(1) Amount represents balance on loan made to Department of Aviation
MEMORANDUM

SUBJECT: Proxy Solicitations
DATE: February 28, 1991
FROM: James L. Nichols, Treasurer
TO: Board of Trustees, The Ohio State University

During the month of February 1991, the University voted nine proxies.

Management proposals were as follows:

1) Election of the Board of Directors;
2) Ratification of the independent auditors;
3) Approval of the 1990 Stock Option Plan;
4) Approval of Directors' Stock Option Plan;
5) Adoption of 1991 Stock Incentive Plan;
6) Approval of Leveraged Equity Purchase Plan;
7) Approval of Non-Employee Director Stock Option Plan;
8) Permit increase of the number of shares of Class A and Class B common stock;
9) Ratification of an extension to the company's Employee Stock Purchase Plan and approval of an amendment to modify eligibility requirements for directors and executive officers.

The shareholder proposal was as follows:

1) Establish annual election of Directors.

The University voted for all Management proposals and against the shareholder proposal. Additionally, Management opposed the shareholder proposal.
The nine corporations were:

1) ADC Telecommunications, Incorporated
2) Helmerich & Payne, Incorporated
3) Kasler Corporation
4) Novell, Incorporated
5) People's Energy Corporation
6) Shoney's Incorporated
7) Tyson Foods, Incorporated
8) The Valspar Corporation
9) The Walt Disney Company

NACUBO Endowment Study
Endowment Gift Flow Rates

Note: Endowment gift flow rate is gifts, bequests, and other similar additions to endowment as a percentage of the average of fiscal year beginning and ending endowment market values.
University of Illinois
Spend 6% of a three-year moving average of endowment market values (1% assessed as an administrative fee, 5% distributed for spending).

Indiana University
Spend 5% of an eight-quarter moving average of market values.

University of Iowa Foundation
Spend 5.5% of a three-year moving average of unit values.

University of Michigan
Spend 5.5% of the one-quarter lagged, twelve-quarter moving average of market values per share (rule applies to investment pool only).

Michigan State University
Increase spending by 5% each year. Under specific market conditions the spending rate could be frozen at the preceding year's level or could be increased by as much as 8%.

University of Minnesota
Spend 5.5% of the three-year average market value per share.

Northwestern University
Spend all current income.

The Ohio State University
Spend 5.5% of the three-year average market value per share.

Pennsylvania State University
Spend 5.1% of the average market value.

Purdue University
Distribute all net income semi-annually.

University of Wisconsin System
Spend all current income.

APPENDIX LXIV

CLASSROOM IMPROVEMENTS - PHASE VII; CAMPBELL HALL ADDITION; AND UNIVERSITY AIRPORT RENOVATION - 1991

Adopted by the Board of Trustees, March 1, 1991
(See page 947)
Employment of Architects/Engineers and Request for Construction Bids

Background

Classroom Improvements - Phase VII

This project will renovate lecture hall room 131 and service room in Hitchcock Hall, including new seating, lighting, carpeting, and upgrade audio/visual controls and equipment, and renovate lecture hall room 100 in Ives Hall, including seating replacement, new flooring, and HVAC system.

Campbell Hall Addition

This project will provide an addition of approximately 8,000 square feet attached to the northwest wing to house the historic costume and textiles collections, laboratories, and classrooms, and will provide an approximate 9,500 square foot addition enclosed in the courtyard to create a two-story atrium for a student center/meeting area and faculty and staff offices.

University Airport Renovation - 1991

This project will provide an overlay for runway 9R-27L, groove runway 9R-27L, overlay the east ramp, overlay taxiway E, install surface sensors on runway 9R-27L, and extend the hold pads on runway 9R-27L.
APPENDIX LXV

MORRILL AND LINCOLN TOWERS RESIDENCE HALLS UPGRADE TREATMENT - PHASES II, III AND IV; DODD HALL INTERFACE, PHASE II; DODD HALL HVAC SYSTEM MODIFICATIONS; COFFEY ROAD AND VETERINARY CLINIC DRIVE REPAIRS; AND SCOTT HALL - PHASE II B

Adopted by the Board of Trustees, March 1, 1991
(See page 949)
Request for Construction Bids

Background

Morrill and Lincoln Towers Residence Halls Upgrade Treatment, Phases II, III, and IV

This project will repair and upgrade dormitory and auxiliary spaces in Morrill and Lincoln Towers to improve the quality of life and reduce maintenance costs. A pilot program involving floors 21 and 22 in Morrill Tower has been completed, and the subsequent three phases will complete the remaining floors. Phase II involves Morrill Tower floors 23 and 15 through 20. Phase III involves Morrill Tower floors 5 through 14. Phase IV involves Lincoln Tower floor 16 through 23.

Dodd Hall Interface, Phase II

This project will continue the work on the third and fourth floors of Dodd Hall to provide patients with private and semi-private rooms, all with private toilets and showers to replace the existing 4-bed wards. All areas of the third and fourth floors, totalling approximately 27,280 square feet, will be remodeled to complement the current activities.

Dodd Hall HVAC System Modifications, Phase II

This project will continue the upgrade of the HVAC system on the third and fourth floors of Dodd Hall to provide patients with private and semi-private rooms, all with private toilets and showers to replace the existing 4-bed wards. Modification and upgrade of the HVAC serving all areas on the third and fourth floors will be accomplished.

Coffey Road and Veterinary Clinic Drive Repairs

This project will remove the existing Veterinary Clinic Drive surface, install a new concrete base and asphalt wearing surface to accommodate bus traffic. In addition, new curbs and catch basins will be added to improve drainage problems. All loading docks along Veterinary Clinic Drive will receive crack sealing and sealer. Coffey Road will receive a new concrete pad at the existing bus stop location.

Scott Hall - Phase II B

This project is the final phase to renovate Scott Hall for the relocation of the Byrd Polar Research Center to permanent space and to relocate portions of Geology and Mineralogy temporarily from Mendenhall Laboratory in order to move forward with the Mendenhall Laboratory Renovation project. This phase will include the addition of freezers for ice core storage, a clean room, laboratory space, shops, and offices.
APPENDIX LXVI

EASTERN OHIO RESOURCE DEVELOPMENT CENTER
40 ACRES IN NOBLE COUNTY, OHIO

Adopted by the Board of Trustees, March 1, 1991
(See page 951)
Purchase of Real Property
Eastern Ohio Resource Development Center
40 Acres in Noble County, Ohio

Background

Location and Description

The property consists of approximately 40 acres of unimproved land located just off State Route 215 in Noble Township of Noble County. The property is adjacent on three sides to the Eastern Ohio Resource Development Center (EORDC) operated by the University’s Ohio Agricultural Research and Development Center. The property, which is of rolling to hilly terrain that is mostly wooded, is approximately four miles from Caldwell, Ohio.

Appraisal and Purchase Price

An appraisal done by Dave Anderson Realty of Caldwell, Ohio, in November 1990 valued the property at $12,000.00. The owner, Ms. Arlene Lee of North Laurence, Ohio, has offered to sell the property to the University at that price. Funds for the purchase will be provided from OARDC.

Use of the Property

The property would be operated by and included in EORDC to provide needed land to support its sheep and cattle research programs. EORDC’s ongoing projects include modern technologies to improve beef cattle production, beef cattle breeding programs, easy care sheep, and sheep disease research. EORDC presently comprises approximately 728 acres, and acquisition of this additional land would permit additional research to be conducted. In addition, EORDC will be building new fences for the facility next year. Because of the location of this property, its acquisition will allow EORDC to "square off" its land holdings in this area and save about $4,000.00 in new fencing. Reduced long-term fence maintenance would more than offset the remainder of the purchase price.
Purchase of Real Property
40 Acres in Noble County, Ohio
for Eastern Ohio Resource Development Center – Unit 1

Office of Business and Administration
March 1, 1991
The Board of Trustees met at its regular monthly meeting on Friday, April 5, 1991, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio, pursuant to adjournment.

* * *

Minutes of the last meeting were approved.

* * *

* * *
April 5, 1991 meeting, Board of Trustees

The Chairperson, Mrs. Bowser, called the meeting of the Board of Trustees to order on April 5, 1991, at 11:35 a.m. She requested the Secretary to call the roll.

---0---

Mrs. Bowser announced the appointment of the following persons to the Nominating Committee for the selection of Board Officers for 1991-92:

John J. Barone, Chairman
Deborah E. Casto
John W. Kessler

---0---

PRESIDENT'S REPORT

President Gee:

As you can tell if you drive through campus as you leave here this afternoon, spring has sprung at Ohio State. The typical signs of spring are very visible, and the Oval has come alive: shorts, frisbees, dogs wearing bandannas, preachers, rain, and an epidemic of spring fever among our faculty, staff, students -- and I suspect, even our Board members.

This being my first spring here, I am discovering each day how beautifully this campus is landscaped. In such a wonderful environment, we have a great deal to celebrate. I am delighted that Adrienne Bosworth, former managing editor of Columbus Monthly and correspondent for the Wall Street Journal, has joined us as director of marketing and communications for the Wexner Center for the Arts. I might add that the students are making good use of the plaza around the Wexner Center for studying in the sun-- at least, I assume they are studying.

As you see on today's agenda, we have attracted an outstanding leader in research, a scholar and teacher, to the important post of Vice President for Research, Dr. Edward Hayes. The chair of the search committee, Eminent Scholar Terry Miller remarked on the fact that Professor Hayes not only is a first-rate administrator at Rice University, but also teaches introductory chemistry. This is exactly the type of interplay between teaching and research that we want to nurture, and Dr. Hayes will lead by example in that regard. Dr. Hayes will be joining us in a bit, his plane was late, but hopefully we will have a chance to reintroduce him when he arrives, Madam Chair.

We have several other searches underway. This month, Executive Director of University Hospitals, Reed Fraley, agreed to chair the search for a Vice President for Human Resources and Relations. This new title reflects our response to the changing nature of the work force and the demands of managing and serving our human resources well at this University.
April 5, 1991 meeting, Board of Trustees

PRESIDENT'S REPORT (contd)

President Gee: (contd)

It was clear in some of my "town meetings" around the campus, on which I will report in a moment, that members of our University family have a number of concerns on child care, professional development, health care, and the like. I expect a strong pool of candidates who will welcome the challenge of continuing Ohio State's leadership in the human resource area. And I know we all appreciate the good work that these and the other search committee members are doing on our behalf.

We have had a spring break -- although you could scarcely notice it except for the abundance of parking spaces at 8:00 in the morning. Our students were busy over the break -- some in Florida [where I am to note that the exploits are best left unreported]. I might mention senior honors student, Doug Ricketts, of Dublin, Ohio, who spent the break in the Bahamas. He swears that he was working with a geology team as part of his senior honors thesis. I predict that this clever young man will go far -- designing a project that requires his presence in the Bahamas on spring break! We certainly, again, attest to the brilliance of our students!

Some of these very bright young people spent their break participating in championship competitions in a variety of sports. To brag a little about our students: the rifle team finished third in the country at the NCAAs -- I might note that West Virginia was first; the wrestling team finished fourth in the country; the synchronized swimming team took first in the nation; our men's gymnastics team is ranked seventh in the country and hosts the NCAA regionals here tomorrow night; and the baseball team is ranked eleventh this week.

Kriszti Hovanyi, a sophomore from Stockholm, majoring in physical therapy, was named a second team All-American fencer; Susan Gottlieb was named an All American swimmer for the fourth time! She is from Shelbyville, Indiana, and is in the College of Business, one of America's great swimmers as you know; and David Pichler, a junior from Butler, Pennsylvania, is the national champion 10-meter diver, one of the world's best and is majoring in economics.

Of course, our basketball coach will shortly be asking for more office space to put all of his many, and I might add, well-deserved trophies and awards. We know he is the best coach in the country. It is good to know that others are recognizing it as well. And we may have yet another title, for even as I speak this morning, the Ohio State cheerleaders are in San Antonio competing with seven other teams for the honor of being the top cheerleading squad in the nation.

Speaking of top rankings, at University Hospitals surgeons performed their 100th pancreas transplant in March, a milestone among the nation's transplant centers. We lead the nation in the number of simultaneous pancreas-kidney transplants.

I met many of the people behind these wonderful statistics as I held 21 town meetings around the University as a follow-up to my March 2 speech before the University Senate. More than 2,000 people came out to listen to my vision and hopes for the institution. More importantly, they asked questions and brought to my attention a number of issues that are on their minds. Let me try to quickly capture for you some of the impressions and themes garnered from these "town meetings."
PRESIDENT'S REPORT (contd)

President Gee: (contd)

I would say that I struck a chord in not only talking about the importance of interdisciplinary activity, but also calling for new approaches to organize and support that effort, and reward it as well. I might note that we had a presentation on that this morning, as the Provost brought in one of our distinguished faculty members to talk about interdisciplinary work in mapping. An important aspect indeed. Certainly, I, as the new guy on the block, am not the only one confused by the reporting lines of our various centers. And I heard from faculty who feel the pull and tug of loyalty and service to multiple departments, centers, and programs.

I learned that across this institution, people respect and love our libraries, and are calling for renewed attention to acquisition and maintenance of collections. I also learned that no matter how many meetings I hold, someone always will ask about parking. Many people had their own "horror story" about the ravages of bureaucracy gone unchecked including many of the staff members who are saddled with administering sometimes inefficient systems. I also encountered a bit of cynicism about our ability to reduce bureaucracy. But also, a great deal of support for trying.

I heard about leaky roofs and shortages of computer work stations. About the waiting period for child care, and about the value of international experience. People across this university lament their lack of knowledge about the good things happening beyond their departments -- or "silos" as I have come to call them. They recognize that we have to do a better job of telling our story within the campus and across the State. I spoke a great deal about having to make difficult choices, not only in the short run as we face serious budget problems, but also over the longer run as we manage our resources. I emphasized that we cannot make these choices haphazardly or incrementally the way we have grown, rather we must hold to a set of core values and respect a planning process that will inform and advise our decision-making.

Let me say that when you talk to a town meeting about making choices, there is a palpable unease in the room. It reminded me of the way I felt in law school when, on the first day, the professor said: "look to your left, look to your right, at the end of the year, one of you will be gone." People get that same stare when you suggest making choices! But, I sensed, they also understand the folly of continuing to be all things, and the price that will exact on the quality of this University.

There were a number of provocative and interesting comments: "What is our view of the University as a social change agent?" "How do you make a better teacher?" "How do you measure quality?" A most interesting question, I might add. One question that came up at every session is: "What happens next?" I assured everyone, as I assure you today, that we are not just going to talk about planning for change. We are going to put our shared views into action. We are going to continue to invite -- no, expect participation in the planning process. Associate Provost Gauthier is pulling together a group and a strategy to get a planning model moving. However, as you are well aware, we are facing a very tough budget right now. Difficult times and difficult decisions are in front of us. We are making our case to improve our position in the budget process. But, even in the best case, given where we are starting, we will inevitably face a very tight budget.
PRESIDENT’S REPORT (contd)

President Gee: (contd)

While our planning model will not, of course, be in place soon enough to be fully functional in these short-term budget deliberations, the extensive planning done in the colleges and administrative units in the past will help us meet these immediate challenges. I am confident that we can bring together the fundamental values of the institution and protect the academic core. Now let me assure you, in the short run, we will not make stupid decisions. We will make choices. They will not always be pleasant and certainly not always easy, but together, this university as a community committed to the highest standards for The Ohio State University, must keep its focus on its longer run goals and certainly its aims. We must not be deterred in our ambition or our drive.

It is my nature as all of you know to be optimistic, and the meetings with these many audiences of faculty, staff, and students have invigorated my efforts and bolstered my resolve on behalf of this great University. The meetings continue this quarter, so that we can reach every constituency. All in all, the marathon of meetings is time well spent for me and, I hope, for my colleagues as well.

With that fairly lengthy report, Madam Chair, I submit this for your consideration.

Thank you.

--0--

ENROLLMENT REPORT

Dr. Hutchinson:

As many of you know, Ohio State started talking about selective admissions in 1985 and embarked on that. Last year, we realized that there was still a number of gaps in our program and that it needed to be strengthened, so we appointed a committee chaired by Dr. Robert Arkin. The committee has been working since last summer, and has made progress in the last few months in a number of ways and many things have been implemented already. We asked Dr. Jim Mager, to come and tell you about what that committee has done and what is emerging as an enrollment strategy.

Dr. James Mager:

Madam Chair, Members of the Board, President Gee, thank you for this opportunity to talk about enrollment management, about undergraduate enrollment trends, and, especially, the recruitment efforts that we have made. Let me assure you that there are many facets of enrollment management and recruitment that we could discuss. I would like to talk about what I believe are some of the major developments happening at Ohio State, that are going to affect enrollment for Autumn Quarter 1991.

As we talk to perspective students and to many high schools around the State of Ohio, we find the major development that people are interested in is the profile of our freshman class for 1991. We recognize that we are 5 months away from autumn quarter, but having admitted the majority of students and the fact that these
students are now paying deposits for 1991, we have some measure of making projections on what that class will look like.

One major thing that I would like to report on is that this will probably be the smallest freshman class that The Ohio State University has had in over two decades, possibly three decades. Our archives have some holes in it for the 1960's, so I am not sure what year we would have had a smaller class. We are projecting, right now, a class of 5,400. That is a large class by everybody's standards, but it is not a large class by Ohio State's standards, since we had 7,000-8,000 students in our freshman class in the 1970's, 6,000-7,000 in the 1980's, and now we are projecting 5,400.

The other major emphasis is that this class is also going to be one of the best and probably the best academically prepared class for Ohio State University. From every indication that we have, we expect the average student to be in the top 20 percent of their high school class. Ohio State prescribes a 15-unit college preparatory curriculum. The average student is going to have at least 18 units, with 3 additional units most likely in mathematics, natural science, foreign language, or the social studies as they arrive on campus.

Approximately 10 percent of our class is going to be in the top 3 percent of their high school class. We have a designation called University Scholars for those students who are in the top 3 percent of their class and who scored in the top 3-5 percent on the ACT/SAT. Last year we had 195 of these students. This year we are projecting close to 300, a 50 percent increase.

Finally, I would like to also report, as President Gee reported to the Senate on March 2, that we are very excited about the attention of National Merit Scholars. Last year, we attracted 23 National Merit Scholars due to the efforts of the committee that Provost Hutchinson charged last year. Those projections are going to be at least 4 times that and possibly more. So these are the major emphases for the incoming class.

I would like to now talk about how we arrived at the smallest class. I know that accessibility to Ohio State is a concern to many people. Why is it that we had 6,000-7,000 students in the past, and we are now only going to have 5,400 students? I want to address that. I also would like to address the options available to Ohio residents who cannot be a part of that 5,400 students that we expect this fall. In talking to the public, we recognize these as the major concerns and I would like to address them.

The first trend is a steady State trend. From 1980 through 1990, the number of undergraduate, professional, and graduate students has stayed, amazingly, constant. One of the major driving forces for that has been a State mandated enrollment limitation on the number of students on the Columbus campus. But the mix of students from 1980 through 1990 has been in the 40,000 - 41,000 range. The number of professional and graduate students on campus has been constant. I will point out that for 1991, this autumn, we expect to have a similar profile to what we had in 1990.
April 5, 1991 meeting, Board of Trustees

ENROLLMENT REPORT (contd)

Dr. Mager: (contd)

The Office of Campus Planning, who tracts retention in admission and the different flows of the students from the regional campuses, projects approximately 40,600 undergraduates on the Columbus Campus, and that is very similar to the entire 1980's. The projection for professional students is approximately 2,610, and they worked with professional schools on that projection. The number of graduate students, according to the Office of Campus Planning, is 10,558. Of course these are projections. We never hit the target right on the button, but we do expect that with all of our efforts to have approximately that mix for the class of 1991.

In this steady State trend, there has been some major movements in the undergraduate mix. We worked with the Ohio Department of Education to obtain projections of the high school graduates in the State of Ohio. For the present these are actual, and as we go into the future these are projections. We saw that in the 1980's, even though the numbers of high school graduates in the State of Ohio was declining, and certainly as we looked at the same demographics for all of the surrounding states and, in fact, every state in the Union, there was a very similar curve. The amazing thing is that in the applicant pool for the Columbus Campus, we experienced a major increase in applications for admission at the same time the demographics were falling. So much so, that in 1986 we realized that we no longer could accept applications on a first come, first admit basis.

I have been Director of Admissions since 1980, and since that time we never were an open admissions University. We were a first come, first serve University. We always had early closings. We have never been able, at least in the 1980's, to take every application of an Ohio resident. What was happening in the 1980's, was that we were becoming more and more of a closed institution. In fact, in November 1985, we closed for the class of 1986. At that point, we were the most closed institution in the country -- when you close 12 months ahead of time for applications for admission. So when people say that we had open admissions until 1986 and then we went to selective admissions in 1987, I want to make the point that I don't think we have been open for a decade. I will point out to you that this increase continued after our selective admission process, and it was this decline in 1990 that was a concern for the University.

A second major change was as our applicant pool increased, the quality of the students increased each quarter also. The major result of the increase was that the retention rate was increasing. We went from 76-77 percent in the late 1970's; we had a constant increase through 1986; and in 1987 when we admitted the students who were best academically prepared for the University, we saw a major increase. And based on the quality of the applicant pool for 1990, as well as 1991, this retention rate will continue to improve. The frustrating thing about talking about graduation rates is that you are at least 6 or 7 years behind. They can only be judged based on people that you admitted 6 or 7 years ago. But let me point out that there is a correlation between students who return their sophomore year and the graduation rate.

For example, there has been a national trend that on the average students take closer to 5 years to graduate. That is certainly true at Ohio State, as well as at many institutions around the country. But one of the marks that I look at is the 6th year -- how many students have graduated up to 6 years, because most of the students who have graduated have done this by the 6th year. In 1979, we had 48.5 percent
April 5, 1991 meeting, Board of Trustees

ENROLLMENT REPORT (contd)

Dr. Mager: (contd)

of our freshman class graduate; by the time we reached 1984 that increased 53.7 percent. This was at a time when the first year retention rate went up by only 3 percent and our graduates went up by 5 percentage points. So we are very optimistic as we go into the late 1980's and the early 1990's that we will have major increases in our graduation rates. We are very excited about that, but we won't see the true results until 1995-1996 for the students we have admitted in the last year or two.

As a general trend, again, in enrollment management there are dozens and dozens of factors that have an impact on what the enrollment is going to look like next year. As one major trend occurred -- retention rate increases -- a general trend also occurred and that is our number of freshman students has decreased in order to stay within the limitations of the 40,000 enrollment. So we see major increases here since 1977-1979. We also see the number of spaces for new freshman decreasing, to the point that we believe to stay within our enrollment limitations, we will have to enroll approximately 5,400 students. Why is the class so small? It has to do with the current students staying and getting degrees -- there is less room. The only other alternative, of course, is to grow. I know as I look around the room at all the enrollment planners, that to grow is not in our plans as an institution for numerable reasons.

Mrs. Bowser:

How small will the freshman class get to be?

Dr. Mager:

I don't know. We are struggling to handle this right now and there are some guesses that it could be in the 4,000 range. I am not sure, I am only guessing. We haven't done a detailed analysis, because we are in a spiral. The higher the ability students we admit, the more they stay, and the more they stay, the less room we have for the freshman. That is a very good question, but I'm not prepared today to answer it, except to make personal guesses. And as we look at the next 3 or 4 years as it continues, we might be talking of a class of 5,000, we might even be into the 4,000s.

Amb. Wolf:

When you stabilize at 5,000 or 5,500, whatever it might be, won't you be able to then start increasing the freshman class again, after the previous classes leave? After all, if you have the undergraduates at 40,000 and you are taking 5,000 a year for 4 or 5 years--

Dr. Mager:

Let me talk about undergraduates. The 40,000 students are only a small percentage; less than half are students coming in as traditional freshman who begin at the Columbus Campus, Autumn Quarter. The other channels that we have are a large number of students who come in summer quarter and winter quarter as freshman; we have 1,600 transfer students who are from other institutions; and we have a large flow of students who started at our regional campuses and then
ENROLLMENT REPORT (contd)

Dr. Mager: (contd)

transferred to our Columbus Campus. There are so many channels coming to Ohio State University beyond new first quarter freshman.

Mr. Teaford:

So, in some ways, that is a misleading number. Because in 1991 there will be a lot more first quarter freshman on this campus than that. They just won't all be here in the fall.

Dr. Mager:

We are talking about 5,500. Our best projection right now for the summer is another 200-300; our best projection for the Winter Quarter is another 500-600; for Spring Quarter it is another 200. So, yes, that may be misleading. It has been in the neighborhood of 900-1,000 students entering the other freshman channels, and we have the transfer channels and we have the regional campus channels.

Amb. Wolf:

But you have the opportunity to manipulate the figures by limiting the number of transfer students if you want to take in more freshman students.

Dr. Mager:

This is exactly where the enrollment management academic planning comes into place. What is The Ohio State University's role? Is Ohio State's role to bring in large groups of freshman and have very restrictive admission to come in as a transfer student? I would say the consensus is no. The upper division programs, the faculty missions of the institution, and the degrees that we offer, are our strengths. That is what Ohio State is all about. So, yes, the one way to get by this, in spite of the retention, is to keep that freshman class size, and what will suffer is the transfer students. And, again, 1,600 is what we bring in and what would shrink down close to zero. Then there are students who are beginning in two-year institutions around this country, beginning in our regional campuses, beginning at other institutions who want to transfer to Ohio State because of the faculty, because of the degrees we have to offer, and we can't do that because of a larger freshman class. Either you come in as an 18-year old or you've lost your chance, and that is not the approach we are taking right now. We are starting with a smaller freshman class and those who succeed at other institutions can then transfer in their sophomore and Junior year.

Mr. Teaford:

Is that 1,600 significantly up from last year?
April 5, 1991 meeting, Board of Trustees

ENROLLMENT REPORT (contd)

Dr. Mager:

The range has been between 1,300-1,700. Last year we had 1,714 in degree seeking transfer students. This year our target is 1,600 to stay within our enrollment limitation. So it has been a number that has been fairly constant and it is a number that based on the pressures we have from different constituencies that we may want to increase. There is some frustration for people who start at two-year schools and so we are not in the mind set to decline the number of transfer students. If anything, there would be pressure to increase the number of transfer students.

Mr. Teaford:

What does it take to transfer? What qualifications do you have to meet to transfer?

Dr. Mager:

Up until this year, the transfer criteria was to be in good standing at another institution. Meaning that the student has to show that they can do 2.00 work, typically, at another institution to be transferred. We are having the same problem with transfer students as we are having with freshman -- we are getting more and more of a demand for transfer students. So much so that we cannot guarantee admission for every student with a 2.00 at other institutions. As a result, we are in the process of putting into place a more selective admission process for transfer students. I don't want to scare anybody and we are not all of a sudden accepting only a 3.9 from students at other institutions, but we need to start raising that standard above 2.0 because of the demand of the transfer student.

What is happening to the people not admitted? First of all let me say that there is a lot of self-selectivity. We work very closely with the counselors in the State to talk about what is the likelihood of the student being admitted. We are not encouraging students at the bottom half of their class to apply, unless there are some very special circumstances about that student. So we have large unknown numbers of students who are not applying because they know that they are not going to be admitted. President Gee and I were at Upper Arlington High School yesterday and the counselors were quizzing me, "What does it take, what does it take?" Because they don't want to advise a student whose chances are next to zero. We get this constantly. That is what a good guidance counselor should be doing. They should not be wasting the student's time and money to apply some place when their chances are very small. I have nothing but respect for the people who ask those questions.

What is happening when we get past the self-selectivity? Let me point out that 11,863 or 82 percent of our applicant pool was admitted to their first choice. Our yield rate from admission to enrollment is about 40-45 percent at Ohio State and that is very common as I look at other schools around the State and the Big Ten. Because on the average, students will apply to three institutions and when you admit them to the institution, the chances are 40-45 percent of the students will come. But, I want to emphasize there are some students who can succeed in college and succeed at Ohio State that we were not able to accommodate. We recognize that more than anyone because we deal with these students and guidance counselors everyday. So what we try to do is to give them alternatives.
For example, the second group of people who did not quite meet the admission criteria were offered Summer Quarter, Winter Quarter, and Spring Quarter for the Columbus Campus, as well as Regional Campuses and the opportunity to transfer. All Ohio residents who got a letter in the last two weeks were given these as alternatives. "We could not accommodate you for the Autumn Quarter, but we are giving you these alternatives to consider."

Group three would be the average, mid-range students that because of our small Summer Quarter enrollment, are not offered Summer Quarter, but are offered Winter Quarter, Spring Quarter, Regional Campuses, and transfer options. This would be another 1,100 students, or 8.2 percent.

And, finally, for some of the poorer students, and these are, typically, again, general profiles of students in the lower third of their class, are offered just Spring Quarter or transfer.

If you remember, about a year or two ago this Board passed selected admissions for Winter, Autumn and Summer Quarters, we still are open to Spring Quarter. Now having said that, we would never give that as academic advice -- for a poor student who graduated in the month of May to wait nine months in order to take advantage of coming to the Columbus Campus. That is the worst academic advice that could be given to a student. So, even though we recognize this as a legal right for an Ohio resident for Spring Quarter, we, as academic advisors, strongly encourage the student to start somewhere else and to come in as a transfer student if they can succeed at another institution.

We have some non-residents who were just offered transfer only. They are not all Ohio residents and the only way that they can come to Ohio State would be to transfer. The reason that I bring this up is to answer the question, "What happens to people who do apply?" The pressure is on transfer students as we became more selective for freshman, and transfer is a very popular option. That demand has been pushing at us also. So that is another major trend in enrollment that we have seen.

Mrs. Bowser:

Jim, this hits something that is very near and dear to my heart. As you know, I am serving my last year on the Board, and I feel very strongly that options, as long as they can possibly be offered, be offered. Because not all schools have counseling systems that counsel this kind of thing, and there are youngsters out there, young people that later on in their high school career get turned on. There ought to always be a way, in a state institution, that they can prove themselves and come in. I do get questions about "are we becoming too elite?" As long as you have other alternatives, it is a very easy question to answer. Do you see us closing the Spring Quarter option?

Dr. Mager:

This is new -- so I am not as confident in my response. I don't see us closing right now because of the strong academic advice I just mentioned a minute ago. This is new territory, so I don't have any history to base that on, but I honestly don't see us closing right now.
ENROLLMENT REPORT (contd)

Mrs. Bowser:

Good.

Mr. Teaford:

But, of course, the option that always remains is the transfer program.

Mrs. Bowser:

But as he says, Joel, there is more pressure for transfer, so that could become a pressure point.

Dr. Mager:

I believe very strongly, as I know all of the OSU community does, that our strengths lie in our upper division program and with the lower division for the high ability honors student. Those are our strengths. We have a wonderful array of opportunities, resources, and faculty for our upper division. The average low ability student freshman is not one of the strengths of Ohio State. However, that is the mission -- not a strength, but the mission of the two-year schools in this State. The advice to a student who is in the mid-range to the low part is to get their academic feet on the ground at one of these institutions.

Dr. Hutchinson:

Jim, you might want to say a word about the articulation agreement. I think this is something the Board would be interested in.

Dr. Mager:

First of all, from the State of Ohio there is a state-wide commission on articulation and transfer that is identifying what they define as transfer modules, groups of courses from two-year institutions that would transfer to the four-year institutions. Ohio State has not only been a participant in that activity, but has been a leader with the State of Ohio. In addition, there are individual articulation agreements with Columbus State Community College and Cuyahoga Community College. Sinclair is next on our list. So now, we can be more specific with what the State is doing. This has been a major emphasis -- to help the student not only do well, but to take the right courses.

Mrs. Bowser:

Jim, do students in those community colleges know when they take courses that they will transfer here?

Dr. Mager:

This is a very detailed, slow, and frustrating process because sometimes it goes course by course by course. The faculty need to be involved in each step of the way, it is not an administrator who could do this. But to answer your question, yes. Today at Columbus State and Cuyahoga Community College, the answer to that is yes. We have a large binder at each school giving not only the equivalencies and
Dr. Mager: (contd)

non-equivalences, but the criteria for transition into degree programs at Ohio State University. Because Ohio State is going through a major transition with our general education curriculum we are in the process of updating those binders, and that is a major project that we are working on as we work with the State.

We look at statements that we get from students, guidance counselors, and learning disabled students. We also look at personal problems in high school, or it could be anything. We have made a very strong commitment to make channels to Ohio State for freshman. With all of the calls and letters the Admissions Office receives, we probably spend about 10 percent of our time interfacing with accepted students. We spend the other 90 percent of our time doing alternative counseling -- where the student should go, and if the student does well then they can transfer to Ohio State as a sophomore.

Mrs. Bowser:

I'm proud of that. I'm very glad that you do, because I think that is part of our responsibility to these students.

Mr. Barone:

What criteria do you use for admissions for that freshman student?

Dr. Mager:

One of the things that we are very proud of, and we get a lot of compliments all over the State on this, is that we look at many factors. The frustrating thing is that in a meeting like this I can't give you a quick answer to that because we look at literally 11 factors. The two major factors that we look at are the college preparatory curriculum. For example, the average is 18 units instead of 15 units. The more units taken, the better chance you have of being admitted. We also look at how well you did in those courses as measured by class rank or grade point average. Those are the major factors that we look at.

We call it competitive admissions, as opposed to selective admissions. I can't give you a number on that because it depends on how many people apply and what their profile is. The other reason I can't answer your question specifically is because there are 9 other factors that we look at in addition to those two. We do look at the competitiveness of the high school, that is one of the major factors we look at. We do not treat all high schools alike. An administrator, a counselor, or a principal often asks us, "Well how competitive are we?" We get into an individual view of how their students do at Ohio State and we can compare their students on how well they do. What is 78th percentile at one high school, is quite different from the 78th percentile at another high school, and then we make adjustments for competitive high schools. That is one of the ten factors. We look to see if there is a learning disability involved and if there is, we have a process with Disability Services.
Dr. Mager: (contd)

We look at someone who may have just had one bad year, and in that year there could have been a family problem, a tragedy, or a death in the family, and we certainly factor that year out. So there are the 11 factors that we look at. Sometimes it frustrates people that we can't tell them exactly what it takes to get into Ohio State, but it is only because we look at these 11 factors.

This is not the admissions office or the administration doing this. We are governed by the faculty, the Council on Academic Affairs, Council on Admission and Registration, and we have a 6-member faculty committee on admissions that we meet with at least once a week, and most of the time twice a week, to review each one of these. We have a very complex process in order to get in, but it is a process that is touted by all the high schools to take all these factors into consideration.

When we saw the 13 percent decline last year, we were concerned because we do feel very strongly about what Ohio State has to offer. Dr. Arkin spoke to the Academic Affairs Committee last month about the October 10 report. I will say to you that the results of implementing many of the suggestions in here, have been phenomenal. At the time that we wrote this, and by the time it was looked at in November, we found ourselves down significantly in applications. But, we implemented major programs, off-campus outreach, and the two brochures in front of you about visiting Ohio State. When students come to our college fairs, we want them to visit Ohio State. You don't want to go to any college without visiting for at least a day, if not 2 or 3 days. So visiting Ohio State is very important. We use Alumni now in our outreach activities, and we are able to go to every high school and college fair that invites us. We knew that Ohio State had opportunities superior to many institutions, but it was the basics in recruiting where we were hurting. We weren't able to give them basic brochures when they came to our desks, we weren't even taking their names for the colleges and departments to follow-up on. The colleges and departments have written over 12,000 letters to people after we have contacted them at college fairs and high schools to tell them to come and visit us.

We now have at least 4 colleges that have daily open houses, the Colleges of Business, Engineering, Arts and Sciences, and University College. Every day at approximately noon, students can come visit there. We have admissions overviews everyday, financial aid overviews everyday, and we have updated our campus visitation.

Something that we are very proud of, also, is our merit-based financial aid. The fact that we are now recognizing scholars is terrific. Before, Ohio State had a reputation of not recognizing scholars and I think that hurt the University, as well as hurt the student. We had valedictorians that we were only giving $300 to. Some were calling it a "slap in the face." We now have a minimum $1000 scholarship; we have 10 presidential scholarships valued at $8,100 per year; 40 medalist scholarships valued at $2,300, as well as the national merit scholarship. So we are now recognizing high ability students. Also, we now have a more personalized follow-up after admissions. We have the colleges writing and calling students who were admitted. So these are the major activities.
April 5, 1991 meeting, Board of Trustees

ENROLLMENT REPORT (contd)

Mrs. Bowser:

That is an excellent report and I want you to know that I read every word of it, which I don't always do. The Board should invite you back sometime when they discuss that report and ask the questions that our president always asks, "what have you done about it," and "where are you in that." You are to be commended.

President Gee:

I might note that that is not only an excellent report, but I think it asks some of the questions that you are going to commonly be asked. Because as you know, the nature of this University is that we have a very specific character, and when you start talking about selective or competitive admissions, many people become concerned that you are trying to change the nature of the character or the character of the institution. We are certainly not trying to do that and, I think, as Jim reported, we are about not changing the character, but rather elevating the character of what we are about.

Also, in terms of some of our very specifically targeted groups, we have made very strong commitments; for example, to our minority students. I get asked a lot of questions, "Does this mean that this kind of a process is going to be exclusionary?" I think that Jim's data show clearly not, particularly because of the windows that we are providing and the opportunities for recruitment and retention. If anything, I think, it strengthens our profile and that is encouraging. Also, the non-traditional students are now becoming the new majority. All of those issues present a challenging time for us, in terms of our admission profile.

I must say that Jim and his people have done a remarkable job. Jim hates to see me because I eyeball him one on one and say, "What are we doing?" The truth of the matter is that we are doing a remarkable job and the nicest thing is that through this process not only are we attracting the best and the brightest to Ohio State, but I can sense a real enthusiasm among high schools and high school students. I personally have been at about 15 or so high schools across the State, and the fact that we talk good about ourselves, that we speak in positive terms about Ohio State, people want to come here. They want to come here because we believe in ourselves and I think that is a real attitudinal shift that Bob, his committee, and the Provost have undertaken. Jim, you are to be congratulated, I appreciate your good work.

Mr. Teaford:

Mr. Mager, do you have some projections with regard to the minority enrollment in that class for next year?
ENROLLMENT REPORT (contd)

Mr. Mager

Again, we have a range here because we could never guess exactly. We would be in the neighborhood of 500 black students; we expect possibly as high as 130-140 Hispanic students; and a small number of native Americans. I give those as the under-represented minorities to the campus. To emphasize what President Gee has just indicated, we have gone through a major transition in selective admissions in the last 6 years. Our new freshman black student enrollment has gone up from 341 in 1984, to 498 in 1990, and we certainly have every intention of improving that number for 1991. So that is another very amazing and positive thing that we are very proud of, and the retention is improving also. Since the start of selective admissions we have increased the numbers and retention. In talking to my colleagues all over the country, that is an amazing accomplishment for The Ohio State University.

Mr. Teaford:

Are there any particular initiatives with regard to recruitment of minorities?

Dr. Mager:

Absolutely. I would be glad to outline the major programs, but yes we have a major effort. The Office of Minority Affairs has a number of staff members dedicated to recruiting minorities, and I can say that they certainly deserve the lion's share of the credit for this increase. They are making the personal contacts in the high schools not only in-state, but out-of-state. We have a Minorities Scholarship Program, and we have the Freshman Foundation Program.

Dr. Hutchinson:

Let's not forget the Young Scholars Program. They bring in 400 students a year that we hope will attend Ohio State in the future.

Dr. Mager:

We are waiting for the payoff on that in 1992 and beyond. The Young Scholars are not on our campus yet, they are here during the summer and at other times, but they are not here as college students yet. That is going to be another positive in the 1990's, over what we have already seen in the late 1980's.

Mr. Teaford:

Is that recruitment also going to those parts of our cities where the economically poorest black students are living?

Dr. Mager:

The Office of Minority Affairs visits not only the high schools, but also the churches, the community centers, and the households of these individuals. I don't think anybody could describe it better than the people that do it. I would suggest that you talk to those people sometime.
April 5, 1991 meeting, Board of Trustees

ENROLLMENT REPORT (contd)

Mr. Barone:

Does this include the Hispanic group?

Dr. Mager:

It certainly does, we have a major staff that are dedicated to Hispanic recruitment. As a matter of fact, I received a call this morning from Victor Mora who wants information to help him on his next trip. So, yes we do have them in both areas. I told you about major increases in the number of black students, and the number of Hispanic students has also increased. In 1984, we had 52 Hispanic students, we now have over 100. So we have doubled the number of Hispanic students of our freshman class. I will guarantee you that there are major efforts in those areas.

President Gee:

I might note, Jim, that there is one small group that I take deep pleasure in, there has been a dramatic increase in the number of Mormon students at the University -- from one to two.

---0---

INTRODUCTION OF VICE PRESIDENT FOR RESEARCH

President Gee:

Ladies and Gentlemen, I told you earlier that we are today announcing a most significant appointment to this University. Dr. Edward Hayes will be joining the University on July 1, as our new Vice President for Research. We asked him to come today in order to meet all of you, and more importantly to be introduced to the University family, and have the opportunity to meet with the press. Ed's plane was half an hour late and then Dr. Terry Miller, who chaired the search committee and is one of our eminent scholars, was unable to find his way from the airport. Ed, please stand and be recognized.

Mrs. Bowser:

We are, indeed, glad to have you join us.

---0---

RESEARCH FOUNDATION REPORT

Ms. Casto:

Thank you, Madam Chair. The Research Foundation Grants and Contracts for the first 8 months for the fiscal year 1991 are shown in the agenda book. There are 919 awards listed which provide a gross income of $84 million. Funding for the first 8 months of the fiscal year is 9.5 percent ahead of the same period for fiscal year 1990. Federal funding has increased overall and funding from the State of Ohio and Industrial sectors has also increased. Some highlights of the awards are:
April 5, 1991 meeting, Board of Trustees

RESEARCH FOUNDATION REPORT (contd)

Ms. Casto: (contd)

$152,000 from the National Science Foundation for a workshop on strategies in undergraduate mathematics education.

$150,000 from the National Science Foundation to study early history of the universe and the evolution of star galaxies.

$75,000 from Sandoz to study bone marrow transplant.

$172,000 from the National Dairy Promotion and Research Board for research on the influence of dietary fat on milk protein.

$64,000 from the Council on International Educational Exchange for a workshop in English and American culture for Japanese teachers of English.

That concludes my report, Madam Chair.

Mrs. Bowser:

Do you want to tell us about the Research Foundation open house yesterday?

Ms. Casto:

I would like to ask John to tell us about it, because he was the star there.

Mr. Barone:

I think the stars were very plentiful, including Ms. Casto and Mrs. Bowser, our Chairperson. Dr. Tom Sweeney and Mary Ellen Sheridan, Acting Associate Vice President for Research Administration, gave us a tour through the Research Foundation. The improvement from the Research Foundation's prior building to this building is beyond my description. I think we now have one of the finest Research Foundation buildings. They have utilized every inch of space and have done a tremendous job on it. I think anyone that has donated or given projects to The Ohio State University Research Foundation will find that they will get the finest service that there is in the country.

I want to congratulate Tom and his staff. I have never seen a group of people work any finer together than the Research Foundation staff. I know that we have one of the best Research Foundations in the country. I only can estimate that in the future it will increase, even though the funds from the government are decreasing and it is getting more and more difficult to get projects. I think Ohio State should be proud for what it has and proud of the facilities. The employees are very happy and I think that that will reflect in the fine work that they will do, as well as the increase in financial funds.

Ms. Casto:

Thank you, John. I want to say that Dr. Sweeney gave John much of the credit for getting this building completed. He definitely was the momentum behind it. We are very proud that this was opened and dedicated yesterday.
April 5, 1991 meeting, Board of Trustees

RESEARCH FOUNDATION REPORT (contd)

Mrs. Bowser:

We also want to thank Dr. Sweeney for his hard work.

--0--

HOSPITALS BOARD COMMITTEE REPORT

Mr. Teaford:

On March 21, the Administrative/Operations Committee began its meeting with a review of the combined patient statistics for University Hospitals and the James Cancer Hospital. Combined admissions through February were 892 above budget and 1,072 above last year at the same time. Patient days were 7,433 above budget and 6,156 over last year. University Hospital's length of stay is very close to budget, while the Cancer Hospital's average length of stay is beginning to lengthen as expected.

Ms. Sigafoos presented updates on safety and security, Certificate of Need applications, and renovation/construction projects. She also reported on the Hospitals' agreement with the University Ramada Hotel for patients and visitors. You should know now that it is possible to begin your check-in to the University Hospitals at the Ramada, where there is a facility which includes a nurse and there is transportation available from the Ramada to the Hospitals. One of the great problems has been that so many of our patients come from out of town and have found it difficult to get to the Hospitals. I think it is a major improvement in services available to patients. Ms. Sigafoos also commented on the opening of the extended patient area and the hyperbaric chamber in the Emergency Department. That is the chamber which allows patients to be in pure oxygen. That hyperbaric chamber which is unique in Ohio, drew media attention because three children who were recently caught in a house fire were saved because they were able to go into that chamber and breath pure oxygen.

Mr. Maier presented an affiliates review focusing primarily on Med-Ohio. He pointed out that we have negotiated contracts for occupational medicine services, such as employee physicals and drug testing and are increasing the patient activity at selected sites. In April, our newest facility at Northland will begin giving pre-employment physicals for RN's and LPN's. Pre-admission testing, again another way to get you ready for the Hospitals and Cancer Hospital, will begin at the Arlington Med-Ohio. Another very significant development is that the College of Pharmacy is now rotating students through the Med-Ohio facilities. We should never lose sight of the fact that the principle motivation in acquiring the Med-Ohio facilities was to provide educational opportunities to our students. I think the addition of that College is a very important one.

The Optifast program for treatment and research on obesity is off to a good start with 129 people scheduled for orientation and more than 200 on a waiting list. The Sports Medicine Program, housed in the Camera Center -- the State's Center for Rehabilitation -- has cared for 123 patients in its first two weeks and has already scheduled 13 surgical procedures.
Mr. Schrock reported that development of a strategic financial plan has begun with the help of consultants. A computer model will be used to develop Ohio State University Hospitals' operating activities and objectives such as operating margin, capital expenditures, debt capacity, and net cash position and other such things. Factors to be incorporated will include: current operations; approved capital programs; growth rate; inflation in labor, supply and service costs; Cancer Hospital operating relationship and support; changes in payments to the Hospitals; technology; cost of capital; collection of receivables; and the College of Medicine and University relationships. A first draft is expected within the next month with the final plan expected within 60-90 days.

Mr. Fraley reported that The Ohio State University Hospitals will become a smoke-free environment on March 31. I cannot help but add that I think that is, in many ways, a fitting memorial to Dr. Havener who died recently. He committed himself tirelessly to achieving that status for our Hospitals. Mr. Fraley also updated the Committee on various issues including the Hospitals' approaches to excess liability coverage and late charges on patient bills; Ohio State University Hospitals' volunteer activities, which include relationships with the Columbus Public School System and Columbus State; renewal of the Hospitals' maternity licensure; and establishment of Doctor's Day on April 3. Mr. Fraley indicated that budget cuts in state assistance programs and federal educational pass-throughs will impact substantially on the Hospitals.

At the March 21 Executive Committee meeting, Dr. Mekhjian and Dr. Smead reported on medical staff activities. Mr. Schrock presented the February financial report which showed that patient activity and revenues continue to vary substantially exceed our expectations. Net income year-to-day was $428,000 versus a budgeted loss of $1.16 million dollars. Cash receipts for the month were $800,000 over budget. Accounts receivable remained stable with 100 net days' revenue in receivables. The Committee discussed University Hospitals' operating and financial relationships with the James Cancer Hospital. Something I suspect we will continue to do for a long time.

Mr. Schrock reviewed a consultant's letter outlining the different reimbursement mechanisms for healthcare services in the medical center and management strategies to ensure that we obtain all Medicare dollars to which we are legally entitled.

The Committee agreed unanimously that Hospitals Board members will embrace the conflict of interest policy applicable to Hospitals employees. Which I might say complies also with the state rule in that regard. This action was taken at the suggestion of the Joint Commission Surveyors -- in other words, the accreditation people -- that the Board should articulate its policy regarding the conflict of interest. The reason that no such policy has ever been articulated before is because that is an advisory board. The Committee also voted unanimously to authorize the purchase of an IBM ES/9000 computer in the coming fiscal year, due to both the Hospitals' acute need and the unexpected availability of this new line of computers at a better than anticipated price.
April 5, 1991 meeting, Board of Trustees

CANCER HOSPITAL REPORT

Mr. Barone:

Madam Chair, as of February 28, 1991, the year-to-date statistics for the Cancer Hospital showed admissions of 1,897 compared to a budget of 1,825. This equated to 14,871 patient days compared to a budget of 16,423. In February, total patient revenue was $4.9 million, compared to a budget of $3.8 million. The actual net loss was $566,000 compared to a budget of $572,000. Additionally, there were 271 admissions against a projection of 256, which equated to an average daily census of 82 patients and 2,304 patient days as projected.

In our operation over the past few months the James Cancer Hospital has continuously met or surpassed admissions, census, and patient day projections. Currently, the administration is examining the feasibility of opening an additional 12 beds. However, there is still concern over the expense incurred and therefore the following projects have been organized and established:

-- A review and analysis of all of the ancillary and general purchased service contracts.

-- The establishment of a Committee within the Cancer Hospital and Research Institute to review all hiring.

-- A study of a comparative analysis of the level of FTE's and professional mix of inpatient and outpatient staffing as compared to other comparable healthcare institutions.

-- The initiation of a 5-year climax of strategic planning process using the consultants of Ernst and Young.

-- The initiation of an operational strategic planning process for the Cancer Hospital and Comprehensive Cancer Center using the consulting expertise of the Douglass Group.

-- The continuation of a University based Finance Committee which reviews operational indicators and finances of the Cancer Hospital.

-- The establishment of the 1991-92 fiscal budget with goals to maximize current resources, no new FTE's unless associated with a new program, and a reduction of the current operational deficit.

A current review of Development Funds indicates the following data: Current Balance in Endowments is $6,854,000; Current Irrevocable Gifts is $4,418,000 plus; Current Cash Gifts is $874,950; and Current Estate Gifts is $1,586,000, totaling $13,734,000.

Reviews will be done monthly and reports will be available on a regular basis. You have before you Graphs of key indicators and if you study those, I think it will give you a better idea of what is transpiring at the Cancer Hospital, especially as to the average cost of our patients and other financial matters. That concludes my report, Madam Chair.

--0--
April 5, 1991 meeting, Board of Trustees

ACADEMIC AFFAIRS COMMITTEE REPORT

Mr. Tonnies:

The Academic Affairs Committee met this morning and received a report from Dr. John Bossler who works at the Center for Mapping Studies. This is one of the several areas at Ohio State University involved in interdisciplinary areas. I've asked Provost Hutchinson to briefly discuss some of the highlights from this morning's presentation.

Dr. Hutchinson:

We chose to have this presentation this morning as an example of one of our major interdisciplinary centers. President Gee is emphasizing that we need to put more attention into interdisciplinary and we are doing that.

As an example, NASA, the National Atmospheric Space Administration, several years ago decided that it was time to spend part of their money in finding applications for a lot of the technologies that were developed earlier in major programs. We became one of the centers in the United States that they funded -- the Center for Mapping Studies. There are a number of U.S., small, family-size companies and major U.S. corporations now supporting this program, along with NASA.

One of the applications that has emerged from this is the fact that state highway departments from all over the United States have to keep detailed information on all of their highways in order to keep them up and maintain them. They now have developed, through this program, a vehicle with technology that via satellite records any information that you want as it travels down the highway at thirty miles an hour. It can give you information as to the exact location within one meter -- about three feet. They tell us that soon it will be a matter of inches. This has great implications for transportation departments. We are now in the process of licensing those who wish to use this application. Dr. Bossler told us that the revenues from this at some point in the future, maybe by 1995, would probably be in the vicinity of $2 million dollars a year for the University. That is, if this technology is used as much as it appears it will.

This is just one example of the things that are coming from the Center for Mapping Studies. Thank you.

Mr. Tonnies:

In addition, the committee is recommending to the Board of Trustees the following resolutions:

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY
Resolution No. 91-103

Synopsis: The Academic Affairs Committee recommended the approval of the following amendments to the Rules of the University Faculty.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the Rules of the University Faculty as approved by the University Senate; and
April 5, 1991 meeting, Board of Trustees

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

WHEREAS the proposed changes in the Rules of the University Faculty were approved by the University Senate on March 2, 1991, as follows:

Amended Rules

3335-5-47 Organizing committees of the senate.

(A) The senate shall have three organizing committees (see rules 3335-5-471 to 3335-5-473 of the Administrative Code):

(1) Steering committee;

(2) Program committee;

(3) Rules committee.

(B) Membership.

(1) The president shall appoint members of the administration; the council of graduate students, the inter-professional council, and the undergraduate student assembly shall select members of their own constituency using procedures adopted by their respective bodies. Members of the faculty council serving the following year shall elect members of the faculty from a ballot prepared by the executive committee of the faculty council. The ballot shall be based on nominations solicited in writing from the faculty. The ballot shall include at least one more name than there are positions to be filled and shall provide space for write-in votes for each committee.

(2) Only members of the senate may serve on organizing committees.

(3) Terms of service.

(a) Faculty members shall serve two-year terms and shall not be eligible for immediate reelection until one full year has elapsed unless they have served less than two-thirds of a full term.

(b) Student members shall serve one-year terms and shall be eligible for reappointment.

(c) Appointed administration members shall serve two-year terms and shall not be eligible for immediate reappointment until one full year has elapsed unless they have served less than two-thirds of a full term.

(d) Multi-year terms shall be staggered so that approximately equal proportions of the number of members retire each year.

(C) Organizing committees are also governed by the provisions of rule 3335-5-46 of the Administrative Code.

3335-5-48 Standing and special committees of the senate.

(A) The senate may establish such standing and special committees as it deems necessary or desirable.
AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

(1) The standing committees of the senate are those committees defined in rules 3335-5-481 through 3335-5-4816 of the Administrative Code.

(2) A special committee is one established to carry out a specified task, at the completion of which it automatically ceases to exist.

(B) Membership.

(1) All standing and special committees of the senate shall include at least one regular faculty member of the senate.

(2) Unless otherwise specified by the rules, or by the senate, the president shall appoint members of the administration; the council of graduate students, the inter-professional council, and the undergraduate student government shall select members of their own constituency using procedures adopted by their respective bodies. Members of the faculty council serving the following year shall elect members of the faculty from a ballot prepared by the executive committee of the faculty council. The ballot shall be based on nominations solicited in writing from the faculty. The ballot shall include at least one more name than there are positions to be filled and shall provide space for write-in votes for each committee.

(3) Terms of service. Unless otherwise specified by the rules, student members shall serve one-year terms and be eligible for reappointment; voting faculty and appointed administrative members shall serve three-year terms and shall be ineligible for immediate reelection or reappointment until one full year has elapsed unless they have served less than two-thirds of a full term. Multi-year terms shall be staggered so that approximately equal proportions of the number of members retire from the committee each year.

(C) Standing and special committees are also governed by the provisions of rule 3335-5-46 of the Administrative Code.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the Rules of the University Faculty be adopted as recommended by the University Senate.

Upon motion of Mr. Teaford, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

AMENDMENTS TO THE MEDICAL STAFF BYLAWS AND RULES AND REGULATIONS

Resolution No. 91-104

Synopsis: The Academic Affairs Committee recommended the approval of amendments to the Medical Staff Bylaws and Medical Staff Rules and Regulations.
April 5, 1991 meeting, Board of Trustees

AMENDMENTS TO THE MEDICAL STAFF BYLAWS AND RULES AND REGULATIONS (contd)

WHEREAS The Ohio State University Hospitals Board pursuant to Bylaw 3335-101-04 of the Hospitals Board Bylaws is authorized to recommend to the Board of Trustees the adoption of amendments to the Medical Staff Bylaws and Medical Staff Rules and Regulations; and

WHEREAS the proposed amendments to the Medical Staff Bylaws 3335-43-04 and 3335-43-12 and Medical Staff Rules and Regulations 84-04 and 84-12 were previously approved by the University Hospitals Board as follows:

AMENDED BYLAWS

3335-43-04 Membership.

(A) through (D) unchanged.

(E) Procedure for appointment.

(1) The written and signed application for membership on the medical staff shall be presented to the chief of the clinical department. The applicant shall include in the application a signed statement indicating that if he should be accepted to membership on the medical staff, he agrees to be governed by the bylaws, rules and regulations of the medical staff, the university hospitals board and the board of trustees of the Ohio state university. Signing the application also constitutes a consent to be interviewed in regard to the application, authorizes university hospitals to consult with members of the medical staffs of other hospitals with which the applicant has been or has attempted to be associated, and with others who may have information bearing on his competence, character and ethical qualifications. The applicant also consents to university hospitals' inspection of all records and documents that may be material to the evaluation of his professional qualifications and competence to carry out the clinical, medical and educational privileges for which he is applying as well as his professional ethical qualifications for medical staff membership and further releases from any liability all representatives of university hospitals for acts performed concerning this process. The applicant has an affirmative duty to disclose any prior or current challenges to his licensor or any loss of membership in any medical, dental, or podiatric professional organization or loss of medical staff membership or privileges at any other hospital. Upon request of the medical staff administrative committee or university hospitals board, the applicant will document his physical and mental status with sufficient adequacy to demonstrate that any patient treated by the applicant will receive care of a generally professionally recognized level of quality and efficiency. The conditions of this paragraph shall be deemed continuing and may be applicable to issues of continued good standing as a member of the medical staff.

(2) Each chief of a clinical department will be responsible for investigating and verifying the character, qualifications, and professional standing of the applicant and shall submit a report of those findings and recommendations to the medical director of university hospitals who shall forward the application to the medical staff administrative committee for action. The chief of the clinical department shall be responsible to see that each applicant is reviewed and reported upon within three months.
AMENDMENTS TO THE MEDICAL STAFF BYLAWS AND RULES AND REGULATIONS (contd)

(3) The medical staff administrative committee shall recommend to the medical director and the chief of the clinical department that the application be accepted, further investigated, or rejected. The medical director will forward the application, with recommendations of the chief of the clinical department, and his own recommendations, to the university hospitals board. The university hospitals board shall make their recommendation to the board of trustees of the Ohio state university by communicating through the president of the Ohio state university.

(4) When the board of trustees of the Ohio state university has acted, the secretary of the board shall inform the chief of the clinical department to transmit the decision to the applicant and, if appropriate, to the chief of the clinical division. The secretary of the board shall also notify the dean of the college of medicine, the medical director and the executive director of the university hospitals of the decision.

Balance unchanged.

3335-43-12 Amendments.

There will be a standing bylaws committee which will review the bylaws and rules and regulations as need arises but not less than every two years. This committee will recommend changes to the medical staff administrative committee.

These medical staff bylaws may be amended after notice is given at one meeting of the medical staff administrative committee. Such notice shall be laid on the table until the next meeting and shall require two-thirds vote of the members of the medical staff administrative committee present for approval and submission to the medical staff for ratification. Ratification of an amendment shall be by a plurality of those medical staff members voting through written ballot. When an amendment is approved by the medical staff administrative committee and ratified by the medical staff it shall be forwarded in successive order to the following: the university hospitals board; the president of the Ohio state university; and the board of trustees of the Ohio state university. Each of the foregoing reviewers shall accept or reject the requested amendment. The amendment shall become effective when accepted by the board of trustees of the Ohio state university in the form ratified by the medical staff.

84-04 Order writing privileges.

(A) "Definition of "Patient Orders."

A patient order(s) is a prescription for care or treatment of inpatients, outpatients or emergency patients which is written, dictated verbally, to an RN or RPh and signed by a medical practitioner. Patient orders may be written initially, renewed, discontinued or cancelled.

(B) Responsible medical practitioner.

The licensed physician, dentist or podiatrist (under medical doctor supervision) member of the staff responsible for the hospitalization or outpatient care, and treatment of the patient is responsible for all orders for the patient. Attending, courtesy, and honorary medical staff may designate members of the limited staff to write orders under their direction. The attending staff member may also designate members of the pre-M.D. medical student group to write orders, but in all cases the orders shall be signed by the
physician, dentist, podiatrist or designated limited staff member who has the right of practice of medicine, dentistry or podiatry and who is responsible for that patient's care. Orders may not be written or received by physician assistants or other paramedical personnel. All written orders must be signed by the medical practitioner prior to the execution of the order(s) by the hospital or outpatient nursing staff or other professional groups.

Patient orders written by "off-service" house officers or consultant staff must be countersigned by the responsible practitioner or his designee. Exception may be made in the event of preoperative orders or in the instance of acknowledged co-management; e.g. the intensive care unit or recovery room.

(C) Telephone and verbal orders.

Telephone and verbal orders may be given by the responsible attending physician, dentist, podiatrist or limited staff officer only to the registered nurse or pharmacist, or respiratory therapist, in their respective areas of expertise. The order is to be written and signed by the nurse, pharmacist, or respiratory therapist to whom it is dictated as "verbal order by Dr. " or "V. O. by Dr. ", giving the medical practitioner's name and hour, followed by the nurse's, pharmacist's, or respiratory therapist's signature. All telephone and verbal orders must be authenticated within 24 hours by signature of a licensed physician, dentist, podiatrist, or limited staff member or his/her designee.

Balance unchanged.

84-12 Medical records committee.

(A) unchanged.

(B) (1) unchanged.

(2) Deadlines and sanctions

(a) The complete history and physical examination shall be recorded on the patient's chart no later than 24 hours after admission of the patient.

(b) When the history and physical examination, including the results of indicated laboratory studies and x-rays and the attending staff's notes, are not recorded in the chart before the time stated for a procedure, the procedure cannot proceed until the history, physical, and laboratory results are entered into the chart. In cases where such a delay would likely cause harm to the patient, this condition shall be entered into the chart by the attending physician, and the procedure may begin. When there is a disagreement concerning the urgency of the procedure, it will be adjudicated by the medical director or his designee.
AMENDMENTS TO THE MEDICAL STAFF BYLAWS AND RULES AND REGULATIONS (contd)

(c) All procedures performed shall be fully described in the record by the responsible physician or the physician's designee immediately upon completion of the procedure. An operative report must be dictated immediately following the procedure. The transcribed operative report must be signed by the attending surgeon within 21 days of the patient's discharge. Any operative report not dictated by 10:00 a.m. the day following the procedure shall be deemed delinquent and the attending surgeon responsible will lose operating room privileges that day and admitting privileges the following day. Surgeons will receive phone calls from the medical record administrator indicating the delinquent operative reports. A list will be prepared and distributed monthly by the medical record administrator indicating the surgeons suspended during the previous month. The pathologist shall make such examination as necessary to arrive at a satisfactory diagnosis. The pathologist's report shall then be included on the patient's record.

Balance unchanged.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the Medical Staff Bylaws and Medical Staff Rules and Regulations be adopted as recommended by the University Hospitals Board.

Upon motion of Ms. Casto, seconded by Mr. Teaford, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

PERSONNEL ACTIONS

RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the March 1, 1991 meeting of the Board, including the following Appointment, Reappointment of Chairpersons of Departments, Leave of Absence Without Salary, Leave of Absence Without Salary--Change in Dates, Professional Improvement Leave--Change in Dates, Emeritus Titles, and Medical Staff--Appointments (The Arthur G. James Cancer Hospital and Research Institute), as detailed in the University Budget be approved and the Medical Staff Appointments approved February 21, 1991, by the Hospitals Board be ratified.

Appointment

Name: EDWARD F. HAYES
Title: Vice President and Professor
Office/Department: Research/Chemistry
Effective: July 1, 1991
Salary: $150,000.00
Present Position: Vice President for Graduate Studies, Research and Information Systems, Rice University
April 5, 1991 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Appointment of Chairpersons of Academic Faculty and Department and Director of Hospital

February 25, 1991 through February 24, 1993

Labor Education and Research Services

Herman R. Bobbitt, Jr.*

March 15, 1991 through June 30, 1993

Veterinary Hospital

Glen F. Hoffsis

October 1, 1991 through September 30, 1995

Political Science

Paul A. Beck

Reappointment of Chairpersons of Departments

July 1, 1991 through June 30, 1995

Educational Services and Research

Judy L. Genshaft

October 1, 1991 through June 30, 1995

Educational Studies: Humanities, Science, Technological and Vocational

Educational Theory and Practice

Geography

Gilbert A. Jarvis

Frank J. Zidonis

John N. Rayner

* Acting Chairperson

Leave of Absence Without Salary

ROMAN T. SKARDA, Associate Professor, Department of Veterinary Clinical Sciences, effective April 1, 1991, through March 31, 1992, to fulfill military and teaching responsibilities in Switzerland.

Leave of Absence Without Salary--Change in Dates

JAMES C. TURNER, Assistant Professor, Department of Mathematics, change leave from Autumn Quarter 1990 and Winter Quarter 1991, to Autumn Quarter 1990.

Professional Improvement Leave--Change in Dates

MARGARITA M. LEVISI, Professor, Department of Spanish and Portuguese, change leave from Autumn Quarter 1991 and Winter Quarter 1992, to Spring Quarter 1992.

Emeritus Titles

HAROLD S. WEISS, Department of Physiology, with the title Professor Emeritus, effective February 1, 1991.

ROGER K. HARVEY, Academic Faculty of Finance, with the title Associate Professor Emeritus, effective April 1, 1991.
April 5, 1991 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Emeritus Titles (contd)

RAYMOND H. WEHNER, Department of Theatre (Newark Campus), with the title Assistant Professor Emeritus, effective April 1, 1991.

WILLIAM G. PACE, Department of Surgery, with the title Clinical Professor Emeritus, effective April 1, 1991.

Medical Staff--Appointments (The Arthur G. James Cancer Hospital and Research Hospital)

ERIC M. HUMPHREYS, M.D., Associate Attending Staff, Department of Anesthesiology

MICHAEL J. SULLIVAN, M.D., Attending Staff, Department of Otolaryngology

Medical Staff--Appointments (The Ohio State University Hospitals)

BURGERS, JOHN K., Attending Staff, Department of Surgery-- Division of Urology

CHAMBERS, MARK J., Attending Staff, Department of Anesthesiology

KING, KATHLEEN P., Courtesy Staff, Department of Internal Medicine-- Division of General Medicine

MARAR, UNNI K., Limited Staff, Department of Internal Medicine-- Division of General Medicine

SCHULTE, GREGORY T., Limited Staff, Department of Anesthesiology

VIESSELMAN, JOHN O., Attending Staff, Department of Psychiatry-- Division of Child Psychiatry

Upon motion of Mr. Shumate, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

RESOLUTIONS IN MEMORIAM

Resolution No. 91-106

Synopsis: The Academic Affairs Committee recommended the approval of the following Resolutions in Memoriam.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Lester A. Cronin

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 25, 1991, of Lester A. Cronin, Instructor Emeritus in the Cooperative Extension Service.
April 5, 1991 meeting, Board of Trustees

RESOLUTIONS IN MEMORIAM (contd)

Lester A. Cronin (contd)

Mr. Cronin was born June 27, 1903, in Monroe County, where he subsequently taught elementary school from 1923 to 1925. He received his B.S. in Agricultural Education from The Ohio State University in 1929 and taught Vo-Agriculture until 1935 in Washington County, Ohio. From 1933 to 1935, he assumed the dual role of High School Superintendent and Vo-Agriculture teacher in Washington County.

Mr. Cronin began his Extension experience in Ohio when he joined the faculty at The Ohio State University in 1936 as an Assistant County Agricultural Agent in Washington County. On July 1, 1938, he became the County Agricultural Agent in Tuscarawas County and continued in this position until his retirement in 1966. He also found time to enroll in graduate courses at The Ohio State University and Colorado State University.

Mr. Cronin served as President of the Ohio Agricultural Extension Agents Association in 1957, and received the distinguished service award from the national association in 1956. He was honored with the 1983 Golden Rose Award by the Ohio Outdoor Historical Drama Association and the same year received the Zeisberger-Heckewelder Medal from the Tuscarawas County Historical Society for his work in founding the outdoor drama. He also received an exemplary service award in 1990 from the Salvation Army for having served on every Salvation Army Board committee during his many years of service with the organization.

Mr. Cronin guided many projects as an Extension Agricultural Agent, including: an active dairy service unit to promote artificial breeding, testing and herd health programs which reduced disease in dairy and beef herds; county beef, sheep, poultry, and swine enterprises; a tri-county feeder pig sale; fruit and potato growers' organizations; and tree-planting projects over a 25-year period which resulted in more than ten million new trees being planted in Tuscarawas County.

Mr. Cronin's contributions in providing excellent Extension educational programs during his career earned him the respect and admiration of his co-workers and many thousands of Ohio citizens throughout the length and breadth of Tuscarawas County.

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to the family and friends of Mr. Cronin. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees as an expression of the Board's heartfelt sympathy.

Jack H. Richmond

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 30, 1990, of Dr. Jack Hubert Richmond, Professor Emeritus in the Department of Electrical Engineering.

Dr. Richmond was born in Kalispell, Montana, on July 30, 1922. In 1940 after graduating from high school, he began serving in the United States Navy. While in the Navy, he served for one year as an Instructor in the Navy Radio Technician Schools. He attended Lafayette College and earned a Bachelor of Science degree in Electrical Engineering, graduating Summa Cum Laude and with departmental honors in Electrical Engineering in 1950. Dr. Richmond began graduate study at The Ohio State University that same year, but was soon recalled to active duty in the Navy and served as an Electronics Technician Chief. Upon his second discharge from military service, he re-entered OSU and received a Master of Science degree in electrical engineering.
While pursuing Ph.D. studies, Dr. Richmond began his University service in 1952 by joining the OSU Antenna Laboratory (now the ElectroScience Laboratory) where he served first as Research Assistant and later as Associate Supervisor. Upon receiving the Doctor of Philosophy degree in 1955, he joined the University faculty as Assistant Professor of Electrical Engineering.

Throughout his 35-year career on the faculty he performed outstanding research on antennas, antenna arrays, microwave techniques, and numerical approaches to the solution of electromagnetics problems. He published approximately 60 technical papers and two book chapters in these areas. All of these papers made significant contributions to the understanding of antennas and microwave theory; many of them made fundamental contributions. Dr. Richmond gained national and international recognition for his work in the field of electromagnetics.

He is best known for two fundamental contributions: one is the application of the method of moments to electromagnetics problems; the other was his continuous development, over a number of years, of numerical approaches to problems which are too complex for closed, analytical solutions. He was a pioneer in both of these areas, and some of the programs which he developed are still among the best available anywhere in the electromagnetics community. It should also be noted that Dr. Richmond was very generous in sharing his programs and research results with other faculty members and researchers. To no small extent, because of his work, the ElectroScience Laboratory became and remains a national leader in the application of numerical techniques and the method of moments to electromagnetics problems.

In recognition of his work, he was elected a Fellow of the Institute of Electrical and Electronics Engineers (IEEE) in 1980 and Life Fellow in 1988. He was also awarded the IEEE Centennial Medal in 1984. In 1985, he was presented the ElectroScience Laboratory George Sinclair Award in recognition of his work on moment methods.

Dr. Jack Richmond epitomized the scholarly pursuits that are the essence of a successful University. He made fundamental contributions to knowledge continuously over a 35-year period and brought honor and distinction to himself and to our University.

On behalf of the University community, the Board of Trustees expresses to the family of Dr. Jack H. Richmond its deepest sympathy. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's realization of the loss that the family, the University, and his many friends and associates have sustained.

Upon motion of Mr. Celeste, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

---0---

STUDENT AFFAIRS COMMITTEE REPORT

Ms. Paige:

This morning the Student Affairs Committee reviewed a proposal for the 1991-92 Student Health Insurance Program presented by Mr. Larry Lewellen, Coordinator of Benefits and Insurance at Ohio State University, and Dr. Forrest Smith, Acting Director of Student Health Services. Our Committee recommends the acceptance of the central benefit renewal quote, increasing the base premium rate including
capitation fees and deposit handling fees of 13 percent for single coverage. The Committee also recommends that inclusion of five improved benefits, adding an additional 5.4 percent to the new premium rate. These adjusted benefits enhance coverage significantly by: 1) doubling the coverage period under the major medical expense benefit to 48 months; 2) lifting the pre-existing condition exclusion after one year of continuous participation in the program; 3) doubling the benefit for outpatient and emergency room treatment to $100.00; 4) doubling the preventive medical benefits for immunization and inoculation to $70.00 per academic year; and 5) increasing the preventive dental benefit for cleaning and x-ray to the rate being charged in 1991-92 at the Student Health Services.

STUDENT HEALTH INSURANCE

Resolution No. 91-107

Synopsis: The Student Affairs Committee recommended the Renewal of the Student Health Insurance Program with Central Benefits Mutual Insurance Company.

WHEREAS on May 4, 1989, this Board awarded a two (2) year contract (effective Autumn Quarter 1989) following a competitive bid process; and

WHEREAS the University now has the opportunity to competitively bid the program or to seek renewal of the program with the current carrier; and

WHEREAS the current carrier, Central Benefits Mutual Insurance Company, has offered renewal rates that are very competitive in the insurance market and appropriate to our history of claims experience; and

WHEREAS after consideration of the desires and concerns of the students who purchase the insurance, the Student Health Insurance Committee of the Council on Student Affairs has recommended—and the full Council on Student Affairs has ratified this recommendation—that the current contract be renewed at the specified rates to provide the existing benefits plus the following benefit improvements:

(a) Extension of the maximum coverage period from twenty-four (24) months to forty-eight (48) months per illness;

(b) Removal of the pre-existing condition exclusion for a policyholder and dependents after one (1) year of continuous participation (currently not removed);

(c) Increase in the maximum benefit for outpatient treatment of medical emergency by hospital from $50 to $100 per occurrence;

(d) Increase in the medical benefit for immunizations and inoculations from $35 to $70 per academic year;

(e) Increase in the preventive dental benefit for cleaning from $20 to $25, and from $30 to $37 for x-rays; and
WHEREAS this program will be available on an optional basis to all registered students for the following proposed Quarterly Premium Rates:

NOW THEREFORE

BE IT RESOLVED, That Central Benefits Mutual Insurance Company be approved for renewal of the Student Health Insurance Contract effective the first day of classes, Autumn Quarter 1991, for a period of one (1) year. The contract will provide the benefits outlined above as well as those now available under the terms of the current contract.

Upon motion of Mr. Shumate, seconded by Mr. Teaford, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

Ms. Paige:

Next, we heard reports from the student government leaders.

Mr. Mark Slivka:

IPC has recently surveyed the 5 major issues facing the professional students. They include tuition increases, parking, campus safety, library hours, and football tickets.

With the Athletic Council meeting approaching on April 11, I would like to address the ticket allocation policy. The present ranking system favors undergraduates and allocates seats based on class rank with undergraduate seniors receiving first priority, followed by juniors, sophomores, freshman, and then graduate and professional students. Undergraduate students sit in the northwest section, beginning on the 50-yard line extending north, and the professional and graduate students sit in the south stands and any overflow are placed in field seats.

We did a preliminary survey regarding this policy and found that 33 percent of the students polled said that the reputation of intercollegiate athletics at OSU was a factor in their decision to attend professional and graduate school here. Ninety percent of those students polled feel as though they are being discriminated against by the current policy, and 80 percent of these students feel that this discrimination will negatively affect their loyalty in future financial contributions to The Ohio State University. Obviously, this is a situation that needs to be looked at more closely.
April 5, 1991 meeting, Board of Trustees

STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Slivka: (contd)

Looking at the other Big 10 ticket policies, OSU stands alone; Michigan State, Iowa, Indiana, Purdue, Penn State, and Michigan all give priority either by years of enrollment or years of ticket purchase; and the remaining schools have a first come, first serve policy.

With growing budget constraints, the Alumni support is obviously very important. To eliminate any negative feelings toward OSU and possible lack of future contributions by professional students, we have proposed to eliminate this discrimination in the current policy by treating all three student bodies equally. Those students in their fourth or fifth year, undergraduate, professional, or graduate school, should be given highest priority, and those in their first year, given lowest priority. Now we submitted this to the Subcommittee on Ticket Allocations which met last week and they rejected it flat out. They had very strong support for undergraduate priority regardless of the situation. However, the issue will be brought up in the next Athletic Council meeting and it will be on the agenda. We are asking the Board of Trustees to consider this matter seriously before this is rejected next week -- which potentially it will. You might be able to do something about it for next year. We are putting together petitions now, we have over 1,000 signatures, but the Subcommittee on Ticket Allocations is just brushing it to the side. They see no room for change. Any questions?

Ms. Paige:

Mark, are you saying that a first-year medical student would be considered a freshman again, or are you saying that you accumulate years, so you would be considered a fifth-year student?

Mr. Slivka:

The other schools accumulate years, but with the way we are set up right now it would be easier if we put everybody at rank one if they are in their first year; everybody that is in their second year, rank two; third year, rank three; fourth year, rank four. Treat all the student bodies equally, and allocate tickets that way.

Mr. Tonnies:

Did you revise your proposal during the discussion at all? Perhaps graduate and professional students could be considered together and leave the undergraduate factor out of it right now. Just have the professional graduate students ranked on years of enrollment or years in an academic unit.

Mr. Slivka:

The graduate and professional students are put in the south stands and the overflow goes into the field seats. All the ticket committee wants to do is put a ranking within ourselves, within the graduate and professional students, but all that would do would be to move us from the first row in the south stands to the top of the south stands. That is what they would like to see done, but that is not worth it to us. I think that is just an escape valve on their part. There is very strong opposition to giving priority to any professional or graduate student, and they are not real specific about the reasons. It seems very trivial, but we, the students, are very serious about this.
Ms. Paige:

Next we will hear from Miss Benneta Burton, President of the Council of Graduate Students.

Ms. Benneta Burton:

First, I would like to respond to Mark. The person on the Athletic Council from the graduate students is proposing that tickets be based on the number of hours. As one accumulates hours, then you would get a greater ranking and better seating for athletic events. I don't know how that will come out, but he is going to propose that within the coming week, so we will find out if that situation changes.

I want to share with you a couple of things that we are doing. You know about the 1991 Graduate Research Forum which will be on April 20. I hope you have received your invitations and would consider coming to the awards luncheon. We have 61 students that were selected by faculty to present their research and we believe that this is an incident where we can showcase the excellent research that occurs at Ohio State.

Along with that, this past Tuesday, we held a workshop on presenting research at academic conferences. The workshop was given by Dr. John Stegman from the College of Business, and Dr. Lowell Pigess from the College of Agriculture, and it was a successful event. We had 60 students and many of them appreciated the topics that were presented. The presenters emphasized, for instance, color visuals aids and being enthusiastic to let them know that your research is the best.

We also have had our first ever child care fair. We had a speaker from the Action for Children Agency, an agency which monitors home care providers. We want to thank Dr. Meeks' office, a lady named Nancy Blosser that told us about the legalities of having a child care fair -- a network where graduate students can exchange hours to share in child watching. She gave various tips about parenting that many of them appreciated. For instance, how to deal with separation anxiety. We had a low number of students and they also brought their children which was interesting. But they really appreciated the fair. We are going to have another one Tuesday April 9.

The committee wants to open it up for any student, faculty, or staff member. I'm kind of hesitant on that matter because I am afraid of the flood. I thought it was very useful and people will benefit from it.

Next, I want to speak about the Governor's budget. I believe it is going to indicate some hard times for Ohio State, but our concern is that graduate students and professional students are not unduly tapped for tuition increases. We don't want to be hit by the kind of increases that perhaps occurred a couple of years ago. We are having Dr. Herb Asher come and speak to the Council about the budget situation. We are also planning a letter writing campaign to our legislators to try and influence them. We want them to invest now in the graduate students, because we are the leadership for tomorrow. That is all that I have to report.

Ms. Paige:

Next, we will hear from Mr. Mike Clark.
April 5, 1991 meeting, Board of Trustees

STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Mike Clark:

Good morning. As we see the year start to draw towards an end, we are looking back and evaluating some of the things we have accomplished. One of our original goals that we set when we first came in office, Jamie and myself, was that in the Spring Quarter if you walked up to any student and ask what USG was, they could tell you something about it. We thought that would be an excellent compliment to the things we have done or accomplishments that we have had. I think next week will be the appropriate time for the students to go ahead and do that -- give us a chance to see how much we have been doing.

Next week, Wednesday and Thursday, we do have our elections for the new student government officers. It is unfortunate that some of them could not make it here this morning. We did tell them about the Board of Trustees, but I think that they are busy being in the middle of the campaign process right now. We have an expected turnout of approximately 20 percent of the student body, which would probably be three times more than in the years past. We think that this will not only be a reflection of what the student government has been doing this year, but that students are emerging from that apathetic role to getting more involved. So we not only want to take advantage of them becoming less apathetic, but we thought we could channel this energy and use it to help the University as a common good.

For example, with the budget crisis coming up, as Benneta has indicated, we are also working on a letter writing campaign. We are going to try and incorporate that somehow in with the election process next week. If we do get that expected 20 percent turnout we are hoping to get about 7,000 letters to the House of Representatives. We are going to be taking those down to the State House to urge our legislators to give higher education a little better mind. So, I want to let you know that.

I think the students are going to be a little more involved this year, than two years ago. I think that we can all work together. Our student government is working with the Senate Committee on Legislative Affairs, Dr. Asher, and the Ohio Student Association, and we will be doing several different testimonies. At this time, I would like to entertain any questions that you may have.

President Gee:

Mike, you mean to say that you were not elected by over 50 percent of the students?

Mr. Clark:

No, I was not.

President Gee:

That is a shocking revelation.
April 5, 1991 meeting, Board of Trustees

STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Clark:

May 16, will be our last day in office; the next meeting, of course, will be our last meeting. Just to let you know, there is a Mike Clark graduation present fund, accepting any donations that you would like to make, of any size whatsoever. I am ending my 5 years as an undergraduate in June.

Ms. Paige:

That concludes the student affairs committee meeting.

--0--

AGRICULTURAL AFFAIRS COMMITTEE REPORT

Ms. Casto:

We had a report today on endowed chairs in the College of Agriculture, which was really interesting. The first chair they talked about was the J. T. (Stubby) Parker Chair Fund in Dairy Foods, which is filled by James Martin, Professor of Food Science and Technology. Dr. Martin conducts research with cultured dairy products, which includes cottage cheese, yogurt, and other fermented foods. He teaches Food Microbiology and Safety and a course in fermented foods.

The Carl E. Haas Chair in Food Industries is filled by Charles V. Morr, Professor of Food Science and Technology. Dr. Morr's major responsibility is to conduct basic applied research to diverse new and improved processing and fractionation technologies for producing soy protein isolates and cheese whey protein concentrates with improved composition, functionality, and flavor.

The next chair that we heard about was The Farm Income Enhancement Endowed Chair by Thomas Sporleder, Professor of Agricultural Economics and Rural Sociology. Dr. Sporleder directs the Farm Income Enhancement Program, a multidisciplinary research and outreach activity, focused on the analysis of innovative means of increasing agricultural income. The primary outreach activities of the Program are conferences and symposia. The Program has a 15-member Advisory Committee composed of farmers and agribusiness leaders. Dr. Sporleder's primary research interests are in the area of marketing and finance.

The Anderson Chair in Agricultural Marketing, Policy and Trade is filled by Luther Tweeten, Professor of Agricultural Economics and Rural Sociology. Dr. Tweeten directs research in agricultural policy, macroeconomic policy affecting agriculture, and international agricultural trade. He teaches courses in agricultural policy and trade. Anderson Chair funds are also used to support graduate students, visiting scholars in residence, and visiting lectureships. The Program Chair travels widely, performing advisory and educational responsibilities with individuals and groups in Ohio, the U.S., and numerous foreign countries.

That concludes my report.

FISCAL AFFAIRS COMMITTEE REPORT

Mr. Shumate:

The Fiscal Affairs Committee is recommending approval for the following resolutions:

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS
Resolution No. 91-108

Synopsis: The Fiscal Affairs Committee recommended the approval of the following reports on contracts, grants, and gifts and the summary for February 1991.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, The Ohio State University Development Fund, and The Ohio State University Foundation:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station, The Ohio State University Development Fund, and The Ohio State University Foundation during the month of February 1991 be approved.

Upon motion of Ms. Casto, seconded by Mr. Teaford, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION

Report - February 1991

Federal Research Contracts/Grants

$1,250,000.00 - National Aeronautics and Space Administration, Washington, D.C., A Center for the Commercial Development of Space: Real-Time Satellite Mapping, Center for Mapping (J. D. Bossler), Department of Geodetic Science and Surveying (G. Barnes, C. C. Goad, K. Novak, and A. F. Schenk), Department of Electrical Engineering (K. L. Boyer), Department of Civil Engineering (M. R. McCord, C. J. Merry, and T. H. Wu), School of Natural Resources (C. D. Tomlin), and Department of Geological Sciences (R. Von Frese), 1 September 1990 through 31 August 1991. (Project 765707 - Continuation)

$409,575.00 - National Science Foundation, Washington, D.C., Graduate Research Fellowship Program, Graduate School Administration (R. A. Koenigsknecht), 1 June 1989 through 30 September 1995. (Project 767907 - Continuation)

$401,000.00 - Department of Education, Washington, D.C., Rehabilitation Engineering Center for the Quantification of Human Performance, Department of Surgery (S. R. Simon), Department of Physical Medicine (W. S. Pease), Department of Computer and Information Science (T. C. Bylander), Department of Electrical Engineering (H. N. Hemami), and Department of Industrial and Systems Engineering (W. S. Marras and P. J. Smith), 1 February 1991 through 31 January 1992. (Project 766622 - Continuation)

$326,489.00 - Department of Health and Human Services, National Cancer Institute, Bethesda, Maryland, Ohio Cancer Information Center, Comprehensive Cancer Center and Department of Preventive Medicine (R. E. Harris), 16 January 1991 through 15 October 1991. (Project 768114 - Continuation)

$224,119.00 - Department of Health and Human Services, National Institute of Mental Health, Rockville, Maryland, Psycho-pathology and Grief in Teenagers Post-Parental Death, Department of Psychiatry (E. B. Weller), 1 February 1991 through 31 January 1992. (Project 768878 - New)

Federal Research Contracts/Grants (contd)

$197,927.00 - Department of Defense, Defense Supply Service, Washington, D.C., Military Adaptation, Mershon Center for Education (A. R. Millett) and Department of History (W. Murray), 1 October 1990 through 28 September 1992. (Project 767852 - Continuation)

$194,825.00 - Department of Health and Human Services, National Institute of Mental Health, Rockville, Maryland, Psychopathology and Grief in Children Post-Parental Death, Department of Psychiatry (E. B. Weller), 1 February 1991 through 31 January 1992. (Project 767244 - Continuation)

$171,405.00 - Department of Health and Human Services, National Institute of Allergy and Infectious Diseases, Bethesda, Maryland, Pre- and Post-Operative T-Cell Function, Department of Surgery (R. M. Ferguson and C. G. Orosz), 1 February 1991 through 31 January 1992. (Project 766505 - Continuation)

$154,587.00 - Department of Health and Human Services, National Institute of Neurological Disorders and Stroke, Bethesda, Maryland, Neuromodulators in Cerebellar Circuitry, Department of Cellular Biology, Neurobiology, and Anatomy (G. A. Bishop), 1 March 1991 through 29 February 1992. (Project 763013 - Continuation)

$142,500.00 - Department of the Navy, Office of Naval Research, Arlington, Virginia, The Physics of Submicron Systems, Department of Physics (J. W. Wilkins), 1 January 1991 through 30 September 1991. (Project 767184 - Continuation)

$117,759.00 - Department of Health and Human Services, National Institute of Child Health and Human Development, Bethesda, Maryland, Parental Occupations and Child Care Effects on Child Outcomes, Department of Sociology (E. G. Menaghan and T. L. Parcel), 1 December 1990 through 30 November 1991. (Project 767980 - Continuation)

$113,000.00 - National Science Foundation, Washington, D.C., Molecular Beam Reactions of Group VA Atoms, Clusters, and Hydrides with Oxidizers and Halogens, Department of Chemistry (J. M. Parson), 1 February 1991 through 31 January 1992. (Project 768857 - New)
April 5, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Federal Research Contracts/Grants (contd)

$111,601.00 - Department of the Navy, Office of Naval Research, Arlington, Virginia, Passivity and Breakdown of Oxide Films on Aluminum Alloys Produced Using Nonequilibrium Processing Methods, Department of Materials Science and Engineering (G. R. St. Pierre), 1 January 1991 through 30 September 1991. (Project 767297 - Continuation)

$109,970.00 - Department of the Navy, Office of Naval Research, Arlington, Virginia, Interdisciplinary Research on Wear of Materials, Department of Materials Science and Engineering (D. A. Rigney), 1 January 1991 through 30 September 1991. (Project 767230 - Continuation)

$101,053.00 - Department of Health and Human Services, National Institute of Child Health and Human Development, Bethesda, Maryland, Effects of Father's Absence: Sociodemographic Analysis, Center for Human Resource Research (F. L. Mott), 1 January 1991 through 31 December 1991. (Project 766858 - Continuation)

$98,747.00 - Department of Health and Human Services, National Institute on Deafness and Other Communication Disorders, Bethesda, Maryland, The Gustatory System: Cellular and Synaptic Organization, Oral Biology (M. C. Whitehead), 1 February 1991 through 31 January 1992. (Project 766592 - Continuation)

$95,000.00 - National Science Foundation, Washington, D.C., Mechanism of Adenylate Kinases, Department of Chemistry (M. D. Tsai), 1 March 1991 through 29 February 1992. (Project 768120 - Continuation)

$88,902.00 - Department of Commerce, National Institute of Standards and Technology, Gaithersburg, Maryland, Physical and Mechanical Properties of Composite Materials, Department of Materials Science and Engineering (R. H. Wagoner), 1 March 1991 through 5 February 1992. (Project 766671 - Continuation)

$81,446.00 - Department of Education, Office of Special Education and Rehabilitation Services, Washington, D.C., Inter-disciplinary Master's Graduate Program in Adapted Physical Education in Association with the Nisonger Center, School of Health, Physical Education, and Recreation (D. L. Porretta), 1 July 1991 through 30 June 1992. (Project 768465 - Continuation)

$80,000.00 - Department of Energy, Argonne, Illinois, Photoinduced Electron Transfer Reactions in Zeolite Cages, Department of Chemistry (P. K. Dutta), 15 January 1991 through 14 January 1992. (Project 767997 - Continuation)

$80,000.00 - National Science Foundation, Washington, D.C., Nonlinear Studies in Magnetic Gamet Films, Department of Physics (P. E. Wigen), 15 January 1991 through 31 December 1991. (Project 768866 - New)
April 5, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Federal Research Contracts/Grants (contd)

$75,000.00 - Department of Health and Human Services, National Cancer Institute, Bethesda, Maryland, Carbonyl Nucleotides Potential DNA Probes for BNCT, College of Pharmacy (A. H. Soloway) and Department of Pathology (R. F. Barth), 1 March 1991 through 28 February 1992. (Project 768886 - New)

$74,521.00 - Department of Education, Office of Special Education and Rehabilitation Services, Washington, D.C., Doctoral Study in Adapted Physical Education Teacher Training and Research, School of Health, Physical Education, and Recreation (P. Jansma), 1 July 1991 through 30 June 1992. (Project 768318 - Continuation)

$72,000.00 - National Science Foundation, Washington, D.C., Superconducting Arrays, Nonlinear Response, and Other Aspects of the Physics of Inhomogeneous Media, Department of Physics (D. G. Stroud), 15 January 1991 through 31 December 1991. (Project 768855 - New)

$70,000.00 - National Science Foundation, Washington, D.C., Theory of Interfacial Phenomena: Dynamics and Statics, Department of Physics (W. F. Saam and C. A. Ebner), 15 December 1990 through 30 November 1991. (Project 768864 - New)

$62,000.00 - Department of Commerce, National Oceanic and Atmospheric Administration, Rockville, Maryland, Sampling and Statistical Treatment of Pollen Rains from Amazonia as Proxies for Climate, Department of Zoology and Department of Anthropology (P. A. Colinvaux), 1 January 1991 through 31 December 1991. (Project 768847 - New)

$60,000.00 - National Science Foundation, Washington, D.C., Biochemistry and Regulation of Daunomycin Biosynthesis, Department of Microbiology (W. R. Strohl), 15 March 1991 through 29 February 1992. (Project 768882 - New)

$54,062.00 - National Science Foundation, Washington, D.C., The Ohio State University Young Science Scholars, Department of Chemistry (M. H. Klapper) and Biological Sciences Administration (A. M. Ackermann-Brown), 15 February 1991 through 31 July 1992. (Project 768186 - Continuation)
Federal Research Contracts/Grants (contd)

$50,000.00 - National Aeronautics and Space Administration, Lewis Research Center, Cleveland, Ohio, The Effects of Magnetic Nozzle Configurations on Plasma Thrusters, Department of Aeronautical and Astronautical Engineering (T. M. York), 1 February 1991 through 1 December 1991. (Project 766488 - Continuation)

$50,000.00 - National Science Foundation, Washington, D.C., The Structure of the Broad-Line Region in Active Galactic Nuclei, Department of Astronomy (B. M. Peterson), 1 February 1991 through 31 January 1992. (Project 768093 - Continuation)

$48,319.00 - National Science Foundation, Washington, D.C., Mapping of Ice Stream B Using SPOT Satellite Data, Byrd Polar Research Center and Department of Civil Engineering (C. J. Merry) and Department of Geological Sciences (I. M. Whillans), 1 January 1991 through 31 December 1991. (Project 768083 - Continuation)

$45,618.00 - Department of Agriculture, Science and Education, Beltsville, Maryland, Agricultural Market Development Opportunities in Asian Pacific Countries, Department of Agricultural Economics and Rural Sociology - OARDC and Department of Agricultural Economics and Rural Sociology (T. L. Sporleder), 1 July 1990 through 30 June 1991. (Project 768448 - Continuation)

$39,321.00 - Department of Health and Human Services, National Heart, Lung, and Blood Institute, Bethesda, Maryland, Cardiac Characteristics in Copper Deficiency, Department of Human Nutrition and Food Management (D. Medeiros), 15 January 1991 through 31 July 1991. (Project 768104 - Continuation)

$37,500.00 - National Science Foundation, Washington, D.C., Presidential Young Investigator Award: Very Large Scale Integration Design of Electronic Circuits, Department of Electrical Engineering (M. I. El-Naggar), 1 January 1991 through 31 December 1991. (Project 766995 - Continuation)

$35,495.00 - Department of Health and Human Services, National Institute of Child Health and Human Development, Bethesda, Maryland, Linking Maternal Employment and Child Care Arrangements to Child Development, Department of Sociology (T. L. Parcel), 1 April 1991 through 30 November 1991. (Project 767226 - Continuation)

$35,000.00 - National Aeronautics and Space Administration, Lewis Research Center, Cleveland, Ohio, High Critical Temperature Superconducting Microwave Components for Space Communications Receivers, Department of Electrical Engineering (G. J. Valco), 7 January 1991 through 6 January 1992. (Project 768851 - New)

$35,000.00 - National Science Foundation, Washington, D.C., Selective Transfer in Tribology, Department of Materials Science and Engineering (D. A. Rigney), 1 July 1991 through 30 June 1992. (Project 768858 - New)
April 5, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Federal Research Contracts/Grants (contd)

$31,981.00  -  Department of Agriculture, Science and Education, Washington, D.C., Institutional Support from the Animal Health and Disease Research Act of 1977, Veterinary Medicine Administration (R. A. Wright), Department of Veterinary Preventive Medicine (H. F. Stills), and Department of Veterinary Pathobiology (D. E. Swayne), 1 October 1990 through 30 September 1991. (Project 762621 - Continuation)

$20,000.00  -  Department of Health and Human Services, National Institute of Dental Research, Bethesda, Maryland, International Conference: Biological Mechanisms of Tooth Movement and Craniofacial Adaptation, Orthodontics (Z. Davidovitch), 20 January 1991 through 31 August 1991. (Project 768568 - Continuation)

$19,680.00  -  Department of the Navy, Office of Naval Research, Arlington, Virginia, Novel Ultrasonic Techniques for Interface Studies, Department of Welding Engineering (L. Adler), 1 July 1991 through 30 September 1991. (Project 768504 - Continuation)

$19,620.00  -  Department of the Navy, Office of Naval Research, Arlington, Virginia, ST1 Antigen in Wounds, Department of Molecular Genetics (R. A. Tassava), 1 July 1990 through 29 February 1992. (Project 768290 - Continuation)

$17,041.00  -  National Science Foundation, Washington, D.C., Permian Plants from Argentina and Antarctica: Distribution in Time and Space, Department of Plant Biology (T. N. Taylor) and Byrd Polar Research Center (E. L. Taylor), 15 December 1990 through 30 November 1992. (Project 768821 - New)

$10,000.00  -  National Science Foundation, Washington, D.C., Conference in the Arithmetic of Function Fields, Department of Mathematics (D. M. Goss), 1 February 1991 through 31 January 1992. (Project 768885 - New)

$9,508.00  -  National Aeronautics and Space Administration, Ames Research Center, Moffett Field, California, Polarized and Non-Polarized Components of Reflectance Considered as Independent Information Sources, Department of Agronomy - OARDC (A. L. Barta), 2 January 1991 through 31 December 1991. (Project 768814 - New)

$5,040.00  -  Nuclear Regulatory Commission, McLean, Virginia, Aging Modeling, Maintenance, and Core Melt Frequency, Department of Mechanical Engineering (T. Aldemir), 10 September 1990 through 10 December 1990. (Project 768841 - New)
April 5, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Federal Research Contracts/Grants (contd)

TOTAL - FEDERAL AWARDS $8,855,380.00

State of Ohio Research Contracts/Grants

$123,156.00 - State of Ohio, Department of Development, Columbus, Ohio, Ohio State University Institute for Japanese Studies, Department of Political Science (B. M. Richardson), 1 July 1990 through 30 June 1991. (Project 768357 - Continuation)

$35,000.00 - State of Ohio, Department of Education, Columbus, Ohio, Gender/Ethnic Expectations and Student Achievement, Department of Agricultural Education (J. M. Cano), 1 July 1990 through 30 June 1991. (Project 768849 - New)

$7,500.00 - State of Ohio, Department of Natural Resources, Columbus, Ohio, Maintaining an Information System to Evaluate the Impacts of Nonpoint Source Controls, Department of City and Regional Planning (S. I. Gordon) and Department of Landscape Architecture (J. W. Simpson), 1 July 1990 through 30 June 1993. (Project 768619 - New)

$7,000.00 - State of Ohio, Rehabilitation Services Commission, Columbus, Ohio, Development of an "Air-Chair" for the Handicapped, Department of Electrical Engineering (H. R. Weed), 1 January 1991 through 30 June 1991. (Project 767277 - Continuation)

$2,809.00 - State of Ohio, Department of Natural Resources, Columbus, Ohio, Inventory of the Nitidulidae in Natural Areas and Preserves of Ohio, Department of Entomology - OARDC (R. N. Williams), 7 January 1991 through 30 June 1992. (Project 768177 - Continuation)

$1,000.00 - State of Ohio, Environmental Protection Agency, Columbus, Ohio, Water Quality and Waste Management Conference, Ohio Cooperative Extension Service - Agricultural Engineering (K. M. Mancl), 1 January 1991 through 1 June 1991. (Project 768865 - New)

$950.00 - State of Ohio, Department of Mental Health, Columbus, Ohio, The Mental Health Act of 1988: The Interpretation and Response of Community Mental Health Boards to Major System Change, Department of Psychology (R. S. Billings), 1 September 1990 through 30 June 1991. (Project 768669 - Continuation)

TOTAL - STATE OF OHIO AWARDS $177,415.00

Industrial Research Contracts/Grants

Industrial Research Contracts/Grants (contd)

$181,125.00 - Pfizer, Inc., Groton, Connecticut, Clinical Pharmacology Unit, Department of Pharmacology (N. Gerber), 1 October 1990 through 30 September 1991. (Project 768809 - Continuation)

$96,870.00 - Astra Pain Control, Sodertalje, Sweden, Novel Drug Delivery Systems, College of Pharmacy (S. G. Frank), 1 January 1991 through 31 December 1991. (Project 762165 - Continuation)

$75,000.00 - Sandoz, Inc., East Hanover, New Jersey, Bone Marrow Transplant Immunological Studies, Department of Internal Medicine (E. A. Copelan and P. J. Tutschka), 1 February 1991 through 31 January 1992. (Project 768887 - New)

$50,000.00 - Mercedes Benz-Unimog, Gaggenau, Germany, Feasibility Study for a North American Unimog, Department of Industrial Design (R. F. Butter), 1 January 1991 through 30 September 1991. (Project 768846 - New)

$41,500.00 - Mobay Corporation, Shawnee Mission, Kansas, Development of an *Ehrlichia canis* Vaccine, Department of Veterinary Pathobiology (Y. Rikihisa), 17 December 1990 through 16 December 1991. (Project 768890 - New)

$40,000.00 - Martin Marietta Corporation, Oak Ridge, Tennessee, Pack Cementation Coating of Iron-Base Alloys, Department of Materials Science and Engineering (R. A. Rapp), 1 December 1990 through 31 March 1991. (Project 766509 - Continuation)

$33,750.00 - Johnson & Johnson, Racine, Wisconsin, Factors Affecting Adoption of Soil and Water Conservation Practices on Ohio Farms, Department of Agricultural Economics and Rural Sociology - OARDC and Department of Agricultural Economics and Rural Sociology (T. L. Napier), 1 January 1991 through 31 December 1991. (Project 768825 - New)

$22,568.00 - Miles, Inc., Elkhart, Indiana, Testing Urines in Asymptomatic Patients with Miles Dipsticks, Department of Family Medicine (R. M. Guthrie) and Department of Pathology (J. A. Lott), 1 February 1991 through 30 December 1991. (Project 768856 - New)

$21,996.00 - Adria Laboratories, Columbus, Ohio, Single Dose Pharmacokinetic and Bioavailability Study of Toremifene in Postmenopausal Healthy Volunteers, Department of Pharmacology (N. Gerber), 1 July 1989 through 30 June 1991. (Project 767554 - Continuation)

$20,316.00 - Burroughs Wellcome Company, Research Triangle Park, North Carolina, A Multicenter, Open, Randomized Comparison of the Safety and Efficacy of Chronic FLOLAN Infusions to Conventional Therapy in Patients with Severe Congestive Heart Failure: A Pilot Study, Department of Internal Medicine (R. C. Starling), 1 February 1991 through 31 January 1992. (Project 768874 - New)
April 5, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Industrial Research Contracts/Grants (contd)

$14,175.00 - Astra Pain Control, Sodertalje, Sweden, Novel Drug Delivery Systems, College of Pharmacy (S. G. Frank), 1 January 1990 through 30 June 1991. (Project 762165 - Continuation)

$10,000.00 - Ross Laboratories, Columbus, Ohio, Pilot Study of Survanta Supplementation in Acute Respiratory Distress Syndrome, Department of Internal Medicine (J. E. Gadek and J. E. Weiland), 15 January 1991 through 14 January 1992. (Project 768808 - Continuation)

$7,061.00 - The Procter & Gamble Company, Cincinnati, Ohio, A Multicenter Trial to Evaluate the Safety and Effectiveness of Peridex, an Oral Rinse Containing 0.12% Chlorhexidine Gluconate, Dosed B.i.D. for Preventing or Delaying the Occurrence of Lesions Due to Oral Candidiasis in HIV-Positive Individuals, Department of Internal Medicine (M. F. Para), 1 July 1990 through 30 June 1991. (Project 768383 - Continuation)

$7,036.14 - Jarrow Formulas, Inc., Los Angeles, California, Early Cancer Detection Method, Department of Radiology (S. M. D'Ambrosio) and Department of Medical Biochemistry (R. W. Trewyn), 1 June 1990 through 31 December 1990. (Project 767284 - Continuation)

$4,860.00 - Brigham and Women's Hospital, Boston, Massachusetts, The Comprehensive Management of Unstable Angina and Non-Q-Wave Myocardial Infarction: The Roles of t-PA and Revascularization, Department of Internal Medicine (R. D. Magorien), 1 August 1990 through 31 July 1991. (Project 768603 - Continuation)

$4,754.00 - Medical Research International, Burlington, Massachusetts, U.S. Thrombolysis Registry, Department of Internal Medicine (R. D. Magorien), 1 January 1991 through 31 December 1991. (Project 768875 - New)

$3,460.00 - Bristol-Myers Company, Princeton, New Jersey, A Comparison of the Combination of Fosinopril 20 mg. and Hydrochlorothiazide 12.5 mg. with Placebo in Patients with Mild to Moderate Hypertension Utilizing 24-Hour Ambulatory Monitoring, Department of Family Medicine (R. M. Guthrie), 1 February 1991 through 31 January 1992. (Project 768871 - New)

Equipment - Computervision, Bedford, Massachusetts, Center for Commercialization of Space Membership Agreement, Center for Mapping (J. D. Bossler), 1 February 1991 through 31 January 1993. (Project 768219 - Continuation) (Approximate Dollar Value - $72,000)

Equipment - Tandy Corporation, Fort Worth, Texas, Comparison of Two Methods of Improving Pediatric Dental Case Presentations Utilizing Videotapes, Pediatric Dentistry (W. F. Waggoner), 1 July 1988 through 30 June 1989. (Project 768877 - New) (Approximate Dollar Value - $2,467.44)

TOTAL - INDUSTRIAL AWARDS $ 862,852.94
Other Non-Federal Research Contracts/Grants

$93,268.00 - University of Maryland, College Park, Maryland, A Pilot Program to Improve Pesticide Management, Department of Entomology - OARDC and Department of Entomology (F. R. Hall), 1 November 1990 through 30 April 1992. (Project 768820 - New)

$84,680.00 - University of Missouri-Rolla, Rolla, Missouri, Interfacial Phenomena in Aluminum Alloys and Salt Systems, Department of Materials Science and Engineering (Y. Sahai and G. R. St. Pierre), 28 September 1990 through 30 September 1992. (Project 768831 - New)

$65,899.00 - Battelle Memorial Institute, Richland, Washington, A Proposal to Develop Oxidation-Resistant Niobium Alloys and Protective Coatings, Department of Materials Science and Engineering (R. A. Rapp), 30 June 1990 through 31 December 1991. (Project 767357 - Continuation)

$65,042.00 - Wright State University, Dayton, Ohio, On-Site Instruction for Vocational Education Instructors in the Southwest Region, Department of Agricultural Education (R. K. Barrick), 1 July 1990 through 30 June 1991. (Project 768870 - New)

$50,000.00 - Muscular Dystrophy Association, Tucson, Arizona, Genetic Abnormalities of the Duchenne Locus and Mental Retardation, Department of Neurology (S. J. Huber), 1 January 1991 through 31 December 1991. (Project 768770 - Continuation)

$50,000.00 - The Woods Hole Research Center, Inc., Woods Hole, Massachusetts, Gaseous Emission in Relation to Soil Degradation and Deforestation, Department of Agronomy - OARDC and Department of Agronomy (R. Lal), 22 August 1990 through 28 August 1992. (Project 768740 - New)

$46,859.00 - Paralyzed Veterans of America, Washington, D.C., The Role of Weightbearing and FES-Induced Exercises on Bone Loss After an Acute Spinal Cord Injury, Department of Physical Medicine (W. J. Mysiw) and Department of Internal Medicine (R. D. Jackson), 1 January 1991 through 31 December 1991. (Project 767303 - Continuation)
REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Other Non-Federal Research Contracts/Grants (contd)

$45,000.00 - American Cancer Society, Atlanta, Georgia, Total Synthesis of Fredericamycin A, Department of Chemistry (L. A. Paquette and J. P. Williams), 1 January 1991 through 31 December 1992. (Project 768868 - New)

$43,273.00 - University Affiliated Cincinnati Center for Developmental Disorders, Cincinnati, Ohio, Ohio Developmental Disabilities Prevention Continuing Education, Nisonger Center (V. L. Reynolds), 1 January 1991 through 31 December 1991. (Project 764528 - Continuation)

$39,200.00 - University of Virginia, Charlottesville, Virginia, Cloning and Purification of a Sperm Membrane Immunogen, Department of Obstetrics and Gynecology (V. C. Stevens), 1 June 1990 through 31 January 1991. (Project 768844 - New)

$35,051.00 - Iowa State University, Ames, Iowa, Spectroscopic Evaluation of Adhesive Bonds: Linear and Nonlinear Methods, Department of Welding Engineering (L. Adler), 1 October 1990 through 30 September 1991. (Project 768844 - Continuation)

$34,000.00 - North Atlantic Treaty Organization, Brussels, Belgium, Survival Analysis and Related Topics, Department of Statistics (J. P. Klein and P. K. Goel), 1 February 1991 through 30 September 1991. (Project 768805 - New)

$32,792.00 - State University of New York at Albany, Albany, New York, Textbook Component of a Russian Language Video Course, Department of Slavic and East European Languages and Literatures (G. L. Ervin), 1 September 1990 through 31 August 1991. (Project 768824 - New)

$30,141.00 - Iowa State University, Ames, Iowa, Nondestructive Evaluation of Structural Adhesive Bonding for Aircraft Applications, Department of Welding Engineering (S. Rokhlin), 1 October 1990 through 30 September 1991. (Project 768833 - Continuation)

$30,000.00 - Iowa State Department of Education, Des Moines, Iowa, Assessment of the Vocational Education Delivery System in Iowa, Center on Education and Training for Employment (R. D. Ryan), 2 January 1991 through 28 January 1991. (Project 768841 - New)

$24,187.00 - Bowling Green State University, Bowling Green, Ohio, On-Site Instruction for Vocational Agriculture Instructors in the Northwest Region, Department of Agricultural Education (R. K. Barrick), 1 July 1990 through 30 June 1991. (Project 767049 - Continuation)

$20,000.00 - Battelle-Pacific Northwest Laboratory, Richland, Washington, A Novel Fermentation Process for Calcium Magnesium Acetate Production from Cheese Whey, Department of Chemical Engineering (S. T. Yang), 20 November 1990 through 31 May 1991. (Project 768781 - New)
April 5, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Other Non-Federal Research Contracts/Grants (contd)

$20,000.00 - Maharishi Ayurveda Foundation, Lancaster, Massachusetts, Research on Natural Products and the Study of Effects of Sound and Light, Department of Pathology (H. M. Sharma), 15 June 1990 through 14 June 1991. (Project 768362 - Continuation)

$20,000.00 - Whitehall Public Schools, Whitehall, Ohio, Policy Research for Ohio Board of Education: Evaluation Plan for the Whitehall City School District, Department of Educational Policy and Leadership (R. B. Donmoyer), 1 October 1990 through 30 September 1991. (Project 768848 - New)

$19,960.00 - National Geographic Society, Washington, D.C., Evolution and Biogeography of Primitive Sunflowers (Barnadesiinae), Department of Plant Biology (T. F. Stuessy), 1 January 1991 through 31 December 1993. (Project 768880 - New)

$18,800.00 - United States Golf Association, Far Hills, New Jersey, Monoclonal Antibody for Rapid Diagnosis of Summer Patch Disease of Turfgrass, Department of Plant Pathology - OARDC and Department of Plant Pathology (W. W. Shane) and Ohio Cooperative Extension Service - Administration and Department of Plant Pathology (S. T. Nameth), 1 February 1990 through 31 January 1992. (Project 765882 - Continuation)

$18,750.00 - Dade County Public Schools, Miami, Florida, Technical Assistance to the Bilingual Vocational Instructional Program, Center on Education and Training for Employment (R. D. Ryan and J. E. Friedenberg), 5 November 1990 through 31 October 1991. (Project 767174 - Continuation)

$7,500.00 - Oklahoma State Department of Vocational-Technical Education, Stillwater, Oklahoma; South Carolina State Department of Education, Columbia, South Carolina; and Idaho Department of Education, Boise, Idaho, National Consortium of State Career Guidance Supervisors, Center on Education and Training for Employment (R. D. Ryan), 1 July 1990 through 30 June 1991. (Project 768406 - Continuation)

$7,000.00 - March of Dimes Birth Defects Foundation, Central Ohio Chapter, Columbus, Ohio, A Workshop on Nutrition and Health Care Needs of Pregnant Teens Taught to GRADS Teachers to Help Reduce the Number of Low Birth Weight Babies in Central Ohio, Department of Home Economics Education (W. L. Hull), 1 January 1991 through 31 December 1991. (Project 768869 - New)

$5,019.00 - Granville Exempted Village School District, Granville, Ohio, Assist the Granville School Education and Work Program (Add-On Tasks), Center on Education and Training for Employment (R. D. Ryan), 1 August 1990 through 31 December 1991. (Project 768555 - Continuation)
April 5, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Other Non-Federal Research Contracts/Grants (contd)

$1,240.00 - Cancer Therapy and Research Foundation of South Texas, San Antonio, Texas, Multidisciplinary Participation in the Cancer Control Activities of the Southwest Oncology Group, Department of Internal Medicine (S. P. Balcerzak), 1 June 1990 through 31 August 1990. (Project 765208 - Continuation)

$1,000.00 - Dr. David L. Nalin, Blue Bell, Pennsylvania, Publication of the Pala Indian Catalogue, Department of History of Art (J. Huntington and S. L. Huntington), 1 November 1989 through 31 March 1991. (Project 767949 - Continuation)

TOTAL - OTHER NON-FEDERAL AWARDS $1,370,364.00

ENGINEERING EXPERIMENT STATION

State Sponsored Research and Development

$50,000.00 - from Ohio Edison Program/ Aerosafe "Design and Testing of a Prototype of the ICED (Internal Circuit Emergency Disconnect) Battery Safety Device," under the direction of the department of Mechanical Engineering for the period April 1, 1990 through March 31, 1991. (312535)

$4,000.00 - additional funding from the Ohio Aerospace Institute, Brookpark, Ohio "Ohio Aerospace Institute Office Support" under the direction of the department of Mechanical Engineering for the period 1/1/91 through 12/31/91. (529838)

TOTAL - STATE SPONSORED RESEARCH AND DEVELOPMENT $54,000.00

Industry and Other Sponsored Research and Development

$111,804.00 - additional funding from Copeland Corp., Sidney, OH, on project "Vibration Transmission Analysis of Scroll Compressor for Reduced Noise," under the direction of the department of Mechanical Engineering for the period April 1, 1990 through March 31, 1992. (529796)

$40,000.00 - from Micro Craft, Tullahoma, Tennessee for "Aircraft Model Wind Tunnel Test," under the direction of the department of Aeronautical and Astronautical Engineering for the period February 1, 1991 through June 30, 1991. (312563)

$14,600.00 - from General Electric, Cincinnati, OH for "Suffolk Model Study," under the direction of the department of Aeronautical and Astronautical Engineering for the period January 1, 1991 through March 31, 1991. (312561)

$10,400.00 - additional funding from General Electric Real Estate and Construction, Cincinnati, Ohio for "One Twelfth Scale Ejector Powered Simulator for the GE 90 Engine through June 30, 1991. (312524, Ext. 5)

$8,160.00 - from 4 sponsors of development projects in the department of Chemical Engineering.
April 5, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

ENGINEERING EXPERIMENT STATION (contd)

Industry and Other Sponsored Research and Development (contd)

$8,120.00 - from the Cleveland Clinic Foundation, Cleveland, Ohio for "Cooperative Research" under the direction of the Biomedical department for the period March 1, 1991 through June 30, 1991. (529877)

$8,000.00 - from Pitney Bowes for a one year membership in "Participating Industry Program to Develop Computer-Aided Machine Design Modules, Phase II," under the direction of the department of Mechanical Engineering for the period January 1, 1991 through December 31, 1991. (312594)

$7,770.00 - from Embassy of the Arab Republic of Egypt, Washington, DC, for "Peace Fellow - Civil Engineering," under the direction of the department of Civil Engineering for the period February 1, 1991 through December 31, 1991. (312562)

$6,200.00 - additional funding from the Edison Welding Institute for "High Radiance Laser Welding," under the direction of the department of Welding Engineering for the period February 1, 1991 through June 30, 1991. (529382)

$4,800.00 - additional funding from Donald Cohen, O.D. for "Ultrasonic Tonometer Program," under the direction of the department of Electrical Engineering extending this project through June 30, 1991. (312457)

$4,590.00 - funding from Acme Resin Corporation for "Evaluation of Thermal Diffusivity of Resin-Bonded Silica Sands," under the direction of the department of Materials Science and Engineering for the period February 1, 1991 through April 30, 1991. (312564)

$(9,000.00) - reimbursed to Aerosafe, Inc., Dublin, Ohio for "Design and Testing of a Prototype of the ICED Battery Safety Device," under the direction of the department of Mechanical Engineering for the period April 1, 1990 through September 30, 1990. (312535)

TOTAL - INDUSTRY AND OTHER SPONSORED RESEARCH $ 215,444.00

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Funds

The Richard W. Trott Professorship Fund

The Richard W. Trott Professorship Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the estate of Richard W. Trott, his family, friends and colleagues in honor and memory of Richard W. Trott (B.Arch. '61, summa cum laude).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.
April 5, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Establishment of Named Funds (contd)

The Richard W. Trott Professorship Fund (contd)

The annual income and additional gifts shall be added to the principal until the minimum level necessary to establish an endowed professorship has been reached. Subsequently, the annual income shall be used to provide support for the work of a Distinguished Visiting Professor recommended by the Director of the School of Architecture through the Dean of the College of Engineering to the Provost, and approved by the Board of Trustees. The Trott Professor would be a nationally acclaimed architectural designer who would be in residence for one or more quarters, would teach design studios, interact with faculty and students, and make public presentations. A Distinguished Visiting Professor is a realistic way to give the students an opportunity to work with a nationally recognized design professional.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, school director, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Myrtle Wolcott Cram Scholarship Fund

The Myrtle Wolcott Cram Scholarship Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the estate of Myrtle Wolcott Cram (B.S.H.E. '20, and B.A., Arts and Sciences, '20).

All gifts are to be invested in the University's permanent endowment fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide undergraduate or graduate student scholarships, associateships, or fellowships in the College of Human Ecology.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Myrtle Wolcott Cram Memorial University Scholarship Fund

The Myrtle Wolcott Cram Memorial University Scholarship Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with a bequest to The Ohio State University Development Fund from Myrtle Wolcott Cram (B.S.H.E. '20, and B.A., Arts and Sciences, '20).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

1044
Establishment of Named Funds (contd)

The Myrtle Wolcott Cram Memorial
University Scholarship Fund (contd)

The annual income shall be used to provide one or more undergraduate merit scholarships for Presidential Scholars, Distinguished Scholars, Medalist Scholars, and/or University Scholars. This merit scholarship initiative is the result of recommendations from the 1990 University Task Force on Undergraduate Recruitment and the 1990-1991 Undergraduate Recruitment Implementation Steering Committee to the Senior Vice President for Academic Affairs and Provost. Students shall be selected based upon the criteria sanctioned by the Senior Vice President for Academic Affairs and Provost and administered by the University Honors Center in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Richard J. Solove Chair in Cancer Medical
Therapeutics Research Fund

The Richard J. Solove Chair in Cancer Medical Therapeutics Research Fund for The Arthur G. James Cancer Hospital and Research Institute was established April 5, 1991, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from Richard J. Solove, (B.S.Pharm. '48).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide salary and program support for the work of a distinguished scholar, researcher, and teacher in the field of developmental therapeutics in The Arthur G. James Cancer Hospital and Research Institute. Appointment to the Chair will be recommended by the Director of The Arthur G. James Cancer Hospital and Research Institute and the Vice President for Health Services to the Provost, and approved by the Board of Trustees.

In the event that a cure for cancer is found or a substantial impact has been made in the field of cancer research as to render the use of the income from this Richard J. Solove Endowed Chair unnecessary or ineffectual, or The Arthur G. James Cancer Hospital and Research Institute is phased out, or its work terminated, then this endowment shall support the Richard J. Solove Research Chair in the field of Pharmaceutical Sciences in the College of Pharmacy at The Ohio State University.
Establishment of Named Funds (contd)

The Richard J. Solove Chair in Cancer Medical Therapeutics Research Fund (contd)

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund, either in The Arthur G. James Cancer Hospital and Research Institute or in the College of Pharmacy, should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the Director of The Arthur G. James Cancer Hospital and Research Institute and the Vice President for Health Services, in order to carry out the desire of the donor.

The Presidents Club University Scholarship Fund

The Presidents Club University Scholarship Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from members of The Presidents Club.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more merit scholarships for Presidents Club University Scholars. Should the fund grow sufficiently, it may be used to support Presidential Scholars, Distinguished Scholars, or Medalist Scholars. This merit scholarship initiative is the result of recommendations from the 1990 University Task Force on Undergraduate Recruitment and the 1990-1991 Undergraduate Recruitment Implementation Steering Committee to the Senior Vice President for Academic Affairs and Provost. Students shall be selected based upon the criteria sanctioned by the Senior Vice President for Academic Affairs and Provost and administered by the University Honors Center in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Dallas/Fort Worth Alumni Scholarship Fund

The Dallas/Fort Worth Alumni Scholarship Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from alumni and friends in the Dallas/Fort Worth, Texas, area.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.
April 5, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Establishment of Named Funds (contd)

The Dallas/Fort Worth Alumni Scholarship Fund (contd)

The annual income shall be used to provide one or more scholarship awards to students from the Dallas/Fort Worth area to attend The Ohio State University. The selection of the scholarship recipients shall be made by the University Committee on Student Financial Aid in coordination with the Dallas/Fort Worth Alumni Scholarship Committee. The dollar value and the number of scholarship awards shall be at the discretion of the Alumni Scholarship Committee in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Herbert G. Utz Memorial Scholarship Fund

The Herbert G. Utz Memorial Scholarship Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the Utz family, Complete General Construction Company, the Ohio Contractors Association, and friends of Herbert G. Utz (B.C.E. '61).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide an annual scholarship to a Civil Engineering student(s). Preference shall be given to a student(s) who is a U.S. citizen, a resident of the State of Ohio, and a graduate or undergraduate majoring in construction. Selection of the award recipients shall be made by the chairperson of the Department of Civil Engineering, upon recommendations from the Department's Scholarship and Awards Committee, and in consultation with the University Committee on Student Financial Aid. The award presentation shall be made at the Ohio Contractors Association's annual winter conference held in December. The Department of Civil Engineering shall also provide an annual report to the descendants of Herbert G. Utz.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Ava King Brown Endowed Scholarship Fund

The Ava King Brown Endowed Scholarship Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the Brown family and Wyandot, Inc.
April 5, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Establishment of Named Funds (contd)

The Ava King Brown Endowed Scholarship Fund (contd)

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

Twenty percent (20%) of the annual income shall be added to the fund’s principal. The remaining eighty percent (80%) shall be used to provide one or more scholarships or scholarship/loans to deserving students of merit who are attending The Ohio State University at Marion. Selection of the scholarship recipients is to be made upon the recommendation of The Ohio State University Marion Campus Scholarship Committee in consultation with the Dean of the Marion Campus and the University Committee on Student Financial Aid. Preference shall be given to those students of sophomore or higher rank who are pursuing studies in social work, psychology, or other helping professions. Criteria shall include a minimum overall GPA of 3.0 or record reflecting high academic potential and scholastic ability, financial need, and an interview with the Marion Campus Scholarship or Honors Committee in consultation with the Director of Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Fuller Conservation Endowment Fund

The Fuller Conservation Endowment Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from J. Osborn Fuller, Professor Emeritus, Geological Sciences.

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support research by the Department of Geological Sciences at the site southeast of Zanesville, Ohio, known as "The Wilds", (known legally as the International Center for the Preservation of Wild Animals).

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.
Establishment of Named Funds (contd)

The Dr. George R. App Periodontal Endowment Fund

The Dr. George R. App Periodontal Endowment Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from alumni and friends of George R. App (D.D.S. '55, and M.S., Dentistry, '59).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be allowed to accumulate and expand through interest for the next four years through June 1994, at which time, beginning in 1994, and for every year thereafter, as ample funds are made available, the third-year postdoctoral students will be granted funds to attend the annual American Academy of Periodontology Meeting. This funding is to include transportation and lodging as funds are made available. Should sufficient additional funds be available from accrued interest, then, in turn, second- and then first-year postdoctoral students would receive consideration to be funded to attend the annual American Academy of Periodontology Meeting. The responsibility for the use of this income will be under the direct supervision of the chairperson of the Section of Periodontics and the Dean of the College of Dentistry.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Jane Peppard Endowed Scholarship Fund

The Jane Peppard Endowed Scholarship Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from her friends.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

Twenty percent (20%) of the annual income shall be added to the fund's principal. The remaining eighty percent (80%) shall be used to provide scholarship assistance to qualified students who are enrolled at The Ohio State University, Marion Campus.

The scholarship awards will be made to students who are residents of Marion County and who have demonstrated (1) financial need, or (2) a high degree of academic potential, or (3) scholastic ability. Should income from this fund not be awarded in any given year, then the income is to be added to the fund's principal. Selection of the scholarship recipients will be made by the University Committee on Student Financial Aid and one member of the Peppard family upon the recommendation of the Dean and Director of The Ohio State University at Marion.

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Establishment of Named Funds (contd)

The Jane Peppard Endowed Scholarship Fund (contd)

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Virginia M. Vivian Graduate Research in Human Nutrition Endowment Fund

The Virginia M. Vivian Graduate Research in Human Nutrition Endowment Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from friends, family, and faculty.

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support graduate student research projects in human nutrition at the direction of the chairperson of the Department of Human Nutrition and Food Management, or the chairperson’s designee(s).

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Theodore R. Simson Mortgage Banking and Banking Fund

The Theodore R. Simson Mortgage Banking and Banking Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from The Simson First Foundation in the name of Mr. Theodore R. Simson (B.S.Bus.Adm. ’39).

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to fund supplies, operator, and other material needed to videotape presentations by prominent lecturers in the field of mortgage banking or banking. The income from this fund also can be used for studies and activities relating to "future competitive directions to be taken by mortgage banking firms and small community banks."
April 5, 1991 meeting, Board of Trustees

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Establishment of Named Funds (contd)

The Theodore R. Simson Mortgage Banking and Banking Fund (contd)

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Design Group, Inc., Minority Scholarship Fund

The Design Group, Inc., Minority Scholarship Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the firm Design Group, Inc., of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be distributed to the Department of Architecture to be used to fund the Design Group, Inc., Minority Scholarship. The recipient of the scholarship will be an outstanding black American student in need of financial assistance who is enrolled in the Department of Architecture at The Ohio State University. The student will be selected by the Department of Architecture Scholarship Committee in coordination with the representative(s) of Design Group, Inc., and in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist, or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees, with preference given to recommendations from the donor. In the absence of the donor, another use shall be designated following consultation with the appropriate officer, in order to carry out the intent of the donor.

The Leppo Scholarship Fund

The Leppo Scholarship Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Leppo, Inc., Tallmadge, Ohio. These gifts are presented by Dale Leppo and Linda Kallerud in honor of their parents, Richard and Thelma Leppo, on the occasion of their fortieth wedding anniversary.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.
Establishment of Named Funds (contd)

The Leppo Scholarship Fund (contd)

The annual income shall be used to provide scholarships to students enrolled in Power Equipment Technology at the Agricultural Technical Institute. Scholarship recipients shall be chosen by the Agricultural Technical Institute's financial aid coordinator in consultation with the chairperson of the Engineering Technologies Division and other appropriate faculty, under the guidelines established by the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Bevlyn Simson Painting Exhibition Fund

The Bevlyn Simson Painting Exhibition Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Bevlyn Thall Simson (B.F.A. '69, and M.F.A. '72), a professional artist.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to fund an invitational exhibition of painting and printmaking and should be held every second year for artists who have been graduated from the College of The Arts at The Ohio State University and have been working as professional artists for at least five years since graduation. The chairperson of the Department of Art shall be responsible for administering the fund.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

Change in Description of Named Funds

The Robert E. Georges Scholarship Fund

The Robert E. Georges Scholarship Fund was established November 4, 1988, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from corporations and friends of Robert E. Georges (B.S.Bus.Adm. '56), Associate Dean and Associate Professor Emeritus (1987) and recipient of the Distinguished Affirmative Action Award (1986) and Distinguished Service Award (1989). The description was revised April 5, 1991.
REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Change in Description of Named Funds (contd)

The Robert E. Georges Scholarship Fund (contd)

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide a scholarship(s) to any senior in the undergraduate program in the College of Business in good standing who is recommended by any faculty chairperson and approved by the College of Business Scholarship Committee, in coordination with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees with preference given to recommendations from the appropriate administrative official of the University who is then directly responsible for undergraduate education in the College of Business, in order to carry out the desire of the donors.

The Paul G. Korn and Gary B. Korn Scholarship Fund

The Paul G. Korn and Gary B. Korn Scholarship Fund was established April 8, 1988, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the Estate of Aunalee S. Korn, Sidney, Ohio. The description was revised April 5, 1991.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for a scholarship for an undergraduate student with demonstrated financial need who is enrolled in Human Nutrition and Food Management, with a stated interest in the Food Industry. Selection will be made each year by the Dean of the College of Human Ecology, or the dean’s appointee, in consultation with the University Committee on Student Financial Aid and the Department of Human Nutrition and Food Management.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The L. Charles Nicklaus Golf Scholarship Fund

The L. Charles Nicklaus Golf Scholarship Fund was established February 1, 1974, by the Board of Trustees of The Ohio State University, with a gift through The Ohio State University Development Fund from Jack W. Nicklaus (A.A.D. '72) of North Palm Beach, Florida, in memory of his father, L. Charles Nicklaus (B.S. Phar. '35) of Columbus, Ohio. The description was revised April 5, 1991.
Change in Description of Named Funds (contd)

The L. Charles Nicklaus Golf Scholarship Fund (contd)

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to help fund the scholarship costs (grant-in-aid) of Ohio State student-athletes who are members of the men's varsity golf team. Selection of the award recipients shall be made upon the recommendation of the golf coach and approved by the Director of Athletics and the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Minnie Price Scholarship Fund

The Minnie Price Scholarship Fund was established June 6, 1947, by the Board of Trustees of The Ohio State University in honor of Miss Minnie Price on the occasion of her twenty-fifth anniversary of service in Ohio with gifts to The Ohio State University Development Fund from her many friends and admirers through the Home Demonstration Councils of the State of Ohio. The fund was revised April 5, 1991.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for scholarship awards to students in the College of Human Ecology. Selection of the award recipients shall be made by the Dean of the College of Human Ecology, or the dean's designee, in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

Change in Name and Description of Named Fund

The C. H. Summerson Endowment Fund

The Orton Hall Fund was established March 2, 1990, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from anonymous and multiple donors. The name and description of the fund were revised April 5, 1991.
April 5, 1991 meeting, Board of Trustees

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Change in Name and Description of Named Fund (contd)

The C. H. Summerson Endowment Fund (contd)

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to purchase rare books, journal back issues, books, and other materials for the Orton Memorial Library of Geology which go beyond the normal acquisitions provided by the University. Disbursement of the income shall be determined by the library representative and the Geology librarian with advice from the faculty and suggestions from the Alumni Advisory Committee.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

THE OHIO STATE UNIVERSITY FOUNDATION

Approval of Description and Establishment of Fund

The Betty Frank Schoenbaum Critical Difference For Women Re-Entry Scholarship Fund

The Betty Frank Schoenbaum Critical Difference for Women Re-Entry Scholarship Fund was established April 5, 1991, by the Board of Trustees of The Ohio State University through funds received by the University from The Ohio State University Foundation from Betty Frank Schoenbaum of Longboat Key, Florida, and Charleston, West Virginia.

Income provided by the Foundation shall be used to provide scholarships for women returning to school after a break in their education. Students will be selected upon the recommendation of the Critical Difference Re-Entry Scholarship Committee, and in consultation with the Office of Student Financial Aid.

April 5, 1991 meeting, Board of Trustees

REPORT OF AWARD OF CONTRACTS AND
ESTABLISHMENT OF CONTINGENCY FUNDS

Resolution No. 91-109

MECHANICAL IMPROVEMENTS (CUNZ HALL);
BRIDGE AND STREET IMPROVEMENTS (FYFFE ROAD, PHASE I);
CLINICAL MAGNETIC RESONANCE IMAGING FACILITY - PHASE II; and
DOAN HALL - 1 CENTER RENOVATION

Synopsis: Approval of the Report of Award of Contracts and the Establishment of Contingency Funds for the Mechanical Improvements (Cunz Hall), Bridge and Street Improvements (Fyffe Road, Phase I), Clinical Magnetic Resonance Imaging Facility - Phase II, and Doan Hall - 1 Center Renovation projects is recommended.

WHEREAS resolutions adopted by the Board of Trustees on May 4, 1989, authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established State of Ohio and University procedures, and if satisfactory bids were received to recommend the award of contracts for the following projects: Mechanical Improvements (Cunz Hall) and Bridge and Street Improvements (Fyffe Road, Phase I); and

WHEREAS resolutions adopted by the Board of Trustees on October 5, 1990, and November 2, 1990, authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established University procedures, and if satisfactory bids were received, to award contracts for the following projects: Clinical Magnetic Resonance Imaging Facility - Phase II and Doan Hall - 1 Center Renovation:

NOW THEREFORE

BE IT RESOLVED, That pursuant to the actions previously authorized by the Board, the Report of Award of Contracts and Establishment of Contingency Funds for the Mechanical Improvements (Cunz Hall), Bridge and Street Improvements (Fyffe Road, Phase I), Clinical Magnetic Resonance Imaging Facility - Phase II, and Doan Hall - 1 Center Renovation projects is hereby approved.

Mr. Teaford:

I noticed that we adopted the resolution to go out and get construction bids on Cunz Hall nearly two years ago, and I was wondering why it took so long?

Mr. Nichols:

This is one of the projects that is in the basic renovation section of the Capital Bill, and each two-year biennium we approve those in mass, so they are then worked on throughout the biennium. Approximately four months ago we approved a large group which will be worked on now for the next biennium.

Upon motion of Mr. Shumate, seconded by Mr. Teaford, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXVII for background material and tabulation of bids, page 1063.)

April 5, 1991 meeting, Board of Trustees

PURCHASE OF BUILDING OCCUPANCY RIGHTS
AND PURCHASE OF REAL PROPERTY

Resolution No. 91-110

Synopsis: The purchase of the occupancy rights to the building at 33 West 11th Avenue and the purchase of unimproved real property at 36-40 West Tenth Avenue, in Columbus, Ohio, are proposed.

WHEREAS the Ohio State Bar Association (OSBA) and the Ohio State Bar Foundation (OSBF) have exclusive occupancy rights to the Ohio Legal Center located at 33 West 11th Avenue in Columbus, Ohio, on land owned by The Ohio State University, pursuant to an agreement entered into with the University in 1960 whereby funds to construct the building were donated to the University by OSBF; and

WHEREAS OSBA owns two unimproved lots at 36-40 West Tenth Avenue in Columbus, Ohio; and

WHEREAS OSBA and OSBF desire to relocate their operations to a new facility being constructed for that purpose and wish to sell their building occupancy rights and the two unimproved lots to the University; and

WHEREAS the appropriate University offices have determined that the purchase of the occupancy rights to this building and these two lots is in the best interest of the University; and

WHEREAS two appraisals done in 1989 established the value of these improvements and property at between $975,000.00 and $1,038,000.00, and OSBA and OSBF have agreed to sell their building occupancy rights and the two lots to the University for $890,000.00:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to purchase, in the name of The Ohio State University, the occupancy rights to the building at 33 West 11th Avenue from OSBA and OSBF for a price not to exceed $765,000.00 and to be authorized, in the name of the Board of Trustees of The Ohio State University, to purchase the two unimproved lots at 36-40 West Tenth Avenue from OSBA at a price not to exceed $125,000.00, subject to the approval of the Ohio Board of Regents and the State Controlling Board, both purchases being upon such terms and conditions as are deemed to be in the best interest of the University.

Mr. Teaford:

The free interest in the property is, I take it, the University's as opposed to the Board of Trustees, and that is why we require it that way?

Mr. Nichols:

That is correct.

Mr. Barone:

Also, the litigation as to the tax is for the ownership?
April 5, 1991 meeting, Board of Trustees

PURCHASE OF BUILDING OCCUPANCY RIGHTS
AND PURCHASE OF REAL PROPERTY (contd)

Mr. Nichols:

It is in the tax appeals opposed to litigation.

Upon motion of Mr. Shumate, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXVIII for background material and map, page 1073.)

LEASE OF RESEARCH PARK FACILITY
TO THE EDISON WELDING INSTITUTE

Resolution No. 91-111

1100 KINNEAR ROAD
COLUMBUS, OHIO

Synopsis: A new lease of the Research Park Facility at 1100 Kinnear Road in Columbus to the Edison Welding Institute is proposed.

WHEREAS pursuant to authority granted by the Board of Trustees, The Ohio State University is a member of the Edison Welding Institute, Inc.; and

WHEREAS since January 1985, the University has leased to EWI the property at 1100 Kinnear Road to house the operations of EWI; and

WHEREAS that lease has expired and EWI and the University desire to enter into a new five-year lease, at a rental rate of $289,600.00 per year; and

WHEREAS the appropriate University offices have determined that this lease is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized, on behalf of the Board of Trustees of The Ohio State University, to negotiate and enter into a lease of the property located at 1100 Kinnear Road to the Edison Welding Institute, Inc., at a rental rate of $289,600.00 per year, upon such other terms and conditions as are deemed to be in the best interest of the University, including the negotiation and execution of an affiliation agreement with the Edison Welding Institute.

Mr. Teaford:

Am I correct that until we were paying this $10,000 a month, the rental was indeed simply tripled, but at zero.

Mr. Nichols:

That is correct.
April 5, 1991 meeting, Board of Trustees

LEASE OF RESEARCH PARK FACILITY TO THE EDISON WELDING INSTITUTE (contd)

1100 KINNEAR ROAD COLUMBUS, OHIO (contd)

Mr. Teaford:

This doesn't go back to the beginning of the $10,000 payments?

Mr. Nichols:

No. It starts as soon as we sign the lease.

Upon motion of Mr. Shumate, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXIX for background material and map, page 1077.)

