Vice President Carson was directed to present them to the Director of Public Works and the Capital Planning Board for their approval and, if so approved, to request the Director of Public Works to advertise in accordance with law. VIII. REPORT OF AWARD OF CONTRACT

Site Improvement for the 11th Avenue Residence Halls for Men

I wish to report to the Board that bids have been received on the following projects and the Council on Business Affairs, with the concurrence of the Cabinet, has recommended that the contracts be awarded to the low bidders in accordance with previous action of the Board of Trustees.

Base Bid

(1 bid received on this readvertisement)

	<u>Bid</u>	<u>Estimate of Cost</u>
Garwick and Ross (Columbus)	\$59,800.00	\$62,000.00

Funds for this project will be provided from the 11th Avenue Residence Halls for Men Construction Account.

Upon motion of Mr. Patton, seconded by Judge Gorman, the Board of Trustees by unanimous vote approved and ratified the award of this contract.

\* \* \*

**IX. AWARD OF CONTRACT**

**Relocation of Railroad Track**

I wish to report that bids were received on June 10, 1958 by the Department of Public Works for the following project and the Council on Business Affairs with the concurrence of the Cabinet has recommended that the contract be awarded to the low bidder as listed below:

**Relocation of Railroad Track**

**Base Bid**

(3 bids received)

	<u>Bid</u>	<u>Estimate of Cost</u>
Newberry Construction Company (Cincinnati, Ohio)	\$58,833.00	\$53,300.00

Ten companies took out plans and specifications on this project, but only three bids were received. Therefore, it is the belief of the Director of Public Works, the Council on Business Affairs and the Cabinet that neither wider competition nor lower bids would be received if the project was readvertised and, therefore, recommended that the low bidder be awarded the contract, notwithstanding the fact that their bid was over the estimate of cost.

Funds for this project are provided in Item 12 Relocation of Railroad Track and Item 15 Deferred Maintenance on Present Facilities, H. B. 939.

Upon motion of Mr. Ketner, seconded by Mr. Patton, the above recommendation was approved by unanimous vote.

G. Location of Telephone Exchange

After considerable study, the Council on Business Affairs with the concurrence of the Cabinet, has recommended that the Telephone Exchange remain in Derby Hall. An evaluation of the original recommendations made by the Ohio Bell Telephone Company indicate that space presently available can be adapted suitably for the Exchange and its anticipated expansion over the next 15 years. This will save the University and the State of Ohio considerable expense.

It is, therefore, requested that the Board of Trustees authorize the Council to proceed with the plans for the Exchange in Derby Hall and that the previous action of the Board of Trustees in approving a new building for the Telephone Exchange be rescinded.

Upon motion of Mr. Patton, seconded by Judge Gorman, the Board of Trustees authorized the Council on Business Affairs to proceed with the plans for the Telephone Exchange as stated above.

Neil Hall is used almost exclusively for the housing of student nurses and this work should be done during the Summer Quarter, 1958, when space will be available in other residence halls for student nurses on duty.

Since sufficient funds are not available in the Dormitory Revenue Fund to provide for this emergency rehabilitation work, it is further recommended that the Board of Trustees approve an expenditure of not more than \$70,000.00 from the General University Fund for this purpose, and that the work be done by the Physical Plant Division on a force account basis during the Summer Quarter, 1958.

Upon motion of Mr. Ketner, seconded by Judge Gorman, the above recommendation was approved by unanimous vote.

It is further recommended that an application for loan assistance as outlined above covering Married Student Housing Project No. 1 also be made. The estimated cost of construction for the Married Student Housing Project is \$2,270,000.00 exclusive of the cost of movable equipment. Construction costs include architect fees and other incidental items of construction which the Housing and Home Finance Administration is authorized to provide as a part of the Loan.

An application has already been filed as No. Ohio 33-CH-69 (D) under date of September 9, 1957, for a loan to cover a portion of the cost of the "East Addition to Baker Hall and Building No. 4 of Eleventh Avenue Residence Halls for Men". This application should be amended and supplemented or a new application should be filed to cover the revised program which eliminates the East Addition to Baker Hall and adds the Married Housing Project No. 1.

Thereupon, on motion of Mr. Patton, seconded by Judge Gorman, the following resolution was unanimously adopted:

RESOLVED, that the President of the University and the Vice President, Business and Finance, of the University, or either of them, are authorized on behalf of the University to file an application or applications or amendments or supplements to existing applications in such form or forms as they shall deem advisable to obtain from the United States Government, acting through the Housing and Home Finance Administrator, and pursuant to Title IV of the Housing Act of 1950, loan assistance in the amount of \$2,340,000.00 to cover the cost of Building No. 4 of the Eleventh Avenue Residence Halls for Men exclusive of the cost of movable equipment and such other cost as is not permitted to be included under the rules of practice of the Housing and Home Finance Administration, and to cover similar costs of construction of the proposed Married Housing Project No. 1 estimated to be \$2,270,000.00 exclusive of such unallowable costs. Said officers or either of them are authorized to make such amendments and supplements to the aforesaid application or applications or amendments thereto as they may deem necessary in order to obtain the advance of funds necessary to effect the construction of said projects and to satisfy the requirements from time to time of the Housing and Home Finance Administration; and be it

RESOLVED further, that such financing is to include interim financing at an interest rate not to exceed that available from the Housing and Home Finance Administration, to carry the project forward between the signing of contracts and the availability of the money from the United States Government through the Housing and Home Finance Administrator. It is understood that such loans made through local banks or other similar agencies would be backed completely by a loan agreement duly executed and properly signed between the Housing and Home Finance Administrator and The Ohio State University so that there would be no question of availability of funds at the end of the interim loan period.

WHEREAS the project and bonds issued with respect thereto intended to be covered by said designation has been revised to include only the Building No. 4 of the Eleventh Avenue Dormitories but to include an additional project known as Married Housing Project No. 1 and to provide for issuance of an estimated \$4,610,000.00 of bonds for construction of such project and \$300,000.00 of bonds for equipment of such project:

NOW, THEREFORE, BE IT RESOLVED that the aforesaid designation of Squire, Sanders & Dempsey as bond counsel and project counsel should be amended to cover services with respect to said bonds to be issued for construction of the Building No. 4 of the Eleventh Avenue Residence Halls for Men and Married Housing Project No. 1 in the estimated aggregate principal amount of \$4,910,000.00 (including bonds for movable equipment) and that the rate of compensation and nature of services covered by the aforesaid designation dated February 28, 1958, shall apply to such services in connection with the presently proposed bond issues and the President or Vice President, Business and Finance, of the University, is authorized to request the Attorney General to make such designation.

The above motion was seconded by Mr. Ketner and upon roll call was approved by unanimous vote.

INSURANCE COVERAGES

Mr. Ketner presented the following report of the Committee on Retirement and Insurance:

In accordance with the actions of this Board on September 4, 1956 and November 8, 1957, pertaining to competitive bidding on insurance, bids were invited on June 17, 1958 on seven different risks, as enumerated below. In each case, two alternative specifications were provided, with the University reserving the right to select the alternative which, in their judgement, provided the best coverage commensurate with the cost involved. Bids were received from eighteen firms, and were opened and tabulated at 2:00 P. M., E. S. T., Thursday, July 3, 1958. These bids have now been reviewed and it is the recommendation of the Committee on Retirement and Insurance that coverages be awarded as follows:

- (1) East Dormitory, fire and extended coverage on both building and contents, providing coverage which will permit recovery in the event of total loss of the total insurable value of these facilities (\$1,355,000.00). The low bidder on these specifications was the Protection Mutual Insurance Company, on behalf of The Factory Mutual Insurance Group, with a low net bid of \$1,812.00 for five years. The net bids on this specification ranged from a high of \$19,829.10 to the low of \$1,812.00. In addition to the features set forth in the specifications, the policy to be provided by the Factory Mutual Insurance Group will provide blanket coverage of this facility with \$10,398,000.00 of coverage already in effect on other University buildings.
- (2) West Addition to Baker Hall, fire and extended coverage on both building and contents, providing coverage which will permit recovery in the event of total loss of the total insurable value of these facilities (\$681,000.00). The low net bidder on these specifications was the Protection Mutual Insurance Company, on behalf of The Factory Mutual Insurance Group, with a low net bid of \$1,008.00 for five years. The net bids on this specification ranged from a high of \$11,501.34 to the low of \$1,008.00. In addition to the features set forth in the specifications, the policy to be provided by the Factory Mutual Insurance Group will provide blanket coverage of this facility with \$10,398,000.00 of coverage already in effect on other University buildings.

- (3) Mershon Auditorium Parking Facilities, fire and extended coverage on the building, providing coverage of \$399,500.00, subject to a 90% co-insurance clause. Eaton & Brookhart, Inc., on behalf of American Manufacturers Mutual Insurance Company, submitted the lowest net bid on these specifications in the amount of \$857.73 for five years. However, this bid clearly reflected an error in computation. When corrected, this bid amounted to a net of \$881.11, which was still the lowest net bid submitted. The net bids on this specification ranged from a high of \$1,906.09 to the low bid of \$881.11.
- (4) George Wells Knight International House, fire and extended coverage on both building and contents, providing coverage of \$27,000.00 on the building and \$3,600.00 on the contents, both subject to a 90% co-insurance clause. The low net bidder on these specifications was the Protection Mutual Insurance Co. with a low net bid of \$198.07 for five years. The net bids ranged from a high of \$551.68 to the low of \$198.07.
- (5) Hess Residence, fire and extended coverage on the building only. Coverage in the amount of \$18,000.00, representing 90% of the insurable value. The low net bidder on these specifications was the Protection Mutual Insurance Co. with a low net bid of \$110.16 for five years. The net bids on this specification ranged from a high of \$296.28 to the low net bid of \$110.16.
- (6) Tweedale House, fire and extended coverage on the contents only, in the amount of \$2,700.00, representing 90% of the insurable value. The low net bidder on these specifications was the Protection Mutual Insurance Company, with a low net bid of \$27.36 for five years. The net bids on these specifications range from a high of \$42.05 to a low of \$27.36.
- (7) Mershon Auditorium Parking Facilities, business interruption insurance on a non-premium adjustment, gross earnings form, subject to a co-insurance clause of 60% and providing coverage of \$13,320.00. The low net bid on these specifications was submitted by Mahon-Nagel Agency, Inc. on behalf of Merchants Property Insurance Company, on a low net bid of \$22.64 for five years. The bids on these specifications range from a high of \$88.58 to the low net bid of \$22.64.

/s/ Carlton S. Dargusch

/s/ John W. Bricker

/s/ Forrest G. Ketner

It was moved by Mr. Ketner, seconded by Judge Gorman, and approved by unanimous vote that the above report be accepted and that the insurance coverage enumerated be awarded to the low bidders indicated.

### REPORT ON STONE LABORATORY

Dr. Frederic Heimberger, Vice President, Instruction and Research, presented the following report on the 1958 program at the Stone Laboratory:

The University's Franz Theodore Stone Laboratory at Put-in-Bay is now well into the third season of operation under the plan of organization adopted by the Board of Trustees at its June, 1955 meeting. It is a pleasure to report that full use of these facilities is now being made during the open months of the year for teaching, research, and appropriate conference purposes.

The Departments of Botany and Plant Pathology and Zoology and Entomology are offering at the Laboratory a program of 10 advanced undergraduate and graduate courses. Students are eligible to register for two of these courses each term of the Summer Quarter. This summer a total of fifty students are registered in these courses for the first term and forty-four for the second term. This is by far the largest registration ever attained at the Laboratory and has necessitated adding beds and toilet facilities in Cooke Castle where men students are housed and installation of new equipment in the Dining Hall.

Five research projects involving 13 students and five staff members are being conducted at the Laboratory under grants or contracts. One of these projects is financed by a National Science Foundation Grant for fundamental studies of the primary factors responsible for productivity of inland waters. Three projects related to Lake Erie fisheries management are being conducted under a grant from the Division of Wildlife of the Ohio Department of Natural Resources. A major project, financed by the United States Fish and Wildlife Service through the University's Research Foundation, seeks to determine the food habits of 10 major fishes in Lake Erie. This is part of a coordinated international study participated in by the Province of Ontario, the U. S. Fish and Wildlife Service and the states bordering on Lake Erie. We have the major role in this project. Additionally, several graduate students are conducting fundamental research on biological problems at the Laboratory. The teaching and research staff has been drawn from seven different colleges and universities. This has had a salutary effect on registration and is making the Laboratory a summer aquatic biological station which is serving the needs of many institutions of higher education in the state.

The total number of students, teaching and research staff housed and fed at the Laboratory is 60 persons. This number taxes the available facilities to the limit.

A total of four workshops or conferences are planned for this summer. With the exception of an experimental program by the School of Music during the second term, these programs will be conducted between September 8 and 28.

Mr. Ketner moved that the Board of Trustees express its commendation and tribute to Professors Charles A. Dambach and Loren S. Putnam and to the University administrative staff for the leadership demonstrated in developing the 1958 program at the Franz Theodore Stone Laboratory. The motion was seconded by Judge Gorman and approved by unanimous vote.

V. APPROPRIATION AND TRANSFER OF FUNDS

A. Research Development

At its September 1946 meeting, the Board of Trustees affirmed a "policy of emphasizing graduate and professional work and research, with funds to be made available for fellowships, research professors, libraries and special research equipment." The Faculty Council on March 11, 1958 recommended that this policy be reaffirmed and implemented. The fulfillment of this policy has been a continuing aim of this Board.

In order to further implement this objective, I now recommend that an appropriation of \$50,000 be made for the fiscal year 1958-59 from the General University Fund to the Office of Instruction and Research for research development. These funds are to be allocated for research purposes at the discretion of the Vice President, Instruction and Research, who will report to the Board on the effectiveness and adequacy of this appropriation at the end of the fiscal year.

B. Equipment and Physical Facilities for Research Foundation Projects

It is recommended that \$10,000 be appropriated from the General University Fund for the purchase or repair of equipment and the enlargement or rearrangement of space to take care of research projects being processed through the Research Foundation.

This appropriation is in accordance with the agreement approved by the Board of Trustees on September 9, 1953, whereby the Research Foundation transfers overhead charges collected by the Foundation on contract research to reimburse the University for costs incurred in carrying out contract research in the various departments of the University.

X. RESOLUTION IN MEMORIAM

A. Ruth E. Seeger

The Board of Trustees expresses its sorrow at the death on July 9, 1958 of Ruth E. Seeger, research librarian and Assistant Professor in the Bureau of Educational Research and Service.

Miss Seeger was born at Hampton, Iowa, December 24, 1897. She attended Ellsworth College and received the Bachelor of Arts degree in 1923. For one year she was a teacher of English in the Union Township High School at LeMars, Iowa. In 1925-26, she attended the St. Louis Library School from which she received a Library Certificate. In 1926 she joined the staff of the Bureau of Educational Research at Ohio State University, as a bibliographical assistant; she continued as a member of this Bureau and its successor, the Bureau of Educational Research and Service, until her death. From 1946 to 1950, she was research librarian; from 1950 to 1956, research librarian and instructor; and from 1956, research librarian and Assistant Professor.

She was a member of the Tenth Avenue Baptist Church, the American Library Association, and the Ohio Library Association. She was past president of Chapter V of the P. E. O. Sisterhood, an international organization devoted to promoting the education of women.

Miss Seeger was a highly competent reference librarian. The research library that she directed is widely known as one of the finest of its kind. She developed one of the best collections of educational research reports in the country. Her skill in locating educational materials and data was known far and wide. In one recent year, in response to special requests, she compiled forty-eight bibliographies, averaging fifty entries each. In addition to magazine articles and book reviews, Miss Seeger wrote or collaborated in the writing of a number of published bibliographies, of which the most recent is Writings by and about Boyd H. Bode (1951). Her latest published writing, except for one book review, is Using Library Resources in Educational Research (1957), a very useful distillation of her experience over three decades in helping students of educational problems.

Less conspicuous, but not less important than this written and published work, was the individual help she gave to the scores of persons who used the library every day. Her effectiveness in this was due, not only to her exceptional skill as a reference librarian, but also to her personal qualities. She was quiet and self-effacing, whole-heartedly devoted to her work, and always ready to help. Thousands of persons, many of them in important educational positions, have reason to be grateful for the assistance they received from her.

On behalf of the entire University the Board of Trustees expresses its deepest sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

B. Ruth Alice Koons Pereny

The Board of Trustees expresses its sorrow at the death of Dr. Ruth Alice Koons Pereny, Assistant Clinical Professor of Medicine, on June 9, 1958.

Dr. Koons was born in Perry County, Ohio, August 5, 1905. She attended The Ohio State University and received her M.D. degree in 1930, following which she received her post-graduate training at White Cross Hospital, Columbus, Ohio. She then became associated with Dr. R. W. Kissane and limited her practice to cardiology. She joined the Faculty of The Ohio State University in 1949, and advanced to the position of Assistant Clinical Professor of Medicine. She was a senior member of the Medical Staff and Cardiological Division of White Cross Hospital and Children's Hospital. Dr. Koons was a fellow of the American College of Physicians, a member of the Columbus Academy of Medicine, Columbus Internist's Society, the Central Heart Association, Ohio State Heart Association, American Heart Association, American Federation for Clinical Research, Association for the Advancement of Science and Alpha Epsilon Iota sorority.

She had published fourteen articles on various phases of cardiology. However, her most outstanding contributions were in research and investigation in regard to traumatic heart disease. She had been an enthusiastic supporter of the Central Ohio Heart Association since its organization ten years ago, and last year received a Certificate of Meritorious Service.

Her loyalty to her many patients earned for her their love and gratitude. She attempted to resolve even their trivial problems. She enjoyed the admiration and respect of her students and colleagues. She will be sincerely missed for many years.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

C. John Edwin Brown, Jr.

The Board of Trustees expresses its sorrow at the death of John Edwin Brown, Jr., M. D., Associate Professor of Pediatrics, on June 3, 1958.

Dr. Brown, who was the son of an outstanding physician, John E. Brown, Sr., was born in Columbus on May 29, 1903 where he lived until his graduation from high school. Following the receipt of his Bachelor's degree from Williams College in 1925, he was graduated by Harvard Medical College in 1929. He was appointed to the Fourth Medical Service, Boston City Hospital where he served as intern from 1929 to 1931. Following this he was appointed an Assistant Resident and then Chief Resident in Pediatrics at the Boston Children's Hospital from 1931 to 1933. In 1933 he returned to Columbus to enter the practice of Pediatrics and was appointed an Instructor in the Division of Pediatrics in the College of Medicine. This was followed by an appointment as an Assistant Professor of Pediatrics in 1939 and he has held the position of Associate Professor of Pediatrics since 1947. Scholastic attributes of Dr. Brown are attested by his membership in Phi Beta Kappa and in Alpha Omega Alpha, honorary scholastic fraternities.

Dr. Brown maintained offices at 683 East Broad Street where his wide experience and extensive practice in the field of pediatrics made him a valuable asset to the staffs of all the hospitals in Columbus. His greatest interests were in the continued development of the Department of Pediatrics of the College of Medicine and the parallel growth and development of Children's Hospital. His advice and wise counsel were always freely given with time and energy for implementation of his ideas. Many of these have been incorporated in the expansion of Children's Hospital now under construction. In all these areas of interest he carried positions of responsibility and demonstrated his excellent capacity for leadership.

Dr. Brown was a member of many lay and professional organizations. To these he gave unstintingly of his time by serving in many official capacities. He was a member of the Columbus Academy of Medicine and was serving as the Chairman of its Board of Trustees at the time of his death. He also held membership in the Ohio State Medical Association, the American Medical Association, the American Academy of Pediatrics, the Medical Forum and Medical Review Club of Columbus and the Central Ohio Pediatrics Society. He had served as President of the latter. He had served in the Medical Corps of the Army from 1941 through 1945.

Dr. Brown had demonstrated quite early his ability and skill as a teacher. He was admired and respected by his students and colleagues for his sincerity of purpose, thoroughness, integrity and inspiration. He insisted that every student be aware of and prepared to assume the responsibilities of the physician. This he exemplified by precept and deed.

On behalf of the entire University, the Board of Trustees expresses to the family its deepest sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

September 1, 1958 meeting, Board of Trustees

D. Joseph Arden Leeder

The Board of Trustees expresses its sorrow at the death of Joseph Arden Leeder, Emeritus Professor of Music, on July 12, 1958.

Professor Leeder was born in Burnips, Michigan, on August 21, 1885. Having attended Michigan Normal College, Ypsilanti, where he received a diploma in 1905, he later received the B. Sc. degree from Columbia University in 1922 and attended the University of Chicago in 1929 for graduate study.

From 1905 until 1908 he taught music in Oxford, Michigan public schools and from 1909 until 1919 served as Supervisor of Music in Oil City, Pennsylvania. From 1919 to 1921 he was Supervisor of Music at Long Beach, California. Returning to the middle west he became Director of Music at State Teachers College, LaCrosse, Wisconsin, where he served from 1922 to 1927.

He joined the faculty of The Ohio State University in 1927 as Associate Professor of Music at the time of the newly created Department of Music in the College of Education. Until his retirement in 1956 he served as head of vocal music education and from 1945 as head of music education.

A member of the major professional organizations of his field, Professor Leeder was also the author of numerous articles in music education and co-author of six books in this field: The Singin' Gatherin', Music Americans Sing, Music the World Sings, Music from Shore to Shore, Guiding Junior High School Pupils in Music Experiences, and Music Education in the High School.

Personally, Professor Leeder was a man of great warmth with a driving interest in his work. His spirit, active interest in those with whom he worked, sense of humor, professional co-operativeness and companionability made him valued by his associates. During his twenty-nine years of dedicated service he was above all an inspiration to his students. His willingness to devote his time and energy to promote their professional and personal growth made him appreciated by all of them.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

September 1, 1958 meeting, Board of Trustees

E. Robert E. Rockwood

The Board of Trustees expresses its sorrow at the death on August 3, 1958 of Robert E. Rockwood, Professor Emeritus of Romance Languages.

Robert E. Rockwood passed away a little more than a year after his retirement. He was born in Worcester, Massachusetts on March 1, 1887. He attended Clark University and received his baccalaureate there in 1908, his A. M. at Harvard in 1915 and his Ph. D. in 1924.

He began his career at Ohio State in 1911 as Instructor, being promoted to Assistant Professor in 1919 and to Professor in 1924, assuming the chairmanship of the Department of Romance Languages in 1948. During 1915-1916 he taught at Harvard and Columbia. During the World War I he served in Naval Aviation and was a Lieutenant Commander in the Navy in World War II. These were the only interruptions of service to the University in a long period in which the University and the department grew in size and prestige.

To this phenomenal growth, Professor Rockwood was certainly no stranger, particularly in his virtual creation of the department honors program and his emphasis on graduate work. In the latter field, he devoted his apparently inexhaustible energy and vigorous personality to the maintenance of high standards and the recruitment of new staff at a moment when personnel changes were frequent. He did much, especially in later years to create in the department a favorable climate for research. His own library, mostly in Seventeenth Century French Literature, was an unusual private collection. The local chapter of Phi Beta Kappa, aware of his contributions elected him to membership in 1931.

He was a vital force on the campus and in the community. His wide circle of friends will miss his presence greatly.

On behalf of the entire University the Board of Trustees expresses its deepest sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

in such coin or currency of the United States of America as at the time of payment shall be legal tender for the payment of debts due the United States of America and to pay interest on the balance of said principal sum from time to time remaining unpaid, in like coin or currency at the rate of \_\_\_\_\_% per annum from \_\_\_\_\_ semi-annually on \_\_\_\_\_ and \_\_\_\_\_ of each year, until the principal amount hereof has been paid. During the time the Payee is the registered owner of this Bond, payment of the principal installments and interest due shall be made at the Federal Reserve Bank of \_\_\_\_\_, \_\_\_\_\_, or such other fiscal agent as the Payee shall designate (herein called the Fiscal Agent). This Bond is exchangeable at the sole expense of the University at any time, upon 90 days' notice, at the request of the registered owner hereof and upon surrender of this

September 1, 1958 meeting, Board of Trustees

Bond at the office of the Trustee, together with an assignment and instructions duly executed by the registered owner in such form as shall be satisfactory to the Trustee, for coupon bonds authorized by the Trust Agreement bearing interest payable on the same dates and at the same rate and maturing in the same amounts and on the same dates as the then unpaid installments of this Bond, with coupons attached representing all unpaid interest due or to become due thereon, or for single maturity registered bonds without coupons authorized by the Trust Agreement bearing interest payable on the same dates and at the same rate and maturing in the same amounts and on the same dates as the then unpaid installments of this Bond.

So long as this Bond shall be registered in the name of the Payee, payment of the principal installments and prepayments thereof together with interest thereon shall be made by the Board at the office of the Fiscal Agent on presentation to it of this Bond but without presentation or surrender of this Bond to the University or the Trustee and such payments shall be noted on this Bond by said Fiscal Agent on the payment Record attached to and made a part of this Bond and the Fiscal Agent shall send to the University or the Trustee, written advice of the making of such notations, provided, that if the Payee shall assign this Bond by execution of the form of assignment attached hereto, the Alternate Payee shall present the same to the Trustee as Bond Registrar for transfer and for a verification of the notations made hereon of the portion of the principal amount hereof and interest hereon paid or prepaid, and every such assignee hereof shall take this Bond subject to such condition.

In addition to the installments of principal required to be paid by the Board as hereinabove set forth, the Board, at its option, shall have the right to prepay from time to time, or at one time, in whole or in part, on any interest payment date on or after \_\_\_\_\_, in inverse chronological order of the aforesaid installments the entire then unpaid principal amount hereof, or such lesser portion thereof in multiples of \$1,000 as the Board may determine as the principal amount of such prepayment plus the following premiums (expressed in terms of percentage of amount of such prepayment) plus accrued interest to the date of prepayment:

provided, however, that so long as the registered owner hereof shall be the Payee, (1) the Board may, at its option, prepay from surplus proceeds of the sale of this Bond as provided in the Bond Resolution on any interest payment date the entire then unpaid principal amount hereof or from time to time in the inverse chronological order of the aforesaid installments, a lesser portion thereof in multiples of \$1,000 and (2) the prepayments authorized herein may be made at the times provided without premium. Except in the case of prepayment from surplus proceeds from the sale of this Bond as provided in the Bond Resolution, no Bonds of any series may be called or prepayments made pursuant hereto unless the same proportion of the total principal amount of then outstanding bonds of each other series, then callable, are called at the same time.

September 1, 1958 meeting, Board of Trustees

Notice of any such intended prepayment shall be published by the Trustee on behalf of the University at least once a week for two consecutive weeks, the first publication to be not less than thirty (30) days or more than forty (40) days prior to said redemption date, in a financial newspaper of national circulation published in the English language in the City of New York, New York, and in an English language newspaper of general circulation in the City of Columbus, Ohio. Interest upon the amount of principal as to which notice of prepayment has been given shall cease upon the prepayment date if funds have been deposited with the Trustee on or before such prepayment date in an amount sufficient to make such prepayment.

