport Master  
(master or system)

planning included in the Planning Application, THE FEDERAL AVIATION ADMINISTRATION, FOR AND ON BEHALF OF THE UNITED STATES, HEREBY OFFERS AND AGREES to pay, as the United States share 66-2/3 percent of the allowable costs incurred in accomplishing the Planning Project, subject to the following terms and conditions:

1. The maximum obligation of the United States payable under this Offer shall be \$ 25,000.
2. The FAA, for and on behalf of the United States, may by written notice terminate or suspend this grant in whole or in part, or withhold payment, in the event that it finds that the Sponsor has:
  - a. Failed to comply with Federal law or with any of the terms and conditions contained in this Planning Grant Agreement;
  - b. Failed to carry out the Planning Project as approved;
  - c. Made unauthorized or improper use of grant funds;
  - d. Submitted any application, report, or other document which contains a misrepresentation of a material nature or is incorrect or incomplete in any material respect; or,
  - e. If for any reason continuation of the approved Planning Project is rendered impossible, ineligible, or illegal.

The Sponsor shall take such action relative to termination or suspension as may be required by the FAA in the notice of termination or suspension. In such case termination or suspension shall not affect any otherwise valid and allowable obligations made in good faith prior to receipt of notice of termination or suspension.

3. The Sponsor shall:
  - a. Begin accomplishment of the Planning Project within 90 days after acceptance of this Offer, with failure to do so constituting just cause for termination of the obligations of the United States hereunder by the FAA;
  - b. Carry out and complete the Planning Project without undue delay and in accordance with the terms hereof, the Airport and Airway Development Act of 1970, and ~~the~~ the Regulations of the Federal Aviation Administration ~~in effect as of the date of acceptance of this Offer; which Regulations are hereinafter referred to as the "Regulations";~~
  - c. Carry out and complete all planning work in accordance with the Description of Work Program, incorporated herein, or as it may be revised or modified with the approval of the FAA and in accordance with design standards and planning criteria established by the FAA;

15. The Sponsor agrees that neither the approval of the Planning Application nor the tender of this Offer nor the approval of the final airport Master planning report constitutes an assurance or commitment, *(master or system)* express or implied, by the FAA, that any airport development or unit thereof shown in the planning developed as part of this Planning Application will be approved for inclusion in any pending or future Airport and Airway development Program under the Airport and Airway Development Act of 1970.
16. Condition 5 is hereby deleted and replaced by the following condition:  
Payment of the United States' share of the allowable project costs will be made pursuant to and in accordance with the provisions of Part 152 of the Federal Aviation Regulations. Final determination as to the allowability of the costs of the project will be made after final audit.
17. It is understood and agreed by and between the parties hereto that Federal participation in the printing of the Final Master Plan Report will be limited to 200 copies of a condensed non-technical version for public consumption and 50 copies of the technical version of the Final Master Plan Report with Supplements and appendices as required, and one set of reproducible prints of drawings. It is further understood and agreed that Federal participation in the printing of preliminary reports, interim reports and drafts of final master plan reports will be limited to 20 copies.
18. It is understood that the State of Ohio, Division of Aviation, is undertaking a State Aviation System Plan study and that the Sponsor will provide the State a copy of reports and information developed as part of this master planning project. Further, it is understood that the Sponsor will communicate and coordinate the progress of this study with clearinghouse responders desiring additional involvement.
19. It is understood and agreed by and between the parties hereto that the Sponsor, in order to satisfy condition nine (9) above, will furnish FAA with monthly progress reports which contain as a minimum: (a) the amount of work accomplished, (b) a narrative discussion of any unusual problems or conditions encountered and (c) decisions made or conclusions reached which would alter the course of the study.
20. The Sponsor agrees that an Environmental Impact Assessment Report will be prepared in accordance with Section 102(2)(c) of the National Environmental Policy Act of 1969 (Public Law 91-190), and Section 16(d)(1) of the Airport and Airway Development Act of 1970 (Public Law 91-258). The Environmental Impact Assessment Report portion of the project shall not be undertaken without written Notice to Proceed from FAA and all associated costs shall be deleted should the EIAR not be accomplished.

The Sponsor's acceptance of this Offer and ratification and adoption of the Planning Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and said Offer and Acceptance shall comprise an Airport Master Planning Grant Agreement, as provided by (Master or System)

the Airport and Airway Development Act of 1970, constituting the obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Planning Project. Such Airport Master (Master or System)

Planning Grant Agreement shall become effective upon the Sponsor's acceptance of this Offer.

RESOLUTION IN MEMORIAM

President Enarson reported to the Board the death of Milton O. Percival, Professor Emeritus in the Department of English. In accordance with the instructions of the Board of Trustees, a copy of the following resolution expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the family of the deceased.

A. Milton O. Percival

The Board of Trustees of The Ohio State University expresses its sorrow at the death on June 14, 1975, of Milton O. Percival, Professor Emeritus in the Department of English.

Milton Ossian Percival was born in 1883. He took the B.A. degree in 1906, the M.A. in 1907, and the Ph.D. in 1914, all at Harvard University. After a year's study at Oxford University he accepted a position in 1915 at The Ohio State University as an Assistant Professor (having earlier held Instructorships at both Oberlin College and the University of Minnesota). In 1925 he was advanced directly to the full Professorship, a position he held until his retirement and advancement to the Emeritus Professorship in 1953. In recognition of his long and truly distinguished career, Milton O. Percival was in 1957 awarded the honorary degree--Doctor of Humane Letters--by The Ohio State University.

Dr. Percival was a distinguished man. His distinction was equally supported by his work as a scholar and his influence as a teacher.

As a scholar he was both an historian and a critic and interpreter of literature. His first major publication, an edition of the Political Ballads Illustrating the Administration of Sir Robert Walpole (Oxford, 1916), was primarily a contribution to the history of England in the Eighteenth Century. His other books, however, were works of interpretative criticism--and of major importance. William Blake's Circle of Destiny (Columbia University Press, 1938) was at

once a brilliant interpretation of a difficult poet and artist and an enormously erudite study in the philosophy of mysticism. It combined knowledge of the history of thought with literary sensitivity in a book of the kind that only a handful of scholars achieve in any generation. In 1950, he published A Reading of Moby Dick (Chicago University Press), in which he achieved a full, wise, and rich interpretation of what is probably America's greatest novel--and certainly one of its most difficult.

As a teacher in the English Department and as a member of the Department, Dr. Percival was one of the two major influences upon it in the period 1930-50. His acute mind, his drive toward excellence, his combination of idealism with practical scepticism, his steady and powerful backing of what was good, and his devotion to the best in public state education gave him an enormous influence. It was as profound within the University as his reputation as a scholar-critic had been outside. As a teacher in the classroom his work for thirty-eight years was quite simply superb. Ph. D. candidates and undergraduates alike received from him fine technics, discrimination and taste, great learning--and, what is more rare, wisdom.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as a humble expression of the Board's heartfelt sympathy in its bereavement.

President Enarson presented the following recommendations:

I. GENERAL RECOMMENDATIONS

A. Proposed Budget for the 1975-1976 Fiscal Year and Proposed Changes in the Instructional and General Fees

President Enarson made the following statement:

Introduction

I need not remind the Board of the anxieties and uncertainties that attend the preparation of a biennial budget for an educational system as large and complex as The Ohio State University. Given the economy, and the State Government's differing assessments and responses to it, this biennial appropriation has been particularly uncertain and anxious for us.

Even so, despite the various constraints, the budget I present today is a sound budget. It is a balanced budget.

I. GENERAL RECOMMENDATIONS (continued)

A. Proposed Budget for the 1975-1976 Fiscal Year and Proposed Changes in the Instructional and General Fees (continued)

President Enarson's statement (continued)

I present today the current funds budget for the first year of the new biennium, 1975-1976, for your consideration and approval. Projected total expenditures for The Ohio State University during 1975-1976 are \$345 million, up \$30 million or 9.5 per cent from the expenditure level of \$315 million for the fiscal year just completed. Budgeted expenditures for the Columbus Campus and the Regional Campuses are:

	<u>1974-1975</u>	<u>1975-1976</u>	<u>Increase</u>
Columbus			
Campus	\$307,900,000	\$336,300,000	\$28,400,000 (9.2%)
Regional			
Campuses	<u>7,400,000</u>	<u>8,900,000</u>	<u>1,500,000</u> (20.3%)
Total	\$315,300,000	\$345,100,000	\$29,900,000 (9.5%)

The recommended total expenditure level of \$336,300,000 in 1975-1976 for the Columbus Campus is distributed among the five principal budgets as follows:

	<u>Budgeted Amount</u>	<u>Portion Total Budget</u>
1. Instructional and General Program	\$161,500,000	48%
Departmental Instruction and Research, Instructional Services, Library Services, Student Services, Plant Operation and Institutional Support		
2. Sponsored Research	26,600,000	8%
Federal, State and Private Contracts		
3. Public Service	94,200,000	28%
Cooperative Extension Service, Hospitals, Conferences

I. GENERAL RECOMMENDATIONS (continued)

A. Proposed Budget for the 1975-1976 Fiscal Year and Proposed Changes in the Instructional and General Fees (continued)

President Enarson's statement (continued)

	<u>Budgeted Amount</u>	<u>Portion Total Budget</u>
4. Student Aid	\$ 9,400,000	3%
Scholarships, Fellowships, Private Gifts, Grants, Fee Remissions		
5. Auxiliary Services	44,600,000	13%
Housing, Bookstores, Parking, Athletics, Facility Services, Student Unions, Fawcett Center for Tomorrow, Facilities, Airport, Laundry		
Total	\$336,300,000	100%

Revenue estimates for 1975-1976 in support of the proposed Columbus Campus expenditure level of \$336,300,000 are: (a) State of Ohio - \$111.7 million, (b) Federal - \$42.3 million, (c) Instructional and General Fees - \$47.1 million, (d) Room and Board - \$13.4 million, (e) All Other Income (Auxiliary Sales and Charges, Departmental and University Services, Endowment, Gifts and Grants, Recovered Costs, Temporary Investments) - \$121,700,000.

A Summary of the 1975-1976 Instructional and General Program Budget

Since the accompanying documents describing the proposed budgets for The Ohio State University (1975-1976) are both lengthy and detailed, I am presenting first a summary of the budget for the Instructional and General Program, Columbus Campus. It is the key budget. It embodies all major budget decisions; it sets priorities for all University budgets. In this Instructional and General Budget, I wish to draw particular attention to our proposal to increase salaries 14 per cent given the following fiscal constraints: (a) A 9 per cent growth in unrestricted revenues, (b) a major increase in the cost of utilities and (c) the requirement that the new pay bill for civil service employees (on the Instructional and General Budget) be funded in its entirety from the instructional subsidy.

I. GENERAL RECOMMENDATIONS (continued)

A. Proposed Budget for the 1975-1976 Fiscal Year and Proposed Changes in the Instructional and General Fees (continued)

President Enarson's statement (continued)

New Revenues.

Unrestricted income for the Instructional and General Budget for 1975-1976 is estimated to be higher than last year by \$12.5 million (+9 per cent). Sources of the expected additional \$12.5 million are: (a) An increase of \$10.6 million (+13 per cent) in the instructional subsidy--up from \$81.7 million last year to an expected level of \$92.3 million this year, (b) a net increase of about \$1.4 million in fee revenues and (c) a net increase of about \$0.5 million in all other unrestricted revenues (primarily in the recovery of indirect costs).

New Expenditure Obligations.

Alongside this expected increase of \$12.5 million in unrestricted revenues, there are Instructional and General spending obligations imposed from the outside (the budget constraints summarized two paragraphs back) and proposed from the inside (the budget goals for faculty and staff salary improvements presented to the Board on February 7, 1975).

It is my recommendation that regular, continuing faculty and administrative and professional staff should receive an average salary increase of 14 per cent, with the floor on individual raises being 7 per cent. Civil service employees will receive raises estimated to be in the neighborhood of 12 per cent. (Their increments are set by the new State pay bill and reclassification plan.) The recommended salary and benefit improvements for all non-classified personnel (faculty, administrative and professional staff, specials and wages) will cost an estimated \$9.8 million on an annual-rate basis. All salary and benefit improvements for civil service employees to be made during the fiscal year 1975-1976 (step increases, the retirement rate increase and the pay bill) are estimated to cost about \$3.4 million on an annual-rate basis. Thus, the total cost (on an annual-rate basis) of the proposed improvements in compensation for the Instructional and General Program in 1975-1976 is estimated to be \$13.2 million.

Physical plant costs this year (beyond the cost of compensation improvements) will be approximately \$2 million higher than last year, mostly because of the projected increase in energy costs. For the budget proposal before you, it is assumed that actual plant costs will be met, even though--as you know--intensive efforts are underway to conserve the use of energy and to reduce these costs in all reasonable ways.

July 11, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

A. Proposed Budget for the 1975-1976 Fiscal Year and Proposed Changes in the Instructional and General Fees (continued)

President Enarson's statement (continued)

The allocation in the proposed budget for books and periodicals, instructional equipment and office supplies and services (the latter including paper, telephone, postage, travel, printing) has been increased from last year by \$0.8 million (+4 per cent)--instead of the minimally needed increase of \$8 million to \$10 million to restore the purchasing power for these items to the level of just two years ago.

Lastly, all other new obligations in 1975-1976 for the Instructional and General Budget have an estimated cost in the range of \$1.4 million to \$1.8 million. (They include increases for computer leasing and renting, matching work-study funds, student financial aid, operation of new recreation facilities and special research funds.)

Balancing the Budget.

To meet all spending obligations for the Instructional and General Program, the expenditure of unrestricted funds must increase by \$17.4 million to \$17.8 million on an annual-rate basis (+12 per cent). This increase in the spending exceeds the projected gain of \$12.5 million in unrestricted revenues by \$4.9 million to \$5.3 million. Nevertheless, the budget before you is balanced, and on an annual-rate basis. It has been balanced--not by deficit spending or by the use of one-time funds, but by reducing commitments \$5.2 million in annual rate through budget cuts, savings and discontinuance of some programs such as the Academy for Contemporary Problems.

Priorities.

In short, the funding of the proposed Instructional and General Budget to (i) raise salaries of regular, continuing faculty and staff by an average of 14 per cent, (ii) fund the civil service pay bill and (iii) fund operating obligations (on an absolute minimal basis)--would be accomplished 70 per cent with new resources (almost entirely instructional subsidy) and 30 per cent with reallocated resources. This budget plan--plainly--is a conscious choice of priorities to put salaries first. Faculty salaries simply must increase by more than the 9 per cent growth in our unrestricted revenues. Budget cuts and savings, therefore, must provide the additionally needed dollars. Equally obvious is that all other priorities must be lower than salaries. Books and periodicals, replacement of obsolete

instructional and research equipment, the maintenance and modernization of instructional and research facilities and supplies and services have not received and cannot receive their just attention in this budget plan.

Budget Backdrop

The biennium just completed (1973-1975) was marked by relatively low growth in revenues, high inflation, deep cuts in the budget, enrollment growth and the implementation of new programs both to expand access and opportunity and to minimize barriers of age, race, sex, occupational status and educational base.

Revenue and Inflation Rates.

Revenues for the Instructional and General Program increased a total of 9 per cent during the previous two years (1973-1975). The consumer price index (CPI) rose 21 to 22 per cent during the same two years. By comparison, for each of the two previous bienniums (1969-1971 and 1971-1973), the corresponding inflation was half as much--9 per cent to 11 per cent. Higher education cost indices (in contrast to the CPI) rose 30 per cent during the biennium just completed.

Budget Cuts.

Again for the biennium just completed, costs far outstripped revenues and expenditures had to be brought in line. Budget cuts in 1973-1974 alone totalled \$8.1 million (6.5 per cent). Cuts of \$2.3 million (2 per cent) were made this past year. Budgets for equipment, services and supplies were not increased in either of the two previous years, even though their prices rose, typically, 40 to 50 per cent during this two-year period. Utility costs increased 47 per cent for the biennium. Hiring was frozen throughout much of the period, except for the replacement of critical positions. A host of economy measures were implemented, including the University-wide program to curb energy consumption.

Enrollment Growth.

Yet again, for the biennium just completed, enrollment growth led to a 3 per cent increase in the instructional staff--proportionately less than the corresponding enrollment growth.

July 11, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

A. Proposed Budget for the 1975-1976 Fiscal Year and Proposed Changes in the Instructional and General Fees (continued)

President Enarson's statement (continued)

For example, instructional FTE in the five graduate-professional programs increased 15 per cent; it increased 5 per cent in the Graduate School and one per cent in undergraduate programs. Headcount enrollment at Ohio State (Columbus Campus) increased 7 per cent during the past two years. The four-quarter enrollment this past year exceeded the four-quarter enrollment two years ago by nearly 11,000 students (headcount).

Expanding Access and Opportunity.

Again for the biennium just completed, several modest, new programs to expand access and minimize barriers were funded. Fees for part-time students (0-6 credit hours) were lowered. The new Evening Program attracted many students not previously (or recently) pursuing higher studies. Financial aid was increased--in substantial part to support increased minority enrollments. Programs in Women's Studies and services for the physically impaired were expanded. Additional campus physical barriers were removed. New simplified admission and registration procedures were developed for part-time and evening students.

Spending Pattern.

Thus, overall for the previous biennium, with the squeeze between low growth in revenues (+9 per cent) and the high rate of inflation for higher education (+30 per cent), and with the need to spend some funds to expand access--unavoidably, faculty salaries could not keep pace with inflation. This loss in real income occurred in spite of the high priority given to faculty salaries. For example, while revenues rose only 9 per cent and the cost of plant operation rose 23 per cent (primarily because of utility costs and pay bills), still, through the reallocation of dollars cut from the budgets, it was possible to increase the average faculty compensation by 12 per cent during the past two years. The Instructional and General spending pattern for the biennium just completed is as follows:

Plant Operation	+23
All Instructional and General Budgets	+ 9%

\*This is the gain in average faculty compensation, but not the gain in average compensation for a comparable group. For example, retiring and resigning faculty are commonly replaced with persons at the beginning ranks.

Faculty Salary Problems.

With inflation during the previous biennium exceeding the gain in faculty compensation by 8 to 10 per cent, Ohio State was left with two faculty salary problems: (1) Salary growth being insufficient to avoid losses in purchasing power and (2) deficiencies in average salaries relative to those at comparable institutions.

If the proposed average raise of 14 per cent for 1975-1976 is achieved and if the inflation rate for 1975-1976 averages about 7 per cent, the net loss to inflation for the three-year period (1973-1976) would be reduced to the range of 2 to 3 per cent. Thus, the first of our two salary problems would be largely overcome.

Faculty Salary Comparisons

Let me now comment briefly on the problem of deficiencies in average faculty salaries at Ohio State.