REAFFIRMATION OF ADOPTION OF THE NOISE COMPATIBILITY STUDY FOR THE OHIO STATE UNIVERSITY AIRPORT

Resolution No. 91-112

Synopsis: Reaffirmation of the Board's previous adoption of the Noise Compatibility Study for the University Airport is recommended.

WHEREAS on February 2, 1990, the Board of Trustees adopted The Ohio State University Airport Noise Compatibility Study (1989-1994); and

WHEREAS a public hearing conducted by the University on March 28, 1990, supported adoption of the Study and resulted in additional materials and testimony that were included in the Study as submitted to the Federal Aviation Administration:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees reaffirms its adoption of the Noise Compatibility Study (1989-1994) and adopts the final Study documents, dated March 1990, including the materials resulting from the public hearing conducted on March 28, 1990, and authorizes the President and/or Acting Vice President for Business and Administration to sign the Study's certifications and take whatever other action may be required to submit the Study to the Federal Aviation Administration for review and approval, including a request that the FAA adopt, as the official five-year forecast noise exposure map, the 1994 Recommended Noise Exposure Map included within the Study.

Upon motion of Mr. Shumate, seconded by Mr. Teaford, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXX for background material, page 1081.)

--0--
April 5, 1991 meeting, Board of Trustees

Mr. Shumate:

Madam Chairperson, additionally this morning it is both my pleasure and my honor on behalf of the Board of Trustees to present a special expression of appreciation. By way of background on November 25, 1990, Dr. Frederick E. Hutchinson, Senior Vice President for Academic Affairs and Provost, suffered a heart attack while bicycling on the Olentangy Bike Path near State Route 161. Falling from his bike, he also lacerated a kidney and suffered a mild concussion.

At the scene, four individuals, who are with us this morning, rendered invaluable assistance in the first critical moments after the heart attack. Mr. Joe Strickland, who was walking nearby, immediately ran to Dr. Hutchinson's assistance. Mr. Mike Shurig stopped his car and administered CPR. Ms. Ellen Wells, a registered nurse, also stopped her car and greatly assisted in giving CPR. Ms. Nicole Block, who lives in the house closest to the scene, called the emergency squad. We are very appreciative of those efforts and on behalf of the Board of Trustees we would like to express our appreciation and make a presentation.

EXPRESSION OF APPRECIATION

Resolution No. 91-113

Synopsis: The Board of Trustees extends its sincere appreciation to Ms. Nicole Block, Mr. Mike Shurig, Mr. Joe Strickland, and Ms. Ellen Wells for their assistance to Dr. Frederick Hutchinson at the time of his heart attack.

WHEREAS Dr. Frederick E. Hutchinson, Senior Vice President for Academic Affairs and Provost, suffered a heart attack on November 25, 1990; and

WHEREAS Ms. Nicole Block, Mr. Mike Shurig, Mr. Joe Strickland, and Ms. Ellen Wells came to Dr. Hutchinson's aid at the scene and rendered immediate life-saving assistance to him; and

WHEREAS the actions of these individuals demonstrate the best qualities of concern and human caring for others in times of dire need:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees of The Ohio State University, on behalf of the entire University Community, express their sincere and deep appreciation to Ms. Nicole Block, Mr. Mike Shurig, Mr. Joe Strickland, and Ms. Ellen Wells for the immediate life-saving help they gave to Dr. Hutchinson and commend them for their good and caring citizenship.

Upon motion of Mr. Shumate, seconded by Mr. Teaford, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Mrs. Bowser:

We are certainly glad to have you with us.

--0--
April 5, 1991 meeting, Board of Trustees

Thereupon the Board adjourned to meet Friday, May 3, 1991, at The Ohio State University Agricultural Administration Building, Columbus, Ohio.

Attest:

Madison H. Scott  Shirley D. Bowser
Secretary      Chairperson
APPENDIX LXVII

MECHANICAL IMPROVEMENTS (CUNZ HALL); BRIDGE AND STREET IMPROVEMENTS (FYFFE ROAD, PHASE I); CLINICAL MAGNETIC RESONANCE IMAGING FACILITY - PHASE II; AND DOAN HALL - 1 CENTER RENOVATION

Adopted by the Board of Trustees, April 5, 1991
(See page 1056)
Report of Award of Contracts and Establishment of Contingency Funds

Background

Cunz Hall Mechanical Improvements

This project will modify the existing air-handling equipment including replacement of the existing cooling tower, tower foundation, and chiller for the 66,000 square foot building. The total project cost is $279,546.00; funding is provided from Senate Bill 336. The estimated completion date is September 1991. The contracts awarded are as follows:

General Contract: Righter Company, Inc., Columbus, Ohio
Amount: $21,186.00
Estimate: $19,800.00

HVAC Contract: Swain Mechanical Contracting, Hilliard, Ohio
Amount: $168,730.00
Estimate: $160,490.00

Electric Contract: Kahls Electric, Inc., Mansfield, Ohio
Amount: $37,886.00
Estimate: $31,970.00

Total All Contracts: $227,782.00

Contingency Allowance: $18,479.00 (8% of construction cost)

Total Project Cost: $279,546.00

Report of Award of Contracts and Establishment of Contingency Funds (Contd)

Background (contd)

Fyffe Road Improvements, Phase I

This project will repair and resurface approximately 7,500 square yards of asphalt paving from Lane Avenue to Buckeye Village. The repairs include rebuilding a major portion of the base which has failed due to age and heavy use. The total project cost is $157,599.00; funding is provided from Senate Bill 336. The estimated completion date is September 1991. The contract awarded is as follows:

General Contract: Greensboro Corporation, Columbus, Ohio

APPENDIX LXVIII

PURCHASE OF BUILDING OCCUPANCY RIGHTS
AND PURCHASE OF REAL PROPERTY

Adopted by the Board of Trustees, April 5, 1991
(See page 1057)
Purchase of Building Occupancy Rights 
and Purchase of Real Property 

Background 

Location and Description 

The Ohio Legal Center Building is located at 33 West 11th Avenue, on the south side of the street, one block west of North High Street. The three-story building, of brick and limestone construction, contains approximately 24,400 gross square feet. It was built in 1962 and is in good condition given its age. The building is located on approximately 0.77 acre owned by The Ohio State University. To the rear of the building, across an alley, are two unimproved lots at 36-40 West Tenth Avenue, totaling approximately 0.314 acre. These lots are owned by the Ohio State Bar Association and provide parking for the Ohio Legal Center.

Present use of the Building 

In 1960, the Ohio State Bar Association (OSBA), the Ohio State Bar Foundation (OSBF), and the University entered into a cooperative agreement whereby the OSBF donated $647,400.01 to the University, with the money being used to construct the Ohio Legal Center building for use by the OSBA and OSBF. Under the agreement, the University provides all maintenance and repair, except for utilities. OSBA and OSBF have exclusive occupancy rights to the building. In the event the University needs the building for University purposes or wants to sell the building, the University must compensate OSBF for the reasonable value of the building. The building was constructed on land acquired by the University in 1960, and the University retained title to the land.

Proposed Purchase 

The OSBA has determined that the building no longer is adequate to serve the needs of the OSBA and its related organizations, and, in consultation with the University, decided it would not be feasible to expand these facilities. As a consequence, OSBA and OSBF decided to relocate their operations to a new facility in a different location and to sell back to the University their exclusive occupancy rights to the building and to sell the two lots on West Tenth Avenue. OSBA has under contract the construction of a new facility just off West Fifth Avenue adjacent to the Scioto River, and expects that facility to be completed in March 1991.

An MAI appraisal conducted for the University by Wilhelm and Associates in May 1989, valued the improvements at 33 West 11th Avenue at $880,000.00 and the two lots at 36-40 West Tenth Avenue at $150,000.00 (a total valuation of $1,038,000.00). An MAI appraisal done for OSBA by the Robert Weller Company in April 1989, valued the improvements at 33 West 11th Avenue at $850,000.00 and the lots on West Tenth Avenue at $125,000.00 (a total valuation of $975,000.00). The University and the OSBA have negotiated a price of $890,000.00. The funds for the purchase would be provided from the Land Purchase Account.

The price reflects agreement among the parties that Ohio State shall be responsible for any real property taxes should there be a final judicial determination that the property is not exempt from taxation. (The 1960 agreement is silent on this issue; at that time the property was exempt. However, it was placed back on the tax duplicate in the early 1980's, and that matter is in litigation.)

The building would be used by the University to provide much needed office and support space for University programs and offices. The two lots would continue to be used for parking.
APPENDIX LXIX

1100 KINNEAR ROAD
COLUMBUS, OHIO

Adopted by the Board of Trustees, April 5, 1991
(See page 1058)
Lease of Research Park Facility
to the Edison Welding Institute

1100 Kinnear Road
Columbus, Ohio

Background

In 1984, the Edison Welding Institute was formed as an Ohio nonprofit corporation to conduct programs of research, development, education, training, and technology transfer in the fields of welding and allied technologies. The original funding included $4.1 million in matching funds from the State of Ohio's Edison Partnership Program. Pursuant to authorization by the Board of Trustees in November 1984, The Ohio State University is a member of EWI, with two representatives on the Institute's Board. Currently, EWI has about 80 employees and an annual budget of approximately $9 million.

In October 1984, the Board of Trustees authorized the purchase of the property at 1100 Kinnear Road to provide space to house EWI in the University's Research Park. The University purchased this property at a price of $825,000.00 from Allis Chalmers, Inc. The property consists of an office/research/shop building containing approximately 46,500 gross square feet located on a 5.6 acre tract. The University subsequently invested approximately $2 million to renovate the facility for EWI's special use.

As a part of Ohio State's involvement in EWI, the University entered into a five-year lease of this space to EWI. Under the lease, EWI paid for all direct, interior operating costs (e.g., custodial services and utilities); the University considered the remainder of the rental value as a part of its contribution toward the successful establishment of this new research venture. That lease expired in December 1989. While new arrangements were being negotiated, the lease was extended at a cash rental rate of $10,000.00 per month.

The proposed lease is for a five-year period, with a negotiated rental rate of $289,600.00 per year ($24,133.33 per month). This rental rate covers all of the University's operating and maintenance costs, depreciation on the improvements, and interest on the purchase loan. As a condition of the lease, EWI and the University will negotiate and enter into an official affiliation agreement. The lease also provides that either party has the right to cancel upon one year's notice.

A real estate evaluation commissioned by EWI estimated the fair market rent at $289,600.00 per year. An MAI appraisal by Wilhelm and Associates in June 1989, placed the fair market rental value at $325,388.00 to $360,251.00.

EWI desires to increase the amount of space for its operation, and the University will negotiate the terms, including full-cost recovery, of providing an addition to the building. These negotiations still are in the preliminary planning stages.

APPENDIX LXX

REAFFIRMATION OF ADOPTION OF THE NOISE COMPATIBILITY STUDY FOR THE OHIO STATE UNIVERSITY AIRPORT

Adopted by the Board of Trustees, April 5, 1991
(See page 1059)
Reaffirmation of Adoption of the Noise Compatibility Study for The Ohio State University Airport

Background

In June 1986, the University accepted a Federal Aviation Administration grant to conduct an update of the University Airport Master Plan (1987-2007) and to conduct a concurrent Noise Compatibility Study (1989-1994) to assess the existing and projected noise impacts of the Airport on the surrounding communities. These studies were conducted by Aviation Planning Associates, Inc., in association with Moody/Nolan, Ltd., and Grindle and Bender. The completed Noise Compatibility Study, which recommended a Noise Compatibility Program to reduce noise impacts on certain areas of the community which may occur by 1994, was adopted by the Board of Trustees on February 2, 1990.

Subsequent to that approval, the University Airport conducted a public hearing on the Study on March 28. The majority of comments recorded at the hearing were supportive of adoption of the Study, and the material and testimony resulting from the hearing were included in the transmittal of the Study to the FAA for approval. As a result of its review, the FAA now is requesting that the Board of Trustees approve the Study as submitted, including the results of the hearing.
The Board of Trustees met at its regular monthly meeting on Friday, May 3, 1991, at The Ohio State University College of Agriculture, Columbus, Ohio, pursuant to adjournment.

Minutes of the last meeting were approved.

Columbus, Ohio, May 3, 1991
May 3, 1991 meeting, Board of Trustees

The Chairperson, Mrs. Bowser, called the meeting of the Board of Trustees to order on May 3, 1991, at 12:00 noon. She requested the Secretary to call the roll.

Mrs. Bowser:

I want to say how pleased we are to be over in the College of Agriculture today. We have been looking at different locations around the campus to move our Board meetings to so other people would be able to join us. It is appropriate that we are meeting in the College of Agriculture today, since I am a farm kid. We want to thank you nice people for all the inconveniences and the rescheduling that you have had to do to accommodate us.

I would also like to welcome Fred Dailey, the new Director of Agriculture for the State of Ohio, to our meeting. It is most appropriate, Fred, that you are with us today. We are so happy you could join us this morning. Thank you for coming.

ELECTION OF OFFICERS
BOARD OF TRUSTEES

Resolution No. 91-114

Mr. Scott read the Nominating Committee's report in which the following slate of officers were recommended:

WHEREAS pursuant to paragraph (B) of rule 3335-1-02 of the Administrative Code, the officers of the Board are to be elected at the May meeting to take office immediately following adjournment of the Meeting (May 3, 1991) and shall hold their office through the May 1992 meeting:

NOW THEREFORE

BE IT RESOLVED, That the following slate of officers for 1991-92 be elected:

Hamilton J. Teaford, Chairman

John J. Barone, Vice Chairman

Madison H. Scott, Secretary

James L. Nichols, Treasurer

Upon motion of Mr. Kessler, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.
Mrs. Bowser:

I can't tell you how much I know you will enjoy Joel's leadership next year. He is a very bright and energetic person and he cares a great deal about this institution. I know under his leadership that you are going to have a marvelous year. My only regret is that I won't be here to share in it -- but then I trained him, so he ought to be pretty good.

--0--

President Gee:

I am delighted to be here today. Bob, would you please express to your colleagues and all of those involved, particularly the wonderful students that greeted us, how appreciative we are in being here in this very special College. And, indeed, I know everyone shares in the occasion. It was with heartfelt appreciation, I can assure you, that we are here today.

I have found that the spring of the year is the time for awards and recognitions, time to celebrate the remarkable achievements -- both individual and collective -- of our great University family. From the Women's Basketball Appreciation Banquet on the second day of April to the linking of the new members of Sphinx Senior Honorary that is taking place today while we meet -- indeed that happened with our dear Chairperson -- there have been numerous occasions, and more importantly, many reasons to celebrate.

In the midst of what continues to be of grave concern about the State budget for the next biennium -- and, I might add, we are working diligently to make the case to the legislature for appropriate support for Ohio State -- it is heartening to have so much good news to report.

I must begin with the wonderful news that nine of our faculty members received the Presidential Young Investigators Award, a prestigious national award in science and engineering. With only 220 awarded nationally, having 9 on this campus is a significant accomplishment. I loved the Dispatch headline: "OSU rakes in 9 national awards."

One of the recipients of this research honor, Professor Oliver McGee, is a 1991 winner of an Alumni Distinguished Teaching Award. Professor McGee is highly respected by his students and, as is obvious from this most recent honor, by his academic colleagues as well. I might note, that Oliver was considered by many to be the finest drum major that we have ever had leading our great marching band. This gives me the opportunity to reiterate that outstanding teaching and distinguished research do, indeed, go hand in hand.

Let me give you another example of the notable results of students and faculty fully engaged in the process of intellectual inquiry. Robert Blanco, a graduate engineering student, and his adviser, Professor Robert Rapp of the Department of Materials Science and Engineering, were among the three winners of the first BF Goodrich Collegiate Inventors Program. They were recognized for a process they invented for coating an alloy on gas turbine blades, thereby improving performance and the life of turbines for ship and aircraft propulsion.
President Gee: (contd)

This month, we issued the latest edition of Benchmark Ohio, a compilation of current information on how Ohio spends its tax dollars, the state's business patterns, its support for education, and various socioeconomic indicators and tidbits of information. As you well know, this particular effort is chaired, edited, and written by our Vice President for Finance, Bill Shkurti.

In addition, the faculty of the School of Public Policy and Management should be recognized for making this research volume available, thanks to help from Society Bank, to various agencies, and people around the State. It is an outstanding service to this State, and reflects the work of faculty and students in pulling together a great amount of information in a useful manner. As I told the press corp at the announcement of this publication, from now on, when I ask Bill Shkurti a question about this State, he will tell me to "look it up in the book!" Today, teaching, research, and service are, again through this effort, serving well the people of Ohio and of Ohio State. And, in the spirit of creating an even stronger sense of community, it is important that we recognize achievement and take pride in our colleagues.

This month, we honored the 13 faculty members chosen as Alumni Distinguished Teaching Award Winners and as Distinguished Scholars. We congratulated Professor Randall Ripley, Chair of our outstanding Department of Political Science, as the recipient of the Provost's 1991 Chairperson Recognition Award.

The Ohio State Awards for excellence in broadcasting were presented in Washington this month and I had an opportunity to attend. Since 1936, Ohio State has been recognizing programs that educate, inform, and culturally enrich their audiences. And, yes, there still are some TV & radio programs like that!

I told the audience in Washington that I am an avid fan of National Public Radio programs, particularly "Morning Edition." I am always disappointed, however, that I can't get "Morning Edition" until two hours after these folks make me get up and get to work. I was delighted to participate in this year's presentation. The Ohio State Awards are considered highly prestigious by the broadcast industry.

This week we are recognizing our Hispanic community by celebrating Hispanic Awareness Week. The programs have ranged from workshops on housing issues and on Chicano literature, to a program on Hispanic film.

I want to offer this public recognition for staff members in our Travel Office who accepted my challenge to reduce bureaucracy and increase efficiency. They have reduced the amount of time it takes to process a reimbursement check by about one-third, simply by improving the paper trail. This sounds like a small thing, unless you are the faculty member with American Express hounding you about paying for a trip you can barely remember but for which you have not been reimbursed.

We have begun solving that criticism. The problems with bureaucracy are not problems with our staff, as I have said repeatedly. In fact, it is staff members who know how to solve these bottlenecks and, indeed, are doing so.
Ohio State honored two outstanding individuals at the National Black Mayors Conference hosted in Cleveland by the Honorable Mayor Michael White. I presented a citation to Mayor White as one of our outstanding graduates, and to Mayor Unita Blackwell, president of the association. Mayor White's words of praise at that time for this University to that audience were wonderful recognition for the people of Ohio State.

To recognize the importance of the family members of our students, a very successful new program was implemented this month: Parents Weekend. Under the creative direction of Dave Mucci and Betsy Davis of the Ohio Unions, more than 800 parents had the opportunity to hear lectures, engage in panel discussions of campus issues, take tours, tailgate on the riverbank, and attend the spring football game. By the way, we did win that game!! I was pleased that so many family members came by my office during an open house.

We have recognized many students this month. The Black Student Leader Award recipients, the College of Business Pacesetters, the members of Bucket and Dipper junior honor society -- including our Chairperson, Shirley Dunlap Bowser -- and the 49 students receiving the Presidential Leadership Citation. I wish that each of you could meet and get to know these outstanding students who were recognized in ceremonies this month. I can only say that one word describes them -- they are remarkable.

It is humbling, indeed, to hear the credentials of the eleven Outstanding Seniors, recognizing that these are capable students who have excelled in their academic programs, in leadership roles, in service to our University, and have managed to have a great time in academic excellence while doing so!

I am beginning my ninth month at Ohio State -- some people on my staff are maintaining that in the ninth month, you should get more rest! Be assured, while we are proud of the many achievements I have reported today, there will be no rest. And, in that regard, I look forward to our new leadership with our new Chair, Mr. Teaford, and certainly, John, I look forward to working with you.

It would be not only inappropriate, but, indeed, not anything that any of us would want to have note without saying that Shirley Bowser, our Chairperson this year, has done a remarkable job. She is a citizen of this University, a citizen of this State, and a citizen of academic excellence. It has been an honor and a privilege for me to serve with her. And Shirley, I know I speak on behalf of everyone in this room, our 61,000 students, 30,000 faculty and staff, 108,000 dues paying alumni, 300,000 living alumni, and 11 million Ohioans in thanking you very much for being such a wonderful Chairperson.

Mrs. Bowser:

Thank you, very much.
May 3, 1991 meeting, Board of Trustees

HOSPITALS BOARD REPORT

Mrs. Bowser:

I would like to call on Dr. John Kramer, Chairman of the Hospitals Board, to give the annual report. I want to thank John for his devoted service to our University Hospitals. He has served three years as Chair of the Hospitals Board by request, because he did such an outstanding job. John, I want you to know from the Board how much we appreciate the fine work that you have done.

Dr. John Kramer:

Thank you for those kind words. It has been a labor of love.

Madam Chairperson, President Gee, members of the Board of Trustees of The Ohio State University, I have some prepared remarks and then I have a couple of ad-lib remarks that I would like to call your attention to. As I conclude my third and final year as Chairman of the University Hospitals Board, I want to share with you one more update on the status of University Hospitals and to thank you for your continuing support. I also want to express my sincere gratitude to Mr. Teaford, Mr. Shumate, and all of the Hospitals Board members for their commitment of time and talent for the good of the Hospitals and the patients we serve.

In a hospital as large and diverse as ours, keeping abreast of all of the organization’s accomplishments is not a simple task. But since these endeavors impact heavily on the quality of our patient care, academic excellence and advanced knowledge gained through research, we need to pause occasionally, look back on the previous year, and evaluate our progress.

Since my last report to you, University Hospitals has made great strides. Administration, the Medical Staff, and Nursing Services are working hand-in-hand to implement the recommendations of the Nursing Task Force in dealing with the national shortage of qualified nurses. Our strategies, including scholarships, a clinical ladder program, externships, nurse management development, and recognition activities, helped the Hospitals to achieve the best recruiting year since 1985. This has allowed us to open an additional 40 beds during the past 16 months.

The annual HCFA mortality report reveals that for the third consecutive year, University Hospitals' mortality rate is the lowest in Central Ohio and is comparable to or better than other prestigious medical centers nationwide. University Hospitals is one of 6 regional perinatal centers in Ohio, offering comprehensive medical services for mothers and infants. The Division of Maternal-Fetal Medicine treats high-risk patients and is a leader in prevention of premature births. Our Transplant program continues to grow and now averages one organ transplant every 48 hours. To promote awareness of the need for organ donation, University Hospitals initiated a joint effort with the Ohio Department of Highway Safety to provide information at every licensing agency. The theme of this campaign is “Be a Life Preserver.”

The Ohio State University Medical Center and the Cleveland Clinic are moving toward implementing a newly developed affiliation. We expect this historic new bond between our major teaching hospitals will benefit both institutions -- and in the long run, the real beneficiaries will be the people of Ohio.

1088
May 3, 1991 meeting, Board of Trustees

HOSPITALS BOARD REPORT (contd)

Dr. Kramer: (contd)

Over the past months we have strengthened our relationship with Children's Hospital. Children's is now affiliated with our highly-successful Ask-A-Nurse program. They also have joined the consortium for SkyMed, which has established itself as an outstanding medical helicopter service. SkyMed has enjoyed near-record growth with 686 completed flights in the first 8 months of the current fiscal year. SkyMed is the only instrument-rated medical helicopter service in Ohio, and has won several safety awards.

The opening of the new Prep Center has greatly facilitated preadmission testing for ambulatory and admission-day surgery cases. A new extended patient care area in the Emergency Department provides more comfortable and private surroundings for monitoring, diagnosis and admitting decisions, or until the patient can be moved to the appropriate in-patient nursing unit. A hospitality lounge has also been created for electively scheduled patients between the time of admission and transport to the appropriate unit. You may already have seen newspaper and television reports about the Hospitals' new hyperbaric chamber and the dramatic results it can achieve for our patients and those sent to us from other hospitals.

As the result of an agreement with the Ohio Industrial Commission, University Hospitals assumed management responsibility late last year for the J. Leonard Camera Industrial Rehabilitation Center. Our new Sports Medicine Center recently opened at the Camera Center and is expected to become one of the premier facilities in the nation under the leadership of Drs. Bob Murphy and John Lombardo.

In January, OSU Hospitals was selected as one of 4 U.S. hospitals to participate in a Medicare coronary artery bypass pilot project designed to ensure high-quality care and provide patients with better value for their healthcare dollars. In keeping with our mission of providing state-of-the-art care to our patients, we have submitted Certificate of Need applications that include expansion and upgrading of our Surgical Intensive Care Unit and Neonatal Intensive Care Unit, as well as expansion and renovation of our psychiatric facility. Because our existing MRI scanner is the busiest in Central Ohio and one of the most heavily utilized in the nation, we have begun construction to accommodate an additional scanner. The new unit is expected to become operational in late fall.

Last year the long-awaited opening of the James Cancer Hospital and Research Institute was accomplished. University Hospitals has been greatly instrumental in helping this wonderful new facility to open its doors and carry out its mission of cancer treatment, education, and research.

Of course, education and research continues to receive very high priority in University Hospitals and the College of Medicine. Medical residents in the Hospitals' Ophthalmology department received the highest ranking in the United States on a written exam given annually to the ophthalmology residents throughout the nation. A few days from now, our Center for Continuing Medical Education will begin broadcasting on a new satellite TV network aimed at physicians in the U.S. and southern Canada. A 3-day Ethics Conference at the OSU Medical Center last November addressed the moral, legal, economic and social concerns raised by the advancements in medical technology. A two-year study at several major medical centers, including Ohio State, has revealed that the use of a specific drug has reduced by 50 percent the rate of spinal fractures caused by osteoporosis. The new molecular pathology lab is conducting very exciting research into genetic testing and
May 3, 1991 meeting, Board of Trustees

HOSPITALS BOARD REPORT (contd)

Dr. Kramer: (contd)

may someday lead to effective therapies for muscular dystrophy and cystic fibrosis. The College of Medicine, along with 15 other medical schools in the nation, received a grant from the U.S. Department of Health and Human Services to help recruit and retain minority students and other underrepresented persons in medicine.

Besides providing high quality care for the people of Ohio as cost-effectively as possible, we've been good neighbors in other ways, too. For the third consecutive year, University Hospitals has received the Life Sharing Award from the American Red Cross in recognition of our outstanding blood donor program. The Private Industry Council presented University Hospitals with its Youth Employer of the Year Award. Our extensive participation in the summer youth program has helped provide youngsters in the community with jobs and career goals. OSU's Minority Business Development Program recognized the Hospitals by awarding us the 1990 Department of the Year Award for "setting an excellent example for the campus community for working with minority business enterprises." University Hospitals provides an approximate 18 percent discount to the OSU Health Plan so the University can offer its employees and their dependents the best and most cost-efficient healthcare.

The Hospitals staff's hard work has also brought significant honors to this institution. Last April, University Hospitals was honored by U.S. News and World Report as one of the nation's best hospitals. Only 57 of the nation's 6,720 hospitals were so recognized, and OSU was the only Central Ohio hospital to achieve this honor. During the past 6 months we underwent intensive accreditation reviews by the Joint Commission on Accreditation of Health Care Organizations, the Commission on Accreditation of Rehabilitation Facilities, and the Ohio Health Department's Validation Survey for Compliance with Medicare Conditions of Participation. The Hospitals successfully completed each review, was granted the maximum accreditation for all three surveys, and received a letter of commendation from the Joint Commission for compiling a score achieved by only the top 5 percent of hospitals across the nation. Just recently, U.S. News and World Report ranked The Ohio State University's College of Medicine second in the nation for primary and medical care education. There was only .008 percent that separated the first and second positions. So, I think we can safely say that we are one of the top in the country.

This is not a complete summary of the Hospitals' achievements -- but I do think it is representative of our commitment and direction. The healthcare industry still faces enormous challenges, including manpower shortages, cuts in educational funding and patient care reimbursements, rising costs, uninsured and underinsured patient populations, and the devastating effects of AIDS and substance abuse. The Hospitals Board is working hard to understand and cope with these problems.

Through March of this fiscal year, more than $40 million in patient care was uncompensated. This includes bad debts and the portion of hospital charges unpaid by Medicare and Medicaid, and not recoverable from any source. In addition, during that same time period, University Hospitals has provided another $3.3 million in charity care to the less fortunate in the community. The Board is committed not only to careful management of our resources, but also to active participation in the public and private fundraising efforts for the entire medical center.
May 3, 1991 meeting, Board of Trustees

HOSPITALS BOARD REPORT (contd)

Dr. Kramer: (contd)

Dr. Tzagournis, Mr. Fraley, Dr. Mekhjian, and the administrative, medical and nursing staffs, are all committed to the very best in patient care, education, research, and hospital management. With your continuing support, our great medical center will become even greater.

In addition, to those prepared remarks there are three other items that I would briefly like to touch on. One is the funding for the Cancer Hospital. The Hospitals Board, as you are all aware, also is very concerned about the start-up costs of that institution. As you all know, we have been funding that and now they owe us $30 million plus in start-up costs. The purpose of bringing this up is that I think we have a window of opportunity where we could maybe restructure that debt. We would like for you to consider that. The window of opportunity is that interest rates are low right now. If we were to go out and bond that money, it would free up a lot of capital to purchase and fund projects that University Hospitals and the Board feels that they need. These projects simply have been put on the back burner because of the cash drain for the start-up costs for the Cancer Hospital. The good news is we feel that the debt could be serviced both by the Cancer Hospital and University Hospitals, the projections indicate that. The debt ratio of University Hospitals is among the lowest in the Big Ten. We feel that we do need new equipment, and this may be an opportunity to bond this money at a low rate, so we might be able to do something about that.

The second item is parking. We want to make the Medical Center more consumer friendly. It is part of our mission to get more patients in the Hospitals to increase our revenues and be accessible to the people of Ohio. Parking has been a big concern. Mr. Nichols told me that three floors are to be added on to the 12th Avenue garage, and that is really going to help a lot. I was very pleased to learn that yesterday.

Now that we have the parking, we have to find the Hospitals. Signage -- I know that there is a study underway to get better signage. Being a tertiary care center, we get a lot of patients from out of town. If you are not from Franklin County and you drive up Route 315 in this community, it is very difficult to find the medical center. We feel that proper signage is missing. I can tell you that the previous chairman, Mr. Vorys, said to me, "John, I tried for two years to get signs around here and have not been able to do that." And I can tell you that I have been trying for three years to get signs around here and have not been able to do it. We do know that there is a study going on, all that we ask is that perhaps you could expedite it. If there are any questions, I will be happy to try and answer them. Thank you all, very much.

Mrs. Bowser:

Thank you, very much, John, for your very excellent leadership.

--0--
Ms. Casto:

Research Foundation grants and contracts for the first nine months of fiscal year 1991 are shown in the Board Agenda Book. There are 1,023 awards listed which provide a gross income of $91.3 million. Funding for this fiscal year to date is 3.5 percent ahead of that of the similar period for last fiscal year. Federal funding has increased overall and funding from the Industrial sector has also increased. Some highlights of awards for March are:

$187,000 from the National Heart, Lung, and Blood Institute for a study on how antibodies activate blood platelets.

$180,000 from the National Science Foundation for a study on numerical competence in the chimpanzee.

$149,500 from Calcitek, Incorporated to study dental implants.

$29,000 from the Ohio Board of Regents through Kent State University to support the development of OHIOLINK, a project of the Ohio Library Information System.

That concludes my report.

--0--

HOSPITALS BOARD COMMITTEE REPORT

Mr. Teaford:

The Hospitals Board's Executive Committee met on April 25. Mr. Schrock reported that University Hospitals' net income for the month was slightly below budget, primarily due to a slight increase in the average length of stay and an unfavorable variance in the Medicaid Case Mix Index. Through March, University Hospitals has had a positive bottom line of $1.6 million as compared to a budgeted $170,000.00 loss. The number of days in accounts receivable fell from 110 to 96. The target of 90 days by the end of the fiscal year remain achievable.

Dr. Paul Kaplan presented the annual Dodd Hall program evaluation. He reported that Dodd Hall consistently exceeds national averages in all categories of patient rehabilitation. And I might say, very importantly, does so at some of the very lowest charges in the nation. When you consider the care and success which has come out of treatment at Dodd Hall, it is the best bargain that there is.

Mr. Fraley reported that a story in the May edition of Columbus Monthly highlights OSU Hospitals' commitment by setting up the health screening program on the near east side of Columbus. That article particularly noted the treatment of crack-addicted babies in connection with that commitment.

Dr. Kramer announced that Dr. Bernadine Healy was required to resign her Hospitals Board appointment as she was named the new Director of the National Institutes of Health. Needless to say, that cuts both ways since that is certainly a good friend for us to have.

Dr. Tzagournis summarized the State capital support to the medical center over the past decade. Dr. Kramer and Mr. Fraley acknowledged the cooperation of the medical staff in completing patient charts as quickly as possible.
May 3, 1991 meeting, Board of Trustees

HOSPITALS BOARD COMMITTEE REPORT (contd)

Mr. Teaford: (contd)

Also, on April 25, the Board's Professional Affairs/Education/Research Committee met. There was an executive session review of the hospital-wide and department of pharmacy quality management reports. Both of those reports were very thorough and focused on monitoring of quality indicators and actions taken to enhance patient care. After returning to open session, the Committee received reports on medical staff activities.

Dr. David Cornwell summarized research activities and directions in the medical center. His report indicated that strong efforts must still continue, but the future appears bright.

Lastly, Ms. Judy Gilliam, the Hospitals' Administrator for Nursing Services, thanked the medical staff for their participation in providing funds for nursing scholarships. Sixteen scholarships have been awarded thus far during the fiscal year and they will greatly benefit the Hospitals through the commitments which those awardees have made to postgraduate work.

I also want to add one personal note as I leave the Hospitals Board. The dedication of that Board has been a constant source of inspiration to me and pride in the kinds of caring relationships that this University has been able to develop. But nothing can match the dedication of Dr. Kramer. Dr. Kramer lives practically in West Virginia, and he has been in the Hospitals every week for the last three years. That is an extraordinary level of service.

Thank you, Madam Chair.

Mrs. Bowser:

And, Dr. Kramer is asking you to put signage and bonding the debts on your very busy agenda. Maybe you can take a look at that and see where we are in the process.

--0--

ACADEMIC AFFAIRS COMMITTEE REPORT

Mr. Kessler:

This morning we heard a report from Dr. Seth Kantor, Associate Dean for Medical Education, on the College of Medicine receiving a three-year grant from the U.S. Department of Health and Human Services to recruit and retain more minority students and other underrepresented persons in medicine. The $700,000 grant and the development of the MEDPATH Program was initiated by Dr. Kantor.

The program, called MEDPATH for Medical Careers Pathway, is an intensive five-quarter academic experience aimed at developing the academic knowledge base and skills of students prior to their admission to medical school. The program is designed to assist students who have received a bachelor's degree and who may need to strengthen their academic record or improve their Medical College Admissions Test (MCAT) scores; who are non-science majors; or who are changing careers.
May 3, 1991 meeting, Board of Trustees

ACADEMIC AFFAIRS COMMITTEE REPORT (contd)

Mr. Kessler: (contd)

In addition, we are recommending the following resolutions:

**AMENDMENTS TO THE MEDICAL STAFF BYLAWS**

Resolution No. 91-115

Synopsis: The Academic Affairs Committee recommended the approval of amendments to the Medical Staff Bylaws is requested.

WHEREAS The Ohio State University Hospitals Board pursuant to Bylaw 3335-101-04 of the Hospitals Board Bylaws is authorized to recommend to the Board of Trustees the adoption of amendments to the Medical Staff Bylaws; and

WHEREAS the proposed amendments to the Medical Staff Bylaws 3335-43-04, 3335-43-08, and 3335-43-11 were approved by the University Hospitals Board, March 21, 1991, as follows:

**AMENDED BYLAWS**

3335-43-04 Membership.

(A) through (B) unchanged.

(C) Terms of appointment. Initial appointment to the medical staff, will be for a period extending to the end of the fiscal year (first of July through thirtieth of June). Reappointment to the medical staff shall be done on a regular basis for a period not to exceed 24 months. Initial appointments, except for the honorary and limited categories, will be provisional for six months regardless of the date of his appointment.

3335-43-08 Organization of medical staff of the Ohio state university hospitals into clinical departments and divisions.

(A) Each member of the attending, courtesy, limited, and honorary staff shall be assigned to a clinical department or division upon the recommendation of the chief of the clinical department concerned.

(1) Anesthesiology

(2) Family medicine

(3) Internal medicine. The following divisions are designated:

- Allergy
- Bone marrow transplantation
- Cardiology
- Community internal medicine
- Dermatology
- Endocrinology and metabolism
- Gastroenterology
- General medicine
- Hematology and oncology
- Infectious diseases
- Pulmonary
- Renal
- Rheumatology - immunology

1094
May 3, 1991 meeting, Board of Trustees

AMENDMENTS TO THE MEDICAL STAFF BYLAWS (contd)

Balance unchanged.

3335-43-11 Meetings and dues.

(A) Meetings. The medical staff of the Ohio state university hospitals shall conduct scheduled meetings twice yearly. Notice of the meeting will be sent to all attending staff at least two weeks prior to the meeting. Attendance at at least one of the two regularly scheduled meetings shall be a requirement for continued staff privileges. Exceptions requested in writing may be granted by the chief of staff, chief of staff-elect, or medical director. Unexcused absences will be reported to the medical staff administrative committee. A special meeting may be called at the option of the medical staff administrative committee.

Balance unchanged.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the Medical Staff Bylaws be adopted as recommended by the University Hospitals Board.

Upon motion of Mr. Kessler, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

HOSPITALS BOARD APPOINTMENT

Resolution No. 91-116

Synopsis: The Academic Affairs Committee recommended the approval of emeritus status to a Hospitals Board member.

WHEREAS pursuant to bylaw 3335-93-01 of the University Hospitals Board Bylaws, the Board of Trustees may designate emeritus Hospitals Board members; and

WHEREAS John R. Hodges is a long-time friend and ardent supporter of The Ohio State University; and

WHEREAS he was one of twelve citizen members originally appointed to the Hospitals Board; and

WHEREAS in eleven years of service to the Hospitals Board his dedication, commitment and contributions to the Hospitals Board have been noteworthy:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Hospitals Board and the President, the title of Hospitals Board Member Emeritus be conferred upon John R. Hodges, effective May 1, 1991.

Upon motion of Mr. Kessler, seconded by Mr. Teaford, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

May 3, 1991 meeting, Board of Trustees

HOSPITALS BOARD APPOINTMENT

Resolution No. 91-117

Synopsis: The Academic Affairs Committee recommended the approval of emeritus status to a Hospitals Board member.

WHEREAS pursuant to bylaw 3335-93-01 of the University Hospitals Board Bylaws, the Board of Trustees may designate emeritus Hospitals Board members; and

WHEREAS Arthur I. Vorys is an alumnus and long-time friend and ardent supporter of The Ohio State University; and

WHEREAS he was one of twelve citizen members originally appointed to the Hospitals Board and has served as Chairman of the Board, Vice Chairman of the Board, and Chairman of the Joint Conference Committee; and

WHEREAS in eleven years of service to the Hospitals Board his dedication, commitment and contributions to the Hospitals Board have been noteworthy:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Hospitals Board and the President, the title of Hospitals Board Member Emeritus be conferred upon Arthur I. Vorys, effective May 1, 1991.

Upon motion of Mr. Kessler, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Mrs. Bowser:

I would like to say that these two gentlemen have served from the original time of the Hospitals Board’s creation -- eleven years. So, we do owe them a very special thank you.

DEGREES AND CERTIFICATES - SPRING QUARTER COMMENCEMENT

Resolution No. 91-118

Synopsis: The Academic Affairs Committee recommended the approval of Degrees and Certificates for Spring Quarter.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees the names of persons who have completed degree and certificate requirements:

NOW THEREFORE
May 3, 1991 meeting, Board of Trustees

DEGREES AND CERTIFICATES - SPRING QUARTER COMMENCEMENT (contd)

BE IT RESOLVED, That the degrees and certificates be conferred on June 14, 1991, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

Upon motion of Mr. Kessler, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

PERSONNEL ACTIONS

Resolution No. 91-119

RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the April 5, 1991 meeting of the Board, including the following Appointment, Reappointment of Principal Administrative Official, Reappointment of Chairpersons of Divisions, Appointment of Associate Professor with Tenure, Leave of Absence Without Salary, Leaves of Absence Without Salary—Change in Dates, Leave of Absence Without Salary—Continuation, Professional Improvement Leaves, Professional Improvement Leave—Cancellation, Professional Improvement Leaves—Change in Dates, Emeritus Titles, and Medical Staff Appointments (The Arthur G. James Cancer Hospital and Research Institute) as detailed in the University Budget be approved, and the Medical Staff Appointments approved March 21, 1991, by the Hospitals Board be ratified.

Appointment

Name: NORMAN J. URETSKY
Title: Professor (Charles H. Kimberly Professorship in Pharmacy)
College: Pharmacy
Effective: July 1, 1991 through June 30, 1994
Salary: N/A
Present Position: Professor, Division of Pharmacology

Reappointment of Principal Administrative Official

CAROLE A. ANDERSON, Dean, College of Nursing, effective August 1, 1991, through June 30, 1996, pursuant to rule 3335-3-17 of the Administrative Code.

Reappointment of Chairpersons of Divisions

July 1, 1991 through June 30, 1995

Engineering Technologies (ATI) Allen P. Zimmerman
Pharmaceutical Administration Dev S. Pathak

Appointment of Associate Professor with Tenure

PHILIP T. K. DANIEL, Associate Professor, Department of Educational Policy and Leadership, for the Academic Year starting October 1, 1991.

Leave of Absence Without Salary

LEONARD O. NASMAN, Assistant Professor, Department of Engineering Graphics, effective Spring Quarter 1991, to complete work on a textbook on Datacad.
May 3, 1991 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Leaves of Absence Without Salary--Change in Dates

ERNEST L. MAZZAFERRI, Chairperson and Professor, Department of Internal Medicine, change leave from December 8, 1990, through June 3, 1991, to December 8, 1990, through April 15, 1991.

Leave of Absence Without Salary--Continuation

VLADIMIR E. BONDYBEY, Professor, Department of Chemistry, effective January 1, 1991, through February 7, 1991, to continue his work at the Technical University in Munich, Germany.

Professional Improvement Leaves

LESLIE A. ADELSON, Associate Professor, Department of German, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

TERRY M. BARRETT, Associate Professor, Department of Art Education, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

OMAR O. BARRIGA, Associate Professor, Associate Professor, Department of Veterinary Preventive Medicine, effective July 1, 1991, through June 30, 1992.

BERNARD I. BAYER, Associate Professor, University Libraries, effective September 1, 1991, through August 31, 1992.

LEE B. BECKER, Professor, School of Journalism, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter and Summer Quarter 1992.

VITALY BERGELSON, Associate Professor, Department of Mathematics, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

STEVEN B. BIBYK, Associate Professor, Department of Electrical Engineering, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

DIANE W. BIRCKBICHLER, Associate Professor, Department of French and Italian, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

ROGER D. BLACKWELL, Professor, Academic Faculty of Marketing, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

JOT D. CARPENTER, Professor, Department of Landscape Architecture, effective Autumn Quarter 1991.

MICHAEL A. CHIPPERFIELD, Associate Professor, Department of Art, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

MARTHA C. COOPER, Associate Professor, Academic Faculty of Marketing, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.
PERSONNEL ACTIONS (contd)

Professional Improvement Leaves (contd)

WILLIAM S. DANCEY, Associate Professor, Department of Anthropology, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

DAVID E. FERNIE, Associate Professor, Department of Educational Theory and Practice, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

RICHARD S. HARNED, Associate Professor, Department of Art, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

(JASON) TIN-LUN HO, Associate Professor, Department of Physics, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

RICHARD S. JENSEN, Associate Professor, Department of Aviation, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

JAY W. JOHNSON, Associate Professor, Department of Agronomy, effective July 1, 1991, through June 30, 1992.

KENT S. KNABEL, Associate Professor, Department of Chemical Engineering, effective Autumn Quarter 1991 and Winter Quarter 1992.

SUE E. LEURGANS, Associate Professor, Department of Statistics, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

R. WILLIAM LIDDLE, Professor, Department of Political Science, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

ROBERT S. LIVESEY, Professor, Department of Architecture, effective Autumn Quarter 1991 and Winter Quarter 1992.

MARY K. MARVEL, Associate Professor, Academic Faculty of Public Policy and Management, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

ICHIKO T. MORITA, Associate Professor, University Libraries, effective May 1, 1991, through July 31, 1991.

MARK T. MULLER, Associate Professor, Department of Molecular Genetics, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

SHIRLEY A. OLSHEN, Associate Professor, Department of Industrial Design, effective Autumn Quarter 1991.

FUSUN OZGUNER, Associate Professor, Department of Electrical Engineering, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

TOBY L. PARCEL, Associate Professor, Department of Sociology, effective Autumn Quarter 1991 and Winter Quarter 1992.

JOSEPH J. PILOTTA, Associate Professor, Department of Communication, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.
PERSONNEL ACTIONS (contd)

Professional Improvement Leaves (contd)

PATRICIA B. REAGAN, Associate Professor, Department of Economics, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

MARK W. ROCHE, Associate Professor, Department of German, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

ALLAN J. SAMANSKY, Professor, College of Law, effective Autumn Semester 1991.

DANIEL B. SHAPIRO, Professor, Department of Mathematics, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

TODD W. SLAUGHTER, Associate Professor, Department of Art, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

VERTA A. TAYLOR, Associate Professor, Department of Sociology, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

GALA L. WALKER, Associate Professor, Department of East Asian Languages and Literatures, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

HERBERT F. WEISBERG, Professor, Department of Political Science, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

BOSTWICK F. WYMAN, Professor, Department of Mathematics, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

Professional Improvement Leave--Cancellation

Professional Improvement Leaves--Change in Dates

SIA K. WONG, Associate Professor, Department of Mathematics, change leave from Autumn Quarter 1990 and Spring Quarter 1991, to Autumn Quarter 1990.

Emeritus Titles

H. JUSTIN DAVIDSON, College of Business, with the title Dean Emeritus, effective July 1, 1991.

EDWIN R. HAERING, Department of Chemical Engineering, with the title Professor Emeritus, effective April 1, 1991.

ALAN J. RUBIN, Department of Civil Engineering, with the title Professor Emeritus, effective April 1, 1991.

DAVID H. STANSBERY, Department of Zoology, with the title Professor Emeritus, effective April 1, 1991.
May 3, 1991 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Medical Staff Appointments (The Arthur G. James Cancer Hospital and Research Institute)

MARK L. ELLIOTT, Ph.D., Physician Extender/Psychology, under the supervision of Dr. John McDonald, Department of Anesthesiology.

JARED L. KLEIN, M.D., Attending Staff, Department of Internal Medicine (Division of Hematology/Oncology).

Medical Staff Appointment—Correction (The Arthur G. James Cancer Hospital and Research Institute)

DEBORAH A. TAYLOR, Ph.D., from Associate Attending Staff to Physician Extender/Psychology, under the supervision of Dr. John McDonald, Dr. Rao Lingam, Dr. Constantia Benedetti, Department of Anesthesiology.

Medical Staff Appointments (The Ohio State University Hospitals)

TERRESA L. HAWTHORNE, M.D., Courtesy Staff, Department of Internal Medicine (Division of General Medicine).

ERIC M. HUMPHREYS, M.D., Attending Staff, Department of Anesthesiology.

Upon motion of Mr. Kessler, seconded by Mr. Teaford, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

RESOLUTION IN MEMORIAM

Resolution No. 91-120

Synopsis: The Academic Affairs Committee recommended the approval of the following Resolution in Memoriam is proposed.

RESOLVED, That the Board adopt the following Resolution in Memoriam and that the President be requested to convey a copy to the family of the deceased.

Margaret A. Mordy

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 2, 1991, of Margaret A. Mordy, Professor Emeritus in the School of Health, Physical Education and Recreation.

Professor Mordy was born on September 5, 1914 in Brookston, Indiana. She received her A.B. degree in Physical Education/Psychology from Grinnel College in 1936, her M.A. in Physical Education/Psychology from State University of Iowa in 1942, and her Ph.D. in Human Development from the University of Chicago. She then spent the next two years as a teacher in the Indiana University public school system.

Her academic teaching experience included Grinnel College, State University of Iowa, and Wayne State University. She joined The Ohio State University in 1953, and remained there until her retirement in 1974. Upon retirement, she was named Professor Emeritus. Dr. Mordy was very active in professional associations on the state, district, and national levels for many years.
RESOLUTION IN MEMORIAM (contd)

Margaret A. Mordy (contd)

On behalf of the University community, the Board of trustees expresses its sympathy and understanding to the family of Professor Mordy. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Upon motion of Mr. Kessler, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

AGRICULTURAL AFFAIRS COMMITTEE REPORT

Ms. Casto:

I would like to call on Dr. Warmbrod to give us a little information about our College of Agriculture.

Dr. Warmbrod:

I will just briefly describe some of the features of the College. The College of Agriculture enrolls 3,000 students -- about 550 graduate students, and 2,500 undergraduate students. Seven hundred of those undergraduate students are enrolled at the Agricultural Technical Institute in Wooster, which is a two-year associate degree program. The remainder of those students would be on the Columbus campus enrolled in one of the 10 academic departments in the College and the School of Natural Resources.

The number of undergraduate students in the College of Agriculture in Autumn 1990 increased 9 percent from the previous year. The number of graduate students and students at the Agricultural Technical Institute increased slightly for an overall increase of about 7 percent.

The College, of course, participates actively in the major dimensions of the mission of a land-grant University -- teaching, research, and public service. The teaching being in undergraduate and graduate programs in Columbus and Wooster, and teaching throughout the State in the Cooperative Extension Programs. Those programs involve persons beginning with the youth and the 4-H Program, all the way to adults of any age, urban, rural, farmers, homemakers, agribusiness persons, consumers, and all the citizens of Ohio, being potential enrollees in that phase of the College's program. In fact, we have faculty and programs in every county of the State of Ohio through the Cooperative Extension Service. You can call a phone number in Ohio, and if you have the right phone number, it should say The Ohio State University.

In addition, all of our instruction is research based with another major dimension of our College being the Agricultural Experiment Station, which in Ohio is the Ohio Agricultural Research & Development Center. Our major facilities for research are on the Columbus campus and the campus in Wooster, but we have 13 additional branch stations throughout the State that do research that are specific to particular crops, particular types of livestock, or particular conditions in that part of the State.
A major contribution of the College is through its public service programs serving all of the citizens in the State of Ohio, much of that through the Ohio Cooperative Extension Service. We are pleased that you elected to spend the morning in the College of Agriculture and invite you back anytime you wish to come. Thank you.

Ms. Casto:

Thank you, very much. I think this is a fabulous place to be and a real popular place to be these days. I think it is a great College to brag about and especially in honor of Shirley, because I know that this is her College and she likes to make it shine.

Mr. Kessler:

I'd like to add my comment that the students are so friendly.

Ms. Casto:

They are wonderful! This morning we heard from Dr. L. H. Newcome, Associate Dean and Director of Academic Affairs in the College of Agriculture. He presented a panel of undergraduate students who discussed teaching, advising, leadership, development, and activities in the College.

The students discussed their high regard for the quality of teaching in the College of Agriculture. They were also very complimentary to the faculty advisement and placement assistance which they received. Special mention was made of the leadership development activities and opportunities to learn beyond the campus. These students can best be described as satisfied customers. It is apparent that they are going to be outstanding alumni to The Ohio State University.

As I sat there, we went around the room and everybody had all these wonderful things to say about Ohio State and I thought it can't all be that perfect. When they were done, they had a couple of things that they wanted to talk about. They were very open and frank and they made the same points that you have been touching on, Dr. Gee, about our teaching and things like that. I was very proud of them. I thought it was fabulous. I thank you, and we are very glad to be here.
STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Shumate:

This morning the Student Affairs Committee received a report on Asian American students from the Director of the Asian American Student Services Office, Sheila Kapur. Asian American students represent approximately 3 percent of the students on the Columbus campus of The Ohio State University. We want to emphasize the fact that we are talking about American students of Asian descent who are either permanent residents or U.S. citizens, as opposed to Asian international students.

The Office provides basic support services and represents the interests of the Asian American student on various University forums and advocates sensitivity in response to these students' needs by all faculty, staff, and administrative units. This week marks the beginning of Asian Awareness Week on campus. In addition, it is very pleasurable to report that the new president of the Undergraduate Student Government, Christine Chen, is an Asian American student. We look forward to working with her in our Student Affairs Committee.

Next, we heard reports from the student government leaders.

Mr. Mark Slivka:

I would just like to update you on a couple of the proposals that I have been working on. First, in January the IPC reviewed student living expense budgets here at Ohio State and compared them to five other schools here in Ohio. We found a discrepancy in the budgeting of almost $3,500.00. A major discrepancy was in rent. Students throughout Ohio were receiving over $2,000.00 more than Ohio State students. Recently, I received a letter from Mary Haldane, Director of Student Financial Aid and her proposal is that we put together a task force including graduate and professional students, Student Affairs Administrators from the professional and graduate schools, and members of her staff. There is a regular meeting this afternoon, so I will let you know how that goes.

The second proposal was to the Athletic Council regarding the current football policy. We recently polled over 1,000 professional students and 33 percent of them said that the reputation of intercollegiate athletics at Ohio State was actually a factor in their decision to come here to professional school. Ninety percent of them felt that they were being discriminated against by the current ticket policy. I presented this to the Athletic Council last month and the proposals we made were on the same lines as other Big 10 schools. They have since said that it is going to be presented again at the next regular meeting of their Executive committee which is May 16.

The third item is IPC's office. The office is located in Neil Hall, which is undergoing renovation, so we have lost our office. We have been working very hard over the past few months to locate new space which is very difficult at Ohio State. We haven't found anything at this point.

The fourth matter is that with the help of Herb Asher, we are trying to petition the professional students to write their Legislators to support higher education. This will probably be completed this week.

Mr. Shumate:

O.K., any questions for Mark? Where do students contact you if you don't have your own office?
May 3, 1991 meeting, Board of Trustees

STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Slivka:

I have given Commuter Services and the phone people my home phone number so that it will be printed up in next year's telephone directory.

Dr. Spillman:

Campus Planning has been looking for an office for them, but have not found one yet. You will be in your current office until the end of this academic year, and then you will have to find another location. Campus Planning is looking.

Mr. Shumate:

O.K. Are there any other questions? I'd like to call on Benneta.

Ms. Benneta Burton:

Good morning. First let me say a little about the presentation that was just made. It makes me sad to see that Asian Americans are experiencing discrimination. A lot can be done at this University to work toward tolerance of others and I think that needs to be a continuing agenda item.

I would like to share with you some of the things that have taken place with the Council. We had our 5th Graduate Research Forum April 20, and it was a success. There were 57 graduate students and 47 faculty that participated. We had 9 faculty that came from outside of the University that served on the presentation judges panel. The Council was proud of this event because it is a way for graduate students to showcase their research, and the graduate students that did win, received cash awards. We are grateful to the Graduate School, the Office of Research, and Proctor and Gamble for contributing toward the luncheon and the success of this event.

The second Child Care Fair was held April 9. Valerie Whitton of the OSU Child Care Center came and spoke about child care issues. The attendance increased, but the numbers were still low. Perhaps you remember there was a tornado watch that day and thunder and lightning, so we think that was why attendance was low. We still don't have any indication of what the need for child care is, so we are going to have to work on that and see what we can do about it. We do intend to formalize the information that we have collected and make it available at our orientations.

The last thing that I would like to speak to you about is the possibility of reductions in graduate assistantships or in the number of new assistantships being offered. We know that there has to be some budget cuts, but we want those decisions to be made wisely and given time and consideration. We don't want those people within their programs to be stranded, nor do we want someone that packs up and leaves a good job to come to this University not having an income. So we want to encourage thoughtfulness with the budget decisions that have to be made.

Mr. Shumate:

We guarantee you that we will be thoughtful. Any questions? Thank you, very much. We would appreciate your efforts and the student government organizations efforts in assisting with OSU campus environment and tolerance for all of our students.
May 3, 1991 meeting, Board of Trustees

STUDENT AFFAIRS COMMITTEE REPORT (contd)

Ms. Burton:

Thank you.

Mr. Shumate:

Mr. Clark --

Mr. Mike Clark:

Good afternoon. Sheila Kapur was a little early announcing it, but the official announcement now is that Christine Chen is the new Undergraduate Student Government President and Matt Markling is the new Vice President. They will be taking office on May 16 and they are very qualified and will do a good job. Hopefully they can continue a few things that Jamie and myself worked on this year.

This is our last meeting and I’d like to say thank you, very much. It has been a great year and I have learned a lot. I will graduate with a B.S. in engineering from this school, but also I will be able to go away with a lot of leadership experience and memories of great times at this school. Dr. Spillman has helped me very much, and Dr. Asher, who is our advisor, Dean Hollingsworth, and, of course, yourselves, in attending several of the meetings that we have had with other student organizations. It is great to see the interest and we really appreciate it.

Mr. Jamie Day:

I’d like to say in my first couple of years here I felt like a number and didn’t realize how much the faculty and administration really cares about the students. I have been very impressed this year through the role I have played as USG Vice President, and how many doors you can open if you really try and you know who to talk to. The faculty and administration, as well as the Board, have been very receptive and we appreciate that. I want to thank everybody for their time. It has been great.

Mr. Clark:

To update you on the new Student Trustee -- we still don’t know anything because every time we call down to the Governor’s Office they really don’t know themselves.

Mr. Tonnies:

I was told they were interviewing this week.

Mr. Clark:

I was told they were interviewing Wednesday and Thursday, but unfortunately I talked with the students who were to be interviewed and they didn’t get in this week. Are there any questions?

Mr. Shumate:

I was reading in the Lantern that a recount is going on in the USG elections.
May 3, 1991 meeting, Board of Trustees

STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Clark:

There was a recount and that is why I just announced that it was official. It did not change.

Dr. Spillman:

I might mention that when there is a recount, the student government does not do the recount. It is done in University Systems. Sometimes when there is a delay, the student government is blamed, but it is not them. It was a very close election.

Mr. Tonnies:

I'd also like to thank Mike and Jamie for all their efforts over the past year. USG, as well as the University, has benefitted greatly from their work and they will be sorely missed.

Mr. Shumate:

Madam Chair, I would like to present a resolution to record the Expression of Appreciation that we have for the leadership of Mike Clark this past year.

EXPRESSION OF APPRECIATION TO MICHAEL CLARK
Resolution No. 91-121

WEREAS Michael Clark has served as President of the Undergraduate Student Government during the past year; and

WEREAS he has carried out his assignments in a truly outstanding manner; and

WEREAS Michael has worked diligently in order to bring matters and concerns of special interest to undergraduate students to the attention of this Board; and

WEREAS his resolve, dedication, and support of this University has been evidenced in innumerable ways over the past year:

NOW THEREFORE

BE IT RESOLVED, That this Board expresses to Michael Clark their thanks and appreciation for his dedicated leadership and service to The Ohio State University, and wishes him happiness, good health, and success in the future.

Upon motion of Mr. Shumate, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--
INVESTMENTS COMMITTEE MEETING

Mr. Teaford:

The Investments Committee met this morning. The Endowment Fund has increased since the beginning of the year from $321 million to $360 million. That includes principal additions of $18.5 million, which continues to be at a record pace and market additions of $21 million. Almost all of our advisors are, indeed, beating their respective indices.

We also received the quarterly report on the total funds of the University. Those are currently at, or they were at the end of the quarter, $686 million, up from $633 million the previous quarter. There are really no anomalies in those numbers. There were seasonal changes that we normally expect and the major part of that increase was due to the increase in the Endowment Fund.

We also had a report from Dr. Glower with regard to Development. So far this year we have raised $37.8 million, as opposed to $29.5 million last year at this time. Alumni giving is up 63 percent. There are 34,335 alumni givers, that number is up 13 percent. Overall the University so far this year has 54,725 donors, up 12 percent. An interesting fact, $12.6 million has been given by alumni to date, $8.6 million has been given by 82 people and the rest by the other 34,000 alumni. In the $37.8 million, only $8 million of that is in pledges left over from the big campaign. The fact is that we are clearly increasing support to the endowment from gifts without regard to the fact that the campaign has gone on. This is an extraordinary achievement, I think, because generally there is a let down after big campaigns, and, indeed, we are not having that. A prediction was made that we may have the best year ever, in terms of total contributions to the endowment, perhaps as much as $50 million. That completes my report, Madam Chair.

(See Appendix LXXI for complete context of The Ohio State University Endowment Summary, April 19, 1991, page 1133.)

(See Appendix LXXII for chart on The Ohio State University Quarterly Cash and Investments, page 1161.)

(See Appendix LXXIII for chart on The Ohio State University Foundation and Development Fund Receipts, page 1163.)

FISCAL AFFAIRS COMMITTEE REPORT

Amb. Wolf:

The first item on our agenda is a Third Quarter Budget Report from Mr. Shkurti.

Mr. Shkurti:

You may recall at the February meeting when I presented the second quarter report, I indicated that I would put most of the changes in the mid-year review and therefore the first and third quarter report would not have any dramatic changes. That is true in this case. There is one change I would like to point out. The University is now carrying the Transportation Research Center in East Liberty, Ohio, on the University's books as part of our consolidated financial statement. We are doing that because our accountants have told us, and I think that they are correct,
Mr. Shkurti: (contd)

that generally accepted accounting principles are now pointing towards being inclusive about including affiliated organizations. That will increase the size of our books by about $11 million. The Transportation Research Center is in good shape financially, so our income will go up by $11 million, but our expense will also go up by $11 million. So there is no material change in the University's books.

The other thing that I would like to mention is that the budget for this year is still in good shape, but what we are worried about is the level of State support for next year. As President Gee mentioned, he and other friends of the University are working very hard to get State support up to the level that we think is necessary. We are hoping for the best, but we have to prepare for the worst. All the Deans and Vice Presidents have been sent a memorandum from Dr. Hutchinson and myself, and told to identify for us, as part of the budget process, their core programs that they want to protect, and also what they would do in cuts of 7 percent, 5 percent, and 3 percent. We will be accessing those over the next month or two. What this means is the budget for the University for the next fiscal year, which begins on July 1, which is normally heard by the Board at its June meeting, will probably be a little later than that this time around because of the uncertainty. But we are monitoring the process closely and working hard with our friends in the Legislature to get the level of support we feel we need. Madam Chair, that concludes my report.

(See Appendix LXXIV for charts on The Ohio State University 1990-91 Current Funds Budget, 3rd Quarter Report, page 1165.)

Amb. Wolf:

The Fiscal Affairs Committee is also recommending the following resolutions:

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS

Resolution No. 91-122

Synopsis: The reports on contracts, grants, and gifts and the summary for March 1991 are presented for Board acceptance.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, The Ohio State University Development Fund, and The Ohio State University Foundation:

NOW THEREFORE
REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station, The Ohio State University Development Fund, and The Ohio State University Foundation during the month of March 1991 be approved.

Upon motion of Amb. Wolf, seconded by Mr. Teaford, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Approval of Description and Establishment of Fund

The GAR Foundation Urban Youth Endowment Fund
Federal Research Contracts/Grants

$268,562.00 - Department of Health and Human Services, National Heart, Lung, and Blood Institute, Bethesda, Maryland, Pathobiological Determinants of Atherosclerosis in Youth, Department of Surgery (J. F. Cornhill), 1 March 1991 through 29 February 1992. (Project 764727 - Continuation)

$236,216.00 - Department of Health and Human Services, National Institute of General Medical Sciences, Bethesda, Maryland, The Molecular Biology of Microtubule-Interacting Proteins, Department of Molecular Genetics and Biotechnology Program (B. R. Oakley), 1 April 1991 through 31 March 1992. (Project 763502 - Continuation)

$195,028.00 - Department of Health and Human Services, National Cancer Institute, Bethesda, Maryland, Role of Gangliosides in the Pathogenesis of Gliomas, Department of Pathology (A. J. Yates), 1 April 1991 through 31 March 1992. (Project 767412 - Continuation)

$187,022.00 - Department of Health and Human Services, National Heart, Lung, and Blood Institute, Bethesda, Maryland, Platelet Fc Receptor in HIV Thrombocytopenia, Department of Internal Medicine (C. L. Anderson), 10 March 1991 through 31 December 1991. (Project 76935 - New)

$175,287.00 - Department of Education, Office of Special Education and Rehabilitation Services, Washington, D.C., Early Integration Training Project: Providing Training to Child Care Staff to Promote the Integration of Young Children with Disabilities, Education Administration and Department of Educational Services and Research (L. Magliocca), 1 September 1991 through 31 August 1992. (Project 767808 - Continuation)

$174,878.00 - Department of Health and Human Services, National Institute of Neurological Disorders and Stroke, Bethesda, Maryland, The Neural Control of Temperature Regulation, Department of Physiology (J. A. Boulant), 1 March 1991 through 29 February 1992. (Project 768894 - New)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Federal Research Contracts/Grants (contd)

$158,500.00 - Department of Health and Human Services, National Institute of Neurological Disorders and Stroke, Bethesda, Maryland, Pathway Formation in the Developing Spinal Cord, Oral Biology (R. H. Nordlander), 1 April 1991 through 31 March 1992. (Project 767816 - Continuation)

$143,717.00 - Department of Health and Human Services, National Institute of Neurological Disorders and Stroke, Bethesda, Maryland, Oral Tolerance in Allergic Encephalomyelitis, Department of Microbiology and Immunology (C. C. Whitacre), 1 April 1991 through 31 March 1992. (Project 765266 - Continuation)

$137,595.00 - National Science Foundation, Washington, D.C., Maintenance of the Bacillus Genetic Stock Center, Department of Biochemistry (D. H. Dean), 1 March 1991 through 29 February 1992. (Project 767330 - Continuation)

$127,406.00 - Department of Health and Human Services, National Institute on Deafness and Other Communication Disorders, Bethesda, Maryland, Basic and Applied Studies of Tactile Perception, Division of Speech and Hearing Science (J. M. Weisenberger), 1 February 1991 through 31 August 1991. (Project 768889 - New)

$124,985.00 - Department of Health and Human Services, National Institute on Drug Abuse, Bethesda, Maryland, Cocaine-Induced Ventricular Fibrillation, Department of Physiology (G. E. Billman), 1 April 1991 through 31 March 1992. (Project 768194 - Continuation)

$115,249.00 - Department of Health and Human Services, National Institute of Mental Health, Rockville, Maryland, Sensory Gating and Animal Models in Schizophrenia, Department of Psychiatry (S. B. Schwarzkopf), 1 April 1991 through 31 March 1992. (Project 768187 - Continuation)

$110,000.00 - National Science Foundation, Washington, D.C., Biochemistry and Molecular Biology of Polymeric Defense Barriers in Plants, Biotechnology Program (P. E. Kolattukudy), 1 March 1991 through 29 February 1992. (Project 767325 - Continuation)

$99,646.00 - Department of Health and Human Services, National Heart, Lung, and Blood Institute, Bethesda, Maryland, Neural Control of the Circulation in Pregnancy, Department of Physiology (C. M. Heesch), 1 March 1991 through 1 January 1992. (Project 768903 - New)

$96,000.00 - National Science Foundation, Washington, D.C., Structure and Dynamic Behavior of Selected Organolithium Compounds, Department of Chemistry (G. A. Fraenkel), 1 January 1991 through 31 December 1991. (Project 767225 - Continuation)

$91,869.00 - Department of Health and Human Services, National Institute of Mental Health, Rockville, Maryland, Determinants and Correlates of Maternal Depression, Department of Family Relations and Human Development (E. I. Hock), 1 April 1991 through 31 March 1992. (Project 768189 - Continuation)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Funds

The Roald F. and Della J. Campbell Memorial Scholarship Fund in Educational Administration

The Roald F. and Della J. Campbell Memorial Scholarship Fund in Educational Administration was established May 3, 1991, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the estates of Roald F. Campbell, Professor Emeritus, and his wife, Della J. Campbell, of Salt Lake City, Utah.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for scholarships or loans for students whose area of interest is educational administration. Selection of recipients shall be made by the Dean of the College of Education, or his designee, in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the person then responsible for educational administration.

The William Baldenhofer Mechanical Engineering Scholarship Fund

The William Baldenhofer Mechanical Engineering Scholarship Fund was established May 3, 1991, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from Carol E. Baldenhofer in memory of her late husband, William Baldenhofer (B.M.E. '26).
Establishment of Named Funds (contd)

The William Baldenhofer Mechanical Engineering Scholarship Fund (contd)

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide Department of Mechanical Engineering scholarships to students who have demonstrated academic ability and the need for financial assistance. Preference shall be given to residents of Clark and Champaign counties and, in turn, other Ohio residents. The recipients will be named annually but may be eligible for renewed awards. The selection shall be made by the University Committee on Student Financial Aid upon the recommendation of the Department of Mechanical Engineering.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Chemical Engineering Class of 1941 Fund

The Chemical Engineering Class of 1941 Fund was established May 3, 1991, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from alumni and friends of the Class of 1941.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more Department of Chemical Engineering, or its successor department, undergraduate scholarships to students who have demonstrated academic ability and need for financial assistance. Eligible students will be limited to those who have completed their freshman year. Recipients will be named annually, but may be eligible for renewed awards. The selection will be made by the University Committee on Student Financial Aid upon the recommendation of the Department of Chemical Engineering.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.
May 3, 1991 meeting, Board of Trustees

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Establishment of Named Funds (contd)

The 4-H Camp Ohio Endowment Fund

The 4-H Camp Ohio Endowment Fund was established May 3, 1991, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Camp Ohio, owned by Agricultural Extension Camps, Inc., St. Louisville, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to enhance and foster further development of the resources and camping program at Camp Ohio. All expenditures from this fund shall be approved by the Camp Ohio Board of Trustees.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then the fund shall be for the use and benefit of the 4-H program of the Ohio Cooperative Extension Service.

The Guernsey County 4-H Oscar Share Endowment Fund

The Guernsey County 4-H Oscar Share Endowment Fund was established May 3, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the Guernsey County 4-H Committee and other friends of the Guernsey County 4-H Program.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support and enhance the Guernsey County 4-H Program. This income shall be used as a complement to, not a substitute for, public funding. This support shall include funding of 4-H camping scholarships and programs as determined by the County 4-H Advisory Committee. This may also include, but is not limited to, scholarships for workshops and forums, volunteer leader support, sponsoring seminars and programs, purchasing material for services that will supplement 4-H programming or increase visibility and public support for 4-H in Guernsey County. All expenditures from this fund shall be approved by the Guernsey County 4-H Advisory Committee under the direction of the Guernsey County Cooperative Extension Service.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.
May 3, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY FOUNDATION

Approval of Description and Establishment of Fund

The GAR Foundation Urban Youth Endowment Fund

The GAR Foundation Urban Youth Endowment Fund was established May 3, 1991, by the Board of Trustees of The Ohio State University through funds received by the University from The Ohio State University Foundation for the support of the Agricultural Technical Institute.

Income provided by the Foundation shall be distributed to the Agricultural Technical Institute to support activities and programs designed to encourage and assist urban youth, especially from the Akron, Ohio, area, to attend the Agricultural Technical Institute. The summer youth camp is the first funding priority; related activities may be funded also.

EMPLOYMENT OF ARCHITECTS/ENGINEERS AND REQUEST FOR CONSTRUCTION BIDS

Resolution No. 91-123

ATI - PHASE I, MECHANICAL EQUIPMENT AND HVAC CONTROLS
ATI - PHASES II AND III, BUILDING IMPROVEMENTS, POLE BARN, AND LAND IMPROVEMENTS
ATI - PHASE IV, MASONRY IMPROVEMENTS AND FOUNDATION AND STRUCTURAL MODIFICATIONS
ATI - PHASE V, PARKING LOT, ROADWAY AND SIDEWALK REPLACEMENT

Synopsis: Authorization to employ architects/engineers and request construction bids for the ATI - Phases I, II and III, IV, and V projects is proposed.

WHEREAS House Bill 808, enacted by the 118th General Assembly, made capital appropriations for projects for The Ohio State University for the 1990-1992 biennium, including the following projects at the Agricultural Technical Institute: Phase I - Mechanical Improvements; Phases II and III - Building Improvements, Pole Barn, and Land Improvements; Phase IV - Masonry Improvements and Foundation and Structural Modifications; and Phase V - Parking Lot, Roadway, and Sidewalk Replacement; and

WHEREAS the total estimated project cost for Phase I is $36,000.00, and the total estimated construction cost is $28,500.00; and

WHEREAS the total estimated project cost for Phases II and III is $99,000.00, and the total estimated construction cost is $81,500.00; and

WHEREAS the total estimated project cost for Phase IV is $63,000.00, and the total estimated construction cost is $55,000.00; and

WHEREAS the total estimated project cost for Phase V is $143,000.00, and the total estimated construction cost is $128,000.00:
EMPLOYMENT OF ARCHITECTS/ENGINEERS AND REQUEST FOR CONSTRUCTION BIDS (contd)

ATI - PHASE I, MECHANICAL EQUIPMENT AND HVAC CONTROLS
ATI - PHASES II AND III, BUILDING IMPROVEMENTS, POLE BARN, AND LAND IMPROVEMENTS
ATI - PHASE IV, MASONRY IMPROVEMENTS AND FOUNDATION AND STRUCTURAL MODIFICATIONS
ATI - PHASE V, PARKING LOT, ROADWAY AND SIDEWALK REPLACEMENT (contd)

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to select qualified architectural/engineering firms as necessary for these projects and that the fees for these services be negotiated between the firm selected and the University; and

BE IT FURTHER RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request construction bids on these projects in accordance with established State of Ohio and University procedures, and if satisfactory bids are received, to recommend award of contracts, with all actions to be reported to this Board at the appropriate time.

Upon motion of Amb. Wolf, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXXV for background material and map, page 1171.)

REQUEST FOR CONSTRUCTION BIDS Resolution No. 91-124

NEW NEUROPSYCHIATRIC FACILITY
RHODES HALL - SURGERY HVAC REVISIONS
OHIO UNION - PERIMETER HEATING PIPE REPLACEMENT
PARKS HALL LABORATORY RENOVATION
CANNON DRIVE IMPROVEMENTS

Synopsis: Authorization to request construction bids for the New Neuropsychiatric Facility, Rhodes Hall - Surgery HVAC Revisions, Ohio Union - Perimeter Heating Pipe Replacement, Parks Hall Laboratory Renovation, and Cannon Drive Improvements projects is proposed.

WHEREAS University Hospitals desires to proceed with construction of a new psychiatric facility for treatment, teaching and research; and

WHEREAS the Board of Trustees authorized the employment of an architectural firm for the Neuropsychiatric Facility on September 2, 1988; and

WHEREAS the total estimated project cost is $15,000,000.00, and the total estimated construction cost is $12,000,000.00, with funds provided from University bond proceeds; and

WHEREAS University Hospitals desires to proceed with the Rhodes Hall - Surgery HVAC Revisions; and
REQUEST FOR CONSTRUCTION BIDS (contd)

NEW NEUROPSYCHIATRIC FACILITY
RHODES HALL - SURGERY HVAC REVISIONS
OHIO UNION - PERIMETER HEATING PIPE REPLACEMENT
PARKS HALL LABORATORY RENOVATION
CANNON DRIVE IMPROVEMENTS (contd)

WHEREAS the total estimated project cost is $658,500.00, and the total estimated construction cost is $550,000.00, with funds provided by University Hospitals; and

WHEREAS the Ohio Union desires to proceed with the replacement of piping system for unit "A," including convertors, circulating pumps, unit heaters, finned radiation; and

WHEREAS the total estimated project cost is $828,750.00, and the total estimated construction cost is $479,750.00, and the total asbestos abatement cost is $195,000.00, with funds provided from University bond proceeds; and

WHEREAS the College of Pharmacy desires to proceed with the renovation of room 233 in Parks Hall to facilitate modern pharmacy dispensing practices; and

WHEREAS the total estimated project cost is $262,350.00, and the total estimated construction cost is $235,000.00, with funds provided by central University funds in the amount of $131,175.00 and gifts in the amount of $131,175.00; and

WHEREAS the City of Columbus has passed legislation to permit the Director of the Ohio Department of Transportation to administer a highway improvement project within the City of Columbus to provide a State Route 315 exit ramp to Cannon Drive; and

WHEREAS the University desires to proceed with improvements to Cannon Drive to include the widening of the road to four lanes to facilitate traffic movement; and

WHEREAS the planning for this project was approved by the Board of Trustees on October 3, 1980; and

WHEREAS the total estimated project cost is $5,300,000.00, and the total estimated construction cost is $4,600,000.00, with funds provided from several sources, including University bond proceeds, State capital appropriations, and University funds:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request construction bids on these projects in accordance with established University and/or State of Ohio procedures and if satisfactory bids are received, to award contracts, or recommend the award of contracts, as appropriate, with all actions to be reported to this Board at the appropriate time.

Upon motion of Amb. Wolf, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXXVI for background material, page 1175.)

May 3, 1991 meeting, Board of Trustees

REPORT OF AWARD OF CONTRACTS AND ESTABLISHMENT OF CONTINGENCY FUNDS
Resolution No. 91-125

UNIVERSITY HALL AND WILLIAM OXLEY THOMPSON LIBRARY - ELEVATOR UPGRADE MECHANICAL IMPROVEMENTS (AGRICULTURAL ADMINISTRATION BUILDING) ROOF REPLACEMENTS (STILLMAN HALL) DENTAL INSTRUCTIONAL LAB IMPROVEMENTS

Synopsis: Approval of the Report of Award of Contracts and the Establishment of Contingency Funds for the University Hall and William Oxley Thompson Library - Elevator Upgrade, Mechanical Improvements (Agricultural Administration Building), Roof Replacements (Stillman Hall), and Dental Instructional Lab Improvements projects is recommended.

WHEREAS resolutions adopted by the Board of Trustees on May 4, 1989, and October 5, 1990, authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established State of Ohio and University procedures, and if satisfactory bids were received to recommend the award of contracts for the following projects: University Hall and William Oxley Thompson Library - Elevator Upgrade, Mechanical Improvements (Agricultural Administration Building), Roof Replacements (Stillman Hall), and Dental Instructional Lab Improvements; and

NOW THEREFORE

BE IT RESOLVED, That pursuant to the actions previously authorized by the Board, the Report of Award of Contracts and Establishment of Contingency funds for the University Hall and William Oxley Thompson Library - Elevator Upgrade, Mechanical Improvements (Agricultural Administration Building), Roof Replacements (Stillman Hall), and Dental Instructional Lab Improvements projects is hereby approved.

Upon motion of Amb. Wolf, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXXVII for background material and tabulation of bids, page 1177.)

LEASE OF LAND AND IMPROVEMENTS
Resolution No. 91-126

1000 KINNEAR ROAD
COLUMBUS, OHIO

Synopsis: Lease of approximately five acres of land, including a building of approximately 50,800 gross square feet, located at 1000 Kinnear Road, with an option to purchase, is proposed.

WHEREAS The Ohio State University needs additional land and facilities to house Research Park activities, sponsored research programs, and University and related operations; and

1128
LEASE OF LAND AND IMPROVEMENTS (contd)

1000 KINNEAR ROAD
COLUMBUS, OHIO (contd)

WHEREAS Kinnear Research Associates own approximately five acres of land at 1000 Kinnear Road in Columbus, Ohio, with a building containing approximately 50,800 gross square feet and have agreed to lease this property to the University for ten years with an option to purchase the property; and

WHEREAS the lease and option price are consistent with MAI appraisals obtained by the University and the cost of the lease and possible purchase would be funded through rental of the space to University and related tenants at no additional cost to the University's General Fund; and

WHEREAS the appropriate University offices are in agreement as to the desirability of leasing this property:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to lease this property from Kinnear Research Associates upon such terms and conditions as are deemed to be in the best interest of the University.

Upon motion of Amb. Wolf, seconded by Mr. Teaford, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXXVIII for background material and map, page 1187.)

--0--

Mr. Scott:

This resolution basically stipulates that authorization would be granted to the administration to form a nonprofit corporation to market The Ohio State University Health Care Plan. This request has been carefully studied and researched, and we've involved a consultant in our endeavors to look at the market circumstances and what would be needed to establish such a corporation. We believe that establishing such a corporation in today's volatile health care market enhances the University's medical areas' capability to provide and maintain viable health services, income streams, along with our education, research, and teaching mission. This resolution would allow the administration to develop the necessary code of regulations, and also put into place the necessary administrative function to get this corporation running.

FORMATION OF NONPROFIT CORPORATION TO MARKET
THE OHIO STATE UNIVERSITY HEALTH PLAN

Resolution No. 91-127

Synopsis: Authorization to form a nonprofit corporation to advance The Ohio State University Health Plan is proposed.
FORMATION OF NONPROFIT CORPORATION TO MARKET
THE OHIO STATE UNIVERSITY HEALTH PLAN (contd)

WHEREAS the Board of Trustees of The Ohio State University has determined that there is a need to create a nonprofit corporation to market, promote, and provide The Ohio State University Health Plan and any expanded managed health care services and programs to employers and groups within Ohio, and to conduct and support other related programs that augment and enhance the undertakings of The Ohio State University Health Plan, University Hospitals, the College of Medicine, and other health-related services in advancing the University's educational, research, patient care, health care, and public service responsibilities; and

WHEREAS such a corporation would be organized and operated exclusively for purposes qualifying it as an exempt organization under the U.S. Internal Revenue Code and would be governed by trustees appointed or elected by this Board or the University administration; and

WHEREAS this Board desires that Manuel Tzagournis, M.D., in his official capacity as Vice President for Health Services and Dean of the College of Medicine, act as incorporator of such corporation:

NOW THEREFORE

BE IT RESOLVED, That pursuant to the general authority vested in this Board by law, the Board of Trustees of The Ohio State University hereby approves and authorizes the establishment of a nonprofit corporation to market, promote, and provide The Ohio State University Health Plan and any expanded managed health care services and programs to employers and groups within Ohio, and to conduct and support other related programs or activities that augment and enhance the undertakings of The Ohio State University Health Plan, University Hospitals, the College of Medicine, and other health-related services in advancing the University's educational, research, patient care, health care, and public service responsibilities, and approves such a relationship between the corporation and the University which can qualify such corporation as an exempt organization under Section 501(c)(3) of the U.S. Internal Revenue Code; and

BE IT FURTHER RESOLVED, That The Ohio State University gives its consent to such corporation to use the name and registered marks of the University, as deemed appropriate by the President of the University, to carry out the purposes of the corporation; and

BE IT FURTHER RESOLVED, That Manuel Tzagournis, M.D., acting in his official capacity as Vice President for Health Services and Dean of the College of Medicine, is hereby authorized to act as Incorporator of such corporation and to perform such functions and execute such documents as may be necessary or desirable to incorporate such corporation, representing the interest of the University in such capacity as part of his official responsibility to the University, entitling him to any immunity, insurance, or indemnity protection to which officers and employees of the University now are, or hereafter may become, entitled.

Upon motion of Amb. Wolf, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

President Gee:

On behalf of your colleagues at the University, we happen to have a small item in recognition of what has been a most worthy effort for nine years and certainly for this year. Congratulations to you. [Presentation of gavel.]
May 3, 1991 meeting, Board of Trustees

Mrs. Bowser:

I want to say that this is my alma mater and it has been a very pleasurable experience to serve nine years and to be able to pay back for the marvelous education that I received here. The University is made up of people and it has been the people that have surrounded me and broadened me. I have watched these people work with such dedication for this University and that is exactly why it is such a fine place. We have a good system here; we have a nine-year term and that is long enough to serve. It is time for me to rotate off. I charge all of you Trustees here present to make the new Trustee welcome, not only in your meetings, but in the way you react within; that you bring them into this brotherhood and sisterhood; encourage them to ask questions; and help them to love this place as much as I love it. Thank you, very much.

Mr. Teaford:

We can't let you get away without something publicly on the record. I think that your induction into Bucket and Dipper and to Sphinx in the last two days shows the great affection and high regard this University has for you. Last night, we spoke at length about your importance to this University, and I feel it is necessary that it be publicly on the record how much we do appreciate your extraordinary service to this University. Shirley, don't think this is your last service to the University, we will get you back.

Thereupon the Board adjourned to meet Friday, June 7, 1991, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio.

Attest:

Madison H. Scott Shirley D. Bowser
Secretary Chairperson
APPENDIX LXXI

THE OHIO STATE UNIVERSITY ENDOWMENT SUMMARY
April 19, 1991

Presented to the Investments Committee and
Adopted by the Board of Trustees, May 3, 1991

MEMORANDUM

SUBJECT: Proxy Solicitations

DATE: April 30, 1991

FROM: James L. Nichols, Treasurer

TO: Board of Trustees, The Ohio State University

During the month of April 1991, the University voted 145 proxies.

Management proposals were as follows:

1) Election of the Board of Directors;
2) Ratification of the independent auditors;
3) Approval of 1991 Stock Purchase Plan;
4) Approval of amendment to eliminate cumulative voting in the election of Directors;
5) Ratification of the Directors Stock Option Plan;
6) Approval of 1991 Stock Incentive Plan;
7) Ratification of Long-Term Incentive Plan;
8) Approval to change the company's name;
9) Approval to increase the number of authorized shares of common stock;
10) Approval of formation of a bank holding company;
11) Adoption of Employee Stock Plan;
12) Approval of Stock Option Plan for key employees of the corporation and its subsidiaries;
13) Ratification of amendment to change the par value of common shares;
14) Approval of amendment to the Stock Incentive Plan increasing the number of shares available for grant;
15) Ratification of amendment to the by-laws of the corporation to fill the vacancy created by an increase in the number of directors;
16) Approval of savings and retirement plans maintained for associates of the company;
17) Ratification of a proposal changing the state of incorporation of the company;
18) Approval of amendment that establishes the possible number of directors;
19) Ratification of the plan for the deferral of directors' compensation;
20) Approval of amendments to previous Stock Option Plans;
21) Approval of amended Senior Management Incentive Award Deferral Plan and the Senior Management Short Term Incentive Plan;
22) Ratification of an amendment to the Stock Option Plan extending the expiration date of the plan;
23) Adoption of New Restated Articles of Incorporation;
24) Approval of amendment to the Directors' Stock Investment Plan enabling directors to make increased contributions of directors' fees to the plan;
25) Approval of amendment to Long Term Incentive Plan extending the period during which awards of restricted stock may be granted;

1154
Approval to permit the issuance of a new series of preferred stock with dividends payable other than quarterly;

Approval of a proposal allowing for the possibility of adjournment of the annual meeting to solicit additional proxies;

Approval of amendment to Stock Option Plans allowing for the option to receive payment in cash for rights granted under the plan;

Ratification of an amendment permitting the removal of directors for cause only.

The shareholder proposals were as follows:

1) Terminate remaining economic relationships with South Africa and establish a policy not to renew any economic ties to South Africa until apartheid ends;
2) Approve the establishment of a policy prohibiting company purchases of products from South Africa until Apartheid ends;
3) Approve company to become signatory of the Valdez Principles;
4) Establish annual election of directors;
5) Establish a committee to review the company's compliance with the voluntary cigarette advertising code;
6) Require all members of the Board of Directors to own a minimum number of shares of voting stock;
7) Provide for cumulative voting in the election of Directors;
8) Issue a company report on military equipment, services & technology sold overseas;
9) Provide for the annual election of the company's independent accounting firm by all shareholders;
10) Adopt a policy of confidential shareholder voting;
11) Redeem or submit to a binding shareholder vote the corporation's "poison pill" share purchase rights plan by the Board of Directors;
12) Identify by name and corporate title in all future proxy statements those executive officers who are contractually entitled to receive in excess of $100,000 as annual base salary, along with any additional bonuses and other cash payments due them;
13) Adopt resolution that the company issue a report concerning equal rights practices at one of its subsidiaries;
14) Adopt resolution that the company remove itself from the business of nuclear weapons;
15) Establish a company policy of issuing a report regarding environmental protection;
16) Adopt a policy whereby the company issues a report outlining its involvement in the nuclear energy business;
17) Amend the by-laws of the company to provide that the board of directors consist of a majority of independent non-management directors;
18) Provide a report detailing the company's advertising of certain cigarettes to African-Americans;
19) Adopt a policy whereby the company issues a report on the factory farming of animals;
20) Establish a committee to report on the company's advertising of its smokeless tobacco and its effect in children;
21) Adopt resolution that the Board of Directors refrain from providing executive compensation contingent upon a change in control of the company unless such awards are specifically submitted to the shareholders for approval;
22) Adopt an amendment to Articles of Incorporation whereas the Ohio Revised Code Chapter 1704 shall no longer apply to the corporation;
23) Establish a company policy that requires the company to make all possible lawful efforts to implement and/or increase activity on each of the nine MacBride Principles;
24) Adopt resolution calling for the company to report on former government officials employed by the company;
25) Adopt amendment whereby the company shall no longer be governed by Section 203 of the General Corporate law of the State of Delaware -- an "anti-takeover" law;
26) Establish a committee to report on the policy of keeping live dogs for training and demonstration;
27) Approve a resolution that the company no longer purchase coffee from El Salvadorian suppliers until the Salvadorian conflict is peacefully resolved;
28) Establish a committee to review the company's marketing of alcoholic beverages;
29) Issue a report regarding the company's advertising and promotions relating to cigarettes and minors;
30) Approve resolution whereby the worldwide distribution of cigarettes will contain warnings that it is hazardous to one's health;
31) Issue an annual company report of all donations and contributions made to charitable and not-for-profit organizations;
32) Issue a report to shareholders outlining the use of animals in the corporation's research;
33) Establish a policy whereby the company refrains from giving money to advocacy or service organizations that support, counsel or perform abortion;
34) Eliminate testing on animals not required by law and phase out products which can not be marketed without live animal testing;
35) Adopt a policy whereby the company will not market infant formula directly to the public, pregnant women and mothers;
36) Reduce and, where possible, eliminate the toxic chemicals emitted by the company's facilities in the United States and other countries;
37) Approve resolution that the Shareholders Rights Plan be approved by the shareholders;
38) Approve proposal calling for the Board to take the necessary steps to restore limited pre-emptive rights to the shareholders;
39) Approve resolution that the company resume contributions to the Planned Parenthood Federation of America;
40) Ratify a proposal whereby the company would phase out all sales and services to the State of Israel and to Israeli businesses.

The University voted for all Management proposals and for the shareholder proposals regarding South Africa. The University voted against all other shareholder proposals. Additionally, Management opposed all shareholder proposals.

The 145 corporations were:

1) Acuson Corporation
2) Advanced Micro Devices, Incorporated
3) Albertson's Incorporated
4) A.L. Laboratories, Incorporated
5) American Brands, Incorporated
6) American Electric Power Company, Incorporated
7) American Home Products Corporation

(1) Includes instructional, general, non-resident, and misc. other fees.
(2) Includes departmental sales and services and auxiliary income such as residence and dining hall fees and parking fees.
(3) Includes temporary investments, prior years' earnings, rental income, etc.
(4) Excludes all earnings and restricted funds.
APPENDIX LXXV

ATI - PHASE I, MECHANICAL EQUIPMENT AND HVAC CONTROLS
ATI - PHASES II AND III, BUILDING IMPROVEMENTS, POLE BARN, AND LAND IMPROVEMENTS
ATI - PHASE IV, MASONRY IMPROVEMENTS AND FOUNDATION AND STRUCTURAL MODIFICATIONS
ATI - PHASE V, PARKING LOT, ROADWAY AND SIDEWALK REPLACEMENT

Adopted by the Board of Trustees, May 3, 1991
(See page 1126)
Employment of Architects/Engineers and Request for Construction Bids

Background

ATI - Phase I. Mechanical Equipment and HVAC Controls

This project will improve overall building controls in Halterman and Skou Halls by replacing worn and defective hot and cold water valves and controls with new simplified controls and install new discharge mode reset abilities.

ATI - Phases II and III. Building Improvements, Pole Barn, and Land Improvements

Phase II will address improvements in various classrooms, laboratories, offices and lounge spaces to accommodate increasing enrollment. Improvements include laboratory modifications, new wall construction and new floor and ceiling finishes in student areas. Replacement of defective double-insulated glass window panels in Skou Hall also is included. Phase III will construct a pole barn to house equipment and provide space to complete equipment repairs in inclement weather.

ATI - Phase IV. Masonry Improvements and Foundation and Structural Modifications

This project will renovate Halterman and Skou Halls' parapet and planter walls, including complete dismantling of specific walls, brick replacement, and the addition of a limestone cap. This project also will address structural problems in the foundation, walls, grade beams, and floors in the North and South Beef Barns and Swine Barn.

ATI - Phase V. Parking Lot, Roadway and Sidewalk Replacement

This project will patch and resurface the existing 300-space parking lot and roadway with asphalt, remove asphalt sidewalk and replace with concrete, remove the asphalt sidewalk curbing and replace specific locations with concrete, and remove and replace small segments of concrete sidewalk which have settled and cracked.
Agricultural Technical Institute Phases I, II and III, IV, and V

Office of Business and Administration
May 3, 1991
APPENDIX LXXVI

NEW NEUROPSYCHIATRIC FACILITY
RHODES HALL - SURGERY HVAC REVISIONS
OHIO UNION - PERIMETER HEATING PIPE REPLACEMENT
PARKS HALL LABORATORY RENOVATION
CANNON DRIVE IMPROVEMENTS

Adopted by the Board of Trustees, May 3, 1991
(See page 1127)
Request for Construction Bids

Background

New Neuropsychiatric Facility

This project will construct a new psychiatric facility for treatment, teaching, and research. Included in the project is demolition of the west wing of Upham Hall and construction of a 5-story building of approximately 111,660 square feet.

Rhodes Hall - Surgery HVAC Revisions

This project will provide new ductwork, filters, terminal re-heat boxes and humidity controls for nine Rhodes Hall surgeries. When completed, the surgeries will have Direct Digital Controls and Laser Particle Counter systems providing state-of-the-art filtered air and individual humidity control.

Ohio Union - Perimeter Heating Pipe Replacement

This project will replace perimeter piping system for unit "A" including converters, circulating pumps, unit heaters and finned radiation. Removal of asbestos on related piping also is included.

Parks Hall Laboratory Renovation

This project will renovate room 233 in Parks Hall to facilitate modern pharmacy dispensing practices. The laboratory design will include a training clean room, a small library reference section, and a small director's office. Each teaching station will include a computer and telephone for use by a two-student team. Additionally, one physically impaired student station has been designed within this laboratory.

Cannon Drive Improvements

This project will widen Cannon Drive to four lanes, widen the Herrick Drive Bridge, and make improvements to a section of Olentangy River Road to facilitate traffic movement associated with the planned State Route 315 exit ramp to Cannon Drive.
APPENDIX LXXVII

UNIVERSITY HALL AND WILLIAM OXLEY THOMPSON LIBRARY - ELEVATOR UPGRADE
MECHANICAL IMPROVEMENTS (AGRICULTURAL ADMINISTRATION BUILDING)
ROOF REPLACEMENTS (STILLMAN HALL)
DENTAL INSTRUCTIONAL LAB IMPROVEMENTS

Adopted by the Board of Trustees, May 3, 1991
(See page 1128)
Report of Award of Contracts and Establishment of Contingency Funds

Background

University Hall and William Oxley Thompson Library - Elevator Upgrade

This project will replace the door hangers and door systems on two elevators in the Thompson Library and remove existing materials and replace with non-asbestos sprayed on fireproofing material on the structural steel in the elevator hoistway of University Hall. The total project cost is $59,050.00; funding is provided from House Bill 808. The estimated completion date is December 1991. The contract awarded is as follows:

<table>
<thead>
<tr>
<th>General Contract:</th>
<th>General Elevator Company, Inc., Columbus, Ohio</th>

**Mechanical Improvements (Agricultural Administration Building)**

This project will upgrade the building environments and improve occupants' comfort by providing modifications and/or replacements of building HVAC systems in the Agricultural Administration Building. The total project cost is $93,867.00; funding is provided from Senate Bill 336. The estimated completion date is December 1991. The contracts awarded are as follows:

APPENDIX LXXVIII

1000 KINNEAR ROAD
COLUMBUS, OHIO

Adopted by the Board of Trustees, May 3, 1991
(See page 1129)
Lease of Land and Improvements

1000 Kinnear Road
Columbus, Ohio

Background

Description and Location

The property consists of approximately 5.011 acres of land located at 1000 Kinnear Road in Columbus, Ohio. The property is situated at the northwest corner of the intersection of Kinnear and Kenny Roads, just east of the University's Research Park facilities and just south of the West Campus area. The property is zoned for light manufacturing.

The one-story building contains about 50,800 gross square feet. Constructed in 1941, it was "gutted" and given a shell renovation in 1990. The renovation included new windows and doors, roof, HVAC, electrical service, parking areas, underground communications conduit, and repointed exterior brick. The interior is almost completely open.

Appraised Value and Lease Terms

In October 1990, the University obtained an MAI appraisal from Anthony Mollica and Associates placing the fair market value of the property at $3,550,000.00, and the fair market rental value at $8.00 to $8.50 per square foot, both including a tenant finish allowance of $25.00 per square foot. A second MAI appraisal done in February 1991, by Nash-Wilson Associates valued the property at $3,600,000.00 and the fair market rental value at $8.75 per square foot, both including a $20.00 per square foot tenant finish allowance.

The owners of the property, Kinnear Research Associates, have offered to lease the property to the University for ten years, at an initial rate of $8.75 per square foot (triple net basis), with rent beginning in the seventh month or earlier if the tenant improvements are completed earlier, and increasing by 9.3 percent every three years. The lease includes an option to purchase the property any time after three years after the commencement of the lease (which would be May 15, 1991). The purchase price would be $3,600,000.00, as of now, escalated by 0.375 percent per month (4.5 percent per year). Both the lease rate and the purchase price include a $20.00 per square foot tenant finish allowance.

Use of the Property

This property would provide much needed space for Research Park, sponsored research, and other University programs, and its acquisition would enable the University to control a strategic area at a major entrance to the Columbus campus. The property would be managed by the Property Management Division and subleased to University and Research Park tenants. Rental payments from the subtenants would cover lease payments, operating expenses, improvements, start-up costs, and (if the option is exercised) purchase costs. Initial rental rates to University subtenants would be approximately $13.50 per gross square foot.

APPENDIX LXXIX

Degrees Conferred at
THE OHIO STATE UNIVERSITY
COMMENCEMENT CONVOCATION

June 14, 1991
E. Gordon Gee

E. Gordon Gee became the 11th president of The Ohio State University on September 1, 1990. A native of Utah, Gee received his bachelor's degree in history from the University of Utah in 1968 and a law degree and doctorate in education from Columbia University in 1971 and 1972, respectively. At Columbia, he was a Harlan Fiske Stone Scholar and a Kellogg Fellow.

Returning to the University of Utah in 1973, Gee served as assistant law dean for one year before becoming a judicial fellow and senior staff assistant in the chambers of the Chief Justice of the United States from 1974 to 1975. He then joined the faculty of the J. Reuben Clark Law School at Brigham Young University, serving as associate law dean and professor of law from 1975 to 1979.

In 1979, Gee was named dean of the law school at West Virginia University, and, in 1981, became president of West Virginia, a state-assisted institution with two campuses and 20,000 students. Four years later, he became the 15th president of the University of Colorado, another state-assisted institution with four campuses and 41,000 students.

A recipient of a number of prestigious honors in the fields of law and education, Gee has authored or co-authored six books, including Information Literacy: Revolution in the Library, which won the American Library Association G. K. Hall Award in 1990 for the outstanding contribution to library literature.
Recipients of Honors

William N. Lipscomb, Jr.
Doctor of Science

One of America's foremost scientists, William N. Lipscomb, Jr.'s work spans the range of modern chemistry from his pioneering research on the molecular structures and bonding of boron hydrides to his current studies of enzyme mechanisms.

Dr. Lipscomb received his bachelor of science degree from the University of Kentucky in 1941 and his doctorate from the California Institute of Technology in 1946, where his major thesis adviser was Linus Pauling. He was a member of the physical chemistry faculty at the University of Minnesota from 1946 until 1959, when he joined the faculty of Harvard University as professor of chemistry. He served as chair of Harvard's chemistry department from 1962 to 1965 and currently is Abbott and James Lawrence Professor.

When Dr. Lipscomb began his work on boron hydrides, little was known of these unusual man-made molecules. He and his group of researchers were able to provide the first clear picture of the forces holding boron hydrides together. In 1976, Dr. Lipscomb received the Nobel Prize in Chemistry for this seminal research, combining theoretic and experimental organic and inorganic chemistry.

Dr. Lipscomb's scholarly activities are now focused on the relationship of three-dimensional structure and function as applied to enzymes and other proteins—research with major biomedical implications. His scientific achievements have been recognized throughout the world. He is an elected member of the National Academy of Sciences, a fellow of the American Academy of Arts and Sciences, an honorary member of the Chemical Society (London), a foreign member of the Netherlands Academy of Arts and Sciences, a member of the Academie Européene des Sciences, des Arts et des Lettres (Paris), and an honorary fellow of the Royal Society of Chemistry (London).

Because of his sustained excellence as a researcher and his extraordinary ability, Dr. Lipscomb has the universal admiration of the international scientific community. Ohio State is proud to add its recognition to his many honors.

Wendell W. Ellenwood
Distinguished Service Award

For a quarter of a century, Wendell W. Ellenwood dedicated himself to serving the University community as director of the Ohio Unions. One of the true pioneers of student unions, he ensured that the Ohio Unions kept pace with changing populations and needs.

A 1943 graduate of Ohio State, Mr. Ellenwood lived in the Stadium Scholarship Dormitory throughout his undergraduate years. He then served with the U.S. Third Army field artillery.

After the war he returned to Ohio State, earning his master's degree in public administration in 1947. During his 11 years of service with the U.S. Civil Service Commission, he continued to work for his alma mater as volunteer director of Ohio State Development Fund campaigns in Cincinnati, Dayton, and Washington, D.C.

In 1958, he was named director of the Ohio Union at Ohio State. During his tenure, he oversaw an impressive number of student-oriented cultural, educational, and entertainment programs, including the Creative Arts Program of informal, non-credit courses, the Medieval and Renaissance Festival, the Creative Arts Festival, International Students Festival, and many more.

As the campus grew and enrollment increased, Ellenwood developed plans for the Drake Union, which opened in 1972 on the banks of the Olentangy River. Two years later, he initiated the first contract food service mall in any college union, a concept that has been widely copied throughout the country.

Mr. Ellenwood helped found five new Ohio State alumni clubs: Ohio Staters, the Stadium Scholarship Dormitories, TBDBITL (Marching Band), Army ROTC, and Ohio Union Activities. He was a recipient of The Ohio State University Centennial Award in 1970 and is an honorary member of Sphinx, Ohio State's senior honorary society.

For his incomparable contributions to his University as student, counselor, alumnus, and administrator, Ohio State is proud to recognize Wendell Ellenwood with its Distinguished Service Award.
Recipients of Honors

Albert J. Kuhn
Distinguished Service Award

A highly respected academician and a skilled administrator, Albert J. Kuhn has served Ohio State with distinction for nearly four decades.

Dr. Kuhn began his academic career at Ohio State in 1954 having received his bachelor's degree in English from the University of Illinois and his doctorate in English literature from Johns Hopkins University. He moved rapidly through the academic ranks, becoming full professor of English in 1965 and serving as chair of the Department of English from 1964 to 1971.

During his years in the English department, Dr. Kuhn’s creativity and energy were evident in his teaching and his committee work. He served on the University Library Council, the University Athletic Council, the Executive Committee of the Colleges of the Arts and Sciences, and The Ohio State University Press Editorial Board, among other major committees. He has published essays and articles on 18th and 19th century English intellectual history and literature and has edited three books.

In 1971, he accepted the position of acting provost and vice president for academic affairs, and was named provost in 1972, serving with sensitivity throughout that volatile period until 1979. That year he planned to return to teaching, hoping to end his academic career as it began. However, in 1986 his colleagues persuaded him to accept the leadership of the University Honors Center. His highly regarded reputation for academic integrity and his commitment to excellence were basic to the expansion and increased visibility of the Undergraduate Honors Program.

Dr. Kuhn retired from full-time service in 1989. As professor emeritus, he continues to give occasional readings and talks at the Honors Center, which now bears his name.

Ohio State is proud to recognize the many and varied achievements of this distinguished man of letters and is profoundly grateful for his years of service.

Paul E. Watkins
Distinguished Service Award

A love of learning and a steadfast loyalty to his alma mater are ingrained in the life of Paul E. Watkins.

A 1958 graduate of Ohio State’s College of Pharmacy, Mr. Watkins immediately went to work for the Student Book Exchange (SBX), which he now manages. Over the years, he has consistently shared his knowledge of books and the publishing industry to benefit the University.

As a generous, committed, and well-informed supporter of the humanities at Ohio State, Mr. Watkins has given unstintingly of his time, his counsel, and his resources to such units as the College of Humanities, the Department of Classics, the Center for Epigraphical Studies, the Department of English, the Department of Philosophy, the Logan Elm Press, and the University Libraries, among others.

He has served for seven years on the College of Humanities Development Council and has been instrumental in strengthening lines of communication between the University, its alumni, and the greater community. In his professional position, he has shown his commitment to the humanities by regularly stocking the scholarly works of Ohio State faculty.

His ties with the University Libraries are especially enduring. A member of the board of Friends of the Libraries for three years, he was elected president for a one-year term and then agreed to serve two additional terms. His willingness to serve the libraries manifests itself in countless hours devoted to the Friends’ semi-annual book sales and other programs. In addition, he has quietly provided resources for many library needs.

With his wife, Sandra, he is serving as the 1991 Ohio State Parents Fund volunteer chair.

For his unfailing support and dedication to ensuring a dynamic community for scholars, Ohio State is proud to recognize Paul E. Watkins with its Distinguished Service Award.
Recipient of Honors

Robert J. Watkins
Distinguished Service Award

A dynamic leader, generous supporter, and caring alumnus, Robert J. Watkins has proven his firm friendship for Ohio State many times over.

Mr. Watkins received his bachelor of arts and law degrees from Ohio State in 1951 and 1953 respectively. After a two-year stint as legal officer with the U.S. Army, Watkins joined the Procter & Gamble Company in Cincinnati as a legal assistant in 1956. He served in several legal capacities before becoming associate legal counsel in 1979, a position he held until his retirement ten years later. He currently is an attorney with the Cincinnati office of Porter, Wright, Morris & Arthur.

An active alumnus since his graduation, Mr. Watkins has been a stalwart supporter of the College of Law, helping to shape its future through 15 years' service on the college's National Council. He has played a leadership role in the Law Centennial Campaign, serving on the executive committee of the Henry Folsom Page Society, directing campaign strategy and soliciting fellow alumni.

He has served more than 21 years on various boards, executive committees, and councils for Ohio State's Development Fund and for The Ohio State University Campaign. A longtime member of Ohio State's Presidents Club, he served on its Executive Committee for two consecutive three-year terms and chaired the committee for the last two years of his term, presiding over numerous occasions with wit and skill.

Mr. Watkins provides a strong Ohio State presence in the Cincinnati area, instilling others with enthusiasm for his alma mater and aiding the College of Law with admissions and placement activities. During The Ohio State University Campaign, he provided invaluable advice as volunteer chair for the Cincinnati region.

For providing a benchmark for alumni commitment and service to the University, Ohio State is proud to recognize Robert J. Watkins with its Distinguished Service Award.
The Graduate School
Dean: Roy E. Koenigsknecht

Doctor of Musical Arts
Kim Sharon Ellis, Rockford, IL; B.Mus.Ed. (Illinois Wesleyan University); M.Mus. (Bowling Green State University); Music
Dr. Judith K. Delzell

Ian Glenn Hominick, Nova Scotia, Canada; B.Mus. (Mount Allison University); M.Mus. (Bowling Green State University); Music
Dr. Jerry L. Lowder

Seonmi Koh, Seoul, South Korea; B.Mus. (Ewha Women’s University); M.Mus. (California State College); Music
Dr. Helen C. Swank

Linda Hofstetter Nolan, Dublin, B.Mus., M.Mus.; Music
Dr. A. Peter Costanza

David Matthew Shockey, Levittown, PA; B.S. (Roberts Wesleyan College); M.Mus. (University of Rochester); Music
Dr. Helen C. Swank

Doctor of Philosophy
Wayne L. Akey, Jr., Institute, WV; B.S. (Purdue University); M.S. (Case Western Reserve University); Education
Dr. Alan R. Osborne

Yousef Ibrahim Alamoud, Riyadh, Saudi Arabia; B.A. (Riyadh University); M.A. (University of Wisconsin at Madison); Art Education
Dr. Nancy P. MacGregor

William A. Amponsah, Accra, Ghana; B.S. (Berea College); M.S. (University of Kentucky); Agricultural Economics and Rural Sociology
Dr. Leroy J. Hushak

Gail Thelma Arch, Columbus, B.A. (Wheaton College); M.A.; Labor and Human Resources
Dr. Riad A. Aijami

Tin Aung, Yangon, Myanmar; Bachelor’s (Institute of Agriculture); M.S. (Mississippi State University); Agronomy
Dr. Michael L. Scott

Susan Jane Baily, Lebanon; B.S.Nurs. (Miami University); M.S.; M.A.; Health, Physical Education and Recreation
Dr. R. Corey Bates

James Wesley Baker, Springfield, B.A. (Bob Jones University); M.A. (University of South Carolina); Communication
Dr. William R. Brown

Steven Matisons Banks, Chicago, IL; B.S., M.S. (University of Illinois at Urbana); M.A., Geography
Dr. Emilo Casetti

Patricia Marie Barbutta, Mather, PA; B.S., M.Ed. (California State College); Certificate (Slippery Rock State College); Education
Dr. Timothy E. Heron

Lorrie Christina Blair, Glouster; B.F.A., M.A. (Ohio University); Art Education
Dr. Terry M. Barrett

France Boutin, Manitoba, Canada; B.F.A. (University of Ottawa); M.A. (State University of New York at Plattsburgh); Education
Dr. Elizabeth B. Bernhardt, Dr. Gilbert A. Jarvis

David William Boyd, Marysville; B.S. (Cornell University); M.S. (Stanford University); M.A.; Economics
Dr. Howard P. Marvel

Stephen Mark Bratkovich, Columbus; B.S. (Pennsylvania State University); M.S. (University of New Hampshire); Agricultural Education
Dr. Larry E. Miller

Melanie Susan Brodnik, Bexley; B.S. (Loma Linda University); M.S. (State University of New York at Buffalo); Education
Dr. Ayres G. D’Cota

Karen Aldred Card, Columbus; B.S. (Pittsburgh State College); M.A. (Bowling Green State University); Education
Dr. William Moore

We-Fen Florence Chai, Taipei, Taiwan, R.O.C.; Bachelor’s (National Taiwan University); Economics
Dr. Patrick R. Regan

Jeanette Kay Chambers, Lima, B.S. (University of Wisconsin-Madison); M.S.; Education
Dr. David L. Boggs

Hsiu-Hwa Chang, Feng-Shan, Taiwan; Bachelor’s (National Sun Yat-Sen University); M.S.; Chemistry
Dr. Russell M. Pitzer

Ye-In Chang, Taipei, Taiwan, R.O.C.; Bachelor’s (National Taiwan University); M.S.; Computer and Information Science
Dr. Ming-Tsan Looi

Harvey Charles, Reno, NV; B.A. (Caribbean Union College); M.A. (Andrews University); Education
Dr. Robert F. Rodgers

Wen Shyen Chen, Taichung, Taiwan, R.O.C.; B.S. (National Taiwan University); M.S.; Computer and Information Science
Dr. Ming-Tsan Looi

Sungbong Cho, Columbus; Bachelor’s (Dongguk University); Master’s (Yonsei University); Economics
Dr. Howard P. Marvel

Myung-Sub Chung, Seoul, South Korea; B.A. (Gyeong Sang National University); M.A. (Seoul National University); Food Science and Nutrition
Dr. David B. Min

Young Hee Chung, Daeju, South Korea; B.A. (Sogang National University); M.A. (Indiana University); M.A.; Linguistics
Dr. David Odden

Jong-Pyung Michael Chuyuan, Taipei, Taiwan, R.O.C.; Bachelor’s, Master’s (National Taiwan Normal University); Education
Dr. Arthur L. White

Gretchen Sarah Cline, Columbus, B.A. (Kenyon College); M.A.; English
Dr. Walter A. Davis

Jill Bonham Costa, Mahtome, MN; Chemistry
Dr. Derek Horton

David William Cullin, Topton, PA; B.S. (University of Pittsburgh); M.S.; Chemistry
Dr. Terry A. Miller

Steve Richard Daniewicz, Yuma, AZ; B.S.W.E. (Arizona State University); M.S.; Mechanical Engineering
Dr. Jack A. Collins

Randall Craig Davis, Bangor, ME; B.A. (Marietta College); M.A.; English
Dr. Steven S. Fink

Matthew DeJongh, Columbus, B.S., M.S.; Computer and Information Science
Dr. Jack W. Smith

John James Deisz, Columbus, B.S. (North Dakota State University); M.S. (University of California-Davis); Physics
Dr. Charles A. Bener

Raymond D. Draghi, Worthington; B.A. (Ohio Dominican College); M.A.; Education
Dr. Michael L. Scott

Charles Scott Duncannon, Southfield, MI; B.A. (Oberlin College); Health, Physical Education and Recreation
Dr. Seymour Kleinman

David Scott Ebert, Sandusky; B.S.C.L.S.; Computer and Information Science
Dr. Richard E. Parent

Steven Neill Ebert, Poland; B.S. (University of Florida); Molecular, Cellular, and Developmental Biology
Dr. Mark T. Muller

Brian Wallace Edmiston, Columbus, B.S. (University of Bristol); Master’s (University of Newcastle Upon the Tyne); Education
Dr. Cecily O’Neill, Dr. Robert B. Domnoyer
Jean Louise McGowan, Clarklake, MI; B.S., Dr. Darrell Leewell
Victoria Kennedy Martycz, Springfield; B.A. (Defiance College); M.A. (University of Maine); Communication
Dr. James W. Hikins
Asanzi Christopher Mbey-Yame, Shaba, Zaire; B.S.
Dr. Mohammed Ismail El-Naggar
Shaba, Zaire; B.S.
Dr. Walter H. Hack
B.S. (University of Nebraska); Entomology
Dr. Charles A. Triplehorn
Kevin Todd McGuire, Inver Grove Heights, MN; B.A. (West Virginia University); Political Science
Dr. Gregory L. Caldeira
Luis Mesalles-Jorba, San Jose, Costa Rica; Diploma (Instituto Tecnico de Administration); Bachelor's (University of Costa Rica); M.A.; Agricultural Economics and Rural Sociology
Dr. Claudia Gonzalez-Vega
Christopher L. Michael, Columbus; B.S.E.E., M.S.; Electrical Engineering
Dr. Mohammed Ismail El-Naggar
Richard Stuart Miller, Columbus; B.A. (California State University-Sacramento); M.S.; Entomology
Dr. Charles A. Triplehorn
Roger Phillip Minert, Columbus; B.A. (Brigham Young University); M.A.; Education
Dr. Elizabeth B. Bernhardt
Sue Blose Minor, Columbus; B.S.Ed., M.A.; Education
Dr. John C. Bellard
Meidi Moazamzad, Esfahan, Iran; B.S.C.E., M.S.; Civil Engineering
Dr. Ranbir S. Sandhu
Susann Moeller, Columbus; B.A. (Rheinische Friedrich); M.A. (University of Georgia); German
Dr. Dagmar C. Lorenz
Bruce Edward Mousa, Worthington, B.A. (Ashbury College); M.A.; Education
Dr. Walter G. Hack
Paul William Mulvey, Manchester, CT; B.A. (Lehigh University); Labor and Human Resources
Dr. Marcia P. Misci
Vaidyanathan Nagarajan, Tamilnadu, India; B.S. (University of Madras); Bachelor's, Master's (Indian Institute of Science); Doctorate (University of Liverpool); Business Administration
Dr. Hasan Pirkul
Myungkyun Nam, Seoul, South Korea; B.S.H.E., M.S (Sooskyung Women's University); Human Ecology
Dr. Nancy M. Rudd
David Achuo Nchia, Bamenda, Cameroon; B.S. (Ohio University); M.A. (Northern Illinois University); Communication
Dr. Rohan Samaranajit, Dr. Joseph M. Foley
Chang Hun Oh, Taegu, South Korea; Bachelor's (Yeungnam University); M.A. (University of Florida); Political Science
Dr. R. William Liddle
Paul Scott Ormsby, Columbus; B.S. (Lewis College); M.S. (University of Denver); Physics
Dr. K. Narahari Rao
Patricia K. Owens, Upper Arlington; B.S. (University of Delaware); B.S. (John Carroll University); M.A.; Health, Physical Education, Recreation
Dr. Paul Janama
John A. Paulus, Westerville; B.S.Ed., M.A.; Education
Dr. Donald L. Tosi
Nikolaos Konstantinos Pavlis, Athens, Greece; M.S.; Geodetic Science and Surveying
Dr. Richard H. Rapp
Sue Ellen Peters, Nappanee, IN; B.S. (Ball State University); M.A., M.A. (Sangamon State University); M.A.; Psychology
Dr. Samuel H. Osipow
Marsha A. Playko, Groveport; B.S. (Ohio University); M.A.; Education
Dr. C. Ray Williams
Vincent John Polce, Defiance; B.Mus.Ed. (Bowling Green State University); Master's (Vandercook College of Music); Music
Dr. A. Peter Constanza
David Hannum Potter, Kennett Square, PA; B.A. (Bucknell University); M.A. (Columbia University); Health, Physical Education and Recreation
Dr. Seymour Kleinman
Kanagarajah Prabaharan, Valvettitum, Sri Lanka; B.S. (University of Peradeniya); M.S. (University of Wisconsin); M.S.; Mathematics
Dr. Louis Sucheston
Michael John Reid, Richardson, TX; B.S., M.A. (University of Texas); Health, Physical Education and Recreation
Dr. W. Michael Sherman
Constance Sue Ringger, Columbus; B.A. (Hendrix College); M.A.; Psychology
Dr. Robert S. Billings
Jayne Byrne Robinson, Bexley; B.S. (Bowling Green State University); M.S.; Microbiology
Dr. W. Dietz Bauer, Dr. Olli H. Taavonen
Erik Rolland, Bergen, Norway; B.S.C.I.S., M.A.; Business Administration
Dr. Susan Pirkul

Jahnee Ranie Prince, Centerville; B.A.; City and Regional Planning

David Scot Seech, Lima; B.A.; City and Regional Planning

Chun-Gyu Shin, Cheong Joo, South Korea; B.S., M.S. (Yonsei University); M.Arch.; City and Regional Planning

Socrates Alexander Shinas, Ontario, Canada; B.S. (Windsor University); City and Regional Planning

Jacek Sobolewski, Warszawa, Poland; M.S. (Warsaw University of Technology); City and Regional Planning
Jau-Fang Lda Syu, Ping Tung, Taiwan; R.O.C.; B.S. (Feng Chia University); City and Regional Planning

Joseph Perry Wagner, Englewood; B.A.; City and Regional Planning

Richard Anthony Wooten, Waycross, GA; B.A. (Norfolk State University); City and Regional Planning

Master of Fine Arts
Matthew Abraham Ballin, North Hollywood, CA; B.F.A. (University of California-Santa Barbara); Theatre
Claudia A. Berlinski, Buffalo, NY; B.F.A. (State University of New York at Buffalo); Art
Scott Thomas Heinzerling, Amherst; B.A. (University of Akron); Dance
Michael Joseph Hofman, South Bend, IN; B.F.A. (University of Notre Dame); Art
Robin Heidi Jennings, Warren; B.A. (Kent State University); Dance
Pamela A. Katz, Lauderhill, FL; B.F.A. (University of Florida); Theatre
Virgil Leonidas Kelly IV, Huntington, WV; B.F.A. (Ohio University); Dance
Lumiri Afridia Kahaifa, Cocheton, NY; B.F.A. (Florida International College); Theatre
Kenneth Joseph Martin, Milwaukee, WI; B.S. (University of Wisconsin-Stevens Point); Theatre
Jeanette Marie Nevala, L'Anse, Ml; B.F.A. (Central Michigan University); Art
Joseph P. Pioli, Montoursville, PA; B.A. (Pennsylvania State University); Theatre
Willis Cole Rogers, Jr., Birmingham, AL; B.F.A. (University of Alabama); Art
Paul Michael Vassar, Lima; B.F.A.: Art
Mary Ann Williford, Jacksonville, AR; B.S.Ed. (University of Arkansas); Dance

Master of Health Administration
Jolene Diane Beckler, Altamonte Springs, FL; B.S. (Auburn University); Hospital and Health Services Administration

Robert Eugene Dyckes, Grandview Heights; B.A.; Hospital and Health Services Administration

Anthony Louis Firnstone, Campbell; B.S. (University of Akron); Hospital and Health Services Administration

Janice Leigh Fonow, Steubenville; B.S.Nurs.; Hospital and Health Services Administration

Rebecca J. Ives, Bexley; B.S.Bus.Adm.; Hospital and Health Services Administration

William Mason Jennings, Huntington, WV; B.S. (Miami University); Hospital and Health Services Administration

Richard Brook Manton, Lakeside; B.A. (University of Toledo); M.D.; Hospital and Health Services Administration

Linda Ruth Mattson, Columbus; B.S.Bus.Adm.: Hospital and Health Services Administration

Kristi J. McCauley, Columbus; B.A. (Kenyon College); Hospital and Health Services Administration

David Curtis Peino, Columbus; B.A. (Calvin College); Hospital and Health Services Administration

Christopher Michael Scowden, Troy; B.S.; Hospital and Health Services Administration

Kristina Kay Stickler, Gahanna; B.S. (University of Illinois); Hospital and Health Services Administration

Jennifer A. Taylor, Bay Village; B.A. (Miami University); Hospital and Health Services Administration

Catherine Gail Villareal, Villisca, IA; B.A. (University of Notre Dame); Hospital and Health Services Administration

Lisa Ann Wahoff, Columbus; B.S.Nurs. (Ohio Wesleyan University); M.S.; Hospital and Health Services Administration

David Thomas Wallace, Clarksburg, CA; B.S. (California State University); Hospital and Health Services Administration

Mary Elizabeth Wilcox, Columbus; B.S.Nurs. (Northwestern University); Hospital and Health Services Administration

Charles Jeffrey Ziegler, Worthington, B.S. (Case Western Reserve University); Hospital and Health Services Administration

Master of Labor and Human Resources
Kristin Jay Anderson, Grandview Heights, B.S. (University of Illinois); Labor and Human Resources

Amy Louise Branczek, Washington, PA; B.A. (Muskingum College); Labor and Human Resources

Nancy Susan Burwell, Gahanna; B.S.Soc.Wel.; Labor and Human Resources

Elizabeth Ann Davis, Neshanic Station, NJ; B.A. (Allegheny College); Labor and Human Resources

Lisa Marling George, Lima; B.S.Bus.Adm.; Labor and Human Resources

Jay V. Guss, Minot, ND; B.A. (University of Michigan); Labor and Human Resources

Niki Lynn Lombardo, Columbus, B.A. (Ohio University); Labor and Human Resources

Christine Wade Moon, Newark; B.S.Bus.Adm.; Labor and Human Resources

Mark Wilson Robinson, Middlesex, NJ; Bachelor's (Pennsylvania State University); Labor and Human Resources

Master of Landscape Architecture
Ralf Schmitz, Hilgen, Germany; Diploma (TU-Berlin); Landscape Architecture

Michael Gerard Stys, Mt. Clemens, MI; Bachelor's (Michigan State University); Landscape Architecture

Master of Music
Sean Erer Daniels, Dayton; B.A. (Alabama State University); Music

Robin Nanette Duvendack, Monroe, MI; B.Mus. (University of Michigan); Music

Judith Renee Smith, Hilliard; B.Mus.Ed.; Music

Patrick Joseph Tillery, Covington, KY; B.Mus. (University of Louisville); Music

Hui-Wen Wu, Yi-Lan, Taiwan, R.O.C.; B.A. (Tung Hai University); Music

Wei Wu, Kaoshiung, Taiwan, R.O.C.; B.A. (Tung Hai University); Music

Tzi-Ming Yang, Chia-Yi, Taiwan, R.O.C.; B.A. (Tung Hai University); Music

Master of Public Administration
Robert Edward Allen, Columbus; B.S. (Franklin University); B.S. (State University of New York College of Environmental Science and Forestry); Public Policy and Management

Amy Claire Andrews, Anderson Island, WA; B.A. (Wittenberg University); Master's (Rutgers University); Public Policy and Management

Randy Lou Berry, Huntington, WV; B.A. (Marshall University); Public Policy and Management
James Carl Woods, Arlington; B.A. (University of Toledo); Public Policy and Management  

Master of Science  

Scott Thomas Adkins, Laurel, MD; B.S.Agr.; Plant Pathology  

Akram Abdelqader Al-Ish, Amman, Jordan; B.S.A.A.E.; B.S.; Aeronautical and Astronautical Engineering  

Isam husayn Al-Khatib, Columbus; B.S., M.S. (American University of Beirut); Pathology  

Douglas E. Alsdorf, Wooster; B.A.; Geological Sciences  

Douglas Alan Aposy, Deckerville, MI; B.S., O.D. (Ferris State University); Physiological Optics  

Judith Asmus, Reynoldsburg; B.S. (Ohio University); Nursing  

Anjan Asthana, Bihar, India; B.Tech. (Indian Institute of Technology); Mechanical Engineering  

David Dewitt Atkins, Olmsted Falls; B.A.; Geodetic Science and Surveying  

Subramaniam Badrinath, Jabalpur, India; B.Ch.E. (McNeese State College); B.S. (Saint Aloysius College); Computer and Information Science  

Sanjay Kumar Bajpai, Indore, India; Bachelor's (Banaras Hindu University); M.A.; Pharmacy  

Frank Adam Barhorst, Fort Loramie; B.S.M.E.; Mechanical Engineering  

Thomas Edward Barrett, Columbus; B.S.E.P.; Physics  

Mark Edward Beckman, Columbus; B.S. (Michigan State University); Anatomy  

Kurt Andrew Beiter, Lancaster; B.S. (University of Notre Dame); Mechanical Engineering  

William John Benko, Columbus; B.S.C.E.; Civil Engineering  

Chirag H. Bhatt, Baroda, India; B.S.Bus.Adm.; Computer and Information Science  

Zaka Ullah Bhatti, Karachi, Pakistan; B.S.E.E.; Electrical Engineering  

Carol Ina Bocetti, Springfield, NY; B.S. (University of Florida); Zoology  

Richard Evan Bomfreund, Westmont, NJ; B.S. (University of Massachusetts at Amherst); Physics  

Jose Rafael Bennes, San Jose, Costa Rica; Bachelor's (Universidad de Costa Rica); Agricultural Economics and Rural Sociology  

Dennis Robert Brinker, Lovex Park, IL; Pharmacy  

John Patrick Brophy, Ann Arbor, MI; B.S.M.E.; Mechanical Engineering  

Amber Lynne Brown, Ada; B.S. (Ohio University); Industrial and Systems Engineering  

George Edward Brown, Columbus; B.S.Phar. (University of Toledo); Pharmacy  

Timbre Lane Brown, Columbus; B.S.E.E. (Ohio Northern University); Electrical Engineering  

Scott Anthony Buddie, Westlake; B.S.E.E. (G.M.I. Engineering and Management Institute); Electrical Engineering  

Karen Lynn Burch, Worthington; B.S.M.E.; Mechanical Engineering  

Robert Marion Buxton, Nellie; B.S.Agr.; Agricultural Education  

Mary Lou Blackburn Campbell, West Worthington; B.S.Nurs. (Franklin University); Nursing  

Chiu-Yi Chan, Taipei, Taiwan, R.O.C.; B.Eng. (Feng Chia University); Civil Engineering  

Jamaa Chbourk, Casablanca, Morocco; Diploma (Hassan II Agronomic Institute); Geodetic Science and Surveying  

Mohamad Saupi Che Awang, Kelantan, Malaysia; B.S. (North East London Polytechnic); Diploma (University of Technology of Malaysia); Geodetic Science and Surveying  

Andrea Marie Chech, Breezvville; B.S.Agr.; Agronomy  

Chien-Lin Chen, Tainan, Taiwan, R.O.C.; B.S. (Chung-Yuan University); Civil Engineering  

Jin-jae Chen, Kaohsiung, Taiwan, R.O.C.; B.S. (National Tsing-Hua University); Mechanical Engineering  

Shih-Chou Chen, Feng-Yuan, Taiwan, R.O.C.; B.S. (National Taiwan University); Mechanical Engineering  

Shu-Ling Cheng, Taipei, Taiwan, R.O.C.; B.S. (National Chung-Hsing University); Plant Pathology  

Diane Orr Clebowy, Columbus; B.S.Nurs.; M.A.; Nursing  

Antoinette Jean Chops, Columbus; B.S.Nurs. (West Liberty State College); Nursing  

Richard Patrick Connelly, Toledo; B.S. (University of Notre Dame); Mathematics  

Kimberly Ann Coplin, Carrollton; B.A. (Denison University); M.A. (Johns Hopkins University); Physics  

Kenneth Andrew Cowen, Stafford Springs, CT; B.S. (University of Connecticut); Chemistry
Craig Lance Dalley, Santa Clara, CA; B.S. (Brigham Young University); Biomedical Engineering
Roger Leroy Daniels, Hilliard; B.S.; Food Science and Nutrition
David G. Darany, Dearborn, MI; M.A.; D.D.S. (University of Detroit); Dentistry
Manabendra Nath Das, Delhi, India; B.S. (University of Delhi); Mathematics
Marilyn Louise Davis, Marysville; A.B. (Friends University); M.S. (Kansas State University); Human Ecology
Christopher John DeMattio, Bloomington; B.S.E.E.; Electrical Engineering
Rebecca J. Denning, Columbus; B.Mus.; B.A. (Capital University); Industrial and Systems Engineering
Chetan Prabhakar Desai, Bombay, India; B.Eng. (University of Bombay); Mechanical Engineering
John Michael Dettmers, Heflinville, WI; B.S. (University of Wisconsin-Madison); Zoology
Bryan Douglas Dobbs, Columbus; B.S.C.I.S.; Computer and Information Science
David Wayne Donley, Ellsworth; B.S. (University of Kansas); Statistics
Mauricio Duran-Vidal, Monterrey, Mexico; Bachelor's (Institute of Tech Y Des Estud); Mechanical Engineering
Jeffrey Michael Durrhalter, Columbus; B.S.; Pharmacy
Amgad Hassan El Atta, Alexandria, Egypt; B.S. (Alexandria University); Agricultural Engineering
James Anthony Escue, Columbus; B.S. (University of Pittsburgh); Computer and Information Science
Armen Barkev Ezeckelian, Arlington, MA; B.S. (University of Massachusetts); Physics
Richard David Finlayson, Ontario, Canada; B.Eng. (Royal Military College); Welding Engineering
Carl Roger Flieser, Waverly; B.S.; D.D.S.; Dentistry
Mary Carol Fortunato, Steubenville; B.S. (Wheeling College); Cert Nuns.Anest.; Allied Medical Professions
Barbara Kay Garrison, Westerville; B.A.; Jour.; Natural Resources
John Adam Gershenson, Great Neck, NY; B.A. (Cornell University); Mechanical Engineering
Hasan Oktay Goktas, Istanbul, Turkey; B.S. (Istanbul Technical University); Electrical Engineering
Eric Shawn Goudy, Van Wert; B.S.; Mechanical Engineering
Dennis Wade Grauer, Marysville, KS; B.S.; Pharm. (University of Kansas); Pharmacy
Ann Lindsay Griffen, Columbus; B.A. (Indiana University); D.D.S. (University of Texas); Molecular Genetics
Wendell Ramsey Haag, Lexington, KY; B.S. (Eastern Kentucky University); Zoology
Sue Anne Haddix, Springfield; B.S.Agr.; Agricultural Education
Christopher Alan Havel, Wheaton, IL; B.S. (Oregon State University); Natural Resources
Daniele Di O'hara Hawkins, Lexington, KY; B.S. (Kentucky State University); Human Ecology
Lesliann Elizabeth Helmus, Columbus; B.A. (University of Notre Dame); Preventive Medicine
Todd Andrew Hilsmeier, Delta, PA; B.S. (Pennsylvania State University); Nuclear Engineering
Victoria Lynn Hobensack, Pickerington; B.S.Nurs. (Capital University); Nursing
Chungwei Hsia, Taipei, Taiwan, R.O.C.; B.S. (National Taiwan University); Nuclear Engineering
Chen-Jen Reynold Hsu, Taipei, Taiwan, R.O.C.; B.S. (National Taiwan University); Preventive Medicine
John Kip Jackson, Los Angeles, CA; B.S.E.E. (Brigham Young University); Electrical Engineering
Miriam Jackson, Jarrow, England; B.S. (University College at London); Geological Sciences
Mark Steven Jarzember, Seven Hills; B.S.; Electro; Nuclear Engineering
Chula Janaka Jayawardene, Colombo, Sri Lanka; B.S. (University of Colombo); Mathematics
Ronald Brian Jenkins, Findlay; B.S.E.E.; Electrical Engineering
Cynthia Kay Jensen-Wolven, Seward, NE; B.S.; University of Nebraska); Animal Science
Atul Jhalani, New Delhi, India; B.Tech. (Indian Institute of Technology); Mechanical Engineering
Darrell Evan Jones, Lima; B.S.; Physics
Kotayoshi Kabongo, Kinshasa, Congo; B.S. (National University of Zaire); Agricultural Economics and Rural Sociology
Vijay Kamari, Bhopal, India; B.E. (Bhopal University); Electrical Engineering
Karl Horton Kappeler, Columbus; B.S.; Pharm. (Northeast Louisiana University); Pharmacy
Mahmood Karbasi-Amel, Esfahan, Iran; B.S.; C.S.I.S., M.S.; Computer and Information Science
Michelle Ann Kennedy, Maple Heights, OH; B.A. (University of Denver); Microbiology
Virginia Kerns, Lancaster; B.S., M.S. (Ohio University); Nursing
Anahita Keyhani, Tehran, Iran; B.S.; Food Sc.; Food Science and Nutrition
Jin Gab Kim, Kwangju, South Korea; Bachelor's (Chonnam National University); Animal Science
Kyo-Jun Kim, Seoul, South Korea; B.S. (Hanyang University); Civil Engineering
Arvind Krishna, Bangalore, India; B.Tech. (Indian Institute of Technology); Engineering Mechanics
Anita Kulabshetha, Durham, NC; B.S. (University of Rajasthan); B.S.; Eng. (Birla Institute of Technology and Science); Computer and Information Science
Anna Marie Kure, North Royalton; B.S.; Pharm. (Ohio Northern University); Pharmacy
Suharmin Kusuma, Medan, Indonesia; B.A. (Iowa State University); Electrical Engineering
Serena Laroo, Meerut, India; B.S. (University of Bombay); Diploma (Xavier Institute of Communication); Food Science and Nutrition
John Patrick Lawrence, Columbus, B.A. (Ohio Wesleyan University); Mathematics
Eldon Gerald Leopart, Dayton; B.S.E.E.; Electrical Engineering
Patrick Phillippe Leblanc, Sieulac, France; Diploma (University of Grenoble); Metallurgical Engineering
Livia Won Lee, Columbus; B.S.; Pharm.; Pharmacy
Layne Gene Lenning, Huntsville, AL; Bachelor's (Auburn University); Electrical Engineering
Loeki Fiona Leung, Hong Kong, China; B.S.E.E. (University of Utah); Electrical Engineering
Zhiming Liao, Guang Dong, P.R.C.; B.S. (Guangzhou Medical College); Human Ecology
Tianwen Ling, Columbus; B.S. (Sichuan University); Computer and Information Science
Jiechun Liu, Wuxi City, P.R.C.; B.Eng. (Northeast University of Technology); Metallurgical Engineering
Margaret Elizabeth Lochary, Chapel Hill, NC; B.S. (University of Notre Dame); D.D.S. (University of North Carolina); Dentistry
Andrew Anthony Long, Middlefield; B.S. (Ohio Northern University); Electrical Engineering
Jen-Fue Maa, Penhu, Taiwan, R.O.C.; B.S. (National Taiwan University); Statistics
Jack Lee Marchio, Jr., Charleston, WV; B.S. (West Virginia Institute of Technology); Chemical Engineering
Susan Jeanette Martin, Columbus; B.S. Nurs. (Wheeling College); Nursing
Nancy Jo McMillan, Zanesville; B.S. (Muskingum College); Statistics
Alison Jeanette McMillian, Mt. Airy, NC; B.A., D.D.S. (University of North Carolina); Dentistry
Mary Margaret McPeek, Ashatabula; B.S.; Microbiology
Amit Mehrotra, Ghaziabad, India; B.S.E.E. (University of Mississippi); Electrical Engineering
Karen Ann Meister, Columbus; B.S.M.E.; Mechanical Engineering
Russell Allen Miller, Uniointown; B.S. (University of Akron); O.D.; Physiological Optics
Valerie Jean Minor, Columbus; B.S. (Alabama State University); Microbiology
Robbi Jo Mitchell, East Liverpool, B.S. (University of Toledo); Pharmacy
Leslie Gherda Mohaci, Columbus; B.S.E.E.; Electrical Engineering
Stephen Ashley Molk, Columbus; A.B. (Oberlin College); Geological Sciences
Nancee Kay Morgan, Wooster; B.S. Nurs.; Nursing
Robert Charles Morrow, Gahanna; B.S. (DeVry Institute of Technology); Computer and Information Science
Douglas James Morrison, Reynoldsburg; B.S. (Ohio Institute of Technology); Computer and Information Science
Stephen Francis Moselewski, Arnold, PA; B.S.E.E. (University of Pittsburgh); Biomedical Engineering
Rebecca Anne Necciai, Monongahela, PA; B.S. Nurs. (Carlow College); Certificate (Mercy Hospital); Nursing
Mark Stuart Newman, Columbus; B.A. (Duke University); Physiological Optics
David Rathburn Nitschke, Columbus; B.S.E. (Purdue University); Industrial and Systems Engineering
Edward Ntifo-Slaw, Cape Coast, Ghana; Diploma (Moscow Agricultural Academy); Agricultural Economics and Rural Sociology
Asdrubal Ostos, Tachira, Venezuela; Bachelor's (University of Zulia); Agricultural Education
Chankook Pak, Taejeon, South Korea; B.Eng. (University of Ulans); Master's (Chungnam National University); Engineering Mechanics
Thomas Mark Parkhurst, Columbus; B.A. (Asbury College); B.S.Al.Hth.Prof.; Allied Medical Professions
Suthi Pasiphol, Bangkok, Thailand; B.Eng. (Chulalongkorn University); Civil Engineering
Gaurav Kanubhai Patel, Ahmadabad, India; B.Eng. (Gujarat University); Computer and Information Science
Praya K. Patel, Reynoldsburg; B.S.Al.Hth.Prof.; Allied Medical Professions
Aniruddha Suhas Patwardhan, Bombay, India; B.Tech. (Indian Institute of Technology); Mechanical Engineering
Kristina Pawlikowski, Sanitaria Springs, NY; B.S.C.E.; Civil Engineering
James Albert Peeples, Columbus; B.S. (Kent State University); Agricultural Engineering
Napoleon Canlas Peñanco, San Juan, Philippines; B.A. (Ateneo de Manila University); Agricultural Economics and Rural Sociology
Terry Bernard Philbin, Youngstown; Anatomy
Timberly Ann Phipps, Columbus; B.S.Nutrition; Human Ecology
Sherry Anita Pierce, Newport News, VA; B.S. (Benedict College); Computer and Information Science
Jay Jie Qin, Shanghai, P.R.C.; B.S., M.S. (Fudan University); Biomedical Engineering
Rodolfo Quiros Rodriguez, Heredia, Costa Rica; Bachelor’s (Universidad de Costa Rica); Agricultural Economics and Rural Sociology
Nancy Carlotta Ratner, Juneau, AK; B.S. (University of Wisconsin); Natural Resources
Mark Franklin Reeder, Amlin; B.S. (West Virginia University); Mechanical Engineering
Boulbaba Rekik, Mahares, Tunisia; Dairy Science
Golden George Richard III, New Orleans, LA; B.S. (University of New Orleans); Computer and Information Science
Robert V. Rohli, Metairie, LA; B.A. (University of New Orleans); Atmospheric Sciences
Jorge E. Rojas, San Jose, Costa Rica; Bachelor's (Universidad de Costa Rica); Biphysics
Gertrudis Glamelyn Eugenio Rosario, Laguna, Philippines; B.S. (University of the Philippines); Agricultural Economics and Rural Sociology
Janette Fay Ryan, Athens; B.S.Nurs. (University of Akron); Nursing
Laurent Sagalowicz, Paris, France; Diploma (E.N.S.E.E.); Metallurgical Engineering
Baharum Salehuddin, Kuala Lumpur, Malaysia; B.S. (Universiti Pertanian Malaysia); Agricultural Education
Leonel Eduardo Sanchez, Houston, TX; B.S. (Louisiana State University); Chemical Engineering
Meiji Sato, Tokorozawa, Japan; B.Eng. (Science University of Tokyo); Master's (Tokyo Institute of Technology); Metallurgical Engineering
Ronald Bruce Schofield, Bellefontaine; B.S. A.A.E.; Aeronautical and Astronautical Engineering
Joseph Anthony Schudt, Frankfort, IL; B.S. (University of Notre Dame); Engineering Mechanics
Amy Carol Schultz, Troy, MI; B.A. (University of Michigan); Statistics
James Wiley Sharp, West Palm Beach, FL; B.S.E.E.; Electrical Engineering
Mingao Shi, Shanghai, P.R.C.; B.S. (Hang Zhou University); M.Appl.Stats. (Shanghai University); Statistics
Carlos Sierra Piccini, Saltillo, Mexico; B.S. (Instituto Tecnologico y de Estudios Superiores de Monterrey); Industrial and Systems Engineering
Katherine Anne Slattery, Dolton, IL; B.A. (Saint Norbert College); Industrial and Systems Engineering
David Michael Sorboro, Cuyahoga Falls; B.S. (University of Akron); D.D.S.; Dentistry
George Chris Soulas, Columbus; B.S.A.A.E.; Aeronautical and Astronautical Engineering
Marta Alicia Stayonoff, Troy; B.S.I.S.E.; Industrial and Systems Engineering
Douglas Lemoyne Straub, Sardis; B.S.M.E.; Mechanical Engineering