Neither this Bond nor the indebtedness evidenced thereby shall constitute a claim against or lien upon any property of the State of Ohio or any property under the control of said Board of Trustees excepting such parts of the receipts of the operation of the University dormitories as the University has pledged pursuant to the Trust Agreement to secure the payment thereof, and the general credit of the University or of the State of Ohio is not pledged to the payment of this Bond or interest thereon or the performance of any duty or obligation provided for in the Trust Agreement or said Bonds, provided, however, that nothing herein shall be deemed to prohibit the University from using, of its own volition, any funds held by it and available for use, in performance of any of the duties or obligations or in payment of any of the liabilities, provided for in the Trust Agreement.

The Series A and Series B Bonds, together with such Additional Bonds as may be issued on a parity therewith under said Agreement, are, and are to be secured only, but equally and ratably without priority one over another by reason of number or of date of Bond, sale, execution or delivery, by the Trust Agreement, creating a prior pledge of the receipts of all dormitory facilities now or hereafter under the control of the Board of Trustees as defined in the Trust Agreement after provision only for reasonable operating and maintenance expenses thereof.

Reference is hereby made to the Trust Agreement for a more complete description of the nature and extent of the security, the rights of the holders of the Bonds and coupons and of the University and the Trustee in respect of such security, and the terms and conditions upon which said bonds and coupons are, and are to be, issued and secured, to all of the provisions of which Trust Agreement each holder, by the acceptance hereof, assents.

To the extent and in the manner permitted by its terms the Trust Agreement may be amended with the written consent of the holders of not less than 66-2/3% of the principal amount of outstanding Bonds thereby secured, excluding any Bonds held or owned by the University, but no such action shall result in changing the redemption provisions or interest and principal maturity dates or terms of payment or reducing the principal amount or interest rate on any Bond or imposing any conditions on payment without the consent of the holders.

September 1, 1958 meeting, Board of Trustees

If an event of default, as defined in said Trust Agreement, shall occur, the principal of this Bond and all other bonds secured by said Trust Agreement then issued and outstanding may be declared to become due and payable in the manner and with the effect provided by said Trust Agreement.

The holders or registered owners of the Bonds shall not be entitled to institute any suit, action or proceeding at law or in equity to enforce any rights or remedies granted by the Trust Agreement except to the extent and in the manner provided therein.

No provision of this Bond or of the Trust Agreement and no reference herein to the Trust Agreement shall have the effect of incorporating in the terms of this Bond any provision which would alter or impair the obligation of the University, which is absolute and unconditional, to pay, from the funds herein described, the principal of and interest on this Bond at the times and places and in the coin or currency provided herein or affect the right of the holder of this Bond or any coupon to enforce payment thereof from such funds at and after the date of maturity of this Bond without reference to or consent of the Trustee or the holder of any other Bond or coupon.

It is hereby certified and recited that all acts, conditions and things necessary to be done precedent to and in the issuing of this Bond in order to make it the legal, valid and binding obligation of the University in accordance with its terms, and the execution and delivery of said Trust Agreement, have been done and performed and have happened in regular and due form as required by law; that the University has received payment in full for the Bonds of this series; and that no limitation of indebtedness or taxation, either statutory or constitutional, has been exceeded in issuing this Bond.

This Bond shall not be entitled to any benefit under said Trust Agreement or become valid or obligatory for any purpose until the certificate hereon shall have been signed by the Trustee.

This Bond is executed on behalf of said Board of Trustees of The Ohio State University solely in their capacity as such Trustees and shall not constitute their personal obligation, either jointly or severally, in their individual capacities.

RESOLUTION AUTHORIZING INTERIM FINANCING FOR  
DORMITORY CONSTRUCTION

Senator Bricker presented the following communication addressed to Dr. Gordon B. Carson, Vice President, Business and Finance, and dated August 28, 1958, signed by C. E. Fultz, President, The Huntington National Bank of Columbus, Ohio.

August 28, 1958  
(Revised)

Dr. Gordon B. Carson, Vice President  
Business and Finance  
The Ohio State University  
Columbus 10, Ohio

Dear Dr. Carson:

Confirming our earlier conversations with you, this Bank is pleased to advise that we will, on behalf of ourselves and the participants hereinafter mentioned, loan to The Ohio State University up to an aggregate amount of \$4,610,000 to provide the interim financing required in the construction by the university of certain dormitories and additions to dormitories. This loan is to be evidenced by note or notes due not to exceed two years from the first advance made under such loan and otherwise substantially in the form, and containing the provisions as to interest rate and source of payments, set forth in the note form attached hereto and marked Exhibit A. The form of said note may be changed in such respects as may be necessary to comply with the requirements of the Housing and Home Finance Agency of the United States if such changes do not adversely affect our rights under such note.

Our willingness to extend the above credit for construction purposes is conditioned upon the University's entering into a firm loan agreement with the United States of America, through the Housing and Home Finance Administrator, whereby the government will be obligated to purchase bonds issued under Trust Agreement between The Ohio State University and The Ohio National Bank of Columbus, Trustee, dated as of April 15, 1957, in an aggregate principal amount of \$2,305,000 in the event no private purchaser can be found, said loan agreement with the government to be in a form satisfactory to our counsel and counsel for the participating banks. Our willingness to extend such credit is also conditioned upon the University entering into an agreement with us in form and substance satisfactory to our counsel and counsel for the participating banks, providing for and requiring sale of the remaining \$2,305,000 of bonds (issued under said Trust Agreement) to the public at such times and for such prices as will provide the funds necessary together with the proceeds of the bonds covered by the Housing and Home Finance Agency Loan Agreement sufficient to repay at maturity the principal and interest on all loans made pursuant to this letter.

September 2, 1958 meeting, Board of Trustees

Our commitment so to lend is further conditioned upon (I) receipt by us of satisfactory evidence and assurance from the University that it can and will meet all of the terms and conditions of such loan agreement with the United States, the Trust agreement referred to above and in the attached note providing for dormitory revenue bonds and related documents and that the United States, acting through the Housing and Home Finance Administrator, has approved this proposed interim financing so far as such approval is required by said loan agreement and (II) receipt by us of an opinion from Squire, Sanders & Dempsey that the University and its Board of Trustees are authorized to make this loan and to execute and deliver the aforesaid note or notes and to enter into the aforesaid loan agreement and that under the circumstances existing at the time such opinion is rendered said note or notes when executed and delivered in accordance with their terms against the advance of the principal amount thereof will constitute valid and binding obligations of the University and its Board of Trustees in accordance with their terms and that said loan agreement has been validly executed and delivered pursuant to the proper authority on behalf of the University and its Board of Trustees, and (III) receipt by us before each advance on this loan of evidence satisfactory to us that said loan agreement is in full force and effect and that funds for the purchase of said bonds pursuant to the loan agreement by the United States Government, acting through the Housing and Home Finance Administrator, have been duly appropriated and set aside for that purpose and (IV) approval by us of the construction contracts, the contractors, the performance bond and the bonding company for construction of the said dormitories and additions to dormitories.

We shall in no event be committed to advance an amount which, together with interest thereon to maturity, would be in excess of the amount which the United States is then committed to loan under its loan agreement for the purpose of paying principal and interest on your loan and which may be used for such purpose under the terms of the aforesaid trust agreement, plus the amount required to be provided from proceeds of bonds sold to the public pursuant to the aforesaid agreement between the University and the Bank.

Loans are to be made hereunder only in an amount from time to time equal to amounts due under your construction contracts for the said dormitories and for architectural, engineering or other services in connection with the construction of those dormitories, all as shown in architect's certificates or estimates.

Before each advance you are to submit to us such evidence as we may reasonably request to show that construction of the dormitories can be completed without requiring of the University amounts in excess of funds available from loans made hereunder.

September 2, 1958 meeting, Board of Trustees

In addition, we shall expect the University to furnish us for our file such certified or executed copies of documents as we may request which they have issued or entered into in connection with the proposed bond issue, the construction program and/or the loan agreement. We shall also expect an opinion from Squire, Sanders & Dempsey to the effect that the interest on said notes and said bonds are, under present statutes, decisions and rulings, exempt from federal income tax.

It is intended that this Bank will sell to the following Banks participations in the above loan in the amounts set opposite their respective names:

<u>Bank</u>	<u>Percentage Share</u>	<u>Approximate amount</u>
Central National Bank, Cleveland	19%	\$ 875,900
The Central Trust Company, Cincinnati	19	875,900
The Ohio National Bank of Columbus	19	875,900
The Cleveland Trust Company	19	875,900

Yours very truly,

s. C. E. Fultz  
President

Addition to Chemical Abstracts Building

Dr. John H. Herrick, Director of Plant Studies, reviewed the discussions he has had with the Committee on Publications of the American Chemical Society's Board of Directors relative to the construction of the fourth floor on the present Chemical Abstracts Building, and the extent to which The Ohio State University is willing to provide accommodations for Chemical Abstracts' use on a long-term basis. It was the consensus of the Board of Trustees that:

1. The University is prepared to take the necessary steps to expedite the construction of the fourth floor on the present building, cost of said project to be borne fully by the American Chemical Society.
2. Since it is the desire of the Board of Trustees to continue the long and mutually fruitful relationships which have existed between the University and the American Chemical Society, the Chemical Abstracts' problem is to be included in the University's Master Plan Study, and the Chemical Abstracts' staff is to be involved in the deliberations, subject, of course, to the acceptance of this proposal by the appropriate representatives of the American Chemical Society. Upon the completion of the Study, a proper location for Chemical Abstracts will be designated so that adequate room for future growth will be protected.

Rules for the University Faculty

The next item of business was a consideration of the proposed revision of the Rules for the University Faculty. These were presented by General Dargusch for a discussion by the Board of Trustees. General Dargusch pointed out that these Rules had been submitted to the Board, through the President, by the Faculty Council and they were to repeal the present Rules and Regulations of the University Faculty.

He also pointed out that these Rules, as presented, included pertinent By-Laws of the Board of Trustees, selected Board initiated rules and regulations applicable to the educational and research functions of the University, and rules proposed by the University Faculty (through its Faculty Council) for Board approval. He further stated that this draft had been submitted to the Board at its meeting of July 11, 1958, and that proposed amendments had been circulated by mail to each Board member.

Following a general discussion in which several items were reviewed in detail, Mr. Ketner moved that:

(1) "The Rules for the University Faculty" as amended and as appearing in the Official Copy (which is to be retained by the Secretary of this Board as an official document of the Board), be and they hereby are adopted; and

(2) all previous rules and regulations of this Board, including but not limited to the "Rules and Regulations of the University Faculty," pertaining to or dealing with the subjects covered in these "Rules for the University Faculty" be and they hereby are repealed.

This motion was duly seconded by Senator Bricker, and upon roll call vote was unanimously adopted.

XI. RESOLUTIONS IN MEMORIAM

A. Dorothy Sumption Wirthwein

The Board of Trustees expresses its sorrow at the death of Dorothy Sumption Wirthwein, Professor of Physical Education, on August 27, 1958, as a result of injuries sustained in an automobile accident near Erie, Pa.

Dorothy Sumption Wirthwein was born in Geneva, Indiana, on August 17, 1896. She received the degree of Bachelor of Science with honors from the University of Wisconsin in 1922, spent the summer of 1925 studying at the Gymnastic Peoples College of Denmark. In 1931 she received the degree of Master of Arts from Teachers' College, Columbia University. Before entering the University of Wisconsin, she taught for three years in the elementary school in Indiana.

In 1922 she came to Ohio State as an instructor in the Women's Division, Department of Physical Education and advanced to the rank of Professor, the rank she held at the time of her death. During the summers of 1927 through 1936, she served as a visiting instructor in the summer sessions at Teachers' College, Columbia University.

Mrs. Wirthwein was the author of several books, Fundamental Danish Gymnastics for Women (1922), Archery for Beginners (1932), and Sports for Women (1940), as well as numerous articles which appeared in professional journals and guides. Her skill as an amateur photographer was recognized by the selection of her work for exhibit at the International Congress on Physical Education in Copenhagen, Denmark in 1949, and the use of her photographs as cover or frontispiece for journals and books.

She was a member of many professional organizations in her field and served as an elected officer of two of these. She was frequently invited to participate in the programs of National and State meetings of these groups and she gave unstintingly of her time and energy to committee assignments both on and off the campus.

Mrs. Wirthwein's dedication to her profession of Physical Education was exemplary; a master teacher who devoted 36 years of service to young college women at The Ohio State University imparting to them her enthusiasm and love of sport. She was a pioneer and an innovator who was instrumental in introducing many new activities into the program of the department. A skillful organizer, she administered

October 13, 1958 meeting, Board of Trustees

the program of intramural sports for women for many years, a program that grew steadily in the variety of activities and the number of participants. Admired for her ability and loved for her compassion by her colleagues, she was indeed a leader among them.

She was a beloved counselor of generations of college women majoring in the field of physical education and it is through her influence on them that she made her richest contribution.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

B. Kenneth Dameron

The Board of Trustees expresses its sorrow at the death of Dr. Kenneth Dameron, Professor Emeritus of Business Organization, who died August 15, 1958, at the age of 56.

Born in New London, Iowa, Dr. Dameron held degrees from Beloit College, the University of Southern California and Columbia University, and, prior to his joining the staff at The Ohio State University, had held teaching assignments at Princeton University and Rice Institute.

A creative scholar and researcher in his chosen field of marketing and advertising, and with a national reputation therein, Dr. Dameron's work on the campus was interrupted from time to time for assignments in the federal government and elsewhere. He served as deputy administrator in charge of distribution codes for the National Recovery Administration, Washington, D. C., in 1933 and 1934 and then was appointed by President Roosevelt to the National Retail Trade Economic Board, a position he held through 1935.

On leave from the University in 1943, he served as special assistant to the vice chairman of the War Production Board in charge of civilian requirements. During the same period, he was chief economic consultant to the board.

Dr. Dameron was a former director of the committee on consumer relations in advertising of the American Association of Advertising Agencies and in 1951 was sent as a marketing expert to Scandinavian countries under a program established by the Economic Cooperation Administration. In addition, he was a former vice president of the Advertising Federation of America, a member of various committees of the American Marketing Association and author of numerous books and articles in the field of advertising, economics and education.

October 13, 1958 meeting, Board of Trustees

A former president of the Columbus Advertising Club, he organized and directed 13 advertising conferences sponsored by the College of Commerce and Administration. In 1955, he was named by the Advertising Club as Advertising "Man of the Year."

Dr. Dameron was a member of Alpha Delta Sigma, professional advertising fraternity. The Ohio State chapter of the fraternity is named in his honor.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

C. Dana James Demorest

The Board of Trustees expresses its sorrow at the death on June 30, 1958, of Dana James Demorest, Professor Emeritus of Metallurgical Engineering.

Dana Demorest was born August 6, 1882, in Marysville, Ohio, where his father was Superintendent of Schools. He graduated from The Ohio State University with the degree, Bachelor of Chemical Engineering, in 1907. After a short time with the Illinois Steel Company, he returned to the University in 1908. In 1913 he was made Professor of Metallurgy and in 1917 he became Head of the Department of Metallurgy. He retired as Professor Emeritus in 1952.

During World War I, Professor Demorest served with the United States Army, supervising the construction and operation of a plant at Edgewood, Maryland, for the manufacture of toxic gasses. He left the service with the rank of Major.

Professor Demorest enlarged and revised the work "Metallurgical Analysis" which had been produced originally by Professor N. W. Lord. This text was a standard work in the colleges of the country for many years and was a guide to analytical procedure in metallurgical and ceramic plants. He was a member of several professional and technical societies and was for many years Section Editor in charge of Metallurgy and Metallography for chemical abstracts.

In 1920, Professor Demorest became interested in mining properties in Utah, where he organized and was president of the Utah Alloys Corporation. Early production was largely vanadium, but later uranium was successfully produced.

October 13, 1958 meeting, Board of Trustees

Shortly after the beginning of his teaching career, Professor Demorest was widowed and he never remarried. His strong religious faith was exemplified in his devotion to others and in his active participation in the work of the Indianola Methodist Church where he was a member of the Official Board. He was active in Godman Guild and served as its president. He was a Mason and one-time Master of Kinsman Lodge.

Students found him a strong friend and confidant ready at all times to help them with counsel and with substance. Former students established the Dana J. Demorest Scholarship Fund which has grown so that promising students will continue to be aided in his name.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

### Retirement and Insurance

General Dargusch presented the following report and recommendations of the Committee on Retirement and Insurance:

#### University Retirement Plan:

The State of Ohio has provided retirement benefits for teachers since 1920. Prior to 1951, however, such benefits were generally inadequate; see Senate Bill 96, effective June 14, 1951, which established more liberal retirement benefits for teachers retiring thereafter.

Recognizing that state retirement benefits were inadequate, the Board of Trustees, on April 10, 1939, established a plan for University retirement benefits for faculty members, effective January 1, 1940<sup>(1)</sup> to supplement state retirement benefits. The University plan was mandatory, and provided for the purchase of annuities by payroll deduction of 4% on salaries up to \$5,000, the University contributing 2%, and the faculty member 2%.

On May 8, 1950, the Board again recognizing the need for additional retirement benefits, authorized an increase in University retirement benefits, to be accomplished through the purchase of additional annuities by increased payroll deduction of 2.4%, the University contributing an additional 1.2%, and the faculty member an additional 1.2%. This made a total contribution by the University of 3.2% and for the faculty member of 3.2% for retirement purposes. The plan for additional retirement benefits was subsequently rescinded by the Board on June 11, 1951, with the passage of Senate Bill 96, but the University's contribution for additional retirement benefits for faculty members of 1.2% was allowed to stand for the purpose of covering in part the increased payroll deductions from faculty members for retirement purposes under Senate Bill 96.

The University's retirement plan had been under close study by the Board since the passage of Senate Bill 96, and, on September 4, 1951, by Board action, the University's retirement plan was frozen as of October 1, 1950 for all faculty members then covered, and the University at that time, by Board action, contributed an additional 2%, making its total contribution 4%, or the entire cost of the University's retirement plan<sup>(2) (3)</sup>. The plan was made optional for all faculty members entering the service of the University after October 1, 1950, but on July 11, 1955, in view of the passage of House Bill 744, effective June 29, 1955, which greatly liberalized retirement benefits, the Board directed that no application for coverage under the University's retirement plan be accepted after June 30, 1955.

(1) The plan also applied to certain administrative personnel designated by the Board.

(2) Faculty members paying the various income taxes thereon.

(3) For faculty members covered by the plan October 1, 1950; the University contributed 2% for those entering the plan subsequent to October 1, 1950 under the resolution of September 4, 1951.

October 13, 1958 meeting, Board of Trustees

The University has received requests from some faculty members concerning the University's retirement plan annuity policies, which requests may be generally summarized, as follows: that they be allowed to (a) withdraw from the plan, (b) convert the policies, (c) cash the policies, (d) borrow on the policies. At this juncture it may be observed that as to the older annuity policies, the loading has been completely absorbed, and that as to all policies now in force, the values increase at a more rapid rate as time passes, and that generally it would be wise for faculty members to retain their University retirement plan annuity policies, rather than drop them. This would be so even though the faculty member had to pay all, or a major part, of the premium thereon. The Committee has carefully studied the University's retirement plan in the light of these requests, and makes the following recommendations:

1. Membership in the University's retirement plan shall be optional as of January 1, 1959. Those persons desiring to withdraw from the plan shall notify the Vice President, Business and Finance, in writing on a form prescribed by him, prior to December 15, 1958, of their desire to withdraw from the plan, and the University shall, effective January 1, 1959, relinquish all claim or control over the policies of those persons withdrawing from the plan, in accordance with the above procedure. The Vice President, Business and Finance, shall be authorized to take such actions as may be necessary hereunder.

2. The University's contribution under the University's retirement plan shall be continued for those persons remaining in the plan, and shall be terminated effective January 1, 1959, for all persons withdrawing from the plan. (4) (5).

3. Members withdrawing from the University's retirement plan, as provided in paragraph (1) above, shall be ineligible for any University supplemental retirement benefits now or hereafter provided<sup>(4)</sup>.

---

(4) This is in accordance with the intent of the Resolution of September 4, 1951 which read as follows:

"That the University Retirement System be frozen as of October 1, 1950 on a compulsory basis and that the University contribute an additional 2 per cent toward the retirement of those who are covered by such system. That the University Retirement System be made optional as to all persons entering the service of the University subsequent to October 1, 1950 and that such individuals be given an election to participate. In the event they elect so to do, the University will contribute 2 per cent toward their retirement, but will contribute nothing toward the retirement of those who elect not to participate.

"The University assumes no further liability for supplemental benefits with respect to those faculty members who elect not to participate in the optional program."

(5) It is recommended that the total contributions withdrawn under paragraph 2 above be reserved by the University for use in financing fringe benefits, other than retirement benefits, for faculty members.

October 13, 1958 meeting, Board of Trustees

Group Life Insurance:

Due to certain ambiguities in the University's group life insurance plan, the estates of some retired persons have received both the death benefit and group insurance upon the decease of the insured and the Committee makes the following recommendation:

1. The University's death benefit, payable from the group life insurance premium reserve, shall not be paid for retired persons who had extended coverage under the University's group life insurance plan at the time of their decease.

/s/ Carlton S. Dargusch

/s/ F. G. Ketner

/s/ John W. Bricker

Upon motion of Mr. Ketner, seconded by Mr. Patton, the above recommendations were approved by unanimous vote.

President Fawcett presented Dean L. L. Rummell of the College of Agriculture who introduced Dr. Dorothy D. Scott, Director of the School of Home Economics who gave a report on the School's activities. A summary of the report is as follows:

Home economics is a relatively young discipline, with a seemingly heterogeneous group of subject matters and professions, unless the unifying factor is identified. It is more often misunderstood than challenged to fulfill its potential.

The improvement of homes and home life was the tenet upon which the field was founded. This continues to be its primary focus. Home economics as a field of learning is concerned with the wellbeing of people in the family setting. It achieves its goals through education of individuals and through a wide variety of professional activities of employed home economists in business, dietetics and food service, research, industry, and social agencies.

November 7, 1958 meeting, Board of Trustees

At The Ohio State University, the unique role of home economics is graduate education and research. The 27 Ohio Colleges offering programs in home economics look to this School of Home Economics for faculty personnel and for graduate education for their faculties. Graduate students come from many states and several foreign countries.

As a unit of the College of Agriculture, the School has responsibility for a coordinated program of undergraduate and graduate education, extension education in the 88 Ohio counties, and research conducted as a part of the Ohio Agricultural Experiment Station.

Undergraduate registrations include many students from other colleges on the campus, particularly the Colleges of Arts and Science and Education. Curricula in the School require more minimum credit hours in other departments than in home economics.

Students in home economics are predominately from urban homes. Their scholastic potential is good. Students have a wide variety of careers from which to select upon graduation, many of which combine well with marriage.

The School's major concern is that of obtaining adequate space and physical facilities to retain and attract high quality faculty. Additional space as recommended to the Capital Planning Board is imperative to maintain present programs. Further developments are necessary if home economics at this University is to play a leadership role among those few institutions in the country which provide advanced graduate education for home economics.

The report discusses in some detail the nature of home economics in higher education and the School's programs, students, faculty, facilities and needed developments.

A twenty-page report was distributed to the members of the Board and a copy is on file in the office of the Secretary.

The Chairman now expressed to Dr. Scott the appreciation of the members of the Board for her comprehensive report of the School of Home Economics.

November 7, 1958 meeting. Board of Trustees

President Fawcett presented the following

I. GENERAL RECOMMENDATIONS

A. College of Agriculture - Change of Name

The Faculty Council on October 14, 1958, approved the recommendation that the name of the "College of Agriculture" be changed to the "College of Agriculture and Home Economics."

This recommendation resulted from a study by a special committee representing the faculty of the College of Agriculture and the School of Home Economics and subsequent approval by the College Committee on Instruction, the entire faculty of the College (including Home Economics), and the Council on Instruction. This action recognizes home economics as coordinate with agriculture and provides the administrative organization for the School of Home Economics to participate as a major unit of the College in policy formation and program development.

To effect this change, Dean L. L. Rummell, with the concurrence of Vice President Frederic Heimberger, has recommended that the present title of Dr. Dorothy D. Scott, which is Director of the School of Home Economics, be changed to Associate Dean and Director of the School of Home Economics, effective November 1, 1958.

I am, therefore, requesting the Board of Trustees to approve the change in name of the "College of Agriculture" to the "College of Agriculture and Home Economics" and the title of Dr. Dorothy D. Scott to "Associate Dean and Director of the School of Home Economics."

Upon motion of Mr. Ketner, seconded by Senator Bricker, the above recommendations were approved by unanimous vote.

X. RESOLUTION IN MEMORIAM

Charles W. Hammans

The Board of Trustees expresses its sorrow at the death of Charles W. Hammans, emeritus professor of Agricultural Extension, October 15, 1958.

Professor Hammans was born in Afton, Iowa, on January 2, 1892. He was graduated from Afton, Iowa, High School in 1910 and entered Iowa State College at Ames, Iowa, where he was graduated in 1914 in Animal Husbandry. After graduation, he assumed a position as Vocational Agricultural Instructor at the Mondamin, Iowa, High School. He remained there until 1917, when he accepted an appointment as club leader in Harrison County, Iowa, and continued in that capacity until August of 1917, when he became a member of the staff of the Iowa State College Extension Service. This continued until February, 1918. At that time Professor Hammans accepted an appointment as the first county agricultural agent in Harrison County, Iowa, and continued in that position until September, 1920. At that time he returned to the Iowa State Extension Service and served as Marketing Specialist until July, 1924. It was during this period of time that he received his Master's Degree in Agricultural Economics in 1923. He came to The Ohio State University Extension Service as an Extension Economist in Farm Marketing on July 1, 1924, and continued in that position up to the time of his retirement on July 1, 1957. He was on leave from the Extension Service during 1934 on an assignment with the United States Department of Agriculture in the early development of the agricultural adjustment program.

Professor Hammans was among the first Extension Specialists in Agricultural Marketing and was the first in Ohio to devote his time to Livestock Marketing. It was during the early period of his tenure here in Ohio that much attention was devoted to the analysis of the operation of livestock marketing organizations, since many organizations had been started in the livestock areas of Ohio prior to 1925. The committee method of attacking that which needed solving in the area of Livestock Marketing was one of Professor Hammans' important contributions to Extension work. The committee approach has stood the test of time under varying conditions and today is very effective in obtaining group discussion, approval, and action among farmers. He assisted the Boards of Directors and Managers in analyzing their market operations and in the development of uniform accounting procedures. During the latter part of the 1920's, he established the production and marketing committees that worked on the livestock program with the county agents for many counties in Ohio. Along with the county agents and farmer

November 7, 1958 meeting, Board of Trustees

committees, he was instrumental in establishing many of the lamb pools and aided greatly in expanding the lamb marketing program which has been so active in Ohio.

