PUBLIC SESSION

The Academic Affairs and Student Life Committee of The Ohio State University Board of Trustees convened on Wednesday, May 19, 2021, in person in Pfahl Hall on the Columbus campus and virtually over Zoom. Committee Chair Brent Porteus called the meeting to order at 3:30 p.m.

Before moving into the agenda, Mr. Porteus paid special tribute to Provost Bruce McPheron, who will be returning to the faculty of the College of Food, Agricultural, and Environmental Sciences in late summer 2021. Mr. Porteus shared a hand-carried resolution in Provost McPheron’s honor.

1. Resolution No. 2021-161, Expression of Appreciation: Bruce A. McPheron

WHEREAS Bruce A. McPheron has been chief academic officer of The Ohio State University since December 2015, when he was named Executive Vice President and Provost — first in an interim role and then in an ongoing role that began in June 2016; and

WHEREAS as Provost, Bruce leads an expansive academic enterprise that includes 15 colleges that serve nearly 68,000 students from campuses in Columbus, Lima, Marion, Mansfield, Newark and Wooster as well as thousands of Ohioans through Extension programming; and

WHEREAS Ohio State is a comprehensive national flagship research institution, with more than 7,000 faculty members engaged in teaching, research, creative expression, outreach and engagement, and thousands of staff members who lead and/or support those efforts; and

WHEREAS Bruce has brought principled and impactful leadership across the university, benefitting students, faculty, staff and families throughout Ohio; and

WHEREAS his legacy of accomplishments includes launching groundbreaking initiatives that will pay dividends in the near term and for generations to come; and

WHEREAS the Buckeye Opportunity Program expanded access to an Ohio State education by ensuring that in-state students at all Ohio State campuses will be provided with financial support that covers the cost of tuition and mandatory fees; and

WHEREAS the Teaching Support Program has created one of the largest teaching excellence programs in higher education, providing evidence-based professional development to more than 3,500 faculty members; and

WHEREAS the Digital Flagship initiative has enhanced student success by integrating technology throughout teaching and learning at Ohio State, and ensuring that all entering students have access to effective technology; and

WHEREAS his commitment to convergent research, creative expression and impact in the broader community is reflected in initiatives as varied as the \$65.9 million HEALing Communities Study, the Discovery Themes, the Innovation District, the Comprehensive Energy Management Project, and interdisciplinary facilities where the Ohio State community will invent the future; and

WHEREAS Bruce has been a Buckeye for nearly all his life, including his involvement in 4-H as a boy, his undergraduate years on the Columbus campus and his return to Ohio State in 2012 as Vice President for Agricultural Administration and Dean of the College of Food, Agricultural, and Environmental Sciences; and

WHEREAS Bruce embodies what it means to be a Buckeye:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees and the entire Ohio State community acknowledge their high esteem for and appreciation of Bruce A. McPheron for his outstanding and principled leadership; service to the university, State of Ohio and the broader world; and positive impact on his colleagues, community and Buckeyes everywhere.

Action: Upon the motion of Mr. Porteus, seconded by Mr. Kaplan, the board adopted the foregoing motion by unanimous voice vote with the following members present and voting: Mr. Porteus, Mr. Kaplan, Mrs. Wexner, Ms. Kessler, Mr. Kiggin, Mrs. Harsh, Dr. Wilkinson, Ms. Sobol, Dr. Olesik and Mr. Heminger.

Items for Discussion

2. Provost's Report: Dr. McPheron discussed the "next big phase" of the university's teaching excellence program. In the last two years, more than 3,500 faculty have participated in the Teaching Support Program offered by the Michael V. Drake Institute for Teaching and Learning. The program is now focused on instructional redesign, which encourages instructors to improve an element of their course using evidence-based teaching practices that foster student learning. The program offers support to instructors — whether they are redesigning courses for the new General Education curriculum, refining courses in clinical settings, or incorporating recent innovations into their teaching.

3. Senior Vice President for Student Life's Report and Presentation: Dr. Melissa Shivers, Senior Vice President for Student Life, started by thanking the board's student trustees, Anand Shah and Carly Sobol, for their engagement and leadership throughout the pandemic. She also gave an update on the Office of Student Life's organizational structure. As of April 12, the office's full executive leadership team is on board, and they are working to outline and support the university's larger strategic plan. This will be an iterative process with shorter strategic plans for Student Life that look ahead 18 months to two years, allowing Student life to be nimble while remaining committed to supporting the student experience.

Dr. Shivers also shared results from the Student Life Survey that is administered every year and monitors a variety of topics, such as student involvement and engagement. Surprisingly, 73% of all Ohio State students reported being involved with at least one campus activity in the past year. While this is a decrease from the previous year, that decrease was not nearly as significant as the university had expected given the disruptions caused by the pandemic. Membership in student organizations also remained steady. These results underscore Ohio State's reputation as an institution where students come to learn *and* get involved, even when it is more challenging to do so.

Compared to undergraduate students who were not involved in campus activities, those who were involved were 4.6 times more likely to have relationships with other Ohio State students, 2.9 times more likely to be satisfied with their experience at Ohio State, 2.7 times more likely to feel like a part of the Ohio State community, and 2.7 times more likely to have relationships with Ohio State staff. All of these things lead to higher retention and graduation rates.

4. Reactivating the Ohio State Campus Experience: Dr. McPheron and Dr. Shivers jointly shared an update on the planning that is being done around reactivating campuses fall semester. This work is being handled holistically and it follows evidence-based public health guidance. Vaccinations are being encouraged for everyone. Starting May 31, for students enrolled in summer classes, those who are fully vaccinated only need to be tested for COVID-19 monthly. Those who are not vaccinated must be tested weekly. These plans are subject to change as public health guidelines are updated in the coming weeks. There will also be a decrease in quarantine and isolation spaces as the need decreases. For fall semester, at least 75 percent of classes will be in person, which is firmly in the median of how other Big Ten universities are planning their campus reactivations. Classroom density will be tiered, with less density in larger classes.

The residential experience will also change, with an estimated capacity of 15,200 students, which is around 94 percent of students in residence halls. There will still be a physically distanced, extended move-in process that will happen over six to seven days (rather than two days). Prior to move-in, on-campus testing will be required. Visitors will be permitted in the residence halls this fall, and there will be increased programming and events with expanded common space availability.

(See Attachment X for background information, page XX)

5. Ohio State Enrollment Planning for 2022-2024: Dr. McPheron shared the 2022-24 Strategic Enrollment Plan, which is a living document that is influenced by the university's key initiatives, including a STEM focus with a commitment to producing 22,500 degree completions in STEM fields by 2036; a distance education focus with plans to expand its offerings of online programs in high-demand fields and enroll at least 8,000 new students by 2031; and a faculty growth focus that looks to hire up to 350 net new tenure-track faculty over the coming decade, particularly in critical and emerging research areas. The plan covers all students on all campuses and at all ranks, and it targets growth in the number of academically prepared first-year students as well as diverse first-year students, plus the number of students who are first-generation and Pell-eligible. The plan also sets goals for increasing first-year retention rates to 95 percent, and four-year and six-year graduation rates to 71 percent and 90 percent, respectively.

(See Attachment X for background information, page XX)

6. Office of Institutional Equity Update: Interim Associate VP Keesha Mitchell gave an update on the progress being made by the Office of Institutional Equity to address staffing vacancies and needs, revise internal policies to better align with the vision of the office, implement new Title IX regulations, and further developing education and training opportunities for students, faculty and staff.