1212
Revathi Subramanian, Madras, India; B.S. (University of Madras); Statistics
Isaia Sudit, Lima, Peru; B.S.M.E.; Mechanical Engineering
Joseph Marion Tankovich, Delaware; B.S.Surv.; Geodetic Science and Surveying
Douglas Mark Terrill, Bedford; B.S.M.E.; Mechanical Engineering
Susan Kimberley Thomas, Johnstown; B.S. (University of Vermont); Natural Resources
Diane Allyn Tilus, Mansfield; B.S.Nurs.; Nursing
Pamela Jane Tofill, Austintown; B.S.; Preventive Medicine
Fernando Ray Tollens, San Juan, PR; B.S. (University of Puerto Rico); M.S.; Chemical Engineering
Shang-Jih TsaY, Taian, Taiwan, R.O.C.; B.S. (National Tsing Hua University); Chemistry
Kendra Jean Tsibouris, Columbus; B.S.Nurs. (Cedarville College); Nursing
Eric Robert Ulm, North Canton; B.S.E.P.; Physics
Cheryl Lynn Van Epps, Dover; B.S.; Microbiology
Krishna Venkata Veeraghanta, Vlsakhapatnam, India; B.Eng. (Andhra University); Civil Engineering
Shankar C. Venkataraman, Madras, India; B.Tech. (Indian Institute of Technology); Mechanical Engineering
Jugal Kishore Vijaysvargiya, Columbus; B.S.E.E.; Electrical Engineering
Jorge Victor Vilapiana, San Jose, Costa Rica, Licenciate (University of Costa Rica); Agricultural Economics and Rural Sociology
Susan Voorhees-Murphy, Columbus; B.A. (Ohio Wesleyan University); B.S.Nurs. (Capital University); Nurang
Vilai Varajanyakongse, Bangkok, Thailand; B.A. (Thammasat University); Computer and Information Science
Cynthia Walker, Norfolk, VA; B.S. (Norfolk State University); Human Ecology
John Gregory Wall, Columbus; B.S. (Virginia Military Institute); D.D.S. (Medical College of Virginia); Dentistry
Chih-Chieh Wang, Taipei, Taiwan, R.O.C.; B.S. (National Chung-Hsing University); Civil Engineering
Xiao Qiu Wang, Tianjin, P.R.C.; Bachelor's (Tianjin University); Biomedical Engineering
Daniel Brian Waylonis, Columbus; B.S.C.I.S.; Computer and Information Science
Susan Louise Weinboffer, Johnstown, PA; B.S. (Pennsylvania State University); Biomedical Engineering
Sandra Lee Whisler, Kirtland; B.S.Nat.Res.; Environmental Biology
Setiadi Widjaja, Malang, Indonesia; B.S.I.S.E.; Industrial and Systems Engineering

Mark Arthur Zabel, Warren, MI; B.S. (Wayne State University); Electrical Engineering
Irene Stephanie Zeff, Cincinnati; B.S.Nat.Res.; Natural Resources
David Paul Zgarrick, Marshall, WI; B.S. (University of Wisconsin-Madison); Pharmacy
Robert E. Zigmund, Dublin; B.S. (Ohio Northern University); Electrical Engineering
Shelley Helene Zimmerman, Mt. Vernon; B.S. (Findlay College); Agricultural Education

Master of Social Work
Shari Lynne Aldridge, Bay Village; B.S.Soc.Wel.; Social Work
Miu Yin Amy Au, Hong Kong, Hong Kong; Diploma (Hong Kong Baptist College); Social Work
Betsy Anne Bachtel, Columbus; B.A. (Gallaudet College); Social Work
Doris Lorraine Ball, Baltimore, MD; A.A. (Baltimore Community College); B.S. (Morgan State College); Social Work
Laura Baynes, Mt. Sterling; B.S.H.E.; Social Work
Linda Karen Behr, Cincinnati; B.A. (Indiana University); Social Work
Wildred Holman Bobian, Columbus; B.S. (Morgan State University); Social Work
Michael Andrew Borelli, Columbus; B.S.; Social Work
Carolyn Lee Brands, Defiance; B.A. (Defiance College); Social Work
Dodie D. Brobeck, Grove City; B.S.Soc.Work (University of Cincinnati); Social Work
Martha Ann Brzozowski, Dayton; B.A. (Wright State University); Social Work
Gretchen Salisch Buckles, Columbus; B.A. (University of California-Berkeley); Social Work
Susan Dieckman Bugel, Columbus; B.A.; Social Work
Sara Lee Burton, Columbus; B.S.; Social Work
Kristin Ulrich Butler, Columbus; Bachelor's (Capital University); Social Work
Lynn Ellen Bulltoph, Uniontown; B.S.Soc.Work (University of Akron); Social Work
Susan M. Carson, Columbus; B.A. (University of Akron); Social Work
Min-Ching Cheng, Kaohsiung, Taiwan, R.O.C.; B.S.Soc.Work (Tunghai University); Social Work
Margery Cohen Cheses, Columbus; B.S.Ed.; Social Work
Hinsh Michel Chinn, Columbus; Certificate (Mercaz Lahacharat Morim); M.Ed. (Long Island University); Social Work
Karen S. Clayton, Zanesville; B.A., B.A. (Capital University); Social Work
Nancy Lore Cline, Columbus; B.S.Ed.; Social Work
Jacquelyn Cotton, Cleveland; B.S.Soc.Work; Social Work
Kimberley Kaye Craig, Columbus; B.A. (Ohio Dominican College); Social Work
Julia Cruz, Columbus; B.S.Soc.Wel.; Social Work
Carolyne Jean DeFranco, Niagara Falls, NY; B.S. (State University of New York at Buffalo); Social Work
Jeanette Ann Dobrich, Columbus; B.S. (Ohio University); Social Work
Elizabeth Fowler Dooley, Columbus; B.A. (Miami University); Social Work
Rosemarie Dougherty, Canton; A.A.S. (Kent State University); B.S.Soc.Work; Social Work
Brenda Dayle Dykes, Hilliard; Bachelor's (Capital University); Social Work
Lawrence Endicott, Columbus; B.S.Soc.Work; Social Work
Marcia Stroud Essig, Columbus; B.A. (Lake Forest College); Social Work
Christina Beryl Falkener, Minneapolis, MN; B.S. Soc. Work; Social Work
Jill Colleen Fooshee, Carmi, KS; B.A. (Wichita State University); Social Work
Patricia Ann Oliver Gaspich, Columbus; B.S. Soc. Work
Beth Schultz Gerber, Columbus; B.S. (Pennsylvania State University); Social Work
Sally Bowers Girgis, Dover; B.Mus.Ed.; M.A. (New York University); Social Work
Beth A. Gollihugh, Wheelersburg; B.A. (Ohio University); Social Work
Sarah Michael Grey, Columbus; B.S. (Pennsylvania State University); Social Work
Sandra Marie Grindle, Wadsworth; A.A.S. (Wayne General and Technical College); B.A. (University of Akron); Social Work
Sharon Elizabeth Guenther, Dayton; B.S. (Indiana Wesleyan University); Social Work
Sally Saurborn Hablitzel, Columbus; B.S.; Social Work
Stephanie McCowan Harris, Delaware; B.A. (Ohio Wesleyan University); Social Work
Vicki Lynn Heinke, Columbus; B.A. (Cleveland State University); B.A.; Social Work
Rachel Solange Henry, Lewiston, ME; B.S. (University of Southern Maine); Social Work

Mary Elizabeth Hibbard, Canton; B.S. Soc. Work; Social Work
Beth Higgins, Cincinnati; B.A. (Edgcliff College); Social Work
Holly Renner High, Columbus; B.S.Soc.Wel.; Social Work
Carol Anne Hills, Findlay; B.A. (Findlay College); Social Work
Heather May Holdsworth, Johnstown; B.S.Soc.Wor.; Social Work
John Bart Hollis, Cleveland; B.A. (Bowling Green State University); Social Work
Kuo-Hsin Huang, Chang-Hua, Taiwan; R.O.C.; B.A. (Chinese Culture University); Social Work
Tracy Marie Ittellag, Columbus; B.A. (Ohio University); Social Work
Joan Louise Janecek, Maple Heights; B.S.Soc.Work (Bowling Green State University); Social Work
Carol Ann Jimenez, Brecksville; B.S.Soc.Work; Social Work
Tamera Michelle Johnson, Statesville, NC; B.S. (Tennessee Temple College); Social Work
Lesley Anne Keown, Worthington; A.B. (Ohio University); Social Work
Bria Birel Kilgore, Audubon, PA; B.A. (Temple University); Social Work
Kassandra Susan Kreul, Racine, WI; B.S.Soc.Work (Gallaudet College); Social Work
Laura Ann Lambert, Ashland; B.S.Soc.Wel.; Social Work
Kassandra Rose Liverani, Columbus; B.S. (Indiana University of Pennsylvania); Social Work
Clare Martindale Lynd, Columbus; A.B. (Vassar College); Social Work
Coreen Mahon, Columbus; B.A. (Miami University); Social Work
Charles Anthony Maloney, Warren; B.A. (Hiram College); Social Work
Lisa Marie Meyer Marquand, Avilla, IN; B.A. (Purdue University); Social Work
Debra Jo Marsh, Mansfield; A.A.S. (North Central Technical College); B.S. (Ashland College); Social Work
Jennifer A. Masny, Columbus; B.S.H.E.; Social Work
Zeina Faraj Matar, Beirut, Lebanon; B.A. (Otterbein College); Social Work
Aimee Robinson McCann, Newark; B.S.Soc.Work (Capital University); Social Work
Philip Joseph Meeks, Newark; B.S.Soc.Work; Social Work
Michael Henry Messewicz, New Brunswick, NJ; B.A. (Otterbein College); Social Work
Lori Heather Miller, Lexington, MA; B.A. (Kenyon College); Social Work
Carol Ann Miracle, Hamilton; B.S.Ed.; Social Work
Diane Lynn Mohinickey, North Olmsted; B.A. (University of Toledo); Social Work
Michele Sue Moore, Englewood; Bachelor’s (Ohio University); Social Work
Mark Douglas Murphy, Newark; B.S.Soc.Wel. (Delance College); Social Work
Kathleen Renee Nern, Hixville; B.A. (Adrian College); Social Work
William Lloyd Newton, West Jefferson; B.S.Soc.Wel.; Social Work
Margaret O'Brien-Stone, Marion; A.A.; B.S.Soc.Work; Social Work
Judith Ann Oppenheimer, Cleveland Heights; B.S.Soc.Work (Cleveland State University); Social Work
Donna Grace Pairsau, Wellston; A.B. (Ohio University); Social Work
Mary Ellen Pettus, Akron; B.S.Soc.Wel.; Social Work
Karen Lynn Pierce, Caldwell; B.S. (Bowling Green State University); M.A.; Social Work
Tear Pandora Plater, Chesapeake Beach, MD; B.S. (Morgan State College); Social Work
Nancy Louise Putt, Wooster; B.S.Soc.Work; Social Work
Monica Annette Ramirez, Phoenix, AZ; Bachelor's (Arizona State University); Social Work
David Blake Reaick, Columbus; B.S.Soc.Wel.; Social Work
Joseph Robert Rogers, Sandusky; B.A. (Ohio University); Social Work
Christopher Russell, Newark; B.A. (Northwestern University); M.B.A. (Harvard University); Social Work
Emily Benna Rutherford, Granville; A.B. (Smith College); M.A.; Social Work
Debra Ellen Sapp, Danville; B.S.Soc.Work; Social Work
Kay N. Schamp, Columbus; B.S.Soc.Work; Social Work
Sherie Marie Schmidt, Elyria; B.A., M.S.; Social Work
Christine Schmitt, Pittsburgh, PA; B.S. (University of Dayton); Social Work
Paula Marie Schuler, Cincinnati; B.S.Soc.Work (Saint Louis University); Social Work
Mary Jean Sementino, Rochester, NY; B.S. (University of Dayton); Social Work
Sheryl Kay Shunk, Dalton, B.A. (University of Akron); Social Work
Ellen Gita Siegel, Columbus; B.A. (Northwestern University); Social Work
Deborah Kaye Smith, Massillon; B.S.Soc.Work (Ohio University); Social Work
Marcia Louise Snedecor, Galloway; B.F.A. (Miami University); Social Work
Apryl Renee Stewart, Lima; B.A.; Social Work
Valerie Ann Swisher, Columbus; B.S.Ed.; Social Work
DeLeana Mays Tatum, Columbus; B.S.H.E.; Social Work
Deborah Leigh Thomas, Columbus; B.A. (University of Richmond); Social Work
Kimberly Regina Thut, Orrville; B.A. (Bowling Green State University); Social Work
Karen L. Tong, Columbus; B.A. (State University of New York at Fredonia); Social Work
Marsha Feuer Topy, Columbus; B.S.Soc.Wel.; Social Work
Tracye Bonita Triplett, Louisville, MS; Bachelor's (Jackson State University); Social Work
Sandra Lynne Urig, Avon Lake; B.S.H.E.; Social Work
Stacey Jo Vetter, Wapakoneta; B.S.Soc.Work; Social Work
Lana Barbara Weber, Galena; B.A. (University of Houston); B.A. (Pan American College); Social Work
Marie Elaine Webster, Columbus; B.S.Soc.Wel; Social Work
Mary Jane Wenner, Holgate; B.S. (Defiance College); Social Work
Linda Kay Wright, Columbus; B.S.Soc.Wel; Social Work
Melanie F. S. Yost, Columbus; B.A. (Mary Washington College); Social Work
Colleges of the Arts and Sciences
Chairman, Coordinating Council of Deans: Joan Huber
Associate Dean for Undergraduate Studies in Arts and Sciences: Robert M. Arkin
The Colleges of the Arts and Sciences, a federation of five colleges, includes:
College of the Arts
College of Biological Sciences
College of Humanities
College of Mathematical and Physical Sciences
College of Social and Behavioral Sciences

College of the Arts
Dean: Donald Harris

Bachelor of Arts
Jorge Augusto Aguirre-Ortiz, Columbus
Christopher Richard Carlisle, Columbus
Siew Leng Chen, Columbus
Alia Claire Covel, Columbus
Kevin Eugene Dean, Circleville
Kathleen Elizabeth Devault, East Liberty
Lisa Marie Feldmann, Worthington
Kristine Anne Flaherty, Columbus
Peter Kenneth Goldman, Chagrin Falls
Elizabeth Ann Hatfield, Middletown
Mark Edward Heuck, Cincinnati
Craig Barton Higgins, Columbus
Michael Scott Horn, Akron
Tracy Lee Kingham, Unionville Center
Andrew Scott Knight, Columbus
Wendy Lea Mirick, Dublin
Laura Ann Novak, Delaware
Jeffrey Howe Palisin, Rocky River
Jason Dean Redinger, Olmsted Falls
Paula Rojo-Vega, Columbus
Edward Francis Sammler, Lancaster
Margaret Louise Savage, Columbus
Christina Marie Schimpf, Lima
Jennifer Rose Schoonover, Columbus
Angela Lynn Schultz, Columbus
Eric Dean Seaton, Cleveland Heights
Elizabeth Anne Smith, Vandalia
Cornelia Sisson Vanmeter Sproat, Columbus
Christina Marie Walls, Upper Arlington
Mindy Fran Weinstein, Morganville, NJ

Bachelor of Fine Arts
Timothy David Allwein, Columbus
Vance Douglas Barnes, Harrodsburg
Evan Tobitt Brown, Columbus
Rhonda Kristen Brown, Shaker Heights
David William Bugher, Columbus
Jan Elaine Cook, Columbus
Bernard J. DeLuca, Middletown, PA
Angela Dawn Dillion, Sylvan
Stanley Eng, Jr., Mentor
Brian Scott Evans, Columbus
Michael Anthony Foley, South Bend, IN
Harold Robert Folsom II, Youngstown
Steven Eric Grunke, Shaker Heights
Amy Lynn Guda, Rockbridge
Gary Dwayne Harris, St. Albans, NY
Melissa Diane Hartley, Kettering
Vicenta Dano Hine, Columbus
Joel M. Hirtle, Westerville
Todd Martin Hoover, Canal Winchester
Kiesha Renee Kumar, Warren
Timothy Gerard Lanzi, Cleveland
Jennie Joyce Lummens, Pataskala
Lynn Alan Mowrey, Columbus
Jennifer Sue Myers, Washington Court House
Aniko Natalie Nagy, Cincinnati
Kimberly Anne Olson, Crestwood, KY
Amy Beth Panons, Newark
Julius Lee Prater, Pataskala
Jeffrey Taylor Pyles, Columbus
Jeffrey Patrick Regensburger, Cincinnati
Leah Reis, Cincinnati
Paula Rojo-Vega, Columbus
Kimberly Marie Ryan, Worthington
Karin A. Schulze, Columbus
Catherine Concetta Serio, Columbus
Elizabeth Madden Slauson, Cincinnati
Jeanine Thompson, Salt Lake City, UT
Michael David Toth, Wadsworth
Jennifer Mae Tough, Columbus
Tobias Alan Vogel, Ramsey, NJ
Lisa Lynne Warren, Brooklyn, NY
John Weber Wild, Chagrin Falls
Nancy Therese Wilinski, Cleveland
Brenda Lloyd Witzky, Columbus
Robert Arden Wothers, Columbus
Tracy Elaine Zigler, Cincinnati

Bachelor of Music
Harold Patterson Card, Jr., Hilliard
George Domby III, Columbus
Washington Court House
Mario C. Estrada, El Paso, TX
Kathleen Michelle Gaydier, North Tonawanda, NY
Sarah Ruth Hart, Lancaster
Lisa Ann Glacymer, Strongsville
Dana Lynne Morgan, Middletown
Brian D. Nolder, Whitehall
Ann M. Palmer, Columbus
Eugenia E. Solomonidou, Larnaca, Cyprus
Lou Ann Stropoli, Wadsworth
Caterina Lillian Wallace, Toledo
Mark Andrew Watson, Columbus

Bachelor of Art Education
Jennifer Jo Gorkowski, Toledo
Kara Kathleen Kuntz, Lebanon
Lori Ann Ribo, Ashtabula

Bachelor of Art Education
Gary Joseph Barranco, Clinton
Annette Louise Brick, Chardon
Mary Katrina Cornely, Byesville
Darren Scott Fields, Salem
Kassie Murphy Hurley, Columbus
Andrea Virginia Macioce, Columbus
Marilyn Lea Sailor, Jackson Center
Carolie Marie Schuler, Marion
Darrell E. Seiter, Kenton
Janis Rene Shepherd, Gahanna
Charlotte Chase Stallman, Columbus
Raymond N. Walters, Mayfield Heights
Jane Johanna Whitehead-Nelson, Marion

Bachelor of Music Education
Donald A. Diurba, Westerville
Kenneth Alan Harnd, Cortland
James Kenneth Huntringer, Las Vegas, NV
Amanda Susan James, Lima
John David Keinath, Newark
David Hugh Mailer, Cleveland
Andrew Marc McCracken, Galloway
Beverly Ann Meyer, Coldwater
Dana Lynne Morgan, Columbus
Alan Grant Note, Columbus
Gary Dean Rapp, Sidney
Kristi Lynn Schnipke, Bristol, IN
Sarah Elizabeth Tomich, Columbus
Malinda Ward, Reynoldsburg
Robert David Wilson, Columbus
Kevin Lee Yoder, Plain City

Bachelor of Science in Audio Recording
Mark Adam Barnes, Cincinnati
Christopher John Van Droom, Maumee

Bachelor of Science in Industrial Design
Jodi Michele Altman, Youngstown
Robert Charles Anania, Jr., Carrollton
Anthony Joseph Arcuri, Marysville
Mary Antoinette Baytion, Celina
Tracy Ann Bellomo, North Royalton
Brian Felix Borowitz, Gahanna
Michele Diane Burchill, Painesville
Saundra Theresa Cika, Youngstown
Timothy James Clemens, Columbus
Vance Allan Coulter, Caldwell
Mary Margaret Crockett, Toledo
W. Scott Croft, Columbus
Mark Edward Davis, Cincinnati
Martin Phillip Davis, Columbus
Jeff T. Debord, West Worthington
Kevin Brian Delehanty, Centerville
Alicia Kaye Dutton, Celina
Joseph Martin Fenske, Jr., Mentor

Offered jointly by the College of the Arts and the College of Education
Eric James Pickas, Worthington
David Earl Fowler, Hyde Park, NY
Annette Mary Gagnon, Toledo
Linda L. Garner, Toledo
Jill Marie Giarrizzo, Hunting Valley
William Jerome Goebel, Louisville
David Virgil Hoening, Shefield Lake
Douglas Wayne Kaiser, Cuyahoga Falls
Deborah Annette Kendig, Mansfield
Joseph Jameel Khan, Columbus
John Barcley Ledingham, Columbus
Ronald Hayes Mason, Columbus
Stephen Hobson Matthews, Worthington
Allison Elaine Miller, Lima
Amy Elizabeth Obrester, East Sparta
John Michael Ornaz, Mill City
Ronald Howard Place, Jr., Columbus
Ralph Gutz Smith, Columbus
Jerry Lynn Sean Patrick Sutton, Homeworth
Joseph Raymond Tartaron, Cincinnati
Melissa Ann Vuvelich, Shadyside
Timothy Allen Walters, Strongsville
Daniel James Wickersing, Rockford, MI
Suzanne Wildey, New Richmond
Joseph Wurzer, Euclid

College of Biological Sciences

Dean: Gary L. Ford

Bachelor of Arts

Scott Brackenridge Adams, Cincinnati
Erhardt Juergen Bell, Columbus
Jennifer Lynn Brown, Lima
Kimberly Dawn Carle, St. Clairsville
Eric Mark Geister, Poland
Dawn Allison Sheffield, Naperville, IL

Bachelor of Science

Shahab Fareed Abdessalam, Troy
Amerah Parveen Akhter, Columbus
Michelle Renee Anderson, Columbus
Robert Alan Androw, Mansfield
Rita Louise Arend, Hickyville
Theresa Lynn Austin, Mentor
Mark Shelton Bailey, Cleveland Heights
John Christopher Barca, Euclid
Anthony Adam Beardmore, Cambridge
Diane Hugs Bell, Columbus
Erin Ann Benway, Mentor
Elaine Beth Brunschwig, Elyria
Victor Madrid Buenconsejo, Strongsville
Timothy William Butler, Fremont
Mary Beth Carr, Delaware
Elena Alexis Christofides, Worthington
Michael Robert Cobler, Delaware
Heather Ann Deardorff, Boardman
Gino Gianni D'Angiannontio, Chagrin Falls
Richard Michael Driggs, Columbus

Lynn Marie Falanga, Wadsworth
Marianne M. Flanagan, Cincinnati
Karen Elizabeth Fohr Valek, Westerville
Eric Alan Foote, Columbus
David Michael Fraley, Ironton
Kimberly Michelle Frazer, Pickerington
Sharon Kay Gallup, Proctorville
David Martin Gill, Bay Village
Edward Charles Gilmore, Pierpont
Jennifer Lynn Gold, Columbus
Michael Anthony Goretti, Medina
Paula Gresak, Columbus
John Robert Halliwill, Cuyahoga Falls
Cindrijo Marie Halquist, Mentor
Julie Lorraine Hancock, Columbus
Steven John Wise Harper, Mansfield
Leora Lynn Hartley, Kenton
David Dyer Hayes, Chesapeake
Julia Marcela Hernandez, Columbus
Charles Scott Howard, Centerville
Randall Stanford Hughes, Tiffin
William Matthew Hughes, Martin, KY
Brian Robert Jenkins, Circleville
Leo Hsu-Chia Kan, Columbus
Ellen Ann Kehres, Troy
Jason Christopher Keith, Maumee
Sorabib Khandelwal, North Olmsted
David Michael Kuta, Bellefontaine
Mark John Kuzma, Boardman
Kimberly Dawn Lanham, Painesville
Eric Michael Lapp, Columbus
Jason Glover Leakey, Cincinnati
Mathew Lawrence Lesiewski,
  Bedford Heights
Randall Craig Lewis, Cincinnati
Harold Dennis Lewton II, Canton
Hannah Soohyun Lim, Strongsville
Kelley Sue Love, Hamilton
Robert Bruce Lowe, Columbus
Melissa Kim Markowitz,
  Highland Heights
John Thomas Martin, Massillon

Mary Jane Schneider, Cleverdale
Paul Douglas Schramm, Vermilion
Cathy Dorn Schwartz, Lyndhurst
Patricia Marie Seikel, Akron
Calli Ann Selzer, Akron
Deborah Louise Shearer, Louisville
Kathy Louise Shevis, Marengo
Moreen Neely Ruth Shelby, Mentor
Raegina Suzanne Sheppard, Coshocton
Richard Brent Sherman, Ashville
Kelly Colleen Sherrin, Worthington
Patricia Suzann Shinde, Ashubula
Michael Gilbert Shoaf, Orwell
Edward Irl Sidwell, Galion
George Richard Smith, Delaware
Jennifer Ann Smith, Ashland
Marsha Elaine Smith, Belleville
Melanie Ann Smith, Granville
Rebecca Lynn Smith, Elyria
Meredith Ann Smucker, Grove City
Jeffrey Steven Snapp, Columbus
Jennifer Anne Snyder, Columbus
Linda Sue Speasman, Grover Hill
Suzanne Lora Sperber, Medina
Amy Michele Springer, Dublin
Rita Jean Squires, Cardington
Tanya Renee Stalnaker, Orrville
Douglas Allen Stark, Worthington
Cheri Rene Stentz, Worthington
Bruce Paul Stephanick, Massillon
Brian Scott Stevens, Burbank
Linda Ann Stott, Grove City
Julianna Marie Stoddard, Cuyahoga Falls
Terry Linn Sweer, Delphos
Susan Agniesi Summers, Columbus
Edward M. Szczepanski, Marion
Steve Adam Tabor, Toronto
Linda B. Taylor, Johnstown
Vickie Lynn Tomlin, Lorain
Charlotte Theresa Tompkins, Columbus
Annette Jo Tooman, Leipsic
Jennifer K. Trounser, Maumee
Kimberly Lynn Truman, Norwalk
Laura Lynn Trzaskoma, Columbus
Lisa Beth Tucker, Maumee
Susan Elizabeth Turk, Ashland
Molly F. Straubel, Wapakoneta
Valerie Lynn Tranquility, Bucyrus
Cheryl Lynn Upperman, Groveport
Renee Marie Urbanzyczyn, Brooklyn Heights
Bachelor of Science in Agricultural Engineering

Brad Jon Core, Spencerville
Alan Edward Dick, Shelby
Xenophon I. Fagroulis, Chios, Greece
David Allan Kurt, Kenton
Thomas Harold Marshall, Columbus
Patrick Allen McNamara, London
Joseph Day Sheffer, Upper Sandusky
Gregory Wayne Trubey, Sunbury

Bachelor of Science in Aviatiion

James Edward Betounez, Elyria
Burton Lee Blosser, Medina
Ryan Patrick Foley, Corapolis, PA
Ronald Henry Hall, Jr., Toledo
Roger Allen Hartshill, Bellevue
Larry Hilbert Hanshon, Worthington
Thomas Scott Hayba, Reynoldsburg
Kevin Eugene Henderson, Medina
Jeffrey Allen Jennings, Mentor
Robert Lee Madaris II, Cincinnati
Kenneth Eugene Simmone, Columbus

Bachelor of Science in Ceramic Engineering

Lora Diann Birkefeld, Grove City
Jacqueline Marie Cordonnier, Rochester Hills, MI
John Michael Eggimain, Zanesville
David Richard Jancuk, Columbus
Dal Cielo Marcelo Lustre, Centerville
Christopher Gabriel Miranda, Lorain
Michael Ty Morse, Marion
Joseph Samuel Sebastian, Cincinnati
Robin Lee Sidwell, Upper Arlington
Michael Joseph Sturm, Brunswick
Paul G. Turkal, Berea

Bachelor of Science in Chemical Engineering

Lynn Marie Adams, Cincinnati
Ann Marie Corey, Toledo
Reinhard Friedrich Eisenmann, Columbus
Denise Entizl, McDonald
Deborah Ann Fahey, Pittsfield, MA
Gregory Edward Grotke, Sylvania
Christine Marie Hrenya, Middleburg Heights
Wadad Ghazi Dunia A. Khalaf, Tripoli, Lebanon
Julie Marie Landis, Greenville
Krikor Malajian, Garfield Heights
Daniel Xuan-Vu Nguyen, Columbus
Bernard Lewis Nutter, Norton
Kirsten Anne Perkey, Findlay

Bachelor of Science in Civil Engineering

Marjorie Elaine Allen, Clarion, PA
Keith Alan Amstutz, Orrville
Thomas Michael Barnitz, Kingston
Christopher Peter Benosky, Far Hills, NJ
Andrew S. Bothwell, Mentor
Erica Anna Bower, North Baltimore
Thomas Scott Bradford, Coshocton
Roberto Jose Duarte, Columbus
Charles Wayne Duvall, Williamstown
Michael Allen French, Marion
Steven Bartell Geib, Shreve
Carla Ann Henry, Heath
John Jay Johnson, New Lexington
Matthew Scott Lauffer, Bartlesville, OK
Andrew Lee Linard, Timberlake
Brian Keith Logston, Woodfield
Steven Robert Manning, Grove City
Jeffrey Leigh Martin, Mentor
Paul Robert Nerswick, Cincinnati
Christian Devon Osborn, Findlay
Jeanne Marie Powell, North Olmsted
Robert Frank Shackleford, Proctor, VT
Robert Thomas Shoaf, Whitehall
Randolph Bryan Spencer, Strongsville
Jeffrey Paul Thompson, Columbus
Ellette Renee Wageman, Shelby
Robert Charles Zwic, Lower Salem

Bachelor of Science in Computer and Information Science

Nilesh Subhash Amin, Eastlake
John David Bair, Bainbridge
Tom Arden Broadstock, Enon
Lun-Kei Chan, Hong Kong
Mark Anthony Hollibein, Delphos
Bothwell, Mentor
Peter S. Lee, Columbus
Robert John Leisweke, Columbus
Matthew Joseph Manifold, Kettering
Luiz Edward Marin, Homestead, FL
Eric Otto Medi, Dublin
Kevin Lyle Patton, Eagle River, AK
Stephen Ned Pelican, Whitehall
Matthew Allen Strey, Beavercreek
David Dewantara Sujadi, Jakarta, Indonesia
Kelly Eugene Thornton, Raymond
M. Catherine Trenta, Akron
Jonathan Mikol Younkm, West Liberty

Connie H. Vagner, Canal Winchester
Shelley Anne Vanaman, Coshocton
Cynthia Sue Vanderbrink, Troy, MI
Beth Ann Vanuch, Medina
Susan Jane Verkets, Newark
Lisa Ann Vitali, St. Charles, IL
Paul James Walker, Cuyahoga Falls
Laura Lynn Ward, Marysville
Christine Margaret Weinmann, Lakewood
Pamela Lyn White, Marion
Julie Ann Wintney, Centerburg
Martha Irene Wilcox, Mt. Gilead
Denise Claire Wilkinson, Westerville
Scott Allen Williams, Tiffin
Jennifer Mary Wilson, Medina
Kelli Sue Wilson, Grove City
Philip Wesley Woodward, Columbus
Ann Marie Wright, Independence
Lisa Anne Wucinich, North Canton
Kara Lynn Yagneski, Elma, NY
Daniel Lee Yeager, Mt. Vernon
Julie Anne Yrta, Park, La Rue
Jennifer Lynn Young, Columbus
Sandra Kay Young, La Rue
Stacy Ann Zaworski, Avon Lake

Bachelor of Art Education and Bachelor of Music Education degrees are offered jointly by the College of the Arts and the College of Education. Candidates are listed under the College of the Arts.

College of Engineering

Acting Dean: Robert F. Redmond

Bachelor of Science in Aeronautical and Astronautical Engineering

Jan Ove Akerjordet, Sandnes, Norway
Daniel James Aug, Jr., Cincinnati
Michael Damien Becks, Lakewood
Eric Robert Benson, Kettering
Eric Scott Bish, Clarion, PA
Marcy Lynn Bonello, Leechburg, PA
James Bradley Cunningham, Rustville
Lee Bradley Davis, South Euclid
Duane Trent Detwiler, North Canton
Tor Finn Dietrichs, Medina
Daniel Joseph Ensanger, Columbus
John Ramsey Fulton, St. Clairsville
Douglas Sandford Gulick, Painted Post, NY
Timothy Andrew Hampshire, Tiffin
Peter S. Lee, Columbus
Robert John Leisweke, Columbus
Matthew Joseph Manifold, Kettering
Luiz Edward Marin, Homestead, FL
Eric Otto Medi, Dublin
Kevin Lyle Patton, Eagle River, AK
Stephen Ned Pelican, Whitehall
Matthew Allen Strey, Beavercreek
David Dewantara Sujadi, Jakarta, Indonesia
Kelly Eugene Thornton, Raymond
M. Catherine Trenta, Akron
Jonathan Mikol Younkm, West Liberty
Bachelor of Science in Electrical Engineering

Gregory Joseph Adams, Independence
Karl Frederick Adams, Boardman
Todd Anthony Adams, Syractice
Eric Einer Anderson, North Olmsted
Puneet Arya, Grove City
Thomas Joseph Bertosa, Mentor
Udayan Yogendra Bhatt, Westerville
Jeffrey Alan Conrath, Worthington
James Stuart Tisdall, Worthington
Zeina Daoud, Dunkirk, France
Donald Eugene Dennis II, Marietta
Donald Scott DeRodes, Findlay
Richard James Dece, Mentor
Scott Joseph Erdman, Sagamore Hills
Eric Allen George, Beaver Falls, PA
Simon Parsegh Ghazarian, Columbus
Philipp Michael Glaser, Shaker Heights
Vern Todd Gregg, Mechanicsburg
Annette Lisa Haddad, Brunswick
Muhammad Ramez Hakim, Damascus, Syria
Sameer Mohammed Halawa, Amman, Jordan
Wallace J. Hallas, Columbus
Fred Wayne Hartman, New Albany
Michael Kim Hatem, Amanda
Michael Robert Hauser, North Olmsted
Shanker Ram Iyer, Worthington
Steven Kenneth Jenkins, Parma
Gordan Jurasek, Lakewood
Patrick William Kelly, Worthington
David Andrew Kiehl, Cincinnati
James Edward Kight, New Lebanon
James Milton Kinney, Bexley
Ashlah Latott, Dublin
Anita Michelle Leedy, Elyria
Lori Ann Leithe, Grove City
Lisel Marie Little, Beavercreek
Nakorn Masathionvong, Bangkok, Thailand
Dean Lewis McAllister, Hilliard

Richard Dale McFerron, Jr., Columbus
Christopher Graham Meil, Willoughby
David Andrew Mitchell, Columbus
Scott Allen Montgomery, Wisconsin Rapids, WI
Ming Cai Ngiam, Sabah, Malaysia
Cornel Pazaara, Akron
Nenad Pejic, Seven Hills
George Starling Powley, Jr., Carlisle
Subha Venkat Raman, Columbus
Michael James Rayfield, Columbus
Jeffrey Lee Riemer, Grafton
Ravi Kumar Sagar, Brecksville
Mark Joseph Samborsky, Pickerington
Nicholas John Schmansky, Powell
Sanjay Selgah, Worthington
David Nicholas Shemas, Toledo
Pichai Srisuwan, Bangkok, Thailand
Richard Aveliss Tattoli, Worthington
Kevin Morgan Taylor, Plymouth
Chin-Ghee Toh, Penang, Malaysia
Alex David Tucker, Columbus
Adina Tumageanian, Gahanna
Renard Richard Ulrey, Ohio City
Bruce James Vetter, Portsmouth
Daniel Richard Waugh, Troy
Justin Lloyd White, LaPorte, IN
Winarto Wijono, Surabaya, Indonesia
Mark Anthony Wilken, Gahanna
Jay Choon Hoong Wong, Singapore
Christopher William Woodward, Columbus

Bachelor of Science in Engineering Physics

Katherine Anne Eisenhigh, Columbus
John Peyton Haas, Beavercreek
Keith David Kingsley, Paris
Shawn David Michalak, Canton
James Stuart Tsidali III, Columbus
Thomas Gregory Vassell, Columbus

Bachelor of Science in Industrial and Systems Engineering

Edward A. Adelman, Cincinnati
George Anthony Banas, Bedford
Christine Ellen Block, Berea
Mark Raymond Bonnorrot, Sidney
Richard James Cabell, Cincinnati
Jeffrey Anthony Cappel, Cincinnati
Lisa Jo Carrico, Xenia
Michael B. Clark, Convention Center, NJ
Eric Nelson Dietsch, Edgerton
Krist L. Dupre, Miamiusburg
Scott Allen Eberhart, Brunswick
Kurt Alan Engel, North Ridgeville
Kelly Ann Farrar, Toledo
Charles George Hwang, Strongsville
Todd Michael Jenkins, North Canton
Anita Yvonne Johnson, Toledo
Hazen Hisham Katali, Damascus, Syria
Matthew Lee Keller, Braden
Stacey Lee Klengenberg, Mentor
Michael Patrick Lampi, Newark

Katherine Ruth Lehman, Bay Village
Ralph Douglas Lilllico, Elyria
John Gary Long, Lorain
D. Gregory McNiel, South Webster
Todd Michael Meyers, Westlake
Ling Ling Ng, Johara Baru, Malaysia
Richard Christopher O'Brien, New Lebanon
Lee Henry Pepilinski, Massillon
Jonathan James Revelos, Middletown
Lennie Dorrian Rhoades, Grove City
Rebecca Ann Rorick, Circleville
Jeffrey Michael Royer, Columbus
Charles Stevin Smith, Lynchburg, VA
Mitchell Allen Smith, Fremont
Fernarni Sri, Magatan, Indonesia
David James Stech, Broadview Heights
Stefanus Sofjan Suhadi, Surabaya, Indonesia
Andrews Tiara, Surabaya, Indonesia
Tiffany Charisse Wright, Akron
Gregory Vladimir Zahariewicz, Bedford

Bachelor of Science in Mechanical Engineering

Douglas Elwell Andersen, West Jefferson
Ronald Andrew Bailey, Elyria
Todd Michael Bello, Bellbrook
Joseph Frank Bertolini, Akron
John Harlan Bockbrader, Columbus
Scott Allan Bohman, Yorkshire
Michael Earl Brill, Bartlett
Richard James Cumbo, Centerville
Jonathan Adam Dawson, Hilliard
Kurt William Deal, Genoa
Andreas Charalampos Diakos, Nicosia, Cyprus
Douglas Anthony Egnatzczyk, Boonville, NY
Cynthia Jane Elston, Convoy
Edward Allen Frey, Shelby
Sanjay Gupta, Centerville
Brett Allen Hall, Columbus
Sean Thomas Haney, Columbus
Christopher Mayo Hardy, Centerville
Daniel D. Heyer, Circleville
Barry Scott Hounshell, Greenville
James Edward Howard, Westerville
Matthew Dale Huston, Akron
Raymond Edward Johnson, Reynoldsburg
Scott Allen Johnston, Carroll
Yale Robert Jones, Hamilton
Erik Richard Kelley, Findlay
Matthew Joseph Klopfstein, Worthington
Matthew Burke Koenig, Cincinnati
Jeffrey Alan Kollesser, Fairborn
Mark Allen LaBelle, Granville
Paul Robert Lajack, Brecksville
Donald Philip Larson, San Francisco, CA
Timothy Brian Lewis, Pickerington
David Eugene Lochenfeld, Sydney
Mitchell Patrick Logar, Grafton
Jerome Lee Longbottom, Columbus
Juan-Carlos Maymir, Cincinnati
Rhonda Lynn Maynard, Cleveland
Kevin Charles McMahon, Warren
Carl Francis Merhar III, Worthington
John Arthur Monahan, Bethesda
Timothy Allan Myers, Columbus
Wesley Cortland Prout, Youngstown
Renee Aileen Putt, Navarre
Denis Michael Ross, Findlay
Robert Steven Samach, Rocky River
John Douglas Scott, West Chester
Dale Eugene Smith, St. Clairsville
Rodney Paul Snively, Republic
Eliot Todd Snow, Middletown
David Michael Stone, Ft. Recovery
Cynthia Marie Torges, Ostrander
Kenneth Lewis Worthy, Colorado Springs, CO
Roger Andrew Yee, Newark

Bachelor of Science in Metallurgical Engineering
Patrick Dean Burley, Belmont
Mark David Burval, Solon
George Joseph Dowidchuk, Novelty
Valerie Jean Dasch, Cleveland
Michael Gerard Launusbach, Scotia, NY
Matthew Burns Perkins, Hamilton
Matthew Richard Shaffer, Mansfield
David W. Turner, St. Clairsville
John Allen Varhola, Garfield Heights

Bachelor of Science in Surveying
Joseph Frank Charlton, Norton
Thomas Richard Hansley, Lancaster
Michael Patrick Lomano, Westerville
John Douglas Wilson, Lancaster

Bachelor of Science in Welding Engineering
Mark Andrew Bees, Findlay
Polly Ann Davis, Grove City
David Joseph Eiben, Townsend, MD
Gregory Jon Frederick, Tiffin
Daniel Michael Glood, Worthington
Wayne Howard Grove, Hanover Park, IL
Mark Edward Huber, Toronto
Shane Alexander Jacobs, Belpre
Mark Christopher Knapp, Worthington
Steven Michael Mapes, Columbus
Tracey Wendell Nelson, Columbus
Leonard Dale Ormson, Owatonna, MN
Stacy Dean Pullins, Worthington
Joseph Victor Roeble, Columbus Grove
Jeffrey Daniel Scharfer, Sylvania
Kris Jay Schott, Marietta
Robert Charles Smith II, Lynchburg, VA
Bryan Douglas Worley, West Alexandria
Russell James Zanovich, Mansfield

School of Architecture
Bachelor of Science in Architecture
William John Batson, Jr., Cleveland
Richard John Beckman, Loveland

Robert C. Brobson II, Montoursville, PA
Thomas Michael Brozovic, Massillon
Jeffrey Louis Burk, Columbus
Jeffrey Allen Busch, North Olmsted
Michael Joseph Carello, State College, PA
Kenneth Michael Cleaver, Massillon
Kimberly Rae Cokeley, Pickerington
Aaron Douglas Collins, Mansfield
Steven Allen DeStefano, Roseville, MI
Susan Marie Dunlope, Eaton
Daniel Brian Erdelmann, Kettering
John Victor Foley, North Olmsted
Thomas William Gates, Parma
Michael Joseph Giuliani, Columbus
David C. Glover, Troy
David Lee Haught, Hannibal
Mark Alan Hess, Columbus
Amy Jannette Hoffmann, Worthington
James Brian Kiley, Medina
P'Elizabeth Rowe Koelker, Akron
Heidi Lee Liebes, Sylvania
Stephen Patrick Lister, Worthington
Peter Allen Marino, Jr., Maple Heights
Mary Susan Marquardt, Cincinnati
Frank A. Massaro, Jr., Mentor
Caliie Marie McKinnon, Columbus
Patrick Michael McNamara, Columbus
Kyongsoon Pae, Springboro
Phillip Lloyd Rudy, Miamisburg
Ross Chappell Sanford III, Mason
Matthew Thomas Schlueb, Bexley
John A. Seamon, Westerville
Douglas William Seewell, Columbus
Alan Thomas Shuaia, Richmond, VA
Earl Matthew Staffan, Cuyahoga
James Joseph Tepley, Columbus
Stephen Russell Tweed, Columbus
Stephen Michael Zeik, St. Clairsville

Bachelor of Science in Landscape Architecture
James Edward Arch, Cincinnati
Bruce Timothy Bee, Tallmadge
Gary Michael Bertolo, Syracuse, NY
Katharine Elizabeth Cameron, Dublin
Scott Lawrence Claus, Collins
Thomas Brent Comisford, Alexandria
Kevin Michael Fallona, Granville
Lori Ann Francisco, Columbus
Brian Carmen Gaitan, Bainbridge
Jennifer Jo Goodrich, Canton
Co Richard W. Green, Jr., Middletown
Tedd Nelson Hardesty, Shelby
Todd Joseph Jackson, Burton
Steven Joseph Lichtenberg, Cincinnati
Anne Louise Lind, Springfield
Mark Christopher Lomonico, Pickerington
Toby Warrington MacElroy, Pasadena, CA
J. Matthew Miller, Columbus
Joseph A. Mitchell, Gratiot
Richie Lee Oster, Canton
Anne Miller Pensyl, Columbus
David Michael Quinn, Columbus
Michelle Elaine Scranton, Solon

Scott Allen Shannon, Columbus
Steven James Slominski, Cincinnati
Julie Kay Taggart, Columbus
Cardace Maria Tideman, Mt. Vernon
Richard Ryland Washington, Cleveland
Richard Todd Wysocki, North Ridgeville

College of Human Ecology
Dean: Lena Bailey

Bachelor of Science in Human Ecology
Kristina Kim Adams, Syracuse
Sherry Lyn Agresta, Steubenville
Karen Leigh Alexander, Mt. Sterling
Susan Elaine Alice, Cincinnati
Jami Lynne Atkins, Cincinnati
Kerry Angelina Banks, Lucas
Tina Delene Beardmore, Zanesville
Theresa Marie Bellerben, Cincinnati
Christine Jae Bennett, Pataskala

Janine Pepin, North Ridgeville
B.S. (Baldwin-Wallace University)
Graduates with Honors

Criteria for graduating with honors are as follows:

Summa Cum Laude designates those graduating in the top 3% of the class.

Cum Laude designates those graduating in the top 10% of the class.

With Distinction requires successful completion of a Senior Honors Thesis, oral examination, and graduation in the top 25% of the class.

With Honors in the Liberal Arts requires successful completion of the Arts and Sciences Honors Contract and graduation in the top 25% of the class.

With University Honors designates those graduating with curricular distinction and dedication to high educational goals.

Summa Cum Laude with Honors in the Liberal Arts and with Distinction in the Historical and Social Aspects of Technology and Development

Dawn Marie Swartz

Summa Cum Laude with Honors in the Liberal Arts and with Distinction in Geological Sciences

Richard Douglas Ricketts

Summa Cum Laude with Honors in the Liberal Arts and with Distinction in Medieval and Renaissance Studies

Rebecca Jean Keethler

Summa Cum Laude with Honors in the Liberal Arts and with Distinction in Psychology

Michelle Barbara Hannan

Meghan Dillon Shelby

Summa Cum Laude with Distinction in Accounting

The Board of Trustees met at its regular monthly meeting on Friday, June 7, 1991, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio, pursuant to adjournment.

**

Minutes of the last meeting were approved.

**
June 7, 1991 meeting, Board of Trustees

The Chairman, Mr. Teaford, called the meeting of the Board of Trustees to order on June 7, 1991, at 11:15 a.m. He requested the Secretary to call the roll.

INTRODUCTION OF NEW BOARD MEMBER

Mr. Teaford:

It is my great pleasure to introduce Michael F. Colley, who was appointed by Governor Voinovich on May 15, for a term which expires May 13, 2000. He succeeds Shirley Dunlap Bowser, whose term has expired. I have great empathy with our new member because he comes on here with eight appointees of a previous Governor, as did I. And I can only hope that it will be as pleasurable for you as it has been for me.

Mr. Colley earned his bachelor and law degrees from The Ohio State University, and in 1987 received the OSU College of Law Award of Distinction. He is a former member of the Ohio Board of Regents, serving from 1982-86. Mr. Colley currently practices law here in Columbus, and is the former chairman of the Ohio Republican Party and chairman of the Franklin County Republican Party. And, he has a justified reputation in this community as one of Columbus' finest litigators.

Welcome, Mr. Colley.

Mr. Colley:

Thank you, Mr. Chairman

PRESIDENT'S REPORT

President Gee:

I reported last month that a great deal of time is spent at the end of the year recognizing members of the University community for their great efforts in a variety of pursuits. Let me make note of a few of these special occasions held during May.

International Day celebrated the important international dimension of this great University. Ohio State has a world presence, and we must continue to provide opportunities for our faculty and students to be exposed to this global community. Further, we are committed to a welcoming environment for international students and scholars to experience Ohio State. In an expanded awards program this year, faculty, staff, and students were commended for their efforts to advance our international activity.
PRESIDENT'S REPORT (contd)

President Gee: (contd)

The Office of Disability Services held a volunteer recognition program at which individuals and organizations were honored for the time they give. I wish you could have been there to hear the heartfelt words of appreciation from a blind student who chose Ohio State because of our outstanding reputation as a university in which students with special needs are supported through volunteers. A learning disabled student also shared his appreciation for assistance in test-taking. I was inspired by this very fine program and applaud the spirit of volunteerism in our students, faculty, and staff.

In the same vein, the Citizenship Awards were given for the first time this year, to recognize significant volunteer contributions by staff to their community. The people of this University give thousands of hours of time and talent to the benefit of our communities. Their efforts also reflect very favorably upon the University, and I was delighted to see this activity receiving our recognition.

The Scholar Athlete Recognition Dinner provided an opportunity to salute many students who have excelled in the classroom as well as in their sports. The Athletic Department has had an excellent year in competition and in academics, and we can take great pride in this particular program.

I would be remiss not to mention that just last week, Mark Croghan set a world record while winning the NCAA title in the steeplechase. Two track athletes and three baseball players were named to All-American teams, and Ohio State is sending a school record six members and a graduate assistant to the U.S. National Gymnastics Championships this weekend. We added a Big Ten Championship in baseball to our record of achievements.

The Affirmative Action Awards honored those people and groups who have advanced human rights and dignity. This program serves not only to recognize past efforts, but also to renew our resolve and inspire our energy in continuing to address these very important issues.

The important role of staff members was recognized at the Staff Awards program, through which our colleagues in administrative and professional positions and Civil Service roles receive our thanks for good work. Hearing the biographies of the winners served as a reminder of the crucial role our dedicated staff members play in the success of this University.

The alumni reunions of the 50 and 60 year classes were wonderful events, recognizing the years of loyalty demonstrated by outstanding alumni. You should know that the 50 year class, the class of 1941, in addition to being a lively and accomplished group, has over the years donated more than $2.6 million dollars to our University. That is a true model of alumni commitment!

We received a very generous check from the Merrymakers Club of Columbus for the National Achievement Scholars Program. This important group of community leaders continues to support Ohio State in meaningful and significant ways, including these scholarships.
June 7, 1991 meeting, Board of Trustees

PRESIDENT'S REPORT (contd)

President Gee: (contd)

As we have reported in the media and to the Board, the number of merit scholars in next year's class is very exciting. More than 100 are expected to be with us in the fall, and this month we brought five students and their parents to campus for the announcement.

While I am delighted to report the statistical success of our recruiting efforts, I am even more enthused about the individual students behind these numbers.

For example, Andrew Shih from Bowling Green played baritone in the band, guitar in the jazz ensemble, and classical piano. He also played first team doubles on the school tennis team while earning the rank of number one in his class. In a similar vein, Gregory Smith of Fairborn High School was editor of the yearbook, captain of the tennis team, and member of the soccer team, while finishing second in his class of 452. These students bring a breadth of experience and quality academic performance that will challenge all of us to keep up with them!

To shape the University that these students will experience, and the generations that follow them, we have embarked on an academic planning initiative, as you are aware. I want to update you on our progress.

Following-up on the "town meetings" held across the University, Vice Provost Howard Gauthier is coordinating a series of focusing groups. Leaders for these groups have been selected and trained, and we are moving ahead with what will be a set of very interesting discussion groups. Professor Gauthier reports great cooperation and participation on the part of all segments of the University. I believe some are, frankly, amazed with the speed and diligence of this process. I am excited and optimistic about its excellent result and I congratulate our Provost for his leadership.

Playing important roles in that bright future are some important new leaders for Ohio State. Pamela Shoemaker, an associate professor of journalism at the University of Texas and an Ohio native, will Direct the School of Journalism. Dr. Shoemaker has authored a new book on "Mediating the Message: Theories of Influence on Mass Media Content."

Violet Meek, associate director for sponsored program development of the Research Foundation, is acting dean and director of Ohio State-Lima. We were most fortunate that a scholar and administrator of her experience was available for this important appointment.

Henry Fields, assistant dean for academic affairs at the University of North Carolina School of Dentistry, will be joining us as Dean of the College of Dentistry. He is a scholar of distinction who will provide effective leadership for our outstanding college.

Today, although we have introduced him, we are pleased to note that Dr. Edward Hayes, Vice President for Research, is here in his official capacity. Welcome Ed, we are glad to have you here and look forward to your July 1 starting date.
June 7, 1991 meeting, Board of Trustees

PRESIDENT'S REPORT (contd)

President Gee: (contd)

Finally, I want to welcome and acknowledge our newest member of the Board of Trustees, Mr. Michael Colley. Twice, as was already noted, a graduate of Ohio State and a former member of the Board of Regents, he will bring -- and already has in his first 3 hours, Mike -- great energy and insight to this position. I look forward to working with you and on behalf of all of my colleagues congratulate you on this significant recognition.

I will close by saying that I look forward to seeing you at Commencement next Friday. It will be an historic occasion -- not, of course, because I am standing in for George Bush, Bill Cosby, and any of the other popular choices as speaker, but because we will be awarding, sometime during that ceremony, our 400,000th degree from The Ohio State University. That is a remarkable achievement and a great occasion!

--0--

COMMITTEE APPOINTMENTS 1991-92

Resolution No. 91-128

WHEREAS the appointments to Committees and representatives to the Research Foundation Board of Directors, the Inter-University Council, the University Hospitals Board, The Arthur G. James Cancer Hospital and Research Institute Trustee Liaison, the Ohio State University Affiliates, Inc., Board of Directors, and the Ad Hoc Committee on Planning for 1991-92 are as follows:

Educational Affairs
Deborah E. Casto, Chair
John W. Kessler, Vice Chair
Alex Shumate
Milton A. Wolf

Investments Committee
Milton A. Wolf, Chair
Deborah E. Casto, Vice Chair
Michael F. Colley

Standing Committee on Agricultural Affairs
Theodore S. Celeste, Chair
Fred L. Dailey, Vice Chair, Ex Officio
John W. Kessler
Michael F. Colley

Student Affairs
David A. Tonnies, Chair
Theodore S. Celeste, Vice Chair
Michael F. Colley
New Student Trustee

Fiscal Affairs
Alex Shumate, Chair
John J. Barone, Vice Chair
John W. Kessler

Personnel Committee
Hamilton J. Teaford, Chair
John J. Barone, Vice Chair
Deborah E. Casto
June 7, 1991 meeting, Board of Trustees

COMMITTEE APPOINTMENTS 1991-92 (contd)

Inter-University Council          Theodore S. Celeste
Research Foundation
Board of Directors                Deborah E. Casto
University Hospitals              Theodore S. Celeste
Board                              John J. Barone
The Arthur G. James Cancer
Hospital and Research             John W. Kessler, Chair
Institute Trustee Liaison          John J. Barone
Ohio State University             Hamilton J. Teaford (term 1 yr)
Affiliates, Inc.                   John J. Barone (term 2 yrs)
Deborah E. Casto (term 3 yrs)
Ad Hoc Committee
on Planning*                      Leslie H. Wexner, Chair
                                  Deborah E. Casto, Vice Chair
                                  Alex Shumate
                                  Michael F. Colley

*Serves as Board of Trustee's interface with the University's Planning Committee.

NOW THEREFORE

BE IT RESOLVED, That the above Committee appointments and the representatives for 1991-92
are hereby ratified and confirmed.

Upon motion of Mr. Celeste, seconded by Mr. Shumate, the Board of Trustees adopted the
foregoing resolution by unanimous roll call vote.

RESEARCH FOUNDATION REPORT

Ms. Casto:

Research Foundation grants and contracts for the first ten months of fiscal year
1991 are shown in the Board Agenda Book. There are 1,172 awards listed which
provide a gross income of $100 million.

Funding for this quarter is almost 3 percent ahead of that of the first ten months of
fiscal year 1990. Federal funding has increased overall, specifically in the
Departments of Energy and Health and Human Services. Funding from both the
State of Ohio and Industrial sectors has also increased. Some highlights of awards
for April are:

$157,000 from the Department of the Air Force to study electron transfer rates on
solid electrodes.

$137,000 from the National Heart, Lung, and Blood Institute for a project on risk
factors for adults with heart disease.
June 7, 1991 meeting, Board of Trustees

RESEARCH FOUNDATION REPORT (contd)

Ms. Casto:

$96,000 from the National Institute of General Medical Science for a study on plant defense genes.

$64,000 from the American Dental Laser Company for a project on dental laser surgery.

Thank you. That concludes my report.

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS
Resolution No. 91-129

Synopsis: The Fiscal Affairs Committee recommended approval of the research contracts, grants, and gifts and the summary for April 1991.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, and The Ohio State University Development Fund:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station and The Ohio State University Development Fund during the month of April 1991 be approved.

Upon motion of Mr. Celeste, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

The Ohio State University Development Fund

Establishment of Named Funds

The Hazel Hensel Memorial Distinguished/Medalist/University Scholarship Fund  
(Undergraduate merit scholarships)  
$115,000.00

The Le Evelyn and Robert C. Kintner Chemical Engineering Fund  
(Support outstanding research)  
$65,000.00

The Jack C. and Charlotte D. Smith Scholarship Fund  
(Merit Scholarships - Department of Physics)  
$61,050.00

The Yocum Family Scholarship Fund  
(Scholarships - students from Washington High School, Massillon, Ohio)  
$52,681.92

The Francis B. McCormick Professorship Fund  
(Establish the Francis B. McCormick Professorship in Agricultural Marketing and Policy)  
$45,484.05

The Starling Ohio Women's Club Scholarship Fund  
(Scholarships - Colleges of Dentistry and Medicine)  
$45,000.00

The George N. Motts Memorial University Scholarship Fund  
(Undergraduate merit scholarships for George N. Motts University Scholars)  
$24,148.75

The Louis P. Benua Memorial Scholarship Fund in Engineering  
(Scholarships - Industrial and Systems Engineering)  
$18,225.00

The Robert J. Watkins Scholarship Fund  
(Financial assistance - College of Law)  
$15,481.00

The William J. Brakel Endowed Scholarship Fund in Dairy Science  
(Scholarships)  
$15,180.00

The Thomas A. Wilson Research and Education Program Fund  
in Agricultural Economics  
(Support key academic activities - Department of Agricultural Economics and Rural Sociology)  
$15,000.00

Recession and Redesignation of Fund

Rescind the Noel F. George, Baker & Hostetler Chair in Law Fund and redesignate the existing principal and income to The Baker & Hostetler Law Library and Building Fund
June 7, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION

Report - April 1991

Federal Research Contracts/Grants

$435,166.00 - Department of Agriculture, Science and Education, Washington, D.C., North Central Region Special Studies Program for Pesticide Impact Assessment, Department of Entomology - OARDC and Department of Entomology (A. C. Waldron), 1 April 1990 through 31 March 1993. (Project 768223 - Continuation)

$237,783.00 - Department of Health and Human Services, National Center for Nursing Research, Bethesda, Maryland, Endotracheal Suctioning in Acutely Ill Adults, Department of Life Span Process (K. S. Stone), 1 April 1991 through 31 March 1992. (Project 765998 - Continuation)

$220,618.00 - Department of Health and Human Services, National Institute of General Medical Sciences, Bethesda, Maryland, RNA Splicing in Neurospora Mitochondria, Department of Molecular Genetics, Department of Biochemistry, and Biotechnology Program (A. M. Lambowitz), 1 April 1991 through 31 March 1992. (Project 765596 - Continuation)

$211,640.00 - Department of Health and Human Services, National Institute of General Medical Sciences, Bethesda, Maryland, Synthesis of Unusual Biologically Active Terpenes, Department of Chemistry (L. A. Paquette), 1 April 1991 through 31 March 1992. (Project 763497 - Continuation)

$204,822.00 - Department of Energy, Argonne, Illinois, Synthesis and Evaluation of Boron Compounds for Neutron Capture Therapy of Malignant Brain Tumors, College of Pharmacy (A. H. Soloway) and Department of Pathology (R. F. Barth), 1 May 1991 through 30 April 1992. (Project 768250 - Continuation)

$199,112.00 - Department of Education, Office of Postsecondary Education, Washington, D.C., Upward Bound Program, Office of Minority Affairs (J. Russell), 1 September 1991 through 31 August 1992. (Project 767700 - Continuation)

$184,877.00 - Department of Health and Human Services, National Cancer Institute, Bethesda, Maryland, Chemistry of Novel Natural Inhibitors of Carcinogenesis, College of Pharmacy (J. M. Cassady), 1 April 1991 through 31 March 1992. (Project 766665 - Continuation)

$174,976.00 - Department of Health and Human Services, National Institute of Diabetes and Digestive and Kidney Diseases, Bethesda, Maryland, Regulation of (N-3) and (N-6) Fatty Acid Metabolism, Department of Medical Biochemistry (H. W. Sprecher), 1 April 1991 through 31 March 1992. (Project 760745 - Continuation)

$163,537.00 - Department of Health and Human Services, National Center for Research Resources, Bethesda, Maryland, Topical In Vivo Electron Spin Resonance, Department of Chemistry (L. J. Berliner), 1 April 1991 through 31 March 1992. (Project 766380 - Continuation)

$158,763.00 - Department of Health and Human Services, National Institute of General Medical Sciences, Bethesda, Maryland, Mechanism of Phospholipase A2, Department of Chemistry (M.-D. Tsai), 1 April 1991 through 31 March 1992. (Project 767369 - Continuation)
June 7, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Federal Research Contracts/Grants (contd)

$140,250.00 - Department of Energy, Argonne, Illinois, Strongly Interacting Fermion Systems, Department of Physics (J. W. Wilkins), 15 November 1990 through 14 November 1991. (Project 766783 - Continuation)

$139,175.00 - Department of Health and Human Services, National Cancer Institute, Bethesda, Maryland, Deoxycytidine Kinase: Regulation and Molecular Biology, Department of Biochemistry (D. H. Ives), 1 May 1991 through 30 April 1992. (Project 767295 - Continuation)

$139,130.00 - Department of Health and Human Services, National Institute of Neurological Disorders and Stroke, Bethesda, Maryland, Mechanisms of Lipase Activation in Alzheimer's Disease, Department of Medical Biochemistry (L. A. Horrocks and A. A. Farooqui), 1 April 1991 through 31 March 1992. (Project 768997 - New)

$137,418.00 - Department of Health and Human Services, National Heart, Lung, and Blood Institute, Bethesda, Maryland, Risk Factors in Early Human Atherogenesis, Biomedical Engineering Center (J. F. Comhill), 1 April 1991 through 31 March 1992. (Project 768972 - New)

$130,530.00 - Department of Health and Human Services, National Institute on Deafness and Other Communication Disorders, Bethesda, Maryland, Otitis Media with Effusion: Human and Animal Studies, Department of Otolaryngology (D. J. Lim), 15 February 1991 through 30 November 1991. (Project 760043 - Continuation)

$117,515.00 - Department of Health and Human Services, National Institute of Diabetes and Digestive and Kidney Diseases, Bethesda, Maryland, Feline Retrovirus-Associated Endocrine Dysfunction, Department of Veterinary Pathobiology (J. L. Rojko, L. E. Mathes, and C. A. Brooks), 1 March 1991 through 28 February 1992. (Project 767361 - Continuation)

$112,460.00 - Department of Health and Human Services, National Institute of General Medical Sciences, Bethesda, Maryland, Synthesis of Biologically Active Alkaloids, Department of Chemistry (D. J. Hart), 1 April 1991 through 31 March 1992. (Project 762083 - Continuation)

$107,015.00 - Department of Health and Human Services, National Institute of General Medical Sciences, Bethesda, Maryland, Regulation of Histidine Utilization in Streptomyces, Department of Microbiology (K. E. Kendrick), 1 April 1991 through 31 March 1992. (Project 767370 - Continuation)

$105,912.00 - Department of Transportation, National Highway Traffic Safety Administration, East Liberty, Ohio, Support of Defects Investigations, Department of Mechanical Engineering (D. A. Guenther), 16 November 1990 through 15 November 1991. (Project 765180 - Continuation)
Federal Research Contracts/Grants (contd)

$105,709.00 - Department of Education, Office of Special Education and Rehabilitation Services, Washington, D.C., Leadership Training in Special Education at The Ohio State University: A Ph.D. Program in Special Education with an Emphasis in Applied Behavior Analysis, Department of Educational Services and Research (W. L. Heward), 1 October 1991 through 30 September 1992. (Project 768965 - New)

$100,538.00 - Department of Health and Human Services, National Institute of General Medical Sciences, Bethesda, Maryland, Structure, Function, and Dynamics of P-450 Cytochromes, College of Pharmacy (S. Black), 1 February 1991 through 31 January 1992. (Project 766583 - Continuation)

$97,703.00 - National Science Foundation, Washington, D.C., Ross Young Scholars Program, Department of Mathematics (A. E. Ross and G. R. Woods), 1 March 1991 through 29 February 1992. (Project 768938 - New)

$96,509.00 - Department of Health and Human Services, National Institute of General Medical Sciences, Bethesda, Maryland, Genetic Approaches for Identifying Plant Defense Genes, Biotechnology Program and Department of Plant Biology (K. R. Davis), 1 April 1991 through 31 March 1992. (Project 768896 - New)

$96,305.00 - Department of Agriculture, Science and Education, Washington, D.C., Targeting the Overwintering Colorado Potato Beetle with Cultural and Physical Controls, Department of Entomology - OARDC (C. W. Hoy), 1 April 1991 through 31 March 1993. (Project 768986 - New)

$93,051.00 - Department of Health and Human Services, National Institute of Mental Health, Rockville, Maryland, Constraints on Cognitive Theories of Performance, Department of Psychology (C. Palmer), 1 April 1991 through 31 December 1991. (Project 768151 - Continuation)

$92,059.00 - Department of Health and Human Services, National Cancer Institute, Bethesda, Maryland, Preclinical Pharmacology Investigations of Antitumor Agents, College of Pharmacy (J. Supko), 14 April 1991 through 13 September 1991. (Project 767472 - Continuation)

$99,452.00 - Department of Health and Human Services, National Institute on Deafness and Other Communication Disorders, Bethesda, Maryland, Neural Basis of Taste Elicited Ingestion and Rejection, Oral Biology (J. B. Travers), 1 April 1991 through 31 March 1992. (Project 765695 - Continuation)
June 7, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Federal Research Contracts/Grants (contd)

$85,912.00 - Department of Health and Human Services, National Institute of Neurological Disorders and Stroke, Bethesda, Maryland, Expression of Granule Cell GABA$_2$ Receptors, Department of Pharmacology (A. Frostholm), 1 April 1991 through 31 March 1992. (Project 767411 - Continuation)

$84,955.00 - Department of Health and Human Services, National Institute of Child Health and Human Development, Bethesda, Maryland, Regulation of Human Decidual Prolactin, Department of Internal Medicine (R. D. Jackson), 1 April 1991 through 31 March 1992. (Project 766234 - Continuation)

$84,172.00 - Department of Health and Human Services, National Institute of Neurological Disorders and Stroke, Bethesda, Maryland, Receptor Regulation of Adrenal Catecholamine Secretion, College of Pharmacy (D. B. McKay), 1 April 1991 through 31 March 1992. (Project 765968 - Continuation)

$81,000.00 - National Science Foundation, Washington, D.C., Chemotaxis as a Determinant of Competitive Success in Soil, Rhizosphere, and Symbiotic Infection, Department of Agronomy - OARDC and Department of Agronomy (W. D. Bauer), 1 May 1991 through 30 April 1992. (Project 767326 - Continuation)

$78,722.00 - Department of Health and Human Services, National Center for Research Resources, Bethesda, Maryland, Biomedical Research Support Grant, Medicine Administration (D. G. Cornwell), 1 April 1991 through 31 March 1992. (Project 761078 - Continuation)

$74,274.00 - Department of Health and Human Services, National Heart, Lung, and Blood Institute, Bethesda, Maryland, Mediastinal Effects on Pulmonary Function, Department of Veterinary Physiology and Pharmacology (L. E. Olson), 1 April 1991 through 31 March 1992. (Project 765986 - Continuation)

$70,035.00 - Department of the Navy, Office of Naval Research, Arlington, Virginia, Compressible Free Shear Layer, Department of Mechanical Engineering (M. Samimy), 1 October 1990 through 30 September 1991. (Project 768247 - Continuation)

$69,735.00 - National Science Foundation, Washington, D.C., The Environmental History of the Amazon Rain Forest, Department of Zoology (P. A. Colinvaux), 15 August 1990 through 31 July 1991. (Project 766362 - Continuation)

$65,000.00 - National Science Foundation, Washington, D.C., Electron-Polyatomic Molecule Collisions and Ionization in Intense Fields, Department of Chemistry (C. W. McCurdy), 1 April 1991 through 31 March 1992. (Project 768158 - Continuation)

$63,875.00 - Department of Agriculture, Science and Education, Washington, D.C., Improved Sampling Methods and Decision Models for Potato Early Dying Integrated Pest Management Programs, Department of Plant Pathology - OARDC (R. C. Rowe, R. M. Riedel, and L. Madden), 1 June 1991 through 31 May 1993. (Project 768983 - New)
June 7, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Federal Research Contracts/Grants (contd)

$63,725.00 - Department of Agriculture, Science and Education, Washington, D.C., Constraints on Velvetleaf Population Growth in Agroecosystems, Department of Agronomy - OARDC (J. Cardina) and Department of Agronomy (E. E. Regnier), 1 May 1991 through 30 April 1993. (Project 767474 - Continuation)

$63,074.00 - Department of the Army, Army Research Office, Research Triangle Park, North Carolina, Boundary Layers Induced by Three-Dimensional Vortex Loops, Department of Mechanical Engineering (A. T. Conlisk), 1 May 1991 through 30 April 1992. (Project 767440 - Continuation)

$60,800.00 - Department of Education, Office of Postsecondary Education, Washington, D.C., Graduate Assistance Fellowships in Areas of National Need, Department of Physics (J. T. Tough), 1 September 1990 through 31 August 1991. (Project 768272 - Continuation)

$56,150.00 - Department of Health and Human Services, National Center for Research Resources, Bethesda, Maryland, Biomedical Research Support Grant, Research and Graduate Studies Administration (T. L. Sweeney), 1 April 1991 through 31 March 1992. (Project 764748 - Continuation)

$44,479.00 - National Science Foundation, Washington, D.C., Computer-Controlled Instrumentation for an Undergraduate Signals and Systems Laboratory, Department of Electrical Engineering (S. Yurkovich), 15 March 1991 through 28 February 1993. (Project 768932 - New)

$43,666.00 - National Science Foundation, Washington, D.C., Cyclic Homology, Higher Indices, and Secondary Invariants, Department of Mathematics (H. Moscovici), 1 June 1991 through 31 May 1992. (Project 768958 - New)

$37,500.00 - National Science Foundation, Washington, D.C., Presidential Young Investigator Award, Department of Mathematics (K. Rubin), 1 February 1991 through 31 January 1992. (Project 766905 - Continuation)

$36,750.00 - Department of Health and Human Services, National Institute on Deafness and Other Communication Disorders, Bethesda, Maryland, Feasibility of Using Neural Networks to Study American Sign Language (ASL) Signs, Biomedical Engineering Center (M. B. Waldron), 1 April 1991 through 31 March 1992. (Project 768964 - New)

$35,454.00 - Department of the Navy, Office of Naval Research, Arlington, Virginia, Molecular Biology of the Extremely Thermophilic Archaeabacterium, Methanothermus fervidus, Department of Microbiology (J. N. Reeve), 1 June 1991 through 31 May 1992. (Project 768947 - Continuation)

$8,623.62 - Department of Health and Human Services, National Institute of Environmental Health Sciences, Bethesda, Maryland, Neuroendocrine Regulation of Galanin and LHRH Secretion of Reproductive Function, Department of Veterinary Anatomy and Cellular Biology (M. C. Ching), 1 February 1991 through 30 September 1991. (Project 768943 - New)

$8,000.00 - National Science Foundation, Washington, D.C., The Relativistic Optical Model at Intermediate Energies, Department of Physics (B. C. Clark), 15 July 1990 through 30 June 1991. (Project 767674 - Continuation)

$7,827.00 - Department of Health and Human Services, National Center for Research Resources, Bethesda, Maryland, Biomedical Research Support Grant, Nursing Administration (C. A. Anderson), 1 April 1991 through 31 March 1992. (Project 764658 - Continuation)

$5,880.00 - Department of Health and Human Services, National Cancer Institute, Bethesda, Maryland, The Value of Glyco- lipids for Classifying Astrocytomas, Department of Pathology (A. J. Yates), 1 September 1990 through 31 August 1991. (Project 767769 - Continuation)

$5,000.00 - Department of Health and Human Services, National Center for Research Resources, Bethesda, Maryland, Biomedical Research Support Grant, College of Optometry (R. M. Hill), 1 April 1991 through 31 March 1992. (Project 765317 - Continuation)

$5,000.00 - National Science Foundation, Washington, D.C., Diversity and Distribution of Fossil Floras from Southern Victoria Land, Antarctica, Byrd Polar Research Center (E. L. Taylor and T. N. Taylor) and Department of Plant Biology (T. N. Taylor), 1 June 1990 through 30 September 1991. (Project 766664 - Continuation)

$4,135.00 - National Science Foundation, Washington, D.C., Research Experience for Undergraduates Supplement, Department of Civil Engineering (M. R. McCord), 6 March 1991 through 31 December 1991. (Project 766242 - Continuation)

$4,000.00 - National Science Foundation, Washington, D.C., Structure and Dynamic Behavior of Selected Organolithium Compounds, Department of Chemistry (G. A. Fraenkel), 8 April 1991 through 31 December 1991. (Project 767225 - Continuation)

$4,000.00 - National Science Foundation, Washington, D.C., The Information Processing Effects of Attitude Importance -- Research Experiences for Undergraduates, Department of Psychology (J. Krosnick), 15 June 1990 through 30 June 1992. (Project 768413 - Continuation)

$3,528.00 - Department of the Navy, Bureau of Medicine and Surgery, Bethesda, Maryland, Analysis of Household and Serological Survey Data from Yogyakarta, Indonesia Following an Epidemic of Chikungunya, Department of Veterinary Preventive Medicine (J. D. Monfort and R. D. Slemons), 1 December 1990 through 30 June 1991. (Project 768942 - New)

TOTAL - FEDERAL AWARDS $6,435,756.62

Industrial Research Contracts/Grants (contd)

$2,227.00 - Applied R & D, Olmsted Falls, Ohio, Vertical Multi-Junction Photovoltaic Cell, Department of Electrical Engineering (G. J. Valco), 1 April 1991 through 30 June 1991. (Project 767802 - Continuation)

$1,120.00 - A-COMPANY, San Diego, California, Shear Strength Analysis of Ceramic Orthodontic Brackets: Evaluation of Brackets Treated by a New Method for Chemical Coupling Between Ceramic and Composite Resin and Comparison with Existing Market-Place Brackets, Restorative and Prosthetic Dentistry (W. A. Brantley), 1 March 1991 through 30 June 1991. (Project 768946 - New)

Materials and Supplies - 3-M, St. Paul, Minnesota, An Evaluation of Four Different Methods of Cast Application to the Distal Forelimb of the Horse, Department of Veterinary Clinical Sciences (R. K. Schneider), 15 April 1991 through 15 October 1991. (Project 768973 - New) (Approximate Dollar Value - $1,000)

TOTAL - INDUSTRIAL AWARDS $1,360,640.75

Other Non-Federal Research Contracts/Grants

$239,975.00 - Brookhaven National Laboratory, Upton, Long Island, New York, Boron-Neutron Capture Therapy of Cancer, Department of Pathology (R. F. Barth), College of Pharmacy (A. H. Soloway), Department of Mechanical Engineering (T. E. Blue), and Department of Surgery (J. H. Goodman), 1 January 1990 through 30 September 1991. (Project 768062 - Continuation)

$130,000.00 - Electric Power Research Institute, Palo Alto, California, Investigation of the Risk Factors for Sporadically Occurring Legionnaires' Disease, Department of Internal Medicine (J. F. Plouffe), 1 October 1990 through 31 March 1992. (Project 768684 - Continuation)

$94,158.00 - Columbus Human Services Department, Columbus, Ohio, The Columbus Neighborhood Technical Assistance Program, Department of City and Regional Planning (S. I. Gordon), 1 January 1991 through 31 December 1991. (Project 768959 - Continuation)

$69,922.00 - University of Southern California, Los Angeles, California, Pathogenetic Mechanisms in Feline Leukemia, Department of Veterinary Pathobiology (L. E. Mathes and P. C. Stromberg), 1 January 1991 through 31 December 1991. (Project 768178 - Continuation)

$57,868.00 - Metalworking Technology, Inc., Johnstown, Pennsylvania, Developing and Commercialization of Advanced Solid Wire or Metal Cored Consumables for Welding High Strength Steels, Department of Welding Engineering (D. G. Howden), 1 October 1990 through 30 September 1991. (Project 768649 - New)

$50,525.00 - Purdue University, West Lafayette, Indiana, Model of X-Linked Severe Combined Immunodeficiency, Department of Veterinary Pathobiology (G. S. Krakowka), 1 April 1991 through 31 March 1992. (Project 768334 - Continuation)

$44,000.00 - American Heart Association, Dallas, Texas, Isolated Myocytes from Failing Human Ventricle, Department of Medical Biochemistry (R. A. Altschuld), 1 July 1991 through 30 June 1992. (Project 769004 - New)
June 7, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY RESEARCH FOUNDATION (contd)

Other Non-Federal Research Contracts/Grants (contd)

$42,747.00 - Miami Valley Research Institute, Dayton, Ohio, Knowledge-Based Diagnostic System for Avionics, Department of Chemical Engineering (J. F. Davis), 1 March 1991 through 30 September 1991. (Project 768952 - Continuation)

$40,368.00 - National Multiple Sclerosis Society, New York, New York, Oral Tolerance in Experimental Autoimmune Encephalomyelitis, Department of Microbiology and Immunology (C. C. Whitacre), 1 April 1991 through 31 March 1994. (Project 768961 - New)

$34,154.00 - Muscular Dystrophy Association, Tucson, Arizona, Clinical Investigation of Duchenne Dystrophy: Azathioprine Prednisone, Department of Neurology (J. R. Mendell), 1 March 1991 through 30 June 1991. (Project 768981 - Continuation)

$32,000.00 - The University of Rochester, Rochester, New York, Natural History of Fascioscapulohumeral Muscular Dystrophy, Department of Neurology (J. R. Mendell), 1 July 1990 through 30 June 1991. (Project 768980 - Continuation)

$30,000.00 - American Cancer Society, Atlanta, Georgia, Clinical Oncology Career Development Award, Department of Internal Medicine (P. L. Triozzi), 1 July 1991 through 30 June 1992. (Project 768981 - Continuation)

$20,000.00 - Battelle Memorial Institute, Columbus, Ohio, Criticality Safety Studies for Portsmouth Facility, Department of Engineering Graphics (A. W. Fentiman), 1 November 1990 through 26 May 1991. (Project 768954 - New)

$13,750.00 - American College of Obstetricians and Gynecologists, Philadelphia, Pennsylvania, Clinical Trials in Gynecologic Oncology, Department of Obstetrics and Gynecology (L. J. Copeland), 1 July 1989 through 31 March 1994. (Project 767936 - Continuation)

$10,000.00 - Dartmouth College, Hanover, New Hampshire, GEOSAT Radar Altimetry Data Processing, Byrd Polar Research Center (K. C. Jezek), 1 December 1989 through 30 November 1991. (Project 768601 - Continuation)

$10,000.00 - Fetzer Institute, Kalamazoo, Michigan, Perspectives in Psychoneuroimmunity, Department of Microbiology and Immunology (M. R. Glaser), 1 April 1991 through 31 October 1991. (Project 768955 - New)

$10,000.00 - Maharishi Ayurveda Foundation, Lancaster, Massachusetts, Research on Natural Products and the Study of Effects of Sound and Light, Department of Pathology (H. M. Sharma), 15 June 1990 through 14 June 1991. (Project 768362 - Continuation)
Other Non-Federal Research Contracts/Grants (contd)

$9,994.00 - American Diabetes Association, Ohio Affiliate, Inc., Worthington, Ohio, Amylin's Role in Fetal Diabetic Macrosomia, Department of Obstetrics and Gynecology (C. I. Friedman), 1 August 1990 through 31 July 1991. (Project 768976 - New)

$7,350.00 - Indiana University, Indianapolis, Indiana, Imperative to Volunteer: American Culture of Volunteerism, Lima Campus and Department of Sociology (D. S. Adams), 1 June 1991 through 31 May 1992. (Project 769003 - New)

$6,160.00 - Children's Hospital Research Foundation, Columbus, Ohio, Childhood Imbalance: Is Otitis Media the Culprit?, Department of Otolaryngology (K. Barin), 1 January 1991 through 31 December 1991. (Project 769001 - New)

$5,820.00 - Cancer Therapy and Research Foundation of South Texas, San Antonio, Texas, Southwest Oncology Group, Department of Pathology (R. O'Toole), 1 January 1991 through 31 December 1991. (Project 768945 - Continuation)

$3,215.00 - Cancer Therapy and Research Foundation of South Texas, San Antonio, Texas, SWOG Study #9133, Department of Otolaryngology (D. E. Schuller), 1 January 1991 through 31 December 1991. (Project 766915 - Continuation)

$2,000.00 - Dallas Community College District -- Brookhaven College, Farmers Branch, Texas, National Alliance of Community and Technical Colleges, Center on Education and Training for Employment (R. D. Ryan), 1 July 1990 through 30 June 1991. (Project 768414 - Continuation)

Personnel and Travel - Institute for Technology Development's Space Remote Sensing Center, Stennis Space Center, Mississippi, Center for Commercialization of Space Membership Agreement, Center for Mapping (J. D. Bossler), 1 July 1991 through 30 June 1992. (Project 766219 - Continuation) (Approximate Dollar Value - $332,975)

TOTAL - OTHER NON-FEDERAL AWARDS $1,030,749.00
State Sponsored Research and Development

$184,142.00 - from the Ohio Department of Transportation for "Rural Technology Transfer Center, 1991," under the direction of the Department of Civil Engineering for the period January 1, 1991 through December 31, 1991. (529883)

$144,646.00 - from the Ohio Coal Development Office for "Sulfur Release from Ohio Coals & Sorbent Kinetics in Pulverized Coal Flames," under the direction of the Department of Mechanical Engineering for the period October 1, 1988 through October 1, 1991 (529780)

$3,756.00 - from the Ohio Department of Transportation for "Summer Orientation Course," under the direction of the Department of Civil Engineering for the period April 1, 1991 through June 30, 1991. (529882)

TOTAL - STATE SPONSORED RESEARCH AND DEVELOPMENT $332,544.00

Industry and Other Sponsored Research and Development

$69,146.00 - in funding from US Steel of Pittsburgh, PA. for "Evaluation of Continuous Caster Rolls," under the direction of Welding Engineering and the Department of Agricultural Engineering for the period March 1, 1991 through February 28, 1992. (529885)

$60,733.00 - additional funding from the Institute of Computational Fluid Dynamics of Tokyo, Japan for "Research on Refinement and Development of Computational Fluid Dynamics," for the period April 1, 1989 through March 31, 1992 under the direction of the Department of Mechanical Engineering. (529795, Ext. 2)

$56,837.00 - from Arbor Research Corporation, Inc., Ann Arbor, Michigan for "A Proposal to Develop a Process to Split 99.7% Oxygen from Air," under the direction of the Department of Chemical Engineering, for the period April 1, 1991 through March 31, 1992. (529886)

$45,000.00 - additional funding from McDonnell Douglas of St. Louis, MO for "Functional Reasoning," under the direction of the Department of Computer and Information Science," for the period September 1, 1988 through March 31, 1992. (529782, Ext. 1)

$40,000.00 - in additional funding from Micro Craft of Tullahoma, TN for "Aircraft Model Wind Tunnel Test," for the period February 1, 1991 through June 30, 1991 under the direction of the Aeronautical and Astronautical Laboratory. (312563, Ext. 1)

$24,515.00 - additional funding from Mobile Research and Development Corporation of Princeton, NJ for "Cataracker: An Expert System Framework for Diagnosis in Fluid Catalytic Cracking Units," for the period October 15, 1988 through December 30, 1991 under the direction of the Department of Chemical Engineering. (312484, Ext. 3)

$20,000.00 - funding from Ryobi North America, Inc. of Chicago, IL and Central Foundry Division of General Motors Corporation for membership in the Engineering Research Center. (029200)

$11,466.00 - funding from AGA Gas, Inc. of Cleveland, OH for "Effect of Mison Gas on the Mechanical Properties and Composition of Weld Metals," under the direction of Welding Engineering for the period April 1, 1991 through June 30, 1991. (312570)
June 7, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

ENGINEERING EXPERIMENT STATION (contd)

Industry and Other Sponsored Research and Development (contd)

$8,000.00 - from IAP Research of Dayton, OH for "Thin Film High Temperature YBA2 CU3 07-x for Application in a Superconducting Vector Switch," under the direction of the Department of Electrical Engineering, for the period April 1, 1991 through June 30, 1991. (529881)

$7,500.00 - additional funding from International Copper Assoc., Ltd. of New York, NY for "Thermal Characteristics of Copper Alloy Tooling in Injection Molding," under the direction of both Mechanical and Chemical Engineering Departments for the period January 1, 1991 through December 31, 1991. (529870, Ext. 1)

$7,000.00 - from Shell Development Company of Houston, TX for "Specimen Preparation/Hydrogen Attack," under the direction of Materials Science and Engineering for the period March 1, 1991 through May 31, 1991. (312569)

$6,475.00 - from 4 sponsors of 6 development projects in the Department of Chemical Engineering.

$6,200.00 - additional funding from General Electric of Cincinnati, OH for "One Twelfth Scale Ejector Powered Simulator for the GE 90 Engine," under the direction of the Aeronautical and Astronautical Laboratory for the period November 15, 1989 through June 30, 1991. (312524, Ext. 4)

$5,000.00 - additional funding from Edison Materials Technology Center of Kettering, OH for "Fractography Atlas for Cast Aluminum and Ferrous Components," under the direction of Materials Science and Engineering for the period October 1, 1988 through October 1, 1991. (312483, Ext. 2)

($28,000.00) - reduction in funding from the Edison Welding Institute of Columbus, OH on 11 projects in various departments in the College of Engineering.

TOTAL - INDUSTRY AND OTHER SPONSORED RESEARCH $339,872.00

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Establishment of Named Funds

The Hazel Hensel Memorial Distinguished/Medalist/University Scholarship Fund

The Hazel Hensel Memorial Distinguished/Medalist/University Scholarship Fund was established June 7, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the estate of Hazel Hensel, Canton, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.
June 7, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Establishment of Named Funds (contd)

The Hazel Hensel Memorial Distinguished/Medalist/University Scholarship Fund (contd)

The annual income shall be used to provide one or more undergraduate merit scholarships for Distinguished Scholars, Medalist Scholars, and/or University Scholars. This merit scholarship initiative is the result of recommendations from the 1990 University Task Force on Undergraduate Recruitment and the 1990-1991 Undergraduate Recruitment Implementation Steering Committee to the Senior Vice President for Academic Affairs and Provost. Students shall be selected based upon the criteria sanctioned by the Senior Vice President for Academic Affairs and Provost and administered by the University Honors Center in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Le Evelyn and Robert C. Kintner Chemical Engineering Fund

The Le Evelyn and Robert C. Kintner Chemical Engineering Fund was established June 7, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the estate of Le Evelyn Kintner, widow of Robert C. Kintner (B.Ch.E. '23; M.S., Chemical Engineering, '29; Ph.D., Chemical Engineering, '31).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to encourage and to support outstanding research by the faculty of the Department of Chemical Engineering. The chairperson of the Department of Chemical Engineering will have sole authority to authorize expenditures from the income, as approved by the Dean of the College of Engineering. Any unused annual income from the fund shall be returned to principal.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.
Establishment of Named Funds (contd)

The Jack C. and Charlotte D. Smith Scholarship Fund

The Jack C. and Charlotte D. Smith Scholarship Fund was established June 7, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Charlotte D. Smith, in memory of Jack C. Smith (B.S.E.P. '35; M.S., Physics, '36) of Chevy Chase, Maryland.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide merit scholarships in the Department of Physics. Awards shall be made on a competitive basis and candidates will be evaluated by a Department of Physics review board within the College of Mathematical and Physical Sciences. Award recipients shall be selected in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Yocum Family Scholarship Fund

The Yocum Family Scholarship Fund was established June 7, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the estates of James C. Yocum (B.S.Bus.Adm. '30; M.A., Business Administration, '32) and Ruthe C. Yocum, of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more scholarship award(s) to students entering or attending The Ohio State University, including its regional campuses and technical institute, from Washington High School, Massillon, Ohio. Selection of the award recipients shall be made by the University Committee on Student Financial Aid at The Ohio State University in conjunction with Washington High School. All freshman awards shall be based upon ability and potential as evidenced by either performance on proficiency tests or class rank and high school grade point average. Awards may be renewed based upon satisfactory academic progress.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.
Establishment of Named Funds (contd)

The Francis B. McCormick Professorship Fund

The Francis B. McCormick Professorship Fund was established June 7, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the estate of Francis B. McCormick (B.S.Agr. '39; M.S., Agricultural Economics, '47; Ph.D., Agricultural Economics, '53), former associate chairman, Department of Agricultural Economics and Rural Sociology.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be reinvested in the principal until the principal reaches $250,000. At that time, the Francis B. McCormick Professorship in Agricultural Marketing and Policy will be established. The annual income thereafter shall be used to support a distinguished professor in agricultural marketing and policy.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Starling Ohio Women's Club Scholarship Fund

The Starling Ohio Women's Club Scholarship Fund was established June 7, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Starling Ohio Women's Club Loan Fund and the Starling Ohio Women's Club.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide scholarships to be divided equally between students in the Colleges of Dentistry and Medicine. The income shall be used in the following manner between the Colleges of Dentistry and Medicine: Those students who are ranked in the upper twenty percent (20%) of their class, who are Ohio residents, and who exhibit some degree of financial need are eligible. Any unused income should be returned to the principal at the end of each year in order to promote the growth of this endowment. Selection of the award recipients shall be made by the Colleges of Dentistry and Medicine in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

1277
Establishment of Named Funds (contd)

The George N. Motts Memorial University Scholarship Fund

The George N. Motts Memorial University Scholarship Fund was established June 7, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the estate of George N. Motts (B.S.Agr. '27) of East Lansing, Michigan.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more undergraduate merit scholarships for George N. Motts University Scholars. This merit scholarship initiative is the result of recommendations from the 1990 University Task Force on Undergraduate Recruitment and the 1990-1991 Undergraduate Recruitment Implementation Steering Committee to the Senior Vice President for Academic Affairs and Provost. Students shall be selected based upon the criteria sanctioned by the Senior Vice President for Academic Affairs and Provost and administered by the University Honors Center in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson or program administrative officer in order to carry out the desire of the donor.

The Louis P. Benua Memorial Scholarship Fund in Engineering

The Louis P. Benua Memorial Scholarship Fund in Engineering was established June 7, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from friends and family of Louis P. Benua of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The fund is designed to commemorate the life and career of Louis P. Benua. The annual income shall be used to encourage academically superior students to pursue careers in manufacturing. Scholarships shall be awarded to one or more Industrial and Systems Engineering students with preference extended to graduates from any high school in Franklin County (Ohio). Louis P. Benua Scholars will be named annually, but may be eligible to compete for renewed awards. Selection will be made by the Chairperson of the Department of Industrial and Systems Engineering in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.
June 7, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Establishment of Named Funds (contd)

The Robert J. Watkins Scholarship Fund

The Robert J. Watkins Scholarship Fund was established June 7, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the family, friends, and colleagues of Robert J. Watkins (B.A., Arts and Sciences, '51; J.D., Law, '53) of Cincinnati, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide financial assistance to one or more students with demonstrated financial need who are enrolled in the College of Law, with first preference being given to law students who graduated from a high school located in Hamilton County in the State of Ohio. The award recipient(s) shall be chosen by the Dean of the College of Law, or his/her designee, in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The William J. Brakel Endowed Scholarship Fund in Dairy Science

The William J. Brakel Endowed Scholarship Fund in Dairy Science was established June 7, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from faculty, staff, colleagues, former students and friends of Dr. Brakel (M.S., Animal Science, '41; Ph.D., Biological Sciences, '54; and Professor Emeritus of Dairy Science).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support one or more scholarship awards to outstanding Dairy Science students each year. Recipients shall be selected by the Department of Dairy Science Scholarship Committee in consultation with the University Committee on Student Financial Aid. Expenditure of all funds shall have the approval of the chairperson of the Department of Dairy Science.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.
June 7, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Establishment of Named Funds (contd)

The Thomas A. Wilson Research and Education Program Fund in Agricultural Economics

The Thomas A. Wilson Research and Education Program Fund in Agricultural Economics was established June 7, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from dairy organizations in Ohio and from the many friends of the late Thomas A. Wilson (B.S. Dairy Tech. '55; M.S., Agricultural Economics, '57).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support key academic activities in the Department of Agricultural Economics and Rural Sociology, including seminar and workshop programs, visiting academicians, professional projects of graduate and undergraduate student groups, and student and faculty recruitment. In instances where a fund allocation decision must be made, preference should be given to activities that are dairy related. Final approval shall be determined by the chairperson of the Department of Agricultural Economics and Rural Sociology.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

--0--

HOSPITALS BOARD COMMITTEE REPORT

Mr. Celeste:

Mr. Barone and I were given an early and most appreciated introduction to the Hospitals Board activity when we attended two committee meetings. First, the Administrative/Operations Committee met in a special session on May 16 for an indepth review of University Hospitals' proposed 1991-92 operating budget and capital budget. After detailed review, the Committee voted unanimously to endorse the budgets and recommend their approval by the full Hospitals Board.

Also on May 16, the Strategic Planning Committee met. Dr. Kathryn Clausen updated the Committee on the College of Medicine's strategic planning activities, and Mr. Richard Schrock discussed development of the Hospitals' Strategic Financial Plan. Ms. Cathy Bruno presented a very thorough analysis of the Neuroscience program with regard to market position, teaching and research. The next steps in determining the Neuroscience strategy will be to analyze the program's competitive position, outpatient data, teaching and research components, and cost and profitability. Mr. Fraley reported on five specific areas in which University Hospitals is responding to community needs.
June 7, 1991 meeting, Board of Trustees

HOSPITALS BOARD COMMITTEE REPORT (contd)

Mr. Celeste: (contd)

The full Hospitals Board met on May 30 in a very productive session. Following the committee reports, Dr. Smead discussed medical staff issues and reported the results of the medical staff election of officers. Dr. Tzagournis informed Board members about several special reviews which will come forward to the Board through the Professional Affairs/Education/Research Committee. Dr. Seth Kantor discussed educational activities in the Hospitals, highlighting the MEDPATH program, which had earlier been presented to a committee here of our Board, designed to strengthen academic background and skills for non-science majors, students needing special preparation, or older students seeking a medical education. One of the aims of the program is to increase the number of underrepresented minority group members accepted into medical school.

Mr. Fraley reported that combined patient activity in University Hospitals and the Cancer Hospital was very favorable in the month of April. University Hospitals' average length of stay was 6.4 days, the lowest in recent memory. Days in accounts receivable were reduced to 93, versus 100 days at the end of the last fiscal year and a target of 90 for this year.

The Board reviewed the proposed operating budget and capital budget in detail, and voted unanimously to approve both budgets as recommended by the Administrative/Operations Committee. As chairman of the Nominating Committee, Mr. Teaford recommended the appointments and reappointments to the Board that will be presented later in our meeting today. Nominations will be sought for one remaining vacancy and another to open after June, when Ms. Dolores Wilkes leaves Ohio to accept a career opportunity in Idaho. Ms. Susan Insley and Mr. Jack Havens were nominated and unanimously elected as Chair and Vice Chair of the Board, respectively.

That concludes my report, Mr. Chairman.

--0--

CANCER HOSPITAL REPORT

Mr. Barone:

Mr. Chairman, as of April 30, 1991, the year-to-date statistics for the Cancer Hospital showed admissions of 2,520, compared to a budget of 2,364. The average daily census year-to-date has been 67.7 patients, at an average length of stay of 8 days. Cash receipts year-to-date have improved and currently are running $15,009,000 against a budget of $18,943,000. Statistics over the past few months continue to improve and indicate a positive trend in operations. In April, total patient revenue was $5.5 million, compared to a budget of $3.8 million, and the actual net income (loss) was $341,000.00 compared to a budgeted $558,000.00 (loss). Additionally, the average daily census was 85.2 against a budget of 77.4.
June 7, 1991 meeting, Board of Trustees

CANCER HOSPITAL REPORT (contd)

Mr. Barone: (contd)

Over the past few months, the James Cancer Hospital has continued to make progress on both the strategic and financial five-year plans and should conclude that process no later than October 9, 1991. The 1991 fiscal year budget planning process is complete and the budget package is now ready for presentation to the Board of Trustees. The Cancer Hospital will show a rate increase approximately equal to that of University Hospitals. The originally projected loss for the second operational year of approximately $3.8 million is anticipated in this budget.

Along with that I present to you, Mr. Chairman, and the Secretary of the Board of Trustees, a Consolidated Statement of Revenue and Expense and if the Board Members wish to examine them, I have them on file here.

That completes my report, Mr. Chairman.

--0--

ACADEMIC AFFAIRS COMMITTEE REPORT

Ms. Casto:

The Academic Affairs Committee heard a report today from Associate Provost Boyne on the 1991-92 University-wide Promotion and Tenure recommendations. This year colleges recommended to the Provost tenure/promotion for 170 members. A complete dossier was presented for each of these individuals for a review that has been completed by the Provost's Promotion and Tenure Advisory Committee on 167 cases. The Committee recommended favorably on 144 or 86 percent of these cases. The Provost, following further consultation with Deans, recommended that 150 or 90 percent be approved and these recommendations now have been forwarded to the Board of Trustees with the concurrence of President Gee.

The Promotion and Tenure recommendations that come to the Provost have already gone through careful assessment at both the departmental and college level. Every dossier that was fully developed must be reviewed at a minimum of two levels. A total of 209 cases were fully developed for review at the lowest academic level. This means that this year 150 cases recommended for approval to the Board of Trustees represents favorable action on 71.7 percent of all cases that were fully developed.

We wanted to discuss recruiting, but we ran out of time. So we have postponed the process of recruiting until the next meeting or another time.

In addition, the Committee is recommending to the Board of Trustees the following resolutions:

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY
Resolution No. 91-130

Synopsis: The Academic Affairs Committee recommended the approval of amendments to the Rules of the University Faculty.
AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the Rules of the University Faculty as approved by the University Senate; and

WHEREAS the proposed changes in the Rules of the University Faculty were approved by the University Senate on May 4, 1991, as follows:

3335-5-29 Membership.

The regular members of the graduate faculty shall consist of those members of the university faculty who are approved by the policy and standards committee of the council on research and graduate studies. Ex officio members of the graduate faculty are the senior vice president for academic affairs and provost, the vice president for research, the dean of the graduate school, the deans of the colleges, and the director of libraries.

3335-5-30 Powers and functions.

The graduate faculty shall have the following general powers and functions:

(A) To elect all voting faculty members of the council on research and graduate studies in the manner prescribed by rule 3335-5-34 of the Administrative Code.

(B) To initiate and to act upon any question affecting the policies of the graduate school or to request consideration and action by the council on research and graduate studies.

(C) To approve, modify, or reverse any action of the council on research and graduate studies.

(D) To receive the annual report of the dean of the graduate school and such other reports as the dean shall submit.

(E) To perform the functions approved by the council on research and graduate studies.

3335-5-32 Council on research and graduate studies.

There shall be established a council on research and graduate studies (also called research and graduate council) with the following powers and subject to the following limitations in rules 3335-5-33 to 3335-5-36 of the Administrative Code.

3335-5-33 Membership.

There shall be a council on research and graduate studies constituted as follows:

(A) Chief administrative officer. The senior vice president for academic affairs and provost shall serve as the chief administrative officer.

(B) through (F) unchanged.

(G) The vice president for research is an ex officio member of the council.

(H) The chairperson of the research committee is an ex officio member of the council if not already a member.
June 7, 1991 meeting, Board of Trustees

**AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)**

3335-5-34 Election of faculty members.

(A) Unchanged.

(B) Elections shall be administered and supervised by a council on research and graduate studies elections committee which shall be composed each year of the ten area members then retiring. This committee shall have power to make final rules on all matters not specifically covered by these rules. Elections shall be held in the spring quarter of each year for terms beginning with the following autumn quarter.

There shall be a council nominating committee in each area. The chairperson shall be the retiring member of the council representing that area. Members shall be the continuing members representing that area and the chairperson of the graduate studies committee for each graduate program in that area. In the absence of a graduate studies committee, the department chairperson or designee shall serve. The committee shall make a minimum of four nominations, including nominations received by petition from any six or more members of the graduate faculty of the area concerned. The elections committee shall prepare and mail the election ballot to each member of the graduate faculty. The election ballots shall be counted by that committee. The person or persons receiving the highest number of votes shall be elected to the vacancy or vacancies existing at the time of election. The person receiving the next highest number of votes shall be an alternate member for a term of two years.

3335-5-35 Powers and functions.

The council on research and graduate studies shall be the principal legislative body of the graduate school and, subject to modification or reversal by the graduate faculty, shall have the following powers and functions:

(A) through (D) unchanged.

(E) To encourage and stimulate scholarly research and creative activity and foster the close relationship between graduate education and scholarly research.

(F) To make recommendations about establishing, affiliating, and abolishing academic centers and other comparable organizations that are engaged in research or graduate education and make recommendations for determining the membership and authorities of their boards or governing bodies.

(G) and (H) unchanged.

(I) To nominate members to the board of the Ohio state university research foundation.

3335-5-36 Committees.

(A) There shall be five standing committees: executive, curriculum, policy and standards, research, and graduate associate and fellowship. The dean of the graduate school will serve as chairperson of the executive committee. The other committees will be chaired by a faculty member of the committee.
AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

(B) The executive committee shall consist of the chairpersons of the other four standing committees, the president of the council of graduate students and the dean of the graduate school. The curriculum, graduate associate and fellowship, policy and standards, and research committees shall each consist of ten faculty members of the council on research and graduate studies, one from each graduate area, and three graduate students, all of whom are members of the council. The research committee shall also include:

(1) Six regular faculty elected by the faculty council. Of these six, one member must serve on a regional campus and no more than one member may be from any individual college.

(2) One research scientist or comparable staff member engaged in research appointed by the vice president for research and ratified by the steering committee. The term of service is one year and the member may be reappointed for a maximum of three years.

(3) One postdoctoral scholar appointed by the dean of the graduate school and ratified by the steering committee. The term of service is one year and the member may be reappointed for a maximum of three years.

(4) One professional student appointed by the inter-professional council.

(5) One undergraduate student appointed by the undergraduate student government.

(6) Three administrators, ex officio, non-voting.

(a) The vice president for research.

(b) The dean of the graduate school.

(c) The executive director of the Ohio state research foundation.

(C) Specific responsibilities, in addition to those assigned by the council on research and graduate studies, the vice president for research, the dean of the graduate school, and in case of the research committee the university senate (see 3335-5-4814), are as follows:

(1) The curriculum committee considers and acts on courses carrying graduate credit and considers and recommends to the council action on graduate degree programs.

(2) The executive committee monitors graduate council and committee activities, determines the agenda for the council, assigns issues for consideration by the other standing committees, serves as a coordinating body for council activities, and acts in the interim when council is not in session and action is required.

(3) The policy and standards committee considers and recommends to the council policies and rules related to graduate education and acts on graduate faculty nominations and student petitions.
AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

(4) The research committee, also a standing committee of the university senate, considers and recommends to the council, and where appropriate to the university senate, policies and rules related to research, and serves as an advisory committee to the vice president for research. The committee reviews current policies, initiates recommendations for change, and reviews proposed changes in practices and policies governing the conduct of research and scholarly activity including, but not limited to, policies required by the federal government, internal policies related to grants and contracts administration, policies related to the allocation of internal funds to research activities, and policies related to academic centers that are engaged in research. Recommendations will be forwarded to appropriate persons, offices, or bodies.

(5) The graduate associate and fellowship committee considers and recommends to the council policies and rules related to graduate associates and fellows.

3335-5-4814 Research committee.

(A) Membership.

The research committee shall consist of twenty-six members.

(1) Sixteen faculty.

(a) Ten regular faculty to be determined by the established procedures of the council on research and graduate studies. Faculty must be members of the council on research and graduate studies and represent the ten areas of the graduate school. The term of service is two years.

(b) Six regular faculty elected by the faculty council. Of these six, one member must serve on a regional campus and no more than one member may be from any individual college. The term of service is three years.

(2) One research scientist, or comparable staff member engaged in research, appointed by the vice president for research and ratified by the steering committee. The term of service is one year and the member may be reappointed for a maximum of three years.

(3) One postdoctoral scholar appointed by the dean of the graduate school and ratified by the steering committee. The term of service is one year and the member may be reappointed for a maximum of three years.

(4) Five students.

(a) Three graduate students appointed by the council of graduate students. The term of service is one year.

(b) One professional student appointed by the inter-professional council. The term of service is one year.

(c) One undergraduate student appointed by the undergraduate student government. The term of service is one year.
AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

(5) Three administrators, ex officio, non-voting.
   (a) The vice president for research.
   (b) The dean of the graduate school.
   (c) The executive director of the Ohio state research foundation.

(B) Duties and responsibilities.

(1) Encourage and stimulate scholarly research and creative activity and foster a close relationship between education and scholarly research.

(2) Review current policies, initiate recommendations for change, and review proposed changes in practices and policies governing the conduct of research and scholarly activity including, but not limited to, policies required by the federal government, internal policies related to grants and contracts administration, policies related to the allocation of internal funds to research activities, and policies related to academic centers that are engaged in research. Recommendations will be forwarded to appropriate persons, offices, and/or bodies.

(3) Serve as an advisory committee to the vice president for research.

(4) Make recommendations to the council on research and graduate studies about establishing, affiliating, or abolishing academic centers and other comparable organizations that are engaged in research and make recommendations for determining the membership or authorities of their boards or governing bodies.

(C) Organization.

(1) The committee shall serve as the research committee of the university senate and the council on research and graduate studies and shall report to both bodies. Recommendations requiring formal action will be submitted to the university senate and/or the council on research and graduate studies, as appropriate.

(2) The chairperson shall be elected each year by the committee from among its faculty members. The chair will be an ex officio member of the council on research and graduate studies if not already a member, and shall serve on the executive committee of the research and graduate council.

(3) As a standing committee of the council on research and graduate studies, this committee is also governed by the provisions of rules 3335-5-35 and 3335-5-36 of the Administrative Code.

(4) As a standing committee of the senate, this committee is also governed by the provisions of rules 3335-5-46 and 3335-5-48 of the Administrative Code.
June 7, 1991 meeting, Board of Trustees

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the Rules of the University Faculty be adopted as recommended by the University Senate.

Upon motion of Ms. Casto, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

UNIVERSITY HOSPITALS BOARD APPOINTMENTS/REAPPOINTMENTS
Resolution No. 91-131

Synopsis: The Academic Affairs Committee recommended approval of appointments/reappointments of four Hospitals Board members.

WHEREAS the Board of Trustees on November 30, 1979, approved the establishment of a University Hospitals Board; and

WHEREAS the membership of the Hospitals Board was approved on April 4, 1980, and has been subsequently amended; and

WHEREAS the terms of four of the members selected from the general public have expired:

NOW THEREFORE

BE IT RESOLVED, That the following general public members be appointed/reappointed to the University Hospitals Board, effective as noted:

Appointments

   David Lauer - May 1, 1991, through April 30, 1994
   Donald Day - May 1, 1991, through April 30, 1994

Reappointments

   Judy Barker - July 1, 1991, through June 30, 1994 (second three-year term)
   William M. Bennett - July 1, 1991, through June 30, 1994 (second three-year term)

Upon motion of Mr. Barone, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Mr. Teaford:

I would just like to call attention to who these people are: David Lauer is the managing partner of Deloitte & Touche; Donald Day is the Secretary/Treasurer of the AFL-CIO of Ohio; those are the two new appointments. Judy Barker is in charge of the foundation programs of the Borden, Corporation; and William Bennett is President of Banc One. These people really provide marvelous service to this University and we are very fortunate to have them. I might also say, as the person who asked them, they are delighted to serve this University.

--0--
June 7, 1991 meeting, Board of Trustees

PERSONNEL ACTIONS

Resolution No. 91-132

RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the May 3, 1991 meeting of the Board, including the following Appointments, Appointment of Chairpersons of Departments and Division and Director of School, Reappointment of Chairpersons of Departments and Directors of Center, Institute, and School, Leaves of Absence Without Salary, Leaves of Absence Without Salary--Change in Dates, Professional Improvement Leaves--Cancellation, Professional Improvement Leave--Change in Dates, Promotions/Tenure, Emeritus Titles, and Medical Staff Appointments (The Arthur G. James Cancer Hospital and Research Institute) as detailed in the University Budget be approved.

Appointments

Name: HENRY W. FIELDS, JR.
Title: Dean and Professor
College: Dentistry
Effective: September 1, 1991
Salary: $120,000.00
Present Position: Assistant Dean for Academic Affairs, School of Dentistry, University of North Carolina at Chapel Hill

Name: VIOLET I. MEEK
Title: Acting Dean/Director
Regional Campus: Lima
Effective: May 15, 1991
Salary: $80,040.00
Present Position: Sponsored Program Development Officer 3, Research Foundation

Appointment of Chairpersons of Departments and Division and Director of School

July 1, 1991 through September 30, 1995

School of Journalism

Pamela J. Shoemaker

October 1, 1991 through September 30, 1995

Division of Comparative Studies in the Humanities

Sabra J. Webber

French and Italian

Charles G. S. Williams

German

Mark W. Roche

Reappointment of Chairpersons of Departments and Directors of Center, Institute, and School

July 1, 1991 through December 31, 1991

Agricultural Technical Institute

Dan D. Garrison

School of Music

Donald Harris*
June 7, 1991 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Reappointment of Chairpersons of Departments and Directors of Center, Institute, and School (contd)

July 1, 1991 through June 30, 1995

- Agricultural Engineering: Robert J. Gustafson
- Art Education: Michael J. Parsons
- Center for Teaching Excellence: Anne S. Pruitt
- Dance: Vera J. Blaine
- Obstetrics and Gynecology: Steven G. Gabbe
- Surgery: Olga Jonasson

October 1, 1991 through September 30, 1993

- Linguistics: Brian D. Joseph

October 1, 1991 through September 30, 1995

- English: Morris Beja

*Acting Director

Leaves of Absence Without Salary

JENNIFER L. ROJKO, Associate Professor, Department of Veterinary Pathobiology, effective June 1, 1991, through December 31, 1991, for personal reasons.

RAKESH V. VOHRA, Assistant Professor, Academic Faculty of Management Sciences, effective Spring Quarter 1991, to accept an invitation from the graduate school of business at the University of Chicago.

THOMAS A. SHockey, Assistant Professor, Cooperative Extension Service, effective May 20, 1991, through May 19, 1992, for personal reasons.

Leaves of Absence Without Salary--Change in Dates

ERNEST L. MAZZAFFERRI, Chairperson and Professor, Department of Internal Medicine, change leave from December 8, 1990, through April 15, 1991, to December 8, 1990, through April 24, 1991.

MARTIN LUBOW, Associate Professor, Department of Ophthalmology, change leave from December 6, 1990, through June 3, 1991, to December 6, 1990, through April 24, 1991.

Professional Improvement Leaves--Cancellation

JOSEPH HAVLICEK, JR., Professor, Department of Agricultural Economics and Rural Sociology, effective July 1, 1991, through June 30, 1992.

(JASON) TIN-LUN HO, Associate Professor, Department of Physics, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.
June 7, 1991 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Professional Improvement Leaves--Cancellation (contd)

ICHIKO T. MORITA, Associate Professor, University Libraries, effective May 1, 1991, through July 31, 1991.

Professional Improvement Leave--Change in Dates

Promotions and Tenure

COLLEGE OF AGRICULTURE

PROMOTION TO PROFESSOR

Rosanne W. Fortner, Natural Resources, Approved - 7/1/91
Laurence V. Madden, Plant Pathology, Approved - 7/1/91

RESOLUTIONS IN MEMORIAM

Resolution No. 91-133

Synopsis: The Academic Affairs Committee recommended the approval of Resolutions in Memoriam for William H. Havener, June F. Kennedy, Chester I. Randles, Robert M. Ryan, Everett M. Schreck, and Harold C. Trimble.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

William H. Havener

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 7, 1991, of William H. Havener, M.D., Professor and former Chairperson, Department of Ophthalmology.

Dr. Havener was born on June 2, 1924, in Chillicothe, Ohio. He earned a bachelor's degree in 1944 from The College of Wooster, a medical degree in 1948 from Western Reserve University, and a master's degree at University Hospitals of Cleveland in 1950. He took postgraduate courses in ophthalmology at Harvard University, then served his residency at the University of Michigan.

Dr. Havener joined the Department of Ophthalmology at The Ohio State University in the College of Medicine in 1954. He served as Chairperson of the department from 1959 to 1961 and again from 1972 to 1988.

Dr. Havener was respected by students and peers as an outstanding educator and received numerous awards during his career, including "Professor of the Year" recognition by the medical class of 1978; "Preclinical Professor of the Year" in 1979, and teaching awards from the classes of 1980, 1989 and 1991. He also received a Faculty Teaching Award from the College of Medicine in 1987.

In June 1990, he was named the recipient of the Ohio Ophthalmological Society's "Excellence in Ophthalmology" Award.
RESOLUTIONS IN MEMORIAM (contd)

William H. Havener (contd)

In 1989, friends and colleagues of Dr. Havener established the William H. Havener Chair in Ophthalmology. The purpose of the fund is to provide support for a distinguished scholar in ophthalmology.

Dr. Havener was a prolific writer and authored 14 books and more than 190 articles in medical journals. Three of his books have become primary reference sources for ophthalmologists, including the internationally excepted book, Ocular Pharmacology.

Dr. Havener was active in many civic and community organizations. He was instrumental in achieving a smoke-free medical complex and he was working towards a smoke-free campus. He was on the board of directors of Mothers Against Drunk Drivers and he was an advocate of legislation for stricter drunk driving laws.

On behalf of the University community, the Board of Trustees expresses to the family and friends of Dr. Havener its deepest sympathy. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

June F. Kennedy

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 4, 1991, of June F. Kennedy, Professor Emeritus in the Department of Human Nutrition and Food Management.

Professor Kennedy was born in New Point, Missouri, on June 17, 1890. She attended Missouri State University in Columbia from 1909 through 1917 where she received both her B.S. and M.A. degrees. Both degrees were in Food Science and Nutrition. Professor Kennedy taught at Hannibal High School and several universities in Missouri from 1913-1917. She then taught from 1917-1920 at the College of Industrial Arts in Denton, Texas.

Professor Kennedy began teaching at The Ohio State University in the Autumn of 1920 as an Assistant Professor and Head of the Institution Management and Dietetics program. She was also to develop the Campbell Hall Cafeteria. When Pomerene Hall was built, the Refectory was assigned to Home Economics as a laboratory for institution management students. Professor Kennedy was on a part-time Assistant Professor appointment in 1934 to help provide management leadership for this work regarding the Refectory. During World War II she supervised dining halls in the South campus dorms. After twenty-five years of service as chairperson of the Institutional Management Division, Professor Kennedy was hired full-time in 1946 to become the first head of the University Food Services Area. In addition, she taught upper level courses for the division of Institutional Management in the School of Home Economics. Professor Kennedy remained in these positions with the University until her retirement in 1959.

The Board of Trustees named the Women's Commons, 251 West 12 Avenue, The June F. Kennedy Commons on April 1, 1983, to honor the leadership and dedication provided by Professor Kennedy during her many years at The Ohio State University.

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to the family of Professor Kennedy. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.
RESOLUTIONS IN MEMORIAM (contd)

Chester I. Randles

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 8, 1991, of Chester I. Randles, Professor Emeritus in the Department of Microbiology.

Chester I. Randles was born September 14, 1918, in Painsville, Ohio. He received a Bachelor of Science degree from Kent State University in 1942. He served in the Army and Navy from 1944-46, at Camp Dietrich and at the Naval Medical Reserve Unit No. 1 in Berkeley, California. He was a teaching assistant and University Fellow at The Ohio State University from 1942-44 and again from 1946-47. He received his Ph.D. in microbiology from Ohio State in 1947.

He was an assistant professor of microbiology at Rutgers University from 1947-49 before coming to Ohio State as an assistant professor in 1949. He was later promoted to associate professor and then Professor in 1959. Professor Randles retired in 1984 but continued to teach one course a year until 1987.

Professor Randles conducted research in the areas of microbial physiology and aquatic ecology with special emphasis on acid-mine drainage and bacteria in Lake Erie. He did early studies on the role of microorganisms in acid mine waste and taught aquatic microbiology for many summers at the Franz Stone Laboratory on Lake Erie.

Professor Randles was a member of Sigma Xi, the Ohio Branch of the American Society for Microbiology, and the American Association for The Advancement of Science.

Alumni, faculty, and friends of the Department of Microbiology established a scholarship fund in Professor Randles honor in 1984. The fund benefits graduate students in that department in the final year of their Ph.D. program.

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to his family and friends. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees as an expression of the Board’s heartfelt sympathy.

Robert M. Ryan

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 15, 1991, of Robert M. Ryan, Professor Emeritus in the College of Social Work.

Dr. Ryan received his Bachelor of Arts in Social Science in 1959 from Eastern Kentucky University, a Masters degree in Social Work in 1965 from the University of Tennessee and a Doctorate in Social Work from the University of Denver in 1972. Following a teaching appointment at Western Kentucky University, Dr. Ryan joined the faculty of The Ohio State University College of Social Work. Dr. Ryan remained a faculty member until his retirement in 1990.

Dr. Ryan distinguished himself as a teacher, researcher and consultant during his career at Ohio State. He was responsible for teaching courses in the areas of social administration, management information systems, and macro level practice. For several years he chaired the Policy and Planning teaching unit of the College and served with distinction as chair of the College Curriculum Committee. His textbook Social Workers At Work has been a standard in the profession for many years.
June 7, 1991 meeting, Board of Trustees

RESOLUTIONS IN MEMORIAM (contd)

Robert M. Ryan (contd)

Dr. Ryan was particularly active as an educational consultant to baccalaureate programs. He helped several institutions to design and implement their undergraduate majors in social work. He was a very active participating member of the "Shamrock Club" and deeply involved and committed to all things Irish.

On behalf of the University, the Board of Trustees expresses to the family its deepest sympathy and sense of understanding in their loss. It was directed that his resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Everett Morrill Schreck

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 20, 1991, of Everett Morrill Schreck, Associate Professor Emeritus in the Department of Theatre.

Dr. Schreck was born in Washington, Kansas, on September 3, 1897. He received his undergraduate education at Kansas Wesleyan University, where he earned his B.S. degree in 1923. He subsequently received an M.S. from Kansas State College in 1925, an M.F.A. from Yale University in 1932, and a Ph.D. from Cornell University in 1942.

Dr. Schreck was named Assistant Professor at the University of South Dakota in 1932, a post he held until 1938. He later served, from 1938-1946, as Associate Professor at Iowa State College. Dr. Schreck came to The Ohio State University in the autumn of 1946, and was named Associate Professor Emeritus upon his retirement in June of 1967.

Dr. Schreck was particularly active as a theatre practitioner during his tenure at Ohio State, directing and acting in numerous productions. His staging of The Male Animal, by Elliott Nugent and Ohio State Alumnus James Thurber, marked the occasion of the Stadium Theatre's inauguration in 1950.

On behalf of the University, the Board of Trustees expresses to the family of Everett Schreck its deepest sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to family members as an expression of the Board's heartfelt sympathy.

Harold C. Trimble

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 24, 1991, of Harold "Bud" Callander Trimble, Professor Emeritus in the Department of Educational Theory and Practice.

Professor Trimble was born March 6, 1914. Matriculating with Gold Medal Honors in Mathematics at the University of Western Ontario in 1935, he progressed on through the M.A. (1937) and Ph.D. (1939) in Mathematics at the University of Wisconsin. Postdoctoral studies in evaluation at the University of Chicago served him well as a research associate for the Evaluation Staff of the Eight Year Study of the Progressive Education Association. He served as a professor in mathematics at the University of Northern Iowa and then served as chair from 1958 to 1963. His service in Iowa was interrupted from 1947-1951 when he served in the Department of Mathematics at Florida State University.
June 7, 1991 meeting, Board of Trustees

RESOLUTIONS IN MEMORIAM (contd)

Harold C. Trimble (contd)

Dr. Trimble was affiliated with The Ohio State University as professor of mathematics education in the Department of Educational Theory and Practice from 1963 until his retirement in 1981. He taught the full range of courses in mathematics education over the years at both undergraduate and graduate levels. He authored textbooks in mathematics for students at the university and school levels.

Noted as an excellent teacher, Professor Trimble brought a powerful appreciation of the power of problem solving as an enabling process in mathematics to the students and colleagues he influenced. His contributions in teaching, textbook writing, and to professional organizations earned him the respect and friendship of generations of mathematics teachers and large numbers of mathematics educators across the country.

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to the family of Professor Trimble. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Upon motion of Ms. Casto, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Mr. Teaford:

I would like to call your attention to two extraordinary people on this list, one being Dr. Havener, who was easily one of the leading authorities in this country on ophthalmology; and the other is, June Kennedy, and Kennedy Commons was named in her honor. She died recently at the age of 100.

--0--

STUDENT AFFAIRS COMMITTEE REPORT

Mr. Tonnies:

The Student Affairs Committee met this morning and heard a report from Dean Hollingsworth concerning Student Activities Funding. Student activities provide students an opportunity to develop important leadership, communications, management, and citizenship skills. Student activities contribute to the creation of a sense of community on campus. Student activities are for the most part initiated and managed by students in over 500 registered student organizations. Student groups are advised by faculty and administrative staff.

The primary source of funding for student groups is a pool of University resources allocated by the Council on Student Affairs Allocation Subcommittee. Depending on the purposes of the organization, supplemental funding is also available to groups through residence and dining halls, recreation and intramural sports, and some colleges and departments. Groups are also engaged in development activity and sales to support their own budgets.
June 7, 1991 meeting, Board of Trustees

STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Tonnies: (contd)

In the 1990-91 academic year, requests by student groups for Council on Student Affairs' funds exceeded available funds by nearly 50 percent. Supplemental sources do not make up for the shortfall in activities funds. It should also be noted that many groups do not request funds either because under the Council of Student Affairs' rules they are not eligible to receive funding, or because they are discouraged by the low funding levels resulting from the limited sources. The Office of Student Life estimates that the activities fund would need to increase from its present level of $218,000 to approximately $480,000, to provide an adequate student activities program and an increase to nearly $960,000 to provide top quality activities.

The Council on Student Affairs Planning and Coordinating Subcommittee is currently exploring options for increasing the pool of available resources. Options include increased University support, creation of a designated activities fee, and initiation of a major development effort.

The full educational benefit of involvement in campus life can not be realized until we are able to give students the resources to provide a diverse, high quality program of lectures, concerts, festivals, personal development seminars, rallies, student publications, and special events.

William H. Hall, Director of Residence and Dining Halls, presented a brief summary of the 1991-92 residence and dining halls budget and proposed rates. Despite rising costs, residence and dining halls administration has held rates to a weighted average increase of 4.9 percent, which is less than the rate of inflation. This is a summary of some of the slides that he used during his presentation, and we can make these available to the full Board.

The Committee is also recommending the following resolution:

EXPRESSION OF APPRECIATION TO BENETTA BURTON
Resolution No. 91-134

Synopsis: The approval of the following Expression of Appreciation for Benetta Burton is proposed.

WHEREAS Benetta Burton has served as President of the Council of Graduate Students during the past year; and

WHEREAS she has performed in an exemplary manner in meeting the goals and objectives of her position; and

WHEREAS Benetta has demonstrated a great sensitivity and understanding regarding matters of special interest and concern to graduate students and has worked diligently in bringing those matters to the attention of the Board; and

WHEREAS her resolve, dedication, and support of this University has been exercised in innumerable ways over the past year:

NOW THEREFORE
EXPRESSION OF APPRECIATION TO BENETTA BURTON (contd)

BE IT RESOLVED, That this Board expresses to Benetta Burton their thanks and appreciation for her outstanding leadership and service to The Ohio State University, and wishes her happiness, good health, and continued success in the future.

Upon motion of Mr. Tonnies, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Mr. Teaford:

I would like to add a personal comment about Ms. Burton because I have seen eight years of leaders of the Council on Graduate Students and I think that you are easily the premier person who has held that office in that period. And I congratulate you for that.

Mr. Tonnies:

I have one final thing and it is just to remind the Board that we are experimenting with something new this year in Student Affairs. The three student governments will not report to the Board through the subcommittee on a monthly basis. What they will do is submit the report in writing and we will distribute that to all of the Board members, so those who are not at the meeting can see what is going on on a monthly basis. This is going to free up some time that we can better use to discuss important topics in the Student Affairs Committee.

Mr. Teaford:

It also gives us a chance for the student presidents to communicate with all of us, because we will all get copies rather than simply the Committee.

Mr. Tonnies:

That concludes my report.

WAIVERS OF COMPETITIVE BIDDING REQUIREMENTS
January - March 1991
Resolution No. 91-135

Synopsis: The Fiscal Affairs Committee recommended the acceptance of the quarterly report on waivers of competitive bidding requirements.

WHEREAS the Purchasing Policy of The Ohio State University, adopted by the Board of Trustees on September 7, 1984, provides that the President and/or the Vice President of Business and Administration may grant a waiver from competitive bidding in the event of an emergency, when a sufficient economic reason exists, or when the goods or services can be purchased from only a single source, with a report on such waivers to be made quarterly to this Board; and

WHEREAS the Acting Vice President for Business and Administration has submitted a report on waivers of competitive bidding requirements granted for the period of January-March 1991:
NOW THEREFORE

BE IT RESOLVED, That the report on waivers of competitive bidding requirements for the period of January-March 1991, is hereby accepted.

Upon motion of Mr. Kessler, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXXX for chart on Waivers of Competitive Bidding Requirements - January - March 1991, page 1335.)

--0--

FISCAL AFFAIRS COMMITTEE REPORT

Mr. Shumate:

Even though the Fiscal Affairs Committee did meet yesterday, we think in preparation for the votes that we should have Mr. Nichols talk about the Employment of Architects:

EMPLOYMENT OF ARCHITECTS/ENGINEERS AND REQUEST FOR CONSTRUCTION BIDS

Resolution No. 91-136

STARLING-LOVING - CONTINUING MEDICAL EDUCATION RENOVATION

Synopsis: The Fiscal Affairs Committee recommended authorization to employ architects/engineers and request construction bids for the Starling-Loving - Continuing Medical Education Renovation project.

WHEREAS the University Hospitals desires to proceed with renovation of the existing Continuing Medical Education suite located on the fourth floor of Starling-Loving Hall; and

WHEREAS the total estimated project cost is $172,000.00, and the total estimated construction cost is $131,000.00, with funding provided by the University Hospitals:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to select qualified architectural/engineering firms as necessary for this project and that the fees for these services be negotiated between the firm selected and the University; and

BE IT FURTHER RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request construction bids on this project in accordance with established State of Ohio and University procedures, and if satisfactory bids are received, to award contracts, with all actions to be reported to this Board at the appropriate time.
June 7, 1991 meeting, Board of Trustees

EMPLOYMENT OF ARCHITECTS/ENGINEERS AND REQUEST FOR CONSTRUCTION BIDS (contd)

STARLING-LOVING - CONTINUING MEDICAL EDUCATION RENOVATION (contd)

Upon motion of Mr. Shumate, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXXXI for background material, page 1337.)

--0--

Mr. Nichols:

In discussions with Mr. Shumate and Mr. Teaford, we are going to try a different format and not proceed through the list of bid projects, but at each meeting pick out certain projects to highlight for you, perhaps in a visual fashion. We want to show you one particular project in this list which involves the Morrill and Lincoln Towers Residence Halls Upgrade Treatment. [Slide presentation.]

You will recall that two years ago we started a project where we revised two floors of Morrill Tower in an experiment to try to get a new environmental living situation. Each of those suites, of which there are six per floor, had sixteen students in each suite. It was four per room in the living area, with two bunk beds each. A rather cozy environment, shall we say. That population has been actually cut in half, so now there are only two students per room. This is a before shot of one of the sleeping areas. Under the current situation, there would be a bunk bed in the corner and there would be basically two students sleeping in this room. Everything they would have with them at college would be in this particular room. Under the new environment, there has been new lighting, new surface materials have been installed, as well as ceilings. There are single beds now in the corner and it looks like a typical dorm room.

In terms of the bathroom, to give you the full flavor of all of this -- this is the existing bathroom. It has tile on the floor, older fixtures and these buildings, again, were built in 1966 and 1967. The new ones will look this way, with new lighting, brighter lighting, the tile has been replaced with a material called marlight. Showers have been upgraded as well as all of the fixture facilities. And for a college situation it is actually quite nice.

And then, finally, all eight of those students under the new configuration will have one room that is approximately 225 square feet that will be a living room type of situation. The lighting has been upgraded as well as wall coverings replaced. There is a small study, a built-in TV situation, and chairs for more of a social environment.

As you have seen on all of these projects that are in the award category, we are getting very favorable bids which is directly related to the current situation in real estate and construction industry. We are quite pleased at the bids. We are going to report to you next month on some that we have just received, assuming they go out. We have some extremely favorable bids on large projects.
June 7, 1991 meeting, Board of Trustees

REPORT OF AWARD OF CONTRACTS AND
ESTABLISHMENT OF CONTINGENCY FUNDS

Resolution No. 91-137

DENNEY HALL - RELOCATION OF ARTS AND SCIENCES HONORS PROGRAM
MECHANICAL IMPROVEMENTS (EVANS LABORATORY)
19TH AVENUE (NEIL TO COLLEGE) - ROAD RESURFACING
MCCAMPBELL HALL - NEW DIABETES ANDATHEROSCLEROSIS OUTPATIENT CLINIC
1501 NEIL AVENUE RENOVATION
DODD HALL INTERFACE, PHASE II
DODD HALL HVAC SYSTEM MODIFICATIONS, PHASE II
MORRILL AND LINCOLN TOWERS RESIDENCE HALLS UPGRADE TREATMENT - PHASE II

Synopsis: The Fiscal Affairs Committee recommended the approval of the Report of Award of Contracts and Establishment of Contingency Funds for the listed projects.

WHEREAS resolutions adopted by the Board of Trustees on May 4, 1989, December 1, 1989, and October 5, 1990, authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established State of Ohio and University procedures, and if satisfactory bids were received to recommend the award of contracts for the following projects: Denney Hall - Relocation of Arts and Sciences Honors Program, Mechanical Improvements (Evans Laboratory), 19th Avenue (Neil to College) - Road Resurfacing, and 1501 Neil Avenue Renovation; and

WHEREAS resolutions adopted by the Board of Trustees on February 1, 1991 and March 1, 1991, authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established University procedures, and if satisfactory bids were received, to award contracts for the following projects: McCampbell Hall - New Diabetes and Atherosclerosis Outpatient Clinic, Dodd Hall Interface, Phase II, Dodd Hall HVAC System Modifications, Phase II, and Morrill and Lincoln Towers Residence Halls Upgrade Treatment, Phase II:

NOW THEREFORE

BE IT RESOLVED, That pursuant to the actions previously authorized by the Board, the Report of Award of Contracts and Establishment of Contingency funds for these projects is hereby approved.

Upon motion of Mr. Shumate, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXXXII for background material and tabulation of bids, page 1339.)

--0--
PURCHASE OF REAL PROPERTY

231 WEST TENTH AVENUE
COLUMBUS, OHIO

Resolution No. 91-138

Synopsis: The Fiscal Affairs Committee recommended the approval of purchase of real property at 231 West Tenth Avenue in Columbus, Ohio.

WHEREAS The Ohio State University has been presented with an opportunity to purchase the property at 231 West Tenth Avenue in Columbus, Ohio; and

WHEREAS this property has an appraised value of $138,000.00 and the owner, Ms. Ruth Stewart of Columbus, has offered to sell the property to the University at a price of $125,550.00; and

WHEREAS this property is located within the University's Master Plan's South Campus acquisition line and the appropriate University offices have determined that the purchase of this property is in the best interest of the University; and

WHEREAS funds for the purchase will be provided from the University General Fund's land purchase account:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to purchase, in the name of the State of Ohio for the use of The Ohio State University, the improved real property located at 231 West Tenth Avenue at a price not to exceed $125,550.00, upon such terms and conditions as are deemed to be in the best interest of the University, subject to the University receiving the necessary approvals from the Ohio Board of Regents and the State Controlling Board.

Upon motion of Mr. Shumate, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXXXIII for background material and map, page 1359.)

Ms. Casto:

This is all part of that tract that we are trying to acquire.

Mr. Teaford:

Within the boundary.

Mr. Nichols:

That is right. On the locator map, if you look at it under the boundary you will see 231. Immediately to the west of the property are two lots that are currently used for parking by the University. Further down the street, the two lots that are right at the corner of Worthington and West Tenth, is the Mershon Center.
Ms. Casto:

Do we have any plans for what we are going to do with this property?

Mr. Nichols:

No. It is within the long-term acquisition boundary and as the properties become available we do purchase them.

--0--

Mr. Stoffel:

Mr. Chairman and members of the Board, I am here to talk about the Columbus Campus Preferred Pharmacy Program that we are recommending this month. First, I would like to give you a little bit of history about the University's preferred provider program and the pharmacy history so that I can lead you into why we went through this process.