Professor Hammans also took the leadership through the Extension Service in the establishment of Ohio's meat hog marketing program. In recent years he gave marketing advice and guidance to the farmers producing feeder cattle in the southeastern part of Ohio during the establishment and holding of Ohio's demonstrational feeder calf sales.

Professor Hammans was a man who wanted to do things right and frowned on slipshod methods. He was intensely interested in what he was doing and positive in his thinking. He did not compromise with ideas that, to him, were unsound. He believed in giving all of his energy and effort in putting a project over as it should be to carry the name of the Agricultural Extension Service of The Ohio State University. He had a good sense of humor and was well liked by many marketing leaders and hundreds of livestock farmers in Ohio.

Professor Hammans was a member of the First Community Church, the American Farm Economic Association, Gamma Sigma Delta (honorary agricultural fraternity), Epsilon Sigma Phi (professional Agricultural Extension fraternity), Alpha Sigma Phi, a charter member in the Agricultural Extension Professors' Association, and a member of the Masonic Lodge, the Scottish Rite, and the Shrine.

On behalf of the entire University, the Board of Trustees expresses to the family its deepest sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

Vice President Heimberger presented Dr. Oram C. Woolpert, Executive Director of The Ohio State University Research Foundation who gave the following report regarding the work of the Foundation:

December 5, 1958 meeting, Board of Trustees

The Ohio State University Research Foundation is a nonprofit corporation, legally distinct from the University, but operationally closely related. It was established in 1936 at the instigation of the University's Board of Trustees and certain alumni. The incorporators were: Charles F. Kettering, James F. Lincoln, C. E. MacQuigg, Charles F. Michael, and Julius F. Stone.

Much of the University's research at that time was represented by the part-time or after-hours efforts of individual professors, working in cramped quarters and often with improvised equipment. Outside support for research was small. It was believed, evidently, that centralization of responsibility for contracting with sponsors and taking care of business matters relative to the administration of the respective projects would facilitate the desired expansion of research at the University.

The Foundation's first projects, with industrial sponsorship, were taken over from the Engineering Experiment Station. The volume increased slowly for the first five years, then shot up abruptly with the advent of federal sponsorship during the war. This development could not have been foreseen, but the Foundation was well designed to handle this increase and to cope with the complex problems entailed in dealing contractually with military agencies. Total sponsorship through the Foundation rose to a peak of 1.5 millions in 1943 and 1944. With the cessation of hostilities it dropped to less than 1.0 million in 1945 and 1946, but turned sharply upward again as a result of increased federal spending during the cold war and the Korean engagement. The volume reached a plateau between \$3.5 and \$4.0 millions in 1953 and has held within that range since then. Gross income during the first four months of the current year was 17% greater than for the corresponding period last year, leading to the expectation that this year the total will exceed \$4.0 million for the first time. The backlog of authorized expenditures is in excess of \$3 million. There are about 160 active projects, distributed among 8 of the 10 colleges, and 31 departments. Graduate students are associated with three-fourths of these projects and are paid over \$500,000 from project funds. Total project personnel, part-time and full-time, is in excess of 1,000.

Although it was clearly the intent of the incorporators that the Foundation should function in effect principally as an agency of the University, its original charter was couched in broad terms indicating that the Foundation might operate "both in connection with The Ohio State University and independently thereof." The charter was amended in 1954 to bring the Foundation more clearly under the aegis of the University in actual operation. The amended Articles of Incorporation state that the purposes of the Foundation are "to promote the educational objectives of The Ohio State University by encouraging, fostering and conducting investigation and research in the physical, biological and social sciences, the humanities, and all other branches of learning; instructing

December 5, 1958 meeting, Board of Trustees

individuals in the methodology of investigation and research; and utilizing, publishing or otherwise making known the results of such investigation and research, all pursuant to such arrangements with The Ohio State University as the trustees of the corporation may deem appropriate." It may be noted, too, that in event of dissolution of the Foundation, all of its property immediately vests in the University.

The organization of the Foundation under its Code of Regulations was also revised in 1954 with the result that all of its Member-Directors are now either of University origin or selected by agencies of the University. There are five classes of membership: Trustee, Administration, Faculty, Alumni and National Councilor. Members serve also as Directors. The Trustee Member is General Dargusch. The Administration Members are the President and Vice Presidents of the University, and the Dean of the Graduate School, ex officio. The current Faculty Members, elected by the Graduate Council, are: Professor Allison, Department of Botany and Plant Pathology; Professor Charvat, Department of English; Professor Dreese, Chairman, Department of Electrical Engineering; Professor Hitchcock, Department of Physiology; Professor Shartle, Chairman, Personnel Research Board; and Professor Williams, Acting Chairman, Department of Physics and Astronomy. The Alumni Members, elected by the Ohio State University Association, are: Thomas A. Boyd, General Motors; E. J. Crane, until recently Editor of Chemical Abstracts; and Arno C. Fieldner, formerly associated with the Bureau of Mines. National Councilor Members, elected by the University Advisory Research Council, are: Joseph W. Barker, Chairman of the Board, Research Corporation; Roland M. Bethke, Vice President, Ralston Purina Company; Francis C. Frary, Technical Advisor, Alcoa Research Laboratories; George R. Gehrkens, Chief Engineer, Columbus Division, North American Aviation, Inc.; and Alpheus W. Smith, formerly Dean of the Graduate School.

The annually elected officers of the Foundation are currently: Mr. Heimberger, President; Mr. Carson, Vice President; Mr. Mount, Secretary; Mr. Davis, Assistant Secretary; and Mr. Miller, Treasurer. Professor Stanger of the College of Law serves part-time as our legal counsel, and Mr. Leggett acts as auditor.

The recent reorganization of the University administration -- in particular the centralizing of over-all authority for the coordination of research in Vice President Heimberger's office -- has greatly facilitated the Foundation's role as an agency of the University, charged to work in close harmony with University policy and practice.

December 5, 1958 meeting, Board of Trustees

The principal functions of the Foundation as they have evolved are to negotiate contracts with sponsors and administer the related projects in respect to finances, procurement and property, editing and reproduction of reports, patents, and security.

In the formal negotiation of contracts the Foundation serves to bring together interested University research personnel and the potential sponsor. These formal negotiations are often preceded by informal contacts directly between our faculty and scientists employed by the sponsor. In all cases the Foundation takes steps to ensure that the program is acceptable to the University and within its resources as to facilities and staff. The Foundation enters into the formal contract with the sponsor and then, in effect, subcontracts with the University through the Board of Trustees for the conduct of the research in University laboratories and under faculty supervision.

The Foundation keeps all of the financial records related to projects, recovers direct and indirect (overhead) costs from the sponsor, and disburses funds for direct costs such as salaries and wages, materials and equipment, communication, and travel related to the projects. Project staff are appointed by Board of Trustees' action and are paid by the University out of a rotary into which the Foundation transfers funds periodically. Since 1953, by agreement with the University, the Foundation has paid over to the University quarterly the money collected for overhead, less a budgeted amount needed to meet the operating costs of the Foundation as such.

The Foundation has a staff of approximately 50 full-time employees in its headquarters at the Research Center on Kinnear Road. Eleven of these are senior personnel with professional training appropriate to their positions. Our principal negotiators represent an unusual combination of attributes, being required to speak the language of the contracting officer on the one hand and that of the research specialist on the other. The Foundation's operating budget for the current year (apart from certain auxiliary expenses not directly related to the Foundation) is approximately \$288,000, of which 80% is allocated to salaries and wages.

Research today is widely acclaimed if not widely understood. It is big business -- costly in terms of money, skilled manpower, and facilities. But it can cost an institution -- whether private or public -- even more dearly if left to the competitor. It has been wisely said that one can improvise strategy, but not technology.

December 5, 1958 meeting, Board of Trustees

The term commonly used by industry and government is "research and development." The total investment annually in R & D in this country is probably of the order of 10 billion dollars. Governmental agencies, principally federal, account for about half of this sum. It is estimated that "research and development" is about 40% "research" and 60% "development." Actually basic research, which is the phase of primary importance to a university, constitutes only a small fraction of the whole.

About 44% of the federal R & D money is spent in government laboratories; 38% goes to profit organizations, and 15% to educational institutions. Of the latter only 60% is expended by universities as such, the remainder being allocated to research centers loosely affiliated with universities for management purposes.

The National Science Foundation, surveying 173 colleges and universities for the year 1953-54, reported that these institutions spent approximately \$250 million that year on research in the physical and life sciences. More than half of this sum, \$133 million, was supplied by the Federal government, \$71 million was contributed by the universities themselves, \$18 million by foundations, and only \$16 million by industry. The ratio today would be similar.

The picture at Ohio State is representative of the situation nationally. The University's research effort is of the order of 8-10 million dollars. About half of this is represented by support from outside agencies through contracts or "grants" analogous to contracts. The remainder is accounted for by State appropriations, endowment, gifts, fellowships, etc.

One might ask, why does a university engage in research? Or more specifically, what does a university contribute through its research activities, and conversely, how do these activities affect its other operations? As to the former, it is well known that universities are the traditional source of new knowledge, although they are by no means the exclusive source. The breadth of scientific interests represented by a university faculty and the relative freedom in a university community to pursue those interests wherever they may lead are peculiar attributes which favor fundamental studies and which are not found elsewhere. Clearly, universities have an obligation to promote the national welfare, and to serve the world-at-large through basic research; to contribute "the little leaven that leaveneth the whole."

December 5, 1958 meeting, Board of Trustees

On the other hand, research is essential in the process of graduate education. As President Fawcett has indicated in the caption of his most recent report, "Our product is people." Many of these people are scientists and technologists, actual or potential, who are critically important to the national economy, if the wheels of progress are not slowly but surely to grind to a halt. Universities are virtually the sole source of this precious commodity. Universities require a substantial component of research-minded faculty, research equipment, time and funds for the pursuit of research, to accomplish advanced training in scientific disciplines.

No knowledgeable person will doubt, I presume, that Ohio State will continue indefinitely to be engaged in research so long as it remains a university. The reasonable prediction would be that as our world becomes more and more mechanized, and as the University perhaps gives added emphasis to professional and graduate education, the emphasis on research will likewise increase. There could be little question, either, that we shall continue to rely heavily on outside support, both governmental and industrial.

Of course outside sponsorship of research entails certain problems for any university having a large program such as ours. These could be characterized best perhaps as problems of balance, the rational distribution of emphasis over activities or categories which may at times seem to be competitive, if not mutually exclusive.

What should be the balance between research and teaching, or other characteristic activities of the University? The answer will depend in large part on the particular discipline and the percentage of graduate students in that area.

What should be the distribution of effort by scientific areas? The physical and engineering sciences now receive the greater support, whereas the social sciences and humanities, in the opinion of many, are relatively neglected. There is no question that at Ohio State the saturation point has been reached in some departments, whereas in others additional support is badly needed. This distortion results largely from limited availability of funds for the support of research in certain fields rather than from any pattern or principle adopted willfully by the University.

Does applied research encroach on basic research? We cannot live in an ivory tower, but we must not permit an undue diversion of effort from the more basic studies which constitute our unique contribution.

December 5, 1958 meeting, Board of Trustees

Related to some of the foregoing questions is one concerning mechanisms or channels of support. Support of research by gifts or grants, with the greatest possible freedom of operations, might seem to be ideal, but practical considerations have made contractual support dominant in many areas.

Distribution of costs as between sponsor and University is another perennial problem. It will be understood that the Foundation, as a nonprofit institution, and working in close relation with the University, seeks to recover only the actual costs, direct and indirect, incurred in administering and carrying out research. Even this goal is not fully realized. It is approached most nearly in our dealings with military agencies through cost-reimbursement type contracts, which provide a negotiated rate for overhead expense. But even here there are differences of opinion as to an equitable basis for the determination of indirect costs. Our contracts with the Atomic Energy Commission require that the University bear a portion of the direct costs as well as the related indirect costs. Most of our industrial contracts incorporate an overhead rate which probably falls short of recovering the full costs. Clearly that is true for grants and gifts which the University receives in support of research. In other words, the University makes a substantial investment out of its own resources in the great majority, if not all, of the research projects which it undertakes. This can be justified to the degree that such projects assist in the attainment of proper University objectives.

In any case, the University cannot lift itself solely by the bootstrap of outside funds made available for research through contract with governmental and industrial sponsors. However abundant or accessible such funds may be, they will not reduce the University's need for appropriated funds to support its regularly scheduled operations.

In respect to research sponsored through contract, the ratio of the governmental to the industrial component is often viewed with alarm, the thesis being that industrial support should be increased and governmental support minimized. The picture here is similar to that of most large universities. Federal support accounts for approximately 80% and industrial for about 20% of the Foundation's volume of operations. It should be pointed out, however, that a substantial amount of industrial support for research is currently handled by the Engineering Experiment Station and other agencies of the University, rather than by the Foundation. It may be noted also that the total contribution of industry to research in universities is not represented by contractual agreements alone. Many industrial concerns establish fellowships and give grants-in-aid. Another consideration is that a university, as a nonprofit and educational institution, in particular a state university, should not put itself in the position of competition with commercial research laboratories.

December 5, 1958 meeting, Board of Trustees

The Research Foundation type of organization is fairly common among educational institutions. The degree of centralization of authority and the scope of coverage differ from institution to institution. There are obvious advantages to sponsors, as well as to the institution, in centralizing the management of contractual research, and this pattern is emerging more and more, I believe, at universities over the country. There can be no question that negotiation of contracts, particularly with military agencies, is a highly specialized business for which experienced personnel are needed. Such matters cannot reasonably be left to individual professors, and centralization of management would appear to be desirable and in the interests of efficiency, so long as good integration with over-all university operations is maintained.

I believe that the Research Foundation at Ohio State has fully justified the hopes held for it by the original incorporators. It has grown with the University, not as a separate entity, but closely affiliated in the common cause. The Foundation has the potential for further growth as the needs of the University dictate and as its resources expand.

The Chairman now expressed to Dr. Woolpert the appreciation of the Board for this comprehensive and thought-provoking report on the Research Foundation.

President Fawcett presented the following:

**I. GENERAL RECOMMENDATIONS**

**A. Recommendations from the Faculty Council - Changes in Rules**

For the past academic year a special committee of the Faculty has been studying the Faculty committee structure with the purpose of simplifying the organization and lightening the committee load carried by teaching members of the faculty. The following proposed revisions of the Rules for the University Faculty have resulted from this study and have been approved by the Faculty Council. I am, therefore, recommending that the Board of Trustees adopt the rules as revised.

**1. 29.2701. Council on Instruction**

That the present Rule 29.2701 be deleted and the following be inserted in its place:

29.2701. Council on Instruction.

Section 1. The Council on Instruction shall consist of nine members of the University Faculty appointed by the President for three-year terms, three members to be appointed each year. The Vice President, Instruction and Research, shall be the Chairman of the Council; the Assistant to the Vice President - Curriculum Development, shall be the Vice Chairman. The Chairman (or, in his absence, the Vice Chairman) shall preside at all meetings of the Council and shall vote only in case of a tie vote among the members of the Council present and voting.

A member of the Council who has completed a three-year term shall be ineligible for re-appointment during one year thereafter.

Section 2. The Council on Instruction shall be responsible for making recommendations to the Faculty Council concerning the educational and academic policies of the University. See Rule 29.15. This responsibility shall include, but shall not necessarily be limited to, the power to make recommendations concerning the establishment, alteration and abolition of all curricula and courses offered by the University or any division thereof; of all degrees and certificates conferred under authority of the University or any division thereof; and of all Colleges, Departments, Schools and Bureaus. It may conduct such investigations and appoint such committees as are reasonably necessary to carry out its responsibilities under these Rules. Committees appointed by this Council may be discharged by it at any time.

December 5, 1958 meeting, Board of Trustees

Section 3. This Council may initiate recommendations to the Faculty Council and shall review all proposed changes in the educational and academic policies of the University. In reviewing proposed changes, the Council shall:

- a. Receive from the various Colleges, pursuant to the exercise of their powers under Rule 23.03, proposals for the establishment, alteration or abolition of courses and curricula, of Departments, Schools, and Bureaus within a College, and of academic degrees. See Rules 31.02 and 31.0201.
- b. Receive from the Graduate School, pursuant to the exercise of powers conferred upon the Graduate Council by Rule 27.0705, its proposals for the adoption, alteration or abolition of graduate-credit courses and curricula, and of academic degrees administered by it. See Rules 31.02 and 31.0201.

Upon proposals respecting courses and curricula, the Council shall act with finality subject to the right of the Graduate School or of any College to bring the Council's decision before the Faculty Council for review. With respect to other submissions to it, the Council shall make its recommendations to the Faculty Council after notice thereof in at least abbreviated form has been given in the Official Bulletin. Failure of the Council on Instruction to act or to submit its recommendations will not deprive the Faculty Council of power to review these other submissions.

Section 4. Subject to these Rules, the Council on Instruction shall formulate and announce a procedure to be followed in the establishment, alteration or abolition of courses or curricula.

Section 5. Reports by the Council on Instruction to the President, other than those made through the Faculty Council, shall be made through the Vice President, Instruction and Research.

2. 29.2707. Advisory Research Council.

That the present Rule 29.2707 be deleted and the following be inserted in its place:

29.2707. Council on Research.

Section 1. The Council on Research shall consist of fourteen members chosen as follows:

December 5, 1958 meeting, Board of Trustees

- a. Appointed members. Eight members of the Graduate Faculty, one from each of the eight graduate areas (as defined in Rule 27.0701), shall be appointed by the President.
- b. Ex officio members. The following six ex officio members shall serve on the Council: the Dean of the Graduate School; the Director of the Agricultural Experiment Station; the Director of the Engineering Experiment Station; the Executive Director of the Research Foundation; the Associate Executive Director of the Ohio State University Development Fund; and the Director of Libraries.

The appointed members shall be appointed to a four-year term, two to be appointed each year, and shall be ineligible for re-appointment during one year thereafter.

The Vice President, Instructor and Research, shall be the Chairman of the Council on Research; the Assistant to the Vice President - Research Development and Institutes, shall be the Vice Chairman. The Chairman (or, in his absence, the Vice Chairman) shall preside at all meetings of the Council on Research and shall vote only in case of a tie vote among the members of this Council present and voting.

Section 2. The Council shall have the following duties:

- a. To collect information relative to research work being conducted within the University.
- b. To collect information relative to existing and potential sources of funds for the support of research.
- c. To foster existing research programs and stimulate the development of research in areas needing strengthening.
- d. To advise individual researchers, interested departments, research agencies, and the President on the merits of, and resources available for, specific research proposals.
- e. To study and recommend to the President University-wide policies with respect to research activities, facilities and personnel.
- f. To publicize research activities with a view to educating the public on the importance of research and the necessity for the state support of it.
- g. To make recommendations to the Faculty Council concerning the establishment and abolition of Institutes and the membership and authorities of Institute Boards. See Rule 13.09.

December 5, 1958 meeting, Board of Trustees

3. 29.2719. Committee on Aptitude and Diagnostic Tests

That this rule be deleted.

41.11. Academic Aptitude Test

That this rule be titled "Academic Aptitude and Course Placement Test", and that the first paragraph of the present rule be deleted and the following be substituted as a first paragraph:

Every undergraduate student, excepting transient students, attending the University for the first time, is required to take an academic aptitude test under the supervision of the University Counseling and Testing Center. He shall also take such course placement tests as are required by the appropriate College or Department.

5. 29.2729. Committee on Commencement Convocations

That this rule be deleted.

6. 29.2725. Committee on Diplomas

That this rule be deleted.

7. That a new rule be established as follows:

13.09. Institutes: Establishment and Administration of. Institutes shall be established or abolished by the Board of Trustees upon recommendation of the Council on Research and Faculty Council. Each Institute shall be administered by a Board having such membership and authority as determined by the Council on Research (see Rule 29.2707) and approved by the Faculty Council and the Board of Trustees.

B. Recommendations from the Faculty Council - Discontinuance of Committees

As a result of the study referred to in Section A above, the Faculty Council has recommended that three Faculty committees created by the Board of Trustees be discontinued and their functions assigned elsewhere. I am, therefore, recommending that these proposals be approved by the Board of Trustees.

December 5, 1958 meeting, Board of Trustees

1. Committee on Portraits and Memorials.

On January 14, 1935, the Board of Trustees established this Committee through the following action: "That a permanent administrative Faculty committee be appointed to consult with future donors of gifts and to advise with the President as to their acceptability and appropriateness. . . ." The Faculty Council recommends that this committee be discharged and its functions assigned through the Office of the President to the Director of University Relations.

2. Committee on Recognitions.

On February 5, 1945, the Board of Trustees established this committee through the following action: "That a rotating committee be appointed to have charge of the annual ceremony honoring those who have served the University twenty-five years or longer." The Faculty Council recommends that this committee be discharged and its functions assigned through the Office of the President to the Director of University Relations.

3. Editorial Board, University Press.

On September 3, 1957, the University Press was established by action of the Board of Trustees. In presenting my recommendation at that time, the following sentence was used: "According to our studies, the Press should be administered during the first year by an editorial board consisting of the Dean of the Graduate School, as Chairman, and five members of the Faculty to be appointed by the President." This board has functioned since that time. The Faculty Council now recommends that this board be discharged and its function be assigned through the Office of the President to the Dean of the Graduate School.

C. Candidates for Degrees - December Convocation

It is recommended that degrees be conferred at the Autumn Quarter Convocation on December 19, 1958, to those students who complete their requirements and are recommended by the Faculty Council for degrees on that date. The names of those awarded degrees will be included in the minutes of this meeting.

Upon motion of Mr. Ketner, seconded by Senator Bricker, the above recommendations were approved by unanimous vote.

Chemical Abstracts Addition

In its meeting on September 2, 1958, the Board of Trustees agreed without formal action to the addition of one floor on the Chemical Abstracts Building and to the inclusion in the University's Master Plan Study of the future space needs of the Chemical Abstracts staff. An agreement has been negotiated with representatives of the American Chemical Society and is now before the Board of Directors of that organization for action.

This agreement provides that the University will plan and construct the additional floor with plans and specifications to be approved by the American Chemical Society; that the American Chemical Society will pay the entire cost of erecting, planning, constructing, and insuring the building; that the American Chemical Society will assume all costs of operating and maintaining the entire building, including all costs of utilities; that the Chemical Abstracts Service of the American Chemical Society shall have exclusive use of the building, except that faculty members and students in the Department of Chemistry shall have limited access to the Chemical Abstracts library; that the future space needs of Chemical Abstracts will be considered in the Master Plan Study of the campus; and that the University will not take over the building without providing other facilities of equal value.

It is recommended that the President be authorized to sign on behalf of The Ohio State University this agreement with The American Chemical Society, subject to approval of said agreement by the Attorney General of Ohio.

Upon motion of Mr. Patton, seconded by Mr. Ketner, this recommendation of the President was approved by unanimous vote.

I, therefore, recommend that authority be granted the President of The Ohio State University to sign an agreement with The University Council for Educational Administration, Inc., to facilitate the moving of the center from Columbia University, effective July 1, 1959.

Upon motion of Senator Bricker, seconded by Mr. Rairdon, the above general contract and agreement was approved by unanimous vote.

IX. MISCELLANEOUS - FROM OFFICE OF BUSINESS AND FINANCE

A. Car Parking Ramp

After considerable study, it has been determined that the project "Car Parking Ramp Facilities" should be deferred until the Master Plan for the University has been completed and it is, therefore, recommended that the previous action of the Board of Trustees authorizing this project be rescinded and that the application for advance planning money, Project No. Ohio 33-P-3012, as filed with the Housing and Home Finance Agency, be withdrawn. The architectural firm of Potter, Tyler, Martin and Roth who were appointed to render service for this project has indicated their willingness to terminate their contract at no expense to the State of Ohio. It is, therefore, recommended that Vice President Carson take the necessary action to withdraw the application from Housing and Home Finance Agency and to request the Director of Public Works to terminate the contract for architectural services with Potter, Tyler, Martin and Roth.

Upon motion of Senator Bricker, seconded by Mr. Patton, the above recommendations were unanimously approved.

X. RESOLUTIONS IN MEMORIAM

James Osborn Lord

The Board of Trustees expresses its sorrow at the death on October 13, 1958, of James Osborn Lord, Professor of Metallurgical Engineering.

Professor Lord was born in Columbus, Ohio, on December 8, 1891. His father was Nathaniel Wright Lord, after whom Lord Hall was named, and his mother was Susan Osborn Lord. He was graduated from Columbus North High School in 1910 and attended The Ohio State University, from which he was graduated in 1915 with the degree, Bachelor of Chemical Engineering.

Leaning strongly toward metallurgy because of his father's interest and his environment, he joined the staff of the U. S. Steel Corporation at Gary, Indiana. There he had practical experience with open-hearth furnace operations. Later he transferred to the Technical Service, where he continued until December, 1917, when he enlisted as a Sergeant with the new Chemical Warfare Branch of the National Army. During this enlistment he was stationed at Niagara Falls with the Oldbury Electrochemical Company, where the toxic gas phosgene was being produced. He aided in the development of phosgene and the handling of this gas. Many of the methods employed there were used later in the development and construction of the main plant at Edgewood, Maryland.

In December, 1918, he was honorably discharged as a Second Lieutenant, Chemical Warfare Service. Professor Lord returned to his former position at Gary, where he became very interested in metallographic techniques for iron and steel identification, then in their infancy. His keen interest in this field and his expert handling of photomicrography soon stamped him as one of the outstanding men in this field. This led to his appointment as Instructor of Metallurgy at The Ohio State University in September, 1921. His great interest in metallography continued until his death.

Professor Lord was a member of Sigma Xi and an honorary member of Alpha Chi Sigma Fraternity. He was a member of the American Institute of Mining, Metallurgical, and Petroleum Engineers and the American Society for Metals, of which he was a charter member of the Columbus Chapter. He produced several educational movies for the American Society for Metals. He also belonged to the Open Court, the Campus Photographic Society, the Columbus Philatelic Society, and the Faculty Club. His stamp collection, which he

December 5, 1958 meeting, Board of Trustees

originally started for his son, is one of the best in Columbus. He was very active at the Overbrook Presbyterian Church, where he served on the Board of Trustees and as an Elder.

Professor Lord was a licensed Chemical and Metallurgical Engineer. He was author of the book Alloy Systems, which is being used at a number of universities. He is also the author of a number of papers, principally in the American Ceramic Society, on Metal Surface Preparation for Enameling. Since 1942 he has been active in sponsored research administered through the Research Foundation.

Professor Lord was an ardent lover of the outdoors. His principal interests were fishing, astronomy, and photography of the caves and hills in the southern counties of Ohio. He was a member of the Zanesfield Rod and Gun Club, and many of his friends have enjoyed his invitations to a good day of fishing at this Club; the fish dinners prepared by him on these occasions were legend.