I. GENERAL RECOMMENDATIONS (continued)

A. Proposed Budget for the 1975-1976 Fiscal Year and Proposed Changes in the Instructional and General Fees (continued)

President Enarson's statement (continued)

In its report of May 30, 1975, entitled "Report on Faculty Salary and Compensation Comparisons: OSU and The Big Ten," the Faculty Compensation and Benefits Committee presented a comparison of average faculty salaries and compensation at the Big Ten universities (based on 23 departments of instruction). The results show average compensation at Ohio State to be less than the average for the Big Ten by approximately \$2,000 to \$3,000 for professors, about \$1,000 for associate professors and roughly \$500 for assistant professors. The Committee concluded "That O. S. U. faculty members are less well compensated than their colleagues in the Big Ten. This is the most noticeable at higher academic ranks, which are in the poorest position relatively not only in ranking but in actual dollars of compensation." We translated their results into an average salary deficiency (relative to the mean level for the Big Ten) of \$1,200 or 6 per cent.

Our own studies produced similar conclusions. We found that the average compensation for Ohio State's ranked faculty in 1974-1975 was about 7 per cent below the average for all other Big Ten universities, 3 per cent below the average for the 32 other leading public research universities in the United States, 3 per cent below the average for the public universities in states bordering Ohio and 3 per cent above the average of those 10 state-affiliated universities in Ohio reporting salary data to AAUP. Although Ohio State's average compensation for ranked faculty lagged behind the average for the other Big Ten universities by 9 per cent in 1973-1974, the lag dropped to 7 per cent last year and--on achieving our proposal to increase salaries 14 per cent, we estimate that Ohio State's average faculty compensation this year will be behind the average for the other Big Ten schools by only one to 2 per cent (\$200 to \$300). It is also likely that a 14 per cent average raise this year would lift Ohio State's compensation ranking among the Big Ten from 10th to at least 7th (possibly to 6th), and that Ohio State's average compensation next year would exceed by 2 to 3 per cent the corresponding averages for both the leading public research universities in the United States and the public universities in the states bordering Ohio.

Budget Objectives for 1975-1976

On February 7, 1975, I presented to the Board of Trustees the proposed set of budget objectives for 1975-1976. You will recall that the Committee on Faculty Compensation and Benefits had just reported what confirmed my own independent assessment: That the cumulative loss in real income since 1968 for our faculty had been about 17 per cent. We saw no real prospect then that the Ohio General Assembly would fund such an increase, even though it had been apparent for some time that losses to inflation were serious and needed to be recouped as much as possible in future budgets. We announced then our intentions to set a 14 per cent increase in average salaries for faculty and staff as the prime budget objective for 1975-1976, with the understanding that it would be achieved through increased state support in instructional subsidy and, if necessary, by cutting existing budgets substantially. Except for the civil service pay bill, we adopted and have since developed the budgets before you using the following specific objectives.

1. Regular, returning faculty and administrative and professional staff (who were on the payroll as of February 14, 1975) would receive a 7 per cent across-the-board increase. An additional allocation of 7 per cent would be provided for salary increases to be based on merit and equity adjustments.
2. Allocations for equipment, supplies, telephone, travel, postage, etc. would be increased only 4 per cent--which imposes a substantial cut in their purchasing power.
3. Effective March 1, 1975, all appointments of personnel in all categories for both new and replacement positions were frozen. Exceptions to this freeze are granted on an emergency basis only. Replacements are made at an appropriate beginning level; with rare exception, a replacement for a professor would be an assistant professor.
4. Cuts in all budgets of two per cent would be made.

July 11, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

A. Proposed Budget for the 1975-1976 Fiscal Year and Proposed Changes in the Instructional and General Fees (continued)

President Enarson's statement (continued)

5. Adjustments for unavoidable increases in operating costs would be made, e. g. utility rate increases, cost increments for alternate energy sources, the opening of new buildings, increased retirement benefits, minimum wage adjustments and so forth.

Prior to the recent 2 per cent cut in State support, it was our hope that budget cuts for next year could be held to 2 per cent. Now, however, it is necessary to recommend that University budgets be cut 2.5 per cent (in addition to the fee increase recommended in the next section).

Planning Premises for the Proposed Budget

a. Enrollment Estimates.

Enrollments by level and type of academic program determine, for the most part, the instructional subsidy earned by the University. Fee revenues are also determined by enrollments (numbers of undergraduate and post-baccalaureate students, full-time and part-time). Thus, since the instructional subsidy and student charges are the principal sources of support for our credit programs, it follows that enrollment estimates for the new academic year are one of several key sets of assumptions upon which the proposed Instructional and General Budget is based.

Last Fall, we set enrollment goals for the 1975-1976 school year consistent with the State's enrollment ceiling for our Columbus Campus. And, although precision in projecting enrollments is rarely achieved, I am happy to report that advance indicators point to on-target levels for Autumn, 1975. The goal for new freshmen this Autumn is 7,000. (The actual number enrolled last Autumn was 7,431.) Freshman applications are up again this year; the deadline was advanced, therefore, from the usual July 1 to May 16. We hope the number of advanced undergraduate transfer students will increase over last year. Overall, undergraduate enrollment this Autumn is expected to increase between one and two per cent. The total post-baccalaureate enrollment is expected to remain at the level of last Autumn.

Our present best estimates of the enrollments for the Autumn Quarter are:

	Actual Autumn, 1974	Estimated Range Autumn, 1975	Specific Estimate for Planning Autumn, 1975

Regional Campuses (Lima, Mansfield, Marion, Newark, Wooster, Wright Patterson)	4,239	4,200- 4,500	4,400

b. Instructional Subsidy.

The appropriated instructional subsidy for the Columbus Campus credit programs for 1975-1976 is \$94.2 million. However, with the 2 per cent cut, full earnings would be \$92.3 million (57 per cent of the estimated total revenues for the Instructional and General Program). Also, instructional subsidies of \$4.0 million are available for credit instructional programs at Lima, Mansfield, Marion, Newark and Wooster.

The enrollment pattern by program this Summer and Autumn will determine the subsidies earned during 1975-1976. There are complex formulae which relate credit hours of instruction to subsidy earnings and, finally, to the University's actual allocation.

I. GENERAL RECOMMENDATIONS (continued)

A. Proposed Budget for the 1975-76 Fiscal Year and Proposed Changes in the Instructional and General Fees (continued)

President Enarson's statement (continued)

Although enrollment forecasting is hardly an exact science, we are confident Ohio State's subsidy earnings will be close to the appropriated levels. New this year is the requirement that the pay bill for civil service employees be funded in its entirety from the instructional subsidy. As already noted, that factor is a major constraint on our program flexibility.

c. Proposed New Fees and Projected Fee Revenues.

I am proposing four fee changes for your consideration and approval: (a) An increase of \$10 per quarter in the Instructional Fee for all Columbus programs, effective Autumn Quarter, 1975, (b) an increase of \$20 per quarter in the Instructional Fee at Lima, Mansfield, Marion, Newark and Wooster, effective Autumn Quarter, 1975, (c) the lowering of part-time fees for 7 and 8 credit hours, undergraduate and Master's programs, all campuses, effective Autumn Quarter, 1975, and (d) an additional increase of \$20 per quarter in the Instructional Fee for the five post-baccalaureate professional programs, effective Winter Quarter, 1976.

After extensive consideration of the recent 2 per cent cut in subsidy, we concluded that this loss should be shared between additional cutbacks in expenditures and an increase in the charges to students. Reluctantly, therefore, I am recommending that the Instructional Fee be raised \$10 per quarter for all Columbus programs and \$20 per quarter at Lima, Mansfield, Marion, Newark and Wooster, effective Autumn Quarter, 1975. The new fees would be:

	Date Effective	Full-Time Instructional Fee		Full-Time General Fee

Next, it is recommended that the second phase of our plan to lower fees for part-time studies (students enrolling for one or two courses only) be implemented effective Autumn Quarter, 1975 (all campuses). On July 6, 1973, as a part of the University's new program to open its doors to the non-traditional, the evening and part-time student, the Board approved modifying the fee structure to a credit-hour charge for enrollment in six or fewer credit hours, with a minimum charge for three or fewer credit hours. We are pleased with the response to these changes. I am convinced now that Ohio State, for its mix of programs and enrollment ceiling, has a fee structure which is reasonable and defensible--except for 7 and 8 credit hours in undergraduate and Master's programs. Ohio State enrolls relatively few undergraduate and Master's students in the 7 and 8 credit-hour range. This is because the students perceive quickly that educational costs can be reduced either by adding or dropping a course to move away from this range. Therefore, I am recommending that the fees for 7 and 8 credit hours be placed on a credit hour charge for all undergraduate and Master's programs effective Autumn, 1975. We believe this to be fair to the students and not likely to affect income substantially. The proposed new fee schedule for all campuses is as follows:

Thirdly, I am recommending that the Instructional Fee for enrollment in our five post-baccalaureate professional programs (Dentistry, Law, Medicine, Optometry, and Veterinary Medicine) be increased an additional \$20 per quarter, effective Winter Quarter, 1976. This would raise the quarterly Instructional Fee from \$270 last year to \$280 this Autumn and then to \$300 effective Winter, 1976. The total quarterly charge (Instructional and General Fees) would be \$350 per quarter, up \$30 (+9 per cent) from \$320 last year. Presently, our Instructional Fee of \$270 per quarter is considerably below the \$400 level indicated for these programs by the Board of Regents. The Instructional and General charges last year at public universities in Ohio for full-time enrollment as an Ohio resident in comparable programs were: Akron-\$360 for Law (15 credit hours), Cincinnati-\$450 for Law and Medicine, Cleveland State-\$340 for Law, Medical College of Ohio-\$400 for Medicine, Ohio State-\$320 for Dentistry, Law, Medicine, Optometry and Veterinary Medicine, and Toledo-\$350 for Law. I. GENERAL RECOMMENDATIONS (continued)

A. Proposed Budget for the 1975-1976 Fiscal Year and Proposed Changes in the Instructional and General Fees (continued)

President Enarson's statement (continued)

charges last year at other public Big Ten universities ranged from \$230 to \$535 per quarter; the median level was slightly under \$300 for Law and between \$350 and \$400 for the other professional programs.

For all of these proposed changes in the Instructional Fee, fee revenues for the Columbus Campus next year will be higher by about \$1.4 million--from \$45.7 million last year to an estimated \$47.1 million this year. The expected increase includes the projected effects of: (a) Total enrollments by level, (b) the full-time, part-time distribution, (c) the proposed increase in the Instructional Fee, (d) the proposed new fees for 7 and 8 credit hours and (e) the proposed new Instructional Fee for the professional programs.

Lastly, I am recommending that the Instructional Fee for undergraduate programs at the Lima Campus, Mansfield Campus, Marion Campus, Newark Campus and the Agricultural Technical Institute (Wooster) be increased from \$200 to \$220 per quarter, effective Autumn Quarter, 1975. This would raise the total quarterly charge (Instructional and General Fees) from \$235 to \$255 for full-time enrollment in all undergraduate programs at these campuses.

d. Earnings, Gifts and Grants.

The third general category of revenues for the Instructional and General Budget (beyond subsidy and student charges) is Departmental Earnings, Gifts and Grants. For the most part, these revenues are restricted--tagged for specific purposes. Departmental earnings are revenues from clinics, print shop, general stores, laboratory services, equipment repair and the sale of journals and other publications. Grants and gifts support a myriad of special purpose projects: work-study, training grants, named chairs, designated support for colleges and their departments, governmental-industrial-commercial grants, special equipment purchases and so forth.

Departmental earnings this year (in support of the Instructional and General Budget) are expected to increase \$1.9 million. Restricted gifts and grants are expected to increase \$1.8 million. Overall, revenues from earnings, gifts and grants are projected to increase \$4.0 million, up from \$22.1 million last year to \$26.1 million this year.

I. GENERAL RECOMMENDATIONS (continued)

A. Proposed Budget for the 1975-1976 Fiscal Year and Proposed Changes in the Instructional and General Fees (continued)

President Enarson's statement (continued)

Proposed Specific Budgets for 1975-1976

Summaries of the estimated income by source and the budgeted expenditures by principal program for the new fiscal year are attached. In addition to the summary for the Instructional and General Program (which budget was explained previously), summaries of budget expenditures as proposed for 1975-1976 are included for the other major programs: Sponsored Research, Public Service, Student Aid, Auxiliaries and Regional Campuses.

Expenditures this year for Sponsored Research (separately budgeted funds for research commissioned by a variety of sponsors) are projected to increase from \$25.1 million last year to \$26.6 million this year. The budget total of \$26.6 million includes those funds to be used in direct support of the sponsored research programs (\$24.8 million) and the expenditures projected for research administration (\$1.8 million). Of the \$24.8 million budgeted for direct support of the research programs, \$18.6 million are for programs administered by the Research Foundation, \$2.2 million are for programs administered by the Engineering Experiment Station, \$1.6 million are for University-sponsored research programs, and \$2.4 million are for the many special grants and contracts through the Development Fund and other University offices.

Budgeted expenditures for Public Service programs in 1975-1976 are up \$8.4 million over last year, primarily because of higher Hospital revenues. Increases in patient charges and even more stringent measures of economy have been required to balance the budget for the Hospitals. Funds budgeted for the Student Aid Program are at last year's level, even though the total aid for students is expected to increase. (An increasing proportion of student aid goes directly to students via the Instructional Grants Program, State of Ohio, and by the Federal Basic Opportunity Grants Program.) Student Aid budgets for University supported programs have been increased \$140,000.

Total expenditures for auxiliary enterprises (housing, athletics, bookstores, facilities services, food facility, parking facilities, health services, student services, and so forth) are up from \$42.2 million last year to an estimated \$44.6 million this year.

I. GENERAL RECOMMENDATIONS (continued)

A. Proposed Budget for the 1975-1976 Fiscal Year and Proposed Changes in the Instructional and General Fees (continued)

President Enarson's statement (continued)

Regional Campus budgets have been developed using the same budget objectives as proposed for the Columbus programs. Revenues and expenditures for the Lima Campus, Mansfield Campus, Marion Campus, Newark Campus, Agricultural Technical Institute (Wooster), and the Wright Patterson Graduate Center are expected to increase from \$7.4 million last year to \$8.9 million this year (+20 per cent). Increases in instructional subsidy will provide 2/3 of the expected additional revenues.

- o -

Mr. Michael S. Aguiar, a student and a Vietnam veteran, spoke in opposition to the \$10 per quarter increase in the student fees for the coming year.

Mr. Thomas Worley, representing the Undergraduate Student Government, expressed displeasure that the students did not have an opportunity to participate in the budgetary decision involving the increase in student fees.

President Enarson's Concluding Recommendation

Now I wish to recommend that the budget for the fiscal year 1975-1976 and the changes in fees be approved; and that the Secretary be instructed to incorporate all supporting documents by reference, including the salary rolls and the inventory of fees and charges for the fiscal year 1975-1976, and to file these materials with the official records of the University.

Upon motion of Mr. Safford, seconded by Mr. Gushman, the Board of Trustees approved the foregoing recommendations by unanimous roll call vote.

I. GENERAL RECOMMENDATIONS (continued)

STATEMENT TO THE BOARD OF TRUSTEES

July 11, 1975

PROPOSED INITIATIVES CONCERNING EXPANDED OPPORTUNITY

FOR WOMEN AND MINORITIES

The many complex problems of expanding educational and job opportunities for women and minorities trouble colleges and universities everywhere. All institutions are under a moral as well as a legal mandate to pursue vigorously programs of affirmative action. In many ways OSU has been in the forefront of such efforts. Although precise comparisons are difficult to make, we believe that OSU has made more progress in the past half decade than most of its sister institutions. Most complaints have been successfully resolved. And indeed, the federal agencies have not found OSU in violation of federal law--this at a time when the programs of many institutions, among these the leading universities of the nation, are under legal challenge.

However, as I have reported in previous detailed reports on our affirmative action program, more progress needs to be made. Like major universities everywhere, OSU seems to have reached a plateau. Despite special programs of recruitment and retention, the proportion of women, blacks, and other racial minorities in the University has stabilized--partly because of the intense competition for the limited supply of prepared persons.

Our principal obstacle is not discrimination which, regrettably, in years past has occurred all too often. It is simply that special and intensified efforts must be made in the years ahead if further progress is to be made. Affirmative action must strike deeper roots in the University community. Formal policies are only the base on which successful efforts are built. Similarly, the personal commitment of the President and his colleagues in the administration is not enough. There must be new initiatives that involve the University community more intimately and directly.

I propose three such initiatives for the consideration of the Board of Trustees:

1. Wider Involvement of Faculty, Staff, and Student Leadership.

I propose the setting up of a Commission on Women and Minorities with representation from the faculty, staff, students, administration, and community. Some would have preferred that the issues and concerns of women and of minorities be addressed separately. However, the problems are essentially inseparable and it does no

I. GENERAL RECOMMENDATIONS (continued)

President Enarson's Proposed Initiatives Concerning Expanded Opportunity for Women and Minorities (continued)

good to pretend otherwise. The issue is one of expanded opportunity in both instances--always within the context of concern for quality and for equity in all personnel decisions. The charge to the Commission is set forth in an attachment.

It is essential that the University community as a whole confront these issues. And we should expect recommendations that will better enable the University to come to grips with issues that are so wrapped up in strong emotions. In addition to providing a forum for group grievances, I also hope that such a Commission would contribute through its report to a better understanding of the extraordinarily complex issues (in law, regulation, policy) subsumed under the phrase 'affirmative action.' The life span of the new Commission should be a year at minimum.

2. Strengthened Office of Affirmative Action.

Mr. Madison Scott serves full-time as Associate Vice President for Personnel Services. He also serves as Affirmative Action Officer, reporting in that role directly (and frequently) to the President. He is assisted by Dr. Johanna S. DeStefano, who is substantially full-time except for teaching a class. The direct involvement of the director of personnel management in affirmative action has been one of the chief strengths of the present arrangement.

However, as I have already indicated, the Office of Personnel Services--which serves over 23,000 persons employed part or full time in all areas of the University--is itself a full-time executive position. To give affirmative action also renewed, undivided, and sustained attention is clearly impossible. Accordingly, I recommend that the position of Affirmative Action Officer be established as a full-time position. The post now held by Dr. DeStefano should continue as a full-time (or substantially full-time) position. It is crucial that the Office of Affirmative Action continue to be linked intimately with the Director of Personnel Services. However, the chief affirmative action officer should continue to report directly to the President, with immediate access.

I. GENERAL RECOMMENDATIONS (continued)

President Enarson's Proposed Initiatives Concerning Expanded Opportunity for Women and Minorities (continued)

3. Increased Financial Assistance in Professional Schools.

The goal of "equal representation," plausible as it may seem, is a snare and a delusion as long as the nation suffers from extreme shortages of women and minorities in so many fields. As long, for example, as less than one per cent of the nation's dental schools faculty are black, the efforts of dental schools to recruit black faculty are plainly doomed to failure. No amount of commitment, good faith efforts, and reinvigorated affirmative action can banish the reality of this statistic. And one institution's success in recruiting a black or a woman faculty member becomes, unfairly, the measure of another university's failure. This is the essential dimension that is replicated in every single graduate and professional field. And this is why OSU and other universities will be 'failing' in our affirmative action efforts in the years ahead--for as long as the pipelines of our universities are as small and few as they are.