As you may recall in 1985, the University developed its current preferred provider program, the University Alternative Health Plan, which is now known as the University Health Plan. In the first year of operation of that program we had no preferred pharmacies as a part of the network. About a year later we did add the University Hospitals' Clinic Pharmacy to that network, and six to seven months later we added the Student Health Center Pharmacy. At the time we added those pharmacies, our enrollment was approximately 3,500 people; it expanded to 4,500; then expanded to 6,000; and gradually expanded until our enrollment today is approximately 12,000 members in that plan. With the expansion and with 12,000 enrollees, it amounts to about 25,000 lives that we are serving. This has created a real access problem for us with just the Clinic Pharmacy and the Student Health Center Pharmacy. To compound that problem, we have so much business at the Student Health Center Pharmacy that they cannot do what they are supposed to do any longer, and that is serve students. So they are going to have to withdraw from the University's program. They wanted to do that in January, but stayed with us until we were able to make some other arrangements. They will be leaving our current network effective July 1, so they can service the students.

What we did then was to put out new bid specifications, similar to the network that we bid for the Regional Campuses about six or seven months ago. We sent specifications and proposals to about 34 pharmacy administration companies or insurance companies and did public advertisements for these bids. Five of the companies did not respond, seventeen declined in writing to quote and twelve submitted proposals. All twelve of the proposals were validly submitted on time and with all of the required forms as determined by a purchasing department.
June 7, 1991 meeting, Board of Trustees

Mr. Stoffel: (contd)

We then assembled a committee from the University to review the proposals. There were a number of people from the Office of Human Resources and Benefits; Gerald Cable from the College of Pharmacy was the Dean's representative to this group; Phil Schneider, Associate Director of Pharmacy from the Hospitals represented University Hospitals; Reed Fraley; and George Parks from the Purchasing Department. The Committee was charged to review all of these proposals and to make a recommendation with regard to who should be recommended for approval.

In addition, we hired a pharmacy consulting firm by the name of Pharmaceutical Horizons, Inc., to do a review for us of the financials in this proposal. For those of you who may be familiar with the pricing on drugs, it is such a complicated and competitive business, and we felt we had to have someone that could make this comparison look like apples to apples for us. What this company did was to look at all of the bid proposals, to compare their pricing structure to a market basket of 61 prescriptions that were common prescriptions to the University's program, looking at our current history and utilization, and compare the total cost of those to each one of the bids that were received. The results of that were fairly close.

Today we are recommending Value Rx, which is also the company that has the Regional Campus Program that we have in place right now. They were not the lowest bidder, however they were the lowest, responsive, and responsible bidder. Let me go through the companies that had lesser amounts by our comparisons and tell you why we rejected them.

Pharmacy-Card Inc., was a company that had probably the lowest price per prescription that was bid, but their proposal was incomplete as we looked at it. They did not submit a pharmacy dispensing fee as part of their pricing structure until after the bids were all received. So we threw that one out as being unresponsive.

Hook-SupeRx, Inc., was the next lowest bidder, with an average total prescription cost of $31.60. Their network of pharmacies was not sufficient to meet the needs of the University's Columbus Campus faculty and staff. They had a fairly substantial network, but that network was basically within the confines of the inner belt and we have about 3,500 to 4,000 people who live outside the outer belt. So we really didn't feel that the network was broad enough to cover the University. In addition, Hook-SupeRx is operating at a significant level of loss. They will be in a negative equity position by the end of 1991, and if they continue on that negative decline, it was felt that could be a problem for us in the future.

Baxter Health Care, Inc., was the next lowest bidder. Their network of pharmacies also was not sufficient to meet the needs of the University population. They only have pharmacies called Medicine Shoppe and RiteAid. They do have other locations, but these other locations are not required to stay in the network and service the University. Only these two locations would be obligated to serve the University, so their network ends up being fairly small to serve our population.

The next company was Revco Drug Stores, Inc. Their bid ended up being $32.14, and, again, because it was just Revco their network was not sufficient to meet the needs of our healthcare plan. When you look at the demographics, our people are spread out. In addition, Revco filed for Chapter 11 reorganization and is operating as a debtor-in-possession which we felt would be a problem for us.
June 7, 1991 meeting, Board of Trustees

Mr. Stoffel: (contd)

Finally, we get to ValueRx with a bid of $32.51. We are having an excellent relationship with them on our Regional Campuses. ValueRx has an excellent data system and good cost containment measures in place, and they really have an outstanding network in place. It is not the largest network out there, but it is a very good network. They have a lot of small pharmacies, as well as some of the larger pharmacies that are in this. So we felt that should be the company that we recommend.

Mr. Teaford:

How many locations do they have?

Mr. Larry Lewellen:

They have about 100 in Franklin County, another 40 in the counties that surround Franklin County, and 1,000 in Ohio altogether. They are also a national company, but I don’t remember how many locations they have nationally.

Mr. Scott:

That is important when you speak of Ohio. As you know, we are in all 88 counties. And while we do not have PPO’s in all 88 counties, the PPO’s would be related specifically to the Regional Campuses and OARDC. The fact that we do have people in all of the counties, and the suggestion that we have 1,000 possibilities is probably a very good idea.

Mr. Teaford:

The way I will use this is I will take my card to one of those pharmacies?

Mr. Stoffel:

Yes, you take your card to one of those pharmacies, pay whatever your co-payment is, whether it is 10 percent or 20 percent, and get your prescription. There is no paperwork.

Mr. Teaford:

What determines the co-payment?

Mr. Stoffel:

Whether it is a generic or a non-generic drug. Generic would be a 10 percent co-payment and non-generic would be a 20 percent co-payment.

Mr. Barone:

I am confused on the word “average wholesale.” What constitutes average wholesale?
June 7, 1991 meeting, Board of Trustees

Mr. Stoffel:

There are several publications that are out that publish what they call an average wholesale price for any given drug. Now there are several variations of average wholesale price -- there is an average wholesale price of high volume, low volume, and I forget what the other one is, but you can use any one of those three. It is the average wholesale price of the particular drug that is sold.

Mr. Lewellen:

The main average wholesale price that is talked about in the industry is the average of all of the average wholesale prices for each company. Each company publishes their own in a medispan, or a blue book or some other industrial publication. For a particular drug there is an average of all of the average wholesale prices. Those are also the publications that are used for pricing by Medicaid. So those do hold validity as far as the way pricing is done for prescriptions.

Mr. Teaford:

So, this is an average price that is set not by the company, but rather within the total industry.

Mr. Lewellen:

The average price from the manufacturer to the wholesaler.

Mr. Shumate:

A couple of questions, Steve. I assume in the bid specs it was made clear that the network of stores was an important consideration for the bid?

Mr. Stoffel:

Yes, Sir, it was.

Mr. Shumate:

Can you tell me who is involved in the process of evaluating which bids are the most responsive?

Mr. Stoffel:

We had a committee that reviewed all of the bids with regard to responsiveness. There were four people from my office who were involved in that and a representative from the College of Pharmacy, the Purchasing Department, and the University Hospitals Pharmacies. All of those people evaluated the proposals, they had interviews with the companies, the companies came in and clarified any questions that there were on both sides of this. And the committee, as a group, came to a consensus and made a recommendation.

Mr. Shumate:

Have the four companies been notified that their bids were not responsive?
June 7, 1991 meeting, Board of Trustees

Mr. Stoffel:

We wouldn't normally notify them until after the Board approves this.

Mr. Teaford:

When you talk about the bid being $32.15, is that what a typical family would spend out of the --

Mr. Stoffel:

No, Sir. The numbers that I gave you for the average price per prescription was using the 61 prescriptions from our program and averaging those out. That would be a weighted average, basically the average number of scripts of this medication and so on that we find in the University's program. Weighing all of those, dividing by the total number of scripts in our program, and trying to compare all apples to apples. That would be the average price per prescription, total price per prescription, which would include the University’s portion, faculty and staff portion, and their administrative fees.

COLUMBUS CAMPUS PREFERRED PHARMACY PROGRAM
Resolution No. 91-139

Synopsis: The Fiscal Affairs Committee recommended the approval of the Preferred Pharmacy Program for the Columbus Campus.

WHEREAS the University desires to provide quality health care coverages for enrolled faculty/staff and dependents, particularly through Managed Care - Preferred Provider Organization (PPO) delivery systems; and

WHEREAS the expansion of The Ohio State University Faculty and Staff Health Plan pharmacy network and the addition of this network to the Traditional Plan will allow significantly enhanced access and claims processing convenience for faculty and staff, and is particularly necessary due to the termination of faculty and staff pharmacy service by the University Health Service Pharmacy; and

WHEREAS the Pharmacy PPO system will maintain effective cost control through significant discounts on prescription drugs, and will further enhance cost control and services for faculty and staff through clinical review of drug utilization and drug prescribing patterns with proactive information and reactive interventions; and

WHEREAS after public advertisement, specifications and proposal forms were issued to thirty-four (34) companies; five (5) did not respond, seventeen (17) declined in writing to quote, and twelve (12) submitted proposals; and

WHEREAS the appropriate University offices, and Pharmaceutical Horizons, Incorporated (a pharmacy program consultant firm), have reviewed the proposals and, based on prescription drug pricing, administrative fees, and network service capabilities and associated services, it is the recommendation of the Office of Human Resources that the lowest responsive and responsible proposal is offered by ValueRx, subsidiary of Value Health Incorporated. The pricing quoted is as follows:
June 7, 1991 meeting, Board of Trustees

COLUMBUS CAMPUS PREFERRED PHARMACY PROGRAM (contd)

Prescription Drug Price -- Average Wholesale Price less 13% discount
Administrative Service Fee -- $3.75 per prescription
Dispensing Fee -- (included in Administrative Service Fee)

NOW THEREFORE

BE IT RESOLVED, That the contract for the program of providing PPO pharmacy services (in addition to the Hospitals Clinic Pharmacy) to eligible Columbus campus faculty and staff be awarded for a one-year period beginning July 1, 1991, with the pricing, fees, and performance of the provider to be reviewed on July 1, 1992, and annually thereafter.

Upon motion of Mr. Shumate, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

Mr. Stoffel:

This resolution is to give the University authorization to proceed under Senate Bill 3. This bill was just enacted and passed by the Legislature and signed by the Governor on April 17. It provides employees of the State with compensation for the time that they were called up as a result of Desert Storm/Desert Shield Operation. The provision calls for a number of benefits which the University already moved on. You may recall several months ago, this Board acted upon a resolution for the fee program and we had extended, as a part of our normal leave policy, the medical care benefits which really complied with this act.

The last part of this is the pay part. Senate Bill 3 provides pay for the individual while they were on call as a result of this national emergency. A pay differential from what their military was and what they would have been paid from the University -- up to $500.00 per month. So if their military pay was $1,000 less than their pay while they were here at the University, they can be paid up to $500.00 under Senate Bill 3.

So what we are asking for is approval to implement this for faculty and staff at the University. There are approximately 44 employees that we are aware of that would qualify under this right now. We are really unable to calculate the costs right now because we don't know what these people earned while they were on duty. However, if you were to look at these 44 people and say they were gone approximately 6 months and they were all entitled to the $500.00 each month, we are talking about roughly $132,000.00 that the University would have to pay out.

Ms. Casto:

How did we handle the pay situation?

Mr. Stoffel:

They were provided up to 31 days of military leave with full pay when they were called up, and then were on a no pay status at the University while they were gone. They were on a military leave of absence, but with no pay. The only pay they would have had was their military pay. The Legislators passed this to help them during a period of time they were not receiving any pay.
June 7, 1991 meeting, Board of Trustees

Ms. Casto:

And where would these funds come from?

Mr. Stoffel:

The departments would be charged directly for these amounts inasmuch as they were allowed to keep the cash during that period of time the individual was not drawing any pay. That money was not taken away from departments, so this will be charged and it will be, obviously, less than their salaries.

Ms. Casto:

If there weren't any cases where they had to be replaced?

Mr. Stoffel:

Yes, that is correct.

**MILITARY RESERVISTS CALLED TO EXTENDED ACTIVE DUTY**

Resolution No. 91-140

Synopsis: The Fiscal Affairs Committee recommended the implementation of specified pay differential provisions as set forth in Senate Bill 3 of the Ohio General Assembly for military reservists called to extended active duty as members of the Desert Shield/Desert Storm military contingent.

WHEREAS the University supports the Nation's decision to undertake the Desert Shield/Desert Storm military operation pursuant to the relevant United Nations resolution; and

WHEREAS some members of our faculty and staff who are military reservists were called to active duty as part of the force structure of operation Desert Storm/Desert Shield; and

WHEREAS the Board of Trustees has passed a prior resolution which allows the continuation of the Dependent Fee Authorization benefit eligibility for dependents of faculty and staff called to extended active duty; and

WHEREAS the General Assembly has passed legislation in the form of Senate Bill 3, signed by the Governor on April 17, 1991, which prescribes a pay differential for state employees up to $500.00 per month while on extended active duty (over 31 days) due to an Act of Congress or Executive Order of the President; and continuation of health benefits at the same cost and coverage conditions as if still actively employed; and, Ohio retirement system service credit and other important issues. The pay differential is to be applied retroactively to September 1, 1990:

NOW THEREFORE

BE IT RESOLVED, That the Associate Vice President for Human Resources is authorized to implement the aforementioned pay differential and benefits actions and other such actions as consistent with Senate Bill 3.

Upon motion of Mr. Shumate, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--
June 7, 1991 meeting, Board of Trustees

Mr. Stoffel:

As you may recall, last year because of favorable experience in the University's medical care programs we were able to implement, at your approval, two premium holidays, one in September 1990 and December 1990. Our experience this year continues to be favorable. Our medical care costs are still going up, but we have been able to reduce the rate of increase during the last couple of years as a result of the many cost containment features that we have built into our program, including the cost sharing.

It is estimated that our current insurance reserve will be approximately $15 million at the end of the year. Industry standards suggest that you have in reserve approximately 25 percent of what your total claims projections are for a year, for claims lag and future payouts. That would result in a necessary amount of $11.5 million, leaving us with about $3.5 million of excess.

To bring those figures in line with the figures in July, another premium holiday would result in about a $3.8 million reduction in the insurance reserve. Of that $3.8 million, about 19 percent of that -- since that is the faculty and staff's share -- would be kept by faculty and staff because no contribution would be made. The balance would be available to the University. The split for instruction and general to non-instruction and general is about 46 or 47 percent instruction and general, and 54 percent non-instruction and general funds.

Ms. Casto:

What is that total again after the premium holiday?

Mr. Stoffel:

The premium holiday will result in about a $3.8 million reduction in the reserve. This amounts to one month's premium in our medical insurance program. The total reserve would be about $11.5 million after that reduction.

Mr. Scott:

One of the things that is important for this committee to remember is that when you have individual employees contributing to a plan and there are excess premiums, you really can't do anything with that money except give it back to them. You can't argue that we can take this and do something else with it.

One other point, Mr. Chairman, is that we are committed to a program the Board approved three years ago. And that is that if we did generate a surplus based on cost containment and utilization factors and whatever else we instituted, we would indeed give the money back to the people. And this seems, based on recommendations from the President and Bill Shkurti, an auspicious time to do it in light of what we are possibly facing with other components of our annual raise consideration.

Mr. Barone:

I think it is good labor relations having an incentive program.
June 7, 1991 meeting, Board of Trustees

Mr. Teaford:

This will be, I believe, the third holiday in a one-year span.

Mr. Barone:

They've earned it, they should get it.

Mr. Shumate:

I agree. And you are comfortable with the industry standard as an appropriate figure for us to utilize?

Mr. Stoffel:

Yes, we are very comfortable.

PREMIUM HOLIDAY

Resolution No. 91-141

Synopsis: The Fiscal Affairs Committee recommended the approval of a health care premium holiday for the month of July.

WHEREAS as a result of favorable financial experience in the University's medical care program the Board of Trustees has previously approved a premium holiday for the months of September 1990 and December 1990; and

WHEREAS the recent reversal in medical care cost escalation continues to hold firm; and

WHEREAS it is estimated that should the current trend continue the University's health care insurance reserve will still be somewhat in excess of standard industry requirements:

NOW THEREFORE

BE IT RESOLVED, That in accordance with the recommendation of President Gee, the Associate Vice President for Human Resources is hereby authorized and directed to implement a health care premium holiday for the month of July 1991.

Upon motion of Mr. Shumate, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

Mr. Shkurti:

Normally the June meeting is when the Board of Trustees is asked to approve the budget for the coming fiscal year, which will be fiscal year 1992. We do not have the budget at this time. We are facing an unusually high degree of uncertainty on the State level because of the level of State support which is our single largest source of income. We do hope to have a budget to you for the July 12 meeting, but the problem is that the current budget you approved expires on June 30. So as a result, we are asking you to authorize spending to continue up to current levels until the new budget is passed, which will hopefully be for only about two weeks in July.
June 7, 1991 meeting, Board of Trustees

Mr. Shkurti: (contd)

The one thing I would stress is that this is not an invitation to our departments to continue spending with business as usual. They have all been informed to expect cuts of somewhere between 3, 5, and 7 percent. Believe me, they have received that message and are monitoring funds closely.

The purpose of this resolution is to give us the authority to pay bills and to continue to function for two weeks while we are waiting for the Legislature to finish its action and while we prepare the budget for the next Board meeting.

Mr. Teaford:

While Bill said the usual procedures are done in June, in my experience we have only done it once in eight years in June. This crunch is not a unique circumstance.

EXPENDITURE AUTHORIZATION 1991-1992
Resolution No. 91-142

WHEREAS levels of State financial support for 91-92 have not yet been established; and

WHEREAS it is prudent to defer decisions concerning salary levels, fee levels, and other expenditures until the General Assembly has adopted an appropriations bill determining State support; and

WHEREAS it is necessary to continue making various expenditures, including payment of faculty and staff, prior to the time that a Current Funds Budget for 91-92 is adopted:

NOW THEREFORE

BE IT RESOLVED, That the University be authorized to make expenditures consistent with those levels contained in the Third Quarter Report of Fiscal Year 1990-91 until the Current Funds Budget for 1991-92 is adopted; and

BE IT FURTHER RESOLVED, That within one week following the passage of a State appropriations bill, the President will present the Administration's recommendation for a Current Funds Budget for 1991-92 to the Board of Trustees.

Upon motion of Mr. Shumate, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXXXIV for chart on The Ohio State University 1991-92 Provisional Current Funds Budget, page 1363.)
Mr. Shkurti:

Mr. Chairman, the Capital Request is the University's request to the State, which goes through the Ohio Board of Regents for the two years beginning July 1, 1992. The reason that we are doing this so early is that it has to go to the Board of Regents and through their process first, and then hopefully the Legislature will act on this at about this time next year.

The written material you have in front of you entitled, "Board of Trustees Briefing Capital Plan(s)" is almost identical to the Briefing material that you received for the May meeting. What I would like to do is to update you on what has happened in the University process since then, and then offer the opportunity for you to ask any questions that you might have.

First, let me talk about the process. The way the capital process works here at the University is that the departments and colleges are invited to submit their requests through their respective vice presidents to the Director of Campus Planning. Campus Planning assembles all of this, reviews it, and recommendations are presented to the Space and Facilities Committee, which consists of representatives from the Provost's Office and the Offices of Finance, Research, and Business and Administration. They then evaluate these proposals, rank them, and set them within the overall parameters of what is available. This is then reviewed by the Planning Council which consists of the Vice Presidents from the four areas that I mentioned earlier, plus Mr. Scott. Then the recommendation is made to the President, and the recommendation that he approves is a summary of what is before you today.

Now the materials included in the first part are Selected Master Plan Concepts and the Academic Planning Goals and Mission Elements summarized from President Gee's October speech. This gives you some context as to the type of criteria that are used in evaluating these requests. The second part of this is a summary of the priority listing of all of the projects and dollar amounts. Also, attached is a separate sheet of paper which shows the locations of all of these various projects superimposed on a campus map. What I would like to talk about today in little more detail is not necessarily the details of the projects, although I will be glad to go into any of those that you would like to see, but rather the policy implications of the requests that are before you.

The first and most important policy implication involves the size and nature of the requests. The issue is always how much money should we ask the State for. Obviously, we want to ask for more than we think we might get, because if they get generous we want to be able to have some projects lined up. On the other hand, what has happened, and you will notice this on the summary of the amounts, two years ago we asked for $158 million. We received $93 million in the first biennium, but only $65 million of that were projects that we asked for. The other projects were done at the initiative of the Legislature and others who communicate with the Legislature.

Mr. Teaford:

The Lantern had a story about how we were spending all of this money on AmeriFlora. This was a very inaccurate story, because we were commanded by the Legislature to spend all of that money.
June 7, 1991 meeting, Board of Trustees

CAPITAL REQUEST (contd)

Mr. Shkurti:

That is exactly right. The Lantern is a learning laboratory and hopefully they will learn from that.

The problem we run into is that if the list is too big, the way the campus bureaucracy works is that everyone assumes that project is funded. So even if we don't get State funding, the constituencies build on campus and we get backed into projects that may not be as high of a priority as another.

This year's capital request is a little different in that it is more modest than the one two years ago. The total amount is $96 million, which if the State were to fund it in its entirety, we would be extremely delighted. But we don't think we would get much more than that. It is a more realistic request, but I think it also is a more manageable request, in terms of what the campus' priorities really are.

The second policy implication is that some funds are identified as local funds. That means funds coming out of the University's own general funds or other accounts, not State Capital funds. You will see in a number of cases that this is used to fund planning money for projects that we will later ask the State for. The purpose of using local funds, in the case of planning money, is to get a leg up on the process that has to go on before the building can be started and to take some time and reduce delays in getting some of these desperately needed facilities up and running. In addition, we like to use local resources to leverage more State resources whenever that is possible.

The third thing I would like to mention, in terms of substance, is what changes occurred in the list that you received at the May meeting and this list, as the list went up through the various campus review processes, particularly by the Vice Presidents and the President. The most significant change that was made by the Planning Council at the Vice Presidential level was to raise the Waste Management Storage Facility on the priority level. On the first list you received it had been at a lower level. Now it has been moved up to about the middle of the list. The feeling was, and I concur, that although this tends to be a rather unglamorous sounding facility it is a very important one, because we have to have somewhere to put the waste that we generate in our laboratories. That was really the only substantive change made by the Planning Council. In moving the Waste Materials Storage Facility up, the Bricker Hall Mechanical Renovations were moved down, correspondingly. Speaking as someone who had an office that didn't have air conditioning for two weeks during the heat wave, I can testify to the need for mechanical improvements in Bricker Hall, but I would not want to let my comfort come ahead of disposing of wastes at the University.

The second policy implication of changes went up through the system and when the President reviewed this he asked a lot of questions. He did not change anything on the priority list, but he stressed to all of us involved in the capital process how important it was to him that the new building for the Business College move on a relatively fast track. You will see planning money in there for it, although not money for the authorization. Any of you who have had the opportunity to visit Hagerty Hall know how important it is. I once taught a class in Hagerty where part of the ceiling came down while I was teaching. It is very important to the new Business Dean that we get a new building up as soon as possible. Now fast, in terms of capital projects,
June 7, 1991 meeting, Board of Trustees

CAPITAL REQUEST (contd)

Mr. Shkurti: (contd)

means as much as five years, but the Business Dean understands that. And five years is better than 15 years. So we are trying to move that along.

The other thing that I would like to talk about in a little bit of detail is the relationship of the decisions implied in this list to the longer range planning and capital issues. Many of these decisions point in a direction toward resolving some of those longer range issues and I think it is important for you to know what those are.

The first one is the location of the new Business Building. The first priority even before the Planning Funds are appropriated is to decide where to put it. We are looking at a variety of alternatives and hopefully that decision or those recommendations will be reviewed over the next couple of months and the Board will be consulted and informed on those. But, obviously, where we put the Business Building is a major decision.

Mr. Teaford:

The list implies that we have made a decision as to where the Business Building will be located, because it tells us here where it will be located. But you are saying that is still up in the air?

Mr. Shkurti:

Mr. Teaford, you will have to share with me where you see where the building will be located.

Mr. Teaford:

Under Student Activities Center "this project would begin planning for a new student activity center, if the College of Business is relocated to the Ohio Union."

Mr. Shkurti:

The key word is "if" -- there are a number of alternatives. At the forefront for the location of the new Business Building would be either an extension onto Hagerty Hall, right behind it, or a remodeling or replacement of the Ohio Union. And I have to stress "or." There are pros and cons on both of those, no decision has been made as to which one because there are implications to both. But I think the key word is "if."

The second item is classroom space in terms of longer term priorities. You will notice there is reference to an instructional academic building of $20.4 million. There is a crying need for classroom space on Central Campus. There are a couple of reasons for that: 1) is that we have moved more students back to Central Campus from West Campus in recent years; and 2) the internal workings of the University bureaucracy tend to gobble up classroom space for offices. It shouldn't, but it has happened and we are trying to get a handle on that. I think with the stress on undergraduate education it is important that we have good classroom space. The innovative feature of this building is that buildings used to be built and classrooms assigned to a certain department. And whether that department's enrollment went up or down they tended to develop a proprietary interest in that space. By building
June 7, 1991 meeting, Board of Trustees

CAPITAL REQUEST (contd)

Mr. Shkurti: (contd)

this building with the intention of making it classroom space, we think we can better adapt to enrollment changes and preserve it for classroom space and not have it used for other needs.

The other thing that is important about this building is the location on Neil Avenue. And the implication is that a corridor of classroom space is starting to develop along Neil Avenue in the center of campus. So this tends to cluster the classroom space in that area, the center of campus, which I would argue is a good place to have your classroom space.

Mr. Teaford:

So, this is no college's building?

Mr. Shkurti:

That is correct. This belongs to all of the students.

The third issue on the long-range issue list is the use of Lord Hall for a new physical sciences complex. You will notice that there are planning dollars for a Physical Sciences Research Building. Now that has to be looked at in terms of the pros and cons, but the intent would be to put the research building for physics on the Lord Hall site and to keep the sciences (Physics, Chemistry, Math), those physical sciences together in that corner of the campus.

The fourth issue, Mr. Chairman, is the one you raised and that is the issue of a student activities center. For students, obviously if the decision is made to use the Ohio Union for a new Business College, the question is where do we put the student services. And one option is to move student services into a more centralized location on campus and this planning money allows us to evaluate the pros and cons of those decisions.

The fifth and sixth issues on the longer range issue list are the location and scope of the Visitor's Center and the location and funding of a new library. Nothing in this request impinges directly on those. The one thing that I will say about the new library is that will be the mother of all capital projects, because the range of cost estimates is somewhere between $70-$90 million which will be our whole capital bill. So, obviously, we will need a new library at some point. There are a number of issues involved in how big it is, where it is, and how we faze that in. There is no way we can fund that in one capital bill, so that will be more down the road and this capital budget does not directly effect that.

Before I answer any specific questions about the projects, I would like to introduce Dave Marsh. Dave is Associate Vice President and Director of Campus Planning and has been very involved in the planning process. He has been responsible for putting this list together and preparing the maps that you have. In cases where you might have a question about a specific project that is very detailed, I am sure Dave would be glad to respond to those questions. Let me stop at this point and ask if there are any questions from the members of the Board that I may attempt to answer.
Mr. Shumate:

Thank you, Bill, for an excellent report. I want to point out that in talking with Joel about his goals and directions for the Fiscal Affairs Committee, we want the Board at each of our meetings to focus upon the policy implications of the various decisions that we make regarding our buildings and our property acquisitions, over and above the specific necessary decisions that we make each week. And in talking with Bill, I did ask that he focus on the long-range implications of these decisions, as well as focusing on the policy basis by which this list is developed, so that we can begin that process of strategic planning that the Board has been focused on. Thank you, Bill, for laying a good policy foundation. If there are any questions, or Joel, if you want to add anything feel free.

Mr. Teaford:

The only thing that I would add is that by the next time we have a capital plan, instead of having the statements from the President's speech we will, by that point, have the goals and so forth of the University set in place. Those will be, of course, the way the Board will be able to judge whether projects are appropriate and it is a good spending of money.

In my experience, the Regents have their theme for the capital plan every time. There are some areas in which they have decided monies should be spent. The lovely topic of asbestos removal is one of them. Do we anticipate something like that would interfere with where we really want to spend money?

Mr. Shkurti:

It also has been my experience that the Regents have a theme, and also sometimes the Legislature has a theme which is usually different. I have not received anything in writing from the Regents. I think they're more worried about their operating budget right now. They have always emphasized rehabilitation and taking care of the buildings that you have, and you will notice that many of these are phases of rehab. They also encourage research in the sciences and a number of these are research and laboratory facilities. The Regents have also been very supportive in making sure we take care of the academic needs of the students and that is another priority in this request. So, I think that we will be consistent with whatever theme they eventually come out with. The Legislature on the other hand is a more difficult prediction.

Mr. Shumate:

Bill, can you review, again, the expected phases and time frames from this point on?

Mr. Shkurti:

What will happen next is that within the next week this request is due to the Ohio Board of Regents and we will have it sent in at that time. They are also making a site visit within the next week or two to meet the people and view the campus. They will go through their process of reviewing this probably for the next 6-9 months and will present it to their Board for review. They will let us know also which of our projects they're recommending to go forward. In early fall the Office of Budget Management for the State will receive requests from all State agencies, including the Board of Regents, as to their priorities. The Office of Budget Management often
June 7, 1991 meeting, Board of Trustees

CAPITAL REQUESTS (contd)

Mr. Shkurti: (contd)

cuts back on what the various agencies ask for and then makes recommendations to the Governor. From that, the Governor will make a recommendation to the Legislature, which usually merges anytime between January and March. What has happened in the past eight years is that the Governor and Legislative leaders have tried to get together before the Governor introduces his capital proposal to reach an agreement. So that once the bill was introduced, it moved pretty quickly and there usually weren't any amendments. I don't know whether the new Governor will want to do that with the Legislative leaders or not. We are going to have to wait and see. But the Legislature will hold hearings early in 1992 at some point, and pass the bill, hopefully, so it will become effective on July 1, 1992. We will also provide testimony and bird dog this the whole way through.

Mr. Teaford:

And we don't necessarily stick with what the Regents assign to us.

Mr. Shkurti:

No. Normally the Regents are very conscious of the priorities of the universities. But if they don't, the right to petition one's elective officials is guaranteed in the Constitution and we will exercise that right.

Ms. Casto:

The Parking Garage Expansion (12th Avenue) -- am I understanding it correctly -- that usually parking pays for itself? If they have an addition, they will absorb the costs of this?

Mr. Shkurti:

That is correct.

Ms. Casto:

And the cost of putting the building on top of the Life Sciences Research Building is $6 million?

Mr. Shkurti:

The $6 million is the parking garage itself. The Life Sciences Research Building is $1.6 million, and we hope one-half of that to be our funds and one-half of that would be State funds.

Ms. Casto:

So, this is not the Life Sciences Research Building?
June 7, 1991 meeting, Board of Trustees

CAPITAL REQUESTS (contd)

Mr. Shkurti:

No. The Parking Garage Expansion is less expensive. The other thing that is important is that we have to get the garage built before we put stuff on top of it. So that is why you have the full amount for the garage, but only the planning money for the Life Sciences Research Building.

Mr. Teaford:

My understanding, too, is that is getting fast tracked. And the way that we will actually pay for that is by bonding, I presume?

Mr. Shkurti:

All of the large capital projects are bonded one way or another, either by the State or by us.

(See Appendix LXXXV for complete text of Board of Trustees Briefing Capital Plan(s), page 1365.)

AUTHORIZATION FOR DESIGNATED OFFICIALS TO BUY, SELL, ASSIGN AND TRANSFER SECURITIES, TO DEPOSIT OR WITHDRAW FUNDS FROM BANK ACCOUNTS, AND TO DESIGNATE DEPOSITORIES

Resolution No. 91-143

Synopsis: The Fiscal Affairs Committee recommended authorization for designated officials to buy, sell, assign and transfer securities, to deposit or withdraw funds from bank accounts, and to designated depositories.

WHEREAS designated officials of the University buy, sell, assign and transfer stocks, bonds and other financial instruments owned by The Ohio State University; and

WHEREAS various financial institutions are designated as depositories for The Ohio State University; and

WHEREAS accounts at various financial institutions are opened and maintained in the name of The Ohio State University:

NOW THEREFORE

BE IT RESOLVED, That the Vice President for Business and Administration and/or the Treasurer be authorized and empowered to buy, sell, assign and transfer any and all stocks, bonds, evidences of interest and/or indebtedness, rights and options to acquire or to sell the same, and all other securities corporate or otherwise, standing in the name of or belonging to The Ohio State University in any capacity; and

BE IT FURTHER RESOLVED, That the Vice President for Business and Administration and/or Treasurer be authorized and empowered to designate various financial institutions as depositories for The Ohio State University and open and maintain accounts at various financial institutions in the name of The Ohio State University; and
June 7, 1991 meeting, Board of Trustees

AUTHORIZATION FOR DESIGNATED OFFICIALS TO BUY, SELL, ASSIGN AND TRANSFER SECURITIES, TO DEPOSIT OR WITHDRAW FUNDS FROM BANK ACCOUNTS, AND TO DESIGNATE DEPOSITORIES (contd)

BE IT FURTHER RESOLVED, That the Vice President for Business and Administration and/or the Treasurer be authorized, on behalf of The Ohio State University and in its name, to sign checks, drafts, notes, bills of exchange, acceptances or other instruments for the payment of money from said accounts; to endorse in writing or by stamp checks, notes, bills, certificates of deposit or other instruments owned or held by this University for deposit in said accounts or for collection or discount by said banks; to accept drafts, acceptances, and other instruments payable to said banks; to waive, demand, protest, file notice of protest, or dishonor any check, note, bill, draft or other instrument made, drawn or endorsed by the University; and

BE IT FURTHER RESOLVED, That the Vice President for Business and Administration and/or the Treasurer be authorized to designate appropriate University officials to act on their behalf to execute these transactions.

Upon motion of Mr. Shumate, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

Dr. Tzagournis:

Mr. Chairman and members of the Board, I am here to simply give you a very brief background on our request to establish an oversight committee for the Cancer Hospital and Research Institute.

As most of you know, the Cancer Hospital has been open since July 1990, and has been in operation and has started up most of its activities. You have had very able leadership in Mr. Barone serving as your liaison person for the Board and he has reported on a fairly regular basis to this Board. However, it is now time, we think, to have an oversight committee to look more closely at quality care issues, the operations in general, the research activities, and many of the other responsibilities that go with an oversight committee.

As you might recall, the James Cancer Hospital was organized in a slightly different fashion than the rest of University Hospitals. The purposes of the Cancer Hospital were for efficiency, emphasis on specialization, and simply for trying to get a critical mass of people together who were working on a single disease entity. We also were successful in getting a DRG exemption which required us to be a comprehensive cancer center, to treat primarily cancer patients in that hospital, and to have a hospital that is not a part or a wing of an established general hospital. For those reasons and in accordance with suggestions by the Joint Commission on Accreditation of Health Care Organizations, we are establishing an oversight committee with various representation, which appears to be close to an ideal oversight committee.

I would be happy to answer any questions.
June 7, 1991 meeting, Board of Trustees

Mr. Teaford:

I would like to point out, too, that this Board is the Board of the James Cancer Hospital, in accordance to the way it was set up. Therefore, we are establishing an oversight committee of this Board to be closer guardians of that and this is something that the Joint Commission, indeed, said was necessary for future accreditations.

I would also like to point out that in "paragraph 2" the things we do, indeed, expect this committee to do. I also asked that paragraph D be added to it, because we constantly need to monitor whether we are saving money by having it freestanding. Since we obviously pay a price for it being freestanding, we hope it is totally, and offset by the DRG exemption. But I think we always want to check and make sure that is true.

Dr. Tzagournis:

I agree.

Ms. Casto:

Wasn't this also a recommendation by a consulting firm?

Mr. Fraley:

Yes, a consulting firm which is doing the long-term strategic planning, did look at this oversight committee and its makeup and has recommended it also.

Mr. Barone:

Over a year ago, when I was appointed an officer, we discussed the feasibility and the advantages that would be obtained by having an oversight committee. I think this is very essential and necessary.

BOARD OF TRUSTEES OVERSIGHT COMMITTEE FOR
THE ARTHUR G. JAMES CANCER HOSPITAL AND RESEARCH INSTITUTE
Resolution No. 91-144

Synopsis: The Fiscal Affairs Committee recommended the approval to establish an oversight committee, and the appointment of committee members, for The Arthur G. James Cancer Hospital and Research Institute.

WHEREAS The Arthur G. James Cancer Hospital and Research Institute admitted its first patients in July 1990 and now is fully operational; and

WHEREAS in June 1990 the Board of Trustees established the position of Trustee Liaison to the James Cancer Hospital during its initial phase of operations; and

WHEREAS the Trustee Liaison position has been very helpful and the Board now desires to more formally organize oversight of this unique, interdisciplinary clinical and research facility to provide continuing involvement and support by this Board for the mission and operation of The James Cancer Hospital and Research Institute:
BE IT RESOLVED, That the Board of Trustees hereby establishes, as a committee of this Board, The Arthur G. James Cancer Hospital and Research Institute Oversight Committee and approves the attached Policy Statement regarding the Committee's membership and operation; and

BE IT FURTHER RESOLVED, That the following individuals be appointed as members of the Committee for 1991-92.

John W. Kessler, Chair
John J. Barone
David E. Schuller, M.D.
R. Reed Fraley
Henry G. Cramblett, M.D.

Upon motion of Mr. Shumate, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXXXVI for background material, page 1371.)

Mr. Teaford:

When we first offered the position of president to President Gee he indicated that it was important to him that a process be setup whereby he would be evaluated on a regular basis. And you have a resolution before you setting up that evaluation process through the Personnel Committee of this Board. Are there any questions about that process as outlined in your book?

EVALUATION PROCESS OF PRESIDENT

Resolution No. 91-145

WHEREAS in the course of University governance, the Board of Trustees is entrusted with the responsibility for assessing the performance of the University's chief executive officer; and

WHEREAS to facilitate this process, the general mission of the President has been defined based on the goals set forth by the Board at the beginning of the Presidential search process; and

WHEREAS criteria for evaluation have been derived from this mission statement which will allow assessment of the President's progress; and

WHEREAS the President will be expected to annually set forth other institutional goals and objectives that he will undertake:

NOW THEREFORE
June 7, 1991 meeting, Board of Trustees

EVALUATION PROCESS OF PRESIDENT (contd)

BE IT RESOLVED, That the first evaluation period for President Gee covers the period of September 1, 1990, through June 30, 1991, and annually thereafter through year four. The evaluations will be conducted informally. To initialize this process the President will provide annually a self-evaluation statement of his accomplishments to the Personnel Committee of the Board of Trustees who will review the statement and provide comments relative to the President's achievements and directions for the future; and

BE IT FURTHER RESOLVED, That a comprehensive evaluation will be conducted to coincide with the conclusion of President Gee's fifth year in office. The process will be similar to that of the informal review, but will include a wider group of commentators. The self-evaluation will again be completed but only made available to Board of Trustee members. Those asked to participate may include individual trustees, selected institutional leaders, governmental leaders and others as may be determined by the Board.

Upon motion of Mr. Wexner, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

REPORT - UNIVERSITY'S INVESTMENT PORTFOLIO

Resolution No. 91-146

RESOLVED, That the report on the University's Investment Portfolio, dated May 17, 1991, as submitted to the Fiscal Affairs Committee of the Board of Trustees, be received and filed with the official records of the Board.

(See Appendix LXXXVII for complete context of The Ohio State University Endowment Summary, May 17, 1991, page 1373.)

--0--

Mr. Teaford:

I would like to point out to those of you in the audience that you will find this year that a great deal of the work of this Board will be done in the committees and that this meeting will often be as perfunctory as it appeared to be today.

--0--

Thereupon the Board adjourned to meet Friday, July 12, 1991, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio.

Attest:

Madison H. Scott
Secretary

Hamilton J. Teaford
Chairman

STARLING-LOVING - CONTINUING MEDICAL EDUCATION RENOVATION

Adopted by the Board of Trustees, June 7, 1991
(See page 1309)
Employment of Architects/Engineers and Request for Construction Bids

Background

Starling-Loving - Continuing Medical Education Renovation

This project will renovate the 3,510 gross square feet existing Continuing Medical Education suite located on the fourth floor of Starling-Loving Hall. The renovation will include relocation and consolidation of one broadcast studio contiguous with the second broadcast studio, new lighting, new HVAC system, and upgrade and restoration of interior finishes for the suite.

**Report of Award of Contracts and Establishment of Contingency Funds**

**Background**

(* Recommended alternates included in these figures.)

**Denney Hall - Relocation of Arts and Sciences Honors Program**

This project will remodel two existing classrooms, rooms 208 and 212, to provide six offices and a reception area for the Arts and Sciences Honors Program, currently housed in inadequate space in the basement of Denney Hall. The total project cost is $84,470.00; funding is provided from House Bill 808. The estimated completion date is September 1991. The contracts awarded are as follows:

Dodd Hall Interface, Phase II

This project will continue the work on the third and fourth floors of Dodd Hall to provide patients with private and semi-private rooms, all with private toilets and showers to replace the existing 4-bed wards. All areas of the third and fourth floors, totalling approximately 27,280 square feet, will be remodeled to complement the current activities. The total project cost is $1,026,114.00; funding is provided from University Hospitals. The estimated completion date is January 1993. The contract awarded is as follows:

APPENDIX LXXXIII

231 WEST TENTH AVENUE
COLUMBUS, OHIO

Adopted by the Board of Trustees, June 7, 1991
(See page 1312)
Purchase of Real Property

231 West Tenth Avenue
Columbus, Ohio

Background

Location and Description

The property consists of a two-story brick residence, with basement, and finished attic, located on approximately 0.15 acre at 231 West Tenth Avenue in Columbus, Ohio. The house, containing about 4,000 square feet (including the attic) was apparently constructed in about 1895 and is in very good condition. It currently is used as a private rooming house for University Hospitals visitors and visiting medical faculty. The property is located within the South Campus acquisition line.

Appraisal and Purchase Price

An MAI appraisal by Charles Allen and Associates in May 1991, valued the property at $138,000.00. The owner, Ms. Ruth Stewart, who lives in the house, has offered to sell the property to the University at a price of $125,550.00. Funds for the purchase are available from the University's land purchase account.

Use of the Property

Title to the property would be taken in the name of the State of Ohio for the use of The Ohio State University. Because the property is located within the Master Plan boundary, acquisition is important for the University’s long-range plans for the South Campus area. Because of the very good condition of the house, the property would be used for rental housing or offices for the foreseeable future.

APPENDIX LXXXV

BOARD OF TRUSTEES BRIEFING
CAPITAL PLAN(S)

Presented to the Fiscal Affairs Committee
June 7, 1991
(See page 1323)
BOARD OF TRUSTEES BRIEFING
CAPITAL PLAN(s)

PART I - BACKGROUND

SELECTED OSU MASTER PLAN CONCEPTS

- A unified academic campus with closely related disciplines in proximity to one another
- A pedestrian campus
- Service buildings and other non-academic facilities on the periphery of campus
- Transferring to Molly Caren those agriculture facilities that need open space excluding those needed for frequent access by students
- More research facilities within the central academic area in proximity to faculty offices and teaching facilities

ACADEMIC PLANNING GOALS AND MISSION (Gee Speech)

- Improve the learning and teaching experience by maintaining the highest values of education
- Develop interdisciplinary exchanges by allowing the nature of inquiry to define collaborations and structures required for new knowledge
- Recognize teaching and research as part of the same endeavor
- Give greater focus to issues of diversity that offer a plurality of backgrounds, ethnicities, religions, and races
- Facilities and aesthetics of a quality matching our people
- Reduce the bureaucracy, freeing faculty, students, and staff to engage in meaningful academic and academic support programs
- Develop a sense of community. Express pride in individual and shared accomplishments
PART II - 1993-94 CAPITAL REQUEST  (Columbus Campus)

FUNDING ASSUMPTIONS
- Request funding of $80 - $100 million per Biennium
- OSU received $93 million last Biennium, but only $65 million of the requests from the plan
- Local funds could be used to leverage additional state funds

PROJECT REQUEST SUMMARY

BASIC RENOVATIONS $17.0 MILLION

MENDENHALL LAB ADDITION/RENOVATION $4.4 MILLION
- Complete $14.4 million project for Department of Geology, includes classrooms, offices and teaching labs.
- Provides research facilities close to faculty offices and teaching labs.

EVANS LAB ADDITION $10.0 MILLION
- Provides research labs for Department of Chemistry, will permit McPherson Lab to be vacated for renovation.
- Recognizes teaching and research as part of the same endeavor.

CAMPBELL HALL ADDITION State Funds $1.6 MILLION
Fund Raising $1.5 MILLION
- Addition to Campbell Hall for Human Ecology to house the Historic Costume Collection and provide space for student activities/meetings.
- Encourages informal learning.

PARKING GARAGE EXPANSION (12TH AVE) Local Funds $6.0 MILLION
- Expansion of the 12th Ave Parking Garage to the East. Life Science Research Building will be constructed on top of this garage.

LIFE SCIENCES RESEARCH BUILDING State Funds $0.8 MILLION
(Planning Funds) Local Funds $0.8 MILLION
- New research building for the College of Biological Sciences for those disciplines now housed in the B&Z Building, a facility which will not support modern biology research. Construction funds of $21.4 Million to follow in the 95-96 biennium.
- Encourages interdisciplinary research.

INSTRUCTIONAL ACADEMIC BUILDING $20.4 MILLION
- New office and classroom space to allow for demolition of Lord Hall.
- Improve learning/teaching experience.

PHYSICAL SCIENCES RESEARCH BLDG Local Funds $1.0 MILLION
(Planning Funds)
- Project planning for a new research building for Physics to be constructed on the Lord Hall site. Construction funds of $19.0 Million to follow in the 95-96 biennium.
- Encourages interdisciplinary research.
STILLMAN HALL ADDITION $ 5.0 MILLION
- Provide small addition for Social Work, needed to complete evacuation of Lord Hall.
- Provides research facilities close to faculty offices and teaching labs.

ANIMAL TEACHING/RESEARCH FACILITY (POULTRY) $ 2.4 MILLION
- Replaces obsolete poultry houses near Fyffe Road with new upgraded facilities in the Waterman Farm area.
- Improve the learning/teaching experience.

Caldwell Lab Rehabilitation $ 0.75 MILLION
- Remodel's space that will be vacated by the Engineering Library to meet the needs for teaching and research space for the College of Engineering.
- Provides teaching and research facilities close to faculty offices.

Health Sciences Library Renovation $ 5.65 MILLION
- Replacement of the Randtriever system and the conversion of the space into a conventional library.
- Improves learning/teaching experience.

Sisson Hall Renovation $ 5.15 MILLION
- Update utility and mechanical systems and remodel selected space to meet modern day teaching and research facilities for Veterinary Medicine.
- Improves the learning/teaching experience.

Waste Materials Storage Facility $ 1.25 MILLION
- Facility for the storage and process of low level radioactive material.
  To be located near Bulk Chemical Warehouse.
- Supports the research experience.

Bradford Commons Remodeling $ 1.25 MILLION
- Remodels space vacated by NICE food preparation operations for offices, classrooms, and computer labs.
- Improves the learning/teaching experience.

College of Business Building (Planning Funds) $ 1.5 MILLION
- Project planning for a new College of Business facility. Construction funds to follow in the 95-96 biennium, with a portion of the cost supported by fund raising.

Student Activities Center LOCAL FUNDS $ 1.5 MILLION
(Planning Funds)
- This project would begin planning for a new student activity center, if the College of Business is relocated to the Ohio Union. Construction funds of about $28 to $29 million would follow.
- Improves the learning/teaching experience.

Cocks/Math Building Rehabilitation $ 6.25 MILLION
- Update utility and mechanical systems and remodel some spaces for the College of Math and Physical Sciences.
- Improve the learning/teaching experience.
TRANSGENIC ANIMAL FACILITY (BEVIS HALL) $ 1.4 MILLION
- Project will remodel space in the basement of Bevis Hall to support transgenic animal research.
- Encourages interdisciplinary research.

FOOD SCIENCE AND TECHNOLOGY State Funds $ 6.5 MILLION
- Project will replace obsolete teaching and research facilities for Food Sciences which is the number one department in the College of Agriculture.
- Improve learning/teaching experience.

CANNON DRIVE REHABILITATION State Funds $ 1.75 MILLION
- Widen Cannon Drive in support of SR315 off-ramp project, needed to improve access to Hospitals and to campus from the west.
- Supports concept of campus loop road.

BRICKER HALL MECHANICAL SYSTEMS IMPROVEMENTS $ 1.16 MILLION
- Complete renovation of the mechanical system in Bricker Hall.
- Conserves resources to realize their greatest value.

PARKING PROJECTS Local Funds $ 0.56 MILLION
- Expansion of surface parking on West Campus.
- Supports the Long Range Parking Plan.

MASTER PLANNING Local Funds $ 0.5 MILLION
- Long-range planning for facility development and reconstruction.
- In support of Academic Planning.

SUPPLEMENTAL RENOVATIONS $ 3.0 MILLION

TOTAL STATE FUND REQUEST $95.7 MILLION
TOTAL OTHER FUNDS $21.3 MILLION

PART III - LONGER RANGE ISSUES

- Location of new Business Building
- Amount and location of classroom space
- Use of Lord Hall for a new physical sciences complex
- Selection of best location for student activities center
- Location and scope of Visitor's Center
- Location and funding of new Library

Office of Campus Planning and Space Utilization
June 6, 1991
APPENDIX LXXXVI

BOARD OF TRUSTEES OVERSIGHT COMMITTEE FOR
THE ARTHUR G. JAMES CANCER HOSPITAL AND RESEARCH INSTITUTE

Adopted by the Board of Trustees, June 7, 1991
(See page 1331)
Board of Trustees Oversight Committee for
The Arthur G. James Cancer Hospital and Research Institute

Background

Policy on Membership and Operation

1. The Oversight Committee shall be composed of
   a. Two members of the Board of Trustees, each to be appointed by the Board for a
      one-year term (commencing May 1 and ending 30 April), one of whom shall
      serve as Chair of the Committee;
   b. The Director of The Arthur G. James Cancer Hospital and Research Institute;
   c. The Executive Director of University Hospitals;
   d. A senior physician and faculty member appointed by the President for a one-year
      term;
   e. A senior University administrator appointed by the President for a one-year term.

2. The Oversight Committee shall serve as an advisory committee to the Board of Trustees
   with respect to the governance and operation of The James Cancer Hospital and
   Research Institute. The Committee shall
   a. Regularly review the management, patient care services, research activity, fiscal
      management, planning, accreditation requirements, and all other aspects of the
      operation of the James Cancer Hospital;
   b. Regularly advise the Board of Trustees and the President with respect to the
      operation and make recommendations as appropriate;
   c. Make recommendations to the Board of Trustees as appropriate concerning
      compliance with the Joint Commission on Accreditation of Healthcare
      Organizations standards regarding governance of the James Cancer Hospital;
      and
   d. Monitor the current free-standing status of the James Cancer Hospital to
      determine the long-term viability and effectiveness of this organizational model.
   e. Have such other responsibility as may be assigned, from time to time, by the
      Board of Trustees.

3. The Administrator of the James Cancer Hospital, in consultation with the Secretary of the
   Board of Trustees, shall provide staff resources to assist the Committee in its activities.

4. The Committee shall meet monthly, unless otherwise determined by the Chair, and shall
   report regularly to the Board of Trustees.

5. The administrative management including the medical and educational components of
   the James Cancer Hospital shall continue to report to the President with coordination
   provided through the Office of the Vice President for Health Services.

1385
MEMORANDUM

SUBJECT: Proxy Solicitations

DATE: May 31, 1991

FROM: James L. Nichols, Treasurer

TO: Board of Trustees, The Ohio State University

During the month of May 1991, the University voted 34 proxies.

Management proposals were as follows:

1) Election of the Board of Directors;
2) Ratification of the independent auditors;
3) Adoption of a Stock Incentive Plan;
4) Approval of Non-Employee Directors' Stock Plan;
5) Approval of changes to the time-phased voting structure;
6) Permit increase in the number of authorized shares of common stock;
7) Approval of Stock Option Plan;
8) Approval of amended merger offer;
9) Ratification of certain employee benefit plans authorizing the Board of Directors to establish a reserve of Class A common stock for issuance pursuant to the plan;
10) Approval to eliminate action by shareholders by written consent;
11) Approval of amendment to authorize issuance of additional preferred stock;
12) Adoption of amendment to require 4/5 vote of all classes of stock entitled to vote in order for stockholders to make, alter, amend, or repeal By-Laws;
13) Ratification of amendment dealing with indemnification of Officers and Directors;
14) Approval of the par value of Class A common shares and clarification of certain provisions pertaining to the repurchase of Class A common shares;
15) Elimination of certain references to certain shares of preferred stock;
16) Approval of amendments establishing qualifications for Directors.

The shareholder proposals were as follows:

1) Terminate remaining economic relationships with South Africa and establish a policy not to renew any economic ties to South Africa until apartheid ends;
2) Withdraw from South Africa thereby cutting all economic ties to that country;
3) Ensure that the company's products sold in South Africa, through an independent licensee, are not sold to South African police or military and ensure that the same company adheres to the Sullivan Principles;
4) Establish annual election of Directors;
5) Provide for cumulative voting in the election of Directors;
6) Identify by name and corporate title in all future proxy statements those executive officers who are contractually entitled to receive in excess of $100,000 as annual base salary, along with any additional bonuses and other cash payments due them;
7) Restore limited pre-emptive rights to the shareholders;
8) Adopt a policy whereby the company will not discriminate when entering into a negotiated contractual agreement;
9) Require the company’s European affiliate to implement and/or increase activity on each of the nine MacBride Principles relating to Northern Ireland;
10) Approve the company to become a signatory of the Valdez Principles.

The University abstained from approving an amended merger offer; however, it voted for all other Management proposals and for the shareholder proposals regarding South Africa. The University voted against all other shareholder proposals. Additionally, Management opposed all shareholder proposals.

The 34 corporations were:

1) Accel International Corporation
2) American Stores Company
3) The Andersons Management Corporation
4) Arkla Exploration Company
5) Bally Manufacturing Corporation
6) Berlitz International, Incorporated
7) Beverly Enterprises, Incorporated
8) Brown Group, Incorporated
9) Century Telephone Enterprises, Incorporated
10) Charming Shoppes, Incorporated
11) Circuit City Stores, Incorporated
12) Circus Circus Enterprises Incorporated
13) Citizens Utilities Company
14) CUC International Incorporated
15) Dillard Department Stores, Incorporated
16) The Dreyfus Corporation
17) The Gap, Incorporated
18) General Motors Corporation
19) Genesco Incorporated
20) Genagthy and Miller Incorporated
21) Lotus Development Corporation
22) May Department Stores Company
23) Merry-Go-Round Enterprises, Incorporated
24) Mitchell Energy and Development Corporation
25) Ohio Bar Liability Insurance Company
25) Pacific Telecom, Incorporated
27) The Pep Boys – Manny, Moe and Jack
28) Thermo Electron
29) Tonka Corporation
30) Toys “R” Us, Incorporated
31) USF&G Corporation
32) US Healthcare, Incorporated
33) Vishay Intertechnology Incorporated
34) Waban, Incorporated

Columbus, Ohio, July 12, 1991

The Board of Trustees met at its regular monthly meeting on Friday, July 12, 1991, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio, pursuant to adjournment.

**                          **                          **

Minutes of the last meeting were approved.

**                          **                          **
July 12, 1991 meeting, Board of Trustees

The Chairman, Mr. Teaford, called the meeting of the Board of Trustees to order on July 12, 1991, at 11:30 a.m. He requested the Secretary to call the roll.

--0--

INTRODUCTION OF NEW STUDENT TRUSTEE

It is my very great pleasure to introduce Ms. Kristen Cusack. She is the newest Student Trustee on this Board, having been appointed by Governor Voinovich to serve a two-year term ending May 13, 1993.

Ms. Cusack is currently an undergraduate student, in her fourth year, from Beavercreek, Ohio. I notice that the Dayton area is overdoing it in producing student trustees for us. She is studying interpersonal/organizational communication at Ohio State.

In 1989, she was one of fifty freshmen to participate in the first Leadership Ohio State Conference, and is currently a member of the Undergraduate Student Government Cabinet and serves as Chairperson of the Presidents' Council.

We are all very pleased to have you with us, Kristen, and we know that you will enjoy the next two years that you will be serving with us.

--0--

PRESIDENT'S REPORT

President Gee:

Since this Board met in June, we have added 5,328 enthusiastic alumni to the rolls of The Ohio State University Alumni Association through graduation; we have broken ground for the Science-Engineering Library and the new Mathematics Tower that will add considerable square feet of much needed floor space and certainly for our library collection, a book capacity of 425,000 volumes, to our University Libraries; and, I have driven more than 1,000 miles in 26 counties visiting with our friends around the State of Ohio.

I can share with you the variety and richness of this State and of this great University by listing a few of the more interesting spots I have visited in 8 days of touring:

--I experienced an abrupt contrast of cultures, traveling from an Amish farm in Geauga County to one hour later touring the NASA Lewis Research Center outside Cleveland;

--I saw 8 tons of radishes being packed at the "muck vegetable" fields of Huron County;

--I stopped by the Cincinnati Bengals practice facility and learned a great deal more about Ohio Stadium's turf field development and management; and
PRESIDENT’S REPORT (contd)

President Gee: (contd)

--I toured the world’s largest ketchup factory, the Heinz plant in Fremont, and in Montgomery County, a solid waste disposal incinerator -- where I learned (and smelled) more about trash than I ever wanted to!

--In these 8 days of touring, I met with my colleagues at Bowling Green, Lorain County Community College, Miami, the University of Cincinnati, Xavier, Northern Kentucky, and Wilmington College.

--This being "National Ice Cream Month," we held a half-a-dozen ice cream socials with our alumni, including freshmen and their families, and prospective students.

The list of activities is much longer, but this gives you at least a flavor of the State tour that I have been conducting.

What is Ohio State learning from all of these travels? What is our cost benefit, I would add?

I listened to the independent nurserymen in north-eastern Ohio and the senior executives of ARMCO Steel in Middletown express their concerns about the work force needs of their fields: technically trained persons with a broader liberal education and the ability to think and to innovate.

I listened to school board members and superintendents in Butler County, Hispanic community leaders in Lorain County, and Chamber of Commerce leadership in Cincinnati as they shared concerns about the quality of K through 12 education.

I learned of the many ways The Ohio State University is touching the people of this State.

--The model solid waste disposal program in Montgomery County has been developed and implemented with our Cooperative Extension faculty. It is estimated that their work is saving the Dayton area about $650,000 annually.

--Ohio State research on tomato varieties is credited with adding $3.5 million a year to the vegetable business through increased yields, and with saving the solid-pack tomato business in this State. The tomato processing industry is a $200 million business in Ohio.

The number of ways we are involved in the life of this State is as great as the diversity of disciplines and people within the University.

As part of this traveling activity, I have been joined at various times by a number of very distinguished members of our faculty, senior staff, and colleagues from admissions, development, alumni, communication, and honors. It is and has truly been a team effort.

I took the opportunity also to visit with members of the General Assembly in their home districts. This was enormously important, and I was pleased to have the opportunity to tell them, in the company of their constituents, of our appreciation for their interest and support for higher education and of this University.
PRESIDENT’S REPORT (contd)

Not only around the State, but on each of our campuses, the summer quarter is certainly not the quiet interlude that some would think. There are a number of accomplishments and activities to which I would like to call your attention. However, this morning I will, instead, turn to two matters of great import that are before you.

I am today recommending a number of changes in the administrative structure that reorganizes and realigns some of our very important activities. These moves are intended to enhance our effectiveness, respond to our budget constraints, and support our priorities in the coming years. Let me comment briefly on a few important points in this proposed reorganization.

I have talked repeatedly about decreasing bureaucracy and increasing the responsiveness of the administrative structure at this University. The steps recommended today will go a long way toward that objective.

The reorganization of the Office of Student Affairs and of support services for students will, I believe, improve our ability to be a "user friendly" University. Furthermore, as what will be Vice President for Student Affairs, Russ Spillman can give the development of a quality campus environment the priority it requires.

Realigning the Office of University Communications and Development into separate entities will more clearly capture their energies and talents. To successfully convey the mission and accomplishments of the University, we need a coordinated strategy for reaching all constituencies. And, as the budget being presented today makes clear, we must take maximum advantage of our fund-raising potential to promote quality in all that we do.

Consolidating the personnel, human relations, and affirmative action functions into the Office of Human Resources and Relations, headed by a vice president, will better meet the needs of our diverse and challenging work force. Likewise, responding to the complexity of the institution and the challenging legal issues in our society, I am recommending an Office of Legal Affairs under the direction of a General Counsel.

I am also recommending the appointment of a Special Assistant for Business/Community Relations. After my recent travels, I am even more reinforced in the critical importance of such an office to furthering the interests of higher education and of Ohio State across the state.

I want to emphasize that this is the only new position called for in this restructuring. We are seeking to simplify structures and better use our resources through these administrative recommendations.

With the arrival of our new Vice President for Research, and as we move forward with the searches for three vice presidents, and with this new structure, our administrative pattern is more clear and our activity more focused. I see an opportunity for renewed vigor, for creativity, and certainly for a strengthened University in the future.
President Gee: (contd)

To that end, Mr. Chairman, I would like to recommend for the Board's approval, the resolution on the restructuring of the University administration as noted in your Board book.

RESTRUCTURING OF THE UNIVERSITY ADMINISTRATION -- AMENDMENTS TO THE BYLAWS OF THE BOARD OF TRUSTEES AND RULES OF THE UNIVERSITY FACULTY

Resolution No. 92-1

Synopsis: Approval of amendments to the Bylaws of the Board of Trustees and Rules of the University Faculty to reflect title changes and the delineation of responsibilities in accordance with the recommended restructuring of the University administration is recommended.

WHEREAS as a part of the restructuring of the University administration, amendments to the Bylaws of the Board of Trustees and Rules of the University Faculty are necessary to effectuate the changes proposed; and

WHEREAS paragraph (E) of bylaw 3335-1-03 and faculty rule 3335-3-05 delineates the composition of the president's executive committee and incorporates changes made pursuant to the proposed restructuring of the central administration of the University; and

WHEREAS the recommendations for reorganization and realignment of the central administrative structure is made pursuant to The Ohio State University's traditional landgrant mission of teaching, research, and service:

NOW THEREFORE

BE IT RESOLVED, That pursuant to rule 3335-1-09 of the Administrative Code and upon the recommendation of the President, the proposed amendments to the Bylaws of the Board of Trustees and the Rules of the University Faculty are hereby adopted; and

BE IT FURTHER RESOLVED, That the Secretary of the Board of Trustees is hereby authorized and directed to incorporate the recommended changes -- title changes, unit designations, and unit realignments in the applicable sections in the Bylaws of the Board of Trustees and the Rules of the University Faculty; and

BE IT FURTHER RESOLVED, That the referenced changes should be reflected in the next printing of these official records of the Board of Trustees.

Upon motion of Mr. Celeste, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

(See Appendix I for complete context on Realignment and Reorganization, page 63.)
PRESIDENT'S REPORT (contd)

President Gee: (contd)

Mr. Shkurti will present to you later in this meeting the University's budget for Fiscal Year 1991 and you have already heard discussion in our Fiscal Affairs Committee. I want to express my appreciation to all of you and certainly all of our friends across the state for your support and their support in this very challenging budget process.

While this is the most difficult budget confronted by this University in decades, I think when you look around at what is happening in other states, you realize that it could, of course, been a lot worse. I want to express special thanks to our legislative leaders, particularly House Speaker Vern Riffe and Senate President Stan Aronoff, for their work in this very, very difficult time. The conference committee process demanded extraordinary commitment from a number of people including Representative Pat Sweeney, Senator Ted Gray, and Senator Gene Watts. It is reassuring to know that higher education has so many friends in the General Assembly, as we look forward to continuing to build that support.

I also want to thank Dr. Herb Asher for his tireless work in representing us downtown, to Bill Shkurti and his staff, and to Steve Stoffel and his colleagues for their Herculean efforts. I understand by the way, and I've just looked around the room, that some of the key staff people who worked on this budget are here today, and I would like to recognize them at this time. I would ask them to stand, because often we do not get a chance to see these folks and they do a remarkable job. First, of all Janet Achterman, University Controller; David Boyne, Associate Provost for Academic Affairs; Elizabeth Hart, Director of the Office of Financial Management; Eric Kunz, Director of University Budget Planning; Steve Stoffel, Associate Vice President for Human Resources; Penny O'Neil, Assistant Vice President for Human Resources; and John Lowe who is in charge of Budget Planning. These folks have put in long days and late nights and deserve our thanks. Let's give them a big round of applause. And, thank you for being here today.

Finally, Mr. Chairman, I wish to report to this Board on the activity of the Wexner Center Foundation. Created a year ago, the foundation has as its purpose to seek and administer funds for the artistic and educational programs of the University's Wexner Center for the Arts. The Foundation met in November, with all members present, and you will recall from my report at that time, we announced the creation of a significant artistic award, and of creative residencies.

The Foundation underwrote the performance of The White Oak Dance Project featuring Mikhail Baryshnikov with choreography by Mark Morris. Chaired by Foundation Board member Charlotte Kessler, the Director's Circle of annual contributors of more than $1,000, was initiated with 109 charter members.

Choreographer Twyla Tharp and members of her company will be in residence this fall, and we anticipate a notable performance by Ms. Tharp at Mershon Auditorium in the autumn. Such a distinguished artist sets a high standard for the new residency program. The foundation's second meeting in June included the presentation of the Wexner Center's first major publication, Breakthroughs.

We were delighted to approve a new board member of the Foundation, Sherry Lansing, partner in Jaffe/Lansing, producers of major Hollywood feature films, and former president of 20th Century Fox.
PRESIDENT'S REPORT (contd)

President Gee: (contd)

Topics under discussion at the spring board meeting included development of new members and increased private support. We also reviewed the selection of the Wexner Prize recipient, to be announced later in the year.

I am delighted with the progress of the Wexner Center and I am particularly pleased to present this brief overview to you, and wish to acknowledge how fortunate The Ohio State University is to have the dedication, loyalty, and spirit of this outstanding board in support of the University's Wexner Center for the Arts.

Mr. Chairman, that represents my report for today.

Mr. Teaford:

Thank you, Mr. President. I might comment if you are to read through the Board of the Wexner Center Foundation you would find no greater array of talents and luminaries in the arts than can be assembled. We really appreciate their involvement in this University.

--0--

RESEARCH FOUNDATION REPORT

Ms. Casto:

I'd like to welcome Dr. Hayes, who is now here permanently and we had a chance to meet earlier this week.

The Ohio State University Research Foundation held its Annual Members' Meeting on June 13, 1991. At the meeting the Board unanimously elected a slate of officers including the following: President, Edward Hayes; Vice President, Roy Koenigsknecht; Treasurer, William Shkurti; and Executive Director, Thomas Sweeney.

The Board elected Dr. Charles A. Bauer, a Managing Partner of Management Sage in San Francisco, as a new Alumni Member. Elected to second terms were Dr. William Hildebolt, Vice President for Research and Development at R.J. Reynolds Industries in Winston-Salem as Alumni Representative, and Professor Jean Snook as a Faculty Member.

Dr. Mary Ellen Sheridan reported on the annual meeting of the University Connected Research Foundations held in April. Participation in this group is by invitation. Discussion items included operating policies, procedures, problems, and opportunities in research. She said The Ohio State University will host the 1992 meeting.

A listing of Research Foundation grants and contracts through May 1991 appears in the Board agenda book. Awards number 1,298 with a gross income of $111 million. The funding level is 3 percent ahead of the first eleven months of the previous fiscal year. There are increases in several categories including Federal and State of Ohio.
RESEARCH FOUNDATION REPORT (contd)

Ms. Casto: (contd)

Some projects include: $178,000 from the Department of Labor for a project on self employment and training in Poland; $115,000 from NASA for research on the surface properties of the Greenland Ice Sheet; and $42,000 from the Columbus Foundation for a pilot program on science education in the Columbus Public Schools.

We plan to have a new format for the presentation of the Research Foundation report beginning with the September Board meeting. You should have before you a sample of the new format, this is what we have moved to. As you know we just used to get all the report of awards and even if you read through them you wouldn’t understand what was going on. So we are trying to get some kind of format so everyone can understand what we are doing, because it is such an important area here at the University.

Mr. Teaford:

I would appreciate any comments the Board might have.

Ms. Casto:

I welcome any suggestions for improvement either before the September meeting or later as we get used to working with it. Any questions? Thank you.

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS

Resolution No. 92-2

Synopsis: Approval of the following reports on contracts, grants, and gifts and the summary for May 1991 is proposed.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, and The Ohio State University Development Fund:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station, and The Ohio State University Development Fund during the month of May 1991 be approved.

Upon motion of Mr. Barone, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

(See Appendix II for background material, page 73.)

HOSPITALS BOARD COMMITTEE REPORT

Mr. Celeste:

The Professional Affairs/Education/Research Committee of the Hospitals Board met on Thursday, June 27. The Committee, in executive session, reviewed a personnel action.

The Committee also reviewed and endorsed two proposed amendments to the Medical Staff Bylaws and the medical staff appointments and reappointments recommended by the Medical Director.

Mr. Fraley presented a progress report on actions being taken to reduce the amount of waiting time for patients being admitted to University Hospitals.

The Committee recognized Dr. William Smead for outstanding accomplishments during his two-year term as Chief of Staff, and extended best wishes to Ms. Dolores Wilkes who has resigned from the Hospitals Board to accept a new position in Idaho.

Pursuant to the actions that were taken, the Board needs to act on two resolutions which I would like to present to the Board. The first resolution is:

AMENDMENTS TO THE MEDICAL STAFF BYLAWS

Resolution No. 92-3

Synopsis: The approval of the amendments to the Medical Staff Bylaws is proposed.

WHEREAS The Ohio State University Hospitals Board pursuant to Bylaw 3335-101-04 of the Hospitals Board Bylaws is authorized to recommend to the Board of Trustees the adoption of amendments to the Medical Staff Bylaws; and

WHEREAS the proposed amendments to the Medical Staff Bylaws 3335-43-04 and 3335-43-10 were approved by the University Hospitals Board, May 30, 1991, as follows:

AMENDED BYLAWS

3335-43-04 Membership.

(A) Qualifications.

(1) through (2) unchanged.

(3) Resignation, termination, or non-reappointment to the faculty of the Ohio state university shall result in immediate termination of membership on the medical staff of the Ohio state university hospitals.

Balance unchanged.
AMENDMENTS TO THE MEDICAL STAFF BYLAWS (contd)

3335-43-10 Administration of the medical staff of the Ohio state university hospitals.

Medical staff committees.

(A) through (C) unchanged.

(D) Committee for physician health

(1) Composition

(A) Five (5) medical staff members.

(B) Reappointed annually for terms up to three (3) years.

(2) Duties

(A) To consider issues of physician health or impairment when requested to do so by the physician or another member of the medical staff, hospital staff, or any other individual.

(B) To provide appropriate counsel and referral to enable physician to provide appropriate standards of care.

(C) To consult regularly with the chief of staff and medical director of the hospital.

(D) To advise credentials and/or other appropriate medical staff committees on any issues affecting the quality of patient care.

(E) It will be the responsibility of the chairman of the committee to assure that all proceedings and records are handled and kept with utmost confidentiality.

(3) Meetings. Quarterly or as often as needed.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the Medical Staff Bylaws be adopted as recommended by the University Hospitals Board.

Upon motion of Mr. Celeste, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

UNIVERSITY HOSPITALS BOARD APPOINTMENTS

Resolution No. 92-4

Synopsis: Approval of the appointment of two Hospitals Board members is proposed.

WHEREAS the Board of Trustees on November 30, 1979, approved the establishment of a University Hospitals Board; and
UNIVERSITY HOSPITALS BOARD APPOINTMENTS (contd)

WHEREAS the membership of the Hospitals Board was approved on April 4, 1980, and has been subsequently amended; and

WHEREAS Dr. Floyd D. Loop of Cleveland, Ohio, has been recommended for appointment as a Hospitals Board Member; and

WHEREAS Dr. Grayce M. Sills has been recommended to fill the unexpired term of Dolores R. Wilkes:

NOW THEREFORE

BE IT RESOLVED, That Floyd D. Loop, M.D. be appointed as a general public member of the University Hospitals Board for a term of three years, effective July 1, 1991; and

BE IT FURTHER RESOLVED, That Grayce M. Sills be appointed as a general public member of the University Hospitals Board to fill Dolores R. Wilkes unexpired term ending April 30, 1993.

Upon motion of Mr. Celeste, seconded by Mr. Colley, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Mr. Teaford:

I would note, particularly, that Dr. Loop’s appointment is important as further emphasis of our continuing venture with the Cleveland Clinic and we are fortunate to have Dr. Loop willing to serve on our Board. I might add also that Dr. Sills is a former Acting Dean of the College of Nursing, now a Professor Emeritus, and will be a superior addition as well.

--0--

CANCER HOSPITAL REPORT

Mr. Barone:

I wish to inform you that my associate, Mr. Jack Kessler, was chairman of this meeting and did an excellent job. The Oversight Committee of The Arthur G. James Cancer Hospital and Research Institute met for their first meeting on Monday, July 1, 1991. Dr. David Schuller gave an overview report of the Cancer Hospital and Comprehensive Cancer Center activities. Dr. Schuller’s report focused on those issues related to the opening and initiation of operations as well as current activities of both programs. Following Dr. Schuller’s report, Dennis Smith reviewed the May 1991 financial as well as the year-to-date report. It was pointed out that for the month of May, admissions were 22.1 percent over budget at an actual admission number of 315 patients. There were 2,427 patient days compared to a budget of 2,321 with an average daily census of 78.3 compared to a budget of 74.9. The budgeted net income (loss) for May was a loss of $550,000.00 with actual loss of $371,000.00. Following the May financial report, Dennis Smith presented the fiscal year 1991-92 budget which reflected a 7.7 percent rate increase and a projected net loss of $4,340,000.00. The Oversight Committee approved the budget package and in concert with the Board of Trustees approval, initiated the budget effective July 1, 1991.
CANCER HOSPITAL REPORT (contd)

Mr. Barone: (contd)

Following the approval of the fiscal year 1991-92 budget package, Dr. Schuller gave a report on Development activities at The Arthur G. James Cancer Hospital and Research Institute.

Following these activities, a report on Strategic Planning was given by Dennis Smith providing background information to the committee on the Douglas Group of Deloitte & Touche and an update of current progress. He indicated that there will be a major planning retreat on July 10, 1991, to be held at the Ramada Inn at which time the team leaders will review current operational data. The Strategic Planning activities are on target and should be completed by mid October 1991.

Dennis Smith reported to the committee on the newly formed Ohio State University Hospital/Cancer Hospital and Research Institute combined Quality Assurance/Utilization Review Committee. This committee will serve a duel function in reviewing and acting upon quality assurance issues relative to both Hospitals. The committee will meet for the first time in early July and review quality assurance issues of the Cancer Hospital at that time. All reports from the combined committee will be forwarded to the Cancer Hospital and Research Institute Oversight Committee for action and reporting to the University Board of Trustees.

Finally, there was a proposal approved for future meeting dates. We will be meeting at least once a month, in fact our next meeting is scheduled for July 19 at 8:00 a.m., instead of 7:30 a.m.

Also on file is a chart program for the costs and income of the Cancer Hospital. Mr. Chairman, I would like to thank you for initiating this committee. You and I discussed it, and I think it is going to be very effective and beneficial.

Also, I would like to call your attention to the magazine that has been handed out. It is called Frontiers and it is about the James Cancer Hospital. Most of the articles are clearly written; a layman could understand them. It is a tremendous piece of writing. I wish to commend everyone at the Cancer Hospital who worked on this and on behalf of the Board, thank all of you. Mr. Chairman, that completes my report.

Mr. Teaford:

Are there any questions for Mr. Barone or Mr. Kessler?

Mr. Kessler:

We do have a good committee, it is a small committee, and we have had our first meeting as John said. Our second meeting is coming up next week. Dennis Smith is here today if there are any questions for him. Dennis is Secretary of our Oversight Committee and Director of Administration at the Arthur G. James Cancer Hospital. I think this Board is going to hear a lot more in the many months to come about the Hospital, and I am pleased to be on the committee with John. We are hard working and we will report back to you.
CANCER HOSPITAL REPORT (contd)

Mr. Kessler: (contd)

I am also very pleased with the fund drive. They have a Board of laypeople that are very effective in this community and this is a wonderful asset for the State of Ohio. We are starting to raise money -- we have a lot of money that we need to raise, but I think we are off to a good start. Unless there are questions, that is our report.

Mr. Teaford:

Thank you, Gentlemen, both for your report and your work.

--0--

UNIVERSITY FOUNDATION AD HOC COMMITTEE REPORT

Mr. Shumate:

The Ad Hoc Committee on the University Foundation, consisting also of Debbie Casto and Milt Wolf, was originally appointed on April 10, 1991. The Committee received three specific charges:

1) To review the structure and the functions of the Foundation and to make appropriate recommendations to this Board concerning both the structure and Foundation.

2) To advise this Board of Trustees on more effective ways to use the Foundation and its Board of Directors.

3) To recommend appropriate policy guidelines that would promote the best interest of The Ohio State University and assure effective coordination between the Foundation's activities with the policies of this Board of Trustees.

In the packet that was previously mailed to the members of the Board there is a set of final recommendations that the committee is recommending for adoption this morning. I might add, that in preparing these recommendations the committee met on a number of occasions. We held several work sessions and reviewed all the historical documents pertaining to the University Foundation. We looked at models at other universities, and interviewed members of the University staff, the administration, and members of the Foundation.

I would like to move at this time for adoption of the report and also adoption of the resolution which calls for the articles of incorporation and the code of regulations of the Foundation to be appropriately amended to reflect the recommendations of this committee.

REORGANIZATION AND REALIGNMENT OF THE UNIVERSITY FOUNDATION

Resolution No. 92-5

Synopsis: Recommendations for the reorganization and realignment of The Ohio State University Foundation is proposed.
REORGANIZATION AND REALIGNMENT OF
THE UNIVERSITY FOUNDATION (contd)

WHEREAS the Ad Hoc Committee on The Ohio State University Foundation was appointed by the Board of Trustees to review the structure and functions of the University Foundation, to advise the Board on more effective ways to use the Foundation and its Board of Directors and to recommend policy guidelines to promote the best interests of the University, while assuring effective coordination of the Foundation's activities with the policies of the Board of Trustees; and

WHEREAS the Ad Hoc Committee has completed its work and has submitted its report recommending several changes to enhance the Foundation's and its Board of Director's effectiveness in promoting the University's best interests and to assure the effective coordination between the Foundation and the Board of Trustees:

NOW THEREFORE

BE IT RESOLVED, That the Board adopts the recommendations of the Ad Hoc committee and authorizes the chairman to appoint a committee to implement the recommendations as specified in the Ad Hoc committee's report; and

BE IT FURTHER RESOLVED, That the Articles of Incorporation and the Code of Regulations of the Foundation be appropriately amended to reflect the recommendations of the Ad Hoc Committee.

Upon motion of Mr. Barone, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix III for Recommendations of the Ad Hoc Committee, page 93.)

Mr. Teaford:

Any questions of Mr. Shumate?. I particularly want to commend the work of that committee, it was not an easy job.

--0--

INVESTMENTS COMMITTEE REPORT

Amb. Wolf:

The Investments Committee did receive the Endowment Report for the 2-month period ending June 21, 1991. As of June 21, 1991, the market value of the Endowment was $360 million. And although the fund decreased $901,000 for the 2-month reporting period, I am pleased to report that it has increased $38.2 million since the beginning of the fiscal year, which began July 1, 1990.

Six of our nine equity advisors are outperforming the S & P 500 index. Of those equity managers, the University administered stock is the best performer with a 16.1 percent total return from June 1990, compared to 7.4 percent return for the S & P 500. Half of the fixed income advisors, half of the six, are beating their benchmark index. The University Ginnie Mae portfolio having the highest total return at 10.9 percent over the past year, compared to 10.1 percent for the benchmark index, which is the Lehman Government/Corporate Bond Index.
INVESTMENTS COMMITTEE REPORT (contd)

Amb. Wolf: (contd)

We also received the Endowment Quarterly Report as of June 21, 1991. It is interesting to note that 102 new endowment funds were created during this past fiscal year, the most new funds created since fiscal year 1987. So far this fiscal year, we have received $22.4 million in net gifts and additions, which makes this a record year. We also heard reports on the River Road Hotel Corporation and the Busch Boulevard Center and there was nothing unusual on those reports so I won't repeat them.

Mr. Teaford:

Does anyone have any questions for Ambassador Wolf?

Mr. Kessler:

How are the students doing?

Amb. Wolf:

The students are doing quite well. The student fund was one of the funds in the equity portfolio that exceeded the S & P 500. They are doing pretty well.

(See Appendix IV for complete context of The Ohio State University Endowment Summary, June 21, 1991, page 97.)

(See Appendix V for complete context of The Ohio State University Endowment Fund Quarterly Reports, June 21, 1991, page 113.)

--0--

AGRICULTURAL AFFAIRS COMMITTEE REPORT

Mr. Celeste:

As you know, we are attempting to set up a schedule for the Agricultural Affairs Committee that will take a look at how we can have more meaningful dialogue in this process with those folks impacted by the Agricultural Affairs Committee. And so we have determined to have four committee meetings throughout the balance of this year, starting in September. The first one will be held at 10:00 a.m., on the first day of the Farm Science Review at the Farm Science Review. We certainly welcome, in addition to the members of the Agricultural Affairs Committee, any members of the Board who could attend that committee meeting. Additionally, we will have the three other meetings, schedule not determined yet, one in Wooster, one in Portsmouth, and one here on this Campus, and we will let the Board members know when we have those.

--0--
Ms. Casto:

The Academic Affairs Committee heard a report from Provost Hutchinson and Associate Provost Boyne on the recruitment process for faculty positions. The first step in the process involves authorization to conduct a search, which is initiated at the department or school level, requires approval by the appropriate dean and the Provost before being posted in the University’s "green sheet". A search committee is appointed, including a designated affirmative action advocate as a member of the committee, and a detailed position description is developed.

The next step is to advertise the position on a national basis, including widely read outlets such as the Chronicle for Higher Education, disciplinary journals, and special mailings to departments or academic units at other universities. Special efforts are made to enhance the likelihood that positions are made known to women and minorities. The search committee has the responsibility for receiving nominations and screening applications, followed by recommendations to the department chairperson of a small group (three to five individuals) to be invited for an on-campus interview. Following the interviews, the members of the department or school will make input to the search committee and to the department chairperson. A decision will be made on the candidate to whom an offer will be made and the offer is extended by the department chairperson with the approval of the dean. In the period November 1989 through October 1990, this recruitment process resulted in 260 new, regular faculty appointments. Just to give everyone an idea, that is approximately, a little less than, 10 percent of the entire faculty, so that is quite significant.

Are there any questions about the process of recruiting?

Mr. Teaford:

I'd like to emphasize to everyone that she said that all appointments to the faculty of this University are the result of a national search. I think that that really stresses the eminence of the faculty at this University.

Ms. Casto:

In addition, the Committee is recommending the following resolutions:

RENAMEING OF BUILDING

Resolution No. 92-6

Synopsis: The Academic Affairs Committee recommended the renaming of building at 220-222 West 11th Avenue.

WHEREAS the Board of Trustees has authority in naming of all buildings and structures at The Ohio State University, as set forth in paragraph (F) of rule 3335-1-08 of the Administrative Code; and

WHEREAS upon the recommendation of the President, with the concurrence of the President's executive committee, it has been proposed that the building at 220-222 West 11th Avenue (commonly called the Ann Tweedale House and formerly named the Grace Graham Walker House) be renamed the "Alumnae Scholarship House" to reflect that the Alumnae Scholarship Housing (ASH) Program resides there:
RENMING OF BUILDING (contd)

NOW THEREFORE

BE IT RESOLVED, That hereafter the building located at 220-222 West 11th Avenue shall bear the name "Alumnae Scholarship House."

Upon motion of Ms. Casto, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY
Resolution No. 92-7

Synopsis: The Academic Affairs Committee recommended the approval of the following amendments to the Rules of the University Faculty.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the Rules of the University Faculty as approved by the University Senate; and

WHEREAS the proposed changes in the Rules of the University Faculty were approved by the University Senate on June 1, 1991:

AMENDED RULES

3335-5-487 Committee on academic misconduct.

(A) Membership.

The committee on academic misconduct shall consist of thirty-four members.

(1) Eighteen regular faculty, elected by the faculty council. The term of service is three years. No faculty member shall serve more than two consecutive terms.

(2) Fourteen students.

(a) Seven graduate students selected by the council of graduate students. The term of service is one year beginning with the autumn quarter.

(b) Seven undergraduate students selected by the undergraduate student government. The term of service is one year beginning with the summer quarter.

(3) Two administrators.

(a) The dean of student life or designee, non-voting.

(b) A coordinator, appointed by the senior vice president for academic affairs and provost, who shall not participate in the decisions of the committee.
AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

(4) Alternate members.

Faculty and students who have been regular members of the committee during the previous three years shall be eligible to be alternate members, providing they remain at the university in their same category.

(B) Unchanged.

(C) Organization.

(1) Unchanged.

(2) If the caseload of the committee should from time to time become such that cases cannot be set for hearing within four weeks (excluding periods of examinations or between quarters), the chairperson shall be empowered to ask alternate members to serve voluntarily and temporarily as members of hearing panels.

(3) As a standing committee of the senate, this committee is also governed by the provisions of rules 3335-5-46 and 3335-5-48 of the Administrative Code.

3335-7-33 Conditions and procedures for disenrollment from a course.

(A) The instructor (or in the case of a graduate teaching associate, the supervising faculty member), the chairperson of the instructor's department (with the agreement of the instructor), or other appropriate administrative official may disenroll a student from a course if:

(1) After the third instructional day of the quarter, semester, session, or term, the first Friday of the quarter, or the student's second scheduled class session of the course, whichever occurs first, the student fails to attend the scheduled course without giving prior notification to the instructor. Under this paragraph, no student may be disenrolled from a course until after the first course meeting following the student's registration. When the department elects to use this procedure, the instructor, the chairperson, or other appropriate administrative official shall notify the student's enrollment unit. The enrollment unit will notify the student and take appropriate action to remove the student from the course.

Since not all departments exercise the option to disenroll students in all courses, this rule does not relieve the student of the responsibility for dropping a course the student is not attending.

(2) The student enrolls to audit a course without the instructor's approval, or fails to meet the prerequisites of the course. Disenrollment procedures shall be the same as in paragraph (A)(1) of this rule.

(3) Before the third Friday of a quarter, semester, or session, or the second Friday of a summer term, and following completion of a placement examination, or another appropriate measure of preparation or ability, the student is judged to be registered in an inappropriate course. The department or school offering the course may then instruct the secretary of the college or school in which the student is enrolled to change the student's registration either to a more elementary or more advanced course.
AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

(B) Disenrollment, under paragraph (A) of this rule, is effective upon action of the instructor, department chairperson, or other appropriate administrative official.

(C) Credit for all rescheduled courses resulting from action under paragraph (A)(3) of this rule shall count toward the fulfillment of graduation requirements unless the student has previously earned university or college credit in a course having substantially the same subject matter content or the substituted course is one which the department or school, with the approval of the council on academic affairs, has established for students with inadequate preparation for college level courses of that department or school.

(D) If a student who has enrolled to audit a course fails to complete the requirements for audit specified by the instructor and also fails to withdraw from the course, the instructor shall so inform the office of the university registrar when marks are reported for the quarter, semester, or session. That office will then disenroll the student from the course, removing the course from the student's permanent record, and will notify the student and the student's college of the action taken.

(E) After investigation, including consultation with the instructor and the student in question, and utilizing other university resources, as desirable, the chairperson (or other appropriate administrative official) may disenroll a student from a course if the student presents a clear and present threat of bodily harm or injury to the instructor or fellow students, or, after warning, continues to engage in disruptive conduct, either of which results in impairment of teaching or learning processes:

(1) If, after attempting to resolve the difficulty by informal means, the department chairperson (or other appropriate administrative official) deems disenrollment necessary, the affected student shall be notified in writing. The notice shall be delivered by hand or sent through ordinary mail to the student at the last address supplied pursuant to rule 3335-9-09 of the Administrative Code. Copies of the disenrollment action shall be sent to the dean of the instructional college, the dean of the student's college, the office of the university registrar, and the office of student affairs.

(2) The student may appeal to the senior vice president for academic affairs and provost or designee for waiver of disenrollment under paragraph (E) of this rule, provided the appeal is filed within ten days of the disenrollment action. The senior vice president for academic affairs and provost shall make final determination on the appeal within seven days.

(3) Disenrollment is effective upon the action of the department chairperson (or other appropriate administrative official), unless reversed by the senior vice president for academic affairs and provost or designee.

(F) For disenrollment, exclusive of audit, under paragraphs (A) and (E) of this rule, the university registrar shall enter on the student's official permanent record:

(1) No mark, if the disenrollment occurs before five p.m. of the third Friday of a quarter, semester, or session course, or the second Friday of a summer term course; or

(2) The mark, "W," if the disenrollment occurs after five p.m. of the third Friday of a quarter, semester, or session course, or the second Friday of a summer term course.
AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

NEW RULE

3335-47-041 Exclusion of countable years of service from the probationary period for child care and serious illness.

(A) One year of service may be excluded from the probationary period of an untenured regular faculty member after the birth or adoption of a child under six years of age. Such exclusion shall be granted at the request of a faculty member. Each faculty member is entitled to a maximum of two one-year exclusions should more than one child be born or adopted during the probationary period. If both parents are untenured faculty members at the Ohio state university, they are entitled to a maximum of one year between them if one child is born or adopted or two years between them if two or more children are born or adopted. Exclusion of time from countable years of service during the probationary period is not contingent upon a reduction in percent appointment or upon taking an official leave of absence. Requests for excluding time from the probationary period shall be made by the faculty member to the chairperson or director of the tenure initiating unit. The request must be made within one year of the birth or adoption and prior to the beginning of the final year of the probationary period.

(B) Service time may be excluded from the probationary period at the request of a faculty member who must devote substantial time to the care of a seriously ill or injured person. Should such circumstances occur, up to two years of service time may be excluded from the probationary period. Requests for excluding time from the probationary period shall be made by the faculty member to the chairperson or director of the tenure initiating unit. The request must be made prior to the beginning of the final year of the probationary period.

(C) Service time may be excluded from the probationary period at the request of a faculty member who is stricken with a serious illness or injury. Up to two years of time may be excluded from the probationary period depending upon the nature and duration of the illness. Requests for excluding time from the probationary period shall be made by the faculty member to the chairperson or director of the tenure initiating unit. The request must be made prior to the beginning of the final year of the probationary period.

(D) Under this rule, a maximum of two years of service may be excluded from the probationary period.

(E) Requests to exclude service time from the probationary period under paragraph (A) of this rule shall be reported to the dean or director and senior vice president for academic affairs and provost. Requests to exclude service time from the probationary period under paragraphs (B) and (C) of this rule shall be reviewed by the chairperson or director of the tenure initiating unit with the advice of the unit's promotion and tenure committee. Recommendations for approval or disapproval under paragraphs (B) and (C) of this rule shall be forwarded to the appropriate dean for his/her recommendation. Both the unit and college recommendations shall be forwarded to the senior vice president for academic affairs and provost whose decision shall be final. (In the case of a faculty member serving on a regional campus, the request shall also be reviewed by the regional campus dean and director with the advice of the regional campus promotion and tenure committee. The dean and director's review shall be forwarded to the chairperson or director of the tenure initiating unit.)
AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

Rescinded Rules

3335-7-30 and 3335-7-31

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the Rules of the University Faculty be adopted as recommended by the University Senate.

Upon motion of Ms. Casto, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

HONORARY DEGREES

Resolution No. 92-8

Synopsis: The Academic Affairs Committee recommended the approval of honorary degrees for Helmut Moritz and Harold A. Sorgenti.

WHEREAS the Committee on Honorary Degrees and the University Senate, pursuant to rule 3335-5-488 of the Administrative Code, have approved for recommendation to the Board of Trustees awarding of honorary degrees as listed below:

   Helmut Moritz      Doctor of Science
   Harold A. Sorgenti     Doctor of Humane Letters

NOW THEREFORE

BE IT RESOLVED, That the honorary degrees be awarded in accordance with the recommendation at a time convenient to the University and the recipients.

Upon motion of Ms. Casto, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

DEGREES AND CERTIFICATES - SUMMER QUARTER COMMENCEMENT

Resolution No. 92-9

Synopsis: The Academic Affairs Committee recommended the approval of Degrees and Certificates for Summer Quarter.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and
WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees the names of persons who have completed degree and certificate requirements:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on August 30, 1991, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

 Upon motion of Ms. Casto, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

PERSONNEL ACTIONS

RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the June 7, 1991 meeting of the Board, including the following Appointment, Reappointment of Administrative Official, Appointment of Chairpersons of Departments and Director of Center, Reappointment of Chairpersons of Departments and Director of Center, Leaves of Absence Without Salary--Change in Dates, Professional Improvement Leaves, Professional Improvement Leaves--Change in Dates, Promotions and Tenure, Appointments/Reappointments of Emeritus Titles, Medical Staff Reappointments (The Arthur G. James Cancer Hospital and Research Institute), and Medical Staff Change in Titles (The Arthur G. James Cancer Hospital and Research Institute) as detailed in the University Budget be approved and the Medical Staff Appointments (The Ohio State University Hospitals) approved May 30, 1991, by the Hospitals Board be ratified.

Appointment

Name: JAMES H. BROWN
Title: Acting Director and Acting Associate Dean
Center/College: Ohio Agricultural Research and Development Center/Agriculture
Term: July 1, 1991 through June 30, 1992
Salary: $97,080.00
Present Position: Associate Director, Ohio Agricultural Research and Development Center and Professor

Reappointment of Principal Administrative Official

MANUEL TZAGOURNIS, Dean of the College of Medicine, effective July 1, 1991 through June 30, 1996, pursuant to rule 3335-3-17 of the Administrative Code.

Appointment of Chairpersons of Departments and Director of Center

July 1, 1991 through June 30, 1992

RESOLUTIONS IN MEMORIAM

Resolution No. 92-11

Synopsis: The Academic Affairs Committee recommended the approval of the Resolutions in Memoriam for Paul C. Clayton, Lisa A. Gunyula, Sue Ann Longenecker, Olive W. Parrish, Norman L. Somerson, and Carroll A. Swanson.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.
RESOLUTIONS IN MEMORIAM (contd)

Paul C. Clayton

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 1, 1991, of Paul C. Clayton, Professor Emeritus in the Department of Poultry Science.

Dr. Clayton was born in Upper Sandusky, Ohio, on October 16, 1924, and lived during his early years in Bucyrus, Ohio. He was an army veteran of World War II. He received the B.S., M.S., and Ph.D. from The Ohio State University in 1949, 1950, and 1954, respectively. Between 1953 and 1955, he was employed as Assistant Professor and Extension Poultry Marketing Specialist, Department of Agricultural Economics, University of Nebraska, Lincoln, Nebraska. In 1955, he was appointed as Assistant Professor of Poultry Extension, The Ohio State University. In 1957, the appointment was expanded to include poultry marketing work for the Experiment Station. Dr. Clayton was appointed to teach the poultry marketing and farm management courses in the Department of Poultry Science in 1959. He was promoted to the rank of Associate Professor in 1960.

Dr. Clayton was extremely active in The Ohio State University International effort between the years 1961 and 1972. From 1961-64, he was a member of The Ohio State University - USAID Agricultural University Development Team, Punjab Agricultural University, Ludhiana, Punjab, India. After one year back in the Department, he participated as a member of The Ohio State University - USAID Agricultural University Development Team, University of Udaipur, Udaipar, Rajasthan, India from 1965-68. Upon his return from India, he served as Assistant Group Leader and member of The Ohio State University - USAID Agricultural University Development Team, College of Agriculture, University of Sao Paulo, Pircicaba, Brazil for the years 1968-71. He then returned to India for two years at the Haryana Agricultural University, Hisar, Haryana, India.

From 1972 until his retirement in 1985, he was Professor and Extension Specialist, Department of Poultry Science. Dr. Clayton published a variety of extension, industry, and Experiment Station articles and bulletins on poultry, egg, and meat marketing. He contributed monthly articles for a departmental newsletter distributed to the Ohio Poultry Industry.

Dr. Clayton was a member of The Poultry Science Association, American Agricultural Economics Association, World's Poultry Science Association, and Gamma Sigma Delta.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Lisa A. Gunyula

The Ohio State University Board of Trustees expresses its sorrow upon the death on February 1, 1991, of Dr. Lisa A. Gunyula, Clinical Assistant Professor in the Department of Pediatrics.

Dr. Gunyula was born September 4, 1962, in Salem, Ohio. She graduated from Kent Roosevelt High School in 1980, and in 1986 she graduated summa cum laude from North Eastern Ohio University College of Medicine after completing a six-year medical program through the University of Akron.

She completed her three-year pediatric residency at Children's Hospital in Columbus under Medical Director, Grant Morrow III, M.D., chairperson of the Department of Pediatrics at Ohio State, and followed that up by serving one year as a chief resident at Children's Hospital.
RESOLUTIONS IN MEMORIAM (contd)

Lisa A. Gunyula (contd)

During her residency, Dr. Gunyula was regarded as a symbol of youth and vitality, kindness and warmth, intelligence and clinical expertise. She related wonderfully well to patients. As a chief resident, she led with sensitivity and humility, earning the genuine respect of her peers. She was nominated as House Staff Officer of the Year in 1989 and was later selected as the inaugural recipient of the Ross Award for Excellence in Pediatrics, which since her death has been renamed the Lisa A. Gunyula Award of Excellence in Pediatrics.

In July 1990, Dr. Gunyula entered a private practice with Professional Pediatrics, Inc., working with Nancy L. Hestand, M.D., and Ray Wheasler, M.D.

On behalf of The Ohio State University, the Board of Trustees expresses to the family its deep sympathy and a sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Sue Ann Longenecker

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 31, 1991, of Sue Ann Longenecker, Clinical Associate in the Faculty of the Division of Dental Hygiene, College of Dentistry.

Born in Youngstown, Ohio, Sue Ann Longenecker was a graduate of The Ohio State University, where she received the Certificate in Dental Hygiene in 1976, and the Bachelor of Science in Education in 1977. She was awarded the Master of Education degree by Bowling Green State University in 1982.

While studying for her Master's degree, Ms. Longenecker was an instructor at Lima Technical College. In addition she worked as a dental hygienist in private practice. In 1983, she took a position on the faculty at Ohio State teaching oral anatomy, and dental materials as well as clinical dental hygiene. In addition, Ms. Longenecker was a pre-doctoral student in Curriculum Instruction and Professional Development in the College of Education.

Her professional memberships included Phi Delta Kappa, a professional fraternity in education; Sigma Phi Alpha, a dental hygiene honorary; American Dental Hygienists' Association; American Association on Dental Schools; and the Commission of Dental Testing in Ohio.

Students under the tutelage of Ms. Longenecker will remember her ability to create a learning environment that challenged them to become critical thinkers and creative problem solvers.

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to the family of Sue Ann Longenecker. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.
RESOLUTIONS IN MEMORIAM (contd)

Olive W. Parrish

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 25, 1991, of Olive W. Parrish, Instructor Emeritus in the Cooperative Extension Service.

Olive Parrish was born September 26, 1909, in McArthur, Ohio. She received her B.S. in Home Economics from The Ohio State University in 1931. She then continued her education through graduate work at The Ohio State University in 1932, and at Ohio University in 1934.

In 1947, Olive Parrish began her Extension experience in Ohio as a Home Demonstration Agent in Hamilton County. In 1954, she assumed the position of Extension Specialist in Consumer Food Marketing. She continued her experience as a Home Economics Supervisor in Northwest, Ohio, in 1957. She then served in Athens County as an Extension Instructor beginning in 1962 and continued in this position until her retirement in 1968.

Instructor Parrish was affiliated with the Extension Honorary Fraternity, Epsilon Sigma Phi, as well as the American Economics Association and Ohio Home Economics Association. She was also a member of the Grange, Eastern Star, and Athens County Farm Bureau. Olive Parrish did 4-H Club work and worked with urban and rural homemakers.

Her contributions included a sincere interest and devotion to Home Economics Extension programs for many years. Her dedication earned her much admiration and respect from all those around her.

On behalf of the University community, the Board of Trustees expresses its deepest sympathy and understanding to friends of Olive Parrish. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees.

Norman L. Somerson

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on April 29, 1991, of Norman L. Somerson, Professor in the Departments of Medical Microbiology and Immunology, and Pediatrics.

He was born December 17, 1928, in Philadelphia, Pennsylvania. He received a Bachelor of Science from Marietta College; his Master of Science degree in 1952 and his Ph.D. in 1954, both from the University of Pennsylvania. Dr. Somerson’s professional experience included two years as an Assistant Professor of Biology at Bucknell University, five years as a Research Microbiologist at Merck and Co., and four years as a Commissioned Officer and Senior Scientist, U.S. Public Health Service, National Institute of Infectious Diseases, NIH. He joined The Ohio State University in 1966 as an Associate Professor of Medical Microbiology and was promoted to Professor in 1969.

Dr. Somerson made many important contributions to Microbiology. At Merck, he was responsible for two patents involving improved methods of microbial fermentation for the production of antibiotics and amino acids. While at NIH and later at The Ohio State University, he made many outstanding contributions to our knowledge of mycoplasmas, especially Mycoplasma pneumoniae, the etiologic agent of primary atypical pneumonia in humans. With funding from the NIH, he was responsible for the research, development, and production of several thousand doses of an experimental M. pneumoniae vaccine for testing in humans. In 1985, he received recognition from his peers by being elected Chairman of the Division of Mycology of the American Society for Microbiology.
RESOLUTIONS IN MEMORIAM (contd)

Norman L. Somerson (contd)

Dr. Somerson taught both graduate and professional level courses at the University. For seventeen years, he played an important role in the Independent Study Program of the College of Medicine. He served on the Executive, Curriculum, and Publications Committees of this Program. Dr. Somerson was the advisor for three Master's and four doctoral students. In 1981, Dr. Somerson was appointed to the United States Air Force Academy as Distinguished Visiting Professor in the Department of Biology. In addition to his teaching responsibilities, he advised and counseled cadets and participated in curriculum development as part of an effort to improve the Academy program.

In his twenty-five years of service to the University, Dr. Somerson served on fourteen departmental, college and university committees. This service included committees of the Department of Pediatrics and the Children's Hospital Research Foundation.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Carroll A. Swanson

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 9, 1991, of Carroll A. Swanson, Professor Emeritus in the Department of Plant Biology.

Professor Swanson was born September 6, 1915, in Burlington, Iowa. He earned his B.S. from Augustana College, Rock Island, Illinois, in 1937, from whom he also received an outstanding achievement award in 1973. He did all of his graduate work at Ohio State; he received his M.S. in 1938 and his Ph.D. in 1942.

Professor Swanson began teaching at Ohio State in 1940 and became a full professor in 1956. He served as Chairman of his department (then Botany) from 1967 to 1969 and as associate dean of the College of Biological Sciences from 1969-70. He was named Professor Emeritus in 1985.

Professor Swanson was a specialist in plant physiology and contributed substantially to the development of that field, both through conducting a vigorous research program and teaching undergraduate and advanced courses. He trained many outstanding graduate students and postdoctoral fellows during more than 45 years of service to Ohio State.

Professor Swanson was the author of many scholarly publications, served on numerous university committees and was active in several professional societies, serving on committees and editorial boards as well as holding elected office. Additionally, he served as research consultant to the Manhattan Project from 1944 to 1946 and was an advisor to the governments of India (1965) and Brazil (1973) through the auspices of the USAID Program.
RESOLUTIONS IN MEMORIAM (contd)

Carroll A. Swanson (contd)

On behalf of the University community, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees, and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Upon motion of Ms. Casto, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

STUDENT AFFAIRS COMMITTEE REPORT

Mr. Tonnies:

I would like to turn the meeting over to Dean Hollingsworth.

Dean Hollingsworth:

Good morning. Our presentation this morning is most fortuitous. Last time we met, I spoke with you about some of the funding issues related to student activities and student organizations on campus, and that we were needing to look at new models for funding student activities. I did not know at the time that WOSR was going to request to make a presentation today, but WOSR is a prime example of one of the types of organizations that I was talking about last month. A very worthwhile group, a group of students that are very dedicated and work hard. They have some rather substantial financial needs, and yet we have a very small pool of resources in which to fund these types of activities.

The issues relating to media groups are probably some of the most difficult ones for us, because the media groups tend to be the most expensive class of student organizations. Our year book has spent years struggling and has finally gotten themselves on their feet. The student humor magazine is essentially out of business because they simply have not been able to make it financially. The student literary magazine for the first time looked like they were going to run a deficit this year, but they did a couple of creative things to avoid this. The student media in general is a significant issue. WOSR is a particular concern at this time simply because of the state of their equipment and the cost. Kevin Hitch, Program Director, is going to make a presentation for you on what they have been doing and how hard they have been working. Kevin --

Mr. Kevin Hitch:

Thank you for allowing us the opportunity to present our case to you on behalf of student run radio. As Dean Hollingsworth mentioned I am Kevin Hitch, the program director of WOSR and this is Scott Vezdos, our sales director. We are just two of the members of our executive staff that were able to come today, the others left at 6:00 this morning for New York City for a big new music seminar, so we were left on our own.
Mr. Hitch: (contd)

WOSR is the radio station at The Ohio State University completely student run and operated. It is our hope to present to you the needs and benefits of WOSR and to seek agreement on a vision for the future of our station.

Mr. Scott Vezdos:

First, I would like to point out that we at WOSR feel that OSR is of extreme importance to The Ohio State University. Not only does it provide a great outlet for the people who want to go into the broadcasting field or broadcast journalism, but we can provide a great service to the campus community. Not only with what we play, the diversity of music, but we also offer a lot of talk shows but we also offer a lot of news casts in cooperation with the Journalism Department.

We still feel that this is a dream to us, that we still can't provide this service to the University. It seems like such a problem to us. Kevin and I have been with WOSR for the past two years, and we still cannot believe what is going on. Even the staff, who are really involved with it, still feel that our financial backing is very inadequate. What we are hoping to present to you are clear benefits that we can provide to the University and why we should receive some financial backing.

Mr. Hitch:

The station currently operates under the system of carrier currents and cable radio. A carrier current is a system of phone lines that lead to transmitters in each dorm and broadcasts on an AM frequency. This is only powerful enough to reach the entire dorm itself. Under that system, we need about 22 dormitories supplied under that method; however, that only reaches a potential audience of 10,000 people. Cable radio is available on the Warner Cube Cable service if you have cable television. There is what is called a FM stereo hookup available to subscribers at $3.00 a month, and it allows reception of many of the cable stations in stereo, as well as WOSR. So that is where the bulk of our listeners have been over the years.

It is our hope that we might be able to upgrade to a FM facility in the near future. This would involve going through the process of applying for a FCC construction grant. In involves engineering surveys, which lead up to the application of those grants, some of which we applied for as early as 1983.

We have discovered a lot about our little known past, and have found that in fact we had talked to the Board of Trustees in 1976. At that time, they had recognized the need for WOSR and had asked us to go through the motions of applying for a 10-watt FM transmitter, now the minimum is a 100-watt FM transmitter. As luck would have it, our sister station at Carnegie Melon University has donated to us a 100-watt FM transmitter, as they have upgraded their power. That covers one-sixth of the necessary costs in equipment alone to upgrade to FM. I will get to the overall costs in a minute.
Mr. Hitch: (contd)

Why should we act now? We feel that now, more than ever, we are dedicated toward changing and getting out of the financial difficulties that we have been experiencing. We feel that over the years we have never been in the proper funding bracket. We are in the same pool as student governments and other student organizations, and there is just not enough money to go around. And because we have never been able to adequately operate on financial ground, we have been unable to service our public. The deficits have been so great that we have been unable to make it. It is our feeling that going to FM operation will allow us to change all of that.

We do have a dynamic staff. The members of our staff come from every background that you can think of and are very capable. Our active membership right now is 50 to 80 students, with virtually no listenership and no promotion. People just come by or happen to hear about us and are very interested.

As you will see very soon, we do have a sound vision for the future. We do have growing support from the administration, now more than ever before, and greatly appreciate the efforts and time that Dean Hollingsworth, Dr. Spillman, and President Gee have taken to listen to us. Now we feel that it is the time for us to move.

Mr. Vezdos:

This slide will show a comparison of funding levels for other student radio stations at Big Ten universities. This chart does not include all of them for one reason or another. As it turned out from my research, the Big Ten schools seem to have the most diverse styles of college radio in existence.

Illinois University, in particular, is one of three or four actual commercial radio stations that are student run. They sell commercial air time and they gain revenues of over $400,000 a year; however, they are also a formatted radio station. The reason we don't think that to be a possible future for WOSR is because we like to think of ourselves as being a more service-oriented type of station. The artistic and the egalitarian values would be impeded by going to such a format.

Michigan State University however is completely student run and operated and is a free format station. As of next year, they will get an annual revenue of over $300,000. They use a really unique method which we will describe later. We feel that it is a very good way for us to receive funding, while at the same time having the students involved.

Michigan University and Michigan State both have a two-station system -- a carrier current system and a FM system. This is partially because the large student body demands that there be more involvement, and also because there are different values for each station. Michigan University receives about $14,000 annually for the two stations combined, and then the FM radio station raises $34,000 in the Ann Arbor area by an annual radio talk.

Northwestern University is very similar: $15,000 through support from the University; $30,000 through the radio station. They do have one of the best free format student run stations and are considered one of the top five in the country.
STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Vezdos: (contd)

Indiana University in the past has received upwards of $24,000 annually from the University. They were informed, in advance, that this funding would be cut off. We are not sure of the reason, but we are still looking into it. However, they later raised $10,000 on their own -- which was actually enough to cover their expenses -- through support of alumni and through the use of remote DJ services for parties, fraternities, and dorms.

This slide shows that our needs were $3,000 approximately for the past year. It just goes to show that it is not the money that makes the station, it is actually the involvement of the organizations and the students involved that can make it a very dynamic station. We feel that with one of the largest universities in the world, the resources are more than plentiful here.

This slide shows the expenses that are involved with our station. Right now this is how we see a potential migration time table. This is not what we are asking for specifically in terms of money, this is merely showing how we see our needs for the next five years. First of all, the carrier current installation would cost about $27,000. Like I mentioned, this would only cover the students involved in the dorms. We would maintain our cable status because in order to go FM, the turnover time is going to be at least two years. Nevertheless, we want to still reach our public and try to be as self-sufficient as possible.

Our studios are in definite need of equipment refurbishing. Most of our studio equipment is ranging from 15-20 years old and would cost about $22,000. We see that as being something that could be furnished over the next academic year.

This slide shows the estimated cost for applying for a construction grant. After 3 years we are still waiting for information from WXUT, the University of Toledo student run station which has just gone FM in the last year. They are going to assist us in the process of obtaining the FM license.

To build the FM facility, which would be in a 2-4 year span, would cost about $60,000; $10,000 of which is already covered by the FM transmitter donated to us by the Carnegie Melon station. At that time, what we are proposing is building a second studio. First of all, I must mention that the carrier current station is not etched in stone. We could probably live the next two years on cable operations and maybe add a couple of other carrier current systems. But we feel that it would be very beneficial, given the amount of student involvement which would probably occur, that we create a second studio -- one for FM and one for carrier current. We could have mutual sharing of a production studio which is where we make all of our promotions and public service announcements, as well as our record library. We have a library of over 10,000 records currently, and that would cost about another $18,000.

Now the ongoing operations are the basic operating expenses for the year which include: subscription to various journals that we have to report our music playing to, and standard office needs. Obviously, the figure will increase when we go to FM, largely because of the equipment upkeep. But, as we noted, once we go to FM, based on the estimates from the Cleveland radio stations we might be able to raise about $20,000 annually.
STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Vezdos: (contd)

There are five student run stations on FM in the Cleveland area, all of which are considerably smaller than Ohio State in the size of student population. They are: Cleveland State University, Case Western Reserve, John Carroll University, Oberlin College, and Baldwin Wallace College. Our estimates show that they all raise between $17,000 and $30,000 annually. We feel that $20,000 is a very safe estimate, given the fact that this is an untapped market and does not include the other fundraisers that we do.

One funding alternative that we are proposing is an activity tax of $1.00 per quarter. This is basically what Michigan State University does. The way they do it is they have three main student or activity organizations -- the radio station, the student government, and I cannot remember what the third one is. They have a student levy, the students themselves vote annually on whether they are going to fund these organizations and the amount that they are going to fund them. For these student radio stations, they have voted to raise it $1.50 per student, per quarter for next year. So that will bring them to over $300,000. One dollar is just an arbitrary amount. This has been proposed to the University by the student allocations committee because there is such a need for funding for student organizations in general. We feel that this may be helpful to clear out the financial needs of student organizations. This is not to say that this should be entirely what they live off of. As you can see, that $1.00 difference to students would be negligible, yet we are not asking you to call for that money. We are asking you to possibly consider having the students vote on it. It would be a real life experience, voting on a tax levy. The difference for our organization would be vital.

Mr. Hitch:

We might not want to make it mandatory, but possibly put it on the BRUTUS and ask students if they want to help with the funding.

Mr. Vezdos:

The radio stations, the FCC, everyone could benefit from that.

Mr. Hitch:

Brutus could have WOSR on there as an alternative check box.

Some other alternatives include: remote DJ services which we are doing. We also have equipment donated from our students themselves. We do benefit concerts, program advertising and underwriting, which is similar to advertising only it is not a hard sell technique, it is more of a program sponsorship, much like public radio or any television. We do credit card application-type fundraisers, selling T-shirts, etc.

One proposed method is possibly inspiring various dorm councils. They have expressed interest in receiving WOSR. Some of them do have enough funding while others do not. There might be a method where we could suggest seeing if the University would provide a matching gift. Say if you were to provide half of the funding for the carrier current, we would provide the other half.
STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Hitch: (contd)

Contributing memberships for OSU organizations -- many organizations have expressed interest in being involved with us including: the OSU Athletic Department; USG has talked with us; and other various minority and special interest groups. These groups might be willing to contribute if there was a worthwhile product to give them.

Program underwriting -- we feel this can raise a substantial amount per year, however at the same time it would be helpful to have a product to sell.

Donations from foundations -- we have been looking into grants and we are working to some degree with the OSU Development Office now at the request of President Gee. We did a quick rush job on applying for a Columbus Foundation grant. We obviously will be a little bit more prepared for the next one. And we are looking into more grant opportunities.

University support -- we want to see what we can offer to the University and what the University can offer us. Obviously, initial support would help get us over the hump, and there is a definite payback to the University community.

In summary, what we are asking for is a vision -- an agreement on a vision. We are looking for an economically viable station that is able to reach its audience. A station where student involvement and the vast abilities of the OSU community make this station dynamically rewarding, while at the same time the financing merely serves as a device to carry the message. We are looking for an agreement to move quickly to secure a FM license. History has shown that stations like ours could engineer annual radiothons often covering the costs of the stations operations, and thus become self-sufficient. We are looking for an agreement on such a migration plan, such as the one we are proposing, and trying to find an agreement that this is the route our station should take toward vitality.

Continual financial support -- we are overwhelmed at the amount admittedly, especially in these tough financial times. But we hope that the University will continue its support and commit to fund any short falls, especially in the next couple of years. This is our greatest need. However, we are constantly searching for alternatives and ask you to consider those alternatives and see how the University might be able to help us in spite of these times. Given the student turnover rate in the last four or five years, we would like to see a little bit of the results of what might happen in other times.

Thank you very much for your time.

Mr. Tonnies:

Are there any questions for Kevin or Scott? What do you estimate your listening audience to be right now?

Mr. Hitch:

That is a tough estimate. We have only one working transmitter located in Baker Hall East.
STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Vezdos:

And only half of Baker Hall receives it, even though the whole dorm should get it.

Mr. Hitch:

During our best times the reports we received showed that we were operating in 9 to 11 dorms. At the same time, we had a strong cable signal. We haven't had much of a strong cable signal over the last year because we moved from the Drake Union to the Ohio Union and there have been a lot of technical complications. However, we have been told that at times we receive up to 1,500 requests in one month. In the last year, we probably received on an average 5 requests a month. There would be a huge difference if we had a potential listening audience on FM with upwards of a million people. As I mentioned, a lot of the research has been done to go through that process.

Mr. Tonnies:

Any other questions for right now? If you could give me another copy of your report, I will give it to Madison Scott and he will have it printed up for the whole Board so that they can read it. Thank you, very much.

In our second half-hour, the student government leaders discussed with the Committee ideas and issues facing the students in the upcoming academic year. Christine Chen, President of USG, brought up budget and tuition problems, something that we will talk about on a yearly basis. She brought up the point about increased communication with the students as to why tuition increases are needed. Also the fact that students are concerned with safety on campus, along with the impact of political correctness and all that that term has, what it means to students, and what impact that will have on the student population.

Shawn Tipton, President of the Council of Graduate Students, submitted a report to the Student Affairs Committee and again we will make that available to all of the Trustees. He highlighted some areas which need additional resources, including: counseling and consultation services, financial aid, and the student health service. Graduate students are also concerned about the pressure the University is putting on certain earning units and the possible negative consequences in the future for students.

Mark Slivka, President of the Inter-Professional Council, brought up several points, too, highlighting tuition increases, campus safety, traffic and parking, and increased library hours for the medical library, to name a few.

Mr. Chairman, the Committee and I will continue to work with the Student Government leaders along with Dr. Spillman and Dean Hollingsworth to address these issues in our future meetings and to keep the President and the Board aware of student issues and problems.

If there are no questions, that concludes my report.

--0--
FISCAL AFFAIRS COMMITTEE REPORT

Mr. Shumate:

The Committee is recommending the following resolutions:

REQUEST FOR CONSTRUCTION BIDS

Resolution No. 92-12

EVANS LABORATORY RENOVATION - BERLINGER RESEARCH

Synopsis: The Fiscal Affairs Committee recommended the approval of the Request for Construction Bids for Evans Laboratory Renovation - Berlinger Research.

WHEREAS the University desires to proceed with renovation of five laboratories on the first floor of Evans Laboratory to house the Berlinger Research group; and

WHEREAS the total estimated project cost is $245,000.00, and the total estimated construction cost is $220,500.00, with funding provided by Senate Bill 336:

NOW THEREFORE

BE IT FURTHER RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request construction bids on this project in accordance with established State of Ohio and University procedures, and if satisfactory bids are received, to award contracts, with all actions to be reported to this Board at the appropriate time.

Upon motion of Mr. Shumate, seconded by Mr. Teaford, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix VI for background material, page 123.)

--0--

Mr. Nichols:

For the Employment of Architects and Construction Managers and Request for Construction Bids projects, I am going to show a few slides for your information. The locator map is on the board. You are looking to the west, with the bottom being High Street and you see the orientation with the Stadium. There is the parking garage on West Twelfth Avenue, which is immediately adjacent to the Dental Clinic and currently ties in with an overhead walkway to the Cancer Hospital. Next is a view looking to the west of the garage which currently holds about 350 cars and is three stories high. You see the walkway over Twelfth Avenue and the elevator tower which is in between the brick structure that goes up. What we will be doing is adding three floors to this particular garage, which should give us somewhere between 300 - 330 additional spaces. In addition, the greenhouses that you see immediately to the right are in bad disrepair and money has been allocated in the current capital budget for replacement of those greenhouses.
Mr. Nichols: (contd)

In a cooperative effort between Campus Planning, the University Architect's Office and the College of Biological Sciences, as well as the Office of Health Sciences, Dr. Tzagournis and University Hospitals, Reed Fraley, we are going to build three additional stories onto this garage. We will then lay a floor or deck on top and place the new greenhouses on top of the garage. It is a multi-use structure. The current greenhouses on the side will then be demolished. This is a typical floor in the garage and it will go up three additional floors with the deck.

This particular project has a total estimated project cost of $7.6 million. The capital bill will provide $4.1 million and $3.5 million will be provided from University funds (Traffic and Parking) for the garage.

My only other comment might be, Mr. Chairman, members of the Board, is that this project is going to go from initial discussion, which occurred in February, to construction in six months. That may not be a record, but certainly a cooperative effort between the College of Biological Sciences, Health Sciences, and the Hospitals as well as the academic support areas. And that is presented for your consideration. Are there any questions?

EMPLOYMENT OF ARCHITECTS/CONSTRUCTION MANAGERS AND REQUEST FOR CONSTRUCTION BIDS

Resolution No. 92-13

BOTANY AND ZOOLOGY GREENHOUSE AND 12TH AVENUE PARKING GARAGE

Synopsis: The Fiscal Affairs Committee recommended the approval of the Employment of Architects/Engineers and Construction Managers and Request for Construction Bids for the Botany and Zoology Greenhouse and 12th Avenue Parking Garage project.

WHEREAS a resolution adopted by the Board of Trustees on December 1, 1989, authorized the employment of an architectural/engineering firm to demolish existing Botany and Zoology greenhouses and headhouse and construct, on that site, a new greenhouse complex for research and teaching in the biological sciences; and

WHEREAS the University has revised these plans to include an addition to the 12th Avenue Parking Garage to include approximately 300 parking spaces on three levels; interstitial space, and a greenhouse facility located at the top level of the structure; and

WHEREAS the new total estimated project cost is $7,600,000.00, and the total estimated construction cost is $6,265,000.00, with funding provided by House Bill 808 ($4,098,183.00) and University funds ($3,501,817.00):

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to include this revised project in the scope of work of the architectural/engineering firm selected for the original project pursuant to previous Board authorization and to select construction management firms as necessary for this project and that the fees for these services be negotiated between the firms selected and the State of Ohio; and
BE IT FURTHER RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request construction bids on this project in accordance with established State of Ohio procedures, and if satisfactory bids are received, to recommend the award of contracts, with all actions to be reported to this Board at the appropriate time.

Upon motion of Mr. Shumate, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix VII for background material, page 125.)

--0--

Mr. Nichols:

There are three awards that I will quickly just reference. I will not cover the Mansfield Founders Auditorium renovation, the Sealant Replacement on Bakers Systems Engineering Building, and the South Bass and Gibraltar Islands projects involving erosion from Lake Erie and the Seagrant program.

The first project I would like to describe is the Aviation Facility located on 19th Avenue. This is currently the building which has no real name other than to be called the 164 West 19th Avenue Building. It will hold the academic offices for the Department of Aviation, which are currently located at Don Scott Field. This fairly significant move is part of the master plan – moving the academic operations down to Central Campus to eliminate a lot of the transportation that we have had.

This slide shows how very close the conception of the building will look like and two additional floors will be added on top. All the numbers are in your Board book so you can look at them, but in terms of all of the projects, particularly the Law School addition and the Brown Hall Annex addition, the cost factors involved in terms of the bidding were well below estimates. You will also note that there were a considerable number of bidders on these projects, including some bidders that we have not seen for a while, frankly, who have been working on larger projects and have not been working on University work even though some of our work is in the $10-20 million range.

The next project that I want to reference for you is the Brown Hall Annex Replacement which is along 18th Avenue, between 17th and 18th Avenue. In terms of a sight plan the blue building in the very center is Brown Hall, the yellow building to the left is Dulles, the yellow building to the right is Denney Hall. Immediately behind Dulles Hall and adjacent to the Math Building will be the Math Tower about seven stories, and then a lower structure which will be the classroom building, which will be two stories. The red building is the Mathematical and Physical Sciences Basic Library which is a combination of seven libraries which are currently scattered in different locations and are in very cramped quarters.
Mr. Teaford:

Am I not right, too, Mr. Nichols, that the Brown Hall Annex, which all of this is replacing, is just where that one classroom building is?

Mr. Nichols:

That's right. It encompasses the building immediately to the right which is the existing math building. The next building will be office space, conference areas, and laboratories for the Department of Mathematics which is going to be a seven story tower. The building right next to it which is the two story structure, the classroom structure, actually will sit on top of what is now the Annex.

I might also mention that what is called the Brown Hall Annex was the original power plant for the University. One of the difficulties of construction on this sight is that there are numerous underground tunnels involving steam lines and other utilities that must be addressed. I think one of the more exciting things about this particular project was the opportunity for Philip Johnson, who is perhaps the most renown living architect currently in the world, to be the design architect. He almost never does university work, but wanted to do one more project and we were able to have him work on this project. This should be very impressive in terms of what 18th Avenue is going to look like in that area when this project is completed.

Bids on this particular project were exceptional and I did want to point out that the general contract came in at $10.2 million on an estimate of $14 million which is 27 percent under the estimate. And all bids combined were 22 percent under the estimate. There were five general contractors bidding and as an example of what I mentioned before, Turner Construction Company was the low bid and we have not seen them bid on campus work until very recently again.

The other project that I wanted to bring to your attention which is appropriate given the occupation of so many of our Board members, is the Law Building which is just south of the Ohio Union. This slide is an overall design plan of the Oval and you see in the upper right hand corner the Law College and the green space around it.

The darker gray area is the addition and the building is being reoriented to the Central Campus and what is called a prow, which is the trunk or the point coming out there toward the main campus. There is an effort being made to make this very attractive from a green space point of view, and I think that this is going to be a very attractive addition to that particular part of campus.

This is an interior shot of the lobby in the prow of the building, the point of the building in the new area. The building is going to be very airy and light. This slide shows a true vision, it is a computer simulation of what the building is going to look like. The columns dress up this particular building very much.

In closing on that section, I would like to say that we had eleven bidders on the general contract for this particular job. Sherman Smoot Company was the winner at 10 percent under the estimate and several of the other estimates were in double digits in terms of being below the architects estimates. We are very pleased at the construction bids that we are getting today.

Mr. Kessler:

Jim, was the architect Bohm?
July 12, 1991 meeting, Board of Trustees

Mr. Nichols:

That is correct -- Bohm-NBBJ.

REPORT OF AWARD OF CONTRACTS AND
ESTABLISHMENT OF CONTINGENCY FUNDS

Resolution No. 92-14

MANSFIELD - FOUNDERS AUDITORIUM RENOVATION
BAKER SYSTEMS ENGINEERING BUILDING - SEALANT REPLACEMENT
AVIATION ACADEMIC FACILITY
SEAGRANT SCHOOL PROJECT - SOUTH BASS AND GIBRALTAR ISLANDS, PHASE II
BROWN HALL ANNEX REPLACEMENT
LAW BUILDING - ADDITION/RENOVATION

Synopsis: The Fiscal Affairs Committee recommended the approval of the Report of Award of Contracts and Establishment of Contingency Funds for the listed projects.

WHEREAS resolutions adopted by the Board of Trustees on December 2, 1988, May 4, 1989, and October 5, 1990, authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established University procedures, and if satisfactory bids were received to award contracts for the following projects: Mansfield - Founders Auditorium Renovation, Baker Systems Engineering Building - Sealant Replacement, and Aviation Academic Facility; and

WHEREAS resolutions adopted by the Board of Trustees on July 11, 1986, November 6, 1987, and May 4, 1989, authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established State of Ohio procedures, and if satisfactory bids were received, to recommend the award of contracts for the following projects: Seagrant School Project - South Bass and Gibraltar Islands, Phase II, Brown Hall Annex Replacement, and Law Building - Addition/Renovation:

NOW THEREFORE

BE IT RESOLVED, That pursuant to the actions previously authorized by the Board, the Report of Award of Contracts and Establishment of Contingency funds for these projects is hereby approved.

Upon motion of Mr. Shumate, seconded by Mr. Colley, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix VIII for background material and tabulation of bids, page 127.)

--0--

Mr. Nichols:

The Newark Campus has been interested in some type of an assured housing situation for students to maintain and increase their enrollment. A few years ago, immediately adjacent to the Newark Campus an apartment complex was constructed which has a two three-story brick apartment buildings. This is immediately northeast of the campus and contains 42 efficiencies, one and two bedroom apartments. It is owned by the Sharon Valley Limited Partnership, whose general partner is Jerry McClain Company, of Newark, Ohio.
Mr. Nichols: (contd)

The proposal is not for the University to buy or even to lease the project, but in order to have that assurance of those facilities for the University to take over the management of that particular project. The term is for five years and we do have in the resolution the right to terminate without reason with sixty days notice.

Basically on the owner's behalf the Newark campus and associated academic support areas would rent out the apartments, contract for necessary services, and maintain the facility. The owner would reimburse the University for the cost of managing the facility and also for any particular maintenance costs that might occur. In other words, neither the University nor the Newark Campus will have any financial responsibilities, they will merely act as the management agent. The project should house approximately 170 students when it is completed.

These slides show the two particular buildings. They are all brick constructions, modern construction. They are basic as one might expect being adjacent to the campus, but quite pleasant. It is on a hill. This is a slide of an interior stairway on the building, as you can see it is attractive, but yet basic.

Mr. Kessler:

Do I understand that this private company has built the apartments and it is housing for our students at the Newark campus and we are going to manage it for them?

Mr. Nichols:

That is correct. There are two existing apartment buildings. We will not have financial involvement, our only involvement will be management of the project solely.

Mr. Kessler:

We don't have any liabilities?

Mr. Nichols:

That is correct. If there is a short fall or there is maintenance or repairs, be it a roof replacement or whatever, the owner will pay for it not the University. Dr. Greenstein and Randy Ingall are here from the Newark Campus and maybe they could best present this.

Dr. Greenstein:

The developer approached the Newark Campus to manage the property in order to provide good access for students. He internally felt that he did not have the management capability to actively manage the project and felt that we would have better access to our students. Also, our maintenance is on site and would provide better maintenance for the facility. So, this is a joint venture for the betterment of our students on the Newark Campus.

Mr. Teaford:

Dr. Greenstein, I have the sense that we also ought to make sure that there is a conducive environment to academic pursuits and that is also enhanced by our being involved. Is that correct?
Dr. Greenstein:

That is correct. And with this program also what we will do is put into place a resident-like program, similar to what we have done in a resident facility on the Columbus Campus. Because of the nature of our campus, we have primarily commuter students, but this facility will be able to focus on a core of students who can enhance the student-life activities on the campus.

Mr. Nichols:

The budget which is being paid for by the owner, not the University, includes about $20,000.00 for student life type activities as well as about an additional $5,000.00 for financial aid for students, that has been agreed to.

Mr. Teaford:

Could you give a couple of examples of what "student life" means?

Mr. Nichols:

Social, recreational activities.

Dr. Hutchinson:

As we work with the development of the regional campuses, in this case Newark, we have felt that as we have gone to selective admissions, we have also had some influence on more students going to the regional campuses than there might have been. And with the availability of more housing at Newark and the fact that this is right across the road from our property, we do have an interest in who owns or what happens on this property, because it is so close to the development of the University.

Mr. Teaford:

This action now makes two regional campuses that we have made some arrangements for housing -- the other being at Wooster.

Mr. Nichols:

That is correct. That project has been very successful, Mr. Teaford. That facility has remained fully occupied.

Mr. Teaford:

What are the projected rental charges? What are the students going to have to pay?

Mr. Nichols:

The quarterly rate for a single efficiency will be $1,275.00.

Mr. Teaford:

Do I take it that under this arrangement students will not have sign a twelve month lease?
July 12, 1991 meeting, Board of Trustees

Mr. Nichols:

It will be handled very similar to how we handle the dormitory situations now. In the sense, that they pay on a quarterly basis and in essence contract on a quarterly basis.

Mr. Barone:

Jim, if we can terminate this contract within sixty days and the students pay quarterly, won’t that create a problem?

Mr. Nichols:

No. The sixty-day type notice is very consistent with the other types of notices we put in agreements that are in some degree similar to this one, only to protect the University. But all of the activities that we have would be geared to the students and any termination we will take fully into consideration. We do not expect that to occur at all. It is merely a safety valve.

Mr. Barone:

The University has almost a legal responsibility along with a moral responsibility. That is one of the reasons that we want to utilize the name of The Ohio State University. They could lease directly to the students, then the University would not have any moral or legal responsibility.

Mr. Nichols:

There will not be any difficulty for the period of time that the students contract.

Mr. Barone:

You don’t see a problem with paying within the quarter and our agreement to terminate the contract within sixty days?

Mr. Nichols:

No. I see no conflict.

MANAGEMENT AGREEMENT
SHARON VALLEY APARTMENTS
NEWARK CAMPUS

Resolution No. 92-15

Synopsis: The Fiscal Affairs Committee recommended the management agreement with Sharon Valley Limited Partnership for the management of the Sharon Valley Apartments on the Newark Campus.

WHEREAS consistent with its strategic academic planning, The Ohio State University at Newark desires that there be student housing adjacent to the Newark Campus such that the Campus may use the availability of such housing to assist in student recruitment; and
WHEREAS the Sharon Valley Apartments, owned by the Sharon Valley Limited Partnership of Newark, Ohio, are available to provide such housing through a management agreement, whereby the Newark Campus would manage, market, rent out, maintain, and repair the apartment complex on the owner's behalf, with the owner responsible for reimbursement of all costs in excess of rental income; and

WHEREAS the appropriate University offices are in agreement that the availability of student housing at the Newark Campus and this proposed management agreement are in the best interests of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized, in the name of the Board of Trustees, to negotiate and execute an agreement, as outlined above, with the Sharon Valley Limited Partnership for the management of the Sharon Valley Apartments, on such terms and conditions as are deemed to be in the best interest of the University.

Upon motion of Mr. Shumate, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix IX for background material and map, page 145.)
July 12, 1991 meeting, Board of Trustees

RENEGOTIATION OF AGREEMENT WITH
LIMA TECHNICAL COLLEGE (contd)

BE IT RESOLVED, That the President and the Senior Vice President for Academic Affairs and Provost, be authorized, in the name of the Board of Trustees, to negotiate and execute an agreement with the Lima Technical College for the cooperative and shared use of facilities and programs by the Technical College and the University's Lima Campus, upon such terms and conditions as are deemed to be in the best interest of the University.

Upon motion of Mr. Shumate, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

Mr. Meeks:

As you are aware a group of promoters for a football franchise to be located here in Columbus for the World League of American Football Team approached the University with the proposal to lease the use of the stadium on seven game dates each in the next two years. They have made a general proposal and we have been exploring it. And the recommendation to the Board is that the Board adopt a resolution authorizing detailed negotiations for such a lease.

Mr. Shumate:

Mr. Meeks, you might want to point out some of the general safeguards that have been discussed and negotiated that are consistent with the University policy on these issues.

Mr. Meeks:

First and most important is that any lease would be subject to approval by the Big Ten or putting it differently, waiver of the Big Ten rule applicable on such lease arrangements. Secondly, we are quite concerned that any University involvement not cost the University anything. So the lease would be structured in such a way that it would be to the maximum extent possible, and impossible for the University to take a loss on the arrangement. One way of doing that is to ask for some guarantee up front of funds that would cover any contingency later on.

We have also been concerned about possible contact with student athletes and I think we have reached an agreement that there will be a provision in the contract regarding no contact with student athletes. There will also be a provision in the lease protecting the University against any injury by anybody that attends or is connected with the events. They will carry insurance. I think that pretty well covers the major topics.

Mr. Teaford:

You said that there would be some advanced payments and controls too, that if there should be financial difficulties as far as an organization, that would not make a negative impact.

Mr. Meeks:

Right.
July 12, 1991 meeting, Board of Trustees

Mr. Shumate:

I would point out that this issue is coming to the Board after being fully reviewed by the Athletic Council of the University and is also presented to the Fiscal Affairs Committee by the recommendation of the Department of Athletics.

Mr. Teaford:

It is also important to realize that the Athletic Council is a faculty organization not an organization of the Athletic Department.

Mr. Shumate:

Are there any other questions or items that members of the Committee or Board would like to discuss?

Mr. Barone:

I feel that the Big Ten Committee should vote on this prior to our accepting it. We are kind of putting the pressure on the Big Ten and it should be the Big Ten Committee's decision. I think it will be an embarrassing situation.

Mr. Shumate:

I think that it is an issue, Mr. Barone, of timing. In that based upon some scheduling considerations, it is important for the Committee and the Board to act at this time. Certainly the agreement as you see in the material that was previously sent to the Board is expressly contingent upon the waiver of the Big Ten Joint Group Committee, and they are a strong Committee.

Mr. Barone:

As the Chairman knows, and for other reasons which I have specified, I still vote no.

Mr. Teaford:

One other thing that I would like to make clear to the ladies and gentlemen of the press who are here is that I have discussed with Mr. Colley and Mr. Kessler, who have been mentioned in the press and I am also aware of Mr. Wexner's position with this regard, that there are no members on this Board who are or will be investors in this project.

LEASE AGREEMENT

Resolution No. 92-17

World League of American Football

Synopsis: The Fiscal Affairs Committee recommended authorization to execute and sign an appropriate lease agreement with the World League of American Football.

WHEREAS the World League of American Football has requested the use of Ohio Stadium for World League games should Columbus be chosen for a franchise; and
LEASE AGREEMENT (contd)

World League of American Football (contd)

WHEREAS the appropriate University officials, including the Athletic Council of the University, have reviewed the proposal for use of this facility and find the proposal reasonable and an appropriate use of Ohio Stadium; and

WHEREAS it has been recommended by the Director of Athletics that the University enter into a lease agreement with the World League of American Football for the use of the stadium:

NOW THEREFORE

BE IT RESOLVED, That the President and/or his designee is authorized to enter into negotiations with the World League of American Football for the lease of Ohio Stadium, upon such terms and conditions as are deemed to be in the best interest of the University; and

BE IT FURTHER RESOLVED, That contingent upon the waiver of the Big Ten Joint Group (Men's Agreement 8A 1A - Use of the Facility) the President and/or his designee is hereby authorized to execute and sign the appropriate lease agreement.

Upon motion of Mr. Shumate, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution with seven affirmative votes cast by Messrs. Teaford, Kessler, Wolf, Shumate, Celeste, Colley, and Ms. Casto, and a negative vote cast by Mr. Barone.

(See Appendix X for background material, page 149.)