Professor Lord was a man having keen interest in his work. Only perfection satisfied him, and yet he was always ready to aid those who had trouble attaining this standard. His untiring efforts and patience with his students, and his willingness to aid them professionally will be remembered for a long time.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

X. RESOLUTIONS IN MEMORIAM

Robert Alfred Keating

The Board of Trustees expresses its sorrow at the death of Robert Alfred Keating, Assistant Professor of Surgery, on October 7, 1958, while attending a meeting of the North Central Section of the American Urological Association in Milwaukee, Wisconsin.

Dr. Keating was born February 2, 1911, in Springfield, Ohio, where he spent his early boyhood. He was graduated from North High School in 1930. His academic years were spent at New York University and The Ohio State University, from which he received his Bachelor of Arts Degree in 1933. His medical education began in the Medical College of Virginia at Richmond, where he spent two years. He was graduated from The Ohio State University College of Medicine in 1937.

All of his postgraduate work was spent at the University Hospital. He was an intern and senior intern in Surgery from 1937 to 1939; an assistant resident in Surgery, including Urology, 1939-40; and a chief resident in Urology, 1940-41.

He served three years as a medical officer in the United States Navy. He entered the service as a Lieutenant (j. g.) and served as a medical officer on a destroyer at the Sicilian and Anzio Beach landings. Dr. Keating was interested in flying and, following his sea duty, attended the School of Aviation Medicine at Pensacola, Florida. As a flight surgeon he was assigned to duty at Jacksonville, Florida, and Buford, North Carolina. He was discharged from the Navy as a Lieutenant Commander (Reserve).

Dr. Keating became a member of the teaching staff of the Urological Section of the Department of Surgery of the College of Medicine in 1942 and was made Assistant Professor in Surgery (Urology) in 1947. He was a member of the American Medical Association, the American College of Surgeons, the American Board of Urology, and the North Central Section of the American Urological Association.

He was on the attending staffs of the Mt. Carmel, Children's, University, St. Anthony's, and White Cross Hospitals.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

December 5, 1958 meeting, Board of Trustees

The President distributed copies of the Resolution in Memoriam for Charles Franklin Kettering, which is as follows:

RESOLUTION IN MEMORIAM

FOR

C H A R L E S F R A N K L I N K E T T E R I N G

The Board of Trustees expresses its extreme sorrow and deep sense of loss at the death on November 25 of Charles Franklin Kettering, Trustee, alumnus and friend of the University.

For exactly sixty years the life lines of Charles F. Kettering and The Ohio State University were entwined closely. He served continuously as a Trustee or as Treasurer for forty-one years. His nearly twenty-six years as a Trustee, first from 1917 to 1925, and then from 1941 until his death, completed the longest term of service given by a member of the Board.

Mr. Kettering first became identified with the University when he entered as a freshman in the fall of 1898 after teaching in a one-room school. In the fall term of 1899, however, difficulty with his eyes compelled him to drop out. He re-entered in 1901 and received the degree of Mechanical Engineer in Electrical Engineering in June, 1904. In June, 1929, when the University revived the practice of awarding honorary degrees after a lapse of thirty-three years, he was one of three recipients. The same year he was awarded the Sullivant Medal.

The long story of his life is already a part of the American saga for the first half of the Twentieth Century. Mr. Kettering earned an international reputation as a scientist and inventor. He was a born experimenter whose restless mind ranged the whole spectrum of human activity. As he once said: "Science is merely finding out how nature does things." To this end he devoted his life.

Much of his effort as a researcher resulted in the achievement of what lesser men said could not be done: the perfection of the electric cash register, the invention of the self-starter for the automobile, and the refinement of the Diesel engine, to name only three of his major accomplishments. Additionally, he contributed to the automotive industry a better ignition system, Ethyl gasoline, and vastly improved quick-drying finishes. The 140 patents which he held on his own inventions and on improvements on inventions of others helped revolutionize a dozen industries. His persistence and tenacity are illustrated by the fact that in one endeavor he had six hundred failures before he achieved success.

December 5, 1958 meeting, Board of Trustees

But his active and continuing interests ranged far beyond the field of automotive engineering. One of his major pursuits was in the field of photosynthesis or, as he put more simply, to "find out why grass is green." Another long-time project was in fever therapy research, which was conducted, in part, on this campus. This research yielded an instrument known as the Kettering hypertherm, which many leading hospitals now use in fever therapy work.

In 1945, he and his long-time General Motors colleague, Alfred P. Sloan, Jr., established the Sloan-Kettering Institute for Cancer Research. Of his part in this, Mr. Kettering explained with characteristic modesty that his contribution was mainly "to supply some of the general types of techniques long employed in industrial scientific research."

He served his country in World Wars I and II. In the former he advanced the idea of the automatically controlled airplane and in the latter he was Chairman of the National Inventors' Council, and in 1941 President Roosevelt named him Chairman of the National Patent Planning Commission.

To label Mr. Kettering as a scientist and industrialist only is to do him less than justice. He was a humanitarian and a good citizen who helped substantially in the development of the communities of which he was so much a part - Loudonville, his birthplace, and Dayton, his home for half a century. After his retirement from General Motors in 1947 he continued his activities with his usual energy and interest.

By common consent, Charles F. Kettering was recognized as a genius, albeit a very humble one. Thanks to his inventiveness and imagination the face of America is vastly different at mid-century than it would have been without him. For the revolution he brought about in the American way of life places him forever in a rare and select class of mankind which includes his fellow-Ohioans, the Wright brothers and Thomas A. Edison. Like theirs his influence was world-wide.

The imprint he left on The Ohio State University is everlasting. Apart from his notable service as a Trustee and as Treasurer, he was an early benefactor of the University Hospital and was one of the originators of the University's Research Foundation. As the 1958 President's Report has emphasized, the University's product is people. Certainly, in its eighty-five years, it has produced no more illustrious son than Charles F. Kettering.

Yet to the very end of his long and immensely useful life he wore his many honors with becoming modesty and characteristic humility. Only once in an aeon does such a man emerge. His generation, the State of Ohio, and the University are greatly privileged to call Charles Franklin Kettering their own.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and its own sense of loss. It is directed that this resolution be inscribed upon the minutes of the Board.

December 5, 1958 meeting, Board of Trustees

The President then read a letter from Professor Robert M. Estrich, Chairman of the Advisory Committee to the President and the Board of Trustees which is as follows:

November 29, 1958

Dear President Fawcett:

The Advisory Committee has asked me to request you to convey the following message concerning Mr. Kettering to the Board in the hope that the Board may find it suitable to include along with their own message of condolence to the Kettering family.

The Advisory Committee to the President and Board of Trustees, having long had the privilege of working with Charles F. Kettering in its consultations with the Board, feels a deep loss at Mr. Kettering's death. As representatives of the faculty of the University and as individuals we have for many years cherished his stimulating and provocative mind, his magnificent sense of what education should be, and his special and affectionate concern for education at the Ohio State University. We have also enjoyed the candor and humor with which he defended and illuminated his thought, and time after time we have profited from the penetration of his wit. We have admired and relished the abundance of his vitality. We are grateful for the years of our profit and our deep enjoyment, and we are saddened that a great man has been taken from us.

Respectfully submitted,

/s/

Robert M. Estrich  
for the Committee

THE OHIO STATE UNIVERSITY  
OFFICIAL PROCEEDINGS OF THE  
NINE HUNDRED AND THIRTY-FOURTH MEETING  
OF THE BOARD OF TRUSTEES

Columbus, Ohio, January 12, 1959

The Board of Trustees met at the University pursuant to call of the Chairman.

Present: General Carlton S. Dargusch, Chairman, Judge Robert N. Gorman, Forrest G. Ketner, Thomas F. Patton and Smith L. Rairdon.

The minutes of the last meeting were approved.

Dean Charles A. Doan introduced the Director of the School of Nursing, Miss Mildred Newton, who presented a report to the Board of Trustees which is summarized as follows:

January 12, 1959 meeting, Board of Trustees

### The Ohio State University School of Nursing

The School of Nursing exists to prepare professional practitioners of nursing, prepare teachers, improve the practice of graduate nurses, and discover and institute better methods of nursing care and nursing education.

The two undergraduate curriculums leading to the B. S. in Nursing are the Basic for students who have completed a year's university preparation, and the General Nursing for graduates of hospital diploma programs. Enrollment in these curriculums rose from 226 in autumn 1950 to 604 in 1955. The next year admission to the Basic program was restricted. In 1957 the first year's work was transferred to Arts and Sciences. Graduates receiving the B. S. in Nursing increased from 109 in 1943-48 to 476 in 1953-58. Students entering nursing in 1952 had a higher rate of persistence in the University than did students in any of the five undergraduate colleges.

Instruction in Graduate School began in 1954 and enrollment has risen from 3 to 17. Preparation for teaching medical-surgical or psychiatric nursing is offered and leads to the M. S. degree.

All students need laboratory experience in nursing. This is provided largely at the Health Center. University instructors must be with students at the hospitals and public health agencies in order to safeguard the quality of instruction for which the University is granting credit, to give theory concurrent with practice, and to protect the students' status as students.

The School draws upon many of the University facilities and in turn is beginning to contribute to other departments.

As present graduates of one of the University's nursing curriculums constitute the following per cents of Health Center institution staffs: University Hospital - 16, Tuberculosis Hospital - 35, Psychiatric Hospital - 50, and School of Nursing faculty - 54 per cent. Fifty-eight per cent of the active graduates of the last 10 years are employed in institutions, 18 in public health and 12 per cent in teaching.

Preparation of the faculty has greatly improved since 1951. The members are widely sought after and have many tempting offers of positions at salaries above those of this University.

Ohio has 232 nurses per 100,000 population, the United States 258, and 300 are needed for just minimal care. Frieda Stewart's predictions are that by 1970 the School should be able to enroll 800 to 2200 students. These nurses are needed, but can and should the University try to meet this demand?

The School needs more faculty, more clinical facilities, a dormitory for Health Center women students, and, most of all, a building of at least 50,000 square feet. Further expansion depends upon these provisions.

The Chairman now expressed on behalf of the Board their appreciation for Miss Newton's challenging report.

January 12, 1959 meeting, Board of Trustees

President Fawcett presented the following General Recommendations:

I. General Recommendations

A. Master Plan for Don Scott Field

The probable future use of more multiple-engine aircraft at Don Scott Field, including the use of such aircraft for flight training, will require a longer runway than is now available. The Civil Aeronautics Administration has requested that any new primary runway constructed by the University be substantially parallel to the east-west runway at Port Columbus. This would not only reduce the hazards to all aircraft operating in the area but would also reduce low-flying traffic over the village of Linworth.

A preliminary master plan for future developments at Don Scott Field has been prepared by the Office of University Plant Studies in consultation with the Civil Aeronautics Administration, the College of Engineering, and the Campus Planning Advisory Board, and has been approved by the Cabinet. This plan establishes the approximate location of a longer runway and provides the necessary guidance for land acquisition.

Therefore, I recommend that the attached preliminary plan, which is to be retained by the Secretary of this Board as an official document of the Board, be approved and that the President be directed to proceed with the development of a more complete master plan in general conformity with this preliminary plan.

Upon motion of Mr. Patton, seconded by Mr. Ketner, this recommendation was approved by unanimous vote.

B. Fee for Graduate Courses Offered Off-Campus

The Graduate School of The Ohio State University has approved the offering of certain graduate courses off-campus (primarily in off-campus centers) and it is now necessary to establish a fee for this type of service.

Therefore, I recommend that a fifteen dollar (\$15.00) per quarter hour fee be established for such off-campus graduate courses as may be given within the limits of our resources. The recommended fee is consistent with the rate charged by the other state universities of Ohio providing similar off-campus services.

C. National Defense Student Loan Fund

The 85th Congress passed and President Eisenhower signed on September 2, 1958, Public Law 85-864 which is popularly known as the National Defense Education Act. This Act provides funds to universities for the establishment of student loan funds (nine-tenths federal funds and one-tenth university funds) for the purpose of providing low-interest, long-term loans to needy students.

Therefore, I recommend that the Board of Trustees create the Ohio State University National Defense Student Loan Fund to be established for the purpose of receiving funds from the federal government for disbursement to needy student borrowers under terms of the National Defense Education Act of 1958, Title II, form NDEA-11-2(58), entitled "Terms of Agreement with an Institution of Higher Education for Capital Contribution by the Commissioner of Education, Pursuant to Title II of P. L. 85-864"; and further that the President be authorized to complete the Agreement and direct the Executive Dean, Student Relations, and the Director of the Student Financial Aids and Scholarships Office to proceed with arrangements for use of the Fund.

D. Naming of Health Center Research Laboratories

Upon the recommendation of the Director of University Relations and with the concurrence of Dr. Charles A. Doan, Dean, College of Medicine and Director, Health Center; Dr. Richard L. Meiling, Associate Dean, College of Medicine and Associate Director, Health Center; and Dr. Peter A. Volpe, Administrator, Health Center and University Hospital; it is proposed that the building housing research facilities and located immediately north of University Hospital, be named "Health Center Research Laboratories."

This recommendation has the concurrence of the President's Cabinet and is in accordance with the By-Laws of the Trustees. I therefore recommend its approval.

January 12, 1959 meeting, Board of Trustees

E. Season Football Ticket Sales for 1959

The Athletic Council for the past several months has been giving careful study to the problems relevant to the sale of season football tickets and has prepared the following proposal for consideration by the Board of Trustees.

It is proposed that the sale of season books for the 1959 football season be held to a maximum of 65,000. These season books will be sold under the priority system now in effect which is as follows:

1. Students
2. Faculty
3. Alumni Association Members and Benefactors of the University
4. General Public

It has been agreed that the allotment of tickets to Michigan State University for its game here in 1959 will not exceed 5,000 tickets. Based on the number of available seats for sale in Ohio Stadium (79,658), there will be 9,658 tickets for use in individual game sales for the Michigan State Game. Due to the fact that the other five (5) visiting schools will be allotted considerably less than 5,000 tickets, the ticket availabilities for these games will be well in excess of 9,658. Members of priority group three will have an opportunity to order individual game tickets in advance of the general public.

It is further proposed that the limitation on season book sales and visiting school allotments for football be reviewed prior to the 1960 season, and annually thereafter.

Therefore, I recommend that the Board of Trustees approve the above proposals authorizing the sale of 65,000 season books for the 1959 football season and that the allotment for sale of football season books be reviewed annually.

**F. Recommendations of the Faculty Council - Changes in Rules**

In the present organization of the Faculty Council the members of the Faculty attached to the three military departments are not empowered to elect a representative, with vote, to the Faculty Council. The three chairmen of these departments have been corresponding members without vote. The following changes in rules were approved by the Faculty Council on December 9, 1958, to enable these departments to elect a voting representative and to remove the chairmen from the corresponding member category.

1. It is recommended that Rule 29.01 (Membership, Faculty Council) be amended by deleting sub-section (13) of section b and by inserting the following paragraph immediately following sub-section (12):

(13) Military: Air Science, Military Science,  
Naval Science. Council membership, 1.

2. It is recommended that the following titles be deleted from section c of Rule 29.01: Professor of Military Science, Professor of Air Science, and Professor of Naval Science and Tactics.

I therefore recommend that the above changes in rules be approved.

Upon motion of Mr. Patton, seconded by Mr. Ketner, the General Recommendations, as listed B through F, were approved by unanimous vote.

G. Campus Political Meetings

Judge Gorman presented the following resolution; and upon motion of Judge Gorman, seconded by Mr. Rairdon, it was adopted by unanimous vote.

WHEREAS, permission has been requested by the students representing the Young Democratic Club and the Young Republican Club, to hold dinner meetings and two-hour seminars in the afternoon preceding the dinners,

WHEREAS, the request involves an invitation to student political leaders from other campuses and the general public, and

WHEREAS, the current policy for the holding of campus political meetings excludes this type of meeting,

• NOW THEREFORE BE IT RESOLVED, that the President be granted authority to extend an invitation to The Ohio State University Young Democratic Club and The Ohio State University Young Republican Club, each to hold one meeting, provided the following conditions are met:

1. Said meeting shall be scheduled at a time that will not interfere with regular classes.
2. A seminar or forum immediately preceding the banquet shall be conducted on the highest possible educational plane and shall use the services of people of academic stature in their special fields.
3. The theme of the forum shall be carried over into the banquet session, with a nationally recognized speaker at the banquet who shall be assigned a topic which is related directly to the theme of the forum preceding.
4. A small faculty advisory committee shall work with the faculty sponsor of each political club and be responsible for seeing that all conditions are met.
5. One meeting of this type may be scheduled each year and the meeting shall be planned in such a manner that the outcomes will contribute to a higher level of accomplishment in political education and political philosophy for the students on this campus.
6. Such meetings shall not be for the purpose of introducing candidates and should be held preferably in January, February, or March.

January 12, 1959 meeting, Board of Trustees

In addition to the regular appointments and promotions, the following appointments are hereby recommended for approval:

A. College of Arts and Sciences - Institute of Geodesy

#### VIII. Resolutions in Memoriam

##### C. W. Foulk

The Board of Trustees expresses its sorrow at the death of Charles William Foulk, Professor Emeritus of the Department of Chemistry, on December 15, 1958.

Professor Foulk was born in Warren, Ohio, on April 26, 1869. He attended public school and high school in Warren. He entered The Ohio State University and received the Bachelor of Arts degree in 1894. His first experience with analytical chemistry came to him as an assistant to Professor N. W. Lord who, as Professor of Mining and Metallurgy, was an expert analyst and operated a laboratory in which many samples of fertilizers of interest to the Ohio Board of Agriculture were analyzed. Professor Foulk was appointed Assistant Chemist in the Department of Chemistry in 1896. He was granted a leave of absence from the University from 1899 to 1901 in order to study in Germany. He studied chemistry in Ostwald's Laboratory in Leipzig. When he returned to The Ohio State University, he was appointed Assistant Professor of Chemistry and began teaching courses in analytical chemistry. In 1902 he was promoted to Associate Professor and in 1908 to Professor of Chemistry. He retired in 1938.

During the period 1914-1916 he was consulting chemist for the Geological Survey of Ohio. In this capacity he completed a study of the composition of the natural waters of the state. During his scientific career he published 41 research papers and 10 reviews. He published a textbook on analytical chemistry in 1914. His contributions to chemistry include the use of iodine, silver, and constant boiling hydrochloric acid as ultimate standards in volumetric analysis, the direct determination of sodium, the dead-stop endpoint method in electrometric titrations and the chain hydrometer for highly precise determinations of the density of liquids.

Professor Foulk was an inspiring teacher and was beloved by his former students and his many friends. His entertaining conversation will be missed, particularly at the Faculty Club, of which he was a charter member. He was a member of the Torch Club, Sigma Xi, The American Chemical Society, the Association for the Advancement of Science and the American Water Works Association.

On behalf of the entire University, the Board of Trustees expresses its deep sense of loss. It is directed that this resolution be inscribed on the minutes of the Board.

January 12, 1959 meeting, Board of Trustees

Almond Eldon Hittepole

The Board of Trustees expresses its sorrow at the death of Almond Eldon Hittepole, Assistant Dean of Men, on November 5, 1958.

Dean Hittepole was born August 23, 1907, in Wapakoneta, Ohio. He received a Bachelor of Arts Degree from The Ohio State University in 1930 and returned later to complete his M. A. Degree in 1940. He served in the U. S. Coast Guard from 1942 through 1945 as a Lieutenant (Senior Grade) and was awarded four battle stars for action in the Philippines.

Dean Hittepole married the former Pauline Predmore in 1934. Surviving him are his wife and two children, Meredith Viola, 15 and Alan Walter, 12.

Always interested in athletics, he was a member of the Central Ohio Football and Basketball Officials Association and was athletic coach and teacher at Rushsylvania, Deshler, Canal Winchester and Worthington schools.

Dean Hittepole joined the staff of the Dean of Men in 1948 as Director of Housing and later became Assistant Dean of Men and Director of Off-Campus Housing. He was charged with the responsibility of supervising rooming house facilities and maintaining University relations with rooming house operators.

A most popular and sincere friend of both students and staff, he was Service Officer of the University Post of The American Legion. He served as advisor to Alpha Phi Omega, scouting service fraternity. A man of great warmth with an avid interest in young men, he long served as advisor to his fraternity, Delta Sigma Phi. He was advisor to Phi Eta Sigma, the freshman men's scholastic honorary, and was a member of its national executive committee.

He was an inspiration, by deed and example, to those whom he counseled and those with whom he worked. He affected the lives of many young men who grew in stature and character because they knew him.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

Vice President Frederic Heimberger presented a report to the Board of Trustees on the "RECENT DEVELOPMENTS IN UNDERGRADUATE EDUCATION," which is summarized as follows:

February 6, 1959 meeting, Board of Trustees

### RECENT DEVELOPMENTS IN UNDERGRADUATE EDUCATION

During the past few years University faculty and administration have been working toward the strengthening of undergraduate education through separate efforts which when placed together present a very significant advance.

A bridge of understanding and cooperation between the University and the secondary schools of Ohio is being built by the annual conferences between principals and our freshmen who, the year before, were from their high schools, and by annual conferences between our teaching staff and their subject matter counterparts in the secondary schools. In order to provide a challenge to the very able and serious student while he is in high school we have brought near to completion a program for advanced placement, which should encourage and help more of the high schools in Ohio to provide instruction at the beginning college level for their exceptionally able students; we then follow through by giving full credit to properly validated advanced learning. Ohio State has now taken the lead in bringing together the other state-supported universities in a united approach to this program.

A similar challenge during the undergraduate years in the University has been met for some time by the Honors Program of the College of Arts and Sciences, which is designed to free the very able undergraduate from certain courses and curricular patterns so that he may move ahead at a pace commensurate with his ability and interest. We have already raised our standards of undergraduate education through which the student earns the privilege of going on to more advanced studies. These new academic standards also have an indirect but very important effect on the quality of our graduate work, particularly in courses shared by graduate students and advanced undergraduates.

Our University Faculty Council has established certain common objectives to be sought and principles to be followed in every program of study leading to a baccalaureate degree from this University, in order to offer an introduction to and an invitation to the lifelong process of self-education. This minimal pattern of University-wide requirements in basic education, which must be given priority over the demands of any specialty, includes at least forty-five hours of course work in sciences, social sciences, and the humanities, designed with care to provide experiences of intrinsic educational value to the student. To be successful this venture must be a program which moves toward perfection through constant growth and improvement; new approaches through limited experimentation or pilot-studies will be needed and we must be constantly concerned with the quality and objectives of teaching.

February 6, 1959 meeting, Board of Trustees

Thus many persons have entered into a common effort to build a quality program of undergraduate instruction, one which is properly suited to the nature and special abilities of this University and which has strength to match and support its efforts in graduate and professional education and research.

The Chairman expressed the appreciation of the Board to Mr. Heimberger for his excellent presentation on Recent Developments in Undergraduate Education.

February 6, 1959 meeting, Board of Trustees

President Fawcett presented the following

I. General Recommendations

A. Increase in Penalty for Late Payment of Fees and Filing of Schedule Cards

For some time a study has been under way concerning the late payment of fees and the late filing of schedule cards with the consequent delay in the starting of classes each quarter. To assist in the solution of this problem it is the recommendation of the Executive Dean of Special Services with the concurrence of the Cabinet that the penalty for the late payment of fees and the late filing of schedule cards be increased and that faculty rules 43.03 and 43.07 be amended as follows:

43.03. Time of Registration and Payment of Fees; Penalties

Registration and payment of fees are required of all students by the close of the third business day next preceding the first day of classes each quarter. Fees paid by mail must be postmarked the fourth business day next preceding the first day of classes each quarter. Failure to meet this requirement will result in a penalty assessment of five dollars for the first day and one dollar for each succeeding day or fraction thereof, unless excused by the Office of the Registrar. The maximum penalty for late registration and payment of fees shall be ten dollars.

The second Friday of each quarter shall be the final deadline for fee payments. Individual exceptions to this provision may be made only upon the approval of the Executive Dean of Special Services.

This rule, as recommended, is to become effective February 15, 1959.

43.07. Filing and Changing of Schedule Cards

All students are required to present their study programs for the following quarter at the time and place announced by the Registrar, approximately ten days after the date schedules are released, except that students in residence during the Spring or Summer Quarters must present their programs for the Autumn Quarter before September 1. Failure to comply with this rule will result in the assessment of a fee of five dollars for the first day of delay and one dollar for each succeeding day of delay, the maximum assessment being ten dollars.

February 6, 1959 meeting, Board of Trustees

Changes in approved schedules in undergraduate colleges will be made only upon approval of the college office; provided that a student may add a course to his schedule after the first Saturday noon after classes begin only with the permission of the instructor, the chairman of the department, and the dean of the student's college.

This rule, as recommended, is to become effective July 1, 1959.

Upon motion of Mr. Ketner, seconded by Senator Bricker, the above recommendation was approved by unanimous rollcall vote.

\* \* \*

## II. Personnel Change

### Leave of Absence Without Salary

Franklin D. R. Ellwood, Instructor in Physical Education and Assistant Football Coach, for an indefinite period beginning February 1, 1959, to report for active military duty in the United States Air Force.

Upon motion of Senator Bricker, seconded by Mr. Ketner, the above personnel change was approved by unanimous vote.

Terms of the contract, which has been in effect since July 1, 1956, have been reviewed by the President and the Vice President, Business and Finance, and the administrative officers of the Department of Athletics, and they report a fair and equitable agreement for both parties.

XI. Resolution in Memoriam

Anne Bernadine Whitmer

The Board of Trustees expresses its sorrow at the death on December 23, 1958, of Miss Anne Bernadine Whitmer, Assistant Professor of English. Miss Whitmer was born in Shawnee, Ohio, on April 22, 1907, and was educated in the Catholic parochial schools in Columbus and at The Ohio State University, where she received her Bachelor of Arts degree in 1927, her Master of Arts degree in 1928, and her Doctor of Philosophy degree in 1939. She first began to teach as an assistant in the English Department in 1928. She became an instructor in 1937 and an assistant professor in 1945.

Miss Whitmer was a brilliant woman--wise, witty, graced with humor and with great human understanding. The center of her professional life was her teaching, in which she combined vigorous intellectual integrity, inexhaustible patience and sympathy for the individual student--always a person in his own right to her. Her classes were exciting and stimulating, dealing not only with the ideas of art and history that she loved but equally with fundamental human experience and values. Impatient of cliches, critical of any departure from humane standards, not one to suffer fools gladly, she brought a crisp and vigorous intelligence to her teaching. Her special fields were American literature and the teaching of writing. More than any other person she was responsible for the success of Chi Delta Phi on our campus. For thirty years the majority of the best undergraduates in the English Department cherished their acquaintance with Miss Whitmer and were cherished by her, yet her concern was equally great for the incompetent student.

The centers of her private life were friends and her religion. Her house was a meeting place for her students, her colleagues, and people she loved from every walk of life. To them all she gave gaiety, humor, comfort, understanding and love.

Perhaps it was her religion that lay at the heart of her splendid capacity. Profoundly religious, wholly Catholic, her faith dominated even her sceptical intelligence. She truly believed all men to be the children of God and hence brothers, just as she believed in immortality and the idea that men give a final accounting for the use they have made of their talents in the brief time allotted them. These convictions are the frames that protected and gave depth of meaning to her generous and affectionate life.