Enlarging the enrollments in professional schools is not a simple matter--far from it. Here we face the cruel legacy of poverty, of stereotypes in the professions, of ghetto schools, of poor counseling, and of the absence of 'role models.'

In recent years OSU's professional schools have increased their efforts to attract and retain racial and ethnic minorities, women, and the economically or geographically disadvantaged. Money is only a relatively small part of this bundle of problems. However, money is important. As the pool of interested and eligible candidates grows, financial assistance is essential if opportunity is to be made a reality.

The need for financial assistance for all needy students at all levels is a bottomless pit. Despite the many federal, state, and institutional programs of financial aid, there is never enough money to go around. In the long haul, only substantially increased investments by government and by private donors can begin to meet the need and thereby remedy the current imbalances that exist in the enrollments to our professional schools.

July 11, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

President Enarson's Proposed Initiatives Concerning Expanded Opportunity for Women and Minorities (continued)

However, we can and must make a beginning. I propose that, despite the extremely tight 1975-76 budget, we set aside \$200,000 for financial assistance to recruit and retain needy but admissible minority, women, and disadvantaged students for whatever cause into our professional schools. These funds should serve as 'seed money' as we attempt to attract private support, possibly on a matching basis. The eligibility for such assistance, it must be emphasized, is the determination of qualifications and of prior disadvantage.

These initiatives are recommended for your consideration and support.

CHARGE TO THE COMMISSION

TO REVIEW THE STATUS OF MINORITIES AND WOMEN

AT THE OHIO STATE UNIVERSITY

1. To study and evaluate current programs for broadening educational and employment opportunities for minority groups and women in all functions and activities of The Ohio State University, including programs specifically designed to meet the needs of disadvantaged students.
2. To inquire into and report on existing conditions, practices, and policies which result in any form of discrimination against or disadvantage for minority groups and women.
3. To delineate clearly and specifically the achievements as well as the weaknesses of the University's Affirmative Action Programs, and to suggest appropriate ways in which the University's efforts may be enhanced.
4. To communicate to the University and its various constituencies the significance and importance of the University's affirmative action efforts, and the need for increased sensitivity in this regard in employment as well as educational opportunities. In addition, to encourage the development of recruiting programs which will enhance educational and employment opportunities.

I. GENERAL RECOMMENDATIONS (continued)

President Enarson's Proposed Initiatives Concerning Expanded Opportunity for Women and Minorities (continued)

5. And, in view of the above, to make such recommendations as in the Commission's view would sustain, strengthen, and improve the whole concept and program of affirmative action at The Ohio State University.

Upon motion of Dr. Sirak, seconded by Dr. Jacob, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

B. Revision of Rules 28.11, 35.07, 54.01, 54.03, and 54.05 of Rules of the University Faculty

The University Senate at its meeting on May 20, 1975, recommended changes in the grading system for the University. These changes require revision of Rule 35.07 which sets forth all the approved Marks for the University.

At a subsequent meeting of the University Senate on June 3, 1975, the following changes in the Rules of the University Faculty were recommended to the Board of Trustees.

Rule 28.11 - Allows Senate to reconsider actions it may have taken.

Rules 54.01, 54.03, 54.05 - Pertain to operation of the Ohio and Drake Unions and doubles the size of body which supervises the operation.

President Enarson recommended that the proposals from the University Senate relating to the revisions in the Rules of the University Faculty be approved.

Upon motion of Mr. Gushman, seconded by Mr. Harrod, the Board of Trustees approved the foregoing recommendation by unanimous voice vote.

C. Distinguished Service Awards and Degrees and Certificates--Summer Quarter Commencement

Serving as a Committee on Distinguished Service Awards, the President's Staff has nominated and recommended for approval by the Board of Trustees, the following-named persons to receive the Distinguished Service Award at the August 29, 1975, Commencement. These awards are given in recognition of distinguished service to The Ohio State University and the awards are in accordance with action taken by the Board of Trustees in 1952.

July 11, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

C. Distinguished Service Awards and Degrees and Certificates--Summer Quarter Commencement (continued)

President Enarson recommended that degrees and certificates be conferred at the Summer Quarter Commencement Convocation on August 29, 1975, to those students who have completed the requirements for their respective degrees and certificates and are recommended by the University Senate. Since the College of Dentistry operates on a twelve-month basis, the Convocation for this College will be held on September 19, 1975, in a special ceremony in Mershon Auditorium. The names of those awarded degrees and certificates will be included in the minutes of this meeting. (See Appendix I, page 95.)

Upon motion of Mr. Harrod, seconded by Dr. Sirak, the Board of Trustees approved the foregoing recommendation by unanimous voice vote.

D. Revision of By-Laws of the Inter-University Council of Ohio

At the June 16, 1975 meeting of the Inter-University Council, the By-Laws of this organization were recommended for revision. Each Board of Trustees of the participating state-assisted institutions of higher learning in Ohio has been asked to ratify these By-Laws.

President Enarson recommended that these By-Laws which become operative upon ratification by the participating state-assisted institutions of higher education in Ohio be approved by the Board of Trustees of The Ohio State University.

Upon motion of Mr. Devenow, seconded by Mr. Harrod, the Board of Trustees approved the foregoing recommendation by unanimous voice vote.

II. PERSONNEL ACTIONS

Personnel actions since the June 6, 1975 meeting of the Board as recorded in the official "Salary Roll" of the University, include the following Appointments, Leaves of Absence Without Salary and Emeritus Titles:

A. Appointments

Madison H. Scott, Vice President for Personnel Services, effective immediately, at a salary of \$38,568.00 per annum.

BY-LAWS OF THE  
INTER-UNIVERSITY COUNCIL OF OHIO

ARTICLE I

Name

The name of this voluntary educational association shall be the Inter-University Council of Ohio.

ARTICLE II

Purpose

The purpose of the Council shall be to advance higher education in Ohio by all appropriate means and to interrelate action among the participating public institutions of Ohio in all matters of policy or practice which concern more than one of the institutions; through the Council the participating public universities shall cooperate closely, placing common goals above conflicting institutional preferences yet preserving maximum recognition of independence and existing diversity of each; and the Council shall cooperate with the Ohio Board of Regents in joint planning and development of educational policy, in designing cooperative strategies for cultivating public understanding and support, in coordinating and implementing public policy, and in ensuring the representational interests of the public universities, through the Ohio Board of Regents, for the wider planning functions for public post-secondary education in the state.

ARTICLE III

Members

The Council shall consist of the President and one Board Member of the University of Akron, Bowling Green State University, Central State University, University of Cincinnati, Cleveland State University, Kent State University, Medical College of Ohio at Toledo, Miami University, Ohio State University, Ohio University, University of Toledo, Wright State University, and Youngstown State University, and such other state-assisted institutions hereafter approved by amendment to these By-Laws. If at any time a participating institution is without a president, the acting president shall serve as a member of the Council until the designation of a president. Each Board Member serving on the Council shall be designated by the Board of the participating institution, to serve until a successor is named.

ARTICLE IV

Officers

Section 1. Appointment to Office. Officers of the Council shall be: Chairman, Vice Chairman, and Executive Secretary. Following the order established in Article III, the office of the Chairman shall be rotated yearly among the

By-Laws of the Inter-University Council of Ohio (continued)

presidents of the participating institutions, provided that no one shall be eligible who has not served a minimum of two years as president or acting president of his institution. The institutional president next succeeding to chairmanship of the Council shall serve as Vice Chairman. The Executive Secretary shall be employed by the Council and shall serve at its pleasure.

Section 2. Terms of Office. The terms of office of the Chairman and Vice Chairman shall run from July 1 to June 30.

Section 3. Secretariat. The Office of the Executive Secretary shall be staffed in such ways as may be prescribed from time to time or as required by the Chairman.

ARTICLE V

Meetings

Section 1. Schedule of Meetings. There shall be at least quarterly meetings supplemented by such additional meetings as are deemed necessary. Special meetings shall be called by the Chairman of the Council, or upon request by any two Presidents or Board Members.

Section 2. Notice of Meetings. The Executive Secretary shall furnish each member of the Council with written notice of each regular or special meeting, giving details of time, place, and agenda.

Section 3. Agenda for Meetings. The agenda for each meeting shall be determined in advance by the Council Chairman in consultation with the Executive Secretary.

Section 4. Place of Meetings. The place of meetings shall be decided by common consent.

Section 5. Conduct of Meetings. The Chairman of the Council shall preside at all meetings which he attends. In his absence, the Vice Chairman shall preside; or failing him, the Chairman pro tem shall be elected from among those present after the meeting has been called to order by the Executive Secretary. The Executive Secretary shall attend all sessions unless instructed otherwise by the Council.

Section 6. Alternates. Council members shall notify the Executive Secretary if unable to attend the next called meeting. A President unable to be present may be represented by a Vice President or other administrative official; a Board Member unable to attend may designate a fellow Board Member as a representative. Representatives so designated shall be counted in determining the existence of a quorum, may initiate and second motions, and shall have the power to vote.

Section 7. Minutes of the Meetings. The Executive Secretary shall provide for the recording of the minutes of all meetings of the Council, shall furnish true copies to all Council members, and shall maintain at the office of the Secretariat a full and accurate file of all minutes.

By-Laws of the Inter-University Council of Ohio (continued)

ARTICLE VI

Committees

Section 1. The Council may in its work employ standing or ad hoc committees at its discretion. Committee personnel shall be appointed by the Chairman of the Council from Council members or, upon nomination of the respective Presidents, from the staff of each institution.

Section 2. There shall be an executive committee comprised of the Chairman, Vice Chairman, and three other members of the Council selected at large to include two (2) trustees and one (1) president. The Executive Secretary will serve the committee ex officio.

Section 3. The standing committees will be determined by the Council and serve at its pleasure. A current listing of such committees will be kept contemporary by the Executive Secretary as approved or dissolved by the Council.

ARTICLE VII

Financing

Section 1. Method. The financing of the Secretariat provided in Article IV, standing committees, and any other expenditures receiving Council approval shall be by yearly assessments laid upon the member institutions in proportion to their respective state appropriations for operating expenses.

Section 2. Budget. The Executive Secretary shall, for each ensuing year, prepare for submission to the Council a budget of estimated expenditures for the Secretariat. The Council shall approve the submission with such modifications as it deems to be required.

Section 3. Assessments. The chief fiscal officers of the participating universities shall, upon approval by the Council of the budget for the Secretariat and any other expenditures necessary to fulfill the objectives of the Council, determine the assessments to be made upon each participating institution and bill the chief financial officers thereof.

ARTICLE VIII

Procedural Jurisdiction

Section 1. Request for an Opinion of the Attorney General. Before any institution represented in the Council makes a submission to the Ohio Attorney General for legal opinion, formal or informal, the initiating member shall notify the Executive Secretary of the Council who shall immediately advise all other members of the pending problem and proposed request.

By-Laws of the Inter-University Council of Ohio (continued)

Section 2. Pending or Proposed Legislation. Pending or proposed legislation affecting more than one of the represented institutions shall be reviewed by the Council before any public position is taken on such legislation by and on behalf of any of the separate institutions.

ARTICLE IX

Formal Action

Section 1. Council Action. In all matters eventuating in formal action, each attending member shall have one vote. On matters other than routine action, the Council shall work to achieve unanimity. Each participating institution shall seek to avoid any form of commitment or understanding which compromises the tentative Council decision. Failing efforts to achieve unanimity, a minimum of a two-thirds vote of the members present shall be necessary for the proposition to prevail. Decisions both as to policy and practice shall be formulated and implemented in such manner as to permit the greatest degree of institutional freedom consistent with effective realization of actions taken.

Section 2. Board Action. Decisions of the Council are necessarily advisory in character, to be transmitted as recommendations to the boards of trustees and boards of directors of the institutions represented in the Council. Council decisions reached after full deliberation, however, shall be accorded a heavy presumption of validity by the respective boards of trustees as to the educational issues involved.

Section 3. Parliamentary Authority. The current edition of Robert's Rules of Order shall govern Council proceedings in all circumstances in which they are applicable but not inconsistent with the By-Laws of the Council.

ARTICLE X

Amendment of By-Laws

These By-Laws can be amended at any regular meeting of the Council according to the provisions of Article IX, provided that the amendment has been submitted in writing by a mover and two seconds and has been distributed with the required notice of the meeting.

ARTICLE XI

Schedule

These By-Laws shall become operative, displacing the Constitution and By-Laws adopted January 5, 1962 and amended October 1966, immediately upon their ratification by the last of the participating state-assisted institutions of higher education in Ohio.

July 11, 1975 meeting, Board of Trustees

3. Establishment of Named Funds (continued)

a. The William G. Holiday Memorial Fund (continued)

Should the need for cancer research in the College of Medicine cease to exist or should the College of Medicine undergo reorganization, then the income may be used by the Board of Trustees, with preference being given to arthritis or heart disease research, subject to the recommendations of the appropriate administrative official who is then directly responsible for medical research.

b. \$4,400.00 from the family of Jack R. Henry for the establishment of The Jack R. Henry Memorial Fund.

The Jack R. Henry Memorial Fund

The Jack R. Henry Memorial Fund was established on July 11, 1975, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the family of Jack R. Henry, B.A. '39, M.D. '43, in his memory.

All gifts are to be invested in the University's Permanent Endowment under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used for scholarships, student loans, research or any other worthy need of the College of Medicine. Requests for funds will be approved by the Dean of the College of Medicine.

Should the need for these funds cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for medical education.

3. Establishment of Named Funds (continued)

- c. \$1,000.00 from Pamela J. Stallkamp and Todd C. Stallkamp for the establishment of The Pamela J. and Todd C. Stallkamp Scholarship Fund.

The Pamela J. and Todd C. Stallkamp Scholarship Fund

The Pamela J. and Todd C. Stallkamp Scholarship Fund was established July 11, 1975, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Pamela J. Stallkamp, B.S. '64, and Todd C. Stallkamp, B.S. '59, M.D. '64, Toledo, Ohio.

All gifts are to be invested in the University's Permanent Endowment under the rules and regulations adopted by the Board of Trustees of The Ohio State University with the right to invest and reinvest as occasion dictates.

The annual income is to be added to the principal until the fund reaches \$10,000.00. At that time, the income is to be used to provide one or more scholarships to students enrolled in the College of Medicine and the School of Nursing. The scholarships will be given on alternate years to students enrolled in nursing and medicine. Preference in selecting the recipient(s) should be given to former athletes or to students currently participating in intercollegiate athletics. Selection of the recipient(s) is to be made by the University Scholarship Committee upon the recommendation of the Dean of the College of Medicine.

Should the need for these scholarships cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is directly responsible for medical education.

University by the late Robert M. Critchfield, E.E. '16, former vice president of the General Motors Corporation.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

Appointment to the Professorship will be recommended by the Dean of the College of Engineering to the Provost and approved by the Board of Trustees. The recipient will be selected from among faculty members, regular or special, of the College of Engineering, with preference to those in the Department of Electrical Engineering. The Professorship will be conferred for a term of four years subject to renewal only in special cases approved by the Dean and the Provost.

In addition to his title, the Robert M. Critchfield Professor in Engineering will have access to a fund of \$5,000 per year, derived from interest on the endowment, to be used, with the approval of his Department Chairman and the Dean, to support his work in teaching and research through the purchase of equipment and instrumentation, employment of assistants, and/or defrayment of costs of travel, publication, and incidentals related to his professional development.

Should the need for this Professorship cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for engineering education.

V. BUSINESS AND ADMINISTRATION

A. Architects or Engineers

1. Agricultural Technical Institute (Wooster, Ohio) - Phase II

President Enarson recommended that the firm of Hoag-Wismar Partnership, Cleveland, Ohio, be employed to provide complete architectural and engineering services for this project, including preliminary plans, basic drawings, working drawings, specifications, estimates of cost, architectural rendering, necessary bidding documents and supervision of construction.

This project will provide the second building for the Agricultural Technical Institute on the plot set aside for the Institute on the campus of the Ohio Agricultural Research and Development Center at Wooster, Ohio. This will provide facilities for the increased student loads and expanding academic programs of the A. T. I. which leads to an associate degree.

The fee for this service will be negotiated between the firm and the Department of Administrative Services, Division of Public Works. The total project cost is \$4,000,000.00.

Funds for this service have been provided from H. B. 687, Item 366-002 (Agricultural Technical Institute, Wooster, Ohio, The Ohio State University, Phase II).

2. Traffic Improvements/Cannon Drive Improvements

President Enarson recommended that the firm of Burgess & Niple, Ltd., Columbus, Ohio, be employed to provide complete engineering services for this project, including preliminary plans, basic drawings, working drawings, specifications, estimates of cost, necessary bidding documents, resident engineering for supervision of construction, and architectural rendering of the bridge.

This project involves the improvement of traffic flow and traffic safety on Stadium Drive and on Cannon Drive.

The fee for this service will be negotiated between the firm and the Department of Administrative Services, Division of Public Works. The total project cost is \$1,150,000.00.

Funds for this service have been provided from H. B. 687, Item 315-097 (Cannon Drive Improvements) and H. B. 687, Item 315-074 (Utilities and Renovation - Traffic Improvements).

3. Newark Branch Campus--Phase III

President Enarson recommended that the firm of Bergemann-Vanek & Associates, Canton, Ohio, be employed to provide complete architectural and engineering services for this project, including preliminary plans, basic drawings, working drawings, specifications, estimates of cost, architectural rendering, necessary bidding documents, and supervision of construction.

This project will provide a new building to the southeast of Founders Hall on the Newark Campus. This building will provide facilities to accommodate the Central Ohio Technical College associate degree program and the baccalaureate programs of The Ohio State University Newark Campus.

The fee for this service will be negotiated between the firm and the Department of Administrative Services, Division of Public Works. The total project cost is \$1,425,000.00.

Funds for this service have been provided from H. B. 687, Item 315-093 (Newark Branch, Ohio State University--Phase III, in cooperation with Central Ohio Technical College).

4. Pharmacy Addition

President Enarson recommended that the firm of Croce & Abbott, Architects, Columbus, Ohio, be employed to provide complete architectural and engineering services for this project, including preliminary plans, basic drawings, working drawings, specifications, estimates of cost at each stage, necessary bidding documents, architectural rendering and supervision of construction.

This project involves a major addition on the north side of the present Pharmacy Building as well as the possibility of minor classroom additions on the southwest. The new building will provide educational facilities to meet the increasing student load in the College of Pharmacy.

The fee for this service will be negotiated between the firm and the Department of Administrative Services, Division of Public Works. The total estimated project cost is \$1,400,000.00.

Funds for this service have been provided from H. B. 687, Item 315-096 (Pharmacy Addition).

5. Music Addition and Hayes Hall Renovation

President Enarson recommended that the firm of Eschliman Associates, Columbus, Ohio, be employed to provide complete architectural and engineering services for this project, including preliminary plans, basic drawings, working drawings, specifications, estimates of cost, architectural rendering, necessary bidding documents, and supervision of construction. This firm will provide the additional services of an architectural firm with the national reputation in historical restoration work as design consultant for the Hayes Hall Renovation portion of the project, and also provide the services of an acoustic consultant and a theatre consultant for the Music Addition portion of the project.