--0--

Mr. Shkurti:

I will be referring to the scarlet and gray booklet placed in front of you entitled, "Current Funds Budget, 1991-92." Let me talk first about the resources that are being made available in this budget. As you know, the state budget has now been passed and this budget is based on those numbers as we best understood them when this booklet went to press yesterday afternoon. So you will notice later on that some of the items will have the term preliminary in parentheses after the numbers because some of the line items were still up in the air, but we expect these numbers will be very close. The numbers referred to here are very close to actually what is passed in the state budget.

Our single largest source of income is the state subsidy. This subsidy will provide us for the first year of this biennium, will be equal to the state subsidy which was provided last year in fiscal of the state '91 after the mid-year cuts. This represents the first time state aid has not been increased from one year to the next since at least the early 60's, as far back as our accounting records go.

Our second largest source of income is tuition and we are proposing an increase of $225 for an academic year, for an in-state undergraduate student enrolled over three quarters. This represents an increase of 9.6 percent. We are also recommending the same percentage increase for out-of-state students for graduate and professional students. This is the maximum amount allowed under the tuition caps included in the budget bill which indicates we can raise tuition by $225.00 a year or 9 percent whichever is greater. The reason that Ohio State is eligible for the
Mr. Shkurti: (contd)

greater than 9 percent, is that our tuition base is very low compared to most other universities in Ohio, so we have that flexibility.

Other charges that will effect students, such as room and board, parking, book store prices, and so forth will increase by an average of 5.9 percent for undergraduate students and 5.6 percent for graduate students. And, finally, the room rates and other charges in our Hospitals will increase by an average of 7.7 percent.

In terms of expenditures in the general fund, which is the fund that actually runs most of the academic core programs of the University, this budget projects an increase of only 3.1 percent, which is less than what inflation is expected to be. I suspect that is first in a long time that spending has been constrained at that level.

One of the ways we were able to continue to do new programs with the constraints on the spending basis was to reallocate resources within the University to the tune of $14.3 million in a general fund. This will be accomplished by a 4 percent average reduction over all the base budgets for the academic units, primarily the colleges and 4.5 percent reduction for academic support units, such as Finance, Business Administration, and Student Affairs. The cuts will be applied differentially, so some units will be cut more than others, but this is the average.

The third item is the pay raises included and budgeted for in this budget. It will average 3.5 percent for faculty, staff, and graduate student employees. The pay raises for faculty will be based exclusively on merit, the pay raise for administrative and professional and classified employees will be a combination of merit and across the board this year. The across the board percentage will be 2 percent and the merit will average 1.5 percent. It is the University intention over the next year or two or the next round of budget cycle to move the administrative and professional staff to have their pay raises based exclusively on merit as well.

No continuing increase in funds are set aside for supplies and equipment. However both University systems and UNITS, the University telephone system, have announced that they will not be increasing existing rates charged to University customers. That will significantly reduce the burden on colleges and other university units that pay those charges.

Now though overall spending is limited for this fiscal year, it is our desire to continue to fund important new priority initiatives. I will not go over each one, I think that the important thing is that they are aimed at three critical areas: improving undergraduate education; supporting the universities research base; and supporting the inclusion of the people of different backgrounds in the University's community. I might add that this is a new way in which the budget is being presented because it is organized by program area, which is something that the Board had suggested previously. It is my hope that the budget that comes to you next year, which will be the first one to go through our formal academic planning process, will be organized entirely along programmatic aligns so you can get a feel for the program commitments that are involved in the budget.

I will not go into detail over the remainder of the tables in this budget book. What they provide is detailed breakdowns by campus, both the main campus and the extended campuses of the budget allocations, as well as definitions of terms. But there are some points that I would like to highlight.
Mr. Shkurti: (contd)

If you would turn to page 4.7 there is some information on student fees that I would like to share with you. The table entitled Summary of Typical Student Fees Columbus Campus, will give you a feel of what the impact will be on the typical student. Not only for the instructional and general fee increase, but room and board, bookstore, health insurance, parking and so forth, both in percentage terms and in dollar amounts. And then if you turn to the next page, there is a summary of resident student fees in the Big Ten public institutions that we have put together. Now we don't have the figures yet for this coming fall, because most of the other Big Ten schools are going through what we are going through, in terms of getting their budgets done relatively late in the process. But if you look at the ten year history of what has happened to fee increases at Ohio State, especially for undergraduates, you will see our average increase over those six years has been 6.1 percent. The average for the whole Big Ten has been 7.6 percent, so in other words on average over the last ten years, fees at Ohio State have not gone up as rapidly as they have in the rest of the Big Ten. I would submit that that statement also applies if you would compare Ohio State with other public universities in Ohio. So even though our fees are going up more rapidly this year than we had hoped because of state support not increasing, I think Ohio State still remains a bargain in terms of the quality of education that is offered here at a comparatively reasonable price to other institutions both in Ohio and elsewhere in the Big Ten.

Mr. Teaford:

I noticed, too, Mr. Shkurti, that the Ohio State undergraduate and graduate fees are both under the Big Ten average as well.

Mr. Shkurti:

That is correct. Now if you would turn to the table on page 5.1, "Summary of Auxiliary Operations Fiscal Year 1992." The table breaks down both the resources and expenditures and transfers of what we call an earnings unit, such as residence halls, Student Unions, and so forth. There is a new piece of information on there if you will go all the way to the far right side, the column that says "Net Income has never been reported before." I think that it is important that the Board have a sense of whether these units that are based on generating their own income are making money or losing money based on current years income and current years revenue. You will notice that some of them such as Residence and Dining Halls will suffer a net income loss this year, that does not mean that they are not being well managed. In the case of the Residence Halls, the problem that they are facing is a decline in student enrollment and also a need to renovate some of their facilities. It also does not mean that that particular unit or the University is going broke, because they are able to draw on income from previous years that is in reserve to pay the bills. But, obviously, it is a trend that needs to be monitored. We don't want too many of these units losing too much money over too long of a time. So this lays out for the first time some more detailed information on what the expectancies are regarding net income for these Auxiliary operations.

If you will turn now to page 5.5, you will see the budget laid out for The Arthur G. James Cancer Hospital and Research Institute. I think one important item is the Fiscal Year 1992 budget column. If you go down to net income it projects a loss for the Cancer Hospital of $4.3 million, which is a lot of money but is not inconsistent with the plans set up when the Hospital was open. The FY 1991 budget figures show a projected loss of $4.7 million and that was based on some very preliminary
numbers done about 18 months ago. As you know, the net loss of the Cancer Hospital on
the operation side in the first year was more like $10 million. A lot of that reflected the fact
that the Hospital opened up late, and so it did not have paying patients in as rapidly as
possible. But the results of the last several months have been very encouraging, and I
think that the management of this Cancer Hospital feels that this $4.3 million projection for
FY 1992 is a good one and one that they can meet.

The remaining two appendices simply provide a ten year trended description on the
instructional subsidy and also on enrollments for the campus. As to where this budget
leaves us, I think that it is fair to describe it as making the best out of a difficult situation, in
terms of the state budget, the state economy, state budgets throughout the country, and
the national economy. I think what we have accomplished in this budget is first of all a
recognition and support in the General Assembly for the importance of Ohio State
University as a resource to the state. The budget that came out of the General Assembly
when compared to the budget that went in is significantly better than it could have been. I
think that is very important. Secondly, we have protected, even though it is in somewhat
trying times, the academic core. So programs such as the library, the honors program,
scholarships for our students have been protected from any cuts whatsoever under this
reallocations scenario. Thirdly, I think that we have moved forward on some selected
initiatives which are very important to the future of the University. For example, the
undergraduate teaching, the curriculum reform, which I understand is one of the most
ambitious programs in the country, and appropriately so because it modernizes our
undergraduate curriculum will be funded as intended and will move forward under the
budget planned here. The same for some key initiatives in research, including the
Biotechnology Center and the eminent scholars that also benefit the educational side of the
curriculum, and also the move toward having a more diverse campus.

I think this budget also prepares us for the longer haul. The budget that the state
legislature just passed does provide a slight increase in state subsidy in the second year of
the biennium, but it also lowers the caps on tuition. So it means that at the present time if
the economy grows as anticipated in the budget and if the budget is not changed we will
face an equally challenging resource constraint in the second year of the biennium. Now
by that time we will hopefully have our academic planning process in place and that will
help. And what I think that budget has done is point out how important a unified University
academic plan is and that we’ve prepared some of the steps that would be important in
developing that plan.

As I have mentioned earlier the budget cuts involved here are differential, they are not
across-the-board, and that pay increases are moving more and more with the faculty. In
fact, the whole this is moving toward being merit based and not just awarding people for
being here a long time. So even though the second year will be a challenge, I am confident
that after this year and what we have gone through this year in terms of protecting
important functions and making some very tough decisions, that whatever that challenge is,
this University will be able to address it in a constructive way.

Mr. Chairman, that concludes my report. I would be happy to answer any questions.
Mr. Shumate:

I think that the booklet that you have put together is easy to read, it is a complex budget and I can understand it. I know that the preliminary material was faxed to all of the Board members and we appreciate the hard work in putting the booklet together for our meeting today.

Mr. Teaford:

Before I ask for a motion on the President's budget recommendations I would like to make the following report. It will be recalled that at our meeting on June 7, 1991, the Board approved a set of principles and guidelines to be used in our evaluation of the President. Pursuant to those guidelines, the Personnel Committee of the Board of Trustees has met with President Gee and reviewed his assessment of his accomplishments during the past year, as well as his goals for the University in the upcoming year.

It will come as no surprise that the Personnel Committee is extremely pleased with the President's outstanding beginning. President Gee's unceasing energy and engaging personality have already established him as an outstanding leader. He has established a dialogue with the faculty and staff and he clearly appreciates and understands their talents and concerns. He has met with an awesome number of parents, alumni, governmental leaders, business representatives, and ordinary citizens. He has also demonstrated a genuine empathy with our students which was evident in the acclaim accorded him in his commencement address. Clearly he was better than Cosby or Bush. His positive and enthusiastic articulation of the best values of the University have already begun to change the State's perception of this University.

While his first year has necessarily been focused on learning about the many infinite aspects of the University, he has already set in motion a series of initiatives, including a strategic planning process which will serve as a guide for Ohio State well into the future.

His early hiring successes, including Vice President Hayes and Business Dean Alluto have set a standard which we are confident will be matched in future appointments. Further, President Gee's relationship and communication with the Board of Trustees has assisted us greatly in revitalizing our efforts. In sum, his devoted service, combined with his energetic style and refreshing sense of humor has already contributed significantly to the continued positive outlook and growing support for The Ohio State University.

Given that extremely positive evaluation, I want to present the Personnel Committee's recommendation regarding President Gee's salary. In making this recommendation we were necessarily mindful of the current financial condition of the University and the proposed faculty and staff compensation increases. As such, we recommend that President Gee receive a 3.5 percent increase for the fiscal year 1991-1992, beginning July 1, 1991.

We recommend the budget resolution include a requirement that the Secretary of the Board be authorized and directed to develop the appropriate documents to effectuate this increase in compensation.
July 12, 1991 meeting, Board of Trustees

Mr. Teaford: (contd)

I will now entertain a motion to approve the President's budget report and recommendations, as well as the Personnel Committee's proposal regarding President Gee's compensation for the coming year.

1991-92 CURRENT FUNDS BUDGET

Resolution No. 92-18

Synopsis: The Fiscal Affairs Committee recommended the budget for fiscal year 1991-92 for adoption.

WHEREAS the levels of resources have been identified for the first year of the 1991-93 biennium; and
WHEREAS appropriate planning and consultation within the University has been accomplished; and
WHEREAS the President is now prepared to present the 1991-92 budget:

NOW THEREFORE

BE IT RESOLVED, That the University Current Funds Budget for fiscal year 1991-92, as described in the accompanying text and tables, be approved, with authorization for the President to make expenditures within the projected income levels; and

BE IT FURTHER RESOLVED, That student fees be increased for all students beginning Autumn Quarter 1991, as specified in the Schedule of Student Fees incorporated in this resolution; and

BE IT FURTHER RESOLVED, That the Secretary be instructed to incorporate all supporting documents into the minutes of this meeting, including Fees and Charges, and to file these materials with the official records of this University.

Upon motion of Mr. Shumate, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XI for background material, page 153.)

--0--

Thereupon the Board adjourned to meet Friday, September 6, 1991, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio.

Attest:

Madison H. Scott
Secretary

Hamilton J. Teaford
Chairman
The Board of Trustees met at its regular monthly meeting on Friday, September 6, 1991, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio, pursuant to adjournment.

**    **    **

Minutes of the last meeting were approved.

**    **
President Gee:

I am glad that all of you were able to join us today. When we last met I am confident that no one here could have predicted the enormous changes that are taking place in the world. Clearly, much of what we have come to expect about relationships and outcomes have been shaken and challenged, but enough about football.

As I walked off the plane at Port Columbus, I saw dozens of reporters and was delighted to have a chance to share some of my observations as an eyewitness to world events. Regrettably, I discovered that what drew the media to the occasion was Lubyanl<a which was the KGB headquarters. I thought that that would be course, everyone was Interested in the fact that we were traveling around in that. I said that I wanted to see two things: one was the Soviet Cemetery where many of their major artists and leaders had been buried. We did have an opportunity to visit the cemetery, including seeing Khru"shev's grave. The other thing I wanted to see was Lubyanaka which was the KGB headquarters. I thought that that would be interesting. This is a cordoned off area, but we did go in and we had an opportunity to drive by and see the statue. In fact, I had my picture in front of the statue which was taken down later on. As we were leaving, the head of the Academy turned to me and in a quiet voice said, "Do you know what the tallest building in Russia is?" I said "no." Then he said, "the KGB," and I said "why?" He said, "Because you can see Siberia from the basement!" So even in a time of stress, they do have a wonderful and warm sense of humor. I valued and appreciated that.

What I have discussed this morning is only one of the hundreds of activities in which Ohio State is engaged around the globe. From Afghanistan to Zimbabwe, Ohio State faculty and students are engaged in research, instruction, and service with 110 nations. What is most exciting and heartening to me is that the people of Ohio State, past and present, are making a difference in the quality of life in our world. As we prepare for the opening of yet another academic year, I am reminded of the critical importance of the education of our citizens, arming them with the tools to understand, interpret, and even promote change in our global society.

Saying that, Mr. Chairman, I would also like to note the newest member of our University family who is with us today, the Special Assistant for Business and Community Relations, Sarah Short Austin.

Mr. Chairman, at this time I want to recommend that the Board establish a University Staff Council. I would like to ask Mr. Steve Stoffel to explain quickly what the council, pending the resolution of some unfair labor practice charges that have been filed on the unfair labor practices. Let me stop for just a moment and let Debbie talk a little about the process that we have gone through here.
Ms. Deborah Gill:

Thank you. I would just like to let you all know that we appreciate the opportunity this morning and to reiterate that staff-at-large is looking forward to the continuation of the governance process of the University staff. It is the University's position that, again, institutions have had a long history of faculty and staff governance and that we are indeed different. This council will participate in the governance process of the University and talk about many questions including communication with staff, and other issues that deal with questions outside of what traditional collective bargaining units would talk about. In addition, it will probably talk about some of the issues that indeed collective bargaining units would talk about. Our position will be because of that long history and because this whole question is being reviewed on the national scene -- the national labor relations board is looking at this question -- and based on interest and the desires of our staff to participate, we should be allowed to implement our council. There was a public hearing this week, and testimony has been taken, and briefs filed with the NLRB. The NLRB will share those briefs with the University. This question is being looked at on a national scene and will be looked at on a state scene. With regard to our case, it is our hope that the SERB will be willing to move into some uncharted waters.

Mr. Stoffel:

Certainly institutions of higher education have had a long history of staff governance. A year ago when we embarked upon this we felt that it was the right thing for the University to continue to involve staff in the governance process of the institution. We therefore set out to create a structure that would enable the University to move from a presidential staff advisory committee to a full-fledged staff council. The goal is to enlarge that group so it is more representative of the University staff which numbers work with. Faculty are excluded since they are represented by the University Senate. We, therefore, are asking you approval today to allow us to move forward pending the outcome of the legal challenge with regard to the unfair labor practice charges and approve these bylaws and the concept of the staff council. Any questions?

Mr. Teaford:

I think you might want to say what we internally believe about the unfair labor practice charge -- as to our position.

Mr. Stoffel:

On the second issue the bylaws that you have in front of you do not exclude individuals who participate in collective bargaining units. On the first charge, it is the University's position that, again, institutions have had a long history of faculty and staff governance and that we are indeed different. This council will participate in the governance process of the institution and talk about many questions including communication with staff, and other issues that deal with questions outside of what traditional collective bargaining units would talk about. In addition, it will probably talk about some of the issues that indeed collective bargaining units would talk about. Our position will be because of that long history and because this whole question is being reviewed on the national scene -- the national labor relations board is looking at this question -- and based on interest and the desires of our staff to participate, we should be allowed to implement our council. There was a public hearing this week, and testimony has been taken, and briefs filed with the NLRB. The NLRB will share those briefs with the University. This question is being looked at on a national scene and will be looked at on a state scene. With regard to our case, it is our hope that the SERB will be willing to move into some uncharted waters.

Mr. Stoffel: (contd) Thank you.

Certainly institutions of higher education have had a long history of staff governance. A year ago when we embarked upon this we felt that it was the right thing for the University to continue to involve staff in the governance process of the institution. We therefore set out to create a structure that would enable the University to move from a presidential staff advisory committee to a full-fledged staff council. The goal is to enlarge that group so it is more representative of the University staff which numbers work with. Faculty are excluded since they are represented by the University Senate. We, therefore, are asking you approval today to allow us to move forward pending the outcome of the legal challenge with regard to the unfair labor practice charges and approve these bylaws and the concept of the staff council. Any questions?

Mr. Teaford:

This question is being looked at on a national scene and will be looked at on a state scene. With regard to our case, it is our hope that the SERB will be willing to move into some uncharted waters.
BE IT RESOLVED, That the proposed bylaws which establish the framework and the basic principles of the Staff Council are hereby approved with the understanding that the implementation of this new structure shall be delayed until the unfair labor charges which have been filed with the State Employee Relations Board (SERB) are resolved in a manner satisfactory to the President; and

BE IT FURTHER RESOLVED, That pursuant to any finding by SERB or any reviewing court and upon the recommendation of University legal counsel, the Secretary of the Board of Trustees is hereby authorized and directed to incorporate changes/amendments to referenced Staff Bylaws as may be appropriate.

Upon motion of Ms. Casto, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

(See Appendix XIII for University Staff Council Bylaws, page 249.)

RESEARCH FOUNDATION REPORT

Ms. Casto:

I'd like to call your attention to the awards received by The Ohio State University Research Foundation during the months of June and July. At the first tab of the Research Foundation Report, the awards are listed in four sponsor categories: Federal, Ohio, Industrial, and Other Non-federal. Within each category the awards are ordered in descending dollar value.

Tab 2 offers a few highlights of recent awards received. From the awards received during this two month period, I'm pleased to report that Ohio State University faculty generated over $2 million in direct support of undergraduate and graduate education. A large portion of this funding is for fellowships.

At Tab 3 there are three summary tables listing awards and expenditures in fiscal year '91. The first summary table is for the fiscal year ending June 30, 1991. The award total, $134 million, represents a 6.86 percent increase over the previous year. The second summary page lists fiscal year '91 expenditures. Expenditure data, unlike awards data which are subject to the factors like the timing of funding or incremental allocations, tend to represent a more accurate picture of the University's sponsored research performance. Expenditures also permit us to compare our performance against standards such as the consumer price index. Last year over 1,600 graduate students were supported and $5.9 million worth of research equipment was purchased on Research Foundation projects. In the last summary table, which compares July '91 and July '90 awards, the Research Foundation received $14 million. While that amount is 12 percent below July's awards last year, this can be attributed to the timing of a few major awards.

At Tab 4 are profiles of the University's nine National Science Foundation Presidential Young Investigators awarded in 1991. This is a very competitive program which is conducted on a nomination basis. Only two other universities in the country exceeded the number awarded to Ohio State University.

Resolution No. 92-20

Synopsis: Approval of the following reports on contracts, grants, and gifts and the summaries for June and July 1991 is proposed.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, The Ohio State University Development Fund, and The Ohio State University Foundation:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station, The Ohio State University Development Fund, and The Ohio State University Foundation during the months of June and July 1991 be approved.

Upon motion of Ms. Casto, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

(See Appendix XIV for The Ohio State University Development, page 267.)

(See Appendix XV for Report of Research Contracts, Grants, and Gifts, page 273.)

Summary (contd)

JUNE 1991 (contd)

The Ohio State University Development Fund

Establishment of Named Funds

The George Nicolozakes Medical Research Endowment Fund
(Support capital expenses incurred with the Medical Research Facility) $ 30,000.00

The Paul Underwood Endowment Fund in International News Journalism
(Project or scholarships - School of Journalism) $ 15,948.59

The Ashland County 4-H Endowment Fund
(Scholarships/Support) $ 15,688.24

The Ohio State University Foundation

Approval of Description and Establishment of Funds

The Alice Louise Ridenour Wood Chair Fund in Mathematics
(Support faculty members who hold the Chair) $ 432,500.00

The Ruffner Endowment Fund for Emerging Priorities
(Discretion of the President) $ 215,629.25

The Ross W. Boyd Memorial Distinguished/Medalist/University Scholarship Fund
(Scholarships) $ 138,129.56

Description of Named Funds

The George Nicolozakes Medical Research Endowment Fund

The George Nicolozakes Medical Research Endowment Fund was established September 6, 1991, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from George Nicolozakes, Cambridge, Ohio. All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the Dean of the College of Medicine in order to carry out the desire of the donor.

The Paul Underwood Endowment Fund in International News Journalism

The Paul Underwood Endowment Fund in International News Journalism was established September 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Mrs. Paul Underwood, the Paul Underwood family, the Gannett Foundation, and friends and relatives of the late Paul Underwood, an editor and foreign correspondent with the Associated Press and the New York Times; foreign news analyst and editorial writer for the Cincinnati Enquirer; and Professor of Journalism at The Ohio State University from 1967 until his death in 1985. All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

Eighty percent (80%) of the annual income shall be used to fund a School of Journalism group or individual project whose purpose is to promote a better understanding of international news journalism, or to provide a scholarship to a journalism student who exhibits exceptional writing and reporting qualities. Project proposals or scholarship applications shall annually be evaluated by a committee consisting of the Director of the School of Journalism and two qualified faculty members of the School. Selection of scholarship recipients will be made in consultation with the University Committee on Student Financial Aid. Twenty percent (20%) of the annual income shall be returned to the endowed principal.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Ashland County 4-H Endowment Fund

The Ashland County 4-H Endowment Fund was established September 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the Ashland County 4-H Committee and other friends of the Ashland County 4-H Program. All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.
September 6, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Ashland County 4-H Endowment Fund (contd)

The annual income from this fund shall be used to support the Ashland County 4-H Program. This support may include, but is not limited to, the funding of scholarships and awards for 4-H members, volunteer leaders and friends of 4-H; sponsoring seminars and programs; purchasing materials or services that will supplement 4-H programming; or increase the visibility and public support for 4-H in Ashland County. All expenditures from this fund shall be approved by the Ashland County 4-H Committee, and in the awarding of scholarships the University Committee on Student Financial Aid will be consulted.

Should the need for this fund cease to exist or so diminish as to provide unused income, then the income may be used for any purpose whatsoever as determined by the Board of Trustees, with preference being given to the recommendations from the appropriate administrative official of the University who is then directly responsible for the Ohio Cooperative Extension Service in consultation with a committee representing the local 4-H donors.

THE OHIO STATE UNIVERSITY FOUNDATION

Approval of Description and Establishment of Funds

The Alice Louise Ridenour Wood Chair Fund in Mathematics

The Alice Louise Ridenour Wood Chair Fund in Mathematics was established September 6, 1991, by the Board of Trustees of The Ohio State University through funds received by the University from The Ohio State University Foundation for the support of the Department of Mathematics.

Income provided by the Foundation shall be reinvested in the fund’s principal until such time as the fund shall have a value of $750,000, whereupon the annual income shall be used to support the work of the distinguished faculty members in the Department of Mathematics who shall hold the Alice Louise Ridenour Wood Chair in Mathematics.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees and department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Ruffner Endowment Fund for Emerging Priorities

The Ruffner Endowment Fund for Emerging Priorities was established September 6, 1991, by the Board of Trustees of The Ohio State University through funds received by the University from The Ohio State University Foundation, with gifts from Frederick (B.S.Bus.Adm. '50) and Mary Ruffner of Detroit, Michigan.

To: The Boys and Girls Clubs of Columbus Scholarship Fund

Change in Description of Named Fund

The Josef N. Knill Memorial Fund in Entomology

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Description of Named Funds

The Ralph H. Davidson Scholarship Fund in Entomology

The Ralph H. Davidson Scholarship Fund in Entomology was established September 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from his wife, Clara Jane Davidson (B.S.Ed. '35), and family, in memory of Ralph H. Davidson, Professor of Entomology and graduate of The Ohio State University (B.S.Agr. '30; M.S., Entomology, 1931; Ph.D., Entomology, 1935).

The Mahoning County Alumni Scholarship Endowment Fund

The Mahoning County Alumni Scholarship Endowment Fund was established September 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the members and friends of the Mahoning County OSU Alumni Club. All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide scholarship support for one or more qualified scholars enrolled at The Ohio State University. Selection of the scholarship recipients shall be made by the Mahoning County Alumni Club and The Ohio State University Alumni Association in cooperation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Dr. Barbara Ann Wolfman Memorial Scholarship Fund in Veterinary Medicine

The Dr. Barbara Ann Wolfman Memorial Scholarship Fund in Veterinary Medicine was established September 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Mr. and Mrs. Melvin Wolfman and family.
The annual income shall be used to provide scholarship funds to a junior student who has demonstrated scholarship and proficiency in the basic sciences upon completion of the first two years of the curriculum as determined by a suitable faculty committee within the College of Veterinary Medicine in consultation with the University Committee on Student Financial Aid. Financial need shall be considered. The awarding of the scholarship shall be announced at a time and manner consistent with those for other college scholarships. The announcement should include a statement that conveys the following: "This scholarship is named in honor of Dr. Barbara Ann Wolfman both to perpetuate her memory and to recognize her profound influence on young people interested in veterinary medicine."

It is the desire of the donors that this fund benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer to carry out the desire of the donors.

The Studies in Christianity Fund

The Studies in Christianity Fund was established September 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Dorothy J. Knull in memory of her husband, Josef N. Knull. The description was revised September 6, 1991.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for undergraduate scholarships for Boys and Girls Clubs members. Selection of the award recipients shall be made by the Scholarship Committee of The Boys and Girls Clubs of Columbus in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer to carry out the desire of the donor.

Change in Description of Named Fund

The Josef N. Knull Memorial Fund in Entomology

The Josef N. Knull Memorial Fund in Entomology was established December 7, 1978, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from Dorothy J. Knull in memory of her husband, Josef N. Knull. The description was revised September 6, 1991.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.
department chairperson, or program administrative officer in order to carry out the desire of the

The annual income shall be used to support collections and collecting; curating, with emphasis on
systematic entomology and biodiversity; and may be used to support professorships, student
scholarships, and the publication of systematic papers in entomology. Requisitions for funds will
be approved by the chairperson of the Department of Entomology in cooperation with the Dean of
the College of Biological Sciences.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for
this fund should cease to exist or so diminish as to provide unused income, then another use shall
be designated by the Board of Trustees in consultation with the appropriate college dean,
department chairperson, or program administrative officer in order to carry out the desire of the
donor.

HOSPITALS BOARD COMMITTEE REPORT

The Hospitals Board meeting of July 25 began with the annual Service Board report presented by retiring president Mrs. Amelia Nasrallah. The Hospitals Board expressed appreciation for the considerable "friend-and-fund-raising" efforts of the Service Board and to Mrs. Nasrallah personally. Dr. Melhjian reported on recredentialing of medical staff members, and the Board moved into executive session, for confidential review of a Medical Staff Administrative Committee decision related to professional activities of a medical staff member. Following executive session the Board voted unanimously to affirm the medical staff decision.

The Board acknowledged the outstanding service of Dr. William Smead as Chief of Staff for the past two years and received the first report of the Hospitals' new Chief of Staff, Dr. Bush. Mr. Bob Holder reviewed the Hospitals' Self-Indemnification Fund claims activity during 1990-91, and Mr. Fraley discussed preliminary financial data for the month of June and the past fiscal year. He reported that to date the Hospitals' 1991-92 operating budget estimates appear to be consistent with the state and University budget. Mr. Fraley also indicated the Hospitals responded to the University's budget constraints by increasing the OSU Health Plan discount from 17 percent to 21 percent, in addition to the financial support which has been and is continuing to be provided to the Cancer Hospital.

On August 29 the Hospitals Board held its second annual day-long retreat. The day
began with an orientation session including the Hospitals' history; organizational
structure of the University and the medical center; origin and evolution of the
Hospitals Board; and the role and responsibilities of Board members. I might say that
we found that some of the presentation might be most appropriate for this Board. It
was extremely informative and I think that we found it very useful.
AMENDMENTS TO THE MEDICAL STAFF BYLAWS (cont'd)

(A) through (C) unchanged.

(D) Limited medical staff.

(1) Qualifications:
The limited staff shall consist of doctors of medicine, osteopathic medicine, and
dental surgery who are appointed in good standing in post-doctoral educational
programs established and supervised by the clinical department or division chiefs.

(2) Responsibilities:
The limited staff shall:
(a) through (c) unchanged.

(d) Members of the limited staff will be expected to make regular satisfactory
professional progress including anticipated certification by the respective
specialty or sub-specialty program of post-doctoral training in which they
are enrolled. Evaluation of professional growth and appropriate
humanistic qualities will be made on a regular schedule by the
departmental chairperson or divisional director, program director or
evaluation committee. Failure to meet reasonable expectations may
result in sanctions including probation, lack of reappointment, suspension
or termination.

(e) Appeal by a member of the limited staff of probation, lack of
reappointments, suspension or termination for failure to meet
expectations for professional growth or failure to display appropriate
humanistic qualities will be conducted and limited in accordance with
written guidelines established by the respective department or division
and approved by the medical director and institutional post-m.d. graduate
medical education committee.

(f) Alleged misconduct by a member of the limited staff, for reasons other
than failure to meet expectations of professional growth as outlined in (d)
and (e) above, shall be handled in accordance with the medical staff
bylaws 3335-43-05 and 3335-43-06.

Balance unchanged.

3335-43-08 Organization of medical staff of the Ohio state university hospitals into clinical
departments and divisions.

(A) Each member of the attending, courtesy, limited, and honorary staff shall be assigned to a
clinical department or division upon the recommendation of the chief of the clinical
department concerned.

(B) Names of clinical departments and divisions.

(1) and (2) unchanged.

AMENDMENTS TO THE MEDICAL STAFF BYLAWS (cont'd)

(3) Internal medicine. The following divisions are designated:

- Allergy
- Bone Marrow Transplantation
- Cardiology
- Community Internal medicine
- Dermatology
- Endocrinology and metabolism
- Gastroenterology
- General medicine
- Hematology and oncology
- Infectious diseases
- Nephrology
- Pulmonary
- Rheumatology - immunology

(4) through (15) unchanged.

(C) through (D) unchanged.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the Medical Staff Bylaws be adopted as
recommended by the University Hospitals Board.

Upon motion of Mr. Celeste, seconded by Mr. Colley, the Board of Trustees adopted the foregoing
resolution by unanimous voice vote.

INVESTMENTS COMMITTEE REPORT

Amb. Wolf:
The Investments Committee held its annual review of the Endowment Fund's Fixed
Income Managers yesterday. The committee met with representatives from
Boatman's Trust Company, Duff and Phelps Investment Management, W. R. Lazard
Company, and STW Fixed Income Management. Each advisor reported on its
performance of the past year as well as its current outlook for the fixed income
market. It was reported for the 12-month period ending June 30, 1991, that Duff and
Phelps Investment Management and STW Fixed Income Management both
surpassed the benchmark Lehman Government Corporate Bond Index. Additionally,
It was reported that for the three year period, ending June 30, 1991, that all four of our
fixed income managers had out performed that benchmark Lehman Government
Corporate Bond Index Fund.

On October 31, the Investment Committee will hold a similar meeting with the
Endowment's Equity Advisors, as opposed to the Fixed Income Advisors, and
thereafter will determine if any changes are warranted in assets managed by the
Endowment Funds total group advisors.
INVESTMENTS COMMITTEE REPORT (contd)

I'd like to report to you, Mr. Chairman, and the Board that you will find in your agenda book a financial report on the Endowment Fund for the period June 30, 1991, through August 18, 1991. This Endowment Fund had an overall market value increase of approximately $13.2 million in that short period of time. As of August 18, 1991, the market value of the Endowment Fund was $364.4 million, which is an all-time high for our Endowment Fund. That concludes my report, Mr. Chairman.

Mr. Teaford:

Thank you, Ambassador Wolf. Are there any questions? I would like to say how I appreciate the amount of time that the Committee had to spend this time and will have to spend in late October.

ACADEMIC AFFAIRS COMMITTEE REPORT

Ms. Casto:

The College of Engineering is a large and diverse College with 15 academic departments including three departments in the School of Architecture, which is part of the College. Also included is the Department of Aviation which operates the University Airport, and the Department of Computer and Information Science which supports degree programs in three colleges. The College offers 15 undergraduate degree programs and 16 graduate degree programs. Last year the College had 291 regular faculty, served 6,016 undergraduate and 1,550 graduate students, and produced 795 Bachelor of Science, 372 Master of Science, and 107 Ph.D. graduates.

The College conducts a substantial research activity supported by government agencies and industry and benefits from a substantial and growing endowment.

A noteworthy recent event in the College was the establishment of the Center for Automotive Research known as CAR. This new Center will give visibility and focus to the Transportation Research Endowment Program made possible by the substantial and growing endowment deriving from the sale of Transportation Research Center of Ohio to Honda of America Manufacturing, Inc. The initial endowment of $6 million from the sale has subsequently been increased by another $8 million from annual transfers from ongoing TRC operations. The College continues to manage TRC operation under an agreement between Honda and TRC, Inc., a University Affiliate. The annual transfers are part of the management agreement. The goal of the endowment program is to make Ohio State the leading university in automotive engineering education and research. This goal should be achievable in five years. A substantial research program is already underway and academic programs are being developed. Related student interest and activity have grown rapidly over the past two years.

I have to say that this is an outstanding College and I understand it is quite difficult to enter this College, so it is one that we can definitely be proud of.

ACADEMIC AFFAIRS COMMITTEE REPORT (contd)

Ms. Casto: (contd)

In addition, the Committee is recommending the following resolutions:

PERSONNEL ACTIONS

RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the July 12, 1991 meeting of the Board, including the following Appointments, Reappointment of Principal Administrative Official, Appointment of Chairperson of Academic Faculty and Directors of Center and School, Reappointment of Chairperson of Department, Leaves of Absence Without Salary, Professional Improvement Leave—Cancellation, Professional Improvement Leave—Change in Dates, Emeritus Titles, and Medical Staff Appointments and Reappointments (The Arthur G. James Cancer Hospital and Research Institute) as detailed in the University Budget be approved, and the Medical Staff Appointments and Reappointments (The Ohio State University Hospitals) approved July 25, 1991, by the Hospitals Board be ratified.

Appointments

Name: ADA DEMB
Title: Vice Provost and Associate Professor

Effective: January 1, 1992
Salary: $100,500.00
Present Position: Director, International Program for Board Members, International Institute for Management Development

Name: ROBERT J. FASS
Title: Professor (The Samuel Saslaw Professorship in Infectious Diseases)
College: Medicine
Effective: July 1, 1991
Salary: $130,680.00
Present Position: Director, Division of Infectious Diseases and Professor, Internal Medicine

Name: SARAH SHORT AUSTIN
Title: Special Assistant to the President for Business and Community Relations
Office: President's
Effective: September 1, 1991
Salary: $85,080.00
Present Position: Socioeconomic Executive, McDonnell Aircraft Company, St. Louis, MO

Reappointment of Principal Administrative Official

JOAN N. HUBER, Coordinating Dean for Arts and Sciences, effective July 1, 1991, through June 30, 1993, pursuant to rule 3335-3-17 of the Administrative Code.
September 6, 1991 meeting, Board of Trustees

PERSONNEL ACTIONS (cont'd)

Appointment of Chairperson of Academic Faculty and Directors of Center and School

July 1, 1991 through June 30, 1992
   - Center for Cognitive Science
   - Thomas M. Ostrom*

July 1, 1991 through September 30, 1995
   - Academic Faculty of Management and Human Resources
   - Marcia P. Miceli

August 1, 1991 through June 30, 1992
   - School of Music
   - Roger L. Stephens*

Reappointment of Chairperson of Department

July 1, 1991 through September 30, 1995
   - Mechanical Engineering
   - Lawrence A. Kennedy

*Acting Directors

Leaves of Absence Without Salary

LOUIS A. JACOBS, Professor, College of Law, effective Autumn Semester 1991, to be a distinguished visiting professor at the University of Tulsa.

ROBERT M. BAUM, Assistant Professor, Department of History, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, to accept an Andrew W. Mellon Postdoctoral Fellow in Africana Studies at Bryn Mawr College.

LISA K. BRADLEY, Assistant Professor, Cooperative Extension Service, effective August 1, 1991, through September 2, 1991, for medical reasons.

DONNA R. LONG, Assistant Professor, Department of Spanish and Portuguese, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, to accept a visiting associate professorship of Spanish at New Mexico State University.

DAVID L. SNYDER, Assistant Professor, Academic Faculty of Management Sciences, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, for personal reasons.

ZILLA J. GOODMAN, Instructor, Department of Judaic and Near Eastern Languages and Literatures, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, to accept a Visiting Research Associateship at the University of Cape Town in South Africa.

Professional Improvement Leave–Cancellation

BOSTWICK F. WYMAN, Professor, Department of Mathematics, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

September 6, 1991 meeting, Board of Trustees

PERSONNEL ACTIONS (cont'd)

Professional Improvement Leave–Change in Dates

LAUREL W. RICHARDSON, Professor, Department of Sociology, change leave from Winter Quarter, Spring Quarter and Autumn Quarter 1992, to Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

Emeritus Titles

WARREN L. ROLLER, Department of Agricultural Engineering, with the title Chairperson and Professor Emeritus, effective August 1, 1991.

SAMUEL MEITES, Department of Pediatrics, with the title Professor Emeritus, effective July 1, 1991.

WALTER E. MITCHELL, JR., Department of Astronomy, with the title Professor Emeritus, effective July 1, 1991.

EDWIN G. NOVAK, Department of Educational Services and Research, with the title Associate Professor Emeritus, effective September 1, 1991.

James Adam Jordan

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 5, 1991, of James Adam Jordan, Professor Emeritus in the Department of Mechanical Engineering.

Professor Jordan was born in Jackson County, West Virginia, and graduated from Parkersburg High School. He was appointed Ensign following graduation from the U.S. Naval Academy in 1927. He later earned a degree of Master Science at the University of California at Berkeley.

James Jordan served with the American Electoral Mission in Nicaragua and commanded submarine forces prior to and during World War II and attack transport during the Korean Conflict. He assisted in the formation of the Office of Naval Research and served as Professor of Naval Science at The Ohio State University. Following retirement from the Navy in 1957, Capt. Jordan joined the faculty of the Department of Mechanical Engineering at Ohio State. Upon his retirement in 1975, Professor Jordan was named Professor Emeritus.

Professor Jordan was a member of Sigma Xi, the U.S.N.A Alumni Association, the OSU Anvil and Bellows Club, the Torch Club, and the Columbus Museum of Art. At Ohio State he was viewed as an excellent teacher in Mechanical Engineering and was known by all his students as a thoughtful and stimulating person of high standards.
Charles J. Koenig

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 1, 1991 of Charles J. Koenig, Professor Emeritus in the Department of Materials Science and Engineering.

Professor Koenig was born June 3, 1911, in St. Marys, Ohio. He received his preparatory education at North High School and Culver Military Academy. He attended The Ohio State University, earning the degrees B.S. in 1932, M.S. in 1933, and Ph.D. in 1935 all in Ceramic Engineering.

From 1935 to 1941, he was Research Engineer in the Engineering Experiment Station of The Ohio State University. Dr. Koenig was a Lt. Commander in the U.S. Navy from 1941 to 1945. He was assistant administrator of research and design branch of the Electronics Division of the Bureau of Ships where his background in electric ceramics was highly valuable. Upon return to civilian life, he was appointed Director of Research of American Nepheline, Ltd. In 1945 and held that position until 1960. In 1960 he served as Vice President of Industrial Minerals of Canada for whom he has been Director since 1947.

Also in 1960, Dr. Koenig was Vice President and Director of Research of the American Nepheline Corporation. He was named President of the company in 1964. He held this position together with the Vice Presidency of Industrial Minerals, until 1965, at which time he returned to the University as Professor in the Department of Ceramic Engineering. He had been an adjunct professor in the department for several years prior to his return.

Professor Koenig was recognized as an authority in mineral beneficiation, and the important role of feldspathic materials as glass formers. He was a pioneer in the development of sonic test methods and the application of fluid energy reduction methods for particle comminution.

Dr. Koenig was a Fellow of the American Ceramic Society and had been a Trustee of the Society, Keramos, Sigma Xi, and Sigma Gamma Epsilon. He was also a member of the National Institute of Ceramic Engineers, the Canadian Ceramic Society, and the Ohio Academy of Science. He served as a member of the American Ceramic Society's Committee on Ceramic Society History and was chairman of several committees in that organization.

His teaching and research led to many technical publications in several fields including reactivity rates, fluxing reactions, and nepheline and syenite in ceramic compositions. Other areas were durability of glaze coatings, classification of particle sizes, thermal expansion of silicate fluxes, and development of vitreous compositions with low maturation characteristics.

He was a guest lecturer at the International Ceramic Congress held in Zurich in June 1950. He traveled extensively in Europe, studying ceramic industrial processes, research methods, and educational techniques.

On behalf of the University, the Board of Trustees expresses to the family its deepest sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Charles J. Koenig

Chester N. McGrew

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 22, 1991, of Chester N. McGrew, Associate Professor Emeritus of the Ohio Cooperative Extension Service.

Mr. McGrew was born August 23, 1915, in Kent, Ohio. He received his B.S. in Agricultural Economics from The Ohio State University in 1939, and his M.S. in Agricultural Extension Education from The University of Wisconsin in 1953. He worked for The Ohio State University Cooperative Extension Service as an Assistant in County 4-H Programs in Geauga County in 1935 and in Stark County in 1936. In addition, he was a 4-H club member for nine years and also served as a club advisor and as President of the University 4-H Club.

Chester McGrew started his Extension career as a County 4-H Agent for Medina County in 1939. He then became the Associate Extension Agent for Medina County in 1946. Mr. McGrew assumed the position as Richland County Agricultural Agent in September 1948, and continued in this position as an Assistant Professor and Extension Agent for 26 years, until his retirement in 1974.

Mr. McGrew was affiliated with The Ohio Extension Agents Association, Mansfield Men's Garden Club, Richland County Farm Bureau and Alpha Zeta Fraternity. He was past President of Lucas Lions Club and President of Richland County Regional Planning Commission. Mr. McGrew was also a member of the First Presbyterian Church and served in the U.S. Army during World War II.

His contributions included his dedicated interest to 4-H county youth programs and animal husbandry practices. During his extension career he was able to secure the respect and admiration of those around him through his devotion and hard work to Agricultural Education and Cooperative Extension.

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to the family and friends of Chester McGrew. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Chester N. McGrew

Fadil I. Merhemic

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 30, 1991, of Fadil I. Merhemic, Assistant Professor Emeritus in the University Libraries.

Fadil Merhemic was born June 29, 1919, in Sarajevo, Yugoslavia. He received his education at State High School (Gymnasium) Sarajevo, University of Zagreb, Medical School, and School of Economics and World Trade, Vienna, Austria. In 1959 he received his M.S.L.S. degree from Western Reserve University, Cleveland, Ohio.
September 6, 1991 meeting, Board of Trustees

RESOLUTIONS IN MEMORIAM (cont'd)

H. William Newland (cont'd)

On behalf of the University community, the Board of Trustees expresses its sorrow upon the death on June 20, 1991, of H. William Newland, Professor Emeritus in the Department of Animal Science.

Eugene E. Siayman

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on May 2, 1991, of Eugene E. Siayman, Lecturer in the Department of French and Italian.

RESOLUTIONS IN MEMORIAM (cont'd)

STUDENT AFFAIRS COMMITTEE REPORT

Mr. Tornielli:

This morning the Student Affairs Committee heard a report from Jason January, Director of the USG CrimeWatch Escort Service. Mr. January submitted a summary of the history and future goals of the escort service and this summary is available for all of the Trustees. He highlighted its growth as a result of the commitment given by President Gee and the Trustees to the Undergraduate Student Government. One example of this is shown by the number of escorts that that service has been able to provide. In the years 1988-1995, they were able to provide for 658 escorts, and in the year 1990-1991 they were able to provide 17,652. They attribute this directly to the increased support from the Undergraduate Student Government. Mr. January submitted a summary of the history and future goals of the escort service and this summary is available for all of the Trustees. He highlighted its growth as a result of the commitment given by President Gee and the Trustees to the Undergraduate Student Government. One example of this is shown by the number of escorts that that service has been able to provide. In the years 1988-1995, they were able to provide for 658 escorts, and in the year 1990-1991 they were able to provide 17,652. They attribute this directly to the increased support both in funding and transportation, vans from Kreager and Graham Ford. He also illustrated the success of the experimental summer program, which recorded a record number of 659 escort services in just the past summer quarter. The previous year they had 572 for the whole year. Again, I'd encourage the Board to review the submitted report.

September 6, 1991 meeting, Board of Trustees

STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Tonnies: (contd)

We also heard a report from Ronald A. Michalec, who is the Deputy Chief of University Police, regarding student assistance and involvement in crime prevention. The Community Crime Patrol incorporated was established on April 1, 1990, in response to the increasing crime problem in the University district. The University district is in the vicinity of the 1st and 4th precincts, and again he submitted a report and there is an illustrated map.

The 1990 University registration statistics show that 31,525 students reside in this area, and it is one of the areas in the City of Columbus, with the highest crime rate. The community crime patrol is funded by the Governor's Office of Criminal Justice, the City of Columbus, and the Ohio State University. Community Crime Patrol is governed by a nine-member Board of Trustees and staff, with one executive director, one administrative assistant, and 26 patrolmen in conjunction with a representative of the Columbus Police Department and the Franklin County Sheriff's Office. They are responsible for the following duties and these include observing suspicious activities in this area, reporting those activities, gathering information, testifying as a witness in court if needed, observing, recording, and reporting all public safety hazards, and assisting citizens in any way that they can. He also detailed the number of assaults and burglaries, narcotics, etc. that they have been able to toll or at least report in the past year. Again, this will be submitted to the Board for review.

We also heard reports from the Undergraduate Student Government and the Council of Graduate Students. Matt Markllng, who is Vice President of USG, read a report which was faxed to him by President Christine Chen, and that report is available for all University students. He also detailed the number of assaults and burglaries, narcotics, etc. that they have been able to toll or at least report in the past year. Again, this will be submitted to the Board for review.

A second concern expressed by the Undergraduate Student Government and by the Graduate Students is the impact of the revised service of the bus loop on the student population. This summer quarter the Scarlet and Gray bus loop was discontinued, and it was originally planned to be cut for fall quarter, also secondary to budgetary decisions. We heard today that the service would run through the fall quarter to provide a transition period for the students. This way students who had planned their courses around using the bus loop to get from one place to another would not be hampered by the cut in service, and this gives them a little time to revise their winter schedules or just to plan better for the future.

Finally, Vice President Hector Lee, of the Council of Graduate Students gave a report. Mr. Tipton, who is President of the Council also submitted a report for the Board of Trustees. Mr. Lee highlighted various concerns facing graduate students. One of these was the bus problem which I just discussed. He also included health insurance concerns faced by graduate students. He highlighted that this is not only an OSU problem, but also a nationwide problem. In many instances the coverage provided is not sufficient for graduate students and their families, and he called for a continued University effort to investigate and alleviate this problem as best as we can.

The committee reassured Mr. Lee that the University has made a commitment to keep this reduction to a minimum, and it is something that we had already discussed today.

And if there are no questions Mr. Chairman, this concludes my report.

--0--

FISCAL AFFAIRS COMMITTEE REPORT

Mr. Shumate:

The Fiscal Affairs Committee met this morning as a committee of the whole and the following resolutions are being recommended:

WAIVERS OF COMPETITIVE BIDDING REQUIREMENTS

APRIL - JUNE 1991

Resolution No. 92-24

Synopsis: The Fiscal Affairs Committee recommended the acceptance of the quarterly report on waivers of competitive bidding.

WHEREAS the Purchasing Policy of The Ohio State University, adopted by the Board of Trustees on September 7, 1984, provides that the President and/or the Vice President for Business and Administration may grant a waiver from competitive bidding in the event of an emergency, when a sufficient economic reason exists, or when the goods or services can be purchased from only a single source, with a report on such waivers to be made quarterly to this Board; and

WHEREAS the Acting Vice President for Business and Administration has submitted a report on waivers of competitive bidding requirements granted for the period of April-June 1991:

NOW THEREFORE

BE IT RESOLVED, That the report on waivers of competitive bidding requirements for the period of April-June 1991, is hereby accepted.

Upon motion of Mr. Shumate, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XVII for chart on Waivers of Competitive Bidding Requirements - April - June 1991, Page 355.)

--0--

Mr. Shumate:

My presentation consists of two parts. The first part is to give you a preliminary assessment of the impact of the budget cuts that resulted from the budget that was passed by the Board at the July 12 meeting. Then after I have reviewed that, I will present to you a plan for dealing with the additional cuts that came out of the Governor's veto and legislative compromise after the budget was passed.
September 6, 1991 meeting, Board of Trustees

Mr. Shkurti: (contd)

So let me turn first to a summary of the way the University is dealing with the budget cuts that came from the budget as it was passed by the Board on July 12. If you will remember the reason that cuts were necessary was because state support did not increase in 1992 over 1991 that is the first time that has happened to the University in 30 years.

The first part simply summarizes the magnitude in distribution of the cuts to the general fund. They totaled $14.7 million -- $3.3 million came from academic support units and $11.4 million from the colleges and academic units. If you will notice, a higher proportion of the cuts were taken from the academic support units, such as Business Administration, Finance, Development and so forth, because we are attempting to protect, as best we can, the academic core of the institution.

In addition, there are a number of units in the University that are not funded directly by the general fund, but it is important they contribute in any way that they can to help us deal with this financial problem. So you will notice that both University Systems and Units, the University telephone system, froze their rates and did not pass on higher costs to the users which would be the colleges and other parts of the University. That results in a significant savings and made it possible then for the University to absorb a greater cut than they otherwise would have.

The same is true in terms of some one-time cash contributions from the various earnings units, such as Traffic and Parking and Athletics. This will allow us to allow some of the academic and academic units to spread their cuts out over a longer period of time so they are less disruptive and those will be helpful as well. You will notice a footnote in the case of Athletics, they will make a contribution. Dr. Spillman and I are still negotiating over the appropriate amount and I am sure that whatever we decide will be fair and appropriate.

The other thing that we wanted to stress, and President Gee mentioned to you when we were putting this budget package together, that we were not going to do these cuts across the board, that we were going to make an attempt to be selective and protect some vital areas and functions in the University. The list that you have is not complete, but it does give you an idea of some of the key functions that we did protect: Honors program, Student Scholarships, some of our affirmative action, and protect: Honors program, Student Scholarships, some of our affirmative action, and protect: Honors program, Student Scholarships, some of our affirmative action, and protect: Honors program, Student Scholarships, some of our affirmative program, Student Scholarships, some of our affirmative action, and protect: Honors program, Student Scholarships, some of our affirmative action, and protect: Honors program, Student Scholarships, some of our affirmative action, and protect: Honors program, Student Scholarships, some of our affirmative action, and protect: Honors program, Student Scholarships, some of our affirmative action, and protect: Honors program, Student Scholarships, some of our affirmative action, and protect: Honors program, Student Scholarships, some of our affirmative action.

In addition to the academic units, some key functions in the academic support units were protected as well, for example: police, fire, and emergency medical services, processing of student fees and loans, and some of our high priority research projects. As well as our administration of benefits and fund raising of unrestricted gift money, because to cut those would be shooting ourselves in the foot and that would not be wise.

September 6, 1991 meeting, Board of Trustees

Mr. Shkurti: (contd)

Finally, there were some earnings units that were also protected from any additional cuts -- Residence Halls, because that affects students directly. Also, University Hospitals and The James Cancer Hospital and Research Institute, because the Cancer Hospital is getting started up and needs to use resources available to them to strengthen their financial position.

The second part is our attempt to itemize the impact of these cuts on the University. I need to stress that these are preliminary because we still have some big units we are still negotiating with over their final cut plans. But I think that it will give you a sense of what these cuts have meant to the University.

As you know, the majority of what we spend is on personnel, so obviously that is where the cuts would be affected. What you see is a breakdown in terms of the number of positions eliminated. I need to stress that these are positions, not people. Let me draw the distinction. In a number of times that the University has gone through cut scenarios, one lesson that we have learned is that going to layoffs is an extremely expensive and inefficient way of saving money. One reason is you still have to pay the unemployment benefits of the person. The second reason is that there are a number of requirements in state law that are proper, but also make it extremely important that all the procedural details are met and if they are not met, the person has a right to win the job back. And the third reason is on the humanitarian basis. We expect a lot out of our employees, but at the same time, I think they have a right to expect us not to be arbitrary in dealing with their livelihood. So for all of these reasons we stress to managers as we absorb these budget cuts -- beginning if you recall with the hiring controls which were put on in December -- to the degree that you can, meet your budget reduction targets by using early retirement, voluntary retirement, people shifting jobs and holding vacancies open, use that option. I suspect the layoffs will end up not to be more than a handful.

On the other hand, I want to stress that these 365 positions are real positions. This is not a numbers game where six months from now the entities are going to go back and hire all of these people. The budget authority to hire these individuals, or to fund those positions, has been removed from the departments as part of the budget process. There are controls in place that assure that these positions can not be filled again six months later because the money is not there.

You will see that the number of positions eliminated affected all parts of the University. The regular faculty positions, none of those are layoffs because the faculty are tenured, are largely early retirements and other kinds of shifts. We have held the number of elimination of graduate teaching and research positions to a relatively low number. Normally that is the easy way out in terms of saving money, but we felt that that would be dysfunctional to the University. And obviously if you are one of those 35 people, it means a lot to you, but it could have been a lot worse. So I think the colleges and other units by and large followed our instructions. We came up with a significant savings, $11.3 million from these positions, and that accounts for 77 percent of the total cuts to the general revenue fund. I also want to point out that these personnel reductions are also consistent with the overall position of the University -- to manage our personnel resources effectively and to try and do this on a long term systematic basis, rather than a hit and skip attempt.
September 6, 1991 meeting, Board of Trustees

Mr. Shkurki: (cont’d)

The second set of impacts deals with impacts on programs and on students. Our estimate is at this point that from the budget cuts we will have to eliminate 144 teaching sections that otherwise would be able to fund. That will affect 8,700 students. Student displacement means that one student is displaced in round numbers. Student displacement means that one student is displaced in round numbers. Now if you are one of those students, that means a from one section for one quarter. Now if you are one of those students, that means a small percentage, but is still a significant problem.

Secondly, it is important to point out that we have had a problem with some students being closed out of courses, in some cases required courses. And for these cuts to come on top of what has been a problem because of budget shortages in previous years, just makes that problem worse. It is something that we will be working on with the Office of Academic Affairs to minimize as much as possible.

Finally, we have a list of individual programs reduced or eliminated. Again, it is important to list all of them, but to give you a feel for what a lot of these are. One is the Transportation Motor Pool being eliminated, in effect being privatized. The Labor Education and Research Service is being reduced dramatically. That is more due to a cut in the state line item, but it is significant reduction and I wanted to list it here. The Campus Bus Service is being reduced, but in the priorities that are being established handicap services and night services will be continued. The hours of operation of Larkins Hall and the Wexner Center will be reduced, as well as the equipment repair function in Business and Administration.

So we are attempting to reduce programs to do more with less, as much as possible. But the requirements of absorbing a $14 million cut -- even a budget of the size of this University -- means, unfortunately and inevitably, students are affected because they are the main part of what this University does. I think that we have kept those effects to a minimum given the circumstances.

Finally, let me stress again these figures are preliminary; they do not reflect the additional $4.3 million cut. It does not reflect, except for the Labor Education and Research Service, cuts to individual line item appropriations such as clinical subsides, the Supercomputer Center, and the Agricultural Research and Development Center in Wooster. Those entities are dealing with additional cuts as well on top of what you are seeing around here.

September 6, 1991 meeting, Board of Trustees

Mr. Shkurki: (cont’d)

In summary, the University will go on and we will deal with those cuts as best as we can. One small measure of comfort is that the cuts are not as bad as they could have been. We appreciate everything that the Legislature did for us and our friends of the University that helped in making our case. If we were in California, New York, Massachusetts, Pennsylvania, or Michigan, we would be looking at cuts a lot more serious than this. So if misery loves company, we have plenty of company and they are in much more misery than we are. On the other hand, absorbing a $14 million reduction in our budget will adversely affect the entire University, including our students, no matter how much we try to minimize that.

Mr. Chairman, let me stop at this point and ask if there are any questions?

Ms. Casto:

Could you clarify for me again the classes that were eliminated.

Mr. Shkurki:

Mr. Chairman, Ms. Casto, I cannot make a flat statement that no required courses were eliminated, because as soon as I do we will get a call, either Fred's office or mine, of an exception. I can say though that the Deans were instructed, in putting their cut plans together, to protect required courses because students need those to graduate. The cut plans submitted by the Deans were reviewed by the Office of Academic Affairs and were not approved until Academic Affairs was satisfied that the goal was met. In general, the principle was to establish a priority and not cut students out of required courses. But as you know, we already have this problem. With some 50,000 students on main campus, there is a possibility of students getting closed out of required courses. It is my guess that budget cuts of this magnitude are certainly not going to help, it will probably exacerbate the problem in some way. We will try and deal with those students individually to make sure that we get them placed in a way that allows them to graduate on time.

Ms. Casto:

Hopefully, our academic advisors will help to ease that situation when scheduling courses.

Mr. Shumate:

In looking at your report, it indicates that 144 sections were eliminated, with an impact on 8,700 students?

Mr. Shkurki:

Right. The other thing that I would like to mention is a member of my staff said, "wait a minute, you are eliminating 70 faculty and only 144 sections, isn't anybody teaching anymore?" And I think that I need to make clear that the numbers are correct in both cases. But what is happening in a number of colleges as the number of faculty have been reduced, rather than ripple that through to decreasing more sections, the existing faculty has been asked to teach more and some sections have been enlarged. So we tried to minimize the number of sections that are reduced.
September 6, 1991 meeting, Board of Trustees

Mr. Shumate:

I think that it is important to note those academic areas that were protected, because
they say an awful lot about this University and where its priorities are. We have the
Honors Program, scholarships, Affirmative Action, Student Advising, the Young
Scholars Program, Library acquisitions, the general education curriculum, and
were.

Mr. Shkurti:

I think that it is very important that we note what those minority student recruitment. I think that it is very significant that we note what those
were.

Mr. Shumate:

I certainly concur. Just so we are clear, Mr. Shkurti, this portion of your report deals
with the $14.7 million cut and there is an additional $4.3 million cut that we need to
absorb?

Mr. Shkurti:

That is correct.

Mr. Shumate:

Are there any other questions? If not, Bill, do you have another portion of your report?

Mr. Shkurti:

Mr. Chairman, the next portion of my report deals with the proposed resolution on
Current Funds Budget Adjustments. If you recall, we approved the budget at the July
12 meeting based on the budget that was passed by the Conference Committee, but
because we had every reason to believe or we convinced ourselves that that would
be the version of the budget that would finally be passed. And as you recall, there
was a problem about the distribution of the higher education subsidy money between
the four-year schools and the two-year schools. The Governor vetoed the language
which held Ohio State harmless in the version of the budget passed by the
Legislature, but with the proviso he was willing to work with the Legislature on a
compromise and that compromise was achieved. Without the compromise, we
would have lost $11 million and probably have to be rewriting the budget right now.

Mr. Shumate:

I certainly concur. Just so we are clear, Mr. Shkurti, this portion of your report deals
with the $14.7 million cut and there is an additional $4.3 million cut that we need to
absorb?

Mr. Shkurti:

That is correct.

Mr. Shumate:

Are there any other questions? If not, Bill, do you have another portion of your
report?

Mr. Shkurti:

Mr. Chairman, the next portion of my report deals with the proposed resolution on
Current Funds Budget Adjustments. If you recall, we approved the budget at the July

September 6, 1991 meeting, Board of Trustees

Mr. Shkurti: (contd)

smooth into rate increases later, than to abruptly cut colleges and other units after the
$14 million cuts.

So these are, Mr. Chairman, our recommendations for dealing with the $4.3 million
problem. The $2 million that we are proposing is in continuing money and the two
$1.2 millions are one-time money. That means that eventually we are going to have the
$4 million that we have lost. But we would rather do that with enough time to do it
systematically, than to try and do it abruptly in just a month or two.

Again, I need to stress and we need to keep this in context. The University’s total
budget is $1.2 billion and the University’s general fund budget is $500 million. Somebody
might ask, “if you have a $500 million general fund budget, you ought to be
able to absorb $4 million without too much of a problem.” But, again, we are
be able to absorb $4 million without too much of a problem. But, again, we are
budgetarily tight coming in. We had additional cuts coming in, the demands on the
budgetarily tight coming in. We had additional cuts coming in, the demands on the
budget have not abated, and we still have to educate our students. This $4 million
University have not abated, and we still have to educate our students. This $4 million
will hurt, but I think that the recommendations that we are presenting to you today
will hurt, but I think that the recommendations that we are presenting to you today
continue In it mission. Over time we will have to make additional programmatic
reductions, but we will do that in a systematic and careful way so that we protect the
continue In it mission. Over time we will have to make additional programmatic
core functions of the University.

Mr. Shkurti: (contd)

Mr. Celeste, based on the trends, what is the likelihood of this automatic trigger?

Mr. Shkurti:

Mr. Celeste, that is probably the $10 billion question. I would say right now the odds
are more against it than for it, but not by a lot. The reason I say that is that if you saw
in the paper this morning, State revenues are down in August. When I was in the
position of Budget Director, I always used to repeat a cement analogy -- until everybody
got sick of it -- one month does not a trend make. If you look at two months, they
were up last month. So if they were up one month and the next, they are about
where the projections should be.

The other evidence that we are getting, in terms of the national and states economy,
is a continued mixed signal. Some indicators are good and some are bad, and the
revenue projections are based on the economy kind of limping into a recovery. So at
this point, the budget seems to be about where it was thought to be. The scenario
which will result in a one percent cut or maybe worse, is the scenario of the so-called
double dip recession. If you recall, the same thing happened in 1980 and 1982.
There was a recession in 1980 and as we started to climb out of it, by 1982 we were
back into it. That created a horrible budget problem for the State, that in the end was
passed on to the universities. If that happens again, then we are going to have the
one percent cut and worse. I hope that it doesn’t because we will be back here doing
nothing but cutting budgets.

September 6, 1991 meeting, Board of Trustees

Mr. Shumate:

Are there any other questions?

1991-92 CURRENT FUNDS BUDGET ADJUSTMENTS
Resolution No. 92-25

Synopsis: The Fiscal Affairs Committee recommended the approval of the proposed 1991-92
Current Funds Budget adjustments.

WHEREAS the Board of Trustees has previously approved the budget for fiscal year 1991-92 at its
July 12, 1991 meeting; and

WHEREAS subsequent actions by the Governor and the State Legislature have resulted in a
decline of $4.3 million in estimated state subsidy appropriations; and

WHEREAS planned expenditures must now be adjusted to reflect this reduction in income; and

WHEREAS appropriate planning and consultation within the University has been accomplished:

NOW THEREFORE

BE IT RESOLVED, That planned expenditures for fiscal year 1991-92 be adjusted to reflect a $4.3
million decrease in revenues; and

BE IT FURTHER RESOLVED, That the appropriate proposed reductions be incorporated into the
text and tables accompanying the 1991-92 Current Funds Budget, 1st Quarter Report to be
presented to the Board at its November 1, 1991 meeting.

Upon motion of Mr. Shumate, seconded by Ms. Casto, the Board of Trustees adopted the
foregoing resolution by unanimous roll call vote.

(See Appendix XVIII for 1991-92 Current Funds Budget Proposed Expenditure Reductions, page
387.)

Mr. Shumate:

Let me say on behalf of the Board that we really appreciate the very thoughtful and
careful consideration and analysis of this issue by all of the University staff. We
appreciate especially the consistency that you use with the academic mission of The
Ohio State University.

--0--
EMPLOYMENT OF CONSULTANT

Resolution No. 92-26

Synopsis: The Fiscal Affairs Committee recommended the authorization to employ a consultant to conduct a comprehensive review of the University Staff Classification system.

WHEREAS the Board of Trustees, at the July 12, 1991 meeting, approved as part of the 1991-92 budget a proposal to appoint a consultant to conduct a comprehensive review of the University staff classification system; and

WHEREAS after public advertisement, specifications and proposal forms were issued to fifteen (15) companies of which five (5) submitted proposals, five (5) did not respond, four (4) declined to quote, and one (1) submitted a proposal after the bid deadline; and

WHEREAS appropriate University offices and individuals have reviewed the proposals and, based on price, completeness of proposal, experience of consulting team, experience in higher education, experience in hospitals and references it is the recommendation of the Office of Human Resources that the best responsive proposal was submitted by William M. Mercer Inc.;

NOW THEREFORE

BE IT RESOLVED, That on the basis of proposals received it is hereby recommended that William M. Mercer, Inc., be employed with the total cost not to exceed $120,000.00 for the evaluation of the University staff classification system.

Upon motion of Mr. Shumate, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

EMPLOYMENT OF ARCHITECTS/ENGINEERS AND REQUEST FOR CONSTRUCTION BIDS

Resolution No. 92-27

Synopsis: The Fiscal Affairs Committee recommended the authorization to employ architects/engineers and request construction bids for the University Golf Course.

WHEREAS Residence and Dining Halls desires to proceed with the installation of new chillers, replacement of existing rooftop condenser units, and reconnection of refrigerant and water piping in Norton House, Blackburn House, Scott House, and Nosker House; and

WHEREAS the total estimated project cost is $640,500.00, and the total estimated construction cost is $600,000.00, with funding provided by Residence and Dining Halls; and

WHEREAS University Hospitals desires to proceed with the expansion of the computer center machine room in Starling-Loving to allow the centralization and integration of all hospital computers; and

WHEREAS the total estimated project cost is $194,810.00, and the total estimated construction cost is $145,000.00, with funding provided by University Hospitals:

NOW THEREFORE

BE IT FURTHER RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request construction bids on these projects in accordance with established University procedures, and if satisfactory bids are received, to award contracts, with all actions to be reported to this Board at the appropriate time.

Upon motion of Amb. Wolf, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XIX for background material and map, page 359.)
REPORT OF AWARD OF CONTRACTS AND
ESTABLISHMENT OF CONTINGENCY FUNDS
Resolution No. 92-29

JOHNSTON LABORATORY - EXTERIOR MASONRY IMPROVEMENTS
PARKS HALL LABORATORY RENOVATION
MECHANICAL IMPROVEMENTS (DREESE LABORATORY)
MASONRY IMPROVEMENTS (CAMPBELL HALL)
OHIO STADIUM BLEACHER ADDITION, PHASES I AND II
MECHANICAL IMPROVEMENTS (KINNEAR ROAD CENTER BUILDING A)
BRIDGE AND STREET IMPROVEMENTS (WOODY HAYES DRIVE BRIDGE)
RESEARCH CENTER - ENTRANCE ROAD RESURFACING
RHODES HALL - SURGERY HVAC REVISIONS

Synopsis: The Fiscal Affairs Committee recommended the approval of the Report of Award of Contracts and the Establishment of Contingency Funds for nine projects.

WHEREAS resolutions adopted by the Board of Trustees on December 6, 1990 and May 3, 1991 authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established University procedures, and if satisfactory bids were received to award contracts for the following projects: Parks Hall Laboratory Renovation, Ohio Stadium Bleacher Addition, Phases I and II, and Rhodes Hall - Surgery HVAC Revisions; and

WHEREAS resolutions adopted by the Board of Trustees on May 4, 1989 and October 5, 1990 authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established State of Ohio procedures, and if satisfactory bids were received, to recommend the award of contracts for the following projects: Johnston Laboratory - Exterior Masonry Improvements, Mechanical Improvements (Dreese Laboratory), Masonry Improvements (Campbell Hall), Mechanical Improvements (Kinnear Road Center Building A), Bridge and Street Improvements (Woody Hayes Drive Bridge), and Research Center - Entrance Road Resurfacing:

NOW THEREFORE

BE IT RESOLVED, That pursuant to the actions previously authorized by the Board, the Report of Award of Contracts and Establishment of Contingency Funds for these projects is hereby approved.

Upon motion of Mr. Shumate, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXI for background material, page 365.)

SALE OF REAL PROPERTY
Resolution No. 92-30

92.6 ACRES ON HARRISBURG PIKE
COLUMBUS, OHIO

Synopsis: The Fiscal Affairs Committee recommended the sale of approximately 92.6 acres of unimproved real property located on Harrisburg Pike in Columbus, Ohio.

WHEREAS in December 1986, the Board of Trustees of The Ohio State University acquired by gift from Mr. Leonard J. Immke, Jr., approximately 92.6 acres of unimproved real property located on the east side of Harrisburg Pike near the intersection of Briggs Road in Columbus, Ohio; and

WHEREAS under the terms of this gift, the property is to be sold, and this gift is being used to support the Leonard J. Immke, Jr., and Charlotte L. Immke Chair in Cancer Research to support the work of a distinguished researcher in The Arthur G. James Cancer Hospital and Research Institute; and

WHEREAS the appraisal value of this property is $278,000.00 and Brentwood Limited Partnership has offered to purchase the property for $300,000.00; and

WHEREAS the appropriate University officials have determined that this sale of the property is in the best interest of the University and it is the desire of this Board to accept the offer of Brentwood Limited Partnership, and to sell all of the Board's right, title, and interest in and to this property:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized, in the name of the Board of Trustees of The Ohio State University, to sell all of the University's right, title, and Interest in this property to Brentwood Limited Partnership, at a price of $300,000.00 upon such terms and conditions as are deemed to be in the best interest of the University.

Upon motion of Mr. Shumate, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXII for background material and map, page 305.)

EASEMENT
COLUMBUS SOUTHERN POWER COMPANY
Resolution No. 92-31

Synopsis: The Fiscal Affairs Committee recommended authorization to grant an easement to Columbus Southern Power Company for installation of an electric transformer at 1315 Kinnear Road.

WHEREAS Columbus Southern Power Company has requested the granting of a 15-year easement consisting of a strip of land approximately ten feet in width and 211 feet in length for the installation of an electrical transformer for the Biological Sciences Collections Building at 1315 Kinnear Road; and

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized, in the name of the Board of Trustees of The Ohio State University, to grant this easement to Columbus Southern Power Company for the aforesaid purpose.

Upon motion of Mr. Shumate, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXII for background material and map, page 365.)

(See Appendix XXI for background material, page 365.)
EASEMENT
COLUMBUS SOUTHERN POWER COMPANY (contd)
WHEREAS this easement will serve University property; and
WHEREAS the appropriate University offices have recommended the approval of this easement:
NOW THEREFORE
BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request the Deputy Director of Public Works of the Department of Administrative Services, pursuant to his statutory duties, to act for and on behalf of the University in developing the necessary legal instruments to provide for this easement.
Upon motion of Mr. Celeste, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.
(See Appendix XXIII for map, page 309.)

REPORT-EXPENSES FOR DESIGNATED ADMINISTRATIVE OFFICIALS
Resolution No. 92-32
Synopsis: The Fiscal Affairs Committee recommended the approval for reimbursement of expenses for designated administrative officials.
WHEREAS the Fiscal Affairs Committee has authorized the payment of expenses for designated administrative officials; and
WHEREAS it is deemed in the best interest of the University for the Fiscal Affairs Committee to provide from the unrestricted gifts to the university Endowment Fund on an appropriate basis, to the President and designated University officials, reimbursement for expenditures which are directly and necessarily related to the performance of their assigned responsibilities and in the best interest of the University:
NOW THEREFORE
BE IT RESOLVED, That the Fiscal Affairs Committee be authorized to provide reimbursement to designated University officials from unrestricted gifts to the University Endowment Fund.
Upon motion of Mr. Celeste, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

Mr. Wexner:
In this time of budget and fiscal constraints that are on the State, as well as The Ohio State University, I think that the administration and particularly President Gee have made reasonable adjustments. I want to congratulate you and compliment you, in light of these trying times, for the judgement that has gone into this. My view is that we have protected the interest of the students, faculty, and also the citizens of the State of Ohio. The University is the major teaching and research facility of the state and represents a long-term investment that has been made. It also represents an asset in the present and one that has to be protected in the future. I think it has to be recognized, that in these very difficult times -- at least as one Trustee, that the leadership of the Board, the President, and the Administration are doing a wonderful job of protecting that investment and leading us into the future.

Amb. Wolf:
To support what Mr. Wexner said, these are very, very difficult times. And in the face of meaningful budget cuts, the leadership of the University has responded marvelously to protecting the student quality and the academic quality at this University. And you are to be congratulated.

Mr. Shumate:
As Chair of the Fiscal Affairs Committee, I sincerely appreciate the hard work of both Mr. Shlurti and Mr. Nichols. One of the reasons that we are able to move through our agenda and to have the kind of thoughtful consideration and analysis of issues is because of the very hard work that they both do outside of the parameter of this formal business meeting. Again, I think the University is being well served, because when you look at the magnitude of the cuts, we have still been able to keep our priorities and keep investing in our assets.

Mr. Colley:
I want to state for the record that I wish to associate myself with the remarks of the previous speakers.

Thereupon the Board adjourned to meet Thursday, October 3, 1991, at the Cleveland Clinic, Cleveland, Ohio.

Attest:
Madison H. Scott
Secretary

Hamilton J. Teaford
Chairman
THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND TWO HUNDRED AND SEVENTY-SIXTH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, October 3, 1991

The Board of Trustees met at its regular monthly meeting on Thursday, October 3, 1991, at the Cleveland Clinic, Clinic Center Hotel, Cleveland, Ohio, pursuant to adjournment.

Minutes of the last meeting were approved.
October 3, 1991 meeting, Board of Trustees

The Chairman, Mr. Teaford, called the meeting of the Board of Trustees to order on October 3, 1991, at 3:45 p.m. He requested the Secretary to call the roll.

--0--

PRESIDENT'S REPORT

President Gee:

I will make my report very, very short today because of the lateness of the hour and I will give this report to the Secretary so that it can be printed in the minutes.

I want to note that having been through a very stimulating period with our colleagues from the Cleveland Clinic, what a wonderful asset this relationship is going to be to this University. I think it is clear to our Cleveland Clinic friends that it is going to be an equally fine addition to their effort. I was absolutely fascinated to see Fred Cornhill and our biomedical engineering folks already creating what is going to be the heart of the future. And the fact that we are doing it together in that collaborative fashion, is very, very important indeed. Ambassador Wolf, I want to thank you for helping make these arrangements and of course we are looking forward to dancing late into the evening. To you and your fine wife, we thank you very much for the hospitality that has been exhibited this whole day.

I would like to make one introduction. One of the significant appointments of the University has just occurred and that is the Vice President for Agricultural Administration and Executive Dean of the College of Agriculture. As many of you know, after a truly international search, one that brought forth some of the best and most able candidates for this particular position that I have ever seen or that have been seen by any university, we turn to one of our own. Dr. Bob Moser, who is here, has been Director of the Cooperative Extension Service, has a distinguished career and international career in agriculture. We are delighted that that appointment has been made, and hopefully ratified by this Board today. Dr. Moser, if you will please stand and be recognized.

We are, of course looking forward to coming to Cleveland Municipal Stadium on October 19. Some people have been wondering why the Ohio State-Northwestern football game was moved up here. After looking at the sports page, the answer is apparent. The Cleveland Indians are more than 30 games out of first place, and the Cleveland Browns are playing 500 ball right now. This town is hungry for a winner!

The presentations at today's committee meeting reflect the range and depth of Ohio State's presence in the Cleveland area. The work we have begun with the Cleveland Clinic holds exciting promise for the future in health science education and medical research. Ohio State's work on Lake Erie through the Sea Grant program is important not only to the economy of this state, but as a valuable teaching resource for our faculty and students. From Young Scholars to honors students, the young people of this area have opportunities at Ohio State.

I want to thank our faculty for joining us earlier today.
PRESIDENT'S REPORT (contd)

Ohio State truly is Ohio's university. This is most evident in the students whom I have met during the opening of the new academic year. At the President's Picnic for new students, I met students of all ages from across Ohio, the nation, and the world. While they seemed pleased to meet me, I believe it was Coach Randy Ayers who was the crowd favorite.

We very capably moved more than 10,000 people into residence halls over one weekend. Although this is our smallest freshman class in some time, the residence halls are at capacity. Remodeling and strengthened programming have made our halls very desirable to returning students.

Welcome activities included a river-bank party for Hispanic students, a welcome convocation for African-American students, and a student-organization fair to acquaint new students with campus activities. The Council of Graduate Students hosted an orientation and social program for their new colleagues.

The Citizens Crime Patrol is very active in the campus area after having a successful inaugural year. Police-trained patrollers walk the University area and report any suspicious activity. In 1990, they reported 2,700 incidents including criminal mischief, environmental hazards, open windows or doors, and other more serious crimes. This is a joint project with the city, the state, and the University.

Adding to the energy of the opening week of the new academic year has been the presence of Twyla Tharp as the first Wexner Center Residency Award recipient. Members of the Twyla Tharp dance company have been working with our students and faculty, as well as preparing for their own performances this weekend.

One of the foremost artists of her generation, Ms. Tharp has announced the gift of her archive to the University's Lawrence and Lee Theatre Research Institute. I only wish you could have witnessed Ms. Tharp's news conference at which she shared very generous words of praise for Ohio State. We truly are enriched by her residency on campus.

Since our last meeting, we have officially celebrated the centennial of the College of Law. It seems appropriate in this meeting to note that the formation of that college was not without controversy. It was university trustee, Rutherford B. Hayes, who is credited with convincing his colleagues to support this venture.

This past Tuesday we dedicated the Piketon Research and Extension Center. This important new facility brings together faculty from the Ohio Agricultural Research and Development Center and the Ohio Cooperative Extension Service. Their focus is on some of Ohio's significant problems in agriculture, the environment, the economic development. It is an outstanding example of our teaching, research, and service missions.

Yesterday, the Office of Academic Affairs hosted a very significant program for our university. A day-long conference, "Focus on Teaching," was held. Through speakers and discussion groups, the assembled deans, department chairs, and faculty leaders explored ways that we can enhance teaching at our university. I look forward to hearing the results of the conference sessions. I fully expect the ongoing work of this project committee to result in a model program on teaching excellence for comprehensive universities.

--0--
Ms. Casto:

Awards received by the Research Foundation during the month of August are listed under tab 1. A project of special note is highlighted under the second tab. This is a new interdisciplinary project which reflects the National Institute of Health's recent initiatives in the area of women's health. The project brings together researchers in statistics, medicine, and geological science. Tab 3 gives summary information on the awards. There are some striking ups and downs compared to last year, however, this is a function of timing of awards. The summary tables also include expenditure data. Nearly $1 million in research equipment has been purchased in the past two months with grant and contract funds. Sponsored projects have also generated nearly $6 million in indirect costs. The last tab, tab 4, provides a description of some of the interdisciplinary biomedical research being conducted at OSU. Are there any questions?

I would like to move to accept the August grants and contracts through the Engineering Experiment Station, The Ohio State University Development Fund, and The Ohio State University Research Foundation.

Mr. Teaford:

I just want you to note, in particular, that section on interdisciplinary research. The Biomedical Engineering Center which we just learned is an interdisciplinary activity by the Colleges of Biological Sciences, Dentistry, Education, Engineering, Math and Physical Sciences, Medicine, Optometry, Social and Behavioral Sciences, and Veterinary Medicine. In other words, indeed, a majority of all of the colleges of the University. We think that is the kind of thing that we are shooting for Mr. President.

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS
Resolution No. 92-33

Synopsis: Approval of the following reports on contracts, grants, and gifts and the summary for August 1991 is proposed.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, and The Ohio State University Development Fund:

NOW THEREFORE
REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station, and The Ohio State University Development Fund during the month of August 1991 be approved.

Upon motion of Ms. Casto, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

(See Appendix XXIV for The Ohio State University Development, page 415.)

(See Appendix XXV for Report of Research Contracts, Grants, and Gifts, page 417.)

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

Background (contd)

AUGUST 1991 (contd)

Change in Name and Description of Named Fund

From: The Frank C. Caldwell Memorial Fund
To: The Frank C. and Louise Orton Caldwell Memorial Fund

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Description of Named Funds

The Plough Pharmacy Student Scholarship Fund

The Plough Pharmacy Student Scholarship Fund was established October 3, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the Plough Foundation of Memphis, Tennessee.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University and in accordance with the Amended Agreement between the University and the Plough Foundation, with the right to invest and reinvest as occasion dictates.

This fund was established originally by an agreement between the Plough Foundation and the University dated December 17, 1984, and amended October 10, 1988. Pursuant to the Amended Agreement, annual principal contributions shall be made by the Plough Foundation and annual advances of equal principal contributions shall be made by the University from 1984 through 1994. The advances shall be repaid to the University from the Fund in equivalent annual installments from 1999 through 2009.

The annual income shall be used to provide scholarships to full-time undergraduate students enrolled in the College of Pharmacy, with preference to Ohio residents. Recipients shall be known as "Plough Scholars" and shall be chosen on the basis of academic achievement, leadership, good citizenship, and financial need by a selection committee appointed by the President of the University, or his or her designee, and consisting of the University's Director of Student Financial Aid and personnel from the University's College of Pharmacy. Scholarship funds shall be used only for tuition and enrollment fees, laboratory fees, and textbooks. During each of the first 26 years, the aggregate annual amount of grants given shall equal either 3% of the market value of the Fund at the beginning of the Fund year or 50% of the gross income earned during the prior fiscal year, whichever is greater. Thereafter, the aggregate annual grant amount shall not exceed the annual net income earned during the prior fiscal year. To the extent needed to meet this provision, principal may be used for this purpose. In no event shall a single scholarship exceed the academic fees payable by a Plough Scholar who is classified as an in-state resident.

Pursuant to the Amended Agreement, it is the desire of the donor that the Plough Pharmacy Student Scholarship Fund be maintained and operated in perpetuity. If the need for this Fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor, provided that if the Foundation terminates the Amended Agreement pursuant to its provisions, one half of the Fund and one half of the repaid advances are to be returned to the Foundation.
The Erie and Orlyss Sauder 4-H Career Development Endowment Fund

The Erie and Orlyss Sauder 4-H Career Development Endowment Fund was established October 3, 1991, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from Erie and Orlyss Sauder, friends of 4-H, Archbold, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to fund the Sauder 4-H Career Development Program to help youth learn career opportunities, work ethics, and the life skills necessary for the world of work. It will be managed by the State 4-H Leader and the Ohio 4-H Foundation Board of Trustees.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Coleman Memorial Alcove Fund

The Coleman Memorial Alcove Fund was established October 3, 1991, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from the estate of Marietta Comly in memory of Dr. N. R. Coleman.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to purchase rare books, medical artifacts and/or furnishings for the Coleman Memorial Alcove in the Health Sciences Library. Expenditures shall be authorized by the Director, Health Sciences Library.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate program administrative officer in order to carry out the desire of the donor.

The Auglaize County Cooperative Extension Endowment Fund

The Auglaize County Cooperative Extension Endowment Fund was established October 3, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the residents of Auglaize County.
October 3, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Auglaize County Cooperative Extension Endowment Fund (contd)

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support the Auglaize County Cooperative Extension program. The distribution and use of these funds shall be determined by recommendation from the Auglaize County Cooperative Extension Advisory Committee and Auglaize County Extension Agents to the county chairperson of the Auglaize County Cooperative Extension Service. These funds are subject to review by the University's internal audit department.

Should the Auglaize County Cooperative Extension Office cease to exist, the Auglaize County Cooperative Extension Advisory Committee and/or its representative shall determine the future use and distribution of the fund's annual earnings by making appropriate recommendations to the official who is responsible for the Ohio Cooperative Extension Service. Additionally, the Auglaize County Cooperative Extension Advisory Committee shall have up to three years after the initial disbandment of the Auglaize County Extension Office to make an official recommendation.

It is the desire of the donors that this fund should benefit the Auglaize County Cooperative Extension Service in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income beyond the situation described in the preceding paragraph, then another use shall be designated by the Board of Trustees in consultation with the Auglaize County Advisory Committee, or their representatives, in order to carry out the desire of the donors.

Change in Name and Description of Named Fund

The Frank C. and Louise Orton Caldwell Memorial Fund

The Frank C. Caldwell Memorial Fund was established by the Board of Trustees of The Ohio State University on June 14, 1954, with gifts from Louise O. Caldwell and friends of the late Frank C. Caldwell, former Professor of Electrical Engineering. The name and description were revised on October 3, 1991, and this fund will be enlarged by the Trustees through the incorporation of the Frank Cary and Louise Orton Caldwell Scholarship Fund. The two funds were merged at the request of Carol Serling, granddaughter of Dr. and Mrs. Caldwell and surviving co-contributor to the Frank Cary and Louise Orton Caldwell Scholarship Fund.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for scholarships for under-graduate students in Electrical Engineering. Selection will be made by the chairperson of the Department of Electrical Engineering in cooperation with the University Committee on Student Financial Aid. In the fifth year of every series of five-year periods, beginning January 1, 1955, the current interest from this fund plus any accumulation in excess of a base accumulation of $1,000 may be used by the Board of Trustees, at its discretion, for any purpose.
REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Change in Name and Description of Named Fund (contd)

The Frank C. and Louise Orton Caldwell Memorial Fund (contd)

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need
for this fund should cease to exist or so diminish as to provide unused income, then another use
shall be designated by the Board of Trustees in consultation with the appropriate college dean,
department chairperson, or program administrative officer in order to carry out the desire of the
donor.

HOSPITALS BOARD COMMITTEE REPORT

Mr. Celeste:

The Professional Affairs/Education/Research Committee and the Executive Committee of
the University Hospitals Board met on Thursday, September 26.

The Professional Affairs Committee adjourned into Executive Session to receive Quality
Assurance Reports on the Respiratory Therapy department, and the Hospitals overall. Both reports addressed quality assurance goals, important aspects of care, and specific actions being taken to raise the quality of care even higher. We also discussed the decision of the Medical Staff Administrative Committee related to non-reappointment of a physician to the medical staff. In open session, we voted to affirm that decision on non-reappointment. We received the Medical Director's report and endorsed the medical staff appointments and reappointments from July and August. Mr. Fraley reported that four new special care beds will be opened; in addition, four existing special care beds now utilized for Cancer Hospital patients, will become available for use in December when the CHRI opens its new four-bed special care unit. We briefly discussed the Hospitals' ongoing efforts to facilitate parking for our patients and visitors.

During the Executive Committee meeting we adjourned into Executive Session for a very
brief discussion on the impact on University Hospitals of the planned sale of St.
Anthony's Hospital. In open session we received financial reports for University Hospitals
and the CHRI, reviewed this year's SkyMed budget, year-end reports for both SkyMed and the MedOhio facilities, and MedOhio's performance. Ms. Kate Haller updated us on two Certificate of Need appeals. Mr. Fraley reported that several hospitals in outlying areas may be interested in affiliating with University Hospitals. We voted to endorse the medical staff appointments and asked Hospitals Administration to look at the possibility of a joint venture with University Reference Laboratories and report back to us. Lastly, Ms. Susan Insley, Chairperson, and Dr. John Kramer will review the Hospitals Board Bylaws to see whether some areas should be updated.

That concludes my report, Mr. Chairman.

--0--
ACADEMIC AFFAIRS COMMITTEE REPORT

Mr. Teaford:

Since we have all attended the Academic Affairs Committee, I have not asked for a summary of it. The Committee is recommending the following resolutions:

PERSONNEL ACTIONS

Resolution No. 92-34

RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the September 6, 1991 meeting of the Board, including the following Promotions, Appointment, Appointment of Chairpersons of Departments, Reappointment of Chairperson of Department, Leaves of Absence Without Salary, Leave of Absence Without Salary—Continuation, Professional Improvement Leaves, and Emeritus Titles, as detailed in the University Budget be approved.

Promotions

Name: BOBBY D. MOSER
Title: Vice President for Agricultural Administration and Executive Dean
College: Agriculture
Effective: October 1, 1991
Salary: $128,500.00
Present Position: Director, Cooperative Extension Service

Name: MAC A. STEWART
Title: Dean/Associate Professor
College/Department: University College/Home Economics Education
Effective: October 1, 1991
Salary: $82,000.00
Present Position: Acting Dean, University College

Appointment

Name: WILLIAM L. SMEAD
Title: Associate Professor (The Luther M. Keith Professorship in Surgery)
Department/Division: Surgery/Vascular
Effective: July 1, 1991
Salary: $38,244.00
Present Position: Associate Professor, Department of Surgery (Vascular)

Appointment of Chairpersons of Departments

August 1, 1991 through June 30, 1992

East Asian Languages and Literatures          Feng-Sheng F. Hsueh*

October 1, 1991 through June 30, 1993

Aeronautical and Astronautical Engineering    Gerald M. Gregorek
Welding Engineering                           William A. Baeslack III

*Acting Chair
PERSONNEL ACTIONS (contd)

Reappointment of Chairperson of Department
October 1, 1991 through June 30, 1992

Civil Engineering                Zoltan A. Nemeth*

*Acting Chair

Leaves of Absence Without Salary

HOWARD M. FEDERSPIEL, Professor, Department of Political Science (Newark Campus),
effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, to accept a Visiting
Professorship at McGill University, Montreal, Canada.

CLYDE W. MCCURDY, Professor, Department of Chemistry, effective Autumn Quarter 1991,
Winter Quarter and Spring Quarter 1992, to accept a position at the Lawrence Livermore National
Laboratory.

HAJIME MIYAZAKI, Professor, Department of Economics, effective Autumn Quarter 1991 and
Spring Quarter 1992, for personal reasons.

JOAN F. FITZGERALD, Assistant Professor, Department of City and Regional Planning, effective
Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, to conduct research at the
University of Illinois.

KEVIN J. O'BRIEN, Assistant Professor, Department of Political Science, effective Autumn
Quarter 1991, to conduct research under Fulbright-Hays funding on Chinese politics in Hong
Kong and Tianjin.

DAVID S. REITMAN, Assistant Professor, Department of Economics, effective Autumn Quarter
1991, Winter Quarter and Spring Quarter 1992, for personal reasons.

STEPHEN J. TURNBULL, Assistant Professor, Department of Economics, effective Autumn
Quarter 1991, Winter Quarter and Spring Quarter 1992, for personal reasons.

Leave of Absence Without Salary--Continuation

ALLESSANDRO SAVO, Assistant Professor, Department of Mathematics (Newark Campus),
effective Autumn Quarter 1991, to continue in a research project at the University of Lodz,
Poland.

Professional Improvement Leaves

CARTER V. FINDLEY, Professor, Department of History, effective Spring Quarter and Autumn

ARTHUR F. GREENBAUM, Professor, College of Law, effective Spring Semester 1992.

LEO A. PAQUETTE, Professor, Department of Chemistry, effective Spring Quarter 1992.

Emeritus Titles

PIERRE A.G. ASTIER, Department of French and Italian, with the title Professor Emeritus,
effective July 1, 1991.
October 3, 1991 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Emeritus Titles (contd)

PAUL A. COLINVAUX, Department of Zoology, with the title Professor Emeritus, effective October 1, 1991.

LAWRENCE E. HEIDER, Department of Veterinary Preventive Medicine, with the title Professor Emeritus, effective October 1, 1991.

RONALD L. STUCKEY, Department of Plant Biology, with the title Professor Emeritus, effective September 1, 1991.

LLEWELLYA W. HILLIS, Department of Zoology, with the title Associate Professor Emeritus, effective October 1, 1991.

REED D. TAYLOR, Department of Agricultural Economics and Rural Sociology, with the title Associate Professor Emeritus, effective October 1, 1991.

KENNETH A. WENNER, Cooperative Extension Service, with the title Associate Professor Emeritus, effective September 1, 1991.

EDITH L. TROUTMAN, Department of Zoology (Mansfield Campus), with the title Assistant Professor Emeritus, effective August 1, 1991.

JOHN R. VELEY, Cooperative Extension Service, with the title Assistant Professor Emeritus, effective October 1, 1991.

Upon motion of Mr. Celeste, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

RESOLUTIONS IN MEMORIAM

Resolution No. 92-35

Synopsis: The Academic Affairs Committee recommended the approval of the following Resolutions in Memoriam.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

William A. Hall

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 21, 1991, of William E. Hall, Professor Emeritus in the School of Journalism.

Dr. Hall was born on March 21, 1923, in Weston, West Virginia. After working several years as a sports and general assignment reporter and editor for the Albuquerque Tribune, Dr. Hall earned his Ph.D. from the University of Iowa. In 1954 he became chairman of the Department of Journalism and Director of Public Information at Texas Technological College. From 1956 to 1966 he developed a journalism program at the University of Nebraska-Lincoln as director of its School of Journalism.
RESOLUTIONS IN MEMORIAM (contd)

William A. Hall (contd)

Dr. Hall joined The Ohio State University School of Journalism in 1966 at a crossroads in its development. His mission was to establish journalism education at this University as an academic discipline as well as a professional training for students. Dr. Hall recruited faculty who had established themselves as mass communication scholars as well as successful journalism professionals. He led a curriculum revision which strengthened the liberal arts background of journalism students at the undergraduate and graduate levels. Dr. Hall won the support of the state press which helped him to lobby for a remodeled Journalism Building so students would be practicing thoughtful journalism in state-of-the-art classrooms and laboratories. Many of the graduates from this era are national media leaders today.

After his retirement from the director's position in 1978, Dr. Hall taught Press Law and Mass Media in Society for several years at The Ohio State University and as a visiting Professor at the University of Hawaii.

In addition to his leadership contributions on several campuses in the country, Dr. Hall was president of the American Association of Schools and Departments of Journalism, an organization for leaders of the nation's accredited journalism programs. He was an elected member of the American Council on Education for Journalism and a member of the American Newspaper Publishers Association/Association for Education in Journalism joint committee to strengthen ties between American newspapers and schools of Journalism. He also served on the publications committee of AEJ.

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to the family of Dr. Hall. It was directed that this resolution be inscribed upon the minutes and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Milton A. Lessler

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 15, 1991, of Milton A. Lessler, Professor Emeritus in the Department of Physiology.

Dr. Lessler was born May 18, 1915. After earning his baccalaureate degree from Cornell University in 1937 and subsequently, a Master of Science degree from the same institution, he was a science teacher in the New York City public School system, and later a technician for the New York State Health Department. Continuance of his graduate education was interrupted by World War II, during which time he served in the 82nd Army Airborne Division, participating in the invasions of Sicily, Italy, Normandy, Belgium, and Holland. Following the war, he pursued graduate study at New York University as a National Institutes of Health Fellow and received a Ph.D. in Cell Physiology in 1950. In 1951, he joined the faculty of The Ohio State University, was promoted to Associate Professor in 1957, and to Professor of Physiology in 1963. He retired as Professor Emeritus in July of 1985.

Dr. Lessler was a fellow in the American Association for the Advancement of Science, New York Academy of Science, and Ohio Academy of Science. He was elected President of the Ohio Academy of Science in 1985, served as Editor-In-Chief of their publication, Ohio Journal of Science, from 1974 to 1981 and, recently, was one of the Ohio scientists honored at the Centennial meetings of the Academy. He also was a member of the American Association for Cancer Research, American Physiological Society, American and International Societies for Cell Biology, Red Cell Club, Society for Experimental Biology and Medicine, and Sigma Xi.
RESOLUTIONS IN MEMORIAM (contd)

Milton A. Lessler (contd)

Dr. Lessler has authored over 100 scientific papers published in major journals and also has contributed chapters to a number of books. Early research in the area of cell physiology focused on the effects of radiation. In later years, he became involved in the study of the effects of lead poisoning on cellular function. As a consultant to the Yellow Springs Instrument Company, he developed and applied oxygen electrode techniques for determination of oxygen consumption in various cell and tissue preparations.

Milt Lessler had a genuine and active interest in encouraging young people toward pursuit of careers in science. In this capacity, he served as a Visiting Scientist to minority educational institutions under support of the American Physiological Society. He also pioneered the development of a Study Skills Program in the College of Medicine. Recently, he completed an update of the written history of the Department of Physiology.

On behalf of the university community, the Board of Trustees expresses its sympathy and understanding to the family of Milton A. Lessler. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Wilda M. Rosebrook

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on June 12, 1990, of Wilda M. Rosebrook, Professor Emeritus in the Department of Psychology.

Professor Rosebrook was born August 18, 1894, in Big Springs, Logan County, Ohio. After earning a Bachelor of Arts degree from Ohio Wesleyan University in 1917 she served as a Special Correspondent for War Risk Insurance with the U. S. Treasury Department. For six years, she was a high school teacher of English, German, and Latin in York Township, West Mansfield and Huntsville, Ohio schools. She obtained her graduate education in psychology at The Ohio State University, where she earned an M.A. degree in 1926 and a Ph.D. in 1931.

Professor Rosebrook was a psychology intern at Boston Psychopathic Hospital and held psychologist and administrative positions at the Michigan Home and Training School and the W.K. Kellogg Foundation. She joined The Ohio State University faculty in 1935 as Associate Professor in the Bureau of Special and Adult Education in the College of Education. She was promoted to Professor in 1957, appointed Professor in the Department of Psychology in 1960, and became Professor Emeritus in 1962.

As a member of The Ohio State University faculty, Professor Rosebrook was influential in establishing a program in special education on this campus. In the early years of her tenure, she was a consultant to Ohio schools on psycho-educational diagnosis and treatment, and in 1945 began teaching courses relative to special education in the Departments of Education and Psychology. Her appointment as Professor of Psychology in 1960 marked the establishment in that department of a graduate and an undergraduate program in Exceptional Children and School Psychology which was staffed by faculty in Psychology and Education.

Professor Rosebrook held elective and appointed offices in many state and national organizations and was a Diplomat of the American Board of Examiners in Professional Psychology. Her research was published in several journals in her field and she served three years as associate editor of the American Journal of Mental Deficiency.
RESOLUTIONS IN MEMORIAM (contd)

Wilda M. Rosebrook (contd)

On behalf of the University community, the Board of Trustees expresses to the family of Professor Rosebrook its deepest sympathy. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Upon motion of Ms. Casto, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

EMPLOYMENT OF ARCHITECTS/ENGINEERS AND REQUEST FOR CONSTRUCTION BIDS

Resolution No. 92-36

SCOTT HALL REMODELING - PHASE IIC

Synopsis: Authorization to employ architects/engineers and request construction bids for the Scott Hall Remodeling - Phase IIC project is proposed.

WHEREAS a grant has been received from the Ohio Board of Regents to install a cold room, smoke detection panel, smoke alarm system, and emergency power system in Scott Hall for the Byrd Polar Research Center; and

WHEREAS the total estimated project cost is $413,991.00, and the total estimated construction cost is $347,891.00, with funding provided by the Ohio Board of Regents ($347,891.00) and University funds ($66,100.00):

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to select qualified architectural/engineering firms as necessary for this project and that the fees for these services be negotiated between the firms selected and The Ohio State University; and

BE IT FURTHER RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request construction bids on this project in accordance with established University procedures, and if satisfactory bids are received, to award contracts, with all actions to be reported to this Board at the appropriate time.

Upon motion of Mr. Shumate, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXVI for background material, page 451.)
REQUEST FOR CONSTRUCTION BIDS

Resolution No. 92-37

GRAVES HALL ASBESTOS ABATEMENT
AGRICULTURAL ADMINISTRATION BUILDING ASBESTOS ABATEMENT
VETERINARY HOSPITAL ASBESTOS ABATEMENT
GOSS LABORATORY ASBESTOS ABATEMENT

Synopsis: Authorization to request construction bids for the asbestos abatement projects in Graves Hall, the Agricultural Administration Building, Veterinary Hospital, and Goss Laboratory is proposed.

WHEREAS the University desires to proceed with asbestos abatement projects in various campus buildings; and

WHEREAS the total estimated project cost for Graves Hall is $136,200.00, and the total estimated construction cost is $127,700.00, with funding provided by the Ohio Board of Regents ($122,580.00) and Physical Facilities ($13,620.00); and

WHEREAS the total estimated project cost for the Agricultural Administration Building is $222,500.00, and the total estimated construction cost is $208,750.00, with funding provided by the Ohio Board of Regents ($200,250.00) and Physical Facilities ($22,250.00); and

WHEREAS the total estimated project cost for the Veterinary Hospital is $499,500.00, and the total estimated construction cost is $450,000.00, with funding provided by the Ohio Board of Regents ($449,550.00) and Physical Facilities ($49,950.00); and

WHEREAS the total estimated project cost for Goss Laboratory is $321,900.00, and the total estimated construction cost is $290,000.00, with funding provided by the Ohio Board of Regents ($289,710.00) and Physical Facilities ($32,190.00):

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request construction bids on these projects in accordance with established University procedures, and if satisfactory bids are received, to award contracts, with all actions to be reported to this Board at the appropriate time.

Upon motion of Mr. Shumate, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXVII for background material, page 453.)

--0--
October 3, 1991 meeting, Board of Trustees

Mr. Nichols:

Mr. Chairman, I would reference three projects, very briefly, of perhaps some importance. We had a report earlier today on the Seagrant Program - South Bass and Gibraltar Islands. I think there were some excellent slides that were shown of the various facilities on Gibraltar and at Peach Point. One thing that was obviously not shown was the restroom conditions which, at best, I would call spartan. And the majority of this particular project is to improve those conditions for the researchers and the students that are there.

Next is a very important project. With the permission of the Chairman, at the next meeting I would like to double back and show you just a few slides on the Honors House renovation, which is the former President's residence on West 12th Avenue. There have been two previous projects that have been done on this involving asbestos and electrical upgrade. This particular one is for $1,361,000, which is a complete renovation and a small addition to allow for handicapped accessibility, as well as some additional space for Honors House which will be situated on the patio. Most of us think of it as the rear of the house, but it was actually the front door of the house at one time and it faces toward the performance center.

And, finally, we have a situation that we don't have too often on the main campus. There will be a contract coming very shortly with regards to demolishing the Communications Lab. This particular project dealt with asbestos abatement. When that facility is demolished, it will be replaced by green space and a very nice studying area for students and faculty. That has had fairly significant support from the faculty. Normally, we put parking in or we build another building in its place, but this will add some green space to the Central Campus.

**REPORT OF AWARD OF CONTRACTS AND ESTABLISHMENT OF CONTINGENCY FUNDS**

Resolution No. 92-38

AGRICULTURAL ADMINISTRATION BUILDING ROOF REPLACEMENT
SEAGRANT SCHOOL PROJECT - SOUTH BASS AND GIBRALTAR ISLANDS, PHASE III
WILLIAM OXLEY THOMPSON LIBRARY - UPGRADE HVAC SYSTEM
NEWARK REGIONAL CAMPUS - FOUNDERS HALL ELECTRICAL UPGRADE AND PARKING LOT
LIGHTING REPLACEMENT
COFFEY ROAD AND VETERINARY CLINIC DRIVE REPAIRS
CLASSROOM IMPROVEMENTS, PHASE VI
LAB ANIMAL CENTER RENOVATIONS - HVAC
ARPS HALL - MASONRY IMPROVEMENTS
OXLEY HALL WINDOW REPLACEMENTS
COMMUNICATIONS LAB DEMOLITION (ASBESTOS ABATEMENT)
SULLIVANT HALL RENOVATION
HONORS HOUSE RENOVATION
SCOTT HALL - PHASE IIB
VAN DE GRAAFF LABORATORY - ROOFTOP MECHANICAL SYSTEM REPLACEMENT

Synopsis: Approval of the Report of Award of Contracts and the Establishment of Contingency Funds for the listed projects is recommended.
REPORT OF AWARD OF CONTRACTS AND
ESTABLISHMENT OF CONTINGENCY FUNDS (contd)

VAN DE GRAAFF LABORATORY - ROOF TOP MECHANICAL SYSTEM REPLACEMENT

WHEREAS resolutions adopted by the Board of Trustees on November 7, 1986, May 4, 1989, October 5, 1990, and March 1, 1991 authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established University procedures, and if satisfactory bids were received to award contracts for the following projects: Agricultural Administration Roof Replacement, Main Library - Upgrade HVAC System, Newark Regional Campus - Founders Hall Electrical Upgrade and Parking Lot Lighting Upgrade, Coffey Road and Veterinary Clinic Drive Repairs, Lab Animal Center Renovations - HVAC, Arps Hall - Masonry Improvements, Oxley Hall Window Replacements, Communications Lab Demolition - Asbestos Abatement, Honors House Renovation, Scott Hall - Phase IIB, and Van De Graaff Laboratory - Rooftop Mechanical System Replacement; and

WHEREAS resolutions adopted by the Board of Trustees on July 11, 1986 and May 4, 1989 authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established State of Ohio procedures, and if satisfactory bids were received, to recommend the award of contracts for the following projects: Seagrant School Project, Phase III, Classroom Improvements, Phase VI, and Sullivant Hall Renovation:

NOW THEREFORE

BE IT RESOLVED, That pursuant to the actions previously authorized by the Board, the Report of Award of Contracts and Establishment of Contingency Funds for these projects is hereby approved.

Upon motion of Amb. Wolf, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXVIII for background material and maps, page 455.)

--0--
October 3, 1991 meeting, Board of Trustees

Mr. Teaford:

I now call upon Dr. Hutchinson to give us a report on the authorization to negotiate agreements.

Dr. Hutchinson:

Thank you, Mr. Chairman. Perhaps this takes a moment of explanation because what we are proposing is somewhat unusual. Following World War II, Labor Education Programs were developed and placed, most frequently, in the state land-grant universities. Ohio has had a program for a long time, in fact Ohio has been known to be one of the leaders in the nation in that regard. As it was developed over the years, it was made into an academic department within the College of Business at The Ohio State University. That was somewhat unusual, but that is the way it was handled.

We now have an academic department unlike any other department in the University in that its source of funding is a separate line item in the state appropriations. Our other departments obviously do not have that. They get their share of whatever we receive as an institution. In this case, they had a separate line item in the budget.

For whatever reasons, this year the State, rather abruptly, decided to reduce such appropriations by $900,000. The amount of money was a little over a million dollars, and so they essentially almost took out all of the funding for labor education.

We were left with no alternative. The University was in a very difficult budget situation this year, and so we made a difficult decision to eliminate this department. That recommendation will be coming to you in due time. It is currently working its way through the University Senate, which is where it first must go. But in the meantime, we had to close the regional offices because we did not have the money to pay people. We closed the regional offices September 1.

We have seven tenured faculty members in the LERS department, with one untenured faculty member who will be given a one-year notice. These seven faculty members -- are in an unusual situation. There will no longer be a department, the Rules of the University state that they are tenured, therefore we must honor their tenure, and we will do that. But they do not fit -- by their backgrounds and experience -- into our other programs very well. Therefore, we are proposing that we negotiate with them to find the best arrangement for them and for us. That will involve a financial adjustment to encourage them to consider the best alternative that we can agree with. It is difficult for us to be more specific than that until we go through the negotiations. Thus, we are asking for your approval to give us permission to do that.

Mr. Teaford:

As I understand the motion, it is largely in the area of early retirement incentives?
Dr. Hutchinson:

I should add that for some of them that will work; for others that are in their late forty's, that doesn't work. In that situation, we would be offering them a buy-out, a certain amount that they would be offered if they chose to leave the University. If they do not choose to leave, they are tenured and we will find an academic home for each one of them. That is our obligation and we will do that, but that will not be easy. They know that and we know that, so we are trying to negotiate with them. We have entered into preliminary discussions, three of them have already said that they would probably take the alternative of leaving if we in fact make that offer. There are at least two others thinking very seriously about it, probably waiting for word about whether or not you authorize us to go ahead with this negotiation.

Mr. Teaford:

Thank you, Dr. Hutchinson. Are there any questions of Dr. Hutchinson?

Mr. Kessler:

Is that an open-ended authorization?

Dr. Hutchinson:

Well, what we have been considering is a maximum of two years -- two years' salary.

Mr. Scott:

To answer this question more specifically, Jack, the LERS program is being eliminated and the University has, under the faculty rules, a continuing obligation to tenured faculty. As Fred has indicated, trying to find the right fit for those folks will be very difficult. The alternative for those who are eligible would be to take the early retirement buy-out, but there may very well be some need for adjustment. So before we proceed, we want the Board to understand precisely what we are attempting to do. It is a one-on-one negotiated settlement and that is the authority that is being sought.

Dr. Hutchinson:

Well the way that we have approached this, is to look at what would be in the best interest of the University, as well as the individual, financially. That depends a little bit on what their salary level is, etc. But we intend nothing that gets extreme here, in terms of what would be offered. It would be, as you look at where they are in their career, what age they are, presuming that they exercise their tenure, and stay from that point until they are sixty-five years old, and how much would therefore be our obligation over that period of time. For those people who do not match our needs very well, and therefore not be easy for us to find that, then what is in the best interest of the University in the long-run financially. That is the criteria that we are using.

Mr. Celeste:

Is there any precedent for this, has this happened before?
October 3, 1991 meeting, Board of Trustees

Dr. Hutchinson:

There is precedent -- we have had an early buy-out program that we are offering the faculty in general. It is a precedent in the sense that it gives people five years of benefits early, and that is a major precedent. It applies to everybody, so we already have something in place that does this.

Mr. Scott:

Also, Ted, before we had the early retirement buy-out that is permitted by state law, there was the option that you could retire early and take one quarter each year to return to the system. This program was approved some years ago by the Board.

Mr. Teaford:

I can recall, in my tenure, that we have done this in regard to administrators on occasion. It is not entirely without precedent.

Amb. Wolf:

In order to move this, we authorize the Provost to negotiate in good faith, but non-binding pending approval by this Board.

Dr. Hutchinson:

That would be very much what we expect.

Dr. Gee:

In fact, that is very consistent to what we are talking about. Let me just make one point in fairness here. As we take a look at continually reconfiguring the University, this is both an important first occasion in doing some of this type of activity. It will set a precedent, so we are obviously looking at it very carefully. I welcome the Ambassador’s motion, because I believe that it is very consistent with our own thinking and would allow us then flexibility at the same time. Ultimately, it is your responsibility.

Dr. Hutchinson:

I might say that I did meet with the AAUP chapter on campus the other day for lunch, because they had expressed concern since some of these individuals had gone to them to express concern about this whole matter. They understood the uniqueness of this situation, the fact that this is a line item and we would not normally do this this way. We will be bringing to you later this year other recommendations to do away with academic departments, and we do that through a regular process. But in those cases, we don’t have a separate line item that forces us to make an immediate decision about what we are going to do.

I was pleased at the AAUP leadership, when they understood what we were doing, it sounded reasonable to them. I cannot speak for them, I can only say that that is what they told me.

Mr. Barone:

What is the possibility of any of these positions being replaced?
October 3, 1991 meeting, Board of Trustees

Dr. Hutchinson:

Well if you are talking about whether the program at some future date might be enlarged again, whether the line item might be reinstated, I can only say that we cannot speak for the leadership in this State who has been very active over the years in supporting that line item. And for that reason I don't think that I have to say anymore, because I don't know the probability.

Right now we have to face the fact that they have taken it back. My feeling would be that we are moving now from an in-house faculty just for labor education, to a program in the future where we would be drawing on our regular faculty as they are needed to conduct various programs. I think that that is the level of sophistication that is coming into labor education programs across the country.

So I predict that if the money goes back up at some future date, it would not be to reinstate faculty positions, but to be used to support existing faculty for periods of time for things that need to be done.

Mr. Teaford:

I think that it is probably safe to say, isn't it, Dr. Hutchinson, in the form that it has been in, it is most unlikely that it will be restored.

I am going to entertain a motion with the addition of this phrase "subject to ratification by this Board."

AUTHORIZATION TO NEGOTIATE AGREEMENTS
Resolution No. 92-39

WHEREAS the line item budget from the State of Ohio for the Labor, Education and Research Service, College of Business, was reduced by $900,000 per year for the 1991-93 biennium, as compared with the level of funding for FY '91; and

WHEREAS because of budget reductions, adequate funds are not available elsewhere within the institution; and

WHEREAS the reduction in line item funding for LERS and the University's general budget situation requires a phase down of LERS faculty and staff in order to achieve a significant reduction in expenditures as soon as possible; and

WHEREAS there are seven tenured faculty members in LERS, some of whom may be eligible for the Early Retirement Incentive Program, and others who may be willing to resign their positions with the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or the Senior Vice President for Academic Affairs and Provost be authorized to negotiate agreements with tenured LERS faculty members who voluntarily resign their University positions and subject to ratification by this Board.

Upon motion of Mr. Kessler, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--
REPORT - UNIVERSITY'S INVESTMENT PORTFOLIO
Resolution No. 92-40

RESOLVED, That the report on the University's Investment Portfolio, dated September 20, 1991, as submitted to the Board of Trustees, be received and filed with the official records of the Board.

(See Appendix XXIX for complete context of The Ohio State University Endowment Summary, September 20, 1991, page 487.)

--0--

Thereupon the Board adjourned to meet Friday, November 1, 1991, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio.

Attest:

Madison H. Scott  Hamilton J. Teaford
Secretary  Chairman
THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND TWO HUNDRED AND SEVENTY-SEVENTH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, November 1, 1991

The Board of Trustees met at its regular monthly meeting on Friday, November 1, 1991, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio, pursuant to adjournment.

* *     * *      * *  

Minutes of the last meeting were approved.

* *     * *      * *
November 1, 1991 meeting, Board of Trustees

The Chairman, Mr. Teaford, called the meeting of the Board of Trustees to order on November 1, 1991, at 11:30 a.m. He requested the Secretary to call the roll.

--0--

PRESIDENT'S REPORT

President Gee:

Looking back at the month of October, I will borrow the theme of the 1991 Homecoming Celebration, "Imagination Unlimited," to describe the varied activities of this university.

The Focus on Teaching Steering Committee hosted a one-day seminar attended by the academic leadership of the university. Under the leadership of Professors Ed Ray and Vickie Blaine, the steering committee set a goal of applying our collective energy and imagination to the subject of improved teaching. It is agreed that we must do a better job of supporting and rewarding the outstanding instruction that is taking place across our campuses. Through speakers and discussion sessions, the participants began to identify ways that this can and will happen.

Imagination at work is nowhere more evident than in the health sciences. This month, Upham Hall at University Hospitals, was named "Psychiatric Hospital of the Year" by the state chapter of the Alliance for the Mentally Ill. The award was based on the quality of care given, the involvement of families in the care process, and the research undertaken in the area.

Ohio State hosted two pioneers in the field of in vitro fertilization. I might note that Ohio State's in vitro program was the fifth established in the nation, and the first in the Midwest. As a result of the program, 72 in vitro babies have been born at University Hospitals since 1982. Today, a major conference on health care issues of African-American women is being held on this campus. The founder and executive director of the National Black Women's Health Project, Bylye Avery, will be the featured speaker. We welcome her and all of the conferees to Ohio State.

On the eve of another election, it seems appropriate to point out that Ohio State's Mershon Center has received a $1.25 million grant from the National Science Foundation to study political decision making by groups. The program involves professors and graduate students from both political science and psychology.

This month, it is hard to imagine even a day going by without some news story about ethics. From free lunches on Capitol Hill to the drama of the Thomas hearings, ethics clearly is Topic A around the country. On our own campuses, debate continues on the subjects of sexual harassment, the role of a student press, censorship and the arts, sexual orientation and human rights, and on and on. These discussions are vitally important to the intellectual life of the university and the development of our campuses as ethical communities.
President Gee: (contd)

I had the opportunity this month to present a paper co-authored with my spouse, Elizabeth, on the role of institutions in promoting the common good. After looking at the sometimes sorry state of our society and its institutions, there is concern about where we are going. Educational institutions, particularly those of higher education, have a significant role in addressing these concerns. Education, I would like to remind all of us today, the first day of November, is a moral enterprise, and education for ethical behavior is an important part of our obligation.

Ohio State does offer courses on ethical conduct. "Ethics in Communication" is a journalism course for media practitioners. Dentistry 621: "Dental Ethics" is an advanced study and critical analysis of the ethical issues associated with the day-to-day practice of the profession. And there are others. However, sound ethical training extends well beyond such courses. We must encourage discourse and discussion. Further, it is from the liberal arts core in the curriculum that the capacity for moral reasoning and ethical behavior is derived. The liberal arts do and continue to provide knowledge of the past and common reference points from which a dialogue about diverse views might spring. We must nurture inquiry and the open exchange of views, as well as fostering civility and responsibility. We must inform and inspire our graduates to work for the common good. And I bring this to you today simply to note that I believe at this time still in the beginning of a school year, that this is our responsibility and we must always be mindful of that.

I would also note that while the evening news is often disconcerting, there is time among our students for joy and fun. Homecoming 1991 was a great success. The Committee took its theme to heart and initiated several new activities while improving some favorite traditions. One evening, the trees in Mirror Lake Hollow were filled with white lights and luminaria for a musical program. They brought farm animals to the Oval -- sort of a petting zoo -- on another day. From all accounts, the parade was bigger and better than ever. The noted heart specialist, Dr. William DeVries, added a great deal as the Grand Marshal.

Ten outstanding students were chosen to represent Ohio State as members of the Homecoming Court. Dianne Jones, Homecoming Queen, is an honors biology student who is headed for medical school. She is president of the class honor society, Sphinx. Homecoming King Michael Owens is majoring in elementary education. He has been president of his fraternity and is actively involved in tutoring young people in the community. I know they will represent us very well.

Of course, a favorite activity to me was the Gordon Gee Look-A-Like Contest. Actually, I entered and came in third place. Truthfully, it was more than look-a-like. The candidates were asked questions and were expected to walk and talk like me as well. Perhaps I should have the winner return a few of my telephone calls and keep appointments! I understand that our esteemed board Chair gave the candidates quite a grilling. The winner, David Strauss, when he was portraying me, asked the group what the President of the University of Michigan got on his LSAT test. The answer was “saliva.” You know I would never say that! It was the president of the University of Iowa.
PRESIDENT'S REPORT (contd)

President Gee: (contd)

Homecoming is, of course, a time to focus on alumni. I want to note that a group of very distinguished graduates received recognition from the Alumni Association at their annual awards dinner. The Alumni Medalist for 1991 was Dr. Arthur G. James, the namesake and driving force behind Ohio State's Cancer Hospital and Research Institute. My congratulations to Dr. James and to all of the award winners.

Finally, on a personal note, I want to thank those of you here, and our Board Chair in particular, for filling in so ably for me during my required absences over these past couple of weeks. Your constant support and good wishes mean a great deal to me, and certainly to my family, and to Elizabeth. Thank you, Mr. Chairman and I thank all of you. That is the end of my report.

--0--

AUTUMN QUARTER ENROLLMENT

Mr. Shkurti:

In your Board books you will find the Autumn Quarter 1991 Enrollment Report that is traditionally provided to the University by the Vice President of Finance. But the people who really put together the statistics are here today and I would like to acknowledge them — Gene Schuster, University Registrar; Jim Mager, Director of Admissions; and Charles Corbato, Associate Provost, who interacts with the extended campuses and will also be available to assist me in answering questions if that is necessary.

The enrollment report is designed to answer four questions: 1) What is our current enrollment now that the fourteenth day of enrollment figures for the fall are in, 2) What is the composition of the student body and how has it changed, 3) What progress has been made in increasing minority enrollment, and 4) What are the implications of these enrollment changes for finances and the size of the University.

If you turn to the second page of the report entitled 1(a), I will summarize the total numbers on Autumn 1991 Enrollment on the campus. For the University as a whole, our enrollment measures up to 60,589, surpassing last year's record enrollment by 424 students. The Columbus campus enrollment is 54,313, the highest since 1980. Enrollment records were set at Lima, Mansfield, and Newark extended campuses. Marion, unfortunately, had a decline from last year, although last year they had a significant increase. Enrollment at the Agricultural Technical Institute in Wooster dropped to the 1988-1989 levels. The next page, 1(b), provides the detail of the numbers I just mentioned.

If we take a look now on page 2(a) at the Autumn 1991 Enrollment on the Columbus campus and take a look at the composition, we find first of all that the reduction we planned last year, of 600 new first quarter freshman, has been realized and we were very close to that target. At the same time, the retention of new first quarter freshman is high. It's down a little bit from last year, but it is still higher than it has been historically and it is at 81.4 percent. The number of continuing undergraduate students continues at the record level set last year. So more students are coming back, and the enrollment of new and continuing graduate students showed a significant increase, up by more than 600. Professional enrollments dropped, primarily due to a drop in continuing students. I should point out that this is a planned decrease because we are looking at smaller classes deliberately in medicine and dentistry and the numbers you see reflect that.
AUTUMN QUARTER ENROLLMENT (contd)

Mr. Shkurti: (contd)

If you turn to page 3(a) I will summarize some of the issues involving Autumn 1991 Columbus Campus Minority Enrollment. The Autumn 1991 Minority Enrollment of 5,392 on the Columbus Campus is the highest ever, up 290 or 5.7 percent from last year. Minorities now represent about 10 percent of the student population on the Columbus campus. The retention of black new first quarter freshman is 70.2 percent and that is the second highest level we have ever achieved. We are very encouraged by those results.

If you turn now to page 4(a), I will talk about the implications of these numbers. First, it is very clear that the University continues to attract students at all levels and that it is becoming the university of choice for our best students. Secondly, the enrollment composition continues the shift that began dramatically last year from freshman to upper classman and to graduates students. Thirdly, the enrollment of minorities and retention of minorities continues its gradual increase and that is encouraging. And fourth, the academic skills of our incoming students continues to improve. I will mention more about that in just a minute.

In terms of the implications for the University as a whole, since our enrollment is up slightly over what it was last year and what our plans were in the budget, we hope to see some small increase in the subsidy and fee income over what was assumed in the budget. I emphasize the word "hope" because the final numbers from the Board of Regents do not come in until December. And a lot will depend on what happens in enrollment on other campuses, in terms of what is going to be left for what will happen in our campus. I also have to emphasize "small" because it is a small increase over last year. I doubt if it will be significant enough to solve our budget problems, but even one percent of our state subsidy is $3 million because it is about a $300 million subsidy. I doubt if it will be anywhere near that number, but even a half of a percent is $1.5 million.

And if you remember because of the $4 million cut in our subsidy late during the budget process we are carrying over a $2 million loss that we have not yet addressed. Any additional income will be welcomed, and we will know that in December. That will be included in the mid-year financial report that you will receive.

The demographic trends are something I addressed briefly last fall and I would like to talk about it again -- the chart labeled 4(b). That tracks the projected number of twelfth grade students that end up being, hopefully, high school graduates, who in turn we recruit for freshman. If you notice, there was a perspicuous drop from 1989 to 1990 and from 1990 to 1991. The good news is it looks like the worst of that drop is over and yet we have been able to maintain stable enrollment. We still are looking at a decline in 1992, and we aren't looking for a steady increase probably until 1995 or so. But, I think it is fair to say that the worst part of this downward decline seems to be over and we are holding our own regarding enrollment.
Let me talk a little bit about the composition of the student body and if you turn to chart 4(c) that was prepared by Jim Mager in the Admissions Office. Let me mention some of the indicators of how well prepared our new first quarter freshman are on the Columbus campus. What Jim has done here is compare autumn of 1991 with autumn of 1990. If you notice, our national merit and national achievement scholars have increased dramatically from 27 to 109. Our high school valedictorians has increased from 130 to 138. The number of university scholars has increased from 272 to 338. The percentage of new first quarter freshman ranked in the top ten of their high school class has increased from just a little over 23 percent to well over 25 percent. The average ACT composite score increased from 22.1 to 23.0. And, finally, the average SAT composite score has increased from 965 to just about 987. So I think by every indicator, the level of preparation of new first quarter freshman coming into the university indicates that we are attracting some very capable students and it is a very encouraging sign. In terms of the final implications, in terms of the size of the institution, I think it is safe to say at the moment that our enrollments are relatively stable and growing slightly.

Obviously, we have some issues to talk about down the road as we get into an academic planning process. But I think overall the characterization I would make of our autumn 1991 enrollment picture is that it is very encouraging both in terms of overall numbers, but equally important in terms of the quality of the students we are attracting, our ability to attract and keep minority students, and our growth in graduate students. So, overall, I think that this is a very encouraging report and one in which the University should be very proud of.

Mr. Chairman, that concludes my presentation. I will be glad to try to answer any questions.

Mr. Teaford:

Thank you, Mr. Shkurti. Does anyone have any questions?

Ms. Casto:

Could you please remind me of exactly what our quota would be on black enrollment if we were to meet it?

Mr. Shkurti:

Mr. Chairman, Ms. Casto, I am not sure what you mean by our quota on black enrollment?

Ms. Casto:

There is a certain percentage that we would prefer to have. Are we close to that?
Mr. Shkurti:

You mean if it was close to the population as a whole? I know overall in the State of Ohio, our black population is something like 10 or 11 percent of the state's population. Perhaps I should turn to Dr. Mager. Jim, are you the right person to respond to that?

Dr. Mager:

No. I could respond though as far as incoming students. Because the demographics show that approximately 10 percent of the high school graduates are black, it is our goal to have the same composition in our incoming class. Eight percent of the incoming students this year were black. So we are still 2 percent from our goal.

Ms. Casto:

That is quite a change. I have to commend you, because I think when I first came on this Board it was closer to 5.5 to 6 percent. You have done a great job.

Mr. Teaford:

It was 5.3 percent.

Mr. Shkurti:

Mr. Chairman, terminology is also important in this day and age. A goal is something that we seek to achieve in admitting qualified students; a quota would imply a rather rigid test and the University does not use quotas in any of its admissions.

Mr. Dailey:

Mr. Shkurti, do you know the reason for the perspicuous drop in the number of twelfth grade students during the next two or three years?

Mr. Shkurti:

Yes. We knew this was coming because fewer of the students were born 17 and 18 years ago. It is a reflection of the baby boom cresting out. The increase that will occur in future years is what is called the "echo of the baby boom," and what is in between is what the drop has been. Projections in almost anything is next to impossible, as the Board knows, as we go through these revenue and subsidy projections. The one thing we do know in counting population is how many people are of a certain age at a given point of time. So we can usually have a pretty good idea of how many of them then will move through the system at a given point in time.
Ms. Casto:

Awards received by the Research Foundation during the month of September are listed at Tab 1. A project of special note is highlighted at the 2nd tab. This is a new biological resource center, one of two in the country, funded by the National Science Foundation. As a resource for one of the most important worldwide research models in plant biology, the center will be a multinational treasury of information in the field.

Tab 3 describes some of the research being conducted by the Byrd Polar Research Center. Their work represents an area of national priority. And even as we are meeting here, the Byrd Polar researchers are preparing for an icy trek to the Antarctic glaciers. The field season there runs from October to February.

Tab 4 gives summary information.

The first table lists proposal dollars requested of funding agencies by each college in fiscal years 1990 and 1991.

The second table lists award dollars received by each of the colleges in fiscal years 1990 and 1991.

The third table identifies fiscal year 1990 and 1991 expenditures by college.

The fourth table identifies categories of expenditure data. I am pleased to note that over $10 million in sponsor funding went to student support.

The fifth table lists the award dollars by sponsor for grants and contracts received from July through September of this year. New projects, the timing of some awards, and substantial increases in international funding mostly account for the variation you see between this year and last year. And I know that Mr. Teaford is quite excited about this tab 4 and 5.

Mr. Teaford:

For some time I have wanted to see what colleges were getting the awards and we now have that in there. I think that is a useful piece of information.

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS
Resolution No. 92-41

Synopsis: Approval of the following reports on contracts, grants, and gifts and the summary for September 1991 is proposed.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, and The Ohio State University Development Fund:
REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station, and The Ohio State University Development Fund during the month of September 1991 be approved.

Upon motion of Mr. Shumate, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

(See Appendix XXX for The Ohio State University Development, page 535.)

(See Appendix XXXI for Report of Research Contracts, Grants, and Gifts, page 537.)

To: The Joseph B. and Jean Crayton Collinson Scholarship Fund

From: Richard J. and Martha D. Denman Fund
To: Richard J. and Martha D. Denman Professorship Fund

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Description of Named Funds

The Agricultural Engineering Equipment Endowment Fund

The Agricultural Engineering Equipment Endowment Fund was established November 1, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from alumni and friends of the Department. The gifts were made to start the endowment and to inspire and challenge others to expand it as a means for addressing priority equipment needs of the Department of Agricultural Engineering. These needs cannot be met from other resources.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to purchase, update, and enhance equipment for the Agricultural Engineering Department. Priority shall be given for equipment directly related to instruction.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The David S. Nicolls Athletic Scholarship Fund

The David S. Nicolls Athletic Scholarship Fund was established November 1, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from David S. Nicolls (B.S.Bus.Adm. ’49, Director of Athletic Development 1984-1991) of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.
November 1, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The David S. Nicolls Athletic Scholarship Fund (contd)

The annual income shall be used to supplement the grant-in-aid scholarship costs of student athletes who are pursuing undergraduate degrees at The Ohio State University. Recipients will be selected by the Director of Athletics in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees as recommended by the Director of Athletics in order to carry out the desire of the donor.

The Doris Messer London Fund

The Doris Messer London Fund was established November 1, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the estate of Doris Messer London (J.D. '38) of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used by the College of Law to provide support for faculty working with the Center for Socio-Legal Research at The Ohio State University. After June 30, 2002, the annual income shall be used at the discretion of the dean of the College of Law.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Phar-Mor Scholarship Fund in Pharmacy

The Phar-Mor Scholarship Fund in Pharmacy was established November 1, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Phar-Mor, Inc., to benefit students in the College of Pharmacy.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to award scholarships to fourth or fifth year pharmacy majors planning to practice in a retail setting upon graduation, as approved by the dean of the College of Pharmacy and Phar-Mor, Inc., and in consultation with the University Committee on Student Financial Aid.
REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Phar-Mor Scholarship Fund in Pharmacy (contd)

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

Dean G. Micheal Riley Fund

The Dean G. Micheal Riley Fund was established November 1, 1991, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from a friend of the Department of History.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used by the chairperson of the Department of History at his or her discretion in the furtherance of the Department's goals and mission.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

Change in Name and Description of Named Funds

The Joseph B. and Jean Crayton Collinson Scholarship Fund

The Joseph B. Collinson Scholarship Fund was established June 11, 1981, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from Textron Corporation of Providence, Rhode Island. Revisions were made September 4, 1987, and November 1, 1991.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more scholarships for accounting students completing their junior year who have indicated an intent to go on with graduate studies in accounting, achieved outstanding academic rank, and provided concrete evidence of leadership. The selection of the recipients is to be made upon the recommendation of the selection committee consisting of the chairperson of the Department of Accounting, a member of the Accounting Faculty teaching in the Honors Program, and the adviser of the Student Accounting Association in consultation with the University Committee on Student Financial Aid. The recipients are not required to take their graduate studies at The Ohio State University.
November 1, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Change in Name and Description of Named Funds (contd)

The Joseph B. and Jean Crayton Collinson Scholarship Fund (contd)

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

Richard J. And Martha D. Denman Professorship Fund

The Richard J. and Martha D. Denman Fund was established March 1, 1985, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from Richard J. (B.S.Bus.Adm. '57) and Martha D. Denman of Dana Point, California. The description was revised November 1, 1991.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The purpose of this endowment is to lead to the establishment of a full professorship to be known as the Richard J. and Martha D. Denman Professorship for Clinical Research in Epilepsy in the College of Medicine for the Department of Neurology. For the next two fiscal years (1991-1992 and 1992-1993), 100% of the income allocation shall be used for clinical research in epilepsy in the Department of Neurology. Following fiscal year 1992-1993, all income shall be added to the principal until such time as the fund reaches the $500,000 professorship level. Once the professorship is established, future funding will lead to the eventual establishment of a chair. The professorship will support the work of a distinguished researcher, teacher and practitioner in the study and clinically relevant research of epilepsy. This faculty member is to be selected by the Dean of the College of Medicine in consultation with Mr. and Mrs. Denman, as long as they are alive, and the Chairperson of the Department of Neurology.

This gift is intended to benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish is to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the Dean of the College of Medicine, Chairperson of the Department of Neurology, or program administrative officer in order to carry out the above specified purpose of the donors.

HOSPITALS BOARD COMMITTEE REPORT

Mr. Barone:

The Hospitals Board and its Administrative/Operations Committee met yesterday.

The Administrative/Operations Committee received status reports on patient activity; safety and security; Certificates of Need; and construction/renovation. Mr. Maier discussed the performance of the Hospitals' outreach network. The principal topic of discussion was a review of bids for the Neuropsychiatric Facility.
HOSPITALS BOARD COMMITTEE REPORT (contd)

Mr. Barone: (contd)

The Hospitals Board briefly adjourned into executive session to review a physician's appeal of non-reappointment to the medical staff. In open session the Board affirmed the decision of the Medical Staff Administrative Committee on this issue. As recommended by the Administrative/Operations Committee, the Board also voted to authorize awarding base contracts for the Neuropsychiatric Facility under a plan that would maintain the total project budget at $15 million. The Board also authorized Hospitals management to continue to work with central administration to pursue bond financing for this project. The Hospitals Board endorsed (with one modification) the recommendations of the Hospitals' Task force formed to ensure compliance with federal rules related to the recently-formed National Practitioner Data Bank. The Board received reports from the Chief of Staff and Medical Center Development department. Dr. Tzagournis and Mr. Fraley were asked to incorporate Board members' suggestions into specific measurable objectives, as a follow-up to the Board's retreat last August.

I wish to also add that I discussed with Dr. Tzagournis and Mr. Fraley the Health Care matter and University Hospitals is qualified and is able to give the best medical care at the best cost in this area. I think that University Hospitals and especially Mr. Fraley deserves a lot of credit for this.

--0--

CANCER HOSPITAL REPORT

Mr. Barone:

The newly formed Oversight Committee of The Arthur G. James Cancer Hospital and Research Institute met for the first time on July 1, 1991. Members of the Committee include: Mr. John Barone, Dr. Henry Cramblett, Mr. Bill Shkurti, Mr. Reed Fraley, Dr. David Schuller, Mr. John Kessler, as Chair of the Committee, and Mr. Dennis Smith, acting as Secretary. A number of issues are reviewed at each meeting which convene on a monthly basis. These issues include but are not necessarily limited to quality assurance, financial and statistical reports, operational reports, development activities, and medical staff appointments. Following is a report of those activities through the first quarter of fiscal year 1991-92.

At every meeting of the Oversight Committee, quality assurance issues are presented in detail by the Administrator of quality assurance activities and the Co-Chairman of the Quality Assurance Committee, Dr. Joseph Goodman. Prior to presentation to the Oversight Committee, this information is presented to and reviewed by the Combined Quality Assurance Committee of both University Hospital and The Arthur G. James Cancer Hospital and Research Institute. It should be noted that on more than one occasion commendations from Board Members were offered to the members of the quality assurance team for excellent reviews and reports on all issues regarding the quality of patient care at the James Cancer Hospital.

For the first quarter of fiscal year 1991-92, the James Cancer Hospital is surpassing projections through the control of expenses and enhancement of operations. Year to date, the actual loss for the James Cancer Hospital at the end of the first quarter was $581,000 compared to a projected loss of $1,109,000. In addition, actual admissions
Mr. Barone: (contd)

were 911 compared to a budget of 964, with patient days running at 8,014 against a budgeted projection of 8,190. Gross revenue figures indicated an actual of $16,901,000, against a budget of $18,883,000; however, operating expenses were held to $15,493,000, against a budget of $17,626,000.

A number of strategies have been employed in the operations of the Cancer Hospital including the formation of a Community Oncology Physicians Advisory Group, a selection of physicians who have expertise in oncology from the community. There have been two meetings, which were well attended, with evidence that the physicians have a high level of interest in collaborative efforts with the James Cancer Hospital and its medical staff.

The strategic planning efforts of the Comprehensive Cancer Center-James Cancer Hospital are moving into the final stages with completion of the plan which included both operations and finance, about one month away. It is anticipated that the complete strategic plan will be presented to The Ohio State University Board of Trustees for approval at its December meeting. The final phases involve three major items: 1) the final refinement of the financial planning model, 2) assessment of future resource requirements including capital requirements, and 3) implementation schedule. Assisting as well as facilitating the implementation of this strategic planning effort is the Douglass Group currently a subsidiary organization of Deloitte & Touche. The Douglass Group has worked with many of the Comprehensive Cancer Centers and DRG exempt cancer hospitals in this country.

The Joint Commission on Accreditation of Hospitals visited the James Cancer Hospital for its follow-up focus survey in August of this year. This review was subsequent to the initial survey by the Joint Commission which occurred approximately six months ago. After review by the Joint Commission organization, a continued three year approval has been awarded to the James Cancer Hospital.

A number of new cancer programs have been initiated and continue to evolve at the James Cancer Hospital but one in particular has received notoriety. Specifically, this was the August opening of the American Cancer Society Babe Zaharias Women's Cancer Center located on the first floor of the hospital. This program was funded through the American Cancer Society Babe Zaharias Golf and Tennis Tournament. The capital by the American Cancer Society allowed for renovation costs and capital equipment acquisition for this important program. Concurrently, the National Cancer Institute recently made the drug Taxol available to women with metastatic ovarian cancer who are treated at national cancer institute approved centers, which we are, and the James Cancer Hospital is the first approved institution in the country to provide Taxol for this particular cancer. A number of protocols are available at the James Cancer Hospital and to date approximately 12 patients have been admitted to receive this important drug therapy.