February 6, 1959 meeting, Board of Trustees

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

February 6, 1959 meeting, Board of Trustees

The Board of Trustees at its January 12, 1959 meeting approved in principle a program whereby principal administrative officers of the Ohio State University are to be relieved of their administrative assignments at age 65. The Board also approved an increase from \$2500 per annum to \$3000 per annum in the minimum retirement income for faculty and staff members. These actions were taken with the understanding that a formal recommendation including all pertinent details for implementing the program would be submitted at the next meeting of the Board of Trustees.

The following report and recommendation of the Committee on Retirement and Insurance was presented by Senator Bricker:

REPORT OF THE COMMITTEE ON  
RETIREMENT AND INSURANCE

(A) Under the rules of the Board, officers and employees of the University, who are members of the State Teachers' Retirement System, must retire not later than August 31st next following the attainment of age 70, and those who are members of the Public Employees' Retirement System must retire not later than June 30th next following the attainment of age 70.

It is recommended:

(a) That the principal administrative officers<sup>1</sup> of the University be relieved of their assignments as such administrative officers of the University on June 30th next following the attainment of age 65<sup>2</sup>. Provided, that nothing herein shall preclude such an officer from being retained in the employment of the University in some other capacity until the mandatory retirement date next following the attainment of age 70, and it is the express intention of the Board that such persons shall be retained in the employment of the University where practicable if they so desire until they reach the normal retirement date next following the attainment of age 70.

(b) That the resolution of the Board of Trustees, adopted July 8, 1957, be amended so as to accord the President the full retirement benefits set forth therein upon retirement following the attainment of age 65, for physical or mental disability, or for other reasons provided that the President may retire prior to attaining the age of 65, in which event, his retirement benefits hereunder shall be reduced by 1/15th for each year under 65.

(c) That the resolution of the Board of Trustees adopted July 8, 1957, be amended so as to accord the Vice Presidents the full retirement benefits provided for the President upon retirement following the attainment of age 65, for physical or mental disability, or for other reasons provided that the Vice Presidents may retire prior to attaining the age 65 in which event the University Supplemental Retirement benefits hereunder shall be reduced by 1/15th for each year under 65.<sup>3</sup>

<sup>1</sup>As used herein "principal administrative officers" shall include the President, the Vice Presidents, the members of the President's cabinet, and the Deans of the Colleges of the University, and such other persons as may be designated by the Board from time to time.

<sup>2</sup>Paragraph (a) shall be effective December 31, 1959.

<sup>3</sup>That the resolution of June 14, 1954 as amended July 8, 1957 shall remain in full force and effect and a Vice President or other designated person may retire thereunder or under paragraph (c) above at his election.

February 6, 1959 meeting, Board of Trustees

(d) That the principal administrative officers, other than the President and the Vice Presidents, who are relieved of their assignments pursuant hereto, following the attainment of age 65, and who do not continue in the service of the University, shall receive a supplemental retirement benefit from the University sufficient in amount to bring their total retirement benefits from the State Retirement System, the University's Annuity Plan and the University's Supplemental Plan to the amount that they would have received had they retired following the attainment of age 70.

(E) That the Resolution of the Board of Trustees, dated June 10, 1957, be amended to read as follows:

That the University's supplemental benefit to faculty members and staff members who were members of the University's retirement plan and who retired prior to December 31, 1958, shall be supplemented, effective January 1, 1959, by such an amount, which when added to all other retirement income from the State Retirement System, the University's Annuity Plan, and the University's present Supplemental Plan, shall equal the amount of \$3,000.00 per annum, provided such retired person retired for any of the following reasons:

- (a) Attainment of age 70
- (b) After 30 years of service
- (c) For physical disability

provided that faculty and staff members who were members of the University's Retirement Plan, who retired prior to December 31, 1958, and prior to attaining the age of 70, and with less than thirty years of service, shall also be entitled to a supplemental benefit to be computed as above set forth, except that the amount of the supplemental benefit shall be reduced by 1/30th for each year that service in the University was less than thirty years, provided further that the supplemental benefit for persons who were employed part time shall be reduced accordingly, i. e. such supplemental benefits shall be based on the percentage of part time employment to full employment.

The supplemental benefits herein provided shall be paid from the group insurance dividend reserve and the funds required are hereby appropriated from said reserve.

John W. Bricker

Upon motion of Senator Bricker, seconded by Mr. Ketner, the above recommendation was unanimously approved and ratified by roll call vote.

WHEREAS, the University and the Trustee desire, and are authorized and empowered, pursuant to Section 14.01 of the Original Agreement, to enter into this Supplemental Agreement;

WHEREAS, after full consideration, the University and the Trustee have determined that this Supplement lawfully adds to the covenants of the University for the benefit of the bondholders the additional covenant, to the extent feasible, to invest moneys held for the credit of the Dormitory Revenue Fund (created by Section 9 of the Bond Resolution in the Original Agreement), subject to the restrictions herein contained, until needed for the purposes specified in the Original Agreement.

NOW, THEREFORE, the University and the Trustee, in consideration of the mutual agreements herein contained and in consideration of the sum of \$1.00 to the University in hand paid by the Trustee, the receipt of which is hereby acknowledged, and for the purposes aforesaid, agree that the Original Agreement shall be supplemented as follows:

Section 2. As used herein, all terms shall have the same meanings as the same terms have in the Original Agreement.

IN WITNESS WHEREOF, the University has caused this Supplemental Agreement to be executed by the President or a Vice President and its official seal to be impressed hereon and attested by the Secretary or Assistant Secretary, and The Ohio National Bank of Columbus has caused this Supplemental Agreement to be executed in its behalf by a Vice President and its corporate seal to be impressed hereon and attested by its Assistant Trust Officer the day and year above written.

REPORT FROM COMMITTEE ON FINANCE AND INVESTMENTS.  
AUTHORITY TO ADVERTISE FOR BIDS ON BUILDING NO. 4, 11TH  
AVENUE RESIDENCE HALLS FOR MEN AND MARRIED HOUSING  
PROJECT NO. 1.

Senator Bricker presented the following resolution:

On October 6, 1958, the University submitted to the Federal Housing and Home Finance Agency, an application for a construction loan for Building No. 4 of the 11th Avenue Residence Halls for Men and Married Housing Project No. 1. Although final approval has not yet been received on this application, officials of the foregoing agency have reported to University officials that the processing of the loan application is proceeding without difficulty and that there is no reason to expect that this Loan Agreement will not be concluded early in March, 1959. Inasmuch as it seems reasonable to expect that the necessary financing will be assured shortly, and inasmuch as it is extremely desirable to initiate construction on these projects as early as possible in the Spring construction season, the Vice President, Business and Finance is hereby authorized to request the Director of Public Works, with the approval of the Capital Planning Board, to proceed immediately with the advertising of bids on these projects.

Upon motion of Senator Bricker, seconded by Mr. Ketner, the above resolution was approved by unanimous roll call vote.

March 6, 1959 meeting, Board of Trustees

Dean Cottrell of the College of Education introduced Professor Eugene J. Weigel, Director of the School of Music, who presented a report for the School of Music. Professor Weigel, an Ohio State faculty member since 1929, became Chairman of the Music Department in 1939 and Director of the School of Music when it was established in 1945. A summary of the report follows.

Appreciation and knowledge of music in this country has been rising for several decades, Professor Eugene J. Weigel, director of the Ohio State School of Music, said in a report to the Board.

The change, he said, is in large part "a product of music education which through its program has brought music to the schools by providing opportunities in performance, well planned listening, and by first hand experience with professional groups."

In such a cultural climate, Professor Weigel said, more and more opportunities are available in teaching and performance of music.

Tracing the development of the School of Music, he said that from an initial offering of 35 courses, the school has grown in 32 years to become a leader nationally. There are now 50 teachers presenting 96 courses and directing 19 music performance groups.

Service by the performance groups, he said, is one of the most important functions of the School of Music. He reported that approximately 84,000 persons attended music programs given off-campus by students and faculty last year. These increasing services together with the larger enrollments in the History and Literature of Music courses, which are now a part of the general education requirements of the University, will make it necessary to provide additional large classroom and rehearsal space.

The graduate faculty of the School of Music has doubled in the last six years and at the same time strengthened in the number of members who have advanced degrees. This approved staff are prepared to implement the recently approved Ph. D. in music program.

---

The Chairman now expressed the sincere appreciation of the Board for this detailed and comprehensive report of the School of Music.

March 6, 1959 meeting, Board of Trustees

President Fawcett presented the following

I. General Recommendations

A. Recommendations of the Faculty Council - Honorary Degrees

The Faculty Council on February 10, 1959, recommended that the following persons be awarded honorary degrees at appropriate and acceptable dates:

Polykarp Kusch, Doctor of Science  
Fred Norris Robinson, Doctor of Humane Letters  
Ernest Hatch Wilkins, Doctor of Humane Letters

I therefore recommend that the Board of Trustees approve the Faculty Council's recommendation that the honorary degrees indicated be conferred upon the above-named persons at the June 1959 Commencement or at one of the Commencements of the year 1959-1960.

B. Candidates for Degrees - March Convocation

It is recommended that degrees be conferred at the Winter Quarter Convocation on March 19, 1959, to those students who complete their requirements and are recommended by the Faculty Council for degrees on that date. The names of those awarded degrees will be included in the minutes of this meeting.

C. Mershon Committee on Education in National Security -  
(Changes in Rules for the Faculty)

For some months the Faculty Council and two faculty committees have been considering plans for the reorganization of the present Committee on Defense Studies. This committee has been charged with recommending policy and program for education in national security through the use of the income of the civilian-military portion of the Mershon Fund and with carrying out the policy determined by the Board of Trustees. The studies have resulted in the following recommendation presented in the form of two new Rules for the University Faculty. The first Rule will establish the position of Director,

He shall also provide active leadership in developing and maintaining a program of education and research in national security which will support and be in harmony with the general educational and research aims of the University. In carrying out these duties, he shall consult with and be guided by the Mershon Committee on Education in National Security on all matters involving: (a) the establishment of or changes in the educational or the research policies of this program, and (b) recommendations for expenditures from the civilian-military portion of the Mershon Fund. See Rule 29.2719.

Section 2. The Director, Mershon National Security Program, shall report to the President through the Vice President, Instruction and Research.

E. Recommendation of the Faculty Council - Center for School Experimentation

The College of Education has proposed and the Council on Instruction and the Faculty Council have recommended that a Center for School Experimentation be established in the College. The Center will afford faculty members of the University School, the Department of Education and other departments the opportunity to carry on research and experimental studies in the University School and in other schools and school systems on a cooperative basis. The Center will be under the administration of Professor Alexander Frazier, Director of the University School, and will begin functioning on March 1, 1959.

I, therefore, recommend that the Board of Trustees approve the recommendation of the Faculty Council and establish in the College of Education a CENTER FOR SCHOOL EXPERIMENTATION.

Upon motion of Mr. Patton, seconded by Mr. Ketner, the above general recommendations were approved by unanimous vote.

B. Agreement between The Ohio State University and  
The United States Department of Agriculture

Upon the request of the Director of Agricultural Extension Service and with the concurrence of the Dean of the College of Agriculture and Home Economics and the Vice President, Business and Finance, it is recommended that the President be authorized to sign an agreement with the United States Department of Agriculture for Developing Educational Methods and Demonstrations for Extending Research Results in Retail Stores in accordance with the provisions of the Research and Marketing Act of 1949. The agreement provides for a payment of \$36,524.00 to The Ohio State University for this work.

C. Agreement between The Ohio State University and  
The United States Air Force

The University has recently applied to the United States Air Force to change from "issue-in-kind" procedure in handling Air Force uniforms to a "commutation" basis. This change relieves the University of the accountability and of the responsibility for United States property provided for the Air Force ROTC program upon completion of a satisfactory audit and inventory. The Air Force will appoint an officer on active duty and assigned to duty at this University as the Property Officer to be responsible for Air Force property.

It is therefore recommended that the supplemental application and agreement pertaining to Modification of Air Force ROTC Supply Procedures be approved and that the President be authorized to sign the necessary documents.

Upon motion of Mr. Ketner, seconded by Mr. Rairdon, the above general contracts and agreements were approved by unanimous vote.

A. Administered Through the Development Fund

1. \$5,000.00 for five \$1,000.00 awards for outstanding achievement in teaching from the Public Welfare Foundation, Inc., Washington, Virginia.

The purpose of the awards is to recognize excellence in teaching in the University and to provide encouragement and incentive for teaching achievement. These awards were proposed by the Board of Directors of the Development Fund, and the principles for the administration of the awards were developed and approved by the Administrative Council with the concurrence of the Conference Committee of the Teaching Staff.

Presentation of the awards will be made at the University Faculty Meeting in the Autumn Quarter on the basis of selections made during the preceding academic year.

2. 50 shares of stock valued at \$1,562.50 from Mr. James H. Hoffman as an unrestricted contribution to the University.

Agricultural Education Scholarship Fund

Established February 4, 1959, by gifts through the Development Fund, to be invested in accordance with Sec. 3335.12 G. C., the income to be used to support scholarships for seniors or juniors in Agricultural Education at The Ohio State University.

In the event the need for such scholarships ceases to exist or so diminishes as to create unused income, then the Board of Trustees of the University may use said income in its discretion, preference to be given, however, to items in the field of Agriculture.

Resolution in Memoriam

Charles Porter Roberts

The Board of Trustees expresses its sorrow at the death of Charles Porter Roberts, Professor of Mechanical Engineering, on January 14, 1959.

Professor Roberts was born on August 17, 1896, at Bowling Green, Ohio. He received the Degrees Bachelor of Mechanical Engineering in 1920 and Mechanical Engineer in 1934 from The Ohio State University. For thirty-seven years he was a member of the Department of Mechanical Engineering. During portions of the last three years, he also served as Acting Director of the School of Aviation.

Professor Roberts' service to the University was extensive. His broad knowledge of machine tools, manufacturing methods and general design, along with an outstanding spirit of cooperation made him invaluable on countless departmental and University projects. He was known throughout the faculty of the University for his willingness to help in offering suggestions and advising on possible solutions to technical aspects of research and development problems. He was unsurpassed in his ability to quickly define practical methods. It was very common to see staff and students consulting with him. He was a careful and patient listener, never one to destroy the enthusiasm of the uninitiated, and always taking time to give careful instructions on suggested procedures. His thorough and stimulating teaching, along with a very friendly and personal approach, endeared him to hundreds of students.

Professor Roberts was connected also with many University research projects, including Coefficient of Friction Between Tires and Road Surfaces, Lattice Tests of Axial-Flow Compressor Blades, Miniature Engine-Generator Development, Design of Plastic Helmets for the United States Air Force, and Variable Amplitude and Frequency Vibrating Tables for Medical Research.

Professor Roberts was a member of The American Society of Mechanical Engineers, Society of Automotive Engineers, American Society for Engineering Education, and Sigma Xi. He was particularly active on the SAE committees for Highway Research and Student Activities, and was faculty adviser of the local SAE Student Branch for several years.

March 6, 1959 meeting, Board of Trustees

During his teaching career, he served as consulting engineer for many companies, including Firestone Tire and Rubber Company, Columbus McKinnon Chain Company, Denison Engineering Company, G. W. Holmes Company, and Worthington Products Company. From 1945, Professor Roberts handled the procurement and distribution of government excess property worth many millions of dollars for the University.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees.

April 10, 1959 meeting, Board of Trustees

President Fawcett invited Dean Leo L. Rummell of the College of Agriculture and Home Economics to introduce Director W. B. Wood who reported on the activities of the Cooperative Extension Service in Agriculture and Home Economics.

An abstract of the report is as follows:

The Cooperative Extension Service in Agriculture and Home Economics appreciates fully the facilities furnished on the campus of The Ohio State University for its far-reaching program. These facilities are comparable to those furnished to the other phases of the total program in agricultural and home economics education; namely, research and resident teaching. The Extension Service is a part of the College of Agriculture and Home Economics.

The Ohio Extension Service was created as an integral part of The Ohio State University by action of the Board of Trustees in 1905. On July 1 of that year the Board employed A. B. Graham of Clark County as the first Superintendent of Extension. That was nine years before the United States Congress passed the Smith-Lever Act creating the federal-state cooperative Extension Service. Extension work is now carried on through the land-grant colleges and universities in each state in cooperation with the U. S. Department of Agriculture.

The following statements summarize the major items covered in the complete report:

1. Scientific developments are valuable only when people know about them and put them into practice. The Ohio Cooperative Extension Service in Agriculture and Home Economics disseminates practical and useful information to Ohio people and assists in its application.

2. Extension teaching is informal, off-campus, and out-of-school. It reaches all age levels in the home, on the farm, in other occupations, and in the local community. Extension represents The Ohio State University and the U. S. Department of Agriculture in providing educational service on the county level.

3. The essential purpose of Ohio Extension is to promote learning among people which results in economic and social changes toward improved living. More than 517,000 Ohio families were Extension's clientele last year. Each of the 374 professional Extension workers in Ohio served an average of 1,479 families. Included were 377 farm families, 385 rural non-farm families, and 717 urban families per Extension worker.

4. Ohio people participate in the Extension program to acquire knowledge, skills, and understandings that are useful to them in solving their personal and community problems. Extension's program is based on needs as expressed by the people themselves with the assistance of the professional staff. Ohio Extension does not attempt to provide all things to all people. The needs that are deemed most important are emphasized in cooperation with the people involved.

5. The nine areas of program emphasis in which Extension expects to concentrate its efforts in the foreseeable future are (1) efficiency in agricultural production; (2) efficiency in marketing, distribution, and utilization; (3) conservation, development, and use of natural resources; (4) farm and home management; (5) family living; (6) youth development; (7) leadership development; (8) community improvement and resource development; and (9) public affairs.

6. Extension Service seeks counsel from thousands of Ohio people through advisory committees and special interest groups to keep its educational program practical and useful to The Ohio State University and to Ohio people. A total of 928 county committees and councils assisted in Extension educational efforts last year.

7. With the help of local leaders, Ohio Cooperative Extension personnel take the initiative in developing an educational program for each county which says in substance: "These are the directions in which agriculture and homemaking should go in this county." More than 36,600 volunteer local leaders and 4-H advisors were involved in planning and in carrying out the Extension program last year. All of Ohio's 88 counties have developed or are in the process of developing long-time Extension educational programs.

8. Through its 4-H Club work, Ohio Extension is currently reaching 82,000 boys and girls in the 10-to-21-year-old group. 4-H provides practical training and guidance in farming, homemaking, and related skills and good citizenship for these leaders of tomorrow. Through the 10,000 volunteer adult 4-H advisors, 4-H makes a significant contribution to adult education as well as the youth with whom they work. By encouraging good work attitudes and habits, 4-H complements formal classroom instruction in Ohio schools and assists in the development of good citizenship. Ohio 4-H alumni number more than 760,000.

9. Communication is the core of Extension Service. Extension workers teach by personal contact and through group meetings, demonstrations, tours, exhibits, publications, still and motion pictures, and similar means. They use mass communications media -- newspapers, magazines, radio, and television -- to spread information about new practices and Extension activities. The Extension Office of Information and Educational Aids disseminates subject matter news and research information directly to press,

radio, and TV and through county Extension agents. Last year the Office sent out 700 news releases and 1,300 radio tape recordings; produced 211 different printed publications, 9.2 million pages of mimeographed and multilithed materials, two motion pictures, and numerous charts, graphs, and other visual aids. County agents wrote 22,800 news stories, made 6,700 radio and 215 television broadcasts, and distributed nearly 900,000 bulletins. Much of this material was furnished by the Information Office. The Office also processed 6,300 correspondence course lessons.

10. The quality and quantity of educational results attained over a period of time by Extension efforts are in direct proportion to the quality of the professional staff and the thoroughness with which the staff develops and executes the Extension program. Two-thirds of the state staff and 16 percent of the county Extension agents hold advanced college degrees. Professional improvement of the Extension staff is the concern of the Office of Extension Research and Personnel Training. State and county personnel are encouraged and assisted to pursue a continuing program of pre-service and in-service training and graduate level study. Research is carried on to find ways to improve Extension teaching methods.

11. Demands for expansion of the educational services offered by Ohio Extension continue to mount. Strong requests currently being made by the people are for additional county and state workers to provide assistance to youth and for marketing information. Besides increased salary needs to meet these demands and to keep present staff, Extension's current financial requests involve rising costs of such maintenance items as printing, telephone, office equipment and supplies, and travel. Looking to the future, it is apparent that increased use of television as a teaching medium and the public demand for higher quality publications will require additional financial support. Other needs evident in long-range planning for the Extension Service on the Ohio State campus include better quarters for the Extension Mailing Room and more space for offices and storage in certain areas.

Ohio Extension is      Proud of the Past  
                                 Alert to the Present  
                                 and  
                                 Confident in the Future.

Chairman Dargusch expressed appreciation and commendation for this well-prepared and comprehensive report.

Resolution in Memoriam

Aubrey Ingerson Brown

The Board of Trustees expresses its sorrow at the death of Aubrey Ingerson Brown, Professor Emeritus of Mechanical Engineering, on February 22, 1959.

Professor Brown was born in Wolfville, Nova Scotia, on May 18, 1888. He took pre-engineering work at Acadia University and transferred to The Ohio State University, where he was awarded the degree of Mechanical Engineer in 1912. He started his teaching career in the Department of Mechanical Engineering at The Ohio State University in 1912 and served the Department in each of the academic ranks until his retirement in 1958. This service was continuous except for the year 1917-18, when he served as Assistant Professor of Mechanical Engineering at Pennsylvania State College.

From 1942 to 1945 he served as Professor and Acting Chairman of the Department of Mechanical Engineering, and in 1946 he was appointed Professor and Chairman, in which capacity he served until he returned to teaching in 1952. He continued as Professor of Mechanical Engineering until he retired in 1958.

Professor Brown was active in research in the field of ventilation and air-conditioning. He was also a regular contributor to the technical literature in this field, the majority of his articles appearing in the publications of the Engineering Experiment Station and the Transactions of the American Society of Heating and Ventilating Engineers and the American Society of Mechanical Engineers. In addition, he was the co-author of Introduction to Heat Transfer, one of the most extensively used college textbooks in this field. Because of his vast knowledge, many industrial organizations used him as a consultant in the field of heating, ventilating, and air-conditioning.

He was an active member of the American Society of Mechanical Engineers and the American Society of Heating and Ventilating Engineers. He served in a number of capacities in both of these organizations. He was also a member of the American Society for Engineering Education, Tau Beta Pi, Sigma Xi, and Pi Tau Sigma.

Professor Brown was loved and respected by his students and colleagues and gave generously of his time and experience to help them with their problems. He was also an excellent and sympathetic teacher and administrator.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board.

### University's Student Housing Program

Dean William S. Guthrie, Executive Dean, Student Relations, presented the following report on the University's Student Housing Program.

Some important recent developments in our residence halls programs, the long-time interest of the Trustees in providing good student housing and recent news stories in The Lantern and downtown papers all suggest that a short report would be of interest to the Board of Trustees.

At the beginning of Winter Quarter 1959, Stradley Hall opened and this Spring Quarter Park Hall opened, both well ahead of scheduled Fall Quarter openings. In the Autumn Quarter 1959, Smith Hall will be available. Each of these men's residence halls accommodates a maximum of 496 men or 1488 in all. A fourth dormitory, Steeb Hall, will be ready some time in the 1960-61 school year, bringing the total places for men in new residence halls to 1,982. This is an important achievement which will provide facilities and programs conducive to good scholarship through good group living experiences. It is significant also because it will attract an entirely new clientele of quality students who will enroll here because fine dormitories are available. Last Fall Quarter all spaces in Baker Hall had been taken by the preceding May 14.

These new circumstances in the University's housing program have been studied in recent months by the President's Cabinet and appropriate housing officers, particularly with reference to the possibility of abandonment of River Road dormitories. The displacement of single men students from the River Road seems to constitute no special problem because of the availability of the new men's dormitories or spaces in rooming houses in the campus district, but there has been a special concern for displaced women students because for next Autumn Quarter 1959, five River Road buildings to accommodate 250 women students were expected to be used.

On the basis of current year studies of the dormitory system involving the Offices of Student Relations, Dean of Men and Dean of Women, the Office of Business and Finance, and the University Architect's Office, the Director of University Plant Studies proposed in March that River Road dormitories housing single men and single women be abandoned by Autumn Quarter 1959 and that 250 women students to be displaced thereby, be accommodated in the 11th Avenue dormitory system by dividing Baker Hall into two separate dormitories. The plan proposed that the smaller East Baker residence hall be assigned to approximately 250 women students, and that West Baker Hall be assigned to approximately 520 men. The Dean of Men and Dean of Women had jointly prepared the proposal and the University Architect's Office had determined the appropriate locations for walls at each floor level to separate the dormitory into East and West Baker Halls. This was the best one of several alternate possibilities which were given consideration.

April 10, 1959 meeting, Board of Trustees

The President's Cabinet gave preliminary approval to the plan at its March 12 meeting, proposing then that all dormitory staff members and responsible dormitory student leadership be consulted before any final Cabinet action should be taken. Accordingly, individual and group conferences were held with all dormitory staff persons not previously involved in the considerations. Meetings were then held with the Baker Hall Senate, Baker Hall Student Assistants, River Road Dormitory women residents, and the Council of Dormitory Presidents. After favorable responses had been reported from all these staff and student leadership conferences the President's Cabinet took action at its meeting on Tuesday, March 31, finalizing its earlier "approval in principle" of the proposal originally made. The necessary work in Baker Hall will proceed accordingly during the Summer period.

Upon motion of Senator Bricker, seconded by Mr. Patton, the above Resolution was unanimously adopted.

WHEREAS, new facilities were made available to the present occupants of the Stadium Dormitories with the opening of the Eleventh Avenue Residence Halls for Men; and

The principal and interest of the Series C and Series D Bonds shall be payable in any coin or currency which, on the respective dates of payment, is legal tender for the payment of debts due the United States of America, at the principal office of the Trustee under the Trust Agreement (said Trustee at the time of issuance of the Series C and Series D Bonds being The Ohio National Bank of Columbus, Columbus, Ohio) or, at the option of the holder, at the principal office of Guaranty Trust Company of New York, in the Borough of Manhattan, City and State of New York, except that interest on fully registered bonds is payable by check as provided in the Trust Agreement, and principal on fully Registered Bonds may also be payable at such additional place or places, at the option of the holder as shall be designated by the Fiscal Officer of the University. The Series C and Series D Bonds are subject to call for redemption prior to maturity at the option of the Board on January 1, 1967 or on any interest payment date thereafter. Each such series shall be callable in the inverse order of the maturities of the Bonds of that series at par and accrued interest to the redemption date plus redemption premiums as follows:

4% if called January 1, 1967 to July 1, 1971, inclusive  
3% if called January 1, 1972 to July 1, 1976, inclusive

If less than all the Series C or Series D Bonds of one maturity are to be called, the Coupon Bonds or portions of fully Registered Bonds of such series and of that maturity to be called shall be chosen by lot conducted by the Trustee under the Trust Agreement. Such call for redemption shall be made by notice, specifying the numbers of the Series C and Series D Bonds to be called, published by the Trustee on behalf of the University once a week for two consecutive weeks in a financial newspaper of national circulation published in the English language in New York

City and in an English language newspaper of general circulation in Columbus, Ohio, the first publication to be not more than forty (40) nor less than thirty (30) days prior to the date of redemption. Any bonds thus called for redemption and for the retirement of which funds are deposited with said Trustee as provided in the Trust Agreement on or before the redemption date shall cease to bear interest on said redemption date. Except in the case of redemption of Bonds of a particular series from the surplus proceeds of that issue as provided in Section 5 of the Original Bond Resolution, no Bonds of any series may be called unless the same proportion of the outstanding Bonds of each other series, then callable, are called at the same time.