The Music Addition will be a facility to house the performance division of the School of Music. Students and faculty in voice and instrument programs will engage in individual and group instruction and practice and in presentation of various programs such as concerts, opera, musical shows, ballet, modern dance and musical lectures.

The Hayes Hall Renovation project will restore and/or preserve the exterior facades and the interior decorative elements of the South Wing. In addition, the electrical systems, plumbing systems, and the heating and ventilating systems of the building will be renewed to present-day standards and codes. The building will be developed as a facility to accommodate the Division of Art and the Division of the History of Art.

The fee for this service will be negotiated between the firm and the Department of Administrative Services, Division of Public Works. The project cost for the Music Addition is \$3,500,000.00, and the project cost for the Hayes Hall Renovation portion of the project is \$1,750,000.00.

Funds for this service have been provided from H.B. 687, Item 315-095 (Music Addition) and H.B. 687, Item 315-074 (Utilities and Renovation) for the Hayes Hall Renovation project work.

6. East Stadium Improvements - Research Space

President Enarson recommended that the firm of John W. Spencer & Associates, Inc., Columbus, Ohio, be employed to provide architectural and engineering services necessary to develop a project feasibility study consisting of preliminary drawings, outline specifications and estimates of cost. Upon evaluation of feasibility study and determination of scope of project, they will provide additional architectural and engineering services consisting of basic drawings, working drawings, specifications and estimates of cost at each stage, necessary bidding documents and supervision of construction.

6. East Stadium Improvements - Research Space (continued)

This project involves the development of approximately 3, 500 square feet of undeveloped loft space constructed in 1967 under the project known as "Research Space, East Side of Stadium, Phase IV." Additional contiguous space for the Department of Psychology staff and graduate researchers will be provided by this project in the form of experimental research booths observable from a centralized control room, research cubicles, senior staff offices, and student cubicles.

The fee for this service will be negotiated between the firm and the Department of Administrative Services, Division of Public Works. The total project is estimated to be \$200,000.00, contingent upon the evaluation of the feasibility study to be accomplished.

Funds for this service have been provided from local funds.

7. Agronomy, Natural Resources and Plant Pathology Building

President Enarson recommended that the firm of Brubaker/Brandt, Inc., Columbus, Ohio, be employed to provide complete architectural and engineering services for this project, including preliminary plans, basic drawings, working drawings, specifications, estimates of cost, architectural rendering, necessary bidding documents, and supervision of construction. Also, additional services of Sasaki, Associates and Pietro Belluschi as design consultants for the project will be provided.

This project will provide essential and modern facilities necessary to accommodate the academic, research and extension program of the Department of Agronomy, the School of Natural Resources and the Department of Plant Pathology. The new facilities will be located within the building complex of the College of Agriculture and Home Economics on the campus west of the Olentangy River.

The fee for this service will be negotiated between the firm and the Department of Administrative Services, Division of Public Works. The total project cost is \$11,000,000.00.

Funds for this service have been provided from H. B. 687, Item 315-094 (Agronomy, Natural Resources, and Plant Pathology).

Upon motion of Mr. Harrod, seconded by Dr. Sirak, the above recommendations, dependent upon the final passage of the new House Bill 687, were approved by unanimous roll call vote.

V. BUSINESS AND ADMINISTRATION (continued)

B. Plans and Specifications

At the request of the Vice President for Business and Administration, President Enarson recommended that the plans and specifications, bills of materials, and estimates of cost for the following projects be approved by the Board of Trustees.

1. Research Center--Roof Repairs

This project will provide for the repair of the north side low section and connecting monitor deck of the Research Center roof. The roof was installed when the building was erected in 1945.

Funds are budgeted in Budget Account 126070 (Contract Repair).

2. Biological Sciences Building--Exhaust and Boiler Revisions

This project will provide for the automatic operation of the boilers, thus reducing man hours, reduce chemical losses in laboratories, and water loss from the system due to wasting condensate to drains. Work on the exhaust air system will control air flow through chemical hoods in sheet metal duct work inside existing masonry chases.

Funds are budgeted in Budget Account 126070 (Contract Repair).

Upon motion of Mr. Devenow, seconded by Mr. Harrod, the above recommendations were approved by unanimous roll call vote, and the Secretary was authorized and directed to sign the plans and specifications for the above projects for and on behalf of the Board of Trustees. The Vice President for Business and Administration was directed to proceed with the request for bids in the normal University manner, and if satisfactory bids are received to proceed with the award of contracts. All action regarding this matter will be reported to the Board of Trustees at a later meeting.

C. Report of Award of Contracts

In accordance with authorization provided by the Board of Trustees, bids were taken on the project listed below and the contracts were recommended for award. The action reported to the Board was as follows:

1. Ohio Stadium Repairs--1975

1. Lease Agreement - Board of County Commissioners of Franklin County and the Board of Trustees of The Ohio State University

In accordance with an action of the Board of Trustees on September 6, 1974, the Board of County Commissioners of Franklin County will lease from The Ohio State University a parcel of University land situated at the northeast corner of the intersection of Cannon Drive and King Avenue, consisting of approximately one acre.

This lease, pursuant to the provisions of Sections 123.01 (A) (9) and 307.02 R. C., by and between the State of Ohio, through the Department of Administrative Services duly approved as to form by the Attorney General of Ohio, acting for and on behalf of The Ohio State University (State of Ohio), is now completed for execution.

President Enarson recommended that the Board of Trustees of The Ohio State University approve the Lease Agreement as is shown in the attached document.

L E A S E

THIS LEASE, made and entered into as of the \_\_\_\_ day of \_\_\_\_\_, 1975, pursuant to the provisions of Sections 123.01 (A) (9) and 307.02 R.C., by and between the State of Ohio, through the Department of Administrative Services duly approved as to form by the Attorney General of Ohio, acting for and on behalf of the State of Ohio, and approved by the Board of Trustees of The Ohio State University, herein referred to as "Lessor", and the Board of County Commissioners of Franklin County, Ohio, herein referred to as "Lessee".

W I T N E S S E T H :

PREAMBLE

WHEREAS, the Board of County Commissioners of Franklin County, Ohio, has determined that it is in the best interest of the citizens of Franklin County, Ohio, and surrounding counties to build a new County Coroner's office, laboratory and county morgue; and

WHEREAS, the Board of County Commissioners of Franklin County, Ohio, has determined that the County Coroner's office, laboratory and county morgue will serve the law enforcement agencies of Franklin County, Ohio, and surrounding counties as a crime laboratory; and

WHEREAS, the Board of County Commissioners of Franklin County, Ohio, has determined that the useful life of the County Coroner's office, laboratory and county morgue, will be approximately forty (40) years; and

WHEREAS, the Board of County Commissioners of Franklin County, Ohio, and the Board of Trustees of The Ohio State University, have determined that the County Coroner's office, laboratory and

county morgue should be situated in close proximity to the facilities of the medical college and related sciences of The Ohio State University, and that it will provide educational opportunities in matters relating to the operation of such a facility to students of The Ohio State University;

NOW, THEREFORE, IT IS HEREBY AGREED THAT:

ARTICLE I

GRANT OF LEASE

1. Lessor, for the consideration hereinafter provided to it by Lessee and the performance of the covenants and agreements hereinafter set forth to be kept and performed by Lessee, hereby leases unto Lessee and Lessee does hereby lease of and from Lessor, for the purposes of building a County Coroner's office, laboratory and County Morgue, the real property bounded and described as set forth in Exhibit A, (approximately one acre), attached hereto and made a part hereof by this reference, together with all improvements and appurtenances presently situated thereon or attaching thereto, which real property is situated at the northeast corner of the intersection of Cannon Drive and King Avenue in the City of Columbus, Franklin County, Ohio and consists of one acre, more or less, all being herein sometimes called the "Leased Premises".

2. The Premises, including the Leased Premises and those buildings and improvements constituting fixtures to be constructed thereon, as provided in Article IV and therein defined, shall become the property of the Lessor, free and clear of any and all claims by, through, or under Lessee, on the date of the expiration or termination of this Lease whether or not the same occurs at the end of the term herein granted, or prior thereto as provided herein. Upon termination of this Lease, by expiration or prior termination by default or otherwise, Lessor shall be the sole and absolute owner of the Premises,

free of any right, title, interest or estate of Lessee therein without the execution of any further instrument and without payment of any money or other consideration therefor. Lessee shall execute and deliver to Lessor such further assurances of title as may be required by Lessor. Lessee hereby grants, releases, transfers, sets over, assigns and conveys to Lessor all of its right, title and interest in and to the Improvements upon the termination of this Lease. Nothing herein contained shall adversely affect any right that Lessee may have to quiet enjoyment and possession so long as the Lease shall continue in force and effect and Lessee shall not be in default hereunder. The Lessee shall upon such termination well and truly surrender and deliver the Leased Premises and the Improvements to the possession and use of Lessor, without fraud or delay and in good order, condition and repair, ordinary wear and tear excepted, taking into consideration the useful life of the improvements if said Lease does not terminate until the time provided herein.

## ARTICLE II

### TERM

The term of this Lease shall be forty (40) years commencing on June 1, 1975.

## ARTICLE III

### CONSIDERATION

1. Lessor shall receive as consideration for this Lease, during the lease term for its educational purposes, the use of the Improvements and, at the end of such term, if Lessor desires, subject to the provisions of Article XVI, the vesting in Lessor of title to all of the Improvements constructed on the real property herein leased, or in lieu of the latter, a removal of the Improvements

and a restoration to its original condition of the real property as hereinafter provided.

ARTICLE IV  
DEVELOPMENT OF PREMISES

Lessee shall construct upon the Leased Premises a County Coroner's office, a morgue and a criminology laboratory (the "Improvements") to serve Franklin and surrounding counties and to provide educational opportunities in matters relating to the operation of such a facility to students of The Ohio State University.

1. The Lessee shall construct the Improvements according to the terms and conditions contained herein, and in accordance with drawings, plans and specifications approved in advance of commencing construction by The Ohio State University Architect and by the Architect of the State of Ohio, said Improvements to be completed in a good and workmanlike manner and in as diligent and expeditious a manner as possible but in no event later than June 1, 1978, extended, however, for any period of delay caused by Acts of God, fire or natural disasters, labor disputes or other events beyond the control of Lessee.

2. During the term hereof, Lessee will provide facilities and opportunities within the Improvements for, and its employees and agents will cooperate in affording time and space for, educating The Ohio State University students in courses and disciplines which the University determines to be appropriate and consistent with the nature of the activities normally and routinely conducted on the Premises, and in such manner as will not unreasonably interfere with the Lessee's use of the Premises.

3. The Premises shall be used by Lessee only as a County Coroner's office, a morgue, a criminology laboratory and for the other purposes stated in this Article.

ARTICLE V

TAXES AND ASSESSMENTS

Lessee shall pay all real property taxes and assessments, if any, levied or assessed against the Premises before the same become delinquent. Lessee shall have the right to contest, at Lessee's expense and in Lessor's name, the amount of any such taxes or assessments and Lessor agrees to cooperate with Lessee in the prosecution of any such contests in such manner as Lessee may reasonably require.

ARTICLE VI

OBLIGATION TO MAINTAIN LIABILITY AND CASUALTY INSURANCE AND TO REBUILD

1. As additional consideration for this lease, Lessee shall obtain and maintain, during the term of this Lease, and at Lessee's expense, public liability insurance naming both Lessor and Lessee as insureds thereunder, against injuries to and death of persons in amounts not less than \$500,000 for any one person and \$1,000,000 for any one accident or occurrence, and against property damage in an amount not less than \$50,000 for any one accident. Lessee agrees to use its best efforts to cause such insurance policy to be so written as to require not less than fifteen (15) days' prior written notice to the Lessor of an intent by the insurer to cancel such insurance.

2. Lessee shall obtain and maintain, at Lessee's expense, on the buildings and improvements to be constructed by Lessee on the Leased Premises, insurance against loss or damage as a result of fire and those hazards ordinarily insured against in Franklin County, Ohio in policies providing, by endorsement or otherwise, what is generally known as "All Risk Coverage" for physical damage or loss to the extent that such insurance is generally available

from most insurers of recognized responsibility authorized to do business in the State of Ohio. Such insurance shall be in an amount not less than eighty per cent (80%) of the replacement value of said buildings and improvements.

3. Upon the written request of Lessor, Lessee will obtain and furnish certificates or other satisfactory evidence of the insurance required by Lessee to be maintained pursuant to this Lease.

4. If any building, fixture or other improvements now or hereafter situated on the Leased Premises (except movable trade fixtures, furniture and furnishings) should at any time during the term of this Lease be damaged or destroyed by fire or otherwise, the Lessee may, at its sole cost and expense (except to the extent that it shall be reimbursed out of insurance proceeds), restore and rebuild the same as nearly as possible to the condition they were in immediately prior to such damage or destruction or build replacement improvements which, with the approval of Lessor, are determined to be at least as desirable under the circumstances and such restoration and rebuilding, prosecuted with reasonable diligence, shall be completed as soon as reasonably possible. If Lessee does not initiate statutory procedures or other appropriate action to rebuild the Improvements within ninety (90) days of the casualty and complete the same within a reasonably diligent manner, Lessee shall restore the Premises to the condition in which they were at the commencement of the lease term and this Lease shall terminate.

#### ARTICLE VII

#### MAINTENANCE AND REPAIRS

1. Lessee shall, at Lessee's cost and expense, maintain the Leased Premises, the Improvements, all facilities and equipment therein, and all sidewalks, curbs, roadways, parking areas in the Premises, and all appurtenances thereto, in first class operating

condition and repair, and shall maintain the Premises reasonably free from snow, ice and other obstructions or debris.

ARTICLE VIII  
COMPLIANCE WITH LAW

Lessee shall at all times during the term of this Lease, at Lessee's cost and expense, perform and comply with all applicable laws, rules, orders, ordinances, regulations and requirements now or hereafter enacted or promulgated, of any sovereign or municipality, or any agency thereof, including the Board of Trustees of The Ohio State University, having jurisdiction over the Leased Premises, or the buildings and improvements to be hereafter located thereon, or the facilities or equipment therein, or the streets, sidewalks, curbs, roadways, parking areas, and gutters in or adjoining the Leased Premises or the appurtenances thereto, or the franchises and privileges connected therewith, whether or not such laws, rules, orders, ordinances, regulations or requirements so involved shall necessitate structural changes, improvements, interference with use and enjoyment of the Premises, replacements or repairs, extraordinary as well as ordinary, and Lessee shall so perform and comply, whether or not such laws, rules, orders, ordinances, regulations or requirements shall now exist or shall hereafter be enacted or promulgated, and whether or not such laws, rules, orders, ordinances, regulations, or requirements can be said to be within the present contemplation of the parties hereto.

ARTICLE IX  
NO UNLAWFUL USE

During the term of this Lease, Lessee will not use or keep or allow the Leased Premises or any portion thereof or any buildings or other improvements to be hereafter erected or maintained thereon or any appurtenances thereto, to be used or

occupied for any unlawful purpose or in violation of any certificate of occupancy, and will not suffer any act to be done or any condition to exist on the Leased Premises or any portion thereof or in any building or other improvements now or hereafter erected thereon or in any appurtenance thereto, or permit any article to be brought therein, which may be dangerous, unless safeguarded as required by law, or which may, in law, constitute a nuisance, public or private, or which may make void or voidable any insurance in force with respect thereto.

ARTICLE X

MECHANIC'S LIENS

Notice is hereby given that Lessor shall not be liable for any work performed or to be performed on the Leased Premises, or in any building or improvements thereon, or in connection with any appurtenance thereto, or for any materials furnished or to be furnished at the Leased Premises, and that no mechanic's or other lien for such work or materials shall attach to the reversionary or other interest of Lessor.

ARTICLE XI

INDEMNITY

Lessee shall indemnify, defend and save harmless the Lessor, The Ohio State University, its Board of Trustees and its agents and employees, from and against all loss, liability or damage for injuries to or death of persons or damage to property sustained in or about the premises (other than such injuries, death or damage resulting from an act of the Lessor, The Ohio State University, its Board of Trustees, their agents and employees, or licensees) or resulting from the occupancy or use thereof by Lessee, its sublessees, agents, employees or invitees.

ARTICLE XII

DEFAULT

1. There shall be an event of default in this Lease if and when there shall have been a failure to construct the Improvements as herein provided, or failure to pay any item of taxes, assessments, fees or charges required by the terms hereof to be paid by Lessee; failure to obtain any policy of insurance or to pay any item of insurance premiums required to be paid by Lessee; or failure to perform any of the other terms or conditions of this Lease. Before what is hereafter referred to as a "default" shall ripen from or out of any of the foregoing events of default, there shall be given to Lessee a notice of such event of default in writing at least thirty (30) days in advance of a default as herein defined becoming effective, or if more than thirty (30) days are reasonably required to correct with reasonable diligence such event of default, then a default as herein defined shall not become effective unless and until there is a failure to commence to correct such event of default within thirty (30) days of such notice and to prosecute the same to completion with reasonable diligence; and provided further that there shall have been no cure of the event of default specified in said notice, which cure, however, may be effected during the period of said notice by the payment of any money which would have avoided the event of default, if made in due course. If and whenever any such event of default, of which notice shall have been given, shall have thus been cured within the thirty-day period, there shall be no default as herein defined but if not cured as provided in this paragraph, then upon the expiration of said thirty-day period, a default, as herein defined, shall exist.

2. A default as hereinabove defined having occurred, and the event of default not having been cured, then and in any such

event Lessor shall have the right, at its election, upon giving ten (10) days' notice of such election, to terminate this Lease and to enter upon the Premises and take possession thereof. Commencement of a proceeding or suit in forcible entry and detainer or in ejectment, or otherwise after any default by the Lessee, shall be equivalent in every respect to actual entry by the Lessor.

#### ARTICLE XIII

##### TITLE

Lessor represents that it is the sole owner of the Leased Premises and has a good and legal right to enter into this Lease and has complied with all the laws of the State of Ohio in leasing of the Leased Premises herein and will furnish written certifications of its good title and right to lease herein without cost to Lessee and will further take whatever action is necessary to cure any title defect in the title to the Leased Premises.

#### ARTICLE XIV

##### CONDEMNATION

If the Leased Premises, or any part thereof sufficiently large to materially affect the Lessee's use, shall be taken in any appropriation proceeding, or by any right of eminent domain, by any competent authority, then this Lease shall terminate and be utterly void from the time when possession thereof is taken for the public use, and such taking shall not operate as, or be deemed as, an eviction of the Lessee, or a breach of the Lessor's covenant for quiet enjoyment; but the Lessee shall perform and observe all of the covenants of this Lease up to the time when possession is acquired for public use, and neither party thereto shall have a right of claim against the other for damages or participate in the

amount of compensation awarded to the other party. Lessor shall notify Lessee at the time such appropriation proceedings are initiated against the owner of the Leased Premises.