For fiscal year 1991-92, year-to-date, a number of important gifts have been received by The Ohio State University for its efforts in cancer research and treatment. These gifts include, but are not necessarily limited to, a gift from the Borden Company to support efforts in bone marrow transplant, a multi-million dollar contribution by the Jerome Schottenstein family to support the expansion of the available research space of the Comprehensive Cancer Center, and an additional gift for research activities by

517
Mr. Barone: (contd)

the Franz Stone family. In addition, approximately $700,000 in grants have been received by the Cancer Hospital and Research Institute/Comprehensive Cancer Center.

That is the end of my report, Mr. Chairman, unless Jack, our Chairman, which I wish to commend is doing a tremendous job with the function of this committee, has anything to add.

Mr. Kessler:

Has everyone met Dennis Smith who is our Executive Director of the Cancer Hospital? Dennis would you stand up. Both Hospitals Boards are active and doing a good job. The Cancer Hospital is performing quite well, the quality assurance is terrific, and John is one of our best members.

Mr. Teaford:

For everyone's information, at the next meeting of this Board we will have an annual report from the Chairman of the Hospitals Board and the Chairman of the Cancer Oversight Board. Those will both be at our December meeting.

--0--

ACADEMIC AFFAIRS COMMITTEE

Ms. Casto:

Dr. Kenneth Jezek, Director of the Byrd Polar Research Center gave an extensive report this morning. The Center is named in honor of one of America's most famous explorers. The Byrd Polar Research Center of The Ohio State University is recognized internationally as a leader in polar and alpine research. The Center's research is global in scope with programs conducted throughout the world.

Research at the Center focuses on the role of cold regions in the global climate system. Scientists at the Center are reconstructing past climate by studying chemical records preserved in ice cores collected from glaciers in Greenland, China, and Peru. Fossils provide important evidence for much older changes in climate and plant fossils collected in the Transantarctic Mountains indicate that parts of the southern continent were once forested. Modern processes such as the motion of the great ice sheets and the circulation of storm systems around Antarctica are being studied with sophisticated computer models and with satellite-borne sensors capable of imaging the surface through cloud cover and during the long polar night.

The Center encourages the involvement of undergraduate and graduate students in its research programs and also sponsors a weekly noon-time seminar which is open to the public. I think this is a great interest to us.

The Committee is recommending the following resolutions:
CHANGE FROM ACADEMIC FACULTIES TO DEPARTMENTS --
COLLEGE OF BUSINESS

Resolution No. 92-42

Synopsis: The Academic Affairs Committee recommended the approval of changing the academic faculties in the College of Business to departments.

WHEREAS the College of Business has used "Academic Faculties" to describe most of the academic units of the College since the University reorganization of 1968; and

WHEREAS the academic faculties of the College of Business are departments in the traditional sense; and

WHEREAS a change in nomenclature would be less confusing to the University at large and to external groups regarding the organization of the College; and

WHEREAS the Faculty of the College of Business desires and has approved a proposed change from academic faculties to departments; and

WHEREAS the University Senate on September 28, 1991, approved the renaming of the academic faculties of the College of Business to Department of Accounting and Management Information Systems; Department of Finance; Department of Labor Education and Research Service; Department of Management and Human Resources; Department of Management Sciences; and Department of Marketing, and respectfully requests concurrence by the Board of Trustees:

NOW THEREFORE

BE IT RESOLVED, That the above renaming of Academic Faculties in the College of Business to Departments is hereby approved effective immediately.

Upon motion of Ms. Casto, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

NAMING OF CENTER

Resolution No. 92-43

Synopsis: The Academic Affairs Committee recommended the approval of naming the fifth floor of the University Hospitals Clinic "The William H. Havener Eye Center."

WHEREAS upon the recommendation of the President, with the concurrence of the President's executive committee, it has been proposed that the fifth floor of the University Hospitals Clinic at 456 West 10th Avenue be named "The William H. Havener Eye Center" to reflect that the entire floor is devoted to the Department of Ophthalmology; and

WHEREAS Dr. Havener was the first full-time faculty member in the Department of Ophthalmology at The Ohio State University and served as chairperson of the Department for 27 years; and
November 1, 1991 meeting, Board of Trustees

NAMING OF CENTER (contd)

WHEREAS Dr. Havener was a respected educator, author, and lecturer, devising interactive medical student teaching programs, writing and editing the standard Ophthalmology textbook, and utilizing unconventional, innovative methods to engage the interest of his students; and

WHEREAS he was a skillful surgeon and caring physician, developing a technique for repairing retinal detachments that is still the most widely used and safest method today; and

WHEREAS under his remarkable leadership, the residents of The Ohio State University Department of Ophthalmology were ranked number one in the country by the American Academy of Ophthalmology in 1991:

NOW THEREFORE

BE IT RESOLVED, That in accordance with paragraph (F) of rule 3335-1-08 of the Administrative Code, the aforementioned floor of the University Hospitals Clinic shall hereby be named "The William H. Havener Eye Center."

Upon motion of Ms. Casto, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Mr. Teaford:

I might add that I cannot think of anything more fitting than that. Dr. Havener was clearly one of the giants in ophthalmology and it is quite fitting that we name that after him.

--0--

RENAMEING OF BUILDING

Resolution No. 92-44

Synopsis: The Academic Affairs Committee recommended the approval of renaming Bradford Commons at 153 West Twelfth Avenue.

WHEREAS this Board has authority in naming of all buildings and structures at The Ohio State University, as set forth in paragraph (F) of rule 3335-1-08 of the Administrative Code; and

WHEREAS Bradford Commons was so named May 17, 1963, in memory of Joseph N. Bradford, who joined the faculty in 1885 and in 1911 became the University's first Architect; and

WHEREAS Bradford Commons has changed in nature and no longer houses the dining commons:

NOW THEREFORE

BE IT RESOLVED, That hereafter Bradford Commons at 153 West Twelfth Avenue shall bear the name "Bradford Hall."

Upon motion of Ms. Casto, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--
ESTABLISHMENT OF VETERANS AFFAIRS OFFICE
Resolution No. 92-45

Synopsis: The Academic Affairs Committee recommended the approval to establish a Veterans Affairs Office.

WHEREAS the University Veterans Task Force Committee appointed by the President has recommended the establishment of a Veterans Affairs Office; and

WHEREAS the President, the President's Executive Committee, and others have reviewed the recommendations contained in the report submitted by the Veterans Task Force Committee; and

WHEREAS it is the consensus judgment that an Office of Veterans Affairs be established to facilitate further the development and implementation of programs for veterans, with an emphasis on the concerns of Vietnam-era veterans:

NOW THEREFORE

BE IT RESOLVED, That the Office of Veterans Affairs be hereby established, as a reporting unit in the Office of the Vice President for Human Resources and Relations.

Upon motion of Ms. Casto, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

Mr. Teaford:

I might note that this is in response to the recommendation of the committee that Dr. Gee appointed.

--0--

AMENDMENTS TO THE DENTAL FACULTY PRACTICE PLAN
Resolution No. 92-46

Synopsis: The Academic Affairs Committee recommended the approval of amendments to the Dental Faculty Practice Plan.

WHEREAS a corporation named Dental Faculty Practice Association, Inc. - William R. Wallace, D.D.S., Dean, has been incorporated and states as its purpose:

   The purposes for which the corporation is formed are to render any type of professional service in the practice of dentistry authorized under Chapter 4715 of the Ohio Revised Code as a charitable, educational and scientific activity for the benefit of The Ohio State University ("University") and patients of the Intramural Practice Clinic of the University; including:

   a. Providing dental services at the Intramural Practice Clinic to persons who may come to the Intramural Practice Clinic for diagnosis, treatment, and care;
b. Engaging in dental research and providing benefits and support to the University's College of Dentistry and clinical and classroom instruction to students enrolled in it; and

c. Engaging in those lawful activities for which corporations may be formed under Chapter 1785 of the Ohio Revised Code that are not inconsistent with the foregoing; and

WHEREAS it is in the best interests of the University for the corporation to be organized and functioning and to have representatives of the University participate in connection with the operations of the corporation; and

WHEREAS the resignation of William R. Wallace, D.D.S. as Dean of The Ohio State University College of Dentistry and the appointment of Henry W. Fields, Jr., D.D.S. as his successor, each effective as of September 1, 1991, have necessitated that the name of the corporation be changed in order to remain in compliance with the Ohio statute which requires the name of a dentist to be included in the name of the professional association rendering dental services:

NOW THEREFORE

BE IT RESOLVED, That the formation of the Corporation and the participation of the University in its incorporation and organization are hereby ratified, adopted, confirmed and approved; and

BE IT FURTHER RESOLVED, That the Dean of the College of Dentistry is authorized, designated and directed to serve as the trustee of the trust which holds the sole issued and outstanding share of the corporation for the benefit of the University and to serve in that capacity as official representative of the University, such service to be part of his official responsibility to the University, entitling him to any insurance or indemnity protection to which officers or employees of the University now are or hereafter may become entitled; and

BE IT FURTHER RESOLVED, That each person elected as a director or an officer of the corporation or appointed to the position of Trustee under the Dental Faculty Practice Association, Inc. Trust Agreement who is also an employee, faculty member or other official of the University is authorized, designated and directed to serve in his or her capacity as a director or an officer of the corporation or as Trustee under the Trust Agreement as an official representative of the University and as part of their official responsibility to the University, such service entitling them to any insurance or indemnity protection to which officers or employees of the University now are or hereafter may become entitled; and

BE IT FURTHER RESOLVED, That the actions of the officers and directors of the corporation in incorporating, organizing, and operating the corporation in the interests of the University are hereby ratified, adopted, confirmed, and approved.

Upon motion of Ms. Casto, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

November 1, 1991 meeting, Board of Trustees

DEGREES AND CERTIFICATES - AUTUMN QUARTER COMMENCEMENT
Resolution No. 92-47

Synopsis: The Academic Affairs Committee recommended the approval of Degrees and Certificates for Autumn Quarter.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees the names of persons who have completed degree and certificate requirements; and

WHEREAS the College of Education has recommended that Gary Hatfield be awarded a Bachelor of Science in Education degree posthumously:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on December 13, 1991, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that Gary Hatfield be awarded the above named degree, posthumously, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

Upon motion of Ms. Casto, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

PERSONNEL ACTIONS
Resolution No. 92-48

RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the October 3, 1991 meeting of the Board, including the following Appointments, Appointment of Chairpersons and Directors, Leaves of Absence Without Salary, Leaves of Absence Without Salary--Continuation, Professional Improvement Leave, Professional Improvement Leaves--Cancellation, Professional Improvement Leaves--Change in Dates, Emeritus Titles, and Medical Staff Appointments and Reappointments (The Arthur G. James Cancer Hospital and Research Institute) as detailed in the University Budget be approved, and the Medical Staff Appointments and Reappointments (The Ohio State University Hospitals) approved September 26, 1991, by the Hospitals Board be ratified.

Appointments

Name: JAMES C. GARLAND
Title: Acting Dean/Professor
College/Department: Mathematical and Physical Sciences/Physics
Effective: October 16, 1991
Salary: $122,460.00
Present Position: Professor, Department of Physics
November 1, 1991 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Appointment of Chairpersons and Directors

October 1, 1991 through June 30, 1992

Cooperative Extension Service
Keith L. Smith*

Department of German
Harry Vredeveld*

Department of Veterinary Preventive Medicine
Kent H. Hoblet*

October 1, 1991 through September 30, 1992

Department of Geological Sciences
James W. Collinson*

October 1, 1991 through September 30, 1995

Foreign Language Center
Diane W. Birckbichler

*Acting

Leaves of Absence Without Salary

RIAD A. AJAMI, Professor, Department of Management and Human Resources, effective Autumn Quarter 1991 and Winter Quarter 1992, for personal reasons.

PATRICIA E. BYRNES, Assistant Professor, School of Public Policy and Management, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, for personal reasons.

DAVID LANDSBERGEN, Assistant Professor, School of Public Policy and Management, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, for personal reasons.

ERIC NYGREN, Assistant Professor, Department of Materials Science and Engineering, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, to accept an invitation to visit the Australian National University in Canberra, Australia.

AHMAD SIKAINGA, Assistant Professor, Departments of History and Black Studies, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, to accept a Mellon Fellowship at Harvard University.

Leaves of Absence Without Salary--Continuation

LEONARD O. NASMAN, Assistant Professor, Department of Engineering Graphics, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, to further develop his computer aided drawing software and to promote his new textbook on Datacad.

CRICTON L. OGLE, Assistant Professor, Department of Mathematics, effective Autumn Quarter 1991, to continue his joint research at Penn State University.

CHARLES J. QUINN, Assistant Professor, Department of East Asian Languages and Literatures, effective Autumn Quarter 1991, to continue his work on the pragmatics and grammar of Japanese.

JAMES C. TURNER, Assistant Professor, Department of Mathematics, effective Autumn Quarter 1991, to continue interaction with Hampton University.
Leaves of Absence Without Salary--Continuation (contd)

ALAN W. REID, Instructor, Department of Mathematics, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, to accept a one-year postdoctoral position at MSRI.

Professional Improvement Leave

VALAYAMGHAT RAGHAVAN, Professor, Department of Plant Biology, effective Winter Quarter 1993.

Professional Improvement Leaves--Cancellation

RIAD A. AJAMI, Professor, Department of Management and Human Resources, effective Autumn Quarter 1991 and Winter Quarter 1992.

DIANE W. BIRCKBICHLER, Associate Professor, Department of French and Italian, effective Autumn Quarter 1991 and Winter Quarter 1992.

Professional Improvement Leaves--Change in Dates

MICHAEL D. DAVIS, Professor, School of Music, change leave from Winter Quarter and Spring Quarter 1992, to Winter Quarter and Spring Quarter 1993.

LEO A. PAQUETTE, Professor, Department of Chemistry, change leave from Spring Quarter 1992, to Winter Quarter 1992.

Emeritus Titles

RODGER D. MITCHELL, Department of Zoology, with the title Professor Emeritus, effective October 1, 1991.

BERT K. WAITS, Department of Mathematics, with the title Professor Emeritus, effective September 1, 1991.

EMERSON R. SHIMP, Cooperative Extension Service, with the title Associate Professor Emeritus, effective November 1, 1991.

HOWARD B. WILLIAMS, Department of Veterinary Physiology and Pharmacology, with the title Assistant Professor Emeritus, effective November 1, 1991.

Medical Staff Appointments (The Arthur G. James Cancer Hospital and Research Institute)

PAULSON, GEORGE W., M.D., Associate Attending Staff, Neurology
SMITH, NINA K., M.D., Associate Attending Staff, OB/GYN
CARROLL, BRENDAN T., M.D., Associate Attending Staff, Psychiatry
ARMSTRONG, MILTON B., M.D., Associate Attending Staff, Surgery
November 1, 1991 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Medical Staff Appointments (The Arthur G. James Cancer Hospital and Research Institute) (contd)

BESNER, GAIL ELLEN, M.D., Associate Attending Staff, Surgery
CHOBAN, PATRICIA SMITH, M.D., Associate Attending Staff, Surgery
ROSS, PATRICK, JR, M.D., Ph.D., Associate Attending Staff, Surgery

Medical Staff Reappointments (The Arthur G. James Cancer Hospital and Research Institute)

July 1, 1991 through June 30, 1993

JANICE F. BLAZINA, M.D., Associate, Pathology
JAMES H. CALDWELL, M.D., Associate, Int. Medicine
PATRICIA B. CALDWELL, M.D., Associate, Int. Medicine
MATTHEW E. DANGEL, M.D., Associate, Ophthalmology
MILES DRAKE, M.D., Associate, Neurology
WESLEY J. HARNISH, M.D., Clinical, Ophthalmology
J. PHILIP KUEBLER, M.D., Clinical, Int. Medicine
STEVEN NELSON, M.D., Associate, Int. Medicine
RICK E. RICER, M.D., Associate, Family Medicine
DWIGHT A. SCARBOROUGH, M.D., Clinical, Int. Medicine
STEVEN TEICH, M.D., Associate, Surgery

Medical Staff Appointments (The Ohio State University Hospitals)

ARMSTRONG, MILTON B., Attending Staff, Department of Surgery--Division of Plastic Surgery
BADER, ERIC J.W., Limited Staff, Department of Anesthesiology
BESNER, GAIL E., Attending Staff, Department of Surgery--Division of Pediatric Surgery
BLAKELEY, DEAN D., Attending Staff, Department of Internal Medicine--Division of General Medicine
CHAWLA, HARMEET S., Attending Staff, Department of Ophthalmology
CHOBAN, PATRICIA S., Attending Staff, Department of Surgery--Division of General Surgery
DERICK, ROBERT J., Attending Staff, Department of Ophthalmology
DEMARIA, JESS J., Courtesy Staff, Department of Internal Medicine--Division of Dermatology
HICKS, LEE G., Limited Staff, Department of Internal Medicine--Division of Hematology and Oncology
JESSEN, HUASCAR E., Courtesy Staff, Department of Internal Medicine--Division of Cardiology
KELLER, MARTIN D., Attending Staff, Department of Internal Medicine--Division of General Medicine (Joint Appointment with Preventive Medicine)
MURDEN, ROBERT A., Attending Staff, Department of Internal Medicine--Division of General Medicine
MYERS, DOUGLAS P., Attending Staff, Department of Internal Medicine--Division of General Medicine
PARKER, JOHN J., Limited Staff, Department of Emergency Medicine
POTTER, CAROL J., Attending Staff, Department of Pediatrics
RAMUNDO, MARY BETH, Attending Staff, Department of Internal Medicine--Division of Infectious Diseases
SULLIVAN, JOHN J., Limited Staff, Department of Obstetrics and Gynecology
WALLEN, ELIZABETH A., Courtesy Staff, Department of Pediatrics
WISSEL, MARY E., Courtesy Staff, Department of Pathology
WORKMAN, MARK A., Limited Staff, Department of Anesthesiology
PERSONNEL ACTIONS (contd)

Medical Staff Reappointments (The Ohio State University Hospitals)

ADRION, WILLIAM R., Courtesy Staff, Department of Family Medicine
AZIZ, HAROON A., Courtesy Staff, Department of Surgery--Division of Plastic Surgery
BALCH, DANIEL R., Limited Staff, Department of Anesthesiology
BANSAL, GIRRAJ K., Courtesy Staff, Department of Internal Medicine--Division of General Medicine
BARNES, JAMES E., Attending Staff, Department of Surgery--Division of Neurosurgery
BAYNE, BONNIE J., Limited Staff, Department of Family Medicine
BESSION, MICHAEL J., Courtesy Staff, Department of Ophthalmology
BROOKS, GREGORY I., Courtesy Staff, Department of Pediatrics
CALDWELL, JAMES H., Attending Staff, Department of Internal Medicine--Division of Gastroenterology
CARROLL, C. PATRICK, Courtesy Staff, Department of Ophthalmology
COULTER, JAMES M., Courtesy Staff, Department of Family Medicine
CROMER, BARBARA A., Attending Staff, Department of Pediatrics
CUNNINGHAM, ISABEL, Attending Staff, Department of Internal Medicine--Division of Bone Marrow Transplantation
CURREN, CAMILLA, Limited Staff, Department of Internal Medicine--Division of General Medicine (Joint Appointment with Pediatrics)
DELAVERIS, STEVEN L., Courtesy Staff, Department of Internal Medicine--Division of General Medicine
DEL ROSARIO, ANTONIO J., Courtesy Staff, Department of Pediatrics
DENLINGER, DAVID E., Courtesy Staff, Department of Ophthalmology
DERNBACH, FRANCES D., Limited Staff, Department of Internal Medicine--Division of General Medicine (Joint Appointment with Pediatrics)
DICARLO, SALVATORE, Courtesy Staff, Department of Pediatrics

RESOLUTIONS IN MEMORIAM

Resolution No. 92-49

Synopsis: The Academic Affairs Committee recommended the approval of the following Resolutions in Memoriam.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Harold E. Burtt

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 15, 1991, of Harold E. Burtt, Professor Emeritus in the Department of Psychology.

Professor Burtt was born April 26, 1890, in Haverhill, Massachusetts. He completed his A.B. at Dartmouth in 1911, and then attended Harvard University, receiving his A.M. in 1913 and his Ph.D. in 1915. He taught as an instructor at Simmons College and Harvard between 1915 and 1917, then served in the U.S. Army Air Service in 1918, and consulted with the Canadian Consolidated Rubber Co. in 1919. Arriving at Ohio State in 1919, he served the Psychology Department as Instructor from 1919-1921, Assistant Professor from 1921-1923, and as Professor from 1923-1960. He was Chair of the Psychology Department from 1938-1960, when he retired, and received the University Distinguished Service Award in August 1963. He was a Founding Member of the American Association of Applied Psychology and President of its Industrial Division in 1938, a Fellow of the American Psychological Association, and a Member of the American Association for the Advancement of Science.

Professor Burtt's research interest ranged widely over basic and applied psychology. His publications included his dissertation, completed under the direction of Professors Herbert S. Langfeld and Hugo Munsterberg, examining factors influencing the arousal of the primary visual memory image, and numerous subsequent articles investigating advertising psychology, detection of deception, measurement of intelligence, and personnel psychology. One of his most interesting investigations examined the effects of early exposure to Sophocles on subsequent memory, and involved the use of his infant son, Ben Burtt, Sr., as a subject. In addition, Harold Burtt published nine books during his 40-plus year career at Ohio State, on such topics as personnel, legal, and advertising psychology; two of these books went to second editions and were widely cited.
November 1, 1991 meeting, Board of Trustees

RESOLUTIONS IN MEMORIAM (contd)

Harold E. Burtt (contd)

Another accomplishment was the advising of students, including 28 M.A. and 30 Ph.D. students. Many of these students went on to hold leadership positions in academics and the profession, including four Presidents of Division 14 of the American Psychological Association. His first Ph.D. student was L.A. Thompson (1927) and his last was W.E. Jaynes (1955). One of his Ph.D. students, Frank Stanton (1935), thought so much of Burtt's influence that he endowed a Chair in Burtt's name for $1.25 million. That sum will be used to attract a prominent scholar to the department and thus improve training in the foundations of industrial-organizational psychology.

On behalf of the University community, the Board of Trustees expresses to the family its deepest sympathy. It was directed that this resolution be inscribed upon the minutes of the Board and that a copy be tendered to the family as an expression of the Board's realization of the loss that the family, the University, and his many friends, students, and associates have sustained.

Mabel G. Westervelt

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 21, 1991, of Mabel G. Westervelt, Instructor Emeritus in the Cooperative Extension Service.

Miss Westervelt was born on September 29, 1902, in Linden, Ohio. She received her B.S. in Home Economics from The Ohio State University in 1929; then spent several years working in an institutional management position and rural rehabilitation and resettlement position.

Miss Westervelt began her Extension experience when she joined the faculty at The Ohio State University in 1936 as a Home Demonstration agent, Home Economics in Fairfield County. She remained in this position until her retirement in 1965. Upon retirement, she was named Instructor Emeritus.

Miss Westervelt's contributions in providing excellent Extension educational programs during her career earned her the respect and admiration of her co-workers and many thousands of Ohio citizens.

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to the family of Miss Westervelt. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

--0--

STUDENT AFFAIRS COMMITTEE REPORT

Mr. Tonnies:

This morning Vice President Spillman gave an overview of the structure and function of the Office of Student Affairs. During the last academic year a committee, chaired by Professor David Frantz, reviewed the role and structure of the Office. This committee recommended that the vice provost for student affairs become a vice president. In addition, they recommended that the Office of Admissions, Student Financial Aid, and the University Registrar be transferred to the Office of Academic Affairs. Currently, the Office of Student Affairs is reviewing ways in which it supports the academic mission of the institution. They are focusing their efforts on how we can
Mr. Tonnies:

more effectively retain students, how we can develop a sense of community within the university, and how we can enhance the personal safety of our students.

We also had a discussion this morning which was led by Sean Tipton, President of the Council of Graduate Students, on changing the selection process for the student nominees to The Ohio State University Board of Trustees. A preliminary outline was included in each of the Board agenda packets last week and I am sure we all looked over that. After an intensive discussion, Mr. Tipton and the other presidents of the student governments agreed to come back before the Board, again, in December with an official document that we can all discuss. Mr. Teaford, as you mentioned earlier, the Board will support any change that the three governments bring before us if they are in total agreement.

Finally, a resolution for a name change was indefinitely tabled by the Committee and the Interprofessional Council will resubmit the resolution when they feel that is appropriate.

Mr. Chairman, if there are no questions this concludes my report.

Mr. Teaford:

Thank you, Mr. Tonnies. I might note that the new President of the Interprofessional Council is Sophia Page.

--0--

INVESTMENTS COMMITTEE REPORT

Amb. Wolf:

The Investments Committee heard the monthly Endowment Summary Report for the period September 20, 1991 through October 18, 1991. The market value of the Equity portion of the Endowment Fund increased approximately $1 million during this period. However, the Fixed Income portion of the Endowment Fund decreased approximately $1.1 million during the same period.

Some other meaningful figures that should be called to your attention is as follows: the October 18, 1991 market value of the Endowment Fund was approximately $800,000 above the September 20, market value. That value includes $2.4 million in principal additions that have occurred since September 21. I am pleased to note Mr. Chairman that as of October 18, 1991, the market value of the total Endowment Fund was $369.9 million, which is an all-time high.

As far as the distribution of our investments on October 18, 1991, we had 57 percent invested in equities, 26 percent invested in fixed income, 10 percent invested in real estate, and 7 percent invested in cash. All of the equity advisors and fixed income advisors have higher market values now than they did 12 months ago.
INVESTMENTS COMMITTEE REPORT (contd)

Amb. Wolf: (contd)

We also reviewed the quarterly graphs pertinent to our Endowment Fund performance and it was indicated that the Endowment Fund earned a 6.6 percent return for fiscal year 1991. It was also reported that we earned a three-year return averaging 10.7 percent, a five-year return averaging 9.1 percent, and a ten-year return averaging 14 percent.

That concludes my report, Mr. Chairman.

(See Appendix XXXII for complete context of The Ohio State University Endowment Summary, October 18, 1991, page 571.)

(See Appendix XXXIII for complete context of The Ohio State University Endowment Fund Quarterly Reports, September 20, 1991, page 585.)

--0--

FISCAL AFFAIRS COMMITTEE REPORT

Mr. Shumate:

The Fiscal Affairs Committee met this morning and reviewed the First Quarter Budget Report. The only change to the Budget passed at the July 12, 1991 meeting is a reduction in the state support of $4 million.

The Committee also heard an update on the status of the preliminary plans for the new College of Business building, by Mr. Nichols, Mr. Shkurti, and representatives of the College of Business. The preliminary recommendation for a site is in the area bounded by Woodruff Avenue, Lane Avenue, Tuttle Park Place and the North Residence Hall complex. Estimated total project costs are between $85 and $95 million and the estimated cost for the building and equipment is between $60 and $70 million, with $42 million to be provided by the state and $20 million from fund-raising. The remaining costs are for parking, street realignment and other related projects. There are a series of implementation issues related to this project and close coordination between all areas affected will be required if the desired fiscal year 1998 occupancy is to be achieved.

(See Appendix XXXIV for complete charts on The Ohio State University 1991-92 Current Funds Budget 1st Quarter Report, page 593.)

In addition, the Committee has reviewed and recommends approval of the following resolutions:

WAIVERS OF COMPETITIVE BIDDING REQUIREMENTS
July - September 1991
Resolution No. 92-50

Synopsis: The Fiscal Affairs Committee recommended the acceptance of the quarterly report on waivers of competitive bidding requirements.
WAIVERS OF COMPETITIVE BIDDING REQUIREMENTS
July - September 1991 (contd)

WHEREAS the Purchasing Policy of The Ohio State University, adopted by the Board of Trustees on September 7, 1984, provides that the President and/or Vice President for Business and Administration may grant a waiver from competitive bidding in the event of an emergency, when a sufficient economic reason exists, or when the goods or services can be purchased from only a single source, with a report on such waivers to be made quarterly to this Board; and

WHEREAS the Acting Vice President for Business and Administration has submitted a report on waivers of competitive bidding requirements granted for the period of July-September 1991:

NOW THEREFORE

BE IT RESOLVED, That the report on waivers of competitive bidding requirements for the period July-September 1991, is hereby accepted.

Upon motion of Mr. Shumate, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXXV for chart on Waivers of Competitive Bidding Requirements - July - September 1991, page 597.)

--0--

INCORPORATION OF
"THE OHIO STATE UNIVERSITY
MANAGED HEALTH CARE SYSTEMS, INC."

Resolution No. 92-51

Synopsis: The Fiscal Affairs Committee recommended the approval of Articles of Incorporation and the Code of Regulations for The Ohio State University Managed Health Care Systems, Inc., and authorization of immunity, insurance, representation, and indemnification for University Trustees, officers, and employees who serve as directors, officers, employees, or agents of the Corporation.

WHEREAS the Board of Trustees on May 3, 1991, approved and authorized the establishment of a nonprofit corporation to market, promote, and provide the University's health plans and any expanded managed health care services and programs to employers and groups within Ohio and to conduct and support other related programs that augment and enhance the undertakings of The Ohio State University's health plans, health care facilities, the College of Medicine, and other health-related services in advancing the University's educational, research, patient care, health care and public service responsibilities; and

WHEREAS the University has submitted the Articles of Incorporation and Code of Regulations for The Ohio State University Managed Health Care Systems, Inc., for approval by the Board; and

WHEREAS the Board desires that University Trustees, officers, and employees serve in their official capacities as directors, officers, employees, and agents of the Corporation:

NOW THEREFORE

BE IT RESOLVED, That the proposed Articles of Incorporation and Code of Regulations for The Ohio State University Managed Health Care Systems, Inc., are hereby approved, provided that additional technical changes may be made in these documents prior to filing upon the advice of counsel; and
BE IT FURTHER RESOLVED, That the University administration is authorized and directed to file these incorporation documents and perform such functions and execute such documents as may be necessary or desirable to establish and incorporate this Corporation; and

BE IT FURTHER RESOLVED, That as appropriate and as directed, Trustees, officers, and employees of The Ohio State University are hereby authorized, designated, and directed to serve as directors, officers, employees, and agents of the Corporation, representing the University in such capacities as part of their official duties and responsibilities to the University and entitling them to any immunity, insurance, indemnity, and representation to which Trustees, officers, and employees of the University now are, or hereafter may become, entitled.

Upon motion of Mr. Shumate, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXXVI for background and Articles of Incorporation, page 599.)

--0--

EASEMENT RENEWAL
COLUMBIA GAS OF OHIO, INC.

Resolution No. 92-52

Synopsis: Authorization to renew an easement for gas pipeline service to Columbia Gas of Ohio is proposed.

WHEREAS in 1976 The Ohio State University granted to Columbia Gas of Ohio, Inc., a 15-year easement consisting of a strip of land approximately 15 feet in width and approximately 470 feet in length for installation of a 3" high-pressured gas main that runs to the meter house east of Dodd Hall; and

WHEREAS this easement expired on March 12, 1991, and Columbia Gas of Ohio, Inc., has requested a renewal for a 15-year period; and

WHEREAS the gas service will serve University property; and

WHEREAS the appropriate University offices have recommended the approval of this easement:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request the Deputy Director of Public Works of the Department of Administrative Services, pursuant to his statutory duties, to act for and on behalf of the University in developing the necessary legal instruments to provide for this easement.

Upon motion of Mr. Shumate, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXXVII for map, page 627.)

--0--
NON-MANDATORY TRANSFERS FROM CURRENT FUNDS
FISCAL YEAR 1990-1991

Resolution No. 92-53

Synopsis: Transfers to Endowment Principal Funds, Annuity and Life Income Funds, Loan Funds, Unexpended Plant Funds, Renewal and Replacement Funds - Remodeling and Renovation, Renewal and Replacement Funds - Repair and Replacement, Retirement of Indebtedness Funds and Investment in Plant Funds be submitted for approval.

WHEREAS non-mandatory transfers from current funds for the fiscal year 1990-1991 have been made; and

WHEREAS this accounting procedure is in compliance with the auditor of State that all transfers among fund groups be reported:

NOW THEREFORE

BE IT RESOLVED, That the transfers as detailed in the accompanying report be accepted and approved.

Upon motion of Mr. Shumate, seconded by Mr. Colley, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXXVIII for background material on Non-Mandatory Transfers from Current Funds Fiscal Year 1990-1991, page 629.)

--0--

Thereupon the Board adjourned to meet Friday, December 6, 1991, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio.

Attest:

Madison H. Scott  Hamilton J. Teaford
Secretary  Chairman
THE OHIO STATE UNIVERSITY

OFFICIAL PROCEEDINGS OF THE

ONE THOUSAND TWO HUNDRED AND SEVENTY-EIGHTH MEETING

OF THE BOARD OF TRUSTEES

Columbus, Ohio, December 6, 1991

The Board of Trustees met at its regular monthly meeting on Friday, December 6, 1991, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio, pursuant to adjournment.

**                      **                      **

Minutes of the last meeting were approved.

**                      **                      **
December 6, 1991 meeting, Board of Trustees

The Chairman, Mr. Teaford, called the meeting of the Board of Trustees to order on December 6, 1991, at 11:30 a.m. He requested the Secretary to call the roll.

--0--

Mr. Teaford:

Before we begin, I would like to note with deep sadness, both official and personal, the death this morning of one of our former colleagues, Leonard Immke. I would be remiss if I did not pay tribute to one of Ohio State's great citizens who has passed away. Mr. Immke's life was dedicated to public service, the University, and the Columbus community. As a former Trustee and Director of the University Development Fund, many benefitted from his capable and caring leadership. Len will be greatly missed by his many friends and colleagues, and fondly remembered for his dedication to The Ohio State University.

--0--

PRESIDENT'S REPORT

President Gee:

I, too, concur in the deep personal, as well as University, loss of Len Immke. In my short period of time here, he had been a remarkable force of stability and courage, and we appreciate that.

I might note to the members of the Board and those in the audience that it has been a quiet and boring month in the President's Office -- no mail, no telephone calls! Well that might be a slight exaggeration; I have fielded a few calls from local sports reporters. And there have been some letters -- though fewer than some would believe. Let me share two letters that capture the spirit of our "mailbag poll" on Ohio State Football. This first one says, "I now commend you for your courage and wisdom in your decision to recommend extending Coach Cooper's contract, it was the only sensible thing to do. Don't be bothered by the noise from the so-called fans who would be satisfied with Saddam Hussein as coach as long as he won every game." Now on the other hand let me read this one, this one is addressed on beautiful stationary it says, "Mr. Gordon Gee, President of The Ohio State University, 205 Bricker Hall, 190 North Oval Mall, Columbus, Ohio 43210, Re: John Cooper, Dear President Gee, You idiot!", and it was signed, "very truly yours." Such is the life of your University President!

We do have an exceptional intercollegiate sports program. Our women's volleyball team just captured the Big Ten Championship with an undefeated season and captured the first round of the NCAA volleyball program by beating the University of Pittsburgh last evening. There is an interesting fact about our program in this week's rankings in USA Today; Ohio State is one of only six universities who are in the top 25 in both football and men's basketball. Three of the six are Big Ten Schools, a tribute to our conference. If you add women's basketball to that list only two schools are among the top 25 in the country in all three sports -- Iowa and Ohio State. We have a lot to be proud of.
December 6, 1991 meeting, Board of Trustees

PRESIDENT’S REPORT (contd)

President Gee: (contd)

We also received the news that The Ohio State University Hospitals rank fifth in the country in the number of kidney transplants performed. If you add the number we perform at Columbus' Children's Hospital, we are the second largest kidney transplant unit in the nation.

University Hospitals is only the third hospital in the United States and the fourth hospital in the world to perform an innovative treatment for Duchenne muscular dystrophy. Dr. Jerry Mendell and his team are transplanting normal muscle cells into patients with this very serious disease, hopefully reversing the degeneration of muscle fibers in children.

We were informed this month that Dr. Richard Hill, Dean of the College of Optometry, has received the Josef Dallos Award, the highest honor given by the Contact Lens Manufacturers Association. He was recognized for his important and innovative contributions in the development of gas permeable and hydrophilic contact lenses. I believe it is important to note that Dean Hill is not only a very able administrative leader for the College of Optometry and among the Deans, but also a recognized scholar in his field. Furthermore, he is the immediate past president of the international association in contact lens development, and he is teaching a class for first-year optometry students this quarter. He is an outstanding member of our faculty, and represents the quality toward which we all are striving.

To continue our pursuit of outstanding students, the University Honors Center hosted a National Merit/National Achievement Day for students who have achieved the designation as semi-finalists for these awards. More students than ever attended this year's recruitment program, which bodes well for next year's class.

The Logan Elm Press hosted a conference of specialty presses and presented a juried exhibit of hand-made books in November. The Logan Elm Press is an important part of the University, showcasing creativity and giving life to an important art form -- books. The press is undertaking a development campaign to complete the renovation of its new facilities, and to further develop and promote its teaching and educational programs. I continue to be impressed by the remarkable volumes that this special and unique press prepares with such skill.

University Press brings us some very good news this month. Richard D. Altick, Professor Emeritus in the Department of English, has received the 1991 Christian Gauss Award from Phi Beta Kappa for the most outstanding book in literary criticism. This, ladies and gentlemen, is the highest honor given in this field of academic presses, and was awarded to Professor Altick for his book, The Presence of the Present, which was published by The Ohio State University Press. This is a singular honor for Dr. Altick, for a very distinguished Department of English, for our University Press, and for all of Ohio State.

Finally, I would like to note that the Chair of the Wexner Foundation, Mr. Wexner, and I serve as Vice Chair, and we had a remarkable program in support of the celebration of the Wexner Center and our Foundation Board. And thanks to the generosity of a number of people and thanks to the leadership of Mr. Wexner, we were able to raise $1 million in one evening, a most significant activity. To you, Les, and to all of our colleagues who are supporting this very fine effort, I say, thank you.
PRESIDENT'S REPORT (contd)

President Gee: (contd)

Mr. Chairman, with that good news, I pass the baton to you.

--0--

HOSPITALS BOARD REPORT

Mr. Teaford:

We will now have a report from Ms. Susan Insley who is the Chairperson of The Ohio State University Hospitals Board.

Ms. Susan Insley:

Good morning to all of you and on behalf of the members of the University Hospitals Board, I am pleased to provide this report to you. We thought we would use some slides to share visually, as well as verbally, some of the activities, programs, and initiatives of the University Hospitals, one of the great assets of this fine institution.

About four years ago the College of Medicine adopted a strategic plan approved by this Board to become a top ten medical college. The University Hospitals Board, in support of the College of Medicine, adopted a strategic plan with the concurrent goal of becoming a top ten academic medical center. This morning, I want to share our progress toward that goal and some ways of measuring that progress. We are engaged in a three-part mission at University Hospitals and the College of Medicine, of patient care, education, and research.

Focusing briefly on patient care, how and by whom is the quality of care that we deliver to our patients judged. One way is from independent outside organizations. University Hospitals this past year received a special commendation from the Joint Commission on Accreditation of Health Care Organizations, ranking in the top ten percent of America's hospitals. The J. Leonard Camera Center received a three-year national accreditation after only the second year of management by The Ohio State University Hospitals. University Hospitals was selected as one of just four hospitals in America to participate in a medicare pilot project for patients needing coronary bypass surgery, recognizing both our commitment to high quality and efforts to control health care costs.

Recognition of the quality of our care has come from other health care providers as well; an example is psychiatry. Upham Hall received the Psychiatric Hospital of the Year Award from the Alliance of the Mentally Ill of Ohio. Rehabilitation -- Dodd Hall, our nationally recognized rehabilitation center, by any measure out-performs all other rehabilitation programs in the country.

The Hospitals’ programs have received recognition from industry peers. Our Sky-Med Helicopter Transport Program is one of only three U.S. hospital air transport services, completing more than 1,000 flights annually with just one helicopter. For the second consecutive year Sky-Med has received safety recognition from the Association of Air Medical Services. We will treat you well when we get you to the Hospital and we get you there safely.
Ms. Insley: (contd)

The National Heart, Lung, and Blood Institute announced that our Pulmonary Function Laboratory exceeded the performance of the other 36 accredited labs nationwide. We are the best in quality and accuracy of pulmonary function testing.

Our local community here in the Central Ohio area, also recognizes our Hospitals for enhancing the quality of life in our community. This year, in a very tough economic year, the Hospitals achieved pacesetter standing in Central Ohio by achieving 105 percent of our United Way goal, which was 15 percent higher than last year's total.

The Ohio School Volunteer Program awarded the Hospitals its Outstanding School Volunteer Partner Award for the work in three Columbus Public Schools in the Adopt a School Program. The Private Industry Council of Franklin County presented the Hospitals with its award for youth employment.

And, perhaps most importantly, how do our patients judge the care that they receive at University Hospitals. The number of patients indicating they would recommend our Hospitals reached an all time high in September of this year, 98.5 percent. Note that this graphical scale of patient satisfaction begins at a standard of 90 percent out of 100. We are moving up the standards that we set for ourselves, and our patients expect us to meet these high standards.

We must also be able to deliver patient care effectively and efficiently. Critical to this effort is nursing. The Division of Nursing has carried out a number of initiatives established by a nursing task group including: the successful recruiting of more than 250 nurses last year, the reduction of turnover, and the development of enhanced career opportunities in nursing, all of which lead to high quality patient care.

We have also enhanced our outreach activities. This map shows you several things: the areas that are identified in red with number 1 show the seven Med-Ohio facilities operated in Central Ohio by the Hospitals, providing urgent care and family medicine services. These facilities experienced a 14 percent growth in the past year. Number 2 is the Stoneridge Center which provides care focusing on Internal Medicine, Obstetrics and Gynecology. Number 3, the Beechwold Center, offers comprehensive Family Medicine services. And number 4 is the Franklin Center, located in Chillicothe, which focuses on Internal Medicine and is an excellent referral source for our University Hospitals.

University Hospitals this year has begun an affiliation initiative with outlying area hospitals including Mary Rutan, in my hometown of Bellefontaine, and the Wyandot Hospital in Upper Sandusky. Additional affiliations are expected during the coming months. This hospital consortium will expand our continuing medical education efforts, enhance collaboration and communication between our medical faculty and referring physicians in these areas, and strengthen our patient referral base.

This familiar logo, The Ohio State University Alumni Association logo, we share with you this morning to advise you that we are launching a new program in January, the Alumni Intensive Caring Connection. This new program will provide selected services at preferred rates to members of the OSU Alumni Association. In addition, alumni will receive health education opportunities through such means as newsletters and health care forums. In Central Ohio alone, University Hospitals will be able to reach more than 35,000 of our alumni.
Ms. Insley: (contd)

Delivery of care is also achieved through our clinical programs and we will show you three this morning. University Hospitals has the world's largest combined kidney/pancreas transplant program, and as Dr. Gee said, the nation's fifth largest kidney transplant program. To put it in perspective, a transplant operation is performed once every 36 hours at University Hospitals. The Hospital is making the complex, the complicated, the difficult, seem almost routine.

Cardiology is another one of our key programs. This slide shows a heart catheterization procedure, which today is routine. The Hospitals was among the very first in Ohio to undertake heart catheterization and is a clear leader in providing cardiology medical services. The Hospitals is also a leader in women's and infants' care, treating many high risk pregnant women, including those who are diabetic. Ohio State also specializes in in-vitro fertilization, and has the only accredited neo-natal intensive care unit in a full-service hospital in Central Ohio.

Let me also touch briefly on our other missions of research and education. As Dr. Gee noted, a team at the Hospitals was the first in the country to transplant normal muscle cells into a young patient with muscular dystrophy, hopefully slowing the progression of that terrible disease. Our neurosciences program generated over $4 million last year in grants for research. The Hospitals is coordinating with the ECCO Family Center in downtown Columbus, to provide pre-term birth care programs to mothers at risk. We also have a program to provide a health screening clinic at the Second Baptist Church on Columbus's east side.

In January, Ohio State, Columbus State, the Private Industry Council, and the State of Ohio will initiate Mothers on the Move. This is a program to provide an opportunity for welfare mothers to leave the welfare system by enrolling at Columbus State's two-year degree programs in nursing, medical records technology, or respiratory therapy. And Ohio State University Hospitals will provide participants with field experiences during their schooling and job opportunities upon graduation.

The activities, programs, and initiatives described to you are all part of our implementation of the strategic plan. Reminding you, again, of the goal to become one of the top ten academic medical centers in this decade. We continue to measure ourselves against the goals and objectives set. For example, four key centers of emphasis have been identified in our strategic plan and we are carrying forward initiatives in those areas. The white circles show you where we were about a year ago, and the colored circles show progress in improving and enhancing programs in neuroscience, cardiology, transplant, and women's and infants' care. All show improvement. To enhance and strengthen these programs, your Hospitals Board has approved a commitment of $30 million additional dollars. Thanks to the very prudent fiscal management of the Hospitals and support of this Board to do several things, we are going to expand and renovate our productive and active neonatal intensive care unit. We are modernizing Dodd Hall to enhance our rehabilitation programs. We will construct a new surgical intensive care unit, and we will construct an expanded and new psychiatric hospital to further our efforts in neurosciences and related areas.
Ms. Insley: (contd)

Patient care, education, and research, all are being carried on under the leadership of this Board of Trustees, your Hospitals Board, and your Medical Center leadership, pursuant to our strategic plans and in a responsible manner. Thank you, very much.

Mr. Chairman, I would like to ask Dr. Hagop Mekhjian, Associate Dean of the College of Medicine and Medical Director of University Hospitals, and Ms. Gail Marsh, Director of Quality and Resource Management, to provide a further brief presentation with regard to the quality of care.

Ms. Gail Marsh:

We quite often hear about quality control programs in industry, but we are not so familiar with what happens in quality management programs in hospitals. I would like for you to take a moment and think back to a time when you may have been a patient in the hospital. What I would like to do is provide a behind the scenes look at what a hospital should be doing to ensure the highest quality care in that environment for you or for any other patients that they may serve.

The Quality and Resource Management Program at OSU Hospitals and, for the last year, the James Cancer Hospital is designed to facilitate high quality patient care at a reasonable cost. How do we minimize cost without compromising quality? At Ohio State we build quality into the processes of patient care. Quality assurance and cost containment are not things that we do in addition to providing patient care, they are the way that we provide patient care at OSU. We are determining prospectively what quality means, we set standards for care before a patient ever comes into our Hospitals. When a patient comes in with chest pain, we already know what the protocol for taking care of a patient like that is and we set standards for quality for those patients.

Our quality program has six major components: the first five we’re examining ourselves, this last one we are asking our customers, "What do you think of us?" And then we use the results of those surveys to improve our services.

I would like to digress for a minute, this slide shows a study conducted by the National Research Corporation last year on health care consumers. They asked consumers, "What hospital characteristics mean quality for you?” First and foremost was technology -- what hospitals have the latest technology and the best doctors. The second characteristic was the patient as a human being. Are hospitals treating people with personal attention? Is the Hospital a preferred provider for heart care? Is it a teaching hospital? And is it the largest hospital in its market or one of the largest?” As you can see we meet quite a few of these criteria, we really couldn't have designed a better study ourselves.

We review all of our patients. Before patients come into our Hospitals or are scheduled for surgery, we look at their treatment plan and decide, "Is in-hospital care really the best place for that patient?” For example, these days a normal cataract extraction is very safe and cost effective to do in an out-patient environment, so we don't bring a patient with that diagnosis into our Hospitals. We find the best quality, most reasonable price for that patient in an out-patient setting. Throughout the admission process we are looking at those components that I've just described to you.
HOSPITALS BOARD REPORT (contd)

Ms. Marsh: (contd)

At the time of discharge we are asking: "Is the patient ready to go home? Are we sending them out to an appropriate environment? Is the nursing home we are sending that patient to capable of continuing their care? Have we taught our patients how to use equipment and how to administer medications?"

To help us monitor these program components we have set up 300 indicators of quality that are used throughout the Cancer Hospital and University Hospitals. Just as a grade point average is an indicator of the quality of a student, these data elements are indicators to us of the quality of our care. We selected 20 of these 300 as our "vital signs" of quality. And just as we review our financial indicators every month, both University Hospitals and the Cancer Hospitals review their quality indicators every month to see what kind of services we are providing and where we can improve our services.

This slide shows an example of one of our quality indicators. We ask our patients, "What do you think of our physicians? Do they treat you with respect? Are they professional?" And you can see on a scale from 1 to 5 (and this graph starts with a 4, with 5 being the best) that our patients are consistently ranking our doctors 4.8 and 4.9. When our trend line falls below this threshold, that triggers an evaluation. We do an investigation, "Why did it drop?" We hope to find some common cause for that, initiate action to reduce or eliminate that cause, and thereby increase satisfaction again. So this threshold which is one and a half standard deviations from the mean, is strictly a trigger point for us and not to be confused with the standard of care.

A second example is the percentage of patients that meet pre-established discharge criteria in the Cancer Hospital. An example of a discharge criterion might be absence of fever when they leave the hospital. So if we discharge someone with a slightly elevated temperature, we will review that case to make sure that we are still maintaining our standard of care. We are very proud to report that 98-99 percent of the time these patients are meeting our criteria.

We feel that quality is everyone’s responsibility in the Hospitals. We’ve set up a formal evaluation and reporting structure for quality of care. The emphasis of quality assurance is really in the departments. This is where peers are reviewing the care delivered by peers, and the results of this care is reported to this committee chaired by Dr. William Bay. This committee is charged with ensuring consistency of the care in all of our Hospitals. What this committee does then is report the information up to its respective Board (the Hospitals Board or the Cancer Hospital Oversight Committee) and these Boards are accountable for the quality of care in our Hospitals.

So what do we get out of all of this? What is the outcome? We are continuously updating our patient care policies and our standards and we pride ourselves on being standard setters, not standard achievers. We are appropriately privileging our medical staff based on their performance: "How well did they do last year? What should they be allowed to do in our Hospitals?" We are educating medical students or doctors of the future on how to practice good cost effective medicine, we are containing costs, and most importantly we are constantly identifying opportunities for improved patient care.
December 6, 1991 meeting, Board of Trustees

HOSPITALS BOARD REPORT (contd)

Ms. Marsh: (contd)

Now I have described to you our internal mechanism, a very brief overview of how internally we look at ourselves. It is important to note that our constituents are also very interested in the quality of our care and the cost of our care. We have over 100 calls each day from insurance companies insuring the patients in our hospital, asking what the treatment plan is for these patients, and when they go home. Medicare and Medicaid send people into our Hospitals after patients are discharged to review the medical records, to look at how well we are using resources, and what the quality of care is. Our local businesses, those paying for our care, are very interested in the value that we provide them for their dollar. As you heard Ms. Insley state, we are very proud that with the surveys we had last year for the Cancer Hospital and University Hospitals, that we received a full three-year accreditation. And University Hospitals is one of three university hospitals in the country that we are aware of to receive a letter of commendation from the Joint Commission on Accreditation of Healthcare Organizations.

Dr. Hagop Mekhjian:

Mr. Chairman, I would like to recognize one other individual before I begin. Dr. William Bay, Professor of Medicine, has chaired our Quality Assurance Committee for the last several years. He has been part of this team monitoring the quality of our programs at both Hospitals.

It is virtually impossible to give you the outcome of all of the monitors that Ms. Marsh described, so I have decided to give you a flavor of some examples of what we do in monitoring assessment and assuring that we have good quality of care as it relates to the medical staff. A second example will give you some measures that outside agencies and national bodies have used to measure us and compare us with other institutions.

One example, obviously, is the quality of our medical staff -- we call this performance. It is without saying that we, unlike other institutions, already have a tremendous advantage because our medical staff are all faculty members of Ohio State University. We do not take this responsibility lightly, because in the process of appointing them to the faculty they have already undergone a great level of scrutiny. But, nevertheless, their performance is based on their patient care activities.

Some of the things that we looked at were patient mortality of a physician specific to patient population, their infection rates, how careful they were in the medical record documentation, complications, the indicators that were mentioned, and resource utilization. If this physician is ordering every test known to man, then he or she is not doing a good job in cost effective utilization of resources.

This slide illustrates one such indicator -- these are complications arising out of procedures. Through the cooperative consultative process of all of our faculty medical staff, we have established a threshold. This is the accepted threshold subject to change, because we are constantly trying to improve this threshold. This slide shows the mean for this peer group, all of these physicians practice the same type of activity, and this person triggers the threshold. I would like to caution you that this does not necessarily mean that he is practicing bad medicine, but it will receive further scrutiny and inquiry. There may be a very legitimate explanation for this, but nevertheless this will be considered at the time of the individual's evaluation for reappointment. I look at this as being similar to the tenure process, for those of us who are involved in the scrutiny of faculty in the tenure process.
HOSPITALS BOARD REPORT (contd)

Dr. Mekhjian: (contd)

How about some of the external monitors such as the Medicare mortality rate. For the last three years HCFA, which is the responsible agency for monitoring all aspects of care rendered to Medicare patients, has been looking nationally and for the same type of diseases for comparable populations and basically giving us a guidance, "what is the predicted mortality for a given type of population of patients?" This orange or yellow line is what HCFA predicted we would do. We actually fared a lot better, we excelled. We've accomplished better expectations than what HCFA said we would do.

Who are we comparing ourselves to? To be crass about it, Columbus hospitals are what we are compared with in Columbus and Central Ohio, these are most of the institutions people are comparing us with, but these are not our true peers. Our true peers are the Big Ten hospitals, university hospitals like us. How do we do when compared to both groups? We do a lot better than local hospitals by HCFA comparisons, but we also do better when we compare ourselves to the Big Ten institutions. So by this standard we look good.

What about some other selected quality indicators. This slide shows the unplanned readmission rate -- how many patients return to the Hospitals once their inpatient care has been completed. This slide shows The Ohio State University Hospitals compared to other large hospitals (hospitals with more than 650 beds) and all hospitals. And we do better than both groups. The most significant aspect of this is that we are keeping patients' stay at a short period. You may not be aware of this but it is happening in spite of the fact that we have had roughly 30 percent reduction in the length of hospital stay over the last five years. So we are keeping the patients shorter and in spite of that, patients are not returning to the Hospitals at an increased rate.

This slide shows patients who have unplanned or unexpected return to the intensive care unit after a surgical procedure or some other medical procedure. Again, we compare very favorably, particularly with large hospitals with over 650 beds.

Finally, an area of our emphasis is maternal and child care. A point of great concern to a lot of people is the unnecessary Cesarean section because of the concern of malpractice. We do extremely well here. I would like to emphasize one other point that is not clearly evident on this slide. We are a high risk birth or maternity unit so it would be expected that we would get the most severe patients. In spite of the fact that we are a high risk maternity unit, we compare very favorably in the incidence of our Cesarean sections which is better than most large hospitals in the nation.
December 6, 1991 meeting, Board of Trustees

HOSPITALS BOARD REPORT (contd)

Dr. Mekhjian: (contd)

Finally, this slide shows the neonatal mortality rate. During this period of time it is zero, but it probably will be a little bit higher, I hope not. Nevertheless, we do extremely well in terms of neonatal mortality. You just heard that we have one of the few certified full service neonatal intensive care units, and I think this is a credit to our programs and our activities.

I would like to finish by reemphasizing that quality of care is not a one man operation, or a two man operation. It is a collaborative effort of many individuals--the administration of the Hospitals, Reed's efforts, the medical staff's efforts, Gail's efforts, and the wisdom of the Board of Trustees to recognize our special needs and support those special needs. And this is how I feel ascribed to the cost effective high quality care at Ohio State University Hospitals and The Arthur G. James Cancer and Research Institute. So I think there is life on the other side of the stadium, just south of it, and it looks good. Thank you, very much.

Mr. Teaford:

Thank you. I want to note the great service that is given to the Hospitals by the Hospitals Board and, particularly, by its Chair, Ms. Insley. Those people serve tirelessly and are responsible for this fine report. I also want to recognize Reed Fraley, who is very much responsible for the incredible improvement in the Hospitals in every way. Reed, I appreciate what you are doing.

--0--

INVESTMENTS COMMITTEE REPORT

Amb. Wolf:

As many of you know, the Investments Committee met earlier this morning and we heard the monthly Endowment Summary report for the period October 18, 1991, through November 15, 1991. I am pleased to report that the market value of the Endowment Fund on November 15 was $369.1 million. This was about $800,000 below the October 18 market value, because the market has been going down a bit. The market value of the equity portion decreased about $3.5 million, while the fixed income portion increased $800,000, and net new additions to the Endowment Fund totalled $2.9 million. However, since July 1991, which is the beginning of our fiscal year, the Endowment Fund has increased almost $18 million. Of that net, new additions are just over $7 million and the net change in market value has increased about $10.9 million. That brings our current assets allocation for the Endowment Fund to 57 percent invested in equity, 26 percent invested in fixed income securities, 10 percent in real estate, and 7 percent in cash equivalence.

The Committee next heard the quarterly report on total cash and investments for the University. It was reported that the total cash and investments for all accounts as of September 30, 1991, was $700.3 million. This was an increase of $40.6 million for the quarter ending June 30, 1991. The reasons for this increase came by way of an $18 million increase in the University's Endowment Fund and a $21 million increase in the University's operating funds. I must say that the increase in the operating funds is a result of seasonal factors, primarily of the collection of fees and charges concurrent with the beginning of the Autumn Quarter.
INVESTMENTS COMMITTEE REPORT (contd)

Amb. Wolf: (contd)

Finally, the Investments Committee heard a report from Mr. Shkurti on the annual review of capital campaign expectancies conducted by the Office of the Controller. As of June 30, 1991, expectancies totalled $125 million as compared to $138 million on June 30, 1990, one year earlier. The percent of undocumented expectancies is the verified sample and has been reduced to 7.1 percent as compared to a 9 percent decrease last year. Mr. Chairman, that concludes the report of this committee.

(See Appendix XXXX for complete context of The Ohio State University Endowment Summary, November 15, 1991, page 709.)

(See Appendix XXXXI for chart on The Ohio State University Cash and Investments, page 723.)

(See Appendix XXXXII for chart on The Ohio State University Board of Trustees Annual Review of Capital Campaign Expectancies, page 725.)

RESEARCH FOUNDATION REPORT

Ms. Casto:

I would like to begin my report by calling your attention to the October 1991 report of The Ohio State University Research Foundation Grants and Contracts.

The first tab lists the individual projects which were funded in the month of October.

The second tab in the report highlights a project funded by the National Science Foundation. It is a real tribute to the strength of the OSU program to have received this grant. The Division of Social and Behavioral Sciences at the NSF is a highly competitive program area.

The third tab of the report provides abstracts of science and math education projects funded in October. The range and diversity of science education projects across campus is immense. They are being conducted in all fields and at all grade levels. Ohio State is committed to getting students into the pipeline, to increasing the representation of minority students, and to helping the United States regain internationally competitive stature in the technology marketplace.

Under the fourth tab there is a summary of awards. This summary shows an increase of 29 percent in funding received this year compared to the same period last year. The timing of some of these awards accounts for part of the increase. However, I am pleased to say that new projects in a number of disciplines have been funded by NSF and NIH. I would also like to add that major projects in international programs account for a substantial factor in the overall increase. Also under the fourth tab is a summary of expenditures which points to an encouraging 10 percent increase this year over last year.
REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS
Resolution No. 92-54

Synopsis: Approval of the following reports on contracts, grants, and gifts and the summary for October 1991 is proposed.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, and The Ohio State University Development Fund:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station, and The Ohio State University Development Fund during the month of October 1991 be approved.

Upon motion of Ms. Casto, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

(See Appendix XXXXIII for The Ohio State University Development, page 727.)

(See Appendix XXXXIV for Research Contracts, Grants, and Gifts, page 729.)

December 6, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Description of Named Funds

The Carl Haas Fund

The Carl Haas Fund was established December 6, 1991, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from the trust of Carl E. Haas (B.S., Horticulture, 1918) of Youngstown, Ohio.

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support artistic and educational programs of the Wexner Center for the Arts to benefit students of The Ohio State University. Priorities for expenditures are to be approved by the Wexner Center's executive director.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Donald D. Glower Merit Scholarship Fund

The Donald D. Glower Merit Scholarship Fund was established December 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from friends and colleagues in honor of Donald D. Glower, Dean, College of Engineering, 1976-1990, and Vice President, Development, 1990-1992.

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide undergraduate merit scholarships to students in the College of Engineering. Scholarship recipients shall be selected as freshmen and may continue as Glower Merit Scholars through their senior year so long as they remain in the top 10% of their class academically and continue in engineering. This 10% should be used as a guideline. Preference shall also be given to students from Crawford County. This fund shall be administered by the College of Engineering in cooperation with the University Honors Center and in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the dean of the College of Engineering in order to carry out the desire of the donors.
December 6, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Jack and Margaret Howell Putnam County Scholarship Fund

The Jack and Margaret Howell Putnam County Scholarship Fund was established December 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Jack (L.H.) and Margaret Howell, Ottawa, Ohio.

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used as a scholarship limited to full-time students of The Ohio State University at Lima who are graduates of Putnam County, Ohio, high schools or residents of Putnam County providing one-third of the tuition per term. The scholarship shall be renewed for a student as long as a 2.9 cumulative grade point is maintained. Renewal scholarships should be granted before consideration should be given to any new requests. Although the scholarship is renewable, students should be required to submit an application each year. One need not be a freshman to initially receive the funds. The scholarship could also be applicable for full-time summer terms. The scholarship shall follow the student who continues to qualify to the completion of the undergraduate degree whether at OSU Lima or the main campus in Columbus.

The scholarship should be granted to a well rounded student based on ability, need, apparent good work habits and determination to get an education. School activities are important for a well rounded student. While athletics might be involved, this is not to be an athletic scholarship. If no applicants apply or are qualified at a particular time, the funds shall be made available for qualified applicants from Putnam County, Ohio in subsequent years. Selection of the award recipient shall be made by the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Thomas Passmore Dickinson Endowment Fund

The Thomas Passmore Dickinson Endowment Fund was established December 6, 1991, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from Thomas Passmore Dickinson, Georgetown, Ohio.

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.
Description of Named Funds (contd)

The Thomas Passmore Dickinson Endowment Fund (contd)

The annual income shall be used primarily for, but is not limited to, supporting: (1) teaching and research in the area of cerebral palsy; (2) scholarships and other financial assistance to students specializing in this area as medical students or care providers (nurses, physical therapists, etc.); (3) attendance at conferences related to cerebral palsy; and (4) lecture series at the University on the subject matter area. All expenditures from this fund shall be made by the Vice President for Health Services and Dean of the College of Medicine in consultation with the Director of the Nisonger Center and Michael S. Pfeffer, Attorney at Law. Where scholarships are involved, award decisions shall be made in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the Vice President of Health Services and Dean of the College of Medicine, and the Director of the Nisonger Center in order to carry out the desire of the donor.

The Frederick Y. Billingslea, Ph.D., Scholarship Fund in Clinical Psychology

The Frederick Y. Billingslea, Ph.D., Scholarship Fund in Clinical Psychology was established December 6, 1991, by the Board of Trustees of The Ohio State University with a gift to The Ohio State University Development Fund from the estate of Edythe V. Billingslea of Maumee, Ohio. All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide scholarships in clinical psychology to undergraduate students. The selection of the scholarship recipients shall be made by the chairperson of the Department of Psychology in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Scott Falkenthal Memorial Student Colloquium Fund

The Scott Falkenthal Memorial Student Colloquium Fund in Molecular Genetics was established December 6, 1991, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from the estate of Dr. Scott Falkenthal, and from family, friends, and colleagues to Dr. Falkenthal, in recognition of his commitment to students.
December 6, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Scott Falkenthal Memorial Student Colloquium Fund (contd)

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide support to the annual Graduate Student Colloquium in the Department of Molecular Genetics in the College of Biological Sciences, to allow the colloquium to expand and to provide opportunities for outstanding graduate students. The income will support the colloquium in the following prioritized ways: (1) To provide an honorarium to an outside speaker who will be brought to The Ohio State University to initiate the colloquium with a keynote address; (2) To provide travel money to the award winning students, at the 4th and 5th year levels, so that they may attend a recognized national conference in their field; and (3) To provide support for a colloquium awards banquet.

If the annual income should exceed the amount necessary to support the colloquium in the above named ways, the balance may be used to support seminar speakers or graduate student research in the Department of Molecular Genetics. If the colloquium should cease to exist, the annual income will be used to provide scholarships to graduate students in the Department of Molecular Genetics. If the Department of Molecular Genetics should cease to exist or should merge with another department, the fund will transfer to the department to which faculty in the current Department of Molecular Genetics are assigned.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the dean of the College of Biological Sciences.

The Thomas E. and Patricia A. Robinson Athletic Scholarship Fund

The Thomas E. and Patricia A. Robinson Athletic Scholarship Fund was established December 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Thomas E. and Patricia A. Robinson of Troy, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to supplement the grant-in-aid scholarship costs of student athletes who are pursuing undergraduate degrees at The Ohio State University. Recipients shall be selected by the Director of Athletics in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees as recommended by the Director of Athletics in order to carry out the desire of the donors.
December 6, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Madison County 4-H Endowment Fund

The Madison County 4-H Endowment Fund was established December 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the Madison County 4-H Committee and other friends of the Madison County 4-H Program.

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support the Madison County 4-H Program. This support may include, but is not limited to, the funding of scholarships and awards for 4-H members, volunteer leaders and friends of 4-H; sponsoring seminars and programs; purchasing materials or services that will supplement 4-H programming or increase the visibility and public support for 4-H in Madison County. All expenditures from this fund shall be approved by the Madison County 4-H Council.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Guernsey County Cooperative Extension Endowment Fund

The Guernsey County Cooperative Extension Endowment Fund was established December 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from friends of the Guernsey County Cooperative Extension Service.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support the Guernsey County Cooperative Extension programs and shall be paid to the Guernsey County Extension Advisory Committee once every year. The distribution of these funds shall be determined by recommendation from the County Cooperative Extension Advisory Committee to the County Chairperson of the Guernsey County Cooperative Extension Service following the guidelines of the Ohio Cooperative Extension Service.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.
The Herman and Pearl Dolinsky Gross Scholarship Fund

The Herman and Pearl Dolinsky Gross Scholarship Fund was established December 6, 1991, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from Ronald M. Gross (B.A., Biological Sciences, 1955) in honor of his parents.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide undergraduate scholarships of at least $1,000 each to students who are pursuing degrees from the Colleges of Arts and Sciences. Applicants may be entering freshman at the Columbus campus or currently enrolled students at the Columbus campus. Recipients shall be selected by the University Committee on Student Financial Aid in consultation with the coordinating dean of the Colleges of Arts and Sciences. The scholarships shall be based on financial need as well as scholastic merit and shall be renewable.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees with preference given to scholarships in order to carry out the desire of the donor.

The Barbara Lipton Pinchuk Scholarship Fund

The Barbara Lipton Pinchuk Scholarship Fund was established December 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Barbara Lipton Pinchuk (B.S.Ed. '63) of Tarzana, California.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for scholarships for music education students who will be music educators (teachers). Criteria required is a combination of academic ability and financial need. Selection of the recipient is to be made by the chairperson of the Division of Music Education with appropriate consultation with faculty and approval of the dean of the College of the Arts. Decisions shall be made in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use within the School of Music shall be designated by the Board of Trustees in consultation with the dean of the College of the Arts, department/division chairperson, or program administrative officer in order to carry out the desire of the donor.
December 6, 1991 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Change in Description of Named Fund

The William A. Meiter Scholarship Fund

The William A. Meiter Scholarship Fund was established April 3, 1987, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from William A. Meiter, B.S., Mechanical Engineering, 1927, Delray Beach, Florida, in memory of his immigrant parents who by hard work on a dairy farm near Damascus, Ohio, were able to provide a college education for their three sons. The description was revised December 6, 1991.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more scholarship awards to students entering or attending The Ohio State University, including its regional campuses and technical institute, from the West Branch School District, Damascus area. Selection of the award recipients shall be made by the University Committee on Student Financial Aid in conjunction with the Scholarship Selection Committee of the Damascus Area Historical Society. All awards shall be based on financial need.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund in the West Branch School District should cease to exist or so diminish as to provide unused income, then the income may be used to provide scholarship support for students from the Sebring, Western Reserve, South Range School District in Mahoning County; the Salem and United Local School Districts, Columbiana County; the Southeast School District in Portage County; and the Alliance, Marlinton, and Minerva School Districts in Stark County, Ohio. A joint decision by the Damascus Area Historical Society and the University Committee on Student Financial Aid, or its representative, is required. Should the need for this fund cease entirely, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

THE OHIO STATE UNIVERSITY FOUNDATION

Change in Description of Fund

The Ross W. Boyd Memorial Distinguished/Medalist/University Scholarship Fund

The Ross W. Boyd Memorial Distinguished/Medalist/University Scholarship Fund was established September 6, 1991, by the Board of Trustees of The Ohio State University through funds received by the University from The Ohio State University Foundation, with gifts from the estate of Ross W. Boyd, B.S., Education, 1935, of Muskegon, Michigan. The repository of the estate gift was changed to reflect the terms of Ross W. Boyd's Last Will and Testament and, thus, the fund was revised December 6, 1991.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.
Change in Description of Fund (contd)

The Ross W. Boyd Memorial Distinguished/Medalist/University Scholarship Fund (contd)

The annual income shall be used to provide one or more undergraduate merit scholarships for Distinguished, Medalist and/or University Scholars. This merit scholarship initiative is the result of recommendations from the 1990 University Task Force on Undergraduate Recruitment and the 1990-1991 Undergraduate Recruitment Implementation Steering Committee to the Senior Vice President for Academic Affairs and Provost. Students shall be selected based upon the criteria sanctioned by the Senior Vice President for Academic Affairs and Provost and administered by the University Honors Center in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson or program administrative officer in order to carry out the desire of the donor.

ACADEMIC AFFAIRS COMMITTEE REPORT

Ms. Casto:

This morning we heard a report from Dean Don Anderson on some of the programmatic changes that are taking place in the College of Education. Consistently ranked as among one of the best education colleges in the country, the College of Education is focusing its attention on leadership development, on developing exemplary teacher education programs, and on research and development.

The College of Education played a leadership role in the Holmes Group, a consortium of education colleges in research universities across the country. Undergraduate teacher education programs are being dropped in favor of post-baccalaureate preparation.

Mary Fried, a Columbus Public School teacher on leave, described the College’s Reading Recovery Program. The program, first developed in New Zealand, is designed to deal with first grade students who are not reading at the first grade level. Intervening at this early age enables them to escape the "failure" track and research seems to indicate that these students then continue to read at the appropriate grade level. Scholars and practitioners from across the world have visited and are studying the Reading Recovery Program here at Ohio State.

I would say that the only major problem with this program is that it is a one on one relationship with the students and, of course, that is very costly to the school systems, but it has been very effective.
ACADEMIC AFFAIRS COMMITTEE REPORT (contd)

Ms. Casto: (contd)

In addition, we are recommending the appointment of Robert M. Duncan, Vice President for Legal Affairs and General Counsel. We welcome you to our University family. I think you will see that Gordon has put together an excellent staff and we are very proud to have you with us.

President Gee:

I appreciate Ms. Casto’s notation that today is a singularly significant day for the University. We are delighted that Judge Robert Duncan has accepted our offer to join us as Vice President for Legal Counsel of this University. Bob honors us by that acceptance.

As many of you know, he has served as a distinguished jurist, a lawyer of great note to not only this State, but nationally, and certainly has done a remarkable job as a great friend of this University, serving in many capacities and in many ways. And I know that Bob views this opportunity as exactly that, an opportunity to, again, serve at an institution that he values and cherishes dearly. And in turn, Bob, we appreciate the fact that you would come and help guide it at a time that will be one of both great opportunity and great challenge.

I know that the members of the Board, and certainly the members of the University Family, are equally excited about this opportunity.

Mr. Teaford:

I might note, too, in light of our other discussion, that Judge Duncan was one of the charter members of the Hospitals Board as well.

PERSONNEL ACTIONS

RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the November 1, 1991 meeting of the Board, including the following Appointment, Appointment of Chairpersons, Reappointment of Director, Leaves of Absence Without Salary, Leave of Absence Without Salary—Continuation, Professional Improvement Leaves, Emeritus Titles, Medical Staff Appointments (The Arthur G. James Cancer Hospital and Research Institute, and Medical Staff Reappointments (The Arthur G. James Cancer Hospital and Research Institute) as detailed in the University Budget be approved.

Appointment

Name: ROBERT M. DUNCAN
Title: Vice President and General Counsel
Office: Legal Affairs
Effective: January 1, 1992
Salary: $150,000.00
Present Position: Partner with Jones, Day, Reavis & Pogue, Columbus, OH
PERSONNEL ACTIONS (contd)

Appointment of Chairpersons

July 1, 1991 through June 30, 1992

Photography and Cinema  James W. Hutchens*

January 1, 1992 through June 30, 1993

Engineering Mechanics  Carl H. Popelar

Reappointment of Director

October 1, 1991 through September 30, 1995

Center for African Studies  Isaac J. Mowoe

*Acting Chair

Leaves of Absence Without Salary

TIMOTHY J. LONG, Associate Professor, Department of Computer and Information Science, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, to except a Visiting Professorship at New Mexico State University.

ANTHONY B. SANDERS, Associate Professor, Department of Finance, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, to except a position at the University of Chicago.

CARLOS E. CUEVAS, Assistant Professor, Department of Agricultural Economics and Rural Sociology, effective December 1, 1991 through December 31, 1991, to conduct work at The World Bank, Washington, D.C.

Leave of Absence Without Salary--Continuation

HAROLD S. HIMMELFARB, Associate Professor, Department of Sociology, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992, to continue in a research position with the U.S. Department of Education.

Professional Improvement Leaves

KARL C. RUBIN, Professor, Department of Mathematics, effective Autumn Quarter 1992, Winter Quarter and Spring Quarter 1993.

HENRY M. BARTHOLOMEW, Associate Professor, Cooperative Extension Service, effective Winter Quarter and Spring Quarter 1992.

ALICE SILVERBERG, Associate Professor, Department of Mathematics, effective Autumn Quarter 1992, Winter Quarter and Spring Quarter 1993.
Emeritus Titles

ALFRED S. GOLDING, Department of Theatre, with the title Professor Emeritus, effective January 1, 1992.

YEHIEL HAYON, Department of Judaic and Near Eastern Languages and Literatures, with the title Professor Emeritus, effective January 1, 1992.

MARGARITA LEVISI, Department of Spanish and Portuguese, with the title Professor Emeritus, effective March 1, 1992.

HONGOR OULANOFF, Department of Slavic and East European Languages and Literatures, with the title Professor Emeritus effective January 1, 1992.

JAMES P. SCANLAN, Department of Philosophy, with the title Professor Emeritus, effective January 1, 1992.

FRANK R. SILBAJORIS, Department of Slavic and East European Languages and Literatures, with the title Professor Emeritus, effective January 1, 1992.

MARVIN R. ZAHNISER, Department of History, with the title Professor Emeritus, effective January 1, 1991.

WALTER W. BRIM, Department of Physics (Lima Campus), with the title Associate Professor Emeritus, effective September 1, 1991.

MARIANNE G. COOPER, Department of Music (Mansfield Campus), with the title Associate Professor Emeritus, effective January 1, 1992.

PETER W. GANO, School of Music, with the title Associate Professor Emeritus, effective January 1, 1992.

DAVID F. ROBINSON, Department of Slavic and East European Languages and Literatures, with the title Associate Professor Emeritus, effective January 1, 1992.

ARNOLD SHAPIRO, Department of English, with the title Associate Professor Emeritus, effective January 1, 1992.

ELLIN E. CARTER, Department of English, with the title Assistant Professor Emeritus, effective January 1, 1992.

Medical Staff Appointments (The Arthur G. James Cancer Hospital and Research Institute)

BAUER-GIFFIN, CONSTANCE, M.D., Attending Staff, Radiology
LEIPZIG, JAMES MARK, M.D., Associate Attending Staff, Surgery
McGREGOR, JOHN MICHAEL, M.D., Associate Attending, Surgery
PERSONNEL ACTIONS (contd)

Medical Staff Reappointments (The Arthur G. James Cancer Hospital and Research Institute)

July 1, 1991, through June 30, 1993

GARY L. REA, M.D., Associate Attending, Surgery
DAVID E. ROBERTS, M.D., Associate Attending, Int. Medicine
SHELDON R. SIMON, M.D., Associate Attending, Surgery

Upon motion of Ms. Casto, seconded by Mr. Colley, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

RESOLUTIONS IN MEMORIAM

Resolution No. 92-56

Synopsis: The Academic Affairs Committee recommended the approval of the following Resolutions in Memoriam.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Frederick P. Dickey

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 5, 1991, of Frederick P. Dicker, Professor Emeritus in the Department of Physics.

Professor Dickey was born September 1, 1916, in Zanesville, Ohio. After receiving a Bachelor of Science degree in Physics in 1938 at Muskingum College, he obtained his graduate education at The Ohio State University, where he earned an M.S. degree in 1939. He served in the United States Naval Reserve from 1942-45 as a Lieutenant Commander. In 1945 he returned to The Ohio State University and received his Ph.D. in 1946. Professor Dickey was appointed Instructor of Physics at The Ohio State University in 1946 and progressed to full Professor in 1960. He served as Vice Chairman of the Physics Department from 1960-67. He became a Professor Emeritus in 1982.

Professor Dickey's research efforts were primarily in the area of high resolution infrared spectroscopy of small molecules, like H2O, HD, CO2, and OH. His early experimental contributions laid the foundation for future investigations and became of importance in the study of the earth's atmosphere and of combustion processes. During the course of his career at The Ohio State University, he served as the advisor for eight Ph.D. and thirty-four M.S. students.

Almost all graduate degrees generated in the Department of Physics occurred after the arrival of Professor Dickey as a graduate student in 1939 and during his tenure as a faculty member since 1946. He was influential in shaping the experimental program in far infrared spectroscopy and indirectly programs in other areas of Physics. His influence was felt in the undergraduate and graduate programs in Physics during his tenure as Vice Chairman. He assisted the undergraduate and graduate students with tact and wisdom in resolving their problems during this period. Professor Dickey was a member of the American Physical Society.
RESOLUTIONS IN MEMORIAM (contd)

Frederick P. Dickey (contd)

On behalf of the University community, the Board of Trustees expresses to the family of Dr. Dickey its deepest sympathy. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Richard H. Hoppin

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 1, 1991, of Richard H. Hoppin, Professor Emeritus in the School of Music.

Richard Hoppin was born in Northfield, Minnesota, on February 22, 1913. He received the BA degree from Carleton College in 1936, having interrupted his course of study to spend two years at the Ecole Normale de Musique in Paris. He then went to Harvard University, where he took the M.A. in 1938. Following four years of teaching at Mount Union College and three years of military service, he resumed his graduate work at Harvard in 1945 under the guidance of Archibald T. Davison, receiving the Ph.D. in 1952 with a dissertation on the motets of the early fifteenth-century manuscript Torino, Biblioteca Nazionale, J.II.9. He took a position as assistant professor at the University of Texas in 1949 and taught there until 1961, when he came to The Ohio State University as professor of music history and literature. On the occasion of Professor Hoppin's retirement from Ohio State in 1978, the School of Music held a colloquium in his honor, featuring his former students as guest speakers.

An accomplished pianist, Professor Hoppin's interests and expertise covered virtually the entire spectrum of music history. His main area of study, however, was the middle ages, with emphasis on the music of the 14th and early 15th centuries. He was the author of Medieval Music and its companion volume, Anthology of Medieval Music for which he received the Deems Taylor Award of the American Society of Composers and Performers in 1979. Dr. Hoppin also edited four volumes of The Cypriot-French Repertory of the Manuscript Torino, Biblioteca Nazionale J. II. 9 (Corpus mensurabilis musicae, xxi, 1960-63), as well as a facsimile edition with commentary of the same manuscript (Musicological Studies and Documents, xix, 1968). Among his many articles, one should perhaps single out "Exultantes collaudemus: A Sequence for Saint Hylarion," Aspects of Medieval and Renaissance Music: A Birthday Offering to Gustave Reese (New York, 1966), "Reflections on the Origin of the Cyclic Mass," Liber Amicorum Charles van den Borren (Antwerp, 1964), "Notational Licenses of Guillaume de Machaut," Musica Disciplina, xiv (1960), and "A Fifteenth-Century 'Christmas Oratorio'," in Essays in Music in honor of Archibald Thompson Davidson (Cambridge, MA, 1957).

Professor Hoppin was the recipient of a Guggenheim Fellowship and a Fulbright Research Grant, and conducted, with the sponsorship of the National Endowment of the Humanities, three seminars on medieval music at The Ohio State University. He served the University as a member of the Graduate Council for many years, and was likewise an affiliate of the Center for Medieval and Renaissance Studies.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.
RESOLUTIONS IN MEMORIAM (contd)

Clifford L. James

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on August 26, 1991, of Clifford L. James, Professor Emeritus in the Department of Economics.

Professor James was born on February 18, 1903, in Lewisburg, Ohio. He received his B.A. degree in economics with high distinction from The Ohio State University in 1925. He was awarded a fellowship and received an M.A. degree in sociology from The Ohio State University in 1926. Having been awarded a fellowship to Harvard, he entered that University, where he received the Ph.D. degree in economics in 1930. He was a member of the O.S.U. marching band that played at the dedication of Ohio Stadium.

Professor James' academic career after receiving the Ph. D. degree was spent entirely at Ohio State, with interruptions for important periods of public service. He served as assistant professor, associate professor, and full professor starting in 1929, until his retirement and appointment as Professor Emeritus in 1973. On leave from Ohio State, he served as Senior Economist on the United States Tariff Commission in 1934-35. He was an Economic Expert on the Temporary National Economic Committee in 1939, and he later served as Economic Consultant on U.S. trade policy to the Public Advisory Board for Mutual Security. In 1942-43, he served as Regional Price Executive and State Price Officer in the Office of Price Administration.

During his career at Ohio State, Professor James rose to an important leadership position within the economics department, teaching at all levels. At the graduate level, he specialized in economic theory and international trade theory. He was the principal advisor on eight Ph.D. dissertation committees. He was active in research, publishing in such leading journals as the American Economic Review and the Southern Economic Journal, and in numerous other professional journals, annuals, and collected works. He also published several professional monographs and wrote three textbooks. In addition to his teaching and research roles, he served the University in the Faculty Council, Graduate Council, and the President's Permanent Planning Committee.

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to the family of Professor James. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Leo E. Lipetz

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on October 12, 1991, of Leo E. Lipetz, Professor Emeritus in the Department of Zoology.

Professor Lipetz was born on August 10, 1921, in Lincoln, Nebraska. He received a bachelor degree of electrical engineering from Cornell University in 1942 and a Ph.D. in biophysics from the University of California at Berkeley in 1953. He did postdoctoral work in the biophysics of vision at John Hopkins University in 1954.

Professor Lipetz came to Ohio State in 1954 as an assistant professor in the Department of Ophthalmology. He had been affiliated with the Department of Zoology since 1981. Professor Lipetz retired and became Professor Emeritus in 1989.
RESOLUTIONS IN MEMORIAM (contd)

Leo E. Lipetz (contd)

Professor Lipetz conducted research in the biophysics of vision and was the author of numerous publications. Dr. Lipetz was the recipient of several fellowships and awards and a member of many professional societies, including the American Association for the Advancement of Science, the Association for Research in Vision and Ophthalmology, and a charter member of the Biophysical Society.

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to the family of Professor Lipetz. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Duncan McConnell

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 8, 1991, of Duncan McConnell, Professor Emeritus in the Department of Geological Sciences.

Professor McConnell ("Mac" to his colleagues) was born in Chicago, Illinois, on January 30, 1909. He received a B.S. in Chemistry from Washington and Lee University in 1931, an M.S. from Cornell University in 1932, did postgraduate studies at the University of Chicago from 1932-33 and Stanford from 1934-35, and obtained a Ph.D. from the University of Minnesota in 1937. Dr. McConnell was an instructor at the University of Texas from 1937-40, worked as a mineral economist at the U.S. Bureau of Mines in Washington in 1941, as a chemist-petrographer at the U.S. Bureau of Reclamation in Denver from 1941-47, and was an Acting Assistant Division Director at Gulf Research and Development Company in Pittsburgh from 1947-50. He joined the faculty of The Ohio State University as a Professor in the Department of Mineralogy in 1950 and was chairman of that department from 1952-56. He served as an Assistant Dean of the Graduate School in 1954-55 and was a Research Professor in the College of Dentistry from 1957 until his retirement in 1976.

Professor McConnell was a fellow in the Mineralogical Society of America and Royal Society of Arts. He was a member of many professional societies including the American Crystallographic Association, Geochemical Society, American Chemical Society, Society of Economic Geologists, Electron Microscopy Society of America, and Mineralogical Societies of Canada, Great Britain and France. He was also a member of Phi Beta Kappa, Sigma Xi, Phi Lambda Upsilon, Gamma Sigma Epsilon, Sigma Gamma Epsilon, Tau Kappa Iota, and Omicron Kappa Upsilon.

Dr. McConnell was respected internationally for his expertise in the field of crystal chemistry, a subject he initiated at The Ohio State University and which continues to be taught to this time. He was a man of principle and championed several concepts long before they became recognized as truths in the scientific community. A noteworthy contribution to science was his formulation and study of the tetrahedral-hydroxyl group and its significance in garnetoids and carbonate-hydroxy apatites. He published extensively including a widely respected book on phosphates, chapters in books and encyclopedias, and articles in scientific journals. He discovered the mineral ellestadite and contributed to the knowledge of minerals and bone, the crystal chemistry of clay minerals, the physical chemistry of the deterioration of concrete, and the nature of biological precipitates.
RESOLUTIONS IN MEMORIAM (contd)

Duncan McConnell (contd)

Dr. McConnell was active in community affairs and he shared his views through frequent letters to local newspapers including the Lantern. He championed many causes and stood fast with cogent arguments. He is remembered by his colleagues for having filed suit in court in the 1950s on behalf of the faculty of The Ohio State University to decide whether or not employees of the State of Ohio who do not live in Columbus should be exempt from paying tax to the City of Columbus. The case was decided in favor of the City of Columbus on the grounds that in times of need the University is served by the Columbus Fire and Police Departments.

On behalf of the University, the Board of Trustees expresses to the family of Professor McConnell its deep sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Roland Vilums

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on September 21, 1991, of Roland Vilums, Assistant Professor Emeritus in the University Libraries.

Roland Vilums was born August 2, 1906, in Riga, Latvia. He received his education at the University of Latvia and received his law degree in 1930. In 1958 he received his M.S.L.S. degree from the University of Michigan, Ann Arbor.

Professor Vilums was a District Court Judge in Riga and a Latin teacher for the High School for Latvian Refugees, Oldenburg, Germany, prior to coming to the United States in 1950. From 1958 until his retirement in 1977, he was the Slavic cataloger in the University libraries. Mr. Vilums served on numerous Library Committees, and in general was an active and highly valued contributor to the life of the Libraries. Professionally, Mr. Vilums was a member of the American Library Association, the Ohio Valley Group of Technical Services Librarians, and the Franklin County Library Association.

One of Mr. Vilums' strongest assets was his knowledge of many foreign languages. He was fluent in Latvian, German, Russian, French, and Latin. While at Ohio State he was a faculty advisor to the Latvian Students Club.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Mary Ann Williams

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 5, 1991, of Mary Ann Williams, Associate Professor in the Department of Black Studies.
RESOLUTIONS IN MEMORIAM (contd)

Mary Ann Williams (contd)

Mary Ann Williams was born August 6, 1945, in Delaware, Ohio. She received her early training at Olentangy High School, her B.A. at Wilmington College in 1968, the M.A. at The Ohio State University in 1972, and her Ph.D. from the Union for Experimenting Colleges and Universities in Cincinnati in 1977. Dr. Williams was a poet, playwright, solo actress, and theatrical director. Her special interests included communications and related leadership challenges for women and other African-Americans, the social and political images of African-Americans in media, and dramatic literature.

She joined the faculty of the Department of Black Studies in 1972. Her genuine commitment and dedication to the Department and the University are particularly noteworthy. She served as a real inspiration to many students who were participants in her classes, plays, and poetry sessions. For ten years Dr. Williams was Coordinator of Broadcast Productions for the Department of Black Studies. She hosted and produced the weekly Emmy-nominated series "Afromotion" on WOSU-TV for six years, and moderated the weekly hour series "Black Studies Broadcast Journal" and weekly one-half hour "Black Studies Beat" on WOSU-AM radio. Included among her many guests were Alex Haley, Maya Angelou, Ruby Dee, and Mohammad Ali. Many programs were broadcast on National Public Radio.

In addition to her teaching at The Ohio State University, Dr. Williams served a brief term as Acting Associate Director of Admissions. Later, she served as Acting Chairperson of the Department of Black Studies during the 1986-1987 academic year before returning to her first love of teaching.

Dr. Williams was recognized for her outstanding service to the University and to the community. She received proclamations from the Ohio House of Representatives and the Ohio Senate for community service, contributions to education, and outstanding broadcasting. She was the recipient of the first annual Wilmington College Trustees Alumni Award. In 1983 she was selected as one of the ten best playwrights in the State of Ohio by the Ohio Arts Council and the Ohio Theatre Alliance Playwright's Workshop at Wittenberg University. In 1985 Dr. Williams was selected for Who's Who Among Black Americans.

She also received the Columbus Area Leadership Award from the Columbus Area Leadership Program where she served as president of the program's Board of Trustees in 1985. She was appointed to the Board of Trustees of Wilmington College in 1991. Other board memberships included the Community Health and Nursing Service, the YWCA, as well as a membership on the United Way of Columbus and Franklin County's Planning, Evaluation and Allocations Committee. She was a board member and co-founder of the minority-based Art for Community Expression, Inc., and past president of Women in Development at OSU.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Upon motion of Ms. Casto, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.
RESOLUTIONS IN MEMORIAM (contd)

Mr. Teaford:

I might point out that several members of this Board had occasion to meet Mary Ann Williams when she was an intern in the President's Office. She was truly one of the great scholars and great artists of this University, and her passing at such an early age is a great loss to the University.

--0--

STUDENT AFFAIRS COMMITTEE REPORT

Mr. Tonnies:

The Student Affairs Committee heard a presentation this morning from Dr. Spillman and Dr. Forrest Smith on an overview of the University Health Service. The Health Service at The Ohio State University is one of the largest student health services in the country and is fully credited by the Joint Commission. The Health Service is a multi-speciality, out-patient health facility providing health care services primarily to the student population totaling approximately 100,000 visits annually. Services include the following clinics: medical, trauma, out-patient surgery, women's health, mental health, preventive medicine, dental, and occupational medicine.

There are also specialty clinics dealing with health care needs in the areas of dermatology, allergy, nutrition, and physical therapy. Consultative, diagnostic, and support services are available to provide additional patient care. These include: Radiology, Pharmacy, the Clinic Laboratory, and Nursing Services. Help for promotion activities centering on health and substance abuse have been recently initiated.

The Health Service is in a period of transition attempting to deal with the problems of health care delivery and diminish the cash deficient position. This has resulted in the tremendous loss of service to students over the past three years. Input has been obtained through program review and internal auditing. The reviews indicate a need for improved funding through a designated health fee similar to that utilized at other large institutions and universities. Accessibility and funding remain unresolved challenges as we continue to focus on our mission to enhance service to our student population.

Mr. Chairman, in that light we have a resolution today for vote and that is an authorization to change the name of the department from the University Health Service to the Student Health Service.

NAME CHANGE FOR UNIVERSITY HEALTH SERVICE
Resolution No. 92-57

Synopsis: The Student Affairs Committee recommended changing the name of the department, "University Health Service" to "Student Health Service".
NAME CHANGE FOR UNIVERSITY HEALTH SERVICE (contd)

WHEREAS the Health Service was created in 1915 as the "Student Health Service." Several Board of Trustees actions in 1934 resulted in a change in the unit's title to the present one, "University Health Service." In 1969 the new/existing building was completed and was named the John W. Wilce Student Health Center, although the name of the department remained University Health Service; and

WHEREAS the mission of the University Health Service is to provide high quality, readily accessible, primary health care for the student population, to promote health and provide for disease prevention with a view toward enhancing educational pursuits and the quality of life for The Ohio State University student body:

NOW THEREFORE

BE IT RESOLVED, That in order to establish and designate the primacy of the University Health Service mission -- student health, it is recommended that the unit's title be changed to the "Student Health Service" to describe and identify the activity located in the John W. Wilce Student Health Center.

Upon motion of Mr. Celeste, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Mr. Tonnies:

We also had hoped to officially pass a resolution today regarding a change in the procedures and criteria for nominating students to serve on The Ohio State University Board of Trustees. The change would read, "Beginning in 1992 the students selected in even number years shall be a graduate or professional student and an undergraduate student will be chosen in odd numbered years". However, the resolution needs to be officially prepared and distributed to the Board members and we were not able to do this today.

The spirit of the change, however, was approved by the Student Affairs Committee and the Interprofessional Council. The Council of Graduate Students will begin the nomination process using the four stated criteria. Official Board action will occur during our February meeting at the Ohio Union, so that will be an appropriate place for it to be officially changed.

Mr. Tipton, President of the Council of Graduate Students, submitted a report on health benefits for Graduate Associates and Fellows. This report speaks of the concerns that graduate students have as the University studies the issues of health benefits and insurance in 1992. This report will be available to all the Board members.

Ms. Chen, President of the Undergraduate Student Government, submitted a report to the Committee which focused on the problems of diminished bus service and library hours. Dr. Spillman and Mr. Teaford spoke of the University's continued commitment to look into ways to minimize the impact such actions have on our students and on their educational environment.

Mr. Chairman, if there are no questions, this concludes my report.
STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Teaford:

I would just say that -- absent of any objection from the Board -- it would be all right for the process described in that resolution to proceed. It will come to the Board in February.

Thank you, Mr. Tonnies.

--0--

FISCAL AFFAIRS COMMITTEE REPORT

Mr. Teaford:

I would like to call upon Ms. Achterman, Controller of the University, and Mr. Gaston, head of the audit group from Coopers & Lybrand, to report briefly on the audit meeting which we had yesterday.

Ms. Janet Achterman:

Thank you, Mr. Chairman. I have a twofold purpose in coming to you this morning. First of all, I do appreciate the opportunity to be able to present to you today the Audited Financials for the year ending June 30, 1991. You should have received these in a Board packet probably a week ago, along with the external audit report. We do have an unqualified opinion or clean opinion from our external audit firm, which means essentially that the financial statements are fairly presented and that there are no material weaknesses in our systems of internal control. I'd be happy to answer any questions that you might have about this document.

The second purpose today is to present an overview of the contents of the financial report, and the fiscal condition and results of operation for the University for the year ending June 30, 1991. You should have in front of you a gray document, which was presented yesterday to the Fiscal Affairs Committee. This document provides a comprehensive overview of the fiscal condition of the institution. I was asked to come before the full Board today and present a brief overview, which is the white document in front of you. We will be going over this very briefly.

In essence, the University ended fiscal year 1991 in a stable fiscal condition. Overall, the current funds, revenues, and expenditures broke even at a record $1.2 billion each. One of the things that I believe is very important in reviewing the fiscal condition of any operation, but particularly one the size of The Ohio State University, is to take a look at trends. If you will turn to the graph entitled, "Trends and Current Funds Equity," this will show a ten-year look at the results of operation for the institution from 1982-1991. What you see for the current unrestricted fund group is that from fiscal year '82 through fiscal year '86, we had a significant build-up of current funds equity. This was followed by two years of planned use of those funds to meet departmental priorities such as capital improvements, debt service, and other operating costs and followed by two more years of upward movement. Fiscal '90 and the current year ending June 30, 1991, was a deliberate attempt to rebuild the fund equity to its current position. The current restricted funds from fiscal '82 through the present, have actually shown a steady increase in fund balance that parallels the Capital Campaign. Restricted funds are primarily the Endowment Fund. One of the
Ms. Achterman: (contd)

... things that you will also note in the restricted fund group is a slight decline from fiscal '90 to fiscal '91, which was caused in some respects by the operations of the auxiliary funds.

The next graph shows trends and auxiliary funds equities. You can see over the past ten years a decline from fiscal '82 through fiscal '91, to its current negative position. This reflects the impact of increasing costs, contributions to the central funds of the University, as well as capital improvements and debt service for new facilities and renovations that have been undertaken by the auxiliaries. The three largest operations of auxiliaries are: the Residence Halls at a $38 million operation; Athletics at a $23.5 million operation; and Book Stores at a $11.4 million operation.

As you can see, the Endowment Fund growth over the past ten years has been quite significant. Original gifts and additions to the endowment have more than doubled since fiscal year '82, and the market value has more than tripled to its current $351 million.

Shown next is the endowment performance as we compare ourselves to the leading indicators over a ten-year average. The Ohio State University has averaged very close to the S&P 500. Our rate of return was 14 percent in comparison to the S&P 500 at 15.5 percent, the Shearson Bond Index at 12.9 percent, and the Consumer Price Index at 4.4 percent. So you can see that the University's conservative investments policy has yielded strong financial results for the institution.

The next highlight I would like to point out is our investment and plant. Our investment and plant has more than doubled in the past ten years to its current $1.5 billion. Plant operation and maintenance expenditures have increased only 35 percent in that same period. What the graph shows is that in 1982 we spent 4.6 cents on plant operation and maintenance for every $1.00 of investment and plant. Whereas for the year ended June 30, 1991, we're spending only 3 cents on plant operations and maintenance for every one dollar of our investment and plant. This is not something unique to The Ohio State University. This is something that reflects a national trend that is occurring on college campuses and it's something that we recognize and we'll need to address in the future.

Ms. Casto:

Is it because we should be spending more and the plants are starting to deteriorate or is it just efficiency?

Ms. Achterman:

I would like to turn to Mr. Nichols to comment as well, but I believe it's because we are spending actually fewer dollars to maintain our physical facilities.
FISCAL AFFAIRS COMMITTEE REPORT (contd)

Mr. Nichols:

We are indeed spending substantially fewer dollars to maintain our facilities. The facility's budget has taken substantial reductions through the decade of the '80s, as we add the various cuts from year to year. So each time there were reallocations or cost transfers, Physical Facilities suffered.

Ms. Achterman:

I would like to conclude with a few comments on the overview of fiscal year 1991. Essentially, as you know, current funds have broken even, we are on a fiscally stable balance from that perspective. Our auxiliaries have struggled during fiscal '91 and continue to struggle this year.

For fiscal '92, our aging facilities are going to need more attention and we see that in the foreseeable future. Also in fiscal '92, which is the current year that we're in, the Early Retirement Program will cost an estimated $30 million out of our current funds. That represents an estimated 600 early retirees to the institution. We also believe that spending and hiring controls will continue to be needed this fiscal year and next. And further internal reallocations will be likely, depending primarily on state resources -- if state resources are further cut. In the long term, I would like to say that the financial condition of the University is stable, but we do have some challenges that face us.

That was a very brief overview of a $1.5 billion operation. I would like to encourage the Board to read the full context of the report that was presented to the Fiscal Affairs Committee. I would be happy to answer any questions either now or after you've had an opportunity to read through the final report. Mr. Chairman, that concludes my formal comments.

Mr. Teaford:

Thank you, Ms. Achterman. I, too, would commend you on this document. I think in terms of making the kinds of overall decisions which the Board is charged with, this is a very useful document, and we appreciate you're having developed that. Further, having been at the meeting yesterday and in further response to Ms. Casto's question on the reduction in the maintenance budget, while there have been efficiencies it is not due to efficiencies. It is because we have chosen to spend probably less than we should in terms of maintenance of our buildings. And I think it is a serious question that is going to have to be addressed.

I would now like to introduce Mark Hilligoss, Internal Auditor for the University.

Mr. Mark Hilligoss:

I just have a few comments regarding the audit process. The internal audit department coordinates the external audit for the University by acting as liaison through University departments involved, and in assisting the external auditors with information requests in order to bring the entire process to a successful closure. Through a concerted effort by all involved, we have reduced the time required to bring financial statements and management reports to the Board by nearly three months. We hope that this trend will continue and we expect that it will.
Mr. Hilligoss: (contd)

Coopers & Lybrand are the successor auditors to Deloitte & Touche, who we had for the last five years. They are in their first year of a five-year contract. Previously, Coopers had audited the University between 1981 and 1985, so they are on a return visit and are somewhat familiar with us. In addition to Coopers & Lybrand, we have two minority subcontractors who participate in the audit. This report does set out the audit scope and organization and responsibilities of the minority subcontractors, as well as the prime contractor.

During the course of the audit, certain observations and recommendations are made by external auditors as they review the effectiveness of the University's management controls. We work with the management to gather responses to recommendations, and many less significant points are reviewed with management during the audit and are adequately resolved, implemented, or otherwise settled. Only the more significant findings are presented in the final report.

I will now ask Dave Gaston to review and summarize the points made to the Committee yesterday.

Mr. Dave Gaston:

Good morning. On a personal basis, as a graduate of this University, and on a professional basis, representing our firm this morning, I want to say that Coopers & Lybrand is very pleased to be back with The Ohio State University and working with you as your external auditors. At the risk of sounding as though it is auditors auditing auditors, but in the hope of cutting through the red tape, I'd like to give you an overview of some of the things that we've been involved with and, in particular, the four recommendations that we have made to the Fiscal Affairs Committee. Since returning to the campus after five years, I think it gives us a unique position to see the progress that's been made in the internal reporting process and the fiscal affairs of the University.

We were referring a moment ago to the actual financial statements of the University in our report, the clean opinion that went there, too. I believe this is the earliest that the Trustees have seen financial information, the year end figures if you will, for the University, in certainly the past eleven years. As I say, it gives us a unique position to see both the progress and also to view the goals that have been established, and working toward those goals that the Controller's department has established, and progress that certainly has been made.

Although this is a formidable document, there are some 70 pages here, two-thirds of it is appendix and information for your use at your leisure. However, the first twenty-five pages do contain the overview of the audit process and certain required communications for an audit committee or the overview of the financial affairs of the University. I would tell you that in respect to those issues, we had no exceptions to report and certainly no disagreements with management.
FISCAL AFFAIRS COMMITTEE REPORT (contd)

Mr. Gaston: (contd)

In addition to the annual financial statements of the University, we produced other reports. We produced two reports which are really in compliance with the laws of the State of Ohio. Again, there are no major exceptions to point out from those particular reports and they are included in the appendix that you will have. We also give you a report on the internal control structure of the University and, again, there are no material weaknesses in that internal control structure for the reporting financial information to you.

I did indicate that there were four specific recommendations that we did bring to the Committee's attention and certainly on to the Board. Let me briefly state those recommendations and keep in mind that they are not in any order of priority. One recommendation is to the more timely financial reporting process and the completeness of information that the University does receive to make decisions. Also, compliance with the State of Ohio laws which will require earlier financial information from all colleges and universities in order to be combined with the State's financial statement itself in the next couple of years. We've made three specific recommendations as to how that process can be improved and we shared those with the Committee.

The second overview and specific recommendation was about the information technology environment that surrounds the computerization of many areas of the University's activities. We made certain points as to the lack of communication between the various data bases that exist on the campus and ways that that may be addressed by the administration.

The third recommendation was on the improvement of reporting sick leave and vacation time for employees of the University.

The fourth recommendation is how the University deals with its reporting and responding to taxing authorities, that being state, local, as well as, federal. Although at times we think of ourselves as a tax exempt organization, we found in the last tax examination by the Internal Revenue Service that it is a significant area. And as recently as this week there was a Wall Street Journal article on the Internal Revenue Service trying to tax things such as the sponsor fees at bowl games. It clearly is an area of initiative by the Internal Revenue Service and we've suggested a consolidation of the University's responses to those kind of initiatives.

Mr. Teaford:

Thank you, Mr. Gaston. I also want to point out why we switch auditors and that is because the State does limit auditors from being with any state institution for longer than five years. And so that's why we've made the switches. I also want to mention that Parm's & Co., Inc., and M & J, Manoranjan and Jayan than Inc., are the two minority firms which have assisted in this audit.

Finally, as one is required to do, we did throw all of the University people out of the room to speak to the auditor directly. I specifically asked Mr. Gaston if I put his back to the wall and insisted on a negative comment about anyone with which he had dealt, what would it be? He said even under that circumstance he could not come up with any negative comments, which is a great compliment to our staff and a great comfort, I might say, to the Board. I thank you for your work and your reports.
December 6, 1991 meeting, Board of Trustees

ACCEPTANCE OF THE REPORT OF AUDIT
RECOMMENDATIONS AND RESPONSES FOR 1990-91
Resolution No. 92-58

WHEREAS in April 1991, with the approval of the Auditor of State, The Ohio State University entered into a five-year agreement with Coopers & Lybrand for an annual audit of the University for fiscal years 1990-91 through 1994-95; and

WHEREAS the Coopers & Lybrand audit of the University for 1990-91, meeting the requirements of the Auditor of State, has been received and the accounts, records, files, and reports of the University have been found to be in satisfactory condition, but certain recommendations have been included in the audit report; and

WHEREAS the auditors' recommendations have been studied by the appropriate University offices, and procedures and responses have been developed as a result of the recommendations:

NOW THEREFORE

BE IT RESOLVED, That the report of the Coopers & Lybrand audit for The Ohio State University for 1990-91 (including the report on the audit of the University's financial statements; the report on the internal control structure; the summary letter to the Board of Trustees; the management letters of recommendations for the University and, separately, the University Hospitals and WOSU Stations; and the Ohio Revised Code compliance letter) and the management responses to the recommendations be accepted.

Upon motion of Mr. Wexner, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

REPORT OF AWARD OF CONTRACTS AND
ESTABLISHMENT OF CONTINGENCY FUNDS
Resolution No. 92-59

ROBINSON LABORATORY - CENTRIFUGAL CHILLER REPLACEMENT;
SCOTT HALL - STRUCTURAL SYSTEM IMPROVEMENTS;
OARDC - WOOSTER CAMPUS WATER SYSTEM IMPROVEMENTS, PHASE I;
UNIVERSITY AIRPORT RENOVATION - 1991;
EVANS LABORATORY RENOVATION - BERLINGER RESEARCH; and
NEW NEUROPSYCHIATRIC FACILITY

Synopsis: Approval of the Report of Award of Contracts and the Establishment of Contingency Funds for the listed projects is recommended.

WHEREAS resolutions adopted by the Board of Trustees on October 5, 1990, March 1, 1991, May 3, 1991, and July 12, 1991 authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established University procedures, and if satisfactory bids were received to award contracts for the following projects: Robinson Laboratory - Centrifugal Chiller Replacement, Scott Hall - Structural System Improvements, OARDC - Wooster Campus Water System Improvements - Phase I, University Airport Renovation - 1991, Evans Laboratory Renovation - Berlinger Research, and New Neuropsychiatric Facility:

NOW THEREFORE

BE IT RESOLVED, That pursuant to the actions previously authorized by the Board, the Report of Award of Contracts and Establishment of Contingency funds for these projects is hereby approved.

Upon motion of Mr. Barone, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXXXV for background material and tabulation of bids, page 765.)

LEASE OF REAL PROPERTY
Resolution No. 92-60

2416 COMMONWEALTH PARK DRIVE NORTH
BEXLEY, OHIO

Synopsis: Lease of improved real property at 2416 Commonwealth Park Drive North in Bexley, Ohio is proposed.

WHEREAS The Ohio State University Foundation owns the improved real property located at 2416 Commonwealth Park Drive North in Bexley, Ohio, which property the Foundation purchased in August 1990 for the benefit of The Ohio State University; and
LEASE OF REAL PROPERTY (contd)

2416 COMMONWEALTH PARK DRIVE NORTH
BEXLEY, OHIO (contd)

WHEREAS the Foundation desires to lease this property to the University for purposes supporting and benefiting the University including general business and promotional activities, entertaining guests and supporters of the University and the use of such portion of the property as may from time to time be deemed appropriate by the University for the residence of the President of the University; and

WHEREAS under the proposed lease, the term shall be for so long as the University uses the property as specified above, with rent for the entire term being $1.00, with the Foundation and the University each having the right to cancel upon adequate written notice, and with the University being responsible for utilities and any necessary maintenance, repairs, and improvements; and

WHEREAS the appropriate University offices have determined that the lease of this property from the Foundation is in the best interests of the University:

NOW THEREFORE

BE IT RESOLVED, That the Acting Vice President for Business and Administration be authorized, in the name of the Board of Trustees of The Ohio State University, to lease the property at 2416 Commonwealth Park Drive North in Bexley, Ohio, from The Ohio State University Foundation, in accordance with the terms outlined above and upon such other terms and conditions as are deemed to be in the best interest of the University.

Upon motion of Mr. Barone, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

PURCHASE OF REAL PROPERTY

Resolution No. 92-61

1275 KINNEAR ROAD
COLUMBUS, OHIO

Synopsis: Authorization to purchase approximately 11.5 acres of improved real property located at 1275 Kinnear Road in Columbus, Ohio, is proposed.

WHEREAS the University needs additional multi-use office and warehouse facilities for current and future academic, research, and support programs; and

WHEREAS the Simmons Company has offered to sell to the University the property located at 1275 Kinnear Road at a price of $2,250,000.00, and this property has an appraised value of $2,765,000.00; and

WHEREAS a condition of the sale is that the Simmons Company remove asbestos, consistent with the University's Environmental Audit report, from the property prior to closing; and
PURCHASE OF REAL PROPERTY (contd)

1275 KINNEAR ROAD
COLUMBUS, OHIO (contd)

WHEREAS initial financing for this purchase will be provided through auxiliary enterprise funds administered by the Property Management Division of Business and Administration and it is anticipated that this interim financing would be reimbursed from University bond proceeds; and

WHEREAS the appropriate University offices have determined that the purchase of this property is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to purchase, in the name of the State of Ohio for the use of The Ohio State University, the improved real property located at 1275 Kinnear Road in Columbus, Ohio, at a price not to exceed $2,250,000.00, upon such terms and conditions as are deemed to be in the best interest of the University, subject to the University receiving the necessary approvals from the Ohio Board of Regents and the State Controlling Board.

Upon motion of Mr. Barone, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXXXVI for background and map, page 781.)

PURCHASE OF REAL PROPERTY
Resolution No. 92-62

1339 MT. VERNON AVENUE
MARION, OHIO

Synopsis: Authorization to purchase the improved real property located at 1339 Mt. Vernon Avenue in Marion, Ohio, is proposed.

WHEREAS The Ohio State University Marion Campus has a need for a laboratory facility for the Early Childhood Certification Program and for improved daycare facilities; and

WHEREAS the University has been presented with the opportunity to purchase, from McDonald's, the restaurant property located at 1339 Mt. Vernon Avenue in Marion at a price not to exceed $250,000.00 in addition to granting McDonald's appropriate gift credit for the remainder of the appraised value, and the appraised value of this property is $275,000.00 to $285,000.00; and

WHEREAS the acquisition of this property is in accord with the long-range development plan for the Marion Campus and the appropriate University offices have determined that the purchase of this property is in the best interest of the University; and

WHEREAS funds for the purchase, renovation, and operation of the property to house the Early Childhood Certification Program and daycare facilities will be provided by the Marion Campus:
December 6, 1991 meeting, Board of Trustees

PURCHASE OF REAL PROPERTY (contd)

1339 MT. VERNON AVENUE
MARION, OHIO (contd)

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to purchase, in the name of the State of Ohio for the use of The Ohio State University, the improved real property located at 1339 Mt. Vernon Avenue in Marion, Ohio, at a price not to exceed $250,000.00 and the granting of appropriate gift credit for the remainder of the appraised value as a gift to the University through The Ohio State University Development Fund, upon such terms and conditions as are deemed to be in the best interest of the University, subject to the University receiving the necessary approvals from the Ohio Board of Regents and the State Controlling Board.

Upon motion of Mr. Celeste, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXXVII for background and map, page 785.)

PURCHASE OF REAL PROPERTY

Resolution No. 92-63

5228 SAWMILL ROAD
DUBLIN, OHIO

Synopsis: Authorization to purchase the improved real property located at 5228 Sawmill Road in Dublin, Ohio, is proposed.

WHEREAS The Ohio State University has a need to acquire the property at 5228 Sawmill Road in Dublin, Ohio, to protect the clear zone safety area and approach corridor for runway 9R at the University Airport at Don Scott Field; and

WHEREAS the appraised value of this property is $140,000.00 to $150,000.00 and the owner, Mrs. Walter S. Umbstaetter, has accepted an offer from the University to sell this property to the University at a price of $140,000.00 and a life tenancy in the property; and

WHEREAS acquisition of this property is in accordance with the University Airport Master Plan and the appropriate University offices have determined that purchase of this property is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to purchase, in the name of the State of Ohio for the use of The Ohio State University, the improved real property located at 5228 Sawmill Road at a price not to exceed $140,000.00 plus a life tenancy for the owner, Mrs. Walter S. Umbstaetter, upon such terms and conditions as are deemed to be in the best interest of the University, subject to the University receiving the necessary approvals from the Federal Aviation Administration, the Ohio Board of Regents, and State Controlling Board.
December 6, 1991 meeting, Board of Trustees

PURCHASE OF REAL PROPERTY (contd)

5228 SAWMILL ROAD
DUBLIN, OHIO (contd)

Upon motion of Mr. Barone, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXXXVIII for background and map, page 789.)

RENEWAL OF EASEMENT
COLUMBIA GAS OF OHIO, INC.

Resolution No. 92-64

DON SCOTT FIELD

Synopsis: Authorization to renew an easement for gas service to Columbia Gas of Ohio, Inc., on University property located on the south side of Dublin-Granville Road is proposed.

WHEREAS in 1965 The Ohio State University granted to Columbia Gas of Ohio, Inc., a 25-year easement consisting of a strip of land ten feet in width and approximately 373 feet in length to supply gas service to the Ohio National Guard Armory; and

WHEREAS this easement expired on June 15, 1990, and Columbia Gas of Ohio, Inc., requested a renewal for a 15-year period; and

WHEREAS the gas service will serve private property, and Columbia Gas of Ohio, Inc., will compensate the University with a lump sum payment of $6,289.00 in consideration of the granting of the renewal of this easement; and

WHEREAS the appropriate University offices have recommended the approval of this easement:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request the Deputy Director of Public Works of the Department of Administrative Services, pursuant to his statutory duties, to act for and on behalf of the University in developing the necessary legal instruments to provide for this easement.

Upon motion of Mr. Kessler, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix XXXXIX for map, page 793.)

--0--
AUTHORIZATION OF MASTER LEASE

Resolution No. 92-65

Synopsis: Authorization to enter into a Master Lease Agreement for the purpose of leasing equipment with an aggregate cost of approximately $2 million for use by various departments of the University, is proposed.

WHEREAS the Office of the Treasurer and the Purchasing Department have concluded that tax-exempt leasing by The Ohio State University is an advantageous form of financing the acquisition of certain equipment for use by various departments of the University; and

WHEREAS the Office of the Treasurer desires to propose cost effective options for the leasing of equipment by various departments of the University; and

WHEREAS the Office of the Treasurer and the Purchasing Department have heretofore issued to leasing companies and other financial institutions Requests for Proposal with respect to such leasing program; and

WHEREAS to carry out the foregoing purposes, the University has selected Society Equipment Leasing Company (the "Lessor"), Cleveland, Ohio, and has negotiated a Master Lease Agreement dated as of December 1, 1991, with said Lessor providing for acquisition and use under the Master Lease Agreement of various computer equipment:

NOW THEREFORE

BE IT RESOLVED, That the Acting Vice President for Business and Administration and Treasurer be, and he hereby is, authorized and directed to enter into a Master Lease Agreement dated as of December 1, 1991, by and between the aforesaid Lessor and this University and, in consultation with legal counsel, to execute and deliver such other certificates, instruments and other documents, as are necessary or desirable to carry out the tax-exempt leasing program for the equipment mentioned above in an amount not to exceed $2 million during the term of said Master Lease Agreement. This resolution shall take effect and be in force immediately upon its adoption.

Upon motion of Mr. Kessler, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

Mr. Nichols:

The ability to enter into this type of lease is a relatively recent one, in terms of higher education; it is tax exempt. Of the first $2 million, we are going to use approximately $1.6 million involving the new mainframe computer at the Hospitals. It will be a 5-year term, with a fixed interest rate of 5.42 percent. It will function, essentially, as a line of credit to be drawn down with no fees involved if you do not use the line.

APPOINTMENT TO THE BOARD OF DIRECTORS OF
THE OHIO STATE UNIVERSITY MANAGED HEALTH CARE SYSTEMS, INC.
Resolution No. 92-66

Synopsis: Appointment of a member of the Board of Trustees to the Board of Directors of The Ohio State University Managed Health Care Systems, Inc., is proposed.

WHEREAS by resolutions adopted on May 3 and November 1, 1991, the Board of Trustees of The Ohio State University authorized the formation of The Ohio State University Managed Health Care Systems, Inc., approved the Articles of Incorporation and Code of Regulations for the Corporation, and authorized immunity, insurance, representation, and indemnification for University Trustees, officers, and employees who serve as Directors, officers, employees, or agents of the Corporation; and

WHEREAS The Ohio State University Managed Health Care Systems, Inc., was incorporated on November 25, 1991; and

WHEREAS one member of the Board of Directors of the Corporation is to be a member of this Board elected annually by this Board:

NOW THEREFORE

BE IT RESOLVED, That Theodore S. Celeste is hereby appointed as a Director of The Ohio State University Managed Health Care Systems, Inc., for 1991-92.

Upon motion of Mr. Barone, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

Thereupon the Board adjourned to meet Friday, February 7, 1992, at The Ohio State University Ohio Union, Columbus, Ohio.

Attest:

Madison H. Scott Hamilton J. Teaford
Secretary Chairman
THE OHIO STATE UNIVERSITY

OFFICIAL PROCEEDINGS OF THE

ONE THOUSAND TWO HUNDRED AND SEVENTY-NINTH MEETING

OF THE BOARD OF TRUSTEES

Columbus, Ohio, February 7, 1992

The Board of Trustees met at its regular monthly meeting on Friday, February 7, 1992, at The Ohio State University Ohio Union, Columbus, Ohio, pursuant to adjournment.

** ** **

Minutes of the last meeting were approved.

** ** **
February 7, 1992 meeting, Board of Trustees

The Chairman, Mr. Teaford, called the meeting of the Board of Trustees to order on February 7, 1992, at 10:30 a.m. He requested the Secretary to call the roll.

--0--

PRESIDENT’S REPORT

President Gee:

I would note, and particularly to those in the room, that this is an interesting place to meet -- instead of our usual tea and coffee, we can have a Board meeting with Biggie Fries and Biggie Drink! The Ohio Union is an important center of activity for our students -- from a dance to a career fair, from the bank machine to Chinese food, a variety of activities and services are found here. You might not be aware that Ohio State’s first student union, now Enarson Hall, was the first of its kind to be established in any state university in this country, built in 1909. This particular building was dedicated in 1951.

On today’s Board agenda is authorization for a feasibility study of a student affairs facilities complex. Providing appropriate space for students, faculty, and staff to participate in programs, enjoy services, or simply to informally interact is very important to building a stronger sense of community on the campus, and an even greater spirit of loyalty beyond graduation.

In the past month, I have met hundreds of friends of the University, from Florida to New York to Cincinnati. In every case, I continue to find enthusiasm for Ohio State and a recommitment to support for our outstanding programs.

This spirit was made evident last month when the College of Human Ecology announced the successful completion of their campaign to build two additions on Campbell Hall. In fact, they exceeded their goal of $1.5 million dollars! This success is due in large measure to the outstanding leadership of the outgoing Dean in the College of Human Ecology, Lena Bailey -- she is one of Ohio State’s truly great citizens.

Ohio State has been in the news as the only site in the country to test an experimental anti-lupus drug. We also have received attention for the development of a disease-resistant strain of elm trees. I mention these two examples as a reflection of the breadth of our continuing contributions to the citizens of this State.

I would be remiss if I did not acknowledge that with the expiration of the early retirement offering, we will be bidding farewell to a number of outstanding persons this month. While there are too many to list, I do want to mention a few individuals as representative of the exceptional service that our new retirees have rendered to Ohio State.

Joining the ranks of the retired are: Former Dean William Wallace of the College of Dentistry; Former Engineering Dean and Vice President Don Glower; Associate Provost David Boyne; Dino Pezzutti, Director of our Telecommunications Network Center -- the phone system as we affectionately call it; History Professor and Associate Dean of Humanities, Marvin Zahniser; Michael Frederich, in charge of the high voltage crew in Physical Facilities; Paul Hill, who has been with University Systems since before it was a "system"; Assistant Dean of Arts and Sciences, Don Good, who worked so diligently on the new curriculum; and June Hodapp, an assistant in the Athletic Ticket Office, who got more irate telephone calls than I ever did! We appreciate the work of each of our retiring colleagues.
February 7, 1992 meeting, Board of Trustees

PRESIDENT'S REPORT (contd)

President Gee: (contd)

And even as we say goodbye to some, we welcome to this University Ms. Linda Tom, Vice President for Human Resources and Relations. She brings to us outstanding experience and exceptional skills.

Like the members of this Board, I, too, am very enthusiastic and interested to hear the comments of the students in today's Open Forum. I have resumed again my "Student Night" visits around campus, and hear from students a variety of opinions and observations. Students share with us a serious concern about funding -- theirs and ours. I hear their disappointment at the reduction in bus service. Of course, we have protected our highest priorities in transportation services -- assisting disabled students, access to more remote locations, and night service as a public safety measure.

Students are very concerned about closed courses. You will hear a report today from our Provost and the Office of Academic Affairs regarding unmet course demands. Be assured that we are putting our best creative energies into solving these issues. From on-line registration by telephone, to the allocation of classroom space, the issue of course offerings is a complex one, but one we must address. And one made more difficult in this particular time of budget constraints. As you will hear shortly, we are making this issue a very high priority, and are providing some short-term relief at high pressure points by devoting one-time monies, saved in the delay of a utility rate hike, to addressing this problem for spring quarter. Students and their families are very concerned about tuition. I want to emphasize that we made the decision not to raise tuition now, mid-year. Although the state changed the ground rules on us, we will not do the same to the students during this year. And we remain mindful of the importance of protecting access and financial opportunity for a higher education for all of our citizens.

I want to close by complimenting the presidents of the three student government organizations for their outspoken and indeed outstanding leadership in advocating support for higher education by our elected officials. Together, students, faculty, staff -- all of us -- must do a better job of communicating to the people of this State the value -- and value added -- of one of America's great universities. With that Mr. Chairman, I turn the time back to you.

Mr. Teaford:

Mr. Chairman, before the Open Forum I want everyone to know that last night you won an award for your advertising portrayals in commercials on behalf of the University. This is one of the "Addie" awards that you won from the local marketing group.

President Gee:

I have always wanted one of those. I want to thank my mother and my father!

Mr. Teaford:

This is one of the ways we are cutting back, Mr. President. We aren't having to hire professionals to do our ads, because we have you instead.

--0--
February 7, 1992 meeting, Board of Trustees

STUDENT OPEN FORUM

Ms. Cusack:

Good morning. David Tonnies and I, as your student trustees, are glad that you could attend today and share your opinions with the Board of Trustees. David and I are only two people and feel that we do our best to represent all of you. This is a golden opportunity to directly state your views to the full Board of Trustees. They want to know what you think.

This forum is intended to be an exchange of ideas. Due to the time constraints it is not a question/answer session. We would like the Board to have an opportunity to hear as many ideas as possible. To this end, please limit your discussion to one topic per person. To further expedite the forum, we have asked students to sign up prior to being seated. Chairman Teaford will go straight through the list and call out your name. When your name is called please speak into the microphone and state your name, hometown, major, and year in school. Please be considerate to your fellow students and honor the two-minute time limit so as many people as possible will have the opportunity to speak. As this is a student forum, only current OSU students are asked to speak.

Thank you, again, for attending.

Mr. Teaford:

Thank you, Ms. Cusack. We will call first upon Shelton Beasley.

Mr. Shelton Beasley:

Good morning, Mr. Chairman, Board of Trustee's members, President Gee and everyone else behind me. The issue I'd like to address is the course offerings issue which was just brought up. I would like to just describe my case as an example of what I think is going on with a great many students right here at the University.

When I started here fall quarter I had fifty credit hours to complete. Theoretically, if I went two quarters with fifteen credit hours and one quarter with possibly twenty or an increased number, I could graduate by the end of spring. But due to the class offerings, I can't get the classes that I need. I accepted that and deferred my graduation until summer.

Meeting with my advisor, Ms. Shelia Jolla in the College of Arts and Science, we sat down and tried to come up with a schedule so I could file my application for graduation and go ahead and go through the necessary procedures to graduate. Even though my graduation was deferred until summer, I still can't get the classes I need or I may not be able to get them. Departments are putting classes up, taking them off, putting them up, taking them off. I don't know what tomorrow brings, and I can't focus fully on my school work. And I felt so strongly about it that I felt that it was necessary for me to bring this up.

What I'm trying to say is that, basically, students shouldn't be forced to have to deal with the situation where classes aren't being offered and have to worry about will they be in school next quarter, when will they graduate, and things like that. Students should just have concentrate on class work and getting through classes and so forth. This whole thing about dealing with classes is something that is thrown into the middle and is taking away time that I could invest in my studies and job search or going to graduate school. And I think after investing five years in The Ohio State University and the state education system as a whole that it's just not right. It's not fair, and something should be done about it.
Like I said, it affects me and it also affects other students. I'm a minority scholar from the Office of Minority Affairs. The money that I'll be using possibly Spring and Summer Quarters and maybe in the following Fall Quarter, could be better suited towards bringing another minority student into the University and having that student get the full use of the University's facilities. You are wasting it on me by not letting me graduate. That's all I would like to say.

Mr. Teaford:

And I would note that the next order of business will be a discussion of that very topic by Dr. Hutchinson, so that's one I'm happy to say we are somewhat aware of. Next, Tim DeHart.

Mr. Tim DeHart:

Good morning. My name is Tim DeHart and I'm a senior from Franklin, Ohio, majoring in advertising. I hope that I can aspire to be like Dr. Gee and win an Addie someday.

I'm here to talk about traditional campus activities. I was the chairperson of the Homecoming Committee this past fall and am currently the chairperson of Parents Weekend, and also a member of the Student Events Committee. We are having difficulty planning these traditional-type activities. And if we want, as an institution, to make these activities important then we need to find some way that we can say that these are special activities and to make the path in planning these activities a little easier.

We have administrators that when we want to do different type of events such as bring a pep rally in, they tell us no. Instead, we need to figure out ways to say how we can do it differently and come up with creative ways to do it. Because these activities are the very activities that are going to foster the community and make the University more of a community for the students, they are very important. They can be excellent public relations tools for the University to market.

For Homecoming we were on the news every night during homecoming week, and it sends a message to the community. So we need to in some way say that these are important activities so that we can help the students. Because right now I'm having difficulty finding a replacement for me for Homecoming. But it's not because students don't want to do it, it's because it's such an undertaking. So if we want to keep these activities, we need to figure out how to make it easier for the students to plan. Thank you.

Mr. Teaford:

Thank you, Mr. DeHart.

Dr. Gee:

Tim, thank you very much. As you know, Dr. Spillman and others are working very hard on making our activities "student-friendly." Mr. Chairman, there is a lot of talk about how we're going to be able to do that. But I might point out that Tim and the students that have worked with him have done an absolutely remarkable job. Those that attended Homecoming this year know that it was a real undertaking and one that was student initiated. It is that sense of community that we really do appreciate Tim.
February 7, 1992 meeting, Board of Trustees

Mr. Teaford:

And having judged both the Homecoming Court and the Gordon Gee look-a-like contest, Mr. President, I can attest to that as well.

President Gee:

I was real irritated when I came in third place in that contest.

Mr. Teaford:

I now call upon Mr. Conte.

Mr. Marc Conte:

Good morning, my name is Marc Conte. I am a senior majoring in Communications from Seven Hills, Ohio. I represent the Bisexual, Gay, and Lesbian Alliance here at Ohio State.

As an openly gay man, I face many forms of oppression at Ohio State. I have people ignore me when I come out, I suffer verbal insults, and of course a potential gay basher is always lurking around the corner. These are issues that are very hard to deal with directly.

One issue however that needs to be acted on immediately is that of ROTC discrimination. The Reserve Officer Training Core program specifically excludes gays, lesbians, and bisexuals which is a direct violation of the University’s non-discrimination policy. Should Ohio State take action to retain their integrity, other universities across the country would surely follow their example.

Now, President Gee has stated that he disagrees with the policy, but refuses to do anything but write letters of protest. He has told us to lobby Washington, and we have tried that for two years now, as best we could while still living in Columbus. It is now time for immediate action to end this discrimination. Just last year the University began a promotional campaign, of sorts, that highlighted its commitment to fighting discrimination and its promotion of affirmative action. And how can anyone, any person of color, any woman, or anyone of a religious minority, let alone someone who is gay, lesbian, or bisexual feel safe on this campus while the ROTC discrimination continues. That is all that I have to say, thank you.

Mr. Teaford:

Thank you, Mr. Conte. I just want to say that while I will not be responding to these, the people surrounding us are all charged to look at all of the issues that you raise to us today. So we will get back at a later time on all of these things. Thank you. Ellen Bouton --

Ms. Ellen Bouton:

I am passing around some brochures. My name is Ellen Bouton, I am a senior in Agricultural Communication and Agricultural Economics from Mt. Vernon. I represent an organization called the Student Alumni Council and we provide services to students in the past, present, and future. Our main focus is on students, present Buckeyes, that are here attending The Ohio State University.
I find, and a lot of other students find, that we are just a number here, whether anybody wants to believe it or not, and our organization wants to make students feel welcome. We do anything from welcoming new freshman to campus with a bunch of balloons, to sending our seniors off with a picnic the day of commencement practice. We also try to link-up students with alumni through different programs called the Extern Program, which is short-term shadow to a new program called Dinner for Twelve Strangers. We put students, faculty, and alumni together for an evening, for dinner just to get to know each other so that students feel a little bit more welcomed and that they know people on campus and it gives them an opportunity to meet people in their field.

I really don't have an issue, I just wanted to let you know that there are some of us out there that care about students and we welcome you to the Union where most of us live. Thank you.

Mr. Teaford:

Thank you, Ms. Bouton. We appreciate what you are doing. Julie Knight --

Ms. Julie Knight:

Good morning all. Cecile Bishara, managing editor of the Makio yearbook, Steve Casburn, who is academic editor and student advisory board member, and myself, Julie Knight, as student advisory board member, would like to come before you to talk about an issue for the Makio.

We are a tradition at Ohio State, a long-standing tradition since 1880. We are now a tradition in peril. We have been fighting the past few years to create an awareness at this University. It is a very large University, so it is very understandable that we have this difficulty, but we are finding that many people do not know that we exist. Our small staff of volunteer students has worked very, very hard and has made super-human efforts, I believe, to solve our marketing and our PR problems. But we have decided and come to the conclusion that we need more than just our staff's help, we need the University's support.

We are painfully aware of the financial economic situation in our community and in the nation, so we do not come to ask you for large financial gifts. What we do ask for is your support through some very specific things by allowing us to make student population aware through the registration process and through student orientations that are held for incoming freshman each summer. That way they can at least be aware that we have a book. We are discovering -- we are getting phone calls after people graduate saying, "I did not know there was a book and I would like to order one." As well as alumni calling up and saying, "Do you have a 1964 book? Do you have a 1940 book that we can purchase from you?" As well as the person that just walks in the door to our office and says, "I need some information from 1933, can I look at your book?"

So we are a written record of this University and we are a record at risk. We believe that we have an importance here and we would like some support with that. Thank you, very much.

President Gee:

Just a question, we don't want to spend a lot of time because we can talk about it afterward, have you already explored that with --
February 7, 1992 meeting, Board of Trustees

Ms. Knight:

    We have begun to explore it with Dean Hollingsworth and with --

President Gee:

    You haven't found resistance -- what you are saying is that you just hope that people would be supportive of that.

Ms. Knight:

    That is correct. We've already received some support and we are very happy that that has happened.

President Gee:

    Ok, thank you.

Mr. Teaford:

    Thank you, Julie. Next, we will hear from John Spry.

Mr. John Spry:

    Hello my name is John Spry, I am a junior in economics and math, and I am from Tipp City, Ohio. I would like to speak about what I think the University should be all about and that is academic inquiry, academic freedom, and the pursuit of knowledge. And I see problems with this at Ohio State. I guess the label to this problem is political correctness.

    The specific issue is that the University is funding political groups that are taking only one side of two very important topics that should be debated. That is should there be restrictions on abortion, and should there be restrictions on homosexual activity. And the Office of Women Student Services, and you will here more about this today, is taking a very, what is called, "pro-choice" position. I don't think that is the role of the University to be taking a blatantly political position with State money and people's tuition money.

    Also, as you have heard, there is a new Gay, Lesbian, and Bisexual Student Services group which is taking one side only. The other side doesn't get funding. As far as the students' groups they are fine. There are student groups that are on both sides of these issues. But I don't think that it is consistent with academic freedom and inquiry to take positions on just one side of hotly debated political issues. That is not the role of a university.

    I would like to submit that it would be in the best interest of the University to do away with these two offices and take the money you save and use it for some very good purposes that would benefit these groups. Namely, use it for rape prevention and education in the police department. And in the police department use it to work and try to stop hate crimes against gays. They are wrong, they shouldn't happen. It could also be used for general student safety which would effect these groups. But I do not think that it is consistent with academic inquiring debate for the University to take sides on political issues. I don't want to see this ever have a sovereign state kind of problem at Ohio State. I trust that we never will have it, but I think we should avoid something like that by getting the University out of the political debates. Thank you, very much.
February 7, 1992 meeting, Board of Trustees

Mr. Teaford:

Thank you, Mr. Spry. Angela Tucker --

Ms. Angela Tucker:

Good morning ladies and gentlemen. The issue that I am going to address today is the discrimination of the Women Student Services, a branch of this University, to where our tax money and tuition goes against the pro-life position.

President Gee:

Angela, where are you from?

Ms. Tucker:

I am Angela Tucker, I am from Ohio State University Students for Life.

President Gee:

No, I mean your home town.

Ms. Tucker:

I am from Lancaster, Ohio. Like I said, Women Student Services, a branch of this University, as it gets tax and tuition money, is discriminating against Ohio State University Students for Life in the issue of not including us in their referral systems for women. In the student handbook the mission of the student services is stated as carrying a current and comprehensive referral list of campus and community services available to women and men. These resources include the Women's Resource Handbook, Women Networks, Crisis Referral Lists and the Quarterly Calender that is distributed all around campus.

Despite the fact that we offer services for women and we meet all of the requirements for inclusion, the Office continually and emphatically denies our right to be included on the calendar. Services that we as Ohio State University Students for Life offer include many educational opportunities and service opportunities, including a baby shower that we are going to have for women who choose not to abort their babies and who choose to have their babies, but cannot afford the baby clothes or the prenatal care.

Cynthia Harris, the Director of Women Student Services, in a recent letter to Ohio State University Students for Life said the following, "Through our every statement and action we strive to promote women as intelligent and unique individuals capable of assessing a complex situation and choosing our most appropriate option." If she really believes what she is saying, why does she withhold information relevant to those situations. She's denying women the opportunity to make an educated choice. The Ohio Legislature has upheld this with passing overwhelmingly the Women's Right to Know Bill.

I've presented you with some problems and here are the solutions that I would like you to consider. First of all, we would like for OSU Students for Life, Ohio Right to Life, Columbus Right to Life, and Pregnancy Distress Center to be included on the calendar and on the resource list. This is in keeping with the calendar already because it already includes the National Organization for Women and the National Abortion Rights Action League.
Secondly, we demand the resignation of Cynthia Harris because in the previously mentioned letter she also said, "It is our mission to preserve and protect women’s right to choose." That statement is not in accordance with the statement of purpose in the Women Student Services handbook statement. It is a personal agenda that she is trying to fulfill through her professional capacity. Thank you for your time.

Mr. Teaford:

Thank you, Ms. Tucker. Michel O'Hara --

Ms. Michel O'Hara:

My name is Michel O'Hara. I am a master's candidate in the Department of Photography and Cinema, and I am here to speak in another term of academic freedom and the University’s responsibility to students.

Basically, I am concerned about academic cuts which are rapidly being proposed across this University, and specifically the termination of the Department of Photography and Cinema at this time. One of the problems that I think this University is facing as a whole, and will continue to face, is the fact that there aren't really any guidelines or procedures by which to terminate departments, or they are so vague that this is leading to willy-nilly cuts done without research and without planning, which is something that is very vital. And extensive research and planning has to be done in the establishment of these same departments.

In a termination of a department it is our understanding that this is something that once this has occurred there is not the opportunity ever again in the history of the University for that unit to exist. So if a termination happens, and it happens to be a wrong decision, or a mistake, or something that isn't in the best interest of the University, and we find out somewhere down the line that we want to reinstate a department, that is not possible after a termination.

Specifically, I have over 2,000 signatures and numbers of letters from professionals in the field and in academe from students, from faculty, from alumni, from citizens of the State of Ohio, who all are asking specifically for the immediate withdrawal of the termination proposal for the Department of Photography and Cinema; the retention of the Department of Department of Photography and Cinema as a discrete academic unit; and to look toward and try and find the appropriate administrative structure in order to support this academic discipline or these disciplines.

Mr. Teaford:

Thank you, Michel. We will be reading the information that you have given us and we appreciate it.

Ms. Michel O'Hara:

Thank you.

Mr. Teaford:

Greg Schwab --
Mr. Greg Schwab:

Members of the Board, I am Greg Schwab. I am a third-year law student from Westerville, Ohio. I just want to briefly express my concern over the situation developing today in the media, regarding what appears to be a selective legal defense of a particular student afforded by this University. This is in regard to the student arrested by OSU police involved with the situation of arson in a dormitory. Apparently, an official at this University supplied an attorney for the representation of this particular student and attempted to have these charges dismissed. Against criticism there is now a suggestion that police arrests made here at this University be afforded prior review before going downtown to the Prosecutor's office.

I am concerned that such involvement would, in either reality or in appearance, appear to allow the University undue influence in criminal matters. There is no other police agency in this county right now that has their arrests reviewed by a city employee, for instance, as far as I know. And the Prosecutor's office has and does screen all charges brought forth to them before proceeding in court. We have a highly trained professional police department, we don't need the police department reduced to a security department by the influence of the University. Thank you.