The Series C and Series D Bonds shall have such other terms and conditions and shall be issued, executed and delivered as provided by the applicable provisions of the Trust Agreement.

Section 3. Sale of Series C Bonds. The \$2,605,000 Series C Bonds shall be offered for sale, by solicitation of proposals from investment bankers and others or by advertisement or both, to the highest bidder based on the lowest net interest cost, in such manner and on such terms as determined by the President or the Fiscal Officer of the University.

Section 4. Sale of Series D Bonds. The \$2,305,000 Series D Bonds shall be advertised for sale, awarded, issued, authenticated and delivered pursuant to a Loan Agreement to be entered into with the United States of America acting through the Housing and Home Finance Administrator. The President of the University and the Secretary of the Board, and each of them, are authorized on behalf of the University to execute a Loan Agreement containing the standard terms of said Housing and Home Finance Administrator for loans to universities for dormitory construction

(including waiver of the restrictions provided herein on call of Series D Bonds held by the United States) with such changes and amendments as the officer acting shall deem necessary and not substantially unfavorable to the University, and said officers and each of them are authorized to take any and all action necessary to carry out such Loan Agreement. Any of said Series D Bonds awarded to the United States pursuant to said Loan Agreement shall be sold to the United States at par and accrued interest to the date of delivery. Said Series D Bonds shall be sold as provided in the Loan Agreement and issued at one time or from time to time to the Original Purchasers thereof upon written request of the Fiscal Officer of the University to the Trustee as provided in the Trust Agreement, provided that any Series D Bonds sold to the United States, acting through said Administrator, shall be issued at such time as shall be provided for in said Loan Agreement.

Section 5. Allocation of Proceeds of Series C and Series D Bonds. The proceeds from the sale of Series C and Series D Bonds shall be allocated and applied by the University as follows in the following order of priority:

Proceeds of Series C Bonds:

- (1) To the Debt Service Fund, the accrued interest on the Series C Bonds to the date of delivery plus such amount as may be certified by the Fiscal Officer of the University as the estimated interest thereafter to accrue on the Series C Bonds to the date of occupancy of the entire Project.
- (2) To the Debt Service Reserve Fund, the portion of the proceeds representing premium, if any, above par.
- (3) To the University, the amounts necessary to repay borrowings or advances, if any, made by the University to pay the costs of the Project other than Costs of Construction or to restore to the

University amounts, if any, used for such costs (other than Costs of Construction) from other funds of the University available for dormitory purposes.

(4) The Balance to the Project Fund hereby established to be held by the Trustee to pay costs of the Project other than Costs of Construction. Any balance in the Project Fund not needed for such purposes shall be transferred to the Debt Service Reserve Fund or to the Construction Fund hereby established as from time to time determined by the Fiscal Officer of the University.

Proceeds of Series D Bonds:

(1) To the Debt Service Fund, the accrued interest on the Series D Bonds to the date of delivery plus such amount as may be certified by the Fiscal Officer of the University as the estimated interest thereafter to accrue on the Series D Bonds to the date of occupancy of the entire Project.

(2) To the Debt Service Reserve Fund, the portion of the proceeds representing premium, if any, above par.

(3) To the University, the amounts necessary to repay borrowings or advances, if any, made by the University to pay the Costs of Construction or to restore to the University amounts, if any, used for such costs from other funds of the University available for dormitory purposes.

(4) The balance to the Construction Fund hereby established to be held by the Trustee to pay Costs of Construction. A proportion of any balance in said Construction Fund constituting proceeds of Series D Bonds not needed for the purposes aforesaid equal to the

proportion of the Series D Bonds then held by the United States through the Housing and Home Finance Agency shall be used for retirement, at par plus accrued interest in inverse order of maturities pursuant to the aforesaid Loan Agreement, of Series D Bonds so held by the United States. The remainder of the Construction Fund not needed for such purposes shall be applied to retirement of Series D Bonds held by the United States at par plus accrued interest in inverse order of maturities as permitted by the aforesaid Loan Agreement or shall be transferred to the Debt Service Reserve Fund as from time to time determined by the Fiscal Officer of the University.

No part of the proceeds of Series D Bonds sold to the United States acting through the Housing and Home Finance Agency shall be used to pay costs (including cost of movable equipment or fees of a financial advisor) which, under the rules, regulations or practices of the Housing and Home Finance Agency, may not be paid from proceeds of bonds purchased by the United States through that agency, and proceeds of Series D Bonds purchased by the United States as aforesaid shall be segregated in the Construction Fund to the extent necessary to effect the foregoing.

The Trustee shall apply said Construction Fund and Project Fund to the payment of such items as from time to time are requested in writing by a Fiscal Officer of the University. Such written request shall include a certification by such official that the amount to be paid from such Construction Fund or such Project Fund constitutes authorized payments from such fund under the foregoing provisions of this Section 5. If the payment is to be made with respect to an obligation under a construction contract relating to the Project, such written request shall further certify that such payment was certified as due under such contract by a qualified architect or engineer. If the payment is to be made from proceeds of Series D

Bonds sold to the United States acting through the Housing and Home Finance Administrator, then (1) said certificate shall certify that the costs to which such payment is to be applied constitute costs which may be paid from such proceeds under the rules, regulations and practices of the Housing and Home Finance Agency, and (2) if the United States so acting shall purchase any of the Series D Bonds, and so long as it shall hold any thereof, such payment shall be subject to such prior written approval of a representative of said agency as may be required in writing by said Administrator.

The Project Fund and the Construction Fund shall be invested by the Trustee in such direct obligations of the United States as shall be directed in writing by the President or a Fiscal Officer of the University, which writing shall designate maturities and amounts which, as nearly as practicable, would, through maturities, provide funds when needed to pay Costs of the Project or Costs of Construction for which the respective funds have been established. Such investments and the proceeds of sale thereof shall constitute part of the fund from which the investment was made. Interest on such investments may be paid to the Dormitory Revenue Fund or applied to the purposes of the fund from which the investment was made as from time to time determined by a Fiscal Officer of the University. The said investments shall be sold, exchanged or collected from time to time as directed in writing by the President or a Fiscal Officer of the University and the Trustee shall be under no liability in connection with such investment, sale, exchange or collection thereof provided the directions of said officers are followed.

Section 6. Additional Bonds. (a) The Board shall have the right from time to time to issue Additional Bonds under the Trust Agreement if necessary to pay the costs of completing the Project or completing any projects for which

Series C and D or Additional Bonds, are issued. The Trustee shall authenticate and deliver such Bonds upon (but only upon) receipt of the documents required by Section 2.03 of the Trust Agreement. Nothing herein or in the Trust Agreement shall require any earnings coverage, or certificate with respect thereto, in connection with Additional Bonds issued for completion of a project.

(b) The Board shall also have the right from time to time to issue Additional Bonds under the Trust Agreement to provide funds for purposes authorized by Section 3345.07 of the Revised Code of Ohio, including construction and equipment by the University of buildings to be used as dormitories or as other living quarters or the refunding of outstanding bonds or notes issued under said Section 3345.07. The Trustee shall authenticate and deliver under the Trust Agreement Additional Bonds issued under this subdivision (b) if, (but only if), when such Additional Bonds are issued, the University shall have furnished to the Trustee, in addition to the documents required by Section 2.03 of the Trust Agreement, a certificate of the President and the Fiscal Officer of the University, approved by the Board of Trustees, (1) showing that (a) the actual net income from the dormitory facilities of the University (excluding net income from any dormitory facility which is to be abandoned or which is not suitable for continuous use as a dormitory facility for the term of such Additional Bonds) for the preceding fiscal year, as adjusted, if necessary, to reflect the schedule of rates and charges to become effective at the beginning of the next semester, quarter or other school period and to give recognition to any anticipated changes in operating costs; plus (b) the estimated annual net income of the dormitory facilities to be financed through the proceeds of the sale of such Additional Bonds will be equal to or greater than one and three-tenths (1.3) times the maximum amount

to become due in any succeeding fiscal year for the payment of principal and interest charges on the Bonds then outstanding hereunder and on the Bonds then to be authenticated and delivered; (2) showing that, until the dormitory facility being constructed from the proceeds of the Additional Bonds, is ready for occupancy, funds then available from net income, bond proceeds, gifts, legacies, devises or grants or other sources for payment when due of principal and interest on the Bonds will be at least one and three-tenths (1.3) times the principal and interest requirements for that period; (3) showing that there were not included in net income any receipts against which there is any prior claim other than the use thereof for the operating expenses included in computing the net income; (4) furnishing such other information in support of the foregoing as may reasonably be requested by the Trustee; (5) showing that the computations of estimates provided for above are based on an assumed occupancy of not more than 95% of capacity of the dormitory facilities in question.

The first call date on Additional Bonds shall not be earlier than the first call date on any issue of Bonds outstanding at the time of issue of such Additional Bonds.

Section 7. Terms of the Bonds Generally. As used in this Resolution, the term "Bonds" refers to the Series A, B, C and D Bonds and all Additional Bonds issued on a parity therewith under the Trust Agreement. The Bonds shall be designated The Ohio State University Dormitory Revenue Bonds, shall be payable in any coin or currency which, on the respective dates of payment, is legal tender for the payment of debts to the United States of America, shall be negotiable instruments (except when registered), shall express upon their face the purpose for which they are issued, and shall be issued pursuant to Section 3345.07 of the Revised Code of Ohio. Unless otherwise provided by the Board, the Bonds shall be signed by the Chairman of the Board or bear his facsimile

signature, shall be signed by the President of the University or bear his facsimile signature, shall be attested by the Secretary or the Treasurer of the Board, and shall be sealed with the seal of the University or a facsimile thereof, and interest coupons attached to the Bonds shall bear the facsimile signature of the Treasurer of the Board. In case any officer whose signature or a facsimile of whose signature shall appear on any Bonds or coupons shall cease to be such officer before the delivery of such Bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes, the same as if he had remained in office until such delivery. Except in the case of redemption of Bonds of a particular series from the surplus proceeds of that issue as provided in Section 5 of the Original Bond Resolution, no Bonds of any series may be called unless the same proportion of the outstanding Bonds of each other series, then callable, are called at the same time. The Additional Bonds shall bear such designations as may be necessary to distinguish them from the Series A, B, C and D Bonds or other Additional Bonds having different provisions and shall have maturities, interest rates, interest payment dates, redemption provisions, denominations, registration provisions, and other provisions as provided in the Resolution providing for issuance of the Additional Bonds, provided, however, that such terms and provisions shall not be inconsistent with this Resolution, the Trust Agreement or the then outstanding Bonds. On the terms provided herein, in the Trust Agreement and in the Bonds, the Bonds shall be equally and ratably payable from, and secured by pledge of, the receipts from the operation of all dormitory facilities now or hereafter under control of the Board including the dining facilities constituting a part thereof, after provision for reasonable and proper expenses of operation and maintenance of such facilities; and anything

in this Resolution, the Bonds or the Trust Agreement to the contrary notwithstanding, neither this Resolution, the Bonds, nor the Trust Agreement shall be a claim against or a lien upon any property of the State of Ohio or any property of or under the control of the Board except the portion of said receipts pledged as provided herein; provided, however, that nothing herein shall be deemed to prohibit the University, of its own volition, from using, or pledging, to the extent it is lawfully authorized to do so, any of its other resources or revenues for the fulfillment of any of the terms, conditions or obligations of the Trust Agreement, this Resolution, or any of the Bonds.

Section 8. Covenants of the University. The University covenants with the holders of the Bonds and with the Trustee under the Trust Agreement that (a) it will adopt and maintain so long as any of the Bonds are outstanding such parietal rules, and charge and collect such rental rates and charges, from time to time, as may be necessary to assure such occupancy and use of, and receipts from, the dormitory facilities as will pay the costs of maintenance and operation and provide for the payment of the principal of and interest on the Bonds and other payments to Special Funds required by Section 9 of this resolution; (b) from funds lawfully available, it will cause the Project and any project to be constructed from the proceeds of Additional Bonds to be completed and equipped in an efficient and economical manner with reasonable dispatch and in a manner consistent with the plans and recommendations of responsible architects and all applicable laws, ordinances and regulations; (c) subject to the right of abandonment under conditions provided in the Trust Agreement designed to prevent adverse effect of such abandonment on the expected earnings coverage of Debt Service, it will, from the dormitory receipts pledged under this resolution and as part of the operating expenses, maintain, preserve and keep the dormitory facilities in

good repair, working order and operating condition and continuously operate the same on a revenue producing basis, and will apply the receipts therefrom only as provided in Section 9 of this Resolution and in the Trust Agreement; (d) it will furnish to the Trustee and the Original Purchasers of the Bonds within 120 days after the close of each fiscal year an annual report of the accounts (including each Special Fund provided for in Section 9 of this Resolution) and operations of the dormitory facilities prepared by qualified accountants approved by the Trustee; (e) it will keep proper books of record and accounts separate from all other records and accounts, in which complete and correct entries will be made of all transactions relating to the dormitory facilities and will at all reasonable times permit the Trustee, the Original Purchasers or any holder or holders of 25% of the outstanding Bonds, or their authorized representatives, to inspect the dormitory facilities and any books, documents and vouchers relating thereto; (f) it will furnish heat, light, power, water and other necessary services to the dormitory facilities at not in excess of reasonable cost; (g) it will comply with all the terms and conditions of the respective Loan Agreements with the Housing and Home Finance Agency as long as the United States holds any of the Series B or D Bonds; (h) it will insure the dormitory facilities as required by the Trust Agreement and apply the proceeds of such insurance as provided therein; and (i) it will observe and perform all its agreements and obligations provided for by the Bonds, the Trust Agreement or the Bond Resolution.

Section 9. Application of Receipts; Special Funds. There was established by the Original Bond Resolution a Special Fund designated "Dormitory Revenue Fund", which fund shall be maintained in a bank account, or invested as herein authorized, in the name of the University separate and distinct

from all other funds of the University and, subject to the withdrawals and uses herein authorized, is pledged to and charged with the payment of the principal, interest, and premium, if any, on all the Bonds issued under the Trust Agreement.

Under the Original Bond Resolution there shall be maintained in the Dormitory Revenue Fund, as an Operating Reserve, such amount as is from time to time certified by the Fiscal Officer of the University as adequate and necessary for working capital for operation and maintenance of the dormitory facilities; provided, that such Operating Reserve shall not exceed one-fourth of the operating and maintenance expenses of the dormitory facilities for the preceding 12 months.

All receipts from dormitory facilities now or hereafter under the control of the Board, including the dining halls constituting part thereof, shall be deposited in the Dormitory Revenue Fund.

The Dormitory Revenue Fund, including the Operating Reserve, shall be applied to pay when due all reasonable and proper expenses of operation and maintenance (as defined in Section 11) of the dormitory facilities, excluding extraordinary repair and replacement expenses payable from the Contingency Repair and Replacement Fund and expenses of or provision for depreciation or capital replacement.

The remainder of the Dormitory Revenue Fund, after retaining therein the then current Operating Reserve and payment of said operation and maintenance expenses then due, shall be applied as provided in the Original Bond Resolution, namely, as follows and in the following order of priority:

First: Into the Debt Service Fund, to be held by the Trustee as a separate fund and used for the payment of principal and interest on the Bonds, the amounts provided in the Original Bond Resolution for payment of principal and interest on the Series A and B Bond and, in addition, (1) on or before April 1 and October 1 of each year an amount equal to the interest due on the next ensuing interest

payment date in that year on all Series C and D Bonds then outstanding; provided, that, the amount so payable on any such date into the Debt Service Fund shall be reduced by the amount then remaining in said Debt Service Fund from the accrued interest and from the funds deposited therein for capitalized interest pursuant to Section 5 of this Resolution; (2) on or before April 1 and October 1 of each year, the equal semi-annual amounts necessary to provide for payment of any principal maturity in that year on Series C and D Bonds; (3) if Additional Bonds shall be issued under the Trust Agreement, such additional amounts and at such times as specified in the resolution authorizing such Additional Bonds, which amounts shall be not less than necessary to provide in the Debt Service Fund amounts, in addition to the amounts hereinbefore provided for the Series A, B, C and D Bonds, sufficient to pay in full interest and principal on all Additional Bonds then outstanding, as the same shall become due and payable provided that no payments need be made to the Debt Service Fund so long as the amounts in the Debt Service Fund and Debt Service Reserve Fund aggregate at least the total principal and interest payable on all Bonds then outstanding to the dates of their respective maturities;

Second: Into the Debt Service Reserve Fund, to be held by the Trustee as a separate fund for the payment of principal and interest on, and purchase or redemption of, the Bonds as herein provided, on or before April 1 and October 1 of each year and on such other dates as amounts are payable into the Debt Service Fund with respect to Additional Bonds, such amounts as are necessary to create and maintain in said Debt Service Reserve Fund the required reserve, namely, an amount equal to the maximum principal and interest requirements for any consecutive two-year period on all Bonds at the time outstanding;

Third: Into the Contingency Repair and Replacement Fund, to be held by the University as a fund separate and distinct from all other funds of the University, semi-annually on or before April 1 and October 1 of each year, or as soon thereafter as the required reserve has been established in the Debt Service Reserve Fund, an amount equal to one-quarter of one per cent of the cost of construction on all dormitory facilities then under the control of the Board and 3 per cent of the cost of movable equipment for all such dormitory facilities, which fund may be used by the University to the extent necessary for payment of principal and interest on the Bonds or for extraordinary repairs and replacements to the dormitory facilities or for construction or equipping of additional dormitory facilities;

Fourth: On April 1 and October 1 of each year, to the foregoing funds, such amounts as may be necessary to make up any previous deficiency in any deposits required by the foregoing paragraphs of this section;

Fifth: So long as there is no deficiency in any of the deposits provided for in Paragraphs First through Fourth above and so long as the amounts in the Debt Service Reserve Fund are at least equal to the then required reserve, any amounts in the Dormitory Revenue Fund, after reserving therein the then current Operating Reserve, may be used for any purpose of the University for which such funds may lawfully be used.

The Debt Service Fund is irrevocably pledged to and shall be used by the Trustee for the payment of principal and interest on the Bonds and, until required for such purposes, shall be invested by the Trustee in such direct obligations of the United States as the President and the Fiscal Officer of the University shall direct in writing addressed to the Trustee, which writing shall determine that the maturity of the respective obligations is not later

than the date on which such funds will be required for payment of such principal and interest. The Trustee shall transfer from the Debt Service Fund to the Paying Agents amounts sufficient to enable said Paying Agents to pay when due principal and interest on the Bonds, or the Trustee shall make such credit arrangements with said Paying Agents as to permit such payments.

The Debt Service Reserve Fund is irrevocably pledged to, and shall be used by the Trustee for, the payment of principal and interest on the Bonds if other available funds are insufficient for that purpose and, to the extent herein provided, for purchase or redemption of Bonds. Until required for such purposes it shall be invested by the Trustee in such direct obligations of the United States as the President and the Fiscal Officer of the University shall direct in writing, which obligations shall mature not more than five years from the date of investment. The Trustee shall transfer from the Debt Service Reserve Fund to the Debt Service Fund such amounts as are necessary in addition to amounts available in the Debt Service Fund, including funds transferred from the Contingency Repair and Replacement Fund, to enable said Paying Agents to pay when due the principal and interest on the Bonds.

Any amounts in the Debt Service Reserve Fund in excess of the required reserve provided for in Paragraph Second above shall be used to purchase Bonds for retirement or to redeem Bonds then subject to redemption to the extent and in the manner from time to time requested in writing by the President and the Fiscal Officer of the University. In calculating at any time whether additional amounts are required to be paid into the Debt Service Reserve Fund under Paragraph Second above and in calculating the excess over the required reserve, no value shall be given to any investments of the fund other than direct obligations of the United States maturing within five years from the date of such calculation,

but, in all other respects, such investments shall be valued at their face amount or market value, whichever is lower.

The Contingency Repair and Replacement Fund is irrevocably pledged to, and shall be used by the University for, extraordinary repairs and replacements to the dormitory facilities or to construct or equip additional dormitory facilities or for the retirement of all then outstanding Bonds by purchase or redemption or for payment of the principal and interest by transfer to the Debt Service Fund as herein provided. The University shall transfer from the Contingency Repair and Replacement Fund to the Debt Service Fund such amounts as are from time to time necessary, in addition to the other amounts available in the Debt Service Fund and without use of the Debt Service Reserve Fund, to provide for the payment, when due, of the principal and interest on the Bonds and shall not use any of this fund for repairs or replacement or additional facilities if there is any deficiency in any of the deposits required to be made under sub-paragraphs First or Second of this Section. Until required for such purposes, the Contingency Repair and Replacement Fund may be invested by the President and the Fiscal Officer of the University in direct obligations of the United States maturing not more than five years from the date of investment.

Investments made pursuant to this Section 9 of any amounts in any Special Fund herein created and the interest thereon and the proceeds thereof shall constitute part of that Special Fund and be added to that particular fund. Such investments shall be sold, exchanged or collected from time to time as directed by the President and the Fiscal Officer of the University, and the Trustee shall be under no liability and have no responsibility in connection with such investment, or the sale, exchange or collection thereof, provided the directions of said officers are followed.

Section 10. Trust Agreement. In order to secure the payment of the principal and interest on the Bonds, the President of the University and the Chairman of the Board of Trustees, and each of them, are authorized to execute, acknowledge and deliver as may be appropriate the Second Supplemental Trust Agreement in substantially the form attached hereto, and the Secretary of the Board of Trustees is authorized to seal and attest the same, with such changes not unfavorable to the University as the officers acting shall deem advisable and as shall be approved by the Original Purchasers of the Series C and Series D Bonds. The terms and provisions of the Trust Agreement are hereby confirmed and adopted and the terms of said Trust Agreement purporting to be applicable to the Series A and Series B Bonds or to the Project to be constructed from the proceeds of the Series A and Series B Bonds shall be deemed equally applicable to the Series C and Series D Bonds and the Project covered by this Resolution to the extent that the same are not inconsistent with the terms or provisions of this Resolution and the context so permits.

IN TRUST, NEVERTHELESS, upon the terms and trusts in the Trust Agreement and in this Supplement set forth for the equal and proportionate benefit and security of all present and future holders of the Bonds and appurtenant coupons issued or to be issued under and secured by the said agreements, without preference, priority or distinction, as to lien or otherwise, of any one bond or coupon over any other by reason of priority in the time of the issue or negotiation thereof or otherwise, except as may be otherwise expressly provided in said Trust Agreement.

Section 3. Proceeds of Sale. The proceeds from the sale of the Series C and D Bonds shall be applied as provided in the Bond Resolution.

Section 4. Concerning the Trustee. The Trustee hereby accepts the trusts hereby declared and provided and agrees to perform the same upon the terms and conditions in the Trust Agreement and in this or any other Supplement set forth.

The Trustee shall not be responsible in any manner whatsoever for or in respect of the validity or sufficiency of this Supplement or the due execution thereof by the University, nor for or in respect of the recitals herein contained, all of which recitals are made by the University solely. In general, each and every term and condition contained in the Original Trust Agreement shall apply to this Supplement, with such omissions, variations and modifications thereof as may be appropriate to make the same conform to this Supplement.

May 8, 1959 meeting, Board of Trustees

Dean Walter C. Weidler of the College of Commerce and Administration now introduced Professor Everett C. Shimp, Director of the School of Social Administration, who presented the following report on the School:

#### Aims and Objectives.

1. Preparation of students through an undergraduate program for beginning positions in social welfare agencies. Approximately 1850 undergraduate degrees have been granted.
2. Preparation of students through graduate professional education for practice in seven major areas of specialization. The Master of Social Work degree requires two academic years for completion and has been awarded to approximately 630 students. A small number have pursued the doctorate program whose interests are in college teaching, administration, or advanced research.
3. Service courses of significance to students in other departments of the University, especially the School of Nursing, Occupational Therapy and Physical Education.
4. Service to the community is extended through annual non-credit institutes for employed social workers, largely from Ohio. Seven institutes held in March attracted 171 people on a cost fee basis. Three additional institutes will be offered in June.
5. Various research projects are being conducted by the faculty through assistance of the Development Fund and other sponsors.
6. Off-campus education has been offered in Dayton, Chillicothe and Cincinnati. The Cincinnati offerings led to the recent decision to establish the Cincinnati Center - School of Social Administration for graduate social work education on a limited basis.

#### Instruction Program.

The School has 215 undergraduate majors. The undergraduate program is largely an upper division program. Only three courses are offered below the junior level. Social Administration courses are based on the student's sound knowledge of the humanities, natural science, the social and behavioral sciences. The student may elect a general major or a specialization in corrections, public social services, youth leadership, public recreation or social welfare analysis. Approximately fifty graduates are produced each year which ranks the undergraduate program third in size in the nation.

The graduate professional program on the Master's level is designed to prepare intellectually able and emotionally mature people for practice in a variety of fields of practice. All students are carefully screened and are

May 8, 1959 meeting, Board of Trustees

admitted by the Entrance Board upon recommendation of the School. Personal suitability for social work practice ranks in the same order as intellectual ability.

The graduate curriculum is composed of basic but integrated knowledge areas, namely:

1. Social welfare organization and services
2. Human growth and development
3. Methods and skills
4. Field instruction, and
5. Research

The graduate enrollment in 1958 exceeded by 39 per cent the enrollment for 1957. Applications for 1959 are considerably above those of last year.

The doctorate program is limited to a small number of very able students whose interests are in college teaching, administration or research.

#### Faculty.

The School is served by thirteen full-time faculty and seven part-time persons, whose special areas of knowledge are essential to the instruction program. Seven graduate assistants complete the staff. Twelve full-time professors are approved to advise Masters' students and two to advise doctorate students.

#### Current and Future Needs.

The School is experiencing a steady but sound growth, which makes certain facilities and additions essential for effective operation in the future.