#### ARTICLE XV

##### RETURN OF THE LEASED PREMISES

Upon termination of this Lease by expiration of the lease term. Lessor shall have the option to require Lessee to remove all Improvements to the Leased Premises (or any part thereof) and restore the Leased Premises to the condition in which they were at the commencement of the lease term, which option shall be exercised, if at all, by Lessor giving written notice of same to Lessee at least thirty (30) days prior to such termination. Upon termination of the Lease for any reason other than expiration of the lease term, Lessor shall have the option to require Lessee to remove all Improvements to the Leased Premises (or any part thereof) and restore the Leased Premises to the condition in which they were at the commencement of the lease term, which option shall be exercised, if at all, by Lessor giving written notice of same to Lessee at least ten (10) days prior to such termination.

#### ARTICLE XVI

##### LESSOR'S RIGHT OF INSPECTION

During the term of this Lease, Lessor or Lessor's authorized agents may enter upon the Premises at reasonable times for the purpose of making inspections of the same.

#### ARTICLE XVII

##### QUIET ENJOYMENT

Lessor covenants and agrees with Lessee that Lessee, on observing and keeping the covenants of this Lease on Lessee's part to be kept, shall lawfully, peaceably and quietly hold, occupy, and

enjoy the Leased Premises during the interim and original terms without hindrance or molestation by Lessor or any person claiming by or through Lessor.

ARTICLE XVIII

ASSIGNMENT

Lessee may not sell, assign, sublease or transfer this Lease, the Leased Premises or the Improvements or any part thereof, without the written consent of Lessor. No assignment or subletting of this Lease shall relieve the Lessee of its obligations hereunder.

ARTICLE XIX

NOTICES

All notices, demands and other communications which may be or are required to be given by either party to the other in writing shall be deemed given and delivered if sent by United States registered or certified mail, postage prepaid, and addressed (unless otherwise in writing requested):

2. WTVN - Broadcasting Tower Lease

It is proposed that the contract previously authorized between The Ohio State University and the Taft Broadcasting Company for the lease of a parcel of land for the purpose of constructing a broadcasting tower, be modified to enable the relocation of the tower for the purpose of minimizing possible interference with the ElectroScience facilities on this campus.

It was recommended that the President and/or Vice President for Business and Administration be authorized to make the appropriate modification in this document for the resiting of the tower and forward this revised contract to the Attorney General of Ohio for implementation.

Upon motion of Mr. Devenow, seconded by Mr. Smith, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

VI. REPORTS

A. Report from the Fiscal Affairs Committee

1. Sale of Property - Lot No. 9 and Portion of Lot No. 10 and Parcel "A," Unit No. 1 - County of Siskiyou, McCloud, California

Mr. Devenow, on behalf of the Fiscal Affairs Committee, recommended that the real property known as Lot No. 9 and Portion of Lot No. 10 and Parcel "A," in McCloud Subdivision, Unit No. 1, County of Siskiyou, McCloud, California, be sold to Robert E. and Marguerite R. Freeman for the sum of \$45,000.00.

It was recommended further that Edward Q. Moulton, Vice President for Business and Administration, be authorized to proceed with the sale of said property and that the President and/or Vice President for Business and Administration be authorized to execute the necessary documents to consummate the sale of the property as described in the foregoing paragraph.

Upon motion of Mrs. James, seconded by Mr. Devenow, the Board of Trustees approved the sale of property as described by unanimous roll call vote.

B. Report on the University's Investment Portfolio

The report dated July 11, 1975, as submitted to the Fiscal Affairs Committee of the Board of Trustees by Mr. Ernest W. Leggett pertaining to the University's Investment Portfolio, was received and ordered to be filed with the official records of the Board of Trustees.

VII. STATEMENT CONCERNING PRESIDENT'S SALARY

Mr. Dunlap made the following statement:

I notice, Mr. President, that you have not included within your budget presentation consideration of a salary adjustment for yourself. Further, there has been no adjustment in your salary for your three-year tenure which you will be completing on August 31. While it is appropriate that you not speak to this question, I think it is important that the Board consider this matter. Accordingly, I am asking John Gushman, as Chairman of the Educational Affairs Committee, to review the President's compensation level with the Educational Affairs Committee and bring to this Board at its next meeting a recommendation in this regard.

## **The Recipients of the Distinguished Service Award**

### **CHARLES H. COOK**

A devoted friend of this University, Charles Cook has made outstanding contributions to its growth and development, particularly at our Lima Campus. As co-chairman of the Lima Campus fund raising committee, he worked to establish this vital link between higher education and the Lima community. His belief in Ohio State as an institution of excellence has encouraged exceptional students to pursue their academic and athletic talents in her halls and on her playing fields, bringing honor to her name through their achievements. The Ohio State University recognizes his dedication by conferring upon Charles H. Cook the Distinguished Service Award.

### **ROBERT S. DORSEY**

An innovator and community-minded man, a well-rounded athlete and scholar, Robert Dorsey possesses technical ability equalled only by his humanitarian qualities. He has devoted long hours to his profession where he is noted as an expert in computer simulation. Giving generously of his leisure time he has tutored underprivileged youths, and imparted his leadership to his alma mater, Ohio State, as a member of its Board of Trustees, assisting in our efforts to provide equality of opportunity to all. The Ohio State University recognizes his dedication by conferring upon Robert S. Dorsey the Distinguished Service Award.

### **J. WESLEY LEAS**

A scientist and loyal alumnus, J. Wesley Leas has maintained an active interest in the betterment of The Ohio State University. His leadership on the Alumni Advisory Board has been energetic and effective. His recommendations for the improvement of the University's Development Fund system demonstrated his special perception and sensitivity to the unique qualities of that area. Because of his continuing service to the University, despite the demanding schedule imposed by his professional obligations, The Ohio State University recognizes his dedication by conferring upon J. Wesley Leas the Distinguished Service Award.

### **JULIA L. MARINE**

For twenty-nine years Julia Marine has helped to plan, organize, and administer the Colleges of the Arts and Sciences. She supported the restructuring of the College of Arts and Sciences into its five distinct units, helping to preserve liberal arts education on this campus, while maintaining for her peers an atmosphere of order and quiet transition. She earned the appreciation and respect of students and faculty whose tasks were facilitated by her perception, skill, and counsel. The Ohio State University recognizes her dedication by conferring upon Julia L. Marine the Distinguished Service Award.

Pahlavi, Iran

### **Bachelor of Science in Engineering Physics**

Four candidates

Glenn Robert Edgar, Sarahsville  
Dan Frank Monaco, Columbus  
Simon Edward Willard, Columbus  
Kathryn Ann Wilson, Reynoldsburg

### **Bachelor of Science in Industrial and Systems Engineering**

One candidate

Kenneth Paul Slattery, Wapakoneta

### **Bachelor of Science in Mechanical Engineering**

Ten candidates

John Czerkas, Lorain  
Lee Alfred Hagelbarger, Coshocton  
John Michael Hampey,  
Reisterstown, Md.

Thomas Edward Jacobs, Fort Loramie  
Daniel Steven Koenig, Botkins  
Douglas Craig Rock, Defiance  
David John Rolfes, Dayton  
B.S. (Xavier University)  
Jeffery Wade Sankey, Marion  
Thomas Gregory Thompson, Defiance  
Mitchell Alvin Wilder, Paulding

### **Bachelor of Science in Welding Engineering**

Two candidates

Stephen Paul Menicos, Canton  
Robert Craig Miller, Columbus

### **School of Architecture**

#### **Bachelor of Science in Architecture**

Thirteen candidates

Richard Border, Zanesville  
Anthony John Donadio, Niles  
Bruce Theo Heinlen, Bucyrus  
William Ray Logan, Zanesville  
Kenneth Richard Marko, Mayfield  
Richard Allen Miller, Olmsted Falls  
Paul Edward Petras,  
Binghamton, N. Y.  
Luis Riano, Bogota, Colombia  
Terry Alan Saylor, Worthington  
John Anthony Sudon, Youngstown  
Richard Edward Turkal, Hopedale  
Philip Walker Wise, Rochester, N. Y.  
Bruce Duane Wobser, Toledo

#### **Bachelor of Science in Landscape Architecture**

Three candidates

William Joseph Collins,  
Rockaway, N. J.  
Gregory Ward Holmes, Burton  
Dale Franklin Parsons, Wadsworth

## **College of Medicine**

Dean: Henry G. Cramblett, M.D.

### **Doctor of Medicine**

Thirteen candidates

Frederick Lynn Bean, Toledo  
Ronald Kent Bowers, Greenville  
B.S.  
Kim Edward Boyd, Millersburg

RESOLUTIONS IN MEMORIAM

President Enarson reported to the Board the deaths of George L. Brown, County Extension Agent Emeritus in the Cooperative Extension Service; Ernest A. Drake, County Extension Agent Emeritus in the Cooperative Extension Service; and Jay P. Slesman, Professor Emeritus in the Cooperative Extension Service. In accordance with the instructions of the Board of Trustees, copies of the following resolutions expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the families of the deceased.

A. George L. Brown

The Board of Trustees of The Ohio State University expresses its sorrow at the death on August 19, 1975, of George L. Brown, County Extension Agent Emeritus in the Cooperative Extension Service.

Mr. Brown was born October 17, 1895, in New Lexington, Ohio. He attended New Lexington High School, graduating in 1913. He enrolled in the College of Agriculture at The Ohio State University and received his Bachelor of Science in Agriculture degree in 1917. From 1917 to 1934 he operated a farm in Perry County, Ohio. In 1934 he joined the faculty of The Ohio State University as County Agricultural Agent serving for a few months in Morrow County then 12 years in Noble County prior to moving to Vinton County in 1946. Graduate education was undertaken at The Ohio State University, Colorado State College and Oregon State College.

Mr. Brown retired December 31, 1960, culminating over 26 years of dedicated service to the citizens of Ohio. Throughout his career he was a dedicated and highly respected agricultural editor, particularly in Vinton and Noble Counties. He was known and respected by his peers on the Extension faculty throughout the state. His quiet and effective leadership and contributions to the agriculture and forestry interests of Vinton County and the State of Ohio are well remembered.

On behalf of the University, the Board of Trustees expresses to the family of Mr. Brown its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to Mrs. Brown as sincere appreciation of the Board's realization of the loss the family, the University and his many friends and associates have sustained.

B. Ernest A. Drake

The Board of Trustees of The Ohio State University expresses its sorrow at the death on August 10, 1975, of Ernest A. Drake, County Extension Agent Emeritus in the Cooperative Extension Service.

Mr. Drake was born November 16, 1893, in Pennsville, Ohio. He attended Pennsville High School, graduating in 1911. He was actively engaged in farming through 1916. From 1917 to 1919 he served in the United States

B. Ernest A. Drake (continued)

Army both in this country and in Europe. Following a short period of commercial employment in 1920 he enrolled in the College of Agriculture at The Ohio State University and received his Bachelor of Science degree with a major in agricultural education in 1925. From 1925 to 1928 he was employed as County Agricultural Agent in Hampshire County, West Virginia. In 1928 he joined the faculty of The Ohio State University as a County Agricultural Agent serving for a few months in Pickaway County prior to appointment in Greene County on November 1, 1928. Graduate education was undertaken in 1939 and 1940 at Cornell University toward a Master of Science degree.

Mr. Drake retired January 31, 1960, culminating over 31 years of dedicated service to the citizens of Greene County. Throughout his career he was a dedicated and highly respected agricultural educator and leader of Greene County. He was well known and respected by his peers on the Extension faculty throughout the state. His quiet but effective leadership and outstanding contributions to the agricultural industry of Greene County and the State of Ohio will long be remembered.

On behalf of the University community, the Board of Trustees expresses to the family of Mr. Drake its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to Mrs. Drake as sincere appreciation of the Board's realization of the loss to the family, the University, and his many friends and associates.

C. Jay P. Slesman

The Board of Trustees of The Ohio State University expresses its sorrow at the death on July 15, 1975, of Jay P. Slesman, Professor Emeritus, Cooperative Extension Service.

Dr. Slesman was born September 16, 1904, in Scottdale, Pennsylvania. He moved to Ada, Ohio, at an early age and earned an A.B. degree in biology from Ohio Northern University in 1926. He completed his M.A. degree in 1927 and Ph.D. degree in 1929 at The Ohio State University. He spent his entire career at the Ohio Agricultural Research and Development Center specializing in vegetable crop insects and their control. He was assistant entomologist from 1929 to 1949, and associate professor from 1949 to 1953, before being named a professor in 1953.

Dr. Slesman retired June 30, 1975, culminating over forty-five years of public employment and service to the people of Ohio. Throughout his career, he earned and enjoyed the admiration and respect of people throughout the State of Ohio. In 1962 he was named "Man of the Year in Ohio Agriculture" by the Ohio Pesticide Institute, now known as the Ohio Pesticide Education Association. Last year, OPEA honored him by establishing a continuing scholarship in his name.

RESOLUTIONS IN MEMORIAM (continued)

C. Jay P. Slesman (continued)

In addition to his research activities, Dr. Slesman served fifteen years as editor of OPEA's publication "Ohio Pesticide News." He was an active member of the Entomological Society of America, the American Potato Association, the Ohio Pesticide Education Association, Sigma Xi and Gamma Alpha Fraternities. His research work in biology and the control of vegetable insects and the resistance of vegetable crop plants to insect attack was widely recognized.

On behalf of the University community, the Board of Trustees expresses to the family its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to Mrs. Slesman, as sincere appreciation of the Board's realization of the loss which the family, the University, his many friends and associates, have sustained.

President Enarson presented the following recommendations:

I. GENERAL RECOMMENDATIONS

A. Revision of Rule 21.03 of Rules of the University Faculty

President Enarson recommended that Section 1 of Rule 21.03, Appointments and Continuing Employment; Conditions Upon, be amended to read as follows:

Section 1. Upon nomination and recommendation by the president of the University, the Board of Trustees shall make all appointments to all positions within the University and approve the salaries therefor. Such appointments, for a period not to exceed four academic quarters, shall be evidenced by a notice of appointment signed by the Secretary of the Board and sent to the appointee for acceptance. The notice of appointment form is a budgetary convenience containing some detail relating to the employment relationship during the term of the appointment, such as salary, title, and the quarters during which service is to be rendered. The form is used for appointment to many and varied kinds of service, including appointment to positions which may be tenure accruing and others which are not. Neither the issuance of the notice nor its contents is intended to reflect any commitment by the Trustees as to the recipient's tenure or as to renewal of appointment.

(The balance of the rule is to be unchanged.)

Upon motion of Mr. Gushman, seconded by Mr. Harrod, the Board of Trustees approved the foregoing recommendation by unanimous voice vote.

September 5, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

B. Revised Edition of Booklet, Faculty Appointments, Promotions, and Tenure

RESOLVED, that the policies, including procedures and guidelines relating to faculty appointments, promotions and tenure contained in the booklet, Faculty Appointments, Promotions and Tenure attached hereto and included in the minutes of this meeting (see pages 213-227), revising the statement adopted by the Board of Trustees on July 13, 1962, be hereby ratified, approved and adopted.

Upon motion of Mr. Safford, seconded by Mr. Harrod, the Board of Trustees approved the foregoing recommendation by unanimous voice vote.

C. Revisions of Bylaws of the Board of Trustees and Rules of the University Faculty

In establishing the new Office of Personnel Services which this Board enacted on July 11, 1975, upon my recommendation, it now becomes necessary to realign the Bylaws of the Board of Trustees and the Rules of the University Faculty to reflect this change. These proposed revisions are attached. (See Sections 7 and 14 of the Bylaws of the Board of Trustees and Rules 11.1102 and 11.1109 of Rules of the University Faculty.)

It was recommended that the changes attached be approved.

Upon motion of Mr. Harrod, seconded by Mr. Safford, the Board of Trustees approved the foregoing recommendation by unanimous voice vote.

September 5, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

D. Rule Governing Resident and Non-Resident Student Status for Tuition Surcharge Purposes

In order to clarify the status of the non-resident student for The Ohio State University, the Attorney General of Ohio has requested the Board of Trustees to adopt a rule which would set forth the qualifications for admission as a non-resident student for the purpose of assessing fees for this University.

A. General Information

Every student who is not a resident of the State of Ohio, as defined below, is required to pay a non-resident tuition surcharge in addition to other University fees.

The student has the responsibility for keeping the Office of Registration Services informed of the factors relevant to residency status basic to appropriate fee assessment. If there is any question as to residency, the matter should be brought to the attention of that Office and passed upon prior to original or subsequent enrollment.

It is the intent of The Ohio State University in promulgating these rules to exclude from treatment as residents, as that term is applied here, those persons who are present in the State of Ohio primarily for the purpose of receiving the benefit of a state-supported education while insuring that that same benefit is conferred on all bona fide domiciliaries of this State whose permanent residence and legal citizenship is in Ohio and whose actual source of financial support is subject to Ohio taxation.

B. Definitions

1. For purposes of these rules, a resident of Ohio "for all other legal purposes" shall mean any person who maintains a 12-month place or places of residence in Ohio, who is qualified as a resident to vote in Ohio and receive state welfare benefits, and who may be subjected to tax liability under Section 5747.02 of the Revised Code: provided such person has not, within the time prescribed by these rules, declared himself or herself to be or allowed himself or herself to remain a resident of any other state or nation for any of these or other purposes.
2. "Financial support," as used in these rules, shall not include grants, scholarships, and awards from persons or entities which are not related to the recipient.

C. General Residency

The following persons shall be classified as residents of the State of Ohio for tuition surcharge purposes:

September 5, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

D. Rule Governing Resident and Non-Resident Student Status for Tuition Surcharge Purposes (continued)

1. Dependent students, at least one of whose parents or legal guardian has been a resident of the State of Ohio for all other legal purposes for 12 consecutive months or more immediately preceding the enrollment of such student in The Ohio State University.
2. Persons who have resided in Ohio for all other legal purposes for at least 12 consecutive months immediately preceding their enrollment in The Ohio State University and who are not receiving, and have not directly or indirectly received in the preceding 12 consecutive months, financial support from persons or entities who are not residents of Ohio for all other legal purposes.
3. Persons who reside and are gainfully employed on a full-time or part-time and self-sustaining basis in Ohio and who are pursuing a part-time program of instruction. (Part-time is defined as any number of credit hours less than seven.)
4. Persons who have been reclassified as residents under provisions of Section D6 of these rules.

D. Specific Exceptions and Circumstances

1. A person on active duty status in the United States military service who is stationed and resides in Ohio and his or her dependents shall be considered residents of Ohio for these purposes.
2. A person who enters and currently remains upon active duty status in the United States military service while a resident of Ohio for all other legal purposes and his or her dependents shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person's domicile.
3. Any alien holding an immigration visa shall be considered a resident of the State of Ohio for tuition surcharge purposes in the same manner as any other student.
4. No person holding a student or other temporary visa shall be eligible for Ohio residency for tuition surcharge purposes.