Mr. Mitchell Smith:

Hello, my name is Mitchell Smith and I am a graduate student in Biomedical Engineering from Fremont, Ohio. I am also the student representative for the Joint Committee on Solid Waste Management and Planning.

What I have to say is pretty fundamental. We can save a half a million dollars over the next three years if we start a recycling program immediately. Waste disposal costs are doubling every year and the longer we put off recycling the more money we are going to lose. The report of the Committee is a result of many hours of work by President-appointed experts in the field. It is not environmentalist propaganda, it is just a good cost savings proposal that we would expect to be implemented if it were in the private sector. We need the recycling program now to meet state law and, more importantly, to quit wasting money. It is just a wonderful bonus that environmentalists happen to agree with this proposal.

Start up and education may take a while. We urge you to urge the administration to set forth the minor investment costs to implement this proposal. Please tell us when we can start. I would like to thank Mr. Shkurti for speaking with us on this issue, but if we don't get started soon, we are literally going to throw all of our money in the trash. Thank you.

Mr. Dan Robins:

Good morning. My name is Dan Robins, I am from the Department of Chemistry and I am a graduate student. And what I would like to speak about, again, is a reflection of the latest rounds of budget cuts that have hit the University and, specifically, how it has affected the Department of Chemistry.
We have been told, as graduate students, that a serious threat of our in-house funds for research is going to be affected. In fact, it could be drying up as we speak. And as a result of this, progress will be severely hampered because of small equipment purchases, and simple repairs. The little things that the graduate students take most part in -- and not so much the faculty members -- will be difficult to obtain. And, again, this will just hamper research.

We are well aware that similar troubles affect every department throughout the University. What I'd like to speak about, and I am sure there are a lot of other students that would support this, but again it is a very difficult issue and one that I would believe you will be facing in the next few years, is that this University, as well as many others throughout the country cannot be the biggest and the best for everyone and everything. And there is going to come a point in time where decisions are going to have to be made on what areas to strengthen that are strong, and what areas to bring out that are weak. There are going to be some serious sacrifices, and I want to support the Board in the future because this is going to be a very difficult issue. Thank you.

Mr. Teaford:

Thank you, Mr. Robins. Mr. Butalia --

Mr. Tarunjit Butalia:

Good morning, members of the Board. My name is Tarunjit Butalia and I am an international graduate student pursuing my Ph.D. in civil engineering. First of all, I would like to thank you all for this opportunity for us. This really shows the keenness of the University for student participation. I am really grateful for that.

My question, however, is with regard to the proposed special fees. We have heard a lot about the possibility of special fees for students. With a reasonably big tuition hike, which could be coming as soon as fall, the students are concerned about special fees in addition to the tuition hike. However, I must say that some students do see some advantages in some of these special fees.

Keeping all of these points in mind, I would like the Members of the Board to look at this issue of special fees with great care and with no hurry. Thank you.

Mr. Teaford:

Thank you, Mr. Butalia.

President Gee:

I might just note to you that we do have a committee looking generally at the issue of fees, so that we have a more coherent structure. I am not certain if you are aware of that, so that really does respond to your issue. We are concerned also. We do not want to develop a fee structure that makes no sense. At the same time, we do want to be readily available for targeting particular programs in which there are special costs and maybe special needs. So we are looking at that in a comprehensive way, but I appreciate your point.

Mr. Teaford:

Thank you, Mr. President. Kathleen Carberry --
February 7, 1992 meeting, Board of Trustees

Ms. Kathleen Carberry:

Good morning. My name is Kathleen Carberry and I am a first year graduate student in the Department of Art Education.

As a graduate student, I am concerned that further departmental cuts will make it prohibitively difficult for graduate students to continue their educations, particularly in my department of art education which is nationally recognized. And as the arts continue to gain in reputation -- and certainly have a greater opportunity to gain in reputation with the addition of the Wexner Center to the OSU campus -- I am concerned that sufficient funds be available for the continued growth and excellence in the arts at Ohio State University. Thank You.

Mr. Teaford:

Thank you, Ms. Carberry. Sandra Thomas --

Ms. Sandra Thomas:

Hello, I am Sandra Thomas from Cleveland, Ohio. I am a graduate student in the Department of Preventive Medicine, and I am an Alumna of the College of Medicine.

I would like to speak briefly on the situation of funded graduate students. I am a funded graduate student and I feel that we perform many vital service and academic functions at the University. So we serve the University, and the funding is also critical for many G.A.'s to complete their degrees.

As funded graduate students, we are considered student employees and as such we don't have the benefits or protections of our other faculty and staff colleagues. There are some stated policies for the treatment of G.A.'s in the Graduate School Handbook, but departments don't enforce that uniformly. And if the student has a problem -- I was in a situation where I took a lot of initiative, I made phone calls, went to offices, and inadvertently stepped on some peoples toes. There was no real clear policy for resolution of grievances that graduate students have.

And I think that there should be increased profile for maintaining some uniform employment standards for G.A.'s. There should be a clearly identified resource that graduate students know about and that departments know about so that if graduate students have grievances, they can resolve them.

I think that it is also important for that to be non-departmental, because many graduate students work in their academic unit. So that any employment issues -- if they dealt with them also have academic implications for them. So I think that many graduate students suffer because they are afraid of not getting their degrees. I think that this is a situation that really should be stopped. We are employees of the State of Ohio and we should be treated fairly. The system should be set up so that it is easy for us to identify resources rather than having us suffer in silence.

Mr. Teaford:

Thank you, Ms. Thomas. Eileen Best --
Ms. Eileen Best:

I am Eileen Best and I am a doctoral student in the College of Education., I am from Columbus, and I work in Women Student Services.

The Office of Women Student Services was founded on a feminist philosophy which emphasizes women’s choice in all aspects, including reproductive rights to choose. The Women’s Calendar is a symbol of that feminist philosophy and will not include programs or organizations which seek to oppress the rights of women or other minorities. All programming and information offered through Women Student Services seeks to provide an environment which does not judge women based on religious or any other doctrine or dogma which historically oppresses women and minorities.

Ms. Kelly Sprague:

Hi my name is Kelly Sprague and I am a graduate assistant in Women Student Services. I am a graduate student in higher education in Student Affairs and I am from Dallas, Texas.

I also wanted to say that the Office of Women Student Services was founded from a political standpoint in the early 1970’s, when women were oppressed in different forms in the area of higher education. What the gentleman and young lady said from Students for Life, what they mentioned about being discriminated against simply is not true. They have been formally offered opportunities to be included in our referral system, as well as have their materials included in our library.

The Women’s Calendar is an advocacy tool which promotes the feminist philosophy upon which our office was founded, and would serve to promote programming which seeks to empower women in all aspects. How can the Student's for Life Organization ask for views on reproductive rights not to be thought of and expressed in our office? Their existence is merely a position on what their position is concerning this issue and if we promote their position, we would be still expressing a position.

This issue goes far beyond the Office of Women Student Services as it effects women everywhere, in every arena. Thank you.

Mr. Teaford:

Thank you, Ladies. John McCluskey --

Mr. John McCluskey:

Good morning. My name is John McCluskey and I am a sophomore from Springfield, majoring in political science and communications. I'd like first of all to thank the President and the Trustees for providing this open forum. I think that these kinds of things are very important to keep in touch with us students and let us air our differences.

I am here to talk to you about campus radio, WOSR. I am the new general manager of WOSR. The University currently holds licenses for an AM, FM, and a television station, but there is no means for direct student participation in these stations. WOSR is the only free format station where any student, any member of this University can come and get practical knowledge of what it is like to work in a radio station -- get real world experience.
February 7, 1992 meeting, Board of Trustees

Now we realize that funding is really short and I am holding up my end of the bargain. I have seen the funding crunch myself. I have instituted a lot of Yeltsinesque budget crunching reforms at WOSR. I have discussed it with Dean Hollingsworth, the Dean of Student Life. We are holding up our end of the bargain, we are going through our end of Perastroika, now we would like you to show your support.

You said that you are willing to work with us. And I believe it would require in relation a small amount of money to get us going and to provide this sort of opportunity which could really help the students majoring in communication, journalism, or advertising for that matter. This could be a real force for the community and a real opportunity for students of these majors to gain some practical, real world experience to help them in the job market. I yield the balance of my time. Thank you, very much.

Mr. Teaford:

Thank you, Mr. McCluskey. Mike Hughes --

Mr. Michael Hughes:

My name is Michael Hughes. I am the Undergraduate Student Government Regional Campus Representative from Mansfield. When you ask me where I am from, I like to taut my home town of St. Louis, Missouri, although, I moved to the booming metropolis of Port Clinton, Ohio, several years ago.

This past weekend administrators and students from the Regional Campuses got together in a forum to discuss problems which are facing the Regional Campuses. This was when this problem was brought to my attention. Apparently, the admission standards of Ohio State are changing and they are looking to get better students here at Ohio State, and I commend that. Apparently students at the Regional Campuses are going to have to meet these standards when they transfer from a Regional Campus to the Main Campus.

When I was at Mansfield, I felt that I was not a part of The Ohio State University, I felt like I was removed. And I think there is a problem with communication and lack of information to the Regional Campuses. If in fact they have to meet these standards again, when coming from a Regional Campus to Main Campus, I believe that is going to further alienate the Regional Campuses and further alienate the student from being a part of the family of The Ohio State University. I do not believe you can do this to these students. I believe they should meet these standards when they are admitted to any branch campus of The Ohio State University, so we will not promote any alienation of this type. Thank you.

Mr. Teaford:

Thank you, Mr. Hughes. And I might say that this Board will be holding its April meeting on your campus in Mansfield, so we look forward to seeing you then.

Mr. Michael Hughes:

I will be there.
February 7, 1992 meeting, Board of Trustees

Mr. Teaford:

I want to thank all of you for your insightful comments. I am sure that I speak for the Board when I say that we very much appreciate having had this opportunity to hear the students of this University and to get your views. Thank you, very much.

Mr. Wexner:

I want to take this opportunity to congratulate the Chairman and also the President for taking advantage of this particular opportunity to have an open meeting. And I wanted to remind the University family that the Board meetings are open, there are ten of them a year. I think it's the clear intention of all the Trustees that our meetings are open and transparent. Although this is an unusual form of a meet, the fact of it is that it is not unusual in the fact that all of the Trustees meetings are open to the public, particular the University family.

I think of the issue of questions and statements coming from faculty and students, the Trustees, as well as the Administration of the University are sincerely interested in peoples' opinions and questions. I know in discussion with other Trustees, we're quite anxious for that input. So whether those questions or opinions or statements are directed to individual Trustees, through the President's Office, to the Chairman, to the Secretary to the Board of Trustees, the more information we have the more things we are aware of, the better able we are to do our jobs.

I would assure you that all of the Trustees take their public responsibility seriously. And the Provost's response publicly to an inquiry of the Board, inquiring of the faculty how many are teaching, what percentage are on leave, is a small demonstration of the kinds of questions that we ask trying to fulfill our responsibilities.

And I'll exclude myself from this blanket statement, but I assure on a personal basis that I take the job seriously. Is that the Trustees, as well as the faculty we are all in this together and we are dedicated to make this the best possible Institution. I think today's meeting is the clearest endorsement of the sincerity of everyone involved with the University in that undertaking.

Mr. Teaford:

Thank you, Mr. Wexner.

--0--

**STEPS THE UNIVERSITY IS TAKING TO ADDRESS CLOSED CLASSES**

Dr. Hutchinson:

First I'd like to try to define the problem of closed courses as we see it in the Office of Academic Affairs, and then speak about the solutions that we are intending to put in place. The problem is this: closed courses have a long tradition at The Ohio State University.

In the past, much of what we refer to as closed courses has been, in fact, a matter of course deferrals, where students are unable to take the courses that they want when they want to take them. In most instances, students have adjusted to this practice by taking other similar courses which are open or by taking fewer courses in a given quarter. This practice has become part of the way of doing business at this Institution, as it has at many other large universities in this country. It causes considerable frustration for students and for parents. But as long as it was possible to shift curricular requirements students and parents tolerated the practice.
February 7, 1992 meeting, Board of Trustees

It is difficult to eliminate the problem because students' preferences for courses offer starting a sequence of course work shift from year to year and they're often a mismatch with University resources. Massive enrollment shifts towards certain majors often strain the resources within the Institution, in terms of both teaching staff and in terms of facilities. During the past several years we have seen massive shifts toward several of the majors in the College of Humanities and the College of Social and Behavior Sciences.

More recently, just this year tremendous pressure has been put on basic chemistry by a plan change in the Engineering curriculum, compounded by a shift of student interest in pre-med. Fortunately, through a combination of new resources from the Office of Academic Affairs and the College of Mathematical and Physical Sciences much of that pressure has been relieved this Autumn and Winter Quarters, although certainly not all of it. I must admit that our ability to respond to massive enrollment shifts is limited and needs to be improved.

The problem of course deferrals is somewhat relieved by priority scheduling systems that give our rank four students, graduating seniors, honor students, and disabled students top priority in the scheduling process. With a system of deferred scheduling, there is often a back-log of students waiting for a course from quarter to quarter. These groups with priority are given preference by our computer scheduling system, "Brutus," in course scheduling.

The Council on Admissions and Registration is at work on improving this system with the refinement of priority scheduling and the development of a "wait list" that will hopefully take away the despair of getting closed out of a course over and over again. I'm also asking the Registrar to examine the feasibility of an automotive deferral system. So that students closed out of a course one quarter would be given higher priority to register for that course the following quarter.

Over the long-term, the very notion that practices that irritate and frustrate students and parents as well, exist at an institution striving for excellence should be examined. Certainly, major efforts are underway in the Office of Admissions, Student Financial Aid, and Fees and Deposits. To the extent that is possible, all such practices including closed courses and deferred courses should be minimized or at the optimum eliminated.

On the short-term the problem is increasing at an alarming rate and immediate steps need to be taken to minimize this problem in this University. The close out problem has grown much worse in the last two years. In addition to enrollment shifts, two factors have aggravated the problem.

The first factor has been the general education curriculum that we are now implementing. Also, much tighter curriculum than the BER's that existed before, and this has virtually eliminated free electives. Without electives and with more general education courses, students have less flexibility to choose other open courses when they're closed out of a given course.

The second factor has been the reduction in resources to deliver courses, because we all know of the budget reductions that have been required. Although we attempted to protect the academic core in last year's cuts, many cuts were taken by not filling vacant positions. Needless to say, we are concerned that the most recent cuts will further erode our ability to maintain our level of course offerings.

Now the solutions that we suggest: three aspects of the problem need to be changed in order to arrive at a solution. One is an attitude about the problem; the second is financial resources; and the third is classroom space. Let's take them in order.
February 7, 1992 meeting, Board of Trustees

Attitudes about the problem. All levels of leadership, including the deans and department chairs, many of whom are in the room today I'm pleased to see, need to be convinced that this is a real problem. That elimination of it is a priority for this Institution and that it will take a considered and multi-level effort to confront the problem. I wish to state, parenthetically, that I've already initiated discussions with the deans and the associate deans in the Colleges of the Arts and Sciences on ways to address this problem.

Second the financial resources. A sum of money in excess of $500,000 will be committed to this effort immediately. The mechanism will be developed in the very near future to allocate those funds on a one-time basis to resolve major back logs in courses.

On the recommendation of a task force that recently completed an analysis of the subsidy implications for summer enrollment, a number of courses having a history of close outs will be offered in the summer in the hope of relieving some of that back log. These funds will also be used to create additional sections of closed courses which will be offered during the regular academic year.

The third problem -- space. Even if we had the resources to create enough new sections of closed out courses, we do not have enough classroom space to hold those sections. I believe that there were 368 classrooms five years ago, we are down under 300 now. The cause for that is two-fold. One that a number had been committed to other uses before we realized the dimension of the problem. And secondly, we have a number of buildings now being renovated which have taken classrooms out of use, but will be available later.

On the recommendation of the Classroom Coordinating Council, I will ask the Council on Admission and Registration to immediately examine the feasibility of extending the traditional day schedule. So that instead of 8:00 a.m. to 5:00 p.m., it would be 7:30 a.m. to 5:30 p.m. That would extend our amount of classroom space automatically by about 11 per cent. This will effectively increase the number of hours available by one hour.

I am asking that no classrooms be removed from the classroom pool until such time as new classrooms come on-line. The problem will be lessened by about 1994, when some of our new classrooms are built. But in the meantime, we're going to have to deal with the problem and a major solution, we feel, is extending the classroom day.

It is important that students and faculty accept this solution and participate fully. Simply extending it without having any classes offered in those hours is not going to help very much. And in fact, if you know we already have quite a lot of free time between 8 a.m. and 10 a.m. and between 3:00 p.m. and 5:00 p.m. So the whole campus is going to have to participate in this as a solution if it's going to work. But it can work without any great undue hardship to any body.

Finally, I'm appointing a task force consisting of representatives from the Office of Academic Affairs, the Office of Finance, the Colleges of the Arts and Sciences, the Council on Admission and Registration, and undergraduate, graduate and professional student groups to examine the long-range problem related to course close outs. This group will examine the issues surrounding this matter, including: new ways to respond to enrollment shifts; a computerized system of enrollment deferment; a system of academic counseling that would help students consider options in advance of registration; and finally, the eventual minimizing of the elimination of closed courses.

Mr. Chairman, that completes my report. I believe you and other members of the Board have raised the question as to the number of faculty members that are teaching this year. I have put before you a summary that we did not have and we have taken considerable time to pull together in the last few days.
February 7, 1992 meeting, Board of Trustees

As you will see from this out of 2,840 faculty members on the Columbus Campus this year, 2,754 are teaching. And I want to explain what we mean by teaching. That is not that they are simply perhaps carrying a one-credit seminar course, these are in the classroom teaching. That means there are only 46 that are not.

There are another 40 that are on professional leave this year, but that's as it should be. And for an institution of this size that may be low. Perhaps we should be critical of that small number. But it's only 46 and one at a time I could tell you that a number of those are in the College of Agriculture and are people that have other assignments and therefore would not be expected to be in the classroom. So in fact it's a very small number of people that are not in the classroom teaching.

In addition, I would point out to you that we have found that in looking in this matter that almost all assistant and associate deans teach and, in fact, many of the deans teach. So, I think the answer to the question is very clear. The faculty of this institution teach. Thank you.

Mr. Teaford:

Thank you, Dr. Hutchinson. I might add to what you said, that I understand that at least one of those non-teachers is a professor who has about ten graduate students with whom he works. And any body who thinks that that is not teaching does not understand what a university is all about. So I think when we look at the whole view of teaching we must understand that graduate school teaching doesn't even show up in any of the statistics.

I thought, too, that Mr. Beasley's situation illustrated another one of the problems that we have. If you want to take fifty hours in three quarters -- that's very, very difficult and does put an extra strain on the University, because that is an extraordinary load and therefore is more difficult. So it is important that students plan ahead to spread their load a little more.

Ms. Casto:

I would like to thank you for all of your hard work you have done on this. You moved so quickly and swiftly to find a solution to these problems and I think a lot of them will help to solve some of the problems and ease some of the tension here.

Dr. Hutchinson:

Thank you, Ms. Casto. I would like to point out that I did not mean to leave the impression that there will not be some closed courses next year. To eliminate this problem in the near term would be unrealistic. We need to lessen it substantially and we need to take these steps and hope that as we can bring on more classrooms and take the step of an extended day that it will be much better next year.

Mr. Teaford:

Dr. Hutchinson, how many more persons did you say had wanted to take a first-year chemistry course this year, than in the past.
February 7, 1992 meeting, Board of Trustees

Dr. Hutchinson:

We had about 600 in the Winter Quarter unusually. There was no way that we could have predicted that because we did not know that Engineering had changed their requirements, so that added about half that number. And then another 300 was simply people who are not yet in pre-med, but think they are. And they want to be sure to take chemistry, because that's a very critical course. Therefore, the numbers that chose to take that instead of some others science course shifted drastically and unexpectedly.

Mr. Teaford:

I think that number just illustrates how very, very difficult the circumstance is when an extra 600 people can want to take a class all of a sudden. So that's how difficult the situation is. Thank you, Dr. Hutchinson.

--0--

STUDENT AFFAIRS COMMITTEE MEETING

Mr. Tonnies:

This morning the Student of Affairs Subcommittee reviewed the proposal for modifying the procedure for the selection of the student trustees. We've been looking into this for many months. We recommend approval of this procedure. The resolution that we want to pass today will amend resolution 89-37 and it will be changed such that in the beginning of this year the students selected in even number of years will be a graduate or profession student and the students selected in odd number of years will be an undergraduate student.

PROCEDURE FOR SELECTION OF STUDENT TRUSTEES

Resolution No. 92-67

Synopsis: The Student Affairs Committee recommended the approval of the procedure for selection of student trustees.

WHEREAS the Ohio Legislature has amended Ohio Revised Code Section 3335.02 (A) and enacted Section 3335.02 (B) for the inclusion of students on the Board of The Ohio State University; and

WHEREAS The Ohio State University, through this Board, the administration, and student leaders, has developed appropriate procedures for the implementation of the State's student trustee plan; and

WHEREAS the existing procedures need clarification with respect to the nomination of Student Trustees:

NOW THEREFORE

BE IT RESOLVED, That the procedures for nominating students to serve on The Ohio State University Board of Trustees as set forth in Resolution 89-37 be amended as follows: that beginning in 1992, the student selected in even numbered years shall be a Graduate or Professional student, and the student selected in odd numbered years will be an undergraduate student.
Upon motion of Mr. Celeste, seconded by Mr. Colley, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

Mr. Tonnies:

The second part to our meeting today in which we have a presentation about student life in the Ohio Unions. The student developed presentation, "Next Stop Union Station," provided a colorful representation of the diversity of student endeavors in the Ohio Union. Pat Rowan, a student and former chair of the Student Events Committee and the Ohio Unions Council, produced today's program which featured students and activities from a variety of campus areas. That completes my report.

Mr. Teaford:

Thank you, Mr Tonnies. Those of you who didn't get to go to the Student Affairs Committee meeting missed a good time.

--0--

FISCAL AFFAIRS COMMITTEE REPORT

Mr. Teaford:

To begin the Fiscal Affairs Committee meeting we will start with Mr. Shkurti for a budget update.

BUDGET UPDATE

Mr. Shkurti:

The document to which I will be referring is in your Board book under the tab Budget. The first two pages are the more traditional way the University presents that document and I thought it would be appropriate to have a summary which is what that last page is. It's entitled, "Columbus Campus General Funds Budget Changes to the Bottom Line." To make a long story short, it simply tracks what's happened to the budget since June.

The University has absorbed $15 million in cuts from the State since June. We had $2 million that we started the year with as a reserve that's been used to off set part of those cuts. So we have a net amount of $13 million to make up between now and the end of the year. The students that have spoken to us this morning have testified much more eloquently than anything numbers on a page can say about the impact of these cuts on the University.

Suffice it to say that our enrollments are up, our state support is down, so we are already doing more with less, and will continue to struggle to do so. But I am confident that by the time the years end we will have the University's budget back in balance and we will move on from there.

The other thing that I would like to discuss in terms of non-numerical terms is where we stand in terms of our mid year financial review. That is in front of you on white paper that says, "The Ohio State University Board of Trustees Mid Year Financial Review FY 1992." Now on the other side is last year's review at this time just so you have that for comparison purposes. But let me speak for just a minute about some of the challenges and areas of improvements we're facing for fiscal year 1992.
In terms of the challenges to be addressed, the various state budget cuts are pretty evident. I think what's important that we not lose track of is that our state government has not yet dealt with the fiscal year 1993 budget problem. The issues that have come up to this point have been this year's budget problem, much of that has been dealt with using one-time money. And so that money is gone, yet the problem will exist, again, in 1993, even with a recovery in the economy. And since this is an even numbered year, a certain sense of unreality sometimes permeates the State House and problems are not always dealt with in a timely as they might be. So the University is going to have to continue to be flexible and I expect may receive some more bad news from the State before this budget crisis works its way out.

The third item on challenges to be addressed are the indirect cost reimbursement from the federal government, those come up for Ohio State every three years. We are beginning a negotiating cycle with the federal government and if the experience of other universities who started the cycle is any indication, the federal government is not being kinder and gentler with universities in these negotiations. So that will be a challenge for us coming up as well.

Another item, in terms of the impact of budget cuts, is the third from last line about some on going unit problems. And the one I've indicated there is the OARDC, the Ohio Agriculture Research and Development Center in Wooster. Just to point out some of the problems other units of the campus are facing, even though they are not part of the main campus general funds. While the Central Campus received a 4 per cent budget cut this year, OARDC received a 6 per cent cut in December. They received an additional cut in July when the budget was passed and received a cut prior to that last year at about this time. So a number of our units, both at Wooster, our extended campuses, and here on the main campus, are struggling from the effects of the state budget cuts.

Finally, in terms of the last item on the challenges to be addressed is that this is the year that we need to forge a linkage between our budgeting system and our academic planning system. The Offices of Finance and Academic Affairs, and in fact the entire University is working together and will need to work together to bring that together in the budget cycle that will begin July 1, 1993. And we will have more on that for you later in the year.

Even though this has been a very difficult year for us budgetarily, there have been areas of improvement, and those are highlighted on the left hand side of the ledger. Both University Hospitals and the James Cancer Hospital and Research Institute, the bottom line for both of those institutions have improved and you will be hearing more specifically about the Cancer Hospital later in this meeting, so I won't go into detail.

In addition, we have made some progress in dealing with deficits that existed for quite a long time in the College of Business and in Admissions. Both of those deficits have been eliminated over the last year, and we are making significant progress in the College of Humanities and in the University's Telephone Services System.

We continue to make progress in doing our budget reductions, as unpleasant as they are differentially. I think that overall the University's financial position is as well as can be expected in a time of very difficult challenges, both here in Ohio, and nationally. And it will continue to test us as an institution in the months to come. I think the key is that we use this challenge as an opportunity to do those things that we need to continue to do to improve the quality of student life in the academic role of this University in the months ahead. Mr. Chairman, that completes my presentation.
February 7, 1992 meeting, Board of Trustees

Mr. Teaford:

Thank you, Mr. Shkurti. Any questions of Mr. Shkurti?

(Appendix L for charts on The Ohio State University Mid Year Financial Review, page 869.)

--0--

WAIVERS OF COMPETITIVE BIDDING REQUIREMENTS
OCTOBER - DECEMBER 1991

Resolution No. 92-68

Synopsis: Acceptance of the quarterly report on waivers of competitive bidding requirements is proposed.

WHEREAS the Purchasing Policy of The Ohio State University, adopted by the Board of Trustees on September 7, 1984, provides that the President and/or Vice President for Business and Administration may grant a waiver from competitive bidding in the event of an emergency, when a sufficient economic reason exists, or when the goods or services can be purchased from only a single source, with a report on such waivers to be made quarterly to this Board; and

WHEREAS the Acting Vice President for Business and Administration has submitted a report on waivers of competitive bidding requirements granted for the period of October-December 1991, granting 54 waivers totaling $3,164,400.00:

NOW THEREFORE

BE IT RESOLVED, That the report on waivers of competitive bidding requirements for the period of October-December 1991, is hereby accepted.

Upon motion of Mr. Kessler, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LI for chart on Waivers of Competitive Bidding Requirements - October - December 1991, page 875.)

--0--

Mr. Nichols:

Under the tab of Architects in your Board book is the employment of architects and engineers for the College of Business Facilities. During the Spring and Summer of 1991, an internal review team, including the faculty from the College of Business, reviewed 8 different sites as possible locations.

The site that has been identified is bounded by West Lane Avenue on the North, by Tuttle Park Place on the West, Woody Hayes Drive on the South, and the Residence Hall complex on the East. There are two phases to this project; the first phase is hiring an architectural/engineering firm to provide programming, conceptual design, planning and assistance, and fund raising with regards to the scope of the project. There will be a second phase, which may or may not include the firm used in the first phase, but which will provide schematic design, design, development, and construction documents for the two phases of the construction program.
February 7, 1992 meeting, Board of Trustees

The plan will involve classroom space, state-of-the-art MBA teaching facilities, meeting rooms, related support spaces, and, of course, classrooms. Total project cost is estimated at $62 million, of which $20 million will be fund raising by the College of Business.

Mr. Kessler:

On the selection of the architect -- I think this is a very, very important building. And I want to make sure that this full Board is advised as to what architects you are looking at and how you are proceeding. So we will truly have a national search to get the very best creative architect who can do this very important building.

Mr. Nichols:

The current status, Mr. Kessler, is that there was a request for proposals that went out with regards to the first phase. There is considerable interest in this project, probably more so than any project that I have been involved in in my two years. The preliminary steps on the selection process are starting.

Mr. Kessler:

I would just hope that the Board will be kept informed. Because I think it is very important, not only to the University, but this is going to be such a premier building. I think that it is also very important in the fund raising for the College.

President Gee:

You know that this particular facility is going to represent a portal entry into the University. And I know Jim concurs with me that this is an enormously important building. I will note, though, that we've had astounding interest in it from some, if not the best architectural firms available. And, of course, many of them are Ohio firms and many of them are joined Ohio firms with national firms, so we do have remarkable interest of high quality. But I also believe, Jack, that because of the nature of this that we do need to involve folks a bit earlier, rather than dropping a fait accompli on you. I think that is what Jim is also indicating.

Mr. Nichols:

I am sensitive to that Mr. Kessler.

Mr. Kessler:

You might also want to consider, if you have the time to do it, some type of a competition with architects, so you know exactly what the building is going to look like to get a better feel of it. But that does take more time.

Mr. Teaford:

One thing that may complicate that, Mr. Kessler, is that I understand this will be one of the earlier tests of the Governor's new financial competitive bidding on architect contracts.

--0--
EMPLOYMENT OF ARCHITECTS/ENGINEERS
Resolution No. 92-69

COLLEGE OF BUSINESS FACILITIES

Synopsis: Authorization to employ architects/engineers for the College of Business Facilities is proposed.

WHEREAS the University desires to employ an architectural/engineering firm to provide programming, planning, conceptual design, and assistance in fundraising to determine the scope of work for the relocation of the College of Business currently housed in Hagerty and Page Halls: and

WHEREAS the subsequent phases of the project will provide schematic design, design development, and construction documents for two phases of construction consisting of office space, classrooms, state-of-the-art MBA teaching facilities, meeting rooms, and related support spaces on the central campus area, with the exact site to be determined during the planning and design phase; and

WHEREAS the total estimated project cost is $62,000,000.00 (in 1991 dollars), and the total estimated construction cost is $48,000,000.00 (in 1991 dollars), with funding anticipated from private donations and future State capital appropriations anticipated in the 1995-96 and 1997-98 biennia:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to select qualified architectural/engineering firms as necessary for this project and that the fees for these services be negotiated between the firms selected and the State of Ohio, Division of Public Works.

Upon motion of Mr. Barone, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

Mr. Nichols:

Also under the tab of Architects, in your Board book is the employment of architects and engineers for Student Affairs Complex Feasibility Study. This is part of the outfall from the review last year on the Business College site, in conjunction with the Office of Student Affairs.

There was an indication that there needed to be a feasibility study with regards to a new Student Affairs Facility complex, including new Student Union or Unions which are designed to meet the needs of the current and future students. The current facilities: the Ohio Union that we are in was built in the 1950’s; and the Drake Union was built in the early 1970’s.

This would involve hiring folks that are familiar working in student affairs areas. They would do a complete analysis of the needs and the services needed in that facility, funding models, strategy for construction, and operation and maintenance phases of the project. There would also be site evaluations done as part of this. This estimated cost is $75,000 to $125,000 for both phases of the study. That is presented for your consideration. Dr. Spillman is here if there are any questions with regards to the Student Affairs Office.
EMPLOYMENT OF ARCHITECTS/ENGINEERS
Resolution No. 92-70

STUDENT AFFAIRS FACILITIES COMPLEX
FEASIBILITY STUDY

Synopsis: Authorization to employ consultants for a Student Affairs facilities complex feasibility study is proposed.

WHEREAS the Office of Student Affairs desires to undertake a study to determine the feasibility of developing a Student Affairs facilities complex, including a new student union, designed to meet the comprehensive needs of current and future students, including the enhancement and delivery of programs and services to students in an environment that is functional and aesthetically invigorating, supports learning, and conveys institutional pride; and

WHEREAS the University desires to employ consultants with demonstrated experience in working with student affairs programs in the assessment of the service and facility needs and priorities of the community and development of viable funding models and strategies for the construction and operation and maintenance phases of the project, and if a decision is made to proceed, assisting in the development of a Program of Requirements for the complex; and

WHEREAS the second phase of the feasibility study will provide site evaluations based on the recommendations of the first phase and provide conceptual drawings and cost estimates for the facility or facilities recommended; and

WHEREAS the total estimated cost for consultant services for both phases of the feasibility study is $75,000.00 to $125,000.00, with funding provided from University funds:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to select a qualified firm or firms as necessary for this project and that the fees for these services be negotiated between the firm or firms selected and the University.

Upon motion of Mr. Celeste, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

Mr. Nichols:

Continuing on under the same tab of Architects, is the employment of architects and engineers for the Feasibility Study on the Columbus Campus People Mover System. The four elements have come together with regards to a growing crunch of parking on campus. The first element involves conflict of surface parking space with new building construction which eliminates the service parking space.

The second element is new buildings. New space on campus does result in additional employees, for example, in research laboratories that will need parking space.
February 7, 1992 meeting, Board of Trustees

There has been a steady and constant increase in the last two years with regards to parking, both from in-patients, and out-patients, as well as visitors in the medical complex.

And, finally, there is an increasing use by the neighborhood surrounding the campus proper of 24-hour residential parking, which is now instituted in approximately one-third of those neighborhoods and will probably be instituted in 100 percent of them by the end of this year.

This particular study would review potentials of movement of people on campus, primarily an east-west configuration from West Campus to Main Campus. This would also allow for an evaluation of these potentials, what is often sighted in the media as a monorail. But it would also involve other people mover technologies, as well as light rail and trolley type systems; against, for example, building additional garages of which there will be a number needed if we would do that option; against vastly increasing a bus fleet to move people east to west, or other potential options.

This would be a study that would result in $50,000 at maximum from Traffic and Parking funds and is presented for your consideration.

Mr. Teaford:

Thank you, Mr. Nichols. Much to our surprise, the question of buses didn't come up in this morning's discussions, but this is some indication that we are aware, too, of the transportation problem on campus.

EMPLOYMENT OF ARCHITECTS/ENGINEERS

COLUMBUS CAMPUS PEOPLE MOVER SYSTEM

Synopsis: Authorization to employ consultants for a Columbus Campus people mover system feasibility study is proposed.

WHEREAS the University desires to explore alternative solutions to ensure the most effective land use of the Columbus Campus to support the academic mission, to relieve parking and traffic congestion in the central campus area, to facilitate the more effective movement of students, faculty, staff, and visitors around the campus, and to better tie together the various areas of the campus; and

WHEREAS as a part of these overall needs, the University desires to undertake a study to evaluate the extent to which a people mover system could improve land use, parking, and transportation in the central campus; and

WHEREAS the University desires to employ a consulting professional firm or firms to evaluate this need and provide an economical and physical feasibility analysis, a program of requirements, and conceptual design concepts for a people mover system; and

WHEREAS the total estimated cost for these consultant services is $50,000.00, with funding provided from University funds:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to select a qualified firm or firms as necessary for this project and that the fees for these services be negotiated between the firm or firms selected and the University.
February 7, 1992 meeting, Board of Trustees

Upon motion of Mr. Celeste, seconded by Mr. Colley, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

Mr. Nichols:

Under the tab of Construction Bids is the Employment of Architects and Engineers and Request for Construction Bids for the Storm Sewer Separation, Phase I. The University is located in an area of the City of Columbus that is under the old combined sewer system, that is both storm sewer and sanitary sewer runs in the same pipe. There have been some projects already on campus to separate sanitary from storm, this is a continuation of that process, and this is a feeder line to a main trunk that will be discussed later under the Easement Tab in the book.

This particular one involves a 48-acre section of land which is generally the North Central part of the campus, bounded by 18th Avenue on the North, High Street, College Drive and goes as far over as Neil Avenue. This will involve one line, ultimately that will run across the Oval. This will eliminate, effectively, three current combined sewers and will also serve as the new facilities being built on 18th Avenue with regards to the Basic Sciences and Engineering Library, as well as the new Mathematics classrooms and faculty office space. And that is presented for your consideration.

EMPLOYMENT OF ARCHITECTS/ENGINEERS AND REQUEST FOR CONSTRUCTION BIDS
Resolution No. 92-72

STORM SEWER SEPARATION, PHASE I

Synopsis: Authorization to employ architects/engineers for the Storm Sewer Separation, Phase I is proposed.

WHEREAS a new storm sewer system is needed for the Columbus Campus sewer district 9B, a 48 acre section located in the east central part of the Campus with its boundaries at approximately South Oval Drive on the south, West 18th Avenue on the north, High Street and College Road on the east, and Neil Avenue and Bohannan Road on the west; and

WHEREAS this area presently is being drained by three combined sewers and a new storm sewer system is proposed, with the existing sewers being used for wastewater flow, and a new storm sewer branch flowing south and west to the existing City of Columbus main line on West 12th Avenue; and

WHEREAS the University desires to employ an architectural/engineering firm to provide design of a storm sewer separation project for this area, and the total estimated project cost is $950,000.00, and the total estimated construction cost is $760,000.00, with funding provided from University funds:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to select qualified architectural/engineering firms as necessary for this project and that the fees for these services be negotiated between the firms selected and the University; and
February 7, 1992 meeting, Board of Trustees

BE IT FURTHER RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request construction bids on this project in accordance with established University procedures, and if satisfactory bids are received, to award contracts, with all actions to be reported to this Board at the appropriate time.

Upon motion of Mr. Barone, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

REPORT OF AWARD OF CONTRACTS AND ESTABLISHMENT OF CONTINGENCY FUNDS
Resolution No. 92-73

GOSS LABORATORY ASBESTOS ABATEMENT
JOHNSTON LABORATORY RENOVATION
DOAN HALL - IMPROVEMENTS TO WOMEN AND INFANTS PROGRAM
SULLIVANT HALL RENOVATION (ASBESTOS ABATEMENT)
NORTH DORMITORIES CHILLER REPLACEMENT, PHASE I

Synopsis: Approval of the Report of Award of Contracts and the Establishment of Contingency Funds for the listed projects is recommended.

WHEREAS resolutions adopted by the Board of Trustees on October 5, 1990 and September 6, 1991 authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established University procedures, and if satisfactory bids were received to award contracts for Doan Hall - Improvement to Women and Infants Program and North Dormitories Chiller Replacement, Phase I projects.

AND WHEREAS resolutions adopted by the Board of Trustees on July 11, 1986 and October 3, 1991 authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established University and State of Ohio procedures, and if satisfactory bids were received to recommend the award of contracts for the following projects: Goss Laboratory Asbestos Abatement, Sullivant Hall Renovation (Asbestos Abatement), and Johnston Laboratory Renovation.

NOW THEREFORE

BE IT RESOLVED, That pursuant to the actions previously authorized by the Board, the Report of Award of Contracts and Establishment of Contingency funds for these projects is hereby approved.

Upon motion of Amb. Wolf, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LII for background material and tabulation of bids, page 877.)

--0--
February 7, 1992 meeting, Board of Trustees

Mr. Nichols:

This particular easement is one of the more important ones to the University Campus. You will note, from the line of the easement, that it proceeds from the Olentangy River to the north side of the West 12th Avenue parking garage. It will eventually serve not only the entire southern part of the campus, but also all of the City of Columbus. It will run clear out past the fairgrounds at some point. This is a project that is being fully paid for by the City of Columbus, the diameter of this sewer is ten feet and is necessary in the short-term for the construction start of Riffe Hall which will start in late spring or early summer. That is presented for your consideration.

EASEMENT

CITY OF COLUMBUS

Synopsis: Authorization to grant a storm sewer easement to the City of Columbus on University property near the intersection of 12th Avenue and Cannon Drive is proposed.

WHEREAS the City of Columbus has requested a 25-year easement consisting of a strip of land approximately 30 feet in width and 1,514 feet in length and a temporary construction easement consisting of an additional strip of land, 30 feet in width adjacent and parallel to the permanent easement for the installation of a storm sewer pipe nine feet in diameter to be located near the intersection of Cannon Drive and 12th Avenue; and

WHEREAS this easement will serve University property; and

WHEREAS the appropriate University offices have recommended that this easement be granted:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request the Deputy Director of Public Works of the Department of Administrative Services to act for and on behalf of the University in developing the necessary legal instruments to provide for this easement.

Upon motion of Mr. Barone, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LIII for map, page 889.)

--0--

REVISION OF DEFINITION OF "IMMEDIATE FAMILY" FOR PURPOSE OF SICK LEAVE BENEFIT

Synopsis: Approval of the revision of definition of "Immediate Family" for purpose of sick leave benefit is proposed.

WHEREAS on January 31, 1990, President Edward H. Jennings created the Spousal Equivalency Task Force which recommended that the University implement certain policy changes to recognize domestic partners; and
WHEREAS the University has given lengthy consideration and scrutiny to the many issues involving domestic partnership that affect our faculty and staff, with affirmative recommendations put forth by the Faculty Compensation and Benefits Committee, the Staff Advisory Committee, and other ad hoc committees; and

WHEREAS a number of major universities, cities, and municipalities already recognize domestic partnership for coverage under some policies:

NOW THEREFORE

BE IT RESOLVED, That after discussion by the President's Executive Committee and further review by University administration, the policies governing utilization of the sick leave benefit (including bereavement leave) be modified wherein domestic partners are included in the definition of immediate family; and

BE IT FURTHER RESOLVED, That the President and/or Vice President for Human Resources and Relations be hereby authorized and directed to develop and promulgate the appropriate procedural guidelines and forms to implement this policy.

Upon motion of Mr. Celeste, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution six affirmative votes cast by Messrs. Colley, Celeste, Wolf, Kessler, Barone, and Teaford, and a negative vote cast by Ms. Casto.

--0--

Mr. Stoffel:

You have before you a resolution to approve the re-employment of individuals who have retired under the early retirement incentive programs of the University. As you may recall, the early retirement incentive programs in the past, promulgated by this Board, have had an exclusion of the return of those individuals to be employed by the University in any capacity. And, in as much as the number of these programs have existed now and we are trying to provide or achieve maximum flexibility in human resources for the University, it is felt that at this time that it would be beneficial for the University and individuals to allow for some return on employment of those individuals who have participated in these programs and that it begun pursuant to policies that will be established by University administration.

Mr. Teaford:

I might say that this will help alleviate some of the problems that Dr. Hutchinson talked about, too, because this does make more faculty available.

RE-EMPLOYMENT OF RETIRED INDIVIDUALS
Resolution No. 92-76

Synopsis: Approval of the re-employment of individuals who have retired under the early retirement incentive programs is proposed.

WHEREAS The Ohio State University adopted the Early Retirement Incentive Programs available under the provisions of the State Teachers Retirement System of Ohio (STRS) and the Public Employees Retirement System of Ohio (PERS) on October 6, 1989; and

WHEREAS the University's policies have been to provide that individuals who retire under those programs would not be eligible for re-employment with the University; and
February 7, 1992 meeting, Board of Trustees

WHEREAS The Ohio State University desires to achieve maximum flexibility in human resources planning and coordination:

NOW THEREFORE

BE IT RESOLVED, That effective immediately, participants in the University’s Early Retirement Incentive Programs will not be precluded from University employment; and

BE IT FURTHER RESOLVED, That such re-employment will be consistent with STRS and PERS law and the policy guidelines as set forth in Appendix LIV for faculty, and Appendix LV for non-faculty staff.

Upon motion of Amb. Wolf, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LIV and LV for Policy Guidelines, page 891.)

President Gee:

If I could just note here in the public meeting, that we have received a resolution from the University Senate regarding the elimination of the mandatory retirement age, prior to the legally designated time. That has come to me and I would like to share it with the Board today. I want to have a chance to review that resolution a bit more carefully, but certainly will have a recommendation prior to the time that anyone is put in jeopardy on this in case there is some question about that.

WORLD CUP 1994 SOCCER AGREEMENTS
Resolution No. 92-77

Synopsis: Authorization to enter into agreements with the U.S. and Ohio organizing committees to provide for the use of Ohio Stadium for games of the 1994 World Cup soccer championship is proposed.

WHEREAS the 1994 World Cup international soccer championship will be held in the United States under the auspices of the Federation Internationale de Football Association and under the jurisdiction of World Cup USA 1994, Inc. (the U.S. Organizing Committee); and

WHEREAS World Cup Ohio 1994, Inc. (the Ohio Organizing Committee), in consultation with The Ohio State University, has submitted a bid for Ohio to be one of the sites for World Cup 1994, with three to six games to be played in Ohio Stadium; and

WHEREAS for this bid to be considered further, the U.S. Organizing Committee requires an executed agreement providing for the use of Ohio Stadium for these games; and

WHEREAS the University fully supports and encourages the selection of Ohio as a venue for World Cup 1994 and is willing to make Ohio Stadium available for this purpose, so long as the University is guaranteed that it will not be responsible for any costs, including those for renovation, operation, and restoration of Ohio Stadium, for these events, and
WHEREAS the appropriate University officials, including the Director of Athletics, recommend that the University enter into the necessary agreements with World Cup USA 1994 and World Cup Ohio 1994 to provide for the use of Ohio Stadium for these events in accordance with the general terms outlined above:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees of The Ohio State University hereby expresses its support for World Cup Ohio 1994’s bid to hold three to six games of the 1994 World Cup international soccer championship in Ohio Stadium so long as and only to the extent that the University is guaranteed that it shall not bear responsibility for any costs incurred for the use of Ohio Stadium or other University facilities for these events; and

BE IT FURTHER RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to enter into agreements with World Cup USA 1994 and World Cup Ohio 1994, and any other necessary agreements, upon the general terms and conditions outlined above and upon any other terms and conditions deemed to be in the best interest of the University.

Upon motion of Ms. Casto, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LVI for background material, page 895.)

REVISION OF THE POLICY OF PURCHASING

Resolution No. 92-78

Synopsis: Authorization that the University's Purchasing Policy be amended is proposed.

WHEREAS it is the policy of The Ohio State University to solicit competitive bids for University purchases in all cases where the best interest of the University will be served by such competition; and

WHEREAS there is a need to revise the University's Purchasing Policy, which was adopted by the Board of Trustees on September 7, 1984, to reflect current economic conditions by increasing the threshold amount requiring competitive bidding from $5,000.00 to $10,000.00 for the purchase of equipment, materials, and supplies, and from $10,000.00 to $20,000.00 for the purchase of Services:

NOW THEREFORE

BE IT RESOLVED, That the Purchasing Policy of The Ohio State University be revised as follows, effective immediately:

1. Under the direction of the Vice President for Business and Administration, the Office of Business Services shall have the responsibility and requisite authority for the purchase of equipment, materials, supplies, and services for the University.
February 7, 1992 meeting, Board of Trustees

2. Except as provided below, all equipment, materials, supplies, and services shall be purchased through solicitation of competitive bids or proposals except where such equipment, materials, supplies, or services are purchased pursuant to Sections 4115.31 to 4115.35 and 5147.07 of the Revised Code, or where the amount of such purchase of equipment, materials, supplies is less than ten thousand dollars or where the purchase of such services is less than twenty thousand dollars. In addition, the purchase of any combination of equipment, materials, supplies, and services of twenty thousand dollars or more shall be made through solicitation of competitive bids or proposals. The above threshold amounts notwithstanding, the University may require competitive bidding for purchases below these threshold amounts if it determines that such bidding is in the best interest of the University. Contracts shall be awarded to the lowest and best bidder on each item. In accordance with policies and procedures established by the Office of Business and Administration, the University may accept or reject any or all bids or proposals in whole or by item.

3. The President and/or Vice President for Business and Administration may grant a waiver from competitive bidding when he or she determines that an emergency or a sufficient economic reason exists, or that the equipment, materials, supplies, or service can be purchased only from a single supplier (“sole source”).

4. In compliance with Section 125.081 of the Revised Code, the University shall set aside a number of purchases each year for bidding by certified minority businesses only. The bidding procedures for such contracts shall be the same as for all other contracts except that: 1) only minority business enterprises certified by the State of Ohio Equal Employment Opportunity Coordinator shall be qualified to submit bids and 2) the cost of products and services may not exceed the estimated market price by more than approximately 10 percent. If bids are rejected because of this cost consideration, the purchase shall be offered again for bid by all interested vendors in accordance with standard bidding procedures.

5. This policy shall not apply to employment or reemployment of teaching or administrative personnel; the acquisition of objects of fine and decorative art, pursuant to the policy adopted by this Board on December 8, 1983; the purchase of supercomputing equipment, pursuant to the policy adopted by this Board on October 3, 1986; or purchases made through the University Hospital Consortium, Inc., pursuant to the policy adopted by this board on October 3, 1986.

6. This applies to all funds administered by The Ohio State University.

Upon motion of Mr. Barone, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LVII for background material, page 899.)

--0--

Mr. Scott:

Mr. Chairman, this resolution has to do with a requirement of law in instances where the University reaches impasse in any of its negotiations with various labor organizations. In this case, it happens to be the International Association of Fire Fighters.

What has transpired over the last several months has been a long drawn out negotiation process including items regarding work schedules, shift selection, over-time, economic, as well as other kinds of issues. The two parties simply could not resolve those issues, and under statute we have reached an impasse, and move next to a fact finding process.
February 7, 1992 meeting, Board of Trustees

We do have the fact finders report and while there were many comments by the fact finder that the University find totally acceptable, there were several that we felt was not acceptable. In that light, the recommendation is that the University Board, by Statute, must take action and the recommendation of the Administration is that we reject the fact finders report.

I should add that if the Board approves our recommendation then the process means that we resume negotiations and hopefully can resolve these questions at the table.

Mr. Teaford:

Thank you, Mr. Scott.

INTERNATIONAL ASSOCIATION OF FIRE FIGHTERS
Resolution No. 92-79

Synopsis: Rejection of a fact-finder's report regarding contract negotiations with Local 2867, International Association of Fire Fighters (IAFF) is proposed.

WHEREAS the University has engaged in good faith bargaining with the IAFF since November 1991 regarding renewal of its collective bargaining agreement which expired January 31, 1992; and

WHEREAS the University and IAFF have reached impasse and pursuant to a procedure mandated by statute, a University representative met with IAFF representatives and a fact-finder to attempt to resolve remaining issues; and

WHEREAS the fact-finder has issued a set of recommendations which include, among other features, a 4 percent wage increase beginning February 1, 1992, a 4 percent wage increase to be effective February 1, 1993, and a $500.00 signing bonus which the University finds to be unacceptable in light of the current budgetary constraints:

NOW THEREFORE

BE IT RESOLVED, That the fact-finder's report be rejected.

Upon motion of Amb. Wolf, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

ACADEMIC AFFAIRS COMMITTEE REPORT

Ms. Casto:

The Dependent Care Commission was created in July 1990 by Frederick Hutchinson, Senior Vice President for Academic Affairs, to commemorate the 20th anniversary of child care on The Ohio State University campus. The report from the Commission was released in August. Two members of the Commission, Bonnie S. Kantor and Judy Fountain, provided an overview of the Commission and its work.

Through surveys of students, staff, and faculty, important information has been obtained about the care giving needs of University members. Using the findings, the Commission made four board recommendations including University policies, information dissemination, cost effective services, and an advisory committee.
February 7, 1992 meeting, Board of Trustees

Implementation of these recommendations enhances the work and educational environment for all and assures a leadership position for The Ohio State University as it moves in the 21st century.

Our second report was from Dr. Richard D. Altick, Regents Professor Emeritus of The Ohio State University. He is the author of sixteen books, five of them published since his retirement from the English Department in 1982. His last book, The Presence of the Present: Topics of the Day in the Victorian Novel, was published by The Ohio State University Press last spring, and has just won the Christian Gauss Award. The Christian Gauss Award is given annually by Phi Beta Kappa for the best book of literary scholarship or criticism, and is the most prestigious prize in its field.

Professor Altick, a world renowned scholar of Victorian literature and culture, spoke about the book and the vital and important role the University has played in supporting research and the publication of its results.

We have several resolutions on the agenda that need approval:

**REPRINTED STATUTES APPLYING TO THE UNIVERSITY, BYLAWS OF THE BOARD OF TRUSTEES, AND RULES OF THE UNIVERSITY FACULTY**

Resolution No. 92-80

Synopsis: Approval of the reprinted Statutes Applying to the University, Bylaws of the Board of Trustees, and Rules of the University Faculty is proposed.

WHEREAS the publication entitled Statutes Applying to the University, Bylaws of the Board of Trustees, and Rules of the University Faculty has been reprinted to conform to the changes approved by the Board of Trustees since the last date of publication in March 1987; and

WHEREAS Section 111.15 of the Ohio Revised Code requires state-assisted institutions of higher education to file the current rules and regulations which have been adopted or promulgated by the Board of Trustees:

NOW THEREFORE

BE IT RESOLVED, That the reprinted text of the Statutes Applying to the University, Bylaws of the Board of Trustees, and Rules of the University Faculty dated February 1992, be adopted as the official publication of the Board of Trustees.

Upon motion of Ms. Casto, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

---

**HONORARY DEGREE**

Resolution No. 92-81

Synopsis: Approval of awarding an honorary degree to Warren E. Burger is proposed.
February 7, 1992 meeting, Board of Trustees

WHEREAS pursuant to paragraph (C) of rule 3335-3-03 of the Administrative Code, the President, after consultation with the Steering Committee of the University Senate, recommends to the Board of Trustees awarding of an honorary degree as listed below:

<table>
<thead>
<tr>
<th>Name</th>
<th>Degree</th>
</tr>
</thead>
<tbody>
<tr>
<td>Warren E. Burger</td>
<td>Doctor of Laws</td>
</tr>
</tbody>
</table>

NOW THEREFORE

BE IT RESOLVED, That the above honorary degree be awarded in accordance with the recommendation at a time convenient to the University and the recipient.

Upon motion of Ms. Casto, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

DEGREES AND CERTIFICATES - WINTER QUARTER COMMENCEMENT
Resolution No. 92-82

Synopsis: Approval of the degrees and certificates for Winter Quarter Commencement is proposed.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees the names of persons who have completed degree and certificate requirements; and

WHEREAS the College of Social Work has recommended that Daniel Z. Alavi be awarded a Bachelor of Science in Social Work degree posthumously:

NOW THEREFORE

BE IT RESOLVED, That the degrees and certificates be conferred on March 20, 1992, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that Daniel Z. Alavi be awarded the above named degree, posthumously, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

Upon motion of Ms. Casto, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

PERSONNEL ACTIONS
Resolution No. 92-83

RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the December 6, 1991 meeting of the Board, including the following Appointment, Appointment of Chairpersons, Reappointment of Chairperson, Professional Improvement Leaves--Cancellation, Professional Improvement Leave--Change in Dates, Emeritus Titles, and Medical Staff Appointments and Reappointments (The Arthur G. James Cancer Hospital and Research Institute) as detailed in the University Budget be approved.
February 7, 1992 meeting, Board of Trustees

Appointment

Name:   LINDA TOM
Title:   Vice President
Office:  Human Resources and Relations
Effective:  February 15, 1992
Salary:  $140,004.00
Present Position:  Corporate Director of Staffing and Human Resource Programs, Rhone-Poulenc Rorer, Fort Washington, PA

Appointment of Chairpersons

February 1, 1992 through June 30, 1996

   Neurology                Jerry R. Mendell
   Civil Engineering        Tien H. Wu*

Reappointment of Chairperson

July 1, 1992 through June 30, 1996

   Family Relations and Human Development Albert J. Davis

*Acting Chair

Professional Improvement Leaves--Cancellation

EUGENE JONES, Associate Professor, Department of Agricultural Economics and Rural Sociology, effective Winter Quarter and Spring Quarter 1992.

GALA L. WALKER, Associate Professor, Department of East Asian Languages and Literatures, effective Autumn Quarter 1991, Winter Quarter and Spring Quarter 1992.

Professional Improvement Leave--Change in Dates

Emeritus Titles

WILLIAM R. WALLACE, College of Dentistry -- Administration, with the title Dean and Professor Emeritus, effective January 1, 1992.

DAVID G. CORNWELL, College of Medicine -- Administration, with the title Associate Dean and Professor Emeritus, effective March 1, 1992.

JOHN E. ANDREAS, Department of Veterinary Clinical Sciences, with the title Professor Emeritus, effective January 1, 1992.
February 7, 1992 meeting, Board of Trustees

ALBERT B. BISHOP, Department of Industrial and Systems Engineering, with the title Professor Emeritus, effective January 1, 1992.

VIRGIL E. BLanke, Department of Educational Policy and Leadership, with the title Professor Emeritus, effective March 1, 1992.

PHILIP M. CARROLL, Department of Labor Education and Research Service, with the title Professor Emeritus, effective January 1, 1992.

JOHN C. CHAMBERS, Department of Management Sciences, with the title Professor Emeritus, effective January 1, 1992.

RALPH T. COMPTON, JR., Department of Electrical Engineering, with the title Professor Emeritus, effective January 1, 1992.

MARION L. CREMER, Department of Human Nutrition and Food Management, with the title Professor Emeritus, effective January 1, 1992.

ROCCO D. D’ANGELO, College of Social Work, with the title Professor Emeritus, effective March 1, 1992.

SAMUEL L. DIXON, College of Social Work, with the title Professor Emeritus, effective March 1, 1992.

RAYMOND W. DOSKOTCH, College of Pharmacy, with the title Professor Emeritus, effective March 1, 1992.

WILLIAM D. DOWLING, Department of Educational Studies: Humanities, Science, Technological, and Vocational, with the title Professor Emeritus, effective March 1, 1992.

MOJMIR DRVOTA, Department of Photography and Cinema, with the title Professor Emeritus, effective February 1, 1992.

WARREN W. EASON, Department of Economics, with the title Professor Emeritus, effective March 1, 1992.

JOHN B. GABEL, Department of English, with the title Professor Emeritus, effective March 1, 1992.

FRANK F. GIBSON, Department of Finance, with the title Professor Emeritus, effective January 1, 1992.

KENNETH M. HANSON, Department of Physiology, with the title Professor Emeritus, effective March 1, 1992.

FRANK L. HIMES, Department of Agronomy, with the title Professor Emeritus, effective January 1, 1992.

PHILIP B. HOLLANDER, Department of Pharmacology, with the title Professor Emeritus, effective February 1, 1992.

LLOYD A. HORROCKS, Department of Medical Biochemistry, with the title Professor Emeritus, effective January 1, 1992.
February 7, 1992 meeting, Board of Trustees

WILLIAM E. HUNT, Department of Surgery (Neurological), with the title Professor Emeritus, effective January 1, 1992.

GENE A. ISLER, Department of Animal Science, with the title Professor Emeritus, effective January 1, 1992.

HOWARD N. LAFEVER, Department of Agronomy (OARDC), with the title Professor Emeritus, effective January 1, 1992.

MARLIN L. LANGUIS, Department of Educational Theory and Practice, with the title Professor Emeritus, effective March 1, 1992.

A. JOHN MEROLA, Department of Medical Biochemistry, with the title Professor Emeritus, effective March 1, 1992.

DAVID L. MOFFATT, Department of Electrical Engineering, with the title Professor Emeritus, effective January 1, 1992.

WILLIAM MOORE, JR., Department of Educational Policy and Leadership, Professor Emeritus, effective February 1, 1992.

ZOLTAN A. NEMETH, Department of Civil Engineering, with the title Professor Emeritus, effective March 1, 1992.

RICHARD C. O'BRIEN, College of Dentistry (Diagnostic Services), with the title Professor Emeritus, effective January 1, 1992.

RICHARD N. PRATTE, Department of Educational Policy and Leadership, with the title Professor Emeritus, effective March 1, 1992.

JOSEPH J. QUARANTA, Department of Educational Theory and Practice, with the title Professor Emeritus, effective March 1, 1992.

KEITH E. RICHARDSON, Department of Medical Biochemistry, with the title Professor Emeritus, effective March 1, 1992.

RICHARD J. SHUMWAY, Department of Educational Theory and Practice, with the title Professor Emeritus, effective January 1, 1992.

RUSSELL V. SKAVARIL, Department of Molecular Genetics, with the title Professor Emeritus, effective January 1, 1992.

JOHN L. TEWKSBURY, Department of Educational Theory and Practice, with the title Professor Emeritus, effective March 1, 1992.

CHARLES F. WOOLEY, Department of Internal Medicine (Cardiology), with the title Professor Emeritus, effective March 1, 1992.

MARVIN R. ZAHNISER, Department of History, with the title Professor Emeritus, change effective date from January 1, 1991, to January 1, 1992.

ROBERT R. BARGAR, Department of Educational Policy and Leadership, with the title Associate Professor Emeritus, effective March 1, 1992.
February 7, 1992 meeting, Board of Trustees

JAMES A. BARTOS, Department of Management Sciences, with the title Associate Professor Emeritus, effective March 1, 1992.

JOHN P. BENDEKOVIC, College of Social Work, with the title Associate Professor Emeritus, effective March 1, 1992.

JOHN M. DELPHIA, Department of Cell Biology, Neurobiology and Anatomy, with the title Associate Professor Emeritus, effective March 1, 1992.

DONALD W. GOOD, Department of English, with the title Associate Professor Emeritus, effective March 1, 1992.

LOWELL E. HEDGES, Department of Agricultural Education, with the title Associate Professor Emeritus, effective January 1, 1992.

ROBERT C. JONES, Department of English, with the title Associate Professor Emeritus, effective March 1, 1992.

EDGAR MOORE, Department of Labor Education and Research Service, with the title Associate Professor Emeritus, effective January 1, 1992.

OTTO SANTOS, JR., Department of Educational Studies: Humanities, Science, Technological, and Vocational, with the title Associate Professor Emeritus, effective March 1, 1992.

JAMES M. SWEENEY, School of Health, Physical Education and Recreation, with the title Associate Professor Emeritus, effective March 1, 1992.

WILLIAM A. WELKER, College of Dentistry (Restorative and Prosthetic Dentistry), with the title Associate Professor Emeritus, effective January 1, 1992.

BERNARD A. BLOCK, University Libraries, with the title Assistant Professor Emeritus, effective January 1, 1992.

FRANK M. PIERSON, School of Allied Medical Professions, with the title Assistant Professor Emeritus, effective January 1, 1992.

ROBERT D. SEDORIS, School of Music (Lima Campus), with the title Assistant Professor Emeritus, effective January 1, 1992.

PEGGY D. WILSON, School of Allied Medical Professions, with the title Assistant Professor Emeritus, effective January 1, 1992.

GEORGE K. ZULANDT, Department of English (Mansfield Campus), with the title Assistant Professor Emeritus, effective January 1, 1992.

SAMUEL NATOLI, College of Dentistry (Community Dentistry), with the title Clinical Assistant Professor Emeritus, effective January 1, 1992.

Medical Staff Appointment (The Arthur G. James Cancer Hospital and Research Institute)

CAVAZOS, FILIBERTO, M.D., Associate Attending Staff, Pathology

Medical Staff Reappointment (The Arthur G. James Cancer Hospital and Research Institute)
February 7, 1992 meeting, Board of Trustees

July 1, 1991 through June 30, 1993

GARTH F. ESSIG, M.D., Associate Attending, OB/GYN

Upon motion of Ms. Casto, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

---

RESOLUTIONS IN MEMORIAM

Synopsis: Approval of the following Resolutions in Memoriam are proposed.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Mr. Teaford:

It is always particularly difficult for the Members of the Board when we have to deal with the passing of one of our own. Len Immke was an extraordinary Member of this Board. His wisdom in difficult times was always apparent, his generosity to this University community was often not apparent because he was such a modest man who gave in the spirit that people should give. One of the best examples of that, and you can remember this next fall when you see the Ohio State marching band go on the field, know that Len Immke paid for all of those uniforms and never wanted any recognition of that fact during his life.

On behalf of this University and this community and particularly those members of this Board who served with Len, I want to give the expression of this Board of its deepest sympathy to Mrs. Immke. And I would like to give her that now.

Leonard J. Immke, Jr.

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 6, 1991, of Leonard J. Immke, Jr., former chairperson and member of the Board of Trustees of The Ohio State University.

Mr. Immke was born in Cleveland, Ohio, and relocated to Columbus in the early 1960s where he established himself as truly one of the outstanding business and community leaders in Central Ohio. Mr. Immke served on the Board of Trustees of Ohio State University from November 1978 through May 1979 and again from May 1980 through May 1989.

Mr. Immke's support of and involvement with The Ohio State University extended well beyond his appointments as a Trustee. He served as a member of the President's Club until his death. He also served as a Director of the University Development Fund Board and chaired several Board of Trustees committees, including the fiscal affairs committee and the educational affairs committee. At the time of his death he was serving as a member of The Ohio State University's Hospitals Board.

In addition to this service, in 1985 Mr. Immke established the Leonard J. Immke, Jr. and Charlotte L. Immke Chair in Cancer Research. He also supported a number of University projects, including professional studio training in the visual arts, Student Athlete Grant-In-Aid, and various projects in the Colleges of Human Ecology and Engineering. Through his generosity, Mr Immke also provided The Ohio State Marching Band with new uniforms in 1988.
February 7, 1992 meeting, Board of Trustees

Mr. Immke was owner and president of Len Immke Buick, Immke Crestview Cadillac, Immke Northwest Honda, and Immke Circle Leasing and Acura of Dayton. In addition to his automobile businesses, Mr Immke held several real estate interests and was a member of the Dublin Associates, co-founder and director of Wendy's International Inc., and Columbus Auto Dealers Association.

Mr. Immke also held positions in numerous professional and civic organizations in Columbus. He served as honorary chairman of the National Kidney Foundation of Central Ohio Inc., and as a member of the Mayor's Bicentennial Commission. In addition, he had been a trustee of Children's Hospital and the Columbus Symphony Orchestra, and a past director of the Columbus Cancer Clinic, Children's Hospital, and the Center of Science and Industry. He also was a member of Banc Ohio and the Ohio Negro College Fund.

On behalf of the University community, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Ms. Casto:

In addition, the Board of Trustees would like to express its sorrow upon the passing December 17, 1991, of Dr. Elizabeth D. Gee, Associate Professor in the College of Education and Associate Vice President for Development at The Ohio State University.

One can't help but feel a sense of warmth when thinking of Dr. Gee. Her many contributions in the advancement of women's issues including education, home, and community have helped inspire the lives of many. She was a motivating force that challenged the minds and lives of many people that she knew, as well as the people that only knew of her, and in her memory, we of The Ohio State University Family hope to foster the vision and the spirit that she represented. And we have this to give to you, Mr. President.

Elizabeth D. Gee

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 17, 1991, of Dr. Elizabeth D. Gee, Associate Professor in the College of Education and Associate to the Vice President for Development at The Ohio State University.

Elizabeth Gee was born in Santa Monica, California. She received her B.A. from the University of Utah, in 1968, her M.A. in History in 1979 from Brigham Young University, and her Ed.D. in Interdisciplinary Studies in 1985 from West Virginia University.

Prior to coming to Ohio State in September 1990, Dr. Gee served as Senior Research Associate, Women Studies Program at the University of Colorado at Boulder and as Senior Research Associate and Adjunct Professor at the Center for Health Ethics and Policy, University of Colorado at Denver. She had also served as a Special Assistant to the University of Colorado Foundation, an Adjunct Professor in the School of Nursing at the University of Colorado at Denver, and Director of Programs at the Alexandria Institute.

Dr. Gee became well known for her research and teaching in the areas of professional and biomedical ethics, as well as various gender-related issues. She authored numerous academic articles and presented on topics ranging from engineering ethics to gender-related attorney negotiating styles, from the importance of community foundations to contemporary issues regarding breast cancer. Numerous excerpts from her personal journals have been published.
February 7, 1992 meeting, Board of Trustees

Dr. Gee dedicated herself to promoting an increased recognition of women's contributions to the home, workplace, community and country. She stimulated and encouraged others to challenge themselves intellectually and morally on social issues, and she achieved great respect as a teacher, advisor, and mentor. She continuously advocated on behalf of health awareness, particularly cancer awareness, and spoke frequently with cancer survivors, their families and friends. Her willingness to share her personal experience with cancer was an inspiration to those who knew her and countless people she had never met.

In addition, Elizabeth Gee was extensively involved in numerous civic and professional organizations. She held positions with the American Educational Research Association, the Colorado Women's Studies Association, the Hastings Center for Ethics, Council on Ethics in Economics, the American Lung Association, The Ohio State University Commission on Women, The Ohio State University Hospitals Service Board, and the Steering Committee of the Supreme Court of Ohio/Ohio State Bar Association Joint Commission on Gender Fairness. Her many honors included membership in Phi Kappa Phi, Phi Alpha Theta, Kappa Delta Pi, and Phi Delta Kappa.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in its loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Ms. Casto:

We are also recommending Resolutions in Memoriam for:

Francis R. Calderwood

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 4, 1991, of Francis R. Calderwood, Associate Professor Emeritus of the Cooperative Extension Service.

Mr. Calderwood was born May 22, 1920, in New Castle, Pennsylvania. He served in the military service from July 1942 until November 1945. He then completed his B.S. in Agriculture at The Ohio State University in 1951. He also completed study at the Merrill-Palmer Institute of Human Development and Family Life in Detroit, Michigan. He received his Master's Degree in 1964.

Mr. Calderwood began his Extension experience in Ohio when he joined the faculty at The Ohio State University in 1951 as an Associate County Extension Agent in Cuyahoga County. On July 1, 1958 he became the County 4-H Agent in Cuyahoga County and continued in this position until his retirement in 1983.

Among the many projects Mr. Calderwood guided as an Extension 4-H Agent, were programs based on the needs of people in the large metropolitan community of Cleveland. His efforts concentrated on one of the first urban 4-H programs in the nation. He expanded the leadership in 4-H programs to include churches, Police Athletic Leagues, Juvenile Detention Centers, neighborhood centers, other youth groups and street clubs. He adapted and initiated camping programs to meet the needs of inner-city youth. He gave leadership to the first 4-H opportunity camp in Ohio for the low income-disadvantaged youth. Francis effectively used mass media of radio and TV to create awareness among parents, youth, and 4-H advisors about the 4-H program opportunities.
February 7, 1992 meeting, Board of Trustees

Mr. Calderwood received recognition from the National Association of Extension 4-H Agents, from the Ohio Cooperative Extension Agents Association, and from the 4-H advisors of Cuyahoga County. He is known nationwide for his highly innovative approaches to reaching young people in highly urbanized areas. Also, he had been recognized in his community and in his county as a leader in his church, with civic groups, and with higher education associations in the county.

Mr. Calderwood's contributions in providing excellent Extension educational programs during his career earned him the respect and admiration of his co-workers and many thousands of Ohio citizens throughout the length and breadth of Cuyahoga County.

On behalf of the University community, the Board of Trustees expresses its sympathy and understanding to family and friends of Francis R. Calderwood. It was directed that this resolution be inscribed in the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

James R. Hull

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 2, 1991, of James R. Hull, Assistant Professor Emeritus, in the College of Dentistry (Orthodontics).

A native of Greenfield, Ohio, Dr. James Hull was involved with The Ohio State University for nearly fifty years as a student, faculty and strong supporter of its programs. As a student, he became a basketball All-American in 1939, captain of the basketball team that placed second in the first NCAA tournament and was that tournament's first scoring leader. He was elected to membership in Sphinx Honor Society and Psi Omega dental fraternity and served as a justice of Student Court.

After graduating from the College of Dentistry in 1943 and serving two and one-half years as an officer in the Navy, he returned to Columbus and opened his office for the practice of orthodontics. He joined the faculty of the College of Dentistry in 1946 and served as a valued part-time instructor for 41 years until his retirement as Assistant Professor Emeritus in 1987.

Dr. Hull's devotion to his students is especially noteworthy. He was a tremendous inspiration to hundreds of dental students and graduate orthodontics residents. The students looked forward to his practical approach to managing a dental office, his devotion to his patients and his ability to install a responsibility to one's community as a professional. He maintained his support to his students through serving on the board of the dental fraternity and taking leadership roles in the profession of dentistry.

His devotion to Ohio State was seen in the service he provided. He was alumni representative to the Athletic Council, a two-term member of the Alumni Association Board of Directors, second vice-president of the Alumni Association, Alumni Advisor Council representative, Varsity "O" (where he served as President), Presidents Club, National Campaign Committee, and Development Fund Board of Directors. He is one of the 22 charter members of The Ohio State Athletic Hall of Fame and has been honored by Ohio State with a Distinguished Service Award in 1969 and a Centennial Award in 1970.

Dr. Hull was also active in community service. Some of his activities included: being a former president of the Columbus Rotary Club, Friends of the Columbus Public Library, Columbus Club, and University Club.
February 7, 1992 meeting, Board of Trustees

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Ruth B. Irwin

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 23, 1991, of Ruth Beckey Irwin, Professor Emeritus in the Department of Speech and Hearing Science.

Dr. Irwin was born in Linwood, Kansas, on January 8, 1906. She received her B.S. in Education in 1929 from Emporia State University, Emporia, Kansas. She received her M.A. from the University of Iowa, and a Ph.D. in 1940 from the University of Southern California.

In 1949 Dr. Ruth Irwin was appointed to the faculty of The Ohio State University and rose from the rank of assistant professor to professor. From 1973-1976 she served as Director of the Speech and Hearing Science Section in the Department of Communication. In addition to her teaching at The Ohio State University, Dr. Irwin taught at William Penn College, Nebraska State Teachers College, and Ohio University where she directed the speech clinic. In 1945 she became the first supervisor of Speech and Hearing Therapy for the State of Ohio and served in that post for four years.

Dr. Irwin received many honors during her career. She received the Distinguished Alumna Award in 1979 from Emporia State University. She was elected a fellow in the American Speech and Hearing Association (ASHA), the American Psychological Association (APA) and in the Ohio Speech and Hearing Association (OSHA). She received the Honors of the American Speech-Language-Hearing Association for the part she played in the development of the certification procedures and philosophies that have enabled ASHA to develop strong certification procedures. Dr. Irwin was the first individual affiliated with a university that espoused the importance of the public school clinician. She supported their cause through publications, including the first textbook that dealt with speech and hearing therapy in the public school. Dr. Irwin was listed in Who's Who in the Midwest, Who's Who in Education, Who's Who of American Women, Leaders in American Science, Leaders in Education, and the Dictionary of International Biography.

Dr. Irwin leaves a rich legacy to the field, to the students whom she instructed and advised, and to all those who knew her as a friend. She was a person who was instrumental in shaping the lives of many; a person who held high standards and gave substantial support and encouragement to others who endeavored to meet those standards.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Josaphat B. Kubayanda

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 28, 1991, of Josaphat (Joe) Kubayanda, Associate Professor and former chairperson of the Department of Spanish and Portuguese.
Josaphat Kubayanda was born on January 13, 1944, in Nandom, Ghana. He attended Catholic mission schools for his primary and secondary education, and won a scholarship to the University of Ghana in Legon, where he obtained an honors degree in French in 1970. Two years later, he completed a second bachelor's degree in Spanish at the University of London, where he also received his M. Phil. in 1974. In 1981, he received his doctorate in Spanish from the University of Washington (St. Louis), where he was a recipient of the Bryant Fellowship for outstanding graduate work.

During his nine years as a faculty member at The Ohio State University, Dr. Kubayanda served as the Director of the Spanish Language Program before becoming the Acting Chairperson of the Department of Romance Languages and Literatures. When this department was divided into two separate academic units, he continued to serve with distinction as Chair of the newly created Department of Spanish and Portuguese. His brilliant record as a dynamic, caring teacher was reflected by the fact that he received the Alumni Distinguished Teaching Award and the Arts and Sciences Outstanding Teacher Award of The Ohio State University, and the Jaime Escalante Award for Extraordinary Teaching from the American Association for Higher Education. Even years after they had taken Spanish or Comparative Studies courses with Dr. Kubayanda, many students returned to ask for his advice and counsel. As faculty advisor for the All Africa Students' Association, he was always available whenever members of the organization needed his help or advice. In addition to his very generous academic involvement with students, he served as associate editor of the journal Research in African Literatures, as member of the African Literature Division and the Delegate Assembly of the Modern Language Association of America, and as a member of the executive committee of the African Literature Association. He also served as a consultant reader for a number of professional journals and publishing houses.

Dr. Kubayanda published numerous articles on minority discourse, the Latin American novel, the literature of dictatorship, Afro-Hispanic literary relationships, and recently published his first book, The Poet's Africa; he had also completed two highly praised book length manuscripts, Literature and Dictatorship in Africa and Latin America, and Nicolas Guillen, which will be published in the near future by major university presses.

As a result of his infectious enthusiasm and his wide-ranging knowledge of literature and critical theory, Dr. Kubayanda brought undergraduate and graduate students as well as colleagues into contact with the latest developments in such areas as minority discourse, orality, gender studies, and alternative cultural perspectives. Even at his relatively young age, he had become a trusted mentor of students and younger colleagues. A gentle and principled man, Dr. Kubayanda brought a remarkable intellectual generosity and human warmth to all his contacts with people within the university community.

On behalf of the University, the Board of Trustees expresses to the family its sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

James R. McCoy

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 15, 1991, of James R. McCoy, Dean Emeritus in the College of Business.
James R. McCoy was born April 25, 1910, in Cambridge, Ohio. He received a Bachelor of Science (1934) and a Master in Business Administration degree (1936) from The Ohio State University, majoring in accounting. Dean McCoy was associated with Ohio State for 37 years. He taught at the University of Iowa for one year before joining the Ohio State faculty in 1937. He returned to Ohio State after military leave from 1941 to 1946 when he was discharged with the rank of major. In 1946, Dean McCoy became a certified public accountant and was promoted to associate professor; in 1950, he became a full professor. He served as Chairperson of the Department of Accounting from 1956-59. In 1959, he became Dean of the College of Commerce and Business Administration, serving in that capacity until his retirement in 1974.

Dean McCoy was a past president of the Columbus Chapter of the Ohio Society of Certified Public Accountants and served as director and, in 1961, as district vice-president of the National Association of Accountants. He was a member of the American Accounting Association, an associate member of the Controllers Institute of America, as well as honorary and professional collegiate associations.

Dean McCoy was co-author of Introduction to Accounting, editor of The Ohio Certified Public Accountant, and on the editorial advisory board of the Journal of Accountancy, 1954-57. He served on many university committees and was active in civic affairs. At various times, Dean McCoy served on the Council of Instruction, the Faculty Council, Athletic Council, and as the faculty representative to the Western Conference. He was active in Rotary and the United Appeals board of trustees.

During his tenure as dean, the College underwent a major reorganization. In 1972, Dean McCoy formed the Business Administration Advisory Council, dedicated to fostering communication between business and higher education. Under his leadership, the graduate and undergraduate curricula was steadily upgraded to include more courses in mathematics, statistics, computer programming, and an integrative capstone undergraduate business policy course. Upon his retirement, the James R. McCoy Scholarship Fund was endowed for deserving students in the College of Business. In recognition of his long and meritorious career at The Ohio State University, Dean McCoy was awarded the University Distinguished Service Award in 1978.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Philip A. Renner

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 13, 1991, of Philip A. Renner, Instructor Emeritus in the Department of Poultry Science.

Philip A. Renner was born September 26, 1941, in Columbus, Ohio. He received his B.S. at The Ohio State University in 1963. He taught Vocational Agriculture at Centerburg High School, Centerburg, Ohio for one year. Mr. Renner joined the Department of Poultry Science, Ohio Agricultural Research and Development Center, Wooster, as a technical assistant in 1965 and served as the manager of the Turkey Research Center. In 1968 he was promoted to the faculty rank of Instructor.
February 7, 1992 meeting, Board of Trustees

Mr. Renner was active in research and extension. He was author or co-author of 23 peer reviewed scientific publications, 7 abstracts, and 64 semi-scientific and popular articles. He was coordinator of the Ohio Rabbit School from 1979 until his retirement on June 30, 1991. During his tenure as coordinator, the Ohio Rabbit School became recognized as the premier rabbit educational program in the country. Mr. Renner was recognized for his contributions to the rabbit industry by being elected to the Ohio Rabbit Breeders Hall of Fame in 1986.

Mr. Renner was very active in community activities. He twice served as president of the local parent teachers association and was a member of numerous community organizations. He also served as a judge at local and regional science fairs and poultry and rabbit shows. Mr. Renner was a member of The Poultry Science Association, American Rabbit Breeders Association, Ohio Rabbit Breeders, and Gamma Sigma Delta, The Honor Society of Agriculture.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Henry E. Wenden

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 13, 1991, of Henry Edward Wenden, Professor Emeritus in the Department of Geological Sciences.

Professor Wenden was born in New York City on November 24, 1916. He received a B.S. in Geology from Yale University in 1938. He spent four years during World War II serving with the Army Air Force and was discharged in 1945 with the rank of Technical Sergeant. He received an M.A. (1951) and a Ph.D. (1958) in Mineralogy from Harvard University. Dr. Wenden was an Instructor at Boston University from 1949-1953 and an Assistant Professor at Tufts University from 1953-1957. He joined the faculty of The Ohio State University as an Assistant Professor in 1957; he was promoted to Associate Professor in 1961 and was a Professor from 1963 until his retirement in 1983.

Professor Wenden was a fellow in the Mineralogy Society of America and the Ohio Academy of Science and a member of the Mineralogical Societies of Great Britain and Canada, the American Crystallographic Association, the National Association of Geology Teachers, and Sigma Xi (honorary).

Professor Wenden authored articles that were published in the leading mineralogical journals, coauthored the book The Changing Science of Mineralogy and made a substantial contribution to the 17th edition of Dana's Manual of Mineralogy, one of the most widely used textbooks in the field. His research on the diffusion of ions in quartz led to his being awarded a patent for developing a method of changing resonant frequency of quartz oscillator plates. He was a consultant for Owens-Corning Fiberglas, E.I. du Pont de Nemours, National Cash Register, and Wright-Patterson Air Force Base Research.

Professor Wenden was a teacher with few peers. He possessed the elusive faculty of enlivening even the most mundane facet of his subject by drawing on personal experiences and broad knowledge of the arts, history, and sciences. In discussions of advanced topics in his field he would never fail to contribute an illuminating explanation or a simplifying approach. Dr. Wenden
February 7, 1992 meeting, Board of Trustees

was presented with the Neil Miner Award by the National Association of Geology Teachers in 1962 for eminence in stimulating interest in the earth sciences, the first time the Award had been given to a person in the midst of their career rather than to one who had reached retirement or for whom retirement was imminent. Dr. Wenden also received the Distinguished Teaching Award at The Ohio State University in 1964. For years he was deeply involved with the Teaching Commission of the International Mineralogical Association. His wisdom, counsel, and the enthusiasm with which he transmitted his love of mineralogy will not be forgotten by the students and colleagues whose lives he touched.

On behalf of the University, the Board of Trustees expresses to the family of Professor Wenden its deep sympathy and sense of understanding of their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board’s heartfelt sympathy.

Alma Louise Wittmeyer

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 7, 1992, of Alma Louise Wittmeyer, Associate Professor Emeritus in the College of Nursing.

Alma Louise Wittmeyer was born April 19, 1925, in Cincinnati, Ohio. She began her education in nursing at Deaconess Hospital School of Nursing, Cincinnati, Ohio, graduating in 1946. She continued her education at The Ohio State University, earning a Bachelor of Science in Education in 1949 and a Master of Arts (Education-Guidance) in 1957. She participated in advanced education at the Institute for Behavioral Science National Training Laboratory in Bethel, Maine in 1966 and 1969. Ms. Wittmeyer was a nurse, teacher, and administrator. Her special interests involved the development of audiovisual materials in the instruction of nursing skills.

She joined the faculty of The Ohio State University School of Nursing as an Instructor in 1950. She was promoted to the rank of Assistant Professor in 1957 and Associate Professor in 1965. She worked as a member of the teaching staff and served as director of the Surgical Nursing Division. She directed a faculty group, with as many as twenty faculty members, teaching nursing arts and introductory nursing. She engaged in the initial research activities of the School of Nursing and published several articles in the nursing literature. She was a visiting Associate Professor at the School of Nursing, Wisconsin State University at Oshkosh 1970-71, and was named assistant director for health programs and Chairman of Health Services at the OSU Lima Campus in 1972. She served as Chairperson, Health Technologies Division, Professor of Nursing, Lima Technical College and Associate Director, The Ohio State University at Lima. While at Lima she oversaw the development of several health technology programs in addition to the Associate Degree program in Nursing. She was named as Associate Professor Emeritus in 1984.

Ms. Wittmeyer was recognized for her creativity in teaching. She foresaw the potential for television as a media for teaching nursing when television teaching was still in its infancy at The Ohio State University. She and other nursing faculty, under her guidance, prepared numerous videotapes that were used in teaching nursing fundamentals to several generations of nursing students. Her commitment to this form of instruction was evidenced in the guidance she gave to the design of the instructional facilities of Newton Hall, the College of Nursing Building.
February 7, 1992 meeting, Board of Trustees

Ms. Wittmeyer had a strong commitment to students, evidenced not only through teaching, but also through her involvement with student organizations through the College of Nursing. She was a faculty advisor to the Torch Club, and the Student Faculty Government Association and served as advisor to the School of Nursing class of 1967. She was a member of Sigma Theta Tau, the National Honor Society for Nursing and served Epsilon chapter as its president, secretary, and faculty advisor. The College of Nursing Alumni Association recognized her by awarding her with honorary membership. In addition to her university affiliations, she also actively participated with the Ohio Nurses Association, the Ohio League for Nursing and other community organizations.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Hans J. Zassenhaus

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on November 21, 1991, of Hans J. Zassenhaus, Professor Emeritus in the Department of Mathematics.

Hans Zassenhaus was born in Coblinz-Moselweiss, Germany, on May 28, 1912. After four years of undergraduate and graduate studies at the University of Hamburg, he received his doctorate in June 1934 at the age of 22. In 1938, Professor Zassenhaus earned his 'Habilitation' with a fundamental paper laying the foundations of a new area of research. During his long and illustrious career, he taught at several universities: Rostock University, Germany (1934-36), University of Hamburg, Germany (1936-48); University of Glasgow, Scotland (1948-49), Fellow of the British Council; McGill University, Canada, (1949-59), Peter Redpath Professor; University of Notre Dame, (1959-63); The Ohio State University (1963-64), Mershon Visiting Professor; and The Ohio State University, (1964-82), Research Professor. Some of the visiting positions held by him were: Gauss Professor, Gottingen University; Heidelberg University; UCLA; and Warwick University.

Professor Zassenhaus was a truly outstanding mathematician and most inspiring colleague. Over a period of 58 years, he contributed about 150 research papers. His last paper appeared in 1991. His research interests included algebraic number theory, geometry of numbers, algebra and partial differential equations of mathematical physics. He had authored several books. His famous "Theory of Groups" (1949) remains an indispensable reference even today. Under his leadership, "The Journal of Number Theory" was established at Ohio State in 1969.

Professor Zassenhaus took a profound interest in teaching of mathematics at all levels. He directed a large number of Ph.D. dissertations, 20 at Ohio State. He was very kind to his students and was most generous in sharing his time and creative ideas. Each summer, for several years, he taught a selected group of gifted high school students.

Professor Zassenhaus' numerous academic honors included: The Lester Ford Prize of Mathematics Association of America, membership in The Royal Society of Canada, Distinguished Fairchild Scholar at the California Institute of Technology, Distinguished American Scientist Award of the Alexander von Humboldt Foundation, Sesquicentennial University Professor at Montreal University, Distinguished Research Award, The Ohio State University (1981), and several honorary degrees.
On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Upon motion of Mr. Celeste, seconded by Mr. Colley, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

INVESTMENTS COMMITTEE REPORT

Amb. Wolf:

The Investments Committee held its annual review of our seven endowment fund equity advisors yesterday. We met with representatives from the Students Investment class, the Chicago Corporation, R. Meeder & Associates, Neuberger/Berman Mutual Funds, Nicholas Applegate, Capital Management, Wells Fargo Investment Advisors, and Wood Island Associates. Each of those advisors reported on its performance for the past fiscal year, as well as its current outlook for the coming year.

It was reported for the 12 month period ending June 30, 1991, that the Chicago Corporation and Wells Fargo S&P 500 Fund surpassed the benchmark return on the S&P 500, which itself was an extraordinary high return. The Investment Committee is going to review the information submitted to us yesterday, and will present any proposed changes we have at a future meeting of this Board.

I would like to take just a moment to call your attention to the Endowment Portfolio Summary in our books. The monthly endowment summary for the period December 20, 1991 through January 17, 1992, that's a period of about one month. The market value of the endowment fund on January 17, 1992, was a remarkable $409.7 million dollars. That's approximately $23.5 million dollars above the figure a month earlier of December 20, 1991. And that market value represents an all time high.

I can say also happily say that this month's increase of about 5.9 per cent represents the fifth highest monthly return in the Endowment Fund history. Just to give you a little clearer picture of those figures, the market value of the equity portion of our endowment fund increased $24.2 million dollars; while the fixed income portion of the endowment fund decreased only $64,000.00. Net new additions to the endowment fund totaled $373,000.00 for that period.

Now since July 1, 1991, which is the beginning of our fiscal year, the endowment fund has increased also a remarkable $58.5 million dollars. Of that amount net new additions were about $19.5 million dollars; and the net change in market value counted for an increase of a little over $39 million dollars. You will be pleased to know that the current assets allocation for the endowment fund is about 59 per cent invested in equities; 24 per cent in fixed income; 9 per cent in real estate; and 8 per cent in cash or cash equivalents.

All equity and fixed income advisors have had higher market values now, then they did 12 months ago. And for those of you who are interested, in the agenda book is the quarterly endowment fund report for the period ending December 20, 1991. This is a very happy result we've had the last 6 months and the last month, in particular, and the University will benefit because of these results. Thank you, Mr. Chairman.
February 7, 1992 meeting, Board of Trustees

Mr. Teaford:

I would just note that two of the people who represented our investment managers yesterday are with us today. The two students who presented the report which indicated that the original $5 million dollars that we gave to the students to invest is now at $7.5 million dollars. And I would like them to stand and be recognized.

Dr. Gee:

I might just note, also, that Ambassador Wolf was interviewed yesterday by a number of radio stations and I heard him early this morning on National Public Radio commenting on a number of things. I got a particular chuckle, and the students will, too, when they hear, when he indicated that he would like to send his own portfolio to you. We look forward to hearing how that works out.

(See Appendix LVIII for complete context of The Ohio State University Endowment Summary, January 17, 1992, page 901).

(See Appendix LIX for complete context of The Ohio State University Endowment Fund Quarterly Reports, December 20, 1991, page 915.)

AGRICULTURAL AFFAIRS COMMITTEE REPORT

Mr. Celeste:

I'm actually reporting on a meeting that was held in November. The Agricultural Affairs Committee meeting was held on November 6, 1991, at the College of Agriculture. Mr. Fred Dailey, Director of Agriculture for the State of Ohio and Vice Chairman of the Agricultural Affairs Committee, raised concerns that faculty and community leaders have regarding OARDC and the future of OARDC. Particularly, the effects of budget cuts and the Early Retirement program on the faculty and staff at Wooster, and Long-range plans for Wooster.

Dr. Moser gave a brief history on OARDC and dealt with several of the misconceptions that people have regarding the Center. He has since that time held open forums with the faculty and staff up in Wooster, and he and Director Daily have been up to Wooster. And, indeed, Dr. Moser, Director Daily and the Committee are planning to get together with community leaders and legislators in Wooster, to let them know about the College and University's support of OARDC, at the next meeting of the Agricultural Affairs Committee, scheduled for March 18, 1992. I'd like to encourage any members of the Board to participate with us in that meeting.

--0--

RESEARCH FOUNDATION REPORT

Ms. Casto:

I'm pleased to report a 34 per cent increase in research dollars for the last 6 months of 1991 compared with 1990. Several large international awards contributed to this increase. One of special note is $8.25 million dollar contract with the Government of Turkey to provide educational services.
February 7, 1992 meeting, Board of Trustees

The project with Turkey was discussed with much interest at The Ohio State University Research Foundation Board of Directors meeting January 17. This contract illustrates how important culture and language are to negotiations. It also points out the added complications of large scale international projects. These include imprest bank accounts, provisions for foreign law, payment issues, and the time and travel demands to conclude contract negotiations. On the other hand it is a fine example of the benefits that the University international projects provide. Thus the consensus of the OSURF Board was that the Research Foundation should continue to encourage faculty efforts in this area and to assist them with special problems encountered in these projects.

At tab 1, which is the summary of sponsor awards, you will find the National Science Foundation support has increased substantially. Many disciplines across campus have been generating more NSF fund. As you know, we tend to measure our research ranking by the NSF and NIH barometer, so it is especially welcome news that we see both sectors op. With competition for scarce funds increasing it is heartening to know that The Ohio State University is doing better than holding its own.

An expenditure summary is provided at tab 2. Indirect cost recovery is up by a million dollars.

Tab 3 contains a list of November Awards and tab 4 contains a list of December Awards.

At tab 5 you will find abstracts from some of the projects funded during this reporting period. One spotlights the NSF statewide science education project that has been receiving considerable publicity. The criminology project, which is described, demonstrates the combined research and service role of the University.

Environmental science and environmental engineering are emerging resource priorities. Among the December awards are some examples of Ohio State University work in this area. At tab 6 some of the projects are highlighted. There is also additional descriptive information at tab 7 on Ohio State University faculty expertise in this field of research. This topic is receiving more visibility and attention both nationally and within the State of Ohio.

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS
Resolution No. 92-85

Synopsis: Approval of the following reports on contracts, grants, and gifts and the summary for November and December 1991 is proposed.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, and The Ohio State University Development Fund:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station, and The Ohio State University Development Fund during the months of November and December 1991 be approved.

848
February 7, 1992 meeting, Board of Trustees

Upon motion of Ms. Casto, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

(See Appendix LX for The Ohio State University Development, page 925.)

(See Appendix LXI for Report of Research Contracts, Grants, and Gifts, page 927.)

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds

The Charles and Theresa Brown Presidential, Distinguished, Medalist and University Scholarship Fund

The Charles and Theresa Brown Presidential, Distinguished, Medalist and University Scholarship Fund was established February 7, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the estate of Ervin Brown, Chillicothe, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more merit scholarships for Charles and Theresa Brown Presidential, Distinguished, Medalist and/or University Scholars. Students shall be selected based upon the criteria sanctioned by the Senior Vice President for Academic Affairs and Provost and administered by the University Honors Center in consultation with the University Committee on Student Financial Aid.

This merit scholarship initiative is the result of recommendations from the 1990 University Task Force on Undergraduate Recruitment and the 1990-1991 Undergraduate Recruitment Implementation Steering Committee to the Senior Vice President for Academic Affairs and Provost.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Viola M. Wolfe Critical Difference for Women Re-entry Scholarship Fund

The Viola M. Wolfe Critical Difference for Women Re-Entry Scholarship Fund was established February 7, 1992, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development from the estate of Viola M. Wolfe of Valley City, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide scholarships for women returning to school after a break in their education. Students will be selected upon the recommendation of The Critical Difference for Women Re-Entry Scholarship Committee in consultation with the University Committee on Student Financial Aid. Criteria shall include both need and merit.
February 7, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Viola M. Wolfe Critical Difference for Women Re-entry Scholarship Fund (contd)

It is the desire of the donor that this fund should benefit the University in perpetuity. Should the need for this fund cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The College of Pharmacy Alumni Professional Education Fund

The College of Pharmacy Alumni Professional Education Fund was established February 7, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from alumni and friends of the College of Pharmacy.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support professional educational activities, facilities, and/or programs of the College of Pharmacy as approved by the Dean. In the event that it becomes necessary to invade the principal to meet the above objectives, the Dean may do so at his discretion.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Evelyn G. and George R. Ghearing Endowed Scholarship Fund

The Evelyn G. and George R. Ghearing Endowed Scholarship Fund was established February 7, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Evelyn G. and George R. Ghearing.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.
February 7, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Evelyn G. and George R. Ghearing Endowed Scholarship Fund (contd)

Twenty percent (20%) of the annual income shall be added to the fund's principal. The remaining eighty percent (80%) shall be used to award one or more education, engineering or business scholarships to deserving students who are attending The Ohio State University Marion Campus. Preference for scholarship awards shall be given to those students of freshman rank or higher who are pursuing study in education, engineering, or business, and who have a minimum overall G.P.A. of 3.0 or higher. The selection of the recipients shall be made by a committee consisting of a designated member of the Ghearing family and the University Committee on Student Financial Aid. The University shall make all reasonable attempts to contact a family member to have a representative present during the selection process. The successor of the above committee will be The Ohio State University Committee on Student Financial Aid in consultation with the Dean of The Ohio State University at Marion. Unused income in any given year shall be added to the principal of the fund.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson or program administrative officer in order to carry out the desire of the donors.

The John C. Geupel Cancer Research Endowment Fund

The John C. Geupel Cancer Research Endowment Fund for the Arthur G. James Cancer Hospital and Research Institute was established February 7, 1992, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund in memory of John C. Geupel.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support cancer research in The Arthur G. James Cancer Hospital and Research Institute as approved by the Director of the Arthur G. James Cancer Hospital and Research Institute and the Vice President of Health Services.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the Director of The Arthur G. James Cancer Hospital and Research Institute and the Vice President of Health Services in order to carry out the desire of the donors.
THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Alumni Association Building Endowment Fund

The Alumni Association Building Endowment Fund was established February 7, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from members and friends of The Ohio State University Alumni Association.

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income and additional gifts are to be added to the principal for the purpose of planning, constructing and maintaining an Alumni Association Building on campus. Principal as well as income may be used for planning, construction and maintenance of the building. Funds remaining after planning and construction of the building shall be transferred to The Ohio State Alumni Association, upon their request, for the purpose of maintaining the building.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees, with preference being given to recommendations from the Board of Directors of The Ohio State University Alumni Association.

The Drug Distribution and Public Policy Programs Fund

The Drug Distribution and Public Policy Programs Fund was established February 7, 1992, by the Board of Trustees of The Ohio State University with a transfer of funds from the O.S.P.A.-Pathak Fund.

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to assist in the development and operation of teaching, research, and service programs in the areas of drug distribution, pharmaceutical administration and public policy. Dr. Dev Pathak, or his designee, shall be responsible for the administration of this fund on behalf of the College of Pharmacy at The Ohio State University as long as Dr. Pathak is a faculty member or on staff at The Ohio State University. When Dr. Pathak is no longer a member of The Ohio State University, the annual income shall be used to support the projects in the area of pharmaceutical administration and public policy undertaken by graduate students and faculty members at The Ohio State University College of Pharmacy.

It is the intent that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the intended purpose of this fund.
The Hazel M. Borntrager Memorial Fund

The Hazel M. Borntrager Memorial Fund was established February 7, 1992, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from the estate of Karl A. Borntrager (B.S.C.E. '16) in memory of his wife, Hazel M. Borntrager (B.A. '16, B.S.H.E. '16).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used at the discretion of the Board of Trustees of The Ohio State University.

It is the desire of the donor that this fund shall benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Karl A. Borntrager Fund in Civil Engineering

The Karl A. Borntrager Fund in Civil Engineering was established February 7, 1992, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from the estate of Karl A. Borntrager (B.S.C.E. '16).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for the benefit of the Department of Civil Engineering as deemed appropriate by the Dean of the College of Engineering after consultation with the Chairperson of the Department of Civil Engineering.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.
The Andrew Hendrickson Scholarship Fund in Adult Education was established February 7, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Norejane J. Hendrickson (Ph.D., Education, 1958) in honor of her husband, Dr. Andrew Hendrickson, Professor Emeritus and former Director of the Center for Adult Education in the College of Education.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide financial assistance to a doctoral student in Adult Education. Students eligible for this award shall have an approved dissertation prospectus and the scholarship shall be used to assist with completion of dissertation work. Selection of the recipient shall be made by the Dean of the College of Education, in consultation with the University Committee on Student Financial Aid and the Adult Education faculty.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the Dean of the College of Education in order to carry out the desire of the donor.

The Morgan Horvitz Fund in Veterinary Medicine

The Morgan Horvitz Fund in Veterinary Medicine was established February 7, 1992, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from Marcy and Richard Horvitz of Moreland Hills, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide scholarship funds to a student who, having completed at least one academic quarter or semester in the College of Veterinary Medicine and having indicated a likelihood of practicing canine veterinary medicine demonstrates (1) true compassion toward and love of animals, and (2) a high level of scholarship and academic proficiency, as determined by the College of Veterinary Medicine Scholarship Committee, or a successor faculty committee with similar function. In the event that the Scholarship Committee determines that two or more candidates for the scholarship are equally deserving, the Scholarship Committee may consider the financial need of the candidates. Selection of the scholarship recipients shall be made by the College of Veterinary Medicine Scholarship Committee, or its successor, in consultation with the University Committee on Student Financial Aid. The scholarship award is renewable provided the scholarship recipient continues to meet the criteria set forth above.
February 7, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Morgan Horvitz Fund in Veterinary Medicine (contd)

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Barbara A. and Peter B. Miller Endowed Scholarship Fund

The Barbara A. and Peter B. Miller Endowed Scholarship Fund was established February 7, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Barbara A. and Peter B. Miller.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees, with the right to invest and reinvest as occasion dictates.

Twenty percent (20%) of the annual income shall be added to the fund's principal. The remaining eighty percent (80%) shall be used to award one or more scholarships to deserving students who are attending The Ohio State University Marion Campus. Preference for scholarship awards shall be given to those students of sophomore or higher rank who are residents of Marion County, who have financial need, and who have a minimum overall G.P.A. of 2.5 or higher. The scholarship award shall be used for tuition only. The selection of scholarship recipients shall be made by a committee consisting of a representative of the Miller family and the University Committee on Student Financial Aid. Should a representative of the family not be available or wish to participate, the selection responsibility shall rest with the University Committee on Student Financial Aid. Unused income in any given year shall be added to the principal of the fund.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson or program administrative officer in order to carry out the desire of the donors.

The Virginia Smith Stecker International Student Loan Fund

The Virginia Smith Stecker International Student Loan Fund was established February 7, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from family and friends of Virginia Smith Stecker.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees, with the right to invest and reinvest as occasion dictates.
February 7, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Virginia Smith Stecker International Student Loan Fund (contd)

The annual income shall be used for short-term, interest-free loans to international students faced with emergency situations. Students will apply for these loans through the Office of International Students and Scholars under the usual University application procedures. International students may borrow a maximum of $1,000. A signed endorsement by the Office of Student Financial Aid will be required. The loan repayment period will be limited to not more than ninety (90) days and will be repaid under existing University procedures to the Office of Student Loan Services.

It is the desire of the donors that the fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use for the benefit of international students and/or their immediate families shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Luther and Eloyce Tweeten Endowment Fund

The Luther and Eloyce Tweeten Endowment Fund was established February 7, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Luther and Eloyce Tweeten.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to assist in the funding of associateships and lecturers in the Department of Agricultural Economics and Rural Sociology as approved by the Department chairperson.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Ruby and Jack Weis Scholarship Fund

The Ruby and Jack Weis Scholarship Fund was established February 7, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Ruby and Jacob (Jack) F. Weis (B.S.E.E. ’26).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.
The Ruby and Jack Weis Scholarship Fund (contd)

Twenty percent (20%) of the annual income shall be added to the fund's principal. The remaining eighty percent (80%) shall be used to provide scholarship assistance to qualified students who enroll at The Ohio State University Marion Campus. Scholarship awards shall be made to students who have demonstrated (1) financial need; (2) a high degree of academic potential and scholastic ability; and (3) a record of good citizenship and service to others. Preference for scholarship awards shall be given to those who intend to enter the field of engineering and secondarily to those majoring in scientific studies. Should income from this fund not be awarded in any given year, the unused income is to be added to the fund's principal. Selection of the scholarship recipients shall be made by the University Committee on Student Financial Aid upon the recommendation of the Dean and Director of The Ohio State University at Marion.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate person or committee then responsible for student scholarship awards to students from the Marion, Ohio area in order to carry out the desire of the donors.
Change of Name and Description of Named Professorship

The Robert M. Critchfield Fund in Engineering

The Robert M. Critchfield Professorship in Engineering was established July 11, 1975, by the Board of Trustees of The Ohio State University, with a bequest to The Presidents Club of The Ohio State University by the late Robert M. Critchfield, (E.E., 1916) former vice president of the General Motors Corporation. Due to insufficient funding the professorship is being changed to a fund and the description is being revised February 7, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support faculty teaching and research through the purchase of equipment and instrumentation; employment of assistants; and/or defrayment of costs of travel, publication, and incidentals related to professional development. Selection of recipients is to be made from among faculty members, regular and special, of the College of Engineering by the Dean of the College of Engineering. Preference is to be given to faculty in the Department of Electrical Engineering.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.
Change in Description of Named Fund

The Donald D. Glower Merit Scholarship Fund

The Donald D. Glower Merit Scholarship Fund was established December 6, 1991, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from friends and colleagues in honor of Donald D. Glower, Dean, College of Engineering, 1976-1990, and Vice President, Development, 1990-1992. The fund is being revised February 7, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide undergraduate merit scholarships to students in the College of Engineering. Scholarship recipients shall be selected as freshmen and may continue as Glower Merit Scholars through their senior year so long as they remain in the top 10% of their class academically and continue in engineering. This 10% should be used as a guideline. Preference shall also be given to students from Crawford and Richland Counties. The fund shall be administered by the College of Engineering in cooperation with the University Honors Center and in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the dean of the College of Engineering in order to carry out the desire of the donors.
February 7, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Change of Name of Named Fund

The Steve R. and Sarah E. O'Donnell Fund
for University Systems

The Steve and Sarah O'Donnell Fund for University Systems was established November 6, 1987, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Steve R. O'Donnell (B.E.E., 1962; M.S., Electrical Engineering, 1963); and Sarah E. O'Donnell of Westerville, Ohio. The name of the fund is being revised February 7, 1992. All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide awards to University Systems employees who have shown excellence in some phase of our data processing activities; to acquire computing facilities for innovative tasks or inquiries; and/or provide specialized education opportunities for emerging or state-of-the-art computing techniques. Expenditures from the fund will be authorized by the Assistant Vice President, University Systems.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees, with preference being given to the recommendations from the appropriate administrative official of the University who is then directly responsible for administrative data processing.
February 7, 1992 meeting, Board of Trustees

HOSPITALS BOARD COMMITTEE REPORT

Mr. Barone:

I wish to give at this time the summary of Hospital Board activities of January 1992. On Thursday January 3 the Professional Affairs Educational Research Committee, the Administration Operation Committee, and the University Hospital Board meet. The Professional Affairs meeting began with an executive session devoted to qualify the care issue. The discussion included an actual case study. A review of the credential process and a usual review of quality indicators. Committee members felt these reports were very helpful and demonstrated the time and effort that have brought University Hospital to this level of excellence. In open session the Committee received updates from the Medical Director, the Chief of Staff, and the Director for this interrelation. Mr. Fraley presents encouraged statistics on certification, registration of license of hospital employees and also provided statistics on vacancy and turnover rates.

The Administration Operation Committee reviewed the external alter recommendation and managed its responses. All with the audited financial statement for the year ending June 30th, 1991. The committee received reports on safety and security, construction renovation projects, and an updated performance of hospital affiliates. Results of certificate of need appeal are important to our hospital. Mr. Schrock reported on litigation by the hospital against the Department of Health and Human Services. The Executive Director reported covered the selection of Rhodes Hall on the University’s south bonded landmark and ongoing efforts to increase the number of available parking places for patients, visitor and staff.

After receiving committee reports the Hospital Board witnessed the same old reel of University Hospital activities and that was presented to the Trustees in December by Ms. Selene, Dr. Vivian, and Mr. March. Mr. Fraley provided combined patient statistics from University Hospital and the James Cancer Hospital reporting that patient’s activity through December was almost exactly on budget. Mr. Schrock reported that the University Hospital total gross patient revenue through December was 2.8% over budget. The receivable has been reduced in 34 days. The Board voted to authorize the Hospital to increase the capital equipment budget to purchase replacement for aging and equipment on serious concerns of the emergency power system. Ms. Hensley briefly discussed the Hospital Board self evaluation process announced to begin in the very near future. Mr. Fraley provided a summary of new programs including Mothers on the Move and a house full of housekeeping certificate program sponsored jointly with a private industry council. Additional updates included the life care lines project, the echo family health center agreement, the Second Baptist Church Health Screening Clinic, Radio and TV spots being developed for use on WOSU, and a successful conclusion of the United Way Campaign during which the Hospital raised just over 115% of last year’s total. This ends the report on the Hospital Report Mr. Chairman.

At this time Mr. Chairman I wish to with much emotion and pride give you the name of Charlotte L. Immke to be appointed to the Hospital Board meeting.

As you know and as you stated I served Len Immke during my entire years that he was here on this Board. Of course, his generosity and his work with the Board of Trustees will always be remembered by everyone who ever served with him. I also had the honor to serve with Mr. Immke on the University Hospital Board. Now I feel greatly honored to present to you Charlotte Immke as a member of the Hospital Board.

Charlotte, Rose wanted me to tell you that she was very proud when she heard of your appointment.
February 7, 1992 meeting, Board of Trustees

Mrs. Charlotte Immke:

    Thank you.

HOSPITALS BOARD APPOINTMENT

Resolution No. 92-86

Synopsis: Approval of appointment to the Hospitals Board is proposed.

WHEREAS the Board of Trustees on November 30, 1979, approved the establishment of a University Hospitals Board; and

WHEREAS the membership of the Hospitals Board was approved on April 4, 1980, and has been subsequently amended; and

WHEREAS the Hospitals Board is recommending that Charlotte L. Immke be appointed to complete the remainder of the late Leonard J. Immke's term:

NOW THEREFORE

BE IT RESOLVED, That Charlotte L. Immke be hereby appointed to the University Hospitals Board for a term ending April 30, 1993.

Upon motion of Mr. Barone, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

CANCER HOSPITAL COMMITTEE REPORT

Mr. Dennis Smith:

    Thank you Mr. Chairman, President Gee, and members of the Board. Thank you for the opportunity to present our quarterly report which we find to be exciting and promising and hope that you do as well. Since our last report in November 1991 the Arthur G. James Cancer Hospital and Research Institute Oversight Committee of the Board of Trustees has met on a monthly basis. The following is a condensed report from those three meeting which was distributed to you earlier.

    At each meeting the Medical Director and Administrator Director of the Quality Assurance Department reported on the Hospital Operations currently monitored under quality assurance. There were no issues of major concerned identified and the committee endorsed the initiation of implementing a continuous quality improvement program through identifying two or three major foci as described by the joint commission on Accreditation of Health Care Organizations.

    The committee reviewed the fiscal year 1990-91 year end report which indicated and actual loss of 10.4 million dollars compared to a budgeted loss of 6.5 million dollars. It was noted that 8 million dollars of the net loss occurred during the first eight months of operations with a dramatic turn around occurring in the later portion of that operational year. Additional the committee reviewed the first six month report for fiscal year 91-92 and noted that all statistical and financial projections are being met and well within plan including admissions, patient days,
February 7, 1992 meeting, Board of Trustees

length of stay, and average daily census. Consequently, the Cancer Hospital has realized a net loss of 1.6 million dollars against a budgeted loss of 2.6 million dollars. This shows 1 million dollar positive variance. All indications are that this trend will continue and the projected annual net loss of 4.6 million dollars could be as little as 2.5 million dollars. It should be noted also that this equates to a 93% occupancy rate of the James Cancer Hospital. Compared to mid 1980 data provided to the state by vice president of Health Services the James Cancer Hospital is meeting and exceeding all financial projects including the anticipated break even time frame and annual net loss and net income budgets. However, this does not preclude the fact that the administration needs to and will continue to focus on major operational and financial strategies to promote the expedient solvency of the Cancer program.

Additionally included for your review please find the following: outpatient ambulatory care reports indicating dramatic volume increases of approximately 50% since opening last year, a report on our operating room volume which year to date has performed an average of 190 procedures per month compared to 107 procedures per month at this same time last year, a report on our development efforts which continue to accelerate with continued promise and improvements over the past 90 days, finally over the past 90 days several major grant applications have been submitted by members of the comprehensive Cancer Center including the submission of two spore grants, the brain tumor research grant, the construction grant, and at least 8 grant applications from the division of Hematology oncology. Recruitment efforts have been successful with the recent acceptance by a prestigious research to the wing chair and the addition of Dr. Richard Gabes with the developmental therapeutics programs.

Finally may I conclude by stating that the Arthur G. James Cancer Hospital and Research Institute continues to experience patient care and research growth. Operational success, financial improvement, and National notoriety of the past 12 months. In an effort to assure the continuation of this positive trend goals, objectives and supporting strategies are being finalized on a formalized strategic plan scheduled for implementation scheduled for implementation on March 1, 1992. This concludes my report.

--0--

Thereupon the Board adjourned to meet Friday, March 6, 1992, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio.

Attest:

Madison H. Scott Hamilton J. Teaford
Secretary Chairman
THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND TWO HUNDRED AND EIGHTIETH MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, March 6, 1992

The Board of Trustees met at its regular monthly meeting on Friday, March 6, 1992, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio, pursuant to adjournment.

**                       **                       **

Minutes of the last meeting were approved.

The Chairman, Mr. Teaford, called the meeting of the Board of Trustees to order on March 6, 1992, at 11:35 a.m. He requested the Secretary to call the roll.

PRESIDENT’S REPORT

President Gee:

It is a pleasure to report to you that last evening, several of the Trustees and I had the opportunity to have dinner with a group of honors students, followed by attending the University Dance Company performance. The information exchange of ideas and observations was very valuable for all of us. The spirit and enthusiasm of these students for Ohio State and its future inspired and challenged all of us. We had a remarkable time meeting some very, very fine young people, reminding us again that the word "student" comes first with everything that we do here at this institution.

Clearly, all of us share a commitment not to just protecting, but also enhancing quality at this institution. And we recognize that in this current budget climate, we are facing a series of remarkable challenges.

Today, I want to update you on actions we are taking that are enhancing quality and improving our management of scarce resources. First, Ohio State is doing a great deal for all of higher education across the county. In the last 10 years, four Ohio State provosts have become university presidents! Most recently, of course, Fred Hutchinson has been named president of the University of Maine. It is a special opportunity for Fred and Dione to return to Maine, and they go with our very best wishes. At the same time, it is a very sad day for this University. Fred, has been one of this institution's great leaders and certainly a great University citizen.

Today, I do bring to this Board the recommendation that Dean Joan Huber become our provost. I want to emphasize that this is not an acting position, but rather, with your concurrence, she will become provost until a national search is completed and the next provost is on board. The decision that I have brought to you reflects Dr. Huber's distinguished reputation as a scholar and academic leader and also reflects the urgency and importance of many tasks and decisions at hand. With academic planning well under way, we want to sustain momentum with this appointment.

I am also delighted to recommend to the Board today the appointment of Janet Pichette as Vice President for Business and Administration and of Bill Shkurti as Vice President for Finance. Each brings to our leadership team innovative thinking and a clear understanding of quality.

Dr. Huber has been charged, by the way, to examine the structure and functions of the Office of Academic Affairs and the colleges. Our goal is to examine priorities, enhance services, and streamline bureaucracy.
PRESIDENT’S REPORT (contd)

President Gee: (contd)

Additionally, Vice President for Human Resources and Relations, Linda Tom, and Vice Presidents Shkurti and Pichette have been asked to improve administrative efficiency and reduce university bureaucracy by 10 percent while improving services and better supporting our academic mission. I am confident that they will discover a number of ways to better utilize the talents and energies of our university family.

It is important to recall that we have reduced costs at Ohio State over the past 18 months by approximately $45 million, while at the same time, reallocating dollars to programs of higher priority.

We have achieved significant savings in the cost of health insurance for university employees. In fiscal year 1990 alone, we saved nearly $5 million with the new plan that includes increased employee involvement, cost sharing, and the use of a closed-panel health plan.

Ohio State is a leader in energy conservation. We currently use 30 percent less energy per square foot of building space than we did in 1972. And we discovered by the way, that it is hot in some of our meeting rooms. In the Big Ten, we are the second lowest user of energy per square foot. And I want everyone to understanding this, because this is a remarkable statistic. The replacement of energy-inefficient equipment and the use of Ohio coal and self-help gas resulted in an annual savings in excess of $2 million.

This month, we announced the consolidation of two food service areas for our residence halls. Occupancy in the halls has been reduced to address quality of life issues. As a result, we are able to accommodate the students in a single dining commons, realizing a considerable savings and helping to hold down the cost of room and board.

These are but a few examples of the steps we are taking to ensure quality for the future. There are many other indicators of the growing quality of our university. Among our faculty, Professor of Mathematics Karl Rubin has been awarded the prestigious Cole Prize, the highest honor given for mathematical research in number theory.

Three Ohio State researchers are among the 90 nationwide who received Sloan Research Fellowships for outstanding young scientists and economists. Our Sloan recipients are: Professor James Cowen in chemistry; Professor Randall Dougherty in mathematics; and Professor Richard Furnstahl in physics.

To continue to strengthen our already distinguished faculty, you have before you today the appoint of Jerald Greenberg as the Abramowitz Memorial Professor in Business, and the creation of the Paffenbarger Alumni Chair in Dental Research. Named chairs enable us to attract outstanding scholars to Ohio State.
March 6, 1992 meeting, Board of Trustees

PRESIDENT’S REPORT (contd)

President Gee: (contd)

Next week, Ohio State will make international news in the arts community with the awarding of The Wexner Prize to theater director Peter Brook. The Wexner Prize recognizes innovation and exploration in creative endeavors. On the occasion of winning The Wexner Prize, Mr. Brook will address the National Press Club in Washington. He will be honored at a reception given by the French Ambassador to the United States, and will come to campus to conduct a master class for theater students and to participate in a symposium on his work. The awarding of the prize contributes to the mission of the Wexner Center to support the leading edge of creativity and inspire appreciation for the arts. I might note, by the way, that we anticipate that we will have world-wide press coverage on this particular event. A number of folks from around not only this nation, but the international press community will be here on that occasion. A remarkable opportunity for us to tell the story about the University.

To recognize excellence among our students, this Board today will add the designation of "magna cum laude" to the distinctions of "cum laude" and "summa cum laude" already given. For some reason, Ohio State has, in the past, only defined two levels of achievement for undergraduate degree recipients. Adding this third level will be more in line with our peer institutions. I look forward to presenting the first "magna cum laude" diploma at the Winter Quarter commencement exercises.

We are most fortunate that the President of Hungary, the Honorable Arpad Goncz, will be our commencement speaker and will accept the honorary degree Doctor of Humane Letters. I had the privilege of meeting President Goncz while in Hungary and look forward to his visit to Ohio State.

As a final note, I might remind the members of this Board that they can line up for wristbands next Friday to get tickets for the Genesis concert. Perhaps I also need to point out that this Genesis has nothing to do with scriptures, though the media seem to be treating this stadium concert as "the second coming."

As you can tell from this report, while we are wrapping up Winter Quarter, we are moving rapidly and aggressively forward. Mr. Chairman, I thank you for allowing me the time to present a few of those issues today.

--0--

RESEARCH FOUNDATION REPORT

Ms. Casto:

I am pleased to report that the gains in research funding we noted last month have carried through the January report of awards received by The Ohio State University Research Foundation. At tab 1 we see that the award level for the July through January period is 31.26 percent above the same period last year. We are particularly pleased with the increases in funding from the federal government and the new large scale awards for international projects, which fall in the other non-federal category.
RESEARCH FOUNDATION REPORT (contd)

Ms. Casto: (contd)

At tab 2 you will find expenditure summaries. As we have observed in the past, expenditure data dampens oscillations such as the timing of awards. The expenditures comparison between last year and this year shows real growth. The total increase is about 10 percent, which is greater than the projected inflation rate.

Some projects of special interest which were funded in the month of January are listed at tab 3. I thought you might be particularly interested in the project supported by the U.S. Department of Agriculture looking at scaling up the harvest of taxus to produce taxol, a revolutionary anti-cancer drug. At tab 4 is the list of all projects funded in January.

Materials research projects are highlighted at tab 5. They include awards made in January and an overview of externally funded materials research at The Ohio State University. These projects represent cutting edge science and I am proud to say that the world leaders in many of the areas identified are the scientists at this University.

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS
Resolution No. 92-87

Synopsis: Approval of the following reports on contracts, grants, and gifts and the summary for January 1992 is proposed.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, and The Ohio State University Development Fund:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station, and The Ohio State University Development Fund during the month of January 1992 be approved.

Upon motion of Ms. Casto, seconded by Amb. Wolf, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

March 6, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds

The Lawrence and Isabel Barnett Fellowship Fund

The Lawrence and Isabel Barnett Fellowship Fund was established March 6, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Lawrence R. Barnett (B.S.Bus.Adm. ’88) and Isabel Barnett of Rye, New York.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to fund a yearly fellowship for a graduate student enrolled or planning to enroll in the Master of Arts in Arts Policy and Administration. Students shall be selected on merit, with preference for a student with need. This is a dual, interdisciplinary degree program within the College of The Arts and the School of Public Policy and Management. The fellowship recipient shall be selected by the Dean of The College of the Arts and the Director of the School of Public Policy and Management, or his/her designee, and in consultation with the University Committee on Student Financial Aid. If in any year there is unused income, this income shall be reinvested in the fund's principal.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean and School of Public Policy and Management director in order to carry out the desire of the donors.

The George R. St. Pierre Fellowship Fund in Mining and Metallurgy

The George R. St. Pierre Fellowship Fund in Mining and Metallurgy was established March 6, 1992, by the Board of Trustees, with a gift to The Ohio State University Development Fund from David H. Davis (Bachelor, Mining Engineering, 1933, M.S., Metallurgical Engineering, 1934) in honor of George R. St. Pierre, Presidential Professor and Chairperson of the Departments of Materials Science and Engineering and Metallurgical Engineering and the Division of Mining Engineering.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support one or more graduate students in the Department of Materials Science and Engineering. Preference shall be given to candidates whose interests are closely related to the primary mineral and metallurgical industries. Additional consideration shall be given to citizens of the United States. Recipients shall be named annually, but may be eligible to compete for renewed awards. Selection shall be made by the Chairperson of the Department of Materials Science and Engineering in consultation with the Dean of the Graduate School.
March 6, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The George R. St. Pierre Fellowship Fund in Mining and Metallurgy (contd)

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Dominic and Lisa Mandalfino Memorial Fund in Anesthesiology

The Dominic and Lisa Mandalfino Memorial Fund in Anesthesiology was established March 6, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from family and friends in memory of Dominic A. Mandalfino, M.D., and Lisa Anne Gunyula Mandalfino, M.D., of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support resident research and projects within the Department of Anesthesiology. Selection of recipient resident projects shall be made based on the merit of submitted proposals and as determined by the Chairperson for the Department of Anesthesiology and, whenever possible, in consultation with the Mandalfino and Gunyula families.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the Dean of the College of Medicine, Chairperson of the Department of Anesthesiology, or program administrative officer in order to carry out the desire of the donors.

The Alex M. Alexander Memorial Scholarship Fund

The Alex M. Alexander Memorial Scholarship Fund was established March 6, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from employees and associates of IDS Financial Services Company and from family and friends in memory of Alex M. Alexander. Alex M. Alexander was the leading financial planner for IDS Financial Services for over 50 years. He represented IDS and served his clients in Columbus, Ohio, until his death on March 23, 1991.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.
Description of Named Funds (contd)

The Alex M. Alexander Memorial Scholarship Fund (contd)

The annual income shall be used to fund scholarships for undergraduate students majoring in finance within the College of Business. Preference shall be given to students that have exhibited qualities of leadership, communication, and sales skills. Recipients shall be chosen by the Dean of the College of Business in consultation with the College of Business Scholarship Committee, Department of Finance, a representative of the Alexander family, and the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Rolfe E. Wood and Michael L. Wood Memorial Scholarship Fund

The Rolfe E. Wood and Michael L. Wood Memorial Scholarship Fund was established March 6, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from their parents, Margaret E. Wood and Louis E. Wood (B.S.Ed. ’49, Masters, Education, 1955) and their sister, Carol Wood Stowe (B.S.Ed. ’81, M.A., Education, 1984). Both Rolfe and Michael Wood died in tragic accidents in the 1980s and this fund was established to honor and memorialize them in perpetuity.

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide support for student(s) in the College of Education who are studying language, literature and reading. Selection of the scholarship recipient(s) shall be made by the Dean of the College of Education in consultation with the University Committee on Student Financial Aid and the faculty in the area of language, literature and reading.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the Dean of the College of Education.

--0--
HOSPITALS BOARD COMMITTEE REPORT

Mr. Celeste:

The Hospitals Board Executive Committee met on Thursday, February 27, 1992. Board members expressed pleasure at the appointment of Mrs. Charlotte Immke to fill her late husband's term, and extended appreciation to Jim Nichols for his service to the Hospitals as both Interim Executive Director and Acting Vice President. Mr. Schrock presented a financial and statistical report and reviewed key indicators of Hospitals performance. In the principal agenda discussion of the day, we reviewed and endorsed Hospitals Administration's proposal to recommend issuance of up to $32 million in tax-exempt bonds to University Administration. The capital projects to be included in bond financing would be the SICU Tower; the Neuropsychiatric facility; improvements to the Women's and Infants programs; and other facility improvements.

We received updates from the Chief of Staff, the Medical Director, Hospitals Public Relations, and Medical Center Development. Mr. Maier discussed the financial benefits associated with membership in the University Hospital Consortium, including accessing purchase agreements, initiation of a prime vendor program, and awards for research. Dr. Drago reported that within the next two months he expects to have a consultant's report on the best system for implementing physician single billing. He believes that by July some practice areas will be able to initiate consolidated billing.

Additionally, I believe Jim Nichols will have a presentation on the resolution which is under the tab Hospitals Board, relative to the Health Care Consortium.

Mr. Nichols:

Thank you, Mr. Celeste. Under the Hospitals Board tab is a resolution concerning the Health Care Consortium of Ohio. As you know, there has been considerable changes in the delivery of health care and necessity for networks in delivering that care. This particular resolution does fit in with the strategic plan of both University Hospitals and the College of Medicine and creates a network to enhance and expand opportunities to support educational, research, and service programs in the medical area, nursing, and other health profession areas. I would note that this network is established through affiliation agreements with the University and other health care facilities and is not a creation of any new corporation.

Specifically, the resolution authorizes the University to enter into affiliation agreements with such other hospitals and health care facilities as determined appropriate by the Vice President for Health Services to establish this Consortium to fulfill the mission. I would also note that in a further be it resolved, that in addition to all of the normal procedures for the signing of this by the President and/or Vice President for Business and Administration, that entering into these affiliations does not include any University responsibility or liability or liabilities for other institutions in the involvement of the governance of these as well as the control of University Hospitals. A report on each affiliation agreement will be filed with the Board of Trustees Office when that agreement is entered into.

Mr. Celeste:

Thank you, Mr. Nichols. Does anyone have any questions?
HEALTH CARE CONSORTIUM OF OHIO

Resolution No. 92-88

Synopsis: Authorization to enter into affiliation agreements with other hospitals for participation in the Health Care Consortium of Ohio is proposed.

WHEREAS the Strategic Plan of the College of Medicine and The Ohio State University Hospitals calls for the expansion of teaching and service relationships with additional hospitals throughout Ohio; and

WHEREAS such relationships will create a network to enhance and expand opportunities to support the educational, research, and service programs of The Ohio State University in medicine, nursing, and other health professions; and

WHEREAS such a network will directly support and enhance the delivery and continuity of health care for the citizens of Ohio; and

WHEREAS it is the intent of this Board that these relationships and network be established through affiliation agreements between the University and other health care facilities and not through the creation of any new corporation:

NOW THEREFORE

BE IT RESOLVED, That the Board of Trustees of The Ohio State University hereby authorizes the University to enter into affiliation agreements with such other hospitals and health care facilities as determined appropriate by the Vice President for Health Services to establish the Health Care Consortium of Ohio to better fulfill the education, research, and service missions of the University and its University Hospitals; to develop a referral area network through the Health Care Consortium of Ohio; and to serve as the sponsoring affiliate of the Consortium; and

BE IT FURTHER RESOLVED, That the President and/or Acting Vice President for Business and Administration, in consultation with and upon the recommendation of the Vice President for Health Services, be authorized to negotiate and executive such affiliation agreements upon such terms and conditions as are deemed to be in the best interest of the University, including, as appropriate, authorization for other hospitals or health care facilities to represent themselves as affiliates of The Ohio State University Hospitals so long as such affiliation does not include any University responsibility or liability for the operation or liabilities of the other institution or any involvement by the other institution in the governance, operation, or control of University Hospitals; and

BE IT FURTHER RESOLVED, That the Vice President for Health Services file a copy with the Office of the Board of Trustees each time such an affiliation agreement is entered into.

Upon motion of Mr. Celeste, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--
Mr. Barone:

The Ohio State University Board of Trustees Oversight Committee of The Arthur G. James Cancer Hospital and Research Institute has adopted a Strategic Plan which calls for major expansion of the institution's efforts in the areas of cancer control and prevention in Ohio, and in both basic and clinical research. A major effort will be taken to identify environmental hazards in Ohio which are contributing to cancer and to both work for their elimination from the environment, and to intensify education of the public to avoid them. Additionally and more specifically, the plan focuses on goals, objectives and strategies which include research, patient care, education, organization and management, human resources, and financial resources.

The plan calls for the recruiting of additional researchers to the Cancer Program at the Ohio State's Comprehensive Center, of which the Cancer Hospital and Research Institute is an integral part. Cancer research is conducted in twelve different colleges at Ohio State. The plan also calls for strengthening already existing links between basic laboratory research and patient treatment at the facility. The Strategic Plan also provides for expansion of philanthropic and other financial initiatives to support the implementation of the plan and expansion of the research, patient treatment, and education efforts, and includes an increase in hospital charges to bring the institution more closely in line with the other National Cancer Centers. In-line with that we are asking the Board to approve a 9 percent increase to supplement that because of our work that is being done with the strategic plan. We are accredited as number six in the country now in cancer research and care. The financial scenario outlined in the plan projects that the James Cancer Hospital will break even some time during fiscal year 1993.

The James Cancer Hospital and Research Institute is one of only four free-standing cancer centers in the nation, and one of a group of only nine cancer hospitals selected by Medicare for special status, because of the nature of leading-edge treatments developed and tested at its facility. The Strategic Plan is to be implemented over a period of five years.

Along with the Strategic Planning for the Cancer Hospital, we are now rated sixth in the country, if not the world, and they include Houston, American Oncology Memorial Sloan, the Moffett Rogel Park with Fred Hutchinson, not our Fred Hutchinson. We are in that group of cancer hospitals and rated accordingly.

At the last meeting, it was brought out that the care at the Cancer Hospital has been outstanding and patients have reported back with a survey has been most encouraging and excellent. I think that we can all be proud that we are now at the very edge of becoming one of the most leading and best cancer hospitals in the United States.

MID-YEAR RATE ADJUSTMENT FOR THE ARTHUR G. JAMES CANCER HOSPITAL AND RESEARCH INSTITUTE

Resolution No. 92-89

Synopsis: Approval for a mid-year rate adjustment for The Arthur G. James Cancer Hospital and Research Institute is proposed.
WHEREAS it is the goal of The Arthur G. James Cancer Hospital and Research Institute to be self supporting by fiscal year 1994; and

WHEREAS uncompensated care provided by the Cancer Hospital Research Institute totaled more than $10 million in fiscal year 1991; and

WHEREAS start-up funds borrowed from University Hospitals need to be repaid to protect their goals and objectives; and

WHEREAS rates currently charged by the Cancer Hospital Research Institute are significantly below those charged by other free-standing Cancer Hospitals:

WHEREAS The Arthur G. James Cancer Hospital and Research Institute Oversight Committee of The Ohio State University Board of Trustees recommends approval of a mid-year rate adjustment of 9 per cent to be effective April 1, 1992:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of The Arthur G. James Cancer Hospital and Research Institute, the Board of Trustees of The Ohio State University hereby authorizes the approval of a mid-year rate adjustment of 9 percent to be effective April 1, 1992.

Upon motion of Mr. Barone, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

STUDENT AFFAIRS COMMITTEE REPORT

Mr. Tonnies:

This morning the Student Affairs Committee heard a report from Mr. Lee Jones, Coordinator of the University Mentoring Program. He focused his mini-presentation on the development of the program and its current mission. He discussed the roles of the program participants, the mentee students, the peer mentors, the professional mentors, and members of the faculty and staff, and some of the research and assessment that has been completed.

Mr. Jones also highlighted the measurable growth and development areas the program has experienced over the last four years. Finally, he discussed the human research and programming needs as the program continues to expand. A folder was handed out to the Committee and all the information contained within is available to the Board members, if they so desire.

We then heard reports from the three student governments leaders. USG President Matt Markling and Assembly Speaker Amy Bashforth, gave an overview of upcoming USG projects and goals for Spring Quarter. They expressed their desire that the University remain aware of the campus crime problem and that this issue should not be forgotten in this time of financial crisis.
STUDENT AFFAIRS COMMITTEE REPORT (contd)

Mr. Tonnies: (contd)

Sophia Paige, President of the Interprofessional Council, reported that five names have been sent to the State House, these are the final five candidates for the Student Trustee position. Everyone will be glad to hear that of the five students, two are medical students and one is M.D., Ph.D. So the legacy can continue, hopefully.

President Gee:

There are two other possibilities aren't there, David?

Mr. Tonnies:

Well, one is a law student. So that is very scary indeed! Hector Lee, Vice President of the Council of Graduate Students, discussed his organization's upcoming constitutional changes and elections. He reminded the Committee that the organization's annual forum will be held on April 11.

If there are no further questions, this concludes my report.

--0--

INVESTMENTS COMMITTEE REPORT

Amb. Wolf:

The Investments Committee this morning reviewed the monthly endowment summary report for the period January 17, 1992, through February 21, 1992. I am pleased to report that the market value of our endowment fund on February 21 was $409.5 million. This total was about $250,000 below the January 17, 1992 market value because of adjustments in the equity market value, the fixed income market value, and some cash additions. But the total resulted in only a reduction of $250,000 in the month.

Since July 1991, the beginning of the Fiscal Year, the endowment fund has increased over $58 million, a remarkable amount of money. That $58 million increase net new additions about $23 million, and the net change in market value accounted for an increase of over $38.6 million. The current asset allocation for the endowment fund is 59 percent invested in equities, 24 percent invested in fixed income securities, 9 percent in real estate, and 8 percent in cash or cash equivalents. I am pleased to report that since July 1, 1991, forty-four new endowments have been created and there are now a total of 1,862 endowment accounts.

The Investments Committee also heard the quarterly report on total cash and investments for the University. It was reported that the total cash in investments for all accounts as of December 31, 1991, was $726.8 million. This was an increase of $26.5 million from the quarter ending September 30, 1991. The primary reason for this increase came from a $32.6 million net increase in the University's Endowment and Foundations Funds as reported just a few minutes ago.
Finally, the Investments Committee had discussed asset allocation for the endowment fund, as well as a review of the current investment managers' performances. The Committee had formally interviewed the fixed income and equity managers at two previous meetings. It was decided to continue the present asset allocation at its current targets of 60 percent equities, 25 percent fixed income, and the balance in real estate and cash equivalents. Changes in the allocations to the investment managers were discussed and a formal resolution reflecting these changes is going to be presented to the Board by me at this juncture. So therefore, in order to accommodate the asset allocations recommended at the Investments Committee this morning, I read and propose the following resolution:

**REAPPOINTMENT OF INVESTMENTS ADVISORS**

Resolution No. 92-90

Synopsis: The Investments Committee recommended the reappointment of external investment advisors.

WHEREAS it is the policy of The Ohio State University to utilize the services of external Investment Advisors to assist in the management of the University's Endowment Portfolio; and

WHEREAS the Investments Committee of the Board of Trustees periodically reviews the results obtained by named external Investment Advisors and the amount of funds assigned to each of them; and

WHEREAS it is prudent investment policy to adjust the mix and amounts of money assigned to external Investment Advisors as economic conditions change; and

WHEREAS the Investments Committee has directed the Treasurer to make the following changes in the Endowment Portfolio; and

WHEREAS the number of external Investment Advisors and the amount of funds assigned to them shall be determined by the Board of Trustees:

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Investments Committee of the Board of Trustees the following named external Investment Advisors shall be appointed and the following named external Investment Advisors shall be reappointed to counsel in the management of Endowment Portfolio Investments totaling the initial amounts indicated:

Upon motion of Amb. Wolf, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

Amb. Wolf:

The amounts I just indicated are the initial amounts given to these folks as adjusted by our new allocations, not the market amounts. And for the University Student Managed portfolio that $5 million, as we know, is over $7.5 million now, because the University students have done so well.

Mr. Teaford:

You might want to share quickly with the Board, Ambassador, what are the changes?

Amb. Wolf:

We decided to leave most of the Investment Portfolio as it had been allocated for the previous twelve months, with the exception of taking $17.5 million away from one of our Investment Managers in the Equity Portfolio, whose performance we felt was marginal.

In addition to that $17.5 million, we had accumulated cash of about $32 million; therefore, we found ourselves with $50 million available to us. It was decided to allocate that $50 million as indicated in the previous remarks. So we decided to allocate $30 million to our Equity Portfolio and of the remaining $20 million, $15 million was going to go into the Fixed Income or the Bond Portfolio, and $5 million would go into the Cash Account. Do you want the fragmentation of these figures, Mr. Chairman?

Mr. Teaford:

It might be useful if you could quickly go through them, so everybody knows what we have done.