1. Additional faculty to properly instruct and advise the increasing enrollment.
2. Special service is needed in working with the forty to fifty cooperating social agencies giving field instruction.
3. Attention to the development of a medical social service sequence in cooperation with the College of Medicine.
4. The development of a plan to limit admission of undergraduate students to upper division program.
5. Reappraisal of adequacy and arrangement of space for School in Stillman Hall.
6. Provision for increased faculty research time, facilities and consultation,
7. Direct funds for increase in research and statistics equipment.
8. Expansion of institutes and short-term course work.

The Chairman now expressed to Professor Shimp the appreciation of the Board for his interesting report on the School of Social Administration.

President Fawcett presented the following

I. General Recommendations

A. Lamme Medal

I am pleased to endorse the recommendation of the faculty committee of the College of Engineering that Leonard Isaac Schiff of Stanford University be awarded the Benjamin G. Lamme Meritorious Achievement Medal at the June Commencement, 1959.

B. Underground Storage at Psychiatric Institute

The Department of Mental Hygiene and Correction, in order to comply with the requirements of the State Fire Marshal, has asked permission to construct an underground storage facility for flammable and explosive materials in the area between the Psychiatric Institute and the Tuberculosis Hospital buildings in the Health Center. With the concurrence of the Cabinet, it is recommended that the Department of Mental Hygiene and Correction be authorized to proceed with this construction subject to the following conditions:

1. The University shall approve the exact location of the facility.
2. The design shall permit the maintenance of lawn on top of the storage room.
3. The drainage system for the storage room shall meet the approval of the State Fire Marshal and the Office of Business and Finance at The Ohio State University.
4. The design shall provide adequate safeguards to the utility installations in the tunnel and to users of the tunnel to the satisfaction of the Office of Business and Finance at The Ohio State University.
5. The entire project shall be done without cost of any kind to the University and shall include restoration of lawn and necessary cutting and patching to provide a connection to existing facilities, all to the satisfaction of the Office of Business and Finance at The Ohio State University.

May 8, 1959 meeting, Board of Trustees

C. Policy Concerning Faculty and Student Admission to Intercollegiate Athletic Contests

Upon the request of the Athletic Council and with the concurrence of the Cabinet, I recommend that the following policy concerning the price of admission to intercollegiate athletic contests be approved:

1. That the current price of \$12.00 for students and \$14.00 for faculty athletic activity books be continued for the 1959-60 academic year. These activity books will provide admission to all intercollegiate athletic contests except basketball, conference championship meets, the Ohio Relays and special events. Admission to indoor track and swimming will be subject to seating capacity.
2. That effective with the 1959-60 basketball season all St. John Arena seats for basketball games are to be on a reserved seat basis, and students and faculty may secure a reserved seat by presenting their athletic activity books and paying a reservation fee of 25 cents per game. The reservations may be secured within a five-day period prior to each contest and until noon of the day of the contest.

Upon motion of Judge Gorman, seconded by Mr. Rairdon, these General Recommendations were approved by unanimous roll call vote.

\* \* \*

D. Policy on Rose Bowl Game

On March 10, 1959, the Faculty Council of The Ohio State University voted to instruct the Faculty Representative to the Intercollegiate Conference (Big Ten) to vote against the renewal of the agreement for continuation of Conference participation in the Rose Bowl game after January 1, 1960.

I, therefore, recommend that the action of the Faculty Council on the above date be approved.

Upon motion of Judge Gorman, seconded by Mr. Rairdon, the above General Recommendation regarding Policy on Rose Bowl Game was approved by a 5 to 0 vote.

General Dargusch stated that he could not in conscience vote for the recommendation and therefore abstained from voting.

IV. GIFTS

It is recommended that the following gifts be accepted for the University and the appreciation of the Board of Trustees be appropriately expressed:

A. Administered Through the Development Fund

\$2,563.90 for the Mary C. Trump Medical Student Scholarship Fund.

Mary C. Trump Medical Student Scholarship Fund

Established March 1, 1959, by gifts through the Development Fund from family and friends of the late Mary C. Trump, in her memory.

The principal and any additional contributions shall be kept as a permanent fund, a part of the endowment, to be invested in the University's investment portfolio, under rules and regulations adopted by the Board of Trustees of The Ohio State University, with right to invest and reinvest as occasion dictates.

The income is to be made available as a scholarship fund for students in the third and fourth years of the College of Medicine at The Ohio State University. Preference shall be shown to students who are engaged in research work in addition to their academic studies and who are in financial need. The awards are to be made by the University Scholarship Committee on recommendation of the Dean of the College of Medicine.

In the event the need for such scholarships ceases to exist or so diminishes as to create unused income, then the Board of Trustees, in its discretion, may use said income for any purpose whatsoever, preference to be given, however, to items in the field of medicine.

Upon motion of Mr. Rairdon, seconded by Mr. Patton, the foregoing gift was accepted by unanimous vote.

V. EXTRAS, CREDITS AND EXTENSIONS OF TIME TO CONTRACTS

Upon the request of the Council on Business Affairs and with the concurrence of the Cabinet, I recommend that the Extra and Credit Orders and Extensions of Time to Contracts, as outlined below, be approved by the Board of Trustees:

A. College of Law, Complete Building

Electric Contract

Temperature controls for the major items of heating and ventilating equipment require conduit not in the specifications. This extra, \$455.00, provides the necessary electrical work.

Our Service Department has requested the addition of freeze protection in the heating system. This extra, \$153.00, provides conduit and wiring for such protection. Add \$ 608.00

The College Office has requested the addition of electric light shields in the fixtures located in the stacks and the installation of 10 fluorescent lights in lieu of incandescent lights. This extra provides the additional material and labor for installation. Add \$ 614.00

General Contract

The project architects recommend omitting a sheet aluminum emblem and lettering on the lobby wall because it is felt that it would be unsuitable. This credit of \$465.00 is for materials and labor thereby eliminated.

The College Office has requested a change in two sections of magazine rack in Room 224. This change results in a credit of \$40.00 for material and labor eliminated. Credit \$ 505.00

This project is payable from Item 3b College of Law, Complete Building, H. B. 939.

May 8, 1959 meeting, Board of Trustees

V. Extras, Credits and Extensions of Time to Contracts (cont.)

B. 11th Avenue Residence Halls for Men - Building No. 4

Heating and Ventilating Contract

The architects have recommended the acceptance of the substitution of lap weld black steel pipe for seamless black steel pipe for the heating, hot water piping system. This credit is for the difference in cost.

Credit \$1,200.00

This project is payable from Building No. 4, 11th Avenue Residence Halls for Men Dormitory Construction Account No. 2

11th Avenue Residence Halls for Men

Plumbing Contract

Our Service Department has requested the installation of four gas meters, one in each of the three dormitory buildings and one in the kitchen and dining hall area. This extra is for additional material and labor for this installation.

Add \$ 701.00

This project is payable from 11th Avenue Residence Halls for Men Construction Account.

C. College of Engineering, Chemical Engineering Building

Heating and Ventilating Contract

Because of the inadequate consideration by the project architects on the complex requirements of the Chemical Engineering laboratories, the following changes are necessary at this time:

Rerouting of the exhaust duct so that it will not interfere with the use of equipment which may be installed at a future date, \$97.90.

Due to the presence of considerable plumbing and drainage lines next to the ceiling for the laboratories, located on the floor above, the ceiling in the departmental offices has to be lowered and the piping and air conditioning units rearranged to provide sufficient head room. This extra is for relocating the units, changing dampers, and providing the necessary grilles, access panels, pipe and fittings to make this change, \$1,179.00.

May 8, 1959 meeting, Board of Trustees

V. Extras, credits and Extensions of Time to Contracts (cont.)

C. College of Engineering, Chemical Engineering Building

Heating and Ventilating Contract (cont.)

In the penthouse, plans for the air handling equipment did not provide for weather protection to exhaust ducts. This extra is for providing this protection to the cooling tower fan discharges, \$360.00.

Add \$1,636.90

General Contract

Because of inadequate planning by the project architects, the following changes are necessary in the general contract:

The ceiling in the Chairman's Office should be lowered to conceal the overhead piping. This extra, \$21.78, is for the necessary labor to make this change.

Concealment of vertically rising piping in the corners of offices Rooms 122 and 126, adjacent to the entrance lobby, was omitted in the original plan. This extra will provide transite panels from floor to ceiling to enclose these two groups of heating lines for the sum of \$151.25.

Add \$ 173.03

Plumbing Contract

The College Office has requested changes in the plumbing in Room 231 to accommodate revision in equipment arrangement; the installation of gas, air, water, and drainage in laboratory supply Room 321; and a floor drain in Room 7. These changes cause an additional plumbing cost.

Add \$1,517.46

This project is payable from Item 4 College of Engineering, Chemical Engineering Building.

May 8, 1959 meeting, Board of Trustees

V. Extras, Credits and Extensions of Time to Contracts (cont.)

D. College of Agriculture, Swine Evaluation Station Addition

Electric Contract

A recent wind storm demonstrated the need for a guy wire on an existing electric line pole at the north end of existing building No. 2. This extra will provide the necessary installation. Add \$ 53.00

Funds for this project are available in G-2-M College of Agriculture, Swine Evaluation Station, Addition, H. B. 475.

E. College of Engineering, Classroom Office Building

General Contract

The College Office has requested that grid lines be applied on sliding chalkboard units in 40 instructional rooms. This extra will provide for the necessary materials and labor. Add \$1,000.00

This project is payable from Item 2b College of Engineering, Classroom Office Building, H. B. 939.

May 8, 1959 meeting, Board of Trustees

V. Extras, Credits and Extensions of Time to Contracts (cont.)

F. College of Arts, Classroom Office Building

Electric Contract

The College Office has requested the installation of a lobby public address system to permit the counselors in the nine counseling offices on the first floor to page students who are waiting in the lobby at rush periods. This extra is for the purchase and installation of this system.

Add \$1,282.00

This project is payable from Item 1 College of Arts, Classroom Office Building, H. B. 939.

G. Enlargement of a Section of Steam Supply Line in Tunnel  
Supplying Steam to College of Law, Complete Building

Extension of time to completion of contract from July 1, 1959 to September 1, 1959.

There was a delay of two months in processing the contract for this project. This extension is requested because of this and because the steam requirements of the buildings in the southeast portion of the campus are now such that the existing standby steam line does not have sufficient capacity to carry the load of these buildings. It is, therefore, necessary to delay the project until mild weather sets in and the standby line is able to furnish adequate steam.

May 8, 1959 meeting, Board of Trustees

V. Extras, Credits and Extensions of Time to Contracts

H. College of Engineering, Chemical Engineering Building

General Contract

The architects for this project omitted specifying a non-porous wall covering that could be removed if necessary in cases of accidental spillage causing hazardous contamination from radioactive chemistry work. It is, therefore, recommended that a special non-porous interior finish be used to resist contamination of the concrete in the three laboratories and a monitoring corridor with an adjacent shower. This extra will supply "Ammercoat" to the walls, ceiling, ducts and piping exposed and includes a credit for substituting a lacquer finish on doors and omitting the specified paint on walls and ceilings.

Add \$2,276.62

Electrical Contract

Because of inadequate consideration of the consulting engineers, insufficient power supply was designed for the heavy duty electrical service to the machine shop in Room 5. An extra circuit and a larger trip mechanism to provide adequate current is necessary at this time. Also, in the penthouse, electrical equipment includes 30 motors of  $\frac{1}{2}$  H. P. or less for hood exhaust fans. The motors were furnished for 208 volt operation and the services and controls designated for 120 volts. It is, therefore, necessary to install 15 two-pole circuit breakers in the motor control center instead of 30 single pole units and reconnect the motors two to a circuit for 208 volt operation.

Add \$ 381.00

This project is payable from Item 4 College of Engineering, Chemical Engineering Building, H. B. 939.

May 8, 1959 meeting, Board of Trustees

V. Extras, Credits and Extensions of Time to Contracts (cont.)

I. Administration Building, Site Improvement and Landscaping

New sidewalks are provided on the east and west sides of the building as part of this project. It is now apparent that the existing stone curb along these sidewalks is in very poor condition at some places. About 212 feet of curb on the east side and 20 feet of curb on the west side should be replaced with new concrete curbing. This extra provides the new curb.

Add \$ 730.80

Funds for this project are available in Item 15 Deferred Maintenance on present facilities, H. B. 939.

J. College of Dentistry, Reconstruction in Existing Building

Certain desirable items were omitted from the bidding documents in order to keep the project cost within the budget. Since the bids received were more favorable than the estimate, it is now possible to provide additional diagnostic facilities and x-ray cubicles, enlarge the sterilizing facilities and relocate four staff offices.

General Contract

This extra provides metal partitions, doors and hardware to provide new offices on the Ground Floor, metal partitions and shelves for eight new cubicles, lead block partitions and lead glass windows for X-Ray room, new pass windows with aluminum rolling shutters for Instrument Room and patching, painting and repair of existing floors, ceilings and partitions as indicated and required.

Add \$23,874.00

Heating Contract

This extra is for relocating thermostats and other heating service required during changes in partitions and other features.

Add 220.00

May 8, 1959 meeting, Board of Trustees

J. Extras, Credits and Extensions of Time to Contracts (cont.)

J. College of Dentistry, Reconstruction in Existing Building (Continued)

Plumbing Contract

This extra provides vacuum cleaning outlets and piping in the existing building for the Dental Laboratories on the first and second floor, connected to the vacuum cleaning system in the East Wing Addition and the removal and relocation of plumbing fixtures where required by changes in rooms and partitions Add \$ 3,849.00

Electrical Contract

This extra consists of new lighting fixtures, switches and convenience outlets, relocating certain fixtures and changes in the intercommunication and paging system. Add \$ 1,186.00  
\$ 29,129.00

Funds for this project are available in Item 6 College of Dentistry, Addition to Building, H. B. 939.

K. College of Engineering, Classroom-Office Facilities

The Dean of the College has recommended that air conditioning be provided for all four floors of the Civil Aeronautical Engineering Building and for the west wing of the new portion of the Electrical Engineering Building. This work would include all necessary equipment, labor and materials to complete the air conditioning as presently indicated on the building plans. The following quotations have been received:

General Contract	\$ 2,500.00
Heating & Ventilating Contract	84,980.00
	<u>\$ 87,480.00</u>

The University has been unable to obtain a quotation for the electrical work in connection with this project because of present negotiations to appoint a new electrical contractor for this project.

May 8, 1959 meeting, Board of Trustees

V. Extras, Credits and Extensions of Time to Contracts (cont.)

K. College of Engineering, Classroom-Office Facilities  
(Continued)

It is anticipated that the contractor will be appointed within a short time and it is requested that the Board of Trustees authorize the Vice President, Business and Finance, to proceed with the air conditioning for this project and to obtain a quotation favorable to the University from the electrical contractor for that portion of the necessary work.

This project is payable from Item 2b College of Engineering, Classroom Office Facilities, H. B. 939.

Upon motion of Mr. Ketner, seconded by Senator Bricker, the above recommendations, collectively and severally, were unanimously approved by roll call vote.

VI. Plans and Specifications

With the approval of the Council on Business Affairs and with the concurrence of the Cabinet, it is recommended that the estimate of cost for the following project be revised as follows:

A. Numerical Computation Laboratory

	<u>Original Estimate</u>	<u>Revised Estimate</u>
General Contract	\$ 93,840.00	\$ 57,728.00
Heating and Ventilating Contract	48,000.00	56,450.00
Plumbing Contract	2,500.00	7,162.00
Electrical Contract	<u>20,000.00</u>	<u>43,000.00</u>
Total	<u>\$164,340.00</u>	<u>\$ 164,340.00</u>

Since this work is unlike normal building remodeling and has no precedent, it is expected that some realignment of the contract prices may be necessary between the different trades.

Upon motion of Senator Bricker, seconded by Mr. Patton, the above estimate of cost was approved by unanimous roll call vote.

**B. Re-design of Present Facilities, University Hospital (continued)**

The foregoing bids, including the alternates, are the lowest and best bids in their respective divisions and are below the estimate of cost with the exception of the General Contract and Alternate G-1 and HV-1. Inasmuch as the total of the bids is less than .6% above the total estimate of cost, the Director of Public Works and the University Architect believe that no better bids would be received if the University readvertised and, therefore, recommend that the Controlling Board be requested to grant approval for the award of these contracts as listed above .

Funds for this project are available in Item 2 Re-design of Present Facilities, University Hospital, H. B. 939, and F-9 College of Medicine, H. B. 327.

Total <u>Contracts</u>	<u>\$172,088.00</u>	<u>\$150,900.00</u>

The foregoing bids are the lowest and best bids in their respective divisions, notwithstanding the fact that they are above the estimates of cost except for the Laboratory Equipment Contract. The Director of Public Works and the University Architect believe that no better bids would be received if these divisions were readvertised and therefore recommend that the Controlling Board be requested to grant approval for the award of these contracts as listed above to the low bidders.

Funds are available in a grant from the U. S. Department of Health, Education and Welfare in the amount of \$85,500.00 and the balance in-Item 4, College of Engineering, Chemical Engineering Building, H. B. 939. Pending recovery of the \$85,500.00 from quarterly estimates of progress of construction, it is requested that authority be granted to advance by transferring \$85,500.00 from the General University Fund to a building account to be established for the Water Resources Building.

**A. Athletic Department Revenue Bonds--Semi-Annual Payments**

In accordance with the Trust Agreement dated March 1, 1955 between The Ohio State University and The Ohio National Bank as Trustee, the interest payment on the Athletic Department Revenue Bonds for the period December 1, 1958 to June 1, 1959, amounting to \$33,400.00 and the semi-annual payment for the retirement of bonds amounting to \$32,500.00 are due on June 1, 1959.

It is, therefore, recommended that \$65,900.00 be transferred from the Athletic Revenue Fund into the Debt Service Fund to provide funds for these payments.

Upon motion of Mr. Ketner, seconded by Senator Bricker, the above recommendation for transfer of funds was unanimously approved by roll call vote.

C. Architect's fees, College of Agriculture, Animal Science Building

The contract of Ramsey, Crose & Abbot for architectural services for this project provided for the use of partial preliminary plans prepared by another firm, for which the sum of \$2,206.58 was deducted from their fee. However, the actual program outlining the requirement for this building was drawn up after these preliminary plans were prepared and the preliminary plans were of no practical value to Ramsey, Crose and Abbot.

The Vice President, Business and Finance, and the Director of Public Works, therefore, recommend that approval be given for the additional payment of \$2,206.58 to this firm for preparation of the preliminary plans.

Funds are available in Item 7a Animal Science Building, H. B. 939, for this payment.

Upon motion of Mr. Ketner, seconded by Mr. Rairdon, the above recommendation was approved by unanimous roll call vote.

## XI. Resolutions in Memoriam

### A. Charles St. John Chubb

The Board of Trustees expresses its sorrow at the death of Charles St. John Chubb, Professor Emeritus of Architecture, on March 29, 1959. With his passing there fades away another of that fast dwindling rank of distinguished teachers and administrators characteristic of the great William Oxley Thompson formative era of the University.

Professor Chubb was born in 1861 at Fort Pembina, an army post in North Dakota. His father, who at the time was commandant of this post, later moved to Columbus with his family, and here his son Charles received most of his early education in the public schools. In 1900 young Chubb was graduated from the old Columbus Central High School, and the following year found him at The Ohio State University as a freshman in Civil Engineering. From this Department he was graduated in 1904 with the degree, Civil Engineer (Architecture). He then went to the University of Pennsylvania to pursue special studies in architecture. While there, in 1907, Professor Bradford, The Ohio State University Architect and Chairman of the newly created Department of Architecture, offered him the position of Assistant Professor of Architecture. He returned to Columbus, and from this time on his entire life was shaped by and devoted to his Alma Mater.

In 1913 Mr. Chubb was made Professor of Architecture, and in 1922 he succeeded Professor Bradford as Chairman of the Department, a post which he held until 1944 when he retired from administrative duties. During the 22 years of his chairmanship he was untiring in his efforts to promote the interests of his Department. Under his administration the Department of Landscape Architecture, which until then had had a checkered career, was definitely merged with Architecture. He was ever alert to stressing within his College the peculiar qualities of architecture that differentiated it from other departments of engineering; this resulted later in the creation of the separate School of Architecture and Landscape Architecture under the administration of the College of Engineering.

For Professor Chubb the welfare of his Department of Architecture and of the profession of architecture were one and the same. He was always active in the American Institute of Architects and was for several years president of its Columbus Chapter. Also, at one time or another, he was secretary-treasurer of the Ohio State Association of Architects, member of the Ohio Society of Architects, and, notably--as a staunch advocate of public housing at a time when those having such ideas were regarded with suspicion--Chairman of the Columbus Metropolitan Housing Authority.

May 8, 1959 meeting, Board of Trustees

He was generally considered as the "granddaddy" of the Architects Registration Law of the State of Ohio. With all his devotion to the cause of architecture, Professor Chubb's interests were widespread. He was a member of various fraternities and clubs, and took an active interest in them. As an indication of the character of the man, the very popular minstrel shows of the Young Business Men's Club were often arranged by him, and he took great delight in his role of "end man." He was an avid stamp collector, specializing in stamps having an architectural interest, and his collection was locally well-known. At the University he always took a keen interest in athletics and as a student was manager of the baseball team, and he served many years as a faculty member of the Athletic Board.

Professor Chubb was ever "the perfect gentleman." A good part of this perfection was no doubt due to his military antecedents, but some of it probably was derived from his father-in-law, the legendary Professor Rosser D. Bohannon, "the gentleman of the old school from Virginia." For the few remaining members of the faculty of Professor Chubb's era--for those from Engineering, in particular--the words Orton, French, Bohannon, Sherman, Magruder, mean something more than just the names of streets or buildings. For them these are the names of very human persons that they knew and respected, and now this sympathetic response will doubtless be quite as strong and spontaneous at the mention of the name "Chubb."

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees.

Resolutions in Memoriam (continued)

Thelma Beall

The Board of Trustees expresses its sorrow at the death of Thelma Beall, Professor Emeritus of Home Economics Extension, on April 8, 1959.

Miss Beall was born in Clarksburg, Indiana, on July 11, 1899. She received the Bachelor of Science degree in Home Economics from Purdue University in 1921, and then did graduate work at Iowa State College, The Ohio State University, and the University of Tennessee and received her Master's Degree from Columbia University. She taught in the high school at Clarksburg for one year. From 1922 to 1924 she served as Home Demonstration Agent on Cape Cod, Massachusetts. In 1924 she joined the Ohio Agricultural Extension Service and became Home Demonstration Agent in Wood County, serving in this capacity until 1930, when she came to the campus of The Ohio State University as Home Management Specialist. This position she held until her retirement in 1957.

Miss Beall was a member of the Broad Street Presbyterian Church and her professional affiliations were with the Ohio Home Economics Association, the American Home Economics Association, the Electrical Women's Round Table, the Ohio Farm Safety Council and the National Work Simplification Committee.

Miss Beall was a competent writer, and, in addition to magazine articles and leaflets, she wrote many bulletins relating to home management, household equipment and family economics. One of her many fine contributions to the people of Ohio was the work she did with home accounts, encouraging families to keep them and helping to analyze and interpret the results.

She was noted for her devotion to the task before her and was a meticulous and painstaking worker. She possessed a keen analytical mind that demanded knowing all the facts and implications of a problem before making a decision. She was truly a great teacher, knew her subject and liked it, and took every opportunity to continue to learn and grow with the job. She was not only orderly in planning, precise in dealing with facts, but took into consideration the human values that cannot be overlooked in good teaching. Her patience, thoroughness, foresight, and vision were an inspiration to all with whom she worked. People in Ohio benefited from her work and gratefully remember the wisdom with which she helped them think through and solve their problems. Her innate kindness and understanding demonstrated first her interest in them as individuals, and secondly her desire to be of service to them.

May 8, 1959 meeting, Board of Trustees

Since she appreciated "the most remarkable creation of man," the world of books, she read extensively from her own large collection of books, endeavoring to learn the principles for daily living from the ideas and experiences of great mind. Forced to go through many years weighed down by illness, she lived each day with courage and the faith that tomorrow would take care of itself. She had the kind of poise that enabled her to deal effectively with her daily suffering, and thus she developed inner peace. Hundreds of persons have reasons to be grateful for having known Thelma Beall.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees.

Resolutions in Memoriam (continued)

C. William Alfred Starin

The Board of Trustees expresses its sorrow at the death of William Alfred Starin, Professor Emeritus of Bacteriology, on April 3, 1959.

Professor Starin was born on February 25, 1878, in Netawaka, Kansas. After attending Lane University at Lecompton, Kansas for two years, he began his career as a teacher in a one-room school where he taught for one year. After a year of teaching in a high school, he served as the principal of Lecompton High School from 1890 to 1892. He then attended Baker University at Baldwin, Kansas, and transferred to the University of Kansas where he obtained his Bachelor of Arts degree in 1906. After receiving his Master of Arts degree from the same institution two years later, he was appointed an Assistant Professor of Bacteriology at Oklahoma Agricultural and Mechanical College.

It was from this position that he came to The Ohio State University as an Instructor of Bacteriology in 1910. The following year he was promoted to the rank of Assistant Professor. During the years 1914-15 he continued his education at the University of Michigan under the late renowned professor and bacteriologist, Dr. Novy. Professor Starin was advanced to the rank of full Professor in 1918. During the summers of 1920 and 1921 he served the United States Public Health Service in the capacity of General Inspector of their laboratories throughout the United States. His Doctor of Philosophy degree was obtained at the University of Chicago in 1923.

Continuing his eager thirst for knowledge, he studied as a Fellow of the School of Hygiene and Public Health at Johns Hopkins University, at Columbia University in 1932, and at McGill University in 1940. Intermittently during the war years, he served as Acting Chairman of the Department of Bacteriology while Dr. N. Paul Hudson, the Chairman, was on leave. He was made Chairman of the Department in 1947, and retired from the University in 1948.

Dr. Starin was a Fellow of the American Association for the Advancement of Science, a Fellow of the American Public Health Association, a member of the Society of American Bacteriologists, the Association of Pathologists and Bacteriologists, and an associate member of the Columbus Academy of Medicine.

May 8, 1959 meeting, Board of Trustees

His continuous and insatiable desire for knowledge brought him back to the University, which he had served faithfully as a faculty member for thirty-nine years, as a student auditing classes in Spanish, art, and law. Although the scientific contributions which he made through his researches in immunology and pathogenic bacteriology are well known, his greatest legacy remains in the effects of his inspired teaching of literally thousands of students. He often said that he could not drive through any town in Ohio without seeing the name of a doctor or a dentist whom he had had in class. Many of his former students hold positions of importance in research, medicine, and academic institutions across the nation. His influence, through the lives of the many hundreds of physicians, dentists, and researchers who sat at his feet, on the health of the people of Ohio and over the country can never be fully appreciated.

His indefatigable interest and energy which he devoted whole-heartedly to his career, accompanied by a delightfully dry sense of humor, made him an exceptional teacher. The esteem in which his students held him is witnessed to by the hundreds of letters throughout the years which he continued to receive. To them this kind, generous and devoted professor was known affectionately as "Uncle Willie." Professor Starin's early life paralleled the years when Pasteur, Koch, and Wasserman were ushering in the new era of modern bacteriology. He studied directly with Drs. Barber, Novy, and Welch, who in turn had sat at the feet of the European masters.