September 5, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

D. Rule Governing Resident and Non-Resident Student Status for Tuition Surcharge Purposes (continued)

5. A dependent person classified as a resident of Ohio who is enrolled in The Ohio State University when his or her parents or legal guardian remove their residency from the State of Ohio shall be considered a resident of Ohio for these purposes during continuous full-time enrollment and until his or her completion of any one academic degree program.
6. Any person once classified as a non-resident, upon the completion of 12 consecutive months of residency in Ohio for all other legal purposes, may apply to The Ohio State University for reclassification as a resident of Ohio for these purposes. Should such person present clear and convincing proof that no part of his or her financial support is or in the preceding 12 consecutive months has been provided directly or indirectly by persons or entities who are not residents of Ohio for all other legal purposes, such person shall be reclassified as a resident.

Determinations made under these rules may require the submission of all relevant information regarding the sources of a student's actual financial support.

7. Any reclassification of a person who was once classified as a non-resident for these purposes shall have prospective application only from the date of such reclassification.

E. Procedures

1. The Ohio State University provides individual students with a fair and adequate opportunity to present proof of their Ohio residency for purposes of these rules. The University may require the submission of affidavits and other documentary evidence which it may deem necessary to a full and complete determination under these rules.
2. A petition for reclassification of residency must be approved prior to the first day of classes for the quarter reclassification is to be effective.

President Enarson recommended that the non-resident rule as proposed be approved by the Board of Trustees.

Upon motion of Mr. Harrod, seconded by Mr. Safford, the Board of Trustees approved the foregoing recommendation by unanimous voice vote.

September 5, 1975 meeting, Board of Trustees

I. GENERAL RECOMMENDATIONS (continued)

E. Revised Edition of Code of Student Rights and Responsibilities

President Enarson recommended that the revised edition of Code of Student Rights and Responsibilities, effective Autumn Quarter, 1975, be approved and accepted as the official publication of the Board of Trustees.

Upon motion of Mr. Devenow, seconded by Mr. Harrod, the Board of Trustees approved the above recommendation by unanimous voice vote.

2. Establishment of Named Fund

- a. \$1,000.00 from Mary Ann Trapp for the establishment of The Mary Ann Trapp Scholarship Fund in Architecture.

The Mary Ann Trapp Scholarship Fund in Architecture

The Mary Ann Trapp Scholarship Fund in Architecture was established by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Mary Ann Trapp, B.A. '50, Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment under the rules and regulations adopted by the Board of Trustees of The Ohio State University with the right to invest and reinvest as occasion dictates.

The annual income is to be added to the principal until the fund reaches \$10,000. At that time, the income is to be used to provide one or more scholarships to students enrolled in the School of Architecture who have demonstrated academic ability and need for financial assistance. Selection of the recipient(s) is to be made by the University Scholarship Committee upon the recommendation of the Director of the School of Architecture.

Should the need for these scholarships cease to exist or so diminish as to provide unused income then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is directly responsible for architectural education.

The Adolph E. Waller Memorial Lectures

The Adolph E. Waller Memorial Lectures was established September 5, 1975, by the Board of Trustees of The Ohio State University through The Ohio State University Development Fund from the Estate of Adolph E. Waller, M.S. '16, Ph.D. '18, late of Columbus, Ohio, Professor Emeritus and former faculty member in the Department of Botany.

The gift is to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to defray the costs of one or more lectures each year in the field of plant sciences. The lectures shall be open to the public but shall be of scientific rather than of general interest.

If the sponsorship of such lectures is found to be impracticable or impossible, the Board of Trustees of The Ohio State University may modify the above requests or may use the income of the fund for other purposes related to the study of plant sciences.

- b. \$3,000.00 from the Estate of Florence B. Allen, Instructor Emeritus at The Ohio State University Mansfield Campus, for the establishment of The Florence B. Allen Poetry Awards Fund.

The Florence B. Allen Poetry Awards Fund

The Florence B. Allen Poetry Awards Fund was established September 5, 1975, by the Board of Trustees of The Ohio State University through The Ohio State University Development Fund with a bequest from Florence B. Allen, Instructor Emeritus at The Ohio State University Mansfield Campus.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

b. The Florence B. Allen Poetry Awards Fund (continued)

The annual income is to be used by the Director of the Mansfield Campus to fund the annual poetry awards which will amount to approximately \$150 per year. Excess income will be reinvested and additional awards may be funded at such time as sufficient additional income is generated to support an expanded program. The selection of the recipient is to be made upon the recommendation of the English Faculty of the Mansfield Campus and approved by the Campus Director.

Should the need for these awards cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the Director of The Ohio State University Mansfield Campus.

IV. BUSINESS AND ADMINISTRATION

A. Architects or Engineers

1. Mansfield Campus, Physical Education Building, Phase V

President Enarson recommended that the firm of Marr, Knapp & Crawfis of Mansfield, Ohio, be employed to provide complete architectural and engineering services for this project, including preliminary plans, basic drawings, working drawings, specifications, estimate of cost, architectural rendering, necessary bidding documents and supervision of construction.

This project will provide a new building to the northeast of Ovalwood Hall. The facilities are to be used jointly by North Central Technical College and The Ohio State University.

The new building will provide approximately 16,000 square feet of space for physical education. The facilities will include a gymnasium, locker, shower, dressing rooms, gymnasium lobby, and attendant services spaces.

The project will also include a new (second) campus entrance road to provide improved access from the north and west, and additional surface parking for approximately 480 vehicles.

The fee for this service will be negotiated between the firm and the Department of Administrative Services, Division of Public Works. The total project cost is \$1,950,000.00.

September 5, 1975 meeting, Board of Trustees

IV. BUSINESS AND ADMINISTRATION (continued)

A. Architects or Engineers (continued)

1. Mansfield Campus, Physical Education Building, Phase V (continued)

Funds for this service have been provided from H. B. 687, Item 315-098 (Mansfield Campus, Physical Education Building, Phase V).

2. Mansfield Campus, Physical Education Building, Phase V (Learning Resources Center and Technical Education Laboratory)

The Program of Requirements for this project provides for additions to the Technical Education Laboratory and Learning Resources Center which are currently under construction as Phase IV on the Mansfield Campus. Therefore, it was recommended that the additional work for the Learning Resources Center and Technical Education Laboratory be assigned to the architectural firm of Zaugg, Olinger, Zaugg which were approved at the March 1974 meeting of the Board of Trustees for the architectural services on the Phase IV project.

These services are to include preliminary plans, basic drawings, working drawings, specifications, estimate of cost, necessary bidding documents, and complete supervision of construction.

The fee for this service will be negotiated between the firm and the Department of Administrative Services, Division of Public Works. The total estimated construction cost is \$600,000.00 which is a part of the total project cost of \$1,950,000.00 for Mansfield Campus, Physical Education Building, Phase V.

Funds for this service have been provided from H. B. 687, Item 315-098 (Mansfield Campus, Physical Education Building, Phase V).

3. Clinical Medical Sciences Education Facility, Phase II

President Enarson recommended that the firm of Page Southerland Page, Austin, Texas, be employed to provide additional architectural and engineering services for this project including preliminary plans, basic drawings, specifications, estimate of cost, necessary bidding documents, architectural renderings, and complete supervision of construction.

This architectural firm was initially approved by the Board at the June 4, 1971 meeting for similar services outlined for a \$38,000,000.00 project. At the December 7, 1973 meeting those services were continued, but the project was limited to \$10,000,000.00. Subsequently, \$2,707,018.00 was made available from the Department of Health, Education and Welfare with bids being taken for a \$12,707,018.00 project and contracts for construction were approved by the Board on May 2, 1975, for the project known as "Clinical Medical Sciences Education Facility (Supporting Services Phase)."

3. Clinical Medical Sciences Education Facility, Phase II (continued)

Phase II is a vertical continuation of the project now under construction. This project will consist of the ancillary and support services which will be located on the fourth and fifth floors, a new clinical classroom, and 362 patient beds with their associated support facilities.

The fee for this service will be negotiated between the firm and the Department of Administrative Services, Division of Public Works. The total project is estimated to be \$28,000,000.00.

Funds for this service have been provided from H. B. 687, Item 315-094 (Clinical Medical Sciences Education Facility, Phase II).

Upon motion of Mr. Harrod, seconded by Mr. Safford, the above recommendations were approved by unanimous roll call vote.

B. Plans and Specifications

At the request of the Vice President for Business and Administration, President Enarson recommended that the plans and specifications, bills of material, and estimates of cost for the following project be approved by the Board of Trustees:

1. Eleventh Avenue Parking Ramp

This project will provide a parking ramp for approximately 650 vehicles. The ramp will be located east of Neil Avenue on the south side of Eleventh Avenue.

Funds are budgeted in Budget Account 801316 (Eleventh Avenue Parking Ramp).

Upon motion of Mr. Safford, seconded by Mr. Gushman, the above recommendation was approved by unanimous roll call vote, and the Secretary was authorized and directed to sign the plans and specifications for the above project for and on behalf of the Board of Trustees. The Vice President for Business and Administration was directed to proceed with the request for bids in the normal University manner, and if satisfactory bids are received to proceed with the award of contracts. All action regarding this matter will be reported to the Board of Trustees at a later meeting.

C. Report of Award of Contracts

In accordance with authorization provided by the Board of Trustees, bids were taken on the projects listed below and the contracts were recommended for award. The action reported to the Board was as follows:

## LEASE

between

THE OHIO STATE UNIVERSITY

and

THE UNITED STATES OF AMERICA

This LEASE, made and entered into this \_\_\_\_\_ day of \_\_\_\_\_  
in the year one thousand nine hundred and seventy-five  
by and between The Ohio State University  
957 Lincoln Tower  
whose address is 1800 Cannon Drive  
Columbus, Ohio

for itself and its ~~heirs, executors, administrators,~~ successors, and assigns, hereinafter called the lessor, and the UNITED STATES OF AMERICA, hereinafter called the Government:

WITNESSETH: The parties hereto for the consideration hereinafter mentioned covenant and agree as follows:

1. For the term beginning July 1, 1975 and ending June 30, 1976, the lessor hereby leases to the Government the following described property, hereinafter called the premises, viz: (Main Campus)

In the Central Academic Area of Ohio State University and more particularly from the southwest Brick Exterior Corner of the Greenhouse Headhouse, proceed: S-46-30'-W, 202.5' to the iron stake in the Paddock Fence Line, which is the Point of Beginning (P.O.B.), thence West Parallel to the Veterinary Clinic Road (V.C.R.) 4', thence North 36.2', thence East 26', thence North 10.5', thence East 9', thence North 10.5' to V.C.R., thence West 50' parallel to V.C.R., thence, South 10.5', thence East 9', thence South 46.7', thence West 28.6' parallel to V.C.R. to an iron stake, thence South 40' to an iron stake, thence East 18.7' to the existing paddock fence, thence NE with existing arc on the line of the paddock fence to the P.O.B. (Corresponding Cord-N-26-27'-E, 44.7' to the P.O.B.)  
The tract contains approximately 2,200sq. ft., .051 acres.

a. Together with a right-of-way for ingress to and egress from the premises; a right-of-way or rights-of-way for establishing and maintaining ~~a pole line or pole lines~~ for extending electric power, and telecommunications facilities to the premises; and right-of-way for subsurface power, communication and water lines to the premises; all rights-of-way to be over the said lands and adjoining lands of the lessor, and unless herein described by metes and bounds, to be by routes reasonably determined to be the most convenient to the Government.

b. And the right of grading, conditioning, and installing drainage facilities, and seeding the soil of the premises, and the removal of all obstructions from the premises which may constitute a hindrance to the establishment and maintenance of air navigation and telecommunications facilities.

c. And the right to make alterations, attach fixtures, and erect additions, structures, or signs, in or upon the premises hereby leased, which fixtures, additions, or structures so placed in or upon, or attached to the said premises shall be and remain the property of the Government, and may be removed upon the effective date of termination of this lease, or within 90 days thereafter, by or on behalf of the Government, or its grantees, or purchasers of said fixtures, additions, structures, or signs.

~~2. This lease may, at the option of the Government, be renewed from year to year and otherwise upon the terms and conditions herein specified. The Government's option shall be deemed exercised and the lease renewed each year for 1 year unless the Government gives the lessor 30 days written notice that it will not exercise its option before this lease or any renewal thereof expires; PROVIDED, that no renewal thereof shall extend the period of occupancy of the premises beyond September 30, 19 90 ; AND PROVIDED FURTHER, that adequate appropriations are available from year to year for the payment of rentals.~~

~~3. The Government shall pay the lessor for the premises~~

~~for the term set forth in Article 1 above, and (\$ )~~

~~(\$ ) per year for each annual renewal exercised by the Government hereafter. Payments shall be made in arrears at the end of each without the submission of invoices or vouchers.~~

Either party hereto

4. ~~The Government~~ may terminate this lease, in whole or in part, at any time by giving thirty (30) days notice in writing to the ~~lessor~~ <sup>other party</sup>, and no rental shall accrue after the effective date of termination. Said notice shall be computed commencing with the day after the date of mailing.

5. No Member of Congress or Resident Commissioner shall be admitted to any share or part of this lease, or to any benefit to arise therefrom. Nothing, however, herein contained, shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

6. The lessor warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, brokerage, percentage or contingent fee, except bona fide employees or bona fide established commercial or selling agencies maintained by the lessor for the purpose of securing business. For breach or violation of this warranty, the Government shall have the right to annul this lease without liability, or in its discretion to deduct from the contract price or consideration, the full amount of such commissions, brokerage, percentage, or contingent fee.

7. The Government shall surrender possession of the premises upon the expiration or the effective date of termination of this lease. If the lessor, by written notice at least fifteen (15) days before the expiration or the effective date of termination requests restoration of the premises, the Government at its option shall within ninety (90) days thereafter, or within such additional time as may be mutually agreed upon, either (1) restore the premises to as good condition as that existing at the time of the Government's entering upon the premises under this lease (changes to the premises in accordance with paragraph 1 above, ordinary wear and tear, damage by natural elements and by circumstances over which the Government has no control, excepted) or (2) make an equitable adjustment in the lease amount for the cost of such restoration of the premises or the diminution of the value of the premises if unrestored, whichever is less. Should a mutually acceptable settlement be made hereunder, the parties shall enter into a supplemental agreement hereto effecting such agreement. Failure to agree to any such equitable adjustment shall be a dispute concerning a question of fact within the meaning of Clause 8 of this lease.

8. (a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the lessor. The decision of the Contracting Officer shall be final and conclusive unless within 30 days from the date of receipt of such copy, the lessor mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the Secretary, Department of Transportation. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this clause, the lessor shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the lessor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

(b) This "Disputes" clause does not preclude consideration of law questions in connection with decisions provided for in paragraph (a) above: *Provided*, That nothing in this contract shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

9. This lease is subject to the additional provisions set forth below, which are made a part hereof, and identified as follows:

See Attachment "A", containing Articles 10 through 16, and a Corporate Certificate which are attached hereto and made a part hereof.

IN WITNESS WHEREOF, the parties hereto have hereunto subscribed their names as of the date first above written.

As the holder of a mortgage, dated \_\_\_\_\_

\_\_\_\_\_, recorded in Liber

ATTACHMENT "A" TO LEASE NO. DOT-FA75GL-0870

The additional provisions set forth in this Attachment by the parties hereto and made a part hereof are as follows:

10. The Government (Lessee), at its expense, will correct any interference with the Motorola radio communications system and other facilities such as the Telecommunications Center, the Department of Electrical Engineering, the Department of Physics, and the Ohio Educational Television Network.
11. The Lessor shall provide the source of electric power to the leased premises by providing a construction right of way from the Veterinary Clinic to the Lessee's premises. This right of way and source of power is granted with the understanding that the OSU Physical Facilities office will meter and bill the Lessee quarterly for energy used. The Lessee's contractor will notify the OSU Physical Facilities two weeks prior to the commencement of construction and installation of power cables, OSU Physical Facilities will supervise the construction to insure that it is on the line and to the grade and within the right of way contained in the attached drawing.
12. The Lessor shall be responsible for snow and ice removal in parking area and walkways, and the Lessor shall determine timing and priority for snow and ice removal.
13. The initial term of this lease shall be as stated in Article 1. Subsequent terms, if the renewal terms of Article 14 are exercised, are: (1) July 1, 1976, through September 30, 1976; (2) October 1, 1976, through September 30, 1977; (3) and thereafter from October 1 through September 30 of each succeeding fiscal year,\*
14. If all other terms and conditions of this Lease have been complied with and this Lease is in full force and effect, and if the Lessee shall notify the Lessor in writing sixty (60) days prior to the expiration of the original term of this Lease of its intention to do so, the Lessee is hereby granted an option to renew this Lease for additional one-year periods on such terms and conditions as the parties hereto may hereafter determine; provided, however, that the exercise of such renewal option by Lessee shall not be effective unless the parties hereto agree upon the terms and conditions of this Lease during such renewal term at least thirty (30) days prior to the commencement of such renewal term.

\* Provided, that no renewal thereof shall extend the period of occupancy of the premises beyond September 30, 1990; and provided further, that adequate appropriations are available from year to year for the payment of rentals.

V. REPORTS

A. Sale of Property - Lot No. 226, Unit 1, County of Siskiyou, McCloud, California

It was recommended that the real property known as Lot No. 226, in McCloud Subdivision, Unit No. 1, County of Siskiyou, McCloud, California, be sold to John C. and Roberta L. Neighbor, for the sum of \$61,000.00.

It was recommended further that the Vice President for Business and Administration be authorized to proceed with the sale of said property and that the President and/or Vice President for Business and Administration be authorized to execute the necessary documents to consummate the sale of the property as described in the foregoing paragraph.

Upon motion of Mr. Devenow, seconded by Mr. Safford, the Board of Trustees approved the sale of property as described by unanimous roll call vote.

B. Report from President Enarson

President Enarson reported to the Board of Trustees on the following matters and commented on their effect on the University.

1. With the passage of the Sunshine Bill by the General Assembly even though it would not become effective until November 28, that procedures are in the process of being established for compliance as soon as possible.
2. The Capital Improvements Bill signed by Governor James A. Rhodes provides \$48.7 million for use on all campuses of Ohio State University. He said that to his knowledge no other state comes close to Ohio in the amount appropriated for capital improvements this biennium. He also expressed some disappointment in the lack of funding and the failure of the General Assembly to fund the \$11 million agronomy and natural resources building, but he was quite hopeful that such funding would be provided the next biennium.

V. REPORTS

B. Report from President Enarson (continued)

3. The enrollment of Autumn Quarter will include 69 merit scholars compared to 15 last year. The total enrollment on the Columbus campus will be around 49,200 which will include 7,000 new first quarter freshmen.

C. Report on University Investment Portfolio

Mr. Devenow made the following report:

The Fiscal Affairs Committee has reviewed the present investments within the University Investment Portfolio. Since we have received no further recommendations concerning the holdings from our investment counselors, we have no action to propose to the Board concerning our investments at this time. We do wish to report that the University Treasurer has implemented those recommendations which were approved at the July meeting, and it is recommended that the above report be accepted.