Amb. Wolf:

Okay. Of the $30 million that we decided to allocate or increase in our Equity Account, we were going to increase our overseas index fund by $10 million, with the Wells Fargo (Overseas Index Fund). They already have a large amount of our funds in their portfolio. We decided to increase our small cap fund by $5 million with Nicholas Applegate, and they have been our best performer. We also decided to put $15 million in a small cap fund through Wells Fargo. But this small cap fund would be an index fund, and it would reflect exactly the same performance of the universal small cap stocks of the previous $5 million in the small cap fund.
Amb. Wolf: (contd)

We are going to allocate $15 million to the Bond Portfolio; $10 million into the University Manager GNMA account -- these are Government Certificates in which we have a small operating account; and $5 million in the Duff and Phelps Fixed Income Account. The reason for $5 million in the Duff and Phelps is because we have a considerable amount of money distributed in Fixed Income Managers who invest long-term, 20 years or more, and they performed very well last year. We decided to put a little more of our funds into the Intermediate Income Funds, which Duff and Phelps is, and they specialize in seven to ten-year securities. Therefore, we try to balance the Portfolio and have a reasonably secure position by adding $5 million dollars.

Mr. Teaford:

I wanted Amb. Wolf to go through that, because I do want everyone to understand the care with which we, particularly the Investments Committee, had worked to make sure that our Endowment Portfolio is in the best possible shape. That did include, I might add, one six-hour marathon session of meetings with our Equity Advisors.

(See Appendix LXIII for complete context of The Ohio State University Endowment Summary, February 21, 1992, page 1039.)

(See Appendix LXIV for Quarterly Cash and Investments, page 1053.)

--0--

ACADEMIC AFFAIRS COMMITTEE REPORT

Ms. Casto:

The Academic Affairs Committee heard today about high tech materials and how Ohio State University scientists and engineers are working on aircraft materials that could facilitate a flight from Columbus to Japan in two hours; improved fuel cells that would provide inexpensive environmentally friendly energy; and plastic magnets, which was the first plastic magnet ever to be discovered. It was discovered here last year.

The OSU Center for Materials Research in its two years has changed the culture of the traditional, discipline-oriented academic arena. More than 100 faculty in ten departments and three colleges now cross department and college lines and work together. They utilize some of the most advanced equipment such as electron microscopes, nuclear magnetic resonance equipment and lasers. The CMR has provided seed and matched funding for faculty initiated research. Already $1.9 million in new external funding has been brought back into the University. An additional $6.8 million in proposals for external funding are pending. Importantly, this new funding is providing a significantly enhanced educational environment for our students. Over 200 graduate students are affiliated with the CMR.
ACADEMIC AFFAIRS COMMITTEE REPORT (contd)

Ms. Casto: (contd)

The materials faculty at OSU are among world leaders in an interdisciplinary field that evolves daily because of the ability to manipulate materials atom by atom. Metals, ceramics, semiconductors, plastics, composites -- the materials of our world are changing dramatically. Our faculty and their industrial partners are strengthening the significant Ohio base of high tech materials research. A base which gives us a competitive edge in an increasingly one-world economy. A base which offers attractive and rewarding careers to our Bachelors, Masters, and Ph.D. graduates.

We are also recommending the following resolutions:

RENAMEING OF OFFICE

Resolution No. 92-91

Synopsis: The Academic Affairs Committee recommended the renaming the Office of Special Events to the Office of Commencement and Official Events.

WHEREAS the Office of Special Events is responsible for organizing University Commencement exercises and special events hosted or sponsored by the President; and

WHEREAS the mission statement of the office has been redefined at the direction of the President to clarify these functions as the office's primary role at the University, while the office will serve as an advisory resource to other University departments in the planning of their special events:

NOW THEREFORE

BE IT RESOLVED, That in order to establish and designate the mission of the Office of Special Events, it is recommended that the office's name be changed to the "Office of Commencement and Official Events."

Upon motion of Ms. Casto, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

ABOLISHMENT OF THE DEPARTMENT OF LABOR EDUCATION AND RESEARCH SERVICE

Resolution No. 92-92

Synopsis: The Academic Affairs Committee recommended the approval of the abolishment of the Department of Labor Education and Research Service.

WHEREAS the Department of Labor Education and Research Service is a tenure initiating unit of the College of Business primarily engaged in providing non-credit continuing education to workers and the leadership of labor organizations within the state of Ohio; and
ABOLISHMENT OF THE DEPARTMENT OF LABOR EDUCATION AND RESEARCH SERVICE (contd)

WHEREAS the Department of Labor Education and Research Service has been funded regularly through a line-item appropriation in the state budget, and has experienced this fiscal year a drastic reduction in operating funds, resulting in insufficient funds to maintain a core of critical activities; and

WHEREAS the non-credit teaching activities that are the main service of the Department of Labor Education and Research Service are given very low priority in the recent faculty-generated planning document of the College of Business entitled "An Agenda for Action"; and

WHEREAS the non-credit continuing education experiences offered by the Department of Labor Education and Research Service can be accomplished through other programs of the University; and

WHEREAS it has been proposed that the Department of Labor Education and Research Service be abolished, and the faculty of the College of Business voted on November 7, 1991, to approve this proposal; and

WHEREAS the Council on Academic Affairs unanimously approved the proposal after being satisfied that all tenure commitments of the University to the faculty of the Department of Labor Education and Research Service would be honored; and

WHEREAS the University Senate, on February 29, 1992, approved the abolishment of the Department of Labor Education and Research Service:

NOW THEREFORE

BE IT RESOLVED, That the recommended abolishment of the Department of Labor Education and Research Service is hereby approved effective at the end of this fiscal year, June 30, 1992.

Upon motion of Ms. Casto, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

Mr. Teaford:

Subject to anyone disagreeing, I am going to suspend the rules, that we must have 2 weeks notice for anyone who wishes to address the Board, because this issue came up less than two weeks ago. I have indicated to representatives, I think they are students from that department, that they will have ten minutes to address us with their concerns on this issue. I would ask the Secretary to keep track of that ten minute period and let me know when it has expired. You want to come to the table where the microphone is located and give us your name and affiliation first before you speak.

Ms. Nancy Kiehl:

Thank you very much for allowing us this ten minutes. My name is Nancy Kiehl and I am an undergraduate student from the Department of Photography and Cinema.
March 6, 1992 meeting, Board of Trustees

Ms. Kiehl: (contd)

First of all, as many of you have seen out in the hall, we placed film and also some of the main concerns we have about this termination. We want to ask you these questions which were on a leaflet we passed out: Are the buy-outs of senior faculty the most responsible means for cutting the budget? What are the ramifications of those changes to the quality of education for students? Is limiting the number of students served appropriate? Should this University, by design or default, move from a focus of strong undergraduate education to graduate only programs? You may not be able to alter the cut-backs to education from the federal and state legislators, but you can and must use your vision and expertise to determine how those cuts will affect the quality of education on this campus. You have the opportunity to say "no" to this short-sighted proposal to terminate the Department of Photography and Cinema.

We are here to protest a vote that we believe was decided in May of 1991, and we invited you to walk over the real losses. The real losses, if some of you weren't able to read them, are Photo Cinema History and Theory; Interdisciplinary Studies; Media Criticism; Undergraduate Film Studies; Visual Literacy; Experimental Film; Animation; and Documentary Film. These are the real losses that we are most concerned about and we want you to contemplate the imaginary gains that you are about to vote in.

We the concerned students, faculty and alumni of the Department of Photography and Cinema oppose the termination. We seek the retention of the Department of Photography and Cinema as a discrete area of study, and the placement of this department in an administrative structure that can provide the appropriate support for media education at The Ohio State University. Thank you.

Mr. Teaford:

Thank you.

Mr. Tom Hayes:

Mr. Chairman, Ladies and Gentlemen of the Board, I appreciate this opportunity to address you on the issue of the future of the Department of Photography and Cinema at The Ohio state University. My name is Tom Hayes. I am a proprietor of a motion picture production company here in Columbus, and also an independent media artist that has received the major fellowship award from the Ohio Arts Council. I am not affiliated with The Ohio State University in any way. I studied cinema at Ohio University in Athens, and began working in the commercial end of the business here in Columbus, in 1978.

The issue that I would like the Board to consider is the unique opportunity that Columbus provides students of cinema and video. There is no other state university that can offer the internship opportunities that the Ohio State department oversees. Students at OSU have the opportunity to perform internships with a wide range of top-drawer media production facilities. No other film department in the state exists in such a production environment. I make this assessment on the basis of fourteen years experience, working all across Ohio, and the region.
March 6, 1992 meeting, Board of Trustees

Mr. Hayes: (contd)

When considering the future of the OSU Department of Photography and Cinema, I urge the Board to consider the unique experience factor so important to the future employment of cinema graduates that the OSU department offers its students. It would be unfortunate if cinema studies in the State of Ohio were relegated exclusively to areas and markets where students’ opportunities for real life experience in their field is limited. I urge the Board of Trustees to preserve the OSU Department of Photography and Cinema. Thank you, very much, for this opportunity to speak to you.

Mr. Teaford:

Thank you.

Ms. Linda Thornburg:

President Gee, members of the Board of Trustees, thank you, very much for the opportunity to speak on behalf of the Department of Photography and Cinema. My name is Linda Thornburg. I am Vice President of the Alumni Society of Photography and Cinema, and apart from "The Best Damn Band in the Land", we are the only alumni society in the College of the Arts. I am also an independent filmmaker and work here in town.

Apart from the issues of critical studies and literacy which Nancy addressed, and the internationally recognized curriculum which this proposed change puts us under, the closing of Photography and Cinema is economically unhealthy for the State of Ohio. Ohio is the center of a $9 billion regional moving image industry. In Columbus alone, since 1972, the industry has grown from two production facilities, one of which was the Department of Photo and Cinema, to 77 production houses; currently 150 ad agencies use these media; 16 broadcast and cable facilities; and hundreds of other in-house organizations which produce their own media. This local industry is a direct result of graduations from the Department of Photo and Cinema. Beyond that the graduates from Photo and Cinema provide a labor pool in Ohio which brings in an additional $15 million annually from Hollywood productions done on location here.

Bob Shay, Chairperson of the Department of Art where Photography is to be housed under the proposal, stated in a public forum that his department would not continue teaching subjects related to commercial photography because he ran an art department and they simply were not interested in commercial work. This has been one of the problems of housing Photo and Cinema in the College of the Arts, and continues with the moving of Photo into the Art Department and Cinema into Theater.

Though Photo came from the arts in the 1800’s and though Cinema initially filmed Theater arts, the children disciplines have vastly outgrown the parents. The Arts faculty may not be used to having their graduates move into making a living in their disciplines, but undergraduates and graduates from Photo and Cinema move directly into an expanding high-tech industry. This kind of misunderstanding of the power and import of camera-based disciplines has plagued this ill-informed decision about disciplines critical to the 21 Century. We ask that you reject the proposal to terminate Photo and Cinema. Thank you, very much.
March 6, 1992 meeting, Board of Trustees

Mr. Teaford:

Thank you, ladies and gentleman. Dean Harris, do you wish to add anything?

Dean Harris:

No.

Mr. Teaford:

I do want you to know that this Board does appreciate the difficulty in making this decision. This is not anything that anybody at this University, in my opinion, has done lightly.

**abolishment of the department of photography and cinema**

Resolution No. 92-93

Synopsis: The Academic Affairs Committee recommended approval of the abolishment of the Department of Photography and Cinema.

WHEREAS the Faculty of the College of the Arts and the Council on Academic Affairs have approved the proposal to abolish the Department of Photography and Cinema; and

WHEREAS arrangements have been made to transfer the remaining faculty and staff of the Department and the curricula for photography, cinema, and video to other visual and performing arts departments which will strengthen existing core programs and increase the interdisciplinary relationship to programs in art, art history, and theatre; and

WHEREAS the University Senate, on February 29, 1992, approved the abolishment of the Department of Photography and Cinema:

NOW THEREFORE

BE IT RESOLVED, That the recommended abolishment of the Department of Photography and Cinema is hereby approved effective immediately.

Upon motion of Ms. Casto, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

**Establishment of named chair**

Resolution No. 92-94

Synopsis: The Academic Affairs Committee recommended the approval of the establishment of a named chair.

WHEREAS in accordance with the guidelines previously established by the Board, The George C. Paffenbarger Chair in Restorative Dentistry and Dental Materials Fund was established May 3, 1985; and
ESTABLISHMENT OF NAMED CHAIR (contd)

WHEREAS all gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates; and

WHEREAS the name and description are being revised and this fund will be enlarged by the Board of Trustees through the incorporation of The College of Dentistry Named Professorship and The College of Dentistry Advancement Endowment Fund. The three funds were merged at the direction of the dean and in consultation with the donors of the above mentioned funds; and

WHEREAS the funding has now reached the level required:

NOW THEREFORE

BE IT RESOLVED, That The George C. Paffenbarger Chair in Restorative Dentistry and Dental Materials Fund be changed to The George C. Paffenbarger - Alumni Chair in Dental Research. The annual income shall be used to provide support for the work of an internationally recognized scholar, researcher, or teacher of distinction in the profession of dentistry. This person shall have demonstrated a thorough knowledge of dental research through publications, research grants and innovative approaches in this field. Appointment to the Chair shall be recommended by the Dean of the College of Dentistry, after consultation with section chairpersons, to the Provost and approved by the Board of Trustees; and

BE IT FURTHER RESOLVED, That it is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officers in order to carry out the desire of the donors.

Upon motion of Ms. Casto, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

CHANGES IN THE UNIVERSITY'S REQUIREMENTS AND PROCEDURES FOR GRADUATING WITH HONORS

Resolution No. 92-95

Synopsis: The Academic Affairs Committee recommended the approval of changes in the University's requirements and procedures for graduating with honors.

WHEREAS the Task Force on Graduation with University Honors has conducted a careful review of the University's requirements and procedures for graduating with honors; and

WHEREAS the Task Force proposed that two major changes be made, including: (1) adding the designation magna cum laude to the list of honors, and (2) abolishing the designation "With University Honors" and substituting the award of a "University Commendation"; and

WHEREAS the addition of the third designation of honors, magna cum laude, would bring The Ohio State University more in line with other peer institutions; and
March 6, 1992 meeting, Board of Trustees

CHANGES IN THE UNIVERSITY'S REQUIREMENTS AND PROCEDURES FOR GRADUATING WITH HONORS (contd)

WHEREAS the University Senate, on January 25, 1992, approved the changes in the University's requirements and procedures for graduating with honors:

NOW THEREFORE

BE IT RESOLVED, That the above changes in the University's requirements and procedures for graduating with honors is hereby approved effective Winter Quarter 1992.

Upon motion of Ms. Casto, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY

Resolution No. 92-96

Synopsis: The Academic Affairs Committee recommended the approval of the following amendments to the Rules of the University Faculty.

WHEREAS the University Senate pursuant to rule 3335-1-09 of the Administrative Code is authorized to recommend through the President to the Board of Trustees the adoption of amendments to the Rules of the University Faculty as approved by the University Senate; and

WHEREAS the proposed changes in the Rules of the University Faculty were approved by the University Senate on December 7, 1991, and January 25, 1992:

AMENDED RULES

3335-5-19 Faculty.

As used in these rules the term "faculty" shall include persons appointed by the board of trustees with regular, regular clinical, auxiliary, and emeritus faculty titles on full- or part-time appointments, with or without salary.

(A) "Regular faculty": persons with the titles of professor, associate professor, assistant professor, and instructor who serve on appointments totaling fifty per cent or more service to the university.

(B) "Regular clinical faculty": persons with the titles of professor of clinical (division, department or college), associate professor of clinical (division, department or college), assistant professor of clinical (division, department or college), and instructor of clinical (division, department or college), who serve on appointments totaling fifty per cent or more service to the university. Regular clinical faculty appointments are made only in the college of dentistry, the college of optometry, the departments of veterinary clinical sciences and veterinary preventive medicine in the college of veterinary medicine, the divisions of pharmacy practice and pharmaceutical administration in the college of pharmacy, and the following departments in the college of medicine: anesthesiology, emergency medicine, family medicine, internal medicine, neurology, obstetrics and gynecology, ophthalmology, otolaryngology, pathology, pediatrics, physical medicine, preventive medicine, psychiatry, radiology, and surgery.
AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

The number of persons holding regular clinical faculty titles in each division, department or college cannot be greater than one-third the number of persons holding regular faculty titles in that division, department or college. Individuals appointed to the regular clinical faculty are limited to participating in governance at the division, departmental and college levels, but may not participate in promotion and tenure matters of regular faculty.

(C) and (D) unchanged.

3335-9-33 Standards for honors at graduation.

(A) Degrees "cum laude," "magna cum laude," and "summa cum laude" may be granted for exceptional achievement in the curriculum of each college or other enrollment unit. The number of students accorded these honors shall not exceed ten per cent. The number of students accorded "summa cum laude" and "magna cum laude" shall not exceed six per cent, and the number of students accorded "summa cum laude" shall not exceed three per cent of the graduating classes of the enrollment unit. Eligibility for these honors shall be based on a minimum of ninety credit hours of work COURSE enrollment at this university.

(B) Standards for graduation "with distinction in [special subject(s)]" and "with honors in [ ]" shall be as adopted by the council on academic affairs.

(C) Beyond these minimal requirements the enrollment units may establish additional stipulations for graduation "cum laude," "magna cum laude," and "summa cum laude."

3335-47-11 Regular clinical faculty ranks.

The titles of regular clinical faculty are professor of clinical (division, department or college), associate professor of clinical (division, department or college), assistant professor of clinical (division, department or college), and instructor of clinical (division, department or college). Individuals in this track may have a full range of responsibilities to appropriate academic units with emphasis on patient care and clinical teaching activities. Clinical activities for faculty members in this category are to be included in approved practice plans.

(A) Appointment criteria.

Initial appointments, or transfer, to the regular clinical faculty will be made for individuals with the following experience or credentials:

(1) They are strict or geographic full-time faculty members in academic units authorized to make regular clinical faculty appointments (see paragraph (B) of rule 3335-5-19 of the Administrative Code).

(2) They engage in activities which consist primarily of patient care and clinical teaching and supervision.

(3) They have the appropriate educational background and credentials to engage in the activities outlined in paragraph (A)(2) of this rule. Formal requisite: D.D.S., D.V.M., M.D., Pharm. D., D.N.S., R.N., OR Ph.D., R.N., OR Ed.D., R.N., or O.D. degree or equivalent qualification.
AMENDMENTS TO THE RULES OF THE UNIVERSITY FACULTY (contd)

(4) They are essential to the continuing mission of the relevant college as determined by the appropriate clinical division or department chairperson, dean of the college, and senior vice president for academic affairs and provost.

Balanced unchanged.

NOW THEREFORE

BE IT RESOLVED, That the foregoing amendments to the Rules of the University Faculty be adopted as recommended by the University Senate.

Upon motion of Ms. Casto, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

HONORARY DEGREE

Resolution No. 92-97

Synopsis: The Academic Affairs Committee recommended approval of awarding an honorary degree to Arpad Goncz.

WHEREAS pursuant to paragraph (C) of rule 3335-3-03 of the Administrative Code, the President, after consultation with the Steering Committee of the University Senate, recommends to the Board of Trustees awarding of an honorary degree as listed below:

Arpad Goncz     Doctor of Humane Letters

NOW THEREFORE

BE IT RESOLVED, That the above honorary degree be awarded in accordance with the recommendation at a time convenient to the University and the recipient.

Upon motion of Ms. Casto, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

PERSONNEL ACTIONS

Resolution No. 92-98

RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the February 7, 1992 meeting of the Board, including the following Appointments, Appointment of Chairpersons, Professional Improvement Leaves, Professional Improvement Leave--Cancellation, Emeritus Titles, and Medical Staff Appointments (The Arthur G. James Cancer Hospital and Research Institute) as detailed in the University Budget be approved, and the Appointments/Reappointments (The Ohio State University Hospitals) approved January 30, 1992, by the Hospitals Board be ratified.
March 6, 1992 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Appointments

Name: JOAN N. HUBER
Title: Senior Vice President and Provost
Office: Academic Affairs
Effective: April 1, 1992
Salary: $142,008.00
Present Position: Dean, College of Social and Behavioral Sciences and Coordinating Dean, Colleges of the Arts and Sciences

Name: JANET G. PICHETTE
Title: Vice President
Office: Business and Administration
Effective: April 15, 1992
Salary: $130,008.00
Present Position: Vice President for Business and Finance, and Treasurer, Eastern Michigan University, Ypsilanti, MI

Name: WILLIAM J. SHKURTI
Titles: Vice President and Adjunct Professor
Office/School: Finance/Public Policy and Management
Effective: February 21, 1992
Salary: $130,008.00
Present Position: Acting Vice President for Finance and Adjunct Professor, Public Policy and Management

Name: JERALD GREENBERG
Title: Professor (The Irving Abramowitz Memorial Professorship)
College: Business
Term: March 1, 1992 through February 28, 1997
Present Position: Professor, Department of Management and Human Resources

Appointment of Chairpersons

October 1, 1991 through June 30, 1992

Astronomy
Gerald H. Newsom*

March 1, 1992 through June 30, 1992

Materials Science and Engineering
George R. St. Pierre*

*Acting Chair

Professional Improvement Leaves

DAGMAR C. G. LORENZ, Professor, Department of German, effective Autumn Quarter 1992, Winter Quarter and Spring Quarter 1993.

KENNETH E. NAYLOR, Professor, Department of Slavic and East European Languages and Literatures, effective Autumn Quarter 1992, Winter Quarter and Spring Quarter 1993.
PERSONNEL ACTIONS (contd)

Professional Improvement Leaves (contd)

JANE M. SNYDER, Professor, Department of Classics, effective Autumn Quarter 1992, Winter Quarter and Spring Quarter 1993.

HEIMY F. TAYLOR, Professor, Department of German, effective Autumn Quarter 1992, Winter Quarter and Spring Quarter 1993.

SARA GARNES, Associate Professor, Department of English, effective Autumn Quarter 1992, Winter Quarter and Spring Quarter 1993.

YUNG-HEE KWON, Associate Professor, Department of East Asian Languages and Literatures, effective Autumn Quarter 1992, Winter Quarter and Spring Quarter 1993.

CLAIRE C. ROBERTSON, Associate Professor, Department of History, effective Autumn Quarter 1992, Winter Quarter and Spring Quarter 1993.

SABRA J. WEBBER, Associate Professor, Department of Judaic and Near Eastern Languages and Literatures, effective Autumn Quarter 1992, Winter Quarter and Spring Quarter 1993.

JEROME B. ZUTELL, JR., Associate Professor, Department of Educational Theory and Practice, effective Winter Quarter and Spring Quarter 1993.

Professional Improvement Leave--Cancellation

CARTER V. FINDLEY, Professor, Department of History, effective Spring Quarter and Autumn Quarter 1992, and Winter Quarter 1993.

Professional Improvement Leaves--Change in Dates

VIRGINIA E. RICHARDSON, Professor, College of Social Work, change leave from Winter Quarter and Spring Quarter 1992, to Winter Quarter 1992.

Emeritus Titles

DONALD D. GLOWER, Office of University Development -- Administration and Department of Mechanical Engineering, with the titles Vice President and Professor Emeritus, effective March 1, 1992.

FRANCIS E. HAZARD, Marion Campus, with the title Dean and Director Emeritus, effective March 1, 1992.

LENA M. BAILEY, College of Human Ecology -- Administration, with the title Dean and Professor Emeritus, effective March 1, 1992.

KATHRYN S. PYANT, Graduate School -- Administration and Department of Medical Biochemistry, with the title Associate Dean and Associate Professor Emeritus, effective March 1, 1992.
PERSONNEL ACTIONS (contd)

Emeritus Titles (contd)

ROBERT F. REDMOND, College of Engineering -- Administration, with the title Professor and Associate Dean Emeritus, effective March 1, 1992.

MILTON WYMAN, College of Veterinary Medicine -- Administration, with the title Associate Dean and Professor Emeritus, effective January 1, 1992.

ERWIN M. KOHLER, College of Veterinary Medicine -- Administration, with the title Assistant Dean and Professor Emeritus, effective March 1, 1992.

JAMES C. METZLER, College of Dentistry -- Administration, with the title Assistant Dean and Associate Professor Emeritus, effective March 1, 1992.

DAN D. GARRISON, Agricultural Technical Institute -- Administration, with the title Director Emeritus, effective March 1, 1992.

THOMAS V. BATTENBERG, School of Music, with the title Assistant Director and Professor Emeritus, effective March 1, 1992.

A. PETER COSTANZA, School of Music, with the title Assistant Director and Professor Emeritus, effective March 1, 1992.

GEORGE R. ST. PIERRE, Department of Materials Science and Engineering, with the title Chairperson and Professor Emeritus, effective March 1, 1992.

P. TENNYSON WILLIAMS, Department of Family Medicine, with the title Chairperson and Professor Emeritus, effective March 1, 1992.

DARREL L. ACKER, Cooperative Extension Service, with the title Professor Emeritus, effective March 1, 1992.

L. EUGENE ARNOLD, Department of Psychiatry, with the title Professor Emeritus, effective March 1, 1992.

CHARLES L. BABCOCK, Department of Classics, with the title Professor Emeritus, effective March 1, 1992.

ALFRED G. BISHARA, Department of Civil Engineering, with the title Professor Emeritus, effective March 1, 1992.

JOHN D. BRIGGS, Department of Entomology, with the title Professor Emeritus, effective March 1, 1992.

GARTH A. CAHOON, Department of Horticulture, with the title Professor Emeritus, effective March 1, 1992.

MAURICE T. CASEY, School of Music, with the title Professor Emeritus, effective March 1, 1992.

JACK A. COLLINS, Department of Mechanical Engineering, with the title Professor Emeritus, effective March 1, 1992.
March 6, 1992 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Emeritus Titles (contd)

DAVID W. DEAN, Department of Mathematics, with the title Professor Emeritus, effective March 1, 1992.

C. RICHARD DORN, Department of Veterinary Preventive Medicine, with the title Professor Emeritus, effective March 1, 1992.

PAUL E. DROSTE, School of Music, with the title Professor Emeritus, effective March 1, 1992.

ALI Z. ELGABRI, Department of Communication, with the title Professor Emeritus, effective March 1, 1992.

ROBERT L. FOLK, Department of Internal Medicine, with the title Professor Emeritus, effective March 1, 1992.

JAMES F. GALLANDER, Department of Horticulture, with the title Professor Emeritus, effective March 1, 1992.

GILBERT W. HALL, Department of Art, with the title Professor Emeritus, effective March 1, 1992.

VINCENT V. HAMPARIAN, Department of Pediatrics, with the title Professor Emeritus, effective March 1, 1992.

ERWIN F. HEBNER, Department of Art, with the title Professor Emeritus, effective March 1, 1992.

CHARLES W. HOFFMANN, Department of German, with the title Professor Emeritus, effective March 1, 1992.

ROBERT E. JACOBSON, Department of Agricultural Economics and Rural Sociology, with the title Professor Emeritus, effective March 1, 1992.

EDWARD J. KANE, Department of Economics, with the title Professor Emeritus, effective March 1, 1992.

MARTIN D. KELLER, Department of Preventive Medicine, with the title Professor Emeritus, effective March 1, 1992.

DALE W. KRETCHMAN, Department of Horticulture, with the title Professor Emeritus, effective March 1, 1992.

ROBERT T. LEBLANC, School of Music, with the title Professor Emeritus, effective March 1, 1992.

CLARK LEAVITT, Department of Marketing, with the title Professor Emeritus, effective March 1, 1992.

DAVID J. LIM, Department of Otolaryngology, with the title Professor Emeritus, effective February 1, 1992.

JOHN B. LINDAMOOD, Department of Food Science and Technology, with the title Professor Emeritus, effective March 1, 1992.
PERSONNEL ACTIONS (contd)

Emeritus Titles (contd)

NANCY J. MACGREGOR, Department of Art Education, with the title Professor Emeritus, effective March 1, 1992.

KAMRAN MAJIDZADEH, Department of Civil Engineering, with the title Professor Emeritus, effective March 1, 1992.

JAMES H. MARTIN, Department of Food Science and Technology, with the title Professor Emeritus, effective March 1, 1992.

WILLIAM MELNICK, Department of Otolaryngology, with the title Professor Emeritus, effective March 1, 1992.

LAWRENCE J. MONROE, Department of Psychiatry, with the title Professor Emeritus, effective March 1, 1992.

JOHN B. NEUHARDT, Department of Industrial and Systems Engineering, with the title Professor Emeritus, effective March 1, 1992.

DAVID G. NIELSEN, Department of Entomology, with the title Professor Emeritus, effective March 1, 1992.

HARRY D. NIEMCZYK, Department of Entomology, with the title Professor Emeritus, effective March 1, 1992.

ROBERT J. OUELLETTE, Department of Chemistry, with the title Professor Emeritus, effective March 1, 1992.

K. NARAHARI RAO, Department of Physics, with the title Professor Emeritus, effective March 1, 1992.

THOMAS A. ROMANOWSKI, Department of Physics, with the title Professor Emeritus, effective March 1, 1992.

ROBERT M. PFISTER, Department of Microbiology, with the title Professor Emeritus, effective March 1, 1992.

PAUL G. SHEWMON, Department of Materials Science and Engineering, with the title Professor Emeritus, effective March 1, 1992.

ELTON M. SMITH, Department of Horticulture, with the title Professor Emeritus, effective March 1, 1992.
March 6, 1992 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Emeritus Titles (contd)

GORDON R. STAIRS, Department of Entomology, with the title Professor Emeritus, effective March 1, 1992.

THOMAS M. STEPHENS, Department of Educational Services and Research, with the title Professor Emeritus, effective March 1, 1992.

LOUIS SUCHESTON, Department of Mathematics, with the title Professor Emeritus, effective March 1, 1992.

HARRY K. TAYAMA, Department of Horticulture, with the title Professor Emeritus, effective March 1, 1992.

CHARLES A. TRIPLEHORN, Department of Entomology, with the title Professor Emeritus, effective March 1, 1992.

GREGORY L. TRZEBIATOWSKI, Department of Educational Policy and Leadership, with the title Professor Emeritus, effective February 1, 1992.

WILLIAM J. TYZNIK, Department of Animal Science, with the title Professor Emeritus, effective March 1, 1992.

JOHN F. UNDERWOOD, Cooperative Extension Service, with the title Professor Emeritus, effective March 1, 1992.

ROGER A. YEARY, Department of Veterinary Physiology and Pharmacology, with the title Professor Emeritus, effective May 1, 1992.

ROBERT S. YOUNG, Department of Family Medicine, with the title Professor Emeritus, effective March 1, 1992.

WILLIAM L. BAUERLE, Department of Horticulture, with the title Associate Professor Emeritus, effective March 1, 1992.

HANNAH H. BEISH, Cooperative Extension Service, with the title Associate Professor Emeritus, effective March 1, 1992.

CAROLYN N. BURNETT, School of Allied Medical Professions, with the title Associate Professor Emeritus, effective March 1, 1992.

DARYL R. CLARK, Cooperative Extension Service, with the title Associate Professor Emeritus, effective March 1, 1992.

ANNE R. COVENEY, Department of Family Resource Management, with the title Associate Professor Emeritus, effective March 1, 1992.

SHIRLEY F. HECK, Department of Educational Theory and Practice, with the title Associate Professor Emeritus, effective March 1, 1992.

H. JOAN LEHR, School of Music, with the title Associate Professor Emeritus, effective March 1, 1992.
PERSONNEL ACTIONS (contd)

Emeritus Titles (contd)

CLAYTON K. LOWE, Department of Photography and Cinema, with the title Associate Professor Emeritus, effective March 1, 1992.

Medical Staff Appointments (The Arthur G. James Cancer Hospital and Research Institute)

July 1, 1991 through June 30, 1993

FISHCER, RICHARD ALAN, M.D., Department of Surgery, Associate Attending Staff
TETIRICK, JACK E., M.D., Department of Surgery, Attending Staff

Medical Staff Appointments (The Ohio State University Hospitals)

AMATO, ANTHONY A., Limited Staff, Department of Neurology
AMRA, NASIR K., Attending Staff, Department of Pathology
ASHMAN, CAROL J., Limited Staff, Department of Radiology--Division of Diagnostic Radiology
BOUTROS, NASHAAT N., Attending Staff, Department of Psychiatry
COHEN, DANIEL M., Limited Staff, Department of Pediatrics
DEGROOT, CHRISTOPHER M., Attending Staff, Department of Psychiatry
FOX, CHARITY C., Attending Staff, Department of Internal Medicine--Division of Rheumatology/Immunology
FRENCH, GINA M., Limited Staff, Department of Pediatrics
HARRIS, BERNARD, Limited Staff, Department of Anesthesiology
HESTAND, NANCY L., Courtesy Staff, Department of Pediatrics
LEIPZIG, JAMES M., Attending Staff, Department of Surgery--Division of Orthopaedic Surgery
LOZANO, ROLANDO A., Attending Staff, Department of Pediatrics
MCGREGOR, JOHN M., Attending Staff, Department of Surgery--Division of Neurosurgery
MCGREGOR, MARY LOU, Courtesy Staff, Department of Ophthalmology
MILLER, KARL E., Attending Staff, Department of Family Medicine
ROSS, PATRICK, JR., Attending Staff, Department of Surgery--Division of Thoracic & Cardiovascular Surgery
SAMLOWSKI, RALPH C., Courtesy Staff, Department of Family Medicine
SHOOK, SCOTT L., Limited Staff, Department of Psychiatry
SMITH, JAMES H., Limited Staff, Department of Internal Medicine--Division of General Medicine
TORRES, CARLOS A., Limited Staff, Department of Emergency Medicine
TURMAN, MARTIN A., Attending Staff, Department of Pediatrics
VAN BUREN, RONALD C., Attending Staff, Department of Family Medicine
WODARCYK, KATHLEEN M., Courtesy Staff, Department of Pediatrics
ZYNEWICZ, KELLEY J., Courtesy Staff, Department of Internal Medicine--Division of Dermatology
CAVAZOS, FILIBERTO, Attending Staff, Department of Pathology
COLOMA, ARLENE J., Limited Staff, Department of Dentistry--Division of General Dentistry
DAVIS, JOHN B., Attending Staff, Department of Dentistry--Division of General Dentistry
FISCHER, RICHARD A., Attending Staff, Department of Surgery--Division of Orthopaedic Surgery
FISHBEIN, MARK H., Attending Staff, Department of Pediatrics
HICKEY, ROBERT W., Attending Staff, Department of Pediatrics
MAHER, EILEEN M., Courtesy Staff, Department of Pediatrics
SALAZAR, ANASTASIO, Limited Staff, Department of Surgery--Division of Transplantation
SCHUMANN, SCOTT D., Attending Staff, Department of Dentistry--Division of General Dentistry
March 6, 1992 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Medical Staff Appointments (The Ohio State University Hospitals) (contd)

SZAMES, STEVEN E., Courtesy Staff, Department of Internal Medicine--Division of Endocrinology and Metabolism
TUCKER, FREDERICK C., JR., Limited Staff, Department of Internal Medicine--Division of Hematology and Oncology
HULL, WALTER B., Attending Staff, Department of Obstetrics and Gynecology
MCCAMISH, MARK A., Attending Staff, Department of Internal Medicine--Division of Endocrinology and Metabolism
MORGAN, DONALD A., Attending Staff, Department of Dentistry--Division of General Dentistry

Medical Staff Reappointment (The Ohio State University Hospitals)

GOLDBERG, DONALD, Courtesy Staff, Department of Psychiatry--Division of General Psychiatry

Physician Extender Appointment (The Ohio State University Hospitals)

TAYLOR, DEBORAH A., Department of Psychiatry

Physician Extender Reappointment (The Ohio State University Hospitals)

ELLIOTT, MARK L., Department of Anesthesiology

Upon motion of Ms. Casto, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

Mr. Teaford:

I would like, at this time, to introduce Vice President Tom. We welcome you here and are delighted to have you as part of the family.

Ms. Tom:

Thank you, very much.

RESOLUTIONS IN MEMORIAM

Resolution No. 92-99

Synopsis: The Academic Affairs Committee recommended the approval of the following Resolutions in Memoriam.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.
RESOLUTIONS IN MEMORIAM (contd)

John F. Bridge

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on January 8, 1992, of John F. Bridge, Assistant Professor in the Department of Mechanical Engineering. John F. Bridge was born on December 27, 1933, in Sioux City, Iowa, and he received his Bachelor of Science degree in Mechanical Engineering from the Iowa State University in 1955. Dr. Bridge served in the United States Navy achieving the rank of Lieutenant Commander. He pursued the M.S. and the Ph.D. degrees in Mechanical Engineering from Ohio State, receiving his Ph.D. in 1963. Dr. Bridge was an active environmentalist and outdoorsman. For many years he participated in mountain climbing exhibitions and exploring of caves throughout the West and Midwest regions of the United States. He had special interest in the areas of fluid mechanics and applications to biomedical studies.

Dr. Bridge joined the Department of Mechanical Engineering in 1957, serving as an instructor and lecturer while he pursued his advanced studies. His genuine commitment and dedication to the Department and the University were particularly noteworthy. He was an inspiration to many students and served as an advisor to many specialized student interest groups within the department. For many years he was heavily involved in assisting Vietnam refugees who were relocated to Columbus, and became a mentor on pursuit of academic interests. These students valued him both as friend and advisor in their studies both in engineering and other academic areas of the University. Many of these students have gone on to earn either professional doctoral degrees or medical degrees, and attribute their success to Dr. Bridge's understanding, advice, and encouragement.

In addition to his teaching at The Ohio State University, Dr. Bridge was involved in research in the area of fluid mechanics and heat transfer. Working in collaboration with Professor Marco, he developed practical solutions and approaches to a variety of process heat transfer problems. For over 30 years, Professor Bridge provided dedicated teaching to the students in the College of Engineering.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Faye S. Smith

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on December 8, 1991, of Faye S. Smith, Assistant to the Secretary of the Board of Trustees Emeritus.

Faye S. Smith was born in Millersburg, Ohio, on December 19, 1916. She attended the College of Wooster and then The Ohio State University, receiving a Bachelor of Science in Education degree in 1939 and a Master of Arts degree in 1952.

Faye Smith dedicated her life to education both at the K-12 and collegiate levels. Upon completion of her undergraduate degree in business education, Ms. Smith taught in the public school systems throughout Ohio. In 1953, after obtaining her M.A. degree, Faye Smith left her teaching post at Gahanna-Lincoln High School in Gahanna to become an assistant professor at Otterbein College in Westerville, Ohio. Ms. Smith accepted a position with the office of the Board of Trustees at The Ohio State University in 1960.
RESOLUTIONS IN MEMORIAM (contd)

Faye S. Smith (contd)

During her years of service to the University, Faye Smith worked with three secretaries of the Board and her tenure spanned the terms of three Ohio State Presidents. As Assistant to the Secretary, she contributed significantly to the modernization of the liaison role between the University's Trustees and its senior administration which is central to the success of University governance. Her invaluable contributions were recognized upon her retirement from Ohio State in 1984, by the Board of Trustees who presented her with a special commendation and the title Assistant to the Secretary of the Board of Trustees Emeritus. The University also honored her outstanding service by presenting her with the Distinguished Service Award in 1987.

On behalf of the University community, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Upon motion of Ms. Casto, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

Mr. Teaford:

I think we can not go without saying that the Academic Affairs Committee is losing a great support in Vice President Hutchinson; and, "Mr. President", we are sorry to lose you.

--0--

FISCAL AFFAIRS COMMITTEE REPORT

Mr. Shumate:

The Fiscal Affairs Committee met this morning and in the Board agenda books there are several resolutions that we are recommending:

PLANNING AND REQUEST FOR CONSTRUCTION BIDS

Resolution No. 92-100

ASTRONOMICAL INSTRUMENTATION FACILITY

Synopsis: The Fiscal Affairs Committee recommended authorization to proceed with planning and to request construction bids for the Astronomical Instrumentation Facility.

WHEREAS in December 1989 the Board of Trustees authorized the employment of an architectural firm to design a new Astronomical Instrumentation Facility for the design and construction of state-of-the-art instruments for astronomical observation; and

WHEREAS the University desires to proceed with planning for this facility with the plan and exact site to be determined during the planning and design phase; and
March 6, 1992 meeting, Board of Trustees

PLANNING AND REQUEST FOR CONSTRUCTION BIDS (contd)

ASTRONOMICAL INSTRUMENTATION FACILITY (contd)

WHEREAS the preliminary estimate of the total project cost is $2,378,300.00, with the construction cost estimated at $1,620,900.00 and the total cost of the planning and design phase estimated at $268,000.00, with funding for the total project to be provided from University funds:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to proceed with planning for this project, using the architectural firm previously selected, with the fees for these services to be negotiated between the firm and the University.

BE IT FURTHER RESOLVED, That so long as the total estimated project cost does not exceed $2,378,300.00, the President and/or Acting Vice President for Business and Administration be authorized to request construction bids on this project in accordance with established University procedures, and if satisfactory bids are received, to award contracts with all actions to be reported to this Board at the appropriate time.

Upon motion of Mr. Shumate, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXV for background material, page 1055.)

REPORT OF AWARD OF CONTRACTS AND ESTABLISHMENT OF CONTINGENCY FUNDS

Resolution No. 92-101

BIOTECHNOLOGY SUPPORT FACILITY
BIOLOGICAL SCIENCES BUILDING REMODELING
DERBY HALL RENOVATION
LAZENBY HALL - THIRD FLOOR RENOVATION
MANSFIELD CAMPUS - HVAC AND ELECTRICAL REHABILITATION

Synopsis: Approval of the Report of Award of Contracts and the Establishment of Contingency Funds for the listed projects is recommended.

WHEREAS a resolution adopted by the Board of Trustees on December 1, 1989, authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established University procedures, and if satisfactory bids were received to award contracts for the Biotechnology Support Facility project; and

WHEREAS resolutions adopted by the Board of Trustees on June 2, 1989, July 6, 1990, September 7, 1990, and October 5, 1990, authorized the President and/or Vice President for Business and Administration to request construction bids in accordance with established University and State of Ohio procedures, and if satisfactory bids were received to recommend the award of contracts for the following projects: Biological Sciences Building Remodeling, Derby Hall Renovation, Lazenby Hall - Third Floor Renovation, and Mansfield Campus - HVAC and Electrical Rehabilitation:
March 6, 1992 meeting, Board of Trustees

REPORT OF AWARD OF CONTRACTS AND ESTABLISHMENT OF CONTINGENCY FUNDS (contd)

BIOTECHNOLOGY SUPPORT FACILITY
BIOLOGICAL SCIENCES BUILDING REMODELING
DERBY HALL RENOVATION
LAZENBY HALL - THIRD FLOOR RENOVATION
MANSFIELD CAMPUS - HVAC AND ELECTRICAL REHABILITATION (contd)

NOW THEREFORE

BE IT RESOLVED, That pursuant to the actions previously authorized by the Board, the Report of Award of Contracts and Establishment of Contingency funds for these projects is hereby approved.

Upon motion of Mr. Shumate, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXVI for background and map, page 1057.)

ACCEPTANCE OF A GIFT OF REAL PROPERTY

Resolution No. 92-102

1656-60 NEIL AVENUE
COLUMBUS, OHIO

Synopsis: The Fiscal Affairs Committee recommended the authorization to accept a gift of real property located at 1656-60 Neil Avenue.

WHEREAS the late Mabel E. White, of Columbus, Ohio, was the owner of approximately 0.12 acres of real property located at 1656-60 Neil Avenue in Columbus, and by her Last Will and Testament devised this property to The Ohio State University; and

WHEREAS Ms. White's Will provides that the property is to be used to establish and fund the David Stuart White Fellowship Fund to provide graduate fellowships in Veterinary Medicine; and

WHEREAS the appropriate University offices have determined that the acceptance of this devise of real property and the establishment of this named fund are in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the property at 1656-60 Neil Avenue in Columbus, Ohio, be accepted as a gift to The Ohio State University from the Estate of Mabel E. White and that the property be used to establish the David Stuart White Fellowship Fund to support graduate fellowships in Veterinary Medicine and that the President and/or Acting Vice President for Business and Administration be authorized to acquire title to this property in the name of the State of Ohio for the use of The Ohio State University.
March 6, 1992 meeting, Board of Trustees

ACCEPTANCE OF A GIFT OF REAL PROPERTY (contd)

1656-60 NEIL AVENUE
COLUMBUS, OHIO (contd)

Upon motion of Mr. Shumate, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXVII for background and map, page 1075.)

--0--

SALE OF REAL PROPERTY

Resolution No. 92-103

0.029 ACRE ON REED ROAD
COLUMBUS, OHIO

Synopsis: The Fiscal Affairs Committee recommended the approval of the sale of approximately 0.029 acre of land on Reed Road to the City of Columbus for road improvements.

WHEREAS the Board of Trustees owns a tract of land consisting of approximately 0.029 acre running along the east side of Reed Road south of the intersection with Bethel Road in the City of Columbus; and

WHEREAS the City of Columbus desires to purchase this tract for the purpose of making needed improvements to Reed and Bethel Roads as a part of the City's Bethel Road Improvements Project; and

WHEREAS an appraisal for the City and reviewed by the Ohio Department of Administrative Services valued this 0.029 acre tract at $8,000.00 and the City has offered to purchase the tract for that amount; and

WHEREAS the appropriate University offices have determined that this sale is in the best interest of the University:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized, in the name of the Board of Trustees of The Ohio State University, to sell all of the University's right, title, and interest in this property for no less than the appraised value, upon such terms and conditions as are deemed to be in the best interest of the University.

Upon motion of Mr. Shumate, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

(See Appendix LXVIII for background and map, page 1079.)

--0--
March 6, 1992 meeting, Board of Trustees

Judge Duncan:

    Mr. Chairman and members of the Committee, as you well know some dispute with the University of Arizona regarding the Columbus Project has been ongoing. There have been negotiations with the University of Arizona, and there appears to be a likelihood that a fair and reasonable settlement agreement can be reached with the other parties of the project. Accordingly, a proposed resolution will authorize the President and/or Vice President for Research to continue to negotiate and enter into an agreement in settlement of all outstanding issues, claims, and obligations with regard to the Columbus Project.

Mr. Shumate:

    The Board, I think, is very familiar with the background of this particular matter and this resolution that we would be approving is, as our General Counsel pointed out, to authorize the negotiations and the entering into an agreement. Are there any questions?

COLUMBUS PROJECT AGREEMENT
Resolution No. 92-104

Synopsis: Approval of settlement between The Ohio State University, The University of Arizona and the Osservatorio Astrofisico d'Arcetri with regard to the withdrawal of The Ohio State University from the Columbus Project is proposed.

WHEREAS The Ohio State University, the University of Arizona, and the Osservatorio Astrofisico d'Arcetri are considering an agreement that would resolve all issues and claims related to the Columbus Project among the three parties:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Vice President for Research be authorized to negotiate and enter into an agreement in settlement of all outstanding issues and obligations with regard to the Columbus Project as described above with The University of Arizona and the Osservatorio Astrofisico d'Arcetri.

Upon motion of Mr. Shumate, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

NOMINATING COMMITTEE

Mr. Teaford:

    I would like to announce the appointment of the Nominating Committee to select the next Chair and Vice Chair of the Board. The Committee is:

            Hamilton J. Teaford, Chairman
            John J. Barone
            Deborah E. Casto

--0--
March 6, 1992 meeting, Board of Trustees

Thereupon the Board adjourned to meet Friday, April 3, 1992, at The Ohio State University Mansfield Campus, Mansfield, Ohio.

Attest:

Madison H. Scott
Secretary

Hamilton J. Teaford
Chairman
THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND TWO HUNDRED AND EIGHTY-FIRST MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, April 3, 1992

The Board of Trustees met at its regular monthly meeting on Friday, April 3, 1992, at The Ohio State University Mansfield Campus, Mansfield, Ohio, pursuant to adjournment.

Minutes of the last meeting were approved.

1083
April 3, 1992 meeting, Board of Trustees

The Chairman, Mr. Teaford, called the meeting of the Board of Trustees to order on April 3, 1992, at 9:20 a.m. He requested the Secretary to call the roll. The meeting recessed into Executive Session for the purpose of considering legal issues and personnel-related matters.

Mr. Teaford reconvened the meeting on April 3, 1992, at 11:30 a.m.

---0---

PRESIDENT'S REPORT

President Gee:

It is a delight for us to be here today on this beautiful campus. I want to thank Dean John Riedl and his staff for hosting us on this occasion. It is always a pleasure for me to be here and it is a pleasure, John, I can assure you and the Citizens Committee and others, for the Trustees to come and be here with us.

In addition to serving as dean and director here, and associate professor of mathematics, Dr. Riedl is coordinating dean for our extended campuses. I am pleased to have this opportunity to publicly express my appreciation to you, John, and to tell you what an outstanding job you are doing to strengthen Ohio State's role in the many communities we serve.

Our extended campuses are the front doors to the university for thousands of people. The growth of the programs and enrollment on this campus since its inception in 1958 serves to demonstrate the important niche they fill in meeting the needs of Ohioans. Each time I visit these campuses, I am reminded of their particular importance to place-bound students, returning students, and those part or full-time employed. They serve as an entry point to the University for a number of students pursuing majors only available here or there. And for many, they provide the opportunity for personal enrichment, advancement, or career change.

As is evident today, these campuses have a very special relationship with the surrounding communities. Through educational and cultural programming, research, and advisory committees, the campuses are responsive to the needs of their host areas.

The past month has given me another exceptional opportunity to see first-hand the many ways that The Ohio State University reaches out to the people of the state. In a four-day state tour, I visited 12 western Ohio counties. Actually, in the more than 500 miles we put on the van, we drove through several more counties -- but my staff will not let me count those drive-through glimpses!
April 3, 1992 meeting, Board of Trustees

PRESIDENT’S REPORT (contd)

President Gee: (contd)

I visited three high schools and spoke to eight alumni gatherings, with a total attendance of nearly 1,000. To our lunch time meetings, we invited the area school superintendents, principals, and guidance counselors to join our alumni. In several spots, we were joined by Optimist and Lions Club members. In the evenings, we included newly admitted students of high ability and their parents. I came away from these meetings energized by the spirit and loyalty of our many friends that we have in this great state. They left, I hope, fired up to call their elected officials and actively support this university. I, of course, met with several of our friends from the General Assembly in their home districts, and with newspapers and broadcast media.

In order to see the work of Ohio State in the field (quite literally), we visited a swine farm, a recycling center, the Hobart Institute of Welding Technology, and the Dannon Yogurt plant. We saw bacon and ham on the hoof, and blueberry yogurt in vats.

Our extension faculty and faculty members on the campuses are working closely with these and other businesses and industries, contributing to their success. In our sessions with community leaders, it was clear they appreciate the resources of The Ohio State University.

From the town of St. Patrick in Shelby County -- on St. Patrick's Day -- to Ohio Northern University, we had a very busy and productive few days. I look forward to three more tours this spring and summer. I think that will make all 88 counties for me!

The importance of our outreach is brought into sharp focus as we face a serious budget crisis. The people of this state told me quite clearly that they value Ohio State and what it is doing for them, their children, and their communities. I have spent considerable time this past month making that point and de-bunking a number of myths as we attempt to set the record straight on the true worth of universities and, in particular, of Ohio State.

During a television interview in Cleveland Wednesday, I told the listeners that the future of this state is in peril if we allow political short-sightedness to put the brakes on progress. I appreciate the support I have received from faculty, students, staff members, from people in this room, and others who have crowded out on that limb with me!

We heard today from Jim Mager, Bob Arkin, and David Hothersall about the success of our student recruitment program. Let me assure them and you that we will work tirelessly to ensure that the students they have brought to our university have the high quality experience they expect and deserve. Student recruitment is but one of our success stories. There are a number of good things happening around our campuses.

The synchronized swimming team again won a national championship and we had a national championship wrestler. Mark Harper, a doctoral student in materials science and engineering won a BF Goodrich Inventors Award one of three in the nation. He also has recently been named a Fulbright Scholar.
PRESIDENT'S REPORT (contd)

President Gee: (contd)

Dr. Lynne Cheney, the chair of the National Endowment for the Humanities, delivered a lecture in Columbus last evening as part of the Leaders for the 21st Century Speaker Series -- a program developed for and by students. Hispanic Awareness Week opens tomorrow, and the Surgeon General of the United State, Dr. Antonia Novello, will be the speaker.

And so, the recent weather notwithstanding, spring has arrived at The Ohio State University. A glance at our newspaper, the Lantern, during the first week of spring reveals these things that a student can do:

- Go to a student government candidate debate
- Volunteer to be a Wexner Center usher
- Join the two-time defending Big Ten Champion Rugby Team
- Buy a computer that, the ad claims, will do everything but the laundry and find you a date!
- Join a rally for state support of education
- Apply for a summer undergraduate research position in the College of Pharmacy or, I suppose, any one of the hundreds of other things that spring brings out in our energetic and talented students!

In closing, I do not want the occasion to pass without noting our pride in the Big Ten Champion men's basketball team. Many have comments about the extraordinary way the campuses and community have embraced this group of students and their coaches.

I was not able to attend the games in Lexington -- and I left it to Chairman Teaford to get the job done. But, much greater than our disappointment is our pride in the way they represented this university. They lifted our spirits and gave us great joy. And they certainly represent the word "student" in student athlete, as well as any group of young men I have seen.

Thank you, Mr. Chairman. Again, John, thanks to you and all of our friends from Mansfield for allowing us to be at this beautiful campus on this great occasion.

--0--

RESEARCH FOUNDATION REPORT

Ms. Casto:

I am pleased to report that the increase in research funding received by The Ohio State University Research Foundation continues to show real growth. At tab 1 we see that the award level for the period, July through February, is 24.79 percent above the same period last year. The industrial awards category has increased by over 46
Ms. Casto: (contd)

percent. However, funding from the State of Ohio is down by about 35 percent. The number of awards received during this period has increased from 919 to 984.

At tab 2 you will find expenditure summaries. It is noteworthy that the expenditures for permanent equipment are running more than 27 percent ahead of the same period last year. Research indirect costs have increased from $17.0 million to $18.7 million.

Some projects of special interest which were funded in the month of February are listed at tab 3. I thought you might be interested that the College of Medicine is continuing a comprehensive program to increase the number of physicians trained from a disadvantaged background. The NSF funding for a summer workshop on data analysis for undergraduate faculty is a good example of how federal funding can contribute significantly to undergraduate education. At tab 4 is the list of all projects funded in February. In addition to the awards listed, I am pleased to inform you that we will soon be receiving three highly prestigious Alfred P. Sloan Fellowships.

Tab 5 includes two press releases issued by University Communications highlighting recent research activity. Research features recently completed research in medicine and the hard sciences, and Newsfeatures spotlights summaries of research in business and the social sciences.

This is an excellent report. Those kinds of increases are just truly wonderful. I would like to ask Dr. Hayes to also speak to another article that was in the newspaper this week, that I thought was outstanding.

Dr. Hayes:

You may have seen the article in the Dispatch today, on the Ohio Nuclear Waste Education Program that was just funded. This educational program is bringing together our nuclear engineering faculty, Cooperative Extension and education people on the campus. It will allow the University to bring together the talent that we have and bring the facts of the matter, so that we can play the honest broker role, in making sure that the community has the information they need to discuss this very important public policy issue.

Ms. Casto:

That is great. Does anyone have any questions on the report?

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS
Resolution No. 92-105

Synopsis: Approval of the following reports on contracts, grants, and gifts and the summary for February 1992 is proposed.

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and
April 3, 1992 meeting, Board of Trustees

**REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)**

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, and The Ohio State University Development Fund:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station, and The Ohio State University Development Fund during the month of February 1992 be approved.

Upon motion of Ms. Casto, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Description of Named Funds

The Fred D. Pfening, Jr. Library Enrichment Fund

The Fred D. Pfening, Jr. Library Enrichment Fund was established April 3, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Fred D. Pfening, Jr. of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for purposes such as the purchase of books, journals, and other library materials; for needed supplies and equipment; for personnel resources; for resources, activities, and fees related to preservation of library materials; or for other purposes deemed beneficial by the director of University Libraries. Unused income shall annually revert to the principal balance of the fund.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Lena Bailey Dean's Fund

The Lena Bailey Dean's Fund was established April 3, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio University Development Fund from friends and colleagues of Dr. Lena Bailey (Ph.D., Education, 1969).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for priorities in the College of Human Ecology under the direction of the Dean of the College of Human Ecology, with annual review by the department chairpersons.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

1090
April 3, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)
THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Edith and Abraham Mendel
Yiddish Library Endowment Fund

The Edith and Abraham Mendel Yiddish Library Endowment Fund was established April 3, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Dr. Isadore Mendel (B.A., Biological Sciences, 1953; M.D., 1957) of Youngstown, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for purchasing and processing library materials related to Yiddish literature to be chosen at the discretion of the director of University Libraries. Unused income shall annually revert to the principal balance of the fund.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Classics Fund

The Classics Fund was established April 3, 1992, by the Board of Trustees of The Ohio State University, with a transfer of funds from the Classics Support Fund.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used by the chairperson of the Department of Classics to fund the annual A. G. Woodhead prize, the John Vaughn Memorial Award(s) and other departmental prizes and awards. Additional income over and above that required to fulfill the purposes stated above may be used by the department chairperson at his or her discretion in furthering the Department of Classics' goals and mission.

It is the desire of the department chairperson that this fund should benefit the University in perpetuity. If the need for this fund shall cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out this desire.
April 3, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Robert A. and Dorothy M. Hodson Family 4-H Endowment Fund

The Robert A. and Dorothy M. Hodson Family 4-H Endowment Fund was established April 3, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Robert A. Hodson (B.S.Agr. '51) and Dorothy M. Hodson of Hillsboro, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more college scholarships for 4-H members, either current or alumni, of Highland County, Ohio. The beneficiaries and the number of scholarships are to be determined by a committee of, or approved by, The Highland County 4-H Advisory Committee in cooperation with the University Committee on Student Financial Aid. The scholarships may be awarded to undergraduate or graduate students of any college or university, with preference to those in the College of Agriculture at The Ohio State University.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Talvi Endowment Fund

The Talvi Endowment Fund was established April 3, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Professor David Robinson of the Department of Slavic and East European Languages and Literatures.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide financial assistance to undergraduate and graduate students in the Department of Slavic and East European Languages and Literatures in the form of annual awards for research, service and teaching activities. The selection process shall be determined by the chairperson of the Department of Slavic and East European Languages and Literatures. If there is an excess of annual income beyond that used for the purpose stated above, such funds may be retained for use in following years or may be used to benefit the Department of Slavic and East European Languages and Literatures at the discretion of the department chairperson.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund shall cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.
The Women's Pharmacy Club Scholarship Fund was established April 3, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the Women's Pharmacy Club of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more scholarships to women pharmacy students who are citizens of the United States and who have no less than a 2.3 cumulative grade point average. The selection of the award recipient(s) shall be made by the appropriate College of Pharmacy faculty committee in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the dean of the College of Pharmacy in order to carry out the desire of the donor.

The Dana J. Demorest Scholarship Fund was established May 17, 1954, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from "Metalumni" in honor of Professor Dana J. Demorest. The description was revised April 3, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for scholarships and awarded to students in metallurgical engineering and materials science and engineering. Award recipients shall be selected by the University Committee on Student Financial Aid upon the recommendation of the chairperson of the Department of Materials Science and Engineering.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.
The H. V. Glunz Scholarship Fund

The H. V. Glunz Scholarship Fund was established February 1, 1974, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from the late Herman Van Moss Glunz, with the Class of 1912, formerly of Norristown, Pennsylvania. The description was revised April 3, 1992.

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more scholarships for undergraduate and/or fellowships for graduate students who have demonstrated academic ability and need for financial assistance. The selection of the recipient is to be made upon the recommendation of the College of Engineering Scholarship Committee in consultation with the University Committee on Student Financial Aid. Preference shall be given to students in the College of Engineering studying materials science and engineering with special emphasis on the mineral industries.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Nathaniel W. Lord Memorial Library Fund

The Nathaniel W. Lord Memorial Library Fund was established March 6, 1939, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund from various individuals. The description was revised April 3, 1992.

All gifts are to be invested in the University’s Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for the purchase of books for the Department of Materials Science and Engineering.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.
The Rudolph Speiser Fund in Metallurgical Engineering

The Rudolph Speiser Fund in Metallurgical Engineering was established May 4, 1984, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from alumni, friends, and colleagues of Rudolph Speiser (B.A., Arts and Sciences, 1938; M.A., Chemistry, 1940) of Estes Park, Colorado. The description was revised April 3, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used in support of the academic and research programs of metallurgical engineering and materials science and engineering. The chairperson of the Department of Materials Science and Engineering shall have authority to authorize expenditures from the fund as approved by the dean of the College of Engineering.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Joseph W. Spretnak Memorial Scholarship Fund

The Joseph W. Spretnak Memorial Scholarship Fund was established September 8, 1978, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from family, friends and colleagues of Joseph W. Spretnak (B.S.Met.E. ’38), Professor of Metallurgical Engineering, late of Columbus, Ohio. The description was revised April 3, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide scholarship assistance to undergraduate students enrolled in metallurgical engineering and materials science and engineering. The award recipients shall be selected by the University Committee on Student Financial Aid upon the recommendation of the Scholarship Committee of the Department of Materials Science and Engineering.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.
REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)
THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Change in Description of Named Funds (contd)

The Howard Patterson Zeller Scholarship Fund

The Howard Patterson Zeller Scholarship Fund was established December 31, 1948, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from Hazel Zeller Nesbitt, Hugh E. Nesbitt, Helen Zeller Gardiner, Harold M. Gardiner, Max J. Zeller, Mary Alice Davis Zeller, Shirley Nesbitt Westwater and William K. Westwater in memory of Howard Patterson Zeller (Mining Engineering, 1906). The description was revised April 3, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for scholarships and awarded to students majoring in mining, metallurgical and materials engineering. Award recipients shall be selected by the University Committee on Student Financial Aid upon the recommendation of the chairperson of the Department of Materials Science and Engineering.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

HOSPITALS BOARD REPORT

Mr. Barone:

The Hospitals Board's Strategic Planning Committee met on Thursday, March 19, for a planning process update.

The Committee reviewed suggested strategic long-range planning and intermediate goals for Financial and Centers of Emphasis strategies. Special attention focused on the Neuroscience strategic planning process. Mr. Fraley presented a status report on the first six months of the Hospitals' operating plan for this fiscal year.

Dr. Kathryn Clausen reported on the activities of the College of Medicine's Strategic Planning Committee.

Lastly, the Committee viewed examples of a signage program proposed to identify the location of University Hospitals to travelers on Route 315. Other parts of the program would direct visitors to parking spaces and specific healthcare services, help pedestrians locate specific medical center buildings, and provide internal directional signage within the buildings.
HOSPITALS BOARD REPORT (contd)

Mr. Barone: (contd)

This completes my report, Mr. Chairman. I think everyone knows that Route 315 will be coming right into the Hospitals area and will be a tremendous help to the Cancer Hospital, University Hospitals, and Psychiatric Hospital, which will be breaking ground sometime this month.

--0--

AGRICULTURAL AFFAIRS COMMITTEE REPORT

Mr. Celeste:

The Agricultural Affairs Committee of The Ohio State University Board of Trustees met at Wooster, Ohio, on March 18, 1992. They met informally with members of the Wooster Area Chamber of Commerce and the discussion included current status of budget cuts, projected budget cuts, and their impact on agriculture in Ohio and, particularly, on the College of Agriculture. Capital Improvement projects were also discussed at some length.

After an informal lunch, the Committee toured the Agricultural Technical Institute and we also toured various areas of the OARDC campus, including composting/biomass research, poultry genetics, greenhouse production and control. A visit was also made to the Northeast District Office of the Ohio Cooperative Extension Service, which is located at OARDC. We are planning a similar visit this month to Piketon.

That concludes my report.

Mr. Teaford:

Thank you, Mr. Celeste. I would just like to point out to everybody that the composting experiment and research that we saw has already had a direct impact, I believe, in the Akron area. All of that research is done in a milk shed at the back of a farm, in a space not much larger than this table. And it is some of the leading research in the United States in composting. So, less anyone think that our researchers have laps that are covered with silk, I would only urge you to go see that milk shed.

--0--

ACADEMIC AFFAIRS COMMITTEE REPORT

Ms. Casto:

Today we heard a report on Merit Scholar Recruitment. Considerable efforts continue to be exerted in recruiting high-ability students to attend The Ohio State University. Such efforts, involving close cooperation between a number of university offices, have been coordinated and directed by the Undergraduate Recruitment Implementation Steering Committee (URISC) chaired by Dr. Robert Arkin.
Ms. Casto: (contd)

Merit based scholarships and outstanding academic programs are the two most critical factors in attracting high ability students. For the incoming class of 1992, such scholarships will include Distinguished and Discovery Scholarships for National Merit and National Achievement Finalists, Ten Presidential Scholarships, Forty Medalist Scholarships, and University Scholarships awarded to students in the top 3 percent of their high school class who are honors eligible.

In 1991, 109 National Merit/National Achievement Finalists enrolled at Ohio State. We project that approximately the same number of National Merit/National Achievement Finalists will enroll as freshmen in 1992.

This year 682 students were awarded University Scholarships and invited to the on campus Presidential/Medalist Scholarship Competition held in March. Four hundred and ninety-seven students competed, which is an increase of 65 from the number last year. We project that 380 University Scholars will enroll in this year's entering class. These numbers include the Presidential and Medalist Scholars.

These high-ability students have a significant impact on the profile of the undergraduate class. It is expected that they will also serve to attract additional excellent students to the university. The expected academic success of such students will be reflected in improved retention and graduation rates. It is a success story that should be told over and over.

Mr. Teaford:

It is, I might add, to put that number of 109 merit scholars in perspective, Ohio State ranks ninth in the nation in the number of National Merit Scholars in its freshman class. And that is a direct result of this Presidential Scholars Program that Ms. Casto has talked about.

Ms. Casto:

We are also recommending the following resolutions:

REVOCATION OF DEGREE

Resolution No. 92-106

Synopsis: The Academic Affairs Committee recommended the revocation of a Master of Science degree.

WHEREAS a Committee of Investigation appointed by the Dean of the Graduate School to review charges of scholarly misconduct recommended the revocation of the Master of Science Degree of Vinod Kumar; and

WHEREAS the Committee of Investigation further recommended that Vinod Kumar be separated from The Ohio State University for a minimum period of one quarter, effective with the Spring Quarter of 1992; and
April 3, 1992 meeting, Board of Trustees

REVOCATION OF DEGREE (contd)

WHEREAS the Committee of Investigation further recommended that Vinod Kumar not be allowed to hold employment in a research or technical capacity at The Ohio State University during the period of such suspension; and

WHEREAS these recommendations were concurred with by the Dean of the Graduate School; and

WHEREAS the appropriate bodies and administrative officers of the University have fully complied with the "Guidelines for Review of Allegations of Scholarly Misconduct by Graduate Students" and in accordance with those procedures, have recommended that the Master of Science degree of Vinod Kumar be revoked:

NOW THEREFORE

BE IT RESOLVED, That the Master of Science degree of Vinod Kumar, granted December 7, 1990, pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, is hereby revoked effective this third day of April, 1992, and shall no longer be of force and effect; and further that the proposed sanctions of the Committee of Investigation relating to separation from The Ohio State University and employment at the University be fully implemented.

Upon motion of Ms. Casto, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

DISTINGUISHED SERVICE AWARDS

Resolution No. 92-107

Synopsis: The Academic Affairs recommended the awarding of Distinguished Service Awards to four individuals.

WHEREAS the President's Executive Committee, serving as a Committee on Distinguished Service Awards, has nominated and recommended four individuals for approval by the Board of Trustees to receive the Distinguished Service Award at a time convenient to the University and the recipients:

Lena Bailey
Thomas E. Cavendish
Leonard J. Immke, Jr.
Shirley Brooks Jones

and

WHEREAS these awards are given in recognition of distinguished service to The Ohio State University and the awards are in accordance with action taken by the Board of Trustees in 1952:

NOW THEREFORE
April 3, 1992 meeting, Board of Trustees

Distinguished Service Awards (contd)

BE IT RESOLVED, That the Distinguished Service Awards be approved for awarding as designated above.

Upon motion of Ms. Casto, seconded by Mr. Colley, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

PERSONNEL ACTIONS

RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the March 7, 1992 meeting of the Board, including the following Concurrent Appointment, Appointment of Chairperson and Directors, Reappointment of Director, Leaves of Absence Without Salary, Professional Improvement Leave, Professional Improvement Leave--Cancellation, Medical Staff Appointment (The Arthur G. James Cancer Hospital and Research Institute), and Emeritus Titles, as detailed in the University Budget be approved.

Concurrent Appointment

Name: GARY L. FLOYD
Title: Coordinating Dean for Arts and Sciences
Office: Academic Affairs
Effective Period: $108,688.00
Present Assignment: Dean, College of Biological Sciences (No Change)

Appointment of Chairperson and Directors

March 1, 1992 through June 30, 1992

Agricultural Technical Institute

Lawrence H. Newcomb*

July 1, 1992 through June 30, 1996

School of Music

Donald Gibson
Theatre

Kathleen F. Conlin

Reappointment of Director

January 1, 1992 through June 30, 1996

School of Public Policy and Management

Astrid E. Merget

*Acting

Leaves of Absence Without Salary

MARY JO BOLE, Assistant Professor, Department of Art, effective Spring Quarter 1992, to do a residency at the Waikato Polytech in Hamilton, New Zealand.
Leaves of Absence Without Salary (contd)

CRAIGE ROBERTS, Assistant Professor, Department of Linguistics, effective Spring Quarter 1992, to work on a research project at the University of Amsterdam, Department of Philosophy.

JOY A. SCIME, Instructor, Department of History, effective February 17, 1992, through March 29, 1992, for personal reasons.

Professional Improvement Leave

Professional Improvement Leave--Cancellation

KENT S. KNAEBEL, Associate Professor, Department of Chemical Engineering, effective Autumn Quarter 1991 and Winter Quarter 1992.

Medical Staff Appointment (The Arthur G. James Cancer Hospital and Research Institute)

July 1, 1991 through June 30, 1993

WALTER B. HULL, Clinical Attending Staff, Obstetrics and Gynecology

Emeritus Titles

FREDERICK E. HUTCHINSON, Office of Academic Affairs -- Administration and Department of Agronomy, with the title Senior Vice President and Provost, and Professor Emeritus, effective April 1, 1992.

DONALD P. ANDERSON, College of Education -- Administration, with the title Dean and Professor Emeritus, effective March 1, 1992.

IVAN I. MUELLER, Department of Geodetic Science and Surveying, with the title Chairperson and Professor Emeritus, effective March 1, 1992.

DAVID H. BOYNE, Office of Academic Affairs -- Administration and Department of Agricultural Economics and Rural Sociology, with the title Professor and Associate Provost Emeritus, effective March 1, 1992.

CHARLES E. CORBATO, Office of Academic Affairs -- Administration and Department of Geological Sciences, with the title Professor and Associate Provost Emeritus, effective March 1, 1992.

HOWARD L. GAUTHIER, Office of Academic Affairs -- Administration and Department of Geography, with the title Professor and Associate Provost Emeritus, effective March 1, 1992.

TREVOR G. ARSCOTT, Department of Agronomy, with the title Professor Emeritus, effective March 1, 1992.
April 3, 1992 meeting, Board of Trustees

PERSONNEL ACTIONS (contd)

Emeritus Titles (contd)

BERNARD U. BOWMAN, Department of Medical Microbiology and Immunology, with the title of Professor Emeritus, effective January 1, 1992.

EUGENE R. CAPRIOTTI, Department of Astronomy, with the title Professor Emeritus, effective March 1, 1992.

STUART A. COLLINS, JR., Department of Electrical Engineering, with the title Professor Emeritus, effective March 1, 1992.

DONALD R. CRUICKSHANK, Department of Educational Theory and Practice, with the title Professor Emeritus, effective March 1, 1992.

DEREK HORTON, Department of Chemistry, with the title Professor Emeritus, effective March 1, 1992.

AARON J. MILLER, Department of Educational Studies: Humanities, Science, Technological, and Vocational, with the title Professor Emeritus, effective January 1, 1992.

RICHARD H. RAPP, Department of Geodetic Science and Surveying, with the title Professor Emeritus, effective March 1, 1992.

GISELA M. VITT, Department of German, with the title Professor Emeritus, effective March 1, 1992.

WILLIAM W. WAYSON, Department of Educational Policy and Leadership, with the title Professor Emeritus, effective March 1, 1992.

JAMES R. C. LEITZEL, Department of Mathematics, with the title Associate Professor Emeritus, effective March 1, 1992.

ANTHONY E. PETRARCA, Department of Computer and Information Science, with the title Associate Professor Emeritus, effective March 1, 1992.

RUSSELL O. UTGARD, Department of Geological Sciences, with the title Associate Professor Emeritus, effective March 1, 1992.

CAROL A. WINCHELL, University Libraries, with the title Associate Professor Emeritus, effective March 1, 1992.

JEROME G. DARE, Department of Radiology, with the title Assistant Professor Emeritus, effective March 1, 1992.

MERLIN A. WENTWORTH, Cooperative Extension Service, with the title Assistant Professor Emeritus, effective March 1, 1992.

JOHN C. CLEAVER, Department of Animal Science, with the title Instructor Emeritus, effective March 1, 1992.
PERSONNEL ACTIONS (contd)

Emeritus Titles (contd)

A. EARL MCGAHA, Department of Agronomy, with the title Instructor Emeritus, effective March 1, 1992.

Upon motion of Ms. Casto, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

RESOLUTIONS IN MEMORIAM

Resolution No. 92-109

Synopsis: The Academic Affairs Committee recommended the approval of the following Resolutions in Memoriam.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Henry E. Wilson

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 21, 1992, of Henry E. Wilson, M.D., Professor Emeritus in the Department of Internal Medicine.

Henry E. Wilson was born on August 24, 1910, in Marshalltown, Iowa. He attended the University of Illinois and graduated in 1932 with the A.B. degree. He attended McGill University and received his M.D. degree in 1937. Following medical school, Dr. Wilson completed a one-year internship in 1939 at the Presbyterian Hospital in Chicago. He attended a number of prestigious institutions to complete his specialty residency training. Among these were a one-year program at the Mallory Institute of Pathology at Boston City Hospital, followed by a year of residency training at the New Haven Hospital and another year as a resident in medicine at the University Hospitals in Columbus, Ohio. During the 1942-43 academic year, Dr. Wilson was honored by his colleagues and faculty in the Department by being named Chief Medical Resident for that year. Serving in this capacity is considered the highest honor for a resident in medicine. Dr. Wilson attended courses through the Army Medical School and the Oak Ridge Institute of Nuclear Studies to refine his scientific skills further after residency training.

In 1941 Dr. Wilson was appointed to the faculty in the Department of Medicine with the rank of Assistant Professor. He was later promoted to Associate Professor and in 1946 accepted a position as Associate Professor of Medicine at Northwestern University Medical School. He remained at that institution until 1954, when he returned to Ohio State.

In his capacity as a faculty member in the Department of Medicine at Ohio State, Dr. Wilson also served as Vice Chairman of the Department from 1954 until 1960, and as Acting Chairman of the Department from 1960 until 1961. He was promoted to Professor of Medicine in July 1955 and retired from the faculty with the rank of Professor Emeritus in 1981.
RESOLUTIONS IN MEMORIAM (contd)

Henry E. Wilson (contd)

Dr. Wilson held memberships in a number of national medical societies, including the medical honorary society AOA, the American College of Physicians, American Association for Cancer Research, American Society of Clinical Oncology, American Federation for Clinical Research, the American Medical Association, and many others. He was an active and respected member of these organizations, to which he devoted years of loyal service and effort. Further, he was active in the community, serving on the Board of Directors, Executive Committee and Blood Services Committee of the American Red Cross. He also served on the Board of Trustees of the First Congregational Church in Columbus, Ohio.

Throughout his career, Dr. Wilson was known as a compassionate physician and an outstanding teacher. He remained very active on the faculty of the Department of Internal Medicine following his retirement in 1981, continuing to see cancer patients in the University Hospitals as well as developing a practice at the local VA Outpatient Facility. Dr. Wilson was a tireless and devoted physician whose many contributions to The Ohio State University Medical Center will be missed by all those who knew him.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Wilbur B. Wood

The Board of Trustees of the Ohio State University expresses its sorrow upon the death on March 4, 1992 of Wilbur B. Wood, Professor Emeritus in the Cooperative Extension Service.

Mr. Wood was born November 19, 1905, in Miami County, Ohio. He completed his B.S. in Agriculture in 1927, and the M.S. in agriculture in 1936 at The Ohio State University.

Mr. Wood began his Extension career in Ohio when he joined the faculty of The Ohio State University in 1944 as a County Agricultural Agent in Madison County. He left this position in September of 1947 to accept the position of Junior Dean in the College of Agriculture. He held this position until February 1953 when he was named Acting Director of the Ohio Cooperative Extension Service. He became Director in 1954 and continued in that position until 1963. He then served at the Punjab Agricultural University, Ludhiana, India, until 1968. He retired from the Ohio Cooperative Extension Service in 1968.

In 1970, Mr. Wood was presented the "Centennial Award" from the College of Agriculture and Home Economics on The Ohio State University's 100th Anniversary.

Mr. Wood's contributions in providing excellent Extension educational programs during his career earned him the respect and admiration of his co-workers.
RESOLUTIONS IN MEMORIAM (contd)

Wilbur B. Wood (contd)

On behalf of the University community, the Board of Trustees expresses to the family its deep sympathy and understanding in this loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Upon motion of Ms. Casto, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

STUDENT AFFAIRS COMMITTEE REPORT

Mr. Tonnies:

This morning we heard a report from Dr. Mary Daniels and Mr. Larry Lewellen regarding the Student Health Insurance Plan for 1992-93. The Student Affairs Committee unanimously recommended the approval of the renewal of the Student Health Insurance Program with Central Benefits Mutual Insurance Company.

The proposed quarterly rates for a student is $139.00 and that is up from $116.00; student and spouse is $340.00, up from $285.00; student and children is $430.00, up from $366.00; and student, spouse and children is $625.00, up from $537.00. This is only a small increase when compared to the increased benefits, which this new package has. The Committee's objectives and goals are included in their Executive Summary which all of the Trustees have previously received.

STUDENT HEALTH INSURANCE

Resolution No. 92-110

Synopsis: The Student Affairs Committee recommended the approval of the renewal of the Student Health Insurance Program with Central Benefits Mutual Insurance Company.

WHEREAS on May 4, 1989, this Board awarded the insurance contract to Central Benefits Mutual Insurance Company following a competitive bid process, effective Autumn Quarter 1989 for an initial two (2) year term, subject to renewal thereafter; and

WHEREAS the University now has the opportunity to competitively bid the program or to seek renewal of the program with the current carrier; and

WHEREAS the current carrier, Central Benefits Mutual Insurance Company, has offered renewal rates that are very competitive in the insurance market and appropriate to our history of claims experience; and

WHEREAS the Student Health Insurance Committee obtained the assistance and expertise of Stephen L. Beckley & Associates, a nationally recognized student insurance consulting firm, and also obtained selected actuarial review/consulting services from William M. Mercer, Inc., an international benefits and actuarial consulting firm; and
STUDENT HEALTH INSURANCE (contd)

WHEREAS after consideration of the desires and concerns of the students who purchase the insurance, the Student Health Insurance Committee of the Council on Student Affairs has recommended -- and the full Council has ratified that recommendation -- that the current contract be renewed at the specific rates to provide the existing benefits plus numerous benefit improvements and cost containment measures as illustrated by the following examples:

(a) Revising/expanding the Capitation coverage (self-funded services of the Student Health Service) from $150 per illness to $1000 blanket per year, with a reduction in coverage exclusions and time limits, and an increase in funded services;

(b) Changing the inpatient surgical and hospital facility coverages from insufficient scheduled benefits to a comprehensive major medical coverage (see (c) below) and implementing pre-certification review of inpatient admissions;

(c) Improving the major medical coverage from a per-sickness coverage with a 48 month time limit and a $100,000 maximum, to an annual deductible with no time limits and a $200,000 maximum;

(d) Adding MedOhio, the urgent care facilities of the University Hospitals, as a network preferred provider for evening and weekend urgent care.

(e) Placing limits on services such as outpatient mental health treatment and outpatient physical therapy, that are appropriate in the insurance industry;

(f) Adding selected benefits such as repatriation and preventive medical services to all insured students; and improving other selected benefits such as emergency medical transportation (from $25 per occurrence to $1000 per year);

(g) Removing selected coverage exclusion including suicide, acts of war while traveling abroad, and flying in non-commercial aircraft; and

WHEREAS this program will be available on an optional basis to all registered students for the following proposed Quarterly Premium Rates:

<table>
<thead>
<tr>
<th>Classification</th>
<th>Expiring Quarterly Rates</th>
<th>Proposed Quarterly Rates</th>
</tr>
</thead>
<tbody>
<tr>
<td>Student</td>
<td>$116</td>
<td>$139</td>
</tr>
<tr>
<td>Student &amp; Spouse</td>
<td>$285</td>
<td>$340</td>
</tr>
<tr>
<td>Student &amp; Children</td>
<td>$366</td>
<td>$430</td>
</tr>
<tr>
<td>Student, Spouse &amp; Children</td>
<td>$537</td>
<td>$625</td>
</tr>
</tbody>
</table>

Appropriate rates have also been derived for students on a semester system, and for periods of continuing coverage while not registered as a student.

NOW THEREFORE
STUDENT HEALTH INSURANCE (contd)

BE IT RESOLVED, That Central Benefits Mutual Insurance Company be approved for renewal of the Student Health Insurance Contract effective the first day of classes, Autumn Quarter 1992, for a period of one (1) academic year. The contract will provide the benefits now available under the terms of the current contract as well as the benefit changes contained in the report of the Student Health Insurance Committee.

Upon motion of Mr. Celeste, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

Mr. Tonnies:

We also had a presentation this morning from some of the Mansfield student leaders, along with Mr. Hank Thomas, who is coordinator of admissions at Mansfield. The students alluded to the positive and negatives at being at a "branch campus." For the most part, these students enjoy the educational opportunities offered at Mansfield and hope that they are increased in the future. They called for better communications with the main campus and for continued financial support.

I would like to remind the Trustees that approximately one-third of all of Ohio State's freshmen are at regional campuses, highlighting the important role regional campuses play as part of The Ohio State University. And I would like to thank those students that were here this morning for their time. If there are no questions, this completes my report.

Mr. Teaford:

I just wanted to add my appreciation for having a chance to speak with those students this morning. I can't tell you how important it is for the Trustees to be able to do that. I might add that at the conclusion of that meeting, I received a petition from three women who are so called "non-traditional students." They urge us to attempt to have more higher level and degree programs here at Mansfield, because of the problems that non-traditional students have. I will point out to you that this Board, probably as much as any, has great empathy with non-traditional students as three of us are married to non-traditional students, all of whom have small children at home. So, we do understand that need. As I said to the women, "the budget is the problem right now." But I think that is an important concern that they raised.

--0--

FISCAL AFFAIRS COMMITTEE REPORT

Mr. Teaford:

I will now call on Mr. Nichols to present the Internal Audit Report.

Mr. Nichols:

For many years starting approximately ten years ago, the Board of Trustees has had an annual presentation from external auditing firms with regards to external audits of the University. For a number of years beyond that ten year period of time, there has been an internal auditing department that had a relatively narrow focus over time.
April 3, 1992 meeting, Board of Trustees

**FISCAL AFFAIRS COMMITTEE REPORT (contd)**

Mr. Nichols: (contd)

Based on discussions that occurred with the then Chairman of the Fiscal Affairs Committee, Mr. Kessler, we had some long discussions -- the use of internal audit to improve internal controls and to enhance and compliment the external audit function. That has occurred over the last two years in an involvement of changed procedures and changed direction. It has involved changing the organizational structure of internal auditing, as well as looking at it from a comprehensive point of view with regards, for example, to increased computerization on the campus and the need to look at that type of audit.

I also would point out that we have developed an excellent group of professionals and internal auditors. Many of them have come from external audit firms, are CPA's, and do have, as an internal audit group, varied responsibilities. Mr. Mark Hilligoss, who is the Director of Internal Auditing, reports to Business Administration, and will be giving you a short slide presentation on the internal audit function. I think you'll be impressed with the comprehensive nature of the changes that have occurred recently.

**INTERNAL AUDIT REPORT**

Mr. Mark Hilligoss:

Good morning. Mr. Chairman, members of the Committee, thank you for the opportunity this morning to meet with you to discuss the functions of the Department of Internal Audit. My presentation this morning will essentially parallel the green books you have in front of you. The green books do have quite a bit more detail, so I plan on going through the slides rather quickly.

Our objective is to provide an independent appraisal function and a service to management by furnishing them with analysis, recommendations, counsel, and information concerning the activities we review. We perform the following primary functions: we examine financial transactions for accuracy and integrity; we evaluate financial and operational procedures for adequate internal controls; we evaluate and monitor systems of internal controls for the universities centralized and decentralized computing facilities to insure that adequate security and controls related to hardware, software, data, and operating personnel; we make a determination of compliance with policies, procedures, and laws; we perform operational reviews for cost effectiveness and cost-efficiency evaluations; we also perform investigations when needed; and we act as liaison with our external auditors.

Two years ago, the department embarked upon a plan to determine what should be audited at the University. We developed a quantitative approach to determine what kinds of risk existed in each department and then we associated values with those risk factors. This risk analysis methodology is based on these weighted average values and twenty risk factors. The factors are listed along with their associated weights on page 2 of your booklet. Sample values are listed for department X, for instance, to give you an idea of how the system works for each given audit entity or department. The higher the weighted average value of these items means the higher the relative risk. Therefore, we select those entities with the higher relative risk for audit.
INTERNAL AUDIT REPORT (contd)

Mr. Hilligoss: (contd)

At The Ohio State University we have approximately 440 such audit entities and we update the database periodically. This becomes the core basis of our annual audit plan. We take those items that are at the top of the list with the highest values, but we also reserve approximately 30 percent of our time for unplanned audits. For instance, for investigations that cannot wait until the next year's audit plan.

There are five major types of audits we perform. One is our basic comprehensive management audit. It reviews primarily the administrative controls of a department, revenue, expenses, equipment, payroll, leave timekeeping, and computer controls.

Our next type of audit is the EDP, electronic data processing audit. This is where we review the controls over an operating system, application system, or general controls of computing installation.

We're involved with audits at University Hospitals. In January of this year, we hired a Hospitals senior auditor to help us with those audits.

There are several reasons an investigative audit may be performed. It could be based on an audit tip or it could be a finding during an audit. The majority of fraudulent activities are not detected during a typical audit. We rely on management to be our eyes and ears. We work with University police to coordinate our efforts for each of these reviews.

An outgrowth of one of these audits was a program we have now, a fraud awareness program entitled "Fraud Detection and Prevention." It is used to assist management in identifying fraud exposures and symptoms to strengthen the detection and prevention of fraud. We also provide consultations -- a kind of non-threatening proactive type of review.

The next section is on Audit Methods. I think the key thing perhaps to remember here is that we have standard audit procedures which we use throughout an audit. The other programs guide us through the conduct of an audit. We use internal control questionnaires to ask the auditee how things actually work in their departments and to help us identify control strengths and weaknesses. We develop flow charts to provide a graphic representation of the procedures of the department, also to help us identify control weaknesses and strengths. We use sampling to attempt to audit smarter not harder. We perform some testing of transactions for a given time period to ensure that the controls are working as intended. And we may also send confirmations to obtain an independent assessment or valuation of accounts.

The observations and recommendations that we issue in our audit reports are based on evidence. This evidence is formally organized into work papers which document all the work we do on a particular audit. In our work papers you will find support documentation for observations and recommendations, audit memos summarizing the information of our audit, narratives which describe in prose the procedures the department uses, and a conclusion or opinion on each work paper to document the work that has been performed.
INTERNAL AUDIT REPORT (contd)

Mr. Hilligoss: (contd)

At the conclusion of our audit work, we prepare a written report for management. This report consists of an audit opinion, generally whether the controls are adequate or inadequate, and whether the department is in compliance with applicable guidelines. The report includes observation or a finding of a condition. It includes recommendations to strengthen internal controls or to correct a deficiency noted in the observation. In addition, we include management's response not only to provide equal time for management, but also to indicate concurrence.

The distribution of the audit report is addressed to the department head with copies to the dean and provost or vice president. In addition, all reports are copied to the Vice President for Business and Administration to whom the internal audit department reports.

To insure that we have a meeting of the minds with the auditing management, we have a closing meeting to go over the facts of the audit and the recommendations. Are they suitable? Are they reasonable? Are they practical? It's a very much a two-way dialogue so that we understand each other and how things work. Once we have management's response, we preform a follow-up two to three months after the audit and we also provide a semi-annual executive summary to you, the Board of Trustees.

I would now like to turn our attention to some of the more significant audit results we've had in the last two years. We performed an accounts receivable audit of the entire University in fiscal 1991. Major recommendations focused on the use of the Office of Accounts Receivable Collection Services, as all departments were encouraged to centralize their past due receivables through this department.

We are currently pursuing several investigative audits, coordinating our investigation efforts with University Police, and when necessary the Prosecutor's Office. In addition, we began a fraud education program as I mentioned, "Fraud Detection and Prevention," to raise the consciousness of the University community to the threat of white collar crimes.

We are currently in the process of a major review of the University's Accounts Payable system. We expect a draft report of this integrated EDP and management audit to be completed by the end of May. The review covers all facets of Accounts Payable and its satellite operations.

In January of this year, we completed a review of the University Budget Planning's process to segregate unallowable, unallocable, and unreasonable indirect costs, in the University's cost submission to the federal government. As a result of the review, we are confident that reasonable steps have been taken to detect and to remove unallowable costs.

As liaison with the University's external auditors, Coopers & Lybrand, we coordinated the audit to a successful early close. We hope to increase that time period by two months this coming year to have an opinion by September of 1992.
Mr. Hilligoss: (contd)

You will find some statistics and charts on pages 9 through 12, which describe our audit performance. The first pie chart shows the breakdown of our planned and unplanned audits. You'll find that about 30 percent of our audits are unplanned. The second pie chart shows audit cancellations, along with the completed projects, and those audits in process. We also have a whole project management system which notes the time we spent on each audit and that's so we can track how well we are doing.

Turning now to our goals for the upcoming year, we plan to increase our emphasis in the EDP audit area due to the increased proliferation of micro-computers and other decentralized end-user computing. We also plan to modify our management audit approach, that is our major comprehensive audit, to essentially perform limited surveys of low risk areas coupled with in-depth testing and analysis of higher risk areas. It is our goal to also expand our educational services by continuing our fraud education program and increasing our involvement in the development of the Office of Financial Training workshops on administrative procedures and accounting issues.

We firmly believe that one of the best uses of audit time is to help educate employees up front, so that they have the appropriate knowledge of University procedures. Because we find that often it is not a question of wanting to do things right, it is more a question of what is right. And, of course, the coordination of the University's external audit and early close is another goal for 1993.

In 1991, each auditor on staff chose a field of specialization -- be it investigative, financial, data processing, compliance, health care, or operational auditing. The development of individuals in these fields of specialization began in fiscal 1992, and the goal in 1993 is to continue to develop individuals in their respective fields so that the department can be ready to meet the challenges and new technologies that lie ahead.

In the May-June time frame of this year, we will be planning our annual audit plan for 1993 using the auditors analysis approach to strike earlier. Our goal, of course, will be complete the annual audit plan and to carry over as few audits from fiscal '92 as possible.

My final topic this morning regards the audit cycle and audit coverage of our department. The audit cycle is defined as the number of years it takes to audit all entities once -- if you put them all in a long line and took them one after the other. As you will recall, we have approximately 440 audit entities. I might mention that one entity is the University Hospitals, so we have quite a bit of expansion to do on that topic, but most other entities are a given department or a college office.

The last eight years have yielded an average of 55 audits per year, which happens to work out to exactly an 8-year audit cycle. As far as coverage goes, we have about 1 auditor per 2,000 employees. The industry's rule of thumb would indicate about a 3 to 5 year audit cycle and 1 auditor per 1,000 employees based on a recent Coopers & Lybrand article. I will caution, however, that relying merely on the audit cycle or on the number of auditors per thousand employees is not always the best measurement of how well you're covering your risk areas. By using the audit risk analysis, as I
Mr. Hilligoss: (contd)

mentioned previously, we find that we can hit the higher risk areas with fewer auditors and therefore put the most resources where they will do the most good.

The final remaining pages in your booklet describe the organization of our department with its director, secretary, staff of nine, which includes two managers, followed by a short resume on each individual. I would like to mention that as far as certifications go, Mr. Nichols mentioned we had some CPA’s. We have three Certified Public Accountants and one individual pursuing the CPA. We have two Certified Internal Auditors and two individuals pursuing certified internal audit certificates. We have three individuals who have EDP audit certifications, which is the Certified Information Systems Auditor, and we have one certified Fraud Examiner.

I sincerely thank you for your attention this morning and would be happy to answer any further questions.

Mr. Teaford:

Does anyone have any questions for Mr. Hilligoss?

Mr. Nichols:

Mr. Teaford, I might in closing mention that there was a discussion at the meeting of the external auditors this past year in which they did comment on the direct involvement and side-by-side involvement of internal auditing and the external audit process, and the professional capabilities that are in that particular office. Although as you can see, we have already had some discussions about Fiscal Year 1993 goals for internal auditing. There certainly are still some areas where we would like to improve. I believe that it is fair to say that probably in the process, with regards to both external and internal auditing, we are probably in a situation where we have a relatively seamless auditing procedure in terms of trying to catch the entire spectrum of audit situations. And I would be remiss, based on those past discussions that I mentioned over a two-year period, if I did not thank Mr. Kessler for some of his insights with regards to that comprehensive audit function.

Mr. Teaford:

Thank you. I would just add, Mr. Hilligoss, that I think it again demonstrates that indeed the University is lean and mean in terms of its employees. Because once again, we are doing a function with about half as many employees and that is because of the hard work in your area and we appreciate that. Thank you for your report.

--0--
EMPLOYMENT OF ARCHITECTS/ENGINEERS AND REQUEST FOR CONSTRUCTION BIDS

Resolution No. 92-111

KEPLER CLUBHOUSE MODIFICATIONS

Synopsis: Authorization to employ architects/engineers and request construction bids for the Kepler Clubhouse Modifications is proposed.

WHEREAS the Kepler Clubhouse at the University Golf Courses does not comply with the newly enacted Americans with Disability Act of 1992 and the Department of Athletics desires to bring this facility into compliance; and

WHEREAS the facility modifications will include a new elevator that will provide access to everyone at three levels, new accessible restrooms for women, improvements to the existing men's restrooms to provide full access, and improvements to the current lobby, lounge, and women's locker room; and

WHEREAS the total estimated project cost is $480,000.00, and the total estimated construction cost is $400,000.00, with funding provided by the Department of Athletics:

NOW THEREFORE

BE IT RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to select qualified architectural/engineering firms as necessary for this project and that the fees for these services be negotiated between the firms selected and The Ohio State University; and

BE IT FURTHER RESOLVED, That the President and/or Acting Vice President for Business and Administration be authorized to request construction bids on this project in accordance with established University procedures, and if satisfactory bids are received, to award contracts, with all actions to be reported to this Board at the appropriate time.

Upon motion of Mr. Shumate, seconded by Mr. Barone, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

ABOLISHMENT OF THE MANDATORY RETIREMENT AGE

Resolution No. 92-112

Synopsis: Approval of the abolishment of the mandatory retirement policy is proposed.

WHEREAS the United States Congress enacted the 1986 Amendments to the Age Discrimination in Employment Act (ADEA) which provisions prohibit the mandatory retirement of tenured Faculty in Colleges and Universities on January 1, 1994; and
ABOLISHMENT OF THE MANDATORY RETIREMENT AGE (contd)

WHEREAS the Board of Trustees adopted a policy on April 10, 1939, as amended on December 6, 1943, and July 13, 1962, providing that officers and employees of the University who are members of the State Teachers Retirement System and the Public Employees Retirement System must retire not later than the end of the contract year in which the officer or employee reaches age 70; and

WHEREAS the Faculty Compensation and Benefits Committee and the University Senate along with the President's Executive Committee have reviewed and recommended that the mandatory retirement policy for faculty be abolished prior to January 1, 1994:

NOW THEREFORE

BE IT RESOLVED, That upon recommendation by President Gee, the Board of Trustees hereby approves the abolishment of the mandatory retirement policy effective January 1, 1993.

Mr. Teaford:

I believe that Professor Maurer would like to address us with regard to this issue and I would ask you to be succinct.

Professor A. E. Wallace Maurer:

Thank you. I presume that you have read my letters and that is why you have asked me to be succinct. I believe I did not hear something near the beginning of your presentation on the legal position of the University with respect to the exemption that was granted to them in 1986. You used the word -- it wasn't obligatory, but it was something like that.

Ms. Tom:

The word was "mandatory."

Professor Maurer:

Did you suggest that universities legally were required not to grant mandatory retirement until 1994?

Ms. Tom:

Universities have to lift the mandatory retirement on January 1, 1994.

Professor Maurer:

All right. What is also in that act and amendment is that universities could, if they wished, waive that exemption. Indeed, by this time universities and colleges, public ones in nineteen of the States and in Puerto Rico, have already done so.

I got to thinking about this issue because, frankly, I have been affected by it. So I began to do research on it and provided the central administration with that research. In a nut shell, the problem is that there is a good deal of wide spread skepticism about the competence, perspective, and alertness of people as they age. Indeed, I don't share that skepticism. Instead, it has been my experience that the perspective
April 3, 1992 meeting, Board of Trustees

Professor Maurer: (contd)

...and finesse of people as they grow wiser and older increases. I have seen some awesome accumulations of competence and capability.

I will mention just one on this campus, some of you have no doubt heard the pianist, Earl Wild. In his seventy-fifth year in New York at Carnegie he put on a birthday performance -- a program of challenge which I have never observed elsewhere at any time. The universal planetary response to that was, "The man is at the height of his powers," which, however, is where he has been all of his life.

Now to get specifically to the point here, the reason that exemption came into existence was that some universities in the country feared a return of a massive number of faculty at age 70, who would draw a pension and then renegotiate a salary, and would break the bank. And there are indeed some universities where this is the case. Yale has a 76 percent of its faculty remaining until age 70. Harvard has 77 percent of its faculty remaining until age 70. Chicago has 64 percent of its faculty remaining until age 70. And that is a frightening prospect financially, at any rate.

That is not the case as fundamental research done this past summer has shown. This is in a document which Congress is going to use in 1994, raising the question of "What shall we do when the exemption is lifted?" "Will universities be in trouble financially?" There is a document which surveyed over 300 universities -- 20 or 25 of them in-depth. There was a subsequent document from Princeton which likewise analyzed universities in detail, checking on retirement patterns as a result of lifting the exemption at some of these universities. What has been uniformly discovered is that there has been no change in the retirement patterns.

In universities like this one -- would you believe it -- which is a powerful research and teaching institution -- those terms I have welded in my mind -- the amount of faculty who remain on until age 70 is something like 1.6 percent. And most faculty retire in their early 60's.

So what it came down to here is -- the issue between some of us and the administration -- that there are in fact 5 people who are interested in staying on. And all 5 are financial idiots, because the retirement system here is a magnificent one -- one of the best in the country. The buy-out system is the means whereby one relieves the pressure at the top, if universities are fearful that aged professors are going to stay on and are blocking the entry of new ones. The studies that I have alluded to show that nothing of this sort happens. There is nothing to be feared of professors staying on.

Now the issue here is that five professors are interested in staying on. The central administration and its committee examined this, and I felt that the research pattern used was incorrect since the University of Chicago design was applied to this institution. Remember that the University of Chicago has 64 percent of its faculty staying on until age 70, this institution has around 1.0 percent.

President Gee looked over the studies from both sides and abolished the exemption. A magnificent act. I unconditionally support it and if the President ever falters on it, I will take him in hand.
April 3, 1992 meeting, Board of Trustees

Professor Maurer: (contd)

So the exemption is abolished. The effect upon the five of us -- and I feel uneasy now, because I sound very much like an axe grinder and a special pleader. I cannot avoid that situation; I am one of the five. What has happened in the disposition of this issue by the President -- which I have no reservation about whatsoever because I have watched him like a hawk -- I have talked with him and I know that he is taking it all very seriously. The result of the dating of the lifting of the exemption will allow two of the five to continue, and three of the five not to continue. And I have not been able quite to grasp why that disposition has occurred.

The President has just nodded affirmatively that he is ready to take care of this question. But before you take care of my implicit question, let me ask another one. As I said, I am unconditionally in favor of the abolition of the exemption. My question is why did you abolish it since we are so close to it anyhow?

President Gee:

Dr. Maurer, first of all, let me note that this was an issue that a number of us discussed at great length. Vice President Tom and I spent a great deal of time with the committee discussing it. The truth of the matter is this that the University was not required to lift the mandatory cap until the required time.

After consideration, we decided to ask to do so a year early, because of the fact that we had had this fairly lengthy discussion with the committee and we felt that would allow us some time to plan. The question with this particular year was one in which to do so at the late date that we had anticipated that would take place, would have adversely affected the hiring of new people that we had already hired. These are very tough financial times that we find ourselves in. We had already made commitments to hire some new people based upon the fact that the colleges or the departments had determined that those hires were based upon people retiring at that particular point. That in and of itself, I believe, is significant.

Secondly, I would note that by providing the ability to the departments to be able to hire people back, we have now said to them that no longer are you excluded from being a part of the University, as long as the departments want to make that decision. I would note to the Board that, I believe, in these types of decisions it is important for the department chairs and for the colleges to make the decision, not the University to make an arbitrary decision. The reason I say that is that they can better determine the needs of the departments than can the institution in an arbitrary fashion.

Very candidly for those reasons: 1) that with the serious financial repercussions at a time in which we were not able to look at that in any kind of stop gap measure; and 2) with the lifting of the mandatory rehiring limitation we now provide an opportunity for the University to rehire people on an "as needed basis" with appropriate kinds of response. We believe that does handle the matter. Unfortunately, with everything when there is a certain level of arbitrariness brought about by legal constraint, that arbitrariness does affect a few people and you happen to be one of those.
April 3, 1992 meeting, Board of Trustees

Mr. Teaford:

If there are no further questions from the Board, I will entertain a motion to approve the amendment.

Upon motion of Mr. Celeste, seconded by Ms. Casto, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

President Gee:

I would like to thank Professor Maurer for his discussion, we did appreciate that. Thank you for coming, Sir.

Professor Maurer:

Thank you for the opportunity.

REPORT - UNIVERSITY'S INVESTMENT PORTFOLIO

Resolution No. 92-113

RESOLVED, That the report on the University's Investment Portfolio, dated March 20, 1992, as submitted to the Fiscal Affairs Committee of the Board of Trustees, be received and filed with the official records of the Board.

Thereupon the Board adjourned to meet Friday, May 1, 1992, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio.

Attest:

Madison H. Scott          Hamilton J. Teaford
Secretary                Chairman
THE OHIO STATE UNIVERSITY
OFFICIAL PROCEEDINGS OF THE
ONE THOUSAND TWO HUNDRED AND EIGHTY-SECOND MEETING
OF THE BOARD OF TRUSTEES

Columbus, Ohio, May 1, 1992

The Board of Trustees met at its regular monthly meeting on Friday, May 1, 1992, at The Ohio State University Fawcett Center for Tomorrow, Columbus, Ohio, pursuant to adjournment.

**                **                **

Minutes of the last meeting were approved.

**                **                **
May 1, 1992 meeting, Board of Trustees

The Chairman, Mr. Teaford, called the meeting of the Board of Trustees to order on May 1, 1992, at 10:50 a.m. He requested the Secretary to call the roll.

--0--

ELECTION OF OFFICERS
BOARD OF TRUSTEES

Resolution No. 92-114

Mr. Scott read the Nominating Committee's report in which the following slate of officers were recommended:

WHEREAS pursuant to paragraph (B) of rule 3335-1-02 of the Administrative Code, the officers of the Board are to be elected at the May meeting to take office immediately following adjournment of the meeting (May 1, 1992) and shall hold their office through the May 1993 meeting:

NOW THEREFORE

BE IT RESOLVED, That the following slate of officers for 1992-93 be elected:

John J. Barone, Chairperson
Deborah E. Casto, Vice Chairperson
Madison H. Scott, Secretary
James L. Nichols, Treasurer

Upon motion of Mr. Celeste, seconded by Mr. Wexner, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

Mr. Teaford:

My congratulations to John and Debbie. John, I think you wanted to say something --

Mr. Barone:

I would like to tell the Board members that Mr. Scott will forward their committee assignments to them sometime next week.

--0--

PRESIDENT'S REPORT

President Gee:

Good morning. Today, May 1, is an important day in the life of this university. On May 1, 1878, the state legislature changed the name of The Ohio Agricultural and
May 1, 1992 meeting, Board of Trustees

Mechanical College to The Ohio State University. No longer "Ohio A & M," we became Ohio State, and ever after would have a capital "T" "The" as part of our name.

It was in May 1870 that the Board of Trustees first met, and May Trustee meetings have proven interesting through the years. It was at a May meeting in 1916 that the Trustees authorized the purchase of an automobile for the use of President Thompson.

In May 1885, the Trustees authorized spending fifty dollars for equipping a gymnasium "for the young ladies." Of course, today, you could not buy a pair of Reeboks for that, as we all know! And at the May Trustees meeting in 1881, your esteemed predecessors decided that the electric light was not practical for the university at that time. Imagine how they would feel about FAX machines!

The Archives also report that it was in May 1918 that the faculty voted in favor of the four quarter plan of study. We are coming up on the 75th anniversary of the quarter calendar and I have just one word for that celebration: Semester!

As we begin the month, I want to note that on our campuses, spring is notable for the year-end recognitions and honors that are bestowed on students, faculty, and staff members. As you heard in this morning's committees, we are beginning Honors Week, when the class recognition societies and other groups will reward achievement.

This past month, we honored faculty with the Alumni Distinguished Teaching Award and the Distinguished Scholar Award. As you know, I arrived unannounced in the classrooms of the recipients and surprised them with the news of their honor. It was obvious, by the way, that the students were thrilled for them, or maybe the students were just glad that we interrupted their lecture!

Since their department chairs were in on the planning, in many cases, their colleagues joined us for the occasion. Rather than simply mailing a letter of announcement, these celebrations seemed a much more appropriate way to acknowledge the importance of teaching and research at this institution.

In April, we also presented the Ohio State Awards for public broadcasting excellence. These awards, given by WOSU stations, are the oldest awards in the field and are considered quite prestigious in the industry. The General Motors Volunteers Spirit Awards this week honored three students for outstanding service to the community and the campus.

We just completed Parent's Weekend and are in the midst of Greek Week. Tomorrow is the Medieval and Renaissance Festival.

"In Black and White: Dress from the 1920s to Today" opened at the Wexner Center and highlights Ohio State's Historic Costume and Textiles Collection.
Ohio State also is one of the sponsors of an exhibit at the Upper Arlington Municipal Building titled: "The Perpetrators." It is a Holocaust Remembrance of 43 works of art by Professor Emeritus Sid Chavetz.

As you can tell from these few highlights, spring is very busy on the campuses. And this year even more so as our faculty, staff, and students -- especially students -- have become involved in the state budget process. On April 15, rallies were held on our campuses in which voice was given to our concerns about state support for higher
May 1, 1992 meeting, Board of Trustees

education. Then, on April 22, Ohio State students joined with others from across the state, marching to the State House and sending a message about the importance of education.

I want to publicly say how helpful our student government leaders have been in this effort, as well as our student trustees. They have represented Ohio State as our students always do and so exceptionally well.

I know that today is the last meeting for Undergraduate Student Government president Matt Markling. And I want to publicly remark on Matt's effective and dedicated leadership not only on our campus, but also among the student leaders of the state. Let me also recognize John Hilbert who is the incoming president of USG. John, if you will stand and be recognized by everyone. I want to also note that I have visited bars with John.

I also want to note that Sophia Paige is completing her term as president of the Interprofessional Council. All of you, of course, have known Sophia as one of our Trustees. An exceptional, exceptional person who represented this university so well and is now going on for her residency in California. We will miss her very much.

We are fortunate to have strong student voices at a time when student voices are so very critical. The message of concern about the extent of possible reductions in state support for higher education has been carried forward in many ways this month. I have talked to every audience I can find -- and some I should not have! -- about the impact of the budget decisions ahead. From editorial boards around the state, to parents, our alumni, community groups in every way possible, we are working hard to reinforce the message of Ohio State's role in the future success of this state.

Vice President Shkurti's report on this subject reflects the importance of our efforts. In this forum today, I want to thank the hundreds of faculty members, staff members, students, alumni, parents, and friends of Ohio State who have joined us by raising their voices and communicating with the political leadership in this state.

And while saying "thank you," I want to especially express my appreciation to David Tonnies for his marvelous service to Ohio State. As most of us know, David's efforts on behalf of this university did not begin with his appointment to the Board, rather, they began the day he arrived. For eight years, from undergraduate freshman student to leaving our medical school, he has shown consistent commitment to quality and his willingness to serve. I would say he has had an enormous impact for the good of this university. It was not that long ago that soon-to-be Dr. Tonnies was one of our Outstanding Seniors. I am confident that there are many more recognitions ahead in the world for David Tonnies. And, David, to you, we all say a very great thank you.

As I participate in the many recognition events of the spring, I am impressed by the quality of work and continued spirit of our university. Because of that, I remain optimistic about our future.

And, Mr. Chairman, this is the last meeting at which I will be sitting beside you to give this report. Of course, I would rather be sitting beside you here than at basketball or football games, as you all know.
May 1, 1992 meeting, Board of Trustees

But let me note publicly what I noted last evening, and that is that Joel Teaford has been a remarkable beacon of commitment to this institution. Joel is a graduate of Wesleyan University, a graduate of Harvard Law School, and as a non-alumna of this university has shown absolute dedication to what we are, what we will be, and our desire to become that much better. In every way and in every place he has indicated that dedication. So today, I join all of your colleagues, Joel, in thanking you for the great service that you have rendered.

Mr. Chairman, that completes my report.

--0--

RESEARCH FOUNDATION REPORT

Ms. Casto:

I am pleased to report that the increase in research funding received by The Ohio State University Research Foundation continues to show real growth. At tab 1 you will see that the award level for the period, July through March, is 27.78 percent above the same period last year. Through the first three quarters of this fiscal year, we have received 87.1 percent of the total funding received during last fiscal year, 1991. The number of awards received for the current period has increased from 1,023 to 1,140.

At tab 2 you will find expenditure summaries. It is noteworthy that the expenditures for all sponsor categories, except other non-federal, are running ahead of the same period last year by about 9 percent.

Some projects of special interest which were funded in the month of March are listed in tab 3. I thought you might be interested that the three projects presented in this section are all examples of multi-disciplinary teams attacking basic health problems. The National Center for Nursing Research funding will look at early intervention as a way of reducing cardiovascular disease in African-American children. The Muscular Dystrophy study is testing a potential method of correcting the missing protein defect in MD patients as preliminary work to gene transfer therapy. At tab 4 is the list of all projects funded in March.

At tab 5 you will find three interesting articles on indirect costs and how they relate to sponsored research. That completes my report, Mr. Chairman.

Mr. Barone:

I want to note that Ms. Casto has done a wonderful job in succeeding me on this very important Research Foundation Board. Research is actually the backbone of the University and a necessity. She has done a wonderful job on that Board.

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS
Resolution No. 92-115

Synopsis: Approval of the following reports on contracts, grants, and gifts and the summary for March 1992 is proposed.
May 1, 1992 meeting, Board of Trustees

WHEREAS monies are solicited and received on behalf of the University from governmental, industrial, other agencies, alumni, and various individuals in support of research, instructional activities, and service; and

WHEREAS such gifts and grants are received through The Ohio State University Research Foundation, the Engineering Experiment Station of The Ohio State University, and The Ohio State University Development Fund:

NOW THEREFORE

BE IT RESOLVED, That the research agreement between The Ohio State University and The Ohio State University Research Foundation for the contracts and grants reported herein, and the acceptance of the reports from the Engineering Experiment Station, and The Ohio State University Development Fund during the month of March 1992 be approved.

Upon motion of Ms. Casto, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND

Description of Named Funds

The Dr. Ernest W. Johnson Professorship Fund

The Dr. Ernest W. Johnson Professorship Fund was established May 1, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from friends and colleagues in honor of Dr. Ernest W. Johnson (B.A., Biological Sciences, 1948; M.D., 1952; Master, Medical Science, 1957).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be returned to the principal until such time as the funding level for the professorship reaches $500,000, whereupon the annual income shall be used to support research and physical medicine rehabilitation in the Department of Physical Medicine, College of Medicine.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the Dean of the College of Medicine, Chairperson of the Department of Physical Medicine, or Ernest W. Johnson Society representative in order to carry out the desire of the donors.

The Pauline A. Weaver Scholarship Fund

The Pauline A. Weaver Scholarship Fund was established May 1, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the estate of Pauline A. Weaver (B.S.H.E. ’28).

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for scholarships for students enrolled in the College of Human Ecology. Selection of the scholarship recipient(s) shall be made by the Dean of the College of Human Ecology, or their designee, in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.
May 1, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Pastoral Care Endowment Fund

The Pastoral Care Endowment Fund was established May 1, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from friends of the Pastoral Care Department and the William Cooper Procter Fund of the Episcopal Diocese of Southern Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support research, programs and pastoral care faculty and staff positions, with preference given to an Episcopal chaplain, as determined by the Director of Pastoral Care in consultation with the administration and Executive Director of University Hospitals.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the Director of Pastoral Care, the administration, and the Executive Director of University Hospitals in order to carry out the desire of the donors.

The Donald L. Keffer Endowed Scholarship Fund

The Donald L. Keffer Endowed Scholarship Fund was established May 1, 1992, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from Dr. Donald L. Keffer (B.S., Optometry, 1942) of Lancaster, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more scholarship awards to students enrolled in the College of Optometry who have demonstrated academic ability and a need for financial assistance. Recipients shall be named annually, but may be eligible for renewed awards. The award recipients shall be selected by the Dean of the College of Optometry in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.
Description of Named Funds (contd)

The Sue Ann Longenecker Endowed Scholarship Fund

The Sue Ann Longenecker Endowed Scholarship Fund was established May 1, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from her friends and colleagues so that they might express their sorrow upon the death on May 31, 1991, of a very special friend and colleague.

The fund is designed to commemorate the life and career of Ms. Longenecker (Certificate, Dental Hygiene, 1976; B.S.Ed. ’77). Students under the tutelage of Sue Ann will remember her ability to create a learning environment that challenged them to become critical thinkers and creative problem solvers.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The scholarship awards shall be made to students based primarily on merit and at the discretion of the Director of the Dental Hygiene program in consultation with the University Committee on Student Financial Aid. The students shall have demonstrated (1) a high degree of academic potential, (2) scholastic ability, and (3) enthusiasm for learning. Should income from this fund not be awarded in any given year, then the income is to be added to the fund’s principal.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Lawrence A. Kaufman Athletic Scholarship Fund

The Lawrence A. Kaufman Athletic Scholarship Fund was established May 1, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Lawrence A. Kaufman (B.S.Phar. ’68; B.S., Microbiology, 1963) of Columbus, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to help fund the scholarship costs for student athletes who hold a running back position on the men’s varsity football team and who are pursuing undergraduate degrees at The Ohio State University. Selection of the recipient(s) shall be made by the Director of Athletics in consultation with the University Committee on Student Financial Aid.

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.
May 1, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Description of Named Funds (contd)

The Ross County 4-H Endowment Fund

The Ross County 4-H Endowment Fund was established May 1, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the Ross County 4-H Committee and other friends of the Ross County 4-H Program.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to support the Ross County 4-H Program. This support may include, but is not limited to, the funding of scholarships and awards for 4-H members, volunteer leaders and friends of 4-H; sponsoring seminars and programs; and purchasing material or services that will supplement 4-H programming or increase the visibility and public support for 4-H in Ross County. All expenditures from this fund shall be approved by the Ross County 4-H Committee and the professional in charge of the Ross County 4-H Program.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The John V. Spalla Athletic Scholarship Fund

The John V. Spalla Athletic Scholarship Fund was established May 1, 1992, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the family, friends and the estate of John V. Spalla (B.A., Political Science, 1970) of Montgomery County, Ohio.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to supplement the grant-in-aid scholarship costs of student athletes who are members of the varsity football team and are pursuing undergraduate degrees at The Ohio State University. Recipients shall be selected by the Director of Athletics in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees as recommended by the Director of Athletics in order to carry out the desire of the donors.
May 1, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Change of Name and Description of Named Funds

The John G. Boutselis, M.D. Chair Fund in Gynecology

The John G. Boutselis Fund in Obstetrics and Gynecology was established November 1, 1974, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Dr. and Mrs. John G. Boutselis, M.D. (Master, Medical Science, 1956) of Columbus, Ohio. The name and description were revised May 1, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be returned to the principal until the funding level required for the chair reaches $1,250,000 whereupon the annual income shall be used to support a faculty chair position in gynecologic oncology in the Department of Obstetrics and Gynecology as recommended by the Chairperson of the Department of Obstetrics and Gynecology and the Dean of the College of Medicine to the Provost and approved by the Board of Trustees.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the Dean of the College of Medicine, Chairperson of the Department of Obstetrics and Gynecology, or program administrative officer in order to carry out the desire of the donors.

The Rebecca Hazard Inkrott and Laura Hazard Brockway Scholarship Fund

The Rebecca and Laura Hazard Scholarship Fund was established February 7, 1986, by the Board of Trustees of The Ohio State University, with a gift to The Ohio State University Development Fund from Francis E. Hazard (Ph.D., Education, 1973), Dean and Director of The Ohio State University Campus at Marion, in honor of his daughters, Rebecca (Ph.D., 1988) and Laura (A.A., 1982; B.S.H.E., 1984). The name and description were revised May 1, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income and additional gifts shall be added to the principal until such time as the principal reaches $15,000. Thereafter, twenty percent (20%) of the annual income shall be added to the fund's principal. The remaining eighty percent (80%) of the annual income shall be used to provide scholarships in the College of Human Ecology at either the graduate or undergraduate level. This scholarship shall be awarded by the University Committee on Student Financial Aid upon the recommendation of the College of Human Ecology Scholarship Committee or its successor.
May 1, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Change of Name and Description of Named Funds (contd)

The Rebecca Hazard Inkrott and Laura Hazard Brockway Scholarship Fund (contd)

It is the desire of the donor that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donor.

The Ohio Association of Realtors, Inc. Scholarship Fund

The Ohio Real Estate Scholarship Fund was established March 3, 1947, with gifts to The Ohio State University Development Fund from the Ohio Association of Real Estate Boards as well as individuals, companies and organizations interested in encouraging young men and women to prepare themselves for the profession of realtor by pursuing the real estate courses of study at The Ohio State University. The name of the fund was changed to The Ohio Association of Real Estate Boards Scholarship on August 18, 1948. The name and description were revised May 1, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide undergraduate and graduate scholarships. Recipients shall be selected by the Dean of the College of Business upon the recommendations from the Ohio Association of Realtors, Inc. and in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer with preference being given to the field of real estate.

Change in Description of Named Funds

Arthur E. Baggs Memorial Fund

The Arthur E. Baggs Memorial Fund was established February 14, 1961, by the Board of Trustees of The Ohio State University with gifts to The Ohio State University Development Fund in memory of Arthur E. Baggs. The description was changed May 4, 1989, and was revised again May 1, 1992.

All gifts are to be invested in the University's permanent endowment fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University with the right to invest and reinvest as occasion dictates.
May 1, 1992 meeting, Board of Trustees

REPORT OF RESEARCH CONTRACTS, GRANTS, AND GIFTS (contd)

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Change in Description of Named Funds (contd)

The annual income shall be used for a scholarship to an outstanding undergraduate student with interest in pursuing a major in the ceramic arts with the equivalent of high school chemistry as a prerequisite. Suggested studies are to include investigation of basic vessel tradition of glaze chemistry, craftsmanship, and aesthetics. The selection of the recipient will be made by the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors. It is the donors’ expressed desire to fund activities related to one of the following curricula in order of preference: industrial design, music, photography and cinema, art history.

The V. Ray Frederick Memorial Scholarship Fund

The V. Ray Frederick Memorial Scholarship Fund was established April 4, 1986, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from family and friends in memory of V. Ray Frederick, a former student at Franz Theodore Stone Laboratory. The description was revised May 1, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more scholarships to students from another institution who enroll in the Franz Theodore Stone program and/or out-of-state undergraduate and/or graduate students who have demonstrated academic excellence and/or need for financial assistance, to study at the Franz Theodore Stone Laboratory. The selection of the recipients shall be made by the Director of Stone Laboratory upon the recommendation of the F. T. Stone Laboratory Scholarship Committee and in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer responsible for Lake Erie teaching, research and service in order to carry out the desire of the donors.

The Thomas Huxley Langlois Research Fellowship

The Thomas Huxley Langlois Research Fellowship was established December 5, 1986, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the family of Thomas Huxley Langlois and from alumni, faculty and friends of the Franz Theodore Stone Laboratory and the College of Biological Sciences. The description was revised May 1, 1992.

May 1, 1992 meeting, Board of Trustees

THE OHIO STATE UNIVERSITY DEVELOPMENT FUND (contd)

Change in Description of Named Funds (contd)

The Thomas Huxley Langlois Research Fellowship (contd)

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for support of one or more research fellowships for scholarly work at the F. T. Stone Laboratory. The Director of the Laboratory, in consultation with a research committee composed of members of his/her faculty, will have sole authority to authorize expenditures from the fund as approved by the Senior Vice President for Academic Affairs and Provost.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer responsible for Lake Erie teaching, research and service in order to carry out the desire of the donors.

The Paul D. Morrill Memorial Lecture Fund

The Paul D. Morrill Memorial Lecture Fund was established September 5, 1986, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from Alice B. Morrill, Columbus, Ohio, and friends in memory of Paul D. Morrill, retired Assistant University Architect. The description was revised May 1, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to underwrite the costs of lectures for the Department of Architecture. Appropriate promotional efforts will be given to each presentation. Expenditure of funds shall be at the recommendation of the Chairperson of the Department of Architecture and approved by the Director of the School of Architecture.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer in order to carry out the desire of the donors.

The Franz Theodore Stone Laboratory Scholarship Fund

The Franz Theodore Stone Laboratory Scholarship Fund was established September 2, 1983, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the Friends of Franz Theodore Stone Laboratory. The description was revised May 1, 1992.

The annual income shall be used to provide one or more scholarships for undergraduate and/or graduate students, who have demonstrated academic excellence and/or need for financial assistance, to study at the Franz Theodore Stone Laboratory. The selection of the recipients shall be made by the Director of Stone Laboratory upon the recommendation of the F. T. Stone Laboratory Scholarship Committee and in consultation with the University Committee on Student Financial Aid.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer responsible for Lake Erie teaching, research and service in order to carry out the desire of the donors.

The Franz Theodore Stone Laboratory Sustaining Fund

The Franz Theodore Stone Laboratory Sustaining Fund was established December 8, 1983, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the Friends of the Franz Theodore Stone Laboratory. The description was revised May 1, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used for those purposes which will sustain and enrich the research, teaching and service programs and facilities of the Franz Theodore Stone Laboratory. Expenditure of the annual income shall be made upon the authorization of the Director of the Franz Theodore Stone Laboratory in consultation with the Board of Directors of the Friends of Stone Laboratory and with the approval of the Senior Vice President for Academic Affairs and Provost.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer responsible for Lake Erie teaching, research and service in order to carry out the desire of the donors.

The Franz Theodore Stone Laboratory Visiting Professorship Fund

The Franz Theodore Stone Laboratory Visiting Professorship Fund was established September 7, 1984, by the Board of Trustees of The Ohio State University, with gifts to The Ohio State University Development Fund from the Friends of Franz Theodore Stone Laboratory. The description was revised May 1, 1992.

All gifts are to be invested in the University's Permanent Endowment Fund, under the rules and regulations adopted by the Board of Trustees of The Ohio State University, with the right to invest and reinvest as occasion dictates.

The annual income shall be used to provide one or more visiting professorships to enrich the instructional program at the Franz Theodore Stone Laboratory. The selection of the recipients shall be made in accordance with University procedures for appointment of visiting faculty and upon the recommendation of the Director of the Franz Theodore Stone Laboratory, the appropriate department chairperson, and the Senior Vice President for Academic Affairs and Provost.

It is the desire of the donors that this fund should benefit the University in perpetuity. If the need for this fund should cease to exist or so diminish as to provide unused income, then another use shall be designated by the Board of Trustees in consultation with the appropriate college dean, department chairperson, or program administrative officer responsible for Lake Erie teaching, research and service in order to carry out the desire of the donors.

HOSPITALS BOARD REPORT

Mr. Barone:

The Hospitals Board and its Professional Affairs/Education/Research Committee both met on Thursday, April 23.

The Professional Affairs Committee moved into Executive Session for a confidential review of quality and resource indicators and a case study. In open session, Dr. Bush reported on progress toward establishment of an integrated practice group. Dr. Mekhjian reported on medical staff activities.

The Committee also received updates on the Risk Management program, employee certification, vacancy and turnover rates, and activities to ensure that the Hospitals will be in compliance with new standards when the Joint Commission on Accreditation of Healthcare Organizations makes its next site visit in November 1993.
May 1, 1992 meeting, Board of Trustees

HOSPITALS BOARD REPORT (contd)

Mr. Barone: (contd)

The first order of business for the Hospitals Board was to receive Committee reports. Next we received and endorsed the recommendation of the Nominating Committee that Susan Insley, Jack Havens, Dr. John Kramer, and Donald Shackelford be reappointed to 3-year terms on the Hospitals Board. We are also requesting a 3-year Emeritus appointment for Pete Klisares. Susan Insley was nominated as Chairman for next year, and Donald Shackelford was nominated as Vice Chair. It was announced that Dr. Grayce Sills has agreed to chair the Professional Affairs Committee; David Lauer will chair the Administrative/Operations Committee; and William Bennett will chair the Strategic Planning Committee. On behalf of the Hospitals Board, Mr. Fraley has sent a letter formally requesting the Board appointments previously mentioned.

The Hospitals Board presented a framed resolution to Mrs. Charlotte Immke in recognition of the dedicated service of her late husband, Len.

The Board received reports on patient statistics and financial performance of University Hospitals and the James Cancer Hospital. Our receivables have been reduced to 73 days, versus 100 days last June 30 and a target of 85 for this year.

We also received a report on news coverage of the Hospitals; an overview of the first three months of the University’s managed healthcare initiative; development of the operating budget for the coming fiscal year; and updates on Certificate of Need projects, construction and renovation, and safety statistics.

Mr. Teaford:

I want to say, having served on the Hospitals Board, that Mr. Celeste and Mr. Barone must have done a hell of job to get those receivables down to 73 days. That is truly a marvelous accomplishment and I think Reed Fraley may have had something to do with that.

Mr. Barone:

Mr. Fraley is not here today, but Mr. Celeste and I can vouch that there is not a harder worker in the whole University than Reed Fraley.

We are also recommending the following resolutions:

UNIVERSITY HOSPITALS BOARD REAPPOINTMENTS

Resolution No. 92-116

Synopsis: Approval of the reappointments of University Hospitals Board members is proposed.

WHEREAS the Board of Trustees on November 30, 1979, approved the establishment of a University Hospitals Board; and

WHEREAS the membership of the Hospitals Board was approved on April 4, 1980, and has been subsequently amended; and
May 1, 1992 meeting, Board of Trustees

WHEREAS the term of four general public members of the Hospitals Board has expired:

NOW THEREFORE

BE IT RESOLVED, That the following individuals be reappointed as general public members of the University Hospitals Board, for a three-year term, effective May 1, 1992:

John F. Havens
Susan J. Insley
John G. Kramer, D.D.S.
Donald B. Shackelford

Upon motion of Mr. Barone, seconded by Mr. Celeste, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

--0--

UNIVERSITY HOSPITALS BOARD EMERITUS APPOINTMENT
Resolution No. 92-117

Synopsis: Approval of emeritus status to a Hospitals Board member is proposed.

WHEREAS pursuant to bylaw 3335-93-01 of the University Hospitals Board Bylaws, the Board of Trustees may designate emeritus Hospitals Board members; and

WHEREAS Pete A. Klisares has finished completing his third and final term as a Hospitals Board member; and

WHEREAS he has been a dedicated member whose leadership has been invaluable, particularly in development of the medical center's strategic planning processes; and

NOW THEREFORE

BE IT RESOLVED, That upon the recommendation of the Hospitals Board and the President, the title of Hospitals Board Member Emeritus be conferred upon Mr. Pete A. Klisares, for a three-year period, effective May 1, 1992.

Upon motion of Mr. Barone, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous voice vote.

May 1, 1992 meeting, Board of Trustees

AGRICULTURAL AFFAIRS COMMITTEE REPORT

Mr. Celeste:

The Agricultural Affairs Committee of the Board of Trustees had a whirlwind trip and meeting on April 22, 1992, at the Piketon Research and Extension Center in Piketon, Ohio. Bob Rades greeted those attending and gave a brief introduction to the Center.

The Piketon Research and Extension Center, appropriated in the 1986 capital budget and first occupied in 1991, is a unique facility since it combines research and extension programming under one roof. Six major program areas are targeted at the Piketon Research and Extension Center to serve the needs of South-Central Ohio. These are Forestry, Economic Development, Water Quality, Horticulture, Water Management, and Aquaculture.

We had a very quick tour of a variety of areas, including: the Reservoir Model, which illustrated the new longer-life design; the Groundwater Model showing underground cross-flows; in the Soils Lab, we were shown soil cores, sliced every four inches to show changes from topsoil down to gravel layers, an impressive display; and we toured the Horticulture Research Greenhouses.

Both above-ground, trickle tube and subsurface drainage tile irrigation methods were demonstrated at the Water Management site. Particularly interesting was the aquaculture ponds and building tour that displayed trout, yellow perch, walleye, and catfish that were among the species being raised. The aquaculture project, we believe, has great potential as a new agricultural industry for Ohio.

And, finally, the MSEA (Management Systems Evaluation Area) site was our last stop. This is a federally funded project, is a cooperative effort between a number of agencies, and is designed to monitor the effects of standard farming practices on underground water quality.

Following the tour, we met with several local people at the Emmitt House in Waverly, who are very supportive of the efforts at the Piketon Research and Extension Center. That concludes my report, Mr. Chairman.

--0--

ACADEMIC AFFAIRS COMMITTEE REPORT

Ms. Casto:

This morning we heard from Dr. Ada Demb, who has recently just come to us to be head of International Affairs. In her report, she gave statistics such as: four of our five area centers are among the 12 best in the country -- so recognized through grants as National Resource Centers; 20 percent of International Studies majors are honors students, the highest percentage in the College of Social and Behavioral Sciences; our MUCIA projects are worth approximately $5 million; and dozens of faculty have introduced themselves to her during the past 3 months, to inform her of their independently initiated projects -- many in eastern Europe.

Dr. Demb is looking forward to her tenure here at Ohio State and asked if she could come back and see us at a later date when she feels that her feet are more on the ground.
May 1, 1992 meeting, Board of Trustees

ACADEMIC AFFAIRS COMMITTEE REPORT (contd)

Ms. Casto: (contd)

Also, we heard from Peter van Deventer about the Interest Group on Global Understanding (IGGU). It is a grass roots organization here at Ohio State, which has been active since the summer of 1991, identifying issues related to the internationalization of Ohio State. We wish him success in the future; I very much admire his spirit.

Also in the Academic Affairs Committee meeting, Dr. Hayes discussed information about Indirect Costs that the University charges on externally funded research projects. This topic is receiving a great deal of attention at the national level as a result of claims that universities have been overcharging government grants and contracts. We were pleased to learn that Ohio State has not had any disputes with our Health and Human Services auditors concerning overcharging on prior year activities.

The Office of University Budget Planning has the responsibility for negotiating and developing the indirect cost rate charged to research grants and contracts. We are currently in the process of preparing the Indirect Cost proposal for FY 1993 and beyond. Our current indirect cost rate of 47 percent is significantly lower than rates at most private institutions such as Stanford (74 percent) and M.I.T. (62 percent) and even lower than the University of Michigan whose rate is 59 percent.

Indirect costs are real costs beyond the direct costs charged to external grants and contracts. Direct costs include graduate student stipends, supplies, equipment maintenance, and travel. The amount of indirect costs recovered during FY 91 was $25.4 million. The projected FY 92 recovery will be $27.7 million, an increase of 9.1 percent. These funds are used to offset actual expenses such as use allowance (wear and tear on buildings, equipment), physical plant operations (utilities, power, repairs), administration (university-wide, departmental, and college), libraries, and sponsored programs administration (OSURF).

This is a very timely subject, because it has been so controversial in the news. I was glad to get the report that we had and we are very proud. Thank you, Dr. Hayes.

The Academic Affairs Committee is also recommending the following resolutions:

DEGREES AND CERTIFICATES - SPRING QUARTER COMMENCEMENT

Resolution No. 92-118

Synopsis: The Academic Affairs Committee recommended the approval of degrees and certificates for Spring Quarter Commencement.

WHEREAS pursuant to paragraph (E) of rule 3335-1-06 of the Administrative Code, the Board has authority for the issuance of degrees and certificates; and

WHEREAS the faculties of the colleges and schools shall transmit, in accordance with rule 3335-9-29 of the Administrative Code, for approval by the Board of Trustees, the names of persons who have completed degree and certificate requirements:

NOW THEREFORE
May 1, 1992 meeting, Board of Trustees

BE IT RESOLVED, That the degrees and certificates be conferred on June 12, 1992, to those persons who have completed the requirements for their respective degrees and certificates and are recommended by the colleges and schools, and that the names of those persons awarded degrees and certificates be included in the minutes of this meeting.

Upon motion of Ms. Casto, seconded by Mr. Kessler, the Board of Trustees adopted the foregoing resolution with eight affirmative votes cast by Messrs. Barone, Kessler, Wolf, Wexner, Shumate, Celeste, Colley and Ms. Casto and an abstention by Mr. Teaford.

--0--

PERSONNEL ACTIONS

RESOLVED, That the personnel actions as recorded in the Personnel Budget Records of the University since the April 3, 1992 meeting of the Board, including the following Appointments, Appointment of Chairpersons, Reappointment of Chairpersons, Leaves of Absence Without Salary, and Emeritus Titles as detailed in the University Budget be approved.

Leaves of Absence Without Salary

STEVEN B. SCHWARZKOPF, Assistant Professor, Department of Psychiatry, effective April 1, 1992, through March 31, 1993, to do research work at the University of Rochester.

ALAN D. VIARD, Assistant Professor, Department of Economics, effective July 1, 1992 through June 30, 1993, to work as a staff economist at the Joint Committee on Taxation of the United States Congress in Washington, D.C.

Emeritus Titles

DONALD W. GOOD, College of Arts and Sciences--Administration and Department of English, correct title to Assistant Dean and Secretary, and Associate Professor Emeritus, effective March 1, 1992.

LAWRENCE HERMAN, College of Law, with the title Professor Emeritus, effective March 1, 1992.

MICHAEL H. KLAPPER, Department of Chemistry, with the title Professor Emeritus, effective March 1, 1992.

JOAN R. LEITZEL, Department of Mathematics, with the title Professor Emeritus, effective March 1, 1992.

LEE M. MODJESKA, College of Law, with the title Professor Emeritus, effective March 1, 1992.

DONALD C. CAVIN, Department of Educational Services and Research, with the title Associate Professor Emeritus, effective March 1, 1992.

WILLIAM E. SNYDER, University Library (Newark Campus), with the title Instructor Emeritus, effective March 1, 1992.

Upon motion of Ms. Casto, seconded by Mr. Shumate, the Board of Trustees adopted the foregoing resolution by unanimous roll call vote.

--0--

RESOLUTIONS IN MEMORIAM

Resolution No. 92-120

Synopsis: The Academic Affairs Committee recommended the approval of seven Resolutions in Memoriam.

RESOLVED, That the Board adopt the following Resolutions in Memoriam and that the President be requested to convey a copy to the families of the deceased.

Mary Maurine Millican

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on February 13, 1992, of Mary Maurine Millican, Associate Professor Emeritus in the Department of Textiles and Clothing, College of Human Ecology.

RESOLUTIONS IN MEMORIAM (contd)

1141
Mary Maurine Millican (contd)

Mary Millican was born February 11, 1926, in Loving, Texas. She received her early training at Loving and Graham High Schools. She then received her B.S. in Bacteriology and Chemistry in 1948, and her M.S. in Home Economics in 1953 at the University of Texas. She worked as a researcher in the Laboratory for Cotton and in the marketing section of cotton fiber analysis at the University of Texas from 1952-55.

Mary Millican joined the faculty of textiles and clothing in the Department of Home Economics in October 1955. Professor Millican was thorough and well prepared for her field. She had real talent in the design applied to clothing as well as a sound background in science. Professor Millican was considered a remarkable teacher and faculty member. Her standards for herself and others were high. She was quite successful in helping the students raise their own standards rather than imposing her own.

Professor Millican demonstrated excellent leadership in the study and revision of undergraduate clothing courses. Her scholarly approach to teaching and commitment to excellence were a strength to the Department of Textiles and Clothing. Her dedicated work on the development and maintenance of the Historic Costume Collection was a significant contribution to the department and the college.

On behalf of the University, the Board of Trustees expresses to the family its deep sympathy and sense of understanding in their loss. It was directed that this resolution be inscribed upon the minutes of the Board of Trustees and that a copy be tendered to the family as an expression of the Board's heartfelt sympathy.

Kenneth E. Naylor

The Board of Trustees of The Ohio State University expresses its sorrow upon the death on March 10, 1992, of Kenneth E. Naylor, Professor in the Department of Slavic and East European Languages and Literatures.

Kenneth E. Naylor, Jr. was born February 27, 1937, in Philadelphia, Pennsylvania. He received his bachelor's degree in French from Cornell University in 1958 and his master's degree in general linguistics from Indiana University in 1960. While at Indiana University, he began to study Slavic with the person who became his mentor and friend, Professor Edward Stankiewicz. When Professor Stankiewicz moved to the University of Chicago, Kenneth Naylor went with him. He spent a year studying at the University of Novi Sad in Yugoslavia with the renowned Yugoslav linguist Pavle Ivic. After returning to Chicago he finished his doctorate in Slavic linguistics in 1966. His dissertation was on the Cakavian dialect of Serbo-Croatian, and Serbo-Croatian linguistics remained in the center of his scholarly activity for the rest of his life.