With his passing the Department of Bacteriology on this campus loses a strong direct link with the past pioneers in the golden era of the science of microbiology. At the time of his retirement, his grateful students and friends established in his honor, and now in his memory, the William A. Starin Lectureship in Bacteriology, which will help to retain in the years to come the memory of this exceptional teacher and the high scientific and academic ideals for which he stood.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees.

June 5, 1959 meeting, Board of Trustees

Statement of the Chairman of the Board of Trustees

Judge Robert N. Gorman, Chairman of the Board of Trustees now presented a statement outlining some of the challenges faced by The Ohio State University and public education in the coming years, based on his eight years' service as a Trustee of the University.

Statement

My term as a Trustee will expire on May 9, 1960 and in accordance with the prevailing custom, I will serve as Chairman of the Board during 1959-1960. At the end of my term I shall have served nine years, and I have repeatedly said that I shall not be an applicant for reappointment.

Service on this Board has given me an opportunity to better understand the complex educational problems, and I have enjoyed a most pleasant association with the other Trustees, faculty members, administrative officers and students with whom I have come in contact. Their knowledge of the University has often been greater than mine, and kept me from voting for measures that might have caused difficulties.

It seems to me that because of my tenure during these past eight years I should try to outline some of the challenges that this University and public education face in the coming years. I can only briefly touch upon these problems today, but in later reports shall be more specific.

Having attended both public and private schools and public and private universities, I had in mind certain definite ideas as to the purpose of a state university. By reason of experience on this Board many of these have undergone considerable and substantial change. To my mind the divisions of control in education leave much to be desired. With an expanding enrollment, fewer qualified teachers and the demand for better facilities, the educational system should be surveyed from the primary grade through the graduate school. The functioning of the Inter-University Council and the Ohio Colleges Association has been a promising effort to co-ordinate admitted objectives of higher education. In my time, not a single joint meeting has been held between representatives of the Trustees of our state-supported institutions and representatives of the State Board of Education. Such a meeting should be held at an early date and some permanent committee established so that the various groups will not work at cross purposes in the future.

The state and local boards of education have the responsibility of providing primary and secondary education, but our state universities have a great part of the responsibility in training and supplying adequate teachers to carry out the programs of elementary education.

June 5, 1959 meeting, Board of Trustees

Our President fortunately by reason of his wide experience in secondary school work is in a position to advise us of the transition problems students face when they leave high school and enter college. There is much to be desired to have a better understanding between the groups and plans to co-ordinate our entire educational system must be undertaken.

Prior to World War I a college education was obtained by relatively few. Back in 1900 less than two students, who entered the primary grades, obtained a collegiate degree. Today it is not rare to find eighty or ninety per cent of graduates of certain high schools enter college.

What is needed at every university as well as at Ohio State is a master plan for higher education. We should be able to look into the future, predict what shall probably happen, and then project our plans to meet the anticipated needs. Municipalities with the great expansion beyond city limits have seen the need for metropolitan planning, and this university with great foresight has recently established planning courses to aid and assist the cities in their long neglected problems arising from unforeseen growth. Our architects of education should be able to accomplish similar results.

However, no one can plan adequately unless the objectives and aims are clearly established. Our early colleges in this country were privately endowed. Modelled after the English universities, the purpose was to develop a man of culture, who had the capacity for critical analysis, independent thinking and the awareness of social and economic problems of society. They were the founders of our liberal arts courses in this country, and they still adhere essentially to those principles. It was and still is our thought that technical, vocational and professional training comes after college in the graduate schools.

The state university, however, followed a different pattern. It need only be mentioned that when this university was founded in 1870 it was known as the "Ohio Agricultural and Mechanical College," which would seem to indicate that the accent was originally placed on technical training rather than on liberal arts courses.

However, in this area there was a rather definite guide that education was not to be altogether practical. In the third article of the Northwest Ordinance of 1787 it is definitely stated:

"Religion, morality and knowledge being necessary to good government and happiness to mankind, schools and the means of education shall forever be encouraged."

June 5, 1959 meeting, Board of Trustees

This single sentence properly interpreted should be the key to the purpose of a state university. The doors of a state university should be open to those who desire a liberal education as well as those who desire training in specialized and technical fields, and it is to be hoped that those pursuing the latter courses will have some basic foundation for their specialized training. However, those who believe in early specialization should have the opportunity to do so, if for financial reasons or lack of aptitude for courses in the humanities feel their time is limited. Yet a state university must do more than furnish an opportunity for higher education for its every citizen. It must conduct and encourage research in these days of scientific inquiry. The benefits of research through experiment stations and the research foundations must be made available to our citizens who support the university. Research today in all fields in a state university is just as important as the education of your youth, neither of which can be measured in the terms of dollars and cents.

Extension courses and branches furnish the opportunity for others to continue their education when by force of circumstances many are unable to have the funds or because of late maturity are not enrolled at the customary age.

What then is the objective we seek in higher education in a state-supported university? The first aim should be to serve the people of this state, and the people and alumni in turn should co-operate to the fullest extent in this effort. The highest standards in the arts, sciences and professions should be our goal. Research and instruction in practical matters cannot be neglected, to the end that the people of the state gain advantage of every tried and modern method that proves worthwhile. The university will thus become an integral part of our future development in this state.

The objective is not easy, because the problem is state-wide and not local. What is felt important in Columbus may be considered trivial in Cincinnati, Cleveland or on the farm or vice versa.

Today we have a barrage of statistics, some of which, while possibly exaggerated, indicate an enrollment of 40,000 at Ohio State University in 1970. We have had the report of John Dale Russell made under the auspices of the Ohio College Association in 1956 and the Ohio Commission on Education beyond the high school, appointed by Governor O'Neill, which made a report in 1958. These reports furnish valuable statistics, and make some worthwhile recommendations, none of which to date have crystallized public sentiment toward action. In fact, they should be given study before final conclusions are reached. However, the time for study is already rather late.

June 5, 1959 meeting, Board of Trustees

The present General Assembly and state administration, beset with difficulties of financing the state government, has delayed any action on the future problems of higher education. It would seem that when the General Assembly adjourns we of the universities and colleges of Ohio should frame a program ready for adoption in 1961 by the General Assembly. It is already late, and unless something is done, we shall have a continuing permanent problem far greater than the temporary resurgence caused by the educational veterans' bulge in 1946.

There are certain questions that have to be answered. Are we to plan just for an increased enrollment at our present state-supported universities and colleges? Are we to establish new universities? Are we to have branches or junior colleges? Are we to have or create technical and scientific schools? Are we to place a limitation on our enrollment in specific universities and colleges, or are we just to plan a year by year program with our fingers crossed hoping that disaster will not overtake us? Are we to subsidize the municipal universities if they aid and assist in taking some of the load from the state universities? And, finally, are we to establish some uniform entrance requirements at state universities?

None of these questions can be answered without serious study, and probably there will never be unanimity of opinion on any of the proposals, but some plan is better than none at all. Delay and procrastination cannot bring about some magic formula.

The present statutes of Ohio (Section 3345.06 Revised Code) provide that any graduate of the twelfth grade is entitled to admission to a state college or state university. Until recently this statutory proposition was considered sound, although there are few states in the Union today that do not require some entrance requirements other than a high school diploma.

House Bill 341, introduced in the General Assembly by Mr. Reckman, provided that the Boards of Trustees could provide entrance requirements, but that every student should have an opportunity to become enrolled in a state university on the successful passage of an entrance examination. While I, personally, feel that this bill would have provided an opportunity to attempt to solve the problem of an expanding enrollment, nevertheless, I can well understand the reasons why the bill was killed in committee.

The committee felt that this gave too great power to the Trustees and the university, and apparently, if there were to be any entrance requirements, that power should be written into the statute. It may not be an easy task to accomplish but I am convinced appropriate entrance requirements can and should be written into law.

June 5, 1959 meeting, Board of Trustees

In facing the expanding school enrollment, with a shortage of teachers, some school districts with a shortage of funds may not be able to supply the same type of secondary education that schools in wealthier districts may have. Persons in those districts feel that their children may be discriminated against by reason of entrance examinations. Then, we all recognize that there are some young men who mature later than others, and, while their work in high school may not be satisfactory, in college, placed on their own resources, they oftentimes become excellent students. Finally, there is the type of boy, whose parents in high school almost compel him to study, while other parents permit their children always to take the line of least resistance. What the different young men do in college depends upon their reaction to freedom to study or freedom to loaf. After all, as Justice Brandeis has said, "responsibility is the builder of men."

Despite all these problems, Sections 3345.06 Revised Code must be amended. We cannot successfully amend it until we know whether we are to have technical schools and branches as well as junior liberal arts and professional schools in Ohio. One student may not have the capacity to take a liberal arts course, and yet might be outstanding in practical scientific subjects, which we do not attempt to teach to any great degree in our six present state-supported universities.

To those who feel that anyone, no matter how poorly prepared or equipped, should have a right to enter college, let me say that the strength of a university depends not only on its administrators and faculty, but upon its student body as well. An indolent student body can well result in an inferior university.

Once we have determined our objective in education, I am sure a Bill can be drafted that will be fair to all our young men graduating from secondary schools. If it can be accomplished, we will save much of the time of the faculty, our housing problem will not be so acute, and in the long run the plan will be beneficial to the student. No student enjoys being asked to leave a university after a semester or after one year, and yet our failures in the first year approximate thirty per cent. They may blame their own deficiencies, but in their hearts they feel a bitterness towards the universities.

Of course, the granting of degrees upon the completion of so many credit hours, borrowed from the German system, is firmly imbedded in our higher education system. One must have a degree, and yearly they are handed out in numbers to the inefficient as well as the proficient. Some national agency will have to study this mass degree-granting system of educational performance, but it is about time that some study be made of it. Possibly, it might be better to forget degrees, and give certificates of years of successful attendance, but such a change would not in any way solve our present educational problems of future enrollment.

June 5, 1959 meeting, Board of Trustees

I have only pointed out some few of the matters which concern our objectives and problems of the future, which need solution. Briefly, I have repeatedly said that all education must aim at character building. It is not an achievement if we produce many lawyers, doctors, businessmen, farmers, engineers and clergy no matter how accomplished they may be in their fields, if they are corrupt. If that happens, we shall have lost sight of our foremost objective as paraphrased in the Northwest Ordinance of 1787 that education shall forever be encouraged as it is essential to good government and happiness, which is founded upon religion, morality and knowledge.

Turning from state-wide problems to those of our own university, I have some thoughts of my own. We do not intend to de-emphasize our inter-collegiate athletic program. In fact, in certain areas and in intra-mural competition, it can be expanded. On the other hand, we shall not de-emphasize our educational and scholastic program merely to permit inferior students to compete. The same standards of scholastic achievement must be met by all without favoritism. We shall continue our efforts with other Western Conference representatives to continue intercollegiate athletics on a high plane as a co-ordinated part of our educational system.

The higher cost of education has made it imperative that our scholarship funds be enlarged so that no worthy student shall be denied educational opportunities because of lack of funds.

I have always taken the position that methods of instruction and training must be left with the faculty and administrative officers, and while the Board of Trustees has wide and conclusive power, the Board should limit itself to the higher policies of education and the financing of the objectives.

Competition with business and industry in reference to salaries has and will remove from the field of teaching many of the best qualified. Incentive to remain in the teaching field can only be accomplished by adequate salaries, security of tenure, and appropriate retirement compensation. My immediate predecessor as Chairman labored with great effectiveness in this field.

In the field of research it is my belief that the Experiment Station at Wooster should be made a part of the university, as it is in nearly all states. Under the present system, two boards administer to the needs of agriculture in the state, and they could well be combined by legislative action. Legislative action, however, is necessary.

I recognize that there are many problems upon which I have not touched, such as buildings, facilities and housing accommodations that present themselves with an expanding enrollment. Living in a nuclear age I also recognize that the curriculum must undergo changes from time to time, and experiments in such changes may need the approval of the Board of Trustees.

June 5, 1959 meeting, Board of Trustees

In the last analysis, the success of Ohio State University will not be dependent upon the actions of the Board of Trustees, although in many instances the Board members must supply leadership in solving the critical problems now with us. The test of the strength of a state university lies with its President, faculty, men of research, student body, and the support it is able to obtain from its alumni and the people at large.

Increased co-operation from the alumni and better relations with our graduates should be one of our most important functions. The contributions made by alumni and friends to the Development Fund have been a source of great strength. However, the objectives of the Board and the Alumni Association to improve the university should be the same, and there is not the slightest reason for conflict between the alumni and the Trustees. This has not at all times been impressed upon alumni groups, but it should be, so that any conflict between faculty, alumni and the Board of Trustees should be resolved, so that the prestige of the university is not injured by bickering among ourselves.

We have always been willing to hear complaints or receive petitions, and shall at all times listen to public grievances. We shall attempt to solve these matters amicably, but in the last analysis, the final decision will rest with the Board of Trustees as arbitrators seeking to promote the welfare of the University and state.

It is not merely a matter of direction of activities. All of us should be judged by conscientious performance to aid and assist in good government, good citizenship generally, and happiness to mankind. If we perform these functions, we shall advance the cause of education in Ohio, and at the same time continue to place the state and university among the not only more enlightened, but also most forward-looking institutions in the nation.

It is my belief that the aims and purposes can be accomplished by co-ordinated efforts where we call upon those best fitted to promote our educational advancement. In so doing I shall generally follow the recommendations of our President, who during his short tenure has impressed all with his sincerity, his integrity, his devotion to duty, and his outstanding administrative ability.

The Board of Trustees now expressed its appreciation to Judge Gorman for his thoughtful and critical analysis .

General Recommendations (continued)

B. Recommendations from the Faculty Council - Changes in Rules

For some months a special committee of the Faculty, appointed by the President, studied the policies which govern both the present and the future development of all off-campus credit programs. Included in the recommendations of this committee was one for the establishment of a Council on Off-Campus Education. At the May 12 meeting of the Faculty Council changes in the Rules for the University Faculty were presented by the Committee on Rules to implement this proposed Council. The Faculty Council approved these changes and I therefore recommend that the Rules be revised as indicated below:

1. That a new Rule 29.2708 be approved to read:

29.2708 Council on Off-Campus Education

Section 1. The Council on Off-Campus Education shall consist of eight members chosen as follows:

- a. Appointed members. Six members of the University Faculty appointed by the President. In making these appointments the President shall assure that the College Faculties of the following Colleges shall be represented on this Council: Agriculture and Home Economics, Arts and Sciences, Commerce and Administration, Education, and Engineering.
- b. Ex officio members. The following two ex officio members shall serve on the Council: Assistant to the Vice President, Curriculum Development, and the Dean of the Graduate School (or his designee).

The appointed members shall be appointed to a three-year term, two to be appointed each year, and shall be ineligible for re-appointment during one year thereafter.

The Vice President, Instruction and Research, shall be the Chairman of the Council on Off-Campus Education; the Assistant to the Vice President, Off-Campus Education, shall be the Vice Chairman. The Chairman (or in his absence, the Vice Chairman) shall preside at all meetings of the Council on Off-Campus Education and shall vote only in case of a tie vote among the members of this Council present and voting.

Rule 29.2708 (continued)

Section 2. This Council shall have the following duties:

- a. To study University policies concerning the offering of University courses at places other than the main campus and to make recommendations relating thereto to the Faculty Council.
- b. To review periodically the educational standards of the off-campus course offering of University work.
- c. Subject to review by the Faculty Council, to establish criteria and procedures for receiving, considering and acting upon proposals for the offering of University courses at places other than the main campus.
- d. To receive all proposals for the establishment of new centers for off-campus course offerings of this University; to review these proposals after consultation with the appropriate persons in the appropriate Departments and Colleges and in the Graduate School (when graduate education is involved); and to make recommendations to the President concerning these proposals.

All matters of instruction, including the establishment of new courses and the assignment of faculty, shall follow the usual University procedures as specified in these Rules.

Section 3. This Council may appoint such committees as are reasonably necessary to carry out its responsibilities under these rules. Committees appointed by this Council may be discharged by it at any time.

2. That Rule 11.1101 be amended by deleting the present Section 3 and inserting a new Section 3 as follows:

**Section 3.** The principal administrative officials of the Office of Instruction and Research shall include an Assistant to the Vice President, Curriculum Development; an Assistant to the Vice President, Research Development and Institutes; an Assistant to the Vice President, Off-Campus Education; an Assistant to the Vice President, Continuing Education; the Director of Libraries; and the Director of Radio Education.

General Recommendations (continued)

C. Remedial Course Fees

The Board of Trustees on September 8, 1953 authorized a \$10.00 per Quarter fee for students enrolled in remedial English and remedial Mathematics courses with the stipulation that the income was to be used for the sole purpose of employing teachers for these remedial courses. These courses are at the sub-freshman level and are designed for students who fail to meet the minimal standards as determined by their scores in English and Mathematics Placement Tests.

To meet the increasing instructional costs, I hereby recommend that the fee for remedial courses in English and Mathematics be increased from \$10.00 to \$15.00 per Quarter effective with the Autumn Quarter, 1959.

Upon motion of Senator Bricker, seconded by Mr. Patton, the above General Recommendations were unanimously approved by roll call vote.

VI. EXTRAS, CREDITS AND EXTENSIONS OF TIME TO CONTRACTS

Upon the request of the Council on Business Affairs and with concurrence of the Cabinet, I recommend that the Extra and Credit Orders and Extensions of Time to Contracts, as outlined below, be approved by the Board of Trustees:

A. College of Engineering, Classroom-Office Facilities

Electrical Contract

As reported to the Board of Trustees at the May 8 meeting, it was anticipated that a new electrical contractor would be appointed to complete this project. The Bonding Company has now appointed Gustav Hirsch Organization, Inc., and the University has received a quotation of \$10,400.00 from this company for the necessary electrical work in connection with the air conditioning for the four floors of the Civil Aeronautical Engineering Bldg. and for the west wing of the new portion of the Electrical Engineering Bldg. This sum is found to be reasonable for the additional work. Add \$ 10,400.00

This project is payable from Item 2b College of Engineering, Classroom Office Facilities, H. B. 939.

B. College of Arts, Addition to Chemistry Building

Laboratory Equipment Contract

As a result of certain changes in the requirements for laboratory equipment for the two additional bays, it is recommended that we omit all laboratory equipment in Rooms 065, 165, 365, and 465 and omit the center laboratory tables in Rooms 213, 215, 216, 306, 313, 362, 405, 412, and 462. These omissions reduce the cost of the laboratory equipment as specified from \$96,388.00 to \$63,396.85. Credit \$ 32,991.15

June 5, 1959 meeting, Board of Trustees

VI. EXTRAS, CREDITS AND EXTENSIONS OF TIME TO CONTRACTS  
(cont.)

College of Arts, Addition to Chemistry Building (cont.)

Plumbing Contract

As a result of the omission of certain laboratory equipment for the two additional bays as outlined above, the need for hot and cold water service and drainage for this equipment would be obviated and a credit due the contractor.

Credit      \$ 6,925.00

Heating and Ventilating Contract

As a result of the omission of certain laboratory equipment for the two additional bays as outlined above, the need for steam, air, and vacuum services for this equipment is obviated and a credit due the contractor.

Credit      \$ 805.00

Electrical Contract

As a result of the omission of certain laboratory equipment for the two additional bays as outlined above, the need for electrical connections is obviated and a credit due the contractor of \$25.00.

The College Office has requested that shielding louvers for light fixtures in Rooms 065, 165, 365 and 465 be provided and that 24 additional convenience outlets be installed. This is an additional charge of \$354.00.

These changes result in a net additional expense. Add      \$ 329.00

This project is payable from Item 2 College of Arts, Addition to Chemistry Building, H. B. 939.

VI. EXTRAS, CREDITS AND EXTENSIONS OF TIME TO CONTRACTS

C. College of Arts, Classroom Office Building

General Contract

The following changes have been requested by the College Office:

Provide galvanized iron coat rods in lieu of stainless steel rods as specified and add five additional galvanized rods in Rooms 124, 401, 418, 432 and 502 for a credit of \$79.00.

Eliminate shelves in Rooms 19 and 21 and add similar shelves in Rooms 401 and 502 at no change in price.

Provide one additional bulletin board 4'0" x 3'6" on south wall at the west end of Room 24 at an extra cost of \$55.00.

These changes result in a net credit to the General Contract. Credit \$ 24.00

This project is payable from Item 1 College of Arts, Classroom Office Building, H. B. 939.

D. College of Education, Fine Arts Building

General Contract

The College Office has requested that changes be made in the metal partitions in 12 rooms and application of  $\frac{1}{2}$ " plywood to walls of three rooms for mounting displays and instructional material at an extra cost of \$1,294.00.

The architects for the project omitted the installation of stainless steel cabinet tops with splash backs for the Photofinishing Room 309 in the specifications. This addition results in an extra charge of \$469.00.

These changes result in an additional net cost. Add \$1,763.00

June 5, 1959 meeting, Board of Trustees

VI. EXTRAS, CREDITS AND EXTENSIONS OF TIME TO CONTRACTS  
(cont.)

D. College of Education, Fine Arts Building (cont.)

Heating and Ventilating Contract

The University Service Department has requested that expansion joints be installed in the hot water heating lines serving the connectors along the south wall of each floor. This extra order is for the additional work. Add \$ 125.00

Electrical Contract

Two single doors to Rooms 113 and 119 have been enlarged to double doors which necessitates the relocation of electrical outlets immediately adjacent to the doors. This extra is for the additional cost of relocating the outlets. Add \$ 55.00

The College Office has requested a change in the lighting fixtures and the addition of two duplex receptacles in Room 308 because of a change in the use of the room. This results in an additional cost. Add \$ 250.00

Plumbing Contract

The College Office has requested that five sinks be installed in lieu of five lavatories, one each in Rooms 104, 105 and 115 and two in Room 114, and that an additional sink be installed in Room 211, including necessary roughing in and wall repair. These sinks are considered essential for the type of work done in all of these rooms. This additional work results in an extra to the Plumbing Contract. Add \$ 530.00

These six changes in contracts for this project will be charged to the funds allocated for equipment for this building.

This project is payable from Item 10 College of Education, Fine Arts Building, H. B. 939.

VI. EXTRAS, CREDITS AND EXTENSIONS OF TIME TO CONTRACTS  
(cont.)

E. Extensions of Time to Complete Projects

(cont.)

F. Six-Inch Steam Line and Pressure Reducing Station  
in Connection with Medical Center

For this project, the alignment of existing utility lines was known and found to be correct, but the elevation of these utility lines was not as shown on the plans. Therefore, in order to maintain the proper grade of the new line for condensate drainage, it is necessary to lower the elevation of the six inch line to clear existing service lines. This extra includes the additional excavation necessary and additional shoring.

Add \$ 1,823.73

This project is payable from Item 15 Deferred Maintenance on present facilities, H. B. 939.

Upon motion of Mr. Patton, seconded by Mr. Rairdon, the above recommendations, collectively and severally, were unanimously approved by roll call vote.

The foregoing bids including the alternate are the lowest and best bids in their respective divisions and are below the estimate of cost with the exception of the Base Bid for the General Contract. Inasmuch as the total of the bids is only approximately 1% above the total estimated cost, the Director of Public Works and the University Architect believe that no better bids would be received if the contracts were readvertised and, therefore, recommend that the Controlling Board be requested to grant approval for the award of these contracts as listed above.

The foregoing bids are the lowest and best bids in their respective divisions but are all over the estimate of cost with the exception of the Heating and Ventilating bid. Because of the unusual aspects of this building, the Director of Public Works and the University Architect believe that no better bids would be received if the contracts were readvertised and, therefore, recommend that the Controlling Board be requested to grant approval for the award of these contracts as listed above.

VII. AWARD OF CONTRACTS

D. School of Optometry, Addition to Optometry Building (cont.)

The foregoing bids including the alternates are the lowest and best bids and the totals for each division are below the estimate of cost notwithstanding the fact that the low bids for Alternates 3, 8, and 10 are over the estimate. It is, therefore, recommended that the necessary steps be taken to award the contracts as tabulated above, and that the Board authorize the Vice President, Business and Finance, to proceed with the project through regular channels.

Upon motion of Mr. Ketner, seconded by Senator Bricker, the above recommendations for award of contracts were unanimously approved by roll call vote.

E. Bids will be received for the following projects during June, 1959:

Numerical Computation Laboratory	June 9, 1959
Institute of Vision and Building Materials	
Testing Laboratory	June 11, 1959
Site Improvement and Landscape Project	June 15, 1959
Chemical Engineering Building	
College of Engineering, Classroom	
Office Facilities	
Animal Science Building	
Addition to Chemistry	
Denney Hall	
Mershon Auditorium	
Siebert Hall	

It is therefore recommended that the Vice President, Business and Finance, be authorized by the Board of Trustees to analyze the bids for these three projects when they are received and to proceed through regular channels to award the contracts to the lowest and best bidders if they are within the established total allocation of funds. Action taken pursuant to the above authorization shall be reported to the Board of Trustees at the July meeting.

Upon motion of Mr. Ketner, seconded by Senator Bricker, the above recommendation was unanimously approved by roll call vote.

#### X. Resolution in Memoriam

##### Florence Greenhoe Robbins

The Board of Trustees expresses its sorrow at the death of Dr. Florence Greenhoe Robbins, Associate Professor of Sociology and Anthropology, on April 18, 1959.

Born in Waldron, Michigan, in 1909, Dr. Robbins earned her bachelor's degree at Hillsdale College, her Master's degree at the University of Michigan, and her doctorate at The Ohio State University. Before beginning her graduate work, she taught for several years in high schools of Michigan and Ohio.

Dr. Robbins began her teaching career at The Ohio State University in 1936. Author of three books and more than a score of articles in educational and sociological journals, her writings also included short stories and essays in literary magazines. Two of her textbooks Educational Sociology and The Sociology of Play, Recreation and Leisure Time, published in 1953 and 1955 respectively, have been widely adopted.

Dr. Robbins' range of interests and activities made her in much demand as a speaker at meetings of parents and educators concerned with the advancement of child welfare and education. Her willingness to give unstintingly of her services and her capacity for friendship enriched the lives of many, both in the classroom and in the community. A firm believer in the desirability of close school-community relationships, Dr. Robbins' activities made her a leader in many civic movements.

In addition to her classes in the Department of Sociology and Anthropology, Dr. Robbins was a member of the teaching faculty of the College of Education and an active participant in its affairs. Her memberships in professional societies included the American Sociological Society, the Ohio Valley Sociological Society, and the National Council on Family Relations. Recognition of her achievements is provided in Who's Who Among American Women, Who's Who in Education, and The Directory of American Scholars. Other distinctions included the Hillsdale College Achievement Award of 1953.

On behalf of the entire University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It is directed that this resolution be inscribed upon the minutes of the Board of Trustees.