Upon motion of Mr. Harrod, seconded by Mr. Safford, the above recommendation was approved by unanimous roll call vote.

D. Expenses for Designated Administrative Officials

Mr. Devenow recommended that the Fiscal Affairs Committee be authorized to provide from the unrestricted gifts to the University Endowment Fund on an appropriate basis, to the President and designated University officials, reimbursement for expenditures which are directly and necessarily related to the performance of their assigned responsibilities and the best interests of the University.

Upon motion of Mr. Safford, seconded by Dr. Jacob, the Board of Trustees approved the foregoing recommendation by unanimous roll call vote.

E. Reports on University Investment Portfolio

The reports on the University's Investment Portfolio dated August 14, 1975 and September 4, 1975, as submitted to the Fiscal Affairs Committee of the Board of Trustees, were received and ordered to be filed with the official records of the Board.

September 5, 1975 meeting, Board of Trustees

V. REPORTS (continued)

F. Report from Educational Affairs Committee

Mr. Gushman made the following recommendation:

Mr. Chairman, at your request the Educational Affairs Committee has undertaken a review of President Enarson's salary.

Dr. Enarson has now been president for three years and is receiving the same salary as when he came to this position. During this period our faculty and staff have improved their salaries by an average of 28 per cent and our civil service personnel a total of 30 per cent. And, during this same period, inflation has effectively eroded his starting salary.

Our Committee reviewed levels of compensation for the presidents of the nine State-assisted universities in the Big Ten. There were only two presidents' salaries lower than President Enarson's during this past year, and he was the only president in this group who did not receive a salary increase.

Further, among the State-assisted universities in Ohio for this coming year the presidents of four institutions will have salaries above the present salary level of our president--\$50,000.00 per annum.

The Committee is well aware of the sensitivity of the president's salary, particularly in times of economic stress for our students and faculty, as well as the general public. However, we have a responsibility to the president as well as to the University to see that the president's salary is fair and competitive.

Most importantly, our Committee believes that Dr. Enarson has done a most effective job as president of this University, and we recommend that the Board of Trustees recognize this performance with some monetary reward.

Accordingly, we are recommending a \$5,000 a year increase for Dr. Enarson, which represents an increase of a little over 3 per cent per year, in his tenure as president. This increase represents approximately one-third of what the civil servants and faculty and staff of this University have received during the same period.

I move that President Enarson's salary effective September 1 of this year be increased by \$5,000 to a total salary level of \$55,000 per annum.

Mr. Devenow seconded the motion which was approved by unanimous roll call vote.

VI. STATEMENT CONCERNING SUNSHINE LAW

Mr. Dunlap made the following statement:

I would simply like to reiterate what President Enarson has said about the need for this Board to comply with the Sunshine Law. I will appreciate the staff moving promptly on this matter so that we may determine what changes are required. Prior to the October meeting, I will distribute a full statement of the changes and new procedures to be followed in order for this Board to fully comply with the new law even before it becomes effective on November 28.

## FOREWORD

This booklet contains principal University rules, policies, and procedures on faculty appointments, tenure, and promotion. It is a revision of the July 13, 1962 statement, which itself was a revision of an earlier document approved on October 15, 1951.

Faculty Appointments, Promotions, and Tenure

PART I PRINCIPAL RULES FOR APPOINTMENTS AND TENURE

A. APPOINTMENTS

21.03. Appointments and Continuing Employment; Conditions Upon.\*

Section 1. Upon nomination and recommendation by the president of the University, the Board of Trustees shall make all appointments to all positions within the University and approve the salaries therefor. Such appointments, for a period not to exceed four academic quarters, shall be evidenced by a notice of appointment signed by the secretary of the Board and sent to the appointee for acceptance. The notice of appointment form is a budgetary convenience containing some detail relating to the employment relationship during the term of the appointment, such as salary, title, and the quarters during which service is to be rendered. The form is used for appointment to many and varied kinds of service, including appointment to positions which may be tenure accruing and others which are not. Neither the issuance of the notice nor its contents is intended to reflect any commitment by the Trustees as to the recipient's tenure or as to renewal of appointment.

Section 2. All officers, teachers and other employees of The Ohio State University are required to take the following Oath of Allegiance as a condition of their initial appointment and continuing employment:

I, . . . . . , do solemnly swear (or affirm) that I will support and defend the Constitution of the United States and the Constitution of the State of Ohio against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office or position in which I am employed, SO HELP ME GOD.

Section 3. In defense of the freedom of those who teach and those who learn, and of the governmental system upon which such freedom is dependent, the conditions hereinafter set forth shall govern all initial appointments and continuing employment by the University.

It shall be sufficient cause for the removal of any officer, teacher, or employee of the University, pursuant to the procedure set forth in Rule 21.07, that such officer, employee or teacher advocate, or have membership in an organization which is generally known to advocate the overthrow of the government of the United States, or of the State of Ohio, by force, violence or other unlawful means. (Reference is made to the provisions of Section 143.272, Ohio Revised Code.)

Faculty Appointments, Promotions, and Tenure (continued)

A. APPOINTMENTS (continued)

21.03. Appointments and Continuing Employment; Conditions Upon (continued)

Furthermore, in the event that any officer, teacher or employee of The Ohio State University, called to testify before any legally constituted legislative committee or any court, refuses to testify concerning his membership in any organization which advocates overthrow of the government of the United States or of this State, by force, violence or other unlawful means, on the ground that his answers might tend to incriminate him under the Fifth Amendment to the Constitution of the United States, a hearing pursuant to the procedure set forth in Rule 21.07 shall be held to consider his fitness to retain such position in the University.

B. TENURE

21.05. Election of Faculty and Staff; Tenure.\*

The Board of Trustees shall annually appoint the president, and all employees of the University not in the classified civil service, subject to the laws of the State of Ohio and, in the case of regular faculty, to the rights and protection of tenure. Tenure may be earned by all teachers with regular faculty status subject to a probationary period. Regular faculty status does not include adjunct, clinical, visiting, or lecturer appointments, or part-time service (less than 50 percent total service to the University as specified in the notice of appointment). Tenure is lost by formal resignation, by retirement, or may be terminated by reason of proved incompetence or grave misconduct in accordance with Rule 21.07 or for causes set forth in Rule 21.03.

PART II SELECTED POLICIES FOR PROMOTION AND  
TENURE CONSIDERATIONS

A. GENERAL CONSIDERATIONS

Nominations for promotion and/or tenure ordinarily originate in the department in accordance with the procedures established by the departmental faculty. The departmental recommendation must provide a comprehensive assessment of the candidate's qualifications, together with detailed evidence to support the nomination. It must also include information about the nature and extent of consultation on the matter within the department and must present any significant evidence and differences of opinion which would support a contrary recommendation. Nominations will subsequently be considered by the college, and if favorable concurrence is obtained, the dean will forward the nomination, along with his own assessment and recommendation, to the provost. Recommendations are subject to the approval of the provost, the president, and the Board of Trustees.

---

\*Rule initiated by Board of Trustees.

## Faculty Appointments, Promotions, and Tenure (continued)

### A. GENERAL CONSIDERATIONS (continued)

No teacher attains tenure automatically. It may be acquired either in the original appointment to the regular faculty rank of professor, upon promotion from within the University to the rank of associate professor, or following a probationary period.\* The granting of tenure requires the recommendations of the dean of the college after consultation with the chairman of the applicable department, with the concurrence of the dean of the Graduate School, the provost, the president, and the Board of Trustees.

When some of the nominations from a college involve the granting of tenure, the dean should provide a statement showing how the proposed actions will affect the long-range staffing pattern of the department and of the college, taking into consideration expected attrition, budgetary limitations, the need for flexibility, and the effect on that fraction of the faculty already with tenure.

Recommendations for promotion and/or tenure should be based on the merit of the individual, on a consideration of comparable achievement in the faculty member's own field or in closely related fields and on the judicious use of the fiscal resources of the department and college. Whenever possible, consideration should be given to how the nominee stands in relation to other people in his field outside of the University who might be considered alternative candidates for the position. All available evidences should be considered and it is the responsibility of the academic units to provide complete documentation.

In accordance with a policy of equality of opportunity, decisions concerning appointment, promotion, and tenure are based on the following criteria without discrimination as to race, creed, religion, national origin, age, or sex.

### B. CRITERIA FOR PROMOTION AND TENURE

Each candidate will be judged with respect to the proposed rank and duties, considering the record of his performance in:

1. teaching;
2. research or other creative work; and
3. service to the instructional unit, the college, and the University and public service related to his academic expertise.

In evaluating the candidate's qualifications within these areas, reasonable flexibility shall be exercised, balancing, where the case requires, heavier commitments and responsibilities in one area against lighter commitments and responsibilities in another. Each candidate is expected to be engaged in a program of work that is both sound and productive. As the University enters new fields of endeavor and places new emphases on its continuing activities, instances will arise in which the proper work of faculty members may depart from established academic patterns. In such cases care must be taken to apply the criteria with sufficient flexibility. In all instances superior intellectual attainment, in

Faculty Appointments, Promotions, and Tenure (continued)

B. CRITERIA FOR PROMOTION AND TENURE (continued)

accordance with the criteria set forth below, is the crucial qualification for promotion to tenured positions. Clearly, insistence upon this standard for continuing members of the faculty is necessary for maintenance of the quality of the University as an institution dedicated to the discovery and transmission of knowledge.

The criteria set forth below are intended to serve as a guide in evaluating the candidate:

1. Teaching. Effective teaching is an essential criterion to tenure or advancement. In evaluating the effectiveness of a candidate's teaching, points such as the following should be considered: the candidate's command of his subject; his continuous growth in his field; his ability to organize his material and to present it with logic and conviction; his capacity to awaken in students an awareness of the relationship of his subject to other fields of knowledge; his objectiveness; the creativity, the spirit, and enthusiasm which vitalize his learning and teaching; his ability to arouse curiosity in beginning students and to stimulate advanced students to creative work; his personal attributes as they affect his teaching and his students; the extent and skill of his participation in the general guidance and advising of students.

It is the responsibility of the department chairman to submit meaningful statements, accompanied by evidence, concerning the candidate's teaching effectiveness at lower-division, upper-division, and graduate levels of instruction commensurate with the candidate's assigned teaching responsibilities.

No single set of satisfactory measures can be prescribed. However, among significant types of evidence of teaching effectiveness are the following (not rank ordered):

- (1) opinions of other members of the candidate's department, particularly if based on class visitations, on public lectures or lectures before professional societies given by the candidate, or on the results of the candidate's teaching in courses prerequisite to those of other members of the department; (2) opinions of students, appropriately documented and accompanied by interpretative information; (3) development by the candidate of new and effective techniques of instruction and instructional materials, particularly when evidenced by acceptance at other universities; (4) publications by the candidate on the teaching of his discipline in respected journals devoted to pedagogy; and (5) recognitions or awards for distinguished teaching. In addition, and of

B. CRITERIA FOR PROMOTION AND TENURE (continued)

particular significance in appointment or promotion to the rank of professor, (i) opinions of graduates who have achieved notable professional success since leaving the University; and (ii) the number as well as caliber of students guided in research by the candidate and of those attracted to the campus by his repute as a leader.

2. Research and Creative Work. Evidence of productivity and creativity should be sought in the candidate's published research or recognized artistic production, architectural, or engineering designs, or the like.

Publications in research and other creative accomplishment should be evaluated, not merely enumerated. There should be evidence that the candidate is continuously and effectively engaged in creative activity of high quality and significance. Work in progress should be assessed whenever possible. When published work in joint authorship (or other product of joint effort) is presented as evidence, it is the responsibility of the department to establish as clearly as possible the role of the candidate in the joint effort. Account should be taken of the type and quality of creative activity normally expected in the candidate's field. Appraisals of publication or other works in the scholarly and critical literature provide important testimony. The department chairman is expected to supplement the opinions of his colleagues within the department by critical appraisals from distinguished scholars at other universities.

Textbooks, reports, circulars, and similar publications normally considered evidence of teaching ability or public service should be considered creative work when they present new ideas or incorporate scholarly research.

In certain fields such as art, architecture, dance, music, literature, and drama, distinguished achievement may be considered in addition to distinction in scholarly analysis involving the particular branch of creative endeavor. In evaluating artistic creativity, an attempt should be made to define the candidate's merit in the light of such criteria as originality, scope, and depth of creative expression. It should be recognized that in music, drama, and dance, distinguished performance, including conducting and directing, is evidence of a candidate's creativity.

In all research and creative work, care must be taken to assure the involvement of students as apprentice researchers and creative artists.

3. Service. The faculty plays a vital role in the administration of the University at all levels and in the formulation of its policies. Recognition should therefore be given to scholars who prove themselves to be able administrators and who participate effectively and imaginatively in faculty government and the formulation of departmental, college, and University policies. Service by members of the faculty to the

## Faculty Appointments, Promotions, and Tenure (continued)

### B. CRITERIA FOR PROMOTION AND TENURE (continued)

community, state, and nation in their special capacities as scholars should likewise be recognized. Similarly, contributions to student welfare through service on student-faculty committees and as adviser to student organizations should be acknowledged.

In certain of the colleges, a demonstrated distinction in other service responsibilities characteristic of the area should be recognized as a criterion for promotion and/or tenure. Examples include industrial consulting (engineering) and extension work (agriculture and home economics).

The candidate's professional activities should be scrutinized for evidence of achievement and leadership in the field and of demonstrated progressiveness in the development or utilization of new approaches and techniques for the solution of professional problems. It is the responsibility of the department chairman to provide evidence of the quality of the service rendered, including statements from persons served.

### C. PROBATIONARY SERVICE, DURATION OF APPOINTMENTS

Probationary periods are established for regular faculty members with the rank of instructor, assistant professor, and associate professor. In determining the years served in these probationary periods, the following will not be credited toward the attainment of tenure: service on an adjunct, clinical, visiting, or lecturer appointment; service (with any title) on a special appointment, or part-time service at a level of less than 50 percent total service (as specified in one or more concurrent notices of appointment) to the University.

The appointment of a person to a nontenured regular faculty position is probationary in nature. Appointments during the probationary period are for a one-year period and faculty members are normally reviewed annually during this period. It is during this time that persons have an opportunity to prove themselves to their peers; their record of accomplishments forms the basis for decisions concerning renewal of the appointment or the eventual decision to grant tenure or not.

The University does not assume any continuing obligation to renew the appointment of a nontenured faculty member. Nonrenewal may be based upon such factors as changing standards of competence within a discipline, an assessment of inadequate performance or insufficient development, or any one of a number of less defined academic, financial, or policy reasons. The nonrenewal of an appointment in and of itself, however, should not carry with it the implication of either incompetence or misconduct on the part of the faculty member.

Decisions affecting the nonrenewal of a probationary appointment may not, however, be arbitrary or capricious, or carried out in violation of a faculty member's right to academic freedom. Rule 21.08 provides a procedural mechanism under which an aggrieved probationary faculty member can challenge a

C. PROBATIONARY SERVICE, DURATION OF APPOINTMENTS (continued)

nonrenewal decision which he believes to have been improper. In that instance, however, the burden of proof is on the probationary faculty member to establish that the nonrenewal decision was improper.

1. Extension of the Probationary Period for Part-Time Faculty

Where a member of the regular faculty has served for a period of less than full-time service (but at a level of 50 percent or more), the probationary period may be extended. Such extension must be requested at least one year in advance of the expiration of the usual probationary period and must have the approval of the dean and the provost. In such cases, the extension shall be for an integral number of years, based on the principle that the usual probationary period should represent full-time service. (For example, either two years at a 50 percent level or four years at a 75 percent level would permit a one-year extension.) The maximum permissible extension of a probationary period will be three years in the case of a probationary instructor or assistant professor, one year in the case of a probationary associate professor.

2. Prior Service

When a faculty member has had prior service at or above the level of instructor at this or another university, such prior service may be included as part of the probationary period. This credit will be agreed to prior to the initial appointment and only upon the written recommendation of the chairman of the department and the dean of the college with the concurrence of the provost.

3. Multiple Appointments

For persons with multiple appointments, whether members of the regular faculty or the auxiliary faculty, it is important that there be a single department (or academic faculty, division, school) which will be responsible for assisting in the professional development of the faculty member and the evaluation of the faculty member; for maintaining complete records, and for initiating promotion recommendations. While tenure is a shared responsibility involving the University, the college, and the department, it is essential that a single department (or academic faculty, division, school) be responsible for the appointment of a member of the regular faculty and be responsible for initiating tenure or nonrenewal recommendations and for any eventual tenure commitment.

Faculty Appointments, Promotions, and Tenure (continued)

C. PROBATIONARY SERVICE, DURATION OF APPOINTMENTS (continued)

Multiple appointments totalling 50 percent or more service to the University shall be considered to be the same as a single appointment of 50 percent or more for the purpose of determining eligibility for tenure or tenure candidacy if at least one of the appointments is an appointment to a regular faculty position.

4. Campus Assignment

The Ohio State University provides instructional programs at several locations including the central campus in Columbus, regional campuses in Lima, Mansfield, Marion, and Newark, the Graduate Center at Wright-Patterson Air Force Base (Dayton), and the Agricultural Technical Institute (Wooster). Members of the regular faculty who receive tenure while rendering primary service on a particular campus hold tenure only at that campus.

5. Change of Tenure Status

When a faculty member moves from one department (or academic faculty, division, school) to another, responsibility for tenure consideration or tenure moves to the new instructional unit. Also, a faculty member may be considered for service on a campus other than the one at which he initially rendered regular faculty service or earned tenure. In the case of such reassignment, which must have the prior approval of the dean and of the provost, responsibility for tenure will move to the new location.

A tenured faculty member of the regular faculty who voluntarily agrees to reduction of his appointment below 50 percent service to the University (as specified in the notice(s) of appointment) loses tenure except in the case of an approved leave of absence. Similarly, a tenured member of the regular faculty who changes to an auxiliary faculty position loses tenure.

6. Leaves of Absence

The period of a leave of absence may not be credited in the probationary period unless there is a written agreement to so credit it. Such an agreement will require the approval of the dean and of the provost.

## Faculty Appointments, Promotions, and Tenure (continued)

### D. STANDARDS OF NOTICE

In cases of nonrenewal of an appointment to a regular faculty rank, the University will, in so far as possible, observe the following standards of notice: (1) not later than March 1 of the first academic year of service, if the appointment expires at the end of that year; or, if a one-year appointment expires during an academic year, at least three months in advance of its expiration; (2) not later than December 15 of the second year of academic service, if the appointment expires at the end of that year; or if an appointment expires during the second academic year, at least six months in advance of its expiration; and (3) at least twelve months before the expiration of an appointment after two or more years in the institution.

These standards of notice will not apply in cases of termination for cause.

Decisions regarding renewal of members of the auxiliary faculty (adjunct, clinical, visiting titles, or lecturers) are made annually in accordance with criteria and procedures of the appointing instructional unit and in accordance with University policies relative to auxiliary faculty positions.

## PART III REGULAR FACULTY RANKS (REQUISITES, CAPACITIES, AND TENURE ACCRUAL)

### A. INSTRUCTOR

Recommendations for appointment as an instructor are subject to the following conditions:

1. **Formal Requisite:** Baccalaureate degree and master's degree, or its equivalent, and at least three years of graduate study or relevant professional experience.
2. **Capacities:** Satisfactory evidence that the person being appointed possesses the capacity to develop and meet substantially the criteria described in PART II, B Criteria for Promotion and Tenure.
3. **Tenure:** Before an instructor will be granted tenure at that rank, a seven-year probationary period must be met.

Initial appointments as an instructor are on a probationary basis. Performance is ordinarily reviewed annually during the probationary period to determine whether or not the appointment will be renewed, subject to the standards of notice set forth in PART II, D. If the appointment is renewed for a fourth year, the University will make every effort to inform the person involved during the fourth year as to whether he is to be considered a candidate for tenure. If he is informed that he is not considered a candidate for tenure, his appointment will not be renewed after the end of the fifth year. If the appointment is renewed for a sixth

Faculty Appointments, Promotions, and Tenure (continued)

A. INSTRUCTOR (continued)

year, the person involved will be informed by the dean, during the sixth year of service, if he is to be granted tenure beginning with his eighth year of service. If tenure is not granted, his appointment will not be renewed after the end of the seventh year.

B. ASSISTANT PROFESSOR

Recommendations for appointment as an assistant professor are subject to the following conditions:

1. Formal Requisite: Ph. D. degree or equivalent qualifications.
2. Capacities: Demonstrated evidence that the person being appointed possesses the capacity to meet substantially criteria in Part II, B Criteria for Promotion and Tenure.
3. Tenure: Before an assistant professor will be granted tenure at that rank, a seven-year probationary period must be met. Service to the University as an instructor (without interruption) will be counted in meeting this probationary requirement. Tenure may be granted at an earlier time upon promotion to associate professor.

Initial appointments as an assistant professor are on a probationary basis. Performance is ordinarily reviewed annually during the probationary period to determine whether or not the appointment will be renewed, subject to the standards of notice.\* If the appointment is renewed for a fourth year, the University will make every effort to inform the person involved during the fourth year as to whether he is to be considered a candidate for tenure. If he is informed that he is not considered a candidate for tenure, his appointment will not be renewed after the end of the fifth year. If the appointment is renewed for the sixth year, the person involved will be informed by the dean during his sixth year of service, if he is to be granted tenure beginning with his eighth year of service. If tenure is not granted, his appointment will not be renewed after the end of the seventh year.

C. ASSOCIATE PROFESSOR

Recommendations for appointment as an associate professor are subject to the following conditions:

1. Formal Requisite: Ph. D. degree or equivalent qualifications.
2. Capacities: Demonstrated evidence that the person appointed meets substantially the criteria described in PART II, B Criteria for Promotion and Tenure and that his professional development will continue.

---

\*Set forth in PART II, D.

Faculty Appointments, Promotions, and Tenure (continued)

C. ASSOCIATE PROFESSOR (continued)

3. Tenure: A person promoted to associate professor from a lower rank at this University will acquire tenure upon the effective date of his promotion.

A person appointed from outside of this University to associate professor will serve a three-year probationary period. During the second year, the person involved will be informed by the dean if he is to be granted tenure beginning with the fourth year of service. If tenure is not granted, the appointment will not be renewed after the end of the third year.

D. PROFESSOR

Recommendations for appointment as a professor are subject to the following conditions:

1. Formal Requisite: Ph.D. degree or equivalent qualifications.
2. Capacities: Demonstrated evidence that the person being appointed has met the criteria described in PART II, B Criteria for Promotion and Tenure with distinction and that these outstanding contributions will continue.
3. Tenure: Tenure is automatic upon promotion or appointment to this regular faculty rank.

THE OHIO STATE UNIVERSITY  
OFFICIAL PROCEEDINGS OF THE  
ONE THOUSAND ONE HUNDRED AND ELEVENTH MEETING  
OF THE BOARD OF TRUSTEES

Columbus, Ohio, October 15, 1975

The Board of Trustees met at its regular monthly meeting on Wednesday, October 15, 1975, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio, pursuant to adjournment.

Present: John H. Dunlap, Chairman, M. Merle Harrod, John L. Gushman, Howard D. Sirak, Patricia D. James, Warren J Smith, and John D. Jacob.

October 15, 1975 meeting, Board of Trustees

STATEMENT BY MR. DUNLAP

Before starting our formal agenda I should like to comment on several items which I believe are of general interest.

First, I should like to comment on the resignation of Bill Safford who served this Board with distinction for eight and one-half years. Bill contributed in an outstanding way to this University through his counsel and his leadership. We certainly will miss him but I am sure that in his new role as a Regent of higher education, we will continue to benefit from his service.

At the same time I should like to note that another one of our former associates on this Board, Mr. James W. Shocknessy, has also accepted an appointment on the Board of Regents. There is little question that Jim will also make an outstanding contribution to the Regents.

Finally, I should like to note with pleasure the appointment of Mrs. Novice G. Fawcett, the wife of our President Emeritus, to the Regents.

We wish them all well in this service to the people of the State.

Secondly, as I indicated at our last Board meeting, this Board intends to fulfill not only the letter but the spirit of the recently enacted Amended Substitute Senate Bill 74, commonly referred to as the "Sunshine Law." Accordingly, I have asked the Chairmen of the two standing committees of the Board to conduct the business of their committees in public, with the exception of course as provided by this legislation. I should point out that I have recommended this approach even though our present committee structure with four Board members on each of our two committees (Educational Affairs and Fiscal Affairs) do not have a majority of the Board members on them and thus cannot bind the Board by any of their actions.

And finally, I have directed that the Secretary make available to the public the agenda of these Board meetings in advance of each meeting. I have also asked that the same be done for our two standing committees whenever feasible; and that the Secretary establish a depository for all Board notifications, announcements and agenda relating to the various activities of this Board.

\* \* \* \* \*

On another matter I should like to report that the President has forwarded for the consideration of this Board a letter which he recently received from the President of the University's local AAUP chapter. In this letter Professor Stocker requests a faculty election for the purpose of establishing collective bargaining for the faculty of this University. A copy of this letter has been forwarded to each of you, and I am requesting

STATEMENT BY MR. DUNLAP (continued)

that this should be a topic of discussion at the end of this meeting. As you know, collective bargaining is specifically exempt from open meetings under the Sunshine Law. Thus with your concurrence, I will recess this meeting at the conclusion of the President's presentation and reconvene the Board in executive session for the purpose of discussing this item.

I should now like to ask President Enarson to present his agenda for consideration and appropriate action.

RESOLUTIONS IN MEMORIAM

President Enarson reported to the Board the deaths of Charles A. Glatt, Professor in the Academic Faculty of Educational Development of the College of Education; Henry E. Hoagland, Professor Emeritus in the Academic Faculty of Finance of the College of Administrative Science; and Ronald B. Thompson, Executive Dean Emeritus. In accordance with the instructions of the Board of Trustees, copies of the following resolutions expressing on behalf of the University the sorrow and sympathy of the Board will be furnished the families of the deceased.

A. Charles A. Glatt

The Board of Trustees of The Ohio State University expresses its great sorrow at the untimely death on September 19, 1975, of Charles A. Glatt, Professor in the Academic Faculty of Educational Development of the College of Education. Dr. Glatt was the victim of a tragic shooting while at work designing a Federally ordered school desegregation plan.

Dr. Glatt received his Ph. D. degree from the University of New Mexico in 1963. He was professor of education at the State University College of Buffalo, New York, until 1966 when he joined the Academic Faculty of Educational Development at The Ohio State University. Nationally recognized as a leader in school desegregation, he was appointed on June 24, 1975, to work with the desegregation plan for the Dayton School system. He was continuing this work on weekends while teaching graduate studies in Educational Development during Autumn Quarter.

Listed in Who's Who in American Philosophy, Dr. Glatt was recognized as one of the nation's leading analysts of population trends as related to educational policies and programs. He served as consultant to school administrators in eleven states (thirty-three school systems) involved in desegregating schools. After joining The Ohio State University faculty, Professor Glatt was a special consultant to the NEA's Professional Rights and Responsibilities Commission team investigating schools in Baltimore, on The Ohio State University Advisory Commission on Problems Facing the Columbus Public Schools and on the Technical Assistance Project in Human Resources Development Planning for Bolivia, South America.

RESOLUTIONS IN MEMORIAM (continued)

A. Charles A. Glatt (continued)

His interests, activities in research, and professional services fed directly into his teaching. Teaching was deeply important to him, fed by a desire to see students realize personal fulfillment and satisfaction from their education. Dr. Glatt was nominated by his students for the Alumni Award for Distinguished Teaching in May, 1975.

Dr. Glatt's research resulted in public speaking and publications. His articles, dealing with deprived or disadvantaged children, demographic analysis, and school segregation have appeared in over 35 educational journals and newsletters. In the spring of 1975 he founded and presided over the Foundation for Equality in Education to provide a means for educating teachers and citizens about desegregation.

On behalf of the University, the Board of Trustees expresses to the family its deepest sympathy in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

B. Henry E. Hoagland

The Board of Trustees of The Ohio State University expresses its sorrow at the death on September 17, 1975, of Henry E. Hoagland, Professor Emeritus in the College of Administrative Science - Academic Faculty of Finance.

Dr. Hoagland was a graduate of Western Illinois State Normal School, had bachelor's and master's degrees from the University of Illinois and a doctor of philosophy degree from Columbia. He received the honorary doctor of laws degree from The Ohio State University in December, 1965.

From 1920 until his retirement in 1956, Dr. Hoagland served as Professor of Business Finance in the Department of Business Organization of Ohio State. His students best remember Dr. Hoagland as a dynamic classroom teacher who took no dogma for granted. They remember, too, the challenge in his comments and his ready humor. He inspired creativity in research and satisfaction with nothing less than the highest level of scholarship.

Dr. Hoagland was also nationally known and respected for his contributions to business and government. He was a pioneer member of the Federal Home Loan Bank Board in the 1930's and provided wisdom and responsible leadership in shaping the savings and loan industry. For many years he served with distinction as a consultant to the savings and loan industry and as a contributing editor of "The National Savings and Loan Journal," monthly magazine of the National League of Insured Savings Associations. During his career, Dr. Hoagland also served as statistician and economist for the New York State Industrial Commission, and as chief of the division of statistics for the New York State Public Service Commission.

RESOLUTIONS IN MEMORIAM (continued)

B. Henry E. Hoagland (continued)

"Corporation Finance," published in 1933, was the first of three college texts by Dr. Hoagland. In 1940, when real estate courses were in a formative stage, his pioneer text, "Real Estate Principles," did much to crystallize course content for students of real estate. In 1954, his book, "Real Estate Finance," fulfilled the need for advanced-level treatment of the field and, in revised edition, is widely used today.

On behalf of the University community, the Board of Trustees expresses to the family of Henry E. Hoagland its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to Mrs. Henry Hoagland as a sincere expression of sympathy and respect.

C. Ronald B. Thompson

The Board of Trustees of The Ohio State University expresses its sorrow at the death on September 15, 1975, of Ronald B. Thompson, Executive Dean Emeritus.

Ronald Burdick Thompson was born October 6, 1907, in Chambersburg, Illinois. He attended Hastings College, where he received the Bachelor of Arts degree in 1929. His graduate work was done at the University of Nebraska, which granted him the Master of Arts degree in 1933 and the Doctor of Philosophy degree in 1939.

After teaching high school mathematics for several years and being superintendent of the Beaver Crossing, Nebraska, High School from 1933 to 1935, Dr. Thompson joined the faculty of the University of Utah in 1936. In 1940 he became Registrar and Assistant Professor of Education and was advanced to the rank of Associate Professor in 1944. Later that year he came to Ohio State, where he gave distinguished service in a number of administrative positions. For thirteen years he was Registrar, University Examiner and University Editor. In 1957 he was appointed an Executive Dean and became a member of the President's Cabinet. Among the areas for which he held responsibility during his last sixteen years at the University were the Admissions Office, the Registrar's Office, University Testing Center, Alumni Records Division, Mershon Auditorium, Teaching Aids Laboratory, Men's and Women's Physical Education Departments, Telecommunications Center, the Office of Evaluation, and the three ROTC departments.

Dr. Thompson was nationally known for his studies of population trends, with particular emphasis on future college and university enrollments. He was the author of "College Age Population Trends," published in 1954; "The Problem of Rising College Enrollments," 1959; "The Impending Tidal Wave of Students," 1955; "Enrollment Projections for Higher Education, 1961-1978," and a number of other studies, including "Projected Enrollments,

Institutions of Higher Education, State of Ohio, 1973-1989, " a study conducted in 1973 for the Ohio Board of Regents. In 1956 he served as a consultant to President Eisenhower's Committee on Education Beyond the High School. During 1963-64, he was a consultant to the Registrars at Punjab Agricultural University and the University of Udaipur in India.

On the campus Dr. Thompson served as chairman of the Appeals Board of the Commission on Traffic and Parking, chairman of the University Advisory Committee on Cultural Programs, and was a member of the University Committee on Discipline. He was also responsible for Ohio State's relationships with Ohio secondary schools, the Ohio College Association, and the North Central Association of Colleges and Secondary Schools. For a quarter of a century he had served as a consultant and examiner for the latter organization.

Dr. Thompson was past president of the American Association of Collegiate Registrars and Admissions Officers, which granted him its honorary life membership in 1958. The Ohio Association of Collegiate Registrars and Admissions Officers also elected him to honorary membership. In 1960 he was elected to the Board of Directors of the American College Testing Program. Marietta College paid tribute to his distinguished career when it conferred an honorary degree, Doctor of Laws, in June, 1958.

Since his retirement in 1973, Dr. Thompson had served as supervisor of institutional research at the Columbus Technical Institute.

On behalf of the University community, the Board of Trustees expresses to the family of Dr. Thompson its deepest sympathy. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and a copy be tendered to Mrs. Thompson as sincere appreciation of the Board's realization of the loss which the family, the University, and his many friends and associates have sustained.

2. Gift-in-Kind

- a. Jon Whitcomb, well-known magazine and advertising illustrator and an Ohio State alumnus, has offered the University a collection of his writings, portraits, drawings, and pictures which will serve as a rich resource for research by students of advertising art, photography and cinema, journalism and fine arts.

The University is fortunate to add this collection of radio scripts, records and tapes, acrylics, paintings, photographic negatives, book and article manuscripts, and magazine illustrations to its research holdings in the field of mass communications.

(continued)

D. The Ohio State University Development Fund (continued)

2. Gift-in-Kind (continued)

- a. Whitcomb is a native of Weatherford, Oklahoma; he recently moved from Darien, Connecticut, and now resides in New York City. As a student at Ohio State, Whitcomb published illustrated articles in a campus humor magazine alongside the writings of his well-known classmate, cartoonist Milton Caniff. Whitcomb received a bachelor's degree from Ohio State in 1928.

In addition to his national reputation as a commercial illustrator Mr. Whitcomb was a prime motivator for the Famous Artists School, where many young artists have already had the advantage of his talent and experience.

Although research would be the primary use of this collection, it is Mr. Whitcomb's intention that the collection be open and available to the largest possible number of students and others who have an interest in written, pictorial and artistic mass communications.

It is recommended that Mr. Whitcomb's generous offer be accepted, and that the Whitcomb collection be established and appropriately housed with the Milton Caniff collection at the School of Journalism, College of Social and Behavioral Sciences, at The Ohio State University.

3. Establishment of Named Funds

- a. \$10,000.00 from Mr. and Mrs. Jack S. Resler for the establishment of The Jack and Eleanor Resler Dean's Fund.

The Jack and Eleanor Resler Dean's Fund

The Jack and Eleanor Resler Dean's Fund was established October 15, 1975, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Mr. and Mrs. Jack S. Resler, B.S. Bus. Adm. '25, of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is for the discretionary use of the Dean of the College of Administrative Science. This may include expenses for travel, research, student project costs, and any other similar expenses incurred by the College to make it a better place to work and learn.

3. Establishment of Named Funds (continued)

a. The Jack and Eleanor Resler Dean's Fund (continued)

Should the need for this discretionary fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is then directly responsible for business education.

b. \$1,000.00 from Mary E. Harper, Amlin, Ohio, for the establishment of the George Harper Memorial Fund, in memory of her husband, George Harper.

George Harper Memorial Fund

The George Harper Memorial Fund was established October 15, 1975, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Mary E. Harper, Amlin, Ohio, in memory of her husband, George L. Harper.

All gifts are to be invested in the University's Permanent Endowment Fund under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income is to be used to provide one or more scholarships for students enrolled in the College of Agriculture and Home Economics and majoring in Food Science and Nutrition. The selection of the recipient(s) is to be made by the University Scholarship Committee upon the recommendation of the Chairman of the Department of Food Science and Nutrition. Students who have demonstrated academic ability and have expressed interest in the dairy industry will be considered for this scholarship.

Should the need for these scholarships cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to recommendations from the appropriate administrative official of the University who is directly responsible for Food Science and Nutrition education.

#### IV. BUSINESS AND ADMINISTRATION

##### A. Architects or Engineers

##### 1. Ives Hall Improvements and Haskett Hall Remodeling

President Enarson recommended that the firm of Wright, Keske, Kritschgau, Rosen, Buchanan, Inc., Columbus, Ohio, be employed to provide complete architectural and engineering services for this project, including preliminary plans, basic drawings, working drawings, specifications, estimates of cost, necessary bidding documents and supervision of construction.

The improvements of Ives Hall for the Department of Agricultural Engineering will include additional and improved office space for faculty and staff utilizing open office landscape techniques, improved space for conducting graduate level research programs and improved lighting in selected teaching laboratories.

The Haskett Hall Remodeling for the Department of Photography and Cinema will involve development of a combined motion picture/still picture processing laboratory complex; a new women's rest room; four new faculty offices; a graduate student office; a faculty/staff lounge; improvement of corridors; the accounting and service areas; existing rest rooms and three laboratory/studio areas. The project will also involve improvement of the main building entrance and replacement of exterior windows as funds will permit.

The fee for this service will be negotiated between the firm and the Department of Administrative Services, Division of Public Works. The total project cost is \$230,000.00.

Funds for this service have been provided from H.B. 687, Item 315-074 (Utilities and Renovation).

##### 2. Classroom Improvements

President Enarson recommended that the firm of Wandel & Schnell, Columbus, Ohio, be employed to provide complete architectural and engineering services for this project, including preliminary plans, basic drawings, working drawings, specifications, estimates of cost, necessary bidding documents, and supervision of construction.

This project involves improvements to the large lecture halls in McPherson Laboratory (Room 100) and Campbell Hall (Room 200).

These rooms will be improved to meet contemporary standards for specialized lecture-auditorium facilities with special attention to acoustics, lighting, new seating, circulation patterns, instruction aid, appearance and ventilation.
